Attachment(s): "Storey County Tax Status File 09022022.txt"

I know you are conferencing, but I was hoping to maybe get a little direction on how to generate the Tax Status report to txt file for CoreLogic? I believe Brian is gone for the day as I have left emails and tried calling, and Mabel is hot to get this today.
Sorry for my urgency and bother.

Customer Notification: Cast Vote Selections

Dominion is aware that many customers are receiving requests to provide access to election records or results reports which identify cast vote selections. While definitions and requirements can vary widely, this general guidance is designed to help support customers in identifying the best way to respond to such requests, in consultation with your legal advisors.

It is important to follow any state or local requirements guiding public access to and release of cast vote records ("CVRs"), including paper ballots or ballot images.

As a best practice, paper ballots that are being released for public inspection should be shuffled to preserve voter secrecy.

If releasing electronic CVRs, be sure to follow any state or local requirements where data redactions or regenerations may apply in order to help preserve voter secrecy. Customers should consult their legal advisors for guidance on how best to ensure such protections are applied, particularly if simultaneously releasing any record (ie. video) that could reveal a voter's identity in the order in which they cast their ballot.

As a best practice, CVR data that is being released for public inspection should follow state and local laws to preserve voter secrecy. Customers should consult their legal advisors for guidance on how best to ensure such protections are applied, particularly if simultaneously releasing any record (ie. video) that could reveal a voter's identity in the order in which they cast their ballot.

UPDATE: A researcher who has been granted extensive access to the Dominion 5.5A system has claimed to have a method by which to reveal how Democracy Suite scrambles Cast Vote images as they are saved. Following the information described in this advisory mitigates any potential risk that may result as part of any such disclosure. For customers using platforms other than a 5.5 certified system, please reach out to your Dominion Customer Service representative with any questions.

I have the deposit packets, one of them is fairly large, one is medium sized. Do you want me to send them? Or do you want to come look at them?

One packet GLPKT00547 5/31/22, Heather says is actually from 2019 and in offsite storage. Did you maybe put the number down wrong? Or do you want them to retrieve it from offsite storage?

Stacy – attached is the Storey County 13.1 EV Week 2 report. Will also upload this to Ipswitch.

For your information: the “Digital Ballots Received” summary at the bottom of the page reflect EASE ballots we’ve received and this sub-total is included in the preceding “Mail Ballots” total we reported on the page. If you don’t want it broken out like this, let us know and we’ll amend.

In general EV went well and we had a good turn-out. Now on to the Main Event!

Cheers!

Heather,

Please see the corrected versions of the Early Voting Turnout Report and the Election Day Turnout report. The report you sent to me yesterday does not include the “other” column in the totals. This version is also on IP Switch in the Election Reporting template 13.1 Early Voting Turnout Report folder. Please complete the attached Early Voting Turnout report and return to me by noon today. I apologize for the inconvenience.

Thank you.

Hello Karen,

I would not look more into the draft than what it is. It is very possible that I overlooked your requests. I get around 200 emails per day, and I likely missed them. I simply format and make some changes to these to match our intended message. I have done the same for years, including before you began working on these. I then run them by everyone who spoke for a review and comment. There are always comments, and there have always been comments – especially back when we had the Covid HHS updates. I do not see anyone potentially seeing error in these drafts, including where there are highlights or question marks. This is simply a collaborative effort, and certainly no fault of you or anyone else. I hope that you are okay with this. I will also pay a bit closer attention to my emails and texts for questions that you may have. Feel free to call me anytime if you want to chat about this. Thank you for putting these together. This is a huge help!

Happy Thanksgiving too Karen.
Thanks you, Austin

Austin,

I am a little hurt by this. I have asked you for input several times regarding the eblast, and have not received any.

Yes, I missed including the time on the tree lighting. But for the parade times, I called the VCTC to get more information and no one answered my voice mail. Often I have to call the appropriate department to find out times, dates etc., when they were not clear on the tape. I don't always get a prompt response.

I apologize for my mistakes.

How the Law Protects Voters and Election Workers

Spurred by the myth of a “stolen” 2020 election, there is an increased risk of voter and election worker intimidation this year. However, the law makes clear that intimidating or harassing voters or election workers is illegal.

From armed volunteers staking out drop boxes in Arizona to people in Colorado going door-to-door looking for evidence of voter fraud, there is mounting concern about Americans being able to freely exercise their right to vote. The Brennan Center’s new**series** details federal protections and focuses on 10 states where the risk of disruption is especially high based on the volume of false allegations and anti-voter activity. From state laws restricting guns at polling places to federal laws prohibiting a wide range of intimidating behaviors, our new resources cover the legal guardrails that**protect elections from disruption**.

Debunking Myths About Voting

Brennan Center experts have identified some of the most widespread false claims about who votes, mail ballots, vote counting, and more. Our new explainer lays out seven facts that debunk these rumors and demonstrate that **elections are secure and trustworthy**.

AMERICAN OVERSIGHT

The Justice Department Shouldn't Be a Political Weapon

Revelations from the congressional investigation of the January 6 insurrection show how close Donald Trump came to weaponizing the Justice Department to validate his false claim that the 2020 election was "stolen." The department's leadership ultimately resisted Trump's efforts, but we may not be so lucky next time. Congress must pass reforms to ensure that future presidents can't use the Department of Justice to**thwart democracy**.

A Setback in the Fight Against Private Prisons

Advocates have long pushed to end for-profit immigration detention centers, citing concerns about the welfare of people held in these facilities. Toward that end, California enacted legislation barring private firms from operating prisons and immigration detention centers in the state, but the law was blocked by a federal appeals court last month. The ruling is a blow to all states trying to move away from**for-profit immigrant detention in their jurisdictions**.

Candidates Fighting Election Denialists Have the Financial Edge

In a change from earlier this year, election denial candidates for governor and secretary of state are being significantly outraised — largely due to unprecedented spending by big donors to support candidates opposed to election denial. The newest installment in the Brennan Center's series tracking the financing of races for key election administration positions shows which candidates are dominating the money race in states that could be **pivotal battlegrounds in 2024**.

The Roadmap to the Count

Vote counting is far from over on election night. Instead, finalizing election results involves a multistep administrative process that takes place over the course of weeks. Our comprehensive guide explains what happens at 10 stages — from receiving ballots to verifying final results — and the safeguards that**ensure the count is accurate**.

A Missed Chance for Fair Maps

Congress failed to pass the Freedom to Vote: John R. Lewis Act earlier this year, which would have given voters powerful new tools to fight partisan gerrymandering. That failure will have consequences in the midterm battle for the House as Americans in 19 states will vote under maps presumed to be biased in favor of the party that drew them. It's a lesson that should be remembered next time there's an**opportunity for redistricting reform**.

STATE QUESTION NO. 1

Amendment to the *Nevada Constitution*

Senate Joint Resolution No. 8 of the 80th Session

CONDENSATION (Ballot Question)

Shall the *Nevada Constitution* be amended by adding a specific guarantee that equality of rights under the law shall not be denied or abridged by this State or any of its cities, counties, or other political subdivisions on account of race, color, creed, sex, sexual orientation, gender identity or expression, age, disability, ancestry, or national origin?

Yes ☐ No ☐

EXPLANATION & DIGEST

EXPLANATION—This ballot measure would add new language to the *Nevada Constitution* specifically guaranteeing that equality of rights under the law shall not be denied or abridged by the State or any of its cities, counties, or other political subdivisions based on race, color, creed, sex, sexual orientation, gender identity or expression, age, disability, ancestry, or national origin.

A "Yes" vote would amend the *Nevada Constitution* to add new language specifically guaranteeing that equality of rights under the law shall not be denied or abridged by the State or any of its cities, counties, or other political subdivisions based on race, color, creed, sex, sexual orientation, gender identity or expression, age, disability, ancestry, or national origin.

A "No" vote would not amend the *Nevada Constitution* to add new language specifically guaranteeing that equality of rights under the law shall not be denied or abridged by the State or any of its cities, counties, or other political subdivisions based on race, color, creed, sex, sexual orientation, gender identity or expression, age, disability, ancestry or national origin.

DIGEST—Existing federal and state constitutional and statutory provisions prohibit discrimination based on race, color, creed, sex, sexual orientation, gender identity or expression, age, disability, ancestry, or national origin in various manners. For example, the First Amendment to the *United States Constitution* prohibits discrimination based on creed or religion. (*Lee v. Weisman*, 505 U.S. 577, 590 (1992) (explaining that the government cannot violate "the central meaning of the Religion Clauses of the First Amendment, which is that all creeds must be tolerated and none favored."); *Trinity Lutheran Church of Columbia, Inc. v. Comer*, --- U.S. ---, 137 S. Ct. 2012, 2019-21 (2017) (explaining that the First Amendment prohibits laws that discriminate against or impose unequal treatment on persons based on creed or religion))

The Equal Protection Clause of the Fourteenth Amendment to the *U.S. Constitution* also prohibits states and local governments from denying "to any person within its jurisdiction the equal protection of the law." Equal protection requirements apply to the federal government through the Due Process Clause of the Fifth Amendment to the *U.S. Constitution*. The U.S. Supreme Court has interpreted the Equal Protection Clause as not requiring the government to treat every person the same, but instead as requiring the government to treat persons who are in similar conditions or circumstances, or "similarly situated," in the same way. (*City of Cleburne v. Cleburne Living Ctr.*, 473 U.S. 432, 439 (1985))

For the purposes of the federal Equal Protection Clause, the U.S. Supreme Court has developed a three-tiered test that courts apply to determine whether a law that imposes a burden upon or provides a benefit to one class of

AMERICAN OVERSIGHT

persons to the exclusion of others is valid. Depending on the classification involved, courts apply tests known as strict scrutiny, intermediate scrutiny, or rational basis scrutiny to analyze the government's justification for the classification. (*City of Cleburne v. Cleburne Living Ctr.*, 473 U.S. 432, 439-41 (1985); *Rico v. Rodriguez*, 121 Nev. 695, 703 (2005)) The Nevada Supreme Court also applies those tests to equal protection challenges to the validity of laws under the *Nevada Constitution*. (*Rico v. Rodriguez*, 121 Nev. 695, 703 (2005)) Under the three-tiered analysis, courts apply the strict scrutiny test to laws that classify persons by race, national origin, religion, or alienage or that infringe upon certain fundamental rights. The strict scrutiny test requires the government to prove that the classification is narrowly tailored to serve a compelling government interest. (*Parents Involved in Cmty. Sch. v. Seattle Sch. Dist. No. 1*, 551 U.S. 701, 720 (2007); *Tarango v. State Indus. Ins. Sys.*, 117 Nev. 444, 454 (2001)) Courts apply the intermediate scrutiny test to laws that classify persons by gender or their status as having been born out of wedlock. The intermediate scrutiny test requires the government to prove that the classification has a substantial relationship to an important government interest. (*United States v. Virginia*, 518 U.S. 515, 532-33 (1996); *Olson v. State*, 95 Nev. 1, 3 (1979)) For all other classifications, courts typically apply scrutiny under a rational basis test which only requires the government to demonstrate that the classification is rationally related to a legitimate government interest. (*City of Cleburne v. Cleburne Living Ctr.*, 473 U.S. 432, 440 (1985); *Rico v. Rodriguez*, 121 Nev. 695, 703 (2005))

Although not certified as part of the *U.S. Constitution*, a proposed amendment is currently pending to the *U.S. Constitution*, which states that "[e]quality of rights under the law shall not be denied or abridged by the United States or by any state on account of sex." This federal Equal Rights Amendment was passed by a two-thirds majority of Congress in 1973 and ratified by three-fourths of the states in 2020. However, the National Archivist has not certified the federal Equal Rights Amendment as part of the *U.S. Constitution* pursuant to 1 U.S.C. § 106b as a result of several unresolved legal issues regarding the ratification process that are subject to ongoing litigation, including the expiration of ratification deadlines set by Congress and the passage in several states of legislative measures intended to rescind prior ratifications by those states. (*Virginia v. Ferriero*, 525 F. Supp. 3d 36 (D.D.C. 2021), *appeal docketed sub nom. Illinois v. Ferriero*, No. 21-5096 (D.C. Cir. May 7, 2021)) Although Nevada voters rejected ratification of the federal Equal Rights Amendment in an advisory question at the 1978 General Election, the Nevada Legislature ratified the Amendment in 2017. (*Senate Joint Resolution No. 2*, File No. 13, 79th Session)

Existing federal statutes also prohibit discrimination based on the classifications enumerated in this ballot measure in various manners. For example, the Religious Freedom Restoration Act of 1993 prohibits the federal government from substantially burdening the exercise of religion. (42 U.S.C. §§ 2000bb et seq.) With respect to employment, Title VII of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000e et seq.), the Equal Pay Act of 1963 (29 U.S.C. § 206(d)), the Age Discrimination in Employment Act of 1967 (29 U.S.C. §§ 621-634), section 501 of the Rehabilitation Act of 1973 (29 U.S.C. § 791) and Titles I and V of the Americans with Disabilities Act of 1990 (42 U.S.C. §§ 12101 et seq.) prohibit discrimination in employment based on race, color, religion, sex (including sexual orientation, gender identity, and pregnancy), age (40 years or older), disability, ancestry, or national origin. Title IX of the Education Amendments of 1972 (20 U.S.C. §§ 1681 et seq.) prohibits discrimination on the basis of sex in educational programs and activities that receive federal funding. Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§ 3601-3609), known as the Fair Housing Act, prohibits housing discrimination based on race, color, national origin, religion, sex (including gender, gender identity, sexual orientation, and sexual harassment), familial status, or disability. Title II of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000a et seq.) prohibits discrimination on the basis of race, color, religion, or national origin in places of public accommodation. Title VI of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000d et seq.) prohibits discrimination on the basis of race, color, or national origin in programs or activities that receive federal funding. These laws are a nonexhaustive listing of the federal laws that prohibit discrimination based on certain classifications.

The *Nevada Constitution* also prohibits discrimination based on the classifications enumerated in this ballot measure in various manners. For example, Section 4 of Article 1 of the *Nevada Constitution* guarantees the free

AMERICAN OVERSIGHT

exercise of religion. In addition, the Nevada Supreme Court has interpreted the requirement in Section 21 of Article 4 of the *Nevada Constitution* that "all laws shall be general and of uniform application throughout the State" to be coextensive with the guarantees of the Equal Protection Clause of the Fourteenth Amendment to the *U.S. Constitution*. (*Laakonen v. District Court*, 91 Nev. 506, 508 (1975)) Furthermore, the U.S. Supreme Court has held that states are free to provide additional constitutional protections beyond those provided by the *U.S. Constitution*. (*California v. Ramos*, 463 U.S. 992, 1014 (1983))

Existing Nevada statutory law also prohibits discrimination based on the classifications enumerated in this ballot measure in various manners. For example, these statutory prohibitions against discrimination apply to juvenile rights, eligibility for certain grants, housing assistance, college admission standards, gaming regulations, employment practices, eligibility for apprenticeships, and places of public accommodation. (*See, for example, Nevada Revised Statutes* (NRS) 62B.510, 217.420, 274.140, 281.370, 284.150, 288.270, 319.060, 338.125, 396.530, 463.151, 463.4076, 610.020, 610.150, 613.330, and 651.070.) These laws are a nonexhaustive listing of Nevada statutory laws that prohibit discrimination based on certain classifications.

This ballot measure proposes to amend the *Nevada Constitution* by adding a specific guarantee that equality of rights under the law shall not be denied or abridged by this State or any of its cities, counties, or other political subdivisions based on race, color, creed, sex, sexual orientation, gender identity or expression, age, disability, ancestry, or national origin.

ARGUMENTS FOR PASSAGE

Equality is a cornerstone of our democracy, but not everyone enjoys full equality. Historically, certain groups have been discriminated against because of their characteristics. One of the most effective ways to help ensure equality is to specifically include protections from discrimination in the *Nevada Constitution*, making them far more difficult to repeal, undermine, or overturn based on the political mood of the day. Approving Question 1 will establish an enduring commitment to equality for everyone.

Although some protection against discrimination exists in federal and state law, there are gaps in the existing legal patchwork that have resulted in unavailable or inadequate protection for certain classes of people, including instances of unequal pay for women and pregnancy discrimination. This ballot measure fills those gaps by providing comprehensive state constitutional guarantees of equal treatment under the law for the classifications of race, color, creed, sex, sexual orientation, gender identity or expression, age, disability, ancestry, and national origin.

Contrary to opponents' arguments, religion is one of the classifications protected by this ballot measure because courts interpret "creed" to have the same meaning as "religion." Therefore, by prohibiting discrimination based on a person's "creed," this ballot measure adds an additional layer of constitutional protection for our religious liberties.

Approving Question 1 will also improve outcomes for people in the protected classifications who have been discriminated against in Nevada by allowing our courts to apply a heightened level of scrutiny to laws or actions of the State or local governments that violate any of the protected classifications. This ballot measure will provide clear guidance to courts and lawmakers on Nevada's commitment to protect against discrimination and advance equality based on the unique text and history of Nevada's equal rights amendment.

Do not be misled by opponents' arguments about Question 1. Their arguments consist of unfounded speculation intended to distract from the clear goal of this ballot measure, which is to ensure equality. They argue that this ballot measure may be used to protect abortion rights, undermine women's sports by allowing male and transgender athletes to compete unfairly against women and girls in school sports, and challenge the traditional separation of men's and women's restrooms and locker rooms in government-owned facilities. First, Nevada law

AMERICAN OVERSIGHT

already guarantees the right to an abortion, and this ballot measure will not change that right. Second, this ballot measure will not remove the State's ability to ensure competitive balance in school sports. Finally, it will not prevent the traditional separation of men's and women's restrooms and locker rooms in government-owned facilities, such as public schools, universities, and colleges.

This ballot measure will not diminish the rights of some people at the expense of others but, instead, will advance equality for all by filling the gaps in existing protections. Additionally, this ballot measure will not eliminate the authority of the State and local governments to protect classifications of people, including children and other vulnerable populations, who have always been entitled to such protections. Governmental entities will still be able to pass laws or take actions to protect classifications of people but will have to honor Nevada's constitutional commitment to equality when doing so.

Everyone deserves to be treated equally under the law. Vote "Yes" on Question 1.

ARGUMENTS AGAINST PASSAGE

Proponents fail to acknowledge the impact Question 1 may have on individual liberties and safety. They state that this ballot measure will protect against religious discrimination based on a person's "creed" or religion. But they fail to explain how this ballot measure can give new constitutional protections to classifications such as sex, sexual orientation, and gender identity or expression and, at the same time, actually protect the religious liberties of individuals who hold traditional views on marriage and gender and want to live according to those values.

Question 1 may also be used by proponents to support access to abortion. Already, the highest courts in some states have interpreted their constitutional equal rights provisions to mandate taxpayer funding of medically necessary abortions through Medicaid. If Question 1 is approved, proponents may use this ballot measure as a basis to demand taxpayer funding of abortions in Nevada. And if the U.S. Supreme Court overturns *Roe v. Wade*, proponents may use this ballot measure as a basis to claim abortion rights in Nevada despite the Supreme Court's decision.

Further, Question 1 may be used by biological males and transgender athletes as a basis to undermine women's sports by demanding equal rights that allow them to compete unfairly against women and girls in school sports and for athletic scholarships. Question 1 may also be used to challenge the traditional separation of men's and women's restrooms and locker rooms in government-owned facilities, such as public schools, universities, and colleges, potentially allowing biological men and women in each other's restrooms and locker rooms and threatening everyone's personal safety and privacy.

In 1978, Nevadans overwhelmingly voted against the proposed Equal Rights Amendment to the *U.S. Constitution*, which was limited to protecting against discrimination on account of sex. If passed, Question 1 would dramatically expand the equal rights protected specifically in the *Nevada Constitution* beyond sex to include a total of ten classifications. However, this ballot measure contains no provisions to guide courts in resolving conflicts among the protections provided to all of these classifications. For instance, there is no way to know how courts would resolve challenges to existing age-based laws regarding sexual consent, child endangerment, and parental consent and notification, some of which involve classifications based on both age and sex. No other state has implemented such a broad and legally untested constitutional provision protecting equal rights, and Nevada should not be the first state to do so.

Enshrining such broad and untested equal rights language into the *Nevada Constitution* will make it difficult to fix its inevitable unintended consequences. Approval of Question 1 will result in a flood of litigation, clogging our court system because of its vague and expansive language. Further, because Question 1 cements this language

AMERICAN OVERSIGHT

into the *Nevada Constitution*, it will require another lengthy constitutional amendment process to undo its negative effects.

This ballot measure is harmful and misguided. Vote "No" on Question 1.

FISCAL NOTE

Financial Impact—Cannot be Determined

If approved, Question 1 would amend the *Nevada Constitution* to specify that equality of rights under the law shall not be denied or abridged by this State or any of its cities, counties, or other political subdivisions on account of race, color, creed, sex, sexual orientation, gender identity or expression, age, disability, ancestry, or national origin. It is not anticipated that passage of this ballot measure would result in immediate increases in expenditures for the State or local governments. However, it is not possible to predict whether the future application of Question 1 will require additional fiscal resources by the State or local governments. Therefore, any potential financial impacts on the State or local governments relating to the application of Question 1 cannot be determined with any reasonable degree of certainty.

STATE QUESTION NO. 2

Amendment to the *Nevada Constitution*

Assembly Joint Resolution No. 10 of the 80th Session

CONDENSATION (Ballot Question)

Shall the *Nevada Constitution* be amended, effective July 1, 2024, to: (1) establish the State's minimum wage that employers must pay to certain employees at a rate of $12 per hour worked, subject to any applicable increases above that $12 rate provided by federal law or enacted by the Nevada Legislature; (2) remove the existing provisions setting different rates for the minimum wage based on whether the employer offers certain health benefits to such employees; and (3) remove the existing provisions for adjusting the minimum wage based on applicable increases in the cost of living?

Yes ☐ No ☐

EXPLANATION & DIGEST

EXPLANATION—This ballot measure amends the *Nevada Constitution* to require that, beginning July 1, 2024, each employer must pay each employee to whom the minimum wage requirements apply (referred to as a "nonexempt employee") a minimum wage of not less than $12 per hour worked, subject to any applicable increases above $12 per hour worked provided by federal law or enacted by the Legislature.

This ballot measure further removes from the *Nevada Constitution*, effective July 1, 2024, the existing provisions allowing an employer that offers certain health benefits to nonexempt employees to pay a minimum wage of $1 per hour less than an employer that does not offer such health benefits to nonexempt employees.

This ballot measure also removes from the *Nevada Constitution*, effective July 1, 2024, the existing provisions adjusting the State's minimum wage rates based on the greater of certain increases in the federal minimum wage

AMERICAN OVERSIGHT

or certain increases in the cost of living measured by percentage increases in the Consumer Price Index (CPI), with caps on the cost-of-living increases for the adjusted rates. However, this ballot measure requires the State's minimum wage to be increased based on applicable increases in the federal minimum wage, providing that if, at any time, the federal minimum wage is greater than $12 per hour worked, the State's minimum wage is increased to the amount established for the federal minimum wage, unless the Legislature establishes, by state statute, a minimum wage that is greater than the federal minimum wage as permitted by federal law.

This ballot measure additionally expresses in the *Nevada Constitution* the existing authority of the Legislature to establish, by state statute, a minimum wage that is greater than the minimum hourly rate required by the *Nevada Constitution*.

If approved by the voters, this ballot measure supersedes any conflicting provisions in the State's existing minimum wage statutes which, on July 1, 2024, require an employer to pay a minimum wage of $11 per hour worked, if the employer offers certain health benefits to nonexempt employees, or $12 per hour worked, if the employer does not offer such health benefits to nonexempt employees, unless the Legislature amends those existing statutes to conform to this ballot measure before that date.

A "Yes" vote would, effective July 1, 2024: (1) add provisions in the *Nevada Constitution* establishing the State's minimum wage that employers must pay to nonexempt employees at a rate of $12 per hour worked, subject to any applicable increases above that $12 rate provided by federal law or enacted by the Legislature; (2) remove the existing provisions in the *Nevada Constitution* setting different rates for the minimum wage based on whether the employer offers certain health benefits to such employees; and (3) remove the existing provisions in the *Nevada Constitution* for adjusting the minimum wage based on applicable increases in the cost of living, with caps on the cost-of-living increases for the adjusted rates.

A "No" vote would: (1) keep the State's existing minimum wage, subject to any applicable increases or decreases provided by federal law or enacted by the Legislature; (2) keep the existing provisions in the *Nevada Constitution* setting different rates for the minimum wage based on whether the employer offers certain health benefits to nonexempt employees; and (3) keep the existing provisions in the *Nevada Constitution* for adjusting the minimum wage based on the greater of applicable increases in the federal minimum wage or applicable increases in the cost of living, with caps on the cost-of-living increases for the adjusted rates.

DIGEST—The federal Fair Labor Standards Act (FLSA) requires employers to pay nonexempt employees a prescribed minimum wage for each hour of work. (29 U.S.C. § 206) However, the FLSA expressly authorizes states to establish a minimum wage which is higher than the minimum wage required under federal law. (29 U.S.C. § 218) If a nonexempt employee is subject to both the federal and state minimum wage laws, the employee is entitled to the higher of the two minimum wages. (29 U.S.C. § 218)

At the 2006 General Election, Nevada voters amended the *Nevada Constitution* to establish a two-tier minimum wage system whereby an employer that offers certain health benefits to nonexempt employees may pay a minimum wage of $1 per hour less than an employer that does not offer such health benefits to nonexempt employees. The 2006 amendment to the *Nevada Constitution* required: (1) an employer to pay a minimum wage rate of $5.15 per hour worked, if the employer offers certain health benefits to nonexempt employees, or a minimum wage rate of $6.15 per hour worked, if the employer does not offer such health benefits to nonexempt employees; and (2) both minimum wage rates to be adjusted by the amount of any increase in the federal minimum wage over $5.15 per hour or, if greater, by the cumulative increase in the cost of living measured by percentage increases in the CPI, except that the CPI adjustment for any one-year period cannot exceed 3 percent. To offer

AMERICAN OVERSIGHT

health benefits for purposes of the 2006 amendment, an employer must make health insurance available to the employee for the employee and the employee's dependents at a total cost to the employee for premiums of not more than 10 percent of the employee's gross taxable income from the employer. (Nev. Const. Art. 15, §16)

Because federal law authorizes a state to establish a higher minimum wage than the federal minimum wage and nothing in the *Nevada Constitution* prohibits or limits the Legislature's authority to do so, the Legislature established the following minimum wage rates, effective July 1, 2019: (1) $7.25 per hour worked, if the employer offered certain health benefits to nonexempt employees; or (2) $8.25 per hour worked, if the employer did not offer such health benefits to nonexempt employees. The Legislature also provided for increases to these minimum wage rates of 75 cents per fiscal year for the next five fiscal years. Beginning July 1, 2024, unless amended by the Legislature before that date, the minimum wage rates established in existing statute will be $11 per hour worked, if the employer offers certain health benefits to nonexempt employees, or $12 per hour worked, if the employer does not offer such health benefits to nonexempt employees. (NRS 608.250)

This ballot measure amends the *Nevada Constitution*, effective July 1, 2024, to require an employer to pay nonexempt employees a minimum wage of $12 per hour worked, subject to any applicable increases above $12 per hour worked provided by federal law or enacted by the Legislature. This ballot measure also eliminates the two-tiered minimum wage system that is based on whether the employer offers certain health benefits to nonexempt employees. Because the State's existing statutory rates for the minimum wage are based on that two-tiered system, this ballot measure supersedes any conflicting statutory rates beginning on July 1, 2024, unless the Legislature amends such rates to conform to this ballot measure before that date. Therefore, this ballot measure requires an employer, effective July 1, 2024, to pay nonexempt employees a minimum wage of $12 per hour worked, regardless of whether the employer offers certain health benefits to those nonexempt employees, subject to any applicable increases in the minimum wage above $12 per hour worked provided by federal law or enacted by the Legislature.

This ballot measure also removes from the *Nevada Constitution*, effective July 1, 2024, the existing provisions for adjusting the minimum wage based on the greater of applicable increases in the federal minimum wage or applicable increases in the cost of living, with caps on the cost-of-living increases for the adjusted rates. However, this ballot measure provides that if, at any time, the federal minimum wage is greater than $12 per hour worked, the State's minimum wage is increased to the amount established for the federal minimum wage, unless the Legislature establishes, by state statute, a minimum wage that is greater than the federal minimum wage as permitted by federal law.

Finally, this ballot measure expresses in the *Nevada Constitution* the existing authority of the Legislature to establish, by state statute, a minimum wage that is greater than the minimum hourly rate required by the *Nevada Constitution*.

ARGUMENTS FOR PASSAGE

Nevada's workers deserve a constitutionally guaranteed increase in the minimum wage. Approval of Question 2 will ensure that effective July 1, 2024, workers will be paid a minimum wage of $12 per hour, which cannot be decreased by the Legislature but only increased above the $12 per hour rate. Even though the Legislature passed a law in 2019 requiring annual increases in the minimum wage through July 1, 2024, any future Legislature may change that law and potentially lower the minimum wage. This ballot measure will constitutionally guarantee that Nevada's minimum wage cannot be lowered below $12 per hour based on the political mood of the day.

AMERICAN OVERSIGHT

Approval of Question 2 will also eliminate the outdated and ineffective method for making cost-of-living adjustments in the minimum wage currently in the *Nevada Constitution*. Even though the *Nevada Constitution* currently provides for an annual adjustment in the minimum wage to compensate for certain increases in the cost of living, those annual adjustments are capped, and they have never kept up with the true cost of living for Nevada's workers. In fact, it will take over a decade after July 1, 2024, for the cost-of-living adjustments currently provided by the *Nevada Constitution* to exceed the $12 per hour minimum wage guaranteed by Question 2. Nevada's workers should not have to wait for more than a decade for a constitutionally guaranteed minimum wage of $12 per hour.

Finally, approval of Question 2 will eliminate the outdated and ineffective two-tiered minimum wage system currently in the *Nevada Constitution* that allows employers to lower their minimum wage by $1 per hour just for offering certain health benefits to employees and their dependents, even when the employees reject the health benefits being offered. Nevada's workers should not be penalized with a lower minimum wage solely because their employers offer certain health benefits, especially when those health benefits are rejected because workers can secure better or more cost-effective health benefits from alternative sources, such as a health insurance exchange. Nevada is the only state to have such a complicated and unfair two-tiered minimum wage system. It is time to eliminate that undesirable system from the *Nevada Constitution* and constitutionally guarantee a minimum wage of $12 per hour for Nevada's workers, regardless of whether their employers offer any health benefits.

It is time to update the minimum wage to better serve Nevadans. Vote "Yes" on Question 2.

ARGUMENTS AGAINST PASSAGE

Question 2 is an unnecessary change to the *Nevada Constitution* because the Legislature already has the authority to enact statutory increases in the minimum wage, and it has done so. In 2019, after receiving input from both workers and employers, the Legislature passed a law requiring annual increases in the minimum wage through July 1, 2024, when the statutory minimum wage will be set at $11 per hour, if the employer offers certain health benefits, or $12 per hour, if the employer does not offer certain health benefits. There is no need to establish the minimum wage at $12 per hour in the *Nevada Constitution* when the Legislature already has enacted an increased statutory minimum wage and has the authority to enact additional increases in the statutory minimum wage above the $12 per hour proposed by Question 2.

Approval of Question 2 will also harm Nevada's workers because it sets the minimum wage at $12 per hour in the *Nevada Constitution* without providing any method for making cost-of-living adjustments in the minimum wage as currently provided by the *Nevada Constitution*. Although the Legislature has established the statutory minimum wage at a higher rate than currently required by the *Nevada Constitution*, the existing method in the *Nevada Constitution* for making cost-of-living adjustments in the minimum wage ensures that the minimum wage will eventually increase above $12 per hour given that increases in the cost of living will continue to occur. Because this ballot measure will remove the existing method for making cost-of-living adjustments from the *Nevada Constitution* and will not require any form of cost-of-living adjustments in the minimum wage, approval of Question 2 will harm Nevada's workers by removing an important constitutional safeguard against the ever-increasing cost of living for Nevada's workers.

Finally, approval of Question 2 will harm Nevada's workers and employers by removing the existing incentive in the *Nevada Constitution* that encourages employers to offer certain health benefits to employees and their dependents in exchange for lowering the employees' minimum wage by $1 per hour. Because health benefits offered by employers may be the best source of affordable health benefits for some employees and their dependents, the existing incentive in the *Nevada Constitution* encourages employers to continue offering those

AMERICAN OVERSIGHT

benefits to employees and their dependents, thereby ensuring access to affordable health care. Because this ballot measure will remove the existing incentive from the *Nevada Constitution* and discourage employers from continuing to offer such health benefits, approval of Question 2 will harm the employers that have relied on the existing incentive to conduct their businesses, along with the employees who have relied on the health benefits to cover themselves and their dependents.

Question 2 is an unnecessary change to the *Nevada Constitution* that will harm Nevada's workers and employers. Vote "No" on Question 2.

FISCAL NOTE

Financial Impact—Cannot be Determined

Under the current constitutional and statutory provisions for the State's minimum wage, employers, including the State and local governments, are required to pay nonexempt employees, effective July 1, 2024, a minimum wage rate of $11 per hour, if certain health benefits are offered, or $12 per hour, if certain health benefits are not offered. The provisions of Question 2 would replace these existing provisions with a constitutional requirement that employers, including the State and local governments, pay nonexempt employees, effective July 1, 2024, a minimum wage rate of $12 per hour, regardless of whether the employers offered certain health benefits to employees and their dependents.

The provisions of this ballot measure would directly affect only those employers, including the State and local governments, that would be paying nonexempt employees on July 1, 2024, less than $12 per hour under the existing statutory minimum wage because those employers offered certain health benefits to employees and their dependents. It is unknown whether any employers, including the State and local governments, would be paying any nonexempt employees on July 1, 2024, less than $12 per hour under the existing statutory minimum wage and, thereafter, would be required to pay the $12 per hour minimum wage if the provisions of Question 2 become effective.

Additionally, it is unknown what impact, if any, there may be on the wages paid by employers, including the State and local governments, to employees who are not directly affected by the minimum wage provisions of Question 2. It is also unknown what impact, if any, may result to the health benefits offered or provided by employers based on the elimination of the existing constitutional provisions allowing a $1 lower minimum wage if employers offered certain health benefits to employees and their dependents.

Thus, if Question 2 is approved, the fiscal impact on the State and local governments related to any wages and health benefits that will be provided to nonexempt employees on or after July 1, 2024, cannot be determined with any reasonable degree of certainty. Additionally, it is not possible to predict the impact, if any, that Question 2 would have on the wages that employers, other than the State and local governments, will pay to their nonexempt employees on or after July 1, 2024, or on the health benefits that these employees may or may not obtain on or after July 1, 2024. Therefore, the impact, if any, that Question 2 would have on certain taxes deposited in the State General Fund cannot be determined with any reasonable degree of certainty, including: (1) the Modified Business Tax, which is paid by an employer based on the amount of quarterly wages, less allowable health care expenses, paid to employees; and (2) the Insurance Premium Tax, which is paid by insurance companies based on the total net premiums written in this State.

AMERICAN OVERSIGHT

FULL TEXT OF THE MEASURE

ASSEMBLY JOINT RESOLUTION—Proposing to amend the Nevada Constitution to prospectively increase the required minimum wage paid to employees.

Legislative Counsel's Digest:

Section 16 of Article 15 of the Nevada Constitution requires private employers to pay a minimum wage of $5.15 per hour if the employer provides certain health benefits to employees or $6.15 per hour if the employer does not provide such health benefits to employees. The Constitution also requires the minimum wage to be adjusted each year by the amount of any increase in the federal minimum wage over $5.15 per hour or, if greater, by the cumulative increase in the cost of living measured by the Consumer Price Index (CPI), except that the CPI adjustment for any 1-year period cannot exceed 3 percent. (Nev. Const. Art. 15, §16) This joint resolution proposes to amend the Nevada Constitution to instead set the minimum wage at $12 per hour worked beginning July 1, 2024, regardless of whether the employer provides health benefits to employees. In addition, this joint resolution removes the annual adjustment to the minimum wage and instead provides that if at any time the federal minimum wage is greater than $12 per hour worked, the minimum wage is increased to the amount established for the federal minimum wage. In addition, this joint resolution allows the Legislature to establish a minimum wage that is greater than the hourly rate set forth in the Constitution.

STATE QUESTION NO. 3

Amendment to the *Nevada Constitution*

CONDENSATION (Ballot Question)

Shall the *Nevada Constitution* be amended to allow all Nevada voters the right to participate in open primary elections to choose candidates for the general election in which all voters may then rank the remaining candidates by preference for the offices of U.S. Senators, U.S. Representatives, Governor, Lieutenant Governor, Secretary of State, State Treasurer, State Controller, Attorney General, and State Legislators?

Yes ☐ No ☐

EXPLANATION & DIGEST

EXPLANATION— This initiative, if enacted, changes Articles 5 and 15 of Nevada's Constitution for U.S. Congressional, Governor, Lieutenant Governor, Secretary of State, State Treasurer, State Controller,

AMERICAN OVERSIGHT

Attorney General, and State Legislator elections, eliminating partisan primaries and establishing an open top-five primary election and a ranked-choice voting general election.

For these offices, all candidates and voters participate in a single primary election regardless of party affiliation or non-affiliation. The top five finishers advance to the general election, and the general election winner is determined by ranked-choice voting:

- General election voters will rank the candidates in order of preference from first to last, if they wish to rank more than just their first preference.
- As currently provided for during certain primary races, a general election candidate receiving first-choice votes of more than 50% is declared winner.
- If no candidate is the first choice of more than 50% of the voters in the general election, the candidate with the fewest votes is eliminated. Each voter who had ranked the now-eliminated candidate as their first choice, has their single vote transferred to their next highest choice candidate.
- This tabulation process repeats until the one candidate with more than 50% support is determined as the winner.

If passed, the Legislature would need to adopt implementing legislation by July 1, 2025. These changes would go into effect for the 2026 election cycle, starting with the primary election in June 2026.

A "Yes" vote would amend Articles 5 & 15 of the *Nevada Constitution* to allow all Nevada voters the right to participate in open primary elections to choose candidates for the general election in which all voters may then rank the remaining candidates by preference for the offices of U.S. Senators, U.S. Representatives, Governor, Lieutenant Governor, Secretary of State, State Treasurer, State Controller, Attorney General, and State Legislators.

A "No" vote would retain the provisions of Articles 5 & 15 of the *Nevada Constitution* in their current form.

DIGEST—Under current law, Nevada primary elections are closed elections in which the "candidates for partisan office of a major political party and candidates for nonpartisan office must be nominated at the primary election by a vote of the voters registered to each respective major political party" (NRS 293.175). Only registered voters of a major political party may take part in the selection of the candidates for a major political party for the general election during a primary election. Voters registered to a minor party or not affiliated with a party may only vote for nonpartisan contests during a primary election.

Article 15, section 14 of the *Nevada Constitution* currently provides that a plurality of votes given at an election by the people, shall constitute a choice. This means that the candidate who receives the majority of the votes, regardless of whether or not it is a majority (more than 50%) of the votes cast, is identified as the winner of that contest.

If approved by the voters, this ballot measure would return on the ballot of the general election in 2024. If passed then as well, it would amend the *Nevada Constitution* to change the primary election so that all voters, regardless of their party affiliation, would be able to cast votes for all candidates. This would change the primary election from a means for major political parties to identify their candidate for the general election and make it instead a means to simply reduce the total number of candidates whose names will appear on the ballot at the general election for partisan office. Under this change, no more than five candidates shall advance to the ballot of the general election for partisan office.

AMERICAN OVERSIGHT

This ballot measure would also change the manner of selection for the offices of U.S. Senators, U.S. Representatives, Governor, Lieutenant Governor, Secretary of State, State Treasurer, State Controller, Attorney General, and State Legislators such that the voters would be able to rank their candidates by preference in the general election. The changes identified in this ballot measure would not apply to the office of President or Vice-President of the United States. Under this new system, voters would be able to list, or rank, the candidates of their choice by preference, identifying on their ballot up to five candidates for each partisan contest in their order of preference. Votes would be tabulated in a manner that determines if a candidate is highest-ranked on a majority of the active ballots, then that candidate is deemed elected and the tabulation is complete. If no candidate is highest-ranked on a majority of the active ballots, tabulation would proceed in sequential rounds as outlined in Section 7 of the proposed constitutional amendment until the candidate with a majority of the votes is declared winner.

Under existing law, ballots for statewide office must include an option for voters to select "None of These Candidates" (NRS 293.269). Under the proposed changes, any votes for "None of These Candidates" shall be tabulated, recorded, and made public, but would not be counted for the purpose of electing or ranking any candidates for partisan office.

Finally, this ballot measure requires that the legislature create or modify existing statutes by July 1, 2025 in order to effect the implementation of these changes to the *Nevada Constitution*.

ARGUMENTS FOR PASSAGE

The current partisan election process is not working for Nevada. Current law excludes over one third of all Nevada voters from the taxpayer-funded partisan primary elections.[1] These closed partisan primaries are controlled by political party insiders and no citizen should be compelled to join a political party so as to vote.[2]

Despite being funded on the backs of all taxpayers[3], Nevada's partisan primaries are only open to Nevadans who register as Republican or Democrat.[4] This current system leaves out many voters and entitles a very small, partisan minority to determine the general election candidates.[5]

The closed partisan primary system leaves many feeling like their voices don't matter, and that their elected leaders only represent the most extreme party constituents.[6] Our leaders are often more concerned with angry partisan rhetoric rather than sensible policy making. Question 3 will greatly improve Nevada's election process, putting the power of elections where it belongs – in the hands of all voters, rather than the party establishment.[7]

Question 3 will give ALL Nevada voters the right to participate regardless of their party registration.[8] By creating an open primary, Question 3 allows all voters a voice in all those who appear on the general election ballot regardless of party affiliation.[9]

In addition to giving Nevadans more voice, Question 3 will also give voters more choice by establishing a Ranked-Choice general election system.[10] Ranked-Choice is a simple change to our general elections that allows voters the opportunity to rank up to five candidates who best represent their positions, rather than having to choose between the "lesser of two evils".[11] Nevadans will list the candidates in order of preference; however, ranking is not required, and voters can continue to simply vote for their top choice if they so choose.[12] The candidate who receives the broadest support from all voters will be the winner.[13] This simple change encourages candidates to focus on issues that matter to the majority rather than the partisan bases of the parties.[14]

Question 3 ensures that every Nevadan's voice is heard and that every vote matters, regardless of party registration, and makes elected officials more accountable to all Nevadans.[15]

AMERICAN OVERSIGHT

Vote YES and give Nevadans more choice and more voice in our elections.

REBUTTAL TO ARGUMENTS FOR PASSAGE

Question 3's jungle primary and confusing multi-stage general election proposal does nothing to address partisanship in Nevada's political process, and will likely make things worse.

Instead, this initiative will fundamentally damage the traditional conduct of our elections, and it could function to shut out parties entirely from running general election candidates in some races. In many districts, the only choices in November might be between candidates of the same party, or among fewer parties' candidates than currently.

In addition, if Question 3 passes, independent candidates not affiliated with the political parties would be prevented from launching a campaign in the general election, and would instead have to compete directly in expensive primaries against established party candidates. Nevadans need more quality voices and ideas in politics, but this initiative actually narrows voters' options.

Question 3's out-of-state special interest funders want to permanently lock this extreme change in our elections into our state Constitution, meaning this risky scheme would be nearly impossible to change or repeal, and the cost of future elections would increase.

This initiative's result will be more money in toxic political campaigns and thousands of votes thrown away because of confused voters, with no improvement in our political system.

AMERICAN OVERSIGHT

The above rebuttal was submitted by the Ballot Question Committee composed of citizens opposed to this question as provided for in NRS 293.252. Committee members: Emily Persaud-Zamora (Chair) and Eric Jeng. This rebuttal can also be found at www.nvsos.gov.

ARGUMENTS AGAINST PASSAGE

The changes to elections proposed by Question 3 do not put voters first. This initiative, funded by out-of-state millionaires and special interest groups, would completely overhaul elections in Nevada, making them more complicated and more time-consuming for voter participation.[1] It could cost Nevadans millions of taxpayer dollars to implement, and lock these changes into our state Constitution, making it nearly impossible to repeal if this scheme fails.[2]

"One person, one vote" is at the core of free and fair elections in America. Question 3 raises questions regarding whether it undermines that basic principle, and leaves some voters at risk of having votes ultimately not counted in the final tally.[3] For example, if a voter chooses to rank only one candidate, their ballot might be excluded from the final count – as if they didn't show up for the election at all. Meanwhile, voters who selected multiple candidates will have their votes counted multiple times. In 2021, more than 140,000 ballots in New York City were declared "inactive" before the final round of tabulation and no longer factored into the ultimate vote count – nearly 15% of all ballots cast.[4]

Ranked-choice voting is a complex process that results in up to five times as many ballots uncounted because of errors.[5] Currently, Nevada's voting process is straightforward: voters pick which candidate they support, and the candidate with the most votes wins. Ranked-choice voting makes casting ballots more confusing and tedious, and decreases participation in our elections.[6] In close races, it could take weeks to determine the winner, leading many voters to question the validity of the results.[7]

Question 3 would replace our traditional primary system with a California-style "jungle primary" system. This means candidates from a single political party can overwhelm the primary and shut out other political parties from even appearing on the November general election ballot. This is an extreme change that threatens the ability to have all viewpoints represented during a general election in Nevada.

Question 3 would enshrine a complicated, time-consuming, error-prone, and expensive new voting system into the Nevada Constitution. This constitutional change would be extremely difficult to repeal if the new system fails voters.

Our elections won't be better if Nevadans are left questioning whether their vote will be counted in final tallies. Voters in other states and municipalities have recently rejected ranked-choice voting.[8] We encourage our fellow Nevadans to vote no on Question 3.

The above argument was submitted by the Ballot Question Committee composed of citizens opposed to this question as provided for in NRS 293.252. Committee member: Emily Persaud-Zamora (Chair) and Eric Jeng. This rebuttal, with active hyperlinks, can also be found at www.nvsos.gov.

REBUTTAL TO ARGUMENTS AGAINST PASSAGE

The opposition statement above is filled with misleading claims. Political party bosses want to keep their power by stopping Question 3 – continuing to keep over 1/3 of voters from voting in Nevada's closed primaries.[1]

Question 3 guarantees every Nevadan the right to vote in primaries, maximizing the principle of one person one vote.[2] Question 3 promotes better governance because elected officials will be held accountable to the majority of Nevadans, not just partisan extremists.[3]

In the general election, Question 3 lets voters choose just one candidate or rank up to five in order of preference, giving voters more say and the winning candidate will be the one with broadest support of all voters.[4] No votes are uncounted or excluded. Millions of U.S. voters outside Nevada already have such a right, including many Military voters.[5]

Question 3 necessitates no greater delay in ballots being counted, as we already have mail voting.[6]

Maximizing the right to vote is hardly complicated. Citizens prioritize choices everyday. Prioritizing those candidates so that the winner is most reflective of the will of voters — as opposed to party bosses — is what matters.

Vote YES ON Question 3 – to help fix a broken system.

FISCAL NOTE

FINANCIAL IMPACT – YES

OVERVIEW

The Statewide Constitutional Initiative Petition – Identifier: C-01-2021 (Initiative) proposes to amend various sections of the *Nevada Constitution* to make the following changes to the state's election process:

1. All primary elections for partisan offices shall be held as open primaries.

AMERICAN OVERSIGHT

2. The five candidates receiving the most votes at the primary election shall advance to the general election, regardless of the candidate's party affiliation.
3. General elections for partisan offices, which include United States Senator, United States Representative, Governor, Lieutenant Governor, Attorney General, Secretary of State, State Treasurer, State Controller, and state legislators, but excludes the offices of President and Vice President of the United States, shall be conducted by a ranked-choice ballot.

FINANCIAL IMPACT OF THE INITIATIVE

Pursuant to Article 19, Section 2 of the *Nevada Constitution*, an initiative proposing to amend the *Nevada Constitution* must be approved by the voters at two successive general elections in order to become a part of the *Constitution*. If this Initiative is approved by voters at the November 2022 and November 2024 General Elections, the provisions of the Initiative would become effective on the fourth Tuesday of November 2024 (November 26, 2024), when the votes are canvassed by the Supreme Court pursuant to NRS 293.395.

The following provisions of the Initiative have been identified as having a potential financial impact upon the state and local governments:

1. The provisions of the Initiative requiring that all primary elections for partisan offices be held as open primaries will result in a single sample ballot being produced for all registered voters for each primary election, irrespective of party affiliation, rather than separate sample ballots for voters of each political party. Although these provisions will eliminate the need for local governments to prepare separate sample ballots for each major political party, the addition of all candidates for each partisan race to all ballots, regardless of party affiliation, may result in an increase in the number of pages required to print each sample ballot, thereby potentially increasing the costs borne by local governments to provide those sample ballots.

Because the number of candidates who may choose to run for each partisan office in future primary elections cannot be predicted, the size of the sample ballot sent to each registered voter, and the resultant financial impact upon local governments, cannot be determined with any reasonable degree of certainty.

2. The provisions of the Initiative requiring that the five candidates receiving the most votes at the primary election shall advance to the general election, regardless of the candidate's party affiliation, may also affect the number of candidates appearing on the sample ballot produced for registered voters at each general election and, therefore, may increase the number of pages required to print each sample ballot for registered voters at any general election held in this state.

Because the number of candidates who may choose to run for each office in future elections cannot be predicted, the potential increase to the size of the sample ballot that is sent to each registered voter before each general election, as well as the potential financial impact upon local governments that may result from these changes to the size of the sample ballot, cannot be determined with any reasonable degree of certainty.

3. The provisions that require general elections for certain partisan offices specified within the Initiative be conducted using a ranked-choice ballot will increase costs for the state and local governments, beginning with the general election that would be held in November 2026, if the Initiative is approved by voters at the November 2022 and November 2024 general elections.

In December 2021, the Secretary of State's Office provided information to the Fiscal Analysis Division relating to potential costs relating to the implementation of ranked-choice voting. This information, which was obtained with the cooperation of local governments, estimated one-time expenditures by the state and

AMERICAN OVERSIGHT

local governments of approximately $3.2 million beginning in FY 2025, prior to the November 2026 General Election, relating to voter outreach and education, increased ballot stock costs, personnel expenses, equipment, software and programming costs for voting machines, and updates to training materials.

The Secretary of State's Office additionally estimated ongoing expenditures relating to the implementation of ranked-choice voting of approximately $57,000 per fiscal year, relating to the payment of license fees to the vendors supplying election software to each of Nevada's seventeen counties. The information provided also indicated that there may be additional ongoing expenditures relating to increased ballot stock that would need to be used by the counties for each primary and general election, depending on the number of individuals who run for the offices of United States Senator, United States Representative, Governor, Lieutenant Governor, Attorney General, Secretary of State, State Treasurer, State Controller, and the State Legislature. However, because the number of individuals who may run for these offices in any given election cannot be predicted, the resultant impact upon ongoing expenditures for the state and local governments cannot be determined with any reasonable degree of certainty.

Based on the information provided by the Secretary of State's Office, in cooperation with affected local governments, the Fiscal Analysis Division has determined that the implementation of the Initiative will result in additional one-time and ongoing expenditures for the state and local governments following its effective date. However, the Secretary of State's estimates of these costs outlined in this financial impact statement were based on information available in December 2021. The Fiscal Analysis Division cannot easily estimate the costs associated with the implementation and administration of the Initiative beginning with the 2026 election cycle; therefore, the actual impacts upon one-time and ongoing expenditures that would be borne by the state and local governments in FY 2025 and future fiscal years cannot be determined with any reasonable degree of certainty.

Prepared by the Fiscal Analysis Division of the Legislative Counsel Bureau – May 20, 2022

6. ***The ballots for the primary elections for partisan office must include a conspicuously placed statement: "A candidate for partisan office may state a political party that he or she prefers. A candidate's preference does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate."***
7. ***In the event that one of the five candidates who received the greatest number of votes at the primary election withdraws, is disqualified, dies, or is otherwise deemed ineligible to be elected after the primary election for partisan office but before the 5 p.m. on the fourth Friday in July, the candidate receiving the next greatest number of votes at the primary election for partisan office shall be declared a nominee, and his or her name shall be placed on the ballot at the general election for partisan office.***
8. ***As used in this section:***

    "Partisan office" means the Offices of United States Senator, United States Representative, Governor, Lieutenant Governor, Attorney General, Secretary of State, State Treasurer, State Controller, and State Legislators, and excludes the Offices of President of the United States and Vice President of the United States.

5. *The ballots for the general elections for partisan office must include a conspicuously placed statement that: "Each candidate for partisan office may state a political party that he or she prefers. A candidate's preference does not imply that the candidate is nominated or endorsed by the party, or that the party approves of or associates with that candidate."*
6. *When counting ballots in a general election for partisan office, the Registrar, County Clerk, or chief election official (as applicable) in each County shall initially tabulate each validly cast ballot as one vote for the highest-ranked candidate on that ballot or as an inactive ballot. If a candidate is highest-ranked on a majority of the active ballots, that candidate is elected and the tabulation is complete. If no candidate is highest-ranked on a majority of the active ballots, tabulation proceeds in sequential rounds as outlined in Section 7.*
7. *Tabulation proceeds in sequential rounds as follows:*
    a. *If two or fewer continuing candidates remain, the candidate with the greatest number of votes is elected and the tabulation is complete; otherwise, the tabulation continues under (b) of this subsection.*
    b. *The candidate with the fewest votes is eliminated, votes cast for the eliminated candidate shall cease counting for the eliminated candidate and shall be added to the totals of each ballot's next-highest-ranked continuing candidate or considered an inactive ballot under (8)(b) and (8))(c) of this section, and a new round begins under (7)(a) of this subsection.*
8. *When counting general election ballots for partisan office,*
    a. *A voter may choose to rank just one candidate for partisan office, and that vote will be tabulated.*
    b. *A ballot containing an overvote shall be considered an inactive ballot once the overvote is encountered at the highest ranking for a continuing candidate.*

AMERICAN OVERSIGHT

c. If a ballot skips a ranking, then the election board shall count the next ranking. If the next ranking is another skipped ranking, the ballot shall be considered an inactive ballot for that race.

d. Any votes for "None of These Candidates" shall be tabulated, recorded, and made public, but not be counted for the purpose of electing or ranking any candidates for partisan office.

e. In the event of a tie between the final two continuing candidates, the winner shall be decided in a manner as provided by statute.

f. In the event of a tie between two candidates with the fewest votes, the candidate eliminated shall be decided by lot.

g. An inactive ballot may not be counted for any candidate in that particular race.

9. As used in this section:

a. "Continuing candidate" means a candidate who has not been eliminated.

b. "Inactive ballot" means a ballot that is no longer tabulated, either in whole or in part, because it does not rank any continuing candidate, contains an overvote at the highest continuing ranking, or contains two or more sequential skipped rankings before its highest continuing ranking.

c. "Overvote" means an instance where a voter has assigned the same ranking to more than one candidate.

d. "Ranking" or "ranked" means the number assigned by a voter to a candidate to express the voter's choice for that candidate; a ranking of "1" is the highest ranking, followed by "2," and then "3," and so on.

e. "Round" means an instance of the sequence of voting tabulation in a general election for partisan office.

f. "Skipped ranking" means a blank ranking on a ballot on which a voter has ranked another candidate at a subsequent ranking.

g. "Partisan office" means the Offices of United States Senator, United States Representative, Governor, Lieutenant Governor, Attorney General, Secretary of State, State Treasurer, State Controller, and State Legislators, and excludes the Offices of President of the United States and Vice President of the United States.

10. Completion of ballot count; certificate.

a. The certification of results shall be conducted as provided by Nevada law.

11. Implementation

a. Not later than July 1, 2025, the Legislature shall provide by law for provisions consistent with this constitutional amendment, including providing for disclosure as to the full ranking of each candidate.

b. Upon enactment of any law by the Legislature pursuant to this constitutional amendment before July 1, 2025, and not later than that date, any laws, regulations, regulatory orders or other provisions which conflict with this constitutional amendment will be void. However, the Legislature may enact legislation, in whole or in part, consistent with this constitutional amendment before July 1, 2025.

Section 5. Severability. If any provision of this act, or the application therefore to any person, thing or circumstance is held invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect the validity or constitutionality of this act as a whole or any provision or application of this act which can be given effect without the invalid or unconstitutional provision or application, and to this end the provisions of this act are declared to be severable.

Purpose of Document: Educational resource for administrators.

Spotlights provide election officials with an overview of common cybersecurity topics, and how they relate to election infrastructure security.

What is Misinformation?

Misinformation is inaccurate information that has the potential to undermine the election process in your jurisdiction. Examples include, but aren't limited to, inaccurate information about election dates, mail ballot rules, ballot information, polling place hours and status, election night reporting procedures, post-election procedures, or voting technology.

Why Does it Matter?

Election officials are the trusted source of election information and play a key role in reporting misinformation. If you spot misinformation about your election jurisdiction on social media, you can submit it to the Election Infrastructure Information Sharing and Analysis Center (EI-ISAC). We'll work with the social media platforms and other partners to get it addressed. We will provide updates to you any time we receive any meaningful information about your case depending on the platforms involved, what they discover, and what decisions they make on reported content.

What You Can Do

Report any inaccurate or misleading information on social media that's about your jurisdiction and pertains to the administration or security of an election in the United States. Send an email to misinformation@cisecurity.org. Copy others in your state or locality who should also see the information, such as the office of your state's chief election official. Include the following information:

- A screenshot of the social media post and, if possible, the link.
- Your name, role, jurisdiction, and work email address.
- A description of why this information is false – not just "this is wrong" but information about why you think it's wrong. This doesn't have to be more than a couple of sentences, but more detail is better. Citing a law is even better.

If you or anyone in your office receives a threat on social media:

- If you feel there is any chance of an immediate risk to you or others, call 911.
- Contact your FBI Elections Crime Coordinator. If you don't know your Elections Crimes Coordinator, contact your local FBI field office and ask to speak to the Elections Crimes Coordinator.
- Contact your local CISA Physical Security Advisor (PSA).

For additional information, please review the CISA'sMis-, Dis-, and Malinformation page and the CISAToolkit .

Good morning!

ERIC is requesting the required data within the 90 days from when Michele received the reports and sent them to all our counties on 5/20/2022.

However, ERIC is requesting the Cross State as well as the In-State updates.

So, no need to provide the Deceased and the NCOA reports at this time.

The next time you'll have to certify will be when we do our next batch of Cross State and In State Updates, which, according to the schedule, will be in December 2022.

I apologize, for any confusion that this may cause and that I'm in the process of learning the requirements that ERIC requires Statewide.

Please do not hesitate to contact me with any questions or concerns.

Thank you for your time in this matter.

Have a great week!

Nevada Secretary of State
ERIC Project – Cross-State Report

The Cross-State Report is created by comparing the Nevada Statewide Voter Registration List against voter registration data from the other ERIC member states. Because the records on the Cross-State Report are a result of a match with another state's voter registration database, you may act on this information.

The Cross-State Report contains registered voters from your county whom ERIC has identified as likely having more recently registered to vote in another state. To process these records, please follow the steps below.

Note: Column "EX" is new and indicates when the record on the Cross-State Report also has a match on the new NCOA Report. If you will be conducting a Cross-State Report mailing and a NCOA Report mailing, you will want to review and possibly remove certain records from one of your mailings to avoid sending multiple mailings to the same individual. For example, you might keep a record on a Cross-State mailing when the NCOA record has an older record date, is only updating a mailing address, etc. Both the Cross-State and NCOA mailing are optional but recommended.

Processing Records: Actions to Take

1. OPEN & REVIEW the attached Cross-State Report for your County
    a. File Name: NV-CROSS_STATE_USPS-Confidential-YYYYMMDD [County Name]

2. VOLUNTARY CANCELLATION NOTICE
    a. The Secretary of State will send a Voluntary Cancellation Notice (VCN) to each individual at their new registration address in their new state. *You are not required* to mail any notice to the registrant, however if you do, please track these numbers as well. If you do not send any mailers, please indicate that*. The VCN will have your county contact information on it should the voter have questions about their registration or the mailing. The postage-paid return card is addressed to the SOS. Completed VCNs received by the SOS will be forwarded to each county weekly and daily before the close of voter registration. **Remember, this is not an official NVRA notice so you cannot inactivate voters who do not respond to the VCN.**

        i. **IF** you receive a completed VCN and it is signed, compare the signature to your voter registration record. If the signature matches, cancel the registration (you may cancel the registration even if after the 90-day blackout period during election years because this is a voluntary cancellation notice).

        ii. **IF** the VCN is not returned, you are not required to do anything further with this record (but it is highly recommended that you mail them a NVRA notice to the address on file to begin the inactivation process).

        iii. **IF** the VCN is returned to your county as undeliverable, you are not required to do anything further with this record (but it is highly recommended that you mail them a NVRA notice to the address on file to begin the inactivation process). Note: most returned mail (both undeliverable and completed) is addressed to the SOS per the Business Reply.

** Our hope is that the majority of these individuals return the VCN filled out and signed. However, for the records that do not return a completed VCN, we recommend that you send that individual a NVRA confirmation notice to the address you have on file in your county to initiate the NVRA inactivation process. Track the number of these notices below. You may also take any other normal steps to otherwise follow-up directly with the registered voter to confirm their voting status and address. This can be performed by acting on the records in the report that have not responded to the SOS VCN mailing after adequate response time (usually 30+ days).*

3. REPORT

a. Please track the following Voluntary Cancellation Notice information and report the following information to njwoodson@sos.nv.gov 30 and 45 days after the mailing for the cumulative numbers. Although the VCN is returned to the SOS the following outcomes still need to be tracked and reported. Please note you will track SOS mailer results and County mailer results **separately:**

SOS Mailers (required to track)	**County Mailers (track if mailed)**	**Voluntary Cancellation Notice Tracking**
		County Mailing Date
		Voluntary Cancel Response
		Not Returned
		Returned as Undeliverable
		Other (explain/describe)
		Total

Explanation of the Data in the Report

ERIC matches records using a scoring system calculated by giving points based on what fields are matched. The reports currently utilize two (2) scoring systems to identify related records. The following is a general description about the fields used to support a match for each score. If interested, the ERIC Report Information attachment provides detailed information about report fields and scoring. Contact the SOS team if you have questions on a match.

The Error Rule Code in **Column E** lists the rule used to assign the Reference Score in **Column D**.

- Example: **MSTAB+CNAME** matched the DOB, last4ssn, and a Close Name (DL is missing)

The Match Key in **Column G** identifies the fields used to assign the Match Score in **Column F**.

- Example: **+fullnm+DOB+l4ssn** matched the Full Name, DOB, and the last 4 of the SSN
- Match Keys with "**x**" or "**-**" before a field (e.g. +**x**l4ssn or –l4ssn) were made using secondary information.
  - Example: NV Voter record and out-of-state Voter record have different data for this field within the record, but this field for the NV Voter matches this field for the out-of-state DMV record (so the out-of-state Voter and DMV records don't agree on this field).

The NCOA_Align response in **Column EX** identifies when a record also has a match on the NCOA Report. Responses in this field make it easier to filter out records that might receive a mailing from another ERIC report, such as an NCOA Notice mailing. Please review the record on both the Cross-State and NCOA report before determining how to process a record.

Supplemental information has been added to this report. Columns that begin with "SUPP" contain information from supplemental data sources. For example, columns AT through BV (SUPP…) contain information on the most current supplemental record from the voter's state (i.e. NV DMV), if any information is available. Columns DH through EK (SUPP2) provide information matching a supplemental voter in another state (i.e. DMV, Alaska's Permanent Fund), if one exists.

Nevada Secretary of State
ERIC Project – In-State Update Report

The In-State Update Report is created by comparing the Nevada Statewide Voter Registration List (SVRL) against data from the Nevada DMV. Because the records on the In-State Update Report are a result of a match with another government record from this state, you may act on this information per NRS 293.675.

The In-State Update Report contains records of registered voters from your county that ERIC has identified as possibly having updated address information. There are three tabs of records in the In-State Update Report workbook:

(Tab 1) **In-County Residential:** Records with potential residential address updates within your county
(Tab 2) **Cross-County Residential:** Records with potential residential address updates in another county in Nevada
(Tab 3) **Mailing Address:** Records with potential mailing address updates

Note: In-County and Cross-County Residential tabs include records with potential updates for both the voter's residential and mailing addresses.

Column "DG" is new and indicates when the record on the In-State Update Report also has a match on the NCOA Report. If you will be conducting an In-State Update Report mailing and a NCOA Report mailing, you will want to review and possibly remove certain records from one of your mailings to avoid sending multiple mailings to the same individual. For example, you might keep a record on an In-State Update mailing when the NCOA record has an older record date, is only updating a mailing address, etc. Both the In-State Update Cross-County and NCOA mailings are optional, but recommended.

USPS Coding Accuracy Support System (CASS) data to correct, standardize, or add missing address information, such as a street direction or suffix, ZIP code, can be found in **Columns BM** through **BZ**.

Processing Records: Actions to Take

1. OPEN the attached In-State Update Report for your County
   a. File name: NV-IN_STATE_UPDATE_USPS-YYYYMMDD [County Name]
2. REVIEW
   a. Examine each record on the In-State Update Report and compare with the applicable record in your county voter registration database (VRD) using the following fields:

County Voter Record	
County Voter ID	**Column N**
County Voter Name	**Column T, U, V**
County Voter Residential Address	**Column Y - AD**

   b. If the report record does not match a voter in your county, report this record according to the procedures outlined in 4(b).
3. CONTACT
   a. **IF** the new residential address is within your county, mail a forwardable NVRA Confirmation Notice, as set forth in NRS 293.5307 to the voter at his or her voter registration address on record.
   b. **IF** the new residential address is outside of your county, you are *encouraged* to mail a forwardable NVRA Confirmation Notice, as set forth in NRS 293.5307, to the voter at his or her voter registration address on record.
      i. PLEASE NOTE: the SOS will mail all Cross-County Residential records a notice urging the recipient to update his or her voter registration in the new county online via RegisterToVoteNV.gov. This notice will be mailed to the address outside of your county. You do not need to wait for the SOS mailer to be sent – please begin sending your own notices immediately.
      ii. The mailer from the SOS **is not** an official NVRA confirmation notice. You cannot inactivate voters for not responding to the SOS mailer – you can only inactivate voters on the Cross-County tab if they fail to respond to the confirmation notice **YOU** send to them.

Commented [WU1]:

Commented [JR2R1]: 10/4/2019 – Wayne met with the DAG and the DAG said this is the process all counties need to follow: "NVRA doesn't establish a sequence, it is just a minimum standard." All counties need to send notice first and then update if notice returned completed.

AMERICAN OVERSIGHT
NV-STOREY-22-1163-A-004602

c. **Mailing Address:**
   i. It is at your discretion on whether you update the voter's record with this new mailing address. If election mail has been reaching the voter at the mailing address in your County VRD, you may not want to update the record. If your database has the capability, you might consider adding the new mailing address as an alternate mailing address.

4. REPORTING
   a. When you have finished processing all of the records in the In-State Update Report, please report the following information to njwoodson@sos.nv.gov. Note: the In-County mailing is required, Cross-County is recommended, and Mailing Address is at your discretion.

In-State Update Report Action			
In-County *(required)*	Cross-County *(recommended)*	Mailing *(discretionary)*	
			NVRA Notices sent
			NVRA Notices not sent (more recent update, no match, etc.)
			Total (Should match the total number of records in each category)
			Date NVRA Notices sent

   a. After sending the Notice, track the number of resulting record updates, cancellations and inactivations. Then report the following table 30+ days after sending the Notice to njwoodson@sos.nv.gov.

Results from the County NVRA Confirmation Notice Mailing			
In-County *(required)*	Cross-County *(recommended)*	Mailing *(discretionary)*	
			Updated voter record
			Canceled voter record
			Inactivated (voter failed to return the NVRA notice YOU sent)
			Other (explanation needed)
			Total (should match the number of Notices sent)

   b. Only use the "Other" category for rare cases in which you did not update, inactivate or cancel the voter (i.e. you had a newer update on file than the information in the ERIC report).
   b. Upload the spreadsheet to the ERIC folder on IPSwitch and send an email to njwoodson@sos.nv.gov. with a brief description about why the record(s) should not be removed. We will work with ERIC to resolve issues identified by the counties.
   c. **NOTE**: In an election year you **cannot** inactivate voters for failing to return the NVRA confirmation notice after the 90-day list maintenance deadline; you must wait until after the election to inactivate them. Because of this you will need to report your results again after the election when you have done your inactivation's.

Responses in this field make it easier to filter out records that might receive a mailing from another ERIC report, such as an NCOA Notice mailing. Please review the record on both the In-State Update and NCOA reports before determining how to process a record.

This report now contains address correction data from the USPS Coding Accuracy Support System (CASS). CASS data, if any, might be used by a county to correct, standardize, or add missing address information, such as a street direction or suffix, ZIP code, etc. CASS data for Residential Addresses can be found in **Columns BM** through **BZ** and for Mailing Addresses in columns CK through CP. Utilizing this CASS data is optional.

Subject: First Secured Unitary Disbursement for FY2023

Please review the attached secured tax roll disbursement reports for FY 2022-23.
SB423 of the 81st (2021) Session of the legislature modified NRS 361.3205 (4) allowing the Department of Taxation to be reimbursed for collection costs. The budgeted costs of $137,928.00 were approved by the Legislature to be reimbursed FY2022-23.
The $137,928.00 is being deducted statewide from the entire statewide disbursement of $37,375,532.95. The portion of the cost we deducted from your county is in the “Collection Exp” column of the attached reports. This disbursement will be the only one that deducts collect expenses this fiscal year.

Teachers often are asked, “What is technical writing, and how does it differ from written communication taught in traditional composition classes?”

To answer those questions, this chapter defines technical writing and stresses the importance of technical writing in business and industry.

An analogy: List different types of shoes you own, such as boots, loafers, tennis shoes, bedroom slippers, and dress shoes. Why do you own such diverse shoes? The answer is obvious; each type of shoe serves a unique purpose. You would not wear dress shoes to shovel snow nor tennis shoes to a wedding. The same holds true for writing. One type of writing does not fit all purposes. No one would write poetry, essays, or diary entries at work. On the job, you will need to use technical writing skills.

The Importance of Technical Writing

You probably have encountered people in business who have suffered due to their poor written and verbal skills. You have talked to people who were not promoted because their writing was flawed, or you have heard stories about bosses rejecting reports because of misspelled words. Similarly, you have received flawed correspondence from companies and conclude that such companies were either unprofessional or incompetent. In contrast, you have talked to employees who were praised and respected for their writing skills—they have earned promotions or been given more responsibilities due to their writing abilities.

You will be seeking employment, and companies want to hire employees who can communicate successfully. These corporations know that your writing skills are important.

Memos? E-mail? What is the Difference? (cont.)

TABLE 5.1 MEMOS VERSUS E-MAIL MESSAGES

Characteristics	Memos	E-mail Messages
Destination	Internal: correspondence written to coworkers within a company.	Internal *and* external: correspondence written to friends and acquaintances, coworkers within a company, and clients and vendors.
Format	Identification lines: Date, To, From, Subject. Options include cc (complimentary copy), Ref (reference), and Distribution (other recipients of the memo).	Identification lines: To and Subject. The Date and From are computer generated. Options include cc (complimentary copy), Ref (reference), and Distribution (other recipients of the e-mail message).
Audience	Generally specialists and semi-specialists within the company.	Multiple readers due to the internal and external nature of e-mail.
Topics	Company related, allowing for abbreviations and acronyms due to well-informed audience.	A wide range of diverse topics determined by the audience.
Tone	Determined by audience: can be informal when written to coworkers; might be more formal when written to management.	A wide range of tones due to diverse audiences. Usually informal when written to friends, informal to coworkers, more formal to management. The largest challenge involves multicultural readers.

Memos? E-mail? What is the Difference? (cont.)

TABLE 5.1 MEMOS VERSUS E-MAIL MESSAGES

Characteristics	Memos	E-mail Messages
Speed or Delivery Time	Determined by a company's in-house mail procedures. Memos could be delivered within hours or days.	Often instantaneous, usually within minutes. Delays can be caused by system malfunctions or excessively large attachments.
Attachments	Hard-copy attachments can be stapled to a memo or enclosed within an envelope. Size is not an issue. Complimentary copies can be sent to other readers by way of the company's mail system.	Computer word processing files, HTML files and Web links, PDF files, RTF files, or downloadable graphics can be attached to e-mail. Complimentary copies can be sent to other readers. Size of these files is an issue, because large documents can crash a reader's system. A good rule of thumb is to limit files to 750 Kilobytes (K).
Length	A typical memo is no longer than one printed page ($8\frac{1}{2} \times 11$ inches).	An effective e-mail message is limited to one viewable screen (requiring no scrolling).
Security	If a company's mail delivery system is reliable, the memo will be secure. Memos can be delivered within a sealed envelope. No one else will see the memo unless the reader or writer shares it.	E-mail systems are not secure. E-mail can be tampered with, read by others, and sent to many people. E-mail stays within a company's computer backup system and is the property of the company. Therefore, e-mail is not private.

E-mail is quick and easy to write—that's **good** and **bad**.

Writing e-mail online provides ease and speed, but that can lead to carelessness.

Try writing the message in a word processing package. Then copy and paste the text into your e-mail.

Guns in Polling Places – Open Carry or Concealed Carry

- The is no Nevada election law (Title 24 of NRS) that specifically addresses the issue of guns in polling places.

- Accordingly, gun laws found in other sections of NRS provide the rules we follow.

- There are three types of polling places:
  1. *Public – Buildings occupied by federal, state, or local governments.*
  2. *Private – Building not occupied by federal, state, or local governments.*
  3. *School – Public and private K-12 schools, public colleges and universities, and child care facilities*

AMERICAN OVERSIGHT

Guns in Polling Places – Public Buildings

- Concealed carry is permitted in public buildings UNLESS the building has a metal detector at each public entrance or a sign posted at each public entrance indicating that no firearms are allowed in the building (see NRS 202.3673).
- In practice, almost all public buildings prohibit concealed carry either because they have a metal detector at each public entrance or a sign posted at each public entrance indicating that no firearms are allowed in the building.
- LCB legal opinion from 2015 concludes that the open carry of firearms is NOT prohibited in a public building, unless otherwise prohibited by specific statute (e.g., school and the legislative building).

AMERICAN OVERSIGHT

Guns in Polling Places – Private Buildings

- Many private building owners and operators have no guns or weapons policies, including signs informing people of this policy at building entrances.
- However, the legal enforceability of these policies is questionable. For example, Nevada does not have a law Texas where a sign can be posted making it illegal to carry a firearm on private property.
- Nevada election officials rely on the voluntary cooperation of private property owners in order conduct early voting and election day voting. As a result, we follow their rules when it comes guns and weapons.

AMERICAN OVERSIGHT

Guns in Polling Places - Schools

- No guns are ever allowed on school property (see NRS 202.265).
- This includes Nevada System of Higher Education property and private schools.
- Peace officers and security guards are exempt from this prohibition.
- Written permission can be given from principal, but this doesn't happen in practice.

She has given me permission to share it with you all. We will be dating it for September 30th with a deadline date of October 31st (Nevada Day😊).

I would love to know if anyone else would also be willing to send a similar letter, perhaps through their DA, and then maybe we will all be able to shred around the same time.

Re: Notice of Litigation and Document Preservation Notice dated September 2, 2022

Dear Mr. Parker:

Thank you for your interest in the election process. You are encouraged to report any concerns you may have regarding election integrity to the Nevada Secretary of State (hereafter SOS) through its website (www.nvsos.gov) or on the SOS Election Integrity Violation Report Form, which is attached for convenience.

As a courtesy, this letter will serve as a response to your email and letter dated September 2, 2022, titled Notice of Litigation and Document Preservation Notice sent to Ms. Amy Burgans, Douglas County Clerk-Treasurer. Your letter indicates your firm represents "clients" that "intend" to bring litigation in "your state" relating to vote casting and tabulation for the November 3, 2020 general election and without further information or facts, demands that all Douglas County election records and related materials generated for the 2020 Federal Election, be retained " if election related litigation occurs." To-date, no complaint has been served by your unnamed clients on Douglas County. Furthermore, 52 USC §20701 is cited to justify the demand. However, the preservation requirements of 52 USC §20701 are limited to 22 months, during which time only the United States Attorney General is able to demand production of records. *See,* 52 USC §20703. Additionally, consistent with federal law, Nevada Revised Statutes (hereafter NRS) require voted ballots, rejected ballots, spoiled ballots, challenge lists, printed paper ballots, electronic device audit reports, and ballot stubs **must be destroyed immediately** after the 22 month preservation period following the board of county commissioners' canvass of the votes.

> **NRS 293.391 Disposition and inspection of ballots, lists, records and stubs of voted ballots after canvass by county commissioners. [Effective January 1, 2022.]**
> 1. The voted ballots, rejected ballots, spoiled ballots, challenge lists, records printed on paper of voted ballots collected pursuant to NRS 293B.400, reports prepared pursuant to NRS 293.269937 and stubs of the ballots used, enclosed and sealed, must, after canvass of the votes by the board of county commissioners, be deposited in the vaults of the county clerk. The records of voted ballots that are maintained in electronic form must, after canvass of the votes by the board of county commissioners, be sealed and deposited in the vaults of the county clerk. materials must be destroyed immediately after the preservation period. A notice of the destruction must be published by the clerk in at least one newspaper of general circulation in the county not less than 2 weeks before the destruction.

The Board of Douglas County Commissioners completed its canvass of the November 3, 2020 general election on November 16, 2020. The 22 month preservation period has expired and Douglas County has given notice of destruction. At this time, Douglas County is required[1] to destroy the election documents associated with the November 3, 2020, general election without any considerable loss of time[2]. The timeframe for contesting, demanding a recount, or challenging the 2020 general election results in Douglas County has expired. Additionally, lawsuits involving mail-in ballots as well as the 2020 election results have already been ruled upon by various Nevada courts.

The request is arbitrary, insufficient, and fails to place Douglas County on notice of any credible, timely, legal claims which may be brought in order to trigger the duty to preserve evidence by the Douglas County Clerk-Treasurer under either federal or state law. The request is void of any specific claims or details regarding Douglas County. It appears the letter is a generic fill-in-the-blank form. Douglas County has no basis to believe legitimate litigation is reasonably anticipated or foreseeable.

Therefore, it is unreasonable, overly burdensome, and contrary to Nevada law for Douglas County to hold all election records associated with the 2020 Federal Election, beyond the statutory time frame. Douglas County will destroy its election records in accordance with NRS 293.391, unless prior to October 31, 2022, litigation is commenced and served upon Douglas County or a valid court order is entered requiring Douglas County to preserve the election documents.

Stop by for your*no-obligation quote* and get a *free gift*! This one-time offer will not be offered to current employees again.
Your name will be put into the raffle to win any of the cool items we will have on display (ask how you can get extra entries)!

Good Afternoon DMV Family

Previously, DMV employees, contractors and consultants would access the***2021*** Kevin Mitnick Security Awareness Training through Success Factors. In support of training compliance, beginning September 1st, 2022, anyone who accesses DMV systems will take the Security Awareness Training directly through the KnowBe4 online portal. This change of platform will allow for more efficient tracking and reporting of compliance, as well as automatic email reminders for employees are due for annual security awareness training.

Unfortunately, ***all*** DMV employees, contractors and consultants will be required to take the***2022*** Kevin Mitnick Security Awareness training, as it is a new training module, and there is no way to sync the previous compliance tracking system with KnowBe4. Everyone that accesses DMV sytems will be required to complete the training by January 1st, 2023, and then once per year following, while new DMV employees, contractors, and consultants will be directed to complete the training as they are on-boarded.

Single Sign On and DUO two-factor authentication have been enabled with the KnowBe4 training portal, so your current DMV credentials will be used to sign in and access the training. Once the security awareness training campaign begins, you should recieve a welcome email from KnowBe4. After you receive your welcome email, to access the KnowBe4 training portal and start your training, please visit the link below and follow the instructions below, andplease feel free to contact your HR Liaison with any questions.

It would be helpful if you can provide us with a few more details such as both party's names at the time of application and an approximate date. Subject: New Christmas Tree for VCTC

I have been informed that a new Christmas Tree for the community was to be purchased for this season. We have one selected and need to purchase it ASAP. Problem is the price is $4,995 and we don't have enough of a credit limit. Could we have Leah or Rebecca's credit limit extended for 2 weeks so we can make the purchase?

Thanks

Linda

Hello Linda,

Thank you for talking with me about this expense. The item appears to be in the VCTC CAP budget. I copied Jim and am asking if he may please place a temporary p-card credit limit increase for Leah Kruse to accommodate this one-time purchase. Jennifer is also copied.

Please inquire further if anything further is needed.

Thank you.

Jennifer:
I'm meeting with Vanessa Friday. Is this something she can help me identify how to do, or is adjusting p-cards something I must wait on based on getting set-up on Wells Fargo?

That aside, should I leave it to you to extend Leah's limit for additional two weeks? They want to extend two more weeks from our last adjustment, which I believe we increased to $5k and set to revert on 10/31.

VIDEO: The Dangerous 'Independent State Legislature Theory,' Explained

The Supreme Court just announced that on December 7, it will hear a case that hinges on the radical "independent state legislature theory." Our**new animated short** lays out just what the theory is and why it's so dangerous to democracy. At issue in the North Carolina lawsuit is a wrongheaded reading of the Constitution that would let state lawmakers gerrymander and suppress votes without the traditional limitations imposed by governors, state judges, and state constitutions. If the justices accept the theory, state legislatures could use it to undermine Americans' rights with impunity. You can watch the video**here**.

The Racial Voting Gap in Texas's Primary

The consequences of the voter suppression law Texas passed in 2021 are starting to become clear. Just one of its many restrictive provisions, which created onerous new requirements for mail voting, led to massive disenfranchisement in the state's 2022 primary. And a new Brennan Center analysis shows that it had a particularly harsh impact on voters of color. In fact, we found that nonwhite voters were 30 percent more likely than white voters to have their mail ballot application or actual mail ballot rejected. Texas's law is a prime example of how the wave of anti-voter laws spurred on by election fraud lies can keep significant numbers of Americans from**casting their ballots**.

Who Controlled Redistricting in Every State

As in past decades, the majority of congressional districts in the latest redistricting cycle were drawn through partisan-controlled processes. But in a promising sign for fair maps, two additional states used independent commissions to set district lines for the first time. A new Brennan Center resource details who was responsible for map drawing in each state and how this**impacted political competitiveness**.

Next Up for the First Step Act

In 2018, the First Step Act was celebrated as the biggest federal criminal justice reform legislation enacted in nearly a decade. It mandated long-overdue changes to excessively punitive federal sentencing laws and reforms aimed at improving prison conditions. But several years later, it's still failing to benefit many of the people it is meant to help. A Brennan Center report assesses the structure of the law's prison reforms, how they have been implemented, and what more can be done to **achieve their potential**.

Ensuring Census Accuracy Through Racial Equity

The 2020 census failed to count 18.8 million people, with Black, Latino, and Indigenous communities going undercounted at disproportionate rates. Numbers like these can lead communities to lose out on fair representation and much-needed financial resources. Congress and the Census Bureau must implement equity-centered reforms to produce the**accurate census that our democracy demands**.

Re: Notification process for boundary, annexation, exemption, and franchise fee changes

Dear Mr. Osborne:

During the 2019 Nevada Legislative Session, Assembly Bill 18 was enacted which amended NRS Chapter 268. This new law requires local governments approving annexations to provide notice of the annexation to public utilities, by certified mail, no less than 10 working days after the ordinance approving the annexation is adopted. The notice is required to go to each public utility and rural electric cooperative operating within the jurisdiction of the incorporated city and must include the following:

- A notice containing the address and legal description of all property in the territory to be annexed
- An accurate map or plat of the territory to be annexed
- A copy of the ordinance approving the annexation

To expedite any changes in jurisdiction for franchise fee purposes, NV Energy is also requesting that this information, including city boundary, annexation and exemption notices or franchise fee rate changes, be forwarded to FranchiseTaxSupport@nvenergy.com ten (10) business days after the adoption of the annexation ordinance. Instructions for sending files are available on the reverse of this page. Any boundary, annexation or exemption notice should contain the following:

1. Effective date of the boundary/annexation change
2. Approved ordinance/resolution and a property description for each annexed area
3. Legible city map identifying the new annexed area(s) and the new city boundaries
4. U.S. postal address of each annexed property, if available
5. Assessor Parcel Number
6. Name of each residential or business property owner
7. Identify if annexed property is occupied, vacant or undeveloped
8. Identify if property is tax exempt, if applicable
9. Effective date of property tax exemption, if applicable

In addition, to ensure the accuracy of our records and compliance with our franchise fee obligations, NV Energy is also requesting that a separate file be provided on an annual basis (December 31), or upon any additions or deletions, that includes items 4 through 8 for current tax-exempt properties.

For any accounts coded as an account owned by your jurisdiction, franchise fees will not be charged unless you notify us otherwise. Please contact me if you prefer the accounts be charged.

In addition to any notification obligations specifically set forth in your applicable franchise agreement with NV Energy, receiving timely notification of the information requested in this letter will ensure that customers within our billing system are correctly classified for the collection and remittance of all applicable franchise fee and other city taxes. Similarly, receiving advanced notification of any changes to the franchise fee rate charged to customers ensures correct amounts are collected and remitted to the taxing entity.

G'morning Keith:
A status update from Mr. Borghetti regarding his attempts to locate Charles Whitehead/Pallas Resources. The outcome is as expected. What is your direction on whether we can make an arrangement for them to go on the property and survey for the Greenlink project?

Is this request linked to the correspondence and permissions you are arranging with Tony Dimpel of Universal/McGinley?

Thanks,

Greenlink Nevada | Field Survey Fact Sheet

Field Survey Location Details

The Greenlink West Project is located in Washoe, Storey, Lyon, Mineral, Esmeralda, Nye, and Clark counties.

The Greenlink North Project is located in Lyon, Churchill, Linder, Eureka, and White Pine counties.

NV ENERGY is requesting access permission for:

- A 600-foot-wide study corridor along the proposed right-of-way (ROW) and overland access routes

General Overview

NV Energy has a proposed line route, however the route is preliminary and dependent upon the National Environmental Policy Act (NEPA) process led by the Bureau of Land Management (BLM). As we continue project development, we will be conducting a variety of field survey activities. We are requesting access to private and public property in order to complete required field surveys prior to construction. We anticipate field activities to start in 2021 and 2022 and will continue throughout the duration of the Project. Please note that not all of the possible field activities will be required on every property.

Greenlink Nevada Website
https://www.nvenergy.com/cleanenergy/greenlink

AMERICAN OVERSIGHT

Greenlink Nevada is a new renewable energy and electrical infrastructure initiative that will make Nevada a leader in the clean energy economy.

Route Details

The Greenlink Nevada transmission initiative will be made up of:

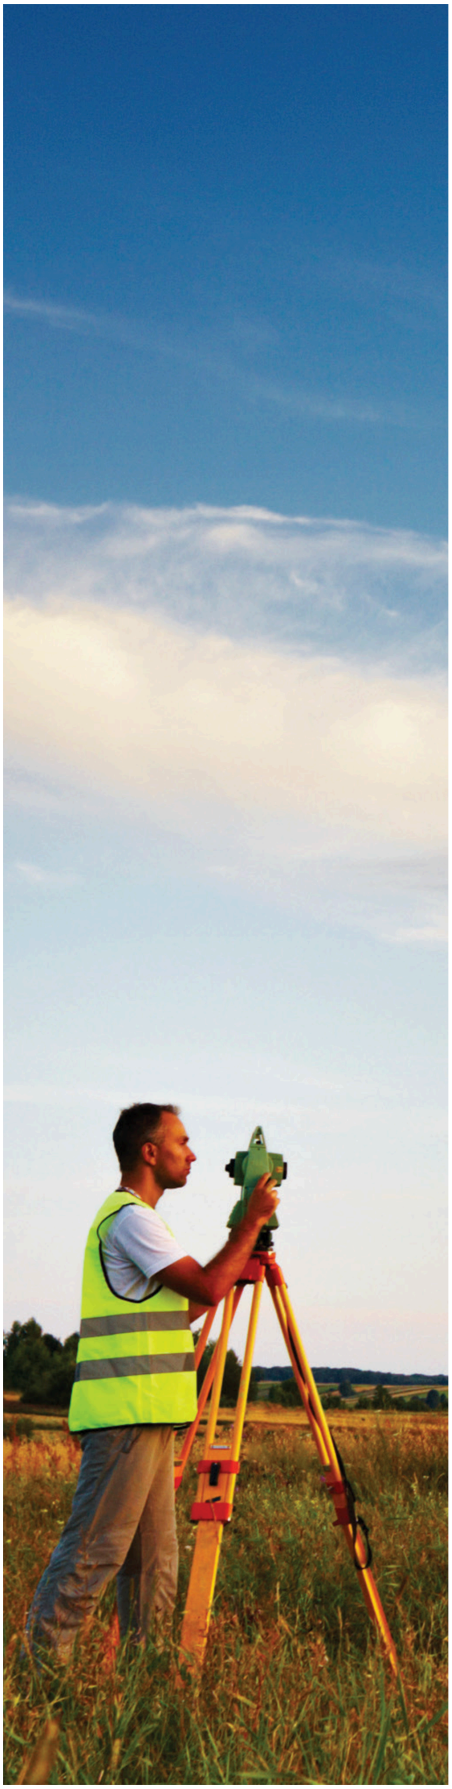
- **Greenlink West** will be a 525 kV line that spans approximately 350 miles from Las Vegas, NV to Yerington, NV.
- **Greenlink North** will be a 525 kV line that spans approximately 235 miles from Ely, NV to Yerington, NV.
- Greenlink Nevada will also include three 345 kV lines from Yerington, NV to the Reno, NV area.

Environmental Benefits

Greenlink Nevada is essential to helping Nevada achieve its climate action and de-carbonization goals and increased renewable portfolio standard, moving Nevada closer to a future powered by 100% renewable energy and reducing Nevada's carbon footprint.

- Creates a renewable energy highway that allows access to Nevada's resource-rich renewable energy zones, containing about 5,000 megawatts of undeveloped renewable resources, that could not previously be developed due to the lack of necessary transmission infrastructure
- Diversifies Nevada's renewable portfolio by creating access to affordable wind and hydro energy across the Western United States

AMERICAN OVERSIGHT



Economic Recovery

Greenlink Nevada supports Nevada's economic recovery strategy by:

- Generating $690 million in economic activity and creating nearly 4,000 good-paying jobs, many of which will be skilled union labor
- Once complete, allowing NV Energy to meet future energy demands, leading to economic growth and job stability
- Promoting economic diversification by making Nevada a smart investment for businesses interested in relocating to states that offer affordable clean energy
- Supporting underserved communities by enabling job creation in rural and hard-to-reach communities

System Reliability

Greenlink Nevada will improve NV Energy's overall system reliability by providing a second critical state-wide transmission connection. Opening up this electric delivery capacity will allow customers to enjoy more cost savings by sharing resources between northern and southern Nevada. Futher, Greenlink Nevada will increase access for fiber communications in rural areas, aiding the state in its economic development goals.

Subject: Fwd: NWS Reno, Nevada: Smoke & Air Quality Impacts, with More Showers and Thunderstorms

Good morning
What a nice refreshing afternoon it was yesterday. I had about an inch of water in my wheelbarrow which serves as the official "I" street rain gauge...I doubt the Weather Service would accept that report. So no smoke this morning and we will likely get some in later today it appears it will skirt us to the north so Lockwood will likely have some smoke for sure.
Temps are down and will stay down for the remainder of the week. And maybe lower next week. Close to time to change back to long pants which does not make me happy. I am a warm weather person for sure.
We could get some sprinkles this afternoon but somewhat questionable.
Check the attached weather service narrative and charts for more detail.

WEATHER, Sept 13, 1878: 83 degrees clear and warm.

DID JA KNOW:
The Chinese worked in wash houses, merchants, cooks, peddlers, laborers, druggists, doctors and carpenters. There were also several woodcutters, cigar maker and a jeweler. In 1860 Comstock Hispanics were noteworthy for their numerous women and families. By 1870 Spanish speaking women accounted for 48 percent of the Hispanic community, up 14 percent from 14% in 1860. In 1863, the census showed 35 African American men working as barbers, cooks, bar-keepers and laborers, saloon owner, a carpenter, a blacksmith, shoemaker and miner. The 1870 census includes 82 African Americans while the 1875 state census lists 98. African American families in 1873 were scattered in the eastern, downhill part of town, below the Virginia and Truckee yards.

Smoke & Air Quality Impacts, with More Showers and Thunderstorms

Well, it's still quite smoky out there today, but the silver lining is that it is quite a bit cooler and **smoke projections are showing the more dense smoke remaining north of Reno this afternoon**. This will not be a clear day by any means, but we will take what we can get. Otherwise, keep your eyes peeled in the briefing as **much cooler temperatures are on the way** and you may even find a mention of the other "S" word. Despite the smoke and air quality, let's try to make it a good day!

KEY POINTS

- **Smoke Impacts: Dense smoke from the Mosquito Fire continues to impact the region. Southwest winds may bring the initial smoke push farther north compared to the past 2 days, before it shifts south later in the afternoon with WNW winds. Plan on continued degradation of air quality.**
- **Shower and Thunderstorm Chances thru Midweek: Best storm chances will be from the Eastern Sierra (Mono Co) and into Mineral through E. Pershing/Churchill, due to increased dry, southwest flow. Localized heavy rainfall and gusty outflow winds are possible. Area burn scars will see a heightened risk for run-off or flash flooding in any heavier storms.**
- **Cooler temperatures, especially for the weekend: Temperatures will remain a bit below average through Friday, with more cooling into the weekend. Low temperatures in colder Sierra valleys may dip to near freezing by mid-week, spreading to more Sierra sites by the weekend.**

CHANGES FROM PREVIOUS BRIEFING

• Cooler pattern more likely by the weekend and into early next week with enhanced breezes.
• Well below average temperatures and possible showers (even a few snow showers for higher Sierra elevations?) from Saturday night through early Monday.

Attached is a records request from a gentleman with whom I am previously acquainted. We spoke on the phone last Friday as he said he had sent a request previously before I took office. I explained that the Clerk's office had been in transition over the summer and told him to send it to me and I'd make sure it was appropriately addressed. He was happy to submit to me as a new request.

The information he is requesting should not be difficult to gather and provide, but before I commit to that, Heather and I will discuss and develop a plan. We will await your review and acknowledgement before we compile the information for your review.

Good morning,
We are in the process of a Compliance Review, Security & Warranty Inspection by the USDA. This is part of the grant process for the Gold Hill Sewer Project and the Hillside Water Tanks. Many of the grant requirements are for all departments, whether or not you were directly involved in the project or its outcome. As part of the grant requirement, all letterhead must have the following disclaimer:

"In accordance with Federal law and U.S. Department of Agriculture policy, this institution is prohibited from discriminating on the basis of race,color, national origin, sex, age,or disability. (Not all prohibited bases apply to all programs.)
To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W,Whitten Building, 1400 Independence Avenue, SW,Washington, D.C. 20250-9410 or call (202) 720-5964 (voice and TDD). USDA is an equal opportunity provider and employer."
“This institution is an equal opportunity provider."

I found it easiest to add a text box at the bottom of my letterhead and insert the text in a small font size. If your department has its own letterhead, please add the text, and email me a PDF. I would appreciate this at your earliest convenience, as we are out of compliance until this request is completed.

Thanks,

Importance: High

Hi Jim-

Tim and I will come in at 6:00am and grab tools and head down to Station 72. I don't have keys/access to that back room so make sure someone is there or lit is left unlocked please!

We should be on-site by 6:30 before the polls open. Worst case maybe use Tim's cellphone as a hotspot!

Always something with technology! You didn't think this was going to be easy, right?!

Subject: VCH Station 72 WiFi Problem

We just got word that the wifi equipment at the VCH fire station on Cartwright is having problems. The Poll Workers that visited the station to review set-up plans were not sure of the specific problem but said it was something to do with the power outage earlier today in the Highlands and that the wifi keeps "kicking off". Clearly I am concerned as I need to have wifi at the station tomorrow for voting. I have several other issues to resolve in our prep for tomorrow and it would really help me out if you all could look into and fix this problem.

I'm available at the office probably till well past 5, and my cell# is 775-847-0796.

Thanks,

Jim – I can't say for sure as we do not use the Technician card at all after polls are open. During the voting period only the poll worker card and its code are used for both the ICXs and Kiosks. I don't know if the difference in the access permissions would create an issue or not. Perhaps Megan could clarify?

In Storey we are having a problem where the activation chip card from the Votec kiosks is not activating the ICX terminal for voter use. Is anyone else having a similar problem and if so, have you discovered a remedy to the malfunction? We are in communication with Votec and Dominion but have not found a remedy to date. The machines worked as designed during the Primary.

Any feedback and direction from others who have experienced something like this would be much appreciated. Call or email per the contact info below.

Also the other thing that can sometimes cause issues is if the chips on the back of the voter cards get grimy they can stop working. Are workers are trained to wipe the cards periodically with one of those eyeglass cleaner soft material sheets that we get from the vendors at conferences. Again that is not a consistent problem but it has happened.

Good evening everyone.

Davies Claims Solutions (formerly Alternative Service Concepts) is the third party administrator for the Nevada Public Agency Insurance Pool. You are receiving this email because your respective entities are members of NPAIP.

Wendy Maddox reported the above referenced request to preserve records to Marshall Smith at NPAIP. The POOL has retained Jackie Nichols with Marquis Aurbach to prepare a memorandum of law to be distributed to you all to promote a consistent policy amongst NPAIP members. We ask that you do not shred any documents until the memorandum is distributed to you. I am hoping to have it this week. You will note from Jackie's email below that she agrees with Mark Wlaschin's analysis.

Please forward this email to your respective District Attorneys to advise them of this and copy anyone else within your entities who may have a need to know.

Also, may I ask that you forward me the requests each of your entities received?

Thank you very much.
Donna

Hi Donna,

In reviewing this, I agree with analysis by Mark Wlaschin. I would say that the statute requiring destruction controls, unless there is a good faith reason to believe that litigation will ensue. I have not seen those letters to any other clients. But I can get you a quick memo on the law regarding destruction of evidence in Nevada.

Subject: RE: Weekend Update

Good morning,
In case it helps, here are a few considerations in determining whether a litigation hold notice is sufficient to require a person to preserve records. These are the things your DA will likely be considering, and they are provided here so you understand what the DAGs and I talked about.
The Sedona Conference is a conference that opines on electronic discovery issues that arise in litigation. They are widely viewed as a leading authority on electronic discovery issues. They've explained that the duty to preserve following a threat of litigation should focus on whether the litigation is credible. Factors they've identified for that analysis include:

- The nature and specificity of the notice of potential claim or threat
- The person or entity making the claim
- The business relationship between the accused and accusing parties
- Whether the threat is direct, implied, or inferred
- Whether the party or counsel making the claim is known to be aggressive or litigious
- Whether a party who could assert a claim is aware of the claim
- The strength, scope, or value of a known, reasonably anticipated, or threatened claim
- Whether the organization has knowledge or information about similar claims
- The relevant experience in the industry with regard to such claims
- Reputable press or industry coverage of the issue, either directly pertaining to the organization or regarding complaints against others similarly situated
- Whether a party has retained counsel or is seeking advice of counsel in connection with defending against or filing a claim
- Whether an organization that is considering bringing a claim has begun to mark documents to indicate that they fall under the work-product doctrine
- Whether a potential claimant has sent or received a demand, cease-and-desist, or complaint letter

AMERICAN OVERSIGHT

If a court concludes that a party should have preserved materials but didn't, it can impose sanctions ranging from telling a jury that they should infer from the fact of shredding/deletion that there was damaging information in the deleted materials, to imposing case-concluding sanctions and deciding against the party that shredded/deleted the materials.

Ultimately, the discussion between you and your DA will come down to the mandatory deletion language in NRS 293.391, and whether or not a specific demand to retain the documents is legitimate based on the above considerations. Even if you decide it's not, unfortunately there's always the risk a court could disagree.

Reading over this now, I don't know if it helps much, but please let me know if you have any questions.

Happy Labor Day.

In reference to #2 below, I am curious which Counties have received a request to keep records from the 2020 Election. We received one and are in discussion with our DA on how to proceed.

If you received one, are you going to keep the election material or do you plan to destroy it based on the request not being legitimate?

If you prefer to text me instead of email, I would be fine with that. 775-291-2123.

Good afternoon.
Here are a couple minor updates in red regarding the topics I notified you about on Friday:

1. *No update yet regarding the challenge of AG candidate John Kennedy. I turned in what I had to the DAGs and they provided it to the courts on Friday afternoon ~4:45 pm. If I hear anything, one way or the other, I will be sure to let you know and keep you as updated as possible. It sounds like the next step will be a hearing on Tuesday or Wednesday to discuss the next steps. I will be sure to get the text for the signs for your polling locations as soon as possible. Libertarian AG candidate John Kennedy is not a lawyer. This was only identified to us a few weeks ago, well after the challenge period, by one of the other candidates Ms. Sigal Chattah. We are not legally able to do anything at this point without a court order (the challenge period ended the first week of April). Yesterday afternoon, during the first hearing,**the judge asked us to inquire about how much it would cost, or if it would even be possible to put an extra notice in the mail ballots that states he is unqualified to be AG and to ignore him**. I've started calling and asking some of you for quotes and will be in touch today. If you are able to get that, please email, call, or text me so I can compile the information for the courts. **If directed by the courts to do this, we will provide the finalized language for both the mail ballot notice, as well as the signs**. At a minimum, there will be a requirement for signs to be posted, similar to what we did during the Primary when the same thing happened with the DEM AG candidate Mr. Mackie.
2. *A legitimate-looking request came in to at least one county about retention of 2020 general election materials. I've copy/pasted from the email below. If you get this request, please let me know and start discussing it with your DA to determine if it is legitimate enough to warrant preservation of materials from the 2020 general election beyond the 22 month retention period. It came from**Karine Sarkisian** <Karine.Sarkisian@kennedyslaw.com> but it looks to be limited to Dominion Voting Systems and may not be sent to Carson City (possibly Lander though since Lander had been using DVS back during the 2020 general election).We have received a number of different form letters purporting to be legal documents that demand the retention of materials from the 2020 election cycle beyond the 22 months identified in federal and state law. I understand that many of you have as well. To date, we do not believe we have received a valid and legitimate request that would actually require such an action on the part of the Secretary of State. As we all continue to get these type of form letters, please remember that each requests warrants a separate examination between you and your County DA in order to determine if it is legitimate. Things your DA may want to consider include the mandatory destruction language inNRS 293.391(1) which states, "*All materials described by this subsection must be preserved for at least 22 months, and**all such sealed materials must be destroyed immediately after the preservation period**. A notice of the destruction must be published by the clerk in at least one newspaper of general circulation in the county not less than 2 weeks before the destruction*" and also legal sources relating to when a party reasonably anticipates litigation such that materials must be preserved.

AMERICAN OVERSIGHT

Here's the text of the request:

DearSir or Madam:

Our firm represents Sidney Powell, Esquire, and/or Sidney Powell, P.C. in connection with the following matters:*US Dominion, Inc. et al. v. Sidney Powell, et al.*(21-CV-0040 (CJN) (D.C.C.));*Smartmatic USA, Corp. v. Sidney Powell* (21-cv-02995 (CJN) (D.C.C.));*Majed Khalil v. Fox News Corporation, et al.* (21-cv-10248) (LLS) (S.D.N.Y.)); and *Eric Coomer v. Donald J. Trump for President, et al*. (20-cv-34319(Col. Dist. Ct.)) (the "Lawsuits"). Among the issues in the Lawsuits are the tabulation of votes in the 2020 Presidential Election (the "Election") by voting machines manufactured by US Dominion, Inc., Dominion Voting Systems, Inc. and/or Dominion Voting Systems Corporation; the operation of such machines; any logs kept by the machine hard drives and any monitoring/EDR systems or capabilities then existing in connection with those machines and access to those machines; any security measures implemented for any potential vulnerabilities of those machines, and the software they employed. Similar issues also involve voting machine software manufactured by Smartmatic USA, Inc. (together with the Dominion voting machines, collectively referred to as the "Voting Equipment"). This county has been identified as having possession, custody, and/or control of relevant documents, records, objects and/or or electronically stored information (ESI) relating to the Lawsuits, and you have been identified as an appropriate county election official to contact in connection with the possession, custody, and/or control of such information. We request that you undertake all actions to preserve, physically and forensically, all such information.

In particular, we request that you preserve all copies (hard and electronic copies) of all documents, objects, and ESI relating to the use of Voting Equipment in the Election, including the Voting Equipment itself. For the purposes of this request, ESI includes, but is not limited to, databases, networks, computer systems (including legacy systems), servers, archives, backup and disaster recovery systems, tapes, disks, drives, cartridges, laptops, internet records, EDR or other monitoring detection services or capabilities, and/or other storage media relating to the Voting Equipment and its use in the Election. The term "documents" includes, but is not limited to, handwritten notes, summaries, letters, E-mails, correspondence, memoranda, reports, tabulations, calculations, external and internal literature, notes, charts, and drafts of all such documents that mention or relate to the use of Voting Equipment in the Election. The foregoing list is not exhaustive; it is provided by way of example only, and all documents relating in any way to the use of Voting Equipment in the Election should be preserved. In furtherance of this request, please suspend all scheduled destructions, exfiltration, spoliation, and/or deletion, automated or otherwise, in the county's systems and/or the Voting Equipment pertaining to the requested information. If you are not sure whether particular documents, records and/or ESI should be retained, please err on the side of caution.

To the extent that you do not comply with this request, we reserve all rights under applicable law.

Thankyouforyouranticipated cooperation.

3. We have also seen requests for 2020 general election ballot images and the CVR. The CVR, as previously identified (see attached), is a document that may be provided to the public. Ballot images are not. If you or your legal counsel have any questions about either of these matters, please don't hesitate to reach out. Thanks.
4. We're updating our formal guidance about stamping "cancelled" on mail ballots and will have that out next week. The big change is that the stamp has to be on the ballot itself, and cannot just be on the envelope.

Please let me know if you have any questions.

As per the message below, Naviant, Inc. has acquired PDI (Precision Document Imaging), our provider of "OnBase" document storage and retrieval software and Agenda Management software. I am not knowledgeable of our current contract with PDI, its terms and renewal date. I am reaching out to the most recent contact we worked with at PDI for account update and info. In the meantime, I guess Keith and I need to review of the new SLA/Master Terms for anything we need to address, and Jennifer, we need to set-up Naviant as a vendor. I will begin to review the attachments and will highlight any issues I find. Obviously, this is a follow-up for after the holiday.

Happy Thanksgiving!

AVAILABLE MEANS, SUCH AS VALUABLE PAPERS INSURANCE AND CYBER LIABILITY INSURANCE. NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS SECTION, IN NO EVENT SHALL COMPANY BE LIABLE TO CUSTOMER OR ANY THIRD PARTY FOR ANY SPECIAL, CONSEQUENTIAL, INCIDENTAL, PUNITIVE, INDIRECT OR SIMILAR DAMAGES (INCLUDING, WITHOUT LIMITATION, LOST PROFITS, LOSS OF USE, LOSS OF REVENUE, DATA LOSS OR OTHER LOSSES ARISING FROM VIRUSES, RANSOMWARE, CYBERATTACKS OR FAILURES OR INTERRUPTIONS TO NETWORK SYSTEMS) ARISING OUT OF THIS AGREEMENT (WHETHER FOR BREACH OF AGREEMENT, TORT, NEGLIGENCE OR OTHER FORM OF ACTION), OR ITS CANCELLATION, IRRESPECTIVE OF WHETHER COMPANY HAS BEEN ADVISED OF THE POSSIBILITY OF ANY SUCH LOSS OR DAMAGE. TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL COMPANY'S AGGREGATE LIABILITY UNDER THIS AGREEMENT EXCEED THE AMOUNT PAID BY CUSTOMER DURING THE TWELVE (12) MONTH PERIOD IMMEDIATELY PRECEDING THE OCCURRENCE OF THE EVENT DIRECTLY GIVING RISE TO THE LIABILITY. THE PARTIES AGREE THAT THE LIMITATIONS ON LIABILITY SET FORTH IN THE TERMS ARE INDEPENDENT OF ANY EXCLUSIVE OR LIMITED REMEDIES AND SHALL SURVIVE AND APPLY EVEN IF SUCH REMEDIES ARE FOUND TO HAVE FAILED OF THEIR ESSENTIAL PURPOSE. NO ACTION ARISING OUT OF OR RELATED TO THE AGREEMENT MAY BE BROUGHT BY CUSTOMER MORE THAN ONE (1) YEAR AFTER SUCH CAUSE OF ACTION HAS ARISEN.

12. CONFIDENTIAL INFORMATION. The separate Nondisclosure Agreement between the parties and which is part of the Agreement shall govern the protection of any confidential information disclosed by either party hereunder. If there is no Nondisclosure Agreement, all information disclosed by either party regardless of the form in which it is disclosed, is, and shall remain the confidential information of disclosing party ("Confidential Information"). The information contained in this and other Agreements between the parties is confidential and shall not be disclosed by either party without the prior written consent of the other party. Both parties shall protect such Confidential Information from disclosure to others with at least the same degree of care it exercises in protecting its own Confidential Information, but in no event less than a reasonable degree of care. The parties shall not duplicate or reproduce any Confidential Information without the express prior written consent of disclosing party. The parties shall not use any Confidential Information except as is contemplated by the Agreement. The parties shall enforce against its employees and agents these obligations of confidentiality. Notwithstanding the foregoing, information disclosed shall not be deemed to be Confidential Information if (a) receiving party establishes that the information was already known to receiving party, without any obligation to keep it confidential, at the time of its receipt from disclosing party, as evidenced by documents in the possession of receiving party prepared prior to disclosing party's disclosure, or (b) receiving party establishes that the information was publicly known at the time of its receipt by receiving party from disclosing party or has become publicly known other than by a breach of the Terms or other action or omission by receiving party. The Terms shall not prevent either party from disclosing Confidential Information to the extent required by law, provided that receiving party promptly notifies disclosing party to allow intervention and cooperates with disclosing party to contest or minimize the scope of the disclosure.

13. NON-SOLICITATION. During the term of the Agreement and for a period of two (2) years after the termination of the Agreement on any basis, neither party shall, directly or indirectly, solicit or induce, or attempt to solicit or induce, any employee or consultant of the other party to terminate their employment with or services to their employer. Each party recognizes and agrees that compliance with the preceding sentence is reasonable and necessary for the protection of each party's interest in their respective employees and consultants. In the event of a breach or any threatened breach, the parties acknowledge and agree that no adequate remedy at law exists for, and such provisions may be enforced by, any equitable remedy, including injunction, without bond and without limiting right to proceed to remedy at law. If the period of time or scope should be judged unreasonable in any court proceeding, then the parties agree that the court shall enforce such requirements and the period of time or scope shall be reduced by such time or scope that is deemed unreasonable, so that such non-solicitation provision may be enforced using such period of time or scope as is judged to be reasonable.

If Company cancels the Agreement as set forth above, Customer agrees to pay to Company all amounts due for Software ordered and Services performed prior to the effective date of termination and to indemnify and hold Company harmless from any amounts due by Company to third parties as a result of the cancellation. This Section and Sections 3, 4, 6, 8, 9, 10, 11, 12, 13, 14, and 19 shall survive any cancellation of this Agreement.

16. SOFTWARE AND SERVICES. Customer may only use the Software expressly permitted by the license granted in the applicable EULA. Without limiting the generality of the foregoing, the Software may not be resold, leased, sublicensed, distributed, or transferred in any way except as expressly permitted under the applicable EULA. Company may make any changes to the Software or Services or discontinue any of the Services at Company's sole discretion. The parties acknowledge and agree that Company, in the course of performing Services, may use or incorporate its pre-existing materials and other intellectual property developed or otherwise owned by Company ("Pre-Existing Intellectual Property"). Company shall at all times retain all rights to such Pre-Existing Intellectual Property and any Customer specific by-product of the utilization of Pre-Existing Intellectual Property for purposes of completing Services shall be considered intellectual property of Company and Customer is granted a perpetual license to utilize any by-product that is derived as a result of the requirements of the Agreement.

17. INDEPENDENT CONTRACTOR. In performance of all Services, Company shall be deemed to be an "independent contractor" and as such, shall not be entitled to any benefits applicable to the employees of the Customer. 4. Naviant Software Support Protocol

Naviant maintains a dedicated help desk to provide the first line of support to receive and resolve support inquiries for all software solution implementations. By utilizing this streamlined approach to support, Naviant ensures that each customer inquiry will be answered in a timely and efficient manner, minimizing disruption to both system operation and work processes, and that all issues are reported and tracked accordingly. Naviant customers are provided with a dedicated toll-free number to use when calling in for support, as well as a dedicated support email address to email support inquiries. When contacting Naviant Support, the Customer will be connected directly with a help desk technician, the issue will be logged into the Naviant's Support System, assigned a reference number, and the Customer will receive an email confirmation for tracking purposes. Naviant's standard response time objective is to respond to Customer support inquiries within one hour during Naviant standard business hours; however, Naviant's response time protocol is not to exceed three hours for either callback phone support or remote access to resolve the issue. If the issue requires further investigation, status updates will be provided in a timely manner until the issue is resolved.

5. Customer Responsibilities

A. *Onsite Support*. When support is performed at Customer's premises, Customer agrees to provide reasonable and safe access to the software and equipment consistent with the requirements of these SLA Provisions and shall be liable for any damages to persons or property arising from its failure in this respect.

B. *Operating Environment*. Customer is responsible for maintaining the appropriate operating environment for their system, including but not limited to hardware, software, and disk space. Customer must also provide appropriate electrical power and protective devices. If an appropriate operating environment causes system problems, Naviant will complete a problem definition and resolution effort. If the system problems may be resolved by a recommended change/upgrade to components that are required by the system, Customer at its expense will be responsible for executing said upgrade. If said upgrade is not executed, then at Naviant's option the Software Support Level Agreement may be terminated. System (hardware) enhancement necessitated by a software upgrade must be purchased by Customer prior to the installation of such software upgrade. Customer acknowledges and agrees that Naviant requires online access to the software installed on Customer's systems in order for the software manufacturer to provide maintenance and for Naviant to provide support. Customer shall install and maintain, at Customer's sole cost and expense, communications software approved by Naviant. Customer shall establish and maintain at its sole cost and expense, an adequate or dedicated connection to facilitate the provision of Maintenance and Support Services.

Unless specifically agreed to in writing, Software Support Level Agreements shall not cover: (i) Support for scripting, API or workflow changes or additions by Customer; (ii) Customized application functions or device support for the software and/or the hardware utilized by the software; (iii) Conversions for the Customer, whether such conversion be to data or to programs; (iv) Onsite support, training, and implementation services beyond the terms specified; (v) Installation of software version upgrades; (vi) Annual system audits not outlined in Section 1; (vii) Support calls related to issues traced to a Customer action, inaction, non-Naviant supported hardware, or non-Naviant supplied or supported software not covered under these SLA Provisions.

Software Support Level Agreements do not provide support for any hardware or software not purchased from Naviant that is used with or attached to the system, or any hardware or software that is required to make the supported system work with excluded items. Any services provided by Naviant to provide compatibility with non-Naviant hardware and software and identify and resolve problems caused by these excluded items will be charged to Customer at Naviant's prevailing Professional Services Group rates. Naviant is not responsible for any damages resulting from Customer's improper use of the system, from the Customer's failure to follow standard back-up procedures, or from any consequences arising from failure of the various computer media used. The use of an unauthorized part, component, modification, or person to effect repairs or changes will cause the Software Support Level Agreement to be null and void at the option of Naviant. Software Support Level Agreements do not cover software reinstallations due to Customer computer moves, relocations, or replacements.

7. Term

A. Software Support Level Agreements are effective from the commencement date and shall continue for an initial minimum term of one (1) year, unless otherwise stated. Unless Customer notifies Naviant of intent to terminate Software Support Level Agreement in writing via certified mail or registered mail within thirty (30) days prior to expiration of the initial term, the Agreement shall automatically renew for an additional one (1) year term and shall thereafter renew for additional one (1) year terms until canceled by either party in writing via certified mail or registered mail within thirty (30) days prior to the anniversary date of any successive one (1) year term. Naviant shall have the right to change the rates contained in the Software Support Level Agreement for any aforementioned successive one (1) year term upon written notice to Customer at least forty-five (45) days prior to any anniversary date of the Software Support Level Agreement. Payment must be received within 20 days of renewal invoice date; if Software Support Level Agreement lapses and Customer calls for service, Customer will be billed at Naviant's then prevailing Time & Materials rate for the service call and Naviant will require a PO or credit card prior to scheduling service. The Software Support Level Agreement may be reinstated *after* the service call has been resolved and will be valid for a 12 month term. All Software Support Level Agreements shall be billed for one year in advance.

B. Notwithstanding the foregoing, this Software Support Level Agreement may be terminated in whole or in part at the option of Naviant in the event that (i) Customer defaults in payment or performance of any of its liabilities or obligations pursuant to the SLA Provisions and such default continues for a period of thirty (30) days after written notice thereof specifying the default or (ii) Customer becomes the subject of any voluntary or involuntary bankruptcy; insolvency, reorganization or liquidation proceedings; makes an assignment for the benefit of creditors; or admits in writing its inability to pay its debts when due. The right of termination provided in this subparagraph B is in addition to any other remedy available to Naviant at law or in equity with respect to default by Customer or in any proceeding referred to in clause (ii) hereof.

8. Software Licensing Agreement

A manufacturer software licensing agreement for each software product utilized in a Customer's system must be in effect at all times during the term of the Software Support Level Agreement.

Reform the Insurrection Act

This week, the Brennan Center submitted a proposal to the January 6 committee on ways to reform the Insurrection Act, which allows the president to deploy the military domestically to quell civil unrest or enforce the law in a crisis. The dangerously vague and outdated law is ripe for abuse by a future president. Congress must update the law so that it guards against power grabs while preserving the ability to deploy troops in a **true crisis**.

The Dos and Don'ts of Redistricting Reforms

Anti-gerrymandering reforms enacted in the last decade have had mixed results. While some yielded politically balanced districts, others required court intervention or resulted in unfair maps. The distinguishing factor between states with successful reforms and those that fell short is whether they removed politicians from the line-drawing process. The latest redistricting cycle makes clear that for reforms to work, they must be designed to **overcome partisan interests**.

What's Behind the SCOTUS Legitimacy Crisis

Major decisions last term have given the public ample reason to think that the Supreme Court is not saying what the law is, but rather what the majority of justices simply prefer it to be. An assessment of the recent overreach, unexplained orders, and ethical lapses clearly shows a legitimacy crisis of the Court's own making. If the institution is to regain public trust, the justices must prove willing to uphold the law**without serving their personal preferences**.

AMERICAN OVERSIGHT

What to Watch for on the Road to the Midterms

A new **interactive tool** by the Brennan Center and the Alliance for Securing Democracy compiles election- and voting-related social media posts by candidates, news outlets, and other prominent messengers. With the midterms fast approaching, this tool will allow users to keep track of emerging narratives around key topics such as election denial and the spread of misinformation.

Improving the Census

The census is crucial to American democracy, determining processes such as the number of House seats and federal dollars allocated to each state. But the 2020 census was threatened by underfunding, executive interference, and pandemic-related issues. As such, the final headcount missed 18.8 million people, undercounting communities of color at disproportionate rates. To create a census that is accurate and equitable, legal and policy reforms are needed to **address long-standing challenges**.

A Missed Opportunity for Fresh Starts in New York

For the second time, New York's legislature has failed to pass the Clean Slate Act, which would automatically seal old criminal records. The bill would remove barriers to housing, employment, and education for New Yorkers whose lives remain affected by convictions long after serving their sentences, and it would provide a significant boost to the state's economy. With as many as 1.4 million people poised to benefit directly — not to mention society at large — lawmakers should make it a **priority to pass the bill next year**.

Democracy on the Brink
Wednesday, September 28 // 6–7 p.m. ET
Ahead of the midterms, efforts to interfere with voting are in full swing. The implications are serious, especially for Latino and Black communities. State lawmakers are responding to false claims of a "stolen" election with legislation that restricts the right to vote. These communities also face the growing problem of misinformation. For an inside look at what these issues mean for the 2022 elections and beyond, join the virtual premiere of our recent conversation at the convention of the national associations of Black and Latino journalists. This event will include a live text chat Q&A with Brennan Center election expert Sean Morales-Doyle.**RSVP today.**

What's Prison For? In Conversation with Bill Keller

Thursday, October 6 // 6–7 p.m. ET

With roughly 2 million people behind bars, America's prison system doesn't exactly have a reputation for empathy — but could that change? Pulitzer Prize–winning journalist Bill Keller has spent years examining what is possible if prisons focus on preparing the incarcerated to be good citizens when they return to society, which the overwhelming majority will. In his new book,*What's Prison For? Punishment and Rehabilitation in the Age of Mass Incarceration*, he shows us how we can reform our prisons and why there's a reason for cautious optimism. Rehabilitation, he argues, is not only an investment in public safety but a moral imperative. Keller will be joined by moderator Jason D. Williamson, executive director of NYU Law School's Center on Race, Inequality, and the Law.**RSVP today.**

Congress must update the law so that it guards against power grabs while preserving the ability to deploy troops in a **true crisis**.

The Dos and Don'ts of Redistricting Reforms

Anti-gerrymandering reforms enacted in the last decade have had mixed results. While some yielded politically balanced districts, others required court intervention or resulted in unfair maps. The distinguishing factor between states with successful reforms and those that fell short is whether they removed politicians from the line-drawing process. The latest redistricting cycle makes clear that for reforms to work, they must be designed to **overcome partisan interests**.

What's Behind the SCOTUS Legitimacy Crisis

Major decisions last term have given the public ample reason to think that the Supreme Court is not saying what the law is, but rather what the majority of justices simply prefer it to be. An assessment of the recent overreach, unexplained orders, and ethical lapses clearly shows a legitimacy crisis of the Court's own making. If the institution is to regain public trust, the justices must prove willing to uphold the law**without serving their personal preferences**.

What to Watch for on the Road to the Midterms

A new**interactive tool** by the Brennan Center and the Alliance for Securing Democracy compiles election- and voting-related social media posts by candidates, news outlets, and other prominent messengers. With the midterms fast approaching, this tool will allow users to keep track of emerging narratives around key topics such as election denial and the spread of misinformation.

AMERICAN OVERSIGHT

Improving the Census

The census is crucial to American democracy, determining processes such as the number of House seats and federal dollars allocated to each state. But the 2020 census was threatened by underfunding, executive interference, and pandemic-related issues. As such, the final headcount missed 18.8 million people, undercounting communities of color at disproportionate rates. To create a census that is accurate and equitable, legal and policy reforms are needed to **address long-standing challenges**.

A Missed Opportunity for Fresh Starts in New York

For the second time, New York's legislature has failed to pass the Clean Slate Act, which would automatically seal old criminal records. The bill would remove barriers to housing, employment, and education for New Yorkers whose lives remain affected by convictions long after serving their sentences, and it would provide a significant boost to the state's economy. With as many as 1.4 million people poised to benefit directly — not to mention society at large — lawmakers should make it a **priority to pass the bill next year**.

VIRTUAL EVENTS

Democracy on the Brink
Wednesday, September 28 // 6–7 p.m. ET
Ahead of the midterms, efforts to interfere with voting are in full swing. The implications are serious, especially for Latino and Black communities. State lawmakers are responding to false claims of a "stolen" election with legislation that restricts the right to vote. These communities also face the growing problem of misinformation. For an inside look at what these issues mean for the 2022 elections and beyond, join the virtual premiere of our recent conversation at the convention of the national associations of Black and Latino journalists. This event will include a live text chat Q&A with Brennan Center election expert Sean Morales-Doyle.**RSVP today.**

Spanish language interpretation will be available for this event featuring live text chat Q&A with Roberta Braga of the Equis Institute.

What's Prison For? In Conversation with Bill Keller

Thursday, October 6 // 6–7 p.m. ET

With roughly 2 million people behind bars, America's prison system doesn't exactly have a reputation for empathy — but could that change? Pulitzer Prize–winning journalist Bill Keller has spent years examining what is possible if prisons focus on preparing the incarcerated to be good citizens when they return to society, which the overwhelming majority will. In his new book,*What's Prison For? Punishment and Rehabilitation in the Age of Mass Incarceration*, he shows us how we can reform our prisons and why there's a reason for cautious optimism. Rehabilitation, he argues, is not only an investment in public safety but a moral imperative. Keller will be joined by moderator Jason D. Williamson, executive director of NYU Law School's Center on Race, Inequality, and the Law.**RSVP today.**

Hi Ashley,

The purpose of my outreach is because I have recently moved teams internally within Oracle and am now aligned to support Storey County Elections alongside your account representative Robert Rosenberg.

Are you available next week for introductions and a discussion on how we can be a better partner with new projects on the horizon, cover the announcements Oracle made recently that are relevant to your organization, and help your team leverage the current Oracle technology?

Do you have availability Monday 3-5 pm PST?

Looking forward to speaking with you more in-depth.

Hello, Fellow Volunteers!

Thank you for participating in our Election Observations Training sessions!

Thank you to all who have been working at the polls for the Nevada 2022 Elections!

Thank you to all who have observed, initiated action for and documented incidents of election malfeasance!

Tomorrow is the last day of Early Voting and next Tuesday, November 8. 2022, is one of the most important Election Days in our Country's history.

If you plan to observe on one or both of these days, please especially watch for the following:

Reference LCB File No. R093-21 Sec. 8. Subsections 1., 2., 3., 4., 5. 1. **The county clerk shall establish and use a retrieval team to collect and transport mail ballots from the ballot drop boxes established in the county to the receiving center or to the central counting place,** as directed by the county clerk. If necessary, the county clerk may use multiple retrieval teams to collect and transport the mail ballots. 2. **A retrieval team shall be composed of at least two persons.** If a ballot drop box is established within a polling place, the retrieval team must, if practicable, be composed of two members of the election board who are of differing political parties.

If you witness a situation where mail ballots are being collected from a ballot drop box for the purposes of being delivered to the receiving center or to the central counting place and the retrieval team does not consist of at least 2 persons…THIS IS AN INCIDENT

Reference: NRS 293.269917 3. If a mail ballot has been sent to a voter who applies to vote in person at a polling place, including, without limitation, a polling place for early voting, the voter must, in addition to complying with all other requirements for voting in person that are set forth in this chapter, surrender his or her mail ballot or sign an affirmation under penalty of perjury that the voter has not voted during the election. **A person who receives a surrendered mail ballot shall mark it "Cancelled."**

If you witness a situation where a person who receives a surrendered mail ballot does not mark the mail ballot "Cancelled"…THIS IS AN INCIDENT

Reference NAC 293.160 Subsection 5. When it is time to close the polls, a member of the election board **shall proclaim that the polls are closed for voting.**

If you witness a situation where a member of the election board does not proclaim that the polls are closed for voting at the time the doors of the polls are to be closed…THIS IS AN INCIDENT

Reference NAC 293.247 1. As used in *NRS 293.305 and 293C.297 and NAC 293.217, a person is waiting to vote at the hour of closing the polls if the person: (a) Is physically in line waiting to vote; or (b) Has entered the polling place. 2. **After determining who is the last person waiting to vote at the time that the polls close, a member of the election board shall:** (a) Place a sticker or other distinguishing mark on the last person waiting in line to vote; or (b) If the last person waiting to vote does not want a sticker or other distinguishing mark placed on him or her, physically stand behind the last person waiting in line to vote, **to ensure that no other**

person enters the polling place to vote.

If you witness a situation where a member of the election board does not go through the process of determining the last person waiting to vote at the time that the polls close, in the manner pursuant to NAC 293.247, Subsection 2., ensuring that no other person enters the polling place to vote…THIS IS AN INCIDENT

If you encounter any of these incidents, refer to your reference document for "Steps you can take for addressing an incident".

Hooray, its Monday !
Oh, my its Oct 17th.
So it was a calm and beautiful week for sure. Should continue through this week but we will see an actual change to Fall weather on Saturday. It always happens in the third week of October...at least that has been my experience for the past ~~60 70 75~~ humm.. ..years. Probably breezy on Saturday. So enjoy these last few days of pre-Fall weather.
Guess we can't call this period of nice weather what I have always known it as.....
Got my pellets in and half the wood stacked. How about you?
CHECK the attached graphics. Gives a great picture of what to expect over the next 8 to 14 days.

Weather: 1878, October 17: Clear and cool but pleasant. My secret channeling contact said he got a barrel of apples shipped to him from Nevada City that arrived today. There was a great play at Piper's last evening. Mr. and Mrs. J.C. Williamson in the play "Struck Oil". It was a "bully" play with a crowded house.

DID JA KNOW: Cont. the Great Fire

Thefire burned itself out by noon.

a. North to the First Ward School
b. South to the Odd Fellows Hall and Marye building(where the post office is)
c. West to Stewart and Summit streets
d. East to about “L” street

Twothousand people were left homeless. Camped out in the sagebrush in cold fall weather. Help came from Carson and Reno with blankets,clothing, money and supplies. Even asfar away as Nevada City, California.

Have a great week. May not be much else to report till the end of the week as the weather is pretty calm. No Hershey bars today.

Benign Weather Through Friday

Good Monday morning all, and we hope you had a great weekend! The weather stays benign through Friday, so enjoy the last stretch of this amazing weather we've had, as some changes are looking more likely with a pattern change this weekend. Here's the latest...

A cold front pushing in from the northwest on Saturday will bring a notable pattern change, with temperatures plunging near to below average along with increased winds. Good day, again.
Nothing exciting in the weather department except for some pretty gusty winds as we move through into the afternoon. Remaining nice and warm for outdoor stuff getting ready for the hard fall into winter (ugh!). Sounding like we will continue the winter as a colder one, which does not necessarily mean any wetter or more snow....but we can hope for a good snow year. If anyone knows of any good snow dances *(no, hip hop won't work)* we should get to sharpening up those skills. Temps will stay in the upper 70s for the Comstock, VC/VCH areas and lower to mid 80s for the lowlands of the County. As always, its interesting to see what the TV progonosticators*(thats not a bad word)* come up with because each station is usually a bit different.

So continue on your quest to keep these nice early fall temps hanging around and a little moisture on occasion.

COMSTOCK WEATHER, Sept 28, 1878: Clear, cool, pleasant. A sprinkle of snow on the Sierra to the west can be seen. Just enough sprinkles last night to keep the dust laid down *(VC/GH had water wagons that went around and sprinkles the streets to keep the dust down as needed)*

DID JA KNOW **OK, so here we go into myth bustin' mode**
I hear this so often. Tunnels under the boardwalks for the Chinese. There are NO tunnels under the C street boardwalks for the Chinese to get around town. They walked around town like everyone else ! That myth, I suspect, starts from an assumption that VC had the same thing as Portland or Seattle. A person told me this morning that they were on a tour and the tour guide *(must have been Mickey Mouse)* shined a flashlight down through the boardwalk and you could see 15 feet down. This occured on the boardwalk where the Black and Howell building once stood. OF COURSE you can see down because the building was torn down in the early 1960s as it was falling over. The only openings below the boardwalk occured on the east side of C street and were used to access the lower section of the building for accepting their freight shipments or coal for heating. *I am so tired of these kinds of myths.*
No, they did not keep 90 bodies in storage during the winter...imagine the stink without embalming. No, there were not 150 millionaires. No, there was no such thing as Millionaires Row. No, this was not a cowboy town. I could go on, but like the advert for some talk show says, *"I could go on and on,....and I just might".* 😂😂😂

ENJOY THIS SUPER EARLY FALL WEATHER.

Joe

Good morning:
Well we have certainly turned into the fall section of the year.
Saturday we had a 20 minute snow flurry with no accumulation. But the water puddle was frozen Sunday morning.
Chilly mornings for sure.
Looks like we will stay in the fall type temperatures.
Not a lot to report in the weather department as no major storms on the horizon.

WEATHER, October 24, 1878: Cool day, no storm.

DID JA KNOW: Great Fire:

1876the Bonanza Firm had twelve mills in operation, including the new ConsolidatedVirginia an California mills, reducing 630 tons every 24 hours. At this point the control of the leadingmines were in the hands of the three groups…..Bonanza Firm, Bank Crowd and J.P.Jones.

1876business was booming, railroad was gorged with trainloads of ore and lumber andgeneral freight. C St thronged withpeople and wagons to be almost impassable. Evenings the crowds filled the street and sidewalks. Life in the saloonsand gambling halls and restaurants went on night and day. Yet it was remarkably law-abiding for amining camp. Dividends paid by the minesand mills was spent in town.

Little late today, had to run into Reno.
Check out the attached carts as they are very informative. We had some rain last night and VC/VCH got wet around and 1pm today, Very nice. Off and on sprinkles.
Looks like good chances for some more rain later this afternoon and into tomorrow. Everything needs the moisture.
Fall begins on Thursday and it will start warming back up. Thats odd. Now we are into the up and down waves of weather for awhile.

WEATHER September 20, 1878: clear and pleasant

Did Ja Know:

Telephone lines for communication were installed in the mines after 1877
Electrical lines were installed after 1887 and followed the miners as they excavated into the mines.
VC continued to have "crank" telephones with life operators until 1976 when we went regular dial phones.

Tips for the Sandwich Generation

Are you caring for an older parent in addition to raising your own child or financially supporting a grown child? If so, you are part of the sandwich generation, the 47% of adults nationwide, ages 40-59, who face multiple responsibilities and competing demands as they support older and younger family members. The following are some tips to help reduce the stress often associated with assuming these roles.

1. **Set boundaries.** Take control of how you spend your time to the extent possible. If you have carved out time for yourself, give yourself permission to say no to something that comes up and lean on another sibling or spouse to help, or schedule the activity for a time that works for you. You don't have to be reactive to every non-urgent issue that comes up. Setting boundaries helps avoid resentment and burnout.
2. **Keep communication open around finances.** Keeping your financial goals in mind while caring for your loved ones is important. Set clear expectations with your parent and adult child around your financial role to avoid any confusions or uncertainty.
3. **Involve others.** Divide up important tasks among multiple family members whenever possible. You might consider a monthly standing meeting to discuss upcoming appointments and needs so that everyone can share in the load.
4. **Know your parents' wishes.** Make sure your parents have an advance directive (including a durable power of attorney). This will reduce the stress of trying to figure things out in the moment and concern over doing the right thing. Consult with a lawyer at no cost through your Employee Assistance Program (EAP).
5. **Assemble a team of professionals.** There are likely professional resources available to help you navigate your specific challenges. Your EAP can help you locate local and nationwide programs and resources that offer guidance, advice, and support.

TWENTY-FIFTH ANNUAL
CASHMAN GOOD GOVERNMENT AWARD
GENERAL INFORMATION

The Cashman Good Government Award honors government entities and individuals who put workplace experience together with ingenuity to make citizen services work better, faster, and cheaper. While the achievement of dollar savings is often emphasized in nominations, the innovative refinements of governmental operations and ingenious changes to processes and procedures that save staff and processing time are equally worthy of recognition. Over the years, recipients have ranged from statewide service delivery approaches to local government departments finding ways to bypass budget shortfalls yet make improvements in citizen services by working from within, sometimes even off the clock. This type of effort goes on every day in Nevada thanks to the dedication and ingenuity of our government employees. Help the Nevada Taxpayers Association focus the spotlight on these outstanding achievements by making a nomination today!

The Cybersecurity and Infrastructure Security Agency (CISA) recently released **a video on Non-Confrontational Techniques for Election Workers Training**. To support election workers in a heightened threat environment, this training emphasizes non-confrontational techniques to help them to recognize potentially escalating situations, determine if emergency response is needed, safely de-escalate, and report appropriately. Election administrators can also use this video for election workers to complement their existing training with techniques to de-escalate potentially violent situations.

Election and Post-Election Processes Toolkit

The EAC created this **Election and Post-Election Processes Toolkit** to assist election officials with voter education efforts and help address misconceptions about the pre- and post-election processes. Election officials in any size jurisdiction can adapt this toolkit to fit their observer and voter education needs, both in-person and online. The toolkit includes customizable educational materials about processes for voters as well as templates for sharing trusted information, combatting mis- and disinformation, and providing information to the media and political parties about the post-voting process.

Videos to Educate Voters on the Results, Canvass, and Certification Process

Many voters want to understand what happens after they vote. Election officials can use these EAC videos to support voter education efforts on social media platforms, websites, and more:

- **WATCH: What Happens After I Vote? - Results, Canvass, and Certification Video**
- **WATCH: What are Unofficial Results - Results, Canvass, and Certification Video**

Guide to the Canvass

The canvass is a culmination of all the data generated during an election cycle. It aggregates and confirms every valid ballot cast and counted, including mail, uniformed and overseas citizen, early voting, Election Day, and provisional ballots. More importantly, it allows election officials to confirm the accuracy of election data and identify potential areas for improvement.

Election officials can find information on and best practices for the canvass process in the EAC's **Guide to the Canvass**. This includes best practices for conducting post-election canvasses, including checklists for key parts of the canvass.

Checklist for Securing Election Night Results Reporting

Election night reporting systems consist of aggregating and displaying unofficial election results to the public, usually through an official website or social media platforms. To assure voters that the data is accurate and protected, election officials can use this EAC **Checklist for Securing Election Night Results Reporting** as a baseline to assess their current election night reporting cybersecurity protocols.

Guide to Election Certification

While the method, scope, and timing of post-election activities vary by state, there are several steps election officials must complete before they certify election results. The EAC's **Guide to Election Certification** breaks this down on the local, state, and federal level with helpful definitions and best practices.

Conducting a Recount - Quick Start Guide

Whether triggered automatically, requested by a candidate, or court ordered, election officials can take several steps to prepare for and conduct efficient and transparent recounts. The EAC's **Conducting a Recount Quick Start Guide** outlines factors election officials should consider from planning through finalizing recount results.

Post-Election Audits – Quick Start Guide

Post-election audits are an important tool to verify election results. The **Post-Election Audits Quick Start Guide** outlines several tips for election officials before, during, and after conducting an audit.

Roundtable Discussion: Election Night Reporting for the 2020 Election

Leading up to the 2020 general election, the EAC hosted a discussion on preparing for election night reporting and press coverage on election results. Speakers offered remarks on issues surrounding misinformation and disinformation, unofficial results, managing expectations, ballots received after the election, and audits. Joining the EAC Commissioners were New Mexico Secretary of State Maggie Toulouse Oliver; Iowa Secretary of State Paul Pate; Brian Carovillano, Vice President and Managing Editor of the Associated Press; and Nate Persily, Professor of Law, Stanford Law School.

Watch a recording of the event on the **EAC's YouTube Channel**. You can find these and additional resources on the **EAC's Clearinghouse for Election Officials webpage**.

Subject: NRS 178.4845 No Contact Orders

Hi all – We have been receiving No Contact orders that don't meet statutory requirements for entry into POP. Our staff wants to help, they want to enter orders as received and they want to protect victims. But we are limited by the statutory authority granted to us by the legislature. Some issues we are seeing across the state include:

- No Contact orders issued as part of sentencing
- No Contact orders issued as a civil protection order instead of using a civil protection order type i.e. Harassment or Domestic Violence
- No Contact orders issued for greater than 120 days, we have received orders that don't expire for as long as two years

The statute for No Contact orders specifies that they are part of a pre-sentence condition, that they must be reviewed every 120 days because they are restricting the actions of a subject who has yet to be convicted, but they can then be extended at that time.

So when we receive orders that don't meet the statutory limitations, we will maintain the files during the time that the orders are valid just as we do when we receive other order types that we do not have the authority to enter into the system such as Orders for Protection of Children or Orders against Workplace Harassment.

We are still waiting for POP to be updated. Currently No Contact orders are manually logged and saved. They will be entered once the system has been updated, starting with the orders that are still currently active at that time (we have a spreadsheet with the dates listed so we can identify these quickly) and when time allows, the orders that have already expired will also be entered to establish the history.

We don't know if the legislature will expand the statute to cover additional uses of No Contact orders. But currently we cannot enter orders issued as part of sentencing or issued instead of another protection order type in the absence of a pending criminal case.

I can see the value of expanding the No Contact orders for these situations. That would allow them to be immediately viewable on JLink for law enforcement and officers would be able to confirm whether the order is still active through dispatch, on the scene when they need that information but we must operate within the limitations of the legislation. We cannot act beyond our authority.

We wanted to communicate with all of the courts to let you know why orders issued that don't meet the statute will not be entered, and also to provide the information for courts who are currently or will be entering their own No Contact orders once that has been updated in POP.

Please reach out with any questions. Thank you!

No Contact Orders:
NRS 178.4845 Court order prohibiting contact with victim: Request by victim; court required to consider request; notification regarding consequences violating order; expiration; renewal of order; transmittal of copy of order to Central Repository for Nevada Records of Criminal History; penalty for viol of order.

1. Before a court makes a determination of bail concerning a person, a victim may request that a court issue an order imposing a condition of release prohibiting contact.
2. A court shall consider a request described in subsection 1.
3. Upon the issuance of an order imposing a condition of release prohibiting contact, the court shall notify the person subject to the order that violating the order may result in:
(a) The person being charged with a misdemeanor;
(b) The modification or addition of any condition of release;
(c) The revocation of bail and remand of the person to custody; or
(d) The imposition of any other penalty prescribed by law.
4. An order imposing a condition of release prohibiting contact, and any modification thereof, expires within such time, not to exceed 120 calendar days, as the court fixes.
5. The court may, before the expiration of an order imposing a condition of release prohibiting contact and upon motion or at the discretion of the court, after notice and a hearing, renew the order for good cause shown.
6. After the court issues an order imposing, modifying, suspending or canceling a condition of release prohibiting contact, the court shall transmit, as soon as practicable and in a manner prescribed by the Central Repository for Nevada Records of Criminal History, a copy of the order to the Central Repository.
7. A person who knowingly violates an order imposing a condition of release prohibiting contact is guilty of a misdemeanor.
8. Nothing in this section shall be construed to require a court to receive a request pursuant to subsection 1 before issuing an order imposing a condition of release prohibiting contact.
9. As used in this section:
(a) "Cancel" includes, without limitation, any act that would effectively terminate a condition of release prohibiting contact, including, without limitation:
(1) The dismissal of the action or proceeding against the person;
(2) A prosecuting attorney declining to prosecute the person;
(3) The conviction of the person; or
(4) The acquittal of the person.
(b) "Condition of release prohibiting contact" means a condition placed on a person who is released pending trial that prohibits the person from contacting or attempting to contact a specific person or from causing or attempting to cause another person to contact that person on the person's behalf.

Hello Jim,
I have been asked if I could be an observer of the Monday, Nov 14, 2022 ballot counting. I'm not sure if you are the person to contact or if there is another person whom I should contact.

What time will the counting take place at the courthouse? If I don't hear from you by Monday, I will be at the court house when it opens to get the information.

Thank you for any information you can provide.

Subject: October EOM Distributions
Attachment(s): "OCT EOM CORRECTION.pdf"

Hi, again.
I ran my numbers in DevNet and Tyler for October. It looks like there is a discrepancy of $208,382.68 between Secured and Unsecured balances. HOWEVER, I have located the one transaction where the amounts were transposed when the deposit was being entered into Tyler.
Can you please move:
$823.89 from 001-31101-000 into 001-31100-000
$209,206.57 from 001-3100-000 into 001-31101-000

I have attached the supporting documentation for the correction. I believe once this is fixed then all my numbers for October should balance to the penny and I can then graduate to the next step of distribution.

OCTOBER NEWSLETTER

In this month's edition of the EAC newsletter we're excited to feature:

The 20th Anniversary of the Help America Vote Act

The EAC and NIST's upcoming virtual workshop for End-to-End Protocols for Voting Systems taking place on October 6th and 7th

Additional resources for election officials on cybersecurity best practices, preparing for Election Day, and educating voters on Election Day and post-election processes

HAVA turns 20 on October 29th!

On October 29th we'll be celebrating the 20th anniversary of the signing of the **Help America Vote Act (HAVA)**. This historic piece of legislation made sweeping reforms to the nation's voting process and created new programs and procedures for voting systems, accessibility, provisional voting, and voter registration databases.

Critical to the reforms outlined in HAVA was the establishment of **the EAC** to serve as the national clearinghouse of information on election administration. The agency was tasked to oversee the adoption of the **Voluntary Voting System Guidelines (VVSG)** as well as the accreditation of **testing laboratories** and ongoing **voting systems** certifications. Additionally, HAVA charged the EAC with distributing and auditing the use of **HAVA grants**, which have totaled about $4.2 billion over the last 20 years.

Last month, the EAC cohosted a series of panel discussions with Pepperdine University's School of Public Policy titled, "**HAVA At 20: Building Trust in Elections.**" Stay tuned for a new EAC blog series that features key insights from the event.

End-to-End Protocols for Voting Systems Virtual Workshop on October 6 and 7

As outlined in the Voluntary Voting System Guidelines (VVSG 2.0), software independence requirements call for the EAC to set up a public end-to-end (E2E) cryptographic protocol evaluation process. As part of the first steps in this process the EAC – in collaboration with NIST – is holding the virtual workshop, "**The Path to End-to-End (E2E) Protocols for Voting Systems**," on October 6th from 1pm to 5pm EST and October 7th from 1pm to 5pm EST.

This workshop will be used to discuss the current plan and further develop E2E protocol requirements and evaluation criteria. Topics such as integrity and voter confidence, security, accessibility and human factor considerations, and implementation/testing of E2E in voting systems will all be covered during the workshop. Please note that though the workshop is open to the public, **registration is required**. There will be a Q&A session at the end of each day for attendees to comment or ask questions. Click the button below to register.

October is Cybersecurity Awareness Month!

As technology continues to evolve, so too have the technology-based threats to elections. In response, the EAC and other federal agencies created resources to help election officials combat election security threats. These resources, for example, include technical hardware specifics to guidance on how election officials can keep the voting process – from registration to certification – safe and secure.

Election officials can find an overview of all the EAC's cybersecurity and general security resources on the **Election Security Preparedness webpage**.

Voting System Security Measures

Every state and local jurisdiction utilizes a set of common-sense procedures and tools to safeguard the voting process tailored to state law and the voting system in use. **The Voting System Security Measures guide** outlines some best practices election officials may employ to secure voting systems through an election cycle. Best practices include using locks, tamper-evident seals, security cameras, system testing before and after elections, audits, and more.

Election Official Security Materials

No one should have to face violent threats at work, but unfortunately, this is the reality for many election officials. There are proactive steps election officials can take to improve their personal security, and it is critically important to document and report every threat and develop a working relationship with federal and local law enforcement. **The EAC's Election Official Security webpage** provides important information on how election officials can address threats and improve their personal safety while at work. This resource can also be helpful when communicating to voters as officials explain security measures in place in their community.

AMERICAN OVERSIGHT

CISA Cybersecurity Toolkit

Effective election management needs to take cybersecurity into account. To enable election officials to easier prioritize cybersecurity, the Cybersecurity and Infrastructure Security Agency (CISA) released **this toolkit** as a quick-reference catalog of free services and tools readily available for state and local election officials. The topics covered in the toolkit include risk assessment, the protection of voting processes, and the protection of assets from cyber-attacks.

EAC Resources to Help Prepare for Election Day and Post-Election Day

With Election Day only weeks away, election officials can use the below EAC resources to address commonly asked questions from new voters, answer and present information on FAQs, and educate voters on Election Day and post-election processes.

Voting 101 for New Voters

Election officials may find themselves regularly fielding the same questions from voters, especially those who are new to the process. To make it easier to address these frequently asked questions, the EAC has created the customizable resource **Voting 101 for New Voters**.

While specifics may vary based on locality, the basic information in the resource should be helpful for all new voters. Topics covered include voter eligibility and registration, the voting experience, and additional ways voters can participate in the process—like serving as a poll worker.

Available as an **editable PDF**, the logo and contact information section can be edited to match the branding of your particular election office or agency. Additionally, the EAC has other resources election officials may use to answer questions related to topics such as **registering to vote**, **in-person voting**, **voting by mail**, and **making a plan to vote.**

AMERICAN OVERSIGHT

Best Practices FAQ Toolkits

As Election Day approaches, voters will contact election offices more frequently with questions. The EAC's **Best Practices: FAQ toolkit** is designed to assist officials in creating or improving the FAQ documents that currently live on their websites. The toolkit includes frequently asked questions and suggested answers, infographics with relevant voter information, and social media graphics and messaging. The goal of the toolkit is to further position election officials as the trusted source of information for elections and voting.

Election and Post-Election Processes Toolkit

As election officials prepare for Election Day, the **Election and Post-Election Processes Toolkit** was created to assist them with voter education efforts and help address misconceptions about the pre- and post-election processes. The toolkit includes customizable educational materials about these processes for voters as well as templates for sharing trusted information, combatting mis- and disinformation, and providing information to the news media and political parties about the post-voting process.

Election officials can find additional resources to help with voter education efforts on the results, canvassing, and certification processes, **here on the EAC's website**.

Protect Your Identity This Cybersecurity Awareness Month

October 2022 Volume 17 Issue 10

When you log on to a website, make an online payment, send an email, use a social network, post online, or even send a text, you're adding to your online identity. In today's world, it is unavoidable. The good news is there are ways you can protect yourself.

When logging on to a website, look at the address bar on the browser. If you see a padlock icon on the left-hand side of the address, the site is using encryption and verification. Clicking on the padlock shows the site's security certificate. Using only these types of sites ensures you are safely sharing your data. If you do not see the padlock icon, steer clear. Your data is vulnerable. When shopping online, visit only legitimate websites and use safe online payment options and digital wallets for a more secure checkout.

This is only a preview of the newsletter! Continue reading here...

Protect Your Identity This Cybersecurity Awareness Month

October 2022 Volume 17 Issue 10

When you log on to a website, make an online payment, send an email, use a social network, post online, or even send a text, you're adding to your online identity. In today's world, it is unavoidable. The good news is there are ways you can protect yourself.

When logging on to a website, look at the address bar on the browser. If you see a padlock icon on the left-hand side of the address, the site is using encryption and verification. Clicking on the padlock shows the site's security certificate. Using only these types of sites ensures you are safely sharing your data. If you do not see the padlock icon, steer clear. Your data is vulnerable. When shopping online, visit only legitimate websites and use safe online payment options and digital wallets for a more secure checkout.

This is only a preview of the newsletter! Continue reading here...

Thank you,

Jim,
Dore brought to my attention that you are closing your office on Monday and Tuesday. Per NRS she doesn't think you can do that. Have you looked into it?

Maybe the DMV, but not your entire office.

Hi,
I am looking for some help for some old records.

Do you have a birth record for Gladys Vera Penrose born in Gold Hill in 1891?

Do you have a birth record for Lillian Penrose born October 12, 1879 in Virginia City?

Do you have a death record for Cathleen "Kate" Penrose died September 24, 1900?

I cannot find them in an online search but was hoping you still might have them. If you have those, please tell me how to order them.

Thank you for your assistance.

Jim,

First off I wanted to say congrats on the role there. I initially spoke with Vanessa and she was interested in consolidating county payments under one provider. She had explained there were no recurring payments and everything was done manually. We answered both of those with a batched process where you would send a file over and we have recurring payments.

I had around 14 people on our demo in March of this year from Courts (Judge), Utilities, and treasurers' office.

Vanessa left and passed the torch to Dore and it was progressing forward and now I understand why it was stalled thanks to Alicia.

What I wanted to know is if you would be interested and if so would you like to have a call to discuss? I am including some information about PAYA for your perusal.

Respectfully,

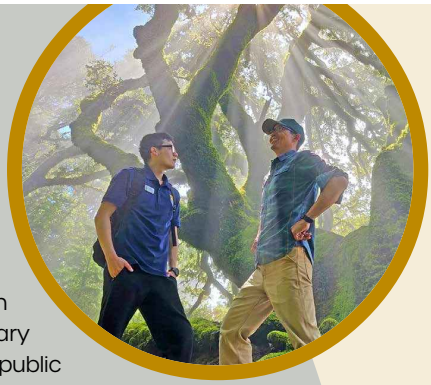
ATTENTION GOVERNMENT OVERSIGHT



THE ORGANIZATION

The Midpeninsula Regional Open Space District (Midpen) is a regional greenbelt system in the Santa Cruz Mountain region which has preserved 65,000 acres of open space land and manages 26 extraordinary nature preserves, permanently protected for public enjoyment and recreation. Midpen's boundary extends from San Carlos to Los Gatos and to the Pacific Ocean from south of Pacifica to the Santa Cruz County Line. Midpen is a growing organization with a focused mission that guides its work, and where every employee makes an impact.

Headquartered in Los Altos, the District is divided into seven geographic wards, each containing approximately 110,000 constituents and represented by an elected Board member for a four-year term. Located at the District's headquarters, administrative staff includes professionals in open space planning, resource management, engineering and construction, real property, and public affairs, in addition to legal, human resources, information systems and technology, office management, finance, budgeting, accounting, grants, and procurement staff.

Through the determined and heartfelt efforts of local conservationists, the Midpeninsula Regional Open Space District was created by successfully placing a voter initiative on the ballot in 1972. The District is working to form a continuous greenbelt of permanently protected open space by linking its lands with other public open space and park lands. The District seeks these linkages for the creation of wildlife corridors as well as the expansion of interconnected regional trails. Midpen continues to strategically acquire and preserve open space, protect and steward the natural resources, and provide opportunities for low-intensity public enjoyment and environmental education.

The District's mission is to acquire and preserve a regional greenbelt of open space land in perpetuity, protect and restore the natural environment, and provide opportunities for ecologically sensitive public enjoyment and education. On the San Mateo County Coast, the mission includes the preservation of agricultural lands and rural character and to encourage viable agricultural use of land resources. The District accomplishes its mission in the context of a changing demographic while being mindful of the growing costs of land, capital infrastructure, ongoing maintenance, and resource stewardship.

If you are looking for an outstanding opportunity to contribute to the legacy of open space protection and outdoor recreation, working with an incredible team of like-minded colleagues, we invite you to apply for this position. To learn more about what the District is passionate about, we invite you to visit the website at:

Ms. Storey,

I left work five minutes early today to miss the rush at work to go by and renew my license plates only to find out that the hours had changed after so many years.. Why the change? I don't understand why so many of the governmental offices close so early when many of the citizens work until 4:30 or later. I understand the citizens work all different sorts of hours and you cannot accommodate everyone. Now, either my wife or myself will have to leave work even earlier to be there on time.

Yes. I know we can do it online and would cost less overall compared to missing work, but that's one of my points. If the government is for the people and by the people, why does it seem like it's for itself so often and not convenient to the people? I suppose I'm just ranting and raving, but what happened today kind of got to me today after I made the extra effort.

Hi. Due to Paul being Becca's spouse I thought it best to correspond with you via email on this matter.
Would you be ok with us paying Paul a little more than the $12 an hour or should we keep it as the same as a team leader? I know he has put in a lot of hours helping so it will likely be a hefty little check, however he helped us tremendously with all the organization and preparation over the mast couple weeks. There is no way we would have been as organized and prepared if it hadn't been for his assistance.

Let me know your thoughts.

Please approve in Tyler, sign it and return to me as soon as possible.
My deadline to get them to Jennifer is 2 pm. Please try to have it back to me before then.

Hi Jim,

Tyler Tech is asking that we run a remote session with them on your computer so they can take a look at the issue we are having with your Parallels Client. It could take a little bit of time for them to troubleshoot the issue, and we will need you there to change/enter passwords as needed. What would be the best time for us to get that done?

Thanks,

Hi Jim,

Tyler's Tech Support was able to track down the issues with your Parallels Client and get that all resolved. You were right: the Incode side had pulled you in as dhindle, but the cloud/Parallels side was listing you as jhindle like we were seeing, so it was causing a mix-up! They resolved that discrepancy so you should be soy.jhindle in both places.

Let me know when you're ready, and I'll send you over a password reset email (they are only good for 30 minutes). Once we get your password set, we'll test it again on your computer and make sure it's working properly with the new password as well.

Good Afternoon.
I received a call today from a gentleman who states he lives at 15000 Seneca Road in Stagecoach and that he is having issues with getting DMV to accept his address so he was directed to call us. I told him I would do some research and get back to him.

Can any of you tell me what the zip code is for this address/parcel? And what district it would fall under? I do NOT have this as an address in our voter registration database (that DMV does relate to for addresses) and if this is a Storey County residence then we NEED to figure out how we add it to our districts in the system. I did not get the impression that this individual was interested in voting BUT we will need to get on this asap to make sure we do not impede on anyone's rights to vote.

Jim,

It was a pleasure speaking with you last week. We have a new portal from when we first demonstrated for the county. It is even better now. Better technology and able to do more. I wanted to propose having all departments use one payment provider. This would make things easier from a reconciliation standpoint. Also our payment platform is not just for payments its really more about citizen engagement.

It offers:

- Next Day funding
- Multilingual configuration
- A dashboard and real time reports
- Auto and recurring payments
- View billing statements & payment history
- E-billing
- Managing multiple properties under one log in
- Text & Pay and Pay by email
- IVR
- US-based English/Spanish support (live agents taking payment over the phone) M-F 8am-6pm EST less than 60 seconds wait time.
- Also able to disable access to payment channels from High Risk customers

You are able to send out messaging to folks via their preference in our portal via text email or both. You are also able to schedule out messaging and reporting (future dates). We would do this at absolutely ZERO cost to Storey County we would just collect convenience fees from those using our services. Also we would make the fees consistent throughout the county one fee but we could discuss this further once you have seen a demo. If you would like to see a formal proposal I could send one as well I would just need to know some financials such as current fees, how much does the county take in annually in online payments.

Hi Heather,
I hope you are hanging in there, everything on this end is going smoothly. Carson Printing sent us a list of their printing schedule and it looks like we'll be picking yours up next week.
I've attached an estimate for the postage needed to mail the sample ballots for the General Election. We would like to collect this prior to the mailing.
The amount is based on the current postage rates, and the amount you needed last time.
These rates may go up or down depending on the actual weight of the mail piece and the delivery point. If the estimate is too high or too low adjustments will be made on the final invoice.
Please let me know if you have any questions.

Thank you and have a great afternoon!

HI,
Attached is the updated payable register. Destroy the originals I took to your office earlier and replace them with this one.

Jim,
Please sign both payable registers and return to me by the deadline of 12 pm Tuesdays (today).

Your office keeps a copy of the payable register withall your back up.
I don't want your backup.

WF
Please attach the Pcard statement (statement only) to the Payable Register. I don't want Pcard receipts. You need to keep pcard receipts with your copy of the statement and register.
Please keep your records for a minimum of 1 year AFTER the fiscal year ends.
Let me know if you have any questions.😊

Subject: Payables for next week

Hi Heather,
I offered to help with your payables for next week.
Do you have stuff you would like me to process for payment?
I will do it in a Clerk/Treasurer packet so J. Hindle will be able to do the approval.
I would like to get it started now so I'm not struggling to get mine done as well.
Let me know and I can come get it. I have the Safety meeting at 2 so I will be right there😊

Hi,
After a phone call to Pitney Bowes, website W-9 searches and remittance address updates on all three Pitney Bowes accounts we have, I got it all straightened out.
Your account ending in 2518 has been getting paid from the wrong account.

Moving forward, starting with this new bill please use the vendor number 103306 (DBA Purchase Power)

Once this new bill is paid, you should be up to date with your billing.
Open your payment you put on hold and change the vendor. UNHOLD it so it will pay on time. You will need to rescan your invoice (I deleted it thinking it wasn't going to be paid)
Confirm the remittance address matches your payment stub.

Let me know if you have any questions.

Hi All,
There was a mass address change for Pitney Bowes accounts. This includes the Purchase Power.
I had to pull W-9's from their website to match to our accounts.
When you enter an invoice for payment, please make sure the remittance address matches your payment stub.

We currently have three accounts. If yours does not match one of these, call them to get an updated W-9 and send me the remittance address listed on your invoice payment stub. (when I spoke to them on the phone they said the W-9 will**NOT** match the remittance address)

Hi,

In Quarter 1 reporting Storey County reported revenue of $1200 reported as reimbursement for attorney's fees.

I was under the impression that the $1200 was entered into the wrong section and should have been an expenditure under "appointed attorneys."

Are you able to confirm ASAP whether there was $1200 in revenue or expenditures?

The Storey County reimbursement request has been rescheduled for IFC on Wednesday and I need the information before that date.

Thank you!

Determination of Necessity of Small Business Impact Statement
NRS 233B.0608(1)

Medicare Supplement Regulation

EFFECTIVE DATE OF REGULATION:
Upon filing with the Nevada Secretary of State

1. BACKGROUND.

   This regulation is needed to provide guidance about NRS 687B.352 (2021 Legis. Session, Assembly Bill 250), which became effective on January 1, 2022.

2. DESCRIPTION OF CONCERTED EFFORT TO DETERMINE IMPACT OF PROPOSED REGULATION. NRS 233B.0608(1).

   The Division reviewed the Nevada statutes and regulations for Medicare supplemental plans, relevant federal laws, and a general survey sent to small businesses related to AB250.

3. DOES THE PROPOSED REGULATION IMPOSE A DIRECT AND SIGNIFICANT ECONOMIC BURDEN UPON A SMALL BUSINESS OR DIRECTLY RESTRICT THE FORMATION, OPERATION OR EXPANSION OF A SMALL BUSINESS? NRS 233B.0608(1).

   ☒ NO ☐ YES

4. METHODS USED TO DETERMINE IMPACT AND REASONS FOR CONCLUSION. NRS 233B.0608(3).

   The Division evaluated the legislative history and language of NRS 687B.352, the Division reviewed the federal laws regarding the certification of Medicare supplemental health insurance policies (42 U.S.C. § 1395ss), and the Division considered results of a survey sent to producer associations and chambers of commerce through Survey Monkey to measure the overall impact of AB 250 on small businesses.

   The intent of the statute was to establish an open enrollment period to give Nevada residents more options for Medicare supplemental plans, but this open enrollment had to align with federal law for Medicare supplement plans. So long as policyholders are not re-enrolled in the same plan with the same carrier with a different rate charged, Medicare supplement plans qualify as "replacement" plans regulated by the Division. The survey was not directly related to the proposed regulation but did assess small business concerns with AB250 in general. The portion of the survey that was deemed applicable to the proposed regulation was whether small businesses believed whether there would be an impact on their business, to which 94.4% responded there would be either no impact or a positive impact.
