ICPC Report on Child's Placement Status (ICPC 100B), Form 470-0788

Purpose

Form 470-0788 (ICPC 100B) is used to communicate between the placer, the supervising agency, and the respective compact administrators regarding the status of a placement requested under the Interstate Compact on the Placement of Children. It is a national form, known as the ICPC 100B.

Source

Form 470-0788 (ICPC 100B) is available as a template in SharePoint under Employee Manual/Forms. Supplies of the form may also be printed from the manual or SharePoint.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The person supervising the placement or causing the child to be placed completes this form each time:

- A placement is made.
- A placement is changed.
- An approved placement is canceled.
- A placement is terminated.
- A case is closed.
- There is a change of address or status of the placement (e.g., from foster care to adoption).

The Department worker is responsible for preparing the form for all children in the Department's custody or guardianship who are placed out of state and for all children placed into Iowa for whom the Department has assumed supervision under the compact.

When courts, probation officers, or private agencies have placed a child in another state or accepted supervision of a child from another state, their staff are responsible for preparing the form.

When there is a change of purpose in an existing placement, e.g., from foster care to adoption, form 470-0781 (ICPC 100A) may be required at the request of the receiving state.

Distribution

Email form 470-0788 (ICPC 100B) to the ICPC service area liaison. The liaison sends to the ICPC office who forwards to the receiving state.

Data

Section I – Identifying Information

Enter the full legal name and birthdate of the child for whom this placement information is being reported.

Enter the names of the legal parents as on form 470-0781 (ICPC 100A). Enter the name of the resource, the address, and type of care. Enter the same type of care that was chosen on form 470-0781 (ICPC 100A) (e.g., adoptive home, foster family home, group home care). Enter the relationship for relative placements.

Section II – Placement Status

To confirm the initial placement, check the box that applies. Enter the exact date the child was placed in the receiving state.

If some aspect of the placement changes while the child remains in the receiving state, complete another ICPC 100B. Check the "Placement Change" box and indicate the exact effective date of the change.

If the child moves from one placement resource to another, enter the updated placement information. For example, if a child leaves the parents' home and is placed in a residential treatment center, complete the facility's name and address and indicate the new "Type of Care."

Subsequent ICPC 100B forms will list the new placement resource under "Identifying Information." Any additional moves to place the child within the receiving state will be reflected in this same manner.

If only the name (e.g., mother remarries) or address (original placement resource moves) changes, check and complete only those items that apply.

Section III – Compact Placement Termination

Check the boxes that apply:

- *Adoption Finalized*: If an ICPC adoptive placement has been finalized (consummated), check that box and the appropriate box for the state in which finalization occurred, "In Sending State" or "In Receiving State." Attach the final adoption decree.
- *Child Reached Majority/Legally Emancipated*: Check this box if the child has reached majority age and has simultaneously ceased to be the responsibility of the sending agency or if the child has become emancipated through legal action such as marriage or court decision.
- *Legal Custody Returned to Parent(s)*: Check this box when the child's legal custody or guardianship is returned to the parent with the concurrence of the receiving state. Attach the court order transferring custody to the parents to form 470-0788 (ICPC 100B).
- *Legal Custody Given to Relative*: Check this box when the child's legal custody or guardianship is awarded to relatives (other than parents) with the concurrence of the receiving state. Attach the court order transferring custody to the relative to form 470-0788 (ICPC 100B).

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

- *Legal Custody Given to Other*: Check this box when the child's legal custody or guardianship is other (other than parents or relatives) with the concurrence of the receiving state. Enter the name and relationship to the child. Attach the court order transferring custody to the other to form 470-0788 (ICPC 100B).
- *Treatment Completed*: Check this item when the placement resource has been providing a specific treatment-oriented service; that service has been completed; and the child is, therefore, being discharged from the facility (e.g., residential treatment center). This box may also be checked if the child was placed through Article VI of the Compact.
- *Sending State's Jurisdiction Terminated with the Concurrence of the Receiving State*: Check this box when the jurisdiction of the sending state has ended for some reason other than the transfer of custody to parents or relatives with the concurrence of the receiving state's supervising agency or court.

  For example, if formal legal custody or guardianship is not going to be addressed but both states agree that supervision is no longer required or if both states agree to transfer jurisdiction to the receiving state.

  If the sending state's jurisdiction is terminated without the concurrence of the receiving state (including custody or guardianship transfer), the decision was made unilaterally and that box should be checked.
- *Unilateral Termination*: Check this box when the interstate agreement has been terminated unilaterally, whether by the sending or receiving state. A unilateral termination is one in which one state ends the interstate placement agreement without the concurrence of the receiving state.
- *Child Returned to Sending State*: Check this box when the child returns to the state the child was placed from. This may be due to a disruption in placement.
- *Child Moved to Another State*: Check this box when the child moves to a state other than the sending state.
- *Proposed Placement Request Withdrawn*: If you have submitted form ICPC 100A to request placement approval and have decided not to explore that resource further, check this box, list the "Name of the Proposed Placement Resource," and date of your decision to terminate the compact.

  Check this box only when no action has yet been taken on form 470-0781 (ICPC 100A). If you are withdrawing more than one request, submit a separate form on each and list each respective "Placement Resource."
- *Approved Resource Will Not Be Used for Placement*: Check this box when you have received an approved form 470-0781 (ICPC 100A) but have decided not to place the child with that resource. List the name of the "Approved Placement" and date of your decision to terminate the compact.

- *Other*: Check and specify if the reason for compact placement termination is not listed above. For example, the entire family moved to another state (new address should be entered under "Placement Change"), the death of a child, the child ran away and whereabouts are unknown.

Date of Termination: Enter the exact date of the activity that ended the Compact Placement Agreement.

Section IV – Signatures

If a private person or local agency is completing the form, have a designated person sign, under "Person/Agency/Supplying Information," identify the agency, and date the signature.

ICPC Request (ICPC 100A), Form 470-0781

Purpose

Form 470-0781 (ICPC 100A) is the sending agency's formal written notice to the receiving state of its intention to make an interstate placement. It requests a finding as to whether the placement would be contrary to the interests of the child. With most placements, it is also a formal request for a home study.

Following review by the receiving state, it is the official notice of the receiving state's decision. A favorable finding means that the placement can be made in conformity with the compact. An unfavorable finding means that the placement would be unlawful.

Form 470-0781 (ICPC 100A) must accompany all requests for placement to which the compact is applicable. It must be favorably acted upon by the receiving state before any compact placement is made.

Source

Form 470-0781 (ICPC 100A) is available as a template in SharePoint under Employee Manual/Forms.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The service worker, private agency, court, or any person placing the child may complete this form. It is prepared when a request is being made to place a child in another state.

Distribution

Distribute as follows:

- The sending agency/Iowa ICPC service area liaison uploads the completed 100A into the National Electronic Interstate Compact Enterprise (NEICE) and electronically sends to the sending state deputy compact administrator.
- The deputy compact administrator reviews, signs, and sends to the receiving state's identified administrator.
- The receiving agency administrator completes Section IV of the form and returns to the sending state ICPC office.
- The sending state administrator sends via NEICE to the sending agency.

Data

In the first two blocks, enter the name and address of the ICPC administrator (or deputy) to whom the request is being forwarded (TO) and the name and address of the ICPC administrator (or deputy) whose state is submitting the request (FROM). If information for the receiving state is unknown, enter only the name of the state.

Section I – Identifying Data

Enter the full legal name, social security number, Indian Child Welfare Act (ICWA) eligibility, IV-E eligibility, sex, gender, date of birth, and ethnic group of the child for whom this placement is proposed. If the child is known by a nickname, place it in parenthesis beside the legal name.

NOTE: An "Indian child" means any unmarried person who is under age 18 and is either:

- A member of an Indian tribe or
- Eligible for membership in an Indian tribe and is the biological child of a member of an Indian tribe.

Enter the names of the legal parents, usually the birth parents. When an adoption is finalized, the adoptive parents are the legal parents. If the parent is deceased, enter "deceased" after the parent's name.

If parental rights are voluntarily relinquished or terminated by the court, indicate in parenthesis beside the name. If you prefer to withhold the name, simply enter the status of the parent's rights.

Enter the complete name, address, and telephone number of the agency or person who is responsible for planning for the child and who is financially responsible for the child. In most cases, these two items will be the same (the sending agency). Email addresses are optional.

Section II – Placement Information

Types of Care Requested. Check the boxes designating the following:

- *Public Placement*: Public placement means a placement processed by a public child welfare agency where the state or local agency, or the court has authority to make the placement.
- *Private Placement*: Private placement means a placement made by a parent or a private or independent agency or representative not acting as an agent of the state (e.g., private adoption) or, in the case of a private residential treatment placement, where a parent or guardian is making the placement (e.g., private Residential Treatment Facility (RTF)/Residential Treatment Center (RTC) placement, etc.).
- *Subsidy*: Check the box for public foster care or adoption to denote IV-E federal, non-IV-E state or local, or none for no financial support. Select pending if not yet determined.
- *Adoptive Home*: Adoptive home refers to both agency and private or independent adoptive placement before finalization of an adoption. This may refer to an initial placement with a family where adoption is the intention or it may refer to the movement of an adoptive family from state A to state B following placement.

If this is a request for private or independent adoption, you are required to also complete the fields for the names, address, social security numbers, and telephone number for the prospective adoptive resource. Indicate if it is a federally-funded adoption subsidy (IV-E) or a state- or local-funded subsidy (non IV-E), pending (if not yet determined), or none.

- *Finalizing in*: Check one box to indicate the state in which the adoption will be finalized if known, otherwise mark pending.
- *Foster Family Home*: A foster family home is a facility providing care and guidance for a child or children not related to the caretaker for regular 24-hour care, or a certified kinship care home. A family foster home may not operate without a license or a certificate as required by the laws of the receiving state.
- *Group Home Care*: A resource which is licensed or approved as a group home and which provides substitute care for a fee; usually a modified family-type setting which serves more children than a foster home but fewer than an institution.
- *Child-Caring Institution*: A group care facility that is licensed or approved to provide custodial care to a larger number of children than a foster home or group home.
- *Residential Treatment Center*: A group care facility that provides a specific treatment program outside the realm of a medical hospital, psychiatric hospital, or institution for children with an intellectual disability (e.g., a residential program for the treatment of alcohol or drug abuse. The receiving state is not obligated to supervise this type of placement made by the sending state.
- *Parent*: A biological or adoptive parent or legal guardian as determined by applicable state law and who is responsible for the care, custody, and control of a child or upon whom there is legal duty for such care.
- *Institutional Care – Article VI Adjudicated Delinquent*: A group care facility for adjudicated delinquents whose proposed placement is according to Article VI of the ICPC. These facilities may include group homes and residential treatment centers and may serve non-delinquents as well.
- *Relative (Not Parent) Relationship*: Specify relationship, such as maternal aunt, paternal grandparents, brother, etc.
- *Other*: Specify a type of care not already listed, such as:
  - Nonrelative free home (an unrelated family that does not require foster home licensure in the receiving state and does not need or want foster care payments)
  - Independent living arrangement (an older teenager who is still under the jurisdiction of an agency or court but is capable of independent living without the supervision of a foster home or group home)

- Maternity home
- Extended foster care (youth aged 18–21 years old)

Current Legal Status of Child. Check the appropriate box.

- *Sending Agency Custody/Guardianship*: The child is in the full legal custody or guardianship (depending on the state's terminology) of a public agency. For example, a public agency may be social services, youth corrections, probation, parole, or a tribe. If allowed by state law, the sending agency may also be a licensed private child placement agency, an adoption agency, or a birth mother.
- *Parent/Relative Custody/Guardianship*: The child is not under the jurisdiction of either an agency or the court but is the full legal responsibility of a parent or relative. This choice is most likely to be marked when a parent, relative or guardian wishes to place a child in one of the types of care listed.
- *Court Jurisdiction Only*: The court has an open abuse, neglect, or dependency case that establishes court jurisdiction with the authority to supervise or remove and place the child for whom the court has not taken guardianship or legal custody.
- *Protective Supervision*: A legal status created by court order under which the child is permitted to remain in the child's home or is placed with a relative or other suitable person and the court, the Department, or another agency designated by the court provides supervision and assistance.
- *Parental Rights Terminated – Right to Place for Adoption*: The sending agency has accepted a voluntary relinquishment of parental rights or has completed court action terminating parental rights and now holds complete jurisdiction over the child with the right to place for adoption.
- *Unaccompanied Refugee Minor*: This form is not used to report the initial placement into the United States but to request placement and services in a second state after a U.S. agency or court has been granted full legal responsibility (custody or guardianship). Check this box only if that is the case.

  Also mark the "Sending Agency Custody/Guardianship" box. If this is an unaccompanied refugee minor whose status warrants the ICPC 100A specific to those children (not the legal responsibility of an U.S. agency or court), do not use this form.
- *Other*: Legal status is not otherwise listed (e.g., legal action, such as a petition for custody or guardianship or to terminate parental rights, is pending).

  For example, the child is the responsibility of the sending agency under a voluntary agreement with the parent or legally responsible relative and no court action has been taken or is pending to alter the family member's legal rights over the child.

Name of Person(s) or Facility Child is to be Placed with. Enter the name, address, and telephone number of the agency, facility, or individuals where the child will be placed. These entries are required.

Name(s) of Prospective Adoptive or Foster Resource. If placement is with an agency (e.g., adoption, foster care, etc.) other than a residential treatment facility (RTF), provide the foster or adoptive resource where the child will reside.

Enter the name, address, social security number, and telephone number of the individual with whom the child will be residing if it differs from the information in the section "Name of Person(s) or Facility Child is to be Placed with."

Section III – Services Requested

Initial Report Requested. If the proposed placement is not for a group care placement and a current home study has not yet been received, check the box for the appropriate type of home study needed based on the type of care indicated in Section II.

Supervisory Services Requested. Check one of the following boxes to indicate how supervisory services are to be conducted:

- *Request Receiving State to Arrange Supervision*: Check this box if the sending agency cannot supervise and does not have a contractual or other agreement with a pre-determined agency to provide these services. Usually the public social service agency will be asked to provide supervision following an approved home study and subsequent placement.
- *Another Agency Agreed to Supervise*: Check this box if the sending agency already has received the formal agreement of a pre-determined supervisory agency. This choice is most likely to be checked in agency adoptive placements where an agency in the receiving state already has provided an adoptive home study and will be providing ongoing services to the adoptive family.

  Do not check this item because you know which county office of the public agency will receive this referral and may have discussed the case over the telephone. That does not constitute an agreement to supervise.
- *Sending Agency to Supervise*: Check this box if it is logistically feasible, it is the best-case plan, and the receiving state has granted the sending agency permission (which may or may not include licensure) to provide services in its state.
- *Other*: Check this box if requesting supervision for extended foster care youth (defined as youth aged 18–21 years).

Supervisory Reports Requested. Complete even though placement may not be a certainty at this time. Indicate how frequently you wish to receive progress reports. Standard timeframes are semi-annually, quarterly, monthly, or other. Check "other" when you wish to receive reports in a timeframe not listed.

- *Child's Social History*: Should accompany the majority of referrals; includes the pre-placement summary on adoption referrals and can be written with non-identifying information, if appropriate and preferred.
- *Home Study of Placement Resource*: Attach a current home study if one is not being requested; most likely to be checked if you already have an approved home study or the child is relocating with a placement resource and the home study is enclosed.
- *Court Order*: All applicable court documents should be enclosed (e.g., custody or guardianship orders, surrenders, orders terminating parental rights, and orders requesting a home study for the court).

Next Steps, Form 470-5592

Purpose

Form 470-5592 is an optional resource for working with families to document agreements or activities that fall outside of the scope of a *Safety Plan*. The *Next Steps* can be used whether or not a *Safety Plan* is required.

Families are often eager to get started on resolving issues identified during a protective assessment or service case. For example, parents may voice a commitment to making a mental health appointment for themselves or their child, seeking child care, cleaning their house, etc. The *Next Steps* should be simple – who will do what by when. Unlike the *Safety Plan*, the *Next Steps* can be a promissory note – a tool for creating a reminder of commitments that have been made for the good of the children and the family.

Never use the *Next Steps* to make temporary or voluntary changes in child custody. The *Next Steps* does not replace the *Safety Plan*, which must be completed if a child is determined to be safe with a plan. The *Next Steps* is not binding, but a way to engage families regarding commitments they or others (including the Department) make to help preserve and strengthen family connections.

Source

Print this form from the manual or SharePoint under Employee Manual/Forms.

This form is also printed as a three-part carbonless set. Order supplies from Iowa Prison Industries in Anamosa.

Completion

When deemed useful, the child protection worker or social work case manager completes the *Next Steps* with the family, documenting who has agreed to an action step, what that action step is, and when it will be completed.

Use the *Next Steps* during the course of an assessment or anytime throughout the Life of the Case. Only those who are agreeing to an action step need to be present and sign the *Next Steps*. The *Next Steps* can be created in the family's home, at a meeting involving the family, or in other circumstances where action steps are identified.

Distribution

If a printed form is used in place of the three-part carbonless form, a picture of the *Next Steps* must be taken with a state-issued phone or camera.

Leave a copy or the original of the completed form with the family. Keep a copy for the Department's records by uploading the copy or photo of the completed form into File Manager (located within the JARVIS-STAR assessment module) or in the service case file.

Data

Family name: Document the last name of the family. The child protection worker may want to include the name of the child victim. The social work case manager may want to include the name of the youngest child.

Source	Complete this form using the template in SharePoint under Employee Manual/Forms.
Completion	The Department licensing worker completes this form upon receipt of the licensing renewal packet for foster families who have completed their first two years of licensure. Use this form only for foster families whose performance in the previous licensing year indicates the need for a one-year license. The occurrence of one or more of the reasons does not require a recommendation of a one-year license. Take into consideration the circumstances, foster family's history, willingness to take responsibility and made adjustments, and other relevant factors when deciding whether to make the request. Also document voluntary requests by the foster family in this section. If you need more space to write the information under *Other reasons*, use another sheet of paper and attach it to this form.

The foster family program manager returns a copy to the Department licensing worker. The Department licensing worker then sends the foster family the *Notice of Action* and enters the foster home renewal date in FACS. - If a safety plan removes or keeps a child from his or her usual and customary home, the signature of both custodial parents must be obtained. If the signature of both custodial parents cannot be obtained, then the safety plan may not include the removal or keeping a child from his or her usual and customary home unless sanctioned by a court.
- If a safety plan interferes with the custodial rights for a parent or otherwise prevents a parent from having physical contact with the child, the signature of that parent must be obtained. If the signature of that parent cannot be obtained, then the safety plan may not include language that interferes with the custodial rights for a parent or prevents the parent from having physical contact with the child unless sanctioned by a court.
- If a safety plan involves a third-party individual that is not a parent to the child, assure that you obtain the signature of the parents (as described above) as well as the signature of the individuals directly involved with implementing or monitoring the safety plan. Having other individuals sign the safety plan along with the parents does not interfere with the custodial rights of either parent.

Establish a goal for each applicable area where a need is identified. It is critical that goals be developed in partnership with the youth. Goal statements should be strength-based and focused on achieving the outcomes essential for the youth.

After reviewing the strengths, needs, and goals for each area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

Youth Transition Decision-Making (YTDM) Youth's Dream Path, Form 470-5176

Purpose

The *Youth Transition Decision-Making (YTDM) Youth's Dream Path*, form 470-5176, is the official model to use during the YTDM meeting.

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms.

Supplies of this form may also be printed from the manual or SharePoint as needed.

Completion

The YTDM meeting facilitator develops the youth's dream path, in collaboration with the youth, after a youth transition decision-making meeting is held.

Distribution

The facilitator gives a copy of the completed form to the identified team members. Keep the original form in the youth's case file.

Data

Case Information. Enter the following information:

- Youth name
- Parent/caregiver name
- Parent/caregiver/noncustodial names
- Date of the YTDM meeting
- Date of the next YTDM meeting
- Facilitator name and approval number
- Next court hearing date and time
- Type of hearing

Desired Outcome of this Meeting. Use the Dream Path as a tool for the stabilization and action planning parts of the YTDM meeting.

The Dream Path includes the stabilization phase, which identifies the five Fostering Connection areas that need to be addressed and stabilized in the first column.

The five Fostering Connections areas are:

- Education
- Employment
- Health
- Housing
- Supportive Relationships

Complete the stabilization section of the YTDM youth plan by working through each of the five fostering connections categories from left to right. The far left column is available to write the current or 'Now" situation for the youth. Under the column, "What will happen," establish a goal for each applicable area where a need is identified. It is critical that goals be developed in partnership with the youth. Goal statements should be strength-based and focused on achieving the outcomes essential for the youth.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 363 (Attachment 2 of 3)

After reviewing the strengths, needs, and goals for each area, identify the "Who will help me" (services or supports that may be helpful) to achieving the goals.

In each category list the action steps needed to achieve the goal. The steps should clearly identify:

- If youth is in agreement;
- Who is responsible;
- What do they agree to do; and
- By when, which is documented under either the 0 to 3 months column or the 4 to 9 months column.

Crisis Plan (Plan B). Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

To move into the Dream Path phase. Each YTDM meeting begins with a review of the five Fostering Connections areas to determine if changes or adaptations need to be made. Once the youth has achieved stability, the longer range planning can begin. Review the 'Dream' written in the 'cloud' on the far right of the document and determine the steps to head in that direction. Develop action plans with a six to nine months' time frame.

Each additional meeting of the team can look ahead further. The youth will be fully listened to and have input every step of the way. If there is disagreement, take the time to discuss the issue and resolve it before moving forward.

Each meeting covers strengths of the youth and a review of the previous assignments. Establish a new Crisis Plan (Plan B) at each meeting as well. Completion of the YTDM meeting process is determined by the youth and the team. It can continue informally after the youth ages out of the system, if desired.

Hello everyone. Based on our discussion today, we need to have more discussion about what's happening with the caseload count data being reported for title IV-E Foster Care Candidates (not Prevention Plan candidates) and children in title IV-E FC placements for Iowa's CB-496 reports. As noted, there is a significant discrepancy between what's being reported for caseload counts in both populations across administration claiming (Case Planning and Management Administration vs. Independent Legal Representation) where it should be comparable (see attached spreadsheet). From what David shared, the Case Planning and Management Administration caseload data is pulled from DHHS sources and the Independent Legal Representation data is entered on the form as reported by the State Public Defender's office.

I am also sharing Children's Bureau policy guidance pertaining to Title IV-E candidates for foster care found in the CB Child Welfare Policy Manual online. During the call today, I was referencing Question 2 found in this section but I encourage you to review any/all questions as you see necessary.
https://acf.hhs.gov/cwpm/public_html/programs/cb/laws_policies/laws/cwpm/policy_dsp.jsp?citID=79

Wendy Sheetz and I had a conversation about these candidates last Spring and she shared a reference to Iowa's Employee Manual 18-Appendix. It's on page 119 (see attached).

If I missed sharing anything that you anticipated seeing, please let me know and I will share.

As you know, I will be in Des Moines (at the 525 SW 5th Street Building) next week on Monday and Tuesday but I can drive to another location as well. If you are available, I have time on Monday (3/11) between 11AM-1PM and then again at 3PM. I also have time on Tuesday morning before 10:30AM. If those dates/times won't work, we can revisit dates/times for a Teams call just let me know.

Thank you!

  Provide a narrative description of individual parent/caretaker concerns by addressing the following:

  - Describe what individual issues parents/caretakers have that need to be better managed or replaced so that the family tasks can go better (i.e. new plans for managing anger/control issues, improving emotional stability, stopping or limiting use of substances, managing sexual behavior, etc.) and what kind of new plan needs to be in place to ensure child safety and well-being.

  Provide a narrative description of family consensus regarding safety concerns by addressing the following:

  - What is the level of consensus with the family regarding the safety concerns and/or threats of danger described above?

When the family is being referred to non-agency voluntary services, document the actions developed jointly with the family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of family functioning:

- Consider if there are current resources, services, and supports available to the family that can meet the family's needs and increase protection for the child.
- Identify services and supports provided to the family that have failed to prevent the child's abuse or reabuse.
- Consider if caretakers refuse needed services or supports despite protective concerns, increasing children's risk.
- Document your recommendation for services.

When the family is eligible for non-agency voluntary services, but is not being referred, indicate the exception reason.

When the family is being referred for Department services, identify the prevention services to meet the foster care prevention strategy and describe what that prevention strategy is.

When the family is eligible for Department services, but is not being referred, indicate the exception reason.

    - Your specific recommendations to the county attorney on the initiation or continuation of juvenile court action.
    - Your rationale to support that recommendation (e.g., family with founded abuse has refused offer of Department services).
  - If you do not recommend juvenile court involvement, include under "Type of Action Requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was not confirmed, or was confirmed or founded but low-risk).
  - If you recommend criminal court involvement, include:

Dependent Adult Assessment Tool, Form 470-4841

Purpose	Form 470-4841 is a three-part tool used to assess a dependent adult's *degree of dependency*, as well as, to analyze safety and risk. Complete an assessment of safety, dependency, and risk on every alleged victim for whom an evaluation or assessment is conducted.
Source	Complete the assessment tool online in DARES under each tab, respectively labeled "Safety Assessment," "Dependency Assessment," and "Risk Assessment." This form may also be printed from "My Links" in JARVIS and entered into DARES later.
Completion	The adult protective worker must complete the *Safety Assessment* portion: ▪ Within 24 hours of the first contact with the adult subject, and ▪ Before closing the adult protective evaluation or assessment. The adult protective worker must complete the *Dependency Assessment* portion before the end of the dependent adult protective evaluation or assessment. The adult protective worker must complete the *Risk Assessment* portions before the end of the dependent adult protective evaluation or assessment.
Distribution	The *Dependent Adult Assessment Tool* is not distributed as part of the *Dependent Adult Protective Services Evaluation or Assessment Summary*. Print the *Dependent Adult Assessment Tool* and keep it in the case file.
Data	Asterisked (*) items are generated by the DARES database if the information has been entered into DARES. The adult subject's name, date of birth, age, form of alleged maltreatment, and caretaker, if applicable, are pulled from household composition. Safety Assessment (Initial and Final) If any of 2 through 6 are **No** or 7 through 14 are **Yes**, assist the adult subject, caretaker, service providers, and support system to take steps to alleviate the safety issues. This may be done by: ▪ Obtaining medical care or placement, ▪ Engaging additional formal and informal supports, ▪ Safety planning, ▪ Use of law enforcement, or ▪ Seeking legal intervention. DARES will narrow the results of the safety decision in compliance with the scoring instructions. Only the subsequent safety status score is pulled from DARES and populates into form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Initial Safety Decision

Check the box to indicate your determination as to whether the dependent adult is "safe," "conditionally safe," "unsafe," or "unable to remediate safety concerns." When selecting "unable to remediate safety concerns," the adult protective worker must select one of the following reasons why:

- Protective order requested but not granted.
- Dependent adult has the capacity to consent and is refusing services.
- Dependent adult has accepted some, but not all of the recommended services.
- Other. If selecting other, please provide a brief explanation.

Dependency Assessment

Health conditions and diagnoses: Enter medical information. Document the overall condition of the adult, any existing allergies, and behavioral indicators or observations of health.

Medications: Enter all the adult's medications.

Current services: Enter **Yes** or **No** for each question. Use "Other" for services not represented on the list. Explain all other services not on the list.

Cognitive impairments: Enter **Yes** or **No** for each question. Completing IQ is optional. Explain any temporary conditions.

Cognitive screening: Enter the type of mental status screening tool conducted. If the mental status screening tool used by the adult protective worker or other qualified professional is not represented in the list, select "other." List the score and what the score means pertaining to the adult subject's cognition. Screening will allow the adult protective worker to determine if the adult subject needs a more comprehensive assessment on capacity to consent.

Physical impairments: Enter **Yes** or **No** for each question. Explain if necessary.

Katz (Activities of Daily Living) (ADL): The Katz Index ranks adequacy of performance in the six functions of *bathing, dressing, toileting, transferring, continence, and feeding*. Clients are scored for independence in each of the six functions.

Each category has a check box. DARES calculates the score. Completion of all questions is required. A score of six indicates full function; four indicates moderate impairment; and two or less indicates severe functional impairment.

Lawton – Brody Instrumental Activities of Daily Living Scale (IADL): The IADL is an appropriate instrument to assess independent living skills. These skills are considered more complex than the basic activities of daily living as measured by the Katz Index.

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

The instrument is most useful for identifying how a person is functioning now and identifying improvement or deterioration over time. There are eight domains of function measured with the Lawton IADL scale.

To obtain a score for each category, check the box for the item description that most closely resembles the client's highest independence level. Each category requires one box to be checked. The total score ranges from zero which indicates low functioning to eight which indicates high functioning.

Summary of dependency status: Determine if the information collected through the dependency portion of your assessment indicates the adult subject (alleged victim) is dependent.

Use the narrative to summarize the evidence gathered through the dependency assessment to support or refute that the adult subject is a dependent adult. A diagnosis or level of care alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the "Summary of dependency status" narrative is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Adult Subject Risk of Abuse or Neglect Assessment

The risk assessment must be completed by the conclusion of the assessment or evaluation.

The scored risk levels are pulled from the risk assessment of the adult subject and the alleged person responsible that are completed through DARES for the incident. If the risk assessments have not been completed, levels will not appear in the printed version.

The final risk level score is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*, under "Final Risk Level." The DARES system uses this score to determine what the client's periodic visit eligibility is based on, age, dependency status, mitigating interventions, and risk level.

Summary and Analysis of Safety Constructs Narrative

- Describe the threats of maltreatment that are present at this time (i.e., aggravating factors that combine to produce a potentially dangerous situation).

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-011113

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

- Describe the adult subject's vulnerability to maltreatment (i.e., the degree that the adult subject cannot on the adult's own avoid, negate, or minimize the impact of present or impending danger).
- Describe the adult subject and caretaker or alleged person responsible protective capacities (i.e., family, household, or support system strengths or resources that reduce, control, or prevent threats of maltreatment from arising and the factors and deficiencies that have a negative impact on the adult subject's safety).

Policy Overrides

After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and adult subject vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

Discretionary override reason: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. You must receive supervisory approval for a discretionary override. The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Supervisor's Review/Approval of Discretionary Override: Enter a signature.

Date: Enter the date.

Dependent Adult Protective Services Evaluation or Assessment Summary, Form 470-0688

Purpose

Form 470-0688 provides identifying information about the adult subject and the household in which the adult subject resides. This summary addresses the abuse reported and the determination of whether abuse occurred.

This form may be completed online, including the narrative, using the DARES system.

Completion

The adult protective worker who completes the evaluation or assessment completes the form. The supervisor approves and signs off on the final report.

Distribution

Automatically provide the summary to the county attorney. Keep a copy in the case record.

- Family Case Plan, Part B
- Child Placement Plan, Part C
- *Family Functioning Domain Criteria*, form 470-4138 (also located on SharePoint under Employee Manual/Forms), which explains what information, child/family issues, and assessment criteria should be considered in each of the five domain areas
- Family Risk Reassessment, form 470-4134

Completion

The DHS social work case manager assigned to the child and family is responsible for preparing the case plan to provide a comprehensive assessment view of the child and family that focuses on the major needs of the child, the parents, and, if applicable, the foster parents related to child safety, permanency, and well-being.

The case plan must be completed within 60 calendar days from the date the Department opens a DHS child welfare service case.

The case plan must be reviewed and updated:

- At a minimum, every six months thereafter while the case remains open, or
- More frequently if there are significant changes or if required by the court.

Information on the child and family entered in the FACS system automatically completes the case plan. Information not entered in FACS will not appear in the case plan. The worker must enter this information when the case plan is prepared.

Distribution

Obtain the necessary signatures on the plan and indicate which persons participated in developing or reviewing the plan:

- Distribute the *Family Case Plan*, including the *Family Case Plan Face Sheet*, when it is first developed to all of the persons listed on the "Signatures and Notifications" page.
- Distribute copies of any altered or revised case plan, including Part A, Part B, and Part C, if applicable, and the completed review section, to all of the persons listed on the "Signatures and Notifications" page.
- Print a copy of all initial and reviewed case plans, including Part A, Part B, and Part C, if applicable, and the completed review section and place the copy in the case file.

Data

A. Family Case Plan Face Sheet

The face sheet includes identification, statistical, historical, service summary, and placement information for the family.

- *Identifying information*: Enter information on the child's name, FACS ID, date of birth, address, and family members is automatically entered from the FACS system.
- *Service History* and *Placement History*: Enter information about services opened for the child and family in the FACS system is automatically entered from the FACS system.
- *Additional Services Provided*: The social work case manager completes this section. (This data is not contained in the FACS system.) Once entered, this information will be saved and become part of the case plan history over the life of the case.
- *Court Involvement*: The social work case manager enters information on any court involvement into FACS on the Court Detail screen. This information then fills the Court Involvement section of the *Family Case Plan Face Sheet*, Part A.

Information shown in green on Part A may be suppressed for safety reasons, such as when the safety of a foster child or foster parent could be jeopardized by printing the address or there are domestic violence issues or a restraining order between the child's parents.

To suppress all the information shown in green, click on the box "Suppress All Sensitive Date." Individual lines may also be highlighted and removed. Suppressed information reappears when the Case Flow form is reopened.

Family Functioning Domains

DHS uses the *Family Functioning Domains* to provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention.

Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- *Child Well-Being*: Child's mental health behavior, relationship with peers, school performance, motivation and cooperation, relationship with caregivers, and relationship with siblings
- *Parental Capabilities*: Parental supervision of children, mental health, disciplinary practices, physical health, developmental and enrichment activities, and use of drugs or alcohol
- *Family Safety*: Physical abuse, neglect, sexual, or emotional abuse of child; and domestic violence
- *Family interactions*: Bonding with child, expectations of child, relationship between parents or caregivers, mutual support within the family
- *Home environment*: Housing stability, financial management, income and employment, safety in community, personal hygiene, habitability, transportation, food and nutrition, learning environment
- *Other*: Additional issues or concerns about the child or family

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

Become familiar with the family functioning domain categories and criteria. Consider the child and family's strengths, concerns, and needs in the various domain areas as you have discussions with the family and gather and analyze information about them.

- Information gathered in a family team may be helpful in evaluating the domain categories.
- Evaluate each individual's functioning through the common "lens" of the domain areas when:
  - There are multiple children in the family,
  - There is a noncustodial parent or stepparent, or
  - A relative is caring for the child.

Complete the family functioning domain section of the case plan by working through each domain category (the subcategories for each domain category automatically appear as you complete the domain sections) and:

- Fill in the **Narrative** section of each domain with a specific description of any strengths or needs identified within that domain.

  Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

  Remember that families may have strengths in some domain areas that can be used to address needs in other domains.
- Establish a **Goal** for each domain area where a need is identified in the narrative. It is critical that goals be developed in partnership with the family.

  Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.
- If no needs are identified for a family within a domain category, but strengths are noted, you may establish a goal for that domain that focuses on using family strengths to help meet needs in other domain areas.
- After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.
- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible for each step and
  - The dates for beginning and completing the necessary actions.

  Update revisions to or completion dates for the steps throughout the life of the case plan.
- Discuss and review the case plan information on domain areas, proposed goals, and action steps with the family before making final entries to the plan.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-011145

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

- Use the **Comments** section in each domain area to enter updated information on the family's progress and functioning level in that domain.

When the child is residing with the child's parents, the case plan shall state whether the child would be at "imminent risk of removal" from the home if in-home services were not provided.

"Imminent risk" means there is an immediate threat or likelihood that the child will suffer maltreatment.

When assessing "imminent risk," consider the three safety constructs of threats of maltreatment, child's vulnerability to maltreatment, and the caretaker's protective capacities to determine if the child would be unsafe without in-home services in place.

Cases that meet this standard are eligible for federal Title IV-E funding as candidates for foster care.

In the comments section of the most applicable family functioning domain area, document whether DHS would ask the court to consider the removal of the child if the family refused or terminated in-home services and why.

Review Section

Use the *Family Case Plan* review section when reviewing family progress and making further recommendations for actions and services on the case.

- Indicate the date of the plan review and whether this review was conducted through a family team meeting.
- When completing the review, consider the family's current functioning, level of goal achievement, and completion of necessary steps within each domain area.
- Identify family achievements, progress toward safe case closure, remaining concerns, and your current recommendations in the review section.
- At least once every six months, review the status of any child who has been previously determined to be at "imminent risk of removal" if in-home services are not provided. Document if services should continue and why in the *Review Summary and Recommendations* box.

  Reference **Other Comments** if an evaluation determines that the location of the foster home is suppressed and review this determination every six months or less.

Signatures and Notifications

- Document and obtain signatures from those persons that participated in development of the plan and thank all persons who contributed to the planning process for the child and family.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

- Set a date for future meeting with the family to review and revise the plan as needed. The **Other Comments** section of this page can be used for this purpose.

  Every six months or less, evaluate and review the decision to suppress the location of the foster home to determine if suppression continues or the need for suppression no longer is applicable.

- The **Other Comments** section may be used to include information concerning:
  - Case child abuse and criminal record histories;
  - Whether the Indian Child Welfare Act applies to the case;
  - Evidence of a direct or indirect threat to harm the foster child or foster family or credible third-party information of a threat of harm to the foster child or foster family as listed in 18-D(4). This information is needed if there has been a decision to suppress the address and contact information of the foster home.

- Distribute copies of the plan to those that should receive them.

C. Child Placement Plan

In combination with the face sheet and the family plan, the out-of-home placement section is a written document that includes all the federal required elements. The family plan and the out-of-home placement section include:

- A description of the placement and the appropriateness of the placement.
- The permanency goal for the child including any concurrent permanency goals.
- A plan for ensuring that the child and family receive services designed to facilitate the return of the child to a safe home or to another permanent placement.
- The health and educational status of the child.
- When applicable, a description of the programs and services that will facilitate the child's transition from foster care to adulthood.

This form is necessary to provide information mandated by state and federal laws and regulations regarding each child placed in an out-of-home setting in which the Department has custody, or when foster care is being provided under a voluntary placement agreement.

The DHS social work case manager responsible for the child should complete the *Child Placement Plan* when the child is placed in an out-of-home setting and DHS has custody or the child is placed under a voluntary placement agreement.

For these children, this section is in addition to Parts A and B of the case plan. The *Child Placement Plan, Part C*, should be updated every 90 days just like Parts A and B.

- *Visitation*: Make the appropriate entries to describe the child's visitation situation. Include any necessary narrative to explain the visitation arrangements.
- *Documentation*: Indicate whether the child has a certified birth certificate and a Social Security card and number. Describe plans to obtain if the child currently does not.
- *Health and Health Records*: Answer the question whether the child was able to retain known care providers. If not, explain efforts to do so and reasons why continuity of care was not possible.

  Document whether the child is a victim of sex trafficking. If yes, explain services provided. If the youth is pregnant or has a child, check "yes" in the final question.

  In the table provided, enter any known health examinations and treatments the child has received. If possible, indicate this information for at least the last two years of the child's life.

  Indicate the provider, dates of service, and date the information on these services was given to the child's current caregiver and current service provider.

  NOTE: Do not record HIV status or risk of HIV infection anywhere in the case plan. File any such information in the medical record section of the case file and mark it "Confidential."
- *Mental Health/Psychological/Psychiatric Records*: Describe any known mental health, psychological, or psychiatric evaluations or treatment the child has received.

  Indicate the provider, dates of services, and date the information on these services was given to the child's current caregiver and current service provider.

child's educational placement stable and why the change was best for the child.

Transition Plan

"Transition planning" is the process of assisting the child in foster care to prepare to be a self-sufficient adult.

This process includes an assessment of life skills, strength and concerns, services and supports, and outcomes to be accomplished for successful transition.

Planning for transition to adulthood for children in foster care with special needs may need to begin before age 14 to ensure needed funding and services are available.

Service area transition planning specialists (TPS) can provide ongoing consultation and information regarding transition planning for adolescents.

For a child who may be eligible for services as an adult, the assessment and plan of services must be developed with someone who can reasonably be expected to fund those services or be a service provider when the child becomes an adult.

This section is required for a child in foster care of any type who is age 14 years of age or older. The plan shall be updated at required intervals with the *Case Permanency Plan*. In addition, the *Transition Plan* needs to be updated within 90 days of the child turning 18, and if the child remains in care past the age of 18, in the 90 days before discharge.

Organization of a youth-centered planning team is required for every child age 14 and older in foster care. Ask the child to select members of the team. Include specific names of formal and informal supports in the box that asks about membership.

A referral to transition planning specialist (TPS) may be needed for more challenging needs, such as transition planning for a child in long-term foster care or a child needing adult services. If a referral has been made to a TPS, select "yes."

Include the date the Case Life Skills Assessment was completed. It must be done at least once after the child in foster care's 14th birthday. Replace with the new date if it is done again throughout the child's time in foster care.

If the child is interested in pursuing higher education, the plan shall provide for the child's participation in the College Student Aid Commission's program or assistance in applying for federal and state aid.

Indicate whether the child has a driver's license or non-operator ID. If the child does not have at least one or the other, provide steps to obtain one or both.

Review and explain form 470-5337, *Rights of Youth in Out-of-Home Placement*, to a child age 14 and older. Have the child sign and date the form indicating you have reviewed the rights so the child understands and have answered any questions about their rights. After the form has been signed, give the child the original rights document and provide a copy to all legal parties on the child's case. Document the date the form was most recently given to the child in the *Case Permanency Plan*.

Before the child reaches age 17½, present the completed *Transition Plan* to the transition committee for the service area that applies to the child. The local transition committee must review and approve the *Transition Plan*. When a child enters foster care at age 17½ or older, the local transition committee shall be involved in reviewing and approving the child's transition plan within 30 days of completion.

There are six domain areas in the *Transition Plan* and a box for each. Follow the instructions for each section below:

- *Education*: Include information about the child's current education status and plans, including steps that still need to be taken, dates, and who will assist.
- *Employment and Workforce Supports*: Include information about the child's current work status and plans, including steps that still need to be taken, dates, and who will assist. This section needs to show the child has a clean credit report and banking experience, or it should provide plans or activities to achieve.
- *Health and Health Insurance*: Include information about the child and the child's health insurance status and plans.
- *Housing*: Describe the child's housing and housing plans.
- *Supportive Relationships and Services*: Describe relationships and opportunities for social and developmentally appropriate activities. Describe efforts to repair relationships or help child reconnect. Refer child age 17 to aftercare and include the date. If aftercare has not been contacted, leave the box blank.
- *Youth with Special Needs*: Relevant information about any special needs of the child should be included here, as well as referrals to SSI and adult services. The connections to SSI or adult services must be made before the Transition Planning Committee review, which typically occurs when the child is age 17. The date the plan was reviewed should be included in the last box of this section.

Child Signature

Obtain the child's and guardian's signatures as appropriate.

Family Functioning Domain Criteria, Form 470-4138

Purpose	Form 470-4138 is used to assist with assessment of the strengths and needs of the child, and of the child's parent(s)/caretaker(s), home, and family. It is an example of statements regarding areas of strengths and needs.
Source	This form is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.

Family Interaction Plan General Roles and Responsibilities, Form 470-5148 or 470-5148(S)

Purpose

The *Family Interaction Plan General Roles and Responsibilities*, form 470-5148 and 470-5148(S), is the official family interaction plan developed for children placed out of the home. All children who are placed out of the home need to have a family interaction plan in place to ensure interactions occur in safe and healthy ways. The family interaction plan should be tailored to meet the safety needs of the family.

Source

Complete the English or Spanish version of this form using the template available in SharePoint under Employee Manual/Forms. This form may also be printed from the manual or SharePoint.

Completion

The most effective way of developing or reassessing a family interaction plan is during a warm hand-off or Solution Focused Meeting. The written family interaction plan may be incorporated as part of the Solution Focused Meeting notes or identified separately on the family interaction plan form. However, not all children placed out of the home will have a Solution Focused Meeting but family interaction planning should still occur.

Distribution

Give a copy of the completed family interaction plan to the identified team members. Keep the original form in the child's case file.

Data

Background Information. Enter the following information:

- *Children's names*: If multiple children have different needs or safety concerns, the family's team may want to consider a separate plan for each child.
- *Date of plan*: This is the date the plan was developed.
- *Placed with*: Document where the child is placed and with whom. If multiple children are in different places, indicate the type of placement (i.e., resource family, relative, residential placement, etc.).
- *Placement date for children*: This is the date the child was removed and placed out of the home.
- *Permanency goal*: Document the identified permanency goal.

Safety Concerns/Required level of supervision. Utilizing the Family Interaction Planning Tool (Comm. 649) provide explanations for questions A-F of the Interaction Supervision Decision Tree.

Family Interaction Plan. Family interaction should begin as soon as possible after removal from parental custody. At a minimum, interactions should occur within 24 hours of placement, be regular, and of increasing frequency and duration.

- *Types of Interaction*: Document the type of interaction approved. Creativity in defining interactions should be supported. Every opportunity needs to be

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

considered such as doctor appointments, school activities, meetings, and other functions in which the family would have participated if the children were in the home. This should be documented in the Attendance at Child Centered Appointments/Events section of the plan.

Interactions should be built around meaningful activities including:

- Mealtimes,
- Bathing,
- Grooming,
- Naptimes,
- Homework time,
- Grocery shopping,
- Doctors' appointments,
- School activities (i.e., conferences, plays, band and choir concerts, family nights, carnivals, graduation, etc.),
- Sports activities, and
- Should be geared towards the child's developmental abilities.

Creative planning should not only support face-to-face time but also other methods, such as calls, letters, texting, emails, and other electronic methods of communication. Families should be encouraged to explore other ways to connect and interact with one another.

- *Frequency* and *Length of Interaction*: Document the frequency and length of interaction. In determining how often and how long interactions should be, consider the following:
  - The age of the children.
  - The severity and chronicity of the abuse.
  - The potential for abduction or continued abuse of the children.
  - The progress of the parent in learning new skills or managing inappropriate behaviors, protective capacities displayed by the parent.
- *Locations*: Document the locations where the interactions will occur. Utilize the Planning Tool to aid in decision making around interaction locations.

  Family interaction should occur in the least restrictive, most homelike setting that allows for natural interaction and appropriate to meet the child's needs for safety. Generally, the parental, relative, or resource family home will provide the best environment. When safety is an issue, a more secure setting should be chosen and a safety plan developed for the interactions to continue.

  Consider the type of interaction as you document the location. For example, if an interaction is built around school activities, sport activities,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

or doctors' appointments, you would document the location of the event (i.e., school, gymnasium, ball field, doctor office, etc.).

- *Types of Supervision*: Document the type of supervision for the identified interaction. Types of supervision include fully supervised, relaxed supervision, semi or partially supervised, or no supervision necessary. Supervision can be provided by a professional or other person identified by the family's team.
- *Supervised By*: If supervision is required, document who is responsible to provide supervision during interaction. This will be determined by the family's team. Consideration should be given based on the safety concerns and the developmental needs of the child.

  Family interactions are most "natural" when interactions are supported by those with a relationship with the child, such as other family members versus professionals. Family supports can be relied on to assist with all aspects of services including attendance at meetings, role modeling, transportation, observing interactions, etc.

Family Routines to Practice During Family Interaction. Document the goals to be accomplished during family interaction. Family interaction should focus on allowing the most natural parent-child interactions, such as:

- Cooking and eating a meal,
- Reading stories,
- Cleaning a room,
- Playing a game,
- Bath time,
- Naptime, or
- Bedtime routines.

The focus is on maintaining ties between the parent and child and assessing the parent's capacity to care for the child. Primary routines should reflect the family's SBC outcomes.

Goals are the family routines to target during the family interaction. These behavioral changes are most likely related back to the safety concerns as identified by the team.

- Family Routines to Target: Document the routines to practice during family interaction.
- Family Members Involved: Document who is expected to be involved in the routines.
- *Date Reviewed or Revised*: Document the date when the goal was reviewed or revised.

Family interaction needs to be reviewed during a Solution Focused Meeting or by those the family's team identifies, at a minimum, when:

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-011157

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

- There are changes in behavioral patterns demonstrated by the parents or children.
- Protective provisions that may be a safety concern change or arise.
- There is a change in family supports.
- There is a change in legal issues or court requirements (change in custody or guardianship) that may impact family interaction planning.
- Agreed upon behavioral changes are accomplished or not.

Transportation. Describe how transportation will be provided once individuals who are available to assist in transportation are identified. Transportation is a key component for interactions to be successful.

Resource family and other relative caregivers should be encouraged to transport children at least one way. Parents and extended family members should be expected to arrange their own transportation, though they may be given temporary support when necessary to ensure there is not a gap in family interaction; however, this will likely be accomplished by public transportation. Children in placement may have to be transported by a provider or HHS staff, one or both ways to interactions.

Other Planning Notes. Considerations when setting expectations could include, but are not limited to, the following:

- Expectations of what parents should bring to the interaction.
- Activities that parents should plan or consider doing during the interaction.
- Behaviors that provide an unsafe situation may terminate the interaction. It is important that there is a follow up with the parents in order to reduce the risk for another unsafe situation.
- The use of physical discipline or threats towards others.
- Negative comments about others, which includes the children, family members, HHS worker, contractor or provider, and other professionals part of the family's team.
- Possession or bringing any drug paraphernalia, illicit substances, or alcohol to the interaction.
- All legal decisions or documents regarding contact, including No Contact Orders, etc. will be abided by all parties.
- Obtain approval before bringing any additional individuals to family interactions. Approvals are determined by the HHS case manager or the family's team.

Family Interaction Calendar. Utilize the calendar to document the initial plan for family interactions. Include any events, appointments or activities which the parent may also attend.

Family Risk Assessment, Form 470-4133

Purpose

Form 470-4133 is used to identify risk factors during an assessment. The *Family Risk Assessment* is composed of two scales that measure the level of risk regarding neglect and abuse.

Source

Complete this form on the Family Risk Assessment tab on the STAR Assessment module in JARVIS.

Completion

The child protection worker completes the *Family Risk Assessment* during the assessment process. This form must be completed before the assessment is approved.

Exception: When abuse occurred or is alleged in an out-of-home setting and child protective concerns do not exist in the child's household, the safety assessment and risk assessment is not required.

Only **one** household can be assessed on the *Family Risk Assessment* form. Assess the child's primary residence. When the alleged perpetrator resides in the household of the noncustodial parent, assess the household of the noncustodial parent. If the child moves to a different household because of the crisis, complete the risk assessment on the household in which the child will remain.

- If the child will remain in the new household, complete the risk assessment on the new household.
- If the plan is to reunify the family, complete the risk assessment on the household **from which the child was removed**.

Upon completion of the form, a Total Neglect Risk Score and Abuse Risk Score are automatically calculated to the highest of either risk score. Use this information in the analysis of the family's strengths, needs, and recommendation for services.

The final risk level is populated on the Child Protective Services Child Abuse Assessment Summary or the Child Protective Services Family Assessment Summary. Reassess the case whenever you determine that an adjustment in the risk score is warranted (either up or down).

Distribution

The form is maintained within JARVIS and is considered assessment data.

Data

Review information obtained from systems checks, Department records including service history, not confirmed assessments, and any previous or current court involvement. Review the risk assessment definitions and complete the *Family Risk Assessment* form by checking the most applicable response.

On items involving caregivers, **select one or two** parents or substitutes based on physical and emotional proximity to the children. Do not rate more than

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-011161

two caregivers in a home.

Only one primary caregiver can be identified. The "primary caregiver" is the adult living in the household who assumes the most responsibility for child care.

When two adults are present and you are in doubt over which one assumes the most childcare responsibility, select the adult with custody or guardianship or the caregiver responsible for the child involved in the incident as the primary caregiver.

> Ms. X and her partner Mr. Y live together and appear to share caregiver responsibilities for Ms. X's children equally. Because Ms. X has legal custody of the children, select her as the primary caretaker.

If this does not resolve the question, select the legally responsible adult who was a perpetrator or alleged perpetrator.

> Mr. and Mrs. Z live together and appear to share caregiver responsibilities for their children equally. Mrs. Z is the alleged perpetrator of abuse, so she is selected as the primary caretaker.

When both parents are in the household, equally sharing care giving responsibilities, and both have been identified as perpetrators or alleged perpetrators, select the parent demonstrating the more severe behavior.

The "secondary caregiver" is defined as an adult living in the household who has routine responsibility for childcare, but less responsibility than the primary caregiver. A partner may be a secondary caregiver even though the partner has minimal responsibility for care of the children.

If an item relates to all caregivers and the household has more than one caregiver, **rate the caregiver with the more severe behavior**.

The risk assessment form is composed of two scales: the neglect scale and the abuse scale. For detailed guidance, see *Family Risk Assessment Guidance*, RC-0123.

After scoring all items in each scale, total the score for each scale and determine the risk level by checking the appropriate boxes in the risk level section.

Overrides

Policy Overrides: After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and child vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-011162

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

Discretionary Override: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. **You must receive supervisory approval** for a discretionary override.

The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Family Functioning Domains. The family functioning domains provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention. Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- Child Well-Being:
  - Child's physical and mental health,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

- Behavior,
- Relationship with peers,
- School performance,
- Motivation and cooperation to stay with family,
- Relationship with siblings, and
- Supports.

▪ Parental Capabilities:

- Supervision of children,
- Mental health,
- Informal supports,
- Disciplinary practices,
- Physical health,
- Developmental and enrichment activities, and
- Use of drugs or alcohol.

▪ Family Safety:

- Physical abuse,
- Neglect of a child,
- Sexual abuse,
- Domestic violence, or
- Emotional abuse.

▪ Family Interactions:

- Bonding with child or children,
- Expectations of children,
- Family interaction planning,
- Relationship between parents or caregivers,
- Mutual support within the family, and
- Concurrent planning.

NOTE: A written *Family Interaction Plan*, tailored to meet the safety needs of the family is developed and/or reassessed during a family team meeting involving a child placed out of the home to assure family interaction begins as soon as possible after removal from parental custody.

▪ Home Environment

- Housing stability,
- Food and nutrition,
- Transportation,
- Safety in community,
- Financial management,
- Learning environment,
- Habitability of housing,
- Personal hygiene, and
- Income and employment.

- **Other**. Additional issues or concerns about the child or family.

  NOTE: Discuss concurrent planning and permanency goals, any interstate compact issues, child and family cultural factors, language barriers, or if the Indian Child Welfare Act applies.

Complete the family functioning domain section of the FTDM family plan by working through each domain category. Consider the child and family's strengths and needs in the various domain areas as you have discussions during the family team meeting. Fill in the narrative "strengths" and "needs" section of each applicable domain. Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

Establish a goal for each applicable domain area where a need is identified. It is critical that goals be developed in partnership with the family. Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.

After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible,
  - What do they agree to do, and
  - By when.
- Document the date for when the goal was completed or modified.

Crisis Plan. Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

Signatures and Notifications. Enter the name of invited team members, including their role, contact information, and check whether or not they attended the family team meeting.

Foster Care and/or Subsidized Adoption Information Exchange, Report S472N111-01

Purpose

Report S472N111-01, *Foster Care and/or Subsidized Adoption Information Exchange*, provides IV-E workers information that is needed to determine IV-E and Medicaid eligibility for children in foster care and adoption assistance programs.

Source

The FACS system generates this report nightly.

Completion

The FACS system automatically generates this form on foster care and adoption subsidy cases when:

- There is a start date recorded on FACS (labeled as "new placement" on the report).
- There is an end date recorded on FACS (labeled as "exit placement" on the report). (A move from one placement to another generates two reports.)
- The FACS case is transferred to a new service worker.

The IV-E worker examines the report to determine whether the change affects IV-E or Medicaid eligibility (or if additional information is needed).

Distribution

If there is an open Medicaid case with an FBU of 19, the report is issued to the IV-E worker responsible for that case. If there is no open case with a 19 FBU, the report is issued to worker number CM00 in the office where the service worker is located.

Exception: For PMIC placements, the form is generated to the IM unit in the county where the facility is.

File the report in the IV-E case record.

Data

Data reported includes:

- Identification of the workers and the reason for the report.
- Information about the child.
- Information about the child's parents.
- Information about the child's placement.

NOTE: Do not use the PLACEMENT IV-E field or the SERVICE IV-E field to evaluate IV-E eligibility.

Foster Child Behavioral Assessment, Form 470-4401 or 470-4401(S)

Purpose

The *Foster Child Behavioral Assessment* checklist serves two purposes.

- It may be used in the development of the case plan as a tool to identify the needs of the child. Every behavioral need of a foster child identified in this tool should be outlined when completing the case plan, along with the corresponding actions and responsibilities of the resource family.
- Since this tool identifies need and responsibilities, it is also the tool used to determine level of care and corresponding foster care payment.

Source

Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

Print the Spanish version of this form from the manual or SharePoint.

Completion

Complete the *Foster Child Behavioral Assessment*:

- Within the first 30 days of a child's initial entry into foster care.
- Whenever the child's behavior changes significantly.
- When the child's placement changes.
- After termination of parental rights, in preparation for negotiating an adoption subsidy or presubsidy.
- Before a court hearing on guardianship subsidy. **Note**: The highest guardianship subsidy is limited to Level 2, basic rate plus level 2.

If a child comes out of group care or PMIC, the child's payment in the foster family home is the basic foster care maintenance rate. It is anticipated that the family team meeting, with the new foster parents participating, will be part of the discharge planning. Complete the *Foster Child Behavioral Assessment* within the first 30 days of placement.

If a child leaves foster family care and goes to shelter care and then returns to the same foster family home, the payment rate remains the same as the rate received by the foster family before the child goes to shelter care. Complete an assessment within 30 days of placement with a new foster family.

To authorize payment to the resource family at a higher level than the basic rate, this form shall be signed by the worker and the worker's supervisor.

After supervisory approval, the difficulty of care payments shall begin the first day of the month **following** the month in which the form was completed. Do not enter the new assessment rate into FACS until the supervisor has signed off and approved the assessment and rate.

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

Distribution

Keep the original form in the child's case file. Give a copy to the resource family upon the family's request.

Data

When completing the checklist, use all available information about the child for a thorough assessment of the child. This may include evaluations, school and provider reports, and home studies, as well as input from parents and the resource family.

Check only behavior that is severe enough to be outside the norm for a child of the same age. Do not check behavior that is typical for a child that age (e.g., "temper tantrums" for a 2-year-old).

In order to have a valid assessment, check each item that applies in **every** category ("minimal" and "moderate" and "intensive").

The template calculates the basic rate once the child's birth date is entered, and automatically calculates the level of care and the total daily rate. The form is designed so that checking all the applicable boxes will result in the proper calculation for the behaviors.

See 18-D(2), *Maintenance Payment*.

ICPC Report on Child's Placement Status (ICPC 100B), Form 470-0788

Purpose

Form 470-0788 (ICPC 100B) is used to communicate between the placer, the supervising agency, and the respective compact administrators regarding the status of a placement requested under the Interstate Compact on the Placement of Children. It is a national form, known as the ICPC 100B.

Source

Form 470-0788 (ICPC 100B) is available as a template in SharePoint under Employee Manual/Forms. Supplies of the form may also be printed from the manual or SharePoint.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The person supervising the placement or causing the child to be placed completes this form each time:

- A placement is made.
- A placement is changed.
- An approved placement is canceled.
- A placement is terminated.
- A case is closed.
- There is a change of address or status of the placement (e.g., from foster care to adoption).

The Department worker is responsible for preparing the form for all children in the Department's custody or guardianship who are placed out of state and for all children placed into Iowa for whom the Department has assumed supervision under the compact.

When courts, probation officers, or private agencies have placed a child in another state or accepted supervision of a child from another state, their staff are responsible for preparing the form.

When there is a change of purpose in an existing placement, e.g., from foster care to adoption, form 470-0781 (ICPC 100A) may be required at the request of the receiving state.

Distribution

Email form 470-0788 (ICPC 100B) to the ICPC service area liaison. The liaison sends to the ICPC office who forwards to the receiving state.

Data

Section I – Identifying Information

Enter the full legal name and birthdate of the child for whom this placement information is being reported.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-011223

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

Enter the names of the legal parents as on form 470-0781 (ICPC 100A). Enter the name of the resource, the address, and type of care. Enter the same type of care that was chosen on form 470-0781 (ICPC 100A) (e.g., adoptive home, foster family home, group home care). Enter the relationship for relative placements.

Section II – Placement Status

To confirm the initial placement, check the box that applies. Enter the exact date the child was placed in the receiving state.

If some aspect of the placement changes while the child remains in the receiving state, complete another ICPC 100B. Check the "Placement Change" box and indicate the exact effective date of the change.

If the child moves from one placement resource to another, enter the updated placement information. For example, if a child leaves the parents' home and is placed in a residential treatment center, complete the facility's name and address and indicate the new "Type of Care."

Subsequent ICPC 100B forms will list the new placement resource under "Identifying Information." Any additional moves to place the child within the receiving state will be reflected in this same manner.

If only the name (e.g., mother remarries) or address (original placement resource moves) changes, check and complete only those items that apply.

Section III – Compact Placement Termination

Check the boxes that apply:

- *Adoption Finalized*: If an ICPC adoptive placement has been finalized (consummated), check that box and the appropriate box for the state in which finalization occurred, "In Sending State" or "In Receiving State." Attach the final adoption decree.
- *Child Reached Majority/Legally Emancipated*: Check this box if the child has reached majority age and has simultaneously ceased to be the responsibility of the sending agency or if the child has become emancipated through legal action such as marriage or court decision.
- *Legal Custody Returned to Parent(s)*: Check this box when the child's legal custody or guardianship is returned to the parent with the concurrence of the receiving state. Attach the court order transferring custody to the parents to form 470-0788 (ICPC 100B).
- *Legal Custody Given to Relative*: Check this box when the child's legal custody or guardianship is awarded to relatives (other than parents) with the concurrence of the receiving state. Attach the court order transferring custody to the relative to form 470-0788 (ICPC 100B).

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

- *Legal Custody Given to Other*: Check this box when the child's legal custody or guardianship is other (other than parents or relatives) with the concurrence of the receiving state. Enter the name and relationship to the child. Attach the court order transferring custody to the other to form 470-0788 (ICPC 100B).
- *Treatment Completed*: Check this item when the placement resource has been providing a specific treatment-oriented service; that service has been completed; and the child is, therefore, being discharged from the facility (e.g., residential treatment center). This box may also be checked if the child was placed through Article VI of the Compact.
- *Sending State's Jurisdiction Terminated with the Concurrence of the Receiving State*: Check this box when the jurisdiction of the sending state has ended for some reason other than the transfer of custody to parents or relatives with the concurrence of the receiving state's supervising agency or court.

  For example, if formal legal custody or guardianship is not going to be addressed but both states agree that supervision is no longer required or if both states agree to transfer jurisdiction to the receiving state.

  If the sending state's jurisdiction is terminated without the concurrence of the receiving state (including custody or guardianship transfer), the decision was made unilaterally and that box should be checked.
- *Unilateral Termination*: Check this box when the interstate agreement has been terminated unilaterally, whether by the sending or receiving state. A unilateral termination is one in which one state ends the interstate placement agreement without the concurrence of the receiving state.
- *Child Returned to Sending State*: Check this box when the child returns to the state the child was placed from. This may be due to a disruption in placement.
- *Child Moved to Another State*: Check this box when the child moves to a state other than the sending state.
- *Proposed Placement Request Withdrawn*: If you have submitted form ICPC 100A to request placement approval and have decided not to explore that resource further, check this box, list the "Name of the Proposed Placement Resource," and date of your decision to terminate the compact.

  Check this box only when no action has yet been taken on form 470-0781 (ICPC 100A). If you are withdrawing more than one request, submit a separate form on each and list each respective "Placement Resource."
- *Approved Resource Will Not Be Used for Placement*: Check this box when you have received an approved form 470-0781 (ICPC 100A) but have decided not to place the child with that resource. List the name of the "Approved Placement" and date of your decision to terminate the compact.

- *Other*: Check and specify if the reason for compact placement termination is not listed above. For example, the entire family moved to another state (new address should be entered under "Placement Change"), the death of a child, the child ran away and whereabouts are unknown.

Date of Termination: Enter the exact date of the activity that ended the Compact Placement Agreement.

Section IV – Signatures

If a private person or local agency is completing the form, have a designated person sign, under "Person/Agency/Supplying Information," identify the agency, and date the signature.

The compact administrator, deputy, or alternate should sign and date the second block.

ICPC Request (ICPC 100A), Form 470-0781

Purpose

Form 470-0781 (ICPC 100A) is the sending agency's formal written notice to the receiving state of its intention to make an interstate placement. It requests a finding as to whether the placement would be contrary to the interests of the child. With most placements, it is also a formal request for a home study.

Following review by the receiving state, it is the official notice of the receiving state's decision. A favorable finding means that the placement can be made in conformity with the compact. An unfavorable finding means that the placement would be unlawful.

Form 470-0781 (ICPC 100A) must accompany all requests for placement to which the compact is applicable. It must be favorably acted upon by the receiving state before any compact placement is made.

Source

Form 470-0781 (ICPC 100A) is available as a template in SharePoint under Employee Manual/Forms.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The service worker, private agency, court, or any person placing the child may complete this form. It is prepared when a request is being made to place a child in another state.

Distribution

Distribute as follows:

- The sending agency/Iowa ICPC service area liaison uploads the completed 100A into the National Electronic Interstate Compact Enterprise (NEICE) and electronically sends to the sending state deputy compact administrator.
- The deputy compact administrator reviews, signs, and sends to the receiving state's identified administrator.
- The receiving agency administrator completes Section IV of the form and returns to the sending state ICPC office.
- The sending state administrator sends via NEICE to the sending agency.

Data

In the first two blocks, enter the name and address of the ICPC administrator (or deputy) to whom the request is being forwarded (TO) and the name and address of the ICPC administrator (or deputy) whose state is submitting the request (FROM). If information for the receiving state is unknown, enter only the name of the state.

Section I – Identifying Data

Enter the full legal name, social security number, Indian Child Welfare Act (ICWA) eligibility, IV-E eligibility, sex, gender, date of birth, and ethnic group of the child for whom this placement is proposed. If the child is known by a nickname, place it in parenthesis beside the legal name.

NOTE: An "Indian child" means any unmarried person who is under age 18 and is either:

- A member of an Indian tribe or
- Eligible for membership in an Indian tribe and is the biological child of a member of an Indian tribe.

Enter the names of the legal parents, usually the birth parents. When an adoption is finalized, the adoptive parents are the legal parents. If the parent is deceased, enter "deceased" after the parent's name.

If parental rights are voluntarily relinquished or terminated by the court, indicate in parenthesis beside the name. If you prefer to withhold the name, simply enter the status of the parent's rights.

Enter the complete name, address, and telephone number of the agency or person who is responsible for planning for the child and who is financially responsible for the child. In most cases, these two items will be the same (the sending agency). Email addresses are optional.

Section II – Placement Information

Types of Care Requested. Check the boxes designating the following:

- *Public Placement*: Public placement means a placement processed by a public child welfare agency where the state or local agency, or the court has authority to make the placement.
- *Private Placement*: Private placement means a placement made by a parent or a private or independent agency or representative not acting as an agent of the state (e.g., private adoption) or, in the case of a private residential treatment placement, where a parent or guardian is making the placement (e.g., private Residential Treatment Facility (RTF)/Residential Treatment Center (RTC) placement, etc.).
- *Subsidy*: Check the box for public foster care or adoption to denote IV-E federal, non-IV-E state or local, or none for no financial support. Select pending if not yet determined.
- *Adoptive Home*: Adoptive home refers to both agency and private or independent adoptive placement before finalization of an adoption. This may refer to an initial placement with a family where adoption is the intention or it may refer to the movement of an adoptive family from state A to state B following placement.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

If this is a request for private or independent adoption, you are required to also complete the fields for the names, address, social security numbers, and telephone number for the prospective adoptive resource. Indicate if it is a federally-funded adoption subsidy (IV-E) or a state- or local-funded subsidy (non IV-E), pending (if not yet determined), or none.

- *Finalizing in*: Check one box to indicate the state in which the adoption will be finalized if known, otherwise mark pending.
- *Foster Family Home*: A foster family home is a facility providing care and guidance for a child or children not related to the caretaker for regular 24-hour care, or a certified kinship care home. A family foster home may not operate without a license or a certificate as required by the laws of the receiving state.
- *Group Home Care*: A resource which is licensed or approved as a group home and which provides substitute care for a fee; usually a modified family-type setting which serves more children than a foster home but fewer than an institution.
- *Child-Caring Institution*: A group care facility that is licensed or approved to provide custodial care to a larger number of children than a foster home or group home.
- *Residential Treatment Center*: A group care facility that provides a specific treatment program outside the realm of a medical hospital, psychiatric hospital, or institution for children with an intellectual disability (e.g., a residential program for the treatment of alcohol or drug abuse. The receiving state is not obligated to supervise this type of placement made by the sending state.
- *Parent*: A biological or adoptive parent or legal guardian as determined by applicable state law and who is responsible for the care, custody, and control of a child or upon whom there is legal duty for such care.
- *Institutional Care – Article VI Adjudicated Delinquent*: A group care facility for adjudicated delinquents whose proposed placement is according to Article VI of the ICPC. These facilities may include group homes and residential treatment centers and may serve non-delinquents as well.
- *Relative (Not Parent) Relationship*: Specify relationship, such as maternal aunt, paternal grandparents, brother, etc.
- *Other*: Specify a type of care not already listed, such as:
  - Nonrelative free home (an unrelated family that does not require foster home licensure in the receiving state and does not need or want foster care payments)
  - Independent living arrangement (an older teenager who is still under the jurisdiction of an agency or court but is capable of independent living without the supervision of a foster home or group home)

- Maternity home
- Extended foster care (youth aged 18–21 years old)

Current Legal Status of Child. Check the appropriate box.

- *Sending Agency Custody/Guardianship*: The child is in the full legal custody or guardianship (depending on the state's terminology) of a public agency. For example, a public agency may be social services, youth corrections, probation, parole, or a tribe. If allowed by state law, the sending agency may also be a licensed private child placement agency, an adoption agency, or a birth mother.
- *Parent/Relative Custody/Guardianship*: The child is not under the jurisdiction of either an agency or the court but is the full legal responsibility of a parent or relative. This choice is most likely to be marked when a parent, relative or guardian wishes to place a child in one of the types of care listed.
- *Court Jurisdiction Only*: The court has an open abuse, neglect, or dependency case that establishes court jurisdiction with the authority to supervise or remove and place the child for whom the court has not taken guardianship or legal custody.
- *Protective Supervision*: A legal status created by court order under which the child is permitted to remain in the child's home or is placed with a relative or other suitable person and the court, the Department, or another agency designated by the court provides supervision and assistance.
- *Parental Rights Terminated – Right to Place for Adoption*: The sending agency has accepted a voluntary relinquishment of parental rights or has completed court action terminating parental rights and now holds complete jurisdiction over the child with the right to place for adoption.
- *Unaccompanied Refugee Minor*: This form is not used to report the initial placement into the United States but to request placement and services in a second state after a U.S. agency or court has been granted full legal responsibility (custody or guardianship). Check this box only if that is the case.

  Also mark the "Sending Agency Custody/Guardianship" box. If this is an unaccompanied refugee minor whose status warrants the ICPC 100A specific to those children (not the legal responsibility of an U.S. agency or court), do not use this form.
- *Other*: Legal status is not otherwise listed (e.g., legal action, such as a petition for custody or guardianship or to terminate parental rights, is pending).

  For example, the child is the responsibility of the sending agency under a voluntary agreement with the parent or legally responsible relative and no court action has been taken or is pending to alter the family member's legal rights over the child.

Name of Person(s) or Facility Child is to be Placed with. Enter the name, address, and telephone number of the agency, facility, or individuals where the child will be placed. These entries are required.

Name(s) of Prospective Adoptive or Foster Resource. If placement is with an agency (e.g., adoption, foster care, etc.) other than a residential treatment facility (RTF), provide the foster or adoptive resource where the child will reside.

Enter the name, address, social security number, and telephone number of the individual with whom the child will be residing if it differs from the information in the section "Name of Person(s) or Facility Child is to be Placed with."

Section III – Services Requested

Initial Report Requested. If the proposed placement is not for a group care placement and a current home study has not yet been received, check the box for the appropriate type of home study needed based on the type of care indicated in Section II.

Supervisory Services Requested. Check one of the following boxes to indicate how supervisory services are to be conducted:

- *Request Receiving State to Arrange Supervision*: Check this box if the sending agency cannot supervise and does not have a contractual or other agreement with a pre-determined agency to provide these services. Usually the public social service agency will be asked to provide supervision following an approved home study and subsequent placement.
- *Another Agency Agreed to Supervise*: Check this box if the sending agency already has received the formal agreement of a pre-determined supervisory agency. This choice is most likely to be checked in agency adoptive placements where an agency in the receiving state already has provided an adoptive home study and will be providing ongoing services to the adoptive family.

  Do not check this item because you know which county office of the public agency will receive this referral and may have discussed the case over the telephone. That does not constitute an agreement to supervise.
- *Sending Agency to Supervise*: Check this box if it is logistically feasible, it is the best-case plan, and the receiving state has granted the sending agency permission (which may or may not include licensure) to provide services in its state.
- *Other*: Check this box if requesting supervision for extended foster care youth (defined as youth aged 18–21 years).

Supervisory Reports Requested. Complete even though placement may not be a certainty at this time. Indicate how frequently you wish to receive progress reports. Standard timeframes are semi-annually, quarterly, monthly, or other. Check "other" when you wish to receive reports in a timeframe not listed.

- *Child's Social History*: Should accompany the majority of referrals; includes the pre-placement summary on adoption referrals and can be written with non-identifying information, if appropriate and preferred.
- *Home Study of Placement Resource*: Attach a current home study if one is not being requested; most likely to be checked if you already have an approved home study or the child is relocating with a placement resource and the home study is enclosed.
- *Court Order*: All applicable court documents should be enclosed (e.g., custody or guardianship orders, surrenders, orders terminating parental rights, and orders requesting a home study for the court).
- *ICWA Enclosure*: Obtain a letter from the child's tribe showing that the child is a member or is eligible for membership.
- *Financial/Medical Plan*: Attach the plan of how the proposed placement will be funded and how the children's medical needs will be covered.
- *IV-E Eligibility Documentation*: Attach a copy of the determination of IV-E eligibility.

Next Steps, Form 470-5592

Purpose

Form 470-5592 is an optional resource for working with families to document agreements or activities that fall outside of the scope of a *Safety Plan*. The *Next Steps* can be used whether or not a *Safety Plan* is required.

Families are often eager to get started on resolving issues identified during a protective assessment or service case. For example, parents may voice a commitment to making a mental health appointment for themselves or their child, seeking child care, cleaning their house, etc. The *Next Steps* should be simple – who will do what by when. Unlike the *Safety Plan*, the *Next Steps* can be a promissory note – a tool for creating a reminder of commitments that have been made for the good of the children and the family.

Never use the *Next Steps* to make temporary or voluntary changes in child custody. The *Next Steps* does not replace the *Safety Plan*, which must be completed if a child is determined to be safe with a plan. The *Next Steps* is not binding, but a way to engage families regarding commitments they or others (including the Department) make to help preserve and strengthen family connections.

Source

Print this form from the manual or SharePoint under Employee Manual/Forms.

This form is also printed as a three-part carbonless set. Order supplies from Iowa Prison Industries in Anamosa.

Completion

When deemed useful, the child protection worker or social work case manager completes the *Next Steps* with the family, documenting who has agreed to an action step, what that action step is, and when it will be completed.

Use the *Next Steps* during the course of an assessment or anytime throughout the Life of the Case. Only those who are agreeing to an action step need to be present and sign the *Next Steps*. The *Next Steps* can be created in the family's home, at a meeting involving the family, or in other circumstances where action steps are identified.

Distribution

If a printed form is used in place of the three-part carbonless form, a picture of the *Next Steps* must be taken with a state-issued phone or camera.

Leave a copy or the original of the completed form with the family. Keep a copy for the Department's records by uploading the copy or photo of the completed form into File Manager (located within the JARVIS-STAR assessment module) or in the service case file.

Data

Family name: Document the last name of the family. The child protection worker may want to include the name of the child victim. The social work case manager may want to include the name of the youngest child.

Request for a One Year Foster Family License, Form 470-5124

Purpose

Form 470-5124 is used to document the request for approval or denial of one-year licensure for foster families.

Source

Complete this form using the template in SharePoint under Employee Manual/Forms.

Completion

The Department licensing worker completes this form upon receipt of the licensing renewal packet for foster families who have completed their first two years of licensure. Use this form only for foster families whose performance in the previous licensing year indicates the need for a one-year license.

Mark the reasons for the request as indicated on the form. *Other reasons* can be for:

- Continuing lack of compliance with adherence to foster care licensing rules, foster care placement contract, or foster family handbook;
- Behavior that could have negative impact on foster children, such as alcohol or substance abuse;
- Health or mental health concern.

The occurrence of one or more of the reasons does not require a recommendation of a one-year license. Take into consideration the circumstances, foster family's history, willingness to take responsibility and made adjustments, and other relevant factors when deciding whether to make the request.

Also document voluntary requests by the foster family in this section. If you need more space to write the information under *Other reasons*, use another sheet of paper and attach it to this form.

Distribution

Attach the home study, corrective action plan, letter to the foster parents, and other supporting documents or reports to this form. Send the completed form with attachments to the Foster Family Program Manager in Central Office.

The Adult, Children and Family Services Division Administrator reviews the request and indicates on the form approval or denial and an effective date.

The division administrator signs the form. The foster family program manager returns a copy to the Department licensing worker. The Department licensing worker then sends the foster family the *Notice of Action* and enters the foster home renewal date in FACS. If the division administrator approves the request for a one-year license, the Department licensing worker notifies the foster family program manager who completes the override in FACS.

If the signature of both custodial parents cannot be obtained, then the safety plan may not include the removal or keeping a child from his or her usual and customary home unless sanctioned by a court.
- If a safety plan interferes with the custodial rights for a parent or otherwise prevents a parent from having physical contact with the child, the signature of that parent must be obtained. If the signature of that parent cannot be obtained, then the safety plan may not include language that interferes with the custodial rights for a parent or prevents the parent from having physical contact with the child unless sanctioned by a court.
- If a safety plan involves a third-party individual that is not a parent to the child, assure that you obtain the signature of the parents (as described above) as well as the signature of the individuals directly involved with implementing or monitoring the safety plan. Having other individuals sign the safety plan along with the parents does not interfere with the custodial rights of either parent.

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms.

Supplies of this form may also be printed from the manual or SharePoint as needed.

Completion

The YTDM meeting facilitator develops the youth's dream path, in collaboration with the youth, after a youth transition decision-making meeting is held.

Distribution

The facilitator gives a copy of the completed form to the identified team members. Keep the original form in the youth's case file.

Data

Case Information. Enter the following information:

- Youth name
- Parent/caregiver name
- Parent/caregiver/noncustodial names
- Date of the YTDM meeting
- Date of the next YTDM meeting
- Facilitator name and approval number
- Next court hearing date and time
- Type of hearing

Desired Outcome of this Meeting. Use the Dream Path as a tool for the stabilization and action planning parts of the YTDM meeting.

The Dream Path includes the stabilization phase, which identifies the five Fostering Connection areas that need to be addressed and stabilized in the first column.

The five Fostering Connections areas are:

- Education
- Employment
- Health
- Housing
- Supportive Relationships

Complete the stabilization section of the YTDM youth plan by working through each of the five fostering connections categories from left to right. The far left column is available to write the current or 'Now" situation for the youth. Under the column, "What will happen," establish a goal for each applicable area where a need is identified. It is critical that goals be developed in partnership with the youth. Goal statements should be strength-based and focused on achieving the outcomes essential for the youth.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 367 (Attachment 2 of 3)

After reviewing the strengths, needs, and goals for each area, identify the "Who will help me" (services or supports that may be helpful) to achieving the goals.

In each category list the action steps needed to achieve the goal. The steps should clearly identify:

- If youth is in agreement;
- Who is responsible;
- What do they agree to do; and
- By when, which is documented under either the 0 to 3 months column or the 4 to 9 months column.

Crisis Plan (Plan B). Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

To move into the Dream Path phase. Each YTDM meeting begins with a review of the five Fostering Connections areas to determine if changes or adaptations need to be made. Once the youth has achieved stability, the longer range planning can begin. Review the 'Dream' written in the 'cloud' on the far right of the document and determine the steps to head in that direction. Develop action plans with a six to nine months' time frame.

Each additional meeting of the team can look ahead further. The youth will be fully listened to and have input every step of the way. If there is disagreement, take the time to discuss the issue and resolve it before moving forward.

Each meeting covers strengths of the youth and a review of the previous assignments. Establish a new Crisis Plan (Plan B) at each meeting as well. Completion of the YTDM meeting process is determined by the youth and the team. It can continue informally after the youth ages out of the system, if desired.

Hello everyone. Based on our discussion today, we need to have more discussion about what's happening with the caseload count data being reported for title IV-E Foster Care Candidates (not Prevention Plan candidates) and children in title IV-E FC placements for Iowa's CB-496 reports. As noted, there is a significant discrepancy between what's being reported for caseload counts in both populations across administration claiming (Case Planning and Management Administration vs. Independent Legal Representation) where it should be comparable (see attached spreadsheet). From what David shared, the Case Planning and Management Administration caseload data is pulled from DHHS sources and the Independent Legal Representation data is entered on the form as reported by the State Public Defender's office.

I am also sharing Children's Bureau policy guidance pertaining to Title IV-E candidates for foster care found in the CB Child Welfare Policy Manual online. During the call today, I was referencing Question 2 found in this section but I encourage you to review any/all questions as you see necessary.
https://acf.hhs.gov/cwpm/public_html/programs/cb/laws_policies/laws/cwpm/policy_dsp.jsp?citID=79

Wendy Sheetz and I had a conversation about these candidates last Spring and she shared a reference to Iowa's Employee Manual 18-Appendix. It's on page 119 (see attached).

If I missed sharing anything that you anticipated seeing, please let me know and I will share.

As you know, I will be in Des Moines (at the 525 SW 5th Street Building) next week on Monday and Tuesday but I can drive to another location as well. If you are available, I have time on Monday (3/11) between 11AM-1PM and then again at 3PM. I also have time on Tuesday morning before 10:30AM. If those dates/times won't work, we can revisit dates/times for a Teams call just let me know.

Thank you!

  Provide a narrative description of individual parent/caretaker concerns by addressing the following:

  - Describe what individual issues parents/caretakers have that need to be better managed or replaced so that the family tasks can go better (i.e. new plans for managing anger/control issues, improving emotional stability, stopping or limiting use of substances, managing sexual behavior, etc.) and what kind of new plan needs to be in place to ensure child safety and well-being.

  Provide a narrative description of family consensus regarding safety concerns by addressing the following:

  - What is the level of consensus with the family regarding the safety concerns and/or threats of danger described above?

- Addendum to Safety Assessment Summary. Use this section to update or edit the Safety Assessment Summary, based off the last Safety Assessment completed. This field appears only in addendum status.

If the *Family Risk Assessment* has not been completed, levels will not appear in these three sections.

  The final risk level is used to determine what the client's service eligibility is in based on findings, age, and risk.

  Review and consider information gathered from child and family interviews, collateral contacts, Department service records, and all prior assessments.

- Recommendation for Service. The finding of the child abuse assessment and the family risk score determine the family's eligibility for information or information and referral, non-agency voluntary services, or Department services.

When the family is being referred to non-agency voluntary services, document the actions developed jointly with the family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of family functioning:

- Consider if there are current resources, services, and supports available to the family that can meet the family's needs and increase protection for the child.
- Identify services and supports provided to the family that have failed to prevent the child's abuse or reabuse.
- Consider if caretakers refuse needed services or supports despite protective concerns, increasing children's risk.
- Document your recommendation for services.

When the family is eligible for non-agency voluntary services, but is not being referred, indicate the exception reason.

When the family is being referred for Department services, identify the prevention services to meet the foster care prevention strategy and describe what that prevention strategy is.

When the family is eligible for Department services, but is not being referred, indicate the exception reason.

Document any additional service information that is needed.

- Recommendations for Court Involvement. Enter your recommendations for juvenile or criminal court involvement.
  - If you recommend juvenile court involvement, include:
    - A summary of the status of any current juvenile court involvement if the child is already adjudicated or adjudication is pending.
    - Your specific recommendations to the county attorney on the initiation or continuation of juvenile court action.
    - Your rationale to support that recommendation (e.g., family with founded abuse has refused offer of Department services).
  - If you do not recommend juvenile court involvement, include under "Type of Action Requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was not confirmed, or was confirmed or founded but low-risk).
  - If you recommend criminal court involvement, include:
    - Reference to any joint assessment with law enforcement.

Dependent Adult Assessment Tool, Form 470-4841

Purpose

Form 470-4841 is a three-part tool used to assess a dependent adult's *degree of dependency*, as well as, to analyze safety and risk. Complete an assessment of safety, dependency, and risk on every alleged victim for whom an evaluation or assessment is conducted.

Source

Complete the assessment tool online in DARES under each tab, respectively labeled "Safety Assessment," "Dependency Assessment," and "Risk Assessment."

This form may also be printed from "My Links" in JARVIS and entered into DARES later.

Completion

The adult protective worker must complete the *Safety Assessment* portion:

- Within 24 hours of the first contact with the adult subject, and
- Before closing the adult protective evaluation or assessment.

The adult protective worker must complete the *Dependency Assessment* portion before the end of the dependent adult protective evaluation or assessment.

The adult protective worker must complete the *Risk Assessment* portions before the end of the dependent adult protective evaluation or assessment.

Distribution

The *Dependent Adult Assessment Tool* is not distributed as part of the *Dependent Adult Protective Services Evaluation or Assessment Summary*. Print the *Dependent Adult Assessment Tool* and keep it in the case file.

Data

Asterisked (*) items are generated by the DARES database if the information has been entered into DARES. The adult subject's name, date of birth, age, form of alleged maltreatment, and caretaker, if applicable, are pulled from household composition.

Safety Assessment (Initial and Final)

If any of 2 through 6 are **No** or 7 through 14 are **Yes**, assist the adult subject, caretaker, service providers, and support system to take steps to alleviate the safety issues. This may be done by:

- Obtaining medical care or placement,
- Engaging additional formal and informal supports,
- Safety planning,
- Use of law enforcement, or
- Seeking legal intervention.

DARES will narrow the results of the safety decision in compliance with the scoring instructions. Only the subsequent safety status score is pulled from

DARES and populates into form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Initial Safety Decision

Check the box to indicate your determination as to whether the dependent adult is "safe," "conditionally safe," "unsafe," or "unable to remediate safety concerns." When selecting "unable to remediate safety concerns," the adult protective worker must select one of the following reasons why:

- Protective order requested but not granted.
- Dependent adult has the capacity to consent and is refusing services.
- Dependent adult has accepted some, but not all of the recommended services.
- Other. If selecting other, please provide a brief explanation.

Dependency Assessment

Health conditions and diagnoses: Enter medical information. Document the overall condition of the adult, any existing allergies, and behavioral indicators or observations of health.

Medications: Enter all the adult's medications.

Current services: Enter **Yes** or **No** for each question. Use "Other" for services not represented on the list. Explain all other services not on the list.

Cognitive impairments: Enter **Yes** or **No** for each question. Completing IQ is optional. Explain any temporary conditions.

Cognitive screening: Enter the type of mental status screening tool conducted. If the mental status screening tool used by the adult protective worker or other qualified professional is not represented in the list, select "other." List the score and what the score means pertaining to the adult subject's cognition. Screening will allow the adult protective worker to determine if the adult subject needs a more comprehensive assessment on capacity to consent.

Physical impairments: Enter **Yes** or **No** for each question. Explain if necessary.

Katz (Activities of Daily Living) (ADL): The Katz Index ranks adequacy of performance in the six functions of *bathing, dressing, toileting, transferring, continence, and feeding*. Clients are scored for independence in each of the six functions.

Each category has a check box. DARES calculates the score. Completion of all questions is required. A score of six indicates full function; four indicates moderate impairment; and two or less indicates severe functional impairment.

Lawton – Brody Instrumental Activities of Daily Living Scale (IADL): The IADL is an appropriate instrument to assess independent living skills. These skills are considered more complex than the basic activities of daily living as measured by the Katz Index.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

The instrument is most useful for identifying how a person is functioning now and identifying improvement or deterioration over time. There are eight domains of function measured with the Lawton IADL scale.

To obtain a score for each category, check the box for the item description that most closely resembles the client's highest independence level. Each category requires one box to be checked. The total score ranges from zero which indicates low functioning to eight which indicates high functioning.

Summary of dependency status: Determine if the information collected through the dependency portion of your assessment indicates the adult subject (alleged victim) is dependent.

Use the narrative to summarize the evidence gathered through the dependency assessment to support or refute that the adult subject is a dependent adult. A diagnosis or level of care alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the "Summary of dependency status" narrative is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Adult Subject Risk of Abuse or Neglect Assessment

The risk assessment must be completed by the conclusion of the assessment or evaluation.

The scored risk levels are pulled from the risk assessment of the adult subject and the alleged person responsible that are completed through DARES for the incident. If the risk assessments have not been completed, levels will not appear in the printed version.

The final risk level score is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*, under "Final Risk Level." The DARES system uses this score to determine what the client's periodic visit eligibility is based on, age, dependency status, mitigating interventions, and risk level.

Summary and Analysis of Safety Constructs Narrative

- Describe the threats of maltreatment that are present at this time (i.e., aggravating factors that combine to produce a potentially dangerous situation).

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

- Describe the adult subject's vulnerability to maltreatment (i.e., the degree that the adult subject cannot on the adult's own avoid, negate, or minimize the impact of present or impending danger).
- Describe the adult subject and caretaker or alleged person responsible protective capacities (i.e., family, household, or support system strengths or resources that reduce, control, or prevent threats of maltreatment from arising and the factors and deficiencies that have a negative impact on the adult subject's safety).

Policy Overrides

After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and adult subject vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

Discretionary override reason: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. You must receive supervisory approval for a discretionary override. The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Supervisor's Review/Approval of Discretionary Override: Enter a signature.

Date: Enter the date.

Dependent Adult Protective Services Evaluation or Assessment Summary, Form 470-0688

Purpose

Form 470-0688 provides identifying information about the adult subject and the household in which the adult subject resides. This summary addresses the abuse reported and the determination of whether abuse occurred.

The form assesses the adult subject's safety when an evaluation or assessment of the reported incident is conducted. The form also documents the assessment of risk, dependency, household strengths and needs, and recommendations for services or court intervention as indicated.

If abuse is confirmed, the summary identifies the person responsible for the abuse and indicates whether the incident requires placement on the Central Abuse Registry.

Source

This form may be completed online, including the narrative, using the DARES system.

Completion

The adult protective worker who completes the evaluation or assessment completes the form. The supervisor approves and signs off on the final report.

Distribution

Automatically provide the summary to the county attorney. Keep a copy in the case record.

For an inter-county referral, also send one copy to the referring or receiving county attorney.

These forms are all accessed and completed in the DHS Case Flow system at: http://dhsintranet/cwis_caseflow/

- Family Case Plan Face Sheet, Part A
- Family Case Plan, Part B
- Child Placement Plan, Part C
- *Family Functioning Domain Criteria*, form 470-4138 (also located on SharePoint under Employee Manual/Forms), which explains what information, child/family issues, and assessment criteria should be considered in each of the five domain areas
- Family Risk Reassessment, form 470-4134

Completion

The DHS social work case manager assigned to the child and family is responsible for preparing the case plan to provide a comprehensive assessment view of the child and family that focuses on the major needs of the child, the parents, and, if applicable, the foster parents related to child safety, permanency, and well-being.

The case plan must be completed within 60 calendar days from the date the Department opens a DHS child welfare service case.

The case plan must be reviewed and updated:

- At a minimum, every six months thereafter while the case remains open, or
- More frequently if there are significant changes or if required by the court.

Family Functioning Domains

DHS uses the *Family Functioning Domains* to provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention.

Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- *Child Well-Being*: Child's mental health behavior, relationship with peers, school performance, motivation and cooperation, relationship with caregivers, and relationship with siblings
- *Parental Capabilities*: Parental supervision of children, mental health, disciplinary practices, physical health, developmental and enrichment activities, and use of drugs or alcohol
- *Family Safety*: Physical abuse, neglect, sexual, or emotional abuse of child; and domestic violence
- *Family interactions*: Bonding with child, expectations of child, relationship between parents or caregivers, mutual support within the family
- *Home environment*: Housing stability, financial management, income and employment, safety in community, personal hygiene, habitability, transportation, food and nutrition, learning environment
- *Other*: Additional issues or concerns about the child or family

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-011598

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

Become familiar with the family functioning domain categories and criteria. Consider the child and family's strengths, concerns, and needs in the various domain areas as you have discussions with the family and gather and analyze information about them.

- Information gathered in a family team may be helpful in evaluating the domain categories.
- Evaluate each individual's functioning through the common "lens" of the domain areas when:
  - There are multiple children in the family,
  - There is a noncustodial parent or stepparent, or
  - A relative is caring for the child.

Complete the family functioning domain section of the case plan by working through each domain category (the subcategories for each domain category automatically appear as you complete the domain sections) and:

- Fill in the **Narrative** section of each domain with a specific description of any strengths or needs identified within that domain.

  Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

  Remember that families may have strengths in some domain areas that can be used to address needs in other domains.
- Establish a **Goal** for each domain area where a need is identified in the narrative. It is critical that goals be developed in partnership with the family.

  Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.
- If no needs are identified for a family within a domain category, but strengths are noted, you may establish a goal for that domain that focuses on using family strengths to help meet needs in other domain areas.
- After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.
- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible for each step and
  - The dates for beginning and completing the necessary actions.

  Update revisions to or completion dates for the steps throughout the life of the case plan.
- Discuss and review the case plan information on domain areas, proposed goals, and action steps with the family before making final entries to the plan.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-011599

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

- Use the **Comments** section in each domain area to enter updated information on the family's progress and functioning level in that domain.

When the child is residing with the child's parents, the case plan shall state whether the child would be at "imminent risk of removal" from the home if in-home services were not provided.

"Imminent risk" means there is an immediate threat or likelihood that the child will suffer maltreatment.

When assessing "imminent risk," consider the three safety constructs of threats of maltreatment, child's vulnerability to maltreatment, and the caretaker's protective capacities to determine if the child would be unsafe without in-home services in place.

Cases that meet this standard are eligible for federal Title IV-E funding as candidates for foster care.

In the comments section of the most applicable family functioning domain area, document whether DHS would ask the court to consider the removal of the child if the family refused or terminated in-home services and why.

Review Section

Use the *Family Case Plan* review section when reviewing family progress and making further recommendations for actions and services on the case.

- Indicate the date of the plan review and whether this review was conducted through a family team meeting.
- When completing the review, consider the family's current functioning, level of goal achievement, and completion of necessary steps within each domain area.
- Identify family achievements, progress toward safe case closure, remaining concerns, and your current recommendations in the review section.
- At least once every six months, review the status of any child who has been previously determined to be at "imminent risk of removal" if in-home services are not provided. Document if services should continue and why in the *Review Summary and Recommendations* box.

  Reference **Other Comments** if an evaluation determines that the location of the foster home is suppressed and review this determination every six months or less.

Signatures and Notifications

- Document and obtain signatures from those persons that participated in development of the plan and thank all persons who contributed to the planning process for the child and family.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

- Set a date for future meeting with the family to review and revise the plan as needed. The **Other Comments** section of this page can be used for this purpose.

  Every six months or less, evaluate and review the decision to suppress the location of the foster home to determine if suppression continues or the need for suppression no longer is applicable.

- The **Other Comments** section may be used to include information concerning:
  - Case child abuse and criminal record histories;
  - Whether the Indian Child Welfare Act applies to the case;
  - Evidence of a direct or indirect threat to harm the foster child or foster family or credible third-party information of a threat of harm to the foster child or foster family as listed in 18-D(4). This information is needed if there has been a decision to suppress the address and contact information of the foster home.

- Distribute copies of the plan to those that should receive them.

C. Child Placement Plan

In combination with the face sheet and the family plan, the out-of-home placement section is a written document that includes all the federal required elements. The family plan and the out-of-home placement section include:

- A description of the placement and the appropriateness of the placement.
- The permanency goal for the child including any concurrent permanency goals.
- A plan for ensuring that the child and family receive services designed to facilitate the return of the child to a safe home or to another permanent placement.
- The health and educational status of the child.
- When applicable, a description of the programs and services that will facilitate the child's transition from foster care to adulthood.

This form is necessary to provide information mandated by state and federal laws and regulations regarding each child placed in an out-of-home setting in which the Department has custody, or when foster care is being provided under a voluntary placement agreement.

The DHS social work case manager responsible for the child should complete the *Child Placement Plan* when the child is placed in an out-of-home setting and DHS has custody or the child is placed under a voluntary placement agreement.

For these children, this section is in addition to Parts A and B of the case plan. The *Child Placement Plan, Part C*, should be updated every 90 days just like Parts A and B.

child's educational placement stable and why the change was best for the child.

Transition Plan

"Transition planning" is the process of assisting the child in foster care to prepare to be a self-sufficient adult.

This process includes an assessment of life skills, strength and concerns, services and supports, and outcomes to be accomplished for successful transition.

Planning for transition to adulthood for children in foster care with special needs may need to begin before age 14 to ensure needed funding and services are available.

Service area transition planning specialists (TPS) can provide ongoing consultation and information regarding transition planning for adolescents.

For a child who may be eligible for services as an adult, the assessment and plan of services must be developed with someone who can reasonably be expected to fund those services or be a service provider when the child becomes an adult.

This section is required for a child in foster care of any type who is age 14 years of age or older. The plan shall be updated at required intervals with the *Case Permanency Plan*. In addition, the *Transition Plan* needs to be updated within 90 days of the child turning 18, and if the child remains in care past the age of 18, in the 90 days before discharge.

Organization of a youth-centered planning team is required for every child age 14 and older in foster care. Ask the child to select members of the team. Include specific names of formal and informal supports in the box that asks about membership.

A referral to transition planning specialist (TPS) may be needed for more challenging needs, such as transition planning for a child in long-term foster care or a child needing adult services. If a referral has been made to a TPS, select "yes."

Include the date the Case Life Skills Assessment was completed. It must be done at least once after the child in foster care's 14th birthday. Replace with the new date if it is done again throughout the child's time in foster care.

If the child is interested in pursuing higher education, the plan shall provide for the child's participation in the College Student Aid Commission's program or assistance in applying for federal and state aid.

Indicate whether the child has a driver's license or non-operator ID. If the child does not have at least one or the other, provide steps to obtain one or both.

Review and explain form 470-5337, *Rights of Youth in Out-of-Home Placement*, to a child age 14 and older. Have the child sign and date the form indicating you have reviewed the rights so the child understands and have answered any questions about their rights. After the form has been signed, give the child the original rights document and provide a copy to all legal parties on the child's case. Document the date the form was most recently given to the child in the *Case Permanency Plan*.

Before the child reaches age 17½, present the completed *Transition Plan* to the transition committee for the service area that applies to the child. The local transition committee must review and approve the *Transition Plan*. When a child enters foster care at age 17½ or older, the local transition committee shall be involved in reviewing and approving the child's transition plan within 30 days of completion.

There are six domain areas in the *Transition Plan* and a box for each. Follow the instructions for each section below:

- *Education*: Include information about the child's current education status and plans, including steps that still need to be taken, dates, and who will assist.
- *Employment and Workforce Supports*: Include information about the child's current work status and plans, including steps that still need to be taken, dates, and who will assist. This section needs to show the child has a clean credit report and banking experience, or it should provide plans or activities to achieve.
- *Health and Health Insurance*: Include information about the child and the child's health insurance status and plans.
- *Housing*: Describe the child's housing and housing plans.
- *Supportive Relationships and Services*: Describe relationships and opportunities for social and developmentally appropriate activities. Describe efforts to repair relationships or help child reconnect. Refer child age 17 to aftercare and include the date. If aftercare has not been contacted, leave the box blank.
- *Youth with Special Needs*: Relevant information about any special needs of the child should be included here, as well as referrals to SSI and adult services. The connections to SSI or adult services must be made before the Transition Planning Committee review, which typically occurs when the child is age 17. The date the plan was reviewed should be included in the last box of this section.

Child Signature

Obtain the child's and guardian's signatures as appropriate.

Family Functioning Domain Criteria, Form 470-4138

Purpose	Form 470-4138 is used to assist with assessment of the strengths and needs of the child, and of the child's parent(s)/caretaker(s), home, and family. It is an example of statements regarding areas of strengths and needs.
Source	This form is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.
Completion	The child protection worker uses this tool during the child protective assessment process to aid in the assessment of strengths and needs. Strengths and needs are identified using the family functioning domains: ▪ Child well-being ▪ Parental capabilities (includes use of drugs or alcohol) ▪ Family safety (includes domestic violence) ▪ Family interactions ▪ Home environment Identify domains as a strength or need. Address in the narrative section strengths and needs under each specific subsection that applies to the child, family, or home. It is not necessary to address every item listed. Address items that are relevant to the given situation. You are not limited to only the items listed. The child protection worker completes this form in JARVIS with approval and sign-off by the supervisor.
Data	Family functioning domains are applicable throughout the life of a case beginning with the safety assessment, strengths and needs identification during a child protective assessment or CINA assessment, and developing a family plan.

Family Interaction Plan General Roles and Responsibilities, Form 470-5148 or 470-5148(S)

Purpose

The *Family Interaction Plan General Roles and Responsibilities*, form 470-5148 and 470-5148(S), is the official family interaction plan developed for children placed out of the home. All children who are placed out of the home need to have a family interaction plan in place to ensure interactions occur in safe and healthy ways. The family interaction plan should be tailored to meet the safety needs of the family.

Source

Complete the English or Spanish version of this form using the template available in SharePoint under Employee Manual/Forms. This form may also be printed from the manual or SharePoint.

Completion

The most effective way of developing or reassessing a family interaction plan is during a warm hand-off or Solution Focused Meeting. The written family interaction plan may be incorporated as part of the Solution Focused Meeting notes or identified separately on the family interaction plan form. However, not all children placed out of the home will have a Solution Focused Meeting but family interaction planning should still occur.

Distribution

Give a copy of the completed family interaction plan to the identified team members. Keep the original form in the child's case file.

Data

Background Information. Enter the following information:

- *Children's names*: If multiple children have different needs or safety concerns, the family's team may want to consider a separate plan for each child.
- *Date of plan*: This is the date the plan was developed.
- *Placed with*: Document where the child is placed and with whom. If multiple children are in different places, indicate the type of placement (i.e., resource family, relative, residential placement, etc.).
- *Placement date for children*: This is the date the child was removed and placed out of the home.
- *Permanency goal*: Document the identified permanency goal.

Safety Concerns/Required level of supervision. Utilizing the Family Interaction Planning Tool (Comm. 649) provide explanations for questions A-F of the Interaction Supervision Decision Tree.

Family Interaction Plan. Family interaction should begin as soon as possible after removal from parental custody. At a minimum, interactions should occur within 24 hours of placement, be regular, and of increasing frequency and duration.

- *Types of Interaction*: Document the type of interaction approved. Creativity in defining interactions should be supported. Every opportunity needs to be

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

considered such as doctor appointments, school activities, meetings, and other functions in which the family would have participated if the children were in the home. This should be documented in the Attendance at Child Centered Appointments/Events section of the plan.

Interactions should be built around meaningful activities including:

- Mealtimes,
- Bathing,
- Grooming,
- Naptimes,
- Homework time,
- Grocery shopping,
- Doctors' appointments,
- School activities (i.e., conferences, plays, band and choir concerts, family nights, carnivals, graduation, etc.),
- Sports activities, and
- Should be geared towards the child's developmental abilities.

Creative planning should not only support face-to-face time but also other methods, such as calls, letters, texting, emails, and other electronic methods of communication. Families should be encouraged to explore other ways to connect and interact with one another.

- *Frequency* and *Length of Interaction*: Document the frequency and length of interaction. In determining how often and how long interactions should be, consider the following:
  - The age of the children.
  - The severity and chronicity of the abuse.
  - The potential for abduction or continued abuse of the children.
  - The progress of the parent in learning new skills or managing inappropriate behaviors, protective capacities displayed by the parent.
- *Locations*: Document the locations where the interactions will occur. Utilize the Planning Tool to aid in decision making around interaction locations.

  Family interaction should occur in the least restrictive, most homelike setting that allows for natural interaction and appropriate to meet the child's needs for safety. Generally, the parental, relative, or resource family home will provide the best environment. When safety is an issue, a more secure setting should be chosen and a safety plan developed for the interactions to continue.

  Consider the type of interaction as you document the location. For example, if an interaction is built around school activities, sport activities,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

or doctors' appointments, you would document the location of the event (i.e., school, gymnasium, ball field, doctor office, etc.).

- *Types of Supervision*: Document the type of supervision for the identified interaction. Types of supervision include fully supervised, relaxed supervision, semi or partially supervised, or no supervision necessary. Supervision can be provided by a professional or other person identified by the family's team.
- *Supervised By*: If supervision is required, document who is responsible to provide supervision during interaction. This will be determined by the family's team. Consideration should be given based on the safety concerns and the developmental needs of the child.

  Family interactions are most "natural" when interactions are supported by those with a relationship with the child, such as other family members versus professionals. Family supports can be relied on to assist with all aspects of services including attendance at meetings, role modeling, transportation, observing interactions, etc.

Family Routines to Practice During Family Interaction. Document the goals to be accomplished during family interaction. Family interaction should focus on allowing the most natural parent-child interactions, such as:

- Cooking and eating a meal,
- Reading stories,
- Cleaning a room,
- Playing a game,
- Bath time,
- Naptime, or
- Bedtime routines.

The focus is on maintaining ties between the parent and child and assessing the parent's capacity to care for the child. Primary routines should reflect the family's SBC outcomes.

Goals are the family routines to target during the family interaction. These behavioral changes are most likely related back to the safety concerns as identified by the team.

- Family Routines to Target: Document the routines to practice during family interaction.
- Family Members Involved: Document who is expected to be involved in the routines.
- *Date Reviewed or Revised*: Document the date when the goal was reviewed or revised.

Family interaction needs to be reviewed during a Solution Focused Meeting or by those the family's team identifies, at a minimum, when:

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-011611

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

- There are changes in behavioral patterns demonstrated by the parents or children.
- Protective provisions that may be a safety concern change or arise.
- There is a change in family supports.
- There is a change in legal issues or court requirements (change in custody or guardianship) that may impact family interaction planning.
- Agreed upon behavioral changes are accomplished or not.

Transportation. Describe how transportation will be provided once individuals who are available to assist in transportation are identified. Transportation is a key component for interactions to be successful.

Resource family and other relative caregivers should be encouraged to transport children at least one way. Parents and extended family members should be expected to arrange their own transportation, though they may be given temporary support when necessary to ensure there is not a gap in family interaction; however, this will likely be accomplished by public transportation. Children in placement may have to be transported by a provider or HHS staff, one or both ways to interactions.

Other Planning Notes. Considerations when setting expectations could include, but are not limited to, the following:

- Expectations of what parents should bring to the interaction.
- Activities that parents should plan or consider doing during the interaction.
- Behaviors that provide an unsafe situation may terminate the interaction. It is important that there is a follow up with the parents in order to reduce the risk for another unsafe situation.
- The use of physical discipline or threats towards others.
- Negative comments about others, which includes the children, family members, HHS worker, contractor or provider, and other professionals part of the family's team.
- Possession or bringing any drug paraphernalia, illicit substances, or alcohol to the interaction.
- All legal decisions or documents regarding contact, including No Contact Orders, etc. will be abided by all parties.
- Obtain approval before bringing any additional individuals to family interactions. Approvals are determined by the HHS case manager or the family's team.

Family Interaction Calendar. Utilize the calendar to document the initial plan for family interactions. Include any events, appointments or activities which the parent may also attend.

Family Risk Assessment, Form 470-4133

Purpose

Form 470-4133 is used to identify risk factors during an assessment. The *Family Risk Assessment* is composed of two scales that measure the level of risk regarding neglect and abuse.

Source

Complete this form on the Family Risk Assessment tab on the STAR Assessment module in JARVIS.

Completion

The child protection worker completes the *Family Risk Assessment* during the assessment process. This form must be completed before the assessment is approved.

Exception: When abuse occurred or is alleged in an out-of-home setting and child protective concerns do not exist in the child's household, the safety assessment and risk assessment is not required.

Only **one** household can be assessed on the *Family Risk Assessment* form. Assess the child's primary residence. When the alleged perpetrator resides in the household of the noncustodial parent, assess the household of the noncustodial parent. If the child moves to a different household because of the crisis, complete the risk assessment on the household in which the child will remain.

- If the child will remain in the new household, complete the risk assessment on the new household.
- If the plan is to reunify the family, complete the risk assessment on the household **from which the child was removed**.

Upon completion of the form, a Total Neglect Risk Score and Abuse Risk Score are automatically calculated to the highest of either risk score. Use this information in the analysis of the family's strengths, needs, and recommendation for services.

The final risk level is populated on the Child Protective Services Child Abuse Assessment Summary or the Child Protective Services Family Assessment Summary. Reassess the case whenever you determine that an adjustment in the risk score is warranted (either up or down).

Distribution

The form is maintained within JARVIS and is considered assessment data.

Data

Review information obtained from systems checks, Department records including service history, not confirmed assessments, and any previous or current court involvement. Review the risk assessment definitions and complete the *Family Risk Assessment* form by checking the most applicable response.

On items involving caregivers, **select one or two** parents or substitutes based on physical and emotional proximity to the children. Do not rate more than

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

two caregivers in a home.

Only one primary caregiver can be identified. The "primary caregiver" is the adult living in the household who assumes the most responsibility for child care.

When two adults are present and you are in doubt over which one assumes the most childcare responsibility, select the adult with custody or guardianship or the caregiver responsible for the child involved in the incident as the primary caregiver.

> Ms. X and her partner Mr. Y live together and appear to share caregiver responsibilities for Ms. X's children equally. Because Ms. X has legal custody of the children, select her as the primary caretaker.

If this does not resolve the question, select the legally responsible adult who was a perpetrator or alleged perpetrator.

> Mr. and Mrs. Z live together and appear to share caregiver responsibilities for their children equally. Mrs. Z is the alleged perpetrator of abuse, so she is selected as the primary caretaker.

When both parents are in the household, equally sharing care giving responsibilities, and both have been identified as perpetrators or alleged perpetrators, select the parent demonstrating the more severe behavior.

The "secondary caregiver" is defined as an adult living in the household who has routine responsibility for childcare, but less responsibility than the primary caregiver. A partner may be a secondary caregiver even though the partner has minimal responsibility for care of the children.

If an item relates to all caregivers and the household has more than one caregiver, **rate the caregiver with the more severe behavior**.

The risk assessment form is composed of two scales: the neglect scale and the abuse scale. For detailed guidance, see *Family Risk Assessment Guidance*, RC-0123.

After scoring all items in each scale, total the score for each scale and determine the risk level by checking the appropriate boxes in the risk level section.

Overrides

Policy Overrides: After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and child vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-011616

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

Discretionary Override: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. **You must receive supervisory approval** for a discretionary override.

The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Family Functioning Domains. The family functioning domains provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention. Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- Child Well-Being:
  - Child's physical and mental health,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

- Behavior,
- Relationship with peers,
- School performance,
- Motivation and cooperation to stay with family,
- Relationship with siblings, and
- Supports.

▪ Parental Capabilities:

- Supervision of children,
- Mental health,
- Informal supports,
- Disciplinary practices,
- Physical health,
- Developmental and enrichment activities, and
- Use of drugs or alcohol.

▪ Family Safety:

- Physical abuse,
- Neglect of a child,
- Sexual abuse,
- Domestic violence, or
- Emotional abuse.

▪ Family Interactions:

- Bonding with child or children,
- Expectations of children,
- Family interaction planning,
- Relationship between parents or caregivers,
- Mutual support within the family, and
- Concurrent planning.

NOTE: A written *Family Interaction Plan*, tailored to meet the safety needs of the family is developed and/or reassessed during a family team meeting involving a child placed out of the home to assure family interaction begins as soon as possible after removal from parental custody.

▪ Home Environment

- Housing stability,
- Food and nutrition,
- Transportation,
- Safety in community,
- Financial management,
- Learning environment,
- Habitability of housing,
- Personal hygiene, and
- Income and employment.

- **Other**. Additional issues or concerns about the child or family.

  NOTE: Discuss concurrent planning and permanency goals, any interstate compact issues, child and family cultural factors, language barriers, or if the Indian Child Welfare Act applies.

Complete the family functioning domain section of the FTDM family plan by working through each domain category. Consider the child and family's strengths and needs in the various domain areas as you have discussions during the family team meeting. Fill in the narrative "strengths" and "needs" section of each applicable domain. Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

Establish a goal for each applicable domain area where a need is identified. It is critical that goals be developed in partnership with the family. Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.

After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible,
  - What do they agree to do, and
  - By when.
- Document the date for when the goal was completed or modified.

Crisis Plan. Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

Signatures and Notifications. Enter the name of invited team members, including their role, contact information, and check whether or not they attended the family team meeting.

Foster Care and/or Subsidized Adoption Information Exchange, Report S472N111-01

Purpose

Report S472N111-01, *Foster Care and/or Subsidized Adoption Information Exchange*, provides IV-E workers information that is needed to determine IV-E and Medicaid eligibility for children in foster care and adoption assistance programs.

Source

The FACS system generates this report nightly.

Completion

The FACS system automatically generates this form on foster care and adoption subsidy cases when:

- There is a start date recorded on FACS (labeled as "new placement" on the report).
- There is an end date recorded on FACS (labeled as "exit placement" on the report). (A move from one placement to another generates two reports.)
- The FACS case is transferred to a new service worker.

The IV-E worker examines the report to determine whether the change affects IV-E or Medicaid eligibility (or if additional information is needed).

Distribution

If there is an open Medicaid case with an FBU of 19, the report is issued to the IV-E worker responsible for that case. If there is no open case with a 19 FBU, the report is issued to worker number CM00 in the office where the service worker is located.

Exception: For PMIC placements, the form is generated to the IM unit in the county where the facility is.

File the report in the IV-E case record.

Data

Data reported includes:

- Identification of the workers and the reason for the report.
- Information about the child.
- Information about the child's parents.
- Information about the child's placement.

Foster Child Behavioral Assessment, Form 470-4401 or 470-4401(S)

Purpose

The *Foster Child Behavioral Assessment* checklist serves two purposes.

- It may be used in the development of the case plan as a tool to identify the needs of the child. Every behavioral need of a foster child identified in this tool should be outlined when completing the case plan, along with the corresponding actions and responsibilities of the resource family.
- Since this tool identifies need and responsibilities, it is also the tool used to determine level of care and corresponding foster care payment.

Source

Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

Print the Spanish version of this form from the manual or SharePoint.

Completion

Complete the *Foster Child Behavioral Assessment*:

- Within the first 30 days of a child's initial entry into foster care.
- Whenever the child's behavior changes significantly.
- When the child's placement changes.
- After termination of parental rights, in preparation for negotiating an adoption subsidy or presubsidy.
- Before a court hearing on guardianship subsidy. **Note**: The highest guardianship subsidy is limited to Level 2, basic rate plus level 2.

If a child comes out of group care or PMIC, the child's payment in the foster family home is the basic foster care maintenance rate. It is anticipated that the family team meeting, with the new foster parents participating, will be part of the discharge planning. Complete the *Foster Child Behavioral Assessment* within the first 30 days of placement.

If a child leaves foster family care and goes to shelter care and then returns to the same foster family home, the payment rate remains the same as the rate received by the foster family before the child goes to shelter care. Complete an assessment within 30 days of placement with a new foster family.

To authorize payment to the resource family at a higher level than the basic rate, this form shall be signed by the worker and the worker's supervisor.

After supervisory approval, the difficulty of care payments shall begin the first day of the month **following** the month in which the form was completed. Do not enter the new assessment rate into FACS until the supervisor has signed off and approved the assessment and rate.

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

Distribution

Keep the original form in the child's case file. Give a copy to the resource family upon the family's request.

Data

When completing the checklist, use all available information about the child for a thorough assessment of the child. This may include evaluations, school and provider reports, and home studies, as well as input from parents and the resource family.

Check only behavior that is severe enough to be outside the norm for a child of the same age. Do not check behavior that is typical for a child that age (e.g., "temper tantrums" for a 2-year-old).

In order to have a valid assessment, check each item that applies in **every** category ("minimal" and "moderate" and "intensive").

The template calculates the basic rate once the child's birth date is entered, and automatically calculates the level of care and the total daily rate. The form is designed so that checking all the applicable boxes will result in the proper calculation for the behaviors.

See 18-D(2), *Maintenance Payment*.

ICPC Report on Child's Placement Status (ICPC 100B), Form 470-0788

Purpose

Form 470-0788 (ICPC 100B) is used to communicate between the placer, the supervising agency, and the respective compact administrators regarding the status of a placement requested under the Interstate Compact on the Placement of Children. It is a national form, known as the ICPC 100B.

Source

Form 470-0788 (ICPC 100B) is available as a template in SharePoint under Employee Manual/Forms. Supplies of the form may also be printed from the manual or SharePoint.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The person supervising the placement or causing the child to be placed completes this form each time:

- A placement is made.
- A placement is changed.
- An approved placement is canceled.
- A placement is terminated.
- A case is closed.
- There is a change of address or status of the placement (e.g., from foster care to adoption).

The Department worker is responsible for preparing the form for all children in the Department's custody or guardianship who are placed out of state and for all children placed into Iowa for whom the Department has assumed supervision under the compact.

When courts, probation officers, or private agencies have placed a child in another state or accepted supervision of a child from another state, their staff are responsible for preparing the form.

When there is a change of purpose in an existing placement, e.g., from foster care to adoption, form 470-0781 (ICPC 100A) may be required at the request of the receiving state.

Distribution

Email form 470-0788 (ICPC 100B) to the ICPC service area liaison. The liaison sends to the ICPC office who forwards to the receiving state.

Data

Section I – Identifying Information

Enter the full legal name and birthdate of the child for whom this placement information is being reported.

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

Enter the names of the legal parents as on form 470-0781 (ICPC 100A). Enter the name of the resource, the address, and type of care. Enter the same type of care that was chosen on form 470-0781 (ICPC 100A) (e.g., adoptive home, foster family home, group home care). Enter the relationship for relative placements.

Section II – Placement Status

To confirm the initial placement, check the box that applies. Enter the exact date the child was placed in the receiving state.

If some aspect of the placement changes while the child remains in the receiving state, complete another ICPC 100B. Check the "Placement Change" box and indicate the exact effective date of the change.

If the child moves from one placement resource to another, enter the updated placement information. For example, if a child leaves the parents' home and is placed in a residential treatment center, complete the facility's name and address and indicate the new "Type of Care."

Subsequent ICPC 100B forms will list the new placement resource under "Identifying Information." Any additional moves to place the child within the receiving state will be reflected in this same manner.

If only the name (e.g., mother remarries) or address (original placement resource moves) changes, check and complete only those items that apply.

Section III – Compact Placement Termination

Check the boxes that apply:

- *Adoption Finalized*: If an ICPC adoptive placement has been finalized (consummated), check that box and the appropriate box for the state in which finalization occurred, "In Sending State" or "In Receiving State." Attach the final adoption decree.
- *Child Reached Majority/Legally Emancipated*: Check this box if the child has reached majority age and has simultaneously ceased to be the responsibility of the sending agency or if the child has become emancipated through legal action such as marriage or court decision.
- *Legal Custody Returned to Parent(s)*: Check this box when the child's legal custody or guardianship is returned to the parent with the concurrence of the receiving state. Attach the court order transferring custody to the parents to form 470-0788 (ICPC 100B).
- *Legal Custody Given to Relative*: Check this box when the child's legal custody or guardianship is awarded to relatives (other than parents) with the concurrence of the receiving state. Attach the court order transferring custody to the relative to form 470-0788 (ICPC 100B).

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 371 (Attachment 2 of 3)

- *Legal Custody Given to Other*: Check this box when the child's legal custody or guardianship is other (other than parents or relatives) with the concurrence of the receiving state. Enter the name and relationship to the child. Attach the court order transferring custody to the other to form 470-0788 (ICPC 100B).
- *Treatment Completed*: Check this item when the placement resource has been providing a specific treatment-oriented service; that service has been completed; and the child is, therefore, being discharged from the facility (e.g., residential treatment center). This box may also be checked if the child was placed through Article VI of the Compact.
- *Sending State's Jurisdiction Terminated with the Concurrence of the Receiving State*: Check this box when the jurisdiction of the sending state has ended for some reason other than the transfer of custody to parents or relatives with the concurrence of the receiving state's supervising agency or court.

  For example, if formal legal custody or guardianship is not going to be addressed but both states agree that supervision is no longer required or if both states agree to transfer jurisdiction to the receiving state.

  If the sending state's jurisdiction is terminated without the concurrence of the receiving state (including custody or guardianship transfer), the decision was made unilaterally and that box should be checked.
- *Unilateral Termination*: Check this box when the interstate agreement has been terminated unilaterally, whether by the sending or receiving state. A unilateral termination is one in which one state ends the interstate placement agreement without the concurrence of the receiving state.
- *Child Returned to Sending State*: Check this box when the child returns to the state the child was placed from. This may be due to a disruption in placement.
- *Child Moved to Another State*: Check this box when the child moves to a state other than the sending state.
- *Proposed Placement Request Withdrawn*: If you have submitted form ICPC 100A to request placement approval and have decided not to explore that resource further, check this box, list the "Name of the Proposed Placement Resource," and date of your decision to terminate the compact.

  Check this box only when no action has yet been taken on form 470-0781 (ICPC 100A). If you are withdrawing more than one request, submit a separate form on each and list each respective "Placement Resource."
- *Approved Resource Will Not Be Used for Placement*: Check this box when you have received an approved form 470-0781 (ICPC 100A) but have decided not to place the child with that resource. List the name of the "Approved Placement" and date of your decision to terminate the compact.

- *Other*: Check and specify if the reason for compact placement termination is not listed above. For example, the entire family moved to another state (new address should be entered under "Placement Change"), the death of a child, the child ran away and whereabouts are unknown.

Date of Termination: Enter the exact date of the activity that ended the Compact Placement Agreement.

Section IV – Signatures

If a private person or local agency is completing the form, have a designated person sign, under "Person/Agency/Supplying Information," identify the agency, and date the signature.

ICPC Request (ICPC 100A), Form 470-0781

Purpose

Form 470-0781 (ICPC 100A) is the sending agency's formal written notice to the receiving state of its intention to make an interstate placement. It requests a finding as to whether the placement would be contrary to the interests of the child. With most placements, it is also a formal request for a home study.

Following review by the receiving state, it is the official notice of the receiving state's decision. A favorable finding means that the placement can be made in conformity with the compact. An unfavorable finding means that the placement would be unlawful.

Form 470-0781 (ICPC 100A) must accompany all requests for placement to which the compact is applicable. It must be favorably acted upon by the receiving state before any compact placement is made.

Source

Form 470-0781 (ICPC 100A) is available as a template in SharePoint under Employee Manual/Forms.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The service worker, private agency, court, or any person placing the child may complete this form. It is prepared when a request is being made to place a child in another state.

Distribution

Distribute as follows:

- The sending agency/Iowa ICPC service area liaison uploads the completed 100A into the National Electronic Interstate Compact Enterprise (NEICE) and electronically sends to the sending state deputy compact administrator.
- The deputy compact administrator reviews, signs, and sends to the receiving state's identified administrator.
- The receiving agency administrator completes Section IV of the form and returns to the sending state ICPC office.
- The sending state administrator sends via NEICE to the sending agency.

Data

In the first two blocks, enter the name and address of the ICPC administrator (or deputy) to whom the request is being forwarded (TO) and the name and address of the ICPC administrator (or deputy) whose state is submitting the request (FROM). If information for the receiving state is unknown, enter only the name of the state.

Section I – Identifying Data

Enter the full legal name, social security number, Indian Child Welfare Act (ICWA) eligibility, IV-E eligibility, sex, gender, date of birth, and ethnic group of the child for whom this placement is proposed. If the child is known by a nickname, place it in parenthesis beside the legal name.

NOTE: An "Indian child" means any unmarried person who is under age 18 and is either:

- A member of an Indian tribe or
- Eligible for membership in an Indian tribe and is the biological child of a member of an Indian tribe.

Enter the names of the legal parents, usually the birth parents. When an adoption is finalized, the adoptive parents are the legal parents. If the parent is deceased, enter "deceased" after the parent's name.

If parental rights are voluntarily relinquished or terminated by the court, indicate in parenthesis beside the name. If you prefer to withhold the name, simply enter the status of the parent's rights.

Enter the complete name, address, and telephone number of the agency or person who is responsible for planning for the child and who is financially responsible for the child. In most cases, these two items will be the same (the sending agency). Email addresses are optional.

Section II – Placement Information

Types of Care Requested. Check the boxes designating the following:

- *Public Placement*: Public placement means a placement processed by a public child welfare agency where the state or local agency, or the court has authority to make the placement.
- *Private Placement*: Private placement means a placement made by a parent or a private or independent agency or representative not acting as an agent of the state (e.g., private adoption) or, in the case of a private residential treatment placement, where a parent or guardian is making the placement (e.g., private Residential Treatment Facility (RTF)/Residential Treatment Center (RTC) placement, etc.).
- *Subsidy*: Check the box for public foster care or adoption to denote IV-E federal, non-IV-E state or local, or none for no financial support. Select pending if not yet determined.
- *Adoptive Home*: Adoptive home refers to both agency and private or independent adoptive placement before finalization of an adoption. This may refer to an initial placement with a family where adoption is the intention or it may refer to the movement of an adoptive family from state A to state B following placement.

If this is a request for private or independent adoption, you are required to also complete the fields for the names, address, social security numbers, and telephone number for the prospective adoptive resource. Indicate if it is a federally-funded adoption subsidy (IV-E) or a state- or local-funded subsidy (non IV-E), pending (if not yet determined), or none.

- *Finalizing in*: Check one box to indicate the state in which the adoption will be finalized if known, otherwise mark pending.
- *Foster Family Home*: A foster family home is a facility providing care and guidance for a child or children not related to the caretaker for regular 24-hour care, or a certified kinship care home. A family foster home may not operate without a license or a certificate as required by the laws of the receiving state.
- *Group Home Care*: A resource which is licensed or approved as a group home and which provides substitute care for a fee; usually a modified family-type setting which serves more children than a foster home but fewer than an institution.
- *Child-Caring Institution*: A group care facility that is licensed or approved to provide custodial care to a larger number of children than a foster home or group home.
- *Residential Treatment Center*: A group care facility that provides a specific treatment program outside the realm of a medical hospital, psychiatric hospital, or institution for children with an intellectual disability (e.g., a residential program for the treatment of alcohol or drug abuse. The receiving state is not obligated to supervise this type of placement made by the sending state.
- *Parent*: A biological or adoptive parent or legal guardian as determined by applicable state law and who is responsible for the care, custody, and control of a child or upon whom there is legal duty for such care.
- *Institutional Care – Article VI Adjudicated Delinquent*: A group care facility for adjudicated delinquents whose proposed placement is according to Article VI of the ICPC. These facilities may include group homes and residential treatment centers and may serve non-delinquents as well.
- *Relative (Not Parent) Relationship*: Specify relationship, such as maternal aunt, paternal grandparents, brother, etc.
- *Other*: Specify a type of care not already listed, such as:
  - Nonrelative free home (an unrelated family that does not require foster home licensure in the receiving state and does not need or want foster care payments)
  - Independent living arrangement (an older teenager who is still under the jurisdiction of an agency or court but is capable of independent living without the supervision of a foster home or group home)

- Maternity home
- Extended foster care (youth aged 18–21 years old)

Current Legal Status of Child. Check the appropriate box.

- *Sending Agency Custody/Guardianship*: The child is in the full legal custody or guardianship (depending on the state's terminology) of a public agency. For example, a public agency may be social services, youth corrections, probation, parole, or a tribe. If allowed by state law, the sending agency may also be a licensed private child placement agency, an adoption agency, or a birth mother.
- *Parent/Relative Custody/Guardianship*: The child is not under the jurisdiction of either an agency or the court but is the full legal responsibility of a parent or relative. This choice is most likely to be marked when a parent, relative or guardian wishes to place a child in one of the types of care listed.
- *Court Jurisdiction Only*: The court has an open abuse, neglect, or dependency case that establishes court jurisdiction with the authority to supervise or remove and place the child for whom the court has not taken guardianship or legal custody.
- *Protective Supervision*: A legal status created by court order under which the child is permitted to remain in the child's home or is placed with a relative or other suitable person and the court, the Department, or another agency designated by the court provides supervision and assistance.
- *Parental Rights Terminated – Right to Place for Adoption*: The sending agency has accepted a voluntary relinquishment of parental rights or has completed court action terminating parental rights and now holds complete jurisdiction over the child with the right to place for adoption.
- *Unaccompanied Refugee Minor*: This form is not used to report the initial placement into the United States but to request placement and services in a second state after a U.S. agency or court has been granted full legal responsibility (custody or guardianship). Check this box only if that is the case.

  Also mark the "Sending Agency Custody/Guardianship" box. If this is an unaccompanied refugee minor whose status warrants the ICPC 100A specific to those children (not the legal responsibility of an U.S. agency or court), do not use this form.
- *Other*: Legal status is not otherwise listed (e.g., legal action, such as a petition for custody or guardianship or to terminate parental rights, is pending).

  For example, the child is the responsibility of the sending agency under a voluntary agreement with the parent or legally responsible relative and no court action has been taken or is pending to alter the family member's legal rights over the child.

Name of Person(s) or Facility Child is to be Placed with. Enter the name, address, and telephone number of the agency, facility, or individuals where the child will be placed. These entries are required.

Name(s) of Prospective Adoptive or Foster Resource. If placement is with an agency (e.g., adoption, foster care, etc.) other than a residential treatment facility (RTF), provide the foster or adoptive resource where the child will reside.

Enter the name, address, social security number, and telephone number of the individual with whom the child will be residing if it differs from the information in the section "Name of Person(s) or Facility Child is to be Placed with."

Section III – Services Requested

Initial Report Requested. If the proposed placement is not for a group care placement and a current home study has not yet been received, check the box for the appropriate type of home study needed based on the type of care indicated in Section II.

Supervisory Services Requested. Check one of the following boxes to indicate how supervisory services are to be conducted:

- *Request Receiving State to Arrange Supervision*: Check this box if the sending agency cannot supervise and does not have a contractual or other agreement with a pre-determined agency to provide these services. Usually the public social service agency will be asked to provide supervision following an approved home study and subsequent placement.
- *Another Agency Agreed to Supervise*: Check this box if the sending agency already has received the formal agreement of a pre-determined supervisory agency. This choice is most likely to be checked in agency adoptive placements where an agency in the receiving state already has provided an adoptive home study and will be providing ongoing services to the adoptive family.

  Do not check this item because you know which county office of the public agency will receive this referral and may have discussed the case over the telephone. That does not constitute an agreement to supervise.
- *Sending Agency to Supervise*: Check this box if it is logistically feasible, it is the best-case plan, and the receiving state has granted the sending agency permission (which may or may not include licensure) to provide services in its state.
- *Other*: Check this box if requesting supervision for extended foster care youth (defined as youth aged 18–21 years).

Supervisory Reports Requested. Complete even though placement may not be a certainty at this time. Indicate how frequently you wish to receive progress reports. Standard timeframes are semi-annually, quarterly, monthly, or other. Check "other" when you wish to receive reports in a timeframe not listed.

- *Child's Social History*: Should accompany the majority of referrals; includes the pre-placement summary on adoption referrals and can be written with non-identifying information, if appropriate and preferred.
- *Home Study of Placement Resource*: Attach a current home study if one is not being requested; most likely to be checked if you already have an approved home study or the child is relocating with a placement resource and the home study is enclosed.
- *Court Order*: All applicable court documents should be enclosed (e.g., custody or guardianship orders, surrenders, orders terminating parental rights, and orders requesting a home study for the court).
- *ICWA Enclosure*: Obtain a letter from the child's tribe showing that the child is a member or is eligible for membership.
- *Financial/Medical Plan*: Attach the plan of how the proposed placement will be funded and how the children's medical needs will be covered.
- *IV-E Eligibility Documentation*: Attach a copy of the determination of IV-E eligibility.

Next Steps, Form 470-5592

Purpose

Form 470-5592 is an optional resource for working with families to document agreements or activities that fall outside of the scope of a *Safety Plan*. The *Next Steps* can be used whether or not a *Safety Plan* is required.

Families are often eager to get started on resolving issues identified during a protective assessment or service case. For example, parents may voice a commitment to making a mental health appointment for themselves or their child, seeking child care, cleaning their house, etc. The *Next Steps* should be simple – who will do what by when. Unlike the *Safety Plan*, the *Next Steps* can be a promissory note – a tool for creating a reminder of commitments that have been made for the good of the children and the family.

Never use the *Next Steps* to make temporary or voluntary changes in child custody. The *Next Steps* does not replace the *Safety Plan*, which must be completed if a child is determined to be safe with a plan. The *Next Steps* is not binding, but a way to engage families regarding commitments they or others (including the Department) make to help preserve and strengthen family connections.

Source

Print this form from the manual or SharePoint under Employee Manual/Forms.

This form is also printed as a three-part carbonless set. Order supplies from Iowa Prison Industries in Anamosa.

Completion

When deemed useful, the child protection worker or social work case manager completes the *Next Steps* with the family, documenting who has agreed to an action step, what that action step is, and when it will be completed.

Use the *Next Steps* during the course of an assessment or anytime throughout the Life of the Case. Only those who are agreeing to an action step need to be present and sign the *Next Steps*. The *Next Steps* can be created in the family's home, at a meeting involving the family, or in other circumstances where action steps are identified.

Distribution

If a printed form is used in place of the three-part carbonless form, a picture of the *Next Steps* must be taken with a state-issued phone or camera.

Leave a copy or the original of the completed form with the family. Keep a copy for the Department's records by uploading the copy or photo of the completed form into File Manager (located within the JARVIS-STAR assessment module) or in the service case file.

Data

Family name: Document the last name of the family. The child protection worker may want to include the name of the child victim. The social work case manager may want to include the name of the youngest child.

Request for a One Year Foster Family License, Form 470-5124

Purpose

Form 470-5124 is used to document the request for approval or denial of one-year licensure for foster families.

Source

Complete this form using the template in SharePoint under Employee Manual/Forms.

Completion

The Department licensing worker completes this form upon receipt of the licensing renewal packet for foster families who have completed their first two years of licensure. Use this form only for foster families whose performance in the previous licensing year indicates the need for a one-year license.

Mark the reasons for the request as indicated on the form. *Other reasons* can be for:

- Continuing lack of compliance with adherence to foster care licensing rules, foster care placement contract, or foster family handbook;
- Behavior that could have negative impact on foster children, such as alcohol or substance abuse;
- Health or mental health concern.

The occurrence of one or more of the reasons does not require a recommendation of a one-year license. Take into consideration the circumstances, foster family's history, willingness to take responsibility and made adjustments, and other relevant factors when deciding whether to make the request.

Also document voluntary requests by the foster family in this section. If you need more space to write the information under *Other reasons*, use another sheet of paper and attach it to this form.

Distribution

Attach the home study, corrective action plan, letter to the foster parents, and other supporting documents or reports to this form. Send the completed form with attachments to the Foster Family Program Manager in Central Office.

The Adult, Children and Family Services Division Administrator reviews the request and indicates on the form approval or denial and an effective date.

The division administrator signs the form. The foster family program manager returns a copy to the Department licensing worker. The Department licensing worker then sends the foster family the *Notice of Action* and enters the foster home renewal date in FACS. If the division administrator approves the request for a one-year license, the Department licensing worker notifies the foster family program manager who completes the override in FACS.

- If a safety plan interferes with the custodial rights for a parent or otherwise prevents a parent from having physical contact with the child, the signature of that parent must be obtained. If the signature of that parent cannot be obtained, then the safety plan may not include language that interferes with the custodial rights for a parent or prevents the parent from having physical contact with the child unless sanctioned by a court.
- If a safety plan involves a third-party individual that is not a parent to the child, assure that you obtain the signature of the parents (as described above) as well as the signature of the individuals directly involved with implementing or monitoring the safety plan. Having other individuals sign the safety plan along with the parents does not interfere with the custodial rights of either parent.

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms.

Supplies of this form may also be printed from the manual or SharePoint as needed.

Completion

The YTDM meeting facilitator develops the youth's dream path, in collaboration with the youth, after a youth transition decision-making meeting is held.

Distribution

The facilitator gives a copy of the completed form to the identified team members. Keep the original form in the youth's case file.

Data

Case Information. Enter the following information:

- Youth name
- Parent/caregiver name
- Parent/caregiver/noncustodial names
- Date of the YTDM meeting
- Date of the next YTDM meeting
- Facilitator name and approval number
- Next court hearing date and time
- Type of hearing

Desired Outcome of this Meeting. Use the Dream Path as a tool for the stabilization and action planning parts of the YTDM meeting.

The Dream Path includes the stabilization phase, which identifies the five Fostering Connection areas that need to be addressed and stabilized in the first column.

The five Fostering Connections areas are:

- Education
- Employment
- Health
- Housing
- Supportive Relationships

Complete the stabilization section of the YTDM youth plan by working through each of the five fostering connections categories from left to right. The far left column is available to write the current or 'Now" situation for the youth. Under the column, "What will happen," establish a goal for each applicable area where a need is identified. It is critical that goals be developed in partnership with the youth. Goal statements should be strength-based and focused on achieving the outcomes essential for the youth.

After reviewing the strengths, needs, and goals for each area, identify the "Who will help me" (services or supports that may be helpful) to achieving the goals.

In each category list the action steps needed to achieve the goal. The steps should clearly identify:

- If youth is in agreement;
- Who is responsible;
- What do they agree to do; and
- By when, which is documented under either the 0 to 3 months column or the 4 to 9 months column.

Crisis Plan (Plan B). Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

To move into the Dream Path phase. Each YTDM meeting begins with a review of the five Fostering Connections areas to determine if changes or adaptations need to be made. Once the youth has achieved stability, the longer range planning can begin. Review the 'Dream' written in the 'cloud' on the far right of the document and determine the steps to head in that direction. Develop action plans with a six to nine months' time frame.

Each additional meeting of the team can look ahead further. The youth will be fully listened to and have input every step of the way. If there is disagreement, take the time to discuss the issue and resolve it before moving forward.

Each meeting covers strengths of the youth and a review of the previous assignments. Establish a new Crisis Plan (Plan B) at each meeting as well. Completion of the YTDM meeting process is determined by the youth and the team. It can continue informally after the youth ages out of the system, if desired.

Hello everyone. Based on our discussion today, we need to have more discussion about what's happening with the caseload count data being reported for title IV-E Foster Care Candidates (not Prevention Plan candidates) and children in title IV-E FC placements for Iowa's CB-496 reports. As noted, there is a significant discrepancy between what's being reported for caseload counts in both populations across administration claiming (Case Planning and Management Administration vs. Independent Legal Representation) where it should be comparable (see attached spreadsheet). From what David shared, the Case Planning and Management Administration caseload data is pulled from DHHS sources and the Independent Legal Representation data is entered on the form as reported by the State Public Defender's office.

I am also sharing Children's Bureau policy guidance pertaining to Title IV-E candidates for foster care found in the CB Child Welfare Policy Manual online. During the call today, I was referencing Question 2 found in this section but I encourage you to review any/all questions as you see necessary.
https://acf.hhs.gov/cwpm/public_html/programs/cb/laws_policies/laws/cwpm/policy_dsp.jsp?citID=79

Wendy Sheetz and I had a conversation about these candidates last Spring and she shared a reference to Iowa's Employee Manual 18-Appendix. It's on page 119 (see attached).

If I missed sharing anything that you anticipated seeing, please let me know and I will share.

As you know, I will be in Des Moines (at the 525 SW 5th Street Building) next week on Monday and Tuesday but I can drive to another location as well. If you are available, I have time on Monday (3/11) between 11AM-1PM and then again at 3PM. I also have time on Tuesday morning before 10:30AM. If those dates/times won't work, we can revisit dates/times for a Teams call just let me know.

Thank you!

- Summary and Analysis of Safety/Risk Assessments.

  Provide a narrative description of the family safety concerns by addressing the following:

  - Given the child(ren)'s level of vulnerability, what are the concerns and/or threats of danger in everyday life of the family?   Provide a narrative description of individual parent/caretaker concerns by addressing the following:

  - Describe what individual issues parents/caretakers have that need to be better managed or replaced so that the family tasks can go better (i.e. new plans for managing anger/control issues, improving emotional stability, stopping or limiting use of substances, managing sexual behavior, etc.) and what kind of new plan needs to be in place to ensure child safety and well-being.

  Provide a narrative description of family consensus regarding safety concerns by addressing the following:

  - What is the level of consensus with the family regarding the safety concerns and/or threats of danger described above?

- Addendum to Safety Assessment Summary. Use this section to update or edit the Safety Assessment Summary, based off the last Safety Assessment completed. This field appears only in addendum status.

- Final Risk Level. The neglect, abuse, and scored risk levels are pulled in from the *Family Risk Assessment* completed through the Family Risk Assessment tab of the STAR Assessment module in JARVIS. If the *Family Risk Assessment* has not been completed, levels will not appear in these three sections.

  The final risk level is used to determine what the client's service eligibility is in based on findings, age, and risk.

  Review and consider information gathered from child and family interviews, collateral contacts, Department service records, and all prior assessments.

- Recommendation for Service. The finding of the child abuse assessment and the family risk score determine the family's eligibility for information or information and referral, non-agency voluntary services, or Department services.

When the family is being referred to non-agency voluntary services, document the actions developed jointly with the family to address identified needs. The plan of action should relate directly to the presenting problems and your analysis of family functioning:

- Consider if there are current resources, services, and supports available to the family that can meet the family's needs and increase protection for the child.
- Identify services and supports provided to the family that have failed to prevent the child's abuse or reabuse.
- Consider if caretakers refuse needed services or supports despite protective concerns, increasing children's risk.
- Document your recommendation for services.

When the family is eligible for non-agency voluntary services, but is not being referred, indicate the exception reason.

When the family is being referred for Department services, identify the prevention services to meet the foster care prevention strategy and describe what that prevention strategy is.

When the family is eligible for Department services, but is not being referred, indicate the exception reason.

Document any additional service information that is needed.

- Recommendations for Court Involvement. Enter your recommendations for juvenile or criminal court involvement.
  - If you recommend juvenile court involvement, include:
    - A summary of the status of any current juvenile court involvement if the child is already adjudicated or adjudication is pending.
    - Your specific recommendations to the county attorney on the initiation or continuation of juvenile court action.
    - Your rationale to support that recommendation (e.g., family with founded abuse has refused offer of Department services).
  - If you do not recommend juvenile court involvement, include under "Type of Action Requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was not confirmed, or was confirmed or founded but low-risk).
  - If you recommend criminal court involvement, include:
    - Reference to any joint assessment with law enforcement.

The adult protective worker must complete the *Safety Assessment* portion:

- Within 24 hours of the first contact with the adult subject, and
- Before closing the adult protective evaluation or assessment.

The adult protective worker must complete the *Dependency Assessment* portion before the end of the dependent adult protective evaluation or assessment.

The adult protective worker must complete the *Risk Assessment* portions before the end of the dependent adult protective evaluation or assessment.

Distribution

The *Dependent Adult Assessment Tool* is not distributed as part of the *Dependent Adult Protective Services Evaluation or Assessment Summary*. Print the *Dependent Adult Assessment Tool* and keep it in the case file.

Data

Asterisked (*) items are generated by the DARES database if the information has been entered into DARES. The adult subject's name, date of birth, age, form of alleged maltreatment, and caretaker, if applicable, are pulled from household composition.

Safety Assessment (Initial and Final)

If any of 2 through 6 are **No** or 7 through 14 are **Yes**, assist the adult subject, caretaker, service providers, and support system to take steps to alleviate the safety issues. This may be done by:

- Obtaining medical care or placement,
- Engaging additional formal and informal supports,
- Safety planning,
- Use of law enforcement, or
- Seeking legal intervention.

DARES will narrow the results of the safety decision in compliance with the scoring instructions. Only the subsequent safety status score is pulled from

DARES and populates into form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Initial Safety Decision

Check the box to indicate your determination as to whether the dependent adult is "safe," "conditionally safe," "unsafe," or "unable to remediate safety concerns." When selecting "unable to remediate safety concerns," the adult protective worker must select one of the following reasons why:

- Protective order requested but not granted.
- Dependent adult has the capacity to consent and is refusing services.
- Dependent adult has accepted some, but not all of the recommended services.
- Other. If selecting other, please provide a brief explanation.

Dependency Assessment

Health conditions and diagnoses: Enter medical information. Document the overall condition of the adult, any existing allergies, and behavioral indicators or observations of health.

Medications: Enter all the adult's medications.

Current services: Enter **Yes** or **No** for each question. Use "Other" for services not represented on the list. Explain all other services not on the list.

Cognitive impairments: Enter **Yes** or **No** for each question. Completing IQ is optional. Explain any temporary conditions.

Cognitive screening: Enter the type of mental status screening tool conducted. If the mental status screening tool used by the adult protective worker or other qualified professional is not represented in the list, select "other." List the score and what the score means pertaining to the adult subject's cognition. Screening will allow the adult protective worker to determine if the adult subject needs a more comprehensive assessment on capacity to consent.

Physical impairments: Enter **Yes** or **No** for each question. Explain if necessary.

Katz (Activities of Daily Living) (ADL): The Katz Index ranks adequacy of performance in the six functions of *bathing, dressing, toileting, transferring, continence, and feeding*. Clients are scored for independence in each of the six functions.

Each category has a check box. DARES calculates the score. Completion of all questions is required. A score of six indicates full function; four indicates moderate impairment; and two or less indicates severe functional impairment.

Lawton – Brody Instrumental Activities of Daily Living Scale (IADL): The IADL is an appropriate instrument to assess independent living skills. These skills are considered more complex than the basic activities of daily living as measured by the Katz Index.

The instrument is most useful for identifying how a person is functioning now and identifying improvement or deterioration over time. There are eight domains of function measured with the Lawton IADL scale.

To obtain a score for each category, check the box for the item description that most closely resembles the client's highest independence level. Each category requires one box to be checked. The total score ranges from zero which indicates low functioning to eight which indicates high functioning.

Summary of dependency status: Determine if the information collected through the dependency portion of your assessment indicates the adult subject (alleged victim) is dependent.

Use the narrative to summarize the evidence gathered through the dependency assessment to support or refute that the adult subject is a dependent adult. A diagnosis or level of care alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the "Summary of dependency status" narrative is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*.

Adult Subject Risk of Abuse or Neglect Assessment

The risk assessment must be completed by the conclusion of the assessment or evaluation.

The scored risk levels are pulled from the risk assessment of the adult subject and the alleged person responsible that are completed through DARES for the incident. If the risk assessments have not been completed, levels will not appear in the printed version.

The final risk level score is pulled from DARES and populates form 470-0688, *Dependent Adult Protective Services Evaluation or Assessment Summary*, under "Final Risk Level." The DARES system uses this score to determine what the client's periodic visit eligibility is based on, age, dependency status, mitigating interventions, and risk level.

Summary and Analysis of Safety Constructs Narrative

- Describe the threats of maltreatment that are present at this time (i.e., aggravating factors that combine to produce a potentially dangerous situation).

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-012021

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

- Describe the adult subject's vulnerability to maltreatment (i.e., the degree that the adult subject cannot on the adult's own avoid, negate, or minimize the impact of present or impending danger).
- Describe the adult subject and caretaker or alleged person responsible protective capacities (i.e., family, household, or support system strengths or resources that reduce, control, or prevent threats of maltreatment from arising and the factors and deficiencies that have a negative impact on the adult subject's safety).

Policy Overrides

After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and adult subject vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

Discretionary override reason: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. You must receive supervisory approval for a discretionary override. The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Supervisor's Review/Approval of Discretionary Override: Enter a signature.

Date: Enter the date.

Dependent Adult Protective Services Evaluation or Assessment Summary, Form 470-0688

Purpose

Form 470-0688 provides identifying information about the adult subject and the household in which the adult subject resides. This summary addresses the abuse reported and the determination of whether abuse occurred.

The form assesses the adult subject's safety when an evaluation or assessment of the reported incident is conducted. The form also documents the assessment of risk, dependency, household strengths and needs, and recommendations for services or court intervention as indicated.

If abuse is confirmed, the summary identifies the person responsible for the abuse and indicates whether the incident requires placement on the Central Abuse Registry.

Source

This form may be completed online, including the narrative, using the DARES system.

Completion

The adult protective worker who completes the evaluation or assessment completes the form. The supervisor approves and signs off on the final report.

Distribution

Automatically provide the summary to the county attorney. Keep a copy in the case record.

For an inter-county referral, also send one copy to the referring or receiving county attorney.

- If you do not recommend district court involvement, include under "type of action requested" your rationale to support that recommendation (i.e., court is not recommended as abuse was unfounded, or was confirmed or founded but low risk).

- Family Case Plan, Part B
- Child Placement Plan, Part C
- *Family Functioning Domain Criteria*, form 470-4138 (also located on SharePoint under Employee Manual/Forms), which explains what information, child/family issues, and assessment criteria should be considered in each of the five domain areas
- Family Risk Reassessment, form 470-4134

Completion

The DHS social work case manager assigned to the child and family is responsible for preparing the case plan to provide a comprehensive assessment view of the child and family that focuses on the major needs of the child, the parents, and, if applicable, the foster parents related to child safety, permanency, and well-being.

The case plan must be completed within 60 calendar days from the date the Department opens a DHS child welfare service case.

The case plan must be reviewed and updated:

- At a minimum, every six months thereafter while the case remains open, or
- More frequently if there are significant changes or if required by the court.

Information on the child and family entered in the FACS system automatically completes the case plan. Information not entered in FACS will not appear in the case plan. The worker must enter this information when the case plan is prepared.

Distribution

Obtain the necessary signatures on the plan and indicate which persons participated in developing or reviewing the plan:

- Distribute the *Family Case Plan*, including the *Family Case Plan Face Sheet*, when it is first developed to all of the persons listed on the "Signatures and Notifications" page.
- Distribute copies of any altered or revised case plan, including Part A, Part B, and Part C, if applicable, and the completed review section, to all of the persons listed on the "Signatures and Notifications" page.
- Print a copy of all initial and reviewed case plans, including Part A, Part B, and Part C, if applicable, and the completed review section and place the copy in the case file.

Data

A. Family Case Plan Face Sheet

The face sheet includes identification, statistical, historical, service summary, and placement information for the family.

- *Identifying information*: Enter information on the child's name, FACS ID, date of birth, address, and family members is automatically entered from the FACS system.
- *Service History* and *Placement History*: Enter information about services opened for the child and family in the FACS system is automatically entered from the FACS system.
- *Additional Services Provided*: The social work case manager completes this section. (This data is not contained in the FACS system.) Once entered, this information will be saved and become part of the case plan history over the life of the case.
- *Court Involvement*: The social work case manager enters information on any court involvement into FACS on the Court Detail screen. This information then fills the Court Involvement section of the *Family Case Plan Face Sheet*, Part A.

Information shown in green on Part A may be suppressed for safety reasons, such as when the safety of a foster child or foster parent could be jeopardized by printing the address or there are domestic violence issues or a restraining order between the child's parents.

To suppress all the information shown in green, click on the box "Suppress All Sensitive Date." Individual lines may also be highlighted and removed. Suppressed information reappears when the Case Flow form is reopened.

Family Functioning Domains

DHS uses the *Family Functioning Domains* to provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention.

Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- *Child Well-Being*: Child's mental health behavior, relationship with peers, school performance, motivation and cooperation, relationship with caregivers, and relationship with siblings
- *Parental Capabilities*: Parental supervision of children, mental health, disciplinary practices, physical health, developmental and enrichment activities, and use of drugs or alcohol
- *Family Safety*: Physical abuse, neglect, sexual, or emotional abuse of child; and domestic violence
- *Family interactions*: Bonding with child, expectations of child, relationship between parents or caregivers, mutual support within the family
- *Home environment*: Housing stability, financial management, income and employment, safety in community, personal hygiene, habitability, transportation, food and nutrition, learning environment
- *Other*: Additional issues or concerns about the child or family

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

Become familiar with the family functioning domain categories and criteria. Consider the child and family's strengths, concerns, and needs in the various domain areas as you have discussions with the family and gather and analyze information about them.

- Information gathered in a family team may be helpful in evaluating the domain categories.
- Evaluate each individual's functioning through the common "lens" of the domain areas when:
  - There are multiple children in the family,
  - There is a noncustodial parent or stepparent, or
  - A relative is caring for the child.

Complete the family functioning domain section of the case plan by working through each domain category (the subcategories for each domain category automatically appear as you complete the domain sections) and:

- Fill in the **Narrative** section of each domain with a specific description of any strengths or needs identified within that domain.

  Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

  Remember that families may have strengths in some domain areas that can be used to address needs in other domains.
- Establish a **Goal** for each domain area where a need is identified in the narrative. It is critical that goals be developed in partnership with the family.

  Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.
- If no needs are identified for a family within a domain category, but strengths are noted, you may establish a goal for that domain that focuses on using family strengths to help meet needs in other domain areas.
- After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.
- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible for each step and
  - The dates for beginning and completing the necessary actions.

  Update revisions to or completion dates for the steps throughout the life of the case plan.
- Discuss and review the case plan information on domain areas, proposed goals, and action steps with the family before making final entries to the plan.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-012053

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

- Use the **Comments** section in each domain area to enter updated information on the family's progress and functioning level in that domain.

When the child is residing with the child's parents, the case plan shall state whether the child would be at "imminent risk of removal" from the home if in-home services were not provided.

"Imminent risk" means there is an immediate threat or likelihood that the child will suffer maltreatment.

When assessing "imminent risk," consider the three safety constructs of threats of maltreatment, child's vulnerability to maltreatment, and the caretaker's protective capacities to determine if the child would be unsafe without in-home services in place.

Cases that meet this standard are eligible for federal Title IV-E funding as candidates for foster care.

In the comments section of the most applicable family functioning domain area, document whether DHS would ask the court to consider the removal of the child if the family refused or terminated in-home services and why.

Review Section

Use the *Family Case Plan* review section when reviewing family progress and making further recommendations for actions and services on the case.

- Indicate the date of the plan review and whether this review was conducted through a family team meeting.
- When completing the review, consider the family's current functioning, level of goal achievement, and completion of necessary steps within each domain area.
- Identify family achievements, progress toward safe case closure, remaining concerns, and your current recommendations in the review section.
- At least once every six months, review the status of any child who has been previously determined to be at "imminent risk of removal" if in-home services are not provided. Document if services should continue and why in the *Review Summary and Recommendations* box.

  Reference **Other Comments** if an evaluation determines that the location of the foster home is suppressed and review this determination every six months or less.

Signatures and Notifications

- Document and obtain signatures from those persons that participated in development of the plan and thank all persons who contributed to the planning process for the child and family.

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

- Set a date for future meeting with the family to review and revise the plan as needed. The **Other Comments** section of this page can be used for this purpose.

  Every six months or less, evaluate and review the decision to suppress the location of the foster home to determine if suppression continues or the need for suppression no longer is applicable.

- The **Other Comments** section may be used to include information concerning:
  - Case child abuse and criminal record histories;
  - Whether the Indian Child Welfare Act applies to the case;
  - Evidence of a direct or indirect threat to harm the foster child or foster family or credible third-party information of a threat of harm to the foster child or foster family as listed in 18-D(4). This information is needed if there has been a decision to suppress the address and contact information of the foster home.

- Distribute copies of the plan to those that should receive them.

C. Child Placement Plan

In combination with the face sheet and the family plan, the out-of-home placement section is a written document that includes all the federal required elements. The family plan and the out-of-home placement section include:

- A description of the placement and the appropriateness of the placement.
- The permanency goal for the child including any concurrent permanency goals.
- A plan for ensuring that the child and family receive services designed to facilitate the return of the child to a safe home or to another permanent placement.
- The health and educational status of the child.
- When applicable, a description of the programs and services that will facilitate the child's transition from foster care to adulthood.

This form is necessary to provide information mandated by state and federal laws and regulations regarding each child placed in an out-of-home setting in which the Department has custody, or when foster care is being provided under a voluntary placement agreement.

The DHS social work case manager responsible for the child should complete the *Child Placement Plan* when the child is placed in an out-of-home setting and DHS has custody or the child is placed under a voluntary placement agreement.

For these children, this section is in addition to Parts A and B of the case plan. The *Child Placement Plan, Part C*, should be updated every 90 days just like Parts A and B.

  Indicate the provider, dates of service, and date the information on these services was given to the child's current caregiver and current service provider.

  NOTE: Do not record HIV status or risk of HIV infection anywhere in the case plan. File any such information in the medical record section of the case file and mark it "Confidential."
- *Mental Health/Psychological/Psychiatric Records*: Describe any known mental health, psychological, or psychiatric evaluations or treatment the child has received.

  Indicate the provider, dates of services, and date the information on these services was given to the child's current caregiver and current service provider.
- *Education Records*: Complete this section to provide information on the child's current educational stats. Contact educational partners at the local school district or Area Education Agency (AEA) if needed to obtain this information.

  If the child was not able to remain in the school the child was attending upon entry or change in foster care placement, explain efforts to keep the

child's educational placement stable and why the change was best for the child.

Transition Plan

"Transition planning" is the process of assisting the child in foster care to prepare to be a self-sufficient adult.

This process includes an assessment of life skills, strength and concerns, services and supports, and outcomes to be accomplished for successful transition.

Planning for transition to adulthood for children in foster care with special needs may need to begin before age 14 to ensure needed funding and services are available.

Service area transition planning specialists (TPS) can provide ongoing consultation and information regarding transition planning for adolescents.

For a child who may be eligible for services as an adult, the assessment and plan of services must be developed with someone who can reasonably be expected to fund those services or be a service provider when the child becomes an adult.

This section is required for a child in foster care of any type who is age 14 years of age or older. The plan shall be updated at required intervals with the *Case Permanency Plan*. In addition, the *Transition Plan* needs to be updated within 90 days of the child turning 18, and if the child remains in care past the age of 18, in the 90 days before discharge.

Organization of a youth-centered planning team is required for every child age 14 and older in foster care. Ask the child to select members of the team. Include specific names of formal and informal supports in the box that asks about membership.

A referral to transition planning specialist (TPS) may be needed for more challenging needs, such as transition planning for a child in long-term foster care or a child needing adult services. If a referral has been made to a TPS, select "yes."

Include the date the Case Life Skills Assessment was completed. It must be done at least once after the child in foster care's 14th birthday. Replace with the new date if it is done again throughout the child's time in foster care.

If the child is interested in pursuing higher education, the plan shall provide for the child's participation in the College Student Aid Commission's program or assistance in applying for federal and state aid.

Indicate whether the child has a driver's license or non-operator ID. If the child does not have at least one or the other, provide steps to obtain one or both.

Review and explain form 470-5337, *Rights of Youth in Out-of-Home Placement*, to a child age 14 and older. Have the child sign and date the form indicating you have reviewed the rights so the child understands and have answered any questions about their rights. After the form has been signed, give the child the original rights document and provide a copy to all legal parties on the child's case. Document the date the form was most recently given to the child in the *Case Permanency Plan*.

Before the child reaches age 17½, present the completed *Transition Plan* to the transition committee for the service area that applies to the child. The local transition committee must review and approve the *Transition Plan*. When a child enters foster care at age 17½ or older, the local transition committee shall be involved in reviewing and approving the child's transition plan within 30 days of completion.

There are six domain areas in the *Transition Plan* and a box for each. Follow the instructions for each section below:

- *Education*: Include information about the child's current education status and plans, including steps that still need to be taken, dates, and who will assist.
- *Employment and Workforce Supports*: Include information about the child's current work status and plans, including steps that still need to be taken, dates, and who will assist. This section needs to show the child has a clean credit report and banking experience, or it should provide plans or activities to achieve.
- *Health and Health Insurance*: Include information about the child and the child's health insurance status and plans.
- *Housing*: Describe the child's housing and housing plans.
- *Supportive Relationships and Services*: Describe relationships and opportunities for social and developmentally appropriate activities. Describe efforts to repair relationships or help child reconnect. Refer child age 17 to aftercare and include the date. If aftercare has not been contacted, leave the box blank.
- *Youth with Special Needs*: Relevant information about any special needs of the child should be included here, as well as referrals to SSI and adult services. The connections to SSI or adult services must be made before the Transition Planning Committee review, which typically occurs when the child is age 17. The date the plan was reviewed should be included in the last box of this section.

Child Signature

Obtain the child's and guardian's signatures as appropriate.

Family Functioning Domain Criteria, Form 470-4138

Purpose	Form 470-4138 is used to assist with assessment of the strengths and needs of the child, and of the child's parent(s)/caretaker(s), home, and family. It is an example of statements regarding areas of strengths and needs.
Source	This form is available on the STAR Assessment module in JARVIS. In the event of issues with accessing the form in JARVIS, it is available in this manual or in SharePoint, under Employee Manual/Forms.
Completion	The child protection worker uses this tool during the child protective assessment process to aid in the assessment of strengths and needs. Strengths and needs are identified using the family functioning domains: ▪ Child well-being ▪ Parental capabilities (includes use of drugs or alcohol) ▪ Family safety (includes domestic violence) ▪ Family interactions ▪ Home environment Identify domains as a strength or need. Address in the narrative section strengths and needs under each specific subsection that applies to the child, family, or home. It is not necessary to address every item listed. Address items that are relevant to the given situation. You are not limited to only the items listed. The child protection worker completes this form in JARVIS with approval and sign-off by the supervisor.
Data	Family functioning domains are applicable throughout the life of a case beginning with the safety assessment, strengths and needs identification during a child protective assessment or CINA assessment, and developing a family plan.

Family Interaction Plan General Roles and Responsibilities, Form 470-5148 or 470-5148(S)

Purpose

The *Family Interaction Plan General Roles and Responsibilities*, form 470-5148 and 470-5148(S), is the official family interaction plan developed for children placed out of the home. All children who are placed out of the home need to have a family interaction plan in place to ensure interactions occur in safe and healthy ways. The family interaction plan should be tailored to meet the safety needs of the family.

Source

Complete the English or Spanish version of this form using the template available in SharePoint under Employee Manual/Forms. This form may also be printed from the manual or SharePoint.

Completion

The most effective way of developing or reassessing a family interaction plan is during a warm hand-off or Solution Focused Meeting. The written family interaction plan may be incorporated as part of the Solution Focused Meeting notes or identified separately on the family interaction plan form. However, not all children placed out of the home will have a Solution Focused Meeting but family interaction planning should still occur.

Distribution

Give a copy of the completed family interaction plan to the identified team members. Keep the original form in the child's case file.

Data

Background Information. Enter the following information:

- *Children's names*: If multiple children have different needs or safety concerns, the family's team may want to consider a separate plan for each child.
- *Date of plan*: This is the date the plan was developed.
- *Placed with*: Document where the child is placed and with whom. If multiple children are in different places, indicate the type of placement (i.e., resource family, relative, residential placement, etc.).
- *Placement date for children*: This is the date the child was removed and placed out of the home.
- *Permanency goal*: Document the identified permanency goal.

Safety Concerns/Required level of supervision. Utilizing the Family Interaction Planning Tool (Comm. 649) provide explanations for questions A-F of the Interaction Supervision Decision Tree.

Family Interaction Plan. Family interaction should begin as soon as possible after removal from parental custody. At a minimum, interactions should occur within 24 hours of placement, be regular, and of increasing frequency and duration.

- *Types of Interaction*: Document the type of interaction approved. Creativity in defining interactions should be supported. Every opportunity needs to be

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

considered such as doctor appointments, school activities, meetings, and other functions in which the family would have participated if the children were in the home. This should be documented in the Attendance at Child Centered Appointments/Events section of the plan.

Interactions should be built around meaningful activities including:

- Mealtimes,
- Bathing,
- Grooming,
- Naptimes,
- Homework time,
- Grocery shopping,
- Doctors' appointments,
- School activities (i.e., conferences, plays, band and choir concerts, family nights, carnivals, graduation, etc.),
- Sports activities, and
- Should be geared towards the child's developmental abilities.

Creative planning should not only support face-to-face time but also other methods, such as calls, letters, texting, emails, and other electronic methods of communication. Families should be encouraged to explore other ways to connect and interact with one another.

- *Frequency* and *Length of Interaction*: Document the frequency and length of interaction. In determining how often and how long interactions should be, consider the following:
  - The age of the children.
  - The severity and chronicity of the abuse.
  - The potential for abduction or continued abuse of the children.
  - The progress of the parent in learning new skills or managing inappropriate behaviors, protective capacities displayed by the parent.
- *Locations*: Document the locations where the interactions will occur. Utilize the Planning Tool to aid in decision making around interaction locations.

  Family interaction should occur in the least restrictive, most homelike setting that allows for natural interaction and appropriate to meet the child's needs for safety. Generally, the parental, relative, or resource family home will provide the best environment. When safety is an issue, a more secure setting should be chosen and a safety plan developed for the interactions to continue.

  Consider the type of interaction as you document the location. For example, if an interaction is built around school activities, sport activities,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

or doctors' appointments, you would document the location of the event (i.e., school, gymnasium, ball field, doctor office, etc.).

- *Types of Supervision*: Document the type of supervision for the identified interaction. Types of supervision include fully supervised, relaxed supervision, semi or partially supervised, or no supervision necessary. Supervision can be provided by a professional or other person identified by the family's team.
- *Supervised By*: If supervision is required, document who is responsible to provide supervision during interaction. This will be determined by the family's team. Consideration should be given based on the safety concerns and the developmental needs of the child.

  Family interactions are most "natural" when interactions are supported by those with a relationship with the child, such as other family members versus professionals. Family supports can be relied on to assist with all aspects of services including attendance at meetings, role modeling, transportation, observing interactions, etc.

Family Routines to Practice During Family Interaction. Document the goals to be accomplished during family interaction. Family interaction should focus on allowing the most natural parent-child interactions, such as:

- Cooking and eating a meal,
- Reading stories,
- Cleaning a room,
- Playing a game,
- Bath time,
- Naptime, or
- Bedtime routines.

The focus is on maintaining ties between the parent and child and assessing the parent's capacity to care for the child. Primary routines should reflect the family's SBC outcomes.

Goals are the family routines to target during the family interaction. These behavioral changes are most likely related back to the safety concerns as identified by the team.

- Family Routines to Target: Document the routines to practice during family interaction.
- Family Members Involved: Document who is expected to be involved in the routines.
- *Date Reviewed or Revised*: Document the date when the goal was reviewed or revised.

Family interaction needs to be reviewed during a Solution Focused Meeting or by those the family's team identifies, at a minimum, when:

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-012065

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

- There are changes in behavioral patterns demonstrated by the parents or children.
- Protective provisions that may be a safety concern change or arise.
- There is a change in family supports.
- There is a change in legal issues or court requirements (change in custody or guardianship) that may impact family interaction planning.
- Agreed upon behavioral changes are accomplished or not.

Transportation. Describe how transportation will be provided once individuals who are available to assist in transportation are identified. Transportation is a key component for interactions to be successful.

Resource family and other relative caregivers should be encouraged to transport children at least one way. Parents and extended family members should be expected to arrange their own transportation, though they may be given temporary support when necessary to ensure there is not a gap in family interaction; however, this will likely be accomplished by public transportation. Children in placement may have to be transported by a provider or HHS staff, one or both ways to interactions.

Other Planning Notes. Considerations when setting expectations could include, but are not limited to, the following:

- Expectations of what parents should bring to the interaction.
- Activities that parents should plan or consider doing during the interaction.
- Behaviors that provide an unsafe situation may terminate the interaction. It is important that there is a follow up with the parents in order to reduce the risk for another unsafe situation.
- The use of physical discipline or threats towards others.
- Negative comments about others, which includes the children, family members, HHS worker, contractor or provider, and other professionals part of the family's team.
- Possession or bringing any drug paraphernalia, illicit substances, or alcohol to the interaction.
- All legal decisions or documents regarding contact, including No Contact Orders, etc. will be abided by all parties.
- Obtain approval before bringing any additional individuals to family interactions. Approvals are determined by the HHS case manager or the family's team.

Family Interaction Calendar. Utilize the calendar to document the initial plan for family interactions. Include any events, appointments or activities which the parent may also attend.

Family Risk Assessment, Form 470-4133

Purpose

Form 470-4133 is used to identify risk factors during an assessment. The *Family Risk Assessment* is composed of two scales that measure the level of risk regarding neglect and abuse.

Source

Complete this form on the Family Risk Assessment tab on the STAR Assessment module in JARVIS.

Completion

The child protection worker completes the *Family Risk Assessment* during the assessment process. This form must be completed before the assessment is approved.

Exception: When abuse occurred or is alleged in an out-of-home setting and child protective concerns do not exist in the child's household, the safety assessment and risk assessment is not required.

Only **one** household can be assessed on the *Family Risk Assessment* form. Assess the child's primary residence. When the alleged perpetrator resides in the household of the noncustodial parent, assess the household of the noncustodial parent. If the child moves to a different household because of the crisis, complete the risk assessment on the household in which the child will remain.

- If the child will remain in the new household, complete the risk assessment on the new household.
- If the plan is to reunify the family, complete the risk assessment on the household **from which the child was removed**.

Upon completion of the form, a Total Neglect Risk Score and Abuse Risk Score are automatically calculated to the highest of either risk score. Use this information in the analysis of the family's strengths, needs, and recommendation for services.

The final risk level is populated on the Child Protective Services Child Abuse Assessment Summary or the Child Protective Services Family Assessment Summary. Reassess the case whenever you determine that an adjustment in the risk score is warranted (either up or down).

Distribution

The form is maintained within JARVIS and is considered assessment data.

Data

Review information obtained from systems checks, Department records including service history, not confirmed assessments, and any previous or current court involvement. Review the risk assessment definitions and complete the *Family Risk Assessment* form by checking the most applicable response.

On items involving caregivers, **select one or two** parents or substitutes based on physical and emotional proximity to the children. Do not rate more than

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-012069

two caregivers in a home.

Only one primary caregiver can be identified. The "primary caregiver" is the adult living in the household who assumes the most responsibility for child care.

When two adults are present and you are in doubt over which one assumes the most childcare responsibility, select the adult with custody or guardianship or the caregiver responsible for the child involved in the incident as the primary caregiver.

> Ms. X and her partner Mr. Y live together and appear to share caregiver responsibilities for Ms. X's children equally. Because Ms. X has legal custody of the children, select her as the primary caretaker.

If this does not resolve the question, select the legally responsible adult who was a perpetrator or alleged perpetrator.

> Mr. and Mrs. Z live together and appear to share caregiver responsibilities for their children equally. Mrs. Z is the alleged perpetrator of abuse, so she is selected as the primary caretaker.

When both parents are in the household, equally sharing care giving responsibilities, and both have been identified as perpetrators or alleged perpetrators, select the parent demonstrating the more severe behavior.

The "secondary caregiver" is defined as an adult living in the household who has routine responsibility for childcare, but less responsibility than the primary caregiver. A partner may be a secondary caregiver even though the partner has minimal responsibility for care of the children.

If an item relates to all caregivers and the household has more than one caregiver, **rate the caregiver with the more severe behavior**.

The risk assessment form is composed of two scales: the neglect scale and the abuse scale. For detailed guidance, see *Family Risk Assessment Guidance*, RC-0123.

After scoring all items in each scale, total the score for each scale and determine the risk level by checking the appropriate boxes in the risk level section.

Overrides

Policy Overrides: After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and child vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-012070

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

Discretionary Override: After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. **You must receive supervisory approval** for a discretionary override.

The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Family Functioning Domains. The family functioning domains provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention. Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a "common lens" through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- Child Well-Being:
  - Child's physical and mental health,

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

- Behavior,
- Relationship with peers,
- School performance,
- Motivation and cooperation to stay with family,
- Relationship with siblings, and
- Supports.

▪ Parental Capabilities:

- Supervision of children,
- Mental health,
- Informal supports,
- Disciplinary practices,
- Physical health,
- Developmental and enrichment activities, and
- Use of drugs or alcohol.

▪ Family Safety:

- Physical abuse,
- Neglect of a child,
- Sexual abuse,
- Domestic violence, or
- Emotional abuse.

▪ Family Interactions:

- Bonding with child or children,
- Expectations of children,
- Family interaction planning,
- Relationship between parents or caregivers,
- Mutual support within the family, and
- Concurrent planning.

NOTE: A written *Family Interaction Plan*, tailored to meet the safety needs of the family is developed and/or reassessed during a family team meeting involving a child placed out of the home to assure family interaction begins as soon as possible after removal from parental custody.

▪ Home Environment

- Housing stability,
- Food and nutrition,
- Transportation,
- Safety in community,
- Financial management,
- Learning environment,
- Habitability of housing,
- Personal hygiene, and
- Income and employment.

- **Other**. Additional issues or concerns about the child or family.

  NOTE: Discuss concurrent planning and permanency goals, any interstate compact issues, child and family cultural factors, language barriers, or if the Indian Child Welfare Act applies.

Complete the family functioning domain section of the FTDM family plan by working through each domain category. Consider the child and family's strengths and needs in the various domain areas as you have discussions during the family team meeting. Fill in the narrative "strengths" and "needs" section of each applicable domain. Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.

Establish a goal for each applicable domain area where a need is identified. It is critical that goals be developed in partnership with the family. Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.

After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible,
  - What do they agree to do, and
  - By when.
- Document the date for when the goal was completed or modified.

Crisis Plan. Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

Signatures and Notifications. Enter the name of invited team members, including their role, contact information, and check whether or not they attended the family team meeting.

Foster Care and/or Subsidized Adoption Information Exchange, Report S472N111-01

Purpose

Report S472N111-01, *Foster Care and/or Subsidized Adoption Information Exchange*, provides IV-E workers information that is needed to determine IV-E and Medicaid eligibility for children in foster care and adoption assistance programs.

Source

The FACS system generates this report nightly.

Completion

The FACS system automatically generates this form on foster care and adoption subsidy cases when:

- There is a start date recorded on FACS (labeled as "new placement" on the report).
- There is an end date recorded on FACS (labeled as "exit placement" on the report). (A move from one placement to another generates two reports.)
- The FACS case is transferred to a new service worker.

The IV-E worker examines the report to determine whether the change affects IV-E or Medicaid eligibility (or if additional information is needed).

Distribution

If there is an open Medicaid case with an FBU of 19, the report is issued to the IV-E worker responsible for that case. If there is no open case with a 19 FBU, the report is issued to worker number CM00 in the office where the service worker is located.

Exception: For PMIC placements, the form is generated to the IM unit in the county where the facility is.

File the report in the IV-E case record.

Data

Data reported includes:

- Identification of the workers and the reason for the report.
- Information about the child.
- Information about the child's parents.
- Information about the child's placement.

NOTE: Do not use the PLACEMENT IV-E field or the SERVICE IV-E field to evaluate IV-E eligibility.

Foster Child Behavioral Assessment, Form 470-4401 or 470-4401(S)

Purpose

The *Foster Child Behavioral Assessment* checklist serves two purposes.

- It may be used in the development of the case plan as a tool to identify the needs of the child. Every behavioral need of a foster child identified in this tool should be outlined when completing the case plan, along with the corresponding actions and responsibilities of the resource family.
- Since this tool identifies need and responsibilities, it is also the tool used to determine level of care and corresponding foster care payment.

Source

Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.

Print the Spanish version of this form from the manual or SharePoint.

Completion

Complete the *Foster Child Behavioral Assessment*:

- Within the first 30 days of a child's initial entry into foster care.
- Whenever the child's behavior changes significantly.
- When the child's placement changes.
- After termination of parental rights, in preparation for negotiating an adoption subsidy or presubsidy.
- Before a court hearing on guardianship subsidy. **Note**: The highest guardianship subsidy is limited to Level 2, basic rate plus level 2.

If a child comes out of group care or PMIC, the child's payment in the foster family home is the basic foster care maintenance rate. It is anticipated that the family team meeting, with the new foster parents participating, will be part of the discharge planning. Complete the *Foster Child Behavioral Assessment* within the first 30 days of placement.

If a child leaves foster family care and goes to shelter care and then returns to the same foster family home, the payment rate remains the same as the rate received by the foster family before the child goes to shelter care. Complete an assessment within 30 days of placement with a new foster family.

To authorize payment to the resource family at a higher level than the basic rate, this form shall be signed by the worker and the worker's supervisor.

After supervisory approval, the difficulty of care payments shall begin the first day of the month **following** the month in which the form was completed. Do not enter the new assessment rate into FACS until the supervisor has signed off and approved the assessment and rate.

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

Distribution

Keep the original form in the child's case file. Give a copy to the resource family upon the family's request.

Data

When completing the checklist, use all available information about the child for a thorough assessment of the child. This may include evaluations, school and provider reports, and home studies, as well as input from parents and the resource family.

Check only behavior that is severe enough to be outside the norm for a child of the same age. Do not check behavior that is typical for a child that age (e.g., "temper tantrums" for a 2-year-old).

In order to have a valid assessment, check each item that applies in **every** category ("minimal" and "moderate" and "intensive").

The template calculates the basic rate once the child's birth date is entered, and automatically calculates the level of care and the total daily rate. The form is designed so that checking all the applicable boxes will result in the proper calculation for the behaviors.

See 18-D(2), *Maintenance Payment*.

ICPC Report on Child's Placement Status (ICPC 100B), Form 470-0788

Purpose

Form 470-0788 (ICPC 100B) is used to communicate between the placer, the supervising agency, and the respective compact administrators regarding the status of a placement requested under the Interstate Compact on the Placement of Children. It is a national form, known as the ICPC 100B.

Source

Form 470-0788 (ICPC 100B) is available as a template in SharePoint under Employee Manual/Forms. Supplies of the form may also be printed from the manual or SharePoint.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The person supervising the placement or causing the child to be placed completes this form each time:

- A placement is made.
- A placement is changed.
- An approved placement is canceled.
- A placement is terminated.
- A case is closed.
- There is a change of address or status of the placement (e.g., from foster care to adoption).

The Department worker is responsible for preparing the form for all children in the Department's custody or guardianship who are placed out of state and for all children placed into Iowa for whom the Department has assumed supervision under the compact.

When courts, probation officers, or private agencies have placed a child in another state or accepted supervision of a child from another state, their staff are responsible for preparing the form.

When there is a change of purpose in an existing placement, e.g., from foster care to adoption, form 470-0781 (ICPC 100A) may be required at the request of the receiving state.

Distribution

Email form 470-0788 (ICPC 100B) to the ICPC service area liaison. The liaison sends to the ICPC office who forwards to the receiving state.

Data

Section I – Identifying Information

Enter the full legal name and birthdate of the child for whom this placement information is being reported.

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-012131

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

Enter the names of the legal parents as on form 470-0781 (ICPC 100A). Enter the name of the resource, the address, and type of care. Enter the same type of care that was chosen on form 470-0781 (ICPC 100A) (e.g., adoptive home, foster family home, group home care). Enter the relationship for relative placements.

Section II – Placement Status

To confirm the initial placement, check the box that applies. Enter the exact date the child was placed in the receiving state.

If some aspect of the placement changes while the child remains in the receiving state, complete another ICPC 100B. Check the "Placement Change" box and indicate the exact effective date of the change.

If the child moves from one placement resource to another, enter the updated placement information. For example, if a child leaves the parents' home and is placed in a residential treatment center, complete the facility's name and address and indicate the new "Type of Care."

Subsequent ICPC 100B forms will list the new placement resource under "Identifying Information." Any additional moves to place the child within the receiving state will be reflected in this same manner.

If only the name (e.g., mother remarries) or address (original placement resource moves) changes, check and complete only those items that apply.

Section III – Compact Placement Termination

Check the boxes that apply:

- *Adoption Finalized*: If an ICPC adoptive placement has been finalized (consummated), check that box and the appropriate box for the state in which finalization occurred, "In Sending State" or "In Receiving State." Attach the final adoption decree.
- *Child Reached Majority/Legally Emancipated*: Check this box if the child has reached majority age and has simultaneously ceased to be the responsibility of the sending agency or if the child has become emancipated through legal action such as marriage or court decision.
- *Legal Custody Returned to Parent(s)*: Check this box when the child's legal custody or guardianship is returned to the parent with the concurrence of the receiving state. Attach the court order transferring custody to the parents to form 470-0788 (ICPC 100B).
- *Legal Custody Given to Relative*: Check this box when the child's legal custody or guardianship is awarded to relatives (other than parents) with the concurrence of the receiving state. Attach the court order transferring custody to the relative to form 470-0788 (ICPC 100B).

AMERICAN OVERSIGHT

Employee Manual 18-Appendix.pdf <extracted> for Printed Item: 375 (Attachment 2 of 3)

- *Legal Custody Given to Other*: Check this box when the child's legal custody or guardianship is other (other than parents or relatives) with the concurrence of the receiving state. Enter the name and relationship to the child. Attach the court order transferring custody to the other to form 470-0788 (ICPC 100B).
- *Treatment Completed*: Check this item when the placement resource has been providing a specific treatment-oriented service; that service has been completed; and the child is, therefore, being discharged from the facility (e.g., residential treatment center). This box may also be checked if the child was placed through Article VI of the Compact.
- *Sending State's Jurisdiction Terminated with the Concurrence of the Receiving State*: Check this box when the jurisdiction of the sending state has ended for some reason other than the transfer of custody to parents or relatives with the concurrence of the receiving state's supervising agency or court.

  For example, if formal legal custody or guardianship is not going to be addressed but both states agree that supervision is no longer required or if both states agree to transfer jurisdiction to the receiving state.

  If the sending state's jurisdiction is terminated without the concurrence of the receiving state (including custody or guardianship transfer), the decision was made unilaterally and that box should be checked.
- *Unilateral Termination*: Check this box when the interstate agreement has been terminated unilaterally, whether by the sending or receiving state. A unilateral termination is one in which one state ends the interstate placement agreement without the concurrence of the receiving state.
- *Child Returned to Sending State*: Check this box when the child returns to the state the child was placed from. This may be due to a disruption in placement.
- *Child Moved to Another State*: Check this box when the child moves to a state other than the sending state.
- *Proposed Placement Request Withdrawn*: If you have submitted form ICPC 100A to request placement approval and have decided not to explore that resource further, check this box, list the "Name of the Proposed Placement Resource," and date of your decision to terminate the compact.

  Check this box only when no action has yet been taken on form 470-0781 (ICPC 100A). If you are withdrawing more than one request, submit a separate form on each and list each respective "Placement Resource."
- *Approved Resource Will Not Be Used for Placement*: Check this box when you have received an approved form 470-0781 (ICPC 100A) but have decided not to place the child with that resource. List the name of the "Approved Placement" and date of your decision to terminate the compact.

Date of Termination: Enter the exact date of the activity that ended the Compact Placement Agreement.

Section IV – Signatures

If a private person or local agency is completing the form, have a designated person sign, under "Person/Agency/Supplying Information," identify the agency, and date the signature.

ICPC Request (ICPC 100A), Form 470-0781

Purpose

Form 470-0781 (ICPC 100A) is the sending agency's formal written notice to the receiving state of its intention to make an interstate placement. It requests a finding as to whether the placement would be contrary to the interests of the child. With most placements, it is also a formal request for a home study.

Following review by the receiving state, it is the official notice of the receiving state's decision. A favorable finding means that the placement can be made in conformity with the compact. An unfavorable finding means that the placement would be unlawful.

Form 470-0781 (ICPC 100A) must accompany all requests for placement to which the compact is applicable. It must be favorably acted upon by the receiving state before any compact placement is made.

Source

Form 470-0781 (ICPC 100A) is available as a template in SharePoint under Employee Manual/Forms.

Completion

Complete one form per child or per sibling if the action applies to siblings at the same time.

The service worker, private agency, court, or any person placing the child may complete this form. It is prepared when a request is being made to place a child in another state.

Distribution

Distribute as follows:

- The sending agency/Iowa ICPC service area liaison uploads the completed 100A into the National Electronic Interstate Compact Enterprise (NEICE) and electronically sends to the sending state deputy compact administrator.
- The deputy compact administrator reviews, signs, and sends to the receiving state's identified administrator.
- The receiving agency administrator completes Section IV of the form and returns to the sending state ICPC office.
- The sending state administrator sends via NEICE to the sending agency.

Data

In the first two blocks, enter the name and address of the ICPC administrator (or deputy) to whom the request is being forwarded (TO) and the name and address of the ICPC administrator (or deputy) whose state is submitting the request (FROM). If information for the receiving state is unknown, enter only the name of the state.

Section I – Identifying Data

Enter the full legal name, social security number, Indian Child Welfare Act (ICWA) eligibility, IV-E eligibility, sex, gender, date of birth, and ethnic group of the child for whom this placement is proposed. If the child is known by a nickname, place it in parenthesis beside the legal name.

NOTE: An "Indian child" means any unmarried person who is under age 18 and is either:

- A member of an Indian tribe or
- Eligible for membership in an Indian tribe and is the biological child of a member of an Indian tribe.

Enter the names of the legal parents, usually the birth parents. When an adoption is finalized, the adoptive parents are the legal parents. If the parent is deceased, enter "deceased" after the parent's name.

If parental rights are voluntarily relinquished or terminated by the court, indicate in parenthesis beside the name. If you prefer to withhold the name, simply enter the status of the parent's rights.

Enter the complete name, address, and telephone number of the agency or person who is responsible for planning for the child and who is financially responsible for the child. In most cases, these two items will be the same (the sending agency). Email addresses are optional.

Section II – Placement Information

Types of Care Requested. Check the boxes designating the following:

- *Public Placement*: Public placement means a placement processed by a public child welfare agency where the state or local agency, or the court has authority to make the placement.
- *Private Placement*: Private placement means a placement made by a parent or a private or independent agency or representative not acting as an agent of the state (e.g., private adoption) or, in the case of a private residential treatment placement, where a parent or guardian is making the placement (e.g., private Residential Treatment Facility (RTF)/Residential Treatment Center (RTC) placement, etc.).
- *Subsidy*: Check the box for public foster care or adoption to denote IV-E federal, non-IV-E state or local, or none for no financial support. Select pending if not yet determined.
- *Adoptive Home*: Adoptive home refers to both agency and private or independent adoptive placement before finalization of an adoption. This may refer to an initial placement with a family where adoption is the intention or it may refer to the movement of an adoptive family from state A to state B following placement.

AMERICAN OVERSIGHT

If this is a request for private or independent adoption, you are required to also complete the fields for the names, address, social security numbers, and telephone number for the prospective adoptive resource. Indicate if it is a federally-funded adoption subsidy (IV-E) or a state- or local-funded subsidy (non IV-E), pending (if not yet determined), or none.

- *Finalizing in*: Check one box to indicate the state in which the adoption will be finalized if known, otherwise mark pending.
- *Foster Family Home*: A foster family home is a facility providing care and guidance for a child or children not related to the caretaker for regular 24-hour care, or a certified kinship care home. A family foster home may not operate without a license or a certificate as required by the laws of the receiving state.
- *Group Home Care*: A resource which is licensed or approved as a group home and which provides substitute care for a fee; usually a modified family-type setting which serves more children than a foster home but fewer than an institution.
- *Child-Caring Institution*: A group care facility that is licensed or approved to provide custodial care to a larger number of children than a foster home or group home.
- *Residential Treatment Center*: A group care facility that provides a specific treatment program outside the realm of a medical hospital, psychiatric hospital, or institution for children with an intellectual disability (e.g., a residential program for the treatment of alcohol or drug abuse. The receiving state is not obligated to supervise this type of placement made by the sending state.
- *Parent*: A biological or adoptive parent or legal guardian as determined by applicable state law and who is responsible for the care, custody, and control of a child or upon whom there is legal duty for such care.
- *Institutional Care – Article VI Adjudicated Delinquent*: A group care facility for adjudicated delinquents whose proposed placement is according to Article VI of the ICPC. These facilities may include group homes and residential treatment centers and may serve non-delinquents as well.
- *Relative (Not Parent) Relationship*: Specify relationship, such as maternal aunt, paternal grandparents, brother, etc.
- *Other*: Specify a type of care not already listed, such as:
  - Nonrelative free home (an unrelated family that does not require foster home licensure in the receiving state and does not need or want foster care payments)
  - Independent living arrangement (an older teenager who is still under the jurisdiction of an agency or court but is capable of independent living without the supervision of a foster home or group home)

- Maternity home
- Extended foster care (youth aged 18–21 years old)

Current Legal Status of Child. Check the appropriate box.

- *Sending Agency Custody/Guardianship*: The child is in the full legal custody or guardianship (depending on the state's terminology) of a public agency. For example, a public agency may be social services, youth corrections, probation, parole, or a tribe. If allowed by state law, the sending agency may also be a licensed private child placement agency, an adoption agency, or a birth mother.
- *Parent/Relative Custody/Guardianship*: The child is not under the jurisdiction of either an agency or the court but is the full legal responsibility of a parent or relative. This choice is most likely to be marked when a parent, relative or guardian wishes to place a child in one of the types of care listed.
- *Court Jurisdiction Only*: The court has an open abuse, neglect, or dependency case that establishes court jurisdiction with the authority to supervise or remove and place the child for whom the court has not taken guardianship or legal custody.
- *Protective Supervision*: A legal status created by court order under which the child is permitted to remain in the child's home or is placed with a relative or other suitable person and the court, the Department, or another agency designated by the court provides supervision and assistance.
- *Parental Rights Terminated – Right to Place for Adoption*: The sending agency has accepted a voluntary relinquishment of parental rights or has completed court action terminating parental rights and now holds complete jurisdiction over the child with the right to place for adoption.
- *Unaccompanied Refugee Minor*: This form is not used to report the initial placement into the United States but to request placement and services in a second state after a U.S. agency or court has been granted full legal responsibility (custody or guardianship). Check this box only if that is the case.

  Also mark the "Sending Agency Custody/Guardianship" box. If this is an unaccompanied refugee minor whose status warrants the ICPC 100A specific to those children (not the legal responsibility of an U.S. agency or court), do not use this form.
- *Other*: Legal status is not otherwise listed (e.g., legal action, such as a petition for custody or guardianship or to terminate parental rights, is pending).

  For example, the child is the responsibility of the sending agency under a voluntary agreement with the parent or legally responsible relative and no court action has been taken or is pending to alter the family member's legal rights over the child.

Name of Person(s) or Facility Child is to be Placed with. Enter the name, address, and telephone number of the agency, facility, or individuals where the child will be placed. These entries are required.

Name(s) of Prospective Adoptive or Foster Resource. If placement is with an agency (e.g., adoption, foster care, etc.) other than a residential treatment facility (RTF), provide the foster or adoptive resource where the child will reside.

Enter the name, address, social security number, and telephone number of the individual with whom the child will be residing if it differs from the information in the section "Name of Person(s) or Facility Child is to be Placed with."

Section III – Services Requested

Initial Report Requested. If the proposed placement is not for a group care placement and a current home study has not yet been received, check the box for the appropriate type of home study needed based on the type of care indicated in Section II.

Supervisory Services Requested. Check one of the following boxes to indicate how supervisory services are to be conducted:

- *Request Receiving State to Arrange Supervision*: Check this box if the sending agency cannot supervise and does not have a contractual or other agreement with a pre-determined agency to provide these services. Usually the public social service agency will be asked to provide supervision following an approved home study and subsequent placement.
- *Another Agency Agreed to Supervise*: Check this box if the sending agency already has received the formal agreement of a pre-determined supervisory agency. This choice is most likely to be checked in agency adoptive placements where an agency in the receiving state already has provided an adoptive home study and will be providing ongoing services to the adoptive family.

  Do not check this item because you know which county office of the public agency will receive this referral and may have discussed the case over the telephone. That does not constitute an agreement to supervise.
- *Sending Agency to Supervise*: Check this box if it is logistically feasible, it is the best-case plan, and the receiving state has granted the sending agency permission (which may or may not include licensure) to provide services in its state.
- *Other*: Check this box if requesting supervision for extended foster care youth (defined as youth aged 18–21 years).

Supervisory Reports Requested. Complete even though placement may not be a certainty at this time. Indicate how frequently you wish to receive progress reports. Standard timeframes are semi-annually, quarterly, monthly, or other. Check "other" when you wish to receive reports in a timeframe not listed.

Name and Address of Supervising Agency in Receiving State. If you know the name and address of the supervising agency, enter that information onto the line indicated. If not known by the sending agency, that information should be completed by the receiving state's compact office following receipt of a recommendation indicating that placement may be made.

Enclosed. Check which of the following items are enclosed:

- *Child's Social History*: Should accompany the majority of referrals; includes the pre-placement summary on adoption referrals and can be written with non-identifying information, if appropriate and preferred.
- *Home Study of Placement Resource*: Attach a current home study if one is not being requested; most likely to be checked if you already have an approved home study or the child is relocating with a placement resource and the home study is enclosed.
- *Court Order*: All applicable court documents should be enclosed (e.g., custody or guardianship orders, surrenders, orders terminating parental rights, and orders requesting a home study for the court).
- *ICWA Enclosure*: Obtain a letter from the child's tribe showing that the child is a member or is eligible for membership.
- *Financial/Medical Plan*: Attach the plan of how the proposed placement will be funded and how the children's medical needs will be covered.
- *IV-E Eligibility Documentation*: Attach a copy of the determination of IV-E eligibility.
- *Other Enclosures*: Indicates other pertinent materials, such as psychological evaluations, permanency plan, medical reports, school reports, birth certificates, and social security cards. It is not necessary to list them on the form.

Signature of Sending Agency or Person. The form should be signed and dated by anyone outside of the compact office who is completing the form as the sending agency. This includes a person with authority in the county social services agency, private agency, or court and any private individual or family member who is legally responsible for the child (as indicated in Section I and Section II, Legal Status).

Signature of Sending State Compact Administrator, Deputy or Alternate. Pursuant to Article III(d) of ICPC.

If the regulations of the sending state provide for transmittal of the form through the sending state's compact office, the compact administrator, deputy, or alternative in the sending state must sign and date the form. This is almost always the case.

Next Steps, Form 470-5592

Purpose

Form 470-5592 is an optional resource for working with families to document agreements or activities that fall outside of the scope of a *Safety Plan*. The *Next Steps* can be used whether or not a *Safety Plan* is required.

Families are often eager to get started on resolving issues identified during a protective assessment or service case. For example, parents may voice a commitment to making a mental health appointment for themselves or their child, seeking child care, cleaning their house, etc. The *Next Steps* should be simple – who will do what by when. Unlike the *Safety Plan*, the *Next Steps* can be a promissory note – a tool for creating a reminder of commitments that have been made for the good of the children and the family.

Never use the *Next Steps* to make temporary or voluntary changes in child custody. The *Next Steps* does not replace the *Safety Plan*, which must be completed if a child is determined to be safe with a plan. The *Next Steps* is not binding, but a way to engage families regarding commitments they or others (including the Department) make to help preserve and strengthen family connections.

Source

Print this form from the manual or SharePoint under Employee Manual/Forms.

This form is also printed as a three-part carbonless set. Order supplies from Iowa Prison Industries in Anamosa.

Completion

When deemed useful, the child protection worker or social work case manager completes the *Next Steps* with the family, documenting who has agreed to an action step, what that action step is, and when it will be completed.

Use the *Next Steps* during the course of an assessment or anytime throughout the Life of the Case. Only those who are agreeing to an action step need to be present and sign the *Next Steps*. The *Next Steps* can be created in the family's home, at a meeting involving the family, or in other circumstances where action steps are identified.

Distribution

If a printed form is used in place of the three-part carbonless form, a picture of the *Next Steps* must be taken with a state-issued phone or camera.

Leave a copy or the original of the completed form with the family. Keep a copy for the Department's records by uploading the copy or photo of the completed form into File Manager (located within the JARVIS-STAR assessment module) or in the service case file.

Data

Family name: Document the last name of the family. The child protection worker may want to include the name of the child victim. The social work case manager may want to include the name of the youngest child.

Request for a One Year Foster Family License, Form 470-5124

Purpose

Form 470-5124 is used to document the request for approval or denial of one-year licensure for foster families.

Source

Complete this form using the template in SharePoint under Employee Manual/Forms.

Completion

The Department licensing worker completes this form upon receipt of the licensing renewal packet for foster families who have completed their first two years of licensure. Use this form only for foster families whose performance in the previous licensing year indicates the need for a one-year license.

Mark the reasons for the request as indicated on the form. *Other reasons* can be for:

- Continuing lack of compliance with adherence to foster care licensing rules, foster care placement contract, or foster family handbook;
- Behavior that could have negative impact on foster children, such as alcohol or substance abuse;
- Health or mental health concern.

The occurrence of one or more of the reasons does not require a recommendation of a one-year license. Take into consideration the circumstances, foster family's history, willingness to take responsibility and made adjustments, and other relevant factors when deciding whether to make the request.

Also document voluntary requests by the foster family in this section. If you need more space to write the information under *Other reasons*, use another sheet of paper and attach it to this form.

Distribution

Attach the home study, corrective action plan, letter to the foster parents, and other supporting documents or reports to this form. Send the completed form with attachments to the Foster Family Program Manager in Central Office.

The Adult, Children and Family Services Division Administrator reviews the request and indicates on the form approval or denial and an effective date.

The division administrator signs the form. The foster family program manager returns a copy to the Department licensing worker. The Department licensing worker then sends the foster family the *Notice of Action* and enters the foster home renewal date in FACS. If the division administrator approves the request for a one-year license, the Department licensing worker notifies the foster family program manager who completes the override in FACS.

Establish a goal for each applicable area where a need is identified. It is critical that goals be developed in partnership with the youth. Goal statements should be strength-based and focused on achieving the outcomes essential for the youth.

After reviewing the strengths, needs, and goals for each area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

- In each area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:

Source

Complete this form using the template available in SharePoint under Employee Manual/Forms.

Supplies of this form may also be printed from the manual or SharePoint as needed.

Completion

The YTDM meeting facilitator develops the youth's dream path, in collaboration with the youth, after a youth transition decision-making meeting is held.

Distribution

The facilitator gives a copy of the completed form to the identified team members. Keep the original form in the youth's case file.

Data

Case Information. Enter the following information:

- Youth name
- Parent/caregiver name
- Parent/caregiver/noncustodial names
- Date of the YTDM meeting
- Date of the next YTDM meeting
- Facilitator name and approval number
- Next court hearing date and time
- Type of hearing

Desired Outcome of this Meeting. Use the Dream Path as a tool for the stabilization and action planning parts of the YTDM meeting.

The Dream Path includes the stabilization phase, which identifies the five Fostering Connection areas that need to be addressed and stabilized in the first column.

The five Fostering Connections areas are:

- Education
- Employment
- Health
- Housing
- Supportive Relationships

Complete the stabilization section of the YTDM youth plan by working through each of the five fostering connections categories from left to right. The far left column is available to write the current or 'Now" situation for the youth. Under the column, "What will happen," establish a goal for each applicable area where a need is identified. It is critical that goals be developed in partnership with the youth. Goal statements should be strength-based and focused on achieving the outcomes essential for the youth.

After reviewing the strengths, needs, and goals for each area, identify the "Who will help me" (services or supports that may be helpful) to achieving the goals.

In each category list the action steps needed to achieve the goal. The steps should clearly identify:

- If youth is in agreement;
- Who is responsible;
- What do they agree to do; and
- By when, which is documented under either the 0 to 3 months column or the 4 to 9 months column.

Crisis Plan (Plan B). Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

To move into the Dream Path phase. Each YTDM meeting begins with a review of the five Fostering Connections areas to determine if changes or adaptations need to be made. Once the youth has achieved stability, the longer range planning can begin. Review the 'Dream' written in the 'cloud' on the far right of the document and determine the steps to head in that direction. Develop action plans with a six to nine months' time frame.

Each additional meeting of the team can look ahead further. The youth will be fully listened to and have input every step of the way. If there is disagreement, take the time to discuss the issue and resolve it before moving forward.

Each meeting covers strengths of the youth and a review of the previous assignments. Establish a new Crisis Plan (Plan B) at each meeting as well. Completion of the YTDM meeting process is determined by the youth and the team. It can continue informally after the youth ages out of the system, if desired.

HHS Government Relations Newsletter

March 2024

Government Relations Updates

It's hard to believe that we are in the 11th week of Session!

Post Funnel

March 15th was the second and last funnel deadline for the 2024 session. This means that bills needed to pass out of one chamber and voted out of committee in the other chamber to remain alive. There are some exceptions. Bills related to taxes and spending are not subject to funnel deadlines. Leadership bills and bills that were placed in the unfinished business calendar are still eligible for consideration. Legislators can also resurrect dead bills using procedural tools such as adding it to another bill.

The Revenue Estimating Conference (REC) met on March 15th. The REC is responsible for estimating the state's revenues which will help the legislature craft its budget. The legislature will also focus on the budget and taxes in the final weeks of session.

100th Day of Session

April 16th is the 100th day of session and the target date for session to wrap up. Legislators will not be paid their per diem stipends for expenses after April 16th, even if session runs past that date. In the 2023 session, legislators went six days past their target date.

NOTEWORTHY

- 2024 is an election year, so it may have an impact on how soon legislators adjourn.
- All 100 Iowa House seats are up for election, as well as 25 of the 50 Iowa Senate seats.
- A reminder, it's not too early to be thinking of those Annual Reports due from your division! June is a huge month for Legislative Reports being due! All annual reports are due no later than June 14th!

Bills of Interest

Bills That Survived Funnel

- **HF 2612 AEA.** Changes how Area Education Agencies are funded and operated.
- **HF 2509/SF 2354 Behavioral Health Service System.** Makes changes to behavioral health and disability services delivery and funding.
- **SF 2385/HF 2574 Boards and Commissions.** SF2385 proposes the merging or cutting of 111 of Iowa's 256 existing boards, while HF2574 proposes to cut 49 boards and commissions. Both bills were placed on "unfinished business" calendars and are still eligible for consideration.
- **HF 2404 HHS Omnibus Prefile.** Makes changes to HHS processes.

HHS Government Relations Newsletter

March 2024

Government Relations Updates

It's hard to believe that we are in the 11th week of Session!

Post Funnel

March 15th was the second and last funnel deadline for the 2024 session. This means that bills needed to pass out of one chamber and voted out of committee in the other chamber to remain alive. There are some exceptions. Bills related to taxes and spending are not subject to funnel deadlines. Leadership bills and bills that were placed in the unfinished business calendar are still eligible for consideration. Legislators can also resurrect dead bills using procedural tools such as adding it to another bill.

The Revenue Estimating Conference (REC) met on March 15th. The REC is responsible for estimating the state's revenues which will help the legislature craft its budget. The legislature will also focus on the budget and taxes in the final weeks of session.

100th Day of Session

April 16th is the 100th day of session and the target date for session to wrap up. Legislators will not be paid their per diem stipends for expenses after April 16th, even if session runs past that date. In the 2023 session, legislators went six days past their target date.

NOTEWORTHY

- 2024 is an election year, so it may have an impact on how soon legislators adjourn.
- All 100 Iowa House seats are up for election, as well as 25 of the 50 Iowa Senate seats.
- A reminder, it's not too early to be thinking of those Annual Reports due from your division! June is a huge month for Legislative Reports being due! All annual reports are due no later than June 14th!

March 2024

Government Relations Updates

It's hard to believe that we are in the 11th week of Session!

Post Funnel

March 15th was the second and last funnel deadline for the 2024 session. This means that bills needed to pass out of one chamber and voted out of committee in the other chamber to remain alive. There are some exceptions. Bills related to taxes and spending are not subject to funnel deadlines. Leadership bills and bills that were placed in the unfinished business calendar are still eligible for consideration. Legislators can also resurrect dead bills using procedural tools such as adding it to another bill.

The Revenue Estimating Conference (REC) met on March 15th. The REC is responsible for estimating the state's revenues which will help the legislature craft its budget. The legislature will also focus on the budget and taxes in the final weeks of session.

100th Day of Session

April 16th is the 100th day of session and the target date for session to wrap up. Legislators will not be paid their per diem stipends for expenses after April 16th, even if session runs past that date. In the 2023 session, legislators went six days past their target date.

NOTEWORTHY

- 2024 is an election year, so it may have an impact on how soon legislators adjourn.
- All 100 Iowa House seats are up for election, as well as 25 of the 50 Iowa Senate seats.
- A reminder, it's not too early to be thinking of those Annual Reports due from your division! June is a huge month for Legislative Reports being due! All annual reports are due no later than June 14th!

Iowa lawmakers vote to eliminate dozens of boards and commissions. See which ones will go:

Stephen Gruber-Miller

Iowa will eliminate dozens of state boards and commissions under a bill headed to Gov. Kim Reynolds' desk for her signature.

The legislation was a priority for Reynolds, who proposed the mergers as part of her efforts to further shrink state government, following a massive government reorganization plan she signed into law last year that reduced cabinet-level state government agencies from 37 to 16.

The Iowa Senate voted 32-14 Friday along party lines to pass Senate File 2385, sending it to Reynolds after House lawmakers passed the measure Wednesday.

"Government works for the people, not the other way around," Reynolds said in a statement. "We should be consistently reviewing and improving the quality of services we provide. The bill headed to my desk today is a continuation of that work. It eliminates unnecessary and redundant boards and commissions, returning accountability to the people of Iowa through their elected representatives."

AMERICAN OVERSIGHT

House and Senate Republicans had been at odds over how to handle Reynolds' original proposal, which would have consolidated 111 of Iowa's 256 boards and commissions, shrinking the number by 43%.

House Republicans initially proposed a narrower bill that would have eliminated about 49 boards and commissions that they described as defunct, while the Senate used Reynolds' bill as its starting point.

The final bill eliminates 67 boards and commissions, merges a number of others and reduces the membership of several boards.

The bill would also require every remaining board and commission to be reviewed once every four years to determine whether it should continue to exist. That process would be carried out by a new committee: the State Government Efficiency Review Committee.

AMERICAN OVERSIGHT

Democrats said the bill goes too far and diminishes Iowans' voices in state government.

"We should welcome Iowans' voices as checks and balances," said Sen. Janice Weiner, D-Iowa City. "We should welcome their expertise and input and not diminish it. This could have been a really positive process that we need. Instead, it ends up consolidating more power in the executive."

Reynolds' proposal is based on recommendations from a review committee established as part of last year's government reorganization.

The bill requires governmental bodies, including boards and commissions, to offer hybrid, virtual or remote options for the public to participate.

It also removes the requirement that most boards meet at specific meeting times, or hold meetings at certain intervals, such as quarterly or monthly.

Reynolds also signed a law this month eliminating the requirement that mandates a balance of men and women on state and local boards and commissions. The gender balance rule will be repealed effective July 1.

Democrats oppose Iowa Civil Rights Commission changes

AMERICAN OVERSIGHT

Democrats in the House and Senate raised concerns about how the bill would change the Iowa Civil Rights Commission.

The bill places many of the duties of the commission —which hears cases alleging discrimination in housing, employment and other areas —under the Office of Civil Rights, which is overseen by a director appointed by Reynolds.

The bill would also reduce the commission's membership from seven to five. Its members are appointed by the governor.

The Iowa-Nebraska NAACP spoke out against the changes, urging lawmakers to leave the commission untouched.

Weiner said the bill will "dissolve the Iowa Civil Rights Commission in all but name."

"The Iowa Civil Rights Act vests authority in an independent commission removed from politics," she said. "This bill with this amendment will dismantle that authority and assign it to a single political appointee. It strips the commission of all meaningful authority and converts the commissioners into advisers to the director."

More: Iowa lawmakers weigh big changes to Civil Rights Commission in move to cut state boards

Another change would eliminate the commissions on the Status of African Americans, Asian and Pacific Islanders, Persons with Disabilities, the Status of Women, Native American Affairs and Latino Affairs and transfer those commissions' duties to the Human Rights Board, which would be reduced in size.

An analysis of the bill by Iowa's nonpartisan Legislative Services Agency provides a look at how Iowa's boards and commissions would change.

'Child care desert': In this state, parents pay one-third of their income on child care

Daniel de VisÂ

A new report says American families that pay for child care spend nearly one-fifth of their income on the service, and costs are rising.

The average household with child-care bills spends $325 a week, or 18.6% of its weekly income, according to an analysis by LendingTree, a personal finance site.

In Nevada, the costliest child care state, families spend 32.3% of their income, an average of $493 a week, for others to tend their children, the report says.

LendingTree released the analysis last month, drawing on Census data.

Child care expenses eat up more than one-fifth of parental income in eight other states, including Illinois, Louisiana and Texas, the report found.

AMERICAN OVERSIGHT

'It felt like a necessity'

Child care costs pushed Morgan Frey out of her Sparks, Nevada, home.

Frey, 31, was paying $245 a week on child care for her son, who is now 5. That was half of her take-home pay, from her job as a caregiver to seniors. In February 2023, poverty forced her and her son into a homeless shelter.

"It was really hard," she said. "And, honestly, the decision to keep him in school came down to knowing it was best for him. It felt like a necessity."

AMERICAN OVERSIGHT

Relief arrived the next month. The Children's Cabinet, a Nevada nonprofit, swept in to pick up Frey's child care costs. In June 2023, she and her son moved into a new home.

"I have enough money to put gas in the car, food on the table," she said.

Only now does Frey realize how stressed out she had become over child care bills.

"I'm able to be a more present parent," she said. "We play catch. We go outside and do things."

Several economic factors have pushed up costs and stretched supply in the child care industry, experts say.

One is inflation, which has raised prices in the past few years. Another is the pandemic, which shuttered thousands of child care centers. A third is the expiration of pandemic-era federal funding for child care centers last fall, a cutback observers liken to a "child care cliff."

AMERICAN OVERSIGHT

"There's so much that goes into proper child care, whether it's wages or rent or insurance or 500 other things," said Matt Schulz, chief credit analyst at LendingTree. "When the cost of everything is rising, it makes all the sense in the world that the cost of child care would, too."

A child care desert

Nevada, the costliest child care state, exemplifies the national problem and caregiving challenges particular to the state.

Child care options in Nevada are spread thin, because of population growth, a scarcity of providers, and a hospitality industry whose workers need child care at all hours.

"Along with being in the actual desert, it's full of what they call child care deserts, where there's simply not enough supply for all the demand that's out there," Schulz said of Nevada. "It stands to reason that any place that's grown so fast would have some issues with keeping up with demand."

The LendingTree analysis shows that the average child care client in Nevada pays roughly one-third of the $1,529 average weekly family income in the state.

New Jersey ranks second among the states in child care costs, at $442 a week, but that sum reflects only 19% of the average weekly family income in the Garden State, $2,325.

Montana ranks second in its share of parent income devoted to child care: 22.6%, or $372 a week from a family income of $1,643.

AMERICAN OVERSIGHT

Which state has the cheapest child care?

The cheapest child care state? Iowa, with an average weekly cost of $182, or 10.1% of the state's average weekly family income, $1,812.

Other recent reports sound a similar alarm on the spiraling costs of child care.

The 2024 Cost of Care Report from the caregiver site Care.com found that the average family spends 24% of household income on child care. The report draws from a November survey of 2,000 adults.

According to the federal Department of Health and Human Services, "affordable" child care means spending no more than 7% of household income on the service.

AMERICAN OVERSIGHT

"It certainly is the case that child care costs have gone up faster than inflation," said Elise Gould, a senior policy analyst at the Economic Policy Institute, a nonpartisan, left-leaning thinktank that has also studied child care costs in depth.

"What we discovered a few years ago is that child care is more expensive than rent for quite a few families. And that was pretty shocking."

A looming child care cliff

The federal government's pandemic-era Child Care Stabilization Program delivered $24 billion in aid to child care programs. Among other things, it covered wages and benefits, and rent and utilities, helping keep struggling programs afloat.

Those funds expired in September, setting the stage for programs to raise prices, shed staff or shut down.

Parents are reporting "higher costs, longer waitlists, daycare closures, and greater difficulty finding care than previous years," said Sean Lacey, general manager of child care at Care.com. "Daycare availability is shrinking, while demand continues to grow."

AMERICAN OVERSIGHT

The Care.com report found that weekly infant daycare cost an average of $321 for one child in 2023, up from $284 in 2022. Toddler daycare cost $293 a week, up from $268.

A 2023 report from the Annie E. Casey Foundation reached similarly dire conclusions. Care for a single child cost $10,600 in 2021, on average, the study found. That's one-tenth of the median income for a married couple and more than one-third of the income of a single parent.

A crippling choice between care and career

The crippling costs of child care force many parents, and especially mothers, into a difficult choice between care and career.

AMERICAN OVERSIGHT

According to the Casey Foundation report, 13% of children 5 and under lived in families in which someone quit a job, changed jobs or refused a job because of child care conflicts.

Women are several times more likely than men to suffer negative consequences in their employment from caregiving duties, the report said.

"No parent should be forced to choose between their family and their work, which, unfortunately, happens all too often," Lacey said.

Mothers often leave the job market rather than spend much of their salary on child care, financial experts said. That choice can unravel their lifetime career prospects.

"Sometimes it feels like you're working just to pay for that child care," said Catherine Valega, a certified financial planner in Boston.

Nonetheless, Valega urges her female clients to remain in the workforce.

"I'm just a big believer in staying in the market," she said. "I think it's important to keep up your skills, but I also think it's important for your own mental health."

Care.com offers some tips for parents to manage child care costs:

Find the best care for your budget

Care.com and the Economic Policy Institute offer calculators for child care costs by region. They can help you choose the right provider.

Looking to stash some cash? These places offer the highest interest rates and lowest fees.

Talk to your employer

Many firms offer family care benefits, including on-site daycare, child care subsidies, flexible spending accounts and backup child care.

Set aside pre-tax funds for child care

With a Dependent Care Account, you can divert up to $5,000 for caregiving expenses.

Take advantage of child care tax breaks

For those who qualify, the Child and Dependent Care Tax Credit covers up to $3,000 of expenses for one child, $6,000 for two or more children. The actual credit is a percentage of those expenses.

DES MOINES — It may have seemed many times that there was only one piece of legislation being considered by state lawmakers this year at the Iowa Capitol — an overhaul of Iowa area education agencies' funding and operations. But in fact hundreds of bills were introduced during the session that concluded this weekend.

Which bills were approved by the 2024 Session of the 90th General Assembly? Which failed?

All-night marathon caps Iowa Legislature's 2024 session. What's changing: AEAs, your taxes

Iowa lawmakers have dropped the final gavel on the 2024 legislative session, working overnight to adjourn a year marked by Republicans approving consequential bills on education, taxes and a range of other subjects.

The session officially ended at 4:23 a.m. Saturday —its 104th day —after both chambers passed a resolution to adjourn sine die, capping a marathon final

AMERICAN OVERSIGHT

few days as lawmakers passed a series of bills setting the state's $8.9 billion budget and addressing a final cluster of policy priorities.

Republicans, who control both the House and Senate, passed many of the proposals set out in Gov. Kim Reynolds' annual January address.

The most prominent, and controversial, was an overhaul of Iowa's Area Education Agencies that makes broad changes to how special education, media and other services are provided to K-12 districts and raises minimum teacher pay to $50,000 per year.

Republicans used the final budget of the year to cut an additional $32.5 million out of the AEAs' budget, using the bulk of the money to fund a new Division of Special Education in the Iowa Department of Education and to pay for higher wages for paraeducators in schools.

Lawmakers also shepherded through measures to implement a 3.8% flat tax next year, create a new crime of "illegal reentry" into the state by

AMERICAN OVERSIGHT

undocumented immigrants, enact language intended to protect religious freedom, consolidate dozens of state boards and commissions and allow teachers and other school staff to obtain a professional permit to carry guns at school.

"Big and bold ideas have always been our focus, and our caucus has never shied away from difficult or complex issues. This year was no different," Senate Majority Leader Jack Whitver, R-Grimes, said in prepared remarks. "This session was another tremendous success for Senate Republicans as we kept our promises to Iowans and focused on big reforms, bold changes and major tax relief."

Democrats, limited to minorities in both chambers, frequently sought to dilute Republican priorities while urging them to pursue policies raising wages and improving health care, among other issues.

"Everything House Democrats proposed is for everyday Iowans. I'm darn proud of that," said House Minority Leader Jennifer Konfrst, D-Windsor Heights. "I'm really proud of what we did this year. And we think it draws a very sharp contrast about who in this Legislature is fighting for Iowans and who's fighting for special interests."

Democrats pledged to take that message to the campaign trail this fall.

“Iowans will remember how Republicans chose to serve their governor rather than their constituents. They’ll remember how they slashed our Area Education Agencies and put special interests over Iowa’s children,” said

AMERICAN OVERSIGHT

Senate Minority Leader Pam Jochum, D-Dubuque. “And they will remember in November.”

Camaraderie and closed-door negotiations in session's final days

Lawmakers and staff found ways to keep themselves entertained during long hours of waiting in the final days before the session's end.

Legislative pages and doormen lounged around the entrance to the House, humming along to the song "Come and Get Your Love” being played through a phone while lawmakers huddled in closed-door meetings. Another page plucked tunes on a banjo on the Senate floor Friday afternoon.

On Thursday evening, when the Senate had moved after 10 p.m. to adjourn for the day, staff seated along the edge of the chamber quietly cheered.

AMERICAN OVERSIGHT

Retiring lawmakers drew praise and gratitude from their colleagues as they wrapped up their work.

"My very last tax committee meeting in my life!" Jochum exclaimed Thursday, on the verge of retiring after 30 years in the Iowa Legislature.

"Keep up the good work and always keep in mind that when we do anything we need to do it for the greatest good for the greatest number," Jochum told her fellow Ways and Means Committee members.

Sen. Dan Dawson, R-Council Bluffs, called it "an honor" to serve on the committee with her and declared that "no one else is going to beat you as a ranking member."

A few filled their downtime with some good-natured ribbing of their colleagues.

Rep. Hans Wilz, R-Ottumwa, turned the nameplate on Rep. Austin Harris' desk upside down Thursday night. A few hours later, Harris, R-Moulton, noticed the sign and flipped it back around.

Last-minute debate on AEA budget cuts and a casino moratorium keeps lawmakers through early Saturday

A series of eleventh-hour debates kept the Capitol lights on overnight and into early Saturday morning.

House Republicans suspended the chamber's rules just after midnight to vote on legislation preventing new casinos from being built in Iowa until 2029. But the Senate adjourned without passing the measure.

And throughout the night, both parties frequently broke for closed-door caucus meetings as key spending bills inched closer to agreement.

The final budget of the year, for standing appropriations, cuts $32.5 million out of the AEAs' budget. That includes a $7.5 million cut required by law, $10 million to fund the Division of Special Education and $14 million for pay

AMERICAN OVERSIGHT

increases for paraeducators and other school staff. The final $1 million returns to the state's general fund.

The budget also includes $2 million in new money for the Department of Public Safety to fund 12 positions "to address the rise in illegal immigration and related criminal conduct such as drug trafficking and human trafficking."

Lawmakers set $8.9 billion budget for Iowa's upcoming fiscal year

Much of the final week of the session was dedicated to final negotiations on the annual budget, which ended up at $8.9 billion for fiscal year 2025 and landed on Reynolds' desk by late Friday.

The spending marks a roughly 4.5% increase over last year's $8.5 billion budget. Still, the Republicans' budget spends only 92% of the state's overall available revenue.

Republicans have consistently budgeted less than the state takes in, leaving themselves room to continue annual discussions about cutting taxes. This year, that meant accelerating an existing series of gradual income tax cuts —a plan released by Republican tax writing chairs on Thursday and approved by both chambers Friday.

More: Iowa lawmakers vote to speed up 3.8% flat income tax, sending it to Gov. Kim Reynolds

Tucked into the budget bills were a 5% pay bump for judges and staff in the Iowa Judicial Branch, plus several policy priorities, including a ban on diversity, equity and inclusion operations in higher education, with exceptions for compliance with federal law and accreditation.

In a House committee Thursday debating the plan to cut taxes, lawmakers were offered a taste of the politics that are likely to await them as they head into election season this fall.

AMERICAN OVERSIGHT

"I would like to thank President Biden and this economy," said Rep. Dave Jacoby, D-Coralville. "Without that economy, we wouldn't be able to consider this bill today."

Rep. Bobby Kaufmann, R-Wilton —who served as an adviser to former President Donald Trump's Iowa caucus campaign —advanced the legislation while pledging to "make taxes great again."

State reorganizes mental health regions

By Winona Whitaker, Hometown Current

Apr. 21, 2024 11:02 am

Mae Hingtgen, chief executive officer of the East Central Mental Health Region, updates Iowa County Supervisors on the State's new mental health services plan. (Winona Whitaker/Hometown Current)

MARENGO — The State of Iowa is reorganizing its Mental Health Regions, tentatively moving Iowa and Johnson Counties out of the east and into the southeast.

AMERICAN OVERSIGHT

Mae Hingtgen, East Central Region chief executive officer, told Iowa County Supervisors last week that Iowa and Johnson County mental health representatives are lobbying to keep Iowa and Johnson Counties together and to keep them in the eastern district with Linn County.

The realignment bill, House File 2673, eliminates the current mental health regions June 30, 2025, Hingtgen said. Mental health services will be governed by several behavioral health districts with administrative services offices managing them.

ADVERTISING

Health and Human Services must have a final map of the new Districts by Aug. 1, 2024.

The proposed division splits Iowa and Johnson County from the counties they've been working with in East Central Region and moves them to the southeast Iowa group, said Hingtgen.

"That's not what we want."

To convince HHS to keep Iowa and Johnson Counties in the east, mental health officials have shown HHS the relationship between Iowa and Johnson Counties, Hingtgen said.

"We really need to show collaboration."

HHS looks at where people go for services, said Hingtgen. Officials have shown HHS that Iowa County residents go to Johnson County for services, so the two counties should stay together.

Because Johnson and Linn Counties coordinate in the northeast district, they should also stay together, Hingtgen said.

The ties between Iowa City and Cedar Rapids are unique in Iowa, said Hingtgen. Therefore Johnson and Linn Counties should stay together. She hopes the argument will be enough to keep the three counties together when HHS approves its final map.

HHS will release a map — or two or three — for public comment July 1, said Hingtgen. That leaves a month for comment before the final map is approved Aug. 1.

AMERICAN OVERSIGHT

“We are sill a region until next June,” said Hingtgen.

Between the time the map is approved and the time the new districts must be operational, the districts will be organizing. Administrative services organizations will be established for each district.

The administrative organizations can be private nonprofits or the current regions, said Hingtgen. East Central Region plans to submit a proposal to administer the new district, she said.

The administrative services organization will have an advisory council which will be different from the governing board the regions currently operate under, Hingtgen said.

Whether the new district have a 28E agreement with the counties it serves or whether it develops a 501c3, it will still have to have a board, she said.

“It’s pretty confusing.”

Iowa County Supervisor Chairman Kevin Heitshusen asked about the purpose of restructuring. Mental Health services were under county control, then they were under the control of fewer, larger regions. Now the State is giving control to seven larger districts.

“To what end?” Heitshusen asked. “I don’t get the whole point.”

Some regions have not developed the services they were supposed to, said Hingtgen. And they haven’t gotten down to the fund balances required by the State.

The mental health regions are supposed to spend their money for services, not maintain balances. The State implemented a gradual plan to lower account balances.

By the end of the last fiscal year, regions were supposed to have balances of less than 20% of their budgets. Some were in the mid 60s, said Hingtgen.

Regions are supposed to be at 5% by the end of this fiscal year. Unspent money is sent back to the State, and that practice will continue under the new structure.

AMERICAN OVERSIGHT

Iowa County Supervisor Abby Maas said that the State is trying to help regions that weren't performing well by putting counties that did perform well — such as Iowa County — with them.

"You're not strengthening them," said Heitshusen. "You're just weakening us."

Hingtgen said that some regions may not have performed as well because of geography or workforce or reimbursement rates. Counties aren't situated the same.

Maas said the southern district Iowa County is currently destined for won't have the workforce the East Central Region has.

"Your law enforcement agencies felt pretty strongly about staying [with the East Central counties]," Hingtgen said.

The State plan will also add substance use services. Right now it's illegal for the region to pay for substance abuse treatment, said Hingtgen.

Under the new districts, the administrative services organizations will be able to accept black grant money for treating substance abuse, she said.

5 **controls.**
6 1. *a.* All health care providers shall establish and

2 location of the health care provider.
3 (2) Prior to the provision of a scheduled health care
4 service, a health care provider shall inform a covered person
5 that the covered person may qualify for a deductible credit
6 if the covered person pays the discounted cash price for the
7 health care service and if the discounted cash price is below
8 the average allowed amount paid by the health carrier to
9 network providers for a comparable health care service. The
10 notice may be provided electronically, verbally, in writing, or

17 discounted cash price under paragraph "*b*".
18 *e.* A health carrier shall not enter into a contract with a
19 health care provider that prohibits the health care provider

30 *g.* A health care provider shall provide an individual with
31 an itemized list of all health care services provided to the
32 individual, a statement that the individual paid out-of-pocket

35 for payment for the health care services provided to the

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-012535

1 individual if the individual is a covered person.
2 2. Each health benefit plan shall disclose to the health
3 benefit plan's covered persons the average allowed amount for
4 each health care service that is covered under the covered
5 person's health benefit plan. If a health benefit plan fails
6 to disclose the average allowed amount for a health care
7 service, a covered person may substitute a benchmark selected
8 by the commissioner.
9 3. A covered person who elects to receive a covered health
10 care service at a discounted cash price that is below the
11 average allowed amount shall receive credit toward the covered
12 person's in-network cost-sharing as specified in the covered
13 person's health benefit plan, as if the health care service is
14 provided by an in-network health care provider.
15 4. A health benefit plan shall not discriminate in the

17 solely on the basis that the covered person was referred for
18 the health care service by an out-of-network health care
19 provider.
20 5. *a.* If a covered person elects to pay cash price for
21 a generic-brand covered prescription drug that results in a
22 lower cost than the average allowed amount for the name-brand

24 benefit plan, excluding any drug manufacturer's rebate or
25 other discount from the average allowed amount, the health
26 benefit plan shall apply any payments made by the covered
27 person for the generic-brand covered prescription drug
28 to the covered person's cost-sharing as specified in the
29 covered person's health benefit plan as if the covered person
30 purchased the generic-brand prescription drug from a network
31 pharmacy using the covered person's health benefit plan. The
32 health benefit plan shall credit half the difference in the
33 cash price for the generic-brand covered prescription drug
34 and the average allowed amount for the name-brand covered
35 prescription drug, excluding any drug manufacturer's rebate

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-012536

1 or other discount from the average allowed amount, toward
2 the covered person's cost-sharing for health care services
3 that are covered or that are considered formulary under the
4 covered person's health benefit plan. The health benefit
5 plan may credit half the difference in the cash price for
6 the generic-brand covered prescription drug and the average
7 allowed amount for the name-brand covered prescription drug,
8 excluding any drug manufacturer's rebate or other discount
9 from the average allowed amount, toward the covered person's
10 cost-sharing for health care services that are not covered
11 or that are considered nonformulary under the covered
12 person's health benefit plan. This paragraph shall not be
13 construed to restrict a health benefit plan from requiring a
14 preauthorization or other precertification normally required by
15 the health benefit plan.
16 *b.* A health benefit plan shall provide a downloadable or
17 interactive online form for a covered person to submit proof of
18 payment under paragraph *"a"*, and shall annually inform covered
19 persons of their options under this subsection.
20 6. Annually at enrollment or renewal, a health carrier shall
21 provide notice to covered persons via the health carrier's
22 health benefit plan materials and the health carrier's internet
23 site of the option, and the process, to receive a covered
24 health care service at a discounted cash price.
25 7. If a covered person pays a discounted cash price that is
26 above the average allowed amount, the health benefit plan shall
27 credit the covered person's cost-sharing an amount equal to
28 the lesser of the discounted cash price or the average allowed
29 amount.
30 8. *a.* If a health carrier denies a claim submitted by a
31 covered person pursuant to this chapter, the health carrier
32 shall notify the commissioner and provide evidence to support
33 the denial to the covered person and to the commissioner.
34 *b.* A covered person may appeal a claim denial pursuant to
35 chapter 514J.

1 9. *a.* A covered person shall have access to a program that
2 directly rewards the covered person with a savings incentive
3 for medically necessary covered health care services received
4 from health care providers that offer a discounted cash price
5 below the average allowed amount. Annually at enrollment or
6 renewal, a health carrier shall provide notice to covered
7 persons via the health carrier's health benefit plan materials
8 and the health carrier's internet site of the savings incentive
9 program and how the savings incentive program works. If a
10 covered person exceeds the covered person's annual deductible,
11 the covered person's health benefit plan shall notify the
12 covered person of the savings incentive program and how the
13 savings incentive program works.
14 *b.* A covered person's savings incentive for a specific
15 health care service shall be calculated as the difference
16 between the discounted cash price and the average allowed
17 amount. A savings incentive shall be divided equally between
18 the covered person and the covered person's health benefit
19 plan, and may include a cash payment to the covered person. If
20 a third party helps facilitate a covered person in utilizing
21 a discounted cash price that saves money for the covered
22 person, the covered person may share a portion of their savings
23 incentive with the third party.
24 *c.* Savings incentives under this subsection shall not be
25 an administrative expense of the health benefit plan for rate
26 development or rate filing purposes.
27 10. This chapter shall not be construed to prohibit a health
28 care provider from billing a covered person, a covered person's
29 guarantor, or a third-party payor including a health insurer,
30 for health care services provided to a covered person; or to
31 require a health care provider to refund any payment made to
32 the health care provider for a health care service provided to
33 a covered person.
34 11. If a provision of this chapter or its application to
35 any person or circumstance is held invalid, the invalidity does

AMERICAN OVERSIGHT

IA-DHHS-24-0418-A-012538

1 not affect other provisions or applications of this chapter
2 which can be given effect without the invalid provision or
3 application.
4 Sec. ___. SAVINGS INCENTIVE PROGRAM AND DEDUCTIBLE CREDIT
5 PROGRAM FOR STATE EMPLOYEES.
6 1. Before August 1, 2025, the department of administrative
7 services shall conduct an analysis of the cost-effectiveness of
8 offering a savings incentive program and deductible credit for
9 state employees and retirees.
10 2. On or before September 1, 2025, the department of
11 administrative services shall submit a report to the general
12 assembly that contains an explanation as to the decision to
13 implement, or not implement, a savings incentive program or
14 deductible credit program.
15 3. Any savings incentive program or deductible credit found
16 to be cost-effective shall be implemented for the 2026 state

AROUND THE CAPITOL

The Legislature appears to be on course to finish at some point on Saturday, though it is uncertain if they will adjourn the Friday session and come back at 9 AM or simply stay in session overnight and into Saturday morning until 4 AM or 5 AM is uncertain. We are publishing at midnight with the action from the day and will catch up on any of the action that occurs afterward in the Saturday *Bulletin.*

Legislators have largely finished work on the budget bills, with only Standings and HF 2691 **RIIF APPROPRIATIONS** left to be completed. They also passed SF 2442 **TAX OMNIBUS** which includes the accelerated tax cuts, which have been a Republican priority for this session. The bill makes several other changes, including allowing counties to end county compensation boards. Representative Kaufmann said that the income tax cuts are part of historic changes to taxes in Iowa. He said that giving county supervisors the power to eliminate county compensation boards will help lower property taxes. According to the LSA, the income tax changes in SF 2442 are expected to reduce revenues as follows over the next six years: $328.2 million (FY 2025); $605.3 million (FY 2026); $97.0 million (FY 2027); $96.8 million (FY 2028); $99.5 million (FY 2029); $102.4 million (FY 2030).

As of midnight, Governor Reynolds signed 41 bills on Friday. Legislators finished floor work on seven budget bills and sent fifteen other bills down to the Governor. Today's Bulletin has full reports on those bills. Legislators have taken some action on a number of other bills but still need to reach agreements on those bills. We will cover those bills fully in the Saturday *Bulletin*. The list of remaining bills includes:

- HF 207 **DRAINAGE SYSTEM EXEMPTION**
- HF 674 **COUNTY CAR TITLING SERVICES & FEES**
- HF 681 **FAIR SALES TAX EXEMPTION**
- HF 2667 **TREASURER MATTERS**
- HF 2706 **COMPLEX REHAB PAYMENTS**
- SF 2395 **OPIOID SETTLEMENT**
- SF 2396 **TAX ADMINISTRATION**
- SF 2440 **529 APPRENTICESHIP PAYMENTS**
- SF 2109 **SPECIAL MINOR LICENSES** *(conference committee)*

BILL STATEMENTS

Senator Petersen released a statement on the signing of SF 2431 **MINOR SOL EXTENSION:**

> I'm grateful lawmakers and the governor stood up for Iowa survivors who are part of the largest child sex-abuse case in US history. Iowans who were abused as children should not be financially penalized in their settlement simply because the abuse occurred within the borders of Iowa. Today's victory is a great example of how the legislature can help people when we work together for justice and when the media shines a light on an important issue. Hundreds of Iowans will have a chance at receiving their full settlement thanks to a group of survivors who came forward, shared their painful stories and asked for our help.

Governor Reynolds also released a statement on SF 2431:

> Those who were sexually abused while in Boy Scouts should have the ability to receive the greatest amount of compensation available. Even after an initial disclosure, it may take many more years before a victim is willing to file a legal action in a public court proceeding. We should not stand in the way of these survivors receiving their justified compensation. I am proud to sign this bill and I hope it brings some sense of justice and closure.

Governor Reynolds released a statement on the passage of SF 2385 **BOARD REVIEWS**:

> Last year, I introduced and signed into law legislation that aligned state government to more effectively and efficiently deliver better services to Iowans. It cut 21 agencies from my cabinet, reduced government bureaucracy, and made state government more responsive to the people of Iowa. We are already seeing the results with increased responsiveness to Iowans and cost savings to taxpayers. Government works for the people, not the other way around. We should be consistently reviewing and improving the quality of services we provide. The bill headed to my desk today is a continuation of that work. It eliminates unnecessary and redundant boards and commissions, returning accountability to the people of Iowa through their elected representatives. Iowa's boards and commissions have never been comprehensively reviewed and adjusted for effectiveness, only growing in numbers and scope over our state's history. Today, we reverse that trend.

Governor Reynolds released a statement on the passage of SF 2442 **TAX OMNIBUS**:

> When I took office, Iowa's income tax rate was nearly 9 percent - the sixth highest in the country. Since 2018, I've proposed four tax packages that have delivered historic income tax cuts and established a flat income tax for every Iowan who pays them; eliminated inheritance tax and taxes on retirement income; and reformed the corporate tax system by gradually reducing the rate from 9.8% to 5.5%.

Pick a Better Snack Nutrition Education Grant Opportunity

The Iowa Department of Health and Human Services Healthy Eating and Active Living Team will take applications for the next round of funding for the Pick a Better Snack (PABS) program. A Request for Application (RFP) will open in early March and stay open for 7 weeks. This is a competitive grant application process. All interested and eligible organizations are encouraged to apply. This includes public schools and private non-profit accredited schools in Iowa and other non-profit or governmental organizations.

The Pick a Better Snack program (PABS) is an evidence-based nutrition education and physical activity program for K-3 students. The program centers on monthly lessons in the classroom around fruits and vegetables using the PABS curriculum. The program is funded by SNAP-Ed, and therefore, is intended for those who participate or are eligible for SNAP. For that reason, only schools with free and reduced-price meal participation rates or factored Identified Student Percentages (ISP) above 55% for rural schools and 60% for urban schools are eligible.

The RFP will post on IowaGrants.gov under “View Current Funding Opportunities.” You don’t have to be registered in IowaGrants to view the grant, but you do have to register to apply.

An Applicant’s Conference will take place on March 20 at 10:00 – 11:00 am to review the RFP and answer questions from interested organizations.

To view the PABS lessons and other materials, go to PABS Materials | Health & Human Services (iowa.gov).

Talking with Families about Developmental Screenings and Concern

AMERICAN OVERSIGHT

Wednesday, March 20th, 2- 3:00pm (CST)Conversations about developmental screening results and concerns can be time-consuming and anxiety-provoking for families and for family-facing providers. Yet the benefits are clear: when families and their child's providers have productive conversations about a child's development, they are better equipped to work as a team to co-create and follow through on a collaborative plan that supports the best outcomes for the child. The Development is a Journey Conversation Roadmap was created to simplify, support, and strengthen these important and often challenging conversations. The Roadmap is designed to facilitate these conversations with seven short and simple steps to actively engage parents and other caregivers in planning for their child's developmental needs, and enhance the provider-parent partnership, especially when parents and providers find themselves having different perspectives about the child and the possible challenge. This webinar will introduce participants to this strengths-based, relationally-focused, family-centered tool and process for engaging families and providers in collaborative partnership to address developmental challenges in service of best outcomes for children and their caregivers. Come learn and practice together implementing this way of understanding and supporting the developmental screening process!

Iowa's Project LAUNCH initiative and Infant Toddler Court Program are sponsoring a series of "lunch and learn" webinars on topics related to infant mental health and equity.

AMERICAN OVERSIGHT

The webinar topics are listed below (dates for the final two webinars are yet to be determined). Each webinar will be held from 12:00 – 1:00 and is open to anyone interested in the topic. These webinars are free to attend. Feel free to share this with your contacts and let me know if you have any questions.

* Maternal Health, Birth Outcomes, and Early Childhood Development: This workshop will focus on the integration of maternal health, birth journey, and early childhood development from an equity perspective. Infant mental health is impacted by epigenetics. The impact of genes and environmental conditions begin in utero and continue throughout the lifespan. Many cognitive and social emotional delays can be linked to pregnancy outcomes. This course will highlight environmental and genetic factors contributing to infant mental health and childhood development.

Wed., March 27th

* Connecting with “Hard to Reach Families” IECMH Community Engagement Toolkit: One of the difficulties with the term “hard-to-reach” is that it places blame on families, when in fact, it may be the services that are “hard to reach”. Families that are deemed “hard-to-reach” are those who are less likely to engage in services that are offered to them. They may be disinterested in the services, unwilling to accept help, or reluctant to ask for help. Participants will engage in activities to more deeply understand the challenges faced and how to face their own bias when interacting with families. They will learn why some families may not want to participate, while others may have difficulty accessing the services and many may not know the resources exist.

Tues., April 23rd

*Registration not yet available

* Secondary Traumatic Stress: Understanding the Impact on Professionals in Trauma-Exposed Workplaces: Designed for all child-serving professionals who are exposed to details of traumatic events and/or individuals suffering from post-traumatic distress in the context of their work. Participants will learn the risks associated with working with individuals suffering with traumatic stress symptoms, strategies to reduce the impact of secondary traumatic stress (STS), and how to support wellness in staff. This course addresses how STS is an ethical mandate for organizations and individuals working in trauma-exposed environments. Building in STS mitigation into systems supports equity efforts by supporting BIPOC populations with historical trauma they carry and present day stressors.

Date TBD

*Registration not yet available

* Uncovering Implicit Bias and Racial Inequality through Reflective Supervision: This training will identify the elements of Reflective Supervision/Consultation and discuss how this intentional space is ideal to uncover implicit bias and process experiences of racial inequity to drive more equitable IECMH policies and practices.

We are thrilled to announce three Changemakers joining us for the 10th Annual Changemakers Luncheon

Changemakers Luncheon Welcomes Additional Speakers

The 10th Annual Changemakers Luncheon is fast approaching! This year's event will be held on Monday, April 22 at the Iowa Events Center in Des Moines, Iowa. Today we are excited to announce three additional speakers who will join us for this impactful event.

As a healthcare executive and former nurse, Rose L. Horton is the changemaker that created the hashtag #notonmywatch to galvanize nurses (the frontline providers and largest healthcare employee contingent) to make the difference in their patients' lives and to help change the trajectory of the alarming trends in maternal morbidity and mortality. What started as a simple call to action became a movement.

Rose is a member of the Healthy Birth Day, Inc. Board of Directors, the Founder and CEO of NotOnMyWatch Consulting Partners, and the President-Elect of the Association of Women's Health and Neonatal Nurses (AWHONN). As a nurse leader committed to finding creative solutions to mitigate maternal morbidity and mortality for all, you're sure to be inspired by Rose's impactful and powerful message.

We are also excited to welcome Healthy Birth Day, Inc. Board Member Emma Kelly and her husband, NFL Player Ryan Kelly, the starting Center for the Indianapolis Colts. Emma and Ryan are the parents of Mary Kate, a daughter they lost during the 19th week of pregnancy, and infant twins Duke and Ford, who arrived safely last summer. They have dedicated their lives to make sure other parents don't have to experience the pain of losing a baby. These two changemakers will share their personal experience with loss, and help us celebrate the impact

Count the Kicks is having on families across the country.

Advocacy Update: Congress Advances Stillbirth Prevention Legislation in Markup Hearing

We are thrilled to let you know two critical pieces of stillbirth prevention legislation were considered by the Energy and Commerce Committee in a Health Subcommittee Markup Hearing on Tuesday. The Maternal and Child Health Stillbirth Prevention Act was forwarded, as amended, to the full committee by a bipartisan roll call vote of 25-0. The SHINE for Autumn Act was also forwarded to the full committee for consideration.

This hearing was an important step in advancing stillbirth prevention legislation in Congress, and we are now one step closer to getting both bills passed in the 118th Congress.

Our organization is proud to be the primary stakeholder of the Maternal and Child Health Stillbirth Prevention Act. We would especially like to thank the bill's House lead sponsor, Congresswoman Ashley Hinson (R-Iowa), and our lead co-sponsor, Congresswoman Alma S. Adams, Ph.D. (D-North Carolina), for helping push the bill to where it is today!

The Maternal and Child Health Stillbirth Prevention Act will provide both clarity and a vital call of action from Congress to state health departments across the nation that they CAN and SHOULD use a portion of the existing $2.6 billion of Title V Block Grant funding to prevent stillbirth. The Title V Block Grant is the single largest funding mechanism to support maternal and child health issues in the United States.

Passage of this bill has the ability to immediately unleash these significant and existing funds to address the stillbirth crisis. There is no additional funding associated with this legislation. The Stillbirth Prevention Act passed the U.S. Senate in September of last year.

Our organization is also proud to endorse the SHINE for Autumn Act, which was also forwarded to the full committee for consideration this week. This bill would increase awareness and education, improve data collection and research, and provide funding to focus on long-term solutions for stillbirth prevention.

Help Us Keep Up the Momentum in Congress!

The message from lawmakers' offices is clear! Advocate outreach and sharing of personal stories is a KEY component of making progress. This constituent outreach is helping to bring attention to the issue of stillbirth prevention in Congress.

Please help us keep up the momentum by reaching out to members of Congress NOW and

AMERICAN OVERSIGHT

asking them to support both pieces of stillbirth prevention legislation. Once you have taken action, recruit friends, family members, or colleagues to take action too!

Every voice and story shared will add crucial momentum to make change in honor of the 21,000 babies born still every year.

Brand New Baby Save: Meet Fernando

Fernando's mom learned about Count the Kicks from her doula, and shared how knowledge about her son's normal movement patterns helped lead to his safe arrival.

She started feeling unwell when she was 36 weeks pregnant, and was experiencing severe congestion and a cough. She also noticed a decrease in her baby's movements, which prompted her to go to the hospital to get checked.

"When I arrived at the hospital they did an ultrasound and a non-stress test (NST). Once monitoring started, it was determined fairly quickly that my baby was in danger. I also tested positive for the COVID-19 virus.

Although I was only 36 weeks, the doctors decided an emergency cesarean section was necessary to save my baby. Baby boy Fernando was delivered four weeks early and weighed

AMERICAN OVERSIGHT

4 pounds 15 ounces. Fernando was severely anemic and was given two blood transfusions. The doctors think that due to me being sick that the placenta started sending healing cells from the placenta to me, which took them away from baby Fernando." -Fernando's mom
