Subject: RE: HELP- Travel moratorium?

We haven't received any notification of this. If and when we do, it will go out to everyone, just like during a hurricane.

Additionally, this was shared Friday, 3/13/20, which I trust you received.

From: DOH COMMUNICATIONS OFFICE
Sent: Friday, March 13, 2020 9:20 AM
Subject: Travel Restrictions for Employees of the State Personnel System (COVID-19)

Since the first two presumptive positive cases were identified in Florida on March 1, 2020, Governor DeSantis has proactively and aggressively prepared the state to combat Coronavirus Disease 2019 (COVID-19). The Governor's top priority is the health, safety and welfare of all Floridians.

Governor DeSantis directed the Department of Management Service to provide the following direction to all employees in the State Personnel System:

Business

- All non-essential in-state and all out-of-state travel for state business is prohibited for the next 30 days.
- Florida National Guard, state Law Enforcement, state Emergency and Medical personnel are allowed to travel if the travel is deemed mission critical and is specifically approved by the agency head.
- Employees should avoid, when possible, attending large gatherings.
- Videoconferencing and virtual meetings are encouraged in lieu of travel.

Personal

- When on personal travel, state employees should follow CDC best practices for prevention and treatment of COVID-19, especially employees who are considered at-

AMERICAN OVERSIGHT

risk or who have dependents or care for those with underlying conditions or vulnerabilities.

- State employees who personally travel internationally will not be allowed to return to work for 14 days upon returning to the United States. Employees will need to utilize their available sick, annual or personal leave during this 14-day period. Employees who can work remotely may be able to so in consultation with their supervisor. Employees without available leave or access to a sick leave pool, and who are unable to work remotely, may be subject to leave without pay.
- State employees who personally travel on a cruise or to an area of the United States experiencing community spread of COVID-19 as identified by the Centers for Disease Control and Prevention or a state public health agency will not be allowed to return to work for 14 days upon returning home. Employees will need to utilize their available sick, annual or personal leave during this 14-day period. Employees who can work remotely may be able to so in consultation with their supervisor. Employees without available leave or access to a sick leave pool, and who are unable to work remotely, may be subject to leave without pay.

This travel policy applies to all employees of the State Personnel System, including the heads of executive agencies. Please consult your supervisor/HR Office and your agency's telework and leave policies for guidance regarding your specific situation.

Joint Information Center on COVID-19 for the State of Florida

FOR IMMEDIATE RELEASE
March 14, 2020

Contact: Joint Information Center on COVID-19 for the State of Florida
(850) 815-4940, ESF14@em.myflorida.com

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

During a press conference on Friday, the Governor provided several updates on Florida's efforts to respond to COVID-19:

- Governor DeSantis announced 1,000 additional COVID-19 test kits have arrived in Florida for distribution to labs across the state.
- As a result of the increase in Broward County cases, the Governor directed Director Moskowitz to expand his emergency order and prohibit all visitation to nursing homes, assisted living facilities, adult family-care homes, long-term care facilities and adult group homes in Broward County for 30 days.
- Governor DeSantis will be activating a limited number of members of the Florida National Guard that will stage in Camp Blanding to prepare to deploy to any area of the state on a moment's notice.

Governor DeSantis has recommended that local authorities strongly consider canceling mass gatherings and follow Centers for Disease Control and Prevention (CDC) guidance. CDC has issued recommendations for implementation of mitigation strategies in Florida, including recommendations to cancel large gatherings of more than 250 people and smaller gatherings that may bring persons together from multiple parts of the country.

Florida Department of Education Commissioner Richard Corcoran has provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. In addition, the

AMERICAN OVERSIGHT

Department of Education announced that the start of state testing will be delayed by a minimum of two weeks.

On, March 12, Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.

On March 11, Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

AMERICAN OVERSIGHT

**Definition of travel-related: A known history of exposure to COVID-19 outside of the state.

International Travel

U.S. Department of State – Global Level 3 Health Advisory

The U.S. Department of State advises U.S. citizens to reconsider travel abroad due to the global impact of COVID-19. Many areas throughout the world are now experiencing COVID-19 outbreaks and taking action that may limit traveler mobility, including quarantines and border restrictions. Even countries, jurisdictions, or areas where cases have not been reported may restrict travel without notice.

CDC Guidelines

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3 Travel Advisory:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 Travel Advisory and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and they should call ahead to a health care professional or their county health department before seeking treatment.
    - According to CDC, a cruise ship is defined as a passenger vessel involving the movement of large numbers of people in closed and semi-closed settings.

- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact, unless they are experiencing an emergency.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

AMERICAN OVERSIGHT

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise or tour on the Nile River in February or March 2020 to self-isolate for 14 days following their date of return to the United States, and if ill, immediately contact their CHD or health care provider. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including 11 positive cases in Florida.

Port Everglades Advisory

The Department, through an extensive epidemiological investigation, has identified four positive COVID-19 cases associated with Port Everglades in Broward County, Florida. All three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades.

- The Department recommends all individuals experiencing symptoms who have recently traveled through Port Everglades to immediately contact their CHD or health care provider and self-isolate for 14 Days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the CDC on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their CHD or health care provider.

COVID-19 Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on

AMERICAN OVERSIGHT

objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility). A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the State has Taken to Prepare for and Respond to COVID-19

DEPARTMENT OF HEALTH

AMERICAN OVERSIGHT

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

AGENCY FOR HEALTH CARE ADMINISTRATION

- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.

AMERICAN OVERSIGHT

- AHCA submitted requests to the Centers for Medicare and Medicaid Services (CMS) for flexibility for Florida's program under the federal declaration of a state of emergency.
- Secretary Mayhew participated in a call with hospitals, laboratory administrators and associations regarding hospital testing.
- AHCA is working with nursing homes on recently released guidance further restricting visitor and vendor access to ensure the health and safety of facility residents.

AGENCY FOR PERSONS WITH DISABILITIES

- APD's chief of staff sent a directive to employees following Governor Ron DeSantis' guidance on travel which restricts individuals conducting international travel and those taking cruises from immediately returning to work. They will be required to self-quarantine for 14 days.
- APD is developing a Frequently Asked Questions document for providers and Waiver Support Coordinators related to COVID-19.
- Members of the APD Senior Leadership Team are holding daily meetings on actions, policies, procedures, and updates related to COVID-19.
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee are working very closely with their local health departments to enhance infection control measures.
- APD sent an updated visitor questionnaire for Adult Day Training facilities and Group Homes across the state to screen visitors prior to entering a facility. This visitor questionnaire will also be used for visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- DOEA Secretary Prudom held a conference call with The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors to discuss the suspension of face-to-face assessments. CARES assessors will provide reviews through phone or tele-technology to reduce client/staff exposure and reduce spread.
- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the provision on completing assessments for multiple program types, specifically for clients who have chosen to self-isolate.
- DOEA provided updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers, and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location

AMERICAN OVERSIGHT

for alternative services, provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment

AMERICAN OVERSIGHT

of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences.
- All FDVA and VA facilities remain fully operational.

VOLUNTEER FLORIDA

- Volunteer Florida is having preliminary conversations on the anticipated needs of volunteers. We are working together to plan for volunteers and develop volunteer safety guidelines to ensure that we are protecting our service providers (volunteers and clients).
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.
- Volunteer Florida participated in a statewide call with Supervisors of Elections to discuss Volunteer Connect (Florida's official volunteer opportunities) and how it can be used by offices to help recruit volunteers for Tuesday's primary.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: fldoe.org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- At this time, no Florida student has contracted COVID-19.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, their capacity to serve their students virtually to help meet and determine any preparedness needs.

AMERICAN OVERSIGHT

STATE UNIVERSITY SYSTEM

- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING - While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- All state universities have implemented campus-wide critical incident or emergency management teams that are meeting regularly to prepare for the impacts of the COVID-19 virus.
- All universities are preparing to transition to remote instructional delivery for a two-week period during March and early April, depending on each institution's Spring Break, and are informing students not to return to campus during this period.
- The Board of Governors will be conducting its March meeting via conference call and will not have a face-to-face meeting at USF as was originally scheduled.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.

AMERICAN OVERSIGHT

- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
    - Inmates will continue to have access to mail, email, phone calls and video visitation.
    - Legal visits will not be impacted.
    - FDC has partnered with vendors to provide some complimentary phone and video visitation services.
- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
    - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
    - Have had contact with someone who has been or is under investigation for COVID-19.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to this potential threat.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Florida Department of State's museum properties are taking precautions to ensure the health of visitors amid concerns of COVID-19. The Museum of Florida History has removed the guest sign in book; education staff members now record the visitor information. Museum staff members are cleaning all push buttons for life casts, dioramas, and other touchable exhibits as identified; sanitizing wheelchairs after every use; and wiping bench surfaces and survey podium with disinfecting wipes. Additional hand sanitizer dispensers have been placed at the entrance and exit of The Museum of Florida History. Further, the Museum has turned off touchscreen survey and is offering paper surveys. Finally, in an effort to ensure the continued health of our employees, Museum staff members are using disinfecting wipes on phones and keyboards and COVID-19 general prevention signs from the Florida Department of Health have been posted in shared staff spaces.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor Ron DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to renew or replace a driver license, ID card, motor vehicle or vessel registration, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor Ron DeSantis announced the activation of the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by the Florida Department of Economic Opportunity (DEO), will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement

AMERICAN OVERSIGHT

appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is assessing and reevaluating all tourism promotion messaging, both international and domestic, and is developing long-term strategies to keep Florida top-of-mind for potential vacationers.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19.
- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has published a resource page on its website emphasizing its direction to insurers and will continuously update the page with important insurance resources.

AMERICAN OVERSIGHT

- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
    - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
    - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
    - Work with public health officials to do everything possible to prepare and respond; and
    - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- FDLE Commissioner Rick Swearingen sent directions to all supervisors with information about sick or at-risk members, use of leave, telecommuting, business and personal travel followed by a message to all members.
- At the direction of Governor Ron DeSantis, FDLE is identifying conferences, meetings and other travel to be cancelled or postponed and working to receive reimbursements.
- FDLE is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols during a quarantine.
- FDLE has reviewed its COOP and identified members who can work from home. We ordered an increase in bandwidth and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida

AMERICAN OVERSIGHT

Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified our screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with our law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- DBPR shared information with all agency staff statewide pertaining to the declaration of a state public health emergency, state response protocols as ordered in EO 20-51, and FDOH information and resources available on the dedicated FDOH COVID-19 webpage. DBPR communication with staff has emphasized the best practices and preventive steps recommended by FDOH for impeding the spread of respiratory illnesses.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and providing assistance as requested of State Emergency Support Function 6.
- DBPR added a web banner with information on COVID-19 and link to the Florida Department of Health's dedicated COVID-19 webpage at http://www.floridahealth.gov/COVID-19.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and providing assistance as requested of State Emergency Support Function 6.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health

AMERICAN OVERSIGHT

emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- DMS' Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

(850) 815-4940, ESF14@em.myflorida.com

The State of Florida Issues Updates on COVID-19

The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Today, Governor DeSantis announced that the State has ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. Governor DeSantis has also recommended that local authorities strongly consider canceling mass gatherings. CDC defines a mass event or gathering as 1,000 individuals or more. Practically speaking, a mass gathering is a large enough assembly of individuals that will put a strain on local resources.

Yesterday, March 11, Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19.

On March 11, Governor DeSantis also directed the Florida Board of Governors to take action to prevent COVID-19 from spreading in Florida's State University System. Campuses remain open and operations will continue, although some adjustments will be made by each university. Actions Governor DeSantis directed State Universities to take include:

- Instructing all universities to make plans to transition to remote instruction as soon as possible;
- State universities with students who have returned from spring break should implement a process to transition to remote instruction immediately after students return from spring break, and encourage students to return home for at least 2 weeks;
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break;
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.

AMERICAN OVERSIGHT

- While students are encouraged to remain off campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.

On March 9, Governor Ron DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

New Positive Cases

- A 68-year old male in Seminole County has tested positive for COVID-19. He is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case and is associated with a Nile River cruise/tour in Egypt.

COVID-19 Cases

Florida Residents Diagnosed in Florida

27*	Seminole	68	Male	Yes

AMERICAN OVERSIGHT

* The Department of Health will confirm cases reported by commercial labs.
** A known history of exposure to COVID-19 outside of the state.

As an update to the ongoing epidemiological investigation in St. Johns County, it was determined that the individual who traveled to Florida from New York to attend Bike Week was isolated prior to attending the event. We are continuing to encourage Floridians to stay vigilant and advising Florida municipalities to consider limiting large gatherings.

Port Everglades Advisory

On March 12, the Department announced a new positive case of COVID-19 in Broward County. The Department, through an extensive epidemiological investigation, identified this new case as the fourth positive case of COVID-19 associated with Port Everglades in Broward County, Florida. Three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades. The epidemiological investigation for the fourth person connected to Port Everglades is ongoing.

- The Florida Department of Health recommends that all individuals experiencing symptoms who have recently traveled through Port Everglades immediately contact their County Health Department or health care provider and self-isolate for 14 days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the Centers for Disease Control and Prevention (CDC) on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their County Health Department or health care provider.

International Travel and Cruises Advisory

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3 Travel Advisory:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 Travel Advisory and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and they should call ahead to

AMERICAN OVERSIGHT

a health care professional or their county health department before seeking treatment.
    - According to CDC, a cruise ship is defined as a passenger vessel involving the movement of large numbers of people in closed and semi-closed settings.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact, unless they are experiencing an emergency.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise on the Nile River or tour in February or March 2020 to self-isolate for 14 days following their date of return to the United States. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including 11 positive cases in Florida.

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;

AMERICAN OVERSIGHT

- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the State has Taken to Prepare for and Respond to COVID-19

Department of Health

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.

AMERICAN OVERSIGHT

- Activated a dedicated incident command post for on-site response activities.
- Conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

AGENCY FOR HEALTHCARE ADMINISTRATION

- Secretary Mayhew participated in a press conference with Governor DeSantis, Lieutenant Governor Nunez, Miami-Dade leadership and health care leaders to provide COVID-19 updates, including information on the new screening requirements at nursing homes, assisted living facilities and other long-term care facilities per a recent emergency order.
- The Agency for Healthcare Administration (AHCA) opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- AHCA expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- AHCA shared key guidance including CDC and the Department information regarding the importance of screening visitors, infection control protocol and hygiene best practices with all licensed healthcare facilities regulated by the Agency. The Agency is continuing to provide updates on recommendations and

AMERICAN OVERSIGHT

best practices from the CDC and Centers for Medicare and Medicaid Services regarding COVID-19.

- AHCA, in coordination with the Florida Division of Emergency Management and the Department of Health, is hosting statewide calls for nursing homes, assisted living facilities, intermediate care facilities, and Agency for Persons with Disabilities group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting and screening visitors and providing updates.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department, is hosting statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- This week, AHCA Secretary Mary Mayhew visited nursing homes and hospital facilities in Tampa, Jacksonville and Orlando to discuss COVID-19 preparations and response and address to any concerns and questions from local partners.

AGENCY FOR PERSONS WITH DISABILITIES

- Members of the APD Senior Leadership Team are holding daily meetings on actions, policies, procedures, and updates related to COVID-19
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee are working very closely with their local health departments to enhance infection control measures.
- APD sent an updated visitor questionnaire for Adult Day Training facilities and Group Homes across the state to screen visitors prior to entering a facility. This visitor questionnaire will also start being used for visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.
- The Director of the Agency for Persons with Disabilities (APD), and members of the Senior Leadership Team participated in the conference call related to vulnerable populations hosted by the Surgeon General. The call provided the most up-to-date information to APD partners who are caring for vulnerable populations.
- APD implemented a visitor questionnaire at its two state centers in Gainesville and Marianna.
- APD is developing a visitor questionnaire for Adult Day Training facilities and group homes across the state.
- APD continues to provide additional best practices, preventative tips and CDC guidance to APD providers, Waiver Support coordinators and APD employees.
- The APD Senior Leadership Team began hosting twice weekly COVID-19 conference calls with the Superintendents of the agency's facilities in Marianna,

AMERICAN OVERSIGHT

Gainesville, Chattahoochee and the Developmental Disabilities Defendant Program.

DEPARTMENT OF ELDER AFFAIRS

- The Department of Elder Affairs (DOEA) Secretary Richard Prudom stood with Governor Ron DeSantis and other agency heads during press conferences on Monday, March 9th and Wednesday, March 11th to address Florida's recent actions regarding COVID-19.
- DOEA Secretary Richard Prudom and executive staff participated in a conference call with the Administration for Community Living (ACL) and ACL administrator Lance Robertson and the Centers for Disease Control and Prevention (CDC). Other state units on aging also participated to discuss issues on the implementation of prevention protocols for prevention of spread of COVID-19.
- DOEA Program directors provided guidance to Area Agencies on Aging and statewide Comprehensive Assessment and Review for Long-term Care Services (CARES) offices on how to protect clients and staff during a conference call and provided follow-up information.
- DOEA participated in the Aging and Vulnerable Populations Call hosted by the Florida Department of Health (DOH). All of the state's Area Agencies on Aging (AAA) were on this call, and DOEA staff are following up with them on an individual basis for questions and answers for COVID-19.
- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, staff has provided specific technical assistance to all AAAs regarding completing assessments, safe delivery of home-delivered meals, and procurement of cleaning supplies.
- Arranged a conference call with a representative from the Area Agencies on Aging as well as the Florida Association of Aging Services Providers and GA Foods. Discussed the current messaging from ACL and the CDC as it relates to the Aging Network.
- Conducted a Florida Association of the Area Agencies on Aging (F4A) conference call with all contract managers and AAA Executive Directors March 11 at 2:00 p.m. to provide a daily update regarding COVID-19.
- The Department of Elder Affairs has distributed DOH website information as a resource for PACE providers to use and distribute to seniors. and provided the Executive Orders. DOEA has circulated additional information and long-term care provider conference call invitations with presentations by DOH and AHCA to the PACE providers.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them

AMERICAN OVERSIGHT

to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.

- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, the Florida Department of Veterans' Affairs (FDVA) is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- All FDVA and VA facilities remain fully operational.

VOLUNTEER FLORIDA

- Volunteer Florida is coordinating with the Florida Department of Elder Affairs to see how the agency can assist with distributing information to seniors.

AMERICAN OVERSIGHT

- Volunteer Florida's Emergency Management Department is having initial conversations with partners to determine what could be needed and what safety precautions need to be considered if volunteers are utilized.
- Volunteer Florida is preparing information to be shared with Supervisors of Elections about Volunteer Connect, Florida's official volunteer opportunities platform. Through the platform, offices can post/promote volunteer opportunities, including poll work.
- Volunteer Florida is coordinating with the Florida Department of Elder Affairs to see how the agency can assist with distributing information to seniors.
- Volunteer Florida's Emergency Management Department is having initial conversations with partners to determine what could be needed and what safety precautions need to be considered if volunteers are utilized.

FLORIDA DEPARTMENT OF EDUCATION

- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: www.fldoe.org/em-response.
- Out of an abundance of caution, two temporary school closures have been reported in Okaloosa and Hillsborough County for cleaning. At this time, no Florida student has contracted COVID-19. To stay up to date on school information, visit: www.fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida

AMERICAN OVERSIGHT

Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.

- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/

FLORIDA DEPARTMENT OF CORRECTIONS

- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department. Inmates will continue to have access to mail, phone calls and video visitation. Legal visits will not be impacted.
- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
    - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
    - Have had contact with someone who has been or is under investigation for COVID-19

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.

AMERICAN OVERSIGHT

- FDC's Office of Health Services coordinates with the department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from Florida Department of Health and the CDC.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC stood up its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness and are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Florida Department of State (DOS) has been in contact with the Supervisors of Elections for Hillsborough, Lake, Leon, Manatee, Palm Beach and Sarasota Counties to determine their needs specifically as it relates to supplies. The supervisors have been encouraged to connect with their county emergency management department for meeting these resource needs.
- DOS is in constant communication with Supervisors of Elections regarding readiness for elections and any anticipated needs related to COVID-19.
- DOS is sharing information with the public regarding voting options for the upcoming election, including vote-by-mail and early voting options.
- DOS is actively wiping down public spaces including all DOS maintained properties, reception areas and restrooms with bleach or disinfectant wipes to mitigate the spread of germs.
- DOS is assessing departmental stakeholder lists, including museums, cultural facilities and libraries to evaluate if any stakeholders provide services to at-risk populations and determining the most suitable ways the department can provide information about COVID-19 to those populations.
- DOS has provided guidance to all 67 county Supervisors of Elections regarding assisted living facilities and poll worker staff matters. The message included guidance to vet poll workers and clerks beforehand to determine their recent travel status or if they are showing active symptoms of COVID-19 and reminding supervisors of the option to designate alternate polling locations for nursing homes, centers for independent living continuing care retirement living communities and assisted living facilities.
- DOS has identified stakeholders including libraries, museums, cultural facilities and are developing plans to communicate information and resources about COVID-19 to those stakeholders.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing

AMERICAN OVERSIGHT

bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.

- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- FLHSMV is encouraging Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to renew or replace a driver license, ID card, motor vehicle or vessel registration, and more.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- The Florida Department of Economic Opportunity (DEO) continues to encourage businesses to follow the "Interim Guidance for Businesses and Employers" issued by the Center for Disease Control and Prevention (CDC). This information is being provided to statewide business partners, local Chambers of Commerce and Economic Development Councils throughout the sate.
- The Florida Restaurant and Lodging Association (FRLA) and Florida Retail Federation and the Florida Chamber of Commerce, in coordination with DEO, are working to provide health safety information and coordination with partners, including how to address potential local supply issues.
- DEO is coordinating with CareerSource Florida, local workforce boards, and other public-private partners. DEO is also working closely with our local, state and federal partners to explore potential resources for employers, businesses and impacted workforce.

VISIT FLORIDA

AMERICAN OVERSIGHT

- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA has provided the state's three highway welcome centers with the latest information and resources on COVID-19 to help keep the traveling public informed.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns.
- VISIT FLORIDA employees at Florida's three highway welcome centers continue to be provided with the latest COVID-19 information and resources to help keep the traveling public informed.
- Preventive health resources and options have been communicated to all VISIT FLORIDA staff, with new updates and information relayed accordingly.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.
- VISIT FLORIDA continues to follow all direction from the Executive Office of the Governor and Florida Department of Health in the dissemination of alerts and safety information through social media and VISIT FLORIDA's network of Destination Marketing Organization and business partners.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with our tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

AMERICAN OVERSIGHT

- OIR has published a resource page on its website emphasizing its direction to insurers and will continuously update the page with important insurance resources.
- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
    - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
    - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
    - Work with public health officials to do everything possible to prepare and respond; and
    - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- The Florida Department of Law Enforcement (FDLE) is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE has reviewed its COOP and identified members who can work from home. We ordered an increase in bandwidth and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida

AMERICAN OVERSIGHT

Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified our screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with our law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

###

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

Follow us on Facebook, Instagram and Twitter at @HealthyFla. For more information please visit www.FloridaHealth.gov.

AMERICAN OVERSIGHT

To: Coppola, Courtney
Subject: rule
Date: Tuesday, March 17, 2020 1:53:14 PM

64D-3.029 Diseases or Conditions to be Reported.

(1) Diseases or conditions listed in subsection (3), below, are identified by the Department as being of public health significance. These diseases or conditions must be reported by the practitioner, hospital, laboratory, or other individuals via telephone (with subsequent written report within 72 hours, see Rules 64D-3.030-.033, F.A.C.), facsimile, electronic data transfer, or other confidential means to the Department, which includes the County Health Departments. Reporters are not prohibited from reporting diseases or conditions not listed by rule. Reports should include all associated testing results performed (e.g. serogroup, serotype, and antimicrobial susceptibility results). Physicians and other healthcare providers using point of care tests for diagnosis of infectious diseases must report test results to the Department when they are indicative of an infectious disease reportable directly to the Department by laboratories unless such point of care testing is subject to routine reflex testing by a supplementary or confirmatory testing the results of which would be reportable.

(2) Definitions to be used with subsection (3), below:

(a) *"Reportable Diseases or Conditions"* – The definitions of "suspected case" and "confirmed case" for reportable diseases or conditions are set forth in "Surveillance Case Definitions for Select Reportable Diseases in Florida," January 2016 version 1.1, incorporated by reference, available online at: https://www.flrules.org/Gateway/reference.asp?No=Ref-07442.

(b) *"Suspect Immediately"* – A reportable condition of urgent public health importance. Report without delay upon the occurrence of any of the following: initial suspicion, receipt of a specimen with an accompanying request for an indicative or confirmatory test, findings indicative thereof, or suspected diagnosis. Reports that cannot timely be made during the County Health Department business day shall be made to the County Health Department after-hours duty official. If unable to do so, the reporter shall contact the Department after-hours duty official at (850)245-4401.

(c) *"Immediately"* – A reportable condition of urgent public health importance. Report without delay upon the occurrence of any of the following: an indicative or confirmatory test, findings indicative thereof, or diagnosis. Reports that cannot timely be made during the County Health Department business day shall be made to the County Health Department after-hours duty official. If unable to do so, the reporter shall contact the Department after-hours duty official at (850)245-4401.

(d) *"Next Business Day"* – Report before the closure of the County Health Department's next business day following suspicion or diagnosis.

(e) *"Other"* – Report consistent with the instruction in and footnotes to subsection (3), below.

(3) *"Table of Reportable Diseases or Conditions to Be Reported"*

Practitioner Reporting					Laboratory Reporting					
Reportable Diseases or Conditions	Timeframes				Evidence of current or recent infection with etiological agents and all associated testing results performed should be reported (e.g. species, serogroup, serotype, and antimicrobial susceptibility *2 results)	Timeframes				
	Suspect Immediately	Immediately	Next Business Day	Other		Submit isolates or specimens for confirmation *1	Suspect Immediately	Immediately	Next Business Day	Other
Any case, cluster of cases, outbreak, or exposure to an infectious or non-infectious disease, condition, or agent found in the general community or any defined setting such as a hospital, school or other					Detection in one or more specimens of etiological agents of a disease or condition not listed in this Rule that is of urgent public health significance. This includes					

AMERICAN OVERSIGHT

institution, not listed in this rule that is of urgent public health significance. This includes human cases, clusters, or outbreaks spread person-to-person, by animals or vectors or from an environmental, food or waterborne source of exposure; those that result from a deliberate act of terrorism; and unexplained deaths possibly due to unidentified infectious or chemical causes.	X	X			the identification of etiological agents that are suspected to be the cause of clusters, or outbreaks spread person-to-person, by animals or vectors or from an environmental, food, or waterborne source of exposure; those that result from a deliberate act of terrorism; and unexplained deaths due to unidentified infectious or chemical causes. Severe acute respiratory disease syndrome-associated with a Coronavirus infection	X	X			Coronavirus associated with severe acute respiratory disease	X	X	X		

64D-3.031 Notification by Laboratories.

(1) Each person or designee who is in charge of a public, federal, private, military or hospital laboratory responsible for receiving the initial order to perform serologic, immunologic, microscopic, biochemical, molecular or cultural tests on specimens derived from a human body or an animal or for collecting the specimen shall report or cause to be reported any laboratory test suggestive of or diagnostic of diseases or conditions listed in the Table of Notifiable Diseases or Conditions, Rule 64D-3.029, F.A.C., per this rule.

(2) Receipt of a laboratory test order requesting the identification of reportable agents shall be considered by the laboratory as an indication of suspected diagnosis. However, laboratories need only to report suspected cases if indicated in the "suspect immediately" column under laboratories in the Table of Notifiable Diseases or Conditions, Rule 64D-3.029, F.A.C.

(3) To allow follow-up of laboratory findings suggestive of or diagnostic of diseases or conditions in the Table of Notifiable Diseases or Conditions, the form upon which the information will be reported shall be furnished by the laboratory that includes the following information:

(a) The Patient's:

1. First and last name, including middle initial,
2. Address including street, city, state and zip code,
3. Phone number, including area code,
4. Date of birth,
5. Sex,
6. Race,
7. Ethnicity (specify if of Hispanic descent or not of Hispanic descent),
8. Pregnancy status if applicable,
9. Social Security number.

(b) The Laboratory:

1. Name, address and telephone number of laboratory performing test,

AMERICAN OVERSIGHT

2. Type of specimen (for example stool, urine, blood, mucus, etc.),
3. Date of specimen collection,
4. Site (for example cervix, eye, etc., if applicable),
5. Date of report,
6. Type of tests performed and results, including reference range, titer when quantitative procedures are performed, and including all available results on speciating, grouping or typing of organisms,
7. Submitting provider's name, address including street, city, zip code and telephone number, including area code,
8. National Provider Identification (NPI) Number.

(4) Laboratories located out of state, licensed under Part I, Chapter 483, F.S., who collect specimens in Florida or who receive the initial order for testing from a practitioner, blood bank, plasmapheresis center or other health care provider located in Florida, shall report in the same way as if the findings had been made by a laboratory located in Florida.

(5) Upon the Department's implementation of its Electronic Laboratory Reporting System (ELR) for laboratory findings suggestive of or diagnostic of diseases or conditions, reports will be submitted electronically to the Department using Health Level Seven (HL7) version 2.3.1 format or ASCII delimited flat files which reflect comparable content to HL 7 version 2.3.1. utilized by the Department of Health. The CDC Implementation Guide, Health Level Seven Specifications for Electronic Laboratory-Based Reporting of Public Health Information, October 1997, using version 2.3.1 of the Health Level Seven (HL7) Standard Protocol, incorporated by reference, is available online at: http://www.cdc.gov/nedss/ELR/HL7Spec.pdf.

(a) The Department's ELR System shall include:
1. The initial contact with the reporting laboratory,
2. A content review and testing of the laboratories' HL7 transmissions; and,
3. The transition from testing to production for the HL7 laboratory transmissions.

(b) The Department and laboratory will agree on a date of implementation;

(c) Laboratories reporting electronically through ELR and the Department shall agree to a date that the transmission of findings suggestive of or diagnostic of diseases or conditions listed in the Table of Notifiable Diseases or Conditions, Rule 64D-3.029, F.A.C., electronically in HL7 version 2.3.1 format to the Department is acceptable and considered good faith reporting and the laboratory will no longer be required to submit paper forms pursuant to subsection 64D-3.031(3), F.A.C.;

(d) The Department shall ensure access to the laboratory findings suggestive of or diagnostic of disease or conditions listed in the Table of Notifiable Diseases or Conditions to authorized representatives of the Department.

(6) This section does not prohibit a laboratory from making a report by telephone, in writing, or facsimile to the county health department having jurisdiction for the area in which the office of the submitting practitioner or the patient's residence is located.

(7)(a) In order to study disease incidence, each laboratory licensed to perform tests for any notifiable disease or condition shall report the test volume for each related diagnostic test performed for the notifiable diseases listed in Rule 64D-3.029, F.A.C.

(b) Reports are to be filed annually on or before April 1 of each year to the Department electronically in a format agreed upon by the department and the laboratory with the following information:
1. Type of diagnostic test,
2. Patient's date of birth,
3. Patient's sex,
4. Race,
5. Ethnicity (specify if of Hispanic descent or not of Hispanic descent).

(8) Each laboratory licensed to perform tests for any reportable disease or condition shall make its records for such diseases or conditions available for on-site inspection by the Department or its authorized representatives.

Clinical Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease 2019 (COVID-19) per Centers for Disease Control and Prevention (CDC)

Symptomatic individuals should be asked to wear a surgical mask upon arrival. Initiate contact and airborne precautions, using appropriate personal protective equipment (PPE).

Version 4.2 | March 15, 2020

SCREENING CRITERIA

If your patient is exhibiting **symptoms** of acute lower respiratory illness (e.g., fever, cough, and shortness of breath) **and** meets one or more of the following criteria:

1. Persons who have had a close contact with a laboratory-confirmed COVID-19 case
2. Persons hospitalized with acute lower respiratory illness of unknown origin
3. History of travel to or from an affected geographic area with widespread community transmission
4. History of international travel or a cruise
5. ≥65 with chronic health conditions
6. Immunocompromised persons

EXPANDED CRITERIA

If your patient does not meet the above criteria, testing may occur based on clinician's judgement.

1. The health care provider is responsible for specimen collection, handling and shipping. Please follow CDC guidance and use proper PPE.
2. Collected specimens should be processed within your health care facility or a commercial laboratory (e.g., LabCorp and Quest).
3. Follow CDC guidance for specimen collection, handling and shipping.

TESTING

If individual meets criteria for testing, wear appropriate PPE and initiate contact and airborne precautions.

1. The health care provider is responsible for specimen collection, handling and shipping. Please follow CDC guidance.
2. Collected specimens should be processed within your health care facility, if available; a commercial laboratory (e.g., LabCorp and Quest); or a Florida Bureau of Public Health Laboratory (BPHL)
3. Before sending specimens to BPHL, notify your local county health department CHD Epidemiology Contacts.
4. Health care providers may consult local county health departments for additional guidance as needed.

FOR ADDITIONAL GUIDANCE

Providers are encouraged to frequently monitor Florida Department of Health and CDC websites for updated guidance on COVID-19.

Florida Department of Health Announces New Positive COVID-19 Cases in Florida, Test Performed by Advent Health Altamonte Springs

TALLAHASSEE — The Florida Department of Health has ~~announced~~ received notification of one new positive cases of coronavirus disease (COVID-19) in Florida. This test was performed through a partnership with Advent Health Altamonte Springs.* To keep Florida residents and visitors safe and aware about the status of the virus, the Department is issuing regular updates as information becomes available.

After a thorough ~~a throughout~~ and ~~conclusive~~ epidemiological investigation, the Florida Department of Health concluded that one of the confirmed positive COVID-19 cases announced last night ~~(confirmed cases~~ **did not** attend Bike Week. We are continuing to encourage Floridians to stay vigilant, strongly advising Florida municipalities to consider limiting large gatherings.

New Positive Cases

- A 68-year old male in Seminole County has tested positive for COVID-19. He is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case and is associated with a Nile River cruise/tour in Egypt.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise or tour on the Nile River in February or March 2020 to self-isolate for 14 days following their date of return to the United States, and if ill, immediately contact their CHD or health care provider. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including 11 positive cases in Florida.

Port Everglades Advisory

The Department, through an extensive epidemiological investigation, has identified four positive COVID-19 cases associated with Port Everglades in Broward County, Florida. All three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades.

- The Department recommends all individuals experiencing symptoms who have recently traveled through Port Everglades to immediately contact their CHD or health care provider and self-isolate for 14 Days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the CDC on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their CHD or health care provider.

International Travel Advisory

The Department is advising all individuals who have traveled internationally to follow the **new Centers for Disease Control and Prevention (CDC) guidelines**, summarized below:

- **Level 3:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department (CHD) or health care provider.

AMERICAN OVERSIGHT

- **Level 2 and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and contact your CHD or health care provider.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

COVID-19 Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov**.

Department Activities

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for ~~the novel coronavirus~~COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted ~~three~~ public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls. ~~Calls are scheduled for each Wednesday at 2:00 EST.~~
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.

AMERICAN OVERSIGHT

- I~~Developed and i~~mplemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;

AMERICAN OVERSIGHT

- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

~~*Out of an abundance of caution, this case will also be confirmed by FDOH.~~

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

image003.png
image004.png
image005.png
image006.png

State and Local Leaders,

On Thursday, March 12, at 2:00 p.m. Eastern Time, please join Senior Administration Officials for a briefing call on COVID-19 (coronavirus) regarding President Trump issuing a proclamation under section 212(f) of the Immigration and Nationality Act (INA) to restrict travel to the United States from foreign nationals who have recently been in certain European countries. Additional details can be found below. We will also provide an update on implementing mitigation strategies for communities with local COVID-transmission (A Framework for Mitigation: Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission <https://www.cdc.gov/coronavirus/2019-ncov/downloads/community-mitigation-strategy.pdf>).

Briefing Call Registration on 212(f) & Community Mitigation Strategies

* Date: Today, Thursday, March 12
* Time: 2:00 PM ET (please note time zone)
* Call-In Registration: CLICK HERE <https://ems9.intellor.com/?do=register&t=1&p=901287>
* Note: You must RSVP to join the call. Upon successful registration, you will receive dial-in details to the email address you use to register. Note that multiple people cannot dial-in using the same registration information.

Below, please find additional information. The White House Office of Intergovernmental Affairs (WH IGA) will continue to share pertinent information as it becomes available. Please do not hesitate to reach out to our office directly if we can be of assistance.

Sincerely,

Zach

The White House Office of Intergovernmental Affairs

Zach Swint

Office of Intergovernmental Affairs

President Donald J. Trump Has Taken Unprecedented Steps to Respond to The Coronavirus and Protect the Health and Safety Of Americans

AMERICAN OVERSIGHT

“Together we are putting into policy a plan to prevent, detect, treat and create a vaccine against coronavirus to save lives in America and the world. America will get it done!” – President Donald J. Trump

President Donald J. Trump signed a Presidential Proclamation, which suspends the entry of most foreign nationals who have been in certain European countries at any point during the 14 days prior to their scheduled arrival to the United States. These countries, known as the Schengen Area, include: Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, and Switzerland. This does not apply to legal permanent residents, (generally) immediate family members of U.S. citizens, and other individuals who are identified in the proclamation.

Statement from DHS Acting Secretary Chad F. Wolf: “Protecting the American people from threats to their safety is the most important job of the President of the United States. The actions President Trump is taking to deny entry to foreign nationals who have been in affected areas will keep Americans safe and save American lives. I applaud the president for making this tough but necessary decision. While these new travel restrictions will be disruptive to some travelers, this decisive action is needed to protect the American public from further exposure to the potentially deadly coronavirus. In January and February, the Administration issued similar travel restrictions on individuals who had been in China and Iran. That action proved to be effective in slowing the spread of the virus to the U.S., while public health officials prepared. In the next 48 hours, in the interest of public health, I intend to issue a supplemental Notice of Arrivals Restriction requiring U.S. passengers that have been in the Schengen Area to travel through select airports where the U.S. Government has implemented enhanced screening procedures.”

RESTRICTING TRAVEL FROM IMPACTED AREAS: President Donald J. Trump is taking further action to curb the spread of the coronavirus to the United States from other countries.

* President Trump is issuing a proclamation under section 212(f) of the Immigration and Nationality Act (INA) to restrict travel to the United States from foreign nationals who have recently been in certain European countries.

* Section 212(f) of the INA only applies to the movement of human beings, not goods or cargo.

* The restriction applies to foreign nationals who have been in the Schengen Area, 26 countries in Europe with open borders agreements, in the last 14 days.
* Those who are exempt from these restrictions, such as American citizens, will be directed to a limited number of airports where screening can take place.
* There is extensive travel back and forth between Europe that heightens the risk here in the United States.

LOOKING OUT FOR AMERICAN BUSINESSES AND WORKERS: President Donald J. Trump is committed to protecting American businesses and workers from the impacts of coronavirus.

* The President is announcing an economic assistance package to help support businesses and workers who have been harmed by this outbreak.
* President Trump has instructed the Small Business Administration (SBA) to exercise available authority to provide loans to businesses affected by the coronavirus.

* These loans will help overcome disruptions caused by the coronavirus.
* The President is calling on Congress to increase funding for this program by an additional $50 billion.

* The President will be instructing the Department of the Treasury to defer tax payments for certain individuals and businesses negatively impacted by the coronavirus.

* This action will provide more than $200 billion of additional liquidity to the economy.

* President Trump is calling on Congress to immediately pass payroll tax relief.
* The President announced that he will soon be taking emergency action to provide financial relief for workers who are ill, quarantined, or caring for others due to the coronavirus.

* The President also called on Congress to take action to extend this relief for workers.

LEADING AN AGGRESSIVE, WHOLE-OF-GOVERNMENT APPROACH: President Trump has taken unprecedented steps to protect the health of Americans in response to the coronavirus.

* The President is leveraging all of our resources to respond to the coronavirus, bringing together government and private industry in a collaborative response.
* The Trump Administration declared a public health emergency in January to bolster response efforts.
* President Trump took early action to help curb the spread of the virus from other countries to the United States, providing important time for response and preparations.

* In January, President Trump acted quickly to restrict travel from foreign nationals traveling from China.
* In February, the President restricted travel for individuals recently traveling from Iran.
* The Administration put into place mandatory screening for all travelers coming into the country from Italy and South Korea.
* Travel advisories for severely impacted areas like Italy and South Korea have been raised to their highest level.

* Today, the President directed his Administration to make general-use face masks available to our healthcare workers.

* The Administration’s actions will help make millions of general-use respirators available to keep healthcare workers safe and mitigate transmission of the virus.

AMERICAN OVERSIGHT

* President Trump signed into law more than $8 billion to fund response efforts.
* The Administration has taken bold steps to incentivize the development of therapeutics and vaccines to treat and prevent the spread of the coronavirus.
* Working across the public and private sectors, the Trump Administration continues to drastically expand testing capacity.

* More than 1 million tests have been distributed nationwide, with another 4 million tests being shipped out by the end of the week.
* Testing is now available in every State lab in the country and commercial labs are now deploying tests, which will help generate a dramatic increase in availability.

* The Trump Administration has released guidance on how to keep businesses, schools, community gathering places, and families safe.

* From the start, President Trump has made keeping the public informed a top priority.

* The Administration has announced that health plans with health savings accounts will be able to cover coronavirus testing and treatment without co-payments.

ICYMI | Vice President Pence Discusses the Coronavirus Response on the Morning Shows

---

Earlier this morning, Vice President Pence joined Good Morning America, The Today Show, Fox & Friends, New Day, and CBS This Morning to discuss the steps that this administration is taking to combat the coronavirus.

ON ABC's GOOD MORNING AMERICA

WATCH HERE. <https://grabien.com/getmedia.php?id=856365&key=8a068e0e7ba2ceda6bd6ed7452ddb3de>

From very early on, President Trump took decisive action to put the health of the American people first.

"We all have known from the beginning that the coronavirus would continue to spread across this country, and it's one of the reasons why, from very early on, President Trump took decisive action to put the health of the American people first, not only declaring a public health emergency in January, but in that same month he suspended all travel from China -- an unprecedented move -- and quarantined Americans that were returning from the region. Since that time, George, we've -- we've issued travel advisories for areas of South Korea, Italy; screened all persons coming on direct flights. But, frankly, as we watched the epicenter of the coronavirus shift from China and South Korea to Europe, the President thought it was proper for us to impose a 30-day suspension on all travel from continental Europe."

The President, again, made another unprecedented decision in suspending all travel from Europe, because we want to stop the flow of people bringing the coronavirus here.

"The reality is that, really, just two weeks ago, in Italy, there were less than 500 cases and now there's 12,000 cases in Italy, George. We have tens of thousands of people that travel to the United States from Europe every day. Seventy percent of new cases in the world were in Europe. And when we looked yesterday at the -- what was then the 35 states where we had cases, about 30 of them could be traced to contacts with Europe. And so the President, again, made another unprecedented decision in suspending all travel from Europe, because we essentially want -- we essentially want to stop the flow of people bringing the coronavirus here, but then continuing to surge resources, particularly into California, Washington State, New York, and other communities where we've seen community spread. It's a combination of efforts that's being driven by the top health experts in the world on our task force. But the President -- the President showed again yesterday a willingness to take decisive action on multiple levels to protect the American people."

We want to send a very clear message to Americans that if for any reason you believe you've been exposed to the coronavirus, you should not be worried about the cost of testing or treatment.

"We're making steady progress. We're going to continue to make a very clear message to Americans that if for any reason you believe you've been exposed to the coronavirus or you have symptoms, we don't want people to be worried about the cost of testing, to be worried about the cost of treatment… As the President made clear last night, we're working with Congress and exploring actions the President can take to make sure that hourly wage earners know that you can stay home without risking losing a paycheck or losing your job if you feel if you feel that you've been exposed to the coronavirus."

ON NBC's TODAY SHOW

WATCH HERE <https://grabien.com/getmedia.php?id=856357&key=57d8648a9738379794d8d7cc05271db7> .

From early on in this effort, we have addressed the testing issue. We made changes through the FDA that allowed for state labs and hospitals to engage in testing.

"From early on in this effort we've been addressing the testing issue. We made changes through the FDA that allowed for state labs and university hospitals and hospitals to engage in testing. And I'm pleased to report every state lab in America can do testing now. Many university laboratories are doing it. Washington State – the University of Washington is doing extraordinary work. but we are literally working hour by hour to expand the testing and we think the key Savannah is going to be what we call commercial laboratories like LabCorp and Quest who are already spinning up production at the president's direction last week on tests that can be available on a broad basis in the days ahead for the American people. we're making real progress but rest assured we're going to continue to drive forward."

The American people should know that President Trump has no higher priority than the health, safety and well-being of the American people.

"The American people should know that President Trump has no higher priority than the health and safety and wellbeing of the people in this country.

AMERICAN OVERSIGHT

You can go to coronavirus.gov right now to find out what every American can do to keep yourself, your family, your workplace and your school safe. But you can rest assured we're going to focus on communities where we've had community spread, and the President's action yesterday suspending travel from Europe is one more example of how he's putting the health of America first."

ON FOX NEWS' FOX & FRIENDS

WATCH HERE <https://grabien.com/getmedia.php?id=856379&key=cb1ba3743718e73a552d06d4ad66a617> AND HERE <https://grabien.com/getmedia.php?id=856383&key=9e8d30fd728e132040b652f01534deb4> .

The President has called this a whole-of-government approach, but he has also called this is a whole-of-America approach.

"The President, you know, he said this was a whole-of-government approach but he also said this is a whole-of-America approach. So he's brought in business leaders from nursing homes; yesterday, banking; hospitals, and the rest. But one of the things we did that's most important on testing was the President brought in the leaders of the top commercial laboratories in the country who, as we speak, have already approved a test that is being spun up. It's being sent out to market. Quest, LabCorp, the largest commercial laboratories in the country, are working very closely with our administration. We're clearing the red tape out of the way. That's going to be the way that, in the days ahead, we're going to -- we're going to have broad-based testing available all across the country."

We are working together to contain the spread of the coronavirus. And we will get through this.

"Our goal, as the coronavirus spreads in this country -- and the vast majority who would contract it will have flu-like symptoms and recover. Our goal nonetheless is to hold down that overall number as much as possible. And we will do that with the continuing cooperation of American families, schools, businesses, and states. And that's the vision President Trump has. All of us working together will get through this."

We are focusing on supporting efforts at the state and local level in Washington State, and in California. CDC issued strong guidelines for those communities about public activities, large gatherings and at schools. We will continue simply to follow the data on this.

"Make no mistake about it: We are also focusing on supporting efforts at the state and local level in California, in Washington State, and in California. CDC issued very strong guidelines for those communities about public activities, large gatherings, schools. And we'll continue simply to follow the data on this and make strong recommendations where we have what's known as "community spread. But for every American, right now, as the President said last night, it's a good time to use common sense. Wash your hands often. Clean, you know, often-used surfaces. All that information is available at Coronavirus.gov. So we're going to try and mitigate the spread in this country but also prevent, through the President's decisive action last night, people from bringing the coronavirus into the United States any further from Europe."

We are encouraging best practices for every American. We are focusing on communities where we have community spread.

"I want to say to your viewers, just as the President said last night, the risk to the average American of contracting the coronavirus remains low, but we do know that seniors with serious underlying chronic health conditions are particularly vulnerable to very serious outcomes. And so we're encouraging best practices for every American. We're focusing on communities where we have community spread."

Those with a family member who is a senior citizen should support them in engaging in good hygiene and good health practices.

"For any American that's watching today that has a family member or a loved one who's a senior citizen with a serious underlying health condition, this is a very good time to help and to support them to be able to avoid public places, and everyone around them to engage in good hygiene and good practices to protect those that are most vulnerable."

ON CNN's NEW DAY

WATCH HERE <https://grabien.com/getmedia.php?id=856387&key=11a16cd41a35ed71b5740a5915232784> AND HERE <https://grabien.com/getmedia.php?id=856391&key=8c259b68ce8df48e55ad39eaae2c0b4a> .

We have been meeting with industry leaders in one relevant industry after another to ensure that the full resources of America are being brought to bear.

"We're not doing a travel ban as our strategy. The suspending all travel for 30 days from Europe is a part of the strategy. The other part is an aggressive mitigation strategy. I spoke to the governors of New York, Washington State, and California tomorrow -- or yesterday. CDC issued strong guidance to those areas where we have community spread. We've flowed resources. We've flowed support to those areas. And so it's a combination of strategies that the President has employed here. As he says, it's "all hands on deck," "a whole-of-government approach," but it's also a whole-of-America approach. We've literally been meeting with industry leaders in one relevant industry after another to ensure that the full resources of America are being brought to bear."

Any American who is concerned about being exposed to the coronavirus, should call their doctor and get tested.

"Anyone who's looking on today who might be concerned that they were exposed to coronavirus or have symptoms should call their doctor. Their doctor, with any question, can call their state laboratory and be able to find out how they can have a test processed."

We are making steady progress. We don't want anybody to avoid having a test because they are concerned financially.

"But make no mistake about it: We're making steady progress. We've made changes at the FDA in January, at the President's direction. And the American people can be confident we're going to continue to roll out the test. And maybe most significant on that score is that the President brought health insurance companies in last week and they all agreed to waive the co-pays on testing. We expanded testing to Medicare and Medicaid patients. And we also expanded coverage for treatment, and health insurance companies expanded coverage for treatment. We don't want anybody to avoid having a test because they're concerned financially."

The risk to the average American remains low.

"I want people to know that the risk to contracting the coronavirus, according to all of our experts, for the average American remains low. Most people that contract it, will have flu-like symptoms and recover."

AMERICAN OVERSIGHT

ON CBS This Morning

WATCH HERE <https://grabien.com/getmedia.php?id=856403&key=076e051c5bee0accd97969ffc61e1e8a> .

We are going to continue to put in every effort in place to protect the health and safety of the American people.

“The President took the unprecedented step of suspending all travel from China which was the originating country of this virus. We also established travel advisories, and we've been screening passengers on all direct flights from South Korea and Italy. But with the epicenter of this epidemic now moving from China and South Korea to Europe, yesterday the President again took the unprecedented step of suspending all travel from Europe for the next 30 days, and that in combination with our strong mitigation efforts in communities that are experiencing what our experts call community spread, areas of California, Washington State, and New York, we're going to continue to put every effort at home and with regard to these travel restrictions in place to protect the health and safety of the American people.”

In the days ahead, we are going to continue to see the availability of tests at your local doctor and your local pharmacy expand.

“Testing is happening in every state lab in the country. Many university hospitals have taken the FDA test, like the University of Washington, is doing a great job expanding testing capabilities. But the biggest piece on the testing is that our commercial labs that the President brought in last week, companies like Quest and LabCorp, have already had approved a new test that they several days ago had begun to take to market which they can do in a vast and expansive way across the country. And literally in the days ahead, we're going to continue to see the availability of tests at your local doctor, ultimately at your local pharmacy, continue to expand.”

When President Trump learned that 70% of the new cases this week, around the world, were in Europe, he took decisive action to protect the American people.

“Make no mistake about it: All the new cases in the world, this week, 70% of the new cases were in Europe. And the increase has been dramatic. When the President imposed the travel advisory and we began screening all flights, all passengers coming into the United States from Italy two weeks ago, there were roughly 500 coronavirus cases. Now there's 12,000, about 1,000 in Germany, about 1,000 in France. That's the reason why the President essentially said full stop, we're going to suspend all travel, and that American citizens coming home and legal residents will be funneled through 13 different airports. They'll get an initial health screening coming in. But we're going to ask everyone returning to our country to self-quarantine for 14 days.”

image004.png
image005.png
image006.png

State and Local Leaders,

On Thursday, March 12, at 2:00 p.m. Eastern Time, please join Senior Administration Officials for a briefing call on COVID-19 (coronavirus) regarding President Trump issuing a proclamation under section 212(f) of the Immigration and Nationality Act (INA) to restrict travel to the United States from foreign nationals who have recently been in certain European countries. Additional details can be found below. We will also provide an update on implementing mitigation strategies for communities with local COVID-transmission (A Framework for Mitigation: Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission <https://www.cdc.gov/coronavirus/2019-ncov/downloads/community-mitigation-strategy.pdf>).

Briefing Call Registration on 212(f) & Community Mitigation Strategies

* Date: Today, Thursday, March 12
* Time: 2:00 PM ET (please note time zone)
* Call-In Registration: CLICK HERE <https://ems9.intellor.com/?do=register&t=1&p=901287>
* Note: You must RSVP to join the call. Upon successful registration, you will receive dial-in details to the email address you use to register. Note that multiple people cannot dial-in using the same registration information.

Below, please find additional information. The White House Office of Intergovernmental Affairs (WH IGA) will continue to share pertinent information as it becomes available. Please do not hesitate to reach out to our office directly if we can be of assistance.

Sincerely,

Zach

The White House Office of Intergovernmental Affairs

Zach Swint

Office of Intergovernmental Affairs

The White House

President Donald J. Trump Has Taken Unprecedented Steps to Respond to The Coronavirus and Protect the Health and Safety Of Americans

AMERICAN OVERSIGHT

“Together we are putting into policy a plan to prevent, detect, treat and create a vaccine against coronavirus to save lives in America and the world. America will get it done!” – President Donald J. Trump

President Donald J. Trump signed a Presidential Proclamation, which suspends the entry of most foreign nationals who have been in certain European countries at any point during the 14 days prior to their scheduled arrival to the United States. These countries, known as the Schengen Area, include: Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, and Switzerland. This does not apply to legal permanent residents, (generally) immediate family members of U.S. citizens, and other individuals who are identified in the proclamation.

Statement from DHS Acting Secretary Chad F. Wolf: “Protecting the American people from threats to their safety is the most important job of the President of the United States. The actions President Trump is taking to deny entry to foreign nationals who have been in affected areas will keep Americans safe and save American lives. I applaud the president for making this tough but necessary decision. While these new travel restrictions will be disruptive to some travelers, this decisive action is needed to protect the American public from further exposure to the potentially deadly coronavirus. In January and February, the Administration issued similar travel restrictions on individuals who had been in China and Iran. That action proved to be effective in slowing the spread of the virus to the U.S., while public health officials prepared. In the next 48 hours, in the interest of public health, I intend to issue a supplemental Notice of Arrivals Restriction requiring U.S. passengers that have been in the Schengen Area to travel through select airports where the U.S. Government has implemented enhanced screening procedures.”

RESTRICTING TRAVEL FROM IMPACTED AREAS: President Donald J. Trump is taking further action to curb the spread of the coronavirus to the United States from other countries.

* President Trump is issuing a proclamation under section 212(f) of the Immigration and Nationality Act (INA) to restrict travel to the United States from foreign nationals who have recently been in certain European countries.

* Section 212(f) of the INA only applies to the movement of human beings, not goods or cargo.

* The restriction applies to foreign nationals who have been in the Schengen Area, 26 countries in Europe with open borders agreements, in the last 14 days.
* Those who are exempt from these restrictions, such as American citizens, will be directed to a limited number of airports where screening can take place.
* There is extensive travel back and forth between Europe that heightens the risk here in the United States.

LOOKING OUT FOR AMERICAN BUSINESSES AND WORKERS: President Donald J. Trump is committed to protecting American businesses and workers from the impacts of coronavirus.

* The President is announcing an economic assistance package to help support businesses and workers who have been harmed by this outbreak.
* President Trump has instructed the Small Business Administration (SBA) to exercise available authority to provide loans to businesses affected by the coronavirus.

* These loans will help overcome disruptions caused by the coronavirus.
* The President is calling on Congress to increase funding for this program by an additional $50 billion.

* The President will be instructing the Department of the Treasury to defer tax payments for certain individuals and businesses negatively impacted by the coronavirus.

* This action will provide more than $200 billion of additional liquidity to the economy.

* President Trump is calling on Congress to immediately pass payroll tax relief.
* The President announced that he will soon be taking emergency action to provide financial relief for workers who are ill, quarantined, or caring for others due to the coronavirus.

* The President also called on Congress to take action to extend this relief for workers.

LEADING AN AGGRESSIVE, WHOLE-OF-GOVERNMENT APPROACH: President Trump has taken unprecedented steps to protect the health of Americans in response to the coronavirus.

* The President is leveraging all of our resources to respond to the coronavirus, bringing together government and private industry in a collaborative response.
* The Trump Administration declared a public health emergency in January to bolster response efforts.
* President Trump took early action to help curb the spread of the virus from other countries to the United States, providing important time for response and preparations.

* In January, President Trump acted quickly to restrict travel from foreign nationals traveling from China.
* In February, the President restricted travel for individuals recently traveling from Iran.
* The Administration put into place mandatory screening for all travelers coming into the country from Italy and South Korea.
* Travel advisories for severely impacted areas like Italy and South Korea have been raised to their highest level.

* Today, the President directed his Administration to make general-use face masks available to our healthcare workers.

* The Administration’s actions will help make millions of general-use respirators available to keep healthcare workers safe and mitigate transmission of the virus.

AMERICAN OVERSIGHT

* President Trump signed into law more than $8 billion to fund response efforts.
* The Administration has taken bold steps to incentivize the development of therapeutics and vaccines to treat and prevent the spread of the coronavirus.
* Working across the public and private sectors, the Trump Administration continues to drastically expand testing capacity.

* More than 1 million tests have been distributed nationwide, with another 4 million tests being shipped out by the end of the week.
* Testing is now available in every State lab in the country and commercial labs are now deploying tests, which will help generate a dramatic increase in availability.

* The Trump Administration has released guidance on how to keep businesses, schools, community gathering places, and families safe.

* From the start, President Trump has made keeping the public informed a top priority.

* The Administration has announced that health plans with health savings accounts will be able to cover coronavirus testing and treatment without co-payments.

ICYMI | Vice President Pence Discusses the Coronavirus Response on the Morning Shows

---

Earlier this morning, Vice President Pence joined Good Morning America, The Today Show, Fox & Friends, New Day, and CBS This Morning to discuss the steps that this administration is taking to combat the coronavirus.

ON ABC's GOOD MORNING AMERICA

WATCH HERE. <https://grabien.com/getmedia.php?id=856365&key=8a068e0e7ba2ceda6bd6ed7452ddb3de>

From very early on, President Trump took decisive action to put the health of the American people first.

"We all have known from the beginning that the coronavirus would continue to spread across this country, and it's one of the reasons why, from very early on, President Trump took decisive action to put the health of the American people first, not only declaring a public health emergency in January, but in that same month he suspended all travel from China -- an unprecedented move -- and quarantined Americans that were returning from the region. Since that time, George, we've -- we've issued travel advisories for areas of South Korea, Italy; screened all persons coming on direct flights. But, frankly, as we watched the epicenter of the coronavirus shift from China and South Korea to Europe, the President thought it was proper for us to impose a 30-day suspension on all travel from continental Europe."

The President, again, made another unprecedented decision in suspending all travel from Europe, because we want to stop the flow of people bringing the coronavirus here.

"The reality is that, really, just two weeks ago, in Italy, there were less than 500 cases and now there's 12,000 cases in Italy, George. We have tens of thousands of people that travel to the United States from Europe every day. Seventy percent of new cases in the world were in Europe. And when we looked yesterday at the -- what was then the 35 states where we had cases, about 30 of them could be traced to contacts with Europe. And so the President, again, made another unprecedented decision in suspending all travel from Europe, because we essentially want -- we essentially want to stop the flow of people bringing the coronavirus here, but then continuing to surge resources, particularly into California, Washington State, New York, and other communities where we've seen community spread. It's a combination of efforts that's being driven by the top health experts in the world on our task force. But the President -- the President showed again yesterday a willingness to take decisive action on multiple levels to protect the American people."

We want to send a very clear message to Americans that if for any reason you believe you've been exposed to the coronavirus, you should not be worried about the cost of testing or treatment.

"We're making steady progress. We're going to continue to make a very clear message to Americans that if for any reason you believe you've been exposed to the coronavirus or you have symptoms, we don't want people to be worried about the cost of testing, to be worried about the cost of treatment… As the President made clear last night, we're working with Congress and exploring actions the President can take to make sure that hourly wage earners know that you can stay home without risking losing a paycheck or losing your job if you feel if you feel that you've been exposed to the coronavirus."

ON NBC's TODAY SHOW

WATCH HERE <https://grabien.com/getmedia.php?id=856357&key=57d8648a9738379794d8d7cc05271db7> .

From early on in this effort, we have addressed the testing issue. We made changes through the FDA that allowed for state labs and hospitals to engage in testing.

"From early on in this effort we've been addressing the testing issue. We made changes through the FDA that allowed for state labs and university hospitals and hospitals to engage in testing. And I'm pleased to report every state lab in America can do testing now. Many university laboratories are doing it. Washington State – the University of Washington is doing extraordinary work. but we are literally working hour by hour to expand the testing and we think the key Savannah is going to be what we call commercial laboratories like LabCorp and Quest who are already spinning up production at the president's direction last week on tests that can be available on a broad basis in the days ahead for the American people. we're making real progress but rest assured we're going to continue to drive forward."

The American people should know that President Trump has no higher priority than the health, safety and well-being of the American people.

"The American people should know that President Trump has no higher priority than the health and safety and wellbeing of the people in this country.

AMERICAN OVERSIGHT

You can go to coronavirus.gov right now to find out what every American can do to keep yourself, your family, your workplace and your school safe. But you can rest assured we're going to focus on communities where we've had community spread, and the President's action yesterday suspending travel from Europe is one more example of how he's putting the health of America first."

ON FOX NEWS' FOX & FRIENDS

WATCH HERE <https://grabien.com/getmedia.php?id=856379&key=cb1ba3743718e73a552d06d4ad66a617> AND HERE <https://grabien.com/getmedia.php?id=856383&key=9e8d30fd728e132040b652f01534deb4> .

The President has called this a whole-of-government approach, but he has also called this is a whole-of-America approach.

"The President, you know, he said this was a whole-of-government approach but he also said this is a whole-of-America approach. So he's brought in business leaders from nursing homes; yesterday, banking; hospitals, and the rest. But one of the things we did that's most important on testing was the President brought in the leaders of the top commercial laboratories in the country who, as we speak, have already approved a test that is being spun up. It's being sent out to market. Quest, LabCorp, the largest commercial laboratories in the country, are working very closely with our administration. We're clearing the red tape out of the way. That's going to be the way that, in the days ahead, we're going to -- we're going to have broad-based testing available all across the country."

We are working together to contain the spread of the coronavirus. And we will get through this.

"Our goal, as the coronavirus spreads in this country -- and the vast majority who would contract it will have flu-like symptoms and recover. Our goal nonetheless is to hold down that overall number as much as possible. And we will do that with the continuing cooperation of American families, schools, businesses, and states. And that's the vision President Trump has. All of us working together will get through this."

We are focusing on supporting efforts at the state and local level in Washington State, and in California. CDC issued strong guidelines for those communities about public activities, large gatherings and at schools. We will continue simply to follow the data on this.

"Make no mistake about it: We are also focusing on supporting efforts at the state and local level in California, in Washington State, and in California. CDC issued very strong guidelines for those communities about public activities, large gatherings, schools. And we'll continue simply to follow the data on this and make strong recommendations where we have what's known as "community spread. But for every American, right now, as the President said last night, it's a good time to use common sense. Wash your hands often. Clean, you know, often-used surfaces. All that information is available at Coronavirus.gov. So we're going to try and mitigate the spread in this country but also prevent, through the President's decisive action last night, people from bringing the coronavirus into the United States any further from Europe."

We are encouraging best practices for every American. We are focusing on communities where we have community spread.

"I want to say to your viewers, just as the President said last night, the risk to the average American of contracting the coronavirus remains low, but we do know that seniors with serious underlying chronic health conditions are particularly vulnerable to very serious outcomes. And so we're encouraging best practices for every American. We're focusing on communities where we have community spread."

Those with a family member who is a senior citizen should support them in engaging in good hygiene and good health practices.

"For any American that's watching today that has a family member or a loved one who's a senior citizen with a serious underlying health condition, this is a very good time to help and to support them to be able to avoid public places, and everyone around them to engage in good hygiene and good practices to protect those that are most vulnerable."

ON CNN's NEW DAY

WATCH HERE <https://grabien.com/getmedia.php?id=856387&key=11a16cd41a35ed71b5740a5915232784> AND HERE <https://grabien.com/getmedia.php?id=856391&key=8c259b68ce8df48e55ad39eaae2c0b4a> .

We have been meeting with industry leaders in one relevant industry after another to ensure that the full resources of America are being brought to bear.

"We're not doing a travel ban as our strategy. The suspending all travel for 30 days from Europe is a part of the strategy. The other part is an aggressive mitigation strategy. I spoke to the governors of New York, Washington State, and California tomorrow -- or yesterday. CDC issued strong guidance to those areas where we have community spread. We've flowed resources. We've flowed support to those areas. And so it's a combination of strategies that the President has employed here. As he says, it's "all hands on deck," "a whole-of-government approach," but it's also a whole-of-America approach. We've literally been meeting with industry leaders in one relevant industry after another to ensure that the full resources of America are being brought to bear."

Any American who is concerned about being exposed to the coronavirus, should call their doctor and get tested.

"Anyone who's looking on today who might be concerned that they were exposed to coronavirus or have symptoms should call their doctor. Their doctor, with any question, can call their state laboratory and be able to find out how they can have a test processed."

We are making steady progress. We don't want anybody to avoid having a test because they are concerned financially.

"But make no mistake about it: We're making steady progress. We've made changes at the FDA in January, at the President's direction. And the American people can be confident we're going to continue to roll out the test. And maybe most significant on that score is that the President brought health insurance companies in last week and they all agreed to waive the co-pays on testing. We expanded testing to Medicare and Medicaid patients. And we also expanded coverage for treatment, and health insurance companies expanded coverage for treatment. We don't want anybody to avoid having a test because they're concerned financially."

The risk to the average American remains low.

"I want people to know that the risk to contracting the coronavirus, according to all of our experts, for the average American remains low. Most people that contract it, will have flu-like symptoms and recover."

AMERICAN OVERSIGHT

ON CBS This Morning

WATCH HERE <https://grabien.com/getmedia.php?id=856403&key=076e051c5bee0accd97969ffc61e1e8a> .

We are going to continue to put in every effort in place to protect the health and safety of the American people.

“The President took the unprecedented step of suspending all travel from China which was the originating country of this virus. We also established travel advisories, and we've been screening passengers on all direct flights from South Korea and Italy. But with the epicenter of this epidemic now moving from China and South Korea to Europe, yesterday the President again took the unprecedented step of suspending all travel from Europe for the next 30 days, and that in combination with our strong mitigation efforts in communities that are experiencing what our experts call community spread, areas of California, Washington State, and New York, we're going to continue to put every effort at home and with regard to these travel restrictions in place to protect the health and safety of the American people.”

In the days ahead, we are going to continue to see the availability of tests at your local doctor and your local pharmacy expand.

“Testing is happening in every state lab in the country. Many university hospitals have taken the FDA test, like the University of Washington, is doing a great job expanding testing capabilities. But the biggest piece on the testing is that our commercial labs that the President brought in last week, companies like Quest and LabCorp, have already had approved a new test that they several days ago had begun to take to market which they can do in a vast and expansive way across the country. And literally in the days ahead, we're going to continue to see the availability of tests at your local doctor, ultimately at your local pharmacy, continue to expand.”

When President Trump learned that 70% of the new cases this week, around the world, were in Europe, he took decisive action to protect the American people.

“Make no mistake about it: All the new cases in the world, this week, 70% of the new cases were in Europe. And the increase has been dramatic. When the President imposed the travel advisory and we began screening all flights, all passengers coming into the United States from Italy two weeks ago, there were roughly 500 coronavirus cases. Now there's 12,000, about 1,000 in Germany, about 1,000 in France. That's the reason why the President essentially said full stop, we're going to suspend all travel, and that American citizens coming home and legal residents will be funneled through 13 different airports. They'll get an initial health screening coming in. But we're going to ask everyone returning to our country to self-quarantine for 14 days.”

Florida SEOC Situation Report COVID-19

Published: 3-17-2020 @ 14:00 EDT | **Changes in Red** | **Situation Report #15**

Cases in Florida

	Current	Change
Confirmed Resident Cases	173	+31
Florida Fatalities	6	+1
Florida Resident not in state	6	+0
Non-Florida Residents	19	+1
Negative Tests	940	+124
# of Counties with Cases	26	+1

All Numbers are derived from FDOH's Website

State Actions

- State EOC has been activated to a Level 1 with Emergency Services and Human Services emergency support functions at full staffing.
- Governor of Florida has signed EO 20-52 declaring a state of emergency. (Info Message 41)
- Governor recommends that communities and organizers cancel large events. CDC recommends that all events with 10 or more people be cancelled or postponed. Governor of Florida will be signing EO with additional guidance on restaurants and bars. (Info Message 264).
- The National Guard has mobilized to support point of collection, transportation, security, logistical operations in counties.
- The Drive Through Plan can be found in Info Message 252.

County Summary

- Local State of Emergencies have been declared in 39 counties. Another 14 are under consideration.
- Level 2 EOC in 34 counties.
- The SEOC is tracking 284 active resource requests from counties.
- All School districts are extending spring break.
- The following counties are reporting government office closures:
  - Charlotte, Clay, Flagler, Hendry, Hernando, Levy, Pasco, Seminole, Suwannee

Courtney,

Per your request attached is the specimen collection capacity numbers.

- 1176 – Total CHDs on-hand
- 0 - State inventory
- 5 - counties with none.
- 27 - counties have less than 10
- DEM orders expected tomorrow will not arrive.
- We don't expect our order to arrive for 2 weeks.

We can work tomorrow to move some from counties with more to the CHDs with none. We borrowed 50 from a hospital for Miami-Dade county who ran out today. They'll have 50 more tonight.

Thanks,
Samantha

STATE BARS VISITORS AT ALL NURSING HOMES

By Christine Sexton

TALLAHASSEE --- Gov. Ron DeSantis, while contending that many Florida residents are not at risk of getting the coronavirus, announced on Saturday a 30-day ban on visits to nursing homes as he acknowledged that the virus is spreading through some communities.

DeSantis, whose administration a day earlier had encouraged schools across the state to shut down for at least two weeks, also voiced his strong support for the federal government shutting down domestic flights to Florida from virus hot spots in other states.

“We’re taking measures to be able to keep this a manageable situation, " DeSantis said.…

Subject:	State Health Official & State Epi Touchbase
Date:	Thursday, March 12, 2020 5:32:53 PM
Attachments:	Considerations for school closure Draft 031220 Updated.pdf
Importance:	High

Dear Colleagues:

Thank you for your participation in today's state health official and state epidemiologist touch base. Please see the attached "**Interim Considerations for School Closures**" guidance. Feel free to send any questions to preparedness@cdc.gov.

State Coordination Task Force (SCTF)
Division of State and Local Readiness (DSLR)
Center for Preparedness and Response (CPR)

Centers for Disease Control and Prevention (CDC)
1600 Clifton Road, NE, MS H21-5, Atlanta, GA 30349-4027

(Sent by BCC to PHEP directors, state epidemiologists, state health officials, public health laboratory directors, and national and federal partners)

AMERICAN OVERSIGHT

Considerations for School Closure

Recommendations on school closure based on available science, reports from other countries and consultation with school health experts.

1. There is a role for school closure in response to school-based cases of COVID-19 for decontamination and contact tracing (few days of closure), in response to significant absenteeism of staff and students (short to medium length, i.e. 2-4 weeks of closure), or as part of a larger community mitigation strategy for jurisdictions with substantial community spread* (medium to long length, i.e. 4-8 weeks or more of closure).

2. Available modeling data indicate that early, short to medium closures do not impact the epi curve of COVID-19 or available health care measures (e.g., hospitalizations). There may be some impact of much longer closures (8 weeks, 20 weeks) further into community spread, but that modelling also shows that other mitigation efforts (e.g., handwashing, home isolation) have more impact on both spread of disease and health care measures. In other countries, those places who closed school (e.g., Hong Kong) have not had more success in reducing spread than those that did not (e.g., Singapore).

3. In places where school closures are necessary, the anticipated academic and economic impacts and unintended impacts on disease outcomes must be planned for and mitigated. Provision of academic support (e.g., tele-ed), alternatives for school-based meals as well as other services (e.g., behavioral and mental health services) for economically and physically vulnerable children, support for families for whom telework and paid sick leave is not available, ensuring that high risk individuals continue to be protected must all be addressed. Special consideration must be given for health care workers so that school closures do not impact their ability to work.

*Substantial community spread is defined as large scale community transmission, health care staffing significantly impacted, multiple cases within communal settings.

AMERICAN OVERSIGHT

School Decision Tree

All Schools Regardless of Community Spread

Confirmed person with COVID-19 in building? → Assess Risk → *Short (potential 2-5 Day) Building Dismissal to Clean/Disinfect/Contact Trace in consultation with local health officials*

No Community Spread

- Prepare
- Teach and reinforce healthy hygiene
- Develop information sharing systems
- Intensify cleaning and disinfection
- Monitor for absenteeism
- Assess group gatherings and events – consider postponing non-critical gatherings and events
- Require sick students and staff stay home
- Establish procedures for someone becoming sick at school

↓

Monitor changes in community spread

Minimal to Moderate OR Substantial Community Spread

Is community spread Minimal to Moderate or Substantial?

M/M

- Coordinate with local health officials.
- Implement multiple social distancing strategies for gatherings, classrooms, and movement through the building.
- Consider ways to accommodate needs of children and families at high risk.

S

- Coordinate with local health officials.
- Implement multiple social distancing strategies for gatherings, classrooms, and movement through the building WITH EXTENDED SCHOOL DISMISSALS.
- Consider ways to accommodate needs of children and families at high risk.

AMERICAN OVERSIGHT

Factors for Consideration for School Closure

Closing schools early in the spread of disease for a short time (e.g., 2 weeks) will be unlikely to stem the spread of disease or prevent impact on the health care system, while causing significant disruption for families, schools, and those who may be responding to COVID-19 outbreaks in health care settings. It may also increase impact on older adults who care for grandchildren. Waiting to enact school closures until at the correct time in the epidemic (e.g., later in the spread of disease) combined with other social distancing interventions allows for optimal impact despite disruption.

	Factors in favor of school closure	Factors against school closure	Further considerations
In response to school-based case (Less than 1 week closure)	• **Impact on disease** ○ Allows for decontamination ○ Allows time for epidemical evaluation and conact tracing; further action can be scaled based on epi investigation.	• **Impact on disease** ○ Social mixing may still occur outside of school with less ability to monitor, especially among older students.	• May occur frequently during a wide-spread outbreak
Short-term (2 weeks closure)	• **Impact on disease** ○ Allows time for further understanding of the local COVID-19 situation (e.g., community spread) ○ Increases social distancing amongst immediate school community. ○ Gives time for potentially exposed individuals to develop symptoms while not in school • **Impact on families** ○ Children may be less impacted by social isolation from their peers for shorter time frames • **Impact on school** ○ Schools are better prepared for short-term closures because they've been more likely to have experienced those (e.g., for weather)	• **Impact on disease** ○ Modeling data for other respiratory infections where children have higher disease impacts, suggests that early short term closures are not impactful in terms of overall transmission. ○ Social mixing may still occur outside of school with less ability to monitor, especially among older students. ○ Will increase risk to older adults or those with co-morbidities, as almost 40% of US grandparents provide childcare for grandchildren. School closures will likely increase this percentage. • **Impact on families** ○ Key services are interrupted for students (e.g., meals, other social,	• Disproportionate impact of children being out of school whose parents/family members are hourly and low-wage workers • Research from school staff tells us that schools find closures more acceptable when other events, gatherings, and facilities in the community are also closed or cancelled. • Concerns about household mixing of sick and well family members needs to be addressed • Consider non-closure social distancing first (e.g., staggering recess, cancelling assemblies and inter-school events.) • Economic impact if school staff are not paid during school closure must be considered.

AMERICAN OVERSIGHT

	○ Given current timing, some schools may be able to take advantage of spring break closures ○ Provides protection for older staff and students and staff with underlying medical conditions	physical health, and mental health services, after school programs) ○ Economic impact for families because of the costs of childcare and lost wages. There may be a loss of productivity even for parents who are able to telework. ○ Some families may not have capacity for students to participate in distance learning (e.g., no computers, internet access issues) even if provided by school. • **Impact on schools** ○ Potential academic impact because of the disruption to the continuity of learning • **Impact on health care** ○ Available health care workforce is decreased as HCW stay home with children.	
Medium-term (4 weeks closure)	• **Impact on disease** ○ Provides more protection for older staff and students and staff with underlying medical conditions • **Impact on schools** ○ Planned closures of longer periods may be easier for families to plan for than rolling closures with unexpected timing and duration, including possibly last-minute notice	• **Impact on disease** ○ Longer closures may result in more students congregating outside of school (e.g., other students' homes, shopping malls) ○ Will increase risk to older adults or those with co-morbidities, as almost 40% of US grandparents provide childcare for grandchildren. School closures will likely increase this percentage. • **Impact on families** ○ Students who rely on key services (e.g., meals, other social, physical health, and mental health services,	• Disproportionate impact of children being out of school whose parents/family members are hourly and low-wage workers • If a school closes for this length of time, schools must consider ways to continue key services • Research from school staff tells us that schools find closures more acceptable when other events, gatherings, and facilities in the community are also closed or cancelled. • Consider coupling with other social actions to mitigate risk of increased social mixing in other community areas

AMERICAN OVERSIGHT

		after school programs) are put at greater risk ○ Economic impact grows with length of closure; furthermore, this may exacerbate disparities among families at different SES levels (e.g., parents with lower wage jobs may lose jobs) ○ High school seniors likely to lose ability to participate in their prom, graduation etc. ○ Some families may not have capacity for students to participate in distance learning (e.g., no computers, internet access issues) even if provided by school. • **Impact on schools** ○ Significant impact on academic outcomes may occur. Losing one month of learning may prevent students from meeting grade level knowledge and skill expectations and may jeopardize schools' ability to meet standardized testing requirements ○ School staff may be differentially impacted (e.g., hourly workers may be less able to sustain longer closures) • **Impact on health care** ○ Available health care workforce is decreased as HCW stay home with children.	• Because closures are likely to increase anxiety among students, families, and community members, excellent messaging is needed along with the school closure. • Economic impact if school staff are not paid during school closure must be considered.
Long-term (8 weeks, 20 weeks closure)	• **Impact on disease** ○ Modeling data for other respiratory infections where children have	• **Impact on disease** ○ Longer closures may result in more students congregating outside of	• Disproportionate impact of children being out of school for hourly and low-wage workers (compared to salaried

AMERICAN OVERSIGHT

	higher disease impacts, suggests that longer closures are may have greater impact in terms of overall transmission. Provides substantial protection for older staff and students and staff with underlying medical conditions • **Impact on schools** ○ Schools without distance learning may see closures of this length as reason to implement distance learning approaches they may not have previously had or used	school (e.g., other students' homes, shopping malls) ○ Will increase risk to older adults or those with co-morbidities, as almost 40% of US grandparents provide childcare for grandchildren. School closures will likely increase this percentage. • **Impact on families** ○ Students who rely on key services (e.g., meals, other social, physical health, and mental health services, after school programs) are put at substantial risk ○ Economic impact grows with length of closure; furthermore, this may exacerbate disparities among families at different SES levels (e.g., parents with lower wage jobs may lose jobs) ○ Student engagement with schools and peers diminishes, which could increase anxiety and other mental health and emotional problems. ○ High school seniors likely to lose ability to participate in their prom, graduation etc. • **Impact on schools** ○ Significant impact on academic outcomes will likely occur; losing 2 months of learning is likely to prevent many students from meeting grade level knowledge and skill expectations and will jeopardize schools' ability to meet standardized testing requirements	workers who may have more flexible leave and telework opportunities) • If a school closes for this length of time, schools must consider ways to continue key services • Research from school staff tells us that schools find closures more acceptable when other events, gatherings, and facilities in the community are also closed or cancelled. • Because closures are likely to increase anxiety among students, families, and community members, excellent messaging is needed along with the school closure. • Given current timing, 20 week closures may not impact schools much more substantially than 8 week closures. Many schools end for the year in late May; some continue until mid June. • A 20 week scenario could still have substantial impact on parents who need to find summer care for students. If schools are dismissed, one would expect summer camps might be cancelled as well • Economic impact if school staff are not paid during school closure must be considered.

AMERICAN OVERSIGHT

		○ Loss of educational progress, even having to add an extra semester or year to graduate or move up a grade ○ Staff within the schools may be differentially impacted (e.g., hourly workers may be less able to sustain longer closures) ○ Maintaining communication with school staff, families, and students becomes substantially more difficult as the school closure lengthens. • **Impact on health care** ○ Available health care workforce is decreased as HCW stay home with children.	

Points for further consideration, regardless of degree of spread or length of potential closure

- Clear rationale, decision-making and communication with all stakeholders is extremely important. Families need to know who is making decisions, what those decisions are and when school-based mitigation efforts are planned to start and end.
- While we have data that can contribute to decisions about when to dismiss schools, there is almost no available data on the right time to re-start schools. We would advise to plan for a length of time and then evaluate based on continued community spread.
- The relationship between state and local education agencies and state and local public health must be strong and communication must be clear and thorough.
- Critical academic infrastructure and service provision must be considered during school closure.

Subject: Status of Chile charter (Silver Express pax)
Date: Wednesday, March 18, 2020 8:59:14 AM

I am slimming the chain to take our overseas colleagues off for right now. Please add DHS and others in the US as needed. Adding the State Department COVID coordination unit and consular reps.

Eleni - we understand the charter from Chile is scheduled to land in MIA between 1200-1300 EDT, and that FL state authorities have said non FL residents will not be allowed to continue onward to home unless moved to another charter.

Can you give us the latest? We are concerned both about Amcits on this flight as well as future charters by RC or other charters seeking to land in FL.

Thanks - Doug

Subject: RE: [EXTERNAL] Re: Royal Caribbean Ships off Brazil/Chile

Dear Eleni,
Please clarify your request and the plan – which passengers are you referring to? The air ambulance passengers or the ones who are not ill and are coming in the larger charter?

As I wrote earlier, CDC will not be conducting any health screening. For the passengers who are not arriving by air ambulance, CBP/CWMD would screen the passengers based on their own protocol. CDC Quarantine Station staff will be available to respond to any illness events, as requested by CBP.

For the air ambulance, they need assessment – I understood that you have made arrangements with Dr. Barth Green/University of Miami, who is not affiliated with CDC. He/his team would make an assessment of those 6 individuals.

Michelle –

Slight change of plans. Upon arrival at MIA, Royal Caribbean will now be arranging individual charter flights for the passengers who are cleared by CDC to return to their home cities/states.

Our team has asked that CDC provide something in writing tomorrow that we can provide to the charter companies indicating that the passenger(s) boarding the charter flights have been cleared to fly commercially. We do not want the charters to deny boarding to these passengers simply because they have arrived in MIA from a cruise ship.

Thanks,

Eleni

Coronavirus Disease 2019 (COVID-19)

Interim Enhanced Surveillance Guidance for County Health Departments (CHDs)

Version ~~3.14~~ | ~~February 28~~March 11, 2020

Florida HEALTH

Summary

- **Surveillance:** CHDs should apply the definitions of a COVID-19 case or ~~of~~ person under investigation (PUI) ~~for COVID-19~~ to determine if public health laboratory testing and public health investigation is needed.
- **Investigations:** Investigations should occur for individuals with a reported positive commercial PCR, or meeting the definition of PUI for COVID-19, within the same day of CHD notification, including weekends and holidays.
  - ~~County epidemiology staff should alert their regional epidemiologist and laboratory liaison, or BOE on-call epidemiologist if after-hours, of all PUIs for COVID-19.~~
- **Reporting PUIs and Cases:** PUIs or persons meeting the confirmed or probable case definition for COVID-19 should be entered into Merlin the same day of report (including weekends and holidays).
- **CHD Laboratory Results Notification Process for COVID-19:** ~~Emailed from~~
  - Commercial laboratory results for COVID-19 will either be reported through electronic laboratory reporting (ELR), faxing, or phone calls from laboratories. Results received at the Bureau of Epidemiology will be sent to counties via Merlin.
  - Bureau of Public Health Laboratories ~~until~~ test results are reported to CHDs ~~available~~ through ~~Labware and~~ Merlin and they are mailed to the ordering providers.
    - CHD staff are asked to share urgent BPHL lab results with ordering providers.
- **Documents on this topic dated after the version date, supersede this one.**

Background

On January 11, 2020, Chinese health authorities preliminarily identified more than 40 human infections with a novel coronavirus during an outbreak of pneumonia under investigation in Wuhan City, Hubei Province, China. Chinese health authorities subsequently posted the full genome of the COVID-19 in GenBank ®, the National Institutes of Health genetic sequence database.

The Centers for Disease Control and Prevention (CDC) continues to monitor this outbreak, which includes over ~~80,000~~110,000 confirmed human cases and over 42,~~700~~ 000 deaths worldwide. COVID-19 cases have been reported in >~~45~~ 110 countries. Many cases have been associated with travel to or from China, Italy, Iran, and South Korea; however, community spread is being detected in growing number of locations across the globe, including many European countries.

Coronaviruses are a large family of viruses, some causing illness in people and others that circulate among animals, including camels, cats, and bats. Rarely, animal coronaviruses can evolve and infect people and then spread between people, as seen with Middle East Respiratory Syndrome and Severe Acute Respiratory Syndrome.

There is ~~an~~ are many ongoing investigations to determine more about this outbreak. This is a rapidly evolving situation. This document may become outdated as situations change.

For the latest situation updates, visit www.cdc.gov/coronavirus/novel-coronavirus-2019.html.

Surveillance for COVID-19

Beginning on March 5, 2020 commercial laboratories began testing clinical specimens for COVID-19. The availability of commercial testing changes the scope and purpose of public health testing.

- Health care providers are **not** asked to report all persons being tested for COVID-19 to the Department.
- Providers may choose to submit specimens for any patient to a commercial laboratory.
- When health care providers are unable to access commercial laboratory testing, CHDs may facilitate testing at BPHL for persons that meet CDC priority criteria.
- When illnesses are reported to the CHD, only persons meeting the PUI criteria below, or being tested at BPHL, are requested be entered in Merlin.
- Commercial laboratory reports will be received by ELR, fax, and phone.
- Bureau of Epidemiology will send positive COVID-19 laboratory results to CHDs Merlin task list.
- Persons with a positive COVID-19 result from a commercial laboratory should be investigated as a confirmed case of COVID-19.
- CHDs are **not** asked to routinely collect specimens from patients for submission to commercial laboratories.
- CHDs are **not** asked to request submission of positive specimens from commercial laboratories to BPHL for confirmation. The confirmation process will be coordinated as needed by BOE or BPHL.

Public health investigations are warranted for persons that meet the criteria below or have a positive COVID-19 result from a commercial laboratory.

A PUI for public health laboratory testing is a person with the following characteristics, (others are requested to be sent to commercial laboratories):

Clinical Features		Risk Criteria
Fever[1] **or** signs/symptoms of lower respiratory illness (e.g. cough or shortness of breath)	**AND**	Any person, including health care workers[2], who has had close contact[3] with a laboratory-confirmed[4] COVID-19 patient within 14 days of symptom onset
Fever[1] ~~**and**~~ **or** signs/symptoms of a lower respiratory illness (e.g., cough or shortness of breath)	**AND**	~~A history of travel from an affected geographic area with sustained community transmission[5] within 14 days of symptom onset~~Suspected to be part of an outbreak of respiratory illness.
Fever[1] with severe acute lower respiratory illness (e.g., pneumonia, ARDS) requiring hospitalization, or causing death, and without alternative explanatory diagnosis ~~(e.g., influenza)~~[6]	**AND**	No source of exposure has been identified

DRAFT

AMERICAN OVERSIGHT

Fever[1] **or** signs/symptoms of lower respiratory illness (e.g. cough or shortness of breath)		A history of travel to or from an affected geographic area with widespread community transmission.[5]

Patients with lower respiratory illness should also be evaluated for common causes of community-acquired pneumonia, guided by clinical presentation and epidemiologic and surveillance information. For these patients, testing for COVID-19 and other respiratory pathogens should be done simultaneously. Positive results for another respiratory pathogen (e.g., influenza) should not preclude testing for COVID-19 because co-infection may occur.

[1]Fever may be subjective or confirmed.

[2]For healthcare personnel, testing may be considered if there has been exposure to a person with suspected COVID-19 without laboratory confirmation

[3]Close contact is defined as:

A. being within approximately 6 feet (2 meters) of a COVID-19 case for a prolonged period of time; close contact can occur while caring for, living with, visiting, or sharing a healthcare waiting area or room with a COVID-19 case

   OR

B. having direct contact with infectious secretions of a COVID-19 case (e.g., being coughed on)

If such contact occurs while not wearing recommended personal protective equipment or PPE (e.g., gowns, gloves, NIOSH-certified disposable N95 respirator, eye protection), criteria for PUI consideration are met.

See CDC's updated Interim Infection Prevention and Control Recommendations for Patients with Confirmed COVID-19 or Persons Under Investigation for COVID-19 in Healthcare Settings.

Data to inform the definition of close contact are limited. Considerations when assessing close contact include the duration of exposure (e.g., longer exposure time likely increases exposure risk) and the clinical symptoms of the person with COVID-19 (e.g., coughing likely increases exposure risk as does exposure to a severely ill patient). Special consideration should be given to healthcare personnel exposed in healthcare settings as described in CDC's Interim U.S. Guidance for Risk Assessment and Public Health Management of Healthcare Personnel with Potential Exposure in a Healthcare Setting to Patients with COVID-19.

[4]Documentation of laboratory-confirmation of COVID-19 may not be possible for travelers or persons caring for patients in other countries.

[5]~~Affected regions will change over time so review the most up-to-date information at such sources as:~~

Investigations of PUI for COVID-19

- County epidemiology staff should investigate each report of possible COVID-19 to determine if the COVID-19 case or PUI ~~for COVID-19~~ criteria are met.
- County epidemiology staff should apply PUI criteria to make determinations for if public health laboratory testing is warranted. ~~should contact their~~CHD staff may contact the Regional Epidemiologist and Laboratory Liaison, or Bureau of Epidemiology (BOE) on-call epidemiologist (if after hours), ~~if a county is investigating a potential PUI or~~ if they have any questions.
- Conduct patient/proxy or health care provider interviews and record reviews to obtain essential information, which includes history of present illness, medical history, travel dates, flight information, risk factors, differential diagnoses, and microbiology test results.
- Enter the PUI into Merlin (see 'Reporting COVID-19 PUI and Cases in Merlin') and complete extended data within 24 hours of receipt of information.

Infection Control Considerations

- PUIs should be asked to wear a surgical mask as soon as they are identified and be evaluated in a private room with the door closed, ideally an airborne infection isolation room, if available.
- While a PUI for COVID-19 is receiving health care, it is important that standard, contact, and airborne precautions are used.

Managing Pets of Cases

- Symptomatic persons with COVID-19 should avoid direct contact with pets as they would other household members. https://www.cdc.gov/coronavirus/2019-ncov/php/interim-guidance-managing-people-in-home-care-and-isolation-who-have-pets.html

Management of Cases and PUIs

- A PUI may be discharged before COVID-19 is ruled out. The decision to discharge a PUI for COVID-19 is up to the treating physician.
  - PUIs should be provided surgical masks and asked to isolate themselves at home until fever and symptom-free for 24 hours without antipyretic medication (acetaminophen, ibuprofen).
  - Close contacts of confirmed or probable cases who develop compatible symptoms should also be managed as COVID-19 PUIs. Specimens should be collected, and PUIS should be isolated at home or while seeking health care until COVID-19 testing is completed.
- For **confirmed** COVID-19 cases, the decision to discharge is based on public health and medical assessment with the BOE, including presence of symptoms and multiple negative specimens.

Laboratory Testing and Specimen Collection

- If ~~PUI criteria are met, or if~~ you have questions about laboratory testing or specimen collection for a patient, contact your Regional Epidemiologist and Laboratory Liaison (http://www.floridahealth.gov/diseases-and-conditions/disease-reporting-and-management/disease-reporting-and-surveillance/_documents/investigation-unit-map.pdf) or the after-hours BOE on-call epidemiologist (850-245-4401). ~~to arrange for specimens to be submitted to the Bureau of Public Health Laboratories (BPHL).~~
- Specimens should be collected as soon as possible once a PUI is identified regardless of symptom onset.
- To increase the likelihood of detecting COVID-19, CDC recommends collecting both lower and upper respiratory specimens:
  - Upper respiratory: nasopharyngeal and oropharyngeal swabs in viral transport media, ~~each~~ in ~~a separate~~ one viral transport media specimen container; nasopharyngeal wash/aspirate or nasal aspirate may be used as well.
  - Lower respiratory: sputum, bronchial alveolar lavage/tracheal aspirate, in a sterile container
- If additional specimen types such as stool, urine, or whole blood are collected, they can be stored for potential future use.
- Ship specimens overnight for arrival to BPHL in Jacksonville, Miami, or Tampa following notification to the appropriate BPHL location.
- Include a completed DH-1847 form with the specimens.
  - **Merlin case number must be on the form for specimens to be tested** (Please note that if it's missing, testing could be delayed.)
  - All specimens can be listed on a single form
- **Shipments arriving on the weekend must be pre-authorized by BPHL ~~and BOE~~.**
- Ship specimens using category B shipping containers.
- **Notification Process of Laboratory Results:** Emailed from Bureau of Public Health Laboratories until test results are available through Labware and Merlin.

Reporting COVID-19 PUIs and Cases in Merlin

- ~~See Individuals meeting the confirmed, probable, or PUI (suspect) case definition for COVID-19 should be entered into Merlin **immediately**~~
  - ~~Use the disease code **"Coronavirus, Novel 2019 (COVID-19) – 00342"** when entering PUIs in Merlin.~~

Disease

Coronavirus, Novel 2019 (2019-nCoV) - 00342 ×

- ~~PUI will be listed as **suspect** DX status until laboratory results have been returned.~~

DRAFT

AMERICAN OVERSIGHT

FL-DOH-20-0900-A-014009

- ~~Attach all available medical records, laboratory results, and paper PUI form to the Merlin case.~~
- COVID-19 merlin data management guidance ~~Ensure laboratory results are attached to the case and submit.~~

  - Lower respiratory: sputum, bronchial alveolar lavage/tracheal aspirate, in a sterile container
- If additional specimen types such as stool, urine, or whole blood are collected, they can be stored for potential future use.
- Ship specimens overnight for arrival to BPHL in Jacksonville, Miami, or Tampa following notification to the appropriate BPHL location.
- Include a completed DH-1847 form with the specimens.
  - **Merlin case number must be on the form for specimens to be tested** (Please note that if it's missing, testing could be delayed.)
  - All specimens can be listed on a single form
- **Shipments arriving on the weekend must be pre-authorized by BPHL ~~and BOE~~.**
- Ship specimens using category B shipping containers.
- **Notification Process of Laboratory Results:** Emailed from Bureau of Public Health Laboratories until test results are available through Labware and Merlin.

Reporting COVID-19 PUIs and Cases in Merlin

- ~~See Individuals meeting the confirmed, probable, or PUI (suspect) case definition for COVID-19 should be entered into Merlin **immediately**~~
  - ~~Use the disease code **"Coronavirus, Novel 2019 (COVID-19) – 00342"** when entering PUIs in Merlin.~~

Disease

Coronavirus, Novel 2019 (2019-nCoV) - 00342 ×

- ~~PUI will be listed as **suspect** DX status until laboratory results have been returned.~~

DRAFT

AMERICAN OVERSIGHT

- ~~Attach all available medical records, laboratory results, and paper PUI form to the Merlin case.~~
- COVID-19 merlin data management guidance ~~Ensure laboratory results are attached to the case and submit.~~

COVID-19

The White House Resources and Updates

CDC to Award Over $560 Million to State & Local Jurisdictions in Support of COVID-19 Response (more here)
The Department of Health and Human Services (HHS) is announcing another upcoming action by the Centers for Disease Control and Prevention (CDC) to provide resources to state and local jurisdictions in support of our nation's response to the coronavirus disease 2019 (COVID-19). The $8.3 billion dollar Supplemental passed by Congress included statutory language which prescribed the exact formula for disbursing the money: states will receive 90% of their 2019 CDC PHEP grants. This marks the first tranche of funding to states from the $8.3 billion supplemental. Your state health officers are receiving a letter from CDC outlining what is needed to receive the funding, essentially they need to submit a spend plan and they will receive guidance on what that spend plan should contain.

White House Coronavirus Task Force Announces Community Mitigation Strategies for Seattle, Santa Clara

AMERICAN OVERSIGHT

The White House Coronavirus Task Force recommended 30-day mitigation strategies for Seattle-King, Pierce, and Snohomish County, Washington, and Santa Clara County, California due to widespread transmission of coronavirus disease 2019 (COVID-19). These mitigation activities are designed to address the effects of COVID-19 on areas that are experiencing community spread.

Centers for Medicare & Medicaid Services (CMS) Nursing Home Guidance
As you know, nursing homes and their residents are vulnerable populations for COVID-19. This week, CMS released updated guidance for infection control and prevention of COVID-19 in Nursing Homes which can be found here (3/9). The Press Release can be found here and all CMS guidance related to COVID-19 can be found here.

The White House Task Force on Coronavirus and the Centers for Disease Control & Prevention have released two helpful documents for State, local, tribal, and community leaders.

Actions for All Americans *(4-page slide deck)*
- Keeping the workplace safe
- Keeping the school safe
- Keeping the home safe
- Keeping commercial establishments safe

A Framework for Mitigation: Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission *(10-page frame work for States, localities, and communities)*
Protect yourself and your community from getting and spreading respiratory illnesses like coronavirus disease 2019. Everyone has a role to play in getting ready and staying healthy. CDC is aggressively responding to the global outbreak of COVID-19 and community spread in the United States. CDC's all of community approach is focused to slow the transmission of COVID-19, reduce illness and death, while minimizing social and economic impacts. Framework includes:
- Local Factors to Consider for Determining Mitigation Strategies
- Community mitigation strategies by setting and by level of community transmission or impact of COVID-19
- Potential mitigation strategies for public health functions

Recent Actions
- HHS Supports Development of First High-Throughput COVID-19 Diagnostic Test (click here)
- CMS Issues Key Protective Mask Guidance for Healthcare Workers (click here)
- CMS Issues Clear, Actionable Guidance to Providers about COVID-19 Virus (click here)
- CMS Issues Call to Action for Hospital Emergency Departments to Screen Patients for Coronavirus (click here)
- Telehealth Benefits in Medicare are a Lifeline for Patients During Coronavirus Outbreak (click here)

SPRING DINNER
TO BE HELD IN DENVER ON APRIL 21

AMERICAN OVERSIGHT

COVID-19 Update for our Members:

The health and wellbeing of our members, event attendees and staff is a top priority for the AG Alliance. With the information currently available, the Cannabis and Cybersecurity meetings and our Spring Dinner **WILL** continue as scheduled.

We are closely monitoring the situation and following the advice of the CDC and WHO. According to CDC, the immediate health risk for the general American public is considered low. Please visit their current travel advice webpage for more information.

We are staying in close communication with officials and our event location in regards. We will provide additional updates as necessary.

COVID-19 Events Toolkit

AMERICAN OVERSIGHT

The AG Alliance and Colorado Attorney General and CWAG Executive Committee Chair, Phil Weiser, will host our 2020 Spring Dinner, scheduled for Tuesday, April 21st at the Ritz Carlton in Denver, Colorado.

For questions regarding **Spring Dinner or sponsorship**, please contact Meetings & Events Manager Ale Stephens at AStephens@AGAlliance.org or 303.304.9206.

This year, the AG Alliance will also host two additional on-site subcommittee meetings. The Cybersecurity Working Group and Cannabis Project Meeting are invitation-only. For more information, please contact project leads:

RESPONSIBLE SPORTS BETTING

American Gaming Association Launches Responsible Sports Betting Ad Campaign

American Gaming Association
March 5, 2020

Fans in legal sports betting states will see in-arena responsibility messaging due to the American Gaming Association’s (AGA) new public service campaign designed to educate fans and consumers about responsible sports betting practices.

The Have a Game Plan™, Bet Responsibly campaign is currently live in Capital One Arena in Washington, DC and T-Mobile Arena in Las Vegas, NV, with plans to launch in other sports betting markets soon. Through the campaign, the AGA is leading the gaming industry in responsible sports betting promotion, both in key markets and nationally. The effort also focuses on bolstering responsible gaming engagement from sports leagues, teams, and other new entrants into the sports betting ecosystem.

Oregon Attorney General Rosenblum Announces T-Mobile, Sprint Merger Settlement

March 11, 2020

Oregon Attorney General Ellen Rosenblum announced a settlement with T-Mobile, resolving Oregon’s challenge to the company’s merger with Sprint. The settlement includes terms to protect low income subscribers throughout the state, extend access to underserved communities and protect current T-Mobile and Sprint employees in Oregon. T-Mobile will also reimburse Oregon and other states who had sued for legal costs and fees associated with the litigation and the underlying investigation. Oregon had joined the multistate lawsuit to block the anticompetitive merger in August, 2019. As part of the settlement, Oregon and

AMERICAN OVERSIGHT

the other coalition states agree not to appeal the New York court's recent decision allowing the merger to go forward.

Vermont Attorney General Donovan Sues Clearview AI for Violations of Consumer Protection Act and Data Broker Law

March 10, 2020

Attorney General Donovan filed a lawsuit against Clearview AI, a data broker that uses facial recognition technology to map the faces of Vermonters, including children, and sells access to this data to private businesses, individuals, and law enforcement. The complaint, filed in Chittenden Superior Court – Civil Division, alleges violations of the Vermont Consumer Protection Act and the new Data Broker Law. Along with the complaint, the State filed a motion for preliminary injunction, asking the Court to order Clearview AI to immediately stop collecting or storing Vermonters' photos and facial recognition data.

BANNING JUVENILE SOLITARY CONFINEMENT

Washington Attorney General Ferguson's Legislative Proposal to Ban Solitary Confinement As Punishment for Juveniles Passes Legislature

March 6, 2020

Attorney General Bob Ferguson's agency-request legislation to ban solitary confinement as a punitive practice for juveniles passed the Washington State Legislature, in a strong bipartisan vote of 36-13.

There is a growing national consensus that placing juveniles in solitary confinement is inhumane and does not improve behavior. Studies have shown solitary confinement to be both emotionally and psychologically damaging for youth, as well as ineffective at improving behavior. Solitary confinement exacerbates stress and other mental health conditions, particularly for youth.

SPONSOR SPOTLIGHT: CAPITAL ONE

Championing for Diverse and Inclusive Workplaces

By Meghan Welch, Chief Diversity, Inclusion and Belonging Officer, Capital One

March 11, 2020

In my role as Capital One's Chief Diversity, Inclusion and Belonging Officer, I lead a talented team focused on helping our businesses attract, grow, nurture and develop a diverse workforce. We want every associate to feel a sense of belonging and thrive, finding meaning, purpose and connection in their work.

Capital One's commitment to diversity, inclusion and belonging extends beyond our company and we continue to take a stand—to boldly share our voice—and advocate on behalf of our associates, customers and communities. In the last several months, Capital One has been a leading champion advocating for ratification of the Equal Rights Amendment (ERA) and passage of other anti-discrimination bills.

Alongside senior leaders from across the company, I've spent time meeting with members of the House Financial Services Committee (HFSC) who have oversight over diversity and inclusion policies and practices in the financial services industry. The HFSC has examined diversity and inclusion data and policies at 44 large financial services companies,

AMERICAN OVERSIGHT

including Capital One, and released a report summarizing its findings of the industry in mid-February.

FOR IMMEDIATE RELEASE March 18, 2020

Contact: Joint Information Center on COVID-19 for the State of Florida (850) 815-4940, ESF14@em.myflorida.com

The State of Florida Issues Updates on COVID-19

TALLAHASSEE, Fla. - The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the Florida Emergency Operations Center, Governor DeSantis announced the following:

- One additional person has died in Clay County.
- Earlier this week, the state received news that an ALF resident who passed away had tested positive for COVID-19. The state then learned that two additional residents in the same facility passed away. Those individuals tested negative for COVID-19.
- Since February 22, FDOH labs in Miami, Jacksonville, and Tampa have tested more than 1,600 people.
- During the week of March 8, private labs began processing COVID-19 tests. Since then, more than 50 private labs have completed more than 2,050 tests.
- The Florida National Guard is assembling a drive-through testing facility at Broward Memorial Healthcare System.
- To support communities responding to COVID-19, Governor DeSantis has directed FDEM Director Jared Moskowitz to expedite the delivery of more than $170 million in Hurricane Irma reimbursements to cities, counties and hospital districts that have now reached the 50-percent auditing threshold to receive funds.
- To support the volume of calls to the COVID-19 call center and the reemployment assistance call center, Governor DeSantis directed State Surgeon General Dr. Rivkees and DEO Director Ken Lawson to expand the call-handling capacity of those call centers.

More Information on COVID-19

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with

AMERICAN OVERSIGHT

the Department to determine if the person should be tested for COVID-19.

Actions the state has taken to prepare for and respond to COVID-19:

DEPARTMENT OF HEALTH

- At the direction of Governor DeSantis, State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health (DOH), working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in-state and all out-of-state travel for state employees for 30 days.
- DOH established an Incident Management Team to coordinate response operations.
- DOH defined a high-level phased response strategy for COVID-19.
- DOH activated a dedicated incident command post for on-site response activities.
- DOH conducted three public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined the calls.
- DOH established a public call center for questions regarding COVID-19. The call center launched Monday, March 2.
- DOH developed and distributed COVID-19 presentation materials to County Health Departments (CHD) for use at community meetings.
- DOH activated the Joint Information Center in coordination with the Division of Emergency Management.
- DOH developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- DOH established mechanisms for monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- DOH distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUI) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- DOH approved and disseminated an updated Clinician Screening Tool for identifying COVID-19 PUIs.
- DOH distributed a health care provider letter regarding enhanced surveillance and preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- DOH implemented testing at all three State Public Health Laboratories.
- DOH distributed updated CDC guidance for schools to CHDs and the Department of Education.
- DOH distributed updated laboratory guidance regarding implementation of testing at State Public Health Laboratories.
- DOH developing a laboratory surge plan.
- DOH developing a clinician-level briefing for medical audiences.
- DOH identifying and monitoring close contacts of presumptive cases. Any close contacts with symptoms will be tested.
- DOH implemented private lab testing.
- DOH developed and disseminated pandemic planning guidance.
- DOH advised CHDs and HCCs to retain expired personal protective equipment until further until further notice.
- DOH continued development of public information resources.
- DOH developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- At the direction of Governor DeSantis hiring additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.

THE DIVISION OF EMERGENCY MANAGEMENT

- Yesterday, Governor DeSantis and DEM Director Jared Moskowitz announced that Florida is continuing to order supplies and personal protective equipment in an effort to mitigate and contain the spread of COVID-19 in the state.
- After conducting a thorough assessment of needs, Director Moskowitz has requested the following supplies through Direct Federal Assistance. Supplies are being delivered on a rolling basis, and inventory is being distributed throughout the state 24 hours a day.
  - 5 mobile intensive care units
  - 5,000 ventilators
  - 5,000 hospital beds
  - 50,000 two oz. bottles of hand sanitizer
  - 250,000 coveralls
  - 500,000 gloves
  - 500,000 gowns
  - 500,000 collection kits
  - 100,000 16 oz. bottles of hand sanitizers
  - 150,000 Personal Protective Equipment kits, including coveralls, gowns, and goggles
  - 2 million N95 face masks
- Director Moskowitz is working with the federal government to determine if there is capacity to add US Navy Mercy-Class ships at Florida ports.
- Three field hospitals are being deployed.
- Mobile COVID-19 testing is also being implemented.

AGENCY FOR HEALTH CARE ADMINISTRATION

- Secretary Mayhew is working directly with hospitals and large health systems to identify potential vacant wings or buildings to provide additional hospital inpatient capacity should it become necessary.
- On March 16, Florida became the first state to receive CMS approval of its 1135 Medicaid Waiver giving AHCA more flexibility for its COVID-19 response efforts. This federal action lifts Medicaid prior authorization requirements for critical health care services and allows for expedited provider enrollment.
- AHCA distributed a provider alert to licensed health care providers regarding the Division of Emergency Management's new Emergency Order tightening visitation restrictions at residential and long-term care facilities.
- AHCA, in coordination with the DEM and the Department, is hosting ongoing statewide calls for nursing homes, assisted living facilities, intermediate care facilities, the Agency for Persons with Disabilities, group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting visitors and providing updates.
- AHCA, in coordination with DEM and the Department, is hosting ongoing statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.

AMERICAN OVERSIGHT

- After previously opening an event on the Emergency Status System (ESS) for hospitals to enter census information, emergency room status updates and isolation beds, AHCA expanded the ESS event to track nursing homes and assisted living facility bed capacity, effective March 15.
- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from the Centers for Medicare and Medicaid Services (CMS) related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA distributed information to health care providers regarding **guidance and clarifications on DEM's Emergency Order No. 20-006.**
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.

AGENCY FOR PERSONS WITH DISABILITIES

- APD and AHCA hosted a Provider conference call to share information on modifications to some existing policies and practices during this state of emergency due to COVID -19. APD and AHCA are researching responses to additional questions raised during the call. The answers will be posted on apdcares.org.
- APD is implementing telework for employees throughout the state as directed by Governor DeSantis to reduce possible exposure to COVID-19.
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors coming into APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance, in addition to CMS guidance, to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- Secretary Prudom participated in a conference call with the Administration on Community Living (ACL) and ten other State Units on Aging. He presented an update on what Florida is doing regarding issues and challenges during COVID-19.
- DOEA released an updated **interactive** Elder Needs Index (ENI). *Best opened in Google Chrome.*
- DOEA's Long-Term Care Ombudsman Program (LTCOP) hosted a conference call with regional ombudsman managers to discuss strategies for advocacy during COVID-19 environment.
- LTCOP participated in conference calls with National Association of State Ombudsman (NASOP), Florida Healthcare Association (FHCA), and Consumer Voice with Administration for Community Living (ACL). All concerning COVID-19.
- DOEA participated on a statewide call coordinated by the Florida Association of Service Providers (FASP) statewide regarding COVID-19 issues, trends, and concerns.
- DOEA participated in an Aging and Disability Resource Center (ADRC) workgroup conference call to discuss specific issues related to COVID-19 and statewide waiver requests.
- DOEA coordinated planning with the Agency for Health Care Administration (AHCA) to discuss Adult Day Care Centers and the provision of meals should they close.
- DOEA participated on the United States Department of Agriculture's (USDA) southeast region call regarding COVID-19 as it relates Adult Care Food Programs.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families' (DCF) Office of Child Welfare is sending regular communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). An FAQ document for providers was also posted prominently on DCF's Child Care webpage.
- DCF's Office of Child Welfare is disseminating a survey to licensed child care providers to assess closures throughout the state. Currently, the decision to close is at the discretion of each individual facility.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF is leading status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday.
- DCF General Services staff throughout the state are working with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and are ordering more as needed.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility. At this time, there are no cases of patients or facility staff testing positive for COVID-19.
- DCF's Office of Economic Self-Sufficiency is communicating with DEO regarding work requirements and CareerSource operations and availability.
- DCF's Office of Economic Self-Sufficiency implemented screening procedures, including a set of questions that must be asked prior to entry, at all economic self-sufficiency storefronts.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care. In addition, we are temporarily suspending admissions in our network of state veterans' homes. Thank you for your understanding.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- The VA Sunshine Healthcare Network (VISN 8) is taking additional steps to slow the spread of COVID-19 to protect healthcare system's capabilities, healthcare workers and veterans. Facilities within the VISN 8 Network include the Bay Pines VA Healthcare System, James A. Haley Veterans' Hospital and Clinics, Miami VA Healthcare System, North Florida/South Georgia Veterans Health System, Orlando VA Healthcare System, VA Caribbean Healthcare System, and the West Palm Beach VA Medical Center.
    - These actions include:
        - VISN 8 facilities are transitioning to virtual appointments to the fullest extent to allow veterans to stay at home, avoid exposure to

AMERICAN OVERSIGHT

others and reduce their risk; Veterans with appointments will be contacted several days beforehand to discuss virtual appointment options available to them.
    - Veterans can help with this transition by visiting the VA Video On-Demand webpage for more information: https://mobile.va.gov/content/getting-started-0.
    - Veterans enrolled for care within VISN 8 can continue to use the VISN 8 Clinical Contact Center for 24/7 virtual urgent care by calling 1-877-741-3400 (toll free) or by using the VA Health Chat App. Veterans who are concerned they may have symptoms of Coronavirus, flu or cold should contact the center first before coming to a VA facility.
    - VISN 8 facilities will cease non-urgent elective procedures. Any impacted veterans will be contacted directly by their health care team to reschedule. Urgent and emergent elective procedures will continue during this period.
    - VISN 8 facilities are further restricting visitations. Only one visitor will be permitted per veteran if required to provide assistance moving a patient to and from an appointment, providing support to an inpatient in a palliative or hospice care unit, or for veterans who have major procedures. Visitors who screen positive will not be granted access to the medical centers.
- These newly announced actions do not supersede or replace activities announced by VISN 8 last week. All VISN 8 facilities continue to use mandatory and enhanced screening protocols for all patients, employees and visitors, have restricted visitations to certain units, and have taken many other actions to mitigate the infection and spread of the virus.
- All VA Vet Centers in Florida, which provide readjustment counseling and outreach services to veterans and families, are open and implementing enhanced screening protocols. At this time, veterans may appear in person or opt in advance for an optional phone consultation.
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences. In addition, cemetery personnel will be discouraged from handshaking and any unnecessary physical contact to minimize the potential transmission of germs and viruses until the pandemic conditions are under control.
- Suspension of VA Travel Board Hearings - The Board of Veterans' Appeals (U.S. Department of Veterans Affairs) is suspending Travel Boards until May 1, 2020, due to COVID-19 response efforts. The Board will work with veterans and veteran service organizations and representatives to continue video hearings and provide virtual hearings where possible.
- All FDVA and VA facilities remain fully operational.

DEPARTMENT OF MILITARY AFFAIRS

- There have been 689 Florida National Guardsmen activated in support of COVID-19.
- The Florida National Guard is activating medical professionals (Army Combat Medic Specialists and Air Force Medical Technicians) in support of the Florida Department of Health's (DOH) Drive-Through Screening operations. The Guardsmen have reported in and formed Task Force Medical.
- The Florida National Guard has activated Guardsmen to augment the State Logistics Readiness Center, the State's Logistics Branch, as well as facilitate state wide logistics needs of the Florida National Guard formations on mission.
- The Florida National Guard has activated Guardsmen to augment the State Emergency Operations Center and local emergency management offices across the state.

VOLUNTEER FLORIDA

- Volunteer Florida is encouraging volunteers to screen themselves for COVID-19 (per CDC and Florida Department of Health guidelines) before serving.
- Volunteer Florida is pushing out VOAD organizational guidance to ESF-15 partners.
- Volunteer Florida is working with state counterparts and FEMA to develop volunteer plans.
- Volunteer Florida's National Service Department has discussed using AmeriCorps members in food banks as feeding needs increase.
- Volunteer Florida continues to work with Mass Care on the anticipated needs of volunteers.
- Volunteer Florida has asked all VOAD partners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The SUS has directed all state universities to continue remote instruction through the end of the spring semester.
- All students who can return home should return home.
- The SUS has directed that traditional on-campus commencement ceremonies will not be held in May. Instead, each university is directed to develop an alternate schedule or method of delivery.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation

AMERICAN OVERSIGHT

schedule will be evaluated in consultation with the Department.
    - Inmates will continue to have access to mail, email, phone calls and video visitation.
    - Legal visits will not be impacted.
    - FDC has partnered with vendors to provide some complimentary phone and video visitation services.
- Volunteer activities within correctional institutions statewide have been suspended.
- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
    - Have traveled internationally or on a cruise within the last 14 days.
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath.
    - Have had contact with someone who has been or is under investigation for COVID-19.

- All non-critical inmate transfers have been suspended.
- New commitments and intakes have been restricted.
- Outside inmate work squads have been restricted.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF TRANSPORTATION

- FDOT coordinated with transit agencies throughout the state to ensure the safe return of the Florida residents who were quarantined in Georgia and had previously been aboard the Grand Princess voyage outside of California.
- FDOT is coordinating with other state and local agencies to help ensure mobility around the temporary testing site in Broward County. Once the site is open, FDOT plans to publicize testing site information on highway advisory radio.
- FDOT completed a request to provide necessary supplies to harbor pilots working at seaports.
- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department continue to host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials have been posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials have been posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- At the direction of Governor Ron DeSantis, the Florida Department of Highway Safety and Motor has issued an Emergency Order extending all Florida driver licenses and identification cards that will expire in the next 30 days.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FLHSMV Executive Director Rhodes has waived commercial truck hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- The Florida Department of Economic Opportunity (DEO) has created a Frequently Asked Questions document for individuals whose employment has been negatively impacted by mitigation efforts to stop the spread of COVID-19.
- Governor Ron DeSantis activated the Florida Small Business Emergency Bridge Loan Program to support small businesses impacted by COVID-19. The bridge loan program, managed by DEO, provides short-term, interest-free loans to small businesses that experienced economic injury from COVID-19. The application period is open and runs through May 8, 2020. Interested businesses should visit FloridaDisasterLoan.org for more information.
- Governor DeSantis has requested the federal Small Business Administration (SBA) make the Economic Injury Disaster Loan program available for Florida's small businesses impacted by COVID-19. DEO stands ready to assist Florida's small businesses in accessing this funding when available.
- The Business Damage Assessment survey is activated to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by DEO, will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- VISIT FLORIDA is focused on providing health and safety information to travelers and Floridians. All media has been paused.
- VISIT FLORIDA has activated Florida Now, which includes the latest updates from state emergency response professionals hosted on VisitFlorida.com.
- VISIT FLORIDA is actively planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19
- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida. VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

AMERICAN OVERSIGHT

DEPARTMENT OF REVENUE

- Department of Revenue offices in Broward and Miami-Dade counties are closed to the public beginning Wednesday, March 18. This follows precedent of the Miami-Dade State Attorney's Child Support Office. The Department is redirecting child support customers and taxpayers toward the electronic means detailed below for completing child support and general tax activities.
- The Department has added a dedicated COVID-19 webpage for child support customers at floridarevenue.com/childsupport/coronavirus. The new page provides comprehensive information for alternative options for handling many routine child support case activities without visiting a local child support office. Efforts also include rescheduling genetic testing sample collection appointments and postponing other types of appointments.
- The Department of Revenue is advising child support customers who are scheduled for court hearings related to their child support cases to check with the local courts where the hearings are scheduled in case the courts have new requirements, such as appearing telephonically.
- The Department of Revenue has established a dedicated team to address tax-related issues pertaining to COVID-19 and has created an email address, COVID19TAXHELP@floridarevenue.com, where taxpayers can send questions and concerns. The Department encourages all taxpayers to use our e-services applications to file and pay taxes or contact our call center at (850) 488-6800.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in the public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has issued Informational Memorandum OIR-20-03M directing all insurers and other entities regulated by OIR to review and update their business continuity and/or continuity of operations plans. Companies are directed to immediately contact OIR if their continuity plans are activated and/or if business operations become compromised so it can work with insurers to avoid any disruption in consumer services.
- OIR Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01Mto all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and DOH information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations, and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has issued notices to all of its employees providing resources regarding COVID-19 and outlining the steps recommended by the Centers for Disease Control and Florida Department of Health to take preventative health measures.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- Florida Department of Law Enforcement (FDLE) is working with state and local agencies and the Florida National Guard to set up testing collection sites in multiple locations across Florida.
- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE has distributed a COVID-19 legal guidance document to all its law enforcement partners in reference to Governor DeSantis' Executive Order and continues regular communication with them.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice has sent a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has instituted additional screening measures for outside vendors who work within juvenile facilities and non-essential travel of staff members has been stopped. Visitors are limited to business-related visitors only (i.e., vendors, no personal visitors, no volunteers at this time). The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted. Clinical personnel, however, are still permitted to visit youth for treatment purposes, and attorneys are still permitted to conduct legal visits with youth.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- DBPR shared information with all agency staff statewide pertaining to the declaration of a state public health emergency, state response protocols as ordered in EO 20-51, and FDOH information and resources available on the dedicated FDOH COVID-19 webpage. DBPR communication with staff has emphasized the best practices and preventive steps recommended by FDOH for impeding the spread of respiratory illnesses.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and

AMERICAN OVERSIGHT

providing assistance as requested of State Emergency Support Function 6.
- DBPR added a web banner with information on COVID-19 and link to the Florida Department of Health's dedicated COVID-19 webpage at http://www.floridahealth.gov/COVID-19.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.
- DBPR has suspended all official business visits, including inspections, that involve licenses located at a facility covered under the visitation restrictions implemented pursuant to FDEM Emergency Order 20-002.
- DBPR hosted a senior management meeting with all program directors on Monday, 03.16.2020, to discuss the latest departmental actions and preparations associated with COVID-19 in Florida.
- DBPR is providing guidance to appointed professional licensing boards related to procedural considerations and available technology options for remote, web-based or telephonic board meetings.
- DBPR issued an emergency order, EO 2020-01 to extend license renewal deadlines and renewal requirements for a period of 30 days for licenses with an existing renewal deadline occurring in the months of March or April, 2020.
- DBPR has distributed the Governor's Executive Order (EO-20-68) regarding bars, nightclubs, beaches, and restaurants to all known e-mail addresses of record for alcoholic beverage, public food service, and public lodging license holders. DBPR will continue to push information and guidance relating to the directives of EO 20-68 to impacted parties through the DBPR Emergency Information Page, social media channels, and outreach to industry and public sector partners.
- DBPR has launched a dedicated emergency information page (http://www.myfloridalicense.com/dbpr/emergency/) with direct links to the FDOH COVID-19 webpage as well as information on agency emergency orders, schedule and meeting changes for divisions and boards, and other important departmental information during this emergency.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- DMS Secretary Jonathan Satter issued an emergency order that waived rules to allow for state employees to use any type of accrued leave for instances related to COVID-19, including self-isolation after potential exposure, staying home with children due to child care or school closures, and time needed to take care of dependents like an elder parent. The order also waived rules to expand the ability for employees to donate leave to fellow employees.
- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.
- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- Florida State Parks remain open for recreational day use; however, all State Parks have adjusted their operating hours for day use to 8 a.m. to 5 p.m. daily. The Department continues to monitor new developments closely and will make further adjustments as necessary based on any new Department of Health or CDC guidance received to ensure protection of our staff and visitors. For the latest information on park operating hours and operational status, please visit floridastateparks.org.
- Effective March 17, DEP is cancelling all events, activities, special event reservations, pavilion rentals and camping reservations at Florida State Parks for the next 60 days. \
    - Existing overnight camping reservations that begin Wednesday, March 18, will be honored. Visitors must arrive prior to 5 p.m. on March 18, to secure their reservation. After Wednesday, all reservations moving forward will be cancelled and refunded. Beginning Friday, March 20, campgrounds and all overnight accommodations will be fully closed.
    - ReserveAmerica, the Florida State Parks partner in camping reservations, will reach out to all affected parties to refund camping reservations. ReserveAmerica can also be reached directly at 1-800-326-3521 or TDD 888-433-0287 if visitors have questions or need to modify existing reservations.

- DEP's Office of Resilience and Coastal Protection facilities will also be closing the following centers until further notice: Apalachicola National Estuarine Research Reserve, Guana Tolomato Matanzas (GTM) National Estuarine Research Reserve and Rookery Bay National Estuarine Research Reserve
- In order to implement the Governor's directive yesterday to limit crowds on public beaches to less than 10, DEP will reduce the visitor capacity at State Parks with beaches and swimming areas by at least 50 percent beginning Thursday, March 19.

FLORIDA LOTTERY

- Yesterday, the Florida Lottery began limiting public access to the nine district offices across the state to a maximum of ten people at time to follow the CDC's recommendation to avoid social gatherings of more than ten people.
- The Lottery is actively working through various options that would allow the Lottery to continue to process winner claims and pay out prizes to players without them having to physically be in at Headquarters or a district office building. This includes possibly extending the deadline players have to claim winning tickets. An extensive plan to communicate any Lottery business operations changes to players, retailers, and the public is also being prepared should these changes go into effect.
- The Lottery continues to evaluate mission critical positions that have the ability to telecommute and is preparing accordingly in an effort to keep Lottery operations running should further social distancing be needed in the future.

DEPARTMENT OF STATE

AMERICAN OVERSIGHT

- The Florida Department of State is being proactive in sharing resources from its programs and museum properties that are helpful to communities and families who have been ordered to self-isolate or who are seeking resources during the closure of school and cultural facilities. These resources range from virtual tours to online collections to helpful histories. Families are encouraged to connect with Department of State programs via social media for updates and additional content.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the State Emergency Operations Center, Governor DeSantis announced the following:

- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- Governor DeSantis has directed the Department of Business and Professional Regulation Secretary Halsey Beshears, in coordination with the Florida Department of Health, to issue social distancing guidance to restaurants and bars.
- Governor DeSantis sent a letter to the federal Small Business Administration to turn on the SBA loan program for small businesses.
- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

More Information on COVID-19

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

AMERICAN OVERSIGHT

Actions the State has taken to prepare for and Respond to COVID-19

Yesterday, the Governor provided several additional updates on Florida's efforts to respond to COVID-19:

- Governor DeSantis requested that Health and Human Services send home the 61 Floridians that were previously aboard the Grand Princess Cruise line, home from isolation from Dobbins Air Reserve Base, Georgia.
- Governor DeSantis directed the Department of Health to hire additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.
- Governor DeSantis directed Director Moskowitz to expand his emergency order and prohibit all visitation to nursing homes, assisted living facilities, adult family-care homes, long-term care facilities and adult group homes to all visitors for the next 30 days.
- Governor DeSantis directed the Department of Highway Safety and Motor Vehicles to suspend drivers' license renewal requirements for 30 days.
- Governor DeSantis directed all agencies to suspend for 30 days licensing and registration renewal requirements for existing processional licenses (e.g. realtors).

DEPARTMENT OF HEALTH

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency. The State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- The Department of Health (DOH) established an Incident Management Team to coordinate response operations.
- DOH activated a dedicated incident command post for on-site response activities.
- DOH conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- DOH participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- DOH established a public call center for questions regarding COVID-19.
- DOH developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- DOH implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- DOH established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- The DOH distributed CDC Interim Guidance for public health personnel evaluating Persons under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- DOH distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- DOH implemented testing at all three State Public Health Laboratories.
- DOH distributed updated CDC guidance for schools to CHDs and the Department of Education.
- DOH distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
- Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

AGENCY FOR HEALTH CARE ADMINISTRATION

- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from CMS related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.
- AHCA submitted requests to the Centers for Medicare and Medicaid Services (CMS) for flexibility for Florida's program under the federal declaration of a state of emergency.
- Secretary Mayhew participated in a call with hospitals, laboratory administrators and associations regarding hospital testing.

AGENCY FOR PERSONS WITH DISABILITIES

- The Agency for Persons with Disabilities' (APD) three state-run centers in Marianna, Gainesville, and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- The Department of Elder Affairs (DOEA), in coordination with the Administration for Community Living (ACL), facilitated a virtual Town Hall meeting at the request of Hallandale Beach Mayor Joy Cooper. More than 2,700 seniors were online for the meeting. Charlotte Mather Taylor, Executive Director of the Aging and Disability Resource Center (ADRC) of Broward County, led the discussion with participation from ACL Representative Constantino Miskos, Chen Senior Medical Center, and representatives from Emergency Medical Services. Their primary topics of conversation centered on the work being done, specifically by the Area Agency on Aging, to continue to provide people resources and services to maximize support during COVID-19.
- Through Departmental Leadership and the Area Agency on Aging contract managers, DOEA provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we

AMERICAN OVERSIGHT

provided guidance to all Executive Directors regarding the safe delivery of home-delivered meals to prevent spread of respiratory infection.
- DOEA continues to provide updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, they are provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.
- The Vision 2020: Looking Towards Your Age-Friendly Future Tour to five communities across Florida originally planned for April 20th - April 24th and co-hosted by the Department and AARP has been postponed to protect the health and wellness of seniors, volunteers and staff.
- All Serving Health Insurance Needs of Elders (SHINE) participation in scheduled outreach events, presentations, and in-person SHINE/Senior Medicare Patrol (SMP) counseling has been suspended until further notice. SHINE volunteers and staff will continue to provide counseling services, but the services will be conducted over-the-phone with future considerations for the use of webinars and Facebook LIVE.
- DOEA Secretary Prudom held a conference call with The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors to discuss the suspension of face-to-face assessments. CARES assessors will provide reviews through phone or tele-technology to reduce client/staff exposure and reduce spread.
- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the provision on completing assessments for multiple program types, specifically for clients who have chosen to self-isolate.
- DOEA provided updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers, and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- The Florida Department of Veterans' Affairs (FDVA) is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences.
- All FDVA and VA facilities remain fully operational.

VOLUNTEER FLORIDA

- Volunteer Florida is having preliminary conversations with Mass Care on the anticipated needs of volunteers. The agency is working together to plan for volunteers and develop volunteer safety guidelines to ensure that they are protected.
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- At this time, no Florida student has contracted COVID-19.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their

AMERICAN OVERSIGHT

students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The State University System will continue to evaluate the effectiveness of remote learning and the need to teach remotely in order to protect our students and the university community.
- The State University System will continue to work with the Florida Department of Health and the Emergency Operations Center to determine if the initial two weeks of remote learning is sufficient.
- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING - While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- All state universities have implemented campus-wide critical incident or emergency management teams that are meeting regularly to prepare for the impacts of the COVID-19 virus.
- All universities are preparing to transition to remote instructional delivery for a two-week period during March and early April, depending on each institution's Spring Break, and are informing students not to return to campus during this period.
- The Board of Governors will be conducting its March meeting via conference call and will not have a face-to-face meeting at USF as was originally scheduled.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
  - Inmates will continue to have access to mail, email, phone calls and video visitation.
  - Legal visits will not be impacted.
  - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
  - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
  - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
  - Have had contact with someone who has been or is under investigation for COVID-19.

- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to this potential threat.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Florida Department of State's museum properties are taking precautions to ensure the health of visitors amid concerns of COVID-19. As part of daily site and museum operations, The Grove Museum has increased the frequency of disinfecting regularly touched interactive surfaces such as touchscreens, display cases, and tactile panels. Additionally, Museum staff ensure that door handles, flat surfaces, kitchen equipment, shared office equipment, bathrooms, etc., are all frequently sanitized. Finally, The Grove Museum has taken measures to make all staff and volunteers aware of the steps everyone should take to help contain the spread of COVID-19 such as hand washing, self-isolation when feeling ill, following recommendations from health officials and seeking medical evaluation immediately if COVID-19 symptoms appear.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor Ron DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.

AMERICAN OVERSIGHT

- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- Pursuant to Executive Order 20-52, FLHSMV Executive Director Rhodes waived commercial truck hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor Ron DeSantis announced the activation of the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by the Florida Department of Economic Opportunity (DEO), will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is assessing and reevaluating all tourism promotion messaging, both international and domestic, and is developing long-term strategies to keep Florida top-of-mind for potential vacationers.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19.
- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- The Florida Department of Business and Professional Regulation (DBPR) is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- Currently all Florida State Parks and campgrounds, and Office of Resilience and Coastal Protection facilities (aquatic preserves and National Estuarine Research Reserves), remain open to the public. However, in an abundance of caution and consistent with Center for Disease Control and Prevention guidance, DEP announced on March 13 that it is cancelling all events and activities at these facilities effective immediately and until further notice.
    - This includes DEP events and includes activities such as tours and visitor centers that involve large groups and/or or people in close proximity to others. People with questions regarding any privately scheduled event should check with the host of the event or the facility directly. For the latest closure and cancellation information, please visit floridastateparks.org.
- If your travel plans have changed and you need to modify camping or cabin reservations, please visit ReserveAmerica.com, call Reserve America at 1-800-326-3521 or TDD 888-433-0287 or text to 904-204-3216.

###

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the State Emergency Operations Center, Governor DeSantis announced the following:

- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- Governor DeSantis has directed the Department of Business and Professional Regulation Secretary Halsey Beshears, in coordination with the Florida Department of Health, to issue social distancing guidance to restaurants and bars.
- Governor DeSantis sent a letter to the federal Small Business Administration to turn on the SBA loan program for small businesses.
- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

More Information on COVID-19

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

AMERICAN OVERSIGHT

Actions the State has taken to prepare for and Respond to COVID-19

Yesterday, the Governor provided several additional updates on Florida's efforts to respond to COVID-19:

- Governor DeSantis requested that Health and Human Services send home the 61 Floridians that were previously aboard the Grand Princess Cruise line, home from isolation from Dobbins Air Reserve Base, Georgia.
- Governor DeSantis directed the Department of Health to hire additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.
- Governor DeSantis directed Director Moskowitz to expand his emergency order and prohibit all visitation to nursing homes, assisted living facilities, adult family-care homes, long-term care facilities and adult group homes to all visitors for the next 30 days.
- Governor DeSantis directed the Department of Highway Safety and Motor Vehicles to suspend drivers' license renewal requirements for 30 days.
- Governor DeSantis directed all agencies to suspend for 30 days licensing and registration renewal requirements for existing processional licenses (e.g. realtors).

DEPARTMENT OF HEALTH

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency. The State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- The Department of Health (DOH) established an Incident Management Team to coordinate response operations.
- DOH activated a dedicated incident command post for on-site response activities.
- DOH conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- DOH participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- DOH established a public call center for questions regarding COVID-19.
- DOH developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- DOH implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- DOH established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- The DOH distributed CDC Interim Guidance for public health personnel evaluating Persons under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- DOH distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- DOH implemented testing at all three State Public Health Laboratories.
- DOH distributed updated CDC guidance for schools to CHDs and the Department of Education.
- DOH distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
- Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

AGENCY FOR HEALTH CARE ADMINISTRATION

- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from CMS related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.
- AHCA submitted requests to the Centers for Medicare and Medicaid Services (CMS) for flexibility for Florida's program under the federal declaration of a state of emergency.
- Secretary Mayhew participated in a call with hospitals, laboratory administrators and associations regarding hospital testing.

AGENCY FOR PERSONS WITH DISABILITIES

- The Agency for Persons with Disabilities' (APD) three state-run centers in Marianna, Gainesville, and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- The Department of Elder Affairs (DOEA), in coordination with the Administration for Community Living (ACL), facilitated a virtual Town Hall meeting at the request of Hallandale Beach Mayor Joy Cooper. More than 2,700 seniors were online for the meeting. Charlotte Mather Taylor, Executive Director of the Aging and Disability Resource Center (ADRC) of Broward County, led the discussion with participation from ACL Representative Constantino Miskos, Chen Senior Medical Center, and representatives from Emergency Medical Services. Their primary topics of conversation centered on the work being done, specifically by the Area Agency on Aging, to continue to provide people resources and services to maximize support during COVID-19.
- Through Departmental Leadership and the Area Agency on Aging contract managers, DOEA provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we

AMERICAN OVERSIGHT

provided guidance to all Executive Directors regarding the safe delivery of home-delivered meals to prevent spread of respiratory infection.
- DOEA continues to provide updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, they are provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.
- The Vision 2020: Looking Towards Your Age-Friendly Future Tour to five communities across Florida originally planned for April 20th - April 24th and co-hosted by the Department and AARP has been postponed to protect the health and wellness of seniors, volunteers and staff.
- All Serving Health Insurance Needs of Elders (SHINE) participation in scheduled outreach events, presentations, and in-person SHINE/Senior Medicare Patrol (SMP) counseling has been suspended until further notice. SHINE volunteers and staff will continue to provide counseling services, but the services will be conducted over-the-phone with future considerations for the use of webinars and Facebook LIVE.
- DOEA Secretary Prudom held a conference call with The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors to discuss the suspension of face-to-face assessments. CARES assessors will provide reviews through phone or tele-technology to reduce client/staff exposure and reduce spread.
- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the provision on completing assessments for multiple program types, specifically for clients who have chosen to self-isolate.
- DOEA provided updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers, and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- The Florida Department of Veterans' Affairs (FDVA) is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences.
- All FDVA and VA facilities remain fully operational.

VOLUNTEER FLORIDA

- Volunteer Florida is having preliminary conversations with Mass Care on the anticipated needs of volunteers. The agency is working together to plan for volunteers and develop volunteer safety guidelines to ensure that they are protected.
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- At this time, no Florida student has contracted COVID-19.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their

AMERICAN OVERSIGHT

students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The State University System will continue to evaluate the effectiveness of remote learning and the need to teach remotely in order to protect our students and the university community.
- The State University System will continue to work with the Florida Department of Health and the Emergency Operations Center to determine if the initial two weeks of remote learning is sufficient.
- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING - While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- All state universities have implemented campus-wide critical incident or emergency management teams that are meeting regularly to prepare for the impacts of the COVID-19 virus.
- All universities are preparing to transition to remote instructional delivery for a two-week period during March and early April, depending on each institution's Spring Break, and are informing students not to return to campus during this period.
- The Board of Governors will be conducting its March meeting via conference call and will not have a face-to-face meeting at USF as was originally scheduled.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
  - Inmates will continue to have access to mail, email, phone calls and video visitation.
  - Legal visits will not be impacted.
  - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
  - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
  - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
  - Have had contact with someone who has been or is under investigation for COVID-19.

- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to this potential threat.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Florida Department of State's museum properties are taking precautions to ensure the health of visitors amid concerns of COVID-19. As part of daily site and museum operations, The Grove Museum has increased the frequency of disinfecting regularly touched interactive surfaces such as touchscreens, display cases, and tactile panels. Additionally, Museum staff ensure that door handles, flat surfaces, kitchen equipment, shared office equipment, bathrooms, etc., are all frequently sanitized. Finally, The Grove Museum has taken measures to make all staff and volunteers aware of the steps everyone should take to help contain the spread of COVID-19 such as hand washing, self-isolation when feeling ill, following recommendations from health officials and seeking medical evaluation immediately if COVID-19 symptoms appear.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor Ron DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.

AMERICAN OVERSIGHT

- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- Pursuant to Executive Order 20-52, FLHSMV Executive Director Rhodes waived commercial truck hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor Ron DeSantis announced the activation of the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by the Florida Department of Economic Opportunity (DEO), will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is assessing and reevaluating all tourism promotion messaging, both international and domestic, and is developing long-term strategies to keep Florida top-of-mind for potential vacationers.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19.
- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- The Florida Department of Business and Professional Regulation (DBPR) is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- Currently all Florida State Parks and campgrounds, and Office of Resilience and Coastal Protection facilities (aquatic preserves and National Estuarine Research Reserves), remain open to the public. However, in an abundance of caution and consistent with Center for Disease Control and Prevention guidance, DEP announced on March 13 that it is cancelling all events and activities at these facilities effective immediately and until further notice.
    - This includes DEP events and includes activities such as tours and visitor centers that involve large groups and/or or people in close proximity to others. People with questions regarding any privately scheduled event should check with the host of the event or the facility directly. For the latest closure and cancellation information, please visit floridastateparks.org.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

The Florida Department of Health has confirmed an individual who had previously tested positive for COVID-19 has died. The individual was a 77-year old male in Lee County.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

During a press conference at the State Emergency Operations Center Saturday, the Governor provided several additional updates on Florida's efforts to respond to COVID-19:

- Governor DeSantis requested that Health and Human Services send home the 61 Floridians that were previously aboard the Grand Princess cruise line, home from isolation from Dobbins Air Reserve Base, Georgia.
- Governor DeSantis has directed the Department of Health to hire additional epidemiologists from university health programs to help with workload.
- Governor DeSantis has directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and ALF licenses for 90 days to remove distraction from patient care.
- Governor DeSantis directed Director Moskowitz to expand his emergency order and prohibit all visitation to nursing homes, assisted living facilities, adult family-care homes, long-term care facilities and adult group homes to all visitors for the next 30 days.
- Governor DeSantis directed the Department of Highway Safety and Motor Vehicles to suspend drivers' license renewal requirements for 30 days.
- Governor DeSantis directed all agencies to suspend for 30 days licensing and registration renewal requirements for existing processional licenses (e.g. realtors).

Governor DeSantis has recommended that local authorities strongly consider canceling mass gatherings and follow Centers for Disease Control and Prevention (CDC) guidance. CDC has issued recommendations for implementation of mitigation strategies in Florida, including recommendations to cancel large gatherings of more than 250 people and smaller gatherings that may bring persons together from multiple parts of the country.

Florida Department of Education Commissioner Richard Corcoran has provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. In addition, the Department of Education announced that the start of state testing will be delayed by a minimum of two weeks.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

International Travel

U.S. Department of State – Global Level 3 Health Advisory

The U.S. Department of State advises U.S. citizens to reconsider travel abroad due to the global impact of COVID-19. Many areas throughout the world are now experiencing COVID-19 outbreaks and taking action that may limit traveler mobility, including quarantines and border restrictions. Even countries, jurisdictions, or areas where cases have not been reported may restrict travel without notice.

CDC Guidelines

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3 Travel Advisory:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 Travel Advisory and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and they should call ahead to a health care professional or their county health department before seeking treatment.
    - According to CDC, a cruise ship is defined as a passenger vessel involving the movement of large numbers of people in closed and semi-closed settings.

- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact, unless they are experiencing an emergency.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise or tour on the Nile River in February or March 2020 to self-isolate for 14 days following their date of return to the United States, and if ill, immediately contact their CHD or health care provider. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including over 10 positive cases in Florida.

Port Everglades Advisory

The Department, through an extensive epidemiological investigation, has identified multiple, positive COVID-19 cases that are connected and associated with Port Everglades in Broward County, Florida.

- The Department recommends all individuals experiencing symptoms who have recently traveled through Port Everglades to immediately contact their CHD or health care provider and self-isolate for 14 Days.

- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the CDC on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their CHD or health care provider.

COVID-19 Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and

AMERICAN OVERSIGHT

- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the State has Taken to Prepare for and Respond to COVID-19

DEPARTMENT OF HEALTH

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

    - Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
    - Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

AGENCY FOR HEALTH CARE ADMINISTRATION

- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.
- AHCA submitted requests to the Centers for Medicare and Medicaid Services (CMS) for flexibility for Florida's program under the federal declaration of a state of emergency.
- Secretary Mayhew participated in a call with hospitals, laboratory administrators and associations regarding hospital testing.
- AHCA is working with nursing homes on recently released guidance further restricting visitor and vendor access to ensure the health and safety of facility residents.

AGENCY FOR PERSONS WITH DISABILITIES

- APD's chief of staff sent a directive to employees following Governor Ron DeSantis' guidance on travel which restricts individuals conducting international travel and those taking cruises from immediately returning to work. They will be required to self-quarantine for 14 days.
- APD is developing a Frequently Asked Questions (FAQ) document for providers and Waiver Support Coordinators related to COVID-19.
- Members of the APD Senior Leadership Team are holding daily meetings on actions, policies, procedures, and updates related to COVID-19.
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee are working very closely with their local health departments to enhance infection control measures.
- APD sent an updated visitor questionnaire for Adult Day Training facilities and Group Homes across the state to screen visitors prior to entering a facility. This visitor questionnaire will also be used for visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- DOEA Secretary Prudom held a conference call with The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors to discuss the suspension of face-to-face assessments. CARES assessors will provide reviews through phone or tele-technology to reduce client/staff exposure and reduce spread.

AMERICAN OVERSIGHT

- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the provision on completing assessments for multiple program types, specifically for clients who have chosen to self-isolate.
- DOEA provided updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers, and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.

- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences.
- All FDVA and VA facilities remain fully operational.

VOLUNTEER FLORIDA

- Volunteer Florida is having preliminary conversations on the anticipated needs of volunteers. We are working together to plan for needed volunteers and develop volunteer safety guidelines to ensure the protection of our service providers (volunteers and clients).
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.
- Volunteer Florida participated in a statewide call with Supervisors of Elections to discuss Volunteer Connect (Florida's official volunteer opportunities) and how it can be used by offices to help recruit volunteers for Tuesday's primary.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.

- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- At this time, no Florida student has contracted COVID-19.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction

AMERICAN OVERSIGHT

immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING - While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- All state universities have implemented campus-wide critical incident or emergency management teams that are meeting regularly to prepare for the impacts of the COVID-19 virus.
- All universities are preparing to transition to remote instructional delivery for a two-week period during March and early April, depending on each institution's Spring Break, and are informing students not to return to campus during this period.
- The Board of Governors will be conducting its March meeting via conference call and will not have a face-to-face meeting at USF as was originally scheduled.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.

- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
  - Inmates will continue to have access to mail, email, phone calls and video visitation.
  - Legal visits will not be impacted.
  - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:

  - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
  - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
  - Have had contact with someone who has been or is under investigation for COVID-19.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to this potential threat.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Florida Department of State's museum properties are taking precautions to ensure the health of visitors amid concerns of COVID-19. The Museum of Florida History has removed the guest sign in book; education staff members now record the visitor information. Museum staff members are cleaning all push buttons for life casts, dioramas, and other touchable exhibits as identified; sanitizing wheelchairs after every use; and wiping bench surfaces and survey podium with disinfecting wipes. Additional hand sanitizer dispensers have been placed at the entrance and exit of The Museum of Florida History. Further, the Museum has turned off touchscreen survey and is offering paper surveys. Finally, in an effort to ensure the continued health of our employees, Museum staff members are using disinfecting wipes on phones and keyboards and COVID-19 general prevention signs from the Florida Department of Health have been posted in shared staff spaces.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor Ron DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to renew or replace a driver license, ID card, motor vehicle or vessel registration, and more.

AMERICAN OVERSIGHT

FLHSMV has been in regular communication with the Florida Tax Collectors Association to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor Ron DeSantis announced the activation of the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by the Florida Department of Economic Opportunity (DEO), will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is assessing and reevaluating all tourism promotion messaging, both international and domestic, and is developing long-term strategies to keep Florida top-of-mind for potential vacationers.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19.
- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has published a resource page on its website emphasizing its direction to insurers and will continuously update the page with important insurance resources.
- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- FDLE Commissioner Rick Swearingen sent directions to all supervisors with information about sick or at-risk members, use of leave, telecommuting, business and personal travel followed by a message to all members.
- At the direction of Governor Ron DeSantis, FDLE is identifying conferences, meetings and other travel to be cancelled or postponed and working to receive reimbursements.
- FDLE is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols during a quarantine.
- FDLE has reviewed its COOP and identified members who can work from home. We ordered an increase in bandwidth and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified our screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with our law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- DBPR shared information with all agency staff statewide pertaining to the declaration of a state public health emergency, state response protocols as ordered in EO 20-51, and FDOH information and resources available on the dedicated FDOH COVID-19 webpage. DBPR communication with staff has emphasized the best practices and preventive steps recommended by FDOH for impeding the spread of respiratory illnesses.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and providing assistance as requested of State Emergency Support Function 6.
- DBPR added a web banner with information on COVID-19 and link to the Florida Department of Health's dedicated COVID-19 webpage at http://www.floridahealth.gov/COVID-19.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and providing assistance as requested of State Emergency Support Function 6.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- DMS' Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

###

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

The Florida Department of Health has confirmed an individual who had previously tested positive for COVID-19 has died. The individual was a 77-year old male in Lee County.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

During a press conference at the State Emergency Operations Center Saturday, the Governor provided several additional updates on Florida's efforts to respond to COVID-19:

- Governor DeSantis requested that Health and Human Services send home the 61 Floridians that were previously aboard the Grand Princess cruise line, home from isolation from Dobbins Air Reserve Base, Georgia.
- Governor DeSantis has directed the Department of Health to hire additional epidemiologists from university health programs to help with workload.
- Governor DeSantis has directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and ALF licenses for 90 days to remove distraction from patient care.
- Governor DeSantis directed Director Moskowitz to expand his emergency order and prohibit all visitation to nursing homes, assisted living facilities, adult family-care homes, long-term care facilities and adult group homes to all visitors for the next 30 days.
- Governor DeSantis directed the Department of Highway Safety and Motor Vehicles to suspend drivers' license renewal requirements for 30 days.
- Governor DeSantis directed all agencies to suspend for 30 days licensing and registration renewal requirements for existing processional licenses (e.g. realtors).

Governor DeSantis has recommended that local authorities strongly consider canceling mass gatherings and follow Centers for Disease Control and Prevention (CDC) guidance. CDC has issued recommendations for implementation of mitigation strategies in Florida, including recommendations to cancel large gatherings of more than 250 people and smaller gatherings that may bring persons together from multiple parts of the country.

Florida Department of Education Commissioner Richard Corcoran has provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. In addition, the Department of Education announced that the start of state testing will be delayed by a minimum of two weeks.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

AMERICAN OVERSIGHT

International Travel

U.S. Department of State – Global Level 3 Health Advisory

The U.S. Department of State advises U.S. citizens to reconsider travel abroad due to the global impact of COVID-19. Many areas throughout the world are now experiencing COVID-19 outbreaks and taking action that may limit traveler mobility, including quarantines and border restrictions. Even countries, jurisdictions, or areas where cases have not been reported may restrict travel without notice.

CDC Guidelines

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3 Travel Advisory:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 Travel Advisory and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and they should call ahead to a health care professional or their county health department before seeking treatment.
    - According to CDC, a cruise ship is defined as a passenger vessel involving the movement of large numbers of people in closed and semi-closed settings.

- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact, unless they are experiencing an emergency.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise or tour on the Nile River in February or March 2020 to self-isolate for 14 days following their date of return to the United States, and if ill, immediately contact their CHD or health care provider. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including over 10 positive cases in Florida.

Port Everglades Advisory

The Department, through an extensive epidemiological investigation, has identified multiple, positive COVID-19 cases that are connected and associated with Port Everglades in Broward County, Florida.

- The Department recommends all individuals experiencing symptoms who have recently traveled through Port Everglades to immediately contact their CHD or health care provider and self-isolate for 14 Days.

- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the CDC on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their CHD or health care provider.

COVID-19 Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and

AMERICAN OVERSIGHT

- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the State has Taken to Prepare for and Respond to COVID-19

DEPARTMENT OF HEALTH

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

    - Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
    - Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

AGENCY FOR HEALTH CARE ADMINISTRATION

- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.
- AHCA submitted requests to the Centers for Medicare and Medicaid Services (CMS) for flexibility for Florida's program under the federal declaration of a state of emergency.
- Secretary Mayhew participated in a call with hospitals, laboratory administrators and associations regarding hospital testing.
- AHCA is working with nursing homes on recently released guidance further restricting visitor and vendor access to ensure the health and safety of facility residents.

AGENCY FOR PERSONS WITH DISABILITIES

- APD's chief of staff sent a directive to employees following Governor Ron DeSantis' guidance on travel which restricts individuals conducting international travel and those taking cruises from immediately returning to work. They will be required to self-quarantine for 14 days.
- APD is developing a Frequently Asked Questions (FAQ) document for providers and Waiver Support Coordinators related to COVID-19.
- Members of the APD Senior Leadership Team are holding daily meetings on actions, policies, procedures, and updates related to COVID-19.
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee are working very closely with their local health departments to enhance infection control measures.
- APD sent an updated visitor questionnaire for Adult Day Training facilities and Group Homes across the state to screen visitors prior to entering a facility. This visitor questionnaire will also be used for visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- DOEA Secretary Prudom held a conference call with The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors to discuss the suspension of face-to-face assessments. CARES assessors will provide reviews through phone or tele-technology to reduce client/staff exposure and reduce spread.

AMERICAN OVERSIGHT

- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the provision on completing assessments for multiple program types, specifically for clients who have chosen to self-isolate.
- DOEA provided updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers, and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.

- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences.
- All FDVA and VA facilities remain fully operational.

VOLUNTEER FLORIDA

- Volunteer Florida is having preliminary conversations on the anticipated needs of volunteers. We are working together to plan for needed volunteers and develop volunteer safety guidelines to ensure the protection of our service providers (volunteers and clients).
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.
- Volunteer Florida participated in a statewide call with Supervisors of Elections to discuss Volunteer Connect (Florida's official volunteer opportunities) and how it can be used by offices to help recruit volunteers for Tuesday's primary.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.

- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- At this time, no Florida student has contracted COVID-19.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction

AMERICAN OVERSIGHT

immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING - While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- All state universities have implemented campus-wide critical incident or emergency management teams that are meeting regularly to prepare for the impacts of the COVID-19 virus.
- All universities are preparing to transition to remote instructional delivery for a two-week period during March and early April, depending on each institution's Spring Break, and are informing students not to return to campus during this period.
- The Board of Governors will be conducting its March meeting via conference call and will not have a face-to-face meeting at USF as was originally scheduled.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.

- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
  - Inmates will continue to have access to mail, email, phone calls and video visitation.
  - Legal visits will not be impacted.
  - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:

  - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
  - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
  - Have had contact with someone who has been or is under investigation for COVID-19.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to this potential threat.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Florida Department of State's museum properties are taking precautions to ensure the health of visitors amid concerns of COVID-19. The Museum of Florida History has removed the guest sign in book; education staff members now record the visitor information. Museum staff members are cleaning all push buttons for life casts, dioramas, and other touchable exhibits as identified; sanitizing wheelchairs after every use; and wiping bench surfaces and survey podium with disinfecting wipes. Additional hand sanitizer dispensers have been placed at the entrance and exit of The Museum of Florida History. Further, the Museum has turned off touchscreen survey and is offering paper surveys. Finally, in an effort to ensure the continued health of our employees, Museum staff members are using disinfecting wipes on phones and keyboards and COVID-19 general prevention signs from the Florida Department of Health have been posted in shared staff spaces.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor Ron DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to renew or replace a driver license, ID card, motor vehicle or vessel registration, and more.

AMERICAN OVERSIGHT

FLHSMV has been in regular communication with the Florida Tax Collectors Association to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor Ron DeSantis announced the activation of the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by the Florida Department of Economic Opportunity (DEO), will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is assessing and reevaluating all tourism promotion messaging, both international and domestic, and is developing long-term strategies to keep Florida top-of-mind for potential vacationers.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19.
- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has published a resource page on its website emphasizing its direction to insurers and will continuously update the page with important insurance resources.
- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- FDLE Commissioner Rick Swearingen sent directions to all supervisors with information about sick or at-risk members, use of leave, telecommuting, business and personal travel followed by a message to all members.
- At the direction of Governor Ron DeSantis, FDLE is identifying conferences, meetings and other travel to be cancelled or postponed and working to receive reimbursements.
- FDLE is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols during a quarantine.
- FDLE has reviewed its COOP and identified members who can work from home. We ordered an increase in bandwidth and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified our screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with our law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- DBPR shared information with all agency staff statewide pertaining to the declaration of a state public health emergency, state response protocols as ordered in EO 20-51, and FDOH information and resources available on the dedicated FDOH COVID-19 webpage. DBPR communication with staff has emphasized the best practices and preventive steps recommended by FDOH for impeding the spread of respiratory illnesses.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and providing assistance as requested of State Emergency Support Function 6.
- DBPR added a web banner with information on COVID-19 and link to the Florida Department of Health's dedicated COVID-19 webpage at http://www.floridahealth.gov/COVID-19.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and providing assistance as requested of State Emergency Support Function 6.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- DMS' Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

The Florida Department of Health has confirmed an individual who had previously tested positive for COVID-19 has died. The individual was a 77-year old male in Lee County.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

During a press conference at the State Emergency Operations Center Saturday, the Governor provided several additional updates on Florida's efforts to respond to COVID-19:

- Governor DeSantis requested that Health and Human Services send home the 61 Floridians that were previously aboard the Grand Princess cruise line, home from isolation from Dobbins Air Reserve Base, Georgia.
- Governor DeSantis has directed the Department of Health to hire additional epidemiologists from university health programs to help with workload.
- Governor DeSantis has directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and ALF licenses for 90 days to remove distraction from patient care.
- Governor DeSantis directed Director Moskowitz to expand his emergency order and prohibit all visitation to nursing homes, assisted living facilities, adult family-care homes, long-term care facilities and adult group homes to all visitors for the next 30 days.
- Governor DeSantis directed the Department of Highway Safety and Motor Vehicles to suspend drivers' license renewal requirements for 30 days.
- Governor DeSantis directed all agencies to suspend for 30 days licensing and registration renewal requirements for existing processional licenses (e.g. realtors).

Governor DeSantis has recommended that local authorities strongly consider canceling mass gatherings and follow Centers for Disease Control and Prevention (CDC) guidance. CDC has issued recommendations for implementation of mitigation strategies in Florida, including recommendations to cancel large gatherings of more than 250 people and smaller gatherings that may bring persons together from multiple parts of the country.

Florida Department of Education Commissioner Richard Corcoran has provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. In addition, the Department of Education announced that the start of state testing will be delayed by a minimum of two weeks.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

International Travel

U.S. Department of State – Global Level 3 Health Advisory

The U.S. Department of State advises U.S. citizens to reconsider travel abroad due to the global impact of COVID-19. Many areas throughout the world are now experiencing COVID-19 outbreaks and taking action that may limit traveler mobility, including quarantines and border restrictions. Even countries, jurisdictions, or areas where cases have not been reported may restrict travel without notice.

CDC Guidelines

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3 Travel Advisory:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 Travel Advisory and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and they should call ahead to a health care professional or their county health department before seeking treatment.
    - According to CDC, a cruise ship is defined as a passenger vessel involving the movement of large numbers of people in closed and semi-closed settings.

- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact, unless they are experiencing an emergency.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise or tour on the Nile River in February or March 2020 to self-isolate for 14 days following their date of return to the United States, and if ill, immediately contact their CHD or health care provider. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including over 10 positive cases in Florida.

Port Everglades Advisory

The Department, through an extensive epidemiological investigation, has identified multiple, positive COVID-19 cases that are connected and associated with Port Everglades in Broward County, Florida.

- The Department recommends all individuals experiencing symptoms who have recently traveled through Port Everglades to immediately contact their CHD or health care provider and self-isolate for 14 Days.

- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the CDC on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their CHD or health care provider.

COVID-19 Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and

AMERICAN OVERSIGHT

- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the State has Taken to Prepare for and Respond to COVID-19

DEPARTMENT OF HEALTH

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

    - Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
    - Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

AGENCY FOR HEALTH CARE ADMINISTRATION

- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.
- AHCA submitted requests to the Centers for Medicare and Medicaid Services (CMS) for flexibility for Florida's program under the federal declaration of a state of emergency.
- Secretary Mayhew participated in a call with hospitals, laboratory administrators and associations regarding hospital testing.
- AHCA is working with nursing homes on recently released guidance further restricting visitor and vendor access to ensure the health and safety of facility residents.

AGENCY FOR PERSONS WITH DISABILITIES

- APD's chief of staff sent a directive to employees following Governor Ron DeSantis' guidance on travel which restricts individuals conducting international travel and those taking cruises from immediately returning to work. They will be required to self-quarantine for 14 days.
- APD is developing a Frequently Asked Questions (FAQ) document for providers and Waiver Support Coordinators related to COVID-19.
- Members of the APD Senior Leadership Team are holding daily meetings on actions, policies, procedures, and updates related to COVID-19.
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee are working very closely with their local health departments to enhance infection control measures.
- APD sent an updated visitor questionnaire for Adult Day Training facilities and Group Homes across the state to screen visitors prior to entering a facility. This visitor questionnaire will also be used for visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- DOEA Secretary Prudom held a conference call with The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors to discuss the suspension of face-to-face assessments. CARES assessors will provide reviews through phone or tele-technology to reduce client/staff exposure and reduce spread.

AMERICAN OVERSIGHT

- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the provision on completing assessments for multiple program types, specifically for clients who have chosen to self-isolate.
- DOEA provided updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers, and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.

- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences.
- All FDVA and VA facilities remain fully operational.

VOLUNTEER FLORIDA

- Volunteer Florida is having preliminary conversations on the anticipated needs of volunteers. We are working together to plan for needed volunteers and develop volunteer safety guidelines to ensure the protection of our service providers (volunteers and clients).
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.
- Volunteer Florida participated in a statewide call with Supervisors of Elections to discuss Volunteer Connect (Florida's official volunteer opportunities) and how it can be used by offices to help recruit volunteers for Tuesday's primary.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.

- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- At this time, no Florida student has contracted COVID-19.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction

AMERICAN OVERSIGHT

immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING - While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- All state universities have implemented campus-wide critical incident or emergency management teams that are meeting regularly to prepare for the impacts of the COVID-19 virus.
- All universities are preparing to transition to remote instructional delivery for a two-week period during March and early April, depending on each institution's Spring Break, and are informing students not to return to campus during this period.
- The Board of Governors will be conducting its March meeting via conference call and will not have a face-to-face meeting at USF as was originally scheduled.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.

- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
  - Inmates will continue to have access to mail, email, phone calls and video visitation.
  - Legal visits will not be impacted.
  - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:

  - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
  - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
  - Have had contact with someone who has been or is under investigation for COVID-19.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to this potential threat.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Florida Department of State's museum properties are taking precautions to ensure the health of visitors amid concerns of COVID-19. The Museum of Florida History has removed the guest sign in book; education staff members now record the visitor information. Museum staff members are cleaning all push buttons for life casts, dioramas, and other touchable exhibits as identified; sanitizing wheelchairs after every use; and wiping bench surfaces and survey podium with disinfecting wipes. Additional hand sanitizer dispensers have been placed at the entrance and exit of The Museum of Florida History. Further, the Museum has turned off touchscreen survey and is offering paper surveys. Finally, in an effort to ensure the continued health of our employees, Museum staff members are using disinfecting wipes on phones and keyboards and COVID-19 general prevention signs from the Florida Department of Health have been posted in shared staff spaces.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor Ron DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to renew or replace a driver license, ID card, motor vehicle or vessel registration, and more.

AMERICAN OVERSIGHT

FLHSMV has been in regular communication with the Florida Tax Collectors Association to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor Ron DeSantis announced the activation of the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by the Florida Department of Economic Opportunity (DEO), will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is assessing and reevaluating all tourism promotion messaging, both international and domestic, and is developing long-term strategies to keep Florida top-of-mind for potential vacationers.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19.
- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has published a resource page on its website emphasizing its direction to insurers and will continuously update the page with important insurance resources.
- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- FDLE Commissioner Rick Swearingen sent directions to all supervisors with information about sick or at-risk members, use of leave, telecommuting, business and personal travel followed by a message to all members.
- At the direction of Governor Ron DeSantis, FDLE is identifying conferences, meetings and other travel to be cancelled or postponed and working to receive reimbursements.
- FDLE is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols during a quarantine.
- FDLE has reviewed its COOP and identified members who can work from home. We ordered an increase in bandwidth and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified our screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with our law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- DBPR shared information with all agency staff statewide pertaining to the declaration of a state public health emergency, state response protocols as ordered in EO 20-51, and FDOH information and resources available on the dedicated FDOH COVID-19 webpage. DBPR communication with staff has emphasized the best practices and preventive steps recommended by FDOH for impeding the spread of respiratory illnesses.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and providing assistance as requested of State Emergency Support Function 6.
- DBPR added a web banner with information on COVID-19 and link to the Florida Department of Health's dedicated COVID-19 webpage at http://www.floridahealth.gov/COVID-19.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and providing assistance as requested of State Emergency Support Function 6.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- DMS' Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

###

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Today, Governor DeSantis held briefings related to COVID-19 with State Surgeon General Dr. Rivkees, Florida Division of Emergency Management Director Jared Moskowitz and the National Guard Adjutant General James Eifert. During a press conference, the Governor provided several updates on Florida's efforts to respond to COVID-19:

- Governor DeSantis announced 1,000 additional COVID-19 test kits have arrived in Florida for distribution to labs across the state.
- As a result of the increase in Broward County to 11 positive COVID-19 cases, the Governor directed Director Moskowitz to expand his emergency order and prohibit all visitation to nursing homes, assisted living facilities, adult family-care homes, long-term care facilities and adult group homes in Broward County for 30 days.
- Governor DeSantis will be activating a limited number of members of the Florida National Guard that will stage in Camp Blanding to prepare to deploy to any area of the state on a moment's notice.

Governor DeSantis has recommended that local authorities strongly consider canceling mass gatherings and follow Centers for Disease Control and Prevention (CDC) guidance. CDC has issued recommendations for implementation of mitigation strategies in Florida, including recommendations to cancel large gatherings of more than 250 people and smaller gatherings that may bring persons together from multiple parts of the country.

Yesterday, March 12th, Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.

On March 11, Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

COVID-19 Cases

* The Department of Health will confirm cases reported by commercial labs.

**Definition of travel-related: A known history of exposure to COVID-19 outside of the state.

International Travel

U.S. Department of State – Global Level 3 Health Advisory

The U.S. Department of State advises U.S. citizens to reconsider travel abroad due to the global impact of COVID-19. Many areas throughout the world are now experiencing COVID-19 outbreaks and taking action that may limit traveler mobility, including quarantines and border restrictions. Even countries, jurisdictions, or areas where cases have not been reported may restrict travel without notice.

CDC Guidelines

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3 Travel Advisory:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 Travel Advisory and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and they should call ahead to a health care professional or their county health department before seeking treatment.
    - According to CDC, a cruise ship is defined as a passenger vessel involving the movement of large numbers of people in closed and semi-closed settings.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact, unless they are experiencing an emergency.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise on the Nile River or tour in February or March 2020 to self-isolate for 14 days following their date of return to the United States, and if ill, immediately contact their CHD or health care provider. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including 11 positive cases in Florida.

Port Everglades Advisory

On March 12, the Department announced a new positive case of COVID-19 in Broward County. The Department, through an extensive epidemiological investigation, identified this new case as the fourth positive case of COVID-19 associated with Port Everglades in Broward County,

AMERICAN OVERSIGHT

Florida. Three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades. The epidemiological investigation for the fourth person connected to Port Everglades is ongoing.

- The Florida Department of Health recommends that all individuals experiencing symptoms who have recently traveled through Port Everglades immediately contact their County Health Department or health care provider and self-isolate for 14 days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the Centers for Disease Control and Prevention (CDC) on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their County Health Department or health care provider.

COVID-19 Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the State has Taken to Prepare for and Respond to COVID-19

Department of Health

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

AMERICAN OVERSIGHT

AGENCY FOR HEALTHCARE ADMINISTRATION

- Secretary Mayhew participated in a press conference with Governor DeSantis, Lieutenant Governor Nunez, Miami-Dade leadership and health care leaders to provide COVID-19 updates, including information on the new screening requirements at nursing homes, assisted living facilities and other long-term care facilities per a recent emergency order.
- The Agency for Healthcare Administration (AHCA) opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- AHCA expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- AHCA shared key guidance including CDC and the Department information regarding the importance of screening visitors, infection control protocol and hygiene best practices with all licensed healthcare facilities regulated by the Agency. The Agency is continuing to provide updates on recommendations and best practices from the CDC and Centers for Medicare and Medicaid Services regarding COVID-19.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department of Health, is hosting statewide calls for nursing homes, assisted living facilities, intermediate care facilities, and Agency for Persons with Disabilities group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting and screening visitors and providing updates.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department, is hosting statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- This week, AHCA Secretary Mary Mayhew visited nursing homes and hospital facilities in Tampa, Jacksonville and Orlando to discuss COVID-19 preparations and response and address to any concerns and questions from local partners.

AGENCY FOR PERSONS WITH DISABILITIES

- Members of the APD Senior Leadership Team are holding daily meetings on actions, policies, procedures, and updates related to COVID-19
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee are working very closely with their local health departments to enhance infection control measures.
- APD sent an updated visitor questionnaire for Adult Day Training facilities and Group Homes across the state to screen visitors prior to entering a facility. This visitor questionnaire will also be used for visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance on congregate meal sites and the provision of take-home meals, "drive-thru" meals and, if needed, the transfer of funding from congregate meal title into home-delivered meal title should any meal site close.
- DOEA disseminated the most current information on local emergency manager contacts from Florida Division of Emergency Management to Area Agency on Aging (AAA) Executive Directors, AAA Emergency Coordinators, and the Program of All-Inclusive Care for the Elderly (PACE) providers.
- DOEA provided The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors with a DOH flyer on preventing respiratory illness. Staff will leave a flyer with each client after conducting a face-to-face visit.
- DOEA continues to disseminate Situation Reports to Area Agency on Aging (AAA) Executive Directors and emergency coordinators.
- Staff continued to provide technical assistance to the Aging Network for frequently asked questions throughout the state regarding: potential congregate meal site closures, completing assessments when elders self-isolate, the screening of participants at meal sites, and screening of participants and visitors at Adult Day Cares.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences.
- All FDVA and VA facilities remain fully operational.

AMERICAN OVERSIGHT

VOLUNTEER FLORIDA

- This morning, Volunteer Florida had preliminary conversations with Mass Care on the anticipated needs of volunteers. Today, we will work together to plan for volunteers and develop volunteer safety guidelines to ensure that we are protecting our service providers (volunteers and clients).
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.
- Volunteer Florida participated in a statewide call with Supervisors of Elections to discuss Volunteer Connect (Florida's official volunteer opportunities) and how it can be used by offices to help recruit volunteers for Tuesday's primary election.

FLORIDA DEPARTMENT OF EDUCATION

- Today, Commissioner of the Florida Department of Education Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks.
- To stay up to date on school closure information, visit: fldoe.org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- At this time, no Florida student has contracted COVID-19.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
  - Inmates will continue to have access to mail, email, phone calls and video visitation.
  - Legal visits will not be impacted.
  - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:

  - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
  - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
  - Have had contact with someone who has been or is under investigation for COVID-19
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to this potential threat.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- To minimize guests' contact with surfaces, Florida Department of State's Mission San Luis (MSL) is propping open interior doors such as the doors to the Visitor Center public restrooms, gallery, theater, gift shop, and Mission Room. Mission San Luis is also frequently disinfecting and sanitizing items and surfaces that people touch at the Visitor Center, Messer House, gift shop and gallery. This includes countertops, elevator buttons, door handles, stair rails, water fountains, sinks, refrigerator doors, gift shop counters, gallery handles and buttons, and all flat surfaces, in general. Hand sanitizer is currently available in the Visitor Center for all staff and guests. Staff frequently clean the historic site public restroom's high touch surfaces and historic site water fountains. With the COVID-19 General Prevention sign, we are now encouraging staff to

AMERICAN OVERSIGHT

avoid contact with people who are sick and to avoid touching their own eyes, nose, or mouth with unwashed hands or after touching surfaces, in general. We are also encouraging staff to stay home when they are sick. COVID-19 general prevention signs from the Florida Department of Health have been posted in shared staff spaces, and the Florida DOH instructional sign regarding hand washing has been posted in public restrooms.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to renew or replace a driver license, ID card, motor vehicle or vessel registration, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor DeSantis announced the activation of the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by the Florida Department of Economic Opportunity (DEO), will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/ .

VISIT FLORIDA

- VISIT FLORIDA is assessing and reevaluating all tourism promotion messaging, both international and domestic, and is developing long-term strategies to keep Florida top-of-mind for potential vacationers.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19.
- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA has provided the state's three highway welcome centers with the latest information and resources on COVID-19 to help keep the traveling public informed.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has published a resource page on its website emphasizing its direction to insurers and will continuously update the page with important insurance resources.
- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating

AMERICAN OVERSIGHT

to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- At the direction of Governor DeSantis, FDLE is identifying conferences, meetings and other travel to be cancelled or postponed and working to receive reimbursements.
- FDLE is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE has reviewed its COOP and identified members who can work from home. We ordered an increase in bandwidth and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified our screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with our law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

###

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Today, Governor DeSantis held briefings related to COVID-19 with State Surgeon General Dr. Rivkees, Florida Division of Emergency Management Director Jared Moskowitz and the National Guard Adjutant General James Eifert. During a press conference, the Governor provided several updates on Florida's efforts to respond to COVID-19:

- Governor DeSantis announced 1,000 additional COVID-19 test kits have arrived in Florida for distribution to labs across the state.
- As a result of the increase in Broward County to 11 positive COVID-19 cases, the Governor directed Director Moskowitz to expand his emergency order and prohibit all visitation to nursing homes, assisted living facilities, adult family-care homes, long-term care facilities and adult group homes in Broward County for 30 days.
- Governor DeSantis will be activating a limited number of members of the Florida National Guard that will stage in Camp Blanding to prepare to deploy to any area of the state on a moment's notice.

Governor DeSantis has recommended that local authorities strongly consider canceling mass gatherings and follow Centers for Disease Control and Prevention (CDC) guidance. CDC has issued recommendations for implementation of mitigation strategies in Florida, including recommendations to cancel large gatherings of more than 250 people and smaller gatherings that may bring persons together from multiple parts of the country.

Yesterday, March 12th, Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.

On March 11, Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

COVID-19 Cases

Table

AMERICAN OVERSIGHT

table

tbl

* The Department of Health will confirm cases reported by commercial labs.

**Definition of travel-related: A known history of exposure to COVID-19 outside of the state.

International Travel

U.S. Department of State – Global Level 3 Health Advisory

The U.S. Department of State advises U.S. citizens to reconsider travel abroad due to the global impact of COVID-19. Many areas throughout the world are now experiencing COVID-19 outbreaks and taking action that may limit traveler mobility, including quarantines and border restrictions. Even countries, jurisdictions, or areas where cases have not been reported may restrict travel without notice.

CDC Guidelines

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3 Travel Advisory:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 Travel Advisory and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and they should call ahead to a health care professional or their county health department before seeking treatment.
    - According to CDC, a cruise ship is defined as a passenger vessel involving the movement of large numbers of people in closed and semi-closed settings.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact, unless they are experiencing an emergency.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise on the Nile River or tour in February or March 2020 to self-isolate for 14 days following their date of return to the United States, and if ill, immediately contact their CHD or health care provider. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including 11 positive cases in Florida.

Port Everglades Advisory

On March 12, the Department announced a new positive case of COVID-19 in Broward County. The Department, through an extensive epidemiological investigation, identified this new case as the fourth positive case of COVID-19 associated with Port Everglades in Broward County,

AMERICAN OVERSIGHT

Florida. Three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades. The epidemiological investigation for the fourth person connected to Port Everglades is ongoing.

- The Florida Department of Health recommends that all individuals experiencing symptoms who have recently traveled through Port Everglades immediately contact their County Health Department or health care provider and self-isolate for 14 days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the Centers for Disease Control and Prevention (CDC) on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their County Health Department or health care provider.

COVID-19 Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the State has Taken to Prepare for and Respond to COVID-19

Department of Health

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

AMERICAN OVERSIGHT

AGENCY FOR HEALTHCARE ADMINISTRATION

- Secretary Mayhew participated in a press conference with Governor DeSantis, Lieutenant Governor Nunez, Miami-Dade leadership and health care leaders to provide COVID-19 updates, including information on the new screening requirements at nursing homes, assisted living facilities and other long-term care facilities per a recent emergency order.
- The Agency for Healthcare Administration (AHCA) opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- AHCA expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- AHCA shared key guidance including CDC and the Department information regarding the importance of screening visitors, infection control protocol and hygiene best practices with all licensed healthcare facilities regulated by the Agency. The Agency is continuing to provide updates on recommendations and best practices from the CDC and Centers for Medicare and Medicaid Services regarding COVID-19.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department of Health, is hosting statewide calls for nursing homes, assisted living facilities, intermediate care facilities, and Agency for Persons with Disabilities group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting and screening visitors and providing updates.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department, is hosting statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- This week, AHCA Secretary Mary Mayhew visited nursing homes and hospital facilities in Tampa, Jacksonville and Orlando to discuss COVID-19 preparations and response and address to any concerns and questions from local partners.

AGENCY FOR PERSONS WITH DISABILITIES

- Members of the APD Senior Leadership Team are holding daily meetings on actions, policies, procedures, and updates related to COVID-19
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee are working very closely with their local health departments to enhance infection control measures.
- APD sent an updated visitor questionnaire for Adult Day Training facilities and Group Homes across the state to screen visitors prior to entering a facility. This visitor questionnaire will also be used for visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance on congregate meal sites and the provision of take-home meals, "drive-thru" meals and, if needed, the transfer of funding from congregate meal title into home-delivered meal title should any meal site close.
- DOEA disseminated the most current information on local emergency manager contacts from Florida Division of Emergency Management to Area Agency on Aging (AAA) Executive Directors, AAA Emergency Coordinators, and the Program of All-Inclusive Care for the Elderly (PACE) providers.
- DOEA provided The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors with a DOH flyer on preventing respiratory illness. Staff will leave a flyer with each client after conducting a face-to-face visit.
- DOEA continues to disseminate Situation Reports to Area Agency on Aging (AAA) Executive Directors and emergency coordinators.
- Staff continued to provide technical assistance to the Aging Network for frequently asked questions throughout the state regarding: potential congregate meal site closures, completing assessments when elders self-isolate, the screening of participants at meal sites, and screening of participants and visitors at Adult Day Cares.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences.
- All FDVA and VA facilities remain fully operational.

AMERICAN OVERSIGHT

VOLUNTEER FLORIDA

- This morning, Volunteer Florida had preliminary conversations with Mass Care on the anticipated needs of volunteers. Today, we will work together to plan for volunteers and develop volunteer safety guidelines to ensure that we are protecting our service providers (volunteers and clients).
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.
- Volunteer Florida participated in a statewide call with Supervisors of Elections to discuss Volunteer Connect (Florida's official volunteer opportunities) and how it can be used by offices to help recruit volunteers for Tuesday's primary election.

FLORIDA DEPARTMENT OF EDUCATION

- Today, Commissioner of the Florida Department of Education Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks.
- To stay up to date on school closure information, visit: fldoe.org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- At this time, no Florida student has contracted COVID-19.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
  - Inmates will continue to have access to mail, email, phone calls and video visitation.
  - Legal visits will not be impacted.
  - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:

  - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
  - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
  - Have had contact with someone who has been or is under investigation for COVID-19
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to this potential threat.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- To minimize guests' contact with surfaces, Florida Department of State's Mission San Luis (MSL) is propping open interior doors such as the doors to the Visitor Center public restrooms, gallery, theater, gift shop, and Mission Room. Mission San Luis is also frequently disinfecting and sanitizing items and surfaces that people touch at the Visitor Center, Messer House, gift shop and gallery. This includes countertops, elevator buttons, door handles, stair rails, water fountains, sinks, refrigerator doors, gift shop counters, gallery handles and buttons, and all flat surfaces, in general. Hand sanitizer is currently available in the Visitor Center for all staff and guests. Staff frequently clean the historic site public restroom's high touch surfaces and historic site water fountains. With the COVID-19 General Prevention sign, we are now encouraging staff to

AMERICAN OVERSIGHT

avoid contact with people who are sick and to avoid touching their own eyes, nose, or mouth with unwashed hands or after touching surfaces, in general. We are also encouraging staff to stay home when they are sick. COVID-19 general prevention signs from the Florida Department of Health have been posted in shared staff spaces, and the Florida DOH instructional sign regarding hand washing has been posted in public restrooms.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to renew or replace a driver license, ID card, motor vehicle or vessel registration, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor DeSantis announced the activation of the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by the Florida Department of Economic Opportunity (DEO), will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/ .

VISIT FLORIDA

- VISIT FLORIDA is assessing and reevaluating all tourism promotion messaging, both international and domestic, and is developing long-term strategies to keep Florida top-of-mind for potential vacationers.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19.
- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA has provided the state's three highway welcome centers with the latest information and resources on COVID-19 to help keep the traveling public informed.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has published a resource page on its website emphasizing its direction to insurers and will continuously update the page with important insurance resources.
- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating

AMERICAN OVERSIGHT

to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- At the direction of Governor DeSantis, FDLE is identifying conferences, meetings and other travel to be cancelled or postponed and working to receive reimbursements.
- FDLE is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE has reviewed its COOP and identified members who can work from home. We ordered an increase in bandwidth and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified our screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with our law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

###

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Today, Governor DeSantis held briefings related to COVID-19 with State Surgeon General Dr. Rivkees, Florida Division of Emergency Management Director Jared Moskowitz and the National Guard Adjutant General James Eifert. During a press conference, the Governor provided several updates on Florida's efforts to respond to COVID-19:

- Governor DeSantis announced 1,000 additional COVID-19 test kits have arrived in Florida for distribution to labs across the state.
- As a result of the increase in Broward County to 11 positive COVID-19 cases, the Governor directed Director Moskowitz to expand his emergency order and prohibit all visitation to nursing homes, assisted living facilities, adult family-care homes, long-term care facilities and adult group homes in Broward County for 30 days.
- Governor DeSantis will be activating a limited number of members of the Florida National Guard that will stage in Camp Blanding to prepare to deploy to any area of the state on a moment's notice.

Governor DeSantis has recommended that local authorities strongly consider canceling mass gatherings and follow Centers for Disease Control and Prevention (CDC) guidance. CDC has issued recommendations for implementation of mitigation strategies in Florida, including recommendations to cancel large gatherings of more than 250 people and smaller gatherings that may bring persons together from multiple parts of the country.

Yesterday, March 12th, Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.

On March 11, Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

COVID-19 Cases

Table

AMERICAN OVERSIGHT

table

chart

tbl

* The Department of Health will confirm cases reported by commercial labs.

**Definition of travel-related: A known history of exposure to COVID-19 outside of the state.

International Travel

U.S. Department of State – Global Level 3 Health Advisory

The U.S. Department of State advises U.S. citizens to reconsider travel abroad due to the global impact of COVID-19. Many areas throughout the world are now experiencing COVID-19 outbreaks and taking action that may limit traveler mobility, including quarantines and border restrictions. Even countries, jurisdictions, or areas where cases have not been reported may restrict travel without notice.

CDC Guidelines

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3 Travel Advisory:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 Travel Advisory and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and they should call ahead to a health care professional or their county health department before seeking treatment.
    - According to CDC, a cruise ship is defined as a passenger vessel involving the movement of large numbers of people in closed and semi-closed settings.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact, unless they are experiencing an emergency.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise on the Nile River or tour in February or March 2020 to self-isolate for 14 days following their date of return to the United States, and if ill, immediately contact their CHD or health care provider. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including 11 positive cases in Florida.

Port Everglades Advisory

On March 12, the Department announced a new positive case of COVID-19 in Broward County. The Department, through an extensive epidemiological investigation, identified this new case as the fourth positive case of COVID-19 associated with Port Everglades in Broward County,

AMERICAN OVERSIGHT

Florida. Three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades. The epidemiological investigation for the fourth person connected to Port Everglades is ongoing.

- The Florida Department of Health recommends that all individuals experiencing symptoms who have recently traveled through Port Everglades immediately contact their County Health Department or health care provider and self-isolate for 14 days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the Centers for Disease Control and Prevention (CDC) on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their County Health Department or health care provider.

COVID-19 Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the State has Taken to Prepare for and Respond to COVID-19

Department of Health

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

AMERICAN OVERSIGHT

AGENCY FOR HEALTHCARE ADMINISTRATION

- Secretary Mayhew participated in a press conference with Governor DeSantis, Lieutenant Governor Nunez, Miami-Dade leadership and health care leaders to provide COVID-19 updates, including information on the new screening requirements at nursing homes, assisted living facilities and other long-term care facilities per a recent emergency order.
- The Agency for Healthcare Administration (AHCA) opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- AHCA expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- AHCA shared key guidance including CDC and the Department information regarding the importance of screening visitors, infection control protocol and hygiene best practices with all licensed healthcare facilities regulated by the Agency. The Agency is continuing to provide updates on recommendations and best practices from the CDC and Centers for Medicare and Medicaid Services regarding COVID-19.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department of Health, is hosting statewide calls for nursing homes, assisted living facilities, intermediate care facilities, and Agency for Persons with Disabilities group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting and screening visitors and providing updates.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department, is hosting statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- This week, AHCA Secretary Mary Mayhew visited nursing homes and hospital facilities in Tampa, Jacksonville and Orlando to discuss COVID-19 preparations and response and address to any concerns and questions from local partners.

AGENCY FOR PERSONS WITH DISABILITIES

- Members of the APD Senior Leadership Team are holding daily meetings on actions, policies, procedures, and updates related to COVID-19
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee are working very closely with their local health departments to enhance infection control measures.
- APD sent an updated visitor questionnaire for Adult Day Training facilities and Group Homes across the state to screen visitors prior to entering a facility. This visitor questionnaire will also be used for visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance on congregate meal sites and the provision of take-home meals, "drive-thru" meals and, if needed, the transfer of funding from congregate meal title into home-delivered meal title should any meal site close.
- DOEA disseminated the most current information on local emergency manager contacts from Florida Division of Emergency Management to Area Agency on Aging (AAA) Executive Directors, AAA Emergency Coordinators, and the Program of All-Inclusive Care for the Elderly (PACE) providers.
- DOEA provided The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors with a DOH flyer on preventing respiratory illness. Staff will leave a flyer with each client after conducting a face-to-face visit.
- DOEA continues to disseminate Situation Reports to Area Agency on Aging (AAA) Executive Directors and emergency coordinators.
- Staff continued to provide technical assistance to the Aging Network for frequently asked questions throughout the state regarding: potential congregate meal site closures, completing assessments when elders self-isolate, the screening of participants at meal sites, and screening of participants and visitors at Adult Day Cares.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences.
- All FDVA and VA facilities remain fully operational.

AMERICAN OVERSIGHT

VOLUNTEER FLORIDA

- This morning, Volunteer Florida had preliminary conversations with Mass Care on the anticipated needs of volunteers. Today, we will work together to plan for volunteers and develop volunteer safety guidelines to ensure that we are protecting our service providers (volunteers and clients).
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.
- Volunteer Florida participated in a statewide call with Supervisors of Elections to discuss Volunteer Connect (Florida's official volunteer opportunities) and how it can be used by offices to help recruit volunteers for Tuesday's primary election.

FLORIDA DEPARTMENT OF EDUCATION

- Today, Commissioner of the Florida Department of Education Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks.
- To stay up to date on school closure information, visit: fldoe.org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- At this time, no Florida student has contracted COVID-19.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
  - Inmates will continue to have access to mail, email, phone calls and video visitation.
  - Legal visits will not be impacted.
  - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:

  - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
  - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
  - Have had contact with someone who has been or is under investigation for COVID-19
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to this potential threat.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- To minimize guests' contact with surfaces, Florida Department of State's Mission San Luis (MSL) is propping open interior doors such as the doors to the Visitor Center public restrooms, gallery, theater, gift shop, and Mission Room. Mission San Luis is also frequently disinfecting and sanitizing items and surfaces that people touch at the Visitor Center, Messer House, gift shop and gallery. This includes countertops, elevator buttons, door handles, stair rails, water fountains, sinks, refrigerator doors, gift shop counters, gallery handles and buttons, and all flat surfaces, in general. Hand sanitizer is currently available in the Visitor Center for all staff and guests. Staff frequently clean the historic site public restroom's high touch surfaces and historic site water fountains. With the COVID-19 General Prevention sign, we are now encouraging staff to

AMERICAN OVERSIGHT

avoid contact with people who are sick and to avoid touching their own eyes, nose, or mouth with unwashed hands or after touching surfaces, in general. We are also encouraging staff to stay home when they are sick. COVID-19 general prevention signs from the Florida Department of Health have been posted in shared staff spaces, and the Florida DOH instructional sign regarding hand washing has been posted in public restrooms.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to renew or replace a driver license, ID card, motor vehicle or vessel registration, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor DeSantis announced the activation of the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by the Florida Department of Economic Opportunity (DEO), will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/ .

VISIT FLORIDA

- VISIT FLORIDA is assessing and reevaluating all tourism promotion messaging, both international and domestic, and is developing long-term strategies to keep Florida top-of-mind for potential vacationers.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19.
- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA has provided the state's three highway welcome centers with the latest information and resources on COVID-19 to help keep the traveling public informed.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has published a resource page on its website emphasizing its direction to insurers and will continuously update the page with important insurance resources.
- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating

AMERICAN OVERSIGHT

to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- At the direction of Governor DeSantis, FDLE is identifying conferences, meetings and other travel to be cancelled or postponed and working to receive reimbursements.
- FDLE is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE has reviewed its COOP and identified members who can work from home. We ordered an increase in bandwidth and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified our screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with our law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

###

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

The State of Florida Issues Updates on COVID-19

The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Today, Governor DeSantis announced that the State has ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. Governor DeSantis has also recommended that local authorities strongly consider canceling mass gatherings. Centers for Disease Control and Prevention (CDC) defines a mass event or gathering as 1,000 individuals or more. Practically speaking, a mass gathering is a large enough assembly of individuals that will put a strain on local resources. The Governor also suspended non-essential instate and all out-of-state travel for state employees for 30 days.

Yesterday, March 11, Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

New Positive Cases

Earlier today, the Florida Department of Health announced one new case of COVID-19 in Seminole County.

- A 68-year old male in Seminole County has tested positive for COVID-19. He is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case and is associated with a Nile River cruise/tour in Egypt.

COVID-19 Cases

COVID Chart

AMERICAN OVERSIGHT

* The Department of Health will confirm cases reported by commercial labs.
** A known history of exposure to COVID-19 outside of the state.

As an update to the ongoing epidemiological investigation in St. Johns County, it was determined that the individual who traveled to Florida from New York to attend Bike Week was isolated prior to attending the event. We are continuing to encourage Floridians to stay vigilant and advising Florida municipalities to consider limiting large gatherings.

Port Everglades Advisory

On March 12, the Department announced a new positive case of COVID-19 in Broward County. The Department, through an extensive epidemiological investigation, identified this new case as the fourth positive case of COVID-19 associated with Port Everglades in Broward County, Florida. Three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades. The epidemiological investigation for the fourth person connected to Port Everglades is ongoing.

- The Florida Department of Health recommends that all individuals experiencing symptoms who have recently traveled through Port Everglades immediately contact their County Health Department or health care provider and self-isolate for 14 days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the Centers for Disease Control and Prevention (CDC) on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their County Health Department or health care provider.

International Travel and Cruises Advisory

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3 Travel Advisory:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 Travel Advisory and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and they should call ahead to a health care professional or their county health department before seeking treatment.
    - According to CDC, a cruise ship is defined as a passenger vessel involving the movement of large numbers of people in closed and semi-closed settings.

- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact, unless they are experiencing an emergency.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise on the Nile River or tour in February or March 2020 to self-isolate for 14 days following their date of return to the United States. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including 11 positive cases in Florida.

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

AMERICAN OVERSIGHT

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the State has Taken to Prepare for and Respond to COVID-19

Department of Health

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

AGENCY FOR HEALTHCARE ADMINISTRATION

- Secretary Mayhew participated in a press conference with Governor DeSantis, Lieutenant Governor Nunez, Miami-Dade leadership and health care leaders to provide COVID-19 updates, including information on the new screening requirements at nursing homes, assisted living facilities and other long-term care facilities per a recent emergency order.
- The Agency for Healthcare Administration (AHCA) opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- AHCA expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- AHCA shared key guidance including CDC and the Department information regarding the importance of screening visitors, infection control protocol and hygiene best practices with all licensed healthcare facilities regulated by the Agency. The Agency is continuing to provide updates on recommendations and best practices from the CDC and Centers for Medicare and Medicaid Services regarding COVID-19.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department of Health, is hosting statewide calls for nursing homes, assisted living facilities, intermediate care facilities, and Agency for Persons with Disabilities group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting and screening visitors and providing updates.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department, is hosting statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- This week, AHCA Secretary Mary Mayhew visited nursing homes and hospital facilities in Tampa, Jacksonville and Orlando to discuss COVID-19 preparations and response and address to any concerns and questions from local partners.

AGENCY FOR PERSONS WITH DISABILITIES

- Members of the APD Senior Leadership Team are holding daily meetings on actions, policies, procedures, and updates related to COVID-19
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee are working very closely with their local health departments to enhance infection control measures.
- APD sent an updated visitor questionnaire for Adult Day Training facilities and Group Homes across the state to screen visitors prior to entering a facility. This visitor questionnaire will now be used for visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.
- The Director of the Agency for Persons with Disabilities (APD), and members of the Senior Leadership Team participated in the conference call related to vulnerable populations hosted by the Surgeon General. The call provided the most up-to-date information to APD partners who are caring for vulnerable populations.
- APD implemented a visitor questionnaire at its two state centers in Gainesville and Marianna.
- APD continues to provide additional best practices, preventative tips and CDC guidance to APD providers, Waiver Support coordinators and APD employees.
- The APD Senior Leadership Team began hosting twice weekly COVID-19 conference calls with the Superintendents of the agency's facilities in Marianna, Gainesville, Chattahoochee and the Developmental Disabilities Defendant Program.

DEPARTMENT OF ELDER AFFAIRS

- The Department of Elder Affairs (DOEA) Secretary Richard Prudom stood with Governor Ron DeSantis and other agency heads during press conferences on Monday, March 9th and Wednesday, March 11th to address Florida's recent actions regarding COVID-19.
- DOEA Secretary Richard Prudom and executive staff participated in a conference call with the Administration for Community Living (ACL) and ACL administrator Lance Robertson and the Centers for Disease Control and Prevention (CDC). Other state units on aging also participated to discuss issues on the implementation of prevention protocols for prevention of spread of COVID-19.
- DOEA Program directors provided guidance to Area Agencies on Aging and statewide Comprehensive Assessment and Review for Long-term Care Services (CARES) offices on how to protect clients and staff during a conference call and provided follow-up information.
- DOEA participated in the Aging and Vulnerable Populations Call hosted by the Florida Department of Health (DOH). All of the state's Area Agencies on Aging (AAA) were on this call, and DOEA staff are following up with them on an individual basis for questions and answers for COVID-19.

AMERICAN OVERSIGHT

- Through Departmental Leadership and the Area Agency on Aging contract managers, we are providing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, staff has provided specific technical assistance to all AAAs regarding completing assessments, safe delivery of home-delivered meals, and procurement of cleaning supplies.
- Arranged a conference call with a representative from the Area Agencies on Aging as well as the Florida Association of Aging Services Providers and GA Foods. Discussed the current messaging from ACL and the CDC as it relates to the Aging Network.
- Conducted a Florida Association of the Area Agencies on Aging (F4A) conference call with all contract managers and AAA Executive Directors March 11 at 2:00 p.m. to provide a daily update regarding COVID-19.
- The Department of Elder Affairs has distributed DOH website information as a resource for PACE providers to use and distribute to seniors. and provided the Executive Orders. DOEA has circulated additional information and long-term care provider conference call invitations with presentations by DOH and AHCA to the PACE providers.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, the Florida Department of Veterans' Affairs (FDVA) is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- All FDVA and VA facilities remain fully operational.

VOLUNTEER FLORIDA

- Volunteer Florida is coordinating with the Florida Department of Elder Affairs to see how the agency can assist with distributing information to seniors.
- Volunteer Florida's Emergency Management Department is having initial conversations with partners to determine what could be needed and what safety precautions need to be considered if volunteers are utilized.
- Volunteer Florida is preparing information to be shared with Supervisors of Elections about Volunteer Connect, Florida's official volunteer opportunities platform. Through the platform, offices can post/promote volunteer opportunities, including poll work.
- Volunteer Florida is coordinating with the Florida Department of Elder Affairs to see how the agency can assist with distributing information to seniors.
- Volunteer Florida's Emergency Management Department is having initial conversations with partners to determine what could be needed and what safety precautions need to be considered if volunteers are utilized.

FLORIDA DEPARTMENT OF EDUCATION

- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- Out of an abundance of caution, two temporary school closures have been reported in Okaloosa and Hillsborough County for cleaning. At this time, no Florida student has contracted COVID-19. To stay up to date on school information, visit: fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.

AMERICAN OVERSIGHT

- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/

FLORIDA DEPARTMENT OF CORRECTIONS

- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department of Health. Inmates will continue to have access to mail, phone calls and video visitation. Legal visits will not be impacted.
- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
    - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
    - Have had contact with someone who has been or is under investigation for COVID-19
- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC's Office of Health Services coordinates with the department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from Florida Department of Health and the CDC.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC stood up its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness and are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Florida Department of State (DOS) has been in contact with the Supervisors of Elections for Hillsborough, Lake, Leon, Manatee, Palm Beach and Sarasota Counties to determine their needs specifically as it relates to supplies. The supervisors have been encouraged to connect with their county emergency management department for meeting these resource needs.
- DOS is in constant communication with Supervisors of Elections regarding readiness for elections and any anticipated needs related to COVID-19.
- DOS is sharing information with the public regarding voting options for the upcoming election, including vote-by-mail and early voting options.
- DOS is actively wiping down public spaces including all DOS maintained properties, reception areas and restrooms with bleach or disinfectant wipes to mitigate the spread of germs.
- DOS has provided guidance to all 67 county Supervisors of Elections regarding assisted living facilities and poll worker staff matters. The message included guidance to screen poll workers and clerks beforehand to determine their recent travel status or if they are showing active symptoms of COVID-19 and reminding supervisors of the option to designate alternate polling locations for nursing homes, centers for independent living continuing care retirement living communities and assisted living facilities.
- DOS has identified stakeholders including libraries, museums, cultural facilities and are developing plans to communicate information and resources about COVID-19 to those stakeholders.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- FLHSMV is encouraging Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to renew or replace a driver license, ID card, motor vehicle or vessel registration, and more.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- The Florida Department of Economic Opportunity (DEO) continues to encourage businesses to follow the "Interim Guidance for Businesses and Employers" issued by the Center for Disease Control and Prevention (CDC). This information is being provided to statewide business partners, local Chambers of Commerce and Economic Development Councils throughout the sate.
- The Florida Restaurant and Lodging Association (FRLA) and Florida Retail Federation and the Florida Chamber of Commerce, in coordination with DEO, are working to provide health safety information and coordination with partners, including how to address potential local supply issues.
- DEO is coordinating with CareerSource Florida, local workforce boards, and other public-private partners. DEO is also working closely with our local, state and federal partners to explore potential resources for employers, businesses and impacted workforce.

VISIT FLORIDA

- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA has provided the state's three highway welcome centers with the latest information and resources on COVID-19 to help keep the traveling public informed.

AMERICAN OVERSIGHT

VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns.
- VISIT FLORIDA employees at Florida's three highway welcome centers continue to be provided with the latest COVID-19 information and resources to help keep the traveling public informed.
- Preventive health resources and options have been communicated to all VISIT FLORIDA staff, with new updates and information relayed accordingly.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.
- VISIT FLORIDA continues to follow all direction from the Executive Office of the Governor and Florida Department of Health in the dissemination of alerts and safety information through social media and VISIT FLORIDA's network of Destination Marketing Organization and business partners.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has published a resource page on its website emphasizing its direction to insurers and will continuously update the page with important insurance resources.
- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- The Florida Department of Law Enforcement (FDLE) is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE has reviewed its COOP and identified members who can work from home. FDLE has ordered an increase in bandwidth and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified our screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with our law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

###

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

The State of Florida Issues Updates on COVID-19

The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Today, Governor DeSantis announced that the State has ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. Governor DeSantis has also recommended that local authorities strongly consider canceling mass gatherings. Centers for Disease Control and Prevention (CDC) defines a mass event or gathering as 1,000 individuals or more. Practically speaking, a mass gathering is a large enough assembly of individuals that will put a strain on local resources. The Governor also suspended non-essential instate and all out-of-state travel for state employees for 30 days.

Yesterday, March 11, Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

New Positive Cases

Earlier today, the Florida Department of Health announced one new case of COVID-19 in Seminole County.

- A 68-year old male in Seminole County has tested positive for COVID-19. He is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case and is associated with a Nile River cruise/tour in Egypt.

COVID-19 Cases

COVID Chart

AMERICAN OVERSIGHT

* The Department of Health will confirm cases reported by commercial labs.
** A known history of exposure to COVID-19 outside of the state.

As an update to the ongoing epidemiological investigation in St. Johns County, it was determined that the individual who traveled to Florida from New York to attend Bike Week was isolated prior to attending the event. We are continuing to encourage Floridians to stay vigilant and advising Florida municipalities to consider limiting large gatherings.

Port Everglades Advisory

On March 12, the Department announced a new positive case of COVID-19 in Broward County. The Department, through an extensive epidemiological investigation, identified this new case as the fourth positive case of COVID-19 associated with Port Everglades in Broward County, Florida. Three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades. The epidemiological investigation for the fourth person connected to Port Everglades is ongoing.

- The Florida Department of Health recommends that all individuals experiencing symptoms who have recently traveled through Port Everglades immediately contact their County Health Department or health care provider and self-isolate for 14 days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the Centers for Disease Control and Prevention (CDC) on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their County Health Department or health care provider.

International Travel and Cruises Advisory

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3 Travel Advisory:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 Travel Advisory and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and they should call ahead to a health care professional or their county health department before seeking treatment.
    - According to CDC, a cruise ship is defined as a passenger vessel involving the movement of large numbers of people in closed and semi-closed settings.

- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact, unless they are experiencing an emergency.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise on the Nile River or tour in February or March 2020 to self-isolate for 14 days following their date of return to the United States. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including 11 positive cases in Florida.

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

AMERICAN OVERSIGHT

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the State has Taken to Prepare for and Respond to COVID-19

Department of Health

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

AGENCY FOR HEALTHCARE ADMINISTRATION

- Secretary Mayhew participated in a press conference with Governor DeSantis, Lieutenant Governor Nunez, Miami-Dade leadership and health care leaders to provide COVID-19 updates, including information on the new screening requirements at nursing homes, assisted living facilities and other long-term care facilities per a recent emergency order.
- The Agency for Healthcare Administration (AHCA) opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- AHCA expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- AHCA shared key guidance including CDC and the Department information regarding the importance of screening visitors, infection control protocol and hygiene best practices with all licensed healthcare facilities regulated by the Agency. The Agency is continuing to provide updates on recommendations and best practices from the CDC and Centers for Medicare and Medicaid Services regarding COVID-19.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department of Health, is hosting statewide calls for nursing homes, assisted living facilities, intermediate care facilities, and Agency for Persons with Disabilities group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting and screening visitors and providing updates.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department, is hosting statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- This week, AHCA Secretary Mary Mayhew visited nursing homes and hospital facilities in Tampa, Jacksonville and Orlando to discuss COVID-19 preparations and response and address to any concerns and questions from local partners.

AGENCY FOR PERSONS WITH DISABILITIES

- Members of the APD Senior Leadership Team are holding daily meetings on actions, policies, procedures, and updates related to COVID-19
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee are working very closely with their local health departments to enhance infection control measures.
- APD sent an updated visitor questionnaire for Adult Day Training facilities and Group Homes across the state to screen visitors prior to entering a facility. This visitor questionnaire will now be used for visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.
- The Director of the Agency for Persons with Disabilities (APD), and members of the Senior Leadership Team participated in the conference call related to vulnerable populations hosted by the Surgeon General. The call provided the most up-to-date information to APD partners who are caring for vulnerable populations.
- APD implemented a visitor questionnaire at its two state centers in Gainesville and Marianna.
- APD continues to provide additional best practices, preventative tips and CDC guidance to APD providers, Waiver Support coordinators and APD employees.
- The APD Senior Leadership Team began hosting twice weekly COVID-19 conference calls with the Superintendents of the agency's facilities in Marianna, Gainesville, Chattahoochee and the Developmental Disabilities Defendant Program.

DEPARTMENT OF ELDER AFFAIRS

- The Department of Elder Affairs (DOEA) Secretary Richard Prudom stood with Governor Ron DeSantis and other agency heads during press conferences on Monday, March 9th and Wednesday, March 11th to address Florida's recent actions regarding COVID-19.
- DOEA Secretary Richard Prudom and executive staff participated in a conference call with the Administration for Community Living (ACL) and ACL administrator Lance Robertson and the Centers for Disease Control and Prevention (CDC). Other state units on aging also participated to discuss issues on the implementation of prevention protocols for prevention of spread of COVID-19.
- DOEA Program directors provided guidance to Area Agencies on Aging and statewide Comprehensive Assessment and Review for Long-term Care Services (CARES) offices on how to protect clients and staff during a conference call and provided follow-up information.
- DOEA participated in the Aging and Vulnerable Populations Call hosted by the Florida Department of Health (DOH). All of the state's Area Agencies on Aging (AAA) were on this call, and DOEA staff are following up with them on an individual basis for questions and answers for COVID-19.

AMERICAN OVERSIGHT

- Through Departmental Leadership and the Area Agency on Aging contract managers, we are providing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, staff has provided specific technical assistance to all AAAs regarding completing assessments, safe delivery of home-delivered meals, and procurement of cleaning supplies.
- Arranged a conference call with a representative from the Area Agencies on Aging as well as the Florida Association of Aging Services Providers and GA Foods. Discussed the current messaging from ACL and the CDC as it relates to the Aging Network.
- Conducted a Florida Association of the Area Agencies on Aging (F4A) conference call with all contract managers and AAA Executive Directors March 11 at 2:00 p.m. to provide a daily update regarding COVID-19.
- The Department of Elder Affairs has distributed DOH website information as a resource for PACE providers to use and distribute to seniors. and provided the Executive Orders. DOEA has circulated additional information and long-term care provider conference call invitations with presentations by DOH and AHCA to the PACE providers.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, the Florida Department of Veterans' Affairs (FDVA) is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- All FDVA and VA facilities remain fully operational.

VOLUNTEER FLORIDA

- Volunteer Florida is coordinating with the Florida Department of Elder Affairs to see how the agency can assist with distributing information to seniors.
- Volunteer Florida's Emergency Management Department is having initial conversations with partners to determine what could be needed and what safety precautions need to be considered if volunteers are utilized.
- Volunteer Florida is preparing information to be shared with Supervisors of Elections about Volunteer Connect, Florida's official volunteer opportunities platform. Through the platform, offices can post/promote volunteer opportunities, including poll work.
- Volunteer Florida is coordinating with the Florida Department of Elder Affairs to see how the agency can assist with distributing information to seniors.
- Volunteer Florida's Emergency Management Department is having initial conversations with partners to determine what could be needed and what safety precautions need to be considered if volunteers are utilized.

FLORIDA DEPARTMENT OF EDUCATION

- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- Out of an abundance of caution, two temporary school closures have been reported in Okaloosa and Hillsborough County for cleaning. At this time, no Florida student has contracted COVID-19. To stay up to date on school information, visit: fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.

AMERICAN OVERSIGHT

- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/

FLORIDA DEPARTMENT OF CORRECTIONS

- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department of Health. Inmates will continue to have access to mail, phone calls and video visitation. Legal visits will not be impacted.
- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
    - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
    - Have had contact with someone who has been or is under investigation for COVID-19
- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC's Office of Health Services coordinates with the department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from Florida Department of Health and the CDC.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC stood up its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness and are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Florida Department of State (DOS) has been in contact with the Supervisors of Elections for Hillsborough, Lake, Leon, Manatee, Palm Beach and Sarasota Counties to determine their needs specifically as it relates to supplies. The supervisors have been encouraged to connect with their county emergency management department for meeting these resource needs.
- DOS is in constant communication with Supervisors of Elections regarding readiness for elections and any anticipated needs related to COVID-19.
- DOS is sharing information with the public regarding voting options for the upcoming election, including vote-by-mail and early voting options.
- DOS is actively wiping down public spaces including all DOS maintained properties, reception areas and restrooms with bleach or disinfectant wipes to mitigate the spread of germs.
- DOS has provided guidance to all 67 county Supervisors of Elections regarding assisted living facilities and poll worker staff matters. The message included guidance to screen poll workers and clerks beforehand to determine their recent travel status or if they are showing active symptoms of COVID-19 and reminding supervisors of the option to designate alternate polling locations for nursing homes, centers for independent living continuing care retirement living communities and assisted living facilities.
- DOS has identified stakeholders including libraries, museums, cultural facilities and are developing plans to communicate information and resources about COVID-19 to those stakeholders.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- FLHSMV is encouraging Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to renew or replace a driver license, ID card, motor vehicle or vessel registration, and more.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- The Florida Department of Economic Opportunity (DEO) continues to encourage businesses to follow the "Interim Guidance for Businesses and Employers" issued by the Center for Disease Control and Prevention (CDC). This information is being provided to statewide business partners, local Chambers of Commerce and Economic Development Councils throughout the sate.
- The Florida Restaurant and Lodging Association (FRLA) and Florida Retail Federation and the Florida Chamber of Commerce, in coordination with DEO, are working to provide health safety information and coordination with partners, including how to address potential local supply issues.
- DEO is coordinating with CareerSource Florida, local workforce boards, and other public-private partners. DEO is also working closely with our local, state and federal partners to explore potential resources for employers, businesses and impacted workforce.

VISIT FLORIDA

- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA has provided the state's three highway welcome centers with the latest information and resources on COVID-19 to help keep the traveling public informed.

AMERICAN OVERSIGHT

VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns.
- VISIT FLORIDA employees at Florida's three highway welcome centers continue to be provided with the latest COVID-19 information and resources to help keep the traveling public informed.
- Preventive health resources and options have been communicated to all VISIT FLORIDA staff, with new updates and information relayed accordingly.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.
- VISIT FLORIDA continues to follow all direction from the Executive Office of the Governor and Florida Department of Health in the dissemination of alerts and safety information through social media and VISIT FLORIDA's network of Destination Marketing Organization and business partners.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has published a resource page on its website emphasizing its direction to insurers and will continuously update the page with important insurance resources.
- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- The Florida Department of Law Enforcement (FDLE) is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE has reviewed its COOP and identified members who can work from home. FDLE has ordered an increase in bandwidth and additional VPN licenses creating additional capacity for members to work remotely.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified our screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with our law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

###

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE, Fla. - The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the Florida Emergency Operations Center, Governor DeSantis announced the following:

- One additional person has died in Clay County.
- Earlier this week, the state received news that an ALF resident who passed away had tested positive for COVID-19. The state then learned that two additional residents in the same facility passed away. Those individuals tested negative for COVID-19.
- Since February 22, FDOH labs in Miami, Jacksonville, and Tampa have tested more than 1,600 people.
- During the week of March 8, private labs began processing COVID-19 tests. Since then, more than 50 private labs have completed more than 2,050 tests.
- The Florida National Guard is assembling a drive-through testing facility at Broward Memorial Healthcare System.
- To support communities responding to COVID-19, Governor DeSantis has directed FDEM Director Jared Moskowitz to expedite the delivery of more than $170 million in Hurricane Irma reimbursements to cities, counties and hospital districts that have now reached the 50-percent auditing threshold to receive funds.
- To support the volume of calls to the COVID-19 call center and the reemployment assistance call center, Governor DeSantis directed State Surgeon General Dr. Rivkees and DEO Director Ken Lawson to expand the call-handling capacity of those call centers.

More Information on COVID-19

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with

AMERICAN OVERSIGHT

the Department to determine if the person should be tested for COVID-19.

Actions the state has taken to prepare for and respond to COVID-19:

DEPARTMENT OF HEALTH

- At the direction of Governor DeSantis, State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health (DOH), working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in-state and all out-of-state travel for state employees for 30 days.
- DOH established an Incident Management Team to coordinate response operations.
- DOH defined a high-level phased response strategy for COVID-19.
- DOH activated a dedicated incident command post for on-site response activities.
- DOH conducted three public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined the calls.
- DOH established a public call center for questions regarding COVID-19. The call center launched Monday, March 2.
- DOH developed and distributed COVID-19 presentation materials to County Health Departments (CHD) for use at community meetings.
- DOH activated the Joint Information Center in coordination with the Division of Emergency Management.
- DOH developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- DOH established mechanisms for monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- DOH distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUI) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- DOH approved and disseminated an updated Clinician Screening Tool for identifying COVID-19 PUIs.
- DOH distributed a health care provider letter regarding enhanced surveillance and preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- DOH implemented testing at all three State Public Health Laboratories.
- DOH distributed updated CDC guidance for schools to CHDs and the Department of Education.
- DOH distributed updated laboratory guidance regarding implementation of testing at State Public Health Laboratories.
- DOH developing a laboratory surge plan.
- DOH developing a clinician-level briefing for medical audiences.
- DOH identifying and monitoring close contacts of presumptive cases. Any close contacts with symptoms will be tested.
- DOH implemented private lab testing.
- DOH developed and disseminated pandemic planning guidance.
- DOH advised CHDs and HCCs to retain expired personal protective equipment until further until further notice.
- DOH continued development of public information resources.
- DOH developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- At the direction of Governor DeSantis hiring additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.

THE DIVISION OF EMERGENCY MANAGEMENT

- Yesterday, Governor DeSantis and DEM Director Jared Moskowitz announced that Florida is continuing to order supplies and personal protective equipment in an effort to mitigate and contain the spread of COVID-19 in the state.
- After conducting a thorough assessment of needs, Director Moskowitz has requested the following supplies through Direct Federal Assistance. Supplies are being delivered on a rolling basis, and inventory is being distributed throughout the state 24 hours a day.
  - 5 mobile intensive care units
  - 5,000 ventilators
  - 5,000 hospital beds
  - 50,000 two oz. bottles of hand sanitizer
  - 250,000 coveralls
  - 500,000 gloves
  - 500,000 gowns
  - 500,000 collection kits
  - 100,000 16 oz. bottles of hand sanitizers
  - 150,000 Personal Protective Equipment kits, including coveralls, gowns, and goggles
  - 2 million N95 face masks
- Director Moskowitz is working with the federal government to determine if there is capacity to add US Navy Mercy-Class ships at Florida ports.
- Three field hospitals are being deployed.
- Mobile COVID-19 testing is also being implemented.

AGENCY FOR HEALTH CARE ADMINISTRATION

- Secretary Mayhew is working directly with hospitals and large health systems to identify potential vacant wings or buildings to provide additional hospital inpatient capacity should it become necessary.
- On March 16, Florida became the first state to receive CMS approval of its 1135 Medicaid Waiver giving AHCA more flexibility for its COVID-19 response efforts. This federal action lifts Medicaid prior authorization requirements for critical health care services and allows for expedited provider enrollment.
- AHCA distributed a provider alert to licensed health care providers regarding the Division of Emergency Management's new Emergency Order tightening visitation restrictions at residential and long-term care facilities.
- AHCA, in coordination with the DEM and the Department, is hosting ongoing statewide calls for nursing homes, assisted living facilities, intermediate care facilities, the Agency for Persons with Disabilities, group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting visitors and providing updates.
- AHCA, in coordination with DEM and the Department, is hosting ongoing statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.

AMERICAN OVERSIGHT

- After previously opening an event on the Emergency Status System (ESS) for hospitals to enter census information, emergency room status updates and isolation beds, AHCA expanded the ESS event to track nursing homes and assisted living facility bed capacity, effective March 15.
- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from the Centers for Medicare and Medicaid Services (CMS) related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA distributed information to health care providers regarding **guidance and clarifications on DEM's Emergency Order No. 20-006.**
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.

AGENCY FOR PERSONS WITH DISABILITIES

- APD and AHCA hosted a Provider conference call to share information on modifications to some existing policies and practices during this state of emergency due to COVID -19. APD and AHCA are researching responses to additional questions raised during the call. The answers will be posted on apdcares.org.
- APD is implementing telework for employees throughout the state as directed by Governor DeSantis to reduce possible exposure to COVID-19.
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors coming into APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance, in addition to CMS guidance, to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- Secretary Prudom participated in a conference call with the Administration on Community Living (ACL) and ten other State Units on Aging. He presented an update on what Florida is doing regarding issues and challenges during COVID-19.
- DOEA released an updated **interactive** Elder Needs Index (ENI). *Best opened in Google Chrome.*
- DOEA's Long-Term Care Ombudsman Program (LTCOP) hosted a conference call with regional ombudsman managers to discuss strategies for advocacy during COVID-19 environment.
- LTCOP participated in conference calls with National Association of State Ombudsman (NASOP), Florida Healthcare Association (FHCA), and Consumer Voice with Administration for Community Living (ACL). All concerning COVID-19.
- DOEA participated on a statewide call coordinated by the Florida Association of Service Providers (FASP) statewide regarding COVID-19 issues, trends, and concerns.
- DOEA participated in an Aging and Disability Resource Center (ADRC) workgroup conference call to discuss specific issues related to COVID-19 and statewide waiver requests.
- DOEA coordinated planning with the Agency for Health Care Administration (AHCA) to discuss Adult Day Care Centers and the provision of meals should they close.
- DOEA participated on the United States Department of Agriculture's (USDA) southeast region call regarding COVID-19 as it relates Adult Care Food Programs.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families' (DCF) Office of Child Welfare is sending regular communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). An FAQ document for providers was also posted prominently on DCF's Child Care webpage.
- DCF's Office of Child Welfare is disseminating a survey to licensed child care providers to assess closures throughout the state. Currently, the decision to close is at the discretion of each individual facility.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF is leading status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday.
- DCF General Services staff throughout the state are working with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and are ordering more as needed.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility. At this time, there are no cases of patients or facility staff testing positive for COVID-19.
- DCF's Office of Economic Self-Sufficiency is communicating with DEO regarding work requirements and CareerSource operations and availability.
- DCF's Office of Economic Self-Sufficiency implemented screening procedures, including a set of questions that must be asked prior to entry, at all economic self-sufficiency storefronts.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care. In addition, we are temporarily suspending admissions in our network of state veterans' homes. Thank you for your understanding.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- The VA Sunshine Healthcare Network (VISN 8) is taking additional steps to slow the spread of COVID-19 to protect healthcare system's capabilities, healthcare workers and veterans. Facilities within the VISN 8 Network include the Bay Pines VA Healthcare System, James A. Haley Veterans' Hospital and Clinics, Miami VA Healthcare System, North Florida/South Georgia Veterans Health System, Orlando VA Healthcare System, VA Caribbean Healthcare System, and the West Palm Beach VA Medical Center.
    - These actions include:
        - VISN 8 facilities are transitioning to virtual appointments to the fullest extent to allow veterans to stay at home, avoid exposure to

AMERICAN OVERSIGHT

others and reduce their risk; Veterans with appointments will be contacted several days beforehand to discuss virtual appointment options available to them.
    - Veterans can help with this transition by visiting the VA Video On-Demand webpage for more information: https://mobile.va.gov/content/getting-started-0.
    - Veterans enrolled for care within VISN 8 can continue to use the VISN 8 Clinical Contact Center for 24/7 virtual urgent care by calling 1-877-741-3400 (toll free) or by using the VA Health Chat App. Veterans who are concerned they may have symptoms of Coronavirus, flu or cold should contact the center first before coming to a VA facility.
    - VISN 8 facilities will cease non-urgent elective procedures. Any impacted veterans will be contacted directly by their health care team to reschedule. Urgent and emergent elective procedures will continue during this period.
    - VISN 8 facilities are further restricting visitations. Only one visitor will be permitted per veteran if required to provide assistance moving a patient to and from an appointment, providing support to an inpatient in a palliative or hospice care unit, or for veterans who have major procedures. Visitors who screen positive will not be granted access to the medical centers.
- These newly announced actions do not supersede or replace activities announced by VISN 8 last week. All VISN 8 facilities continue to use mandatory and enhanced screening protocols for all patients, employees and visitors, have restricted visitations to certain units, and have taken many other actions to mitigate the infection and spread of the virus.
- All VA Vet Centers in Florida, which provide readjustment counseling and outreach services to veterans and families, are open and implementing enhanced screening protocols. At this time, veterans may appear in person or opt in advance for an optional phone consultation.
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences. In addition, cemetery personnel will be discouraged from handshaking and any unnecessary physical contact to minimize the potential transmission of germs and viruses until the pandemic conditions are under control.
- Suspension of VA Travel Board Hearings - The Board of Veterans' Appeals (U.S. Department of Veterans Affairs) is suspending Travel Boards until May 1, 2020, due to COVID-19 response efforts. The Board will work with veterans and veteran service organizations and representatives to continue video hearings and provide virtual hearings where possible.
- All FDVA and VA facilities remain fully operational.

DEPARTMENT OF MILITARY AFFAIRS

- There have been 689 Florida National Guardsmen activated in support of COVID-19.
- The Florida National Guard is activating medical professionals (Army Combat Medic Specialists and Air Force Medical Technicians) in support of the Florida Department of Health's (DOH) Drive-Through Screening operations. The Guardsmen have reported in and formed Task Force Medical.
- The Florida National Guard has activated Guardsmen to augment the State Logistics Readiness Center, the State's Logistics Branch, as well as facilitate state wide logistics needs of the Florida National Guard formations on mission.
- The Florida National Guard has activated Guardsmen to augment the State Emergency Operations Center and local emergency management offices across the state.

VOLUNTEER FLORIDA

- Volunteer Florida is encouraging volunteers to screen themselves for COVID-19 (per CDC and Florida Department of Health guidelines) before serving.
- Volunteer Florida is pushing out VOAD organizational guidance to ESF-15 partners.
- Volunteer Florida is working with state counterparts and FEMA to develop volunteer plans.
- Volunteer Florida's National Service Department has discussed using AmeriCorps members in food banks as feeding needs increase.
- Volunteer Florida continues to work with Mass Care on the anticipated needs of volunteers.
- Volunteer Florida has asked all VOAD partners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The SUS has directed all state universities to continue remote instruction through the end of the spring semester.
- All students who can return home should return home.
- The SUS has directed that traditional on-campus commencement ceremonies will not be held in May. Instead, each university is directed to develop an alternate schedule or method of delivery.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation

AMERICAN OVERSIGHT

schedule will be evaluated in consultation with the Department.
    - Inmates will continue to have access to mail, email, phone calls and video visitation.
    - Legal visits will not be impacted.
    - FDC has partnered with vendors to provide some complimentary phone and video visitation services.
- Volunteer activities within correctional institutions statewide have been suspended.
- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
    - Have traveled internationally or on a cruise within the last 14 days.
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath.
    - Have had contact with someone who has been or is under investigation for COVID-19.

- All non-critical inmate transfers have been suspended.
- New commitments and intakes have been restricted.
- Outside inmate work squads have been restricted.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF TRANSPORTATION

- FDOT coordinated with transit agencies throughout the state to ensure the safe return of the Florida residents who were quarantined in Georgia and had previously been aboard the Grand Princess voyage outside of California.
- FDOT is coordinating with other state and local agencies to help ensure mobility around the temporary testing site in Broward County. Once the site is open, FDOT plans to publicize testing site information on highway advisory radio.
- FDOT completed a request to provide necessary supplies to harbor pilots working at seaports.
- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department continue to host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials have been posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials have been posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- At the direction of Governor Ron DeSantis, the Florida Department of Highway Safety and Motor has issued an Emergency Order extending all Florida driver licenses and identification cards that will expire in the next 30 days.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FLHSMV Executive Director Rhodes has waived commercial truck hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- The Florida Department of Economic Opportunity (DEO) has created a Frequently Asked Questions document for individuals whose employment has been negatively impacted by mitigation efforts to stop the spread of COVID-19.
- Governor Ron DeSantis activated the Florida Small Business Emergency Bridge Loan Program to support small businesses impacted by COVID-19. The bridge loan program, managed by DEO, provides short-term, interest-free loans to small businesses that experienced economic injury from COVID-19. The application period is open and runs through May 8, 2020. Interested businesses should visit FloridaDisasterLoan.org for more information.
- Governor DeSantis has requested the federal Small Business Administration (SBA) make the Economic Injury Disaster Loan program available for Florida's small businesses impacted by COVID-19. DEO stands ready to assist Florida's small businesses in accessing this funding when available.
- The Business Damage Assessment survey is activated to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by DEO, will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- VISIT FLORIDA is focused on providing health and safety information to travelers and Floridians. All media has been paused.
- VISIT FLORIDA has activated Florida Now, which includes the latest updates from state emergency response professionals hosted on VisitFlorida.com.
- VISIT FLORIDA is actively planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19
- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida. VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

AMERICAN OVERSIGHT

DEPARTMENT OF REVENUE

- Department of Revenue offices in Broward and Miami-Dade counties are closed to the public beginning Wednesday, March 18. This follows precedent of the Miami-Dade State Attorney's Child Support Office. The Department is redirecting child support customers and taxpayers toward the electronic means detailed below for completing child support and general tax activities.
- The Department has added a dedicated COVID-19 webpage for child support customers at floridarevenue.com/childsupport/coronavirus. The new page provides comprehensive information for alternative options for handling many routine child support case activities without visiting a local child support office. Efforts also include rescheduling genetic testing sample collection appointments and postponing other types of appointments.
- The Department of Revenue is advising child support customers who are scheduled for court hearings related to their child support cases to check with the local courts where the hearings are scheduled in case the courts have new requirements, such as appearing telephonically.
- The Department of Revenue has established a dedicated team to address tax-related issues pertaining to COVID-19 and has created an email address, COVID19TAXHELP@floridarevenue.com, where taxpayers can send questions and concerns. The Department encourages all taxpayers to use our e-services applications to file and pay taxes or contact our call center at (850) 488-6800.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in the public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has issued Informational Memorandum OIR-20-03M directing all insurers and other entities regulated by OIR to review and update their business continuity and/or continuity of operations plans. Companies are directed to immediately contact OIR if their continuity plans are activated and/or if business operations become compromised so it can work with insurers to avoid any disruption in consumer services.
- OIR Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01Mto all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and DOH information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations, and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has issued notices to all of its employees providing resources regarding COVID-19 and outlining the steps recommended by the Centers for Disease Control and Florida Department of Health to take preventative health measures.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- Florida Department of Law Enforcement (FDLE) is working with state and local agencies and the Florida National Guard to set up testing collection sites in multiple locations across Florida.
- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE has distributed a COVID-19 legal guidance document to all its law enforcement partners in reference to Governor DeSantis' Executive Order and continues regular communication with them.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice has sent a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has instituted additional screening measures for outside vendors who work within juvenile facilities and non-essential travel of staff members has been stopped. Visitors are limited to business-related visitors only (i.e., vendors, no personal visitors, no volunteers at this time). The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted. Clinical personnel, however, are still permitted to visit youth for treatment purposes, and attorneys are still permitted to conduct legal visits with youth.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- DBPR shared information with all agency staff statewide pertaining to the declaration of a state public health emergency, state response protocols as ordered in EO 20-51, and FDOH information and resources available on the dedicated FDOH COVID-19 webpage. DBPR communication with staff has emphasized the best practices and preventive steps recommended by FDOH for impeding the spread of respiratory illnesses.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and

AMERICAN OVERSIGHT

providing assistance as requested of State Emergency Support Function 6.
- DBPR added a web banner with information on COVID-19 and link to the Florida Department of Health's dedicated COVID-19 webpage at http://www.floridahealth.gov/COVID-19.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.
- DBPR has suspended all official business visits, including inspections, that involve licenses located at a facility covered under the visitation restrictions implemented pursuant to FDEM Emergency Order 20-002.
- DBPR hosted a senior management meeting with all program directors on Monday, 03.16.2020, to discuss the latest departmental actions and preparations associated with COVID-19 in Florida.
- DBPR is providing guidance to appointed professional licensing boards related to procedural considerations and available technology options for remote, web-based or telephonic board meetings.
- DBPR issued an emergency order, EO 2020-01 to extend license renewal deadlines and renewal requirements for a period of 30 days for licenses with an existing renewal deadline occurring in the months of March or April, 2020.
- DBPR has distributed the Governor's Executive Order (EO-20-68) regarding bars, nightclubs, beaches, and restaurants to all known e-mail addresses of record for alcoholic beverage, public food service, and public lodging license holders. DBPR will continue to push information and guidance relating to the directives of EO 20-68 to impacted parties through the DBPR Emergency Information Page, social media channels, and outreach to industry and public sector partners.
- DBPR has launched a dedicated emergency information page (http://www.myfloridalicense.com/dbpr/emergency/) with direct links to the FDOH COVID-19 webpage as well as information on agency emergency orders, schedule and meeting changes for divisions and boards, and other important departmental information during this emergency.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- DMS Secretary Jonathan Satter issued an emergency order that waived rules to allow for state employees to use any type of accrued leave for instances related to COVID-19, including self-isolation after potential exposure, staying home with children due to child care or school closures, and time needed to take care of dependents like an elder parent. The order also waived rules to expand the ability for employees to donate leave to fellow employees.
- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.
- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- Florida State Parks remain open for recreational day use; however, all State Parks have adjusted their operating hours for day use to 8 a.m. to 5 p.m. daily. The Department continues to monitor new developments closely and will make further adjustments as necessary based on any new Department of Health or CDC guidance received to ensure protection of our staff and visitors. For the latest information on park operating hours and operational status, please visit floridastateparks.org.
- Effective March 17, DEP is cancelling all events, activities, special event reservations, pavilion rentals and camping reservations at Florida State Parks for the next 60 days. \
    - Existing overnight camping reservations that begin Wednesday, March 18, will be honored. Visitors must arrive prior to 5 p.m. on March 18, to secure their reservation. After Wednesday, all reservations moving forward will be cancelled and refunded. Beginning Friday, March 20, campgrounds and all overnight accommodations will be fully closed.
    - ReserveAmerica, the Florida State Parks partner in camping reservations, will reach out to all affected parties to refund camping reservations. ReserveAmerica can also be reached directly at 1-800-326-3521 or TDD 888-433-0287 if visitors have questions or need to modify existing reservations.

- DEP's Office of Resilience and Coastal Protection facilities will also be closing the following centers until further notice: Apalachicola National Estuarine Research Reserve, Guana Tolomato Matanzas (GTM) National Estuarine Research Reserve and Rookery Bay National Estuarine Research Reserve
- In order to implement the Governor's directive yesterday to limit crowds on public beaches to less than 10, DEP will reduce the visitor capacity at State Parks with beaches and swimming areas by at least 50 percent beginning Thursday, March 19.

FLORIDA LOTTERY

- Yesterday, the Florida Lottery began limiting public access to the nine district offices across the state to a maximum of ten people at time to follow the CDC's recommendation to avoid social gatherings of more than ten people.
- The Lottery is actively working through various options that would allow the Lottery to continue to process winner claims and pay out prizes to players without them having to physically be in at Headquarters or a district office building. This includes possibly extending the deadline players have to claim winning tickets. An extensive plan to communicate any Lottery business operations changes to players, retailers, and the public is also being prepared should these changes go into effect.
- The Lottery continues to evaluate mission critical positions that have the ability to telecommute and is preparing accordingly in an effort to keep Lottery operations running should further social distancing be needed in the future.

DEPARTMENT OF STATE

AMERICAN OVERSIGHT

- The Florida Department of State is being proactive in sharing resources from its programs and museum properties that are helpful to communities and families who have been ordered to self-isolate or who are seeking resources during the closure of school and cultural facilities. These resources range from virtual tours to online collections to helpful histories. Families are encouraged to connect with Department of State programs via social media for updates and additional content.

Florida Department of Health Announces New Positive COVID-19 Cases in Florida

TALLAHASSEE — The Florida Department of Health has announced three new positive cases of coronavirus disease (COVID-19) in Florida. To keep Florida residents and visitors safe and aware about the status of the virus, the Department is issuing regular updates as information becomes available.

New Positive Cases

- A 57-year old male in Lee County has tested positive for COVID-19. He is isolated and will continue to remain isolated until cleared by public health officials. It is currently unclear whether this was a travel-related case; the epidemiological investigation is ongoing.
- A 65-year old male in Broward County has tested positive for COVID-19. He is isolated and will continue to remain isolated until cleared by public health officials. It is currently unclear whether this was a travel-related case; the epidemiological investigation is ongoing.
- A 61-year old male in Broward County tested positive for COVID-19. He is isolated and will continue to remain isolated until cleared by public health officials. This is a travel related case and is associated with Port Everglades.

Port Everglades Advisory

The Department, through an extensive epidemiological investigation, has identified four positive COVID-19 cases associated with Port Everglades in Broward County, Florida. Three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades. The epidemiological for the fourth person connected to Port Everglades is ongoing.

- The Department recommends all individuals experiencing symptoms who have recently traveled through Port Everglades to immediately contact their CHD or health care provider and self-isolate for 14 Days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the CDC on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their CHD or health care provider.

EMS Conference and Daytona Bike Week Advisories

The Department, through an extensive, ongoing epidemiological investigation, has identified a positive COVID-19 case that may have been associated with Daytona Bike Week 2020, which is currently underway and scheduled from March 6-15, 2020, in Daytona, Florida.

The Department, through an extensive, ongoing epidemiological investigation, has identified a positive COVID-19 case that may have been associated with an EMS Conference held from March 4-6, 2020, in Tampa, Florida.

The Department recommends all individuals experiencing symptoms who attended either of these events immediately contact their County Health Department or health care provider and self-isolate for 14 Days.

COVID-19 Cases

AMERICAN OVERSIGHT

COVID Chart

*A known history of exposure to COVID-19 outside of the state.

International Travel Advisory

The Department is advising all individuals who have traveled internationally to follow the **new Centers for Disease Control and Prevention (CDC) guidelines**, summarized below:

- **Level 3:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department (CHD) or health care provider.
- **Level 2 and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and contact your CHD or health care provider.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled on a river cruise on the Nile River in Egypt in February 2020 to self-isolate for 14 days following their date of return to the United States. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including two positive cases in Florida.

COVID-19 Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

Department Activities

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for the novel coronavirus in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation,

AMERICAN OVERSIGHT

response actions and guidance for pandemic planning. Over five hundred participants joined these calls. Calls are scheduled for each Wednesday at 2:00 EST.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

Follow us on Facebook, Instagram and Twitter at @HealthyFla. For more information please visit www.FloridaHealth.gov.

For updates on COVID-19, please visit http://floridahealth.gov/COVID-19 or call 866-779-8121.

International Travel Advisory

The Department is advising all individuals who have traveled internationally to follow the **new Centers for Disease Control and Prevention (CDC) guidelines**, summarized below:

- **Level 3:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department (CHD) or health care provider.
- **Level 2 and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and contact your CHD or health care provider.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled on a river cruise on the Nile River in Egypt in February 2020 to self-isolate for 14 days following their date of return to the United States. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including two positive cases in Florida.

COVID-19 Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **1-(866) 779-6121. The Call Center is available 24 hours a day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

Department Activities

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency.
- State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for the novel coronavirus in Florida.
- Established an Incident Management Team to coordinate response operations.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation,

AMERICAN OVERSIGHT

response actions and guidance for pandemic planning. Over five hundred participants joined these calls. Calls are scheduled for each Wednesday at 2:00 EST.
- Participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- Established a public call center for questions regarding COVID-19.
- Developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- Developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

Florida Department of Health Announces New Positive COVID-19 Cases in Florida

TALLAHASSEE — The Florida Department of Health has announced three new positive cases of coronavirus disease (COVID-19) in Florida. To keep Florida residents and visitors safe and aware about the status of the virus, the Department is issuing regular updates as information becomes available.

New Positive Cases

- A 63-year old male New York resident who is currently in St. Johns County has tested positive. He is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case where this individual traveled from New York to attend Daytona Bike Week in Daytona, Florida. The New York Department of Health is leading the epidemiological investigation for this individual.
- A 56-year old male in Miami-Dade County has tested positive. He is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 70-year old male in Broward County tested as positive. He is isolated and will continue to remain isolated until cleared by public health officials. This individual attended an Emergency Medical Services (EMS) Conference in Tampa, Florida. The epidemiological investigation is underway.

EMS Conference and Daytona Bike Week Advisories

The Department, through an extensive, ongoing epidemiological investigation, has identified a positive COVID-19 case that may have been associated with Daytona Bike Week 2020, which is currently underway and scheduled from March 6-15, 2020, in Daytona, Florida.

The Department, through an extensive, ongoing epidemiological investigation, has identified a positive COVID-19 case that may have been associated with an EMS Conference held from March 4-6, 2020, in Tampa, Florida.

The Department recommends all individuals experiencing symptoms who attended either of these events immediately contact their County Health Department or health care provider and self-isolate for 14 Days.

COVID-19 Cases

COVID Cases

*A known history of exposure to COVID-19 outside of the state.

International Travel Advisory

The Department is advising all individuals who have traveled internationally to follow the **new Centers for Disease Control and Prevention (CDC) guidelines**, summarized below:

- **Level 3:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department (CHD) or health care provider.
- **Level 2 and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and contact your CHD or health care provider.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

Port Everglades Advisory

The Department, through an extensive epidemiological investigation, has identified three positive COVID-19 cases associated with Port Everglades in Broward County, Florida. All three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades.

- The Department recommends all individuals experiencing symptoms who have recently traveled through Port Everglades to immediately contact their CHD or health care provider and self-isolate for 14 Days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the CDC on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their CHD or health care provider.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled on a river cruise on the Nile River in Egypt in February 2020 to self-isolate for 14 days following their date of return to the United States. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including two positive cases in Florida.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

On March 9, Governor Ron DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

COVID-19 UPDATE

Last night, the Department of Health announced eight new cases of COVID-19 in Florida, seven of which are Florida residents:

New Positive Cases

- A 68-year old male in Nassau County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 68-year old female Georgia resident who is currently in Alachua County, Florida, has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. The Georgia Department of Public Health is leading the epidemiological investigation for this individual.
- A 73-year old male in Collier County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 68-year old female in Collier County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 64-year old female in Collier County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 67-year old male in Pinellas County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 64-year old male in Pinellas County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 46-year old male in Pasco County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.

COVID-19 Cases

Port Everglades Advisory

On March 10, the Department announced a new positive case of COVID-19 in Broward County. The Department, through an extensive epidemiological investigation, identified this new case as the third positive case of COVID-19 associated with Port Everglades in Broward County, Florida. All three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades.

- The Florida Department of Health recommends that all individuals experiencing symptoms who have recently traveled through Port Everglades immediately contact their County Health Department or health care provider and self-isolate for 14 days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the Centers for Disease Control and Prevention (CDC) on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their County Health Department or health care provider.

International Travel Advisory

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and contact your county health department or health care provider.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise or tour on the Nile River in February or March 2020 to self-isolate for 14 days following their date of return to the United States. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including 10 positive cases in Florida.

COVID Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

AMERICAN OVERSIGHT

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes, are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneeze with a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).

Actions the State has Taken to Prepare for and Respond to COVID-19

DEPARTMENT OF HEALTH

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- State Surgeon General Dr. Scott Rivkees declared a public health emergency for the novel coronavirus in Florida.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a public health emergency.
- The Florida Department of Health (DOH) established an incident management team to coordinate response operations.
- DOH activated a dedicated incident command post for on-site response activities.
- DOH conducted three public health and healthcare stakeholders conference calls to provide statewide updates on the current outbreak situation, response actions, and guidance for pandemic planning. Over five hundred participants joined the calls. Calls are scheduled for each Wednesday at 2:00 ET.
- DOH participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- DOH established a public call-center for questions regarding COVID-19.
- DOH developed and distributed the communications-approved COVID-19 Presentation to CHDs for use at community meetings.
- DOH developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- DOH established mechanisms for on-going monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for Public Health Personnel Evaluating Persons Under Investigation (PUIs) and Asymptomatic Close Contacts of Confirmed Cases at Their Home or Non-Home Residential Settings to County Health Departments.
- Distributed the updated Clinician Screening Tool for Identifying Persons Under Investigation for Coronavirus Disease and a healthcare provider letter regarding Enhanced Surveillance and Preparedness for Coronavirus Disease 2019 (COVID-19) to associations, licensed providers, Health Care Coalitions (HCCs) and County Health Departments (CHD).
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.

AGENCY FOR HEALTHCARE ADMINISTRATION

- The Agency for Healthcare Administration (AHCA) opened an event on the Emergency Status System for hospitals to enter census information and emergency room status updates.
- AHCA expanded the event on the Emergency Status System to collect isolation beds for hospitals effective Saturday, March 7.
- AHCA shared key guidance including CDC and the Department information regarding the importance of screening visitors, infection control protocol and hygiene best practices with all licensed healthcare facilities regulated by the Agency. The Agency is continuing to provide updates on recommendations and best practices from the CDC and Centers for Medicare and Medicaid Services regarding COVID-19.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department of Health, is hosting statewide calls for nursing homes, assisted living facilities, intermediate care facilities, and Agency for Persons with Disabilities group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting and screening visitors and providing updates.
- AHCA, in coordination with the Florida Division of Emergency Management and the Department, is hosting statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- This week, AHCA Secretary Mary Mayhew visited nursing homes and hospital facilities in Tampa, Jacksonville and Orlando to discuss COVID-19 preparations and response and address to any concerns and questions from local partners.

AGENCY FOR PERSONS WITH DISABILITIES

- The Director of the Agency for Persons with Disabilities (APD), and members of the Senior Leadership Team participated in the conference call related to vulnerable populations hosted by the Surgeon General. The call provided the most up-to-date information to APD partners who are caring for vulnerable populations.
- APD implemented a visitor questionnaire at its two state centers in Gainesville and Marianna.
- APD is developing a visitor questionnaire for Adult Day Training facilities and group homes across the state.
- APD continues to provide additional best practices, preventative tips and CDC guidance to APD providers, Waiver Support coordinators and APD employees.

AMERICAN OVERSIGHT

DEPARTMENT OF ELDER AFFAIRS

- The Department of Elder Affairs (DOEA) Secretary Richard Prudom stood with Governor Ron DeSantis and other agency heads during a press conference on Monday, March 9th, to address Florida's recent actions and issue a State of Emergency for COVID-19.
- DOEA Secretary Richard Prudom and executive staff participated in a conference call with the Administration for Community Living (ACL) and ACL administrator Lance Robertson and the Centers for Disease Control and Prevention (CDC). Other state units on aging also participated to discuss issues on the implementation of prevention protocols for prevention of spread of COVID-19.
- DOEA Program directors provided guidance to Area Agencies on Aging and statewide Comprehensive Assessment and Review for Long-term Care Services (CARES) offices on how to protect clients and staff during a conference call and provided follow-up emails.
- DOEA participated in the Aging and Vulnerable Populations Call hosted by the Florida Department of Health (DOH). All of the state's Area Agencies on Aging (AAA) were on this call, and DOEA staff followed up with them on an individual basis for questions and answers for COVID-19.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting weekly updates and to ensure compliance with virus prevention.

VOLUNTEER FLORIDA

- Volunteer Florida is coordinating with the Florida Department of Elder Affairs to see how the agency can assist with distributing information to seniors.
- Volunteer Florida's Emergency Management Department is having initial conversations with partners to determine what could be needed and what safety precautions need to be considered if volunteers are utilized.

FLORIDA DEPARTMENT OF EDUCATION

- Florida Virtual School (FLVS) is offering virtual teacher training to up to 10,000 teachers to accommodate Florida school districts that wish to train their teachers in the FLVS online platform in the event teachers need to temporarily move to an online environment.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, their capacity to serve their students virtually to help meet and determine any preparedness needs.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC's Office of Health Services coordinates with the department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from Florida Department of Health and the CDC.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC stood up its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness and are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Florida Department of State (DOS) has been in contact with the Supervisors of Elections for Hillsborough, Lake, Leon, Manatee, Palm Beach and Sarasota Counties to determine their needs specifically as it relates to supplies. The supervisors have been encouraged to connect with their county emergency management department for meeting these resource needs.
- DOS is in constant communication with Supervisors of Elections regarding readiness for elections and any anticipated needs related to COVID-19.
- DOS is sharing information with the public regarding voting options for the upcoming election, including vote-by-mail and early voting options.
- DOS is actively wiping down public spaces including all DOS maintained properties, reception areas and restrooms with bleach or disinfectant wipes to mitigate the spread of germs.
- DOS is assessing departmental stakeholder lists, including museums, cultural facilities and libraries to evaluate if any stakeholders provide services to at-risk populations and determining the most suitable ways the department can provide information about COVID-19 to those populations.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

DEPARTMENT OF ECONOMIC OPPORTUNITY

AMERICAN OVERSIGHT

- The Florida Department of Economic Opportunity (DEO) continues to encourage businesses to follow the "Interim Guidance for Businesses and Employers" issued by the Center for Disease Control and Prevention (CDC). This information is being provided to statewide business partners, local Chambers of Commerce and Economic Development Councils throughout the sate.
- The Florida Restaurant and Lodging Association (FRLA) and Florida Retail Federation and the Florida Chamber of Commerce, in coordination with DEO, are working to provide health safety information and coordination with partners, including how to address potential local supply issues.
- DEO is coordinating with CareerSource Florida, local workforce boards, and other public-private partners. DEO is also working closely with our local, state and federal partners to explore potential resources for employers, businesses and impacted workforce.

VISIT FLORIDA

- On January 24, VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA has provided the state's three highway welcome centers with the latest information and resources on COVID-19 to help keep the traveling public informed.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.

OFFICE OF INSURANCE REGULATION

- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- The Florida Department of Law Enforcement (FDLE) is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

On March 9, Governor Ron DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

COVID-19 UPDATE

Last night, the Department of Health announced eight new cases of COVID-19 in Florida, seven of which are Florida residents:

New Positive Cases

- A 68-year old male in Nassau County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 68-year old female Georgia resident who is currently in Alachua County, Florida, has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. The Georgia Department of Public Health is leading the epidemiological investigation for this individual.
- A 73-year old male in Collier County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 68-year old female in Collier County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 64-year old female in Collier County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 67-year old male in Pinellas County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 64-year old male in Pinellas County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.
- A 46-year old male in Pasco County has been identified as positive. This person is isolated and will continue to remain isolated until cleared by public health officials. This is a travel-related case.

COVID-19 Cases

AMERICAN OVERSIGHT

COVID Chart

*A known history of exposure to COVID-19 outside of the state.

Port Everglades Advisory

On March 10, the Department announced a new positive case of COVID-19 in Broward County. The Department, through an extensive epidemiological investigation, identified this new case as the third positive case of COVID-19 associated with Port Everglades in Broward County, Florida. All three cases are connected to or employed by Metro Cruise Services – a company that operates at Port Everglades.

- The Florida Department of Health recommends that all individuals experiencing symptoms who have recently traveled through Port Everglades immediately contact their County Health Department or health care provider and self-isolate for 14 days.
- The Department also recommends employees of Metro Cruise Services at Port Everglades with any association to these cases self-isolate at home.
- The Department is working to connect with all employees at Metro Cruise Services who may have come into contact with the three individuals who have tested positive for COVID-19 to provide the employees with the appropriate guidance and monitoring.
- The Department is working in close consultation with the Centers for Disease Control and Prevention (CDC) on this investigation.
- CDC recommends that individuals with recent travel history on a cruise monitor their health for 14 days and, if they develop symptoms, immediately self-isolate and contact their County Health Department or health care provider.

International Travel Advisory

The Florida Department of Health is advising all individuals who have traveled internationally to follow **CDC guidelines**, summarized below:

- **Level 3:** CDC recommends 14-day self-isolation and social distancing upon return to the United States. Social distancing includes avoiding going out in public and close personal interactions. If you become symptomatic, immediately self-isolate and contact your County Health Department or health care provider.
- **Level 2 and Cruises:** Travelers should monitor their health and limit interactions with others for 14 days after returning to the United States. If you become symptomatic, immediately self-isolate and contact your county health department or health care provider.
- For more information regarding current CDC travel advisories related to COVID-19, visit: https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from China, Italy, Iran, South Korea, Japan and any other destination under CDC travel advisory should call ahead to their health care provider or local County Health Department (CHD) and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from areas or been in contact with a person with laboratory-confirmed COVID-19, they should call ahead to a health care professional and the County Health Department. The health care professional will work with the Department to determine if the person should be tested for COVID-19.

Nile Cruise Advisory

The Florida Department of Health is advising all individuals who traveled to Egypt for a cruise or tour on the Nile River in February or March 2020 to self-isolate for 14 days following their date of return to the United States. Several passengers in the United States recently developed symptoms and have been confirmed to be infected with COVID-19, including 10 positive cases in Florida.

COVID Public Website and Call Center

Please visit the Department's dedicated COVID-19 webpage for information and guidance regarding COVID-19 in Florida.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

AMERICAN OVERSIGHT

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes, are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;

- DOS is assessing departmental stakeholder lists, including museums, cultural facilities and libraries to evaluate if any stakeholders provide services to at-risk populations and determining the most suitable ways the department can provide information about COVID-19 to those populations.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

DEPARTMENT OF ECONOMIC OPPORTUNITY

AMERICAN OVERSIGHT

- The Florida Department of Economic Opportunity (DEO) continues to encourage businesses to follow the "Interim Guidance for Businesses and Employers" issued by the Center for Disease Control and Prevention (CDC). This information is being provided to statewide business partners, local Chambers of Commerce and Economic Development Councils throughout the sate.
- The Florida Restaurant and Lodging Association (FRLA) and Florida Retail Federation and the Florida Chamber of Commerce, in coordination with DEO, are working to provide health safety information and coordination with partners, including how to address potential local supply issues.
- DEO is coordinating with CareerSource Florida, local workforce boards, and other public-private partners. DEO is also working closely with our local, state and federal partners to explore potential resources for employers, businesses and impacted workforce.

VISIT FLORIDA

- On January 24, VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA has provided the state's three highway welcome centers with the latest information and resources on COVID-19 to help keep the traveling public informed.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.

OFFICE OF INSURANCE REGULATION

- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- The Florida Department of Law Enforcement (FDLE) is coordinating ESF-16 providing updates and securing staffing while FDLE Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

About the Florida Department of Health

The Florida Department of Health, nationally accredited by the Public Health Accreditation Board, works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE, Fla. - The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the Florida Emergency Operations Center, Governor DeSantis announced the following:

Education

- Governor Ron DeSantis today made several announcements to keep Florida's students, instructional staff and faculty safe. He announced that all remaining assessments for school readiness and voluntary prekindergarten and all testing requirements for K-12 will be cancelled for the 2019-2020 school year.

- Governor DeSantis also provided more flexibility to local school districts so they can install and establish additional remote learning opportunities for students, including the ability to purchase devices and internet services.

Information on Restaurants, Bars, Nightclubs and Beaches

- Governor Ron DeSantis issued an Executive Order that will reduce density and crowds in restaurants, bars, nightclubs and beaches to mitigate the spread of Coronavirus (COVID-19).
- **Bars and Nightclubs**
  - Under the direction of Governor DeSantis, all bars and nightclubs throughout Florida will close for the next 30 days. Information is available on the website of Florida's Department of Business & Professional Management (DBPR).

- **Beaches**
  - The Governor is directing parties accessing public beaches in the state of Florida to follow the Centers for Disease Control and Prevention (CDC) guidance by limiting their gatherings to no more than 10 persons.

- **Restaurants**
  - Restaurants across the state of Florida will now be required to limit customer entry to 50 percent of capacity. Seating must be staggered and limited to ensure seated parties are separated by a distance of at least six feet, in accordance with CDC guidelines. Restaurants are encouraged to remain open and expand take-out and delivery services. Information is available on the website for DBPR.

Reemployment Assistance

- Governor DeSantis reminded Floridians that if their employment has been negatively impacted because of mitigation efforts to stop the spread of COVID-19, these Floridians may be eligible to receive Reemployment Assistance.
  - Individuals who are eligible for Reemployment Assistance may include:
    - Those who are quarantined by a medical professional or a government agency,
    - Those who are laid off or sent home without pay for an extended period by their employer due to COVID-19 concerns; and
    - Those who are caring for an immediate family member who is diagnosed with COVID-19
- Governor DeSantis and the Department of Economic Opportunity (DEO) encourage any Floridian whose employment has been negatively impacted as a result of COVID-19 to visit Floridajobs.org and click on the Reemployment Assistance Service Center to learn more about the program and to watch a short video on how to apply.

Private businesses assisting Floridians

- Governor DeSantis also applauded steps taken by private businesses such as FPL, Duke Energy, TECO, and Uber who are taking steps to assist Floridians with electric bills and delivering free meals to health care workers.

Presidential Preference Primary Election

- Leading up to today's Presidential Preference Primary Election, Governor DeSantis directed Secretary of State Laurel M. Lee to work with Supervisors of Elections throughout Florida to ensure a smooth election. Throughout the day, the Florida Division of Elections remained in constant contact with local elections officials to ensure voters who had not voted prior to election day, had the opportunity to cast their ballot. **The Department of State proactively worked with emergency management officials to ensure that Supervisors had the necessary resources for sanitization and cleaning at polling places to help ensure the safety of voters on Election Day.** Secretary of State Laurel M. Lee held a press conference to share updates from the day, once polls have closed statewide, that will be available for viewing on the Florida Channel.

More Information on COVID-19

AMERICAN OVERSIGHT

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the state has taken to prepare for and respond to COVID-19:

DEPARTMENT OF HEALTH

- At the direction of Governor DeSantis, State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
- Established an Incident Management Team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call center for questions regarding COVID-19. The call center launched Monday, March 2.
- Developed and distributed COVID-19 presentation materials to County Health Departments (CHD) for use at community meetings.
- Activated the Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUI) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Approved and disseminated an updated Clinician Screening Tool for identifying COVID-19 PUIs.
- Distributed a health care provider letter regarding enhanced surveillance and preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated laboratory guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician-level briefing for medical audiences.
- Identifying and monitoring close contacts of presumptive cases. Any close contacts with symptoms will be tested.
- Implemented private lab testing.
- Developed and disseminated pandemic planning guidance.
- Advised CHDs and HCCs to retain expired personal protective equipment until further until further notice.
- Continued development of public information resources.
- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- At the direction of Governor DeSantis hiring additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.

AMERICAN OVERSIGHT

THE DIVISION OF EMERGENCY MANAGEMENT

- Today, Governor Ron DeSantis and Division of Emergency Management Director Jared Moskowitz announced that Florida is continuing to order supplies and personal protective equipment in an effort to mitigate and contain the spread of COVID-19 in the state.
- After conducting a thorough assessment of needs, Director Moskowitz has requested the following supplies through Direct Federal Assistance. Supplies are being delivered on a rolling basis, and inventory is being distributed throughout the state 24 hours a day.
  - 5 mobile intensive care units
  - 5,000 ventilators
  - 5,000 hospital beds
  - 50,000 two oz. bottles of hand sanitizer
  - 250,000 coveralls
  - 500,000 gloves
  - 500,000 gowns
  - 500,000 collection kits
  - 100,000 16 oz. bottles of hand sanitizers
  - 150,000 Personal Protective Equipment kits, including coveralls, gowns, and goggles
  - 2 million N95 face masks
- Director Moskowitz is working with the federal government to determine if there is capacity to add US Navy Mercy-Class ships at Florida ports.
- Three field hospitals are being deployed:
  - One field hospital is currently staged in Orlando and can be deployed to other areas in the state as needed.
  - One field hospital is on its way to Broward County and will be set up there.
  - One field hospital is on its way to Ocala and will be staged there and deployed to other areas as needed.
- Mobile COVID-19 testing is also being implemented.

AGENCY FOR HEALTH CARE ADMINISTRATION

- Secretary Mayhew is working directly with hospitals and large health systems to identify potential vacant wings or buildings to provide additional hospital inpatient capacity should it become necessary.
- On March 16, Florida became the first state to receive CMS approvalof its 1135 Medicaid Waiver giving AHCA more flexibility for its COVID-19 response efforts. This federal action lifts Medicaid prior authorization requirements for critical health care services and allows for expedited provider enrollment.
- AHCA distributed a provider alert to licensed health care providers regarding the Division of Emergency Management's new Emergency Order tightening visitation restrictions at residential and long-term care facilities.
- AHCA, in coordination with the DEM and the Department, is hosting ongoing statewide calls for nursing homes, assisted living facilities, intermediate care facilities, the Agency for Persons with Disabilities, group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting visitors and providing updates.
- AHCA, in coordination with DEM and the Department, is hosting ongoing statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- After previously opening an event on the Emergency Status System (ESS) for hospitals to enter census information, emergency room status updatesand isolation beds, AHCA expanded the ESS event to track nursing homes and assisted living facility bed capacity, effective March 15.
- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from the Centers for Medicare and Medicaid Services (CMS) related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.

AGENCY FOR PERSONS WITH DISABILITIES

- APD is implementing telework for employees throughout the state as directed by Governor DeSantis to reduce possible exposure to COVID-19.
- APD and AHCA are hosting a conference call today with provider association leaders to share information on modifications to some existing policies and practices during this state of emergency.
- The agency's three state-run centers in Marianna, Gainesville and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors coming into APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- DOEA hosted a Program of All-Inclusive Care for the Elderly (PACE) conference call. All PACE providers are following CDC guidelines for clients, staff, and vendors. They have called clients to check their status and make sure there are no outstanding needs, they have implemented disaster plans, and they have shared information across the state and with partner agencies.
- DOEA is coordinating with AHCA to ensure PACE providers continue to receive updated information on testing facilities.
- DOEA continues to provide technical assistance to Area Agencies on Aging (AAA) regarding program flexibilities including meals, transportation, respite monitoring, service delivery models, EHEAP, health and wellness activities, outreach, board meetings, office closures, work from home, HIPPA, and IT concerns.
- DOEA coordinated the delivery of over 3,000 shelf stable meals to a Miami-Dade County senior center who had expressed concern over some clients going without meals.
- DOEA continues to maintain and disseminate county-level statistics on the number and types of services for use in modeling statewide service interruptions. When service interruptions occur, the local Area Agency for Aging (AAA) providers call clients impacted by service interruptions to offer alternative assistance.
- DOEA's Serving Health Insurance Needs of Elders (SHINE) / Senior Medicare Patrol program offered to send all online training modules to the 11 Aging and Disability Resource Centers. The distribution of training modules to active and pending volunteers would allow volunteers to train from home, on their own time, over the next several weeks and serve as a re-certification process.

AMERICAN OVERSIGHT

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families' (DCF) Office of Child Welfare is sending regular communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). An FAQ document for providers was also posted prominently on DCF's Child Care webpage.
- DCF's Office of Child Welfare is disseminating a survey to licensed child care providers to assess closures throughout the state. Currently, the decision to close is at the discretion of each individual facility.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF is leading status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday.
- DCF General Services staff throughout the state are working with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and are ordering more as needed.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility. At this time, there are no cases of patients or facility staff testing positive for COVID-19.
- DCF's Office of Economic Self-Sufficiency is communicating with DEO regarding work requirements and CareerSource operations and availability.
- DCF's Office of Economic Self-Sufficiency implemented screening procedures, including a set of questions that must be asked prior to entry, at all economic self-sufficiency storefronts.

FLORIDA DEPARTMENT OF VETERANS' AFFAIR

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- All VA Vet Centers in Florida providing readjustment counseling and outreach services to veterans and families are open and implementing enhanced screening protocols. At this time, veterans may appear in person or opt in advance for an optional phone consultation.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences. In addition, cemetery personnel will be discouraged from handshaking and any unnecessary physical contact to minimize the potential transmission of germs and viruses until the pandemic conditions are under control.
- Suspension of VA Travel Board Hearings - The Board of Veterans' Appeals (U.S. Department of Veterans Affairs) is suspending Travel Boards until May 1, 2020, due to COVID-19 response efforts. The Board will work with veterans and veteran service organizations and representatives to continue video hearings and provide virtual hearings where possible.
- All FDVA and VA facilities remain fully operational.

DEPARTMENT OF MILITARY AFFAIRS

- There have been over 598 Florida National Guardsmen placed on state active duty in support of COVID-19.
- The Florida National Guard is activating all of their medical professionals (Army Combat medic specialists and Air Force medical technicians) to support Florida Department of Health's drive-through screening operations. Guardsmen have reported in and formed Task Force Medical already.
- The Florida National Guard has activated soldiers to augment the State Logistics Readiness Center in Central Florida.
- The Florida National Guard has activated Guardsmen to augment the State Emergency Operations Center.

VOLUNTEER FLORIDA

- Volunteer Florida is encouraging volunteers to screen themselves for COVID-19 (per CDC and Florida Department of Health guidelines) before serving.
- Volunteer Florida will be participating in a call with Voluntary Organizations Active in Disaster (VOAD) partners today to discuss the anticipated needs of volunteers.
- Volunteer Florida is pushing out VOAD organizational guidance to ESF-15 partners.
- Volunteer Florida is working with state counterparts and FEMA to develop volunteer plans.
- Volunteer Florida's National Service Department has discussed using AmeriCorps members in food banks as feeding needs increase.
- Volunteer Florida continues to work with Mass Care on the anticipated needs of volunteers.
- Volunteer Florida has asked all VOADpartners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered

AMERICAN OVERSIGHT

with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The SUS has directed all state universities to continue remote instruction through the end of the Spring semester.
- All students who can return home should return home.
- The SUS has directed that traditional on-campus commencement ceremonies will not be held in May. Instead, each university is directed to develop an alternate schedule or method of delivery.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
    - Inmates will continue to have access to mail, email, phone calls and video visitation.
    - Legal visits will not be impacted.
    - FDC has partnered with vendors to provide some complimentary phone and video visitation services.
- Volunteer activities within correctional institutions statewide have been suspended.
- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
    - Have traveled internationally or on a cruise within the last 14 days.
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath.
    - Have had contact with someone who has been or is under investigation for COVID-19.

- All non-critical inmate transfers have been suspended.
- New commitments and intakes have been restricted.
- Outside inmate work squads have been restricted.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF TRANSPORTATION

- FDOT coordinated with transit agencies throughout the state to ensure the safe return of the Florida residents who were quarantined in Georgia and had previously been aboard the Grand Princess voyage outside of California.
- FDOT is coordinating with other state and local agencies to help ensure mobility around the temporary testing site in Broward County. Once the site is open, FDOT plans to publicize testing site information on highway advisory radio.
- FDOT completed a request to provide necessary supplies to harbor pilots working at seaports.
- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department continue to host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials have been posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials have been posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- At the direction of Governor Ron DeSantis, the Florida Department of Highway Safety and Motor has issued an Emergency Orderextending all Florida driver licenses and identification cards that will expire in the next 30 days.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.
- FLHSMV has been in regular communication with the American Association of Motor Vehicle Administrators and other state motor vehicle administrators to discusses best practices and strategies related to COVID-19 preparations and response.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FLHSMV Executive Director Rhodes has waived commercial truck

AMERICAN OVERSIGHT

hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor Ron DeSantis activated the Florida Small Business Emergency Bridge Loan Program to support small businesses impacted by COVID-19. The bridge loan program, managed by the Florida Department of Economic Opportunity (DEO), provides short-term, interest-free loans to small businesses that experienced economic injury from COVID-19. The application period is open and runs through May 8, 20. Interested businesses should visit orgfor more information.
- Governor DeSantis has requested the federal Small Business Administration (SBA) make the Economic Injury Disaster Loan program available for Florida's small businesses impacted by COVID-19. The Florida Department of Economic Opportunity (DEO) stands ready to assist Florida's small businesses in accessing this funding when available.
- Governor Ron DeSantis has activated the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by DEO, will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- VISIT FLORIDA is wholly focused on providing health and safety information to travelers and Floridians. This includes the activation of Florida Now, which includes the latest updates from state emergency response professionals hosted on VisitFlorida.com. All promotional media has been paused.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19
- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida. VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department has added a dedicated COVID-19 webpage for child support customers at com/childsupport/coronavirus.The new page provides comprehensive information for alternative options for handling many routine child support case activities without visiting a local child support office. Efforts also include rescheduling genetic testing sample collection appointments and postponing other types of appointments.
- The Department of Revenue is advising child support customers who are scheduled for court hearings related to their child support cases to check with the local courts where the hearings are scheduled in case the courts have new requirements, such as appearing telephonically.
- The Department of Revenue has established a dedicated team to address tax-related issues pertaining to COVID-19 and has created an email address, COVID19TAXHELP@floridarevenue.com, where taxpayers can send questions and concerns. The Department encourages all taxpayers to use our e-services applications to file and pay taxes or contact our call center at (850) 488-6800.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in the public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has issued Informational Memorandum OIR-20-03Mdirecting all insurers and other entities regulated by OIR to review and update their business continuity and/or continuity of operations plans. Companies are directed to immediately contact OIR if their continuity plans are activated and/or if business operations become compromised so it can work with insurers to avoid any disruption in consumer services.
- OIR Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01Mto all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and DOH information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
- Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
  OIR has issued Informational Memorandum OIR-20-02Mas a reminder to all health insurers, health maintenance organizations, and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has issued notices to all of its employees providing resources regarding COVID-19 and outlining the steps recommended by the Centers for Disease Control and Florida Department of Health to take preventative health measures.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- Florida Department of Law Enforcement (FDLE) is working with state and local agencies and the Florida National Guard to set up testing collection sites in multiple locations across Florida.
- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice has sent a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has instituted additional screening measures for outside vendors who work within juvenile facilities and non-essential travel of staff members has been stopped. Visitors are limited to business-related visitors only (i.e., vendors, no personal visitors, no volunteers at this time). The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted. Clinical personnel, however, are still permitted to visit youth for treatment purposes, and attorneys are still permitted to conduct legal visits with youth.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- DBPR shared information with all agency staff statewide pertaining to the declaration of a state public health emergency, state response protocols as ordered in EO 20-51, and FDOH information and resources available on the dedicated FDOH COVID-19 webpage. DBPR communication with staff has emphasized the best practices and preventive steps recommended by FDOH for impeding the spread of respiratory illnesses.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and providing assistance as requested of State Emergency Support Function 6.
- DBPR added a web banner with information on COVID-19 and link to the Florida Department of Health's dedicated COVID-19 webpage at http://www.floridahealth.gov/COVID-19.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.
- DBPR has suspended all official business visits, including inspections, that involve licenses located at a facility covered under the visitation restrictions implemented pursuant to FDEM Emergency Order 20-002.
- DBPR issued an emergency to extend license renewal deadlines and renewal requirements for a period of 30 days for licenses with an existing renewal deadline occurring in the months of March or April, 2020.
- DBPR is monitoring release of CDC guidance related to recommendations for bars and restaurants and will coordinate with FDOH on state guidance when recommendations are released by CDC.
- DBPR is establishing a dedicated emergency information page with direct links to the FDOH COVID-19 webpage as well as information on agency emergency orders, schedule and meeting changes for divisions and boards, and other important departmental information during this emergency.
- DBPR is providing guidance to appointed professional licensing boards related to procedural considerations and available technology options for remote, web-based or telephonic board meetings.
- DBPR hosted a senior management meeting with all program directors on Monday, 03.16.2020, to discuss the latest departmental actions and preparations associated with COVID-19 in Florida.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- DMS Secretary Jonathan Satter issued an emergency order that waived rules to allow for state employees to use any type of accrued leave for instances related to COVID-19, including self-isolation after potential exposure, staying home with children due to child care or school closures, and time needed to take care of dependents like an elder parent. The order also waived rules to expand the ability for employees to donate leave to fellow employees.
- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.
- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- Florida State Parks remain open for recreational day use; however, all State Parks have adjusted their operating hours to 8 a.m. to 5 p.m.The Department continues to monitor new developments closely and will make further adjustments as necessary based on any new Department of Health or CDC guidance received to ensure protection of our staff and visitors. For the latest information on park operating hours and operational status, please visit floridastateparks.org.
- Effective March 17, DEP is cancelling all events, activities, special event reservations, pavilion rentals and camping reservations at Florida State Parks for the next 60 days.
    - Existing overnight camping reservations that begin Wednesday, March 18, will be honored. Visitors must arrive prior to 5 p.m. on March

AMERICAN OVERSIGHT

18,to secure their reservation. After Wednesday, all reservations moving forward will be cancelled and refunded. Beginning Friday, March 20, campgrounds and all overnight accommodations will be fully closed.

- ReserveAmerica, the Florida State Parks partner in camping reservations, will reach out to all affected parties to refund camping reservations. ReserveAmerica can also be reached directly at 1-800-326-3521or TDD 888-433-0287 if visitors have questions or need to modify existing reservations.
- DEP's Office of Resilience and Coastal Protection facilities will also be closing the following centers until further notice: Apalachicola National Estuarine Research Reserve, Guana Tolomato Matanzas (GTM) National Estuarine Research Reserveand Rookery Bay National Estuarine Research Reserve.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE, Fla. - The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the Florida Emergency Operations Center, Governor DeSantis announced the following:

Education

- Governor Ron DeSantis today made several announcements to keep Florida's students, instructional staff and faculty safe. He announced that all remaining assessments for school readiness and voluntary prekindergarten and all testing requirements for K-12 will be cancelled for the 2019-2020 school year.

- Governor DeSantis also provided more flexibility to local school districts so they can install and establish additional remote learning opportunities for students, including the ability to purchase devices and internet services.

Information on Restaurants, Bars, Nightclubs and Beaches

- Governor Ron DeSantis issued an Executive Order that will reduce density and crowds in restaurants, bars, nightclubs and beaches to mitigate the spread of Coronavirus (COVID-19).
- **Bars and Nightclubs**
  - Under the direction of Governor DeSantis, all bars and nightclubs throughout Florida will close for the next 30 days. Information is available on the website of Florida's Department of Business & Professional Management (DBPR).

- **Beaches**
  - The Governor is directing parties accessing public beaches in the state of Florida to follow the Centers for Disease Control and Prevention (CDC) guidance by limiting their gatherings to no more than 10 persons.

- **Restaurants**
  - Restaurants across the state of Florida will now be required to limit customer entry to 50 percent of capacity. Seating must be staggered and limited to ensure seated parties are separated by a distance of at least six feet, in accordance with CDC guidelines. Restaurants are encouraged to remain open and expand take-out and delivery services. Information is available on the website for DBPR.

Reemployment Assistance

- Governor DeSantis reminded Floridians that if their employment has been negatively impacted because of mitigation efforts to stop the spread of COVID-19, these Floridians may be eligible to receive Reemployment Assistance.
  - Individuals who are eligible for Reemployment Assistance may include:
    - Those who are quarantined by a medical professional or a government agency,
    - Those who are laid off or sent home without pay for an extended period by their employer due to COVID-19 concerns; and
    - Those who are caring for an immediate family member who is diagnosed with COVID-19
- Governor DeSantis and the Department of Economic Opportunity (DEO) encourage any Floridian whose employment has been negatively impacted as a result of COVID-19 to visit Floridajobs.org and click on the Reemployment Assistance Service Center to learn more about the program and to watch a short video on how to apply.

Private businesses assisting Floridians

- Governor DeSantis also applauded steps taken by private businesses such as FPL, Duke Energy, TECO, and Uber who are taking steps to assist Floridians with electric bills and delivering free meals to health care workers.

Presidential Preference Primary Election

- Leading up to today's Presidential Preference Primary Election, Governor DeSantis directed Secretary of State Laurel M. Lee to work with Supervisors of Elections throughout Florida to ensure a smooth election. Throughout the day, the Florida Division of Elections remained in constant contact with local elections officials to ensure voters who had not voted prior to election day, had the opportunity to cast their ballot. **The Department of State proactively worked with emergency management officials to ensure that Supervisors had the necessary resources for sanitization and cleaning at polling places to help ensure the safety of voters on Election Day.** Secretary of State Laurel M. Lee held a press conference to share updates from the day, once polls have closed statewide, that will be available for viewing on the Florida Channel.

More Information on COVID-19

AMERICAN OVERSIGHT

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the state has taken to prepare for and respond to COVID-19:

DEPARTMENT OF HEALTH

- At the direction of Governor DeSantis, State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
- Established an Incident Management Team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call center for questions regarding COVID-19. The call center launched Monday, March 2.
- Developed and distributed COVID-19 presentation materials to County Health Departments (CHD) for use at community meetings.
- Activated the Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUI) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Approved and disseminated an updated Clinician Screening Tool for identifying COVID-19 PUIs.
- Distributed a health care provider letter regarding enhanced surveillance and preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated laboratory guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician-level briefing for medical audiences.
- Identifying and monitoring close contacts of presumptive cases. Any close contacts with symptoms will be tested.
- Implemented private lab testing.
- Developed and disseminated pandemic planning guidance.
- Advised CHDs and HCCs to retain expired personal protective equipment until further until further notice.
- Continued development of public information resources.
- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- At the direction of Governor DeSantis hiring additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.

AMERICAN OVERSIGHT

THE DIVISION OF EMERGENCY MANAGEMENT

- Today, Governor Ron DeSantis and Division of Emergency Management Director Jared Moskowitz announced that Florida is continuing to order supplies and personal protective equipment in an effort to mitigate and contain the spread of COVID-19 in the state.
- After conducting a thorough assessment of needs, Director Moskowitz has requested the following supplies through Direct Federal Assistance. Supplies are being delivered on a rolling basis, and inventory is being distributed throughout the state 24 hours a day.
  - 5 mobile intensive care units
  - 5,000 ventilators
  - 5,000 hospital beds
  - 50,000 two oz. bottles of hand sanitizer
  - 250,000 coveralls
  - 500,000 gloves
  - 500,000 gowns
  - 500,000 collection kits
  - 100,000 16 oz. bottles of hand sanitizers
  - 150,000 Personal Protective Equipment kits, including coveralls, gowns, and goggles
  - 2 million N95 face masks
- Director Moskowitz is working with the federal government to determine if there is capacity to add US Navy Mercy-Class ships at Florida ports.
- Three field hospitals are being deployed:
  - One field hospital is currently staged in Orlando and can be deployed to other areas in the state as needed.
  - One field hospital is on its way to Broward County and will be set up there.
  - One field hospital is on its way to Ocala and will be staged there and deployed to other areas as needed.
- Mobile COVID-19 testing is also being implemented.

AGENCY FOR HEALTH CARE ADMINISTRATION

- Secretary Mayhew is working directly with hospitals and large health systems to identify potential vacant wings or buildings to provide additional hospital inpatient capacity should it become necessary.
- On March 16, Florida became the first state to receive CMS approvalof its 1135 Medicaid Waiver giving AHCA more flexibility for its COVID-19 response efforts. This federal action lifts Medicaid prior authorization requirements for critical health care services and allows for expedited provider enrollment.
- AHCA distributed a provider alert to licensed health care providers regarding the Division of Emergency Management's new Emergency Order tightening visitation restrictions at residential and long-term care facilities.
- AHCA, in coordination with the DEM and the Department, is hosting ongoing statewide calls for nursing homes, assisted living facilities, intermediate care facilities, the Agency for Persons with Disabilities, group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting visitors and providing updates.
- AHCA, in coordination with DEM and the Department, is hosting ongoing statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- After previously opening an event on the Emergency Status System (ESS) for hospitals to enter census information, emergency room status updatesand isolation beds, AHCA expanded the ESS event to track nursing homes and assisted living facility bed capacity, effective March 15.
- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from the Centers for Medicare and Medicaid Services (CMS) related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.

AGENCY FOR PERSONS WITH DISABILITIES

- APD is implementing telework for employees throughout the state as directed by Governor DeSantis to reduce possible exposure to COVID-19.
- APD and AHCA are hosting a conference call today with provider association leaders to share information on modifications to some existing policies and practices during this state of emergency.
- The agency's three state-run centers in Marianna, Gainesville and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors coming into APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- DOEA hosted a Program of All-Inclusive Care for the Elderly (PACE) conference call. All PACE providers are following CDC guidelines for clients, staff, and vendors. They have called clients to check their status and make sure there are no outstanding needs, they have implemented disaster plans, and they have shared information across the state and with partner agencies.
- DOEA is coordinating with AHCA to ensure PACE providers continue to receive updated information on testing facilities.
- DOEA continues to provide technical assistance to Area Agencies on Aging (AAA) regarding program flexibilities including meals, transportation, respite monitoring, service delivery models, EHEAP, health and wellness activities, outreach, board meetings, office closures, work from home, HIPPA, and IT concerns.
- DOEA coordinated the delivery of over 3,000 shelf stable meals to a Miami-Dade County senior center who had expressed concern over some clients going without meals.
- DOEA continues to maintain and disseminate county-level statistics on the number and types of services for use in modeling statewide service interruptions. When service interruptions occur, the local Area Agency for Aging (AAA) providers call clients impacted by service interruptions to offer alternative assistance.
- DOEA's Serving Health Insurance Needs of Elders (SHINE) / Senior Medicare Patrol program offered to send all online training modules to the 11 Aging and Disability Resource Centers. The distribution of training modules to active and pending volunteers would allow volunteers to train from home, on their own time, over the next several weeks and serve as a re-certification process.

AMERICAN OVERSIGHT

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families' (DCF) Office of Child Welfare is sending regular communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). An FAQ document for providers was also posted prominently on DCF's Child Care webpage.
- DCF's Office of Child Welfare is disseminating a survey to licensed child care providers to assess closures throughout the state. Currently, the decision to close is at the discretion of each individual facility.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF is leading status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday.
- DCF General Services staff throughout the state are working with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and are ordering more as needed.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility. At this time, there are no cases of patients or facility staff testing positive for COVID-19.
- DCF's Office of Economic Self-Sufficiency is communicating with DEO regarding work requirements and CareerSource operations and availability.
- DCF's Office of Economic Self-Sufficiency implemented screening procedures, including a set of questions that must be asked prior to entry, at all economic self-sufficiency storefronts.

FLORIDA DEPARTMENT OF VETERANS' AFFAIR

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- All VA Vet Centers in Florida providing readjustment counseling and outreach services to veterans and families are open and implementing enhanced screening protocols. At this time, veterans may appear in person or opt in advance for an optional phone consultation.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences. In addition, cemetery personnel will be discouraged from handshaking and any unnecessary physical contact to minimize the potential transmission of germs and viruses until the pandemic conditions are under control.
- Suspension of VA Travel Board Hearings - The Board of Veterans' Appeals (U.S. Department of Veterans Affairs) is suspending Travel Boards until May 1, 2020, due to COVID-19 response efforts. The Board will work with veterans and veteran service organizations and representatives to continue video hearings and provide virtual hearings where possible.
- All FDVA and VA facilities remain fully operational.

DEPARTMENT OF MILITARY AFFAIRS

- There have been over 598 Florida National Guardsmen placed on state active duty in support of COVID-19.
- The Florida National Guard is activating all of their medical professionals (Army Combat medic specialists and Air Force medical technicians) to support Florida Department of Health's drive-through screening operations. Guardsmen have reported in and formed Task Force Medical already.
- The Florida National Guard has activated soldiers to augment the State Logistics Readiness Center in Central Florida.
- The Florida National Guard has activated Guardsmen to augment the State Emergency Operations Center.

VOLUNTEER FLORIDA

- Volunteer Florida is encouraging volunteers to screen themselves for COVID-19 (per CDC and Florida Department of Health guidelines) before serving.
- Volunteer Florida will be participating in a call with Voluntary Organizations Active in Disaster (VOAD) partners today to discuss the anticipated needs of volunteers.
- Volunteer Florida is pushing out VOAD organizational guidance to ESF-15 partners.
- Volunteer Florida is working with state counterparts and FEMA to develop volunteer plans.
- Volunteer Florida's National Service Department has discussed using AmeriCorps members in food banks as feeding needs increase.
- Volunteer Florida continues to work with Mass Care on the anticipated needs of volunteers.
- Volunteer Florida has asked all VOADpartners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered

AMERICAN OVERSIGHT

with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The SUS has directed all state universities to continue remote instruction through the end of the Spring semester.
- All students who can return home should return home.
- The SUS has directed that traditional on-campus commencement ceremonies will not be held in May. Instead, each university is directed to develop an alternate schedule or method of delivery.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
    - Inmates will continue to have access to mail, email, phone calls and video visitation.
    - Legal visits will not be impacted.
    - FDC has partnered with vendors to provide some complimentary phone and video visitation services.
- Volunteer activities within correctional institutions statewide have been suspended.
- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
    - Have traveled internationally or on a cruise within the last 14 days.
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath.
    - Have had contact with someone who has been or is under investigation for COVID-19.

- All non-critical inmate transfers have been suspended.
- New commitments and intakes have been restricted.
- Outside inmate work squads have been restricted.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF TRANSPORTATION

- FDOT coordinated with transit agencies throughout the state to ensure the safe return of the Florida residents who were quarantined in Georgia and had previously been aboard the Grand Princess voyage outside of California.
- FDOT is coordinating with other state and local agencies to help ensure mobility around the temporary testing site in Broward County. Once the site is open, FDOT plans to publicize testing site information on highway advisory radio.
- FDOT completed a request to provide necessary supplies to harbor pilots working at seaports.
- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department continue to host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials have been posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials have been posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- At the direction of Governor Ron DeSantis, the Florida Department of Highway Safety and Motor has issued an Emergency Orderextending all Florida driver licenses and identification cards that will expire in the next 30 days.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.
- FLHSMV has been in regular communication with the American Association of Motor Vehicle Administrators and other state motor vehicle administrators to discusses best practices and strategies related to COVID-19 preparations and response.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FLHSMV Executive Director Rhodes has waived commercial truck

AMERICAN OVERSIGHT

hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor Ron DeSantis activated the Florida Small Business Emergency Bridge Loan Program to support small businesses impacted by COVID-19. The bridge loan program, managed by the Florida Department of Economic Opportunity (DEO), provides short-term, interest-free loans to small businesses that experienced economic injury from COVID-19. The application period is open and runs through May 8, 20. Interested businesses should visit orgfor more information.
- Governor DeSantis has requested the federal Small Business Administration (SBA) make the Economic Injury Disaster Loan program available for Florida's small businesses impacted by COVID-19. The Florida Department of Economic Opportunity (DEO) stands ready to assist Florida's small businesses in accessing this funding when available.
- Governor Ron DeSantis has activated the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by DEO, will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- VISIT FLORIDA is wholly focused on providing health and safety information to travelers and Floridians. This includes the activation of Florida Now, which includes the latest updates from state emergency response professionals hosted on VisitFlorida.com. All promotional media has been paused.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19
- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida. VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department has added a dedicated COVID-19 webpage for child support customers at com/childsupport/coronavirus.The new page provides comprehensive information for alternative options for handling many routine child support case activities without visiting a local child support office. Efforts also include rescheduling genetic testing sample collection appointments and postponing other types of appointments.
- The Department of Revenue is advising child support customers who are scheduled for court hearings related to their child support cases to check with the local courts where the hearings are scheduled in case the courts have new requirements, such as appearing telephonically.
- The Department of Revenue has established a dedicated team to address tax-related issues pertaining to COVID-19 and has created an email address, COVID19TAXHELP@floridarevenue.com, where taxpayers can send questions and concerns. The Department encourages all taxpayers to use our e-services applications to file and pay taxes or contact our call center at (850) 488-6800.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in the public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has issued Informational Memorandum OIR-20-03Mdirecting all insurers and other entities regulated by OIR to review and update their business continuity and/or continuity of operations plans. Companies are directed to immediately contact OIR if their continuity plans are activated and/or if business operations become compromised so it can work with insurers to avoid any disruption in consumer services.
- OIR Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01Mto all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and DOH information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
- Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
  OIR has issued Informational Memorandum OIR-20-02Mas a reminder to all health insurers, health maintenance organizations, and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has issued notices to all of its employees providing resources regarding COVID-19 and outlining the steps recommended by the Centers for Disease Control and Florida Department of Health to take preventative health measures.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- Florida Department of Law Enforcement (FDLE) is working with state and local agencies and the Florida National Guard to set up testing collection sites in multiple locations across Florida.
- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice has sent a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has instituted additional screening measures for outside vendors who work within juvenile facilities and non-essential travel of staff members has been stopped. Visitors are limited to business-related visitors only (i.e., vendors, no personal visitors, no volunteers at this time). The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted. Clinical personnel, however, are still permitted to visit youth for treatment purposes, and attorneys are still permitted to conduct legal visits with youth.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- DBPR shared information with all agency staff statewide pertaining to the declaration of a state public health emergency, state response protocols as ordered in EO 20-51, and FDOH information and resources available on the dedicated FDOH COVID-19 webpage. DBPR communication with staff has emphasized the best practices and preventive steps recommended by FDOH for impeding the spread of respiratory illnesses.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and providing assistance as requested of State Emergency Support Function 6.
- DBPR added a web banner with information on COVID-19 and link to the Florida Department of Health's dedicated COVID-19 webpage at http://www.floridahealth.gov/COVID-19.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.
- DBPR has suspended all official business visits, including inspections, that involve licenses located at a facility covered under the visitation restrictions implemented pursuant to FDEM Emergency Order 20-002.
- DBPR issued an emergency to extend license renewal deadlines and renewal requirements for a period of 30 days for licenses with an existing renewal deadline occurring in the months of March or April, 2020.
- DBPR is monitoring release of CDC guidance related to recommendations for bars and restaurants and will coordinate with FDOH on state guidance when recommendations are released by CDC.
- DBPR is establishing a dedicated emergency information page with direct links to the FDOH COVID-19 webpage as well as information on agency emergency orders, schedule and meeting changes for divisions and boards, and other important departmental information during this emergency.
- DBPR is providing guidance to appointed professional licensing boards related to procedural considerations and available technology options for remote, web-based or telephonic board meetings.
- DBPR hosted a senior management meeting with all program directors on Monday, 03.16.2020, to discuss the latest departmental actions and preparations associated with COVID-19 in Florida.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- DMS Secretary Jonathan Satter issued an emergency order that waived rules to allow for state employees to use any type of accrued leave for instances related to COVID-19, including self-isolation after potential exposure, staying home with children due to child care or school closures, and time needed to take care of dependents like an elder parent. The order also waived rules to expand the ability for employees to donate leave to fellow employees.
- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.
- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- Florida State Parks remain open for recreational day use; however, all State Parks have adjusted their operating hours to 8 a.m. to 5 p.m.The Department continues to monitor new developments closely and will make further adjustments as necessary based on any new Department of Health or CDC guidance received to ensure protection of our staff and visitors. For the latest information on park operating hours and operational status, please visit floridastateparks.org.
- Effective March 17, DEP is cancelling all events, activities, special event reservations, pavilion rentals and camping reservations at Florida State Parks for the next 60 days.
    - Existing overnight camping reservations that begin Wednesday, March 18, will be honored. Visitors must arrive prior to 5 p.m. on March

AMERICAN OVERSIGHT

18,to secure their reservation. After Wednesday, all reservations moving forward will be cancelled and refunded. Beginning Friday, March 20, campgrounds and all overnight accommodations will be fully closed.

- ReserveAmerica, the Florida State Parks partner in camping reservations, will reach out to all affected parties to refund camping reservations. ReserveAmerica can also be reached directly at 1-800-326-3521or TDD 888-433-0287 if visitors have questions or need to modify existing reservations.
- DEP's Office of Resilience and Coastal Protection facilities will also be closing the following centers until further notice: Apalachicola National Estuarine Research Reserve, Guana Tolomato Matanzas (GTM) National Estuarine Research Reserveand Rookery Bay National Estuarine Research Reserve.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE, Fla. - The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the Florida Emergency Operations Center, Governor DeSantis announced the following:

Education

- Governor Ron DeSantis today made several announcements to keep Florida's students, instructional staff and faculty safe. He announced that all remaining assessments for school readiness and voluntary prekindergarten and all testing requirements for K-12 will be cancelled for the 2019-2020 school year.

- Governor DeSantis also provided more flexibility to local school districts so they can install and establish additional remote learning opportunities for students, including the ability to purchase devices and internet services.

Information on Restaurants, Bars, Nightclubs and Beaches

- Governor Ron DeSantis issued an Executive Order that will reduce density and crowds in restaurants, bars, nightclubs and beaches to mitigate the spread of Coronavirus (COVID-19).
- **Bars and Nightclubs**
  - Under the direction of Governor DeSantis, all bars and nightclubs throughout Florida will close for the next 30 days. Information is available on the website of Florida's Department of Business & Professional Management (DBPR).

- **Beaches**
  - The Governor is directing parties accessing public beaches in the state of Florida to follow the Centers for Disease Control and Prevention (CDC) guidance by limiting their gatherings to no more than 10 persons.

- **Restaurants**
  - Restaurants across the state of Florida will now be required to limit customer entry to 50 percent of capacity. Seating must be staggered and limited to ensure seated parties are separated by a distance of at least six feet, in accordance with CDC guidelines. Restaurants are encouraged to remain open and expand take-out and delivery services. Information is available on the website for DBPR.

Reemployment Assistance

- Governor DeSantis reminded Floridians that if their employment has been negatively impacted because of mitigation efforts to stop the spread of COVID-19, these Floridians may be eligible to receive Reemployment Assistance.
  - Individuals who are eligible for Reemployment Assistance may include:
    - Those who are quarantined by a medical professional or a government agency,
    - Those who are laid off or sent home without pay for an extended period by their employer due to COVID-19 concerns; and
    - Those who are caring for an immediate family member who is diagnosed with COVID-19
- Governor DeSantis and the Department of Economic Opportunity (DEO) encourage any Floridian whose employment has been negatively impacted as a result of COVID-19 to visit Floridajobs.org and click on the Reemployment Assistance Service Center to learn more about the program and to watch a short video on how to apply.

Private businesses assisting Floridians

- Governor DeSantis also applauded steps taken by private businesses such as FPL, Duke Energy, TECO, and Uber who are taking steps to assist Floridians with electric bills and delivering free meals to health care workers.

Presidential Preference Primary Election

- Leading up to today's Presidential Preference Primary Election, Governor DeSantis directed Secretary of State Laurel M. Lee to work with Supervisors of Elections throughout Florida to ensure a smooth election. Throughout the day, the Florida Division of Elections remained in constant contact with local elections officials to ensure voters who had not voted prior to election day, had the opportunity to cast their ballot. **The Department of State proactively worked with emergency management officials to ensure that Supervisors had the necessary resources for sanitization and cleaning at polling places to help ensure the safety of voters on Election Day.** Secretary of State Laurel M. Lee held a press conference to share updates from the day, once polls have closed statewide, that will be available for viewing on the Florida Channel.

More Information on COVID-19

AMERICAN OVERSIGHT

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the state has taken to prepare for and respond to COVID-19:

DEPARTMENT OF HEALTH

- At the direction of Governor DeSantis, State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
- Established an Incident Management Team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call center for questions regarding COVID-19. The call center launched Monday, March 2.
- Developed and distributed COVID-19 presentation materials to County Health Departments (CHD) for use at community meetings.
- Activated the Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUI) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Approved and disseminated an updated Clinician Screening Tool for identifying COVID-19 PUIs.
- Distributed a health care provider letter regarding enhanced surveillance and preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated laboratory guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician-level briefing for medical audiences.
- Identifying and monitoring close contacts of presumptive cases. Any close contacts with symptoms will be tested.
- Implemented private lab testing.
- Developed and disseminated pandemic planning guidance.
- Advised CHDs and HCCs to retain expired personal protective equipment until further until further notice.
- Continued development of public information resources.
- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- At the direction of Governor DeSantis hiring additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.

AMERICAN OVERSIGHT

THE DIVISION OF EMERGENCY MANAGEMENT

- Today, Governor Ron DeSantis and Division of Emergency Management Director Jared Moskowitz announced that Florida is continuing to order supplies and personal protective equipment in an effort to mitigate and contain the spread of COVID-19 in the state.
- After conducting a thorough assessment of needs, Director Moskowitz has requested the following supplies through Direct Federal Assistance. Supplies are being delivered on a rolling basis, and inventory is being distributed throughout the state 24 hours a day.
  - 5 mobile intensive care units
  - 5,000 ventilators
  - 5,000 hospital beds
  - 50,000 two oz. bottles of hand sanitizer
  - 250,000 coveralls
  - 500,000 gloves
  - 500,000 gowns
  - 500,000 collection kits
  - 100,000 16 oz. bottles of hand sanitizers
  - 150,000 Personal Protective Equipment kits, including coveralls, gowns, and goggles
  - 2 million N95 face masks
- Director Moskowitz is working with the federal government to determine if there is capacity to add US Navy Mercy-Class ships at Florida ports.
- Three field hospitals are being deployed:
  - One field hospital is currently staged in Orlando and can be deployed to other areas in the state as needed.
  - One field hospital is on its way to Broward County and will be set up there.
  - One field hospital is on its way to Ocala and will be staged there and deployed to other areas as needed.
- Mobile COVID-19 testing is also being implemented.

AGENCY FOR HEALTH CARE ADMINISTRATION

- Secretary Mayhew is working directly with hospitals and large health systems to identify potential vacant wings or buildings to provide additional hospital inpatient capacity should it become necessary.
- On March 16, Florida became the first state to receive CMS approvalof its 1135 Medicaid Waiver giving AHCA more flexibility for its COVID-19 response efforts. This federal action lifts Medicaid prior authorization requirements for critical health care services and allows for expedited provider enrollment.
- AHCA distributed a provider alert to licensed health care providers regarding the Division of Emergency Management's new Emergency Order tightening visitation restrictions at residential and long-term care facilities.
- AHCA, in coordination with the DEM and the Department, is hosting ongoing statewide calls for nursing homes, assisted living facilities, intermediate care facilities, the Agency for Persons with Disabilities, group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting visitors and providing updates.
- AHCA, in coordination with DEM and the Department, is hosting ongoing statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- After previously opening an event on the Emergency Status System (ESS) for hospitals to enter census information, emergency room status updatesand isolation beds, AHCA expanded the ESS event to track nursing homes and assisted living facility bed capacity, effective March 15.
- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from the Centers for Medicare and Medicaid Services (CMS) related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.

AGENCY FOR PERSONS WITH DISABILITIES

- APD is implementing telework for employees throughout the state as directed by Governor DeSantis to reduce possible exposure to COVID-19.
- APD and AHCA are hosting a conference call today with provider association leaders to share information on modifications to some existing policies and practices during this state of emergency.
- The agency's three state-run centers in Marianna, Gainesville and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors coming into APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- DOEA hosted a Program of All-Inclusive Care for the Elderly (PACE) conference call. All PACE providers are following CDC guidelines for clients, staff, and vendors. They have called clients to check their status and make sure there are no outstanding needs, they have implemented disaster plans, and they have shared information across the state and with partner agencies.
- DOEA is coordinating with AHCA to ensure PACE providers continue to receive updated information on testing facilities.
- DOEA continues to provide technical assistance to Area Agencies on Aging (AAA) regarding program flexibilities including meals, transportation, respite monitoring, service delivery models, EHEAP, health and wellness activities, outreach, board meetings, office closures, work from home, HIPPA, and IT concerns.
- DOEA coordinated the delivery of over 3,000 shelf stable meals to a Miami-Dade County senior center who had expressed concern over some clients going without meals.
- DOEA continues to maintain and disseminate county-level statistics on the number and types of services for use in modeling statewide service interruptions. When service interruptions occur, the local Area Agency for Aging (AAA) providers call clients impacted by service interruptions to offer alternative assistance.
- DOEA's Serving Health Insurance Needs of Elders (SHINE) / Senior Medicare Patrol program offered to send all online training modules to the 11 Aging and Disability Resource Centers. The distribution of training modules to active and pending volunteers would allow volunteers to train from home, on their own time, over the next several weeks and serve as a re-certification process.

AMERICAN OVERSIGHT

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families' (DCF) Office of Child Welfare is sending regular communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). An FAQ document for providers was also posted prominently on DCF's Child Care webpage.
- DCF's Office of Child Welfare is disseminating a survey to licensed child care providers to assess closures throughout the state. Currently, the decision to close is at the discretion of each individual facility.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF is leading status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday.
- DCF General Services staff throughout the state are working with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and are ordering more as needed.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility. At this time, there are no cases of patients or facility staff testing positive for COVID-19.
- DCF's Office of Economic Self-Sufficiency is communicating with DEO regarding work requirements and CareerSource operations and availability.
- DCF's Office of Economic Self-Sufficiency implemented screening procedures, including a set of questions that must be asked prior to entry, at all economic self-sufficiency storefronts.

FLORIDA DEPARTMENT OF VETERANS' AFFAIR

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- All VA Vet Centers in Florida providing readjustment counseling and outreach services to veterans and families are open and implementing enhanced screening protocols. At this time, veterans may appear in person or opt in advance for an optional phone consultation.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences. In addition, cemetery personnel will be discouraged from handshaking and any unnecessary physical contact to minimize the potential transmission of germs and viruses until the pandemic conditions are under control.
- Suspension of VA Travel Board Hearings - The Board of Veterans' Appeals (U.S. Department of Veterans Affairs) is suspending Travel Boards until May 1, 2020, due to COVID-19 response efforts. The Board will work with veterans and veteran service organizations and representatives to continue video hearings and provide virtual hearings where possible.
- All FDVA and VA facilities remain fully operational.

DEPARTMENT OF MILITARY AFFAIRS

- There have been over 598 Florida National Guardsmen placed on state active duty in support of COVID-19.
- The Florida National Guard is activating all of their medical professionals (Army Combat medic specialists and Air Force medical technicians) to support Florida Department of Health's drive-through screening operations. Guardsmen have reported in and formed Task Force Medical already.
- The Florida National Guard has activated soldiers to augment the State Logistics Readiness Center in Central Florida.
- The Florida National Guard has activated Guardsmen to augment the State Emergency Operations Center.

VOLUNTEER FLORIDA

- Volunteer Florida is encouraging volunteers to screen themselves for COVID-19 (per CDC and Florida Department of Health guidelines) before serving.
- Volunteer Florida will be participating in a call with Voluntary Organizations Active in Disaster (VOAD) partners today to discuss the anticipated needs of volunteers.
- Volunteer Florida is pushing out VOAD organizational guidance to ESF-15 partners.
- Volunteer Florida is working with state counterparts and FEMA to develop volunteer plans.
- Volunteer Florida's National Service Department has discussed using AmeriCorps members in food banks as feeding needs increase.
- Volunteer Florida continues to work with Mass Care on the anticipated needs of volunteers.
- Volunteer Florida has asked all VOADpartners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered

AMERICAN OVERSIGHT

with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The SUS has directed all state universities to continue remote instruction through the end of the Spring semester.
- All students who can return home should return home.
- The SUS has directed that traditional on-campus commencement ceremonies will not be held in May. Instead, each university is directed to develop an alternate schedule or method of delivery.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
    - Inmates will continue to have access to mail, email, phone calls and video visitation.
    - Legal visits will not be impacted.
    - FDC has partnered with vendors to provide some complimentary phone and video visitation services.
- Volunteer activities within correctional institutions statewide have been suspended.
- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
    - Have traveled internationally or on a cruise within the last 14 days.
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath.
    - Have had contact with someone who has been or is under investigation for COVID-19.

- All non-critical inmate transfers have been suspended.
- New commitments and intakes have been restricted.
- Outside inmate work squads have been restricted.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF TRANSPORTATION

- FDOT coordinated with transit agencies throughout the state to ensure the safe return of the Florida residents who were quarantined in Georgia and had previously been aboard the Grand Princess voyage outside of California.
- FDOT is coordinating with other state and local agencies to help ensure mobility around the temporary testing site in Broward County. Once the site is open, FDOT plans to publicize testing site information on highway advisory radio.
- FDOT completed a request to provide necessary supplies to harbor pilots working at seaports.
- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department continue to host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials have been posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials have been posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- At the direction of Governor Ron DeSantis, the Florida Department of Highway Safety and Motor has issued an Emergency Orderextending all Florida driver licenses and identification cards that will expire in the next 30 days.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.
- FLHSMV has been in regular communication with the American Association of Motor Vehicle Administrators and other state motor vehicle administrators to discusses best practices and strategies related to COVID-19 preparations and response.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FLHSMV Executive Director Rhodes has waived commercial truck

AMERICAN OVERSIGHT

hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor Ron DeSantis activated the Florida Small Business Emergency Bridge Loan Program to support small businesses impacted by COVID-19. The bridge loan program, managed by the Florida Department of Economic Opportunity (DEO), provides short-term, interest-free loans to small businesses that experienced economic injury from COVID-19. The application period is open and runs through May 8, 20. Interested businesses should visit orgfor more information.
- Governor DeSantis has requested the federal Small Business Administration (SBA) make the Economic Injury Disaster Loan program available for Florida's small businesses impacted by COVID-19. The Florida Department of Economic Opportunity (DEO) stands ready to assist Florida's small businesses in accessing this funding when available.
- Governor Ron DeSantis has activated the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by DEO, will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- VISIT FLORIDA is wholly focused on providing health and safety information to travelers and Floridians. This includes the activation of Florida Now, which includes the latest updates from state emergency response professionals hosted on VisitFlorida.com. All promotional media has been paused.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19
- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida. VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department has added a dedicated COVID-19 webpage for child support customers at com/childsupport/coronavirus.The new page provides comprehensive information for alternative options for handling many routine child support case activities without visiting a local child support office. Efforts also include rescheduling genetic testing sample collection appointments and postponing other types of appointments.
- The Department of Revenue is advising child support customers who are scheduled for court hearings related to their child support cases to check with the local courts where the hearings are scheduled in case the courts have new requirements, such as appearing telephonically.
- The Department of Revenue has established a dedicated team to address tax-related issues pertaining to COVID-19 and has created an email address, COVID19TAXHELP@floridarevenue.com, where taxpayers can send questions and concerns. The Department encourages all taxpayers to use our e-services applications to file and pay taxes or contact our call center at (850) 488-6800.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in the public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has issued Informational Memorandum OIR-20-03Mdirecting all insurers and other entities regulated by OIR to review and update their business continuity and/or continuity of operations plans. Companies are directed to immediately contact OIR if their continuity plans are activated and/or if business operations become compromised so it can work with insurers to avoid any disruption in consumer services.
- OIR Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01Mto all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and DOH information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
- Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
  OIR has issued Informational Memorandum OIR-20-02Mas a reminder to all health insurers, health maintenance organizations, and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has issued notices to all of its employees providing resources regarding COVID-19 and outlining the steps recommended by the Centers for Disease Control and Florida Department of Health to take preventative health measures.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- Florida Department of Law Enforcement (FDLE) is working with state and local agencies and the Florida National Guard to set up testing collection sites in multiple locations across Florida.
- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice has sent a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has instituted additional screening measures for outside vendors who work within juvenile facilities and non-essential travel of staff members has been stopped. Visitors are limited to business-related visitors only (i.e., vendors, no personal visitors, no volunteers at this time). The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted. Clinical personnel, however, are still permitted to visit youth for treatment purposes, and attorneys are still permitted to conduct legal visits with youth.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- DBPR shared information with all agency staff statewide pertaining to the declaration of a state public health emergency, state response protocols as ordered in EO 20-51, and FDOH information and resources available on the dedicated FDOH COVID-19 webpage. DBPR communication with staff has emphasized the best practices and preventive steps recommended by FDOH for impeding the spread of respiratory illnesses.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and providing assistance as requested of State Emergency Support Function 6.
- DBPR added a web banner with information on COVID-19 and link to the Florida Department of Health's dedicated COVID-19 webpage at http://www.floridahealth.gov/COVID-19.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.
- DBPR has suspended all official business visits, including inspections, that involve licenses located at a facility covered under the visitation restrictions implemented pursuant to FDEM Emergency Order 20-002.
- DBPR issued an emergency to extend license renewal deadlines and renewal requirements for a period of 30 days for licenses with an existing renewal deadline occurring in the months of March or April, 2020.
- DBPR is monitoring release of CDC guidance related to recommendations for bars and restaurants and will coordinate with FDOH on state guidance when recommendations are released by CDC.
- DBPR is establishing a dedicated emergency information page with direct links to the FDOH COVID-19 webpage as well as information on agency emergency orders, schedule and meeting changes for divisions and boards, and other important departmental information during this emergency.
- DBPR is providing guidance to appointed professional licensing boards related to procedural considerations and available technology options for remote, web-based or telephonic board meetings.
- DBPR hosted a senior management meeting with all program directors on Monday, 03.16.2020, to discuss the latest departmental actions and preparations associated with COVID-19 in Florida.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- DMS Secretary Jonathan Satter issued an emergency order that waived rules to allow for state employees to use any type of accrued leave for instances related to COVID-19, including self-isolation after potential exposure, staying home with children due to child care or school closures, and time needed to take care of dependents like an elder parent. The order also waived rules to expand the ability for employees to donate leave to fellow employees.
- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.
- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- Florida State Parks remain open for recreational day use; however, all State Parks have adjusted their operating hours to 8 a.m. to 5 p.m.The Department continues to monitor new developments closely and will make further adjustments as necessary based on any new Department of Health or CDC guidance received to ensure protection of our staff and visitors. For the latest information on park operating hours and operational status, please visit floridastateparks.org.
- Effective March 17, DEP is cancelling all events, activities, special event reservations, pavilion rentals and camping reservations at Florida State Parks for the next 60 days.
    - Existing overnight camping reservations that begin Wednesday, March 18, will be honored. Visitors must arrive prior to 5 p.m. on March

AMERICAN OVERSIGHT

18,to secure their reservation. After Wednesday, all reservations moving forward will be cancelled and refunded. Beginning Friday, March 20, campgrounds and all overnight accommodations will be fully closed.

- ReserveAmerica, the Florida State Parks partner in camping reservations, will reach out to all affected parties to refund camping reservations. ReserveAmerica can also be reached directly at 1-800-326-3521or TDD 888-433-0287 if visitors have questions or need to modify existing reservations.
- DEP's Office of Resilience and Coastal Protection facilities will also be closing the following centers until further notice: Apalachicola National Estuarine Research Reserve, Guana Tolomato Matanzas (GTM) National Estuarine Research Reserveand Rookery Bay National Estuarine Research Reserve.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE, Fla. — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the State Emergency Operations Center, Governor DeSantis announced the following:

- Governor DeSantis announced he is going to supplement federal Small Business Administration (SBA) loans. The Governor activated the Florida Small Business Emergency Loan Program. Up to $50 million has been allocated for the program.
- Governor Ron DeSantis directed the Department of Revenue to provide flexibility on the deadlines of taxes due such as corporate income tax and sales tax to assist businesses that are adversely impacted from COVID-19 mitigation measures.
- Floridians throughout the state are lending a hand to stop the spread of COVID-19:
  - Members of the Florida House of Representatives have been activated to their National Guard units**,**
  - The Players Championship donated thousands of pounds of food to Feeding Northeast Florida**,**
  - Miami-Dade County school administrators are handing out computers and mobile devices, and
  - Comcast agreed to provide free WiFi for the next 60 days to kids who do not have it.

- The Miami Dolphins, Jacksonville Jaguars and the Orange County Convention Center have agreed to open their parking lots to stage supplies and locate testing sites.
- Restaurants throughout the state including Jimmy John's in Tallahassee and Toasted Restaurant in Orange County are providing children with free lunch throughout the week.
- Drive through testing sites are expected to open, throughout the state, in addition to the first proposed state site at Memorial Healthcare System in Broward. So far, sites are being developed in in Myers, Pensacola, West Palm Beach and Tallahassee.
- The Floridians who were at held at the Dobbins Air Reserve Base are on their way back to Florida; 15 Floridians have elected to stay at the base to care for their family members.
- On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

More Information on COVID-19

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

AMERICAN OVERSIGHT

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the state has taken to prepare for and respond to COVID-19:

DEPARTMENT OF HEALTH

- At the direction of Governor DeSantis, State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
- Established an Incident Management Team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call center for questions regarding COVID-19. The call center launched Monday, March 2.
- Developed and distributed COVID-19 presentation materials to County Health Departments (CHD) for use at community meetings.
- Activated the Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUI) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Approved and disseminated an updated Clinician Screening Tool for identifying COVID-19 PUIs.
- Distributed a health care provider letter regarding enhanced surveillance and preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated laboratory guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician-level briefing for medical audiences.
- Identifying and monitoring close contacts of presumptive cases. Any close contacts with symptoms will be tested.
- Implemented private lab testing.
- Developed and disseminated pandemic planning guidance.
- Advised CHDs and HCCs to retain expired personal protective equipment until further until further notice.
- Continued development of public information resources.
- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- At the direction of Governor DeSantis hiring additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.

AGENCY FOR HEALTH CARE ADMINISTRATION

- AHCA distributed a provider alert to licensed health care providers regarding the Division of Emergency Management's new Emergency Order tightening visitation restrictions at residential and long-term care facilities.
- AHCA, in coordination with the DEM and the Department, is hosting ongoing statewide calls for nursing homes, assisted living facilities, intermediate care facilities, the Agency for Persons with Disabilities, group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting visitors and providing updates.
- AHCA, in coordination with DEM and the Department, is hosting ongoing statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- After previously opening an event on the Emergency Status System (ESS) for hospitals to enter census information, emergency room status updates and isolation beds, AHCA expanded the ESS event to track nursing homes and assisted living facility bed capacity, effective March 15.
- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from the Centers for Medicare and Medicaid Services (CMS) related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.
- AHCA submitted requests to CMS for flexibility for Florida's program under the federal declaration of a state of emergency.

AGENCY FOR PERSONS WITH DISABILITIES

- The agency's three state-run centers in Marianna, Gainesville and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors coming into APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders and APD employees.

AMERICAN OVERSIGHT

DEPARTMENT OF ELDER AFFAIRS

- The Department of Elder Affairs (DOEA), in coordination with the Administration for Community Living (ACL), facilitated a virtual Town Hall meeting at the request of Hallandale Beach Mayor Joy Cooper. More than 2,700 seniors were online for the meeting. Charlotte Mather Taylor, Executive Director of the Aging and Disability Resource Center (ADRC) of Broward County, led the discussion with participation from ACL Representative Constantino Miskos, Chen Senior Medical Center, and representatives from Emergency Medical Services. Their primary topics of conversation centered on the work being done, specifically by the Area Agency on Aging, to continue to provide people resources and services to maximize support during COVID-19.
- Through Departmental Leadership and the Area Agency on Aging contract managers, DOEA provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the safe delivery of home-delivered meals to prevent spread of respiratory infection.
- DOEA continues to provide updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, they are provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.
- "The Vision 2020: Looking Towards Your Age-Friendly Future Tour" to five communities across Florida originally planned for April 20th - April 24th and co-hosted by the Department and AARP has been postponed to protect the health and wellness of seniors, volunteers and staff.
- All Serving Health Insurance Needs of Elders (SHINE) participation in scheduled outreach events, presentations, and in-person SHINE/Senior Medicare Patrol (SMP) counseling has been suspended until further notice. SHINE volunteers and staff will continue to provide counseling services, but the services will be conducted over-the-phone with future considerations for the use of webinars and Facebook LIVE.
- DOEA Secretary Prudom held a conference call with The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors to discuss the suspension of face-to-face assessments. CARES assessors will provide reviews through phone or tele-technology to reduce client/staff exposure and reduce spread.
- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the provision on completing assessments for multiple program types, specifically for clients who have chosen to self-isolate.
- DOEA provided updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers, and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families' (DCF) Office of Child Welfare is sending regular communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). An FAQ document for providers was also posted prominently on DCF's Child Care webpage.
- DCF's Office of Child Welfare is disseminating a survey to licensed child care providers to assess closures throughout the state. Currently, the decision to close is at the discretion of each individual facility.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF is leading status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday.
- DCF General Services staff throughout the state are working with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and are ordering more as needed.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility. At this time, there are no cases of patients or facility staff testing positive for COVID-19.
- DCF's Office of Economic Self-Sufficiency is communicating with DEO regarding work requirements and CareerSource operations and availability.
- DCF's Office of Economic Self-Sufficiency implemented screening procedures, including a set of questions that must be asked prior to entry, at all economic self-sufficiency storefronts.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- All FDVA and VA facilities remain fully operational.

DEPARTMENT OF MILITARY AFFAIRS

- There have been over 200 Florida National Guardsmen placed on state active duty in support of COVID-19.
- The Florida National Guard is activating all of their medical professionals (Army Combat medic specialists and Air Force medical technicians) to support Florida Department of Health's drive-through screening operations. Guardsmen have reported in and formed Task Force Medical already.
- The Florida National Guard has activated soldiers to augment the State Logistics Readiness Center in Central Florida.

VOLUNTEER FLORIDA

- Volunteer Florida is working with state counterparts and FEMA to develop volunteer plans.

AMERICAN OVERSIGHT

Volunteer Florida's National Service Department has discussed using AmeriCorps members in food banks as feeding needs increase.
- Volunteer Florida is having conversations with Mass Care on the anticipated needs of volunteers. Together, we are working on a plan for volunteers with volunteer safety guidelines to ensure that we are protecting our service providers (volunteers and clients).
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The State University System will continue to evaluate the effectiveness of remote learning and the need to teach remotely in order to protect our students and the university community.
- The State University System will continue to work with the Florida Department of Health and the Emergency Operations Center to determine if the initial two weeks of remote learning is sufficient.
- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING - While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- All state universities have implemented campus-wide critical incident or emergency management teams that are meeting regularly to prepare for the impacts of the COVID-19 virus.
- All universities are preparing to transition to remote instructional delivery for a two-week period during March and early April, depending on each institution's Spring Break, and are informing students not to return to campus during this period.
- The Board of Governors will be conducting its March meeting via conference call and will not have a face-to-face meeting at USF as was originally scheduled.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
    - Inmates will continue to have access to mail, email, phone calls and video visitation.
    - Legal visits will not be impacted.
    - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:

    - Have traveled internationally or on a cruise within the last 14 days.
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath.
    - Have had contact with someone who has been or is under investigation for COVID-19.
- All non-critical inmate transfers have been suspended.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Division of Elections offers a toll-free Voter Assistance Hotline, 1.866.308.6739 (in English and Español), available Monday - Friday, 8:00 am - 5:00 pm

AMERICAN OVERSIGHT

ET, with extended hours during statewide elections. For hearing or speech impaired, please contact the Division using the Florida Relay Service, 1.800.955.8771 (TDD), 1.800.955.8770 (Voice), or 1.877.955.8773 (Español). Voters can also contact their local Supervisor of Elections

- The Florida Department of State is in constant communication with Supervisors of Elections regarding Tuesday's Presidential Preference Primary Election and is providing guidance and information to voters through traditional and social media messages:
- The Florida Department of State been informing voters of the various options Florida provides in order to cast their ballot ahead of Tuesday's election and on Election Day. Further, we have assured Florida's voters that otherwise healthy poll workers can work on Election Day. DOS has notified voters who have been ordered to self-isolate or who are experiencing symptoms of COVID-19 and who have not yet voted, of the option to have someone pick up their ballot for them.
    - As with any election, before a voter goes to the polls on Tuesday, they should check with their local Supervisor of Elections. Now more than ever, it is critical that we continue to provide voters with clear and consistent information regarding polling place locations. The most current and up-to-date polling place information (per 71, Florida Statutes) is going to be on the voter's respective **Supervisor of Elections website**.
    - The Division of Elections website provides prominent placement of the Voter Information Lookup where voters can check their voter status and find their polling place information. This polling place information is linked to the voters' respective Supervisor of Elections database. The most current and up-to-date polling place information (per 71, Florida Statutes) is going to be from the voter's respective **Supervisor of Elections.**
- The Florida Department of State continues to support and work with local Supervisors of Elections and Emergency Management officials to ensure the Supervisors needs are met regarding sanitization and cleaning needs for the Presidential Preference Primary Election on Tuesday.

FLORIDA DEPARTMENT OF TRANSPORTATION

- FDOT is coordinating with other state and local agencies to help ensure mobility around the temporary testing site in Broward County. Once the site is open, FDOT plans to publicize testing site information on highway advisory radio.
- FDOT completed a request to provide necessary supplies to harbor pilots working at seaports.
- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials have been posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials have been posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- At the direction of Governor Ron DeSantis, Florida Department of Highway Safety and Motor Vehicles Executive Director Terry L. Rhodes has issued an Emergency Order extending all Florida driver licenses and identification cards that will expire in the next 30 days.
- Pursuant to Executive Order 20-52, FLHSMV Executive Director Rhodes waived commercial truck hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor DeSantis has requested the federal Small Business Administration (SBA) make the Economic Injury Disaster Loan program available for Florida's small businesses impacted by COVID-19. The Florida Department of Economic Opportunity (DEO) stands ready to assist Florida's small businesses in accessing this funding when available.
- Governor Ron DeSantis has activated the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by DEO, will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- VISIT FLORIDA is wholly focused on providing health and safety information to travelers and Floridians. This includes the activation of Florida Now, which includes the latest updates from state emergency response professionals hosted on VisitFlorida.com.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19
- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue is advising child support customers who are scheduled for court hearings related to their child support cases to check with the local courts where the hearings are scheduled in case the courts have new requirements, such as appearing telephonically.
- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

AMERICAN OVERSIGHT

OFFICE OF INSURANCE REGULATION

- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- Florida Department of Law Enforcement (FDLE) is working with state and local agencies and the Florida National Guard to set up testing collection sites in multiple locations across Florida.
- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice has sent a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has instituted additional screening measures for outside vendors who work within juvenile facilities and non-essential travel of staff members has been stopped. Visitors are limited to business-related visitors only (i.e., vendors, no personal visitors, no volunteers at this time). The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted. Clinical personnel, however, are still permitted to visit youth for treatment purposes, and attorneys are still permitted to conduct legal visits with youth.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- Governor DeSantis directed all agencies to suspend for 30 days licensing and registration renewal requirements for existing processional licenses (e.g. realtors).
- Governor DeSantis has directed the Department of Business and Professional Regulation Secretary Halsey Beshears, in coordination with the Florida Department of Health, to issue social distancing guidance to restaurants and bars.
- Governor DeSantis sent a letter to the federal Small Business Administration to turn on the SBA loan program for small businesses.
- The Florida Department of Business and Professional Regulation (DBPR) has suspended all official business visits, including inspections, that involve licenses located at a facility covered under the visitation restrictions implemented pursuant to FDEM Emergency Order 20-002.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.
- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- All State Parks have adjusted their operating hours to 8 a.m. to 5 p.m. daily. The Department continues to monitor new developments closely and will make further adjustments as necessary based on any new Department of Health or CDC guidance received to ensure protection of our staff and visitors. For the latest information on park operating hours and operational status, please visit floridastateparks.org.
- Currently all Florida State Parks and campgrounds, and Office of Resilience and Coastal Protection facilities (aquatic preserves and National Estuarine Research Reserves), remain open to the public. However, in an abundance of caution and consistent with Center for Disease Control and Prevention (CDC) guidance, DEP announced on March 13 that it is cancelling all events and activities at these facilities effective immediately and until further notice.
    - This includes DEP events and includes activities such as tours and visitor centers that involve large groups and/or or people in close proximity to others. People with questions regarding any privately scheduled event should check with the host of the event or the facility directly. For the latest closure and cancellation information, please visit floridastateparks.org.
- If your travel plans have changed and you need to modify camping or cabin reservations, please visit ReserveAmerica.com, call Reserve America at 1-800-326-3521 or TDD 888-433-0287 or text to 904-204-3216.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE, Fla. — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the State Emergency Operations Center, Governor DeSantis announced the following:

- Governor DeSantis announced he is going to supplement federal Small Business Administration (SBA) loans. The Governor activated the Florida Small Business Emergency Loan Program. Up to $50 million has been allocated for the program.
- Governor Ron DeSantis directed the Department of Revenue to provide flexibility on the deadlines of taxes due such as corporate income tax and sales tax to assist businesses that are adversely impacted from COVID-19 mitigation measures.
- Floridians throughout the state are lending a hand to stop the spread of COVID-19:
  - Members of the Florida House of Representatives have been activated to their National Guard units**,**
  - The Players Championship donated thousands of pounds of food to Feeding Northeast Florida**,**
  - Miami-Dade County school administrators are handing out computers and mobile devices, and
  - Comcast agreed to provide free WiFi for the next 60 days to kids who do not have it.

- The Miami Dolphins, Jacksonville Jaguars and the Orange County Convention Center have agreed to open their parking lots to stage supplies and locate testing sites.
- Restaurants throughout the state including Jimmy John's in Tallahassee and Toasted Restaurant in Orange County are providing children with free lunch throughout the week.
- Drive through testing sites are expected to open, throughout the state, in addition to the first proposed state site at Memorial Healthcare System in Broward. So far, sites are being developed in in Myers, Pensacola, West Palm Beach and Tallahassee.
- The Floridians who were at held at the Dobbins Air Reserve Base are on their way back to Florida; 15 Floridians have elected to stay at the base to care for their family members.
- On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

More Information on COVID-19

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

AMERICAN OVERSIGHT

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the state has taken to prepare for and respond to COVID-19:

DEPARTMENT OF HEALTH

- At the direction of Governor DeSantis, State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
- Established an Incident Management Team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call center for questions regarding COVID-19. The call center launched Monday, March 2.
- Developed and distributed COVID-19 presentation materials to County Health Departments (CHD) for use at community meetings.
- Activated the Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUI) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Approved and disseminated an updated Clinician Screening Tool for identifying COVID-19 PUIs.
- Distributed a health care provider letter regarding enhanced surveillance and preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated laboratory guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician-level briefing for medical audiences.
- Identifying and monitoring close contacts of presumptive cases. Any close contacts with symptoms will be tested.
- Implemented private lab testing.
- Developed and disseminated pandemic planning guidance.
- Advised CHDs and HCCs to retain expired personal protective equipment until further until further notice.
- Continued development of public information resources.
- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- At the direction of Governor DeSantis hiring additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.

AGENCY FOR HEALTH CARE ADMINISTRATION

- AHCA distributed a provider alert to licensed health care providers regarding the Division of Emergency Management's new Emergency Order tightening visitation restrictions at residential and long-term care facilities.
- AHCA, in coordination with the DEM and the Department, is hosting ongoing statewide calls for nursing homes, assisted living facilities, intermediate care facilities, the Agency for Persons with Disabilities, group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting visitors and providing updates.
- AHCA, in coordination with DEM and the Department, is hosting ongoing statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- After previously opening an event on the Emergency Status System (ESS) for hospitals to enter census information, emergency room status updates and isolation beds, AHCA expanded the ESS event to track nursing homes and assisted living facility bed capacity, effective March 15.
- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from the Centers for Medicare and Medicaid Services (CMS) related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.
- AHCA submitted requests to CMS for flexibility for Florida's program under the federal declaration of a state of emergency.

AGENCY FOR PERSONS WITH DISABILITIES

- The agency's three state-run centers in Marianna, Gainesville and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors coming into APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders and APD employees.

AMERICAN OVERSIGHT

DEPARTMENT OF ELDER AFFAIRS

- The Department of Elder Affairs (DOEA), in coordination with the Administration for Community Living (ACL), facilitated a virtual Town Hall meeting at the request of Hallandale Beach Mayor Joy Cooper. More than 2,700 seniors were online for the meeting. Charlotte Mather Taylor, Executive Director of the Aging and Disability Resource Center (ADRC) of Broward County, led the discussion with participation from ACL Representative Constantino Miskos, Chen Senior Medical Center, and representatives from Emergency Medical Services. Their primary topics of conversation centered on the work being done, specifically by the Area Agency on Aging, to continue to provide people resources and services to maximize support during COVID-19.
- Through Departmental Leadership and the Area Agency on Aging contract managers, DOEA provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the safe delivery of home-delivered meals to prevent spread of respiratory infection.
- DOEA continues to provide updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, they are provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.
- "The Vision 2020: Looking Towards Your Age-Friendly Future Tour" to five communities across Florida originally planned for April 20th - April 24th and co-hosted by the Department and AARP has been postponed to protect the health and wellness of seniors, volunteers and staff.
- All Serving Health Insurance Needs of Elders (SHINE) participation in scheduled outreach events, presentations, and in-person SHINE/Senior Medicare Patrol (SMP) counseling has been suspended until further notice. SHINE volunteers and staff will continue to provide counseling services, but the services will be conducted over-the-phone with future considerations for the use of webinars and Facebook LIVE.
- DOEA Secretary Prudom held a conference call with The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors to discuss the suspension of face-to-face assessments. CARES assessors will provide reviews through phone or tele-technology to reduce client/staff exposure and reduce spread.
- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the provision on completing assessments for multiple program types, specifically for clients who have chosen to self-isolate.
- DOEA provided updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers, and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families' (DCF) Office of Child Welfare is sending regular communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). An FAQ document for providers was also posted prominently on DCF's Child Care webpage.
- DCF's Office of Child Welfare is disseminating a survey to licensed child care providers to assess closures throughout the state. Currently, the decision to close is at the discretion of each individual facility.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF is leading status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday.
- DCF General Services staff throughout the state are working with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and are ordering more as needed.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility. At this time, there are no cases of patients or facility staff testing positive for COVID-19.
- DCF's Office of Economic Self-Sufficiency is communicating with DEO regarding work requirements and CareerSource operations and availability.
- DCF's Office of Economic Self-Sufficiency implemented screening procedures, including a set of questions that must be asked prior to entry, at all economic self-sufficiency storefronts.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- All FDVA and VA facilities remain fully operational.

DEPARTMENT OF MILITARY AFFAIRS

- There have been over 200 Florida National Guardsmen placed on state active duty in support of COVID-19.
- The Florida National Guard is activating all of their medical professionals (Army Combat medic specialists and Air Force medical technicians) to support Florida Department of Health's drive-through screening operations. Guardsmen have reported in and formed Task Force Medical already.
- The Florida National Guard has activated soldiers to augment the State Logistics Readiness Center in Central Florida.

VOLUNTEER FLORIDA

- Volunteer Florida is working with state counterparts and FEMA to develop volunteer plans.

AMERICAN OVERSIGHT

Volunteer Florida's National Service Department has discussed using AmeriCorps members in food banks as feeding needs increase.
- Volunteer Florida is having conversations with Mass Care on the anticipated needs of volunteers. Together, we are working on a plan for volunteers with volunteer safety guidelines to ensure that we are protecting our service providers (volunteers and clients).
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The State University System will continue to evaluate the effectiveness of remote learning and the need to teach remotely in order to protect our students and the university community.
- The State University System will continue to work with the Florida Department of Health and the Emergency Operations Center to determine if the initial two weeks of remote learning is sufficient.
- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING - While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- All state universities have implemented campus-wide critical incident or emergency management teams that are meeting regularly to prepare for the impacts of the COVID-19 virus.
- All universities are preparing to transition to remote instructional delivery for a two-week period during March and early April, depending on each institution's Spring Break, and are informing students not to return to campus during this period.
- The Board of Governors will be conducting its March meeting via conference call and will not have a face-to-face meeting at USF as was originally scheduled.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
    - Inmates will continue to have access to mail, email, phone calls and video visitation.
    - Legal visits will not be impacted.
    - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:

    - Have traveled internationally or on a cruise within the last 14 days.
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath.
    - Have had contact with someone who has been or is under investigation for COVID-19.
- All non-critical inmate transfers have been suspended.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Division of Elections offers a toll-free Voter Assistance Hotline, 1.866.308.6739 (in English and Español), available Monday - Friday, 8:00 am - 5:00 pm

AMERICAN OVERSIGHT

ET, with extended hours during statewide elections. For hearing or speech impaired, please contact the Division using the Florida Relay Service, 1.800.955.8771 (TDD), 1.800.955.8770 (Voice), or 1.877.955.8773 (Español). Voters can also contact their local Supervisor of Elections

- The Florida Department of State is in constant communication with Supervisors of Elections regarding Tuesday's Presidential Preference Primary Election and is providing guidance and information to voters through traditional and social media messages:
- The Florida Department of State been informing voters of the various options Florida provides in order to cast their ballot ahead of Tuesday's election and on Election Day. Further, we have assured Florida's voters that otherwise healthy poll workers can work on Election Day. DOS has notified voters who have been ordered to self-isolate or who are experiencing symptoms of COVID-19 and who have not yet voted, of the option to have someone pick up their ballot for them.
    - As with any election, before a voter goes to the polls on Tuesday, they should check with their local Supervisor of Elections. Now more than ever, it is critical that we continue to provide voters with clear and consistent information regarding polling place locations. The most current and up-to-date polling place information (per 71, Florida Statutes) is going to be on the voter's respective **Supervisor of Elections website**.
    - The Division of Elections website provides prominent placement of the Voter Information Lookup where voters can check their voter status and find their polling place information. This polling place information is linked to the voters' respective Supervisor of Elections database. The most current and up-to-date polling place information (per 71, Florida Statutes) is going to be from the voter's respective **Supervisor of Elections.**
- The Florida Department of State continues to support and work with local Supervisors of Elections and Emergency Management officials to ensure the Supervisors needs are met regarding sanitization and cleaning needs for the Presidential Preference Primary Election on Tuesday.

FLORIDA DEPARTMENT OF TRANSPORTATION

- FDOT is coordinating with other state and local agencies to help ensure mobility around the temporary testing site in Broward County. Once the site is open, FDOT plans to publicize testing site information on highway advisory radio.
- FDOT completed a request to provide necessary supplies to harbor pilots working at seaports.
- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials have been posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials have been posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- At the direction of Governor Ron DeSantis, Florida Department of Highway Safety and Motor Vehicles Executive Director Terry L. Rhodes has issued an Emergency Order extending all Florida driver licenses and identification cards that will expire in the next 30 days.
- Pursuant to Executive Order 20-52, FLHSMV Executive Director Rhodes waived commercial truck hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor DeSantis has requested the federal Small Business Administration (SBA) make the Economic Injury Disaster Loan program available for Florida's small businesses impacted by COVID-19. The Florida Department of Economic Opportunity (DEO) stands ready to assist Florida's small businesses in accessing this funding when available.
- Governor Ron DeSantis has activated the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by DEO, will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- VISIT FLORIDA is wholly focused on providing health and safety information to travelers and Floridians. This includes the activation of Florida Now, which includes the latest updates from state emergency response professionals hosted on VisitFlorida.com.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19
- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue is advising child support customers who are scheduled for court hearings related to their child support cases to check with the local courts where the hearings are scheduled in case the courts have new requirements, such as appearing telephonically.
- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

AMERICAN OVERSIGHT

OFFICE OF INSURANCE REGULATION

- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- Florida Department of Law Enforcement (FDLE) is working with state and local agencies and the Florida National Guard to set up testing collection sites in multiple locations across Florida.
- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice has sent a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has instituted additional screening measures for outside vendors who work within juvenile facilities and non-essential travel of staff members has been stopped. Visitors are limited to business-related visitors only (i.e., vendors, no personal visitors, no volunteers at this time). The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted. Clinical personnel, however, are still permitted to visit youth for treatment purposes, and attorneys are still permitted to conduct legal visits with youth.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- Governor DeSantis directed all agencies to suspend for 30 days licensing and registration renewal requirements for existing processional licenses (e.g. realtors).
- Governor DeSantis has directed the Department of Business and Professional Regulation Secretary Halsey Beshears, in coordination with the Florida Department of Health, to issue social distancing guidance to restaurants and bars.
- Governor DeSantis sent a letter to the federal Small Business Administration to turn on the SBA loan program for small businesses.
- The Florida Department of Business and Professional Regulation (DBPR) has suspended all official business visits, including inspections, that involve licenses located at a facility covered under the visitation restrictions implemented pursuant to FDEM Emergency Order 20-002.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.
- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- All State Parks have adjusted their operating hours to 8 a.m. to 5 p.m. daily. The Department continues to monitor new developments closely and will make further adjustments as necessary based on any new Department of Health or CDC guidance received to ensure protection of our staff and visitors. For the latest information on park operating hours and operational status, please visit floridastateparks.org.
- Currently all Florida State Parks and campgrounds, and Office of Resilience and Coastal Protection facilities (aquatic preserves and National Estuarine Research Reserves), remain open to the public. However, in an abundance of caution and consistent with Center for Disease Control and Prevention (CDC) guidance, DEP announced on March 13 that it is cancelling all events and activities at these facilities effective immediately and until further notice.
    - This includes DEP events and includes activities such as tours and visitor centers that involve large groups and/or or people in close proximity to others. People with questions regarding any privately scheduled event should check with the host of the event or the facility directly. For the latest closure and cancellation information, please visit floridastateparks.org.
- If your travel plans have changed and you need to modify camping or cabin reservations, please visit ReserveAmerica.com, call Reserve America at 1-800-326-3521 or TDD 888-433-0287 or text to 904-204-3216.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE, Fla. — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the State Emergency Operations Center, Governor DeSantis announced the following:

- Governor DeSantis announced he is going to supplement federal Small Business Administration (SBA) loans. The Governor activated the Florida Small Business Emergency Loan Program. Up to $50 million has been allocated for the program.
- Governor Ron DeSantis directed the Department of Revenue to provide flexibility on the deadlines of taxes due such as corporate income tax and sales tax to assist businesses that are adversely impacted from COVID-19 mitigation measures.
- Floridians throughout the state are lending a hand to stop the spread of COVID-19:
  - Members of the Florida House of Representatives have been activated to their National Guard units**,**
  - The Players Championship donated thousands of pounds of food to Feeding Northeast Florida**,**
  - Miami-Dade County school administrators are handing out computers and mobile devices, and
  - Comcast agreed to provide free WiFi for the next 60 days to kids who do not have it.

- The Miami Dolphins, Jacksonville Jaguars and the Orange County Convention Center have agreed to open their parking lots to stage supplies and locate testing sites.
- Restaurants throughout the state including Jimmy John's in Tallahassee and Toasted Restaurant in Orange County are providing children with free lunch throughout the week.
- Drive through testing sites are expected to open, throughout the state, in addition to the first proposed state site at Memorial Healthcare System in Broward. So far, sites are being developed in in Myers, Pensacola, West Palm Beach and Tallahassee.
- The Floridians who were at held at the Dobbins Air Reserve Base are on their way back to Florida; 15 Floridians have elected to stay at the base to care for their family members.
- On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

More Information on COVID-19

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

AMERICAN OVERSIGHT

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

Actions the state has taken to prepare for and respond to COVID-19:

DEPARTMENT OF HEALTH

- At the direction of Governor DeSantis, State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
- Established an Incident Management Team to coordinate response operations.
- Defined a high-level phased response strategy for COVID-19.
- Activated a dedicated incident command post for on-site response activities.
- Conducted three public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined the calls.
- Established a public call center for questions regarding COVID-19. The call center launched Monday, March 2.
- Developed and distributed COVID-19 presentation materials to County Health Departments (CHD) for use at community meetings.
- Activated the Joint Information Center in coordination with the Division of Emergency Management.
- Developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- Established mechanisms for monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- Distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUI) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- Approved and disseminated an updated Clinician Screening Tool for identifying COVID-19 PUIs.
- Distributed a health care provider letter regarding enhanced surveillance and preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- Implemented testing at all three State Public Health Laboratories.
- Distributed updated CDC guidance for schools to CHDs and the Department of Education.
- Distributed updated laboratory guidance regarding implementation of testing at State Public Health Laboratories.
- Developing a laboratory surge plan.
- Developing a clinician-level briefing for medical audiences.
- Identifying and monitoring close contacts of presumptive cases. Any close contacts with symptoms will be tested.
- Implemented private lab testing.
- Developed and disseminated pandemic planning guidance.
- Advised CHDs and HCCs to retain expired personal protective equipment until further until further notice.
- Continued development of public information resources.
- Developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- At the direction of Governor DeSantis hiring additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.

AGENCY FOR HEALTH CARE ADMINISTRATION

- AHCA distributed a provider alert to licensed health care providers regarding the Division of Emergency Management's new Emergency Order tightening visitation restrictions at residential and long-term care facilities.
- AHCA, in coordination with the DEM and the Department, is hosting ongoing statewide calls for nursing homes, assisted living facilities, intermediate care facilities, the Agency for Persons with Disabilities, group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting visitors and providing updates.
- AHCA, in coordination with DEM and the Department, is hosting ongoing statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.
- After previously opening an event on the Emergency Status System (ESS) for hospitals to enter census information, emergency room status updates and isolation beds, AHCA expanded the ESS event to track nursing homes and assisted living facility bed capacity, effective March 15.
- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from the Centers for Medicare and Medicaid Services (CMS) related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.
- AHCA submitted requests to CMS for flexibility for Florida's program under the federal declaration of a state of emergency.

AGENCY FOR PERSONS WITH DISABILITIES

- The agency's three state-run centers in Marianna, Gainesville and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors coming into APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders and APD employees.

AMERICAN OVERSIGHT

DEPARTMENT OF ELDER AFFAIRS

- The Department of Elder Affairs (DOEA), in coordination with the Administration for Community Living (ACL), facilitated a virtual Town Hall meeting at the request of Hallandale Beach Mayor Joy Cooper. More than 2,700 seniors were online for the meeting. Charlotte Mather Taylor, Executive Director of the Aging and Disability Resource Center (ADRC) of Broward County, led the discussion with participation from ACL Representative Constantino Miskos, Chen Senior Medical Center, and representatives from Emergency Medical Services. Their primary topics of conversation centered on the work being done, specifically by the Area Agency on Aging, to continue to provide people resources and services to maximize support during COVID-19.
- Through Departmental Leadership and the Area Agency on Aging contract managers, DOEA provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the safe delivery of home-delivered meals to prevent spread of respiratory infection.
- DOEA continues to provide updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, they are provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.
- "The Vision 2020: Looking Towards Your Age-Friendly Future Tour" to five communities across Florida originally planned for April 20th - April 24th and co-hosted by the Department and AARP has been postponed to protect the health and wellness of seniors, volunteers and staff.
- All Serving Health Insurance Needs of Elders (SHINE) participation in scheduled outreach events, presentations, and in-person SHINE/Senior Medicare Patrol (SMP) counseling has been suspended until further notice. SHINE volunteers and staff will continue to provide counseling services, but the services will be conducted over-the-phone with future considerations for the use of webinars and Facebook LIVE.
- DOEA Secretary Prudom held a conference call with The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors to discuss the suspension of face-to-face assessments. CARES assessors will provide reviews through phone or tele-technology to reduce client/staff exposure and reduce spread.
- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the provision on completing assessments for multiple program types, specifically for clients who have chosen to self-isolate.
- DOEA provided updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers, and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families' (DCF) Office of Child Welfare is sending regular communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). An FAQ document for providers was also posted prominently on DCF's Child Care webpage.
- DCF's Office of Child Welfare is disseminating a survey to licensed child care providers to assess closures throughout the state. Currently, the decision to close is at the discretion of each individual facility.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF is leading status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday.
- DCF General Services staff throughout the state are working with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and are ordering more as needed.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility. At this time, there are no cases of patients or facility staff testing positive for COVID-19.
- DCF's Office of Economic Self-Sufficiency is communicating with DEO regarding work requirements and CareerSource operations and availability.
- DCF's Office of Economic Self-Sufficiency implemented screening procedures, including a set of questions that must be asked prior to entry, at all economic self-sufficiency storefronts.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- All FDVA and VA facilities remain fully operational.

DEPARTMENT OF MILITARY AFFAIRS

- There have been over 200 Florida National Guardsmen placed on state active duty in support of COVID-19.
- The Florida National Guard is activating all of their medical professionals (Army Combat medic specialists and Air Force medical technicians) to support Florida Department of Health's drive-through screening operations. Guardsmen have reported in and formed Task Force Medical already.
- The Florida National Guard has activated soldiers to augment the State Logistics Readiness Center in Central Florida.

VOLUNTEER FLORIDA

- Volunteer Florida is working with state counterparts and FEMA to develop volunteer plans.

AMERICAN OVERSIGHT

Volunteer Florida's National Service Department has discussed using AmeriCorps members in food banks as feeding needs increase.
- Volunteer Florida is having conversations with Mass Care on the anticipated needs of volunteers. Together, we are working on a plan for volunteers with volunteer safety guidelines to ensure that we are protecting our service providers (volunteers and clients).
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The State University System will continue to evaluate the effectiveness of remote learning and the need to teach remotely in order to protect our students and the university community.
- The State University System will continue to work with the Florida Department of Health and the Emergency Operations Center to determine if the initial two weeks of remote learning is sufficient.
- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING - While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- All state universities have implemented campus-wide critical incident or emergency management teams that are meeting regularly to prepare for the impacts of the COVID-19 virus.
- All universities are preparing to transition to remote instructional delivery for a two-week period during March and early April, depending on each institution's Spring Break, and are informing students not to return to campus during this period.
- The Board of Governors will be conducting its March meeting via conference call and will not have a face-to-face meeting at USF as was originally scheduled.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
    - Inmates will continue to have access to mail, email, phone calls and video visitation.
    - Legal visits will not be impacted.
    - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:

    - Have traveled internationally or on a cruise within the last 14 days.
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath.
    - Have had contact with someone who has been or is under investigation for COVID-19.
- All non-critical inmate transfers have been suspended.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Division of Elections offers a toll-free Voter Assistance Hotline, 1.866.308.6739 (in English and Español), available Monday - Friday, 8:00 am - 5:00 pm

AMERICAN OVERSIGHT

ET, with extended hours during statewide elections. For hearing or speech impaired, please contact the Division using the Florida Relay Service, 1.800.955.8771 (TDD), 1.800.955.8770 (Voice), or 1.877.955.8773 (Español). Voters can also contact their local Supervisor of Elections

- The Florida Department of State is in constant communication with Supervisors of Elections regarding Tuesday's Presidential Preference Primary Election and is providing guidance and information to voters through traditional and social media messages:
- The Florida Department of State been informing voters of the various options Florida provides in order to cast their ballot ahead of Tuesday's election and on Election Day. Further, we have assured Florida's voters that otherwise healthy poll workers can work on Election Day. DOS has notified voters who have been ordered to self-isolate or who are experiencing symptoms of COVID-19 and who have not yet voted, of the option to have someone pick up their ballot for them.
    - As with any election, before a voter goes to the polls on Tuesday, they should check with their local Supervisor of Elections. Now more than ever, it is critical that we continue to provide voters with clear and consistent information regarding polling place locations. The most current and up-to-date polling place information (per 71, Florida Statutes) is going to be on the voter's respective **Supervisor of Elections website**.
    - The Division of Elections website provides prominent placement of the Voter Information Lookup where voters can check their voter status and find their polling place information. This polling place information is linked to the voters' respective Supervisor of Elections database. The most current and up-to-date polling place information (per 71, Florida Statutes) is going to be from the voter's respective **Supervisor of Elections.**
- The Florida Department of State continues to support and work with local Supervisors of Elections and Emergency Management officials to ensure the Supervisors needs are met regarding sanitization and cleaning needs for the Presidential Preference Primary Election on Tuesday.

FLORIDA DEPARTMENT OF TRANSPORTATION

- FDOT is coordinating with other state and local agencies to help ensure mobility around the temporary testing site in Broward County. Once the site is open, FDOT plans to publicize testing site information on highway advisory radio.
- FDOT completed a request to provide necessary supplies to harbor pilots working at seaports.
- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials have been posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials have been posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- At the direction of Governor Ron DeSantis, Florida Department of Highway Safety and Motor Vehicles Executive Director Terry L. Rhodes has issued an Emergency Order extending all Florida driver licenses and identification cards that will expire in the next 30 days.
- Pursuant to Executive Order 20-52, FLHSMV Executive Director Rhodes waived commercial truck hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor DeSantis has requested the federal Small Business Administration (SBA) make the Economic Injury Disaster Loan program available for Florida's small businesses impacted by COVID-19. The Florida Department of Economic Opportunity (DEO) stands ready to assist Florida's small businesses in accessing this funding when available.
- Governor Ron DeSantis has activated the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by DEO, will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- VISIT FLORIDA is wholly focused on providing health and safety information to travelers and Floridians. This includes the activation of Florida Now, which includes the latest updates from state emergency response professionals hosted on VisitFlorida.com.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19
- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue is advising child support customers who are scheduled for court hearings related to their child support cases to check with the local courts where the hearings are scheduled in case the courts have new requirements, such as appearing telephonically.
- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

AMERICAN OVERSIGHT

OFFICE OF INSURANCE REGULATION

- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- Florida Department of Law Enforcement (FDLE) is working with state and local agencies and the Florida National Guard to set up testing collection sites in multiple locations across Florida.
- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice has sent a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has instituted additional screening measures for outside vendors who work within juvenile facilities and non-essential travel of staff members has been stopped. Visitors are limited to business-related visitors only (i.e., vendors, no personal visitors, no volunteers at this time). The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted. Clinical personnel, however, are still permitted to visit youth for treatment purposes, and attorneys are still permitted to conduct legal visits with youth.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- Governor DeSantis directed all agencies to suspend for 30 days licensing and registration renewal requirements for existing processional licenses (e.g. realtors).
- Governor DeSantis has directed the Department of Business and Professional Regulation Secretary Halsey Beshears, in coordination with the Florida Department of Health, to issue social distancing guidance to restaurants and bars.
- Governor DeSantis sent a letter to the federal Small Business Administration to turn on the SBA loan program for small businesses.
- The Florida Department of Business and Professional Regulation (DBPR) has suspended all official business visits, including inspections, that involve licenses located at a facility covered under the visitation restrictions implemented pursuant to FDEM Emergency Order 20-002.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.
- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- All State Parks have adjusted their operating hours to 8 a.m. to 5 p.m. daily. The Department continues to monitor new developments closely and will make further adjustments as necessary based on any new Department of Health or CDC guidance received to ensure protection of our staff and visitors. For the latest information on park operating hours and operational status, please visit floridastateparks.org.
- Currently all Florida State Parks and campgrounds, and Office of Resilience and Coastal Protection facilities (aquatic preserves and National Estuarine Research Reserves), remain open to the public. However, in an abundance of caution and consistent with Center for Disease Control and Prevention (CDC) guidance, DEP announced on March 13 that it is cancelling all events and activities at these facilities effective immediately and until further notice.
    - This includes DEP events and includes activities such as tours and visitor centers that involve large groups and/or or people in close proximity to others. People with questions regarding any privately scheduled event should check with the host of the event or the facility directly. For the latest closure and cancellation information, please visit floridastateparks.org.
- If your travel plans have changed and you need to modify camping or cabin reservations, please visit ReserveAmerica.com, call Reserve America at 1-800-326-3521 or TDD 888-433-0287 or text to 904-204-3216.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE — The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the State Emergency Operations Center, Governor DeSantis announced the following:

- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- Governor DeSantis has directed the Department of Business and Professional Regulation Secretary Halsey Beshears, in coordination with the Florida Department of Health, to issue social distancing guidance to restaurants and bars.
- Governor DeSantis sent a letter to the federal Small Business Administration to turn on the SBA loan program for small businesses.
- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.

On March 9, Governor DeSantis issued Executive Order 20-52, declaring a State of Emergency for COVID-19. By declaring a State of Emergency, Governor DeSantis is ensuring that state and local governments have the resources and flexibility they need to prepare and respond.

More Information on COVID-19

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with the Department to determine if the person should be tested for COVID-19.

AMERICAN OVERSIGHT

Actions the State has taken to prepare for and Respond to COVID-19

Yesterday, the Governor provided several additional updates on Florida's efforts to respond to COVID-19:

- Governor DeSantis requested that Health and Human Services send home the 61 Floridians that were previously aboard the Grand Princess Cruise line, home from isolation from Dobbins Air Reserve Base, Georgia.
- Governor DeSantis directed the Department of Health to hire additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.
- Governor DeSantis directed Director Moskowitz to expand his emergency order and prohibit all visitation to nursing homes, assisted living facilities, adult family-care homes, long-term care facilities and adult group homes to all visitors for the next 30 days.
- Governor DeSantis directed the Department of Highway Safety and Motor Vehicles to suspend drivers' license renewal requirements for 30 days.
- Governor DeSantis directed all agencies to suspend for 30 days licensing and registration renewal requirements for existing processional licenses (e.g. realtors).

DEPARTMENT OF HEALTH

- Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency for COVID-19.
- Governor Ron DeSantis directed the Florida Division of Emergency Management to activate to Level II to coordinate the state's response to COVID-19.
- Governor Ron DeSantis issued Executive Order 20-51 directing the State Surgeon General to declare a Public Health Emergency. The State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- The Department of Health (DOH) established an Incident Management Team to coordinate response operations.
- DOH activated a dedicated incident command post for on-site response activities.
- DOH conducted public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined these calls.
- DOH participated with the Agency for Health Care Administration (AHCA) on statewide conference calls with nursing homes, assisted living facilities and hospitals.
- DOH established a public call center for questions regarding COVID-19.
- DOH developed and distributed an updated COVID-19 presentation to CHDs for use at community meetings.
- DOH implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- DOH established mechanisms for ongoing monitoring and coordination with the CDC regarding epidemiological activities.
- The DOH distributed CDC Interim Guidance for public health personnel evaluating Persons under Investigation (PUIs) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- DOH distributed the updated Clinician Screening Tool for identifying PUIs for COVID-19 and a health care provider letter regarding Enhanced Surveillance and Preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- DOH implemented testing at all three State Public Health Laboratories.
- DOH distributed updated CDC guidance for schools to CHDs and the Department of Education.
- DOH distributed updated Laboratory Guidance regarding implementation of testing at State Public Health Laboratories.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health, working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in state and all out-of-state travel for state employees for 30 days.
- Governor DeSantis directed the Florida Division of Emergency Management and the Agency for Health Care Administration to take action to restrict access to vulnerable populations for those who may have been exposed to COVID-19. The Governor also directed the Florida Department of Corrections to suspend visitation at state prisons for 30 days.

AGENCY FOR HEALTH CARE ADMINISTRATION

- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from CMS related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.
- AHCA submitted requests to the Centers for Medicare and Medicaid Services (CMS) for flexibility for Florida's program under the federal declaration of a state of emergency.
- Secretary Mayhew participated in a call with hospitals, laboratory administrators and associations regarding hospital testing.

AGENCY FOR PERSONS WITH DISABILITIES

- The Agency for Persons with Disabilities' (APD) three state-run centers in Marianna, Gainesville, and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors to APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- The Department of Elder Affairs (DOEA), in coordination with the Administration for Community Living (ACL), facilitated a virtual Town Hall meeting at the request of Hallandale Beach Mayor Joy Cooper. More than 2,700 seniors were online for the meeting. Charlotte Mather Taylor, Executive Director of the Aging and Disability Resource Center (ADRC) of Broward County, led the discussion with participation from ACL Representative Constantino Miskos, Chen Senior Medical Center, and representatives from Emergency Medical Services. Their primary topics of conversation centered on the work being done, specifically by the Area Agency on Aging, to continue to provide people resources and services to maximize support during COVID-19.
- Through Departmental Leadership and the Area Agency on Aging contract managers, DOEA provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we

AMERICAN OVERSIGHT

provided guidance to all Executive Directors regarding the safe delivery of home-delivered meals to prevent spread of respiratory infection.
- DOEA continues to provide updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, they are provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.
- The Vision 2020: Looking Towards Your Age-Friendly Future Tour to five communities across Florida originally planned for April 20th - April 24th and co-hosted by the Department and AARP has been postponed to protect the health and wellness of seniors, volunteers and staff.
- All Serving Health Insurance Needs of Elders (SHINE) participation in scheduled outreach events, presentations, and in-person SHINE/Senior Medicare Patrol (SMP) counseling has been suspended until further notice. SHINE volunteers and staff will continue to provide counseling services, but the services will be conducted over-the-phone with future considerations for the use of webinars and Facebook LIVE.
- DOEA Secretary Prudom held a conference call with The Comprehensive Assessment and Review for Long-term Care Services (CARES) supervisors to discuss the suspension of face-to-face assessments. CARES assessors will provide reviews through phone or tele-technology to reduce client/staff exposure and reduce spread.
- Through Departmental Leadership and the Area Agency on Aging contract managers, we provided ongoing technical assistance to the entire Aging Network regarding allowable flexibilities within programs to ensure continuity of services and the safety of elders. For example, we provided guidance to all Executive Directors regarding the provision on completing assessments for multiple program types, specifically for clients who have chosen to self-isolate.
- DOEA provided updated information on current closures and possible future temporary closures of specific services at Congregate Meal Sites, Senior Centers, and Adult Day Care Centers on our website homepage and all corresponding program pages. Clients are guided to contact the specific location for alternative services, provided the Area Agency on Aging helpline, and directed to the DOH website with any additional questions on COVID-19.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families (DCF) Office of Child Welfare sent communication about COVID-19, to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare and Respond to Coronavirus Disease 2019.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- The Florida Department of Veterans' Affairs (FDVA) is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- All VA Medical Centers in Florida are implementing enhanced screening protocols at their facilities. VA Outpatient Clinics are also implementing enhanced screening protocols. Please plan to arrive at the facility well in advance of your appointment to allow additional time for the screening process.
- Veterans who are concerned they may have symptoms of Coronavirus (COVID-19) are encouraged to contact the VISN 8 Clinical Contact Center at 1-877-741-3400 (toll free). Clinical staff provide 24/7 virtual care and support, including nurse advice and triage. The service is available at no cost to veterans enrolled for care in the VA Sunshine Healthcare Network (VISN 8).
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences.
- All FDVA and VA facilities remain fully operational.

VOLUNTEER FLORIDA

- Volunteer Florida is having preliminary conversations with Mass Care on the anticipated needs of volunteers. The agency is working together to plan for volunteers and develop volunteer safety guidelines to ensure that they are protected.
- Volunteer Florida has asked all Voluntary Organizations Active in Disaster (VOAD) partners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- At this time, no Florida student has contracted COVID-19.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their

AMERICAN OVERSIGHT

students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The State University System will continue to evaluate the effectiveness of remote learning and the need to teach remotely in order to protect our students and the university community.
- The State University System will continue to work with the Florida Department of Health and the Emergency Operations Center to determine if the initial two weeks of remote learning is sufficient.
- Effective immediately, all universities will make plans to transition to remote instruction as soon as possible.
- State universities with students who have returned from spring break, which includes Florida Gulf Coast University, Florida International University, Florida Polytechnic University, and the University of Florida, should implement a process to transition to remote instruction immediately and encourage students to return home for at least 2 weeks. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- State universities with students who are currently on spring break or about to be on break should direct their students to NOT return to campus for at least 2 weeks following the conclusion of spring break. This includes students at Florida Agricultural and Mechanical University, Florida Atlantic University, Florida State University, New College of Florida, the University of North Florida, the University of Central Florida, the University of South Florida, and the University of West Florida. Each university will provide detailed information to their students, faculty, and staff at the earliest possible time regarding this transition.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- All universities will continue to provide essential services, such as dining, counseling, health services, library services, etc., potentially on a limited basis or remotely. Each university with clinical and other non-classroom based programs will communicate directly with those students.
- RESIDENTIAL HOUSING - While students are encouraged to remain off-campus, each university should develop a plan for providing residential accommodations for students who need assistance or must remain in place.
- All state universities have implemented campus-wide critical incident or emergency management teams that are meeting regularly to prepare for the impacts of the COVID-19 virus.
- All universities are preparing to transition to remote instructional delivery for a two-week period during March and early April, depending on each institution's Spring Break, and are informing students not to return to campus during this period.
- The Board of Governors will be conducting its March meeting via conference call and will not have a face-to-face meeting at USF as was originally scheduled.
- For more information visit: https://www.flbog.edu/2020/03/11/state-university-system-statement-on-covid-19/.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation schedule will be evaluated in consultation with the Department.
  - Inmates will continue to have access to mail, email, phone calls and video visitation.
  - Legal visits will not be impacted.
  - FDC has partnered with vendors to provide some complimentary phone and video visitation services.

- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
  - Have traveled and returned from China, Iran, Italy or South Korea within the last 14 days
  - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath
  - Have had contact with someone who has been or is under investigation for COVID-19.

- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to this potential threat.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF STATE

- The Florida Department of State's museum properties are taking precautions to ensure the health of visitors amid concerns of COVID-19. As part of daily site and museum operations, The Grove Museum has increased the frequency of disinfecting regularly touched interactive surfaces such as touchscreens, display cases, and tactile panels. Additionally, Museum staff ensure that door handles, flat surfaces, kitchen equipment, shared office equipment, bathrooms, etc., are all frequently sanitized. Finally, The Grove Museum has taken measures to make all staff and volunteers aware of the steps everyone should take to help contain the spread of COVID-19 such as hand washing, self-isolation when feeling ill, following recommendations from health officials and seeking medical evaluation immediately if COVID-19 symptoms appear.

FLORIDA DEPARTMENT OF TRANSPORTATION

- At the direction of Governor Ron DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department will host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials are being posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials are being posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.

AMERICAN OVERSIGHT

- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.
- FDOT is providing hand sanitizer and posting COVID-19 educational materials at its public meetings across the state.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- Pursuant to Executive Order 20-52, FLHSMV Executive Director Rhodes waived commercial truck hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- Governor Ron DeSantis announced the activation of the Business Damage Assessment survey to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by the Florida Department of Economic Opportunity (DEO), will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is assessing and reevaluating all tourism promotion messaging, both international and domestic, and is developing long-term strategies to keep Florida top-of-mind for potential vacationers.
- VISIT FLORIDA is planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19.
- VISIT FLORIDA ceased all Florida tourism marketing in China. VISIT FLORIDA redirected the savings from China and invested this funding into a domestic campaign that launched on March 2.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida.
- VISIT FLORIDA is temporarily pausing all marketing efforts in Germany in accordance with federal travel restrictions. This is the only European country besides the United Kingdom where VISIT FLORIDA has active campaigns.
- VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

DEPARTMENT OF REVENUE

- The Department of Revenue's Child Support Program is working to reduce when customers are required to visit a local child support office and is providing new connect/customer service options.
- Efforts include rescheduling genetic testing sample collection appointments and postponing other types of appointments. The Program will soon be implementing the ability for parents to enter into written agreements over the phone, and the Program will be providing new fax, email and form drop-off processes.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- GTA is closely monitoring any future guidance issued by the Internal Revenue Service for potential corporate income tax due date extensions.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in our public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- The Office of Insurance Regulation (OIR) Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01M to all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and Department of Health information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has activated its incident management team and has met to review disaster response procedures.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to our juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice is in the process of sending a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has sent a notice to the vendors, guests, volunteers and business partners that come into our juvenile detention centers and residential commitment programs asking that they limit visiting any of these facilities if they are exhibiting flu-like symptoms or have traveled outside of the U.S., including cruise ship travel. The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- The Florida Department of Business and Professional Regulation (DBPR) is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- Currently all Florida State Parks and campgrounds, and Office of Resilience and Coastal Protection facilities (aquatic preserves and National Estuarine Research Reserves), remain open to the public. However, in an abundance of caution and consistent with Center for Disease Control and Prevention guidance, DEP announced on March 13 that it is cancelling all events and activities at these facilities effective immediately and until further notice.
    - This includes DEP events and includes activities such as tours and visitor centers that involve large groups and/or or people in close proximity to others. People with questions regarding any privately scheduled event should check with the host of the event or the facility directly. For the latest closure and cancellation information, please visit floridastateparks.org.
- If your travel plans have changed and you need to modify camping or cabin reservations, please visit ReserveAmerica.com, call Reserve America at 1-800-326-3521 or TDD 888-433-0287 or text to 904-204-3216.

The State of Florida Issues Updates on COVID-19

TALLAHASSEE, Fla. - The State of Florida is responding to COVID-19. In an effort to keep Florida residents and visitors safe and aware regarding the status of the virus, the Florida Department of Health will issue this update every day, seven days per week.

Governor Ron DeSantis is in constant communication with Florida Division of Emergency Management Director Jared Moskowitz and State Surgeon General Dr. Scott Rivkees as the State of Florida continues to monitor and respond to the threat of COVID-19.

Today, in a briefing at the Florida Emergency Operations Center, Governor DeSantis announced the following:

- One additional person has died in Clay County.
- Earlier this week, the state received news that an ALF resident who passed away had tested positive for COVID-19. The state then learned that two additional residents in the same facility passed away. Those individuals tested negative for COVID-19.
- Since February 22, FDOH labs in Miami, Jacksonville, and Tampa have tested more than 1,600 people.
- During the week of March 8, private labs began processing COVID-19 tests. Since then, more than 50 private labs have completed more than 2,050 tests.
- The Florida National Guard is assembling a drive-through testing facility at Broward Memorial Healthcare System.
- To support communities responding to COVID-19, Governor DeSantis has directed FDEM Director Jared Moskowitz to expedite the delivery of more than $170 million in Hurricane Irma reimbursements to cities, counties and hospital districts that have now reached the 50-percent auditing threshold to receive funds.
- To support the volume of calls to the COVID-19 call center and the reemployment assistance call center, Governor DeSantis directed State Surgeon General Dr. Rivkees and DEO Director Ken Lawson to expand the call-handling capacity of those call centers.

More Information on COVID-19

To find the most up-to-date information and guidance on COVID-19, please visit the Department of Health's dedicated COVID-19 webpage. For information and advisories from the Centers for Disease Control (CDC), please visit the CDC COVID-19 website. For more information about current travel advisories issued by the U.S. Department of State, please visit the travel advisory website.

For any other questions related to COVID-19 in Florida, please contact the Department's dedicated COVID-19 Call Center by calling **(866) 779-6121. The Call Center is available 24 hours per day**. Inquiries may also be emailed to **COVID-19@flhealth.gov.**

What you Should Know

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

Symptoms of COVID-19 are fever, cough and shortness of breath. Symptoms may appear in as few as two days or as many as 14 days following exposure. Most people recover from COVID-19 without needing special treatment. The elderly and those with underlying medical problems like high blood pressure, heart problems and diabetes are more likely to develop serious illness.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The Department recommends everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and
- Cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe.

The CDC does not recommend that asymptomatic, healthy people wear a facemask to protect themselves from respiratory diseases, including COVID-19. Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
A person that experiences a fever and symptoms of respiratory illness, such as fever, cough or shortness of breath, within 14 days after travel from any other destination with community transmission should call ahead to their health care provider and local CHD and mention their recent travel or close contact.

If a person has had close contact with someone showing these symptoms who has recently traveled from this area or been in contact with a person with laboratory-confirmed COVID-19, he or she should call ahead to a health care professional and the CHD. The health care provider will work with

AMERICAN OVERSIGHT

the Department to determine if the person should be tested for COVID-19.

Actions the state has taken to prepare for and respond to COVID-19:

DEPARTMENT OF HEALTH

- At the direction of Governor DeSantis, State Surgeon General Dr. Scott Rivkees declared a Public Health Emergency for COVID-19 in Florida.
- Governor DeSantis announced that the State ordered an additional 2,500 test kits to supplement the adequate resources already available to test for COVID-19. These additional test kits will enable the Department of Health (DOH), working with Florida health care providers, to test up to an additional 625,000 individuals. The Governor also suspended non-essential in-state and all out-of-state travel for state employees for 30 days.
- DOH established an Incident Management Team to coordinate response operations.
- DOH defined a high-level phased response strategy for COVID-19.
- DOH activated a dedicated incident command post for on-site response activities.
- DOH conducted three public health and health care stakeholder conference calls to provide statewide updates on the current outbreak situation, response actions and guidance for pandemic planning. Over five hundred participants joined the calls.
- DOH established a public call center for questions regarding COVID-19. The call center launched Monday, March 2.
- DOH developed and distributed COVID-19 presentation materials to County Health Departments (CHD) for use at community meetings.
- DOH activated the Joint Information Center in coordination with the Division of Emergency Management.
- DOH developed and implemented protocols for investigation, surveillance and monitoring for COVID-19 to rapidly detect and contain cases.
- DOH established mechanisms for monitoring and coordination with the Centers for Disease Control and Prevention (CDC) regarding epidemiological activities.
- DOH distributed CDC Interim Guidance for public health personnel evaluating Persons Under Investigation (PUI) and asymptomatic close contacts of confirmed cases at their home or non-home residential settings to CHDs.
- DOH approved and disseminated an updated Clinician Screening Tool for identifying COVID-19 PUIs.
- DOH distributed a health care provider letter regarding enhanced surveillance and preparedness for COVID-19 to associations, licensed providers, Health Care Coalitions and CHDs.
- DOH implemented testing at all three State Public Health Laboratories.
- DOH distributed updated CDC guidance for schools to CHDs and the Department of Education.
- DOH distributed updated laboratory guidance regarding implementation of testing at State Public Health Laboratories.
- DOH developing a laboratory surge plan.
- DOH developing a clinician-level briefing for medical audiences.
- DOH identifying and monitoring close contacts of presumptive cases. Any close contacts with symptoms will be tested.
- DOH implemented private lab testing.
- DOH developed and disseminated pandemic planning guidance.
- DOH advised CHDs and HCCs to retain expired personal protective equipment until further until further notice.
- DOH continued development of public information resources.
- DOH developing infographics for first responders (fire, law enforcement and EMS) regarding infection control and personal protection for COVID-19.
- At the Governor's direction, a public-private partnership has been put in place between Memorial Healthcare in Broward and the National Guard to set up a mobile testing unit.
- At the direction of Governor DeSantis hiring additional epidemiologists from university health programs to help with workload.
- Governor DeSantis directed the Agency for Health Care Administration (AHCA) to extend all existing nursing home and assisted living facility licenses for 90 days to remove distraction from patient care.

THE DIVISION OF EMERGENCY MANAGEMENT

- Yesterday, Governor DeSantis and DEM Director Jared Moskowitz announced that Florida is continuing to order supplies and personal protective equipment in an effort to mitigate and contain the spread of COVID-19 in the state.
- After conducting a thorough assessment of needs, Director Moskowitz has requested the following supplies through Direct Federal Assistance. Supplies are being delivered on a rolling basis, and inventory is being distributed throughout the state 24 hours a day.
  - 5 mobile intensive care units
  - 5,000 ventilators
  - 5,000 hospital beds
  - 50,000 two oz. bottles of hand sanitizer
  - 250,000 coveralls
  - 500,000 gloves
  - 500,000 gowns
  - 500,000 collection kits
  - 100,000 16 oz. bottles of hand sanitizers
  - 150,000 Personal Protective Equipment kits, including coveralls, gowns, and goggles
  - 2 million N95 face masks
- Director Moskowitz is working with the federal government to determine if there is capacity to add US Navy Mercy-Class ships at Florida ports.
- Three field hospitals are being deployed.
- Mobile COVID-19 testing is also being implemented.

AGENCY FOR HEALTH CARE ADMINISTRATION

- Secretary Mayhew is working directly with hospitals and large health systems to identify potential vacant wings or buildings to provide additional hospital inpatient capacity should it become necessary.
- On March 16, Florida became the first state to receive CMS approval of its 1135 Medicaid Waiver giving AHCA more flexibility for its COVID-19 response efforts. This federal action lifts Medicaid prior authorization requirements for critical health care services and allows for expedited provider enrollment.
- AHCA distributed a provider alert to licensed health care providers regarding the Division of Emergency Management's new Emergency Order tightening visitation restrictions at residential and long-term care facilities.
- AHCA, in coordination with the DEM and the Department, is hosting ongoing statewide calls for nursing homes, assisted living facilities, intermediate care facilities, the Agency for Persons with Disabilities, group homes, and adult family care homes in conjunction with the Florida Health Care Association. Secretary Mayhew and Surgeon General Rivkees are continuing to address critical issues impacting these providers such as restricting visitors and providing updates.
- AHCA, in coordination with DEM and the Department, is hosting ongoing statewide calls for hospitals in conjunction with the Florida Hospital Association. Secretary Mayhew and Surgeon General Rivkees to provide the most up-to-date information to hospital partners and residential facilitates caring for aging and vulnerable populations.

AMERICAN OVERSIGHT

- After previously opening an event on the Emergency Status System (ESS) for hospitals to enter census information, emergency room status updates and isolation beds, AHCA expanded the ESS event to track nursing homes and assisted living facility bed capacity, effective March 15.
- The Agency for Health Care Administration (AHCA) will be granting a 90-day extension to all licenses for health care providers and regulated facilities.
- AHCA is distributing information regarding regulatory flexibilities created by waivers from the Centers for Medicare and Medicaid Services (CMS) related to skilled nursing facilities, critical access hospitals, home health agencies, durable medical equipment, provider enrollment, etc.
- AHCA distributed information to health care providers regarding **guidance and clarifications on DEM's Emergency Order No. 20-006.**
- AHCA participated in a collaborative call with the Florida Health Care Association, Florida Hospital Association and LeadingAge Florida to discuss patient transfer arrangements between health care facilities such as nursing homes and hospitals.
- The Florida Medicaid Program announced coverage of commercial testing for COVID-19 for dates of service back to February 4.

AGENCY FOR PERSONS WITH DISABILITIES

- APD and AHCA hosted a Provider conference call to share information on modifications to some existing policies and practices during this state of emergency due to COVID -19. APD and AHCA are researching responses to additional questions raised during the call. The answers will be posted on apdcares.org.
- APD is implementing telework for employees throughout the state as directed by Governor DeSantis to reduce possible exposure to COVID-19.
- The agency's three state-run centers in Marianna, Gainesville, and Chattahoochee, as well as APD-licensed group homes, are restricting visitors in compliance with the Executive Order to protect the health and safety of our customers.
- APD Adult Day Training programs across the state are screening visitors for possible exposure to COVID-19 using a visitor questionnaire. The questionnaire is also being used to screen visitors coming into APD Regional Offices.
- APD continues to provide an up-to-date status on COVID-19, best practices, preventative tips, and CDC guidance, in addition to CMS guidance, to APD providers, Waiver Support Coordinators, Stakeholders, and APD employees.

DEPARTMENT OF ELDER AFFAIRS

- Secretary Prudom participated in a conference call with the Administration on Community Living (ACL) and ten other State Units on Aging. He presented an update on what Florida is doing regarding issues and challenges during COVID-19.
- DOEA released an updated **interactive** Elder Needs Index (ENI). *Best opened in Google Chrome.*
- DOEA's Long-Term Care Ombudsman Program (LTCOP) hosted a conference call with regional ombudsman managers to discuss strategies for advocacy during COVID-19 environment.
- LTCOP participated in conference calls with National Association of State Ombudsman (NASOP), Florida Healthcare Association (FHCA), and Consumer Voice with Administration for Community Living (ACL). All concerning COVID-19.
- DOEA participated on a statewide call coordinated by the Florida Association of Service Providers (FASP) statewide regarding COVID-19 issues, trends, and concerns.
- DOEA participated in an Aging and Disability Resource Center (ADRC) workgroup conference call to discuss specific issues related to COVID-19 and statewide waiver requests.
- DOEA coordinated planning with the Agency for Health Care Administration (AHCA) to discuss Adult Day Care Centers and the provision of meals should they close.
- DOEA participated on the United States Department of Agriculture's (USDA) southeast region call regarding COVID-19 as it relates Adult Care Food Programs.

DEPARTMENT OF CHILDREN AND FAMILIES

- The Department of Children and Families' (DCF) Office of Child Welfare is sending regular communication about COVID-19 specifically to licensed child care providers, directing them to follow the CDC's Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19). An FAQ document for providers was also posted prominently on DCF's Child Care webpage.
- DCF's Office of Child Welfare is disseminating a survey to licensed child care providers to assess closures throughout the state. Currently, the decision to close is at the discretion of each individual facility.
- DCF Secretary Chad Poppell sent thorough communication to all DCF staff, contracted partners, and licensed facilities (including child care providers) about COVID-19, including precautionary measures (as outlined by the CDC) and temporary policy updates.
- DCF is working with AHCA, DOEA, and APD to compile and develop guidance for agency staff and stakeholders who work directly with Florida's elderly population and have a higher risk of being exposed to COVID-19.
- DCF is leading status update calls with both internal leadership and leadership from external contracted partners. For the time being, these calls will take place twice weekly, every Tuesday and Friday.
- DCF General Services staff throughout the state are working with lessors and janitorial contractors to increase sanitizing measures in office buildings, especially restrooms and common areas. They also began taking inventory of sanitizing supplies (disinfecting wipes, Lysol spray, hand-sanitizer, etc.) and are ordering more as needed.
- DCF established strategies for COVID-19 prevention at all three state mental health treatment facilities, as well as the South Florida mental health facilities run by Wellpath Recovery Solutions, a contracted partner. They are reporting daily updates to ensure compliance with virus prevention and monitor potential outbreaks.
- DCF has established a visitation protocol for all state-owned and contracted mental health treatment facilities, as well as vendors and patient families, requiring all outside parties to complete a Visitors Viral Symptoms Screening prior to entering a facility. At this time, there are no cases of patients or facility staff testing positive for COVID-19.
- DCF's Office of Economic Self-Sufficiency is communicating with DEO regarding work requirements and CareerSource operations and availability.
- DCF's Office of Economic Self-Sufficiency implemented screening procedures, including a set of questions that must be asked prior to entry, at all economic self-sufficiency storefronts.

FLORIDA DEPARTMENT OF VETERANS' AFFAIRS

- Effective March 11, 2020, FDVA is restricting visitor access to its State Veterans' Nursing Homes and Domiciliary until further notice, with the exception of essential visitors, such as family members of those residents undergoing end-of-life care. In addition, we are temporarily suspending admissions in our network of state veterans' homes. Thank you for your understanding.
- The U.S. Department of Veterans Affairs (VA) has also temporarily restricted access to their nursing and community living center facilities to only essential visitors until further notice.
- The VA Sunshine Healthcare Network (VISN 8) is taking additional steps to slow the spread of COVID-19 to protect healthcare system's capabilities, healthcare workers and veterans. Facilities within the VISN 8 Network include the Bay Pines VA Healthcare System, James A. Haley Veterans' Hospital and Clinics, Miami VA Healthcare System, North Florida/South Georgia Veterans Health System, Orlando VA Healthcare System, VA Caribbean Healthcare System, and the West Palm Beach VA Medical Center.
    - These actions include:
        - VISN 8 facilities are transitioning to virtual appointments to the fullest extent to allow veterans to stay at home, avoid exposure to

AMERICAN OVERSIGHT

others and reduce their risk; Veterans with appointments will be contacted several days beforehand to discuss virtual appointment options available to them.
    - Veterans can help with this transition by visiting the VA Video On-Demand webpage for more information: https://mobile.va.gov/content/getting-started-0.
    - Veterans enrolled for care within VISN 8 can continue to use the VISN 8 Clinical Contact Center for 24/7 virtual urgent care by calling 1-877-741-3400 (toll free) or by using the VA Health Chat App. Veterans who are concerned they may have symptoms of Coronavirus, flu or cold should contact the center first before coming to a VA facility.
    - VISN 8 facilities will cease non-urgent elective procedures. Any impacted veterans will be contacted directly by their health care team to reschedule. Urgent and emergent elective procedures will continue during this period.
    - VISN 8 facilities are further restricting visitations. Only one visitor will be permitted per veteran if required to provide assistance moving a patient to and from an appointment, providing support to an inpatient in a palliative or hospice care unit, or for veterans who have major procedures. Visitors who screen positive will not be granted access to the medical centers.
- These newly announced actions do not supersede or replace activities announced by VISN 8 last week. All VISN 8 facilities continue to use mandatory and enhanced screening protocols for all patients, employees and visitors, have restricted visitations to certain units, and have taken many other actions to mitigate the infection and spread of the virus.
- All VA Vet Centers in Florida, which provide readjustment counseling and outreach services to veterans and families, are open and implementing enhanced screening protocols. At this time, veterans may appear in person or opt in advance for an optional phone consultation.
- Currently, all U.S. Department of Veterans Affairs National Cemeteries are open for burial and visitation by the public. Florida has nine National Cemeteries. To schedule a burial, please call 800-535-1117, option 1. In light of concerns regarding COVID-19, some families may prefer to proceed with direct interment of their loved ones and postpone the formal committal services to a later date. Cemetery administrators will work to accommodate these preferences. In addition, cemetery personnel will be discouraged from handshaking and any unnecessary physical contact to minimize the potential transmission of germs and viruses until the pandemic conditions are under control.
- Suspension of VA Travel Board Hearings - The Board of Veterans' Appeals (U.S. Department of Veterans Affairs) is suspending Travel Boards until May 1, 2020, due to COVID-19 response efforts. The Board will work with veterans and veteran service organizations and representatives to continue video hearings and provide virtual hearings where possible.
- All FDVA and VA facilities remain fully operational.

DEPARTMENT OF MILITARY AFFAIRS

- There have been 689 Florida National Guardsmen activated in support of COVID-19.
- The Florida National Guard is activating medical professionals (Army Combat Medic Specialists and Air Force Medical Technicians) in support of the Florida Department of Health's (DOH) Drive-Through Screening operations. The Guardsmen have reported in and formed Task Force Medical.
- The Florida National Guard has activated Guardsmen to augment the State Logistics Readiness Center, the State's Logistics Branch, as well as facilitate state wide logistics needs of the Florida National Guard formations on mission.
- The Florida National Guard has activated Guardsmen to augment the State Emergency Operations Center and local emergency management offices across the state.

VOLUNTEER FLORIDA

- Volunteer Florida is encouraging volunteers to screen themselves for COVID-19 (per CDC and Florida Department of Health guidelines) before serving.
- Volunteer Florida is pushing out VOAD organizational guidance to ESF-15 partners.
- Volunteer Florida is working with state counterparts and FEMA to develop volunteer plans.
- Volunteer Florida's National Service Department has discussed using AmeriCorps members in food banks as feeding needs increase.
- Volunteer Florida continues to work with Mass Care on the anticipated needs of volunteers.
- Volunteer Florida has asked all VOAD partners to review their continuity of operations so that there is no service delivery disruption.

FLORIDA DEPARTMENT OF EDUCATION

- Commissioner of the Florida Department of Education (FDOE) Richard Corcoran provided strong recommendations for extending spring break following Centers for Disease Control and Prevention (CDC) issuing guidance specific to COVID-19 in Florida. As all Florida school districts and public charter schools have different schedules, please click here to see the recommended spring break changes for each district. In addition, the department also announced that the start of state testing will be delayed by a minimum of two weeks. To stay up to date on school closure information, visit: org/em-response.
- FDOE sent updated guidance to school districts and superintendents ahead of spring break. To view that memo, visit: fldoe.org/em-response.
- In an effort to be proactive, and only as a precautionary measure if COVID-19 evolves in Florida, Florida Virtual School (FLVS) has partnered with the Florida Department of Education to offer all school districts student support and teacher professional development tailored to the online learning environment. The Florida Department of Education in partnership with FLVS is training an additional 10,000 teachers statewide on the Virtual Teacher Training for COVID-19. Superintendents who are interested in offering their teachers the Virtual Teacher Training for COVID-19 should work with their County Virtual Principals to provide a list of teachers to FLVS through: https://www.flvs.net/FLVSTeacherTraining.
- Education Commissioner Corcoran is in constant communication with Florida Superintendents and districts to provide guidance on COVID-19 preparedness and response and will be holding weekly calls to update districts on preparation efforts.
- FDOE has sent weekly memos providing updates to school districts, superintendents, Florida Colleges, parents, teachers and stakeholders.
- FDOE launched a survey to school districts and public charter schools about their preparations, policies, and their capacity to serve their students virtually to help meet and determine any preparedness needs.

STATE UNIVERSITY SYSTEM

- The SUS has directed all state universities to continue remote instruction through the end of the spring semester.
- All students who can return home should return home.
- The SUS has directed that traditional on-campus commencement ceremonies will not be held in May. Instead, each university is directed to develop an alternate schedule or method of delivery.

FLORIDA DEPARTMENT OF CORRECTIONS

- Florida Department of Corrections (FDC) has no known or suspected cases of COVID-19 within its correctional institutions at this time.
- FDC Community Corrections officers are working with offenders on supervision to adjust reporting schedules to minimize congregating at probation offices and prevent the spread of COVID-19.
- FDC's Office of Health Services coordinates with the Department for guidance on any type of outbreak and is closely monitoring new information as it is disseminated from the Department and the CDC.
- FDC has suspended visitation at all correctional institutions statewide through April 5, 2020. The decision to reinstate the normal visitation

AMERICAN OVERSIGHT

schedule will be evaluated in consultation with the Department.
    - Inmates will continue to have access to mail, email, phone calls and video visitation.
    - Legal visits will not be impacted.
    - FDC has partnered with vendors to provide some complimentary phone and video visitation services.
- Volunteer activities within correctional institutions statewide have been suspended.
- Anyone entering a correctional institution will be screened, and entrance will be restricted if they:
    - Have traveled internationally or on a cruise within the last 14 days.
    - Have signs or symptoms of a respiratory infection such as fever, cough or shortness of breath.
    - Have had contact with someone who has been or is under investigation for COVID-19.

- All non-critical inmate transfers have been suspended.
- New commitments and intakes have been restricted.
- Outside inmate work squads have been restricted.
- FDC has a plan in place and dedicated staff members trained in the prevention and containment of infectious diseases.
- FDC initiated its Incident Command System in response to COVID-19.
- Education has been provided to staff, inmates and visitors to prevent the spread of any infectious disease, including COVID-19.
- Precautions are in place at facilities to protect inmates and staff from exposure to flu, COVID-19 or any other respiratory illness; preventative measures are being followed per CDC recommendations.

FLORIDA DEPARTMENT OF TRANSPORTATION

- FDOT coordinated with transit agencies throughout the state to ensure the safe return of the Florida residents who were quarantined in Georgia and had previously been aboard the Grand Princess voyage outside of California.
- FDOT is coordinating with other state and local agencies to help ensure mobility around the temporary testing site in Broward County. Once the site is open, FDOT plans to publicize testing site information on highway advisory radio.
- FDOT completed a request to provide necessary supplies to harbor pilots working at seaports.
- At the direction of Governor DeSantis, Florida Department of Transportation (FDOT) Secretary Kevin J. Thibault, along with Surgeon General Dr. Scott Rivkees, hosted a conference call with all Florida ports and their governing bodies as well as all public use airports to discuss Florida's ongoing response to the COVID-19 virus.
- FDOT Secretary Thibault and staff from the department continue to host weekly conference calls with all passenger seaports and public use airports to provide updates related to COVID-19.
- FDOT is monitoring temporary lane closures near hospitals and Department of Health facilities. If congestion near these facilities and lane closures occur, FDOT will remove lane restrictions to help ensure mobility within the area.
- Pursuant to Executive Order 20-52 issued by Governor DeSantis, FDOT Secretary Thibault has suspended size and weight restrictions for divisible loads on any vehicles transporting emergency equipment, services, supplies, and necessary agricultural commodities on state roads.
- COVID-19 educational materials have been posted in FDOT facilities, which include welcome centers, service plazas and rest areas across the state.
- COVID-19 materials have been posted at all FDOT work sites across the state to help educate contractors, vendors, and stakeholders.
- FDOT toll collectors have been given additional training and are required to wear gloves as well as continue with enhanced cleansing.
- SunRail has posted COVID-19 educational materials inside all trains and on all platforms, focusing on areas near entrances and bathrooms.
- SunRail trains are being cleaned and sanitized daily and SunRail staff have been provided sanitizing towelettes and encouraged to wash their hands frequently throughout the day.

FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES

- At the direction of Governor Ron DeSantis, the Florida Department of Highway Safety and Motor has issued an Emergency Order extending all Florida driver licenses and identification cards that will expire in the next 30 days.
- FLHSMV continues to encourage Floridians through social media and other channels to use convenient online options, rather than visiting an office location, to complete transactions for driver licenses, ID cards, motor vehicle or vessel registrations, and more.
- FLHSMV has been in regular communication with the Florida Tax Collectors Association as well as Tax Collectors across the state to provide the latest COVID-19 information and guidance from the Florida Department of Health and other state partners.
- Pursuant to Executive Order 20-52 issued by Governor Ron DeSantis, FLHSMV Executive Director Rhodes has waived commercial truck hours of service regulations and other related regulations so that emergency supplies, equipment, commodities and resources can be moved more quickly and efficiently throughout the state.

DEPARTMENT OF ECONOMIC OPPORTUNITY

- The Florida Department of Economic Opportunity (DEO) has created a Frequently Asked Questions document for individuals whose employment has been negatively impacted by mitigation efforts to stop the spread of COVID-19.
- Governor Ron DeSantis activated the Florida Small Business Emergency Bridge Loan Program to support small businesses impacted by COVID-19. The bridge loan program, managed by DEO, provides short-term, interest-free loans to small businesses that experienced economic injury from COVID-19. The application period is open and runs through May 8, 2020. Interested businesses should visit FloridaDisasterLoan.org for more information.
- Governor DeSantis has requested the federal Small Business Administration (SBA) make the Economic Injury Disaster Loan program available for Florida's small businesses impacted by COVID-19. DEO stands ready to assist Florida's small businesses in accessing this funding when available.
- The Business Damage Assessment survey is activated to assess the impact of COVID-19 on Florida's local business operations. The survey, managed by DEO, will evaluate businesses affected by COVID-19 and the impacts the virus has had on the local economy so actions to implement appropriate relief programs can begin. The survey can be taken online at https://floridadisaster.biz/.

VISIT FLORIDA

- VISIT FLORIDA is focused on providing health and safety information to travelers and Floridians. All media has been paused.
- VISIT FLORIDA has activated Florida Now, which includes the latest updates from state emergency response professionals hosted on VisitFlorida.com.
- VISIT FLORIDA is actively planning for future marketing campaigns to ensure that Florida's tourism industry has a strong, unified voice following COVID-19
- To protect the health and safety of the traveling public and staff, VISIT FLORIDA's four welcome centers will be closed until further notice.
- VISIT FLORIDA is tracking traveler sentiment across online platforms and social media to monitor how COVID-19 may impact travel and travel booking to Florida. VISIT FLORIDA remains in close contact with industry partners and travel organizations and is communicating all new information as it becomes available.

AMERICAN OVERSIGHT

DEPARTMENT OF REVENUE

- Department of Revenue offices in Broward and Miami-Dade counties are closed to the public beginning Wednesday, March 18. This follows precedent of the Miami-Dade State Attorney's Child Support Office. The Department is redirecting child support customers and taxpayers toward the electronic means detailed below for completing child support and general tax activities.
- The Department has added a dedicated COVID-19 webpage for child support customers at floridarevenue.com/childsupport/coronavirus. The new page provides comprehensive information for alternative options for handling many routine child support case activities without visiting a local child support office. Efforts also include rescheduling genetic testing sample collection appointments and postponing other types of appointments.
- The Department of Revenue is advising child support customers who are scheduled for court hearings related to their child support cases to check with the local courts where the hearings are scheduled in case the courts have new requirements, such as appearing telephonically.
- The Department of Revenue has established a dedicated team to address tax-related issues pertaining to COVID-19 and has created an email address, COVID19TAXHELP@floridarevenue.com, where taxpayers can send questions and concerns. The Department encourages all taxpayers to use our e-services applications to file and pay taxes or contact our call center at (850) 488-6800.
- The Department of Revenue's General Tax Administration (GTA) program is working with its tax processing vendor to ensure continuity in tax data and payment processing.
- The Department has increased messaging on preventative measures through the deployment of DOH/CDC posters, ensured hand sanitizer is available, and increased cleaning of high-traffic areas in the public areas of our service centers.

OFFICE OF INSURANCE REGULATION

- OIR has issued Informational Memorandum OIR-20-03M directing all insurers and other entities regulated by OIR to review and update their business continuity and/or continuity of operations plans. Companies are directed to immediately contact OIR if their continuity plans are activated and/or if business operations become compromised so it can work with insurers to avoid any disruption in consumer services.
- OIR Insurance Commissioner David Altmaier is actively engaged with insurers and key partners at the state and national level regarding COVID-19. Commissioner Altmaier is collaborating with other state insurance commissioners and the National Association of Insurance Commissioners to share information and resources.
- OIR has issued Informational Memorandum OIR-20-01Mto all health insurers and health maintenance organizations, directing them to:
  - Use every channel available to them to communicate with their policyholders and share official CDC and DOH information;
  - Devote resources to inform consumers of available benefits, quickly respond to inquiries, and avoid and dispel misinformation;
  - Work with public health officials to do everything possible to prepare and respond; and
  - Consider all practicable options to reduce the barriers of cost-sharing for testing and treatment of COVID-19.
- OIR has issued Informational Memorandum OIR-20-02M as a reminder to all health insurers, health maintenance organizations, and other health entities to allow for early prescription refills following the Governor's Executive Order 20-52 declaring a state of emergency in Florida.
- OIR has spoken with multiple insurers who are voluntarily waiving cost-sharing for consumers in an effort to remove barriers to testing for COVID-19.
- OIR is reaching out to insurers regarding their response to COVID-19 and working with insurers to make sure they are properly communicating to consumers.
- OIR has issued notices to all of its employees providing resources regarding COVID-19 and outlining the steps recommended by the Centers for Disease Control and Florida Department of Health to take preventative health measures.

FLORIDA DEPARTMENT OF LAW ENFORCEMENT

- Florida Department of Law Enforcement (FDLE) is working with state and local agencies and the Florida National Guard to set up testing collection sites in multiple locations across Florida.
- The Florida Department of Law Enforcement (FDLE) Regional Operations Centers are working with Regional Domestic Security Task Forces to prepare for any responses needed.
- FDLE's Office of Mutual Aid prepared and distributed a law enforcement guide on COVID-19 for law enforcement partners and state agencies and FDLE's General Counsel prepared a law enforcement guide for protocols in a quarantine.
- FDLE has distributed a COVID-19 legal guidance document to all its law enforcement partners in reference to Governor DeSantis' Executive Order and continues regular communication with them.
- FDLE Commissioner Rick Swearingen sent an email to all members outlining simple ways to prevent the spread of COVID-19 as well as links to the Florida Department of Health and CDC websites. Signs have been posted in all FDLE Regions and at Headquarters with prevention information.

FLORIDA DEPARTMENT OF JUVENILE JUSTICE

- The Florida Department of Juvenile Justice's Office of Health Services developed COVID-19 guidance for all facilities serving DJJ youth. This guidance included Center for Disease Control criteria on how to assess and care for youth who are exhibiting fever and respiratory symptoms and environmental cleaning and disinfection recommendations.
- The Florida Department of Juvenile Justice has modified screening protocols and procedures for youth taken into custody by law enforcement who are brought to juvenile assessment centers and detention screening units to now include precautionary coronavirus screening questions and protocols. This modified screening protocol was shared with law enforcement partners statewide.
- The Florida Department of Juvenile Justice has developed a visitor screening tool which is now mandatory to use inside of our juvenile detention centers and residential commitment programs to ensure both the safety of the youth and staff in these programs. The Florida Department of Juvenile Justice has sent a notice to parents and guardians of youth in programs regarding the new visitor screening requirements.
- The Florida Department of Juvenile Justice has instituted additional screening measures for outside vendors who work within juvenile facilities and non-essential travel of staff members has been stopped. Visitors are limited to business-related visitors only (i.e., vendors, no personal visitors, no volunteers at this time). The department will work with these entities on alternatives to visiting programs to ensure critical services are not interrupted. Clinical personnel, however, are still permitted to visit youth for treatment purposes, and attorneys are still permitted to conduct legal visits with youth.

FLORIDA DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

- DBPR shared information with all agency staff statewide pertaining to the declaration of a state public health emergency, state response protocols as ordered in EO 20-51, and FDOH information and resources available on the dedicated FDOH COVID-19 webpage. DBPR communication with staff has emphasized the best practices and preventive steps recommended by FDOH for impeding the spread of respiratory illnesses.
- DBPR's Emergency Coordinating Officer and State Mass Care Coordinator is supporting the initiation of FDOH's joint information center and

AMERICAN OVERSIGHT

providing assistance as requested of State Emergency Support Function 6.
- DBPR added a web banner with information on COVID-19 and link to the Florida Department of Health's dedicated COVID-19 webpage at http://www.floridahealth.gov/COVID-19.
- DBPR is incorporating informational comments on all on-site inspection reports issued to public lodging, public food service, and alcohol and tobacco license holders that will promote situational awareness of the current public health emergency and will direct parties to the FDOH COVID-19 webpage for guidance and resources related to prevention best practices. Copies of informational flyers from the FDOH COVID-19 toolkit will also be available for inspectors to distribute when interacting with managers of these premises.
- DBPR has suspended all official business visits, including inspections, that involve licenses located at a facility covered under the visitation restrictions implemented pursuant to FDEM Emergency Order 20-002.
- DBPR hosted a senior management meeting with all program directors on Monday, 03.16.2020, to discuss the latest departmental actions and preparations associated with COVID-19 in Florida.
- DBPR is providing guidance to appointed professional licensing boards related to procedural considerations and available technology options for remote, web-based or telephonic board meetings.
- DBPR issued an emergency order, EO 2020-01 to extend license renewal deadlines and renewal requirements for a period of 30 days for licenses with an existing renewal deadline occurring in the months of March or April, 2020.
- DBPR has distributed the Governor's Executive Order (EO-20-68) regarding bars, nightclubs, beaches, and restaurants to all known e-mail addresses of record for alcoholic beverage, public food service, and public lodging license holders. DBPR will continue to push information and guidance relating to the directives of EO 20-68 to impacted parties through the DBPR Emergency Information Page, social media channels, and outreach to industry and public sector partners.
- DBPR has launched a dedicated emergency information page (http://www.myfloridalicense.com/dbpr/emergency/) with direct links to the FDOH COVID-19 webpage as well as information on agency emergency orders, schedule and meeting changes for divisions and boards, and other important departmental information during this emergency.

FLORIDA DEPARTMENT OF MANAGEMENT SERVICES

- DMS Secretary Jonathan Satter issued an emergency order that waived rules to allow for state employees to use any type of accrued leave for instances related to COVID-19, including self-isolation after potential exposure, staying home with children due to child care or school closures, and time needed to take care of dependents like an elder parent. The order also waived rules to expand the ability for employees to donate leave to fellow employees.
- Governor DeSantis directed the Department of Management Services Secretary Jonathan Satter to allow state employees to donate and transfer their available leave time to other state employees to mitigate the impacts of school closures.
- The Florida Department of Management Services' (DMS) Emergency Support Function-7 (ESF-7) Logistics team continues to coordinate with the Department of Health and the Division of Emergency Management on identifying the equipment or supplies that may be necessary for a mass response to COVID-19.
- DMS' Division of Human Resource Management has provided guidance to agencies on implementing preventive actions in the workplace, reporting symptoms, using leave, utilizing health insurance benefits, and applying travel restrictions and telework policies.
- DMS' Division of State Group Insurance continues to coordinate with health plan providers to ensure that state employee health plan members receive the health benefits that can assist them and their dependents if needed.
- DMS' Division of Real Estate Development and Management (REDM) continues to provide guidance to agency facility managers across the state on steps to take to prevent workplace contamination and to pre-position environmental vendors to mobilize in the event a viricidal cleaning is needed.
- DMS' Division of Real Estate Development and Management continues to identify, purchase, and distribute additional hand sanitizing gel and cleaning supplies to state-maintained facilities.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with users and vendor of the Statewide Law Enforcement Radio System (SLERS) vendors to ensure the continuation of mission critical services if a reduction of staffing resources occurs.
- DMS' Division of State Technology-Public Safety Unit continues to coordinate with statewide public safety communications personnel on their plans to ensure emergency communications systems are not impacted by potential reductions in staffing resources.

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

- Florida State Parks remain open for recreational day use; however, all State Parks have adjusted their operating hours for day use to 8 a.m. to 5 p.m. daily. The Department continues to monitor new developments closely and will make further adjustments as necessary based on any new Department of Health or CDC guidance received to ensure protection of our staff and visitors. For the latest information on park operating hours and operational status, please visit floridastateparks.org.
- Effective March 17, DEP is cancelling all events, activities, special event reservations, pavilion rentals and camping reservations at Florida State Parks for the next 60 days. \
    - Existing overnight camping reservations that begin Wednesday, March 18, will be honored. Visitors must arrive prior to 5 p.m. on March 18, to secure their reservation. After Wednesday, all reservations moving forward will be cancelled and refunded. Beginning Friday, March 20, campgrounds and all overnight accommodations will be fully closed.
    - ReserveAmerica, the Florida State Parks partner in camping reservations, will reach out to all affected parties to refund camping reservations. ReserveAmerica can also be reached directly at 1-800-326-3521 or TDD 888-433-0287 if visitors have questions or need to modify existing reservations.

- DEP's Office of Resilience and Coastal Protection facilities will also be closing the following centers until further notice: Apalachicola National Estuarine Research Reserve, Guana Tolomato Matanzas (GTM) National Estuarine Research Reserve and Rookery Bay National Estuarine Research Reserve
- In order to implement the Governor's directive yesterday to limit crowds on public beaches to less than 10, DEP will reduce the visitor capacity at State Parks with beaches and swimming areas by at least 50 percent beginning Thursday, March 19.

FLORIDA LOTTERY

- Yesterday, the Florida Lottery began limiting public access to the nine district offices across the state to a maximum of ten people at time to follow the CDC's recommendation to avoid social gatherings of more than ten people.
- The Lottery is actively working through various options that would allow the Lottery to continue to process winner claims and pay out prizes to players without them having to physically be in at Headquarters or a district office building. This includes possibly extending the deadline players have to claim winning tickets. An extensive plan to communicate any Lottery business operations changes to players, retailers, and the public is also being prepared should these changes go into effect.
- The Lottery continues to evaluate mission critical positions that have the ability to telecommute and is preparing accordingly in an effort to keep Lottery operations running should further social distancing be needed in the future.

DEPARTMENT OF STATE

AMERICAN OVERSIGHT

- The Florida Department of State is being proactive in sharing resources from its programs and museum properties that are helpful to communities and families who have been ordered to self-isolate or who are seeking resources during the closure of school and cultural facilities. These resources range from virtual tours to online collections to helpful histories. Families are encouraged to connect with Department of State programs via social media for updates and additional content.

AMERICAN OVERSIGHT

From: The Attorney General Alliance
To: courtney.coppola@flhealth.gov
Subject: The White House Briefing Call on COVID-19
Date: Thursday, March 12, 2020 11:45:55 AM

March 12, 2020

STATE AND LOCAL BRIEFING CALL ON COVID-19

AMERICAN OVERSIGHT

State and Local Leaders,

On **Thursday, March 12, at 2:00 p.m. Eastern Time**, please join Senior Administration Officials for a briefing call on COVID-19 (coronavirus) regarding President Trump issuing a proclamation under section 212(f) of the Immigration and Nationality Act (INA) to restrict travel to the United States from foreign nationals who have recently been in certain European countries. Additional details can be found below. We will also provide an update on implementing mitigation strategies for communities with local COVID-transmission (A Framework for Mitigation: Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission).

Briefing Call Registration on 212(f) & Community Mitigation Strategies

- **Date: Today,** Thursday, March 11
- **Time:** 2:00 PM ET (please note time zone)
- **Call-In Registration**: **CLICK HERE**
- **Note:** You must RSVP to join the call. Upon successful registration, you will receive dial-in details to the email address you use to register. Note that multiple people cannot dial-in using the same registration information.

Below, please find additional information. The White House Office of Intergovernmental Affairs (WH IGA) will continue to share pertinent information as it becomes available. Please do not hesitate to reach out to our office directly if we can be of assistance.

Sincerely,
Zach

The White House Office of Intergovernmental Affairs

President Donald J. Trump Has Taken Unprecedented Steps to Respond to The Coronavirus and Protect the Health and Safety Of Americans

"Together we are putting into policy a plan to prevent, detect, treat and create a vaccine against coronavirus to save lives in America and the world. America will get it done!" – President Donald J. Trump

President Donald J. Trump signed a Presidential Proclamation, which suspends the entry of most foreign nationals who have been in certain European countries at any point during the 14 days prior to their scheduled arrival to the United States. These countries, known as the Schengen Area, include: Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, and Switzerland. This does not apply to legal permanent residents, (generally) immediate family members of U.S. citizens, and other individuals who are identified in the proclamation.

Statement from DHS Acting Secretary Chad F. Wolf: "Protecting the American people from threats to their safety is the most important job of the President of the United States. The actions President Trump is taking to deny entry to foreign nationals who have been in

AMERICAN OVERSIGHT

affected areas will keep Americans safe and save American lives. I applaud the president for making this tough but necessary decision. While these new travel restrictions will be disruptive to some travelers, this decisive action is needed to protect the American public from further exposure to the potentially deadly coronavirus. In January and February, the Administration issued similar travel restrictions on individuals who had been in China and Iran. That action proved to be effective in slowing the spread of the virus to the U.S., while public health officials prepared. In the next 48 hours, in the interest of public health, I intend to issue a supplemental Notice of Arrivals Restriction requiring U.S. passengers that have been in the Schengen Area to travel through select airports where the U.S. Government has implemented enhanced screening procedures."

RESTRICTING TRAVEL FROM IMPACTED AREAS: President Donald J. Trump is taking further action to curb the spread of the coronavirus to the United States from other countries.

- President Trump is issuing a proclamation under section 212(f) of the Immigration and Nationality Act (INA) to restrict travel to the United States from foreign nationals who have recently been in certain European countries.
    - Section 212(f) of the INA only applies to the movement of human beings, not goods or cargo.
- The restriction applies to foreign nationals who have been in the Schengen Area, 26 countries in Europe with open borders agreements, in the last 14 days.
- Those who are exempt from these restrictions, such as American citizens, will be directed to a limited number of airports where screening can take place.
- There is extensive travel back and forth between Europe that heightens the risk here in the United States.

LOOKING OUT FOR AMERICAN BUSINESSES AND WORKERS: President Donald J. Trump is committed to protecting American businesses and workers from the impacts of coronavirus.

- The President is announcing an economic assistance package to help support businesses and workers who have been harmed by this outbreak.
- President Trump has instructed the Small Business Administration (SBA) to exercise available authority to provide loans to businesses affected by the coronavirus.
    - These loans will help overcome disruptions caused by the coronavirus.
    - The President is calling on Congress to increase funding for this program by an additional $50 billion.
- The President will be instructing the Department of the Treasury to defer tax payments for certain individuals and businesses negatively impacted by the coronavirus.
    - This action will provide more than $200 billion of additional liquidity to the economy.
- President Trump is calling on Congress to immediately pass payroll tax relief.
- The President announced that he will soon be taking emergency action to provide financial relief for workers who are ill, quarantined, or caring for others due to the coronavirus.
    - The President also called on Congress to take action to extend this relief for workers.

LEADING AN AGGRESSIVE, WHOLE-OF-GOVERNMENT APPROACH: President Trump has taken unprecedented steps to protect the health of Americans in response to the coronavirus.

- The President is leveraging all of our resources to respond to the coronavirus, bringing together government and private industry in a collaborative response.
- The Trump Administration declared a public health emergency in January to bolster response efforts.

AMERICAN OVERSIGHT

- President Trump took early action to help curb the spread of the virus from other countries to the United States, providing important time for response and preparations.
    - In January, President Trump acted quickly to restrict travel from foreign nationals traveling from China.
    - In February, the President restricted travel for individuals recently traveling from Iran.
    - The Administration put into place mandatory screening for all travelers coming into the country from Italy and South Korea.
    - Travel advisories for severely impacted areas like Italy and South Korea have been raised to their highest level.
- Today, the President directed his Administration to make general-use face masks available to our healthcare workers.
    - The Administration's actions will help make millions of general-use respirators available to keep healthcare workers safe and mitigate transmission of the virus.
- President Trump signed into law more than $8 billion to fund response efforts.
- The Administration has taken bold steps to incentivize the development of therapeutics and vaccines to treat and prevent the spread of the coronavirus.
- Working across the public and private sectors, the Trump Administration continues to drastically expand testing capacity.
    - More than 1 million tests have been distributed nationwide, with another 4 million tests being shipped out by the end of the week.
    - Testing is now available in every State lab in the country and commercial labs are now deploying tests, which will help generate a dramatic increase in availability.
- The Trump Administration has released guidance on how to keep businesses, schools, community gathering places, and families safe.
    - From the start, President Trump has made keeping the public informed a top priority.
- The Administration has announced that health plans with health savings accounts will be able to cover coronavirus testing and treatment without co-payments.

ICYMI | Vice President Pence Discusses the Coronavirus Response on the Morning Shows

Earlier this morning, Vice President Pence joined Good Morning America, The Today Show, Fox & Friends, New Day, and CBS This Morning to discuss the steps that this administration is taking to combat the coronavirus.
ON ABC's GOOD MORNING AMERICA

WATCH HERE.
From very early on, President Trump took decisive action to put the health of the American people first.
"We all have known from the beginning that the coronavirus would continue to spread across this country, and it's one of the reasons why, from very early on, President Trump took decisive action to put the health of the American people first, not only declaring a public health emergency in January, but in that same month he suspended all travel from China -- an unprecedented move -- and quarantined Americans that were returning from the region. Since that time, George, we've -- we've issued travel advisories for areas of South Korea, Italy; screened all persons coming on direct flights. But, frankly, as we watched the epicenter of the coronavirus shift from China and South Korea to Europe, the President thought it was proper for us to impose a 30-day suspension on all travel from

AMERICAN OVERSIGHT

continental Europe."

The President, again, made another unprecedented decision in suspending all travel from Europe, because we want to stop the flow of people bringing the coronavirus here.

"The reality is that, really, just two weeks ago, in Italy, there were less than 500 cases and now there's 12,000 cases in Italy, George. We have tens of thousands of people that travel to the United States from Europe every day. Seventy percent of new cases in the world were in Europe. And when we looked yesterday at the -- what was then the 35 states where we had cases, about 30 of them could be traced to contacts with Europe. And so the President, again, made another unprecedented decision in suspending all travel from Europe, because we essentially want -- we essentially want to stop the flow of people bringing the coronavirus here, but then continuing to surge resources, particularly into California, Washington State, New York, and other communities where we've seen community spread. It's a combination of efforts that's being driven by the top health experts in the world on our task force. But the President -- the President showed again yesterday a willingness to take decisive action on multiple levels to protect the American people."

We want to send a very clear message to Americans that if for any reason you believe you've been exposed to the coronavirus, you should not be worried about the cost of testing or treatment.

"We're making steady progress. We're going to continue to make a very clear message to Americans that if for any reason you believe you've been exposed to the coronavirus or you have symptoms, we don't want people to be worried about the cost of testing, to be worried about the cost of treatment… As the President made clear last night, we're working with Congress and exploring actions the President can take to make sure that hourly wage earners know that you can stay home without risking losing a paycheck or losing your job if you feel if you feel that you've been exposed to the coronavirus."

ON NBC's TODAY SHOW

WATCH HERE.

From early on in this effort, we have addressed the testing issue. We made changes through the FDA that allowed for state labs and hospitals to engage in testing.

"From early on in this effort we've been addressing the testing issue. We made changes through the FDA that allowed for state labs and university hospitals and hospitals to engage in testing. And I'm pleased to report every state lab in America can do testing now. Many university laboratories are doing it. Washington State – the University of Washington is doing extraordinary work. but we are literally working hour by hour to expand the testing and we think the key Savannah is going to be what we call commercial laboratories like LabCorp and Quest who are already spinning up production at the president's direction last week on tests that can be available on a broad basis in the days ahead for the American people. we're making real progress but rest assured we're going to continue to drive forward."

The American people should know that President Trump has no higher priority than the health, safety and well-being of the American people.

"The American people should know that President Trump has no higher priority than the health and safety and wellbeing of the people in this country. You can go to coronavirus.gov right now to find out what every American can do to keep yourself, your family, your workplace and your school safe. But you can rest assured we're going to focus on communities where we've had community spread, and the President's action yesterday suspending travel from Europe is one more example of how he's putting the health of America first."

ON FOX NEWS' FOX & FRIENDS

WATCH HERE AND HERE.

AMERICAN OVERSIGHT

The President has called this a whole-of-government approach, but he has also called this is a whole-of-America approach.
"The President, you know, he said this was a whole-of-government approach but he also said this is a whole-of-America approach. So he's brought in business leaders from nursing homes; yesterday, banking; hospitals, and the rest. But one of the things we did that's most important on testing was the President brought in the leaders of the top commercial laboratories in the country who, as we speak, have already approved a test that is being spun up. It's being sent out to market. Quest, LabCorp, the largest commercial laboratories in the country, are working very closely with our administration. We're clearing the red tape out of the way. That's going to be the way that, in the days ahead, we're going to -- we're going to have broad-based testing available all across the country."
We are working together to contain the spread of the coronavirus. And we will get through this.
"Our goal, as the coronavirus spreads in this country -- and the vast majority who would contract it will have flu-like symptoms and recover. Our goal nonetheless is to hold down that overall number as much as possible. And we will do that with the continuing cooperation of American families, schools, businesses, and states. And that's the vision President Trump has. All of us working together will get through this."
We are focusing on supporting efforts at the state and local level in Washington State, and in California. CDC issued strong guidelines for those communities about public activities, large gatherings and at schools. We will continue simply to follow the data on this.
"Make no mistake about it: We are also focusing on supporting efforts at the state and local level in California, in Washington State, and in California. CDC issued very strong guidelines for those communities about public activities, large gatherings, schools. And we'll continue simply to follow the data on this and make strong recommendations where we have what's known as "community spread. But for every American, right now, as the President said last night, it's a good time to use common sense. Wash your hands often. Clean, you know, often-used surfaces. All that information is available at Coronavirus.gov. So we're going to try and mitigate the spread in this country but also prevent, through the President's decisive action last night, people from bringing the coronavirus into the United States any further from Europe."
We are encouraging best practices for every American. We are focusing on communities where we have community spread.
"I want to say to your viewers, just as the President said last night, the risk to the average American of contracting the coronavirus remains low, but we do know that seniors with serious underlying chronic health conditions are particularly vulnerable to very serious outcomes. And so we're encouraging best practices for every American. We're focusing on communities where we have community spread."
Those with a family member who is a senior citizen should support them in engaging in good hygiene and good health practices.
"For any American that's watching today that has a family member or a loved one who's a senior citizen with a serious underlying health condition, this is a very good time to help and to support them to be able to avoid public places, and everyone around them to engage in good hygiene and good practices to protect those that are most vulnerable."
ON CNN's NEW DAY

WATCH HERE AND HERE.
We have been meeting with industry leaders in one relevant industry after another to ensure that the full resources of America are being brought to bear.
"We're not doing a travel ban as our strategy. The suspending all travel for 30 days from Europe is a part of the strategy. The other part is an aggressive mitigation strategy. I

AMERICAN OVERSIGHT

spoke to the governors of New York, Washington State, and California tomorrow -- or yesterday. CDC issued strong guidance to those areas where we have community spread. We've flowed resources. We've flowed support to those areas. And so it's a combination of strategies that the President has employed here. As he says, it's "all hands on deck," "a whole-of-government approach," but it's also a whole-of-America approach. We've literally been meeting with industry leaders in one relevant industry after another to ensure that the full resources of America are being brought to bear."

Any American who is concerned about being exposed to the coronavirus, should call their doctor and get tested.

"Anyone who's looking on today who might be concerned that they were exposed to coronavirus or have symptoms should call their doctor. Their doctor, with any question, can call their state laboratory and be able to find out how they can have a test processed."

We are making steady progress. We don't want anybody to avoid having a test because they are concerned financially.

"But make no mistake about it: We're making steady progress. We've made changes at the FDA in January, at the President's direction. And the American people can be confident we're going to continue to roll out the test. And maybe most significant on that score is that the President brought health insurance companies in last week and they all agreed to waive the co-pays on testing. We expanded testing to Medicare and Medicaid patients. And we also expanded coverage for treatment, and health insurance companies expanded coverage for treatment. We don't want anybody to avoid having a test because they're concerned financially."

The risk to the average American remains low.

"I want people to know that the risk to contracting the coronavirus, according to all of our experts, for the average American remains low. Most people that contract it, will have flu-like symptoms and recover."

ON CBS This Morning

WATCH HERE.

We are going to continue to put in every effort in place to protect the health and safety of the American people.

"The President took the unprecedented step of suspending all travel from China which was the originating country of this virus. We also established travel advisories, and we've been screening passengers on all direct flights from South Korea and Italy. But with the epicenter of this epidemic now moving from China and South Korea to Europe, yesterday the President again took the unprecedented step of suspending all travel from Europe for the next 30 days, and that in combination with our strong mitigation efforts in communities that are experiencing what our experts call community spread, areas of California, Washington State, and New York, we're going to continue to put every effort at home and with regard to these travel restrictions in place to protect the health and safety of the American people."

In the days ahead, we are going to continue to see the availability of tests at your local doctor and your local pharmacy expand.

"Testing is happening in every state lab in the country. Many university hospitals have taken the FDA test, like the University of Washington, is doing a great job expanding testing capabilities. But the biggest piece on the testing is that our commercial labs that the President brought in last week, companies like Quest and LabCorp, have already had approved a new test that they several days ago had begun to take to market which they can do in a vast and expansive way across the country. And literally in the days ahead, we're going to continue to see the availability of tests at your local doctor, ultimately at your local pharmacy, continue to expand."

When President Trump learned that 70% of the new cases this week, around the world, were in Europe, he took decisive action to protect the American people.

"Make no mistake about it: All the new cases in the world, this week, 70% of the new

AMERICAN OVERSIGHT

cases were in Europe. And the increase has been dramatic. When the President imposed the travel advisory and we began screening all flights, all passengers coming into the United States from Italy two weeks ago, there were roughly 500 coronavirus cases. Now there's 12,000, about 1,000 in Germany, about 1,000 in France. That's the reason why the President essentially said full stop, we're going to suspend all travel, and that American citizens coming home and legal residents will be funneled through 13 different airports. They'll get an initial health screening coming in. But we're going to ask everyone returning to our country to self-quarantine for 14 days."

AMERICAN OVERSIGHT

From: DOH COMMUNICATIONS OFFICE
Subject: Travel Restrictions for Employees of the State Personnel System (COVID-19)
Date: Friday, March 13, 2020 9:20:53 AM

Since the first two presumptive positive cases were identified in Florida on March 1, 2020, Governor DeSantis has proactively and aggressively prepared the state to combat Coronavirus Disease 2019 (COVID-19). The Governor's top priority is the health, safety and welfare of all Floridians.

Governor DeSantis directed the Department of Management Service to provide the following direction to all employees in the State Personnel System:

Business

- All non-essential in-state and all out-of-state travel for state business is prohibited for the next 30 days.
- Florida National Guard, state Law Enforcement, state Emergency and Medical personnel are allowed to travel if the travel is deemed mission critical and is specifically approved by the agency head.
- Employees should avoid, when possible, attending large gatherings.
- Videoconferencing and virtual meetings are encouraged in lieu of travel.

Personal

- When on personal travel, state employees should follow CDC best practices for prevention and treatment of COVID-19, especially employees who are considered at-risk or who have dependents or care for those with underlying conditions or vulnerabilities.
- State employees who personally travel internationally will not be allowed to return to work for 14 days upon returning to the United States. Employees will need to utilize their available sick, annual or personal leave during this 14-day period. Employees who can work remotely may be able to so in consultation with their supervisor. Employees without available leave or access to a sick leave pool, and who are unable to work remotely, may be subject to leave without pay.
- State employees who personally travel on a cruise or to an area of the United States experiencing community spread of COVID-19 as identified by the Centers for Disease Control and Prevention or a state public health agency will not be allowed to return to work for 14 days upon returning home. Employees will need to utilize their available sick, annual or personal leave during this 14-day period. Employees who can work remotely may be able to so in consultation with their supervisor. Employees without available leave or access to a sick leave pool, and who are unable to work remotely, may be subject to leave without pay.

This travel policy applies to all employees of the State Personnel System, including the heads of executive agencies. Please consult your supervisor/HR Office and your agency's telework and leave policies for guidance regarding your specific situation.

Cc: Pritchard, Scott; Gumke, Megan R; Troelstrup, Thomas; ONeill, Mark; Cooper, Jamilla V
Subject: Traveler Monitoring Task Force
Date: Wednesday, March 18, 2020 4:39:52 PM
Importance: High

Dear Primary Epis,

We are working to make changes to our traveler monitoring process. To reduce the burden on the counties, we are creating a task force that will centralize most of the traveler monitoring duties, such as the requirement to monitor individuals who have returned from COVID-19 impacted regions, or identified during airline and ship contact investigations. The team will immediately link symptomatic travelers to the CHD for coordination with local health care providers as needed.

Please take a moment to fill out the attached poll (click on the ⓘ at the top of this email for voting options). You will need to let us know if you want to OPT-OUT of this program, meaning your county will still handle all traveler monitoring duties.

Additionally, if you would like a primary and secondary contact for travel monitoring, other than what is provided on the Primary Epidemiology Contact List, please specify those individuals.

Thanks,
Epi Monitoring Team

Dear Colleagues,

Please see the attached CDC COVID-19 daily key points from Tuesday, March 10.

We would also like to draw your attention to the **"Interim Infection Prevention and Control Recommendations for Patients with Suspected or Confirmed Coronavirus Disease 2019 (COVID-19) in Healthcare Settings"**. You can reference the guidance here. For your convenience, a summary of the changes are provided below:

- Updated PPE recommendations for the care of patients with known or suspected COVID-19
- Considerations for designating entire units within the facility, with dedicated healthcare personnel (HCP), to care for known or suspected COVID-19 patients and options for extended use of respirators, facemasks, and eye protection on such units.
- Updated recommendations regarding need for an airborne infection isolation room (AIIR).

AMERICAN OVERSIGHT

CDC Daily Key Points
Coronavirus Disease 2019 ("COVID-19") Outbreak
March 10, 2020 as of 10:20pm

Updated text is shown in colored text.

SNAPSHOT

- CDC has reported:
  - 647 confirmed and presumptive positive cases of COVID-19
  - 25 COVID-19 related deaths
  - 36 jurisdictions reporting

MAIN KEY POINTS

- There is an expanding global outbreak of respiratory illness called COVID-19 caused by a novel (new) coronavirus.
- Community spread is being detected in a growing number of places, including in the states of California, Washington and New York in the United States.
- There are 647 reported U.S. cases of COVID-19 from 34 states, New York City and the District of Columbia. New states reporting cases since yesterday include Louisiana and Ohio.
- The potential public health threat posed by COVID-19 is high, both globally and to the United States.
- More cases of COVID-19 are expected in the United States in the coming days, including more instances of community spread.
- As the outbreak continues, at some point, widespread transmission of COVID-19 in the United States is expected occur.
- Many people will get sick, but based on what is known about this virus, most people will not develop serious illness.
- Based on data out of China, where this virus first emerged, older adults and persons of all ages who have serious long-term health problems seem to be at higher risk for more serious COVID-19 illness.
  - It's important that people who are at higher risk of serious COVID-19 illness take special precautions to reduce their risk of getting sick.
  - CDC has guidance for what people at higher risk should do at this time.
- Public health efforts at this time are focused concurrently on containing spread of this virus and mitigating the impact of this virus.
- There is no vaccine to protect against COVID-19 and no medications approved to treat it.
- Nonpharmaceutical interventions are actions, apart from getting vaccinated and taking medicine, that people and communities can take to help slow the spread of respiratory illnesses like COVID-19.
- Currently, nonpharmaceutical interventions are the most important response strategy against COVID-19.
- All communities can take measures to reduce the spread of COVID-19. Everyone has a role to play in getting ready and staying healthy.

AMERICAN OVERSIGHT

SITUATION UPDATE

- 647 reported cases of COVID-19 have been detected in Arizona, California, Colorado, Connecticut, Florida, Georgia, Hawaii, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Minnesota, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, New York (and New York City), North Carolina, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Vermont, Virginia, Washington, and Wisconsin.
    - 83 of these cases occurred through person-to-person spread.
    - 36 cases occurred in persons who had traveled to international areas with sustained (ongoing) transmission.
    - 528 cases are still being investigated to determine the source of exposure.
- CDC has developed a map of the U.S. that shows affected states and how many COVID-19 cases they have reported.
- Because states are reporting their results directly and publicly, sometimes in near real-time, CDC case counts may be different from what states, local authorities, or media are reporting.
    - In the event of a discrepancy between case counts reported by state or local public health officials versus CDC-reported numbers, the numbers reported by states should be considered the most up to date.
- As of the evening of March 9, there are 79 state and local public health labs in 50 states and the District of Columbia that have successfully verified and are currently using COVID-19 diagnostic tests.
- CDC has developed a map showing which states and territories have one or more laboratories that have successfully verified and are currently using COVID-19 diagnostic tests.
    - This list is provided by the Association of Public Health Laboratories (APHL).
    - The same page includes information on the number of COVID-19 specimens tested.
- As of the evening of March 9, 2020, CDC and local and state public health laboratories had tested a total of 8,854 specimens.
- CDC is reviewing and updating travel notices almost on a daily basis.
- On March 8, CDC recommended travelers, particularly those with underlying health issues, defer all cruise ship travel worldwide.
- CDC also recommends that older adults and travelers with underlying health issues avoid situations that put them at increased risk for more severe disease, including avoiding non-essential travel on long plane trips.

NEW GUIDANCE

- On March 10, CDC published updated Interim Infection Prevention and Control Recommendations for Patients with Suspected or Confirmed COVID-19 in Healthcare Settings.
- Respiratory protection of healthcare workers is a priority and is especially important during aerosol-generating procedures for patients.
- Healthcare facilities are increasingly unable to procure reliable and sufficient infection control supplies, including N95 respirators.
- Because of supply demands associated with the COVID-19 response, CDC is updating its interim COVID-19 infection control guidance for the healthcare setting.
    - The aim of the revised interim guidance is to prioritize the use of N95 respirators and other respiratory protection devices during high-risk procedures, while still protecting

AMERICAN OVERSIGHT

healthcare personnel with facemasks and eye protection during other routine patient care activities in the setting of temporary respirator shortages.
    - This interim guidance aims to support healthcare facilities in practical decision-making at the local level.
    - This guidance also outlines multiple interventions that can be used to enhance protection of healthcare personnel.
- The spread of COVID-19 can be stopped in many ways, such as prompt screening and triage, limiting personnel in the room, hand hygiene, source control, and effective environmental cleaning.
- Employers and healthcare workers should remember the hierarchy of controls.
    - PPE is only one aspect of patient and worker safety and involves a high level of worker involvement and is highly dependent on proper fit and correct use.
    - All healthcare facilities should be reviewing their infection control supply inventories and taking steps to optimize supplies. This is particularly true for facilities that perform aerosol-generating procedures, so that appropriate PPE will be available for high-risk procedures now and as potential COVID-19 cases increase.
- Healthcare administrators should continue to do everything possible to acquire the needed supplies to protect their staff and patients.
    - When the supply chain is restored, facilities with a respiratory protection program should return to use of respirators for patients with known or suspected COVID-19.
    - The anticipated timeline for return to routine levels of PPE is not known.
- CDC has posted information about strategies to optimize the current supply of N95 respirators, including the use of devices that provide higher levels of respiratory protection (e.g., powered air purifying respirators [PAPRs]) when N95s are not available. CDC has also provided a companion checklist to help healthcare facilities prioritize the implementation of the strategies.
- The majority of nursing homes and outpatient clinics, including hemodialysis facilities, do not currently have respiratory protection programs or fit-tested HCP.
    - These facilities would not be able to implement all of the recommended infection control interventions in the previous version of this guidance.
    - Without respiratory protection programs and fit testing, unnecessary transfer of patients with known or suspected COVID-19 to another facility (e.g., acute care hospital) for evaluation and care may occur.
    - In areas with community transmission, acute-care facilities will be quickly overwhelmed by transfers of patients who have only mild illness and do not require hospitalization.

PEOPLE AT HIGHER RISK OF EXPOSURE/INFECTION

- Right now, some people are at higher risk of exposure/infection, including:
    - People in communities where ongoing community spread with the virus that causes COVID-19 has been reported are at elevated though still relatively low risk of exposure.
    - Healthcare workers caring for patients with COVID-19 are at elevated risk of exposure.
    - Close contacts of persons with COVID-19 also are at elevated risk of exposure.
    - Travelers returning from affected international locations where community spread is occurring also are at elevated risk of having been exposed.

AMERICAN OVERSIGHT

PEOPLE AT HIGHER RISK OF SERIOUS COVID-19 ILLNESS

- Early information out of China, where COVID-19 first started, shows that some people are at higher risk of getting very sick from this illness.
- The people who are at greatest risk are those who are older and those who have serious long-term health conditions like diabetes, heart disease, or lung disease.
- This seems to be a disease that affects adults, and older adults, most seriously.
    - Starting at age 60, there is an increasing risk of severe disease and the risk increases with age.
    - The highest risk of serious illness and death is in people older than 80 years.
- People with serious underlying health conditions also are more likely to develop serious outcomes including death.
- Reports out of China that looked at more than 70,000 COVID-19 patients found that about 80% of illness was mild and people recovered. 15% to 20% developed serious illness.
- Of the more than 70,000 cases, only about 2% were in people younger than 19.
- These are early data and more information from countries outside of China, including experience here in the United States, will inform the public health response as time goes on. For now, data suggest that measures should be taken to protect America's oldest population, who are most vulnerable to severe COVID-19 illness.

WHAT YOU CAN DO

- Everyone can do their part to help respond to this emerging public health threat:
    - Individuals and communities should familiarize themselves with recommendations to protect themselves and their community from getting and spreading respiratory illnesses like COVID-19.
    - Older people and people with severe chronic conditions should take special precautions because they are at higher risk of developing serious COVID-19 illness.
    - If you are a healthcare provider, be on the look-out for:
        - People who recently traveled from China or another affected area and who have symptoms associated with COVID-19, and
        - People who have been in close contact with someone with COVID-19 or patients with pneumonia of unknown cause. (Consult the most recent definition for patients under investigation [PUIs].)
    - If you are a healthcare provider or a public health responder caring for a COVID-19 patient, please take care of yourself and follow recommended infection control procedures.
    - If you are a close contact of someone with COVID-19 and develop symptoms of COVID-19, call your healthcare provider and tell them about your symptoms and your exposure. They will decide whether you need to be tested. Keep in mind that there is no treatment for COVID-19 and people who are mildly ill are able to isolate at home.
    - If you are a resident in a community where there is ongoing spread of COVID-19 and you develop COVID-19 symptoms, call your healthcare provider and tell them about your symptoms. They will decide whether you need to be tested. Keep in mind that there is no treatment for COVID-19 and people who are mildly ill are able to isolate at home.

AMERICAN OVERSIGHT

- For people who are ill with COVID-19, but are not sick enough to be hospitalized, please follow CDC guidance on how to reduce the risk of spreading your illness to others. People who are mildly ill with COVID-19 are able to isolate at home during their illness.
- If you have been in China or another affected area or have been exposed to someone sick with COVID-19 in the last 14 days, you will face some limitations on your movement and activity. Please follow instructions during this time. Your cooperation is integral to the ongoing public health response to try to slow spread of this virus.

CDC ACTIONS

- The federal government is working closely with state, local, tribal, and territorial partners, as well as public health partners, to respond to this public health threat.
- The public health response is multi-layered, with the goal of detecting and minimizing introductions of this virus in the United States to reduce the spread and the impact of this virus.
- CDC is operationalizing all of its pandemic preparedness and response plans, working on multiple fronts to meet these goals, including specific measures to prepare communities to respond to local transmission of the virus that causes COVID-19.
- Pandemic guidance developed in anticipation of an influenza pandemic is being repurposed and adapted for a COVID-19 pandemic.
- Public health partners are encouraged to review their pandemic preparedness plans at this time.
- CDC is aggressively responding to the global outbreak of COVID-19 and preparing for the potential of community spread in more parts of the United States.
- CDC's Action for Preparing Communities for Potential Spread of COVID-19 include:
    - Preparing first responders, healthcare providers, and health systems
    - Reinforcing state, territorial, and local public health readiness
    - Supporting communities, businesses, and schools

COMMUNITY BASED INTERVENTIONS (AKA COMMUNITY MITIGATION)

- Americans should be prepared for the possibility of a COVID-19 outbreak in their community. Everyone has a role to play.
- Currently, a vaccine is not available for COVID-19. Until a vaccine is developed, community-based interventions, such as school dismissals, event cancellations, social distancing, and plans to work remotely, can help slow the spread of coronavirus.
- Your local public health department and community partners have been preparing for an event like COVID-19 and have plans in place. Now is a good time for businesses, community and faith-based organizations, schools, and health-care systems to reexamine their preparedness plans to make sure they are ready.
- Strong community partnerships between local health departments, the health care sector, faith-based organizations, and other community partners are vital for this response, and will be necessary to prepare for and coordinate if an outbreak occurs.
    - Community-based interventions can be grouped in three categories:
        - Personal protective measures (e.g., voluntary home isolation of ill persons, voluntary home quarantine of exposed household members, covering nose/mouth when coughing or sneezing, hand hygiene, using face masks in community settings when ill)

AMERICAN OVERSIGHT

    - Community measures aimed at increasing social distancing (e.g., school dismissals, social distancing in workplaces, postponing or cancelling mass gatherings)
    - Environmental measures (e.g., routine cleaning of frequently touched surfaces)
- CDC has recommendations to protect yourself and your community from getting and spreading respiratory illnesses like COVID-19.

Subject:	Tuesday, March 10 - CDC COVID-19 Key Points & Updated Interim Infection Prevention & Control Guidance
Date:	Wednesday, March 11, 2020 1:06:02 AM
Attachments:	CDC_COVID-19_Daily Key Points__3_10_2020 FINAL.pdf

Dear Colleagues,

Please see the attached CDC COVID-19 daily key points from Tuesday, March 10.

We would also like to draw your attention to the **"Interim Infection Prevention and Control Recommendations for Patients with Suspected or Confirmed Coronavirus Disease 2019 (COVID-19) in Healthcare Settings"**. You can reference the guidance here. For your convenience, a summary of the changes are provided below:

- Updated PPE recommendations for the care of patients with known or suspected COVID-19
- Considerations for designating entire units within the facility, with dedicated healthcare personnel (HCP), to care for known or suspected COVID-19 patients and options for extended use of respirators, facemasks, and eye protection on such units.
- Updated recommendations regarding need for an airborne infection isolation room (AIIR).

AMERICAN OVERSIGHT

CDC Daily Key Points
Coronavirus Disease 2019 ("COVID-19") Outbreak
March 10, 2020 as of 10:20pm

Updated text is shown in colored text.

SNAPSHOT

- CDC has reported:
  - 647 confirmed and presumptive positive cases of COVID-19
  - 25 COVID-19 related deaths
  - 36 jurisdictions reporting

MAIN KEY POINTS

- There is an expanding global outbreak of respiratory illness called COVID-19 caused by a novel (new) coronavirus.
- Community spread is being detected in a growing number of places, including in the states of California, Washington and New York in the United States.
- There are 647 reported U.S. cases of COVID-19 from 34 states, New York City and the District of Columbia. New states reporting cases since yesterday include Louisiana and Ohio.
- The potential public health threat posed by COVID-19 is high, both globally and to the United States.
- More cases of COVID-19 are expected in the United States in the coming days, including more instances of community spread.
- As the outbreak continues, at some point, widespread transmission of COVID-19 in the United States is expected occur.
- Many people will get sick, but based on what is known about this virus, most people will not develop serious illness.
- Based on data out of China, where this virus first emerged, older adults and persons of all ages who have serious long-term health problems seem to be at higher risk for more serious COVID-19 illness.
  - It's important that people who are at higher risk of serious COVID-19 illness take special precautions to reduce their risk of getting sick.
  - CDC has guidance for what people at higher risk should do at this time.
- Public health efforts at this time are focused concurrently on containing spread of this virus and mitigating the impact of this virus.
- There is no vaccine to protect against COVID-19 and no medications approved to treat it.
- Nonpharmaceutical interventions are actions, apart from getting vaccinated and taking medicine, that people and communities can take to help slow the spread of respiratory illnesses like COVID-19.
- Currently, nonpharmaceutical interventions are the most important response strategy against COVID-19.
- All communities can take measures to reduce the spread of COVID-19. Everyone has a role to play in getting ready and staying healthy.

AMERICAN OVERSIGHT

SITUATION UPDATE

- 647 reported cases of COVID-19 have been detected in Arizona, California, Colorado, Connecticut, Florida, Georgia, Hawaii, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Minnesota, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, New York (and New York City), North Carolina, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Vermont, Virginia, Washington, and Wisconsin.
    - 83 of these cases occurred through person-to-person spread.
    - 36 cases occurred in persons who had traveled to international areas with sustained (ongoing) transmission.
    - 528 cases are still being investigated to determine the source of exposure.
- CDC has developed a map of the U.S. that shows affected states and how many COVID-19 cases they have reported.
- Because states are reporting their results directly and publicly, sometimes in near real-time, CDC case counts may be different from what states, local authorities, or media are reporting.
    - In the event of a discrepancy between case counts reported by state or local public health officials versus CDC-reported numbers, the numbers reported by states should be considered the most up to date.
- As of the evening of March 9, there are 79 state and local public health labs in 50 states and the District of Columbia that have successfully verified and are currently using COVID-19 diagnostic tests.
- CDC has developed a map showing which states and territories have one or more laboratories that have successfully verified and are currently using COVID-19 diagnostic tests.
    - This list is provided by the Association of Public Health Laboratories (APHL).
    - The same page includes information on the number of COVID-19 specimens tested.
- As of the evening of March 9, 2020, CDC and local and state public health laboratories had tested a total of 8,854 specimens.
- CDC is reviewing and updating travel notices almost on a daily basis.
- On March 8, CDC recommended travelers, particularly those with underlying health issues, defer all cruise ship travel worldwide.
- CDC also recommends that older adults and travelers with underlying health issues avoid situations that put them at increased risk for more severe disease, including avoiding non-essential travel on long plane trips.

NEW GUIDANCE

- On March 10, CDC published updated Interim Infection Prevention and Control Recommendations for Patients with Suspected or Confirmed COVID-19 in Healthcare Settings.
- Respiratory protection of healthcare workers is a priority and is especially important during aerosol-generating procedures for patients.
- Healthcare facilities are increasingly unable to procure reliable and sufficient infection control supplies, including N95 respirators.
- Because of supply demands associated with the COVID-19 response, CDC is updating its interim COVID-19 infection control guidance for the healthcare setting.
    - The aim of the revised interim guidance is to prioritize the use of N95 respirators and other respiratory protection devices during high-risk procedures, while still protecting

AMERICAN OVERSIGHT

healthcare personnel with facemasks and eye protection during other routine patient care activities in the setting of temporary respirator shortages.
    - This interim guidance aims to support healthcare facilities in practical decision-making at the local level.
    - This guidance also outlines multiple interventions that can be used to enhance protection of healthcare personnel.
- The spread of COVID-19 can be stopped in many ways, such as prompt screening and triage, limiting personnel in the room, hand hygiene, source control, and effective environmental cleaning.
- Employers and healthcare workers should remember the hierarchy of controls.
    - PPE is only one aspect of patient and worker safety and involves a high level of worker involvement and is highly dependent on proper fit and correct use.
    - All healthcare facilities should be reviewing their infection control supply inventories and taking steps to optimize supplies. This is particularly true for facilities that perform aerosol-generating procedures, so that appropriate PPE will be available for high-risk procedures now and as potential COVID-19 cases increase.
- Healthcare administrators should continue to do everything possible to acquire the needed supplies to protect their staff and patients.
    - When the supply chain is restored, facilities with a respiratory protection program should return to use of respirators for patients with known or suspected COVID-19.
    - The anticipated timeline for return to routine levels of PPE is not known.
- CDC has posted information about strategies to optimize the current supply of N95 respirators, including the use of devices that provide higher levels of respiratory protection (e.g., powered air purifying respirators [PAPRs]) when N95s are not available. CDC has also provided a companion checklist to help healthcare facilities prioritize the implementation of the strategies.
- The majority of nursing homes and outpatient clinics, including hemodialysis facilities, do not currently have respiratory protection programs or fit-tested HCP.
    - These facilities would not be able to implement all of the recommended infection control interventions in the previous version of this guidance.
    - Without respiratory protection programs and fit testing, unnecessary transfer of patients with known or suspected COVID-19 to another facility (e.g., acute care hospital) for evaluation and care may occur.
    - In areas with community transmission, acute-care facilities will be quickly overwhelmed by transfers of patients who have only mild illness and do not require hospitalization.

PEOPLE AT HIGHER RISK OF EXPOSURE/INFECTION

- Right now, some people are at higher risk of exposure/infection, including:
    - People in communities where ongoing community spread with the virus that causes COVID-19 has been reported are at elevated though still relatively low risk of exposure.
    - Healthcare workers caring for patients with COVID-19 are at elevated risk of exposure.
    - Close contacts of persons with COVID-19 also are at elevated risk of exposure.
    - Travelers returning from affected international locations where community spread is occurring also are at elevated risk of having been exposed.

AMERICAN OVERSIGHT

PEOPLE AT HIGHER RISK OF SERIOUS COVID-19 ILLNESS

- Early information out of China, where COVID-19 first started, shows that some people are at higher risk of getting very sick from this illness.
- The people who are at greatest risk are those who are older and those who have serious long-term health conditions like diabetes, heart disease, or lung disease.
- This seems to be a disease that affects adults, and older adults, most seriously.
    - Starting at age 60, there is an increasing risk of severe disease and the risk increases with age.
    - The highest risk of serious illness and death is in people older than 80 years.
- People with serious underlying health conditions also are more likely to develop serious outcomes including death.
- Reports out of China that looked at more than 70,000 COVID-19 patients found that about 80% of illness was mild and people recovered. 15% to 20% developed serious illness.
- Of the more than 70,000 cases, only about 2% were in people younger than 19.
- These are early data and more information from countries outside of China, including experience here in the United States, will inform the public health response as time goes on. For now, data suggest that measures should be taken to protect America's oldest population, who are most vulnerable to severe COVID-19 illness.

WHAT YOU CAN DO

- Everyone can do their part to help respond to this emerging public health threat:
    - Individuals and communities should familiarize themselves with recommendations to protect themselves and their community from getting and spreading respiratory illnesses like COVID-19.
    - Older people and people with severe chronic conditions should take special precautions because they are at higher risk of developing serious COVID-19 illness.

AMERICAN OVERSIGHT

Pre-emptive low cost social distancing and enhanced hygiene implemented before local COVID-19 transmission could decrease the number and severity of cases.

Dalton CB[1], Corbett SJ[2], Katelaris AL[3].

1. School of Medicine and Public Health, University of Newcastle, Callaghan, NSW, Australia, 2308
2. School of Population Health and Western Clinical School, University of Sydney, Sydney, NSW, Australia, 2151
3. National Centre for Epidemiology and Population Health, The Australian National University, Canberra, ACT, Australia

Summary

China appears to have constrained transmission of COVID-19 outside of Hubei Provence through rapid and intensive containment and mitigation interventions. Most countries only attempt social distancing and hygiene interventions when widespread transmission is apparent. This gives the virus many weeks to spread with a higher basic reproduction number (R0) than if they were in place before transmission was detected or widespread. Pre-emptive, low cost, hygiene enhancement and social distancing in the context of imminent community transmission of novel coronavirus COVID-19 should be considered. Early interventions to reduce the average frequency and intensity of exposure to the virus might reduce infection risk, reduce the average viral infectious dose of those exposed, and result in less severe cases who are less infectious. A pre-emptive phase would also assist government, workplaces, schools, and businesses to prepare for a more stringent *phase. Countries, and subregions of countries, without recognised COVID-19 transmission should assume it is present and consider implementation of low cost enhanced hygiene and social distancing measures*.

Rationale for Pre-emptive Interventions

It is estimated that approximately two thirds of COVID-19 cases exported from China from 1st to 13th of January have gone undetected globally.[1] Most of these exported cases will be mild and may only be detected after several hundred cases have accumulated and severe or fatal cases are recognised 5 to 8 weeks later, as has likely occurred in the recent COVID-19 outbreaks in Iran, South Korea, Italy, and Seattle in the USA.[2]

The spread of novel coronavirus COVID-19 transmission globally has been very rapid. The basic reproduction number is estimated at between 2 to 3.[3,4] The mode of transmission is thought to be droplet and contact infection, although opportunistic or close range airborne infection may be involved.[4]

The transmission dynamics of the early cases of COVID-19 were significantly different to those during the SARS epidemic. In particular the proportion of cases from healthcare settings was low and the proportion with no known risk exposures was high.[4] Another significant factor is that viral loads in nasopharyngeal and respiratory secretions are highest soon after symptom onset in COVID-19 cases[5] compared to a peak of around 10 days in SARS cases,[6] making transmission before entering health care facilities more likely.

AMERICAN OVERSIGHT

FL-DOH-20-0900-A-014242

Electronic copy available at: https://ssrn.com/abstract=3549276

Even though the understanding of transmission dynamics is at an early stage, they do suggest that the step-wise introduction of stringent measures will be necessary to control this epidemic and highlights the importance of early community control.

Quarantine, city "lockdowns", complete childcare, school, university and work closures, and cancellation of mass gatherings/events have significant social and economic impact and are unlikely to be implemented until significant transmission is confirmed – when it may be less effective. However, there are a range of lower level, potentially cost neutral, pre-emptive interventions that could be considered when transmission is only suspected or anticipated. Here we explore whether low cost pre-emptive enhanced hygiene and social distancing should be implemented prior to confirmation of community transmission in countries without, or with minimal, confirmed person-to-person transmission of COVID-19.

The purpose of pre-emptive interventions is to slow the transmission of disease and limit the impact on health services, particularly hospitals and intensive care units, to ensure access to high level care when needed.

The concept of pre-emptive deployment is based upon the following assumptions which require further exploration and are elaborated upon below:

1. Community wide COVID-19 transmission may be occurring undetected or may only be recognised after containment is no longer feasible.
2. Interventions implemented after community wide transmission is detected will be less effective.
3. Reducing the force of infection, particularly early, will delay the epidemic peak, blunt the epidemic peak, spread cases over a longer time, and help to limit the potential for critical care services to be overwhelmed, which may be lifesaving.[7,8]
4. Enhanced hygiene and social distancing interventions should:
    a. Decrease the total number of cases per week but extend duration of the epidemic
    b. Decrease the severity of cases through reducing viral inocula.

Figure 1 below illustrates the concept of limiting the peak in cases so that health services are less likely to be overwhelmed (red dashed line) and there is less unmet health service need. Unmet need may include inability to admit patients to a hospital or to provide hospitalised patients in critical condition access to intensive care. Interventions to reduce infection lead to longer, but less peaked, epidemics. A slower evolution in the epidemic also allows time for health care staff to provide better care, for recovery of infected health care workers, for learning and adapting to the evolving situation by administrators, and for vaccines and treatments to be developed. Although we have not validated this principle for COVID-19 epidemics it is sufficiently validated in simulations for influenza that it would appear a reasonable assumption in response to this emergent disease.[9]

AMERICAN OVERSIGHT

Electronic copy available at: https://ssrn.com/abstract=3549276

Figure 1: Intended impact of enhanced hygiene and social distancing measures on the COVID-19 pandemic adapted from Fong.[8]

Enhanced hygiene and social distancing measures may reduce both numbers of cases and severity of cases through several mechanisms.

We suggest that a pre-emptive implementation of low cost interventions prior to detection, but in imminent expectation of community transmission should be considered because it may decrease both the total numbers of cases and severity of cases. This principle applies equally well to subregions of countries that have not as yet detected community transmission events.

The basic reproductive number (R0) is the average number of secondary cases of an infectious disease that arise from cases in a totally susceptible population, and reflects the epidemic potential of a pathogen.[10] R0 is a function of the number of contacts an infectious person has, the risk of transmission per contact, and the duration of infectiousness.

Social distancing mostly acts on the first factor, by reducing the number of contacts each person makes. Hygiene measures mostly act on the second factor, as they reduce the risk of transmission if a contact occurs. There are epidemiological observations from the outbreak in China that might indicate the effectiveness of pre-emptive implementation of the measures in the community. The WHO-China Joint Mission on COVID-19 determined that widespread community transmission and outbreaks occurred in Wuhan prior to the implementation of comprehensive control measures.[4] However in other parts of China, community transmission has been limited and most transmission has occurred in families. For example, among 344 clusters involving 1308 cases (out of a total 1836 cases reported) in Guangdong Province and Sichuan Province, 78%-85% have occurred in families.[4] This is likely due to the intense quarantine and social distancing measures implemented in areas outside Hubei prior to the establishment of widespread community transmission.

Community wide interventions may decrease the average viral exposure dose encountered in the community. People exposed to a higher viral dose (inoculum) are more likely to become infected and suffer more severe disease. Animal models for other coronavirus infections demonstrate that increased viral inocula lead to more severe disease and higher viral loads in the lungs and other organs/fluids.[11] The Amoy Gardens SARS outbreak in 2003

AMERICAN OVERSIGHT
FL-DOH-20-0900-A-014244
Electronic copy available at: https://ssrn.com/abstract=3549276

provided evidence that cases with presumed higher exposure to the index case had higher nasopharyngeal viral loads and more severe illness.[12] Modelling of the 2009 influenza pandemic also supported a hypothesis that severe illness was due to a higher infectious dose of the virus mediated by the number of simultaneous infectious contacts.[13] Viral loads in severe MERS cases were higher than those in a mild group and the patients in the severe group had more prolonged viral shedding in respiratory secretions, beyond 21 days after the onset of symptoms, whereas viral RNA was no longer detected by 21 days in the mild group.[14]

Therefore, it is proposed that early measures that lower the number of contacts, the likelihood of transmission, and average viral infective dose in an area of new transmission could have a multiplier effect leading to less cases, and less severe cases who are less infectious. This early reduction of the R0 would result in fewer cases overall and have a significant negative multiplier effect on the overall impact of the epidemic, including the number of deaths (Figure 2). The higher case fatality rate in Wuhan, compared with other provinces in China may partially relate to health-care resource availability and shortages in the face of overwhelming community transmission, as well as greater severity of disease due to higher infection doses.[7,12] These interventions will be particularly important for people over 60 years of age and those with underlying medical conditions.

Figure 2: Conceptual model of how pre-emptive interventions with a negative multiplier effect could impact an impending epidemic

Low cost Hygiene and Social Distancing Interventions

Box 1. Workplace Interventions

- No handshaking policy
- Promote cough and sneeze etiquette (but focus is on excluding ill staff)
- Videoconferencing as default for meetings
- Defer large meetings
- Enforced sanitisation of hands at entrance
- Regular hand sanitation schedule reminders via email
- Lunch at desk rather than in lunch room
- Gamifying hygiene rules e.g. to discourage touching face
- Ill* people stay at home and ill workers immediately isolated
- Hold necessary meetings outside in open air if possible
- Staff with ill household contacts should stay at home**
- Disinfect high touch surfaces regularly and between users
- Work from home where possible and consider staggering of staff where there is no loss of productivity from remote work
- Consider opening windows and adjusting air conditioning***
- Limit food handling and sharing of food in the workplace
- Assess staff business travel risks****
- Enhance hygiene and screening for illness among food preparation (canteen) staff and their close contacts.
- Analyse the root cause of crowding events on site and prevent through rescheduling, staggering, cancelling.

Box 1. Notes: *"Ill" person refers to someone with an undiagnosed respiratory illness or fever, who is not yet under investigation for COVID-19 but nevertheless could be an unrecognised case. ** This could be costly unless used judiciously while awaiting exclusion of COVID-19 in the case and should be introduced based on likelihood of local transmission. *** Evidence that low temperature and low humidity in air conditioned environments may enhance the survival of coronaviruses such as SARS.[15] **** Sites such as the CDC travel risk assessment site may be useful https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

Box 2. School Interventions

- Supervised sanitisation of hands at entrance and at regular intervals
- Defer activities that lead to mixing between classes and years.
- Promote cough and sneeze etiquette (but focus on excluding ill persons)
- Strict stay at home policy if ill
- Gamifying hygiene rules e.g. to discourage touching face
- Regular handwashing schedule
- Disinfect high touch surfaces regularly and between users
- Outdoor lessons where possible
- Consider opening windows and adjusting conditioning
- Enhance hygiene and screening for illness among food preparation (canteen) staff and their close contacts
- Review after-school care arrangements that lead to mixing of children from multiple classes and ages

AMERICAN OVERSIGHT

Electronic copy available at: https://ssrn.com/abstract=3549276

Box 3. Household-based Interventions

All Households

- Enhanced hand sanitisation
- Gamifying hygiene rules e.g. to discourage touching face
- Disinfect high touch surfaces regularly
- "Welcome if you are well" signs on front door.
- Increase ventilation rates in the home by opening windows or adjusting air conditioning
- Promote cough and sneeze etiquette

Households with ill members (in addition to measures above)

- Ill household members are given own room if possible and only one person cares for them
- The door to the ill persons room is kept closed*
- Wearing simple surgical/dust masks by both infected persons and other family members caring for the case.
- Consider extra protection or alternative accommodation for household members over 65 years or with underlying illness.

*Reference Wein.[16]

Box 4. Commercial/entertainment/transport setting Interventions

- Sanitisation of hands at building entrance encouraged
- Tap and pay preferred to limit handling of money.
- Disinfect high touch surfaces regularly
- Avoiding crowding through booking and scheduling, online pre-purchasing, limiting attendance numbers.
- Enhance hygiene and screening for illness among food preparation staff and their close contacts.
- Enhance airflow and adjust air conditioning
- Public transport workers/taxi/ride share – vehicle windows opened where possible, increased air flow, high-touch surfaces disinfected.

Organisational capacity benefits

A pre-emptive phase would assist organisations to build capacity for future implementation of more stringent social distancing interventions including allocating responsibilities, consulting with staff and adapting protocols and practicing implementation. WHO is supportive of pre-emptive interventions to prevent COVID-19 in work places.[17]

The Costs of Pre-emptive intervention

The suite of low cost pre-emptive interventions, other than a working from home policy, is unlikely to affect work productivity and may provide the community with some re-assurance that all is being done to prevent the epidemic. Some may see it as an over-reach but thus far

AMERICAN OVERSIGHT

Electronic copy available at: https://ssrn.com/abstract=3549276

communities seem to accept or voluntarily adopt low cost interventions and acceptance may be enhanced through consultation and trust building.[18,19]

Influenza co-benefits

For regions approaching their influenza season, optimal prevention and control of seasonal influenza, such as vaccination, in the face of potential COVID-19 co-circulation is also crucial, to minimise the double burden on health services. The measures discussed here (enhanced hygiene and social distancing) are also effective against influenza, resulting in potential co-benefits for both pathogens.

Limitations

Most of the research on mitigation is based on influenza control and it is clear that SARS-CoV-2 transmission dynamics will be different, however, droplet, contact and airborne precautions and the interventions deployed in China align with recommended influenza transmission controls. The assumptions should be modelled to better understand the costs and benefits. The use of masks outside of health settings is controversial and it is important that masks not be diverted from health care supplies. However, surgical masks are protective of large droplet spread and have approximately half the effectiveness of N95 mask for small droplet transmission, and are suggested to be cost saving in some modelled pandemic influenza scenarios.[20] They may have a limited role in the community setting prior to widespread transmission if there are adequate supplies and should be considered for use in households caring for COVID-19 cases at home.[16]

Conclusion

Given the ongoing global dissemination of COVID-19, as of early March 2020, it would be sensible for most countries and regions to assume they have had an importation of at least one case of COVID-19 and that the disease is spreading locally whether recognised or not. We believe these practices should be implemented in all countries as soon as possible.

Acknowledgements

We would like to thank Kirsten Williamson for her thoughtful review of the draft manuscript.

Interim guidance for administrators of Florida childcare programs and K-12 schools to plan, prepare, and respond to Coronavirus Disease 2019 (COVID-19)

Adapted from CDC guidance
https://www.cdc.gov/coronavirus/2019-ncov/specific-groups/guidance-for-schools.html

Through collaboration and coordination with the Florida Department of Health (FLDOH) and county health departments (CHDs) in Florida, schools can take steps to disseminate information about Coronavirus disease (COVID-19) and its potential transmission within their school community. Schools can prepare to take steps to prevent the spread of COVID-19 among their students and staff, should FLDOH and CHD officials identify such a need.

Schools should continue to collaborate, share information, and review plans with CHD officials to help protect the whole school community, including those with special health needs. School plans should be designed to minimize disruption to teaching and learning and protect students and staff from social stigma and discrimination. Plans can build on everyday practices (e.g., encouraging hand hygiene, monitoring absenteeism, communicating routinely) that include strategies for *before*, *during*, and *after* a possible outbreak.

Who is this guidance for?
This interim guidance is intended to help administrators of public and private childcare programs and K-12 schools prevent the spread of COVID-19 among students and staff. Administrators are individuals who oversee the daily operations of childcare programs and K-12 schools, and may include positions like childcare program directors, school district superintendents, principals, and assistant principals. This guidance is intended for administrators at both the school/facility and district level.

Why is this guidance being issued?
Information provided should help childcare programs, schools, and their partners understand how to help prevent the transmission of COVID-19 within childcare and school communities and facilities. It also aims to help childcare programs, schools, and partners to react quickly should a case be identified. The guidance includes considerations to help administrators plan for the continuity of teaching and learning if there is community spread of COVID-19.

What is the role of schools in responding to COVID-19?
COVID-19 is a respiratory illness caused by a novel (new) virus, and we are learning more about it every day. There is currently no vaccine to protect against COVID-19. At this point, the best way to prevent infection is to avoid being exposed to the virus that causes it. Stopping transmission (spread) of the virus through everyday practices is the best way to keep people healthy. More information on COVID-19 from CDC is available here. More information on the situation in Florida is available here.

AMERICAN OVERSIGHT

Schools, working together with their local county health department and FLDOH, have an important role in slowing the spread of diseases to help ensure students have safe and healthy learning environments. Schools serve students, staff, and visitors from throughout the community. All of these people may have close contact in the school setting, often sharing spaces, equipment, and supplies.

The guidance is separated into two broad categories:

I. Schools which **DO NOT** have COVID-19 identified in their community
II. Schools which **DO** have COVID-19 identified in their community

Guidance for schools which DO NOT have COVID-19 identified in their community.

The most important thing for schools to do now is **plan and prepare for COVID-19**. As the global outbreak evolves, schools should prepare for the possibility of community-level outbreaks. Schools want to be ready if COVID-19 does appear in their communities.

Steps that childcare and K-12 school administrators in Florida can take now to help prevent the spread of respiratory infectious diseases, including COVID-19:

- **Review, update, and implement emergency operations plans (EOPs).** This should be done in collaboration with the county health department and other relevant partners. Focus on the components, or annexes, of the plans that address infectious disease outbreaks.
    - Ensure the plan includes strategies to reduce the spread of a wide variety of infectious diseases (e.g., seasonal influenza). Effective strategies build on everyday school policies and practices.
    - Ensure the plan emphasizes common-sense preventive actions for students and staff. For example, emphasize actions such as staying home when sick; appropriately covering coughs and sneezes; frequent hand washing; and cleaning frequently touched surfaces.
        - CDC has workplace resources such as posters with messages for staff about staying home when sick and how to avoid spreading germs at work.
        - Other health and education professional organizations may also have helpful resources your school can use or share. For example, the American Academy of Pediatrics provides information on germ prevention strategies and reducing the spread of illness in childcare settings.
    - Ensure handwashing strategies include washing with soap and water for at least 20 seconds or using a hand sanitizer that contains at least 60% alcohol if soap and water are not available.
        - CDC offers several free handwashing resources that include health promotion materials, information on proper handwashing technique, and tips for families to help children develop good handwashing habits.

AMERICAN OVERSIGHT

- Reference key resources while reviewing, updating, and implementing the EOP:
  - Multiple federal agencies have developed resources on school planning principles and a 6-step process for creating plans to build and continually foster safe and healthy school communities *before*, *during*, and *after* possible emergencies. Key resources include guidance on developing high-quality school emergency operations plans, and a companion guide on the role of school districts in developing high-quality school emergency operations plans.
  - The Readiness and Emergency Management for Schools (REMS) Technical Assistance (TA) Center's website contains free resources, trainings, and TA to schools and their community partners, including tools and resources on emergency planning and response to infectious disease outbreaks.
- **Monitor and plan for absenteeism.**
  - Review the usual absenteeism patterns at your school among both students and staff.
  - Alert County Health Department officials about large increases in student and staff absenteeism, particularly if absences appear due to respiratory illnesses (like the common cold or the "flu," which have symptoms similar to COVID-19).
  - Review attendance and sick leave policies. Encourage students and staff to stay home when sick. Use flexibility, when possible, to allow staff to stay home to care for sick family members.
  - Discourage the use of perfect attendance awards and incentives.
  - Identify critical job functions and positions, and plan for alternative coverage by cross-training staff.
  - Determine what level of absenteeism will disrupt continuity of teaching and learning.
- **Establish procedures for students and staff who are sick at school.**
  - Establish procedures to ensure students and staff who become sick at school or arrive at school sick are sent home as soon as possible.
  - Keep sick students and staff separate from well students and staff until they can leave.
  - Remember that schools are not expected to screen students or staff to identify cases of COVID-19. The majority of respiratory illnesses are not COVID-19. If a community (or more specifically, a school) has cases of COVID-19, county and state health officials will help identify those individuals and will follow up on next steps.
  - Share resources with the school community to help families understand when to keep children home. This guidance, not specific to COVID-19, from the American Academy of Pediatrics can be helpful for families.
- **Perform routine environmental cleaning.**
  - Routinely clean frequently touched surfaces (e.g., doorknobs, light switches, countertops) with the cleaners typically used. Use all cleaning products according to the directions on the label.
  - Provide disposable wipes so that commonly used surfaces (e.g., keyboards, desks, remote controls) can be wiped down by students and staff before each use.

AMERICAN OVERSIGHT

- **Create communications plans for use with the school community.**
  - Include strategies for sharing information with staff, students, and their families.
  - Include information about steps being taken by the school or childcare facility to prepare, and how additional information will be shared.

Childcare and K-12 administrators can also support their school community by sharing resources with students (if resources are age-appropriate), their families, and staff. Consider sharing the following fact sheets and information sources:

- Information about COVID-19 available through the Florida Department of Health
- General CDC fact sheets to help staff and students' families understand COVID-19 and the steps they can take to protect themselves:
  - What you need to know about coronavirus disease 2019 (COVID-19)
  - What to do if you are sick with coronavirus disease 2019 (COVID-19)
  - Stop the spread of germs – help prevent the spread of respiratory viruses like COVID-19
- CDC Information on COVID-19 and children

For questions about students who plan to travel, or have recently traveled, to areas with community spread of COVID-19, refer to CDC's FAQ for travelers. Schools may need to postpone or cancel trips that could expose students and staff to potential community spread of COVID-19. Students returning from travel to areas with community spread of COVID-19 must follow guidance they have received from health officials. COVID-19 information for travel is updated regularly on the CDC website.

Guidance for schools with identified cases of COVID-19 identified in their community.

(The guidance provided here is based on current knowledge of COVID-19. As additional information becomes available about the virus, how it spreads, and how severe it is, this guidance may be updated.)

The Florida Department of Health will provide regular updates on its website, regarding current COVID-19 case counts. If FLDOH or County Health Officials report that there are cases of COVID-19 in your county, additional steps may be warranted to prevent spread within schools in the community. There are two main actions that may be considered:

1) Exclusion of students or staff from attending school;
2) Cancellation or postponement of school events or school dismissal.

Each of these will be described in more detail below.

Exclusion of students or staff from attending school.

Exclusion from school or childcare settings is used in various circumstances to control the possible spread of communicable disease. It has been used for viral

AMERICAN OVERSIGHT

hepatitis, shigella, scabies, and other communicable diseases. It may also be appropriate for minimizing the spread of COVID-19. Different scenarios may lead to a school exclusion action.

- ***Students or staff who are identified by the FLDOH or County Health Departments as close contacts of a laboratory confirmed COVID-19 patient.*** Such close contacts may be instructed by the County Health Department to self-isolate for a period of 14 days and to monitor for symptoms. Therefore, such individuals should be excluded from school or childcare settings, during the self-monitoring period. County Health Departments will attempt to inform schools of close contacts under self-isolation guidance, or the individual may inform the school themselves. In either circumstance, it is critical to maintain confidentiality of the student or staff member as required by the Americans with Disabilities Act and the Family Education Rights and Privacy Act.

- ***Students or staff may be returning travelers from level 2 or level 3 travel advisory countries.*** Such returned travelers may be instructed by CDC to self-isolate and monitor for symptoms for 14 days. Therefore, such individuals should also be excluded from school or childcare settings, during the self-monitoring period. Additional information regarding the relevant countries for return travel exclusion can be found on the CDC website. State and County Health Department Officials may not have contact details on all relevant returning travelers, so only the traveler or their family members will be able to inform the school they are under self-isolation guidance. Once again, it is critical to maintain confidentiality of the student or staff member as required by the Americans with Disabilities Act and the Family Education Rights and Privacy Act.

Cancellation or postponement of school events, or school dismissal

Minimizing large school gatherings or school dismissal are forms of social distancing that may be helpful in reducing the spread of COVID-19. Such school based social distancing efforts were used during the 2009 Influenza H1N1 pandemic, with varying degrees of success. The relative benefits of such social distancing measures must be balanced against the disruption caused to educational and social activities and inconvenience to community members.

Childcare and school administrators should work in close collaboration and coordination with county health department officials to make school dismissal and large event cancellation decisions. Schools are not expected to make decisions about dismissal or canceling events on their own. Schools can seek specific guidance from county health department officials to determine if, when, and for how long to take these steps. The nature of these actions (e.g., geographic scope, duration) may change as the local outbreak situation evolves.

During school dismissals, childcare programs and schools may stay open for staff members (unless ill) while students stay home. Keeping facilities open a) allows teachers to develop and deliver lessons and materials remotely, thus maintaining

AMERICAN OVERSIGHT

continuity of teaching and learning; and b) allows other staff members to continue to provide services and help with additional response efforts.

If an ill student or staff member attended school prior to being confirmed as a COVID-19 case:

- **County Health Department officials may recommend temporary school dismissals if a student or staff member attended school prior to being confirmed as a COVID-19 case.** Local health officials' recommendations for the scope (e.g., a single school, a full district) and duration of school dismissals will be made on a case-by-case basis, based on the most up-to-date information about COVID-19 distribution in the impacted community.
- **Schools should work with the county health department and other relevant leadership to communicate the possible COVID-19 exposure**. This communication to the school community should align with the communication plan in the school's emergency operations plan. In such a circumstance, it is critical to maintain confidentiality of the student or staff member as required by the Americans with Disabilities Act and the Family Education Rights and Privacy Act.
- **If a student or staff member has been identified with COVID-19, school and program administrators should seek guidance from County Health Department officials to determine when students and staff should return to school and what additional steps are needed for the school community.** In addition, students and staff who are well but are taking care of or share a home with someone with a case of COVID-19 should follow instructions from County Health Department officials to determine when to return to school.

Additional social distancing measures may involve cancellation of school events. These decisions should be made on a case-by-case basis. School administrators are encouraged to consult County Health Department officials when determining the advantages and disadvantages of cancelling events, given the background COVID-19 situation in the community. Examples of school-based extracurricular group activities or large events include: after-school assemblies, pep rallies, field trips, cultural and sporting events.

If schools are dismissed, schools can consider the following steps:

- **Discourage students and staff from gathering or socializing anywhere.**
  - Discourage gatherings at places like a friend's house, a favorite restaurant, or the local shopping mall.
- **Ensure continuity of education.**
  - Review continuity plans, including plans for the continuity of teaching and learning. Implement e-learning plans, including digital and distance learning options as feasible and appropriate.
  - More information regarding Florida Virtual School can be found here.

AMERICAN OVERSIGHT

- Determine, in consultation with school district officials or other relevant state or local partners:
  - If a waiver is needed for state requirements of a minimum number of in-person instructional hours or school days (seat time) as a condition for funding;
  - How to convert face-to-face lessons into online lessons and how to train teachers to do so;
  - How to triage technical issues if faced with limited IT support and staff;
  - How to encourage appropriate adult supervision while children are using distance learning approaches; and
  - How to deal with the potential lack of students' access to computers and the Internet at home.
- **Ensure continuity of meal programs.**
  - Consider ways to distribute food to students.
  - If there is community spread of COVID-19, design strategies to avoid distribution in settings where people might gather in a group or crowd. Consider options such as "grab-and-go" bagged lunches or meal delivery.
- **Consider alternatives for providing essential medical and social services for students.**

Summary

China appears to have constrained transmission of COVID-19 outside of Hubei Provence through rapid and intensive containment and mitigation interventions. Most countries only attempt social distancing and hygiene interventions when widespread transmission is apparent. This gives the virus many weeks to spread with a higher basic reproduction number (R0) than if they were in place before transmission was detected or widespread. Pre-emptive, low cost, hygiene enhancement and social distancing in the context of imminent community transmission of novel coronavirus COVID-19 should be considered. Early interventions to reduce the average frequency and intensity of exposure to the virus might reduce infection risk, reduce the average viral infectious dose of those exposed, and result in less severe cases who are less infectious. A pre-emptive phase would also assist government, workplaces, schools, and businesses to prepare for a more stringent *phase. Countries, and subregions of countries, without recognised COVID-19 transmission should assume it is present and consider implementation of low cost enhanced hygiene and social distancing measures*.

Rationale for Pre-emptive Interventions

It is estimated that approximately two thirds of COVID-19 cases exported from China from 1st to 13th of January have gone undetected globally.[1] Most of these exported cases will be mild and may only be detected after several hundred cases have accumulated and severe or fatal cases are recognised 5 to 8 weeks later, as has likely occurred in the recent COVID-19 outbreaks in Iran, South Korea, Italy, and Seattle in the USA.[2]

The spread of novel coronavirus COVID-19 transmission globally has been very rapid. The basic reproduction number is estimated at between 2 to 3.[3,4] The mode of transmission is thought to be droplet and contact infection, although opportunistic or close range airborne infection may be involved.[4]

The transmission dynamics of the early cases of COVID-19 were significantly different to those during the SARS epidemic. In particular the proportion of cases from healthcare settings was low and the proportion with no known risk exposures was high.[4] Another significant factor is that viral loads in nasopharyngeal and respiratory secretions are highest soon after symptom onset in COVID-19 cases[5] compared to a peak of around 10 days in SARS cases,[6] making transmission before entering health care facilities more likely.

AMERICAN OVERSIGHT

Even though the understanding of transmission dynamics is at an early stage, they do suggest that the step-wise introduction of stringent measures will be necessary to control this epidemic and highlights the importance of early community control.

Quarantine, city "lockdowns", complete childcare, school, university and work closures, and cancellation of mass gatherings/events have significant social and economic impact and are unlikely to be implemented until significant transmission is confirmed – when it may be less effective. However, there are a range of lower level, potentially cost neutral, pre-emptive interventions that could be considered when transmission is only suspected or anticipated. Here we explore whether low cost pre-emptive enhanced hygiene and social distancing should be implemented prior to confirmation of community transmission in countries without, or with minimal, confirmed person-to-person transmission of COVID-19.

The purpose of pre-emptive interventions is to slow the transmission of disease and limit the impact on health services, particularly hospitals and intensive care units, to ensure access to high level care when needed.

The concept of pre-emptive deployment is based upon the following assumptions which require further exploration and are elaborated upon below:

1. Community wide COVID-19 transmission may be occurring undetected or may only be recognised after containment is no longer feasible.
2. Interventions implemented after community wide transmission is detected will be less effective.
3. Reducing the force of infection, particularly early, will delay the epidemic peak, blunt the epidemic peak, spread cases over a longer time, and help to limit the potential for critical care services to be overwhelmed, which may be lifesaving.[7,8]
4. Enhanced hygiene and social distancing interventions should:
    a. Decrease the total number of cases per week but extend duration of the epidemic
    b. Decrease the severity of cases through reducing viral inocula.

Figure 1 below illustrates the concept of limiting the peak in cases so that health services are less likely to be overwhelmed (red dashed line) and there is less unmet health service need. Unmet need may include inability to admit patients to a hospital or to provide hospitalised patients in critical condition access to intensive care. Interventions to reduce infection lead to longer, but less peaked, epidemics. A slower evolution in the epidemic also allows time for health care staff to provide better care, for recovery of infected health care workers, for learning and adapting to the evolving situation by administrators, and for vaccines and treatments to be developed. Although we have not validated this principle for COVID-19 epidemics it is sufficiently validated in simulations for influenza that it would appear a reasonable assumption in response to this emergent disease.[9]

AMERICAN OVERSIGHT

Electronic copy available at: https://ssrn.com/abstract=3549276

Figure 1: Intended impact of enhanced hygiene and social distancing measures on the COVID-19 pandemic adapted from Fong.[8]

Enhanced hygiene and social distancing measures may reduce both numbers of cases and severity of cases through several mechanisms.

We suggest that a pre-emptive implementation of low cost interventions prior to detection, but in imminent expectation of community transmission should be considered because it may decrease both the total numbers of cases and severity of cases. This principle applies equally well to subregions of countries that have not as yet detected community transmission events.

The basic reproductive number (R0) is the average number of secondary cases of an infectious disease that arise from cases in a totally susceptible population, and reflects the epidemic potential of a pathogen.[10] R0 is a function of the number of contacts an infectious person has, the risk of transmission per contact, and the duration of infectiousness.

Social distancing mostly acts on the first factor, by reducing the number of contacts each person makes. Hygiene measures mostly act on the second factor, as they reduce the risk of transmission if a contact occurs. There are epidemiological observations from the outbreak in China that might indicate the effectiveness of pre-emptive implementation of the measures in the community. The WHO-China Joint Mission on COVID-19 determined that widespread community transmission and outbreaks occurred in Wuhan prior to the implementation of comprehensive control measures.[4] However in other parts of China, community transmission has been limited and most transmission has occurred in families. For example, among 344 clusters involving 1308 cases (out of a total 1836 cases reported) in Guangdong Province and Sichuan Province, 78%-85% have occurred in families.[4] This is likely due to the intense quarantine and social distancing measures implemented in areas outside Hubei prior to the establishment of widespread community transmission.

Community wide interventions may decrease the average viral exposure dose encountered in the community. People exposed to a higher viral dose (inoculum) are more likely to become infected and suffer more severe disease. Animal models for other coronavirus infections demonstrate that increased viral inocula lead to more severe disease and higher viral loads in the lungs and other organs/fluids.[11] The Amoy Gardens SARS outbreak in 2003

AMERICAN OVERSIGHT
FL-DOH-20-0900-A-014261
Electronic copy available at: https://ssrn.com/abstract=3549276

provided evidence that cases with presumed higher exposure to the index case had higher nasopharyngeal viral loads and more severe illness.[12] Modelling of the 2009 influenza pandemic also supported a hypothesis that severe illness was due to a higher infectious dose of the virus mediated by the number of simultaneous infectious contacts.[13] Viral loads in severe MERS cases were higher than those in a mild group and the patients in the severe group had more prolonged viral shedding in respiratory secretions, beyond 21 days after the onset of symptoms, whereas viral RNA was no longer detected by 21 days in the mild group.[14]

Therefore, it is proposed that early measures that lower the number of contacts, the likelihood of transmission, and average viral infective dose in an area of new transmission could have a multiplier effect leading to less cases, and less severe cases who are less infectious. This early reduction of the R0 would result in fewer cases overall and have a significant negative multiplier effect on the overall impact of the epidemic, including the number of deaths (Figure 2). The higher case fatality rate in Wuhan, compared with other provinces in China may partially relate to health-care resource availability and shortages in the face of overwhelming community transmission, as well as greater severity of disease due to higher infection doses.[7,12] These interventions will be particularly important for people over 60 years of age and those with underlying medical conditions.

Figure 2: Conceptual model of how pre-emptive interventions with a negative multiplier effect could impact an impending epidemic

Low cost Hygiene and Social Distancing Interventions

Box 1. Workplace Interventions

- No handshaking policy
- Promote cough and sneeze etiquette (but focus is on excluding ill staff)
- Videoconferencing as default for meetings
- Defer large meetings
- Enforced sanitisation of hands at entrance
- Regular hand sanitation schedule reminders via email
- Lunch at desk rather than in lunch room
- Gamifying hygiene rules e.g. to discourage touching face
- Ill* people stay at home and ill workers immediately isolated
- Hold necessary meetings outside in open air if possible
- Staff with ill household contacts should stay at home**
- Disinfect high touch surfaces regularly and between users
- Work from home where possible and consider staggering of staff where there is no loss of productivity from remote work
- Consider opening windows and adjusting air conditioning***
- Limit food handling and sharing of food in the workplace
- Assess staff business travel risks****
- Enhance hygiene and screening for illness among food preparation (canteen) staff and their close contacts.
- Analyse the root cause of crowding events on site and prevent through rescheduling, staggering, cancelling.

Box 1. Notes: *"Ill" person refers to someone with an undiagnosed respiratory illness or fever, who is not yet under investigation for COVID-19 but nevertheless could be an unrecognised case. ** This could be costly unless used judiciously while awaiting exclusion of COVID-19 in the case and should be introduced based on likelihood of local transmission. *** Evidence that low temperature and low humidity in air conditioned environments may enhance the survival of coronaviruses such as SARS.[15] **** Sites such as the CDC travel risk assessment site may be useful https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html

Box 2. School Interventions

- Supervised sanitisation of hands at entrance and at regular intervals
- Defer activities that lead to mixing between classes and years.
- Promote cough and sneeze etiquette (but focus on excluding ill persons)
- Strict stay at home policy if ill
- Gamifying hygiene rules e.g. to discourage touching face
- Regular handwashing schedule
- Disinfect high touch surfaces regularly and between users
- Outdoor lessons where possible
- Consider opening windows and adjusting conditioning
- Enhance hygiene and screening for illness among food preparation (canteen) staff and their close contacts
- Review after-school care arrangements that lead to mixing of children from multiple classes and ages

AMERICAN OVERSIGHT

Electronic copy available at: https://ssrn.com/abstract=3549276

Box 3. Household-based Interventions

All Households

- Enhanced hand sanitisation
- Gamifying hygiene rules e.g. to discourage touching face
- Disinfect high touch surfaces regularly
- "Welcome if you are well" signs on front door.
- Increase ventilation rates in the home by opening windows or adjusting air conditioning
- Promote cough and sneeze etiquette

Households with ill members (in addition to measures above)

- Ill household members are given own room if possible and only one person cares for them
- The door to the ill persons room is kept closed*
- Wearing simple surgical/dust masks by both infected persons and other family members caring for the case.
- Consider extra protection or alternative accommodation for household members over 65 years or with underlying illness.

*Reference Wein.[16]

Box 4. Commercial/entertainment/transport setting Interventions

- Sanitisation of hands at building entrance encouraged
- Tap and pay preferred to limit handling of money.
- Disinfect high touch surfaces regularly
- Avoiding crowding through booking and scheduling, online pre-purchasing, limiting attendance numbers.
- Enhance hygiene and screening for illness among food preparation staff and their close contacts.
- Enhance airflow and adjust air conditioning
- Public transport workers/taxi/ride share – vehicle windows opened where possible, increased air flow, high-touch surfaces disinfected.

Organisational capacity benefits

A pre-emptive phase would assist organisations to build capacity for future implementation of more stringent social distancing interventions including allocating responsibilities, consulting with staff and adapting protocols and practicing implementation. WHO is supportive of pre-emptive interventions to prevent COVID-19 in work places.[17]

The Costs of Pre-emptive intervention

The suite of low cost pre-emptive interventions, other than a working from home policy, is unlikely to affect work productivity and may provide the community with some re-assurance that all is being done to prevent the epidemic. Some may see it as an over-reach but thus far

AMERICAN OVERSIGHT

Electronic copy available at: https://ssrn.com/abstract=3549276

communities seem to accept or voluntarily adopt low cost interventions and acceptance may be enhanced through consultation and trust building.[18,19]

Influenza co-benefits

For regions approaching their influenza season, optimal prevention and control of seasonal influenza, such as vaccination, in the face of potential COVID-19 co-circulation is also crucial, to minimise the double burden on health services. The measures discussed here (enhanced hygiene and social distancing) are also effective against influenza, resulting in potential co-benefits for both pathogens.

Limitations

Most of the research on mitigation is based on influenza control and it is clear that SARS-CoV-2 transmission dynamics will be different, however, droplet, contact and airborne precautions and the interventions deployed in China align with recommended influenza transmission controls. The assumptions should be modelled to better understand the costs and benefits. The use of masks outside of health settings is controversial and it is important that masks not be diverted from health care supplies. However, surgical masks are protective of large droplet spread and have approximately half the effectiveness of N95 mask for small droplet transmission, and are suggested to be cost saving in some modelled pandemic influenza scenarios.[20] They may have a limited role in the community setting prior to widespread transmission if there are adequate supplies and should be considered for use in households caring for COVID-19 cases at home.[16]

Conclusion

Given the ongoing global dissemination of COVID-19, as of early March 2020, it would be sensible for most countries and regions to assume they have had an importation of at least one case of COVID-19 and that the disease is spreading locally whether recognised or not. We believe these practices should be implemented in all countries as soon as possible.

Hepatitis A Surveillance
January 1, 2018–March 14, 2020

From January 1, 2018 through March 14, 2020, 4,330 hepatitis A cases were reported.

The number of reported hepatitis A cases more than doubled from 2016 to 2017 and nearly doubled again in 2018 after remaining relatively stable in previous years. Case counts in 2019 saw an over 500% increase from 2018.

Counties that reported a hepatitis A case last week are outlined in black. Since January 1, 2018, 98% of cases have likely been acquired locally in Florida.

There were 31 hepatitis A cases reported last week. Case counts in weeks prior to the public health emergency declaration are shown in light red while case counts in weeks since are shown in red.

From March 8, 2020 to March 14, 2020, county health departments (CHDs) administered 3,020 (57%) of the total 5,337 first doses of hepatitis A vaccine administered to adults age 18 years and older, as recorded in Florida SHOTS. In 2019 CHDs have administered 196,778 vaccinations and non-CHDs have administered 230,872 vaccinations for a total of 427,650 vaccinations. Vaccinations given before the public health emergency declaration are shown in lighter colors than those given after. Since January 2019, CHDs have administered 196,778 vaccinations and non-CHDs have administered 230,872 vaccinations for a total of 427,650 vaccinations. Since declaration of the PHE, CHDs have administered 104,374 and non-CHDs have administered 115,400 vaccinations.

*Public health emergency (PHE) issued August 1, 2019

Florida HEALTH

Hepatitis A Surveillance Systems Summary

Case Data

- Current case data are preliminary and will change as new information is gathered. The most recent data available are displayed in this report.
- Hepatitis A is a reportable disease in Florida. Case information is documented by county health department epidemiologists in Merlin, Florida's reportable disease surveillance system.
- Only Florida residents are included in case counts. Hepatitis A case counts include both confirmed and probable cases.
- Map counts and rates are determined by the individual's county of residence; these data do not take into account location of exposure.
- For more information about reportable diseases, please visit FloridaHealth.gov/DiseaseReporting.
- For more information about Florida's guides to surveillance and investigation, including disease-specific surveillance case definitions, please visit FloridaHealth.gov/GSI.

Population Data

- Population data from 2019 used to calculate incidence rates are from FLHealthCHARTS (Community Health Assessment Resource Tool Set).
- For more information about FLHealthCHARTS, please visit FLHealthCharts.com.

Vaccination Data

- Vaccination data are from Florida's statewide immunization registry, Florida SHOTS. Use of Florida SHOTS is optional for most providers.
- For more information about Florida SHOTS, please visit flshotsusers.com.

From March 8, 2020 to March 14, 2020, county health departments (CHDs) administered 3,020 (57%) of the total 5,337 first doses of hepatitis A vaccine administered to adults age 18 years and older, as recorded in Florida SHOTS. In 2019 CHDs have administered 196,778 vaccinations and non-CHDs have administered 230,872 vaccinations for a total of 427,650 vaccinations. Vaccinations given before the public health emergency declaration are shown in lighter colors than those given after. Since January 2019, CHDs have administered 196,778 vaccinations and non-CHDs have administered 230,872 vaccinations for a total of 427,650 vaccinations. Since declaration of the PHE, CHDs have administered 104,374 and non-CHDs have administered 115,400 vaccinations.

From March 8, 2020 to March 14, 2020 there were 2,135 first doses of hepatitis A vaccine administered to at-risk adults age 18 years and older. Vaccines administered to at-risk adults are defined as those given through the 17.02 or 09 programs or by a federally qualified health center.

AMERICAN OVERSIGHT

High-Risk Group Vaccination Activities Reported by CHDs in ReadyOp

High-Risk Group	CHD # Vaccinated This Week	CHD # Vaccinated Since April 2019
Inmates in County Jail	455	64,725
Homeless Shelter	248	31,696
Drug Treatment Centers	175	42,795
Other Facilities/Locations	570	16,376
Totals High-Risk Vaccinated	**1,448**	**155,592**

Cooperating Provider Vaccination Activities

CHDs are coordinating with vaccination partners at jails, FQHC, drug treatment facilities, EMS providers and hospitals to enroll them in the Section 317 Program to provide vaccination services.

High-Risk Site Target	Total Sites	Sites Enrolled as Providers	Sites in Progress of Being Enrolled	Sites Supported by CHD	Sites Engaged in Discussions	Individuals Vaccinated This Week by Cooperators	Individuals Vaccinated 2019 to Date by Cooperators
Detention Centers	73	44	2	24	2	344	25,157
Community Partners	109	91	5	8	5	51	1,586
Totals	**182**	**135**	**7**	**32**	**7**	**395**	**26,743**

CHDs are also coordinating with other vaccination partners to support hepatitis A vaccination efforts utilizing a Memorandum of Agreement (MOA) between the CHD and the participating vaccination entity. During Week 11, there were **33 CHDs using MOAs.**

MOA Vaccination Entity	MOAs in Place	MOAs Pending	Vaccinated This Week	Vaccinated to Date
Emergency Medical Services	13	7	2	891
Hospitals	27	6	1	492
Other Health Care Facility	24	8	4	967

AMERICAN OVERSIGHT

County Population, Target Population, and Case Occurrence

For the following table, county population estimates are from the Office of Economic and Demographic Research, Florida Legislature. Estimated Target Population is derived from the 2017 HUD Homeless Management Information System and the 2015–16 Substance Abuse and Mental Health Services Administration. The Estimated Target Population reflects 80% of the total high-risk population.

Guidance from the Centers for Disease Control and Prevention generally indicates that a vaccination rate of 80% of a population that is susceptible to a vaccine-preventable disease is adequate to curtail a disease outbreak in this population.

Vaccination data are as recorded in Florida's statewide immunization registry, Florida SHOTS, by CHDs and cooperating providers. The cumulative target population vaccination data will be updated for each county at the end of each month and reflected in the next weekly Hepatitis A Situation Report. The Target Population Vaccinated data reflect the data entered in Florida SHOTS by CHDs and enrolled providers such as county jails and community partners.

Case data are from the Merlin disease surveillance system. The Public Health Emergency Declaration recognizes a case rate of 10 cases or more per 100,000 population in counties of importance in controlling the hepatitis A outbreak.

Subject: Week 11, 2020 Florida Flu Review
Date: Wednesday, March 18, 2020 4:23:27 PM
Attachments: Week 11, 2020 Florida Flu Review.pdf

Good afternoon!

Please find attached the week 11 Florida Flu Review.

Statewide, the percentage of respiratory specimens testing positive for influenza in sentinel laboratories decreased steadily over the last three weeks. Despite this decrease in laboratory-confirmed influenza activity, the percentage of visits for ILI increased notably during those same three weeks.

Recent trends in ILI activity may be a data artifact driven by an increase in the number of people seeking care for respiratory illness in response to concerns about coronavirus disease 2019 (COVID-19). It is also possible that these data represent a true increase in ILI activity statewide. The data displayed in this report are intended to track influenza activity in Florida. For information about COVID-19 in Florida, please visit: FloridaHealth.gov/diseases-and-conditions/COVID-19/.

For questions regarding COVID-19 in Florida please email COVID-19@FLHealth.gov or call 1-866-779-6121.

Eleven outbreaks were reported, up from ten outbreaks in the previous week. Of the eleven outbreaks reported, one was influenza-associated and ten were ILI.

No new influenza-associated pediatric deaths were reported. Twelve influenza-associated pediatric deaths have been reported so far this season; 75% of children were not vaccinated for the 2019-20 season.

Influenza A 2009 (H1N1) remained the predominant strain.

The Centers for Disease Control and Prevention (CDC) continues to recommend that people who have not yet been vaccinated do so as soon as possible. It is especially important for people at higher risk for complications (children, adults =65 years, pregnant women, and people with underlying medical conditions).

In addition to getting vaccinated, the Florida Department of Health recommends you take

AMERICAN OVERSIGHT

everyday precautions to prevent the spread of influenza:

- Wash your hands often with soap and water (if soap is not available, use an alcohol-based sanitizer).
- Avoid touching your eyes, nose, and mouth.
- If you do get sick, stay home until fever-free for at least 24 hours (without the use of fever-reducing medication).

Best,

Amy E. Bogucki, MPH
Surveillance Epidemiologist - VPDs

Florida ILI Surveillance System Summary 16

Background

Influenza, or flu, is a respiratory infection caused by a variety of influenza viruses. Most experts believe influenza viruses spread primarily by droplets made when infected people cough, sneeze, or talk. Less often, a person might become infected with influenza by touching a surface or object contaminated with influenza virus and then touching their own mouth, eyes, or nose.

The best way to prevent influenza infection is to get vaccinated each year. Influenza vaccines protect against the three or four influenza viruses research suggests will be most common.

Influenza Surveillance

Individual cases of influenza are not reportable in Florida with the exception of novel influenza A (a new subtype of influenza A) and influenza-associated pediatric deaths. All outbreaks, including those due to influenza or influenza-like illness (ILI), are reportable in Florida.

Influenza surveillance is conducted to detect changes in the influenza virus. These data are used to help determine the annual northern hemisphere vaccine composition and to prepare for potential pandemics.

Surveillance is also conducted to identify any unusually severe presentations of influenza, detect outbreaks, and determine the onset, peak, and wane of the influenza season to assist with influenza prevention, particularly in high-risk populations like the very young, adults aged ≥65 years, and pregnant women.

The influenza reporting year is defined by standard reporting weeks outlined by the Centers for Disease Control and Prevention, where every year has 52 or 53 reporting weeks. Increased surveillance for influenza in Florida for the 2019-20 season began in week 40 (starting on September 29, 2019) and will extend through week 20 (ending May 16, 2020). This report is produced by the Florida Department of Health on a weekly basis during the regular influenza season and an abbreviated report is published on a biweekly basis during the summer months.

Surveillance case definitions for ILI vary slightly across surveillance systems. **For more information on Florida's influenza surveillance systems and associated case definitions, see page 16.**

Statewide Activity

Figure 1: In week 11, **the percent of emergency department and urgent care center visits for ILI statewide increased** and was above peak levels observed during the 2016-17 and 2018-19 seasons. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

▲ **Figure 1** shows **the percent of visits for ILI** for facilities participating in ESSENCE-FL (n=370) statewide for the current season (week 40, 2019 to week 11, 2020) and the last three seasons (2018-19, 2017-18, and 2016-17). The ESSENCE-FL ILI syndrome captures visits with chief complaints that include the words "influenza" or "flu," or chief complaints that include the words "fever" and "cough," or "fever" and "sore throat." For more information on the use of ESSENCE-FL for influenza and ILI surveillance, see page 16.

AMERICAN OVERSIGHT

Statewide Activity

Figure 2: In week 11, Florida reported **widespread geographic spread of influenza** to the Centers for Disease Control and Prevention.

◀ **Figure 2** shows Florida's self-reported **geographic spread of influenza** as reported to the Centers for Disease Control and Prevention, week 40, 2016 to week 11, 2020.

Defining geographic spread of influenza:

Sporadic: small numbers of laboratory-confirmed influenza or a single laboratory-confirmed influenza outbreak has been reported, but there is no increase in cases of ILI.

Local: outbreaks of influenza or increases in ILI and recent laboratory confirmed influenza in at least two but less than half the regions of the state.

Regional: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state with recent laboratory evidence of influenza in those regions.

Widespread: Outbreaks of influenza or increases in ILI cases and recent laboratory-confirmed influenza in at least half the regions of the state with recent laboratory evidence of influenza in the state.

Figure 3: In week 11, **the percent of patients with ILI reported by ILINet providers statewide decreased** and was below levels observed during previous seasons. Of note, the number of reporting providers remained low in recent weeks.

Figure 3 shows the **percent of patients with influenza-like illness (ILI)** reported statewide by ILINet providers (n=4), week 40, 2016 to week 11, 2020. ▶

For ILINet, ILI is defined as a fever ≥100°F in conjunction with sore throat or cough in the absence of another known cause.

Figure 4: In week 10 (ending 3/7/20), **the number of pneumonia and influenza deaths identified statewide decreased** and was below levels observed at this time in previous seasons.

◀ **Figure 4** shows **pneumonia and influenza (P&I) deaths*** for all Florida counties from the Bureau of Vital Statistics, as reported into ESSENCE-FL, week 40, 2016 to week 10, 2020.

*Recent P&I death counts are preliminary numbers that may change as more data are received. The most recent data available are displayed here.

AMERICAN OVERSIGHT

County Influenza Activity

Figure 5: Most counties reported **mild activity** for week 11. Ten counties reported **moderate activity,** and no counties reported **elevated activity.**

Figure 7: Most counties reported **activity at a plateau** for week 11. Seventeen counties reported **increasing activity,** and 22 counties reported **decreasing activity**.

▲ **Figures 5-6** show **county influenza activity data** as reported by county health departments in EpiGateway. These data are collected on a weekly basis and are used to determine influenza activity levels for each county (Figure 5). County health departments also report their weekly influenza activity trend (Figure 6).

Figure 7: The **percent of specimens testing positive for influenza** **decreased** in recent weeks. In week 11, the **percent of specimens testing positive for rhinovirus** was higher than other respiratory viruses under surveillance.

▲ **Figure 7** shows **the percent of laboratory results testing positive for eight common respiratory viruses**, as reported by laboratories participating in the National Respiratory and Enteric Virus Surveillance System (NRVESS) and laboratories reporting validated respiratory virus data to the Florida Department of Health via electronic laboratory reporting (n=8), week 40, 2019 to week 11, 2020.

AMERICAN OVERSIGHT

Influenza and ILI Outbreaks

Week 11 Outbreaks at a Glance:

Number Reported:

11 Outbreaks

Influenza-Associated:

4 Outbreaks

Severe Outcomes*:

1 Outbreak

Outbreak Summary:

In week 11, four influenza-associated and seven ILI outbreaks were reported, a slight increase from the previous week.

Severe outcomes* were reported in one of eleven outbreaks. One hospitalization and no deaths were reported in this outbreak.

During the previous season, severe outcomes were most commonly reported in facilities serving adults aged ≥65 years (assisted living facilities, nursing facilities, and long-term care facilities).

▲ **Figure 8** shows **reported influenza or ILI outbreaks by county**. Counties with outbreaks reported in week 11 are **outlined in bold.**

Figure 9: In week 11, **seven outbreaks** were reported among **facilities serving adults aged ≥65 years, three outbreaks** were reported in **facilities serving children,** and **one outbreak** was reported among **other facilities.**

◀ **Figure 9** shows the number of **influenza-associated or ILI outbreaks by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020. More information on how these setting categories are defined is available on pages 6-7.

Figure 10: As of week 11, **63.9% of outbreaks** reported so far this season were **influenza-associated.**

◀ **Figure 10** shows the total number of outbreaks and the number of influenza-associated outbreaks as reported in Merlin by county health departments for the 2019-20 season as of week 11, 2020. For more information on how ILI and influenza-associated outbreaks are defined, see page 16.

*Severe outcomes are defined as hospitalization or death among one or more outbreak cases.

**Total outbreaks includes the number of influenza-associated outbreaks in addition to outbreaks of ILI.

AMERICAN OVERSIGHT

Influenza and ILI Outbreaks

Facilities Serving Children*:

3 Outbreaks

Summary of Outbreaks in Facilities Serving Children:

In week 11, three new outbreaks of influenza or ILI were reported in facilities serving children.

*Facilities serving children include primary schools, secondary schools, and child daycares.

Figure 11: In week 11, **two influenza-associated outbreaks** and **one ILI outbreak** were reported in **facilities serving children.**

▲ **Figure 11** shows the number of **influenza-associated or ILI outbreaks in facilities serving children by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

Facilities Serving Adults ≥65 yrs.**:

7 Outbreaks

Summary of Outbreaks in Facilities Serving Adults ≥65 years:

In week 11, seven new outbreaks of influenza or ILI were reported among facilities serving adults aged ≥65 years.

**Facilities serving adults ≥65 years include assisted living facilities, nursing homes, and other long-term care facilities.

Figure 12: In week 11, **six ILI outbreaks** and **one influenza-associated outbreak** were reported among **facilities serving adults ≥65 years.**

▲ **Figure 12** shows the number of **influenza-associated or ILI outbreaks in facilities serving adults aged ≥65 years by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

AMERICAN OVERSIGHT

Influenza and ILI Outbreaks

Other Facilities*:

1 Outbreak

Summary of Outbreaks in Other Facilities:

In week 11, one new outbreak of influenza or ILI was reported among other facilities.

*Other facilities include post-secondary schools, adult daycares, correctional facilities, hospitals, shelters, and workplaces.

Figure 13: In week 11, **one influenza-associated outbreak** was reported among **other facilities.**

▲ **Figure 13** shows the number of **influenza-associated or ILI outbreaks in other facilities by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

Table 1: Summary of Influenza or ILI Outbreaks Reported During the 2019-20 Season by Setting

Setting	Number of Outbreaks (Percent of Outbreaks)	Number Influenza-Associated or ILI
Primary or secondary schools	136 (46.7%)	83 influenza-associated outbreaks 53 ILI outbreaks
Child daycares	40 (13.8%)	17 influenza-associated outbreaks 23 ILI outbreaks
Camps	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Assisted living facilities	23 (7.9%)	10 influenza-associated outbreaks 13 ILI outbreaks
Nursing facilities	18 (6.2%)	14 influenza-associated outbreaks 4 ILI outbreaks
Other long-term care facilities	33 (11.3%)	26 influenza-associated outbreaks 7 ILI outbreaks
Adult daycares	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Post-secondary schools	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Correctional facilities	33 (11.3%)	31 influenza-associated outbreaks 2 ILI outbreaks
Hospitals	3 (1.1%)	2 influenza-associated outbreaks 1 ILI outbreak
Additional facility types	5 (1.7%)	3 influenza-associated outbreaks 2 ILI outbreaks
Total	**291 (100.0%)**	**186 influenza-associated outbreaks** **105 ILI outbreaks**

AMERICAN OVERSIGHT

Laboratory Surveillance

Figure 14: **Influenza A 2009 (H1N1)** continues to be the most common influenza virus identified at BPHL in recent weeks, and **influenza A 2009 (H1N1)** is the most common influenza subtype detected so far this season. **Influenza B Victoria lineage** was predominant earlier in the season, but the frequency of those detections decreased in recent weeks.

▲ **Figure 14** shows the number of **influenza-positive laboratory results at the Bureau of Public Health Laboratories (BPHL)** by lab-event date,* week 30, 2019 through week 11, 2020.

Figure 15: **Influenza A 2009 (H1N1)** makes up the largest number of influenza detections at BPHL since week 40. Earlier in the season, **influenza B Victoria lineage** was the most common strain.

◀ **Figure 15** shows the number of **influenza-positive laboratory results for specimens submitted to BPHL** for the current 2019-20 influenza season, week 40, 2019 through week 11, 2020.

The results shown here are reflective of the influenza testing performed by BPHL thus far for specimens with lab event dates* within this timeframe.

*"Lab event date" is defined as the earliest of the following dates associated with influenza testing at the laboratory: date specimen collected, date received by the laboratory, date reported, or date inserted.

**This number includes both influenza A specimens for which subtyping has not yet been performed as well as specimens that tested positive for influenza A but were unable to be subtyped due to low viral load.

AMERICAN OVERSIGHT

Regional Activity

Figures 16-22 show **the percent of emergency department and urgent care center visits for influenza-like illness (ILI)** at ESSENCE-FL participating facilities (n=370) from week 40, 2016 to week 11, 2020. Data are organized by region (see Figure 23).

2019-20 | 2018-19 | 2017-18 | 2016-17

Figure 23 shows **emergency departments** and **urgent care centers** reporting data to ESSENCE-FL (n=370) with regions **outlined in bold**. ▶

*While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined statewide.

AMERICAN OVERSIGHT

At-Risk Populations

Background: At-Risk Populations, Children

Children, especially those with underlying health conditions (like asthma or diabetes), are at higher risk for severe complications from influenza infection. **The single best way to protect children from influenza is to get them vaccinated every year.** The Centers for Disease Control and Prevention continues to recommend influenza vaccination as long as flu viruses are circulating. To find a flu shot near you, please visit: VaccineFinder.org.

Figure 24: In week 11, **the percent of emergency department and urgent care center visits for ILI in children <18 years increased** and was above peak levels observed during the 2016-17 season. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

◀ **Figure 24** shows **the percent of influenza-like illness (ILI) visits among children <18 years** at emergency department and urgent care centers, as reported into ESSENCE-FL, week 40, 2016 to week 11, 2020.

Figures 25-26: In week 11, **no new influenza-associated pediatric deaths were reported**. A total of 12 influenza-associated pediatric deaths have been reported so far this season.

▲ **Figure 25** shows the number of **influenza-associated pediatric deaths** as reported in Merlin **by vaccination status**, week 40, 2016 to week 11, 2020.

▲ **Figure 26** shows the number of **influenza-associated pediatric deaths** as reported in Merlin by **medical history**, week 40, 2016 to week 11, 2020.

In week 11, **no new influenza-associated pediatric deaths were reported**.

A total of 12 influenza-associated pediatric deaths have been reported so far this season. **Influenza vaccination is recommended as long as influenza viruses are circulating, even in March or later.**

Children, especially those with certain health conditions are at increased risk of severe complications from influenza infection. **Influenza vaccination has been shown to reduce a child's likelihood of dying from influenza by up to 60%.** For more information, please visit: www.cdc.gov/media/releases/2017/p0403-flu-vaccine.html.

*The Advisory Committee on Immunization Practices (ACIP) recommends children aged six months to eight years receive two doses of influenza vaccine administered a minimum of four weeks apart during their first season of vaccination for optimal protection. The Florida Department of Health includes children in this age group who did not receive a second influenza vaccine in this unvaccinated category. To learn more about the ACIP's 2019-20 recommendations, please visit: www.cdc.gov/mmwr/volumes/68/rr/rr6803a1.htm.

AMERICAN OVERSIGHT

At-Risk Populations Continued

Background: At-Risk Populations, Pregnant Women

Influenza is five times more likely to cause severe illness in pregnant women (even those who are generally healthy) compared to women who are not pregnant. Pregnant women with certain underlying medical conditions (such as asthma or heart disease) are at even greater risk for severe complications from influenza. **Inactivated influenza vaccines are safe, provide the best protection for pregnant women and their babies, and are recommended at any time during pregnancy.** Vaccination during pregnancy provides maternal antibody protection to infants too young to be vaccinated for influenza and has been shown to protect pregnant women from influenza-associated hospitalization and preterm birth. For more information, talk to your health care provider.

Figure 27: In week 11, the **number of emergency department and urgent care center visits for influenza among pregnant women** **decreased** and was within levels observed at this time during previous seasons.

◀ **Figure 27** shows the **number of visits* to emergency departments and urgent care centers with chief complaints of influenza and pregnancy**, as reported in ESSENCE-FL, week 40, 2016 to week 11, 2020.

*This count **underrepresents** the true number of pregnant women presenting for care to emergency departments and urgent care centers with influenza, however, **the overall trend** has been validated through review of discharge data collected by the Agency of Health Care Administration.

Background: At-Risk Populations, Adults Aged ≥65 Years

Adults ≥65 years old are at higher risk for severe complications from influenza infection, including hospitalization and death. While influenza seasons vary in intensity, adults in this age group bear the greatest burden of severe influenza disease. In Florida, an average of 80% of seasonal pneumonia and influenza deaths occurred in adults aged ≥65 years over the last five influenza seasons. **Annual vaccination is the best way to prevent influenza infection.**

Figure 28: In week 11, the **percent of emergency department and urgent care center visits for ILI in adults ≥65 years** **increased** and was above peak levels during the 2016-17 and 2018-19 seasons. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

◀ **Figure 28** shows **the percent of influenza-like illness (ILI) visits among adults ≥65 years old** at emergency departments and urgent care centers, as reported into ESSENCE-FL, week 40, 2016 to week 11, 2020.

AMERICAN OVERSIGHT

Respiratory Syncytial Virus Surveillance

Background

Respiratory syncytial virus (RSV) is a common respiratory virus that usually causes mild, cold-like symptoms. Young children and older adults, especially those with certain underlying health conditions, are at higher risk for severe illness from RSV. Prophylaxis is available for children who qualify. For more information, contact your health care provider.

▲ **Figure 29** shows **Florida's RSV regional season breakdown.** Regions that are currently in RSV season are marked with **pink stars.**

RSV Surveillance

A statewide RSV surveillance system was implemented in Florida to support clinical decision-making for prophylaxis of premature infants.

The determination of unique seasonal and geographic trends of RSV activity in Florida has important implications for prescribing patterns for initiating prophylaxis to children at high risk for complications from RSV infection. The American Academy of Pediatrics currently recommends pre-approval for prophylactic treatment be made based on state surveillance data. For more information on RSV surveillance systems used in Florida, see the last page of this report.

Florida's RSV season is longer than the rest of the nation and has distinct regional patterns. The Florida Department of Health established regional RSV seasons based on activity thresholds provided by the Centers for Disease Control and Prevention (see Figure 29). **Currently, all of Florida's regions are in RSV season.**

To learn more about RSV in Florida, please visit: FloridaHealth.gov/RSV.

Week 11 (February 23-29, 2020) Activity Summary

In week 11, RSV activity in children <5 years increased and was similar to levels observed at this time in 2019.

One new RSV-associated outbreak was reported in week 11. A total of ten RSV-associated outbreaks have been reported since week 30, 2019 (beginning on July 27, 2019).

Figure 30: In week 11, **the percent of emergency department and urgent care center visits for RSV among children <5 years increased** and was similar to levels observed at this time in 2019.

◀ **Figure 30** shows **the percent of emergency department and urgent care center visits with discharge diagnoses that include RSV or RSV-associated illness among children <5 years***, as reported in ESSENCE-FL, week 30, 2016 to week 11, 2020.

*The overall trend displayed in Figure 30 has been validated through review of hospital discharge data collected by the Agency for Health Care Administration.

*Data shown in figures 34-38 include results for specimens submitted by Acute Respiratory Infection Epidemiology and Surveillance Program (ARIES) providers (n=4) as reported by BPHL.

**Results are organized by week based on "lab event date" (defined as the earliest of the following dates associated with testing at the laboratory: date specimen collected, date received by the laboratory, date reported, or date inserted).

AMERICAN OVERSIGHT

Summary of Notable Outbreaks

Table 2: Summary of Notable* Influenza-Associated, Respiratory Syncytial Virus (RSV)-Associated, and Influenza-like Illness (ILI) Outbreaks Reported in Week 11, 2020

Setting	County	Number of Cases	Number of Cases Hospitalized	Number of Cases Died	Outbreak Etiology	Control Measures Recommended to Facility Leadership	Investigation Status
No notable outbreaks were reported in week 11, 2020.							

*For the purposes of this report, notable outbreaks are defined as influenza-associated, RSV-associated, or ILI outbreaks with two or more hospitalizations, one or more deaths, or 30 or more cases. For more information on how outbreaks are defined, see page 16.

AMERICAN OVERSIGHT

Summary of Included Surveillance Systems

ESSENCE-FL Syndromic Surveillance and Vital Statistics Portal Data source for figures 1, 4, 16-24, 27, 28, 30

Electronic Surveillance System for the Early Notification of Community-based Epidemics (ESSENCE-FL) measures trends in influenza-like illness (ILI) visits from emergency departments (ED) and urgent care clinics (UCC) and influenza mortality by using death certificates from the Bureau of Vital Statistics. Participating EDs and UCCs (n=370) electronically transmit visit data into ESSENCE-FL daily or hourly.

For statewide and regional data on ILI, visits are counted as ED or UCC visits to participating facilities that include the words "influenza" or "flu" in patient chief complaints. Chief complaints with the words "fever" and "cough," or "fever" and "sore throat" are also counted as ILI.

For pneumonia and influenza (P&I) mortality surveillance, death record literals are queried using a free-text query that searches for references to P&I on death certificates. Any mention of P&I in the death certificate literals, with certain exceptions, is counted as a P&I death. Deaths counts are aggregated and presented by date of death.

For respiratory syncytial virus (RSV) surveillance, visits are counted as ED or UCC visits to participating facilities for which RSV or RSV-associated illness is included in the discharge diagnosis.

For RSV mortality surveillance, death record literals are queried using a free-text query that searches for references to RSV on death certificates. Any mention of RSV, syncytial, and bronchiolitis in the death certificate literals, with certain exceptions, is counted as a RSV death. These deaths are also investigated to ensure they meet case definition.

Florida ILINet Data source for figures 2 and 3

ILINet is a nationwide surveillance system composed of sentinel providers, predominately outpatient health care providers. Florida has 118 sentinel providers enrolled in ILINet who submit weekly ILI and total visit counts, as well as submit ILI specimens to the Bureau of Public Health Laboratories for virologic surveillance. For healthcare providers interested in enrolling in ILINet, contact your local county health department.

ILINet is also used as a portal in which the Florida Department of Health reports Florida's geographic spread of influenza each week to the Centers for Disease Control and Prevention (CDC). Geographic spread is not an indication of influenza severity. Geographic spread can be reported as sporadic, local, regional, or widespread.

- Sporadic: small numbers of laboratory-confirmed influenza or a single laboratory-confirmed influenza has been reported but there is no increase in cases of ILI
- Local: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state
- Regional: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state with recent laboratory evidence of influenza in those regions
- Widespread: outbreaks of influenza or increases in ILI cases and recent laboratory-confirmed influenza in at least half the regions of the state with recent laboratory evidence of influenza in the state.

County Influenza Activity in EpiGateway Data source for figure 5 and 6

County health department (CHD) epidemiologists report their county's influenza and ILI surveillance data weekly into The Florida Department of Health's EpiGateway website. Data from these reports is used to classify influenza activity as: no activity, mild, moderate, or elevated. Setting-specific influenza activity and influenza trend information is also reported by CHDs as available. EpiGateway data provided by CHDs creates a county-by-county breakdown of influenza and ILI activity around the state.

Laboratory Viral Respiratory Surveillance Data source for figures 7 and 31

The National Respiratory and Enteric Virus Surveillance System (NREVSS) is a CDC surveillance system that captures on eight commonly circulating respiratory viruses as reported by participating laboratories in Florida. NREVSS data are combined with validated electronic laboratory data from Florida laboratories that submit RSV laboratory results via electronic laboratory reporting. Together, this information is used to monitor the temporal and geographic patterns of these viruses.

Outbreak Reporting in Merlin Data source for figures 8-13, 32-34; tables 1 and 2

Outbreak investigations are tracked in Merlin (Florida's reportable disease surveillance system) by investigating county health departments. Outbreak reports include implicated viruses or bacteria, the outbreak setting, and recommendations made to mitigate the spread of disease (among other data elements). All outbreak data are considered preliminary and subject to change. As such, outbreak counts may increase or decrease as additional information is received.

- ILI outbreaks in facilities serving adults aged ≥65 years (assisted living facilities, nursing facilities, and long-term care facilities) are defined as two or more individuals with ILI (fever and cough or fever and sore throat in the absence of positive laboratory results). ILI outbreaks in facilities serving children (primary/secondary schools and child daycares) are defined as three or more epidemiologically linked individuals with ILI.
- Influenza-associated outbreaks in facilities serving adults aged ≥65 years are defined as two or more individuals with respiratory symptoms, where at least one individual tests positive for influenza. Influenza-associated outbreaks in facilities serving children are defined as three or more epidemiologically linked individuals with respiratory symptoms, where at least one individual tests positive for influenza. Testing may be conducted by the Bureau of Public Health Laboratories (BPHL), commercial laboratories, hospitals, or private health care providers.

Continued on next page.

AMERICAN OVERSIGHT

Summary of Included Surveillance Systems Continued

- RSV-associated outbreaks in facilities serving adults aged ≥65 years are defined as two or more individuals with respiratory symptoms, where at least one individual tests positive for RSV. RSV-associated outbreaks in facilities serving children are defined as three or more epidemiologically linked individuals with respiratory symptoms, where at least one individual tests positive for RSV. Testing may be conducted by BPHL, commercial laboratories, hospitals, or private health care providers.
- Notable outbreaks include influenza-associated, RSV-associated, or ILI outbreaks in any setting with 30 or more cases, two or more hospitalized cases, or one or more cases who died.
- Household clusters are not counted as outbreaks.

Bureau of Public Health Laboratories (BPHL) Data source for figures 14, 15, and 35-38.

BPHL performs testing and subtyping on surveillance specimens from sentinel providers, outbreak investigations, patients with severe or unusual influenza presentations, and medical examiners. Sentinel providers include both ILINet and Acute Respiratory Infection Epidemiology and Surveillance Program (ARIES) providers. Some laboratories also routinely submit pre-screened influenza-positive specimens for testing at BPHL for surveillance purposes.

Case-Based Influenza Surveillance Data source for figures 25 and 26

Death in a child whose laboratory-confirmed influenza infection has been identified as a contributing to the child's death is a reportable condition in Florida. Influenza-associated pediatric deaths are documented by county health departments in Merlin.

In addition, an individual of any age suspected as being infected with non-seasonal or pandemic influenza A is reportable condition in Florida. Such cases are referred to as cases of 'novel influenza A.' Novel influenza A cases are documented by county health departments in Merlin.

For more information about reportable diseases and conditions, please visit FloridaHealth.gov/DiseaseReporting.

Subject: Week 11, 2020 Florida Flu Review
Date: Wednesday, March 18, 2020 4:23:20 PM
Attachments: Week 11, 2020 Florida Flu Review.pdf

Good afternoon!

Please find attached the week 11 Florida Flu Review.

Statewide, the percentage of respiratory specimens testing positive for influenza in sentinel laboratories decreased steadily over the last three weeks. Despite this decrease in laboratory-confirmed influenza activity, the percentage of visits for ILI increased notably during those same three weeks.

Recent trends in ILI activity may be a data artifact driven by an increase in the number of people seeking care for respiratory illness in response to concerns about coronavirus disease 2019 (COVID-19). It is also possible that these data represent a true increase in ILI activity statewide. The data displayed in this report are intended to track influenza activity in Florida. For information about COVID-19 in Florida, please visit: FloridaHealth.gov/diseases-and-conditions/COVID-19/.

For questions regarding COVID-19 in Florida please email COVID-19@FLHealth.gov or call 1-866-779-6121.

Eleven outbreaks were reported, up from ten outbreaks in the previous week. Of the eleven outbreaks reported, one was influenza-associated and ten were ILI.

No new influenza-associated pediatric deaths were reported. Twelve influenza-associated pediatric deaths have been reported so far this season; 75% of children were not vaccinated for the 2019-20 season.

Influenza A 2009 (H1N1) remained the predominant strain.

The Centers for Disease Control and Prevention (CDC) continues to recommend that people who have not yet been vaccinated do so as soon as possible. It is especially important for people at higher risk for complications (children, adults =65 years, pregnant women, and people with underlying medical conditions).

In addition to getting vaccinated, the Florida Department of Health recommends you take

AMERICAN OVERSIGHT

everyday precautions to prevent the spread of influenza:

- Wash your hands often with soap and water (if soap is not available, use an alcohol-based sanitizer).
- Avoid touching your eyes, nose, and mouth.
- If you do get sick, stay home until fever-free for at least 24 hours (without the use of fever-reducing medication).

Best,

Amy E. Bogucki, MPH
Surveillance Epidemiologist - VPDs
Bureau of Epidemiology
Division of Disease Control and Health Protection
Florida Department of Health

Florida ILI Surveillance System Summary 16

Background

Influenza, or flu, is a respiratory infection caused by a variety of influenza viruses. Most experts believe influenza viruses spread primarily by droplets made when infected people cough, sneeze, or talk. Less often, a person might become infected with influenza by touching a surface or object contaminated with influenza virus and then touching their own mouth, eyes, or nose.

The best way to prevent influenza infection is to get vaccinated each year. Influenza vaccines protect against the three or four influenza viruses research suggests will be most common.

Influenza Surveillance

Individual cases of influenza are not reportable in Florida with the exception of novel influenza A (a new subtype of influenza A) and influenza-associated pediatric deaths. All outbreaks, including those due to influenza or influenza-like illness (ILI), are reportable in Florida.

Influenza surveillance is conducted to detect changes in the influenza virus. These data are used to help determine the annual northern hemisphere vaccine composition and to prepare for potential pandemics.

Surveillance is also conducted to identify any unusually severe presentations of influenza, detect outbreaks, and determine the onset, peak, and wane of the influenza season to assist with influenza prevention, particularly in high-risk populations like the very young, adults aged ≥65 years, and pregnant women.

The influenza reporting year is defined by standard reporting weeks outlined by the Centers for Disease Control and Prevention, where every year has 52 or 53 reporting weeks. Increased surveillance for influenza in Florida for the 2019-20 season began in week 40 (starting on September 29, 2019) and will extend through week 20 (ending May 16, 2020). This report is produced by the Florida Department of Health on a weekly basis during the regular influenza season and an abbreviated report is published on a biweekly basis during the summer months.

Surveillance case definitions for ILI vary slightly across surveillance systems. **For more information on Florida's influenza surveillance systems and associated case definitions, see page 16.**

Statewide Activity

Figure 1: In week 11, **the percent of emergency department and urgent care center visits for ILI statewide increased** and was above peak levels observed during the 2016-17 and 2018-19 seasons. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

▲ **Figure 1** shows **the percent of visits for ILI** for facilities participating in ESSENCE-FL (n=370) statewide for the current season (week 40, 2019 to week 11, 2020) and the last three seasons (2018-19, 2017-18, and 2016-17). The ESSENCE-FL ILI syndrome captures visits with chief complaints that include the words "influenza" or "flu," or chief complaints that include the words "fever" and "cough," or "fever" and "sore throat." For more information on the use of ESSENCE-FL for influenza and ILI surveillance, see page 16.

AMERICAN OVERSIGHT

Statewide Activity

Figure 2: In week 11, Florida reported **widespread geographic spread of influenza** to the Centers for Disease Control and Prevention.

◀ **Figure 2** shows Florida's self-reported **geographic spread of influenza** as reported to the Centers for Disease Control and Prevention, week 40, 2016 to week 11, 2020.

Defining geographic spread of influenza:

Sporadic: small numbers of laboratory-confirmed influenza or a single laboratory-confirmed influenza outbreak has been reported, but there is no increase in cases of ILI.

Local: outbreaks of influenza or increases in ILI and recent laboratory confirmed influenza in at least two but less than half the regions of the state.

Regional: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state with recent laboratory evidence of influenza in those regions.

Widespread: Outbreaks of influenza or increases in ILI cases and recent laboratory-confirmed influenza in at least half the regions of the state with recent laboratory evidence of influenza in the state.

Figure 3: In week 11, **the percent of patients with ILI reported by ILINet providers statewide decreased** and was below levels observed during previous seasons. Of note, the number of reporting providers remained low in recent weeks.

Figure 3 shows the **percent of patients with influenza-like illness (ILI)** reported statewide by ILINet providers (n=4), week 40, 2016 to week 11, 2020. ▶

For ILINet, ILI is defined as a fever ≥100°F in conjunction with sore throat or cough in the absence of another known cause.

Figure 4: In week 10 (ending 3/7/20), **the number of pneumonia and influenza deaths identified statewide decreased** and was below levels observed at this time in previous seasons.

◀ **Figure 4** shows **pneumonia and influenza (P&I) deaths*** for all Florida counties from the Bureau of Vital Statistics, as reported into ESSENCE-FL, week 40, 2016 to week 10, 2020.

*Recent P&I death counts are preliminary numbers that may change as more data are received. The most recent data available are displayed here.

AMERICAN OVERSIGHT

County Influenza Activity

Figure 5: Most counties reported **mild activity** for week 11. Ten counties reported **moderate activity,** and no counties reported **elevated activity.**

Figure 7: Most counties reported **activity at a plateau** for week 11. Seventeen counties reported **increasing activity,** and 22 counties reported **decreasing activity**.

▲ **Figures 5-6** show **county influenza activity data** as reported by county health departments in EpiGateway. These data are collected on a weekly basis and are used to determine influenza activity levels for each county (Figure 5). County health departments also report their weekly influenza activity trend (Figure 6).

Figure 7: The **percent of specimens testing positive for influenza** **decreased** in recent weeks. In week 11, the **percent of specimens testing positive for rhinovirus** was higher than other respiratory viruses under surveillance.

▲ **Figure 7** shows **the percent of laboratory results testing positive for eight common respiratory viruses**, as reported by laboratories participating in the National Respiratory and Enteric Virus Surveillance System (NRVESS) and laboratories reporting validated respiratory virus data to the Florida Department of Health via electronic laboratory reporting (n=8), week 40, 2019 to week 11, 2020.

AMERICAN OVERSIGHT

Influenza and ILI Outbreaks

Week 11 Outbreaks at a Glance:

Number Reported:

11 Outbreaks

Influenza-Associated:

4 Outbreaks

Severe Outcomes*:

1 Outbreak

Outbreak Summary:

In week 11, four influenza-associated and seven ILI outbreaks were reported, a slight increase from the previous week.

Severe outcomes* were reported in one of eleven outbreaks. One hospitalization and no deaths were reported in this outbreak.

During the previous season, severe outcomes were most commonly reported in facilities serving adults aged ≥65 years (assisted living facilities, nursing facilities, and long-term care facilities).

▲ **Figure 8** shows **reported influenza or ILI outbreaks by county**. Counties with outbreaks reported in week 11 are **outlined in bold.**

Figure 9: In week 11, **seven outbreaks** were reported among **facilities serving adults aged ≥65 years, three outbreaks** were reported in **facilities serving children,** and **one outbreak** was reported among **other facilities.**

◀ **Figure 9** shows the number of **influenza-associated or ILI outbreaks by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020. More information on how these setting categories are defined is available on pages 6-7.

Figure 10: As of week 11, **63.9% of outbreaks** reported so far this season were **influenza-associated.**

◀ **Figure 10** shows the total number of outbreaks and the number of influenza-associated outbreaks as reported in Merlin by county health departments for the 2019-20 season as of week 11, 2020. For more information on how ILI and influenza-associated outbreaks are defined, see page 16.

*Severe outcomes are defined as hospitalization or death among one or more outbreak cases.

**Total outbreaks includes the number of influenza-associated outbreaks in addition to outbreaks of ILI.

AMERICAN OVERSIGHT

Influenza and ILI Outbreaks

Facilities Serving Children*:

3 Outbreaks

Summary of Outbreaks in Facilities Serving Children:

In week 11, three new outbreaks of influenza or ILI were reported in facilities serving children.

*Facilities serving children include primary schools, secondary schools, and child daycares.

Figure 11: In week 11, **two influenza-associated outbreaks** and **one ILI outbreak** were reported in **facilities serving children.**

▲ **Figure 11** shows the number of **influenza-associated or ILI outbreaks in facilities serving children by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

Facilities Serving Adults ≥65 yrs.**:

7 Outbreaks

Summary of Outbreaks in Facilities Serving Adults ≥65 years:

In week 11, seven new outbreaks of influenza or ILI were reported among facilities serving adults aged ≥65 years.

**Facilities serving adults ≥65 years include assisted living facilities, nursing homes, and other long-term care facilities.

Figure 12: In week 11, **six ILI outbreaks** and **one influenza-associated outbreak** were reported among **facilities serving adults ≥65 years.**

▲ **Figure 12** shows the number of **influenza-associated or ILI outbreaks in facilities serving adults aged ≥65 years by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

AMERICAN OVERSIGHT

Influenza and ILI Outbreaks

Other Facilities*:

1 Outbreak

Summary of Outbreaks in Other Facilities:

In week 11, one new outbreak of influenza or ILI was reported among other facilities.

*Other facilities include post-secondary schools, adult daycares, correctional facilities, hospitals, shelters, and workplaces.

Figure 13: In week 11, **one influenza-associated outbreak** was reported among **other facilities.**

▲ **Figure 13** shows the number of **influenza-associated or ILI outbreaks in other facilities by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

Table 1: Summary of Influenza or ILI Outbreaks Reported During the 2019-20 Season by Setting

Setting	Number of Outbreaks (Percent of Outbreaks)	Number Influenza-Associated or ILI
Primary or secondary schools	136 (46.7%)	83 influenza-associated outbreaks 53 ILI outbreaks
Child daycares	40 (13.8%)	17 influenza-associated outbreaks 23 ILI outbreaks
Camps	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Assisted living facilities	23 (7.9%)	10 influenza-associated outbreaks 13 ILI outbreaks
Nursing facilities	18 (6.2%)	14 influenza-associated outbreaks 4 ILI outbreaks
Other long-term care facilities	33 (11.3%)	26 influenza-associated outbreaks 7 ILI outbreaks
Adult daycares	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Post-secondary schools	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Correctional facilities	33 (11.3%)	31 influenza-associated outbreaks 2 ILI outbreaks
Hospitals	3 (1.1%)	2 influenza-associated outbreaks 1 ILI outbreak
Additional facility types	5 (1.7%)	3 influenza-associated outbreaks 2 ILI outbreaks
Total	**291 (100.0%)**	**186 influenza-associated outbreaks** **105 ILI outbreaks**

AMERICAN OVERSIGHT

Laboratory Surveillance

Figure 14: **Influenza A 2009 (H1N1)** continues to be the most common influenza virus identified at BPHL in recent weeks, and **influenza A 2009 (H1N1)** is the most common influenza subtype detected so far this season. **Influenza B Victoria lineage** was predominant earlier in the season, but the frequency of those detections decreased in recent weeks.

▲ **Figure 14** shows the number of **influenza-positive laboratory results at the Bureau of Public Health Laboratories (BPHL)** by lab-event date,* week 30, 2019 through week 11, 2020.

Figure 15: **Influenza A 2009 (H1N1)** makes up the largest number of influenza detections at BPHL since week 40. Earlier in the season, **influenza B Victoria lineage** was the most common strain.

◀ **Figure 15** shows the number of **influenza-positive laboratory results for specimens submitted to BPHL** for the current 2019-20 influenza season, week 40, 2019 through week 11, 2020.

The results shown here are reflective of the influenza testing performed by BPHL thus far for specimens with lab event dates* within this timeframe.

*"Lab event date" is defined as the earliest of the following dates associated with influenza testing at the laboratory: date specimen collected, date received by the laboratory, date reported, or date inserted.

**This number includes both influenza A specimens for which subtyping has not yet been performed as well as specimens that tested positive for influenza A but were unable to be subtyped due to low viral load.

AMERICAN OVERSIGHT

Regional Activity

Figures 16-22 show **the percent of emergency department and urgent care center visits for influenza-like illness (ILI)** at ESSENCE-FL participating facilities (n=370) from week 40, 2016 to week 11, 2020. Data are organized by region (see Figure 23).

2019-20 | 2018-19 | 2017-18 | 2016-17

Figure 16: In **region 1, ILI activity increased** during week 11 and was above peak activity observed during the 2016-17 season.*

Figure 17: In **region 2, ILI activity increased** during week 11 and was above peak activity observed during the 2016-17 and 2018-19 seasons.*

Figure 20: In **region 5, ILI activity increased** during week 11 and was above peak activity observed during the 2016-17 and 2018-19 seasons.*

Figure 21: In **region 6, ILI activity increased** during week 11 and was above peak activity observed during the 2016-17 and 2018-19 seasons.*

Figure 22: In **region 7, ILI activity increased** during week 11 and was above peak activity observed during the 2016-17 season.*

Figure 23 shows **emergency departments** and **urgent care centers** reporting data to ESSENCE-FL (n=370) with regions **outlined in bold**. ▶

*While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined statewide.

AMERICAN OVERSIGHT

At-Risk Populations

Background: At-Risk Populations, Children

Children, especially those with underlying health conditions (like asthma or diabetes), are at higher risk for severe complications from influenza infection. **The single best way to protect children from influenza is to get them vaccinated every year.** The Centers for Disease Control and Prevention continues to recommend influenza vaccination as long as flu viruses are circulating. To find a flu shot near you, please visit: VaccineFinder.org.

Figure 24: In week 11, **the percent of emergency department and urgent care center visits for ILI in children <18 years increased** and was above peak levels observed during the 2016-17 season. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

◀ **Figure 24** shows **the percent of influenza-like illness (ILI) visits among children <18 years** at emergency department and urgent care centers, as reported into ESSENCE-FL, week 40, 2016 to week 11, 2020.

Figures 25-26: In week 11, **no new influenza-associated pediatric deaths were reported**. A total of 12 influenza-associated pediatric deaths have been reported so far this season.

▲ **Figure 25** shows the number of **influenza-associated pediatric deaths** as reported in Merlin **by vaccination status**, week 40, 2016 to week 11, 2020.

▲ **Figure 26** shows the number of **influenza-associated pediatric deaths** as reported in Merlin by **medical history**, week 40, 2016 to week 11, 2020.

In week 11, **no new influenza-associated pediatric deaths were reported**.

A total of 12 influenza-associated pediatric deaths have been reported so far this season. **Influenza vaccination is recommended as long as influenza viruses are circulating, even in March or later.**

Children, especially those with certain health conditions are at increased risk of severe complications from influenza infection. **Influenza vaccination has been shown to reduce a child's likelihood of dying from influenza by up to 60%.** For more information, please visit: www.cdc.gov/media/releases/2017/p0403-flu-vaccine.html.

*The Advisory Committee on Immunization Practices (ACIP) recommends children aged six months to eight years receive two doses of influenza vaccine administered a minimum of four weeks apart during their first season of vaccination for optimal protection. The Florida Department of Health includes children in this age group who did not receive a second influenza vaccine in this unvaccinated category. To learn more about the ACIP's 2019-20 recommendations, please visit: www.cdc.gov/mmwr/volumes/68/rr/rr6803a1.htm.

AMERICAN OVERSIGHT

At-Risk Populations Continued

Background: At-Risk Populations, Pregnant Women

Influenza is five times more likely to cause severe illness in pregnant women (even those who are generally healthy) compared to women who are not pregnant. Pregnant women with certain underlying medical conditions (such as asthma or heart disease) are at even greater risk for severe complications from influenza. **Inactivated influenza vaccines are safe, provide the best protection for pregnant women and their babies, and are recommended at any time during pregnancy.** Vaccination during pregnancy provides maternal antibody protection to infants too young to be vaccinated for influenza and has been shown to protect pregnant women from influenza-associated hospitalization and preterm birth. For more information, talk to your health care provider.

Figure 27: In week 11, the **number of emergency department and urgent care center visits for influenza among pregnant women** **decreased** and was within levels observed at this time during previous seasons.

◀ **Figure 27** shows the **number of visits* to emergency departments and urgent care centers with chief complaints of influenza and pregnancy**, as reported in ESSENCE-FL, week 40, 2016 to week 11, 2020.

*This count **underrepresents** the true number of pregnant women presenting for care to emergency departments and urgent care centers with influenza, however, **the overall trend** has been validated through review of discharge data collected by the Agency of Health Care Administration.

Background: At-Risk Populations, Adults Aged ≥65 Years

Adults ≥65 years old are at higher risk for severe complications from influenza infection, including hospitalization and death. While influenza seasons vary in intensity, adults in this age group bear the greatest burden of severe influenza disease. In Florida, an average of 80% of seasonal pneumonia and influenza deaths occurred in adults aged ≥65 years over the last five influenza seasons. **Annual vaccination is the best way to prevent influenza infection.**

Figure 28: In week 11, the **percent of emergency department and urgent care center visits for ILI in adults ≥65 years** **increased** and was above peak levels during the 2016-17 and 2018-19 seasons. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

◀ **Figure 28** shows **the percent of influenza-like illness (ILI) visits among adults ≥65 years old** at emergency departments and urgent care centers, as reported into ESSENCE-FL, week 40, 2016 to week 11, 2020.

AMERICAN OVERSIGHT

Respiratory Syncytial Virus Surveillance

Background

Respiratory syncytial virus (RSV) is a common respiratory virus that usually causes mild, cold-like symptoms. Young children and older adults, especially those with certain underlying health conditions, are at higher risk for severe illness from RSV. Prophylaxis is available for children who qualify. For more information, contact your health care provider.

▲ **Figure 29** shows **Florida's RSV regional season break-down.** Regions that are currently in RSV season are marked with **pink stars.**

RSV Surveillance

A statewide RSV surveillance system was implemented in Florida to support clinical decision-making for prophylaxis of premature infants.

The determination of unique seasonal and geographic trends of RSV activity in Florida has important implications for prescribing patterns for initiating prophylaxis to children at high risk for complications from RSV infection. The American Academy of Pediatrics currently recommends pre-approval for prophylactic treatment be made based on state surveillance data. For more information on RSV surveillance systems used in Florida, see the last page of this report.

Florida's RSV season is longer than the rest of the nation and has distinct regional patterns. The Florida Department of Health established regional RSV seasons based on activity thresholds provided by the Centers for Disease Control and Prevention (see Figure 29). **Currently, all of Florida's regions are in RSV season.**

To learn more about RSV in Florida, please visit: FloridaHealth.gov/RSV.

Week 11 (February 23-29, 2020) Activity Summary

In week 11, RSV activity in children <5 years increased and was similar to levels observed at this time in 2019.

One new RSV-associated outbreak was reported in week 11. A total of ten RSV-associated outbreaks have been reported since week 30, 2019 (beginning on July 27, 2019).

Figure 30: In week 11, **the percent of emergency department and urgent care center visits for RSV among children <5 years increased** and was similar to levels observed at this time in 2019.

◀ **Figure 30** shows **the percent of emergency department and urgent care center visits with discharge diagnoses that include RSV or RSV-associated illness among children <5 years***, as reported in ESSENCE-FL, week 30, 2016 to week 11, 2020.

*The overall trend displayed in Figure 30 has been validated through review of hospital discharge data collected by the Agency for Health Care Administration.

AMERICAN OVERSIGHT

Florida HEALTH

RSV Surveillance

Figure 31: In week 11, **the percent of specimens testing positive for RSV decreased.** Levels were slightly below those observed at this time in previous seasons.

*Data shown in figures 34-38 include results for specimens submitted by Acute Respiratory Infection Epidemiology and Surveillance Program (ARIES) providers (n=4) as reported by BPHL.

**Results are organized by week based on "lab event date" (defined as the earliest of the following dates associated with testing at the laboratory: date specimen collected, date received by the laboratory, date reported, or date inserted).

AMERICAN OVERSIGHT

Summary of Notable Outbreaks

Table 2: Summary of Notable* Influenza-Associated, Respiratory Syncytial Virus (RSV)-Associated, and Influenza-like Illness (ILI) Outbreaks Reported in Week 11, 2020

Setting	County	Number of Cases	Number of Cases Hospitalized	Number of Cases Died	Outbreak Etiology	Control Measures Recommended to Facility Leadership	Investigation Status
No notable outbreaks were reported in week 11, 2020.							

*For the purposes of this report, notable outbreaks are defined as influenza-associated, RSV-associated, or ILI outbreaks with two or more hospitalizations, one or more deaths, or 30 or more cases. For more information on how outbreaks are defined, see page 16.

AMERICAN OVERSIGHT

Summary of Included Surveillance Systems

ESSENCE-FL Syndromic Surveillance and Vital Statistics Portal Data source for figures 1, 4, 16-24, 27, 28, 30

Electronic Surveillance System for the Early Notification of Community-based Epidemics (ESSENCE-FL) measures trends in influenza-like illness (ILI) visits from emergency departments (ED) and urgent care clinics (UCC) and influenza mortality by using death certificates from the Bureau of Vital Statistics. Participating EDs and UCCs (n=370) electronically transmit visit data into ESSENCE-FL daily or hourly.

For statewide and regional data on ILI, visits are counted as ED or UCC visits to participating facilities that include the words "influenza" or "flu" in patient chief complaints. Chief complaints with the words "fever" and "cough," or "fever" and "sore throat" are also counted as ILI.

For pneumonia and influenza (P&I) mortality surveillance, death record literals are queried using a free-text query that searches for references to P&I on death certificates. Any mention of P&I in the death certificate literals, with certain exceptions, is counted as a P&I death. Deaths counts are aggregated and presented by date of death.

For respiratory syncytial virus (RSV) surveillance, visits are counted as ED or UCC visits to participating facilities for which RSV or RSV-associated illness is included in the discharge diagnosis.

For RSV mortality surveillance, death record literals are queried using a free-text query that searches for references to RSV on death certificates. Any mention of RSV, syncytial, and bronchiolitis in the death certificate literals, with certain exceptions, is counted as a RSV death. These deaths are also investigated to ensure they meet case definition.

Florida ILINet Data source for figures 2 and 3

ILINet is a nationwide surveillance system composed of sentinel providers, predominately outpatient health care providers. Florida has 118 sentinel providers enrolled in ILINet who submit weekly ILI and total visit counts, as well as submit ILI specimens to the Bureau of Public Health Laboratories for virologic surveillance. For healthcare providers interested in enrolling in ILINet, contact your local county health department.

ILINet is also used as a portal in which the Florida Department of Health reports Florida's geographic spread of influenza each week to the Centers for Disease Control and Prevention (CDC). Geographic spread is not an indication of influenza severity. Geographic spread can be reported as sporadic, local, regional, or widespread.

- Sporadic: small numbers of laboratory-confirmed influenza or a single laboratory-confirmed influenza has been reported but there is no increase in cases of ILI
- Local: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state
- Regional: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state with recent laboratory evidence of influenza in those regions
- Widespread: outbreaks of influenza or increases in ILI cases and recent laboratory-confirmed influenza in at least half the regions of the state with recent laboratory evidence of influenza in the state.

County Influenza Activity in EpiGateway Data source for figure 5 and 6

County health department (CHD) epidemiologists report their county's influenza and ILI surveillance data weekly into The Florida Department of Health's EpiGateway website. Data from these reports is used to classify influenza activity as: no activity, mild, moderate, or elevated. Setting-specific influenza activity and influenza trend information is also reported by CHDs as available. EpiGateway data provided by CHDs creates a county-by-county breakdown of influenza and ILI activity around the state.

Laboratory Viral Respiratory Surveillance Data source for figures 7 and 31

The National Respiratory and Enteric Virus Surveillance System (NREVSS) is a CDC surveillance system that captures on eight commonly circulating respiratory viruses as reported by participating laboratories in Florida. NREVSS data are combined with validated electronic laboratory data from Florida laboratories that submit RSV laboratory results via electronic laboratory reporting. Together, this information is used to monitor the temporal and geographic patterns of these viruses.

Outbreak Reporting in Merlin Data source for figures 8-13, 32-34; tables 1 and 2

Outbreak investigations are tracked in Merlin (Florida's reportable disease surveillance system) by investigating county health departments. Outbreak reports include implicated viruses or bacteria, the outbreak setting, and recommendations made to mitigate the spread of disease (among other data elements). All outbreak data are considered preliminary and subject to change. As such, outbreak counts may increase or decrease as additional information is received.

- ILI outbreaks in facilities serving adults aged ≥65 years (assisted living facilities, nursing facilities, and long-term care facilities) are defined as two or more individuals with ILI (fever and cough or fever and sore throat in the absence of positive laboratory results). ILI outbreaks in facilities serving children (primary/secondary schools and child daycares) are defined as three or more epidemiologically linked individuals with ILI.
- Influenza-associated outbreaks in facilities serving adults aged ≥65 years are defined as two or more individuals with respiratory symptoms, where at least one individual tests positive for influenza. Influenza-associated outbreaks in facilities serving children are defined as three or more epidemiologically linked individuals with respiratory symptoms, where at least one individual tests positive for influenza. Testing may be conducted by the Bureau of Public Health Laboratories (BPHL), commercial laboratories, hospitals, or private health care providers.

Continued on next page.

AMERICAN OVERSIGHT

Summary of Included Surveillance Systems Continued

- RSV-associated outbreaks in facilities serving adults aged ≥65 years are defined as two or more individuals with respiratory symptoms, where at least one individual tests positive for RSV. RSV-associated outbreaks in facilities serving children are defined as three or more epidemiologically linked individuals with respiratory symptoms, where at least one individual tests positive for RSV. Testing may be conducted by BPHL, commercial laboratories, hospitals, or private health care providers.
- Notable outbreaks include influenza-associated, RSV-associated, or ILI outbreaks in any setting with 30 or more cases, two or more hospitalized cases, or one or more cases who died.
- Household clusters are not counted as outbreaks.

Bureau of Public Health Laboratories (BPHL) Data source for figures 14, 15, and 35-38.

BPHL performs testing and subtyping on surveillance specimens from sentinel providers, outbreak investigations, patients with severe or unusual influenza presentations, and medical examiners. Sentinel providers include both ILINet and Acute Respiratory Infection Epidemiology and Surveillance Program (ARIES) providers. Some laboratories also routinely submit pre-screened influenza-positive specimens for testing at BPHL for surveillance purposes.

Case-Based Influenza Surveillance Data source for figures 25 and 26

Death in a child whose laboratory-confirmed influenza infection has been identified as a contributing to the child's death is a reportable condition in Florida. Influenza-associated pediatric deaths are documented by county health departments in Merlin.

In addition, an individual of any age suspected as being infected with non-seasonal or pandemic influenza A is reportable condition in Florida. Such cases are referred to as cases of 'novel influenza A.' Novel influenza A cases are documented by county health departments in Merlin.

For more information about reportable diseases and conditions, please visit FloridaHealth.gov/DiseaseReporting.

Subject: Week 11, 2020 Florida Flu Review
Date: Wednesday, March 18, 2020 4:23:20 PM
Attachments: Week 11, 2020 Florida Flu Review.pdf

Good afternoon!

Please find attached the week 11 Florida Flu Review.

Statewide, the percentage of respiratory specimens testing positive for influenza in sentinel laboratories decreased steadily over the last three weeks. Despite this decrease in laboratory-confirmed influenza activity, the percentage of visits for ILI increased notably during those same three weeks.

Recent trends in ILI activity may be a data artifact driven by an increase in the number of people seeking care for respiratory illness in response to concerns about coronavirus disease 2019 (COVID-19). It is also possible that these data represent a true increase in ILI activity statewide. The data displayed in this report are intended to track influenza activity in Florida. For information about COVID-19 in Florida, please visit: FloridaHealth.gov/diseases-and-conditions/COVID-19/.

For questions regarding COVID-19 in Florida please email COVID-19@FLHealth.gov or call 1-866-779-6121.

Eleven outbreaks were reported, up from ten outbreaks in the previous week. Of the eleven outbreaks reported, one was influenza-associated and ten were ILI.

No new influenza-associated pediatric deaths were reported. Twelve influenza-associated pediatric deaths have been reported so far this season; 75% of children were not vaccinated for the 2019-20 season.

Influenza A 2009 (H1N1) remained the predominant strain.

The Centers for Disease Control and Prevention (CDC) continues to recommend that people who have not yet been vaccinated do so as soon as possible. It is especially important for people at higher risk for complications (children, adults =65 years, pregnant women, and people with underlying medical conditions).

In addition to getting vaccinated, the Florida Department of Health recommends you take

AMERICAN OVERSIGHT

everyday precautions to prevent the spread of influenza:

- Wash your hands often with soap and water (if soap is not available, use an alcohol-based sanitizer).
- Avoid touching your eyes, nose, and mouth.
- If you do get sick, stay home until fever-free for at least 24 hours (without the use of fever-reducing medication).

Best,

Florida ILI Surveillance System Summary 16

Background

Influenza, or flu, is a respiratory infection caused by a variety of influenza viruses. Most experts believe influenza viruses spread primarily by droplets made when infected people cough, sneeze, or talk. Less often, a person might become infected with influenza by touching a surface or object contaminated with influenza virus and then touching their own mouth, eyes, or nose.

The best way to prevent influenza infection is to get vaccinated each year. Influenza vaccines protect against the three or four influenza viruses research suggests will be most common.

Influenza Surveillance

Individual cases of influenza are not reportable in Florida with the exception of novel influenza A (a new subtype of influenza A) and influenza-associated pediatric deaths. All outbreaks, including those due to influenza or influenza-like illness (ILI), are reportable in Florida.

Influenza surveillance is conducted to detect changes in the influenza virus. These data are used to help determine the annual northern hemisphere vaccine composition and to prepare for potential pandemics.

Surveillance is also conducted to identify any unusually severe presentations of influenza, detect outbreaks, and determine the onset, peak, and wane of the influenza season to assist with influenza prevention, particularly in high-risk populations like the very young, adults aged ≥65 years, and pregnant women.

The influenza reporting year is defined by standard reporting weeks outlined by the Centers for Disease Control and Prevention, where every year has 52 or 53 reporting weeks. Increased surveillance for influenza in Florida for the 2019-20 season began in week 40 (starting on September 29, 2019) and will extend through week 20 (ending May 16, 2020). This report is produced by the Florida Department of Health on a weekly basis during the regular influenza season and an abbreviated report is published on a biweekly basis during the summer months.

Surveillance case definitions for ILI vary slightly across surveillance systems. **For more information on Florida's influenza surveillance systems and associated case definitions, see page 16.**

Statewide Activity

Figure 1: In week 11, **the percent of emergency department and urgent care center visits for ILI statewide increased** and was above peak levels observed during the 2016-17 and 2018-19 seasons. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

▲ **Figure 1** shows **the percent of visits for ILI** for facilities participating in ESSENCE-FL (n=370) statewide for the current season (week 40, 2019 to week 11, 2020) and the last three seasons (2018-19, 2017-18, and 2016-17). The ESSENCE-FL ILI syndrome captures visits with chief complaints that include the words "influenza" or "flu," or chief complaints that include the words "fever" and "cough," or "fever" and "sore throat." For more information on the use of ESSENCE-FL for influenza and ILI surveillance, see page 16.

AMERICAN OVERSIGHT

Statewide Activity

Figure 2: In week 11, Florida reported **widespread geographic spread of influenza** to the Centers for Disease Control and Prevention.

◀ **Figure 2** shows Florida's self-reported **geographic spread of influenza** as reported to the Centers for Disease Control and Prevention, week 40, 2016 to week 11, 2020.

Defining geographic spread of influenza:

Sporadic: small numbers of laboratory-confirmed influenza or a single laboratory-confirmed influenza outbreak has been reported, but there is no increase in cases of ILI.

Local: outbreaks of influenza or increases in ILI and recent laboratory confirmed influenza in at least two but less than half the regions of the state.

Regional: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state with recent laboratory evidence of influenza in those regions.

Widespread: Outbreaks of influenza or increases in ILI cases and recent laboratory-confirmed influenza in at least half the regions of the state with recent laboratory evidence of influenza in the state.

Figure 3: In week 11, **the percent of patients with ILI reported by ILINet providers statewide decreased** and was below levels observed during previous seasons. Of note, the number of reporting providers remained low in recent weeks.

Figure 3 shows the **percent of patients with influenza-like illness (ILI)** reported statewide by ILINet providers (n=4), week 40, 2016 to week 11, 2020. ▶

For ILINet, ILI is defined as a fever ≥100°F in conjunction with sore throat or cough in the absence of another known cause.

Figure 4: In week 10 (ending 3/7/20), **the number of pneumonia and influenza deaths identified statewide decreased** and was below levels observed at this time in previous seasons.

◀ **Figure 4** shows **pneumonia and influenza (P&I) deaths*** for all Florida counties from the Bureau of Vital Statistics, as reported into ESSENCE-FL, week 40, 2016 to week 10, 2020.

*Recent P&I death counts are preliminary numbers that may change as more data are received. The most recent data available are displayed here.

AMERICAN OVERSIGHT

County Influenza Activity

Figure 5: Most counties reported **mild activity** for week 11. Ten counties reported **moderate activity,** and no counties reported **elevated activity.**

Figure 7: Most counties reported **activity at a plateau** for week 11. Seventeen counties reported **increasing activity,** and 22 counties reported **decreasing activity**.

▲ **Figures 5-6** show **county influenza activity data** as reported by county health departments in EpiGateway. These data are collected on a weekly basis and are used to determine influenza activity levels for each county (Figure 5). County health departments also report their weekly influenza activity trend (Figure 6).

Figure 7: The **percent of specimens testing positive for influenza** **decreased** in recent weeks. In week 11, the **percent of specimens testing positive for rhinovirus** was higher than other respiratory viruses under surveillance.

▲ **Figure 7** shows **the percent of laboratory results testing positive for eight common respiratory viruses**, as reported by laboratories participating in the National Respiratory and Enteric Virus Surveillance System (NRVESS) and laboratories reporting validated respiratory virus data to the Florida Department of Health via electronic laboratory reporting (n=8), week 40, 2019 to week 11, 2020.

Influenza and ILI Outbreaks

Week 11 Outbreaks at a Glance:

Number Reported:

11 Outbreaks

Influenza-Associated:

4 Outbreaks

Severe Outcomes*:

1 Outbreak

Outbreak Summary:

In week 11, four influenza-associated and seven ILI outbreaks were reported, a slight increase from the previous week.

Severe outcomes* were reported in one of eleven outbreaks. One hospitalization and no deaths were reported in this outbreak.

During the previous season, severe outcomes were most commonly reported in facilities serving adults aged ≥65 years (assisted living facilities, nursing facilities, and long-term care facilities).

▲ **Figure 8** shows **reported influenza or ILI outbreaks by county**. Counties with outbreaks reported in week 11 are **outlined in bold.**

Figure 9: In week 11, **seven outbreaks** were reported among **facilities serving adults aged ≥65 years, three outbreaks** were reported in **facilities serving children,** and **one outbreak** was reported among **other facilities.**

◀ **Figure 9** shows the number of **influenza-associated or ILI outbreaks by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020. More information on how these setting categories are defined is available on pages 6-7.

Figure 10: As of week 11, **63.9% of outbreaks** reported so far this season were **influenza-associated.**

◀ **Figure 10** shows the total number of outbreaks and the number of influenza-associated outbreaks as reported in Merlin by county health departments for the 2019-20 season as of week 11, 2020. For more information on how ILI and influenza-associated outbreaks are defined, see page 16.

*Severe outcomes are defined as hospitalization or death among one or more outbreak cases.

**Total outbreaks includes the number of influenza-associated outbreaks in addition to outbreaks of ILI.

AMERICAN OVERSIGHT

Influenza and ILI Outbreaks

Facilities Serving Children*:

3 Outbreaks

Summary of Outbreaks in Facilities Serving Children:

In week 11, three new outbreaks of influenza or ILI were reported in facilities serving children.

*Facilities serving children include primary schools, secondary schools, and child daycares.

Figure 11: In week 11, **two influenza-associated outbreaks** and **one ILI outbreak** were reported in **facilities serving children.**

▲ **Figure 11** shows the number of **influenza-associated or ILI outbreaks in facilities serving children by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

Facilities Serving Adults ≥65 yrs.**:

7 Outbreaks

Summary of Outbreaks in Facilities Serving Adults ≥65 years:

In week 11, seven new outbreaks of influenza or ILI were reported among facilities serving adults aged ≥65 years.

**Facilities serving adults ≥65 years include assisted living facilities, nursing homes, and other long-term care facilities.

Figure 12: In week 11, **six ILI outbreaks** and **one influenza-associated outbreak** were reported among **facilities serving adults ≥65 years.**

▲ **Figure 12** shows the number of **influenza-associated or ILI outbreaks in facilities serving adults aged ≥65 years by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

AMERICAN OVERSIGHT

Influenza and ILI Outbreaks

Other Facilities*:

1 Outbreak

Summary of Outbreaks in Other Facilities:

In week 11, one new outbreak of influenza or ILI was reported among other facilities.

*Other facilities include post-secondary schools, adult daycares, correctional facilities, hospitals, shelters, and workplaces.

Figure 13: In week 11, **one influenza-associated outbreak** was reported among **other facilities.**

▲ **Figure 13** shows the number of **influenza-associated or ILI outbreaks in other facilities by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

Table 1: Summary of Influenza or ILI Outbreaks Reported During the 2019-20 Season by Setting

Setting	Number of Outbreaks (Percent of Outbreaks)	Number Influenza-Associated or ILI
Primary or secondary schools	136 (46.7%)	83 influenza-associated outbreaks 53 ILI outbreaks
Child daycares	40 (13.8%)	17 influenza-associated outbreaks 23 ILI outbreaks
Camps	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Assisted living facilities	23 (7.9%)	10 influenza-associated outbreaks 13 ILI outbreaks
Nursing facilities	18 (6.2%)	14 influenza-associated outbreaks 4 ILI outbreaks
Other long-term care facilities	33 (11.3%)	26 influenza-associated outbreaks 7 ILI outbreaks
Adult daycares	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Post-secondary schools	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Correctional facilities	33 (11.3%)	31 influenza-associated outbreaks 2 ILI outbreaks
Hospitals	3 (1.1%)	2 influenza-associated outbreaks 1 ILI outbreak
Additional facility types	5 (1.7%)	3 influenza-associated outbreaks 2 ILI outbreaks
Total	**291 (100.0%)**	**186 influenza-associated outbreaks** **105 ILI outbreaks**

AMERICAN OVERSIGHT

Laboratory Surveillance

Figure 14: **Influenza A 2009 (H1N1)** continues to be the most common influenza virus identified at BPHL in recent weeks, and **influenza A 2009 (H1N1)** is the most common influenza subtype detected so far this season. **Influenza B Victoria lineage** was predominant earlier in the season, but the frequency of those detections decreased in recent weeks.

▲ **Figure 14** shows the number of **influenza-positive laboratory results at the Bureau of Public Health Laboratories (BPHL)** by lab-event date,* week 30, 2019 through week 11, 2020.

Figure 15: **Influenza A 2009 (H1N1)** makes up the largest number of influenza detections at BPHL since week 40. Earlier in the season, **influenza B Victoria lineage** was the most common strain.

◀ **Figure 15** shows the number of **influenza-positive laboratory results for specimens submitted to BPHL** for the current 2019-20 influenza season, week 40, 2019 through week 11, 2020.

The results shown here are reflective of the influenza testing performed by BPHL thus far for specimens with lab event dates* within this timeframe.

*"Lab event date" is defined as the earliest of the following dates associated with influenza testing at the laboratory: date specimen collected, date received by the laboratory, date reported, or date inserted.

**This number includes both influenza A specimens for which subtyping has not yet been performed as well as specimens that tested positive for influenza A but were unable to be subtyped due to low viral load.

AMERICAN OVERSIGHT

Regional Activity

Figures 16-22 show **the percent of emergency department and urgent care center visits for influenza-like illness (ILI)** at ESSENCE-FL participating facilities (n=370) from week 40, 2016 to week 11, 2020. Data are organized by region (see Figure 23).

2019-20 | 2018-19 | 2017-18 | 2016-17

Figure 16: In **region 1, ILI activity increased** during week 11 and was above peak activity observed during the 2016-17 season.*

Figure 23 shows **emergency departments** and **urgent care centers** reporting data to ESSENCE-FL (n=370) with regions **outlined in bold**. ▶

*While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined statewide.

AMERICAN OVERSIGHT

At-Risk Populations

Background: At-Risk Populations, Children

Children, especially those with underlying health conditions (like asthma or diabetes), are at higher risk for severe complications from influenza infection. **The single best way to protect children from influenza is to get them vaccinated every year.** The Centers for Disease Control and Prevention continues to recommend influenza vaccination as long as flu viruses are circulating. To find a flu shot near you, please visit: VaccineFinder.org.

Figure 24: In week 11, **the percent of emergency department and urgent care center visits for ILI in children <18 years increased** and was above peak levels observed during the 2016-17 season. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

◀ **Figure 24** shows **the percent of influenza-like illness (ILI) visits among children <18 years** at emergency department and urgent care centers, as reported into ESSENCE-FL, week 40, 2016 to week 11, 2020.

Figures 25-26: In week 11, **no new influenza-associated pediatric deaths were reported**. A total of 12 influenza-associated pediatric deaths have been reported so far this season.

▲ **Figure 25** shows the number of **influenza-associated pediatric deaths** as reported in Merlin **by vaccination status**, week 40, 2016 to week 11, 2020.

▲ **Figure 26** shows the number of **influenza-associated pediatric deaths** as reported in Merlin by **medical history**, week 40, 2016 to week 11, 2020.

In week 11, **no new influenza-associated pediatric deaths were reported**.

A total of 12 influenza-associated pediatric deaths have been reported so far this season. **Influenza vaccination is recommended as long as influenza viruses are circulating, even in March or later.**

Children, especially those with certain health conditions are at increased risk of severe complications from influenza infection. **Influenza vaccination has been shown to reduce a child's likelihood of dying from influenza by up to 60%.** For more information, please visit: www.cdc.gov/media/releases/2017/p0403-flu-vaccine.html.

*The Advisory Committee on Immunization Practices (ACIP) recommends children aged six months to eight years receive two doses of influenza vaccine administered a minimum of four weeks apart during their first season of vaccination for optimal protection. The Florida Department of Health includes children in this age group who did not receive a second influenza vaccine in this unvaccinated category. To learn more about the ACIP's 2019-20 recommendations, please visit: www.cdc.gov/mmwr/volumes/68/rr/rr6803a1.htm.

AMERICAN OVERSIGHT

At-Risk Populations Continued

Background: At-Risk Populations, Pregnant Women

Influenza is five times more likely to cause severe illness in pregnant women (even those who are generally healthy) compared to women who are not pregnant. Pregnant women with certain underlying medical conditions (such as asthma or heart disease) are at even greater risk for severe complications from influenza. **Inactivated influenza vaccines are safe, provide the best protection for pregnant women and their babies, and are recommended at any time during pregnancy.** Vaccination during pregnancy provides maternal antibody protection to infants too young to be vaccinated for influenza and has been shown to protect pregnant women from influenza-associated hospitalization and preterm birth. For more information, talk to your health care provider.

Figure 27: In week 11, the **number of emergency department and urgent care center visits for influenza among pregnant women** **decreased** and was within levels observed at this time during previous seasons.

◀ **Figure 27** shows the **number of visits* to emergency departments and urgent care centers with chief complaints of influenza and pregnancy**, as reported in ESSENCE-FL, week 40, 2016 to week 11, 2020.

*This count **underrepresents** the true number of pregnant women presenting for care to emergency departments and urgent care centers with influenza, however, **the overall trend** has been validated through review of discharge data collected by the Agency of Health Care Administration.

Background: At-Risk Populations, Adults Aged ≥65 Years

Adults ≥65 years old are at higher risk for severe complications from influenza infection, including hospitalization and death. While influenza seasons vary in intensity, adults in this age group bear the greatest burden of severe influenza disease. In Florida, an average of 80% of seasonal pneumonia and influenza deaths occurred in adults aged ≥65 years over the last five influenza seasons. **Annual vaccination is the best way to prevent influenza infection.**

Figure 28: In week 11, the **percent of emergency department and urgent care center visits for ILI in adults ≥65 years** **increased** and was above peak levels during the 2016-17 and 2018-19 seasons. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

◀ **Figure 28** shows **the percent of influenza-like illness (ILI) visits among adults ≥65 years old** at emergency departments and urgent care centers, as reported into ESSENCE-FL, week 40, 2016 to week 11, 2020.

AMERICAN OVERSIGHT

Respiratory Syncytial Virus Surveillance

Background

Respiratory syncytial virus (RSV) is a common respiratory virus that usually causes mild, cold-like symptoms. Young children and older adults, especially those with certain underlying health conditions, are at higher risk for severe illness from RSV. Prophylaxis is available for children who qualify. For more information, contact your health care provider.

▲ **Figure 29** shows **Florida's RSV regional season breakdown.** Regions that are currently in RSV season are marked with **pink stars.**

RSV Surveillance

A statewide RSV surveillance system was implemented in Florida to support clinical decision-making for prophylaxis of premature infants.

The determination of unique seasonal and geographic trends of RSV activity in Florida has important implications for prescribing patterns for initiating prophylaxis to children at high risk for complications from RSV infection. The American Academy of Pediatrics currently recommends pre-approval for prophylactic treatment be made based on state surveillance data. For more information on RSV surveillance systems used in Florida, see the last page of this report.

Florida's RSV season is longer than the rest of the nation and has distinct regional patterns. The Florida Department of Health established regional RSV seasons based on activity thresholds provided by the Centers for Disease Control and Prevention (see Figure 29). **Currently, all of Florida's regions are in RSV season.**

To learn more about RSV in Florida, please visit: FloridaHealth.gov/RSV.

Week 11 (February 23-29, 2020) Activity Summary

In week 11, RSV activity in children <5 years increased and was similar to levels observed at this time in 2019.

One new RSV-associated outbreak was reported in week 11. A total of ten RSV-associated outbreaks have been reported since week 30, 2019 (beginning on July 27, 2019).

Figure 30: In week 11, **the percent of emergency department and urgent care center visits for RSV among children <5 years increased** and was similar to levels observed at this time in 2019.

◀ **Figure 30** shows **the percent of emergency department and urgent care center visits with discharge diagnoses that include RSV or RSV-associated illness among children <5 years***, as reported in ESSENCE-FL, week 30, 2016 to week 11, 2020.

*The overall trend displayed in Figure 30 has been validated through review of hospital discharge data collected by the Agency for Health Care Administration.

RSV-Associated Outbreaks in Week 11:

1 Outbreak

Summary of RSV-Associated Outbreaks:

In week 11, one new RSV-associated outbreak was reported. Since week 30, 2019, ten RSV-associated outbreaks have been reported.

Figure 32: In week 11, one new RSV-associated outbreak was reported. Since week 30, outbreaks have been reported in Florida's southeast, central, and northwest regions.

◀ **Figure 32** shows **a summary of RSV-associated outbreaks by region*** as reported by county health departments in Merlin, week 30, 2019 to week 11, 2020.

*Regions defined in figure 29.

◀ **Figure 35*** shows **the number of PCR-positive laboratory findings for enterovirus unspecified, enterovirus D68, and rhinovirus** by week** among specimens submitted to the Bureau of Public Health Laboratories (BPHL) for extended respiratory panel testing.

Figure 36* shows **the number of PCR-positive laboratory findings for parainfluenza 1-3** by week** among specimens submitted to BPHL for extended respiratory panel testing. ▶

◀ **Figure 37*** shows **the number of PCR-positive laboratory findings for seasonal coronaviruses NL63, HKU1, OC43, and 229E** by week** among specimens submitted to BPHL for extended respiratory panel testing.

Figure 38* shows **the number of PCR-positive laboratory findings for human metapneumovirus and adenovirus** by week** among specimens submitted to BPHL for extended respiratory panel testing. ▶

*Data shown in figures 34-38 include results for specimens submitted by Acute Respiratory Infection Epidemiology and Surveillance Program (ARIES) providers (n=4) as reported by BPHL.

**Results are organized by week based on "lab event date" (defined as the earliest of the following dates associated with testing at the laboratory: date specimen collected, date received by the laboratory, date reported, or date inserted).

AMERICAN OVERSIGHT

Summary of Notable Outbreaks

Table 2: Summary of Notable* Influenza-Associated, Respiratory Syncytial Virus (RSV)-Associated, and Influenza-like Illness (ILI) Outbreaks Reported in Week 11, 2020

Setting	County	Number of Cases	Number of Cases Hospitalized	Number of Cases Died	Outbreak Etiology	Control Measures Recommended to Facility Leadership	Investigation Status
No notable outbreaks were reported in week 11, 2020.							

*For the purposes of this report, notable outbreaks are defined as influenza-associated, RSV-associated, or ILI outbreaks with two or more hospitalizations, one or more deaths, or 30 or more cases. For more information on how outbreaks are defined, see page 16.

AMERICAN OVERSIGHT

Summary of Included Surveillance Systems

ESSENCE-FL Syndromic Surveillance and Vital Statistics Portal Data source for figures 1, 4, 16-24, 27, 28, 30

Electronic Surveillance System for the Early Notification of Community-based Epidemics (ESSENCE-FL) measures trends in influenza-like illness (ILI) visits from emergency departments (ED) and urgent care clinics (UCC) and influenza mortality by using death certificates from the Bureau of Vital Statistics. Participating EDs and UCCs (n=370) electronically transmit visit data into ESSENCE-FL daily or hourly.

For statewide and regional data on ILI, visits are counted as ED or UCC visits to participating facilities that include the words "influenza" or "flu" in patient chief complaints. Chief complaints with the words "fever" and "cough," or "fever" and "sore throat" are also counted as ILI.

For pneumonia and influenza (P&I) mortality surveillance, death record literals are queried using a free-text query that searches for references to P&I on death certificates. Any mention of P&I in the death certificate literals, with certain exceptions, is counted as a P&I death. Deaths counts are aggregated and presented by date of death.

For respiratory syncytial virus (RSV) surveillance, visits are counted as ED or UCC visits to participating facilities for which RSV or RSV-associated illness is included in the discharge diagnosis.

For RSV mortality surveillance, death record literals are queried using a free-text query that searches for references to RSV on death certificates. Any mention of RSV, syncytial, and bronchiolitis in the death certificate literals, with certain exceptions, is counted as a RSV death. These deaths are also investigated to ensure they meet case definition.

Florida ILINet Data source for figures 2 and 3

ILINet is a nationwide surveillance system composed of sentinel providers, predominately outpatient health care providers. Florida has 118 sentinel providers enrolled in ILINet who submit weekly ILI and total visit counts, as well as submit ILI specimens to the Bureau of Public Health Laboratories for virologic surveillance. For healthcare providers interested in enrolling in ILINet, contact your local county health department.

ILINet is also used as a portal in which the Florida Department of Health reports Florida's geographic spread of influenza each week to the Centers for Disease Control and Prevention (CDC). Geographic spread is not an indication of influenza severity. Geographic spread can be reported as sporadic, local, regional, or widespread.

- Sporadic: small numbers of laboratory-confirmed influenza or a single laboratory-confirmed influenza has been reported but there is no increase in cases of ILI
- Local: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state
- Regional: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state with recent laboratory evidence of influenza in those regions
- Widespread: outbreaks of influenza or increases in ILI cases and recent laboratory-confirmed influenza in at least half the regions of the state with recent laboratory evidence of influenza in the state.

County Influenza Activity in EpiGateway Data source for figure 5 and 6

County health department (CHD) epidemiologists report their county's influenza and ILI surveillance data weekly into The Florida Department of Health's EpiGateway website. Data from these reports is used to classify influenza activity as: no activity, mild, moderate, or elevated. Setting-specific influenza activity and influenza trend information is also reported by CHDs as available. EpiGateway data provided by CHDs creates a county-by-county breakdown of influenza and ILI activity around the state.

Laboratory Viral Respiratory Surveillance Data source for figures 7 and 31

The National Respiratory and Enteric Virus Surveillance System (NREVSS) is a CDC surveillance system that captures on eight commonly circulating respiratory viruses as reported by participating laboratories in Florida. NREVSS data are combined with validated electronic laboratory data from Florida laboratories that submit RSV laboratory results via electronic laboratory reporting. Together, this information is used to monitor the temporal and geographic patterns of these viruses.

Outbreak Reporting in Merlin Data source for figures 8-13, 32-34; tables 1 and 2

Outbreak investigations are tracked in Merlin (Florida's reportable disease surveillance system) by investigating county health departments. Outbreak reports include implicated viruses or bacteria, the outbreak setting, and recommendations made to mitigate the spread of disease (among other data elements). All outbreak data are considered preliminary and subject to change. As such, outbreak counts may increase or decrease as additional information is received.

- ILI outbreaks in facilities serving adults aged ≥65 years (assisted living facilities, nursing facilities, and long-term care facilities) are defined as two or more individuals with ILI (fever and cough or fever and sore throat in the absence of positive laboratory results). ILI outbreaks in facilities serving children (primary/secondary schools and child daycares) are defined as three or more epidemiologically linked individuals with ILI.
- Influenza-associated outbreaks in facilities serving adults aged ≥65 years are defined as two or more individuals with respiratory symptoms, where at least one individual tests positive for influenza. Influenza-associated outbreaks in facilities serving children are defined as three or more epidemiologically linked individuals with respiratory symptoms, where at least one individual tests positive for influenza. Testing may be conducted by the Bureau of Public Health Laboratories (BPHL), commercial laboratories, hospitals, or private health care providers.

Continued on next page.

AMERICAN OVERSIGHT

Summary of Included Surveillance Systems Continued

- RSV-associated outbreaks in facilities serving adults aged ≥65 years are defined as two or more individuals with respiratory symptoms, where at least one individual tests positive for RSV. RSV-associated outbreaks in facilities serving children are defined as three or more epidemiologically linked individuals with respiratory symptoms, where at least one individual tests positive for RSV. Testing may be conducted by BPHL, commercial laboratories, hospitals, or private health care providers.
- Notable outbreaks include influenza-associated, RSV-associated, or ILI outbreaks in any setting with 30 or more cases, two or more hospitalized cases, or one or more cases who died.
- Household clusters are not counted as outbreaks.

Bureau of Public Health Laboratories (BPHL) Data source for figures 14, 15, and 35-38.

BPHL performs testing and subtyping on surveillance specimens from sentinel providers, outbreak investigations, patients with severe or unusual influenza presentations, and medical examiners. Sentinel providers include both ILINet and Acute Respiratory Infection Epidemiology and Surveillance Program (ARIES) providers. Some laboratories also routinely submit pre-screened influenza-positive specimens for testing at BPHL for surveillance purposes.

Case-Based Influenza Surveillance Data source for figures 25 and 26

Death in a child whose laboratory-confirmed influenza infection has been identified as a contributing to the child's death is a reportable condition in Florida. Influenza-associated pediatric deaths are documented by county health departments in Merlin.

In addition, an individual of any age suspected as being infected with non-seasonal or pandemic influenza A is reportable condition in Florida. Such cases are referred to as cases of 'novel influenza A.' Novel influenza A cases are documented by county health departments in Merlin.

For more information about reportable diseases and conditions, please visit FloridaHealth.gov/DiseaseReporting.

Subject: Week 11, 2020 Florida Flu Review
Date: Wednesday, March 18, 2020 4:23:27 PM
Attachments: Week 11, 2020 Florida Flu Review.pdf

Good afternoon!

Please find attached the week 11 Florida Flu Review.

Statewide, the percentage of respiratory specimens testing positive for influenza in sentinel laboratories decreased steadily over the last three weeks. Despite this decrease in laboratory-confirmed influenza activity, the percentage of visits for ILI increased notably during those same three weeks.

Recent trends in ILI activity may be a data artifact driven by an increase in the number of people seeking care for respiratory illness in response to concerns about coronavirus disease 2019 (COVID-19). It is also possible that these data represent a true increase in ILI activity statewide. The data displayed in this report are intended to track influenza activity in Florida. For information about COVID-19 in Florida, please visit: FloridaHealth.gov/diseases-and-conditions/COVID-19/.

For questions regarding COVID-19 in Florida please email COVID-19@FLHealth.gov or call 1-866-779-6121.

Eleven outbreaks were reported, up from ten outbreaks in the previous week. Of the eleven outbreaks reported, one was influenza-associated and ten were ILI.

No new influenza-associated pediatric deaths were reported. Twelve influenza-associated pediatric deaths have been reported so far this season; 75% of children were not vaccinated for the 2019-20 season.

Influenza A 2009 (H1N1) remained the predominant strain.

The Centers for Disease Control and Prevention (CDC) continues to recommend that people who have not yet been vaccinated do so as soon as possible. It is especially important for people at higher risk for complications (children, adults =65 years, pregnant women, and people with underlying medical conditions).

In addition to getting vaccinated, the Florida Department of Health recommends you take

AMERICAN OVERSIGHT

everyday precautions to prevent the spread of influenza:

- Wash your hands often with soap and water (if soap is not available, use an alcohol-based sanitizer).
- Avoid touching your eyes, nose, and mouth.
- If you do get sick, stay home until fever-free for at least 24 hours (without the use of fever-reducing medication).

Best,

Florida ILI Surveillance System Summary 16

Background

Influenza, or flu, is a respiratory infection caused by a variety of influenza viruses. Most experts believe influenza viruses spread primarily by droplets made when infected people cough, sneeze, or talk. Less often, a person might become infected with influenza by touching a surface or object contaminated with influenza virus and then touching their own mouth, eyes, or nose.

The best way to prevent influenza infection is to get vaccinated each year. Influenza vaccines protect against the three or four influenza viruses research suggests will be most common.

Influenza Surveillance

Individual cases of influenza are not reportable in Florida with the exception of novel influenza A (a new subtype of influenza A) and influenza-associated pediatric deaths. All outbreaks, including those due to influenza or influenza-like illness (ILI), are reportable in Florida.

Influenza surveillance is conducted to detect changes in the influenza virus. These data are used to help determine the annual northern hemisphere vaccine composition and to prepare for potential pandemics.

Surveillance is also conducted to identify any unusually severe presentations of influenza, detect outbreaks, and determine the onset, peak, and wane of the influenza season to assist with influenza prevention, particularly in high-risk populations like the very young, adults aged ≥65 years, and pregnant women.

The influenza reporting year is defined by standard reporting weeks outlined by the Centers for Disease Control and Prevention, where every year has 52 or 53 reporting weeks. Increased surveillance for influenza in Florida for the 2019-20 season began in week 40 (starting on September 29, 2019) and will extend through week 20 (ending May 16, 2020). This report is produced by the Florida Department of Health on a weekly basis during the regular influenza season and an abbreviated report is published on a biweekly basis during the summer months.

Surveillance case definitions for ILI vary slightly across surveillance systems. **For more information on Florida's influenza surveillance systems and associated case definitions, see page 16.**

Statewide Activity

Figure 1: In week 11, **the percent of emergency department and urgent care center visits for ILI statewide increased** and was above peak levels observed during the 2016-17 and 2018-19 seasons. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

▲ **Figure 1** shows **the percent of visits for ILI** for facilities participating in ESSENCE-FL (n=370) statewide for the current season (week 40, 2019 to week 11, 2020) and the last three seasons (2018-19, 2017-18, and 2016-17). The ESSENCE-FL ILI syndrome captures visits with chief complaints that include the words "influenza" or "flu," or chief complaints that include the words "fever" and "cough," or "fever" and "sore throat." For more information on the use of ESSENCE-FL for influenza and ILI surveillance, see page 16.

AMERICAN OVERSIGHT

Statewide Activity

Figure 2: In week 11, Florida reported **widespread geographic spread of influenza** to the Centers for Disease Control and Prevention.

◀ **Figure 2** shows Florida's self-reported **geographic spread of influenza** as reported to the Centers for Disease Control and Prevention, week 40, 2016 to week 11, 2020.

Defining geographic spread of influenza:

Sporadic: small numbers of laboratory-confirmed influenza or a single laboratory-confirmed influenza outbreak has been reported, but there is no increase in cases of ILI.

Local: outbreaks of influenza or increases in ILI and recent laboratory confirmed influenza in at least two but less than half the regions of the state.

Regional: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state with recent laboratory evidence of influenza in those regions.

Widespread: Outbreaks of influenza or increases in ILI cases and recent laboratory-confirmed influenza in at least half the regions of the state with recent laboratory evidence of influenza in the state.

Figure 3: In week 11, **the percent of patients with ILI reported by ILINet providers statewide decreased** and was below levels observed during previous seasons. Of note, the number of reporting providers remained low in recent weeks.

Figure 3 shows the **percent of patients with influenza-like illness (ILI)** reported statewide by ILINet providers (n=4), week 40, 2016 to week 11, 2020. ▶

For ILINet, ILI is defined as a fever ≥100°F in conjunction with sore throat or cough in the absence of another known cause.

Figure 4: In week 10 (ending 3/7/20), **the number of pneumonia and influenza deaths identified statewide decreased** and was below levels observed at this time in previous seasons.

◀ **Figure 4** shows **pneumonia and influenza (P&I) deaths*** for all Florida counties from the Bureau of Vital Statistics, as reported into ESSENCE-FL, week 40, 2016 to week 10, 2020.

*Recent P&I death counts are preliminary numbers that may change as more data are received. The most recent data available are displayed here.

AMERICAN OVERSIGHT

County Influenza Activity

Figure 5: Most counties reported **mild activity** for week 11. Ten counties reported **moderate activity,** and no counties reported **elevated activity.**

Figure 7: Most counties reported **activity at a plateau** for week 11. Seventeen counties reported **increasing activity,** and 22 counties reported **decreasing activity**.

▲ **Figures 5-6** show **county influenza activity data** as reported by county health departments in EpiGateway. These data are collected on a weekly basis and are used to determine influenza activity levels for each county (Figure 5). County health departments also report their weekly influenza activity trend (Figure 6).

Figure 7: The **percent of specimens testing positive for influenza** **decreased** in recent weeks. In week 11, the **percent of specimens testing positive for rhinovirus** was higher than other respiratory viruses under surveillance.

▲ **Figure 7** shows **the percent of laboratory results testing positive for eight common respiratory viruses**, as reported by laboratories participating in the National Respiratory and Enteric Virus Surveillance System (NRVESS) and laboratories reporting validated respiratory virus data to the Florida Department of Health via electronic laboratory reporting (n=8), week 40, 2019 to week 11, 2020.

AMERICAN OVERSIGHT

Influenza and ILI Outbreaks

Week 11 Outbreaks at a Glance:

Number Reported:

11 Outbreaks

Influenza-Associated:

4 Outbreaks

Severe Outcomes*:

1 Outbreak

Outbreak Summary:

In week 11, four influenza-associated and seven ILI outbreaks were reported, a slight increase from the previous week.

Severe outcomes* were reported in one of eleven outbreaks. One hospitalization and no deaths were reported in this outbreak.

During the previous season, severe outcomes were most commonly reported in facilities serving adults aged ≥65 years (assisted living facilities, nursing facilities, and long-term care facilities).

▲ **Figure 8** shows **reported influenza or ILI outbreaks by county**. Counties with outbreaks reported in week 11 are **outlined in bold.**

Figure 9: In week 11, **seven outbreaks** were reported among **facilities serving adults aged ≥65 years, three outbreaks** were reported in **facilities serving children,** and **one outbreak** was reported among **other facilities.**

◀ **Figure 9** shows the number of **influenza-associated or ILI outbreaks by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020. More information on how these setting categories are defined is available on pages 6-7.

Figure 10: As of week 11, **63.9% of outbreaks** reported so far this season were **influenza-associated.**

◀ **Figure 10** shows the total number of outbreaks and the number of influenza-associated outbreaks as reported in Merlin by county health departments for the 2019-20 season as of week 11, 2020. For more information on how ILI and influenza-associated outbreaks are defined, see page 16.

*Severe outcomes are defined as hospitalization or death among one or more outbreak cases.

**Total outbreaks includes the number of influenza-associated outbreaks in addition to outbreaks of ILI.

AMERICAN OVERSIGHT

Influenza and ILI Outbreaks

Facilities Serving Children*:

3 Outbreaks

Summary of Outbreaks in Facilities Serving Children:

In week 11, three new outbreaks of influenza or ILI were reported in facilities serving children.

*Facilities serving children include primary schools, secondary schools, and child daycares.

Figure 11: In week 11, **two influenza-associated outbreaks** and **one ILI outbreak** were reported in **facilities serving children.**

▲ **Figure 11** shows the number of **influenza-associated or ILI outbreaks in facilities serving children by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

Facilities Serving Adults ≥65 yrs.**:

7 Outbreaks

Summary of Outbreaks in Facilities Serving Adults ≥65 years:

In week 11, seven new outbreaks of influenza or ILI were reported among facilities serving adults aged ≥65 years.

**Facilities serving adults ≥65 years include assisted living facilities, nursing homes, and other long-term care facilities.

Figure 12: In week 11, **six ILI outbreaks** and **one influenza-associated outbreak** were reported among **facilities serving adults ≥65 years.**

▲ **Figure 12** shows the number of **influenza-associated or ILI outbreaks in facilities serving adults aged ≥65 years by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

AMERICAN OVERSIGHT

Influenza and ILI Outbreaks

Other Facilities*:

1 Outbreak

Summary of Outbreaks in Other Facilities:

In week 11, one new outbreak of influenza or ILI was reported among other facilities.

*Other facilities include post-secondary schools, adult daycares, correctional facilities, hospitals, shelters, and workplaces.

Figure 13: In week 11, **one influenza-associated outbreak** was reported among **other facilities.**

▲ **Figure 13** shows the number of **influenza-associated or ILI outbreaks in other facilities by week** as reported in Merlin by county health departments, week 40, 2019 to week 11, 2020.

Table 1: Summary of Influenza or ILI Outbreaks Reported During the 2019-20 Season by Setting

Setting	Number of Outbreaks (Percent of Outbreaks)	Number Influenza-Associated or ILI
Primary or secondary schools	136 (46.7%)	83 influenza-associated outbreaks 53 ILI outbreaks
Child daycares	40 (13.8%)	17 influenza-associated outbreaks 23 ILI outbreaks
Camps	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Assisted living facilities	23 (7.9%)	10 influenza-associated outbreaks 13 ILI outbreaks
Nursing facilities	18 (6.2%)	14 influenza-associated outbreaks 4 ILI outbreaks
Other long-term care facilities	33 (11.3%)	26 influenza-associated outbreaks 7 ILI outbreaks
Adult daycares	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Post-secondary schools	0 (0.0%)	0 influenza-associated outbreaks 0 ILI outbreaks
Correctional facilities	33 (11.3%)	31 influenza-associated outbreaks 2 ILI outbreaks
Hospitals	3 (1.1%)	2 influenza-associated outbreaks 1 ILI outbreak
Additional facility types	5 (1.7%)	3 influenza-associated outbreaks 2 ILI outbreaks
Total	**291 (100.0%)**	**186 influenza-associated outbreaks** **105 ILI outbreaks**

AMERICAN OVERSIGHT

Laboratory Surveillance

Figure 14: **Influenza A 2009 (H1N1)** continues to be the most common influenza virus identified at BPHL in recent weeks, and **influenza A 2009 (H1N1)** is the most common influenza subtype detected so far this season. **Influenza B Victoria lineage** was predominant earlier in the season, but the frequency of those detections decreased in recent weeks.

▲ **Figure 14** shows the number of **influenza-positive laboratory results at the Bureau of Public Health Laboratories (BPHL)** by lab-event date,* week 30, 2019 through week 11, 2020.

Figure 15: **Influenza A 2009 (H1N1)** makes up the largest number of influenza detections at BPHL since week 40. Earlier in the season, **influenza B Victoria lineage** was the most common strain.

◀ **Figure 15** shows the number of **influenza-positive laboratory results for specimens submitted to BPHL** for the current 2019-20 influenza season, week 40, 2019 through week 11, 2020.

The results shown here are reflective of the influenza testing performed by BPHL thus far for specimens with lab event dates* within this timeframe.

*"Lab event date" is defined as the earliest of the following dates associated with influenza testing at the laboratory: date specimen collected, date received by the laboratory, date reported, or date inserted.

**This number includes both influenza A specimens for which subtyping has not yet been performed as well as specimens that tested positive for influenza A but were unable to be subtyped due to low viral load.

AMERICAN OVERSIGHT

Regional Activity

Figures 16-22 show **the percent of emergency department and urgent care center visits for influenza-like illness (ILI)** at ESSENCE-FL participating facilities (n=370) from week 40, 2016 to week 11, 2020. Data are organized by region (see Figure 23).

2019-20 | 2018-19 | 2017-18 | 2016-17

*While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined statewide.

AMERICAN OVERSIGHT

At-Risk Populations

Background: At-Risk Populations, Children

Children, especially those with underlying health conditions (like asthma or diabetes), are at higher risk for severe complications from influenza infection. **The single best way to protect children from influenza is to get them vaccinated every year.** The Centers for Disease Control and Prevention continues to recommend influenza vaccination as long as flu viruses are circulating. To find a flu shot near you, please visit: VaccineFinder.org.

Figure 24: In week 11, **the percent of emergency department and urgent care center visits for ILI in children <18 years increased** and was above peak levels observed during the 2016-17 season. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

◀ **Figure 24** shows **the percent of influenza-like illness (ILI) visits among children <18 years** at emergency department and urgent care centers, as reported into ESSENCE-FL, week 40, 2016 to week 11, 2020.

Figures 25-26: In week 11, **no new influenza-associated pediatric deaths were reported**. A total of 12 influenza-associated pediatric deaths have been reported so far this season.

▲ **Figure 25** shows the number of **influenza-associated pediatric deaths** as reported in Merlin **by vaccination status**, week 40, 2016 to week 11, 2020.

▲ **Figure 26** shows the number of **influenza-associated pediatric deaths** as reported in Merlin by **medical history**, week 40, 2016 to week 11, 2020.

In week 11, **no new influenza-associated pediatric deaths were reported**.

A total of 12 influenza-associated pediatric deaths have been reported so far this season. **Influenza vaccination is recommended as long as influenza viruses are circulating, even in March or later.**

Children, especially those with certain health conditions are at increased risk of severe complications from influenza infection. **Influenza vaccination has been shown to reduce a child's likelihood of dying from influenza by up to 60%.** For more information, please visit: www.cdc.gov/media/releases/2017/p0403-flu-vaccine.html.

*The Advisory Committee on Immunization Practices (ACIP) recommends children aged six months to eight years receive two doses of influenza vaccine administered a minimum of four weeks apart during their first season of vaccination for optimal protection. The Florida Department of Health includes children in this age group who did not receive a second influenza vaccine in this unvaccinated category. To learn more about the ACIP's 2019-20 recommendations, please visit: www.cdc.gov/mmwr/volumes/68/rr/rr6803a1.htm.

AMERICAN OVERSIGHT

At-Risk Populations Continued

Background: At-Risk Populations, Pregnant Women

Influenza is five times more likely to cause severe illness in pregnant women (even those who are generally healthy) compared to women who are not pregnant. Pregnant women with certain underlying medical conditions (such as asthma or heart disease) are at even greater risk for severe complications from influenza. **Inactivated influenza vaccines are safe, provide the best protection for pregnant women and their babies, and are recommended at any time during pregnancy.** Vaccination during pregnancy provides maternal antibody protection to infants too young to be vaccinated for influenza and has been shown to protect pregnant women from influenza-associated hospitalization and preterm birth. For more information, talk to your health care provider.

Figure 27: In week 11, the **number of emergency department and urgent care center visits for influenza among pregnant women** **decreased** and was within levels observed at this time during previous seasons.

◀ **Figure 27** shows the **number of visits* to emergency departments and urgent care centers with chief complaints of influenza and pregnancy**, as reported in ESSENCE-FL, week 40, 2016 to week 11, 2020.

*This count **underrepresents** the true number of pregnant women presenting for care to emergency departments and urgent care centers with influenza, however, **the overall trend** has been validated through review of discharge data collected by the Agency of Health Care Administration.

Background: At-Risk Populations, Adults Aged ≥65 Years

Adults ≥65 years old are at higher risk for severe complications from influenza infection, including hospitalization and death. While influenza seasons vary in intensity, adults in this age group bear the greatest burden of severe influenza disease. In Florida, an average of 80% of seasonal pneumonia and influenza deaths occurred in adults aged ≥65 years over the last five influenza seasons. **Annual vaccination is the best way to prevent influenza infection.**

Figure 28: In week 11, the **percent of emergency department and urgent care center visits for ILI in adults ≥65 years** **increased** and was above peak levels during the 2016-17 and 2018-19 seasons. While ILI activity has increased in recent weeks, laboratory-confirmed influenza activity has declined.

◀ **Figure 28** shows **the percent of influenza-like illness (ILI) visits among adults ≥65 years old** at emergency departments and urgent care centers, as reported into ESSENCE-FL, week 40, 2016 to week 11, 2020.

AMERICAN OVERSIGHT

Respiratory Syncytial Virus Surveillance

Background

Respiratory syncytial virus (RSV) is a common respiratory virus that usually causes mild, cold-like symptoms. Young children and older adults, especially those with certain underlying health conditions, are at higher risk for severe illness from RSV. Prophylaxis is available for children who qualify. For more information, contact your health care provider.

▲ **Figure 29** shows **Florida's RSV regional season breakdown.** Regions that are currently in RSV season are marked with **pink stars.**

RSV Surveillance

A statewide RSV surveillance system was implemented in Florida to support clinical decision-making for prophylaxis of premature infants.

The determination of unique seasonal and geographic trends of RSV activity in Florida has important implications for prescribing patterns for initiating prophylaxis to children at high risk for complications from RSV infection. The American Academy of Pediatrics currently recommends pre-approval for prophylactic treatment be made based on state surveillance data. For more information on RSV surveillance systems used in Florida, see the last page of this report.

Florida's RSV season is longer than the rest of the nation and has distinct regional patterns. The Florida Department of Health established regional RSV seasons based on activity thresholds provided by the Centers for Disease Control and Prevention (see Figure 29). **Currently, all of Florida's regions are in RSV season.**

To learn more about RSV in Florida, please visit: FloridaHealth.gov/RSV.

Week 11 (February 23-29, 2020) Activity Summary

In week 11, RSV activity in children <5 years increased and was similar to levels observed at this time in 2019.

One new RSV-associated outbreak was reported in week 11. A total of ten RSV-associated outbreaks have been reported since week 30, 2019 (beginning on July 27, 2019).

Figure 30: In week 11, **the percent of emergency department and urgent care center visits for RSV among children <5 years increased** and was similar to levels observed at this time in 2019.

◀ **Figure 30** shows **the percent of emergency department and urgent care center visits with discharge diagnoses that include RSV or RSV-associated illness among children <5 years***, as reported in ESSENCE-FL, week 30, 2016 to week 11, 2020.

*The overall trend displayed in Figure 30 has been validated through review of hospital discharge data collected by the Agency for Health Care Administration.

AMERICAN OVERSIGHT

Florida HEALTH

RSV Surveillance

Figure 31: In week 11, **the percent of specimens testing positive for RSV decreased.** Levels were slightly below those observed at this time in previous seasons.

Figure 31 shows **the percent of specimens testing positive for respiratory syncytial virus (RSV)**, as reported by hospital laboratories (n=8), week 30, 2016 to week 11, 2020. ▶

RSV-Associated Outbreaks in Week 11:

1 Outbreak

Summary of RSV-Associated Outbreaks:

In week 11, one new RSV-associated outbreak was reported. Since week 30, 2019, ten RSV-associated outbreaks have been reported.

Figure 32: In week 11, one new RSV-associated outbreak was reported. Since week 30, outbreaks have been reported in Florida's southeast, central, and northwest regions.

◀ **Figure 32** shows **a summary of RSV-associated outbreaks by region*** as reported by county health departments in Merlin, week 30, 2019 to week 11, 2020.

*Regions defined in figure 29.

Figure 33: In week 11, one new RSV-associated outbreak was reported. This outbreak was reported in a **facility serving adults aged ≥65 years**. The majority of outbreaks reported since week 30 have been reported in **facilities serving children.**

▲ **Figure 33** shows **the number of RSV-associated outbreaks by setting and week** as reported by county health departments in Merlin, week 30, 2019 to week 11, 2020.

AMERICAN OVERSIGHT

Other Respiratory Virus Surveillance

▲ **Figure 34** shows **the number of unique times a pathogen was associated with a respiratory outbreak** for outbreaks reported from week 30, 2019 to week 11, 2020.

◀ **Figure 35*** shows **the number of PCR-positive laboratory findings for enterovirus unspecified, enterovirus D68, and rhinovirus** by week** among specimens submitted to the Bureau of Public Health Laboratories (BPHL) for extended respiratory panel testing.

Figure 36* shows **the number of PCR-positive laboratory findings for parainfluenza 1-3** by week** among specimens submitted to BPHL for extended respiratory panel testing. ▶

◀ **Figure 37*** shows **the number of PCR-positive laboratory findings for seasonal coronaviruses NL63, HKU1, OC43, and 229E** by week** among specimens submitted to BPHL for extended respiratory panel testing.

Figure 38* shows **the number of PCR-positive laboratory findings for human metapneumovirus and adenovirus** by week** among specimens submitted to BPHL for extended respiratory panel testing. ▶

*Data shown in figures 34-38 include results for specimens submitted by Acute Respiratory Infection Epidemiology and Surveillance Program (ARIES) providers (n=4) as reported by BPHL.

**Results are organized by week based on "lab event date" (defined as the earliest of the following dates associated with testing at the laboratory: date specimen collected, date received by the laboratory, date reported, or date inserted).

AMERICAN OVERSIGHT

Summary of Notable Outbreaks

Table 2: Summary of Notable* Influenza-Associated, Respiratory Syncytial Virus (RSV)-Associated, and Influenza-like Illness (ILI) Outbreaks Reported in Week 11, 2020

Setting	County	Number of Cases	Number of Cases Hospitalized	Number of Cases Died	Outbreak Etiology	Control Measures Recommended to Facility Leadership	Investigation Status
No notable outbreaks were reported in week 11, 2020.							

*For the purposes of this report, notable outbreaks are defined as influenza-associated, RSV-associated, or ILI outbreaks with two or more hospitalizations, one or more deaths, or 30 or more cases. For more information on how outbreaks are defined, see page 16.

AMERICAN OVERSIGHT

Summary of Included Surveillance Systems

ESSENCE-FL Syndromic Surveillance and Vital Statistics Portal Data source for figures 1, 4, 16-24, 27, 28, 30

Electronic Surveillance System for the Early Notification of Community-based Epidemics (ESSENCE-FL) measures trends in influenza-like illness (ILI) visits from emergency departments (ED) and urgent care clinics (UCC) and influenza mortality by using death certificates from the Bureau of Vital Statistics. Participating EDs and UCCs (n=370) electronically transmit visit data into ESSENCE-FL daily or hourly.

For statewide and regional data on ILI, visits are counted as ED or UCC visits to participating facilities that include the words "influenza" or "flu" in patient chief complaints. Chief complaints with the words "fever" and "cough," or "fever" and "sore throat" are also counted as ILI.

For pneumonia and influenza (P&I) mortality surveillance, death record literals are queried using a free-text query that searches for references to P&I on death certificates. Any mention of P&I in the death certificate literals, with certain exceptions, is counted as a P&I death. Deaths counts are aggregated and presented by date of death.

For respiratory syncytial virus (RSV) surveillance, visits are counted as ED or UCC visits to participating facilities for which RSV or RSV-associated illness is included in the discharge diagnosis.

For RSV mortality surveillance, death record literals are queried using a free-text query that searches for references to RSV on death certificates. Any mention of RSV, syncytial, and bronchiolitis in the death certificate literals, with certain exceptions, is counted as a RSV death. These deaths are also investigated to ensure they meet case definition.

Florida ILINet Data source for figures 2 and 3

ILINet is a nationwide surveillance system composed of sentinel providers, predominately outpatient health care providers. Florida has 118 sentinel providers enrolled in ILINet who submit weekly ILI and total visit counts, as well as submit ILI specimens to the Bureau of Public Health Laboratories for virologic surveillance. For healthcare providers interested in enrolling in ILINet, contact your local county health department.

ILINet is also used as a portal in which the Florida Department of Health reports Florida's geographic spread of influenza each week to the Centers for Disease Control and Prevention (CDC). Geographic spread is not an indication of influenza severity. Geographic spread can be reported as sporadic, local, regional, or widespread.

- Sporadic: small numbers of laboratory-confirmed influenza or a single laboratory-confirmed influenza has been reported but there is no increase in cases of ILI
- Local: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state
- Regional: outbreaks of influenza or increases in ILI and recent laboratory-confirmed influenza in at least two but less than half the regions of the state with recent laboratory evidence of influenza in those regions
- Widespread: outbreaks of influenza or increases in ILI cases and recent laboratory-confirmed influenza in at least half the regions of the state with recent laboratory evidence of influenza in the state.

County Influenza Activity in EpiGateway Data source for figure 5 and 6

County health department (CHD) epidemiologists report their county's influenza and ILI surveillance data weekly into The Florida Department of Health's EpiGateway website. Data from these reports is used to classify influenza activity as: no activity, mild, moderate, or elevated. Setting-specific influenza activity and influenza trend information is also reported by CHDs as available. EpiGateway data provided by CHDs creates a county-by-county breakdown of influenza and ILI activity around the state.

Laboratory Viral Respiratory Surveillance Data source for figures 7 and 31

The National Respiratory and Enteric Virus Surveillance System (NREVSS) is a CDC surveillance system that captures on eight commonly circulating respiratory viruses as reported by participating laboratories in Florida. NREVSS data are combined with validated electronic laboratory data from Florida laboratories that submit RSV laboratory results via electronic laboratory reporting. Together, this information is used to monitor the temporal and geographic patterns of these viruses.

Outbreak Reporting in Merlin Data source for figures 8-13, 32-34; tables 1 and 2

Outbreak investigations are tracked in Merlin (Florida's reportable disease surveillance system) by investigating county health departments. Outbreak reports include implicated viruses or bacteria, the outbreak setting, and recommendations made to mitigate the spread of disease (among other data elements). All outbreak data are considered preliminary and subject to change. As such, outbreak counts may increase or decrease as additional information is received.

- ILI outbreaks in facilities serving adults aged ≥65 years (assisted living facilities, nursing facilities, and long-term care facilities) are defined as two or more individuals with ILI (fever and cough or fever and sore throat in the absence of positive laboratory results). ILI outbreaks in facilities serving children (primary/secondary schools and child daycares) are defined as three or more epidemiologically linked individuals with ILI.
- Influenza-associated outbreaks in facilities serving adults aged ≥65 years are defined as two or more individuals with respiratory symptoms, where at least one individual tests positive for influenza. Influenza-associated outbreaks in facilities serving children are defined as three or more epidemiologically linked individuals with respiratory symptoms, where at least one individual tests positive for influenza. Testing may be conducted by the Bureau of Public Health Laboratories (BPHL), commercial laboratories, hospitals, or private health care providers.

Continued on next page.

AMERICAN OVERSIGHT

Summary of Included Surveillance Systems Continued

- RSV-associated outbreaks in facilities serving adults aged ≥65 years are defined as two or more individuals with respiratory symptoms, where at least one individual tests positive for RSV. RSV-associated outbreaks in facilities serving children are defined as three or more epidemiologically linked individuals with respiratory symptoms, where at least one individual tests positive for RSV. Testing may be conducted by BPHL, commercial laboratories, hospitals, or private health care providers.
- Notable outbreaks include influenza-associated, RSV-associated, or ILI outbreaks in any setting with 30 or more cases, two or more hospitalized cases, or one or more cases who died.
- Household clusters are not counted as outbreaks.

Bureau of Public Health Laboratories (BPHL) Data source for figures 14, 15, and 35-38.

BPHL performs testing and subtyping on surveillance specimens from sentinel providers, outbreak investigations, patients with severe or unusual influenza presentations, and medical examiners. Sentinel providers include both ILINet and Acute Respiratory Infection Epidemiology and Surveillance Program (ARIES) providers. Some laboratories also routinely submit pre-screened influenza-positive specimens for testing at BPHL for surveillance purposes.

Case-Based Influenza Surveillance Data source for figures 25 and 26

Death in a child whose laboratory-confirmed influenza infection has been identified as a contributing to the child's death is a reportable condition in Florida. Influenza-associated pediatric deaths are documented by county health departments in Merlin.

In addition, an individual of any age suspected as being infected with non-seasonal or pandemic influenza A is reportable condition in Florida. Such cases are referred to as cases of 'novel influenza A.' Novel influenza A cases are documented by county health departments in Merlin.

For more information about reportable diseases and conditions, please visit FloridaHealth.gov/DiseaseReporting.

Mission of the Department of Health: To protect and promote the health of all residents and visitors in the state through organized state and community efforts,including cooperative agreements with counties.
***I**nnovation: We search for creative solutions and manage resources wisely.*
***C**ollaboration: We use teamwork to achieve common goals & solve problems.*
***A**ccountability: We perform with integrity & respect.*
***R**esponsiveness: We achieve our mission by serving our customers & engaging our partners.*
***E**xcellence: We promote quality outcomes through learning & continuous performance improvement.*

PLEASE NOTE: Florida has a very broad public records law. Most written communications to or from state officials regarding state business are public records available to the public and media upon request. Your email communications may therefore be subject to disclosure.

How am I doing? Please let me know by taking this short survey. Thank you!
