STREAMLINING LEGAL FORM FILL & SUBMISSION

The COVID-19 pandemic has driven dramatic changes in all aspects of life, from education and restaurants to the U.S. court system.

To explain the changes occurring in courts across the country and outline ways to improve the delivery of legal services, Advanced Kiosks is producing a series of articles looking at the challenges of courthouse modernization and how implementing self-service kiosks can help address those challenges.

Assistance with Legal Form Fill & Submission...

The legal jargon contained in many courthouse documents can be difficult for non-lawyers to understand. It's unlikely that courthouse staff will assist in filling out and submitting those documents.

A kiosk interface can be programmed to walk users through the form fill process with easy-to-understand instructions, with an option to deliver those instructions in a variety of languages if needed.

Subject: Courtview Install

Good Morning Jim,

Trial Court Services sent me over the information on getting Citrix/Courtview set up on your computer. I can come by sometime today if that works for you, or we can do it before/after PDI's call tomorrow for your OnBase Agenda. What works best for your schedule?

Thanks,

How to create member value

Jim Ward spent decades in various membership and volunteer roles at TCA before taking over recently as the association president. Be sure to check out the full video with Jim on YouTube to hear about the unique perspective this lets him bring to his job as an association leader.

Jim Ward, president of Truckload Carriers Association, joins the A100 to discuss creating member value, how TCA leverages awards programs to promote the industry and drive member engagement, and how to address the industry's workforce challenges.

Every industry is facing workforce shortages, but TCA has a unique multifaceted approach to address these challenges – including driver recognition programs, certification programs for professional development and professional designation programs through the North American Transportation Management Institute – all designed to promote recruitment and retention within the industry.

Jim shares more about the transition from being a longtime member and officer to an association president.

Meet with a purpose

By being intentional when planning in-person events, associations can find a city that provides a great attendee experience, while at the same time creating long-term economic impact for that city.

There would be no progress, innovation or knowledge transfer without associations. The best way to provide secondary education and innovation? Through in-person meetings and events.

But we have to go a step further and be intentional about where and why we meet. Ask yourself, where can we go to boost the economy? How can we help develop the city?

Seek out unlikely partnerships by connecting with cities and centers that support your association's mission. If you feel stuck, use that mission to guide your event planning.

Events and in-person meetings allow your association to positively impact the world around you.

Telling your association story through podcasting

On the fence about starting a podcast? It can be a great opportunity to truly tell your association's story.

A lot of factors must be considered when choosing what communications vehicles you will use to reach your members. Here are three reasons why podcasts are one of my favorite ways to tell your association's story:

• They take a much deeper dive into topics that matter most than you can in a tweet or blog post.

• Podcasts showcase your staff's personality.

• They provide context – whether about research, advocacy issues or relevant news topics, a podcast lets you better explain why your members should care about your issues as well as how it impacts them and the industry as a whole.

Ease the stress of quarterly reporting with these pointers

Q3 is long gone, but you might have some leftover administrative tasks to complete.

Sometimes, putting together a quarterly report – whether it is for clients or for internal business purposes – can be overwhelming.

If you find yourself unsure of what to include in your presentation, or if you're struggling to find a starting point, here are some tips that will help get you going:

• Identify goals: Knowing what the business wants to achieve will help you build a clear and concise report.

• Define KPI's: Use specific metrics to measure and analyze your progress.

• Add visual elements: Graphs and charts help organize your data.

• Discuss the future: Highlight ways to take advantage of potential opportunities.

Subject: Credential Problem

Hi Yolanda – I am having a problem getting access to parts of the website. I can login to the site and get to the landing page, but when I go to get access to the "Administration" tab the site is not recognizing my PIN+token code. I know I am entering my correct PIN and am using the correct token. Do I need to be reset or is something wrong with the token? Any guidance or direction would be greatly appreciated.
Thanks,

Hi!

Would it be possible to increase Leah Kruse's credit limit to $5000?
She did not receive an increase when she took the new position of Business Events Manager.

Linda Ritter has approved.

Attachment(s): "District Criminal SCR Validation 2011-12-15_SQL.pdf"

Please find attached the Criminal USJR Validation Report for last month. This report provides a list of cases that may not report properly on the USJR worksheets and should be verified for accuracy by the responsible court staff.

Please refer to the 2010 NCS Criminal Phase II USJR User Manual, pages 5 – 8 for the error key. The error key will assist with the correction and verification of the cases listed on the validation report.

If your office has requested a schedule for the Criminal Phase II disposition and caseload worksheet to be sent via email, this validation report should be corrected prior to the date and time of that schedule. If the cases are not corrected by the scheduled date and time, your office will be responsible for generating a new Criminal Phase II disposition and caseload worksheet in Crystal, if needed.

If you have any questions regarding the validation report or need assistance with correcting the cases shown on this report, please contact the Trial Court Service Desk at (775) 687-9898.

Hello,

Please see 2 notices regarding Cast Vote Selections. Sharing this important information because a researcher who has been granted extensive access to the Dominion 5.5A system has claimed to have a method by which to reveal how Democracy Suite scrambles Cast Vote images as they are saved. Following the information described in the attached advisory mitigates any potential risk that may result as part of any such disclosure.

While you are not using the 5.5A system, we are dedicated to ensuring you have all relevant information necessary so you may respond as needed. Please let us know if you have any questions.

DOMINION VOTING

September 8, 2022

Customer Notification: Cast Vote Selections

Dominion is aware that many customers are receiving requests to provide access to election records or results reports which identify cast vote selections. While definitions and requirements can vary widely, this general guidance is designed to help support customers in identifying the best way to respond to such requests, in consultation with your legal advisors.

It is important to follow any state or local requirements guiding public access to and release of cast vote records ("CVRs"), including paper ballots or ballot images.

As a best practice, paper ballots that are being released for public inspection should be shuffled to preserve voter secrecy.

If releasing electronic CVRs, be sure to follow any state or local requirements where data redactions or regenerations may apply in order to help preserve voter secrecy. Customers should consult their legal advisors for guidance on how best to ensure such protections are applied, particularly if simultaneously releasing any record (ie. video) that could reveal a voter's identity in the order in which they cast their ballot.

Good Morning Jim,

Tim spoke with me yesterday about getting your computer a new SSD and when we might schedule that. We have ordered the new drive, and that should arrive either today or tomorrow.

He said you'd mentioned the afternoon of the 21st as being a potentially good time to make the switch. Does that date work best for you, or is there another day you'd prefer? I will get whatever you decide scheduled in.

Property Description

AMERICAN OVERSIGHT

On October 29, 2022, at approximately 2031 hours, while on patrol in the Virginia City area of Storey County, Nevada, I observed a silver Dodge Sedan (NV/435K97) traveling Eastbound on Union Street. I observed the vehicle turn right onto C Street. While making the turn the vehicle left the Southbound travel lane of C Street and entered the Northbound travel lane, almost striking my patrol vehicle. I observed the vehicle complete its turn and reenter the Southbound travel lane. I performed a U turn and began following the vehicle Southbound on C Street. While following the vehicle on C Street, I observed the vehicle completely cross over the solid double yellow line entering Northbound travel lane. I observed the vehicle continue to travel Southbound using the Northbound travel lane for approximately 50 feet before reentering the Southbound travel lane. I observed the vehicle again completely cross over the solid double yellow line entering Northbound travel lane. I observed the vehicle continue to travel Southbound using the Northbound travel lane for approximately 150 feet before reentering the Southbound travel lane and continuing to travel Southbound.

I conducted a traffic stop on the vehicle and made contact with the driver and sole occupant, James Davis. While speaking with Davis, I noted his speech was slurred, his eyes were red and watery, his movements were slow, and I detected a strong odor of an alcoholic beverage emanating from the vehicle. I asked Davis if he consumed an alcoholic beverage this evening, Davis stated "no." After requesting Davis's driver's license, vehicle registration, and vehicle proof of insurance, Davis handed me his Nevada driver's license and I had to remind Davis that I needed his vehicle registration and proof of insurance. I asked Davis if he would consent to a Standard Field Sobriety Test (SFST); Davis stated "yes." Deputy Dotson arrived on scene to assist.

While asking Davis the medical questions on the DUI investigation field note form, Davis stated he did not want to do SFST's. While speaking with Davis outside of the vehicle I detected the strong odor of an alcoholic beverage emanating from his person. I asked Davis if he would consent to a non-evidentiary Preliminary Breath Test (PBT); Davis stated "yes." Davis's PBT result indicated an error of my PBT device. Deputy Dotson asked Davis if he would consent to a non-evidentiary PBT using her PBT device; Davis stated "yes." Davis's PBT result indicated he was above the legal per se limit to be operating a motor-vehicle. I advised Davis I was placing him under arrest for violation of NRS 484C.110 (Driving Under the Influence of Alcohol 1st). I placed Davis in handcuffs, checking for tightness and double locking the mechanisms. I searched Davis and placed him in the right rear seat of my patrol vehicle, buckling him for safety. I transported Davis to the Storey County Detention Facility (SCDF) for evidentiary testing.

At approximately 2054 hours, Davis and I arrived at the SCDF. I read Davis Nevada Informed Consent, to which Davis consented to evidentiary testing by way of blood. Due to Davis's indecisiveness while performing the SFST's, I applied for a search warrant for Davis's blood. At 2114 hours, I contacted Judge Herrington and was granted a search warrant to do a blood draw on Davis. At that time, I transported Davis to the Carson City Detention Facility.

At 2210 hours, Vicki King withdrew a sample of blood in a medically accepted manner from Davis. Upon completing the blood draw, Davis was transported back to the SCDF and booked for violation of NRS 484C.110 (Driving Under the Influence of Alcohol 1st) and NRS 484B.200 (Fail to Drive on Right Half of Roadway) without incident.

Nothing further.

I declare under penalty of perjury that the forgoing is true and correct to the best of my information and belief.

Good Morning!

I have a request. Please notify JC when anything gets scheduled with the DA outside the regular 3rd Friday of the month DC calendar.

We were not made aware of Collier's trial date changes (that was before you came on board) and we have yet to be notified of the upcoming hearings for Tlapa. My clerk heard from someone on the street yesterday that there's a 3-day competency hearing coming up on Tlapa and we have court scheduled with DA Langer for those days. Our court needs to be notified promptly so we can reschedule those court days.

Thank you.

Session highlight: Delivering organizational objectives with purchasing agility

Ensuring strong controls and spend management have been at the center of procurement strategy for decades. The past few years have thrown these models off balance, and combined with the accelerating pace of operations, organizations are recalibrating what it means to be both efficient and agile.

Watch for free

In this on-demand session, learn how to:

- Build out supplier diversity programs and treat them as strategic priorities, not checkboxes.
- Identify and source from credentialed, diverse, local, and small businesses with sustainability in mind.
- Drive visibility into purchasing to help build resiliency as you meet your organization's goals.

Subject: Deputy Coverage at Election Polls

Sheriff:

Early voting opens this Saturday, October 22 in Virginia City at "The Slammer" and in Lockwood at the Fire Station. I'd like to request that Deputies be alerted and be ready to respond to each location if we have disturbances. While I don't expect significant turmoil or disruptive behavior, given the sensitive social environment we have in our country, I'd like to be over cautious and prepared for whatever eventualities arise.

The Early Voting schedule is as follows:

- In VC, the polls will be open 7am to 7pm Monday through Saturday, 1022 through 11/4.
- In Lockwood the polls will be open Saturday, 10/22 & 10/29 from 10am to 2pm.

On Election Day, November 8th, polls at all locations will be open from 7am to 7pm and the locations are:

- Virginia City at the Storey County Courthouse in "The Slammer"
- Mark Twain Community Center
- Virginia Highlands at the Fire Station #2 on Cartwright Rd.
- Lockwood at the Fire Station #4 off Canyon Way

We have been alerted that on Election Day, the Poll Workers in Mark Twain and in the Virginia Highlands would like a Deputy to stop in periodically as they seem to have a history of some troublemakers and it is said that workers and voters alike feel more secure by the presence. In addition, we have been alerted about a particular "troublemaker" in Mark Twain about who I will talk to you separately.

In general, the increased amount of attention and frequency of "pop-ins" is more critical on Election Day, but heightened awareness and preparation for quick response during early voting is also much appreciated.

Additionally, we would like to request a Deputy be available on November 8th at approximately 7pm at the polling locations in Lockwood, Mark Twain, and the Highlands to assist in the closing of each poll and escort the voting equipment back to the Courthouse in Virginia City.

I hope this information is adequate for planning. If you require any additional detail, please let me know and I will get it to you as quickly as possible. I look forward to your response and direction on how we should best coordinate interaction once polls open.

Thank you for your attention to and support of the County's election operations; and, to me, the relief and comfort I heard form people when I told them I would make arrangements with the Sheriff's Office for extra election security, indicates the confidence appreciation and high regard they have for you and your staff.

Best regards,

She has stated that she does not have a Programmer available to do a full back-out of the refund that is giving us fits. She has another idea to run an experiment to help trouble shoot.

Subject: Devnet Treasure's Meeting Review

Hello everyone,

Last Thursday was our monthly treasurer meeting. Thank you for those who were able to join us. Here are some notes from the meeting that we went over.

What's Coming Up:
Looking at the time line from the state, there aren't any reports for the treasurer coming up soon. The next state reports for your office are:

Proforma – March
Delinquent tax letter – March

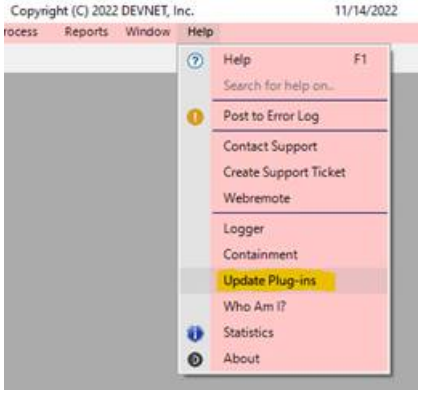
Release notes to be aware of:

Penny balancing functionality fixed – This was an issue found in Churchill where we did not have logic in place for a payment when an extra penny needed to be distributed. Typically, it would default to paying towards ad valorem tax balance, but if the ad valorem taxes were all paid in full, and only Special Assessment were remaining, there was no logic to distribute those pennies. This was fixed for everyone.

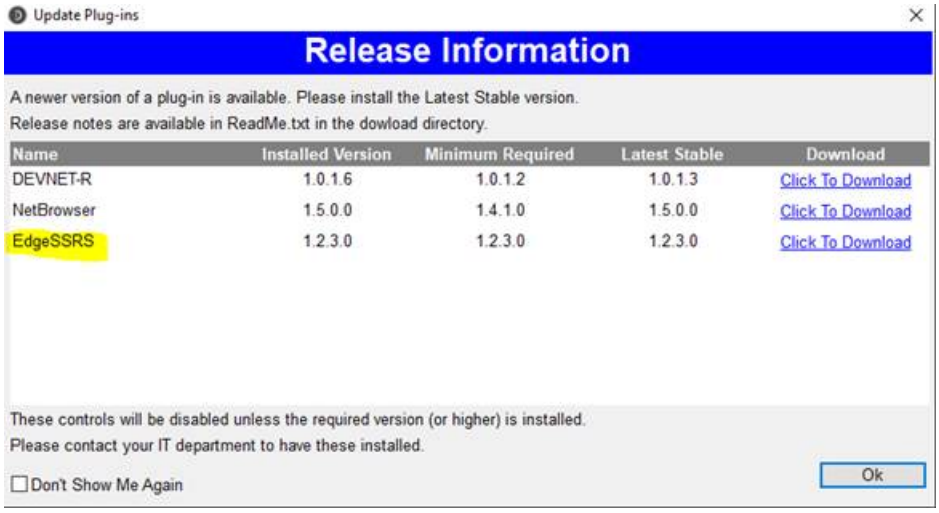
Unsecured Delinquent notices – will now generate for all names on a parcel that are set to Mail to = yes.

Parcel Adjustments - Reminder, once a payment has been started, you cannot start an adjustment. If you need to do an adjustment and you have already started a payment on the parcel, you need to remove the payment, void it out, then complete the adjustment and then take the payment. Doing the other way will cause negatives in the collection entry table and Devnet will need to get involved to fix this. Please make sure your staff is aware of this workflow. We have seen an uptick in these types of fixes recently.

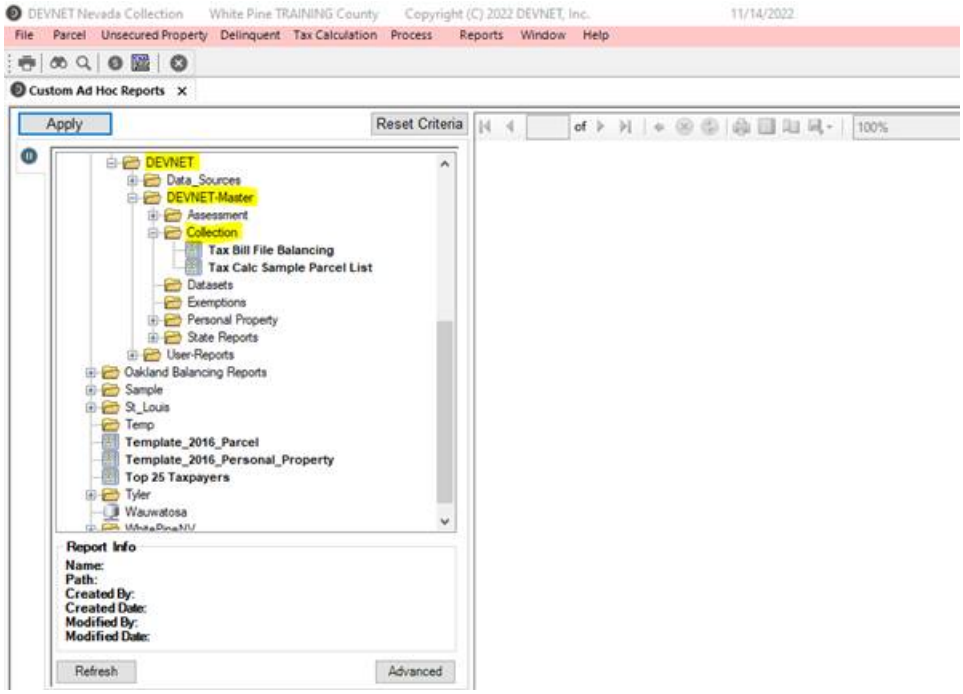
Ad Hoc Reporting - A few weeks ago, there was a release regarding the addition of ad hoc reporting functionality to the collection system. This can be found in reports > ad hoc reporting > custom reports. If you do not see this, it may be because you are missing the SSRS plug in. Go to Help > Update Plug-Ins and check the EdgeSSRS. If the version is not up to the minimum requirements – Click to Download and update.



AMERICAN OVERSIGHT



Once the window loads, you can navigate in the top left window pane through the file explorer tree Devnet > Devnet-master > Collection.



Currently there are three reports in there, Two are immediately visible, Tax bill file balancing and Tax bill Sample parcel list and then one in a subfolder for Pershing that says PCWCD which is a unique report that they need for review of their water district.

More will be added for reports that we run for clients as needed or scripts we already have identified that would be useful as reports. Instead of having to request us to run them, you will instead be able to run them on demand. And this is the case moving forward for all clients. The reports built in here can typically be turned around a little faster but they are not as polished as a report built in the program. These are great for items where you just need an excel spreadsheet, not a refined looking report you are sending to the state.

If there are data / reports you think would be useful that is missing from the application, please let us know and we can see if this is a viable option to get turned around to you faster. You can also review the assessor reports that are in the system to get an idea of what is already available:
Devnet > Devnet-master > Assessment.

Thank you and we hope to see you next month.

Good morning. Attached are two state deposits we have received notices on as coming our way. Both have “Aging Services Division” and I believe they are for the Senior Center.

Can you please let me know what accounts you would like these deposited into? I can do the deposits and email you a receipt once I know where you want them.

AMERICAN OVERSIGHT

Everyone tells you to document employee behaviour, but do they tell you how to do it and why you should?.The absence of solid documentation is the single most common mistake employers make when handling employee performance, behaviour and discipline issues. Not properly documenting, or not documenting at all, can hurt employers in several ways.

Solid documentation can make the difference between a clean termination and EEOC lawsuit. Plus, it can make handling performance, behaviour, and discipline issues easy. When you fail to document–or document the wrong things, it puts the company at risk.

This 90 minute webinar with HR expert Suzanne Lucas will cover what to document, how to document and how performance improvement plans fit into this. Learning the DO'S and DON'TS of documentation will make your job easier.

What You will Learn:

- **Importance of solid documentation**
- **What to document & When to document; How & Why to Document**
- **Documenting as a routine task – don't put it off!**
- **Best practices & guidelines when documenting performance & behaviour**
- **Stakeholder responsibilities in the Performance Appraisal process**
- **Common issues when providing feedback & how to overcome them**
- **Goals & key elements of conducting effective investigations of performance & behaviour**

We can't wait to see you there!

Restaurants are classified as stand-alone dining establishments that primarily prepare food and drinks for immediate consumption by consumers, either on the merchant's premises or packaged for takeout, and include bars, cocktail lounges, discotheques, nightclubs, taverns and fast food restaurants. Show Theaters & Movie Theaters are classified as merchants that present live theatrical productions or motion pictures.

Merchants are assigned a merchant category code ("MCC"), which is determined in accordance with Visa/Mastercard/American Express procedures based on the kinds of products and services the merchants primarily sell. We don't control the assignment of these codes and are not responsible for the codes used by merchants. When you use your card to make a purchase, we're provided an MCC for that purchase. We group similar merchant codes into categories for purposes of making rewards offers. Sometimes you may expect a purchase to fit within a rewards category, but if the code assigned to the merchant wasn't grouped into that category as recognized by Citi, your purchase will not qualify for additional rewards.

Please also note – purchases made through mobile/wireless technology may not earn additional rewards depending on how the technology is set up to process the purchase. We reserve the exclusive right to determine which purchases qualify for additional rewards.

Purchases must post to your account during the promotional period. Many merchants will wait for a purchase to ship before they post the purchase to your account.

Balance transfers, cash advances, checks that access your Card Account, items returned for credit, unauthorized charges, interest and account fees, traveler's checks, foreign currency purchases, money orders, wire transfers (and similar cash-like transactions), lottery tickets, gaming chips (and similar betting transactions), Citi Flex Loans and the creation of Citi Flex Pays, are not purchases.

Statement credits will be posted to the primary cardmember's account in 1-2 billing cycles.

In order to qualify for this offer, the account must be open and current at all times. If your account is closed for any reason, including if you convert to another card product, you will no longer be eligible for this offer.

You may receive more than one communication regarding this bonus offer with a reply-by-date mentioned within; however, if you have already enrolled in this offer, no further action is required. This promotional offer is non-transferable and applies to the account ending in the last 4 digits referenced in this offer.

Terms and Conditions

Your Citi® Flex Loan payment will be included in the Minimum Payment Due each billing cycle until paid in full.

As required by law, payments above your Minimum Payment Due generally go toward balances with higher APRs first. If your Citi Flex Loan has a higher APR than another balance on your account (such as a balance transfer), you may need to pay off your Citi Flex Loan before you can pay down the lower APR balance. Please review your Card Agreement for additional terms and conditions related to your Citi Flex Loan.

Property Description

AMERICAN OVERSIGHT

On September 24, 2022 I was patrolling the Virginia City area located in Storey County, Nevada by foot and when I approached the Mark Twain (on 62 South C Street), I was told by several people that there was two people fighting inside.

Upon entering I found both subjects separated. One person was on the ground and my Supervisor Sergeant (Sgt.) Mendoza went to talk with the other guy who was standing several feet further inside. I helped the subject on the ground up to his feet and received his Driver's License. The subject identified as Anthony Paul Dore. I had a records check completed on Dore through the Storey County Communications (SCC). SCC advised me that Dore had 3 Felony warrants out of Lyon County.

I restrained Dore for NRS 211.370 (outside jurisdiction warrant). Dore was then arrested upon the confirmation of all 3 Felony Warrants. Lyon County Warrant #: 21CR356 for $12,500.00, Lyon County Warrant #: 22CR000173H for $15,000.00 and Lyon County Warrant #: 21CR004593H for $5,000.00.

Dore was then searched and transported to the Storey County Detention Facility without any incident.

Nothing further.

I declare under penalty of perjury that the forgoing is true and correct to the best of my information and belief.

[1] Credit cards issued by Citibank, N.A. or its affiliates, as well as Checking Plus and Ready Credit accounts, are not eligible for debt consolidation, and Citibank will not issue payoff checks for these accounts. If you are unsure of the issuer on the account, please visit citi.com/affiliatesproducts for a list of Citi products and affiliates.

[2] Rates quoted assume use of Citibank® Auto Deduct (established at loan origination with an automated monthly debit from a qualifying deposit account) for repayment. Otherwise, the range of rates offered will increase by 0.5%. Once you apply for the loan, the interest rate offered to you will be based on the repayment term of the loan and a determination that you still meet the consumer report selection criteria used to select you for this offer. If you are in default, your APR may increase by 2%. No down payment is required. For example, if you borrow $10,000 for 60 months at 11.99% APR, you will have to make 60 monthly payments of approximately $222.39 to repay your loan.

TERMS AND CONDITIONS OF OFFER: This offer is contingent on the following: Your submission of an application for a Citi® Personal Loan no later than the response date stated in the offer. Citibank must be able to confirm your identity, home address and employment and verify your income. Total debt to income ratios will be calculated and must be within the maximum allowed for the loan amount offered and repayment term selected. You must have a minimum annual income of $10,500. You must continue to meet the consumer report selection criteria used to select you for this offer and our creditworthiness criteria. You must be 18 years of age or older. For residents of Puerto Rico, you must be 21 years of age or older. You may only have one existing Personal Loan account with Citibank. If you apply online, you must agree to receive the loan note and all other account disclosures provided with your loan origination in an electronic format and provide your signature electronically.

PRESCREEN & OPT-OUT NOTICE: This "prescreened" offer of credit is based on information in your credit report indicating that you meet certain criteria. This offer is not guaranteed if you do not meet our criteria. If you do not want to receive prescreened offers of credit from this and other companies, call the consumer reporting agencies toll-free at 1-888-567-8688 or write to any of the following consumer reporting agencies: Experian Marketing Services, Attn: Opt-out Services, P.O. Subject: DQ Sign & Turnout Reporting
Attachment(s): "13.1 Early Voting Turnout Report.doc","13.3 Election Day Turnout Report.doc"

Good afternoon!
Two quick reminders!

1. **Kennedy DQ**
   - Please post and use the signs with the wording we provided earlier. It is:
   - The First Judicial District Court has determined that Mr. John T. Kennedy is disqualified from entering upon the duties of the office of Attorney General. A vote cast in his name will not be counted.

2. **Turnout reporting during early voting & on Election Day:**

   - Early Voting Turnout will be reported**weekly**, **not daily**.
   - We're only asking for TWO EV turnout reports (the template is attached)
     - The first period will coverSat Oct 22 through Fri Oct 28. **Please send this first report on Saturday Oct 29 so we can compile and post it**
     - The second period will coverSat Oct 29 through Fri Nov 4. **Please send this second report on Saturday Nov 5 so we can compile and post it**
   - Election Day reporting (using the attached format) must be done twice on Nov 8. Once to cover from 7 am to noon**(reported between noon and 1 pm)** and once to cover from noon to 7 pm)**sentafter polls close.**

Please call my cell if you have any questions.

Meeting Date: 11/15/2022

Estimated Time Required: 5 minutes

Agenda Item Type: Discussion / Possible Action

Title:

Consideration and possible approval directing the Recorder to sign the Tyler Service Agreement to move from an on-premise environment to a hosted environment in the amount of $27,663.00 annually.

Short Title:

Tyler Eagle Recorder Software – Move to the cloud / hosted environment

Recommended motion:

I, Commissioner_____, approve directing the Recorder to sign the Tyler Service Agreement to move from an on-premise environment to a hosted environment in the amount of $27,663.00 annually.

Prepared By: Dru McPherson

Staff Summary:

This project will take the Eagle Recorder software, which includes Clerk and Recorder functions, from being housed locally and maintained by Storey County IT to a Tyler hosted environment.

The Clerk and Recorder's Offices request the first-year payment of $21,971.88 from the Capital Improvement Software Fund to account for this non-budgeted item. The Recorder's Office Tech Fund will contribute up to $9,000 as the implementation fee for the project, billed throughout the transitionary period as needed.

If signed, this contract locks in our new annual rate of $27,663.00 for a 5-year period, which the Clerk and Recorder's Offices will split as budgeted items moving forward.

This is an increase from our current annual Tyler Eagle Recorder support amount of $20,644.93, but will save the county in purchasing hardware, support costs, and licensing.

This financial arrangement has been approved by Comptroller Jennifer McCain. IT Director James Deane supports the project from a technological and cost-saving standpoint.

Good morning,

On the draft agenda there are two items requesting refunds to certain property owners, one for $4,145 and $2,050. I am unable to access the agenda portal to see the sender and staff report. I ask if there is a brief explanation for this? I copied anyone who may be involved in this. Thank you for the clarification.

Probable Cause Declaration for Draine, Keanu Rashad	Case 22-1083	Page 2

On 11/15/2022 while conducting stationary traffic enforcement on Electric ave, in the county of Storey, I observed a white Chevy sedan with no license plate visible to the rear. I conducted a traffic enforcement stop on the vehicle at the parking lot of 550 Milan Dr. I contacted the driver that was identified by his Nevada Drivers license as Keanu Draine. Draine provided me the insurance and temporary moving permit for the vehicle. A routine records check of Draine showed him to have an active warrant (RCR2020-108090) out of the county of Washoe. Draine was placed under arrest and transported to the Storey County Detention facility without incident. Draine was booked for NRS 211.370 Arrest on other agency warrant with a total bail of $500.00 bondable or %10 cash.

I declare under penalty of perjury that the forgoing is true and correct to the best of my information and belief.

Property Description

AMERICAN OVERSIGHT

On November 20, 2022 at approximately 1802 hours, Sergeant Beaumont and I were dispatched to a report of a fight with one person injured by a knife, located at 1890 Peri Ranch Road, Lockwood, Storey County, Nevada.

Dispatch advised the reporting party, later identified as Rebecca Teixeira, stated a male subject had his hand sliced. Dispatch advised the injured male was en route to Hillside Elementary School, where Storey County Fire Department (SCFD) paramedics were staged. Sergeant Beaumont and I arrived on scene. Due to an unknown amount of subjects involved in the fight, and reports of weapons, Sergeant Beaumont requested dispatch contact Sparks Police Department (SPD) and inquire about the availability of an additional cover unit.

I observed a pickup truck approaching our location with an elderly male subject, later identified as Stan Drumm, driving. I observed a male subject and a female subject sitting in the bed of the truck. I observed Stan park the truck and I approached the drivers side door. I observed a female subject and a male subject in the bed of the truck.

The male subject in the rear of the truck bed was identified as Keegan Drumm and the female as Rebecca Teixeira. I observed Keegan to be holding a bloody cloth around his left hand. When contacted and asked about the circumstances for the night Keegan stated in summary that his uncle, later identified as Dennis Drum, had gotten into a verbal argument and then Dennis had attacked Keegan when Keegan unsheathed a machete. During the struggle the machete cut Keegan's left hand across the middle four fingers. Keegan stated he swung the machete behind him striking Dennis and then the fight ended and they went outside where his dad Stan had driven them to the high school.

SCFD began processing Keegan and loaded him into the ambulance and cleared the scene to Renown Main. At this time Dispatched was asked to call the associated number with the subjects still at the residence. Contact was made and four subjects arrived on scene. I contacted the male subject driving a Dodge pick up truck who was identified as Dennis Drumm. I observed Dennis to have a bloody cloth held to his neck just below the scalp on the left hand side. When asked what had occurred Dennis stated that Himself and Keegan got into a verbal argument in the living room of their trailer then Keegan went to the bedroom. There Dennis stated they began to verbally argue again then began to wrestle where Keegan produced a Machete and hit him with it and then he fell to the side of the bed where Keegan swung the machete and made contact with his neck. Dennis stated that at this time Keegan realized he had cut himself and left the room. Dennis stated he got up and walked outside.

Dennis was evaluated by SCFD and transported to Renown main. Sergeant Beaumont collected statements from the remaining witnesses. Sergeant Beaumont stated that the witnesses statements corroborated Dennis statement that he was battered with a deadly weapon by Keegan.

I left the scene and arrived at Renown Main to continue follow up investigation with Keegan. I found Keegan in ER room 19 and began my investigation. Keegan was read his Miranda Rights and stated he understood. Then was asked about the incident with Dennis. Keegan, stated that he was attacked and used the machete in self defense of his girlfriend Rebecca. When asked if Dennis had ever been physical with Keegan before he stated no. When asked if Dennis is known to carry weapon or use a weapon against him Keegan, Keegan stated no. Keegan did not describe why he produced a deadly weapon in defence of Rebecca other than Dennis had grabbed him unarmed.

I contacted Dennis in ER room 21 and asked for another statement of events from the incident. Dennis stated, in summary, that they were arguing in the bedroom when Keegan produced a large knife and he wrestled him for it and then Keegan struck him in the head with the hilt of the knife where Dennis fell to the side of the bed. Dennis stated Keegan struck him in the neck with the blade of the knife after he had fallen onto the floor near the bed.

AMERICAN OVERSIGHT

While collecting the statement form from Dennis he stated that he wanted Keegan charged with attempted murder as he believed Keegan was trying to kill him when he swung the blade at his neck on the floor.

Due to facts and evidence along with witness statements that Keegan used a deadly weapon and created bodily harm in the commission of a battery to the victim who is over the age of 60 years old probable cause was accrued for the arrest of Keegan for NRS 200.481.2e1 Battery with a deadly weapon with substantial bodily harm to a victim over the age of 60 years old.

After being released from the care of Renown Keegan was placed under arrest and transported to the Storey County Detention Facility without incident. Keegan was booked for NRS 200.481.2e1 with a $30,000.00 Bail.

I declare under penalty of perjury that the forgoing is true and correct to the best of my information and belief.

Subject: DSL Outage Virginia City

Good afternoon Folks-

I have been tracking a DSL outage in Virginia City today. Shawn with Public Works called to report the WT Plant has no internet. He was kind enough to send picture of the DSL modem, it indicated service outage with AT&T. This is affecting most if not all DSL circuits in VC, so the Jail, SO Business Office, ComDev, WT Plant, Senior Center, anywhere still using DSL may be affected.

I have a call into AT&T, they are reporting an issue in Carson City, affecting 900+ customers. We stub off of them for DSL, hence why we are also affected. They are estimating 24 hours to repair with possible extensions of 24-48 hours. The observed Nevada Day likely has something to do with the long service times! I will monitor the issue and report back if I get any status updates.

They recommend power cycling the DSL modem tomorrow at 4:00pm to see if that restores service. This may or may not resolve the issue but that is the instructions the technician gave. Some modems may begin working without this step but if not, that is the first thing to try – unplug it for 15 seconds, plug it back in and make sure you get green lights across the board. Solid or blinking red on internet or service lights indicates the issue is not resolved.

Property Description

AMERICAN OVERSIGHT

On October 29, 2022 at approximately 1530 hours, I was driving eastbound on Mill Street in the Virginia City area, located in Storey County, Nevada and conducted a traffic enforcement stop on a silver colored 2002 Honda Civic without a license plate that pulled into 355 East Mill Street.

I made contact with the driver of the vehicle, identified as Arthell James Jr. Duplessis. Duplessis stated that he did not have any paperwork for the vehicle and stated there is no registration or insurance. After running a records check on Duplessis, my communications advised me that Duplessis has a revoked drivers license and is on parole and probation (P&P). I then detained Depulessis and began to conduct my pat down. During my search I was advised that P&P advised "No Hold". My communications then advised that he was revoked for Driving Under the Influence and pending an interlock device restriction. I requested a tow truck to my location. My communications advised A & A Towing was in route.

Due to the revocation period being active from 01/21/2022 till 10/21/2024, Duplessis was placed under arrest at approximately 1540 hours for NRS 483.560 (Driving while Revoked), NRS 485.187.1 (No Proof of Ins) and NRS 482. 545.1 (Operate Unregistered Vehicle). Duplessis was not charged for the Interlock Device only because the status of that court order is pending and should begin on 10/22/2024.

Duplessis was then transported to the Storey County Detention Facility by Deputy Moss without incident, meanwhile I took inventory of the vehicle and waited for A&A Towing to arrive. At approximately 1635 hours, A & A Towing took possession of the vehicle and I left the scene.

Nothing further.

I declare under penalty of perjury that the forgoing is true and correct to the best of my information and belief.

To whom it may concern

On Thursday November 4 2022 my wife and I mailed our ballots for the general election in which we received approximately one month ago. Today we received a duplicate set of ballots at our P.O. Box as pictured.

Our information is as follows

Douglas Paul Kitchens
Jamie Rose-Ann Kitchens
145 Julie Way
Dayton Nv 89403

We also have PO Box 910 Dayton NV

Not sure if original ballots were mailed To P.O. Box or Julie address. Just want to make sure our original ballots are received and counted.

Thank you.

Kindest regards

Subject: EAC Poll Worker & Security Resources

As Election Day approaches, the U.S. Election Assistance Commission (EAC) is excited to share a new resource for poll workers.

The Poll Worker Preparedness Checklist is designed to assist poll workers as they prepare for Election Day. The checklist can help poll workers feel ready for Election Day and make them feel more confident as they prepare to serve their community. Additionally, please remember that if you are still recruiting poll workers, you can use the graphics and messaging from the Help America Vote Day and Poll Worker Recruitment Day toolkits. Election officials are invited to use the toolkit year-round for recruitment activities.

As election officials make final preparations for Election Day, the resources outlined below may be helpful to ensure your office and poll workers are ready to respond to any security incidents:

- Election Official Security page which includes information on how to report threats. Election officials should report all threats directly to their local law enforcement and to their local FBI Election Crimes Coordinator. Should you have any trouble identifying your FBI ECC, you also may call the Public Integrity Section of the U.S. Department of Justice via its main line at 202-514-1412.
- Incident Response and Personal Security for Election Officials checklists
- CISA's Non-Confrontational Techniques for Election Workers Training video
- Allowable Use of Funds – guidance on using HAVA funds for physical security

Finally, the Quick Start Guide: Poll Watchers offers several actionable tips to ensure watchers are easily identified, know the rules they must follow, and have a meaningful experience observing on Election Day or during post-election processes.

Subject: Early Voting and Election Day use of Fire Stations

Hello Ladies.

Elections are fast approaching, and I wanted to contact ya'll about the coordination of us using the following Fire Stations for our Early Voting and Election Day set-ups.

LOCKWOOD FIRESTATION #4
Early Voting – Saturday Oct. 22nd and Saturday Oct. 29th from approximately 9:00am-3:00pm
Election Day – Tuesday Nov. 4th from approximately 6:00am-8:00pm

VC HIGHLANDS FIRESTATION #2
Election Day – Tuesday Nov. 4th from approximately 6:00am-8:00pm

During the primary things went great with the crews having tables out and ready for us. PLEASE let me know if there are any issues with us making similar arrangements for the upcoming General. OR if I need to be reaching out to anyone else for these reservations. Also, if I can get the WIFI and passcodes in for each location that would be great also so I can make sure our clerks setting up are prepared that would be amazing!

Happy Friday!

Earned media: How to be better at press outreach

Suzanne Struglinski, PR manager for Industry Dive, joins OnWrd & UpWrd Co-founders Meghan Henning and Colleen Gallagher on the A100 podcast to dive into the complex world that is earned media in today's media landscape.

Suzanne Struglinski of Industry Dive joins the A100 podcast this week to share top tips for association communicators looking to improve their media relations skills.

"Reporters want news," she says. "You need to build those relationships, making sure you understand who you're pitching, why you're pitching and keeping in mind that you want to be a resource to these journalists."

Suzanne discusses the disconnect between what association leaders and reporters deem news, while emphasizing the importance of being a resource for reporters. She also shares thoughts on the unique relationship between PR professionals and journalists.

Listen now for great insights.

– Colleen Lerro Gallagher, President & CEO, OnWrd & UpWrd

Optimizing grants, funding and partnerships

Eileen Arnold-Ley of the National Association of Pediatric Nurse Practitioners shares insights on how to leverage partnerships for program development and dissemination.

NAPNAP was fortunate to receive a cooperative agreement grant from the CDC to focus on educating nurse practitioners about Lyme Disease.

To optimize this opportunity, we performed a needs assessment of our members to better understand their knowledge and behavior surrounding Lyme Disease. We then created a dedicated microsite as a resource designed by pediatric experts for pediatric practitioners, patients and families.

We also created toolkits and pocket guides for pediatric-focused APRNs to use, equipping them to successfully educate their patients and families, bringing awareness to the overall issue and truly making the most of our partnership with the CDC.

Keeping everyone connected

Keith Krueger of the Consortium for School Networking shares how associations can leverage research to drive equity.

The pandemic highlighted how lack of student home connectivity creates obstacles for learners. But as students returned to school, educators questioned home connectivity's importance. We sought answers.

With a grant from the Chan Zuckerberg Initiative, we performed research with 13 school districts and 750,000 students, using real-time data and surveys to understand how students were learning during the pandemic. We found the Federal Communications Commission standards for a connected household didn't support student learning, and students used more bandwidth at home than school.

These insights revealed the need to address student digital equity, and the power of association-led research.

– Keith R. Krueger, CEO, Consortium for School Networking

Making strategic shifts to drive member engagement

When you prioritize member value and think strategically, your association will win with more engagement and a stronger sense of community.

During the pandemic, we prioritized creating value for members. A big part of that was to offer continuing education for free. That switch, along with a renewed focus on connecting with members, resulted in more engagement than ever before.

This boosted already impressive professionalism and client service among the Realtor community. By offering an expanded library of innovative instructors and engaging courses – again, all for free – Realtors were more enthusiastic about their craft.

This added engagement and enthusiasm among members is not a one-off victory, either. It's a foundation on which we're building a stronger association and a stronger community.

– Josh McFall, CEO, Huntsville Area Association of REALTORS

Subject: EASE Ballot Access from the Nevada Secretary of State's Office, Elections Division

Jim Hindle, you have been granted access to a password to access ballots submitted online through the Nevada Secretary of State's EASE system (http://www.nvease.gov/), for Storey County. **To access this password, click here** and provide your credentials to the NV SOS 'NevVoter' application. It Is recommended you bookmark this page for future access to ballots for the 2022 General Election. This password is only usable for this election.

Please note: In order to avoid unprocessed ballot submissions, you must periodically check the Ballot Submissions page at https://nevvoter.nv.gov/SOSHAVAServices/Reports/EASESubmissions.aspx during the course of the election! You should receive an email notification for each submitted ballot but in the event those emails are blocked by a spam filter, you should make it a practice to go look for new ballots within this system. You may contact soshelp@sos.nv.gov if you have problems accessing this information.

Subject: EASE Demo?

Good afternoon!

I realized that with everything going on, I hadn't yet offered you a demo of the Effective Absentee System for Elections (EASE) that is used by military, overseas, and voters with a disability. It goes "live" on Saturday, but I can share my screen to show you what it looks like, how it works, and what actions you and your teams will need to take for each EASE ballot that we receive.

Is that something you'd be interested in? It does not have to happen this week and we could schedule the 30 minute demo anytime in the next three weeks when your schedule permits.

What do you think?

Subject: EASE Testing

Hello Election Team,

EASE testing is ready for the counties listed below. Thank you for your participation. Please let us know if you have any questions.

Instructions

1. Review the contests, term, vote for, candidates, political affiliation, and ballot questions.
2. Test the new oval feature.
3. To change and test a different precinct, update the precinct ID after “precinct=” in the URL link (image below).
4. Report any issues or concerns.

Testing From Start to Finish
If you would like to test from start to finish, you’ll use the following URLhttps://www.nvsos.gov/EASEBeta/EasePages/Overview.aspx. You will need to enter voter information in order to get to the contests. Submissions may be viewed in NevVoter under My Reports > EASE Ballot Submissions. You will need the EASE password that was sent to the designated recipients. Anything submitted during testing will be purged before go-live, so test data and real data don’t comingle.

Password Help
If you need your password resent, select “Ballot Password Help?” in the EASE Ballot Submissions page to start that process.

Subject: EASE
Attachment(s): "2022-023 Use of EASE vFINAL.pdf","2022 Regulations - pg 3.pdf"

Good morning,
We continue to get calls and questions from members of the public about who can use EASE legally and from where they are allowed to use it. To clarify, and under Nevada law:

- ***Active Duty*** **Military Service Members and their Spouses and Dependents** – Can use EASE from anywhere, meaning they can be **inside** Nevada and do not have to be out of the state or country.
- **Voters with a disability -**Can also use EASE from anywhere, meaning they can be **inside** Nevada and do not have to be out of the state or country. The regulation that explains who is covered under description this is attached (see the middle of pg 3).
- **Overseas Citizens** – MUST be outside of the United States. A Nevada voter who is not otherwise eligible (Active Duty military/dependent or a Voter with a Disability) cannot legally use EASE, for example, while on vacation inside the US (or Hawaii, etc.) or as a backup/emergency due to a failure to receive a mail ballot.

There are additional details in the attached document, but please make sure that correct information is being shared with your staff, temp workers, and PIO.

Please text or call me if you have any questions.

ADOPTED REGULATION OF

THE SECRETARY OF STATE

LCB File No. R081-21

EXPLANATION – Matter in ***italics*** is new; matter in brackets **[**~~omitted material~~**]** is material to be omitted.

AUTHORITY: §§ 1 and 2, NRS 293.124; §§ 3-8, NRS 293.124, 293.247 and 293.250, as amended by section 1 of Assembly Bill No. 121, chapter 315, Statutes of Nevada 2021, at page 1870 (NRS 293.269951); § 9, NRS 293.124, 293.247 and 293.469, as amended by section 10 of Assembly Bill No. 121, chapter 315, Statutes of Nevada 2021, at page 1876; § 10, NRS 293.124 and 293.247; §§ 11 and 12, NRS 293D.200.

A REGULATION relating to elections; setting forth various requirements related to an elector with a disability or a registered voter with a disability using the system of approved electronic transmission established for certain uniformed military and overseas voters; requiring each county or city clerk to provide notice to certain persons regarding such a system of approved electronic transmission; revising the instructions provided to covered voters related to military-overseas ballots; revising the declaration that certain covered voters are required to submit with a military-overseas ballot; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the Secretary of State to establish a system of approved electronic transmission through which certain uniformed military and overseas voters may register to vote, apply for a military-overseas ballot and cast a military-overseas ballot. (NRS 293D.200) Existing law also requires the Secretary of State to allow the system of approved electronic transmission to be used by: (1) an elector with a disability to register to vote; and (2) a registered voter with a disability to apply for and cast a ballot. Existing law further requires the Secretary of State to: (1) prescribe the form and content of a declaration for use by an elector or registered voter with a disability to swear or affirm specific representations; (2) prescribe procedures to be used by local elections officials in accepting, handling and counting ballots received from a registered voter with a disability using the system of approved electronic submission; and (3) adopt any regulation necessary to carry out these provisions. (Section 1 of Assembly Bill No. 121, chapter 315, Statutes of Nevada 2021, at page 1870) (NRS 293.269951)

Section 3 of this regulation provides that a person is an elector or registered voter with a disability if the elector or registered voter: (1) has a physical or mental impairment that substantially limits one or more of the major life activities of the elector or registered voter; (2) has a record of such impairment; or (3) is regarded as having such an impairment.

Section 4 of this regulation requires a registered voter with a disability who applies for a ballot using the system of approved electronic transmission to indicate whether: (1) the local

AMERICAN OVERSIGHT

elections official must send the ballot to the registered voter by mail or approved electronic transmission; and (2) the registered voter will return the ballot to the local elections official by mail or approved electronic transmission. **Section 4** further requires the local elections official to provide to the registered voter certain instructions depending on whether the registered voter will return the ballot by mail or approved electronic transmission.

Section 5 of this regulation sets forth the form of the declaration to which a registered voter with a disability must swear or affirm.

Section 6 of this regulation provides that if a local elections official receives a request for a ballot from a registered voter with a disability after a mail ballot has been sent to the registered voter, the local elections official must indicate that the mail ballot is cancelled in the mail ballot record.

Section 7 of this regulation requires a local elections official to: (1) cause a unique identification number to be included on a ballot sent to a registered voter with a disability; and (2) record in the ballot record certain information related to a ballot sent to a registered voter with a disability.

Section 8 of this regulation requires, not later than 60 days after the election, a local elections official to report to the Secretary of State certain information related to ballots sent to voters with disabilities.

Section 2 of this regulation defines the term "local elections official."

Existing law provides that each county clerk is encouraged to notify the public, through means designated to reach members of the public who are elderly or disabled, of certain election information, including that an elector with a disability may register to vote and a registered voter who is disabled may request and cast a ballot using the system of approved electronic transmission established for certain uniformed military and overseas voters. (NRS 293.469, as amended by section 10 of Assembly Bill No. 121, chapter 315, Statutes of Nevada 2021, at page 1876) Existing regulations require the county or city clerk to provide notice of the availability of voting aids and procedures for voting by absentee ballot. (NAC 293.190, 293C.230) **Sections 9 and 10** of this regulation provide that the county or city clerk must provide notice of the procedures for registering to vote and voting using the system of approved electronic transmission established for certain uniformed military and overseas voters.

Existing regulations require that a local elections official provide instructions to a covered voter for marking and returning a military-overseas ballot, including an explanation that the military-overseas ballot and any other necessary voting materials must be received by the office of the appropriate local elections official by 7 p.m. Pacific Standard Time on the day of the election. (NAC 293D.010) **Section 11** of this regulation provides instead that the instructions include an explanation of the deadline for a covered voter to cast and return the military-overseas ballot and other necessary voting materials.

Section 12 of this regulation revises the form of the declaration of a covered voter to eliminate obsolete language.

Section 1. Chapter 293 of NAC is hereby amended by adding thereto the provisions set forth as sections 2 to 8, inclusive, of this regulation.

AMERICAN OVERSIGHT
NV-STOREY-22-1163-A-002757

Sec. 2. *As used in sections 2 to 8, inclusive, of this regulation, "local elections official" has the meaning ascribed to it in NRS 293D.040.*

Sec. 3. *For the purposes of section 1 of Assembly Bill No. 121, chapter 315, Statutes of Nevada 2021, at page 1870 (NRS 293.269951), an elector with a disability may use the system of approved electronic transmission established pursuant to NRS 293D.200 to register to vote, and a registered voter with a disability may use the system of approved electronic transmission established pursuant to NRS 293D.200 to apply for and cast a ballot, if the elector or registered voter, as applicable:*

1. Has a physical or mental impairment that substantially limits one or more of the major life activities of the elector or registered voter;

2. Has a record of such an impairment; or

3. Is regarded as having such an impairment.

Sec. 4. *1. A registered voter with a disability who applies for a ballot pursuant to section 1 of Assembly Bill No. 121, chapter 315, Statutes of Nevada 2021, at page 1870 (NRS 293.269951) must indicate on the application:*

(a) Whether the local elections official must send the ballot to the registered voter by mail or approved electronic transmission; and

(b) Whether the registered voter will return the ballot to the local elections official by mail or approved electronic transmission.

2. If a registered voter with a disability indicates on the application for a ballot that he or she will return the ballot by mail, the local elections official must provide to the registered voter a ballot and instructions for marking and returning the ballot, including, without limitation:

AMERICAN OVERSIGHT

(a) How to indicate the candidate or candidates for whom the voter is voting;

(b) How to correct the ballot if the voter commits an error marking the ballot or wants to change the candidate or candidates for whom the voter is voting;

(c) An explanation that the completed ballot must be inserted into the accompanying privacy sleeve or envelope;

(d) An explanation that the registered voter must insert the privacy envelope or sleeve into the declaration envelope;

(e) An explanation that the registered voter must complete and sign the declaration on the front of the declaration envelope; and

(f) An explanation of the deadline for the registered voter to cast and return the ballot and other necessary voting materials, including, without limitation, the declaration set forth in section 5 of this regulation, by mail to the appropriate local elections official.

3. If a registered voter with a disability indicates on the application for a ballot that he or she will return the ballot by approved electronic transmission, the local elections official must provide to the registered voter a ballot and instructions for marking and returning the ballot, including, without limitation:

(a) How to indicate the candidate or candidates for whom the registered voter is voting.

(b) An explanation that the declaration set forth in section 5 of this regulation must be signed by the registered voter and returned by approved electronic transmission with the ballot.

(c) An explanation of how to return the ballot by approved electronic transmission.

(d) An explanation of the deadline for the registered voter to cast and return the ballot and other necessary voting materials, including, without limitation, the declaration set forth in

AMERICAN OVERSIGHT

section 5 of this regulation, by approved electronic transmission to the appropriate local elections official.

4. In addition to any applicable requirements set forth in subsections 2 and 3, the local elections official must:

(a) Provide to the registered voter the contact information of the local elections official or an authorized representative of the local elections official who will be available during normal business hours to answer questions from the voter concerning the ballot. Such information must include, without limitation, the local elections official or authorized representative's name, address, phone number, facsimile transmission number and electronic mail address.

(b) Instruct the registered voter that the ballot may not be used by another registered voter or duplicated.

(c) Provide to the registered voter any other information required by the Secretary of State or local elections official.

Sec. 5. *1. The declaration that is required pursuant to section 1 of Assembly Bill No. 121, chapter 315, Statutes of Nevada 2021, at page 1870 (NRS 293.269951) for use by a registered voter with a disability who indicates that he or she will return the military-overseas ballot by approved electronic transmission must be in the following form:*

MEMORANDUM

To: Nevada County Clerks & Registrars

From: Mark Wlaschin

Date: October 6, 2022

Subject: Memo 2022-023 – Use of EASE

The following guidance is provided to clarify who is eligible to use the Effective Absentee System for Elections (EASE) and when it is authorized under existing law. The primary purpose of this guidance is to clarify that the federal requirements of the Uniformed and Overseas Citizen Absentee Voting Act (UOCAVA) have been expanded upon by the Nevada Legislature and to highlight those changes.

NRS 293D.030 defines a "covered voter" who is eligible to use the EASE program:

NRS 293D.030 "Covered voter" defined. "Covered voter" means:
1. A uniformed-service voter;
2. An overseas voter; or
3. A spouse or dependent of a uniformed-service voter.

(Added to NRS by 2011, 1917)

These categories of covered voters are further explained in NRS 293D.090 and NRS 293D.060.

NRS 293D.090 "Uniformed-service voter" defined. "Uniformed-service voter" means an elector who is:
1. A member of the active or reserve components of the Army, Navy, Air Force, Marine Corps or Coast Guard of the United States who is on active duty;
2. A member of the Merchant Marine, the Commissioned Corps of the Public Health Service or the Commissioned Corps of the National Oceanic and Atmospheric Administration of the United States;
3. A member of the National Guard or state militia unit who is on activated status; or
4. A spouse or dependent of a person described in subsection 1, 2 or 3.

(Added to NRS by 2011, 1917)

NRS 293D.060 "Overseas voter" defined. "Overseas voter" means a United States citizen who is outside the United States and is eligible to be a covered voter pursuant to NRS 293D.210.

(Added to NRS by 2011, 1917)

AMERICAN OVERSIGHT

Uniformed-Service Voter. Regarding uniformed-service voters, please note that under the provisions of NRS 293D.090(1), only service members on active duty (and their spouses and dependents) may use the EASE system. National Guard personnel and members of the Reserve Components of the US military may also use EASE, but only while on active duty orders (also known as being in an "activated status"). While no proof of active duty orders is required, this distinction is an important part of their eligibility. Members of the Merchant Marine, the Commissioned Corps of the Public Health Service or the Commissioned Corps of the National Oceanic and Atmospheric Administration of the United States do not need to be on active duty to use EASE.

Additionally, the requirements identified in the Uniformed and Overseas Citizen Absentee Voting Act (UOCAVA) state that the Act is intended for military personnel who are "…absent from the place of residence…", but there is no such requirement identified in NRS 293D.090. As such, uniformed-service voters and their spouses and dependents may use EASE regardless of their location. That is, they do not need to be deployed or absent from their residence in order to use it and are still authorized to use EASE while still in Nevada or at their home of record. **This means that a uniformed-service voter, spouse, or dependent, does not need to provide a mailing address that is different from their residential address for their EASE ballot to be accepted by a county election official.**

Overseas Voter. Regarding the eligibility of an "overseas voter", the UOCAVA is the federal act that required adoption of EASE. 52 U.S.C. § 20310(5) says that an "overseas voter" is:

> *(A) an absent uniformed services voter who, by reason of active duty or service is absent from the United States on the date of the election involved;*
>
> *(B) a person who resides outside the United States and is qualified to vote in the last place in which the person was domiciled before leaving the United States; or*
>
> *(C) a person who resides outside the United States and (but for such residence) would be qualified to vote in the last place in which the person was domiciled before leaving the United States.*

The federal definition requires a non-uniformed service voter to reside outside of the US in order to be entitled to vote pursuant to the Uniformed and Overseas Citizens Absentee Voting Act. Under the federal requirements, a Nevada resident who simply goes on vacation abroad would not meet the federal definition because they would still reside in Nevada. However, Nevada's definition of an overseas voter differs from the federal definition.

NRS 293D.060 and 293D.210(1) can be read to allow any Nevada voter who is outside of US borders to vote via EASE, regardless of whether they reside in Nevada or abroad. **County Clerks and Registrars should consult with their District Attorneys to determine whether to allow or not allow a Nevada voter who resides in Nevada, but is abroad for the election, to vote via EASE. Notably, a Nevada voter who is outside of Nevada, but still within US borders, is not authorized to use EASE.**

Voters with a Disability. The passage of Assembly Bill 121 (AB121) during the 2021 Legislative Session expanded the categories of Nevada voters who are authorized to use EASE to include voters with a disability. The changes implemented by AB121 have since been codified throughout NRS 293 and NRS 293D. Additional guidance has been provided in the adoption of permanent regulation R081-21. These

changes have not been codified in NAC 293, NAC 293C, or NAC 293D as of October 6, 2022, but they may be accessed here.

Specifically of note, Section 3 of regulation R081-21 identifies that a voter is authorized to use EASE if:

> *…the elector or registered voter, as applicable:*
>
> *1. Has a physical or mental impairment that substantially limits one or more of the major life activities of the elector or registered voter;*
>
> *2. Has a record of such an impairment; or*
>
> *3. Is regarded as having such an impairment.*

While these definitions define what would qualify an individual to use EASE, it is important that no validation or screening of electors be conducted as there is no statutory authority for a Nevada election official to do so and any attempt to do so may disenfranchise an eligible elector. Ultimately the elector will sign an attestation under penalty of perjury that they are eligible to use EASE.

It is the intent of the Office of the Secretary of State that this guidance be submitted as a regulation following the conclusion of the 2022 election cycle or to seek clarification through a BDR with the Legislature. To that end, if any Clerk identifies a means to improve this guidance, please notify the Deputy for Elections prior to December 15, 2022.

Respectfully,

Barbara K. Cegavske
Secretary of State

Probable Cause Declaration for Eastman, Tai Timothy Thomas	Case 22-1002	Page 2

On 10/29/2022, I was patrolling the Lockwood area of Storey County, NV.

At approximately 1844 hrs, I was traveling North on Canyon Way behind an offroad OHV (quad) driven by a WMA. This was during a period of darkness and I could see there was no rear lighting on the OHV. I conducted a traffic enforcement stop and contacted the driver who identified himself as SA-Eastman, Tai. A records check showed he had an outstanding out of county warrant for his arrest. SCSO Dispatch confirmed the warrant and I placed Eastman under arrest.

I transported Eastman to the relay point where Deputy Ranson transported him to the Storey County Detention Facility without incident.

Austin and Jim,

I am prepared to do the minutes today, but as soon as the meeting is over, I am going to the emergency room, as I woke up having trouble breathing. It's a little better now, but I would like to get a chest xray and my doctor last visit didn't refer me for one. She said my lungs sounded fine. They don't feel fine. I will finish the eblast and everything tomorrow and/or Thursday, depending on what the doctor tells me. I don't have to work at the Bucket this weekend.

bty Austin, this is a relatively new email.

Nov. 15, 2022, Board of Commissioners

DRAFT

Staff and Board Comments

Christmas on the Comstock begins after Thanksgiving. The community tree lighting will be 6 p.m. Dec. 2. ((Where?))

There will be two parades followed by fireworks shows. Parades begin ((what time??)) on Dec. 3 and Dec. 10, and fireworks follow.

A full listing of all Christmas events will be posted to the website at www.visitvirginiacitynv.com as soon as possible. Call the Visitor's Center at 775-847-7500 for more information.

Storey County Fire District reported the following:

1. Controlled pile burns were done at the Highlands slash pile.
2. Controlled pile burns will occur in VC at the east end of town. Smoke will be evident during this time.
3. 7 applications received for high school cadet program.
4. Hosted visitors from Kansas Department of Emergency Management.

Senior Services reported the following:

1. The Virginia City Senior Center was closed Wednesday, Nov. 16 to install a new oven.
2. A Covid clinic will be held from 9 a.m. to 11 a.m. Nov. 17 in Lockwood and 4:30 p.m. to 6:30 p.m. Nov. 30 in the Highlands.
3. Director Stacy York and the Public Works Department were thanked for their efforts in the Community Resource Fair in Mark Twain.

IT Department reported the following:

1. Moving departments and data systems from on-site servers to cloud-based systems. These systems are mores secure, reliable, and recoverable, and they reduce costs.
2. Upgraded phone systems will be installed at the Sheriff's Office and Community Development. IT is working with the Senior Center to get that building to transition phones and Internet.

Mitzi Marie Carter was introduced as the county's new Human Resources Director.

Three building inspectors with Community Development have passed their (((what))) certification tests.

The reginal fiscal analysis paper is near complete and will be published shortly. This paper will be used in the legislative session to show positive fiscal impacts by Storey County on northern Nevada.

County Manager reported the following:

1. Three town halls occurred to get public input on the 2024 successor solid waste collection franchise agreement public bidding process. The town halls occurred at 5:30 p.m. Nov. 16 at Piper's Opera House in Virginia City, 5:30 p.m. Nov. 17 at the Highlands Fire Station, and 5:30 p.m. Nov. 18 at the Mark Twain Community Center. A Zoom town

All things education: Strategizing, developing and maximizing association education programs

Dr. Amanda Cecil talks about the magic that happens when you put together someone who spends their day thinking about good learning practice and pedagogy with a subject matter expert. Merging these two worlds together leads to powerful programming.

Amanda Cecil, professor and expert on association education programming, joins the A100 podcast to discuss all things education. With more than a decade of experience with associations, Amanda shares her insights on how association leaders can truly optimize their educational resources, content and curriculum design.

Bringing in her own perspective, she discusses how the narrative around four year degrees and association education have changed. Amanda stresses the importance of collaboration, creativity and communication when developing educational programming.

Her guidance and advice on association education programming are invaluable, covering everything from major challenges to experiential learning.

Member engagement – More than just a checklist

The American School Counselor Association (ASCA) provides professional development, publications and other resources, research and advocacy to more than 40,000 professional school counselors around the globe so building meaningful connections among so many members is essential.

Member engagement is at the heart of every association. We added an engagement role to our team to uncover ways to make more meaningful connections.

We asked, “How do we make people feel connected to this much bigger community?”

Many members want to be involved, but we don't have enough volunteer positions to offer. Our engagement efforts focused on that.

We’ve created affinity groups related to our members’ passions, highlighting how those passions connect to the role of the school counselor. We want to elevate the profession and want members to know they’re not alone – that this is their home.

How to host a communications workshop for your members

A communications workshop can be a member offering that boosts the ROI of belonging to your association. Learn what you should include in yours.

As associations look to recruit and retain members in today's environment, providing a clear value proposition matters more than ever. Offering a communications workshop can be a powerful new offering and can cover:

• Best practices for press outreach including building a media list and strengthening reporter relationships or how to write a winning pitch.

• How to use owned content to better position your association as the leading authority and thought leader on your industry's top issues.

• Basic social media dos and don'ts or something more specific like how they can use social media to recruit the workforce of the future.

4 ways to improve your business website

In the digital world where businesses have transferred their products and services online to reach a wider audience, a website can be considered the 'face' of a brand. A website builds credibility and allows for various digital marketing opportunities to reach your target market and increase sales.

Improving your website is significant for the growth of your business. Here are four tips to help you build a more effective website that will drive new consumers to your business:

1. Incorporate blogs into your website – Writing blogs that customers will find interesting and helpful will increase website traffic and credibility.

2. Have accessible contact information – Your business's contact information and social media links should be placed where they can be easily found.

3. Follow modern website design trends – Conform to the principle of minimalism.

4. Add customer testimonials – Potential customers want to know what other people say about your products and services.

Background checks are ingrained in law and compliance. The Fair Credit Reporting Act (FCRA), state laws, and local ordinances define relevant requirements and restrictions. Courts and government agencies are often the sources of some records. In fact, laws may be why you screen in the first place, with many industries facing regulations. Most importantly, no matter how or why you screen your employees, you, as an employer, have legal obligations. Employers must obtain and use background checks according to various laws.

Join us for this webinar to learn where compliance updates and background checks are in the news. We'll let you in on what trends we are tracking, from drug testing restrictions to the latest judgments. You'll also see how courts are ruling on cases involving critical disclosure and authorization documents.

Join us on Compliancevent this October to learn a legally compliant way of criminal background checks. You will also receive a FREE customized Criminal Background Check tool specifically designed to help Employers dispute allegations of wrongful termination.

What You will Learn:

•Fair Credit Reporting Act (FCRA)
• Ban-the-Box Laws
• Consumer Privacy Impacts
• How your current background check program could get you into trouble
• The most important updates to EEOC, FCRA, and Ban the Box regulations
• Easy steps you can start taking today to get compliant—and stay compliant
• Why regulations are protecting formerly incarcerated individuals in the workplace

We can't wait to see you there!

2022 General Election CTI Situation Report

Information current as of November 8, 2022, 10:00am ET

TLP: AMBER - Distribute within your organization and with vetted partners.

Purpose of Document: Awareness/Actionable Information for election administrators/IT staff

This document contains a summary of EI-ISAC tracked events affecting election operations during the general election and pre-election period. This document is not a comprehensive list of all events affecting elections – it is intended to provide situational awareness and EI-ISAC analysis of significant events impacting election offices.

Election Day Reported Activity

Malware

- A state election office reported that a non-elections department in a county experienced suspicious cyber activity. The county initially detected malware on a single workstation. When investigated, additional detections on multiple devices and one Remote Desktop Server were discovered. Attempts to install remote access tools from suspected Atera and Splashtop Streamer were detected. Suspicious activity was also detected on a print server indicating attempts to install 124.dll and the remote access tools. Additionally, a “netscan.exe” utility was found in the C:\ProgramDate folder. The workstations and servers were restored, but additional suspicious activity including registry exports and PowerShell execution was detected.

Scanning/Suspicious Web Activity

- A state election office reported a spike in packets per second (1.4 million). Zone protection kicked in and blocked new sessions. The office noticed applications go offline for a few moments.
- A local election office reported scanning of their infrastructure from the following IPs:
    - 174[.]138[.]181[.]170, 208[.]73[.]203[.]122, 87[.]99[.]77[.]44, 192[.]241[.]192[.]20, 69[.]10[.]59[.]238, 209[.]159[.]158[.]114
- A local election office reported seeing suspicious traffic from the following IPs:

- A state website reported higher-than-expected traffic, that may be the result of a DDoS. The issues were mitigated after 10 minutes and incoming traffic was blocked.
- A state election office reported seeing probing and scanning activity from the following IPs, which may be associated with the group "Killnet"
    - 185[.]220[.]100[.]241, 185[.]220[.]101[.]35, 199[.]249[.]230[.]145, 199[.]249[.]230[.]189

Mis/Disinformation

- A local election office reported a typosquatting domain being registered similar to the organization's election domains.
- A local election office reported that the number 956-339-2885 was sending inaccurate information about polling sites.

AMERICAN OVERSIGHT

- A voter reported to a state election office that the number 1-204-785-0684 was sending out inaccurate information to voters.

Hardware/Software Concerns

- A local election office reported issues with voting machines due to printing and scanning issues with ballots.
- A state election office reported technical difficulties with their voter app, portal, and elections hotline. The issues was not a DDoS and was resolved.

Pre-Election Day Reported Activity

Scanning/Suspicious Web Activity

- A state tracked high DNS traffic directed towards their infrastructure which may have overwhelmed the firewall connection pool and resulted in website outages.
- A state election office reported a high volume of web application vulnerability scanning targeting their voter porter. Over 13400 IPs were used, but there was no disruption in service.
- Election offices reported seeing potentially suspicious/malicious traffic from the below IP addresses
    - `87.236.176[.]240, 192.241.212[.]54, 152.89.196[.]36, 104.218.164[.]140, 89.208.107[.]35, 136.243.228[.]180, 185.185.217[.]75, 185.191.171[.]1-45, 51.222.253[.]2-22, 152.89.196[.]0/24, 152.89.196[.]211`

Inaccurate Information

- A state election office received a report that the number 1-204-785-0684 is texting inaccurate information to voters.
- A local election office reported a text message sent from 1-314-677-1086 supplying a non-existent polling location.
- An organization called "Movement Labs" has released statements online acknowledging that they were responsible for the texts that went out to members of the public from "Voting Futures" containing inaccurate information about polling locations. The EI-ISAC is monitoring several reports that Movement Labs will be sending additional text messages to voters in multiple states. These messages use publicly available information to identify voters and polling locations, and may contain inaccurate information.
- A local election office received several complaints from voters who voted by mail that they are receiving calls from a California phone number stating that their mail-in ballots are being rejected.

Physical Threat Concerns

- A local election office reported that while processing mail ballot envelopes a white substance spilled out of small holes in an envelope. The substance was not harmful.

Recommendations

- Review network logs to identify machines/users that have communicated with any listed domains/IPs.
    - If necessary, investigate any impacted users to determine if credentials were entered.
- Instruct staff to avoid clicking any links in suspicious emails.
- Report all suspicious activity to the EI-ISAC Security Operations Center (SOC@cisecurity.org).

Report inaccurate information to the EI-ISAC by emailing it to misinformation@cisecurity.org with a screenshot of the post, the URL(s) (if possible), your name, role, jurisdiction, and a description of why it is misinformation.

2022 General Election CTI Situation Report

Information current as of November 8, 2022, 10:30pm ET (updates in bold)

TLP: AMBER -Distribute within your organization and with vetted partners.

Purpose of Document: Awareness/Actionable Information for election administrators/IT staff

This document contains a summary of EI-ISAC tracked events affecting election operations during the general election and pre-election period. This document is not a comprehensive list of all events affecting elections – it is intended to provide situational awareness and EI-ISAC analysis of significant events impacting election offices.

Election Day Reported Activity

Malware

- A state election office reported that a non-elections department in a county experienced suspicious cyber activity. The county initially detected malware on a single workstation. When investigated, additional detections on multiple devices and one Remote Desktop Server were discovered. Attempts to install remote access tools from suspected Atera and Splashtop Streamer were detected. Suspicious activity was also detected on a print server indicating attempts to install 124.dll and the remote access tools. Additionally, a “netscan.exe” utility was found in the C:\ProgramDate folder. The workstations and servers were restored, but additional suspicious activity including registry exports and PowerShell execution was detected.

Phishing

- Multiple election offices received phishing email from SeaChange (justin[.]sanders@seachangemn[.]com) which was confirmed to be the result of an account compromise. The email contained a link that led to a malicious site, which led to an O365 credential harvesting domain. The following IOCs were extracted:
  - `hxxps://survey[.]alchemer[.]com/s3/7102554/SEACHANGE`
  - `hxxps://storageapi[.]fleek[.]co/f0a39cb6-7711-40ab-be29-d0936b9bda2e-bucket/greatmacha[.]html`

Scanning/Suspicious Web Activity

- **A local election office reported that Cloudflare blocked 4 GET requests from `193.142.146[.]138` that appeared to be attempting to do URL parameter bruteforcing.**
- **A state election office reported potentially malicious activity from the following IPs**
  - **`185.199.102[.]12, 138.199.52[.]37, 185.193.64[.]183, 194.49.52[.]37, 45.144.113[.]211, 185.193.64[.]13, 185.202.220[.]184, 194.124.76[.]24, 91.132.138[.]222, 45.88.190[.]93`**
- **A state election office reported they experienced a DDoS attempt between 5:14 and 5:21 PM EST, which was mitigated by the WAF. There were over 3000 IPs involved in the incident.**
- A local election office reported seeing vulnerability scanning from IPs `192.241.199[.]105` and `72.251.235[.]155`. All traffic was blocked.
- A state election office reported seeing SQLI attacks originating from IP address `193.142.146[.]138`
- A local election office reported a PHP remote code execution attempt from `20[.]25[.]26[.]20`.
- A local election office reported scanning from the following IPs: `158[.]222[.]254[.]168` and `86[.]59[.]12[.]165`.
- A local election office reported injection attempts from IP `185[.]190[.]24[.]78` against one of their elections websites trying to leverage “__CALLBACKLOADSCRIPT” in the query sting.
- A state election office reported an unsuccessful DDoS from the following IPs at 3:22am ET.
  - `72[.]14[.]201[.]205, 72[.]14[.]201[.]206, 72[.]14[.]201[.]207`
- A state election office reported a spike in packets per second (1.4 million). Zone protection kicked in and blocked new sessions. The office noticed applications go offline for a few moments.
- A local election office reported scanning of their infrastructure from the following IPs:

AMERICAN OVERSIGHT

- 174[.]138[.]181[.]170, 208[.]73[.]203[.]122, 87[.]99[.]77[.]44, 192[.]241[.]192[.]20, 69[.]10[.]59[.]238, 209[.]159[.]158[.]114

- A local election office reported seeing suspicious traffic from the following IPs:
  - 51[.]222[.]253[.]12, 51[.]222[.]253[.]16, 51[.]222[.]253[.]13, 51[.]222[.]253[.]6, and 51[.]222[.]253[.]11
- A state election office reported an attempted DDoS from the following IPs:
  - 155[.]254[.]27[.]254, 67[.]23[.]166[.]248, 209[.]95[.]62[.]186, 162[.]248[.]7[.]11, 198[.]23[.]165[.]188, 68[.]169[.]41[.]177, 162[.]248[.]7[.]143, 192[.]3[.]140[.]216, 162[.]211[.]65[.]227, 192[.]3[.]140[.]11, 68[.]169[.]41[.]53, 64[.]34[.]251[.]9, 199[.]175[.]49[.]73, 192[.]252[.]223[.]137, 103[.]11[.]64[.]76, 162[.]248[.]7[.]10, 173[.]244[.]210[.]74, 192[.]3[.]140[.]218, 192[.]252[.]223[.]140, 103[.]11[.]64[.]79, 192[.]3[.]140[.]12, 67[.]205[.]191[.]61, 198[.]199[.]94[.]209, 162[.]248[.]7[.]92
- A local election office reported scanning activity from the following IPs:
  - 174[.]138[.]181[.]170, 208[.]73[.]203[.]122, 87[.]99[.]77[.]44, 192[.]241[.]192[.]20, 69[.]10[.]59[.]238, 209[.]159[.]158[.]114
- A state website reported higher-than-expected traffic, that may be the result of a DDoS. The issues were mitigated after 10 minutes and incoming traffic was blocked.
- A state election office reported seeing probing and scanning activity from the following IPs, which may be associated with the group "Killnet." A second state election office confirmed seeing scanning activity from IP185[.]220[.]100[.]241.
  - 185[.]220[.]100[.]241, 185[.]220[.]101[.]35, 199[.]249[.]230[.]145, 199[.]249[.]230[.]189

Mis/Disinformation

- A local election office reported a few instances of "concerns" about WiFi usage at polling locations. One was a poll watcher and another voter sent a picture of nearby WiFi networks.
- A local election office reported individuals online posted a picture of a WiFi network at a polling place and are claiming that it is a Konnech ExpressVote scanner.
- A local election office reported that voters received calls on November 7th from someone who identified as being with a state political party. The caller asked if they intended to vote and who they were voting for. The caller then told them that their polling place would be closed on election day, so they would need to find an alternate polling site. The calls came from 608-366-3232 but this seems to be a spoofed number.
- A local election office reported that there are 10-12 calls today from voters who received polling location texts with incorrect information.
- A local election office reported a typosquatting domain being registered similar to the organization's election domains.
- A local election office reported that the number 956-339-2885 was sending inaccurate information about polling sites.
- A voter reported to a state election office that the number 1-204-785-0684 was sending out inaccurate information to voters.

Hardware/Software Concerns

- **A state election office is investigating a temporary outage of their Election Night Reporting Results web server which has since returned to normal operations.**
- A local election office reported issues with voting machines due to printing and scanning issues with ballots. The issue is the printing company. It is either the wrong type of ink or the wrong format for the ballot.
- A state election office reported technical difficulties with their voter app, portal, and elections hotline. The issues was not a DDoS and was resolved.

Pre-Election Day Reported Activity

Scanning/Suspicious Web Activity

- A state tracked high DNS traffic directed towards their infrastructure which may have overwhelmed the firewall connection pool and resulted in website outages.
- A state election office reported a high volume of web application vulnerability scanning targeting their voter portal. Over 13400 IPs were used, but

AMERICAN OVERSIGHT

there was no disruption in service.

- Election offices reported seeing potentially suspicious/malicious traffic from the below IP addresses
    - 87.236.176[.]240, 192.241.212[.]54, 152.89.196[.]36, 104.218.164[.]140, 89.208.107[.]35, 136.243.228[.]180, 185.185.217[.]75, 185.191.171[.]1-45, 51.222.253[.]2-22, 152.89.196[.]0/24, 152.89.196[.]211

Inaccurate Information

- A state election office reported voters have received texts from 971-356-0932 giving incorrect polling location information.
- A state election office received a report that the number 1-204-785-0684 is texting inaccurate information to voters.
- A local election office reported a text message sent from 1-314-677-1086 supplying a non-existent polling location.
- An organization called "Movement Labs" has released statements online acknowledging that they were responsible for the texts that went out to members of the public from "Voting Futures" containing inaccurate information about polling locations. The EI-ISAC is monitoring several reports that Movement Labs will be sending additional text messages to voters in multiple states. These messages use publicly available information to identify voters and polling locations, and may contain inaccurate information.
- A local election office received several complaints from voters who voted by mail that they are receiving calls from a California phone number stating that their mail-in ballots are being rejected.

Physical Threat Concerns

- A local election office reported that while processing mail ballot envelopes a white substance spilled out of small holes in an envelope. The substance was not harmful.

Recommendations

- Review network logs to identify machines/users that have communicated with any listed domains/IPs.
    - If necessary, investigate any impacted users to determine if credentials were entered.
- Instruct staff to avoid clicking any links in suspicious emails.
- Report all suspicious activity to the EI-ISAC Security Operations Center (SOC@cisecurity.org).

Report inaccurate information to the EI-ISAC by emailing it to misinformation@cisecurity.org with a screenshot of the post, the URL(s) (if possible), your name, role, jurisdiction, and a description of why it is misinformation.

Purpose of Document: Awareness/Actionable Information for election administrators/IT staff

This document contains a summary of EI-ISAC tracked events affecting election operations during the general election and pre-election period. This document is not a comprehensive list of all events affecting elections – it is intended to provide situational awareness and EI-ISAC analysis of significant events impacting election offices.

Election Day Reported Activity

Malware

- A state election office reported that a non-elections department in a county experienced suspicious cyber activity. The county initially detected malware on a single workstation. When investigated, additional detections on multiple devices and one Remote Desktop Server were discovered. Attempts to install remote access tools from suspected Atera and Splashtop Streamer were detected. Suspicious activity was also detected on a print server indicating attempts to install 124.dll and the remote access tools. Additionally, a "netscan.exe" utility was found in the C:\ProgramDate folder. The workstations and servers were restored, but additional suspicious activity including registry exports and PowerShell execution was detected.

Scanning/Suspicious Web Activity

- **A local election office reported a PHP remote code execution attempt from `20[.]25[.]26[.]20`.**
- **A local election office reported scanning from the following IPs: `158[.]222[.]254[.]168`and `86[.]59[.]12[.]165`.**
- **A local election office reported injection attempts from IP `185[.]190[.]24[.]78` against one of their elections websites trying to leverage "__CALLBACKLOADSCRIPT" in the query sting.**
- **A state election office reported an unsuccessful DDoS from the following IPs at 3:22am ET.**
  - **`72[.]14[.]201[.]205, 72[.]14[.]201[.]206, 72[.]14[.]201[.]207`**
- A state election office reported a spike in packets per second (1.4 million). Zone protection kicked in and blocked new sessions. The office noticed applications go offline for a few moments.
- A local election office reported scanning of their infrastructure from the following IPs:
  - `174[.]138[.]181[.]170, 208[.]73[.]203[.]122, 87[.]99[.]77[.]44, 192[.]241[.]192[.]20, 69[.]10[.]59[.]238, 209[.]159[.]158[.]114`
- A local election office reported seeing suspicious traffic from the following IPs:
  - `51[.]222[.]253[.]12, 51[.]222[.]253[.]16, 51[.]222[.]253[.]13, 51[.]222[.]253[.]6, and 51[.]222[.]253[.]11`
- A state election office reported an attempted DDoS from the following IPs:
  - `155[.]254[.]27[.]254, 67[.]23[.]166[.]248, 209[.]95[.]62[.]186, 162[.]248[.]7[.]11, 198[.]23[.]165[.]188, 68[.]169[.]41[.]177, 162[.]248[.]7[.]143, 192[.]3[.]140[.]216, 162[.]211[.]65[.]227, 192[.]3[.]140[.]11, 68[.]169[.]41[.]53, 64[.]34[.]251[.]9, 199[.]175[.]49[.]73, 192[.]252[.]223[.]137, 103[.]11[.]64[.]76, 162[.]248[.]7[.]10, 173[.]244[.]210[.]74, 192[.]3[.]140[.]218, 192[.]252[.]223[.]140, 103[.]11[.]64[.]79, 192[.]3[.]140[.]12, 67[.]205[.]191[.]61, 198[.]199[.]94[.]209, 162[.]248[.]7[.]92`
- A local election office reported scanning activity from the following IPs:
  - `174[.]138[.]181[.]170, 208[.]73[.]203[.]122, 87[.]99[.]77[.]44, 192[.]241[.]192[.]20, 69[.]10[.]59[.]238, 209[.]159[.]158[.]114`
- A state website reported higher-than-expected traffic, that may be the result of a DDoS. The issues were mitigated after 10 minutes and incoming

AMERICAN OVERSIGHT

traffic was blocked.

- A state election office reported seeing probing and scanning activity from the following IPs, which may be associated with the group "Killnet." **A second state election office confirmed seeing scanning activity from IP `185[.]220[.]100[.]241`.**
    - `185[.]220[.]100[.]241, 185[.]220[.]101[.]35, 199[.]249[.]230[.]145, 199[.]249[.]230[.]189`

Mis/Disinformation

- **A local election office reported a few instances of "concerns" about WiFi usage at polling locations. One was a poll watcher and another voter sent a picture of nearby WiFi networks.**
- **A local election office reported individuals online posted a picture of a WiFi network at a polling place and are claiming that it is a Konnech ExpressVote scanner.**
- **A local election office reported that voters received calls on November 7th from someone who identified as being with a state political party. The caller asked if they intended to vote and who they were voting for. The caller then told them that their polling place would be closed on election day, so they would need to find an alternate polling site. The calls came from 608-366-3232 but this seems to be a spoofed number.**
- **A local election office reported that there are 10-12 calls today from voters who received polling location texts with incorrect information.**
- A local election office reported a typosquatting domain being registered similar to the organization's election domains.
- A local election office reported that the number 956-339-2885 was sending inaccurate information about polling sites.
- A voter reported to a state election office that the number 1-204-785-0684 was sending out inaccurate information to voters.

Hardware/Software Concerns

- A local election office reported issues with voting machines due to printing and scanning issues with ballots. **The issue is the printing company. It is either the wrong type of ink or the wrong format for the ballot.**
- A state election office reported technical difficulties with their voter app, portal, and elections hotline. The issues was not a DDoS and was resolved.

Pre-Election Day Reported Activity

Scanning/Suspicious Web Activity

- A state tracked high DNS traffic directed towards their infrastructure which may have overwhelmed the firewall connection pool and resulted in website outages.
- A state election office reported a high volume of web application vulnerability scanning targeting their voter porter. Over 13400 IPs were used, but there was no disruption in service.
- Election offices reported seeing potentially suspicious/malicious traffic from the below IP addresses
    - `87.236.176[.]240, 192.241.212[.]54, 152.89.196[.]36, 104.218.164[.]140, 89.208.107[.]35, 136.243.228[.]180, 185.185.217[.]75, 185.191.171[.]1-45, 51.222.253[.]2-22, 152.89.196[.]0/24, 152.89.196[.]211`

Inaccurate Information

- A state election office received a report that the number 1-204-785-0684 is texting inaccurate information to voters.
- A local election office reported a text message sent from 1-314-677-1086 supplying a non-existent polling location.
- An organization called "Movement Labs" has released statements online acknowledging that they were responsible for the texts that went out to members of the public from "Voting Futures" containing inaccurate information about polling locations. The EI-ISAC is monitoring several reports that Movement Labs will be sending additional text messages to voters in multiple states. These messages use publicly available information to identify voters and polling locations, and may contain inaccurate information.
- A local election office received several complaints from voters who voted by mail that they are receiving calls from a California phone number stating that their mail-in ballots are being rejected.

Physical Threat Concerns

- A local election office reported that while processing mail ballot envelopes a white substance spilled out of small holes in an envelope. The

AMERICAN OVERSIGHT

substance was not harmful.

Recommendations

- Review network logs to identify machines/users that have communicated with any listed domains/IPs.
    - If necessary, investigate any impacted users to determine if credentials were entered.
- Instruct staff to avoid clicking any links in suspicious emails.
- Report all suspicious activity to the EI-ISAC Security Operations Center (SOC@cisecurity.org).

Report inaccurate information to the EI-ISAC by emailing it tomisinformation@cisecurity.org with a screenshot of the post, the URL(s) (if possible), your name, role, jurisdiction, and a description of why it is misinformation.

Purpose of Document: Awareness/Actionable Information for election administrators/IT staff

This document contains a summary of EI-ISAC tracked events affecting election operations during the general election and pre-election period. This document is not a comprehensive list of all events affecting elections – it is intended to provide situational awareness and EI-ISAC analysis of significant events impacting election offices.

Election Day Reported Activity

Malware

- A state election office reported that a non-elections department in a county experienced suspicious cyber activity. The county initially detected malware on a single workstation. Attempts to install remote access tools from suspected Atera and Splashtop Streamer were detected. Suspicious activity was also detected on a print server indicating attempts to install 124.dll and the remote access tools. Additionally, a “netscan.exe” utility was found in the C:\ProgramDate folder. The workstations and servers were restored, but additional suspicious activity including registry exports and PowerShell execution was detected.

Phishing

- **Multiple election offices received phishing email from SeaChange (justin[.]sanders@seachangemn[.]com) which was confirmed to be the result of an account compromise. The email contained a link that led to a malicious site, which led to an O365 credential harvesting domain. The following IOCs were extracted:**

  - 185[.]220[.]100[.]241, 185[.]220[.]101[.]35, 199[.]249[.]230[.]145, 199[.]249[.]230[.]189

Mis/Disinformation

- A local election office reported a few instances of "concerns" about WiFi usage at polling locations. One was a poll watcher and another voter sent a picture of nearby WiFi networks.
- A local election office reported individuals online posted a picture of a WiFi network at a polling place and are claiming that it is a Konnech ExpressVote scanner.
- A local election office reported that voters received calls on November 7th from someone who identified as being with a state political party. The caller asked if they intended to vote and who they were voting for. The caller then told them that their polling place would be closed on election day, so they would need to find an alternate polling site. The calls came from 608-366-3232 but this seems to be a spoofed number.
- A local election office reported that there are 10-12 calls today from voters who received polling location texts with incorrect information.
- A local election office reported a typosquatting domain being registered similar to the organization's election domains.
- A local election office reported that the number 956-339-2885 was sending inaccurate information about polling sites.
- A voter reported to a state election office that the number 1-204-785-0684 was sending out inaccurate information to voters.

Hardware/Software Concerns

- A local election office reported issues with voting machines due to printing and scanning issues with ballots. The issue is the printing company. It is either the wrong type of ink or the wrong format for the ballot.
- A state election office reported technical difficulties with their voter app, portal, and elections hotline. The issues was not a DDoS and was resolved.

Pre-Election Day Reported Activity

Scanning/Suspicious Web Activity

- A state tracked high DNS traffic directed towards their infrastructure which may have overwhelmed the firewall connection pool and resulted in website outages.
- A state election office reported a high volume of web application vulnerability scanning targeting their voter portal. Over 13400 IPs were used, but there was no disruption in service.
- Election offices reported seeing potentially suspicious/malicious traffic from the below IP addresses
  - 87.236.176[.]240, 192.241.212[.]54, 152.89.196[.]36, 104.218.164[.]140, 89.208.107[.]35, 136.243.228[.]180, 185.185.217[.]75, 185.191.171[.]1-45, 51.222.253[.]2-22, 152.89.196[.]0/24, 152.89.196[.]211

Inaccurate Information

- **A state election office reported voters have received texts from 971-356-0932 giving incorrect polling location information.**
- A state election office received a report that the number 1-204-785-0684 is texting inaccurate information to voters.

AMERICAN OVERSIGHT

- A local election office reported a text message sent from 1-314-677-1086 supplying a non-existent polling location.
- An organization called "Movement Labs" has released statements online acknowledging that they were responsible for the texts that went out to members of the public from "Voting Futures" containing inaccurate information about polling locations. The EI-ISAC is monitoring several reports that Movement Labs will be sending additional text messages to voters in multiple states. These messages use publicly available information to identify voters and polling locations, and may contain inaccurate information.
- A local election office received several complaints from voters who voted by mail that they are receiving calls from a California phone number stating that their mail-in ballots are being rejected.

Physical Threat Concerns

- A local election office reported that while processing mail ballot envelopes a white substance spilled out of small holes in an envelope. The substance was not harmful.

Recommendations

- Review network logs to identify machines/users that have communicated with any listed domains/IPs.
    - If necessary, investigate any impacted users to determine if credentials were entered.
- Instruct staff to avoid clicking any links in suspicious emails.
- Report all suspicious activity to the EI-ISAC Security Operations Center (SOC@cisecurity.org).

TLP: AMBER -Distribute within your organization and with vetted partners.

2022 General Election CTI Situation Report

Information current as of November 7, 2022, 1:00pm ET

Purpose of Document: Awareness/Actionable Information for election administrators/IT staff

This document contains a summary of EI-ISAC tracked events affecting election operations during the pre-election period. This document is not a comprehensive list of all events affecting elections – it is intended to provide situational awareness and EI-ISAC analysis of significant events impacting election offices.

Pre-Election Day Reported Activity

Scanning/Suspicious Web Activity

- A state tracked high DNS traffic directed towards their infrastructure which may have overwhelmed the firewall connection pool and resulted in website outages.
- A state election office reported a high volume of web application vulnerability scanning targeting their voter porter. Over 13400 IPs were used, but there was no disruption in service.
- Election offices reported seeing potentially suspicious/malicious traffic from the below IP addresses
    - `87.236.176[.]240, 192.241.212[.]54, 152.89.196[.]36, 104.218.164[.]140, 89.208.107[.]35, 136.243.228[.]180, 185.185.217[.]75, 185.191.171[.]1-45, 51.222.253[.]2-22, 152.89.196[.]0/24, 152.89.196[.]211`

Inaccurate Information

- A state election office received a report that the number 1-204-785-0684 is texting inaccurate information to voters.
- A local election office reported a text message sent from 1-314-677-1086 supplying a non-existent polling location.
- An organization called "Movement Labs" has released statements online acknowledging that they were responsible for the texts that went out to members of the public from "Voting Futures" containing inaccurate information about polling locations. The EI-ISAC is monitoring several reports that Movement Labs will be sending additional text messages to voters in multiple states. These messages use publicly available information to identify voters and polling locations, and may contain inaccurate information.
- A local election office received several complaints from voters who voted by mail that they are receiving calls from a California phone number stating that their mail-in ballots are being rejected.

Physical Threat Concerns

- A local election office reported that while processing mail ballot envelopes a white substance spilled out of small holes in an envelope. The substance was not harmful.

Recommendations

- Review network logs to identify machines/users that have communicated with any domains/IPs listed above.
    - If necessary, investigate any impacted users to determine if credentials were entered.
- Instruct staff to not click on any links in suspicious emails.
- Report all suspicious activity to the EI-ISAC Security Operations Center (SOC@cisecurity.org).

Respectfully,

Subject: EI-ISAC Approved Contacts for Upcoming General Election Sit Room

TLP: AMBER

Good Afternoon!

If you are receiving this email you are marked as a primary contact on your EI-ISAC account **and have the ability to approve individuals for entry into the Situational Awareness Room we are hosting for the upcoming general election**.

If you are planning to participate in this room please email elections@cisecurity.org with the name, email and title of who you would like approved for entry into the room, and if you like them added to your EI-ISAC account, by **October 17, 2022.** Please also indicate if you would like each person added to your account only as approved for the sitroom, or if you would like them to receive additional EI-ISAC communications.

You can also request a list of who we already have marked as approved for entry on your account to verify the information is accurate.

For any **technical questions related to your HSIN account**, or help logging into your HSIN account, contact the HSIN Help Desk which is available 24/7.

- Phone: 1-866-430-0162
- Email: HSIN.HelpDesk@hq.dhs.gov

If you have any questions please do not hesitate to reach out!

Good Afternoon EI-ISAC Community!

Attached are the Executive and Technical editions of the EI-ISAC Quarterly Threat Report for Q3 2022Also attached is a report from the Joint Analytic Cell (JAC) titled*(U//FOUO) Domestic Violent Extremist Threat Environment Probably Heightened during 2022 US Midterm Election Cycle.*

To better serve the EI-ISAC community, we have created two versions of the Quarterly Threat Report.

- The Executive Edition is tailored to give officials a high overview of active security threats facing election offices.
- The Technical Edition is designed to provide situational awareness of the election infrastructure cyber-risk landscape. It include action items that can be used to secure election offices.

These Quarterly Threat Reports are derived from the EI-ISAC's network monitoring services (Albert), incidents and information reported by trusted partners, open sources, and the EI-ISAC community.

Elections Cyber Threat Landscape

Throughout 2022, the EI-ISAC has observed Cyber Threat Actors (CTAs) sustaining opportunistic and strategic network-based attacks against election offices. CTAs have scanned/performed reconnaissance of vulnerable services or ports in search for potential weaknesses they can exploit. CTAs have also attempted brute force attacks against remote technology and portals as well as targeted databases such as by launching Structured Query Language injection (SQLi) attacks.

The EI-ISAC has recently observed CTAs using Distributed Denial-of-Service (DDoS) attacks against the websites of local governments, airports, and financial services. To date, the EI-ISAC has not seen any evidence of election websites being specifically targeted, though one website did experience an outage due to shared infrastructure.

The EI-ISAC has also observed CTAs using email-/text-based attacks reinforced with social engineering tactics to increase their probability of success. For instance, they've used smishing – the tactic of phishing via Short Message Service (SMS), also known as text messages – to deploy malware, harvest information, and spread inaccurate information. CTAs have also incorporated thread hijacking into their attacks. Their malicious emails have attempted to deploy malware onto networks, including malware that could lead to a ransomware infection.

What is Thread Hijacking?

Thread hijacking is a form of phishing where malicious actors take legitimate correspondence they stole from an inbox and use that to elicit a response from their intended victim.

Account Compromise Chain Reactions

The EI-ISAC has observed CTAs using account compromises to target other accounts and create a chain of compromises. When one account is compromised, the attackers use it to send a credential-harvesting email out to the account's entire contact list. From there, CTAs compromise additional accounts and use them to send more credential-harvesting emails.

Exercise caution when opening links or documents, even from your contacts. These emails include references to shared files, invoices, or requests to review unsolicited documents. If you have a question about an email you received, leverage our no-cost resources, such as our Malicious Code Analysis Platform (MCAP), to provide you with an answer! If you need an account, please email mcap@cisecurity.org to get set up.

Report Suspicious Activity

The EI-ISAC encourages all election offices to report suspicious emails they receive or suspicious network activity they detect. Your report not only helps keep your IT infrastructure safe but also helps other election offices around the country protect themselves. Reports that we receive help our intelligence operations and analysis. The information shared voluntarily with the EI-ISAC enables us to provide accurate information about threats to election offices across the United States.

What Is MDBR and Why Does It Matter?

The Malicious Domain Block and Reporting (MDBR) tool blocks malicious websites from interacting with your network. For more information, and to begin MDBR protection in less than 15 minutes, click HERE.

Reporting Suspicious Emails

The EI-ISAC encourages all election offices to report suspicious emails they receive. If you have any questions about whether an email is legitimate, you can leverage our no-cost resources such as our Malicious Code Analysis Platform (MCAP) to provide you with an answer!

Your reporting not only helps keep your IT infrastructure safe but also helps other election offices around the country. Reports that we receive help our intelligence operations and analysis. The information shared voluntarily with the EI-ISAC enables us to provide accurate information about threats to election offices across the United States. During 2022, we witnessed emails impersonating Facebook, thread hijacking attempts, and instances where election-related emails delivered event notifications as a form of harassment.

Your timely reporting helps us track trends, shifts in behavior, and new tactics that attackers are using. Every suspicious email you upload to the MCAP sandbox for analysis helps us keep you, and the nation, secure.

What is MCAP?

- Our Malicious Code Analysis Platform (MCAP) allows election officials to submit emails for analysis. The platform safely opens the emails and examines the contents, extracting evidence to indicate if the email is legitimate or not. The files attached to the email are also vetted.
- Submissions to MCAP allow for EI-ISAC cyber analysts to take a look at the email and provide context for the information that MCAP returns.
- You can submit emails for analysis at mcap.cisecurity.org. If you need an account, please email mcap@cisecurity.org to get set up.

Our Data

The EI-ISAC uses information collected from our Albert sensors, Endpoint Detection and Response (EDR) program, MDBR service, and information sharing among the membership to identify trends.

What is Endpoint Detection and Response (EDR)?

Our EDR Program helps detect malware and remediate active threats. Click here for more information.

What are Albert Sensors?

Albert sensors help you identify malicious activity on your network. Click here for more information.

What to Do Now

Malware Protection

- Make the switch from signature-based endpoint detection to a full EDR solution with behavioral detection.
- Maintain system backups, especially for key election infrastructure.
- Use network segmentation to fence off election systems using virtual LANs where appropriate.

Smishing

- Implement Mobile Device Management and applicable anti-malware solutions to protect critical systems accessible via work phones.
- Report all suspected compromises to internal organizational contacts and the EI-ISAC.

DDoS Protection Resources

SPECIAL ANALYSIS

JOINT ANALYTIC CELL and US CAPITOL POLICE

28 OCTOBER 2022

(U//FOUO) Domestic Violent Extremist Threat Environment Probably Heightened during 2022 US Midterm Election Cycle

(U//FOUO) **DHS, FBI, NCTC, and USCP[*†] assess that domestic violent extremists (DVEs) across the ideological spectrum pose a heightened threat to the 2022 midterm elections, but violence will largely be dependent on drivers such as personalized ideological grievances and the accessibility of potential targets throughout the election cycle.** The most plausible DVE threat is posed by lone offenders who leverage election-related issues to justify violence[‡]. We base this assessment in part on drivers of DVE violence observed during the 2020 general election that remain relevant today. Enduring perceptions of election fraud[§] related to the 2020 general election continue to contribute to the radicalization of some DVEs, and likely would increase their sensitivity to any new claims perceived as reaffirming their belief that US elections are corrupt. Additionally, DVE reactions to politically and socially divisive topics have prompted violence in the past. Following the 2022 midterm election, perceptions of election-related fraud and dissatisfaction with electoral outcomes likely will result in heightened threats of violence against a broad range of targets—such as ideological opponents and election workers. We will continue to ensure that information on credible or specific threats to election campaigns or the voting process is shared with appropriate stakeholders for necessary action and mitigation.

(U//FOUO) Enduring Ideological Grievances and Perceptions of Election Fraud Likely Driving Potential for Violence

(U//FOUO) We assess that election-related perceptions of fraud and DVE reactions to divisive topics will likely drive sporadic DVE plotting of violence and broader efforts to justify violence in the lead up to and following the 2022 midterm election cycle. Some DVEs continue to amplify narratives related to the perception of fraud in the 2020 general election and varied perceptions of divisive topics linked to the midterms to justify calls for violence. Potential targets of DVE violence include candidates running for public office, elected officials, election workers, political rallies, political party representatives, racial and religious minorities, or perceived ideological opponents.

[*] (U//FOUO) DHS, FBI, and USCP do not investigate, collect, or maintain information on US persons for the purpose of monitoring activities protected by the First Amendment. No initiatives or actions will be undertaken solely on the basis of activities that are protected by the First Amendment or on the race, ethnicity, national origin or religion of the individuals, groups, or organizations being investigated. Potential criminality exhibited by certain members of a group referenced herein does not negate nor is it a comment on the constitutional rights of the group itself or its members to exercise their rights under the First Amendment to the US Constitution.

[†] (U//FOUO) While this assessment focuses on DVEs, DHS, FBI, and USCP assess other criminal actors also pose an array of threats to the 2022 election, and analysis of those threats in this document are composed utilizing lawful collection. DHS joins those portions of the analysis that inform an understanding of threats of terrorism or threats to election security. NCTC joins those portions of the analysis that inform an understanding of threats of terrorism.

[‡] (U//FOUO) We define a lone offender as an individual acting alone or without the witting support of others to further social or political goals, wholly or in part, through activities that involve unlawful acts of force or violence. Lone offenders may act within the context of recognized domestic violent extremist ideologies, their own interpretation of those ideologies, or personal beliefs. The mere advocacy of political or social positions, political activism, use of strong rhetoric, or generalized philosophic embrace of violent tactics may not constitute violent extremism, and may be constitutionally protected.

[§] (U//FOUO) Generating, accessing, discussing, or otherwise interacting with conspiracy theory-related content without engaging in violence or other illegal activity may be legal and protected by the First Amendment. The FBI does not investigate, collect, or maintain information on US persons solely for the purpose of monitoring First Amendment protected activities.

(U) FOR OFFICIAL USE ONLY: The information marked (U//FOUO) in this document is the property of the Federal Bureau of Investigation and may be distributed to government (federal, state, tribal, or local) employees and contractors with a need to know. It contains information that may be exempt from public release under the Freedom of Information Act (5 U.S.C. 552). Dissemination to the public, the media, or other personnel who do not have a need to know without prior approval of an authorized FBI official is prohibited. Precautions must be taken to ensure this information is controlled, stored, handled, transmitted, distributed, and disposed of in a manner that precludes unauthorized access.

(U//FOUO) Domestic Violent Extremist Threat Environment Probably Heightened during 2022 US Midterm Election Cycle *(continued)*

- (U//FOUO) Since 2021, DVE perceptions of a fraudulent 2020 general election have contributed to several attacks or violent plots. These enduring perceptions raise the likelihood of some DVEs mobilizing to violence during the midterm election cycle. New or emerging perceptions of fraud undermining the integrity of the midterm elections would likely exacerbate ongoing tensions during the 2022 election cycle.
- (U//FOUO) Some DVEs, particularly anti-government and anti-authority violent extremists (AGAAVE)** and racially or ethnically motivated violent extremists (RMVE)††, motivated by differing perceptions of issues like government overreach, firearms regulation, and immigration policy, will potentially view social and political tensions during the upcoming midterm election as an opportunity to use or promote violence in furtherance of their ideological goals.
- (U//FOUO) DVEs' grievances regarding abortion and LGBTQ+ issues—which resonate differently across DVE motivating ideologies—might be exacerbated in response to a greater focus on these topics prior to the election. In recent months, DVEs have levied violent threats targeting elected officials, individuals associated with abortion or LGBTQ+ issues, and facilities, locations, and organizations perceived as taking a stance on abortion or LGBTQ+ issues.
- (U//FOUO) Government officials and personnel, including candidates in the midterm election and officials involved in administering elections, will likely remain attractive targets, especially for those motivated by DVE narratives including perceptions of election fraud online. Underscoring this point, US Capitol Police reported a sharp increase in recent years of threats against Members of Congress and notably in 2021 documented 9,600 direct or indirect threats.‡‡ In September 2022, possible DVEs online claimed the electoral system was "under attack" and threatened violence against politicians.

(U//FOUO) DVE Threats Targeting Election-Related Infrastructure Would Likely Focus on Publicly Accessible Locations

(U//FOUO) We assess some DVEs motivated by election-related grievances would likely view election-related infrastructure, personnel, and voters involved in the election process as attractive targets—including at publicly accessible locations like polling places, ballot drop-box locations, voter registration sites, campaign events, and political party offices. DVEs could target components of the election infrastructure in hopes of swaying voting habits, undermining perceptions of the legitimacy of the voting process, or prompting a particular government reaction. These locations prioritize accessibility to maximize exposure to potential voters, making them vulnerable to simple, easy-to-use weapons, like firearms, vehicles, edged weapons, and incendiary devices, which DVEs have used in the past.

** (U//FOUO) DHS, FBI, and NCTC use the term anti-government or anti-authority violent extremism to encompass individuals who engage in the potentially unlawful use or threat of force or violence in furtherance of political and/or social agendas that are deemed to derive from anti-government or anti-authority sentiment, including opposition to perceived economic, social, or racial hierarchies or perceived government overreach, negligence, or illegitimacy. This category of violent extremists includes, among others, militia violent extremists (MVE), anarchist violent extremists (AVE), and sovereign citizen violent extremists (SCVE).

†† (U//FOUO) DHS, FBI, and NCTC use the term racially or ethnically motivated violent extremists to encompass individuals who facilitate or engage in the potentially unlawful use or threat of force or violence with intent to intimidate or coerce, in furtherance of political and/or social agendas, which are deemed to derive from bias, often related to race or ethnicity, held by the actor against others, including a given population or group.

‡‡ (U//FOUO) USCP reported 902 threat cases in 2016; 3,939 in 2017; 5,206 in 2018; 6,955 in 2019; 8,613 in 2020; and 9,600 in 2021.

AMERICAN OVERSIGHT

(U//FOUO) Domestic Violent Extremist Threat Environment Probably Heightened during 2022 US Midterm Election Cycle *(continued)*

- (U//FOUO) As of May 2022, two DVEs pleaded guilty to charges related to plotting to firebomb a political party's state headquarters in Sacramento, California, following the presidential inauguration on 20 January 2021. Both individuals are awaiting sentencing.
- (U//FOUO) Underscoring the attractiveness of easily accessible targets, in February 2020, an individual motivated by a desire to commit violence against those associated with a specific political party intentionally drove his vehicle into a voter registration tent in Jacksonville, Florida, that had no bollards, heavy planters, or barricades protecting the site. The individual was sentenced to 60 days in jail.
- (U//FOUO) Highlighting our concerns related to vulnerable targets, in July 2022, an individual with unclear motivations attended a campaign event in New York and allegedly attempted to assault a current Congressman and gubernatorial candidate while he was on stage. The alleged perpetrator is currently awaiting trial for charges related to the incident.

(U//FOUO) Post-Election Threats Likely to be Fueled by Discontent and Perceptions of Fraud Surrounding the Certification Process and Electoral Outcomes

(U//FOUO) We assess DVEs likely pose a heightened threat of violence against a broad range of targets—such as ideological opponents or election workers—following the 2022 election in response to perceptions of election-related fraud or dissatisfaction with electoral outcomes.[§§] Following the 2020 Presidential election cycle, individuals attempted to disrupt vote counting and election certification processes and threatened violence against those they perceived to be responsible for, or to benefit from, election results some DVEs opposed. DVEs driven by such post-election issues might target state and local government buildings, officials involved in vote counting or certifications, judicial figures associated with election-related legal challenges, or private companies associated with vote counting. Prolonged certification processes could generate increased threats or calls for violence targeting state and local election officials because of potential perceptions of fraud surrounding the results, especially in close or highly contested elections. Specific election results may intensify DVE grievances and serve as a catalyst for mobilization.

- (U//FOUO) Following the 2020 presidential election cycle, a wide range of DVEs, including individuals mobilized by narratives of fraud in the 2020 Presidential election, participated in the violent breach of the US Capitol and sought to disrupt the election certification. The Department of Justice has charged more than 870 individuals, including some who are admitted or suspected DVEs, for their alleged criminal activity at the Capitol.
- (U//FOUO) In the three months following the 2020 general election, a DVE from California sent threatening text messages to the family of a Member of Congress and a family member of a journalist because of the individual's dissatisfaction with the Presidential election results. The text messages stated that the DVE was "armed" and "nearby," and the DVE asked social media followers to "be ready for war." The DVE was sentenced to three years in prison in December 2021.

[§§] (U//FOUO) For the purpose of scoping this assessment, we consider the post-election period as 90 days following Election Day, barring the need for a runoff election.

AMERICAN OVERSIGHT

(U//FOUO) Domestic Violent Extremist Threat Environment Probably Heightened during 2022 US Midterm Election Cycle *(continued)*

- (U//FOUO) Some DVEs have focused post-election violence threats against perceived ideological opponents. In November 2020, two days after the 2020 Presidential election, a DVE posted to social media, "The carnage needs to come in the form of extermination," regarding individuals claiming affiliation to an identified political party. The DVE was charged with threatening to kill and ordering others to kill politicians, law enforcement personnel and protesters, transmissions of threat to injure, and felon in possession of a firearm and ammunition. In May 2022, the DVE was sentenced to 36 months in prison after pleading guilty to the charge of being a convicted felon in possession of a firearm.

(U) CRIMINAL THREAT TO ELECTION WORKERS***

(U//FOUO) On 25 June 2021, the Department of Justice, in partnership with the FBI, established the Threats to Election Workers Task Force in response to reported threats targeting election workers following the 2020 US Presidential election.††† As of June 2022, the DOJ and FBI reviewed over 1,000 communications reported as abusive, harassing, or intimidating, and determined 11 percent met federal criteria for further investigative action. While many of the communications reviewed by the FBI and DOJ appear to stem from perceptions of voter fraud, the communications are not specific to any single ideology or group. Past threats to election officials and workers have included attempts to intimidate them in the performance of their duties.

(U//FOUO) The FBI assesses the majority of future threats to election workers in 2022 are likely to occur in states or counties where recounts, audits, or public election disputes occur. The FBI will continue to identify, investigate, and mitigate all threats targeting election workers.

(U//FOUO) In June 2022, a criminal actor in Nebraska pleaded guilty to making multiple threats against an election official in Colorado. He stated, "Your security detail is far too thin and incompetent to protect you…anything can happen to anyone." This was the first plea obtained by the task force.

(U//FOUO) Factors That Would Increase the Likelihood of a DVE Attack during the Election Cycle

(U//FOUO) In this heightened environment, we have identified certain observable actions and factors which might have an amplified impact on DVEs' mobilization to violence. The individualized nature of mobilization drivers and the array of DVE movements and actors preclude identification of any one factor that would spur greater violence.‡‡‡

*** (U//FOUO) While this assessment focuses on DVEs, DHS, FBI, and USCP assess other criminal actors also pose an array of threats to the 2022 election, and analysis of those threats in this document are composed utilizing lawful collection. DHS joins those portions of the analysis that inform an understanding of threats of terrorism or threats to election security. NCTC joins those portions of the analysis that inform an understanding of threats of terrorism.

††† (U//FOUO) Election workers are broadly defined as individuals overseeing or participating in the administration of a state's election infrastructure, to include elected officials, appointed officials, staff, contractors, volunteers, vendors, liaisons, or other individuals participating in the administration of elections.

‡‡‡ (U) DHS, FBI, and NCTC's *US Violent Extremist Mobilization Indicators* booklet is a resource intended to help identify behaviors which are likely to indicate that a violent extremist is mobilizing to violence. The booklet can be downloaded at https://www.dni.gov/files/NCTC/documents/news_documents/Mobilization_Indicators_Booklet_2021.pdf.

- (U//FOUO) **Individuals Urging Violent Action:** Calls by individuals for violence against those who hold, or are perceived to hold, opposing views could provide DVEs with perceived justification for violence.
- (U//FOUO) **Threats or Calls for Violence Related to Perceived Illegitimacy of Elections:** Calls for violence on the basis of perceived illegitimacy of the electoral process or outcomes of the midterm elections could motivate some DVEs to retaliate against election workers, officials, candidates, or supporters of candidates.
- (U//FOUO) **Perceptions of Voter Suppression:** Actual or perceived efforts to suppress voting access could provide some DVEs with perceived justifications for violence.
- (U//FOUO) **Attacks on Politically-Aligned Groups:** Election-related violence against a candidate or supporters of a political party could cause DVEs who support the candidate or party to plot retaliatory violence, potentially spurring reciprocal attacks.

TLP: AMBER

Attached is the EI-ISAC's Short Form Analytic Report (SFAR):*Smishing Activity Likely to Increase Leading into November 2022 General Election*.

The report assesses with moderate confidence that smishing (the tactic of phishing via Short Message Service (SMS), also known as text messages) activity is likely to increase in the lead up to the November 2022 General Election. Such activity can result in attempted malware deployment, information harvesting, and the spread of inaccurate information.

Smishing Activity Likely to Increase Leading into November 2022 General Election

October 6, 2022 – SFAR 2022-02

TLP: AMBER - Distribute within your organization and vetted partners

Executive Summary

The Elections Infrastructure Information Sharing and Analysis Center® (EI-ISAC®) and U.S. Department of Homeland Security's (DHS) Office of Intelligence and Analysis (I&A) Cyber Mission Center (CYMC) assess with moderate confidence that smishing (the tactic of phishing via Short Message Service (SMS), also known as text messages) activity is likely to increase in the lead up to the November 2022 General Election. Such activity can result in attempted malware deployment, information harvesting, and the spread of inaccurate information.

Cyber threat actors (CTAs) have employed smishing during opportunistic and specific campaigns targeting U.S. voters or election offices. Previous smishing themes have impersonated departments and offices to increase their success rate. Defensive recommendations against smishing are at the end of this report.

Substantive Analysis

CTAs use smishing to spread malware, harvest victims' information, and disseminate inaccurate information. Using text messages as the propagation vector increases the chances of an individual engaging with the smishing message. Public reporting on SMS marketing statistics for 2022 suggests that increased SMS usage in recent years and the speed with which users read and respond to text messages provide an increasing attack surface for CTAs.[1]

Smishing messages can include prompts to illicit sensitive information, communicate erroneous information, or link to locations designed to harvest login credentials or deploy malware. Previously observed smishing campaigns used election lures to capitalize on the increased attention around general elections. CTAs have also previously used financial themes as part of opportunistic campaigns.

We assess that smishing activity is likely to increase through the November 2022 general election, based on activity during the 2020 election, the overall increase in smishing since 2020, and election-related smishing reported this year. In 2020, multiple election-themed smishing campaigns were observed, including messages concerning voter registration,[2] fundraising, and polling.[3]

1. In October 2022, the MS-ISAC received a report of an ongoing smishing campaign targeting residents of a state. The smishing campaign included typo-squatted domains impersonating an unemployment insurance website in an attempt to steal credentials.
2. In September 2022, a cybersecurity company noted that average monthly smishing reports have been 300% higher than 2021,[4] and the Internal Revenue Service (IRS) issued a warning on smishing, noting that there had been a rise in IRS-themed smishing since 2020.[5]
3. In August 2022, the EI-ISAC received two smishing reports. The first was text messages sent to voters containing inaccurate information on how to vote for a specific outcome from a ballot measure. The messages were sent to multiple voters throughout the state.

AMERICAN OVERSIGHT

NV-STOREY-22-1163-A-002843

- In the second August 2022 report, the smishing attempt sought to harvest information from the intended victim. The text message claimed to be the United States Postal Service (USPS) and included a link to harvest personal information, including credit card details.

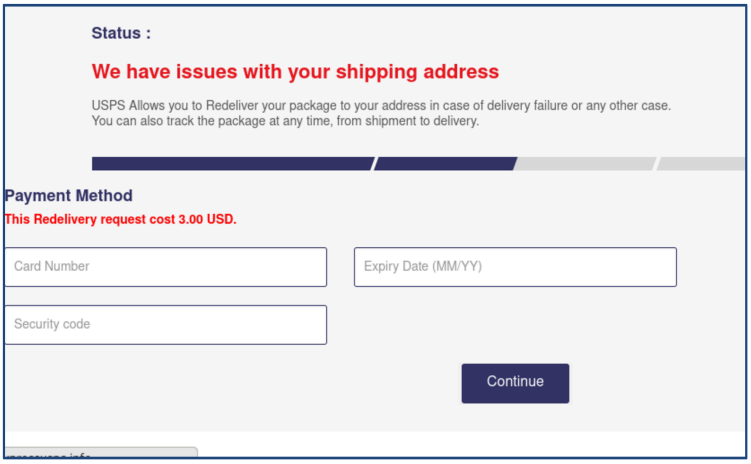

Figure 1: The USPS impersonation webpage used to harvest victim information.

4. In July 2022, the Federal Communications Commission (FCC) issued a warning about smishing attacks, noting that the volume of smishing reports rose steadily since 2019.[6]
5. In February 2021, unknown CTAs used an unemployment insurance-themed smishing campaign to steal victims' personally identifiable information.[7]

Analytic Confidence

Analytic confidence in this assessment is moderate. Source reliability is high with minimal conflict among sources.

Recommendations

The EI-ISAC and U.S. DHS I&A CYMC recommend election offices:

- Avoid clicking and forwarding links or text messages from unknown sources and report suspected smishing to internal organizational contacts and the EI-ISAC for analysis.
- Implement Mobile Device Management and applicable antimalware solutions to protect critical systems accessible via work phones.
- Avoid providing information about election offices or processes to unauthorized personnel.
- If it is believed account credentials were compromised, change passwords immediately.
  - Report all suspected compromises to internal organizational contacts and the EI-ISAC.

Good Morning.

Election day is fast approaching, and I wanted to touch base with you about our County Vehicle reservations. We had asked for 4 county vehicles if possible, and 3 for sure will be needed. In checking the weather forecast it appears we are going have a storm coming in the night before and day of election . . YEAH, snow!!! Arrrgg

I know we can be a bit stretched on county rigs at times but I need to make sure my election team and the election equipment are on the roads in safe and equipped vehicles. Big, heavy and ready for the snowy roads. The state sets our timelines and polls have to be open on time. Can you tell me which County vehicles are we being assigned?

Subject: Election Legals Question

Hi Dore,
In previous election years we have run the sample ballot for three weeks in October as required. I wanted to check in with you and see if that was going to be the case again for this election and which dates we were going to run it so I can make sure we have it scheduled correctly.

Thanks,

Purpose of Document: Educational resource for administrators.

Spotlights provide election officials with an overview of common cybersecurity topics, and how they relate to election infrastructure security.

What is Misinformation?

Misinformation is inaccurate information that has the potential to undermine the election process in your jurisdiction. Examples include, but aren't limited to, inaccurate information about election dates, mail ballot rules, ballot information, polling place hours and status, election night reporting procedures, post-election procedures, or voting technology.

Why Does it Matter?

Election officials are the trusted source of election information and play a key role in reporting misinformation. If you spot misinformation about your election jurisdiction on social media, you can submit it to the Election Infrastructure Information Sharing and Analysis Center (EI-ISAC). We'll work with the social media platforms and other partners to get it addressed. We will provide updates to you any time we receive any meaningful information about your case depending on the platforms involved, what they discover, and what decisions they make on reported content.

What You Can Do

Report any inaccurate or misleading information on social media that's about your jurisdiction and pertains to the administration or security of an election in the United States. Send an email to misinformation@cisecurity.org. Copy others in your state or locality who should also see the information, such as the office of your state's chief election official. Include the following information:

- A screenshot of the social media post and, if possible, the link.
- Your name, role, jurisdiction, and work email address.
- A description of why this information is false – not just "this is wrong" but information about why you think it's wrong. This doesn't have to be more than a couple of sentences, but more detail is better. Citing a law is even better.

If you or anyone in your office receives a threat on social media:

- If you feel there is any chance of an immediate risk to you or others, call 911.
- Contact your FBI Elections Crime Coordinator. If you don't know your Elections Crimes Coordinator, contact your local FBI field office and ask to speak to the Elections Crimes Coordinator.
- Contact your local CISA Physical Security Advisor (PSA).

For additional information, please review the CISA's Mis-, Dis-, and Malinformation page and the CISA Toolkit .

Spotlights provide election officials with an overview of common cybersecurity topics, and how they relate to election infrastructure security.

As the 2022 general election approaches, election offices and voters are likely to see an increase in smishing activity.

What is Smishing?

Smishing is a phishing attempt via Short Message Service (SMS), text messages, or non-SMS messaging apps. Attackers use smishing to steal victim information, communicate erroneous information, deploy malware, or socially engineer the victim into simply engaging with the sender. Like phishing, smishing messages can convey a sense of urgency to socially engineer the victim into responding without fully evaluating the request. The most common smishing scams relate to user credentials for businesses or financial institutions, gift offers, invoices, package delivery confirmations, and overdue payments. Messages may also feature inaccurate information about elections related to polling locations/hours and campaignmaterial.

Why does it matter?

Attackers can use smishing to compromise systems and networks, compel recipients to act on erroneous information, or obtain information they will later use to launch more sophisticated attacks. Unwitting senders may also send smishing messages with incorrect information, fueling suspicions the message is a purposeful attack or eliciting wrongful actions. A cybercriminal's unauthorized access to an election network, official social media accounts or email accounts, may result in disruption of the election process. Sensitive information could be compromised or misinformation could be distributed to the public. Similarly, messages may be mistakenly distributed with errors, causing recipients tocarry out misguided action, such as attempting to vote on the wrong day or location. These scenarios may lead to a decline in public confidence in the election process.

What You Can Do

Train full time elections staff and seasonal employees on detecting and reporting smishing. Some protective measures follow:

- Avoid clicking and forwarding links or text messages from unknown sources and report suspected smishing to internal organizational contacts and the EI-ISAC for analysis.
- Implement Mobile Device Management and applicable antimalware solutions to protect critical systems accessible via work phones.
- Avoid providing information about offices or processes to unauthorized personnel.
- If it is believed account credentials were compromised, change passwords immediately.
    - Report all suspected compromises to internal organizational contacts and the EI-ISAC.

For additional information about preventing social engineering attacks please review the DHS's Security Tips 04-014, CISA's Cybersecurity Toolkit to Protect Elections; and EI-ISAC's phishing Spotlight.

Purpose of Document: Educational resource for administrators.

Spotlights provide election officials with an overview of common cybersecurity topics, and how they relate to election infrastructure security.

As the 2022 general election approaches, election offices and voters are likely to see an increase in smishing activity.

What is Smishing?

Smishing is a phishing attempt via Short Message Service (SMS), text messages, or non-SMS messaging apps. Attackers use smishing to steal victim information, communicate erroneous information, deploy malware, or socially engineer the victim into simply engaging with the sender. Like phishing, smishing messages can convey a sense of urgency to socially engineer the victim into responding without fully evaluating the request. The most common smishing scams relate to user credentials for businesses or financial institutions, gift offers, invoices, package delivery confirmations, and overdue payments. Messages may also feature inaccurate information about elections related to polling locations/hours and campaignmaterial.

Why does it matter?

Attackers can use smishing to compromise systems and networks, compel recipients to act on erroneous information, or obtain information they will later use to launch more sophisticated attacks. Unwitting senders may also send smishing messages with incorrect information, fueling suspicions the message is a purposeful attack or eliciting wrongful actions. A cybercriminal's unauthorized access to an election network, official social media accounts or email accounts, may result in disruption of the election process. Sensitive information could be compromised or misinformation could be distributed to the public. Similarly, messages may be mistakenly distributed with errors, causing recipients tocarry out misguided action, such as attempting to vote on the wrong day or location. Purpose of Document: Educational resource for administrators.

Spotlights provide election officials with an overview of common cybersecurity topics, and how they relate to election infrastructure security.

What is Misinformation?

Misinformation is inaccurate information that has the potential to undermine the election process in your jurisdiction. Examples include, but aren't limited to, inaccurate information about election dates, mail ballot rules, ballot information, polling place hours and status, election night reporting procedures, post-election procedures, or voting technology.

Why Does it Matter?

Election officials are the trusted source of election information and play a key role in reporting misinformation. If you spot misinformation about your election jurisdiction on social media, you can submit it to the Election Infrastructure Information Sharing and Analysis Center (EI-ISAC). We'll work with the social media platforms and other partners to get it addressed. We will provide updates to you any time we receive any meaningful information about your case depending on the platforms involved, what they discover, and what decisions they make on reported content.

What You Can Do

Report any inaccurate or misleading information on social media that's about your jurisdiction and pertains to the administration or security of an election in the United States. Send an email to misinformation@cisecurity.org. Copy others in your state or locality who should also see the information, such as the office of your state's chief election official. Include the following information:

- A screenshot of the social media post and, if possible, the link.
- Your name, role, jurisdiction, and work email address.
- A description of why this information is false – not just "this is wrong" but information about why you think it's wrong. This doesn't have to be more than a couple of sentences, but more detail is better. Citing a law is even better.

If you or anyone in your office receives a threat on social media:

- If you feel there is any chance of an immediate risk to you or others, call 911.
- Contact your FBI Elections Crime Coordinator. If you don't know your Elections Crimes Coordinator, contact your local FBI field office and ask to speak to the Elections Crimes Coordinator.
- Contact your local CISA Physical Security Advisor (PSA).

For additional information, please review the CISA's Mis-, Dis-, and Malinformation page and the CISA Toolkit .

Greetings, and THANK YOU for volunteering to be a poll worker for the 2022 General Election.

In preparation for your assignment and shifts, you will need to participate in a training session to become familiarized with the equipment and the procedures for voting.

Please respond as soon as you can to whether you are available for a training at 5:30pm in the District Courtroom in the Storey County Courthouse in Virginia City on:

- This Thursday, October 13th
  Or,
- Next Wednesday, October 19th

We will serve pizza and soft drinks at each session.

For your review and preparation, I have attached the Poll Worker Training packet so you have a head start on our presentation and discussion.

For your information and planning, Early Voting starts on October 22nd and runs through November 4th. Election Day is Tuesday, November 8th.

I look forward to your responses regarding the date you want to attend, and if you have questions, please contact me or Heather Faircloth in the County Clerk's Office per the number below or by reply email. I look forward to seeing each of you, and again, thank you for your patriotism.

Cheers!

- Check Out

AMERICAN OVERSIGHT

Before the Polls Open

- Check inventory list in the Poll Tote and if anything is missing contact a Team Leader or Clerk.

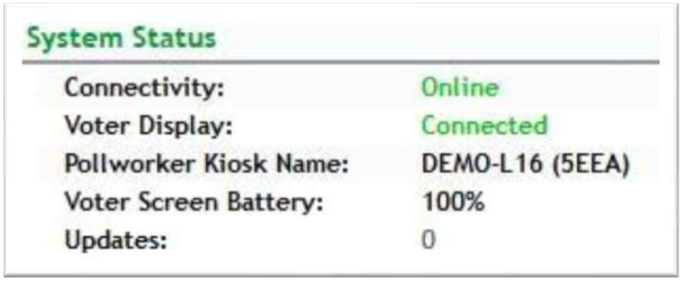
Kiosk Set-Up

- Turn on one Kiosk at a time.
  - Make sure Kiosk is plugged into power.
  - Log In Laptop – "Storey"
  - Once Laptop is on, power on the tablet.
  - Poll Worker Card is used to Login
  - Select the Poling Place and Poll Worker # for that Kiosk.
  - Verify Election Details
  - Check System Status
  - Check to see if you are "ONLINE"
- Set Out Kiosk Station Supplies

ICX and VVPAT Machine Set Up

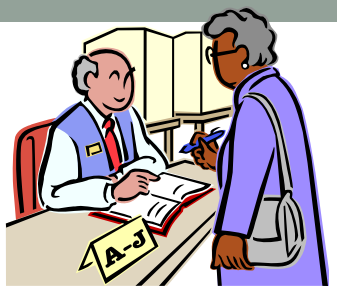
Clerk and Team Leader, will set up the ICX and VVPAT Machines. They will also be responsible for Opening and Closing the Polls on the ICX Machines.

Ensure all Election Workers have preformed his/her Oath of Service.



AMERICAN OVERSIGHT

Kiosk Workers *Greeting the Voters*



- Ask the voter his/her name so you can look them up in the system.
  - **Voters are not <u>required</u> to provide ID at the polls HOWEVER it is okay to view his/her ID if it is presented. Please DO NOT reject their ID if it is being offered.**
  - **We do not ask for ID unless "ID required" is asked on the Kiosk OR their digital signature is not matching their signature on file.**
- If you cannot find the voter's name in the Kiosk, ask the voter:
  - If there was a name change.
  - If there was an address change.
- The voter can use Same Day Registration to change his/her Name, Party Affiliation, and/or address.
- The voter may vote a provisional ballot. You can click on the Provisional Voter on the Kiosk if needed.

AMERICAN OVERSIGHT

Kiosk Station

- Checks in Voters
- Accepts Surrendered Ballots
- Programs ICX Card for Vote
- Prints Labels
- Maintains Check-In Logs
- Confirms Counts/Logs at the close of the day

Our Kiosks are our connection to our Voter Registration Database. The Kiosks do not "talk" directly to the ICX machines in any way. The sole purpose of the Kiosks is to ensure that we are working with the most accurate and up-to-date voter roll as voting is active.

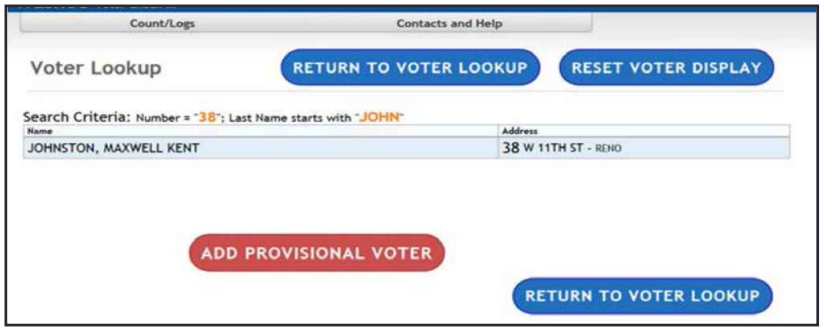
SURRENDERING MAIL BALLOT OR PERFORMING A MAIL BALLOT AFFERMATION

AMERICAN OVERSIGHT

Voter Check-In

- Type in the first 3 letters of the last name and first 3 letters of first name. Click on the green “Search” button or press “Enter” on the keyboard.
- You can also search via address if needed

- Click on the correct voter name.

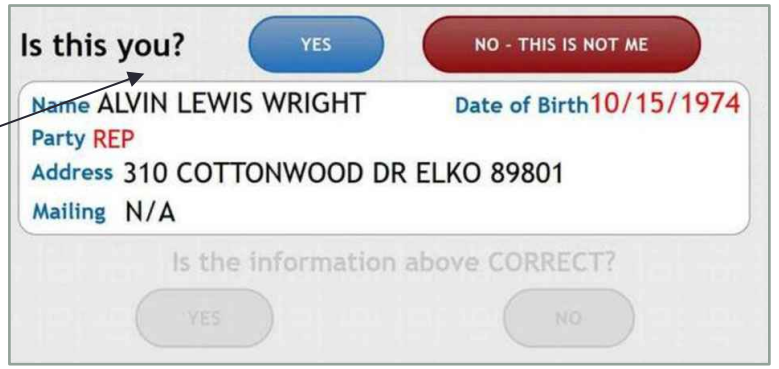


- Then the voter will need to refer to the tablet to verify their I information.

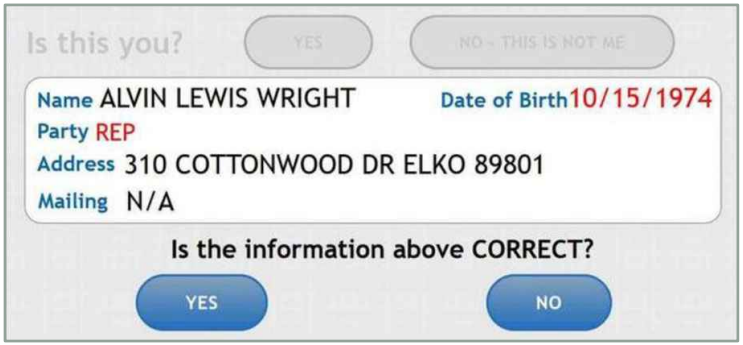
AMERICAN OVERSIGHT

Voter Check-In

- The VOTER will then need to Verify their identity on their tablet screen.
  - They can select Yes or No, it is not them.



- The VOTER will then be asked to verify that the information displayed is <u>correct</u>.
  - It is at this stage that if they have had an address change, name change, or party affiliation change. If a change is necessary, they can select “No” and the poll worker can assist with said changes.

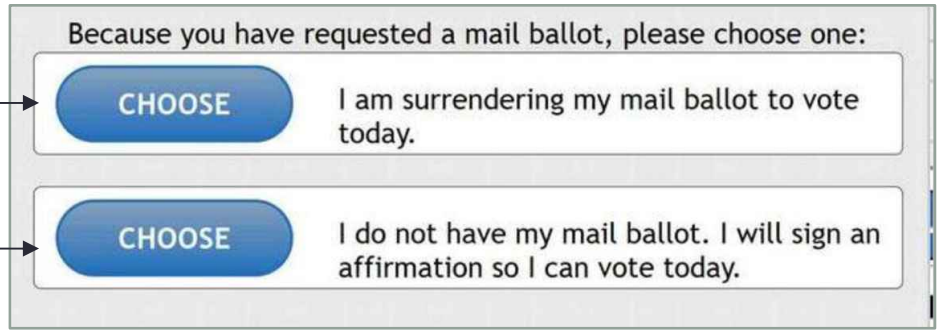


AMERICAN OVERSIGHT

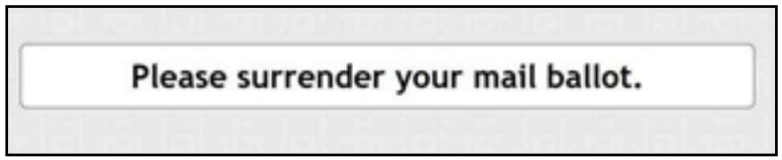
Voter Check-In ~Mail Ballot Surrendering

- The Poll Worker will see this message on the screen.

- The voter will see this on their display screen.
  - IF the voter is surrendering his/her mail ballot, he/she must touch the blue **"Choose"** button and then hand over their unvoted mail ballot.
  - IF the voter does not have his/her mail ballot to surrender at check in they must then "Choose" the second option and sign an additional affirmation that they will not use their mail ballot after voting in person.



- If Surrendering a Ballot, the voter will see this message on the display screen. The voter should hand the surrendered mail ballot to the Poll Worker



A voter can Opt-Out of receiving a mail ballot, so not EVERY Voter will receive this Mail Ballot stage at the Kiosk. A voter can also Opt-Out of voting in person and you will get a pop-up saying they are voting by Mail only if they attempt to check in at a polling location

AMERICAN OVERSIGHT

Voter Check-In ~Mail Ballot Surrendering

- If a Mail Ballot is being surrendered, the Poll Worker will see this message on their screen. The Poll Worker will accept the surrendered mail ballot from the voter and stamp it CANCELLED and deposit it into the SURRENDERED MAIL BALLOT container

- The voter will see this on the voter display screen. The voter must sign on the display screen and then touch the green **"Submit"** button. **"Submit"** button turns green after voter has signed.

- Reminder: A voter that does not surrender his/her Mail Ballot at the polling location will have an additional screen pop up for a second signature affirming that they will not use their mail in ballot.

If a voter has already shredded or tore up their ballot, we CAN still accept their surrender. Just stuff it in the SURRENDERED MAIL BALLOT container and continue on.

Voter Check-In

- Once the voter signs and submits the signature, you will see this on the screen. If the signature is a match, click on the green “Match” button.
  - If the signature does not match, either have the voter re-sign or select “No Match” and refer to page 14.
  - After confirming identity, please also ask the voter to complete a Voter Application and mail it back to the Clerk’s Office so they can update the voter roll to reflect the voter’s current signature accurately.

- Insert a voter card into the activator “Chip Up” and click the green “Continue” button.

- You will see a “Creating Voter Card” message.

AMERICAN OVERSIGHT

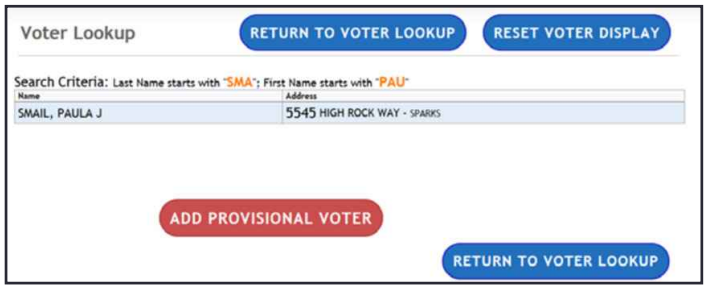
REPRINTING A VOTER LABEL

AMERICAN OVERSIGHT

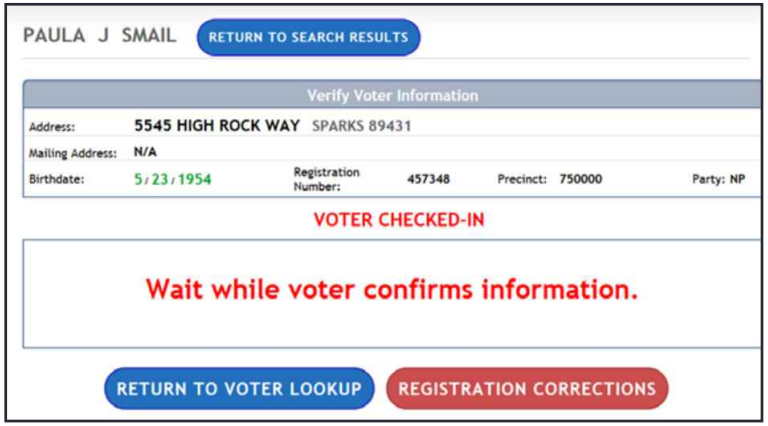
Reprinting a Voter Label

- Look up the voter.

- Select the correct voter by double clicking on the voter's name.



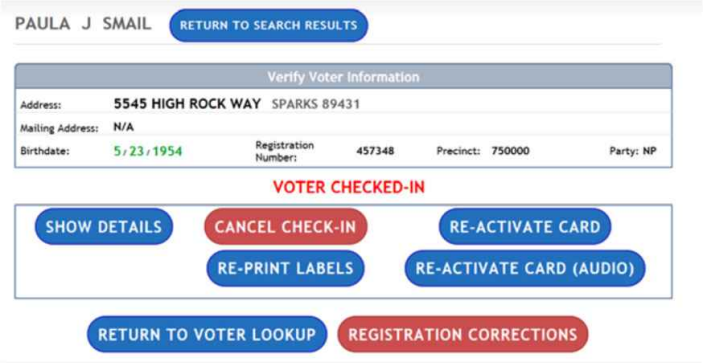
- The "Verify Voter Information" screen will open.



Reprinting a Voter Label

- This is what the voter will see on the display screen. Voter will need to verify information by touching on the blue "Yes" button.

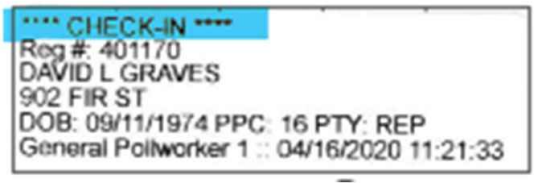
- Once the voter has verified the information, you will see this screen. Click on the blue "Re-Print Label"

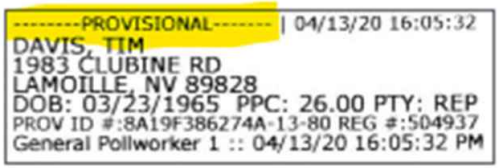


WHERE DO ALL THE LABELS GO?

- The label logs help provide us with another form of tracking and auditing our daily voter activity. There will be three label packet types at each Kiosk Station, they include:
  - **CHECK-IN** roster for every voter who voted
  - **AFFIRMATION** roster for those who did not turn in their Mail Ballot and had to sign the affirmation page.
  - **SAME DAY REGISTRATION/UPDATE (SDRI/SDRO/SDRU)** roster for those who made changes during their check in or registered at the polls.

- Label sheets will be available in the Election Binder for:
  - Provisional Voter Labels
  - Signature Update Labels





Register of Corrections

- Complete the "**Register for Corrections**" form if the voter's name has been misspelled, a wrong apartment number is listed, a duplicate voter appears on the list, the voter is deceased, etc.
- **DO NOT use this form for a name change, address change or party change**

AMERICAN OVERSIGHT

ICX

Instruct the voter:

- They can choose any of the available ICX machines to vote on.
- Insert the card face up into the yellow slot.
- Return the card to the Card Collector or Card Basket.

The ICX machines are not connected to anything but the electricity and the attached VVPAT machine specific to that ICX. We check and record all seals on the ICXs to ensure no tampering.

The VVPAT machines hold the paper rolls that record each voter's selections. This provides us with a back-up or another form of auditing if needed at a later date.

AMERICAN OVERSIGHT

Assisting the Voter

- **Machine Assistance**
  - Poll Workers can assist voters at the Kiosk or the ICX machines. Rule of thumb is to ask permission first. This is especially true with the ICX machines. Always ask the voter for permission before entering the privacy section of their voting station.

- **Physical Disability**
  - Any registered voter who has a physical disability or is unable to read or write is entitled to assistance from a consenting person. Call a Team Leader to assist.

- **Challenges**
  - A person requesting a ballot may be challenged orally by any registered voter of the precinct in which he/she is seeking to vote. (NRS 293.303). If a challenge is made, notify a Team Leader immediately.

AMERICAN OVERSIGHT

Closing The Polls after 7:00 p.m.

- **Balancing Statement**
  - The Balancing Statement must be completed and signed by all three of the group workers. Record the number of voters from the Counts/Logs screen in the Kiosks column. Count the number of Check-In Labels and record the totals in the Labels column. If the count of signatures is agreed upon, complete the Balancing Statement.

- **Voter Kiosk**
  - Turn off the voter kiosk on the back of the machine and unplug. Place the Kiosk and Activator and the power cord back into the same gray case it came in.

- **Voter Cards**
  - Place the remaining voter cards in the designated container and place in the supply box.

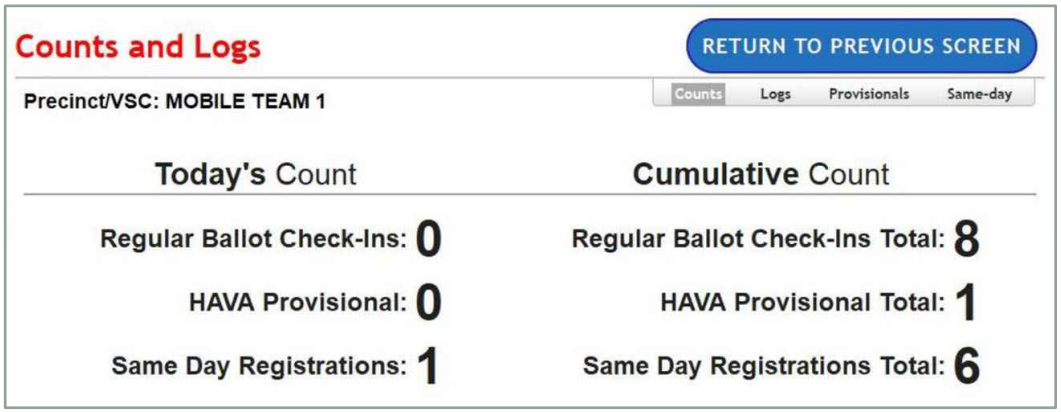
After balancing and signing the Balancing Statement, take the it to the Team Leader's table.

AMERICAN OVERSIGHT

Counts and Logs

- To view the counts and logs, click on the COUNTS/LOGS link at the top left of the screen.

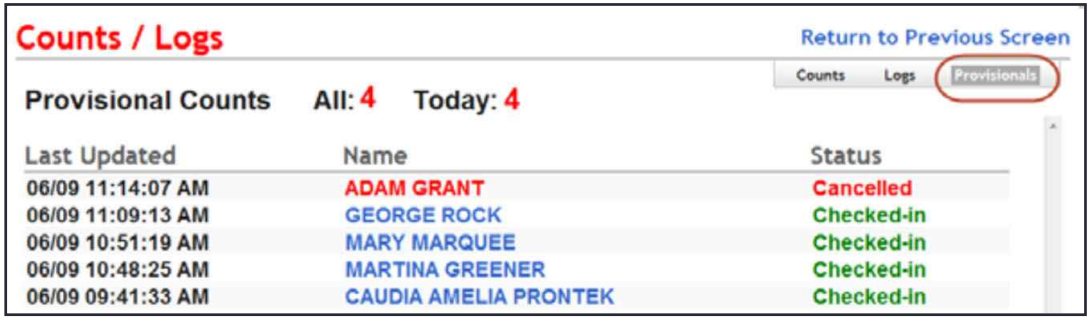
- The Counts and Logs window will open. The total number of voters checked in will appear on this screen.



Counts and Logs

- Click on the Logs tab at the top of the window. This will display a log of voter activity, it includes checked-in voters, name and address changes, as well as cancelled voter check-ins.

- Click on the Provisionals tab. A log of provisional voters will be displayed. Checked-in status indicates that the voter was checked in. Not checked-in status indicates that the process was not completed. This will only be populated if processing provisional voters through VoteSafe.



AMERICAN OVERSIGHT

Checking Out

- Assist the Team Leader in disassembling the voting machines and kiosks. Please take your time. The machines need to be packed up properly in order to ensure they make it back to the Clerk's office accordingly.
- **Reminder:** Please fill out your timecard. Your pay will be calculated in the Clerk's office and turned into the Accounts Payable Department. Payment should be received in 10 days to 2 weeks.
- Do not leave until everything is done! Check with the Team Leader to verify that all tasks have been completed before you leave.
- If you have any energy left, jump up and down for joy. Your day is over!

Election Day Reminders

Polling centers are neutral zones. We do not want anyone to feel intimidated, discriminated, or victimized in our centers.

- Do not share your personal political or election related opinion please, even if the person you are speaking to my agree. There may be a bystander that can take offence. This goes for visitors as well.
- Do not wear or have in public view any political information.
- Do not have a newspaper at your table.
- Bring a cushion or pillow to sit on-the chairs are hard. Snacks or non-alcoholic beverages may also be brought if desired or needed.
- Lunch will be provided by the Clerk's office, as long as your Lunch selection sheet is returned to the Clerk's office in time.
- Dress in layers, it can be cool or hot in the buildings.

Subject: Election Training

Greetings Robin and THANK YOU for volunteering to be a poll worker for the 2022 General Election.

In preparation for your assignment and shifts, you will need to participate in a training session to become familiarized with the equipment and the procedures for voting.

Heather tells me that during your phone conversation you indicated this Thursday the 13th's training session fits your schedule. The training session starts at 5:30pm in the District Courtroom in the Storey County Courthouse in Virginia City. We will have pizza and soft drinks available since we're cutting into the normal dinner hour. If you find that is not convenient, let us know, as we will also have a training on Wednesday, October 19th – same time and same location.

For your review and preparation, I have attached the Poll Worker Training packet, so you have a head start on our presentation and discussion.

For your information and planning, Early Voting starts on October 22nd and runs through November 4th. Election Day is Tuesday, November 8th.

I look forward to meeting you and am grateful for your time and effort. If you have questions, please contact me or Heather Faircloth in the County Clerk's Office per the number below or by reply email.

Cheers!

Nevada Secretary of State
ERIC Project – SSA Death Master File Report ("Deceased Report")

The Deceased Report is created by comparing the Nevada Statewide Voter Registration List with the Social Security Administration's Death Master File. Because the records on the Deceased Report are a result of a match with another government record, you may act on this information.

IF you are convinced that the individual on the Deceased Report represents the same registered voter in your county, you should cancel the registration pursuant to your standard county procedures for cancelling registrations. NRS 293.540(1)

IF you find a record on the Deceased Report that you believe does not represent a registered voter in your county, please note your reason and report this according to the procedure outlined below in 4(b).

Processing Records: Actions to Take

1. OPEN the attached Deceased Report for your County
    a. The Excel file is named as follows: NV-DECEASED-Confidential-YYYYMMDD [County Name]

2. CONFIRM
    a. Examine each record on the Deceased Report with the applicable record in your County voter registration database (VRD) using the following fields:
        i. County Voter ID: **Column N**
        ii. Last Name of the Voter: **Column T**
        iii. First Name of the Voter: **Column U**
    b. **Columns N through AR** contain additional county information about the voter that can be used to further ascertain whether or not you have an accurate match.
    c. **Column "H" (Later Activity Flag)** contains a "**1**" if the voter's latest activity date is later than the date of death. These matches should be further researched before acting on.

3. CANCEL
    a. If you conclude the record on the Deceased Report matches the record in your County VRD, cancel the record pursuant to your county's standard procedures for cancelling deceased registered voters.

4. REPORT
    a. When you have finished processing all of the records in the Deceased Report, please report the following to mforney@sos.nv.gov or hahnh@sos.nv.gov.

Number	Deceased Report Action
	Canceled (Record matched the ERIC Report Record)
	County Voter was already Canceled
	ERIC Report Record did not match a County Voter
	Other (please report using Step 4b of the instructions)
	TOTAL (must equal total of records in report)

    b. If you find records that you do not believe are accurate, copy the entire row from the Deceased Report into another spreadsheet.
        i. Upload the spreadsheet to the ERIC folder on IPSwitch and send an email to mforney@sos.nv.gov or hahnh@sos.nv.gov with a brief description about why the record(s) should not be removed. We will work with ERIC to resolve issues identified by the counties.

AMERICAN OVERSIGHT

Explanation of the Data in the Report

ERIC matches records using a scoring system calculated by giving points based on what fields are matched. The reports currently utilize two (2) scoring systems to identify related records. The following is a general description about the fields used to support a match for each score. If interested, the ERIC Report Information attachment provides detailed information about report fields and scoring. Contact the SOS team if you have questions on a match.

The Error Rule Code in **Column E** lists the rule used to assign the Reference Score in **Column D**.

- Example: **MSTAB+CNAME** matched the DOB, last4ssn, and a Close Name (DL is missing)

The Match Key in **Column G** identifies the fields used to assign the Match Score in **Column F**.

- Example: **+fullnm+DOB+l4ssn** matched the Full Name, DOB, and the last 4 of the SSN

AMERICAN OVERSIGHT
NV-STOREY-22-1163-A-002953

Nevada Secretary of State
ERIC Project – Duplicate Report

The Duplicate Report is created by comparing the Nevada Statewide Voter Registration List (SVRL) against itself and uses information from other data sets such as the NV DMV to help identify potential duplicate voter registration records within the SVRL. The Duplicate Report has the two (2) following tabs in each Excel file.

In-County: Potential duplicates within your county's voter registration database (VRD)
Cross-County: Potential duplicates in two Nevada counties. These records are sent to both counties for review.

IF you are convinced that a record accurately represents a true duplicate, please process the record according to the instructions below.

IF you find a record on the report that you do not believe represents a duplicate voter, please note your reason and report this according to the procedures outlined below in 4(b).

Processing Records: Actions to Take

1. OPEN the attached Duplicate Report for your County
   a. The Excel file is named: IN_STATE_DUPE-YYYYMMDD [County Name]

2. CONFIRM
   a. Examine each pair of potential duplicates in the report using the following fields.
      i. The Cross-County records are provided to both counties. The record in your county may be either the County Voter Record or Match Record.

County Voter Record		Match Record	
County Voter ID	**Column M**	Match Voter ID	**Column AW**
County Last and First Name	**Column S and T**	Match Last and First Name	**Column BC and BD**
County Activity Date	**Column Q**	Match Activity Date	**Column BA**

   b. **Columns M through AQ** contain additional county voter record information

   c. **Columns AW through CA** contain additional match record information

3. MERGE or CANCEL
   a. **In-County**: If you are convinced that the report records represent the same voter and the record matches a voter in your County VRD, merge the records. When necessary contact the voter to obtain or verify information according to your county procedure.

   b. **Cross-County**: Review the information for records in your County and work with the other county to determine if the records are in fact a duplicate as well as who and how to process duplicate records between your counties.
   ***Note**: Pay special attention to these records as they may look like they involve a change or may have the voter's first and middle and last names switched. Also, both counties should review activity date when determining what action to take.*

(Continued on Page 2)

4. REPORT
    a. When you have finished processing all of the records in the Duplicate Report, please report the following information to mforney@sos.nv.gov or hahnh@sos.nv.gov.

Number of Records	In-County - Action
	Same Voter (Merged two records within your county)
	Different Voters (Two different voters, incorrect information on one, etc.)
	Other:
	Total (must equal total records in ERIC Report)

Number of Records	Cross-County - Action
	Update (Two different voters, incorrect information on your county's record)
	Cancel (Your voter matched a voter in a different county)
	Other county took action on their record (cancelled, update, etc.)
	Previously Cancelled (Record was cancelled prior to ERIC report)
	No Match (ERIC record did not match yours)
	Other:
	Total (must equal total records in ERIC Report)

    b. If you find records that you do not believe are accurate, copy the entire row from the Duplicate Report into another spreadsheet.
        i. Upload the spreadsheet to the ERIC folder on IPSwitch and send an email to mforney@sos.nv.gov or hahnh@sos.nv.gov with a brief description about why the record(s) should not be removed. We will work with ERIC to resolve issues identified by the counties.

- Match Keys with "**x**" or "**-**" before a field (e.g. +**x**l4ssn or –l4ssn) were made using secondary information.
    - Example: NV Voter record and out-of-state Voter record have different data for this field within the record, but this field for the NV Voter matches this field for the out-of-state DMV record (so the out-of-state Voter and DMV records don't agree on this field).

Hello Everyone,

This is a reminder to all users to please use the NV-Helpdesk@devnetinc.com email address when sending in requests of any kind for assistance. We love that you have personal connections with our staff members and would never discourage you reaching out to them, but including the above email address puts the request in the ticketing system so it can be addressed faster. This expedites your request and saves us from manually adding your requests into the system later. When our support staff are on-site with other offices, we need to dedicate that time with those customers and this can delay your request from being seen if not sent to the correct channels.

We appreciate your assistance with passing this to all members of your staff that may send tickets into support.

Employee Retention Credits In Depth

On-Demand Webinar | Speaker: **Jason T. Dinesen**

Date: **Sep 21, 2022** | Duration: **90 Minutes**

Apply **"SKILL30"** to get **$30** off

REGISTER NOW

The employee retention credit (ERC) is a valuable but often-overlooked tax credit for businesses affected by the COVID-19 pandemic.

Session Highlights

- The 3 ways to qualify
- What size of employer qualifies?
- What exactly are “wages”?
- How to calculate the credit
- How to claim the credit (Form 941-X)
- Paperwork — what is the audit period?
- Impact of PPP loans – no double-dipping
- Impact on tax returns – yes, the ERC is taxable

Benefits For Attending:

The credit existed from March 13, 2020, through the end of 2021, and even though the program is now closed, a business can still get the credit by filing amended payroll reports. This webinar will cover everything a business needs to know about the ERC.

Apply **“SKILL30”** at check-out to get **$30** off on your registration.

Employee Retention Credits In Depth

On-Demand Webinar | Speaker: **Jason T. Dinesen**

Date: **Sep 16, 2022** | Duration: **90 Minutes**

Apply **"SKILL30"** to get **$30** off

REGISTER NOW

The employee retention credit (ERC) is a valuable but often-overlooked tax credit for businesses affected by the COVID-19 pandemic.

Session Highlights

- The 3 ways to qualify
- What size of employer qualifies?
- What exactly are “wages”?
- How to calculate the credit
- How to claim the credit (Form 941-X)
- Paperwork — what is the audit period?
- Impact of PPP loans – no double-dipping
- Impact on tax returns – yes, the ERC is taxable

Benefits For Attending:

The credit existed from March 13, 2020, through the end of 2021, and even though the program is now closed, a business can still get the credit by filing amended payroll reports. This webinar will cover everything a business needs to know about the ERC.

Apply **“SKILL30”** at check-out to get **$30** off on your registration.

Nevada Secretary of State
ERIC Project – Cross-State Report

The Cross-State Report is created by comparing the Nevada Statewide Voter Registration List against voter registration data from the other ERIC member states. Because the records on the Cross-State Report are a result of a match with another state's voter registration database, you may act on this information.

The Cross-State Report contains registered voters from your county whom ERIC has identified as likely having more recently registered to vote in another state. To process these records, please follow the steps below.

Note: Column "EX" is new and indicates when the record on the Cross-State Report also has a match on the new NCOA Report. If you will be conducting a Cross-State Report mailing and a NCOA Report mailing, you will want to review and possibly remove certain records from one of your mailings to avoid sending multiple mailings to the same individual. For example, you might keep a record on a Cross-State mailing when the NCOA record has an older record date, is only updating a mailing address, etc. Both the Cross-State and NCOA mailing are optional but recommended.

Processing Records: Actions to Take

1. OPEN & REVIEW the attached Cross-State Report for your County
    a. File Name: NV-CROSS_STATE_USPS-Confidential-YYYYMMDD [County Name]

2. VOLUNTARY CANCELLATION NOTICE
    a. The Secretary of State will send a Voluntary Cancellation Notice (VCN) to each individual at their new registration address in their new state. *You are not required* to mail any notice to the registrant, however if you do, please track these numbers as well. If you do not send any mailers, please indicate that*. The VCN will have your county contact information on it should the voter have questions about their registration or the mailing. The postage-paid return card is addressed to the SOS. Completed VCNs received by the SOS will be forwarded to each county weekly and daily before the close of voter registration. **Remember, this is not an official NVRA notice so you cannot inactivate voters who do not respond to the VCN.**

        i. **IF** you receive a completed VCN and it is signed, compare the signature to your voter registration record. If the signature matches, cancel the registration (you may cancel the registration even if after the 90-day blackout period during election years because this is a voluntary cancellation notice).

        ii. **IF** the VCN is not returned, you are not required to do anything further with this record (but it is highly recommended that you mail them a NVRA notice to the address on file to begin the inactivation process).

        iii. **IF** the VCN is returned to your county as undeliverable, you are not required to do anything further with this record (but it is highly recommended that you mail them a NVRA notice to the address on file to begin the inactivation process). Note: most returned mail (both undeliverable and completed) is addressed to the SOS per the Business Reply.

** Our hope is that the majority of these individuals return the VCN filled out and signed. However, for the records that do not return a completed VCN, we recommend that you send that individual a NVRA confirmation notice to the address you have on file in your county to initiate the NVRA inactivation process. Track the number of these notices below. You may also take any other normal steps to otherwise follow-up directly with the registered voter to confirm their voting status and address. This can be performed by acting on the records in the report that have not responded to the SOS VCN mailing after adequate response time (usually 30+ days).*

3. REPORT

a. Please track the following Voluntary Cancellation Notice information and report the following information to njwoodson@sos.nv.gov 30 and 45 days after the mailing for the cumulative numbers. Although the VCN is returned to the SOS the following outcomes still need to be tracked and reported. Please note you will track SOS mailer results and County mailer results **separately:**

SOS Mailers (required to track)	**County Mailers (track if mailed)**	**Voluntary Cancellation Notice Tracking**
		County Mailing Date
		Voluntary Cancel Response
		Not Returned
		Returned as Undeliverable
		Other (explain/describe)
		Total

Explanation of the Data in the Report

ERIC matches records using a scoring system calculated by giving points based on what fields are matched. The reports currently utilize two (2) scoring systems to identify related records. The following is a general description about the fields used to support a match for each score. If interested, the ERIC Report Information attachment provides detailed information about report fields and scoring. Contact the SOS team if you have questions on a match.

The Error Rule Code in **Column E** lists the rule used to assign the Reference Score in **Column D**.

- Example: **MSTAB+CNAME** matched the DOB, last4ssn, and a Close Name (DL is missing)

The Match Key in **Column G** identifies the fields used to assign the Match Score in **Column F**.

- Example: **+fullnm+DOB+l4ssn** matched the Full Name, DOB, and the last 4 of the SSN
- Match Keys with "**x**" or "**-**" before a field (e.g. +**x**l4ssn or –l4ssn) were made using secondary information.
  - Example: NV Voter record and out-of-state Voter record have different data for this field within the record, but this field for the NV Voter matches this field for the out-of-state DMV record (so the out-of-state Voter and DMV records don't agree on this field).

The NCOA_Align response in **Column EX** identifies when a record also has a match on the NCOA Report. Responses in this field make it easier to filter out records that might receive a mailing from another ERIC report, such as an NCOA Notice mailing. Please review the record on both the Cross-State and NCOA report before determining how to process a record.

Supplemental information has been added to this report. Columns that begin with "SUPP" contain information from supplemental data sources. For example, columns AT through BV (SUPP…) contain information on the most current supplemental record from the voter's state (i.e. NV DMV), if any information is available. Columns DH through EK (SUPP2) provide information matching a supplemental voter in another state (i.e. DMV, Alaska's Permanent Fund), if one exists.

Nevada Secretary of State
ERIC Project – Duplicate Report

The Duplicate Report is created by comparing the Nevada Statewide Voter Registration List (SVRL) against itself and uses information from other data sets such as the NV DMV to help identify potential duplicate voter registration records within the SVRL. The Duplicate Report has the two (2) following tabs in each Excel file.

In-County: Potential duplicates within your county's voter registration database (VRD)
Cross-County: Potential duplicates in two Nevada counties. These records are sent to both counties for review.

IF you are convinced that a record accurately represents a true duplicate, please process the record according to the instructions below.

IF you find a record on the report that you do not believe represents a duplicate voter, please note your reason and report this according to the procedures outlined below in 4(b).

Processing Records: Actions to Take

1. OPEN the attached Duplicate Report for your County
   a. The Excel file is named: IN_STATE_DUPE-YYYYMMDD [County Name]

2. CONFIRM
   a. Examine each pair of potential duplicates in the report using the following fields.
      i. The Cross-County records are provided to both counties. The record in your county may be either the County Voter Record or Match Record.

County Voter Record		Match Record	
County Voter ID	**Column M**	Match Voter ID	**Column AW**
County Last and First Name	**Column S and T**	Match Last and First Name	**Column BC and BD**
County Activity Date	**Column Q**	Match Activity Date	**Column BA**

   b. **Columns M through AQ** contain additional county voter record information

   c. **Columns AW through CA** contain additional match record information

3. MERGE or CANCEL
   a. **In-County**: If you are convinced that the report records represent the same voter and the record matches a voter in your County VRD, merge the records. When necessary contact the voter to obtain or verify information according to your county procedure.

   b. **Cross-County**: Review the information for records in your County and work with the other county to determine if the records are in fact a duplicate as well as who and how to process duplicate records between your counties.
   ***Note**: Pay special attention to these records as they may look like they involve a change or may have the voter's first and middle and last names switched. Also, both counties should review activity date when determining what action to take.*

(Continued on Page 2)

4. REPORT
    a. When you have finished processing all of the records in the Duplicate Report, please report the following information to njwoodson@sos.nv.gov.

Number of Records	In-County - Action
	Same Voter (Merged two records within your county)
	Different Voters (Two different voters, incorrect information on one, etc.)
	Other:
	Total (must equal total records in ERIC Report)

Number of Records	Cross-County - Action
	Update (Two different voters, incorrect information on your county's record)
	Cancel (Your voter matched a voter in a different county)
	Other county took action on their record (cancelled, update, etc.)
	Previously Cancelled (Record was cancelled prior to ERIC report)
	No Match (ERIC record did not match yours)
	Other:
	Total (must equal total records in ERIC Report)

    b. If you find records that you do not believe are accurate, copy the entire row from the Duplicate Report into another spreadsheet.
        i. Upload the spreadsheet to the ERIC folder on IPSwitch and send an email to njwoodson@sos.nv.gov with a brief description about why the record(s) should not be removed. We will work with ERIC to resolve issues identified by the counties.

Nevada Secretary of State
ERIC Project – In-State Update Report

The In-State Update Report is created by comparing the Nevada Statewide Voter Registration List (SVRL) against data from the Nevada DMV. Because the records on the In-State Update Report are a result of a match with another government record from this state, you may act on this information per NRS 293.675.

The In-State Update Report contains records of registered voters from your county that ERIC has identified as possibly having updated address information. There are three tabs of records in the In-State Update Report workbook:

(Tab 1) **In-County Residential:** Records with potential residential address updates within your county
(Tab 2) **Cross-County Residential:** Records with potential residential address updates in another county in Nevada
(Tab 3) **Mailing Address:** Records with potential mailing address updates

Note: In-County and Cross-County Residential tabs include records with potential updates for both the voter's residential and mailing addresses.

Column "DG" is new and indicates when the record on the In-State Update Report also has a match on the NCOA Report. If you will be conducting an In-State Update Report mailing and a NCOA Report mailing, you will want to review and possibly remove certain records from one of your mailings to avoid sending multiple mailings to the same individual. For example, you might keep a record on an In-State Update mailing when the NCOA record has an older record date, is only updating a mailing address, etc. Both the In-State Update Cross-County and NCOA mailings are optional, but recommended.

USPS Coding Accuracy Support System (CASS) data to correct, standardize, or add missing address information, such as a street direction or suffix, ZIP code, can be found in **Columns BM** through **BZ**.

Processing Records: Actions to Take

1. OPEN the attached In-State Update Report for your County
   a. File name: NV-IN_STATE_UPDATE_USPS-YYYYMMDD [County Name]
2. REVIEW
   a. Examine each record on the In-State Update Report and compare with the applicable record in your county voter registration database (VRD) using the following fields:

County Voter Record	
County Voter ID	**Column N**
County Voter Name	**Column T, U, V**
County Voter Residential Address	**Column Y - AD**

   b. If the report record does not match a voter in your county, report this record according to the procedures outlined in 4(b).
3. CONTACT
   a. **IF** the new residential address is within your county, mail a forwardable NVRA Confirmation Notice, as set forth in NRS 293.5307 to the voter at his or her voter registration address on record.
   b. **IF** the new residential address is outside of your county, you are *encouraged* to mail a forwardable NVRA Confirmation Notice, as set forth in NRS 293.5307, to the voter at his or her voter registration address on record.
      i. PLEASE NOTE: the SOS will mail all Cross-County Residential records a notice urging the recipient to update his or her voter registration in the new county online via RegisterToVoteNV.gov. This notice will be mailed to the address outside of your county. You do not need to wait for the SOS mailer to be sent – please begin sending your own notices immediately.
      ii. The mailer from the SOS **is not** an official NVRA confirmation notice. You cannot inactivate voters for not responding to the SOS mailer – you can only inactivate voters on the Cross-County tab if they fail to respond to the confirmation notice **YOU** send to them.

Commented [WU1]:

Commented [JR2R1]: 10/4/2019 – Wayne met with the DAG and the DAG said this is the process all counties need to follow: "NVRA doesn't establish a sequence, it is just a minimum standard." All counties need to send notice first and then update if notice returned completed.

AMERICAN OVERSIGHT
NV-STOREY-22-1163-A-002983

c. **Mailing Address:**
   i. It is at your discretion on whether you update the voter's record with this new mailing address. If election mail has been reaching the voter at the mailing address in your County VRD, you may not want to update the record. If your database has the capability, you might consider adding the new mailing address as an alternate mailing address.

4. REPORTING
   a. When you have finished processing all of the records in the In-State Update Report, please report the following information to njwoodson@sos.nv.gov. Note: the In-County mailing is required, Cross-County is recommended, and Mailing Address is at your discretion.

In-State Update Report Action			
In-County *(required)*	Cross-County *(recommended)*	Mailing *(discretionary)*	
			NVRA Notices sent
			NVRA Notices not sent (more recent update, no match, etc.)
			Total (Should match the total number of records in each category)
			Date NVRA Notices sent

   a. After sending the Notice, track the number of resulting record updates, cancellations and inactivations. Then report the following table 30+ days after sending the Notice to njwoodson@sos.nv.gov.

Results from the County NVRA Confirmation Notice Mailing			
In-County *(required)*	Cross-County *(recommended)*	Mailing *(discretionary)*	
			Updated voter record
			Canceled voter record
			Inactivated (voter failed to return the NVRA notice YOU sent)
			Other (explanation needed)
			Total (should match the number of Notices sent)

   b. Only use the "Other" category for rare cases in which you did not update, inactivate or cancel the voter (i.e. you had a newer update on file than the information in the ERIC report).
   b. Upload the spreadsheet to the ERIC folder on IPSwitch and send an email to njwoodson@sos.nv.gov. with a brief description about why the record(s) should not be removed. We will work with ERIC to resolve issues identified by the counties.
   c. **NOTE**: In an election year you **cannot** inactivate voters for failing to return the NVRA confirmation notice after the 90-day list maintenance deadline; you must wait until after the election to inactivate them. Because of this you will need to report your results again after the election when you have done your inactivation's.

Explanation of the Data in the Report

ERIC matches records using a scoring system calculated by giving points based on what fields are matched. The reports currently utilize two scoring systems to identify related records. The following is a general description about the fields used to support a match for each score. If interested, the previously provided ERIC Report Information provides detailed information about report fields and scoring. Contact the SOS team if you have questions on a match.

The Error Rule Code in **Column E** lists the rule used to assign the Reference Score in **Column D**.

- Example: **MSTAB+CNAME** matched the DOB, last4ssn, and a Close Name (DL is missing)

The Match Key in **Column G** identifies the fields used to assign the Match Score in **Column F**.

- Example: +fullnm+DOB+l4ssn matched the Full Name, DOB, and the last 4 of the SSN
- Match Keys with "**x**" or "-" before a field (e.g. +**x**l4ssn or –l4ssn) were made using secondary information.
  - Example: NV Voter record and out-of-state Voter record have different data for this field within the record, but this field for the NV Voter matches this field for the out-of-state DMV record (so the out-of-state Voter and DMV records don't agree on this field).

The NCOA_Align response in **Column DG** identifies when a record also has a match on the NCOA Report. Responses in this field make it easier to filter out records that might receive a mailing from another ERIC report, such as an NCOA Notice mailing. Please review the record on both the In-State Update and NCOA reports before determining how to process a record.

This report now contains address correction data from the USPS Coding Accuracy Support System (CASS). CASS data, if any, might be used by a county to correct, standardize, or add missing address information, such as a street direction or suffix, ZIP code, etc. CASS data for Residential Addresses can be found in **Columns BM** through **BZ** and for Mailing Addresses in columns CK through CP. Utilizing this CASS data is optional.

Nevada Secretary of State
ERIC – NCOA Report

The NCOA Report is created by comparing the Nevada Statewide Voter Registration List (SVRL) against data in the United States Postal Service (USPS) National Change of Address (NCOA) service.

Records in this report can be acted on per NRS 293.5307. This statute permits local election officials to use USPS NCOA data to correct voter registration information by mailing a notice to registered voters appearing on the NCOA list and following the procedures set forth in NRS 293.530. Although you are not required to, we *recommend* acting on these records. ERIC is authorized to obtain USPS NCOA data as required in NRS 293.5303.

Processing the records on the NCOA report is very similar to processing records on the In-State Update report. The NCOA Report data is separated onto two tabs in the workbook:

- **NV-NCOA_ONLY**: records where the NCOA record has a date newer than the County Last Activity Date
- **Newer County Date**: records where the County Last Activity Date is newer than the NCOA record date

Processing Records: Actions to Take

1. OPEN the attached NCOA Report
   a. File name: NV-NCOA_ONLY-Confidential-YYYYMMDD [County Name]
2. REVIEW
   a. Examine each record on the NV-NCOA_ONLY tab with the applicable record in your county voter registration database (VRD) using the following fields.

	County Record	NCOA Record
Voter ID	**Column E**	**n/a**
Voter Name	**Columns T, U, V**	**Columns BC – BE**
Voter Residential Address	**Columns Y - AD**	**Columns AK – AX**
Record Date	**Column I**	**Column BA**

   b. Records on the Newer County Date tab are likely to older than the County record and can be reviewed and acted on at your discretion.

   c. If the report record does not match a voter in your county, do nothing with this record.

3. CONTACT
   a. **IF** the record matches a record in your county, evaluate why the record is appearing on the NCOA report and determine if any action is necessary. The Residential Return Code in **Column AZ** provides detailed information about the new or corrected address provided. A list of the Return Codes is provided on Page 3.

      For example: Most records have a Return Code of "**NA**" which indicates that the county input record matched a NCOA record and a new NCOA address could be provided. It is recommended that you mail a forwardable NVRA Confirmation Notice, as set forth in NRS 293.530(3) and (7), to the voter at his or her voter registration address on record.

      Note: Before acting on a record, please review the record thoroughly. There might be instances when the county has made contact with the voter since the report was created, the individual might have provided NCOA with a PO Box for a residential address, the new NCOA address is a military installation for an active service member, etc.

   b. **Mailing Address:**
      i. It is at your discretion on whether you update the voter's record with this new mailing address. If election mail has been reaching the voter at the mailing address in your County VRD, you may not want to update the record. If your database has the capability, you might consider adding the new mailing address as an alternate mailing address. The Mail Return Code is in **Column BV.**

4. REPORTING
    a. If you conduct a NCOA mailing, please report the total number of NVRA Conformation Notices sent by email to njwoodson@sos.nv.gov. And as with all maintenance activities, certain information must be tracked, retained, and reported on the federal survey.

NCOA Report Maintenance	
	Total Number of NVRA Conformation Notices Sent

Explanation of the Data in the Report

Information about the new or corrected address is provided in the RES_RETURN_CODE (column AZ) and MAIL_RETURN_CODE (column BV) fields on the NCOA report for residential and mailing addresses, respectively.

Records with NCOA information will have a code in one of those two fields that starts with the prefix "N". The prefix is followed by more detailed information about the new or corrected address provided.

The NCOA Report indicates when a record also has a match on the Cross-State and In-State Update Reports. These are **Columns CO** and **CP** on the NCOA Report.

The NCOA Residential and Mailing addresses provided in the NCOA Report are standardized according to the USPS Coding Accuracy Support System (CASS).

NCOA dates only provide month and year, so a date of "01" has been added to all NCOA dates.

NCOA Codes

Type	Code	New Address Provided	Description
N	A	Y	**COA Match:** The input record matched to a COA record. A new address could be furnished.
N	91	Y	**COA Match:** Secondary Number dropped from COA—The input record matched to a COA record. The COA record had a secondary number and the input address did not.
N	92	Y	**COA Match:** Secondary Number dropped from COA—The input record matched to a COA record. The COA record had a secondary number and the input address did not.
N	00	N	**No Match:** The input record COULD NOT BE matched to a COA record. A new address could not be furnished.
N	01	N	**Found COA: Foreign Move**—The input record matched to a COA record but the new address was outside USPS delivery area.
N	02	N	**Found COA: Moved and Left No Address (MLNA)**—The input record matched to a COA record but the new address was not provided to USPS.
N	03	N	**Found COA: Box Closed No Order (BCNO)**—The Input record matched to a COA record containing an old address of PO BOX which has been closed without a forwarding address provided.
N	04	N	**Cannot match COA: Street Address with Secondary**—Utilizing Family matching logic the input record was a potential match to a family type COA record with an old address that contained secondary information. The input record does not contain secondary information. The record is a ZIP + 4® street level match.This address match situation requires individual name matching logic to obtain a match and individual names do not match.
N	05	N	**Found COA: New 11-digit DPBC is Ambiguous**—The input record matched to a COA record. The new address on the COA record could not be converted to a deliverable address because the DPBC represents more than one delivery point.
N	06	N	**Cannot Match COA: Conflicting Directions: Middle Name Related**—There is more than one COA record for the match algorithm and the middle names or initials on the COAs are different. Therefore a single match result could not be determined.
N	08	N	**Cannot Match COA: Other Conflicting Instructions**—The input record was a potential match to two COA records. The two records were compared and due to differences in the new addresses a match could not be made.
N	09	N	**Cannot Match COA: High-rise Default**—The input record was a potential match to a family COA record from a High-rise address ZIP + 4 coded to the building default. This address match situation requires individual name matching logic to obtain a match and individual names do not match.
N	10	N	**Cannot Match COA: Rural Default**—The input record was a potential match to a family COA record from a Rural Route or Highway Contract Route address ZIP + 4 coded to the route default. This address situation requires individual name matching logic to obtain a match and individual names do not match.
N	11	N	**Cannot Match COA: Individual Match: Insufficient COA Name for Match**—There is a COA record with the same surname and address but there is insufficient first/middle name information on the COA record to produce a match using individual matching logic.
N	12	N	**Cannot Match COA: Middle Name Test Failed** – The input record was a potential match to a COA record. A match cannot be made because the input name contains a conflict with the middle name or initials on the COA record.
N	13	N	**Cannot Match COA: Gender Test Failed**—The input record was a potential match to a COA record. A match cannot be made because the gender of the name on the input record conflicts with the gender of the name on the COA record.
N	14	N	**Found COA: New Address Would Not Convert at Run Time**—The input record matched to a COA record. The new address could not be converted to a deliverable address.
N	15	N	**Cannot Match COA: Individual Name Insufficient**—The input record was a potential match to a COA record that contains a first initial and middle initial/name (for example: C M Smith or C Mary Smith). A match cannot be made because the input middle initial/name is missing or does not equal the middle initial/name on the COA.
N	16	N	**Cannot Match COA: Secondary Number Discrepancy**—The input record was a potential match to a street level COA record. However a match is prohibited based on one of the following reasons: 1. There is conflicting secondary information on the input and COA record 2. The input record contained secondary information and matched to a family record that does not contain secondary information. In item 2 this address match situation requires individual name matching logic to obtain a COA match and individual names do not match.
N	17	N	**Cannot Match COA: Other Insufficient Name**—The input record was a potential match to a COA record that contains a full first name and full middle name. The input middle initial/name is missing or different from the middle name on the COA. A match cannot be made because the first name on the COA was truncated (drop-n flag) and the middle names must be equal in order to make this match.
N	18	N	**Cannot Match COA: General Delivery**—The input record was a potential match to a COA record from a General Delivery address. This address situation requires individual name matching logic to obtain a match and individual names do not match.
N	19	N	**Found COA: New Address not ZIP + 4 coded or New address primary number not DPV confirmable**—There is a change of address on file but the new address cannot be ZIP + 4 coded and therefore there is no 11-digit DPBC to store or return or the new address primary number cannot be confirmed on DPV®.
N	20	N	**Cannot Match COA: Conflicting Directions after re-chaining**—Multiple COA records were potential matches for the input record. The COA records contained different new addresses and a single match result could not be determined.
N	66	N	**Daily Delete**—The input record matched to a business, individual or family type COA record with an old address that is present in the daily delete file. The presence of an address in the daily delete file means that a COA with this address is pending deletion from the COA master file and that no mail may be forwarded from this address.

Good afternoon Jim,

I hope this ESS training guide will be helpful to you. Pages 1-7 are more about the ESS platform and how to enter time. You won't need to enter your time, but you can view your paystubs and W-2's, change your contact information and use the paycheck calculator if you wanted to estimate any changes. Pages 7-8 show how to approve your departments time. We ask for you to make sure ESS time entries and timecards are correct and the same. Once you approve, it should ask you to print report in the top right-hand corner. Please sign the printed copy and turn into our office along with**signed** timecards by noon on payroll Tuesdays.

Please let me know if you have any questions,

AMERICAN OVERSIGHT

From: Eric Richardson <juggernaut.richardson@gmail.com>
Sent: Wednesday, September 14, 2022 2:52 AM EDT
To: treasurer@storeycounty.org <treasurer@storeycounty.org>
Subject: Excess Funds

Greetings,

This email is a formal request for a copy of your county's "excess funds list," which I believe is maintained by your department. In case of any confusion, by "excess funds" I mean monies collected when a property is sold at tax sale which is over and above the amount of property taxes/penalties and interest owed. I am only looking for uncollected excess funds on unredeemed properties.

The information I would like is the date of the tax sale, name of the owner at the time of the tax sale, the tax identification number (sometimes called "Parcel Number" or "Parcel Identifier" or "Folio Number"), either the property address or owner's mailing address, and the number of surplus funds due to the owner. If you have some portion of the above information available I am interested in what you do have available.

If you have these records in electronic formats such as PDF, Excel, or CSV files, I'd prefer the information that way. Otherwise, please let me know how much a hard copy of your list will be, and where and to whom to mail payment for a hard copy

If you do not maintain a list of excess funds, any advice on how I could collect that information from existing files you have would be very much appreciated!

If I have reached the wrong department, I would very much appreciate this email being forwarded to the correct department, with a carbon copy sent to me.

If there is anything I can do to aid or expedite the process, please let me know, as I'm eager to do whatever I can to make your job easier.

Thanks in advance,

Eric Richardson

Subject: Exemption From Jury Duty

I was recently forwarded copy of a letter (30 August 2022) informing me of jury duty and must decline.

My address for the last 18 months is: PSC 41 Box 4311 APO AE 09464. This is on the U.S. Air Force Base at RAF Lakenheath, U.K.

This has been updated on my Nevada Voter registration card and guess you haven't received the word yet. In addition I'll note my birthday of 14 November 1949 places in the over 70 years of age category.

If there is any additional form or letter you'd like me to fill out you may mail or email me as you see fit.

Thank you for your consideration on this.

Subject: Family law vendor question
Attachment(s): "AppClose Family Law Pro Fact Sheet.pdf"

Hi Jan,
I am a Family Law service provider and would like to send some of my organization's brochures to your courthouse so that they can be made available as a free family law resource to your community.
AppClose is a leading Co-Parenting solution for families dealing with shared custody. We have been court ordered in all 50 states with over 1 million registered users since 2016. We would be thrilled to be available to your community!
Please share the attachments and links below to Judges and Family Law Pros in your area. I am happy to respond to any questions or schedule an informative phone call. When you're ready, I'll send a box of brochures. For more information, see PDF brochure or Fact Sheet (attached) or visit www.AppClose.com.

Thanks,
Andrew Butler

- Caregivers
- *Pro Se* litigants
- Legal professionals
- Healthcare professionals
- Education professionals

AppClose is Secure, Free to use & feature packed

Features

Chat messaging	• Secure encrypted one-on-one or group chats. • Chat history can be monitored, searched, filtered and exported. • Messages can be bookmarked and viewed and exported from a central location. • Users can reply to specific messages appearing earlier in conversations • Messages are date and time-stamped, admissible in court, and cannot be altered or deleted. • Unlimited account data storage.
Audio & Video Calling	• AppClose users determine which circle members they want to receive calls from. Permissions can be changed at any time. • Calls are private. Location and call contents are not recorded. • AppClose documents attempted, missed, or completed calls. Call logs can be exported.

AMERICAN OVERSIGHT

Calendars & check-ins	• Users can sync mobile calendars with AppClose. Synced calendars are private and not visible to other users. • Co-parents can use one of 15 predefined parenting schedules or create a custom schedule. • Co-parents can send and comment on shared events, drop-off, pick-up or other requests, and attach related files. All history is documented. • AppClose calculates parenting time percentages based on co-parents' entries in the parenting schedule. • Co-parents can add daily journal notes with the Calendar Note feature and export them as needed. • The "Check-in" feature allows co-parents to geo-tag and time stamp their current location for drop-offs and pick-ups. For privacy reasons, AppClose does not allow users to track anyone's location.
Expense logs & reimbursement requests	• Co-Parents can log child-related expenses, categorize them and attach supporting documents. Reimbursement requests can be submitted, commented on, and tracked. • Users can split expenses based on court ordered percentages, or set alternate percentages for specific expenses. • Co-parents can view, filter, and export financial statistics, including reimbursement requests, the total value of reimbursements in any status (approved, pending, declined, paid, cancelled, or resubmitted), as well as expense amounts in total or by category.
Circles	• Users can create a circle by inviting co-parents, other family members, legal professionals or other third parties to join the app. • Co-parents can manage multiple families by creating additional circles. • Child profiles allow co-parents to share vital information with others, including emergency contact, medical information, clothing sizes/ measurements, educational information, childcare provider information, etc. • Circle members only see the information co-parents select to share with them.
AppClose Solo	• Co-parents can send requests or events to non-connected co-parents, family members, or third parties via email, attaching receipts or other documents as needed. • Co-parents receive notifications when non-connected users approve or decline expenses or add an event to their calendar. AppClose records all responses.
Sending and receiving money	• Co-parents or other circle members can set up a built-in ipayou® account and send and receive secure encrypted payments related to child support or expenses. • For reimbursement requests paid using other payment methods, co-parents can mark requests as paid in AppClose. • All payments are recorded in AppClose and can be exported.

AMERICAN OVERSIGHT

Security & access to records	• All app data is encrypted, depersonalized, and stored on secure servers. • Users must enter verification codes or optional 4-digit PINs to access AppClose. • All history between parties remains available until both parties delete their account. • Co-parents can access and export in-app session records, chat history, call history, expenses, calendar notes, reimbursement requests, or check-ins, and send to third parties upon request. • When subject to a subpoena, business records affidavits can be requested and provided to the court or to the litigants' attorneys.

Attachment(s): "~ce10b8bd181262a947c.pdf"

Please find attached the Family Phase II validation report for 1E. This report provides a list of cases that may not report properly on the USJR worksheets and should be verified for accuracy by the responsible court staff.

Please refer to the 2012 NCS Family Phase II USJR User Manual, pages 1 - 3 for the error key. The error key will assist with the correction and verification of the cases listed on the validation report.

If your office has requested a schedule for the Family Phase II disposition and caseload worksheet to be sent via email, this validation report should be corrected prior to the date and time of that schedule. If the cases are not corrected by the scheduled date and time, your office will be responsible for generating a new Family Phase II disposition and caseload worksheet in Crystal, if needed.

If you have any questions regarding the validation report or need assistance with correcting the cases shown on this report, please contact the Trial Court Service Desk at (775) 687-9898.

Subject: Family Phase II validation report for 1E
Attachment(s): "~ce10b8bd18116cee47a.pdf"

Please find attached the Family Phase II validation report for 1E. This report provides a list of cases that may not report properly on the USJR worksheets and should be verified for accuracy by the responsible court staff.

Please refer to the 2012 NCS Family Phase II USJR User Manual, pages 1 - 3 for the error key. The error key will assist with the correction and verification of the cases listed on the validation report.

If your office has requested a schedule for the Family Phase II disposition and caseload worksheet to be sent via email, this validation report should be corrected prior to the date and time of that schedule. If the cases are not corrected by the scheduled date and time, your office will be responsible for generating a new Family Phase II disposition and caseload worksheet in Crystal, if needed.

If you have any questions regarding the validation report or need assistance with correcting the cases shown on this report, please contact the Trial Court Service Desk at (775) 687-9898.

Malicious Cyber Activity Against Election Infrastructure Unlikely to Disrupt or Prevent Voting

The Federal Bureau of Investigation (FBI) and the Cybersecurity and Infrastructure Security Agency (CISA) assess that any attempts by cyber actors to compromise election infrastructure are unlikely to result in large-scale disruptions or prevent voting. As of the date of this report, the FBI and CISA have **no** reporting to suggest cyber activity has ever prevented a registered voter from casting a ballot, compromised the integrity of any ballots cast, or affected the accuracy of voter registration information. Any attempts tracked by FBI and CISA have remained localized and were blocked or successfully mitigated with minimal or no disruption to election processes.

The public should be aware that election officials use a variety of technological, physical, and procedural controls to mitigate the likelihood of malicious cyber activity (e.g., phishing, ransomware, denial of service, or domain spoofing) affecting the confidentiality, integrity, or availability of election infrastructure systems or data that would alter votes or otherwise disrupt or prevent voting. These include failsafe measures, such as provisional ballots and backup pollbooks, and safeguards that protect against voting malfunctions (e.g., logic and accuracy testing, chain of custody procedures, paper ballots, and post-election audits). Given the extensive safeguards in place and distributed nature of election infrastructure, the FBI and CISA continue to assess that attempts to manipulate votes at scale would be difficult to conduct undetected.

Election systems that house voter registration information or manage non-voting election processes continue to be a target of interest for malicious threat actors. Cyber actors may also seek to spread or amplify false or exaggerated claims of cybersecurity compromises to election infrastructure; however, these attempts would not prevent voting or the accurate reporting of results.[a]

The FBI and CISA will continue to quickly respond to any potential threats, provide recommendations to harden election infrastructure, notify stakeholders of threats and intrusion activity, and impose risks and

AMERICAN OVERSIGHT

consequences on cyber actors seeking to threaten U.S. elections.

Recommendations

- For information about registering to vote, polling locations, voting by mail, provisional ballot process, and final election results, rely on state and local government election officials.
- Remain alert to election-related schemes which may attempt to impede election administration.
- Be wary of emails or phone calls from unfamiliar email addresses or phone numbers that make suspicious claims about the elections process or of social media posts that appear to spread inconsistent information about election-related incidents or results.
- Do not communicate with unsolicited email senders, open attachments from unknown individuals, or provide personal information via email without confirming the requester's identity. Be aware that many emails requesting your personal information often appear to be legitimate.
- Verify through multiple, reliable sources any reports about compromises of voter information or voting systems, and consider searching for other reliable sources before sharing such information via social media or other avenues.
- Be cautious with websites not affiliated with local or state government that solicit voting information, like voter registration information. Websites that end in ".gov" or websites you know are affiliated with your state or local election office are usually trustworthy. Be sure to know what your state and local elections office websites are in advance to avoid inadvertently providing your information to nefarious websites or actors.
- Report potential crimes—such as cyber targeting of voting systems—to your local FBI Field Office.
- Report cyber-related incidents on election infrastructure to your local election officials and CISA (Central@CISA.gov).

The FBI is responsible for investigating election crimes, malign foreign influence operations, and malicious cyber activity targeting election infrastructure and other U.S. democratic institutions. CISA helps critical infrastructure owners and operators, including those in the election community, remain resilient against physical and cyber threats. The FBI and CISA provide services and information to uphold the security, integrity, and resiliency of U.S. election infrastructure.

Victim Reporting and Additional Information

Foreign Actors Likely to Use Information Manipulation Tactics for 2022 Midterm Elections

The Federal Bureau of Investigation (FBI) and the Cybersecurity and Infrastructure Security Agency (CISA) are raising awareness of the potential threat posed by attempts to manipulate information or spread disinformation in the lead up to and after the 2022 midterm elections. Foreign actors may intensify efforts to influence outcomes of the 2022 midterm elections by circulating or amplifying reports of real or alleged malicious cyber activity on election infrastructure. Additionally, these foreign actors may create and knowingly disseminate false claims and narratives regarding voter suppression, voter or ballot fraud, and other false information intended to undermine confidence in the election processes and influence public opinion of the elections' legitimacy.[a,b] As with previous election cycles, foreign actors continue to knowingly spread false narratives about election infrastructure to promote social discord and distrust in U.S. democratic processes and institutions, and may include attempts to incite violence.

Foreign actors can use a number of methods to knowingly spread and amplify false claims and narratives about malicious cyber activity, voting processes, and results surrounding the midterm election cycle. These actors use publicly available and dark web media channels, online journals, messaging applications, spoofed websites, emails, text messages, and fake online personas on U.S. and foreign social media platforms to spread and amplify these false claims. For example, foreign actors may use such platforms to spread disinformation and claim successful cyber compromises of election infrastructure, evidenced by “hacked” or “leaked” U.S. voter registration data, suggesting compromise to the voting process or election result integrity. While some voter registration information is publicly available, the FBI and CISA have no information suggesting any cyber activity against U.S. election infrastructure has impacted the accuracy of voter registration information, prevented a registered voter from casting a ballot, or compromised the integrity of any ballots cast. These efforts by foreign actors aim to undermine voter confidence and to entice unwitting consumers of information and third-party individuals

AMERICAN OVERSIGHT

to like, discuss, share, and amplify the spread of false or misleading narratives.

The FBI and CISA urge the American public to critically evaluate the sources of the information they consume and to seek out reliable and verified information from trusted sources, such as state and local election officials and reputable news media. The FBI and CISA will continue to quickly respond to potential threats, by seeking to engage with state and local officials and the public when possible.

Recommendations:

- For information about registering to vote, voting, and election results, rely on state and local government election officials.
- Visit the U.S. Election Assistance Commission website (https://www.eac.gov) as a resource for verified and reliable elections-related information and resources.
- Be aware that sensational content can be created or shared by foreign actors with the intent to incite anger, mobilize, and to promote amplification of false information.
- Seek information from trustworthy and reputable media and social media sources, considering the author and their intent.
- Keep in mind that some news sites sound authentic but are authored by foreign actors.
- Confirm with reputable sources, reports that claim voting or elections infrastructure challenges or discrepancies. Know where to access local election information, such as official websites, official social media accounts, or by contacting local elections officials.
- Critically evaluate the information you share, and verify information with trusted sources, such as state and local election officials and reputable news media. If the information is not from a credible source or if a second reliable source cannot be found, consider not sharing it as you may be inadvertently amplifying misinformation.
- Be wary of phone calls or emails from unfamiliar callers and senders that make suspicious claims about the elections process or of social media posts that appear to spread inconsistent information about election-related problems or results.
- If appropriate, make use of in-platform tools offered by social media companies for reporting elections related disinformation.
- Be cautious with websites not affiliated with local or state government that solicit voting information, like voter registration information. Websites that end in ".gov" or websites you know are affiliated with your state or local election office are usually trustworthy. Be sure to know what your state and local elections office websites are in advance to avoid inadvertently providing your information to nefarious websites or actors.
- Report potential election crimes—such as intentional disinformation about the manner, time, or place of voting—to your local FBI Field Office.

The FBI is responsible for investigating election crimes, malign foreign influence operations, and malicious cyber activity targeting election infrastructure and other U.S. democratic institutions. CISA helps critical

infrastructure owners and operators, including those in the election community, remain resilient against physical and cyber threats. The FBI and CISA provide services and information to the public and private sector to uphold the security, integrity, and resiliency of U.S. election infrastructure.

Background checks are ingrained in law and compliance. The Fair Credit Reporting Act (FCRA), state laws, and local ordinances define relevant requirements and restrictions. Courts and government agencies are often the sources of some records. In fact, laws may be why you screen in the first place, with many industries facing regulations. Most importantly, no matter how or why you screen your employees, you, as an employer, have legal obligations. Employers must obtain and use background checks according to various laws.

Join us for this webinar to learn where compliance updates and background checks are in the news. We'll let you in on what trends we are tracking, from drug testing restrictions to the latest judgments. You'll also see how courts are ruling on cases involving critical disclosure and authorization documents.

Join us on Compliancevent this October to learn a legally compliant way of criminal background checks. You will also receive a FREE customized Criminal Background Check tool specifically designed to help Employers dispute allegations of wrongful termination.

What You will Learn:

•Fair Credit Reporting Act (FCRA)
• Ban-the-Box Laws
• Consumer Privacy Impacts
• How your current background check program could get you into trouble
• The most important updates to EEOC, FCRA, and Ban the Box regulations
• Easy steps you can start taking today to get compliant—and stay compliant
• Why regulations are protecting formerly incarcerated individuals in the workplace

We can't wait to see you there!

AMERICAN OVERSIGHT

Background checks are ingrained in law and compliance. The Fair Credit Reporting Act (FCRA), state laws, and local ordinances define relevant requirements and restrictions. Courts and government agencies are often the sources of some records. In fact, laws may be why you screen in the first place, with many industries facing regulations. Most importantly, no matter how or why you screen your employees, you, as an employer, have legal obligations. Employers must obtain and use background checks according to various laws.

Join us for this webinar to learn where compliance updates and background checks are in the news. We'll let you in on what trends we are tracking, from drug testing restrictions to the latest judgments. You'll also see how courts are ruling on cases involving critical disclosure and authorization documents.

Join us on Compliancevent this October to learn a legally compliant way of criminal background checks. You will also receive a FREE customized Criminal Background Check tool specifically designed to help Employers dispute allegations of wrongful termination.

What You will Learn:

•Fair Credit Reporting Act (FCRA)
• Ban-the-Box Laws
• Consumer Privacy Impacts
• How your current background check program could get you into trouble
• The most important updates to EEOC, FCRA, and Ban the Box regulations
• Easy steps you can start taking today to get compliant—and stay compliant
• Why regulations are protecting formerly incarcerated individuals in the workplace

We can't wait to see you there!

Regards,
Webinar Team

Subject: Fire District Point & Pay

Good Afternoon!
I'm wondering if you have access to the point & pay system and can alter the way people enter payments?
Right now when people go to our point & pay site to make a payment, our Permit fee payment and plan review fee payment are separate and I'm wondering if we can make them as one payment entry? And if we can add a line for the invoice number, too?

I hope that all makes sense.

Thank you!

Hello Jim,

Can you please advise when you have a moment on the day of our first January meeting, which may be Monday due to elected office oaths, etc. We will gladly let department heads know in preparation of agenda submittals.

Thank you,

Please review the attached secured tax roll disbursement reports for FY 2022-23.
SB423 of the 81st (2021) Session of the legislature modified NRS 361.3205 (4) allowing the Department of Taxation to be reimbursed for collection costs. The budgeted costs of $137,928.00 were approved by the Legislature to be reimbursed FY2022-23.
The $137,928.00 is being deducted statewide from the entire statewide disbursement of $37,375,532.95. The portion of the cost we deducted from your county is in the “Collection Exp” column of the attached reports. This disbursement will be the only one that deducts collect expenses this fiscal year.

Exempt v Non-Exempt Employees: The Difference and Why it Matters

During the last decade or two, employers have found it increasingly difficult to decide which employees are entitled to overtime. Those classifications are commonly referred to as exempt employees (those who meet the FLSA's requirements to be exempt from overtime pay) and non-exempt employees (employees the law requires to be paid overtime).

The FLSA contains dozens of exemptions, which basically provide that specific categories of employers and employees aren't subject to the Act's overtime requirements. Most common are the "white-collar" exemptions for executive, administrative, and professional employees, computer professionals, and outside sales employees.

What are these exemptions exactly? Who qualifies? What must you do to make sure that your employees are properly classified, and, most importantly how can you make sure that your practices comply with the Fair Labor Standards Act so you do not fall prey to a Department of Labor audit – or worse, a lawsuit—resulting in unpaid overtime, liquidated damages, other fines and penalties in addition to your legal fees? Join this webinar and find out!

Session Highlights:

- **Difference between exempt v non-exempt employees**
- **The salary basis test**
- **The most common exemption categories**
- **The duties test**
- **Job Titles and Descriptions**
- **Job Evaluations, Supervisor and Employee Interviews**

Live Webinar | Speaker: **Patrick Haggerty**

Date: **Nov 29 , 2022** | Time: **01:00 PM ET**

CPE Credits : 2.0 (Taxes)

This webinar will cover the reporting requirements for Forms 1099-MISC and 1099-NEC. It will also cover changes to the Forms for 2022 and expected changes to the filing requirements including new e-filing requirements that will affect most filers. It will cover specific reporting requirements for various types of payments and payees, filing requirements, withholding requirements and reporting guidelines and best practices for compliance assurance and penalty avoidance.

This webinar will cover the latest updates for Form 1099-MISC and Form 1099-NEC. It will cover specific reporting requirements for various types of payments and payees, filing requirements, withholding requirements and reporting guidelines.

The webinar will cover filing due dates, penalties for late filed and late furnished returns, various ways to prevent and mitigate penalties including the safe harbor provisions for de minimis dollar amount errors and the important “reasonable cause” defense, steps that can be taken now to prevent penalties such as taxpayer identification number verification, backup withholding, handling B-notices, filing procedures and correcting errors.

The IRS is actively targeting enforcement measures on accounts payable operations. Penalties for non-compliance are now indexed and increase each year. It is more important than ever that 1099 Forms be prepared correctly, filed and furnished timely, and that filers perform due diligence procedures to avoid or mitigate penalties.

Session Highlights:

- Be prepared for filing Form 1099 NEC and Form 1099-MISC
- Be prepared for anticipated changes to electronic filing for 2022 Forms in 2023
- Know the due dates for furnishing and filing information returns
- Identify reportable payments and payees. Know when a 1099 is required
- Be aware of common 1099 errors: Know how to avoid them and how to correct them
- Information Returns: 2022 updates to Forms 1099-MISC and 1099-NEC
- Forms 1099-MISC, 1099-NEC and 1096: Identification of reportable payments and payees

Subject: Formal Request for Marriage and Divorce Counts

To whom it may concern,

My name is Lee Brady, and I am working with Krista Payne, the Principal Investigator on a NIH grant titled Archiving Contemporary County and State Nuptiality Data (1R03HD103830-01). The goal of this project is to collect, archive, and disseminate county and state-level marriage and divorce counts disaggregated by couple gender (when available) in the United States from 2011 through 2021. Currently this information is not available in one place and hopefully this will help states compare and track their county level marriage and divorce data. We completed a similar project with 2010 data.

I am seeking the marriage and divorce counts in your county for years 2011 through 2021. I am happy to accept these data in any format. If there is a processing fee, please let me know and I can make a payment. If possible, we would like these data by couple gender.

Thank you for considering my request. If you have any questions, please reach out. I am grateful for your effort and assistance.

Sincerely,

Former Congresswoman Tulsi Gabbard Endorses Adam Laxalt For U.S. Senate

Gabbard to Appear at Las Vegas Rally with Laxalt Tomorrow

LAS VEGAS, NV - Former United States Congresswoman, Tulsi Gabbard, has endorsed Nevada U.S. Senate candidate Adam Laxalt for this upcoming November election.

Gabbard, who announced she was leaving the Democratic Party this month, served in Congress representing Hawaii's 2nd Congressional District from 2013 to 2021 and was a candidate for president in 2020.

"It is the disastrous policies of Joe Biden and his rubber stamp Senator Catherine Cortez Masto that are causing soaring inflation, record-high gas prices, a crisis along our open southern border, and skyrocketing crime. This is why thousands of Nevadans, of all political backgrounds, are getting behind our campaign to take back the Senate and become the 51st GOP seat," **said Laxalt.** *"Tulsi Gabbard saw that our country was headed in the wrong direction under the control of the Democrat Party and made the brave decision to walkaway from their party. I am honored to have Tulsi Gabbard's support in this race and I look forwarding to campaigning with her on the trail in Las Vegas this week."*

Watch Tulsi Gabbard's Endorsement of Adam Laxalt Here

"Aloha Las Vegas! Or as the people of Hawai'i call you, our "Ninth Island." I am former Congresswoman, Tulsi Gabbard. I left the Democrat Party because it's been taken over by woke ideologues who demonize police, back open borders, and believe biological men should compete in women's sports. Sadly, your Senator, Catherine Cortez Masto, has gone along with all of it. She's Joe Biden's rubber stamp in the Senate, voting with him nearly 100% of the time.

That's why I'm supporting Adam Laxalt. Adam will do what's right for Nevadans -- not what whatever Biden and the woke left demand. Like me, Adam is a veteran who served overseas. Nevada law enforcement supports him. And he's focused on bringing down the cost of gas and groceries.

Vote for Adam Laxalt for U.S. Senate to help get our country back on the right track."

Adam Laxalt and Tulsi Gabbard will be hosting a rally in Las Vegas this Friday, October 28th. Doors open at 3:00 PM & event starts at 4:00 PM. Details can be found here.

All media MUST RSVP at press@adamlaxalt.com in advance to be credentialed and admitted into the event. Space is limited.

Teachers often are asked, “What is technical writing, and how does it differ from written communication taught in traditional composition classes?”

To answer those questions, this chapter defines technical writing and stresses the importance of technical writing in business and industry.

An analogy: List different types of shoes you own, such as boots, loafers, tennis shoes, bedroom slippers, and dress shoes. Why do you own such diverse shoes? The answer is obvious; each type of shoe serves a unique purpose. You would not wear dress shoes to shovel snow nor tennis shoes to a wedding. The same holds true for writing. One type of writing does not fit all purposes. No one would write poetry, essays, or diary entries at work. On the job, you will need to use technical writing skills.

Technical Writing: A Definition

- Technical writing—communication for and about business and industry
- The focus—writing that conveys how products and services are
  - manufactured
  - marketed
  - managed
  - delivered
  - used

Technical writing is not an essay, poem, or journalistic article. Instead, technical writing is communication written for and about business and industry. It focuses on products and services.

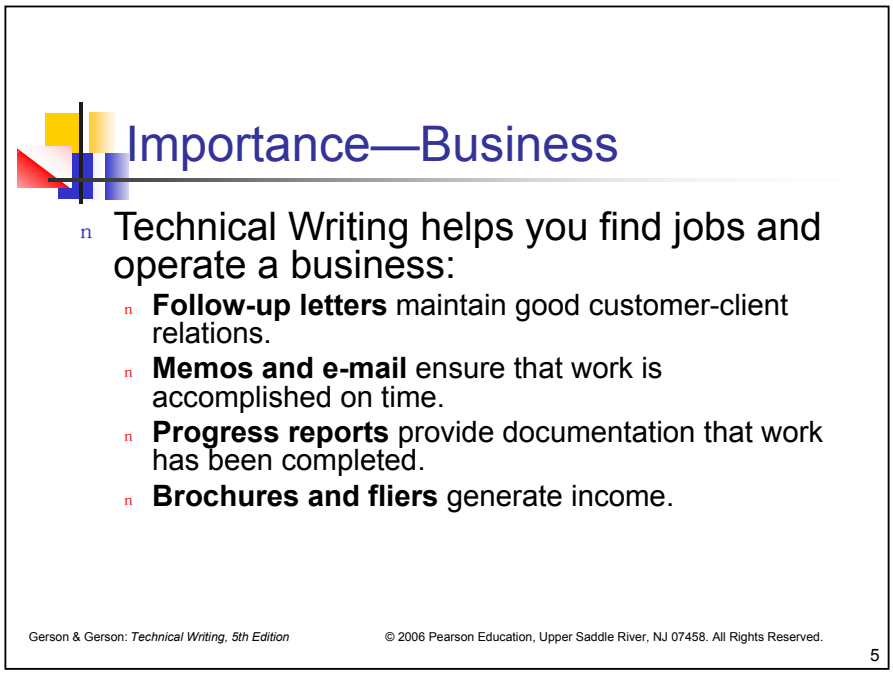
Additional Types of Technical Writing:

- **Resumes**
- **Online help screens**
- **User manuals**
- **Technical descriptions**
- **Newsletters**

AMERICAN OVERSIGHT



The Importance of Technical Writing

You probably have encountered people in business who have suffered due to their poor written and verbal skills. You have talked to people who were not promoted because their writing was flawed, or you have heard stories about bosses rejecting reports because of misspelled words. Similarly, you have received flawed correspondence from companies and conclude that such companies were either unprofessional or incompetent. In contrast, you have talked to employees who were praised and respected for their writing skills—they have earned promotions or been given more responsibilities due to their writing abilities.

You will be seeking employment, and companies want to hire employees who can communicate successfully. These corporations know that your writing skills are important.

Importance—Time

- You will spend around 30 percent of your work time writing.

7

Why is technical writing important in business?

Maintains good customer-client relations
Ensures that work is accomplished
Provides documentation
Generates income
Keeps machinery working
Ensures the correct purchase of equipment
Helps you get jobs
Lets participants communicate in teleconferences/videoconferences
Defines terminology
Informs a large audience about your products and services

Memos? E-mail? What is the Difference? (cont.)

TABLE 5.1 MEMOS VERSUS E-MAIL MESSAGES

Characteristics	Memos	E-mail Messages
Destination	Internal: correspondence written to coworkers within a company.	Internal *and* external: correspondence written to friends and acquaintances, coworkers within a company, and clients and vendors.
Format	Identification lines: Date, To, From, Subject. Options include cc (complimentary copy), Ref (reference), and Distribution (other recipients of the memo).	Identification lines: To and Subject. The Date and From are computer generated. Options include cc (complimentary copy), Ref (reference), and Distribution (other recipients of the e-mail message).
Audience	Generally specialists and semi-specialists within the company.	Multiple readers due to the internal and external nature of e-mail.
Topics	Company related, allowing for abbreviations and acronyms due to well-informed audience.	A wide range of diverse topics determined by the audience.
Tone	Determined by audience: can be informal when written to coworkers; might be more formal when written to management.	A wide range of tones due to diverse audiences. Usually informal when written to friends, informal to coworkers, more formal to management. The largest challenge involves multicultural readers.

Memos? E-mail? What is the Difference? (cont.)

TABLE 5.1 MEMOS VERSUS E-MAIL MESSAGES

Characteristics	Memos	E-mail Messages
Speed or Delivery Time	Determined by a company's in-house mail procedures. Memos could be delivered within hours or days.	Often instantaneous, usually within minutes. Delays can be caused by system malfunctions or excessively large attachments.
Attachments	Hard-copy attachments can be stapled to a memo or enclosed within an envelope. Size is not an issue. Complimentary copies can be sent to other readers by way of the company's mail system.	Computer word processing files, HTML files and Web links, PDF files, RTF files, or downloadable graphics can be attached to e-mail. Complimentary copies can be sent to other readers. Size of these files is an issue, because large documents can crash a reader's system. A good rule of thumb is to limit files to 750 Kilobytes (K).
Length	A typical memo is no longer than one printed page ($8\frac{1}{2} \times 11$ inches).	An effective e-mail message is limited to one viewable screen (requiring no scrolling).
Security	If a company's mail delivery system is reliable, the memo will be secure. Memos can be delivered within a sealed envelope. No one else will see the memo unless the reader or writer shares it.	E-mail systems are not secure. E-mail can be tampered with, read by others, and sent to many people. E-mail stays within a company's computer backup system and is the property of the company. Therefore, e-mail is not private.

Memos (cont.)

- Memo Style
  - Generally more casual than letters. Memos are internal correspondence written to people with whom you work.
  - Determined by audience, topic, and purpose
    - A memo written up to management might be more formal than one written laterally to co-workers.
    - A memo written to deny a raise request would be more formal and less friendly than a memo written to report a promotion.

- Why E-mail is Important—look at the facts:
  - 96% of business employees report using e-mail everyday.
  - 80% of business employees say that e-mail has replaced airmail.
  - 72.5% of business employees say that e-mail has replaced faxing.
  - 45% of business employees say that e-mail has replaced telephone calls.
  - 66 percent of business employees say that they are “e-mail only communicators.”

E-mail Importance (cont.)

- E-mail has these benefits:
  - Saves time
  - Is convenient
  - Can be written internally and externally
  - Is more cost-effective than “snail mail”
  - Leaves a paper trail for documentation
  - Allows for expanded discussions by multiple readers

NOTE:

Why write a rough draft for e-mail?

E-mail is quick and easy to write—that's **good** and **bad**.

Writing e-mail online provides ease and speed, but that can lead to carelessness.

Try writing the message in a word processing package. Then copy and paste the text into your e-mail.

This gives you time to ensure correctness.

ELECTION OFFICE CONTACT INFORMATION UPDATES

As Election Day approaches, we are once again asking for your assistance in verifying the contact information for your state's election offices posted on our website here: https://www.fvap.gov/search-offices. We really appreciate your help this summer as well as your assistance in keeping us updated of changes over the course of the election cycle. If any contact information has changed please reach out to us with the necessary edits at vote@fvap.gov.

FVAP TO RELEASE ADDITIONAL TRANSLATED MATERIALS

Translation Image

In 2020 FVAP made translations of the section-by-section FPCA and FWAB fact sheets available in Spanish, Portuguese, French, and Arabic. This year we are expanding the scope and number of translations available.
We plan to post bilingual versions online of the actual FPCA and FWAB forms in October in the above languages as well as Korean, Chinese, and Vietnamese.

An additional four fact sheets discussing ADM voting residency, residency for overseas citizens, information for eligible military family members, and common UOCAVA voting questions will also be translated into all the languages above.

You can find the current fact sheets here in pdf format: https://www.fvap.gov/eo/overview/materials/forms.

Additionally, this year we added a translation feature to our website, in the top right hand corner of FVAP.gov.

ABSENTEE VOTING WEEK 2022

This year's Absentee Voting Week is scheduled from October 1 through October 8, 2022. The FVAP, in coordination with the military services, the US Department of State, and other federal agencies will send out messaging to help ensure UOCAVA voters are aware that they should return their requested state ballot as soon as possible to ensure time for it to arrive at their election office by the deadline to be counted. Additionally, the time is used to educate voters on the availability and proper use of the Federal Write-In Absentee Ballot as a back-up ballot for use to vote in elections for federal offices.

Every year, we see Voting Assistance Officers holding unique outreach and successful tabling events at installations, embassies, and consulates around the world. Election officials can contact their local Installation Voter Assistance Offices (IVAO) to organize or assist a voter registration tabling event on post to help inform
Active duty voters and their family members about the voting process regardless of whether they qualify under UOCAVA or will need to vote locally. You can find your local IVAO contact information here: https://www.fvap.gov/info/contact/iva-offices.

FVAP'S CALENDAR ALERTS FOR UOCAVA VOTERS

FVAP has downloadable Google calendars with federal office election dates and deadlines for each state and territory. Each

election dates and deadlines for each state and territory. Each of the 55 calendars for the 2022 election cycle contain state-specific information regarding ballot request and ballot return methods. Voters can easily download their state or territory's calendar for synchronization with their mobile or desktop device. Once downloaded, voters receive automatic updates to their calendars when any the provided information changes. Voters can download these alerts from our website: https://www.fvap.gov/calendar-alerts.

UOCAVA TRAINING FOR ELECTION OFFICE STAFF

As many election offices are bringing on new full-time and temporary staff this election year, FVAP.gov hosts an online training module for staff who will be assisting UOCAVA voters. This 30-minute training can also serve as a good refresher for more seasoned staff. The training is available by visiting our website here: https://www.fvap.gov/eo/training. Additionally, FVAP will begin reaching out to you all in the new year to offer FVAP staff in-person training at upcoming meetings and conferences as we prepare for the 2024 election cycle.

If you have any questions, feedback, or recommendations for the online training module, please reach out to FVAP so we can assist.

MATERIALS TO HELP YOU REACH YOUR UOCAVA VOTERS

If you are looking for marketing materials specific to UOCAVA voters, look no further than FVAP.gov. We provide a number of fact sheets, posters, brochures, infographics, and PSA videos on our website: https://www.fvap.gov/info/outreach. Additionally, we provide "toolkits" for social media which include: shareable graphics and template short-form posts for social media (Facebook, Instagram, LinkedIn, Twitter, etc.), long-form post content for blog, message board or LinkedIn, and content for your newsletter or website.

Wallet Card Image

These tools are available for you to download, print, localize, and share as you see fit. We are always looking for ways to improve voter success through information, so let us know if there is anything that would further your ability to reach UOCAVA voters.

HOW TO REACH FVAP

The FVAP call center remains a resource for all election officials, including questions about any of our resources for election officials. FVAP can help you sort out the nuances surrounding UOCAVA requirements and are always happy to share resources. The Call Center is available Monday to Friday, 8:00am – 4:00pm EST and can be reached at 1-800-438-8683 or by emailing vote@fvap.gov.

LP's Message >>>-----

Hi Austin,

As Kevin had mentioned, we are happy to share that Renown and Cigna have reached an agreement on a new contract, assuring that Storey County employees and their dependents will continue to have in-network access to all Renown hospitals, facilities and physicians.

Attached you will find an updated communication with the most recent news regarding the Cigna/Renown contract agreement.

Let me know if you have any questions or need anything else.

AMERICAN OVERSIGHT

UPDATE: RENOWN V. CIGNA HEALTH INSURANCE DISPUTE

Please accept this update regarding the Renown v. Cigna contract dispute matter. We have been in contact with LP Insurance – our broker – who is communicating directly and regularly with Cigna. Nothing significant has changed thus far,**and the November 1 date by which Renown may no longer be on our plan may still happen**. We are informed that these types of disputes often last until midnight or later on the last day of a contract. Therefore, we may not have an answer until then.

Please contact Kristie from LP Insurance ASAP if you have a major situation requiring your Renown provider.
Contact:kristie.martin@lpins.net or 775.996.6049.

We will update you periodically between now and October 31, even if not much is yet known.

Please don't reply-all. Thank you for your patience.

Importance: High

Storey County Health Insurance Notice:

Renown (hospitals, urgent cares, providers, etc.) MAY no longer be in-network or covered at all by Storey County insurance beginning November 1, 2022. Contract dispute negotiations between Cigna and Renown areoccurring.

Please see the attached notice from LP Insurance. You will likely receive additional communication directly from Renown and Cigna regarding the dispute. Storey County has no control over this.

We are monitoring this closely and will update you immediately with new information.

Please prepare accordingly in case Cigna and Renown do not arrive at an agreement by November 1 (October 31 would be last day of Renown coverage).

The attached flyer includes a link to help locate alternative/non-Renown providers, and it contains contact information for Kristie Martin at LP Insurance who is available to assist. Please don't hesitate to reach out to Kristie with any questions or to request assistance.

October 4, 2022

Ms. Trisha Osborne, Assistant Commission Secretary
Public Utilities Commission of Nevada
Capitol Plaza
1150 East William Street
Carson City, Nevada 89701-3109

RE: Docket No. 20-06019 - Application of Sierra Pacific Power Company d/b/a NV Energy, under the provisions of the Utility Environmental Protection Act, for a permit to construct the South Reno Second Source Gas Project consisting of a 16-inch diameter steel high pressure distribution gas pipeline totaling 16 miles and multiple pressure regulating stations to be located in Storey and Washoe Counties, Nevada.

Dear Ms. Osborne:

On June 11, 2020, Sierra Pacific Power Company d/b/a NV Energy (the "Sierra") filed with the Public Utilities Commission of Nevada ("Commission") its application under the provisions of the Utility Environmental Protection Act ("UEPA"), for a permit to construct the South Reno Second Source Gas Project ("Project") consisting of a 16-inch diameter steel high pressure distribution gas pipeline totaling 16 miles and multiple pressure regulating stations to be located in Storey and Washoe Counties, Nevada ("Application"). The Application was designated as Docket No. 20-06019. On August 27, 2020, the Commission issued an Order conditionally approving the Application, subject to the satisfaction of all compliance items.

NRS 704.860(3) defines "Utility Facility" subject to the UEPA provisions as "gas transmission lines, storage plants, compressor stations and their associated facilities when constructed outside any incorporated city." The Company's Project is a high-pressure distribution gas line, not a gas transmission line. Thus, it does not meet the definition of "Utility Facility" and is not subject to the UEPA provisions.

The Company filed the Application out of an abundance of caution due to potential future use of the Project, but has since determined the project is solely distribution and that a UEPA permit to construct was and is not necessary to construct the project. See Attached National Registry Notification with the U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration designating the Project as gas distribution. Therefore, Sierra requests that the Application filed in Docket No. 20-06019 be withdrawn.

Should you have any questions regarding this filing, please contact me at 775-834-5678 or at timothy.clausen@nvenergy.com.

Sincerely,

/s/ Tim Clausen

The series of questions under this STEP 3, Question 3 should be completed for each of the following facility types as selected in STEP 3, Question 1: Gas Distribution, Gas Gathering, Gas Transmission and Hazardous Liquid.

For Gas Distribution, the pipelines and/or facilities covered by this notification are:

3a. Approximate number of regulated miles of Mains: **16** miles

3b. List all of the States in which these Mains are physically located:

State 1:	**NV**	Miles:	**16**

3c. Facilities:

State 1:	**NV**	Description:	**3 - Natural Gas Regulating Stations**

Step 4. Provide a brief and general description of the pipelines and/or facilities covered by this notification:

In addition to the information provided below, Operators are encouraged to provide a general overview map (or maps) depicting the approximate geographic location of the pipelines and/or facilities covered by this notification.

Gas Distribution Comment:	**Project to construct approximately 16 miles of 16-inch FBE steel distribution main from the Frank A Tracy Power Generation Plant in McCarran, NV to southeast Reno, NV. This project will have 3 gas regulating stations at the beginning, midpoint, and endpoint to provide different pressures to local communities along the pipeline. The midpoint station will convert an existing propane distribution system to natural gas. The MAOP of the pipeline will be 320 PSI and will operate under 20% SMYS. Construction will take place in 3 phases. Phase 1 will include beginning regulating station, 9 miles of 16-inch pipe, 2,500 feet of 8-inch pipe, midpoint regulating station, and conversion of propane to natural gas community. The operational startup will be as noted in Type F section. Phase 2 and Phase 3 will be constructed after phase 1 and will have a anticipated operational start-up date of March 15, 2023. These phases will have 7 miles of 16-inch pipe and the ending regulating station.**

October 4, 2022

Ms. Trisha Osborne, Assistant Commission Secretary
Public Utilities Commission of Nevada
Capitol Plaza
1150 East William Street
Carson City, Nevada 89701-3109

RE: Docket No. 20-06019 - Application of Sierra Pacific Power Company d/b/a NV Energy, under the provisions of the Utility Environmental Protection Act, for a permit to construct the South Reno Second Source Gas Project consisting of a 16-inch diameter steel high pressure distribution gas pipeline totaling 16 miles and multiple pressure regulating stations to be located in Storey and Washoe Counties, Nevada.

Dear Ms. Osborne:

On June 11, 2020, Sierra Pacific Power Company d/b/a NV Energy (the "Sierra") filed with the Public Utilities Commission of Nevada ("Commission") its application under the provisions of the Utility Environmental Protection Act ("UEPA"), for a permit to construct the South Reno Second Source Gas Project ("Project") consisting of a 16-inch diameter steel high pressure distribution gas pipeline totaling 16 miles and multiple pressure regulating stations to be located in Storey and Washoe Counties, Nevada ("Application"). The Application was designated as Docket No. 20-06019. On August 27, 2020, the Commission issued an Order conditionally approving the Application, subject to the satisfaction of all compliance items.

NRS 704.860(3) defines "Utility Facility" subject to the UEPA provisions as "gas transmission lines, storage plants, compressor stations and their associated facilities when constructed outside any incorporated city." The Company's Project is a high-pressure distribution gas line, not a gas transmission line. Thus, it does not meet the definition of "Utility Facility" and is not subject to the UEPA provisions.

The Company filed the Application out of an abundance of caution due to potential future use of the Project, but has since determined the project is solely distribution and that a UEPA permit to construct was and is not necessary to construct the project. See Attached National Registry Notification with the U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration designating the Project as gas distribution. Therefore, Sierra requests that the Application filed in Docket No. 20-06019 be withdrawn.

Should you have any questions regarding this filing, please contact me at 775-834-5678 or at timothy.clausen@nvenergy.com.

Sincerely,

/s/ Tim Clausen

Anne & Austin:
Attached are two files, the first is a blank Annual List of Public Officers that we will complete and send back to the SoS, and the second is the Annual List the County filed last year. The County's submission for this year is due next week - 12/1.

I just wanted to investigate with the two of you the process by which this form was completed in past years. While it is clear that it should be produced from the Clerk's Office, have your offices been involved in the collection, preparation and final review before the document is sent to the SoS? In addition to the Clerk's Office, does HR maintain a current list of public officers for the various Offices, Agencies, and Boards in the County? I invite your input and suggested process and direction.

Subject: 2023 Annual List of Public Officers

Good morning,

Pursuant to Nevada Revised Statutes 281.574(1), a list of all public officers in your respective jurisdictions who are required to file financial disclosure statements is due annually to the Secretary of State's office on or before December 1st, 2022. I have attached our prescribed form and would request that all completed annual list forms be returned to me by replying to this email. I would request that you do not alter the formatting of this form.

For those who have already emailed me their Annual List of Public Officers, please disregard.

Should you have any questions related to completing this form, please do not hesitate to contact me.

Thank you!

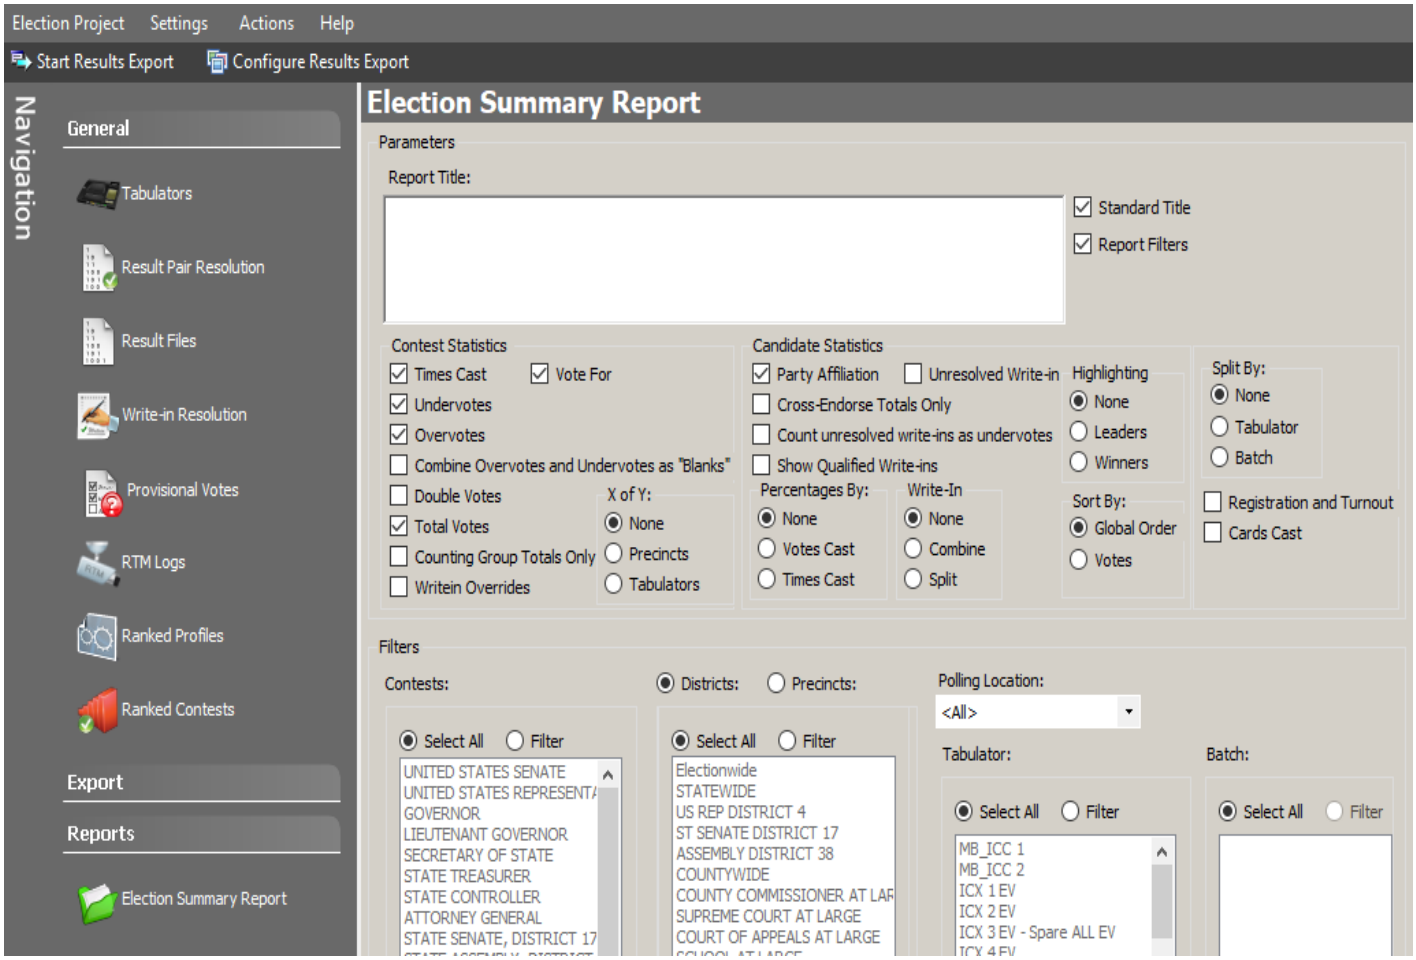
Subject: FW: [EXTERNAL] SOS Reporting for 22G Election Night for your review
Attachment(s): "TESTElectionSummaryReportRPT.pdf"

Happy Election Day!

Following up on the election night reporting instructions from the SOS, below is a screenshot of the settings to select when creating the PDF Summary File so the format includes all the required info. Choosing**None** for **X of Y** will ensure the number of precincts do not display. Attached is an example of the report created using these settings.



Thanks,
MEGAN BERG |MANAGER,CUSTOMER SUCCESS

DOMINION VOTING SYSTEMS
1.866.654.8683 | DOMINIONVOTING.COM

IMPORTANT: Only **Summary Files** are uploaded on election night.

- All counties will report to Heather Hardy when polls close
  - All counties must upload at least a minimum of one results file by midnight to IPSwitch (directly in the 2022 General Election folder)
  - Results files must include:
    1. PDF Summary file – has results by party and contest, used by SOS to reconcile data published on ENR
       - NOTE: counting groups/vote types will be **Mail, Early Voting, and Election Day**
    2. Summary.txt results file – this is the actual file SOS IT uses to populate ENR website
  - Both files must be saved in IPSwitch use the following naming convention:
    - Example: Clark2022GenSummary01
      Clark2022GenSummary02
      Clark2022GenSummary03
  - **DO NOT** include the number of precincts in your reports (see bottom of document for Dominion instructions to turn off precincts reporting)

AMERICAN OVERSIGHT

Uploading Results

- Continue using the same naming convention you did on Election Night and upload new results files (.txt file and pdf) to IPSwitch each day, or as needed, until you're done counting all ballots received by close of business on November 14th
- Call/Email Heather whenever new results are uploaded to IPSwitch
- Heather will notify counties if the file is bad, otherwise the file is good
- This process continues until you have finished tabulating all ballots received through the General Election
- When you upload your last file, notify Heather that it is your **FINAL** file and label it "*County*2022GenSummary**Final**"
- **The FINAL files should show all precincts reporting (to indicate that all ballots have been counted in all precincts)**

Dominion Instructions to Turn Off Precincts Reporting

- Open RTR
- Select Tabulators on the top of the left navigation pane.
- Highlight all ICC tabulators
- Click "Open"
- Re-run the Summary File Export by selecting the Start Results Export button on the top left corner of the RTR screen
- These steps will have to be done to "Close" all tabulators when all official ballots have been scanned.

Hi John:
Indeed, I would like to go over an account review and discussion. I am in the middle of elections today and tomorrow, but am available Thursday morning. Otherwise, next week, the 17th or 18th works for me as well.

Currently, my access to CEO is set, but I am still not able to manage Purchase Cards in WellsOne Expense Manager as an administrator or access card info from my dashboard. I think this is an Amanda issue, right? I received notice I have access to my specific card account, but it is a whole new user name/password set-up. There must be a way I can get that consolidated with my main account?

Working with Yolanda, there are still a couple of little admin functions in CEO that are not quite right – "Wires Home" being one. I have the ability to do a write transaction as long as it confirms with an existing template. I do not have the ability to create a new wire transaction or template.

Those are just the main issues I have, and I continue to try and "click" around to find info and learn how to do the actions I need.

I look forward to more direction from you, Luke and others.

Cheers,

Hello Jim,

Hope you had a nice weekend!

Wanted to follow up on this email. I know you are very busy but did want to get with you on the ATM/Night Drop changes coming up at least. Let me know what might be good for a call and/or relationship review if it all works.

Thank you!

Hope your week is going well!

AMERICAN OVERSIGHT

I wanted to see if you have some time over the next week or two for a call for us to review your banking relationship. I also want to talk with you on some changes regarding the night drop location in Virginia City.

Luke Boan from our treasury team will join us on the call as well. Let me know maybe a few dates and times that would work for you and I can coordinate for us.

Thank you very much Jim!

Jim Hindle is an official signer as far as Wells Fargo is concerned. We are still waiting to hear that Tyler has the signature on the checks. So, if we do not get confirmation from Tyler soon, the checks will print with only my signature. Jim you will have to manually sign the checks this week. At least it is payroll week and there are significantly less checks than payable week. Fingers crossed Tyler get this on before payables.

I'll keep you posted.

AMERICAN OVERSIGHT

Meeting Date: 11/15/2022

Estimated Time Required: 5 minutes

Agenda Item Type: Discussion / Possible Action

Title:

Consideration and possible approval directing the Recorder to sign the of agreement with Tyler Technologies Inc. (Tyler) Service Agreement whereby the Eagle Recorder software, utilized by the Recorder's and Clerk's offices, will be moved from on-site to a data server hosted by Tyler. to move from an on-premise environment to a hosted environment in the annual amount of $27,663.00 for the one five year term of the contract and a one-time fee of $9,000.00

Short Title:

Tyler Eagle Recorder Software – Move to the cloud / hosted environment

Recommended motion:

I, Commissioner_____, approve directing the Recorder to sign the Tyler Service Agreement to move the Eagle Recorder software from an on-premise environment to a hosted environment in the amount of $27,663.00 annually with a one-time fee of $9,000.00 and authorize the Recorder to sign.

Prepared By: Dru McPherson

Staff Summary:

This project will take the Eagle Recorder software, which includes Clerk and Recorder functions, from being housed locally and maintained by Storey County IT to a Tyler hosted environment.

The Clerk and Recorder's Offices request the first-year payment of $21,971.88 from the Capital Improvement Software Fund to account for this non-budgeted item. The Recorder's Office Tech Fund will contribute up to $9,000 as the implementation fee for the project, billed throughout the transitionary period as needed.

If signed, this contract locks in our new annual rate of $27,663.00 for a 5-year period, which the Clerk and Recorder's Offices will split as budgeted items moving forward.

This is an increase from our current annual Tyler Eagle Recorder support amount of $20,644.93, but will save the county in purchasing hardware, support costs, and licensing.

This financial arrangement has been approved by Comptroller Jennifer McCain. IT Director James Deane supports the project from a technological and cost-saving standpoint.

Justice - per the email below: I just want to confirm that the email Mr. Poston received was indeed confirming that a new mail ballot was sent out to him? No one in our office processed a mail ballot or replacement ballot to Mr. Poston, and he is on our record as a person who filed an opt-out request. Can you help me clarify why he got this message so I can respond?

I have requested that no ballot be mailed to me, and I have not received a ballot.

Does the BallotTrax notification mean that a ballot has actually been sent to me and is loose somewhere out there? Or is the message mistaken?

Hello, my name is Brittany Haugen, dob 03 09 1987 I just received a bench warrant in the mail. I've called previously and was in carson city jail at the time and was released the day after I had court scheduled there. When I spoke with someone on the phone there, I was told to send proof of insurance, reg and my dmv appt for my license. The car hasn't been registered or insured as it's been broken down and can't be driven. Attached is the appt. Confirmation from july for the written, I haven't made the appt for the driven, as I was in jail in Lassen County and was just bailed out last Wednesday. And am awaiting court this Wednesday. What do I need to do to get this squared away without having to be arrested and interfering with my court dates and times upcoming? I'm doing everything within my power to correct and change my life, I need to take care of this.

FYI – here was the email to Dore explaining the business rules set in the Chart of Accounts for the Fire District.

Per your request, we will remove the business rules from the Fire District and reset it to how it was originally set up, which we can see if we change the year in the Chart of Accounts to 2020. Jim, we will take care of this next week so when you distribute for the month of October this will no longer be in effect.

Please let me know if you have any questions.

Hi Dore,

I tried reaching out to the office but was told that you were not in.

I heard back from the programmer who wrote the business rule that begins with "GEN". Anything using the "GEN1" is**not** within Tax District 122 and anything using the "GEN2" is within Tax District 122. The CY/PY designations are for current year, prior year, and prior year +1 and you can see that your account numbers change. We were never told a "percentage", but to just use the tax districts for the parcels. This has been set up for both Real and Personal Property.

I've been working with the Trail Court Help Desk to get access to CourtView. I can login through Citrix Gateway portal but when I try to download the CourtView app it says that the app can't be downloaded securely (in the Chrome and Edge download window). Is there something in the firewall prohibiting the app download, or is this a function of the same problem we are encountering with my updating Java and Bitdefender?

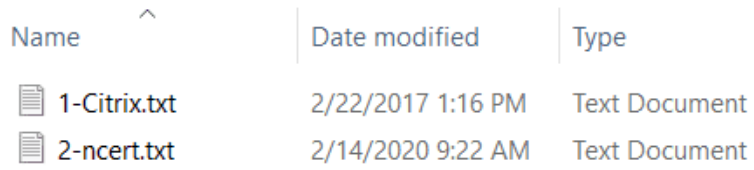
How to email Citrix Certificates

When you email the certificates, the extension needs to be changed from *.cer to *.txt so email won't block the attachments. Then after the user downloads the files, they need to be renamed back to *.cer in order to install them.

Here is more detail if you need to provide it to a user.

1. Download the files. They will look like this.



2. Rename both files so the extension is .cer.

If you can't see the extensions, got to the View tab in File Explorer, select Details and check "File name extensions" box. (This will look different for older versions of Windows.)

Subject: CNN Public Records Request -- 9.22.22

Hello,

My name is Curt Devine and I'm with the news network CNN. I'm writing because my colleagues and I wanted to submit a records request for the Clerk's Office related to voting machines.

Pursuant to the Nevada Public Record Law, CNN requests access to and copies of any emails sent by then-Clerk Doreayne Nevin between May 1, 2022 and September 9, 2022 in which any of the following terms are referenced in the body of those emails: "Dominion" or "voting machines" or "Hindle" or "Marchant".

Given the public interest in this matter, if there is any way to expedite the processing of this request, that would be appreciated.

If you have any questions on this, please feel free to give me a call.

Thank you very much,

AMERICAN OVERSIGHT

Hi Doreayne,

In January, Nevadans will welcome a new Governor. You may be wondering what that means for our collective bargaining agreement and current negotiations on our next contract.

AFSCME Local 4041 members fought for years to win collective bargaining rights for this reason – our ability to improve our lives, working conditions, and the services we provide is defined by our ability to negotiate, not who is in the Governor's office.

In the years before collective bargaining, state employees were dependent on the good will of elected officials. But with collective bargaining, our futures are in our hands.

Now, more than ever, we must build a strong union to enforce our contract, including wage agreements, and to continue to improve working conditions for all state employees.

Click here to learn more about the AFSCME difference.

Negotiations for the next contract for certified bargaining units are moving forward. This week, we submitted a proposal on compensation, which we expect a long discussion that will take place early next year when the legislative session begins.

We did, however, recently come to a tentative agreement on the following:

- Classifying mental health as a covered reason for medical leave
- Keeping premium and shift differential pay while on administrative leave during an investigation process
- Clarifying language on personal days to include all hours for extended shifts (10 hour days, etc)
- Expanding access to personal days, no wait period on using your personal days regardless of date of hire

While we await additional discussion on compensation, we must continue to build our union power. Our ability to negotiate a strong contract and substantial wage increases is impacted by the strength of our union.

If you are not a union member,**click here to join!**

In solidarity,

AFSCME Local 4041 Bargaining Team

Hi Jim,
I will get you a proof going tonight to review. Most people in the county get 1000 cards which runs $50.
The front side of the cards are gloss, but the back is matte paper so its perfect for writing.
Thanks

Hi Nick! Thanks for the assistance.

At this time, I do not have a cell number to put on the card. We'll see if that changes in time, but can always write it on the card to make the recipient feel special, right?

Nick – what is the typical quantity ordered?

Look forward to your response and direction; … and, Jessie thanks for facilitating.

Cheers!

Subject: Contact for Name Cards?

Hi Jess!
I was told that Nick is the go-to person for Storey County name cards, is that correct? Would be kind enough to tell me how to get ahold of Nick to order name cards?
Thanks much,
Jim

Hi Dore,

Good afternoon! I am requesting an updated file for 9/23/22 Friday . If the office is closed on Friday, please send the file on 9/26/22 Monday. An updated file with the most recent postdate will eliminate payment shortage and refund issues, etc. Thanks.

DevNet file - create the monthly file that has both CY and PY data in the file.

Please send the file in DevNet format .txt.

I appreciate your help. Thanks.

Please email file to: westda@corelogic.com

Brian – I might have need for your guidance once more this afternoon. Per the message below, Mabel is looking for an export file. She is going to send me a past example. I know this is something that Roxane and I were going to do last week and it escaped us. Would you be able to walk me through this in a little bit?
Thanks for the help!

Hi Jim,

Good afternoon! Please send the file in DevNet – current and prior year file.

I am still looking for the last file Dore sent. Below is a screenshot from Nye County NV, which also have the DevNet format file. I hope this helps.
