11 Sec. 29. REPEAL. Sections 155A.6, 155A.6A, 155A.6B,
12 155A.21, 155A.28, and 155A.29, Code 2023, are repealed.
13 EXPLANATION

14 **The inclusion of this explanation does not constitute agreement with**
15 **the explanation's substance by the members of the general assembly.**

16 This bill relates to the practice of pharmacy. The bill
17 creates general principles that licensees and registrants of
18 the board of pharmacy (board) must consider when determining
19 whether an act violates the appropriate standard of care. The
20 bill also reorganizes Code chapter 155A (pharmacy) by combining
21 and repealing certain Code sections, and makes conforming Code
22 changes. The bill combines Code section 155A.21 (unlawful
23 possession of prescription drug or device — penalty) into Code
24 section 155A.23 (prohibited acts) and Code section 155A.29
25 (prescription refills) into Code section 155A.27 (requirements
26 for prescriptions).
27 The bill adds pharmacists to the definition of
28 "practitioner" for the purposes of Code chapter 155A and
29 defines "therapeutic substitution" as the replacement of a
30 prescribed drug with an alternative molecule with assumed
31 equivalent therapeutic effect.
32 The bill repeals and amends current Code provisions
33 regarding the registration of pharmacist-interns, pharmacy
34 technicians, and pharmacy support persons. The bill requires
35 the board to adopt rules regarding the registration and

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-006218

1 practice of pharmacist-interns, pharmacy technicians, and
2 pharmacy support persons. The bill prohibits the board
3 from adopting rules pertaining to pharmacy support person
4 registration which include any determination of the competency
5 of the registered person or requiring continuing education.
6 The bill allows the board to deny, suspend, or revoke a
7 registration of a pharmacist-intern, pharmacy technician,
8 or pharmacy support person based on a violation of certain
9 laws and regulations. Responsibility for the actions of a
10 pharmacist-intern, pharmacy technician, or pharmacy support
11 person working under a pharmacist remains with the pharmacist.
12 The bill allows a pharmacist to dispense, administer,
13 monitor, and issue prescription drugs, biological products,
14 and medication orders according to the pharmacist's training
15 and education and in accordance with the appropriate standard
16 of care. The bill requires the board to specify by rule the
17 procedures and fees to renew a pharmacist license and the
18 penalties for late renewal or failure to renew a pharmacist
19 license.
20 The bill allows the board to discipline a pharmacist or
21 refuse to issue a pharmacist license to a person for engaging
22 in conduct outside the accepted standard of care that would
23 be provided in a similar setting by a reasonable and prudent
24 applicant or licensee and for displaying incapacity of a
25 nature preventing engagement in the practice of pharmacy with
26 reasonable skill, competence, and safety to the public.
27 The bill strikes provisions regarding the issuance of a
28 telepharmacy license and requires the board to adopt rules for
29 the issuance of a telepharmacy license. The bill also strikes
30 a requirement that a pharmacy license be issued in the name of
31 the pharmacist in charge and not be transferable or assignable.
32 The bill requires the board to adopt rules regarding the
33 renewal of a nonresident pharmacy license and the penalties
34 for a late renewal or failure to renew a nonresident pharmacy
35 license.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-006219

1 The bill allows the board to impose an administrative
2 penalty of up to $500 on a licensee or registrant who engages
3 in a practice regulated by Code chapter 155A without a current
4 license or registration, employs a person without a current
5 license or registration to engage in a practice regulated by
6 Code chapter 155A, fails to complete the continuing education
7 required for renewal of a license or registration, or fails any
8 component of a routine inspection conducted by the board. An
9 administrative penalty shall not be considered a disciplinary
10 action or reported as discipline and shall be confidential.
11 Under current law, the board can impose civil penalties not to
12 exceed $25,000.
13 The bill strikes current law regarding notifications
14 submitted by a pharmacy to the board and requires the board
15 to adopt rules for the reporting of pertinent changes related
16 to activities performed pursuant to a license or registration
17 issued under Code chapter 155A to the board by a licensed or
18 registered person or business.
19 The bill changes references to "inspectors" of the board
20 to "compliance officers" of the board. The bill allows the
21 board to conduct routine and unannounced inspections of any
22 entity licensed by the board or location authorized to possess
23 controlled substances or prescription devices.
24 The bill strikes provisions allowing prescriptions issued
25 before January 1, 2020, to be issued by nonelectronic means.
26 The bill allows a pharmacist to exercise professional judgment
27 by refilling a prescription without prescriber authorization in
28 accordance with the appropriate standard of care and pursuant
29 to rules established by the board.
30 The bill allows a pharmacist to dispense a therapeutic
31 substitution in lieu of a prescribed drug according to the
32 professional judgment of the pharmacist unless the prescription
33 states "dispense as written". The board shall adopt rules on
34 proper recording and notification of therapeutic substitutions.
35 The bill allows funds and surcharges collected for a

1 program to monitor impaired pharmacists, pharmacist-interns,
2 or pharmacy technicians to be used to assist licensees and
3 registrants with costs incurred for participation in the
4 program.
5 The bill allows the board to request criminal history
6 data for all owners, managers, and principal employees and
7 third-party logistics providers and wholesale distributors.
8 The bill amends current provisions regarding statewide
9 protocols under which a pharmacist can order and administer
10 certain drugs. The bill allows the board to develop statewide
11 protocols for the ordering and administration of prescription
12 drugs, products, tests, treatments, immunizations, and
13 vaccinations in consultation with the department of health and
14 human services. Each protocol may define the prescription
15 drugs, products, tests, treatments, immunizations, or
16 vaccinations allowed to be ordered and administered, any
17 training or qualification required to implement the protocol,
18 and any additional requirements deemed appropriate by the
19 board. The bill strikes provisions allowing a pharmacist to
20 order and administer naloxone and nicotine replacement tobacco
21 cessation products to patients ages 18 years and older and to
22 order and administer certain forms of point-of-care testing
23 to patients ages 6 years and older. The bill also strikes
24 provisions requiring a pharmacist who orders or administers
25 prescription drugs, products, tests, or treatments to maintain
26 certain records, provide notice to a patient's primary health
27 care provider, and complete continuing education requirements.
28 The bill allows the board to approve a pilot or demonstration
29 research project of innovative applications in the practice of
30 pharmacy to provide enhanced patient care, notwithstanding any
31 provision of Code chapter 155A to the contrary. Current law
32 allows the board to approve such a project notwithstanding Code
33 section 155A.33 (delegation of functions).

2 Code 2024, are amended to read as follows:
3 *a.* (1) For the budget year beginning July 1, 2009, the

13 beginning July 1, 2010, and succeeding budget years beginning

1 However, if the amount calculated under this subparagraph
2 subdivision for all school districts exceeds fourteen million

15 (b) For the budget year beginning July 1, 2025, the

EXPLANATION

The inclusion of this explanation does not constitute agreement with the explanation's substance by the members of the general assembly.

This bill relates to school funding, including the teacher salary supplement cost per pupil and teacher and education support professional compensation.

Currently, Code chapter 284 (teacher compensation) provides that the minimum annual salary for an initial teacher who has successfully completed an approved practitioner preparation

1 program or holds an initial or intern teacher license issued
2 by the board of educational examiners (BOEE) shall be at least
3 $33,500. For the 2024-2025 school year, the bill increases the
4 minimum teacher starting salary to $47,500. For school years
5 beginning on or after July 1, 2026, the bill increases the
6 minimum teacher starting salary to $50,000.
7 The bill defines "education support personnel" as regular
8 and part-time employees of a school district who are not
9 salaried.
10 For the budget year beginning July 1, 2024, the department of
11 management must calculate a teacher salary supplement district
12 cost per pupil in an amount equal to the sum of the amount
13 necessary to allow the school district to provide the minimum
14 starting teacher salary, the amount necessary, not to exceed
15 $14 million in the aggregate among all school districts, to
16 allow each school district to provide a minimum education
17 support personnel (ESP) wage of $15 per hour including costs
18 associated with the employer's share of contributions to the
19 Iowa public employees' retirement system and the employer's
20 share of the tax imposed by the federal Insurance Contributions
21 Act, and $22 million to supplement teacher salaries and ESP
22 wages in a manner that promotes quality teaching and rewards
23 experience that will be divided based on each school district's
24 percentage of the statewide total budget enrollment for
25 the budget year beginning July 1, 2023, and ending June 30,
26 2024. The bill requires similar calculations in the budget
27 year beginning July 1, 2025, to account for the increase in
28 the minimum annual teacher salary. The bill also provides
29 that the amount calculated related to ESP wage increases and
30 quality teaching and experience reward supplements shall grow
31 by the categorical state percent of growth. For budget years
32 beginning on or after July 1, 2026, the amounts for teacher
33 minimum salaries, ESP wage increases, and quality teaching and
34 experience reward supplements shall all grow by the categorical
35 state percent of growth.

1 Sec. 6. IMPLEMENTATION. Section 25B.7 shall not apply to
2 the property tax exemption enacted in this Act.
3 Sec. 7. APPLICABILITY. This Act applies to assessment years
4 beginning on or after January 1, 2025.
5 EXPLANATION

6 The inclusion of this explanation does not constitute agreement with
7 the explanation's substance by the members of the general assembly.

8 This bill relates to persons who qualify for the military
9 service tax exemption.
10 Under current law, a person may qualify as a veteran if
11 the person served in the Iowa national guard for a period
12 of at least 20 years and who was discharged under honorable
13 conditions, or the person was activated for federal duty, other
14 than training, for a minimum aggregate of 90 days, and was
15 discharged under honorable conditions or was retired under Tit.
16 10 of the United States Code. The bill changes the minimum
17 aggregate a person must be activated for federal duty to 18
18 months.
19 The bill includes in the definition of veteran residents of
20 this state who are current members of the armed forces of the
21 United States and have served in the armed forces of the United
22 States on federal active duty, other than training, for a
23 minimum aggregate of 18 months. The bill requires persons who
24 qualify as veterans in this manner to submit a report created
25 pursuant to the Servicemembers Civil Relief Act, showing the
26 person's status as a current member of the armed forces of the
27 United States when required to verify the person's status as
28 a veteran.
29 The bill adds members of the United States army, marines,
30 navy, and space force as armed forces explicitly included
31 within the meaning of "veteran" for the purposes of Code
32 chapter 426A (military service tax credit and exemptions).
33 The military service tax exemption (MSTE) is an exemption on
34 property value up to a maximum of $4,000 for assessment years
35 beginning on or after January 1, 2023. The MSTE is available

AMERICAN OVERSIGHT

1 to veterans of the United States air force, merchant marine,
2 and coast guard, and also to Iowa residents who were honorably
3 discharged from armed service after a minimum of 18 months
4 of service and Iowa residents who were honorably discharged
5 because of a service-related injury.
6 The bill adds persons who are current members of the armed
7 forces of the United States who have served a minimum aggregate
8 of 18 months and current members of the reserve forces or Iowa
9 national guard who have served a minimum aggregate of 10 years
10 as persons who are eligible for the MSTE.
11 The bill makes inapplicable Code section 25B.7. Code
12 section 25B.7 provides that for a property tax credit or
13 exemption enacted on or after January 1, 1997, if a state
14 appropriation made to fund the credit or exemption is not
15 sufficient to fully fund the credit or exemption, the political
16 subdivision shall be required to extend to the taxpayer only
17 that portion of the credit or exemption estimated by the
18 department of revenue to be funded by the state appropriation.
19 The bill makes conforming changes to Code section 426A.13(1)
20 and (2).
21 The bill applies to assessment years beginning on or after
22 January 1, 2025.

Mr. Jones,

Please accept my sincerest apologies for just now getting back to you. Our department unfortunately is unable to retrieve those records. After much discussion with, and contemplation by our State IT department, we have learned that since the program and employees in question were part of the Iowa Department of Health and Human Services during the timeframe in your inquiry, the request must go to that department.

I have copied the HHS communications director on this email.

via email: PIO@dia.iowa.gov

Dear Sir or Ma'am:

Under the Iowa Open Records Law § 22.1 et seq., the American Accountability Foundation (AAF) makes the following request.

Specifically, we are requesting copies of the following records:

The Federation of State Medical Boards, of which the state is a member, in July of 2022 sent an email to the Executive Directors requesting the state complete a survey on various issues. (I have attached a copy of the email) Please provide a copy of records showing the answers submitted by the state. This may be an email from surveymonkey.com showing the results submitted. The Executive Director, or their executive assistant, is likely the custodian of the records.

Please search from July 1, 2022 through November 1, 2022.

SEARCH AND PRODUCTION

Please search for responsive records regardless of format, medium, or physical characteristics. We seek records of any kind, including paper records, electronic records, audiotapes, videotapes, photographs, data, and graphical material. Our request includes without limitation all correspondence, letters, emails, text messages, facsimiles, telephone messages, voice mail messages, and transcripts, notes, or minutes of any meetings, telephone conversations, or discussions. Our request also includes any attachments to emails and other records.

If it is your position any portion of the requested records is exempt from disclosure, AAF requests that you provide it with an index of those documents similar to that required under *Vaughn v. Rosen*, 484 F.2d 820 (D.C. Cir. 1973). If some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable non-exempt portions of the requested records. If it is your position that a document contains non- exempt segments, but that those non-exempt segments are so dispersed throughout the document as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed throughout the document.

Please provide all responsive documents as attachments to emails to the address records@americanaccountabilityfoundation.com . **For electronic records please provide them in their**

AMERICAN ACCOUNTABILITY FOUNDATION

original electronic format and for paper documents, please provide them as PDF attachments to the email. If document sizes will exceed the capacity of email attachments, please email me and I will provide a location for uploading documents or will provide storage media to share the documents.

Please provide records on a rolling basis as they become available and do not wait to provide all records as one production.

Subject: FSMB Annual State Medical Board Survey
Attachments: 2022 FSMB State Board Survey.pdf

Dear Executive Directors,

The FSMB is conducting its 8th Annual State Medical Board Survey. As you may recall, this omnibus survey serves to appropriately follow up with resolutions passed by the House of Delegates, assisting with the needs of current and future workgroups and committees created on your behalf and identifying topics of further interest.

This past year, 83% of state medical and osteopathic boards provided feedback through this survey, for which we are grateful, and we would greatly appreciate your feedback again this year.

The survey is online, and you will also find a PDF version attached for your review before completing the survey. **The deadline to complete the survey is August 26, 2022.**

Your participation, of course, is voluntary but very much appreciated. By completing the survey, please note that you are implying consent for the FSMB to use your responses for review and distribution. After the data is collected and analyzed, we will share a summary of key findings.

To begin the survey, please click on the link below.

https://www.surveymonkey.com/r/2022FSMBStateBoardSurvey

We thank you very much for your time and attention to this survey. If you have any questions about the survey or its questions, please feel free to contact Katie Arnhart, PhD, FSMB's Research Project Manager, at karnhart@fsmb.org.

Helpful Tips to Complete Survey

- Print out PDF and gather responses over time, then submit online all at once
- Share PDF survey with board members and staff to help answer questions

With warm regards and great thanks,

Diversity, Equity and Inclusion

The next set of questions (33 through 41) asks about diversity, equity and inclusion. Please review the following definitions to familiarize yourself with the terminology.

AMERICAN OVERSIGHT

Diversity:

Diversity is the practice or quality of including or involving people from a range of different social and ethnic backgrounds and of different genders, sexual orientations, etc. It is objectively defined and measured based on unique characteristics that individuals use to define who they are. It is expressed in myriad forms and embraces differences, while respecting a common humanity.

Equity:

Equity ensures fair opportunities for all by identifying and eliminating disadvantage based on preventable, avoidable and remediable circumstances. It is distinct from equality in that it requires equal consideration of all individuals based on their circumstances, but not necessarily equal treatment.

Inclusion:

Inclusion fosters belonging, engagement and connection by actively ensuring that differences are welcomed, and different perspectives are sought, heard and valued. Inclusion requires deliberate action to create a welcoming, respectful and safe environment for all.

Households that ordered this fall can order four more tests, and those that have not ordered this fall can submit two orders for a total of eight tests. Additionally, ASPR will continue to provide over four million free COVID-19 tests per week directly to long-term care facilities, schools, community health centers, and food banks. 19 **The inclusion of this explanation does not constitute agreement with**
20 **the explanation's substance by the members of the general assembly.**

21 This bill allows for the direct shipment of alcoholic liquor
22 within the state.
23 New Code section 123.42A provides for the direct shipment of
24 alcoholic liquor and provides for an alcoholic liquor direct
25 shipper license. An alcoholic liquor direct shipper licensee
26 may sell and ship any amount of alcoholic liquor to any person
27 who is at least 21 years of age for personal use and not for
28 resale if the licensee produces in, or imports into, the United
29 States 150,000 proof gallons or fewer of distilled spirits per
30 calendar year. If the licensee produces or imports more than
31 150,000 proof gallons of distilled spirits, a licensee may sell
32 and ship up to nine liters of alcoholic liquor per calendar
33 year to a person 21 years of age or older.
34 Provisions governing the direct shipment of wine and the
35 wine direct shipper permit are generally made applicable to the

new Code section providing for the direct shipment of alcoholic liquor.

The new Code section requires all alcoholic liquor subject to direct shipping to be properly registered with the alcoholic beverages division and that products which are not listed for sale by the division must be registered to include information on the name of the manufacturer, the name of the brand, the standard of fill, the wholesale price, and other information as requested by the division. The new Code section also requires each alcoholic liquor direct shipper licensee to make a monthly report to the alcoholic beverages division that lists the products and quantities shipped directly to residents of this state in the preceding month, the name and address of the individuals to whom the alcoholic liquor was sold in each sale, the wholesale price of the alcoholic liquor sold, the purchase price and taxes charged of the alcoholic liquor sold, the alcoholic beverage carrier permittee who delivered each shipment, and documents filed by the licensee with the alcohol and tobacco tax and trade bureau of the United States department of treasury for the preceding month, including all production, storage, and processing reports.

Finally, the new Code section provides that an alcoholic liquor direct shipper licensee shall remit an amount to the alcoholic beverages division depending on whether the alcoholic liquor shipped is listed for sale by the division. If the alcoholic liquor is listed for sale by the division, the permittee shall remit to the division an amount equivalent to 50 percent of the wholesale price paid by the division for the alcoholic liquor. If the alcoholic liquor is not listed for sale by the division, the permittee shall remit to the division an amount equivalent to 50 percent of the wholesale price of the alcoholic liquor as registered with the division. The bill provides that a penalty of 10 percent of the amount due shall be assessed and collected if the amount required to be paid to the division as provided by the bill is not paid within the

1 time required.
2 The bill allows a manufacturer of alcoholic liquor and a
3 native distillery to ship alcoholic liquor or native distilled
4 spirits, as applicable, to individual purchasers inside this
5 state by obtaining an alcoholic liquor direct shipper license
6 as established in the bill.
7 Code section 123.188, providing for a wine carrier permit,
8 is amended to provide for the direct shipment of alcoholic
9 liquor as provided by the bill.
10 The bill takes effect January 1, 2024.
11 The bill does not reflect current law, including the
12 transfer of administration of alcoholic beverages provisions to
13 the department of revenue as passed by the general assembly in
14 2023 and other 2023 changes made to the Code. The bill does not
15 update all references to the wine carrier permit nor does the
16 bill note that the effective date of the bill is retroactive.

26 EXPLANATION

27 The inclusion of this explanation does not constitute agreement with
28 the explanation's substance by the members of the general assembly.

29 This bill relates to state taxation by modifying alternate
30 and individual income tax rates.
31 The bill strikes the graduated individual income tax rates
32 that go into effect in tax years 2024 and 2025, and establishes
33 new individual income tax flat rates beginning in tax years on
34 or after January 1, 2024.
35 The bill establishes the individual income tax flat rate for

AMERICAN OVERSIGHT

S.F. 2398

1 the tax year beginning January 1, 2024, but before January 1,
2 2025, at 3.65 percent.
3 The bill establishes the individual income tax flat rate for
4 the tax years beginning on or after January 1, 2025, at 3.50
5 percent. Under current law, the individual income tax flat
6 rate of 3.90 percent goes into effect for tax years beginning
7 on or after January 1, 2026.
8 The bill strikes references to calculating the latest
9 cumulative inflation factor in Code section 422.5(6) and Code
10 section 422.21(5) due to removing income tax brackets and
11 establishing the individual income tax flat rate commencing
12 with tax years beginning on or after January 1, 2024.
13 The bill repeals the alternate individual income tax rates.
14 The alternate income tax rate is available for a taxpayer whose
15 income marginally exceeds the individual income tax filing
16 thresholds in Code sections 422.5(2) and (3), and is used to
17 calculate income tax owed.
18 The bill takes effect upon enactment and applies
19 retroactively to tax years beginning on or after January 1,
20 2024.

AROUND THE CAPITOL

Both chambers returned to Des Moines today. The Senate debated a short calendar and finished up by 3:30, sending five bills down to the Governor and three bills over to the House. The Senate did not take up SF 2395 **OPIOID SETTLEMENT**, but has scheduled it for Tuesday. The Appropriations Committee approved the bill 14-6 in committee last week. It sends 75% of the settlement to the HHS and 25% to the AG. During the committee meeting, Senator Costello said the split in funding should be enough for both the HHS and the AG to fulfil duties under the settlement. Senator Petersen said that she was pleased to see the funds being spent after several years of inaction but said that the bill needs more accountability and reporting measures.

The Senate returned HF 555 **PHARMACY MATTERS** to the House with an amendment. Senator Edler, who managed the bill, said it is an update for the Board of Pharmacy. The bill was approved last year by the full House on an 86-10 vote and approved in the Senate Health & Human Services committee but did not make it to the Senate floor. The House now needs to consider the Senate amendment.

The Senate also introduced SF 2398 **INCOME TAX BILL**, approved in the Ways & Means Committee last week. Republicans cut the bill down from a broader range of tax proposals from the Governor to an acceleration of the move to 3.5% flat tax rate and elimination of the alternative minimum tax.

The House started debating bills about 5:30 PM and finished up about 6:30, passing three bills down to the Governor and passing five bills over to the Senate. The House passed SF 2096 **GENDER BALANCE** on a 62-33 party-line vote. Representative Bloomingdale said that the gender balance provisions are antiquated and no longer needed and that courts have found the restrictions unconstitutional. Democrats said that the gender balance rules have led to more women being appointed to boards and are still needed. The House passed SF 2204 **GOVERNOR'S FOREIGN LAND BILL**, one of the priority bills of Governor Reynolds, on a unanimous vote. The bill now goes to the Governor for a signature. Representative Wulf said that the bill will strengthen Iowa's already strong restrictions on the foreign ownership of farmland. The House approved HF 2585 **NURSING HOME CITATIONS** on an 87-8 vote, after rejecting an amendment from Representative Srinivas. She said that the bill did not go far enough in protecting vulnerable Iowans in nursing homes. Representative Tom Moore, the floor manager, said that the bill will improve compliance by nursing homes.

In committee action, the House Appropriations moved HF 2611 **TEACHER SALARIES** forward, which increases teacher salaries to $47,500 for the 2024-25 school year and to $50,000 by the 2026-27 school year.

CDC Warns of E. Coli outbreak linked to raw milk cheese

Ten people infected with the outbreak strain of *E. coli* have been reported from four states. Four people have been hospitalized and one person developed hemolytic uretic syndrome. This is a serious condition that can cause kidney failure. No deaths have been reported. Of the 6 people who remembered the details of the raw milk cheese they ate, all reported eating RAW FARM brand raw cheddar cheese. CDC advises people not to eat, sell, or serve RAW FARM brand raw cheddar cheese while the investigation is ongoing. RAW FARM LLC has agreed to recall products and is working with FDA.

CDC's Tips From Former Smokers® Launches New Ads to Encourage People to Quit Smoking

The Centers for Disease Control and Prevention's (CDC) *Tips From Former Smokers*® (*Tips*®) campaign returns today with new ads to encourage people to quit smoking. This year, seven new people are featured in the ads sharing their stories about how cigarette smoking and smoking-related diseases have negatively impacted their lives.

Many of this year's new ads include messaging about the harms of menthol cigarettes, which can contribute to tobacco-related health disparities. Menthol in cigarettes can make it easier to start smoking and harder to quit.
The *Tips* campaign promotes messages and free resources to help adults quit smoking. Year after year, the campaign has proven its effectiveness and has saved lives and money by helping more than one million U.S. adults to quit smoking and inspiring millions more to try to quit.

2022 U.S. Syphilis Cases Reach Highest Numbers Since the 1950s

Reported syphilis cases increased 80% in the United States between 2018 and 2022, (from 115,000 to more than 207,000), compounding a decades-long upward trend. If untreated, syphilis can seriously damage the heart and brain and can cause blindness, deafness, and paralysis. When transmitted during pregnancy, it can cause miscarriage, lifelong medical issues, and infant death. Read more about the report and federal response to stop the surging syphilis epidemic.

Seniors in Care Facilities Have More Protection Available This Year: CDC Encourages Vaccination Against Flu, COVID-19 and RSV

This year, for the first time, vaccines are available to protect older adults in the United States against all three fall/winter respiratory illnesses: flu, COVID-19 and

AMERICAN OVERSIGHT

RSV. Older Americans who are not vaccinated are at greater risk of serious illness.

Clinician Outreach and Communication Activity (COCA)

Webinar, Thursday February 29, 2024—Overdoses Involving Xylazine Mixed with Fentanyl: Clinical and Public Health Implications

The non-opioid drug xylazine has been found in the U.S. illegal drug supply and is associated with overdose deaths from fentanyl. Xylazine is not approved for use in people and can cause sedation and other adverse health effects. During this COCA Call, presenters will discuss the epidemiology of overdoses involving xylazine mixed with fentanyl, the current understanding of health risks related to these overdoses, and acute treatment strategies. Presenters will also review the state of laboratory testing, outline potential harm reduction activities, and provide an example of an ongoing public health and clinical partnership to mitigate harms from xylazine mixed with fentanyl.

Webinar Thursday, February 1, 2024 - Diagnostic Testing and Treatment Guidelines for COVID-19 and Influenza (cdc.gov)

Diagnostic testing for SARS-CoV-2 and influenza viruses can guide clinical management, including appropriate antiviral treatment, particularly in persons at higher risk for progression to severe disease from COVID-19 and influenza, regardless of vaccination status. Antivirals are available that can reduce the risk of severe illness and death from COVID-19 and mitigate influenza illness. During this COCA Call, subject matter experts will present an overview of COVID-19 and influenza therapeutic options, including eligibility, indications, and efficacy. The recording and transcript of this call are available here

IOWA | Health and Human Services

DECISION

February 15, 2024

MEMORANDUM FOR THE DIRECTOR

THROUGH: Marissa Eyanson, Division Director, Division of Behavioral Health

FROM: Jennifer Robertson-Hill, Bureau of Services, Planning and Performance

SUBJECT: SBIRT Funding Opportunity

PURPOSE

The Division of Behavioral Health is requesting approval to write an application for the Screening, Brief Intervention and Referral to Treatment grant funded by SAMHSA.

BACKGROUND/SUMMARY

The purpose of this program is to implement the screening, brief intervention, and referral to treatment public health model for children, adolescents, and/or adults in primary care and community health settings.

DISCUSSION

The award will be up to $995,000 per year for five years. The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Treatment (CSAT) is accepting applications for the fiscal year 2024 for the Screening, Brief Intervention and Referral to Treatment (SBIRT) program.

The purpose of this program is to implement the screening, brief intervention, and referral to treatment public health model for children, adolescents, and/or adults in primary care and community health settings (e.g., health centers, hospital systems, health maintenance organizations (HMOs), preferred-provider organizations (PPOs) health plans, Federally Qualified Health Centers (FQHC), behavioral health centers, pediatric health care providers, children's hospitals) and schools with a focus on screening for underage drinking, opioid use, and other substance use. Recipients will be expected to deliver early intervention for individuals with risky alcohol and drug use, as well as the timely referral to more intensive treatment for those who have substance use disorders (SUD). With this program, SAMHSA aims to reduce risky alcohol and other drug use and reduce the negative physical and behavioral health consequences of this use.

Former/Recent Efforts: SBIRT has been a consistent initiative undertaken by legacy IDPH to expand early intervention services within the state of Iowa. The former Bureau of Substance Use held a SBIRT grant from 2012-2017 where SUD treatment professionals from licensed SUD treatment programs were co-located at FQHCs. And from 2018-current, the Promoting the Integration of Primary and Behavioral Health Care grant has funded bidirectional care between SUD treatment programs and FQHCs, where SBIRT has also been implemented at FQHCs. The majority of the FQHCs continue SBIRT as a part of a standard of care, though funding mechanisms for this

AMERICAN OVERSIGHT

IOWA Health and Human Services

service has been identified as a challenge. Legacy IDPH also held a Prevention of Opioid Misuse in Women grant from the Office of Women's Health where staff implemented training on SBIRT across the state working to build champions within community settings. The current State Opioid Response grant also funds three organizations to implement SBIRT within healthcare environments: one hospital setting, one maternity care setting and one community service organization. The main challenges with consistent sustainability of SBIRT within community settings are payor issues, leadership buy in, workforce turnover and stigma.

RECOMMENDATION

1. Apply for the funding opportunity and propose that the funding would be utilized to implement SBIRT with emergency care or primary care settings.

Statement from President Joe Biden on Alabama Court Decision

Today, in 2024 in America, women are being turned away from emergency rooms and forced to travel hundreds of miles for health care, while doctors fear prosecution for providing an abortion. And now, a court in Alabama put access to some fertility treatments at risk for families who are desperately trying to get pregnant. The disregard for women's ability to make these decisions for themselves and their families is outrageous and unacceptable.

Make no mistake: this is a direct result of the overturning of Roe v. Wade.

I know that folks are worried about what they're seeing happening to women all across America. I am too. I hear about it everywhere I go. My message is: The Vice President and I are fighting for your rights. We're fighting for the freedom of women, for families, and for doctors who care for these women. And we won't stop until we restore the protections of Roe v. Wade in federal law for all women in every state.

Remarks as Prepared for Delivery by First Lady Jill Biden to Announce the $100 Million ARPA-H Sprint for Women's Health

On February 21, First Lady, Dr. Jill Biden announced that ARPA-H is launching its first-ever "Sprint for Women's Health". Over the next year, ARPA-H will invest $100 million to fund life changing research. Through this sprint, the Biden-Harris Administration is going to make the types of investments that the American people have said would change everything.

The Biden-Harris Administration is going to invest in American people's discoveries early, when private companies may not be willing to take the risk. The Biden-Harris Administration is going to give women's health researchers and startups the funding they need to grow and help them bring ideas to market – and to the women who need them most.

Statement from HHS Xavier Becerra on Black History Month

As we pay tribute to the Black trailblazers and visionaries who have shaped our history during this Black History Month, it is imperative to lift-up and recognize the impact of Black leaders in health and reaffirm our work to ensure that our African American and Black communities have access to the care and resources they need.

At the Department of Health and Human Services, we are dismantling systemic barriers and advocating for policies that uphold health equity, to pave the way for a future where Black individuals in America can finally access the healthcare they deserve. This means taking action to extend access to affordable, quality healthcare, destigmatize mental health, and address our country's maternal health crisis, that is disproportionately impacting Black mothers.

Together, we can build a society that safeguards the well-being of all, transcending racial distinctions.

Happy Black History Month!

FDA Safety Communication: Do Not Use Smartwatches or Smart Rings to Measure Blood Glucose Levels

The U.S. Food and Drug Administration (FDA) is warning consumers, patients, caregivers, and health care providers of risks related to using smartwatches or smart rings that claim to measure blood glucose levels (blood sugar) without piercing the skin. These devices are different than smartwatch applications that display data from FDA-authorized blood glucose measuring devices that pierce the skin, like continuous glucose monitoring devices (CGMs). The FDA has not authorized, cleared, or approved any smartwatch or smart ring that is intended to measure or estimate blood glucose values on its own.

For people with diabetes, inaccurate blood glucose measurements can lead to errors in diabetes management, including taking the wrong dose of insulin, sulfonylureas, or other medications that can rapidly lower blood glucose. Taking too much of these medications can quickly lead to dangerously low glucose, leading to mental confusion, coma, or death within

AMERICAN OVERSIGHT

hours of the error.

Scientists Develop a Simple Blood Test to Quickly Diagnose Sarcoidosis

A research project supported by the National Institutes of Health has developed a tool to rapidly and inexpensively diagnose sarcoidosis, a chronic inflammatory disease marked by the growth of tiny lumps called granulomas in the lungs and other organs in the body. The tool, which uses a simple blood test, could allow for selective use of more invasive diagnostic tests often used to identify the disease. The findings published in the American Journal of Respiratory and Critical Care Medicine.

* Number one for fewest OBGYNs in the country
* Number one for losing L/D departments
* Black women 6x more likely to die
* We should not be contracting care
* Iowa does have the best Medicaid coverage in the country for pregnant moms and their babies
* Medicaid covers prenatal care. Mom and baby are automatically eligible in WIC

* GOVs bill takes away number 1 ranking, WIC benefits, Medicaid coverage, 1300 moms every month, walks away from $10 million in federal funding once the bill is implemented
* This amendment proposes we stay at 375% FPL, which will be less than private school vouchers and extends it to 12 months pp
* Costello response

* Iowans do not support Medicaid for all
* This amendment would allow someone making over 100,000 to qualify
* There are private entities that can help
* Follow Governor's lead and set reasonable guidelines for public assistance

* STG

* Supports amendment
* Iowa has a rising rate of maternal mortality
* We need to expand Medicaid pp coverage
* Cuts 1500 moms and babies per year
* Iowa had the highest increase of infant mortality in the State of Iowa - DHS these are families who are struggling to pay the bills and cannot make it on their own
* There are a lot of families in Iowa not making it at 215%
* There is a cost to kicking pregnant moms and infants off Medicaid
* Please don't make pregnant Iowans and babies pay this cost. We can do better. Support the amendment.

* Jochum

* This is your chance to show that you care about babies after they are born

AMERICAN OVERSIGHT

Senator Petersen Comments on the Bill

* Costello - Women can go to the Exchange to get care
* How will women pay for their pregnancy care
* If a young pregnant person needs an ambulance ride and they don't have health insurance, who covers the ride? Costello – they would be responsible for the bill.
* This is not a time to step backwards in maternal healthcare
* The budget process hasn't gotten rolling yet, there is still time to do right by pregnant women and their babies
* Have the Governor and HHS go back to the drawing board. They found $25 million for their office renovations but not a dime for pregnant moms and women.

Costello Closing Comments

* Hope the Dems support the MOMs program
* Medicaid is not the silver bullet
* HHS is partnering with partners in this field to work on AIM
* These collaboratives are successful
* HHS is aiming to eliminate hypertension by 2024
* Medicaid isn't the best way to go about improving maternal health outcomes

SF 2252 – MORE OPTIONS FOR MATERNAL SUPPORT Passed 31-16 (3 senators absent)

Amendment 5011 by Petersen FAILED 31-16

* Ultrasounds must be administered by licensed healthcare providers.

Amendment 5012 by Trone Garriott Failed 31 nayes, 16 yeas

* Requires HHS to establish a complaint process
* Requires HHS to disclose terms of the contracts
* Requires in reporting to the legislature, HHS has to report specific numbers for specific services.
* Requires all providers under MOMS receive informed consent for ultrasounds and abide by HIPPA laws.
* There were a number of questions and comments about ultrasounds. Senator Costello clarified that women would get a referral and go to a medical facility for that type of procedure. MOMS is not for medical procedures and HIPPA standards do not apply. With respect to complaints, there are avenues to file a complaint such as going through HHS, Ombudsman, local entities.
* Senator Trone Garriott

* Wants to ensure accountability for Iowa taxpayers; ill does not increase accountability.
* These programs are not providing medical services, so it needs to be made clear.
* This program is based on a Texas system that was ripe with fraud. On page 4, line 9 of the amendment, participating programs must be in compliance with state and federal laws in regards to data. The department must monitor compliance with these laws. Which state laws are applicable land how will they be enforced?

AMERICAN OVERSIGHT

* Private confidential information must stay that way.
* Four contracts were awarded. Specifically called out Informed Choices Clinic website. They are misleading and deceptive. Guardrails must be put in place. Would prefer that the program to be modeled after LSI which is a quality program.

The Iowa legislature passed the heartbeat law, Governor Reynolds signed the law, and now, I'm defending it. I am confident that the law is on our side."

SF 2251 - Postpartum Coverage PASSED 34-13, with Democrats Trone-Garriott, Giddens, and Wahls voting in favor

* Intro

* Iowa ranks number 1 in the country for largest increase in infant mortality
* Number one for fewest OBGYNs in the country
* Number one for losing L/D departments
* Black women 6x more likely to die
* We should not be contracting care
* Iowa does have the best Medicaid coverage in the country for pregnant moms and their babies
* Medicaid covers prenatal care. Mom and baby are automatically eligible in WIC

* GOVs bill takes away number 1 ranking, WIC benefits, Medicaid coverage, 1300 moms every month, walks away from $10 million in federal funding once the bill is implemented
* This amendment proposes we stay at 375% FPL, which will be less than private school vouchers and extends it to 12 months pp
* Costello response

AMERICAN OVERSIGHT

* Iowans do not support Medicaid for all
* This amendment would allow someone making over 100,000 to qualify
* There are private entities that can help
* Follow Governor's lead and set reasonable guidelines for public assistance

* STG

* Supports amendment
* Iowa has a rising rate of maternal mortality
* We need to expand Medicaid pp coverage
* Cuts 1500 moms and babies per year
* Iowa had the highest increase of infant mortality in the State of Iowa - DHS these are families who are struggling to pay the bills and cannot make it on their own
* There are a lot of families in Iowa not making it at 215%
* There is a cost to kicking pregnant moms and infants off Medicaid
* Please don't make pregnant Iowans and babies pay this cost. We can do better. Support the amendment.

* Requires all providers under MOMS receive informed consent for ultrasounds and abide by HIPPA laws.
* There were a number of questions and comments about ultrasounds. Senator Costello clarified that women would get a referral and go to a medical facility for that type of procedure. MOMS is not for medical procedures and HIPPA standards do not apply. With respect to complaints, there are avenues to file a complaint such as going through HHS, Ombudsman, local entities.
* Senator Trone Garriott

* Wants to ensure accountability for Iowa taxpayers; ill does not increase accountability.
* These programs are not providing medical services, so it needs to be made clear.
* This program is based on a Texas system that was ripe with fraud. On page 4, line 9 of the amendment, participating programs must be in compliance with state and federal laws in regards to data. The department must monitor compliance with these laws. Which state laws are applicable land how will they be enforced?
* Private confidential information must stay that way.
* Four contracts were awarded. Specifically called out Informed Choices Clinic website. They are misleading and deceptive. Guardrails must be put in place. Would prefer that the program to be modeled after LSI which is a quality program.

House:

The House also considered several bills last evening but with much less debate than the Senate chamber. Please see update below.

HF 2305 A bill for an act relating to child care center staff requirements for providing flex care to children up to five years of age.
Pass – 55-36 (9 absent or not voting)

Rep. Baeth, folks in the industry weren't necessarily asking for this so I cannot support it. Has concerns that a "brief absence" as outlined in the bill may go longer than the 5 minute limit as mentioned by Rep. Wood.

Ken,

I am planning to connect with Kate Gainer at IPA and discuss HF 555. This is the successor to HSB 202. I have reviewed and don't see any concerns from my perspective.

On page 11, lines 8 and 9, they reference the department of public health which would likely need to change to reflect the agency alignment. Would be able to take a look and review for

AMERICAN OVERSIGHT

any other potential impacts. It might be reasonable to have this reviewed by the Immunization team.

Adding Carrie for awareness.

Hello Dr Kruse,

Hope this warm Monday in February finds you well!

Do you have time to schedule a call or meeting to discuss pharmacy SWP (statewide protocols)?

Happy to make myself available at your convenience for a quick call.

Background:

As you know, Iowa allows pharmacists to provide accessible care via statewide protocols approved by the Board of Pharmacy and DHHS. (Immunizations; NRT; Naloxone; Test & Treat).

IPA is pursuing legislation to modernize the Pharmacy Practice Act (HF 555).

The SWP section of code would be simplified, and we'd like to discuss this with you to ensure there are no unintended consequences. The new language (page 9, line 29) gives BOP and HHS authority to adopt SWP, and the legislative change strikes the brightline language that calls out which SWP Iowa currently has (except Immunization – that section is unchanged).

IPA wants to ensure the existing SWP will remain in place if/when this bill passes.

I did met with Jill Stuecker last week and discussed this as well. She had no initial concerns

AMERICAN OVERSIGHT

and suggested we also connect with you. If you're open to a call to discuss in more detail, I'd welcome that!

Additionally, we could follow up on the numerous public health topics/ opportunities for IPA to work closely with your office.

Thank you,

Kate

Pharmacy Matters

HSB 202

EXECUTIVE SUMMARY: Please include 5-8 bullet points that highlight the main takeaways from the bill.

Multiple amendments to Iowa Code 155A Pharmacy related to various pharmacy practice issues including Pharmacist scope of practice under statewide protocols.

There is no direct impact to Medicaid. However if Medicaid chooses to permit additional practitioner services by Pharmacists as indicated in this proposal, there would be additional workload related to enrollment, programming, quality assurance and required rules.

The Board of Pharmacy should develop a “certification” file that can be used to verify a pharmacist meets the required training and education required for each protocol and/or other scope of practice allowances. Otherwise the payer is at risk for improperly paying claims.

Financial Impact: Estimate of $1M in costs is based on potential need of additional staff and/or existing staff time, as well as FFS/MCO programming under both pharmacy & medical claims systems. This is a high estimate based on potential lack of a Board of Pharmacy verification file.

SPECIFIC ISSUES: Please include any technical issues or conflicts (such a, but not limited to: invalid dates, inaccurate code reference, conflicts with existing state or federal laws, implementation or operational issues, etc.). Proposed Amendment language, if needed.

Clarify how the Board of Pharmacy will monitor/track education and training requirements to ensure the Pharmacist practice meets the standards of care and remains up-to-date on requirements for each protocol.

Clarify how the Board of Pharmacy will communicate or make available the provider’s ongoing licensure and certification status to reduce the payor’s risk of improper payments to the provider.

Determine if duties performed by a pharmacy intern or technician billable under a pharmacist at a higher reimbursement.

Unpublished Board of Pharmacy disciplinary actions places payor’s at-risk for reimbursing a provider that may not qualify to receive payments made with federal/state dollars and out-of-compliance with federal regulations.

IMPACT

Background and Reason for Bill (if known): Brief statement of relevant background/history. What problem is the bill trying to solve

The bill relates to amending and adding new sections for multiple pharmacy practice issues including violations of standard of care; reorganizing Iowa Code Ch. 155A; adds pharmacist to practitioner

AMERICAN OVERSIGHT

definition; amends registration (interns; technician and support persons); permits Pharmacist to dispense, administer, monitor, and issue prescription drugs, biological products, and medication orders according to the pharmacist's training and education and in accordance with the appropriate standard of care, including rules for license renewal procedures; pharmacist discipline; telepharmacy license rules; administrative financial penalties; license notifications; pharmacy inspections; professional judgement relate to refills & therapeutic substitution; fees for impaired pharmacist use; require criminal history data; amends current provisions to statewide protocols; and pilot and demonstration projects approvals.

Department Impact: High-level explanation on how the bill impacts the Department.
There is not "direct" impact to the Department. However as the IC 155A.8 is revised to generally permit "A pharmacist may dispense, administer, monitor, and issue prescription drugs, biological products, and medication orders commensurate with the pharmacist's training and education and in accordance with the appropriate standard of care", while adding "pharmacist" to the IC155A.3 definition of practitioner, Medicaid is indirectly impacted when lobbied to add these services as reimbursable under Medicaid.

Protocol Specific Training - Requests to permit Medicaid billing for such additional services on a case-by-case, specific training basis would be a programming and program integrity issue for Medicaid.

Lack of Training Verification File - The Board of Pharmacy must develop a "certification program" like the Therapeutically Certified Optometrist by the Board of Optometry in the past. This could be part of the licensing file and used by "payers" to ensure that enrolled pharmacist meets the required training and education required for each protocol and/or other scope of practice allowance. Or the bill should clarify how the Board will ensure that each Pharmacist remains up-to-date on requirements.

Without a verification by the Board of Pharmacy the additional work for the Department to reimburse such services includes:

Provider Enrollment – Additional staff and/or staff time required to verify all requirements are met for each Pharmacist requested service.

Programming – Both the medical and pharmacy claims processing under FFS/MCO would have significant programming time based on individual allowances.

Auditing – Additional auditing would be required from Program Integrity to ensure all pharmacists meet the requirements.

Rules – Would be required to expand scope of work of Pharmacist as a practitioner; including fees for services and required documentation. There could also be a lag in the coverage by Medicaid as the protocols would need to be developed first before Rules could be amended.

Total Fiscal Impact: General statement about the degree of additional cost or savings:

Fiscal impact cannot be absorbed within all status quo appropriations.

If fiscal impact has not been calculated, highlight one of the following dollar ranges:

Nominal fiscal impact expected (<$250K)
Low financial impact expected (<$500K)
Moderate financial impact expected (<$1M)
Significant financial impact expected (<$5M)
Severe financial impact expected (>$5M)

AMERICAN OVERSIGHT

Cost incurred would be for additional Provider Services/PI staff and/or time. Also FFS/MCO programming would be required under both the pharmacy & medical claims systems. This is an estimate based on the burden related to programming specific to each Pharmacist.

Assumptions & Cost Drivers: Provide detailed assumptions & calculations used in developing estimated costs, savings, or revenue impacts.
Costs are associated with the assumption that Medicaid would permit additional services and the Board of Pharmacy does not have an established "certification" file. Would potentially require additional staff and/or staff time plus programming under both MMIS and POS for FFS and Managed Care. Assumption is that medical billing codes would not be open to all Pharmacists but only to enrolled Pharmacists that meet protocol specific requirements as verified through Provider Enrollment.

Systems/IT Impact: Explain how the bill impacts technology within the Department.
If Medicaid permits the additional services, programming would be required under both MMIS and POS for FFS and Managed Care.

Changes to Current Law: Briefly explain how this changes current law.
Expands the allowance for the board to develop statewide protocols for the ordering and administration of prescription drugs, products, tests, treatments, immunizations, and vaccinations in consultation with the department of health and human services.

ADDITIONAL CONSIDERATIONS

Stakeholder Considerations: What other organizations or individuals are already working on this issue; how does the bill impact or align with their stated priorities? Who would be supportive or opposed and why?

[ ] Cross Agency Collaboration

[ ] FTEs (and supporting costs)

[ ] Contractors (staff augmentation)

If Medicaid permits the additional services, programming would be required under both MMIS and POS for FFS and Managed Care. These requirements can be absorbed with current staffing levels.

[ ] Other IT Costs

[ ] Mailing/Community Outreach

[X] Program Support Contract(s)
Costs are associated with the assumption that Medicaid would permit additional services and the Board of Pharmacy does not have an established “certification” file. This would potentially require additional staff and/or staff time plus programming under both MMIS and POS for FFS and Managed Care. Assumption is that medical billing codes would not be open to all Pharmacists but only to enrolled Pharmacists that meet protocol specific requirements as verified through Provider Enrollment. Current contracts for MMIS, Program Integrity, Provider Services, and Pharmacy can absorb the additional scope.

AMERICAN OVERSIGHT

Iowa Department of Health & Human Services
FN23-122 Assumptions
Date: 03/21/2023

Selected Impact Areas:

[X] Provider Reimbursement
The IC 155A.8 is revised to generally permit "A pharmacist may dispense, administer, monitor, and issue prescription drugs, biological products, and medication orders commensurate with the pharmacist's training and education and in accordance with the appropriate standard of care", while adding "pharmacist" to the IC155A.3 definition of practitioner.

If Medicaid permits additional practitioner services by Pharmacists as indicated in this proposal, which currently are not permitted/reimbursed, it is likely these services would be done in lieu of another provider who is currently permitted to perform the services. However if permitted, there is always the potential with the easier access to a pharmacy that the volume of these services could increase compared to current. Fiscal impact cannot be calculated with certainty, but any impact is expected to be minimal.

[X] Fee-for-Service Rates
The fee schedule would need to be updated to include the additional practitioner services.

[X] Managed Care Rates
The fee schedule would need to be updated to include the additional practitioner services.

On page 11, lines 8 and 9, they reference the department of public health which would likely need to change to reflect the agency alignment. Would be able to take a look and review for any other potential impacts. It might be reasonable to have this reviewed by the Immunization team.

Hello Dr Kruse,

Hope this warm Monday in February finds you well!

Do you have time to schedule a call or meeting to discuss pharmacy SWP (statewide protocols)?

Happy to make myself available at your convenience for a quick call.

Background:

As you know, Iowa allows pharmacists to provide accessible care via statewide protocols approved by the Board of Pharmacy and DHHS. (Immunizations; NRT; Naloxone; Test & Treat).

IPA is pursuing legislation to modernize the Pharmacy Practice Act (HF 555).

The SWP section of code would be simplified, and we'd like to discuss this with you to ensure there are no unintended consequences. The new language (page 9, line 29) gives BOP and HHS authority to adopt SWP, and the legislative change strikes the brightline language that calls out which SWP Iowa currently has (except Immunization – that section is unchanged).

IPA wants to ensure the existing SWP will remain in place if/when this bill passes.

AMERICAN OVERSIGHT

I did met with Jill Stuecker last week and discussed this as well. She had no initial concerns and suggested we also connect with you. If you're open to a call to discuss in more detail, I'd welcome that!

Additionally, we could follow up on the numerous public health topics/ opportunities for IPA to work closely with your office.

Thank you,

Kate

Pharmacy Matters

HSB 202

EXECUTIVE SUMMARY: Please include 5-8 bullet points that highlight the main takeaways from the bill.

Multiple amendments to Iowa Code 155A Pharmacy related to various pharmacy practice issues including Pharmacist scope of practice under statewide protocols.

There is no direct impact to Medicaid. However if Medicaid chooses to permit additional practitioner services by Pharmacists as indicated in this proposal, there would be additional workload related to enrollment, programming, quality assurance and required rules.

The Board of Pharmacy should develop a “certification” file that can be used to verify a pharmacist meets the required training and education required for each protocol and/or other scope of practice allowances. Otherwise the payer is at risk for improperly paying claims.

Financial Impact: Estimate of $1M in costs is based on potential need of additional staff and/or existing staff time, as well as FFS/MCO programming under both pharmacy & medical claims systems. This is a high estimate based on potential lack of a Board of Pharmacy verification file.

SPECIFIC ISSUES: Please include any technical issues or conflicts (such a, but not limited to: invalid dates, inaccurate code reference, conflicts with existing state or federal laws, implementation or operational issues, etc.). Proposed Amendment language, if needed.

Clarify how the Board of Pharmacy will monitor/track education and training requirements to ensure the Pharmacist practice meets the standards of care and remains up-to-date on requirements for each protocol.

Clarify how the Board of Pharmacy will communicate or make available the provider’s ongoing licensure and certification status to reduce the payor’s risk of improper payments to the provider.

Determine if duties performed by a pharmacy intern or technician billable under a pharmacist at a higher reimbursement.

Unpublished Board of Pharmacy disciplinary actions places payor’s at-risk for reimbursing a provider that may not qualify to receive payments made with federal/state dollars and out-of-compliance with federal regulations.

IMPACT

Background and Reason for Bill (if known): Brief statement of relevant background/history. What problem is the bill trying to solve

The bill relates to amending and adding new sections for multiple pharmacy practice issues including violations of standard of care; reorganizing Iowa Code Ch. 155A; adds pharmacist to practitioner

AMERICAN OVERSIGHT

definition; amends registration (interns; technician and support persons); permits Pharmacist to dispense, administer, monitor, and issue prescription drugs, biological products, and medication orders according to the pharmacist's training and education and in accordance with the appropriate standard of care, including rules for license renewal procedures; pharmacist discipline; telepharmacy license rules; administrative financial penalties; license notifications; pharmacy inspections; professional judgement relate to refills & therapeutic substitution; fees for impaired pharmacist use; require criminal history data; amends current provisions to statewide protocols; and pilot and demonstration projects approvals.

Department Impact: High-level explanation on how the bill impacts the Department.
There is not "direct" impact to the Department. However as the IC 155A.8 is revised to generally permit "A pharmacist may dispense, administer, monitor, and issue prescription drugs, biological products, and medication orders commensurate with the pharmacist's training and education and in accordance with the appropriate standard of care", while adding "pharmacist" to the IC155A.3 definition of practitioner, Medicaid is indirectly impacted when lobbied to add these services as reimbursable under Medicaid.

Protocol Specific Training - Requests to permit Medicaid billing for such additional services on a case-by-case, specific training basis would be a programming and program integrity issue for Medicaid.

Lack of Training Verification File - The Board of Pharmacy must develop a "certification program" like the Therapeutically Certified Optometrist by the Board of Optometry in the past. This could be part of the licensing file and used by "payers" to ensure that enrolled pharmacist meets the required training and education required for each protocol and/or other scope of practice allowance. Or the bill should clarify how the Board will ensure that each Pharmacist remains up-to-date on requirements.

Without a verification by the Board of Pharmacy the additional work for the Department to reimburse such services includes:

Provider Enrollment – Additional staff and/or staff time required to verify all requirements are met for each Pharmacist requested service.

Programming – Both the medical and pharmacy claims processing under FFS/MCO would have significant programming time based on individual allowances.

Auditing – Additional auditing would be required from Program Integrity to ensure all pharmacists meet the requirements.

Rules – Would be required to expand scope of work of Pharmacist as a practitioner; including fees for services and required documentation. There could also be a lag in the coverage by Medicaid as the protocols would need to be developed first before Rules could be amended.

Total Fiscal Impact: General statement about the degree of additional cost or savings:

Fiscal impact cannot be absorbed within all status quo appropriations.

If fiscal impact has not been calculated, highlight one of the following dollar ranges:

Nominal fiscal impact expected (<$250K)
Low financial impact expected (<$500K)
Moderate financial impact expected (<$1M)
Significant financial impact expected (<$5M)
Severe financial impact expected (>$5M)

AMERICAN OVERSIGHT

Cost incurred would be for additional Provider Services/PI staff and/or time. Also FFS/MCO programming would be required under both the pharmacy & medical claims systems. This is an estimate based on the burden related to programming specific to each Pharmacist.

Assumptions & Cost Drivers: Provide detailed assumptions & calculations used in developing estimated costs, savings, or revenue impacts.
Costs are associated with the assumption that Medicaid would permit additional services and the Board of Pharmacy does not have an established "certification" file. Would potentially require additional staff and/or staff time plus programming under both MMIS and POS for FFS and Managed Care. Assumption is that medical billing codes would not be open to all Pharmacists but only to enrolled Pharmacists that meet protocol specific requirements as verified through Provider Enrollment.

Systems/IT Impact: Explain how the bill impacts technology within the Department.
If Medicaid permits the additional services, programming would be required under both MMIS and POS for FFS and Managed Care.

Changes to Current Law: Briefly explain how this changes current law.
Expands the allowance for the board to develop statewide protocols for the ordering and administration of prescription drugs, products, tests, treatments, immunizations, and vaccinations in consultation with the department of health and human services.

ADDITIONAL CONSIDERATIONS

Stakeholder Considerations: What other organizations or individuals are already working on this issue; how does the bill impact or align with their stated priorities? Who would be supportive or opposed and why?

Pharmacy Matters

HSB 202

EXECUTIVE SUMMARY: Please include 5-8 bullet points that highlight the main takeaways from the bill.

Multiple amendments to Iowa Code 155A Pharmacy related to various pharmacy practice issues including Pharmacist scope of practice under statewide protocols.

There is no direct impact to Medicaid. However if Medicaid chooses to permit additional practitioner services by Pharmacists as indicated in this proposal, there would be additional workload related to enrollment, programming, quality assurance and required rules.

The Board of Pharmacy should develop a “certification” file that can be used to verify a pharmacist meets the required training and education required for each protocol and/or other scope of practice allowances. Otherwise the payer is at risk for improperly paying claims.

Financial Impact: Estimate of $1M in costs is based on potential need of additional staff and/or existing staff time, as well as FFS/MCO programming under both pharmacy & medical claims systems. This is a high estimate based on potential lack of a Board of Pharmacy verification file.

SPECIFIC ISSUES: Please include any technical issues or conflicts (such a, but not limited to: invalid dates, inaccurate code reference, conflicts with existing state or federal laws, implementation or operational issues, etc.). Proposed Amendment language, if needed.

Clarify how the Board of Pharmacy will monitor/track education and training requirements to ensure the Pharmacist practice meets the standards of care and remains up-to-date on requirements for each protocol.

Clarify how the Board of Pharmacy will communicate or make available the provider’s ongoing licensure and certification status to reduce the payor’s risk of improper payments to the provider.

Determine if duties performed by a pharmacy intern or technician billable under a pharmacist at a higher reimbursement.

Unpublished Board of Pharmacy disciplinary actions places payor’s at-risk for reimbursing a provider that may not qualify to receive payments made with federal/state dollars and out-of-compliance with federal regulations.

IMPACT

Background and Reason for Bill (if known): Brief statement of relevant background/history. What problem is the bill trying to solve

The bill relates to amending and adding new sections for multiple pharmacy practice issues including violations of standard of care; reorganizing Iowa Code Ch. 155A; adds pharmacist to practitioner

AMERICAN OVERSIGHT

definition; amends registration (interns; technician and support persons); permits Pharmacist to dispense, administer, monitor, and issue prescription drugs, biological products, and medication orders according to the pharmacist's training and education and in accordance with the appropriate standard of care, including rules for license renewal procedures; pharmacist discipline; telepharmacy license rules; administrative financial penalties; license notifications; pharmacy inspections; professional judgement relate to refills & therapeutic substitution; fees for impaired pharmacist use; require criminal history data; amends current provisions to statewide protocols; and pilot and demonstration projects approvals.

Department Impact: High-level explanation on how the bill impacts the Department.
There is not "direct" impact to the Department. However as the IC 155A.8 is revised to generally permit "A pharmacist may dispense, administer, monitor, and issue prescription drugs, biological products, and medication orders commensurate with the pharmacist's training and education and in accordance with the appropriate standard of care", while adding "pharmacist" to the IC155A.3 definition of practitioner, Medicaid is indirectly impacted when lobbied to add these services as reimbursable under Medicaid.

Protocol Specific Training - Requests to permit Medicaid billing for such additional services on a case-by-case, specific training basis would be a programming and program integrity issue for Medicaid.

Lack of Training Verification File - The Board of Pharmacy must develop a "certification program" like the Therapeutically Certified Optometrist by the Board of Optometry in the past. This could be part of the licensing file and used by "payers" to ensure that enrolled pharmacist meets the required training and education required for each protocol and/or other scope of practice allowance. Or the bill should clarify how the Board will ensure that each Pharmacist remains up-to-date on requirements.

Without a verification by the Board of Pharmacy the additional work for the Department to reimburse such services includes:

Provider Enrollment – Additional staff and/or staff time required to verify all requirements are met for each Pharmacist requested service.

Programming – Both the medical and pharmacy claims processing under FFS/MCO would have significant programming time based on individual allowances.

Auditing – Additional auditing would be required from Program Integrity to ensure all pharmacists meet the requirements.

Rules – Would be required to expand scope of work of Pharmacist as a practitioner; including fees for services and required documentation. There could also be a lag in the coverage by Medicaid as the protocols would need to be developed first before Rules could be amended.

Total Fiscal Impact: General statement about the degree of additional cost or savings:

Fiscal impact cannot be absorbed within all status quo appropriations.

If fiscal impact has not been calculated, highlight one of the following dollar ranges:

Nominal fiscal impact expected (<$250K)
Low financial impact expected (<$500K)
Moderate financial impact expected (<$1M)
Significant financial impact expected (<$5M)
Severe financial impact expected (>$5M)

AMERICAN OVERSIGHT

Cost incurred would be for additional Provider Services/PI staff and/or time. Also FFS/MCO programming would be required under both the pharmacy & medical claims systems. This is an estimate based on the burden related to programming specific to each Pharmacist.

Assumptions & Cost Drivers: Provide detailed assumptions & calculations used in developing estimated costs, savings, or revenue impacts.
Costs are associated with the assumption that Medicaid would permit additional services and the Board of Pharmacy does not have an established "certification" file. Would potentially require additional staff and/or staff time plus programming under both MMIS and POS for FFS and Managed Care. Assumption is that medical billing codes would not be open to all Pharmacists but only to enrolled Pharmacists that meet protocol specific requirements as verified through Provider Enrollment.

Systems/IT Impact: Explain how the bill impacts technology within the Department.
If Medicaid permits the additional services, programming would be required under both MMIS and POS for FFS and Managed Care.

Changes to Current Law: Briefly explain how this changes current law.
Expands the allowance for the board to develop statewide protocols for the ordering and administration of prescription drugs, products, tests, treatments, immunizations, and vaccinations in consultation with the department of health and human services.

ADDITIONAL CONSIDERATIONS

Stakeholder Considerations: What other organizations or individuals are already working on this issue; how does the bill impact or align with their stated priorities? Who would be supportive or opposed and why?

[ ] Wait Lists/Interest Lists

[ ] Study/Report

[ ] Advisory Committee

[ ] Cross Agency Collaboration

[ ] FTEs (and supporting costs)

[ ] Contractors (staff augmentation)

[ ] Training (current staff)

[ ] Health Equity Considerations

[X] Applications/Systems Changes
If Medicaid permits the additional services, programming would be required under both MMIS and POS for FFS and Managed Care. These requirements can be absorbed with current staffing levels.

[ ] Other IT Costs

[ ] Mailing/Community Outreach

[X] Program Support Contract(s)
Costs are associated with the assumption that Medicaid would permit additional services and the Board of Pharmacy does not have an established “certification” file. This would potentially require additional staff and/or staff time plus programming under both MMIS and POS for FFS and Managed Care. Assumption is that medical billing codes would not be open to all Pharmacists but only to enrolled Pharmacists that meet protocol specific requirements as verified through Provider Enrollment. Current contracts for MMIS, Program Integrity, Provider Services, and Pharmacy can absorb the additional scope.

AMERICAN OVERSIGHT

Iowa Department of Health & Human Services
FN23-122 Assumptions
Date: 03/21/2023

Selected Impact Areas:

[X] Provider Reimbursement
The IC 155A.8 is revised to generally permit "A pharmacist may dispense, administer, monitor, and issue prescription drugs, biological products, and medication orders commensurate with the pharmacist's training and education and in accordance with the appropriate standard of care", while adding "pharmacist" to the IC155A.3 definition of practitioner.

If Medicaid permits additional practitioner services by Pharmacists as indicated in this proposal, which currently are not permitted/reimbursed, it is likely these services would be done in lieu of another provider who is currently permitted to perform the services. However if permitted, there is always the potential with the easier access to a pharmacy that the volume of these services could increase compared to current. Fiscal impact cannot be calculated with certainty, but any impact is expected to be minimal.

[X] Fee-for-Service Rates
The fee schedule would need to be updated to include the additional practitioner services.

[X] Managed Care Rates
The fee schedule would need to be updated to include the additional practitioner services.

[ ] Federal Matching Funds

* Number one for losing L/D departments
* Black women 6x more likely to die
* We should not be contracting care
* Iowa does have the best Medicaid coverage in the country for pregnant moms and their babies
* Medicaid covers prenatal care. Mom and baby are automatically eligible in WIC

* GOVs bill takes away number 1 ranking, WIC benefits, Medicaid coverage, 1300 moms every month, walks away from $10 million in federal funding once the bill is implemented
* This amendment proposes we stay at 375% FPL, which will be less than private school vouchers and extends it to 12 months pp
* Costello response

* Iowans do not support Medicaid for all
* This amendment would allow someone making over 100,000 to qualify
* There are private entities that can help
* Follow Governor's lead and set reasonable guidelines for public assistance

AMERICAN OVERSIGHT

* STG

* Supports amendment
* Iowa has a rising rate of maternal mortality
* We need to expand Medicaid pp coverage
* Cuts 1500 moms and babies per year
* Iowa had the highest increase of infant mortality in the State of Iowa - DHS these are families who are struggling to pay the bills and cannot make it on their own
* There are a lot of families in Iowa not making it at 215%
* There is a cost to kicking pregnant moms and infants off Medicaid
* Please don't make pregnant Iowans and babies pay this cost. We can do better. Support the amendment.

* Jochum

* This is your chance to show that you care about babies after they are born
* This is a pro life amendment

Senator Petersen Comments on the Bill

* Costello - Women can go to the Exchange to get care
* How will women pay for their pregnancy care
* If a young pregnant person needs an ambulance ride and they don't have health insurance, who covers the ride? Costello – they would be responsible for the bill.
* This is not a time to step backwards in maternal healthcare
* The budget process hasn't gotten rolling yet, there is still time to do right by pregnant women and their babies
* Have the Governor and HHS go back to the drawing board. They found $25 million for their office renovations but not a dime for pregnant moms and women.

Costello Closing Comments

* Hope the Dems support the MOMs program
* Medicaid is not the silver bullet
* HHS is partnering with partners in this field to work on AIM
* These collaboratives are successful
* HHS is aiming to eliminate hypertension by 2024
* Medicaid isn't the best way to go about improving maternal health outcomes

SF 2252 – MORE OPTIONS FOR MATERNAL SUPPORT Passed 31-16 (3 senators absent)

Amendment 5011 by Petersen FAILED 31-16

* Ultrasounds must be administered by licensed healthcare providers.

Amendment 5012 by Trone Garriott Failed 31 nayes, 16 yeas

* Requires HHS to establish a complaint process

AMERICAN OVERSIGHT

* Requires HHS to disclose terms of the contracts
* Requires in reporting to the legislature, HHS has to report specific numbers for specific services.
* Requires all providers under MOMS receive informed consent for ultrasounds and abide by HIPPA laws.
* There were a number of questions and comments about ultrasounds. Senator Costello clarified that women would get a referral and go to a medical facility for that type of procedure. MOMS is not for medical procedures and HIPPA standards do not apply. With respect to complaints, there are avenues to file a complaint such as going through HHS, Ombudsman, local entities.
* Senator Trone Garriott

* Wants to ensure accountability for Iowa taxpayers; ill does not increase accountability.
* These programs are not providing medical services, so it needs to be made clear.
* This program is based on a Texas system that was ripe with fraud. On page 4, line 9 of the amendment, participating programs must be in compliance with state and federal laws in regards to data. The department must monitor compliance with these laws. Which state laws are applicable land how will they be enforced?
* Private confidential information must stay that way.
* Four contracts were awarded. Specifically called out Informed Choices Clinic website. They are misleading and deceptive. Guardrails must be put in place. Would prefer that the program to be modeled after LSI which is a quality program.

This bill requires school boards to ensure that feminine hygiene products can be accessed by students without cost in at least half of the restrooms in school buildings in the district where students in grades 6 through 12 are educated and that the supply of feminine hygiene products is refilled regularly. The bill defines "feminine hygiene products" as sanitary napkins, tampons, or other similar items used for feminine hygiene.

The bill appropriates an amount necessary to fund the full cost of compliance with the bill by school districts from the general fund of the state to the department of education for the period beginning July 1, 2024, and ending June 30, 2027. The bill directs the department to establish processes for school districts to submit the documented cost of compliance to the department and for the department to reimburse school districts for such costs.

The bill may include a state mandate as defined in Code section 25B.3. The bill requires that the state cost of any state mandate included in the bill be paid by a school district from funds appropriated by the bill, and, for school years beginning on or after July 1, 2027, from state school foundation aid received by the school district under Code section 257.16. The specification is deemed to constitute state compliance with any state mandate funding-related requirements of Code section 25B.2. The inclusion of this specification is intended to reinstate the requirement of political subdivisions to comply with any state mandates included in the bill.

21 718C.2 or 718C.5.
22 EXPLANATION
23 The inclusion of this explanation does not constitute agreement with
24 the explanation's substance by the members of the general assembly.
25 This bill relates to illegal reentry into the state by
26 certain aliens, prohibition on arrest in certain locations,
27 orders to return to a foreign nation, immunity from liability
28 and indemnification for enforcement actions, and sentencing
29 restrictions.
30 The bill provides that a person who is an alien commits an
31 offense if the person enters, attempts to enter, or is at any
32 time found in this state if the person has previously been
33 denied admission to or has been excluded, deported, or removed
34 from the United States, or the person previously departed from
35 the United States while an order of exclusion, deportation, or

1 removal was outstanding.
2 The bill provides that the offense is an aggravated
3 misdemeanor, except that the offense is: a class "D" felony
4 if the person's removal was subsequent to a conviction for
5 commission of two or more misdemeanors involving drugs, crimes
6 against a person, or both; the person was excluded pursuant to
7 8 U.S.C. §1225(c) because the defendant was excludable under
8 8 U.S.C. §1182(a)(3)(B); the person was removed pursuant to
9 the provisions of 8 U.S.C. ch. 12, subch. V, or the person was
10 removed pursuant to 8 U.S.C. §1231(a)(4)(B). An offense is
11 a class "C" felony if the person was removed subsequent to a
12 conviction for the commission of a felony. The bill provides
13 that "removal" includes an order issued under the bill or
14 any other agreement in which an alien stipulates to removal
15 pursuant to a criminal proceeding under either federal or state
16 law. An aggravated misdemeanor is punishable by confinement
17 for no more than two years and a fine of at least $855 but
18 not more than $8,540. A class "D" felony is punishable by
19 confinement for no more than five years and a fine of at least
20 $1,025 but not more than $10,245. A class "C" felony is
21 punishable by confinement for no more than 10 years and a fine
22 of at least $1,370 but not more than $13,660.
23 The bill provides that a peace officer may not arrest or
24 detain a person for purposes of enforcing a provision of
25 the bill if the person is on the premises or grounds of: a
26 public or private primary or secondary school for educational
27 purposes; a church, synagogue, or other established place of
28 religious worship; a health care facility, provided that the
29 person is on the premises or grounds of the facility or office
30 for the purpose of receiving medical treatment; or a facility
31 that provides forensic medical examinations to sexual assault
32 survivors provided that the person is on the premises or
33 grounds of the facility for purposes of obtaining a forensic
34 medical examination and treatment.
35 The bill provides that a judge during a person's initial

1 appearance following an arrest for a violation of the bill
2 may, after making a determination that probable cause exists
3 for the arrest, order the person released from custody and
4 issue a written order requiring the person to return to the
5 foreign nation from which the person came. The judge in a
6 person's case at any time after the person's initial appearance
7 may, in lieu of continuing the prosecution of or entering an
8 adjudication regarding an offense under the bill, dismiss the
9 charge pending against the person and issue a written order
10 requiring the person to return to the foreign nation from which
11 the person came. A written order discharging the person and
12 requiring the person to return to the foreign nation from
13 which the person entered or attempted to enter may be issued
14 only if all of the following occur: the person agrees to
15 the order; the person has not previously been convicted of
16 an offense under the bill or previously obtained a discharge
17 under an order to return to the foreign nation from which the
18 person came; the person is not charged with another offense
19 that is punishable as an aggravated misdemeanor or any higher
20 category of offense; and the arresting law enforcement agency
21 has collected all available identifying information of the
22 person and has cross-referenced the collected information with
23 all relevant local, state, and criminal databases and federal
24 lists or classifications used to identify a person as a threat
25 or potential threat to national security.
26 Upon conviction for a violation of the bill, the bill
27 provides that the judge shall enter in the judgment in the case
28 an order requiring the person to return to the foreign nation
29 from which the person entered or attempted to enter. An order
30 issued under this provision takes effect on completion of the
31 term of confinement or imprisonment imposed by the judgment.
32 The bill provides that an order must include the manner of
33 transportation of the person to a port of entry and the law
34 enforcement officer or state agency responsible for monitoring
35 compliance with the order. Within seven days of an order's

1 issuance, the law enforcement officer or state agency required
2 to monitor compliance with the order shall report the issuance
3 of the order to the department of public safety for inclusion
4 in the computerized criminal history system.
5 The bill provides that a person who is an alien commits an
6 offense if the person has been charged with or convicted of an
7 offense under the bill, a judge has issued an order under the
8 bill for the person to return to the foreign nation from which
9 the person entered or attempted to enter, and the person failed
10 to comply with the order. An offense under this provision of
11 the bill is a class "C" felony.
12 The bill provides that a court may not abate the prosecution
13 of an offense under the bill on the basis that a federal
14 determination regarding the immigration status of the person is
15 pending or will be initiated.
16 The bill provides that a local government official,
17 employee, or contractor is immune from liability for damages
18 arising from a cause of action resulting from an action taken
19 to enforce the bill. A local government shall indemnify an
20 official, employee, or contractor of the local government
21 for damages arising from a cause of action under federal law
22 resulting from an action taken to enforce the bill.
23 The bill provides that indemnification payments made by a
24 local government shall not exceed $100,000 to any one person,
25 $300,000 for any single occurrence in the case of personal
26 injury or death, or $10,000 for a single occurrence of property
27 damage.
28 If the court or jury determines that the local government
29 official, employee, or contractor acted in bad faith, with
30 conscious indifference, or with recklessness, the official,
31 employee, or contractor is not entitled to immunity or
32 indemnification.
33 The bill provides that an elected or appointed state
34 official, or a state employee or contractor, is immune from
35 liability for damages resulting from an action taken to enforce

1 the bill.
2 The bill provides that the state shall indemnify an elected
3 or appointed state official, or a state employee or contractor,
4 for damages arising from a cause of action under federal law
5 resulting from an action taken by the official, employee, or
6 contractor to enforce the bill. An indemnification payment
7 made to an elected or appointed state official, or a state
8 employee or contractor, is not subject to an indemnification
9 limit under the laws of this state.
10 If the court or jury determines that an elected or appointed
11 state official, or a state employee or contractor, acted in bad
12 faith, with conscious indifference, or with recklessness, the
13 elected or appointed state official, or a state employee or
14 contractor, is not entitled to immunity or indemnification.
15 The bill provides that a state official, employee, or
16 contractor who may be entitled to indemnification is entitled
17 to representation by the attorney general.
18 Current law generally provides that the trial court may,
19 upon a plea of guilty, a verdict of guilty, or a special
20 verdict upon which a judgment of conviction may be rendered,
21 defer judgment, defer sentencing, or suspend the sentence.
22 This provision does not apply to a forcible felony or to a
23 violation of Code chapter 709 (sexual abuse) committed by a
24 person who is a mandatory reporter of child abuse in which the
25 victim is a person who is under the age of 18.
26 The bill adds a violation of the bill to those offenses for
27 which the option to render a deferred judgment or sentence, or
28 a suspended sentence, does not apply.

this chapter.

Sec. 6. Section 321.366, subsection 1, paragraph g, Code 2024, is amended to read as follows:

g. ~~Operate~~ Ride a bicycle~~, skateboard,~~ or ~~other~~ use a pedestrian conveyance, or be a pedestrian, anywhere on a fully controlled-access facility. ~~For purposes of this paragraph, *"pedestrian conveyance"* means any human-powered device by which a pedestrian may move other than by walking or by which a walking person may move another pedestrian, including but not limited to strollers and wheelchairs.~~

EXPLANATION

The inclusion of this explanation does not constitute agreement with the explanation's substance by the members of the general assembly.

This bill relates to laws applicable to nonvehicular traffic.

Under current law, for purposes of Code chapter 321 (motor vehicles and law of the road), "pedestrian" means any person afoot. The bill amends the definition to include a person using a pedestrian conveyance, as defined in the bill. In addition to devices moved by human-power, electric personal assistive mobility devices (Code section 321.1(20B)) and electric-powered devices that produce less than 750 watts are specifically included as a pedestrian conveyance. However, bicycles are not considered a pedestrian conveyance.

The bill strikes a conflicting definition of pedestrian conveyance in Code section 321.366.

In Code chapter 321, the term "pedestrian" is used for purposes relating to required driver education awareness instruction, official traffic-control signals directing pedestrian traffic, and requirements for persons operating a motor vehicle to yield or give signals to pedestrians.

Code sections 321.325 through 321.340 provide pedestrians' rights and duties, which are applicable to persons using pedestrian conveyances under the bill. Pursuant to current law, generally, a person who commits a prohibited action

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-006976

H.F. 2568

against a pedestrian is guilty of a simple misdemeanor punishable by a $35 scheduled fine (Code section 805.8A(9)).

Under current law, a person riding a bicycle (bicyclist) on a highway is subject to the provisions of Code chapter 321 and has all the rights and duties applicable to a driver, except those provisions which by their nature have no application and those provisions for which specific exceptions have been set forth regarding police bicycles (Code section 321.234). In addition, current law penalizes certain actions against bicyclists, such as steering a vehicle unreasonably close to the bicyclist or projecting an object at the bicyclist (Code section 321.281).

The bill requires a driver to yield the right-of-way to a bicyclist crossing the roadway within any marked crosswalk, or within any unmarked crosswalk at an intersection, in the same manner required when yielding to pedestrians where traffic-control signals are not in place or in operation.

A driver who fails to yield the right-of-way to a bicyclist when required commits a simple misdemeanor punishable by a $135 scheduled fine. By operation of law, if the violation causes a serious injury, a court could impose an additional fine of $500 or suspend the person´s driver´s license for not more than 90 days, or both. If the violation causes a death, a court could impose an additional fine of $1,000 or suspend the person´s driver´s license for not more than 180 days, or both (Code section 321.482A). The penalties for certain violations against pedestrians, including persons using a pedestrian conveyance, are also enhanced under Code section 321.482A if the violation causes serious injury or death.

1 Section 1. Section 633.635, subsection 2, paragraph a, Code
2 2024, is amended to read as follows:
3 *a.* Making decisions regarding the care, maintenance, health,
4 education, welfare, and safety of the protected person except
5 as otherwise limited by the court. Decisions regarding a
6 protected person's health include all of the following:
7 (1) The ability to enter into hospice and palliative care.
8 (2) The power to execute, reaffirm, and revoke a
9 do-not-resuscitate or do-not-intubate order, or to enter the
10 protected person into hospice care, but only if all of the
11 following conditions are met:
12 (a) The guardian consulted with the protected person
13 about any proposed change not more than fourteen days before
14 executing the change and the protected person was in a
15 condition to engage in meaningful conversation about the
16 proposed change. If a meaningful conversation with the
17 protected person is not possible, the guardian may consult with
18 family members or significant others of the protected person
19 about any proposed change not more than fourteen days before
20 executing the change.
21 (b) The guardian consulted directly with the protected
22 person's attending physician regarding the specific medical
23 indications that warrant the change.
24 (3) Except in cases in which the diagnosis is a terminal
25 illness with a life expectancy of six months or less, this
26 subsection shall not be construed to authorize a guardian to
27 withdraw life-sustaining procedures or authorize any medicine
28 or procedure that terminates the protected person's life
29 without first obtaining a court order authorizing such action.
30 EXPLANATION

31 **The inclusion of this explanation does not constitute agreement with**
32 **the explanation's substance by the members of the general assembly.**

33 This bill relates to end-of-life care decisions under
34 guardianships of adults.
35 Under current law, a court may grant a guardian the

1 ability to make decisions regarding the care, maintenance,
2 health, education, welfare, and safety of the protected
3 person except as otherwise limited by the court, which
4 the guardian may exercise thereafter without prior court
5 approval. The bill provides that this includes end-of-life
6 care decisions (hospice, palliative care, and life-sustaining
7 interventions, and the power to execute, reaffirm, or revoke a
8 do-not-resuscitate or do-not-intubate order). A guardian is
9 only able to make an end-of-life care decision if the guardian
10 has consulted with the protected person not more than 14 days
11 before executing the end-of-life care decision and consulted
12 with the protected person's attending physician. However,
13 if the protected person is not able to have a meaningful
14 conversation about end-of-life care decisions, a guardian may
15 instead consult with family members and other significant
16 others of the protected person not more than 14 days before
17 executing the end-of-life decision. The bill provides that
18 except for cases in which the protected person's diagnosis is a
19 terminal illness with life expectancy of six months or less, a
20 guardian may not authorize the withdrawal of life-sustaining
21 procedures or authorize any medicine or procedure that
22 terminates the protected person's life without first obtaining
23 a court order authorizing such action.

1 This bill relates to certain emergency services provided by
2 a city.
3 Current law generally voids a contract entered into by a city
4 officer or employee if the officer or employee has an interest,
5 direct or indirect, in the contract or job of work or material
6 or the profits thereof or services to be furnished or performed
7 for the officer´s or employee´s city. The bill provides that
8 this provision does not prohibit the lawful compensation,
9 including nominal stipends, incentives, and benefits, for a
10 volunteer fire fighter or emergency medical care provider
11 holding one or more city offices or positions if holding the
12 office or position is not incompatible with another public
13 office or is not prohibited by law.
14 Current law allows a city council member, during the term
15 for which the member is elected, to serve as the chief of a
16 volunteer fire department or serve a volunteer fire department
17 in any other capacity. A person holding the office of chief of
18 such a volunteer fire department at the time of the person´s
19 election to the city council may continue to hold the office of
20 chief of the volunteer fire department during the city council
21 term for which that person was elected. The bill allows a
22 city council member to serve as chief of the volunteer fire
23 department upon a majority vote of the council, but such member
24 must abstain from the vote.
25 The bill provides that a city may establish a fund or
26 reserve savings account to pay for major equipment for police,
27 fire, rescue, or emergency medical services. If a city has
28 established such a fund or account and has received a payment,
29 award, judgment, or insurance settlement for damaged police,
30 fire, rescue, or emergency medical services equipment or
31 vehicles, the city shall deposit the moneys into the relevant
32 fund or account rather than into the general fund of the city.
33 However, if a city uses moneys from its general fund to cover
34 costs to repair or replace such equipment or vehicles, the
35 city may deposit into its general fund an amount received from

5 year may be deposited into a reserve savings account. Moneys
6 in a reserve savings account shall be used for the purpose of
7 maintaining or acquiring major equipment including vehicles.

6 emergency medical services fund created in section 135.25 the
7 amount of the special fees collected in the previous month for
8 issuance of emergency medical services plates.

9 EXPLANATION

10 The inclusion of this explanation does not constitute agreement with
11 the explanation's substance by the members of the general assembly.

12 Under current law, an owner of a motor vehicle who is
13 a current or retired member of a paid or volunteer fire
14 department may order fire fighter special registration plates
15 signifying the owner is an active or retired fire fighter. The
16 plates are designed by the department of transportation (DOT)
17 in cooperation with representatives designated by the Iowa fire
18 fighters' associations. The design is such that the plates
19 do not match the color and design of regular registration
20 plates (alternate design plates), as authorized by Code section
21 321.166 (vehicle plate specifications).
22 Likewise, under current law, an owner of a motor vehicle
23 who is a current member of a paid or volunteer emergency
24 medical services (EMS) agency may order special registration
25 plates, designed by the DOT in cooperation with representatives
26 designated by the Iowa EMS association, signifying that the
27 person is a current member of a paid or volunteer EMS agency.
28 The design is such that the plates match the color and design
29 of regular registration plates but contain a distinguishing
30 processed emblem (emblem plates).
31 This bill authorizes the DOT to issue personalized fire
32 fighter and EMS registration plates, in accordance with Code
33 sections 321.34(5) and 321.34(12), as applicable. The fee for
34 personalized plates is $25, which is in addition to all other
35 registration fees. The annual fee for personalized plates is

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-007061

H.F. 2579

1 $5, and is also in addition to all other fees. Due to the
2 plates' respective designs, the bill limits the number of
3 characters on a personalized fire fighter or EMS plate to five
4 numerals and letters.
5 The bill makes further changes to align the plate provisions
6 with the respective language used for other, similar plates
7 (alternate design plate language for fire fighter plates, and
8 emblem plate language for EMS plates). For purposes of emblem
9 plates, Code section 321.34(12) contains provisions relating
10 to the default $25 fee, personalized emblem plates, and the
11 exchange or surrender of such plates. Therefore, the EMS plate
12 provision is updated to include relevant references and exclude
13 duplicative provisions.

21 proceeding under subchapter II or a proceeding in which the
22 court has waived jurisdiction under section 232.45, the court
23 shall appoint the same counsel or guardian ad litem upon the
24 filing of the petition under this part.
25 *c.* Counsel shall be appointed for a child subject to the
26 following:
27 (1) If the child is represented by counsel and the court
28 determines there is a conflict of interest between the child
29 and the child's parent, guardian, putative father, or custodian
30 and that the retained counsel cannot properly represent the
31 child as a result of the conflict, the court shall appoint
32 other counsel to represent the child and that counsel shall
33 be compensated pursuant to section 232.141, subsection 2,
34 paragraph "*b*".
35 (2) If the child is not represented by counsel, the court

2 counsel for the child, or the court shall appoint counsel for
3 the child, and that counsel shall be compensated pursuant to
4 section 232.141, subsection 2, paragraph "b".
5 Sec. 7. Section 232.126, Code 2024, is amended by adding the
6 following new subsections:
7 NEW SUBSECTION. 3. The court shall determine, after giving
8 the parent, guardian, or custodian an opportunity to be heard,
9 whether the person has the ability to pay in whole or in part
10 for counsel appointed for the child. If the court determines
11 that the person possesses sufficient financial ability, the
12 court shall then consult with the department, the juvenile
13 probation office, or other authorized agency or individual
14 regarding the likelihood of impairment of the relationship
15 between the child and the child's parent, guardian, or
16 custodian as a result of ordering the parent, guardian, or
17 custodian to pay for the child's counsel. If impairment is
18 deemed unlikely, the court shall order that person to pay an
19 amount the court finds appropriate in the manner and to whom
20 the court directs. If the person fails to comply with the
21 order without good reason, the court shall enter judgment
22 against the person. If impairment is deemed likely or if the
23 court determines that the parent, guardian, or custodian cannot
24 pay any part of the expenses of counsel appointed to represent
25 the child, counsel shall be reimbursed pursuant to section
26 232.141, subsection 2, paragraph "b".
27 NEW SUBSECTION. 4. If a child attains ten years of age
28 while represented by a guardian ad litem pursuant to this
29 section, the court shall enter an order discharging the
30 guardian ad litem and appoint counsel for the child pursuant to
31 the provisions of this section. A court may appoint a guardian
32 ad litem discharged pursuant to this subsection as counsel
33 for the child if the person can properly represent the legal
34 interests of the child.
35 NEW SUBSECTION. 5. The right to representation pursuant

1 to this section shall continue until a child is no longer
2 receiving foster care.
3 EXPLANATION
4 The inclusion of this explanation does not constitute agreement with
5 the explanation's substance by the members of the general assembly.
6 This bill relates to legal representation for children who
7 are placed in, or may be placed in, foster care.
8 The bill requires a court to appoint counsel for a child 10
9 years of age or older when the child is identified in a child
10 in need of assistance (CINA) petition as a party to the CINA
11 proceedings.
12 The bill requires a court to appoint a guardian ad litem for
13 a child below 10 years of age when the child is identified in a
14 CINA petition as a party to the CINA proceedings.
15 If a child identified in a CINA petition already has counsel
16 in a juvenile delinquency matter or parental termination
17 proceeding, or a guardian ad litem has previously been
18 appointed for the child in a juvenile delinquency proceeding
19 or a matter involving a public offense in which the court has
20 waived jurisdiction, the bill requires the court to appoint the
21 same counsel or guardian ad litem upon the filing of the CINA
22 petition.
23 The bill requires a court to appoint alternate counsel to
24 represent a child if the child is represented by counsel and
25 the court determines there is a conflict of interest between
26 the child and the child's parent, guardian, putative father,
27 or custodian and that the retained counsel cannot properly
28 represent the child as a result of the conflict.
29 When appointing counsel for a child in a CINA proceeding,
30 the bill requires a court to either order the parent, guardian,
31 or custodian to retain counsel for the child, or counsel be
32 appointed for the child.
33 The bill requires a court to discharge the guardian ad litem
34 for a child in a CINA proceeding and appoint counsel for the
35 child upon the child attaining 10 years of age. A discharged

1 guardian ad litem may be appointed counsel for a child if the
2 person can properly represent the legal interests of the child.
3 The bill contains similar provisions relating to the
4 appointment of counsel or a guardian ad litem for a child in
5 termination of parental rights proceedings and in family in
6 need of assistance proceedings.
7 The bill requires a court in a termination of parental
8 rights proceeding or a family in need of assistance proceeding
9 to determine whether a child's parent, guardian, or custodian
10 is able to compensate an attorney appointed for the child.
11 If the court determines a parent, guardian, or custodian is
12 able to compensate the appointed attorney, the bill requires
13 the court to order the parent, guardian, or custodian to
14 compensate the attorney. If the court determines a parent,
15 guardian, or custodian cannot compensate the appointed attorney
16 without impairment, then the bill requires the county to make
17 reasonable compensation for the appointed attorney.

2 the following new subsections:
3 NEW SUBSECTION. 5A. *"Forty-eight-hour period"* means a
4 period of forty-eight consecutive hours beginning at 6:00 a.m.
5 the next business day from the day the notification center
6 receives a notice and excludes Saturdays, Sundays, and legal

18 excavating. The board, with input from all interested parties,
19 shall determine the operating procedures and technology needed
20 for a single statewide notification center and establish a
21 notification process.
22 Sec. 3. Section 480.3, Code 2024, is amended by adding the
23 following new subsection:
24 NEW SUBSECTION. 4. The center shall provide records to the

2 be valid for twenty calendar days ~~from the date~~ beginning on
3 the day the ~~notice was provided to the notification center~~
4 forty-eight-hour period concludes, unless an excavator, at the

6 to extend the commencement date of the planned excavation
7 beyond the forty-eight-hour period, in which case the
8 twenty-calendar-day period shall begin on the day the excavator
9 selected as the commencement date of the planned excavation.
10 If all locating and marking of underground facilities is
11 completed prior to the expiration of the forty-eight-hour
12 period, the excavator may proceed with excavation upon being
13 notified by the notification center that the locating and
14 marking of all underground facilities is complete. The
15 notification center shall establish a toll-free telephone
16 number to allow excavators to provide the notice required
17 pursuant to this subsection.
18 Sec. 5. Section 480.4, subsection 3, paragraph a,
19 subparagraphs (1) and (3), Code 2024, are amended to read as
20 follows:
21 (1) An operator who receives notice from the notification
22 center shall mark the horizontal location of the operator's
23 underground facility and the excavator shall use due care in
24 excavating in the marked area to avoid damaging the underground
25 facility. The operator shall complete such locating and
26 marking, and shall notify the notification center that the
27 marking is complete within ~~forty-eight hours after receiving~~
28 ~~the notice, excluding Saturdays, Sundays, and legal holidays,~~
29 the forty-eight-hour period unless otherwise agreed by the
30 operator and the excavator. No later than the expiration of
31 the forty-eight-hour period, ~~excluding Saturdays, Sundays,~~

marking of the underground facilities shall be completed at no cost to the excavator. If, in the opinion of the operator, the planned excavation requires that the precise location of the underground facilities be determined, the excavator, unless otherwise agreed upon between the excavator and the operator, shall hand dig test holes to determine the location of the facilities unless the operator specifies an alternate method.

(3) ~~Unless otherwise agreed by the operator and excavator in writing, no excavation shall be performed within twenty-five feet of an underground natural gas transmission line as defined in 49 C.F.R. §192.3~~ An excavation shall not be performed within twenty-five feet of an underground natural gas line operating at one hundred fifty pounds per square inch or greater and that is equal to or greater than two inches in diameter without a written agreement between the operator and the excavator unless a representative of the operator of the underground natural gas transmission line is present at the planned excavation area. This requirement shall not apply, however, when a representative of the operator fails to be present at the proposed excavation area at the time work is scheduled to commence or as otherwise agreed by the operator and excavator in writing. In this event, the excavator shall notify the operator that the representative failed to appear, and excavation operations can begin, provided the excavator uses due care to avoid damaging the underground facilities.

Sec. 6. Section 480.4, subsection 3, paragraph b, Code 2024, is amended to read as follows:

b. An operator who receives notice from the notification center and who determines that the operator does not have any underground facility located within the proposed area of excavation shall notify the notification center concerning this determination within ~~forty-eight hours after receiving the notice, excluding Saturdays, Sundays, and legal holidays~~ the forty-eight-hour period. 1 ~~and legal holidays,~~ the notification center shall notify the
2 excavator that the operator does not have any underground
3 facilities within the proposed area of excavation.
4 Sec. 7. Section 480.6, subsection 1, Code 2024, is amended
5 by adding the following new paragraph:
6 NEW PARAGRAPH. *c.* If a locator violates a time limit set
7 forth in this chapter or any rule established by the utilities
8 board and a complaint relating to the violation is filed with
9 the utilities board, the locator is subject to a civil penalty
10 in an amount determined by the utilities board. A locator
11 may receive a warning letter from the office of the attorney
12 general in lieu of a penalty for the violation. A civil
13 penalty imposed by the utilities board under this paragraph
14 shall not exceed one hundred dollars for each violation for
15 each day the violation continues, up to a maximum of five
16 thousand dollars.
17 Sec. 8. Section 480.6, subsection 2, Code 2024, is amended
18 to read as follows:
19 2. *a.* The attorney general, upon the receipt of a
20 complaint, may institute any legal proceedings necessary to
21 enforce the penalty provisions of this chapter.
22 *b.* At the direction of the attorney general, the utilities
23 board shall investigate a violation of this chapter. Upon
24 completion of the investigation, the utilities board
25 shall submit to the attorney general a written summary of
26 the investigation and all evidence acquired during the
27 investigation, except as set forth in subsection 2, paragraph
28 *"c"*.
29 *c.* The utilities board may independently receive,
30 investigate, and enforce complaints alleging a violation of
31 this chapter by a locator.
32 Sec. 9. NEW SECTION. **480.11 Locator enforcement authority.**
33 1. A locator who operates in this state and engages in
34 location services under a contract with an operator shall
35 satisfy all of the following requirements:

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-007075

H.F. 2581

1 *a.* Take responsibility for completing location services as
2 required under section 480.4.
3 *b.* Correctly notify the notification center that a location
4 service could not be completed due to a lack of response by the
5 excavator and include in the notice the date, time, and method
6 of the attempted contact with the excavator, and the name and
7 contact information of any representative of the excavator.
8 2. A locator operating in this state is subject to
9 enforcement requirements as established in chapter 476. Any
10 enforcement action taken for a violation of this chapter by a
11 locator shall be taken solely against the locator and not the
12 operator.
13 EXPLANATION

14 **The inclusion of this explanation does not constitute agreement with**
15 **the explanation's substance by the members of the general assembly.**

16 This bill relates to required timing for notices regarding
17 underground facility excavations.
18 The bill requires the statewide notification center (center)
19 for underground facilities to include two members engaged in
20 the business of land excavating on the board of directors.
21 The center is required to provide the Iowa utilities board
22 with requested records when the Iowa utilities board is
23 investigating on behalf of the attorney general's office.
24 The bill modifies the requirement for an excavator or an
25 operator to provide notice to the notification center prior
26 to a planned excavation, after locating and marking the area
27 for excavation, or when no underground facility is located in
28 the proposed area. The bill defines a "locator" as a person
29 who engages in locating and marking underground facilities
30 under contract with but not employed by an operator. A
31 notice for a planned excavation initiates a 48-hour period and
32 other required notices must occur within the 48-hour period.
33 A "forty-eight-hour period" is defined in the bill as 48
34 consecutive hours beginning at 6:00 a.m. the next business day
35 after the notification center receives a notice and excludes

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-007076

H.F. 2581

1 Saturdays, Sundays, and legal holidays. The bill strikes
2 language relating to the treatment of notices received by the
3 notification center after 5:00 p.m. being processed as if
4 received at 8:00 a.m. the following day.
5 The bill provides that notice shall be valid for 20 calendar
6 days after the conclusion of the 48-hour period or on the
7 excavation date selected by the excavator. Current law
8 provides that notice is valid for 20 calendar days from the
9 date the notice was provided to the notification center.
10 Current law provides that an excavation shall not be
11 performed within 25 feet of an underground natural gas
12 transmission line, as federally defined, without an agreement
13 in writing by the operator and excavator. The bill refines the
14 prohibition by limiting excavation performed within 25 feet
15 of an underground natural gas line operating at 150 pounds
16 per square inch or greater and that is two inches in diameter
17 without a written agreement.
18 The bill provides penalties for locator violations including
19 a warning letter or a civil penalty not to exceed $100 for
20 each violation up to $5,000. The Iowa utilities board shall
21 investigate violations of Code chapter 480 at the direction
22 of the attorney general. The Iowa utilities board may
23 independently investigate complaints alleging violations
24 by a locator. The bill provides requirements for a locator
25 contracted for location services.

13 enactment of this section.
14 Sec. 31. EFFECTIVE DATE. This Act, being deemed of

16 EXPLANATION

17 The inclusion of this explanation does not constitute agreement with
18 the explanation's substance by the members of the general assembly.

19 GENERAL. This bill amends provisions in the uniform limited
20 liability company Act (Code chapter 489) originally enacted
21 in 2008 and rewritten during the 2023 legislative session
22 (2023 Iowa Acts, chapter 152). The 2023 Iowa Act was based on
23 a proposed Act (model legislation) approved and recommended
24 by the national conference on commissioners on uniform state
25 laws, also named the uniform law commissioners (ULC), which
26 includes commissioners appointed by the Governor (Code chapter
27 5). A limited liability company (LLC), or simply "company",
28 is a type of unincorporated business entity formed for the
29 acquisition of capital (contributions) from, and the payout of
30 receipts (distributions) to, its investors (members). Although
31 an LLC is sometimes compared to other types of unincorporated
32 entities, and specifically a limited partnership (Code chapter
33 488) or general partnership (Code chapter 486A), it also
34 resembles a corporation (Code chapter 490).
35 BILL — TERMINOLOGY CHANGES, SECTION TRANSFER, AND INTERNAL

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-007085

H.F. 2582

1 REFERENCE CORRECTIONS. The bill makes changes in terminology
2 to be consistent with the model legislation, including
3 references from "articles of merger" to "statement of merger",
4 and from "office of the registered agent" to "address of the
5 registered agent". The bill corrects a number of internal
6 references due to the transfer or rewriting of the Code
7 sections. The bill transfers a Code section providing for
8 biennial reports to correspond to the model legislation (from
9 Code section 489.211A to 489.212) and makes new corresponding
10 changes to internal references. Many of the internal
11 reference corrections are in Code chapter 489, subchapter XIV,
12 the uniform protected series Act, which is separate model
13 legislation approved and recommended by the ULC and enacted in
14 2019 and unamended by the model legislation or the 2023 Iowa
15 Act.
16 BILL — CORRESPONDING CHANGE — DERIVATIVE ACTIONS. The
17 bill includes a corresponding change in Code chapter 489,
18 subchapter VIII, providing for derivative actions by members.
19 The 2023 Iowa Act departed from the model legislation by
20 removing an option that allowed a member to maintain a
21 derivative action (Code section 489.802). A derivative action
22 is a type of cause of action brought by one or more members of
23 an LLC acting on behalf of the LLC to enforce a right held by
24 the LLC. Under the model legislation, a member may maintain a
25 derivative action only after the member first makes a demand on
26 the LLC to enforce the right. The model legislation allowed
27 the member to skip this demand requirement if it would be
28 futile. The 2023 Iowa Act eliminated this exception. However,
29 it retained a corresponding provision in the model legislation
30 (Code section 489.804) requiring the member in its pleading to
31 state how the member satisfied the notice requirements in Code
32 section 489.802. The bill eliminates the corresponding futile
33 exception in the pleading requirement.
34 BILL — FEES. The model legislation does not include a fee
35 schedule for filing documents with the secretary of state, but

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-007086

H.F. 2582

1 such a schedule has been part of Code chapter 489 since it
2 was enacted and the schedule resembles those in Code chapters
3 providing for other types of business entities (see Code
4 section 490.122 for corporations). The bill adds a fee of
5 $50 for filing a statement of domestication or statement of
6 conversion.
7 EFFECTIVE DATE. The bill takes effect upon enactment.

10 The section of this Act amending section 249A.3, subsection
11 1, paragraphs "h" and "l".
12 EXPLANATION

13 The inclusion of this explanation does not constitute agreement with
14 the explanation's substance by the members of the general assembly.

15 This bill amends provisions relating to income eligibility
16 levels for pregnant women and infants under the Medicaid
17 program and provides for the extension of postpartum coverage
18 from 60 days to 12 months.
19 Code section 249A.3(1)(h) provides Medicaid eligibility for
20 a woman who while pregnant meets federally required eligibility
21 requirements and continues to meet those requirements, except
22 for income, to receive assistance until 60 days after the
23 pregnancy ends. Provisions of the federal American Rescue Plan
24 Act of 2021 (H.R. 1319) provide the option to states to submit
25 a state plan amendment, effective for a five-year period,
26 to provide postpartum Medicaid coverage for 12 months after
27 pregnancy ends. A provision under the federal Consolidated
28 Appropriations Act of 2023 removed the five-year limitation
29 period for the state plan amendment. The bill amends Code
30 section 249A.3(1)(h) to extend postpartum coverage from 60 days
31 to 12 months after pregnancy ends.
32 Code section 249A.3(1)(l)(1) provides a separate basis for
33 Medicaid eligibility for an infant whose income is not more
34 than 200 percent of the federal poverty level (FPL). The bill
35 amends this provision to provide eligibility for an infant

AMERICAN OVERSIGHT

H.F. 2583

1 whose family income is not more than 215 percent of the FPL.
2 Under Code section 249A.3(1)(1)(2), a pregnant woman or
3 infant whose family income is at or below 300 percent of the
4 FPL, if otherwise eligible, is eligible for Medicaid. The bill
5 amends this provision to provide eligibility for a pregnant
6 woman whose family income while pregnant is at or below 215
7 percent of the FPL, if otherwise eligible.
8 The bill requires HHS to submit a Medicaid state plan
9 amendment to the centers for Medicare and Medicaid services
10 of the United States department of health and human services
11 (CMS) for approval in accordance with the provisions in federal
12 law to provide 12 months of continuous postpartum eligibility
13 under the Medicaid program to a pregnant woman whose family
14 income while pregnant is at or below 215 percent of the federal
15 poverty level for the household size, beginning January 1,
16 2025. The bill also requires HHS to submit a children's
17 health insurance program state plan amendment to CMS to update
18 infant eligibility consistent with the provisions of the bill,
19 beginning January 1, 2025.
20 The section of the bill directing HHS to submit state plan
21 amendments to the federal government for approval takes effect
22 upon enactment; and the section of the bill amending Code
23 provisions relating to Medicaid eligibility for pregnant women
24 and infants takes effect January 1, 2025.

14 preceding twenty-seven months, in which case the pharmacist

17 *c.* Dispensing a self-administered hormonal contraceptive to
18 a patient if the results of the self-screening risk assessment

1 8. This section shall not be construed to require a
2 third-party payor under a policy, contract, or plan to
3 provide payment to a practitioner for the dispensing of
4 a self-administered hormonal contraceptive to replace a
5 self-administered hormonal contraceptive that has been
6 dispensed to a covered person and that has been misplaced,
7 stolen, or destroyed. This section shall not be construed to
8 require a third-party payor under a policy, contract, or plan
9 to replace covered prescriptions that are misplaced, stolen,
10 or destroyed.
11 9. For the purposes of this section, *"self-administered*
12 *hormonal contraceptive"* and *"standing order"* mean the same as
13 defined in section 155A.49.
14 Sec. 3. INFORMATION PROGRAM FOR DRUG PRESCRIBING AND
15 DISPENSING —— SELF-ADMINISTERED HORMONAL CONTRACEPTIVES. The
16 board of pharmacy in collaboration with the board of medicine
17 and the department of health and human services shall expand
18 the information program for drug prescribing and dispensing
19 established pursuant to section 124.551, to collect from
20 pharmacists information relating to the dispensing of
21 self-administered hormonal contraceptives as provided pursuant
22 to section 155A.49. The board of pharmacy shall adopt
23 rules pursuant to chapter 17A related to registration of
24 participating pharmacists, the information to be reported by a

27 purposes and to enforce the provisions of this section.
28 Sec. 4. APPLICATION TO MEDICAID PROGRAM. This Act shall
29 apply to the Medicaid program including a managed care
30 organization acting pursuant to a contract with the department
31 of health and human services to administer the Medicaid program
32 under chapter 249A. However, if it is determined that any
33 provision of this Act would cause denial of federal funds under
34 Tit. XVIII or XIX of the federal Social Security Act, or would
35 otherwise be inconsistent or conflict with the requirements of

1 federal law or regulation, such provision shall be suspended,
2 but only to the extent necessary to prevent denial of such
3 funds or to eliminate the inconsistency or conflict with the
4 requirements of federal law or regulation.
5 EXPLANATION

6 The inclusion of this explanation does not constitute agreement with
7 the explanation's substance by the members of the general assembly.

8 This bill relates to the dispensing of self-administered
9 hormonal contraceptives by a pharmacist. The bill
10 defines "self-administered hormonal contraceptive" as a
11 self-administered hormonal contraceptive that is approved by
12 the United States food and drug administration to prevent
13 pregnancy, including an oral hormonal contraceptive, a hormonal
14 vaginal ring, and a hormonal contraceptive patch, but not
15 including any drug intended to induce an abortion.
16 The bill provides that notwithstanding any provision of law
17 to the contrary, a pharmacist may dispense a self-administered
18 hormonal contraceptive to a patient who is at least 18
19 years of age pursuant to a standing order established by the
20 medical director (medical director) of the department of
21 health and human services (HHS). For an initial dispensing,
22 a pharmacist may dispense only up to a three-month supply at
23 one time of the self-administered hormonal contraceptive, and
24 for any subsequent dispensing of the same self-administered
25 hormonal contraceptive, a 12-month supply at one time.
26 Additionally, the bill prohibits a pharmacist who dispenses
27 a self-administered hormonal contraceptive in accordance
28 with the bill from requiring any other prescription drug
29 order authorized by a practitioner prior to dispensing the
30 self-administered hormonal contraceptive.
31 The bill authorizes the medical director to establish a
32 standing order authorizing the dispensing of self-administered
33 hormonal contraceptives by any pharmacist who complies with the
34 standing order and retains and submits the patient's record to
35 HHS.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-007101

H.F. 2584

1 The standing order includes requiring a pharmacist who
2 dispenses a self-administered hormonal contraceptive under
3 the bill to: complete a standardized training program and
4 continuing education requirements related to prescribing the
5 hormonal contraceptives; obtain a completed self-screening risk
6 assessment from each patient, verify the identity and age of
7 each patient, and perform a blood pressure screening on each
8 patient before dispensing the hormonal contraceptives; provide
9 the patient with certain written information; provide the
10 patient with a copy of the record of the pharmacist's encounter
11 with the patient; and provide patient counseling.
12 The standing order would prohibit a pharmacist who dispenses
13 hormonal contraceptives under the bill from requiring a
14 patient to schedule an appointment with the pharmacist for
15 the prescribing or dispensing of the hormonal contraceptives;
16 dispensing the hormonal contraceptives to a patient for more
17 than 27 months after the date initially dispensed without the
18 patient's attestation that the patient has consulted with a
19 practitioner during the preceding 27 months; and dispensing
20 the hormonal contraceptives to a patient if the results of the
21 patient's self-screening risk assessment indicate it is unsafe
22 for the pharmacist to dispense the hormonal contraceptives
23 to the patient, in which case the pharmacist shall refer the
24 patient to a practitioner.
25 The bill provides immunity for a pharmacist who dispenses a
26 self-administered hormonal contraceptive and for the medical
27 director who establishes a standing order in compliance with
28 the bill from criminal and civil liability arising from any
29 damages caused by the dispensing, administering, or use of a
30 self-administered hormonal contraceptive or the establishment
31 of the standing order. Additionally, the medical director
32 shall be considered to be acting within the scope of the
33 medical director's office and employment for purposes of Code
34 chapter 669 (Iowa tort claims Act) in the establishment of a
35 standing order in compliance with the bill.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-007102

H.F. 2584

1 The bill requires HHS, in collaboration with the boards of
2 pharmacy and medicine, and in consideration of the guidelines
3 established by the American congress of obstetricians and
4 gynecologists, to adopt administrative rules to administer the
5 provisions of the bill.
6 The bill amends prescription contraceptive coverage
7 provisions in the Code to require that a group policy,
8 contract, or plan delivered, issued for delivery, continued,
9 or renewed in the state on or after January 1, 2025,
10 providing for third-party payment or prepayment of health or
11 medical expenses, shall specifically provide for payment of
12 self-administered hormonal contraceptives, prescribed and
13 dispensed as specified in the bill, including those dispensed
14 at one time. The bill provides, however, that the provisions
15 relating to coverage are not to be construed to require a
16 third-party payor under a policy, contract, or plan to provide
17 payment to a practitioner for dispensing a self-administered
18 hormonal contraceptive to replace a self-administered
19 hormonal contraceptive that has been dispensed to a covered
20 person and that has been misplaced, stolen, or destroyed.
21 These provisions are also not to be construed to require a
22 third-party payor under a policy, contract, or plan to replace
23 covered prescriptions that are misplaced, stolen, or destroyed.
24 The bill also requires the board of pharmacy in
25 collaboration with the board of medicine and HHS to expand
26 the information program for drug prescribing to collect
27 from pharmacists information relating to the dispensing of
28 self-administered hormonal contraceptives as provided in the
29 bill.
30 The bill applies to the Medicaid program as specified in the
31 bill.

31 in the state during the immediately preceding calendar year.
32 DIAL shall develop a protocol to identify regional citation
33 patterns relating to complaints, standards, and outcomes in
34 the nursing facility inspection process, and shall include the
35 state long-term care ombudsman or designee, and representatives

1 of each nursing facility provider association in the state in
2 the planning process for the joint training sessions.
3 Under Code section 135C.38(1), DIAL, upon receipt of
4 a complaint regarding a health care facility shall make a
5 preliminary review of the complaint and unless DIAL concludes
6 the complaint is intended to harass a facility or licensee or
7 is without a reasonable basis, shall make or cause to be made
8 an on-site inspection of the health care facility. The bill
9 adds additional exceptions to the required on-site inspection
10 including if DIAL concludes that the complaint involves
11 an issue that is either the same subject of an incident
12 self-reported by a health care facility or otherwise reported
13 within the previous 90 calendar days, or is a complaint
14 that may be investigated by DIAL off site through access to
15 electronic records and telephonic interviews.
16 The bill requires DIAL to establish and maintain a process
17 to review each citation issued for immediate jeopardy or

23 substandard quality of care should be issued. The review shall

25 inspection protocols and defined regulatory standards. The
26 bill defines "immediate jeopardy", "likely", and "substandard
27 quality of care".

1 the explanation's substance by the members of the general assembly.

2 This bill provides that a grand juror and a petit juror in
3 all courts shall receive $75 as compensation for each day's

10 The bill prohibits an employer from requiring an employee
11 to work within 10 hours of the time the employee is required
12 to report for juror service or attendance. An employer who

15 lost wages and an order for reinstatement. An employee who
16 prevails can recover lost wages not to exceed six weeks of pay
17 and reasonable attorney fees. These are the same remedies

1 Section 1. WORK WITHOUT WORRY PROGRAM —— MEDICAID FOR
2 EMPLOYED INDIVIDUALS WITH DISABILITIES.
3 1. The department of health and human services shall submit
4 any waiver request or state plan amendment, or combination

9 2. The program shall provide Medicaid coverage based on the
10 following criteria:
11 a. The individual has a qualifying disability as determined
12 by the social security administration or the individual is
13 determined by the department of health and human services

27 through evidence of pay stubs or a self-employment ledger.
28 The program shall allow for continuation of coverage for a
29 participating individual for six months following loss of

4 (2) The primary residence owned and occupied by the
5 individual if the assessed value of the residence exceeds four
6 hundred thousand dollars.
7 e. The individual's income is below four hundred fifty
8 percent of the federal poverty level. Income is based only on
9 the individual's net earned and unearned income as a household
10 of one as that income is adjusted by the following deductions
11 or disregards:
12 (1) A twenty dollar general disregard from unearned income
13 that is not from employment.
14 (2) A disregard of sixty-five dollars plus one-half of the
15 individual's earned income from employment.
16 (3) A deduction of impairment-related work expenses.
17 (4) A deduction of work expenses for the blind.
18 f. An individual shall have access to all traditional

26 care coverage including through an employer, through Medicare,
27 or through the medically needy program, the qualified Medicare
28 beneficiary program, or the specified low-income Medicare
29 beneficiary program. If the individual has such other coverage
30 and is subject to payment of copayments or premiums for that
31 coverage, notwithstanding the premium requirements under the
32 program to the contrary, the individual shall not be subject to
33 payment of premiums otherwise applicable under the program.
34 h. An individual with income at or above one hundred fifty
35 percent of the federal poverty level shall be subject to

payment of a premium not to exceed the limits established under federal guidelines.

i. The program shall also provide that any individual participating in the Medicaid for employed persons with disabilities program when the work without worry program is implemented shall be transferred to and enrolled in the work without worry program.

3. The department of health and human services shall implement a work without worry public awareness campaign to ensure that consumer information and educational resources are accessible to individuals with disabilities and the public. The department shall also provide technical assistance to individuals with disabilities in determining if the work without worry program is the best option for coverage under that individual's particular circumstances and in applying for and maintaining participation in the program.

Sec. 2. MEDICAID — REIMBURSEMENT FOR THE REPAIR OF COMPLEX REHABILITATION TECHNOLOGY. Under both Medicaid managed care and fee-for-service administration of the Medicaid program, the department of health and human services shall not require a prescription for reimbursement of a provider for the repair of complex rehabilitation equipment, if the complex rehabilitation technology was previously prescribed and reimbursed under the Medicaid program. 2 EXPLANATION

3 The inclusion of this explanation does not constitute agreement with
4 the explanation's substance by the members of the general assembly.

5 This bill relates to the taxation of mobile homes and
6 manufactured homes.
7 The bill modifies income threshold amounts applicable to the
8 reduced square footage tax rates applicable to mobile homes and
9 manufactured homes. These amounts are currently adjusted for
10 inflation. For the year beginning July 1, 2024, the annual tax
11 is not imposed on an owner with an annual income of less than
12 $13,048, and an owner with an annual income between $13,408 and
13 $25,328 pays the annual tax at one of five reduced rates. The
14 bill provides that the tax is not imposed on an owner with an
15 annual income of less than $40,000, does not provide a reduced
16 rate, and does not adjust the $40,000 threshold for inflation.
17 The bill applies to taxes due and payable for fiscal years
18 beginning on or after July 1, 2025.

Section 1. NEW SECTION. **135.194 Lyme disease — laboratory test — notice requirement and content — cause of action — licensee discipline.**

1. A health care provider who draws the blood of a patient to perform a laboratory test for the presence of Lyme disease or a medical laboratory that performs a laboratory test for the presence of Lyme disease shall provide the following written notice to the patient at the time the patient's blood is drawn:

Your health care provider has ordered a laboratory test for the presence of Lyme disease for you. Current laboratory testing for Lyme disease can be problematic and standard laboratory tests often result in false negative and false positive results and, if performed too early, you may not have produced enough antibodies to be considered positive because your immune response requires time to develop antibodies. If you are tested for the presence of Lyme disease and the results are negative, this does not necessarily mean you do not have Lyme disease. If you continue to experience unexplained symptoms, you should contact your health care provider and inquire about the appropriateness of retesting or initial or additional treatment.

2. At any time, if the department determines there are significant differences between the content of the notice required by subsection 1 and the most recent medical evidence on Lyme disease testing, the department may adopt rules pursuant to chapter 17A to amend the content of the notice to reflect the most recent medical evidence.

3. The provision by a health care provider or medical laboratory of the notice required by this section shall not be the sole basis for a cause of action or licensee discipline.

4. For the purposes of this section:

a. "Health care provider" means an individual licensed under chapter 148, 148C, 148D, 152, or 152E, or any individual who provides medical services under the authorization of the licensee.

b. "Medical laboratory" means any facility, entity, or site that offers or performs tests or examinations in connection with the diagnosis and control of human diseases or the assessment of human health, nutritional, or medical conditions.

Sec. 2. NEW SECTION. **135.195 Continuing education — treatment strategies for prolonged symptoms due to Lyme disease.**

Each licensing board for a health care provider as defined in section 135.194 shall develop continuing education requirements regarding treatment strategies to assist patients with prolonged symptoms due to Lyme disease in managing and recovering from these prolonged symptoms.

Sec. 3. Section 147.56, Code 2024, is amended to read as follows:

147.56 Lyme disease treatment — laboratory testing notice — exemption from licensee discipline.

1. A person licensed by a board under this subtitle shall not be subject to discipline under this chapter or the board's enabling statute based solely on the licensee's recommendation or provision of a treatment method for Lyme disease or other tick-borne disease if the recommendation or provision of such treatment meets all the following criteria:

~~1.~~ *a.* The treatment is provided after an examination is performed and informed consent is received from the patient.

~~2.~~ *b.* The licensee identifies a medical reason for recommending or providing the treatment.

~~3.~~ *c.* The treatment is provided after the licensee informs the patient about other recognized treatment options and describes to the patient the licensee's education, experience, and credentials regarding the treatment of Lyme disease or other tick-borne disease.

~~4.~~ *d.* The licensee uses the licensee's own medical judgment based on a thorough review of all available clinical information and Lyme disease or other tick-borne disease literature to determine the best course of treatment for the individual patient.

1 ~~5.~~ *e.* The treatment will not, in the opinion of the
2 licensee, result in the direct and proximate death of or
3 serious bodily injury to the patient.
4 2. A health care provider as defined in section 135.194
5 shall not be subject to licensee discipline under this chapter
6 or the board's enabling statute solely on the basis of the
7 provision of the notice required by section 135.194.
8 Sec. 4. CODE EDITOR DIRECTIVE. The Code editor is directed
9 to create a new subchapter XXXVII in chapter 135 as follows:
10 Subchapter XXXVII shall be entitled "LYME DISEASE TESTING —
11 NOTICE AND CONSENT REQUIREMENTS — CONTINUING EDUCATION" and
12 include sections 135.194 and 135.195.
13 EXPLANATION

14 **The inclusion of this explanation does not constitute agreement with**
15 **the explanation's substance by the members of the general assembly.**

16 This bill relates to notice and consent requirements for
17 testing and treatment of Lyme disease.
18 The bill provides that a health care provider who draws
19 the blood of a patient to perform a laboratory test for
20 the presence of Lyme disease or a medical laboratory that
21 performs a laboratory test for the presence of Lyme disease
22 shall provide the written notice prescribed in the bill to
23 the patient at the time the patient's blood is drawn. The
24 notice must include statements that: current laboratory
25 testing for the presence of Lyme disease can be problematic
26 and standard laboratory tests often result in false negative
27 and false positive results; that if testing is performed too
28 early, the patient may not have produced enough antibodies to
29 be considered positive because the patient's immune response
30 requires time to develop antibodies; that if the patient is
31 tested for the presence of Lyme disease and the results are
32 negative, this does not necessarily mean the patient does
33 not have Lyme disease; and that if the patient continues
34 to experience unexplained symptoms, the patient should
35 contact the patient's health care provider and inquire about

1 the appropriateness of retesting or initial or additional
2 treatment.
3 If at any time the department of health and human services
4 (HHS) finds there are significant differences between the
5 content of the required notice and the most recent medical
6 evidence on Lyme disease testing, HHS may adopt administrative
7 rules to amend the content of the notice to reflect the most
8 recent medical evidence. Additionally, the provision by a
9 health care provider or medical laboratory of the notice
10 required under the bill shall not be the sole basis for a cause
11 of action or licensee discipline.
12 "Health care provider" and "medical laboratory" are defined
13 in the bill.
14 The bill also requires professional licensing boards
15 for health care providers to develop continuing education
16 requirements regarding treatment strategies to assist patients
17 with prolonged symptoms due to Lyme disease in managing and
18 recovering from these prolonged symptoms.
19 The bill also amends a Code provision relating to Lyme
20 disease treatment and exemption from licensee discipline to
21 provide that a health care provider as defined under the bill
22 shall not be subject to licensee discipline under Code chapter
23 147 (general provisions, health-related professions) or the
24 health licensing board's enabling statute solely on the basis
25 of the provision of the notice required under the bill.

The department of transportation and the department of public safety shall not share or provide information used to impose or collect a civil penalty that results from a violation captured by an automated or remote system for traffic law enforcement through any existing interstate compact that does not specifically allow or require information to be shared or provided for that explicit purpose.

3. For purposes of this section, *"automated or remote system for traffic law enforcement"* means a camera or other optical device designed to work in conjunction with an official traffic

control signal or speed measuring device to identify motor vehicles operating in violation of traffic laws, the use of which results in the issuance of citations sent through the mail or by electronic means.

Sec. 18. REMOVAL OF AUTOMATED OR REMOTE SYSTEMS FOR TRAFFIC LAW ENFORCEMENT — VALIDITY OF PRIOR CITATIONS. Prior to July 1, 2025, a local authority using an automated or remote system for traffic law enforcement shall discontinue using the system and remove the system equipment. On and after July 1, 2025, all local ordinances authorizing the use of automated or remote systems for traffic law enforcement are void. However, any citation issued or mailed pursuant to such an ordinance prior to July 1, 2025, shall not be invalidated by the enactment of this division of this Act and shall be processed according to the provisions of law under which the citation was authorized.

Sec. 19. EFFECTIVE DATE. The section of this division of this Act enacting section 321.492C takes effect July 1, 2025.

EXPLANATION

The inclusion of this explanation does not constitute agreement with the explanation's substance by the members of the general assembly.

USE OF ELECTRONIC DEVICES WHILE DRIVING. Under current law, Code section 321.276 prohibits the use of hand-held electronic communication devices to write, send, or view electronic messages while driving a motor vehicle. This bill expands Code section 321.276 to prohibit any use of an electronic device while driving. The bill defines the terms "electronic device", "use", and "voice-activated or hands-free mode". The bill excludes certain actions while behind the wheel of a motor vehicle from being considered "driving" for purposes of the bill, such as being stopped at a stop light.

The bill authorizes persons to use an electronic device in a voice-activated or hands-free mode, with the speaker phone function engaged, while holding the phone in close proximity to the person's ear, or for navigation purposes. The bill excludes certain persons from the prohibition, including a

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-007155

H.F. 2595

1 person reporting an emergency situation, a utility maintenance
2 employee or contractor responding to an emergency, power
3 outage, or circumstance that affects the health or safety of
4 individuals, a person operating a commercial motor vehicle
5 while using a mobile data terminal that transmits and receives
6 data, and a person storing an electronic device in a holster,
7 harness, or article of clothing on the person's body.
8 The bill makes a violation of Code section 321.276 a moving
9 violation. Under current law, a moving violation can be
10 considered for purposes of administrative suspension of a
11 driver's license (Code section 321.210; 761 IAC 615.12) or to
12 establish habitual offender status (Code section 321.555).
13 However, a peace officer is required to issue a warning
14 memorandum in lieu of a citation for violations that occur
15 during the period between the effective date of the bill and
16 January 1, 2025.
17 The bill increases the scheduled fine for a violation of Code
18 section 321.276 from $45 to $150, and further increases the
19 penalty for a second ($250) and a third or subsequent ($500)
20 violation within two years. In addition, the department of
21 transportation (DOT) may suspend a person's driver's license
22 for up to 90 days. However, the bill allows a person to attend
23 and successfully complete, at the person's own expense, a
24 driver improvement program approved by the DOT in lieu of the
25 penalties. To be eligible, the person must notify the clerk of
26 court prior to the date of the person's court appearance that
27 the person intends to attend and successfully complete a driver
28 improvement program, and must submit to the clerk of court
29 written verification that the person completed the program,
30 signed by the instructor of the program, within 90 days of the
31 violation. If a person notifies the clerk of court of the
32 person's intent to complete the program but fails to submit the
33 required verification of completion within 90 days, the person
34 is subject to the penalties.
35 Under Code section 321.482A, if a person is convicted for a

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-007156

H.F. 2595

1 violation and the violation causes a serious injury, a court
2 could impose an additional fine of $500 or suspend the person's
3 driver's license for not more than 90 days, or both. If a
4 person is convicted for a violation and the violation causes
5 a death, a court could impose an additional fine of $1,000 or
6 suspend the person's driver's license for not more than 180
7 days, or both. By operation of law, a person issued a warning
8 memorandum under the bill is not subject to the enhanced
9 penalties under Code section 321.482A.
10 The bill makes corresponding changes to Code sections
11 321.238 (preemption of local legislation) and 707.6A (homicide
12 or serious injury by vehicle) to align those provisions to the
13 provisions of Code section 321.276 as amended by the bill.
14 The bill also makes corresponding changes to Code sections
15 321.178, 321.180B, and 321.194, by striking provisions relating
16 to the use of electronic communication devices while driving
17 by persons under the age of 18 who are issued certain types
18 of driver's licenses, thereby making Code section 321.276 as
19 amended by the bill applicable to such persons.
20 AUTOMATED TRAFFIC ENFORCEMENT PROHIBITED. On and after July
21 1, 2025, the bill prohibits the state or a local authority from
22 placing or causing to be placed on or adjacent to a highway, or
23 maintaining or employing the use of, any automated or remote
24 system for traffic law enforcement (ATE system). The bill also
25 prohibits the department of transportation and the department
26 of public safety from providing information used to impose or
27 collect a civil penalty that results from a violation captured
28 by an ATE system through an existing interstate compact
29 agreement unless the agreement specifically allows or requires
30 that information to be shared or provided for that specific
31 purpose.
32 The bill defines "automated or remote system for traffic law
33 enforcement" to mean a camera or other optical device designed
34 to work in conjunction with an official traffic control signal
35 or speed measuring device to identify motor vehicles operating

1 in violation of traffic laws, the use of which results in the
2 issuance of citations sent through the mail or by electronic
3 means.
4 The bill requires that prior to July 1, 2025, a local
5 authority using an ATE system must discontinue using the system
6 and remove the system equipment. On and after July 1, 2025,
7 all local ordinances authorizing the use of ATE systems are
8 void. However, the bill provides that any citation issued or
9 mailed pursuant to such an ordinance prior to July 1, 2025, is
10 not invalidated by the bill and must be processed according to
11 the provisions of law under which the citation was authorized.

6 The bill requires a company to certify that it is not

5 EXPLANATION
6 The inclusion of this explanation does not constitute agreement with
7 the explanation's substance by the members of the general assembly.
8 This bill creates a grocer reinvestment program (grocer
9 program), a local produce processing grant program (processing
10 program), a grocer reinvestment and local food processing fund
11 (fund), and makes appropriations.
12 DIVISION I. The bill defines "grocery store" to mean an
13 establishment also known as a supermarket that primarily
14 engages in retailing a general line of food including canned
15 and frozen food; fresh fruits and vegetables; and fresh and
16 prepared meat, fish, and poultry.
17 The bill defines "financial assistance" to mean assistance
18 provided in the form of a grant.
19 Under the bill, the economic development authority
20 (authority) shall administer the grocer program for the purpose
21 of awarding financial assistance to eligible grocery stores for
22 projects located in this state including capital improvements,
23 utility upgrades, equipment and furnishings, professional
24 services, and technology.
25 The bill allows the authority to establish the eligibility
26 criteria for the grocer program by rule. The eligibility
27 criteria must include compliance with any documents required
28 to be filed with the secretary of state; an organizational
29 structure that is either a sole proprietorship, partnership,
30 limited liability company, corporation, cooperative, nonprofit
31 organization, or nonprofit community development entity;
32 ownership of five or fewer grocery stores; and the capacity to
33 successfully complete the project and demonstrate a plan for
34 sustainability.
35 In order to be awarded financial assistance pursuant to

AMERICAN OVERSIGHT

H.F. 2599

1 the bill, a grocery store must provide matching funds for the
2 project that equal the amount of the financial assistance
3 award. The bill specifies a financial assistance award shall
4 not exceed $200,000.
5 Under the bill, priority shall be given to projects located
6 in an underserved community that primarily serves residents of
7 low or moderate income communities; accepts benefits under the
8 United States department of agriculture supplemental nutrition
9 assistance program, and special supplemental nutrition program
10 for women, infants, and children; creates or retains jobs;
11 makes efforts to procure and offer local foods for sale; and
12 any other criteria determined by the authority.
13 The authority is required to submit a report to the
14 general assembly describing the activities of the grocer
15 program by November 1, 2025, and each November 1 thereafter,
16 if applicable. The report shall include the geographic
17 distribution of the projects, the identity of the applicants,
18 and new investments or new jobs created.
19 The bill also establishes the processing program. Under the
20 bill, the authority shall administer the processing program
21 for the purpose of awarding grants to Iowa-based entities to
22 increase the availability of local produce processing. The
23 bill defines both "local produce" and "local produce and
24 processing". The bill requires the authority to prioritize
25 grants to entities that increase the availability, access,
26 efficiency, or capacity of local produce processing. The bill
27 prohibits grants to an entity unless the entity processes local
28 produce from multiple Iowa-based farms.
29 The bill establishes the fund under the control of the
30 authority for the purpose of awarding financial assistance to
31 eligible grocery stores under the grocer program and awarding
32 grants to entities that increase local produce processing
33 under the processing program. Commencing with the fiscal
34 year beginning July 1, 2024, and each fiscal year thereafter,

REGULATION OF ALCOHOLIC BEVERAGES

Sec. 17. Section 123.49, subsection 2, Code 2024, is amended by adding the following new paragraph:

NEW PARAGRAPH. *1.* Sell, give, or otherwise supply any alcoholic beverage containing tetrahydrocannabinol as described in chapter 124, including any isomers, derivatives, or analogs of tetrahydrocannabinol, whether naturally occurring or synthesized, to any person on the licensed premises.

Sec. 18. NEW SECTION. **123.49A Restriction on alcoholic beverages containing tetrahydrocannabinol.**

A holder of a license, permit, or certificate of compliance issued by the department under this chapter shall not manufacture, import, or sell at wholesale in this state an alcoholic beverage containing tetrahydrocannabinol as described in chapter 124, including any isomers, derivatives, or analogs of tetrahydrocannabinol, whether naturally occurring or synthesized.

EXPLANATION

The inclusion of this explanation does not constitute agreement with the explanation's substance by the members of the general assembly.

BACKGROUND. This bill amends Code chapter 204, the "Iowa Hemp Act" (IHA) (Code section 204.1), authorizing the production of a certain type of cannabis (sativa L.) and the sale of products processed from hemp (Code section 204.7). Hemp is defined as composed of a species of cannabis (sativa L.) having a maximum concentration of delta-9 tetrahydrocannabinol (THC) that does not exceed three-tenths of 1 percent on a dry weight basis (Code section 204.2).

The IHA removed hemp from the list of schedule I controlled substances and the excise tax imposed on the sale of controlled substances (see Code chapters 124 and 453B). The applicable criminal penalty for an offense under those Code chapters ranges from imprisonment for not more than six months or a fine of not more than $1,000 to 50 years imprisonment and a fine of not more than $1 million (see Code sections 124.401 and

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-007198

H.F. 2605

1 453B.12).
2 In order for cannabis to be classified as hemp and not
3 a controlled substance, a person must comply with IHA
4 requirements. The IHA in turn must satisfy certification
5 requirements adopted by the United States department of
6 agriculture (USDA) under the federal Agriculture Improvement
7 Act of 2018 (federal hemp law) (Pub. L. No. 115-334), which
8 allows states and tribes to assume primary regulatory
9 authority over its production, including harvest, storage,
10 and distribution. The IHA and the USDA has designated Iowa's
11 department of agriculture and land stewardship (DALS) as
12 primarily responsible for regulating hemp production in
13 cooperation with the department of public safety (DPS).
14 The IHA defines a hemp product as derived from or made by
15 processing hemp or parts of hemp. Generally, the IHA allows a
16 person to engage in the retail sale of a hemp product so long
17 as the hemp was produced in this state or another state in
18 compliance with the federal hemp law (Code section 204.7). By
19 its own terms, the federal hemp law is not construed to affect
20 or modify certain federal law, including the federal Food,
21 Drug, and Cosmetic Act (21 U.S.C. §301 et seq.). Generally,
22 the United States food and drug administration (FDA) regulates
23 human foods and additives, dietary supplements, drugs, and
24 cosmetics (see 7 U.S.C. §1639r), but the FDA has not adopted
25 a comprehensive regulatory framework. In the meantime,
26 the IHA recognizes a consumable hemp product (CHP) that is
27 metabolized when introduced into the human body, including by
28 ingestion or absorption but excluding inhalation (Code sections
29 204.2 and 204.14A). A person is prohibited from possessing,
30 using, manufacturing, marketing, transporting, delivering, or
31 distributing harvested hemp or a hemp product if the intended
32 use is introduction into the body by an article that utilizes
33 an electronic, chemical, or mechanical process, or a device
34 such as a cigarette, cigar, cigarillo, or pipe.
35 The IHA requires a person manufacturing or selling a CHP to

1 register with the department of health and human services (HHS)
2 (Code section 204.7 and 641 IAC ch. 156). HHS's regulations
3 include packaging and labeling requirements.
4 A person violating the IHA is subject to a civil penalty
5 of not less than $500 and not more than $2,000 (Code section
6 204.12). DALS may impose, assess, and collect the civil
7 penalty (Code section 204.12). DALS in cooperation with
8 DPS or a local law enforcement agency (county sheriff or
9 municipal police department) may also confiscate and destroy
10 illegally produced hemp. DALS or the attorney general may seek
11 injunctive relief in order to restrain a person violating the
12 Code chapter by petitioning the district court (Code section
13 204.13). The injunction could address either hemp or a hemp
14 product.
15 BILL'S PROVISIONS — CONSUMABLE HEMP PRODUCTS (THC POTENCY).
16 The bill authorizes HHS to adopt rules regulating the sale of
17 consumable hemp products. The bill also authorizes HHS to
18 adopt rules setting forth the THC potency of consumable hemp
19 products on a per serving and per container basis (amended Code
20 section 204.7).
21 BILL'S PROVISIONS — CONSUMABLE HEMP PRODUCTS (USE IN
22 INHALATION — CRIMINAL PENALTY). The bill prohibits a
23 person from possessing, using, manufacturing, marketing,
24 transporting, delivering, or distributing a CHP if it is
25 capable of inhalation by using an article or device (Code
26 section 204.14A). A person in violation of the provision is
27 guilty of a serious misdemeanor. A serious misdemeanor is
28 punishable by confinement for no more than one year and a fine
29 of at least $430 but not more than $2,560.
30 BILL'S PROVISIONS — CONSUMABLE HEMP PRODUCTS (CRIMINAL AND
31 CIVIL PENALTY FOR FAILURE TO REGISTER). The bill provides
32 that a person engaged in the retail sale of a CHP who is not
33 registered with HHS commits both a serious misdemeanor and
34 is subject to a civil penalty assessed as an administrative
35 remedy (new Code sections 204.14B and 204.14C). The civil

1 penalty cannot exceed $10,000, with each day of a violation
2 constituting a separate offense.
3 BILL´S PROVISIONS — CONSUMABLE HEMP PRODUCTS (SALE TO
4 MINORS — CRIMINAL PENALTY AND SCHEDULED VIOLATION). The bill
5 provides that a person who sells or otherwise distributes
6 a CHP to a person under the age of 21 is guilty of a simple
7 misdemeanor (new Code section 204.14D). A simple misdemeanor
8 is punishable by confinement for no more than 30 days and a
9 fine of at least $105 but not more than $855. The bill also
10 provides that a person under the age of 21 is prohibited from
11 possessing or purchasing a CHP (new Code section 204.14E). The
12 penalty is a scheduled violation. The first offense is subject
13 to a scheduled fine of $75, the second offense is subject to
14 a scheduled fine of $135, and the third and each subsequent
15 offense is subject to a scheduled fine of $325. Each fine is
16 a civil penalty (amended Code section 805.8C). In addition,
17 the person subject to the violation may also be sentenced to
18 perform a number of hours of community service; ranging from
19 8 to 16 hours depending upon the number of previous offenses
20 committed. The bill provides an exception for an offense
21 committed by a person under the age of 21 acting in cooperation
22 with the DPS or a local law enforcement agency (new Code
23 section 204.14F).
24 BILL´S PROVISIONS — CONSUMABLE HEMP PRODUCTS (CONFISCATION
25 AND DISPOSAL). The bill authorizes HHS to order the
26 confiscation and disposal of a hemp product under three
27 circumstances: it is falsely advertised, sold, or distributed
28 as a consumable hemp product; it exceeds the maximum THC limit;
29 or it is a consumable hemp product manufactured, sold, or
30 distributed by a person who is not registered as required (Code
31 section 204.7). The person may be assessed costs associated
32 with the order (Code section 204.15A).
33 BILL´S PROVISIONS — CONSUMABLE HEMP PRODUCTS (REGULATION
34 OF ALCOHOLIC BEVERAGES). The bill regulates persons engaged
35 in the business of selling alcoholic beverages (wine, beer, or

AMERICAN OVERSIGHT

1 spirits) in this state, including under a license, permit, or
2 certificate issued by the department of revenue (Code chapter
3 123). The bill prohibits such a person from manufacturing,
4 selling, giving, importing, or otherwise supplying any
5 alcoholic beverage containing tetrahydrocannabinol. By
6 operation of law, a person violating these provisions is
7 subject to criminal penalties set forth under Code sections
8 123.90 and 123.91.

17 EXPLANATION
18 The inclusion of this explanation does not constitute agreement with
19 the explanation's substance by the members of the general assembly.
20 Under current law, Code section 321.288 requires a person
21 operating a motor vehicle to control the vehicle at all times
22 and reduce the speed of the vehicle to a reasonable and proper
23 rate when approaching a pedestrian walking or an animal being
24 led, ridden, or driven on a highway; when approaching and
25 traversing a crossing, intersection, sharp turn, curve, or
26 steep descent on a highway; when approaching and passing
27 an emergency warning device, emergency vehicle displaying
28 revolving or flashing lights, or slow-moving vehicle displaying
29 reflective devices; and when approaching and passing through a
30 work zone. The scheduled fine for a violation of Code section
31 321.288 is $135. Code section 321.482A sets forth additional
32 penalties applicable when a person is convicted of operating
33 a motor vehicle in violation of certain Code sections in Code
34 chapter 321 (motor vehicles and law of the road) if such
35 violation causes serious injury to or the death of another

3 ascribed to them:
4 EXPLANATION
5 The inclusion of this explanation does not constitute agreement with
6 the explanation's substance by the members of the general assembly.
7 Under current law, a person must generally apply for vehicle
8 registration and issuance of certificate of title to the county
9 treasurer where the person resides or where the primary users
10 of the vehicle are located. However, in 2016, the general
11 assembly required the department of transportation (DOT) to
12 develop and implement, by January 1, 2018, a program to allow
13 for electronic applications, titling, registering, and funds
14 transfers for vehicles subject to registration (program) in
15 order to improve the efficiency and timeliness of the processes
16 and to reduce costs for all parties involved. At the same
17 time, the general assembly conditionally authorized an owner
18 of a vehicle subject to registration to apply to the county
19 treasurer of a county contiguous to the county designated for
20 the owner if the DOT had not yet implemented the program by
21 January 1, 2018. In 2018, the general assembly amended the
22 program implementation date to July 1, 2019.
23 This bill strikes the contiguous county authorization and
24 instead provides for the initial registration and issuance of
25 certificate of title by any county treasurer. In addition to
26 an owner of a vehicle subject to registration, a lessor of a
27 vehicle pursuant to Code chapter 321F (leasing and renting of
28 vehicles), if such vehicle is subject to registration and has a
29 gross vehicle weight of less than 10,000 pounds, is authorized
30 to apply for initial registration and issuance of certificate
31 of title to any county treasurer. The bill does not make
32 corresponding changes. Instead, for all other registration
33 and certificate of title actions provided or required in Code
34 chapter 321 (motor vehicles and law of the road), references to
35 the county where a vehicle is registered or the county where

AMERICAN OVERSIGHT

H.F. 2607

1 a certificate of title was issued are deemed to refer to the
2 appropriate county under current law.
3 Current law requires registration plates to display the
4 name of the county that issues the plates, unless a specific
5 exception is provided. The bill specifies such an exception
6 for regular registration plates issued pursuant to the bill.
7 The bill removes the context clause applicable to defined
8 terms in Code chapter 322A (motor vehicle franchisers). In
9 2022, the Iowa supreme court relied on the context clause
10 included in Code section 322A.1 to apply an alternate
11 definition of "community" than how "community" is defined in
12 Code chapter 322A (Sioux City Truck Sales, Inc. v. Iowa Dept.
13 of Transportation, 975 N.W.2d 333 (Iowa 2022)). The bill
14 provides the same introduction to defined words and phrases to
15 Code chapter 322A as is used for Code chapter 321.

EXPLANATION

The inclusion of this explanation does not constitute agreement with the explanation's substance by the members of the general assembly.

This bill relates to unlawful activities, including those related to requirements for public assistance and to the smuggling of persons.

Division I of the bill relates to state residency and citizenship requirements for public assistance. The bill provides that the department of health and human services (HHS) shall require that all noncitizen applicants for public assistance, who are identified as noncitizens on their application, document and verify their noncitizen status. HHS shall determine from the documentation obtained if the person is a noncitizen who may be eligible to receive public assistance, and such a noncitizen shall only be eligible for public assistance if the person is both a resident of Iowa and a qualified alien as defined under federal law. The bill also requires HHS to verify the immigration status of all noncitizen applicants through the systematic alien verification for entitlements program administered by the United States department of homeland security. The bill defines "qualified alien" and "resident" for the purposes of the bill.

Division II of the bill provides that a person commits the offense of smuggling of persons when the person knowingly, for payment or some other benefit, does any of the following involving a noncitizen individual: uses a motor vehicle, aircraft, watercraft, or other means of conveyance to transport an individual with the intent to conceal the individual from a peace officer or flees from a person the actor knows is a peace officer attempting to lawfully arrest or detain the actor; encourages or induces a person to enter or remain in the United States in violation of federal law by concealing, harboring, or shielding that person from detection, or assists, guides, or directs two or more individuals to enter or remain on agricultural land without the effective consent of the owner.

14 circumstances: if as a direct result of the commission of the
15 offense, the smuggled individual became a victim of sexual
16 abuse in the first degree under Code section 709.2 or sexual
17 abuse in the second degree under Code section 709.3; or if the

22 likelihood that the smuggled individual will suffer serious
23 bodily injury or death, or violations resulting in a class
