Abstract

Introduction: Dietary supplements are touted for cognitive protection, but supporting evidence is mixed. COSMOS-Mind tested whether daily administration of cocoa extract (containing 500 mg/day flavanols) versus placebo and a commercial multivitamin-mineral (MVM) versus placebo improved cognition in older women and men.

Methods: COSMOS-Mind, a large randomized two-by-two factorial 3-year trial, assessed cognition by telephone at baseline and annually. The primary outcome was a global cognition composite formed from mean standardized (z) scores (relative to baseline) from individual tests, including the Telephone Interview of Cognitive Status, Word List and Story Recall, Oral Trail-Making, Verbal Fluency, Number Span, and Digit Ordering. Using intention-to-treat, the primary endpoint was change in this composite with 3 years of cocoa extract use. The pre-specified secondary endpoint was change in the composite with 3 years of MVM supplementation. Treatment effects were also examined for executive function and memory composite scores, and in pre-specified subgroups at higher risk for cognitive decline.

Results: A total of 2262 participants were enrolled (mean age = 73y; 60% women; 89% non-Hispanic White), and 92% completed the baseline and at least one annual assessment. Cocoa extract had no effect on global cognition (mean z-score = 0.03, 95% CI: -0.02 to 0.08; $P = .28$). Daily MVM supplementation, relative to placebo, resulted in a statistically significant benefit on global cognition (mean z = 0.07, 95% CI 0.02 to 0.12; $P = .007$), and this effect was most pronounced in participants with a history of cardiovascular disease (*no history*: 0.06, 95% CI 0.01 to 0.11; *history*: 0.14, 95% CI -0.02 to 0.31; interaction, nominal $P = .01$). Multivitamin-mineral benefits were also observed for memory and executive function. The cocoa extract by MVM group interaction was not significant for any of the cognitive composites.

Discussion: Cocoa extract did not benefit cognition. However, COSMOS-Mind provides the first evidence from a large, long-term, pragmatic trial to support the potential efficacy of a MVM to improve cognition in older adults. Additional work is needed to

Highlights

- COSMOS-Mind was a large simple pragmatic randomized clinical trial in older adults conducted by mail and telephone.
- The trial used a two-by-two factorial design to assess treatment effects of two different interventions within a single large study.
- We found no cognitive benefit of daily cocoa extract administration (containing 500 mg flavanols) for 3 years.
- Daily multivitamin-mineral (MVM) supplementation for 3 years improved global cognition, episodic memory, and executive function in older adults.
- The MVM benefit appeared to be greater for adults with cardiovascular disease.

1 | BACKGROUND

There is an urgent need to identify effective strategies to preserve cognitive function to mitigate the heavy societal burden associated with Alzheimer's disease (AD) and related dementia, which affect more than 46 million people worldwide.[1] No interventions to prevent cognitive decline in asymptomatic older adults have been approved by the United States Food and Drug Administration (FDA), and to date, there is insufficient evidence to support a clinical benefit of any pharmacologic treatment for adults with mild cognitive impairment due to AD.[2,3] Identifying a safe, affordable, and accessible intervention to protect cognitive function against decline in older adults is a pressing public health priority.[4]

Cocoa, in its unprocessed form, contains high quantities of catechins and epicatechins, members of a subclass of flavonoids known as flavanols,[5,6] and modest amounts of theobromine (an alkaloid of the cacao bean) and caffeine. Dietary consumption of cocoa flavanols may slow cognitive decline through improved cerebral vasodilation,[7] blood flow, perfusion and angiogenesis.[8,9] Epicatechin, the most common flavanol in cocoa, is rapidly absorbed, readily crosses the blood-brain barrier, can be detected in the brain,[10] and may have accumulating physiological effects at higher levels.[11,12] Much of the support for cognition-enhancing effects of flavonoids in healthy older adults comes from epidemiological studies,[13,14] and a few small clinical trials.[15–17] Memory and executive function appear to benefit the most, particularly with higher amounts of cocoa flavanols (500–750 mg/day), according to a recent review.[18]

Individual micronutrients and minerals target multiple biologic pathways that support normal body and brain function,[19] and deficiencies in older adults may increase risk for cognitive decline and dementia.[20] Trials of single nutrients such as folic acid with or without other B vitamins,[21–24] omega-3 fatty acids,[25,26] and vitamin D[20,27,28] on cognition have yielded mixed results, which could reflect either no benefit or study design issues that impede cross-study comparisons. Some of these issues relate to the specific micronutrients tested (alone or in combination), the specific cognitive tests administered, the outcome measure (single test vs. composite score), and participant demographics and nutritional status.[29,30] Although not without controversy, particularly with respect to potential cognition-enhancing effects of B vitamins,[21,22] the conclusion of meta-analytic reviews is that the evidence is insufficient to encourage care providers to recommend use of individual nutrient supplements for brain health.[31,32]

Longer-term daily intake (>12 months) of a multivitamin-mineral (MVM) alone or with other dietary supplements to enhance global cognitive function in older adults (≥65 years) has been examined in just one large randomized controlled trial (RCT), which included only male physicians.[33] Further study is needed given their widespread use in the general population.[34] Here we tested whether daily treatment with cocoa extract (CE) and/or a MVM for 3 years protected cognitive function in older adults.

2 | METHODS

2.1 | Study design

COSMOS-Mind (COcoa Supplement and Multivitamin Outcomes Study of the Mind) was an ancillary study to a large pragmatic, placebo-controlled, 2 × 2 factorial clinical trial testing the effects of daily supplementation with cocoa extract (CE) and/or a MVM on cardiovascular and cancer outcomes.[35–37] Given that no additive or synergistic effects were expected with CE and MVM supplementation, the 2 × 2 factorial design provided an efficient strategy to examine treatment effects of two different agents within a single trial. The CE (Mars Edge,

of Mars, Inc.) contained 500 mg of cocoa flavanols, including 80 mg (-)-epicatechins and modest amounts of theobromine (~50 mg/day) and caffeine (~15 mg/day) that likely enhance flavanols' central and vascular effects.[38,39] The 500 mg/day of cocoa flavanols exceeds mean reported intake[40] and is consistent with amounts tested in short-term cardiovascular trials.[41] The essential nutrients contained in the MVM (Centrum Silver; Pfizer Consumer Healthcare, now Haleon) are listed in Table S6. COSMOS-Mind examined the effects of these supplements on cognitive function, and the details of study design, participant demographics, and baseline characteristics are published.[42] The study was conducted in accordance with The Code of Ethics of the World Medical Association, and was approved by the Institutional Review Board of Wake Forest University School of Medicine.

2.2 | Participants

Enrollment of two thousand parent trial participants was targeted for COSMOS-Mind. Parent trial eligibility criteria included: (1) no history of myocardial infarction (MI) or stroke (history of other cardiovascular events including transient ischemic attack, congestive heart failure, coronary artery bypass graft, angioplasty, and stent was permitted); (2) no history of cancer within the past 2 years (excluding non-melanoma skin cancer); (3) no serious illness precluding participation; (4) not taking cocoa or vitamin/mineral supplements, or, willing to forego use during the trial; (5) no reported extreme sensitivity to cocoa products or caffeine; (6) successful completion of ≥2-month placebo run-in with ≥75% study pill adherence; and (7) not currently participating in another clinical trial. Additional COSMOS-Mind eligibility criteria included: (1) ≥65 years of age; (2) not taking insulin for diabetes; and (3) able to complete the telephone cognitive assessment (to screen out participants with significant impairment). Participants provided informed consent and received a $15 gift card upon completion of each assessment.

2.3 | Randomization and masking

Randomization was controlled by the parent trial using a computer-generated sequential list of random allocations for the four treatment combinations.[36,37] The random allocation sequence was created using SAS statistical software (version 9.4) and was stratified by sex, age (5-year bins), and recruitment source (Brigham and Women's Hospital, Women's Health Initiative). All trial investigators, examiners, and participants were masked to treatment group assignment.

2.4 | Procedures

As previously described,[42] parent trial participants were recruited through mailings to Women's Health Initiative Extension Study participants and by Brigham and Women's Hospital to participants contacted for, but not randomized into, the vitamin D and OmegA-3 TriaL, and through commercial mailing lists and media campaigns. As a result, 35,669 adults began a placebo run-in, of which 21,442 (60%) were ultimately randomized into COSMOS. During the placebo run-in, eligible candidates received an invitation to also participate in COSMOS-Mind. Interested individuals were contacted to: (1) provide more information about the ancillary study, (2) test for hearing acuity, and (3) schedule the baseline telephone cognitive assessment. Individuals from traditionally underrepresented groups in research (self-identified as American Indian/Alaska Native, Asian/Pacific Islander, Black/African American, Hispanic; completing 12 years or less of education) were prioritized in the COSMOS-Mind initial contact queue (pre-randomization) to increase their representation in the sample. Demographics and baseline anthropometrics (height, weight) and medical history were provided by participants via questionnaires.

RESEARCH IN CONTEXT

1. **Systematic review**: The literature was reviewed using PubMed and MEDLINE. Much of the support for potential cognitive benefits of cocoa flavanols in older adults is based on observational studies. Only a few controlled trials have examined the effects of a multivitamin-mineral (MVM) supplement on cognition for older adults.
2. **Interpretation**: There was no cognitive improvement with daily intake for 3 years of cocoa extract containing 500 mg/day cocoa flavanols. However, we provide the first evidence in a long-term, randomized controlled trial of older women and men that daily use of a safe, readily accessible, and low-cost MVM can improve cognition. This finding could have important public health implications for brain health and resilience against future cognitive decline.
3. **Future directions**: Our results challenge the current status quo regarding the efficacy of MVM supplementation to improve cognitive function and set the stage for new avenues of research to identify mechanisms and alternate approaches involving combination therapy.

2.5 | Outcomes

A standardized telephone cognitive battery was administered at baseline and annually for 3 years to assess general cognitive status, episodic memory and executive function. Tests included the 50-point modified Telephone Interview for Cognitive Status (TICSm with 10-minute short delay word list recall), an additional 40-minute Long Delay Word List Recall,[43] immediate and delayed Story Recall (SRI & II),[44] Oral Trail-Making Test Part B (OTMT-B, log transformed; Part A was administered for practice only),[45] Verbal Fluency by category (VF-C) and letter (VF-L),[46] Number Span (NS),[47] and Digit Ordering Test (DOT).[48]

Details about testing procedures, including hearing acuity screening, and administration and scoring are published.[42]

The primary outcome was a global cognition composite (reported as a z-score based on baseline data from the study cohort) formed from mean standardized (z) scores of pre-specified individual test metrics, with higher scores reflecting better performance. Key secondary outcomes included an episodic memory composite (Long Delay Word List Recall, SRI, SRII) and an executive function composite (OTMT-B, VF-C, VF-L, NST, DOT) that were also formed using mean standardized (z) scores.

Tertiary outcomes included the Cognitive Change Index (CCI),[49] a self-report measure of cognitive concerns, and the short 15-item version of the Geriatric Depression Scale (GDS-SF) to permit subgroup analyses for individuals scoring low and high on these scales. Adverse events were recorded by the parent trial, and events reported during a cognitive assessment were relayed to the COSMOS team for tracking and follow-up.

2.6 | Statistical analyses

The primary and secondary endpoints have been previously described[42] and were pre-specified in the protocol (provided as a supplement). We followed the intention-to-treat approach: all participants were grouped as originally randomly assigned and scores from all cognitive assessments (baseline and Years 1, 2 and 3) for all participants were included in analyses. Scores were used as dependent variables in linear mixed effects models. Time was a categorical factor. No covariates were included in models for the primary comparisons. As specified in the protocol, inference was based on the mean difference of scores obtained across follow-up assessments relative to the baseline score for participants assigned to receive CE versus CE-placebo (primary endpoint), and for participants assigned to receive MVM versus MVM-placebo (key secondary endpoint). That is, for means at Years 0, 1, 2, and 3 represented by μ_0, μ_1, μ_2, and μ_3, this can be expressed as $(\mu_1 + \mu_2 + \mu_3)/3 - \mu_0$. Separate linear contrasts were used to compare active and placebo arms by CE and by MVM group assignment. For example, the contrast for CE effects is described by $[(\mu_{CE1} + \mu_{CE2} + \mu_{CE3})/3 - \mu_{CE0}] - [(\mu_{CE\text{-}PL1} + \mu_{CE\text{-}PL2} + \mu_{CD\text{-}PL3})/3 - \mu_{CE\text{-}PL0}]$, where μ_{CE} and $\mu_{CE\text{-}PL}$ represent the marginal means for CE and CE-placebo at each time point, respectively. This corresponds to an intention-to-treat approach in which all data are included in analyses irrespective of follow-up. We chose to parameterize our primary and secondary endpoints as mean differences from baseline across follow-up to avoid making specific assumptions about the nature of intervention effects (for example, we did not assume that intervention effects accumulated linearly and base comparisons on differences between slopes) and to treat any differences at each of the time points equally. We explored interactions between the CE and MVM treatments and the consistency of CE and MVM treatment effects among subgroups (using forest plots[50]) based on sex, and baseline age (<70 or ≥70 years), body mass index (BMI; < 25, 25-29, ≥30 kg/m^2), general cognitive function (TICSm tertiles), subjective cognitive concerns (CCI median split), depressive symptoms (GDS-SF median split), type 2 diabetes, history of hypertension, and history of CVD (based on self-report of transient ischemic attack, congestive heart failure, coronary artery bypass graft, angioplasty, or stent). Subgroups were pre-specified given their possible associations with cognitive and/or cardiovascular response to the interventions.[51–53] Multiple imputation by fully conditional specification was used to examine the influence of missing data.[54] No adjustments were made for multiple comparisons. The targeted 2000-person sample was projected to provide >90% power to detect an effect size of 0.10 standard deviations (see Statistical Power supplement for more information. Analyses were performed using SAS v9.4.

3 | RESULTS

COSMOS-Mind participants were enrolled from August 2, 2016 to August 17, 2017. A total of 5342 individuals screening for the parent trial were approached for ancillary study enrollment. Phone calls were attempted for 3223 individuals (60%) and of these, 2262 (70%) were enrolled in COSMOS-Mind (Figure 1). Baseline characteristics and baseline cognitive test scores were well balanced across treatment groups (Table 1 and Table S1). Of enrolled participants, 2082 (92%) completed the cognitive assessment at Year 1, 1906 (84%) at Year 2, 1790 (79%) at Year 3, and 1732 (77%) in all 3 years of follow-up. Relative to participants who completed all assessments, those missing at least one assessment were more likely to be from underrepresented racial or ethnic groups, reported less physical activity and chocolate intake and more smoking, tended to have lower education and baseline TICSm scores, and higher prevalence of type 2 diabetes (Table S2). Characteristics of participants with no follow-up data (N = 180) are provided in Table S3. Self-reported compliance (pill count) was comparable across treatment groups (% taking ≥75% study pills in Years 1, 2, and 3: 92%, 88%, and 84%).

Figure 2A shows change in global cognition, relative to baseline, for participants assigned to CE (Figure 1, Groups 2 & 4) versus CE-placebo (Figure 1, Groups 1 & 3). Mean scores in both CE groups increased through the first 2 years (likely due to retest practice effects[55]) and then plateaued but did not differ significantly from one another. The mean change (CE minus CE-placebo) z-score for global cognition was 0.03 (95% CI: -0.02 to 0.08; P = .28). In contrast, Figure 2B shows a significant treatment effect of MVM (Figure 1, Groups 3 & 4) versus MVM-placebo (Figure 1, Groups 1 & 2) on global cognition (secondary endpoint), with a mean change (MVM minus MVM-placebo) z-score of 0.07 (95% CI: 0.02 to 0.12; P = .007). Baseline MVM use was not associated with MVM treatment response (*no prior use*: 0.062, 95% CI: -0.002 to 0.13; *prior use*: 0.077, 95% CI: 0.003 to 0.15; interaction, nominal P = .88).

In pre-specified subgroup analyses of the primary outcome (global cognition composite), forest plots of CE effects (Figure 2C) suggest that response may vary with baseline BMI. Figure 2D forest plots show a relative benefit of MVM versus MVM-placebo for participants with a

CVD history (*no history*: 0.06, 95% CI: 0.01 to 0.11; *history*: 0.14, 95% CI: -0.02 to 0.31; interaction, nominal $P = .01$). As seen in Figure 3, at baseline, participants without CVD history outperformed those with CVD history on the global cognition composite (mean difference = 0.22, 95% CI: 0.08 to 0.37; $P = .003$); after Year 1, the MVM-placebo declined while the MVM group showed relative improvement (or protection against decline). There was no evidence of disproportionate loss of Year 3 data by CVD history (Table S4). The CVD history subgroup (compared to subgroup without CVD history) included more men, and tended to be older, have higher BMI, more hypertension, more statin use, more depression, less physical activity, and lower scores on the TICSm. When participants with CVD history were excluded in a sensitivity test from the overall analysis of MVM effects on the global cognition composite, the main MVM finding remained unchanged (mean change z-score = 0.06, 95% CI: 0.01 to 0.11; $P = .02$). That is, even though the pattern of results differed for subgroups with and without CVD at baseline, 3 years of MVM treatment improved global cognition for all participants, not just those with CVD history.

CE had no effect on the episodic memory composite (mean change z-score = 0.03, 95% CI: -0.04 to 0.09; $P = .40$) or on the executive function composite (mean change z-score = 0.03, 95% CI: -0.02 to 0.08; $P = .23$) (Figure S1). In contrast, but consistent with the positive MVM effect described above, MVM supplementation led to relative improvements both for memory (mean change z-score = 0.06, 95% CI: 0.002 to 0.13; $P = .04$) and for executive function (mean change z-score = 0.06, 95% CI: 0.01 to 0.11; $P = .02$) (Figure 4).

There was no evidence for an interaction between CE and MVM supplementation for the primary outcome (mean change z-score [95% CI]; CE-placebo/MVM-placebo: 0.15 [0.10 to 0.20]; CE/MVM-placebo: 0.15 [0.11 to 0.20]; CE-placebo/MVM: 0.20[0.15 to 0.24]; CE/MVM: 0.24 [0.19 to 0.29]; interaction, $P = .40$) or for the memory and executive function composites. That is, adding CE did not alter the benefit of MVM on cognition.

Multiple imputation provided no evidence that differential attrition biased the results (Table S5), and there were no safety concerns of supplement use during the trial.

4 | DISCUSSION

COSMOS-Mind is the first large-scale, long-term RCT to assess the effects of cocoa extract and a MVM supplement on global cognition in older women and men from the general population. Although our findings did not support a positive effect of CE (primary endpoint), cognition significantly benefited from 3 years of daily MVM use (secondary endpoint). Moreover, the results of pre-planned subgroup analyses indicated that participants with baseline history of CVD may show a more pronounced MVM benefit, suggesting either greater relative improvement or more protection from CVD-related cognitive decline.

Daily CE supplementation for 3 years did not affect cognitive function in our trial. Only a handful of controlled, shorter-term trials have examined the potential benefits of cocoa flavanols on cognition in older adults. While some studies showed cognitive benefits,[16,17,56] others

did not.[8,57–59] In the CoCoA study, a double-blind, 8-week RCT that examined cocoa flavanol effects on cognition, 90 cognitively healthy older adults[17] and 90 individuals with amnestic MCI[16] received a daily drink containing low (45 mg/day), medium (520 mg/day), or high (993 mg/day) amounts of cocoa flavanols. Performance on the Trail-Making Test, verbal fluency, and the cognitive composite that combined these test scores improved for high- and medium-dose groups relative to the low-dose group, regardless of participant cognitive status. In a smaller ($n = 37$) 3-month RCT comparing 900 mg/day versus 45 mg/day of cocoa flavanols, blood flow increased in the dentate gyrus of the hippocampus, which was associated with a treatment-related improvement on a hippocampal-dependent memory task in adults (50–69 years old).[56] In a 12-week RCT of 260, 510, or 770 mg/day of cocoa flavanols in 211 adults (50–75 years old), although there was no effect on the primary endpoint (computer-administered object-recognition task), secondary analyses indicated a dose-dependent improvement on list-learning in adults with a poor quality baseline diet.[60] These trials all included short treatment durations showing acute effects of cocoa flavanols on cognition. In COSMOS-Mind, acute cognitive effects of cocoa flavanols (less than 3 months) that were not sustained would have been missed as our assessments were completed only once per year. COSMOS-Mind also differed from these studies as the active supplement included not only cocoa flavanols, but also theobromine and caffeine. Furthermore, it is possible that the COSMOS-Mind cocoa flavanol dose was too low to provide cognitive benefit within the study observation period, particularly in light of previous dose-dependent findings.[60]

In contrast to the negative CE findings, we found that assignment to 3 years of MVM improved global cognition, episodic memory, and executive function. Previous RCTs of MVM supplements on cognition have

reported inconsistent effects. The majority were short in duration (up to 12 months) and relied on individual test scores to assess cognitive effects rather than a composite, which may provide greater statistical power to detect a difference across multiple tests and cognitive domains (if effect sizes are similar across its components).[61]

The only long-term MVM RCT prior to our study was the 12-year Physician's Health Study II (PHS II) of older U.S. male physicians that tested whether a daily MVM supplement prevented risk of major CVD[62] and cancer.[63] A PHS II cognitive substudy of 5947 healthy, highly educated men (aged ≥65 years) reported no MVM effects on a global cognition composite.[33] There are several differences between COSMOS-Mind and PHS II worth highlighting. The COSMOS-Mind and PHS II cohorts differed on key baseline characteristics: PHS II participants were restricted to male physicians who were predominantly White and non-Hispanic, whereas COSMOS-Mind included a relatively more diverse cohort. Although baseline cognitive scores were comparable for participants across studies (i.e., TICSm; VF-C for animals), COSMOS-Mind administered additional tests of executive function (i.e., OTMT-B, VF-L, NS, DOT) and more challenging episodic memory tests (i.e., Long Delay Word List Recall, and a longer version of Story Recall with 55% more components to remember) that may have increased sensitivity to detect effects. In PHS II, the initial cognitive testing began an average of 2.5 years (range: 0.18–5.3 years) after randomization to MVM or placebo, nearly at the point in time when the final follow-up assessment was completed in COSMOS-Mind. Our data suggest that MVM treatment effects increased from baseline in

the first 2 years and then remained stable between Years 2 and 3 (Figure 2). As a result, any early cognitive benefits of MVM in PHS II would likely have been missed because of their assessment schedule given the COSMOS-Mind cognitive trajectory showing benefit within 2 years. Also, the specific components of the MVM supplements administered in the two studies differed (Table S6); in COSMOS (parent study), lutein and lycopene were added, amounts of vitamins D and K were 150%–300% higher, and amounts of vitamin A and minerals such as iron, magnesium, and copper were lower. Although some reports suggest cognition-protecting benefits of components that were at higher levels in the COSMOS MVM,[64–67] no consensus has been reached about the role of specific supplement quantities for brain health.

Our results suggest that MVM cognitive benefits may be more pronounced among older adults with CVD. At baseline, global cognitive function was lower for adults with versus without CVD history, which is consistent with other reports.[68] The MVM-treated CVD history subgroup had sustained increases in cognitive function after 2 years (Figure 3), while the placebo-treated CVD history subgroup showed cognitive decline after Year 1. One account for this finding relates to the potential treatment-related improvement in micronutrient levels in CVD-compromised individuals, which could, in turn, have beneficial consequences for brain health. The results of observational studies[69] suggest that micronutrient levels are typically lower in patients with CVD versus those without CVD (e.g., heart failure), and may be susceptible to drug interactions.[52] In CVD patients, for example, vitamin D deficiency is highly prevalent and predicts disease severity; vitamin K deficiency is linked to coronary artery calcification and increased CVD-related mortality; circulating levels of thiamine, vitamin C and selenium are relatively low (suboptimal, not necessarily deficient)[69]; and certain medications can reduce vitamin B12 absorption and bioavailability.[70] In PHS II, there was no evidence that MVM supplementation affected cardiovascular health status.[62] Nonetheless, additional investigation of treatment-related micronutrient status in a more diverse cohort of participants is warranted to confirm COSMOS-Mind findings and to explore mechanisms that might account for the observed benefit.

To estimate clinical significance of our findings, we used COSMOS-Mind data to model treatment-related protection against cognitive

aging. At baseline, slope of the global cognition composite scores by participant age (ranging from 64 to 100 years) was -0.045 SD/year (standard error = 0.004). The treatment effect of MVM relative to MVM-placebo was 0.083 SDs (95% CI: 0.020 to 0.146) at Year 3. This corresponds to baseline composite scores for individuals who were 1.8 years apart in age. By this albeit imprecise yardstick, 3 years of MVM supplementation appeared to have slowed aging by 1.8 years, or by 60%. Further speculation regarding the clinical significance of our MVM findings is difficult at this time given the relatively short duration of follow-up and the likely impact of practice effects commonly observed in trials with repeat cognitive testing that distort estimates of treatment-related change on metrics such as 'cognitive age.' Another trial is needed in a diverse cohort to confirm our findings and further assess the clinical significance of MVM supplementation on cognitive health in older women and men.

COSMOS-Mind had several strengths. The 2 × 2 factorial design allowed us to efficiently examine the effects of two different interventions within a single study, under the assumption of no additive effects when interventions are combined. The pragmatic approach (using mail and telephone only) facilitated recruitment of over 2000 older adults in less than 15 months, minimized participant burden (no travel needed), and provided an opportunity for research participation to individuals who may not have had ready access to an academic institution.

Study limitations included: (1) race and ethnicity of the cohort was not representative of older Americans, which affects generalizability of our results; (2) adherence to study pills and health history (e.g., CVD) were tracked using self-report; (3) inability to assess whether specific components of the COSMOS MVM were responsible for the observed cognitive benefits; (4) data were not collected to permit analyses of biomarkers or potential effect modifiers (e.g., apolipoprotein E genotype); and (5) type 1 error was not controlled across secondary and tertiary analyses in COSMOS-Mind and for outcomes measured in the parent COSMOS trial and its other ancillary studies.

In conclusion, daily intake of cocoa extract for 3 years had no effect on cognition. However, COSMOS-Mind provides the first evidence from a large-scale, long-term, pragmatic RCT to suggest that daily use of a safe, readily accessible, and relatively low-cost MVM supplement has the potential to improve or protect cognitive function for older women and men. An additional trial is needed to confirm these findings in a more representative cohort and to explore potential mechanisms for cognitive benefit. This work may ultimately have important public health implications for standard of care to improve or protect cognitive function in older adults.

OTHER CONTRIBUTIONS

We thank and acknowledge the contributions of all COSMOS-Mind participants for their time and commitment to the study. We also thank the COSMOS-Mind study team members who provided their expertise to meaningfully connect to participants, keep them engaged, and collect and manage the cognitive data for over 8000 assessments. Wake Forest University School of Medicine (Winston-Salem NC) Team members included Brad Caudle, Debbie Pleasants M.ED., Cheryl Summerville, Alecia Jenkins, Ashley Lentz, Charlene Hunt, Debbie Booth, Deborah Kampman, Dylan Jarrell, Heather Dailey, Leonard Jordan, Marcelle Clavette, Margaret Pierce, Sharnita Duran, Sonya Ashburn, Darrin Harris, Julia Spell, Mary Barr, and Leslie Gordineer. We are especially grateful to the parent trial investigators (Manson, Sesso, and Garnet Anderson, PhD, of the Fred Hutchinson Cancer Research Center, Seattle WA) and the study team at Brigham and Women's Hospital (Boston, MA) for their partnership from study inception.

ACKNOWLEDGMENTS

The COSMOS-Mind study and investigators were supported through an award provided by the National Institute on Aging, of the National Institutes of Health (R01AG050657). Drs. Manson and Sesso also received support for the COcoa Supplement and Multivitamin Outcomes Study (COSMOS) through an investigator-initiated grant from Mars Edge, a segment of Mars, Inc. dedicated to nutrition research, which included infrastructure support and the donation of study pills and packaging. Pfizer Consumer Healthcare (now Haleon) provided support through the partial provision of study pills and packaging.

A B S T R A C T

Background: Longer effects of multivitamin-mineral (MVM) supplementation on late-life cognitive function remain untested using in-person, detailed neuropsychologic assessments. Furthermore, insufficient evidence exists for healthcare providers to recommend daily MVM supplements to prevent cognitive decline.

Objectives: This study aimed to test MVM effects on cognitive change using in-person, detailed neuropsychologic assessments and conduct a meta-analysis within COSMOS (COcoa Supplement and Multivitamin Outcomes Study) cognitive substudies for a robust evaluation of MVM effects on cognition.

Methods: COSMOS is a 2 × 2 factorial trial of cocoa extract (500 mg flavanols/d) and/or a daily MVM supplement for cardiovascular disease and cancer prevention among 21,442 United States adults aged ≥60 y. There were 573 participants in the clinic subcohort of COSMOS (that is, COSMOS-Clinic) who completed all cognitive tests administered at baseline. For the meta-analysis, we included nonoverlapping participants across 3 COSMOS cognitive substudies: COSMOS-Clinic (n = 573); COSMOS-Mind (n = 2158); COSMOS-Web (n = 2472).

Results: In COSMOS-Clinic, we observed a modest benefit of MVM compared with placebo on global cognition over 2 y {mean difference [95% confidence interval (CI)] = 0.06 SD units (SU) (−0.003, 0.13)}, with a significantly more favorable change in episodic memory [mean difference (95% CI) = 0.12 SU (0.002, 0.23)] but not in executive function or attention [mean difference (95% CI) = 0.04 SU (−0.04, 0.11)]. The meta-analysis of COSMOS substudies showed clear evidence of MVM benefits on global cognition [mean difference (95% CI) = 0.07 SU (0.03, 0.11); P = 0.0009] and episodic memory [mean difference (95% CI) = 0.06 SU (0.03, 0.10); P = 0.0007]; the magnitude of effect on global cognition was equivalent to reducing cognitive aging by 2 y.

Q4 **Conclusions:** In COSMOS-Clinic, daily MVM supplementation leads to a significantly more favorable 2-y change in episodic memory. The meta-analysis within COSMOS cognitive substudies indicates that daily MVM significantly benefits both global cognition and episodic memory. These findings within the COSMOS trial support the benefits of a daily MVM in preventing cognitive decline among older adults.

This trial was registered at COSMOS—clinicaltrials.gov as NCT02422745, at COSMOS-Mind—clinicaltrials.gov as NCT03035201, and at COSMOS-Web—clinicaltrials.gov as NCT04582617. Q5

Introduction

By 2060, nearly 1 in 4 Americans will be aged ≥65 y—an age group at elevated risk of cognitive decline and Alzheimer's disease and related dementias (ADRD) [1,2]. Studies have shown that even modest deficits in cognitive function during aging can predict worsened cognitive decline and an increased risk of ADRD in late life [3,4]; these early signs of cognitive decline may be delayed through a safe, efficacious, and broadly applicable intervention, such as a multivitamin-mineral (MVM) supplement. Although a few long-term randomized clinical trials (RCTs) have tested MVM supplements on cognitive change in older adults [5–7], effects remain untested using in-person detailed neuropsychologic assessments, capturing subtle changes across multiple cognitive domains.

A typical broad-based MVM supplement contains most or all essential vitamins and minerals at lower levels than individual supplements to target multiple biologic pathways to support cognitive health [8–10]. Prior RCTs examining single or smaller combinations of nutrients have shown no or limited benefits on late-life cognition [9–13]. Only 3 long-term RCTs (>12 mo) have tested a daily broad-based MVM on cognitive change in older adults. In the Physicians' Health Study II (PHS II), telephone-based cognitive assessments began after an average duration of 2.5 y following randomization to intervention groups and found no MVM benefits on cognition [5]. In the COSMOS (COcoa Supplement and Multivitamin Outcomes Study), initial cognitive assessments took place before randomization for COSMOS-Mind (n = 2262; telephone-based) [6] and COSMOS-Web (n = 3960; computer-based) [7] and found evidence of MVM benefits on cognitive function. However, in-person, detailed neuropsychologic assessments, with the potential to measure subtle changes across multiple cognitive domains, have not been previously conducted to confirm the effects of MVM supplementation on cognitive function among older adults.

Therefore, we tested the effects of MVM supplementation on cognitive change in the clinic subcohort of 573 COSMOS participants (that is, COSMOS-Clinic) who underwent in-person detailed neuropsychologic assessments at baseline and 2 y. Because COSMOS is unique in integrating 3 separate cognitive ancillary studies, all of which had prerandomization and follow-up neuropsychologic assessments within the broader parent trial, a meta-analysis among nonoverlapping participants (n > 5000) across COSMOS-Clinic, COSMOS-Mind, and COSMOS-Web was conducted to evaluate the strength of evidence regarding the effects of an MVM on cognition with potential clinical and public health relevance.

Methods

COSMOS trial

COSMOS is a recently completed randomized, double-blind, placebo-controlled, 2 × 2 factorial design testing cocoa extract (CE; Mars Edge; 500 mg flavanols/d, including 80 mg (−)-epicatechin) and/or a daily MVM supplement (Haleon; Centrum Silver®) for cardiovascular disease (CVD) and cancer prevention in 21,442 United States adults, aged ≥60 y; protocol details and main findings are published elsewhere [14–16]. Randomization was performed using a computer-generated sequential list of random allocations for the 4 treatment combinations. The random allocation sequence was created using SAS version 9.4 (SAS Institute) and was stratified by sex, age (5-y bins), and recruitment source (that is, mass mailings to Women's Health Initiative Extension Study participants, or mass mailings to participant recruitment pools from large studies led by Brigham and Women's Hospital). All trial investigators, examiners, and participants were masked to treatment group assignment. Randomization occurred from June 2015 through March 2018; randomized treatment ended on 31 December, 2020, and this was the final date of follow-up.

The exclusion criteria for the COSMOS trial were as follows: *1*) history of myocardial infarction or stroke (individuals with other cardiovascular events, including transient ischemic attack, congestive heart failure, coronary artery bypass graft, angioplasty, and stent were permitted); *2*) diagnosis of cancer except for nonmelanoma skin cancer within the past 2 y; *3*) other serious illnesses precluding participation; *4*) unwillingness to forego the use of CE, multivitamins, vitamin D (>1000 international unit (IU)/d), or high-dose calcium (>1200 mg/d) supplements during the trial; *5*) extreme sensitivity to caffeine; *6*) <75% compliance to study pills during the study period; and *7*) inability to communicate in English. Regarding compliance, participants answered study pill adherence questions (that is, number of days per month taking study pills from their monthly calendar packs) in questionnaires every 6 mo [14].

COSMOS-clinic cognitive substudy

A subcohort of 603 participants from the parent COSMOS trial who lived within driving distance of the Center for Clinical Investigation (CCI) at Brigham and Women's Hospital (that is, COSMOS-Clinic) were invited to complete detailed, in-person health evaluations at CCI, which included 45-min neuropsychologic evaluations at baseline and 2 y [14]. All participants provided written informed consent, and study approvals were obtained from the Institutional Review Board at Mass General Brigham. COSMOS-Clinic cognitive substudy analyses were prespecified as tertiary aims on the clinicaltrials.gov registration page of COSMOS (NCT02422745).

COSMOS-clinic cognitive substudy procedures

Study procedures followed a protocol developed before clinic enrollment and randomization (see Supplemental Methods A). Of 603 COSMOS participants enrolled in the COSMOS-Clinic subcohort, 602 were interested in neuropsychologic evaluations and completed hearing screening [17] and the Clock-in-the-Box test [18], a rapid (1–2 min) cognitive screening test, followed by the Modified Mini-Mental State (3MS) [19], a measure of general cognition. Participants without serious hearing impairment were administered these additional neuropsychologic measures: *1*) Consortium to Establish a Registry for

Alzheimer's Disease [(CERAD) immediate total learning, delayed recall, and recognition] [20,21], *2*) immediate and delayed recall trials of the East Boston Memory Test (EBMT) [22], *3*) 2 category fluency tests (naming animals and vegetables) [20], *4*) Trail Making Tests (TMTs) A and B [23], and *5*) Digit Span Backwards [24]. COSMOS-Clinic neuropsychologic assessments were conducted at baseline and follow-up an average of 2 y later (interquartile range: 2.0–2.1 y).

COSMOS-clinic: ascertainment of primary and secondary outcomes

In COSMOS-Clinic, our primary outcome was the global cognition composite (averaging mean standardized (*z*) scores of 11 tests: 3MS; CERAD immediate total learning, delayed recall, and recognition; immediate and delayed EBMT recall trials; 2 category fluency tests; TMT-A and TMT-B; Digit Span Backwards), with higher *z*-scores reflecting better performance.

Secondary outcomes were composites of episodic memory (averaging *z*-scores of 4 tests: EBMT immediate and delayed recall trials, and CERAD immediate total learning and delayed recall) and executive function/attention (averaging z-scores of 5 tests: 2 category fluency tests, TMT-A, TMT-B, and Digit Span Backwards). We standardized follow-up composite scores using fixed baseline means and SDs of the respective cognitive measures.

Meta-analysis: description of COSMOS cognitive substudies

In the meta-analysis, we included nonoverlapping participants across the 3 COSMOS cognitive substudies: *1*) COSMOS-Clinic ($n = 573$; in-person cognitive assessments over 2 y); *2*) COSMOS-Mind ($n = 2158$; annual telephone-based cognitive assessments for 3 y) [6]; and *3*) COSMOS-Web ($n = 2472$; annual computer-based cognitive assessments for 3 y) [7]. MVM findings of COSMOS-Mind and COSMOS-Web are published elsewhere [6,7]. We prioritized COSMOS-Clinic, followed by COSMOS-Mind, and then COSMOS-Web study samples to exclude overlapping participants across these studies. Our selection favored a study with a smaller sample size when choosing data of overlapping participants across these studies.

Meta-analysis: coprimary cognitive outcomes

Global cognition and episodic memory were prespecified as the coprimary cognitive outcomes for this meta-analysis because of their relevance to age-related cognitive decline and ADRD. Global cognition reflects overall ability across multiple cognitive domains; episodic memory declines with aging and is typically the primary cognitive domain affected by AD, the leading cause of dementia [25].

Supplemental Table 1 provides a list of neuropsychologic measures used in each COSMOS cognitive substudy to assess meta-analysis outcomes. The COSMOS-Clinic and COSMOS-Mind cognitive substudies had parallel approaches to assessing global cognition and episodic memory outcomes. The COSMOS-Web was specifically designed to examine the treatment effects on hippocampus-mediated episodic memory [7]. As a result, COSMOS-Web did not report global cognition as a prespecified cognitive endpoint. Thus, the meta-analysis of global cognition included nonoverlapping participants from the COSMOS-Clinic and COSMOS-Mind studies. Regarding the meta-analysis of episodic memory, we included nonoverlapping participants across 3 COSMOS cognitive substudies.

Statistical analyses

COSMOS-clinic: main analyses

The study was designed to have >80% power to detect an effect size of 0.12 SD units (SU) or greater in the global cognition composite score comparing MVM and placebo groups, with a planned sample size of 500 and assumed 10% loss to follow-up (see Supplemental Methods B).

The analysis for the effect of MVM supplementation compared with placebo included all randomly assigned participants, regardless of pill compliance, participation in the year 2 follow-up, and scores from all cognitive assessments (baseline or year 2); 573 participants who completed all neuropsychologic tests at baseline made up the sample (see CONSORT diagram, Figure 1). Descriptive characteristics of participants were compared between MVM and placebo groups. To examine the mean difference in change in global cognition over time between the MVM and placebo groups, we used repeated measures models over a 2-y follow-up time with an unstructured covariance matrix to incorporate the within-participant correlation. Models were adjusted for the prespecified design variables: age, sex, randomization to CE, and CE effect over time (that is, time-x-CE). We estimated the mean difference between the MVM and placebo groups in change in global cognition score over time using a time-x-MVM interaction. Regarding model assumptions, the averaged z-score cognitive outcomes met assumptions for normality and missing data were considered missing at random; as the repeated measures models can handle missing data, all participants contributed to the analysis at 1 or both time points. Models were fitted by maximum likelihood and we used Wald tests for statistical testing [26]. For secondary outcomes, we constructed repeated measures models with the abovementioned model specifications and covariates adjustment.

COSMOS-clinic: subgroup analyses

We addressed whether the effect of MVM supplementation compared with placebo on global cognitive change over 2 y was modified by design variables or subgroups selected *a priori* on the basis of the importance in cognitive decline and ADRD [27,28]: age (<70 or ≥70 y); sex; self-identified racial and ethnic group {non-Hispanic White, or other racial and ethnic groups [Black or African American, Hispanic (not Black or African American)], Asian, Native Hawaiian or other Pacific Islander, American Indian or Alaska Native, and multiple or unknown race and/or unknown ethnicity; see details in Table 1}; CE randomization group; healthy diet adherence level (tertiles of the Alternative Healthy Eating Index-2010 score) [29]; baseline general cognition score (3MS tertiles); presence of subjective cognitive concerns [0 or ≥1 points on Structured Telephone Interview for Dementia Assessment (STIDA)] [30]; body mass index (<25, 25–29, ≥30 kg/m^2); history of CVD (on the basis of self-report of transient ischemic attack, congestive heart failure, coronary artery bypass graft, angioplasty, or stent), hypertension, type 2 diabetes, and depression.

For all COSMOS-Clinic analyses, tests were two-sided, and a P value < 0.05 was used for statistical significance. The analyses of secondary outcomes and subgroups were considered hypothesis generating and were not adjusted for multiple comparisons; thus, results should be interpreted with caution.

Meta-analysis of prespecified outcomes within COSMOS cognitive substudies

random-effects models. The outcomes were mean standardized (z) scores, relative to baseline, in each cognitive substudy; the study-specific estimates were pooled, and a summary effect estimate [95% confidence interval (CI)] and P value were reported. Heterogeneity across substudies (using the Q statistic) and between-study variance [using tau squared (τ^2)] were examined using the %METAANAL macro (DerSimonian–Laird method) [31,32]. Tests were two-sided; for an α-level of 0.05 with 2 coprimary outcomes, $P < 0.025$ was used to indicate statistical significance for each coprimary outcome after Bonferroni correction [33].

All analyses were performed using SAS version 9.4 (SAS Institute) and R version 4.1.1 (R Foundation for Statistical Computing).

Results

Of the 603 COSMOS-Clinic participants, 573 completed all neuropsychologic tests at baseline (Figure 1). Among these 573 participants, 81 (14.1%) were lost to follow-up, refused follow-up cognitive assessment, or withdrew from the study before the follow-up cognitive assessment; 492 of 573 (85.9%) completed all neuropsychologic assessments at baseline and 2 y. Among participants who returned study pill adherence questionnaires (98% of this sample), 95.5% in the MVM group, and 95.3% in the placebo group reported adequate study pill adherence (that is, taking ≥75% study pills per month) at year 1. At 2 y, 90.9% of the MVM group and 90.0% of the placebo group reported adequate study pill adherence. This report includes results regarding the effects of MVM on cognition in the COSMOS-Clinic cognitive substudy; results regarding the effects of CE on cognition are described elsewhere [34].

COSMOS-clinic: baseline characteristics

There were 272 participants randomly assigned to MVM, and 301 were randomly assigned to placebo. The mean (SD) age was 69.6 (5.3) y, females comprised 49.2%, and 37.9% reported prerandomization use of multivitamins (Table 1). Descriptive characteristics were comparable across treatment groups.

COSMOS-clinic: main analyses

Participants randomly assigned to MVM compared with placebo showed a modest benefit in global cognition over 2 y; the mean difference in change in global cognition score, relative to baseline, was 0.06 SU (95% CI: −0.003, 0.13) (Table 2).

Regarding secondary outcomes, MVM supplementation compared with placebo led to a statistically significant more favorable change in episodic memory; the mean difference in change in episodic memory score, comparing the MVM and placebo groups, was 0.12 SU (95% CI: 0.002, 0.23) (Table 2). To assess the clinical importance of findings, we compared the observed estimate of the treatment effect with the estimate within the multivariable model for a 1-y increase in participant age, because age is the most robust predictor of cognitive decline. The estimate for the association between a 1-y difference in age at baseline and a 2-y change in episodic memory was −0.025 SU; this translates to the effect of a 2-y MVM supplementation that was equivalent to 4.8 y less aging in episodic memory than placebo. In contrast, there was no MVM benefit for executive function or attention over 2 y in this sample.

COSMOS-clinic: subgroup analyses

We did not observe significant interactions by selected subgroups for the effect of MVM supplementation compared with placebo on

global cognitive change over 2 y (Figure 2); furthermore, there was no significant interaction between the MVM and CE interventions for global cognition (P-interaction = 0.46).

Meta-analysis of prespecified outcomes within COSMOS cognitive substudies

The meta-analysis results for global cognition (Figure 3) show that participants randomly assigned to the MVM group compared with placebo had a statistically significant more favorable change in global cognition over time (mean difference (95% CI): 0.07 (0.03, 0.11) SU; P = 0.0009); findings remained significant after Bonferroni correction. The overall effect was not heterogeneous across studies (P-heterogeneity = 0.88), with no between-study variance (τ^2 = 0%).

The meta-analysis results for episodic memory (Figure 3) show that participants randomly assigned to the MVM group compared with placebo had a statistically significant more favorable change in episodic memory over time [mean difference (95% CI): 0.06 (0.03, 0.10) SU; P = 0.0007]; findings remained significant after Bonferroni correction. The overall effect was not heterogeneous across studies (P-heterogeneity = 0.61), with no between-study variance (τ^2 = 0%).

Regarding the clinical importance of our meta-analysis findings: the magnitude of the effect of MVM supplementation compared with placebo on global cognition score was equivalent on average to the difference observed between participants 2 y apart in age (that is, 2 y less cognitive aging).

Discussion

We observed a statistically significant beneficial effect of MVM supplementation compared with placebo on episodic memory in the well-characterized COSMOS-Clinic subcohort of 573 participants. Furthermore, our meta-analysis among over 5000 nonoverlapping participants across the 3 COSMOS cognitive substudies showed clear evidence of MVM benefits on both global cognition and episodic memory. Regarding clinical importance, the effect of daily MVM supplementation on global cognition over a duration of 2–3 y may translate to a reduction in cognitive aging by 2 y compared with placebo. Overall, our findings provide support for the benefits of an MVM supplement in preventing cognitive decline among older adults.

There is biologic plausibility for the findings, as combinations of vitamins and minerals interact with multiple biologic pathways that support cognitive health, and nutritional and micronutrient deficiencies in older adults may elevate risk of cognitive decline [8]. Prior RCTs testing single or limited combinations of vitamins or minerals on cognitive change have usually shown null results; however, short treatment durations (≤12 mo), lack of a baseline prerandomization cognitive assessment, the specific cognitive tests administered, insufficient statistical power, reliance on a post hoc analysis, or a combination of these factors limit cross-study comparisons [9–13]. In addition to the COSMOS-Clinic cognitive substudy, 3 other RCTs (that is, PHS II, COSMOS-Mind, and COSMOS-Web) [5–7] have investigated long-term (>12 mo) effects of a typical broad-based MVM on cognitive change among older adults. In COSMOS-Clinic, MVM supplementation led to better episodic memory scores over time compared with placebo; similar benefits were observed in COSMOS-Mind and COSMOS-Web studies [6,7]. Although COSMOS-Clinic had the smallest sample among the 3 COSMOS cognitive substudies, the estimate of the MVM effect on episodic memory was larger in the COSMOS-Clinic. The use of in-person assessments in COSMOS-Clinic, including the addition of tests from the CERAD, may have enhanced measurement precision.

Our meta-analysis of findings within COSMOS regarding the cognitive benefits of MVM supplementation among older adults has

All participants contributed to the repeated measure analysis at 1 and/or both time points. Adjusted mean differences (95% CI) between MVM and placebo groups in global cognition scores over a 2-y follow-up period are shown within subgroups. Analyses were not adjusted for multiple comparisons.

important implications for future clinical practice and scientific research. In clinical settings, MVM supplements merit greater consideration as a recommended treatment strategy to prevent cognitive decline among older adults without dementia at baseline. Also, in both PHS II and COSMOS, long-term MVM use is safe without notable adverse effects. Regarding implications for scientific research, further investigations should confirm findings among participants from more diverse backgrounds, with greater representation of the entire United States population. Additionally, future studies may incorporate ADRD biomarkers (for example, amyloid, tau), -omics (for example, epigenomics, microbiome, metabolomics), or genetics (for example, apolipoprotein E genotype) in an experimental framework to provide novel insights into how MVM supplements work to prevent cognitive decline and for whom they may be most effective.

Outside of the 3 COSMOS cognitive ancillaries (that is, COSMOS-Clinic, COSMOS-Mind, and COSMOS-Web), no other RCTs in the literature to date featured both prerandomization and follow-up neuropsychologic assessments, a comprehensive MVM supplement intervention (containing ≥20 vitamins and minerals), intervention durations of 12 mo or longer, and sufficiently large sample sizes ($n \geq 500$). Results regarding the MVM intervention in COSMOS cognition ancillaries differ from earlier findings in PHS II ($n = 5947$; mean age: 71.6 y), in which no MVM benefits on cognitive change were observed over an average follow-up of 10 y [5]. However, important differences between the COSMOS and PHS II trials should be noted. First, COSMOS included both older males and females, whereas PHS II included only older males. Second, PHS II started cognitive testing, on average, 2.5 y after randomization. As a result, cognitive benefits associated with MVM supplementation over the first 2–3 y of follow-up, observed in 3 COSMOS cognitive substudies, might have been missed in PHS II. Third, differences may be explained by subtle distinctions in the MVM formulations (Centrum Silver) from

PHS II to COSMOS (Supplemental Table 2), particularly with the addition of lutein and lycopene for COSMOS.

Study strengths should be noted: well-characterized sample; detailed in-person neuropsychologic assessments that assessed subtle changes across multiple cognitive domains; high adherence and retention rates. Furthermore, this report makes a unique contribution by including a meta-analysis of over 5000 COSMOS participants from 3 cognitive substudies randomly assigned to an MVM supplement compared with placebo with prerandomization and follow-up assessments, providing clear evidence for cognitive benefits of MVM supplementation among older adults.

There were also study limitations. First, COSMOS had relatively low racial and ethnic diversity, which may limit generalizability. Second, we are unable to determine whether specific individual vitamins or minerals of the MVM supplement may explain our observed cognitive benefits. Furthermore, we do not know whether these favorable results associated with the COSMOS MVM supplement (Centrum Silver) can be generalized to other broad-based MVM supplements, as our findings may or may not represent a class effect. Third, we did not control for type-1 error in secondary outcomes and subgroup analyses in COSMOS-Clinic; these findings should be considered exploratory. Fourth, although useful for clinical translation, a simplified approach to addressing the clinical relevance of daily MVM in terms of years of aging has inherent limitations.

Q7 In conclusion, among 573 COSMOS-Clinic subcohort participants who underwent repeat in-person, detailed neuropsychologic assessments over 2 y, MVM supplementation led to a statistically significantly more favorable change in episodic memory compared with placebo. A meta-analysis of 3 COSMOS cognitive substudies ($n >$ 5000) provided clear evidence that daily MVM use showed benefits for both global cognition and memory among older adults; the magnitude of effect on global cognition appears equivalent to reducing cognitive aging by 2 y. Our findings warrant consideration by clinical guidelines committees for the role of daily MVM use in preventing cognitive decline in older adults.

Background: Maintenance of cognitive abilities is of critical importance to older adults, yet few effective strategies to slow cognitive decline currently exist. Multivitamin supplementation is used to promote general health; it is unclear whether it favorably affects cognition in older age.
Objectives: To examine the effect of daily multivitamin/multimineral supplementation on memory in older adults.
Methods: The COcoa Supplement and Multivitamin Outcomes Study Web (COSMOS-Web) ancillary study (NCT04582617) included 3562 older adults. Participants were randomly assigned to a daily multivitamin supplement (Centrum Silver) or placebo and evaluated annually with an Internet-based battery of neuropsychological tests for 3 y. The prespecified primary outcome measure was change in episodic memory, operationally defined as immediate recall performance on the ModRey test, after 1 y of intervention. Secondary outcome measures included changes in episodic memory over 3 y of follow-up and changes in performance on neuropsychological tasks of novel object recognition and executive function over 3 y.
Results: Compared with placebo, participants randomly assigned to multivitamin supplementation had significantly better ModRey immediate recall at 1 y, the primary endpoint ($t(5889) = 2.25$, $P = 0.025$), as well as across the 3 y of follow-up on average ($t(5889) = 2.54$, $P = 0.011$). Multivitamin supplementation had no significant effects on secondary outcomes. Based on cross-sectional analysis of the association between age and performance on the ModRey, we estimated that the effect of the multivitamin intervention improved memory performance above placebo by the equivalent of 3.1 y of age-related memory change.
Conclusions: Daily multivitamin supplementation, compared with placebo, improves memory in older adults. Multivitamin supplementation holds promise as a safe and accessible approach to maintaining cognitive health in older age. This trial was registered at clinicaltrials.gov as NCT04582617.

Introduction

The maintenance of cognitive abilities is a top priority for older adults [1]. Healthy dietary patterns are implicated in slowing cognitive aging and may explain some degree of inter-individual differences in cognitive change over time [2]. Many older adults believe that taking vitamins or dietary supplements delays cognitive impairment [3], yet few larger-scale, longer-term randomized trials have rigorously tested this assumption. Although observational data suggest an association

between selected blood-derived vitamin concentrations, such as vitamin B_{12}, and cognition [4,5], results from randomized trials of multivitamins and cognitive change in older adults are mixed, with some meta-analytic evidence of improvement to immediate verbal memory [6] and others suggesting a null effect [7–9].

The recently completed COcoa Supplement and Multivitamin Outcomes Study (COSMOS; NCT02422745), a 2 × 2 factorial trial that examined the effect of dietary flavanol and multivitamin/multimineral (hereafter referred to as multivitamin) supplementation compared with placebo on cardiovascular and cancer outcomes in 21,442 older women and men with 3.6 y of follow-up [10–12], included 2 cognitive ancillary studies (Figure 1). In the COSMOS-Mind ancillary study, 2262 COSMOS participants underwent telephone-administered cognitive assessments over 3 y and reported that multivitamin supplementation benefited global cognition compared with placebo, an effect that was more prominent among participants reporting a history of cardiovascular disease (CVD) [13].

Here, we report results from the COSMOS-Web (NCT04582617) ancillary study, which was designed to examine the effects of dietary flavanol and multivitamin supplementation on hippocampus-mediated cognition in older adults after 1 y of intervention. There is converging work that the hippocampus is particularly susceptible to the effects of normal aging [14], and our previous intervention studies with dietary supplementation showed a positive effect on the hippocampus, indexed both by neuroimaging [15] and neuropsychological assessment [16]. This report focuses on the multivitamin intervention of COSMOS-Web; and the results of the cocoa flavanol intervention are reported separately [17]. In addition to providing the opportunity to replicate multivitamin results from the COSMOS-Mind ancillary study [13], the COSMOS-Web study extends these findings by focusing on outcomes hypothesized to be particularly vulnerable in aging through a novel approach to cognitive outcome assessment. We hypothesized that multivitamin supplementation, similar to our previous observations with cocoa flavanol supplementation, would affect hippocampus-mediated aspects of declarative memory. To test this hypothesis, we designed the COSMOS-Web cognitive battery, which included neuropsychological outcome measures designed to be sensitive to cognitive changes typically seen in older adults and to capture the dynamic range of cognitive function. A unique and innovative design element of the study was that neuropsychological outcome measures were collected remotely via self-administered Web-based assessment tools.

Methods

COSMOS trial

COSMOS-Web (NCT04582617) is an ancillary study to the COSMOS trial (NCT02422745), which examined the effects of daily cocoa extract and multivitamin supplementation for 3 y in a 2 × 2 double-blind, randomized controlled factorial design on cardiovascular and cancer outcomes. The nationwide recruitment of the COSMOS study population (N = 21,442) was described previously [10–12,18]. The 2 COSMOS intervention arms included 500 mg/d cocoa flavanol extract (including 80 mg (–)-epicatechin) capsules or a placebo (provided by Mars Edge) and a Centrum Silver daily multivitamin or placebo (provided by Pfizer Consumer Healthcare [now Haleon]; see [18] and Supplemental Data 1 for further details). Randomization occurred between April 2016 and March 2018. A computer-generated permuted block approach, blinded to study investigators, was used to randomly assign equal proportions of eligible participants to 1 of 4 treatment arms, as described previously [18]: *1*) active multivitamin + active cocoa extract; *2*) active multivitamin + cocoa extract placebo; *3*) active cocoa extract + multivitamin placebo; or *4*) cocoa extract placebo + multivitamin placebo. Randomization was stratified by gender, age (separate 5-y groups for women and men), and recruitment source, as described previously [18]. Active multivitamin and matching placebo and active cocoa extract and placebo were packaged in blinded monthly calendar packs and regularly sent to participants by US mail. Major exclusion criteria for the main COSMOS trial were age (<65 y for women, <60 y for men), history of myocardial infarction or stroke; diagnosis of invasive cancer within the past 2 y; other serious illnesses precluding participation; unwillingness to stop the use of cocoa extract, multivitamins, high dose vitamin D (>2000 IU/d), or high dose calcium (>1200 mg/d) supplements during the trial; extreme sensitivity to caffeine; <75% compliance to study pills during ≥2-mo placebo run-in period; and inability to communicate in English. Compliance was assessed during the placebo run-in from self-reports on mailed questionnaires returned from participants. After randomization and during follow-up, participants were sent questionnaires via mail or REDCap every 6 mo, on which they self-reported the number of pills missed during a typical month.

COSMOS-Web

COSMOS-Web (NCT04582617) was designed to test the primary hypothesis that supplementation with dietary flavanols improves memory over 1 y [15,16,19]. We separately reported the results for the primary arm of COSMOS-Web that examined the effect of dietary flavanol supplementation on cognitive outcomes [17]. Because the COSMOS-Web ancillary study was embedded in the parent COSMOS trial, we could additionally examine the effect of daily multivitamin supplementation. The COSMOS-Web prespecified primary outcome was performance on the immediate recall trial of the ModRey test [20] following 1 y of intervention. Prespecified secondary outcomes included change in ModRey immediate recall performance after 2 and 3 y, ModRey retention (the ratio of delayed recall to immediate recall), performance on tests of novel object recognition (ModBent; [15]), and executive function (Flanker; [21]). Our decision to assess the primary outcome at the 1-y endpoint was constrained by the design of the parent COSMOS trial and based on our interest in examining a sustained effect of the supplementation when adherence and study pill compliance would be highest to maximize statistical power and reduce potential bias from selective dropouts. Leveraging the 3-y design of the main COSMOS trial, we additionally assessed performance after 2 and 3 y, and averaged over the 3-y follow-up period, as secondary outcomes.

Participants

During the enrollment process, participants in the COSMOS trial were mailed an invitation to enroll in the COSMOS-Web study. The COSMOS-Web enrollment period spanned from August 2016 to August 2017. In addition to inclusion criteria for the COSMOS trial, the COSMOS-Web study required participants to have access to an Internet-connected computer. Instructions on how to access the study online were emailed to the participants who enrolled in COSMOS-Web. Participants received a $15 gift card for attempting each annual assessment, regardless of completion. COSMOS-Web received ethical approval from the Institutional Review Boards at Partners Healthcare/Mass General Brigham and Columbia University.

Participants completed the baseline COSMOS-Web assessment during the placebo run-in period to evaluate compliance and continued eligibility before randomization. Subsequently, they completed follow-up COSMOS-Web assessments annually for 3 y after the baseline assessment. All assessments used the same COSMOS-Web cognitive

FIGURE 2. Schematic depiction of the COSMOS-Web Tasks: *1*) ModRey list learning task: Participants were presented with a list of 20 words, one at a time, for 3 s each, with the instruction to try to remember the words. Recall was assessed, by having participants type in all the words they remembered, immediately after the word list was presented, and again after ~15-min delay, following administration of the other tests in the battery. To account for the possibility of typographical errors, responses with ≥80% match to the letters in the original word were scored as correct, unless they spelled out a different common English word. For example, for "river," "riber" would be counted as correct, but "rider" would not. *2*) ModBent object recognition task: Participants first complete 20 matching trials where they are shown a stimulus and are asked to pick it out from an array of two stimuli. Then participants complete 40 forced-choice recognition trials where they indicate if a given stimulus had been studied in the matching trials, and *3*) Flanker task: Participants are shown an array of colored arrows, and asked to indicate the color of the central arrow as a test of executive control. Trials vary on directional congruency (that is, whether the direction of the arrow matches the correct response) and color congruency (that is, whether the surrounding arrows are the same color as the central arrow). battery, with counterbalancing on stimulus sets presented across sessions and participants.

COSMOS-Web online platform

Neuropsychological outcome measures were collected via the self-administered COSMOS-Web cognitive battery on home computers. Cognitive tests were administered using the Inquisit-Web platform (Millisecond Software). Following instructions, participants downloaded an Inquisit-Web client and the COSMOS-Web battery on their home computers, where the software was operated locally to avoid latency variability in reaction time measurements. After the completion of the battery, participants' performance data were uploaded automatically to the Inquisit servers. A phone helpline was provided to aid participants if they had technical difficulties.

The COSMOS-Web cognitive battery consisted of 3 neuropsychological instruments, the ModRey, the ModBent, and the Flanker test. The ModRey immediate recall trial [20] is the outcome measure designed to be most sensitive and specific to hippocampus function [22] and we, therefore, prespecified it as our primary outcome measure. Although the ModBent task [15,16] was previously proposed as a primary outcome based on its association with dentate gyrus function, we had concerns about its psychometric properties and changed it to a secondary outcome before the completion of the trial and before analyzing any data in the trial. The Flanker test reflects prefrontal cortex function [21] and the retention trial of the ModRey test reflects entorhinal cortex function [23], a cognitive operation not hypothesized to be differentially affected by normal aging. We included the Flanker and ModRey retention trials to test the specificity of our hypothesis regarding hippocampus function.

In addition to using well-established paradigms in the cognitive aging literature and previous literature providing evidence for the validity of these paradigms in the target population [15,16,20,21,24–26], we conducted a small pilot study (unpublished) confirming that in a group of community-dwelling older adults performance assessed with the remote battery was comparable with the performance on the original, in-person, versions of the outcomes.

Cognitive battery

The COSMOS-Web cognitive battery included the following tasks (Figure 2):

- One-trial ModRey, a 20-item word recall task measuring episodic memory [20]. The primary outcome measure was the number of words recalled immediately (immediate recall), which is related to hippocampus function [22]. The secondary outcome measure was the ratio of words recalled after a delay to words recalled immediately (retention), which relates to entorhinal cortex function [23]. The delay trial was administered after administration of the other tests in the battery.
- Short-form ModBent, a test of novel object recognition [15]. The outcome measure was the reaction time to correctly reject the lures during the recognition trials. This task is related to the functioning of the dentate gyrus of the hippocampus [15].

- Color/Directional Flanker, a measure of executive control [21]. The outcome measure was the size of the directional Flanker effect (that is, the difference in reaction time between directionally congruent and incongruent trials). Performance on this task is mediated by the prefrontal cortex [21].

Statistical analysis

An intention-to-treat (ITT) analysis included randomly assigned participants who had a baseline plus ≥1 follow-up measurement completed (years 1, 2, or 3) regardless of pill compliance [18]; 3562 (90.0%) participants made up the ITT sample (see CONSORT diagram, Figure 3). The proportion of randomly assigned participants included in the ITT analysis was similar between treatment groups [$n = 1758$ of 1962 (89.6%) multivitamin group; $n = 1804$ of 1998 (90.3%) placebo group]. Completion of follow-up measurements for the primary outcome, ModRey, at years 1, 2, and 3 among the ITT sample was 95.3%, 87.3%, and 82.9%. Pill compliance (not missing >8 d/mo of study pills) based on self-reported pill counts was high among the ITT sample (6, 12, 18, 24, 30, and 36 mo: 94.4%, 91.8%, 87.0%, 86.6%, 82.7%, and 77.1%, respectively) with no difference between randomly assigned groups at any assessment (all $\chi^2(2) \leq 4.4$, all $P \geq 0.10$). We also defined a nonoverlapping sample as the subset of 2475 participants who did not participate in the related COSMOS-Mind study [13].

A per-protocol sample was defined as the subset of participants who met the definition for pill compliance in the first year. A total of 3189 participants in the ITT sample were included in the per-protocol sample. Task data were set to missing for the years 2 and 3 visits if a participant reported having missed >8 doses/mo at any of the compliance assessments preceding the given visit. Analyses were conducted with SAS 9.4.

Demographic, clinical, and baseline cognitive data were summarized in the ITT sample by treatment group, along with standardized absolute mean differences between groups (values > 0.25 were considered to be nontrivial imbalance due to chance).

Linear mixed-effects models tested for differences between treatment groups in changes in the primary outcome (ModRey immediate recall) from baseline to the 1-y follow-up visit within the ITT sample, the nonoverlapping sample, and the per-protocol sample. Additional linear mixed-effects models were used for secondary outcomes (ModRey immediate recall from baseline to the 2- and 3-y follow-up, and averaged over all 3 y of follow-up, ModRey retention, ModBent correct rejection, and Flanker direction effect from baseline to 1-, 2- and 3-y follow-up visits). Predictors were the baseline value of the respective outcome, dichotomous treatment (multivitamin or placebo), categorical visit, treatment × visit interaction, and a random intercept to account for repeated measures. For all mixed-effects models, missing data for follow-up were accounted for under a missing at-random assumption. Cohen's d effect sizes were calculated for all estimated treatment differences using baseline standard deviations of each variable across all participants to allow the direct comparison of magnitude. These analyses were repeated with the nonoverlapping and the per-protocol samples. A linear regression model tested the association between age and baseline ModRey immediate recall scores to estimate the expected memory decline for each year of aging. The mean treatment difference was divided by the expected memory decline per

year of aging to determine the effect of multivitamin intervention in years of cognitive aging.

Based on results from the COSMOS-Mind study [13], which showed differential effects of multivitamin supplementation by baseline history of CVD, we conducted post hoc analyses that examined the interaction of treatment condition and baseline history of CVD, controlling for baseline performance and the interaction between history of CVD and baseline performance. History of CVD was defined as a dichotomous variable indicating a self-reported history of any of the following at baseline: transient ischemic attack, congestive heart failure, coronary artery bypass graft, percutaneous transluminal coronary angioplasty, or stent (those with a prior history of myocardial infarction or stroke at baseline were excluded from the parent trial).

In COSMOS, safety data were routinely collected via follow-up questionnaires sent to participants every 6 mo for 16 different prespecified self-reported symptoms and conditions. We also collected data on spontaneous reports from participants via phone, e-mail, or other communications. These and other self-reported outcomes collected on follow-up questionnaires were systematically evaluated by an external Data and Safety Monitoring Board (DSMB) to ensure that there were no adverse safety signals that warranted consideration.

Results

Baseline characteristics

Characteristics of the 3562 participants included in the ITT sample are displayed in Table 1. Baseline demographic characteristics, performance on the outcome measures, and alternative Healthy Eating Index (aHEI; [27]) scores were similar between the randomly assigned multivitamin and placebo groups. The nonoverlapping sample of COSMOS-Web participants differed slightly from the overall ITT sample (Supplemental Table 1). Baseline demographic, dietary, and cognitive characteristics were similar between groups in the per-protocol sample and were comparable to the overall COSMOS-Web sample (Supplemental Table 2).

Multivitamin supplementation improved memory

A linear mixed-effects model using the ITT sample showed that, compared with placebo, participants receiving multivitamin supplementation had significantly greater improvement in ModRey immediate recall memory between baseline and year 1 (Table 2 and Figure 4), the primary prespecified outcome for the study. Performance on the ModRey improved from a mean of 7.10 words at baseline to 7.81 words after 1 y in the multivitamin supplementation group and from an average of 7.21 words at baseline to 7.65 words after 1 y in the placebo group. The contrast estimate of the multivitamin compared with placebo effect averaged across all 3 y of follow-up demonstrated a significant effect of the multivitamin intervention, suggesting that the memory improvement is sustained, on average, over ≥3 y postbaseline (Table 2). In contrast, secondary outcomes did not differ significantly between groups in any of the follow-up years. The same effect on the primary outcome remained significant in the nonoverlapping sample that did not include participants co-enrolled in COSMOS-Mind (Supplemental Table 3), and in the per-protocol sample (Supplemental Table 4).

Treatment differences in terms of age-related memory differences

Each year of aging was associated with a baseline ModRey immediate recall memory reduction of 0.074 words ($B = -0.074$; 95% CI: 0.056, 0.092; $\beta = -0.110$; $P < 0.001$). Dividing the mean treatment difference of the multivitamin intervention compared with placebo at the 1-y primary endpoint by this value suggests that the effect of multivitamin supplementation was equivalent to ~3.1 y of age-related memory change on the ModRey.

Multivitamin supplementation and history of CVD

Individuals with a history of CVD had lower baseline ModRey scores than those without a history of CVD (mean difference = 1.04 words, SE = 0.26 words, $t(3558) = 4.05$, $P < 0.0001$). In the ITT sample, the effect of multivitamin supplementation on improvement in ModRey immediate recall memory at the 1-y follow-up was significantly higher than placebo in participants reporting a history of CVD compared with participants with no history of CVD [mean difference in treatment differences = 1.24 words, SE = 0.48 words, $t(5885) = 2.60$, $P = 0.009$ (Supplemental Table 5)]. The same effect was observed in the per-protocol sample [mean difference in treatment differences = 1.29 words, SE = 0.51 words, $t(4638) = 2.29$, $P = 0.011$ (Supplemental Table 6)], but only trended toward significance in the nonoverlapping sample [mean difference in treatment differences = 1.05 words, SE = 0.60 words, $t(4292) = 1.40$, $P = 0.081$ (Supplemental Table 7)].

Safety

Overall in the COSMOS trial, comparing side effects of multivitamin supplementation with placebo included lower rates of stomach pain, diarrhea, skin rash, and bruising, but an increased rate of gastrointestinal bleeding [12].

Discussion

Daily multivitamin supplementation improved immediate recall memory after 1 y among older adults, above practice effects observed in a placebo group. Examining the change from baseline averaged over 3 y, the effect of multivitamin supplementation on memory was sustained over the 3 y of the COSMOS trial. In contrast, we found that multivitamin supplementation did not significantly affect memory retention, executive function, or novel object recognition. Based on cross-sectional analysis of the association between age and performance on the ModRey, we estimated that the effect of the multivitamin intervention improved memory performance above placebo by the equivalent of 3.1 y of age-related memory change. Our study provides evidence that multivitamin supplementation can help maintain or enhance cognitive functioning in later life, a top health concern among older adults [1]. Although our observed effect size is small and may not be noticeable to all individuals receiving multivitamin supplementation, even small effect sizes can result in large health benefits at the population level [28]. Vitamin supplementation is relatively inexpensive, accessible, and has a few adverse effects, and thus might be a potentially useful population health intervention. In addition to its documented impact on nutritional status and selected health outcomes [29–31], our study provides a strong parallel replication of the findings in the COSMOS-Mind ancillary study [13], which found benefits for a multivitamin on a global composite cognitive score and on composite scores for memory and executive function, including among individuals with a history of CVD who might have insufficient or deficient micronutrient concentrations [32]. We found very similar benefits for memory, and we also confirmed that multivitamin supplementation may improve memory after 1 y among nonoverlapping participants

between the 2 ancillary studies. Participants in the 2 treatment arms had very similar baseline dietary patterns, as indexed by the aHEI (Table 1), which were consistent with averages from the US population [33]. We therefore do not believe that differences in background dietary quality confounded the results and we did not have a priori or prespecified hypotheses with respect to effect modification by dietary status. A major innovation of our study was the incorporation of novel neuropsychological outcome measures, designed specifically to detect subtle aspects of cognitive aging that were self-administered via a Web-based platform. This approach affords several advantages over traditional methods that rely on in-person testing with traditional neuropsychological instruments. We assessed thousands of participants in ~15,000 individual testing sessions over 36 mo, which maximized statistical power and geographical representation. A previous trial that tested a multivitamin on cognitive outcomes [9] relied on clinical neuropsychological outcomes that were designed to detect frank cognitive impairment; these scales may result in performance at the ceiling for many participants and lack sensitivity to detect meaningful individual differences among cognitively healthy adults. That study, which included close to 6000 older men, showed that multivitamin supplementation did not affect a global cognition composite score over a period of ≤12 y [9]. Because the baseline cognition assessment was not performed until 2.5 y after randomization, the study could not assess the shorter-term effects of multivitamin supplementation.

We created the COSMOS-Web battery to capture variation in cognitive functioning among healthy older adults by designing tests with varying difficulty, without ceiling effects, and with the ability to capture finely calibrated reaction times. The computerized administration of the test removes systematic biases due to variable interexaminer and site reliability. We also explored whether the multivitamin supplementation differentially affected individuals with a history of CVD. Consistent with the recent report from Baker and colleagues [13], our results show a relatively stronger impact of multivitamin supplementation on memory among those reporting a history of CVD. Participants with a history of CVD had worse baseline memory performance than those without. However, after 1 y of multivitamin supplementation, their performance recovered to a level comparable to those without CVD. The implication here is that multivitamin supplementation might attenuate micronutrient deficits observed in people with CVD [34,35], which might underlie the reduced baseline memory performance.

Our study provides evidence that multivitamin supplementation has cognitive benefits but does not provide information about the underlying mechanisms that mediate this effect, or specific essential nutrients for cognitive aging [36]. We note that the selective effect of the multivitamin intervention on immediate recall memory—a cognitive operation that is particularly vulnerable in normal cognitive aging [37]—suggests that one possible mechanism for the cognitive effects of multivitamin intervention could be through micronutrient receptors in the hippocampus [38]. As the hippocampus is differentially affected by age, the detection of the cognitive effects of multivitamins in older adults might be most obvious with tasks that are hippocampus dependent. However, it is important to note that all cognitive tasks depend on networks of brain regions, and that multivitamin supplementation might also act on any number of other regions of the brain to produce the observed cognitive effects. Low vitamin concentrations, including vitamin B_{12} and vitamin D, may be linked to cognitive decline [4,5] and dementia [39,40]. We measured selected vitamin concentrations in the blood for a small subset of participants, confirming increases in folate, vitamin B_{12}, and serum 25(OH)D with multivitamin supplementation compared with placebo [12]. Future studies should examine specific nutrients or nutrient combinations that contribute to cognitive health in aging.

The strengths of the study are the large sample size, high compliance with study pills, methodological rigor of the clinical trial, and an innovative and highly scalable cognitive assessment. A key potential limitation of this study, however, is the generalizability of our results. Participants had to meet requirements to have a computer, a degree of computer skills, and internet connectivity and comprised more highly educated, mostly White participants. Therefore, our findings might not generalize to a more educationally and racially/ethnically diverse population. Further, although we could not perform a comprehensive clinical assessment of cognitive status at baseline, the large sample size and randomization scheme provide reassurance that participants with cognitive impairment at baseline would be evenly distributed between treatment groups.

In conclusion, in the COSMOS-Web ancillary study, daily multivitamin supplementation improved verbal memory in older adults at 1 y, an effect that was sustained, over the duration of the trial. Our findings provide support for the cognitive benefits found with multivitamin supplementation in a parallel and independent subcohort in COSMOS [13], warranting further consideration of multivitamin supplementation as a targeted, safe, and accessible approach to slow cognitive decline in older adults.

Hi there,

Please see below and attached for information on the Centrum MVM & Cognition Studies. I'm happy to do any follow-up discussion on this topic with Rep. Shilpley, Director Garcia, or their medical director. We know from previous nutrition research data that older adults have compromised dietary intakes of many nutrients and these studies now give us evidence of tangible benefits – and from well-done studies conducted independently of Haleon.

Centrum brand multivitamins have now been studied in 3 ancillary clinical studies from the large COSMOS parent trial (https://cosmostrial.org/) conducted by investigators at Brigham & Women's Hospital/Harvard Medical School. The three studies examined cognitive health in aging adults 65+ and found daily multivitamin use in this population had a significant positive effect on Global Cognitive Function & Memory.

Summary of 3 studies below and I've attached the three publications.

Abstract

Introduction: Dietary supplements are touted for cognitive protection, but supporting evidence is mixed. COSMOS-Mind tested whether daily administration of cocoa extract (containing 500 mg/day flavanols) versus placebo and a commercial multivitamin-mineral (MVM) versus placebo improved cognition in older women and men.

Methods: COSMOS-Mind, a large randomized two-by-two factorial 3-year trial, assessed cognition by telephone at baseline and annually. The primary outcome was a global cognition composite formed from mean standardized (z) scores (relative to baseline) from individual tests, including the Telephone Interview of Cognitive Status, Word List and Story Recall, Oral Trail-Making, Verbal Fluency, Number Span, and Digit Ordering. Using intention-to-treat, the primary endpoint was change in this composite with 3 years of cocoa extract use. The pre-specified secondary endpoint was change in the composite with 3 years of MVM supplementation. Treatment effects were also examined for executive function and memory composite scores, and in pre-specified subgroups at higher risk for cognitive decline.

Results: A total of 2262 participants were enrolled (mean age = 73y; 60% women; 89% non-Hispanic White), and 92% completed the baseline and at least one annual assessment. Cocoa extract had no effect on global cognition (mean z-score = 0.03, 95% CI: -0.02 to 0.08; $P = .28$). Daily MVM supplementation, relative to placebo, resulted in a statistically significant benefit on global cognition (mean z = 0.07, 95% CI 0.02 to 0.12; $P = .007$), and this effect was most pronounced in participants with a history of cardiovascular disease (*no history*: 0.06, 95% CI 0.01 to 0.11; *history*: 0.14, 95% CI -0.02 to 0.31; interaction, nominal $P = .01$). Multivitamin-mineral benefits were also observed for memory and executive function. The cocoa extract by MVM group interaction was not significant for any of the cognitive composites.

Discussion: Cocoa extract did not benefit cognition. However, COSMOS-Mind provides the first evidence from a large, long-term, pragmatic trial to support the potential efficacy of a MVM to improve cognition in older adults. Additional work is needed to

Highlights

- COSMOS-Mind was a large simple pragmatic randomized clinical trial in older adults conducted by mail and telephone.
- The trial used a two-by-two factorial design to assess treatment effects of two different interventions within a single large study.
- We found no cognitive benefit of daily cocoa extract administration (containing 500 mg flavanols) for 3 years.
- Daily multivitamin-mineral (MVM) supplementation for 3 years improved global cognition, episodic memory, and executive function in older adults.
- The MVM benefit appeared to be greater for adults with cardiovascular disease.

1 | BACKGROUND

There is an urgent need to identify effective strategies to preserve cognitive function to mitigate the heavy societal burden associated with Alzheimer's disease (AD) and related dementia, which affect more than 46 million people worldwide.[1] No interventions to prevent cognitive decline in asymptomatic older adults have been approved by the United States Food and Drug Administration (FDA), and to date, there is insufficient evidence to support a clinical benefit of any pharmacologic treatment for adults with mild cognitive impairment due to AD.[2,3] Identifying a safe, affordable, and accessible intervention to protect cognitive function against decline in older adults is a pressing public health priority.[4]

Cocoa, in its unprocessed form, contains high quantities of catechins and epicatechins, members of a subclass of flavonoids known as flavanols,[5,6] and modest amounts of theobromine (an alkaloid of the cacao bean) and caffeine. Dietary consumption of cocoa flavanols may slow cognitive decline through improved cerebral vasodilation,[7] blood flow, perfusion and angiogenesis.[8,9] Epicatechin, the most common flavanol in cocoa, is rapidly absorbed, readily crosses the blood-brain barrier, can be detected in the brain,[10] and may have accumulating physiological effects at higher levels.[11,12] Much of the support for cognition-enhancing effects of flavonoids in healthy older adults comes from epidemiological studies,[13,14] and a few small clinical trials.[15–17] Memory and executive function appear to benefit the most, particularly with higher amounts of cocoa flavanols (500–750 mg/day), according to a recent review.[18]

Individual micronutrients and minerals target multiple biologic pathways that support normal body and brain function,[19] and deficiencies in older adults may increase risk for cognitive decline and dementia.[20] Trials of single nutrients such as folic acid with or without other B vitamins,[21–24] omega-3 fatty acids,[25,26] and vitamin D[20,27,28] on cognition have yielded mixed results, which could reflect either no benefit or study design issues that impede cross-study comparisons. Some of these issues relate to the specific micronutrients tested (alone or in combination), the specific cognitive tests administered, the outcome measure (single test vs. composite score), and participant demographics and nutritional status.[29,30] Although not without controversy, particularly with respect to potential cognition-enhancing effects of B vitamins,[21,22] the conclusion of meta-analytic reviews is that the evidence is insufficient to encourage care providers to recommend use of individual nutrient supplements for brain health.[31,32]

Longer-term daily intake (>12 months) of a multivitamin-mineral (MVM) alone or with other dietary supplements to enhance global cognitive function in older adults (≥65 years) has been examined in just one large randomized controlled trial (RCT), which included only male physicians.[33] Further study is needed given their widespread use in the general population.[34] Here we tested whether daily treatment with cocoa extract (CE) and/or a MVM for 3 years protected cognitive function in older adults.

2 | METHODS

2.1 | Study design

COSMOS-Mind (COcoa Supplement and Multivitamin Outcomes Study of the Mind) was an ancillary study to a large pragmatic, placebo-controlled, 2 × 2 factorial clinical trial testing the effects of daily supplementation with cocoa extract (CE) and/or a MVM on cardiovascular and cancer outcomes.[35–37] Given that no additive or synergistic effects were expected with CE and MVM supplementation, the 2 × 2 factorial design provided an efficient strategy to examine treatment effects of two different agents within a single trial. The CE (Mars Edge,

of Mars, Inc.) contained 500 mg of cocoa flavanols, including 80 mg (-)-epicatechins and modest amounts of theobromine (~50 mg/day) and caffeine (~15 mg/day) that likely enhance flavanols' central and vascular effects.[38,39] The 500 mg/day of cocoa flavanols exceeds mean reported intake[40] and is consistent with amounts tested in short-term cardiovascular trials.[41] The essential nutrients contained in the MVM (Centrum Silver; Pfizer Consumer Healthcare, now Haleon) are listed in Table S6. COSMOS-Mind examined the effects of these supplements on cognitive function, and the details of study design, participant demographics, and baseline characteristics are published.[42] The study was conducted in accordance with The Code of Ethics of the World Medical Association, and was approved by the Institutional Review Board of Wake Forest University School of Medicine.

2.2 | Participants

Enrollment of two thousand parent trial participants was targeted for COSMOS-Mind. Parent trial eligibility criteria included: (1) no history of myocardial infarction (MI) or stroke (history of other cardiovascular events including transient ischemic attack, congestive heart failure, coronary artery bypass graft, angioplasty, and stent was permitted); (2) no history of cancer within the past 2 years (excluding non-melanoma skin cancer); (3) no serious illness precluding participation; (4) not taking cocoa or vitamin/mineral supplements, or, willing to forego use during the trial; (5) no reported extreme sensitivity to cocoa products or caffeine; (6) successful completion of ≥2-month placebo run-in with ≥75% study pill adherence; and (7) not currently participating in another clinical trial. Additional COSMOS-Mind eligibility criteria included: (1) ≥65 years of age; (2) not taking insulin for diabetes; and (3) able to complete the telephone cognitive assessment (to screen out participants with significant impairment). Participants provided informed consent and received a $15 gift card upon completion of each assessment.

2.3 | Randomization and masking

Randomization was controlled by the parent trial using a computer-generated sequential list of random allocations for the four treatment combinations.[36,37] The random allocation sequence was created using SAS statistical software (version 9.4) and was stratified by sex, age (5-year bins), and recruitment source (Brigham and Women's Hospital, Women's Health Initiative). All trial investigators, examiners, and participants were masked to treatment group assignment.

2.4 | Procedures

As previously described,[42] parent trial participants were recruited through mailings to Women's Health Initiative Extension Study participants and by Brigham and Women's Hospital to participants contacted for, but not randomized into, the vitamin D and OmegA-3 TriaL, and through commercial mailing lists and media campaigns. As a result, 35,669 adults began a placebo run-in, of which 21,442 (60%) were ultimately randomized into COSMOS. During the placebo run-in, eligible candidates received an invitation to also participate in COSMOS-Mind. Interested individuals were contacted to: (1) provide more information about the ancillary study, (2) test for hearing acuity, and (3) schedule the baseline telephone cognitive assessment. Individuals from traditionally underrepresented groups in research (self-identified as American Indian/Alaska Native, Asian/Pacific Islander, Black/African American, Hispanic; completing 12 years or less of education) were prioritized in the COSMOS-Mind initial contact queue (pre-randomization) to increase their representation in the sample. Demographics and baseline anthropometrics (height, weight) and medical history were provided by participants via questionnaires.

RESEARCH IN CONTEXT

1. **Systematic review**: The literature was reviewed using PubMed and MEDLINE. Much of the support for potential cognitive benefits of cocoa flavanols in older adults is based on observational studies. Only a few controlled trials have examined the effects of a multivitamin-mineral (MVM) supplement on cognition for older adults.
2. **Interpretation**: There was no cognitive improvement with daily intake for 3 years of cocoa extract containing 500 mg/day cocoa flavanols. However, we provide the first evidence in a long-term, randomized controlled trial of older women and men that daily use of a safe, readily accessible, and low-cost MVM can improve cognition. This finding could have important public health implications for brain health and resilience against future cognitive decline.
3. **Future directions**: Our results challenge the current status quo regarding the efficacy of MVM supplementation to improve cognitive function and set the stage for new avenues of research to identify mechanisms and alternate approaches involving combination therapy.

2.5 | Outcomes

A standardized telephone cognitive battery was administered at baseline and annually for 3 years to assess general cognitive status, episodic memory and executive function. Tests included the 50-point modified Telephone Interview for Cognitive Status (TICSm with 10-minute short delay word list recall), an additional 40-minute Long Delay Word List Recall,[43] immediate and delayed Story Recall (SRI & II),[44] Oral Trail-Making Test Part B (OTMT-B, log transformed; Part A was administered for practice only),[45] Verbal Fluency by category (VF-C) and letter (VF-L),[46] Number Span (NS),[47] and Digit Ordering Test (DOT).[48]

Details about testing procedures, including hearing acuity screening, and administration and scoring are published.[42]

The primary outcome was a global cognition composite (reported as a z-score based on baseline data from the study cohort) formed from mean standardized (z) scores of pre-specified individual test metrics, with higher scores reflecting better performance. Key secondary outcomes included an episodic memory composite (Long Delay Word List Recall, SRI, SRII) and an executive function composite (OTMT-B, VF-C, VF-L, NST, DOT) that were also formed using mean standardized (z) scores.

Tertiary outcomes included the Cognitive Change Index (CCI),[49] a self-report measure of cognitive concerns, and the short 15-item version of the Geriatric Depression Scale (GDS-SF) to permit subgroup analyses for individuals scoring low and high on these scales. Adverse events were recorded by the parent trial, and events reported during a cognitive assessment were relayed to the COSMOS team for tracking and follow-up.

2.6 | Statistical analyses

The primary and secondary endpoints have been previously described[42] and were pre-specified in the protocol (provided as a supplement). We followed the intention-to-treat approach: all participants were grouped as originally randomly assigned and scores from all cognitive assessments (baseline and Years 1, 2 and 3) for all participants were included in analyses. Scores were used as dependent variables in linear mixed effects models. Time was a categorical factor. No covariates were included in models for the primary comparisons. As specified in the protocol, inference was based on the mean difference of scores obtained across follow-up assessments relative to the baseline score for participants assigned to receive CE versus CE-placebo (primary endpoint), and for participants assigned to receive MVM versus MVM-placebo (key secondary endpoint). That is, for means at Years 0, 1, 2, and 3 represented by μ_0, μ_1, μ_2, and μ_3, this can be expressed as $(\mu_1 + \mu_2 + \mu_3)/3 - \mu_0$. Separate linear contrasts were used to compare active and placebo arms by CE and by MVM group assignment. For example, the contrast for CE effects is described by $[(\mu_{CE1} + \mu_{CE2} + \mu_{CE3})/3 - \mu_{CE0}] - [(\mu_{CE\text{-}PL1} + \mu_{CE\text{-}PL2} + \mu_{CD\text{-}PL3})/3 - \mu_{CE\text{-}PL0}]$, where μ_{CE} and $\mu_{CE\text{-}PL}$ represent the marginal means for CE and CE-placebo at each time point, respectively. This corresponds to an intention-to-treat approach in which all data are included in analyses irrespective of follow-up. We chose to parameterize our primary and secondary endpoints as mean differences from baseline across follow-up to avoid making specific assumptions about the nature of intervention effects (for example, we did not assume that intervention effects accumulated linearly and base comparisons on differences between slopes) and to treat any differences at each of the time points equally. We explored interactions between the CE and MVM treatments and the consistency of CE and MVM treatment effects among subgroups (using forest plots[50]) based on sex, and baseline age (<70 or ≥70 years), body mass index (BMI; < 25, 25-29, ≥30 kg/m^2), general cognitive function (TICSm tertiles), subjective cognitive concerns (CCI median split), depressive symptoms (GDS-SF median split), type 2 diabetes, history of hypertension, and history of CVD (based on self-report of transient ischemic attack, congestive heart failure, coronary artery bypass graft, angioplasty, or stent). Subgroups were pre-specified given their possible associations with cognitive and/or cardiovascular response to the interventions.[51–53] Multiple imputation by fully conditional specification was used to examine the influence of missing data.[54] No adjustments were made for multiple comparisons. The targeted 2000-person sample was projected to provide >90% power to detect an effect size of 0.10 standard deviations (see Statistical Power supplement for more information. Analyses were performed using SAS v9.4.

3 | RESULTS

COSMOS-Mind participants were enrolled from August 2, 2016 to August 17, 2017. A total of 5342 individuals screening for the parent trial were approached for ancillary study enrollment. Phone calls were attempted for 3223 individuals (60%) and of these, 2262 (70%) were enrolled in COSMOS-Mind (Figure 1). Baseline characteristics and baseline cognitive test scores were well balanced across treatment groups (Table 1 and Table S1). Of enrolled participants, 2082 (92%) completed the cognitive assessment at Year 1, 1906 (84%) at Year 2, 1790 (79%) at Year 3, and 1732 (77%) in all 3 years of follow-up. Relative to participants who completed all assessments, those missing at least one assessment were more likely to be from underrepresented racial or ethnic groups, reported less physical activity and chocolate intake and more smoking, tended to have lower education and baseline TICSm scores, and higher prevalence of type 2 diabetes (Table S2). Characteristics of participants with no follow-up data (N = 180) are provided in Table S3. Self-reported compliance (pill count) was comparable across treatment groups (% taking ≥75% study pills in Years 1, 2, and 3: 92%, 88%, and 84%).

Figure 2A shows change in global cognition, relative to baseline, for participants assigned to CE (Figure 1, Groups 2 & 4) versus CE-placebo (Figure 1, Groups 1 & 3). Mean scores in both CE groups increased through the first 2 years (likely due to retest practice effects[55]) and then plateaued but did not differ significantly from one another. The mean change (CE minus CE-placebo) z-score for global cognition was 0.03 (95% CI: -0.02 to 0.08; P = .28). In contrast, Figure 2B shows a significant treatment effect of MVM (Figure 1, Groups 3 & 4) versus MVM-placebo (Figure 1, Groups 1 & 2) on global cognition (secondary endpoint), with a mean change (MVM minus MVM-placebo) z-score of 0.07 (95% CI: 0.02 to 0.12; P = .007). Baseline MVM use was not associated with MVM treatment response (*no prior use*: 0.062, 95% CI: -0.002 to 0.13; *prior use*: 0.077, 95% CI: 0.003 to 0.15; interaction, nominal P = .88).

In pre-specified subgroup analyses of the primary outcome (global cognition composite), forest plots of CE effects (Figure 2C) suggest that response may vary with baseline BMI. Figure 2D forest plots show a relative benefit of MVM versus MVM-placebo for participants with a

CVD history (*no history*: 0.06, 95% CI: 0.01 to 0.11; *history*: 0.14, 95% CI: -0.02 to 0.31; interaction, nominal $P = .01$). As seen in Figure 3, at baseline, participants without CVD history outperformed those with CVD history on the global cognition composite (mean difference = 0.22, 95% CI: 0.08 to 0.37; $P = .003$); after Year 1, the MVM-placebo declined while the MVM group showed relative improvement (or protection against decline). There was no evidence of disproportionate loss of Year 3 data by CVD history (Table S4). The CVD history subgroup (compared to subgroup without CVD history) included more men, and tended to be older, have higher BMI, more hypertension, more statin use, more depression, less physical activity, and lower scores on the TICSm. When participants with CVD history were excluded in a sensitivity test from the overall analysis of MVM effects on the global cognition composite, the main MVM finding remained unchanged (mean change z-score = 0.06, 95% CI: 0.01 to 0.11; $P = .02$). That is, even though the pattern of results differed for subgroups with and without CVD at baseline, 3 years of MVM treatment improved global cognition for all participants, not just those with CVD history.

CE had no effect on the episodic memory composite (mean change z-score = 0.03, 95% CI: -0.04 to 0.09; $P = .40$) or on the executive function composite (mean change z-score = 0.03, 95% CI: -0.02 to 0.08; $P = .23$) (Figure S1). In contrast, but consistent with the positive MVM effect described above, MVM supplementation led to relative improvements both for memory (mean change z-score = 0.06, 95% CI: 0.002 to 0.13; $P = .04$) and for executive function (mean change z-score = 0.06, 95% CI: 0.01 to 0.11; $P = .02$) (Figure 4).

There was no evidence for an interaction between CE and MVM supplementation for the primary outcome (mean change z-score [95% CI]; CE-placebo/MVM-placebo: 0.15 [0.10 to 0.20]; CE/MVM-placebo: 0.15 [0.11 to 0.20]; CE-placebo/MVM: 0.20[0.15 to 0.24]; CE/MVM: 0.24 [0.19 to 0.29]; interaction, $P = .40$) or for the memory and executive function composites. That is, adding CE did not alter the benefit of MVM on cognition.

Multiple imputation provided no evidence that differential attrition biased the results (Table S5), and there were no safety concerns of supplement use during the trial.

4 | DISCUSSION

COSMOS-Mind is the first large-scale, long-term RCT to assess the effects of cocoa extract and a MVM supplement on global cognition in older women and men from the general population. Although our findings did not support a positive effect of CE (primary endpoint), cognition significantly benefited from 3 years of daily MVM use (secondary endpoint). Moreover, the results of pre-planned subgroup analyses indicated that participants with baseline history of CVD may show a more pronounced MVM benefit, suggesting either greater relative improvement or more protection from CVD-related cognitive decline.

Daily CE supplementation for 3 years did not affect cognitive function in our trial. Only a handful of controlled, shorter-term trials have examined the potential benefits of cocoa flavanols on cognition in older adults. While some studies showed cognitive benefits,[16,17,56] others

did not.[8,57–59] In the CoCoA study, a double-blind, 8-week RCT that examined cocoa flavanol effects on cognition, 90 cognitively healthy older adults[17] and 90 individuals with amnestic MCI[16] received a daily drink containing low (45 mg/day), medium (520 mg/day), or high (993 mg/day) amounts of cocoa flavanols. Performance on the Trail-Making Test, verbal fluency, and the cognitive composite that combined these test scores improved for high- and medium-dose groups relative to the low-dose group, regardless of participant cognitive status. In a smaller ($n = 37$) 3-month RCT comparing 900 mg/day versus 45 mg/day of cocoa flavanols, blood flow increased in the dentate gyrus of the hippocampus, which was associated with a treatment-related improvement on a hippocampal-dependent memory task in adults (50–69 years old).[56] In a 12-week RCT of 260, 510, or 770 mg/day of cocoa flavanols in 211 adults (50–75 years old), although there was no effect on the primary endpoint (computer-administered object-recognition task), secondary analyses indicated a dose-dependent improvement on list-learning in adults with a poor quality baseline diet.[60] These trials all included short treatment durations showing acute effects of cocoa flavanols on cognition. In COSMOS-Mind, acute cognitive effects of cocoa flavanols (less than 3 months) that were not sustained would have been missed as our assessments were completed only once per year. COSMOS-Mind also differed from these studies as the active supplement included not only cocoa flavanols, but also theobromine and caffeine. Furthermore, it is possible that the COSMOS-Mind cocoa flavanol dose was too low to provide cognitive benefit within the study observation period, particularly in light of previous dose-dependent findings.[60]

In contrast to the negative CE findings, we found that assignment to 3 years of MVM improved global cognition, episodic memory, and executive function. Previous RCTs of MVM supplements on cognition have

reported inconsistent effects. The majority were short in duration (up to 12 months) and relied on individual test scores to assess cognitive effects rather than a composite, which may provide greater statistical power to detect a difference across multiple tests and cognitive domains (if effect sizes are similar across its components).[61]

The only long-term MVM RCT prior to our study was the 12-year Physician's Health Study II (PHS II) of older U.S. male physicians that tested whether a daily MVM supplement prevented risk of major CVD[62] and cancer.[63] A PHS II cognitive substudy of 5947 healthy, highly educated men (aged ≥65 years) reported no MVM effects on a global cognition composite.[33] There are several differences between COSMOS-Mind and PHS II worth highlighting. The COSMOS-Mind and PHS II cohorts differed on key baseline characteristics: PHS II participants were restricted to male physicians who were predominantly White and non-Hispanic, whereas COSMOS-Mind included a relatively more diverse cohort. Although baseline cognitive scores were comparable for participants across studies (i.e., TICSm; VF-C for animals), COSMOS-Mind administered additional tests of executive function (i.e., OTMT-B, VF-L, NS, DOT) and more challenging episodic memory tests (i.e., Long Delay Word List Recall, and a longer version of Story Recall with 55% more components to remember) that may have increased sensitivity to detect effects. In PHS II, the initial cognitive testing began an average of 2.5 years (range: 0.18–5.3 years) after randomization to MVM or placebo, nearly at the point in time when the final follow-up assessment was completed in COSMOS-Mind. Our data suggest that MVM treatment effects increased from baseline in

the first 2 years and then remained stable between Years 2 and 3 (Figure 2). As a result, any early cognitive benefits of MVM in PHS II would likely have been missed because of their assessment schedule given the COSMOS-Mind cognitive trajectory showing benefit within 2 years. Also, the specific components of the MVM supplements administered in the two studies differed (Table S6); in COSMOS (parent study), lutein and lycopene were added, amounts of vitamins D and K were 150%–300% higher, and amounts of vitamin A and minerals such as iron, magnesium, and copper were lower. Although some reports suggest cognition-protecting benefits of components that were at higher levels in the COSMOS MVM,[64–67] no consensus has been reached about the role of specific supplement quantities for brain health.

Our results suggest that MVM cognitive benefits may be more pronounced among older adults with CVD. At baseline, global cognitive function was lower for adults with versus without CVD history, which is consistent with other reports.[68] The MVM-treated CVD history subgroup had sustained increases in cognitive function after 2 years (Figure 3), while the placebo-treated CVD history subgroup showed cognitive decline after Year 1. One account for this finding relates to the potential treatment-related improvement in micronutrient levels in CVD-compromised individuals, which could, in turn, have beneficial consequences for brain health. The results of observational studies[69] suggest that micronutrient levels are typically lower in patients with CVD versus those without CVD (e.g., heart failure), and may be susceptible to drug interactions.[52] In CVD patients, for example, vitamin D deficiency is highly prevalent and predicts disease severity; vitamin K deficiency is linked to coronary artery calcification and increased CVD-related mortality; circulating levels of thiamine, vitamin C and selenium are relatively low (suboptimal, not necessarily deficient)[69]; and certain medications can reduce vitamin B12 absorption and bioavailability.[70] In PHS II, there was no evidence that MVM supplementation affected cardiovascular health status.[62] Nonetheless, additional investigation of treatment-related micronutrient status in a more diverse cohort of participants is warranted to confirm COSMOS-Mind findings and to explore mechanisms that might account for the observed benefit.

To estimate clinical significance of our findings, we used COSMOS-Mind data to model treatment-related protection against cognitive

aging. At baseline, slope of the global cognition composite scores by participant age (ranging from 64 to 100 years) was -0.045 SD/year (standard error = 0.004). The treatment effect of MVM relative to MVM-placebo was 0.083 SDs (95% CI: 0.020 to 0.146) at Year 3. This corresponds to baseline composite scores for individuals who were 1.8 years apart in age. By this albeit imprecise yardstick, 3 years of MVM supplementation appeared to have slowed aging by 1.8 years, or by 60%. Further speculation regarding the clinical significance of our MVM findings is difficult at this time given the relatively short duration of follow-up and the likely impact of practice effects commonly observed in trials with repeat cognitive testing that distort estimates of treatment-related change on metrics such as 'cognitive age.' Another trial is needed in a diverse cohort to confirm our findings and further assess the clinical significance of MVM supplementation on cognitive health in older women and men.

COSMOS-Mind had several strengths. The 2 × 2 factorial design allowed us to efficiently examine the effects of two different interventions within a single study, under the assumption of no additive effects when interventions are combined. The pragmatic approach (using mail and telephone only) facilitated recruitment of over 2000 older adults in less than 15 months, minimized participant burden (no travel needed), and provided an opportunity for research participation to individuals who may not have had ready access to an academic institution.

Study limitations included: (1) race and ethnicity of the cohort was not representative of older Americans, which affects generalizability of our results; (2) adherence to study pills and health history (e.g., CVD) were tracked using self-report; (3) inability to assess whether specific components of the COSMOS MVM were responsible for the observed cognitive benefits; (4) data were not collected to permit analyses of biomarkers or potential effect modifiers (e.g., apolipoprotein E genotype); and (5) type 1 error was not controlled across secondary and tertiary analyses in COSMOS-Mind and for outcomes measured in the parent COSMOS trial and its other ancillary studies.

In conclusion, daily intake of cocoa extract for 3 years had no effect on cognition. However, COSMOS-Mind provides the first evidence from a large-scale, long-term, pragmatic RCT to suggest that daily use of a safe, readily accessible, and relatively low-cost MVM supplement has the potential to improve or protect cognitive function for older women and men. An additional trial is needed to confirm these findings in a more representative cohort and to explore potential mechanisms for cognitive benefit. This work may ultimately have important public health implications for standard of care to improve or protect cognitive function in older adults.

OTHER CONTRIBUTIONS

We thank and acknowledge the contributions of all COSMOS-Mind participants for their time and commitment to the study. We also thank the COSMOS-Mind study team members who provided their expertise to meaningfully connect to participants, keep them engaged, and collect and manage the cognitive data for over 8000 assessments. Wake Forest University School of Medicine (Winston-Salem NC) Team members included Brad Caudle, Debbie Pleasants M.ED., Cheryl Summerville, Alecia Jenkins, Ashley Lentz, Charlene Hunt, Debbie Booth, Deborah Kampman, Dylan Jarrell, Heather Dailey, Leonard Jordan, Marcelle Clavette, Margaret Pierce, Sharnita Duran, Sonya Ashburn, Darrin Harris, Julia Spell, Mary Barr, and Leslie Gordineer. We are especially grateful to the parent trial investigators (Manson, Sesso, and Garnet Anderson, PhD, of the Fred Hutchinson Cancer Research Center, Seattle WA) and the study team at Brigham and Women's Hospital (Boston, MA) for their partnership from study inception.

ACKNOWLEDGMENTS

The COSMOS-Mind study and investigators were supported through an award provided by the National Institute on Aging, of the National Institutes of Health (R01AG050657). Drs. Manson and Sesso also received support for the COcoa Supplement and Multivitamin Outcomes Study (COSMOS) through an investigator-initiated grant from Mars Edge, a segment of Mars, Inc. dedicated to nutrition research, which included infrastructure support and the donation of study pills and packaging. Pfizer Consumer Healthcare (now Haleon) provided support through the partial provision of study pills and packaging.

A B S T R A C T

Background: Longer effects of multivitamin-mineral (MVM) supplementation on late-life cognitive function remain untested using in-person, detailed neuropsychologic assessments. Furthermore, insufficient evidence exists for healthcare providers to recommend daily MVM supplements to prevent cognitive decline.

Objectives: This study aimed to test MVM effects on cognitive change using in-person, detailed neuropsychologic assessments and conduct a meta-analysis within COSMOS (COcoa Supplement and Multivitamin Outcomes Study) cognitive substudies for a robust evaluation of MVM effects on cognition.

Methods: COSMOS is a 2 × 2 factorial trial of cocoa extract (500 mg flavanols/d) and/or a daily MVM supplement for cardiovascular disease and cancer prevention among 21,442 United States adults aged ≥60 y. There were 573 participants in the clinic subcohort of COSMOS (that is, COSMOS-Clinic) who completed all cognitive tests administered at baseline. For the meta-analysis, we included nonoverlapping participants across 3 COSMOS cognitive substudies: COSMOS-Clinic (n = 573); COSMOS-Mind (n = 2158); COSMOS-Web (n = 2472).

Results: In COSMOS-Clinic, we observed a modest benefit of MVM compared with placebo on global cognition over 2 y {mean difference [95% confidence interval (CI)] = 0.06 SD units (SU) (−0.003, 0.13)}, with a significantly more favorable change in episodic memory [mean difference (95% CI) = 0.12 SU (0.002, 0.23)] but not in executive function or attention [mean difference (95% CI) = 0.04 SU (−0.04, 0.11)]. The meta-analysis of COSMOS substudies showed clear evidence of MVM benefits on global cognition [mean difference (95% CI) = 0.07 SU (0.03, 0.11); P = 0.0009] and episodic memory [mean difference (95% CI) = 0.06 SU (0.03, 0.10); P = 0.0007]; the magnitude of effect on global cognition was equivalent to reducing cognitive aging by 2 y.

Q4 **Conclusions:** In COSMOS-Clinic, daily MVM supplementation leads to a significantly more favorable 2-y change in episodic memory. The meta-analysis within COSMOS cognitive substudies indicates that daily MVM significantly benefits both global cognition and episodic memory. These findings within the COSMOS trial support the benefits of a daily MVM in preventing cognitive decline among older adults.

This trial was registered at COSMOS—clinicaltrials.gov as NCT02422745, at COSMOS-Mind—clinicaltrials.gov as NCT03035201, and at COSMOS-Web—clinicaltrials.gov as NCT04582617. Q5

Introduction

By 2060, nearly 1 in 4 Americans will be aged ≥65 y—an age group at elevated risk of cognitive decline and Alzheimer's disease and related dementias (ADRD) [1,2]. Studies have shown that even modest deficits in cognitive function during aging can predict worsened cognitive decline and an increased risk of ADRD in late life [3,4]; these early signs of cognitive decline may be delayed through a safe, efficacious, and broadly applicable intervention, such as a multivitamin-mineral (MVM) supplement. Although a few long-term randomized clinical trials (RCTs) have tested MVM supplements on cognitive change in older adults [5–7], effects remain untested using in-person detailed neuropsychologic assessments, capturing subtle changes across multiple cognitive domains.

A typical broad-based MVM supplement contains most or all essential vitamins and minerals at lower levels than individual supplements to target multiple biologic pathways to support cognitive health [8–10]. Prior RCTs examining single or smaller combinations of nutrients have shown no or limited benefits on late-life cognition [9–13]. Only 3 long-term RCTs (>12 mo) have tested a daily broad-based MVM on cognitive change in older adults. In the Physicians' Health Study II (PHS II), telephone-based cognitive assessments began after an average duration of 2.5 y following randomization to intervention groups and found no MVM benefits on cognition [5]. In the COSMOS (COcoa Supplement and Multivitamin Outcomes Study), initial cognitive assessments took place before randomization for COSMOS-Mind (n = 2262; telephone-based) [6] and COSMOS-Web (n = 3960; computer-based) [7] and found evidence of MVM benefits on cognitive function. However, in-person, detailed neuropsychologic assessments, with the potential to measure subtle changes across multiple cognitive domains, have not been previously conducted to confirm the effects of MVM supplementation on cognitive function among older adults.

Therefore, we tested the effects of MVM supplementation on cognitive change in the clinic subcohort of 573 COSMOS participants (that is, COSMOS-Clinic) who underwent in-person detailed neuropsychologic assessments at baseline and 2 y. Because COSMOS is unique in integrating 3 separate cognitive ancillary studies, all of which had prerandomization and follow-up neuropsychologic assessments within the broader parent trial, a meta-analysis among nonoverlapping participants (n > 5000) across COSMOS-Clinic, COSMOS-Mind, and COSMOS-Web was conducted to evaluate the strength of evidence regarding the effects of an MVM on cognition with potential clinical and public health relevance.

Methods

COSMOS trial

COSMOS is a recently completed randomized, double-blind, placebo-controlled, 2 × 2 factorial design testing cocoa extract (CE; Mars Edge; 500 mg flavanols/d, including 80 mg (−)-epicatechin) and/or a daily MVM supplement (Haleon; Centrum Silver®) for cardiovascular disease (CVD) and cancer prevention in 21,442 United States adults, aged ≥60 y; protocol details and main findings are published elsewhere [14–16]. Randomization was performed using a computer-generated sequential list of random allocations for the 4 treatment combinations. The random allocation sequence was created using SAS version 9.4 (SAS Institute) and was stratified by sex, age (5-y bins), and recruitment source (that is, mass mailings to Women's Health Initiative Extension Study participants, or mass mailings to participant recruitment pools from large studies led by Brigham and Women's Hospital). All trial investigators, examiners, and participants were masked to treatment group assignment. Randomization occurred from June 2015 through March 2018; randomized treatment ended on 31 December, 2020, and this was the final date of follow-up.

The exclusion criteria for the COSMOS trial were as follows: *1*) history of myocardial infarction or stroke (individuals with other cardiovascular events, including transient ischemic attack, congestive heart failure, coronary artery bypass graft, angioplasty, and stent were permitted); *2*) diagnosis of cancer except for nonmelanoma skin cancer within the past 2 y; *3*) other serious illnesses precluding participation; *4*) unwillingness to forego the use of CE, multivitamins, vitamin D (>1000 international unit (IU)/d), or high-dose calcium (>1200 mg/d) supplements during the trial; *5*) extreme sensitivity to caffeine; *6*) <75% compliance to study pills during the study period; and *7*) inability to communicate in English. Regarding compliance, participants answered study pill adherence questions (that is, number of days per month taking study pills from their monthly calendar packs) in questionnaires every 6 mo [14].

COSMOS-clinic cognitive substudy

A subcohort of 603 participants from the parent COSMOS trial who lived within driving distance of the Center for Clinical Investigation (CCI) at Brigham and Women's Hospital (that is, COSMOS-Clinic) were invited to complete detailed, in-person health evaluations at CCI, which included 45-min neuropsychologic evaluations at baseline and 2 y [14]. All participants provided written informed consent, and study approvals were obtained from the Institutional Review Board at Mass General Brigham. COSMOS-Clinic cognitive substudy analyses were prespecified as tertiary aims on the clinicaltrials.gov registration page of COSMOS (NCT02422745).

COSMOS-clinic cognitive substudy procedures

Study procedures followed a protocol developed before clinic enrollment and randomization (see Supplemental Methods A). Of 603 COSMOS participants enrolled in the COSMOS-Clinic subcohort, 602 were interested in neuropsychologic evaluations and completed hearing screening [17] and the Clock-in-the-Box test [18], a rapid (1–2 min) cognitive screening test, followed by the Modified Mini-Mental State (3MS) [19], a measure of general cognition. Participants without serious hearing impairment were administered these additional neuropsychologic measures: *1*) Consortium to Establish a Registry for

Alzheimer's Disease [(CERAD) immediate total learning, delayed recall, and recognition] [20,21], *2*) immediate and delayed recall trials of the East Boston Memory Test (EBMT) [22], *3*) 2 category fluency tests (naming animals and vegetables) [20], *4*) Trail Making Tests (TMTs) A and B [23], and *5*) Digit Span Backwards [24]. COSMOS-Clinic neuropsychologic assessments were conducted at baseline and follow-up an average of 2 y later (interquartile range: 2.0–2.1 y).

COSMOS-clinic: ascertainment of primary and secondary outcomes

In COSMOS-Clinic, our primary outcome was the global cognition composite (averaging mean standardized (z) scores of 11 tests: 3MS; CERAD immediate total learning, delayed recall, and recognition; immediate and delayed EBMT recall trials; 2 category fluency tests; TMT-A and TMT-B; Digit Span Backwards), with higher z-scores reflecting better performance.

Secondary outcomes were composites of episodic memory (averaging z-scores of 4 tests: EBMT immediate and delayed recall trials, and CERAD immediate total learning and delayed recall) and executive function/attention (averaging z-scores of 5 tests: 2 category fluency tests, TMT-A, TMT-B, and Digit Span Backwards). We standardized follow-up composite scores using fixed baseline means and SDs of the respective cognitive measures.

Meta-analysis: description of COSMOS cognitive substudies

In the meta-analysis, we included nonoverlapping participants across the 3 COSMOS cognitive substudies: *1*) COSMOS-Clinic (n = 573; in-person cognitive assessments over 2 y); *2*) COSMOS-Mind (n = 2158; annual telephone-based cognitive assessments for 3 y) [6]; and *3*) COSMOS-Web (n = 2472; annual computer-based cognitive assessments for 3 y) [7]. MVM findings of COSMOS-Mind and COSMOS-Web are published elsewhere [6,7]. We prioritized COSMOS-Clinic, followed by COSMOS-Mind, and then COSMOS-Web study samples to exclude overlapping participants across these studies. Our selection favored a study with a smaller sample size when choosing data of overlapping participants across these studies.

Meta-analysis: coprimary cognitive outcomes

Global cognition and episodic memory were prespecified as the coprimary cognitive outcomes for this meta-analysis because of their relevance to age-related cognitive decline and ADRD. Global cognition reflects overall ability across multiple cognitive domains; episodic memory declines with aging and is typically the primary cognitive domain affected by AD, the leading cause of dementia [25].

Supplemental Table 1 provides a list of neuropsychologic measures used in each COSMOS cognitive substudy to assess meta-analysis outcomes. The COSMOS-Clinic and COSMOS-Mind cognitive substudies had parallel approaches to assessing global cognition and episodic memory outcomes. The COSMOS-Web was specifically designed to examine the treatment effects on hippocampus-mediated episodic memory [7]. As a result, COSMOS-Web did not report global cognition as a prespecified cognitive endpoint. Thus, the meta-analysis of global cognition included nonoverlapping participants from the COSMOS-Clinic and COSMOS-Mind studies. Regarding the meta-analysis of episodic memory, we included nonoverlapping participants across 3 COSMOS cognitive substudies.

Statistical analyses

COSMOS-clinic: main analyses

The study was designed to have >80% power to detect an effect size of 0.12 SD units (SU) or greater in the global cognition composite score comparing MVM and placebo groups, with a planned sample size of 500 and assumed 10% loss to follow-up (see Supplemental Methods B).

The analysis for the effect of MVM supplementation compared with placebo included all randomly assigned participants, regardless of pill compliance, participation in the year 2 follow-up, and scores from all cognitive assessments (baseline or year 2); 573 participants who completed all neuropsychologic tests at baseline made up the sample (see CONSORT diagram, Figure 1). Descriptive characteristics of participants were compared between MVM and placebo groups. To examine the mean difference in change in global cognition over time between the MVM and placebo groups, we used repeated measures models over a 2-y follow-up time with an unstructured covariance matrix to incorporate the within-participant correlation. Models were adjusted for the prespecified design variables: age, sex, randomization to CE, and CE effect over time (that is, time-x-CE). We estimated the mean difference between the MVM and placebo groups in change in global cognition score over time using a time-x-MVM interaction. Regarding model assumptions, the averaged z-score cognitive outcomes met assumptions for normality and missing data were considered missing at random; as the repeated measures models can handle missing data, all participants contributed to the analysis at 1 or both time points. Models were fitted by maximum likelihood and we used Wald tests for statistical testing [26]. For secondary outcomes, we constructed repeated measures models with the abovementioned model specifications and covariates adjustment.

COSMOS-clinic: subgroup analyses

We addressed whether the effect of MVM supplementation compared with placebo on global cognitive change over 2 y was modified by design variables or subgroups selected *a priori* on the basis of the importance in cognitive decline and ADRD [27,28]: age (<70 or ≥70 y); sex; self-identified racial and ethnic group {non-Hispanic White, or other racial and ethnic groups [Black or African American, Hispanic (not Black or African American)], Asian, Native Hawaiian or other Pacific Islander, American Indian or Alaska Native, and multiple or unknown race and/or unknown ethnicity; see details in Table 1}; CE randomization group; healthy diet adherence level (tertiles of the Alternative Healthy Eating Index-2010 score) [29]; baseline general cognition score (3MS tertiles); presence of subjective cognitive concerns [0 or ≥1 points on Structured Telephone Interview for Dementia Assessment (STIDA)] [30]; body mass index (<25, 25–29, ≥30 kg/m^2); history of CVD (on the basis of self-report of transient ischemic attack, congestive heart failure, coronary artery bypass graft, angioplasty, or stent), hypertension, type 2 diabetes, and depression.

For all COSMOS-Clinic analyses, tests were two-sided, and a P value < 0.05 was used for statistical significance. The analyses of secondary outcomes and subgroups were considered hypothesis generating and were not adjusted for multiple comparisons; thus, results should be interpreted with caution.

random-effects models. The outcomes were mean standardized (z) scores, relative to baseline, in each cognitive substudy; the study-specific estimates were pooled, and a summary effect estimate [95% confidence interval (CI)] and P value were reported. Heterogeneity across substudies (using the Q statistic) and between-study variance [using tau squared (τ^2)] were examined using the %METAANAL macro (DerSimonian–Laird method) [31,32]. Tests were two-sided; for an α-level of 0.05 with 2 coprimary outcomes, $P < 0.025$ was used to indicate statistical significance for each coprimary outcome after Bonferroni correction [33].

All analyses were performed using SAS version 9.4 (SAS Institute) and R version 4.1.1 (R Foundation for Statistical Computing).

Results

Of the 603 COSMOS-Clinic participants, 573 completed all neuropsychologic tests at baseline (Figure 1). Among these 573 participants, 81 (14.1%) were lost to follow-up, refused follow-up cognitive assessment, or withdrew from the study before the follow-up cognitive assessment; 492 of 573 (85.9%) completed all neuropsychologic assessments at baseline and 2 y. Among participants who returned study pill adherence questionnaires (98% of this sample), 95.5% in the MVM group, and 95.3% in the placebo group reported adequate study pill adherence (that is, taking ≥75% study pills per month) at year 1. At 2 y, 90.9% of the MVM group and 90.0% of the placebo group reported adequate study pill adherence. This report includes results regarding the effects of MVM on cognition in the COSMOS-Clinic cognitive substudy; results regarding the effects of CE on cognition are described elsewhere [34].

COSMOS-clinic: baseline characteristics

There were 272 participants randomly assigned to MVM, and 301 were randomly assigned to placebo. The mean (SD) age was 69.6 (5.3) y, females comprised 49.2%, and 37.9% reported prerandomization use of multivitamins (Table 1). Descriptive characteristics were comparable across treatment groups.

COSMOS-clinic: main analyses

Participants randomly assigned to MVM compared with placebo showed a modest benefit in global cognition over 2 y; the mean difference in change in global cognition score, relative to baseline, was 0.06 SU (95% CI: −0.003, 0.13) (Table 2).

Regarding secondary outcomes, MVM supplementation compared with placebo led to a statistically significant more favorable change in episodic memory; the mean difference in change in episodic memory score, comparing the MVM and placebo groups, was 0.12 SU (95% CI: 0.002, 0.23) (Table 2). To assess the clinical importance of findings, we compared the observed estimate of the treatment effect with the estimate within the multivariable model for a 1-y increase in participant age, because age is the most robust predictor of cognitive decline. The estimate for the association between a 1-y difference in age at baseline and a 2-y change in episodic memory was −0.025 SU; this translates to the effect of a 2-y MVM supplementation that was equivalent to 4.8 y less aging in episodic memory than placebo. In contrast, there was no MVM benefit for executive function or attention over 2 y in this sample.

global cognitive change over 2 y (Figure 2); furthermore, there was no significant interaction between the MVM and CE interventions for global cognition (P-interaction = 0.46).

Meta-analysis of prespecified outcomes within COSMOS cognitive substudies

The meta-analysis results for global cognition (Figure 3) show that participants randomly assigned to the MVM group compared with placebo had a statistically significant more favorable change in global cognition over time (mean difference (95% CI): 0.07 (0.03, 0.11) SU; $P = 0.0009$); findings remained significant after Bonferroni correction. The overall effect was not heterogeneous across studies (P-heterogeneity = 0.88), with no between-study variance ($\tau^2 = 0\%$).

The meta-analysis results for episodic memory (Figure 3) show that participants randomly assigned to the MVM group compared with placebo had a statistically significant more favorable change in episodic memory over time [mean difference (95% CI): 0.06 (0.03, 0.10) SU; $P = 0.0007$]; findings remained significant after Bonferroni correction. The overall effect was not heterogeneous across studies (P-heterogeneity = 0.61), with no between-study variance ($\tau^2 = 0\%$).

Regarding the clinical importance of our meta-analysis findings: the magnitude of the effect of MVM supplementation compared with placebo on global cognition score was equivalent on average to the difference observed between participants 2 y apart in age (that is, 2 y less cognitive aging).

Discussion

We observed a statistically significant beneficial effect of MVM supplementation compared with placebo on episodic memory in the well-characterized COSMOS-Clinic subcohort of 573 participants. Furthermore, our meta-analysis among over 5000 nonoverlapping participants across the 3 COSMOS cognitive substudies showed clear evidence of MVM benefits on both global cognition and episodic memory. Regarding clinical importance, the effect of daily MVM supplementation on global cognition over a duration of 2–3 y may translate to a reduction in cognitive aging by 2 y compared with placebo. Overall, our findings provide support for the benefits of an MVM supplement in preventing cognitive decline among older adults.

There is biologic plausibility for the findings, as combinations of vitamins and minerals interact with multiple biologic pathways that support cognitive health, and nutritional and micronutrient deficiencies in older adults may elevate risk of cognitive decline [8]. Prior RCTs testing single or limited combinations of vitamins or minerals on cognitive change have usually shown null results; however, short treatment durations (≤12 mo), lack of a baseline prerandomization cognitive assessment, the specific cognitive tests administered, insufficient statistical power, reliance on a post hoc analysis, or a combination of these factors limit cross-study comparisons [9–13]. In addition to the COSMOS-Clinic cognitive substudy, 3 other RCTs (that is, PHS II, COSMOS-Mind, and COSMOS-Web) [5–7] have investigated long-term (>12 mo) effects of a typical broad-based MVM on cognitive change among older adults. In COSMOS-Clinic, MVM supplementation led to better episodic memory scores over time compared with placebo; similar benefits were observed in COSMOS-Mind and COSMOS-Web studies [6,7]. Although COSMOS-Clinic had the smallest sample among the 3 COSMOS cognitive substudies, the estimate of the MVM effect on episodic memory was larger in the COSMOS-Clinic. The use of in-person assessments in COSMOS-Clinic, including the addition of tests from the CERAD, may have enhanced measurement precision.

Our meta-analysis of findings within COSMOS regarding the cognitive benefits of MVM supplementation among older adults has

important implications for future clinical practice and scientific research. In clinical settings, MVM supplements merit greater consideration as a recommended treatment strategy to prevent cognitive decline among older adults without dementia at baseline. Also, in both PHS II and COSMOS, long-term MVM use is safe without notable adverse effects. Regarding implications for scientific research, further investigations should confirm findings among participants from more diverse backgrounds, with greater representation of the entire United States population. Additionally, future studies may incorporate ADRD biomarkers (for example, amyloid, tau), -omics (for example, epigenomics, microbiome, metabolomics), or genetics (for example, apolipoprotein E genotype) in an experimental framework to provide novel insights into how MVM supplements work to prevent cognitive decline and for whom they may be most effective.

Outside of the 3 COSMOS cognitive ancillaries (that is, COSMOS-Clinic, COSMOS-Mind, and COSMOS-Web), no other RCTs in the literature to date featured both prerandomization and follow-up neuropsychologic assessments, a comprehensive MVM supplement intervention (containing ≥20 vitamins and minerals), intervention durations of 12 mo or longer, and sufficiently large sample sizes ($n \geq 500$). Results regarding the MVM intervention in COSMOS cognition ancillaries differ from earlier findings in PHS II ($n = 5947$; mean age: 71.6 y), in which no MVM benefits on cognitive change were observed over an average follow-up of 10 y [5]. However, important differences between the COSMOS and PHS II trials should be noted. First, COSMOS included both older males and females, whereas PHS II included only older males. Second, PHS II started cognitive testing, on average, 2.5 y after randomization. As a result, cognitive benefits associated with MVM supplementation over the first 2–3 y of follow-up, observed in 3 COSMOS cognitive substudies, might have been missed in PHS II. Third, differences may be explained by subtle distinctions in the MVM formulations (Centrum Silver) from

Meta-analyses of findings of global cognition and episodic memory, comparing MVM and placebo groups, among nonoverlapping participants across COSMOS cognitive substudies.[1] CI, confidence interval; COSMOS, COcoa Supplement and Multivitamin Outcomes Study [14–16]; MVM, multivitamin-mineral; SU, SD units.

[1]Meta-analysis was performed using random-effects models. A pooled summary effect estimate with 95% (CI) was reported. Heterogeneity across substudies (using the Q statistic) and between-study variance [using tau squared (τ^2)] were examined using the %METAANAL macro (DerSimonian–Laird method) [31, 32]. $P < 0.025$ was used to indicate statistical significance for each coprimary outcome after Bonferroni correction [33].

PHS II to COSMOS (Supplemental Table 2), particularly with the addition of lutein and lycopene for COSMOS.

Study strengths should be noted: well-characterized sample; detailed in-person neuropsychologic assessments that assessed subtle changes across multiple cognitive domains; high adherence and retention rates. Furthermore, this report makes a unique contribution by including a meta-analysis of over 5000 COSMOS participants from 3 cognitive substudies randomly assigned to an MVM supplement compared with placebo with prerandomization and follow-up assessments, providing clear evidence for cognitive benefits of MVM supplementation among older adults.

There were also study limitations. First, COSMOS had relatively low racial and ethnic diversity, which may limit generalizability. Second, we are unable to determine whether specific individual vitamins or minerals of the MVM supplement may explain our observed cognitive benefits. Furthermore, we do not know whether these favorable results associated with the COSMOS MVM supplement (Centrum Silver) can be generalized to other broad-based MVM supplements, as our findings may or may not represent a class effect. Third, we did not control for type-1 error in secondary outcomes and subgroup analyses in COSMOS-Clinic; these findings should be considered exploratory. Fourth, although useful for clinical translation, a simplified approach to addressing the clinical relevance of daily MVM in terms of years of aging has inherent limitations.

Q7 In conclusion, among 573 COSMOS-Clinic subcohort participants who underwent repeat in-person, detailed neuropsychologic assessments over 2 y, MVM supplementation led to a statistically significantly more favorable change in episodic memory compared with placebo. A meta-analysis of 3 COSMOS cognitive substudies ($n >$ 5000) provided clear evidence that daily MVM use showed benefits for both global cognition and memory among older adults; the magnitude of effect on global cognition appears equivalent to reducing cognitive aging by 2 y. Our findings warrant consideration by clinical guidelines committees for the role of daily MVM use in preventing cognitive decline in older adults.

Acknowledgments

We are deeply indebted to the 21,442 COSMOS participants for their steadfast and conscientious collaboration and to our COSMOS Research Group for their commitment and perseverance to the trial despite the challenges of the COVID-19 pandemic.

A B S T R A C T

Background: Maintenance of cognitive abilities is of critical importance to older adults, yet few effective strategies to slow cognitive decline currently exist. Multivitamin supplementation is used to promote general health; it is unclear whether it favorably affects cognition in older age.
Objectives: To examine the effect of daily multivitamin/multimineral supplementation on memory in older adults.
Methods: The COcoa Supplement and Multivitamin Outcomes Study Web (COSMOS-Web) ancillary study (NCT04582617) included 3562 older adults. Participants were randomly assigned to a daily multivitamin supplement (Centrum Silver) or placebo and evaluated annually with an Internet-based battery of neuropsychological tests for 3 y. The prespecified primary outcome measure was change in episodic memory, operationally defined as immediate recall performance on the ModRey test, after 1 y of intervention. Secondary outcome measures included changes in episodic memory over 3 y of follow-up and changes in performance on neuropsychological tasks of novel object recognition and executive function over 3 y.
Results: Compared with placebo, participants randomly assigned to multivitamin supplementation had significantly better ModRey immediate recall at 1 y, the primary endpoint ($t(5889) = 2.25$, $P = 0.025$), as well as across the 3 y of follow-up on average ($t(5889) = 2.54$, $P = 0.011$). Multivitamin supplementation had no significant effects on secondary outcomes. Based on cross-sectional analysis of the association between age and performance on the ModRey, we estimated that the effect of the multivitamin intervention improved memory performance above placebo by the equivalent of 3.1 y of age-related memory change.
Conclusions: Daily multivitamin supplementation, compared with placebo, improves memory in older adults. Multivitamin supplementation holds promise as a safe and accessible approach to maintaining cognitive health in older age. This trial was registered at clinicaltrials.gov as NCT04582617.

Introduction

The maintenance of cognitive abilities is a top priority for older adults [1]. Healthy dietary patterns are implicated in slowing cognitive aging and may explain some degree of inter-individual differences in cognitive change over time [2]. Many older adults believe that taking vitamins or dietary supplements delays cognitive impairment [3], yet few larger-scale, longer-term randomized trials have rigorously tested this assumption. Although observational data suggest an association

between selected blood-derived vitamin concentrations, such as vitamin B_{12}, and cognition [4,5], results from randomized trials of multivitamins and cognitive change in older adults are mixed, with some meta-analytic evidence of improvement to immediate verbal memory [6] and others suggesting a null effect [7–9].

The recently completed COcoa Supplement and Multivitamin Outcomes Study (COSMOS; NCT02422745), a 2 × 2 factorial trial that examined the effect of dietary flavanol and multivitamin/multimineral (hereafter referred to as multivitamin) supplementation compared with placebo on cardiovascular and cancer outcomes in 21,442 older women and men with 3.6 y of follow-up [10–12], included 2 cognitive ancillary studies (Figure 1). In the COSMOS-Mind ancillary study, 2262 COSMOS participants underwent telephone-administered cognitive assessments over 3 y and reported that multivitamin supplementation benefited global cognition compared with placebo, an effect that was more prominent among participants reporting a history of cardiovascular disease (CVD) [13].

Here, we report results from the COSMOS-Web (NCT04582617) ancillary study, which was designed to examine the effects of dietary flavanol and multivitamin supplementation on hippocampus-mediated cognition in older adults after 1 y of intervention. There is converging work that the hippocampus is particularly susceptible to the effects of normal aging [14], and our previous intervention studies with dietary supplementation showed a positive effect on the hippocampus, indexed both by neuroimaging [15] and neuropsychological assessment [16]. This report focuses on the multivitamin intervention of COSMOS-Web; and the results of the cocoa flavanol intervention are reported separately [17]. In addition to providing the opportunity to replicate multivitamin results from the COSMOS-Mind ancillary study [13], the COSMOS-Web study extends these findings by focusing on outcomes hypothesized to be particularly vulnerable in aging through a novel approach to cognitive outcome assessment. We hypothesized that multivitamin supplementation, similar to our previous observations with cocoa flavanol supplementation, would affect hippocampus-mediated aspects of declarative memory. To test this hypothesis, we designed the COSMOS-Web cognitive battery, which included neuropsychological outcome measures designed to be sensitive to cognitive changes typically seen in older adults and to capture the dynamic range of cognitive function. A unique and innovative design element of the study was that neuropsychological outcome measures were collected remotely via self-administered Web-based assessment tools.

Methods

COSMOS trial

COSMOS-Web (NCT04582617) is an ancillary study to the COSMOS trial (NCT02422745), which examined the effects of daily cocoa extract and multivitamin supplementation for 3 y in a 2 × 2 double-blind, randomized controlled factorial design on cardiovascular and cancer outcomes. The nationwide recruitment of the COSMOS study population (N = 21,442) was described previously [10–12,18]. The 2 COSMOS intervention arms included 500 mg/d cocoa flavanol extract (including 80 mg (–)-epicatechin) capsules or a placebo (provided by Mars Edge) and a Centrum Silver daily multivitamin or placebo (provided by Pfizer Consumer Healthcare [now Haleon]; see [18] and Supplemental Data 1 for further details). Randomization occurred between April 2016 and March 2018. A computer-generated permuted block approach, blinded to study investigators, was used to randomly assign equal proportions of eligible participants to 1 of 4 treatment arms, as described previously [18]: *1*) active multivitamin + active cocoa extract; *2*) active multivitamin + cocoa extract placebo; *3*) active cocoa extract + multivitamin placebo; or *4*) cocoa extract placebo + multivitamin placebo. Randomization was stratified by gender, age (separate 5-y groups for women and men), and recruitment source, as described previously [18]. Active multivitamin and matching placebo and active cocoa extract and placebo were packaged in blinded monthly calendar packs and regularly sent to participants by US mail. Major exclusion criteria for the main COSMOS trial were age (<65 y for women, <60 y for men), history of myocardial infarction or stroke; diagnosis of invasive cancer within the past 2 y; other serious illnesses precluding participation; unwillingness to stop the use of cocoa extract, multivitamins, high dose vitamin D (>2000 IU/d), or high dose calcium (>1200 mg/d) supplements during the trial; extreme sensitivity to caffeine; <75% compliance to study pills during ≥2-mo placebo run-in period; and inability to communicate in English. Compliance was assessed during the placebo run-in from self-reports on mailed questionnaires returned from participants. After randomization and during follow-up, participants were sent questionnaires via mail or REDCap every 6 mo, on which they self-reported the number of pills missed during a typical month.

COSMOS-Web

COSMOS-Web (NCT04582617) was designed to test the primary hypothesis that supplementation with dietary flavanols improves memory over 1 y [15,16,19]. We separately reported the results for the primary arm of COSMOS-Web that examined the effect of dietary flavanol supplementation on cognitive outcomes [17]. Because the COSMOS-Web ancillary study was embedded in the parent COSMOS trial, we could additionally examine the effect of daily multivitamin supplementation. The COSMOS-Web prespecified primary outcome was performance on the immediate recall trial of the ModRey test [20] following 1 y of intervention. Prespecified secondary outcomes included change in ModRey immediate recall performance after 2 and 3 y, ModRey retention (the ratio of delayed recall to immediate recall), performance on tests of novel object recognition (ModBent; [15]), and executive function (Flanker; [21]). Our decision to assess the primary outcome at the 1-y endpoint was constrained by the design of the parent COSMOS trial and based on our interest in examining a sustained effect of the supplementation when adherence and study pill compliance would be highest to maximize statistical power and reduce potential bias from selective dropouts. Leveraging the 3-y design of the main COSMOS trial, we additionally assessed performance after 2 and 3 y, and averaged over the 3-y follow-up period, as secondary outcomes.

Participants

During the enrollment process, participants in the COSMOS trial were mailed an invitation to enroll in the COSMOS-Web study. The COSMOS-Web enrollment period spanned from August 2016 to August 2017. In addition to inclusion criteria for the COSMOS trial, the COSMOS-Web study required participants to have access to an Internet-connected computer. Instructions on how to access the study online were emailed to the participants who enrolled in COSMOS-Web. Participants received a $15 gift card for attempting each annual assessment, regardless of completion. COSMOS-Web received ethical approval from the Institutional Review Boards at Partners Healthcare/Mass General Brigham and Columbia University.

Participants completed the baseline COSMOS-Web assessment during the placebo run-in period to evaluate compliance and continued eligibility before randomization. Subsequently, they completed follow-up COSMOS-Web assessments annually for 3 y after the baseline assessment. All assessments used the same COSMOS-Web cognitive

FIGURE 2. Schematic depiction of the COSMOS-Web Tasks: *1*) ModRey list learning task: Participants were presented with a list of 20 words, one at a time, for 3 s each, with the instruction to try to remember the words. Recall was assessed, by having participants type in all the words they remembered, immediately after the word list was presented, and again after ~15-min delay, following administration of the other tests in the battery. To account for the possibility of typographical errors, responses with ≥80% match to the letters in the original word were scored as correct, unless they spelled out a different common English word. For example, for "river," "riber" would be counted as correct, but "rider" would not. *2*) ModBent object recognition task: Participants first complete 20 matching trials where they are shown a stimulus and are asked to pick it out from an array of two stimuli. Then participants complete 40 forced-choice recognition trials where they indicate if a given stimulus had been studied in the matching trials, and *3*) Flanker task: Participants are shown an array of colored arrows, and asked to indicate the color of the central arrow as a test of executive control. Trials vary on directional congruency (that is, whether the direction of the arrow matches the correct response) and color congruency (that is, whether the surrounding arrows are the same color as the central arrow). battery, with counterbalancing on stimulus sets presented across sessions and participants.

COSMOS-Web online platform

Neuropsychological outcome measures were collected via the self-administered COSMOS-Web cognitive battery on home computers. Cognitive tests were administered using the Inquisit-Web platform (Millisecond Software). Following instructions, participants downloaded an Inquisit-Web client and the COSMOS-Web battery on their home computers, where the software was operated locally to avoid latency variability in reaction time measurements. After the completion of the battery, participants' performance data were uploaded automatically to the Inquisit servers. A phone helpline was provided to aid participants if they had technical difficulties.

The COSMOS-Web cognitive battery consisted of 3 neuropsychological instruments, the ModRey, the ModBent, and the Flanker test. The ModRey immediate recall trial [20] is the outcome measure designed to be most sensitive and specific to hippocampus function [22] and we, therefore, prespecified it as our primary outcome measure. Although the ModBent task [15,16] was previously proposed as a primary outcome based on its association with dentate gyrus function, we had concerns about its psychometric properties and changed it to a secondary outcome before the completion of the trial and before analyzing any data in the trial. The Flanker test reflects prefrontal cortex function [21] and the retention trial of the ModRey test reflects entorhinal cortex function [23], a cognitive operation not hypothesized to be differentially affected by normal aging. We included the Flanker and ModRey retention trials to test the specificity of our hypothesis regarding hippocampus function.

In addition to using well-established paradigms in the cognitive aging literature and previous literature providing evidence for the validity of these paradigms in the target population [15,16,20,21,24–26], we conducted a small pilot study (unpublished) confirming that in a group of community-dwelling older adults performance assessed with the remote battery was comparable with the performance on the original, in-person, versions of the outcomes.

Cognitive battery

The COSMOS-Web cognitive battery included the following tasks (Figure 2):

- One-trial ModRey, a 20-item word recall task measuring episodic memory [20]. The primary outcome measure was the number of words recalled immediately (immediate recall), which is related to hippocampus function [22]. The secondary outcome measure was the ratio of words recalled after a delay to words recalled immediately (retention), which relates to entorhinal cortex function [23]. The delay trial was administered after administration of the other tests in the battery.
- Short-form ModBent, a test of novel object recognition [15]. The outcome measure was the reaction time to correctly reject the lures during the recognition trials. This task is related to the functioning of the dentate gyrus of the hippocampus [15].

- Color/Directional Flanker, a measure of executive control [21]. The outcome measure was the size of the directional Flanker effect (that is, the difference in reaction time between directionally congruent and incongruent trials). Performance on this task is mediated by the prefrontal cortex [21].

Statistical analysis

An intention-to-treat (ITT) analysis included randomly assigned participants who had a baseline plus ≥1 follow-up measurement completed (years 1, 2, or 3) regardless of pill compliance [18]; 3562 (90.0%) participants made up the ITT sample (see CONSORT diagram, Figure 3). The proportion of randomly assigned participants included in the ITT analysis was similar between treatment groups [$n = 1758$ of 1962 (89.6%) multivitamin group; $n = 1804$ of 1998 (90.3%) placebo group]. Completion of follow-up measurements for the primary outcome, ModRey, at years 1, 2, and 3 among the ITT sample was 95.3%, 87.3%, and 82.9%. Pill compliance (not missing >8 d/mo of study pills) based on self-reported pill counts was high among the ITT sample (6, 12, 18, 24, 30, and 36 mo: 94.4%, 91.8%, 87.0%, 86.6%, 82.7%, and 77.1%, respectively) with no difference between randomly assigned groups at any assessment (all $\chi^2(2) \leq 4.4$, all $P \geq 0.10$). We also defined a nonoverlapping sample as the subset of 2475 participants who did not participate in the related COSMOS-Mind study [13].

A per-protocol sample was defined as the subset of participants who met the definition for pill compliance in the first year. A total of 3189 participants in the ITT sample were included in the per-protocol sample. Task data were set to missing for the years 2 and 3 visits if a participant reported having missed >8 doses/mo at any of the compliance assessments preceding the given visit. Analyses were conducted with SAS 9.4.

Demographic, clinical, and baseline cognitive data were summarized in the ITT sample by treatment group, along with standardized absolute mean differences between groups (values > 0.25 were considered to be nontrivial imbalance due to chance).

Linear mixed-effects models tested for differences between treatment groups in changes in the primary outcome (ModRey immediate recall) from baseline to the 1-y follow-up visit within the ITT sample, the nonoverlapping sample, and the per-protocol sample. Additional linear mixed-effects models were used for secondary outcomes (ModRey immediate recall from baseline to the 2- and 3-y follow-up, and averaged over all 3 y of follow-up, ModRey retention, ModBent correct rejection, and Flanker direction effect from baseline to 1-, 2- and 3-y follow-up visits). Predictors were the baseline value of the respective outcome, dichotomous treatment (multivitamin or placebo), categorical visit, treatment × visit interaction, and a random intercept to account for repeated measures. For all mixed-effects models, missing data for follow-up were accounted for under a missing at-random assumption. Cohen's d effect sizes were calculated for all estimated treatment differences using baseline standard deviations of each variable across all participants to allow the direct comparison of magnitude. These analyses were repeated with the nonoverlapping and the per-protocol samples. A linear regression model tested the association between age and baseline ModRey immediate recall scores to estimate the expected memory decline for each year of aging. The mean treatment difference was divided by the expected memory decline per

year of aging to determine the effect of multivitamin intervention in years of cognitive aging.

Based on results from the COSMOS-Mind study [13], which showed differential effects of multivitamin supplementation by baseline history of CVD, we conducted post hoc analyses that examined the interaction of treatment condition and baseline history of CVD, controlling for baseline performance and the interaction between history of CVD and baseline performance. History of CVD was defined as a dichotomous variable indicating a self-reported history of any of the following at baseline: transient ischemic attack, congestive heart failure, coronary artery bypass graft, percutaneous transluminal coronary angioplasty, or stent (those with a prior history of myocardial infarction or stroke at baseline were excluded from the parent trial).

In COSMOS, safety data were routinely collected via follow-up questionnaires sent to participants every 6 mo for 16 different prespecified self-reported symptoms and conditions. We also collected data on spontaneous reports from participants via phone, e-mail, or other communications. These and other self-reported outcomes collected on follow-up questionnaires were systematically evaluated by an external Data and Safety Monitoring Board (DSMB) to ensure that there were no adverse safety signals that warranted consideration.

Results

Baseline characteristics

Characteristics of the 3562 participants included in the ITT sample are displayed in Table 1. Baseline demographic characteristics, performance on the outcome measures, and alternative Healthy Eating Index (aHEI; [27]) scores were similar between the randomly assigned multivitamin and placebo groups. The nonoverlapping sample of COSMOS-Web participants differed slightly from the overall ITT sample (Supplemental Table 1). Baseline demographic, dietary, and cognitive characteristics were similar between groups in the per-protocol sample and were comparable to the overall COSMOS-Web sample (Supplemental Table 2).

Multivitamin supplementation improved memory

A linear mixed-effects model using the ITT sample showed that, compared with placebo, participants receiving multivitamin supplementation had significantly greater improvement in ModRey immediate recall memory between baseline and year 1 (Table 2 and Figure 4), the primary prespecified outcome for the study. Performance on the ModRey improved from a mean of 7.10 words at baseline to 7.81 words after 1 y in the multivitamin supplementation group and from an average of 7.21 words at baseline to 7.65 words after 1 y in the placebo group. The contrast estimate of the multivitamin compared with placebo effect averaged across all 3 y of follow-up demonstrated a significant effect of the multivitamin intervention, suggesting that the memory improvement is sustained, on average, over ≥3 y postbaseline (Table 2). In contrast, secondary outcomes did not differ significantly between groups in any of the follow-up years. The same effect on the primary outcome remained significant in the nonoverlapping sample that did not include participants co-enrolled in COSMOS-Mind (Supplemental Table 3), and in the per-protocol sample (Supplemental Table 4).

Treatment differences in terms of age-related memory differences

Each year of aging was associated with a baseline ModRey immediate recall memory reduction of 0.074 words ($B = -0.074$; 95% CI: 0.056, 0.092; $\beta = -0.110$; $P < 0.001$). Dividing the mean treatment difference of the multivitamin intervention compared with placebo at the 1-y primary endpoint by this value suggests that the effect of multivitamin supplementation was equivalent to ~3.1 y of age-related memory change on the ModRey.

Multivitamin supplementation and history of CVD

Individuals with a history of CVD had lower baseline ModRey scores than those without a history of CVD (mean difference = 1.04 words, SE = 0.26 words, $t(3558) = 4.05$, $P < 0.0001$). In the ITT sample, the effect of multivitamin supplementation on improvement in ModRey immediate recall memory at the 1-y follow-up was significantly higher than placebo in participants reporting a history of CVD compared with participants with no history of CVD [mean difference in treatment differences = 1.24 words, SE = 0.48 words, $t(5885) = 2.60$, $P = 0.009$ (Supplemental Table 5)]. The same effect was observed in the per-protocol sample [mean difference in treatment differences = 1.29 words, SE = 0.51 words, $t(4638) = 2.29$, $P = 0.011$ (Supplemental Table 6)], but only trended toward significance in the nonoverlapping sample [mean difference in treatment differences = 1.05 words, SE = 0.60 words, $t(4292) = 1.40$, $P = 0.081$ (Supplemental Table 7)].

Safety

Overall in the COSMOS trial, comparing side effects of multivitamin supplementation with placebo included lower rates of stomach pain, diarrhea, skin rash, and bruising, but an increased rate of gastrointestinal bleeding [12].

Discussion

Daily multivitamin supplementation improved immediate recall memory after 1 y among older adults, above practice effects observed in a placebo group. Examining the change from baseline averaged over 3 y, the effect of multivitamin supplementation on memory was sustained over the 3 y of the COSMOS trial. In contrast, we found that multivitamin supplementation did not significantly affect memory retention, executive function, or novel object recognition. Based on cross-sectional analysis of the association between age and performance on the ModRey, we estimated that the effect of the multivitamin intervention improved memory performance above placebo by the equivalent of 3.1 y of age-related memory change. Our study provides evidence that multivitamin supplementation can help maintain or enhance cognitive functioning in later life, a top health concern among older adults [1]. Although our observed effect size is small and may not be noticeable to all individuals receiving multivitamin supplementation, even small effect sizes can result in large health benefits at the population level [28]. Vitamin supplementation is relatively inexpensive, accessible, and has a few adverse effects, and thus might be a potentially useful population health intervention. In addition to its documented impact on nutritional status and selected health outcomes [29–31], our study provides a strong parallel replication of the findings in the COSMOS-Mind ancillary study [13], which found benefits for a multivitamin on a global composite cognitive score and on composite scores for memory and executive function, including among individuals with a history of CVD who might have insufficient or deficient micronutrient concentrations [32]. We found very similar benefits for memory, and we also confirmed that multivitamin supplementation may improve memory after 1 y among nonoverlapping participants

between the 2 ancillary studies. Participants in the 2 treatment arms had very similar baseline dietary patterns, as indexed by the aHEI (Table 1), which were consistent with averages from the US population [33]. We therefore do not believe that differences in background dietary quality confounded the results and we did not have a priori or prespecified hypotheses with respect to effect modification by dietary status. A major innovation of our study was the incorporation of novel neuropsychological outcome measures, designed specifically to detect subtle aspects of cognitive aging that were self-administered via a Web-based platform. This approach affords several advantages over traditional methods that rely on in-person testing with traditional neuropsychological instruments. We assessed thousands of participants in ~15,000 individual testing sessions over 36 mo, which maximized statistical power and geographical representation. A previous trial that tested a multivitamin on cognitive outcomes [9] relied on clinical neuropsychological outcomes that were designed to detect frank cognitive impairment; these scales may result in performance at the ceiling for many participants and lack sensitivity to detect meaningful individual differences among cognitively healthy adults. That study, which included close to 6000 older men, showed that multivitamin supplementation did not affect a global cognition composite score over a period of ≤12 y [9]. Because the baseline cognition assessment was not performed until 2.5 y after randomization, the study could not assess the shorter-term effects of multivitamin supplementation.

We created the COSMOS-Web battery to capture variation in cognitive functioning among healthy older adults by designing tests with varying difficulty, without ceiling effects, and with the ability to capture finely calibrated reaction times. The computerized administration of the test removes systematic biases due to variable interexaminer and site reliability. We also explored whether the multivitamin supplementation differentially affected individuals with a history of CVD. Consistent with the recent report from Baker and colleagues [13], our results show a relatively stronger impact of multivitamin supplementation on memory among those reporting a history of CVD. Participants with a history of CVD had worse baseline memory performance than those without. However, after 1 y of multivitamin supplementation, their performance recovered to a level comparable to those without CVD. The implication here is that multivitamin supplementation might attenuate micronutrient deficits observed in people with CVD [34,35], which might underlie the reduced baseline memory performance.

Our study provides evidence that multivitamin supplementation has cognitive benefits but does not provide information about the underlying mechanisms that mediate this effect, or specific essential nutrients for cognitive aging [36]. We note that the selective effect of the multivitamin intervention on immediate recall memory—a cognitive operation that is particularly vulnerable in normal cognitive aging [37]—suggests that one possible mechanism for the cognitive effects of multivitamin intervention could be through micronutrient receptors in the hippocampus [38]. As the hippocampus is differentially affected by age, the detection of the cognitive effects of multivitamins in older adults might be most obvious with tasks that are hippocampus dependent. However, it is important to note that all cognitive tasks depend on networks of brain regions, and that multivitamin supplementation might also act on any number of other regions of the brain to produce the observed cognitive effects. Low vitamin concentrations, including vitamin B_{12} and vitamin D, may be linked to cognitive decline [4,5] and dementia [39,40]. We measured selected vitamin concentrations in the blood for a small subset of participants, confirming increases in folate, vitamin B_{12}, and serum 25(OH)D with multivitamin supplementation compared with placebo [12]. Future studies should examine specific nutrients or nutrient combinations that contribute to cognitive health in aging.

The strengths of the study are the large sample size, high compliance with study pills, methodological rigor of the clinical trial, and an innovative and highly scalable cognitive assessment. A key potential limitation of this study, however, is the generalizability of our results. Participants had to meet requirements to have a computer, a degree of computer skills, and internet connectivity and comprised more highly educated, mostly White participants. Therefore, our findings might not generalize to a more educationally and racially/ethnically diverse population. Further, although we could not perform a comprehensive clinical assessment of cognitive status at baseline, the large sample size and randomization scheme provide reassurance that participants with cognitive impairment at baseline would be evenly distributed between treatment groups.

In conclusion, in the COSMOS-Web ancillary study, daily multivitamin supplementation improved verbal memory in older adults at 1 y, an effect that was sustained, over the duration of the trial. Our findings provide support for the cognitive benefits found with multivitamin supplementation in a parallel and independent subcohort in COSMOS [13], warranting further consideration of multivitamin supplementation as a targeted, safe, and accessible approach to slow cognitive decline in older adults.

Acknowledgments

We thank Dr. Scott Small for his contributions to the design of the COSMOS-Web study. We also thank all the COSMOS-Web participants, without whom this work would not have been possible. Finally, thank the following members of the COSMOS research group for their contributions to the COSMOS-Web study: Allison Clar, Georgina Friedenberg, Jimaldy Baez, Alexandra Phillips, Amy Casarella, Christopher Pfeffer, Annalee Wilson, Brielle Salvo, Young Sim, Nicholas Terrell, Leah Hall, Hayara Cardoso, Hanh Huynh, and Connor Rudnicki.

The authors' responsibilities were as follows—L-KY, RS, HDS, JEM, and AMB designed the research; L-KY, HL-G, TC, and CH conducted the research; DMA and MW analyzed data; L-KY and AMB wrote the article; AMB had primary responsibility for final content. All authors read and approved the final manuscript.

Conflict of interest

HDS, JEM, and AMB received investigator-initiated grant support to their institutions from Mars Edge. Pfizer Consumer Healthcare (now Haleon) provided support through the partial provision of study pills and packaging. HDS received investigator-initiated grants from Pure Encapsulations and Pfizer Inc and honoraria and/or travel for lectures from the Council for Responsible Nutrition, BASF, NIH, and the American Society of Nutrition during the conduct of the study. No funding sources had a role in the design and conduct of the study; collection, management, analysis, and interpretation of the data; preparation, review, or approval of the manuscript; and the decision to submit the manuscript for publication.

Funding

This work was supported by an investigator-initiated grant from Mars Edge, a segment of Mars Inc dedicated to nutrition research. Pfizer Consumer Healthcare (now Haleon) provided support through the partial provision of study pills and packaging. COSMOS is also supported in part by grants AG050657, AG071611, EY025623, and HL157665 from the National Institutes of Health (NIH), Bethesda, MD. The Women's Health Initiative (WHI) is funded by the National Heart, Lung, and Blood Institute, NIH, US Department of Health and Human Services through contracts 75N92021D00001, 75N92021D00002, 75N92021D00003, 75N92021D00004, and 75N92021D00005. Additional support was provided by NIH grants R61 MH112800, R01 AG058417, and the Nathaniel Wharton Fund.

Data availability

Researchers interested in study data may contact the study principal investigators to request access. Data requests must be submitted in writing for approval by qualified individuals and will be reviewed by the study investigators. External investigators who are granted access to data for analysis must identify a COcoa Supplement and Multivitamin Outcomes Study (COSMOS)-Web investigator, who will participate in analyses and manuscript preparation as a coauthor. Researchers interested in accessing data related to the COSMOS parent trial (NCT02422745) should contact the administrators of that study.

We need your help!

The Iowa Breastfeeding Database is an online platform housed on the Coffective dashboard that helps organizations find and learn about community partners, share information about their maternal and child health services with local organizations and families, and access resources for working together. The more organizations/individuals that are populated in the database, the more effective the database will be to improve access to breastfeeding services!

How to Sign Up:

To sign up for an account and participate in the Iowa Breastfeeding Database - Here is the link to login or request to sign up https://app.coffective.com/-dashboard/login

View the step-by-step guidance on how to sign up or watch this brief how-to video

More Information on the Iowa Breastfeeding Database:

* View the Breastfeeding Database https://app.coffective.com/-resources/

* Check out Iowa's Initiative https://www.coffective.com/-iowa/

If you have questions about the dashboard, please reach out to Jane Stockton at jane.stockton@idph.iowa.gov or solutions@coffective.com

INFORMATIONAL LETTER NO. 2555-MC-FFS RE: Universal Prior Authorization (PA) Forms for Medical Requests

---

AMERICAN OVERSIGHT

Providers for both Managed Care (MC) and Fee-for-Service (FFS) must begin using the updated universal forms for requesting medical prior authorizations (PAs). The updated universal forms include one PA request form for outpatient services (470-5595)1, another PA form for inpatient services (470-5594)2 and a supplemental form (470-5619)3 for additional provider addresses, member diagnosis and procedure codes. All three universal forms can be downloaded and printed from the Provider Forms webpage on the HHS site4. All medical PA requests must be submitted on the new universal forms.

Register now for the 2024 CMS Health Equity Conference!

We are excited to announce that registration for the second CMS Health Equity Conference is now open! The conference will be held on May 29-30, 2024, at the Hyatt Regency hotel in Bethesda, Maryland, and available online for virtual participation.

Register for in-person or virtual attendance today!

Attendance is free and open to all, but please note that registration fills up quickly and there are a limited number of slots open for in-person attendance. If you are planning on attending in person and do not live locally to Bethesda, we encourage you to book your stay through our Hyatt Regency room block before April 30.

CMS is excited to host the 2024 CMS Health Equity Conference, and we look forward to your attendance and participation!

Iowa's Project LAUNCH initiative and Infant Toddler Court Program are sponsoring a series of "lunch and learn" webinars on topics related to infant mental health and equity.

The webinar topics are listed below (dates for the final two webinars are yet to be determined). Each webinar will be held from 12:00 – 1:00 and is open to anyone interested in the topic. These webinars are free to attend. Feel free to share this with your contacts and let me know if you have any questions.

AMERICAN OVERSIGHT

* Maternal Health, Birth Outcomes, and Early Childhood Development: This workshop will focus on the integration of maternal health, birth journey, and early childhood development from an equity perspective. Infant mental health is impacted by epigenetics. The impact of genes and environmental conditions begin in utero and continue throughout the lifespan. Many cognitive and social emotional delays can be linked to pregnancy outcomes. This course will highlight environmental and genetic factors contributing to infant mental health and childhood development.

* Connecting with “Hard to Reach Families” IECMH Community Engagement Toolkit: One of the difficulties with the term “hard-to-reach” is that it places blame on families, when in fact, it may be the services that are “hard to reach”. Families that are deemed “hard-to-reach” are those who are less likely to engage in services that are offered to them. They may be disinterested in the services, unwilling to accept help, or reluctant to ask for help. Participants will engage in activities to more deeply understand the challenges faced and how to face their own bias when interacting with families. They will learn why some families may not want to participate, while others may have difficulty accessing the services and many may not know the resources exist.

* Secondary Traumatic Stress: Understanding the Impact on Professionals in Trauma-Exposed Workplaces: Designed for all child-serving professionals who are exposed to details of traumatic events and/or individuals suffering from post-traumatic distress in the context of their work. Participants will learn the risks associated with working with individuals suffering with traumatic stress symptoms, strategies to reduce the impact of secondary traumatic stress (STS), and how to support wellness in staff. This course addresses how STS is an ethical mandate for organizations and individuals working in trauma-exposed environments. Building in STS mitigation into systems supports equity efforts by supporting BIPOC populations with historical trauma they carry and present day stressors.

Maternal Health Monthly Contractor Calls

As a reminder, contractors are required to have representation at 75% of all contractor calls. Due to the last minute change in topic for the November call, that will count as a "freebie" for all agencies, so if you did not attend that call but need to miss three calls in addition to that, you are still in compliance. (Unless the call requires registration, the Zoom information is listed below).

AIM Obstetric Emergency Readiness Resource Kit

Share with your local emergency department contacts! Developed in response to the decline of hospitals providing obstetric services in rural areas of the United States and the disparate rates of pregnancy-related mortality based on race, ethnicity, and geographic location. The resource kit contains best practices, resources, and planning materials for use by teams in healthcare settings that may not typically provide obstetric services or frequently care for people experiencing obstetric emergencies.

Fluoridation Page

The American Academy of Pediatrics has launched a new and extensive Fluoridation page on AAP.org. The page is extensively linked to the Campaign for Dental Health website and provides numerous downloadable resources for health professionals and families alike. Topics – everything from how fluoride works to an explanation of fluorosis – are addressed using frequently asked questions and printable information sheets.

Toolkit Provides Tips for Referring Patients to State QuitLines

A toolkit released by the ADA offers dentists guidance on managing and how to refer patients to State QuitLines to support tobacco and vaping cessation efforts. The toolkit, Implementing & Fostering QuitLine Referrals: A Guide for Oral Health Professionals, was developed by the ADA's Council on Advocacy for Access and Prevention (CAAP) in collaboration with the North American Quitline Consortium (NAQC).

Child Health Resources

How does the CCNC role and services fit into the ECI Strategic Plan for 2023-2026?

The HCCI CCNC program is evidence-based and helps to ensure that children have access to healthy and safe care. The CCNC program supports the following activities outlined in the Child Care Nurse Consultant Role Guidance and national Child Care Health Consultant Competencies:

* COMPETENCY 1A. Understands the role of the CCNC
* Competency 1D. Applies principles of health equity and cultural and linguistic competence to work with ECE programs, including staff, children, and families.
* COMPETENCY 2A. Uses evidence-based instruments to assess the quality of health, safety, and wellness practices in ECE programs.
* COMPETENCY 2B. Collaborates with ECE programs to improve the quality of their health, safety, and wellness practices.
* COMPETENCY 7A. Collaborates with programs and families to support the care and inclusion of children with special health care needs and/or chronic physical health or mental

health conditions.

Early Childhood Iowa Strategic Plan 2023-2026:

* Goal 1: Promote a coordinated infrastructure to advance the early childhood system.

* Strategy: Expand collaboration and coordination among state and local programs and agencies serving young children and their families.
* Strategy: Infuse data-based discussions and decision-making processes throughout the early childhood system.

* Goal 3: Transform the early childhood workforce through formal education, improved professionalization, increased skills and competence, and new approaches to implementing best practices.

* Strategy: Provide new or expanded early childhood workforce supports to enhance the quality of early childhood programs and services.

* Goal 4: Ensure that young children and families receive the services they need when they need them.

* Strategy: Improve and expand equitable access to high quality early learning opportunities and services, with focused intentionality for young children and families who have at-risk factors.

* Goal 5: Improve the quality of early childhood services for young children and their families across early care and education; health, mental health, and nutrition; and family support services.

* Strategy: Adopt a collective impact approach to investing in high-quality, evidence-based services, programs, and activities across the early childhood system.

CDC Updates for Region 7

March 25, 2024

CDC's National Institute for Occupational Safety and Health's Impact Wellbeing™ Campaign Releases Hospital-Tested Guide to Improve Healthcare Worker Burnout

As part of the first federal campaign to address healthcare worker burnout, the Centers for Disease Control and Prevention's (CDC) National Institute for Occupational Safety and Health (NIOSH) on March 18, 2024, released an evidence-informed and actionable guide for the nation's hospital leaders to improve healthcare worker wellbeing – *Impact Wellbeing*™ Guide: Taking Action to Improve Healthcare Worker Wellbeing. This Guide is the newest addition to the *Impact Wellbeing*™ Campaign, launched in October 2023, and provides a step-by-step process for hospitals to start making organizational-level changes that will impact and improve the mental health of their employees.

CDC Statement on the President's Fiscal Year 2025

March 11, 2024, the Biden-Harris Administration released the President's Budget for Fiscal Year (FY) 2025. The Centers for Disease Control and Prevention (CDC) budget request for FY 2025 includes $9.683 billion in discretionary budget authority, Prevention and Public Health Funds, and Public Health Service Evaluation Funds, which is $499.2 million over the FY 2023 appropriation. This budget request will enable the CDC to prioritize efforts to rapidly identify and respond to health threats; continue addressing the mental health and overdose crises; and support young families to help children thrive.

CDC study shows effectiveness of RSV immunization for infants

New data released on March 7, 2024, in CDC's MMWR show that nirsevimab, a long-acting monoclonal antibody product, was highly effective in protecting infants from hospitalizations associated with respiratory syncytial virus (RSV). RSV is the leading cause of hospitalization among infants in the United States, and this finding supports CDC's recommendation to protect infants in their first RSV season by giving the infant nirsevimab if the mother did not receive the maternal RSV vaccine during pregnancy.

CDC updates and simplifies respiratory virus recommendations

On March 1, 2024, CDC released updated recommendations for how people can protect themselves and their communities from respiratory viruses, including COVID-19. The new guidance brings a unified approach to addressing risks from a range of common respiratory viral illnesses, such as COVID-19, flu, and RSV, which can cause significant health impacts and strain on hospitals and health care workers. CDC is making updates to the recommendations now because the U.S. is seeing far fewer hospitalizations and deaths associated with COVID-19 and because we have more tools than ever to combat flu, COVID, and RSV.

AMERICAN OVERSIGHT

Older Adults Now Able to Receive Additional Dose of Updated COVID-19 Vaccine

On February 28, 2024, CDC Director Mandy Cohen endorsed the CDC Advisory Committee on Immunization Practices' (ACIP) recommendation for adults ages 65 years and older to receive an additional updated 2023-2024 COVID-19 vaccine dose. The recommendation acknowledges the increased risk of severe disease from COVID-19 in older adults, along with the currently available data on vaccine effectiveness.

Epidemiology Elective Program (EEP) Host Site Application Period Open Now until May 3, 2024

CDC's EEP is a short-term experiential, service-learning rotation in applied epidemiology, public health, and global health. EEP provides the opportunity for medical and veterinary students to learn through trainings and by completing projects with CDC sites; state, tribal, local, and territorial health departments; and other federal sites. Click the link above or email epielective@cdc.gov to learn more.

Clinician Outreach and Communication Activity (COCA)

Recording of webinar available: Overdoses Involving Xylazine Mixed with Fentanyl: Clinical and Public Health Implications

The non-opioid drug xylazine was found in the U.S. illegal drug supply and is associated with overdose deaths from fentanyl. Xylazine is not approved for use in people and can cause sedation and other adverse health effects. During this COCA Call held on February 29, 2024, presenters discussed the epidemiology of overdoses involving xylazine mixed with fentanyl, the current understanding of health risks related to these overdoses, and acute treatment strategies. Presenters also reviewed the state of laboratory testing, outlined potential harm reduction activities, and provided an example of an ongoing public health and clinical partnership to mitigate harms from xylazine mixed with fentanyl.

Recording of webinar available: Diagnostic Testing and Treatment Guidelines for COVID-19 and Influenza

Diagnostic testing for SARS-CoV-2 and influenza viruses can guide clinical management, including appropriate antiviral treatment, particularly in persons at higher risk for progression to severe disease from COVID-19 and influenza, regardless of vaccination status. Antivirals are available that can reduce the risk of severe illness and death from COVID-19 and mitigate influenza illness. During

AMERICAN OVERSIGHT

this COCA Call held on February 1, 2024, subject matter experts presented an overview of COVID-19 and influenza therapeutic options, including eligibility, indications, and efficacy. The recording and transcript of this call are available.

Health Alert Network (HAN)

Increase in Global and Domestic Measles Cases and Outbreaks: Ensure Children in the United States and Those Traveling Internationally 6 Months and Older are Current on MMR Vaccination

March 18, 2024: The Centers for Disease Control and Prevention (CDC) is issuing this Health Alert Network (HAN) Health Advisory to inform clinicians and public health officials of an increase in global and U.S. measles cases and to provide guidance on measles prevention for all international travelers aged ≥6 months and all children aged ≥12 months who do not plan to travel internationally. Measles (rubeola) is highly contagious; one person infected with measles can infect 9 out of 10 unvaccinated individuals with whom they come in close contact. From January 1 to March 14, 2024, CDC has been notified of 58 confirmed U.S. cases of measles across 17 jurisdictions, including seven outbreaks in seven jurisdictions compared to 58 total cases and four outbreaks reported the entire year in 2023. Among the 58 cases reported in 2024, 54 (93%) were linked to international travel. Most cases reported in 2024 have been among children aged 12 months and older who had not received measles-mumps-rubella (MMR) vaccine. Many countries, including travel destinations such as Austria, the Philippines, Romania, and the United Kingdom, are experiencing measles outbreaks. To prevent measles infection and reduce the risk of community transmission from importation, all U.S. residents traveling internationally, regardless of destination, should be current on their MMR vaccinations. Healthcare providers should ensure children are current on routine immunizations, including MMR. Given currently high population immunity against measles in most U.S. communities, the risk of widescale spread is low. However, pockets of low coverage leave some communities at higher risk for outbreaks.

Hello everyone. Based on our discussion today, we need to have more discussion about what's happening with the caseload count data being reported for title IV-E Foster Care Candidates (not Prevention Plan candidates) and children in title IV-E FC placements for Iowa's CB-496 reports. As noted, there is a significant discrepancy between what's being reported for caseload counts in both populations across administration claiming (Case Planning and Management Administration vs. Independent Legal Representation) where it should be comparable (see attached spreadsheet). From what David shared, the Case Planning and Management Administration caseload data is pulled from DHHS sources and the Independent Legal Representation data is entered on the form as reported by the State Public Defender's office.

I am also sharing Children's Bureau policy guidance pertaining to Title IV-E candidates for foster care found in the CB Child Welfare Policy Manual online. During the call today, I was referencing Question 2 found in this section but I encourage you to review any/all questions as you see necessary.
https://acf.hhs.gov/cwpm/public_html/programs/cb/laws_policies/laws/cwpm/policy_dsp.jsp?citID=79

Wendy Sheetz and I had a conversation about these candidates last Spring and she shared a reference to Iowa's Employee Manual 18-Appendix. It's on page 119 (see attached).

If I missed sharing anything that you anticipated seeing, please let me know and I will share.

As you know, I will be in Des Moines (at the 525 SW 5th Street Building) next week on Monday and Tuesday but I can drive to another location as well. If you are available, I have time on Monday (3/11) between 11AM-1PM and then again at 3PM. I also have time on Tuesday morning before 10:30AM. If those dates/times won't work, we can revisit dates/times for a Teams call just let me know.

Thank you!

Access to Confidential Abuse Information and Non-Redissemination Agreement, Form 470-3767

Purpose	Form 470-3767 is used to document the agreement of agencies and facilities electronically accessing child or dependent adult abuse information from the Single Contact Repository (SING) to abide by the laws of access and redissemination for child abuse and dependent adult abuse information. The purpose of the authorized access is to complete employee abuse background record checks if the agency or facility is authorized to do so under Iowa Code.
Source	Print supplies of this form from the manual or SharePoint under Employee Manual/Forms.
Completion	Agencies or facilities mandated to complete child or dependent adult abuse background checks on employees, who access information on SING, complete the form.
Distribution	Email, fax, or mail the completed and signed form. ▪ Email to DHSAbuseRegistry@dhs.state.ia.us, or ▪ Fax to (515) 564-4112, or ▪ Mail to the Iowa Department of Human Services, Central Abuse Registry, PO Box 4826, Des Moines, IA 50305 Post a signed copy within sight of the work area in which SING is accessed.
Data	Enter the name of the facility or agency, billing account number, and the name of the administrator. The administrator of the agency or facility must sign the agreement after gaining access to the electronic information system.

Adoption Information Checklist, Form 470-3614 or 470-3614(S)

Purpose	Form 470-3614 or 470-3614(S) outlines the minimum information about the child that shall be given to the adoptive family **before** an adoptive placement.
Source	DHS workers can complete the English version of this form using the template available in SharePoint under Employee Manual/Forms. Print the Spanish version of this form from the manual or SharePoint.
Completion	The child's worker completes this form after thoroughly reviewing the identified information with the adoptive family and giving the family a copy of the information. De-identify all reports given to the adoptive family so as not to disclose the identity of the biological family members of the adoptive child.
Distribution	Keep a copy of the form in the child's record and give a copy to the adoptive family.
Data	Check off the information and obtain the signatures of the adoptive parents, as well as the worker.

Adoption Subsidy Agreement, Form 470-0749 or 470-0749(S)

Purpose

Form 470-0749 or 470-0749(S) serves as the agreement between the Department and the adoptive parents.

Source

Department staff may complete the English or Spanish version of this form using the template available in SharePoint under Employee Manual/Forms.

Department staff may also print the English and Spanish versions of this form from the manual or SharePoint.

Completion

The adoption worker prepares a separate agreement for each child. Each adoptive parent, the adoption worker, and the service area manager or designee must sign the agreement.

An agreement for presubsidy may be completed at any time during the adoptive placement, but must be completed before the adoption. No payments can be made before the subsidy agreement is completed and signed by the Department and the parents.

Prepare the agreement before finalizing the adoption and whenever modifying the agreement.

Distribution

After obtaining all signatures, distribution is as follows:

- Keep one copy in the subsidy file.
- Give one copy to the adoptive parents.
- Provide one copy to the adoptive parents' attorney or to the court to be included with the petition to adopt.

For revisions, keep the original in the subsidy file and give a copy to the adoptive parents.

Data

The form identifies:

- The type of agreement (presubsidy, subsidy or future needs).
- The parties to agreement (the Department and the parents).
- The eligibility criteria of the child.
- A summary of the benefits agreed to:
  - The adoption subsidy maintenance payment.
  - The child's IV-E status and effective date.
  - The non-recurring expenses related to the finalization of the adoption.
  - Any special services, the amount, and the reason for the service.

Each agreement must be signed and dated by the adoptive parents, the adoption worker, and the service area manager or designee. Enter the date a copy of the agreement was provided to the adoptive parents.

Agreement of Placement for Adoption, Form 470-0761 or 470-0761(S)

Purpose	The purpose of forms 470-0761 and 470-0761(S) is to set the conditions under which a child is placed in an adoptive home.
Source	DHS workers can complete either the English or the Spanish version of this form using the templates available in SharePoint under Employee Manual/Forms.
Completion	The adoption worker prepares an original and one copy of the *Agreement of Placement for Adoption* on the day of placement. The form requires the signature of each adoptive parent. Since guardianship is with the Department, the adoption worker and the service area manager or designee from the receiving service area also sign the form. When an adoptive placement is made when the termination of the birth parents' parental rights is under appeal, complete section IV and fully explain the implications of this situation to the adoptive family. ▪ Emphasize the fact that the adoption cannot be finalized until the appellate decision is made. ▪ Explain that there is a possibility that the child could be removed from care in the adoptive home if the termination decision is overturned on appeal.
Distribution	Give one copy to the adoptive parents, put one copy in the child's adoption file, and put one copy in the adoptive parent's file.
Data	Indicate that the family will pay the cost of medical care for the child unless the placement is in anticipation of a subsidized adoption. When subsidy is anticipated, indicate that the cost is a shared responsibility of the Department and the family. If termination of parental rights is under appeal at the time of placement, when you receive a copy of the procedendo, enter the appellate decision and date at the bottom of the form, and inform the adoptive family of the decision.

Application for Adoption, Form 470-0743 or 470-0743(S)

Purpose

The purpose of forms 470-0743 and 470-0743(S) is to provide:

- A formal request by the prospective adoptive parents for the placement of a child in their home.
- Identifying and descriptive information concerning the prospective adoptive parents used by the worker assigned to make a home study.

Source

Print supplies of the English or Spanish version of this form from the manual or SharePoint under Employee Manual/Forms.

Completion

When an individual or couple wishes to adopt a child with special needs through the Department, the adoption worker is responsible for having the form completed and signed by the applicants.

The worker may need to assist the family in completing the application, particularly in understanding the definition of "special needs" children.

Distribution

Keep the original in the applicant's file. Make a photocopy of the completed form for the applicant and for the service area office, if requested.

Data

The worker completes the box in the top right corner indicating who received the form and the date received.

Application for All Social Services, Form 470-0615 or 470-0615(S)

Purpose

Forms 470-0615 and 470-0615(S) collect information needed to determine eligibility for social services and IV-A-funded emergency assistance services and record the Department's determination of IV-A eligibility.

Source

Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

Print the Spanish version of this form from the manual or SharePoint.

Completion

Prepare an original and one copy of this form when:

- A referral for service is made after an abuse assessment (unless an application is already on file).
- A decision is made to provide one or more of the following services:
  - Family-centered services
  - Protective child care
  - Shelter care (unless placement is less than 48 hours)
  - Foster family care
  - Foster group care
  - Supervised apartment living foster care

  This application is not required for PMIC placements.
- A person wishes to apply for services that are not court-ordered.
- When eligibility redetermination is necessary for one of the services listed above (every 12 months for IV-A eligibility and every 6 months for voluntary case reviews).

Child welfare services require Part A of the application to be done initially, and either Part A or a court order to be done every six months thereafter. Part B of the application is required to be completed initially and reviewed annually for IV-A-funded services.

Complete the application for IV-A purposes regardless of whether services are court-ordered.

The Department worker completes the form with the applicant. The completed application must have the signature of a Department worker certifying approval of eligibility at the bottom of Part B.

The application covers all members of a family when their services are recorded in one case record. Sign and date the application on the day it is received.

Complete the name and the address of the family's legal residence.

Source	The English version of this form is printed with 25 sets on a pad. Order supplies from Iowa Prison Industries at Anamosa. The English and Spanish versions of this form are available as a fillable PDF on the Department's website. DHS workers may also complete the fillable PDF in SharePoint under Employee Manual/Forms.
Completion	Complete the fillable PDF online, or mail or give the *Application for Foster Care and Subsidized Adoption Medicaid* to a person applying for a child living in Iowa in a foster care or subsidized adoption placement. The applicant or an adult acting on a child's behalf completes the form. A friend, relative, authorized representative, or DHS/JCO staff may help, if needed. When the applicant is a child, the application must be signed by a parent, stepparent, or other adult in the home who has primary responsibility for the child's care, if applicable. If there is a guardian or other responsible person, the guardian or responsible person participates in completing the form and signs for the child. See 8-B, *Information Provided* for a list of pamphlets to provide with the Application for Foster Care and Subsidized Adoption Medicaid.
Distribution	If the client wants a copy of the application, photocopy the form for the client. When a person does not file the application at a DHS office, and the person also requests Medicaid, the originating agency routes the original to the DHS office responsible for the applicant's county of residence within two working days of receipt. The originating agency photocopies the application for their files.
Data	Date-stamp the original application before faxing or mailing the photocopy of the form to another agency. For the purpose of Medicaid, the application date is the date the originating agency received the application.

Application for Health Coverage and Help Paying Costs, 470-5170 or 470-5170(S)

Purpose	Forms 470-5170 and 470-5170(S) are used to apply for State Supplementary Assistance programs and Medicaid. The information contained on the application is used to determine eligibility for assistance.
Source	Central Office has a contract to provide automatic shipments of form 470-5170 to local offices. The shipments are intended to cover a six-month supply. Additional supplies of form 470-5170 are also available through Central Office. DHS staff may complete this form using the templates available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	Provide or mail the form to the applicant when assistance is requested. The client completes the form or may enlist help in preparing the form. If the client is mentally incompetent, the form may be completed by a relative, a person in whose home the client resides, or by the DHS service worker. The client must sign the form unless mentally or physically unable to do so. If the client is mentally competent but unable to sign the application form, an "X" or a thumbprint may be used if witnessed by two persons who know the client. If the application is not complete when it is filed, it must be fully completed upon the interview with the client or representative.
Distribution	The client submits one copy of the form to the local office. Date-stamp the completed application before sending it to the income maintenance worker. Provide a copy for the client upon request. **NOTE:** The form is kept in the income maintenance case record. A copy of the form is not required to be kept in the DHS service case file.
Data	The form requests information necessary to determine State Supplementary Assistance and Medicaid eligibility.

Authorization to Obtain or Release Health Care Information, Form 470-3951 or 470-3951(S)

Purpose

Forms 470-3951 and 470-3951(S) are two-way release forms used to get the permission of a client or a family that wishes to be certified as a family-life home to obtain health information needed to:

- Determine a family's eligibility to be certified, or
- Provide service to a client; and
- Release health information about the client to the registered nurse and the provider family.

Source

The English version of this form is printed in pads of 25 three-part precarboned sets. Order supplies from Iowa Prison Industries at Anamosa.

DHS staff may complete the English version of this form using the template available in SharePoint under Employee Manual/Forms. Supplies of this from may also be printed from the manual or SharePoint.

Completion

Complete this form when first meeting with a new client or prospective provider. Complete the identifying information and description of the information being requested or released. Complete one form for each member of the provider family.

The person or the person's personal or legal representative signs the section to give the authorization. Discuss the authorization and explanation paragraph regarding the use of the form and answer any questions raised. Make sure that the person understands the right to revoke the authorization at any time by completing form 470-3949, *Request to End an Authorization*. Explain the consequences of failure to sign the form.

Distribution

For the client, send one copy to the registered nurse with a self-addressed, stamped envelope enclosed when you request the physician's plan of care and nurse's provider instructions.

For the provider, send one copy for each family member to take to the family member's health care provider with form 470-0672, *Provider Health Assessment*.

Keep one copy of the form in the client's case file. The client and provider keep the third copy.

Data

When initiating the form enter:

- The person's name, state identification number (if any), social security number, date of birth, and parent's or guardian's name, if applicable.
- Your name, address, telephone number, and fax number in the first set of agency information.
- The name or the agency to which the information is being released, or from which the information is being requested, and the agency's address, telephone number, and fax number.

AMERICAN OVERSIGHT

- In "the information released or shared may include" section, check the applicable boxes. If the "other" box is checked, describe the specific information being requested.
- Describe any exceptions or limitations under "other." Sample entry: "The Department may obtain information from, but not release information to, the client's daughter."
- State the purpose for which the information will be used.
- In the "SPECIFIC AUTHORIZATION FOR RELEASE" section, secure the initials of the person or the person's legal representative if mental health, AIDS/HIV-related, or substance abuse information is to be obtained or released.

  NOTE: Only the person or the person's legally authorized representative can give consent to release or obtain mental health and AIDS/HIV-related information. Only the person can give consent to release or obtain substance abuse information.

  "Mental health evaluation/treatment" means oral, written, or recorded information that indicates the identity of a person receiving professional services and which relates to the diagnosis, course, or treatment or the person's mental or emotional condition.

  "AIDS" means a medical diagnosis of acquired immunodeficiency syndrome, based on the Center for Disease Control's "Revision of the CDC Surveillance Case Definition for Acquired Immunodeficiency Syndrome."

  "HIV-related" means a medical diagnosis of human immunodeficiency virus infection based on a positive HIV-related test.

  "Substance abuse" means the use of chemical substances by persons suffering from chemical dependency, persons who are incapacitated by a chemical substance, substance abusers, or chronic substance abusers.
- Ask the person to sign and date the form and enter a date when the authorization is to expire.
- Check the applicable box indicating the relationship of the person who signs the form to the person the information is concerning.
- Obtain the signature of two witnesses for people who are incapable of signing their name due to a physical or mental disability.

To use the form as the required documentation for the disclosure of mental health information, document on the back of the form kept in the case file:

- The date.
- The name of recipient of information.
- The information disclosed.
- The name of the person who disclosed the information.

Casey Life Skills Assessment, Form 470-5701

Purpose:

Form 470-5701 is used to ensure children in foster care age 14 and older are assessed for life skills which are necessary for successful transition to adulthood. When a child in foster care is age 14 or older, provide form 470-5701 Casey Life Skills Assessment to the caretaker of a child in a family setting or in a shelter and ensure the assessment is completed with the child. Repeat completion of the CLSA at the child's ages 14, 16, and 18 or more frequently as needed.

For children in QRTP or Supervised Apartment Living, the assessment will be completed by the provider and sent to the case manager within 10 days of the child's 14th, 16th, and 18th birthdays.

Explain the reason for the assessment to the child and caregivers and ensure the assessment is completed, kept in the case file, and utilized to inform the transition planning process.

Form 470-5701 is available as a fillable PDF on the Department's website. DHS workers may also download the fillable PDF from SharePoint under Employee Manual/Forms, or print from this manual.

Completion

The social work case manager completes the form with the child or ensures a caregiver and the child complete the form:

- When a child age 14 or older has entered foster care, or
- When the child reaches age 14, 16, 18 and other times as needed.

Federal policy requires a life skills assessment shall be administered to all children in foster care who are aged 14 or older, regardless of adjudication status or whether payment is made to the caregiver. In Iowa, that assessment is the Casey Life Skills Assessment (CLSA).

Distribution

Explain the reason for the assessment to the child and caregivers and ensure the assessment is completed, kept in the case file, and utilized to inform the transition planning process. Use the results of the CLSA to complete an overall assessment of the child and document it in the transition plan in the Part C section of the Family Case Plan.

Child Protective Services Child Abuse Assessment Summary, Form 470-3240

Purpose

Form 470-3240 provides identifying information about the child subject and the household in which the child subject resides. This summary addresses abuse reported and assigned to the Child Abuse Assessment pathway.

The form assesses the child subject's safety when an evaluation of the reported incident is conducted. The form also documents the assessment of the family's needs and strengths, and recommendations for services or court intervention as indicated.

The form also addresses the determination of whether abuse occurred. If abuse is confirmed, the summary identifies the person responsible for the abuse and indicates whether the incident requires placement on the Central Abuse Registry.

Source

This form is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.

Completion

The child protection worker completes this form in JARVIS with approval and sign-off by the supervisor.

Distribution

After supervisory approval in JARVIS, the form is mailed via Central Printing with the *Notice of Child Abuse Assessment* to:

- The child being assessed, and
- The child's custodial and noncustodial parents or guardian, and
- All other subjects.

The county attorney and juvenile court have access through the portal.

For reports placed on the Central Abuse Registry only, provide the summary to the mandatory reporter who made the report upon completion of a request for child abuse information.

Data

If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS:

- Report Information. List case names, address, phone numbers, incident number, completion date, addendum date (if applicable), intake date, child protection worker, and county name/county number.
- Assessment Findings
- Safety Assessment Findings. The safety assessment findings are pulled from the *Safety Assessment* completed through the Safety Assessment tab of the STAR Assessment module in JARVIS.
- Household Composition

- Non-Custodial Parent
- Others Involved in the Assessment – Not in Household
- Person Determined Responsible for the Abuse. Completed only if abuse is confirmed.
- Intake Allegation Type
- Concerns Reported
- Summary of Previously Confirmed or Founded Reports Concerning Person Alleged Responsible. If the victim on a prior report is not a subject of the current report, the victim's name will be displayed as "confidential."

  When parental rights have been terminated and a child abuse incident occurred before the termination, the parents' names will be displayed as "biological parents."
- Summary of Assessment Process. Enter the dates in which the child or children were observed, as well as, a justification explanation if child observed outside of assigned timeframes. Also enter:
  - The dates the custodial and non-custodial (if applicable) parents were interviewed,
  - The date the evaluation of the home environment was completed, and
  - The dates the safety assessments, safety plans (if applicable), and risk assessment were completed.

  Provide additional information regarding:
  - ICWA/Native American heritage information,
  - Dates and time contacts were attempted if there is difficulty in meeting observation timeframes,
  - Supervisory approval if contact is delayed, and
  - The date and time of supervisory safety decision check back.
- Summary of Contacts. Include in this section:
  - Whether confidential access was used and your rationale and justification according to policy for using confidential access (if applicable).
  - A list of people you contacted in conducting the assessment (subjects, family members, and other collateral sources) and their role or position with the child or family.
  - Date, time, and type of contact and the contact name, location, and phone.
  - The date and time you observed the child subject or your efforts to observe the child.

- Your rationale for delaying observation of the child beyond the assigned timeframe or for not observing the child (if applicable).
- Physical evidence pertaining to the abuse allegations.
- Identification of those interviewed and a summary of their remarks.
- Your efforts to locate and interview the person alleged to be responsible for the abuse, if unavailable while conducting the assessment.
- Documents requested and examined pertaining to the abuse allegations.
- Relevant information from any previous Department contact with the child or family, including information obtained from child abuse Registry checks and Department case files.
- Findings from other states, if the family has lived elsewhere.
- If denial of critical care, physical abuse, or presence of illegal drugs in a child's body is founded, the last contact must include a determination of child death or serious injury. Document whether the abuse DID or DID NOT result in the death or serious injury of a child based on the credible evidence available. This determination impacts whether or not the name of the person responsible is eligible for removal from the registry after five years.

▪ Summary of Contacts Addendum. When you reasonably believe that additional pertinent information will be available or additional relevant contacts will be made, indicate on the summary that you will complete an addendum.

  Complete the "Summary of Contacts" related to the addendum when additional information is received. This field appears only if an addendum is in progress.

  If denial of critical care, physical abuse, or presence of illegal drugs in a child's body is founded, the last contact must include a determination of child death or serious injury. Document whether the abuse DID or DID NOT result in the death or serious injury of a child based on the credible evidence available. This determination impacts whether or not the name of the person responsible is eligible for removal from the registry after five years.

▪ Findings and Determination of Abuse Allegations. Determine if abuse occurred.

  - List the factors that must be proven for each type of abuse and state your conclusions and rationale.
  - Enter your finding of not confirmed, confirmed, or founded.

- Placement on Registry and Justification. For Registry placement, you must document the existence of one or more necessary circumstances that require placement of the report on the Registry.

  For confirmed reports that are not placed on the Registry, document the justification for nonplacement by describing how the information supports that the finding was minor AND isolated AND unlikely to reoccur.

  NOTE: Reports that may be confirmed but not placed on the Registry are confirmed reports of denial of critical care through lack of supervision or lack of adequate clothing, or physical abuse that has been determined to be minor, isolated, and unlikely to reoccur according to policy.

  For not confirmed reports, document what factor of abuse was not evidenced.
- Safety Assessment Summary.

  Provide a narrative description of the current factors influencing child vulnerability (conditions resulting in a child being more vulnerable to danger).

  Provide a narrative description of the current danger indicators you identified (behaviors or conditions that describe a child being in imminent danger of serious harm). If no danger indicators were identified, please provide your rationale.

  Provide a narrative description of the caretaker's capacities and safety interventions that have been taken and how each protected or protects the child from the identified danger indicators.

- Summary and Analysis of Safety/Risk Assessments.

  Provide a narrative description of the family safety concerns by addressing the following:

  - Given the child(ren)'s level of vulnerability, what are the concerns and/or threats of danger in everyday life of the family? What everyday family life issues need to be better managed (i.e. new plan for discipline, safe home environment, more rigorous supervision, proper nutrition, etc.) to ensure child safety and well-being.

  Provide a narrative description of individual parent/caretaker concerns by addressing the following:

  - Describe what individual issues parents/caretakers have that need to be better managed or replaced so that the family tasks can go better (i.e. new plans for managing anger/control issues, improving emotional stability, stopping or limiting use of substances, managing sexual behavior, etc.) and what kind of new plan needs to be in place to ensure child safety and well-being.

  Provide a narrative description of family consensus regarding safety concerns by addressing the following:

  - What is the level of consensus with the family regarding the safety concerns and/or threats of danger described above?

- Addendum to Safety Assessment Summary. Use this section to update or edit the Safety Assessment Summary, based off the last Safety Assessment completed. This field appears only in addendum status.
- Addendum to Analysis of Safety/Risk Assessments. Use this section to update or edit the assessment after completion of the original report. This field appears only if in addendum status.
- Final Risk Level. The neglect, abuse, and scored risk levels are pulled in from the *Family Risk Assessment* completed through the Family Risk Assessment tab of the STAR Assessment module in JARVIS. If the *Family Risk Assessment* has not been completed, levels will not appear in these three sections.

  The final risk level is used to determine what the client's service eligibility is in based on findings, age, and risk.

  Review and consider information gathered from child and family interviews, collateral contacts, Department service records, and all prior assessments.

- Recommendation for Service. The finding of the child abuse assessment and the family risk score determine the family's eligibility for information or information and referral, non-agency voluntary services, or Department services.

When the family is being referred to non-agency voluntary services, document the actions developed jointly with the family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of family functioning:

- Consider if there are current resources, services, and supports available to the family that can meet the family's needs and increase protection for the child.
- Identify services and supports provided to the family that have failed to prevent the child's abuse or reabuse.
- Consider if caretakers refuse needed services or supports despite protective concerns, increasing children's risk.
- Document your recommendation for services.

When the family is eligible for non-agency voluntary services, but is not being referred, indicate the exception reason.

When the family is being referred for Department services, identify the prevention services to meet the foster care prevention strategy and describe what that prevention strategy is.

When the family is eligible for Department services, but is not being referred, indicate the exception reason.

Document any additional service information that is needed.

- Recommendations for Court Involvement. Enter your recommendations for juvenile or criminal court involvement.
  - If you recommend juvenile court involvement, include:
    - A summary of the status of any current juvenile court involvement if the child is already adjudicated or adjudication is pending.
    - Your specific recommendations to the county attorney on the initiation or continuation of juvenile court action.
    - Your rationale to support that recommendation (e.g., family with founded abuse has refused offer of Department services).
  - If you do not recommend juvenile court involvement, include under "Type of Action Requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was not confirmed, or was confirmed or founded but low-risk).
  - If you recommend criminal court involvement, include:
    - Reference to any joint assessment with law enforcement.
    - The status of the criminal investigation when charges have already been filed in a matter.

Child Protective Services Family Assessment Summary, Form 470-5371

Purpose

Form 470-5371 provides identifying information about the child subject and the household in which the child subject resides. This summary addresses abuse reported and assigned to the Family Assessment pathway.

The form assesses the child subject's safety when an evaluation of the reported incident is conducted. The form also documents the assessment of the family's needs and strengths, and recommendations for services or court intervention as indicated.

Source

This form 470-5371 is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.

Completion

The child protection worker completes this form in JARVIS with approval and sign-off by the supervisor.

Distribution

After supervisory approval in JARVIS, the form is mailed via Central Printing with the *Notice of Family Assessment Recommendation* to:

- The child being assessed and
- The child's custodial and noncustodial parents or guardian.

The county attorney and juvenile court do not have access to the *Family Assessment Summary* through the portal. The *Family Assessment Summary* may be provided upon request for a Child In Need of Assistance petition or upon written request, in accordance with Iowa Code section 217.30.

Data

If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS:

- Report Information. List case names, address, phone numbers, incident number, child protection worker, county name/county number, intake date, and completion date.
- Safety Assessment Findings. The safety assessment findings are pulled from the *Safety Assessment* completed through the Safety Assessment tab of the STAR Assessment module in JARVIS.
- Household Composition
- Non-Custodial Parent
- Others Involved in the Assessment – Not in Household
- Concerns Reported

  - ICWA/Native American heritage information,
  - Dates and time contacts were attempted if there is difficulty in meeting observation timeframes,
  - Supervisory approval if contact is delayed, and
  - The date and time of supervisory safety decision check back.
- Whether confidential access was used and your rationale and justification according to policy for using confidential access, if applicable.
- Assessment of Family Functioning Domain Criteria. The *Family Functioning Domain Criteria* form makes up the main content of the Family Assessment Summary. The family's strengths and needs are identified using the family functioning domains:
  - Child Well-Being
  - Parental Capabilities (includes use of drugs or alcohol)
  - Family Safety (includes domestic violence)
  - Family Interactions
  - Home Environment

  Provide general narrative documenting observations of strengths and needs or challenges under each specific subsection that applies to the family. It is not necessary to address every item listed. Address items that are relevant to the given situation. You are not limited to only the items listed.

  Protected sections that can be suppressed before printing are available to list any child specific statements or information regarding parent's physical health, mental health, or substance abuse.

  Also identify in this section:
  - Whether confidential access was used and your rationale and justification according to policy for using confidential access (if applicable).
  - A list of people you contacted in conducting the assessment (subjects, family members, and other collateral sources) and their role or position with the child or family.

Child Protective Services Intake, Form 470-0607

Purpose	Form 470-0607 documents information provided in a report of suspected child abuse and the Department's response to the report. It may also be used to gather information for a CINA intake.
Source	The form is available on the STAR Intake module in JARVIS.
Completion	The intake worker who receives the initial report of suspected child abuse or CINA intake completes this form on each referral, whether or not the referral is accepted for assessment.
Distribution	The intake is maintained on the STAR Intake module in JARVIS. If accepted, send a copy to the appropriate service area for assignment and to any Department personnel who needs the information. If rejected, send to any Department personnel who needs the information. If a criminal act harming a child is alleged, send to the appropriate law enforcement agency. The county attorney and juvenile court have access through the portal.
Data	*Date*: Enter the date you received the report of suspected child abuse or CINA. *Time*: Enter the time you received the report of child abuse or CINA intake using a 12-hour clock with "A.M." or "P.M." as needed. *County Name/County #*: Enter the county name and number. *Intake Person*: Enter the name or worker number of the person conducting the intake. *Assigned Worker*: Enter the name or worker number of the person assigned to complete the assessment if accepted. *Incident #*: Enter the number assigned by the STAR system. *Household Name and Address*: Enter the address for the residence of the child subject's family, whether or not the child currently resides there. Enter the zip code and county, if known. If the child has no family, enter the child's most recent address, if known. If the location of the household is unknown or unavailable at intake, enter "unknown." Out-of-state addresses may be entered. *Directions to Home*: If the child has no family, enter the child's most recent address, if known. If the location of the household is unknown or unavailable at intake, enter "unknown." Out-of-state addresses may be entered.

Telephones: Enter household telephone numbers including area code and any other contact phone numbers.

Current Location of Child Subject: If a child named as a subject is living outside the home, enter the name and address of the family or institution where the child is residing at the time of intake. If you gave the child's placement address as the household address, you need not reenter it.

Household Composition: Enter the name of each person residing in the household with the child subject. Complete this section as fully as possible, using the codes provided. STAR requires a numeric entry in the social security field.

Non-Custodial Parent: Enter the name, date of birth of noncustodial parent, relationship of the noncustodial parent, social security number, FACS ID, address, phone number, and name of the noncustodial parent's child.

Use the "Comments" section to indicate the parent's workplace or any other information determined to be pertinent to the intake. Access ICAR as necessary.

Reporter or Referral Source: Enter the name, including title, agency, address, and phone number of the reporter or referral source, if known. Check the box that indicates the reporter type and reporter notification. Enter the date of notice.

Person Reported as Responsible for Alleged Abuse: Enter the name, date of birth, relationship to child, social security number, FACS ID, address, and phone numbers.

Use the "Comments" section to indicate the person's workplace or any other information determined to be pertinent to the intake. **NOTE:** This information is not required on a CINA intake.

Collateral Sources: Enter the name, phone number, relationship of the collateral source to the child, and address of collateral sources identified by the reporter or the intake worker.

Allegations Abuse Type: Check all applicable abuse types alleged.

Narrative Description/Child Safety Concern: Enter the reported information in this section. Whenever possible, use the words of the reporter.

Summarize all allegations and other information needed to determine whether the referral provides information sufficient to justify a child protective assessment or a CINA assessment. All cases accepted for a child protective assessment must clearly state that the three criteria have been met.

Additional Information: Include information learned from the results of checks of the databases in this section. Provide as much information as is known about the list of additional questions/topics as well as any other additional information that may be relevant to the assessment. Include information from additional reporters.

Child Study, Form 470-3698

Purpose	Form 470-3698 provides a specific guide for completing the written child study report for each child whose parental rights have been terminated.
Source	Complete this form using the template available in SharePoint under Employee Manual/Forms.
Completion	Within 30 days of issuing the child's termination of parental rights order, the child's foster care worker or adoptive worker completes the *Child Study*. The worker completing the study is determined by service area protocol. (Remember to update FACS on the termination as well, to notify the Foster Care Recovery Unit.) Get an updated copy of the *Social History*, form 470-3615, if the worker responsible for completing the *Child Study* is different from the past worker. Update the *Child Study* annually for children with termination of parental rights who have not been placed for adoption.
Distribution	Keep one copy in the child's adoption record and guardianship file. Also give a copy to the child's foster care provider and prospective adoptive parents along with a copy of the child's case permanency plan.
Data	Attachments to the child study shall include: ▪ Hospital birth records ▪ A current photo of the child ▪ Current case plan ▪ Immunization record ▪ Current physical, psychiatric, psychological, school, and provider reports

Child Welfare Multidisciplinary Team (MDT) Agreement, Form 470-2328

Purpose	The purpose of form 470-2328 is to formulate an agreement between the Department and various individuals and agencies for consultation during the course of abuse assessments to discuss assessment, diagnosis, coordination of services, possible referrals, and disposition. Multidisciplinary teams (MDTs) will be convened at the Department's request during the course of an assessment or evaluation. No case specific information can be discussed outside the scope of the abuse assessment and evaluation.
Source	Complete this form (except for signatures) using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	All parties of the multidisciplinary team must sign during the formulation of a multidisciplinary team and before the dissemination of any individual dependent adult abuse information. Any ad hoc members whose participation has been approved by the Department, must sign each and every time they attend the meeting. The form is considered complete and the team is considered approved by the service area manager or designee as evidenced by signature on form 470-2328. Each agreement must be signed again by all parties at least annually on or before July 1 of each year with final approval by the service area administrator or designee.
Distribution	The service area administrator or designee keeps one copy, sends one copy to Central Office, and gives a copy to each team member.
Data	Complete the name of the team members and the date of the agreement. Additional lines may be added for the signature of team members.

Consent to Obtain and Release Information, Form 470-0429 or 470-0429(S)

Purpose

Form 470-0429 is designed to get the permission of the client or the client's legally authorized representative to:

- Release information about the client to a third party.
- Obtain information needed to provide service to the client.

The Department uses this form to secure or release non-health-related information for purposes of determining a client's eligibility for services. See *Authorization to Obtain or Release Health Care Information*, Form 470-3951 or 470-3951(S) for information used to authorize exchange of health care information.

Staff from a county case management or central point of coordination office (a county worker) may also use this form.

Source

Department workers may complete the English or Spanish form using the template available in SharePoint under Employee Manual/Forms.

Completion

The Department or county worker prepares the form and secures the signature of the client or the client's representative:

- At the initial request for services.
- When the current authorization expires.
- When new services are added to the client's plan.

Distribution

File the original in the case record. Give a copy to the client or the client's representative. Provide a photocopy to each person or agency authorized to share information.

Data

Enter the requested identifying information at the top of the form. Check the applicable box to identify whether a Department worker or a county worker is preparing the form. For a county worker, also enter the name of the county.

List each person or agency authorized to share information with or receive information from the Department or the identified county. In the box to the right of the list, enter the name, phone number, and address of the Department or county worker who is to receive the information.

Describe any exceptions or limitations under **Other**. Sample entry: DHS may obtain information from but not release information to Heartland AEA.

Enter the expiration date if it is other than "*upon termination of services*."

If the client **withdraws** authorization to share information with a listed person or agency, cross out the entry and secure the date and initials of the client or the client's legally authorized representative.

Dependent Adult Assessment Tool, Form 470-4841

Purpose

Form 470-4841 is a three-part tool used to assess a dependent adult's *degree of dependency*, as well as, to analyze safety and risk. Complete an assessment of safety, dependency, and risk on every alleged victim for whom an evaluation or assessment is conducted.

Source

Complete the assessment tool online in DARES under each tab, respectively labeled "Safety Assessment," "Dependency Assessment," and "Risk Assessment."

This form may also be printed from "My Links" in JARVIS and entered into DARES later.

Completion

The adult protective worker must complete the *Safety Assessment* portion:

- Within 24 hours of the first contact with the adult subject, and
- Before closing the adult protective evaluation or assessment.

The adult protective worker must complete the *Dependency Assessment* portion before the end of the dependent adult protective evaluation or assessment.

The adult protective worker must complete the *Risk Assessment* portions before the end of the dependent adult protective evaluation or assessment.

Distribution

The *Dependent Adult Assessment Tool* is not distributed as part of the *Dependent Adult Protective Services Evaluation or Assessment Summary*. Print the *Dependent Adult Assessment Tool* and keep it in the case file.

Data

Asterisked (*) items are generated by the DARES database if the information has been entered into DARES. The adult subject's name, date of birth, age, form of alleged maltreatment, and caretaker, if applicable, are pulled from household composition.

Safety Assessment (Initial and Final)

If any of 2 through 6 are **No** or 7 through 14 are **Yes**, assist the adult subject, caretaker, service providers, and support system to take steps to alleviate the safety issues. This may be done by:

- Obtaining medical care or placement,
- Engaging additional formal and informal supports,
- Safety planning,
- Use of law enforcement, or
- Seeking legal intervention.

DARES will narrow the results of the safety decision in compliance with the scoring instructions. Only the subsequent safety status score is pulled from

DARES and populates into form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

AMERICAN OVERSIGHT

Initial Safety Decision

Check the box to indicate your determination as to whether the dependent adult is "safe," "conditionally safe," "unsafe," or "unable to remediate safety concerns." When selecting "unable to remediate safety concerns," the adult protective worker must select one of the following reasons why:

- Protective order requested but not granted.
- Dependent adult has the capacity to consent and is refusing services.
- Dependent adult has accepted some, but not all of the recommended services.
- Other. If selecting other, please provide a brief explanation.

Dependency Assessment

Health conditions and diagnoses: Enter medical information. Document the overall condition of the adult, any existing allergies, and behavioral indicators or observations of health.

Medications: Enter all the adult's medications.

Current services: Enter **Yes** or **No** for each question. Use "Other" for services not represented on the list. Explain all other services not on the list.

Cognitive impairments: Enter **Yes** or **No** for each question. Completing IQ is optional. Explain any temporary conditions.

Cognitive screening: Enter the type of mental status screening tool conducted. If the mental status screening tool used by the adult protective worker or other qualified professional is not represented in the list, select "other." List the score and what the score means pertaining to the adult subject's cognition. Screening will allow the adult protective worker to determine if the adult subject needs a more comprehensive assessment on capacity to consent.

Physical impairments: Enter **Yes** or **No** for each question. Explain if necessary.

Katz (Activities of Daily Living) (ADL): The Katz Index ranks adequacy of performance in the six functions of *bathing, dressing, toileting, transferring, continence, and feeding*. Clients are scored for independence in each of the six functions.

Each category has a check box. DARES calculates the score. Completion of all questions is required. A score of six indicates full function; four indicates moderate impairment; and two or less indicates severe functional impairment.

Lawton – Brody Instrumental Activities of Daily Living Scale (IADL): The IADL is an appropriate instrument to assess independent living skills. These skills are considered more complex than the basic activities of daily living as measured by the Katz Index.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-009750

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

The instrument is most useful for identifying how a person is functioning now and identifying improvement or deterioration over time. There are eight domains of function measured with the Lawton IADL scale.

To obtain a score for each category, check the box for the item description that most closely resembles the client's highest independence level. Each category requires one box to be checked. The total score ranges from zero which indicates low functioning to eight which indicates high functioning.

ConsultGeriRN website: https://zhangnandi.com/about/news-publications/news/2008/january/introducing_consultgerirnorg.html

Summary of dependency status: Determine if the information collected through the dependency portion of your assessment indicates the adult subject (alleged victim) is dependent.

Use the narrative to summarize the evidence gathered through the dependency assessment to support or refute that the adult subject is a dependent adult. A diagnosis or level of care alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the "Summary of dependency status" narrative is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Adult Subject Risk of Abuse or Neglect Assessment

The risk assessment must be completed by the conclusion of the assessment or evaluation.

The scored risk levels are pulled from the risk assessment of the adult subject and the alleged person responsible that are completed through DARES for the incident. If the risk assessments have not been completed, levels will not appear in the printed version.

The final risk level score is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*, under "Final Risk Level." The DARES system uses this score to determine what the client's periodic visit eligibility is based on, age, dependency status, mitigating interventions, and risk level.

Summary and Analysis of Safety Constructs Narrative

- Describe the threats of maltreatment that are present at this time (i.e., aggravating factors that combine to produce a potentially dangerous situation).

- Describe the adult subject's vulnerability to maltreatment (i.e., the degree that the adult subject cannot on the adult's own avoid, negate, or minimize the impact of present or impending danger).
- Describe the adult subject and caretaker or alleged person responsible protective capacities (i.e., family, household, or support system strengths or resources that reduce, control, or prevent threats of maltreatment from arising and the factors and deficiencies that have a negative impact on the adult subject's safety).

Policy Overrides

After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and adult subject vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

Discretionary override reason: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. You must receive supervisory approval for a discretionary override. The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Supervisor's Review/Approval of Discretionary Override: Enter a signature.

Date: Enter the date.

Dependent Adult Multidisciplinary Team (MDT) Agreement, Form 470-5737

Purpose	The purpose of form 470-5737 is to formulate an agreement between the Department and various individuals and agencies for consultation of dependent adult abuse assessments/evaluations to discuss diagnosis, limitations, coordination of services, possible referrals, and disposition of an adult subject. Multidisciplinary teams (MDTs) will be convened at the Department's request during the course of an assessment or evaluation. No case specific information can be discussed outside the scope of the abuse assessment and evaluation.
Source	Complete this form (except for signatures) using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	All parties of the multidisciplinary team must sign during the formulation of a multidisciplinary team and before the dissemination of any individual dependent adult abuse information. Any ad hoc members whose participation has been approved by the Department, must sign each and every time they attend the meeting. The form is considered complete and the team is considered approved by the service area manager or designee as evidenced by signature on form 470-5737. Each agreement must be signed again by all parties at least annually on or before July 1 of each year with final approval by the service area administrator or designee.
Distribution	The service area administrator or designee keeps one copy, sends one copy to Central Office, and gives a copy to each team member.

Dependent Adult Protective Services Evaluation or Assessment Summary, Form 470-0688

Purpose

Form 470-0688 provides identifying information about the adult subject and the household in which the adult subject resides. This summary addresses the abuse reported and the determination of whether abuse occurred.

The form assesses the adult subject's safety when an evaluation or assessment of the reported incident is conducted. The form also documents the assessment of risk, dependency, household strengths and needs, and recommendations for services or court intervention as indicated.

If abuse is confirmed, the summary identifies the person responsible for the abuse and indicates whether the incident requires placement on the Central Abuse Registry.

Source

This form may be completed online, including the narrative, using the DARES system.

Completion

The adult protective worker who completes the evaluation or assessment completes the form. The supervisor approves and signs off on the final report.

Distribution

Automatically provide the summary to the county attorney. Keep a copy in the case record.

For an inter-county referral, also send one copy to the referring or receiving county attorney.

Data

Asterisked (*) items are generated by the DARES database system if the information has been entered into DARES. Case name, address, phone, registry number, completion date, and addendum date are pulled from DARES.

* *Report Information*: The intake date, adult protection worker, county name or county number are pulled from the DARES data entry.

* *Assessment Findings*: Findings are pulled from the "Determination" screen after completion of assessment and data entry.

The safety assessment findings are generated by the "Safety Assessment" page for the incident using subsequent findings from worker entry into DARES.

* *Household Composition*: Information is pulled from the "Household Composition" screen in DARES.

Guardian: Enter or modify information on the adult subject's guardian, conservator, or other person responsible for the adult subject. Document or modify the person's name, address, and phone number.

Collateral Information: This field prints only if information is entered in DARES.

Person Determined Responsible for the Abuse: Complete only if abuse is confirmed.

* *Intake Allegation Type*: Information is pulled from the "Allegations" screen.

* *Concerns Reported*: Information is pulled from "Allegations" screen.

Summary of Previously Founded Reports Concerning Alleged Person Responsible: (Information is pulled from DARES, STAR, and CINA for all victims and perpetrators.) If the victim on a previous report is not a subject of the current report, the victim's name displays as "confidential."

Summary of Assessment Process: Information is pulled from DARES screen entries with the exception of "guardian interview." Guardian interview requires entry directly into the field by the adult protective worker.

Summary of Contacts: Include in this section a list of people you contacted in conducting the assessment (subjects, family members, and other collateral sources) and their role or position with regard to the adult subject. Address the actions developed jointly with the adult subject, supports, and family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of safety, dependency, and risk. Include:

- The date, time, and type of contact and the contact name, location, and phone number.
- The date and time you observed the adult subject or your reasonable efforts to observe the adult timely.
- Physical evidence pertaining to the abuse allegations.
- Identification of those interviewed and a summary of their remarks.
- Your efforts to locate and interview the person alleged to be responsible for the abuse, if unavailable, while conducting the evaluation.
- Documents requested and examined pertaining to the abuse allegations.
- Relevant information from any previous Department contact with the adult subject or other household members, including information obtained from abuse registry checks and Department case files.
- Findings from other states, if the adult subject or alleged person responsible has lived elsewhere.
- Current resources, services, and supports considered and available to meet the adult subject's needs and increase protection.
- Services and supports identified and provided to the adult subject or alleged person responsible that have failed to prevent the adult subject's abuse or re-abuse.

- Caretaker's refusal of needed services or supports despite protective concerns, increasing the adult's risk.
- Documentation of your recommendation for services. Documentation should include any action taken or contemplated.

Summary of Contacts Addendum: When you reasonably believe that additional pertinent information will be available or additional relevant contacts will be made, indicate on the summary that you will complete an addendum. Complete the "Summary of Contacts" related to the addendum. This field appears only if an addendum is in progress.

Summary of Dependency Status: The narrative listed is pulled from the "Dependency Assessment" tab completed in DARES to summarize the evidence to support or refute that the adult subject is a dependent adult. A diagnosis alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the "Summary of Dependency Status" narrative is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary.* The remainder of the form is not disseminated.

Findings and Determination of Abuse Allegations: Determine if abuse occurred.

- List the factors that must be proven for each type of abuse and state your conclusions and rationale.
- Enter your finding of unfounded, confirmed, not registered, or founded.

Addendum Findings and Determination of Abuse Allegations: Document the factors that must be proven for the type of abuse and state your conclusions and rationale. This field will appear only if an addendum is in progress.

Placement on Registry: Enter:

- The adult subject's name,
- The alleged person responsible,
- The abuse type,
- Your evaluation or assessment finding, and
- Whether the report will be placed on the Registry.

Summary and Analysis of Safety/Risk Assessments Identified: Provide a narrative description of the safety and risk factors identified:

- Document a full description of information gathered regarding the safety of and risk to the adult subject.

- Address safety factors identified in the safety assessment and the related issues associated with the safety factor. Document the safety decision and any actions taken to address safety issues.
- Document risk factors indicated on risk assessment relating to risk of abuse or re-abuse.

Analysis may include the information gathered for the completion of safety and risk assessments such as:

- How long or how frequently abuse has occurred.
- Willingness and ability of a caretaker not responsible for the abuse to protect the adult subject; or the ability of the adult subject to self-protect.
- The frequency, severity, and type of abuse.
- Factors or situations contributing to the abuse.
- The risks of dependent adult abuse for the adult subject and any other potentially dependent adults in the home.

Addendum Summary and Analysis of Safety/Risk Assessments Identified: Use this section to update or edit the assessment after completion of the original report. This header will print only if an addendum date has been entered in DARES.

Final Risk Level: Information is pulled from the "Risk Assessment" tab completed in DARES.

Recommendations for Service: Select one or more services you recommended or referred the adult subject to during or as a result of your evaluation or assessment.

Narrative can be entered into "Summary of Contacts" to provide details as needed. In this section, the adult protective worker can check the box if no additional supports are needed. Otherwise, select one or more from the following list of "Services Referred for Adult Subject":

- Care/case management services (includes AAA/ADRC)
- Caregiver support services
- Education, employment, and training services
- Emergency assistance and material aid services
- Financial planning services
- In-home assistance services
- Legal services referral
- Medical and dental services

- None. If selected, a narrative box will populate and must be completed.
- Recommended service is unavailable in the subject's area. If selected, please state why in the narrative box.
- Department services – Periodic visits – Referral date. This pulls from DARES.

Family does not need additional supports beyond current formal and informal systems.

Perpetrator Legal Remedy: Narrative can be entered into "Summary of Contacts" to provide details as needed. The adult protective worker must select one or more from the following list:

- Recommendation of removal of guardianship rights
- Recommendation of restraining order on perpetrator regarding the client
- Recommendation of eviction of perpetrator
- Recommendation of restitution by perpetrator
- Recommendation of other legal remedy (removal as caretaker, POA, conservator)
- No crime charged
- None. If none, must complete the field stating why.

Interagency Coordination: Narrative can be entered into "Summary of Contacts" to provide details as needed. The adult protective worker must select one or more from the following list:

- Law enforcement or prosecutorial offices (includes DCI, county attorney, local law enforcement)
- Protection and Advocacy or Client Advocacy Program (CAP) such as Disability Rights Iowa, Iowa Civil Rights Commission, and the Equal Opportunity Commission, Federal Department of Labor
- State licensing agency (Department of Inspections and Appeals, Department of Public Health, Iowa Medicaid Enterprise)
- State Medicaid Fraud Control Unit (MFCU)

- AAA/ADRC (or Iowa Department on Aging)
- Crime Victim Assistance Program
- Child Protection Center (AKA Child Action Center)
- Iowa Workforce Development, Division of Labor Services
- Fire Marshall's Office
- None. If none, must complete the field stating why.

Recommendations for Court Involvement: Enter your recommendations for district or criminal court involvement.

- If you recommend district court involvement, include:
  - A summary of the status of any current district court involvement if the adult is already under a guardianship or conservatorship.
  - Your specific recommendations to the county attorney on the initiation or modification of district court action.
  - Your rationale to support that recommendation (e.g., alleged person responsible has refused services for the adult subject creating immediate danger or the adult subject does not have capacity to consent to services and is in immediate danger).
- If you do not recommend district court involvement, include under "type of action requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was unfounded, or was confirmed or founded but low risk).
- If you recommend criminal court involvement, include:
  - Reference to any joint assessment with law enforcement.
  - The status of the criminal investigation when charges have already been filed in a matter.
  - Your specific recommendation to the county attorney regarding the initiation of any criminal prosecution.
  - Your rationale to support that recommendation.

Case Closure Reason: Pulled from DARES.

Approval: The adult protective worker and supervisor's signatures are automatically filled in based on approval in DARES.

Dependent Adult Protective Services Intake, Form 470-0657

Purpose	Form 470-0657 documents information provided in a report of suspected dependent adult abuse and the Department's response to the report.
Source	Intake workers can complete this form using the: ▪ DARES module, or ▪ Template available in "My Links" in JARVIS, or ▪ Printable template located in the JARVIS-DARES module. Transfer the data to the DARES module later.
Completion	The intake worker who receives the initial report of suspected dependent adult abuse completes this form on each referral whether or not the referral is accepted for assessment or evaluation.
Distribution	File the original in the case file. Send a copy to the intake supervisor. Send a copy of the dependent adult abuse intake to the county attorney. Make additional copies as needed.
Data	*Date*: Enter the date you received the report of suspected dependent adult abuse. *Time*: Enter the time you received the report of dependent adult abuse using a 12-hour clock with "A.M." or "P.M." as needed. *County Name/County #*: Enter the county name and number. *Intake Person*: Enter the name of the person conducting the intake. *Assigned Worker*: Enter the name of the person assigned to complete the evaluation or assessment if accepted. *Registry #*: The DARES system assigns this number. *Household Name and Address*: Enter the address of the primary residence of the adult subject, even if the adult subject is currently in an alternative temporary setting such as the hospital. Enter the zip code and county, if known. If the location of the household is unknown or unavailable at intake, enter "unknown." Out-of-state addresses may be entered. *Directions to Home*: If the location of the household is unknown or unavailable at intake, enter "unknown." Out-of-state addresses may be entered. Otherwise, enter directions to the residence when possible. *Telephones*: Enter the household telephone number, including the area code, and any other contact telephone numbers.

Current Location of Adult Subject: If the adult subject is living outside the home, enter the name and address of the location where the adult subject is residing at the time of intake. If you gave the adult's placement address as the household address, you do not need to reenter it.

Address of Abuse Incident: Enter the address where the alleged abuse occurred.

Household Composition: Enter the name of each person residing in the household with the adult subject. Complete this section as fully as possible, using the codes provided. Race and social security number will not appear on a printed intake document downloaded from DARES.

NOTE: The column labelled "Med", representing 'Active Medicaid Member', will only show a value for the adult subject within the household composition.

Narrative Description/Adult Subject Safety Concern: Enter the reported information in this section. Whenever possible, use the words of the reporter. Summarize all allegations and other information needed to determine whether the referral provides information sufficient to determine abuse or neglect did not occur. Enter whether or not the alleged person responsible has access to the adult subject (victim).

Reporter or Referral Source: Enter the name, including title, agency, address, and phone number of the reporter or referral source, if known. Check the box that indicates the reporter notification and date of notice.

Person Reported as Responsible for Alleged Abuse: Enter the name, date of birth, relationship to adult subject, social security number, FACS ID (if applicable), address, and phone number. DARES will generate person IDs or the intake worker can select the correct person if the person already exists in the system.

Use the "comments" section to indicate the person's workplace or any other information determined to be pertinent to the intake. The social security number will not appear on a printed intake document downloaded from DARES.

Collateral Sources: Enter the name, phone number, relationship of the collateral sources to the adult subject, and the address of the collateral sources identified by the reporter or the intake worker. Use the comments section labeled "In-Depth Intake Information" to document information from mandatory reporters gathered during an in depth intake.

In-Depth Intake Information: Enter information into DARES in the "comments" box under each collateral source and indicate if an in-depth intake was conducted. Only mandatory reporters can be contacted. Send each mandatory reporter a notice.

Allegations Abuse Type: This information is carried over by the "Alleged Abuse Type" screen in DARES.

System Checks Completed. DARES, STAR, ISIS, FACS, IMPA, Criminal, SOR, and WISE: Enter the information from these data sources. Mark the box for each database checked, regardless of whether it had information on the adult subject or the person alleged responsible. Enter criminal history check results. Possible rejection reasons which populate from DARES into form 470-3944, *Dependent Adult Abuse Notice of Intake Decision*, are as follows:

- Subject of the report is not a dependent adult.
- Alleged perpetrator is not a caretaker.
- The allegations do not constitute abuse under Iowa law.
- Sufficient evidence exists that abuse or neglect did not occur.
- Additional or duplicate information to previous report.
- Referred report to DIA.

Additional Information: Include information learned from the results of checks of the databases in this section. Also include any other additional information that may be relevant to the evaluation or assessment.

Include any worker safety information about dangerous persons, animals, or conditions likely to be encountered during the assessment or evaluation process. Indicate if the safety concerns involve others in addition to the adult protective worker.

Intake Screening Tool – Determining Dependency Status: Use questions 1, 2, and 3 to gather information from the caller. Use questions 4 through 10 if they apply. All questions are to assist in determining a reasonable belief of the adult subject's dependency status.

Supervisory Decision: For a dependent adult abuse intake, indicate the reasons for the rejection and the date and time.

Intake Supervisor Timeframe to Accept or Reject: Check either the 1 hour or 12 hour period to accept or reject the dependent adult abuse intake.

Case Assignment: Check the applicable box and indicate the date and time the report was:

- Accepted and assigned, or
- Rejected and the name of the supervisor making the rejection decision.

Supervisor Assignment of Response Time for Observation of the Adult Subject: Check either the 1 hour or 24 hour period for response time. Timeframes cannot be waived or delayed for seeing an adult subject (victim).

Determination Not Eligible for Five-Year Removal: Notice of Addendum, Form 470-5443

Purpose

Form 470-5443, *Determination Not Eligible for Five-Year Removal: Notice of Addendum*, was created as a temporary form to address a backlog of incidents impacted by a law change on January 1, 2014. The law requires the Department to determine whether the person responsible for the abuse on a founded child abuse assessment should be placed on the Central Abuse Registry for ten years or become eligible to have their name removed after five years.

The form provides notice to individuals who had founded assessments of denial of critical care, physical abuse, or presence of illegal drugs on or after January 1, 2014. The form explains that their name does not qualify for removal from the Central Abuse Registry after five years. Addendum and right to appeal information is also provided.

Source

The form is not available to field staff.

Completion

Identified staff complete the form following a review of the incident and a determination that the person named responsible does not qualify for removal after five years.

Distribution

A copy of the completed form is sent to the person named responsible. A copy of the completed form is maintained in the File Manager specific to the incident number.

Data

If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS:

- The date the form is sent.
- The name and address of the person to whom the form is sent.
- The incident number referenced in the form.
- The name of the person responsible for the abuse.
- *Report Information*: Intake date, child protection worker, household address, completion date, incident #, addendum date, and county.
- *Household Composition*: Name, DOB, sex, role, FACS ID, and comments.
- *Non-Custodial Parent*. Name, phone, address, parent of, and comments.
- *Person Determined Responsible for Abusive Incident*: Name, DOB, FACS ID, relationship, address, phone, comments, and work phone.
- Original Concerns Reported
- Addendum to Summary of Contacts
- Addendum to Findings and Determination
- Rights to Appeal This Action

Discovering Connections, Form 470-5648 or 470-5648(S)

Purpose	Forms 470-5648 and 470-5648(S), *Discovering Connections* are used to assist children and youth with identifying potential family and other positive adult connections.
Source	Print supplies of this form from the manual or SharePoint under Employee Manual/Forms as needed.
Completion	Any professional may complete the Discovering Connections tool with a child or youth throughout the life of the case.
Distribution	The child protection worker or social work case manager should utilize the information obtained from the completed tool to assist in Diligent Search activities and to engage informal supports. Ensure that you have signed releases from the child's parents before releasing information to identified supports.
Data	Using the tool: ▪ Pick a setting that promotes conversation and openness and matches the youth's interests. For example, take a walk outside, do an art project, etc. ▪ Be honest about the purpose of the questions and with whom the information will be shared. ▪ Not all questions need to be asked, or asked exactly as written. Strive to make this a conversation. ▪ Record as much information as possible about people the youth identifies and ensure that the youth is okay with these people being contacted. ▪ Give specific details about the next steps in the process. Do not over-promise but be sure the next steps are reached. ▪ Be sure to thank the youth for their willingness to share. ▪ If youth are unable to name anyone, have a conversation about opportunities to build new relationships and connections while acknowledging the youth's resilience in the absence of these connections.

Eco-Map, Form 470-4086 or 470-4086(S)

Purpose	Form 470-4086 or 470-4086(S) is used to help families assess the balance between the stress and support they have and whether foster care and or adoption is right for them.
Source	Print supplies of the English or Spanish version of this form from the manual or SharePoint under Employee Manual/Forms as needed.
Completion	The foster or adoptive parent applicants complete the form during PS-MAPP.
Distribution	The family shares this self-evaluation with their home study worker during family consultations. The recruitment and retention contractor: ▪ Submits a copy to the Department with the home study. ▪ Keeps a copy in the family's file.
Data	Page 1 of the form includes sections for the applicant to: ▪ Draw a central circle with names of all the people who live in the household. ▪ Draw circles outside the central circle representing systems that give and take away energy. ▪ Describe the relationships between the outside systems and the family. ▪ Describe the flow of energy: Is this system a source of support or stress for the family? Page 2 of the form includes sections for the applicant to: ▪ List five additional "systems" that will likely be added to the family if they become a foster or adoptive family. ▪ Develop preventive strategies to reduce the stresses and increase the support.

Family Case Plan, Form 470-3453 or 470-3453(S)

Purpose

The *Family Case Plan*, form 470-3453, is the official record of the Department's involvement with the family. It serves to:

- Help document the child and family conditions and concerns that caused the family to become involved with the child welfare system.
- Help determine and document the most appropriate services and supports needed to assure and promote child safety, permanency, and well-being. The family's plan includes a description of:
  - A plan to keep children safe.
  - Individual family strengths, supports, and needs.
  - How the strengths and family supports can be used to assist the family in self-directed change.
  - How the Department and others will assist the family in overcoming the needs.
- Document compliance with applicable state and federal laws and regulations.

Source

These forms are all accessed and completed in the DHS Case Flow system at: http://dhsintranet/cwis_caseflow/

- Family Case Plan Face Sheet, Part A
- Family Case Plan, Part B
- Child Placement Plan, Part C
- *Family Functioning Domain Criteria*, form 470-4138 (also located on SharePoint under Employee Manual/Forms), which explains what information, child/family issues, and assessment criteria should be considered in each of the five domain areas
- Family Risk Reassessment, form 470-4134

Completion

The DHS social work case manager assigned to the child and family is responsible for preparing the case plan to provide a comprehensive assessment view of the child and family that focuses on the major needs of the child, the parents, and, if applicable, the foster parents related to child safety, permanency, and well-being.

The case plan must be completed within 60 calendar days from the date the Department opens a DHS child welfare service case.

The case plan must be reviewed and updated:

- At a minimum, every six months thereafter while the case remains open, or
- More frequently if there are significant changes or if required by the court.

Information on the child and family entered in the FACS system automatically completes the case plan. Information not entered in FACS will not appear in the case plan. The worker must enter this information when the case plan is prepared.

Distribution

Obtain the necessary signatures on the plan and indicate which persons participated in developing or reviewing the plan:

- Distribute the *Family Case Plan*, including the *Family Case Plan Face Sheet*, when it is first developed to all of the persons listed on the "Signatures and Notifications" page.
- Distribute copies of any altered or revised case plan, including Part A, Part B, and Part C, if applicable, and the completed review section, to all of the persons listed on the "Signatures and Notifications" page.
- Print a copy of all initial and reviewed case plans, including Part A, Part B, and Part C, if applicable, and the completed review section and place the copy in the case file.

Data

A. Family Case Plan Face Sheet

The face sheet includes identification, statistical, historical, service summary, and placement information for the family.

- *Identifying information*: Enter information on the child's name, FACS ID, date of birth, address, and family members is automatically entered from the FACS system.
- *Service History* and *Placement History*: Enter information about services opened for the child and family in the FACS system is automatically entered from the FACS system.
- *Additional Services Provided*: The social work case manager completes this section. (This data is not contained in the FACS system.) Once entered, this information will be saved and become part of the case plan history over the life of the case.
- *Court Involvement*: The social work case manager enters information on any court involvement into FACS on the Court Detail screen. This information then fills the Court Involvement section of the *Family Case Plan Face Sheet*, Part A.

Information shown in green on Part A may be suppressed for safety reasons, such as when the safety of a foster child or foster parent could be jeopardized by printing the address or there are domestic violence issues or a restraining order between the child's parents.

To suppress all the information shown in green, click on the box "Suppress All Sensitive Date." Individual lines may also be highlighted and removed. Suppressed information reappears when the Case Flow form is reopened.

B. Family Case Plan

- *Identifying information*: The child's name and FACS ID and the DHS worker's name are automatically completed from information in the FACS system.
- *Family Plan Participants*: The worker fills in the list of participants involved in developing the case plan.
- *Date of Initial Plan* and *Family Team Meeting*: The worker must enter dates in these fields.
- Anticipated date of case closure: The worker enters the date.
- *Household Composition*: This information is automatically completed based on information entered in FACS about the child's family members living in the home. Information in FACS about the child's parents not living in the home will be filled into this section as well.

Family Functioning Domains

DHS uses the *Family Functioning Domains* to provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention.

Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- *Child Well-Being*: Child's mental health behavior, relationship with peers, school performance, motivation and cooperation, relationship with caregivers, and relationship with siblings
- *Parental Capabilities*: Parental supervision of children, mental health, disciplinary practices, physical health, developmental and enrichment activities, and use of drugs or alcohol
- *Family Safety*: Physical abuse, neglect, sexual, or emotional abuse of child; and domestic violence
- *Family interactions*: Bonding with child, expectations of child, relationship between parents or caregivers, mutual support within the family
- *Home environment*: Housing stability, financial management, income and employment, safety in community, personal hygiene, habitability, transportation, food and nutrition, learning environment
- *Other*: Additional issues or concerns about the child or family

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

Become familiar with the family functioning domain categories and criteria. Consider the child and family's strengths, concerns, and needs in the various domain areas as you have discussions with the family and gather and analyze information about them.

- Information gathered in a family team may be helpful in evaluating the domain categories.
- Evaluate each individual's functioning through the common "lens" of the domain areas when:
  - There are multiple children in the family,
  - There is a noncustodial parent or stepparent, or
  - A relative is caring for the child.

Complete the family functioning domain section of the case plan by working through each domain category (the subcategories for each domain category automatically appear as you complete the domain sections) and:

- Fill in the **Narrative** section of each domain with a specific description of any strengths or needs identified within that domain.

  Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

  Remember that families may have strengths in some domain areas that can be used to address needs in other domains.
- Establish a **Goal** for each domain area where a need is identified in the narrative. It is critical that goals be developed in partnership with the family.

  Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.
- If no needs are identified for a family within a domain category, but strengths are noted, you may establish a goal for that domain that focuses on using family strengths to help meet needs in other domain areas.
- After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.
- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible for each step and
  - The dates for beginning and completing the necessary actions.

  Update revisions to or completion dates for the steps throughout the life of the case plan.
- Discuss and review the case plan information on domain areas, proposed goals, and action steps with the family before making final entries to the plan.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-009783

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

- Use the **Comments** section in each domain area to enter updated information on the family's progress and functioning level in that domain.

When the child is residing with the child's parents, the case plan shall state whether the child would be at "imminent risk of removal" from the home if in-home services were not provided.

"Imminent risk" means there is an immediate threat or likelihood that the child will suffer maltreatment.

When assessing "imminent risk," consider the three safety constructs of threats of maltreatment, child's vulnerability to maltreatment, and the caretaker's protective capacities to determine if the child would be unsafe without in-home services in place.

Cases that meet this standard are eligible for federal Title IV-E funding as candidates for foster care.

In the comments section of the most applicable family functioning domain area, document whether DHS would ask the court to consider the removal of the child if the family refused or terminated in-home services and why.

Review Section

Use the *Family Case Plan* review section when reviewing family progress and making further recommendations for actions and services on the case.

- Indicate the date of the plan review and whether this review was conducted through a family team meeting.
- When completing the review, consider the family's current functioning, level of goal achievement, and completion of necessary steps within each domain area.
- Identify family achievements, progress toward safe case closure, remaining concerns, and your current recommendations in the review section.
- At least once every six months, review the status of any child who has been previously determined to be at "imminent risk of removal" if in-home services are not provided. Document if services should continue and why in the *Review Summary and Recommendations* box.

  Reference **Other Comments** if an evaluation determines that the location of the foster home is suppressed and review this determination every six months or less.

Signatures and Notifications

- Document and obtain signatures from those persons that participated in development of the plan and thank all persons who contributed to the planning process for the child and family.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

- Set a date for future meeting with the family to review and revise the plan as needed. The **Other Comments** section of this page can be used for this purpose.

  Every six months or less, evaluate and review the decision to suppress the location of the foster home to determine if suppression continues or the need for suppression no longer is applicable.

- The **Other Comments** section may be used to include information concerning:
  - Case child abuse and criminal record histories;
  - Whether the Indian Child Welfare Act applies to the case;
  - Evidence of a direct or indirect threat to harm the foster child or foster family or credible third-party information of a threat of harm to the foster child or foster family as listed in 18-D(4). This information is needed if there has been a decision to suppress the address and contact information of the foster home.

- Distribute copies of the plan to those that should receive them.

C. Child Placement Plan

In combination with the face sheet and the family plan, the out-of-home placement section is a written document that includes all the federal required elements. The family plan and the out-of-home placement section include:

- A description of the placement and the appropriateness of the placement.
- The permanency goal for the child including any concurrent permanency goals.
- A plan for ensuring that the child and family receive services designed to facilitate the return of the child to a safe home or to another permanent placement.
- The health and educational status of the child.
- When applicable, a description of the programs and services that will facilitate the child's transition from foster care to adulthood.

This form is necessary to provide information mandated by state and federal laws and regulations regarding each child placed in an out-of-home setting in which the Department has custody, or when foster care is being provided under a voluntary placement agreement.

The DHS social work case manager responsible for the child should complete the *Child Placement Plan* when the child is placed in an out-of-home setting and DHS has custody or the child is placed under a voluntary placement agreement.

For these children, this section is in addition to Parts A and B of the case plan. The *Child Placement Plan, Part C*, should be updated every 90 days just like Parts A and B.

The *Child Placement Plan* is distributed as part of the case plan for children who are in placement. Print a copy of the *Child Placement Plan* and keep it in the child's DHS service record along with the other sections of the case plan.

Based on available case information and your own discussions with the family, make narrative entries for all applicable items on the *Child Placement Plan* where no auto-filled information appears. Enter sufficient narrative information to explain and give detail about the categories contained in the form.

- The child's name and FACS ID will be automatically completed.
- Enter the following:
  - Child's date of birth
  - Anticipated date of child's return home
  - Date of family plan development
  - Date of initial out-of-home placement
  - Placement authority (court or voluntary placement)
  - Date of current placement
  - Whether "contrary to welfare" language is in the appropriate court order (yes or no)
  - Whether "reasonable efforts" language is in the appropriate court order (yes or no)
- *Permanency Goal*: Select and enter the current permanency goal for the child.
- *Concurrent Goal Assessment*: Assess and answer the two questions concerning the child. **NOTE:** If you answer "no" to either question, you must enter a concurrent goal in the next section.
- *Concurrent Goals*: Complete this section if the answer to either question in "Concurrent Goal Assessment" is "no." Describe concurrent goal planning underway for the child.
- *Child Well-Being Domain*: Review information about the child entered in the family domain criteria "child well-being" area and indicate whether each of the domain subcategories is currently a strength (S) or need (N) for the child.
- *Placement Status Information*: Assess and answer the six questions pertaining to the characteristics of the current placement for the child. **NOTE:** If you answer "no" to any question, you must enter an explanation in the adjacent box.
- *Efforts Made by DHS to Support the Placement and Prevent Disruption*: Check the boxes to indicate the DHS efforts to support the placement and prevent disruption.

AMERICAN OVERSIGHT

- *Placement History*: Enter information about the child's out-of-home placement history. Start with the current placement and then list all previous out-of-home placements, including any hospitalizations, institutional, or PMIC placements.
- *Permanency (ASFA)*: Answer the four questions in this section. **NOTE:** If you answer "yes" to any question, you must enter an explanation in the adjacent box. If termination of parental rights is not indicated, explain this by selecting a reason provided or by citing other compelling reasons in the space provided.
- *Visitation*: Make the appropriate entries to describe the child's visitation situation. Include any necessary narrative to explain the visitation arrangements.
- *Documentation*: Indicate whether the child has a certified birth certificate and a Social Security card and number. Describe plans to obtain if the child currently does not.
- *Health and Health Records*: Answer the question whether the child was able to retain known care providers. If not, explain efforts to do so and reasons why continuity of care was not possible.

  Document whether the child is a victim of sex trafficking. If yes, explain services provided. If the youth is pregnant or has a child, check "yes" in the final question.

  In the table provided, enter any known health examinations and treatments the child has received. If possible, indicate this information for at least the last two years of the child's life.

  Indicate the provider, dates of service, and date the information on these services was given to the child's current caregiver and current service provider.

  NOTE: Do not record HIV status or risk of HIV infection anywhere in the case plan. File any such information in the medical record section of the case file and mark it "Confidential."
- *Mental Health/Psychological/Psychiatric Records*: Describe any known mental health, psychological, or psychiatric evaluations or treatment the child has received.

  Indicate the provider, dates of services, and date the information on these services was given to the child's current caregiver and current service provider.
- *Education Records*: Complete this section to provide information on the child's current educational stats. Contact educational partners at the local school district or Area Education Agency (AEA) if needed to obtain this information.

  If the child was not able to remain in the school the child was attending upon entry or change in foster care placement, explain efforts to keep the

child's educational placement stable and why the change was best for the child.

Transition Plan

"Transition planning" is the process of assisting the child in foster care to prepare to be a self-sufficient adult.

This process includes an assessment of life skills, strength and concerns, services and supports, and outcomes to be accomplished for successful transition.

Planning for transition to adulthood for children in foster care with special needs may need to begin before age 14 to ensure needed funding and services are available.

Service area transition planning specialists (TPS) can provide ongoing consultation and information regarding transition planning for adolescents.

For a child who may be eligible for services as an adult, the assessment and plan of services must be developed with someone who can reasonably be expected to fund those services or be a service provider when the child becomes an adult.

This section is required for a child in foster care of any type who is age 14 years of age or older. The plan shall be updated at required intervals with the *Case Permanency Plan*. In addition, the *Transition Plan* needs to be updated within 90 days of the child turning 18, and if the child remains in care past the age of 18, in the 90 days before discharge.

Organization of a youth-centered planning team is required for every child age 14 and older in foster care. Ask the child to select members of the team. Include specific names of formal and informal supports in the box that asks about membership.

A referral to transition planning specialist (TPS) may be needed for more challenging needs, such as transition planning for a child in long-term foster care or a child needing adult services. If a referral has been made to a TPS, select "yes."

Include the date the Case Life Skills Assessment was completed. It must be done at least once after the child in foster care's 14th birthday. Replace with the new date if it is done again throughout the child's time in foster care.

If the child is interested in pursuing higher education, the plan shall provide for the child's participation in the College Student Aid Commission's program or assistance in applying for federal and state aid.

Indicate whether the child has a driver's license or non-operator ID. If the child does not have at least one or the other, provide steps to obtain one or both.

Review and explain form 470-5337, *Rights of Youth in Out-of-Home Placement*, to a child age 14 and older. Have the child sign and date the form indicating you have reviewed the rights so the child understands and have answered any questions about their rights. After the form has been signed, give the child the original rights document and provide a copy to all legal parties on the child's case. Document the date the form was most recently given to the child in the *Case Permanency Plan*.

Before the child reaches age 17½, present the completed *Transition Plan* to the transition committee for the service area that applies to the child. The local transition committee must review and approve the *Transition Plan*. When a child enters foster care at age 17½ or older, the local transition committee shall be involved in reviewing and approving the child's transition plan within 30 days of completion.

There are six domain areas in the *Transition Plan* and a box for each. Follow the instructions for each section below:

- *Education*: Include information about the child's current education status and plans, including steps that still need to be taken, dates, and who will assist.
- *Employment and Workforce Supports*: Include information about the child's current work status and plans, including steps that still need to be taken, dates, and who will assist. This section needs to show the child has a clean credit report and banking experience, or it should provide plans or activities to achieve.
- *Health and Health Insurance*: Include information about the child and the child's health insurance status and plans.
- *Housing*: Describe the child's housing and housing plans.
- *Supportive Relationships and Services*: Describe relationships and opportunities for social and developmentally appropriate activities. Describe efforts to repair relationships or help child reconnect. Refer child age 17 to aftercare and include the date. If aftercare has not been contacted, leave the box blank.
- *Youth with Special Needs*: Relevant information about any special needs of the child should be included here, as well as referrals to SSI and adult services. The connections to SSI or adult services must be made before the Transition Planning Committee review, which typically occurs when the child is age 17. The date the plan was reviewed should be included in the last box of this section.

Child Signature

Obtain the child's and guardian's signatures as appropriate.

Completion	When time and circumstances allow, the Department caseworker as the "referral worker" completes the form when seeking a foster family home for a child.
Distribution	Submit this form electronically to the contractor responsible for matching responsibilities. Keep a copy in the child's case file.
Data	**Referral Information**. Enter the date of the referral, the time of the referral, and the date and time the foster family is needed.

Referring Worker Information. Enter the name, email, office phone, city, county, and cell phone information of the child's Department caseworker.

Referring Worker Supervisor Information. Enter the name, email, and cell phone information of the child's Department caseworker's supervisor.

FSRP Care Coordinator Information. Enter the name, email, and cell phone number of the child's FSRP Care Coordinator if the child is receiving FSRP services.

Child Information at the Time of Referral. Enter the child's:

- Name,
- Gender,
- Date of birth,
- State identification number,
- Race,
- Language,
- ICWA eligibility,
- Current address including city, state, and zip code,
- Financial county,
- Discussion of the child's strengths and needs,
- Child's special interests or activities, and
- Continued contact with siblings on every child referred.

Enter if youth has a driver's license, school information, church attendance, sexual identity, and sexually active when applicable.

Family Functioning Domain Criteria, Form 470-4138

Purpose	Form 470-4138 is used to assist with assessment of the strengths and needs of the child, and of the child's parent(s)/caretaker(s), home, and family. It is an example of statements regarding areas of strengths and needs.
Source	This form is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.
Completion	The child protection worker uses this tool during the child protective assessment process to aid in the assessment of strengths and needs. Strengths and needs are identified using the family functioning domains: ▪ Child well-being ▪ Parental capabilities (includes use of drugs or alcohol) ▪ Family safety (includes domestic violence) ▪ Family interactions ▪ Home environment Identify domains as a strength or need. Address in the narrative section strengths and needs under each specific subsection that applies to the child, family, or home. It is not necessary to address every item listed. Address items that are relevant to the given situation. You are not limited to only the items listed. The child protection worker completes this form in JARVIS with approval and sign-off by the supervisor.
Data	Family functioning domains are applicable throughout the life of a case beginning with the safety assessment, strengths and needs identification during a child protective assessment or CINA assessment, and developing a family plan.

Family Interaction Plan General Roles and Responsibilities, Form 470-5148 or 470-5148(S)

Purpose

The *Family Interaction Plan General Roles and Responsibilities*, form 470-5148 and 470-5148(S), is the official family interaction plan developed for children placed out of the home. All children who are placed out of the home need to have a family interaction plan in place to ensure interactions occur in safe and healthy ways. The family interaction plan should be tailored to meet the safety needs of the family.

Source

Complete the English or Spanish version of this form using the template available in SharePoint under Employee Manual/Forms. This form may also be printed from the manual or SharePoint.

Completion

The most effective way of developing or reassessing a family interaction plan is during a warm hand-off or Solution Focused Meeting. The written family interaction plan may be incorporated as part of the Solution Focused Meeting notes or identified separately on the family interaction plan form. However, not all children placed out of the home will have a Solution Focused Meeting but family interaction planning should still occur.

Distribution

Give a copy of the completed family interaction plan to the identified team members. Keep the original form in the child's case file.

Data

Background Information. Enter the following information:

- *Children's names*: If multiple children have different needs or safety concerns, the family's team may want to consider a separate plan for each child.
- *Date of plan*: This is the date the plan was developed.
- *Placed with*: Document where the child is placed and with whom. If multiple children are in different places, indicate the type of placement (i.e., resource family, relative, residential placement, etc.).
- *Placement date for children*: This is the date the child was removed and placed out of the home.
- *Permanency goal*: Document the identified permanency goal.

Safety Concerns/Required level of supervision. Utilizing the Family Interaction Planning Tool (Comm. 649) provide explanations for questions A-F of the Interaction Supervision Decision Tree.

Family Interaction Plan. Family interaction should begin as soon as possible after removal from parental custody. At a minimum, interactions should occur within 24 hours of placement, be regular, and of increasing frequency and duration.

- *Types of Interaction*: Document the type of interaction approved. Creativity in defining interactions should be supported. Every opportunity needs to be

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

considered such as doctor appointments, school activities, meetings, and other functions in which the family would have participated if the children were in the home. This should be documented in the Attendance at Child Centered Appointments/Events section of the plan.

Interactions should be built around meaningful activities including:

- Mealtimes,
- Bathing,
- Grooming,
- Naptimes,
- Homework time,
- Grocery shopping,
- Doctors' appointments,
- School activities (i.e., conferences, plays, band and choir concerts, family nights, carnivals, graduation, etc.),
- Sports activities, and
- Should be geared towards the child's developmental abilities.

Creative planning should not only support face-to-face time but also other methods, such as calls, letters, texting, emails, and other electronic methods of communication. Families should be encouraged to explore other ways to connect and interact with one another.

- *Frequency* and *Length of Interaction*: Document the frequency and length of interaction. In determining how often and how long interactions should be, consider the following:
  - The age of the children.
  - The severity and chronicity of the abuse.
  - The potential for abduction or continued abuse of the children.
  - The progress of the parent in learning new skills or managing inappropriate behaviors, protective capacities displayed by the parent.
- *Locations*: Document the locations where the interactions will occur. Utilize the Planning Tool to aid in decision making around interaction locations.

  Family interaction should occur in the least restrictive, most homelike setting that allows for natural interaction and appropriate to meet the child's needs for safety. Generally, the parental, relative, or resource family home will provide the best environment. When safety is an issue, a more secure setting should be chosen and a safety plan developed for the interactions to continue.

  Consider the type of interaction as you document the location. For example, if an interaction is built around school activities, sport activities,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

or doctors' appointments, you would document the location of the event (i.e., school, gymnasium, ball field, doctor office, etc.).

- *Types of Supervision*: Document the type of supervision for the identified interaction. Types of supervision include fully supervised, relaxed supervision, semi or partially supervised, or no supervision necessary. Supervision can be provided by a professional or other person identified by the family's team.
- *Supervised By*: If supervision is required, document who is responsible to provide supervision during interaction. This will be determined by the family's team. Consideration should be given based on the safety concerns and the developmental needs of the child.

  Family interactions are most "natural" when interactions are supported by those with a relationship with the child, such as other family members versus professionals. Family supports can be relied on to assist with all aspects of services including attendance at meetings, role modeling, transportation, observing interactions, etc.

Family Routines to Practice During Family Interaction. Document the goals to be accomplished during family interaction. Family interaction should focus on allowing the most natural parent-child interactions, such as:

- Cooking and eating a meal,
- Reading stories,
- Cleaning a room,
- Playing a game,
- Bath time,
- Naptime, or
- Bedtime routines.

The focus is on maintaining ties between the parent and child and assessing the parent's capacity to care for the child. Primary routines should reflect the family's SBC outcomes.

Goals are the family routines to target during the family interaction. These behavioral changes are most likely related back to the safety concerns as identified by the team.

- Family Routines to Target: Document the routines to practice during family interaction.
- Family Members Involved: Document who is expected to be involved in the routines.
- *Date Reviewed or Revised*: Document the date when the goal was reviewed or revised.

Family interaction needs to be reviewed during a Solution Focused Meeting or by those the family's team identifies, at a minimum, when:

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-009795

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

- There are changes in behavioral patterns demonstrated by the parents or children.
- Protective provisions that may be a safety concern change or arise.
- There is a change in family supports.
- There is a change in legal issues or court requirements (change in custody or guardianship) that may impact family interaction planning.
- Agreed upon behavioral changes are accomplished or not.

Transportation. Describe how transportation will be provided once individuals who are available to assist in transportation are identified. Transportation is a key component for interactions to be successful.

Resource family and other relative caregivers should be encouraged to transport children at least one way. Parents and extended family members should be expected to arrange their own transportation, though they may be given temporary support when necessary to ensure there is not a gap in family interaction; however, this will likely be accomplished by public transportation. Children in placement may have to be transported by a provider or HHS staff, one or both ways to interactions.

Other Planning Notes. Considerations when setting expectations could include, but are not limited to, the following:

- Expectations of what parents should bring to the interaction.
- Activities that parents should plan or consider doing during the interaction.
- Behaviors that provide an unsafe situation may terminate the interaction. It is important that there is a follow up with the parents in order to reduce the risk for another unsafe situation.
- The use of physical discipline or threats towards others.
- Negative comments about others, which includes the children, family members, HHS worker, contractor or provider, and other professionals part of the family's team.
- Possession or bringing any drug paraphernalia, illicit substances, or alcohol to the interaction.
- All legal decisions or documents regarding contact, including No Contact Orders, etc. will be abided by all parties.
- Obtain approval before bringing any additional individuals to family interactions. Approvals are determined by the HHS case manager or the family's team.

Family Interaction Calendar. Utilize the calendar to document the initial plan for family interactions. Include any events, appointments or activities which the parent may also attend.

Family Risk Assessment, Form 470-4133

Purpose

Form 470-4133 is used to identify risk factors during an assessment. The *Family Risk Assessment* is composed of two scales that measure the level of risk regarding neglect and abuse.

Source

Complete this form on the Family Risk Assessment tab on the STAR Assessment module in JARVIS.

Completion

The child protection worker completes the *Family Risk Assessment* during the assessment process. This form must be completed before the assessment is approved.

Exception: When abuse occurred or is alleged in an out-of-home setting and child protective concerns do not exist in the child's household, the safety assessment and risk assessment is not required.

Only **one** household can be assessed on the *Family Risk Assessment* form. Assess the child's primary residence. When the alleged perpetrator resides in the household of the noncustodial parent, assess the household of the noncustodial parent. If the child moves to a different household because of the crisis, complete the risk assessment on the household in which the child will remain.

- If the child will remain in the new household, complete the risk assessment on the new household.
- If the plan is to reunify the family, complete the risk assessment on the household **from which the child was removed**.

Upon completion of the form, a Total Neglect Risk Score and Abuse Risk Score are automatically calculated to the highest of either risk score. Use this information in the analysis of the family's strengths, needs, and recommendation for services.

The final risk level is populated on the Child Protective Services Child Abuse Assessment Summary or the Child Protective Services Family Assessment Summary. Reassess the case whenever you determine that an adjustment in the risk score is warranted (either up or down).

Distribution

The form is maintained within JARVIS and is considered assessment data.

Data

Review information obtained from systems checks, Department records including service history, not confirmed assessments, and any previous or current court involvement. Review the risk assessment definitions and complete the *Family Risk Assessment* form by checking the most applicable response.

On items involving caregivers, **select one or two** parents or substitutes based on physical and emotional proximity to the children. Do not rate more than

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-009799

two caregivers in a home.

Only one primary caregiver can be identified. The "primary caregiver" is the adult living in the household who assumes the most responsibility for child care.

When two adults are present and you are in doubt over which one assumes the most childcare responsibility, select the adult with custody or guardianship or the caregiver responsible for the child involved in the incident as the primary caregiver.

> Ms. X and her partner Mr. Y live together and appear to share caregiver responsibilities for Ms. X's children equally. Because Ms. X has legal custody of the children, select her as the primary caretaker.

If this does not resolve the question, select the legally responsible adult who was a perpetrator or alleged perpetrator.

> Mr. and Mrs. Z live together and appear to share caregiver responsibilities for their children equally. Mrs. Z is the alleged perpetrator of abuse, so she is selected as the primary caretaker.

When both parents are in the household, equally sharing care giving responsibilities, and both have been identified as perpetrators or alleged perpetrators, select the parent demonstrating the more severe behavior.

The "secondary caregiver" is defined as an adult living in the household who has routine responsibility for childcare, but less responsibility than the primary caregiver. A partner may be a secondary caregiver even though the partner has minimal responsibility for care of the children.

If an item relates to all caregivers and the household has more than one caregiver, **rate the caregiver with the more severe behavior**.

The risk assessment form is composed of two scales: the neglect scale and the abuse scale. For detailed guidance, see *Family Risk Assessment Guidance*, RC-0123.

After scoring all items in each scale, total the score for each scale and determine the risk level by checking the appropriate boxes in the risk level section.

Overrides

Policy Overrides: After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and child vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-009800

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

Discretionary Override: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. **You must receive supervisory approval** for a discretionary override.

The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Family Risk Reassessment, Form 470-4134

Purpose	Form 470-4134 is used to identify risk factors and assist in assessing the impact of services provided to the family during a particular timeframe and whether certain events in the family have occurred during the period being measured.
Source	Complete this form on the Risk Reassessment tab on the Child Services module in JARVIS.
Completion	The social work case manager completes the *Family Risk Reassessment*: ▪ During case permanency planning reviews and ▪ Before case closure. The social work case manager will receive an alert to complete the *Family Risk Reassessment* a minimum of 180 days from the initial risk assessment or risk reassessment. The rating on the formal risk reassessment reflects changes in family functioning and provides a framework to identify critical factors that indicate changes in a child's risk maltreatment.
Distribution	The risk reassessment completed and contained within JARVIS is part of the case management service file. When the case permanency plan is updated: ▪ Document information from the *Family Risk Reassessment* in the comment section of the most applicable domain, and ▪ Incorporate the results into the case planning process.
Data	Refer to *Family Risk Reassessment Guidance*, RC-0124.

Enter the desired outcome of the meeting. **Family Functioning Domains**. The family functioning domains provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention. Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers. The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision. The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories): ▪ Child Well-Being: • Child's physical and mental health,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

- Behavior,
- Relationship with peers,
- School performance,
- Motivation and cooperation to stay with family,
- Relationship with siblings, and
- Supports.

▪ Parental Capabilities:

- Supervision of children,
- Mental health,
- Informal supports,
- Disciplinary practices,
- Physical health,
- Developmental and enrichment activities, and
- Use of drugs or alcohol.

▪ Family Safety:

- Physical abuse,
- Neglect of a child,
- Sexual abuse,
- Domestic violence, or
- Emotional abuse.

▪ Family Interactions:

- Bonding with child or children,
- Expectations of children,
- Family interaction planning,
- Relationship between parents or caregivers,
- Mutual support within the family, and
- Concurrent planning.

NOTE: A written *Family Interaction Plan*, tailored to meet the safety needs of the family is developed and/or reassessed during a family team meeting involving a child placed out of the home to assure family interaction begins as soon as possible after removal from parental custody.

▪ Home Environment

- Housing stability,
- Food and nutrition,
- Transportation,
- Safety in community,
- Financial management,
- Learning environment,
- Habitability of housing,
- Personal hygiene, and
- Income and employment.

- **Other**. Additional issues or concerns about the child or family.

  NOTE: Discuss concurrent planning and permanency goals, any interstate compact issues, child and family cultural factors, language barriers, or if the Indian Child Welfare Act applies.

Complete the family functioning domain section of the FTDM family plan by working through each domain category. Consider the child and family's strengths and needs in the various domain areas as you have discussions during the family team meeting. Fill in the narrative "strengths" and "needs" section of each applicable domain. Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

Establish a goal for each applicable domain area where a need is identified. It is critical that goals be developed in partnership with the family. Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.

After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible,
  - What do they agree to do, and
  - By when.
- Document the date for when the goal was completed or modified.

Crisis Plan. Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

Signatures and Notifications. Enter the name of invited team members, including their role, contact information, and check whether or not they attended the family team meeting.

Foster Care and/or Subsidized Adoption Information Exchange, Report S472N111-01

Purpose

Report S472N111-01, *Foster Care and/or Subsidized Adoption Information Exchange*, provides IV-E workers information that is needed to determine IV-E and Medicaid eligibility for children in foster care and adoption assistance programs.

Source

The FACS system generates this report nightly.

Completion

The FACS system automatically generates this form on foster care and adoption subsidy cases when:

- There is a start date recorded on FACS (labeled as "new placement" on the report).
- There is an end date recorded on FACS (labeled as "exit placement" on the report). (A move from one placement to another generates two reports.)
- The FACS case is transferred to a new service worker.

The IV-E worker examines the report to determine whether the change affects IV-E or Medicaid eligibility (or if additional information is needed).

Distribution

If there is an open Medicaid case with an FBU of 19, the report is issued to the IV-E worker responsible for that case. If there is no open case with a 19 FBU, the report is issued to worker number CM00 in the office where the service worker is located.

Exception: For PMIC placements, the form is generated to the IM unit in the county where the facility is.

File the report in the IV-E case record.

Data

Data reported includes:

- Identification of the workers and the reason for the report.
- Information about the child.
- Information about the child's parents.
- Information about the child's placement.

NOTE: Do not use the PLACEMENT IV-E field or the SERVICE IV-E field to evaluate IV-E eligibility.

Foster Care Reimbursement Request for Child Care Assistance Gap Funding, Form 470-5796

Purpose	The CCA Foster Care Gap Form is used to document the difference between the state Child Care Assistance (CCA) reimbursement rate and the rate the provider would typically charge a private-pay family. Additionally, the form would be used to request reimbursement for absent days beyond the six that they are authorized.
Source	The form is generated from 18-Appendix.
Completion	Resource parents who have been charged amounts beyond what Child Care Assistance will pay or absence days beyond six per month may submit this completed form along with a copy of the written agreement between the provider and resource family regarding the additional charges to receive reimbursement. The form must be sent to fc-ccagap@dhs.state.ia.us. The approved amount will be entered into the SPIL screen in FACS.
Distribution	The payment will be generated through the FACS system and sent to the Resource Parent.
Data	The social work case manager completes the required data fields in FACS through SPIL payment screen.

Foster Child Behavioral Assessment, Form 470-4401 or 470-4401(S)

Purpose

The *Foster Child Behavioral Assessment* checklist serves two purposes.

- It may be used in the development of the case plan as a tool to identify the needs of the child. Every behavioral need of a foster child identified in this tool should be outlined when completing the case plan, along with the corresponding actions and responsibilities of the resource family.
- Since this tool identifies need and responsibilities, it is also the tool used to determine level of care and corresponding foster care payment.

Source

Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

Print the Spanish version of this form from the manual or SharePoint.

Completion

Complete the *Foster Child Behavioral Assessment*:

- Within the first 30 days of a child's initial entry into foster care.
- Whenever the child's behavior changes significantly.
- When the child's placement changes.
- After termination of parental rights, in preparation for negotiating an adoption subsidy or presubsidy.
- Before a court hearing on guardianship subsidy. **Note**: The highest guardianship subsidy is limited to Level 2, basic rate plus level 2.

If a child comes out of group care or PMIC, the child's payment in the foster family home is the basic foster care maintenance rate. It is anticipated that the family team meeting, with the new foster parents participating, will be part of the discharge planning. Complete the *Foster Child Behavioral Assessment* within the first 30 days of placement.

If a child leaves foster family care and goes to shelter care and then returns to the same foster family home, the payment rate remains the same as the rate received by the foster family before the child goes to shelter care. Complete an assessment within 30 days of placement with a new foster family.

To authorize payment to the resource family at a higher level than the basic rate, this form shall be signed by the worker and the worker's supervisor.

After supervisory approval, the difficulty of care payments shall begin the first day of the month **following** the month in which the form was completed. Do not enter the new assessment rate into FACS until the supervisor has signed off and approved the assessment and rate.

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

Distribution

Keep the original form in the child's case file. Give a copy to the resource family upon the family's request.

Data

When completing the checklist, use all available information about the child for a thorough assessment of the child. This may include evaluations, school and provider reports, and home studies, as well as input from parents and the resource family.

Check only behavior that is severe enough to be outside the norm for a child of the same age. Do not check behavior that is typical for a child that age (e.g., "temper tantrums" for a 2-year-old).

In order to have a valid assessment, check each item that applies in **every** category ("minimal" and "moderate" and "intensive").

The template calculates the basic rate once the child's birth date is entered, and automatically calculates the level of care and the total daily rate. The form is designed so that checking all the applicable boxes will result in the proper calculation for the behaviors.

See 18-D(2), *Maintenance Payment*.

Foster Family Home License Application, Form 470-0689 or 470-0689(S)

Purpose

Form 470-0689 or 470-0689(S) is used to apply for a license to operate a foster family home for children. The form gives the retention and recruitment contractor the right to study and evaluate the home and to conduct necessary record checks.

Source

Print supplies of this form from the manual or SharePoint under Employee Manual/Forms.

The form is normally issued by the recruitment and retention contractor at orientation. Local offices that are asked to issue the form can print the form from the manual or SharePoint.

Completion

The prospective foster parents and any adults living in the home complete the form when a family decides to apply for a license or re-apply for a license. Each applicant and any other adult living in the home signs the form.

If a person over the age of 14 (other than a foster child) moves into the home during the licensing year, that person must complete this form in order to authorize the necessary record checks. Have the person:

- Sign the original form on the appropriate line,
- Enter the date by the person's signature,
- Enter any out-of-state residence locations in the last five years, and
- Specify the state and the crime and abuse that occurred.

NOTE: If a child who has been living in the home turns 14, child abuse and criminal history record checks are not completed.

Complete applications for license renewal at least 30, but no more than 90 days before the license expires.

Distribution

The applicant family normally returns the form to the recruitment and retention contractor, but may submit the form to any Department office. If so, forward the form to the recruitment and retention contractor.

The applicant keeps the pink copy of the form. Discard the gold copy, if any.

The contractor:

- Submits the original to the Department with the home study so that a decision can be issued on the application, and
- Keeps the yellow copy in the family's record.

Foster Family Placement Contract, Form 470-0716 or 470-0716(S)

Purpose

Form 470-0716 or 470-0716(S) is the formal contract between the Department and the foster parents stating the terms of the placement.

Source

Department staff may complete the English version of this form online either through the FACS system or using the template available in SharePoint under Employee Manual/Forms.

Department staff may print the Spanish version of this form from the manual or SharePoint.

Juvenile court staff should print the form from the online manual and complete it manually.

Completion

The Department worker prepares the form when DHS has financial responsibility for the placement. Juvenile court services completes the contract with the foster parents when they are responsible for the placement.

Complete the form when:

- A child is placed in a foster family home that will be supervised directly by the Department or by juvenile court services.
- There is a change in any of the terms of the placement (e.g., rate of payment).

The contract is approved by the worker's supervisor, or if the contract involves a difficulty of care payment, by the service area manager. The sequence of signature depends on local office procedures.

Distribution

After the form is completed, make a photocopy to file in the child's case record and give the original to the foster parents.

Data

The child's name and birth date corresponds to the information entered in FACS.

The effective date is the date of placement or the date the revised terms become effective.

Special provisions include any specific obligations either for the worker or the foster parents, such as transportation for counseling, arrangement for home visits, etc. Each foster parent signs the contract.

The special provision section also needs to include the entry of all applicable names and phone numbers. The social work case manager responsible for the placement of a child in family foster care enters their home phone number as an after-hours emergency number.

Any additional emergency numbers that the foster parents may need are entered in this section.

Completion

A representative of a licensed child-placing, child-caring agency, a local DHS licensing worker, or an agency, institution, or association with expertise in any of the approved content training areas may submit applications for approval of training.

Submit the application at least 30 days before the training. Since the Department has 30 days to approve or deny the training, it is recommended that applications be submitted 60 days before the training.

Distribution

When the training is offered statewide:

- Send the form to the foster family program manager in Central Office at:
  DHS Division of Adult, Children and Family Services
  5th floor, 1305 E Walnut St
  Des Moines, IA 50319-0114
- Upon approval or denial of the request, the program manager returns one copy to the applicant and keeps the original with the attached detailed description.

When the training is offered within one service area:

- Send the form to the Department office for that service area.
- Upon approval or denial of the request, the Department office that received the form returns one copy to the applicant and keeps the original with the attached detailed description.

Data

The person (applicant) submitting the form:

- Completes:
  - The title of the training.
  - The provider of the training.
  - The dates of the training.
  - The number of credit hours requested.
  - The name and title of the requester.
  - The address and phone number of the requester.

General Accounting Expenditure, GAX

Purpose

The *General Accounting Expenditure* is used to authorize payment for a variety of expenses. These instructions relate to:

- Obtaining reimbursement for photographs, X-rays, other physical or mental examinations or tests, and costs directly associated with these services when performed at public expense as medically indicated for child abuse reports;
- Claiming the following foster care and adoption expenses:
  - Medical expenses for children in presubsidy that cannot be covered by the Medicaid program.
  - Respite care of over 24 days per year.
  - Life books.
  - Funeral expenses for children under the guardianship of the Department.

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms.

Completion

The Department worker or designated clerical staff prepare the form when expenses are incurred which require issuance of a special warrant. The person or agency making the claim must sign it and may be asked to complete the description section, but Department staff should do the coding.

Four copies are essential. In addition, local procedures may require a copy for the claimant or a control copy for the service area file.

For **child abuse assessment** expenses, the person or agency taking the photographs or X-rays or performing the tests or examinations is "the claimant." The claimant must submit:

- A cover letter in duplicate.
- A *General Accounting Expenditure* in triplicate for each child.
- Invoices when available.

The cover letter contains the following information:

- The child's name, age, and address
- The name of the worker or child protective assessment unit to whom the services, reports, photographs, X-rays or test results were provided
- The date the photographs or X-rays were taken
- A statement by the claimant indicating agreement to keep documentation of the services provided for five years, or agreeing to provide them to the Department for retention

Distribution

Send the original GAX with original signatures along with original receipts or verification and two copies of the whole packet, as follows:

- For child abuse assessment expenses, send both copies of the cover letter and the form to:

  DHS Central Abuse Registry
  PO Box 4826
  Des Moines, IA 50309-4826

- For funeral expenses, send the material to the service area manager for approval and then to the Bureau of Purchasing, Payments, Receipts and Payroll.
- For other expenses, send the material to the service area manager for approval and then to the foster care or adoption program manager in the Division of Adult, Children and Family Services.
- For medical expenses, also send a memo explaining what the charges are and why they cannot be billed to Medicaid.

Always keep a control copy in the child's case record.

Data

Complete the form as follows:

- *BUDGET FY*: Enter the last two digits of state fiscal year in which the expense is incurred. Claims cannot overlap fiscal years. The state fiscal year ends on June 30. A new fiscal year begins on July 1. Claims cannot be made for June and July together, because these months are not in the same fiscal year.
- *DATE*: Enter the date that the form is initiated.
- *I/3 VENDOR CUSTOMER NUMBER*: The I/3 vendor number is a number the state accounting system assigns to identify vendors. It is associated in the I/3 system with the federal EIN (tax identification number) or the SSN (social security number).
- *AGENCY NAME*: Enter "Department of Human Services."
- *VENDOR NAME AND ADDRESS*: Enter the name and mailing address of the person being reimbursed. The warrant will be made out to this name and mailed to this address.
- *FOB*: For foster care or adoption expenses, enter the name and state identification number of the child for whom the expenses were incurred. Leave blank for multiple life books.
- *ORDER APPROVED BY*: For foster care or adoption expenses, enter the original signature of the service area manager or authorized designee and the date signed. (If a stamp is used, the person approving the claim must initial the entry.)

Guardianship Authorization, Form 470-0738

Purpose

Form 470-0738 is used to record authorization for a child under the guardianship of the Department to get medical care, enlist in the military, marry, or get a driver's license.

Source

Print supplies of this form from the manual or SharePoint under Employee Manual/Forms as needed.

Completion

The social worker or facility staff member prepares the form when a child under the guardianship of the Department:

- Is placed in foster care or pre-adoptive care (to authorize emergency care only);
- Needs major medical, psychiatric, or surgical (before requests are submitted to hospitals or physicians); or
- Is seeking to operate a motor vehicle, to enlist in the armed forces, or to marry.

The form is valid for one authorization only. Keep pre-signed forms in each office for emergency medical situations only.

Distribution

Submit the unsigned original to the service area manager or designee or to the facility superintendent. After the form has been signed, sent it back to the originator for distribution as follows:

- Send the original:
  - To the medical provider in medical cases;
  - To the recruiter in enlistment cases; or
  - To the child for marriage or operation of a motor vehicle.
- Send one copy to the court with jurisdiction over the child.
- When the child has parents with residual parental rights, send one copy to the parents.
- File a copy in the child's case record.
- When the child is in a facility, keep one copy in the institutional record.

Data

The form identifies the child, the Department's authority, and the purpose of the authorization.

Guardianship Subsidy Agreement, Form 470-3631

Purpose	Form 470-3631 serves as the agreement between the Department and a child's guardian.
Source	Department staff can print the form from the manual or SharePoint under Employee Manual/Forms.
Completion	The Department worker prepares a separate agreement for each child. Each guardian, the worker, and the worker's supervisor must sign the agreement. Payments cannot be made before the application is completed and the agreement is signed by the Department and the guardians, and guardianship has been transferred by the court. The agreement for subsidy is prepared initially at the time of the transfer of guardianship, and whenever the terms of the agreement are modified.
Distribution	After obtaining all signatures, distribution is as follows: ▪ Keep a copy in the child's file. ▪ Give a copy to the guardian. ▪ Provide a copy to the court.
Data	The form identifies: ▪ The parties to the agreement (the Department and the guardian). ▪ The terms of the agreement. ▪ A successor guardian if named. ▪ A summary of the benefits agreed to: • The guardianship subsidy maintenance payment. • Non-recurring expenses related to finalizing the guardianship. • Any agreed upon special services and the reason for special services. Each agreement must be signed and dated by the guardian, the Department worker, and the service area manager or designee. Enter the date a copy of the agreement was provided to the guardian.

Purpose	Form 470-0720 provides health information on the prospective foster family members to satisfy the regulatory mandate that applicants must meet.
Source	Print supplies of this form from the manual or SharePoint under Employee Manual/Forms.
Completion	Complete the form before licensing of the prospective family home. Medical re-examination may be required at the discretion of the health practitioner or the supervising agency. The recruitment and retention contractor: ▪ Completes Section A, addressed to the practitioner, and ▪ Inserts the name of the agency to whom the information is to be released. Separate forms are required if family members are under the care of different physicians. The family completes the history in Section C and signs the form to authorize the release of examination results. (In the case of minor children, the child's parent signs the form.) The practitioner completes Section B.
Distribution	Give one copy of the form to the applicant. You may make a photocopy as a control. When the completed form is returned, the contractor keeps a copy for its file and places the original in the licensing packet sent to the Department for the DHS licensing file.
Data	The form includes the family's reported health history and the practitioner's statement as to whether the family's health would prevent them from providing the needed care or would be detrimental to the well-being of a child placed in their care.

ICPC Report on Child's Placement Status (ICPC 100B), Form 470-0788

Purpose

Form 470-0788 (ICPC 100B) is used to communicate between the placer, the supervising agency, and the respective compact administrators regarding the status of a placement requested under the Interstate Compact on the Placement of Children. It is a national form, known as the ICPC 100B.

Source

Form 470-0788 (ICPC 100B) is available as a template in SharePoint under Employee Manual/Forms. Supplies of the form may also be printed from the manual or SharePoint.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The person supervising the placement or causing the child to be placed completes this form each time:

- A placement is made.
- A placement is changed.
- An approved placement is canceled.
- A placement is terminated.
- A case is closed.
- There is a change of address or status of the placement (e.g., from foster care to adoption).

The Department worker is responsible for preparing the form for all children in the Department's custody or guardianship who are placed out of state and for all children placed into Iowa for whom the Department has assumed supervision under the compact.

When courts, probation officers, or private agencies have placed a child in another state or accepted supervision of a child from another state, their staff are responsible for preparing the form.

When there is a change of purpose in an existing placement, e.g., from foster care to adoption, form 470-0781 (ICPC 100A) may be required at the request of the receiving state.

Distribution

Email form 470-0788 (ICPC 100B) to the ICPC service area liaison. The liaison sends to the ICPC office who forwards to the receiving state.

Data

Section I – Identifying Information

Enter the full legal name and birthdate of the child for whom this placement information is being reported.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-009861

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

Enter the names of the legal parents as on form 470-0781 (ICPC 100A). Enter the name of the resource, the address, and type of care. Enter the same type of care that was chosen on form 470-0781 (ICPC 100A) (e.g., adoptive home, foster family home, group home care). Enter the relationship for relative placements.

Section II – Placement Status

To confirm the initial placement, check the box that applies. Enter the exact date the child was placed in the receiving state.

If some aspect of the placement changes while the child remains in the receiving state, complete another ICPC 100B. Check the "Placement Change" box and indicate the exact effective date of the change.

If the child moves from one placement resource to another, enter the updated placement information. For example, if a child leaves the parents' home and is placed in a residential treatment center, complete the facility's name and address and indicate the new "Type of Care."

Subsequent ICPC 100B forms will list the new placement resource under "Identifying Information." Any additional moves to place the child within the receiving state will be reflected in this same manner.

If only the name (e.g., mother remarries) or address (original placement resource moves) changes, check and complete only those items that apply.

Section III – Compact Placement Termination

Check the boxes that apply:

- *Adoption Finalized*: If an ICPC adoptive placement has been finalized (consummated), check that box and the appropriate box for the state in which finalization occurred, "In Sending State" or "In Receiving State." Attach the final adoption decree.
- *Child Reached Majority/Legally Emancipated*: Check this box if the child has reached majority age and has simultaneously ceased to be the responsibility of the sending agency or if the child has become emancipated through legal action such as marriage or court decision.
- *Legal Custody Returned to Parent(s)*: Check this box when the child's legal custody or guardianship is returned to the parent with the concurrence of the receiving state. Attach the court order transferring custody to the parents to form 470-0788 (ICPC 100B).
- *Legal Custody Given to Relative*: Check this box when the child's legal custody or guardianship is awarded to relatives (other than parents) with the concurrence of the receiving state. Attach the court order transferring custody to the relative to form 470-0788 (ICPC 100B).

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-009862

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

- *Legal Custody Given to Other*: Check this box when the child's legal custody or guardianship is other (other than parents or relatives) with the concurrence of the receiving state. Enter the name and relationship to the child. Attach the court order transferring custody to the other to form 470-0788 (ICPC 100B).
- *Treatment Completed*: Check this item when the placement resource has been providing a specific treatment-oriented service; that service has been completed; and the child is, therefore, being discharged from the facility (e.g., residential treatment center). This box may also be checked if the child was placed through Article VI of the Compact.
- *Sending State's Jurisdiction Terminated with the Concurrence of the Receiving State*: Check this box when the jurisdiction of the sending state has ended for some reason other than the transfer of custody to parents or relatives with the concurrence of the receiving state's supervising agency or court.

  For example, if formal legal custody or guardianship is not going to be addressed but both states agree that supervision is no longer required or if both states agree to transfer jurisdiction to the receiving state.

  If the sending state's jurisdiction is terminated without the concurrence of the receiving state (including custody or guardianship transfer), the decision was made unilaterally and that box should be checked.
- *Unilateral Termination*: Check this box when the interstate agreement has been terminated unilaterally, whether by the sending or receiving state. A unilateral termination is one in which one state ends the interstate placement agreement without the concurrence of the receiving state.
- *Child Returned to Sending State*: Check this box when the child returns to the state the child was placed from. This may be due to a disruption in placement.
- *Child Moved to Another State*: Check this box when the child moves to a state other than the sending state.
- *Proposed Placement Request Withdrawn*: If you have submitted form ICPC 100A to request placement approval and have decided not to explore that resource further, check this box, list the "Name of the Proposed Placement Resource," and date of your decision to terminate the compact.

  Check this box only when no action has yet been taken on form 470-0781 (ICPC 100A). If you are withdrawing more than one request, submit a separate form on each and list each respective "Placement Resource."
- *Approved Resource Will Not Be Used for Placement*: Check this box when you have received an approved form 470-0781 (ICPC 100A) but have decided not to place the child with that resource. List the name of the "Approved Placement" and date of your decision to terminate the compact.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

- *Other*: Check and specify if the reason for compact placement termination is not listed above. For example, the entire family moved to another state (new address should be entered under "Placement Change"), the death of a child, the child ran away and whereabouts are unknown.

Date of Termination: Enter the exact date of the activity that ended the Compact Placement Agreement.

Section IV – Signatures

If a private person or local agency is completing the form, have a designated person sign, under "Person/Agency/Supplying Information," identify the agency, and date the signature.

The compact administrator, deputy, or alternate should sign and date the second block.

ICPC Request (ICPC 100A), Form 470-0781

Purpose

Form 470-0781 (ICPC 100A) is the sending agency's formal written notice to the receiving state of its intention to make an interstate placement. It requests a finding as to whether the placement would be contrary to the interests of the child. With most placements, it is also a formal request for a home study.

Following review by the receiving state, it is the official notice of the receiving state's decision. A favorable finding means that the placement can be made in conformity with the compact. An unfavorable finding means that the placement would be unlawful.

Form 470-0781 (ICPC 100A) must accompany all requests for placement to which the compact is applicable. It must be favorably acted upon by the receiving state before any compact placement is made.

Source

Form 470-0781 (ICPC 100A) is available as a template in SharePoint under Employee Manual/Forms.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The service worker, private agency, court, or any person placing the child may complete this form. It is prepared when a request is being made to place a child in another state.

Distribution

Distribute as follows:

- The sending agency/Iowa ICPC service area liaison uploads the completed 100A into the National Electronic Interstate Compact Enterprise (NEICE) and electronically sends to the sending state deputy compact administrator.
- The deputy compact administrator reviews, signs, and sends to the receiving state's identified administrator.
- The receiving agency administrator completes Section IV of the form and returns to the sending state ICPC office.
- The sending state administrator sends via NEICE to the sending agency.

Data

In the first two blocks, enter the name and address of the ICPC administrator (or deputy) to whom the request is being forwarded (TO) and the name and address of the ICPC administrator (or deputy) whose state is submitting the request (FROM). If information for the receiving state is unknown, enter only the name of the state.

Section I – Identifying Data

Enter the full legal name, social security number, Indian Child Welfare Act (ICWA) eligibility, IV-E eligibility, sex, gender, date of birth, and ethnic group of the child for whom this placement is proposed. If the child is known by a nickname, place it in parenthesis beside the legal name.

NOTE: An "Indian child" means any unmarried person who is under age 18 and is either:

- A member of an Indian tribe or
- Eligible for membership in an Indian tribe and is the biological child of a member of an Indian tribe.

Enter the names of the legal parents, usually the birth parents. When an adoption is finalized, the adoptive parents are the legal parents. If the parent is deceased, enter "deceased" after the parent's name.

If parental rights are voluntarily relinquished or terminated by the court, indicate in parenthesis beside the name. If you prefer to withhold the name, simply enter the status of the parent's rights.

Enter the complete name, address, and telephone number of the agency or person who is responsible for planning for the child and who is financially responsible for the child. In most cases, these two items will be the same (the sending agency). Email addresses are optional.

Section II – Placement Information

Types of Care Requested. Check the boxes designating the following:

- *Public Placement*: Public placement means a placement processed by a public child welfare agency where the state or local agency, or the court has authority to make the placement.
- *Private Placement*: Private placement means a placement made by a parent or a private or independent agency or representative not acting as an agent of the state (e.g., private adoption) or, in the case of a private residential treatment placement, where a parent or guardian is making the placement (e.g., private Residential Treatment Facility (RTF)/Residential Treatment Center (RTC) placement, etc.).
- *Subsidy*: Check the box for public foster care or adoption to denote IV-E federal, non-IV-E state or local, or none for no financial support. Select pending if not yet determined.
- *Adoptive Home*: Adoptive home refers to both agency and private or independent adoptive placement before finalization of an adoption. This may refer to an initial placement with a family where adoption is the intention or it may refer to the movement of an adoptive family from state A to state B following placement.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-009866

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

If this is a request for private or independent adoption, you are required to also complete the fields for the names, address, social security numbers, and telephone number for the prospective adoptive resource. Indicate if it is a federally-funded adoption subsidy (IV-E) or a state- or local-funded subsidy (non IV-E), pending (if not yet determined), or none.

- *Finalizing in*: Check one box to indicate the state in which the adoption will be finalized if known, otherwise mark pending.
- *Foster Family Home*: A foster family home is a facility providing care and guidance for a child or children not related to the caretaker for regular 24-hour care, or a certified kinship care home. A family foster home may not operate without a license or a certificate as required by the laws of the receiving state.
- *Group Home Care*: A resource which is licensed or approved as a group home and which provides substitute care for a fee; usually a modified family-type setting which serves more children than a foster home but fewer than an institution.
- *Child-Caring Institution*: A group care facility that is licensed or approved to provide custodial care to a larger number of children than a foster home or group home.
- *Residential Treatment Center*: A group care facility that provides a specific treatment program outside the realm of a medical hospital, psychiatric hospital, or institution for children with an intellectual disability (e.g., a residential program for the treatment of alcohol or drug abuse. The receiving state is not obligated to supervise this type of placement made by the sending state.
- *Parent*: A biological or adoptive parent or legal guardian as determined by applicable state law and who is responsible for the care, custody, and control of a child or upon whom there is legal duty for such care.
- *Institutional Care – Article VI Adjudicated Delinquent*: A group care facility for adjudicated delinquents whose proposed placement is according to Article VI of the ICPC. These facilities may include group homes and residential treatment centers and may serve non-delinquents as well.
- *Relative (Not Parent) Relationship*: Specify relationship, such as maternal aunt, paternal grandparents, brother, etc.
- *Other*: Specify a type of care not already listed, such as:
  - Nonrelative free home (an unrelated family that does not require foster home licensure in the receiving state and does not need or want foster care payments)
  - Independent living arrangement (an older teenager who is still under the jurisdiction of an agency or court but is capable of independent living without the supervision of a foster home or group home)

- Maternity home
- Extended foster care (youth aged 18–21 years old)

Current Legal Status of Child. Check the appropriate box.

- *Sending Agency Custody/Guardianship*: The child is in the full legal custody or guardianship (depending on the state's terminology) of a public agency. For example, a public agency may be social services, youth corrections, probation, parole, or a tribe. If allowed by state law, the sending agency may also be a licensed private child placement agency, an adoption agency, or a birth mother.
- *Parent/Relative Custody/Guardianship*: The child is not under the jurisdiction of either an agency or the court but is the full legal responsibility of a parent or relative. This choice is most likely to be marked when a parent, relative or guardian wishes to place a child in one of the types of care listed.
- *Court Jurisdiction Only*: The court has an open abuse, neglect, or dependency case that establishes court jurisdiction with the authority to supervise or remove and place the child for whom the court has not taken guardianship or legal custody.
- *Protective Supervision*: A legal status created by court order under which the child is permitted to remain in the child's home or is placed with a relative or other suitable person and the court, the Department, or another agency designated by the court provides supervision and assistance.
- *Parental Rights Terminated – Right to Place for Adoption*: The sending agency has accepted a voluntary relinquishment of parental rights or has completed court action terminating parental rights and now holds complete jurisdiction over the child with the right to place for adoption.
- *Unaccompanied Refugee Minor*: This form is not used to report the initial placement into the United States but to request placement and services in a second state after a U.S. agency or court has been granted full legal responsibility (custody or guardianship). Check this box only if that is the case.

  Also mark the "Sending Agency Custody/Guardianship" box. If this is an unaccompanied refugee minor whose status warrants the ICPC 100A specific to those children (not the legal responsibility of an U.S. agency or court), do not use this form.
- *Other*: Legal status is not otherwise listed (e.g., legal action, such as a petition for custody or guardianship or to terminate parental rights, is pending).

  For example, the child is the responsibility of the sending agency under a voluntary agreement with the parent or legally responsible relative and no court action has been taken or is pending to alter the family member's legal rights over the child.

Name of Person(s) or Facility Child is to be Placed with. Enter the name, address, and telephone number of the agency, facility, or individuals where the child will be placed. These entries are required.

Name(s) of Prospective Adoptive or Foster Resource. If placement is with an agency (e.g., adoption, foster care, etc.) other than a residential treatment facility (RTF), provide the foster or adoptive resource where the child will reside.

Enter the name, address, social security number, and telephone number of the individual with whom the child will be residing if it differs from the information in the section "Name of Person(s) or Facility Child is to be Placed with."

Section III – Services Requested

Initial Report Requested. If the proposed placement is not for a group care placement and a current home study has not yet been received, check the box for the appropriate type of home study needed based on the type of care indicated in Section II.

Supervisory Services Requested. Check one of the following boxes to indicate how supervisory services are to be conducted:

- *Request Receiving State to Arrange Supervision*: Check this box if the sending agency cannot supervise and does not have a contractual or other agreement with a pre-determined agency to provide these services. Usually the public social service agency will be asked to provide supervision following an approved home study and subsequent placement.
- *Another Agency Agreed to Supervise*: Check this box if the sending agency already has received the formal agreement of a pre-determined supervisory agency. This choice is most likely to be checked in agency adoptive placements where an agency in the receiving state already has provided an adoptive home study and will be providing ongoing services to the adoptive family.

  Do not check this item because you know which county office of the public agency will receive this referral and may have discussed the case over the telephone. That does not constitute an agreement to supervise.
- *Sending Agency to Supervise*: Check this box if it is logistically feasible, it is the best-case plan, and the receiving state has granted the sending agency permission (which may or may not include licensure) to provide services in its state.
- *Other*: Check this box if requesting supervision for extended foster care youth (defined as youth aged 18–21 years).

Supervisory Reports Requested. Complete even though placement may not be a certainty at this time. Indicate how frequently you wish to receive progress reports. Standard timeframes are semi-annually, quarterly, monthly, or other. Check "other" when you wish to receive reports in a timeframe not listed.

Name and Address of Supervising Agency in Receiving State. If you know the name and address of the supervising agency, enter that information onto the line indicated. If not known by the sending agency, that information should be completed by the receiving state's compact office following receipt of a recommendation indicating that placement may be made.

Enclosed. Check which of the following items are enclosed:

- *Child's Social History*: Should accompany the majority of referrals; includes the pre-placement summary on adoption referrals and can be written with non-identifying information, if appropriate and preferred.
- *Home Study of Placement Resource*: Attach a current home study if one is not being requested; most likely to be checked if you already have an approved home study or the child is relocating with a placement resource and the home study is enclosed.
- *Court Order*: All applicable court documents should be enclosed (e.g., custody or guardianship orders, surrenders, orders terminating parental rights, and orders requesting a home study for the court).
- *ICWA Enclosure*: Obtain a letter from the child's tribe showing that the child is a member or is eligible for membership.
- *Financial/Medical Plan*: Attach the plan of how the proposed placement will be funded and how the children's medical needs will be covered.
- *IV-E Eligibility Documentation*: Attach a copy of the determination of IV-E eligibility.
- *Other Enclosures*: Indicates other pertinent materials, such as psychological evaluations, permanency plan, medical reports, school reports, birth certificates, and social security cards. It is not necessary to list them on the form.

Signature of Sending Agency or Person. The form should be signed and dated by anyone outside of the compact office who is completing the form as the sending agency. This includes a person with authority in the county social services agency, private agency, or court and any private individual or family member who is legally responsible for the child (as indicated in Section I and Section II, Legal Status).

Signature of Sending State Compact Administrator, Deputy or Alternate. Pursuant to Article III(d) of ICPC.

If the regulations of the sending state provide for transmittal of the form through the sending state's compact office, the compact administrator, deputy, or alternative in the sending state must sign and date the form. This is almost always the case.

IV-E Changes, Form 470-3918

Purpose	Form 470-3918, *IV-E Changes*, is used by social work case managers (SWCM) and social worker IVs (SW4) to communicate information to IV-E workers regarding changes that occur during a child's episode of out-of-home care. The IV-E worker uses the form to document the effect the reported change has on IV-E eligibility and claiming.
Source	Complete this form in JARVIS / IV-E Tracking.
Completion	The **SWCM or IV-E worker** completes this form as changes occur during a child's out-of-home care episode.
Distribution	The SWCM submits the form to the IV-E worker in JARVIS / IV-E Tracking. The IV-E worker must print and file the completed copy of the form and associated documents in the IV-E case record.
Data	Complete the form as follows: **Section 1: SWCM or IV-E Worker**. Complete the child's information. Section 2: SWCM ▪ Complete the applicable section based on the type of change that occurred. ▪ Upload applicable court orders to JARVIS / IV-E Tracking. Section 3: SW4 ▪ Identify the RE2 due date. ▪ Indicate whether the court order contains an RE2 finding and the date FCTL / database entries were completed. ▪ If the child is placed in a Qualifying Residential Treatment Program (QRTP), complete the sections regarding ongoing QRTP requirements. ▪ Sign and date the form. **Section 4: IV-E Worker**. Check the box next to the applicable change and complete the information regarding the change. **Section 5: IV-E Worker**. Indicate whether IV-E funding can be claimed. If the funding status changed, include the effective date of the change. **Section 6: Medicaid Entries**. The IV-E worker completes the information on Medicaid entries and signs and dates the form.

IV-E Initial Placement Information, Form 470-3839

Purpose	Form 470-3839 is used by the social work case manager (SWCM) to communicate information to the IV-E worker regarding a child's removal from the home. The IV-E worker uses this form to document the IV-E determination.
Source	Complete this form in JARVIS / IV-E Tracking.
Completion	The **SWCM** completes Section 1 of this form for each child who has been placed in out-of-home care, whether through a court order or through a voluntary placement agreement. Complete the form when a child is first placed in an out-of-home setting, within five working days of the agreement or order. Upload the following to JARVIS / IV-E Tracking: ▪ For voluntary placements, a copy of the agreement signed by the parents or guardian and the DHS case manager. ▪ For emergency removals and court-ordered removals, a copy of the first court order authorizing the removal. The **SW4** completes Section 4 only if the child is placed in a Qualifying Residential Treatment Program (QRTP) placement. The **IV-E worker** completes Sections 2, 3, and 5 to document whether IV-E initial eligibility and claiming requirements are met.
Distribution	The IV-E worker must print and file a completed copy of the form in the IV-E case record.
Data	Complete the form as follows: **Section 1: Information Needed About the Removal**. The SWCM completes the information regarding the child's removal situation and removal household information. **Section 2: (IV-E Worker)**. Determine if IV-E initial eligibility requirements are met and check the applicable "Yes/No" box for each requirement. Include dates where applicable. **Section 3: IV-E Claiming**. The IV-E worker completes this section regarding responsibility for placement and care and claimable placement if the child meets IV-E eligibility requirements. **Section 4: (SW4)**. If the child is placed in a Qualifying Residential Treatment Program (QRTP), indicate whether the Initial Assessment was completed and whether the QRTP facility meets criteria to claim IV-E.

Medicaid/State Supp Review, Form 470-5482, 470-5482(S), 470-5482(M), or 470-5482(MS)

Purpose

The *Medicaid/State Supp Review* is designed as the annual review document for Non-MAGI-related Medicaid.

This form contains instructions for completion and informs clients of their rights and responsibilities.

Source

The ELIAS and ABC system generate form 470-5482 automatically. Form 470-5482(S) is generated when the Medicaid member has indicated that Spanish is the preferred language.

DHS IM staff may issue a manual version of the form, 470-5482(M) or 470-5482(MS), using the templates in SharePoint under Employee Manual/Forms.

Supplies of this form may also be printed from the manual or SharePoint.

Completion

The ELIAS and ABC system produce form 470-5482 at the end of the month for Non-MAGI Medicaid when a case is active for Medicaid and due for an annual review. Give or issue the form to the member upon request.

The worker or the ELIAS or ABC system completes the top portion of page 1 before the form is sent or issued to the participant.

The member must complete the answers to all applicable questions. The participant may obtain help in completing the form from friends, relatives, advocate groups, or Department staff, if needed.

Distribution

Give or mail one copy of the form to the client for completion. The completed form is scanned and filed in the case record.

Data

Whenever the form is issued manually, provide a pre-addressed return envelope. Prepare the form as follows:

- Enter the Imaging Center name and address in the upper left hand corner of the form.
- Enter the case name and current mailing address.
- *Due Date*: Enter the date the renewal form is due back to the Department.
- *Case Number*: Enter the complete case number.
- *County Number*: Enter the county number.
- *Worker Name*: Enter the worker or team name.
- *Return this form by…*: Enter the date the renewal form is due back to the Department.
- *What if I have questions?* Enter the telephone number of the worker or team.

Mexican Consulate Notification, Form 470-4385

Purpose

Form 470-4385 is used to provide written notification to the Mexican Consulate Office in Omaha when:

- the Department has identified that a child in its custody is either a Mexican national or multiple-nationality minor. **NOTE:** This identification should be conducted on existing children in DHS custody as well as on new cases entering custody.
- a parent or custodian of a Mexican national or multiple-nationality minor has requested that DHS notify the Mexican Consulate Office.
- the Department learns that the noncustodial parent or parents of a child in state custody resides in Mexico (regardless of whether the child is a Mexican national or multiple-nationality minor).

Source

Complete this form using the template available in SharePoint.

Completion

Address the written notification to the Mexican Consulate and complete and send within ten working days of the initial date the child entered state custody.

NOTE: If the DHS worker becomes aware at some point after a child has entered state custody that the child is a Mexican national or multiple-nationality minor, send the written notification to the Consulate without delay.

Distribution

When the Department takes custody of a child who is determined or is believed to be a Mexican national or a multiple-nationality minor:

- Provide written information to the child and the child's parents or custodian, in both English and Spanish, explaining the juvenile court process and the rights of children and parents or custodians in juvenile court.
- Provide the child and family with the address and phone number of the Mexican General Consulate Office in Omaha, Nebraska:

  Mexican General Consul
  Consulate of Mexico
  Protection Department
  7444 Farnam Street
  Omaha, Nebraska 68114
  Phone: (402) 595-1863, (402) 312-5006 (cell)
  Fax: (402) 595-1845
  Email: proteccionomh@sre.gob.mx
- Let the family know that you will cooperate with staff of the Mexican Consulate in matters concerning DHS involvement with the child.
- Document the date you sent the notification letter in the case file. Keep a copy of the letter under correspondence in the case file.

Next Steps, Form 470-5592

Purpose

Form 470-5592 is an optional resource for working with families to document agreements or activities that fall outside of the scope of a *Safety Plan*. The *Next Steps* can be used whether or not a *Safety Plan* is required.

Families are often eager to get started on resolving issues identified during a protective assessment or service case. For example, parents may voice a commitment to making a mental health appointment for themselves or their child, seeking child care, cleaning their house, etc. The *Next Steps* should be simple – who will do what by when. Unlike the *Safety Plan*, the *Next Steps* can be a promissory note – a tool for creating a reminder of commitments that have been made for the good of the children and the family.

Never use the *Next Steps* to make temporary or voluntary changes in child custody. The *Next Steps* does not replace the *Safety Plan*, which must be completed if a child is determined to be safe with a plan. The *Next Steps* is not binding, but a way to engage families regarding commitments they or others (including the Department) make to help preserve and strengthen family connections.

Source

Print this form from the manual or SharePoint under Employee Manual/Forms.

This form is also printed as a three-part carbonless set. Order supplies from Iowa Prison Industries in Anamosa.

Completion

When deemed useful, the child protection worker or social work case manager completes the *Next Steps* with the family, documenting who has agreed to an action step, what that action step is, and when it will be completed.

Use the *Next Steps* during the course of an assessment or anytime throughout the Life of the Case. Only those who are agreeing to an action step need to be present and sign the *Next Steps*. The *Next Steps* can be created in the family's home, at a meeting involving the family, or in other circumstances where action steps are identified.

Distribution

If a printed form is used in place of the three-part carbonless form, a picture of the *Next Steps* must be taken with a state-issued phone or camera.

Leave a copy or the original of the completed form with the family. Keep a copy for the Department's records by uploading the copy or photo of the completed form into File Manager (located within the JARVIS-STAR assessment module) or in the service case file.

Data

Family name: Document the last name of the family. The child protection worker may want to include the name of the child victim. The social work case manager may want to include the name of the youngest child.

Non-Law Enforcement Record Check Request Form A, Form 595-1489 or 595-1489(S)

Purpose

Non-Law Enforcement Record Check Request Form A, form 595-1489 or 595-1489(S), is used to authorize a check for criminal convictions on the prospective relative placement and anyone aged 14 or over who lives in the relative's home or has access to a child when the child is alone.

Source

DHS service staff can complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

The English version of this form is also printed in pads of 50 two-part sets. Order supplies from Iowa Prison Industries in Anamosa.

Print the Spanish version of this form from the manual or SharePoint.

Completion

At the time of initial consideration of the relative for placement, complete this form for:

- The relative, and
- Each person aged 14 or over who:
  - Resides in the relative's home,
  - Works in the home, or
  - Has access to a child when the child is alone.

Obtain the signature of the person being checked under "waiver," so a complete record check may be performed.

When the family returns the forms, check each person's records using the Single Contact Repository (SING) system or the Courts Online website.

When a person has criminal or abuse records, send form 470-2310, *Record Check Evaluation*, to the subject of the record if still wanting to consider the home as a possible placement.

Distribution

Send the family one copy of the form for each person to be checked.

The completed forms are filed in the child's file.

Data

Complete the form as follows:

- Enter the requesting worker's name, work address, fax number, and telephone number in the "From:" spaces.
- Enter the name, maiden name, sex, social security number, and birth date of the person whose records are requested.
- The requesting worker signs the "request" section.

Notice of Action: Foster Family Home, Form 470-0709 or 470-0709(S)

Purpose

Form 470-0709 or 470-0709(S) is used to notify the applicant for a foster family home license of licensing decisions.

Source

Complete the English or Spanish versions of the form using the templates in SharePoint under Employee Manual/Forms.

Completion

The licensing supervisor or SWCM completes the form when making a foster family home licensing decision, including:

- Issuance of a full license on application, reapplication, or completion of a corrective action plan under a provisional license.
- Issuance of a provisional license on application or reapplication.
- Denial of a license on application, reapplication, or expiration of a provisional license.

NOTE: The license will not be renewed if the applicant fails to return the application for renewal. The notice is effective the last day of the licensing year. The service area manager or designee reviews and signs the form.

Distribution

Make three copies of the completed form. Send the original to the applicant. **NOTE:** Send all denial notices to the applicant by restricted certified mail so that the date of receipt can be recorded for appeal purposes.

The service area manager may send a letter with this notice of action, especially in the case of adverse actions. Any information contained in the letter shall agree with the information and appeal rights contained on this form.

File a copy in the Department licensing file. Send a copy to the recruitment and retention contractor. The contractor initiates payment of the training stipend if the initial license is approved.

Data

Indicate if a new license or renewed license is being issued.

Check the applicable choice and fill in the dates and license capacity if requested.

If a full or provisional license is issued, indicate the effective period of the license and the capacity of the home. If any other limitations are being placed on the home, type the limitation in the space provided.

If the application is denied:

- Indicate all specific sections of Iowa Code Chapter 237 and of 441 Iowa Administrative Code Chapters 112 and 113 being used as reasons for the denial. Include the number.
- Explain the specific facts that support the legal basis for the negative action. Use an additional page if necessary.

Notice of Child Abuse Assessment: Confirmed Not Registered, Form 470-3575 or 470-3575(S)

Purpose

Form 470-3575 or 470-3575(S) is used to notify designated persons that a child abuse assessment has been concluded, the outcome of the assessment, and appeal rights.

Source

The English version of this form is available for Central Printing through the Outcome Notices tab on the STAR Assessment module in JARVIS.

The English and Spanish forms may also be printed from SharePoint under Employee Manual/Forms.

Completion

The child protective worker generates this form following the assessment, when abuse is determined to have occurred by a preponderance of the evidence, but the incident was not placed on the Central Abuse Registry because the incident was minor, isolated, and unlikely to reoccur. Prepare a form for:

- The subjects of the report.
- The mandatory reporter who made the report, if applicable.
- The employees of a child protection center involved in the child abuse assessment, if applicable.
- Child care facility administrators, if applicable.
- The DHS child protective worker who assisted in completing the assessment by conducting a courtesy interview, if applicable.

NOTE: A subject of the assessment or that person's legal representative completes page 2 of the form when wishing to receive those portions of the summary to which they may be entitled.

Distribution

The form is mailed from Central Printing when completed in JARVIS.

If Central Print is not used, mail the form and upload a copy into the File Manager, located on the STAR Assessment module in JARVIS.

The county attorney and juvenile court have access through the portal.

Data

If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS:

- The name and address of the person to whom the form is sent.
- The date the notice is sent.
- The incident number that was assigned to the report at intake.
- The name of the child protective worker, the supervisor, and the Department's office telephone number and address.

Notice of Child Abuse Assessment: Founded, Form 470-3243 or 470-3243(S)

Purpose

Form 470-3243 or 470-3243(S) is used to notify designated persons that a child abuse assessment has been concluded, the outcome of the assessment, and appeal rights.

Source

The English version of this form is available for Central Printing through the Outcome Notices tab on the STAR Assessment module in JARVIS.

The English and Spanish forms may also be printed from SharePoint under Employee Manual/Forms.

Completion

The child protective worker generates this form following the assessment when abuse was determined to have occurred by a preponderance of the evidence and the incident was placed on the Central Abuse Registry. Prepare a form for:

- The subjects of the report.
- The mandatory reporter who made the report, if applicable.
- The employees of a child protection center involved in the child abuse assessment, if applicable.
- Child care facility administrators, if applicable.
- The DHS child protective worker who assisted in completing the assessment by conducting a courtesy interview, if applicable.

NOTE: A subject of the assessment, that person's legal representative, or the mandatory reporter who made the report completes page 2 of the form when wishing to receive those portions of the summary to which they may be entitled.

Distribution

The form is mailed from Central Printing when completed in JARVIS.

If Central Print is not used, mail the form and upload a copy into the File Manager, located on the STAR Assessment module in JARVIS.

The county attorney and juvenile court have access through the portal.

Data

If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS:

- The name and address of the person to whom the form is sent.
- The date the notice is sent.
- The incident number that was assigned to the report at intake.
- The name of the child protective worker, the supervisor, and the Department's office telephone number and address.
- An explanation of why the person is receiving the notice.

Notice to Relatives and Parents, Form 470-4769 or 470-4769(S)

Purpose

The *Notice to Relatives and Parents* is used to:

- Notify a child's relatives that the child's custody has been transferred to DHS for the purpose of placement.
- Ask if the relative is willing to be considered for placement of the child or to provide assistance or support for the child.
- Identify possible resources available for the relative if the relative takes placement of the child and many of the requirements for becoming a licensed foster parent.
- Identify benefits and availability of the State's Subsidized Guardianship Program.

Source

The form is generated from the Comprehensive Child Welfare Information System (CCWIS), under the Child Services module in JARVIS.

Completion

The child protection worker or social work case manager completes the required fields in CCWIS within 30 days of the court order that transfers the child's custody to DHS for placement with the child's grandparents, adult siblings, parents of the child's siblings or half siblings, aunts, uncles, and other relatives identified by the child's parents.

Ensure that you have signed releases from the child's parents before releasing any information to the relatives regarding the child and the removal. A release of information is not needed to send the relative notice to the relative.

Distribution

The notice is generated and sent to each relative through Central Print. A copy is stored in the CCWIS system, under the Child Services module in JARVIS.

Data

Notice to Schools for Child in Foster Care, Form 470-4894

Purpose

Form 470-4894 is used to notify school personnel that a child is in foster care or to engage educators to ensure and monitor appropriate school placement. If the child is transferring schools, the form triggers a five-day requirement for the district to transfer records. This form notifies educators at the receiving school to enroll the child immediately. Guidance regarding education of children in foster care, including how to access the appropriate school district Point of Contact, can be found in SharePoint.

Source

Form 470-4894 is available as a fillable PDF on the Department's website. DHS workers may also complete the fillable PDF in SharePoint under Employee Manual/Forms.

Supplies of this form may also be printed from the manual or SharePoint.

Completion

The social work case manager completes this form and initiates a Best Interest Determination:

- When a child has entered foster care, or
- When a placement change is expected for a child in foster care, or
- To engage educators regarding the education or behavior of a child in foster care.

Iowa Code section 232.2 requires the Department to:

- Provide evidence that there was an evaluation of the appropriateness of the child's educational setting;
- Provide evidence that a Best Interest Determination was conducted as follows:
  - The Department coordinated with appropriate local educational agencies to identify how the child could remain in the home school; or
  - If it was determined not to be in the child's best interest to remain in that school, that local educational agencies immediately and appropriately enrolled the child in another educational setting during the child's placement.
- Ensure that the child's educational records were provided to the new educational setting.
- Document the education stability of a child in foster care.

Iowa Code section 280.29 requires a school district, upon notification by the Department:

- That a child in foster care is transferring from one school district to another school district, to transfer all education records to that district no later than five school days after receiving notification.

Send the completed form to the Point of Contact at the child's school district of origin, who may forward the form to the appropriate education professional (i.e., counselor, homeless liaison). Send to one or both of the following, as appropriate, and place in the child's case file.

- The school the child is currently attending (school of origin).
- The school the child is likely to be enrolled in if a school change is being considered.

Data

The social work case manager completes this form as follows:

- *Name*: Include the name of a the Point of Contact at the child's school district of origin or the Point of Contact at the school the child is likely to be enrolled if a school change is being considered.
- *Address*: Address of the school district.
- *Greeting*: After "Dear," print the name of the Point of Contact at the school district
- *Child's Name*: Print the first, middle, and last name of the child.
- *Date of Birth*: Print the child's date of birth to help the schools identify the child.
- Date of Placement: Print the date the child was or is expected to be placed in a foster care home or facility.
- *Official Notification*: Check the appropriate selections.
- *Legal authority* **and** *Consent and release of information*: Consent from the parent or guardian is not required for DHS to share that the child is in foster care or to discuss the appropriate school placement. However, health, substance abuse, child protection, and HIV information may not be shared without parent or guardian consent. Encourage the parent to communicate with educators on behalf of their child, as appropriate.

  School officials with questions may contact the Department of Education staff indicated on the form.

Parent's/Guardian's/Custodian's Consent, Form 430018

Purpose

Department of Transportation form 430018 is used to provide permission for a child to obtain a driver license or operator instruction permit.

Source

Access this form by copying this link into your browser: https://iowadot.gov/#/services. When the website opens:

1. Click on the FORMS tab.
2. When the Iowa DOT Portal opens, enter either 430018 or Parent/Guardian Consent. It is not necessary to check Form under Type.
3. Click on the form from the list of forms appearing on the right.
4. Click on Form Details for instructions. Click on Complete Form to open the form.

Completion

The Department may provide consent only when all of the following conditions are met:

- A child in foster care is of appropriate age to obtain a driver license or operator instruction permit according to the Department of Transportation guidelines, and
- The parent is unable or unwilling to sign consent for the child to obtain the license or permit, and
- It is in the child's best interest to have a driver license or operator instruction permit, and
- Provisions of Iowa Code 321.180B have been met (as indicated on this form) if the consent is for an intermediate or full-privilege driver license.

The social work case manager or juvenile court officer completes all the fields on the form as directed. Check "ward" to represent the child.

A social work supervisor, social work administrator, or service area manager is required to sign the form.

The Department of Transportation will check the Department signature against a list of Department staff approved to sign.

Distribution

Provide the completed and signed form to the child's caretaker for use in obtaining an operator instruction permit or a full or intermediate driver license for the child.

Pre-Service Training and License Variance Request, Form 470-5511

Purpose	Department licensing staff uses the *Pre-Service Training and License Variance Request* to request a variance: ▪ For foster parent applicants to complete the 30 hours of pre-service training, or ▪ Of a non-safety licensing standard that meets an alternative equivalent licensure standard and does not have a negative impact on child safety.
Source	Complete this form using the template in SharePoint under Employee Manual/Forms.
Completion	The Department licensing worker completes the form. To request a variance of a licensing standard: ▪ Enter the rule needing approval of the variance. ▪ Enter the effective date that the variance is requested. ▪ Describe the proposed equivalent alternative to meeting the licensure rule. The social work administrator or designee checks the box indicating approval or denial of the request and signs the form.
Distribution	Send the completed original form to the service area manager or social work administrator for a response to a variance request. When the request for a variance is approved or denied: ▪ Return the original to the Department licensing worker. ▪ Send a copy to the retention and recruitment worker. ▪ Send a copy to the policy program manager in Central Office and enter the date sent.
Data	Document the reasons why the variance to 30 hours of pre-service training and the non-safety licensing standard is an alternative equivalent to the licensure standard.

Proof of Foster Care, Form 470-5536

Purpose

Proof of Foster Care, form 470-5536, is completed and given to a child "aging out" of foster care. The child may use this memo to:

- Provide proof of participation in foster care.
- Receive certain benefits made available to children who were in foster care.
- Determine eligibility for federal financial assistance to attend college.

Source

Complete this memo using the template available in SharePoint under Employee Manual/Forms.

Completion

The case manager completes this memo for any child exiting foster care of any type at age 17 and 6 months or older. If requested, complete and give this memo to a person who previously exited foster care at age 17 and 6 months or older.

The case manager has discretion to provide one or more additional copies.

Distribution

Provide this memo to the child before the child exits foster care. Hand deliver, email or mail the completed letter to the child.

NOTE: Provide a copy of the memo to Iowa Aftercare Services with the referral, if applicable.

Data

Enter information in following fields:

- Child's first and last name
- Child's date of birth
- Case manager's first and last name
- Case manager's title
- Case manager's complete address
- Case manager's email
- Case manager's phone number
- Issue date of the letter
- In the first paragraph, the date the child exited foster care or reenter the issue date of the letter

If the child is currently in foster care, the memo calculates the child's age when the memo is issued. If the child has exited foster care, the memo calculates the child's age upon exiting foster care. This age can be changed if necessary.

Provider Agreement, 470-0636

Purpose Form 470-0636, *Provider Agreement*, describes the responsibilities of a person providing in-home health-related care services to an IHHRC client. The agreement specifies the payment made to each provider by the client. The Department assures the eligibility of the client.

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.

Completion

The client and worker complete a Provider Agreement with each of the client's providers. If a provider has more than one client, the provider must have a different agreement for each client. A client may have more than one valid Provider Agreement if they have multiple providers. Before the service is initiated and annually thereafter, the form shall be signed by:

- The client,
- The provider,
- The HHS service worker, and
- The service area manager or designee.

Complete a new agreement when any of the following changes occur:

- Rate of payment
- Service to be provided
- Maximum cost
- Provider
- Who receives the client participation

Distribution Enter the information in IoWANS when the form is completed and signed by all parties. The original goes to the HHS service worker for the service case file. Mail a copy to the provider and to the client.

Data

Provider Number: IoWANS generates the provider number after the HHS service worker enters all information into IoWANS. (Information is entered in IoWANS under the provider tab.)

NOTE: The provider may already be a traditional Medicaid provider. Search the provider name before entering new information.

- State ID: Enter the client's state identification number.
- Amendment: Indicates this amends an agreement already in effect.
- Payee Demographic Information (if applicable): Enter the name of the payee, if different from the client. Examples of payees are legal conservators, power of attorneys for financial affairs, and protective payees. If there is a payee, enter the telephone number, street address, city, state and zip code.

PS-MAPP Family Profile, Form 470-4019 or 470-4019(S)

Purpose

The *PS-MAPP Family Profile* is used to collect information about prospective foster/adoptive families during PS-MAPP training during family home studies.

Source

Obtain supplies of the English and Spanish versions of the form from the recruitment and retention contractor.

Completion

PS-MAPP trainers give this packet to the family when the family begins the licensing or approval process. Issue only the sections that apply to the particular family. The applicant family shall complete the profile by the last training session.

If PS-MAPP is waived, the home study worker provides this form to the family to complete before the last applicant home visit. Completing the profile reinforces that families can best explain their own strengths and needs. Families know themselves better than anyone else does.

It is the responsibility of prospective foster and adoptive parents to help home study workers get to know them better and to examine fully if adopting or fostering is right for them

Distribution

The family returns the original of the completed profile to the home study worker. It is retained in the family's HHS licensing file. The recruitment and retention contractor keeps a copy in its home study file.

Data

Part I of the profile includes sections for the applicants to report:

- General information on household members, including:
  - Demographic information
  - Medical and personal information
  - Legal information
  - Financial information
- References
- Special projects (pictures, letters, scrapbook)
- Personal profile for the mother
- Personal profile for the father

Part II of the profile collects information about how the family operates and what the family's expectations for a foster child are. There are several optional sections depending on family configuration:

- A couple with children
- A couple with no children
- A single person with children
- A single person with no children
- A parent's profile of children now in the home
- A personal profile for children 12 years of age or older
- A personal profile for children under age 12

- *Social security number*: Enter the social security number of the proposed caretaker. If the caretaker does not have a social security number, enter "none" on this line.
- *Address*: Enter the address (street, apartment number, city, state, and zip code) of the proposed caretaker. If the address is a rural route, include the route number and box number.
- *Telephone number (home) and (work)*: Self-explanatory. Include area code. If the proposed caretaker does not have a telephone, enter a message telephone number, if possible. If the proposed caretaker does not have a telephone number or a message telephone number, enter "none."
- *Marital status*: Check the box of the marital status of the proposed caretaker.
- *Living with (name)*: Enter the name (last name, first name, and middle initial) of the adult person (other than legal spouse) with whom the proposed caretaker is living, if any.
- *Caretaker/spouse*: Enter the name (last name, first name, and middle initial) of the caretaker's spouse, if the caretaker is legally married.
- *Employer's name and address*: Enter the company name and address of the employer, if the proposed caretaker is employed.
- *Employer's telephone number*: Enter the work telephone number, including area code, of the employer of the caretaker's spouse. If the employer does not allow the employee to receive telephone calls while on duty, specify that information beside the telephone number.
- *Income*: Enter a dollar amount for the gross income of the household. Check the box that reflects the pay period involved. You **must** submit income verification.
- *Head of household*: Enter the name of the adult (aged 18 or older) who is considered the head of the household, as evidenced by the name on rent receipts, utility bills, etc.
- *Number of members in household*: Enter the number of adults aged 18 or over and the number of children under the age of 18 in the household. Use the designation "A" for adults and "C" for children. Example: A = 2 and C = 1 indicates there are two persons aged 18 or over and one child under the age of 18 in the home.
- *Relationship to proposed caretaker*: Enter the relationship of the proposed caretaker to the head of household, if applicable. If they are the same people, enter "same."
- *Length of relationship (if not marital)*: Enter the length of time the proposed caretaker and head of household have had a relationship. If the head of household is the proposed caretaker, enter "same."

- *Relationship of proposed caretaker to child*: Enter the relationship between the proposed caretaker and the child who is being considered for placement in this home. Specify "paternal" or "maternal" to identify which side of the family is involved.

  NOTE: Consider "half" relationships the same as whole relationships (e.g., a half-sister is the same as a sister). Consider "step" relationships the same as if related by blood (e.g., a stepbrother is the same as a brother).

  A relationship by marriage terminates when death or divorce occurs, but if a child was born of the married parents, the relationship between the parents continues even after the marriage is dissolved.

  Legal relationships between the child and members of the extended family may be altered when a court has terminated parental rights of the birth parents. If the parental rights of only one birth parent have been terminated, the child's relationship to the other parent (and the relatives of that parent) remains in effect.
- *Reason for wanting to care for children*: Enter the reason given by the proposed caretaker for wanting to care for these children and include your assessment of the response.
- *How did you hear about child's situation?* Enter the response of the proposed caretaker to this question and your assessment of the response.
- *Do you understand the situation that caused this request?* Enter the response of the proposed caretaker to this question and your assessment of the response.
- *Ability to protect child from offender*: Enter your assessment of the ability of the proposed caretaker to protect the child from the person who perpetrated abuse or neglect.
- *Willingness to provide care (time-limited or open-ended)*: Enter the response of the proposed caretaker to this question and your assessment of the response.
- *Appropriateness of child care plans*: Enter the response of the proposed caretaker to this question and your assessment of the response. Include any necessary explanation if the proposed caretaker does not plan to use childcare or if the child to be placed with the caretaker does not require childcare.
- *Forms of discipline*: Enter the forms of discipline, which the proposed caretaker plans to use. Indicate whether corporal punishment will be used.
- *Is present income adequate?* Enter your assessment of the adequacy of the income in the home to meet both current expenses and the additional expenses if the child is placed in the home.
- *Willingness (ability) to care for child without financial help*: Enter the response of the proposed caretaker and your assessment of the response.

Recommendation for Denial of a Foster Family License, Form 470-0704

Purpose	Form 470-0704 summarizes the grounds for recommending denial of an application or reapplication for a foster family home license and records the decision. (See 18-E(1), *Denial of License* for further discussion.)
Source	Department staff can complete this form using the template in SharePoint under Employee Manual/Forms.
Completion	The Department licensing worker completes all but the "Denial Decision" section when recommending the denial of a license. The service area manager completes that section.
Distribution	The licensing worker submits the form to the service area manager or designee and keeps a copy as a control. After a decision is made, the licensing worker: ▪ Files a copy in the licensing file, ▪ Sends a copy to the foster family program manager in the Division of Adult, Children and Family Services along with the documentation supporting the denial, and ▪ Sends a copy to the recruitment and retention contractor.
Data	Indicate all substantiated reasons for the denial of an application or reapplication. Attach supporting data for each reason checked when submitting this form.

Recommendation for Provisional License, Form 470-0698

Purpose	Form 470-0698 summarizes the grounds for recommending issuance of a provisional foster family home license and records the decision.
Source	Print this form from the manual or SharePoint under Employee Manual/Forms.
Completion	The Department licensing worker completes the form when form 470-0695, *Resource Family Survey Report*, indicates that the applicant fails to meet one or more licensing standards, but the licensing worker believes that the situation meets the requirements for issuing a provisional license. Refer to 18-E(1), *Licensing Decision: Approval of License: Provisional License* for a discussion of the conditions for issuance of a provisional license. The licensing worker completes sections A, B, D, E, and F. The applicants sign in section C to indicate their commitment to the plan of correction.
Distribution	The licensing worker: ▪ Submits the form to the service area manager for a decision. ▪ Keeps a control copy until the form is returned with the licensing decision. ▪ Sends the applicant a photocopy of the completed form as the approved plan for correction. ▪ Keeps the completed form in the licensing file.
Data	The form describes: ▪ The applicant home's deficiencies, ▪ The applicant's plan, and ▪ The time frames for correction of the deficiencies. Be as specific as possible in describing the deficiencies in section A and the corrective action in section B. You may need to attach additional information to explain sections C, D, and E. Indicate in Section F whether the provisional license is recommended and sign in the space provided.

Recommendation for Suspension of a License, Form 470-0710

Purpose	Form 470-0710 documents the conditions requiring an emergency or time-limited suspension of a foster family home license and records the Department's decision.
Source	Complete this form using the template in SharePoint under Employee Manual/Forms.
Completion	The Department licensing worker completes sections A through E when recommending the suspension of a license. Each licensee signs section F, along with the licensing worker, to indicate commitment to the plan of correction. The service area manager or designee signs section G. The administrator of the Division of Adult, Children and Family Services completes section H.
Distribution	The licensing worker submits the copy to the service area manager. The service area manager or designee submits the approved copy to the administrator in the Division of Adult, Children and Family Services and keeps a copy until the approved copy is returned with a suspension decision. Place the completed form in the licensee's record.
Data	Ensure that: ▪ The deficiencies are clearly and completely identified in section A. ▪ Section D clearly describes the plan for correcting the deficiencies including the completion date.

Record Check Evaluation, Form 470-2310 or 470-2310(S)

Purpose	Form 470-2310 is used to collect additional information about a criminal conviction or a child abuse report. The worker and the evaluation team then use this information to evaluate the report's effect on the licensing or registration recommendation.
Source	Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms. Print the Spanish version of this form from the manual or SharePoint.
Completion	The person subject to the evaluation and/or the requesting entity completes sections A, B, and D for each founded report of child abuse or criminal conviction. Section C is the evaluation determination and is completed by the Department.
Distribution	The person subject to the evaluation completes the form and sends the form to the Department within ten calendar days of the date on the form. The Department reviews this information. On approved evaluations, a copy of the completed *Record Check Evaluation* is sent to the requesting entity. On denied evaluations, a copy of the completed *Record Check Evaluation* is sent to the requesting entity and the person subject to the evaluation.
Data	*Part A. Agency/Provider/Person Requesting Evaluation*: The agency, provider, or person requesting the evaluation completes this section. Include the requesting entity, requestor's name, and contact information. *Part B. Person Being Evaluated*: The person completing the form verifies who is being evaluated, previous or maiden names, and the position they are applying for. *Part C. Evaluation Determination/Notice of Decision*: The Department will evaluate and approve or deny a person's involvement in the role they have requested. *Part D*: The applicant must complete information regarding each crime or incident of abuse, changes made to assure safety in working with others, and whether the Department has evaluated the applicant in the past.

Request for a One Year Foster Family License, Form 470-5124

Purpose

Form 470-5124 is used to document the request for approval or denial of one-year licensure for foster families.

Source

Complete this form using the template in SharePoint under Employee Manual/Forms.

Completion

The Department licensing worker completes this form upon receipt of the licensing renewal packet for foster families who have completed their first two years of licensure. Use this form only for foster families whose performance in the previous licensing year indicates the need for a one-year license.

Mark the reasons for the request as indicated on the form. *Other reasons* can be for:

- Continuing lack of compliance with adherence to foster care licensing rules, foster care placement contract, or foster family handbook;
- Behavior that could have negative impact on foster children, such as alcohol or substance abuse;
- Health or mental health concern.

The occurrence of one or more of the reasons does not require a recommendation of a one-year license. Take into consideration the circumstances, foster family's history, willingness to take responsibility and made adjustments, and other relevant factors when deciding whether to make the request.

Also document voluntary requests by the foster family in this section. If you need more space to write the information under *Other reasons*, use another sheet of paper and attach it to this form.

Distribution

Attach the home study, corrective action plan, letter to the foster parents, and other supporting documents or reports to this form. Send the completed form with attachments to the Foster Family Program Manager in Central Office.

The Adult, Children and Family Services Division Administrator reviews the request and indicates on the form approval or denial and an effective date.

The division administrator signs the form. The foster family program manager returns a copy to the Department licensing worker. The Department licensing worker then sends the foster family the *Notice of Action* and enters the foster home renewal date in FACS. If the division administrator approves the request for a one-year license, the Department licensing worker notifies the foster family program manager who completes the override in FACS.

Keep the original in the licensing case file until the signed form is returned to you. Then file the signed form in the licensing case file. Give a copy of the signed form to the recruitment and retention provider.

Data

Use all available information about the family for a thorough recommendation to the division administrator including:

- The final home study,
- Discussions with the recruitment and retention provider and other providers, HHS staff, the foster family;
- Corrective action plans, and
- Child abuse assessments.

Request for Approval of Supervised Apartment Living Foster Care Placement, Form 470-3186

Purpose

Form 470-3186 is used to:

- Obtain the service area manager's approval for:
  - A child aged 16½ or older to be placed into a SAL cluster-site placement, or
  - A child aged 17 or older to be placed into a SAL scattered-site placement.
- Obtain authorization for payment of start-up costs needed by the child.

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.

Completion

The child's social work case manager prepares the form after a foster care staffing has determined that a supervised apartment living placement is the appropriate level of care for the child.

Complete all information above the approval section and obtain the supervisor's signature. Then obtain the signature of the service area manager or designee.

The service area manager or designee:

- Approves or denies the placement,
- Approves or denies a waiver request for continuous placement (if applicable), and
- Indicates the amount of the initial allowance.

Distribution

File the signed original in the case record.

Data

The form lists the eligibility requirements for supervised apartment living placement and the amount of funds, if needed, for start-up costs.

Request for Child and Dependent Adult Abuse Information, Form 470-0643

Purpose

Form 470-0643 is provided for authorized persons to request information from the Central Abuse Registry.

Source

HHS staff may complete this form using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.

Completion

The person requesting information concerning a dependent adult that has been reported as abused completes this form.

Distribution

Send the form to the Registry for approval before releasing dependent adult abuse information, except when information is needed immediately as provided in 18-B(3), *Requests for Dependent Adult Abuse Information*.

The Registry completes the form indicating approval or denial of the request. The Registry returns the form to the requestor when:

- The request is an employment check, or
- The local office no longer has a copy of the report, or
- The request is delivered personally to the Registry, or
- The request is denied.

For other requests, the Registry returns the form to the local office. The local office provides the information that has been authorized for release to the person making the request.

NOTE: Do not release the social security numbers of either the dependent adult or the person responsible for the abuse. Delete them when you release a copy of form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Data

The requester completes:

- Name, phone number, and address of the requestor.
- Position and basis for authorization to receive the information.
- First, middle, and last name of the person the request is about.
- That person's maiden name or alias.
- That person's social security number, birth date, and address.
- The reason for the request.
- The date and the requestor's signature.

Section 1: This section identifies the requester and attests that the requester understands the legal provisions for handling child and dependent adult abuse information.

Purpose

Department licensing staff uses the *Request for Waiver of Pre-Service Training or Non-Safety Licensing Standards for Relatives* to:

- Request a waiver for relatives to complete the 30 hours of pre-service training, and
- Waive the non-safety licensing standard that does not have a negative impact on child safety.

Source

Complete this form using the fillable PDF file in SharePoint under Employee Manual/Forms.

Completion

The Department licensing worker completes the form, except for the "response" section, which the service area manager or social work administrator completes.

Choose the reason for waiving pre-service training that applies. To request a waiver of another licensing standard:

- Check the licensing standard that has the deficiency.
- Enter the effective date that the waiver is requested.
- Describe the circumstances that warrant the waiver.
- Describe the impact if a waiver is not approved.

Distribution

Send the completed original form to the service area manager or social work administrator for a response for a waiver request. When the request for a waiver is approved or denied:

- Return the original to the Department licensing worker.
- Send a copy to the retention and recruitment worker.
- Send a copy to the policy program manager in Central Office.

Data

Document the reasons why the 30 hours of pre-service training may be waived or why a licensing standard could be waived.

Resource Home Concern, Form 470-5510

Purpose	HHS workers use form 470-5510, *Resource Home Concern*, to document concerns identified regarding a resource home that needs to be addressed and to coordinate successful resolution. The form provides a tracking mechanism for the resource home's history.
Source	Complete this form using the fillable PDF in SharePoint under Employee Manual/Forms.
Completion	**Part 1**. The HHS social worker, who has observed a concern, completes Part 1 of the form no later than one business day and sends it to the HHS licensing supervisor in the applicable service area to review and identify concerns requiring resolution. The supervisor assigns a timeframe for the RRTS provider to complete the initial home contact. If the concern requires an urgent resolution, the HHS supervisor calls the RRTS provider right away to ensure an immediate response. The HHS supervisor discusses the concerns and any immediate actions to be taken with the resource home. Any suspected child abuse will be reported to the Child Abuse Hotline: 1-800-362-2178. **Part 2**. The RRTS contractor completes this part with the steps to resolve the concern and any recommendation for a Corrective Action Plan, if applicable, and sends it to the HHS licensing supervisor within 10 business days of receiving the concern form to review. **Part 3**. The HHS licensing supervisor reviews the resolution plan in this part and signs it if the resolution is approved.
Distribution	Send a copy of the approved form to the HHS placement worker, HHS licensing worker, and the RRTS provider to file in the resource family file.
Data	The HHS licensing worker and the RRTS worker monitors the resolution plan and any corrective action plan to rectify the concerns. Keep documentation in the resource family file.

Rights of Youth in Out-of-Home Placement, Form 470-5337

Purpose

Form 470-5337 describes the rights of a youth in an out-of-home placement with respect to:

- Education,
- Health,
- Visitation,
- Court participation,
- The right to receive a credit report every year while in foster care,
- The right to be given certain documents if the youth leaves out-of-home placement at age 18 or older, and
- The right for the youth to stay safe and avoid exploitation.

Source

Form 470-5337 is printed in pads of 25 two-part carbonized sets. Order supplies from Iowa Prison Industries at Anamosa in the usual manner.

Supplies of this form may also be printed from the manual or SharePoint under Employee Manual/Forms.

Completion

The Department worker must explain the rights, in an age-appropriate manner, to youth on the worker's caseload when the youth becomes 14 years of age or, if the youth is older than 14, after the youth enters out-of-home placement.

After explaining the youth's rights, the youth must sign and date the form indicating that the worker has reviewed the rights in a way the youth understood and answered any questions the youth had.

The worker will review the rights with the youth as needed. The youth must sign and date a new form each time.

In Part C (Transition Plan section) of form 470-3453, *Family Case Plan*, the following statement appears in the transition plan:

A list of rights with respect to education, health, visitation, and court participation has been discussed with the youth. Also addressed was the right to stay safe and avoid exploitation. The rights document was provided to and signed by the youth, most recently on **(date)**. The rights document was provided to all legal parties of the case and was made part of the case plan. The document is stored in the case file.

The worker needs to put the most recent date the youth signed the form in this statement in the case plan.

Safe Plan of Care, Form 470-5616

Purpose

The purpose of the *Safe Plan of Care* is to protect the safety and well-being of infants born and identified as affected by substance abuse or withdrawal symptoms or Fetal Alcohol Spectrum Disorder following the infant's release from the care of a health provider.

The *Safe Plan of Care* addresses the health and substance use disorder treatment needs of the infant and affected family or caregiver. Monitoring the *Safe Plan of Care* helps to ensure that referrals are made and critical services are provided to the infant and family.

Source

Print this form from the manual or SharePoint under Employee Manual/Forms.

Completion

A safe plan of care must be developed for all infants (under one year of age) born and identified by a health care provider as affected by substance abuse or withdrawal symptoms or Fetal Alcohol Spectrum Disorder. A safe plan of care is required for infants affected by all substance abuse, legal or illegal.

After confirming with the health care provider that the infant is affected by substance abuse or withdrawal symptoms or Fetal Alcohol Spectrum Disorder and treatment services are appropriate, the child protective worker or social work case manager completes the *Safe Plan of Care* with the family and all relevant participants.

Whenever possible, complete the *Safe Plan of Care* before the infant is released from the hospital or immediately following the infant's release from a health care provider.

Distribution

Give a copy of the *Safe Plan of Care* to all participants involved in the plan.

If completing the *Safe Plan of Care* for a child abuse assessment or a family assessment, upload it into the File Manager on the STAR Assessment module in JARVIS.

If completing the *Safe Plan of Care* for a CINA assessment or an open child welfare case, file the document in the ongoing case file.

Data

Incident Number. Enter the number assigned to the relevant assessment.

Infant Affected. Enter the name of the child victim, the child's date of birth, and the FACS identification number assigned to the child.

Household Composition. Enter the name of each person living in the home with the child victim. For each person identified enter the date of birth, FACS identification number, and the relationship to the child. If applicable, under *Substance Dependency*, check the box regarding the type of substance abuse for each person listed. If the type of substance abuse is not listed, enter the name in the "Note" section.

Safety Assessment, Form 470-4132 or 470-4132(S)

Purpose

The *Safety Assessment*, form 470-4132 or 470-4132(S), helps to assess (at a point in time) whether any child is likely to be in imminent danger of serious harm or maltreatment, which requires a safety intervention and to determine what interventions should be initiated or maintained to provide appropriate protection.

Source

The English version of this form is available on the Safety Assessment tab on the STAR Assessment module in JARVIS.

Print the Spanish version of this form from the manual or SharePoint under Employee Manual/Forms.

Completion

The child protection worker must complete the *Safety Assessment*:

- Within 24 hours of the first contact with the child, and
- At the end of all child abuse assessments and on all family assessments when the child was not determined to be safe in the initial safety assessment.

The social work case manager must complete the *Safety Assessment* with supervisory consultation before:

- Deciding to initiate unsupervised visitation, and
- Deciding to reunify the child with the family, and
- Deciding to close the case or recommend case closure to the court.

Either worker also completes the *Safety Assessment* whenever circumstances suggest that the child is in unsafe situation.

Use RC-0104, *SDM Safety Assessment Guidance*, to complete the safety assessment. Review information obtained from systems checks, Department records, and any previous or current court involvement.

Distribution

The *Safety Assessment* is not distributed as part of the *Child Protective Services Child Abuse Assessment Summary* nor the *Child Protective Services Family Assessment Summary*. It is maintained within JARVIS and is considered assessment data. If the case is transferred for ongoing Department services, include a copy of the *Safety Assessment* in the referral packet.

Upon request, provide a copy of the *Safety Assessment* to the subjects of the report. Provide the *Safety Assessment* to a provider of safety plan services when there is a release of information signed by parent.

Data

Complete the following:

- **Client name**: The child protection worker enters the names of all of the child victims. The social worker case manager enters the youngest child's name.

- **County**: Enter the name of the county of residence of the child.
- **Worker name**: Enter the name of the assigned worker.
- **Date Assessment Completed**: Enter the date the Safety Assessment is completed (not the date it is entered into the system).
- **Assessment Type:** Check the item that describes the circumstances of the assessment:
  - **Initial**: Initial child protective safety assessment
  - Subsequent:
    - Child protective safety assessment at the end of the assessment, or
    - Unsupervised visitation safety assessment, or
    - Reunification safety assessment, or
    - Unsafe situations safety assessment
- **Case closure**: safety assessment prior to the decision to close a service case
- **Names of Children Assessed**: List the names of all children assessed.
- **Household name**: List the address of the household being assessed.
- **Caregiver(s) assessed**: List the names of all parents and caregivers assessed.

SECTION 1: Factors Influencing Child Vulnerability. Identify all the conditions resulting in any child in the household being more vulnerable to danger.

SECTION 2: Current Danger Indicators. Assess the household for each behavior or condition that describes a child being in imminent danger of serious harm and select all of the danger indicators that apply. If none apply, select "no danger indictors present" and skip to section 4.

SECTION 3: Safety Response – Protective Capacities And Safety Interventions. For each danger indicator identified, consider the resources available to the family and in the community that might help to keep the child safe. Select each protective capacity and safety intervention taken and explain how each protected or protects the child from the identified dangers.

SECTION 4: Safety Decision. The safety decision is based on the assessment of all danger indicators, all safety interventions, and any other information known about the case. Identify whether the child is:

- "Safe" (Do not complete a *Safety Plan* when no danger indicators are identified, but the Next Steps form may be used if desired.)

AMERICAN OVERSIGHT

SAL+ Life Skills is a pilot project in Linn County only and is a component of the Iowa Aftercare Services Program. The service is a service directed to youth in a court ordered scattered site Supervised Apartment Living placement in Linn County, Iowa. The SAL placement must be supervised by a SWCM or Juvenile Court Officer. For youth age 18 to 20, a court order is not needed. Instead, use an approved voluntary placement agreement form 470-0715.
Source	Maintain in SharePoint staff resources.
Distribution	The SWCM completes the form and makes the referral as indicated at the bottom of the form. Keep a copy in the case record.

Sending State Priority Home Study Request, Form 470-3925 (ICPC 101)

Purpose

Form 470-3925 (ICPC 101) is used to alert the receiving state to the fact that the court that has jurisdiction over the child has determined that a priority placement of a child from one state into another state is necessary.

Source

Form 470-3925 is available as a template in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.

Completion

The child's service worker in the sending state completes five copies of this form and other ICPC referral materials within three business days of receipt of a court order that indicates the court has determined that a priority placement situation exists.

Distribution

Send the original and two copies to the deputy compact administrator in the Division of Field Operations. Also send a copy to the court that requested the priority placement for verification that the ICPC referral was submitted timely. Keep a copy in the child's record.

Data

If more than one child is proposed to be placed with the caretaker, list all additional children on a separate sheet of paper and attach the sheet to the back of the home study.

Identifying Information

- *Name of child to be placed*: Enter the child's complete name, (last name, first name, and middle initial, if any).
- *Age*: Enter the child's age as of the date the form is completed.
- *Mother's name*: Enter the name of the mother of the child as found on the child's birth certificate.
- *Ethnic group*: Enter the ethnic group to which the child belongs, such as Caucasian, African-American, Native American Indian, Hispanic, etc. If the child belongs to more than one ethnic group, enter "Biracial" for the child's ethnic group membership.
- *DOB*: Enter the child's date of birth as listed on the child's birth certificate.
- *Father's name*: Enter the name of the father of the child as found on the child's birth certificate. If there is no father listed on the birth certificate, list the name of the alleged father if known, and specify "alleged." If the child's birth father is unknown, enter "unknown" on this line.

Proposed Caretaker. This section relates to the person who will be providing care for the child when placement occurs. Contact the proposed caretaker to determine the person's interest in caring for the child if the court order does not indicate such information.

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

Due to the time constraints for completing the home study, it is essential to include all identifying information about the proposed caretaker in the request.

- *Name*: Enter the name (last name, first name, middle initial) of the proposed caretaker.
- *Marital Status*: Enter the marital status of the proposed caretaker, as follows:

S	Single
M	Married
Sep	Separated
D	Divorced
W	Widowed

- *Living with*: Enter the name (last name, first name, middle initial) of the adult person with whom the proposed caretaker is living, if any. If the proposed caretaker is living alone (without any other adult in the home), leave this section blank.
- *Address*: Enter the complete address (street, apartment number, city, state, zip code) of the proposed caretaker. If the address is a rural route, include the route number of the proposed caretaker.
- *Home telephone number*: Enter the home telephone number of the proposed caretaker, including the area code. If the proposed caretaker does not have a home telephone number or a home message telephone number, enter "None" on this line.
- *Work telephone number*: Enter the work telephone number of the proposed caretaker, including the area code. If the employer does not allow the employee to receive telephone calls while on duty, specify that information beside the number. If the proposed caretaker is not employed, leave this line blank.
- *Social security number*: Enter the social security number of the proposed caretaker, if known. Otherwise, leave this line blank.
- *Relationship to child identified above*: Specify paternal or maternal to identify which side of the family is involved.

  NOTE: Consider "half" relationships the same as whole relationships (e.g., a "half-sister" is the same as a sister). Consider "step" relationships the same as if related by blood (e.g., a "stepbrother" is the same as a brother).

  A relationship "by marriage" terminates when death or divorce occurs, but if a child was born of the married parents, the relationship between the parents continues even after the marriage is dissolved.

  Termination of parental rights of a birth parent by a court severs all relationships between the child, the parent's parents, and all other relatives (either by blood or marriage).

- *Best time of day to contact caretaker*: Enter "a.m." if the best time to contact the proposed caretaker is between 8:00 a.m. and 12:00 noon (local time of the caretaker). Enter "p.m." if the best time to contact the proposed caretaker is between 12:00 noon and 5:00 p.m. (local time of the caretaker).

  Enter "evening" and specify the period if the best time to contact the proposed caretaker is after 5:00 p.m. and before 9:00 p.m. (local time of the caretaker).

- *Employer*: Enter the company name of the employer if the proposed caretaker is employed. If the proposed caretaker should not be contacted at work, indicate this fact beside the name.

- *Alternate contact name and address*: Enter the name (last name, first name, middle initial) and address (street, apartment number, rural route and box number, city, state, and zip code) of an alternate person who may be contacted in an effort to make contact with the proposed caretaker. Include the relationship of the contact person with the proposed caretaker.

Assessment of Child. This section relates to the child who will be placed with the proposed caretaker if the receiving state compact administrator recommends placement and court approval for placement is given.

It is essential to provide sufficient information so that the receiving state worker can complete an adequate assessment that will take into account the needs of the child, as well as the capacity of the proposed caretaker to provide appropriately for the child.

- *Case plan attached*: Check "yes" or "no" to indicate if the child's case plan is attached to the referral. If you have completed a case plan, you must attach it to the referral.

- *Financial/medical plan attached*: Check "yes" or "no" to indicate if the financial and the medical plans for the child are attached to the referral.

  For proposed placement with the child's parent, you may indicate that the parent is expected to assume financial and medical responsibility through private resources or public aid.

  For all other placements, you must include financial and medical plans with the referral to indicate how the proposed caretaker will meet the child's financial and medical needs.

- *Special needs*: Enter a description of all special needs, which require attention if the child is to be successfully placed with the proposed caretaker. Special needs of the child include all medical, physical, emotional, behavioral, educational, and psychological areas of functioning.

  If this information is contained elsewhere in the referral packet, enter the location for the information.

- *Handicaps: mental/physical*: Describe in detail all mental or physical handicaps which the child has and which must be taken into consideration in regard to the capability of the proposed caretaker to care for those conditions adequately. If this information is contained elsewhere in the referral packet, enter the location of the information.
- *Service needs/treatment requirements*: Enter all service needs and treatment requirements, which must be addressed in order to achieve and maintain an acceptable placement of the child.

  For each service need or treatment requirement listed, include the method by which payment for provision will be obtained, if such information is not included elsewhere in the referral (e.g., case plan, financial/medical plan, etc.).
- *School information*: If the child is under age on the date of the proposed placement, leave this section blank. If the child is aged five or older, enter the following information:
  - Name of school.
  - Grade last attended.
  - Report that includes most recent grades.
  - Whether special classroom attendance is necessary due to child being learning disabled (LD) or behaviorally disabled (BD).
  - Copies of the child's Individualized Educational Plan (IEP), if applicable.
  - Recommendations of most recent teacher, counselor, or principal regarding educational needs of child.
  - If the child is not attending school, give the reasons for nonattendance.
- *Other required pertinent information*: Check "yes" or "no" to indicate whether additional case material will be sent. If you select "yes," indicate a tentative date for submitting the additional material.
- *Worker's name*: Print your name (first name, last name).
- *Telephone number*: Enter your telephone number, including area code. If applicable, include the extension number.
- *Worker's signature*: Self-explanatory.
- *Date*: Self-explanatory.
- *Supervisor's signature*: If required by local office policy, enter the signature of your immediate supervisor.
- *Date*: Self-explanatory.
- *Telephone number*: If required by local office policy, enter your supervisor's telephone number, including area code.

Social History, Form 470-3615 or 470-3615(S)

Purpose	Form 470-3615 or 470-3615(S) provides a specific guide for completing the written social history that is required for each child in foster care.
Source	Complete this form using the templates available in SharePoint under Employee Manual/Forms. Save a copy to your My Documents.
Completion	The child's foster care worker completes the *Social History* within 60 days of the date the child enters foster care or kinship placement. Leave the child's social security number off the form until after termination of parental rights. When termination of parental rights is issued, give an updated copy of the *Social History*, form 470-3615, to the worker responsible for completing the *Social History* (if different than the child's current worker).
Distribution	Keep one copy in the child's case record. Attach a copy of the child's hospital birth records to the social history. The child's social security number is confidential and can only be shared with the foster parents, relatives, or foster care agency provider when a release has been signed by the child's parent or parents. Give a copy to the child's foster parents, relatives, and foster care agency provider along with a copy of the child's case permanency plan. **NOTE:** After termination of parental rights, include a copy in the child's adoption and guardianship file.
Data	Consult with the child's parents, relatives, and foster parents to obtain information needed to complete the social history. If the parent is unavailable or refuses to provide information, the worker completes as much as possible, using available information. AIDS/HIV information may be shared **only with written permission** of the child's parent or guardian or by order of the court.

Youth Transition Decision-Making (YTDM) Meeting Notes, Form 470-5161

Purpose	The *Youth Transition Decision-Making (YTDM) Meeting Notes*, form 470-5161, is the official youth plan developed during the YTDM meeting.
Source	Complete this form using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	The YTDM meeting facilitator engages the youth team and develops the youth's plan, with the youth, after a meeting is held.
Distribution	The facilitator disseminates the completed form to the identified team members. Keep the original form in the youth's case file.
Data	**Case Information**. Enter the following information: ▪ Youth's name ▪ Parent/caregiver name (if applicable) ▪ Parent/caregiver/noncustodial names ▪ Date of the youth transition decision-making meeting ▪ Facilitator's name ▪ Facilitator's approval number ▪ Next court hearing date and time ▪ Type of hearing **Desired Outcomes of this Meeting**. Enter the desired outcome of the meeting. **Fostering Connections**. The five fostering connections areas provide a consistent format for collecting, considering, and analyzing information about the youth. This consistency ensures that functioning areas most critically impacting health, housing, education, employment, and supportive relationships. Use of the five areas creates a common, consistent language as information about the youth flows from child protective workers to ongoing workers and service providers. The five areas provide a "common lens" through which the strengths and needs of the youth can be assessed, discussed, and used in planning and service provision. The five fostering connections areas consist of the following broad areas of functioning (each area has related subcategories): ▪ *Education*: Academic performance, graduation date, GED or high school diploma, extracurricular activities, job training options, IEP, financial aid, ACT/SAT/COMPASS tests.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 355 (Attachment 2 of 3)

- *Employment*: Transportation needs, dressing for success, vocational rehabilitation, application and interview skills, maintaining employment, resume, informal support.
- *Health*: Insurance cards (medical, dental, vision), access to a physician, medication management, SSI, physical health, hygiene, mental health, reproductive health.
- *Housing*: Safe, affordable and stable, after 18, supervised apartment living, preparation for adult living, current housing.
- *Supportive Relationships*: Aftercare, healthy family connections, peers, Iowa foster care youth council, adult services, permanency pact, community connections, mentors, church.
- *Other*: Discuss financial management, life skills, vital documents (birth certificate, Social Security card, driver's license or state picture identification, Selective Service, healthcare proxy, etc.).

  NOTE: Discuss concurrent planning and permanency goals, any interstate compact issues, child and family cultural factors, language barriers, or if the Indian Child Welfare Act applies.

Establish a goal for each applicable area where a need is identified. It is critical that goals be developed in partnership with the youth. Goal statements should be strength-based and focused on achieving the outcomes essential for the youth.

After reviewing the strengths, needs, and goals for each area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

- In each area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible,
  - What do they agree to do, and
  - By when.
- Document the date for when the goal was completed or modified.

Crisis Plan. Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

Signatures and Notifications. Enter the name of invited team members, including their role, contact information, and whether or not they attended the YTDM meeting.

Youth Transition Decision-Making (YTDM) Youth's Dream Path, Form 470-5176

Purpose

The *Youth Transition Decision-Making (YTDM) Youth's Dream Path*, form 470-5176, is the official model to use during the YTDM meeting.

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms.

Supplies of this form may also be printed from the manual or SharePoint as needed.

Completion

The YTDM meeting facilitator develops the youth's dream path, in collaboration with the youth, after a youth transition decision-making meeting is held.

Distribution

The facilitator gives a copy of the completed form to the identified team members. Keep the original form in the youth's case file.

Data

Case Information. Enter the following information:

- Youth name
- Parent/caregiver name
- Parent/caregiver/noncustodial names
- Date of the YTDM meeting
- Date of the next YTDM meeting
- Facilitator name and approval number
- Next court hearing date and time
- Type of hearing

Desired Outcome of this Meeting. Use the Dream Path as a tool for the stabilization and action planning parts of the YTDM meeting.

The Dream Path includes the stabilization phase, which identifies the five Fostering Connection areas that need to be addressed and stabilized in the first column.

The five Fostering Connections areas are:

- Education
- Employment
- Health
- Housing
- Supportive Relationships

Complete the stabilization section of the YTDM youth plan by working through each of the five fostering connections categories from left to right. The far left column is available to write the current or 'Now" situation for the youth. Under the column, "What will happen," establish a goal for each applicable area where a need is identified. It is critical that goals be developed in partnership with the youth. Goal statements should be strength-based and focused on achieving the outcomes essential for the youth.

AMERICAN OVERSIGHT

After reviewing the strengths, needs, and goals for each area, identify the "Who will help me" (services or supports that may be helpful) to achieving the goals.

In each category list the action steps needed to achieve the goal. The steps should clearly identify:

- If youth is in agreement;
- Who is responsible;
- What do they agree to do; and
- By when, which is documented under either the 0 to 3 months column or the 4 to 9 months column.

Crisis Plan (Plan B). Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

To move into the Dream Path phase. Each YTDM meeting begins with a review of the five Fostering Connections areas to determine if changes or adaptations need to be made. Once the youth has achieved stability, the longer range planning can begin. Review the 'Dream' written in the 'cloud' on the far right of the document and determine the steps to head in that direction. Develop action plans with a six to nine months' time frame.

Each additional meeting of the team can look ahead further. The youth will be fully listened to and have input every step of the way. If there is disagreement, take the time to discuss the issue and resolve it before moving forward.

Each meeting covers strengths of the youth and a review of the previous assignments. Establish a new Crisis Plan (Plan B) at each meeting as well. Completion of the YTDM meeting process is determined by the youth and the team. It can continue informally after the youth ages out of the system, if desired.

Hello everyone. Based on our discussion today, we need to have more discussion about what's happening with the caseload count data being reported for title IV-E Foster Care Candidates (not Prevention Plan candidates) and children in title IV-E FC placements for Iowa's CB-496 reports. As noted, there is a significant discrepancy between what's being reported for caseload counts in both populations across administration claiming (Case Planning and Management Administration vs. Independent Legal Representation) where it should be comparable (see attached spreadsheet). From what David shared, the Case Planning and Management Administration caseload data is pulled from DHHS sources and the Independent Legal Representation data is entered on the form as reported by the State Public Defender's office.

I am also sharing Children's Bureau policy guidance pertaining to Title IV-E candidates for foster care found in the CB Child Welfare Policy Manual online. During the call today, I was referencing Question 2 found in this section but I encourage you to review any/all questions as you see necessary.
https://acf.hhs.gov/cwpm/public_html/programs/cb/laws_policies/laws/cwpm/policy_dsp.jsp?citID=79

Wendy Sheetz and I had a conversation about these candidates last Spring and she shared a reference to Iowa's Employee Manual 18-Appendix. It's on page 119 (see attached).

If I missed sharing anything that you anticipated seeing, please let me know and I will share.

As you know, I will be in Des Moines (at the 525 SW 5th Street Building) next week on Monday and Tuesday but I can drive to another location as well. If you are available, I have time on Monday (3/11) between 11AM-1PM and then again at 3PM. I also have time on Tuesday morning before 10:30AM. If those dates/times won't work, we can revisit dates/times for a Teams call just let me know.

Thank you!

Adoption Subsidy Agreement, Form 470-0749 or 470-0749(S)

Purpose

Form 470-0749 or 470-0749(S) serves as the agreement between the Department and the adoptive parents.

Source

Department staff may complete the English or Spanish version of this form using the template available in SharePoint under Employee Manual/Forms.

Department staff may also print the English and Spanish versions of this form from the manual or SharePoint.

Completion

The adoption worker prepares a separate agreement for each child. Each adoptive parent, the adoption worker, and the service area manager or designee must sign the agreement.

An agreement for presubsidy may be completed at any time during the adoptive placement, but must be completed before the adoption. No payments can be made before the subsidy agreement is completed and signed by the Department and the parents.

Prepare the agreement before finalizing the adoption and whenever modifying the agreement.

Distribution

After obtaining all signatures, distribution is as follows:

- Keep one copy in the subsidy file.
- Give one copy to the adoptive parents.
- Provide one copy to the adoptive parents' attorney or to the court to be included with the petition to adopt.

For revisions, keep the original in the subsidy file and give a copy to the adoptive parents.

Data

The form identifies:

- The type of agreement (presubsidy, subsidy or future needs).
- The parties to agreement (the Department and the parents).
- The eligibility criteria of the child.
- A summary of the benefits agreed to:
  - The adoption subsidy maintenance payment.
  - The child's IV-E status and effective date.
  - The non-recurring expenses related to the finalization of the adoption.
  - Any special services, the amount, and the reason for the service.

Each agreement must be signed and dated by the adoptive parents, the adoption worker, and the service area manager or designee. Enter the date a copy of the agreement was provided to the adoptive parents.

Agreement of Placement for Adoption, Form 470-0761 or 470-0761(S)

Purpose	The purpose of forms 470-0761 and 470-0761(S) is to set the conditions under which a child is placed in an adoptive home.
Source	DHS workers can complete either the English or the Spanish version of this form using the templates available in SharePoint under Employee Manual/Forms.
Completion	The adoption worker prepares an original and one copy of the *Agreement of Placement for Adoption* on the day of placement. The form requires the signature of each adoptive parent. Since guardianship is with the Department, the adoption worker and the service area manager or designee from the receiving service area also sign the form. When an adoptive placement is made when the termination of the birth parents' parental rights is under appeal, complete section IV and fully explain the implications of this situation to the adoptive family. ▪ Emphasize the fact that the adoption cannot be finalized until the appellate decision is made. ▪ Explain that there is a possibility that the child could be removed from care in the adoptive home if the termination decision is overturned on appeal.
Distribution	Give one copy to the adoptive parents, put one copy in the child's adoption file, and put one copy in the adoptive parent's file.
Data	Indicate that the family will pay the cost of medical care for the child unless the placement is in anticipation of a subsidized adoption. When subsidy is anticipated, indicate that the cost is a shared responsibility of the Department and the family. If termination of parental rights is under appeal at the time of placement, when you receive a copy of the procedendo, enter the appellate decision and date at the bottom of the form, and inform the adoptive family of the decision.

Purpose

Forms 470-0615 and 470-0615(S) collect information needed to determine eligibility for social services and IV-A-funded emergency assistance services and record the Department's determination of IV-A eligibility.

Source

Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

Print the Spanish version of this form from the manual or SharePoint.

Completion

Prepare an original and one copy of this form when:

- A referral for service is made after an abuse assessment (unless an application is already on file).
- A decision is made to provide one or more of the following services:
  - Family-centered services
  - Protective child care
  - Shelter care (unless placement is less than 48 hours)
  - Foster family care
  - Foster group care
  - Supervised apartment living foster care

  This application is not required for PMIC placements.
- A person wishes to apply for services that are not court-ordered.
- When eligibility redetermination is necessary for one of the services listed above (every 12 months for IV-A eligibility and every 6 months for voluntary case reviews).

Child welfare services require Part A of the application to be done initially, and either Part A or a court order to be done every six months thereafter. Part B of the application is required to be completed initially and reviewed annually for IV-A-funded services.

Complete the application for IV-A purposes regardless of whether services are court-ordered.

The Department worker completes the form with the applicant. The completed application must have the signature of a Department worker certifying approval of eligibility at the bottom of Part B.

The application covers all members of a family when their services are recorded in one case record. Sign and date the application on the day it is received.

Complete the name and the address of the family's legal residence.

Application for Foster Care and Subsidized Adoption Medicaid, Form 470-5535 or 470-5535(S)

Purpose	The *Application for Foster Care and Subsidized Adoption Medicaid* is designed to assist people applying for health care coverage for a child living in Iowa in a foster care or subsidized adoption placement.
Source	The English version of this form is printed with 25 sets on a pad. Order supplies from Iowa Prison Industries at Anamosa. The English and Spanish versions of this form are available as a fillable PDF on the Department's website. DHS workers may also complete the fillable PDF in SharePoint under Employee Manual/Forms.
Completion	Complete the fillable PDF online, or mail or give the *Application for Foster Care and Subsidized Adoption Medicaid* to a person applying for a child living in Iowa in a foster care or subsidized adoption placement. The applicant or an adult acting on a child's behalf completes the form. A friend, relative, authorized representative, or DHS/JCO staff may help, if needed. When the applicant is a child, the application must be signed by a parent, stepparent, or other adult in the home who has primary responsibility for the child's care, if applicable. If there is a guardian or other responsible person, the guardian or responsible person participates in completing the form and signs for the child. See 8-B, *Information Provided* for a list of pamphlets to provide with the Application for Foster Care and Subsidized Adoption Medicaid.
Distribution	If the client wants a copy of the application, photocopy the form for the client. When a person does not file the application at a DHS office, and the person also requests Medicaid, the originating agency routes the original to the DHS office responsible for the applicant's county of residence within two working days of receipt. The originating agency photocopies the application for their files.
Data	Date-stamp the original application before faxing or mailing the photocopy of the form to another agency. For the purpose of Medicaid, the application date is the date the originating agency received the application.

Application for Health Coverage and Help Paying Costs, 470-5170 or 470-5170(S)

Purpose	Forms 470-5170 and 470-5170(S) are used to apply for State Supplementary Assistance programs and Medicaid. The information contained on the application is used to determine eligibility for assistance.
Source	Central Office has a contract to provide automatic shipments of form 470-5170 to local offices. The shipments are intended to cover a six-month supply. Additional supplies of form 470-5170 are also available through Central Office. DHS staff may complete this form using the templates available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	Provide or mail the form to the applicant when assistance is requested. The client completes the form or may enlist help in preparing the form. If the client is mentally incompetent, the form may be completed by a relative, a person in whose home the client resides, or by the DHS service worker. The client must sign the form unless mentally or physically unable to do so. If the client is mentally competent but unable to sign the application form, an "X" or a thumbprint may be used if witnessed by two persons who know the client. If the application is not complete when it is filed, it must be fully completed upon the interview with the client or representative.
Distribution	The client submits one copy of the form to the local office. Date-stamp the completed application before sending it to the income maintenance worker. Provide a copy for the client upon request. **NOTE:** The form is kept in the income maintenance case record. A copy of the form is not required to be kept in the DHS service case file.
Data	The form requests information necessary to determine State Supplementary Assistance and Medicaid eligibility.

Authorization to Obtain or Release Health Care Information, Form 470-3951 or 470-3951(S)

Purpose

Forms 470-3951 and 470-3951(S) are two-way release forms used to get the permission of a client or a family that wishes to be certified as a family-life home to obtain health information needed to:

- Determine a family's eligibility to be certified, or
- Provide service to a client; and
- Release health information about the client to the registered nurse and the provider family.

Source

The English version of this form is printed in pads of 25 three-part precarboned sets. Order supplies from Iowa Prison Industries at Anamosa.

DHS staff may complete the English version of this form using the template available in SharePoint under Employee Manual/Forms. Supplies of this from may also be printed from the manual or SharePoint.

Completion

Complete this form when first meeting with a new client or prospective provider. Complete the identifying information and description of the information being requested or released. Complete one form for each member of the provider family.

The person or the person's personal or legal representative signs the section to give the authorization. Discuss the authorization and explanation paragraph regarding the use of the form and answer any questions raised. Make sure that the person understands the right to revoke the authorization at any time by completing form 470-3949, *Request to End an Authorization*. Explain the consequences of failure to sign the form.

Distribution

For the client, send one copy to the registered nurse with a self-addressed, stamped envelope enclosed when you request the physician's plan of care and nurse's provider instructions.

For the provider, send one copy for each family member to take to the family member's health care provider with form 470-0672, *Provider Health Assessment*.

Keep one copy of the form in the client's case file. The client and provider keep the third copy.

Data

When initiating the form enter:

- The person's name, state identification number (if any), social security number, date of birth, and parent's or guardian's name, if applicable.
- Your name, address, telephone number, and fax number in the first set of agency information.
- The name or the agency to which the information is being released, or from which the information is being requested, and the agency's address, telephone number, and fax number.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

- In "the information released or shared may include" section, check the applicable boxes. If the "other" box is checked, describe the specific information being requested.
- Describe any exceptions or limitations under "other." Sample entry: "The Department may obtain information from, but not release information to, the client's daughter."
- State the purpose for which the information will be used.
- In the "SPECIFIC AUTHORIZATION FOR RELEASE" section, secure the initials of the person or the person's legal representative if mental health, AIDS/HIV-related, or substance abuse information is to be obtained or released.

  NOTE: Only the person or the person's legally authorized representative can give consent to release or obtain mental health and AIDS/HIV-related information. Only the person can give consent to release or obtain substance abuse information.

  "Mental health evaluation/treatment" means oral, written, or recorded information that indicates the identity of a person receiving professional services and which relates to the diagnosis, course, or treatment or the person's mental or emotional condition.

  "AIDS" means a medical diagnosis of acquired immunodeficiency syndrome, based on the Center for Disease Control's "Revision of the CDC Surveillance Case Definition for Acquired Immunodeficiency Syndrome."

  "HIV-related" means a medical diagnosis of human immunodeficiency virus infection based on a positive HIV-related test.

  "Substance abuse" means the use of chemical substances by persons suffering from chemical dependency, persons who are incapacitated by a chemical substance, substance abusers, or chronic substance abusers.
- Ask the person to sign and date the form and enter a date when the authorization is to expire.
- Check the applicable box indicating the relationship of the person who signs the form to the person the information is concerning.
- Obtain the signature of two witnesses for people who are incapable of signing their name due to a physical or mental disability.

To use the form as the required documentation for the disclosure of mental health information, document on the back of the form kept in the case file:

- The date.
- The name of recipient of information.
- The information disclosed.
- The name of the person who disclosed the information.

Casey Life Skills Assessment, Form 470-5701

Purpose:

Form 470-5701 is used to ensure children in foster care age 14 and older are assessed for life skills which are necessary for successful transition to adulthood. When a child in foster care is age 14 or older, provide form 470-5701 Casey Life Skills Assessment to the caretaker of a child in a family setting or in a shelter and ensure the assessment is completed with the child. Repeat completion of the CLSA at the child's ages 14, 16, and 18 or more frequently as needed.

For children in QRTP or Supervised Apartment Living, the assessment will be completed by the provider and sent to the case manager within 10 days of the child's 14th, 16th, and 18th birthdays.

Explain the reason for the assessment to the child and caregivers and ensure the assessment is completed, kept in the case file, and utilized to inform the transition planning process.

Form 470-5701 is available as a fillable PDF on the Department's website. DHS workers may also download the fillable PDF from SharePoint under Employee Manual/Forms, or print from this manual.

Completion

The social work case manager completes the form with the child or ensures a caregiver and the child complete the form:

- When a child age 14 or older has entered foster care, or
- When the child reaches age 14, 16, 18 and other times as needed.

Federal policy requires a life skills assessment shall be administered to all children in foster care who are aged 14 or older, regardless of adjudication status or whether payment is made to the caregiver. In Iowa, that assessment is the Casey Life Skills Assessment (CLSA).

Distribution

Explain the reason for the assessment to the child and caregivers and ensure the assessment is completed, kept in the case file, and utilized to inform the transition planning process. Use the results of the CLSA to complete an overall assessment of the child and document it in the transition plan in the Part C section of the Family Case Plan.

Child Protective Services Child Abuse Assessment Summary, Form 470-3240

Purpose

Form 470-3240 provides identifying information about the child subject and the household in which the child subject resides. This summary addresses abuse reported and assigned to the Child Abuse Assessment pathway.

The form assesses the child subject's safety when an evaluation of the reported incident is conducted. The form also documents the assessment of the family's needs and strengths, and recommendations for services or court intervention as indicated.

The form also addresses the determination of whether abuse occurred. If abuse is confirmed, the summary identifies the person responsible for the abuse and indicates whether the incident requires placement on the Central Abuse Registry.

Source

This form is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.

Completion

The child protection worker completes this form in JARVIS with approval and sign-off by the supervisor.

Distribution

After supervisory approval in JARVIS, the form is mailed via Central Printing with the *Notice of Child Abuse Assessment* to:

- The child being assessed, and
- The child's custodial and noncustodial parents or guardian, and
- All other subjects.

The county attorney and juvenile court have access through the portal.

For reports placed on the Central Abuse Registry only, provide the summary to the mandatory reporter who made the report upon completion of a request for child abuse information.

Data

If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS:

- Report Information. List case names, address, phone numbers, incident number, completion date, addendum date (if applicable), intake date, child protection worker, and county name/county number.
- Assessment Findings
- Safety Assessment Findings. The safety assessment findings are pulled from the *Safety Assessment* completed through the Safety Assessment tab of the STAR Assessment module in JARVIS.
- Household Composition

- Non-Custodial Parent
- Others Involved in the Assessment – Not in Household
- Person Determined Responsible for the Abuse. Completed only if abuse is confirmed.
- Intake Allegation Type
- Concerns Reported
- Summary of Previously Confirmed or Founded Reports Concerning Person Alleged Responsible. If the victim on a prior report is not a subject of the current report, the victim's name will be displayed as "confidential."

  When parental rights have been terminated and a child abuse incident occurred before the termination, the parents' names will be displayed as "biological parents."
- Summary of Assessment Process. Enter the dates in which the child or children were observed, as well as, a justification explanation if child observed outside of assigned timeframes. Also enter:
  - The dates the custodial and non-custodial (if applicable) parents were interviewed,
  - The date the evaluation of the home environment was completed, and
  - The dates the safety assessments, safety plans (if applicable), and risk assessment were completed.

  Provide additional information regarding:
  - ICWA/Native American heritage information,
  - Dates and time contacts were attempted if there is difficulty in meeting observation timeframes,
  - Supervisory approval if contact is delayed, and
  - The date and time of supervisory safety decision check back.
- Summary of Contacts. Include in this section:
  - Whether confidential access was used and your rationale and justification according to policy for using confidential access (if applicable).
  - A list of people you contacted in conducting the assessment (subjects, family members, and other collateral sources) and their role or position with the child or family.
  - Date, time, and type of contact and the contact name, location, and phone.
  - The date and time you observed the child subject or your efforts to observe the child.

- Your rationale for delaying observation of the child beyond the assigned timeframe or for not observing the child (if applicable).
- Physical evidence pertaining to the abuse allegations.
- Identification of those interviewed and a summary of their remarks.
- Your efforts to locate and interview the person alleged to be responsible for the abuse, if unavailable while conducting the assessment.
- Documents requested and examined pertaining to the abuse allegations.
- Relevant information from any previous Department contact with the child or family, including information obtained from child abuse Registry checks and Department case files.
- Findings from other states, if the family has lived elsewhere.
- If denial of critical care, physical abuse, or presence of illegal drugs in a child's body is founded, the last contact must include a determination of child death or serious injury. Document whether the abuse DID or DID NOT result in the death or serious injury of a child based on the credible evidence available. This determination impacts whether or not the name of the person responsible is eligible for removal from the registry after five years.

▪ Summary of Contacts Addendum. When you reasonably believe that additional pertinent information will be available or additional relevant contacts will be made, indicate on the summary that you will complete an addendum.

  Complete the "Summary of Contacts" related to the addendum when additional information is received. This field appears only if an addendum is in progress.

  If denial of critical care, physical abuse, or presence of illegal drugs in a child's body is founded, the last contact must include a determination of child death or serious injury. Document whether the abuse DID or DID NOT result in the death or serious injury of a child based on the credible evidence available. This determination impacts whether or not the name of the person responsible is eligible for removal from the registry after five years.

▪ Findings and Determination of Abuse Allegations. Determine if abuse occurred.

  - List the factors that must be proven for each type of abuse and state your conclusions and rationale.
  - Enter your finding of not confirmed, confirmed, or founded.

- Placement on Registry and Justification. For Registry placement, you must document the existence of one or more necessary circumstances that require placement of the report on the Registry.

  For confirmed reports that are not placed on the Registry, document the justification for nonplacement by describing how the information supports that the finding was minor AND isolated AND unlikely to reoccur.

  NOTE: Reports that may be confirmed but not placed on the Registry are confirmed reports of denial of critical care through lack of supervision or lack of adequate clothing, or physical abuse that has been determined to be minor, isolated, and unlikely to reoccur according to policy.

  For not confirmed reports, document what factor of abuse was not evidenced.
- Safety Assessment Summary.

  Provide a narrative description of the current factors influencing child vulnerability (conditions resulting in a child being more vulnerable to danger).

  Provide a narrative description of the current danger indicators you identified (behaviors or conditions that describe a child being in imminent danger of serious harm). If no danger indicators were identified, please provide your rationale.

  Provide a narrative description of the caretaker's capacities and safety interventions that have been taken and how each protected or protects the child from the identified danger indicators.

- Summary and Analysis of Safety/Risk Assessments.

  Provide a narrative description of the family safety concerns by addressing the following:

  - Given the child(ren)'s level of vulnerability, what are the concerns and/or threats of danger in everyday life of the family? What everyday family life issues need to be better managed (i.e. new plan for discipline, safe home environment, more rigorous supervision, proper nutrition, etc.) to ensure child safety and well-being.

  Provide a narrative description of individual parent/caretaker concerns by addressing the following:

  - Describe what individual issues parents/caretakers have that need to be better managed or replaced so that the family tasks can go better (i.e. new plans for managing anger/control issues, improving emotional stability, stopping or limiting use of substances, managing sexual behavior, etc.) and what kind of new plan needs to be in place to ensure child safety and well-being.

  Provide a narrative description of family consensus regarding safety concerns by addressing the following:

  - What is the level of consensus with the family regarding the safety concerns and/or threats of danger described above?

- Addendum to Safety Assessment Summary. Use this section to update or edit the Safety Assessment Summary, based off the last Safety Assessment completed. This field appears only in addendum status.
- Addendum to Analysis of Safety/Risk Assessments. Use this section to update or edit the assessment after completion of the original report. This field appears only if in addendum status.
- Final Risk Level. The neglect, abuse, and scored risk levels are pulled in from the *Family Risk Assessment* completed through the Family Risk Assessment tab of the STAR Assessment module in JARVIS. If the *Family Risk Assessment* has not been completed, levels will not appear in these three sections.

  The final risk level is used to determine what the client's service eligibility is in based on findings, age, and risk.

  Review and consider information gathered from child and family interviews, collateral contacts, Department service records, and all prior assessments.

- Recommendation for Service. The finding of the child abuse assessment and the family risk score determine the family's eligibility for information or information and referral, non-agency voluntary services, or Department services.

When the family is being referred to non-agency voluntary services, document the actions developed jointly with the family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of family functioning:

- Consider if there are current resources, services, and supports available to the family that can meet the family's needs and increase protection for the child.
- Identify services and supports provided to the family that have failed to prevent the child's abuse or reabuse.
- Consider if caretakers refuse needed services or supports despite protective concerns, increasing children's risk.
- Document your recommendation for services.

When the family is eligible for non-agency voluntary services, but is not being referred, indicate the exception reason.

When the family is being referred for Department services, identify the prevention services to meet the foster care prevention strategy and describe what that prevention strategy is.

When the family is eligible for Department services, but is not being referred, indicate the exception reason.

Document any additional service information that is needed.

- Recommendations for Court Involvement. Enter your recommendations for juvenile or criminal court involvement.
  - If you recommend juvenile court involvement, include:
    - A summary of the status of any current juvenile court involvement if the child is already adjudicated or adjudication is pending.
    - Your specific recommendations to the county attorney on the initiation or continuation of juvenile court action.
    - Your rationale to support that recommendation (e.g., family with founded abuse has refused offer of Department services).
  - If you do not recommend juvenile court involvement, include under "Type of Action Requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was not confirmed, or was confirmed or founded but low-risk).
  - If you recommend criminal court involvement, include:
    - Reference to any joint assessment with law enforcement.
    - The status of the criminal investigation when charges have already been filed in a matter.

Child Protective Services Family Assessment Summary, Form 470-5371

Purpose	Form 470-5371 provides identifying information about the child subject and the household in which the child subject resides. This summary addresses abuse reported and assigned to the Family Assessment pathway. The form assesses the child subject's safety when an evaluation of the reported incident is conducted. The form also documents the assessment of the family's needs and strengths, and recommendations for services or court intervention as indicated.
Source	This form 470-5371 is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.
Completion	The child protection worker completes this form in JARVIS with approval and sign-off by the supervisor.
Distribution	After supervisory approval in JARVIS, the form is mailed via Central Printing with the *Notice of Family Assessment Recommendation* to: ▪ The child being assessed and ▪ The child's custodial and noncustodial parents or guardian. The county attorney and juvenile court do not have access to the *Family Assessment Summary* through the portal. The *Family Assessment Summary* may be provided upon request for a Child In Need of Assistance petition or upon written request, in accordance with Iowa Code section 217.30.
Data	If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS: ▪ Report Information. List case names, address, phone numbers, incident number, child protection worker, county name/county number, intake date, and completion date. ▪ Safety Assessment Findings. The safety assessment findings are pulled from the *Safety Assessment* completed through the Safety Assessment tab of the STAR Assessment module in JARVIS. ▪ Household Composition ▪ Non-Custodial Parent ▪ Others Involved in the Assessment – Not in Household ▪ Concerns Reported

  - ICWA/Native American heritage information,
  - Dates and time contacts were attempted if there is difficulty in meeting observation timeframes,
  - Supervisory approval if contact is delayed, and
  - The date and time of supervisory safety decision check back.
- Whether confidential access was used and your rationale and justification according to policy for using confidential access, if applicable.
- Assessment of Family Functioning Domain Criteria. The *Family Functioning Domain Criteria* form makes up the main content of the Family Assessment Summary. The family's strengths and needs are identified using the family functioning domains:
  - Child Well-Being
  - Parental Capabilities (includes use of drugs or alcohol)
  - Family Safety (includes domestic violence)
  - Family Interactions
  - Home Environment

  Provide general narrative documenting observations of strengths and needs or challenges under each specific subsection that applies to the family. It is not necessary to address every item listed. Address items that are relevant to the given situation. You are not limited to only the items listed.

  Protected sections that can be suppressed before printing are available to list any child specific statements or information regarding parent's physical health, mental health, or substance abuse.

  Also identify in this section:
  - Whether confidential access was used and your rationale and justification according to policy for using confidential access (if applicable).

Child Protective Services Intake, Form 470-0607

Purpose	Form 470-0607 documents information provided in a report of suspected child abuse and the Department's response to the report. It may also be used to gather information for a CINA intake.
Source	The form is available on the STAR Intake module in JARVIS.
Completion	The intake worker who receives the initial report of suspected child abuse or CINA intake completes this form on each referral, whether or not the referral is accepted for assessment.
Distribution	The intake is maintained on the STAR Intake module in JARVIS. If accepted, send a copy to the appropriate service area for assignment and to any Department personnel who needs the information. If rejected, send to any Department personnel who needs the information. If a criminal act harming a child is alleged, send to the appropriate law enforcement agency. The county attorney and juvenile court have access through the portal.
Data	*Date*: Enter the date you received the report of suspected child abuse or CINA. *Time*: Enter the time you received the report of child abuse or CINA intake using a 12-hour clock with "A.M." or "P.M." as needed. *County Name/County #*: Enter the county name and number. *Intake Person*: Enter the name or worker number of the person conducting the intake. *Assigned Worker*: Enter the name or worker number of the person assigned to complete the assessment if accepted. *Incident #*: Enter the number assigned by the STAR system. *Household Name and Address*: Enter the address for the residence of the child subject's family, whether or not the child currently resides there. Enter the zip code and county, if known. If the child has no family, enter the child's most recent address, if known. If the location of the household is unknown or unavailable at intake, enter "unknown." Out-of-state addresses may be entered. *Directions to Home*: If the child has no family, enter the child's most recent address, if known. Telephones: Enter household telephone numbers including area code and any other contact phone numbers.

Current Location of Child Subject: If a child named as a subject is living outside the home, enter the name and address of the family or institution where the child is residing at the time of intake. If you gave the child's placement address as the household address, you need not reenter it.

Household Composition: Enter the name of each person residing in the household with the child subject. Complete this section as fully as possible, using the codes provided. STAR requires a numeric entry in the social security field.

Non-Custodial Parent: Enter the name, date of birth of noncustodial parent, relationship of the noncustodial parent, social security number, FACS ID, address, phone number, and name of the noncustodial parent's child.

Use the "Comments" section to indicate the parent's workplace or any other information determined to be pertinent to the intake. Access ICAR as necessary.

Reporter or Referral Source: Enter the name, including title, agency, address, and phone number of the reporter or referral source, if known. Check the box that indicates the reporter type and reporter notification. Enter the date of notice.

Person Reported as Responsible for Alleged Abuse: Enter the name, date of birth, relationship to child, social security number, FACS ID, address, and phone numbers.

Use the "Comments" section to indicate the person's workplace or any other information determined to be pertinent to the intake. **NOTE:** This information is not required on a CINA intake.

Collateral Sources: Enter the name, phone number, relationship of the collateral source to the child, and address of collateral sources identified by the reporter or the intake worker.

Allegations Abuse Type: Check all applicable abuse types alleged.

Narrative Description/Child Safety Concern: Enter the reported information in this section. Whenever possible, use the words of the reporter.

Summarize all allegations and other information needed to determine whether the referral provides information sufficient to justify a child protective assessment or a CINA assessment. All cases accepted for a child protective assessment must clearly state that the three criteria have been met.

Additional Information: Include information learned from the results of checks of the databases in this section. Provide as much information as is known about the list of additional questions/topics as well as any other additional information that may be relevant to the assessment. Include information from additional reporters.

Child Study, Form 470-3698

Purpose	Form 470-3698 provides a specific guide for completing the written child study report for each child whose parental rights have been terminated.
Source	Complete this form using the template available in SharePoint under Employee Manual/Forms.
Completion	Within 30 days of issuing the child's termination of parental rights order, the child's foster care worker or adoptive worker completes the *Child Study*. The worker completing the study is determined by service area protocol. (Remember to update FACS on the termination as well, to notify the Foster Care Recovery Unit.) Get an updated copy of the *Social History*, form 470-3615, if the worker responsible for completing the *Child Study* is different from the past worker. Update the *Child Study* annually for children with termination of parental rights who have not been placed for adoption.
Distribution	Keep one copy in the child's adoption record and guardianship file. Also give a copy to the child's foster care provider and prospective adoptive parents along with a copy of the child's case permanency plan.
Data	Attachments to the child study shall include: ▪ Hospital birth records ▪ A current photo of the child ▪ Current case plan ▪ Immunization record ▪ Current physical, psychiatric, psychological, school, and provider reports

Child Welfare Multidisciplinary Team (MDT) Agreement, Form 470-2328

Purpose	The purpose of form 470-2328 is to formulate an agreement between the Department and various individuals and agencies for consultation during the course of abuse assessments to discuss assessment, diagnosis, coordination of services, possible referrals, and disposition. Multidisciplinary teams (MDTs) will be convened at the Department's request during the course of an assessment or evaluation. No case specific information can be discussed outside the scope of the abuse assessment and evaluation.
Source	Complete this form (except for signatures) using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	All parties of the multidisciplinary team must sign during the formulation of a multidisciplinary team and before the dissemination of any individual dependent adult abuse information. Any ad hoc members whose participation has been approved by the Department, must sign each and every time they attend the meeting. The form is considered complete and the team is considered approved by the service area manager or designee as evidenced by signature on form 470-2328. Each agreement must be signed again by all parties at least annually on or before July 1 of each year with final approval by the service area administrator or designee.
Distribution	The service area administrator or designee keeps one copy, sends one copy to Central Office, and gives a copy to each team member.
Data	Complete the name of the team members and the date of the agreement. Additional lines may be added for the signature of team members.

Consent to Obtain and Release Information, Form 470-0429 or 470-0429(S)

Purpose

Form 470-0429 is designed to get the permission of the client or the client's legally authorized representative to:

- Release information about the client to a third party.
- Obtain information needed to provide service to the client.

The Department uses this form to secure or release non-health-related information for purposes of determining a client's eligibility for services. See *Authorization to Obtain or Release Health Care Information*, Form 470-3951 or 470-3951(S) for information used to authorize exchange of health care information.

Staff from a county case management or central point of coordination office (a county worker) may also use this form.

Source

Department workers may complete the English or Spanish form using the template available in SharePoint under Employee Manual/Forms.

Completion

The Department or county worker prepares the form and secures the signature of the client or the client's representative:

- At the initial request for services.
- When the current authorization expires.
- When new services are added to the client's plan.

Distribution

File the original in the case record. Give a copy to the client or the client's representative. Provide a photocopy to each person or agency authorized to share information.

Data

Enter the requested identifying information at the top of the form. Check the applicable box to identify whether a Department worker or a county worker is preparing the form. For a county worker, also enter the name of the county.

List each person or agency authorized to share information with or receive information from the Department or the identified county. In the box to the right of the list, enter the name, phone number, and address of the Department or county worker who is to receive the information.

Describe any exceptions or limitations under **Other**. Sample entry: DHS may obtain information from but not release information to Heartland AEA.

Enter the expiration date if it is other than "*upon termination of services*."

Dependent Adult Assessment Tool, Form 470-4841

Purpose

Form 470-4841 is a three-part tool used to assess a dependent adult's *degree of dependency*, as well as, to analyze safety and risk. Complete an assessment of safety, dependency, and risk on every alleged victim for whom an evaluation or assessment is conducted.

Source

Complete the assessment tool online in DARES under each tab, respectively labeled "Safety Assessment," "Dependency Assessment," and "Risk Assessment."

This form may also be printed from "My Links" in JARVIS and entered into DARES later.

Completion

The adult protective worker must complete the *Safety Assessment* portion:

- Within 24 hours of the first contact with the adult subject, and
- Before closing the adult protective evaluation or assessment.

The adult protective worker must complete the *Dependency Assessment* portion before the end of the dependent adult protective evaluation or assessment.

The adult protective worker must complete the *Risk Assessment* portions before the end of the dependent adult protective evaluation or assessment.

Distribution

The *Dependent Adult Assessment Tool* is not distributed as part of the *Dependent Adult Protective Services Evaluation or Assessment Summary*. Print the *Dependent Adult Assessment Tool* and keep it in the case file.

Data

Asterisked (*) items are generated by the DARES database if the information has been entered into DARES. The adult subject's name, date of birth, age, form of alleged maltreatment, and caretaker, if applicable, are pulled from household composition.

Safety Assessment (Initial and Final)

If any of 2 through 6 are **No** or 7 through 14 are **Yes**, assist the adult subject, caretaker, service providers, and support system to take steps to alleviate the safety issues. This may be done by:

- Obtaining medical care or placement,
- Engaging additional formal and informal supports,
- Safety planning,
- Use of law enforcement, or
- Seeking legal intervention.

DARES will narrow the results of the safety decision in compliance with the scoring instructions. Only the subsequent safety status score is pulled from

DARES and populates into form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

AMERICAN OVERSIGHT

Initial Safety Decision

Check the box to indicate your determination as to whether the dependent adult is "safe," "conditionally safe," "unsafe," or "unable to remediate safety concerns." When selecting "unable to remediate safety concerns," the adult protective worker must select one of the following reasons why:

- Protective order requested but not granted.
- Dependent adult has the capacity to consent and is refusing services.
- Dependent adult has accepted some, but not all of the recommended services.
- Other. If selecting other, please provide a brief explanation.

Dependency Assessment

Health conditions and diagnoses: Enter medical information. Document the overall condition of the adult, any existing allergies, and behavioral indicators or observations of health.

Medications: Enter all the adult's medications.

Current services: Enter **Yes** or **No** for each question. Use "Other" for services not represented on the list. Explain all other services not on the list.

Cognitive impairments: Enter **Yes** or **No** for each question. Completing IQ is optional. Explain any temporary conditions.

Cognitive screening: Enter the type of mental status screening tool conducted. If the mental status screening tool used by the adult protective worker or other qualified professional is not represented in the list, select "other." List the score and what the score means pertaining to the adult subject's cognition. Screening will allow the adult protective worker to determine if the adult subject needs a more comprehensive assessment on capacity to consent.

Physical impairments: Enter **Yes** or **No** for each question. Explain if necessary.

Katz (Activities of Daily Living) (ADL): The Katz Index ranks adequacy of performance in the six functions of *bathing, dressing, toileting, transferring, continence, and feeding*. Clients are scored for independence in each of the six functions.

Each category has a check box. DARES calculates the score. Completion of all questions is required. A score of six indicates full function; four indicates moderate impairment; and two or less indicates severe functional impairment.

Lawton – Brody Instrumental Activities of Daily Living Scale (IADL): The IADL is an appropriate instrument to assess independent living skills. These skills are considered more complex than the basic activities of daily living as measured by the Katz Index.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010204

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

The instrument is most useful for identifying how a person is functioning now and identifying improvement or deterioration over time. There are eight domains of function measured with the Lawton IADL scale.

To obtain a score for each category, check the box for the item description that most closely resembles the client's highest independence level. Each category requires one box to be checked. The total score ranges from zero which indicates low functioning to eight which indicates high functioning.

ConsultGeriRN website: https://zhangnandi.com/about/news-publications/news/2008/january/introducing_consultgerirnorg.html

Summary of dependency status: Determine if the information collected through the dependency portion of your assessment indicates the adult subject (alleged victim) is dependent.

Use the narrative to summarize the evidence gathered through the dependency assessment to support or refute that the adult subject is a dependent adult. A diagnosis or level of care alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the "Summary of dependency status" narrative is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Adult Subject Risk of Abuse or Neglect Assessment

The risk assessment must be completed by the conclusion of the assessment or evaluation.

The scored risk levels are pulled from the risk assessment of the adult subject and the alleged person responsible that are completed through DARES for the incident. If the risk assessments have not been completed, levels will not appear in the printed version.

The final risk level score is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*, under "Final Risk Level." The DARES system uses this score to determine what the client's periodic visit eligibility is based on, age, dependency status, mitigating interventions, and risk level.

Summary and Analysis of Safety Constructs Narrative

- Describe the threats of maltreatment that are present at this time (i.e., aggravating factors that combine to produce a potentially dangerous situation).

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010205

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

- Describe the adult subject's vulnerability to maltreatment (i.e., the degree that the adult subject cannot on the adult's own avoid, negate, or minimize the impact of present or impending danger).
- Describe the adult subject and caretaker or alleged person responsible protective capacities (i.e., family, household, or support system strengths or resources that reduce, control, or prevent threats of maltreatment from arising and the factors and deficiencies that have a negative impact on the adult subject's safety).

Policy Overrides

After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and adult subject vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

Discretionary override reason: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. You must receive supervisory approval for a discretionary override. The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Supervisor's Review/Approval of Discretionary Override: Enter a signature.

Date: Enter the date.

Dependent Adult Multidisciplinary Team (MDT) Agreement, Form 470-5737

Purpose	The purpose of form 470-5737 is to formulate an agreement between the Department and various individuals and agencies for consultation of dependent adult abuse assessments/evaluations to discuss diagnosis, limitations, coordination of services, possible referrals, and disposition of an adult subject. Multidisciplinary teams (MDTs) will be convened at the Department's request during the course of an assessment or evaluation. No case specific information can be discussed outside the scope of the abuse assessment and evaluation.
Source	Complete this form (except for signatures) using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	All parties of the multidisciplinary team must sign during the formulation of a multidisciplinary team and before the dissemination of any individual dependent adult abuse information. Any ad hoc members whose participation has been approved by the Department, must sign each and every time they attend the meeting. The form is considered complete and the team is considered approved by the service area manager or designee as evidenced by signature on form 470-5737. Each agreement must be signed again by all parties at least annually on or before July 1 of each year with final approval by the service area administrator or designee.
Distribution	The service area administrator or designee keeps one copy, sends one copy to Central Office, and gives a copy to each team member.
Data	Complete the name of the team members and the date of the agreement. Additional lines may be added for the signature of team members.

Dependent Adult Protective Services Evaluation or Assessment Summary, Form 470-0688

Purpose

Form 470-0688 provides identifying information about the adult subject and the household in which the adult subject resides. This summary addresses the abuse reported and the determination of whether abuse occurred.

The form assesses the adult subject's safety when an evaluation or assessment of the reported incident is conducted. The form also documents the assessment of risk, dependency, household strengths and needs, and recommendations for services or court intervention as indicated.

If abuse is confirmed, the summary identifies the person responsible for the abuse and indicates whether the incident requires placement on the Central Abuse Registry.

Source

This form may be completed online, including the narrative, using the DARES system.

Completion

The adult protective worker who completes the evaluation or assessment completes the form. The supervisor approves and signs off on the final report.

Distribution

Automatically provide the summary to the county attorney. Keep a copy in the case record.

For an inter-county referral, also send one copy to the referring or receiving county attorney.

Data

Asterisked (*) items are generated by the DARES database system if the information has been entered into DARES. Case name, address, phone, registry number, completion date, and addendum date are pulled from DARES.

* *Report Information*: The intake date, adult protection worker, county name or county number are pulled from the DARES data entry.

* *Assessment Findings*: Findings are pulled from the "Determination" screen after completion of assessment and data entry.

The safety assessment findings are generated by the "Safety Assessment" page for the incident using subsequent findings from worker entry into DARES.

* *Household Composition*: Information is pulled from the "Household Composition" screen in DARES.

Guardian: Enter or modify information on the adult subject's guardian, conservator, or other person responsible for the adult subject. Document or modify the person's name, address, and phone number.

Collateral Information: This field prints only if information is entered in DARES.

Person Determined Responsible for the Abuse: Complete only if abuse is confirmed.

* *Intake Allegation Type*: Information is pulled from the "Allegations" screen.

* *Concerns Reported*: Information is pulled from "Allegations" screen.

Summary of Previously Founded Reports Concerning Alleged Person Responsible: (Information is pulled from DARES, STAR, and CINA for all victims and perpetrators.) If the victim on a previous report is not a subject of the current report, the victim's name displays as "confidential."

Summary of Assessment Process: Information is pulled from DARES screen entries with the exception of "guardian interview." Guardian interview requires entry directly into the field by the adult protective worker.

Summary of Contacts: Include in this section a list of people you contacted in conducting the assessment (subjects, family members, and other collateral sources) and their role or position with regard to the adult subject. Address the actions developed jointly with the adult subject, supports, and family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of safety, dependency, and risk. Include:

- The date, time, and type of contact and the contact name, location, and phone number.
- The date and time you observed the adult subject or your reasonable efforts to observe the adult timely.
- Physical evidence pertaining to the abuse allegations.
- Identification of those interviewed and a summary of their remarks.
- Your efforts to locate and interview the person alleged to be responsible for the abuse, if unavailable, while conducting the evaluation.
- Documents requested and examined pertaining to the abuse allegations.
- Relevant information from any previous Department contact with the adult subject or other household members, including information obtained from abuse registry checks and Department case files.
- Findings from other states, if the adult subject or alleged person responsible has lived elsewhere.
- Current resources, services, and supports considered and available to meet the adult subject's needs and increase protection.
- Services and supports identified and provided to the adult subject or alleged person responsible that have failed to prevent the adult subject's abuse or re-abuse.

- Caretaker's refusal of needed services or supports despite protective concerns, increasing the adult's risk.
- Documentation of your recommendation for services. Documentation should include any action taken or contemplated.

Summary of Contacts Addendum: When you reasonably believe that additional pertinent information will be available or additional relevant contacts will be made, indicate on the summary that you will complete an addendum. Complete the "Summary of Contacts" related to the addendum. This field appears only if an addendum is in progress.

Summary of Dependency Status: The narrative listed is pulled from the "Dependency Assessment" tab completed in DARES to summarize the evidence to support or refute that the adult subject is a dependent adult. A diagnosis alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the "Summary of Dependency Status" narrative is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary.* The remainder of the form is not disseminated.

Findings and Determination of Abuse Allegations: Determine if abuse occurred.

- List the factors that must be proven for each type of abuse and state your conclusions and rationale.
- Enter your finding of unfounded, confirmed, not registered, or founded.

Addendum Findings and Determination of Abuse Allegations: Document the factors that must be proven for the type of abuse and state your conclusions and rationale. This field will appear only if an addendum is in progress.

Placement on Registry: Enter:

- The adult subject's name,
- The alleged person responsible,
- The abuse type,
- Your evaluation or assessment finding, and
- Whether the report will be placed on the Registry.

Summary and Analysis of Safety/Risk Assessments Identified: Provide a narrative description of the safety and risk factors identified:

- Document a full description of information gathered regarding the safety of and risk to the adult subject.

- Address safety factors identified in the safety assessment and the related issues associated with the safety factor. Document the safety decision and any actions taken to address safety issues.
- Document risk factors indicated on risk assessment relating to risk of abuse or re-abuse.

Analysis may include the information gathered for the completion of safety and risk assessments such as:

- How long or how frequently abuse has occurred.
- Willingness and ability of a caretaker not responsible for the abuse to protect the adult subject; or the ability of the adult subject to self-protect.
- The frequency, severity, and type of abuse.
- Factors or situations contributing to the abuse.
- The risks of dependent adult abuse for the adult subject and any other potentially dependent adults in the home.

Addendum Summary and Analysis of Safety/Risk Assessments Identified: Use this section to update or edit the assessment after completion of the original report. This header will print only if an addendum date has been entered in DARES.

Final Risk Level: Information is pulled from the "Risk Assessment" tab completed in DARES.

Recommendations for Service: Select one or more services you recommended or referred the adult subject to during or as a result of your evaluation or assessment.

Narrative can be entered into "Summary of Contacts" to provide details as needed. In this section, the adult protective worker can check the box if no additional supports are needed. Otherwise, select one or more from the following list of "Services Referred for Adult Subject":

- Care/case management services (includes AAA/ADRC)
- Caregiver support services
- Education, employment, and training services
- Emergency assistance and material aid services
- Financial planning services
- In-home assistance services
- Legal services referral
- Medical and dental services

- Other services
- None. If selected, a narrative box will populate and must be completed.
- Recommended service is unavailable in the subject's area. If selected, please state why in the narrative box.
- Department services – Periodic visits – Referral date. This pulls from DARES.

Family does not need additional supports beyond current formal and informal systems.

Perpetrator Legal Remedy: Narrative can be entered into "Summary of Contacts" to provide details as needed. The adult protective worker must select one or more from the following list:

- Recommendation of removal of guardianship rights
- Recommendation of restraining order on perpetrator regarding the client
- Recommendation of eviction of perpetrator
- Recommendation of restitution by perpetrator
- Recommendation of other legal remedy (removal as caretaker, POA, conservator)
- No crime charged
- None. If none, must complete the field stating why.

Interagency Coordination: Narrative can be entered into "Summary of Contacts" to provide details as needed. The adult protective worker must select one or more from the following list:

- Law enforcement or prosecutorial offices (includes DCI, county attorney, local law enforcement)
- Protection and Advocacy or Client Advocacy Program (CAP) such as Disability Rights Iowa, Iowa Civil Rights Commission, and the Equal Opportunity Commission, Federal Department of Labor
- State licensing agency (Department of Inspections and Appeals, Department of Public Health, Iowa Medicaid Enterprise)
- State Medicaid Fraud Control Unit (MFCU)

- Office of the Substitute Decision Maker
- AAA/ADRC (or Iowa Department on Aging)
- Crime Victim Assistance Program
- Child Protection Center (AKA Child Action Center)
- Iowa Workforce Development, Division of Labor Services
- Fire Marshall's Office
- None. If none, must complete the field stating why.

Recommendations for Court Involvement: Enter your recommendations for district or criminal court involvement.

- If you recommend district court involvement, include:
  - A summary of the status of any current district court involvement if the adult is already under a guardianship or conservatorship.
  - Your specific recommendations to the county attorney on the initiation or modification of district court action.
  - Your rationale to support that recommendation (e.g., alleged person responsible has refused services for the adult subject creating immediate danger or the adult subject does not have capacity to consent to services and is in immediate danger).
- If you do not recommend district court involvement, include under "type of action requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was unfounded, or was confirmed or founded but low risk).
- If you recommend criminal court involvement, include:
  - Reference to any joint assessment with law enforcement.
  - The status of the criminal investigation when charges have already been filed in a matter.
  - Your specific recommendation to the county attorney regarding the initiation of any criminal prosecution.
  - Your rationale to support that recommendation.

Case Closure Reason: Pulled from DARES.

Approval: The adult protective worker and supervisor's signatures are automatically filled in based on approval in DARES.

Dependent Adult Protective Services Intake, Form 470-0657

Purpose	Form 470-0657 documents information provided in a report of suspected dependent adult abuse and the Department's response to the report.
Source	Intake workers can complete this form using the: ▪ DARES module, or ▪ Template available in "My Links" in JARVIS, or ▪ Printable template located in the JARVIS-DARES module. Transfer the data to the DARES module later.
Completion	The intake worker who receives the initial report of suspected dependent adult abuse completes this form on each referral whether or not the referral is accepted for assessment or evaluation.
Distribution	File the original in the case file. Send a copy to the intake supervisor. Send a copy of the dependent adult abuse intake to the county attorney. Make additional copies as needed.
Data	*Date*: Enter the date you received the report of suspected dependent adult abuse. *Time*: Enter the time you received the report of dependent adult abuse using a 12-hour clock with "A.M." or "P.M." as needed. *County Name/County #*: Enter the county name and number. *Intake Person*: Enter the name of the person conducting the intake. *Assigned Worker*: Enter the name of the person assigned to complete the evaluation or assessment if accepted. *Registry #*: The DARES system assigns this number. *Household Name and Address*: Enter the address of the primary residence of the adult subject, even if the adult subject is currently in an alternative temporary setting such as the hospital. Enter the zip code and county, if known. If the location of the household is unknown or unavailable at intake, enter "unknown." Out-of-state addresses may be entered. *Directions to Home*: If the location of the household is unknown or unavailable at intake, enter "unknown." Out-of-state addresses may be entered. Otherwise, enter directions to the residence when possible. *Telephones*: Enter the household telephone number, including the area code, and any other contact telephone numbers.

Current Location of Adult Subject: If the adult subject is living outside the home, enter the name and address of the location where the adult subject is residing at the time of intake. If you gave the adult's placement address as the household address, you do not need to reenter it.

Address of Abuse Incident: Enter the address where the alleged abuse occurred.

Household Composition: Enter the name of each person residing in the household with the adult subject. Complete this section as fully as possible, using the codes provided. Race and social security number will not appear on a printed intake document downloaded from DARES.

NOTE: The column labelled "Med", representing 'Active Medicaid Member', will only show a value for the adult subject within the household composition.

Narrative Description/Adult Subject Safety Concern: Enter the reported information in this section. Whenever possible, use the words of the reporter. Summarize all allegations and other information needed to determine whether the referral provides information sufficient to determine abuse or neglect did not occur. Enter whether or not the alleged person responsible has access to the adult subject (victim).

Reporter or Referral Source: Enter the name, including title, agency, address, and phone number of the reporter or referral source, if known. Check the box that indicates the reporter notification and date of notice.

Person Reported as Responsible for Alleged Abuse: Enter the name, date of birth, relationship to adult subject, social security number, FACS ID (if applicable), address, and phone number. DARES will generate person IDs or the intake worker can select the correct person if the person already exists in the system.

Use the "comments" section to indicate the person's workplace or any other information determined to be pertinent to the intake. The social security number will not appear on a printed intake document downloaded from DARES.

Collateral Sources: Enter the name, phone number, relationship of the collateral sources to the adult subject, and the address of the collateral sources identified by the reporter or the intake worker. Use the comments section labeled "In-Depth Intake Information" to document information from mandatory reporters gathered during an in depth intake.

In-Depth Intake Information: Enter information into DARES in the "comments" box under each collateral source and indicate if an in-depth intake was conducted. Only mandatory reporters can be contacted. Send each mandatory reporter a notice.

Allegations Abuse Type: This information is carried over by the "Alleged Abuse Type" screen in DARES.

System Checks Completed. DARES, STAR, ISIS, FACS, IMPA, Criminal, SOR, and WISE: Enter the information from these data sources. Mark the box for each database checked, regardless of whether it had information on the adult subject or the person alleged responsible. Enter criminal history check results. Possible rejection reasons which populate from DARES into form 470-3944, *Dependent Adult Abuse Notice of Intake Decision*, are as follows:

- Subject of the report is not a dependent adult.
- Alleged perpetrator is not a caretaker.
- The allegations do not constitute abuse under Iowa law.
- Sufficient evidence exists that abuse or neglect did not occur.
- Additional or duplicate information to previous report.
- Referred report to DIA.

Additional Information: Include information learned from the results of checks of the databases in this section. Also include any other additional information that may be relevant to the evaluation or assessment.

Include any worker safety information about dangerous persons, animals, or conditions likely to be encountered during the assessment or evaluation process. Indicate if the safety concerns involve others in addition to the adult protective worker.

Intake Screening Tool – Determining Dependency Status: Use questions 1, 2, and 3 to gather information from the caller. Use questions 4 through 10 if they apply. All questions are to assist in determining a reasonable belief of the adult subject's dependency status.

Supervisory Decision: For a dependent adult abuse intake, indicate the reasons for the rejection and the date and time.

Intake Supervisor Timeframe to Accept or Reject: Check either the 1 hour or 12 hour period to accept or reject the dependent adult abuse intake.

Case Assignment: Check the applicable box and indicate the date and time the report was:

- Accepted and assigned, or
- Rejected and the name of the supervisor making the rejection decision.

Supervisor Assignment of Response Time for Observation of the Adult Subject: Check either the 1 hour or 24 hour period for response time. Timeframes cannot be waived or delayed for seeing an adult subject (victim).

Determination Not Eligible for Five-Year Removal: Notice of Addendum, Form 470-5443

Purpose

Form 470-5443, *Determination Not Eligible for Five-Year Removal: Notice of Addendum*, was created as a temporary form to address a backlog of incidents impacted by a law change on January 1, 2014. The law requires the Department to determine whether the person responsible for the abuse on a founded child abuse assessment should be placed on the Central Abuse Registry for ten years or become eligible to have their name removed after five years.

The form provides notice to individuals who had founded assessments of denial of critical care, physical abuse, or presence of illegal drugs on or after January 1, 2014. The form explains that their name does not qualify for removal from the Central Abuse Registry after five years. Addendum and right to appeal information is also provided.

Source

The form is not available to field staff.

Completion

Identified staff complete the form following a review of the incident and a determination that the person named responsible does not qualify for removal after five years.

Distribution

A copy of the completed form is sent to the person named responsible. A copy of the completed form is maintained in the File Manager specific to the incident number.

Data

If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS:

- The date the form is sent.
- The name and address of the person to whom the form is sent.
- The incident number referenced in the form.
- The name of the person responsible for the abuse.
- *Report Information*: Intake date, child protection worker, household address, completion date, incident #, addendum date, and county.
- *Household Composition*: Name, DOB, sex, role, FACS ID, and comments.
- *Non-Custodial Parent*. Name, phone, address, parent of, and comments.
- *Person Determined Responsible for Abusive Incident*: Name, DOB, FACS ID, relationship, address, phone, comments, and work phone.
- Original Concerns Reported
- Addendum to Summary of Contacts
- Addendum to Findings and Determination
- Rights to Appeal This Action

Discovering Connections, Form 470-5648 or 470-5648(S)

Purpose	Forms 470-5648 and 470-5648(S), *Discovering Connections* are used to assist children and youth with identifying potential family and other positive adult connections.
Source	Print supplies of this form from the manual or SharePoint under Employee Manual/Forms as needed.
Completion	Any professional may complete the Discovering Connections tool with a child or youth throughout the life of the case.
Distribution	The child protection worker or social work case manager should utilize the information obtained from the completed tool to assist in Diligent Search activities and to engage informal supports. Ensure that you have signed releases from the child's parents before releasing information to identified supports.
Data	Using the tool: ▪ Pick a setting that promotes conversation and openness and matches the youth's interests. For example, take a walk outside, do an art project, etc. ▪ Be honest about the purpose of the questions and with whom the information will be shared. ▪ Not all questions need to be asked, or asked exactly as written. Strive to make this a conversation. ▪ Record as much information as possible about people the youth identifies and ensure that the youth is okay with these people being contacted. ▪ Give specific details about the next steps in the process. Do not over-promise but be sure the next steps are reached. ▪ Be sure to thank the youth for their willingness to share. ▪ If youth are unable to name anyone, have a conversation about opportunities to build new relationships and connections while acknowledging the youth's resilience in the absence of these connections.

Eco-Map, Form 470-4086 or 470-4086(S)

Purpose	Form 470-4086 or 470-4086(S) is used to help families assess the balance between the stress and support they have and whether foster care and or adoption is right for them.
Source	Print supplies of the English or Spanish version of this form from the manual or SharePoint under Employee Manual/Forms as needed.
Completion	The foster or adoptive parent applicants complete the form during PS-MAPP.
Distribution	The family shares this self-evaluation with their home study worker during family consultations. The recruitment and retention contractor: ▪ Submits a copy to the Department with the home study. ▪ Keeps a copy in the family's file.
Data	Page 1 of the form includes sections for the applicant to: ▪ Draw a central circle with names of all the people who live in the household. ▪ Draw circles outside the central circle representing systems that give and take away energy. ▪ Describe the relationships between the outside systems and the family. ▪ Describe the flow of energy: Is this system a source of support or stress for the family? Page 2 of the form includes sections for the applicant to: ▪ List five additional "systems" that will likely be added to the family if they become a foster or adoptive family. ▪ Develop preventive strategies to reduce the stresses and increase the support.

Family Case Plan, Form 470-3453 or 470-3453(S)

Purpose

The *Family Case Plan*, form 470-3453, is the official record of the Department's involvement with the family. It serves to:

- Help document the child and family conditions and concerns that caused the family to become involved with the child welfare system.
- Help determine and document the most appropriate services and supports needed to assure and promote child safety, permanency, and well-being. The family's plan includes a description of:
  - A plan to keep children safe.
  - Individual family strengths, supports, and needs.
  - How the strengths and family supports can be used to assist the family in self-directed change.
  - How the Department and others will assist the family in overcoming the needs.
- Document compliance with applicable state and federal laws and regulations.

Source

These forms are all accessed and completed in the DHS Case Flow system at: http://dhsintranet/cwis_caseflow/

- Family Case Plan Face Sheet, Part A
- Family Case Plan, Part B
- Child Placement Plan, Part C
- *Family Functioning Domain Criteria*, form 470-4138 (also located on SharePoint under Employee Manual/Forms), which explains what information, child/family issues, and assessment criteria should be considered in each of the five domain areas
- Family Risk Reassessment, form 470-4134

Completion

The DHS social work case manager assigned to the child and family is responsible for preparing the case plan to provide a comprehensive assessment view of the child and family that focuses on the major needs of the child, the parents, and, if applicable, the foster parents related to child safety, permanency, and well-being.

The case plan must be completed within 60 calendar days from the date the Department opens a DHS child welfare service case.

The case plan must be reviewed and updated:

- At a minimum, every six months thereafter while the case remains open, or
- More frequently if there are significant changes or if required by the court.

Information on the child and family entered in the FACS system automatically completes the case plan. Information not entered in FACS will not appear in the case plan. The worker must enter this information when the case plan is prepared.

Distribution

Obtain the necessary signatures on the plan and indicate which persons participated in developing or reviewing the plan:

- Distribute the *Family Case Plan*, including the *Family Case Plan Face Sheet*, when it is first developed to all of the persons listed on the "Signatures and Notifications" page.
- Distribute copies of any altered or revised case plan, including Part A, Part B, and Part C, if applicable, and the completed review section, to all of the persons listed on the "Signatures and Notifications" page.
- Print a copy of all initial and reviewed case plans, including Part A, Part B, and Part C, if applicable, and the completed review section and place the copy in the case file.

Data

A. Family Case Plan Face Sheet

The face sheet includes identification, statistical, historical, service summary, and placement information for the family.

- *Identifying information*: Enter information on the child's name, FACS ID, date of birth, address, and family members is automatically entered from the FACS system.
- *Service History* and *Placement History*: Enter information about services opened for the child and family in the FACS system is automatically entered from the FACS system.
- *Additional Services Provided*: The social work case manager completes this section. (This data is not contained in the FACS system.) Once entered, this information will be saved and become part of the case plan history over the life of the case.
- *Court Involvement*: The social work case manager enters information on any court involvement into FACS on the Court Detail screen. This information then fills the Court Involvement section of the *Family Case Plan Face Sheet*, Part A.

Information shown in green on Part A may be suppressed for safety reasons, such as when the safety of a foster child or foster parent could be jeopardized by printing the address or there are domestic violence issues or a restraining order between the child's parents.

To suppress all the information shown in green, click on the box "Suppress All Sensitive Date." Individual lines may also be highlighted and removed. Suppressed information reappears when the Case Flow form is reopened.

B. Family Case Plan

- *Identifying information*: The child's name and FACS ID and the DHS worker's name are automatically completed from information in the FACS system.
- *Family Plan Participants*: The worker fills in the list of participants involved in developing the case plan.
- *Date of Initial Plan* and *Family Team Meeting*: The worker must enter dates in these fields.
- Anticipated date of case closure: The worker enters the date.
- *Household Composition*: This information is automatically completed based on information entered in FACS about the child's family members living in the home. Information in FACS about the child's parents not living in the home will be filled into this section as well.

Family Functioning Domains

DHS uses the *Family Functioning Domains* to provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention.

Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- *Child Well-Being*: Child's mental health behavior, relationship with peers, school performance, motivation and cooperation, relationship with caregivers, and relationship with siblings
- *Parental Capabilities*: Parental supervision of children, mental health, disciplinary practices, physical health, developmental and enrichment activities, and use of drugs or alcohol
- *Family Safety*: Physical abuse, neglect, sexual, or emotional abuse of child; and domestic violence
- *Family interactions*: Bonding with child, expectations of child, relationship between parents or caregivers, mutual support within the family
- *Home environment*: Housing stability, financial management, income and employment, safety in community, personal hygiene, habitability, transportation, food and nutrition, learning environment
- *Other*: Additional issues or concerns about the child or family

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010236

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

Become familiar with the family functioning domain categories and criteria. Consider the child and family's strengths, concerns, and needs in the various domain areas as you have discussions with the family and gather and analyze information about them.

- Information gathered in a family team may be helpful in evaluating the domain categories.
- Evaluate each individual's functioning through the common "lens" of the domain areas when:
  - There are multiple children in the family,
  - There is a noncustodial parent or stepparent, or
  - A relative is caring for the child.

Complete the family functioning domain section of the case plan by working through each domain category (the subcategories for each domain category automatically appear as you complete the domain sections) and:

- Fill in the **Narrative** section of each domain with a specific description of any strengths or needs identified within that domain.

  Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

  Remember that families may have strengths in some domain areas that can be used to address needs in other domains.
- Establish a **Goal** for each domain area where a need is identified in the narrative. It is critical that goals be developed in partnership with the family.

  Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.
- If no needs are identified for a family within a domain category, but strengths are noted, you may establish a goal for that domain that focuses on using family strengths to help meet needs in other domain areas.
- After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.
- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible for each step and
  - The dates for beginning and completing the necessary actions.

  Update revisions to or completion dates for the steps throughout the life of the case plan.
- Discuss and review the case plan information on domain areas, proposed goals, and action steps with the family before making final entries to the plan.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010237

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

- Use the **Comments** section in each domain area to enter updated information on the family's progress and functioning level in that domain.

When the child is residing with the child's parents, the case plan shall state whether the child would be at "imminent risk of removal" from the home if in-home services were not provided.

"Imminent risk" means there is an immediate threat or likelihood that the child will suffer maltreatment.

When assessing "imminent risk," consider the three safety constructs of threats of maltreatment, child's vulnerability to maltreatment, and the caretaker's protective capacities to determine if the child would be unsafe without in-home services in place.

Cases that meet this standard are eligible for federal Title IV-E funding as candidates for foster care.

In the comments section of the most applicable family functioning domain area, document whether DHS would ask the court to consider the removal of the child if the family refused or terminated in-home services and why.

Review Section

Use the *Family Case Plan* review section when reviewing family progress and making further recommendations for actions and services on the case.

- Indicate the date of the plan review and whether this review was conducted through a family team meeting.
- When completing the review, consider the family's current functioning, level of goal achievement, and completion of necessary steps within each domain area.
- Identify family achievements, progress toward safe case closure, remaining concerns, and your current recommendations in the review section.
- At least once every six months, review the status of any child who has been previously determined to be at "imminent risk of removal" if in-home services are not provided. Document if services should continue and why in the *Review Summary and Recommendations* box.

  Reference **Other Comments** if an evaluation determines that the location of the foster home is suppressed and review this determination every six months or less.

Signatures and Notifications

- Document and obtain signatures from those persons that participated in development of the plan and thank all persons who contributed to the planning process for the child and family.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

- Set a date for future meeting with the family to review and revise the plan as needed. The **Other Comments** section of this page can be used for this purpose.

  Every six months or less, evaluate and review the decision to suppress the location of the foster home to determine if suppression continues or the need for suppression no longer is applicable.

- The **Other Comments** section may be used to include information concerning:
  - Case child abuse and criminal record histories;
  - Whether the Indian Child Welfare Act applies to the case;
  - Evidence of a direct or indirect threat to harm the foster child or foster family or credible third-party information of a threat of harm to the foster child or foster family as listed in 18-D(4). This information is needed if there has been a decision to suppress the address and contact information of the foster home.

- Distribute copies of the plan to those that should receive them.

C. Child Placement Plan

In combination with the face sheet and the family plan, the out-of-home placement section is a written document that includes all the federal required elements. The family plan and the out-of-home placement section include:

- A description of the placement and the appropriateness of the placement.
- The permanency goal for the child including any concurrent permanency goals.
- A plan for ensuring that the child and family receive services designed to facilitate the return of the child to a safe home or to another permanent placement.
- The health and educational status of the child.
- When applicable, a description of the programs and services that will facilitate the child's transition from foster care to adulthood.

This form is necessary to provide information mandated by state and federal laws and regulations regarding each child placed in an out-of-home setting in which the Department has custody, or when foster care is being provided under a voluntary placement agreement.

The DHS social work case manager responsible for the child should complete the *Child Placement Plan* when the child is placed in an out-of-home setting and DHS has custody or the child is placed under a voluntary placement agreement.

For these children, this section is in addition to Parts A and B of the case plan. The *Child Placement Plan, Part C*, should be updated every 90 days just like Parts A and B.

The *Child Placement Plan* is distributed as part of the case plan for children who are in placement. Print a copy of the *Child Placement Plan* and keep it in the child's DHS service record along with the other sections of the case plan.

Based on available case information and your own discussions with the family, make narrative entries for all applicable items on the *Child Placement Plan* where no auto-filled information appears. Enter sufficient narrative information to explain and give detail about the categories contained in the form.

- The child's name and FACS ID will be automatically completed.
- Enter the following:
  - Child's date of birth
  - Anticipated date of child's return home
  - Date of family plan development
  - Date of initial out-of-home placement
  - Placement authority (court or voluntary placement)
  - Date of current placement
  - Whether "contrary to welfare" language is in the appropriate court order (yes or no)
  - Whether "reasonable efforts" language is in the appropriate court order (yes or no)
- *Permanency Goal*: Select and enter the current permanency goal for the child.
- *Concurrent Goal Assessment*: Assess and answer the two questions concerning the child. **NOTE:** If you answer "no" to either question, you must enter a concurrent goal in the next section.
- *Concurrent Goals*: Complete this section if the answer to either question in "Concurrent Goal Assessment" is "no." Describe concurrent goal planning underway for the child.
- *Child Well-Being Domain*: Review information about the child entered in the family domain criteria "child well-being" area and indicate whether each of the domain subcategories is currently a strength (S) or need (N) for the child.
- *Placement Status Information*: Assess and answer the six questions pertaining to the characteristics of the current placement for the child. **NOTE:** If you answer "no" to any question, you must enter an explanation in the adjacent box.
- *Efforts Made by DHS to Support the Placement and Prevent Disruption*: Check the boxes to indicate the DHS efforts to support the placement and prevent disruption.

- *Placement History*: Enter information about the child's out-of-home placement history. Start with the current placement and then list all previous out-of-home placements, including any hospitalizations, institutional, or PMIC placements.
- *Permanency (ASFA)*: Answer the four questions in this section. **NOTE:** If you answer "yes" to any question, you must enter an explanation in the adjacent box. If termination of parental rights is not indicated, explain this by selecting a reason provided or by citing other compelling reasons in the space provided.
- *Visitation*: Make the appropriate entries to describe the child's visitation situation. Include any necessary narrative to explain the visitation arrangements.
- *Documentation*: Indicate whether the child has a certified birth certificate and a Social Security card and number. Describe plans to obtain if the child currently does not.
- *Health and Health Records*: Answer the question whether the child was able to retain known care providers. If not, explain efforts to do so and reasons why continuity of care was not possible.

  Document whether the child is a victim of sex trafficking. If yes, explain services provided. If the youth is pregnant or has a child, check "yes" in the final question.

  In the table provided, enter any known health examinations and treatments the child has received. If possible, indicate this information for at least the last two years of the child's life.

  Indicate the provider, dates of service, and date the information on these services was given to the child's current caregiver and current service provider.

  NOTE: Do not record HIV status or risk of HIV infection anywhere in the case plan. File any such information in the medical record section of the case file and mark it "Confidential."
- *Mental Health/Psychological/Psychiatric Records*: Describe any known mental health, psychological, or psychiatric evaluations or treatment the child has received.

  Indicate the provider, dates of services, and date the information on these services was given to the child's current caregiver and current service provider.
- *Education Records*: Complete this section to provide information on the child's current educational stats. Contact educational partners at the local school district or Area Education Agency (AEA) if needed to obtain this information.

  If the child was not able to remain in the school the child was attending upon entry or change in foster care placement, explain efforts to keep the

child's educational placement stable and why the change was best for the child.

Transition Plan

"Transition planning" is the process of assisting the child in foster care to prepare to be a self-sufficient adult.

This process includes an assessment of life skills, strength and concerns, services and supports, and outcomes to be accomplished for successful transition.

Planning for transition to adulthood for children in foster care with special needs may need to begin before age 14 to ensure needed funding and services are available.

Service area transition planning specialists (TPS) can provide ongoing consultation and information regarding transition planning for adolescents.

For a child who may be eligible for services as an adult, the assessment and plan of services must be developed with someone who can reasonably be expected to fund those services or be a service provider when the child becomes an adult.

This section is required for a child in foster care of any type who is age 14 years of age or older. The plan shall be updated at required intervals with the *Case Permanency Plan*. In addition, the *Transition Plan* needs to be updated within 90 days of the child turning 18, and if the child remains in care past the age of 18, in the 90 days before discharge.

Organization of a youth-centered planning team is required for every child age 14 and older in foster care. Ask the child to select members of the team. Include specific names of formal and informal supports in the box that asks about membership.

A referral to transition planning specialist (TPS) may be needed for more challenging needs, such as transition planning for a child in long-term foster care or a child needing adult services. If a referral has been made to a TPS, select "yes."

Include the date the Case Life Skills Assessment was completed. It must be done at least once after the child in foster care's 14th birthday. Replace with the new date if it is done again throughout the child's time in foster care.

If the child is interested in pursuing higher education, the plan shall provide for the child's participation in the College Student Aid Commission's program or assistance in applying for federal and state aid.

Indicate whether the child has a driver's license or non-operator ID. If the child does not have at least one or the other, provide steps to obtain one or both.

Review and explain form 470-5337, *Rights of Youth in Out-of-Home Placement*, to a child age 14 and older. Have the child sign and date the form indicating you have reviewed the rights so the child understands and have answered any questions about their rights. After the form has been signed, give the child the original rights document and provide a copy to all legal parties on the child's case. Document the date the form was most recently given to the child in the *Case Permanency Plan*.

Before the child reaches age 17½, present the completed *Transition Plan* to the transition committee for the service area that applies to the child. The local transition committee must review and approve the *Transition Plan*. When a child enters foster care at age 17½ or older, the local transition committee shall be involved in reviewing and approving the child's transition plan within 30 days of completion.

There are six domain areas in the *Transition Plan* and a box for each. Follow the instructions for each section below:

- *Education*: Include information about the child's current education status and plans, including steps that still need to be taken, dates, and who will assist.
- *Employment and Workforce Supports*: Include information about the child's current work status and plans, including steps that still need to be taken, dates, and who will assist. This section needs to show the child has a clean credit report and banking experience, or it should provide plans or activities to achieve.
- *Health and Health Insurance*: Include information about the child and the child's health insurance status and plans.
- *Housing*: Describe the child's housing and housing plans.
- *Supportive Relationships and Services*: Describe relationships and opportunities for social and developmentally appropriate activities. Describe efforts to repair relationships or help child reconnect. Refer child age 17 to aftercare and include the date. If aftercare has not been contacted, leave the box blank.
- *Youth with Special Needs*: Relevant information about any special needs of the child should be included here, as well as referrals to SSI and adult services. The connections to SSI or adult services must be made before the Transition Planning Committee review, which typically occurs when the child is age 17. The date the plan was reviewed should be included in the last box of this section.

Child Signature

Obtain the child's and guardian's signatures as appropriate.

Family Functioning Domain Criteria, Form 470-4138

Purpose	Form 470-4138 is used to assist with assessment of the strengths and needs of the child, and of the child's parent(s)/caretaker(s), home, and family. It is an example of statements regarding areas of strengths and needs.
Source	This form is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.
Completion	The child protection worker uses this tool during the child protective assessment process to aid in the assessment of strengths and needs. Strengths and needs are identified using the family functioning domains: ▪ Child well-being ▪ Parental capabilities (includes use of drugs or alcohol) ▪ Family safety (includes domestic violence) ▪ Family interactions ▪ Home environment Identify domains as a strength or need. Address in the narrative section strengths and needs under each specific subsection that applies to the child, family, or home. It is not necessary to address every item listed. Address items that are relevant to the given situation. You are not limited to only the items listed. The child protection worker completes this form in JARVIS with approval and sign-off by the supervisor.
Data	Family functioning domains are applicable throughout the life of a case beginning with the safety assessment, strengths and needs identification during a child protective assessment or CINA assessment, and developing a family plan.

Family Interaction Plan General Roles and Responsibilities, Form 470-5148 or 470-5148(S)

Purpose

The *Family Interaction Plan General Roles and Responsibilities*, form 470-5148 and 470-5148(S), is the official family interaction plan developed for children placed out of the home. All children who are placed out of the home need to have a family interaction plan in place to ensure interactions occur in safe and healthy ways. The family interaction plan should be tailored to meet the safety needs of the family.

Source

Complete the English or Spanish version of this form using the template available in SharePoint under Employee Manual/Forms. This form may also be printed from the manual or SharePoint.

Completion

The most effective way of developing or reassessing a family interaction plan is during a warm hand-off or Solution Focused Meeting. The written family interaction plan may be incorporated as part of the Solution Focused Meeting notes or identified separately on the family interaction plan form. However, not all children placed out of the home will have a Solution Focused Meeting but family interaction planning should still occur.

Distribution

Give a copy of the completed family interaction plan to the identified team members. Keep the original form in the child's case file.

Data

Background Information. Enter the following information:

- *Children's names*: If multiple children have different needs or safety concerns, the family's team may want to consider a separate plan for each child.
- *Date of plan*: This is the date the plan was developed.
- *Placed with*: Document where the child is placed and with whom. If multiple children are in different places, indicate the type of placement (i.e., resource family, relative, residential placement, etc.).
- *Placement date for children*: This is the date the child was removed and placed out of the home.
- *Permanency goal*: Document the identified permanency goal.

Safety Concerns/Required level of supervision. Utilizing the Family Interaction Planning Tool (Comm. 649) provide explanations for questions A-F of the Interaction Supervision Decision Tree.

Family Interaction Plan. Family interaction should begin as soon as possible after removal from parental custody. At a minimum, interactions should occur within 24 hours of placement, be regular, and of increasing frequency and duration.

- *Types of Interaction*: Document the type of interaction approved. Creativity in defining interactions should be supported. Every opportunity needs to be

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

considered such as doctor appointments, school activities, meetings, and other functions in which the family would have participated if the children were in the home. This should be documented in the Attendance at Child Centered Appointments/Events section of the plan.

Interactions should be built around meaningful activities including:

- Mealtimes,
- Bathing,
- Grooming,
- Naptimes,
- Homework time,
- Grocery shopping,
- Doctors' appointments,
- School activities (i.e., conferences, plays, band and choir concerts, family nights, carnivals, graduation, etc.),
- Sports activities, and
- Should be geared towards the child's developmental abilities.

Creative planning should not only support face-to-face time but also other methods, such as calls, letters, texting, emails, and other electronic methods of communication. Families should be encouraged to explore other ways to connect and interact with one another.

- *Frequency* and *Length of Interaction*: Document the frequency and length of interaction. In determining how often and how long interactions should be, consider the following:
  - The age of the children.
  - The severity and chronicity of the abuse.
  - The potential for abduction or continued abuse of the children.
  - The progress of the parent in learning new skills or managing inappropriate behaviors, protective capacities displayed by the parent.
- *Locations*: Document the locations where the interactions will occur. Utilize the Planning Tool to aid in decision making around interaction locations.

  Family interaction should occur in the least restrictive, most homelike setting that allows for natural interaction and appropriate to meet the child's needs for safety. Generally, the parental, relative, or resource family home will provide the best environment. When safety is an issue, a more secure setting should be chosen and a safety plan developed for the interactions to continue.

  Consider the type of interaction as you document the location. For example, if an interaction is built around school activities, sport activities,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

or doctors' appointments, you would document the location of the event (i.e., school, gymnasium, ball field, doctor office, etc.).

- *Types of Supervision*: Document the type of supervision for the identified interaction. Types of supervision include fully supervised, relaxed supervision, semi or partially supervised, or no supervision necessary. Supervision can be provided by a professional or other person identified by the family's team.
- *Supervised By*: If supervision is required, document who is responsible to provide supervision during interaction. This will be determined by the family's team. Consideration should be given based on the safety concerns and the developmental needs of the child.

  Family interactions are most "natural" when interactions are supported by those with a relationship with the child, such as other family members versus professionals. Family supports can be relied on to assist with all aspects of services including attendance at meetings, role modeling, transportation, observing interactions, etc.

Family Routines to Practice During Family Interaction. Document the goals to be accomplished during family interaction. Family interaction should focus on allowing the most natural parent-child interactions, such as:

- Cooking and eating a meal,
- Reading stories,
- Cleaning a room,
- Playing a game,
- Bath time,
- Naptime, or
- Bedtime routines.

The focus is on maintaining ties between the parent and child and assessing the parent's capacity to care for the child. Primary routines should reflect the family's SBC outcomes.

Goals are the family routines to target during the family interaction. These behavioral changes are most likely related back to the safety concerns as identified by the team.

- Family Routines to Target: Document the routines to practice during family interaction.
- Family Members Involved: Document who is expected to be involved in the routines.
- *Date Reviewed or Revised*: Document the date when the goal was reviewed or revised.

Family interaction needs to be reviewed during a Solution Focused Meeting or by those the family's team identifies, at a minimum, when:

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010249

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

- There are changes in behavioral patterns demonstrated by the parents or children.
- Protective provisions that may be a safety concern change or arise.
- There is a change in family supports.
- There is a change in legal issues or court requirements (change in custody or guardianship) that may impact family interaction planning.
- Agreed upon behavioral changes are accomplished or not.

Transportation. Describe how transportation will be provided once individuals who are available to assist in transportation are identified. Transportation is a key component for interactions to be successful.

Resource family and other relative caregivers should be encouraged to transport children at least one way. Parents and extended family members should be expected to arrange their own transportation, though they may be given temporary support when necessary to ensure there is not a gap in family interaction; however, this will likely be accomplished by public transportation. Children in placement may have to be transported by a provider or HHS staff, one or both ways to interactions.

Other Planning Notes. Considerations when setting expectations could include, but are not limited to, the following:

- Expectations of what parents should bring to the interaction.
- Activities that parents should plan or consider doing during the interaction.
- Behaviors that provide an unsafe situation may terminate the interaction. It is important that there is a follow up with the parents in order to reduce the risk for another unsafe situation.
- The use of physical discipline or threats towards others.
- Negative comments about others, which includes the children, family members, HHS worker, contractor or provider, and other professionals part of the family's team.
- Possession or bringing any drug paraphernalia, illicit substances, or alcohol to the interaction.
- All legal decisions or documents regarding contact, including No Contact Orders, etc. will be abided by all parties.
- Obtain approval before bringing any additional individuals to family interactions. Approvals are determined by the HHS case manager or the family's team.

Family Interaction Calendar. Utilize the calendar to document the initial plan for family interactions. Include any events, appointments or activities which the parent may also attend.

Family Risk Assessment, Form 470-4133

Purpose

Form 470-4133 is used to identify risk factors during an assessment. The *Family Risk Assessment* is composed of two scales that measure the level of risk regarding neglect and abuse.

Source

Complete this form on the Family Risk Assessment tab on the STAR Assessment module in JARVIS.

Completion

The child protection worker completes the *Family Risk Assessment* during the assessment process. This form must be completed before the assessment is approved.

Exception: When abuse occurred or is alleged in an out-of-home setting and child protective concerns do not exist in the child's household, the safety assessment and risk assessment is not required.

Only **one** household can be assessed on the *Family Risk Assessment* form. Assess the child's primary residence. When the alleged perpetrator resides in the household of the noncustodial parent, assess the household of the noncustodial parent. If the child moves to a different household because of the crisis, complete the risk assessment on the household in which the child will remain.

- If the child will remain in the new household, complete the risk assessment on the new household.
- If the plan is to reunify the family, complete the risk assessment on the household **from which the child was removed**.

Upon completion of the form, a Total Neglect Risk Score and Abuse Risk Score are automatically calculated to the highest of either risk score. Use this information in the analysis of the family's strengths, needs, and recommendation for services.

The final risk level is populated on the Child Protective Services Child Abuse Assessment Summary or the Child Protective Services Family Assessment Summary. Reassess the case whenever you determine that an adjustment in the risk score is warranted (either up or down).

Distribution

The form is maintained within JARVIS and is considered assessment data.

Data

Review information obtained from systems checks, Department records including service history, not confirmed assessments, and any previous or current court involvement. Review the risk assessment definitions and complete the *Family Risk Assessment* form by checking the most applicable response.

On items involving caregivers, **select one or two** parents or substitutes based on physical and emotional proximity to the children. Do not rate more than

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010253

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

two caregivers in a home.

Only one primary caregiver can be identified. The "primary caregiver" is the adult living in the household who assumes the most responsibility for child care.

When two adults are present and you are in doubt over which one assumes the most childcare responsibility, select the adult with custody or guardianship or the caregiver responsible for the child involved in the incident as the primary caregiver.

> Ms. X and her partner Mr. Y live together and appear to share caregiver responsibilities for Ms. X's children equally. Because Ms. X has legal custody of the children, select her as the primary caretaker.

If this does not resolve the question, select the legally responsible adult who was a perpetrator or alleged perpetrator.

> Mr. and Mrs. Z live together and appear to share caregiver responsibilities for their children equally. Mrs. Z is the alleged perpetrator of abuse, so she is selected as the primary caretaker.

When both parents are in the household, equally sharing care giving responsibilities, and both have been identified as perpetrators or alleged perpetrators, select the parent demonstrating the more severe behavior.

The "secondary caregiver" is defined as an adult living in the household who has routine responsibility for childcare, but less responsibility than the primary caregiver. A partner may be a secondary caregiver even though the partner has minimal responsibility for care of the children.

If an item relates to all caregivers and the household has more than one caregiver, **rate the caregiver with the more severe behavior**.

The risk assessment form is composed of two scales: the neglect scale and the abuse scale. For detailed guidance, see *Family Risk Assessment Guidance*, RC-0123.

After scoring all items in each scale, total the score for each scale and determine the risk level by checking the appropriate boxes in the risk level section.

Overrides

Policy Overrides: After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and child vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010254

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

Discretionary Override: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. **You must receive supervisory approval** for a discretionary override.

The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Family Risk Reassessment, Form 470-4134

Purpose	Form 470-4134 is used to identify risk factors and assist in assessing the impact of services provided to the family during a particular timeframe and whether certain events in the family have occurred during the period being measured.
Source	Complete this form on the Risk Reassessment tab on the Child Services module in JARVIS.
Completion	The social work case manager completes the *Family Risk Reassessment*: ▪ During case permanency planning reviews and ▪ Before case closure. The social work case manager will receive an alert to complete the *Family Risk Reassessment* a minimum of 180 days from the initial risk assessment or risk reassessment. The rating on the formal risk reassessment reflects changes in family functioning and provides a framework to identify critical factors that indicate changes in a child's risk maltreatment.
Distribution	The risk reassessment completed and contained within JARVIS is part of the case management service file. When the case permanency plan is updated: ▪ Document information from the *Family Risk Reassessment* in the comment section of the most applicable domain, and ▪ Incorporate the results into the case planning process.
Data	Refer to *Family Risk Reassessment Guidance*, RC-0124.

Family Functioning Domains. The family functioning domains provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention. Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- Child Well-Being:
  - Child's physical and mental health,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

- Behavior,
- Relationship with peers,
- School performance,
- Motivation and cooperation to stay with family,
- Relationship with siblings, and
- Supports.

▪ Parental Capabilities:

- Supervision of children,
- Mental health,
- Informal supports,
- Disciplinary practices,
- Physical health,
- Developmental and enrichment activities, and
- Use of drugs or alcohol.

▪ Family Safety:

- Physical abuse,
- Neglect of a child,
- Sexual abuse,
- Domestic violence, or
- Emotional abuse.

▪ Family Interactions:

- Bonding with child or children,
- Expectations of children,
- Family interaction planning,
- Relationship between parents or caregivers,
- Mutual support within the family, and
- Concurrent planning.

NOTE: A written *Family Interaction Plan*, tailored to meet the safety needs of the family is developed and/or reassessed during a family team meeting involving a child placed out of the home to assure family interaction begins as soon as possible after removal from parental custody.

▪ Home Environment

- Housing stability,
- Food and nutrition,
- Transportation,
- Safety in community,
- Financial management,
- Learning environment,
- Habitability of housing,
- Personal hygiene, and
- Income and employment.

AMERICAN OVERSIGHT

- **Other**. Additional issues or concerns about the child or family.

  NOTE: Discuss concurrent planning and permanency goals, any interstate compact issues, child and family cultural factors, language barriers, or if the Indian Child Welfare Act applies.

Complete the family functioning domain section of the FTDM family plan by working through each domain category. Consider the child and family's strengths and needs in the various domain areas as you have discussions during the family team meeting. Fill in the narrative "strengths" and "needs" section of each applicable domain. Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

Establish a goal for each applicable domain area where a need is identified. It is critical that goals be developed in partnership with the family. Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.

After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible,
  - What do they agree to do, and
  - By when.
- Document the date for when the goal was completed or modified.

Crisis Plan. Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

Signatures and Notifications. Enter the name of invited team members, including their role, contact information, and check whether or not they attended the family team meeting.

Foster Care and/or Subsidized Adoption Information Exchange, Report S472N111-01

Purpose

Report S472N111-01, *Foster Care and/or Subsidized Adoption Information Exchange*, provides IV-E workers information that is needed to determine IV-E and Medicaid eligibility for children in foster care and adoption assistance programs.

Source

The FACS system generates this report nightly.

Completion

The FACS system automatically generates this form on foster care and adoption subsidy cases when:

- There is a start date recorded on FACS (labeled as "new placement" on the report).
- There is an end date recorded on FACS (labeled as "exit placement" on the report). (A move from one placement to another generates two reports.)
- The FACS case is transferred to a new service worker.

The IV-E worker examines the report to determine whether the change affects IV-E or Medicaid eligibility (or if additional information is needed).

Distribution

If there is an open Medicaid case with an FBU of 19, the report is issued to the IV-E worker responsible for that case. If there is no open case with a 19 FBU, the report is issued to worker number CM00 in the office where the service worker is located.

Exception: For PMIC placements, the form is generated to the IM unit in the county where the facility is.

File the report in the IV-E case record.

Data

Data reported includes:

- Identification of the workers and the reason for the report.
- Information about the child.
- Information about the child's parents.
- Information about the child's placement.

NOTE: Do not use the PLACEMENT IV-E field or the SERVICE IV-E field to evaluate IV-E eligibility.

Foster Care Reimbursement Request for Child Care Assistance Gap Funding, Form 470-5796

Purpose	The CCA Foster Care Gap Form is used to document the difference between the state Child Care Assistance (CCA) reimbursement rate and the rate the provider would typically charge a private-pay family. Additionally, the form would be used to request reimbursement for absent days beyond the six that they are authorized.
Source	The form is generated from 18-Appendix.
Completion	Resource parents who have been charged amounts beyond what Child Care Assistance will pay or absence days beyond six per month may submit this completed form along with a copy of the written agreement between the provider and resource family regarding the additional charges to receive reimbursement. The form must be sent to fc-ccagap@dhs.state.ia.us. The approved amount will be entered into the SPIL screen in FACS.
Distribution	The payment will be generated through the FACS system and sent to the Resource Parent.
Data	The social work case manager completes the required data fields in FACS through SPIL payment screen.

Foster Child Behavioral Assessment, Form 470-4401 or 470-4401(S)

Purpose

The *Foster Child Behavioral Assessment* checklist serves two purposes.

- It may be used in the development of the case plan as a tool to identify the needs of the child. Every behavioral need of a foster child identified in this tool should be outlined when completing the case plan, along with the corresponding actions and responsibilities of the resource family.
- Since this tool identifies need and responsibilities, it is also the tool used to determine level of care and corresponding foster care payment.

Source

Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

Print the Spanish version of this form from the manual or SharePoint.

Completion

Complete the *Foster Child Behavioral Assessment*:

- Within the first 30 days of a child's initial entry into foster care.
- Whenever the child's behavior changes significantly.
- When the child's placement changes.
- After termination of parental rights, in preparation for negotiating an adoption subsidy or presubsidy.
- Before a court hearing on guardianship subsidy. **Note**: The highest guardianship subsidy is limited to Level 2, basic rate plus level 2.

If a child comes out of group care or PMIC, the child's payment in the foster family home is the basic foster care maintenance rate. It is anticipated that the family team meeting, with the new foster parents participating, will be part of the discharge planning. Complete the *Foster Child Behavioral Assessment* within the first 30 days of placement.

If a child leaves foster family care and goes to shelter care and then returns to the same foster family home, the payment rate remains the same as the rate received by the foster family before the child goes to shelter care. Complete an assessment within 30 days of placement with a new foster family.

To authorize payment to the resource family at a higher level than the basic rate, this form shall be signed by the worker and the worker's supervisor.

After supervisory approval, the difficulty of care payments shall begin the first day of the month **following** the month in which the form was completed. Do not enter the new assessment rate into FACS until the supervisor has signed off and approved the assessment and rate.

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

Distribution

Keep the original form in the child's case file. Give a copy to the resource family upon the family's request.

Data

When completing the checklist, use all available information about the child for a thorough assessment of the child. This may include evaluations, school and provider reports, and home studies, as well as input from parents and the resource family.

Check only behavior that is severe enough to be outside the norm for a child of the same age. Do not check behavior that is typical for a child that age (e.g., "temper tantrums" for a 2-year-old).

In order to have a valid assessment, check each item that applies in **every** category ("minimal" and "moderate" and "intensive").

The template calculates the basic rate once the child's birth date is entered, and automatically calculates the level of care and the total daily rate. The form is designed so that checking all the applicable boxes will result in the proper calculation for the behaviors.

See 18-D(2), *Maintenance Payment*.

Foster Family Home License Application, Form 470-0689 or 470-0689(S)

Purpose

Form 470-0689 or 470-0689(S) is used to apply for a license to operate a foster family home for children. The form gives the retention and recruitment contractor the right to study and evaluate the home and to conduct necessary record checks.

Source

Print supplies of this form from the manual or SharePoint under Employee Manual/Forms.

The form is normally issued by the recruitment and retention contractor at orientation. Local offices that are asked to issue the form can print the form from the manual or SharePoint.

Completion

The prospective foster parents and any adults living in the home complete the form when a family decides to apply for a license or re-apply for a license. Each applicant and any other adult living in the home signs the form.

If a person over the age of 14 (other than a foster child) moves into the home during the licensing year, that person must complete this form in order to authorize the necessary record checks. Have the person:

- Sign the original form on the appropriate line,
- Enter the date by the person's signature,
- Enter any out-of-state residence locations in the last five years, and
- Specify the state and the crime and abuse that occurred.

NOTE: If a child who has been living in the home turns 14, child abuse and criminal history record checks are not completed.

Complete applications for license renewal at least 30, but no more than 90 days before the license expires.

Distribution

The applicant family normally returns the form to the recruitment and retention contractor, but may submit the form to any Department office. If so, forward the form to the recruitment and retention contractor.

The applicant keeps the pink copy of the form. Discard the gold copy, if any.

The contractor:

- Submits the original to the Department with the home study so that a decision can be issued on the application, and
- Keeps the yellow copy in the family's record.

Foster Family Placement Contract, Form 470-0716 or 470-0716(S)

Purpose

Form 470-0716 or 470-0716(S) is the formal contract between the Department and the foster parents stating the terms of the placement.

Source

Department staff may complete the English version of this form online either through the FACS system or using the template available in SharePoint under Employee Manual/Forms.

Department staff may print the Spanish version of this form from the manual or SharePoint.

Juvenile court staff should print the form from the online manual and complete it manually.

Completion

The Department worker prepares the form when DHS has financial responsibility for the placement. Juvenile court services completes the contract with the foster parents when they are responsible for the placement.

Complete the form when:

- A child is placed in a foster family home that will be supervised directly by the Department or by juvenile court services.
- There is a change in any of the terms of the placement (e.g., rate of payment).

The contract is approved by the worker's supervisor, or if the contract involves a difficulty of care payment, by the service area manager. The sequence of signature depends on local office procedures.

Distribution

After the form is completed, make a photocopy to file in the child's case record and give the original to the foster parents.

Data

The child's name and birth date corresponds to the information entered in FACS.

The effective date is the date of placement or the date the revised terms become effective.

Special provisions include any specific obligations either for the worker or the foster parents, such as transportation for counseling, arrangement for home visits, etc. Each foster parent signs the contract.

The special provision section also needs to include the entry of all applicable names and phone numbers. The social work case manager responsible for the placement of a child in family foster care enters their home phone number as an after-hours emergency number.

Any additional emergency numbers that the foster parents may need are entered in this section.

Purpose

Form 470-2541 is prepared to facilitate the request for foster parent training approval and to document the service area's decision.

Source

The English version of the form is printed in two-part self-carbon sets. Order supplies from Iowa Prison Industries at Anamosa.

Print supplies of the Spanish version of the form from the manual or SharePoint.

Completion

A representative of a licensed child-placing, child-caring agency, a local DHS licensing worker, or an agency, institution, or association with expertise in any of the approved content training areas may submit applications for approval of training.

Submit the application at least 30 days before the training. Since the Department has 30 days to approve or deny the training, it is recommended that applications be submitted 60 days before the training.

Distribution

When the training is offered statewide:

- Send the form to the foster family program manager in Central Office at:
  DHS Division of Adult, Children and Family Services
  5th floor, 1305 E Walnut St
  Des Moines, IA 50319-0114
- Upon approval or denial of the request, the program manager returns one copy to the applicant and keeps the original with the attached detailed description.

When the training is offered within one service area:

- Send the form to the Department office for that service area.
- Upon approval or denial of the request, the Department office that received the form returns one copy to the applicant and keeps the original with the attached detailed description.

Data

The person (applicant) submitting the form:

- Completes:
  - The title of the training.
  - The provider of the training.
  - The dates of the training.
  - The number of credit hours requested.
  - The name and title of the requester.
  - The address and phone number of the requester.

General Accounting Expenditure, GAX

Purpose

The *General Accounting Expenditure* is used to authorize payment for a variety of expenses. These instructions relate to:

- Obtaining reimbursement for photographs, X-rays, other physical or mental examinations or tests, and costs directly associated with these services when performed at public expense as medically indicated for child abuse reports;
- Claiming the following foster care and adoption expenses:
  - Medical expenses for children in presubsidy that cannot be covered by the Medicaid program.
  - Respite care of over 24 days per year.
  - Life books.
  - Funeral expenses for children under the guardianship of the Department.

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms.

Completion

The Department worker or designated clerical staff prepare the form when expenses are incurred which require issuance of a special warrant. The person or agency making the claim must sign it and may be asked to complete the description section, but Department staff should do the coding.

Four copies are essential. In addition, local procedures may require a copy for the claimant or a control copy for the service area file.

For **child abuse assessment** expenses, the person or agency taking the photographs or X-rays or performing the tests or examinations is "the claimant." The claimant must submit:

- A cover letter in duplicate.
- A *General Accounting Expenditure* in triplicate for each child.
- Invoices when available.

The cover letter contains the following information:

- The child's name, age, and address
- The name of the worker or child protective assessment unit to whom the services, reports, photographs, X-rays or test results were provided
- The date the photographs or X-rays were taken
- A statement by the claimant indicating agreement to keep documentation of the services provided for five years, or agreeing to provide them to the Department for retention

Distribution

Send the original GAX with original signatures along with original receipts or verification and two copies of the whole packet, as follows:

- For child abuse assessment expenses, send both copies of the cover letter and the form to:

  DHS Central Abuse Registry
  PO Box 4826
  Des Moines, IA 50309-4826

- For funeral expenses, send the material to the service area manager for approval and then to the Bureau of Purchasing, Payments, Receipts and Payroll.
- For other expenses, send the material to the service area manager for approval and then to the foster care or adoption program manager in the Division of Adult, Children and Family Services.
- For medical expenses, also send a memo explaining what the charges are and why they cannot be billed to Medicaid.

Always keep a control copy in the child's case record.

Data

Complete the form as follows:

- *BUDGET FY*: Enter the last two digits of state fiscal year in which the expense is incurred. Claims cannot overlap fiscal years. The state fiscal year ends on June 30. A new fiscal year begins on July 1. Claims cannot be made for June and July together, because these months are not in the same fiscal year.
- *DATE*: Enter the date that the form is initiated.
- *I/3 VENDOR CUSTOMER NUMBER*: The I/3 vendor number is a number the state accounting system assigns to identify vendors. It is associated in the I/3 system with the federal EIN (tax identification number) or the SSN (social security number).
- *AGENCY NAME*: Enter "Department of Human Services."
- *VENDOR NAME AND ADDRESS*: Enter the name and mailing address of the person being reimbursed. The warrant will be made out to this name and mailed to this address.
- *FOB*: For foster care or adoption expenses, enter the name and state identification number of the child for whom the expenses were incurred. Leave blank for multiple life books.
- *ORDER APPROVED BY*: For foster care or adoption expenses, enter the original signature of the service area manager or authorized designee and the date signed. (If a stamp is used, the person approving the claim must initial the entry.)

Guardianship Authorization, Form 470-0738

Purpose	Form 470-0738 is used to record authorization for a child under the guardianship of the Department to get medical care, enlist in the military, marry, or get a driver's license.
Source	Print supplies of this form from the manual or SharePoint under Employee Manual/Forms as needed.
Completion	The social worker or facility staff member prepares the form when a child under the guardianship of the Department: ▪ Is placed in foster care or pre-adoptive care (to authorize emergency care only); ▪ Needs major medical, psychiatric, or surgical (before requests are submitted to hospitals or physicians); or ▪ Is seeking to operate a motor vehicle, to enlist in the armed forces, or to marry. The form is valid for one authorization only. Keep pre-signed forms in each office for emergency medical situations only.
Distribution	Submit the unsigned original to the service area manager or designee or to the facility superintendent. After the form has been signed, sent it back to the originator for distribution as follows: ▪ Send the original: • To the medical provider in medical cases; • To the recruiter in enlistment cases; or • To the child for marriage or operation of a motor vehicle. ▪ Send one copy to the court with jurisdiction over the child. ▪ When the child has parents with residual parental rights, send one copy to the parents. ▪ File a copy in the child's case record. ▪ When the child is in a facility, keep one copy in the institutional record.
Data	The form identifies the child, the Department's authority, and the purpose of the authorization.

Guardianship Subsidy Agreement, Form 470-3631

Purpose	Form 470-3631 serves as the agreement between the Department and a child's guardian.
Source	Department staff can print the form from the manual or SharePoint under Employee Manual/Forms.
Completion	The Department worker prepares a separate agreement for each child. Each guardian, the worker, and the worker's supervisor must sign the agreement. Payments cannot be made before the application is completed and the agreement is signed by the Department and the guardians, and guardianship has been transferred by the court. The agreement for subsidy is prepared initially at the time of the transfer of guardianship, and whenever the terms of the agreement are modified.
Distribution	After obtaining all signatures, distribution is as follows: ▪ Keep a copy in the child's file. ▪ Give a copy to the guardian. ▪ Provide a copy to the court.
Data	The form identifies: ▪ The parties to the agreement (the Department and the guardian). ▪ The terms of the agreement. ▪ A successor guardian if named. ▪ A summary of the benefits agreed to: • The guardianship subsidy maintenance payment. • Non-recurring expenses related to finalizing the guardianship. • Any agreed upon special services and the reason for special services. Each agreement must be signed and dated by the guardian, the Department worker, and the service area manager or designee. Enter the date a copy of the agreement was provided to the guardian.

Purpose	Form 470-0720 provides health information on the prospective foster family members to satisfy the regulatory mandate that applicants must meet.
Source	Print supplies of this form from the manual or SharePoint under Employee Manual/Forms.
Completion	Complete the form before licensing of the prospective family home. Medical re-examination may be required at the discretion of the health practitioner or the supervising agency. The recruitment and retention contractor: ▪ Completes Section A, addressed to the practitioner, and ▪ Inserts the name of the agency to whom the information is to be released. Separate forms are required if family members are under the care of different physicians. The family completes the history in Section C and signs the form to authorize the release of examination results. (In the case of minor children, the child's parent signs the form.) The practitioner completes Section B.
Distribution	Give one copy of the form to the applicant. You may make a photocopy as a control. When the completed form is returned, the contractor keeps a copy for its file and places the original in the licensing packet sent to the Department for the DHS licensing file.
Data	The form includes the family's reported health history and the practitioner's statement as to whether the family's health would prevent them from providing the needed care or would be detrimental to the well-being of a child placed in their care.

ICJ Report of Sending State Upon Parolee or Probationer Being Sent to the Receiving State, Form V

Purpose	Form V is used to notify the state that has approved placement that a youth is being transferred to their jurisdiction for supervision. The form provides information concerning travel. Do not transfer supervision to another state without verbal or written approval from the Interstate Compact on Juveniles office in the receiving state. Follow up all verbal approvals with a written approval within ten working days of the date the verbal approval was granted.
Source	Form V is available as a template at juvenilecompact.org.
Completion	Complete this form and acknowledge the receipt of the form.
Distribution	Complete the original in the electronic database or complete the PDF and upload it to the electronic database and then route to the deputy compact administrator.
Data	Complete as follows: ▪ *TO (Receiving State)*: Enter the state in which the juvenile is residing or will reside. ▪ *DATE*: Enter the date the form is completed. ▪ *FROM (Sending State)*: Enter the state of probation, parole or adjudication; the state requesting cooperative supervision services. ▪ *RE (Name of Juvenile, etc.)*: Enter the juvenile's name and vital information as indicated. ▪ *Select the appropriate box*: Select "will depart" or "has departed" the sending state. Enter the mode of transportation. Enter the date of departure. Select either "in person" or "by telephone" or "by letter." Complete the reporting instructions as indicated on the receiving state's report. Check any enclosures if they apply. ▪ *Signed*: The sending state's caseworker or parole or probation officer signs the form. Enter the title and agency of the signer as requested.

ICPC Report on Child's Placement Status (ICPC 100B), Form 470-0788

Purpose

Form 470-0788 (ICPC 100B) is used to communicate between the placer, the supervising agency, and the respective compact administrators regarding the status of a placement requested under the Interstate Compact on the Placement of Children. It is a national form, known as the ICPC 100B.

Source

Form 470-0788 (ICPC 100B) is available as a template in SharePoint under Employee Manual/Forms. Supplies of the form may also be printed from the manual or SharePoint.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The person supervising the placement or causing the child to be placed completes this form each time:

- A placement is made.
- A placement is changed.
- An approved placement is canceled.
- A placement is terminated.
- A case is closed.
- There is a change of address or status of the placement (e.g., from foster care to adoption).

The Department worker is responsible for preparing the form for all children in the Department's custody or guardianship who are placed out of state and for all children placed into Iowa for whom the Department has assumed supervision under the compact.

When courts, probation officers, or private agencies have placed a child in another state or accepted supervision of a child from another state, their staff are responsible for preparing the form.

When there is a change of purpose in an existing placement, e.g., from foster care to adoption, form 470-0781 (ICPC 100A) may be required at the request of the receiving state.

Distribution

Email form 470-0788 (ICPC 100B) to the ICPC service area liaison. The liaison sends to the ICPC office who forwards to the receiving state.

Data

Section I – Identifying Information

Enter the full legal name and birthdate of the child for whom this placement information is being reported.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010315

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

Enter the names of the legal parents as on form 470-0781 (ICPC 100A). Enter the name of the resource, the address, and type of care. Enter the same type of care that was chosen on form 470-0781 (ICPC 100A) (e.g., adoptive home, foster family home, group home care). Enter the relationship for relative placements.

Section II – Placement Status

To confirm the initial placement, check the box that applies. Enter the exact date the child was placed in the receiving state.

If some aspect of the placement changes while the child remains in the receiving state, complete another ICPC 100B. Check the "Placement Change" box and indicate the exact effective date of the change.

If the child moves from one placement resource to another, enter the updated placement information. For example, if a child leaves the parents' home and is placed in a residential treatment center, complete the facility's name and address and indicate the new "Type of Care."

Subsequent ICPC 100B forms will list the new placement resource under "Identifying Information." Any additional moves to place the child within the receiving state will be reflected in this same manner.

If only the name (e.g., mother remarries) or address (original placement resource moves) changes, check and complete only those items that apply.

Section III – Compact Placement Termination

Check the boxes that apply:

- *Adoption Finalized*: If an ICPC adoptive placement has been finalized (consummated), check that box and the appropriate box for the state in which finalization occurred, "In Sending State" or "In Receiving State." Attach the final adoption decree.
- *Child Reached Majority/Legally Emancipated*: Check this box if the child has reached majority age and has simultaneously ceased to be the responsibility of the sending agency or if the child has become emancipated through legal action such as marriage or court decision.
- *Legal Custody Returned to Parent(s)*: Check this box when the child's legal custody or guardianship is returned to the parent with the concurrence of the receiving state. Attach the court order transferring custody to the parents to form 470-0788 (ICPC 100B).
- *Legal Custody Given to Relative*: Check this box when the child's legal custody or guardianship is awarded to relatives (other than parents) with the concurrence of the receiving state. Attach the court order transferring custody to the relative to form 470-0788 (ICPC 100B).

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

- *Legal Custody Given to Other*: Check this box when the child's legal custody or guardianship is other (other than parents or relatives) with the concurrence of the receiving state. Enter the name and relationship to the child. Attach the court order transferring custody to the other to form 470-0788 (ICPC 100B).
- *Treatment Completed*: Check this item when the placement resource has been providing a specific treatment-oriented service; that service has been completed; and the child is, therefore, being discharged from the facility (e.g., residential treatment center). This box may also be checked if the child was placed through Article VI of the Compact.
- *Sending State's Jurisdiction Terminated with the Concurrence of the Receiving State*: Check this box when the jurisdiction of the sending state has ended for some reason other than the transfer of custody to parents or relatives with the concurrence of the receiving state's supervising agency or court.

  For example, if formal legal custody or guardianship is not going to be addressed but both states agree that supervision is no longer required or if both states agree to transfer jurisdiction to the receiving state.

  If the sending state's jurisdiction is terminated without the concurrence of the receiving state (including custody or guardianship transfer), the decision was made unilaterally and that box should be checked.
- *Unilateral Termination*: Check this box when the interstate agreement has been terminated unilaterally, whether by the sending or receiving state. A unilateral termination is one in which one state ends the interstate placement agreement without the concurrence of the receiving state.
- *Child Returned to Sending State*: Check this box when the child returns to the state the child was placed from. This may be due to a disruption in placement.
- *Child Moved to Another State*: Check this box when the child moves to a state other than the sending state.
- *Proposed Placement Request Withdrawn*: If you have submitted form ICPC 100A to request placement approval and have decided not to explore that resource further, check this box, list the "Name of the Proposed Placement Resource," and date of your decision to terminate the compact.

  Check this box only when no action has yet been taken on form 470-0781 (ICPC 100A). If you are withdrawing more than one request, submit a separate form on each and list each respective "Placement Resource."
- *Approved Resource Will Not Be Used for Placement*: Check this box when you have received an approved form 470-0781 (ICPC 100A) but have decided not to place the child with that resource. List the name of the "Approved Placement" and date of your decision to terminate the compact.

AMERICAN OVERSIGHT

- *Other*: Check and specify if the reason for compact placement termination is not listed above. For example, the entire family moved to another state (new address should be entered under "Placement Change"), the death of a child, the child ran away and whereabouts are unknown.

Date of Termination: Enter the exact date of the activity that ended the Compact Placement Agreement.

Section IV – Signatures

If a private person or local agency is completing the form, have a designated person sign, under "Person/Agency/Supplying Information," identify the agency, and date the signature.

The compact administrator, deputy, or alternate should sign and date the second block.

ICPC Request (ICPC 100A), Form 470-0781

Purpose

Form 470-0781 (ICPC 100A) is the sending agency's formal written notice to the receiving state of its intention to make an interstate placement. It requests a finding as to whether the placement would be contrary to the interests of the child. With most placements, it is also a formal request for a home study.

Following review by the receiving state, it is the official notice of the receiving state's decision. A favorable finding means that the placement can be made in conformity with the compact. An unfavorable finding means that the placement would be unlawful.

Form 470-0781 (ICPC 100A) must accompany all requests for placement to which the compact is applicable. It must be favorably acted upon by the receiving state before any compact placement is made.

Source

Form 470-0781 (ICPC 100A) is available as a template in SharePoint under Employee Manual/Forms.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The service worker, private agency, court, or any person placing the child may complete this form. It is prepared when a request is being made to place a child in another state.

Distribution

Distribute as follows:

- The sending agency/Iowa ICPC service area liaison uploads the completed 100A into the National Electronic Interstate Compact Enterprise (NEICE) and electronically sends to the sending state deputy compact administrator.
- The deputy compact administrator reviews, signs, and sends to the receiving state's identified administrator.
- The receiving agency administrator completes Section IV of the form and returns to the sending state ICPC office.
- The sending state administrator sends via NEICE to the sending agency.

Data

In the first two blocks, enter the name and address of the ICPC administrator (or deputy) to whom the request is being forwarded (TO) and the name and address of the ICPC administrator (or deputy) whose state is submitting the request (FROM). If information for the receiving state is unknown, enter only the name of the state.

Section I – Identifying Data

Enter the full legal name, social security number, Indian Child Welfare Act (ICWA) eligibility, IV-E eligibility, sex, gender, date of birth, and ethnic group of the child for whom this placement is proposed. If the child is known by a nickname, place it in parenthesis beside the legal name.

NOTE: An "Indian child" means any unmarried person who is under age 18 and is either:

- A member of an Indian tribe or
- Eligible for membership in an Indian tribe and is the biological child of a member of an Indian tribe.

Enter the names of the legal parents, usually the birth parents. When an adoption is finalized, the adoptive parents are the legal parents. If the parent is deceased, enter "deceased" after the parent's name.

If parental rights are voluntarily relinquished or terminated by the court, indicate in parenthesis beside the name. If you prefer to withhold the name, simply enter the status of the parent's rights.

Enter the complete name, address, and telephone number of the agency or person who is responsible for planning for the child and who is financially responsible for the child. In most cases, these two items will be the same (the sending agency). Email addresses are optional.

Section II – Placement Information

Types of Care Requested. Check the boxes designating the following:

- *Public Placement*: Public placement means a placement processed by a public child welfare agency where the state or local agency, or the court has authority to make the placement.
- *Private Placement*: Private placement means a placement made by a parent or a private or independent agency or representative not acting as an agent of the state (e.g., private adoption) or, in the case of a private residential treatment placement, where a parent or guardian is making the placement (e.g., private Residential Treatment Facility (RTF)/Residential Treatment Center (RTC) placement, etc.).
- *Subsidy*: Check the box for public foster care or adoption to denote IV-E federal, non-IV-E state or local, or none for no financial support. Select pending if not yet determined.
- *Adoptive Home*: Adoptive home refers to both agency and private or independent adoptive placement before finalization of an adoption. This may refer to an initial placement with a family where adoption is the intention or it may refer to the movement of an adoptive family from state A to state B following placement.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010320

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

If this is a request for private or independent adoption, you are required to also complete the fields for the names, address, social security numbers, and telephone number for the prospective adoptive resource. Indicate if it is a federally-funded adoption subsidy (IV-E) or a state- or local-funded subsidy (non IV-E), pending (if not yet determined), or none.

- *Finalizing in*: Check one box to indicate the state in which the adoption will be finalized if known, otherwise mark pending.
- *Foster Family Home*: A foster family home is a facility providing care and guidance for a child or children not related to the caretaker for regular 24-hour care, or a certified kinship care home. A family foster home may not operate without a license or a certificate as required by the laws of the receiving state.
- *Group Home Care*: A resource which is licensed or approved as a group home and which provides substitute care for a fee; usually a modified family-type setting which serves more children than a foster home but fewer than an institution.
- *Child-Caring Institution*: A group care facility that is licensed or approved to provide custodial care to a larger number of children than a foster home or group home.
- *Residential Treatment Center*: A group care facility that provides a specific treatment program outside the realm of a medical hospital, psychiatric hospital, or institution for children with an intellectual disability (e.g., a residential program for the treatment of alcohol or drug abuse. The receiving state is not obligated to supervise this type of placement made by the sending state.
- *Parent*: A biological or adoptive parent or legal guardian as determined by applicable state law and who is responsible for the care, custody, and control of a child or upon whom there is legal duty for such care.
- *Institutional Care – Article VI Adjudicated Delinquent*: A group care facility for adjudicated delinquents whose proposed placement is according to Article VI of the ICPC. These facilities may include group homes and residential treatment centers and may serve non-delinquents as well.
- *Relative (Not Parent) Relationship*: Specify relationship, such as maternal aunt, paternal grandparents, brother, etc.
- *Other*: Specify a type of care not already listed, such as:
  - Nonrelative free home (an unrelated family that does not require foster home licensure in the receiving state and does not need or want foster care payments)
  - Independent living arrangement (an older teenager who is still under the jurisdiction of an agency or court but is capable of independent living without the supervision of a foster home or group home)

- Maternity home
- Extended foster care (youth aged 18–21 years old)

Current Legal Status of Child. Check the appropriate box.

- *Sending Agency Custody/Guardianship*: The child is in the full legal custody or guardianship (depending on the state's terminology) of a public agency. For example, a public agency may be social services, youth corrections, probation, parole, or a tribe. If allowed by state law, the sending agency may also be a licensed private child placement agency, an adoption agency, or a birth mother.
- *Parent/Relative Custody/Guardianship*: The child is not under the jurisdiction of either an agency or the court but is the full legal responsibility of a parent or relative. This choice is most likely to be marked when a parent, relative or guardian wishes to place a child in one of the types of care listed.
- *Court Jurisdiction Only*: The court has an open abuse, neglect, or dependency case that establishes court jurisdiction with the authority to supervise or remove and place the child for whom the court has not taken guardianship or legal custody.
- *Protective Supervision*: A legal status created by court order under which the child is permitted to remain in the child's home or is placed with a relative or other suitable person and the court, the Department, or another agency designated by the court provides supervision and assistance.
- *Parental Rights Terminated – Right to Place for Adoption*: The sending agency has accepted a voluntary relinquishment of parental rights or has completed court action terminating parental rights and now holds complete jurisdiction over the child with the right to place for adoption.
- *Unaccompanied Refugee Minor*: This form is not used to report the initial placement into the United States but to request placement and services in a second state after a U.S. agency or court has been granted full legal responsibility (custody or guardianship). Check this box only if that is the case.

  Also mark the "Sending Agency Custody/Guardianship" box. If this is an unaccompanied refugee minor whose status warrants the ICPC 100A specific to those children (not the legal responsibility of an U.S. agency or court), do not use this form.
- *Other*: Legal status is not otherwise listed (e.g., legal action, such as a petition for custody or guardianship or to terminate parental rights, is pending).

  For example, the child is the responsibility of the sending agency under a voluntary agreement with the parent or legally responsible relative and no court action has been taken or is pending to alter the family member's legal rights over the child.

Name of Person(s) or Facility Child is to be Placed with. Enter the name, address, and telephone number of the agency, facility, or individuals where the child will be placed. These entries are required.

Name(s) of Prospective Adoptive or Foster Resource. If placement is with an agency (e.g., adoption, foster care, etc.) other than a residential treatment facility (RTF), provide the foster or adoptive resource where the child will reside.

Enter the name, address, social security number, and telephone number of the individual with whom the child will be residing if it differs from the information in the section "Name of Person(s) or Facility Child is to be Placed with."

Section III – Services Requested

Initial Report Requested. If the proposed placement is not for a group care placement and a current home study has not yet been received, check the box for the appropriate type of home study needed based on the type of care indicated in Section II.

Supervisory Services Requested. Check one of the following boxes to indicate how supervisory services are to be conducted:

- *Request Receiving State to Arrange Supervision*: Check this box if the sending agency cannot supervise and does not have a contractual or other agreement with a pre-determined agency to provide these services. Usually the public social service agency will be asked to provide supervision following an approved home study and subsequent placement.
- *Another Agency Agreed to Supervise*: Check this box if the sending agency already has received the formal agreement of a pre-determined supervisory agency. This choice is most likely to be checked in agency adoptive placements where an agency in the receiving state already has provided an adoptive home study and will be providing ongoing services to the adoptive family.

  Do not check this item because you know which county office of the public agency will receive this referral and may have discussed the case over the telephone. That does not constitute an agreement to supervise.
- *Sending Agency to Supervise*: Check this box if it is logistically feasible, it is the best-case plan, and the receiving state has granted the sending agency permission (which may or may not include licensure) to provide services in its state.
- *Other*: Check this box if requesting supervision for extended foster care youth (defined as youth aged 18–21 years).

Supervisory Reports Requested. Complete even though placement may not be a certainty at this time. Indicate how frequently you wish to receive progress reports. Standard timeframes are semi-annually, quarterly, monthly, or other. Check "other" when you wish to receive reports in a timeframe not listed.

Name and Address of Supervising Agency in Receiving State. If you know the name and address of the supervising agency, enter that information onto the line indicated. If not known by the sending agency, that information should be completed by the receiving state's compact office following receipt of a recommendation indicating that placement may be made.

Enclosed. Check which of the following items are enclosed:

- *Child's Social History*: Should accompany the majority of referrals; includes the pre-placement summary on adoption referrals and can be written with non-identifying information, if appropriate and preferred.
- *Home Study of Placement Resource*: Attach a current home study if one is not being requested; most likely to be checked if you already have an approved home study or the child is relocating with a placement resource and the home study is enclosed.
- *Court Order*: All applicable court documents should be enclosed (e.g., custody or guardianship orders, surrenders, orders terminating parental rights, and orders requesting a home study for the court).
- *ICWA Enclosure*: Obtain a letter from the child's tribe showing that the child is a member or is eligible for membership.
- *Financial/Medical Plan*: Attach the plan of how the proposed placement will be funded and how the children's medical needs will be covered.
- *IV-E Eligibility Documentation*: Attach a copy of the determination of IV-E eligibility.
- *Other Enclosures*: Indicates other pertinent materials, such as psychological evaluations, permanency plan, medical reports, school reports, birth certificates, and social security cards. It is not necessary to list them on the form.

Signature of Sending Agency or Person. The form should be signed and dated by anyone outside of the compact office who is completing the form as the sending agency. This includes a person with authority in the county social services agency, private agency, or court and any private individual or family member who is legally responsible for the child (as indicated in Section I and Section II, Legal Status).

Signature of Sending State Compact Administrator, Deputy or Alternate. Pursuant to Article III(d) of ICPC.

If the regulations of the sending state provide for transmittal of the form through the sending state's compact office, the compact administrator, deputy, or alternative in the sending state must sign and date the form. This is almost always the case.

IV-E Changes, Form 470-3918

Purpose	Form 470-3918, *IV-E Changes*, is used by social work case managers (SWCM) and social worker IVs (SW4) to communicate information to IV-E workers regarding changes that occur during a child's episode of out-of-home care. The IV-E worker uses the form to document the effect the reported change has on IV-E eligibility and claiming.
Source	Complete this form in JARVIS / IV-E Tracking.
Completion	The **SWCM or IV-E worker** completes this form as changes occur during a child's out-of-home care episode.
Distribution	The SWCM submits the form to the IV-E worker in JARVIS / IV-E Tracking. The IV-E worker must print and file the completed copy of the form and associated documents in the IV-E case record.
Data	Complete the form as follows: **Section 1: SWCM or IV-E Worker**. Complete the child's information. Section 2: SWCM ▪ Complete the applicable section based on the type of change that occurred. ▪ Upload applicable court orders to JARVIS / IV-E Tracking. Section 3: SW4 ▪ Identify the RE2 due date. ▪ Indicate whether the court order contains an RE2 finding and the date FCTL / database entries were completed. ▪ If the child is placed in a Qualifying Residential Treatment Program (QRTP), complete the sections regarding ongoing QRTP requirements. ▪ Sign and date the form. **Section 4: IV-E Worker**. Check the box next to the applicable change and complete the information regarding the change. **Section 5: IV-E Worker**. Indicate whether IV-E funding can be claimed. If the funding status changed, include the effective date of the change. **Section 6: Medicaid Entries**. The IV-E worker completes the information on Medicaid entries and signs and dates the form.

IV-E Initial Placement Information, Form 470-3839

Purpose	Form 470-3839 is used by the social work case manager (SWCM) to communicate information to the IV-E worker regarding a child's removal from the home. The IV-E worker uses this form to document the IV-E determination.
Source	Complete this form in JARVIS / IV-E Tracking.
Completion	The **SWCM** completes Section 1 of this form for each child who has been placed in out-of-home care, whether through a court order or through a voluntary placement agreement. Complete the form when a child is first placed in an out-of-home setting, within five working days of the agreement or order. Upload the following to JARVIS / IV-E Tracking: ▪ For voluntary placements, a copy of the agreement signed by the parents or guardian and the DHS case manager. ▪ For emergency removals and court-ordered removals, a copy of the first court order authorizing the removal. The **SW4** completes Section 4 only if the child is placed in a Qualifying Residential Treatment Program (QRTP) placement. The **IV-E worker** completes Sections 2, 3, and 5 to document whether IV-E initial eligibility and claiming requirements are met.
Distribution	The IV-E worker must print and file a completed copy of the form in the IV-E case record.
Data	Complete the form as follows: **Section 1: Information Needed About the Removal**. The SWCM completes the information regarding the child's removal situation and removal household information. **Section 2: (IV-E Worker)**. Determine if IV-E initial eligibility requirements are met and check the applicable "Yes/No" box for each requirement. Include dates where applicable. **Section 3: IV-E Claiming**. The IV-E worker completes this section regarding responsibility for placement and care and claimable placement if the child meets IV-E eligibility requirements. **Section 4: (SW4)**. If the child is placed in a Qualifying Residential Treatment Program (QRTP), indicate whether the Initial Assessment was completed and whether the QRTP facility meets criteria to claim IV-E.

Medicaid/State Supp Review, Form 470-5482, 470-5482(S), 470-5482(M), or 470-5482(MS)

Purpose

The *Medicaid/State Supp Review* is designed as the annual review document for Non-MAGI-related Medicaid.

This form contains instructions for completion and informs clients of their rights and responsibilities.

Source

The ELIAS and ABC system generate form 470-5482 automatically. Form 470-5482(S) is generated when the Medicaid member has indicated that Spanish is the preferred language.

DHS IM staff may issue a manual version of the form, 470-5482(M) or 470-5482(MS), using the templates in SharePoint under Employee Manual/Forms.

Supplies of this form may also be printed from the manual or SharePoint.

Completion

The ELIAS and ABC system produce form 470-5482 at the end of the month for Non-MAGI Medicaid when a case is active for Medicaid and due for an annual review. Give or issue the form to the member upon request.

The worker or the ELIAS or ABC system completes the top portion of page 1 before the form is sent or issued to the participant.

The member must complete the answers to all applicable questions. The participant may obtain help in completing the form from friends, relatives, advocate groups, or Department staff, if needed.

Distribution

Give or mail one copy of the form to the client for completion. The completed form is scanned and filed in the case record.

Data

Whenever the form is issued manually, provide a pre-addressed return envelope. Prepare the form as follows:

- Enter the Imaging Center name and address in the upper left hand corner of the form.
- Enter the case name and current mailing address.
- *Due Date*: Enter the date the renewal form is due back to the Department.
- *Case Number*: Enter the complete case number.
- *County Number*: Enter the county number.
- *Worker Name*: Enter the worker or team name.
- *Return this form by…*: Enter the date the renewal form is due back to the Department.
- *What if I have questions?* Enter the telephone number of the worker or team.

Mexican Consulate Notification, Form 470-4385

Purpose

Form 470-4385 is used to provide written notification to the Mexican Consulate Office in Omaha when:

- the Department has identified that a child in its custody is either a Mexican national or multiple-nationality minor. **NOTE:** This identification should be conducted on existing children in DHS custody as well as on new cases entering custody.
- a parent or custodian of a Mexican national or multiple-nationality minor has requested that DHS notify the Mexican Consulate Office.
- the Department learns that the noncustodial parent or parents of a child in state custody resides in Mexico (regardless of whether the child is a Mexican national or multiple-nationality minor).

Source

Complete this form using the template available in SharePoint.

Completion

Address the written notification to the Mexican Consulate and complete and send within ten working days of the initial date the child entered state custody.

NOTE: If the DHS worker becomes aware at some point after a child has entered state custody that the child is a Mexican national or multiple-nationality minor, send the written notification to the Consulate without delay.

Distribution

When the Department takes custody of a child who is determined or is believed to be a Mexican national or a multiple-nationality minor:

- Provide written information to the child and the child's parents or custodian, in both English and Spanish, explaining the juvenile court process and the rights of children and parents or custodians in juvenile court.
- Provide the child and family with the address and phone number of the Mexican General Consulate Office in Omaha, Nebraska:

  Mexican General Consul
  Consulate of Mexico
  Protection Department
  7444 Farnam Street
  Omaha, Nebraska 68114
  Phone: (402) 595-1863, (402) 312-5006 (cell)
  Fax: (402) 595-1845
  Email: proteccionomh@sre.gob.mx
- Let the family know that you will cooperate with staff of the Mexican Consulate in matters concerning DHS involvement with the child.
- Document the date you sent the notification letter in the case file. Keep a copy of the letter under correspondence in the case file.

Next Steps, Form 470-5592

Purpose

Form 470-5592 is an optional resource for working with families to document agreements or activities that fall outside of the scope of a *Safety Plan*. The *Next Steps* can be used whether or not a *Safety Plan* is required.

Families are often eager to get started on resolving issues identified during a protective assessment or service case. For example, parents may voice a commitment to making a mental health appointment for themselves or their child, seeking child care, cleaning their house, etc. The *Next Steps* should be simple – who will do what by when. Unlike the *Safety Plan*, the *Next Steps* can be a promissory note – a tool for creating a reminder of commitments that have been made for the good of the children and the family.

Never use the *Next Steps* to make temporary or voluntary changes in child custody. The *Next Steps* does not replace the *Safety Plan*, which must be completed if a child is determined to be safe with a plan. The *Next Steps* is not binding, but a way to engage families regarding commitments they or others (including the Department) make to help preserve and strengthen family connections.

Source

Print this form from the manual or SharePoint under Employee Manual/Forms.

This form is also printed as a three-part carbonless set. Order supplies from Iowa Prison Industries in Anamosa.

Completion

When deemed useful, the child protection worker or social work case manager completes the *Next Steps* with the family, documenting who has agreed to an action step, what that action step is, and when it will be completed.

Use the *Next Steps* during the course of an assessment or anytime throughout the Life of the Case. Only those who are agreeing to an action step need to be present and sign the *Next Steps*. The *Next Steps* can be created in the family's home, at a meeting involving the family, or in other circumstances where action steps are identified.

Distribution

If a printed form is used in place of the three-part carbonless form, a picture of the *Next Steps* must be taken with a state-issued phone or camera.

Leave a copy or the original of the completed form with the family. Keep a copy for the Department's records by uploading the copy or photo of the completed form into File Manager (located within the JARVIS-STAR assessment module) or in the service case file.

Data

Family name: Document the last name of the family. The child protection worker may want to include the name of the child victim. The social work case manager may want to include the name of the youngest child.

Non-Law Enforcement Record Check Request Form A, Form 595-1489 or 595-1489(S)

Purpose

Non-Law Enforcement Record Check Request Form A, form 595-1489 or 595-1489(S), is used to authorize a check for criminal convictions on the prospective relative placement and anyone aged 14 or over who lives in the relative's home or has access to a child when the child is alone.

Source

DHS service staff can complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

The English version of this form is also printed in pads of 50 two-part sets. Order supplies from Iowa Prison Industries in Anamosa.

Print the Spanish version of this form from the manual or SharePoint.

Completion

At the time of initial consideration of the relative for placement, complete this form for:

- The relative, and
- Each person aged 14 or over who:
  - Resides in the relative's home,
  - Works in the home, or
  - Has access to a child when the child is alone.

Obtain the signature of the person being checked under "waiver," so a complete record check may be performed.

When the family returns the forms, check each person's records using the Single Contact Repository (SING) system or the Courts Online website.

When a person has criminal or abuse records, send form 470-2310, *Record Check Evaluation*, to the subject of the record if still wanting to consider the home as a possible placement.

Distribution

Send the family one copy of the form for each person to be checked.

The completed forms are filed in the child's file.

Data

Complete the form as follows:

- Enter the requesting worker's name, work address, fax number, and telephone number in the "From:" spaces.
- Enter the name, maiden name, sex, social security number, and birth date of the person whose records are requested.
- The requesting worker signs the "request" section.

Notice of Action: Foster Family Home, Form 470-0709 or 470-0709(S)

Purpose

Form 470-0709 or 470-0709(S) is used to notify the applicant for a foster family home license of licensing decisions.

Source

Complete the English or Spanish versions of the form using the templates in SharePoint under Employee Manual/Forms.

Completion

The licensing supervisor or SWCM completes the form when making a foster family home licensing decision, including:

- Issuance of a full license on application, reapplication, or completion of a corrective action plan under a provisional license.
- Issuance of a provisional license on application or reapplication.
- Denial of a license on application, reapplication, or expiration of a provisional license.

NOTE: The license will not be renewed if the applicant fails to return the application for renewal. The notice is effective the last day of the licensing year. The service area manager or designee reviews and signs the form.

Distribution

Make three copies of the completed form. Send the original to the applicant. **NOTE:** Send all denial notices to the applicant by restricted certified mail so that the date of receipt can be recorded for appeal purposes.

The service area manager may send a letter with this notice of action, especially in the case of adverse actions. Any information contained in the letter shall agree with the information and appeal rights contained on this form.

File a copy in the Department licensing file. Send a copy to the recruitment and retention contractor. The contractor initiates payment of the training stipend if the initial license is approved.

Data

Indicate if a new license or renewed license is being issued.

Check the applicable choice and fill in the dates and license capacity if requested.

If a full or provisional license is issued, indicate the effective period of the license and the capacity of the home. If any other limitations are being placed on the home, type the limitation in the space provided.

If the application is denied:

- Indicate all specific sections of Iowa Code Chapter 237 and of 441 Iowa Administrative Code Chapters 112 and 113 being used as reasons for the denial. Include the number.
- Explain the specific facts that support the legal basis for the negative action. Use an additional page if necessary.

The child protective worker generates this form following the assessment, when abuse is determined to have occurred by a preponderance of the evidence, but the incident was not placed on the Central Abuse Registry because the incident was minor, isolated, and unlikely to reoccur. Prepare a form for:

- The subjects of the report.
- The mandatory reporter who made the report, if applicable.
- The employees of a child protection center involved in the child abuse assessment, if applicable.
- Child care facility administrators, if applicable.
- The DHS child protective worker who assisted in completing the assessment by conducting a courtesy interview, if applicable.

NOTE: A subject of the assessment or that person's legal representative completes page 2 of the form when wishing to receive those portions of the summary to which they may be entitled.

Distribution

The form is mailed from Central Printing when completed in JARVIS.

If Central Print is not used, mail the form and upload a copy into the File Manager, located on the STAR Assessment module in JARVIS.

The county attorney and juvenile court have access through the portal.

Data

If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS:

- The name and address of the person to whom the form is sent.
- The date the notice is sent.
- The incident number that was assigned to the report at intake.
- The name of the child protective worker, the supervisor, and the Department's office telephone number and address.

Notice to Relatives and Parents, Form 470-4769 or 470-4769(S)

Purpose

The *Notice to Relatives and Parents* is used to:

- Notify a child's relatives that the child's custody has been transferred to DHS for the purpose of placement.
- Ask if the relative is willing to be considered for placement of the child or to provide assistance or support for the child.
- Identify possible resources available for the relative if the relative takes placement of the child and many of the requirements for becoming a licensed foster parent.
- Identify benefits and availability of the State's Subsidized Guardianship Program.

Source

The form is generated from the Comprehensive Child Welfare Information System (CCWIS), under the Child Services module in JARVIS.

Completion

The child protection worker or social work case manager completes the required fields in CCWIS within 30 days of the court order that transfers the child's custody to DHS for placement with the child's grandparents, adult siblings, parents of the child's siblings or half siblings, aunts, uncles, and other relatives identified by the child's parents.

Ensure that you have signed releases from the child's parents before releasing any information to the relatives regarding the child and the removal. A release of information is not needed to send the relative notice to the relative.

Distribution

The notice is generated and sent to each relative through Central Print. A copy is stored in the CCWIS system, under the Child Services module in JARVIS.

Notice to Schools for Child in Foster Care, Form 470-4894

Purpose

Form 470-4894 is used to notify school personnel that a child is in foster care or to engage educators to ensure and monitor appropriate school placement. If the child is transferring schools, the form triggers a five-day requirement for the district to transfer records. This form notifies educators at the receiving school to enroll the child immediately. Guidance regarding education of children in foster care, including how to access the appropriate school district Point of Contact, can be found in SharePoint.

Source

Form 470-4894 is available as a fillable PDF on the Department's website. DHS workers may also complete the fillable PDF in SharePoint under Employee Manual/Forms.

Supplies of this form may also be printed from the manual or SharePoint.

Completion

The social work case manager completes this form and initiates a Best Interest Determination:

- When a child has entered foster care, or
- When a placement change is expected for a child in foster care, or
- To engage educators regarding the education or behavior of a child in foster care.

Iowa Code section 232.2 requires the Department to:

- Provide evidence that there was an evaluation of the appropriateness of the child's educational setting;
- Provide evidence that a Best Interest Determination was conducted as follows:
  - The Department coordinated with appropriate local educational agencies to identify how the child could remain in the home school; or
  - If it was determined not to be in the child's best interest to remain in that school, that local educational agencies immediately and appropriately enrolled the child in another educational setting during the child's placement.
- Ensure that the child's educational records were provided to the new educational setting.
- Document the education stability of a child in foster care.

Iowa Code section 280.29 requires a school district, upon notification by the Department:

- That a child in foster care is transferring from one school district to another school district, to transfer all education records to that district no later than five school days after receiving notification.

Send the completed form to the Point of Contact at the child's school district of origin, who may forward the form to the appropriate education professional (i.e., counselor, homeless liaison). Send to one or both of the following, as appropriate, and place in the child's case file.

- The school the child is currently attending (school of origin).
- The school the child is likely to be enrolled in if a school change is being considered.

Data

The social work case manager completes this form as follows:

- *Name*: Include the name of a the Point of Contact at the child's school district of origin or the Point of Contact at the school the child is likely to be enrolled if a school change is being considered.
- *Address*: Address of the school district.
- *Greeting*: After "Dear," print the name of the Point of Contact at the school district
- *Child's Name*: Print the first, middle, and last name of the child.
- *Date of Birth*: Print the child's date of birth to help the schools identify the child.
- Date of Placement: Print the date the child was or is expected to be placed in a foster care home or facility.
- *Official Notification*: Check the appropriate selections.
- *Legal authority* **and** *Consent and release of information*: Consent from the parent or guardian is not required for DHS to share that the child is in foster care or to discuss the appropriate school placement. However, health, substance abuse, child protection, and HIV information may not be shared without parent or guardian consent. Encourage the parent to communicate with educators on behalf of their child, as appropriate.

  School officials with questions may contact the Department of Education staff indicated on the form.

Parent's/Guardian's/Custodian's Consent, Form 430018

Purpose

Department of Transportation form 430018 is used to provide permission for a child to obtain a driver license or operator instruction permit.

Source

Access this form by copying this link into your browser: https://iowadot.gov/#/services. When the website opens:

1. Click on the FORMS tab.
2. When the Iowa DOT Portal opens, enter either 430018 or Parent/Guardian Consent. It is not necessary to check Form under Type.
3. Click on the form from the list of forms appearing on the right.
4. Click on Form Details for instructions. Click on Complete Form to open the form.

Completion

The Department may provide consent only when all of the following conditions are met:

- A child in foster care is of appropriate age to obtain a driver license or operator instruction permit according to the Department of Transportation guidelines, and
- The parent is unable or unwilling to sign consent for the child to obtain the license or permit, and
- It is in the child's best interest to have a driver license or operator instruction permit, and
- Provisions of Iowa Code 321.180B have been met (as indicated on this form) if the consent is for an intermediate or full-privilege driver license.

The social work case manager or juvenile court officer completes all the fields on the form as directed. Check "ward" to represent the child.

A social work supervisor, social work administrator, or service area manager is required to sign the form.

The Department of Transportation will check the Department signature against a list of Department staff approved to sign.

Distribution

Provide the completed and signed form to the child's caretaker for use in obtaining an operator instruction permit or a full or intermediate driver license for the child.

Preplacement Screening for Neurodevelopmental and Comorbid Conditions (NACC) Foster Group Care, Form 470-5596

Purpose	Form 470-5596 is a screening tool used to determine appropriate referrals to foster group care's Neurodevelopmental and Comorbid Conditions (NACC) programs.
Source	Complete this form using the template in SharePoint under Employee Manual/Forms.
Completion	The Department and Juvenile Court Services referral workers complete this screening tool when a foster group care eligible child is believed to need care and treatment in one of the Departments contracted Neurodevelopmental and Comorbid Conditions programs. For Department cases, the completed tool is submitted to the Department's service area manager (SAM) in which the child resides. For juvenile court cases, the completed tool is submitted to the Chief Juvenile Court Officer of the judicial district in which the child resides. If it is determined by the SAM or Chief (or their respective designees) that the referral is appropriate for the NACC level of care, the referral to the NACC program or programs may proceed according to the foster group referral process. If the referral is determined not appropriate, the referral to a NACC bed shall not occur.
Distribution	Send the original to the SAM or Chief. File a copy in the child's case record.
Data	The elements of the form are self-explanatory. Complete each section before submitting the form.

Pre-Service Training and License Variance Request, Form 470-5511

Purpose	Department licensing staff uses the *Pre-Service Training and License Variance Request* to request a variance: ▪ For foster parent applicants to complete the 30 hours of pre-service training, or ▪ Of a non-safety licensing standard that meets an alternative equivalent licensure standard and does not have a negative impact on child safety.
Source	Complete this form using the template in SharePoint under Employee Manual/Forms.
Completion	The Department licensing worker completes the form. To request a variance of a licensing standard: ▪ Enter the rule needing approval of the variance. ▪ Enter the effective date that the variance is requested. ▪ Describe the proposed equivalent alternative to meeting the licensure rule. The social work administrator or designee checks the box indicating approval or denial of the request and signs the form.
Distribution	Send the completed original form to the service area manager or social work administrator for a response to a variance request. When the request for a variance is approved or denied: ▪ Return the original to the Department licensing worker. ▪ Send a copy to the retention and recruitment worker. ▪ Send a copy to the policy program manager in Central Office and enter the date sent.
Data	Document the reasons why the variance to 30 hours of pre-service training and the non-safety licensing standard is an alternative equivalent to the licensure standard.

Proof of Foster Care, Form 470-5536

Purpose

Proof of Foster Care, form 470-5536, is completed and given to a child "aging out" of foster care. The child may use this memo to:

- Provide proof of participation in foster care.
- Receive certain benefits made available to children who were in foster care.
- Determine eligibility for federal financial assistance to attend college.

Source

Complete this memo using the template available in SharePoint under Employee Manual/Forms.

Completion

The case manager completes this memo for any child exiting foster care of any type at age 17 and 6 months or older. If requested, complete and give this memo to a person who previously exited foster care at age 17 and 6 months or older.

The case manager has discretion to provide one or more additional copies.

Distribution

Provide this memo to the child before the child exits foster care. Hand deliver, email or mail the completed letter to the child.

NOTE: Provide a copy of the memo to Iowa Aftercare Services with the referral, if applicable.

Data

Enter information in following fields:

- Child's first and last name
- Child's date of birth
- Case manager's first and last name
- Case manager's title
- Case manager's complete address
- Case manager's email
- Case manager's phone number
- Issue date of the letter
- In the first paragraph, the date the child exited foster care or reenter the issue date of the letter

If the child is currently in foster care, the memo calculates the child's age when the memo is issued. If the child has exited foster care, the memo calculates the child's age upon exiting foster care. This age can be changed if necessary.

Provider Agreement, 470-0636

Purpose Form 470-0636, *Provider Agreement*, describes the responsibilities of a person providing in-home health-related care services to an IHHRC client. The agreement specifies the payment made to each provider by the client. The Department assures the eligibility of the client.

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.

Completion

The client and worker complete a Provider Agreement with each of the client's providers. If a provider has more than one client, the provider must have a different agreement for each client. A client may have more than one valid Provider Agreement if they have multiple providers. Before the service is initiated and annually thereafter, the form shall be signed by:

- The client,
- The provider,
- The HHS service worker, and
- The service area manager or designee.

Complete a new agreement when any of the following changes occur:

- Rate of payment
- Service to be provided
- Maximum cost
- Provider
- Who receives the client participation

Distribution Enter the information in IoWANS when the form is completed and signed by all parties. The original goes to the HHS service worker for the service case file. Mail a copy to the provider and to the client.

Data

Provider Number: IoWANS generates the provider number after the HHS service worker enters all information into IoWANS. (Information is entered in IoWANS under the provider tab.)

NOTE: The provider may already be a traditional Medicaid provider. Search the provider name before entering new information.

- State ID: Enter the client's state identification number.
- Amendment: Indicates this amends an agreement already in effect.
- Payee Demographic Information (if applicable): Enter the name of the payee, if different from the client. Examples of payees are legal conservators, power of attorneys for financial affairs, and protective payees. If there is a payee, enter the telephone number, street address, city, state and zip code.

PS-MAPP Family Profile, Form 470-4019 or 470-4019(S)

Purpose

The *PS-MAPP Family Profile* is used to collect information about prospective foster/adoptive families during PS-MAPP training during family home studies.

Source

Obtain supplies of the English and Spanish versions of the form from the recruitment and retention contractor.

Completion

PS-MAPP trainers give this packet to the family when the family begins the licensing or approval process. Issue only the sections that apply to the particular family. The applicant family shall complete the profile by the last training session.

If PS-MAPP is waived, the home study worker provides this form to the family to complete before the last applicant home visit. Completing the profile reinforces that families can best explain their own strengths and needs. Families know themselves better than anyone else does.

It is the responsibility of prospective foster and adoptive parents to help home study workers get to know them better and to examine fully if adopting or fostering is right for them

Distribution

The family returns the original of the completed profile to the home study worker. It is retained in the family's HHS licensing file. The recruitment and retention contractor keeps a copy in its home study file.

Data

Part I of the profile includes sections for the applicants to report:

- General information on household members, including:
  - Demographic information
  - Medical and personal information
  - Legal information
  - Financial information
- References
- Special projects (pictures, letters, scrapbook)
- Personal profile for the mother
- Personal profile for the father

Part II of the profile collects information about how the family operates and what the family's expectations for a foster child are. There are several optional sections depending on family configuration:

- A couple with children
- A couple with no children
- A single person with children
- A single person with no children
- A parent's profile of children now in the home
- A personal profile for children 12 years of age or older
- A personal profile for children under age 12

Identifying Information

- *Name of child to be placed*: Enter the child's name (last name, first name, and middle initial, if any). If more than one child is proposed to be placed with the caretaker, list all additional children on a separate sheet and attach it to the back of the home study.
- *Age*: Enter the age of the child who is proposed to be placed, as of the date this form is completed. If more than one child is proposed to be placed with the caretaker, list each additional child's age on the separate sheet.
- *Sending state*: Enter the name of the state that issued form ICPC 101.
- *Ethnic group*: Enter the ethnic group to which the child belongs (as shown on form ICPC 101). If more than one child is proposed to be placed with the caretaker, list each additional child's ethnic classification on the separate sheet.
- *DOB*: Enter the child's date of birth as listed on form ICPC 101. If more than one child is proposed to be placed with the caretaker, list each additional child's date of birth on the separate sheet.
- *Dates of telephone contact*: Enter the dates (mm/dd/yy) that you made telephone contact with the proposed caretaker.
- *Dates of home visits*: Enter the dates (mm/dd/yy) of each home visit with the proposed caretaker. You must make at least one home visit with the proposed caretaker.

Proposed Caretaker/Spouse. This section relates to the proposed caretaker and spouse, if applicable. It is essential to enter complete information to answer each question.

- *Name*: Enter the name (last name, first name, middle initial) of the proposed **caretaker**. This information must agree with the names on form ICPC 101. (If the name does not agree with information on form ICPC 101, contact

- *Social security number*: Enter the social security number of the proposed caretaker. If the caretaker does not have a social security number, enter "none" on this line.
- *Address*: Enter the address (street, apartment number, city, state, and zip code) of the proposed caretaker. If the address is a rural route, include the route number and box number.
- *Telephone number (home) and (work)*: Self-explanatory. Include area code. If the proposed caretaker does not have a telephone, enter a message telephone number, if possible. If the proposed caretaker does not have a telephone number or a message telephone number, enter "none."
- *Marital status*: Check the box of the marital status of the proposed caretaker.
- *Living with (name)*: Enter the name (last name, first name, and middle initial) of the adult person (other than legal spouse) with whom the proposed caretaker is living, if any.
- *Caretaker/spouse*: Enter the name (last name, first name, and middle initial) of the caretaker's spouse, if the caretaker is legally married.
- *Employer's name and address*: Enter the company name and address of the employer, if the proposed caretaker is employed.
- *Employer's telephone number*: Enter the work telephone number, including area code, of the employer of the caretaker's spouse. If the employer does not allow the employee to receive telephone calls while on duty, specify that information beside the telephone number.
- *Income*: Enter a dollar amount for the gross income of the household. Check the box that reflects the pay period involved. You **must** submit income verification.
- *Head of household*: Enter the name of the adult (aged 18 or older) who is considered the head of the household, as evidenced by the name on rent receipts, utility bills, etc.
- *Number of members in household*: Enter the number of adults aged 18 or over and the number of children under the age of 18 in the household. Use the designation "A" for adults and "C" for children. Example: A = 2 and C = 1 indicates there are two persons aged 18 or over and one child under the age of 18 in the home.
- *Relationship to proposed caretaker*: Enter the relationship of the proposed caretaker to the head of household, if applicable. If they are the same people, enter "same."
- *Length of relationship (if not marital)*: Enter the length of time the proposed caretaker and head of household have had a relationship. If the head of household is the proposed caretaker, enter "same."

- *Relationship of proposed caretaker to child*: Enter the relationship between the proposed caretaker and the child who is being considered for placement in this home. Specify "paternal" or "maternal" to identify which side of the family is involved.

  NOTE: Consider "half" relationships the same as whole relationships (e.g., a half-sister is the same as a sister). Consider "step" relationships the same as if related by blood (e.g., a stepbrother is the same as a brother).

  A relationship by marriage terminates when death or divorce occurs, but if a child was born of the married parents, the relationship between the parents continues even after the marriage is dissolved.

  Legal relationships between the child and members of the extended family may be altered when a court has terminated parental rights of the birth parents. If the parental rights of only one birth parent have been terminated, the child's relationship to the other parent (and the relatives of that parent) remains in effect.
- *Reason for wanting to care for children*: Enter the reason given by the proposed caretaker for wanting to care for these children and include your assessment of the response.
- *How did you hear about child's situation?* Enter the response of the proposed caretaker to this question and your assessment of the response.
- *Do you understand the situation that caused this request?* Enter the response of the proposed caretaker to this question and your assessment of the response.
- *Ability to protect child from offender*: Enter your assessment of the ability of the proposed caretaker to protect the child from the person who perpetrated abuse or neglect.
- *Willingness to provide care (time-limited or open-ended)*: Enter the response of the proposed caretaker to this question and your assessment of the response.
- *Appropriateness of child care plans*: Enter the response of the proposed caretaker to this question and your assessment of the response. Include any necessary explanation if the proposed caretaker does not plan to use childcare or if the child to be placed with the caretaker does not require childcare.
- *Forms of discipline*: Enter the forms of discipline, which the proposed caretaker plans to use. Indicate whether corporal punishment will be used.
- *Is present income adequate?* Enter your assessment of the adequacy of the income in the home to meet both current expenses and the additional expenses if the child is placed in the home.
- *Willingness (ability) to care for child without financial help*: Enter the response of the proposed caretaker and your assessment of the response.

Recommendation for Denial of a Foster Family License, Form 470-0704

Purpose	Form 470-0704 summarizes the grounds for recommending denial of an application or reapplication for a foster family home license and records the decision. (See 18-E(1), *Denial of License* for further discussion.)
Source	Department staff can complete this form using the template in SharePoint under Employee Manual/Forms.
Completion	The Department licensing worker completes all but the "Denial Decision" section when recommending the denial of a license. The service area manager completes that section.
Distribution	The licensing worker submits the form to the service area manager or designee and keeps a copy as a control. After a decision is made, the licensing worker: ▪ Files a copy in the licensing file, ▪ Sends a copy to the foster family program manager in the Division of Adult, Children and Family Services along with the documentation supporting the denial, and ▪ Sends a copy to the recruitment and retention contractor.
Data	Indicate all substantiated reasons for the denial of an application or reapplication. Attach supporting data for each reason checked when submitting this form.

Recommendation for Provisional License, Form 470-0698

Purpose	Form 470-0698 summarizes the grounds for recommending issuance of a provisional foster family home license and records the decision.
Source	Print this form from the manual or SharePoint under Employee Manual/Forms.
Completion	The Department licensing worker completes the form when form 470-0695, *Resource Family Survey Report*, indicates that the applicant fails to meet one or more licensing standards, but the licensing worker believes that the situation meets the requirements for issuing a provisional license. Refer to 18-E(1), *Licensing Decision: Approval of License: Provisional License* for a discussion of the conditions for issuance of a provisional license. The licensing worker completes sections A, B, D, E, and F. The applicants sign in section C to indicate their commitment to the plan of correction.
Distribution	The licensing worker: ▪ Submits the form to the service area manager for a decision. ▪ Keeps a control copy until the form is returned with the licensing decision. ▪ Sends the applicant a photocopy of the completed form as the approved plan for correction. ▪ Keeps the completed form in the licensing file.
Data	The form describes: ▪ The applicant home's deficiencies, ▪ The applicant's plan, and ▪ The time frames for correction of the deficiencies. Be as specific as possible in describing the deficiencies in section A and the corrective action in section B. You may need to attach additional information to explain sections C, D, and E. Indicate in Section F whether the provisional license is recommended and sign in the space provided.

Recommendation for Suspension of a License, Form 470-0710

Purpose	Form 470-0710 documents the conditions requiring an emergency or time-limited suspension of a foster family home license and records the Department's decision.
Source	Complete this form using the template in SharePoint under Employee Manual/Forms.
Completion	The Department licensing worker completes sections A through E when recommending the suspension of a license. Each licensee signs section F, along with the licensing worker, to indicate commitment to the plan of correction. The service area manager or designee signs section G. The administrator of the Division of Adult, Children and Family Services completes section H.
Distribution	The licensing worker submits the copy to the service area manager. The service area manager or designee submits the approved copy to the administrator in the Division of Adult, Children and Family Services and keeps a copy until the approved copy is returned with a suspension decision. Place the completed form in the licensee's record.
Data	Ensure that: ▪ The deficiencies are clearly and completely identified in section A. ▪ Section D clearly describes the plan for correcting the deficiencies including the completion date.

Record Check Evaluation, Form 470-2310 or 470-2310(S)

Purpose	Form 470-2310 is used to collect additional information about a criminal conviction or a child abuse report. The worker and the evaluation team then use this information to evaluate the report's effect on the licensing or registration recommendation.
Source	Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms. Print the Spanish version of this form from the manual or SharePoint.
Completion	The person subject to the evaluation and/or the requesting entity completes sections A, B, and D for each founded report of child abuse or criminal conviction. Section C is the evaluation determination and is completed by the Department.
Distribution	The person subject to the evaluation completes the form and sends the form to the Department within ten calendar days of the date on the form. The Department reviews this information. On approved evaluations, a copy of the completed *Record Check Evaluation* is sent to the requesting entity. On denied evaluations, a copy of the completed *Record Check Evaluation* is sent to the requesting entity and the person subject to the evaluation.
Data	*Part A. Agency/Provider/Person Requesting Evaluation*: The agency, provider, or person requesting the evaluation completes this section. Include the requesting entity, requestor's name, and contact information. *Part B. Person Being Evaluated*: The person completing the form verifies who is being evaluated, previous or maiden names, and the position they are applying for. *Part C. Evaluation Determination/Notice of Decision*: The Department will evaluate and approve or deny a person's involvement in the role they have requested. *Part D*: The applicant must complete information regarding each crime or incident of abuse, changes made to assure safety in working with others, and whether the Department has evaluated the applicant in the past.

Request for a One Year Foster Family License, Form 470-5124

Purpose	Form 470-5124 is used to document the request for approval or denial of one-year licensure for foster families.
Source	Complete this form using the template in SharePoint under Employee Manual/Forms.
Completion	The Department licensing worker completes this form upon receipt of the licensing renewal packet for foster families who have completed their first two years of licensure. Use this form only for foster families whose performance in the previous licensing year indicates the need for a one-year license. Mark the reasons for the request as indicated on the form. *Other reasons* can be for: ▪ Continuing lack of compliance with adherence to foster care licensing rules, foster care placement contract, or foster family handbook; ▪ Behavior that could have negative impact on foster children, such as alcohol or substance abuse; ▪ Health or mental health concern. The occurrence of one or more of the reasons does not require a recommendation of a one-year license. Take into consideration the circumstances, foster family's history, willingness to take responsibility and made adjustments, and other relevant factors when deciding whether to make the request. Also document voluntary requests by the foster family in this section. If you need more space to write the information under *Other reasons*, use another sheet of paper and attach it to this form.
Distribution	Attach the home study, corrective action plan, letter to the foster parents, and other supporting documents or reports to this form. Send the completed form with attachments to the Foster Family Program Manager in Central Office. The Adult, Children and Family Services Division Administrator reviews the request and indicates on the form approval or denial and an effective date. The division administrator signs the form. The foster family program manager returns a copy to the Department licensing worker. The Department licensing worker then sends the foster family the *Notice of Action* and enters the foster home renewal date in FACS. If the division administrator approves the request for a one-year license, the Department licensing worker notifies the foster family program manager who completes the override in FACS.

Request for Approval of Supervised Apartment Living Foster Care Placement, Form 470-3186

Purpose

Form 470-3186 is used to:

- Obtain the service area manager's approval for:
  - A child aged 16½ or older to be placed into a SAL cluster-site placement, or
  - A child aged 17 or older to be placed into a SAL scattered-site placement.
- Obtain authorization for payment of start-up costs needed by the child.

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.

Completion

The child's social work case manager prepares the form after a foster care staffing has determined that a supervised apartment living placement is the appropriate level of care for the child.

Complete all information above the approval section and obtain the supervisor's signature. Then obtain the signature of the service area manager or designee.

The service area manager or designee:

- Approves or denies the placement,
- Approves or denies a waiver request for continuous placement (if applicable), and
- Indicates the amount of the initial allowance.

Distribution

File the signed original in the case record.

Data

The form lists the eligibility requirements for supervised apartment living placement and the amount of funds, if needed, for start-up costs.

Request for Child and Dependent Adult Abuse Information, Form 470-0643

Purpose

Form 470-0643 is provided for authorized persons to request information from the Central Abuse Registry.

Source

HHS staff may complete this form using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.

Completion

The person requesting information concerning a dependent adult that has been reported as abused completes this form.

Distribution

Send the form to the Registry for approval before releasing dependent adult abuse information, except when information is needed immediately as provided in 18-B(3), *Requests for Dependent Adult Abuse Information*.

The Registry completes the form indicating approval or denial of the request. The Registry returns the form to the requestor when:

- The request is an employment check, or
- The local office no longer has a copy of the report, or
- The request is delivered personally to the Registry, or
- The request is denied.

For other requests, the Registry returns the form to the local office. The local office provides the information that has been authorized for release to the person making the request.

NOTE: Do not release the social security numbers of either the dependent adult or the person responsible for the abuse. Delete them when you release a copy of form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Data

The requester completes:

- Name, phone number, and address of the requestor.
- Position and basis for authorization to receive the information.
- First, middle, and last name of the person the request is about.
- That person's maiden name or alias.
- That person's social security number, birth date, and address.
- The reason for the request.
- The date and the requestor's signature.

Section 1: This section identifies the requester and attests that the requester understands the legal provisions for handling child and dependent adult abuse information.

Request for Waiver of Pre-Service Training or Non-Safety Licensing Standards for Relatives, Form 470-4873

Purpose

Department licensing staff uses the *Request for Waiver of Pre-Service Training or Non-Safety Licensing Standards for Relatives* to:

- Request a waiver for relatives to complete the 30 hours of pre-service training, and
- Waive the non-safety licensing standard that does not have a negative impact on child safety.

Source

Complete this form using the fillable PDF file in SharePoint under Employee Manual/Forms.

Completion

The Department licensing worker completes the form, except for the "response" section, which the service area manager or social work administrator completes.

Choose the reason for waiving pre-service training that applies. To request a waiver of another licensing standard:

- Check the licensing standard that has the deficiency.
- Enter the effective date that the waiver is requested.
- Describe the circumstances that warrant the waiver.
- Describe the impact if a waiver is not approved.

Distribution

Send the completed original form to the service area manager or social work administrator for a response for a waiver request. When the request for a waiver is approved or denied:

- Return the original to the Department licensing worker.
- Send a copy to the retention and recruitment worker.
- Send a copy to the policy program manager in Central Office.

Data

Rescinding the Consent to Adoption, Form 470-2990 or 470-2990(S)

Purpose	Form 470-2990 or 470-2990(S) is used to rescind the *Consent to Adoption* that the Department previously granted.
Source	HHS workers can complete the English version of this form using the template available in SharePoint under Employee Manual/Forms. Print the Spanish version of this form from the manual or SharePoint.
Completion	The child's adoption worker prepares this form when it is determined before finalization of the adoption that it is not in the child's best interest to finalize the adoption based on one or more of the following circumstances: ▪ The request of the adoptive family. ▪ A founded child abuse report or an accusation of child abuse, pending the determination of the report. ▪ Conviction of a crime or an accusation of a crime, pending a court decision regarding the crime. ▪ The request of a child who is aged 14 or over and has reversed the decision regarding the adoption. ▪ Other verified indications that the adoption is not in the best interest of the child.
Distribution	Make two copies of the completed form. Send the original to the family's attorney and a copy to the adoptive family. Keep one copy in the child's case file.
Data	This form is self-explanatory.

Resource Home Concern, Form 470-5510

Purpose	HHS workers use form 470-5510, *Resource Home Concern*, to document concerns identified regarding a resource home that needs to be addressed and to coordinate successful resolution. The form provides a tracking mechanism for the resource home's history.
Source	Complete this form using the fillable PDF in SharePoint under Employee Manual/Forms.
Completion	**Part 1**. The HHS social worker, who has observed a concern, completes Part 1 of the form no later than one business day and sends it to the HHS licensing supervisor in the applicable service area to review and identify concerns requiring resolution. The supervisor assigns a timeframe for the RRTS provider to complete the initial home contact. If the concern requires an urgent resolution, the HHS supervisor calls the RRTS provider right away to ensure an immediate response. The HHS supervisor discusses the concerns and any immediate actions to be taken with the resource home. Any suspected child abuse will be reported to the Child Abuse Hotline: 1-800-362-2178. **Part 2**. The RRTS contractor completes this part with the steps to resolve the concern and any recommendation for a Corrective Action Plan, if applicable, and sends it to the HHS licensing supervisor within 10 business days of receiving the concern form to review. **Part 3**. The HHS licensing supervisor reviews the resolution plan in this part and signs it if the resolution is approved.
Distribution	Send a copy of the approved form to the HHS placement worker, HHS licensing worker, and the RRTS provider to file in the resource family file.
Data	The HHS licensing worker and the RRTS worker monitors the resolution plan and any corrective action plan to rectify the concerns. Keep documentation in the resource family file.

Rights of Youth in Out-of-Home Placement, Form 470-5337

Purpose

Form 470-5337 describes the rights of a youth in an out-of-home placement with respect to:

- Education,
- Health,
- Visitation,
- Court participation,
- The right to receive a credit report every year while in foster care,
- The right to be given certain documents if the youth leaves out-of-home placement at age 18 or older, and
- The right for the youth to stay safe and avoid exploitation.

Source

Form 470-5337 is printed in pads of 25 two-part carbonized sets. Order supplies from Iowa Prison Industries at Anamosa in the usual manner.

Supplies of this form may also be printed from the manual or SharePoint under Employee Manual/Forms.

Completion

The Department worker must explain the rights, in an age-appropriate manner, to youth on the worker's caseload when the youth becomes 14 years of age or, if the youth is older than 14, after the youth enters out-of-home placement.

After explaining the youth's rights, the youth must sign and date the form indicating that the worker has reviewed the rights in a way the youth understood and answered any questions the youth had.

The worker will review the rights with the youth as needed. The youth must sign and date a new form each time.

In Part C (Transition Plan section) of form 470-3453, *Family Case Plan*, the following statement appears in the transition plan:

A list of rights with respect to education, health, visitation, and court participation has been discussed with the youth. Also addressed was the right to stay safe and avoid exploitation. The rights document was provided to and signed by the youth, most recently on **(date)**. The rights document was provided to all legal parties of the case and was made part of the case plan. The document is stored in the case file.

The worker needs to put the most recent date the youth signed the form in this statement in the case plan.

Safe Plan of Care, Form 470-5616

Purpose

The purpose of the *Safe Plan of Care* is to protect the safety and well-being of infants born and identified as affected by substance abuse or withdrawal symptoms or Fetal Alcohol Spectrum Disorder following the infant's release from the care of a health provider.

The *Safe Plan of Care* addresses the health and substance use disorder treatment needs of the infant and affected family or caregiver. Monitoring the *Safe Plan of Care* helps to ensure that referrals are made and critical services are provided to the infant and family.

Source

Print this form from the manual or SharePoint under Employee Manual/Forms.

Completion

A safe plan of care must be developed for all infants (under one year of age) born and identified by a health care provider as affected by substance abuse or withdrawal symptoms or Fetal Alcohol Spectrum Disorder. A safe plan of care is required for infants affected by all substance abuse, legal or illegal.

After confirming with the health care provider that the infant is affected by substance abuse or withdrawal symptoms or Fetal Alcohol Spectrum Disorder and treatment services are appropriate, the child protective worker or social work case manager completes the *Safe Plan of Care* with the family and all relevant participants.

Whenever possible, complete the *Safe Plan of Care* before the infant is released from the hospital or immediately following the infant's release from a health care provider.

Distribution

Give a copy of the *Safe Plan of Care* to all participants involved in the plan.

If completing the *Safe Plan of Care* for a child abuse assessment or a family assessment, upload it into the File Manager on the STAR Assessment module in JARVIS.

If completing the *Safe Plan of Care* for a CINA assessment or an open child welfare case, file the document in the ongoing case file.

Data

Incident Number. Enter the number assigned to the relevant assessment.

Infant Affected. Enter the name of the child victim, the child's date of birth, and the FACS identification number assigned to the child.

Household Composition. Enter the name of each person living in the home with the child victim. For each person identified enter the date of birth, FACS identification number, and the relationship to the child. If applicable, under *Substance Dependency*, check the box regarding the type of substance abuse for each person listed. If the type of substance abuse is not listed, enter the name in the "Note" section.

Safety Assessment, Form 470-4132 or 470-4132(S)

Purpose

The *Safety Assessment*, form 470-4132 or 470-4132(S), helps to assess (at a point in time) whether any child is likely to be in imminent danger of serious harm or maltreatment, which requires a safety intervention and to determine what interventions should be initiated or maintained to provide appropriate protection.

Source

The English version of this form is available on the Safety Assessment tab on the STAR Assessment module in JARVIS.

Print the Spanish version of this form from the manual or SharePoint under Employee Manual/Forms.

Completion

The child protection worker must complete the *Safety Assessment*:

- Within 24 hours of the first contact with the child, and
- At the end of all child abuse assessments and on all family assessments when the child was not determined to be safe in the initial safety assessment.

The social work case manager must complete the *Safety Assessment* with supervisory consultation before:

- Deciding to initiate unsupervised visitation, and
- Deciding to reunify the child with the family, and
- Deciding to close the case or recommend case closure to the court.

Either worker also completes the *Safety Assessment* whenever circumstances suggest that the child is in unsafe situation.

Use RC-0104, *SDM Safety Assessment Guidance*, to complete the safety assessment. Review information obtained from systems checks, Department records, and any previous or current court involvement.

Distribution

The *Safety Assessment* is not distributed as part of the *Child Protective Services Child Abuse Assessment Summary* nor the *Child Protective Services Family Assessment Summary*. It is maintained within JARVIS and is considered assessment data. If the case is transferred for ongoing Department services, include a copy of the *Safety Assessment* in the referral packet.

Upon request, provide a copy of the *Safety Assessment* to the subjects of the report. Provide the *Safety Assessment* to a provider of safety plan services when there is a release of information signed by parent.

Data

Complete the following:

- **Client name**: The child protection worker enters the names of all of the child victims. The social worker case manager enters the youngest child's name.

- **County**: Enter the name of the county of residence of the child.
- **Worker name**: Enter the name of the assigned worker.
- **Date Assessment Completed**: Enter the date the Safety Assessment is completed (not the date it is entered into the system).
- **Assessment Type:** Check the item that describes the circumstances of the assessment:
  - **Initial**: Initial child protective safety assessment
  - Subsequent:
    - Child protective safety assessment at the end of the assessment, or
    - Unsupervised visitation safety assessment, or
    - Reunification safety assessment, or
    - Unsafe situations safety assessment
- **Case closure**: safety assessment prior to the decision to close a service case
- **Names of Children Assessed**: List the names of all children assessed.
- **Household name**: List the address of the household being assessed.
- **Caregiver(s) assessed**: List the names of all parents and caregivers assessed.

SECTION 1: Factors Influencing Child Vulnerability. Identify all the conditions resulting in any child in the household being more vulnerable to danger.

SECTION 2: Current Danger Indicators. Assess the household for each behavior or condition that describes a child being in imminent danger of serious harm and select all of the danger indicators that apply. If none apply, select "no danger indictors present" and skip to section 4.

SECTION 3: Safety Response – Protective Capacities And Safety Interventions. For each danger indicator identified, consider the resources available to the family and in the community that might help to keep the child safe. Select each protective capacity and safety intervention taken and explain how each protected or protects the child from the identified dangers.

SECTION 4: Safety Decision. The safety decision is based on the assessment of all danger indicators, all safety interventions, and any other information known about the case. Identify whether the child is:

- "Safe" (Do not complete a *Safety Plan* when no danger indicators are identified, but the Next Steps form may be used if desired.)

AMERICAN OVERSIGHT

SAL+ Life Skills Service Referral Form, 470-0014

Purpose	This referral form is for use by the Social Work Case Manager (SWCM) to make a referral to the Iowa Aftercare Services Program for a life skills service in Linn County. SAL+ Life Skills is a pilot project in Linn County only and is a component of the Iowa Aftercare Services Program. The service is a service directed to youth in a court ordered scattered site Supervised Apartment Living placement in Linn County, Iowa. The SAL placement must be supervised by a SWCM or Juvenile Court Officer. For youth age 18 to 20, a court order is not needed. Instead, use an approved voluntary placement agreement form 470-0715.
Source	Maintain in SharePoint staff resources.
Distribution	The SWCM completes the form and makes the referral as indicated at the bottom of the form. Keep a copy in the case record.

Sending State Priority Home Study Request, Form 470-3925 (ICPC 101)

Purpose	Form 470-3925 (ICPC 101) is used to alert the receiving state to the fact that the court that has jurisdiction over the child has determined that a priority placement of a child from one state into another state is necessary.
Source	Form 470-3925 is available as a template in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	The child's service worker in the sending state completes five copies of this form and other ICPC referral materials within three business days of receipt of a court order that indicates the court has determined that a priority placement situation exists.
Distribution	Send the original and two copies to the deputy compact administrator in the Division of Field Operations. Also send a copy to the court that requested the priority placement for verification that the ICPC referral was submitted timely. Keep a copy in the child's record.
Data	If more than one child is proposed to be placed with the caretaker, list all additional children on a separate sheet of paper and attach the sheet to the back of the home study.

Identifying Information

- *Name of child to be placed*: Enter the child's complete name, (last name, first name, and middle initial, if any).
- *Age*: Enter the child's age as of the date the form is completed.
- *Mother's name*: Enter the name of the mother of the child as found on the child's birth certificate.
- *Ethnic group*: Enter the ethnic group to which the child belongs, such as Caucasian, African-American, Native American Indian, Hispanic, etc. If the child belongs to more than one ethnic group, enter "Biracial" for the child's ethnic group membership.
- *DOB*: Enter the child's date of birth as listed on the child's birth certificate.
- *Father's name*: Enter the name of the father of the child as found on the child's birth certificate. If there is no father listed on the birth certificate, list the name of the alleged father if known, and specify "alleged." If the child's birth father is unknown, enter "unknown" on this line.

Proposed Caretaker. This section relates to the person who will be providing care for the child when placement occurs. Contact the proposed caretaker to determine the person's interest in caring for the child if the court order does not indicate such information.

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

Due to the time constraints for completing the home study, it is essential to include all identifying information about the proposed caretaker in the request.

- *Name*: Enter the name (last name, first name, middle initial) of the proposed caretaker.
- *Marital Status*: Enter the marital status of the proposed caretaker, as follows:

  S Single
  M Married
  Sep Separated
  D Divorced
  W Widowed

- *Living with*: Enter the name (last name, first name, middle initial) of the adult person with whom the proposed caretaker is living, if any. If the proposed caretaker is living alone (without any other adult in the home), leave this section blank.
- *Address*: Enter the complete address (street, apartment number, city, state, zip code) of the proposed caretaker. If the address is a rural route, include the route number of the proposed caretaker.
- *Home telephone number*: Enter the home telephone number of the proposed caretaker, including the area code. If the proposed caretaker does not have a home telephone number or a home message telephone number, enter "None" on this line.
- *Work telephone number*: Enter the work telephone number of the proposed caretaker, including the area code. If the employer does not allow the employee to receive telephone calls while on duty, specify that information beside the number. If the proposed caretaker is not employed, leave this line blank.
- *Social security number*: Enter the social security number of the proposed caretaker, if known. Otherwise, leave this line blank.
- *Relationship to child identified above*: Specify paternal or maternal to identify which side of the family is involved.

  NOTE: Consider "half" relationships the same as whole relationships (e.g., a "half-sister" is the same as a sister). Consider "step" relationships the same as if related by blood (e.g., a "stepbrother" is the same as a brother).

  A relationship "by marriage" terminates when death or divorce occurs, but if a child was born of the married parents, the relationship between the parents continues even after the marriage is dissolved.

  Termination of parental rights of a birth parent by a court severs all relationships between the child, the parent's parents, and all other relatives (either by blood or marriage).

- *Best time of day to contact caretaker*: Enter "a.m." if the best time to contact the proposed caretaker is between 8:00 a.m. and 12:00 noon (local time of the caretaker). Enter "p.m." if the best time to contact the proposed caretaker is between 12:00 noon and 5:00 p.m. (local time of the caretaker).

  Enter "evening" and specify the period if the best time to contact the proposed caretaker is after 5:00 p.m. and before 9:00 p.m. (local time of the caretaker).

- *Employer*: Enter the company name of the employer if the proposed caretaker is employed. If the proposed caretaker should not be contacted at work, indicate this fact beside the name.

- *Alternate contact name and address*: Enter the name (last name, first name, middle initial) and address (street, apartment number, rural route and box number, city, state, and zip code) of an alternate person who may be contacted in an effort to make contact with the proposed caretaker. Include the relationship of the contact person with the proposed caretaker.

Assessment of Child. This section relates to the child who will be placed with the proposed caretaker if the receiving state compact administrator recommends placement and court approval for placement is given.

It is essential to provide sufficient information so that the receiving state worker can complete an adequate assessment that will take into account the needs of the child, as well as the capacity of the proposed caretaker to provide appropriately for the child.

- *Case plan attached*: Check "yes" or "no" to indicate if the child's case plan is attached to the referral. If you have completed a case plan, you must attach it to the referral.

- *Financial/medical plan attached*: Check "yes" or "no" to indicate if the financial and the medical plans for the child are attached to the referral.

  For proposed placement with the child's parent, you may indicate that the parent is expected to assume financial and medical responsibility through private resources or public aid.

  For all other placements, you must include financial and medical plans with the referral to indicate how the proposed caretaker will meet the child's financial and medical needs.

- *Special needs*: Enter a description of all special needs, which require attention if the child is to be successfully placed with the proposed caretaker. Special needs of the child include all medical, physical, emotional, behavioral, educational, and psychological areas of functioning.

  If this information is contained elsewhere in the referral packet, enter the location for the information.

- *Handicaps: mental/physical*: Describe in detail all mental or physical handicaps which the child has and which must be taken into consideration in regard to the capability of the proposed caretaker to care for those conditions adequately. If this information is contained elsewhere in the referral packet, enter the location of the information.
- *Service needs/treatment requirements*: Enter all service needs and treatment requirements, which must be addressed in order to achieve and maintain an acceptable placement of the child.

  For each service need or treatment requirement listed, include the method by which payment for provision will be obtained, if such information is not included elsewhere in the referral (e.g., case plan, financial/medical plan, etc.).
- *School information*: If the child is under age on the date of the proposed placement, leave this section blank. If the child is aged five or older, enter the following information:
  - Name of school.
  - Grade last attended.
  - Report that includes most recent grades.
  - Whether special classroom attendance is necessary due to child being learning disabled (LD) or behaviorally disabled (BD).
  - Copies of the child's Individualized Educational Plan (IEP), if applicable.
  - Recommendations of most recent teacher, counselor, or principal regarding educational needs of child.
  - If the child is not attending school, give the reasons for nonattendance.
- *Other required pertinent information*: Check "yes" or "no" to indicate whether additional case material will be sent. If you select "yes," indicate a tentative date for submitting the additional material.
- *Worker's name*: Print your name (first name, last name).
- *Telephone number*: Enter your telephone number, including area code. If applicable, include the extension number.
- *Worker's signature*: Self-explanatory.
- *Date*: Self-explanatory.
- *Supervisor's signature*: If required by local office policy, enter the signature of your immediate supervisor.
- *Date*: Self-explanatory.
- *Telephone number*: If required by local office policy, enter your supervisor's telephone number, including area code.

Social History, Form 470-3615 or 470-3615(S)

Purpose	Form 470-3615 or 470-3615(S) provides a specific guide for completing the written social history that is required for each child in foster care.
Source	Complete this form using the templates available in SharePoint under Employee Manual/Forms. Save a copy to your My Documents.
Completion	The child's foster care worker completes the *Social History* within 60 days of the date the child enters foster care or kinship placement. Leave the child's social security number off the form until after termination of parental rights. When termination of parental rights is issued, give an updated copy of the *Social History*, form 470-3615, to the worker responsible for completing the *Social History* (if different than the child's current worker).
Distribution	Keep one copy in the child's case record. Attach a copy of the child's hospital birth records to the social history. The child's social security number is confidential and can only be shared with the foster parents, relatives, or foster care agency provider when a release has been signed by the child's parent or parents. Give a copy to the child's foster parents, relatives, and foster care agency provider along with a copy of the child's case permanency plan. **NOTE:** After termination of parental rights, include a copy in the child's adoption and guardianship file.
Data	Consult with the child's parents, relatives, and foster parents to obtain information needed to complete the social history. If the parent is unavailable or refuses to provide information, the worker completes as much as possible, using available information. AIDS/HIV information may be shared **only with written permission** of the child's parent or guardian or by order of the court.

Youth Transition Decision-Making (YTDM) Meeting Notes, Form 470-5161

Purpose	The *Youth Transition Decision-Making (YTDM) Meeting Notes*, form 470-5161, is the official youth plan developed during the YTDM meeting.
Source	Complete this form using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	The YTDM meeting facilitator engages the youth team and develops the youth's plan, with the youth, after a meeting is held.
Distribution	The facilitator disseminates the completed form to the identified team members. Keep the original form in the youth's case file.
Data	**Case Information**. Enter the following information: ▪ Youth's name ▪ Parent/caregiver name (if applicable) ▪ Parent/caregiver/noncustodial names ▪ Date of the youth transition decision-making meeting ▪ Facilitator's name ▪ Facilitator's approval number ▪ Next court hearing date and time ▪ Type of hearing **Desired Outcomes of this Meeting**. Enter the desired outcome of the meeting. **Fostering Connections**. The five fostering connections areas provide a consistent format for collecting, considering, and analyzing information about the youth. This consistency ensures that functioning areas most critically impacting health, housing, education, employment, and supportive relationships. Use of the five areas creates a common, consistent language as information about the youth flows from child protective workers to ongoing workers and service providers. The five areas provide a "common lens" through which the strengths and needs of the youth can be assessed, discussed, and used in planning and service provision. The five fostering connections areas consist of the following broad areas of functioning (each area has related subcategories): ▪ *Education*: Academic performance, graduation date, GED or high school diploma, extracurricular activities, job training options, IEP, financial aid, ACT/SAT/COMPASS tests.

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 359 (Attachment 2 of 3)

- *Employment*: Transportation needs, dressing for success, vocational rehabilitation, application and interview skills, maintaining employment, resume, informal support.
- *Health*: Insurance cards (medical, dental, vision), access to a physician, medication management, SSI, physical health, hygiene, mental health, reproductive health.
- *Housing*: Safe, affordable and stable, after 18, supervised apartment living, preparation for adult living, current housing.
- *Supportive Relationships*: Aftercare, healthy family connections, peers, Iowa foster care youth council, adult services, permanency pact, community connections, mentors, church.
- *Other*: Discuss financial management, life skills, vital documents (birth certificate, Social Security card, driver's license or state picture identification, Selective Service, healthcare proxy, etc.).

  NOTE: Discuss concurrent planning and permanency goals, any interstate compact issues, child and family cultural factors, language barriers, or if the Indian Child Welfare Act applies.

Establish a goal for each applicable area where a need is identified. It is critical that goals be developed in partnership with the youth. Goal statements should be strength-based and focused on achieving the outcomes essential for the youth.

After reviewing the strengths, needs, and goals for each area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

- In each area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible,
  - What do they agree to do, and
  - By when.
- Document the date for when the goal was completed or modified.

Crisis Plan. Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

Signatures and Notifications. Enter the name of invited team members, including their role, contact information, and whether or not they attended the YTDM meeting.

Youth Transition Decision-Making (YTDM) Youth's Dream Path, Form 470-5176

Purpose

The *Youth Transition Decision-Making (YTDM) Youth's Dream Path*, form 470-5176, is the official model to use during the YTDM meeting.

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms.

Supplies of this form may also be printed from the manual or SharePoint as needed.

Completion

The YTDM meeting facilitator develops the youth's dream path, in collaboration with the youth, after a youth transition decision-making meeting is held.

Distribution

The facilitator gives a copy of the completed form to the identified team members. Keep the original form in the youth's case file.

Data

Case Information. Enter the following information:

- Youth name
- Parent/caregiver name
- Parent/caregiver/noncustodial names
- Date of the YTDM meeting
- Date of the next YTDM meeting
- Facilitator name and approval number
- Next court hearing date and time
- Type of hearing

Desired Outcome of this Meeting. Use the Dream Path as a tool for the stabilization and action planning parts of the YTDM meeting.

The Dream Path includes the stabilization phase, which identifies the five Fostering Connection areas that need to be addressed and stabilized in the first column.

The five Fostering Connections areas are:

- Education
- Employment
- Health
- Housing
- Supportive Relationships

Complete the stabilization section of the YTDM youth plan by working through each of the five fostering connections categories from left to right. The far left column is available to write the current or 'Now" situation for the youth. Under the column, "What will happen," establish a goal for each applicable area where a need is identified. It is critical that goals be developed in partnership with the youth. Goal statements should be strength-based and focused on achieving the outcomes essential for the youth.

AMERICAN OVERSIGHT

After reviewing the strengths, needs, and goals for each area, identify the "Who will help me" (services or supports that may be helpful) to achieving the goals.

In each category list the action steps needed to achieve the goal. The steps should clearly identify:

- If youth is in agreement;
- Who is responsible;
- What do they agree to do; and
- By when, which is documented under either the 0 to 3 months column or the 4 to 9 months column.

Crisis Plan (Plan B). Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

To move into the Dream Path phase. Each YTDM meeting begins with a review of the five Fostering Connections areas to determine if changes or adaptations need to be made. Once the youth has achieved stability, the longer range planning can begin. Review the 'Dream' written in the 'cloud' on the far right of the document and determine the steps to head in that direction. Develop action plans with a six to nine months' time frame.

Each additional meeting of the team can look ahead further. The youth will be fully listened to and have input every step of the way. If there is disagreement, take the time to discuss the issue and resolve it before moving forward.

Each meeting covers strengths of the youth and a review of the previous assignments. Establish a new Crisis Plan (Plan B) at each meeting as well. Completion of the YTDM meeting process is determined by the youth and the team. It can continue informally after the youth ages out of the system, if desired.

Hello everyone. Based on our discussion today, we need to have more discussion about what's happening with the caseload count data being reported for title IV-E Foster Care Candidates (not Prevention Plan candidates) and children in title IV-E FC placements for Iowa's CB-496 reports. As noted, there is a significant discrepancy between what's being reported for caseload counts in both populations across administration claiming (Case Planning and Management Administration vs. Independent Legal Representation) where it should be comparable (see attached spreadsheet). From what David shared, the Case Planning and Management Administration caseload data is pulled from DHHS sources and the Independent Legal Representation data is entered on the form as reported by the State Public Defender's office.

I am also sharing Children's Bureau policy guidance pertaining to Title IV-E candidates for foster care found in the CB Child Welfare Policy Manual online. During the call today, I was referencing Question 2 found in this section but I encourage you to review any/all questions as you see necessary.
https://acf.hhs.gov/cwpm/public_html/programs/cb/laws_policies/laws/cwpm/policy_dsp.jsp?citID=79

Wendy Sheetz and I had a conversation about these candidates last Spring and she shared a reference to Iowa's Employee Manual 18-Appendix. It's on page 119 (see attached).

If I missed sharing anything that you anticipated seeing, please let me know and I will share.

As you know, I will be in Des Moines (at the 525 SW 5th Street Building) next week on Monday and Tuesday but I can drive to another location as well. If you are available, I have time on Monday (3/11) between 11AM-1PM and then again at 3PM. I also have time on Tuesday morning before 10:30AM. If those dates/times won't work, we can revisit dates/times for a Teams call just let me know.

Thank you!

Adoption Subsidy Agreement, Form 470-0749 or 470-0749(S)

Purpose

Form 470-0749 or 470-0749(S) serves as the agreement between the Department and the adoptive parents.

Source

Department staff may complete the English or Spanish version of this form using the template available in SharePoint under Employee Manual/Forms.

Department staff may also print the English and Spanish versions of this form from the manual or SharePoint.

Completion

The adoption worker prepares a separate agreement for each child. Each adoptive parent, the adoption worker, and the service area manager or designee must sign the agreement.

An agreement for presubsidy may be completed at any time during the adoptive placement, but must be completed before the adoption. No payments can be made before the subsidy agreement is completed and signed by the Department and the parents.

Prepare the agreement before finalizing the adoption and whenever modifying the agreement.

Distribution

After obtaining all signatures, distribution is as follows:

- Keep one copy in the subsidy file.
- Give one copy to the adoptive parents.
- Provide one copy to the adoptive parents' attorney or to the court to be included with the petition to adopt.

For revisions, keep the original in the subsidy file and give a copy to the adoptive parents.

Data

The form identifies:

- The type of agreement (presubsidy, subsidy or future needs).
- The parties to agreement (the Department and the parents).
- The eligibility criteria of the child.
- A summary of the benefits agreed to:
  - The adoption subsidy maintenance payment.
  - The child's IV-E status and effective date.
  - The non-recurring expenses related to the finalization of the adoption.
  - Any special services, the amount, and the reason for the service.

Each agreement must be signed and dated by the adoptive parents, the adoption worker, and the service area manager or designee. Enter the date a copy of the agreement was provided to the adoptive parents.

Agreement of Placement for Adoption, Form 470-0761 or 470-0761(S)

Purpose	The purpose of forms 470-0761 and 470-0761(S) is to set the conditions under which a child is placed in an adoptive home.
Source	DHS workers can complete either the English or the Spanish version of this form using the templates available in SharePoint under Employee Manual/Forms.
Completion	The adoption worker prepares an original and one copy of the *Agreement of Placement for Adoption* on the day of placement. The form requires the signature of each adoptive parent. Since guardianship is with the Department, the adoption worker and the service area manager or designee from the receiving service area also sign the form. When an adoptive placement is made when the termination of the birth parents' parental rights is under appeal, complete section IV and fully explain the implications of this situation to the adoptive family. ▪ Emphasize the fact that the adoption cannot be finalized until the appellate decision is made. ▪ Explain that there is a possibility that the child could be removed from care in the adoptive home if the termination decision is overturned on appeal.
Distribution	Give one copy to the adoptive parents, put one copy in the child's adoption file, and put one copy in the adoptive parent's file.
Data	Indicate that the family will pay the cost of medical care for the child unless the placement is in anticipation of a subsidized adoption. When subsidy is anticipated, indicate that the cost is a shared responsibility of the Department and the family. If termination of parental rights is under appeal at the time of placement, when you receive a copy of the procedendo, enter the appellate decision and date at the bottom of the form, and inform the adoptive family of the decision.

Purpose

Forms 470-0615 and 470-0615(S) collect information needed to determine eligibility for social services and IV-A-funded emergency assistance services and record the Department's determination of IV-A eligibility.

Source

Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

Print the Spanish version of this form from the manual or SharePoint.

Completion

Prepare an original and one copy of this form when:

- A referral for service is made after an abuse assessment (unless an application is already on file).
- A decision is made to provide one or more of the following services:
  - Family-centered services
  - Protective child care
  - Shelter care (unless placement is less than 48 hours)
  - Foster family care
  - Foster group care
  - Supervised apartment living foster care

  This application is not required for PMIC placements.
- A person wishes to apply for services that are not court-ordered.
- When eligibility redetermination is necessary for one of the services listed above (every 12 months for IV-A eligibility and every 6 months for voluntary case reviews).

Child welfare services require Part A of the application to be done initially, and either Part A or a court order to be done every six months thereafter. Part B of the application is required to be completed initially and reviewed annually for IV-A-funded services.

Complete the application for IV-A purposes regardless of whether services are court-ordered.

The Department worker completes the form with the applicant. The completed application must have the signature of a Department worker certifying approval of eligibility at the bottom of Part B.

The application covers all members of a family when their services are recorded in one case record. Sign and date the application on the day it is received.

Complete the name and the address of the family's legal residence.

Application for Foster Care and Subsidized Adoption Medicaid, Form 470-5535 or 470-5535(S)

Purpose	The *Application for Foster Care and Subsidized Adoption Medicaid* is designed to assist people applying for health care coverage for a child living in Iowa in a foster care or subsidized adoption placement.
Source	The English version of this form is printed with 25 sets on a pad. Order supplies from Iowa Prison Industries at Anamosa. The English and Spanish versions of this form are available as a fillable PDF on the Department's website. DHS workers may also complete the fillable PDF in SharePoint under Employee Manual/Forms.
Completion	Complete the fillable PDF online, or mail or give the *Application for Foster Care and Subsidized Adoption Medicaid* to a person applying for a child living in Iowa in a foster care or subsidized adoption placement. The applicant or an adult acting on a child's behalf completes the form. A friend, relative, authorized representative, or DHS/JCO staff may help, if needed. When the applicant is a child, the application must be signed by a parent, stepparent, or other adult in the home who has primary responsibility for the child's care, if applicable. If there is a guardian or other responsible person, the guardian or responsible person participates in completing the form and signs for the child. See 8-B, *Information Provided* for a list of pamphlets to provide with the Application for Foster Care and Subsidized Adoption Medicaid.
Distribution	If the client wants a copy of the application, photocopy the form for the client. When a person does not file the application at a DHS office, and the person also requests Medicaid, the originating agency routes the original to the DHS office responsible for the applicant's county of residence within two working days of receipt. The originating agency photocopies the application for their files.
Data	Date-stamp the original application before faxing or mailing the photocopy of the form to another agency. For the purpose of Medicaid, the application date is the date the originating agency received the application.

Application for Health Coverage and Help Paying Costs, 470-5170 or 470-5170(S)

Purpose	Forms 470-5170 and 470-5170(S) are used to apply for State Supplementary Assistance programs and Medicaid. The information contained on the application is used to determine eligibility for assistance.
Source	Central Office has a contract to provide automatic shipments of form 470-5170 to local offices. The shipments are intended to cover a six-month supply. Additional supplies of form 470-5170 are also available through Central Office. DHS staff may complete this form using the templates available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	Provide or mail the form to the applicant when assistance is requested. The client completes the form or may enlist help in preparing the form. If the client is mentally incompetent, the form may be completed by a relative, a person in whose home the client resides, or by the DHS service worker. The client must sign the form unless mentally or physically unable to do so. If the client is mentally competent but unable to sign the application form, an "X" or a thumbprint may be used if witnessed by two persons who know the client. If the application is not complete when it is filed, it must be fully completed upon the interview with the client or representative.
Distribution	The client submits one copy of the form to the local office. Date-stamp the completed application before sending it to the income maintenance worker. Provide a copy for the client upon request. **NOTE:** The form is kept in the income maintenance case record. A copy of the form is not required to be kept in the DHS service case file.
Data	The form requests information necessary to determine State Supplementary Assistance and Medicaid eligibility.

Authorization to Obtain or Release Health Care Information, Form 470-3951 or 470-3951(S)

Purpose

Forms 470-3951 and 470-3951(S) are two-way release forms used to get the permission of a client or a family that wishes to be certified as a family-life home to obtain health information needed to:

- Determine a family's eligibility to be certified, or
- Provide service to a client; and
- Release health information about the client to the registered nurse and the provider family.

Source

The English version of this form is printed in pads of 25 three-part precarboned sets. Order supplies from Iowa Prison Industries at Anamosa.

DHS staff may complete the English version of this form using the template available in SharePoint under Employee Manual/Forms. Supplies of this from may also be printed from the manual or SharePoint.

Completion

Complete this form when first meeting with a new client or prospective provider. Complete the identifying information and description of the information being requested or released. Complete one form for each member of the provider family.

The person or the person's personal or legal representative signs the section to give the authorization. Discuss the authorization and explanation paragraph regarding the use of the form and answer any questions raised. Make sure that the person understands the right to revoke the authorization at any time by completing form 470-3949, *Request to End an Authorization*. Explain the consequences of failure to sign the form.

Distribution

For the client, send one copy to the registered nurse with a self-addressed, stamped envelope enclosed when you request the physician's plan of care and nurse's provider instructions.

For the provider, send one copy for each family member to take to the family member's health care provider with form 470-0672, *Provider Health Assessment*.

Keep one copy of the form in the client's case file. The client and provider keep the third copy.

Data

When initiating the form enter:

- The person's name, state identification number (if any), social security number, date of birth, and parent's or guardian's name, if applicable.
- Your name, address, telephone number, and fax number in the first set of agency information.
- The name or the agency to which the information is being released, or from which the information is being requested, and the agency's address, telephone number, and fax number.

- In "the information released or shared may include" section, check the applicable boxes. If the "other" box is checked, describe the specific information being requested.
- Describe any exceptions or limitations under "other." Sample entry: "The Department may obtain information from, but not release information to, the client's daughter."
- State the purpose for which the information will be used.
- In the "SPECIFIC AUTHORIZATION FOR RELEASE" section, secure the initials of the person or the person's legal representative if mental health, AIDS/HIV-related, or substance abuse information is to be obtained or released.

  NOTE: Only the person or the person's legally authorized representative can give consent to release or obtain mental health and AIDS/HIV-related information. Only the person can give consent to release or obtain substance abuse information.

  "Mental health evaluation/treatment" means oral, written, or recorded information that indicates the identity of a person receiving professional services and which relates to the diagnosis, course, or treatment or the person's mental or emotional condition.

  "AIDS" means a medical diagnosis of acquired immunodeficiency syndrome, based on the Center for Disease Control's "Revision of the CDC Surveillance Case Definition for Acquired Immunodeficiency Syndrome."

  "HIV-related" means a medical diagnosis of human immunodeficiency virus infection based on a positive HIV-related test.

  "Substance abuse" means the use of chemical substances by persons suffering from chemical dependency, persons who are incapacitated by a chemical substance, substance abusers, or chronic substance abusers.
- Ask the person to sign and date the form and enter a date when the authorization is to expire.
- Check the applicable box indicating the relationship of the person who signs the form to the person the information is concerning.
- Obtain the signature of two witnesses for people who are incapable of signing their name due to a physical or mental disability.

To use the form as the required documentation for the disclosure of mental health information, document on the back of the form kept in the case file:

- The date.
- The name of recipient of information.
- The information disclosed.
- The name of the person who disclosed the information.

Casey Life Skills Assessment, Form 470-5701

Purpose:

Form 470-5701 is used to ensure children in foster care age 14 and older are assessed for life skills which are necessary for successful transition to adulthood. When a child in foster care is age 14 or older, provide form 470-5701 Casey Life Skills Assessment to the caretaker of a child in a family setting or in a shelter and ensure the assessment is completed with the child. Repeat completion of the CLSA at the child's ages 14, 16, and 18 or more frequently as needed.

For children in QRTP or Supervised Apartment Living, the assessment will be completed by the provider and sent to the case manager within 10 days of the child's 14th, 16th, and 18th birthdays.

Explain the reason for the assessment to the child and caregivers and ensure the assessment is completed, kept in the case file, and utilized to inform the transition planning process.

Form 470-5701 is available as a fillable PDF on the Department's website. DHS workers may also download the fillable PDF from SharePoint under Employee Manual/Forms, or print from this manual.

Completion

The social work case manager completes the form with the child or ensures a caregiver and the child complete the form:

- When a child age 14 or older has entered foster care, or
- When the child reaches age 14, 16, 18 and other times as needed.

Federal policy requires a life skills assessment shall be administered to all children in foster care who are aged 14 or older, regardless of adjudication status or whether payment is made to the caregiver. In Iowa, that assessment is the Casey Life Skills Assessment (CLSA).

Distribution

Explain the reason for the assessment to the child and caregivers and ensure the assessment is completed, kept in the case file, and utilized to inform the transition planning process. Use the results of the CLSA to complete an overall assessment of the child and document it in the transition plan in the Part C section of the Family Case Plan.

Form 470-3240 provides identifying information about the child subject and the household in which the child subject resides. This summary addresses abuse reported and assigned to the Child Abuse Assessment pathway.

The form assesses the child subject's safety when an evaluation of the reported incident is conducted. The form also documents the assessment of the family's needs and strengths, and recommendations for services or court intervention as indicated.

The form also addresses the determination of whether abuse occurred. If abuse is confirmed, the summary identifies the person responsible for the abuse and indicates whether the incident requires placement on the Central Abuse Registry.

Source

This form is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.

Completion

The child protection worker completes this form in JARVIS with approval and sign-off by the supervisor.

Distribution

After supervisory approval in JARVIS, the form is mailed via Central Printing with the *Notice of Child Abuse Assessment* to:

- The child being assessed, and
- The child's custodial and noncustodial parents or guardian, and
- All other subjects.

The county attorney and juvenile court have access through the portal.

For reports placed on the Central Abuse Registry only, provide the summary to the mandatory reporter who made the report upon completion of a request for child abuse information.

Data

If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS:

- Report Information. List case names, address, phone numbers, incident number, completion date, addendum date (if applicable), intake date, child protection worker, and county name/county number.
- Assessment Findings
- Safety Assessment Findings. The safety assessment findings are pulled from the *Safety Assessment* completed through the Safety Assessment tab of the STAR Assessment module in JARVIS.
- Household Composition

- Non-Custodial Parent
- Others Involved in the Assessment – Not in Household
- Person Determined Responsible for the Abuse. Completed only if abuse is confirmed.
- Intake Allegation Type
- Concerns Reported
- Summary of Previously Confirmed or Founded Reports Concerning Person Alleged Responsible. If the victim on a prior report is not a subject of the current report, the victim's name will be displayed as "confidential."

  When parental rights have been terminated and a child abuse incident occurred before the termination, the parents' names will be displayed as "biological parents."
- Summary of Assessment Process. Enter the dates in which the child or children were observed, as well as, a justification explanation if child observed outside of assigned timeframes. Also enter:
  - The dates the custodial and non-custodial (if applicable) parents were interviewed,
  - The date the evaluation of the home environment was completed, and
  - The dates the safety assessments, safety plans (if applicable), and risk assessment were completed.

  Provide additional information regarding:
  - ICWA/Native American heritage information,
  - Dates and time contacts were attempted if there is difficulty in meeting observation timeframes,
  - Supervisory approval if contact is delayed, and
  - The date and time of supervisory safety decision check back.
- Summary of Contacts. Include in this section:
  - Whether confidential access was used and your rationale and justification according to policy for using confidential access (if applicable).
  - A list of people you contacted in conducting the assessment (subjects, family members, and other collateral sources) and their role or position with the child or family.
  - Date, time, and type of contact and the contact name, location, and phone.
  - The date and time you observed the child subject or your efforts to observe the child.

- Your rationale for delaying observation of the child beyond the assigned timeframe or for not observing the child (if applicable).
- Physical evidence pertaining to the abuse allegations.
- Identification of those interviewed and a summary of their remarks.
- Your efforts to locate and interview the person alleged to be responsible for the abuse, if unavailable while conducting the assessment.
- Documents requested and examined pertaining to the abuse allegations.
- Relevant information from any previous Department contact with the child or family, including information obtained from child abuse Registry checks and Department case files.
- Findings from other states, if the family has lived elsewhere.
- If denial of critical care, physical abuse, or presence of illegal drugs in a child's body is founded, the last contact must include a determination of child death or serious injury. Document whether the abuse DID or DID NOT result in the death or serious injury of a child based on the credible evidence available. This determination impacts whether or not the name of the person responsible is eligible for removal from the registry after five years.

▪ Summary of Contacts Addendum. When you reasonably believe that additional pertinent information will be available or additional relevant contacts will be made, indicate on the summary that you will complete an addendum.

  Complete the "Summary of Contacts" related to the addendum when additional information is received. This field appears only if an addendum is in progress.

  If denial of critical care, physical abuse, or presence of illegal drugs in a child's body is founded, the last contact must include a determination of child death or serious injury. - Placement on Registry and Justification. For Registry placement, you must document the existence of one or more necessary circumstances that require placement of the report on the Registry.

  For confirmed reports that are not placed on the Registry, document the justification for nonplacement by describing how the information supports that the finding was minor AND isolated AND unlikely to reoccur.

  NOTE: Reports that may be confirmed but not placed on the Registry are confirmed reports of denial of critical care through lack of supervision or lack of adequate clothing, or physical abuse that has been determined to be minor, isolated, and unlikely to reoccur according to policy.

  For not confirmed reports, document what factor of abuse was not evidenced.
- Safety Assessment Summary.

  Provide a narrative description of the current factors influencing child vulnerability (conditions resulting in a child being more vulnerable to danger).

  Provide a narrative description of the current danger indicators you identified (behaviors or conditions that describe a child being in imminent danger of serious harm). If no danger indicators were identified, please provide your rationale.

  Provide a narrative description of the caretaker's capacities and safety interventions that have been taken and how each protected or protects the child from the identified danger indicators.

- Summary and Analysis of Safety/Risk Assessments.

  Provide a narrative description of the family safety concerns by addressing the following:

  - Given the child(ren)'s level of vulnerability, what are the concerns and/or threats of danger in everyday life of the family? What everyday family life issues need to be better managed (i.e. new plan for discipline, safe home environment, more rigorous supervision, proper nutrition, etc.) to ensure child safety and well-being.

  Provide a narrative description of individual parent/caretaker concerns by addressing the following:

  - Describe what individual issues parents/caretakers have that need to be better managed or replaced so that the family tasks can go better (i.e. new plans for managing anger/control issues, improving emotional stability, stopping or limiting use of substances, managing sexual behavior, etc.) and what kind of new plan needs to be in place to ensure child safety and well-being.

  Provide a narrative description of family consensus regarding safety concerns by addressing the following:

  - What is the level of consensus with the family regarding the safety concerns and/or threats of danger described above?

- Addendum to Safety Assessment Summary. Use this section to update or edit the Safety Assessment Summary, based off the last Safety Assessment completed. This field appears only in addendum status.
- Addendum to Analysis of Safety/Risk Assessments. Use this section to update or edit the assessment after completion of the original report. This field appears only if in addendum status.
- Final Risk Level. The neglect, abuse, and scored risk levels are pulled in from the *Family Risk Assessment* completed through the Family Risk Assessment tab of the STAR Assessment module in JARVIS. If the *Family Risk Assessment* has not been completed, levels will not appear in these three sections.

  The final risk level is used to determine what the client's service eligibility is in based on findings, age, and risk.

  Review and consider information gathered from child and family interviews, collateral contacts, Department service records, and all prior assessments.

- Recommendation for Service. The finding of the child abuse assessment and the family risk score determine the family's eligibility for information or information and referral, non-agency voluntary services, or Department services.

When the family is being referred to non-agency voluntary services, document the actions developed jointly with the family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of family functioning:

- Consider if there are current resources, services, and supports available to the family that can meet the family's needs and increase protection for the child.
- Identify services and supports provided to the family that have failed to prevent the child's abuse or reabuse.
- Consider if caretakers refuse needed services or supports despite protective concerns, increasing children's risk.
- Document your recommendation for services.

When the family is eligible for non-agency voluntary services, but is not being referred, indicate the exception reason.

When the family is being referred for Department services, identify the prevention services to meet the foster care prevention strategy and describe what that prevention strategy is.

When the family is eligible for Department services, but is not being referred, indicate the exception reason.

Document any additional service information that is needed.

- Recommendations for Court Involvement. Enter your recommendations for juvenile or criminal court involvement.
  - If you recommend juvenile court involvement, include:
    - A summary of the status of any current juvenile court involvement if the child is already adjudicated or adjudication is pending.
    - Your specific recommendations to the county attorney on the initiation or continuation of juvenile court action.
    - Your rationale to support that recommendation (e.g., family with founded abuse has refused offer of Department services).
  - If you do not recommend juvenile court involvement, include under "Type of Action Requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was not confirmed, or was confirmed or founded but low-risk).
  - If you recommend criminal court involvement, include:
    - Reference to any joint assessment with law enforcement.
    - The status of the criminal investigation when charges have already been filed in a matter.

Child Protective Services Family Assessment Summary, Form 470-5371

Purpose

Form 470-5371 provides identifying information about the child subject and the household in which the child subject resides. This summary addresses abuse reported and assigned to the Family Assessment pathway.

The form assesses the child subject's safety when an evaluation of the reported incident is conducted. The form also documents the assessment of the family's needs and strengths, and recommendations for services or court intervention as indicated.

Source

This form 470-5371 is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.

Completion

The child protection worker completes this form in JARVIS with approval and sign-off by the supervisor.

Distribution

After supervisory approval in JARVIS, the form is mailed via Central Printing with the *Notice of Family Assessment Recommendation* to:

- The child being assessed and
- The child's custodial and noncustodial parents or guardian.

The county attorney and juvenile court do not have access to the *Family Assessment Summary* through the portal. The *Family Assessment Summary* may be provided upon request for a Child In Need of Assistance petition or upon written request, in accordance with Iowa Code section 217.30.

Data

If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS:

- Report Information. List case names, address, phone numbers, incident number, child protection worker, county name/county number, intake date, and completion date.
- Safety Assessment Findings. The safety assessment findings are pulled from the *Safety Assessment* completed through the Safety Assessment tab of the STAR Assessment module in JARVIS.

  - Supervisory approval if contact is delayed, and
  - The date and time of supervisory safety decision check back.
- Whether confidential access was used and your rationale and justification according to policy for using confidential access, if applicable.
- Assessment of Family Functioning Domain Criteria. The *Family Functioning Domain Criteria* form makes up the main content of the Family Assessment Summary. The family's strengths and needs are identified using the family functioning domains:
  - Child Well-Being
  - Parental Capabilities (includes use of drugs or alcohol)
  - Family Safety (includes domestic violence)
  - Family Interactions
  - Home Environment

  Provide general narrative documenting observations of strengths and needs or challenges under each specific subsection that applies to the family. It is not necessary to address every item listed. Address items that are relevant to the given situation. You are not limited to only the items listed.

  Protected sections that can be suppressed before printing are available to list any child specific statements or information regarding parent's physical health, mental health, or substance abuse.

  Also identify in this section:
  - Whether confidential access was used and your rationale and justification according to policy for using confidential access (if applicable).
  - A list of people you contacted in conducting the assessment (subjects, family members, and other collateral sources) and their role or position with the child or family.

Telephones: Enter household telephone numbers including area code and any other contact phone numbers.

Current Location of Child Subject: If a child named as a subject is living outside the home, enter the name and address of the family or institution where the child is residing at the time of intake. If you gave the child's placement address as the household address, you need not reenter it.

Household Composition: Enter the name of each person residing in the household with the child subject. Complete this section as fully as possible, using the codes provided. STAR requires a numeric entry in the social security field.

Non-Custodial Parent: Enter the name, date of birth of noncustodial parent, relationship of the noncustodial parent, social security number, FACS ID, address, phone number, and name of the noncustodial parent's child.

Use the "Comments" section to indicate the parent's workplace or any other information determined to be pertinent to the intake. Access ICAR as necessary.

Reporter or Referral Source: Enter the name, including title, agency, address, and phone number of the reporter or referral source, if known. Check the box that indicates the reporter type and reporter notification. Enter the date of notice.

Person Reported as Responsible for Alleged Abuse: Enter the name, date of birth, relationship to child, social security number, FACS ID, address, and phone numbers.

Use the "Comments" section to indicate the person's workplace or any other information determined to be pertinent to the intake. **NOTE:** This information is not required on a CINA intake.

Collateral Sources: Enter the name, phone number, relationship of the collateral source to the child, and address of collateral sources identified by the reporter or the intake worker.

Allegations Abuse Type: Check all applicable abuse types alleged.

Narrative Description/Child Safety Concern: Enter the reported information in this section. Whenever possible, use the words of the reporter.

Summarize all allegations and other information needed to determine whether the referral provides information sufficient to justify a child protective assessment or a CINA assessment. All cases accepted for a child protective assessment must clearly state that the three criteria have been met.

Additional Information: Include information learned from the results of checks of the databases in this section. Provide as much information as is known about the list of additional questions/topics as well as any other additional information that may be relevant to the assessment. Include information from additional reporters.

Child Study, Form 470-3698

Purpose	Form 470-3698 provides a specific guide for completing the written child study report for each child whose parental rights have been terminated.
Source	Complete this form using the template available in SharePoint under Employee Manual/Forms.
Completion	Within 30 days of issuing the child's termination of parental rights order, the child's foster care worker or adoptive worker completes the *Child Study*. The worker completing the study is determined by service area protocol. (Remember to update FACS on the termination as well, to notify the Foster Care Recovery Unit.) Get an updated copy of the *Social History*, form 470-3615, if the worker responsible for completing the *Child Study* is different from the past worker. Update the *Child Study* annually for children with termination of parental rights who have not been placed for adoption.
Distribution	Keep one copy in the child's adoption record and guardianship file. Also give a copy to the child's foster care provider and prospective adoptive parents along with a copy of the child's case permanency plan.
Data	Attachments to the child study shall include: ▪ Hospital birth records ▪ A current photo of the child ▪ Current case plan ▪ Immunization record ▪ Current physical, psychiatric, psychological, school, and provider reports

Child Welfare Multidisciplinary Team (MDT) Agreement, Form 470-2328

Purpose	The purpose of form 470-2328 is to formulate an agreement between the Department and various individuals and agencies for consultation during the course of abuse assessments to discuss assessment, diagnosis, coordination of services, possible referrals, and disposition. Multidisciplinary teams (MDTs) will be convened at the Department's request during the course of an assessment or evaluation. No case specific information can be discussed outside the scope of the abuse assessment and evaluation.
Source	Complete this form (except for signatures) using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	All parties of the multidisciplinary team must sign during the formulation of a multidisciplinary team and before the dissemination of any individual dependent adult abuse information. Any ad hoc members whose participation has been approved by the Department, must sign each and every time they attend the meeting. The form is considered complete and the team is considered approved by the service area manager or designee as evidenced by signature on form 470-2328. Each agreement must be signed again by all parties at least annually on or before July 1 of each year with final approval by the service area administrator or designee.
Distribution	The service area administrator or designee keeps one copy, sends one copy to Central Office, and gives a copy to each team member.
Data	Complete the name of the team members and the date of the agreement. Additional lines may be added for the signature of team members.

Consent to Obtain and Release Information, Form 470-0429 or 470-0429(S)

Purpose

Form 470-0429 is designed to get the permission of the client or the client's legally authorized representative to:

- Release information about the client to a third party.
- Obtain information needed to provide service to the client.

The Department uses this form to secure or release non-health-related information for purposes of determining a client's eligibility for services. See *Authorization to Obtain or Release Health Care Information*, Form 470-3951 or 470-3951(S) for information used to authorize exchange of health care information.

Staff from a county case management or central point of coordination office (a county worker) may also use this form.

Source

Department workers may complete the English or Spanish form using the template available in SharePoint under Employee Manual/Forms.

Completion

The Department or county worker prepares the form and secures the signature of the client or the client's representative:

- At the initial request for services.
- When the current authorization expires.
- When new services are added to the client's plan.

Distribution

File the original in the case record. Give a copy to the client or the client's representative. Provide a photocopy to each person or agency authorized to share information.

Data

Enter the requested identifying information at the top of the form. Check the applicable box to identify whether a Department worker or a county worker is preparing the form. For a county worker, also enter the name of the county.

List each person or agency authorized to share information with or receive information from the Department or the identified county. In the box to the right of the list, enter the name, phone number, and address of the Department or county worker who is to receive the information.

Describe any exceptions or limitations under **Other**. Sample entry: DHS may obtain information from but not release information to Heartland AEA.

Enter the expiration date if it is other than "*upon termination of services*."

If the client **withdraws** authorization to share information with a listed person or agency, cross out the entry and secure the date and initials of the client or the client's legally authorized representative.

Dependent Adult Assessment Tool, Form 470-4841

Purpose

Form 470-4841 is a three-part tool used to assess a dependent adult's *degree of dependency*, as well as, to analyze safety and risk. Complete an assessment of safety, dependency, and risk on every alleged victim for whom an evaluation or assessment is conducted.

Source

Complete the assessment tool online in DARES under each tab, respectively labeled "Safety Assessment," "Dependency Assessment," and "Risk Assessment."

This form may also be printed from "My Links" in JARVIS and entered into DARES later.

Completion

The adult protective worker must complete the *Safety Assessment* portion:

- Within 24 hours of the first contact with the adult subject, and
- Before closing the adult protective evaluation or assessment.

The adult protective worker must complete the *Dependency Assessment* portion before the end of the dependent adult protective evaluation or assessment.

The adult protective worker must complete the *Risk Assessment* portions before the end of the dependent adult protective evaluation or assessment.

Distribution

The *Dependent Adult Assessment Tool* is not distributed as part of the *Dependent Adult Protective Services Evaluation or Assessment Summary*. Print the *Dependent Adult Assessment Tool* and keep it in the case file.

Data

Asterisked (*) items are generated by the DARES database if the information has been entered into DARES. The adult subject's name, date of birth, age, form of alleged maltreatment, and caretaker, if applicable, are pulled from household composition.

Safety Assessment (Initial and Final)

If any of 2 through 6 are **No** or 7 through 14 are **Yes**, assist the adult subject, caretaker, service providers, and support system to take steps to alleviate the safety issues. This may be done by:

- Obtaining medical care or placement,
- Engaging additional formal and informal supports,
- Safety planning,
- Use of law enforcement, or
- Seeking legal intervention.

DARES will narrow the results of the safety decision in compliance with the scoring instructions. Only the subsequent safety status score is pulled from

DARES and populates into form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Initial Safety Decision

Check the box to indicate your determination as to whether the dependent adult is "safe," "conditionally safe," "unsafe," or "unable to remediate safety concerns." When selecting "unable to remediate safety concerns," the adult protective worker must select one of the following reasons why:

- Protective order requested but not granted.
- Dependent adult has the capacity to consent and is refusing services.
- Dependent adult has accepted some, but not all of the recommended services.
- Other. If selecting other, please provide a brief explanation.

Dependency Assessment

Health conditions and diagnoses: Enter medical information. Document the overall condition of the adult, any existing allergies, and behavioral indicators or observations of health.

Medications: Enter all the adult's medications.

Current services: Enter **Yes** or **No** for each question. Use "Other" for services not represented on the list. Explain all other services not on the list.

Cognitive impairments: Enter **Yes** or **No** for each question. Completing IQ is optional. Explain any temporary conditions.

Cognitive screening: Enter the type of mental status screening tool conducted. If the mental status screening tool used by the adult protective worker or other qualified professional is not represented in the list, select "other." List the score and what the score means pertaining to the adult subject's cognition. Screening will allow the adult protective worker to determine if the adult subject needs a more comprehensive assessment on capacity to consent.

Physical impairments: Enter **Yes** or **No** for each question. Explain if necessary.

Katz (Activities of Daily Living) (ADL): The Katz Index ranks adequacy of performance in the six functions of *bathing, dressing, toileting, transferring, continence, and feeding*. Clients are scored for independence in each of the six functions.

Each category has a check box. DARES calculates the score. Completion of all questions is required. A score of six indicates full function; four indicates moderate impairment; and two or less indicates severe functional impairment.

Lawton – Brody Instrumental Activities of Daily Living Scale (IADL): The IADL is an appropriate instrument to assess independent living skills. These skills are considered more complex than the basic activities of daily living as measured by the Katz Index.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010658

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

The instrument is most useful for identifying how a person is functioning now and identifying improvement or deterioration over time. There are eight domains of function measured with the Lawton IADL scale.

To obtain a score for each category, check the box for the item description that most closely resembles the client's highest independence level. Each category requires one box to be checked. The total score ranges from zero which indicates low functioning to eight which indicates high functioning.

Summary of dependency status: Determine if the information collected through the dependency portion of your assessment indicates the adult subject (alleged victim) is dependent.

Use the narrative to summarize the evidence gathered through the dependency assessment to support or refute that the adult subject is a dependent adult. A diagnosis or level of care alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the "Summary of dependency status" narrative is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Adult Subject Risk of Abuse or Neglect Assessment

The risk assessment must be completed by the conclusion of the assessment or evaluation.

The scored risk levels are pulled from the risk assessment of the adult subject and the alleged person responsible that are completed through DARES for the incident. If the risk assessments have not been completed, levels will not appear in the printed version.

The final risk level score is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*, under "Final Risk Level." The DARES system uses this score to determine what the client's periodic visit eligibility is based on, age, dependency status, mitigating interventions, and risk level.

Summary and Analysis of Safety Constructs Narrative

- Describe the threats of maltreatment that are present at this time (i.e., aggravating factors that combine to produce a potentially dangerous situation).

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

- Describe the adult subject's vulnerability to maltreatment (i.e., the degree that the adult subject cannot on the adult's own avoid, negate, or minimize the impact of present or impending danger).
- Describe the adult subject and caretaker or alleged person responsible protective capacities (i.e., family, household, or support system strengths or resources that reduce, control, or prevent threats of maltreatment from arising and the factors and deficiencies that have a negative impact on the adult subject's safety).

Policy Overrides

After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and adult subject vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

Discretionary override reason: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. You must receive supervisory approval for a discretionary override. The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Supervisor's Review/Approval of Discretionary Override: Enter a signature.

Date: Enter the date.

Dependent Adult Multidisciplinary Team (MDT) Agreement, Form 470-5737

Purpose	The purpose of form 470-5737 is to formulate an agreement between the Department and various individuals and agencies for consultation of dependent adult abuse assessments/evaluations to discuss diagnosis, limitations, coordination of services, possible referrals, and disposition of an adult subject. Multidisciplinary teams (MDTs) will be convened at the Department's request during the course of an assessment or evaluation. No case specific information can be discussed outside the scope of the abuse assessment and evaluation.
Source	Complete this form (except for signatures) using the template available in SharePoint under Employee Manual/Forms. Supplies of this form may also be printed from the manual or SharePoint.
Completion	All parties of the multidisciplinary team must sign during the formulation of a multidisciplinary team and before the dissemination of any individual dependent adult abuse information. Any ad hoc members whose participation has been approved by the Department, must sign each and every time they attend the meeting. The form is considered complete and the team is considered approved by the service area manager or designee as evidenced by signature on form 470-5737. Each agreement must be signed again by all parties at least annually on or before July 1 of each year with final approval by the service area administrator or designee.
Distribution	The service area administrator or designee keeps one copy, sends one copy to Central Office, and gives a copy to each team member.
Data	Complete the name of the team members and the date of the agreement. Additional lines may be added for the signature of team members.

Dependent Adult Protective Services Evaluation or Assessment Summary, Form 470-0688

Purpose

Form 470-0688 provides identifying information about the adult subject and the household in which the adult subject resides. This summary addresses the abuse reported and the determination of whether abuse occurred.

The form assesses the adult subject's safety when an evaluation or assessment of the reported incident is conducted. The form also documents the assessment of risk, dependency, household strengths and needs, and recommendations for services or court intervention as indicated.

If abuse is confirmed, the summary identifies the person responsible for the abuse and indicates whether the incident requires placement on the Central Abuse Registry.

Source

This form may be completed online, including the narrative, using the DARES system.

Completion

The adult protective worker who completes the evaluation or assessment completes the form. The supervisor approves and signs off on the final report.

Distribution

Automatically provide the summary to the county attorney. Keep a copy in the case record.

For an inter-county referral, also send one copy to the referring or receiving county attorney.

Data

Asterisked (*) items are generated by the DARES database system if the information has been entered into DARES. Case name, address, phone, registry number, completion date, and addendum date are pulled from DARES.

* *Report Information*: The intake date, adult protection worker, county name or county number are pulled from the DARES data entry.

* *Assessment Findings*: Findings are pulled from the "Determination" screen after completion of assessment and data entry.

The safety assessment findings are generated by the "Safety Assessment" page for the incident using subsequent findings from worker entry into DARES.

* *Household Composition*: Information is pulled from the "Household Composition" screen in DARES.

Guardian: Enter or modify information on the adult subject's guardian, conservator, or other person responsible for the adult subject. Document or modify the person's name, address, and phone number.

Collateral Information: This field prints only if information is entered in DARES.

Person Determined Responsible for the Abuse: Complete only if abuse is confirmed.

* *Intake Allegation Type*: Information is pulled from the "Allegations" screen.

* *Concerns Reported*: Information is pulled from "Allegations" screen.

Summary of Previously Founded Reports Concerning Alleged Person Responsible: (Information is pulled from DARES, STAR, and CINA for all victims and perpetrators.) If the victim on a previous report is not a subject of the current report, the victim's name displays as "confidential."

Summary of Assessment Process: Information is pulled from DARES screen entries with the exception of "guardian interview." Guardian interview requires entry directly into the field by the adult protective worker.

Summary of Contacts: Include in this section a list of people you contacted in conducting the assessment (subjects, family members, and other collateral sources) and their role or position with regard to the adult subject. Address the actions developed jointly with the adult subject, supports, and family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of safety, dependency, and risk. Include:

- The date, time, and type of contact and the contact name, location, and phone number.
- The date and time you observed the adult subject or your reasonable efforts to observe the adult timely.
- Physical evidence pertaining to the abuse allegations.
- Identification of those interviewed and a summary of their remarks.
- Your efforts to locate and interview the person alleged to be responsible for the abuse, if unavailable, while conducting the evaluation.
- Documents requested and examined pertaining to the abuse allegations.
- Relevant information from any previous Department contact with the adult subject or other household members, including information obtained from abuse registry checks and Department case files.
- Findings from other states, if the adult subject or alleged person responsible has lived elsewhere.
- Current resources, services, and supports considered and available to meet the adult subject's needs and increase protection.
- Services and supports identified and provided to the adult subject or alleged person responsible that have failed to prevent the adult subject's abuse or re-abuse.

AMERICAN OVERSIGHT

- Caretaker's refusal of needed services or supports despite protective concerns, increasing the adult's risk.
- Documentation of your recommendation for services. Documentation should include any action taken or contemplated.

Summary of Contacts Addendum: When you reasonably believe that additional pertinent information will be available or additional relevant contacts will be made, indicate on the summary that you will complete an addendum. Complete the "Summary of Contacts" related to the addendum. This field appears only if an addendum is in progress.

Summary of Dependency Status: The narrative listed is pulled from the "Dependency Assessment" tab completed in DARES to summarize the evidence to support or refute that the adult subject is a dependent adult. A diagnosis alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the "Summary of Dependency Status" narrative is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary.* The remainder of the form is not disseminated.

Findings and Determination of Abuse Allegations: Determine if abuse occurred.

- List the factors that must be proven for each type of abuse and state your conclusions and rationale.
- Enter your finding of unfounded, confirmed, not registered, or founded.

Addendum Findings and Determination of Abuse Allegations: Document the factors that must be proven for the type of abuse and state your conclusions and rationale. This field will appear only if an addendum is in progress.

Placement on Registry: Enter:

- The adult subject's name,
- The alleged person responsible,
- The abuse type,
- Your evaluation or assessment finding, and
- Whether the report will be placed on the Registry.

Summary and Analysis of Safety/Risk Assessments Identified: Provide a narrative description of the safety and risk factors identified:

- Document a full description of information gathered regarding the safety of and risk to the adult subject.

AMERICAN OVERSIGHT

- Address safety factors identified in the safety assessment and the related issues associated with the safety factor. Document the safety decision and any actions taken to address safety issues.
- Document risk factors indicated on risk assessment relating to risk of abuse or re-abuse.

Analysis may include the information gathered for the completion of safety and risk assessments such as:

- How long or how frequently abuse has occurred.
- Willingness and ability of a caretaker not responsible for the abuse to protect the adult subject; or the ability of the adult subject to self-protect.
- The frequency, severity, and type of abuse.
- Factors or situations contributing to the abuse.
- The risks of dependent adult abuse for the adult subject and any other potentially dependent adults in the home.

Addendum Summary and Analysis of Safety/Risk Assessments Identified: Use this section to update or edit the assessment after completion of the original report. This header will print only if an addendum date has been entered in DARES.

Final Risk Level: Information is pulled from the "Risk Assessment" tab completed in DARES.

Recommendations for Service: Select one or more services you recommended or referred the adult subject to during or as a result of your evaluation or assessment.

Narrative can be entered into "Summary of Contacts" to provide details as needed. In this section, the adult protective worker can check the box if no additional supports are needed. Otherwise, select one or more from the following list of "Services Referred for Adult Subject":

- Care/case management services (includes AAA/ADRC)
- Caregiver support services
- Education, employment, and training services
- Emergency assistance and material aid services
- Financial planning services
- In-home assistance services
- Legal services referral
- Medical and dental services

- None. If selected, a narrative box will populate and must be completed.
- Recommended service is unavailable in the subject's area. If selected, please state why in the narrative box.
- Department services – Periodic visits – Referral date. This pulls from DARES.

Family does not need additional supports beyond current formal and informal systems.

Perpetrator Legal Remedy: Narrative can be entered into "Summary of Contacts" to provide details as needed. The adult protective worker must select one or more from the following list:

- Recommendation of removal of guardianship rights
- Recommendation of restraining order on perpetrator regarding the client
- Recommendation of eviction of perpetrator
- Recommendation of restitution by perpetrator
- Recommendation of other legal remedy (removal as caretaker, POA, conservator)
- No crime charged
- None. If none, must complete the field stating why.

Interagency Coordination: Narrative can be entered into "Summary of Contacts" to provide details as needed. The adult protective worker must select one or more from the following list:

- Law enforcement or prosecutorial offices (includes DCI, county attorney, local law enforcement)
- Protection and Advocacy or Client Advocacy Program (CAP) such as Disability Rights Iowa, Iowa Civil Rights Commission, and the Equal Opportunity Commission, Federal Department of Labor
- State licensing agency (Department of Inspections and Appeals, Department of Public Health, Iowa Medicaid Enterprise)
- State Medicaid Fraud Control Unit (MFCU)

- Office of the Substitute Decision Maker
- AAA/ADRC (or Iowa Department on Aging)
- Crime Victim Assistance Program
- Child Protection Center (AKA Child Action Center)
- Iowa Workforce Development, Division of Labor Services
- Fire Marshall's Office
- None. If none, must complete the field stating why.

Recommendations for Court Involvement: Enter your recommendations for district or criminal court involvement.

- If you recommend district court involvement, include:
  - A summary of the status of any current district court involvement if the adult is already under a guardianship or conservatorship.
  - Your specific recommendations to the county attorney on the initiation or modification of district court action.
  - Your rationale to support that recommendation (e.g., alleged person responsible has refused services for the adult subject creating immediate danger or the adult subject does not have capacity to consent to services and is in immediate danger).
- If you do not recommend district court involvement, include under "type of action requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was unfounded, or was confirmed or founded but low risk).
- If you recommend criminal court involvement, include:
  - Reference to any joint assessment with law enforcement.
  - The status of the criminal investigation when charges have already been filed in a matter.
  - Your specific recommendation to the county attorney regarding the initiation of any criminal prosecution.
  - Your rationale to support that recommendation.

Case Closure Reason: Pulled from DARES.

Approval: The adult protective worker and supervisor's signatures are automatically filled in based on approval in DARES.

Dependent Adult Protective Services Intake, Form 470-0657

Purpose	Form 470-0657 documents information provided in a report of suspected dependent adult abuse and the Department's response to the report.
Source	Intake workers can complete this form using the: ▪ DARES module, or ▪ Template available in "My Links" in JARVIS, or ▪ Printable template located in the JARVIS-DARES module. Transfer the data to the DARES module later.
Completion	The intake worker who receives the initial report of suspected dependent adult abuse completes this form on each referral whether or not the referral is accepted for assessment or evaluation.
Distribution	File the original in the case file. Send a copy to the intake supervisor. Send a copy of the dependent adult abuse intake to the county attorney. Make additional copies as needed.
Data	*Date*: Enter the date you received the report of suspected dependent adult abuse. *Time*: Enter the time you received the report of dependent adult abuse using a 12-hour clock with "A.M." or "P.M." as needed. *County Name/County #*: Enter the county name and number. *Intake Person*: Enter the name of the person conducting the intake. *Assigned Worker*: Enter the name of the person assigned to complete the evaluation or assessment if accepted. *Registry #*: The DARES system assigns this number. *Household Name and Address*: Enter the address of the primary residence of the adult subject, even if the adult subject is currently in an alternative temporary setting such as the hospital. Enter the zip code and county, if known. If the location of the household is unknown or unavailable at intake, enter "unknown." Out-of-state addresses may be entered. *Directions to Home*: If the location of the household is unknown or unavailable at intake, enter "unknown." Out-of-state addresses may be entered. Otherwise, enter directions to the residence when possible. *Telephones*: Enter the household telephone number, including the area code, and any other contact telephone numbers.

Current Location of Adult Subject: If the adult subject is living outside the home, enter the name and address of the location where the adult subject is residing at the time of intake. If you gave the adult's placement address as the household address, you do not need to reenter it.

Address of Abuse Incident: Enter the address where the alleged abuse occurred.

Household Composition: Enter the name of each person residing in the household with the adult subject. Complete this section as fully as possible, using the codes provided. Race and social security number will not appear on a printed intake document downloaded from DARES.

NOTE: The column labelled "Med", representing 'Active Medicaid Member', will only show a value for the adult subject within the household composition.

Narrative Description/Adult Subject Safety Concern: Enter the reported information in this section. Whenever possible, use the words of the reporter. Summarize all allegations and other information needed to determine whether the referral provides information sufficient to determine abuse or neglect did not occur. Enter whether or not the alleged person responsible has access to the adult subject (victim).

Reporter or Referral Source: Enter the name, including title, agency, address, and phone number of the reporter or referral source, if known. Check the box that indicates the reporter notification and date of notice.

Person Reported as Responsible for Alleged Abuse: Enter the name, date of birth, relationship to adult subject, social security number, FACS ID (if applicable), address, and phone number. DARES will generate person IDs or the intake worker can select the correct person if the person already exists in the system.

Use the "comments" section to indicate the person's workplace or any other information determined to be pertinent to the intake. The social security number will not appear on a printed intake document downloaded from DARES.

Collateral Sources: Enter the name, phone number, relationship of the collateral sources to the adult subject, and the address of the collateral sources identified by the reporter or the intake worker. Use the comments section labeled "In-Depth Intake Information" to document information from mandatory reporters gathered during an in depth intake.

In-Depth Intake Information: Enter information into DARES in the "comments" box under each collateral source and indicate if an in-depth intake was conducted. Only mandatory reporters can be contacted. Send each mandatory reporter a notice.

Allegations Abuse Type: This information is carried over by the "Alleged Abuse Type" screen in DARES.

System Checks Completed. DARES, STAR, ISIS, FACS, IMPA, Criminal, SOR, and WISE: Enter the information from these data sources. Mark the box for each database checked, regardless of whether it had information on the adult subject or the person alleged responsible. Enter criminal history check results. Possible rejection reasons which populate from DARES into form 470-3944, *Dependent Adult Abuse Notice of Intake Decision*, are as follows:

- Subject of the report is not a dependent adult.
- Alleged perpetrator is not a caretaker.
- The allegations do not constitute abuse under Iowa law.
- Sufficient evidence exists that abuse or neglect did not occur.
- Additional or duplicate information to previous report.
- Referred report to DIA.

Additional Information: Include information learned from the results of checks of the databases in this section. Also include any other additional information that may be relevant to the evaluation or assessment.

Include any worker safety information about dangerous persons, animals, or conditions likely to be encountered during the assessment or evaluation process. Indicate if the safety concerns involve others in addition to the adult protective worker.

Intake Screening Tool – Determining Dependency Status: Use questions 1, 2, and 3 to gather information from the caller. Use questions 4 through 10 if they apply. All questions are to assist in determining a reasonable belief of the adult subject's dependency status.

Supervisory Decision: For a dependent adult abuse intake, indicate the reasons for the rejection and the date and time.

Intake Supervisor Timeframe to Accept or Reject: Check either the 1 hour or 12 hour period to accept or reject the dependent adult abuse intake.

Case Assignment: Check the applicable box and indicate the date and time the report was:

- Accepted and assigned, or
- Rejected and the name of the supervisor making the rejection decision.

Supervisor Assignment of Response Time for Observation of the Adult Subject: Check either the 1 hour or 24 hour period for response time. Timeframes cannot be waived or delayed for seeing an adult subject (victim).

Determination Not Eligible for Five-Year Removal: Notice of Addendum, Form 470-5443

Purpose

Form 470-5443, *Determination Not Eligible for Five-Year Removal: Notice of Addendum*, was created as a temporary form to address a backlog of incidents impacted by a law change on January 1, 2014. The law requires the Department to determine whether the person responsible for the abuse on a founded child abuse assessment should be placed on the Central Abuse Registry for ten years or become eligible to have their name removed after five years.

The form provides notice to individuals who had founded assessments of denial of critical care, physical abuse, or presence of illegal drugs on or after January 1, 2014. The form explains that their name does not qualify for removal from the Central Abuse Registry after five years. Addendum and right to appeal information is also provided.

Source

The form is not available to field staff.

Completion

Identified staff complete the form following a review of the incident and a determination that the person named responsible does not qualify for removal after five years.

Distribution

A copy of the completed form is sent to the person named responsible. A copy of the completed form is maintained in the File Manager specific to the incident number.

Data

If information has been entered into STAR, the following items are generated by the STAR Assessment module in JARVIS:

- The date the form is sent.
- The name and address of the person to whom the form is sent.
- The incident number referenced in the form.
- The name of the person responsible for the abuse.
- *Report Information*: Intake date, child protection worker, household address, completion date, incident #, addendum date, and county.
- *Household Composition*: Name, DOB, sex, role, FACS ID, and comments.
- *Non-Custodial Parent*. Name, phone, address, parent of, and comments.
- *Person Determined Responsible for Abusive Incident*: Name, DOB, FACS ID, relationship, address, phone, comments, and work phone.
- Original Concerns Reported
- Addendum to Summary of Contacts
- Addendum to Findings and Determination
- Rights to Appeal This Action

Completion	Any professional may complete the Discovering Connections tool with a child or youth throughout the life of the case.
Distribution	The child protection worker or social work case manager should utilize the information obtained from the completed tool to assist in Diligent Search activities and to engage informal supports. Ensure that you have signed releases from the child's parents before releasing information to identified supports.
Data	Using the tool: ▪ Pick a setting that promotes conversation and openness and matches the youth's interests. For example, take a walk outside, do an art project, etc. ▪ Be honest about the purpose of the questions and with whom the information will be shared. ▪ Not all questions need to be asked, or asked exactly as written. Strive to make this a conversation. ▪ Record as much information as possible about people the youth identifies and ensure that the youth is okay with these people being contacted. ▪ Give specific details about the next steps in the process. Do not over-promise but be sure the next steps are reached. ▪ Be sure to thank the youth for their willingness to share. ▪ If youth are unable to name anyone, have a conversation about opportunities to build new relationships and connections while acknowledging the youth's resilience in the absence of these connections.

Purpose	Form 470-4086 or 470-4086(S) is used to help families assess the balance between the stress and support they have and whether foster care and or adoption is right for them.
Source	Print supplies of the English or Spanish version of this form from the manual or SharePoint under Employee Manual/Forms as needed.
Completion	The foster or adoptive parent applicants complete the form during PS-MAPP.
Distribution	The family shares this self-evaluation with their home study worker during family consultations. The recruitment and retention contractor: ▪ Submits a copy to the Department with the home study. ▪ Keeps a copy in the family's file.
Data	Page 1 of the form includes sections for the applicant to: ▪ Draw a central circle with names of all the people who live in the household. ▪ Draw circles outside the central circle representing systems that give and take away energy. ▪ Describe the relationships between the outside systems and the family. ▪ Describe the flow of energy: Is this system a source of support or stress for the family? Page 2 of the form includes sections for the applicant to: ▪ List five additional "systems" that will likely be added to the family if they become a foster or adoptive family. ▪ Develop preventive strategies to reduce the stresses and increase the support.

Family Case Plan, Form 470-3453 or 470-3453(S)

Purpose

The *Family Case Plan*, form 470-3453, is the official record of the Department's involvement with the family. It serves to:

- Help document the child and family conditions and concerns that caused the family to become involved with the child welfare system.
- Help determine and document the most appropriate services and supports needed to assure and promote child safety, permanency, and well-being. The family's plan includes a description of:
  - A plan to keep children safe.
  - Individual family strengths, supports, and needs.
  - How the strengths and family supports can be used to assist the family in self-directed change.
  - How the Department and others will assist the family in overcoming the needs.
- Document compliance with applicable state and federal laws and regulations.

Source

These forms are all accessed and completed in the DHS Case Flow system at: http://dhsintranet/cwis_caseflow/

- Family Case Plan Face Sheet, Part A
- Family Case Plan, Part B
- Child Placement Plan, Part C
- *Family Functioning Domain Criteria*, form 470-4138 (also located on SharePoint under Employee Manual/Forms), which explains what information, child/family issues, and assessment criteria should be considered in each of the five domain areas
- Family Risk Reassessment, form 470-4134

Completion

The DHS social work case manager assigned to the child and family is responsible for preparing the case plan to provide a comprehensive assessment view of the child and family that focuses on the major needs of the child, the parents, and, if applicable, the foster parents related to child safety, permanency, and well-being.

The case plan must be completed within 60 calendar days from the date the Department opens a DHS child welfare service case.

The case plan must be reviewed and updated:

- At a minimum, every six months thereafter while the case remains open, or
- More frequently if there are significant changes or if required by the court.

Information on the child and family entered in the FACS system automatically completes the case plan. Information not entered in FACS will not appear in the case plan. The worker must enter this information when the case plan is prepared.

Distribution

Obtain the necessary signatures on the plan and indicate which persons participated in developing or reviewing the plan:

- Distribute the *Family Case Plan*, including the *Family Case Plan Face Sheet*, when it is first developed to all of the persons listed on the "Signatures and Notifications" page.
- Distribute copies of any altered or revised case plan, including Part A, Part B, and Part C, if applicable, and the completed review section, to all of the persons listed on the "Signatures and Notifications" page.
- Print a copy of all initial and reviewed case plans, including Part A, Part B, and Part C, if applicable, and the completed review section and place the copy in the case file.

Data

A. Family Case Plan Face Sheet

The face sheet includes identification, statistical, historical, service summary, and placement information for the family.

- *Identifying information*: Enter information on the child's name, FACS ID, date of birth, address, and family members is automatically entered from the FACS system.
- *Service History* and *Placement History*: Enter information about services opened for the child and family in the FACS system is automatically entered from the FACS system.
- *Additional Services Provided*: The social work case manager completes this section. (This data is not contained in the FACS system.) Once entered, this information will be saved and become part of the case plan history over the life of the case.
- *Court Involvement*: The social work case manager enters information on any court involvement into FACS on the Court Detail screen. This information then fills the Court Involvement section of the *Family Case Plan Face Sheet*, Part A.

Information shown in green on Part A may be suppressed for safety reasons, such as when the safety of a foster child or foster parent could be jeopardized by printing the address or there are domestic violence issues or a restraining order between the child's parents.

To suppress all the information shown in green, click on the box "Suppress All Sensitive Date." Individual lines may also be highlighted and removed. Suppressed information reappears when the Case Flow form is reopened.

B. Family Case Plan

- *Identifying information*: The child's name and FACS ID and the DHS worker's name are automatically completed from information in the FACS system.
- *Family Plan Participants*: The worker fills in the list of participants involved in developing the case plan.
- *Date of Initial Plan* and *Family Team Meeting*: The worker must enter dates in these fields.
- Anticipated date of case closure: The worker enters the date.
- *Household Composition*: This information is automatically completed based on information entered in FACS about the child's family members living in the home. Information in FACS about the child's parents not living in the home will be filled into this section as well.

Family Functioning Domains

DHS uses the *Family Functioning Domains* to provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention.

Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- *Child Well-Being*: Child's mental health behavior, relationship with peers, school performance, motivation and cooperation, relationship with caregivers, and relationship with siblings
- *Parental Capabilities*: Parental supervision of children, mental health, disciplinary practices, physical health, developmental and enrichment activities, and use of drugs or alcohol
- *Family Safety*: Physical abuse, neglect, sexual, or emotional abuse of child; and domestic violence
- *Family interactions*: Bonding with child, expectations of child, relationship between parents or caregivers, mutual support within the family
- *Home environment*: Housing stability, financial management, income and employment, safety in community, personal hygiene, habitability, transportation, food and nutrition, learning environment
- *Other*: Additional issues or concerns about the child or family

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

Become familiar with the family functioning domain categories and criteria. Consider the child and family's strengths, concerns, and needs in the various domain areas as you have discussions with the family and gather and analyze information about them.

- Information gathered in a family team may be helpful in evaluating the domain categories.
- Evaluate each individual's functioning through the common "lens" of the domain areas when:
  - There are multiple children in the family,
  - There is a noncustodial parent or stepparent, or
  - A relative is caring for the child.

Complete the family functioning domain section of the case plan by working through each domain category (the subcategories for each domain category automatically appear as you complete the domain sections) and:

- Fill in the **Narrative** section of each domain with a specific description of any strengths or needs identified within that domain.

  Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

  Remember that families may have strengths in some domain areas that can be used to address needs in other domains.
- Establish a **Goal** for each domain area where a need is identified in the narrative. It is critical that goals be developed in partnership with the family.

  Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.
- If no needs are identified for a family within a domain category, but strengths are noted, you may establish a goal for that domain that focuses on using family strengths to help meet needs in other domain areas.
- After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.
- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible for each step and
  - The dates for beginning and completing the necessary actions.

  Update revisions to or completion dates for the steps throughout the life of the case plan.
- Discuss and review the case plan information on domain areas, proposed goals, and action steps with the family before making final entries to the plan.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010691

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

- Use the **Comments** section in each domain area to enter updated information on the family's progress and functioning level in that domain.

When the child is residing with the child's parents, the case plan shall state whether the child would be at "imminent risk of removal" from the home if in-home services were not provided.

"Imminent risk" means there is an immediate threat or likelihood that the child will suffer maltreatment.

When assessing "imminent risk," consider the three safety constructs of threats of maltreatment, child's vulnerability to maltreatment, and the caretaker's protective capacities to determine if the child would be unsafe without in-home services in place.

Cases that meet this standard are eligible for federal Title IV-E funding as candidates for foster care.

In the comments section of the most applicable family functioning domain area, document whether DHS would ask the court to consider the removal of the child if the family refused or terminated in-home services and why.

Review Section

Use the *Family Case Plan* review section when reviewing family progress and making further recommendations for actions and services on the case.

- Indicate the date of the plan review and whether this review was conducted through a family team meeting.
- When completing the review, consider the family's current functioning, level of goal achievement, and completion of necessary steps within each domain area.
- Identify family achievements, progress toward safe case closure, remaining concerns, and your current recommendations in the review section.
- At least once every six months, review the status of any child who has been previously determined to be at "imminent risk of removal" if in-home services are not provided. Document if services should continue and why in the *Review Summary and Recommendations* box.

  Reference **Other Comments** if an evaluation determines that the location of the foster home is suppressed and review this determination every six months or less.

Signatures and Notifications

- Document and obtain signatures from those persons that participated in development of the plan and thank all persons who contributed to the planning process for the child and family.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010692

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

- Set a date for future meeting with the family to review and revise the plan as needed. The **Other Comments** section of this page can be used for this purpose.

  Every six months or less, evaluate and review the decision to suppress the location of the foster home to determine if suppression continues or the need for suppression no longer is applicable.

- The **Other Comments** section may be used to include information concerning:
  - Case child abuse and criminal record histories;
  - Whether the Indian Child Welfare Act applies to the case;
  - Evidence of a direct or indirect threat to harm the foster child or foster family or credible third-party information of a threat of harm to the foster child or foster family as listed in 18-D(4). This information is needed if there has been a decision to suppress the address and contact information of the foster home.

- Distribute copies of the plan to those that should receive them.

C. Child Placement Plan

In combination with the face sheet and the family plan, the out-of-home placement section is a written document that includes all the federal required elements. The family plan and the out-of-home placement section include:

- A description of the placement and the appropriateness of the placement.
- The permanency goal for the child including any concurrent permanency goals.
- A plan for ensuring that the child and family receive services designed to facilitate the return of the child to a safe home or to another permanent placement.
- The health and educational status of the child.
- When applicable, a description of the programs and services that will facilitate the child's transition from foster care to adulthood.

This form is necessary to provide information mandated by state and federal laws and regulations regarding each child placed in an out-of-home setting in which the Department has custody, or when foster care is being provided under a voluntary placement agreement.

The DHS social work case manager responsible for the child should complete the *Child Placement Plan* when the child is placed in an out-of-home setting and DHS has custody or the child is placed under a voluntary placement agreement.

For these children, this section is in addition to Parts A and B of the case plan. The *Child Placement Plan, Part C*, should be updated every 90 days just like Parts A and B.

The *Child Placement Plan* is distributed as part of the case plan for children who are in placement. Print a copy of the *Child Placement Plan* and keep it in the child's DHS service record along with the other sections of the case plan.

Based on available case information and your own discussions with the family, make narrative entries for all applicable items on the *Child Placement Plan* where no auto-filled information appears. Enter sufficient narrative information to explain and give detail about the categories contained in the form.

- The child's name and FACS ID will be automatically completed.
- Enter the following:
  - Child's date of birth
  - Anticipated date of child's return home
  - Date of family plan development
  - Date of initial out-of-home placement
  - Placement authority (court or voluntary placement)
  - Date of current placement
  - Whether "contrary to welfare" language is in the appropriate court order (yes or no)
  - Whether "reasonable efforts" language is in the appropriate court order (yes or no)
- *Permanency Goal*: Select and enter the current permanency goal for the child.
- *Concurrent Goal Assessment*: Assess and answer the two questions concerning the child. **NOTE:** If you answer "no" to either question, you must enter a concurrent goal in the next section.
- *Concurrent Goals*: Complete this section if the answer to either question in "Concurrent Goal Assessment" is "no." Describe concurrent goal planning underway for the child.
- *Child Well-Being Domain*: Review information about the child entered in the family domain criteria "child well-being" area and indicate whether each of the domain subcategories is currently a strength (S) or need (N) for the child.
- *Placement Status Information*: Assess and answer the six questions pertaining to the characteristics of the current placement for the child. **NOTE:** If you answer "no" to any question, you must enter an explanation in the adjacent box.
- *Efforts Made by DHS to Support the Placement and Prevent Disruption*: Check the boxes to indicate the DHS efforts to support the placement and prevent disruption.

AMERICAN OVERSIGHT

- *Placement History*: Enter information about the child's out-of-home placement history. Start with the current placement and then list all previous out-of-home placements, including any hospitalizations, institutional, or PMIC placements.
- *Permanency (ASFA)*: Answer the four questions in this section. **NOTE:** If you answer "yes" to any question, you must enter an explanation in the adjacent box. If termination of parental rights is not indicated, explain this by selecting a reason provided or by citing other compelling reasons in the space provided.
- *Visitation*: Make the appropriate entries to describe the child's visitation situation. Include any necessary narrative to explain the visitation arrangements.
- *Documentation*: Indicate whether the child has a certified birth certificate and a Social Security card and number. Describe plans to obtain if the child currently does not.
- *Health and Health Records*: Answer the question whether the child was able to retain known care providers. If not, explain efforts to do so and reasons why continuity of care was not possible.

  Document whether the child is a victim of sex trafficking. If yes, explain services provided. If the youth is pregnant or has a child, check "yes" in the final question.

  In the table provided, enter any known health examinations and treatments the child has received. If possible, indicate this information for at least the last two years of the child's life.

  Indicate the provider, dates of service, and date the information on these services was given to the child's current caregiver and current service provider.

  NOTE: Do not record HIV status or risk of HIV infection anywhere in the case plan. File any such information in the medical record section of the case file and mark it "Confidential."
- *Mental Health/Psychological/Psychiatric Records*: Describe any known mental health, psychological, or psychiatric evaluations or treatment the child has received.

  Indicate the provider, dates of services, and date the information on these services was given to the child's current caregiver and current service provider.
- *Education Records*: Complete this section to provide information on the child's current educational stats. Contact educational partners at the local school district or Area Education Agency (AEA) if needed to obtain this information.

  If the child was not able to remain in the school the child was attending upon entry or change in foster care placement, explain efforts to keep the

child's educational placement stable and why the change was best for the child.

Transition Plan

"Transition planning" is the process of assisting the child in foster care to prepare to be a self-sufficient adult.

This process includes an assessment of life skills, strength and concerns, services and supports, and outcomes to be accomplished for successful transition.

Planning for transition to adulthood for children in foster care with special needs may need to begin before age 14 to ensure needed funding and services are available.

Service area transition planning specialists (TPS) can provide ongoing consultation and information regarding transition planning for adolescents.

For a child who may be eligible for services as an adult, the assessment and plan of services must be developed with someone who can reasonably be expected to fund those services or be a service provider when the child becomes an adult.

This section is required for a child in foster care of any type who is age 14 years of age or older. The plan shall be updated at required intervals with the *Case Permanency Plan*. In addition, the *Transition Plan* needs to be updated within 90 days of the child turning 18, and if the child remains in care past the age of 18, in the 90 days before discharge.

Organization of a youth-centered planning team is required for every child age 14 and older in foster care. Ask the child to select members of the team. Include specific names of formal and informal supports in the box that asks about membership.

A referral to transition planning specialist (TPS) may be needed for more challenging needs, such as transition planning for a child in long-term foster care or a child needing adult services. If a referral has been made to a TPS, select "yes."

Include the date the Case Life Skills Assessment was completed. It must be done at least once after the child in foster care's 14th birthday. Replace with the new date if it is done again throughout the child's time in foster care.

If the child is interested in pursuing higher education, the plan shall provide for the child's participation in the College Student Aid Commission's program or assistance in applying for federal and state aid.

Indicate whether the child has a driver's license or non-operator ID. If the child does not have at least one or the other, provide steps to obtain one or both.

Review and explain form 470-5337, *Rights of Youth in Out-of-Home Placement*, to a child age 14 and older. Have the child sign and date the form indicating you have reviewed the rights so the child understands and have answered any questions about their rights. After the form has been signed, give the child the original rights document and provide a copy to all legal parties on the child's case. Document the date the form was most recently given to the child in the *Case Permanency Plan*.

Before the child reaches age 17½, present the completed *Transition Plan* to the transition committee for the service area that applies to the child. The local transition committee must review and approve the *Transition Plan*. When a child enters foster care at age 17½ or older, the local transition committee shall be involved in reviewing and approving the child's transition plan within 30 days of completion.

There are six domain areas in the *Transition Plan* and a box for each. Follow the instructions for each section below:

- *Education*: Include information about the child's current education status and plans, including steps that still need to be taken, dates, and who will assist.
- *Employment and Workforce Supports*: Include information about the child's current work status and plans, including steps that still need to be taken, dates, and who will assist. This section needs to show the child has a clean credit report and banking experience, or it should provide plans or activities to achieve.
- *Health and Health Insurance*: Include information about the child and the child's health insurance status and plans.
- *Housing*: Describe the child's housing and housing plans.
- *Supportive Relationships and Services*: Describe relationships and opportunities for social and developmentally appropriate activities. Describe efforts to repair relationships or help child reconnect. Refer child age 17 to aftercare and include the date. If aftercare has not been contacted, leave the box blank.
- *Youth with Special Needs*: Relevant information about any special needs of the child should be included here, as well as referrals to SSI and adult services. The connections to SSI or adult services must be made before the Transition Planning Committee review, which typically occurs when the child is age 17. The date the plan was reviewed should be included in the last box of this section.

Family Foster Care Referral, Form 470-5508

Purpose	The *Family Foster Care Referral*, form 470-5508, provides demographic, medical, behavioral, mental health, educational, and other relevant information about a child in need of foster family care to the contractor responsible for matching activities.
Source	Complete this form using the fillable PDF available in SharePoint under Employee Manual/Forms.
Completion	When time and circumstances allow, the Department caseworker as the "referral worker" completes the form when seeking a foster family home for a child.
Distribution	Submit this form electronically to the contractor responsible for matching responsibilities. Keep a copy in the child's case file.
Data	**Referral Information**. Enter the date of the referral, the time of the referral, and the date and time the foster family is needed.

Referring Worker Information. Enter the name, email, office phone, city, county, and cell phone information of the child's Department caseworker.

Referring Worker Supervisor Information. Enter the name, email, and cell phone information of the child's Department caseworker's supervisor.

FSRP Care Coordinator Information. Enter the name, email, and cell phone number of the child's FSRP Care Coordinator if the child is receiving FSRP services.

Child Information at the Time of Referral. Enter the child's:

- Name,
- Gender,
- Date of birth,
- State identification number,
- Race,
- Language,
- ICWA eligibility,
- Current address including city, state, and zip code,
- Financial county,
- Discussion of the child's strengths and needs,
- Child's special interests or activities, and
- Continued contact with siblings on every child referred.

Enter if youth has a driver's license, school information, church attendance, sexual identity, and sexually active when applicable.

Family Functioning Domain Criteria, Form 470-4138

Purpose	Form 470-4138 is used to assist with assessment of the strengths and needs of the child, and of the child's parent(s)/caretaker(s), home, and family. It is an example of statements regarding areas of strengths and needs.
Source	This form is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.
Completion	The child protection worker uses this tool during the child protective assessment process to aid in the assessment of strengths and needs. Strengths and needs are identified using the family functioning domains: ▪ Child well-being ▪ Parental capabilities (includes use of drugs or alcohol) ▪ Family safety (includes domestic violence) ▪ Family interactions ▪ Home environment Identify domains as a strength or need. Address in the narrative section strengths and needs under each specific subsection that applies to the child, family, or home. It is not necessary to address every item listed. Address items that are relevant to the given situation. You are not limited to only the items listed. The child protection worker completes this form in JARVIS with approval and sign-off by the supervisor.
Data	Family functioning domains are applicable throughout the life of a case beginning with the safety assessment, strengths and needs identification during a child protective assessment or CINA assessment, and developing a family plan.

Family Interaction Plan General Roles and Responsibilities, Form 470-5148 or 470-5148(S)

Purpose

The *Family Interaction Plan General Roles and Responsibilities*, form 470-5148 and 470-5148(S), is the official family interaction plan developed for children placed out of the home. All children who are placed out of the home need to have a family interaction plan in place to ensure interactions occur in safe and healthy ways. The family interaction plan should be tailored to meet the safety needs of the family.

Source

Complete the English or Spanish version of this form using the template available in SharePoint under Employee Manual/Forms. This form may also be printed from the manual or SharePoint.

Completion

The most effective way of developing or reassessing a family interaction plan is during a warm hand-off or Solution Focused Meeting. The written family interaction plan may be incorporated as part of the Solution Focused Meeting notes or identified separately on the family interaction plan form. However, not all children placed out of the home will have a Solution Focused Meeting but family interaction planning should still occur.

Distribution

Give a copy of the completed family interaction plan to the identified team members. Keep the original form in the child's case file.

Data

Background Information. Enter the following information:

- *Children's names*: If multiple children have different needs or safety concerns, the family's team may want to consider a separate plan for each child.
- *Date of plan*: This is the date the plan was developed.
- *Placed with*: Document where the child is placed and with whom. If multiple children are in different places, indicate the type of placement (i.e., resource family, relative, residential placement, etc.).
- *Placement date for children*: This is the date the child was removed and placed out of the home.
- *Permanency goal*: Document the identified permanency goal.

Safety Concerns/Required level of supervision. Utilizing the Family Interaction Planning Tool (Comm. 649) provide explanations for questions A-F of the Interaction Supervision Decision Tree.

Family Interaction Plan. Family interaction should begin as soon as possible after removal from parental custody. At a minimum, interactions should occur within 24 hours of placement, be regular, and of increasing frequency and duration.

- *Types of Interaction*: Document the type of interaction approved. Creativity in defining interactions should be supported. Every opportunity needs to be

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

considered such as doctor appointments, school activities, meetings, and other functions in which the family would have participated if the children were in the home. This should be documented in the Attendance at Child Centered Appointments/Events section of the plan.

Interactions should be built around meaningful activities including:

- Mealtimes,
- Bathing,
- Grooming,
- Naptimes,
- Homework time,
- Grocery shopping,
- Doctors' appointments,
- School activities (i.e., conferences, plays, band and choir concerts, family nights, carnivals, graduation, etc.),
- Sports activities, and
- Should be geared towards the child's developmental abilities.

Creative planning should not only support face-to-face time but also other methods, such as calls, letters, texting, emails, and other electronic methods of communication. Families should be encouraged to explore other ways to connect and interact with one another.

- *Frequency* and *Length of Interaction*: Document the frequency and length of interaction. In determining how often and how long interactions should be, consider the following:
  - The age of the children.
  - The severity and chronicity of the abuse.
  - The potential for abduction or continued abuse of the children.
  - The progress of the parent in learning new skills or managing inappropriate behaviors, protective capacities displayed by the parent.
- *Locations*: Document the locations where the interactions will occur. Utilize the Planning Tool to aid in decision making around interaction locations.

  Family interaction should occur in the least restrictive, most homelike setting that allows for natural interaction and appropriate to meet the child's needs for safety. Generally, the parental, relative, or resource family home will provide the best environment. When safety is an issue, a more secure setting should be chosen and a safety plan developed for the interactions to continue.

  Consider the type of interaction as you document the location. For example, if an interaction is built around school activities, sport activities,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

or doctors' appointments, you would document the location of the event (i.e., school, gymnasium, ball field, doctor office, etc.).

- *Types of Supervision*: Document the type of supervision for the identified interaction. Types of supervision include fully supervised, relaxed supervision, semi or partially supervised, or no supervision necessary. Supervision can be provided by a professional or other person identified by the family's team.
- *Supervised By*: If supervision is required, document who is responsible to provide supervision during interaction. This will be determined by the family's team. Consideration should be given based on the safety concerns and the developmental needs of the child.

  Family interactions are most "natural" when interactions are supported by those with a relationship with the child, such as other family members versus professionals. Family supports can be relied on to assist with all aspects of services including attendance at meetings, role modeling, transportation, observing interactions, etc.

Family Routines to Practice During Family Interaction. Document the goals to be accomplished during family interaction. Family interaction should focus on allowing the most natural parent-child interactions, such as:

- Cooking and eating a meal,
- Reading stories,
- Cleaning a room,
- Playing a game,
- Bath time,
- Naptime, or
- Bedtime routines.

The focus is on maintaining ties between the parent and child and assessing the parent's capacity to care for the child. Primary routines should reflect the family's SBC outcomes.

Goals are the family routines to target during the family interaction. These behavioral changes are most likely related back to the safety concerns as identified by the team.

- Family Routines to Target: Document the routines to practice during family interaction.
- Family Members Involved: Document who is expected to be involved in the routines.
- *Date Reviewed or Revised*: Document the date when the goal was reviewed or revised.

Family interaction needs to be reviewed during a Solution Focused Meeting or by those the family's team identifies, at a minimum, when:

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010703

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

- There are changes in behavioral patterns demonstrated by the parents or children.
- Protective provisions that may be a safety concern change or arise.
- There is a change in family supports.
- There is a change in legal issues or court requirements (change in custody or guardianship) that may impact family interaction planning.
- Agreed upon behavioral changes are accomplished or not.

Transportation. Describe how transportation will be provided once individuals who are available to assist in transportation are identified. Transportation is a key component for interactions to be successful.

Resource family and other relative caregivers should be encouraged to transport children at least one way. Parents and extended family members should be expected to arrange their own transportation, though they may be given temporary support when necessary to ensure there is not a gap in family interaction; however, this will likely be accomplished by public transportation. Children in placement may have to be transported by a provider or HHS staff, one or both ways to interactions.

Other Planning Notes. Considerations when setting expectations could include, but are not limited to, the following:

- Expectations of what parents should bring to the interaction.
- Activities that parents should plan or consider doing during the interaction.
- Behaviors that provide an unsafe situation may terminate the interaction. It is important that there is a follow up with the parents in order to reduce the risk for another unsafe situation.
- The use of physical discipline or threats towards others.
- Negative comments about others, which includes the children, family members, HHS worker, contractor or provider, and other professionals part of the family's team.
- Possession or bringing any drug paraphernalia, illicit substances, or alcohol to the interaction.
- All legal decisions or documents regarding contact, including No Contact Orders, etc. will be abided by all parties.
- Obtain approval before bringing any additional individuals to family interactions. Approvals are determined by the HHS case manager or the family's team.

Family Interaction Calendar. Utilize the calendar to document the initial plan for family interactions. Include any events, appointments or activities which the parent may also attend.

Family Risk Assessment, Form 470-4133

Purpose

Form 470-4133 is used to identify risk factors during an assessment. The *Family Risk Assessment* is composed of two scales that measure the level of risk regarding neglect and abuse.

Source

Complete this form on the Family Risk Assessment tab on the STAR Assessment module in JARVIS.

Completion

The child protection worker completes the *Family Risk Assessment* during the assessment process. This form must be completed before the assessment is approved.

Exception: When abuse occurred or is alleged in an out-of-home setting and child protective concerns do not exist in the child's household, the safety assessment and risk assessment is not required.

Only **one** household can be assessed on the *Family Risk Assessment* form. Assess the child's primary residence. When the alleged perpetrator resides in the household of the noncustodial parent, assess the household of the noncustodial parent. If the child moves to a different household because of the crisis, complete the risk assessment on the household in which the child will remain.

- If the child will remain in the new household, complete the risk assessment on the new household.
- If the plan is to reunify the family, complete the risk assessment on the household **from which the child was removed**.

Upon completion of the form, a Total Neglect Risk Score and Abuse Risk Score are automatically calculated to the highest of either risk score. Use this information in the analysis of the family's strengths, needs, and recommendation for services.

The final risk level is populated on the Child Protective Services Child Abuse Assessment Summary or the Child Protective Services Family Assessment Summary. Reassess the case whenever you determine that an adjustment in the risk score is warranted (either up or down).

Distribution

The form is maintained within JARVIS and is considered assessment data.

Data

Review information obtained from systems checks, Department records including service history, not confirmed assessments, and any previous or current court involvement. Review the risk assessment definitions and complete the *Family Risk Assessment* form by checking the most applicable response.

On items involving caregivers, **select one or two** parents or substitutes based on physical and emotional proximity to the children. Do not rate more than

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010707

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

two caregivers in a home.

Only one primary caregiver can be identified. The "primary caregiver" is the adult living in the household who assumes the most responsibility for child care.

When two adults are present and you are in doubt over which one assumes the most childcare responsibility, select the adult with custody or guardianship or the caregiver responsible for the child involved in the incident as the primary caregiver.

> Ms. X and her partner Mr. Y live together and appear to share caregiver responsibilities for Ms. X's children equally. Because Ms. X has legal custody of the children, select her as the primary caretaker.

If this does not resolve the question, select the legally responsible adult who was a perpetrator or alleged perpetrator.

> Mr. and Mrs. Z live together and appear to share caregiver responsibilities for their children equally. Mrs. Z is the alleged perpetrator of abuse, so she is selected as the primary caretaker.

When both parents are in the household, equally sharing care giving responsibilities, and both have been identified as perpetrators or alleged perpetrators, select the parent demonstrating the more severe behavior.

The "secondary caregiver" is defined as an adult living in the household who has routine responsibility for childcare, but less responsibility than the primary caregiver. A partner may be a secondary caregiver even though the partner has minimal responsibility for care of the children.

If an item relates to all caregivers and the household has more than one caregiver, **rate the caregiver with the more severe behavior**.

The risk assessment form is composed of two scales: the neglect scale and the abuse scale. For detailed guidance, see *Family Risk Assessment Guidance*, RC-0123.

After scoring all items in each scale, total the score for each scale and determine the risk level by checking the appropriate boxes in the risk level section.

Overrides

Policy Overrides: After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and child vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-010708

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

Discretionary Override: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. **You must receive supervisory approval** for a discretionary override.

The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Family Risk Reassessment, Form 470-4134

Purpose	Form 470-4134 is used to identify risk factors and assist in assessing the impact of services provided to the family during a particular timeframe and whether certain events in the family have occurred during the period being measured.
Source	Complete this form on the Risk Reassessment tab on the Child Services module in JARVIS.
Completion	The social work case manager completes the *Family Risk Reassessment*: ▪ During case permanency planning reviews and ▪ Before case closure. The social work case manager will receive an alert to complete the *Family Risk Reassessment* a minimum of 180 days from the initial risk assessment or risk reassessment. The rating on the formal risk reassessment reflects changes in family functioning and provides a framework to identify critical factors that indicate changes in a child's risk maltreatment.
Distribution	The risk reassessment completed and contained within JARVIS is part of the case management service file. When the case permanency plan is updated: ▪ Document information from the *Family Risk Reassessment* in the comment section of the most applicable domain, and ▪ Incorporate the results into the case planning process.
Data	Refer to *Family Risk Reassessment Guidance*, RC-0124.

Completion	The FTDM meeting facilitator engages the family team and develops the family's plan after a family team decision-making meeting is held.
Distribution	The facilitator gives a copy of the completed form to the identified team members. Keep the original form in the child's case file.
Data	**Case Information**. Enter the following information: ▪ Child or children's name or names ▪ Parent or caregiver's name ▪ Parent, caregiver or noncustodial parent's name ▪ Date of the FTDM meeting ▪ Facilitator's name ▪ Facilitator's approval number ▪ Next court hearing date and time ▪ Type of hearing **Desired Outcomes of this Meeting**. Enter the desired outcome of the meeting. **Family Functioning Domains**. The family functioning domains provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention. Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers. The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision. The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories): ▪ Child Well-Being: • Child's physical and mental health,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

- Behavior,
- Relationship with peers,
- School performance,
- Motivation and cooperation to stay with family,
- Relationship with siblings, and
- Supports.

▪ Parental Capabilities:

- Supervision of children,
- Mental health,
- Informal supports,
- Disciplinary practices,
- Physical health,
- Developmental and enrichment activities, and
- Use of drugs or alcohol.

▪ Family Safety:

- Physical abuse,
- Neglect of a child,
- Sexual abuse,
- Domestic violence, or
- Emotional abuse.

▪ Family Interactions:

- Bonding with child or children,
- Expectations of children,
- Family interaction planning,
- Relationship between parents or caregivers,
- Mutual support within the family, and
- Concurrent planning.

NOTE: A written *Family Interaction Plan*, tailored to meet the safety needs of the family is developed and/or reassessed during a family team meeting involving a child placed out of the home to assure family interaction begins as soon as possible after removal from parental custody.

▪ Home Environment

- Housing stability,
- Food and nutrition,
- Transportation,
- Safety in community,
- Financial management,
- Learning environment,
- Habitability of housing,
- Personal hygiene, and
- Income and employment.

- **Other**. Additional issues or concerns about the child or family.

  NOTE: Discuss concurrent planning and permanency goals, any interstate compact issues, child and family cultural factors, language barriers, or if the Indian Child Welfare Act applies.

Complete the family functioning domain section of the FTDM family plan by working through each domain category. Consider the child and family's strengths and needs in the various domain areas as you have discussions during the family team meeting. Fill in the narrative "strengths" and "needs" section of each applicable domain. Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

Establish a goal for each applicable domain area where a need is identified. It is critical that goals be developed in partnership with the family. Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.

After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible,
  - What do they agree to do, and
  - By when.
- Document the date for when the goal was completed or modified.

Crisis Plan. Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

Signatures and Notifications. Enter the name of invited team members, including their role, contact information, and check whether or not they attended the family team meeting.

Foster Care and/or Subsidized Adoption Information Exchange, Report S472N111-01

Purpose

Report S472N111-01, *Foster Care and/or Subsidized Adoption Information Exchange*, provides IV-E workers information that is needed to determine IV-E and Medicaid eligibility for children in foster care and adoption assistance programs.

Source

The FACS system generates this report nightly.

Completion

The FACS system automatically generates this form on foster care and adoption subsidy cases when:

- There is a start date recorded on FACS (labeled as "new placement" on the report).
- There is an end date recorded on FACS (labeled as "exit placement" on the report). (A move from one placement to another generates two reports.)
- The FACS case is transferred to a new service worker.

The IV-E worker examines the report to determine whether the change affects IV-E or Medicaid eligibility (or if additional information is needed).

Distribution

If there is an open Medicaid case with an FBU of 19, the report is issued to the IV-E worker responsible for that case. If there is no open case with a 19 FBU, the report is issued to worker number CM00 in the office where the service worker is located.

Exception: For PMIC placements, the form is generated to the IM unit in the county where the facility is.

File the report in the IV-E case record.

Data

Data reported includes:

- Identification of the workers and the reason for the report.
- Information about the child.
- Information about the child's parents.
- Information about the child's placement.

NOTE: Do not use the PLACEMENT IV-E field or the SERVICE IV-E field to evaluate IV-E eligibility.

Foster Care Reimbursement Request for Child Care Assistance Gap Funding, Form 470-5796

Purpose	The CCA Foster Care Gap Form is used to document the difference between the state Child Care Assistance (CCA) reimbursement rate and the rate the provider would typically charge a private-pay family. Additionally, the form would be used to request reimbursement for absent days beyond the six that they are authorized.
Source	The form is generated from 18-Appendix.
Completion	Resource parents who have been charged amounts beyond what Child Care Assistance will pay or absence days beyond six per month may submit this completed form along with a copy of the written agreement between the provider and resource family regarding the additional charges to receive reimbursement. The form must be sent to fc-ccagap@dhs.state.ia.us. The approved amount will be entered into the SPIL screen in FACS.
Distribution	The payment will be generated through the FACS system and sent to the Resource Parent.
Data	The social work case manager completes the required data fields in FACS through SPIL payment screen.

Foster Child Behavioral Assessment, Form 470-4401 or 470-4401(S)

Purpose

The *Foster Child Behavioral Assessment* checklist serves two purposes.

- It may be used in the development of the case plan as a tool to identify the needs of the child. Every behavioral need of a foster child identified in this tool should be outlined when completing the case plan, along with the corresponding actions and responsibilities of the resource family.
- Since this tool identifies need and responsibilities, it is also the tool used to determine level of care and corresponding foster care payment.

Source

Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

Print the Spanish version of this form from the manual or SharePoint.

Completion

Complete the *Foster Child Behavioral Assessment*:

- Within the first 30 days of a child's initial entry into foster care.
- Whenever the child's behavior changes significantly.
- When the child's placement changes.
- After termination of parental rights, in preparation for negotiating an adoption subsidy or presubsidy.
- Before a court hearing on guardianship subsidy. **Note**: The highest guardianship subsidy is limited to Level 2, basic rate plus level 2.

If a child comes out of group care or PMIC, the child's payment in the foster family home is the basic foster care maintenance rate. It is anticipated that the family team meeting, with the new foster parents participating, will be part of the discharge planning. Complete the *Foster Child Behavioral Assessment* within the first 30 days of placement.

If a child leaves foster family care and goes to shelter care and then returns to the same foster family home, the payment rate remains the same as the rate received by the foster family before the child goes to shelter care. Complete an assessment within 30 days of placement with a new foster family.

To authorize payment to the resource family at a higher level than the basic rate, this form shall be signed by the worker and the worker's supervisor.

After supervisory approval, the difficulty of care payments shall begin the first day of the month **following** the month in which the form was completed. Do not enter the new assessment rate into FACS until the supervisor has signed off and approved the assessment and rate.

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

Distribution

Keep the original form in the child's case file. Give a copy to the resource family upon the family's request.

Data

When completing the checklist, use all available information about the child for a thorough assessment of the child. This may include evaluations, school and provider reports, and home studies, as well as input from parents and the resource family.

Check only behavior that is severe enough to be outside the norm for a child of the same age. Do not check behavior that is typical for a child that age (e.g., "temper tantrums" for a 2-year-old).

In order to have a valid assessment, check each item that applies in **every** category ("minimal" and "moderate" and "intensive").

The template calculates the basic rate once the child's birth date is entered, and automatically calculates the level of care and the total daily rate. The form is designed so that checking all the applicable boxes will result in the proper calculation for the behaviors.

See 18-D(2), *Maintenance Payment*.

Foster Family Home License Application, Form 470-0689 or 470-0689(S)

Purpose

Form 470-0689 or 470-0689(S) is used to apply for a license to operate a foster family home for children. The form gives the retention and recruitment contractor the right to study and evaluate the home and to conduct necessary record checks.

Source

Print supplies of this form from the manual or SharePoint under Employee Manual/Forms.

The form is normally issued by the recruitment and retention contractor at orientation. Local offices that are asked to issue the form can print the form from the manual or SharePoint.

Completion

The prospective foster parents and any adults living in the home complete the form when a family decides to apply for a license or re-apply for a license. Each applicant and any other adult living in the home signs the form.

If a person over the age of 14 (other than a foster child) moves into the home during the licensing year, that person must complete this form in order to authorize the necessary record checks. Have the person:

- Sign the original form on the appropriate line,
- Enter the date by the person's signature,
- Enter any out-of-state residence locations in the last five years, and
- Specify the state and the crime and abuse that occurred.

NOTE: If a child who has been living in the home turns 14, child abuse and criminal history record checks are not completed.

Complete applications for license renewal at least 30, but no more than 90 days before the license expires.

Distribution

The applicant family normally returns the form to the recruitment and retention contractor, but may submit the form to any Department office. If so, forward the form to the recruitment and retention contractor.

The applicant keeps the pink copy of the form. Discard the gold copy, if any.

The contractor:

- Submits the original to the Department with the home study so that a decision can be issued on the application, and
- Keeps the yellow copy in the family's record.

Data

Check the box for "new" when a family applies for a license in Iowa for the first time. Check the box for "renewal" when renewing a current license, or when a previously held license has not been renewed and the family again wishes to be licensed.

The applicants are requested (but cannot be required) to provide social security numbers. They help identify people for record checks.

A person who has resided outside of Iowa in the last five years must report the locations of those out-of-state residences. This information will be used to check the records in those states for convictions and founded child abuse in other states.

Foster Family Placement Contract, Form 470-0716 or 470-0716(S)

Purpose

Form 470-0716 or 470-0716(S) is the formal contract between the Department and the foster parents stating the terms of the placement.

Source

Department staff may complete the English version of this form online either through the FACS system or using the template available in SharePoint under Employee Manual/Forms.

Department staff may print the Spanish version of this form from the manual or SharePoint.

Juvenile court staff should print the form from the online manual and complete it manually.

Completion

The Department worker prepares the form when DHS has financial responsibility for the placement. Juvenile court services completes the contract with the foster parents when they are responsible for the placement.

Complete the form when:

- A child is placed in a foster family home that will be supervised directly by the Department or by juvenile court services.
- There is a change in any of the terms of the placement (e.g., rate of payment).

The contract is approved by the worker's supervisor, or if the contract involves a difficulty of care payment, by the service area manager. The sequence of signature depends on local office procedures.

Distribution

After the form is completed, make a photocopy to file in the child's case record and give the original to the foster parents.

Data

The child's name and birth date corresponds to the information entered in FACS.

The effective date is the date of placement or the date the revised terms become effective.

Special provisions include any specific obligations either for the worker or the foster parents, such as transportation for counseling, arrangement for home visits, etc. Each foster parent signs the contract.

The special provision section also needs to include the entry of all applicable names and phone numbers. The social work case manager responsible for the placement of a child in family foster care enters their home phone number as an after-hours emergency number.

Any additional emergency numbers that the foster parents may need are entered in this section.
