EXTERNAL SENDER

Good afternoon,

Please see the attached letters, with enclosures, in response to your request for information under Chapter 552 of the Texas Government Code. We have also included the "Packing Slip" receipt for your deposit.

The responsive documents contain email addresses of the general public. An email address of a member of the public is confidential under section 552.137 of the Texas Government Code. The attorney general authorized all governmental bodies to withhold an email address of a member of the public without first requesting an attorney general opinion in Open Records Decision No. 684 (2009). Thus, this information has been redacted.

The information you requested also contains access device numbers that are collected, assembled, or maintained by or for a governmental body. This information is confidential under section 552.136 of the Texas Government Code. Section 552.136 allows us to withhold this specific information without requesting a ruling from the attorney general. You have the right to appeal our decision to withhold this information from you. Instructions for appeal are attached. If you do not want to appeal, you do not need to do anything else.

As stated in our letter, we require more time to continue reviewing our records and produce additional responsive information. We will provide you additional responsive documents on a rolling basis—to the extent such information is not excepted from disclosure under state or federal law—with our next production by 5:00 p.m. on September 13, 2022. *See* Tex. Gov't Code § 552.221(d).

Jennifer Williams

Mr. Secretary,

As discussed last Wednesday, attached is a draft Statement of Work for providing election integrity process and data analysis to help us collectively determine what needs to be in Version 1.0. of the enabling technology to support 2022. As well, I have attached our certified State of Texas HUB Status and CMBL Vendor ID for your reference.

We also have first class data management and analytics staff that we can provide Chad for his team as it ramps up. Those folks can also help us in this initial effort and perform knowledge transfer services for new hires that get on-boarded to the Elections Division over time.

We'd love to hop on a quick call or Zoom with you and Chad (don't have his contact info) to determine how best to proceed.

Thank you again for your time and consideration.

Best Regards,

Scott

AMERICAN OVERSIGHT

Statement of Work 1 – Election Integrity Data Automation and Discovery

This Statement of Work Number 1 ("**SOW**"), effective as of February 21, 2022 (the "SOW Date"), is entered into by and between the State of Texas ("Client" or "SoS"), and Nexus Cognitive Government Services, a Texas limited liability company ("Consultant").

I. Description of Services. Consultant shall provide the following Services under this SOW, such Services to be completed on or before March 21st, 2022.

The primary focus is performing data source and solution discovery for an election integrity analytics solution to confirm the legality and accuracy of every vote in the State of Texas.

This discovery effort will gain consensus on key data sources that will be incorporated into the solution and an inventory of what questions we are trying to answer.

Activities will focus on defining the optimal business solution components along with any technical and external dependencies. The project will also include identifying the specific feature/capability requirements to eventually support all 254 counties by establishing a scalable foundation to enable future growth. The analysis and deliverables will support the following four key objectives:

- How to evaluate election integrity in a given jurisdiction and determine how to set up a long term automated solution to do the same;
- Defining a transparent, easy to interpret tool that is secure, inspectable, and auditable.
- Considerably reduce back office and administrative burdens all constituent parties by providing increased transparency and verifiability of votes cast;
- Provide a solution implementation roadmap with achievable milestones for the 2022 election year and future election cycles.

The activities and deliverables of this engagement are intended to clearly define the solution from a business perspective while identifying dependencies and validating solution feasibility. Any integration points and core capabilities necessary to deliver the solution will be documented and assessed. The following sections outline specific activities, deliverables, and assumptions.

AMERICAN OVERSIGHT

Activities:

1. Draft Initial Solution Summary
    a. 2-3 Page non-technical overview of the platform
    b. State of Texas stakeholders will be key contributors
    c. Will constantly refactor as the discovery process progresses
2. Analyze/Document various source systems
    a. Conduct two ½ day workshops with the SoS team
    b. What outcomes do we expect it to provide (for example: deceased individuals who cast ballots)
    c. Quality and accessibility of the desired data
    d. Initial Feasibility Analysis
3. Capture technical assumptions/details to support estimates, examples include:
    a. Development platform/tools
    b. Hosting/Cloud Platform
    c. Complexity Dimensions (User Types, Integration Points, Major Data Elements, Inputs, Outputs)
4. Identify core features/capabilities necessary for Version 1.0
    a. Details both what is and what is NOT included
    b. Will be representative, not definitive
5. A draft delivery plan including:
    a. Level of effort and rough delivery timeline for Version 1.0 and interim releases
    b. Document any known outstanding areas, questions, or concerns that require resolution before initiating delivery phases
    c. Delivery phases include: technical design/analysis, agile delivery sprints, functional testing, integration testing, and POC launch
    d. Approximate resources and costs

Deliverables:

1. Data Source identifications and definitions
2. Solution Summary – 2-3 Page non-technical overview of the platform
3. Analysis Overview – Summarizes all findings from activities
4. Estimated Delivery Plan

AMERICAN OVERSIGHT

Assumptions:

1. To control cost and accelerate delivery, the initial analysis will focus on the following county jurisdictions: Tarrant, Collin, Dallas, and Harris.
2. Texas SoS and other stakeholders will provide frequent input into and analysis and review draft deliverables.
3. The discovery effort will NOT include detailed technical design and analysis, which are dependent on the discovery process.

II. Project Management and Reporting: By the end of the first project week, will confirm a detailed list of deliverables, remaining activities, and (if needed) any assumptions/dependencies. To provide transparency on progress and ensure alignment on adjustments to priority or scope, a written weekly status report will be delivered every Friday, followed by a weekly status meeting.

III. Fees. In consideration for the performance of the services provided by Consultant under this SOW, The State of Texas shall compensate Consultant based on a firm fixed price of:

$49,500

The identified activities and estimated effort are based on the current understanding of the requirements and data sources supported by the enabling technology and proposed solution and prior experience on similar engagements. As with any discovery effort, there is the potential to identify new areas, questions, or concerns requiring further analysis before discovery finalization. In the event the not-to-exceed amount must be increased, written approval from The Texas SoS in the form of a change order is required. The change order will summarize the additional activities, associated effort, and estimated increase of the not-to-exceed amount.

IN WITNESS WHEREOF, each Party has caused its authorized representative to execute this SOW as of the SOW Date.

GLENN HEGAR TEXAS COMPTROLLER OF PUBLIC ACCOUNTS

The Texas Comptroller of Public Accounts (CPA) administers the Statewide Historically Underutilized Business (HUB) Program for the State of Texas, which includes certifying minority, woman, and service disabled veteran-owned businesses as HUBs and facilitates the use of HUBs in state procurement and provides them with information on the state's procurement process.

We are pleased to inform you that your application for certification/re-certification as a HUB has been approved. Your company's profile is listed in the State of Texas HUB Directory and may be viewed online at https://mycpa.cpa.state.tx.us/tpasscmblsearch/index.jsp. Provided that your company continues to meet HUB eligibility requirements, the attached HUB certificate is valid for the time period specified.

You must notify the HUB Program in writing of any changes affecting your company's compliance with the HUB eligibility requirements, including changes in ownership, day-to-day management, control and/or principal place of business. *Note: Any changes made to your company's information may require the HUB Program to re-evaluate your company's eligibility.*

Please visit our website at http://comptroller.texas.gov/procurement/prog/hub/ and reference our publications (i.e. Grow Your Business pamphlet, HUB Brochure and Vendor Guide) providing addition information on state procurement resources that can increase your company's chances of doing business with the state.

Thank you for your participation in the HUB Program! If you have any questions, you may contact a HUB Program representative at 512-463-5872 or toll-free in Texas at 1-888-863-5881.

Mr. Secretary,

As discussed last Wednesday, attached is a draft Statement of Work for providing election integrity process and data analysis to help us collectively determine what needs to be in Version 1.0. of the enabling technology to support 2022. As well, I have attached our certified State of Texas HUB Status and CMBL Vendor ID for your reference.

We also have first class data management and analytics staff that we can provide Chad for his team as it ramps up. Those folks can also help us in this initial effort and perform knowledge transfer services for new hires that get on-boarded to the Elections Division over time.

We'd love to hop on a quick call or Zoom with you and Chad (don't have his contact info) to determine how best to proceed.

Thank you again for your time and consideration.

Subject: Audit Paperwork

Good Morning:

Have we received any paperwork from the respective counties on the audit? There were specific items requested with a return date to us of December 21, 2021. Has any of this been received?

In the near term, we request that you provide us the following information, in writing, to our office by **Tuesday, December 21st** in order to guide the next phase of the forensic audit process:

- A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.
- Whether any voting sites were closed or added due to an emergency or other necessity
- Any known procedural or chain of custody defects
- Any other issues discovered that you would like to disclose now that may be relevant to our audit process
- A list of complaints received and resolved, with a description of any known investigative steps or known resolution.
- A detailed accounting of the following: o Total Early Voting Ballots by Mail Requested o Total Early Voting Ballots by Mail Sent out o Total Early Voting Ballots requested by FPCA o Breakdown of Early Voting Ballots by Mail accepted/rejected o Total number of mail ballot voters that cancelled their mail ballot without surrendering the mailed ballot and voted in person o Total number of mail ballot voters that surrendered their mail ballot and voted in person
- A detailed accounting of the following: o Total Number of Provisional Votes Cast o A list of Provisional Voters by reason for voting provisionally o Total Number of Provisional Votes cast for voters lacking ID o Total number of Provisional Voted Accepted/Rejected
- List of entities that conducted recounts or had election contests We thank you in advance for your responses to this initial audit survey and request that you begin preparing the enclosed list of documents and records for our agency's review.

AMERICAN OVERSIGHT

OFFICE OF ISABEL LONGORIA
ELECTIONS ADMINISTRATOR
HARRIS COUNTY ★ STATE OF TEXAS

December 21, 2021

John B. Scott
Texas Secretary of State
Elections Division
P.O. Box 12060
Austin, Texas 78711-2060

Dear Secretary Scott:

I write in response to your letter dated December 10, 2021, regarding "Phase 2 of the Full Forensic Audit," in which you asked my office to compile a list of responses by December 21, and you provided an almost 8-page list of documents indicating you would like our office to "begin locating the documents listed to prepare for our Forensic Audit Division's on-site examinations, which will be coordinated at a mutually convenient time in January 2022." That is an impossible timeline by which to complete the tasks requested.

Our office is in the process of preparing to hold six elections over the course of the next six months, four of which are countywide elections, some even ordered by the state legislature: a special election in January, the Primary elections in March, a likely runoff for the special election, the May 7 uniform election, the May 24 Primary election runoff and the election for Precinct Chairs, and the likely runoff for the May 7 uniform election. Every day from now until June 2022 there is either voting actively occurring or a critical deadline our office must complete for at least one of those six elections. Thus, it would be cumbersome and potentially irresponsible for us to divert staff and resources away from active elections to host an "audit" of a past, certified election.

Additionally, the extensive requirements of Senate Bill 1 will be in effect, for the first time, for the Republican and Democratic Primary Elections. Planning and executing the implementation of such a wide sweeping legislation is a massive undertaking and requires my staff's full time and attention. Because your office has released little guidance on how to implement these important new provisions, we are left to sort through the logistics on our own in hopes that they meet the undisclosed SOS standards.

In short, taking hundreds of hours from staff time to pull documents listed in your prior letter instead of working toward implementation of SB1, nor preparing for the massive election calendar over the next six months, would be asking us to put the 2022 Primaries and compliance with Senate Bill 1 in jeopardy.

AMERICAN OVERSIGHT

Since I was sworn into office on November 18, 2020, 15 days after the November 2020 Presidential Election concluded, the Elections Administrator's Office has endeavored to run elections fairly, equitably, accurately, and smoothly. That is why we are doing everything in our power to fully prepare for the upcoming 2022 elections for the sake of Harris County voters.

We attach responses to the questions in your December 10, 2021 letter. For the remainder of your requests, we await your call to discuss the time and resources it would take to go through the documents.

Sincerely,

Isabel Longoria
Harris County Elections Administrator

Attachment 1: Response to Texas SOS December 10 Initial Requests

1. **A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.**
   Our office has gathered information and is in the process of comparing for any percentage discrepancies.

2. **Whether any voting sites were closed or added due to an emergency or other necessity.**
   Yes, three locations were closed for the remainder of a day due to weather-related issues.

3. **Any known procedural or chain of custody defects.**
   Procedural and Chain of Custody documents from the November 2020 Election have been maintained and are available for review to ascertain the existence and nature of any defects.

4. **Any other issues discovered that you would like to disclose now that may be relevant to our audit process.**
   Please see response to no. 3.

5. **A list of complaints received and resolved, with a description of any known investigative steps or known resolution.**
   Our office is in the process of gathering the ADA complaints from Nov 2020.

6. **A detailed accounting of the following:**
   a. **Total Early Voting Ballots by Mail Requested** 194,566 (does not include FPCA or Emergency ballot applications)
   b. **Total Early Voting Ballots by Mail Sent out** 206,020

TARRANT COUNTY
ELECTIONS ADMINISTRATION

December 21, 2021

Honorable John Scott
Texas Secretary of State
P.O. Box 12060
Austin, TX 78711-2060

Mr. Secretary,

I am in receipt of your letter dated December 10, 2021. I sincerely appreciate the work being done by your office to provide clarity and confidence to all Texas voters about the 2020 Election and, as we have said from the day the audit was announced, Tarrant County stands ready to assist your office in the process. I am 100% confident that the outcome will show, once again, what has been clear from the beginning: that Texas has safe and secure elections, and that the 2020 Presidential Election was not an exception.

The list below is our response to the information you requested us to provide in writing by today:

- *A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.*

  Official results are not generated per location, but rather per election precinct as required in Chapter 67 of the Texas Election Code. To produce the numbers per location as requested, we have turned to other documentation we use to check on the progress of the election activities.

  During Early Voting, Lead Clerks are required to call in to our office and report, at the end of every day, the number of voters checked into the electronic poll book and the number of ballots cast in the ballot scanner. While the number of voters checked in is accessible from our offices, the fact that the voting system is air-gapped leaves no choice but to obtain this information through a phone call. Using that daily phone report, we have verified that while there are minor discrepancies, all of them are below the 1% threshold you have inquired about.

  For Election Day, we compared the number of voters who signed in on the electronic poll book to the numbers of ballots cast as reported by the ballot scanners on election night. As a regular practice, Tarrant County does a comparison of these two numbers on election night, which allows us to detect any potential problems and address them immediately, and we keep a record of what was done that night (we call it the Election-night audit). That report, however, ***does not include the provisional ballots that are approved by the ballot board after election day***, hence there are minor variations that are not considered red flags. The table below summarizes the 16 sites (out of 323) that fall within the specified range:

Table 1 - Election Day sites that have a 1% or greater discrepancy between the number of voters checked in the number of ballots cast

- *Whether any voting sites were closed or added due to an emergency or other necessity*

  The list below are the Early Voting locations that had to be closed due to COVID-19 cases:

  - Monday 10/12: Keller Town Hall, Villages of Woodland Springs and Euless Family Life Senior Center had staff affected by a COVID-19 case in a training class. The Keller Town Hall and Villages of Woodland Springs locations opened by 9:00 a.m., and the Euless location opened by 10:00 a.m.
  - Friday 10/22: The Lead Clerk for the Brookside Community Center tested positive for COVID-19 and the site had to close for the day.
  - Monday 10/26: JPS Como closed for the day due to a poll worker testing positive for COVID-19.

  There were no Election Day polling locations closed.

- *Any known procedural or chain of custody defects*

  There are no known procedural or chain of custody issues to report.

- *Any other issues discovered that you would like to disclose now that may be relevant to our audit process*

  There are no known issues to report.

- *A list of complaints received and resolved, with a description of any known investigative steps or known resolution.*

  Complaints received from voters are handled via emails. These emails are over a year old, and as such have been archived by our IT Department. We are in the process of retrieving and sorting them, so that they are available in January when the audit team arrives on site. I apologize for not having them attached to this response, but on such short notice, and so close to the holidays, it was just not possible to complete this request.

- *List of entities that conducted recounts or had election contests*

There were no recounts or election contests requested.

Please note Tarrant County is currently engaged in litigation which may impact the ability of the Tarrant County Elections Administration to retrieve some of the data sought by the Secretary of State's Office. Specifically, an individual sought and received a Temporary Restraining Order and then an Agreed Temporary Injunction which has led to the powering down and secure storage of various servers and hard drives used in the November 2020 election. This lawsuit seeks to allow the plaintiff to access some data and information on these devices pursuant to the Texas Public Information Act. Should the Secretary of State wish to consider having Tarrant County approach the District Court with jurisdiction over the information to seek permission to access the information to aid your audit, please contact us so that we may explore that possibility.

Finally, the Tarrant County Elections Administration will assist the Secretary of State in procuring a secure space for the performance of this audit in January 2022. However, because the Elections Administration will be in the midst of preparing for the March 2022 primary elections, it is highly likely such a work area for the Secretary of State would be in a building separate from the main Elections Administration office. The Elections Administration will also assist in finding a way to transport the data, documents, and other information sought by the Secretary of State to this secure location.

In closing, Mr. Secretary, I want to reiterate once again that we are here to assist your office and fully cooperate in this process. I know you and your staff will understand the need to balance out the workload of this project with the conduct of the Primary and Municipal elections happening in the first half of 2022. The successful completion of both projects will be our utmost priority for the new year.

Sincerely,

Heider Garcia
Elections Administrator

Hello Keith and the TEAM team,

Tarrant County has been working on these records for weeks now. As of today, this office has:

1. Attended the SOS trainings on this topic: our staff participated on the webinars conducted by the SOS on September 8, 2021.
2. Examined the records provided by the SOS: As stated in Election Advisory No. 2021-11, an voter registrar may "*…not immediately cancel any voter's registration simply because they are identified as a potential non-U.S. citizen in the initial file or a weekly file*", therefore a thorough review of each voter's record has been conducted to ensure compliance with the advisory and the Texas Election Code. As of this email, this list has 700 names on it.
3. Requested additional documentation from DPS: for a small sample of voters on the list, we requested DPS to provide us with copies of the paperwork submitted to their offices. We must point out that in some cases voters on the list provided by the SOS indicate in the DPS paperwork that they are US Citizens.
4. Met with County Leaders and Attorneys to review and discuss the advisory: because this was a new process originating from a very specific circumstance, I felt it was important to have our legal team take a look and provide feedback.
5. Started the process of translating the notice of examination to Vietnamese: although the State of Texas is a state that requires voting materials in languages other than Spanish and English, the SOS only provides translations to Spanish. Because of this, we have an additional requirement to have materials translated, and the layout of documents redesigned. This last step is currently under way.

We'll admit that the November 2, 2021 election has had an impact on the progress, and we could be done by now had the two events not overlapped. We estimate that the notices should start mailing out within 2 weeks of receiving the finalized, translated documents.

EXTERNAL EMAIL ALERT! Think Before You Click!

Hello Everyone,

As you know, we sent your office records of possible non-United States citizens registered to vote in your counties on September 10, 2021. In addition, we have since that time been sending weekly information to you regarding currently registered voters who, in the previous week, presented evidence of non-citizenship to the Department of Public Safety when they were issued a new or renewed driver license or identification card and were registered to vote prior to their most recent DPS visit. As indicated in Election Advisory No. 2021-11, this process is being conducted in accordance with the parties' settlement agreement in the litigation regarding the Secretary of State's January 2019 list maintenance activity.

It appears that a number of counties have taken no action on this information. As a reminder, SB 1113 was passed during the 87th Regular Session of the Texas Legislature. This bill allows our office to discontinue your access to Chapter 19 funds if you fail to timely perform your list maintenance activities, including action regarding possible non-citizens on the voter lists.

Please send our office a status update by Wednesday, November 17 regarding your progress with regard to the possible non-citizen voter records that we have sent you over the last two months through the agreed-upon process. Send the update to the TEAM team at elections@sos.texas.gov.

Thank you and let us know if you have any questions.

RE: Initial Audit Survey

Dear Secretary Scott,

Thank you so much for reaching out to our office, and also for your kind words in regards to the transparency in the election process that we strive for here in Collin County. With every passing election we become more efficient and adept in what we are asked to do as an election department in the great State of Texas. It is our hope that through this audit process our hard work and dedication to transparency is evident in the findings and documentation that we are able to provide to you.

As requested in your previous letter (dated December 10, 2021), the following are the responses of the Collin County Election Department to the initial audit survey that was contained within said letter. We hope that the information provided below helps guide you into Phase 2 of this audit. The following are our responses:

- **A list of Early Voting or Election Day polling locations that had a discrepancy of one percent or more between the number of voters that checked in to the number of votes cast at that location.**

We had no locations that had a 1% discrepancy between the number of voters that checked in to the number of votes cast at that location.

- **Whether any voting sites were closed or added due to an emergency or other necessity**

We had no voting sites that were closed or added due to an emergency during the November 2020 General and Special Election.

- **Any known procedural or chain of custody defects**

Looking back on the November 2020 General and Special Election we can acknowledge some defects in our chain of custody process that was in play then. It is important to note that we are constantly enhancing our processes to become more efficient each election. An area of deficiency that we noticed from the November 2020 election was the tracking of full ballot boxes as they moved from a polling location to our office. We were able to indicate what location a full ballot box came from, however, there was some uncertainty about what specific tabulator the box was in at the location. Some of our larger locations had multiple DS200s, adding a level of difficulty in tracking this information. We have since changed how we track each piece of equipment that we have at each location by adding serialized barcodes to all hardware devices. These barcodes were also added to location tabulator USB/media sticks, which we noticed was another deficiency in our process. We now know specifically what USB/media stick went into each device pre-delivery and tabulation instead of the backend of the process. These changes have enhanced our security and chain of custody moving forward.

- **Any other issues discovered that you would like to disclose now that may be relevant to our audit process**

There are no other issues that we have discovered that may be relevant to the Secretary of State's audit process.

Memorandum

Date: April 24, 2021

To: Michael Scarpello

From: Rivelino Lopez

Re: **300 Provisional Ballots**

Issue

On February 8, 2021, the Logistics Manager found 318 Provisional Ballots from the 2020 Presidential Election in the warehouse. Apparently, the ballots were not processed correctly in November because when delivered to a regional site, the ballots were mishandled by a manager and placed inside a supply box rather than in a provisional ballot transfer case. This chain-of-custody issue is problematic because certain voters' ballots that should have been counted were not counted

Action

DCED consulted with the Civil Division of the DA's Office and the SOS and was instructed to 1) Research whether the Provisional Ballots would have counted, 2) Update the voters' VR, but do not give the voters credit for voting. 3) Prepare a brief report of what happened with details on how to prevent the issue from happening in future.

DCED found that 63 of the 318 Provisional Ballots would have been counted if processed in a timely manner but that the votes would not have affected the outcome of any elections.

To prevent future occurrences, the regional site procedures were modified so that provisional ballots would not be processed at the site and only processed by the ballot board at the DCED.
