Hello everyone. Based on our discussion today, we need to have more discussion about what's happening with the caseload count data being reported for title IV-E Foster Care Candidates (not Prevention Plan candidates) and children in title IV-E FC placements for Iowa's CB-496 reports. As noted, there is a significant discrepancy between what's being reported for caseload counts in both populations across administration claiming (Case Planning and Management Administration vs. Independent Legal Representation) where it should be comparable (see attached spreadsheet). From what David shared, the Case Planning and Management Administration caseload data is pulled from DHHS sources and the Independent Legal Representation data is entered on the form as reported by the State Public Defender's office.

I am also sharing Children's Bureau policy guidance pertaining to Title IV-E candidates for foster care found in the CB Child Welfare Policy Manual online. During the call today, I was referencing Question 2 found in this section but I encourage you to review any/all questions as you see necessary.
https://acf.hhs.gov/cwpm/public_html/programs/cb/laws_policies/laws/cwpm/policy_dsp.jsp?citID=79

Wendy Sheetz and I had a conversation about these candidates last Spring and she shared a reference to Iowa's Employee Manual 18-Appendix. It's on page 119 (see attached).

If I missed sharing anything that you anticipated seeing, please let me know and I will share.

As you know, I will be in Des Moines (at the 525 SW 5th Street Building) next week on Monday and Tuesday but I can drive to another location as well. If you are available, I have time on Monday (3/11) between 11AM-1PM and then again at 3PM. I also have time on Tuesday morning before 10:30AM. If those dates/times won't work, we can revisit dates/times for a Teams call just let me know.

Thank you!

Casey Life Skills Assessment, Form 470-5701

Purpose:

Form 470-5701 is used to ensure children in foster care age 14 and older are assessed for life skills which are necessary for successful transition to adulthood. When a child in foster care is age 14 or older, provide form 470-5701 Casey Life Skills Assessment to the caretaker of a child in a family setting or in a shelter and ensure the assessment is completed with the child. Repeat completion of the CLSA at the child's ages 14, 16, and 18 or more frequently as needed.

For children in QRTP or Supervised Apartment Living, the assessment will be completed by the provider and sent to the case manager within 10 days of the child's 14th, 16th, and 18th birthdays.

Explain the reason for the assessment to the child and caregivers and ensure the assessment is completed, kept in the case file, and utilized to inform the transition planning process.

Form 470-5701 is available as a fillable PDF on the Department's website. DHS workers may also download the fillable PDF from SharePoint under Employee Manual/Forms, or print from this manual.

Distribution

Explain the reason for the assessment to the child and caregivers and ensure the assessment is completed, kept in the case file, and utilized to inform the transition planning process. When the family is being referred to non-agency voluntary services, document the actions developed jointly with the family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of family functioning:

- Consider if there are current resources, services, and supports available to the family that can meet the family's needs and increase protection for the child.
- Identify services and supports provided to the family that have failed to prevent the child's abuse or reabuse.
- Consider if caretakers refuse needed services or supports despite protective concerns, increasing children's risk.
- Document your recommendation for services.

When the family is eligible for non-agency voluntary services, but is not being referred, indicate the exception reason.

When the family is being referred for Department services, identify the prevention services to meet the foster care prevention strategy and describe what that prevention strategy is.

When the family is eligible for Department services, but is not being referred, indicate the exception reason.

Document any additional service information that is needed.

- Recommendations for Court Involvement. Enter your recommendations for juvenile or criminal court involvement.
  - If you recommend juvenile court involvement, include:

    - Your specific recommendations to the county attorney on the initiation or continuation of juvenile court action.
    - Your rationale to support that recommendation (e.g., family with founded abuse has refused offer of Department services).
  - If you do not recommend juvenile court involvement, include under "Type of Action Requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was not confirmed, or was confirmed or founded but low-risk).

  - Child Well-Being
  - Parental Capabilities (includes use of drugs or alcohol)
  - Family Safety (includes domestic violence)
  - Family Interactions
  - Home Environment

  Provide general narrative documenting observations of strengths and needs or challenges under each specific subsection that applies to the family. It is not necessary to address every item listed. Address items that are relevant to the given situation. You are not limited to only the items listed.

  Protected sections that can be suppressed before printing are available to list any child specific statements or information regarding parent's physical health, mental health, or substance abuse.

If no danger indicators were identified, please provide your rationale.

Provide a narrative description of the caretaker's capacities and safety interventions that have been taken and how each protected or protects the child from the identified danger indicators.

▪ Summary and Analysis of Safety/Risk Assessments

Provide a narrative description of the family safety concerns by addressing the following:

- Given the child(ren)'s level of vulnerability, what are the concerns and/or threats of danger in everyday life of the family? What everyday family life issues need to be better managed (i.e. new plan for discipline, safe home environment, more rigorous supervision, proper nutrition, etc.) to ensure child safety and well-being.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-002444

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

Provide a narrative description of individual parent/caretaker concerns by addressing the following:

- Describe what individual issues parents/caretakers have that need to be better managed or replaced so that the family tasks can go better (i.e. new plans for managing anger/control issues, improving emotional stability, stopping or limiting use of substances, managing sexual behavior, etc.) and what kind of new plan needs to be in place to ensure child safety and well-being.

Provide a narrative description of family consensus regarding safety concerns by addressing the following:

- What is the level of consensus with the family regarding the safety concerns and/or threats of danger described above?

- Final Risk Level. The neglect, abuse, and scored risk levels are pulled in from the *Family Risk Assessment* completed through the Family Risk Assessment tab of the STAR Assessment module in JARVIS. If the *Family Risk Assessment* has not been completed, levels will not appear in these three sections.

  The final risk level is used to determine what the client's service eligibility is in based on findings, age, and risk.

  Review and consider information gathered from child and family interviews, collateral contacts, Department service records, and all prior assessments.

  If the risk level is safe with a plan or unsafe at the end of a family assessment, the report is required to be reassigned as a child abuse assessment.

- Recommendation for Service. The family risk score determines the family's eligibility for information or information and referral, or non-agency voluntary services. Family assessments are not eligible for Department services.

  When the family is being referred to non-agency voluntary services, document the actions developed jointly with the family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of family functioning:

  - Consider if there are current resources, services, and supports available to the family that can meet the family's needs and increase protection for the child.
  - Identify services and supports provided to the family that have failed to prevent the child's abuse or reabuse.
  - Consider if caretakers refuse needed services or supports despite protective concerns, increasing children's risk.
  - Document your recommendation for services.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

When the family is eligible for non-agency voluntary services, but is not being referred, indicate the exception reason.

- Recommendations for Court Involvement. Enter your recommendations for juvenile or criminal court involvement.

  If you recommend juvenile court involvement, include:

  - A summary of the status of any current juvenile court involvement if the child is already adjudicated or adjudication is pending.
  - Your specific recommendations to the county attorney on the initiation or continuation of juvenile court action.
  - Your rationale to support that recommendation (e.g., family with founded abuse has refused offer of Department services).
  - If you do not recommend juvenile court involvement, include under "Type of Action Requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was not confirmed, or was confirmed or founded but low risk).
- Approval/Signature Line. Sign off by the CPW and Supervisor required.

Dependent Adult Assessment Tool, Form 470-4841

Purpose

Form 470-4841 is a three-part tool used to assess a dependent adult's *degree of dependency*, as well as, to analyze safety and risk. Complete an assessment of safety, dependency, and risk on every alleged victim for whom an evaluation or assessment is conducted.

Source

Complete the assessment tool online in DARES under each tab, respectively labeled "Safety Assessment," "Dependency Assessment," and "Risk Assessment."

This form may also be printed from "My Links" in JARVIS and entered into DARES later.

Completion

The adult protective worker must complete the *Safety Assessment* portion:

- Within 24 hours of the first contact with the adult subject, and
- Before closing the adult protective evaluation or assessment.

The adult protective worker must complete the *Dependency Assessment* portion before the end of the dependent adult protective evaluation or assessment.

The adult protective worker must complete the *Risk Assessment* portions before the end of the dependent adult protective evaluation or assessment.

Distribution

The *Dependent Adult Assessment Tool* is not distributed as part of the *Dependent Adult Protective Services Evaluation or Assessment Summary*. Print the *Dependent Adult Assessment Tool* and keep it in the case file.

Data

Asterisked (*) items are generated by the DARES database if the information has been entered into DARES. The adult subject's name, date of birth, age, form of alleged maltreatment, and caretaker, if applicable, are pulled from household composition.

Safety Assessment (Initial and Final)

If any of 2 through 6 are **No** or 7 through 14 are **Yes**, assist the adult subject, caretaker, service providers, and support system to take steps to alleviate the safety issues. This may be done by:

- Obtaining medical care or placement,
- Engaging additional formal and informal supports,
- Safety planning,
- Use of law enforcement, or
- Seeking legal intervention.

DARES will narrow the results of the safety decision in compliance with the scoring instructions. Only the subsequent safety status score is pulled from

DARES and populates into form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-002471

Initial Safety Decision

Check the box to indicate your determination as to whether the dependent adult is "safe," "conditionally safe," "unsafe," or "unable to remediate safety concerns." When selecting "unable to remediate safety concerns," the adult protective worker must select one of the following reasons why:

- Protective order requested but not granted.
- Dependent adult has the capacity to consent and is refusing services.
- Dependent adult has accepted some, but not all of the recommended services.
- Other. If selecting other, please provide a brief explanation.

Dependency Assessment

Health conditions and diagnoses: Enter medical information. Document the overall condition of the adult, any existing allergies, and behavioral indicators or observations of health.

Medications: Enter all the adult's medications.

Current services: Enter **Yes** or **No** for each question. Use "Other" for services not represented on the list. Explain all other services not on the list.

Cognitive impairments: Enter **Yes** or **No** for each question. Completing IQ is optional. Explain any temporary conditions.

Cognitive screening: Enter the type of mental status screening tool conducted. If the mental status screening tool used by the adult protective worker or other qualified professional is not represented in the list, select "other." List the score and what the score means pertaining to the adult subject's cognition. Screening will allow the adult protective worker to determine if the adult subject needs a more comprehensive assessment on capacity to consent.

Physical impairments: Enter **Yes** or **No** for each question. Explain if necessary.

Katz (Activities of Daily Living) (ADL): The Katz Index ranks adequacy of performance in the six functions of *bathing, dressing, toileting, transferring, continence, and feeding*. Clients are scored for independence in each of the six functions.

Each category has a check box. DARES calculates the score. Completion of all questions is required. A score of six indicates full function; four indicates moderate impairment; and two or less indicates severe functional impairment.

Lawton – Brody Instrumental Activities of Daily Living Scale (IADL): The IADL is an appropriate instrument to assess independent living skills. These skills are considered more complex than the basic activities of daily living as measured by the Katz Index.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-002472

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

The instrument is most useful for identifying how a person is functioning now and identifying improvement or deterioration over time. There are eight domains of function measured with the Lawton IADL scale.

To obtain a score for each category, check the box for the item description that most closely resembles the client's highest independence level. Each category requires one box to be checked. The total score ranges from zero which indicates low functioning to eight which indicates high functioning.

ConsultGeriRN website: https://zhangnandi.com/about/news-publications/news/2008/january/introducing_consultgerirnorg.html

Summary of dependency status: Determine if the information collected through the dependency portion of your assessment indicates the adult subject (alleged victim) is dependent.

Use the narrative to summarize the evidence gathered through the dependency assessment to support or refute that the adult subject is a dependent adult. A diagnosis or level of care alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the "Summary of dependency status" narrative is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Adult Subject Risk of Abuse or Neglect Assessment

The risk assessment must be completed by the conclusion of the assessment or evaluation.

The scored risk levels are pulled from the risk assessment of the adult subject and the alleged person responsible that are completed through DARES for the incident. If the risk assessments have not been completed, levels will not appear in the printed version.

The final risk level score is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*, under "Final Risk Level." The DARES system uses this score to determine what the client's periodic visit eligibility is based on, age, dependency status, mitigating interventions, and risk level.

Summary and Analysis of Safety Constructs Narrative

- Describe the threats of maltreatment that are present at this time (i.e., aggravating factors that combine to produce a potentially dangerous situation).

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-002473

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

- Describe the adult subject's vulnerability to maltreatment (i.e., the degree that the adult subject cannot on the adult's own avoid, negate, or minimize the impact of present or impending danger).
- Describe the adult subject and caretaker or alleged person responsible protective capacities (i.e., family, household, or support system strengths or resources that reduce, control, or prevent threats of maltreatment from arising and the factors and deficiencies that have a negative impact on the adult subject's safety).

Policy Overrides

After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and adult subject vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

Discretionary override reason: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. You must receive supervisory approval for a discretionary override. The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Supervisor's Review/Approval of Discretionary Override: Enter a signature.

Date: Enter the date.

Collateral Information: This field prints only if information is entered in DARES.

Person Determined Responsible for the Abuse: Complete only if abuse is confirmed.

* *Intake Allegation Type*: Information is pulled from the "Allegations" screen.

* *Concerns Reported*: Information is pulled from "Allegations" screen.

Summary of Previously Founded Reports Concerning Alleged Person Responsible: (Information is pulled from DARES, STAR, and CINA for all victims and perpetrators.) If the victim on a previous report is not a subject of the current report, the victim's name displays as "confidential."

Summary of Assessment Process: Information is pulled from DARES screen entries with the exception of "guardian interview." Guardian interview requires entry directly into the field by the adult protective worker.

Summary of Contacts: Include in this section a list of people you contacted in conducting the assessment (subjects, family members, and other collateral sources) and their role or position with regard to the adult subject. Address the actions developed jointly with the adult subject, supports, and family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of safety, dependency, and risk. Include:

- The date, time, and type of contact and the contact name, location, and phone number.
- The date and time you observed the adult subject or your reasonable efforts to observe the adult timely.
- Physical evidence pertaining to the abuse allegations.
- Identification of those interviewed and a summary of their remarks.

- Caretaker's refusal of needed services or supports despite protective concerns, increasing the adult's risk.
- Documentation of your recommendation for services. Documentation should include any action taken or contemplated.

Summary of Contacts Addendum: When you reasonably believe that additional pertinent information will be available or additional relevant contacts will be made, indicate on the summary that you will complete an addendum. Complete the "Summary of Contacts" related to the addendum. This field appears only if an addendum is in progress.

Summary of Dependency Status: The narrative listed is pulled from the "Dependency Assessment" tab completed in DARES to summarize the evidence to support or refute that the adult subject is a dependent adult. A diagnosis alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the "Summary of Dependency Status" narrative is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary.* The remainder of the form is not disseminated.

Findings and Determination of Abuse Allegations: Determine if abuse occurred.

- List the factors that must be proven for each type of abuse and state your conclusions and rationale.
- Enter your finding of unfounded, confirmed, not registered, or founded.

Addendum Findings and Determination of Abuse Allegations: Document the factors that must be proven for the type of abuse and state your conclusions and rationale. This field will appear only if an addendum is in progress.

Placement on Registry: Enter:

- The adult subject's name,
- The alleged person responsible,
- The abuse type,
- Your evaluation or assessment finding, and
- Whether the report will be placed on the Registry.

Summary and Analysis of Safety/Risk Assessments Identified: Provide a narrative description of the safety and risk factors identified:

- Document a full description of information gathered regarding the safety of and risk to the adult subject.

- Address safety factors identified in the safety assessment and the related issues associated with the safety factor. Document the safety decision and any actions taken to address safety issues.
- Document risk factors indicated on risk assessment relating to risk of abuse or re-abuse.

Analysis may include the information gathered for the completion of safety and risk assessments such as:

- How long or how frequently abuse has occurred.
- Willingness and ability of a caretaker not responsible for the abuse to protect the adult subject; or the ability of the adult subject to self-protect.
- The frequency, severity, and type of abuse.
- Factors or situations contributing to the abuse.
- The risks of dependent adult abuse for the adult subject and any other potentially dependent adults in the home.

Addendum Summary and Analysis of Safety/Risk Assessments Identified: Use this section to update or edit the assessment after completion of the original report. This header will print only if an addendum date has been entered in DARES.

Final Risk Level: Information is pulled from the "Risk Assessment" tab completed in DARES.

Recommendations for Service: Select one or more services you recommended or referred the adult subject to during or as a result of your evaluation or assessment.

Narrative can be entered into "Summary of Contacts" to provide details as needed. In this section, the adult protective worker can check the box if no additional supports are needed. Otherwise, select one or more from the following list of "Services Referred for Adult Subject":

  - Your rationale to support that recommendation (e.g., alleged person responsible has refused services for the adult subject creating immediate danger or the adult subject does not have capacity to consent to services and is in immediate danger).
- If you do not recommend district court involvement, include under "type of action requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was unfounded, or was confirmed or founded but low risk).

Completion

The DHS social work case manager assigned to the child and family is responsible for preparing the case plan to provide a comprehensive assessment view of the child and family that focuses on the major needs of the child, the parents, and, if applicable, the foster parents related to child safety, permanency, and well-being.

The case plan must be completed within 60 calendar days from the date the Department opens a DHS child welfare service case.

The case plan must be reviewed and updated:

- At a minimum, every six months thereafter while the case remains open, or
- More frequently if there are significant changes or if required by the court.

Information on the child and family entered in the FACS system automatically completes the case plan. Information not entered in FACS will not appear in the case plan. The worker must enter this information when the case plan is prepared.

Distribution

Obtain the necessary signatures on the plan and indicate which persons participated in developing or reviewing the plan:

- Distribute the *Family Case Plan*, including the *Family Case Plan Face Sheet*, when it is first developed to all of the persons listed on the "Signatures and Notifications" page.
- Distribute copies of any altered or revised case plan, including Part A, Part B, and Part C, if applicable, and the completed review section, to all of the persons listed on the "Signatures and Notifications" page.
- Print a copy of all initial and reviewed case plans, including Part A, Part B, and Part C, if applicable, and the completed review section and place the copy in the case file.

Data

A. Family Case Plan Face Sheet

The face sheet includes identification, statistical, historical, service summary, and placement information for the family.

- *Identifying information*: Enter information on the child's name, FACS ID, date of birth, address, and family members is automatically entered from the FACS system.
- *Service History* and *Placement History*: Enter information about services opened for the child and family in the FACS system is automatically entered from the FACS system.
- *Additional Services Provided*: The social work case manager completes this section. (This data is not contained in the FACS system.) Once entered, this information will be saved and become part of the case plan history over the life of the case.
- *Court Involvement*: The social work case manager enters information on any court involvement into FACS on the Court Detail screen. This information then fills the Court Involvement section of the *Family Case Plan Face Sheet*, Part A.

Information shown in green on Part A may be suppressed for safety reasons, such as when the safety of a foster child or foster parent could be jeopardized by printing the address or there are domestic violence issues or a restraining order between the child's parents.

To suppress all the information shown in green, click on the box "Suppress All Sensitive Date." Individual lines may also be highlighted and removed. Suppressed information reappears when the Case Flow form is reopened.

- *Date of Initial Plan* and *Family Team Meeting*: The worker must enter dates in these fields.
- Anticipated date of case closure: The worker enters the date.
- *Household Composition*: This information is automatically completed based on information entered in FACS about the child's family members living in the home. Information in FACS about the child's parents not living in the home will be filled into this section as well.

Family Functioning Domains

DHS uses the *Family Functioning Domains* to provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention.

Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- *Child Well-Being*: Child's mental health behavior, relationship with peers, school performance, motivation and cooperation, relationship with caregivers, and relationship with siblings
- *Parental Capabilities*: Parental supervision of children, mental health, disciplinary practices, physical health, developmental and enrichment activities, and use of drugs or alcohol
- *Family Safety*: Physical abuse, neglect, sexual, or emotional abuse of child; and domestic violence
- *Family interactions*: Bonding with child, expectations of child, relationship between parents or caregivers, mutual support within the family
- *Home environment*: Housing stability, financial management, income and employment, safety in community, personal hygiene, habitability, transportation, food and nutrition, learning environment
- *Other*: Additional issues or concerns about the child or family

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

Become familiar with the family functioning domain categories and criteria. Consider the child and family's strengths, concerns, and needs in the various domain areas as you have discussions with the family and gather and analyze information about them.

- Information gathered in a family team may be helpful in evaluating the domain categories.
- Evaluate each individual's functioning through the common "lens" of the domain areas when:
  - There are multiple children in the family,
  - There is a noncustodial parent or stepparent, or
  - A relative is caring for the child.

Complete the family functioning domain section of the case plan by working through each domain category (the subcategories for each domain category automatically appear as you complete the domain sections) and:

- Fill in the **Narrative** section of each domain with a specific description of any strengths or needs identified within that domain.

  Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

  Remember that families may have strengths in some domain areas that can be used to address needs in other domains.
- Establish a **Goal** for each domain area where a need is identified in the narrative. It is critical that goals be developed in partnership with the family.

  Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.
- If no needs are identified for a family within a domain category, but strengths are noted, you may establish a goal for that domain that focuses on using family strengths to help meet needs in other domain areas.
- After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.
- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible for each step and
  - The dates for beginning and completing the necessary actions.

  Update revisions to or completion dates for the steps throughout the life of the case plan.
- Discuss and review the case plan information on domain areas, proposed goals, and action steps with the family before making final entries to the plan.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-002505

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

- Use the **Comments** section in each domain area to enter updated information on the family's progress and functioning level in that domain.

When the child is residing with the child's parents, the case plan shall state whether the child would be at "imminent risk of removal" from the home if in-home services were not provided.

"Imminent risk" means there is an immediate threat or likelihood that the child will suffer maltreatment.

When assessing "imminent risk," consider the three safety constructs of threats of maltreatment, child's vulnerability to maltreatment, and the caretaker's protective capacities to determine if the child would be unsafe without in-home services in place.

Cases that meet this standard are eligible for federal Title IV-E funding as candidates for foster care.

In the comments section of the most applicable family functioning domain area, document whether DHS would ask the court to consider the removal of the child if the family refused or terminated in-home services and why.

Review Section

Use the *Family Case Plan* review section when reviewing family progress and making further recommendations for actions and services on the case.

- Indicate the date of the plan review and whether this review was conducted through a family team meeting.
- When completing the review, consider the family's current functioning, level of goal achievement, and completion of necessary steps within each domain area.
- Identify family achievements, progress toward safe case closure, remaining concerns, and your current recommendations in the review section.
- At least once every six months, review the status of any child who has been previously determined to be at "imminent risk of removal" if in-home services are not provided. Document if services should continue and why in the *Review Summary and Recommendations* box.

  Reference **Other Comments** if an evaluation determines that the location of the foster home is suppressed and review this determination every six months or less.

Signatures and Notifications

- Document and obtain signatures from those persons that participated in development of the plan and thank all persons who contributed to the planning process for the child and family.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-002506

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

- Set a date for future meeting with the family to review and revise the plan as needed. The **Other Comments** section of this page can be used for this purpose.

  Every six months or less, evaluate and review the decision to suppress the location of the foster home to determine if suppression continues or the need for suppression no longer is applicable.

- The **Other Comments** section may be used to include information concerning:
  - Case child abuse and criminal record histories;
  - Whether the Indian Child Welfare Act applies to the case;
  - Evidence of a direct or indirect threat to harm the foster child or foster family or credible third-party information of a threat of harm to the foster child or foster family as listed in 18-D(4). This information is needed if there has been a decision to suppress the address and contact information of the foster home.

- Distribute copies of the plan to those that should receive them.

C. Child Placement Plan

In combination with the face sheet and the family plan, the out-of-home placement section is a written document that includes all the federal required elements. The family plan and the out-of-home placement section include:

- A description of the placement and the appropriateness of the placement.
- The permanency goal for the child including any concurrent permanency goals.
- A plan for ensuring that the child and family receive services designed to facilitate the return of the child to a safe home or to another permanent placement.
- The health and educational status of the child.
- When applicable, a description of the programs and services that will facilitate the child's transition from foster care to adulthood.

This form is necessary to provide information mandated by state and federal laws and regulations regarding each child placed in an out-of-home setting in which the Department has custody, or when foster care is being provided under a voluntary placement agreement.

The DHS social work case manager responsible for the child should complete the *Child Placement Plan* when the child is placed in an out-of-home setting and DHS has custody or the child is placed under a voluntary placement agreement.

For these children, this section is in addition to Parts A and B of the case plan. The *Child Placement Plan, Part C*, should be updated every 90 days just like Parts A and B.

  - Whether "reasonable efforts" language is in the appropriate court order (yes or no)
- *Permanency Goal*: Select and enter the current permanency goal for the child.
- *Concurrent Goal Assessment*: Assess and answer the two questions concerning the child. **NOTE:** If you answer "no" to either question, you must enter a concurrent goal in the next section.
- *Concurrent Goals*: Complete this section if the answer to either question in "Concurrent Goal Assessment" is "no." Describe concurrent goal planning underway for the child.
- *Child Well-Being Domain*: Review information about the child entered in the family domain criteria "child well-being" area and indicate whether each of the domain subcategories is currently a strength (S) or need (N) for the child.
- *Placement Status Information*: Assess and answer the six questions pertaining to the characteristics of the current placement for the child. **NOTE:** If you answer "no" to any question, you must enter an explanation in the adjacent box.

- *Placement History*: Enter information about the child's out-of-home placement history. Start with the current placement and then list all previous out-of-home placements, including any hospitalizations, institutional, or PMIC placements.
- *Permanency (ASFA)*: Answer the four questions in this section. **NOTE:** If you answer "yes" to any question, you must enter an explanation in the adjacent box.   Document whether the child is a victim of sex trafficking. If yes, explain services provided. If the youth is pregnant or has a child, check "yes" in the final question.

  In the table provided, enter any known health examinations and treatments the child has received. If possible, indicate this information for at least the last two years of the child's life.

  Indicate the provider, dates of service, and date the information on these services was given to the child's current caregiver and current service provider.

  NOTE: Do not record HIV status or risk of HIV infection anywhere in the case plan. File any such information in the medical record section of the case file and mark it "Confidential."
- *Mental Health/Psychological/Psychiatric Records*: Describe any known mental health, psychological, or psychiatric evaluations or treatment the child has received.

  Indicate the provider, dates of services, and date the information on these services was given to the child's current caregiver and current service provider.
- *Education Records*: Complete this section to provide information on the child's current educational stats. Contact educational partners at the local school district or Area Education Agency (AEA) if needed to obtain this information.

child's educational placement stable and why the change was best for the child.

Transition Plan

"Transition planning" is the process of assisting the child in foster care to prepare to be a self-sufficient adult.

This process includes an assessment of life skills, strength and concerns, services and supports, and outcomes to be accomplished for successful transition.

Planning for transition to adulthood for children in foster care with special needs may need to begin before age 14 to ensure needed funding and services are available.

Service area transition planning specialists (TPS) can provide ongoing consultation and information regarding transition planning for adolescents.

For a child who may be eligible for services as an adult, the assessment and plan of services must be developed with someone who can reasonably be expected to fund those services or be a service provider when the child becomes an adult.

This section is required for a child in foster care of any type who is age 14 years of age or older. The plan shall be updated at required intervals with the *Case Permanency Plan*. In addition, the *Transition Plan* needs to be updated within 90 days of the child turning 18, and if the child remains in care past the age of 18, in the 90 days before discharge.

Organization of a youth-centered planning team is required for every child age 14 and older in foster care. Ask the child to select members of the team. Include specific names of formal and informal supports in the box that asks about membership.

A referral to transition planning specialist (TPS) may be needed for more challenging needs, such as transition planning for a child in long-term foster care or a child needing adult services. If a referral has been made to a TPS, select "yes."

Include the date the Case Life Skills Assessment was completed. It must be done at least once after the child in foster care's 14th birthday. Replace with the new date if it is done again throughout the child's time in foster care.

If the child is interested in pursuing higher education, the plan shall provide for the child's participation in the College Student Aid Commission's program or assistance in applying for federal and state aid.

Indicate whether the child has a driver's license or non-operator ID. If the child does not have at least one or the other, provide steps to obtain one or both.

Review and explain form 470-5337, *Rights of Youth in Out-of-Home Placement*, to a child age 14 and older. Have the child sign and date the form indicating you have reviewed the rights so the child understands and have answered any questions about their rights. After the form has been signed, give the child the original rights document and provide a copy to all legal parties on the child's case. Document the date the form was most recently given to the child in the *Case Permanency Plan*.

Before the child reaches age 17½, present the completed *Transition Plan* to the transition committee for the service area that applies to the child. The local transition committee must review and approve the *Transition Plan*. When a child enters foster care at age 17½ or older, the local transition committee shall be involved in reviewing and approving the child's transition plan within 30 days of completion.

There are six domain areas in the *Transition Plan* and a box for each. Follow the instructions for each section below:

- *Education*: Include information about the child's current education status and plans, including steps that still need to be taken, dates, and who will assist.
- *Employment and Workforce Supports*: Include information about the child's current work status and plans, including steps that still need to be taken, dates, and who will assist. This section needs to show the child has a clean credit report and banking experience, or it should provide plans or activities to achieve.
- *Health and Health Insurance*: Include information about the child and the child's health insurance status and plans.
- *Housing*: Describe the child's housing and housing plans.
- *Supportive Relationships and Services*: Describe relationships and opportunities for social and developmentally appropriate activities. Describe efforts to repair relationships or help child reconnect. Refer child age 17 to aftercare and include the date. If aftercare has not been contacted, leave the box blank.
- *Youth with Special Needs*: Relevant information about any special needs of the child should be included here, as well as referrals to SSI and adult services. The connections to SSI or adult services must be made before the Transition Planning Committee review, which typically occurs when the child is age 17. The date the plan was reviewed should be included in the last box of this section.

Obtain the child's and guardian's signatures as appropriate.

Family Interaction Plan General Roles and Responsibilities, Form 470-5148 or 470-5148(S)

Purpose

The *Family Interaction Plan General Roles and Responsibilities*, form 470-5148 and 470-5148(S), is the official family interaction plan developed for children placed out of the home. All children who are placed out of the home need to have a family interaction plan in place to ensure interactions occur in safe and healthy ways. The family interaction plan should be tailored to meet the safety needs of the family.

Source

Complete the English or Spanish version of this form using the template available in SharePoint under Employee Manual/Forms. This form may also be printed from the manual or SharePoint.

Completion

The most effective way of developing or reassessing a family interaction plan is during a warm hand-off or Solution Focused Meeting. The written family interaction plan may be incorporated as part of the Solution Focused Meeting notes or identified separately on the family interaction plan form. However, not all children placed out of the home will have a Solution Focused Meeting but family interaction planning should still occur.

Distribution

Give a copy of the completed family interaction plan to the identified team members. Keep the original form in the child's case file.

Data

Background Information. Enter the following information:

- *Children's names*: If multiple children have different needs or safety concerns, the family's team may want to consider a separate plan for each child.
- *Date of plan*: This is the date the plan was developed.
- *Placed with*: Document where the child is placed and with whom. If multiple children are in different places, indicate the type of placement (i.e., resource family, relative, residential placement, etc.).
- *Placement date for children*: This is the date the child was removed and placed out of the home.
- *Permanency goal*: Document the identified permanency goal.

Safety Concerns/Required level of supervision. Utilizing the Family Interaction Planning Tool (Comm. 649) provide explanations for questions A-F of the Interaction Supervision Decision Tree.

Family Interaction Plan. Family interaction should begin as soon as possible after removal from parental custody. At a minimum, interactions should occur within 24 hours of placement, be regular, and of increasing frequency and duration.

- *Types of Interaction*: Document the type of interaction approved. Creativity in defining interactions should be supported. Every opportunity needs to be

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

considered such as doctor appointments, school activities, meetings, and other functions in which the family would have participated if the children were in the home. This should be documented in the Attendance at Child Centered Appointments/Events section of the plan.

Interactions should be built around meaningful activities including:

- Mealtimes,
- Bathing,
- Grooming,
- Naptimes,
- Homework time,
- Grocery shopping,
- Doctors' appointments,
- School activities (i.e., conferences, plays, band and choir concerts, family nights, carnivals, graduation, etc.),
- Sports activities, and
- Should be geared towards the child's developmental abilities.

Creative planning should not only support face-to-face time but also other methods, such as calls, letters, texting, emails, and other electronic methods of communication. Families should be encouraged to explore other ways to connect and interact with one another.

- *Frequency* and *Length of Interaction*: Document the frequency and length of interaction. In determining how often and how long interactions should be, consider the following:
  - The age of the children.
  - The severity and chronicity of the abuse.
  - The potential for abduction or continued abuse of the children.
  - The progress of the parent in learning new skills or managing inappropriate behaviors, protective capacities displayed by the parent.
- *Locations*: Document the locations where the interactions will occur. Utilize the Planning Tool to aid in decision making around interaction locations.

  Family interaction should occur in the least restrictive, most homelike setting that allows for natural interaction and appropriate to meet the child's needs for safety. Generally, the parental, relative, or resource family home will provide the best environment. When safety is an issue, a more secure setting should be chosen and a safety plan developed for the interactions to continue.

  Consider the type of interaction as you document the location. For example, if an interaction is built around school activities, sport activities,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

or doctors' appointments, you would document the location of the event (i.e., school, gymnasium, ball field, doctor office, etc.).

- *Types of Supervision*: Document the type of supervision for the identified interaction. Types of supervision include fully supervised, relaxed supervision, semi or partially supervised, or no supervision necessary. Supervision can be provided by a professional or other person identified by the family's team.
- *Supervised By*: If supervision is required, document who is responsible to provide supervision during interaction. This will be determined by the family's team. Consideration should be given based on the safety concerns and the developmental needs of the child.

  Family interactions are most "natural" when interactions are supported by those with a relationship with the child, such as other family members versus professionals. Family supports can be relied on to assist with all aspects of services including attendance at meetings, role modeling, transportation, observing interactions, etc.

Family Routines to Practice During Family Interaction. Document the goals to be accomplished during family interaction. Family interaction should focus on allowing the most natural parent-child interactions, such as:

- Cooking and eating a meal,
- Reading stories,
- Cleaning a room,
- Playing a game,
- Bath time,
- Naptime, or
- Bedtime routines.

The focus is on maintaining ties between the parent and child and assessing the parent's capacity to care for the child. Primary routines should reflect the family's SBC outcomes.

Goals are the family routines to target during the family interaction. These behavioral changes are most likely related back to the safety concerns as identified by the team.

- Family Routines to Target: Document the routines to practice during family interaction.
- Family Members Involved: Document who is expected to be involved in the routines.
- *Date Reviewed or Revised*: Document the date when the goal was reviewed or revised.

Family interaction needs to be reviewed during a Solution Focused Meeting or by those the family's team identifies, at a minimum, when:

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-002517

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

- There are changes in behavioral patterns demonstrated by the parents or children.
- Protective provisions that may be a safety concern change or arise.
- There is a change in family supports.
- There is a change in legal issues or court requirements (change in custody or guardianship) that may impact family interaction planning.
- Agreed upon behavioral changes are accomplished or not.

Transportation. Describe how transportation will be provided once individuals who are available to assist in transportation are identified. Transportation is a key component for interactions to be successful.

Resource family and other relative caregivers should be encouraged to transport children at least one way. Parents and extended family members should be expected to arrange their own transportation, though they may be given temporary support when necessary to ensure there is not a gap in family interaction; however, this will likely be accomplished by public transportation. Children in placement may have to be transported by a provider or HHS staff, one or both ways to interactions.

Other Planning Notes. Considerations when setting expectations could include, but are not limited to, the following:

- Expectations of what parents should bring to the interaction.
- Activities that parents should plan or consider doing during the interaction.
- Behaviors that provide an unsafe situation may terminate the interaction. It is important that there is a follow up with the parents in order to reduce the risk for another unsafe situation.
- The use of physical discipline or threats towards others.
- Negative comments about others, which includes the children, family members, HHS worker, contractor or provider, and other professionals part of the family's team.
- Possession or bringing any drug paraphernalia, illicit substances, or alcohol to the interaction.
- All legal decisions or documents regarding contact, including No Contact Orders, etc. will be abided by all parties.
- Obtain approval before bringing any additional individuals to family interactions. Approvals are determined by the HHS case manager or the family's team.

Family Interaction Calendar. Utilize the calendar to document the initial plan for family interactions. Include any events, appointments or activities which the parent may also attend.

Family Risk Assessment, Form 470-4133

Purpose

Form 470-4133 is used to identify risk factors during an assessment. The *Family Risk Assessment* is composed of two scales that measure the level of risk regarding neglect and abuse.

Source

Complete this form on the Family Risk Assessment tab on the STAR Assessment module in JARVIS.

Completion

The child protection worker completes the *Family Risk Assessment* during the assessment process. This form must be completed before the assessment is approved.

Exception: When abuse occurred or is alleged in an out-of-home setting and child protective concerns do not exist in the child's household, the safety assessment and risk assessment is not required.

Only **one** household can be assessed on the *Family Risk Assessment* form. Assess the child's primary residence. When the alleged perpetrator resides in the household of the noncustodial parent, assess the household of the noncustodial parent. If the child moves to a different household because of the crisis, complete the risk assessment on the household in which the child will remain.

- If the child will remain in the new household, complete the risk assessment on the new household.
- If the plan is to reunify the family, complete the risk assessment on the household **from which the child was removed**.

Upon completion of the form, a Total Neglect Risk Score and Abuse Risk Score are automatically calculated to the highest of either risk score. Use this information in the analysis of the family's strengths, needs, and recommendation for services.

The final risk level is populated on the Child Protective Services Child Abuse Assessment Summary or the Child Protective Services Family Assessment Summary. Reassess the case whenever you determine that an adjustment in the risk score is warranted (either up or down).

Distribution

The form is maintained within JARVIS and is considered assessment data.

Data

Review information obtained from systems checks, Department records including service history, not confirmed assessments, and any previous or current court involvement. Review the risk assessment definitions and complete the *Family Risk Assessment* form by checking the most applicable response.

On items involving caregivers, **select one or two** parents or substitutes based on physical and emotional proximity to the children. Do not rate more than

two caregivers in a home.

Only one primary caregiver can be identified. The "primary caregiver" is the adult living in the household who assumes the most responsibility for child care.

When two adults are present and you are in doubt over which one assumes the most childcare responsibility, select the adult with custody or guardianship or the caregiver responsible for the child involved in the incident as the primary caregiver.

> Ms. X and her partner Mr. Y live together and appear to share caregiver responsibilities for Ms. X's children equally. Because Ms. X has legal custody of the children, select her as the primary caretaker.

If this does not resolve the question, select the legally responsible adult who was a perpetrator or alleged perpetrator.

> Mr. and Mrs. Z live together and appear to share caregiver responsibilities for their children equally. Mrs. Z is the alleged perpetrator of abuse, so she is selected as the primary caretaker.

When both parents are in the household, equally sharing care giving responsibilities, and both have been identified as perpetrators or alleged perpetrators, select the parent demonstrating the more severe behavior.

The "secondary caregiver" is defined as an adult living in the household who has routine responsibility for childcare, but less responsibility than the primary caregiver. A partner may be a secondary caregiver even though the partner has minimal responsibility for care of the children.

If an item relates to all caregivers and the household has more than one caregiver, **rate the caregiver with the more severe behavior**.

The risk assessment form is composed of two scales: the neglect scale and the abuse scale. For detailed guidance, see *Family Risk Assessment Guidance*, RC-0123.

After scoring all items in each scale, total the score for each scale and determine the risk level by checking the appropriate boxes in the risk level section.

Overrides

Policy Overrides: After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and child vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-002522

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

Discretionary Override: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. **You must receive supervisory approval** for a discretionary override.

The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Enter the desired outcome of the meeting. **Family Functioning Domains**. The family functioning domains provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention. Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers. The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision. The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories): ▪ Child Well-Being: • Child's physical and mental health,

- Behavior,
- Relationship with peers,

- Emotional abuse.

▪ Family Interactions:

- Bonding with child or children,
- Expectations of children,
- Family interaction planning,
- Relationship between parents or caregivers,
- Mutual support within the family, and
- Concurrent planning.

NOTE: A written *Family Interaction Plan*, tailored to meet the safety needs of the family is developed and/or reassessed during a family team meeting involving a child placed out of the home to assure family interaction begins as soon as possible after removal from parental custody.

- **Other**. Additional issues or concerns about the child or family.

  NOTE: Discuss concurrent planning and permanency goals, any interstate compact issues, child and family cultural factors, language barriers, or if the Indian Child Welfare Act applies.

Complete the family functioning domain section of the FTDM family plan by working through each domain category. Consider the child and family's strengths and needs in the various domain areas as you have discussions during the family team meeting. Fill in the narrative "strengths" and "needs" section of each applicable domain. Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

Establish a goal for each applicable domain area where a need is identified. It is critical that goals be developed in partnership with the family. Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.

After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible,
  - What do they agree to do, and
  - By when.
- Document the date for when the goal was completed or modified.

Crisis Plan. Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

Signatures and Notifications. Enter the name of invited team members, including their role, contact information, and check whether or not they attended the family team meeting.

Source

The FACS system generates this report nightly.

Completion

The FACS system automatically generates this form on foster care and adoption subsidy cases when:

- There is a start date recorded on FACS (labeled as "new placement" on the report).

- The FACS case is transferred to a new service worker.

The IV-E worker examines the report to determine whether the change affects IV-E or Medicaid eligibility (or if additional information is needed).

Distribution

If there is an open Medicaid case with an FBU of 19, the report is issued to the IV-E worker responsible for that case. If there is no open case with a 19 FBU, the report is issued to worker number CM00 in the office where the service worker is located.

Data

Data reported includes:

- Identification of the workers and the reason for the report.
- Information about the child.
- Information about the child's parents.

Foster Child Behavioral Assessment, Form 470-4401 or 470-4401(S)

Purpose

The *Foster Child Behavioral Assessment* checklist serves two purposes.

- It may be used in the development of the case plan as a tool to identify the needs of the child. Every behavioral need of a foster child identified in this tool should be outlined when completing the case plan, along with the corresponding actions and responsibilities of the resource family.
- Since this tool identifies need and responsibilities, it is also the tool used to determine level of care and corresponding foster care payment.

Source

Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

Print the Spanish version of this form from the manual or SharePoint.

Completion

Complete the *Foster Child Behavioral Assessment*:

- Within the first 30 days of a child's initial entry into foster care.
- Whenever the child's behavior changes significantly.
- When the child's placement changes.
- After termination of parental rights, in preparation for negotiating an adoption subsidy or presubsidy.
- Before a court hearing on guardianship subsidy. **Note**: The highest guardianship subsidy is limited to Level 2, basic rate plus level 2.

If a child comes out of group care or PMIC, the child's payment in the foster family home is the basic foster care maintenance rate. It is anticipated that the family team meeting, with the new foster parents participating, will be part of the discharge planning. Complete the *Foster Child Behavioral Assessment* within the first 30 days of placement.

If a child leaves foster family care and goes to shelter care and then returns to the same foster family home, the payment rate remains the same as the rate received by the foster family before the child goes to shelter care. Complete an assessment within 30 days of placement with a new foster family.

To authorize payment to the resource family at a higher level than the basic rate, this form shall be signed by the worker and the worker's supervisor.

After supervisory approval, the difficulty of care payments shall begin the first day of the month **following** the month in which the form was completed. Do not enter the new assessment rate into FACS until the supervisor has signed off and approved the assessment and rate.

Distribution

Keep the original form in the child's case file. Give a copy to the resource family upon the family's request.

Data

When completing the checklist, use all available information about the child for a thorough assessment of the child. This may include evaluations, school and provider reports, and home studies, as well as input from parents and the resource family.

Check only behavior that is severe enough to be outside the norm for a child of the same age. Do not check behavior that is typical for a child that age (e.g., "temper tantrums" for a 2-year-old).

In order to have a valid assessment, check each item that applies in **every** category ("minimal" and "moderate" and "intensive").

The template calculates the basic rate once the child's birth date is entered, and automatically calculates the level of care and the total daily rate. The form is designed so that checking all the applicable boxes will result in the proper calculation for the behaviors.

Foster Family Home License Application, Form 470-0689 or 470-0689(S)

Purpose

Form 470-0689 or 470-0689(S) is used to apply for a license to operate a foster family home for children. The form gives the retention and recruitment contractor the right to study and evaluate the home and to conduct necessary record checks.

Source

Print supplies of this form from the manual or SharePoint under Employee Manual/Forms.

The form is normally issued by the recruitment and retention contractor at orientation. Local offices that are asked to issue the form can print the form from the manual or SharePoint.

Completion

The prospective foster parents and any adults living in the home complete the form when a family decides to apply for a license or re-apply for a license. Each applicant and any other adult living in the home signs the form.

If a person over the age of 14 (other than a foster child) moves into the home during the licensing year, that person must complete this form in order to authorize the necessary record checks. Have the person:

- Sign the original form on the appropriate line,
- Enter the date by the person's signature,
- Enter any out-of-state residence locations in the last five years, and
- Specify the state and the crime and abuse that occurred.

NOTE: If a child who has been living in the home turns 14, child abuse and criminal history record checks are not completed.

Complete applications for license renewal at least 30, but no more than 90 days before the license expires.

Distribution

The applicant family normally returns the form to the recruitment and retention contractor, but may submit the form to any Department office. If so, forward the form to the recruitment and retention contractor.

The applicant keeps the pink copy of the form. Discard the gold copy, if any.

The contractor:

- Submits the original to the Department with the home study so that a decision can be issued on the application, and
- Keeps the yellow copy in the family's record.

Data

Check the box for "new" when a family applies for a license in Iowa for the first time. Check the box for "renewal" when renewing a current license, or when a previously held license has not been renewed and the family again wishes to be licensed.

The applicants are requested (but cannot be required) to provide social security numbers. They help identify people for record checks.

A person who has resided outside of Iowa in the last five years must report the locations of those out-of-state residences. This information will be used to check the records in those states for convictions and founded child abuse in other states.

- There is a change in any of the terms of the placement (e.g., rate of payment).

The contract is approved by the worker's supervisor, or if the contract involves a difficulty of care payment, by the service area manager. The sequence of signature depends on local office procedures.

Distribution

After the form is completed, make a photocopy to file in the child's case record and give the original to the foster parents.

Data

The child's name and birth date corresponds to the information entered in FACS.

The effective date is the date of placement or the date the revised terms become effective.

Special provisions include any specific obligations either for the worker or the foster parents, such as transportation for counseling, arrangement for home visits, etc. Each foster parent signs the contract.

The special provision section also needs to include the entry of all applicable names and phone numbers. The social work case manager responsible for the placement of a child in family foster care enters their home phone number as an after-hours emergency number.

Any additional emergency numbers that the foster parents may need are entered in this section.

ICPC Report on Child's Placement Status (ICPC 100B), Form 470-0788

Purpose

Form 470-0788 (ICPC 100B) is used to communicate between the placer, the supervising agency, and the respective compact administrators regarding the status of a placement requested under the Interstate Compact on the Placement of Children. It is a national form, known as the ICPC 100B.

Source

Form 470-0788 (ICPC 100B) is available as a template in SharePoint under Employee Manual/Forms. Supplies of the form may also be printed from the manual or SharePoint.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The person supervising the placement or causing the child to be placed completes this form each time:

- A placement is made.
- A placement is changed.
- An approved placement is canceled.
- A placement is terminated.
- A case is closed.
- There is a change of address or status of the placement (e.g., from foster care to adoption).

The Department worker is responsible for preparing the form for all children in the Department's custody or guardianship who are placed out of state and for all children placed into Iowa for whom the Department has assumed supervision under the compact.

When courts, probation officers, or private agencies have placed a child in another state or accepted supervision of a child from another state, their staff are responsible for preparing the form.

When there is a change of purpose in an existing placement, e.g., from foster care to adoption, form 470-0781 (ICPC 100A) may be required at the request of the receiving state.

Distribution

Email form 470-0788 (ICPC 100B) to the ICPC service area liaison. The liaison sends to the ICPC office who forwards to the receiving state.

Data

Section I – Identifying Information

Enter the full legal name and birthdate of the child for whom this placement information is being reported.

Enter the names of the legal parents as on form 470-0781 (ICPC 100A). Enter the name of the resource, the address, and type of care. Enter the same type of care that was chosen on form 470-0781 (ICPC 100A) (e.g., adoptive home, foster family home, group home care). Enter the relationship for relative placements.

Section II – Placement Status

To confirm the initial placement, check the box that applies. Enter the exact date the child was placed in the receiving state.

If some aspect of the placement changes while the child remains in the receiving state, complete another ICPC 100B. Check the "Placement Change" box and indicate the exact effective date of the change.

If the child moves from one placement resource to another, enter the updated placement information. For example, if a child leaves the parents' home and is placed in a residential treatment center, complete the facility's name and address and indicate the new "Type of Care."

Subsequent ICPC 100B forms will list the new placement resource under "Identifying Information." Any additional moves to place the child within the receiving state will be reflected in this same manner.

If only the name (e.g., mother remarries) or address (original placement resource moves) changes, check and complete only those items that apply.

Section III – Compact Placement Termination

Check the boxes that apply:

- *Adoption Finalized*: If an ICPC adoptive placement has been finalized (consummated), check that box and the appropriate box for the state in which finalization occurred, "In Sending State" or "In Receiving State." Attach the final adoption decree.
- *Child Reached Majority/Legally Emancipated*: Check this box if the child has reached majority age and has simultaneously ceased to be the responsibility of the sending agency or if the child has become emancipated through legal action such as marriage or court decision.
- *Legal Custody Returned to Parent(s)*: Check this box when the child's legal custody or guardianship is returned to the parent with the concurrence of the receiving state. Attach the court order transferring custody to the parents to form 470-0788 (ICPC 100B).
- *Legal Custody Given to Relative*: Check this box when the child's legal custody or guardianship is awarded to relatives (other than parents) with the concurrence of the receiving state. Attach the court order transferring custody to the relative to form 470-0788 (ICPC 100B).

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-002584

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

- *Legal Custody Given to Other*: Check this box when the child's legal custody or guardianship is other (other than parents or relatives) with the concurrence of the receiving state. Enter the name and relationship to the child. Attach the court order transferring custody to the other to form 470-0788 (ICPC 100B).
- *Treatment Completed*: Check this item when the placement resource has been providing a specific treatment-oriented service; that service has been completed; and the child is, therefore, being discharged from the facility (e.g., residential treatment center). This box may also be checked if the child was placed through Article VI of the Compact.
- *Sending State's Jurisdiction Terminated with the Concurrence of the Receiving State*: Check this box when the jurisdiction of the sending state has ended for some reason other than the transfer of custody to parents or relatives with the concurrence of the receiving state's supervising agency or court.

  For example, if formal legal custody or guardianship is not going to be addressed but both states agree that supervision is no longer required or if both states agree to transfer jurisdiction to the receiving state.

  If the sending state's jurisdiction is terminated without the concurrence of the receiving state (including custody or guardianship transfer), the decision was made unilaterally and that box should be checked.
- *Unilateral Termination*: Check this box when the interstate agreement has been terminated unilaterally, whether by the sending or receiving state. A unilateral termination is one in which one state ends the interstate placement agreement without the concurrence of the receiving state.
- *Child Returned to Sending State*: Check this box when the child returns to the state the child was placed from. This may be due to a disruption in placement.
- *Child Moved to Another State*: Check this box when the child moves to a state other than the sending state.
- *Proposed Placement Request Withdrawn*: If you have submitted form ICPC 100A to request placement approval and have decided not to explore that resource further, check this box, list the "Name of the Proposed Placement Resource," and date of your decision to terminate the compact.

  Check this box only when no action has yet been taken on form 470-0781 (ICPC 100A). If you are withdrawing more than one request, submit a separate form on each and list each respective "Placement Resource."

ICPC Request (ICPC 100A), Form 470-0781

Purpose

Form 470-0781 (ICPC 100A) is the sending agency's formal written notice to the receiving state of its intention to make an interstate placement. It requests a finding as to whether the placement would be contrary to the interests of the child. With most placements, it is also a formal request for a home study.

Following review by the receiving state, it is the official notice of the receiving state's decision. A favorable finding means that the placement can be made in conformity with the compact. An unfavorable finding means that the placement would be unlawful.

Form 470-0781 (ICPC 100A) must accompany all requests for placement to which the compact is applicable. It must be favorably acted upon by the receiving state before any compact placement is made.

Source

Form 470-0781 (ICPC 100A) is available as a template in SharePoint under Employee Manual/Forms.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The service worker, private agency, court, or any person placing the child may complete this form. It is prepared when a request is being made to place a child in another state.

Distribution

Distribute as follows:

- The sending agency/Iowa ICPC service area liaison uploads the completed 100A into the National Electronic Interstate Compact Enterprise (NEICE) and electronically sends to the sending state deputy compact administrator.
- The deputy compact administrator reviews, signs, and sends to the receiving state's identified administrator.
- The receiving agency administrator completes Section IV of the form and returns to the sending state ICPC office.
- The sending state administrator sends via NEICE to the sending agency.

Data

In the first two blocks, enter the name and address of the ICPC administrator (or deputy) to whom the request is being forwarded (TO) and the name and address of the ICPC administrator (or deputy) whose state is submitting the request (FROM). If information for the receiving state is unknown, enter only the name of the state.

Section I – Identifying Data

Enter the full legal name, social security number, Indian Child Welfare Act (ICWA) eligibility, IV-E eligibility, sex, gender, date of birth, and ethnic group of the child for whom this placement is proposed. If the child is known by a nickname, place it in parenthesis beside the legal name.

NOTE: An "Indian child" means any unmarried person who is under age 18 and is either:

- A member of an Indian tribe or
- Eligible for membership in an Indian tribe and is the biological child of a member of an Indian tribe.

Enter the names of the legal parents, usually the birth parents. When an adoption is finalized, the adoptive parents are the legal parents. If the parent is deceased, enter "deceased" after the parent's name.

If parental rights are voluntarily relinquished or terminated by the court, indicate in parenthesis beside the name. If you prefer to withhold the name, simply enter the status of the parent's rights.

Enter the complete name, address, and telephone number of the agency or person who is responsible for planning for the child and who is financially responsible for the child. In most cases, these two items will be the same (the sending agency). Email addresses are optional.

Section II – Placement Information

Types of Care Requested. Check the boxes designating the following:

- *Public Placement*: Public placement means a placement processed by a public child welfare agency where the state or local agency, or the court has authority to make the placement.
- *Private Placement*: Private placement means a placement made by a parent or a private or independent agency or representative not acting as an agent of the state (e.g., private adoption) or, in the case of a private residential treatment placement, where a parent or guardian is making the placement (e.g., private Residential Treatment Facility (RTF)/Residential Treatment Center (RTC) placement, etc.).
- *Subsidy*: Check the box for public foster care or adoption to denote IV-E federal, non-IV-E state or local, or none for no financial support. Select pending if not yet determined.
- *Adoptive Home*: Adoptive home refers to both agency and private or independent adoptive placement before finalization of an adoption. This may refer to an initial placement with a family where adoption is the intention or it may refer to the movement of an adoptive family from state A to state B following placement.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 464 (Attachment 2 of 3)

If this is a request for private or independent adoption, you are required to also complete the fields for the names, address, social security numbers, and telephone number for the prospective adoptive resource. Indicate if it is a federally-funded adoption subsidy (IV-E) or a state- or local-funded subsidy (non IV-E), pending (if not yet determined), or none.

- *Finalizing in*: Check one box to indicate the state in which the adoption will be finalized if known, otherwise mark pending.
- *Foster Family Home*: A foster family home is a facility providing care and guidance for a child or children not related to the caretaker for regular 24-hour care, or a certified kinship care home. A family foster home may not operate without a license or a certificate as required by the laws of the receiving state.
- *Group Home Care*: A resource which is licensed or approved as a group home and which provides substitute care for a fee; usually a modified family-type setting which serves more children than a foster home but fewer than an institution.
- *Child-Caring Institution*: A group care facility that is licensed or approved to provide custodial care to a larger number of children than a foster home or group home.
- *Residential Treatment Center*: A group care facility that provides a specific treatment program outside the realm of a medical hospital, psychiatric hospital, or institution for children with an intellectual disability (e.g., a residential program for the treatment of alcohol or drug abuse. The receiving state is not obligated to supervise this type of placement made by the sending state.
- *Parent*: A biological or adoptive parent or legal guardian as determined by applicable state law and who is responsible for the care, custody, and control of a child or upon whom there is legal duty for such care.
- *Institutional Care – Article VI Adjudicated Delinquent*: A group care facility for adjudicated delinquents whose proposed placement is according to Article VI of the ICPC. These facilities may include group homes and residential treatment centers and may serve non-delinquents as well.
- *Relative (Not Parent) Relationship*: Specify relationship, such as maternal aunt, paternal grandparents, brother, etc.
- *Other*: Specify a type of care not already listed, such as:
  - Nonrelative free home (an unrelated family that does not require foster home licensure in the receiving state and does not need or want foster care payments)
  - Independent living arrangement (an older teenager who is still under the jurisdiction of an agency or court but is capable of independent living without the supervision of a foster home or group home)

- Maternity home
- Extended foster care (youth aged 18–21 years old)

Current Legal Status of Child. Check the appropriate box.

- *Sending Agency Custody/Guardianship*: The child is in the full legal custody or guardianship (depending on the state's terminology) of a public agency. For example, a public agency may be social services, youth corrections, probation, parole, or a tribe. If allowed by state law, the sending agency may also be a licensed private child placement agency, an adoption agency, or a birth mother.
- *Parent/Relative Custody/Guardianship*: The child is not under the jurisdiction of either an agency or the court but is the full legal responsibility of a parent or relative. This choice is most likely to be marked when a parent, relative or guardian wishes to place a child in one of the types of care listed.
- *Court Jurisdiction Only*: The court has an open abuse, neglect, or dependency case that establishes court jurisdiction with the authority to supervise or remove and place the child for whom the court has not taken guardianship or legal custody.
- *Protective Supervision*: A legal status created by court order under which the child is permitted to remain in the child's home or is placed with a relative or other suitable person and the court, the Department, or another agency designated by the court provides supervision and assistance.
- *Parental Rights Terminated – Right to Place for Adoption*: The sending agency has accepted a voluntary relinquishment of parental rights or has completed court action terminating parental rights and now holds complete jurisdiction over the child with the right to place for adoption.
- *Unaccompanied Refugee Minor*: This form is not used to report the initial placement into the United States but to request placement and services in a second state after a U.S. agency or court has been granted full legal responsibility (custody or guardianship). Check this box only if that is the case.

  Also mark the "Sending Agency Custody/Guardianship" box. If this is an unaccompanied refugee minor whose status warrants the ICPC 100A specific to those children (not the legal responsibility of an U.S. agency or court), do not use this form.
- *Other*: Legal status is not otherwise listed (e.g., legal action, such as a petition for custody or guardianship or to terminate parental rights, is pending).

  For example, the child is the responsibility of the sending agency under a voluntary agreement with the parent or legally responsible relative and no court action has been taken or is pending to alter the family member's legal rights over the child.

Name of Person(s) or Facility Child is to be Placed with. Enter the name, address, and telephone number of the agency, facility, or individuals where the child will be placed. These entries are required.

Name(s) of Prospective Adoptive or Foster Resource. If placement is with an agency (e.g., adoption, foster care, etc.) other than a residential treatment facility (RTF), provide the foster or adoptive resource where the child will reside.

Enter the name, address, social security number, and telephone number of the individual with whom the child will be residing if it differs from the information in the section "Name of Person(s) or Facility Child is to be Placed with."

Section III – Services Requested

Initial Report Requested. If the proposed placement is not for a group care placement and a current home study has not yet been received, check the box for the appropriate type of home study needed based on the type of care indicated in Section II.

Supervisory Services Requested. Check one of the following boxes to indicate how supervisory services are to be conducted:

- *Request Receiving State to Arrange Supervision*: Check this box if the sending agency cannot supervise and does not have a contractual or other agreement with a pre-determined agency to provide these services. Usually the public social service agency will be asked to provide supervision following an approved home study and subsequent placement.
- *Another Agency Agreed to Supervise*: Check this box if the sending agency already has received the formal agreement of a pre-determined supervisory agency. This choice is most likely to be checked in agency adoptive placements where an agency in the receiving state already has provided an adoptive home study and will be providing ongoing services to the adoptive family.

  Do not check this item because you know which county office of the public agency will receive this referral and may have discussed the case over the telephone. That does not constitute an agreement to supervise.
- *Sending Agency to Supervise*: Check this box if it is logistically feasible, it is the best-case plan, and the receiving state has granted the sending agency permission (which may or may not include licensure) to provide services in its state.
- *Other*: Check this box if requesting supervision for extended foster care youth (defined as youth aged 18–21 years).

Supervisory Reports Requested. Complete even though placement may not be a certainty at this time. Indicate how frequently you wish to receive progress reports. Standard timeframes are semi-annually, quarterly, monthly, or other. Check "other" when you wish to receive reports in a timeframe not listed.

Name and Address of Supervising Agency in Receiving State. If you know the name and address of the supervising agency, enter that information onto the line indicated. If not known by the sending agency, that information should be completed by the receiving state's compact office following receipt of a recommendation indicating that placement may be made.

Enclosed. Check which of the following items are enclosed:

- *Child's Social History*: Should accompany the majority of referrals; includes the pre-placement summary on adoption referrals and can be written with non-identifying information, if appropriate and preferred.
- *Home Study of Placement Resource*: Attach a current home study if one is not being requested; most likely to be checked if you already have an approved home study or the child is relocating with a placement resource and the home study is enclosed.
- *Court Order*: All applicable court documents should be enclosed (e.g., custody or guardianship orders, surrenders, orders terminating parental rights, and orders requesting a home study for the court).
- *ICWA Enclosure*: Obtain a letter from the child's tribe showing that the child is a member or is eligible for membership.
- *Financial/Medical Plan*: Attach the plan of how the proposed placement will be funded and how the children's medical needs will be covered.
- *IV-E Eligibility Documentation*: Attach a copy of the determination of IV-E eligibility.
- *Other Enclosures*: Indicates other pertinent materials, such as psychological evaluations, permanency plan, medical reports, school reports, birth certificates, and social security cards. It is not necessary to list them on the form.

Signature of Sending Agency or Person. The form should be signed and dated by anyone outside of the compact office who is completing the form as the sending agency. This includes a person with authority in the county social services agency, private agency, or court and any private individual or family member who is legally responsible for the child (as indicated in Section I and Section II, Legal Status).

Signature of Sending State Compact Administrator, Deputy or Alternate. Pursuant to Article III(d) of ICPC.

If the regulations of the sending state provide for transmittal of the form through the sending state's compact office, the compact administrator, deputy, or alternative in the sending state must sign and date the form. This is almost always the case.

Next Steps, Form 470-5592

Purpose

Form 470-5592 is an optional resource for working with families to document agreements or activities that fall outside of the scope of a *Safety Plan*. The *Next Steps* can be used whether or not a *Safety Plan* is required.

Families are often eager to get started on resolving issues identified during a protective assessment or service case. For example, parents may voice a commitment to making a mental health appointment for themselves or their child, seeking child care, cleaning their house, etc. The *Next Steps* should be simple – who will do what by when. Unlike the *Safety Plan*, the *Next Steps* can be a promissory note – a tool for creating a reminder of commitments that have been made for the good of the children and the family.

Never use the *Next Steps* to make temporary or voluntary changes in child custody. The *Next Steps* does not replace the *Safety Plan*, which must be completed if a child is determined to be safe with a plan. The *Next Steps* is not binding, but a way to engage families regarding commitments they or others (including the Department) make to help preserve and strengthen family connections.

Source

Print this form from the manual or SharePoint under Employee Manual/Forms.

This form is also printed as a three-part carbonless set. Order supplies from Iowa Prison Industries in Anamosa.

Completion

When deemed useful, the child protection worker or social work case manager completes the *Next Steps* with the family, documenting who has agreed to an action step, what that action step is, and when it will be completed.

Use the *Next Steps* during the course of an assessment or anytime throughout the Life of the Case. Only those who are agreeing to an action step need to be present and sign the *Next Steps*. The *Next Steps* can be created in the family's home, at a meeting involving the family, or in other circumstances where action steps are identified.

Distribution

If a printed form is used in place of the three-part carbonless form, a picture of the *Next Steps* must be taken with a state-issued phone or camera.

Leave a copy or the original of the completed form with the family. Keep a copy for the Department's records by uploading the copy or photo of the completed form into File Manager (located within the JARVIS-STAR assessment module) or in the service case file.

Data

Family name: Document the last name of the family. The child protection worker may want to include the name of the child victim. The social work case manager may want to include the name of the youngest child.

Request for a One Year Foster Family License, Form 470-5124

Purpose	Form 470-5124 is used to document the request for approval or denial of one-year licensure for foster families.
Source	Complete this form using the template in SharePoint under Employee Manual/Forms.
Completion	The Department licensing worker completes this form upon receipt of the licensing renewal packet for foster families who have completed their first two years of licensure. Use this form only for foster families whose performance in the previous licensing year indicates the need for a one-year license. Mark the reasons for the request as indicated on the form. *Other reasons* can be for: ▪ Continuing lack of compliance with adherence to foster care licensing rules, foster care placement contract, or foster family handbook; ▪ Behavior that could have negative impact on foster children, such as alcohol or substance abuse; ▪ Health or mental health concern. The occurrence of one or more of the reasons does not require a recommendation of a one-year license. Take into consideration the circumstances, foster family's history, willingness to take responsibility and made adjustments, and other relevant factors when deciding whether to make the request. Also document voluntary requests by the foster family in this section. If you need more space to write the information under *Other reasons*, use another sheet of paper and attach it to this form.
Distribution	Attach the home study, corrective action plan, letter to the foster parents, and other supporting documents or reports to this form. Send the completed form with attachments to the Foster Family Program Manager in Central Office. The Adult, Children and Family Services Division Administrator reviews the request and indicates on the form approval or denial and an effective date. The division administrator signs the form. The foster family program manager returns a copy to the Department licensing worker. The Department licensing worker then sends the foster family the *Notice of Action* and enters the foster home renewal date in FACS. If the division administrator approves the request for a one-year license, the Department licensing worker notifies the foster family program manager who completes the override in FACS.

Once the youth has achieved stability, the longer range planning can begin. Review the 'Dream' written in the 'cloud' on the far right of the document and determine the steps to head in that direction. Develop action plans with a six to nine months' time frame.

Each additional meeting of the team can look ahead further. The youth will be fully listened to and have input every step of the way. If there is disagreement, take the time to discuss the issue and resolve it before moving forward.

Each meeting covers strengths of the youth and a review of the previous assignments. Establish a new Crisis Plan (Plan B) at each meeting as well. Completion of the YTDM meeting process is determined by the youth and the team. It can continue informally after the youth ages out of the system, if desired.

Today, the Centers for Medicare & Medicaid Services (CMS) provides an at-a-glance summary of news from around the agency.

CMS Releases Eighth Annual Evaluation Report of the Independence at Home Demonstration

February 23: CMS released its eighth annual report on the evaluation of the Independence at Home Demonstration (IAH). The IAH demonstration is Congressionally mandated and tests whether a payment incentive for providing home-based primary care for people with Medicare with multiple chronic conditions reduces health care spending for Medicare by forestalling the need for care in institutional settings. In Year 8, the second year of the COVID-19 pandemic, ambulatory care and support provided by the seven participating practices did not significantly reduce total spending or hospital utilization for people with Medicare. Home-based primary care provided by IAH practices has several features that differ from typical office-based care and may have been especially valuable to people with Medicare during the pandemic.

CMS Notifies State Medicaid Directors about Availability of Funds for Skilled Professional Medical Personnel and Nurse Advice Lines (NALs)

February 26: CMS issued guidance in a State Medicaid Directors Letter (SMDL) that allows states to expand the pool of skilled professional medical personnel (SPMP) to include certain additional behavioral health professionals. State Medicaid agencies employ SPMPs to ensure that the administration of the program is informed by and aligned with clinical best practices on behalf of people with Medicaid. This expansion will allow states to claim higher administrative federal match for their work. The guidance also informs states that they may claim administrative federal match dollars for nurse advice lines (NALs) a tool that builds a lifeline between coverage and critical health services, particularly in rural areas.

CMS Approves Amendment to Montana's Healing and Ending Addiction Through Recovery and Treatment Section 1115 Demonstration

AMERICAN OVERSIGHT

February 26: CMS approved an amendment to Montana's Healing and Ending Addiction through Recovery and Treatment (HEART) section 1115 demonstration to expand Montana's support of individuals with behavioral health conditions and other risk factors. This approval allows the state to provide pre-tenancy and tenancy support services to people with Medicaid with a serious mental illness or substance use disorder (SUD), who meet the state's needs-based criteria and have certain risk factors, such as a history of homelessness. In addition, CMS approved expenditure authority for contingency management services to qualifying individuals with a stimulant use disorder. Lastly, Montana will now be able to provide a targeted set of services to certain incarcerated individuals for up to 30 days immediately prior to the individual's expected release date from a state prison. To receive pre-release services, these Medicaid-eligible individuals need to meet health-related criteria, including having a mental illness health or SUD diagnosis or suspected SUD.

CMS Releases Second Annual Evaluation Report for the Primary Care First Model

February 26: CMS released its second annual report on the evaluation of the Primary Care First Model (PCF). Launched in 2021, PCF aims to improve quality, improve patient experience of care, and reduce expenditures by increasing patient access to advanced primary care services. In the first two years of PCF, practices used model funds to make care delivery changes, including continuing changes they started prior to joining the model, that they believe will ultimately reduce hospitalizations. Prior primary care transformation experience and affiliation with larger health care organizations facilitated these changes. As expected, this early in the model, there have been minimal effects on hospitalizations and Medicare expenditures. Future reports will focus on the trajectory of practice transformation to deepen CMS' understanding of practices' perception of the payment model and provide estimates for effects across a broader set of outcomes.

CMS Posts the 2024 National Impact Assessment Quality Measures Reports

February 28: CMS posted the National Impact Assessment Quality Measures Reports. CMS uses quality measures to support a patient-centered health care system anchored by quality, accessibility, affordability, innovation, and accountability. The report analyzes quality measure results from 2016 to 2021 across 26 quality and value-based incentive payment programs. The report also provides updates on how CMS reduces burden through the broad use of digital data sources. The quality reports examine data-driven results that support progress toward CMS objectives to improve public health, implement measures meaningful to patients and providers, minimize provider burden, focus on outcomes whenever possible, identify significant opportunities for improvement, and support a transition to population-based payment models.

CMS' Medicare Administrative Contractors Remove and Replace Billing Instruction for Blood Tests Used to Monitor for Organ Transplant Rejection

February 29: CMS' Medicare Administrative Contractors (MACs) issued revised provider billing instructions for blood tests used to monitor patients who are at risk of rejecting transplanted organs. Billing instructions help health care providers understand when and how to bill Medicare for a covered service. These billing instructions will help to reassure providers and patients with transplanted hearts, lungs, or kidneys who meet Medicare's local coverage criteria have coverage for blood tests used to monitor for solid organ transplantation rejection when medically necessary and ordered by a physician. Additional information is here.

CMS Approves Utah Section 1115 Demonstration Bundled Amendments

AMERICAN OVERSIGHT

February 29: CMS approved amendments to Utah's Medicaid Reform 1115 Demonstration (formerly the "Primary Care Network"), giving the state Medicaid expenditure authority to provide fertility preservation services to certain people diagnosed with cancer, as well as in vitro fertilization (IVF) and genetic testing services for individuals with certain genetic traits. This amendment also approves an increase in the premium subsidy amount for individuals eligible for coverage under the state's Children's Health Insurance Program (CHIP) premium assistance program. Additionally, this amendment adds four risk factors that would be considered under the state's Housing Related Services and Supports (HRSS) program, which provides coverage of tenancy support, community transition, and supportive living services to individuals experiencing homelessness, food or transportation insecurity, or interpersonal violence and trauma.

CMS Approves New Yorks Application for a State Innovation Waiver Under the Affordable Care Act – the Essential Plan Expansion

March 1: CMS approved New York's application for a State Innovation Waiver under the Affordable Care Act (ACA) (referred to as a "section 1332 waiver") for five years, from April 2024 through December (PY) 2028. New York's section 1332 waiver application sought to create a new coverage program, the Essential Plan (EP) Expansion, that generally mirrors the State's Basic Health Program (BHP), known as the EP,1 with expanded eligibility under its section 1332 waiver to certain residents with estimated household incomes up to 250% of the Federal Poverty Level (FPL). The EP Expansion will also include some individuals with incomes below 250% of FPL who would otherwise be enrolled in Medicaid coverage or in a state-funded health insurance program absent the waiver. This first-of-its-kind, innovative waiver aims to improve access to affordable coverage, provide additional benefits, help advance health equity, and smooth the affordability "cliff" for individuals transitioning from Medicaid during the unwinding period.

CMS Updates National Plan and Provider Enumeration System to Include Additional Gender Options and P.O. Boxes Instead of Home Addresses

March 4: CMS issued a Federal Register notice updating the gender options on the National Provider Identifier form in the National Plan and Provider Enumeration System (NPPES) to improve accuracy and inclusive data collection. Also, for providers who do not have a physical location other than their home address (for example, if exclusively furnishing telehealth services from their homes), the NPPES will allow for submission of a post office box or personal mailbox offered by a private delivery service as a practice location address. These changes will be effective in NPPES on April 3, 2024.

HHS Outlines Steps CMS Has Taken to Help Providers Continue to Serve Patients Following a Cyberattack on a Subsidiary of UnitedHealth Group - Change Healthcare

March 5: HHS issued a statement about a recent cyberattack that happened in late February to Change Healthcare, which is a subsidiary of UnitedHealth Group's division Optum, Inc. The effects of this attack have been felt across the health care sector – from pharmacies and hospitals to physician offices. More importantly, it has impacted some people's ability to get the care or prescriptions they need. The statement includes immediate steps CMS is taking to assist providers in continuing to serve patients. Please refer to the HHS statement for specific flexibilities that have been put into place to assist the health care community with submitting claims and receiving payments.

CMS Announces a National Coverage Determination (NCD) for Allogeneic Hematopoietic Stem Cell Transplantation (HSCT) for Myelodysplastic Syndromes (MDS)

March 6: CMS posted a Final National Coverage Determination (NCD) for Allogeneic Hematopoietic Stem Cell Transplantation (HSCT) for Myelodysplastic Syndromes (MDS). CMS will cover allogeneic HSCT for the treatment of myelodysplastic syndromes (MDS) in patients who have been designated as Intermediate-2, high-risk, or very high-risk of developing acute myeloid leukemia measured by specified risk stratification systems (IPSS, IPSS-R, IPSS-M) which are tools used to determine a patient's risk for developing cancer. CMS will cover HSCT using FDA-approved bone marrow, peripheral blood, or umbilical cord blood stem cell products and eliminate the requirement for patients to participate in a Medicare-approved, prospective clinical study. Coverage for patients who do not meet these indications may be determined by Medicare Administrative Contractors (MACs). Read more about the Medicare Coverage Determination Process here.

CMS Releases Request for Applications for Manufacturers Applying for the Cell and Gene Therapy Access Model

March 7: CMS released the Request for Applications (RFA) for manufacturers applying for the Cell and Gene Therapy (CGT) Access Model. The CGT Access Model aims to improve health outcomes for people with Medicaid living with rare and severe diseases by increasing access to potentially life-changing treatments. The model was announced in January 2024 and will initially focus on gene therapies for sickle cell disease. The Manufacturer RFA is available on the

model webpage and is open to all manufacturers of gene therapies for the treatment of sickle cell disease. Responses to the RFA are due by May 1, 2024. Another RFA and Notice of Funding Opportunity (NOFO) for states will follow in Summer 2024.

CMS Shares Strategies to Improve Delivery of Tobacco Cessation Services

March 7: CMS released a bulletin on strategies states have used to help more Medicaid and Children's Health Insurance Program (CHIP) individuals quit smoking. The informational bulletin summarizes the burden of smoking and smoking-related diseases in the Medicaid and CHIP population, outlines the benefits of helping people quit smoking, and provides an overview of the evidence-based treatment services and opportunities available to help this population quit smoking. The bulletin also provides an overview of state tobacco cessation coverage requirements and authorities in Medicaid and CHIP. An overview of quality measures that state Medicaid and CHIP agencies can use to measure and drive improvement in their delivery of tobacco cessation services and several resources that can support states in their drive for improvement are also included.

CMS Releases Accomplishments for 2023

March 8: CMS released its 2023 accomplishments on the CMS Strategy Page highlighting its work guided by the CMS strategic pillars. Inherent in CMS' work is an unyielding focus on the customer experience to expand coverage and equitable access to those covered by one or more of our programs. To support the pillars, CMS has outlined a set of 13 cross-cutting initiatives that draw upon critical work done across the agency to drive results. These initiatives are high-level, multi-year Administration policy priorities that bring our Centers and Offices together to leverage their expertise and strengthen collaboration. In 2023, CMS continued to advance health equity, expand coverage, and improve health outcomes.

During the pandemic, some Iowans chose not to vaccinate themselves or their children, which has led to a gradual rise in some diseases that were long thought eliminated in the state and nation.

Iowa House passes bill to block undocumented immigrants from public assistance programs

The bill also seeks to crack down on human smuggling

DES MOINES — Iowa House Republicans passed legislation Thursday intended to crack down on the smuggling of undocumented immigrants into the state and prevent them from accessing public assistance programs.

House File 2608 passed 60-32 with all Democrats opposed.

The bill expands the verification process for public assistance benefits by the Iowa Department of Health and Human Services to check the citizenship status of those applying under a push by Republicans to block undocumented immigrants from accessing taxpayer benefits.

AMERICAN OVERSIGHT

It also creates a new state crime of human smuggling. The bill would make it a felony to "encourage or induce a person to enter or remain" in the country in violation of federal law by "concealing, harboring, or shielding that person from detection."

Catholic charities and religious orders that house and assist asylum-seekers have expressed concerns they could be targeted should the bill be signed into law.

The bill was amended to specify "a person commits the offense of smuggling of persons" if done "knowingly, for payment or some other benefit."

Rep. Steve Holt, R-Denison

AMERICAN OVERSIGHT

Rep. Steve Holt, R-Denison, the lead Republican on the bill, said the law is aimed at people engaged in human smuggling, not churches or other organizations, and that the amendment added to the bill alleviates those concerns.

“I think we have prosecutorial discretion. I think we have law enforcement discretion, and I think the language is plenty tight,” Holt said.

He also noted the state already checks the citizenship status of those applying for public assistance benefits as a result of existing federal law. Holt, however, argued it was important to codify the practice in state law should that change.

Democrats said the bill was unnecessary and that concerns about immigration and border security need to be addressed at the federal level.

AMERICAN OVERSIGHT

Iowa Rep. Lindsay James, D-Dubuque

"I think we can all agree that the immigration system needs some work," said Rep. Lindsay James, D-Dubuque. "There has been bipartisan legislation worked out across the line on the federal level that imploded because of the politics of Donald Trump and the Republican do-nothing Congress. We shouldn't even be having this discussion today."

House Minority Leader Jennifer Konfrst, D-Windsor Heights, speaking to reporters before the House vote, echoed James.

"So the bills like that that are out there are simply playing into a national narrative, national politics and trying to rile up a base," Konfrst said. "That's not how we're

AMERICAN OVERSIGHT

supposed to write policy. We're supposed to write policy in a way that addresses what Iowans need. This bill doesn't do that."

Rather, she said Republicans should be focused on improving and expanding access to mental health service and child care, and better funding public schools.

Republicans argued the ongoing crisis at the U.S.-Mexico border has reached critical levels, with significant increases in fentanyl and other drug seizures and human trafficking they attributed to a surge in illegal border crossings.

Holt and Rep. Mark Thompson, R-Clarion, emphasized the urgent need for legislation to protect both Iowa residents and immigrants exploited by human smugglers and trafficked for sex or forced labor.

"Human smuggling is a business. It is a disgusting business, but it's a business," Thompson said. "So it has supply and it has demand. The supply comes from mostly south of our border. … But some of that demand is right here," he said of immigrants who come to Iowa to work on farms, at meatpackers and elsewhere.

"We're not doing anyone coming across our border any fair shake, any favors, by letting them come across and just come up to Iowa," Thompson said, asserting their "immigration status is used against them as blackmail" to deny them a decent wage or should they complain about work conditions.

Creating a state crime for human smuggling will allow law enforcement to take action in the absence of sufficient enforcement of federal immigration laws at the U.S.-Mexico border, Holt said.

"It's a clear and present danger to our nation and our state," Holt said. " … The very real, profoundly serious crisis on our Southern border demands that we stand up as a state and protect our citizens and ourselves, and, perhaps, discourage human trafficking, labor trafficking, sex trafficking and all of the garbage that is happening on our Southern border and transferring into our state."

5 is unworkable and should be bypassed, and the thirty-day period
6 provided for in subsection 3 has expired without agreement, the
7 director ~~with the approval of a commissioner,~~ shall issue and
8 cause to be served a written notice specifying the charges in
9 the complaint as they may have been amended and the reasons for

29 shall include but are not limited to actual damages, court
30 costs and reasonable attorney fees.
31 (9) For an unfair or discriminatory practice relating
32 to wage discrimination pursuant to section 216.6A, payment

10 *b.* In addition to the remedies provided in the preceding
11 provisions of this subsection, the ~~commission~~ agency may issue
12 an order requiring the respondent to cease and desist from the
13 discriminatory or unfair practice and to take such affirmative
14 action as in the judgment of the ~~commission~~ agency will carry
15 out the purposes of this chapter as follows:
16 (1) In the case of a respondent operating by virtue of
17 a license issued by the state or a political subdivision
18 or agency, if the ~~commission~~ agency, upon notice to the
19 respondent with an opportunity to be heard, determines that the
20 respondent has engaged in a discriminatory or unfair practice
21 and that the practice was authorized, requested, commanded,
22 performed or knowingly or recklessly tolerated by the board
23 of directors of the respondent or by an officer or executive
24 agent acting within the scope of the officer's or agent's
25 employment, the ~~commission~~ agency shall so certify to the
26 licensing agency. Unless the ~~commission~~ agency finding of a
27 discriminatory or unfair practice is reversed in the course of
28 judicial review, the finding of discrimination is binding on
29 the licensing agency. If a certification is made pursuant to
30 this subsection, the licensing agency may initiate licensee
31 disciplinary procedures.
32 (2) In the case of a respondent who is found by the
33 ~~commission~~ agency to have engaged in a discriminatory or

2 performed, or knowingly or recklessly tolerated by the board
3 of directors of the respondent or by an officer or executive
4 agent acting within the scope of the officer's or agent's
5 employment, the ~~commission~~ agency shall so certify to the
6 contracting agency. Unless the ~~commission's~~ agency's finding
7 of a discriminatory or unfair practice is reversed in the
8 course of judicial review, the finding of discrimination is
9 binding on the contracting agency.
10 (3) Upon receiving a certification made under this
11 subsection, a contracting agency may take appropriate action
12 to terminate a contract or portion thereof previously entered
13 into with the respondent, either absolutely or on condition
14 that the respondent carry out a program of compliance with
15 the provisions of this chapter; and assist the state and all
16 political subdivisions and agencies thereof to refrain from
17 entering into further contracts.
18 *c.* The election of an affirmative order under paragraph *"b"*
19 of this subsection shall not bar the election of affirmative
20 remedies provided in paragraph *"a"* of this subsection.
21 10. *a.* The terms of a conciliation or mediation agreement
22 reached with the respondent may require the respondent to
23 refrain in the future from committing discriminatory or
24 unfair practices of the type stated in the agreement, to take
25 remedial action as in the judgment of the ~~commission~~ agency
26 will carry out the purposes of this chapter, and to consent
27 to the entry in an appropriate district court of a consent
28 decree embodying the terms of the conciliation or mediation
29 agreement. Violation of such a consent decree may be punished
30 as contempt by the court in which it is filed, upon a showing
31 by the ~~commission~~ agency of the violation at any time within
32 six months of its occurrence. At any time in its discretion,
33 the ~~commission~~ agency may investigate whether the terms of the
34 agreement are being complied with by the respondent.
35 *b.* Upon a finding that the terms of the conciliation

AMERICAN OVERSIGHT

1 or mediation agreement are not being complied with by the
2 respondent, the ~~commission~~ agency shall take appropriate action
3 to assure compliance.
4 11. If, upon taking into consideration all of the evidence
5 at a hearing, the ~~commission~~ agency finds that a respondent
6 has not engaged in any such discriminatory or unfair practice,
7 the ~~commission~~ agency shall issue an order denying relief and
8 stating the findings of fact and conclusions of the ~~commission~~
9 agency, and shall cause a copy of the order dismissing the
10 complaint to be served on the complainant and the respondent.
11 12. The ~~commission~~ agency shall establish rules to govern,
12 expedite, and effectuate the procedures established by this
13 chapter and its own actions thereunder.
14 13. Except as provided in section 614.8, a claim under this
15 chapter shall not be maintained unless a complaint is filed
16 with the ~~commission~~ agency within three hundred days after the
17 alleged discriminatory or unfair practice occurred.
18 14. The ~~commission~~ agency or a party to a complaint may
19 request mediation of the complaint at any time during the

27 **216.15A Additional proceedings — housing discrimination.**
28 1. *a.* The ~~commission~~ agency may join a person not named

3 2. *a.* The ~~commission~~ agency shall, during the period
4 beginning with the filing of a complaint and ending with the
5 filing of a charge or a dismissal by the ~~commission~~ agency, to
6 the extent feasible, engage in mediation with respect to the
7 complaint.
8 *b.* A mediation agreement is an agreement between a
9 respondent and the complainant and is subject to ~~commission~~
10 agency approval.
11 *c.* A mediation agreement may provide for binding arbitration
12 or other method of dispute resolution. Dispute resolution that
13 results from a mediation agreement may authorize appropriate
14 relief, including monetary relief.
15 *d.* A mediation agreement shall be made public unless
16 the complainant and respondent agree otherwise, and the
17 ~~commission~~ agency determines that disclosure is not necessary
18 to further the purposes of this chapter relating to unfair or
19 discriminatory practices in housing or real estate.
20 *e.* The proceedings or results of mediation shall not be made
21 public or used as evidence in a subsequent proceeding under

24 *f.* After the completion of the ~~commission's~~ agency's
25 investigation, the ~~commission~~ agency shall make available to
26 the aggrieved person and the respondent information derived
27 from the investigation and the final investigation report
28 relating to that investigation.
29 *g.* When the ~~commission~~ agency has reasonable cause to
30 believe that a respondent has breached a mediation agreement,
31 the ~~commission~~ agency shall refer this matter to an assistant
32 attorney general with a recommendation that a civil action be
33 filed for the enforcement of the agreement. The assistant
34 attorney general may commence a civil action in the appropriate
35 district court not later than the expiration of ninety days

1 after referral of the breach.
2 3. *a.* If the ~~commission~~ agency concludes, following the
3 filing of a complaint, that prompt judicial action is necessary
4 to carry out the purposes of this chapter relating to unfair
5 or discriminatory housing or real estate practices, the
6 ~~commission~~ agency may authorize a civil action for appropriate
7 temporary or preliminary relief pending final disposition of
8 the complaint.
9 *b.* On receipt of the ~~commission's~~ agency's authorization,
10 the attorney general shall promptly file the action.
11 *c.* A temporary restraining order or other order granting
12 preliminary or temporary relief under this section is governed
13 by the applicable Iowa rules of civil procedure.
14 *d.* The filing of a civil action under this section does

16 proceedings in regard to an administrative hearing.
17 4. *a.* The ~~commission~~ agency shall prepare a final
18 investigative report.
19 *b.* A final report under this section may be amended by the
20 ~~commission~~ agency if additional evidence is discovered.

23 discriminatory housing or real estate practice has occurred or
24 is about to occur.
25 *b.* The ~~commission~~ agency shall make its determination under
26 paragraph *"a"* not later than one hundred days after a complaint
27 is filed unless any of the following applies:
28 (1) It is impracticable to make the determination within
29 that time period.
30 (2) The ~~commission~~ agency has approved a mediation
31 agreement relating to the complaint.
32 *c.* If it is impracticable to make the determination within
33 the time period provided by paragraph *"b"*, the ~~commission~~ agency
34 shall notify the complainant and respondent in writing of the
35 reasons for the delay.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-002988

1 *d.* If the ~~commission~~ agency determines that probable cause
2 exists to believe that a discriminatory housing or real estate
3 practice has occurred or is about to occur, the ~~commission~~
4 agency shall immediately issue a determination unless the
5 ~~commission~~ agency determines that the legality of a zoning or
6 land use law or ordinance is involved as provided in subsection
7 7.
8 6. *a.* A determination issued under subsection 5 must
9 include all of the following:
10 (1) Must consist of a short and plain statement of the facts
11 on which the ~~commission~~ agency has found probable cause to
12 believe that a discriminatory housing or real estate practice
13 has occurred or is about to occur.
14 (2) Must be based on the final investigative report.
15 (3) Need not be limited to the facts or grounds alleged in

20 under section 216.16A to all of the following persons:
21 (1) Each respondent, together with a notice of the
22 opportunity for a hearing as provided under subsection 10.
23 (2) Each aggrieved person on whose behalf the complaint was

27 land use ordinance, the ~~commission~~ agency shall not issue a
28 determination and shall immediately refer the matter to the
29 attorney general for appropriate action.
30 8. *a.* If the ~~commission~~ agency determines that no probable
31 cause exists to believe that a discriminatory housing or
32 real estate practice has occurred or is about to occur, the
33 ~~commission~~ agency shall promptly dismiss the complaint.
34 *b.* The ~~commission~~ agency shall make public disclosure of
35 each dismissal under this section.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-002989

1 9. The ~~commission~~ agency shall not issue a determination

7 10. *a.* If a timely election is not made under section
8 216.16A, the ~~commission~~ agency shall provide for a hearing on
9 the charges in the complaint.
10 *b.* Except as provided by paragraph *"c"*, the hearing shall be
11 conducted in accordance with chapter 17A for contested cases.
12 *c.* A hearing under this section shall not be continued

22 including actual damages, reasonable attorney fees, court
23 costs, and other injunctive or equitable relief.
24 *b.* To vindicate the public interest, the ~~commission~~ agency
25 may assess a civil penalty against the respondent in an amount
26 that does not exceed the following applicable amount:
27 (1) Ten thousand dollars if the respondent has not been
28 adjudged by the order of the commission or agency or a court to

21 **161A.10 Discontinuance of districts.**
22 1. At any time after five years after the organization of
23 a district under this chapter, any twenty-five owners of land
24 lying within the boundaries of the district, but in no case
25 less than twenty percent of the owners of land lying within
26 the district, may file a petition with the ~~committee~~ division
27 asking that the operations of the district be terminated and
28 the existence of the district discontinued. The ~~committee~~
29 division may conduct public meetings and public hearings upon
30 the petition as necessary to assist in the consideration of
31 the petition. Within sixty days after a petition has been

35 conduct of the referendum. The question is to be submitted by

2 the ..... (name of the soil and water conservation district to
3 be here inserted)" and "Against terminating the existence of
4 the ..... (name of the soil and water conservation district to
5 be here inserted)" shall be printed, with a square before each
6 proposition and a direction to insert an X mark in the square
7 before one or the other of the propositions as the voter favors
8 or opposes discontinuance of the district. All owners of lands
9 lying within the boundaries of the district are eligible to
10 vote in the referendum. No informalities in the conduct of
11 the referendum or in any matters relating to the referendum
12 invalidate the referendum or the result of the referendum if
13 notice was given substantially as provided in this section and
14 if the referendum was fairly conducted.
15 2. When sixty-five percent of the landowners vote to
16 terminate the existence of the district, the ~~committee~~
17 division shall advise the commissioners to terminate the
18 affairs of the district. The commissioners shall dispose of
19 all property belonging to the district at public auction and
20 shall pay over the proceeds of the sale to be deposited into
21 the state treasury. The commissioners shall then file an
22 application, duly verified, with the secretary of state for the
23 discontinuance of the district, and shall transmit with the
24 application the certificate of the ~~committee~~ division setting
25 forth the determination of the ~~committee~~ division that the
26 continued operation of the district is not administratively
27 practicable and feasible. The application shall recite that
28 the property of the district has been disposed of and the
29 proceeds paid over as provided in this section, and shall set
30 forth a full accounting of the properties and proceeds of the
31 sale. The secretary of state shall issue to the commissioners
32 a certificate of dissolution and shall record the certificate
33 in an appropriate book of record in the secretary of state's
34 office.

2 and in force within the districts are of no further force and
3 effect. All contracts previously entered into, to which the
4 district or commissioners are parties, remain in force and
5 effect for the period provided in the contracts. The ~~committee~~
6 division is substituted for the district or commissioners as
7 party to the contracts. The ~~committee~~ division is entitled to
8 all benefits and subject to all liabilities under the contracts
9 and has the same right and liability to perform, to require
10 performance, to sue and be sued, and to modify or terminate the
11 contracts by mutual consent or otherwise, as the commissioners
12 of the district would have had.
13 4. The ~~committee~~ division shall not entertain petitions for
14 the discontinuance of any district nor conduct referenda upon
15 discontinuance petitions nor make determinations pursuant to
16 the petitions in accordance with this chapter, more often than
17 once in five years.
18 Sec. 13. Section 161A.22, subsection 2, Code 2024, is
19 amended to read as follows:
20 2. The governing body of the subdistrict, upon
21 determination that benefits from works of improvement as set
22 forth in the watershed work plan to be installed will exceed
23 costs thereof, and that funds needed for purposes of the
24 subdistrict require levy of a special benefit assessment as
25 provided in section 161A.23, in lieu of the special annual
26 tax as provided in section 161A.20, shall record its decision
27 to use its taxing authority and, upon majority vote of the
28 governing body and with the approval of the ~~committee~~ division,
29 may issue warrants or bonds payable in not more than forty
30 semiannual installments in connection with the special benefit
31 assessment, and pledge and assign the proceeds of the special
32 benefit assessment and other revenues of the subdistrict as

23 districts at least once every five years, and shall recommend

32 of the ~~committee~~ division a lower soil loss limit should be

Sec. 17. Section 161A.45, Code 2024, is amended to read as follows:

161A.45 Submission of regulations to ~~committee~~ division — hearing.

Regulations which the commissioners propose to adopt, amend, or repeal shall be submitted to the ~~committee~~ division, in a form prescribed by the ~~committee~~ division, for its approval. 1 Sec. 19. Section 161A.71, subsections 1 and 4, Code 2024,
2 are amended to read as follows:
3 1. The division may establish a conservation practices
4 revolving loan fund composed of any money appropriated by the
5 general assembly for that purpose, and of any other moneys
6 available to and obtained or accepted by the ~~committee~~ division
7 from the federal government or private sources for placement
8 in that fund. Except as otherwise provided by subsection 3,
9 the assets of the conservation practices revolving loan fund
10 shall be used only to make loans directly to owners of land in
11 this state for the purpose of establishing on that land any
12 new permanent soil and water conservation practice which the
13 commissioners of the soil and water conservation district in
14 which the land is located have found is necessary or advisable
15 to meet the soil loss limits established for that land. A
16 loan shall not be made for establishing a permanent soil and
17 water conservation practice on land that is subject to the
18 restriction on state cost-sharing funds of section 161A.76.
19 Revolving loan funds and public cost-sharing funds may be
20 used in combination for funding a particular soil and water
21 conservation practice. Each loan made under this section
22 shall be for a period not to exceed ten years, shall bear no
23 interest, and shall be repayable to the conservation practices
24 revolving loan fund in equal yearly installments due March 1 of
25 each year the loan is in effect. The interest rate upon loans
26 for which payment is delinquent shall accelerate immediately to
27 the current legal usury limit. Applicants are eligible for no
28 more than twenty thousand dollars in loans outstanding at any
29 time under this program. *"Permanent soil and water conservation*
30 *practices"* has the same meaning as defined in section 161A.42
31 and those established under this program are subject to the
32 requirements of section 161A.7, subsection 3. Loans made under
33 this program shall come due for payment upon sale of the land
34 on which those practices are established.
35 4. This section does not negate the provisions of

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-003144

1 section 161A.48 that an owner or occupant of land in this
2 state shall not be required to establish any new soil and
3 water conservation practice unless public cost-sharing
4 funds have been approved and are available for the land
5 affected. However, the owner of land with respect to which an
6 administrative order to establish soil and water conservation
7 practices has been issued under section 161A.47 but not
8 complied with for lack of public cost-sharing funds, may waive
9 the right to await availability of such funds and instead apply
10 for a loan under this section to establish any permanent soil
11 and water conservation practices necessary to comply with the
12 order. If a landowner does so, that loan application shall be
13 given reasonable preference by the ~~committee~~ division if there
14 are applications for more loans under this section than can be
15 made from the money available in the conservation practices
16 revolving loan fund. If it is found necessary to deny an
17 application for a soil and water conservation practices loan to
18 a landowner who has waived the right to availability of public
19 cost-sharing funds before complying with an administrative
20 order issued under section 161A.47, the landowner's waiver is
21 void.
22 Sec. 20. Section 161A.71, subsection 3, paragraph a, Code
23 2024, is amended to read as follows:
24 *a.* Contract, sue and be sued, and promulgate administrative
25 rules necessary to carry out the provisions of this section,
26 but the ~~committee~~ division shall not in any manner directly or
27 indirectly pledge the credit of the state of Iowa.
28 Sec. 21. Section 161A.72, subsection 1, Code 2024, is
29 amended to read as follows:
30 1. Financial incentives provided under this chapter shall
31 be administered by the division. The incentives shall be
32 supported with funds appropriated by the general assembly,
33 and moneys available to or obtained by the division ~~or the~~
34 ~~committee~~ from public or private sources, including but
35 not limited to the United States, other states, or private

1 organizations. The division shall adopt all rules consistent
2 with chapter 17A necessary to carry out the purpose of this
3 subchapter as provided in section 161A.70.
4 Sec. 22. Section 161A.74, subsection 1, paragraph a, Code
5 2024, is amended to read as follows:
6 *a.* The financial incentives shall not exceed more than fifty
7 percent of the estimated cost of establishing the practices
8 as determined by the commissioners, or fifty percent of the
9 actual cost of establishing the practices, whichever is less.
10 However, the commissioners may allocate an amount determined
11 by the ~~committee~~ division for management of soil and water
12 conservation practices, except as otherwise provided regarding
13 land classified as agricultural land under conservation cover.
14 Sec. 23. Section 161A.74, subsection 2, Code 2024, is
15 amended to read as follows:
16 2. The ~~committee~~ division shall review requirements of this
17 section once each year. The ~~committee~~ division may authorize
18 commissioners in districts to condition the establishment of a
19 mandatory soil and water conservation practice in a specific
20 case on a higher proportion of public cost-sharing than is
21 required by this section. The commissioners shall determine
22 the amount of cost-sharing moneys allocated to establish a
23 specific soil and water conservation practice in accordance
24 with an administrative order issued pursuant to section 161A.47
25 by considering the extent to which the practice will contribute
26 benefits to the individual owner or occupant of the land on
27 which the practice is to be established.
28 Sec. 24. Section 161A.75, subsection 3, Code 2024, is
29 amended to read as follows:
30 3. Following the disaster emergency, the commissioners
31 shall submit a report to the ~~committee~~ division providing
32 information regarding restoration projects and moneys allocated
33 under this section for the projects.
34 Sec. 25. Section 161C.1, subsection 1, Code 2024, is amended
35 by striking the subsection.

16 protects the public health or safety.
17 *m.* The extent to which licensing ensures that practitioners
18 have occupational skill sets or competencies that are
19 substantially related to protecting consumers from present,

26 regulation.

28 subsection 2, the legislative standing committee finds that it
29 is necessary to create a board or commission to regulate an
30 unregulated nonhealth profession, the committee shall review
31 the proposed legislation to determine whether it is the least
32 restrictive regulation necessary to adequately protect the
33 public and whether the regulation protects a discrete interest
34 group from economic competition.
35 4. The legislative standing committee shall submit its
