Good Morning,

I was not aware this was an issue of personal significance to you and our office policy is to ask anyone who has requested a meeting if they have not registered to do so. You have never mentioned that you were not lobbying on behalf of this bill and issue so the assumption was made that you were. If you have availability I can get you in for a meeting with the Chair tomorrow at 11:15 or 2:30.

Lara,

[redacted] takes stem cells and I am personally interested because of that reason. I don't have any principles or getting paid to lobby for anyone.

Who do I register, [redacted]?

A bill to be entitled

An act relating to the verification of employment eligibility; defining terms; requiring employers to register with and use the E-Verify system beginning on a specified date to verify the employment eligibility of new employees; requiring the Department of Economic Opportunity to order certain agencies to suspend an employer's license under certain circumstances; prohibiting an employer from knowingly employing an unauthorized alien; authorizing certain persons to file a specified complaint with the department; prohibiting the filing of a complaint based on race, color, or national origin; providing that a person who knowingly files a false or frivolous complaint commits a misdemeanor of the second degree; providing responsibilities and powers of the department relating to notice, investigations, and subpoenas for the production of records; prohibiting the department from independently making a final determination regarding whether an employee is an unauthorized alien; requiring the department to notify the United States Immigration and Customs Enforcement Agency and specified law enforcement agencies of certain violations; requiring the department to order certain employers to take specified actions after the finding of a violation; providing for the suspension of an employer's license upon the finding of certain violations; providing civil immunity for an employer registered with and using the E-Verify system;

AMERICAN OVERSIGHT

FL_SEN 20-0201 B 20-0202 A 000007

providing specified immunity and nonliability for an employer who complies in good faith with the E-Verify system; requiring the department to maintain a public database containing certain information and make such information available on its website; authorizing the department to apply for a judicial order directing an agency or employer to comply with an order issued by the department; creating a rebuttable presumption for certain employers that the employer did not knowingly employ an unauthorized alien; authorizing an employer or employee to seek an injunction under certain circumstances; providing that certain actions by an employer constitute a deceptive and unfair trade practice; providing that an employee aggrieved by such actions has a private cause of action against the employer and providing available remedies; providing that a cause of action does not exist against an employer under specified circumstances; providing construction; creating s. 287.137, F.S.; defining terms; requiring public employers, contractors, and subcontractors to register with and use the E-Verify system; prohibiting such entities from entering into a contract unless each party to the contract registers with and uses the E-Verify system; requiring a subcontractor to provide certain certification to a contractor, which the contractor must maintain for a specified period of time; authorizing the termination of a contract under certain conditions; providing that such termination is not a breach of contract;

AMERICAN OVERSIGHT

authorizing a challenge to such termination; prohibiting a contractor from being awarded a public contract under certain circumstances; providing construction; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Definitions; use of E-Verify system required for private employers; business licensing enforcement; private right of action for wrongfully discharged employee.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Agency" means an agency, department, board, or commission of this state or a county, municipality, or town issuing a license to operate a business in this state.

(b) "Department" means the Department of Economic Opportunity.

(c) "E-Verify system" means an Internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees.

(d) "Employee" means a person who performs labor or services for an employer in exchange for salary, wages, or other remuneration. The term does not include a licensed independent contractor as defined in federal laws or regulations.

(e) "Employer" means a person or entity that employs persons to perform labor or services in exchange for salary, wages, or other remuneration. The term does not include:

1. A government employer;

2. The occupant or owner of a private residence who hires:

AMERICAN OVERSIGHT

a. Casual labor, as defined in s. 443.036, Florida Statutes, to be performed entirely within the private residence; or

b. A licensed independent contractor, as defined in federal laws or regulations, to perform a specified portion of labor or services; or

3. An employee leasing company licensed pursuant to part XI of chapter 468 that enters into a written agreement or understanding with a client company which places the primary obligation for compliance with this section upon the client company. In the absence of a written agreement or understanding, the term includes an employee leasing company.

(f) "Knowingly employ an unauthorized alien" has the same meaning as in 8 U.S.C. s. 1324a. The term shall be interpreted consistently with 8 U.S.C. s. 1324a and any applicable federal rules or regulations.

(g) "License" means a franchise, permit, certificate, approval, registration, charter, or similar form of authorization required by state law and issued by an agency for the purpose of operating a business in this state. The term includes, but is not limited to:

1. An article of incorporation.

2. A certificate of partnership, partnership registration, or article of organization.

3. A grant of authority issued pursuant to state or federal law.

4. A transaction privilege tax license.

(h) "Unauthorized alien" means a person who is not authorized under federal law to be employed in the United

AMERICAN OVERSIGHT

States, as described in 8 U.S.C. s. 1324a(h)(3). The term shall be interpreted consistently with that section and any applicable federal rules or regulations.

(2) VERIFICATION OF EMPLOYMENT ELIGIBILITY; SUSPENSION OF BUSINESS LICENSE.—

(a) Beginning January 1, 2020, an employer shall, after making an offer of employment which has been accepted by a person, use the E-Verify system to verify such person's employment eligibility. Verification must occur within the period stipulated by applicable federal rules or regulations. However, an employer is not required to verify the employment eligibility of a continuing employee hired before the date of the employer's registration with the E-Verify system.

(b) If an employer does not register with the E-Verify system, the department must order the appropriate agency to suspend all applicable licenses held by the employer until the employer registers with the E-Verify system and provides the department with an affidavit stating such fact.

(3) EMPLOYMENT OF UNAUTHORIZED ALIENS; PROHIBITION; FALSE AND FRIVOLOUS COMPLAINTS; VIOLATION; CLASSIFICATION; SUSPENSION AND REVOCATION OF LICENSE.—Beginning January 1, 2020:

(a) An employer may not knowingly employ an unauthorized alien.

(b) A person who has a good faith belief that an employer knowingly employs, or has within the last 90 calendar days knowingly employed, an unauthorized alien may file a complaint with the department.

(c) A complaint may not be based on race, color, or national origin, except to the extent permitted by state or

AMERICAN OVERSIGHT

federal law.

(d) A person who knowingly files a false or frivolous complaint under this subsection commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, Florida Statutes.

(e) Upon the receipt of a valid complaint of a violation of paragraph (a), the department shall notify the employer of the complaint and direct the employer to notify any employees named in the complaint.

(f) The department shall investigate whether a violation of paragraph (a) has occurred and hold an administrative hearing at which the employer has the right to counsel and may present any evidence it desires. The department shall request that the Federal Government verify, pursuant to 8 U.S.C. s. 1373(c), the citizenship or immigration status of any employee named in the complaint, and the department must rely upon such verification. The department may not independently make a final determination as to whether an employee is an unauthorized alien.

(g) The department may issue a subpoena for an employer to produce employment records that relate to employment recruitment, hiring, or termination policies, practices, or acts relating to the investigation of a valid complaint of a violation of paragraph (a).

(h) Upon finding that an employer has violated paragraph (a), the department shall notify:

1. The United States Immigration and Customs Enforcement Agency of the identity of the unauthorized alien and, if known, the physical address at which the unauthorized alien resides.

2. The local law enforcement agency of the jurisdiction in

AMERICAN OVERSIGHT

which the unauthorized alien resides.

(i)1. Upon finding that an employer has violated paragraph (a), the department shall order the employer to:

a. Terminate the employment of all unauthorized aliens; and

b. File a sworn affidavit with the department within 10 calendar days after receipt of the order. The affidavit must state that the employer has corrected such violation by:

(I) Terminating the employment of all unauthorized aliens; or

(II) Attempting to terminate the employment of all unauthorized aliens but such termination is being challenged in a court of competent jurisdiction.

2. If the employer fails to file the affidavit under subparagraph 1., the department shall order the appropriate agencies to suspend all applicable licenses held by the employer until the affidavit is filed. Notwithstanding any other law, the suspended licenses shall be deemed to have been reinstated upon the filing of the affidavit. During the pendency of any court action or challenge to an E-Verify system determination, the 10-calendar-day period shall be tolled.

3. Licenses subject to suspension under subparagraph 2. include all licenses that are held by the employer that are necessary to operate the employer's business at the specific location at which the unauthorized alien performed work. If a license is not necessary to operate the employer's business at such location, but a license is necessary to operate the employer's business in general, the licenses subject to suspension under subparagraph 2. shall include all licenses held by the employer at the employer's primary place of business.

AMERICAN OVERSIGHT

(j) Upon finding that a second or subsequent violation of paragraph (a) occurred during a 2-year period, the department shall order the appropriate agencies to suspend, for at least 30 calendar days, all licenses held by the employer that are necessary to operate the employer's business at the specific location at which the unauthorized alien performed work. If a license is not necessary to operate the employer's business at such location, but a license is necessary to operate the employer's business in general, the department shall order the appropriate agencies to suspend, for at least 30 calendar days, all licenses held by the employer at the employer's primary place of business.

(k)1. An employer registered with and using the E-Verify system may not be held civilly liable in a cause of action for the employer's:

a. Unlawful hiring of an unauthorized alien if the information obtained from the E-Verify system indicated that the person's work authorization status was not that of an unauthorized alien; or

b. Refusal to hire a person if the information obtained from the E-Verify system indicated that the person's work authorization status was that of an unauthorized alien.

2. An employer who in good faith registers with and uses the E-Verify system is considered to have complied with the requirements of 8 U.S.C. s. 1324a(b) and may not be held liable for any damages and shall be immune from any legal cause of action brought by any person or entity, including former employees, for the use of and reliance upon any incorrect information obtained from the E-Verify system, including any

AMERICAN OVERSIGHT

incorrect information obtained as a result of an isolated, sporadic, or accidental technical or procedural failure, when determining final action on a person's work authorization status.

(l) The department shall maintain a public database containing copies of all orders issued pursuant to this subsection and shall make such information available on its website.

(m) If the department determines that an agency or employer has failed to comply with an order under this subsection, the department may apply to the circuit court for a judicial order directing the agency or employer to comply with such order.

(n) For purposes of this subsection, compliance with paragraph (2)(a) creates a rebuttable presumption that an employer did not knowingly employ an unauthorized alien in violation of paragraph (a).

(4) INJUNCTION.—At any time after the department has notified an employer that a valid complaint of a violation of paragraph (3)(a) was received, and up to 30 calendar days after the date on which the department issues an order pursuant to paragraph (3)(i), the employer subject to the complaint, or any employee who is alleged to be an unauthorized alien, may challenge and seek to enjoin the enforcement of this section before a court of competent jurisdiction.

(5) DECEPTIVE AND UNFAIR TRADE PRACTICE.—

(a) An employer commits a deceptive and unfair trade practice in violation of part II of chapter 501, Florida Statutes, if it discharges an employee who is a United States citizen or resident alien, as defined in s. 379.101(31), Florida

AMERICAN OVERSIGHT

Statutes, while knowingly employing an unauthorized alien at the same job site or in the same job classification elsewhere in this state.

(b) The discharged employee has a private cause of action against the employer for a violation of this subsection. The available remedies to the discharged employee are reinstatement, back pay, court costs, and attorney fees. Criminal or civil sanctions, including fines, may not be imposed against an employer for a violation of this subsection.

(c) A cause of action under this subsection does not exist against an employer who, on the date it discharged an employee as described in paragraph (a), was registered with and used the E-Verify system to verify a person's work authorization status.

(6) CONSTRUCTION.—This section shall be enforced without regard to race, color, or national origin and shall be construed in a manner so as to be fully consistent with any applicable federal laws or regulations.

Section 2. Section 287.137, Florida Statutes, is created to read:

287.137 Verification of work authorization status; public employers.—

(1) As used in the section, the term:

(a) "Contractor" means a person or entity that has entered into, or is attempting to enter into, a contract with a public employer to provide labor, supplies, or services to such employer in exchange for salary, wages, or other remuneration.

(b) "E-Verify system" means an Internet-based system operated by the United States Department of Homeland Security that allows participating employers to electronically verify the

AMERICAN OVERSIGHT

employment eligibility of newly hired employees.

(c) "Public employer" means a department, agency, or political subdivision of this state that enters into, or attempts to enter into, a contract with a contractor.

(d) "Subcontractor" means a person or entity that provides labor, supplies, or services to or for a contractor or another subcontractor in exchange for salary, wages, or other remuneration.

(e) "Unauthorized alien" means a person who is not authorized under federal law to be employed in the United States, as described in 8 U.S.C. s. 1324a(h)(3). The term shall be interpreted consistently with that section and any applicable federal rules or regulations.

(2)(a) Every public employer, contractor, and subcontractor shall register with and use the E-Verify system to verify the work authorization status of all new employees.

(b) A public employer, contractor, or subcontractor may not enter into a contract under this section unless each party to the contract registers with and uses the E-Verify system.

(3)(a) If a contractor enters into a contract with a subcontractor, the subcontractor shall certify to the contractor in a manner that does not violate federal law that the subcontractor, at the time of such certification, does not employ, contract, or subcontract with an unauthorized alien.

(b) A contractor shall maintain a copy of such certification for the duration of the contract with the subcontractor.

(4)(a) A public employer, contractor, or subcontractor who has a good faith belief that a person or entity with which it is

AMERICAN OVERSIGHT

contracting has knowingly violated this section shall terminate the contract with the person or entity.

(b) A public employer that has a good faith belief that a subcontractor knowingly violated this section, but the contractor otherwise complied with this section, shall promptly notify the contractor and order the contractor to immediately terminate the contract with the subcontractor.

(c) A contract terminated pursuant to paragraph (a) or paragraph (b) is not a breach of contract and may not be considered as such.

(d) A public employer, contractor, or subcontractor may file an action with a circuit or county court to challenge a termination under paragraph (a) or paragraph (b) no later than 20 calendar days after the date on which the contract was terminated.

(e) If a public employer terminates a contract with a contractor pursuant to paragraph (a), the contractor may not be awarded a public contract for at least 1 year after the date on which the contract was terminated.

(5) This section shall be construed in a manner so as to be fully consistent with any applicable federal laws or regulations.

Section 3. This act shall take effect July 1, 2019.

Attachment(s): "Gilmore 1988 dissertation.pdf","Nekton-of-Sarasota-Bay-Comparison-Nekton-Community-Structure-2010.pdf"

Mitigation site in Manatee failed, per Dr. Gilmore.
Perico Preserve Seagrass Basin over sixteen miles to the north in the Tampa Bay – Manatee River ecosystem. That's "16" MILES AWAY for baby fish to swim? Doesn't really matter because this project will cause a decline in local populations that utilize Big Pass -Meaning: THEY WOULD SIMPLY STOP MAKING BABIES! Since we know that Spotted Seatrout do not migrate more than a few miles from their Big Pass habitat. Spotted Seatrout and their progeny would not utilize the Perico Preserve but, IF THEY TRIED TO SWIM (like Barwin says is acceptable) THEY WOULD DIE – **There is NOT ENOUGH SALINITY at the mitigation site.**

From: Richard Gilmore <rggilmorej@gmail.com>
Sent: Sunday, July 14, 2019 11:44 AM
To: Michael Holderness <mike@mikeholderness.com>
Cc: Rachel Hackney <rbh.snl@gmail.com>
Subject: Re: Comments to Michael Holderness re seagrass mitigation for Lido project

Mike,

I will copy in my statement here, but also attach it as a Word file. I will also attach the publications that document my statements.

Mike,

There are **four arguments** you can make that reveal the inadequacy of the Perico site as mitigation for seagrass loss at Big Pass relative to Spotted Seatrout.

I list them below in layman's terms and with scientific documentation.

1. The Perico seagrass is located at the mouth of a large freshwater river, the Manatee River, so is influenced by freshwater flows from that river. The Sarasota Big Pass seagrass is located at a large opening to the Gulf of Mexico, a major saline ecosystem and is, therefore, largely marine, saline in its salinity regime. These widely differing salinity environments mean that even though the seagrass species may be the same, the creatures that associate with these two different ecosystems will not be the same. It is like stating that apples and oranges are the same fruit. Research over the past 50 years has demonstrated otherwise. For example, in 2018 we captured a Gag Grouper, Mycteroperca microlepis, juvenile in the Sarasota Big Pass seagrass. This species supports the valuable Florida grouper fisheries. Gag grouper would not use the lower salinity Perico mitigation seagrass site.

The scientific evidence:

1. Perico and Big Pass seagrass meadows play a different role in supporting fisheries as high salinity pass seagrass at Sarasota Big Pass will support open Gulf fisheries while lower salinity Perico wetland seagrass will support euryhaline lower salinity fish communities. Inlet seagrass meadows contain a different fish fauna than those further into the bays or lagoons even though the species of seagrass may be the same. Their functional role relative to the animals that associate with them may also be different..

Studies that can be sited are numerous. You can use these with comprehensive fish collections I have made (1974-1980; Gilmore 1988) and FWC-Fisheries Independent Monitoring program (Sarasota Bay studies; MacDonald et al.2010).

MacDonald, T.C., E. Weather, P.W. Stevens, R.H. McMicheal, Jr. 2010. **Nekton of Sarasota Bay and a Comparison of Nekton Community Structure in Adjacent Southwest Florida Estuaries. Fla**. Fish and Wildlife Conserv. Comm., Fish and Wildlife Research Inst., St. Petersburg, FL. 185 pp.

From R. Grant Gilmore, Jr., Ph.D. dissertation entitled: **Subtropical Seagrass Fish Communities: Population Dynamics, Species Guilds and Microhabitat Associations in the the Indian River Lagoon, Florida.**" 1988. Florida Institute of Technology, 199 pp.

This work is based on Seagrass studies from 1974-1980; **1,982,000 fish captured weighed and measured, 164 species in 400 seine and drop net collections**. The most definitive quantitative seagrass fish study in Florida waters at that time.

NOTE LAST SENTENCE OF ABSTRACT:**"These guilds are generally present at most seagrass sites; however, the species within each guild may be replaced by congeneric, or confamilial species depending on the location of the seagrass bed relative to ocean inlets."**

2. Spotted Seatrout do not spawn adjacent to the Perico site, but do spawn within Sarasota Big Pass. Spotted Seatrout spawn at the northwest mouth of Tampa Bay, avoiding the lower salinity waters at the mouth of the Manatee River.

The scientific evidence:

Dr. Susan Lowerre-Barbieri a research scientist with the Florida Fish and Wildlife Conservation Commission research laboratory in St.

AMERICAN OVERSIGHT

Petersburg (Florida Marine Research Institute = FMRI), mapped Spotted Seatrout spawning sites in Tampa Bay and found trout spawning on the north side of the Bay entrance toward Boca Ciega Bay, not on the south side near the mouth of the Manatee River, where Perico is located. (see references below)

Lowerre-Barbieri S, Walters S, Bickford J (2008b) Spatial and temporal reproductive dynamics of spotted seatrout in Tampa Bay and adjacent waters. In: Barbieri LR, Colvocoresses J (eds) Investigations into nearshore and estuarine gamefish behavior, ecology, and life history in
Florida. Florida Fish and Wildlife Research Institute, St. Petersburg, FL, p 135−151

Lowerre-Barbieri SK, Henderson N, Llopiz J, Walters S, Bickford J, Muller R (2009) Defining a spawning population (spotted seatrout *Cynoscion nebulosus*) over temporal,
spatial, and demographic scales. Mar Ecol Prog Ser 394: 231−245.

3. Post larval Spotted Seatrout settle in seagrass meadows close to the spawning site.Since there is no Spotted Seatrout spawning adjacent to the Perico mitigation site it will not serve as a Spotted Seatrout nursery in the same manner as the seagrass at Sarasota Big Pass.

4. Larval Spotted Seatrout cannot withstand low salinities such as the low salinities that would be encountered at the Perico mitigation site adjacent to the mouth of the Manatee River. They are tolerant of the salinities where the adults spawn, in this case the high salinities, marine conditions at the western opening of Sarasota's Big Pass.

The scientific evidence:

Scott Holt demonstrated that Spotted Seatrout eggs and larvae have physiologies that are based on where the parents spawn with higher salinities preferred. Spotted Seatrout along the Gulf coast spawn at the bay entrance, in passes or even out in the Gulf where higher salinities occur. They do not spawn in, or near the mouths of rivers, such as the Manatee River at the Perico site.

Holt, S. 2002. Effects of variable salinity on reproduction and early life stages of Spotted Seatrout. Chapter 9, pp. 135-145, in Biology of the Spotted Seatrout, S.A. Bortone, ed. CRC Press, Boca Raton, FL. 312 pp.

Dr. Sabine Alshuth and I demonstrated that Spotted Seatrout eggs and larvae could not withstand salinities below 15 ppt from spawning groups in the Indian River Lagoon. In fact, adults stopped spawning at sites impacted by artificial freshwater release.

Subject: Re: . "Protect our Sea Life,
MIchael,
Most marine ecologists realize that seagrass does not mean a specific species of fish will occur there. There are so many other parameters: salinity, temperature, tide, flow rates, etc. that influence fish distribution that do not necessarily influence plant growth, seagrass.
They are incorrect in assuming trout will associate with seagrass no matter where it is planted. That assumption is basically erroneous.
Perico will not mitigate Big Pass seagrass loss in any way!!!
Thank you Mike....and the trout thanks you too!!!

ABSTRACT

Subtropical Seagrass Fish Communities: Population Dynamics, Species Guilds and Microhabitat Associations in the Indian River Lagoon, Florida (December 1988)

Richard Grant Gilmore, Jr.

B.S., M.S. Univ. of West Florida

Chairperson of Advisory Committee: Dr. John G. Morris

Over 1.982 million fish, including 164 species in 54 families, were collected in repetitive quantitative samples taken with 67 m seine (1,160 m^2) and drop net (10 m^2) techniques in seagrass beds of the Indian River lagoon. The seagrass ichthyofauna is qualitatively and quantitatively distinct from adjacent mangrove swamp/salt marsh and sand bottom faunas.

The qualitative and quantitative attributes of the seagrass community are greatly affected by the proximity to ocean inlets, as there are distinct upstream (7 km or more from nearest inlet) and inlet ichthyofaunas (less than 3 km from nearest inlet), which are predictable over several annual cycles. The spatial and temporal patterns observed demonstrate that physical geographic and hydroclimatic parameters substantially influence the species composition and relative abundance of the seagrass ichthyofauna at specific sites. Seagrass ichthyofaunal homogeneity (qualitative and quantitative) is relatively high at sites within a few meters, and still reveals significant homogeneity at distances up to 3 km between upstream sites.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000025

Seasonal and annual faunal changes are predictable, however, quantitative changes are more variable with changes in total recruitment of abundant species over several annual cycles. The ichthyofauna at upstream sites and downstream sites keep their species complement over several annual cycles. Annual variation in number of species, density, biomass and mean individual weight were insignificant ($P \leq 0.05$) at an upstream seagrass site maintained over a five year period.

Spawning periodicity was predicted from larval-juvenile recruitment patterns. Cool-dry season spawners are typically warm temperate species and warm-wet season spawners are generally tropical and eurythermic tropicals, although some warm- temperate species limit their spawning to warm periods of the year (e.g. Cynoscion nebulosus). Some tropical species, e.g. gerreids and centropomids, may spawn throughout the year when climatic conditions are favorable.

The seagrass ichthyofauna may be divided into eight basic guilds based on numbers captured and percent frequency of occurrence, both of which are directly affected by gear bias, vertical and horizontal fish dispersal and behavior. These eight guilds are defined based on relative abundance, species dispersal, trophic habits and microhabitat preferences. These guilds are generally present at most seagrass sites; however, the species within each guild may be replaced by congeneric or confamilial species depending on the location of the seagrass bed relative to ocean inlets.

Key words: Subtropical seagrass; fish communities; spatial/temporal variation and predictability; microhabitat/trophic guilds.

ACKNOWLEDGEMENTS

I thank Dr. John G. Morris for his continued guidance and immeasurable encouragement during my entire graduate school tenure. Constant support from my committee members, Drs. William S. Alevizon, Kerry B. Clark, Walter G. Nelson and Gary N. Wells, is greatly appreciated. I also thank LaVergne Williams, George Kulczycki, Wayne Magely, Christopher Donohoe, Douglas Cooke, Douglas Carlson, Barbara Graunke, James Dean, John Reed, John Miller, and Liberta Poolt for aid in collecting and processing hundreds of thousands of specimens. In addition, I thank Drs. Robert S. Jones, Marsh Youngbluth, Kevin Eckelbarger, all Directors of the Division of Marine Science, Harbor Branch Oceanographic Institution and Dr. Jay Langfelder, Managing Director of the same institution for their continual support and encouragement throughout a period of great professional and personal challenge. I will be forever grateful to my understanding, patient and supportive family, Marilyn, Grant and Randy during a very difficult and prolonged schizophrenic period in our lives.

INTRODUCTION

The study of fishes within their natural environment has demonstrated that distinct fish communities predictively associate with specific vegetative or geological structures throughout the world's oceans. The most diverse communities are found within tropical seas, and are associated with complex structures such as coral reef formations or elaborate plant biotopes (Briggs, 1974; Levington 1982). Spermatophyte seagrass meadows and associated epiphytic algal growth harbor a wide variety of shallow water fish species. The richness of the seagrass community has attracted the attention of estuarine biologists throughout the world, with numerous descriptive and experimental studies conducted from the tropics to temperate regions (Kikuchi and Perez 1977; Heck and Orth 1980; Pollard and den Hartog 1984).

Many questions have been asked regarding seagrass faunal relationships particularly in regard to trophic interactions, not only between the botanical element and the organism, but among the associated organisms themselves. Considerable recent work has been done on benthic and epibenthic invertebrate faunal distribution relative to microhabitat complexity and predation, in most cases, considering predation by fishes (Young and Young 1977, 1978; Virnstein 1977; Nelson 1979, 1981; Heck and Orth 1980; Heck and Thoman 1981; Howard 1984; Stoner 1979, 1980, 1983; Summerson and Peterson 1984). In some cases, the same underlying mechanisms that were thought to

Journal format and style follows Ecological Monographs.

AMERICAN OVERSIGHT

affect the seagrass invertebrate fauna, were also hypothesized to influence the distribution of fishes within seagrass beds, particularly the smaller cryptic species or juvenile stages (Heck and Orth 1980). These influential distributional factors are principally those which directly affect growth and mortality for small species or juvenile fish, i.e. food availability and escape from predation. The factors most intensively studied have been habitat complexity and predator - prey distributions (particularly invertebrate populations), predation efficiencies (particularly on invertebrates) and behavior relative to varying habitat structure (e.g. interspecific seagrass comparisons or algal-seagrass comparisons)(Thomas 1974; Nelson 1979, 1981, 1982; Heck and Thoman 1981; Lewis and Stoner 1983; Summerson and Peterson 1984; Virnstein and Carbonaria 1985; Bell and Westoby 1986; Virnstein and Howard 1987a,b). Various ichthyofaunal studies have also hypothesized differential associations with various species of seagrass based on seagrass structural differences, substrate variation (Martin and Cooper 1981; Middleton, et al. 1984) or differential larval recruitment (Young, 1981). Stoner (1983) hypothesized that pinfish were more abundant in shoal grass (Halodule wrightii), due to the increased predation efficiency by the pinfish (Lagodon rhomboides) on amphipods.

With the plethora of experimental work on seagrass invertebrates and limited nature of most fish faunal studies, little attention has been given to detailed or comprehensive analyses of entire seagrass fish communities, including the highest trophic levels. Most ichthyofaunal studies lack comprehensive temporal and spatial treatments with effective gear types. Therefore, few investigators

AMERICAN OVERSIGHT

have considered predation effects on fish distribution, particularly by species which occupy tertiary or higher trophic levels (piscivores). Some investigators have hypothesized that little higher level predation occurs in estuaries (Miller and Dunn 1980). Only recently have studies been conducted on piscivory in seagrass beds and the effect of piscivory on fish distribution (Holt et al. 1983).

In addition, seagrass ichthyofaunal studies typically lack adequate replication to examine the distribution of the fish fauna within and between seagrass beds while considering a combination of hydrological and biological parameters. Included in this treatment would be ontogentic changes in the biology of seagrass fish species, variation in trophic standing, intraspecific behaviors and phyletic relationships relative to gradients of marine and freshwater conditions within estuaries. Some recent treatments of some of these latter topics are variously effective (Carr and Adams 1973; Blaber and Blaber 1980; Livingston 1980, 1982, 1984a,b; Huh 1984; Huh and Kitting 1985).

Few ichthyofaunal studies have used more than one quantitative technique to capture the diverse assembladge of fishes known to associate with seagrasses. Therefore, most previous studies have either not captured or have underestimated the contribution of some of the most abundant diminutive species as well as many of the larger predators. Much of the difficulty in defining this community comes from the variety of techniques utilized historically. The methodology used most frequently was the trynet or otter trawl, which is relatively inefficient in seagrass beds, particularly in capturing cryptic though abundant resident species such as diminutive gobiids,

AMERICAN OVERSIGHT

callionymids, blenniids and clinids (Kjelson and Johnson 1978; Gray and Bell 1986; Leber and Greening 1986; Orth and van Montfrans 1987). Similarly, seine hauls, though more efficient than the trawl, do not capture these same resident species as efficiently as other quantitative techniques (Kjelson and Johnson 1973, 1974; Adams 1976; Gilmore et al. 1978). The most effective techniques developed for obtaining a quantitative estimate of small cryptic seagrass associates are drop or throw nets (Moseley and Copeland 1969; Kjelson and Johnson 1973; Gilmore et al. 1978; Kushlan 1981; Jacobsen and Kushlan 1987; Sogard, 1987), suction devices (Brook 1978; Orth and van Montfrans 1987), crab scrapes (Leber and Greening 1986) and rotenone (Burchmore et al. 1984; Gray and Bell 1986). However, none of these techniques are capable of assessing the entire seagrass fish fauna, and it is surprising that few studies have incorporated more than a single fish capture technique. A notable exception to the single gear syndrome is the study by Middleton et al. (1984) where rotenone, beam trawling and gill nets were used to study seagrass fish faunas of Botany Bay, New South Wales, Australia.

A comprehensive study of the topographical and geographical variation in seagrass ichthyofaunas on a scale of meters to tens of kilometers simultaneously has received little treatment, particularly relative to natural hydrological conditions with enough replication to allow for annual variation. The microgeographic variation of ichthyofaunas in an undisturbed natural setting (versus experimental or anthropogenically disturbed settings) needs definition and study before many of the predator-prey relationships and seagrass structure hypotheses that are thought to govern fish distributions at any

AMERICAN OVERSIGHT

particular location can be accepted. If the distribution of the fish on a broad enough spatial and temporal scale is not known, then short term observations or manipulative experiments will lack perspective. Hypotheses on fish distribution derived from ephemeral experimental work may reveal possible mechanisms behind a distribution pattern, but may not observe the distribution pattern itself. In contrast, ineffective or short term observations may cause erroneous distributional mechanisms to be hypothesized. For example, Heck and Orth (1980) state that the physical structure or complexity of the seagrass habitat is the single most important factor influencing change in faunal composition without examining the "other" factors in long term, adequately replicated sampling scenerios. Consequently, these and other authors more recently (Martin and Cooper 1981; Stoner 1983; Middleton et al. 1984) underestimate the diversity and complexity of the seagrass ichthyofauna and the variety of behavioral and environmental parameters which may govern the distribution of this fauna, particularly with regard to hydrological, topographical and geographical variations.

Most recent seagrass ichthyofaunal classification systems have been simplistic, and typically based on residential and transient categories (Kikuchi and Perez 1977), or on trophic habits (Livingston, 1984a) with little recognition of the complex phyletic and evolutionary relationships which play a role in the functional ecology, behavior and life histories of a very diverse species assemblage. Only studies below the community level and limited to specific confamilial or congeneric seagrass species pairs have considered the phyletic and trophic biological relationships (e.g.

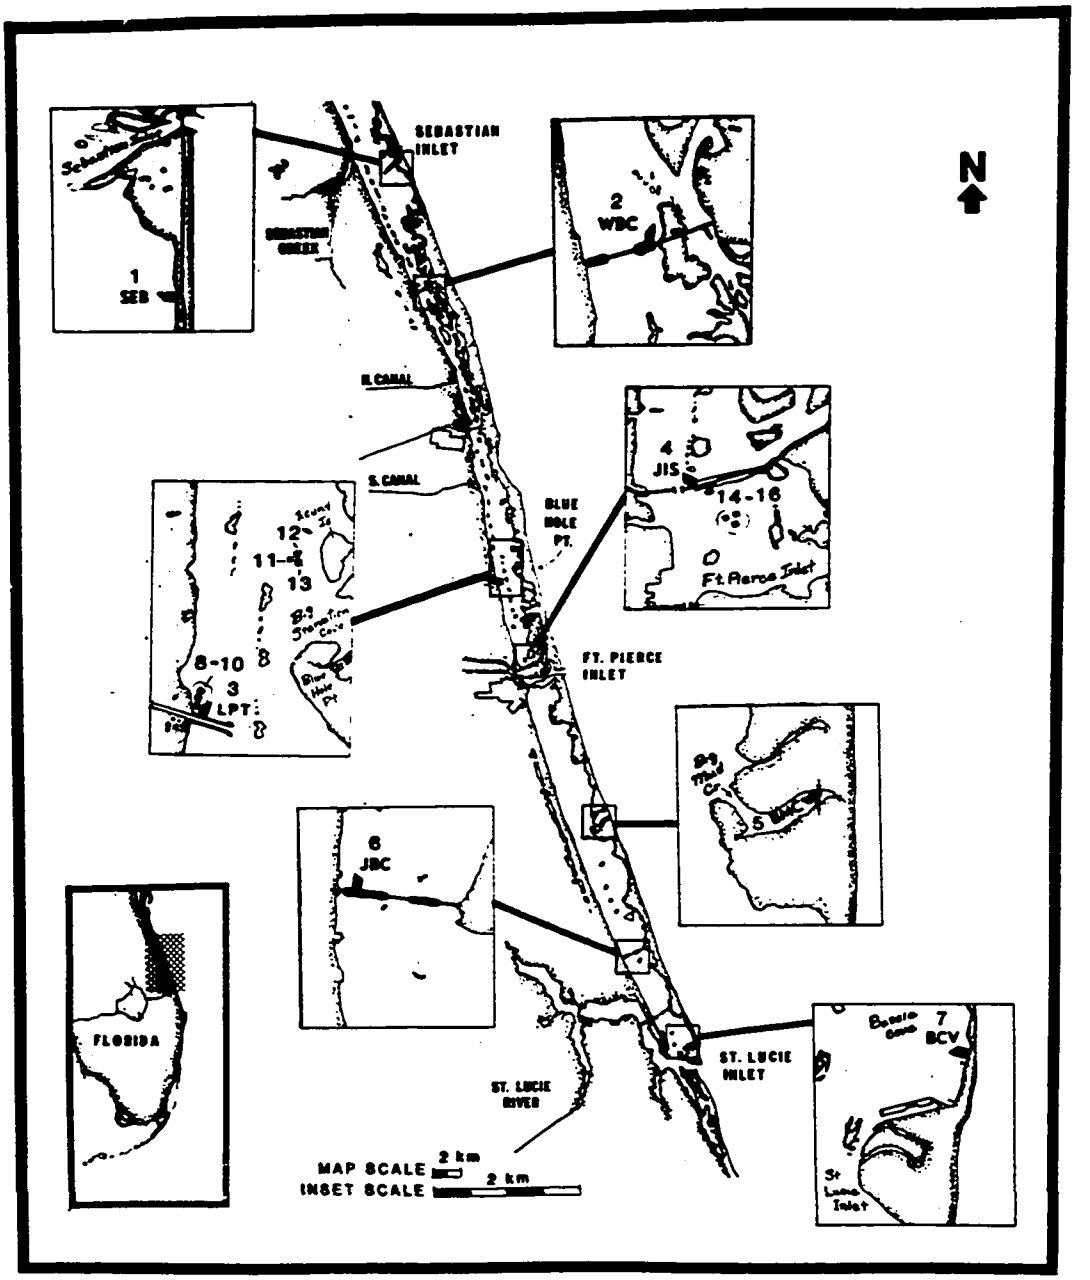
AMERICAN OVERSIGHT

Syngnathidae, Brown 1972; Monacanthidae, Clements and Livingston 1983; Sparidae, Stoner and Livingston 1984). With a comprehensive data base on a seagrass fish community derived from this study and the literature, a broader classification system can be devised which will reveal the presence of a variety of species guilds based on phyletic, behavioral, trophic, ontogenetic, and microspatial/macrospatial distributional characters.

This study demonstrates the effectiveness of utilizing two complementary quantitative techniques in assessing seagrass fish populations, and utilizes these data to define a seagrass fauna in a variety of geographical locations on monthly intervals over several annual cycles. With this comprehensive collecting strategy, enough material should be presented to allow greater perspective on the seagrass ichthyofauna than has previously been attempted. The objectives of this study are to quantitatively assess and describe: (1) the relative association of the fish fauna within seagrass habitats versus other alternative habitats; (2) the spatial dynamics of this association on a scale of several meters to several kilometers; (3) the temporal dynamics of seagrass fish populations on monthly, seasonal and annual scales; and finally, (4) to reveal discrete species guilds based on a variety of phyletic, habitat association, behavioral and life history criteria.

AMERICAN OVERSIGHT

STUDY SITES



After sampling various seagrass sites within the Indian River lagoon, using a variety of seine and trawl gear types from March to August 1974, seven sites were finally chosen for long term studies with the 62 m seine (Fig. 1). These sites ranged over a coastal distance of 82 km (51 mi.). Three inlet sites (within 1 - 3 km from the nearest ocean inlet) and four upstream sites (7.5 to 15.2 km from the nearest inlet) were chosen for study (Fig 1 and 2). The section of the lagoon between stations 2 (WAB) and 3 (LPT) was not suitable for study based on the limited amount of seagrass found in this region, particularly near the city of Vero Beach. The station sites are briefly described below.

Sebastian (SEB): Station No. 1 - This is the northernmost station, located on the east bank of the lagoon appoximately 2.2 km south of Sebastian Inlet in Indian River County (27°50.8'N : Fig. 1). The water character and quality at this station are influenced by tidal water movements through Sebastian Inlet. However, this influence is more limited when compared to the other two inlet stations (JIS and BVC), due both to the smaller size of Sebastian Inlet (Ned Smith, HBOI, personal communication) and to reduced Coriolis movement of ocean water over the site, as the station is south, rather than north

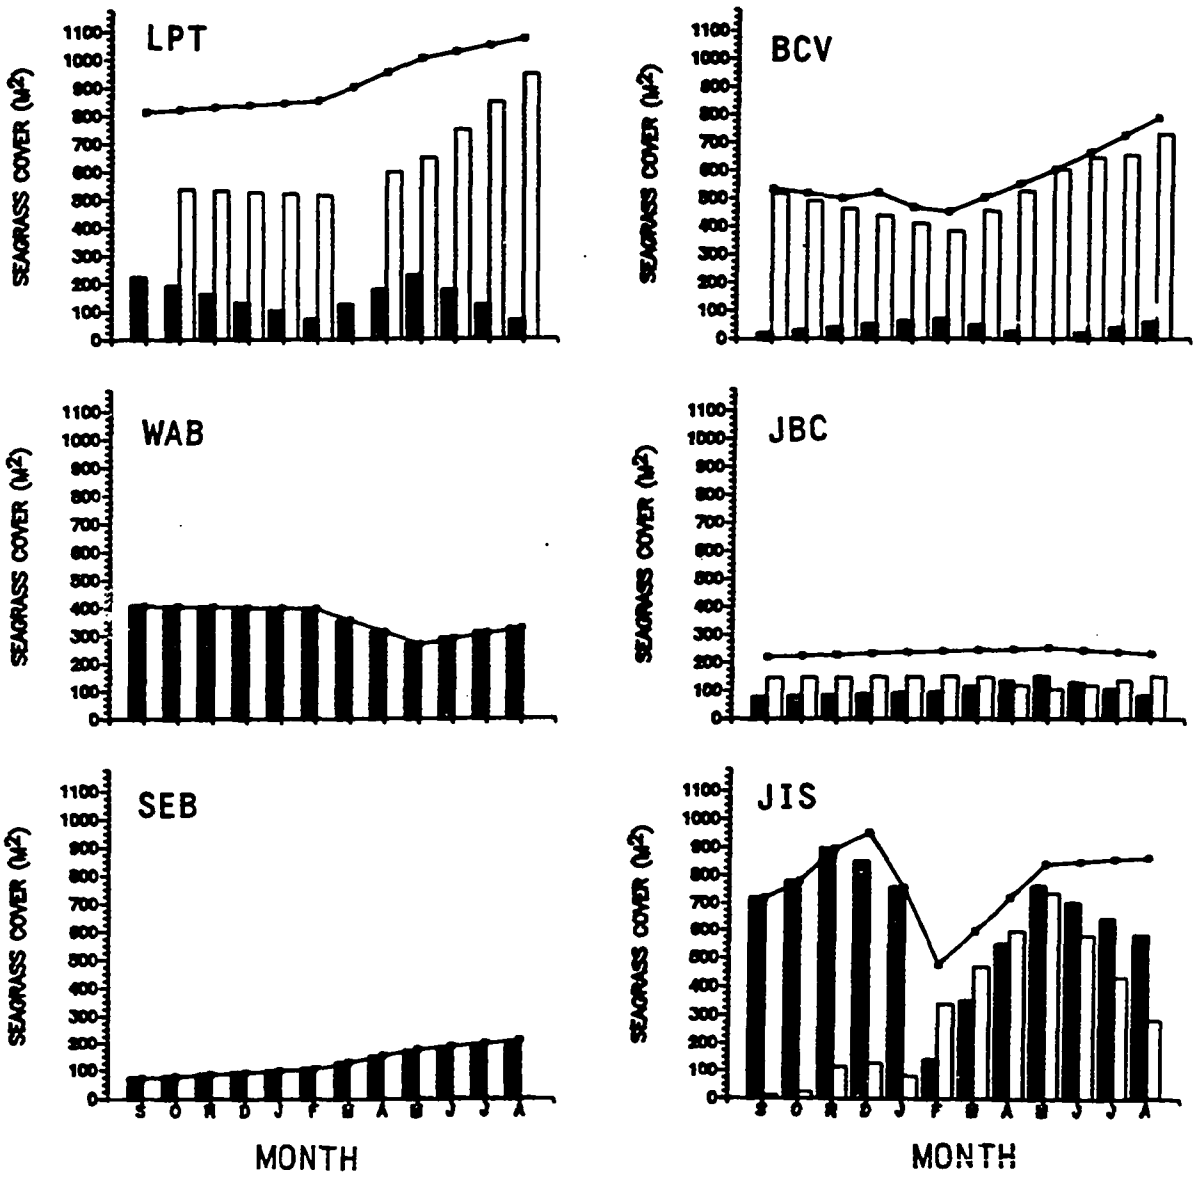
of the inlet.

During the warmer months, very small amounts of Syringodium were observed, however, the dominant seagrass was Halodule wrightii which reached a maximum bottom coverage of 18% in August (Fig. 3). The mean seagrass coverage for the year was 12.3% which was the lowest value for any of the grass flat stations studied. There is a dense mangrove shore cover (Rhizophora mangle) beginning approximately 50 m north of the station, and the shore for over 400 m south is sand and shell.



Wabasso (WAB): Station No. 3 - The next station south is located on the north side of the second spoil island proceeding east on the Wabasso Bridge causeway in Indian River County (27° 00.0' N; Fig. 1). This station is 9.3 km south of the Sebastian station. The only seagrass present was Halodule with a mean coverage of 30% for the year (Fig. 3). The shore at this station has many small oyster reefs that have settled on scattered rocks deposited with the dredge spoil when the causeway was constructed. Many of these rocky obstructions were removed from the seine site, but a number of small stones and oysters were always present. A red mangrove stand was located 50 m east of this and a large cordgrass, Spartina alterniflora, stand was located approximately 75 to 100 m northeast of the station. The shore at this site had no associated vegetation on the beach.

Link Port (LPT); Station No. 3 - This station is located on the north shore of the northernmost spoil bank (peninsula) of the Harbor Branch Oceanographic Institution ship channel in St. Lucie County

AMERICAN OVERSIGHT

Figure 3. Mean monthly seagrass cover for the most abundant seagrass species Syringodium filiforme (open bar), Halodule wrightii (solid bar) with the total seagrass cover depicted by the solid line. These species overlap and, therefore, the total is not additive. Seagrass species presence was determined at 1 m intervals along a 100 m transect line deployed at 10 m intervals along the seine beach site. The survey period extended from September 1974 to August 1975. The BMC seine station is not included as it was not monitored for an entire year.

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

(27°32.1'N.; Fig.1). The LPT station is 25.9 km south of station No. 2.

The mean total seagrass cover for LPT was 80.3% for the year, which was the largest seagrass bed in the survey (Fig. 3). The dominant seagrass was Syringodium with an annual mean coverage of 64.5%. The mean Halodule coverage was 19.3% while turtle grass, Thalassia testudium was common only at this station, with an average of 13.0% of the total bottom grass cover. The percentage grass cover for a particular species is not necessarily exclusive of the other seagrass species since Halodule and Syringodium were commonly found growing within the same transect meter.

The shore at this station was mostly a sand-shell-rock mixture, typical of spoil deposits in this region of the lagoon, with no conspicuous supralittoral vegetation. As with the WAB station, small oyster colonies occasionally were found on larger rocks within the littoral zone. Approximately 200 m northwest of the LPT site is a conspicuous mangrove shore and a small Spartina bed.

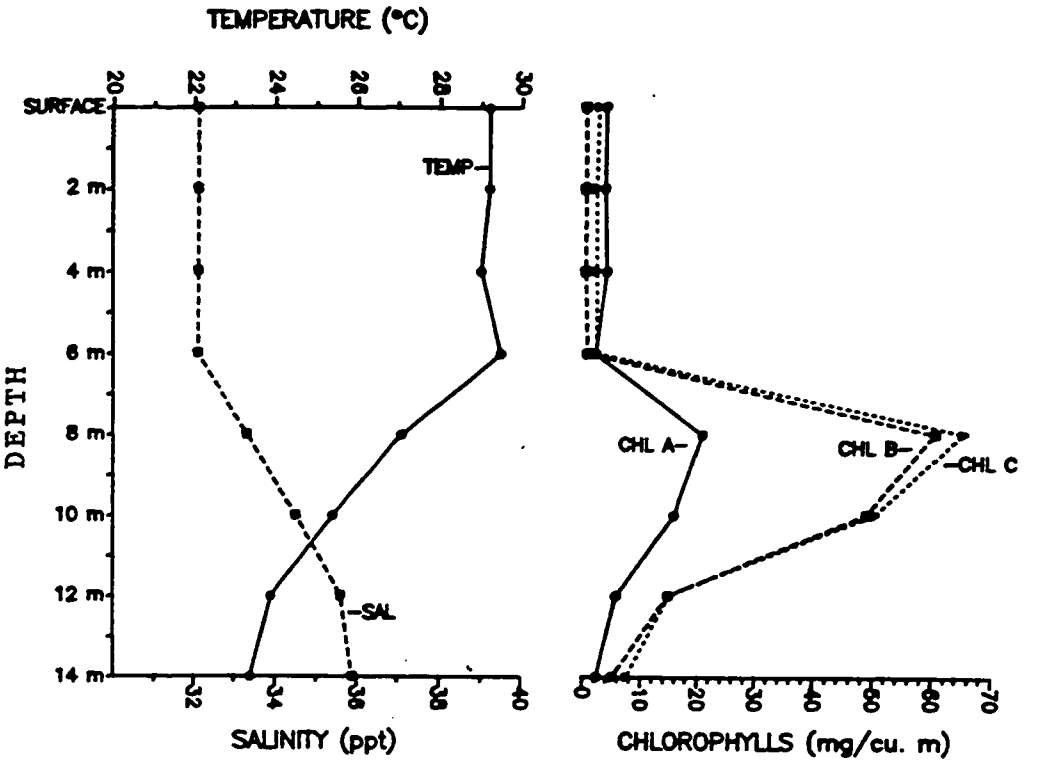
Jim Island (JIS): Station No. 4 - This station is situated on a spoil deposit across a 114 ha seagrass bed 7.5 km south of LPT and opposite Ft. Pierce Inlet (27°00.0' N.; Fig. 1). A large freshwater flood control canal (Taylor Creek) empties into the lagoon on the west bank of the estuary across from this study site.

Initially the study site had a 41% cover of principally Halodule and Syringodium, with small amounts of Thalassia and Halophila adjacent to a mangrove shore (Fig. 3). Due to a change in accessability the study site was moved in April to a location 0.93 km

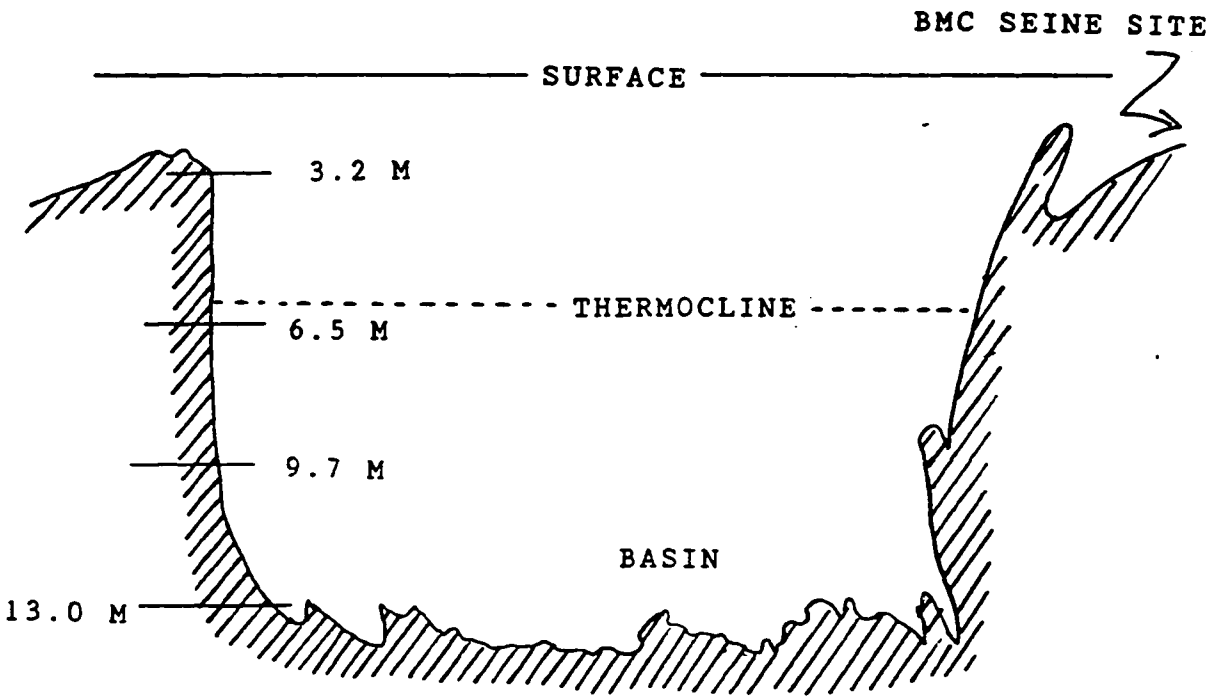
AMERICAN OVERSIGHT

west-northwest of the first site. This latter site had 74% grass cover consisting principally of Syringodium and Halodule. The shore here was sand and shell with no mangrove cover.

Big Mud Creek (BMC): Station No. 5 - This station is located near the eastern terminus of a saline barrier island cove known as Big Mud Creek (27°00.0'N.;Fig. 1), 15.2 km south of the JIS. The collections were made on the northwest foot of the A1A bridge embankment which is approximately 1.6 km from the open waters of the Indian River lagoon. The cove was lined with mangroves except for the small beach used for landing the net. The net site is one of the few areas within the cove that is not over 10 m deep as the cove had been dredged for spoil to depths of 15 m from its mouth to a few meters past the study site (Fig. 4). The spoil was used to fill an impounded mangrove marsh for the construction of a nuclear power plant on the south shore of the cove several years prior to this study.



The mean total seagrass cover was 64.7% consisting predominantly of Halodule with some Halophila johnsonii (primarily February).



The edge of the BMC basin is vertical, dropping abruptly to depths over 10 m at a distance from shore of 10 to 70 m throughout most of the cove east of the A1A causeway (Fig. 4). A survey of the dredged basin on 26 February, 25-26 June 1975 demonstrated that below a depth of 6 m salinity and temperatures changed considerably and dissolved oxygen levels declined to a minimum of 1.6 ppm (Fig. 4). A peak in plant pigments occurred at 8 m (chlorophyll a,b,c, carotenes and phaeopigments; Fig. 4)) and trawls made near the bottom of the basin came up packed with living and decomposing drift algae (mostly

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Gracilaria spp. Acanthophora spicifera, Chondria tenuissima, Dictyota dichotoma and Hypnea spp.), and mangrove and seagrass leaf litter.

Jensen Beach (JBC): Station No. 6 - JBC is located off the northwest beach of the west causeway spoil island of the Jensen Beach bridge causeway, 11.2 km south of BMC and 12 km north of St. Lucie Inlet (27°00.0'N.; Fig. 1).

Syringodium and Halodule were present with a mean seasonal coverage of 21.0%, Syringodium being dominant (Fig 3). There was no littoral shoreline vegetation, just a sand-shell-rock beach with a Casuarina equisetifolia stand at the apparent high spring tide mark.

Bessie Cove (BCV): Station No. 7 - BCV is the southernmost station (27°11.9' N.; Fig. 1), located 9.4 km south of JBC on the east bank of the lagoon 2.6 km north of St. Lucie Inlet. The mouth of the St. Lucie River, the largest freshwater tributary to the Indian River lagoon is approximately 3.2 km southwest of the BCV site. Coriolis forces, the proximity of St. Lucie Inlet and the geological configuration of the lower reaches of the river (Sewell Point) keep most of the freshwater flowing away from this site and ocean tidal water flowing over it.

Mean seasonal seagrass cover was 50.8% with Syringodium dominating the little Halodule present (Fig. 3). The shore at this station was predominantly sand although a few Rhizophora occurred along the shore both north and south of the beach site. A wooden dock approximately 40 m in length extended along the south perimeter of the seine site approximately 10 m from the barrier net.

AMERICAN OVERSIGHT

Drop Net Stations 8, 9, 10 - These sites were located adjacent to the LPT seine station (27°32.1'N; Fig 1) and were situated only in seagrass beds (i.e. no sand) consisting principally of Syringodium, with limited amounts (<10%) of Halodule and Thalassia. Station 8 was situated 40 m from the beach seine site on the north peninsula. Stations 9 and 10 were set on a north-northwest (335') transect from station 8 at intervals of 60 to 70 m and were, therefore, slightly further from the nearest shore than station 8 (station 9 was 60 m from shore, station 10 100 m from shore). Physical and hydrological parameters recorded for LPT also characterize these sites.

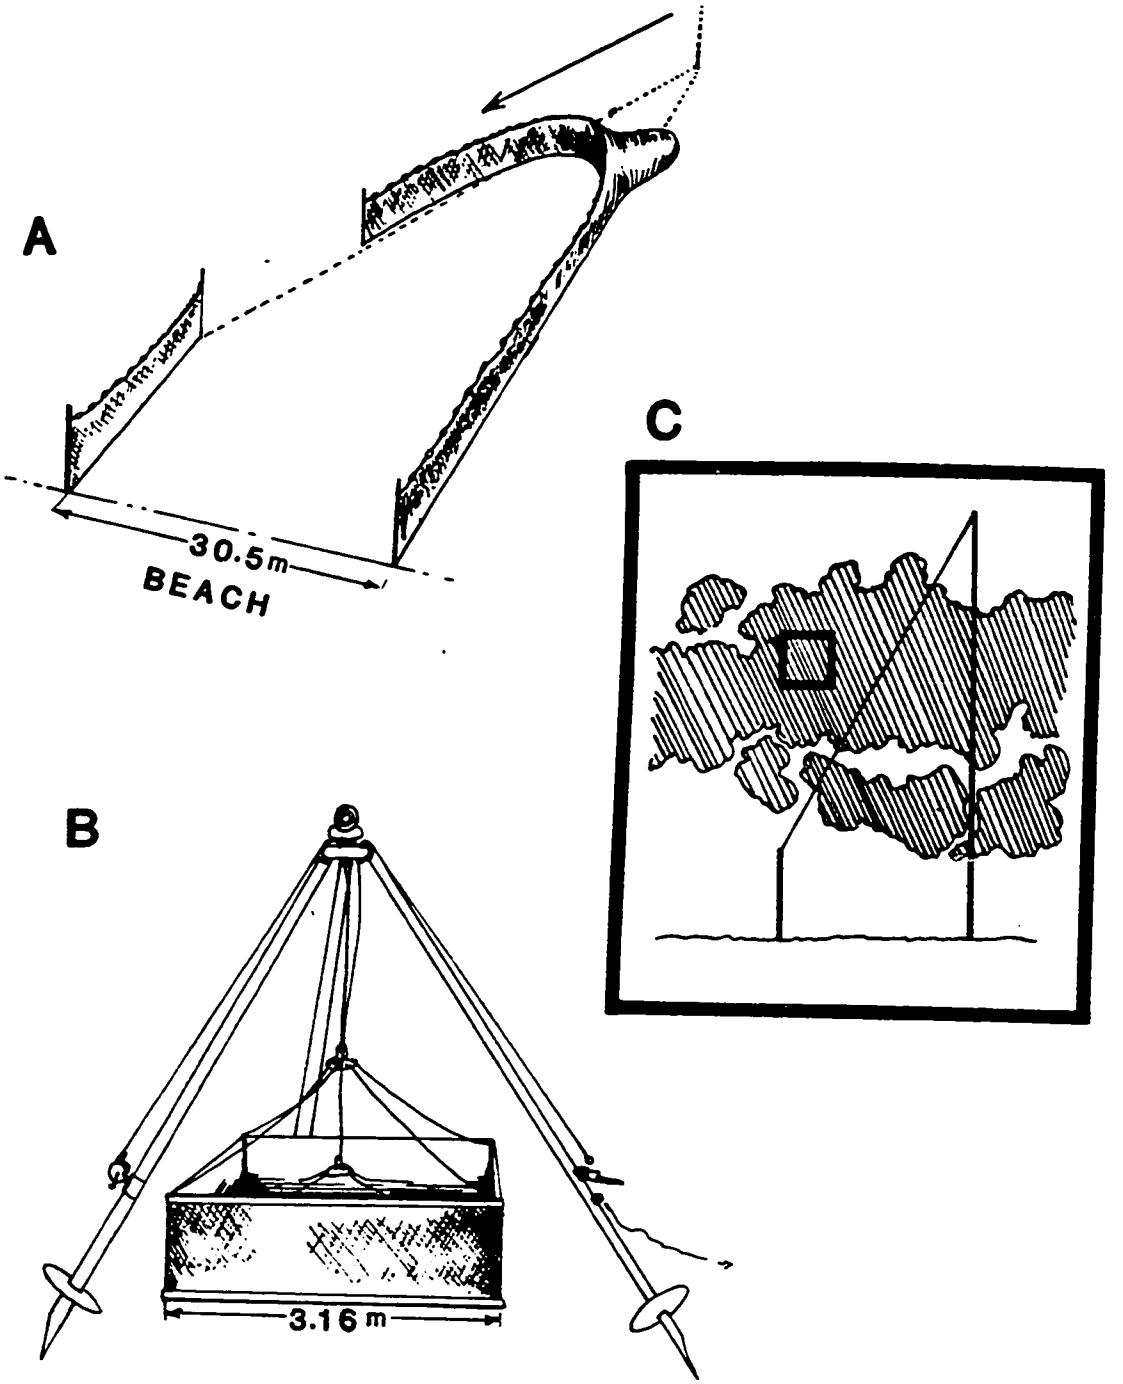
Drop Net Stations 11, 12, 13 - Station 11 was situated in a Syringodium bed with small amounts of Halodule (<10%) adjacent to a sand bar (27°33.4'N, 80°20.5'W; Fig. 1) 2.35 km, heading NNE (20°) form the LPT drop net sites 8-10. The site was 500 m from the nearest shore, a mangrove lined island, Round Island. Stations 12 and 13 were situated approximately 20 m from one another, in line on the sand bar and 30 m from station 11. The bar was over 100 m long and had a coarse shell/sand substrate with few coquinoid rocks scattered across the surface. It was 550 m from the nearest shore.

Drop Net Stations 14, 15, 16 - These three stations were located together on the same seagrass bed, 100% Syringodium, and were 900 m SE of the JIS seine station, but closer to the entrance of Ft. Pierce Inlet (27°28.1'N., 80°19.0'W; Fig 1). All nets were placed within 2 m of one another for simultaneous collections within the same seagrass bed and all locations were 400 m from the nearest shore.

AMERICAN OVERSIGHT

METHODOLOGY

Collections/Sample Treatment - Two complementary quantitative capture techniques were utilized, each with its own inherent gear bias (Fig. 5). A seine technique was utilized to cover a large area and trap larger seagrass predators, while drop nets were used to capture more cryptic and diminutive species.



The portable drop net system was previously described by Gilmore et al. (1978). It allowed 10 m^2 samples to be taken, and when three nets were used simultaneously, 30 m^2 could be sampled instantaneously. The drop net was released one h after it was set, once a month for one year beginning in April 1976 at stations 8 through 10, both between 0900 and 1200 h and also one to two hours after sunset, i.e. 1900 to 2200 h. Stations 8 through 10 were maintained in seagrass beds consisting principally of Syringodium, with typically less than 1% Halodule and Thalassia. The net was moved 3 to 5 m away from the morning drop for the evening drop.

Some inaccurate descriptions of the effect of the drop net technique on the seagrass bed are in the literature and should be corrected here as their account covers the period in which the fish in this study were collected. Gore et. al. (1981), state that "...most spermatophyte blade (and much rhizome) biomass was obtained during the cleaning sweeps [of the drop net seine]." Some blade, rhizome and epiphytic algal material was collected but only drift algal material was significantly removed from within the drop net sample area by the

AMERICAN OVERSIGHT

Figure 5. Fish capture equipment and area sampled (A) 67 m seine transect over 1,160 m^2; (B) 10 m^2 drop net; (C) aerial view of both techniques and sample area enclosed by each relative to a seagrass bed.

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

drop net seine, although large amounts of drift algae were collected. In fact, the objective in developing this technique was to efficiently collect fish without damaging the seagrass bed, as the same location was visited monthly. Hence, a rigid seine with a rounded frame (5.0 cm diameter aluminum pipe) was used.

Day/night drop net samples were also taken monthly at stations 11, 12, and 13 from 24 October 1977 to 16 October 1978, while only diurnal samples were taken at stations 14, 15 and 16 from 22 November 1977 to 17 October 1978. All sites except 12 and 13 were Syringodium seagrass meadows.

Seine samples were taken at station 3 adjacent to drop net sites 8 through 10 from 21 April 1976 to 25 April 1977 (Fig. 1). A seine haul was made within an hour of each drop net sample in a seagrass bed contiguous with and approximately 75 m from the drop net site at station 8. A 62 x 1.8 m bag seine (3.2 mm mesh) was pulled with one end anchored on shore and the seaward end stretched perpendicular to shore (Fig. 5). A 15.2 x 1.8 m barrier net (3.2 mm mesh) was set 30.5 m down the beach and parallel to the 62 m seine. The seaward end of the 67 m seine was pulled by hand to the seaward end of the barrier net and then to shore covering approximately 1,160 m^2/haul. After the initial set-up, the seine haul is made within 5-10 min. All seine hauls made utilized this technique. With only nine omissions, seine station 3 was sampled monthly from 20 March 1974 to 18 December 1980. Seine stations 2 and 4 were sampled from 19 March 1974 to 28 April 1977. Stations 1, 5, 6, and 7 were maintained from 27 March 1974 to 27 August 1975, with some exceptions.

AMERICAN OVERSIGHT

Monthly seagrass transects were made at each seine station while the stations were being monitored from August 1974 to August 1975. These transects were made by visual examination of the species of seagrass present at each meter along a 100 m transect line set perpendicular to the shoreline at 10 m intervals along the seine transect beach. The visual transects were occasionally augmented by benthic cropping by hand.

Water temperature, salinity, tide level, moon phase, percent cloud cover, wind speed and direction, and approximate water clarity were recorded at the time of each fish collection. Other research groups collected organic and inorganic water chemistry parameters, phyto and zooplankton samples, macrocrustacean and algal biomass data and benthic core samples at many of the study sites simultaneous with our collections, or within 48 to 96 hrs. Station 5 (Big Mud Creek; BMD) was bathymetrically surveyed with boat transects using a fathometer.

All specimens taken using both drop net and seine were fixed in 10% formalin, washed and preserved in 70% ethanol, identified, counted and measured. They were blotted and weighed (wet weight) after the wash and prior to preservation. Weighed random subsamples were counted and measured for species with more than 1000 individuals per sample. The total sample was also weighed in increments to determine the total individual count.

Statistics - All numerical data were stored on IBM, DEC and PRIME mainframe computer systems either at the Smithsonian Institution in Washington, D.C. or at the Harbor Branch Oceanographic Institution.

AMERICAN OVERSIGHT

This allowed various numerical treatments and organization of data which otherwise would have been impossible with a series of large data files. A variety of statistical analyses were utilized for community treatments, most notably, the Shannon-Weaver diversity index (Pielou, 1966), "evenness" index of Pielou (1966), and the Morisita and Czechanowski quantitative and qualitative similarity coefficients. All individual count data were log-transformed prior to similarity computations and during various other statistical treatments. Kruskal-Wallis, Mann-Whitney, one-way and two-way ANOVA, Kendall's W and Chi-square tests were also performed where necessary (Sokal and Rohlf, 1969). Numerical abundance (no. individuals and no./m^2), and weight (species sample weight and biomass g/m^2) were the individual species attributes used most often for individual species analyses. Percent frequency of occurrence was also used and was calculated based on the number of samples in which a species occurred out of the total number of samples taken. An index of relative importance was calculated for each species using the following formula:

$$I = \frac{LN\ (N+1)}{n_2 / n_1}$$

where n_1 is the number of occurrences of a species, n_2 is the total number of collections, and N equals the number of individuals of the particular species collected. This index allowed a more realistic relative ranking of species which were patchily distributed both in space and time. Therefore, species occurring rarely in large

AMERICAN OVERSIGHT

numbers, such as schooling engraulids and clupeids, or frequently in low numbers, such as certain top predators, i.e. sphyraenids, Cynoscion, and Sciaenops, were treated more equitably.

The similarity index used for spatial and temporal similarity analyses was the quantitative index of Czechanowski (= Bray Curtis; Bloom 1981) using flexible sorting at beta = - 0.25. The qualitative index of Czechanowski was also calculated where appropriate. Both normal and inverse analyses were run on number of species, percent frequency of occurrence, and log-transformed number of individuals.

Nomenclature - In nearly all cases the scientific and common name nomenclature follow Robins et al (1980). The latest published classification is used when exceptions to Robins et al (1980) are found. The classification of the regional species of the Eucinostomus argenteus complex (Gerreidae) follow Matheson and McEachran (1984). Therefore, Eucinostomus harengulus Goode and Bean has been found to be the abundant estuarine mojarra in our collections and was previously identified as E. argenteus Baird. Diapterus plumieri (Cuvier) (Gerreidae) is now Eugerres plumieri (Valenciennes) after the revision of Deckert and Greenfield (1987). The opossum pipefish, formerly Oostethus brachyurus (Bleeker) [also = O. lineatus (Kaup)], is now Mycrophis brachyurus (Bleeker) after the revision of Dawson (1985).

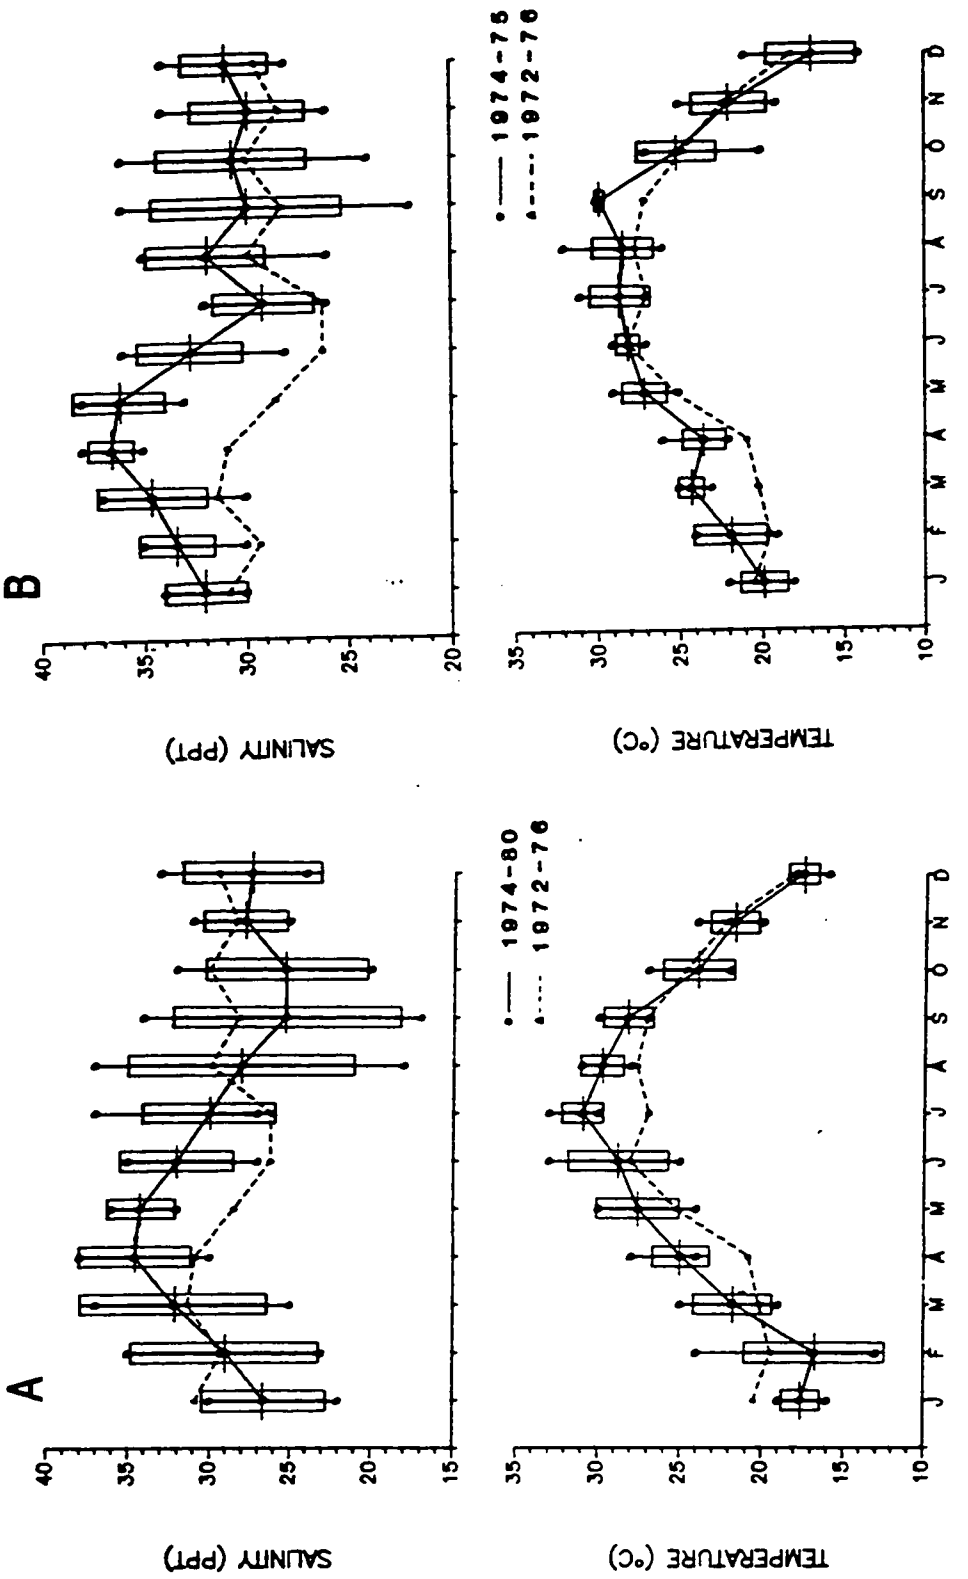
AMERICAN OVERSIGHT

RESULTS

Hydrology: Water Temperature and Salinity

The Indian River lagoon has been described as a mesohaline estuary with little freshwater influence from mainland sources. This is a somewhat accurate description; however, if the three ocean inlets associated with this study were not artificially maintained, the mean salinities would undoubtedly be reduced. This is partially due to the extensive flood control canal system, which drains into the lagoon from the mainland, and the fact that much of this drainage empties into the lagoon adjacent to ocean inlets in the study area from Sebastian Inlet south. The only exception is the section of the lagoon between the Wabasso and Link Port stations which receives fresh water from three major relief canals and a variety of smaller canals in the vicinity of the city of Vero Beach. Floodgates on these canals (Indian River County) are typically opened when 24 mm or more of rain falls within a 24 hr period anywhere within the drainage district. Larger canals emptying into the Sebastian Creek drainage, Taylor Creek adjacent to the JIS station, and the St. Lucie Canal of the St. Lucie River open under higher rainfall conditions, generally major storm events. They all release fresh water principally during the wet season which extends from late May or June to November or December. Peak wet season rainfall occurs typically from August to October. The dry season usually begins in January, although periodic cold fronts during the winter may bring some rain. The dry season peaks in April to early May.

AMERICAN OVERSIGHT



Regional water temperatures are influenced by three major atmospheric and hydrological conditions (1) the warm southeast trade winds blowing from late spring to early fall (and associated cloud cover, humidity and rainfall) (2) periodic cold frontal systems passing over the Florida peninsula from the northwest from December to as late as April (and associated cloud cover, humidity and rainfall) and (3) the proximity of the warm Florida Current, the western edge of which passes 4 to 30 km east of most of the lagoon stations. During the warmer months warm eddies may break away from the Florida Current and approach the coast. In addition, periodic cold upwellings may also occur during this period and may reduce water temperatures at lagoon inlets (Taylor and Stewart, Jr. 1958). Detailed study of local heat flux processes in the Indian River lagoon were conducted within the study area by Smith (1981, 1983a, 1983b).

Salinity- Mean annual salinities remained above 25 ppt throughout the seven year study period at LPT, while mean salinities from September 1974 to August 1975 at the seven seine stations averaged somewhat higher, generally above 30 ppt (Fig 6). The highest mean annual salinities were recorded during the first and last years of the study and the deviation in these salinities was typically low during these "dry" years. Annual variation in salinity at LPT between 1974 and 1980 was greater than the station variation in 1974-75 (Fig. 7). The wet years 1976, 1978-79 were more variable (SDV range of 4.002-5.401) than the dry years (1975, 1980; SDV range 2.640 - 3.801). The total salinity range also reveals this trend with LPT annual range for 1974-1980 of 17-38 ppt (21 ppt) while stations 1-7 ranged only 26-38 ppt

AMERICAN OVERSIGHT

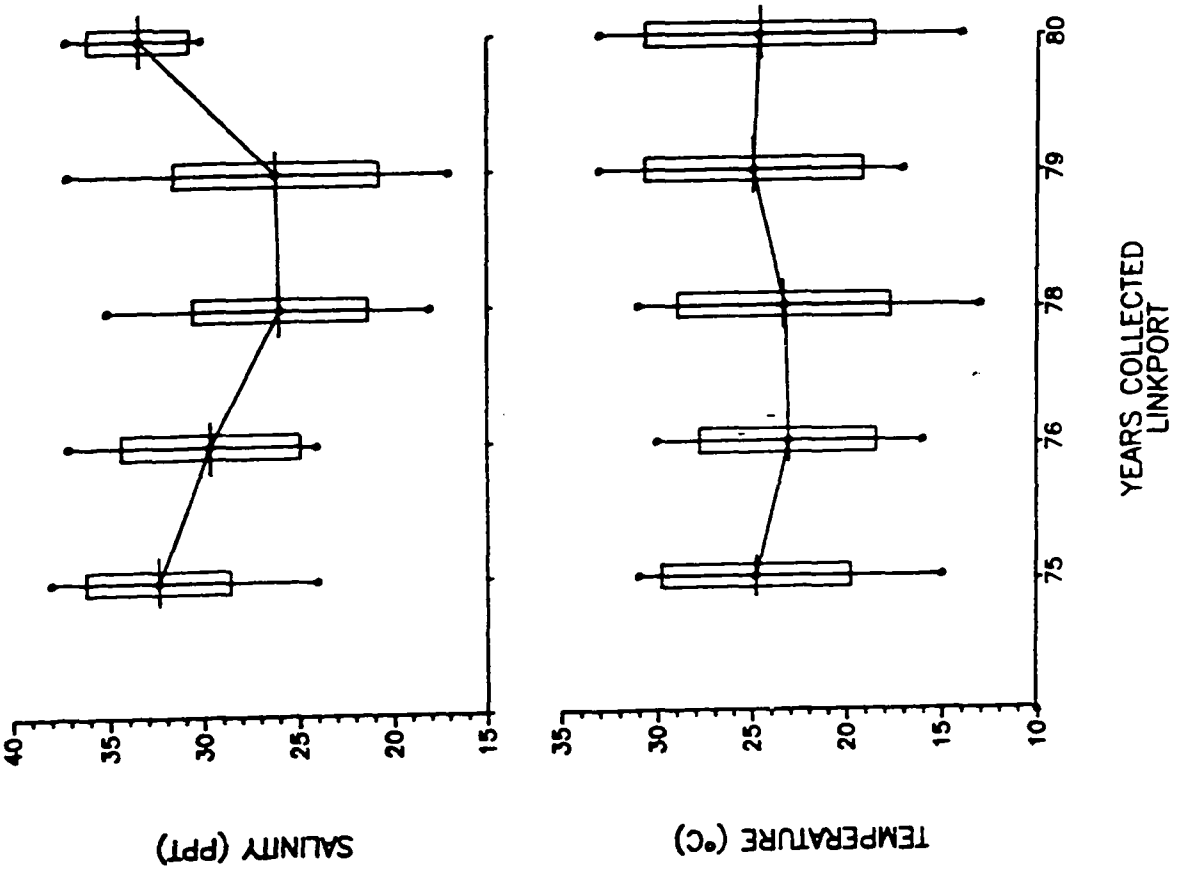
AMERICAN OVERSIGHT



AMERICAN OVERSIGHT

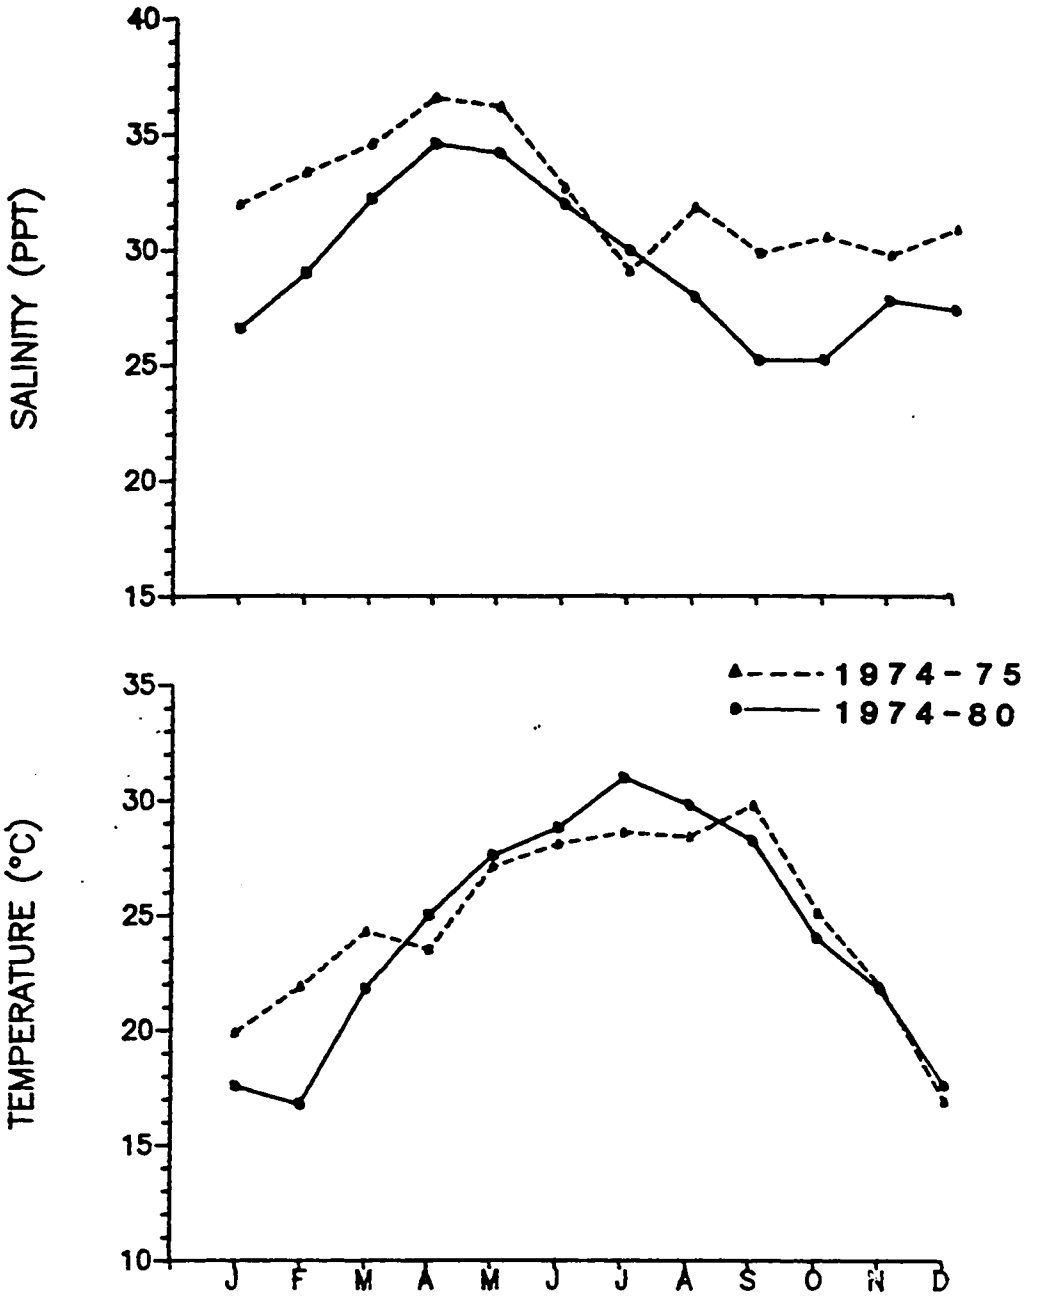
(12 ppt) during 1974-75. The salinity means between stations only varied 4.1 ppt in 1974-75, while they varied 7.4 ppt at LPT over the seven year period (Figure 8). A similarity analysis (Fig. 9) demonstrates the distinctness of the 1975 study year from the other study years which unfortunately was the only year in which all seven seine study sites were maintained (Figs 6-9). The differences were significant (ANOVA $P \leq 0.05$, $F_{[4,55]} = 7.61$).



Monthly/seasonal salinity patterns revealed the distinct dry-wet season pattern described earlier for rainfall. Mean salinities stayed above 30 ppt from February to June for the six year period and for all stations monitored during 1974-75 (Fig. 6). They began increasing in January to a high in April and declined from May to June. The April high was also associated with the lowest deviation in salinity. The greatest deviation was consistently seen during all years when the salinities were lowest from August through October. Salinities never ranged below 15 ppt during any year and the highest recorded was 38 ppt. A similarity analysis further demonstrates this seasonal pattern (Fig. 9).

During 1974-75 the lowest salinities were recorded at the WBC(2) station, which also had the largest range, along with LPT(3) which had a larger standard deviation (Fig. 7). The highest mean salinities consistently occurred at inlet stations, i.e. SEB(1), JIS(4) and BCV(7). The lowest range and deviations in salinity occurred at the southern stations BMC(5), JBC(6) and BCV(7) where there is little or no freshwater influence and greater coastal water access. However, salinity differences between the northern and southern sections of the

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

TEMPERATURE

AMERICAN OVERSIGHT

lagoon during 1974-75 were not significant (ANOVA $P \leq 0.05$, $F_{[6,74]} = 2.32$) even though mean salinities were obviously higher for the southern stations. Salinity variation was greater for the northern stations.

Temperature- Mean annual temperatures remained above 23°C. for all six study years and above 24°C. for all stations during 1974-75 (Figs 6 & 7). The first and last two years of study were the warmest while 1977-78 proved to be the coolest with water temperatures down to 13°C. at the time of fish collection at LPT. The most moderate year was 1976 while the greatest deviation was recorded for 1980. The seven year annual variation in water temperature at LPT was greater than the interstation range during the same year, 1974-75. However, there was no significant difference in temperature means during 1974-1980 at LPT (ANOVA $P \leq 0.05$, $F_{[4,55]} = 0.30$) or interstation means 1974-75 (ANOVA $P \leq 0.05$, $F_{[6,73]} = 0.02$). These data demonstrate the homogeneity of regional temperatures with little variation in the means (LPT mean range = 1.8°C) over several years and even less between stations during the same year (Station 1-7 mean range of 0.6°C). These data, like those for salinity, demonstrate again that the annual variation in meterological and hydrological conditions is consistently greater than the latitudinal variation within the same year over a distance of 82 km. The north-south temperature variation was not as great as the annual variation. A similarity analysis demonstrates the distinctness of the 1975 study year from the remainder, which unfortunately was the

AMERICAN OVERSIGHT

only year in which all seven seine study sites were maintained (Fig. 9). However, as stated, the differences were not significant.

Mean monthly water temperatures never went below 16°C. for 1974-75 at all stations and also for all seven years at LPT (Fig. 6-8). The lowest temperatures were recorded from December to February even though water temperatures during February occasionally reached 24°C. Temperatures never went below 19°C for the remainder of the year (LPT 1974-1980), and means remained above 21°C. Water temperatures typically began to climb between March and February and began to decline between July and August with the onset of the period of heaviest precipitation. The smallest deviation in temperature occurred from July to January. However, the greatest interstation variation occurred during this same period, October to December during the 1974-75 study year. Virtually no interstation variation occurred during September 1974. A similarity analysis further demonstrates this seasonal pattern (Fig. 9).

Interstation water temperature comparisons reveal a north-south pattern in minimum water temperatures with a gradual warming to the south, particularly at inlet locations (Fig. 7). Water temperatures never went below 19°C at the JIS or BCV stations though the annual means were not significantly different from the other "upstream" stations. Southern inlet stations also had the lowest deviation in water temperature (SDV of 2.877-3.387, all others 4.059-5.368) with lower thermal maxima thus providing a more stable thermal environment than the other lagoon study sites.

AMERICAN OVERSIGHT

Technique Perspective

The two gear types utilized proved to be complementary, as each captured some species more readily than others. The seine captured a mean of 23 species and 12,853 fish per collection. The mean individual weight of these fish was 1.90 g (Table 1). The most numerous fish were schooling planktivores which, are typically patchily distributed. Therefore, the seine was particularly effective in capturing engraulids, clupeids and atherinids. Mugilids were also more effectively captured by the seine, however, both mullet species were adept at jumping over the float line and the seine has subsequently underestimated the contribution of these species. Large predators were also captured with the seine, and ranged up to 500 mm SL (e.g. Centropomus undecimalis to 500 mm, Sphyraena barracuda to 450 mm, Strongylura notata and S. timucu to 450 mm SL). However, the seine lead line tended to pass over small benthic fishes such as gobiids and blennids as it moved over compressed seagrass blades, while the drop net captured these species readily. Both techniques captured the abundant syngnathids, sparids, haemulids, sciaenids and gerreids readily. However, the drop net did not capture the most numerous species as often as the seine and most species, except the gobiids, had a higher frequency of occurrence in seine samples than in drop net samples simply due to the larger area sampled by the seine (Table 2). Notably absent from the seine were large spotted seatrout, Cynoscion nebulosus, (i.e. over 150 mm SL) which are readily captured

AMERICAN OVERSIGHT

in seagrass meadow habitats with other gear types, including baited rod and reel and gill or trammel nets. A gill net set around the seine transect during one operation at LPT captured a 585 mm C. nebulosus and a 950 mm tarpon, Megalops atlantica, demonstrating the agility of these species in avoiding seine capture.

In the following data treatments, drop net and seine collections will be separated and/or combined depending on the nature of data collected by each technique.

AMERICAN OVERSIGHT

Community Definition

A total of 1.982 million fish (1,685.2 kgs) were captured representing 164 species in 54 families (Table 3, 4 and 5). Two hundred eight seine collections (covering 241,280 m^2) were made between 19 March 1974 and 18 December 1980 while 192 drop net collections (1,920 m^2) were made from 21 April 1976 to 17 October 1978. Diurnal seine collections averaged 23 species and 9.5 thousand fish per collection (mean density of 8.2 fish/m^2), while drop net collections averaged 4 species and 60 fish (mean density of 6.0 fish/m^2).

Several fish families contributed markedly to species richness in seagrass ecosystems. The most speciose teleostean family, Gobiidae, contributed 11 species, Carangidae 10, followed by Sciaenidae (9), Gerreidae (8), Cyprinodontidae (8), Sparidae (7) and Syngnathidae (7). Although several of these families made major contributions to the total landings, the engraulids (5 species) and clupeids (6 species) dominated the numerical catch. The shallow water estuarine anchovy, Anchoa mitchilli represented 76 % of the number of individuals landed (1.5×10^6, and 576.3 kg; Table 3). Three other anchovy species (Anchoa hepsetus, A. lyolepis and A. cubana) and four clupeids

AMERICAN OVERSIGHT

(Brevoortia smithi, Harengula jaguana, Opisthonema oglinum and Sardinella aurita) also occurred in considerable numbers (207,852 individuals, 13.6%). However, when the percent frequency of occurrence of engraulid and clupeid species was examined, only one species was included in the top twenty.

Non-planktivorous species were also abundant, as the sparid, Lagodon rhomboides, the gerreids, Diapterus auratus, Eucinostomus harengulus and E. gula, and the sciaenid, Bairdiella chrysoura, were represented by over 10,000 individuals each. These species typically occurred in over 50% of the collections (total of 133,128 individuals, 6.7%). In all, 54 species were represented by over 100 individuals and occurred in over 6% (19) of the collections (Table 3). Therefore, 110 species were represented by less than 100 individuals. This latter group will not be examined in detail but will be included in spatial community comparisons, diversity and richness treatments. Fifty-four species, or 33% of the fishes collected, are considered the core seagrass community for the most detailed analyses. These species qualify for guild classifications based on their abundance and an adequate knowledge of their life history.

When the species were ranked by weight, several additional species appear in the top twenty (Table 5). Top predators are well represented with the snook, Centropomus undecimalis, redfin needlefish, Strongylura notata, great barracuda, Sphyraena barracuda and gray snapper, Lutjanus griseus contributing 151.54 kg (9% of the total) to the total biomass. The mullets Mugil curema and M. cephalus also contribute significantly with 132.45 kg (8% of the total) between the two species.

AMERICAN OVERSIGHT

Using the number of individuals and the % frequency of occurrence in the samples an importance index was calculated (see Methods). This allowed a more realistic evaluation of patchily distributed species, which were extremely abundant, versus those which occur commonly in lesser numbers. Fifty-six species having index values above 0.30 (also includes species in the top numerical ranking, i.e. 100 or more individuals collected) are ranked in Table 6. Representative species are depicted in spatial and trophic guilds in Table 7. These species define the regional seagrass fauna. Most of these species are plotted in Figure 10 with 45 representative species in eight guilds designated with separate symbols. Due to their numerical importance, these 45 species define the seagrass fish community characteristics in the following sections.

AMERICAN OVERSIGHT

Table 6. Top fifty-four species (i.e. those with over 100 individuals collected) ranked by abundance/occurrence index (see text). Two additional species are also ranked as their indices were also above 0.30.

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Spatial Distribution

Habitat Associations - Before presenting data on the distribution of fishes within and between seagrass beds of varying size, the composition and location of the seagrass meadow fauna need further definition based on ichthyofaunal comparisons with other habitats. Quantitative collections made in two habitats in addition to seagrass meadows allow comparison of species distributions along with a more detailed definition of spatial species guilds. These two habitats are the herbaceous halophyte marsh/mangrove swamp, a basically intertidal and marginal habitat found throughout the lagoon, and the open sand bottom habitat, which varies considerably in size and consistency.

Table 8 includes data from 3000 collections made in marsh/mangrove swamp habitats made from September 1982 to September 1987 (Gilmore et al. 1985, 1986, 1988). Although 84 species were collected in the marsh/mangrove swamp habitat, 96% of the individuals collected were cyprinodonts or poeciliids, which are principally omnivorous species. Most of these associate with the benthos, except the surface dwelling mosquitofish, Gambusia affinis. Poeciliids were virtually absent from the seagrass meadow as were the numerically dominant marsh cyprinodonts, Fundulus confluentus and Cyprinodon variegatus. However, Fundulus similis was much more abundant at the WBC seagrass site than at any other seagrass or marsh study site. Schooling planktivores such as the engraulids and clupeids which numerically dominate the seagrass fauna were not well represented in marsh/swamp collections, nor were the common seagrass epibenthic and

AMERICAN OVERSIGHT

Table 8. Interhabitat faunal comparison between seagrass and adjacent mangrove swamp using number of individuals of most abundant species from both habitats (i.e. catch of over 100 individuals). Percent frequency of occurrence is given in parenthesis. Mangrove swamp data is from 3,000 collections with comparable gear types; Gilmore et al 1985, 1986, 1988.

neritic perciforms, Eucinostomus gula and Lagodon rhomboides. Thus, these two fish communities share few numerically dominant species and are sufficiently distinct on a qualitative/ quantitative level to be considered independently. However, there are some species which occur often in both habitats (Table 8), the most notable of which are Elops saurus, Lucania parva, Centropomus undecimalis, Eucinostomus harengulus, Diapterus auratus, Lutjanus griseus, Archosargus probatocephalus, Bathygobius soporator, Achirus lineatus and the mullets Mugil cephalus and M. curema.

Collections made over sand bottoms (drop net stations 12 and 13) within 10 m of a seagrass meadow (station 11) revealed differences between the two bottom types, with the nearest seagrass station, RDI(11), showing the greatest difference (Tables 9-12). All fifteen species collected over sand were also captured in seagrass beds but differed significantly in abundance between the two habitats (Table 13). Lagodon rhomboides, E. gula, O. chrysoptera, B. chrysoura, A. mitchilli, the gobiids and syngnathids were abundant at all seagrass meadow drop net stations, but not over open sand bottoms. However, 11 D. auratus were taken over 240 m^2 of sand (stations 12, 13; mean fish density of 0.045/m^2) while only 16 were collected in all seagrass bed drop net samples covering 840 m^2 (stations 8-11, 14-16; mean fish density of 0.019/m^2). This implies that the large numbers of D. auratus collected with the seine may have been captured on sand bottom over which the seine passes as it is pulled between the grass bed and the beach.

AMERICAN OVERSIGHT

Table 9.(A) Station comparisons values of Kendall's W conducted on 27 top species ranked by relative numerical abundance collected in the drop nets. All W values are significant at P < 0.01.

Seagrass Meadow Heterogeneity - In order to determine heterogeneity within the seagrass bed, drop nets were released simultaneously within 2 m of one another in a pure stand of Syringodium at JIS (stations 14-16). Quantitative similarity analyses revealed that these stations had higher values (.83 - .86) than upstream stations (.75 - .86)(Fig. 11). The relationship among these inlet collections was also found to be significant. Values of Kendall's W were significant both for number of individuals and percent frequency of occurrence (W = .9322, .9382, DF = 26, $P < 0.01$, respectively; Table 9). These analyses revealed that these proximate stations had the greatest faunal homogeneity, both qualitatively and quantitatively (Fig. 11; Tables 9 - 12). The only major difference between the collections was the single capture of a school of Harengula jaguana and Opisthonema oglinum at station 16 while these same species were absent from collections made within 3 m at stations 14 and 15. These schooling planktivores were rarely captured in any of the drop net samples and were subsequently eliminated from many of the statistical analyses due to their low frequency of occurrence (=patchy distribution). The distribution of Lagodon rhomboides among the samples showed no significant difference in rank order based on number of individuals collected during 12 months (Kendall's W = .9245, DF = 11, $P < 0.01$; Table 11). This species has the same seasonal distribution pattern based on a comparison of rank order of abundance among inlet drop net stations (Table 11). Due to its numerical dominance of the seagrass fauna at stations 14, 15 and 16, it is largely responsible for the high degree of homogeneity seen between the drop net stations 14-16. The same number of L. rhomboides were captured in at least two of

AMERICAN OVERSIGHT

the station 14-16 drop nets 50% of the time (Table 13). Another abundant species at this site was Gobionellus stigmaturus, which only occurred at stations 14-16; however, it was not as evenly distributed (Table 12).

Seagrass meadow ichthyofaunas remained homogeneous even though samples were made several tens of meters apart. The drop nets at LPT, stations 8-10, 7.5 km north of stations 14-16, were set 60 - 70 m apart but still showed significant association, revealing faunal continuity at this greater spatial separation, though less than stations 14-16 (Fig. 11; Tables 9-10). The temporal ranks of abundance L. rhomboides did not differ significantly between stations 14 and 15, 14 and 16 (Table 11) indicating similar spatial requirements and recruitment for both locations, i.e. upstream stations 8-10 and inlet stations 14-16. However, more fish were collected at stations 8-10 due to the capture of large numbers of the code goby, Gobiosoma robustum (1,113 individuals) and bay anchovy, Anchoa mitchilli (808 individuals; Table 10 drop net totals). The latter species was totally absent from drop net collections at stations 14-16. Station 10 was was further from shore than 8 or 9 but did not show significant differences from the latter two locations (Table 9).

When drop net stations 8-10 are compared with station 11 2.3 km to the north, there was no significant difference between 27 species ranked by number of individuals and % frequency of occurrence (Table 9). However, fewer fish were collected at this latter location, particularly fewer L. rhomboides (Table 13). This latter station is much further from the nearest shore (500 m) than the other sites which

AMERICAN OVERSIGHT

may be the reason fewer pinfish, Gobionellus boleosoma, Orthopristis chrysoptera and Eucinostomus gula were captured at this site (Table 10). However, the numbers of A. mitchilli, G. robustum, M. gulosus, and S. scovelli were not significantly different from the LPT sites and are largely responsible for the similarity between station 11 and 8-10 (Fig. 11; Tables 9-12).

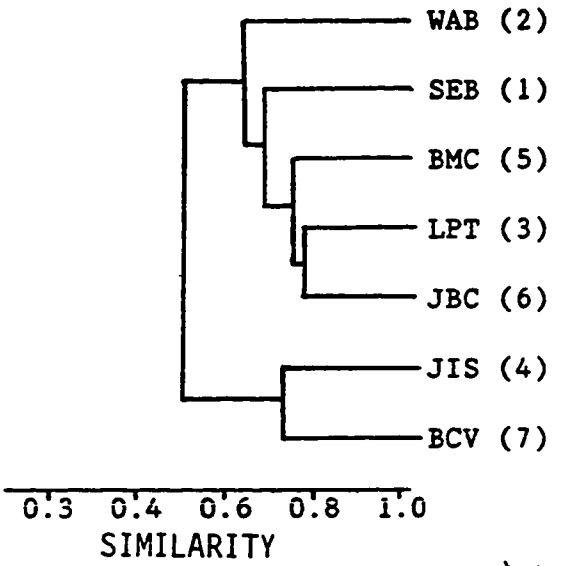
When these upstream stations (8-11) are compared with the JIS inlet stations the effect of the inlet on the seagrass fauna is evident. Even though the same seagrass species (Syringodium filiforme) was dominant at all locations, the similarity among the upstream stations is greater than between these stations and the inlet sites, stations 14-16 (Fig. 11; Tables 9-13). Fish densities were typically lower at the inlet sites (3.20-6.08/m^2) than at the upstream seagrass sites (5.63-11.98/m^2; Table 1). In addition, an average of 4-5 species were captured per station at JIS, 6-7 at the LPT/RDI sites. These data consistently revealed significant relationships between upstream drop net stations although they may be 2.4 km apart. Consistent differences were also apparent between all upstream stations and downstream stations, revealing the level of homogeneity between sites based on geographic proximity and proximity to an ocean inlet.

Geographic Heterogeneity - Seine collections were made at three inlet sites and four upstream sites for a period of one year, September 1974 to August 1975, allowing potential replication of inlet and upstream effects on seagrass ichthyofaunas. Complicating this sample design is

AMERICAN OVERSIGHT

the fact that it had to be conducted over a distance of 82 km in a distinct zoogeographic transition zone. The effect of this latitudinal faunal transition on the seagrass ichthyofauna will be treated on a regional scale in the following section. The present analyses are limited to seine stations 1 - 7.

Except for the northernmost inlet station, SEB (station 1), the inlet sites (JIS and BCV, stations 4 and 7) produced the most cumulative species and averaged 27-28 species per collection. Fish densities were generally lower at all inlet sites (1.51-3.24/m^2) yet mean individual weight was higher than upstream sites making biomass comparable between both regions of the lagoon (Table 1).



Quantitative similarity cluster analyses on seven seine stations with 82 species based on numbers and frequency of occurrence consistently found the upstream sites LPT and JBC sites most similar (Fig. 12; .759 for percent frequency occurrence, .760 for number of individuals) although they were over 33 km apart. Both stations are situated on the north side of causeways (LPT is actually on a peninsula) in Syringodium meadows off the west shore of the lagoon and were the deepest stations within the survey. Both were 7.5 to 12.0 km from the nearest ocean inlet and 33.9 km from one another (Fig. 2) yet their numerically dominant ichthyofauna was nearly identical (Tables 14 and 15). The BMC station was the next to cluster with these two upstream stations (Fig. 12; at .741 for no.s; .716 for occurrence) and is the station furthest from an ocean inlet, 15.2 km.

AMERICAN OVERSIGHT

These were the only three stations at which over 100,000 A. mitchilli were collected. The fauna at the BMC station was quantitatively quite distinct as 50% of the individuals captured during the year from all stations were captured at BMC. This latter station consistently contained more planktivores (Lucania parva [30], Anchoa mitchilli [472,190], Opisthonema oglinum [784], and Brevoortia smithi [32,254]; detritivores: Mugil curema [12,968]) and benthic carnivores (Eucinostomus gula [1,253], E. harengulus [3,843] and Leiostomus xanthurus [362]), in addition to certain top predators (Sphyraena barracuda [196] and Centropomus undecimalis [15])(Tables 14 and 15).Other species which showed higher numbers at BMC than at any of the other stations were Albula vulpes (159), Oligoplites saurus (166) and Archosargus probatocephalus (43).

The next couplet to score relatively high similarity were the southern inlets, JIS and BCV at .754 in numbers and .715 in occurrence (Fig. 12). Species group VI and VII (Table 15) were most indicative of these stations. Many of these species are reef associates as adults and are found principally on the adjacent continental shelf, such as the scarids (Sparisoma rubripinne, S. chrysopterum), grouper (Mycteroperca microlepis), lookdown (Selene vomer), northern sennet (Sphyraena borealis), grunts (Heamulon plumieri and H. flavolineatum),and the snappers (Ocyurus chrysurus, Lutjanus analis and L. synagris). Other inlet seagrass associates are more typically resident in lagoon waters (Nicholsina usta, Cryptotomus roseus, Monocanthus hispidus and Lactophrys trigonus).

The inverse cluster of seine species based on percent frequency of occurrence (Table 15) produced nine group associations that did not

AMERICAN OVERSIGHT

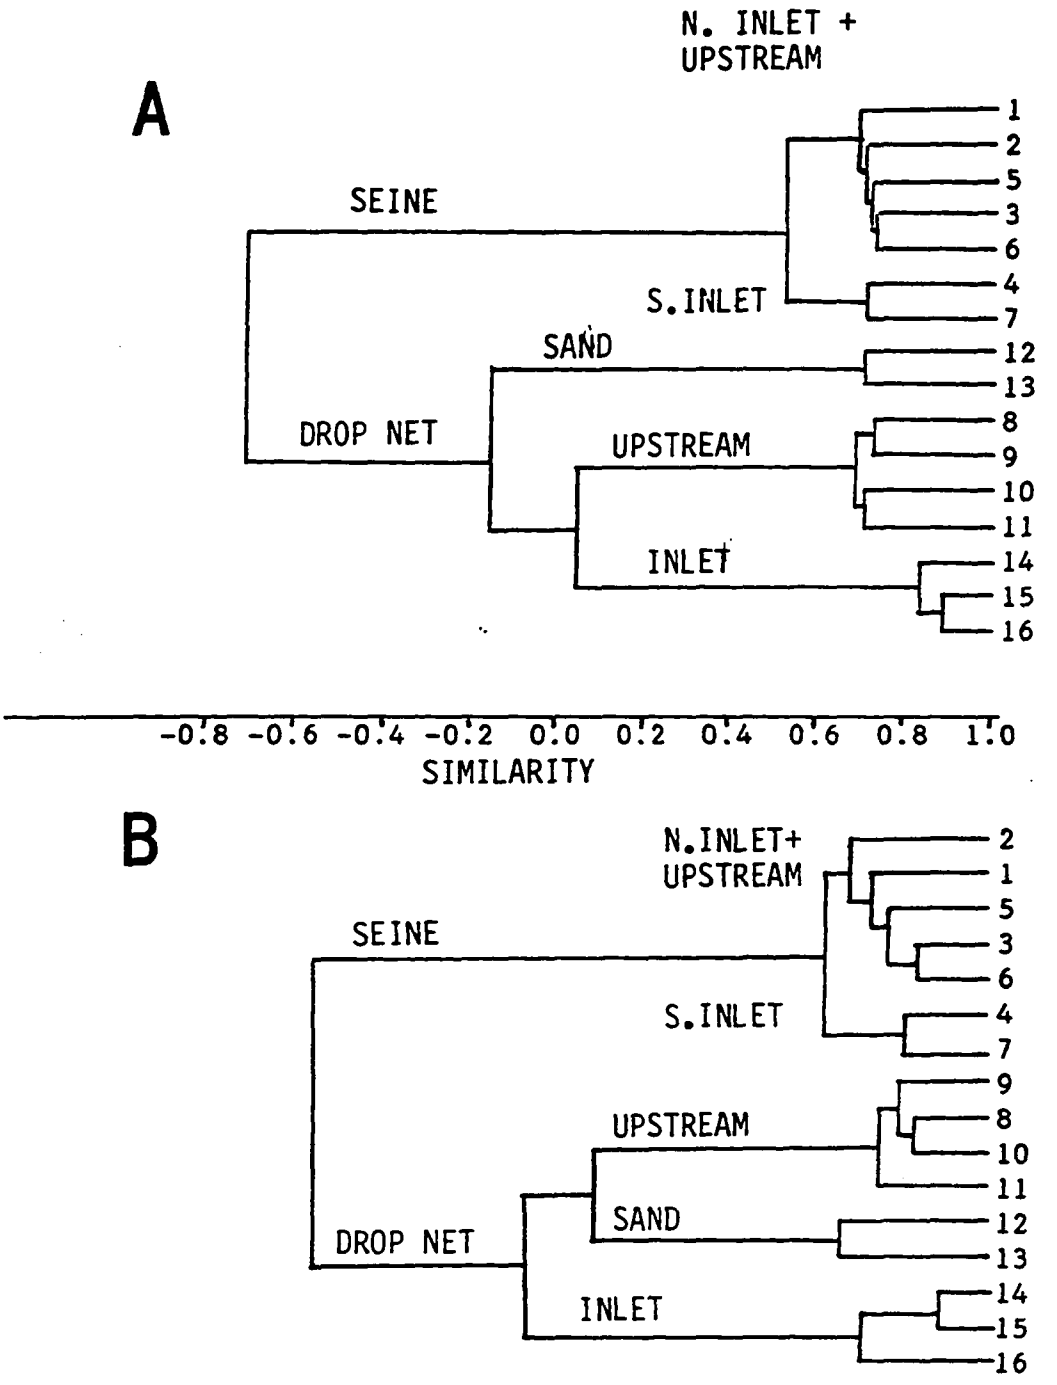
differ greatly from the cluster based on number of individuals (Table 14). The same species, except for A. mitchilli and M. curema, occurred in the Ia group, though more species occurred in the frequency of occurrence Group I due to a good representation of common species typically occurring in lower numbers. Some planktivores fell out of the Group I cluster due to their patchy distribution.

The northern stations WAB and SEB fell out last with the upstream group, LPT, JBC and BMC (Fig. 12). There was no distinct ichthyofauna at SEB except that Anchoa lamprotaenia only occurred at this station in significant numbers. However, WAB was most distinct in the group VIII species (Table 14) with the cyprinodonts, Fundulus similis, F. grandis and Floridichthys carpio and the gobiids Microgobius gulosus and Gobionellus smaragdus occurring in larger numbers than at any of the other stations.

Qualitative cluster analyses on the same data produced the same general pattern except that all inlet stations fell into the same group, the upstream stations in another (Fig. 12). The JIS and BCV inlet stations had the highest qualitative faunal similarity value (.848), followed by the southern upstream stations JBC and BMC (.822), and then LPT (.815). The northern stations were most dissimilar out of both groups with WAB at .774 and SEB at .749, though these were not particularly low values. These values therefore, further demonstrated that the inlet faunas are quite distinct from the upstream faunas and that the degree of similarity within each group is comparable, particularly for the southern portion of the study area.

The most comprehensive spatial similarity analysis includes all stations based on the top 53 species (those fishes with over 100

AMERICAN OVERSIGHT



individuals collected). Quantitative clusters based on number of individuals separated seine from drop net techniques with the lowest levels of similarity (-0.588), upstream versus inlet stations for both techniques, and then upstream sand from upstream grass (Fig. 13). Inlet drop net collections at stations 14-16 were most similar (.699-.824), then upstream seagrass drop nets at stations 8-11 (.755-.794), seine inlets, stations 4,7 (.787) and then upstream seine stations 2,3,5,6 and the northern inlet station 1 (.690-.804). This recapitulates the order of separation between sample sites. Drop net upstream - inlet similarities were considerably lower (-0.070) than the same comparison using seines (0.623). This indicates that the ichthyofauna captured by the drop net was more indicative of the habitat and less cosmopolitan. This is undoubtedly in part due to the generally narrow habitat requirements of various gobiid species which tend to numerically dominate the drop net collections.

Qualitative cluster analysis of this same data set shows a higher degree of similarity between most groups (i.e. mean similarity of 0.824 versus 0.555), particularly drop net inlet and seine collections (Fig. 13). However, the inlet versus upstream clusters in the seine cluster are not as clear, though present, and the sand collections separate considerably. The qualitative cluster based on species occurrence was quite different with a lower mean similarity (0.672) but a distinct inlet versus upstream, grass versus sand bottom cluster for both seine and drop net collections is apparent. Qualitative similarities between upstream seagrass (stations 8-11) and sand

AMERICAN OVERSIGHT

Figure 13. Dendrogram based on Czechanowski quantitative on LN(x+1) transformed number of individuals (A) and qualitative (B) similarity analyses for all seine and drop net collections for top 53 species.

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

(stations 12, 13) were greater than between these sites and the inlet (stations 14-16). This indicates that upstream species occur over adjacent sand bottoms, not inlet species. The quantitative cluster on the same data set revealed a similar trend (mean similarity of 0.539; Fig. 13).

Zoogeographic Distribution - Three inlet locations were chosen for study in order to adequately describe distinct inlet faunas and to compare them to upstream seagrass faunas. However, this required 82 coastal km of separation between the southernmost and northern inlet stations. As the study area lies within a distinct faunal transition zone between the tropical Caribbean faunal province and the warm temperate Carolinian province (Gilmore 1977; Snelson 1983), the size of the study area may have qualitative significance due to faunal changes with latitude, proximity to warm coastal currents and changes in ambient climatic and hydrologic conditions. The effect of this latitudinal variation between sites should, therefore, be addressed, particularly if comparative data are available on northern and southern ichthyofaunas adjacent to the study region. Fortunately these data are available and in some cases a similar collection technique was used. In this section we will review the latitudinal change in the seagrass ichthyofauna as one proceeds along the east coast of Florida from Florida Bay, latitude 25°00'N, north to Mosquito Lagoon, latitude 28°30'N. The comparative data used is derived from Sogard (1987), Low (1973), Snyder (1984), McNeese (1986) and Schooley

AMERICAN OVERSIGHT

(1977), all of which used either seine or 1.0 m^2 throw nets to sample seagrass ichthyofaunas.

A quantitative similarity cluster analysis was conducted using the numerical rank of the top 17 species collected in each study based on numbers of individuals captured. Seventeen species were used as this number represents the most abundant species in the most limited study used for faunal comparison, that of McNeese (1986). This number was also best for the Florida Bay throw net survey conducted by Sogard (1987) due to reduced number of individuals captured with throw net techniques, which in turn reduces the reliability in ranking rarer species. The results of the rank cluster are given in Table 13 and a phyletic listing of species with their respective rank per study and location is presented in Table 14.

Fourteen groups were clustered, giving some indication of site specificity (Table 16). Group I basically consists of species which are ubiquitous, occurring in most east Florida seagrass communities. Lagodon rhomboides and A. mitchilli rank in the top 17 in all regions. However, neither species was ranked as high (top ten) in Florida Bay studies (Sogard, 1987) and L. rhomboides did not make the top ten in Biscayne Bay nor the northern Indian River lagoon. Anchoa mitchilli was absent from the Jupiter Inlet studies of Snyder (1984) and Ft. Pierce Inlet drop net studies (stations 14-16), which is apparently due to the preference of this species for upstream habitats. Otherwise these two species typically ranked 1st or 2nd at several east coast seagrass sites. The mojarras, E. gula and E. harengulus,

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

ranked relatively high at most study sites south of the northern Indian River lagoon (Schooley, 1977), while B. chrysoura and O. chrysoptera ranked at most sites north of Biscayne Bay. The atherinids, Menidia peninsulae and Membras martinica both occurred only north of Bessie Cove (BCV) primarily at upstream sites.

Group IIa, IV, VI, VII and XII consist basically of species which require ocean access, therefore, they were ranked high primarily at Biscayne Bay, and at Indian River inlet sites. These groups principally consist of tropical species, such as scarids, sphyraenids, haemulids, lutjanids, tropical gobiids and warm water engraulids/clupeids.

Group IIb and III consist of species which only occurred abundantly in Indian River lagoon collections. The two anchovies and the mojarra, Diapterus auratus, (all in group IIb) are the most abundant species, ranking within the top ten species in the Indian River lagoon and nowhere else (Table 16).

Except for the bay anchovy, A. mitchilli, group V has a basic distribution in throw or drop net collections, which effectively capture the small cryptic gobiid and syngnathid species contributing to this group. Effective throw and drop net captures are also responsible for the distribution pattern for the upstream species group in XI.

Zoogeographic faunal polarization along the coast is seen when groups XII - XIV are compared. Groups IX and X are northern species groups, all are warm temperate species, Gulf or Carolinian and were ranked high at the Schooley study sites in the northern lagoon and at Sebastian and Wabasso seine sites. Groups XII and XIII contain mostly

AMERICAN OVERSIGHT

species of tropical origin. Group XIV consists of both tropical species and species which are common in seagrass beds of both the Gulf of Mexico and Caribbean.

The phyletic presentation in Table 17 reveals that the cyprinodont-poeciliid fishes and atherinids numerically dominate the northern lagoon seagrass ichthyofaunas and in Florida Bay (? Gulf Province). Also of interest in this presentation is the limited overlap between two epibenthic carnivores which feed predominately on polychaetes over open bottoms and in seagrass beds, the gerreid, Diapterus auratus and the sciaenid, Leiostomus xanthurus. Diapterus auratus is a stenothermic tropical species while L. xanthurus is a eurythermic temperate species. Diapterus auratus is abundant throughout the study area but is not ranked in other southern and northern seagrass studies, while the temperate sciaenid, Leiostomus xanthurus is ranked higher in the northern region of the lagoon.

In general there is a decided tropical dominance of the majority of the Indian River study area south of the WAB station. Albulids, belonids, lutjanids, haemulids (except O. chrysoptera), scarids, clinids/blenniids, callionymids and sphyreanids are only ranked high in seagrass ichthyofaunal studies from the southern portion of the Indian River lagoon and further south (Table 17).

AMERICAN OVERSIGHT

Table 17. Zoogeographic variation in seagrass fish faunas listed in phyletic order, seine and drop net/throw net techniques only. Number represent rank of species in collecitons made at the respective sites. Superscripts 1-5 are defined in Table 19.

Temporal Dynamics

The data permit examination of monthly-seasonal recruitment patterns along with annual variation in populations. Data on various community parameters, such as number of species, fish densities, biomass, diversity and evenness, in addition to temporal variation in individual species, numbers, spatial distribution and size were collected. However, this analysis will be limited to community parameters with presentation of population data limited to specific abundant species.

Monthly/Seasonal Dynamics - Monthly variation in species at seine and drop net sites are presented in Table 18 and Figure 14. It is evident that most seine stations show their greatest faunal diversity from April through October with peak richness in May, July and August. However, the WAB, JIS and BCV stations may harbor over 20 species, to as high as 31, during the January to March period. The latter two stations are ocean inlet sites where winter water temperatures are typically more moderate (Fig. 8). During the 1974-75 study year the lowest number of species captured at each seine site usually occurred in December. Drop net ichthyofaunas were consistently most speciose from September to November with a moderate spring rise typically occurring in May. At upstream stations 8-11, there was a peak in species in August and September, a trend which did not occur at the inlet stations 14-16 as the inlet stations had higher species numbers later in the fall and early winter.

Figure 14. Monthly variation in number of species at drop net and seine stations (1974-1980), with mean, range and one standard deviation (box) designated

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

A statistical treatment of the variation in several basic community parameters is given in Table 19 and Appendix Table 1 which reveal the homogeneity and heterogeneity of the ichthyofauna (A), among months for the same year (1974-75) and seven seine stations, and (B) months for five years using data from the LPT seine station. The number of species differs significantly seasonally and between stations. Variation among months in all community parameters was insignificant ($P \leq 0.05$) diversity (H') based on weight (Table 19[A]). Within-month and annual variation was low over several years and seasonal and monthly community parameters were predictable over several annual cycles (Table 19[B]). The lowest within month variation was in mean individual weight, number of individuals and density with similar results for between year variation. Faunal variation among stations within the same month and year was higher than between years (Table 19 [A]). However, biomass and density showed the greatest relative continuity across sites with evenness (J') based on number of individuals or weight showing insignificant variation (Table 19[A]).

Tables 18 and 19[C], and Figure 14 all show a typical species increase during the warmer months with a slight mid-summer drop. These trends can also be easily observed in Appendix Tables 1 - 4 which graphically depict the seasonal variation in the same community parameters presented in Table 19. The Appendix Table 3 data are derived from a single year while that of Table 4 is for five years. Diversity indices also follow this general seasonal pattern though evenness is a little less predictable and even showed a late fall-early winter increase.

AMERICAN OVERSIGHT

Fish densities were generally high during the winter (means of 11.64 - 26.43 individuals/m^2), particularly in December and January, and declined from February into April and May (Appendix Tables 3,4; Tables 20, 21; Fig. 15). From May through August densities usually remained low (means of 2.06 - 5.13 individuals/m^2) except for exceptional ephemeral increases in recruitment, which may occur at any time between May and July (means of 10.38 - 20.48 individuals/m^2)(Appendix Table 3,4). Fish densities steadily increased during the fall to the winter peak (maximum density of 124.31 individuals /m^2). Biomass differed somewhat, in that although there was typically a spring decline in biomass, from a January mean high between 8.134 - 22.65 g/m^2, biomass generally increased from May to September. May means were from 2.88 to 12.05 g/m^2, increasing to a September mean of 3.45 to 13.40 g/m^2. Fall biomass means declined as densities increased, revealing the decline in mean individual size illustrated by the mean individual weight plots (Appendix, Tables 3 and 4).

The autumnal increase in fish densities and decline in mean biomass is due not only to an increase in larval or juvenile recruitment to seagrass beds, but also due to a major influx of planktivorous engraulids, mainly Anchoa mitchilli. This increase is followed by a young of the year recruitment of gulf menhaden, Brevoortia smithi, during the winter. Autumn is also a period when large numbers of larval white mullet, Mugil curema migrate into the estuary, in addition to the increased abundance of the gobiids G.

robustum and M. gulosus (Table 18) and syngnathids S. scovelli and S. louisianae, in association with large accumulations of drift algae typical of the late summer and fall period (Gore, et al. 1981; Kulczycki et al. 1981). However, the predictable monthly pattern in fish densities and biomass observed over several annual cycles cannot be greatly influenced by drift algal associates due to high seasonal variability in the drift algal substrate (Virnstein and Carbonara 1985). Another major group which reaches its maximum population density in seagrass beds from August to November are the gerreids, Diapterus auratus, Eucinostomus gula and E. argenteus (Table 21). However, these species show variable increases in numbers throughout the year indicating multiple spawning activity (also verified by length frequency distribution patterns not presented above). This is principally a post-larval recruitment period for these species.

A variety of warm temperate species recruit to the seagrass beds during the winter and spring from January to May as demonstrated in an abbreviated list of the most abundant species (Table 21). The most notable seagrass species are the sparids, Lagodon rhomboides (Fig. 15) and Archosargus probatocephalus; the atherinids, Menidia beryllina and Membras martinica; gulf pipefish, Syngnathus scovelli, red drum, Sciaenops ocellata, ladyfish, Elops saurus, pigfish, Orthopristis chrysoptera, and the northern sennet, Sphyreana borealis. Two notable warm water species also recruit during this period of the year, the bonefish, Albula vulpes and the fringed filefish, Monacanthus hispidus. Several of these species can be quite abundant (i.e. L. rhomboides), therefore, contributing greatly to seagrass fish

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

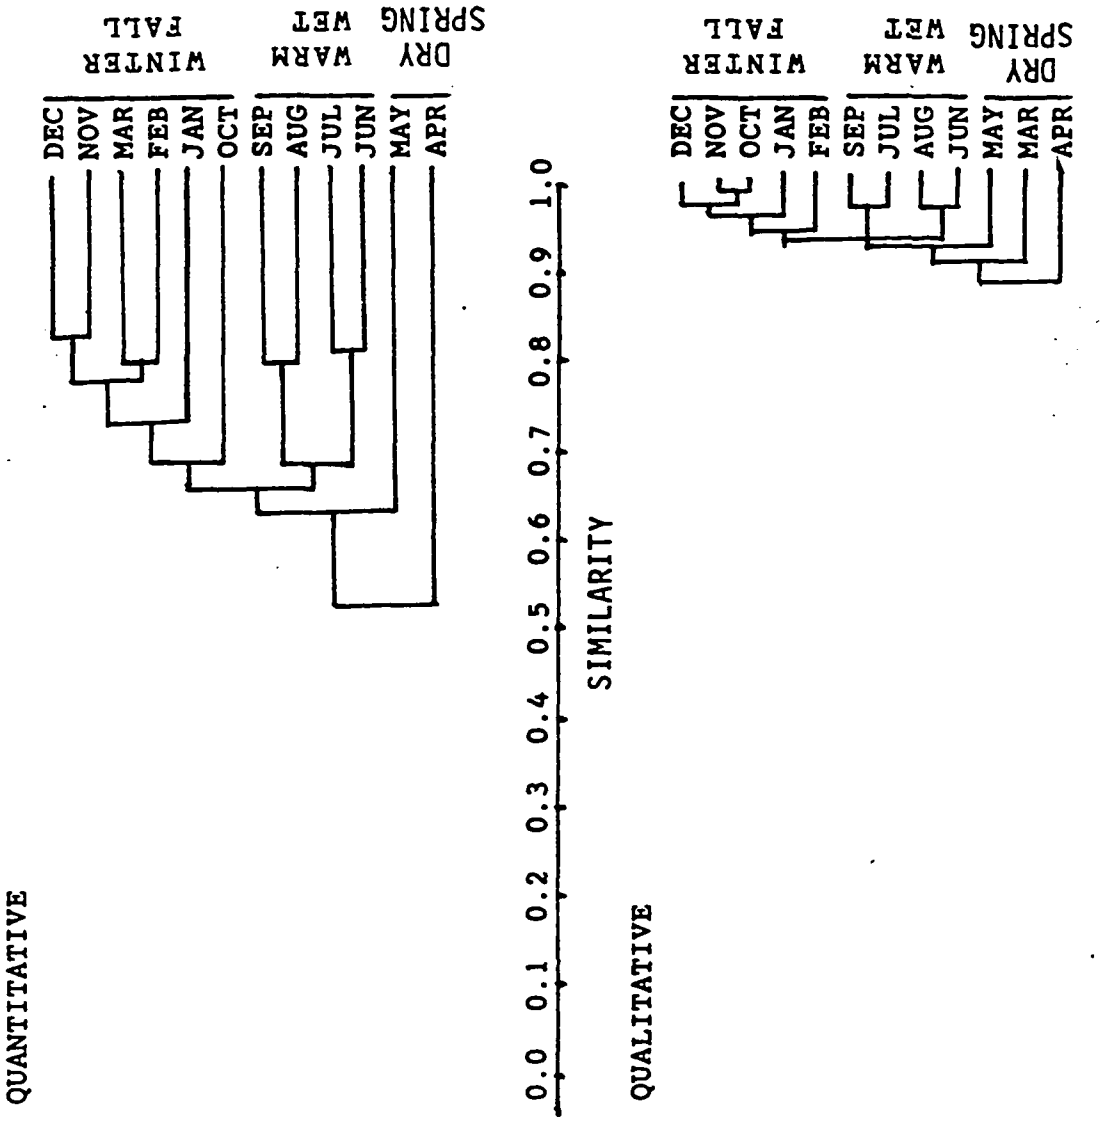
densities during the winter and early spring.

Warm water species recruiting from March to August generate the great increase in seagrass fish community diversity during this period. The most notable species immigrating to the seagrass meadow during this season are the silver perch (Bairdiella chrysoura), chain pipefish (S. louisianae), leatherjacket (Oligoplites saurus), sailor's choice (Haemulon parrai), snappers (Lutjanus synagris, L. analis and L. griseus), needlefishes (Strongylura timucu and S. notata), halfbeak (Hyporhamphus unifasciatus), spotted seatrout (Cynoscion nebulosus), great barracuda (Sphyraena barracuda), and snook (Centropomus undecimalis). An abundant summer season planktivore during this period is the scaled sardine (Harengula jaguana).



The seasonal continuity was examined with a similarity analysis of the species presented in Table 21. The qualitative and quantitative seasonal patterns are quite similar, with the dry spring months of April and May consistently revealing the lowest similarity (Fig. 16).

Annual Variability - Community parameters were already presented and were significantly predictable (i.e. insignificant variation) on a monthly basis when compared over several annual cycles (Table 19). The distinctness and predictability of the quantitative and qualitative nature of the fauna at a specific site becomes more apparent when several annual cycles of collections are compared. The quantitative cluster on number of individuals presented in Figure 17 reveals the similarity of the LPT, WAB and JIS stations with time. In addition, the southern inlet stations (JIS, BCV) still cluster as do

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

the southern upstream stations (JBC, BMC), while the northernmost stations at SEB and WAB remain distinct from the other sites. Therefore, the respective upstream and inlet ichthyofaunas appear to keep their distinctive character over several annual cycles. However, Figure 18 illustrates the potential quantitative variability in the nine most common epibenthic and neritic fishes occurring at LPT from 1975 to 1980, while Figure 19 illustrates the annual variation in recruitment of pinfish.

Cluster analyses reveal some patterns in quantitative variation over the five years compared (Fig. 20). The species used for these analyses are divided into schooling pelagic planktivores or schooling detritivores and generally dispersed, epibenthic and neritic carnivores (including some omnivores) (Fig. 20, Tables 22 and 23). Both clusters show some relationship between the first and last year of the survey, two years which had higher mean salinities (lower rainfall) and higher mean temperatures than the intermediate years. However, some planktivorous species were abundant during the first year and declined near the end of the survey (Table 22, Group II,A), while others increased variably throughout the period (Group I). However, the most numerous species captured, the bay anchovy (A. mitchilli) was caught in higher numbers during the first and last years as was Group III,A, the rough silverside (Membras martinica) and the Spanish sardine (Sardinella aurita). A similar pattern can be seen in the Group III fish of Table 23, all ocean inlet associates, though it is evident that the majority of species do not follow this pattern. The most abundant epibenthic and neritic species are generally abundant throughout all study years. However, an

interesting pattern can be seen in the pinfish, L. rhomboides, being abundant during the intermediate years and not during the first and last years (Fig. 19), while another abundant species, the Irish pompano, D. auratus, follows an opposite pattern (Table 23). The pinfish is a warm temperate species, while the Irish pompano is a tropical species. A significant period of hypothermal mortality occurred during January and February in 1976 and 1977 in which considerable numbers of Irish pompano were killed (Gilmore, et al. 1978a). Table 24 lists the number of individuals captured and the ambient water temperature at the time of capture for both the pinfish and Irish pompano throughout the study period. The largest number of pinfish captured during the six year period were collected one month after the severe hypothermal mortalities of tropical species were recorded, during January - February 1977. During this period heavy hypothermal mortality of D. auratus occurred and this species was not captured in significant numbers until late 1978. An additional species, B. chrysoura is included to show an ambiguous pattern.

Fishes at higher trophic levels also revealed changes in population as a group, as there is an inordinate number of top carnivores in Group II (Table 23) which all increase in abundance during the study, while two warm water species, T. falcatus and S. timucu (Group V) decrease.

AMERICAN OVERSIGHT

Spatial - Temporal Guilds

The spatial and temporal distribution of 45 representatives of the top species (Table 6) was predictable over several annual cycles, and these species which are used to designate specific ichthyofaunal associations or guilds of species which have similar distributions in time and space. These species also have variable zoogeographic distributions with nearly equal representation of tropical, eurythermic tropical and warm temperate species. Table 25 presents a two dimensional spatial - temporal distribution of these top species for which some life history data is available in the literature. These abundant species are used to define the seagrass ichthyofaunal guilds. Zoogeographic distributions and location of spawning, when known, are also designated. Eighteen, or 43%, are upstream associates, while 29% are inlet associates and 29% are common to both locations. The temporal groups are evenly divided between warm - wet and cool - dry season associates, as 38% reach their greatest numbers in seagrass meadows during the warm wet season, while 38% are most abundant during the cool dry season, leaving 24% showing periodic population increases during both seasons. A review of these groups reveals that several congeneric species show spatial - temporal separation, e.g. Lutjanus analis/synagris and L. griseus, Mugil curema and M. cephalus, Syngnathus scovelli and S. louisianae, A. mitchilli from A. hepsetus, from A. cubana). On the family level several genera separate in the sciaenidae, gobiidae, and clupeidae with species of diverse zoogeographic affinity.

AMERICAN OVERSIGHT

Table 25. Spatial - temporal species guilds. Zoogeographic affinities are designated, Tp = tropical, ETp = eurythermic tropical, WTem = warm temperate. Spawning activity is designated as: [1] = documented spawning activity within the Indian River lagoon (Mok and Gilmore, 1983; Dahlberg, 1970); [2] preliminary evidence indicates estuarine spawning within the lagoon or literature documents estuarine spawning elsewhere within the species range.

AMERICAN OVERSIGHT

Zoogeographic affinities are basically polarized between upstream and inlet species guilds. Inlet faunas are numerically dominated by tropical species while upstream sites contain more warm temperate species (Tables 25 and 26). Seasonal distributions follow a predictable pattern with warm temperate species being more abundant in the cool dry season, tropical species the warm wet season.

Of the 14 species which are known estuarine spawners half spawn principally at upstream sites, six at either location, inlet or upstream, and one at the inlet (a gobiid; Tables 25 and 26). Those predicted to spawn in the estuary are equally divided between upstream species and ubiquitous species. Nearly half of the known estuarine spawners do so during the cool-dry season, four (29%) throughout the year and three only during the warm wet season. Those which are predicted to spawn within the estuary (i.e. estuarine spawning not adequately documented) occur in numbers throughout the year. Therefore, the species guilds designated reveal some continuity in zoogeographic distribution and choice of spawning site.

To recapitulate, the general pattern observed shows three inlet groups and three upstream groups, the inlet groups being principally of tropical affinity with warm wet season population increases and warm wet season spawning activity. The upstream group is mostly an eurythermic tropical or warm temperate group with spawning activity during the cool dry season or throughout the year. In the upstream group there is nearly equal division between upstream and ubiquitous estuarine species. In addition to these groups there is an euryeocious group which occurs in relatively large numbers throughout the estuary (gerreids, L. rhomboides, and G. boleosoma),

with potential spawning throughout the estuary and with no particular zoogeographic affinity.

If these macrospatial - temporal guilds are compared with the eight erected earlier with the same species but using trophic, behavioral and microspatial criteria (Table 7) we find that nearly all macrospatial locations (i.e. inlet or upstream sites) have a representation of these eight. Table 27 presents the macrospatial - temporal arrangement combined with the Table 7 microspatial, behavior, trophic guild designation.

AMERICAN OVERSIGHT

DISCUSSION

One hundred and sixty-four fish species were captured in the seagrass meadows of the Indian River lagoon between latitude 27°52' N. and 27°10'N. from 19 March 1974 to 18 December 1980. Over 99.9% of the numerical catch was contributed by 53 species (i.e. over 100 individuals captured for each species). Forty-five species are considered principal seagrass species due to their numerical abundance and high frequency of occurrence in seagrass samples.

Habitat Specificity

The Seagrass Community vs. Other Communities - The seagrass fauna is basically distinct from those of adjacent mangrove swamp and herbaceous halophyte salt marshes based on intensive collections made in both habitats using multiple and complimentary gear types. The mangrove swamp and salt marsh ichthyofaunas are dominated by cyprinodontids and poeciliids with common occurrence of detritivorous mugiliids and predaceous centropomid and elopids (Lewis et al. 1985; Gilmore 1987). Marginal red mangrove prop root zones support a wider variety of species, many of which are shared with adjacent seagrass meadows. Species overlap between the two habitats occurs with ontogenetic development in mugilids, Centropomus undecimalis, Lutjanus griseus, Haemulon parrai, Archosargus probatocephalus, Diapterus auratus, Eucinostomus harengulus, Leiostomus xanthurus, Sciaenops ocellatus, Sphyraena barracuda, Microgobius gulosus, Gobionellus

AMERICAN OVERSIGHT

smaragdus and Achirus lineatus. This overlap demonstrates the euryeocious nature of these particular species and a distribution pattern which may also be associated with changes in microhabitat preference with ontogeny, a hypothesis which could be examined with the present collections but is beyond the scope of this treatment. Thayer et al. (1984) have also discussed the habitat overlap for a number of these species and the habitat transition in C. undecimalis has been discussed in detail in Gilmore et al. 1983. Conspicuously absent from the mangrove swamp are planktivorous engraulid and clupeid fishes, except for the occasional invasion of tidal creeks by Brevoortia smithi and Anchoa mitchilli. Also absent are the syngnathid, and gobiid species so characteristic of the adjacent seagrass meadow. There is a different suit of gobiid species present in seagrass beds. In addition, the very abundant and ubiquitous seagrass species, the pinfish, Lagodon rhomboides, occurs only rarely in the mangrove swamp, and then only in open tidal creeks.

This habitat comparison differs greatly from the recent account of Thayer et al. (1987) on most accounts except that they found, as described in this account, that cyprinodontiform fishes are more abundant in mangrove systems and Lagodon rhomboides is more abundant in seagrass meadows. However, the cyprinodontids which Sogard et al. (1987), Schooley (1977) and the present study consider most indicative of seagrass beds, the Thayer et al.(1987) study found to be abundant as mangrove associates (Floridichthys carpio and Lucania parva). Thayer also found a greater biomass (15.0 g/m^2 versus 0.8 g/m^2) and fish density in the mangrove prop root zone than in adjacent seagrass

AMERICAN OVERSIGHT

beds. Much of Thayer's comparative community results must be discounted as he used two significantly different collection techniques to compare the two habitats: rotenone fish toxicants to kill fish in the mangrove prop root zone and the quite inefficient trawl net in the seagrass bed. Rotenone and trawl techniques have been recently compared by Gray and Bell (1986). These authors demonstrated the inadequacy of trawls in estimating fish density and biomass in seagrass beds. In contrast to Thayer's results we have captured in abundance in seagrass beds many of the species which he found more abundant in the mangrove fringe and have obtained comparable biomass and density estimates from seagrass meadows (mean biomass 8.8 g/m^2, range 0.00009 to 81.45 g/m^2; density 8.6 $/m^2$, range of 0.0009 to 124.3 $/m^2$). Studies of mangrove communities adjacent to these seagrass study sites have produced mean biomass and fish densities of 4.54 g/m^2 (range 0.0033 - 71.7722 g/m^2) and 9.78/m^2(range 0.024 - 193.035 $/m^2$), respectively, and a different qualitative/quantitative community profile (Table 8; Gilmore et al. 1984, 1985, 1986, 1987).

The red mangrove fringe and prop root zone is a transitional habitat between the open estuary, its sand bottoms and seagrass meadows and the interior mangrove swamp and upper marsh herbaceous halophyte zones (typically vegetated with Batis maritima, Salicornia spp. and Juncus roemerianus in south and central Florida). Therefore, the red mangrove fringe acts as a mixing zone between the two quite hydrologically and faunistically distinct habitats (Gilmore 1987). However, its areal extent is quite small when compared to the broad

AMERICAN OVERSIGHT

acreage of the seagrass habitats seaward and the upper marsh landward. This perspective should be maintained when comparing the two ecosystems and the Thayer et al. (1987) treatment does not attempt to characterize the mangrove swamp zones beyond the mangrove fringe. The data presented in Table 8 for the mangrove swamp and herbaceous halophyte marsh, however, do include high marsh habitats inland from the red mangrove fringe.

Significant differences are also found between the seagrass fauna and adjacent sand bottoms, with only occasional occurrence of seagrass species over open sand. A typical species of open sand bottom habitats is the lizardfish, Synodus foetens which was captured more often over open bottom, but occurs in seagrass samples. The order of magnitude difference in density and biomass between the two habitats is not surprising as others have produced similar results, albeit with invertebrates (Virnstein et al. 1983; Lewis 1984), freshwater fish (Guillory et al. 1979) and temperate fish faunas (Briggs and O'Conner 1971; Orth and Heck 1980). Recent unpublished work demonstrates distinct diurnal/nocturnal differences in species occurrence on open sand bottoms (Gilmore and Donohoe, in prep.), however, sand bottom fish densities never reach seagrass values during either day or night. All evidence points to increased predatory effectiveness with decreased habitat structural complexity (Vince et al. 1976; Crowder and Cooper 1982; Stoner 1982) even though the choice of seagrass substratum is undoubtedly an innate response selected by predatory pressures (Bell and Westoby 1986a,b).

AMERICAN OVERSIGHT

Species Composition/Guild Classification

The species composition of the seagrass meadows of the Indian River lagoon are not atypical, at least on the familial level, with seagrass meadow ichthyofaunas studied elsewhere around the globe. Syngnathids, gobiids, monacanthids, sparids, gerreids, sciaenids, tetraodontids, blenniids and mugilids are important components of seagrass ecosystems world wide (Kikuchi and Perez 1977; Robertson 1980; Livingston 1984a; Pollard and den Hartog 1984). There are some differences between the tropical Pacific and western Atlantic ichthyofaunas which affect the contributions of various phyletic groups to seagrass meadow communities. In the Pacific, labrids, scorpeanids, apogonids tetraodontids, and kyphosids are more abundant in seagrass ecosystems than their confamilial relatives in the western Atlantic, although all are a present in tropical seagrass communities of south Florida and the Caribbean (Robertson 1984; Pollard 1984; Springer and McErlean 1962; Weinstein and Heck 1979; Ogden 1976a,b, 1980; Ogden and Zieman 1977; Stoner 1986). In turn, haemulids, lutjanids and certain scarids utilize seagrasses to a greater extent in the western Atlantic than in the Pacific. Teraponids and ambassids common in some Pacific seagrass meadows (Blaber and Blaber 1980; Pollard and den Hartog 1984; Robertson 1984) are absent from the western Atlantic altogether.

Of significance is the general ommission of schooling planktivorous species from many seagrass community analyses. In some cases this is basically due to the ineffectiveness of certain gear

AMERICAN OVERSIGHT

types in capturing schooling pelagic planktivores. Drop and throw net techniques are ineffective in capturing these patchily distributed species (Gilmore et al. 1978b). These species not only prey heavily on calanoid copepods (diurnally) but also upon certain seagrass invertebrates (harpacticoid copepods and amphipods), particularly those which emerge from seagrass beds at night (Robertson and Howard 1978; Robertson and Klumpp 1983; Walters and Bell 1986). They then overlap trophically with larva and post larvae of a variety of seagrass species (Carr and Adams 1973) and some investigators have even lumped all ontogenetic stages of certain engraulids (e.g. Anchoa mitchilli, Livingston 1980, 1982, 1984a) in with juveniles of species which show quite different feeding habits as late juveniles and adults (i.e. the sciaenid, Leiostomus xanthurus and the gerreids Eucinostomus argenteus = E. harengulus, and E. gula). This trophic placement of A. mitchilli based only on the diurnal data presented by Livingston (1984) is questionable, but it does reveal the potential for considerable dietary overlap between an adult pelagic planktivore and the diverse guild of neritic or epibenthic seagrass associates, particularly as most post larval and early juvenile seagrass species are zooplanktivorous, consuming mostly calanoid copepods (Livingston 1984). Due to the shallow water depths of most seagrass meadows, particularly those under study here, there may be ample opportunity for both adult planktivores and juvenile seagrass associates to forage on the same organisms within the same space. The gerreids and Leiostomus xanthurus are documented diurnal foragers (Kerschner et al. 1985; Choa 1976, Choa and Musick 1977). They, therefore, may have very limited spacial and temporal interaction with the nocturnal

AMERICAN OVERSIGHT

feeding forays of A. mitchilli even though they are abundant syntopic species. The nocturnal foraging behavior of engraulids in the western Atlantic needs study, as Australian planktivore studies indicate that this may be a generalized behavioral trait of shallow water engraulids and clupeids occurring in or over seagrass meadows (Robertson and Howard 1978). The overwhelming biomass and fish density contribution of engraulids and clupeids, particularly to upstream seagrass meadows, cannot be ignored, especially in their potential for impact on planktonic or semi-planktonic invertebrate communities.

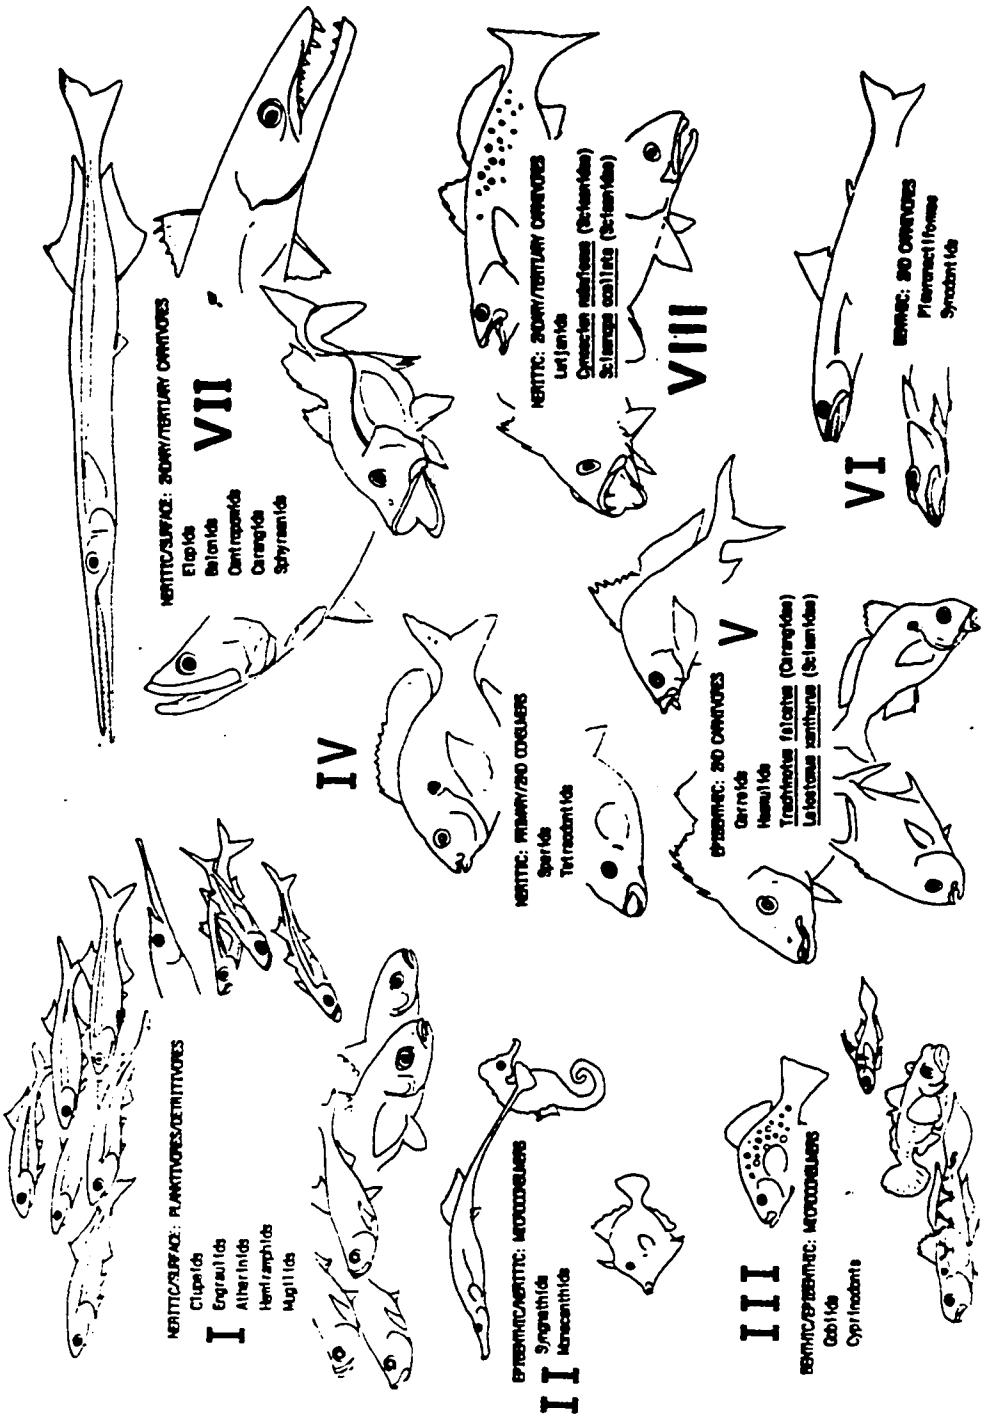
The other trophic group which has received little study from a community perspective (certainly not from a species or fishery perspective) are the top carnivores. Again this group is not easily sampled with quantitative gear types due to their size, agility and sensitivity to the activities of the captor. Spotted seatrout, Cynoscion nebulosus, undoubtedly play a prominent role in consuming a variety of seagrass invertebrates and vertebrates, and have the potential to greatly affect the population dynamics of prey populations. Certain aspects of the life history of C. nebulosus has been determined (Mercer 1984a), but population densities and dynamics of specimens over 150 mm SL appear difficult to assay. Other techniques need to be employed, certainly more active techniques than the standard gill net statistics taken in the commercial fisheries. The long haul seine technique utilized here did capture other top predators, such as snook, C. undecimalis, Strongylura notata, S. timucu and Sphyraena barracuda (up to 550 mm SL) more effectively than most other studies reviewed in the extant literature. These captures emphasize the potential impact of top predators on seagrass

AMERICAN OVERSIGHT

fish populations in lower trophic levels. The distribution of species at lower trophic levels has been emphasized in most studies due to their effective capture in trawl nets and small beach seines, and high densities in seagrass beds (Kjelson and Johnson 1974, 1978; Livingston 1982). Invertebrate ecologists have characteristically utilized this ichthyofaunal data to hypothesize predator-prey mechanisms governing microhabitat selection, etc. typically with little recognition of the possibility that the piscine invertebrate predator may in turn be distributed through the seagrass meadow habitat due to the predatory influence of the apical predator. Hence, Stoner's (1983) L. rhomboides may not have selected Halodule wrightii beds due to the increased feeding efficiency in this seagrass species, but due to its proximity to a shallow shoreline. The shallow shoreline is an acknowledged refugium from predation by a host of organisms of multiple phyla (Stein 1979). Thus the predatory behavior, predation effectiveness and microdistribution of top predators may ultimately influence population dynamics of all lower trophic levels, including the primary producers.

The evidence presented reveals the diverse fish species assemblage inhabiting the seagrass meadows of the Indian River lagoon, 45 of which are considered the most abundant species and premier seagrass associates. This species assemblage consists of a diverse group of microconsumers, secondary and tertiary consumers on a variety of macrocrustaceans, polychaetes and molluscs, and top predators, several of which are principally piscivorous. The microconsumers prey mainly on calanoid and harpacticoid copepods, larval decapods and amphipods. They may be divided into three basic groups based on their

AMERICAN OVERSIGHT



"typical" position in the water column, intraspecific behavior and feeding behaviors (Fig. 21, Groups I-III). The pelagic microconsumer group consists of schooling planktivores, the engraulids, clupeids, atherinids and exocoetids which prey on calanoid copepods for the most part, but may reveal diel diet switching to nocturnal aggregations ofharpacticoid copepods and amphipods (Stevenson 1958; Carr and Adams 1974; Robertson and Howard 1978; Robertson and Klumpp 1983; Livingston 1984a). Menhaden, Brevoortia spp., may feed on detritus and epiphytic algae (diatoms) in addition to zooplankters (Dahlberg 1970). Also included in this group are the mullets which commonly form aggregations and schools and feed both at the surface on neuston, on copepods during the "querimana" larval stage, and on benthic accumulations of detrital materials and algae (Odum 1968). The second major group of microconsumers, Group II, also prey principally on copepods and amphipods, however, they are solitary cryptic epibenthic neritic and epibenthic suction feeders, the syngnathids or the omnivorous scrapers -the monacanthids (Burchmore, et al. 1984). The third microconsumer group, Group III, is principally a benthic/epibenthic group consisting of diminutive burrowing benthic and epibenthic grazers and ambushers, the gobiids, monacanthids and cyprinodonts, which also consume a variety of microcrustaceans in addition to Foraminifera, diatoms, filamentous algae, detritus and other accessible phyla (Buzas and Carle 1979; Springer and Woodburn 1961; Huh and Kitting 1985; Robertson 1984).

The next major group consists of species which form a major portion of the seagrass ichthyofaunal biomass, prey predominately on invertebrates, though some are omnivorous, and are generally found in

AMERICAN OVERSIGHT

Figure 21. Species guilds typical of seagrass fish communities within the Indian River lagoon.

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

loose aggregations, schools or as dispersed solitary individuals throughout the meadow. They may be divided into two subgroups depending on their ability to switch from major prey types and general foraging behavior (Fig. 21, Groups IV and V). The first subgroup, Group IV, consists of species which are generally neritic or epibenthic, feeding principally on macrocrustaceans, amphipods and copepods, but also may switch to seagrass and algae during some period during their ontogeny or due to seasonal variation in prey availability (Burchmore et al. 1984; Huh and Kitting 1985). These fishes are sparids, Lagodon rhomboides, Archosargus probatocephalus and Diplodus argenteus and tetraodontid-ostaciid-diodontid plectognaths, Sphoeroides spp.(principally S. nephelus in this study), Chilomycterus schoepfi and Lactophrys spp.. (Stoner 1979a,b, 1980a,b; Stoner and Livingston 1984 ; Randall 1967; Carr and Adams 1973; Burchmore et al. 1984). The second subgroup, Group V, is wholly carnivorous, preying on benthic invertebrates, macrocrustaceans and polychaetes, and is comprised of gerreids, haemulids, the sciaenid, Leiostomus xanthurus, and the carangid, Trachinotus falcatus. All forage principally over the bottom.

Top predators can be divided into three groups (Fig. 21, Groups VI - VIII) like the microconsumers depending on their principal foraging location. Surface predators, Group VII, consist of needlefishes, Strongylura spp., great barracuda, Sphyraena barracuda, and ladyfish, Elops saurus, whose diet in seagrass meadows has been found to contain large numbers of pelagic planktivores, in addition to the occasional epibenthic mojarra or neritic pinfish (de Sylva 1963; Eidman 1967; Brook 1975; Fahs 1976; Gilmore et al. 1983). This group

AMERICAN OVERSIGHT

is principally piscivorous. The second top predator group, Group VIII, consists of neritic and epibenthic foragers -- the sciaenids, red drum, Sciaenops ocellatus and the spotted seatrout, Cynoscion nebulosus, the centropomid, snook, Centropomus undecimalis, and the snappers, Lutjanus spp. The snappers typically occur in this habitat only as juveniles, while the spotted seatrout and red drum commonly forage in seagrass beds as adults; in fact seagrasses are one of the principal adult foraging sites in the Indian River lagoon. All group VIII species may occassionally prey on organisms at the surface, which is typically proximate in shallow seagrass meadows. These species are not strictly piscivorous and prey heavily on large decapod crustaceans (Starck and Schroeder 1970; Tabb 1961; Mercer 1984a,b). The third top predator group (Fig. 21; Group VI) consists of benthic predators which are variously associated with sand bottoms and seagrasses. These species are bothid, Paralichthys spp. and Citharichthys spilopterus, cynoglossid, Symphurus plagiusa, and soleid, Achirus lineatus, flatfishes, and the synodontid lizardfish, Synodus foetens. These species prey variously on crustaceans and fishes (Springer and Woodburn, 1960).

Community Dynamics

Pinfish - Trophic Competition/Territoriality - The seagrass fish community was found to be significantly homogeneous in monospecific beds at between site distances of 2 to 70 meters based on species rank comparisons. Much of this homogeneity was due to the relatively even distribution of abundant species such as L. rhomboides. This leads

AMERICAN OVERSIGHT

one to question the mechanisms governing the equal distribution of this species among drop net samples. Huh and Kitting (1985) conducted experiments which demonstrated that intraspecific competitive interactions for food resources on a seasonal basis may elicit resource partitioning, as L. rhomboides and G. boleosoma switched from a carnivorous diet to herbivory when caged in high densities. This may explain why both this study and that of McNeese (1986) often obtained the same L. rhomboides densities during the warmer months of the year, a period well documented by other workers as one in which L. rhomboides reverts to herbivory. As Huh and Kitting (1985) demonstrated, this is a period when amphipod populations decline in seagrass beds (a decline also documented in the Indian River lagoon [Nelson 1982]) and, therefore, a switch from carnivory to herbivory would be necessary. As the equal monthly rank distribution of L. rhomboides between drop net samples is significant, and improbable to occur by chance alone, this species is probably evenly distributed due to intraspecific interactions that create equal forage areas between fish of similar size. At this time the fish reach a size that would require greater nutritional requirements than early juvenile stages, therefore, greater foraging range and greater opportunity for competitive intraspecific encounters. A simultaneous switch to territoriality and herbivory would alleviate some of this competition for depleted amphipod populations and partition the seagrass bed. The trophic switch - competition scenario presented by Huh and Kitting (1985) allows this territorial hypothesis to be presented as a likely explanation for the inordinately even distribution of pinfish in this study and that of McNeese (1986). This even distribution has not

AMERICAN OVERSIGHT

been observed in other western Atlantic seagrass bed studies undoubtedly due to the lack of good quantitative technique, differences in trophic resources, or in the case of Sogard, the lack of L. rhomboides. However, this hypothesis is made even more plausible by the documented territoriality in L. rhomboides by Caldwell (1957; albeit in captivity) and the fact that many organisms are facultatively territorial based on resource state (Kaufmann 1983).

Inlet/Upstream Faunal Distribution - This study documented a predictable upstream and inlet seagrass ichthyofauna, which share some common species, i.e. L. rhomboides, but differ significantly both qualitatively and quantitatively in other community constituents. The hydrological differences between the ocean inlet and the upstream portions of the lagoon are also significant, setting the stage for physiologically mediated differences in the respective faunas. In addition to obvious tidal differences, salinity and temperature conditions differ -particularly, wet season salinities and winter water temperatures. A distinct euryeocious, euryhaline estuarine fauna numerically dominates the upstream seagrass beds, while a more stenothermic, stenoecious, tropical/subtropical ocean reef and continental shelf component occurs typically within ocean inlet seagrass meadows. The ocean inlet fauna (i.e. occurring within 3 km of the nearest inlet) compared favorably with seagrass ichthyofaunas described by Snyder (1984), whose two study sites were within 1 km of Jupiter Inlet, the southern terminus of the Indian River lagoon. The upstream fauna described here compares favorably with that of McNeese (1986), who studied seagrass fish populations in the Indian River

AMERICAN OVERSIGHT

lagoon over 7.0 km from the nearest ocean inlet, explaining her differences from the Snyder (1984) study. These upstream/inlet faunas remained highly predictable over multiple annual cycles, with the major variation attributed not to qualitative differences, but to variations in individual species recruitment patterns between years. The trophic-spatial guild structure was basically the same at both inlet and upstream seagrass sites, with congeneric and confamilial species replacements as one approached an ocean inlet. The distinctness and predictability of these complementary faunas demonstrates the determining effect of geography and hydroclimatology on the species complement of the seagrass ichthyofauna at a particular location. These factors are of major importance in determining seagrass fish communities throughout the world (Kikuchi and Peres 1977, pg. 176; Moyle and Li 1979; Blaber and Blaber 1980; Livingston 1984).

The total numerical catch of upstream faunas differed quantitatively (by an order of magnitude or more) from inlet faunas principally due to increased numbers of zooplanktivores at nutrient rich upstream sites (e.g BMC). These differences in nutrient concentration (Gibson, 1976) may also influence seagrass invertebrate prey from the standpoint of available food, reproductive success and larval survival (Youngbluth and Gamble 1976; Youngbluth et al. 1977), and attract large numbers of secondary consumers, zooplanktivores and subsequently top predators. The larger number of small planktivorous specimens at upstream sites is responsible for the lower mean size of the fishes upstream. In contrast, there is little difference in densities or mean size of L. rhomboides between inlet (mean SL = 37.6

AMERICAN OVERSIGHT

mm) and upstream sites (mean SL = 35.6 mm), contrary to the findings of Jones et al., (1975). Therefore, most of the size difference is attributed to the bay anchovy, A. mitchilli, the clupeid, B. smithi and possibly some of the gobiids and syngnathids (e.g. G. robustum and S. scovelli) which are more numerous at upstream sites. The most abundant inlet anchovies are larger than A. mitchilli, e.g. A. hepsetus. For this reason we suggest that the amphipod distribution patterns of the Indian River lagoon observed by Nelson (1982) and hypothesized to be due to geographic variation in predatory phenomena, may more likely be due to geographical and hydroclimatographic environmental phenomena than predation by fish per se, i.e. reacting to similar faunal distributional parameters as do the fishes.

Temporal Predictability

Temporal seasonal changes in seagrass ichthyofaunas were significant but showed the same pattern over several annual cycles, particularly on the qualitative level. Quantitative variation in year class strength for most abundant species was variable from year to year, but the year to year prediction of site-specific seagrass faunas was accurate. Although several species may have periodic spawning activity throughout the year most have specific periods of spawning activity, particularly the warm temperate species. Spawning activity in tropical reef species appears to be limited to the warmer months, however, tropical estuarine species, i.e. centropomids and gerreids, may show a longer spawning period under optimum climatic conditions.

AMERICAN OVERSIGHT

The stochasticity of recruitment predicted by Sogard et al. (1987) to influence the qualitative nature of seagrass ichthyofaunas at various sites is called into question by the highly predictable annual occurrence of the major seagrass species in this survey. Frequency of species occurrence, and therefore, the predictability of faunal components, declined with sample area size (Table 2). The stochasticity of Sogard's (1987) fauna could, therefore, result from the use of the 1 m^2 throw net as it was the only collection device used. All the collection sites in the present study were accessible to larvae of either estuarine spawners or oceanic spawners depending on the relative distance from ocean inlets. Some of the Sogard et al. (ibid) sites may have been more isolated from spawning sites and therefore, received larvae on a less predictable temporal schedule. However, the Sogard et al. (1987) limitation of only three annual collections for two years also calls to question the possibility of predicting recruitment at all in their study.

The present study has demonstrated that the qualitative attributes of site specific seagrass ichthyofaunas were predictable over several annual cycles and that fish recruitment to a site is also predictable for the abundant species. This is particularly true for estuarine spawners at upstream sites, e.g. C. nebulosus, B. chrysoura, G. robustum, S. scovelli and A. mitchilli versus ocean spawners at inlet sites, scarids, L. synagris, L. analis, H. parrai and certain site specific gobiids, G. stigmaturus. The relative ranking of these species based on number of individuals was also conservative while showing most variation in year class strength.

AMERICAN OVERSIGHT

Importance of Geography and Hydroclimatology

The zoogeographic characterization of the regional ichthyofauna reveals a transitional fauna with warm-temperate Carolinian contributions principally at upstream and northern sites and a tropical Caribbean contribution principally at inlet and southern sites. Greatest faunal overlap occurs with Biscayne Bay, however gear bias makes a Florida Bay faunal comparison difficult to make. Sogard et al. (1987) describes a basically Gulf fauna for Florida Bay seagrass habitats which may be more warm temperate than southern Indian River lagoon inlet faunas, but quite similar to upstream northern lagoon seagrass faunas described by Schooley (1977).

The role various species of seagrasses play in serving as fish habitat was not examined in this study as the same seagrass species was examined at all drop net sites and the size and composition at seine sites varied considerably. The fact that similar upstream/inlet faunal patterns were seen in spite of seagrass species compositional differences at the southern sites indicates that the geographic location of the site is more important than the species of seagrass in determining at least fish species composition at various sites within the Indian River lagoon. The SEB and WAB Halodule bed sites did differ from the other sites dominated by Syringodium in a number of fish species, but they never showed significant similarities to one another. Neither did the inlet versus upstream Syringodium beds. This calls into question the differences in seagrass ichthyofaunas proposed by Martin and Cooper (1981) and Middleton et al. (1984) based on

AMERICAN OVERSIGHT

studies of different species under comparable geographic separation. The studies of Stoner (1983) and Young (1981) are more convincing as proximate sites were studied with greater sampling frequency even though trawls were used to obtain specimens. Seagrass beds species composition, drift algal production, water depth and distance from the nearest shore all undoubtedly impact microspatial fish distributions at specific upstream or inlet sites. These latter factors are undoubtedly particularly important for the species in guilds II through VII (Fig 21) and need detailed treatment in future studies.

AMERICAN OVERSIGHT

CONCLUSIONS

These analyses of the seagrass ichthyofauna of the Indian River lagoon produced the following conclusions:

1. The seagrass ecosystem of the Indian River lagoon contains a diverse assembledge of fishes (164 species, 54 families) which is qualitatively and quantitatively distinct from adjacent salt marsh/mangrove swamp and sand bottom fish communities, based on the use of complementary techniques.

2. The qualitative and quantitative attributes of the seagrass community are greatly affected by the proximity to ocean inlets, as there are distinct upstream (7 km or more from nearest inlet) and inlet ichthyofaunas (less than 3 km from nearest inlet), which are predictable over several annual cycles. The spatial and temporal patterns observed demonstrate that physical geographic and hydroclimatic parameters substantially influence the species composition and relative abundance of the seagrass ichthyofauna at specific sites.

3. Seagrass ichthyofaunal homogeneity (qualitative and quantitative) is relatively high at sites within a few meters, but still reveals significant homogeneity at distances up to 3 km between upstream sites.

AMERICAN OVERSIGHT

4. Seasonal faunal changes are predictable. However, quantitative changes are more variable with significant changes in recruitment over several annual cycles. There are predictable upstream and inlet site specific seagrass ichthyofaunas which maintain their unique species complement over several annual cycles but fluctuate considerably in total numbers captured.

5. Spawning periodicity was predicted from larval-juvenile recruitment patterns. Cool-dry season spawners are typically warm temperate species and warm-wet season spawners are generally tropical and eurythermic tropicals, although some warm-temperate species limit their spawning to this period of the year (e.g. Cynoscion nebulosus). Some tropical species, e.g. gerreids and centropomids, may spawn throughout the year when climatic conditions are favorable.

6. The seagrass ichthyofauna may be divided into eight basic guilds based on numbers captured and percent frequency of occurrence, both of which are directly effected by gear bias, vertical and horizontal fish dispersal and behavior. These eight guilds are defined based on known species dispersal, trophic habits and microhabitat preferences and are generally present at any particular seagrass site. However, the species within each guild may be replaced by congeneric or confamilial species depending on the location of the seagrass bed relative to ocean inlets.

ACKNOWLEDGEMENTS

We thank all the Fisheries-Independent Monitoring Program personnel, too numerous to mention, who were involved in collecting and processing the many samples that make up this study. We also thank the Sarasota Bay and Charlotte Harbor Estuary Programs for funding the Sarasota Bay and Lemon Bay studies, respectively; this funding provided a unique opportunity to collect consistent data from four adjacent estuaries along Florida's Southwest coast. Fisheries-Independent Monitoring program collections from Tampa Bay and Charlotte Harbor, which were analyzed for interbay comparisons, were funded by State of Florida Recreational Saltwater Fishing License and the Department of the Interior, U.S. Fish and Wildlife Service, Federal Aid for Sportfish Restoration Project Number F-43 to the Florida Fish and Wildlife Conservation Commission (FWC).

AMERICAN OVERSIGHT

SUMMARY

The Sarasota Bay National Estuary Program's Comprehensive Conservation Management Plan stressed the importance of restoring and protecting juvenile fish habitats. The Sarasota Bay estuary has undergone considerable urbanization since the 1950's. An understanding of the distribution, abundance, and habitat use of nekton (fish and macroinvertebrate) within the Sarasota Bay estuary is critical to protecting and restoring estuarine habitats.

The Florida Fish and Wildlife Conservation Commission's (FWCC) Fisheries-Independent Monitoring (FIM) program has been monitoring nekton assemblages in Tampa Bay and Charlotte Harbor since 1989. The goal of the FIM program is to provide timely, accurate, and consistent fisheries-independent data and analysis to fisheries managers for the conservation and protection of Florida's fisheries. The sampling design and data collected are intended to not only assess fishery stocks, but to also describe habitat utilization, biodiversity, nekton communities, and to document changes within Florida's estuarine systems.

The general objectives of this study were to describe the nekton community and habitat utilization within the Sarasota Bay estuary. Specifically, this study was designed to: 1) provide a database of fish and selected invertebrate species that inhabit the Sarasota Bay estuary; 2) examine spatial differences in species composition and relative abundance within the Sarasota Bay estuary; 3) examine spatial differences in species composition and relative abundance between the polyhaline portions of four estuaries along Florida's Southwest Coast; and 4) develop baseline data on mercury

AMERICAN OVERSIGHT

content in fish from the Sarasota Bay estuary and compare those data to adjacent estuaries.

The FIM program survey used a stratified-random sampling design to select sampling sites from the five Sarasota Bay embayments as defined by the Sarasota Bay estuary program. Samples were collected bi-monthly between June 2009 and April 2010 with 21.3-m seine, 183-m seine, and 6.1-m trawl. Water chemistry parameters (salinity, water temperature, dissolved oxygen and pH) and habitat assessments (bottom type, presence of submerged aquatic vegetation, shore habitat) were taken in association with each net deployment. A large body of descriptive habitat-use information was generated and is presented in the accompanying appendices.

Temperatures during winter/spring 2010, and the rainfall pattern throughout the study period were not typical of Southwest Florida. The weather pattern was defined by an El Nino event, which resulted in unseasonably high rain fall totals and cold temperatures during winter/spring 2010. The water temperatures and salinities observed during this study likely do not reflect the long-term expected condition and the nekton assemblage probably differs somewhat from that which would be expected from a longer-term sampling program that included typical weather patterns.

The nekton community in Sarasota Bay was typical of Florida estuaries. The majority of the animals (n=136,429) were collected with 21.3-m seines and two taxa (bay anchovy and pinfish) represented over 55% of the total catch in this gear. Pinfish were also particularly abundant in the other two gear types, comprising 59.4% and 21.1% of the total catch in the 183-m seine and 6.1-m trawl, respectively. Other

AMERICAN OVERSIGHT

estuarine dependent species such as spot, eucinostomus mojarra, silver jenny, silver perch, and scaled sardine were relatively abundant as well.

Community analyses of the five embayments of the Sarasota Bay estuary (*intra*bay) and between the polyhaline sections of four Southwest Florida estuaries (*inter*bay) provided similar results. The community structure in "small" estuaries was different than the community structure in "large" estuaries for 21.3-m seines (intrabay and interbay), 183-m seines (interbay), and 6.1-m trawls (interbay). The abundance for the discriminating taxa in the community analyses tended to be higher in "small" estuaries than in "large" estuaries (intra and interbay). Overall abundance tended to be higher in "small" than in "large" bays (intrabay). Differences in community structure and abundance could be related to water depth, salinity, ratio of land-water interface to open water, sediment type, quantity and type of submerged aquatic vegetation, or circulation patterns, residence times, and water quality.

Mercury is a toxic element that has been shown to bio-accumulate in tissues. Tissue samples for mercury content analysis were taken from 323 individuals representing 25 taxa. About 40% of the collected tissue samples have been analyzed. Sample sizes were not large enough to run linear regressions on any of the taxa collected from Sarasota Bay without combining with data from adjacent estuaries (Tampa Bay and Charlotte Harbor). The results of the mercury content analysis indicated that fish from Sarasota Bay do not contain any higher concentrations of mercury than those found in adjacent estuaries and suggest that accumulation rates for Sarasota Bay are similar to those found in Tampa Bay and Charlotte Harbor.

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

INTRODUCTION

The Sarasota Bay estuary is an urbanized coastal lagoon system located on the southwest coast of Florida. Since the early 1900s, dredge and fill activities have resulted in significant losses of ecologically important habitats, and historically semi-isolated tidal current regimes within embayments have been joined through the construction of an Intracoastal Waterway (ICW) channel that hydrologically links all embayments. Intense development occurred throughout the system from the late 1950's to 1970 resulting in much of the natural shoreline being replaced by seawalls to retain dredge-and-fill material for housing sites and other construction projects. Mosquito ditching along with significant channelization of tidal creeks has altered historical patterns of surface water runoff to the bay and further exacerbated the problem of wetland habitat loss (Sarasota Bay National Estuary Program, 2003). A thorough understanding of the ecology of local nekton assemblages is imperative if the consequences of further anthropogenic or environmental changes are to be determined (Poulakis et. al. 2004). In addition, the development of a baseline database documenting habitat use, recruitment, and biodiversity can provide a broader understanding of the status of fish populations found within the estuary and guide us in the protection of our estuarine-based fisheries and associated habitats (Paperno, et. al. 2001).

The Sarasota Bay National Estuary Program (SBNEP) Comprehensive Conservation Management Plan (CCMP) stressed the importance of restoring and protecting juvenile fish habitat as well as the need to maintain fish populations while restoration efforts are pursued (SBNEP 1995). The objectives of this study are to: 1)

AMERICAN OVERSIGHT

provide a database of fish and selected invertebrate species that inhabit the Sarasota Bay estuary; 2) examine spatial differences in species composition and relative abundance within the Sarasota Bay estuary; 3) examine spatial differences in species composition and relative abundance between the polyhaline portions of four estuaries along Florida's Southwest Coast; and 4) develop baseline data on mercury content in fish from the Sarasota Bay estuary and compare those data to adjacent estuaries.

METHODS

Study Area

Sarasota Bay is a coastal lagoon, located on the southwest coast of Florida, which stretches from Anna Maria Sound to the Venice Inlet. The bay is comprised of five embayments, Palma Sola Bay, Sarasota Bay, Roberts Bay, Little Sarasota Bay and Blackburn Bay, which were formed behind a barrier island complex. This system is connected to the Gulf of Mexico through five inlets; Anna Maria Sound, Longboat Pass, New Pass, Big Sarasota Pass and Venice Inlet. Freshwater inflow enters the estuary through a series of creeks, bayous, and unnamed drainage ditches (Roat and Alderson 1990). The main tributaries and receiving water bodies are Bowlees Creek and Whitaker and Hudson bayous (Sarasota Bay), Phillippi Creek (Roberts Bay), Clower and Catfish creeks (Little Sarasota Bay), and South Creek (Blackburn Bay). Shoreline vegetation consists largely of mangroves and marsh grasses, and bottom substrates are typically characterized as sand, mud, oysters, or a combination thereof (Flannery

AMERICAN OVERSIGHT

1989). Seagrass meadows are the dominant vegetative cover in Sarasota Bay and are widely distributed throughout the bay (Haddad 1989).

Sampling Design

The FIM program utilized a stratified-random sampling (SRS) design and a multi-gear approach to collect data on nekton (fish and select invertebrates) from a wide range of habitats and life history stages. This sampling design provides comprehensive data on size-specific, spatial and temporal patterns of abundance for the nekton community and for individual species. Specimens collected during this sampling are also used for various other assessments, such as fish health, mercury content, diet, age/growth, and reproduction. Three sampling gears (*Table 1*) were used: 1) 21.3-m seines; 2) 183-m seines; and 3) 6.1-m trawls. Generally speaking, the data from seine hauls document habitat use by shallow-water shoreline-associated organisms whereas the data from trawls document habitat use in deeper areas. The dominant catch for the 21.3-m seines and trawls is juvenile fishes, although the adults of smaller species are also commonly caught. The 183-m seine is used to catch larger sub-adult and adult fishes. The seines and trawls also regularly collect a few of the larger macroinvertebrate species from tidal rivers, notably blue crabs (*Callinectes sapidus*), and pink shrimp (*Farfantepenaeus duorarum*).

Sarasota Bay estuary was divided into five geographically-defined zones (Zone A - Palma Sola Bay, Zone B - Sarasota Bay, Zone C - Roberts Bay, Zone D - Little Sarasota Bay, and Zone E - Blackburn Bay; *Figure 1*). Each zone was further subdivided into 1-nm^2 grids. Within each grid, habitat and depth strata were identified, thereby designating the gear types that could be used in each. The number of samples

AMERICAN OVERSIGHT

collected in each zone with each gear was approximately proportional to the number of grids in the zone that could be sampled with a particular gear. Sites for each sampling event were chosen by randomly selecting grids and then randomly selecting a sampling site within each grid. A single collection was made at each selected site. Thirty primary samples consisting of six 183-m seines, eight 6.1-m trawls and sixteen 21.3-m seines were collected during each sampling event. Nine to twelve additional 21.3-m seine samples were collected during each sampling event as time allowed.

Sampling events were scheduled with a bi-monthly periodicity in the Sarasota Bay estuary. Sampling began in June 2009 and is ongoing with sampling currently scheduled to end in April 2011. This report summarizes the data collected between June 2009 and April 2010.

Table 1. Description of sampling gears used during the Sarasota Bay stratified random sampling, June 2009 – April 2010. A more detailed description of each gear can be found in the FIM program's Procedure Manual.

Gear	Mesh Size (mm)	Area Sampled Estimate (m^2)	Description of use
21.3-m seine	3.2	140	used in near-shore and shoreline areas ≤ 1.5 m
183-m seine	38.1	4,120	used along shorelines ≤ 2.5 m
6.1-m trawl	38.1 (3.2-mm bag liner)	1,400	used in areas from 1.8-m to 7.6-m deep

AMERICAN OVERSIGHT

Gear Specifications and Deployment

The gear used to collect smaller nekton associated with shorelines and on offshore flats (>5 m from shore) was a 21.3-m center-bag seine with 3.2-mm mesh and leads spaced every 150 mm. The 21.3-m seine was pulled, with a crewmember on each wing, for a distance of 9.1 m with the net wings separated by 15.5 m. The seine was deployed into the current and was landed by collapsing the seine around a pivot pole to close the wings and force the sample into the center bag. Each 21.3-m seine deployment sampled an estimated 140 m^2. Sampling sites for the 21.3-m seine were pre-stratified by the presence or absence of bottom vegetation or a shoreline.

The 183-m haul seine was used to target larger sub-adult and adult nekton associated with shallow, nearshore habitats. Deployment of this gear occurred from the net from the back of a boat in a standard rectangular shape along shorelines in relatively shallow waters (<2.5 m). Net wings were simultaneously hauled along the shoreline, keeping the lead lines close to the bottom, forcing the catch into the center bag portion of the gear. Each 183-m seine set enclosed an area of approximately 4,120 m^2. In Sarasota Bay proper, which had a relatively larger number of bi-monthly 183-m seine hauls, sites were pre-stratified by the presence or absence of overhanging shoreline vegetation. Sample sizes collected each month with 183-m seines in Palma Sola, Roberts, Little Sarasota, and Blackburn bays were too small to pre-stratify sampling sites, so sites were post-stratified by the presence or absence of overhanging shoreline vegetation.

Juvenile and adult nekton that inhabit relatively deeper waters (1.0 – 7.6-m) were collected with the 6.1-m otter trawl which had a 38-mm stretch mesh with a 3.2-mm

AMERICAN OVERSIGHT

mesh cod-end liner. The trawl was towed from the back of a boat in for ten minutes. Tow speeds averaged 0.6-m/s and start and end locations for each trawl were marked using a global positioning system (GPS) so that the distance fished could be estimated. Each trawl deployment sampled an area of approximately 1,440 m^2.

Salinity, temperature, pH, and dissolved oxygen were measured at the surface and at 1-m intervals to the bottom in association with each gear deployment. . A variety of qualitative habitat assessments were also made, such as characteristics of the shoreline (e.g., vegetation type, inundation), substrate (e.g., sediment type, presence of submerged aquatic vegetation), and bycatch (i.e., total volume, type, and composition). All sampling was conducted during daytime hours (one hour after sunrise to one hour before sunset). Additional sampling details and habitat assessment procedures are described in the FIM program's Procedure Manual (FWC-FWRI 2010).

Sample Processing

Sample work-up was similar for all samples, regardless of gear type or sampling regime. All fish and selected invertebrate species captured were identified to the lowest practical taxonomic level, generally species. Representative samples (three individuals of each species from the 21.3-m seines, and trawls on each sampling trip) were brought back to the FWC-FWRI laboratory to confirm field identification. Species for which field identification was uncertain were also brought back to the laboratory. A maximum of 20 measurements (mm) were made per taxon, unless distinct cohorts were identifiable, in which case a maximum of 20 measurements were taken from each cohort; for certain economically valuable fish species, forty individuals were measured. Standard length (SL) was used for fish (total length [TL] for seahorses and disk width [DW] for rays),

AMERICAN OVERSIGHT

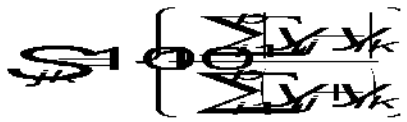
post-orbital head length (POHL) for shrimp, and carapace width (CW) for crabs. Animals that were not measured were identified and counted. When large numbers of individuals (> 1,000) were captured, the total number was estimated by fractional expansion of sub-sampled portions of the total catch split with a modified Motoda box splitter (Winner and McMichael 1997). Animals not chosen for further laboratory examination were returned to the river. Additional details concerning sample work-up are described in the FIM program's Procedure Manual (FWC-FWRI 2010).

Due to frequent hybridization and/or extreme difficulty in the identification of smaller individuals, members of several abundant species complexes were not identified to species. We did not separate menhaden, *Brevoortia*, species. *Brevoortia patronus* and *B. smithi* frequently hybridize, and juveniles of the hybrids and the parent species are difficult to identify (Dahlberg 1970). Two abundant silverside species (*Menidia beryllina* and *M. peninsulae*) tend to hybridize, form all-female clones, and occur in great abundance that renders identification to species impractical due to the nature of the diagnostic characters so they are represented in this report as Menidia spp. (Duggins et al. 1986; Echelle and Echelle 1997; Chernoff, personal communication). Species-level identification of mojarras (genus *Eucinostomus*) was limited to individuals ≥ 40 mm SL due to great difficulty in separating *E. gula* and *E. harengulus* below this size (Matheson, personal observation). The term "eucinostomus mojarras" is used for these small specimens. Species-level identification of gobies of the genus *Gobiosoma* (i.e., *G. robustum* and *G. bosc*) used in analyses was limited to individuals ≥ 20 mm SL for the same reason; smaller individuals are hereafter referred

AMERICAN OVERSIGHT

to as “gobiosoma gobies”. Similarly, needlefishes (*Strongylura* spp.) other than *S. notata* were only identified to species at lengths ≥ 100 mm SL.

The data for this report were summarized separately for each estuarine zone and for each gear type. Data were also summarized separately for all taxa and for taxa of recreational or commercial importance (‘Selected Taxa’; *Appendix A*). Abundance estimates for all gear types were calculated as the number of individuals/100 m^2 of area sampled.



Nekton Community Analysis

Nekton community structure was investigated using nonparametric multivariate analyses in PRIMER v6 software (PRIMER-E Ltd, UK) (Plymouth Routines in Multivariate Ecological Research; Clarke and Warwick 2001). Analyses were based on pooled samples averaged by each bi-monthly sampling event to investigate seasonality, or by geographic area to investigate spatial patterns. Data from each gear type (21.3-m seines, 183-m seines, and 6.1-m trawl) were treated separately. *Intra*bay analyses were conducted to compare nekton assemblages in each of Sarasota Bay’s smaller embayments. Broader-scale geographic analyses (*inter*bay analysis) were conducted to compare nekton assemblages in adjacent bay systems along the southwest coast of Florida (i.e., Lower Tampa Bay North, Lower Tampa Bay South, Sarasota Bay, Lemon Bay, Gasparilla Sound, Pine Island Sound) (*Figure 2*). All nekton taxa collected, including species complexes (e.g., *Eucinostomus* spp., *Menidia* spp.) and invertebrates were included in the community analyses.

AMERICAN OVERSIGHT

Bray-Curtis similarity calculation

The basis of the multivariate analyses was an assessment of similarity in nekton community structure, calculated according to the method of Bray and Curtis (1957):

where S_{jk} is the Bray-Curtis similarity coefficient, y_{ij} is the abundance of the ith species in the jth sample and y_{jk} is the abundance of the same ith species in the kth sample. Abundance was standardized to number•haul^{-1} for both seine types, and to number•100m^{-2} to account for varying tow lengths. Abundance data were square root-transformed prior to analysis to reduce the influence of highly abundant taxa.

Non-metric multidimensional scaling (MDS) and Similarity Percentage Analysis (SIMPER)

In order to provide a visual depiction of differences in nekton community structure non-metric multidimensional scaling (MDS) of the initial Bray-Curtis similarity matrices was conducted. This technique generates two-dimensional plots of 'distances' between samples on the basis of their similarity in community structure (Clarke 1993). The MDS analysis uses an iterative procedure to attempt to map similarity of samples as closely as possible to the rank order of similarities from the input Bray-Curtis similarity matrix. The adequacy of this representation is judged by a 'stress' value, for which zero is perfect representation, and values below ~0.2 offer appropriate results for interpretation (Clarke and Warwick 2001). MDS-plot axes do not have units, so the important information in these plots is the distances between samples; samples close together on

AMERICAN OVERSIGHT

the plots are more similar in community structure than samples that are further apart. The MDS plots included ‘samples’ that were averages of all data collected by sampling event or by geographic area. Similarity percentage analysis (SIMPER; Clarke and Warwick 2001) was used to identify species representative of dissimilarities between groups determined from MDS.

AMERICAN OVERSIGHT

Mercury Content Analysis

Fish for mercury content analysis were placed directly on ice and returned to the laboratory, where standard length (SL) and sex were recorded. A clean stainless-steel knife was used to remove axial muscle tissue samples from the left dorsal area above the lateral line and anterior to the origin of the first dorsal fin for each fish. White muscle tissue taken from this region is representative of the portion of fish consumed by humans (Adams and McMichael 2001). Care was taken to assure that the sample did not contact the outer layer of the specimen, blood, scales, or other surrounding surfaces during the extraction process. Tissue samples were immediately placed in sterile polyethylene vials and frozen at -20° C until analyzed.

Total mercury concentration (THg) of each tissue sample was determined by EPA Method 7473 (*Direct Mercury Analysis by Thermal Decomposition, Amalgamation, and Atomic Absorption Spectrometry* [DMA], USEPA 2007). Frozen tissue samples were thawed until ice crystals were no longer present on or within the sample, and approximately 0.20 g of clean unexposed muscle tissue was then excised with sterilized stainless steel instruments from the interior portion of the sample. The tissue sample was placed directly into a clean quartz sampling vessel, weighed to 0.0001 g, and analyzed for total mercury by FWC-FWRI with a calibrated DMA-80 Direct Mercury Analyzer (Milestone Inc., Shelton, CT). Quality control included analysis of laboratory method blanks, duplicate or triplicate tissue samples, and certified fish-tissue reference material (CRM; TORT-2, DOLT-4, obtained from the National Research Council of Canada) for each group of 10 or fewer fish samples analyzed. Matrix spike samples were processed for every 40 samples analyzed in a group. If CRM results were not

AMERICAN OVERSIGHT

within 10% of their certified value, all samples run subsequent to the last acceptable CRM result were re-analyzed. All total mercury levels were measured and reported as milligrams per kilogram (mg/kg) wet weight, rounded to three decimal points (0.001).

Linear regressions were used to describe relationships between fish size and total mercury concentration. Sample sizes from Sarasota Bay were not large enough to be analyzed independently, so data collected from two adjacent estuaries (Tampa Bay and Charlotte Harbor) were also used in the regression analysis. Total mercury concentrations from Tampa Bay and Charlotte Harbor prior to 2006 were analyzed by EPA Method 245.6 (*Determination of Mercury in Tissues by Cold Vapor Atomic Absorption Spectrometry* [CVAAS]; USEPA 1991), which provides similar but not identical results to the DMA method. Therefore, THg values for all DMA-analyzed fish were converted into CVAAS values using equations developed by FWC from 1,566 split samples that were analyzed by both methods. Total mercury data were log transformed to approximate the normality and homoscedasticity requirements prior to regression analysis. Only species with at least 50 total animals collected, and at least 15 from Sarasota Bay, were analyzed using linear regression.

AMERICAN OVERSIGHT

RESULTS and DISCUSSION

Physiochemical conditions

Temperature and rainfall patterns during the study period did not follow the long-term Southwest Florida trends (*Figure 3*). The period from May 2009 through April 2010 had slightly higher than average summer and fall air temperatures compared to the longer-term period (January 1990 to May 2010) (*Figure 3*); on average, temperatures were 0.5◦C warmer from June to December 2009 than during the longer-term period. Air temperatures during the winter and early spring of 2010 were colder than normal, with temperatures from January to March 2010 averaging almost 4˚C colder than the longer-term average. Differences from the longer-term climatic trend for rainfall were also apparent (*Figure 3*). Rainfall totals were higher than normal in May and July 2009, at the beginning of the study period. Total rainfall in June, August, September, and October 2009 were lower than normal, while the normally dry period between January and April 2010 had much higher than normal rainfall totals.

Mean water temperature in each of the embayments showed very similar trends with very little difference between the five embayments (*Figure 4*). Temperature followed the normal Florida pattern, being warmest during the summer months of June and August, decreasing during the fall and winter, and rising again in the spring. Although not obvious in the one-year study of Sarasota Bay, water temperatures in adjacent estuaries (Tampa Bay and Charlotte Harbor) with a longer time series of data, indicate that the January to March water temperatures were much colder in 2010 than during the historical period of record (*Figure 5*).

AMERICAN OVERSIGHT

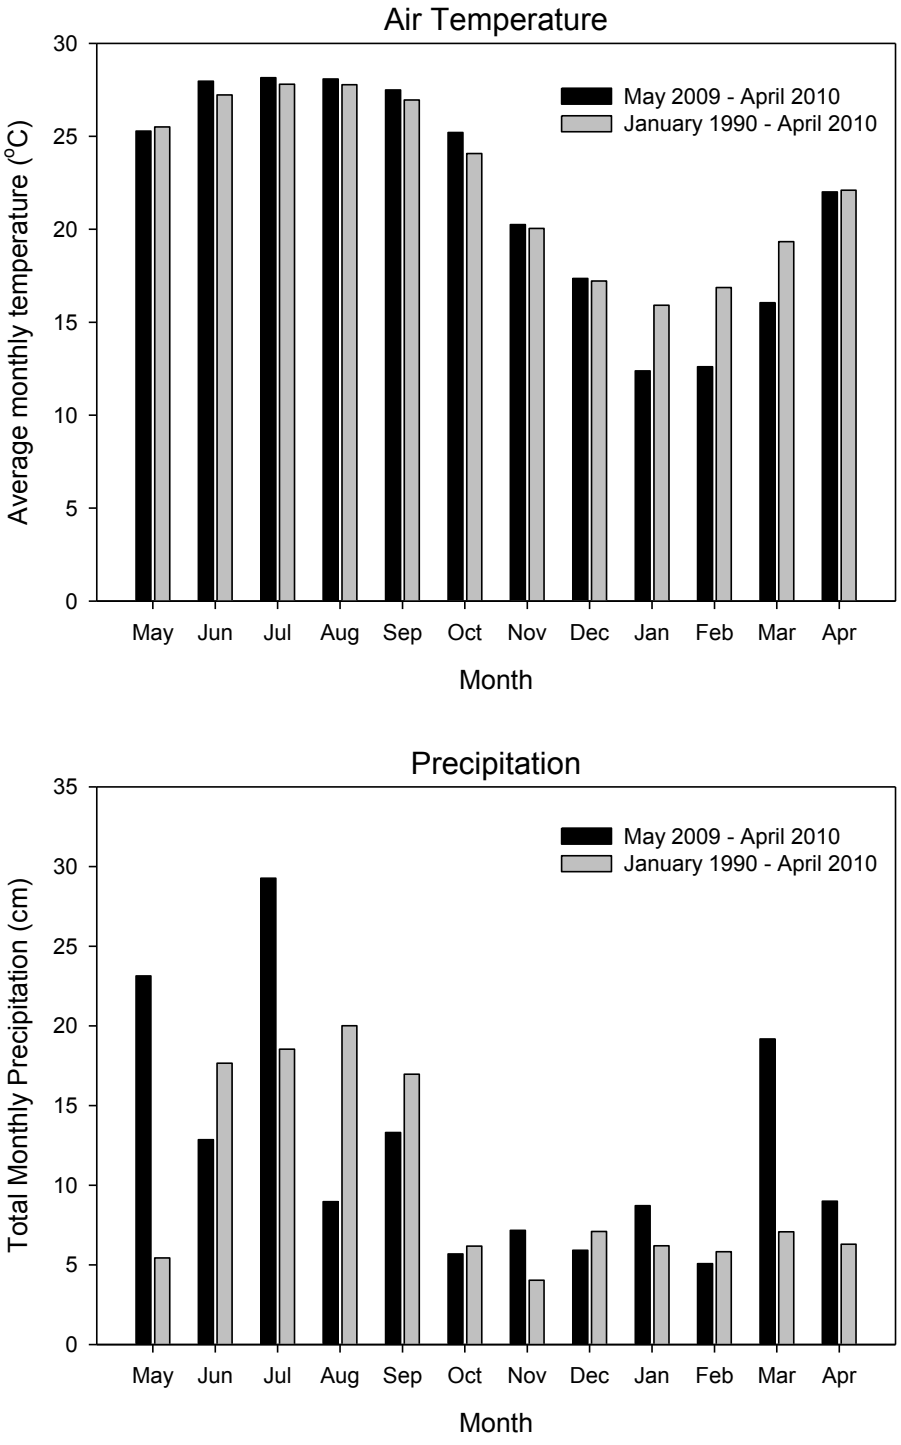

Figure 3. Temperature and total rainfall during the study period (May 2009 to April 2010) and during a longer-term reference period (January 1990 to April 2010). Data are from Tampa International Airport (Station 72211012842) and were downloaded from the National Climatic Data Center (http://gis.ncdc.noaa.gov/website/ims-cdo/gsod/viewer.htm).

AMERICAN OVERSIGHT

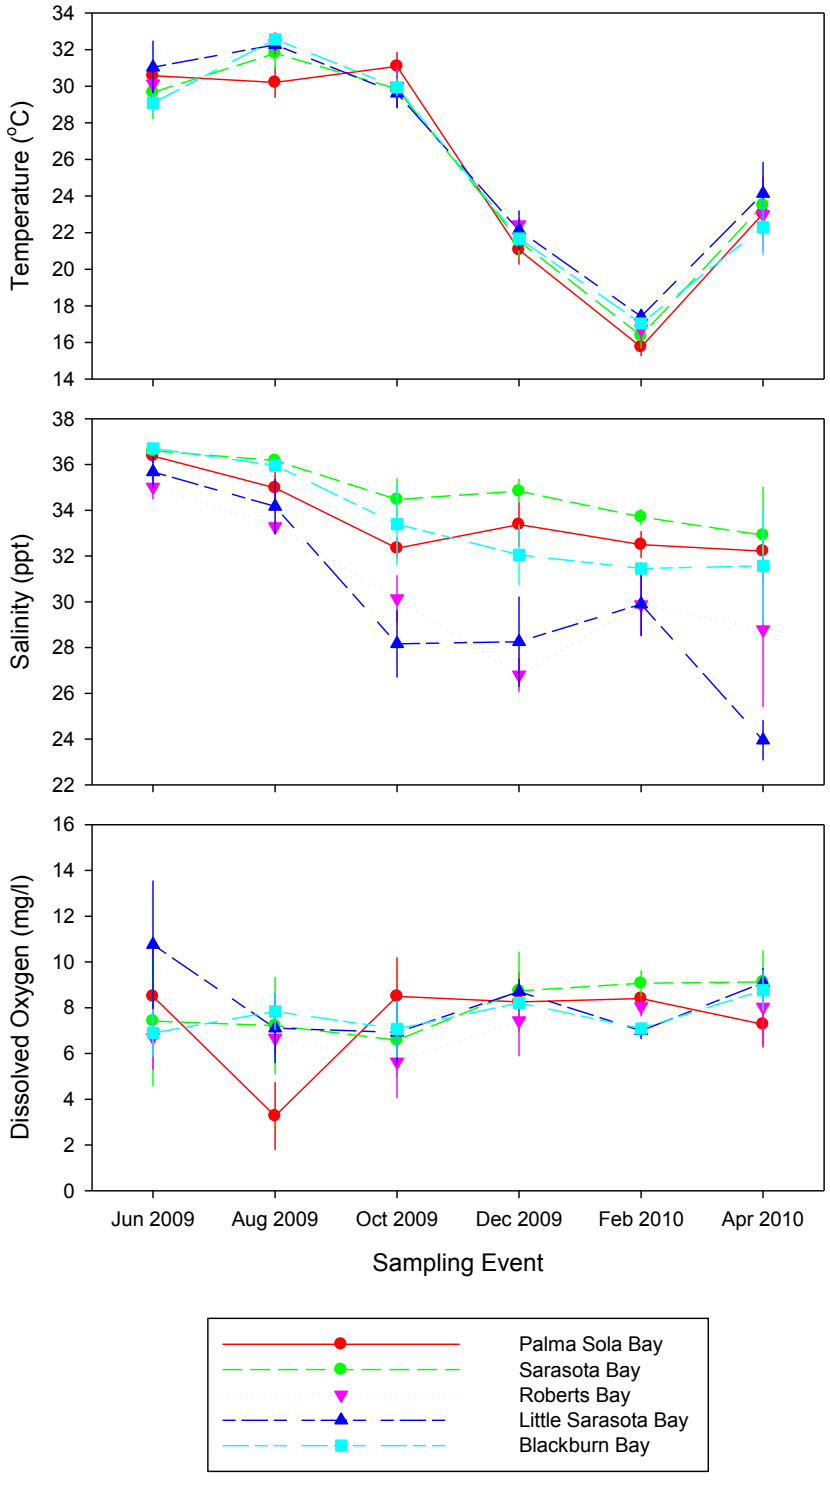

Figure 4. Mean (±standard deviation) water temperature, salinity, and dissolved oxygen (water column average) by embayment, from the Fisheries-Independent Monitoring collections in Sarasota Bay estuary during bi-monthly sampling (June 2009-April 2010).

AMERICAN OVERSIGHT

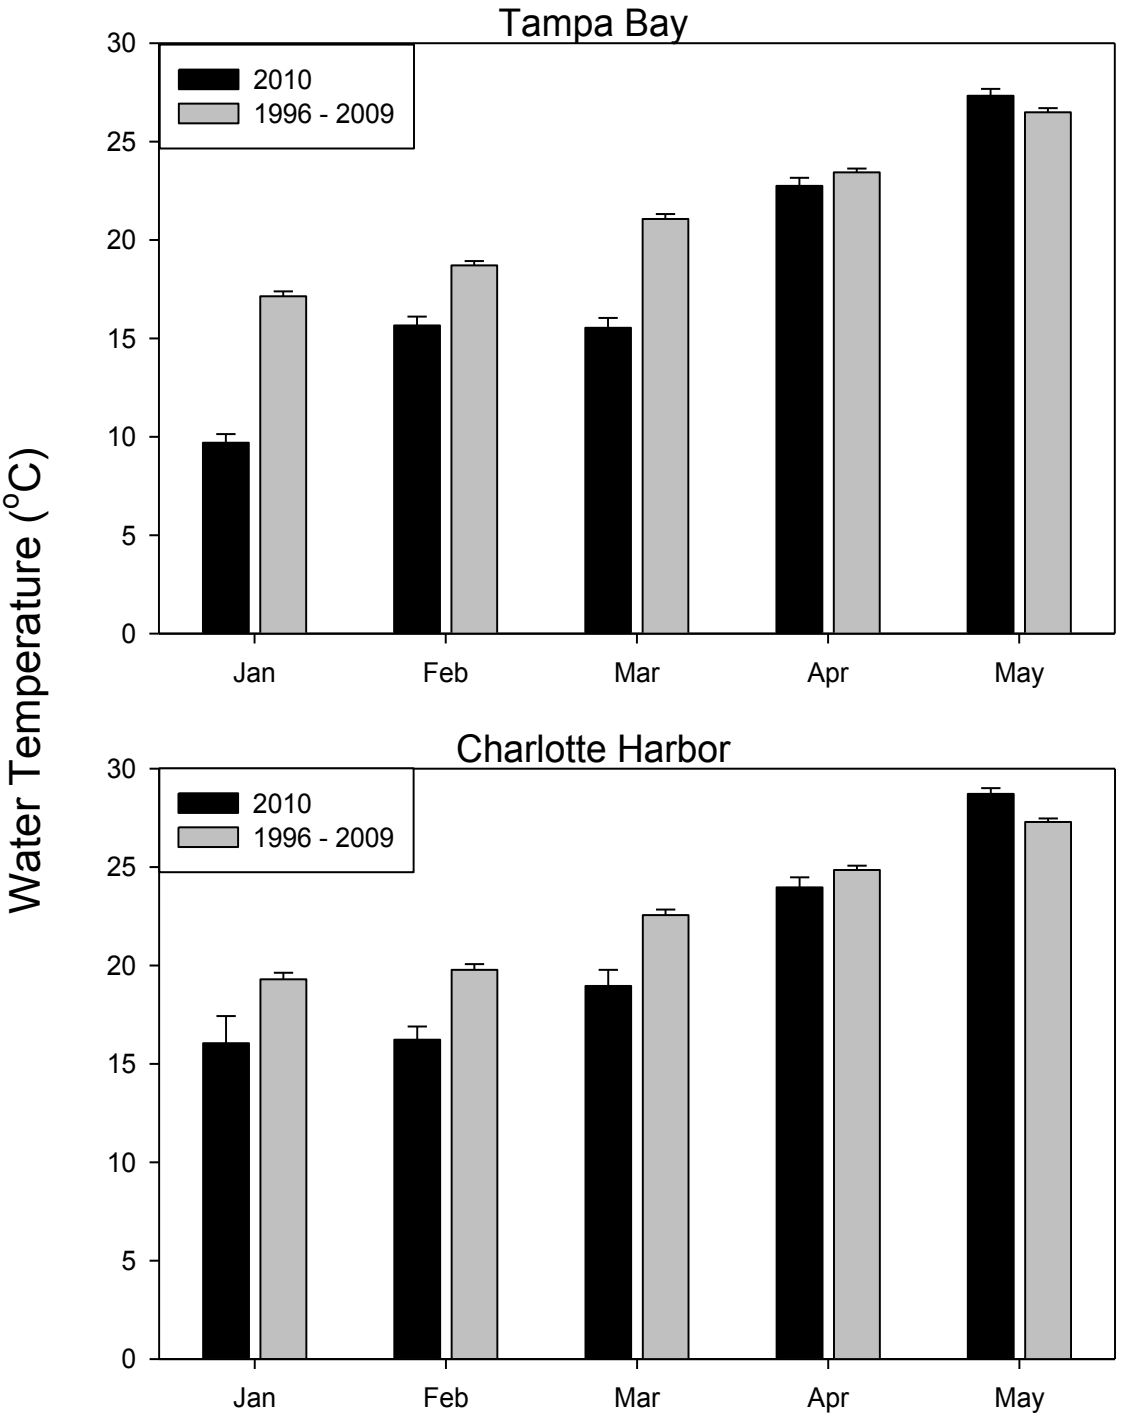

Figure 5. Mean monthly water temperature from the 183-m seine surveys conducted by the Fisheries-Independent Monitoring program in Tampa Bay and Charlotte Harbor. Gray and black fills represent the historical period (1996 – 2009) and 2010, respectively. Error bars represent the 95% confidence interval.

AMERICAN OVERSIGHT

Each embayment had similar trends in salinity (*Figure 4*). Salinity maxima occurred in June 2006 in each of the embayments with values ranging from 35 to 37 ppt. Salinity was lowest in each embayment during April 2010, with two of the embayments (Roberts and Little Sarasota bays) having lower salinities (28.8 and 24.0 ppt, respectively) than the other three embayments (31 to 33 ppt). Although this pattern was experienced in many Florida estuaries between June 2009 and April 2010, Florida estuaries typically experience their highest salinities in spring (April and May) during which Florida typically receives its lowest rainfall totals.

Water column average dissolved oxygen was above 5 mg/l in each of the embayments during each sampling period (*Figure 4*), except for Palma Sola Bay in August 2009 (3.3 mg/l). The highest average dissolved oxygen occurred in Little Sarasota Bay during June 2009.

The climatic and physiochemical conditions experienced during this one-year study of Sarasota Bay were not typical compared to the longer-term average condition for Southwest Florida. January and February 2010 had unprecedented cold temperatures with fish kills reported throughout Florida. An El Nino rainfall pattern, with unseasonably heavy winter/spring precipitation, was experienced likely resulting in lower salinity in the study area than would normally be expected. It is very likely that the nekton community sampled during this period was impacted by these climatic and physiochemical conditions and may differ from the nekton community that would be sampled over a longer time period. The funding that was recently awarded for a second year of sampling, June 2010 to April 2011, will greatly improve the understanding of the nekton community in this estuary.

AMERICAN OVERSIGHT

Composition of overall nekton community

A total of 159,271 fishes (103 taxa) and selected invertebrates (8 taxa) were collected from 245 samples (*Table 2*). Species lists with common and scientific names and number of animals collected are provided by sampling event, gear and habitat strata, and geographic strata in *Appendix B*, *C*, and *D*, respectively. About 17% of the total sampling effort, but over a quarter of the total number of animals collected (26.2%) were from Roberts Bay (*Table 2*). Sarasota Bay proper, in which just over 1/3 of the sets were made, accounted for only 28.7% of the total animals collected during the study period. The fewest number of animals (n=15,719, 9.9% of total catch) were collected in Palma Sola Bay.

Pinfish (*Lagodon rhomboides*, n=43,164) was the most numerous taxon collected, representing 27.1% of the total catch (*Appendix B*, *C*, and *D*). Bay anchovy (*Anchoa mitchilli,* n=40,349) was the second most abundant taxon collected, accounting for an additional 25.3% of the total catch. The twenty-one Selected Taxa (n=28,119 animals) that were collected comprised 17.7% of the total catch. Spot (*Leiostomus xanthurus,* n=23,577, 14.8% of total catch) and pink shrimp (*Farfantepenaeus duorarum,* n=1,497, 0.9% of total catch) were the two most abundant Selected Taxa collected.

AMERICAN OVERSIGHT

Totals	136,429	161	8,282	36	14,560	48	159,271	245

Shallow water habitats sampled with 21.3-m seines

A total of 136,429 animals, representing over 85% of the overall catch, were collected from the Sarasota Bay estuary with 21.3-m seines (n=161 hauls; *Table 2*). Bay anchovy (*A. mitchilli*, n=39,964) was the most abundant taxon collected, accounting for 29.3% of the 21.3-m seine catch (*Table 3*). The taxa most frequently collected with 21.3-m seines were pinfish (*Lagodon rhomboides*, 84.5% occurrence) and eucinostomus mojarra (*Eucinostomus* spp., 57.8% occurrence). Animals collected with 21.3-m seines tended to be relatively small, ranging in length from 2 to 346 mm, with the mean length for each of the dominant taxa between 10 and 53 mm (*Table 3*).

A total of 18,086 animals from 15 Selected Taxa were collected, representing 13.3% of the entire 21.3-m seine catch (*Table 4*). Spot (*L. xanthurus*, n=14,808) was the most abundant Selected Taxon, accounting for 81.9% of the Selected Taxa collected by this gear. The Selected Taxon most frequently collected with 21.3-m seines was the pink shrimp (*F. duorarum*, 54.7% occurrence).

AMERICAN OVERSIGHT

Nekton were previously sampled during 2002 in the Sarasota Bay estuary (SBNEP study) using a 21.3-m seine and protocols modeled after the Fisheries-Independent Monitoring program (SBNEP 2003). Ninety-three 21.3-m "standard" seine hauls were collected at 40 fixed stations during five-day sampling periods in both February and June. In this earlier study, fixed stations, selected to represent natural (n=22) and restored (n=18) habitats, were sampled. The SBNEP and FIM studies collected very similar numbers of total taxa (71 and 73, respectively). There were, however, many differences in the two species lists (*Table 5*), mostly because of 1) low salinity areas sampled by the SBNEP study were not sampled by the FIM study; 2) clupeids were identified to species (*Opisthonema oglinum* and *Sardinella aurita*) in the FIM study but not in the SBNEP study; 3) the FIM study's stratified-random design sampled more diverse habitats than the SBENP study; and 4) the FIM study sampled six months, instead of the two sampled by the SBNEP study.

The rankings for species collected during both the SBNEP and FIM studies also differed. For instance *Farfantepenaeus duorarum* (pink shrimp) ranked tenth in the FIM study, but 20th in the SBNEP study and *Cyprinodon variegatus* (sheepshead minnow) ranked 10th in the SBNEP study but 38th in the FIM study. As with the differences in the overall species list, differences in ranking can be attributed to differences in the habitats and months that were sampled between the two studies.

AMERICAN OVERSIGHT

Nearshore habitats sampled with 183-m seines

A total of 8,282 animals were collected with 183-m seines (n=36 hauls), representing 5.2% of the overall catch (*Table 2*). Pinfish (*L. rhomboides*, n=4,920) was the most abundant taxon collected with 183-m seines, accounting for 59.4% of the total catch (*Table 6*). Pinfish were also the most frequently collected taxon, occurring in every 183-m seine set. Animals collected with 183-m seines (*Table 6*) tended to be larger (mean size typically greater than 100 mm) than those collected with 21.3-m seines (*Table 3*) and 6.1-m trawls (*Table 8*).

A total of 814 animals from 18 Selected Taxa were collected, representing 9.8% of the entire 183-m seine catch (*Table 7*). *Archosargus probatocephalus* (n=160) was the most abundant Selected Taxon, accounting for 19.7% of the Selected Taxa collected by this gear. Sheepshead (58.3% occurrence) was also the most frequently collected Selected Taxa followed by common snook (*C. undecimalis*, 52.8% occurrence).

AMERICAN OVERSIGHT

Deeper-water habitats sampled with 6.1-m trawls

A total of 14,560 animals were collected in 6.1-m trawls (n=48 hauls), representing 9.1% of the overall catch (*Table 2*). Spot (*L. xanthurus*, n=8,629, 59.2% of total catch) was the most abundant taxon collected with this gear (*Table 8*). The taxon most frequently collected with 6.1-m trawls was the pinfish (*L. rhomboides*), which occurred in over 80% of the trawl samples. Trawl collected animals tended to be similar in size to those collected with 21.3-m seines (*Table 3*) and smaller than those collected with 183-m seines (*Table 6*).

Fourteen Selected Taxa (9,219 animals, 63.3% of the entire trawl catch) were collected with 6.1-m trawls (*Table 9*). A single species (spot, *L. xanthurus,* n=8,629) accounted for 93.6% of the Selected Taxa collected with trawls. The Selected Taxon most frequently collected with 6.1-m trawls was the stone crab (*Menippe* spp.) which occurred in almost 50% of the trawl collections.

AMERICAN OVERSIGHT

Species Profiles

The following sections provide profiles on various abundant and frequently occurring species in terms of seasonal abundance, sizes collected, spatial distribution, and bottom habitat preference. Species included in these profiles are numerically dominant or economically important (i.e., recreationally or commercially fished species, such as spotted seatrout, common snook and pink shrimp). Appendices (*Appendix E*, *F*, and *G* for 21.3-m seines, 183-m seines, and 6.1-m trawls, respectively) contain summary graphs for all taxa that were identified to species, had at least a 15% occurrence, and for which at least 40 individuals were collected during bi-monthly sampling in the Sarasota Bay estuary between June 2009 and April 2010. The abundance and size distribution results presented here are based on a limited time series (one year of bi-monthly sampling) and relatively small sample size, so there tends to be considerable variability in the data.

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Pink shrimp, *Farfantepenaeus duorarum*

Pink shrimp range from the Chesapeake Bay to the Yucatan Peninsula and are of great commercial importance, especially in the Gulf of Mexico (Carpenter 2002). Catches in Florida were valued at nearly $21M in 2005 (FWRI, unpublished data). They spawn offshore and enter estuaries as postlarvae (Allen et al. 1980). They probably use selective tidal stream transport to recruit to nursery grounds (i.e., they ascend into the water column on flood tides and descend to near the substrate on ebb tides [Hughes, 1969]). Different life stages of pink shrimp exhibit a broad range of salinity tolerance, although salinities from approximately 12 to 45 ppt seem to be preferred (Pattillo et al. 1997).

Pink shrimp were not collected with the 183-m seines (*Appendix C*) but were the tenth most abundant species collected with 21.3-m seines (*Table 3*) and were commonly collected with 6.1-m trawls (*Table 8*). Pink shrimp collected with 6.1-m trawls tended to be larger (median post-orbital head length of 14 mm; *Figure 7*) than those collected with 21.3-m seine (10 mm; *Figure 6*). Abundance in the shallow water habitats sampled with the 21.3-m seine was greater during October and December than in the other months (*Figure 6*). Pink shrimp were more abundant in Little Sarasota and Blackburn bays and over vegetated bottom habitats (*Figure 6*). Although mean abundance in the deeper waters sampled with 6.1-m trawls were higher in February and June and in Roberts and Little Sarasota Bay, the variability in the abundance estimates was too high to discern any real trends (*Figure 7*).

AMERICAN OVERSIGHT

Blue crab, *Callinectes sapidus*

Blue crabs occur in the western Atlantic from Canada to Argentina, including Bermuda and the Antilles, and have been successfully introduced in Europe and Japan (Carpenter, 2002). This species supports large commercial fisheries in Florida, valued at nearly $12M in 2005 (FWRI, unpublished data), and is an important predator and prey species in inshore waters (Steele and Bert 1994). Blue crabs are transients in estuaries: spawning and larval development occur in marine waters, but juveniles and adults spend most of their time in estuaries (Steele and Bert 1994). Both larval blue crabs recruiting to the estuary and females leaving the estuary to spawn use selective tidal stream transport (Olmi 1994; Tankersley et al. 1998). Chemical cues emanating from estuarine and freshwater watersheds promote settlement by triggering metamorphosis in larvae (Wolcott and De Vries 1994; Forward et al. 1994 and 1997). Blue crabs tolerate salinities from freshwater to at least 50 ppt, but optimal salinities differ among life-history stages: 12–36 ppt for larvae, 2–21 ppt for juveniles, less than 10 ppt for adult males, and 23–33 ppt for egg-bearing females (Pattillo et al. 1997).

Blue crabs were collected with all three gear types deployed during this study (*Appendix C*), but were only common in the deeper-water habitats sampled with the 6.1-m trawl (*Table 9*). They were collected during all months sampled with no seasonal trend in abundance (*Figure 8*). Blue crabs were collected with 6.1-m trawls from each of the bays sampled, but were most abundant in Little Sarasota Bay and least abundant in Sarasota Bay. Sizes captured with 6.1-m trawls ranged from 12 mm to 168 mm carapace width (CW) with a bimodal distribution (modes at 50 and 90 mm CW).

AMERICAN OVERSIGHT

Ladyfish, *Elops saurus*

Ladyfish inhabit estuarine and nearshore waters throughout Florida. Larval and juvenile ladyfish can be found in a variety of nearshore habitats, including coastal beaches, canals, rivers, and mosquito impoundments (Gilmore et al. 1982 and McBride et al. 2001). Length-frequency analysis suggests that ladyfish grow to 200 mm to 300 mm standard length by age 1. Their diet consists mainly of fish with decapod crustaceans being of secondary importance (Darnell 1958 and Sekavec 1974). Florida landings were just over 1 million pounds in 2007 with over 75% being landed by the commercial fishery (FWRI-FWC 2008).

Ladyfish were only captured with the 183-m seine during this study (*Appendix C*); they comprised just over 1% of the catch in this gear and occurred in 36.1% of the hauls (*Table 7*). Although the largest ladyfish collected was 440 mm SL, the majority were between 200 and 300 mm SL (*Figure 9*). There appear to be both seasonal and distributional trends in abundance, but the variability was so high that discernment of real trends was not possible.

AMERICAN OVERSIGHT

Bay anchovy, *Anchoa mitchilli*

Bay anchovies range from Maine to the Yucatan Peninsula and are of great importance in estuarine food chains due to their trophic position, small size, and extreme abundance (Pattillo et al. 1997; Carpenter 2002). They spawn in nearshore marine waters and estuaries (Peebles et al. 1996; Pattillo et al. 1997). Larvae use selective tidal stream transport to travel to upstream nursery areas (Schultz et al. 2003). Although each life stage of bay anchovy exhibits a broad range of salinity tolerance (Pattillo et al. 1997), each tends to distribute differently in relation to salinity: spawning adults, eggs, and newly hatched larvae are found at higher salinities than are later-stage larvae and juveniles (Peebles et al. 1991).

Bay anchovies were collected with 21.3-m seines (*Table 3*) and 6.1-m trawls (*Table 8*), but not with 183-m seine (*Appendix C*). They were only abundant (39,964 animals collected) and common (32.9% occurrence) enough in the 21.3-m seine collections for summary plots to be prepared. There were no obvious seasonal trends in abundance for bay anchovy (*Figure 10*) collected from the shallow waters sampled with 21.3-m seines; the low abundance in February may be indicative of the colder than average January/February water temperatures experienced during 2010. Bay anchovies were least abundant in Blackburn Bay and most abundant in Roberts and Little Sarasota Bay. They tended to have higher abundance in collections that sampled at least some seagrass. Bay anchovies collected with 21.3-m seines ranged in size from 15 mm to 56 mm SL.

AMERICAN OVERSIGHT

Common snook, *Centropomus undecimalis*

Common snook occur in tropical and subtropical estuarine systems of the western Atlantic (Rivas 1986). In Florida, they occur principally from Cape Canaveral on the Atlantic coast southward around the peninsula to Cedar Key on the Gulf of Mexico coast (Taylor et al. 2000). Common snook are popular sport fish that support a large recreational fishery throughout much of coastal south and central Florida (Muller and Taylor 2002). Spawning occurs primarily in ocean passes and secondary embayments (Taylor et al., 1998). Small juveniles are found in quiet shallow-water creeks, canals, and lagoons in both low-salinity (riverine) and high-salinity (mangrove and saltmarsh) environments (McMichael et al. 1989; Peters et al. 1998). As juvenile common snook grow to about 150 mm SL, marked changes in their tolerance of high temperature and low dissolved oxygen occur (Peterson and Gilmore 1991), and juveniles are no longer abundant at the sites described above. Larger juveniles and adult common snook are found in a wider variety of estuarine habitats.

Common snook were not collected with 6.1-m trawls (*Appendix C*), were rarely collected with 21.3-m seines (*Table 4*), but were encountered in over 50% of the 183-m seine sets (*Table 7*). There were no obvious seasonal trends in common snook abundance (*Figure 11*). Low abundance in February and August are likely due to the low sample size (6 hauls) collected during each sampling event, although the lower than average water temperatures during January/February 2010 likely also influenced the February catch. Common snook had much higher abundance in samples over seagrass, but the number of hauls that did not sample seagrass was very low. Common snook collected with 183-m seines ranged in size from 234 to 705 mm SL.

AMERICAN OVERSIGHT

Gag, *Mycteroperca microlepis*

Gag is an economically important species of grouper found in the western Atlantic from Massachusetts southward to Florida, the Gulf of Mexico, and possibly to Brazil—excluding the West Indies (Bullock and Smith 1991). Juvenile gag inhabit estuarine seagrass areas (Keener et al. 1988; Ross and Moser 1995; Mullaney and Gale 1996; Koenig and Coleman 1998; Nagelkerken et al. 2000; Cocheret de la Moriniere et al. 2002; Casey et al. 2007; Whaley et al. 2007; Faunce and Serafy 2008) until approximately one year old and then move to deeper, offshore areas of reef and hard bottom. Almost 90% of the total gag catch in Florida during 2007 (4,246,561 pounds) was landed on Florida's Gulf coast (FWC-FWRI 2008).

Gag were collected with all three gear types (*Table 4*, *Table 7*, and *Table 9*) but only met the abundance and frequency of occurrence thresholds (≥40 animals and ≥15% occurrence) for the 183-m seine collections. Gag in 183-m seines were only collected when the net sampled at least some seagrass, were only present during June through August, and were not collected from Palma Sola or Roberts bays (*Figure 12*). Gag exhibited a bimodal length-frequency distribution with modes at 206 and 340 mm SL (*Figure 12*), possibly representing young-of-the-year and one-year old fish, respectively.

AMERICAN OVERSIGHT

Gray snapper, *Lutjanus griseus*

Gray snapper are a reef species that can be found along the western Atlantic from Massachusetts south to Rio de Janeiro, Brazil. Adults spawn during summer (June–September) near areas of bottom structure in offshore waters (Stark 1971; Domeier et al. 1997). Juvenile gray snapper recruit to estuarine areas including seagrass beds and mangrove shorelines (Nagelkerken et al. 2000; Cocheret de la Moriniere et al. 2002; Serafy et al. 2003; Whaley et al. 2007; Faunce and Serafy 2008) where they typically spend the first year or two of their lives. Juvenile gray snapper feed primarily on penaeid shrimp and crabs (Rutherford et al.1989) and adults feed on fish, shrimp, and crabs. (Harrigan et al. 1989; Hettler 1989). Gray snapper are an economically important species with Florida landings totaling 2,230,737 pounds in 2007 (FWC-FWRI 2008).

Gray snapper were collected in all three gear types deployed in the Sarasota Bay estuary, but were more frequently encountered with the 21.3-m (18.0%; *Table 4*) and 183-m (38.9%; *Table 7*) seines than with the 6.1-m trawl (10.4%; *Table 9*). The 21.3-m seine collected smaller gray snapper (mean of 41 mm SL) than did the 183-m seine (179 mm SL), but abundance trends between the two gears were similar (*Figure 13* and *Figure 14*, respectively). With both seines, gray snapper were absent from collections made in February and were most abundant in October, were least abundant or absent from Palma Sola Bay, and were more abundant in collections that sampled some bottom vegetation.

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Pinfish, *Lagodon rhomboides*

Pinfish range from Cape Cod to the Yucatan Peninsula, including Bermuda and northern Cuba. They are most abundant from Cape Hatteras through the northern Gulf of Mexico (Pattillo et al. 1997; Carpenter, 2002). Florida's pinfish landings in 2007 were 2,022,492 pound with 96% of the total being landed by recreational fisherman and 83% coming from the gulf coast (FWRI-FWC 2008). Their great abundance in estuaries and their trophic habits have led some to suggest that they play an even more important role in structuring epibenthic communities (Pattillo et al. 1997) than they do in the fishery. Spawning occurs offshore, and larvae use selective tidal stream transport to travel to nursery areas (Pattillo et al. 1997; Forward et al. 1998). Pinfish have been recorded in salinities ranging from 0 to >40 ppt, but may avoid the lower end of this range (Pattillo et al. 1997).

Pinfish were one of the two most abundant taxa collected in each of the three gear types, comprising 21%, 59%, and 21% of the total catch in 21.3-m seines, 183-m seines, and 6.1-m trawls, respectively (*Table 3*, *Table 6*, and *Table 8*, respectively). Pinfish were also one of the most commonly collected taxa, occurring in over 80% of the samples collected with 21.3-m seines and 6.1-m trawls and in 100% of the 183-m seine samples. Pinfish collected with 183-m seines tended to be larger (mean 107 mm SL, range 43 to 213 mm) than those collected with either the 21.3-m seine (mean 31 mm, range 9 to 180 mm) or the 6.1-m trawl (mean 35 mm, range 10 to 159 mm).

Pinfish were most abundant in the winter and spring (February to June) for both 21.3-m seines and 6.1-m trawl collections (*Figure 15* and *Figure 17*), but there were no

AMERICAN OVERSIGHT

obvious seasonal trends to the catches with the 183-m seine (*Figure 16*). Pinfish did not show any strong distributional trends among the five embayments with any of the gear types. Pinfish were more abundant in 21.3-m seine collections that sampled some seagrass (*Figure 15*), whereas pinfish collected with 183-m seines did not show an abundance trend related to bottom vegetation (*Figure 16*).

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Sheepshead, *Archosargus probatocephalus*

Sheepshead, *Archosargus probatocephalus*, is common in coastal estuarine and inner- to mid-shelf waters from Cape Cod to Brazil (Jennings 1985). Larval sheepshead are pelagic and metamorphose into juveniles at about 8mm (Parsons and Peters 1989; Tucker and Alshuth 1997). Juvenile sheepshead are most abundant in grass flats and over mud bottoms (Springer and Woodburn 1960, Odum and Heald 1972, Jennings 1985). In late summer, juvenile sheepshead begin to congregate with adults around stone jetties, breakwaters, piers, wrecks, and bulkheads (Jennings 1985). Recreational and commercial fishermen commonly harvest sheepshead, with the recreational fishery accounting for almost 90% of the total pounds landed in recent years (Munyandorero et al. 2006).

Sheepshead were collected in more than 10% of the hauls made with each of the sampling gears (*Table 4*, *Table 7*, and *Table 9*). Sheepshead collected with the 21.3-m seine tended to be smaller (mean 58 mm SL, range 12 to 268) than sheepshead collected in the other two gear types. Abundance of sheepshead collected with 21.3-m seines was higher in April than any other month (*Figure 18*), corresponding to the time when young-of-the-year sheepshead typically recruit into Florida's estuaries. There were no obvious seasonal trends for sheepshead collected with 183-m seines or 6.1-m trawls (*Figure 19* and *Figure 20*). Sheepshead collected with 21.3-m seines were least abundant in Sarasota Bay proper and did not show any trend with respect to bottom vegetation (*Figure 18*). Abundance of sheepshead collected with 183-m seines was highest in Little Sarasota Bay and from collections that sampled at least some bottom vegetation (*Figure 19*).

AMERICAN OVERSIGHT

Spotted Seatrout, *Cynoscion nebulosus*

Spotted seatrout occur along the U.S. and Mexican east coasts and in the Gulf of Mexico from New York to Laguna Madre (Carpenter 2002). Over much of its range, it is the target of important recreational and commercial fisheries (Bortone 2003). Spawning occurs within estuaries or near passes into estuaries (Brown-Peterson, 2003). Spotted seatrout have been collected at salinities ranging from 0 to 75 ppt, but juveniles may prefer 8-25 ppt, and 20-25 ppt may be the physiological optimum for larger juveniles and adults (Pattillo et al. 1997).

Spotted seatrout were collected with each of the gear types (*Table 4*, *Table 7*, and *Table 9*), but were only abundant (n=128) and frequently collected (19.3% of samples) in the 21.3-m seine hauls. The 21.3-m seine tended to collect relatively small spotted seatrout (≤101 mm SL) which represent young-of-the-year animals (*Table 4*). Abundance was higher during the summer and fall months (June, August, and October; *Figure 21*) than during other months (December, February, and April). They were most abundant in collections that sampled some bottom vegetation and had relatively similar abundance in each of the embayments, except Blackburn Bay.

AMERICAN OVERSIGHT

Striped mullet, *Mugil cephalus*

Striped mullet are cosmopolitan and range from Nova Scotia to Argentina in the Western Atlantic (Carpenter, 2002). This species supports large fisheries in many areas, including Florida; state landings were valued at over $5M in 2005, although this was less than half of the value in 1994 (FWRI, unpublished data), the year before the constitutional restriction on entangling nets was initiated. Striped mullet are a major prey item for many larger fishes and birds (Pattillo et al. 1997; Withers and Brooks 2004; Bacheler et al. 2005; Blewett et al. 2006). They spawn on the continental shelf and recruit to estuaries as slender, silvery pelagic juveniles (Pattillo et al. 1997; McDonough and Wenner 2003). Recruiting juveniles are strong swimmers capable of traversing long distances to locate nursery habitats, perhaps aided by olfactory cues (Etnier and Starnes 1993; Peters and Matheson, pers. obs.). Juvenile and adult striped mullet exhibit a broad range of salinity tolerance and can be extremely abundant in tidal rivers (Pattillo et al. 1997; Paperno and Brodie 2004; Idelberger and Greenwood 2005). Adults sometimes move hundreds of miles inland in major river systems such as the Mississippi, but juveniles are most common at salinities higher than freshwater (Etnier and Starnes 1993; Boschung and Mayden 2004).

Striped mullet were not collected with 6.1-m trawls (*Appendix C*), but were relatively abundant and frequently collected with 21.3-m seines (*Table 4*) and 183-m seines (*Table 7*). Striped mullet collected with 21.3-m seines represented young-of-the-year animals that had just recruited into the estuary (mean of 24 mm SL, range 16 to 32 mm; *Figure 22*). Peak abundance for striped mullet collected with 21.3-m seines occurred in February and April, months during which young-of-the-year striped mullet

AMERICAN OVERSIGHT

typically recruit into Florida's estuaries (*Figure 22*). There were no obvious abundance seasonal, geographical, or habitat trends for striped mullet collected with 183-m seines (*Figure 23*).

AMERICAN OVERSIGHT

Nekton Community Structure

Intrabay Comparison

The non-metric multi-dimensional scaling (MDS) plots show no differences in nekton community structure between the five embayments that comprise the polyhaline portion of the Sarasota Bay estuary for the nekton assemblages sampled with the 183-m seine or 6.1-m trawl (*Figure 24*). Differences, however, were apparent between embayments for the nekton community sampled with the 21.3-m seine. Blackburn and Roberts bays, the two smallest embayments sampled, were similar to each other, but were different from the two larger embayments (Sarasota and Little Sarasota bays). The nekton community of Palma Sola Bay was distinct from the nekton assemblages of both the “small” and “large” embayments.

Similarity percentage analyses (SIMPER) indicated that mean abundance was greater in “small” relative to “large” embayments for six taxa (*Eucinostomus* spp., *Leiostomus xanthurus*, *Eucinostomus gula*, *Menidia* spp, *Harengulus jaguana*, and *Eucinostomus harengulus*; *Figure 25*). The remaining six taxa that distinguished “large” and “small” embayments either had similar abundance in both (*Lagodon rhomboides*), or greater abundance in the “large” bays (*Anchoa mitchilli*, *Orthopristis chrysoptera*, *Lucania parva*, and *Bairdiella chrysoura*). Ten of the top twelve taxa that distinguished “small” embayments from Palma Sola Bay had greater abundance in the “small” embayments (*Figure 25*). Eight of the twelve top taxa (*L. rhomboides*, *Eucinostomus* spp., *A. mitchilli*, *E. gula*, *F. duorarum*, *H. jaguana*, and *B. chrysoura*; *Figure 25*) that

AMERICAN OVERSIGHT

differentiated them “large” embayments from Palma Sola Bay were more abundant in the “large” embayments.

Palma Sola Bay has been identified by the Sarasota Bay Estuary Program and the Florida Department of Environmental Protection as not meeting Florida’s standards for water quality due to high bacteria and chlorophyll concentrations (SBEP 2006). The multivariate community analyses separated Palma Sola Bay from the other embayments. Most taxa had lower abundance in Palma Sola Bay than in the other embayment groupings. Rainwater killifish, however, were 3.1 and 5.7 times more abundant in Palma Sola Bay than in the “small” and “large” bay groupings, respectively. Rainwater killifish have been described as pollution tolerant (Patrick and Palavage 1994) but are also a species that has highest abundance in aquatic vegetation regardless of salinity (Able and Fahay 1998). Any relationship between water quality standards and nekton community structure for Palma Sola Bay would require a more directed and coordinated collection of both water quality parameters and nekton.

There was considerable variability in the mean abundance of nekton sampled with each of the gear types (*Figure 26*). Significant differences in abundance (Analysis of Variance, Tukey post hoc test) were identified for nekton sampled with the 21.3-m seine (P<0.01, n=161, df=4, Model SS=42.995, Error SS=433.246) and the 6.1-m trawl (P<0.01, n=48, df=4, Model SS=21.848, Error SS=56.818). Nekton abundance for the 21.3-m seine was significantly higher in Little Sarasota Bay than in Palma Sola and Sarasota bays. For nekton collected with 6.1-m trawls, abundance was significantly higher in Roberts and Little Sarasota bays than in Sarasota Bay proper.

AMERICAN OVERSIGHT

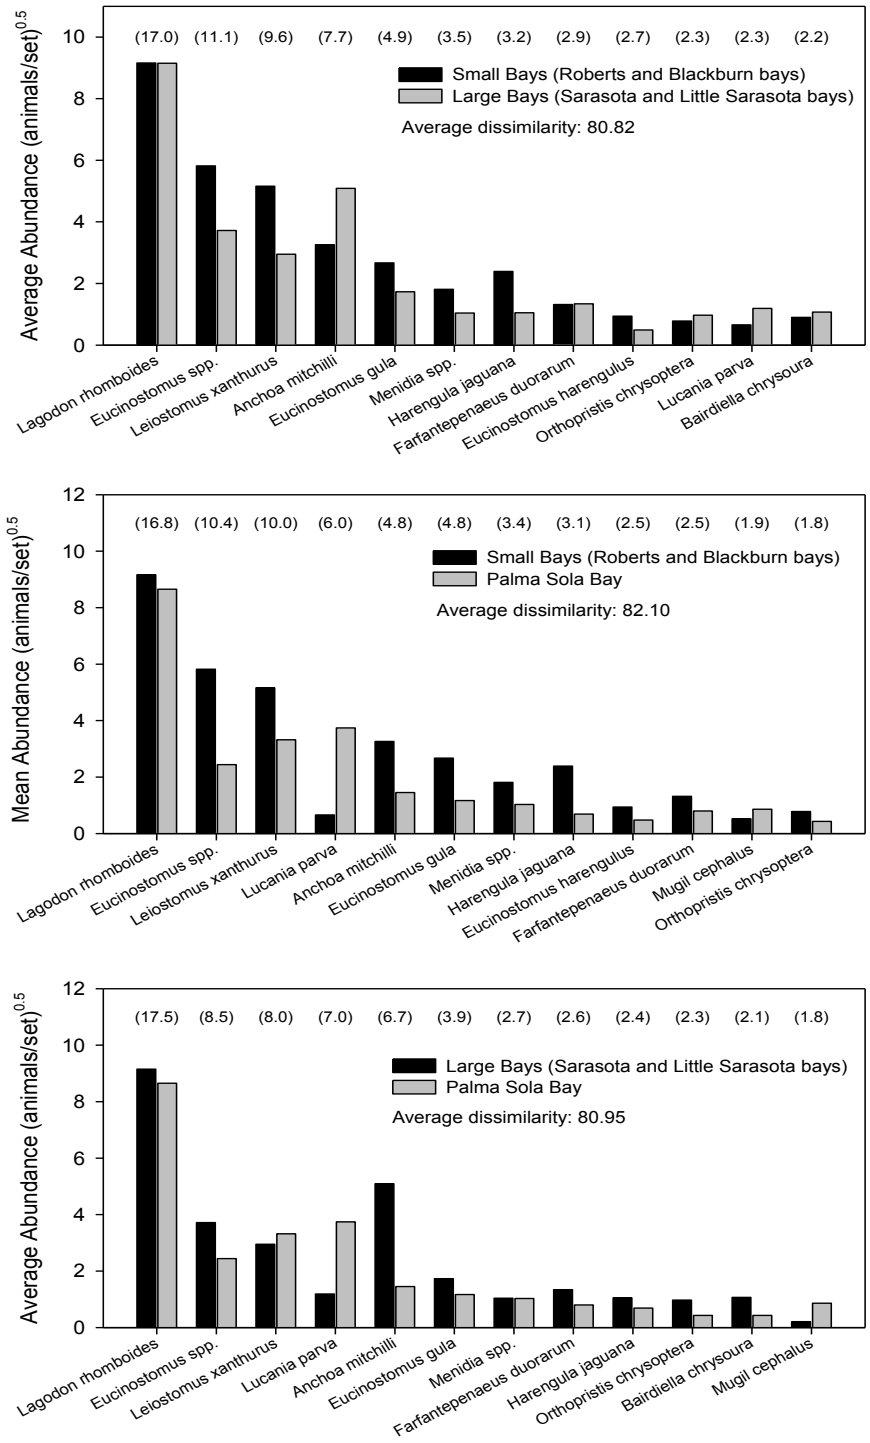

Figure 25. Similarity percentage (SIMIPER) analysis mean abundance for the top twelve taxa collected with 21.3-m seines that distinguished embayment groupings depicted in the MDS ordination. Average dissimilarity between groupings is listed in each plot. The percent contribution of each species to the total average dissimilarity is shown in parentheses above each species grouping.

AMERICAN OVERSIGHT

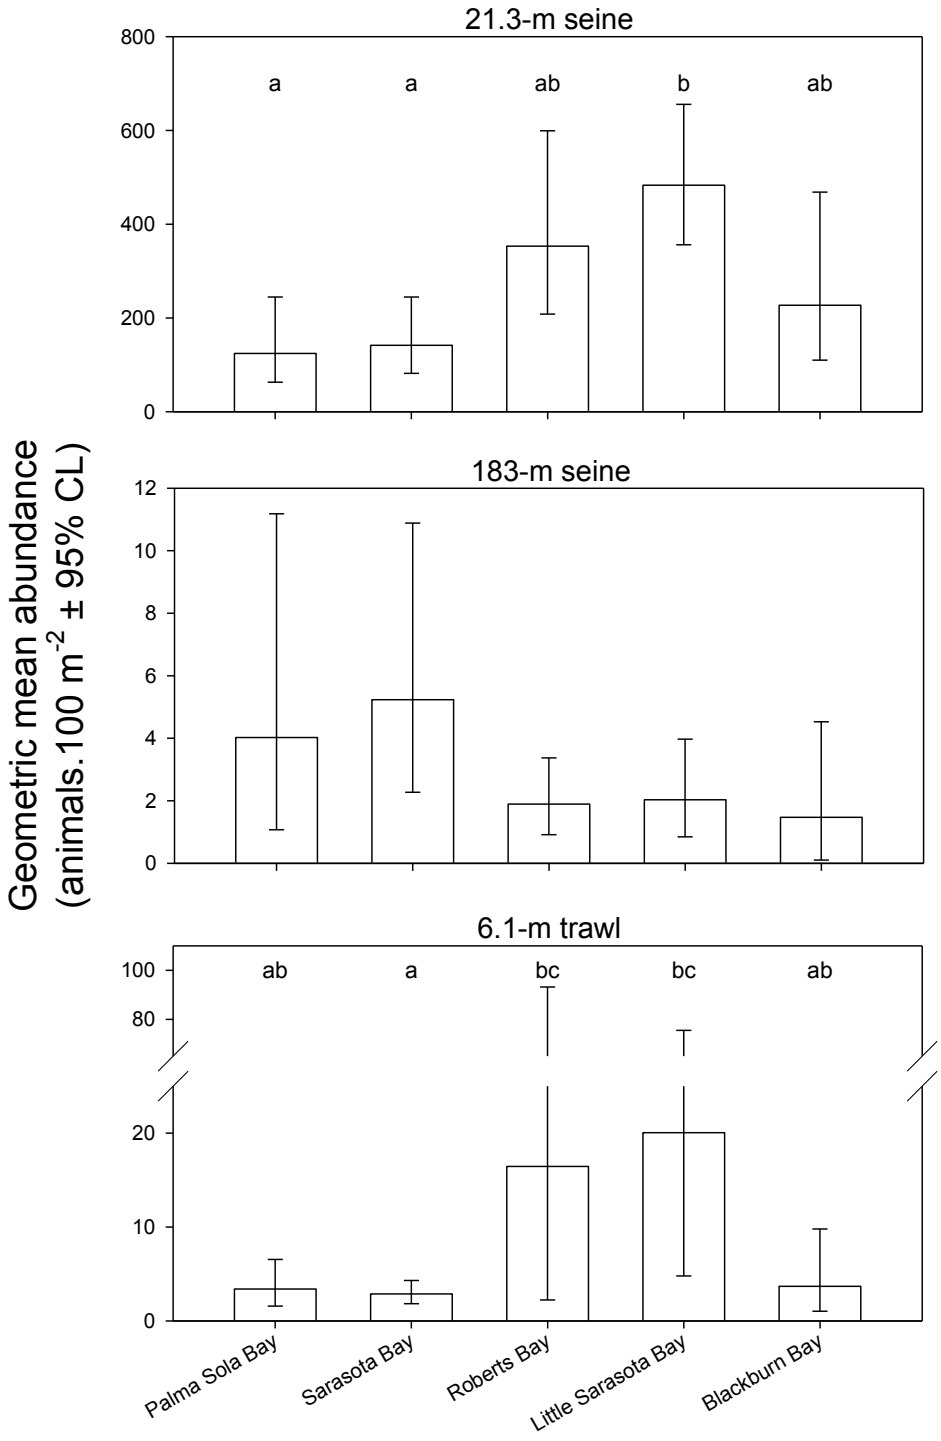

Figure 26. Mean abundance for nekton collected with 21.3-m seines for each of the five embayments of the Sarasota Bay estuary. Letters above bars in 21.3-m seine and 6.1-m trawl plot represent significant differences (ANOVA, $P<0.001$, Tukey post hoc test, c>b>a); significant differences ($P<0.05$) were not found for 183-m seines.

AMERICAN OVERSIGHT

Bay morphology (“small” vs. “large”) appears to play a role in the nekton community structure that was sampled with 21.3-m seines (*Figure 24*), but other factors such as water quality, connectivity to the Gulf of Mexico, salinity, freshwater inflow and urbanization might also play a roll. Neither of the two “small” embayments (Roberts and Blackburn bays) has a direct connection to the Gulf of Mexico and, therefore, each depends on passes to the north and south for tidal flushing. Both of the “small” embayments have been identified as areas of concern due to chlorophyll concentrations (SBEP 2006). Unlike Palma Sola Bay, which did not meet water quality standards for bacteria and chlorophyll (SBEP 2006), nekton abundance in the “small” bay group was relatively high. Additional nekton data, inclusion of other environmental factors in the analysis, and comparison with adjacent estuaries (Tampa Bay, Lemon Bay, and Charlotte Harbor) should improve the understanding of the differences in community structure between “small” and “large” embayments.

Temporal differences in nekton community structure where not apparent, with the MDS plots showing a wide scatter of samples with no discernable pattern. The MDS plot for 21.3-m seines, the gear type with the largest number of collections, provided the best result but no obvious trends or groupings (*Figure 27*). The lack of patterns in these data is likely the result of small sample sizes within each embayment–month grouping, bi-monthly sampling, and an atypical weather pattern during the one year study period.

AMERICAN OVERSIGHT

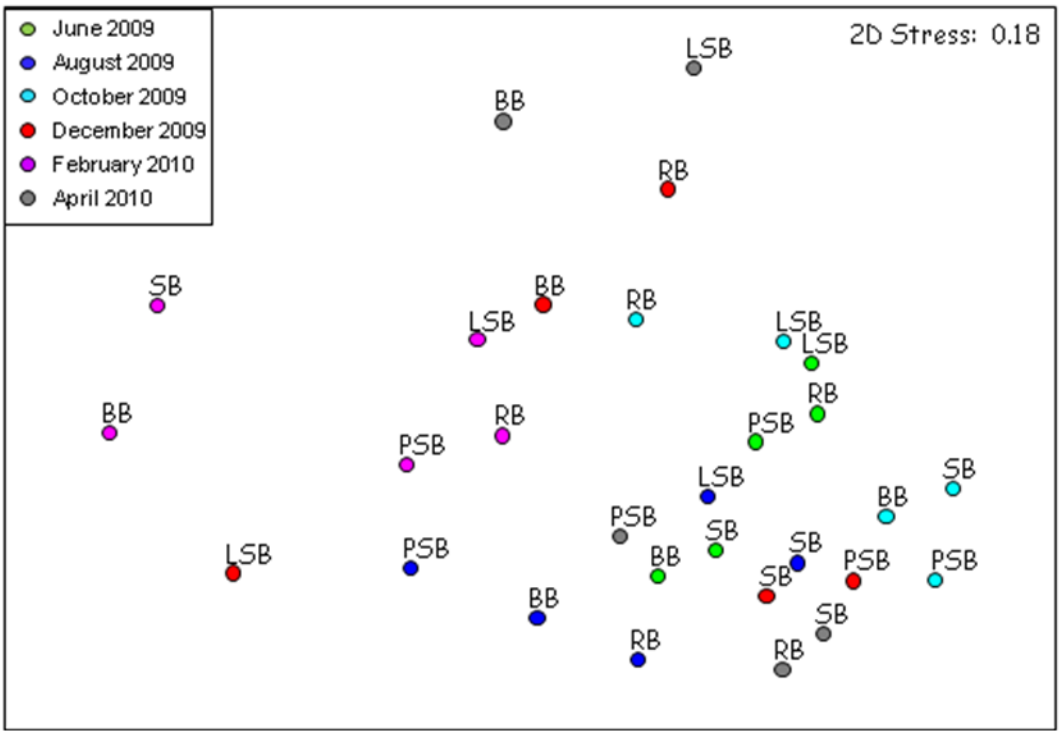

Figure 27. Non-metric Multidimensional Scaling (MDS) ordination plot of bi-monthly nekton community structure sampled with 21.3-m seines in five embayments within the Sarasota Bay estuary. PSB=Palma Sola Bay, SB=Sarasota Bay, RB=Roberts Bay, LSB=Little Sarasota bay, and BB=Blackburn Bay.

AMERICAN OVERSIGHT

Interbay Comparison

Analysis of community structure in Tampa Bay, Sarasota Bay, Lemon Bay, and Charlotte Harbor initially included geographic strata that subdivided the polyhaline sections of Tampa Bay into lower North and lower South, and Charlotte Harbor into Gasparilla Sound and Pine Island Sound (*Figure 2*). The MDS plots from these analyses indicated that the Tampa Bay and Charlotte Harbor geographic strata were more like each other, plotting in the upper half of the MDS plot, and different from the smaller, Lemon and Sarasota bays (e.g., *Figure 28*). To better compare larger, open water estuaries with smaller, narrow estuaries, the geographic strata for Tampa Bay and Charlotte Harbor were dropped from subsequent analyses and these two systems were analyzed as Lower Tampa Bay and Lower Charlotte Harbor.

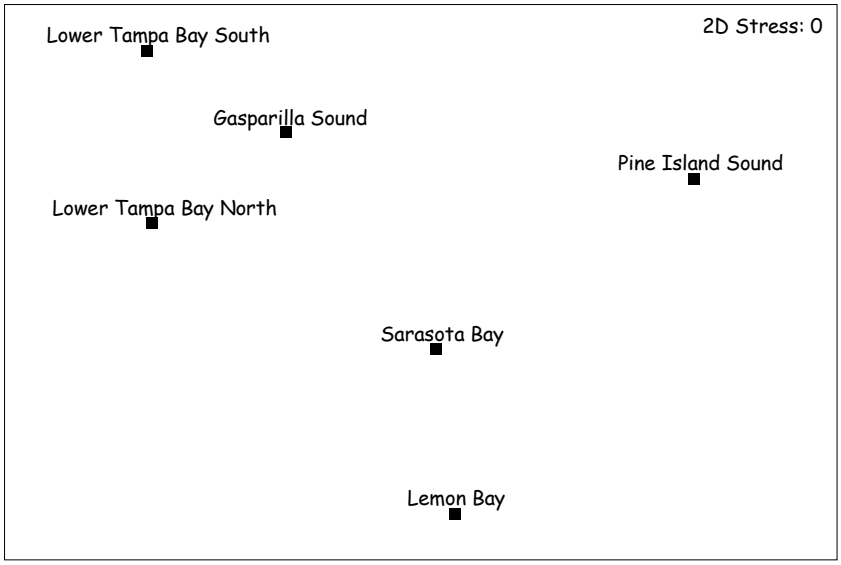

Figure 28. Non-metric Multidimensional Scaling (MDS) ordination plot of nekton community structure sampled with 21.3-m seines in the polyhaline portions of Sarasota Bay, Lemon Bay, Tampa Bay (Lower North and South) and Charlotte Harbor (Gasparilla and Pine Island sounds). Subsequent analyses combined Lower Tampa Bay North and South into Lower Tampa Bay and Gasparilla and Pine Island sounds into Lower Charlotte Harbor.

AMERICAN OVERSIGHT

Physiochemical parameters were very similar between the four estuaries during each bi-monthly sampling event (*Figure 29*). The largest difference in water temperature between the four estuaries was in April 2010, during which Lemon Bay was about 3◦C cooler than the warmest estuary (Charlotte Harbor). Tampa Bay had a tendency to have slightly lower mean salinity (~3 ppt) during each bi-monthly sampling event, most likely because of the influence of the Manatee River which discharges directly into Lower Tampa Bay South. Each estuary, however, followed the same general trend with mean salinity highest in June 2009 and lowest in April 2010. Dissolved oxygen also followed the same general trend regardless of estuary; lowest values were recorded in August 2009 with higher values between December 2009 and April 2010.

Nekton community structure was very similar between the four estuarine systems analyzed; Bray-Curtis similarity percentages ranged from 67 to 76% for each of the gear types. There was, however, a tendency for the two small estuaries (Lemon and Sarasota bays) to group separately (79 to 85% Bray-Curtis similarity percentages) from the polyhaline portions of the two large estuaries (Tampa Bay and Charlotte Harbor; 78 to 79% Bray-Curtis similarities) (*Figure 30*) for each of the gear types.

AMERICAN OVERSIGHT

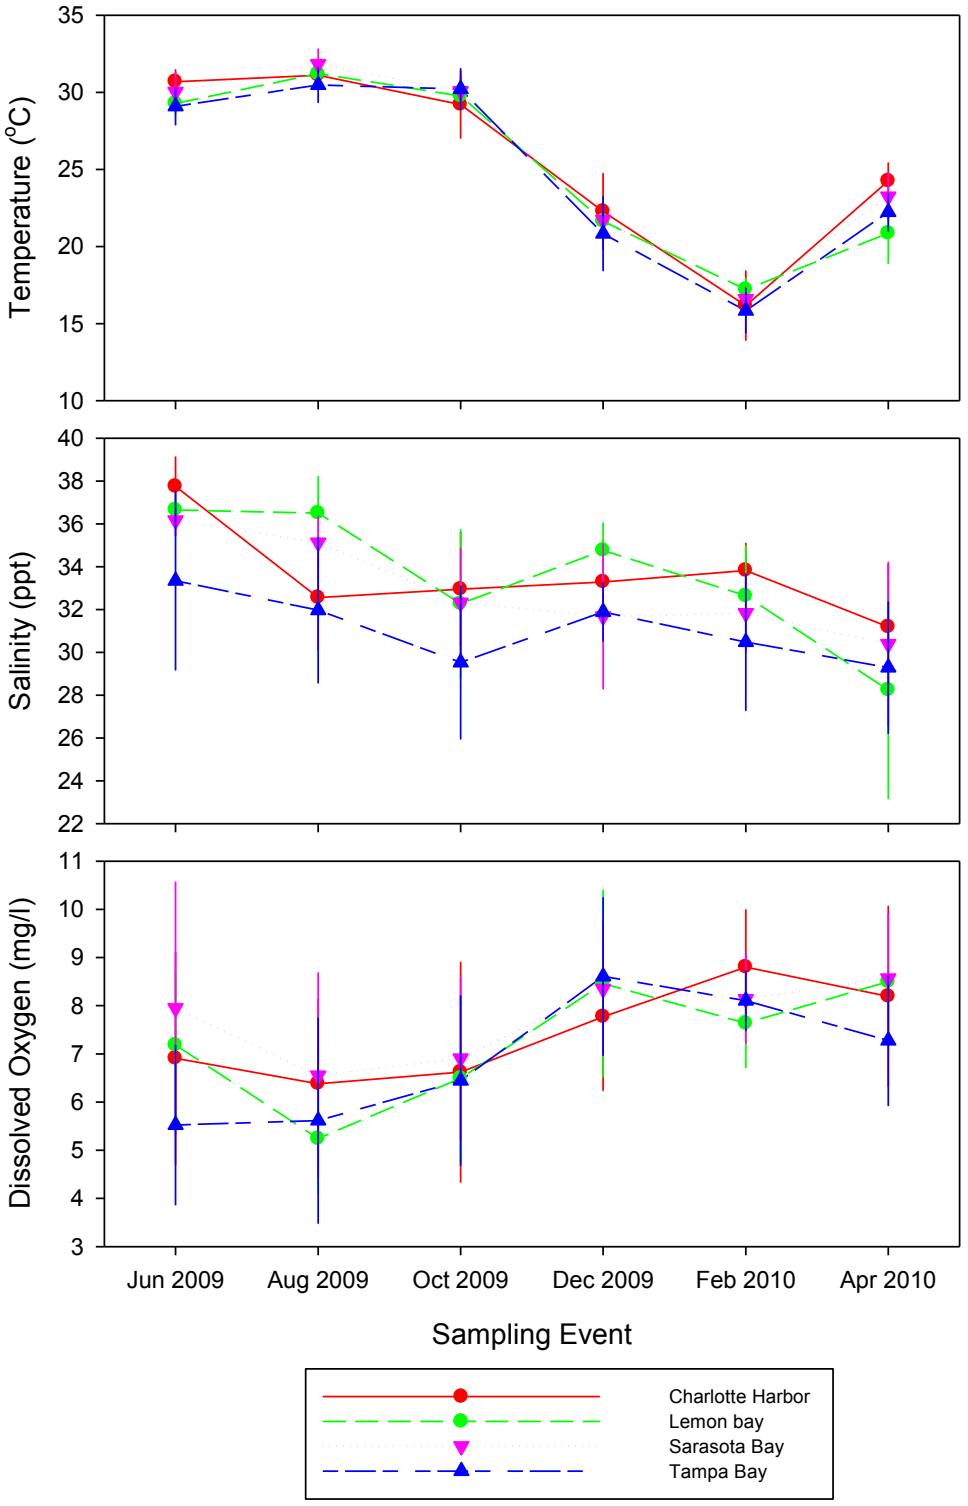

Figure 29. Mean (±standard deviation) water temperature, salinity, and dissolved oxygen (water column average) for the polyhaline portions of four estuaries along the southwest coast of Florida.

AMERICAN OVERSIGHT

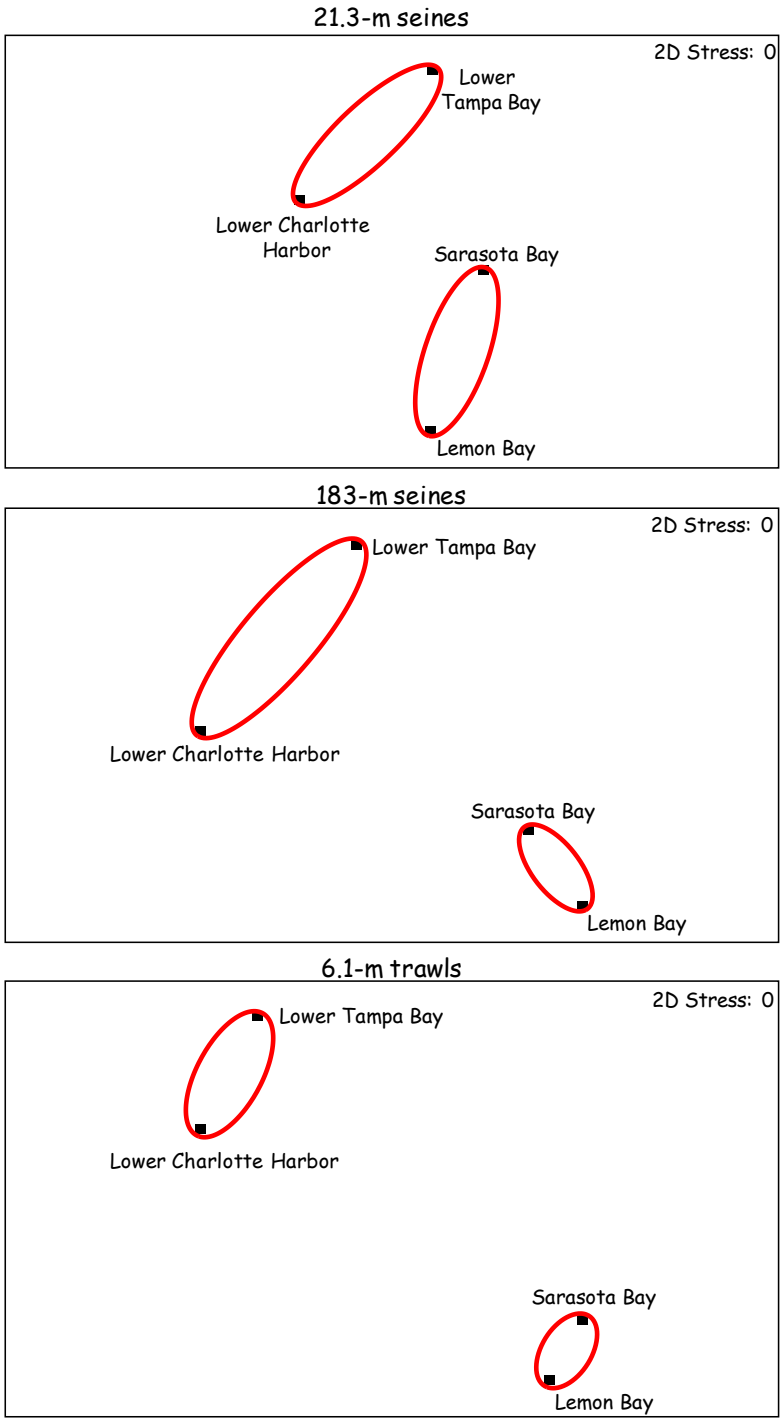

Figure 30. Non-metric Multidimensional Scaling (MDS) ordination plot of nekton community structure in the polyhaline portions of four estuaries located on Florida's southwest coast between Tampa Bay and Charlotte Harbor. Nekton sample in each estuary were collected by the Fisheries-Independent program using standardized procedures between June 2009 and – April 2010. Ellipses denote groups determined using Bray-Curtis similarity percentages of 68 to 75 from hierarchical agglomerative cluster analysis.

AMERICAN OVERSIGHT

Similarity percentage analyses (SIMPER) showed that mean abundance was higher in “small” estuaries (Sarasota and Lemon bays) than in the polyhaline portions of the “large” estuaries (Tampa Bay and Charlotte Harbor) for most of the taxa that distinguished the two groups for each of the gear deployment methods (*Figure 31*). Eleven of the twelve distinguishing taxa for 21.3-m seines were more abundant in “small” estuaries than in “large”. The bay anchovy, which accounted for 6.9% of the dissimilarity between the two groupings in the 21.3-m seine, was over four times more abundant in “small” estuaries. In the deeper waters sampled by trawls, almost half of the top twelve distinguishing taxa were of recreational or commercial importance (*Menippe* spp., *L. xanthurus*, *C. sapidus*, *Lutjanus synagris*, and *F. duorarum*) (*Figure 31*). Seven of the top twelve distinguishing taxa collected in trawls were more abundant in “small” estuaries than in “large” (*L. rhomboides*, *E. gula*, *Menippe* spp., *Eucinostomus* spp., *L. xanthurus*, *C. sapidus*, and *F. duorarum*). Similarly, the majority of the distinguishing species collected with 183-m seines had higher abundance in “small” rather than “large” estuaries (*E. gula*, *B. chrysoura*, *O. chrysoptera*, *A. probatocephalus*, *C. undecimalis*, *A. felis*, *L. griseus*, and *E. saurus*)(*Figure 31*).

AMERICAN OVERSIGHT

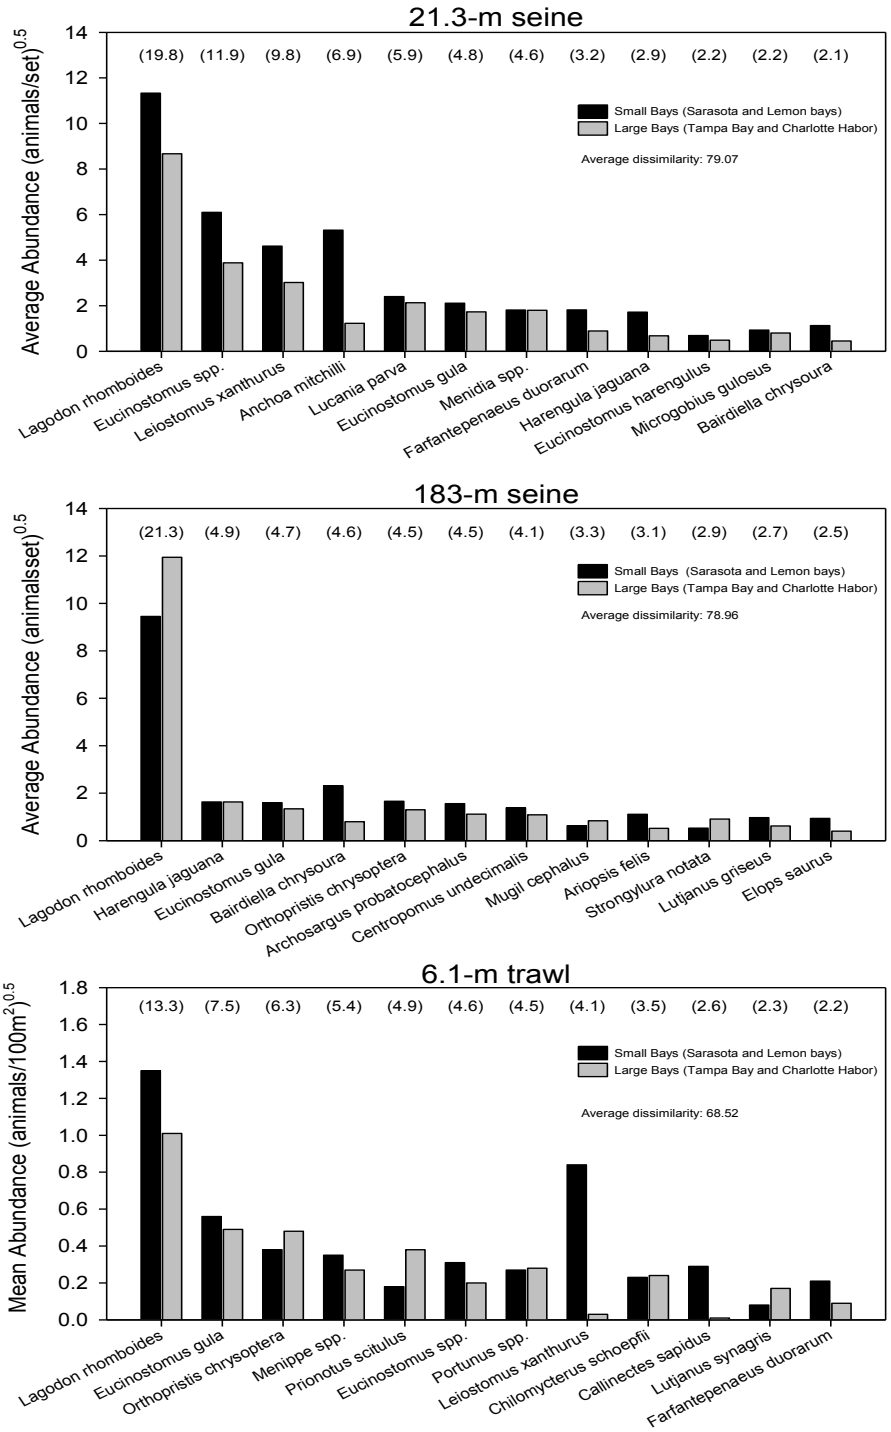

Figure 31, Similarity percentage (SIMIPER) analysis mean abundance for the top twelve taxa collected by gear deployment type that distinguished estuary groupings depicted in the MDS ordination (*Figure 30*). Average dissimilarity between groupings is listed in each plot. The percent contribution of each species to the total average dissimilarity is shown in parentheses above each species grouping.

AMERICAN OVERSIGHT

The grouping of nekton communities by estuary morphology (“small” and “large”) in the interbay analysis is similar to the groupings identified in the analysis of the five Sarasota Bay embayments (intrabay). As with the intrabay comparison, overall mean abundance for the interbay comparisons showed considerable variability and overlap (*Figure 32*). Analysis of variance (ANOVA, Tukey post hoc test) identified significant difference in abundance between bays for the nekton community sampled with 21.3-m seines (P<0.001, n=389, df=3, Model SS=56.089, Error SS=1,161.39). The two “small” estuaries (Sarasota and Lemon bays) had higher abundance than the two “large” estuaries (Lower Tampa Bay and Charlotte Harbor) (*Figure 32*). Although the nekton abundance pattern for the 6.1-m trawl was similar to that of the 21.3-m seine (higher abundance in “small” estuaries), the differences between estuaries was not significant (ANOVA, P>0.05, n=168, df=3, Model SS=6.337, Error SS=198.261). There were no obvious abundance trends and no significant differences (ANOVA, P>0.05, n=156, df=3, Model SS=2.349, Error SS=138.210) between bays in the abundance of the larger bodied juvenile and adult nekton collected with 183-m seines.

The MDS plots and abundance trends indicate that the two narrow, polyhaline estuaries (Sarasota and Lemon bays) are more productive than wider, more open estuaries for smaller nekton (juveniles and adult’s with small body size) that predominate in 21.3-m seines and 6.1-m trawl collections. Similarly, the MDS plots for the larger bodied juvenile and adult nekton community sampled with 183-m seines showed that there were differences between “small” and “large” estuaries, but there was no trend in overall abundance. The mechanism behind these observations could be differences in water depths, more stable salinity in the “small” estuaries, ratio of land-

AMERICAN OVERSIGHT

water interface to open water, sediment type, quantity and type of submerged aquatic vegetation, or circulation patterns and residence times. Other metrics that could be assessed to determine if this abundance really relates to productivity would be differences in growth rates, mortality, reproduction, and condition. Additionally, comparisons that included the tributaries in each of these estuaries would likely prove informative.

AMERICAN OVERSIGHT

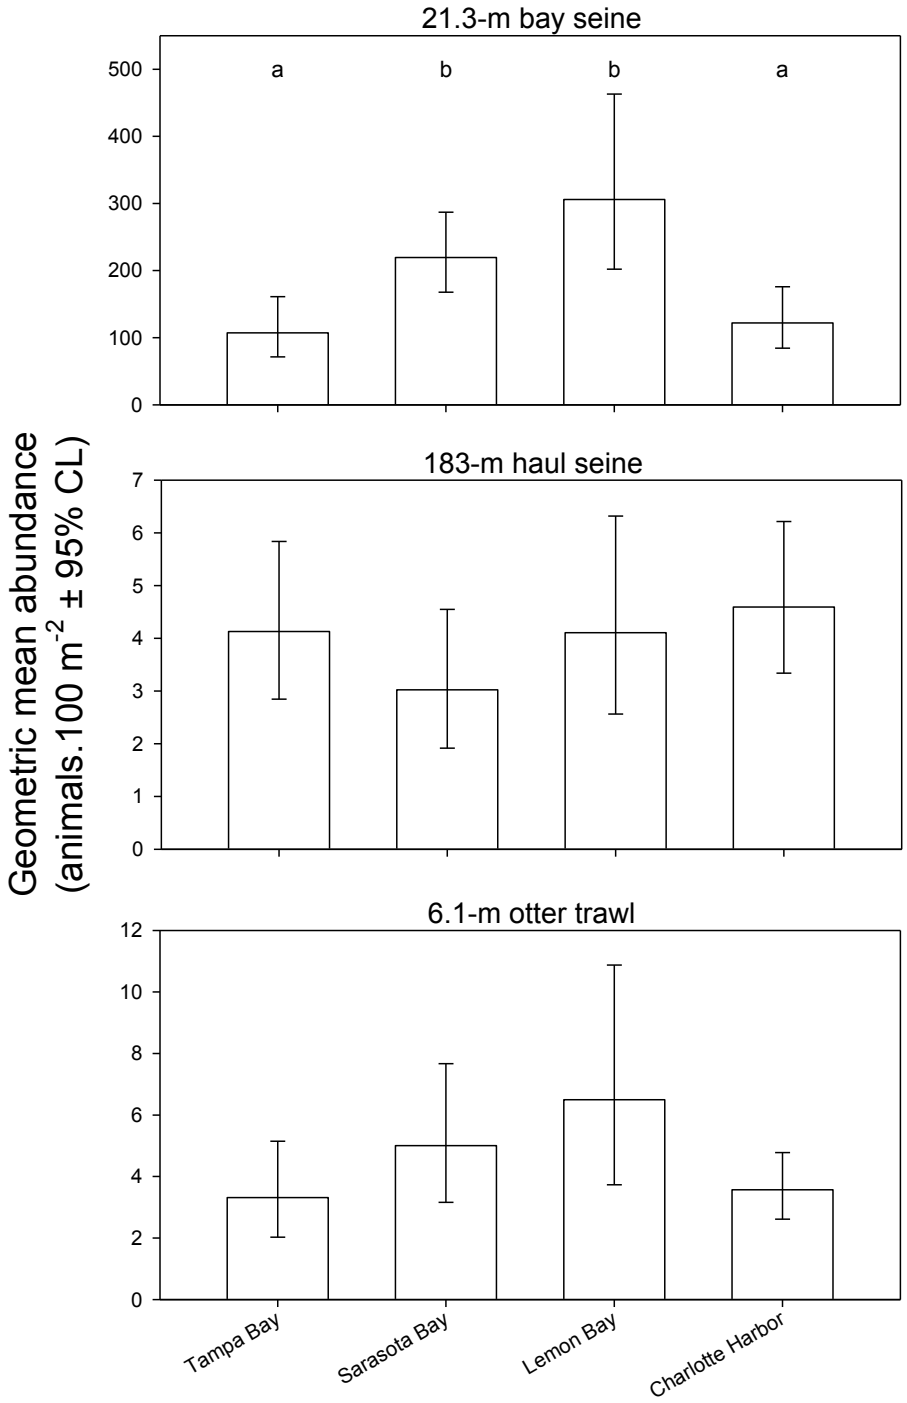

Figure 32. Geometric mean abundance for nekton collected from the polyhaline portions of four estuaries along the southwest coast of Florida. Letters above bars in 21.3-m seine plot represent significant differences (ANOVA, $P<0.001$, Tukey post hoc test, b>a); significant differences ($P<0.05$) were not found for 183-m seines or 6.1-m trawls.

Mercury Content Analysis

Tissue samples for mercury content analysis were taken from 323 individuals representing 25 taxa (*Table 10*). Animals collected for mercury analysis ranged in size from 49 to 658 mm SL. To date, just over 40% (n=133) of the tissue samples have been analyzed for mercury concentrations. Of the samples analyzed, 19 animals (10.0%), representing five taxa (*C. undecimalis*, common snook [n=12]; *Scomberomorus maculatus*, Spanish mackerel [n=3]; *Cynoscion nebulosus*, spotted seatrout [n=2]; *Elops saurus*, ladyfish [n=1]; and *Chaetodipterus faber*, spadefish [n=1]), had mercury concentrations above 0.3 mg/kg, a guidance level adopted by the U.S. EPA to protect public health (USEPA 2001). The highest mercury concentration level was 0.60 mg/kg (common snook, 524 mm SL, female).

Linear regression analyses were run on four taxa (ladyfish, *Elops saurus*; common snook, *Centropomus undecimalis*; sheepshead, *Archosargus probatocephalus*; and gray snapper, *Lutjanus griseus*) which had a large enough sample size in Sarasota Bay (≥15) and from the gulf coast of Florida between Tampa Bay and Charlotte Harbor (≥50).

AMERICAN OVERSIGHT

Table 10. Summary of the number of animals, sizes, and mercury levels for fish tissue samples analyzed from the fisheries-independent sampling of Sarasota Bay, June 2009 through April 2010. Min = minimum, Max = maximum, Analyzed = number of fish that have been processed for mercury concentration, and Total = total number of fish collected for mercury content analysis. Species with at least 50 total animals collected and at least 15 from Sarasota Bay were analyzed using linear regression (* in Reg.).

AMERICAN OVERSIGHT

Ladyfish, *Elops saurus*

Ladyfish that were collected in Sarasota Bay for mercury analysis ranged in size from 209 to 376 mm standard length (*Table 10*). Thirty of the 47 animals retained for mercury analysis from Sarasota Bay have been processed with a mean total mercury level of 0.17 mg/kg. The highest total mercury level recorded for ladyfish from Sarasota Bay was 0.39 mg/kg which was found in a fish measuring 271 mm SL.

There was a significant ($P<0.0001$), positive linear relationship between mercury concentration and standard length for ladyfish collected from the gulf coast between Tampa Bay and Charlotte Harbor (*Figure 33*), indicating a tendency for mercury concentrations to increase over time as ladyfish grow. Ladyfish collected for mercury analysis in Sarasota Bay were smaller (average 253 mm SL) than those collected in Tampa Bay and Charlotte Harbor (351 and 318 mm SL, respectively). A larger number of samples and a wider size range of ladyfish would be required to determine any estuary-specific difference in mercury concentrations at size.

AMERICAN OVERSIGHT

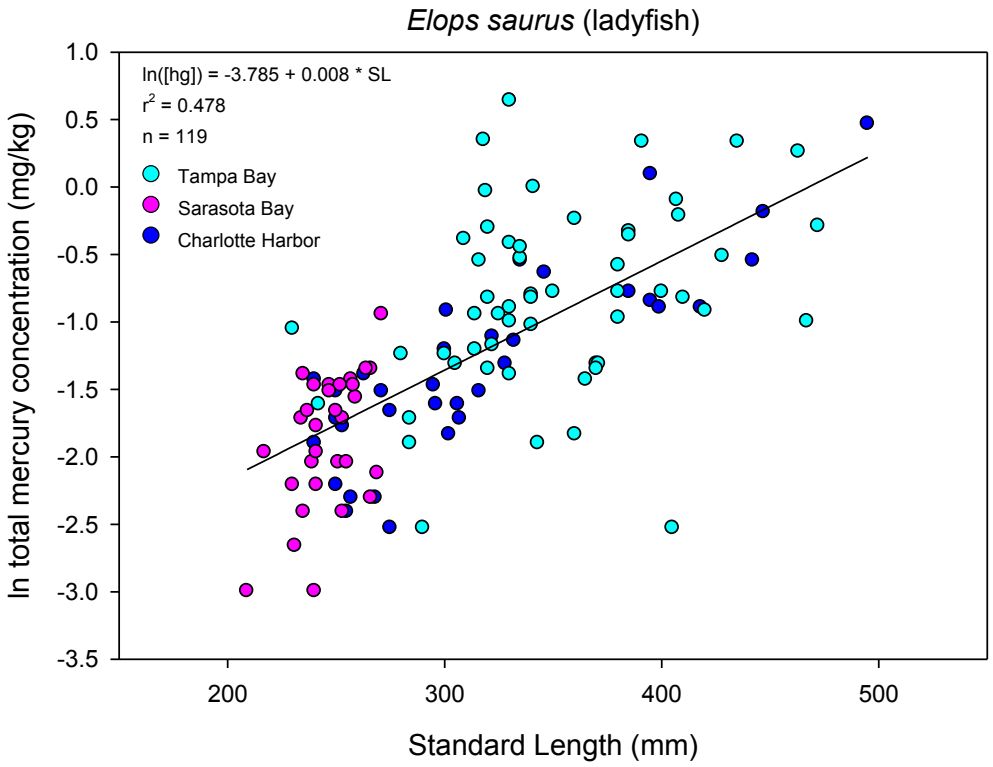

Figure 33.Relationship between ln total mercury concentration (mg/kg) and standard length (mm) for ladyfish collected in Tampa Bay, Sarasota Bay, and Charlotte Harbor.

AMERICAN OVERSIGHT

Common Snook, *Centropomus undecimalis*

Forty-two of the 59 common snook collected for mercury analysis from Sarasota Bay have been processed (*Table 10*). The fish collected for mercury analysis range in size from 200 to 658 mm standard length (mean of 409.9 mm). The mean total mercury concentration for common snook in Sarasota Bay was 0.24 mg/kg. The highest concentration of mercury recorded for common snook in Sarasota Bay was from a 524 mm SL female (0.60 mg/kg); this was also the highest value recorded for any fish in the Sarasota Bay estuary analyzed to date.

Common snook from the gulf coast of Florida between Tampa Bay and Charlotte Harbor had a significant (P<0.0001) positive linear relationship with standard length (*Figure 34*). The common snook analyzed from Sarasota Bay (n=42) did not show any obvious differences in total mercury concentration or size distribution from the common snook analyzed from Charlotte Harbor (n=156) and Tampa Bay (n=1,032). More samples and a wider size range of common snook from Sarasota Bay would be necessary to determine any statistical difference in mercury concentrations between Sarasota Bay and Charlotte Harbor or Tampa Bay.

AMERICAN OVERSIGHT

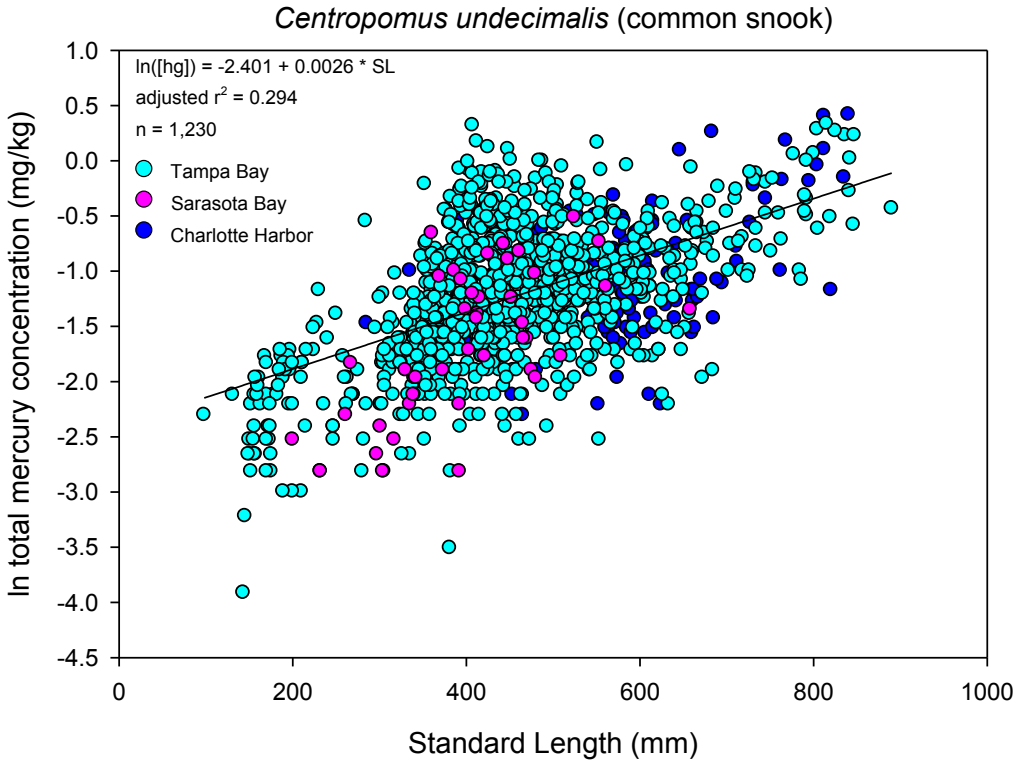

Figure 34. Relationship between ln total mercury level (mg/kg) and standard length (mm) for common snook collected in Tampa Bay, Sarasota Bay, and Charlotte Harbor.

AMERICAN OVERSIGHT

Sheepshead, *Archosargus probatocephalus*

Within Sarasota Bay, 90 sheepshead, ranging in size from 131 to 358 mm SL, were collected for mercury analysis between June 2009 and April 2010 (*Table 10*). The 17 fish processed for total mercury from Sarasota Bay had total mercury levels ranging from 0.03 to 0.21 mg/kg (mean of 0.13 mg/kg). Linear regression indicates that total mercury concentration had a significant ($P<0.01$) positive relationship with standard length for sheepshead collected between Tampa Bay and Charlotte Harbor (*Figure 35*). Total mercury concentrations for sheepshead were consistently low as compared to other estuarine species of recreational importance. There were no obvious differences in mercury concentration at size between the three estuaries; larger sample sizes of sheepshead from Tampa Bay, Sarasota Bay and Charlotte Harbor would be required to determine any statistical difference in mercury concentrations between the three estuaries.

AMERICAN OVERSIGHT

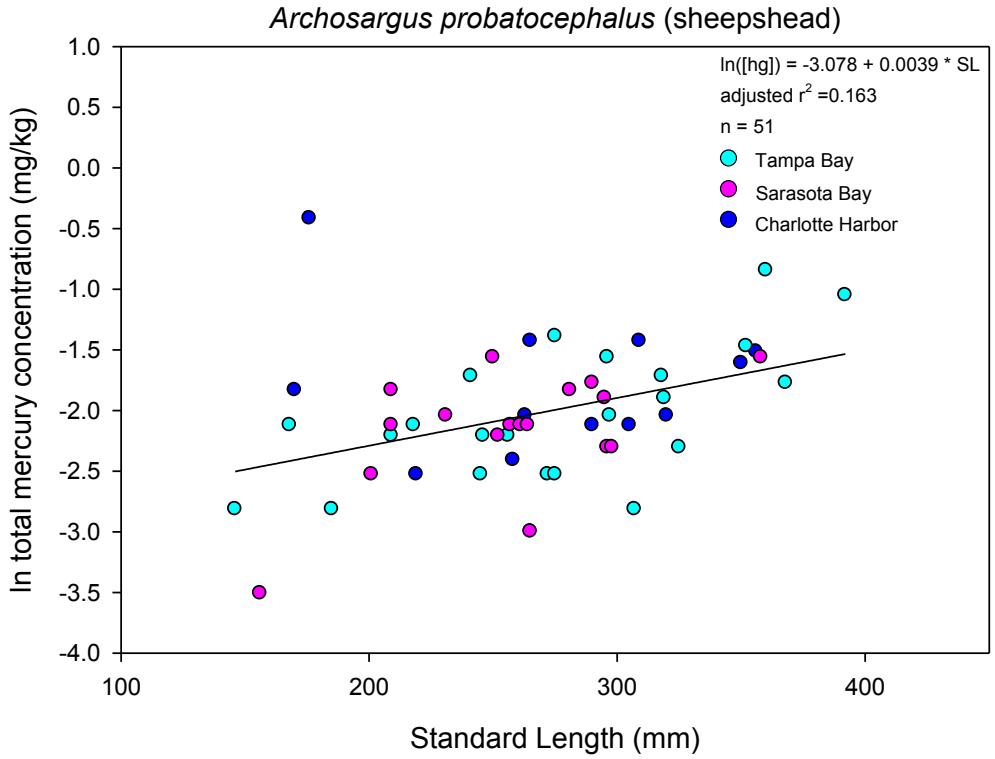

Figure 35. Relationship between ln total mercury level (mg/kg) and standard length (mm) for sheepshead collected in Tampa Bay, Sarasota Bay, and Charlotte Harbor.

AMERICAN OVERSIGHT

Gray Snapper, *Lutjanus griseus*

All of the gray snapper collected for mercury analysis (n=26) from Sarasota Bay have been processed (*Table 10*). Gray snapper collected for mercury analysis ranged in size from 115 to 240 mm SL (mean of 185.8 mm). The mean total mercury level for gray snapper in Sarasota Bay was 0.08 mg/kg (range 0.03 to 0.17 mg/kg).

Gray snapper from estuarine waters along the gulf coast of Florida between Tampa Bay and Charlotte Harbor had a significant ($P<0.0001$) positive linear relationship with size, indicating that mercury concentrations increase as gray snapper grow and age (*Figure 36*). More samples of gray snapper from Sarasota Bay would be necessary to statistically determine any bay-specific differences, but no obvious differences in total mercury concentration at size were evident for gray snapper collected from Sarasota Bay, Charlotte Harbor (n=174) and Tampa Bay (n=204).

AMERICAN OVERSIGHT

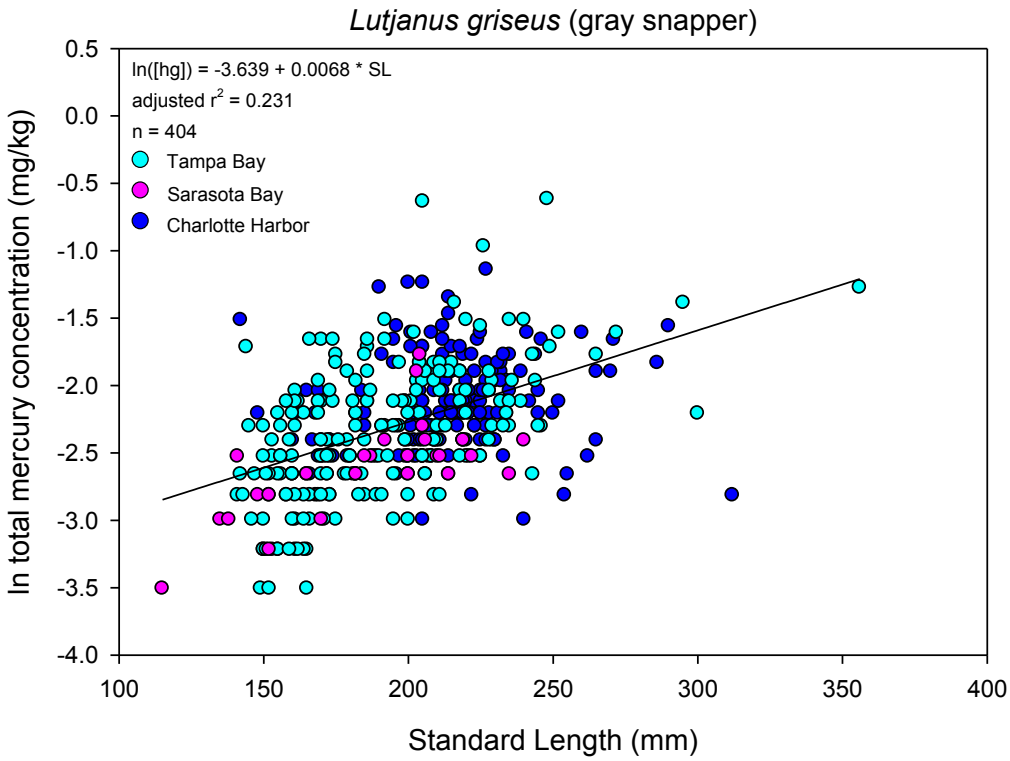

Figure 36. Relationship between ln total mercury level (mg/kg) and standard length (mm) for gray snapper collected in Tampa Bay, Sarasota Bay, and Charlotte Harbor.

AMERICAN OVERSIGHT

CONCLUSION

Physiochemical conditions

The climatic conditions during this one-year sampling period were not typical of conditions in Southwest Florida, with below average temperatures in January and February and an unseasonably rainy winter/spring 2010. Undoubtedly these conditions influenced the physiochemical situation in Sarasota Bay during the study period. Water temperatures were colder for winter/spring 2010 in two estuaries adjacent to Sarasota Bay (Tampa Bay and Charlotte Harbor) as compared to the longer-time historical period. Salinity, during the normally dry period from January to April, was lower in Sarasota Bay and adjacent estuaries (Tampa Bay, Lemon Bay, and Charlotte Harbor) than normal. The climate and physiochemical conditions during this study period likely influenced the nekton community in Sarasota Bay such that some differences in community structure might be expected as compared to a longer-term sampling period.

Composition of overall nekton community

The nekton community in Sarasota Bay was generally quite typical of Florida estuaries. More than 80% of the total animals caught during the study came from just one of the gear types, 21.3-m seine. The bay anchovy, a small schooling fish, comprised almost 30% of the catch in this gear and 25% of the total catch during the study. Pinfish were also particularly abundant, representing one of the top two abundant taxa in each of the gear types and comprising over 27% of the total catch. Other

AMERICAN OVERSIGHT

estuarine dependent species such as spot, eucinostomus mojarra, silver jenny, silver perch, and scaled sardines were relatively dominant in overall abundance as well.

Nekton Community Structure

The intrabay comparison indicated that only the nekton community sampled with the 21.3-m seine showed differences between Sarasota Bay's five embayments. The two "small" embayments (Blackburn and Roberts bays), were similar to each other, but different from the two "large" embayments (Sarasota and Little Sarasota bays). The nekton community of Palma Sola Bay was distinct from the nekton assemblages of both the "small" and "large" embayments. Overall abundance and the abundance for most taxa collected with 21.3-m seines were higher in the "small" embayments than in either the "large" embayments or Palma Sola Bay.

The interbay comparison also indicated that "small" estuaries (Sarasota and Lemon bays) were different from polyhaline portions of the "large" estuaries (Tampa Bay and Charlotte Harbor) for the nekton communities sampled with 21.3-m seines, 183-m seines, and 6.1-m trawls. The majority of discriminating taxa in the community analysis had higher abundance in the small estuaries. Overall abundance was greater in the "small" estuaries for 21.3-m seine collections, which had much larger sample sizes than the other two gear deployment methods.

The intrabay and interbay community analyses provided similar results. The community structure in "small" estuaries was different than the community structure in "large" estuaries for 21.3-m seines (intrabay and interbay), 183-m seines (interbay), and 6.1-m trawls (interbay). The abundance for the discriminating taxa in the community analyses tended to be higher in "small" than in "large" estuaries (intra and interbay) and

AMERICAN OVERSIGHT

overall abundance tended to be higher in “small” than “large” bays (intrabay). These differences in community structure and abundance could be related to water depth, salinity, ratio of land-water interface to open water, sediment type, quantity and type of submerged aquatic vegetation, or circulation patterns, residence times, and water quality.

Mercury Content Analysis

Sample sizes were not large enough to run linear regressions on any of the taxa collected from Sarasota Bay without combining with data from adjacent estuaries (Tampa Bay and Charlotte Harbor). The results of the mercury content analysis provides no reason to suspect that fish from Sarasota Bay contain any higher concentrations of mercury than those found in adjacent estuaries and suggest that accumulation rates for Sarasota Bay are similar to those found in Tampa Bay and Charlotte Harbor.

APPENDICES

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Appendix A. Animals designated as Selected Taxa because of their commercial or recreational importance.

Scientific Name	Common Name
Albula vulpes	*bonefish*
Archosargus probatocephalus	*sheepshead*
Callinectes sapidus	*blue crab*
Centropomus undecimalis	*common snook*
Cynoscion arenarius	*sand seatrout*
Cynoscion nebulosus	spotted seatrout
Cynoscion nothus	silver seatrout
Cynoscion regalis	weakfish
Cynoscion complex	seatrout
Elops saurus	ladyfish
Epinephelus adscensionis	rock hind
Epinephelus afer	mutton hamlet
Epinephelus cruentatus	graysby
Epinephelus drummondhayi	speckled hind
Epinephelus flavolimbatus	yellowedge grouper
Epinephelus fulvus	coney
Epinephelus guttatus	red hind
Epinephelus inermis	marbled grouper
Epinephelus itajara	goliath grouper
Epinephelus morio	red grouper
Epinephelus mystacinus	misty grouper
Epinephelus nigritus	Warsaw grouper
Epinephelus niveatus	snowy grouper
Epinephelus striatus	Nassau grouper
Farfantepenaeus aztecus	brown shrimp
Farfantepenaeus duorarum	pink shrimp
Farfantepenaeus brasiliensis	pinkspotted shrimp
Farfantepenaeus spp.	penaeid shrimps
Leiostomus xanthurus	spot
Litopenaeus setiferus	white shrimp
Lutjanus analis	mutton snapper
Lutjanus apodus	schoolmaster
Lutjanus buccanella	blackfin snapper
Lutjanus campechanus	red snapper
Lutjanus cyanopterus	cubera snapper
Lutjanus griseus	gray snapper
Lutjanus jocu	dog snapper
Lutjanus mahogoni	mahogany snapper
Lutjanus synagris	lane snapper
Lutjanus vivanus	silk snapper
Megalops atlanticus	tarpon
Menippe spp.	stone crab
Menticirrhus americanus	southern kingfish
Menticirrhus littoralis	Gulf kingfish
Menticirrhus saxatillis	northern kingfish
Micropogonias undulatus	Atlantic croaker
Mugil cephalus	striped mullet
Mugil curema	white mullet
Mugil gaimardianus	redeye mullet
Mugil gyrans	whirligig mullet
Mugil liza	liza
Mycteroperca bonaci	black grouper
Mycteroperca microlepis	gag
Mycteroperca phenax	scamp
Mycteroperca tigris	tiger grouper
Mycteroperca venenosa	yellowfin grouper
Panulirus argus	spiny lobster
Paralichthys albigutta	Gulf flounder
Paralichthys dentatus	summer flounder
Paralichthys lethostigma	southern flounder
Paralichthys oblongus	fourspot flounder
Paralichthys squamilentus	broad flounder
Penaeidae spp.	shrimps
Pogonias cromis	black drum
Pomatomus saltatrix	bluefish
Rachycentron canadum	cobia
Sciaenops ocellatus	red drum
Scomberomorus cavalla	king mackerel
Scomberomorus maculatus	Spanish mackerel
Scomberomorus regalis	cero
Trachinotus carolinus	pompano
Trachinotus falcatus	permit
Trachinotus goodei	palometa

From: Florida Chamber Foundation <emartin@flchamber.com>
Sent: Monday, October 28, 2019 2:42 PM EDT
To: Gruters, Joe <Gruters.Joe@flsenate.gov>
Subject: $4,442 Reasons to Fix Florida's Broken Legal Climate

FIXING FLORIDA'S LAWSUIT ABUSE PROBLEM

$4,442 Reasons to Fix Florida's Broken Legal Climate

Unfortunately, Florida currently ranks among the nation's worst when it comes to legal climate. Florida's broken system is ranked 46th out of 50 states and puts the interests of personal injury trial lawyers who advertise on TV ahead of the people they represent. An average Florida family pays $4,442 in "lawsuit taxes," through increased prices caused by frivolous and other lawsuits.

"Now is more important than ever for the national Chamber to partner with state chambers because a lot of the legislative opportunities for lawsuit abuse reform are happening in the states," said Harold Kim, VP U.S. Chamber of Commerce and COO U.S. Chamber Institute for Legal Reform. "Florida is well positioned given the fact that the Florida Chamber has such a strong presence in Tallahassee and has the ability to advocate on some pretty difficult issues."

In the video below, you'll meet Mary, a hard-working Floridian who has money taken out of her pocket every day due to Florida's legal climate. Please share this educational video with your employees, vendors and family.

It's time to make Florida's legal system work for the people, not their personal injury lawyers.

Get Involved Today

Sign the petition to help fix Florida's broken legal system. Contact Carolyn Johnson at cjohnson@flchamber.com or 850-521-1235 for more information.

Rob Bradley @Rob_Bradley
So proud that @FLCaseyDeSantis visited our region today to learn about #ProjectSaveLives! Her incredible advocacy for these issues is already making a huge difference and saving lives-future is even brighter! We've invested in this program for 2 years at state level. More to do!

George Gainer @SenatorGainer
Off to a great start with the unanimous passage of our bill SB 936 which will better serve our state's veterans who are members or beneficiaries of the Florida Retirement System. This bill will further our goal of being the most veteran friendly state in the US. #District2

Debbie Mayfield @debbie_mayfield
Tomorrow, January 14th marks the start of the 2020 Legislative Session. The next 60 days will be extremely busy as we prepare the state budget and act on issues impacting all Floridians. Learn more about the upcoming Session in this week's #MayfieldMinute. conta.cc/2Nkp2cw

FL Senate Majority @FLSenateGOP
SB 1088 by @SenMannyDiazJr passed the Senate Education Committee. The Senate Republican Caucus values our teachers and is proud to support this legislation which aims to increase teacher salaries.

Rob Bradley @Rob_Bradley
Incredibly honored to receive award from my dear friend Leader @SenAudrey2eet at the @FCBSL reception last night along with President @BillGalvano! Fabulous night as we celebrated milestones together-including the new CASS building at @FAMU_1887!

Kathleen Passidomo @Kathleen4SWFL
Pleased to welcome @GovRonDeSantis to Naples for his education standards announcement.

Bill Galvano @BillGalvano
Great news! @GovRonDeSantis announced Florida's unemployment rate dropped to record low of 3.0 percent in December 2019.

FY 2019-2020 Report

I. Statutory Authority or Executive Order Creating Organization

Section 267.17, *Florida Statutes*, provides statutory authority for the organization.

II. Mission and Results Obtained

Mission

The mission of Friends of Florida History, Inc. (FFH) shall be to enhance and perpetuate, through prudent stewardship and non-state financial support, the archaeology, historic sites, museums, folklife, historic preservation sites and programs of the Florida Division of Historical Resources (including, but not limited to, Miami Circle, Florida Folklife Program, Florida Main Street) and the Office of External Affairs (Mission San Luis and The Grove Museum) for the people of Florida and its visitors.

Results Obtained

Friends of Florida History, Inc. board members accomplish their mission through financial support for Florida Division of Historical Resources and the Office of External Affairs (Mission San Luis and The Grove Museum) programs and facilities. During FY 2018-2019, Friends of Florida History raised funds and in-kind donations of goods and services for Mission San Luis (2018-2019 Cultural Thursdays Colonial Spanish Florida History Lecture Series, 2019 Winter Solstice Celebration), The Grove Museum (education and membership programs), Florida Folklife Program (Florida Folk Heritage Awards, Florida Folk Festival – Florida Folk Program Area), Florida Main Street Program (2018 Florida Main Street Annual Conference, 2019 Florida Main Street Spring Quarterly Meeting) as well as activities organized by the Bureau of Historic Preservation (regional Certified Local Government trainings held in St. Augustine, Jupiter, and Deland) and the Bureau of Archaeological Research (2019 Florida Archaeology Month presentations).

FFH established a Florida Division of Historical Resources 'DHR Program Area Operating General Fund' account. In addition, Friends of Florida History, Inc. opened a money market ($125,000 MM) and CD accounts (a $75,000 6-month CD and a $75,000

AMERICAN OVERSIGHT

18-month CD) with funds earmarked for Mission San Luis. Throughout FY 2018-2019, Friends of Florida History, Inc. provided advice on Division programming.

III. Three Year Plan

To solicit, receive, hold, invest, and administer property, and subject to approval of the Department of State, make expenditures to provide assistance, funding, and promotional support to the archaeology, historic sites, museums, folklife, and historic preservation programs of the Division, in a manner consistent with the policies and goals of the Department in accordance with Chapter 267, *Florida Statutes.*

To support the Division in its efforts to implement and manage programs designed to create statewide impact and position Florida as a national leader in historic preservation.

IV. Code of Ethics

The Code of Ethics of Friends of Florida History, Inc. is as follows:

PREAMBLE

(1) It is essential to the proper conduct and operation of Friends of Florida History, Inc., (herein "CSO") that its board members, officers, and employees be independent and impartial and that their position not be used for private gain. Therefore, the Florida Legislature in Section 112.3251, *Florida Statutes*, requires that the law protect against any conflict of interest and establish standards for the conduct of CSO board members, officers, and employees in situations where conflicts may exist.

(2) It is hereby declared to be the policy of the state that no CSO board member, officer, or employee shall have any interest, financial or otherwise, direct or indirect, or incur any obligation of any nature which is in substantial conflict with the proper discharge of his or her duties for the CSO. To implement this policy and strengthen the faith and confidence of the people in Citizen Support Organizations, there is enacted a code of ethics setting forth standards of conduct required of Friends of Florida History, Inc., board members, officers, and employees in the performance of their official duties.

STANDARDS

The following standards of conduct are enumerated in Chapter 112, *Florida Statutes*, and are required by Section 112.3251, *Florida Statutes*, to be observed by CSO board members, officers, and employees.

1. Prohibition of Solicitation or Acceptance of Gifts

AMERICAN OVERSIGHT

No CSO board member, officer, or employee shall solicit or accept anything of value to the recipient, including a gift, loan, reward, promise of future employment, favor, or service, based upon any understanding that the vote, official action, or judgment of the CSO board member, officer, or employee would be influenced thereby.

2. Prohibition of Accepting Compensation Given to Influence a Vote

No CSO board member, officer, or employee shall accept any compensation, payment, or thing of value when the person knows, or, with reasonable care, should know that it was given to influence a vote or other action in which the CSO board member, officer, or employee was expected to participate in his or her official capacity.

3. Salary and Expenses

No CSO board member or officer shall be prohibited from voting on a matter affecting his or her salary, expenses, or other compensation as a CSO board member or officer, as provided by law.

4. Prohibition of Misuse of Position

A CSO board member, officer, or employee shall not corruptly use or attempt to use one's official position or any property or resource which may be within one's trust, or perform official duties, to secure a special privilege, benefit, or exemption.

5. Prohibition of Misuse of Privileged Information

No CSO board member, officer, or employee shall disclose or use information not available to members of the general public and gained by reason of one's official position for one's own personal gain or benefit or for the personal gain or benefit of any other person or business entity.

6. Post-Office/Employment Restrictions

A person who has been elected to any CSO board or office or who is employed by a CSO may not personally represent another person or entity for compensation before the governing body of the CSO of which he or she was a board member, officer, or employee for a period of two years after he or she vacates that office or employment position.

7. Prohibition of Employees Holding Office

No person may be, at one time, both a CSO employee and a CSO board member at the same time.

8. Requirements to Abstain from Voting

AMERICAN OVERSIGHT

A CSO board member or officer shall not vote in official capacity upon any measure which would affect his or her special private gain or loss, or which he or she knows would affect the special gain or any principal by whom the board member or officer is retained. When abstaining, the CSO board member or officer, prior to the vote being taken, shall make every reasonable effort to disclose the nature of his or her interest as a public record in a memorandum filed with the person responsible for recording the minutes of the meeting, who shall incorporate the memorandum in the minutes. If it is not possible for the CSO board member or officer to file a memorandum before the vote, the memorandum must be filed with the person responsible for recording the minutes of the meeting no later than 15 days after the vote.

9. Failure to Observe CSO Code of Ethics

Failure of a CSO board member, officer, or employee to observe the Code of Ethics may result in the removal of that person from their position. Further, failure of the CSO to observe the Code of Ethics may result in the Florida Department of State terminating its Agreement with the CSO.

V. Current Federal Internal Revenue Service Return of Organization Exempt from Income Tax form (Form 990).

Please see attached IRS Form 990 for the 2017 tax year.

Part II Declaration and Signature Authorization of Officer

Under penalties of perjury, I declare that I am an officer of the above organization and that I have examined a copy of the organization's 2017 electronic return and accompanying schedules and statements and to the best of my knowledge and belief, they are true, correct, and complete. I further declare that the amount in Part I above is the amount shown on the copy of the organization's electronic return. I consent to allow my intermediate service provider, transmitter, or electronic return originator (ERO) to send the organization's return to the IRS and to receive from the IRS **(a)** an acknowledgement of receipt or reason for rejection of the transmission, **(b)** the reason for any delay in processing the return or refund, and **(c)** the date of any refund. If applicable, I authorize the U.S. Treasury and its designated Financial Agent to initiate an electronic funds withdrawal (direct debit) entry to the financial institution account indicated in the tax preparation software for payment of the organization's federal taxes owed on this return, and the financial institution to debit the entry to this account. To revoke a payment, I must contact the U.S. Treasury Financial Agent at 1-888-353-4537 no later than 2 business days prior to the payment (settlement) date. I also authorize the financial institutions involved in the processing of the electronic payment of taxes to receive confidential information necessary to answer inquiries and resolve issues related to the payment. I have selected a personal identification number (PIN) as my signature for the organization's electronic return and, if applicable, the organization's consent to electronic funds withdrawal.

21	Did the organization report more than $5,000 of grants or other assistance to any domestic organization or domestic government on Part IX, column (A), line 1? *If "Yes," complete Schedule I, Parts I and II*	**21**		X
22	Did the organization report more than $5,000 of grants or other assistance to or for domestic individuals on Part IX, column (A), line 2? *If "Yes," complete Schedule I, Parts I and III*	**22**		X
23	Did the organization answer "Yes" to Part VII, Section A, line 3, 4, or 5 about compensation of the organization's current and former officers, directors, trustees, key employees, and highest compensated employees? *If "Yes," complete Schedule J*	**23**		X
24a	Did the organization have a tax-exempt bond issue with an outstanding principal amount of more than $100,000 as of the last day of the year, that was issued after December 31, 2002? *If "Yes," answer lines 24b through 24d and complete Schedule K. If "No," go to line 25a*	**24a**		X
b	Did the organization invest any proceeds of tax-exempt bonds beyond a temporary period exception?	**24b**		
c	Did the organization maintain an escrow account other than a refunding escrow at any time during the year to defease any tax-exempt bonds?	**24c**		
d	Did the organization act as an "on behalf of" issuer for bonds outstanding at any time during the year?	**24d**		
25a	**Section 501(c)(3), 501(c)(4), and 501(c)(29) organizations.** Did the organization engage in an excess benefit transaction with a disqualified person during the year? *If "Yes," complete Schedule L, Part I*	**25a**		X
b	Is the organization aware that it engaged in an excess benefit transaction with a disqualified person in a prior year, and that the transaction has not been reported on any of the organization's prior Forms 990 or 990-EZ? *If "Yes," complete Schedule L, Part I*	**25b**		X
26	Did the organization report any amount on Part X, line 5, 6, or 22 for receivables from or payables to any current or former officers, directors, trustees, key employees, highest compensated employees, or disqualified persons? *If "Yes," complete Schedule L, Part II*	**26**		X
27	Did the organization provide a grant or other assistance to an officer, director, trustee, key employee, substantial contributor or employee thereof, a grant selection committee member, or to a 35% controlled entity or family member of any of these persons? *If "Yes," complete Schedule L, Part III*	**27**		X
28	Was the organization a party to a business transaction with one of the following parties (see Schedule L, Part IV instructions for applicable filing thresholds, conditions, and exceptions):			
a	A current or former officer, director, trustee, or key employee? *If "Yes," complete Schedule L, Part IV*	**28a**		X
b	A family member of a current or former officer, director, trustee, or key employee? *If "Yes," complete Schedule L, Part IV*	**28b**		X
c	An entity of which a current or former officer, director, trustee, or key employee (or a family member thereof) was an officer, director, trustee, or direct or indirect owner? *If "Yes," complete Schedule L, Part IV*	**28c**		X
29	Did the organization receive more than $25,000 in non-cash contributions? *If "Yes," complete Schedule M*	**29**		X
30	Did the organization receive contributions of art, historical treasures, or other similar assets, or qualified conservation contributions? *If "Yes," complete Schedule M*	**30**		X
31	Did the organization liquidate, terminate, or dissolve and cease operations? *If "Yes," complete Schedule N, Part I*	**31**		X
32	Did the organization sell, exchange, dispose of, or transfer more than 25% of its net assets? *If "Yes," complete Schedule N, Part II*	**32**		X
33	Did the organization own 100% of an entity disregarded as separate from the organization under Regulations sections 301.7701-2 and 301.7701-3? *If "Yes," complete Schedule R, Part I*	**33**		X
34	Was the organization related to any tax-exempt or taxable entity? *If "Yes," complete Schedule R, Part II, III, or IV, and Part V, line 1*	**34**	X	
35a	Did the organization have a controlled entity within the meaning of section 512(b)(13)?	**35a**		X
b	If "Yes" to line 35a, did the organization receive any payment from or engage in any transaction with a controlled entity within the meaning of section 512(b)(13)? *If "Yes," complete Schedule R, Part V, line 2*	**35b**		
36	**Section 501(c)(3) organizations.** Did the organization make any transfers to an exempt non-charitable related organization? *If "Yes," complete Schedule R, Part V, line 2*	**36**		X
37	Did the organization conduct more than 5% of its activities through an entity that is not a related organization and that is treated as a partnership for federal income tax purposes? *If "Yes," complete Schedule R, Part VI*	**37**		X
38	Did the organization complete Schedule O and provide explanations in Schedule O for Part VI, lines 11b and 19? **Note.** All Form 990 filers are required to complete Schedule O.	**38**	X

Part V Statements Regarding Other IRS Filings and Tax Compliance

Check if Schedule O contains a response or note to any line in this Part V ☐

				Yes	No
1a	Enter the number reported in Box 3 of Form 1096. Enter -0- if not applicable	1a	5		
b	Enter the number of Forms W-2G included in line 1a. Enter -0- if not applicable	1b	0		
c	Did the organization comply with backup withholding rules for reportable payments to vendors and reportable gaming (gambling) winnings to prize winners?	1c		X	
2a	Enter the number of employees reported on Form W-3, Transmittal of Wage and Tax Statements, filed for the calendar year ending with or within the year covered by this return	2a	0		
b	If at least one is reported on line 2a, did the organization file all required federal employment tax returns?	2b			
	Note. If the sum of lines 1a and 2a is greater than 250, you may be required to *e-file* (see instructions)				
3a	Did the organization have unrelated business gross income of $1,000 or more during the year?	3a			X
b	If "Yes," has it filed a Form 990-T for this year? *If "No" to line 3b, provide an explanation in Schedule O*	3b			
4a	At any time during the calendar year, did the organization have an interest in, or a signature or other authority over, a financial account in a foreign country (such as a bank account, securities account, or other financial account)?	4a			X
b	If "Yes," enter the name of the foreign country: u See instructions for filing requirements for FinCEN Form 114, Report of Foreign Bank and Financial Accounts (FBAR).				
5a	Was the organization a party to a prohibited tax shelter transaction at any time during the tax year?	5a			X
b	Did any taxable party notify the organization that it was or is a party to a prohibited tax shelter transaction?	5b			X
c	If "Yes" to line 5a or 5b, did the organization file Form 8886-T?	5c			
6a	Does the organization have annual gross receipts that are normally greater than $100,000, and did the organization solicit any contributions that were not tax deductible as charitable contributions?	6a			X
b	If "Yes," did the organization include with every solicitation an express statement that such contributions or gifts were not tax deductible?	6b			
7	**Organizations that may receive deductible contributions under section 170(c).**				
a	Did the organization receive a payment in excess of $75 made partly as a contribution and partly for goods and services provided to the payor?	7a			X
b	If "Yes," did the organization notify the donor of the value of the goods or services provided?	7b			
c	Did the organization sell, exchange, or otherwise dispose of tangible personal property for which it was required to file Form 8282?	7c			X
d	If "Yes," indicate the number of Forms 8282 filed during the year	7d			
e	Did the organization receive any funds, directly or indirectly, to pay premiums on a personal benefit contract?	7e			X
f	Did the organization, during the year, pay premiums, directly or indirectly, on a personal benefit contract?	7f			X
g	If the organization received a contribution of qualified intellectual property, did the organization file Form 8899 as required?	7g			
h	If the organization received a contribution of cars, boats, airplanes, or other vehicles, did the organization file a Form 1098-C?	7h			
8	**Sponsoring organizations maintaining donor advised funds.** Did a donor advised fund maintained by the sponsoring organization have excess business holdings at any time during the year?	8			
9	**Sponsoring organizations maintaining donor advised funds.**				
a	Did the sponsoring organization make any taxable distributions under section 4966?	9a			
b	Did the sponsoring organization make a distribution to a donor, donor advisor, or related person?	9b			
10	**Section 501(c)(7) organizations.** Enter:				
a	Initiation fees and capital contributions included on Part VIII, line 12	10a			
b	Gross receipts, included on Form 990, Part VIII, line 12, for public use of club facilities	10b			
11	**Section 501(c)(12) organizations.** Enter:				
a	Gross income from members or shareholders	11a			
b	Gross income from other sources (Do not net amounts due or paid to other sources against amounts due or received from them.)	11b			
12a	**Section 4947(a)(1) non-exempt charitable trusts.** Is the organization filing Form 990 in lieu of Form 1041?	12a			
b	If "Yes," enter the amount of tax-exempt interest received or accrued during the year	12b			
13	**Section 501(c)(29) qualified nonprofit health insurance issuers.**				
a	Is the organization licensed to issue qualified health plans in more than one state? **Note.** See the instructions for additional information the organization must report on Schedule O.	13a			
b	Enter the amount of reserves the organization is required to maintain by the states in which the organization is licensed to issue qualified health plans	13b			
c	Enter the amount of reserves on hand	13c			
14a	Did the organization receive any payments for indoor tanning services during the tax year?	14a			X
b	If "Yes," has it filed a Form 720 to report these payments? *If "No," provide an explanation in Schedule O*	14b			

AMERICAN OVERSIGHT

Part VI **Governance, Management, and Disclosure** *For each "Yes" response to lines 2 through 7b below, and for a "No" response to line 8a, 8b, or 10b below, describe the circumstances, processes, or changes in Schedule O. See instructions.*

Check if Schedule O contains a response or note to any line in this Part VI ..... [X]

Section A. Governing Body and Management

				Yes	No
1a	Enter the number of voting members of the governing body at the end of the tax year	1a	9		
	If there are material differences in voting rights among members of the governing body, or if the governing body delegated broad authority to an executive committee or similar committee, explain in Schedule O.				
b	Enter the number of voting members included in line 1a, above, who are independent	1b	9		
2	Did any officer, director, trustee, or key employee have a family relationship or a business relationship with any other officer, director, trustee, or key employee?	2			X
3	Did the organization delegate control over management duties customarily performed by or under the direct supervision of officers, directors, or trustees, or key employees to a management company or other person?	3			X
4	Did the organization make any significant changes to its governing documents since the prior Form 990 was filed?	4			X
5	Did the organization become aware during the year of a significant diversion of the organization's assets?	5			X
6	Did the organization have members or stockholders?	6			X
7a	Did the organization have members, stockholders, or other persons who had the power to elect or appoint one or more members of the governing body?	7a			X
b	Are any governance decisions of the organization reserved to (or subject to approval by) members, stockholders, or persons other than the governing body?	7b			X
8	Did the organization contemporaneously document the meetings held or written actions undertaken during the year by the following:				
a	The governing body?	8a		X	
b	Each committee with authority to act on behalf of the governing body?	8b		X	
9	Is there any officer, director, trustee, or key employee listed in Part VII, Section A, who cannot be reached at the organization's mailing address? *If "Yes," provide the names and addresses in Schedule O*	9			X

Section B. Policies *(This Section B requests information about policies not required by the Internal Revenue Code.)*

			Yes	No
10a	Did the organization have local chapters, branches, or affiliates?	10a		X
b	If "Yes," did the organization have written policies and procedures governing the activities of such chapters, affiliates, and branches to ensure their operations are consistent with the organization's exempt purposes?	10b		
11a	Has the organization provided a complete copy of this Form 990 to all members of its governing body before filing the form?	11a	X	
b	Describe in Schedule O the process, if any, used by the organization to review this Form 990.			
12a	Did the organization have a written conflict of interest policy? *If "No," go to line 13*	12a		X
b	Were officers, directors, or trustees, and key employees required to disclose annually interests that could give rise to conflicts?	12b		
c	Did the organization regularly and consistently monitor and enforce compliance with the policy? *If "Yes," describe in Schedule O how this was done*	12c		
13	Did the organization have a written whistleblower policy?	13		X
14	Did the organization have a written document retention and destruction policy?	14	X	
15	Did the process for determining compensation of the following persons include a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision?			
a	The organization's CEO, Executive Director, or top management official	15a		X
b	Other officers or key employees of the organization	15b		X
	If "Yes" to line 15a or 15b, describe the process in Schedule O (see instructions).			
16a	Did the organization invest in, contribute assets to, or participate in a joint venture or similar arrangement with a taxable entity during the year?	16a		X
b	If "Yes," did the organization follow a written policy or procedure requiring the organization to evaluate its participation in joint venture arrangements under applicable federal tax law, and take steps to safeguard the organization's exempt status with respect to such arrangements?	16b		

Section C. Disclosure

17 List the states with which a copy of this Form 990 is required to be filed u **NONE**

18 Section 6104 requires an organization to make its Forms 1023 (or 1024 if applicable), 990, and 990-T (Section 501(c)(3)s only) available for public inspection. Indicate how you made these available. Check all that apply.

[ ] Own website [ ] Another's website [X] Upon request [ ] Other *(explain in Schedule O)*

19 Describe in Schedule O whether (and if so, how) the organization made its governing documents, conflict of interest policy, and financial statements available to the public during the tax year.

20 State the name, address, and telephone number of the person who possesses the organization's books and records: u

Part VII Compensation of Officers, Directors, Trustees, Key Employees, Highest Compensated Employees, and Independent Contractors

Check if Schedule O contains a response or note to any line in this Part VII ☐

Section A. Officers, Directors, Trustees, Key Employees, and Highest Compensated Employees

1a Complete this table for all persons required to be listed. Report compensation for the calendar year ending with or within the organization's tax year.

- List all of the organization's **current** officers, directors, trustees (whether individuals or organizations), regardless of amount of compensation. Enter -0- in columns (D), (E), and (F) if no compensation was paid.
- List all of the organization's **current** key employees, if any. See instructions for definition of "key employee."
- List the organization's five **current** highest compensated employees (other than an officer, director, trustee, or key employee) who received reportable compensation (Box 5 of Form W-2 and/or Box 7 of Form 1099-MISC) of more than $100,000 from the organization and any related organizations.
- List all of the organization's **former** officers, key employees, and highest compensated employees who received more than $100,000 of reportable compensation from the organization and any related organizations.
- List all of the organization's **former directors or trustees** that received, in the capacity as a former director or trustee of the organization, more than $10,000 of reportable compensation from the organization and any related organizations.

List persons in the following order: individual trustees or directors; institutional trustees; officers; key employees; highest compensated employees; and former such persons.

☐ Check this box if neither the organization nor any related organization compensated any current officer, director, or trustee.

(A) Name and Title	(B) Average hours per week (list any hours for related organizations below dotted line)	(C) Position (do not check more than one box, unless person is both an officer and a director/trustee)						(D) Reportable compensation from the organization (W-2/1099-MISC)	(E) Reportable compensation from related organizations (W-2/1099-MISC)	(F) Estimated amount of other compensation from the organization and related organizations
		Individual trustee or director	Institutional trustee	Officer	Key employee	Highest compensated employee	Former

	19	Deferred revenue		98,840	19	81,040
	20	Tax-exempt bond liabilities			20	
	21	Escrow or custodial account liability. Complete Part IV of Schedule D			21	
	22	Loans and other payables to current and former officers, directors, trustees, key employees, highest compensated employees, and disqualified persons. Complete Part II of Schedule L			22	
	23	Secured mortgages and notes payable to unrelated third parties			23	
	24	Unsecured notes and loans payable to unrelated third parties			24	
	25	Other liabilities (including federal income tax, payables to related third parties, and other liabilities not included on lines 17-24). Complete Part X of Schedule D			25	
	26	**Total liabilities.** Add lines 17 through 25		108,509	26	95,645
Net Assets or Fund Balances		**Organizations that follow SFAS 117 (ASC 958), check here** u ☒ **and complete lines 27 through 29, and lines 33 and 34.**				
	27	Unrestricted net assets		2,044,751	27	2,243,995
	28	Temporarily restricted net assets			28	
	29	Permanently restricted net assets		1,542,263	29	1,542,263
		Organizations that do not follow SFAS 117 (ASC 958), check here u ☐ **and complete lines 30 through 34.**				
	30	Capital stock or trust principal, or current funds			30	
	31	Paid-in or capital surplus, or land, building, or equipment fund			31	
	32	Retained earnings, endowment, accumulated income, or other funds			32	
	33	Total net assets or fund balances		3,587,014	33	3,786,258
	34	Total liabilities and net assets/fund balances		3,695,523	34	3,881,903

AMERICAN OVERSIGHT

Part XI Reconciliation of Net Assets

Check if Schedule O contains a response or note to any line in this Part XI ☐

1	Total revenue (must equal Part VIII, column (A), line 12)	1	622,888
2	Total expenses (must equal Part IX, column (A), line 25)	2	284,433
3	Revenue less expenses. Subtract line 2 from line 1	3	338,455
4	Net assets or fund balances at beginning of year (must equal Part X, line 33, column (A))	4	3,587,014
5	Net unrealized gains (losses) on investments	5	-139,211
6	Donated services and use of facilities	6	
7	Investment expenses	7	
8	Prior period adjustments	8	
9	Other changes in net assets or fund balances (explain in Schedule O)	9	
10	Net assets or fund balances at end of year. Combine lines 3 through 9 (must equal Part X, line 33, column (B))	10	3,786,258

Part XII Financial Statements and Reporting

Check if Schedule O contains a response or note to any line in this Part XII ☐

			Yes	No
1	Accounting method used to prepare the Form 990: ☐ Cash ☒ Accrual ☐ Other _____ If the organization changed its method of accounting from a prior year or checked "Other," explain in Schedule O.			
2a	Were the organization's financial statements compiled or reviewed by an independent accountant? If "Yes," check a box below to indicate whether the financial statements for the year were compiled or reviewed on a separate basis, consolidated basis, or both: ☐ Separate basis ☐ Consolidated basis ☐ Both consolidated and separate basis	2a		X
b	Were the organization's financial statements audited by an independent accountant? If "Yes," check a box below to indicate whether the financial statements for the year were audited on a separate basis, consolidated basis, or both: ☐ Separate basis ☒ Consolidated basis ☐ Both consolidated and separate basis	2b	X	
c	If "Yes" to line 2a or 2b, does the organization have a committee that assumes responsibility for oversight of the audit, review, or compilation of its financial statements and selection of an independent accountant? If the organization changed either its oversight process or selection process during the tax year, explain in Schedule O.	2c	X	
3a	As a result of a federal award, was the organization required to undergo an audit or audits as set forth in the Single Audit Act and OMB Circular A-133?	3a		
b	If "Yes," did the organization undergo the required audit or audits? If the organization did not undergo the required audit or audits, explain why in Schedule O and describe any steps taken to undergo such audits.	3b

SCHEDULE A
(Form 990 or 990-EZ)

Department of the Treasury
Internal Revenue Service

Public Charity Status and Public Support

Complete if the organization is a section 501(c)(3) organization or a section 4947(a)(1) nonexempt charitable trust.

u **Attach to Form 990 or Form 990-EZ.**

u **Go to *www.irs.gov/Form990* for instructions and the latest information.**

OMB No. 1545-0047

2017

Open to Public Inspection

Name of the organization

FRIENDS OF FLORIDA HISTORY, INC.

Employer identification number

59-3753544

Part I Reason for Public Charity Status (All organizations must complete this part.) See instructions.

The organization is not a private foundation because it is: (For lines 1 through 12, check only one box.)

1 ☐ A church, convention of churches, or association of churches described in **section 170(b)(1)(A)(i).**

2 ☐ A school described in **section 170(b)(1)(A)(ii).** (Attach Schedule E (Form 990 or 990-EZ).)

3 ☐ A hospital or a cooperative hospital service organization described in **section 170(b)(1)(A)(iii).**

4 ☐ A medical research organization operated in conjunction with a hospital described in **section 170(b)(1)(A)(iii).** Enter the hospital's name, city, and state: .....

5 ☐ An organization operated for the benefit of a college or university owned or operated by a governmental unit described in **section 170(b)(1)(A)(iv).** (Complete Part II.)

6 ☐ A federal, state, or local government or governmental unit described in **section 170(b)(1)(A)(v).**

7 ☒ An organization that normally receives a substantial part of its support from a governmental unit or from the general public described in **section 170(b)(1)(A)(vi).** (Complete Part II.)

8 ☐ A community trust described in **section 170(b)(1)(A)(vi).** (Complete Part II.)

9 ☐ An agricultural research organization described in **section 170(b)(1)(A)(ix)** operated in conjunction with a land-grant college or university or a non-land grant college of agriculture (see instructions). Enter the name, city, and state of the college or university: .....

10 ☐ An organization that normally receives: (1) more than 33 1/3% of its support from contributions, membership fees, and gross receipts from activities related to its exempt functions—subject to certain exceptions, and (2) no more than 33 1/3% of its support from gross investment income and unrelated business taxable income (less section 511 tax) from businesses acquired by the organization after June 30, 1975. See **section 509(a)(2).** (Complete Part III.)

11 ☐ An organization organized and operated exclusively to test for public safety. See **section 509(a)(4).**

12 ☐ An organization organized and operated exclusively for the benefit of, to perform the functions of, or to carry out the purposes of one or more publicly supported organizations described in **section 509(a)(1)** or **section 509(a)(2).** See **section 509(a)(3).** Check the box in lines 12a through 12d that describes the type of supporting organization and complete lines 12e, 12f, and 12g.

a ☐ **Type I.** A supporting organization operated, supervised, or controlled by its supported organization(s), typically by giving the supported organization(s) the power to regularly appoint or elect a majority of the directors or trustees of the supporting organization. **You must complete Part IV, Sections A and B.**

b ☐ **Type II.** A supporting organization supervised or controlled in connection with its supported organization(s), by having control or management of the supporting organization vested in the same persons that control or manage the supported organization(s). **You must complete Part IV, Sections A and C.**

c ☐ **Type III functionally integrated.** A supporting organization operated in connection with, and functionally integrated with, its supported organization(s) (see instructions). **You must complete Part IV, Sections A, D, and E.**

d ☐ **Type III non-functionally integrated.** A supporting organization operated in connection with its supported organization(s) that is not functionally integrated. The organization generally must satisfy a distribution requirement and an attentiveness requirement (see instructions). **You must complete Part IV, Sections A and D, and Part V.**

e ☐ Check this box if the organization received a written determination from the IRS that it is a Type I, Type II, Type III functionally integrated, or Type III non-functionally integrated supporting organization.

f Enter the number of supported organizations .....

g Provide the following information about the supported organization(s).

(i) Name of supported organization	(ii) EIN	(iii) Type of organization (described on lines 1–10 above (see instructions))	(iv) Is the organization listed in your governing document? Yes	(iv) No	(v) Amount of monetary support (see instructions)	(vi) Amount of other support (see instructions)

Part II **Support Schedule for Organizations Described in Sections 170(b)(1)(A)(iv) and 170(b)(1)(A)(vi)**
(Complete only if you checked the box on line 5, 7, or 8 of Part I or if the organization failed to qualify under Part III. If the organization fails to qualify under the tests listed below, please complete Part III.)

Section A. Public Support

Calendar year (or fiscal year beginning in) u	(a) 2013	(b) 2014	(c) 2015	(d) 2016	(e) 2017	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.")	54,627	255,024	12,072	17,181	62,126	401,030
2 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf						
3 The value of services or facilities furnished by a governmental unit to the organization without charge	205,974	205,118	247,119	502,203	370,929	1,531,343
4 **Total.** Add lines 1 through 3	260,601	460,142	259,191	519,384	433,055	1,932,373
5 The portion of total contributions by each person (other than a governmental unit or publicly supported organization) included on line 1 that exceeds 2% of the amount shown on line 11, column (f)						
6 **Public support.** Subtract line 5 from line 4.						1,932,373

Section B. Total Support

Calendar year (or fiscal year beginning in) u	(a) 2013	(b) 2014	(c) 2015	(d) 2016	(e) 2017	(f) Total
7 Amounts from line 4	260,601	460,142	259,191	519,384	433,055	1,932,373
8 Gross income from interest, dividends, payments received on securities loans, rents, royalties, and income from similar sources	181,592	198,302	246,413	302,343	227,584	1,156,234
9 Net income from unrelated business activities, whether or not the business is regularly carried on						
10 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part VI.)	2,494	1,816	4,862	5,359	7,979	22,510
11 **Total support.** Add lines 7 through 10						3,111,117

12	Gross receipts from related activities, etc. (see instructions)	12	200,639

13 **First five years.** If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and **stop here** ▶ ☐

Section C. Computation of Public Support Percentage

14	Public support percentage for 2017 (line 6, column (f) divided by line 11, column (f))	14	62.11 %
15	Public support percentage from 2016 Schedule A, Part II, line 14	15	64.02 %

16a **33 1/3% support test—2017.** If the organization did not check the box on line 13, and line 14 is 33 1/3% or more, check this box and **stop here.** The organization qualifies as a publicly supported organization ▶ ☒

b **33 1/3% support test—2016.** If the organization did not check a box on line 13 or 16a, and line 15 is 33 1/3% or more, check this box and **stop here.** The organization qualifies as a publicly supported organization ▶ ☐

17a **10%-facts-and-circumstances test—2017.** If the organization did not check a box on line 13, 16a, or 16b, and line 14 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and **stop here.** Explain in Part VI how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization ▶ ☐

b **10%-facts-and-circumstances test—2016.** If the organization did not check a box on line 13, 16a, 16b, or 17a, and line 15 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and **stop here.** Explain in Part VI how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization ▶ ☐

18 **Private foundation.** If the organization did not check a box on line 13, 16a, 16b, 17a, or 17b, check this box and see instructions ▶ ☐

Part III Support Schedule for Organizations Described in Section 509(a)(2)

(Complete only if you checked the box on line 10 of Part I or if the organization failed to qualify under Part II. If the organization fails to qualify under the tests listed below, please complete Part II.)

Section A. Public Support

Calendar year (or fiscal year beginning in) u	(a) 2013	(b) 2014	(c) 2015	(d) 2016	(e) 2017	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.")						
2 Gross receipts from admissions, merchandise sold or services performed, or facilities furnished in any activity that is related to the organization's tax-exempt purpose						
3 Gross receipts from activities that are not an unrelated trade or business under section 513						
4 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf						
5 The value of services or facilities furnished by a governmental unit to the organization without charge						
6 **Total.** Add lines 1 through 5						
7a Amounts included on lines 1, 2, and 3 received from disqualified persons						
b Amounts included on lines 2 and 3 received from other than disqualified persons that exceed the greater of $5,000 or 1% of the amount on line 13 for the year						
c Add lines 7a and 7b						
8 **Public support.** (Subtract line 7c from line 6.)						

Section B. Total Support

Calendar year (or fiscal year beginning in) u	(a) 2013	(b) 2014	(c) 2015	(d) 2016	(e) 2017	(f) Total
9 Amounts from line 6						
10a Gross income from interest, dividends, payments received on securities loans, rents, royalties, and income from similar sources						
b Unrelated business taxable income (less section 511 taxes) from businesses acquired after June 30, 1975						
c Add lines 10a and 10b						
11 Net income from unrelated business activities not included in line 10b, whether or not the business is regularly carried on						
12 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part VI.)						
13 **Total support.** (Add lines 9, 10c, 11, and 12.)						

14 **First five years.** If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and **stop here** ▶ ☐

Section C. Computation of Public Support Percentage

15	Public support percentage for 2017 (line 8, column (f) divided by line 13, column (f))	15	%
16	Public support percentage from 2016 Schedule A, Part III, line 15	16	%

Section D. Computation of Investment Income Percentage

17	Investment income percentage for **2017** (line 10c, column (f) divided by line 13, column (f))	17	%
18	Investment income percentage from **2016** Schedule A, Part III, line 17	18	%

19a **33 1/3% support tests—2017.** If the organization did not check the box on line 14, and line 15 is more than 33 1/3%, and line 17 is not more than 33 1/3%, check this box and **stop here.** The organization qualifies as a publicly supported organization ▶ ☐

b **33 1/3% support tests—2016.** If the organization did not check a box on line 14 or line 19a, and line 16 is more than 33 1/3%, and line 18 is not more than 33 1/3%, check this box and **stop here.** The organization qualifies as a publicly supported organization ▶ ☐

20 **Private foundation.** If the organization did not check a box on line 14, 19a, or 19b, check this box and see instructions ▶ ☐

AMERICAN OVERSIGHT

Part IV Supporting Organizations

(Complete only if you checked a box in line 12 on Part I. If you checked 12a of Part I, complete Sections A and B. If you checked 12b of Part I, complete Sections A and C. If you checked 12c of Part I, complete Sections A, D, and E. If you checked 12d of Part I, complete Sections A and D, and complete Part V.)

Section A. All Supporting Organizations

			Yes	No
1	Are all of the organization's supported organizations listed by name in the organization's governing documents? *If "No," describe in* ***Part VI*** *how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.*	1		
2	Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? *If "Yes," explain in* ***Part VI*** *how the organization determined that the supported organization was described in section 509(a)(1) or (2).*	2		
3a	Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? *If "Yes," answer (b) and (c) below.*	3a		
b	Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? *If "Yes," describe in* ***Part VI*** *when and how the organization made the determination.*	3b		
c	Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? *If "Yes," explain in* ***Part VI*** *what controls the organization put in place to ensure such use.*	3c		
4a	Was any supported organization not organized in the United States ("foreign supported organization")? *If "Yes," and if you checked 12a or 12b in Part I, answer (b) and (c) below.*	4a		
b	Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? *If "Yes," describe in* ***Part VI*** *how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.*	4b		
c	Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? *If "Yes," explain in* ***Part VI*** *what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.*	4c		
5a	Did the organization add, substitute, or remove any supported organizations during the tax year? *If "Yes," answer (b) and (c) below (if applicable). Also, provide detail in* ***Part VI,*** *including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).*	5a		
b	**Type I or Type II only.** Was any added or substituted supported organization part of a class already designated in the organization's organizing document?	5b		
c	**Substitutions only.** Was the substitution the result of an event beyond the organization's control?	5c		
6	Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? *If "Yes," provide detail in* ***Part VI.***	6		
7	Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? *If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).*	7		
8	Did the organization make a loan to a disqualified person (as defined in section 4958) not described in line 7? *If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).*	8		
9a	Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? *If "Yes," provide detail in* ***Part VI.***	9a		
b	Did one or more disqualified persons (as defined in line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? *If "Yes," provide detail in* ***Part VI.***	9b		
c	Did a disqualified person (as defined in line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? *If "Yes," provide detail in* ***Part VI.***	9c		
10a	Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? *If "Yes," answer 10b below.*	10a		
b	Did the organization have any excess business holdings in the tax year? *(Use Schedule C, Form 4720, to determine whether the organization had excess business holdings.)*	10b		

AMERICAN OVERSIGHT

Part IV Supporting Organizations *(continued)*

			Yes	No
11	Has the organization accepted a gift or contribution from any of the following persons?			
a	A person who directly or indirectly controls, either alone or together with persons described in (b) and (c) below, the governing body of a supported organization?	11a		
b	A family member of a person described in (a) above?	11b		
c	A 35% controlled entity of a person described in (a) or (b) above? *If "Yes" to a, b, or c, provide detail in* ***Part VI.***	11c		

Section B. Type I Supporting Organizations

			Yes	No
1	Did the directors, trustees, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's directors or trustees at all times during the tax year? *If "No," describe in* ***Part VI*** *how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove directors or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.*	1		
2	Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? *If "Yes," explain in* ***Part VI*** *how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised, or controlled the supporting organization.*	2		

Section C. Type II Supporting Organizations

			Yes	No
1	Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? *If "No," describe in* ***Part VI*** *how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).*	1		

Section D. All Type III Supporting Organizations

			Yes	No
1	Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?	1		
2	Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? *If "No," explain in* ***Part VI*** *how the organization maintained a close and continuous working relationship with the supported organization(s).*	2		
3	By reason of the relationship described in (2), did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? *If "Yes," describe in* ***Part VI*** *the role the organization's supported organizations played in this regard.*	3		

Section E. Type III Functionally-Integrated Supporting Organizations

1 *Check the box next to the method that the organization used to satisfy the Integral Part Test during the year (****see instructions****).*

a ☐ The organization satisfied the Activities Test. *Complete* ***line 2*** *below.*

b ☐ The organization is the parent of each of its supported organizations. *Complete* ***line 3*** *below.*

c ☐ The organization supported a governmental entity. *Describe in* ***Part VI*** *how you supported a government entity (see instructions).*

			Yes	No
2	Activities Test. ***Answer (a) and (b) below.***			
a	Did substantially all of the organization's activities during the tax year directly further the exempt purposes of the supported organization(s) to which the organization was responsive? *If "Yes," then in* ***Part VI identify those supported organizations and explain*** *how these activities directly furthered their exempt purposes, how the organization was responsive to those supported organizations, and how the organization determined that these activities constituted substantially all of its activities.*	2a		
b	Did the activities described in (a) constitute activities that, but for the organization's involvement, one or more of the organization's supported organization(s) would have been engaged in? *If "Yes," explain in* ***Part VI*** *the reasons for the organization's position that its supported organization(s) would have engaged in these activities but for the organization's involvement.*	2b		
3	Parent of Supported Organizations. ***Answer (a) and (b) below.***			
a	Did the organization have the power to regularly appoint or elect a majority of the officers, directors, or trustees of each of the supported organizations? *Provide details in* ***Part VI.***	3a		
b	Did the organization exercise a substantial degree of direction over the policies, programs, and activities of each of its supported organizations? *If "Yes," describe in* ***Part VI*** *the role played by the organization in this regard.*	3b

Part V Type III Non-Functionally Integrated 509(a)(3) Supporting Organizations

1 ☐ Check here if the organization satisfied the Integral Part Test as a qualifying trust on Nov. 20, 1970 (explain in Part VI). **See instructions.** All other Type III non-functionally integrated supporting organizations must complete Sections A through E.

Section A - Adjusted Net Income		(A) Prior Year	(B) Current Year (optional)
1 Net short-term capital gain	**1**		
2 Recoveries of prior-year distributions	**2**		
3 Other gross income (see instructions)	**3**		
4 Add lines 1 through 3.	**4**		
5 Depreciation and depletion	**5**		
6 Portion of operating expenses paid or incurred for production or collection of gross income or for management, conservation, or maintenance of property held for production of income (see instructions)	**6**		
7 Other expenses (see instructions)	**7**		
8 **Adjusted Net Income** (subtract lines 5, 6 and 7 from line 4).	**8**		

Section B - Minimum Asset Amount		(A) Prior Year	(B) Current Year (optional)
1 Aggregate fair market value of all non-exempt-use assets (see instructions for short tax year or assets held for part of year):			
a Average monthly value of securities	**1a**		
b Average monthly cash balances	**1b**		
c Fair market value of other non-exempt-use assets	**1c**		
d **Total** (add lines 1a, 1b, and 1c)	**1d**		
e **Discount** claimed for blockage or other factors (explain in detail in **Part VI**):			
2 Acquisition indebtedness applicable to non-exempt-use assets	**2**		
3 Subtract line 2 from line 1d.	**3**		
4 Cash deemed held for exempt use. Enter 1-1/2% of line 3 (for greater amount, see instructions).	**4**		
5 Net value of non-exempt-use assets (subtract line 4 from line 3)	**5**		
6 Multiply line 5 by .035.	**6**		
7 Recoveries of prior-year distributions	**7**		
8 **Minimum Asset Amount** (add line 7 to line 6)	**8**		

Section C - Distributable Amount			Current Year
1 Adjusted net income for prior year (from Section A, line 8, Column A)	**1**		
2 Enter 85% of line 1.	**2**		
3 Minimum asset amount for prior year (from Section B, line 8, Column A)	**3**		
4 Enter greater of line 2 or line 3.	**4**		
5 Income tax imposed in prior year	**5**		
6 **Distributable Amount.** Subtract line 5 from line 4, unless subject to emergency temporary reduction (see instructions).	**6**		

7 ☐ Check here if the current year is the organization's first as a non-functionally integrated Type III supporting organization (see instructions).

AMERICAN OVERSIGHT

Part V Type III Non-Functionally Integrated 509(a)(3) Supporting Organizations *(continued)*

Section D - Distributions		Current Year
1	Amounts paid to supported organizations to accomplish exempt purposes	
2	Amounts paid to perform activity that directly furthers exempt purposes of supported organizations, in excess of income from activity	
3	Administrative expenses paid to accomplish exempt purposes of supported organizations	
4	Amounts paid to acquire exempt-use assets	
5	Qualified set-aside amounts (prior IRS approval required)	
6	Other distributions (describe in **Part VI**). See instructions.	
7	**Total annual distributions.** Add lines 1 through 6.	
8	Distributions to attentive supported organizations to which the organization is responsive (provide details in **Part VI**). See instructions.	
9	Distributable amount for 2017 from Section C, line 6	
10	Line 8 amount divided by line 9 amount	

Section E - Distribution Allocations (see instructions)		(i) Excess Distributions	(ii) Underdistributions Pre-2017	(iii) Distributable Amount for 2017
1	Distributable amount for 2017 from Section C, line 6			
2	Underdistributions, if any, for years prior to 2017 (reasonable cause required-explain in **Part VI**). See instructions.			
3	Excess distributions carryover, if any, to 2017:			
a				
b	From 2013			
c	From 2014			
d	From 2015			
e	From 2016			
f	**Total** of lines 3a through e			
g	Applied to underdistributions of prior years			
h	Applied to 2017 distributable amount			
i	Carryover from 2012 not applied (see instructions)			
j	Remainder. Subtract lines 3g, 3h, and 3i from 3f.			
4	Distributions for 2017 from Section D, line 7: $			
a	Applied to underdistributions of prior years			
b	Applied to 2017 distributable amount			
c	Remainder. Subtract lines 4a and 4b from 4.			
5	Remaining underdistributions for years prior to 2017, if any. Subtract lines 3g and 4a from line 2. For result greater than zero, explain in **Part VI**. See instructions.			
6	Remaining underdistributions for 2017. Subtract lines 3h and 4b from line 1. For result greater than zero, explain in **Part VI**. See instructions.			
7	**Excess distributions carryover to 2018.** Add lines 3j and 4c.			
8	Breakdown of line 7:			
a	Excess from 2013			
b	Excess from 2014			
c	Excess from 2015			
d	Excess from 2016			
e	Excess from 2017

OMB No. 1545-0047

2017

Open to Public Inspection

Name of the organization

FRIENDS OF FLORIDA HISTORY, INC.

Employer identification number

59-3753544

Part I Organizations Maintaining Donor Advised Funds or Other Similar Funds or Accounts.

Complete if the organization answered "Yes" on Form 990, Part IV, line 6.

		(a) Donor advised funds	(b) Funds and other accounts
1	Total number at end of year		
2	Aggregate value of contributions to (during year)		
3	Aggregate value of grants from (during year)		
4	Aggregate value at end of year		

5 Did the organization inform all donors and donor advisors in writing that the assets held in donor advised funds are the organization's property, subject to the organization's exclusive legal control? ☐ Yes ☐ No

6 Did the organization inform all grantees, donors, and donor advisors in writing that grant funds can be used only for charitable purposes and not for the benefit of the donor or donor advisor, or for any other purpose conferring impermissible private benefit? ☐ Yes ☐ No

Part II Conservation Easements.

Complete if the organization answered "Yes" on Form 990, Part IV, line 7.

1 Purpose(s) of conservation easements held by the organization (check all that apply).

☐ Preservation of land for public use (e.g., recreation or education)
☐ Protection of natural habitat
☐ Preservation of open space
☐ Preservation of a historically important land area
☐ Preservation of a certified historic structure

2 Complete lines 2a through 2d if the organization held a qualified conservation contribution in the form of a conservation easement on the last day of the tax year.

			Held at the End of the Tax Year
a	Total number of conservation easements	2a	
b	Total acreage restricted by conservation easements	2b	
c	Number of conservation easements on a certified historic structure included in (a)	2c	
d	Number of conservation easements included in (c) acquired after 7/25/06, and not on a historic structure listed in the National Register	2d	

3 Number of conservation easements modified, transferred, released, extinguished, or terminated by the organization during the tax year u

4 Number of states where property subject to conservation easement is located u

5 Does the organization have a written policy regarding the periodic monitoring, inspection, handling of violations, and enforcement of the conservation easements it holds? ☐ Yes ☐ No

6 Staff and volunteer hours devoted to monitoring, inspecting, handling of violations, and enforcing conservation easements during the year u

7 Amount of expenses incurred in monitoring, inspecting, handling of violations, and enforcing conservation easements during the year u $

8 Does each conservation easement reported on line 2(d) above satisfy the requirements of section 170(h)(4)(B)(i) and section 170(h)(4)(B)(ii)? ☐ Yes ☐ No

9 In Part XIII, describe how the organization reports conservation easements in its revenue and expense statement, and balance sheet, and include, if applicable, the text of the footnote to the organization's financial statements that describes the organization's accounting for conservation easements.

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets.

Complete if the organization answered "Yes" on Form 990, Part IV, line 8.

1a If the organization elected, as permitted under SFAS 116 (ASC 958), not to report in its revenue statement and balance sheet works of art, historical treasures, or other similar assets held for public exhibition, education, or research in furtherance of public service, provide, in Part XIII, the text of the footnote to its financial statements that describes these items.

b If the organization elected, as permitted under SFAS 116 (ASC 958), to report in its revenue statement and balance sheet works of art, historical treasures, or other similar assets held for public exhibition, education, or research in furtherance of public service, provide the following amounts relating to these items:

(i) Revenue included on Form 990, Part VIII, line 1 u $
(ii) Assets included in Form 990, Part X u $

2 If the organization received or held works of art, historical treasures, or other similar assets for financial gain, provide the following amounts required to be reported under SFAS 116 (ASC 958) relating to these items:

a Revenue included on Form 990, Part VIII, line 1 u $
b Assets included in Form 990, Part X u $

AMERICAN OVERSIGHT

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets *(continued)*

3 Using the organization's acquisition, accession, and other records, check any of the following that are a significant use of its collection items (check all that apply):

- **a** ☐ Public exhibition
- **b** ☐ Scholarly research
- **c** ☐ Preservation for future generations
- **d** ☐ Loan or exchange programs
- **e** ☐ Other

4 Provide a description of the organization's collections and explain how they further the organization's exempt purpose in Part XIII.

5 During the year, did the organization solicit or receive donations of art, historical treasures, or other similar assets to be sold to raise funds rather than to be maintained as part of the organization's collection? ☐ Yes ☐ No

Part IV Escrow and Custodial Arrangements.

Complete if the organization answered "Yes" on Form 990, Part IV, line 9, or reported an amount on Form 990, Part X, line 21.

1a Is the organization an agent, trustee, custodian or other intermediary for contributions or other assets not included on Form 990, Part X? ☐ Yes ☐ No

b If "Yes," explain the arrangement in Part XIII and complete the following table:

		Amount
c Beginning balance	1c	
d Additions during the year	1d	
e Distributions during the year	1e	
f Ending balance	1f	

2a Did the organization include an amount on Form 990, Part X, line 21, for escrow or custodial account liability? ☐ Yes ☐ No

b If "Yes," explain the arrangement in Part XIII. Check here if the explanation has been provided on Part XIII ☐

Part V Endowment Funds.

Complete if the organization answered "Yes" on Form 990, Part IV, line 10.

	(a) Current year	(b) Prior year	(c) Two years back	(d) Three years back	(e) Four years back
1a Beginning of year balance	2,106,263	2,105,263	2,105,263	1,505,263	1,404,789
b Contributions		1,000		600,000	100,474
c Net investment earnings, gains, and losses					
d Grants or scholarships					
e Other expenditures for facilities and programs					
f Administrative expenses					
g End of year balance	2,106,263	2,106,263	2,105,263	2,105,263	1,505,263

2 Provide the estimated percentage of the current year end balance (line 1g, column (a)) held as:

- **a** Board designated or quasi-endowment u 26.78 %
- **b** Permanent endowment u 73.22 %
- **c** Temporarily restricted endowment u %

The percentages on lines 2a, 2b, and 2c should equal 100%.

3a Are there endowment funds not in the possession of the organization that are held and administered for the organization by:

		Yes	No
(i) unrelated organizations	3a(i)		X
(ii) related organizations	3a(ii)		X
b If "Yes" on line 3a(ii), are the related organizations listed as required on Schedule R?	3b		

4 Describe in Part XIII the intended uses of the organization's endowment funds.

Part VI Land, Buildings, and Equipment.

Complete if the organization answered "Yes" on Form 990, Part IV, line 11a. See Form 990, Part X, line 10.

Description of property	(a) Cost or other basis (investment)	(b) Cost or other basis (other)	(c) Accumulated depreciation	(d) Book value
1a Land				
b Buildings				
c Leasehold improvements				
d Equipment		75,113	35,857	39,256
e Other				
Total. Add lines 1a through 1e. *(Column (d) must equal Form 990, Part X, column (B), line 10c.)* u				39,256

Part VII **Supplemental Information.**
Provide additional information for responses to questions on Schedule R. See Instructions.

SCHEDULE R - ADDITIONAL INFORMATION

NAME OF RELATED ORGANIZATION: FLORIDA DEPARTMENT OF STATE, DIVISION OF HISTORICAL RESOURCES, THE OFFICE OF EXTERNAL AFFAIRS

AMERICAN OVERSIGHT

Form **4562**

Department of the Treasury
Internal Revenue Service (99)

Depreciation and Amortization

(Including Information on Listed Property)

u **Attach to your tax return.**

u **Go to *www.irs.gov/Form4562* for instructions and the latest information.**

OMB No. 1545-0172

2017

Attachment Sequence No. **179**

Name(s) shown on return: **FRIENDS OF FLORIDA HISTORY, INC.**

Identifying number: **59-3753544**

Business or activity to which this form relates: **INDIRECT DEPRECIATION**

Part I Election To Expense Certain Property Under Section 179

Note: If you have any listed property, complete Part V before you complete Part I.

1	Maximum amount (see instructions)	1	510,000
2	Total cost of section 179 property placed in service (see instructions)	2	
3	Threshold cost of section 179 property before reduction in limitation (see instructions)	3	2,030,000
4	Reduction in limitation. Subtract line 3 from line 2. If zero or less, enter -0-	4	
5	Dollar limitation for tax year. Subtract line 4 from line 1. If zero or less, enter -0-. If married filing separately, see instructions	5	

6	(a) Description of property	(b) Cost (business use only)	(c) Elected cost

7	Listed property. Enter the amount from line 29	7	
8	Total elected cost of section 179 property. Add amounts in column (c), lines 6 and 7	8	
9	Tentative deduction. Enter the **smaller** of line 5 or line 8	9	
10	Carryover of disallowed deduction from line 13 of your 2016 Form 4562	10	
11	Business income limitation. Enter the smaller of business income (not less than zero) or line 5 (see instructions)	11	
12	Section 179 expense deduction. Add lines 9 and 10, but don't enter more than line 11	12	
13	Carryover of disallowed deduction to 2018. Add lines 9 and 10, less line 12 ▶	13	

Note: Don't use Part II or Part III below for listed property. Instead, use Part V.

Part II Special Depreciation Allowance and Other Depreciation (Don't include listed property.) (See instructions.)

14	Special depreciation allowance for qualified property (other than listed property) placed in service during the tax year (see instructions)	14	2,006
15	Property subject to section 168(f)(1) election	15	
16	Other depreciation (including ACRS)	16	7,395

Part III MACRS Depreciation (Don't include listed property.) (See instructions.)

Section A

17	MACRS deductions for assets placed in service in tax years beginning before 2017	17	0
18	If you are electing to group any assets placed in service during the tax year into one or more general asset accounts, check here u ☐		

Section B—Assets Placed in Service During 2017 Tax Year Using the General Depreciation System

	(a) Classification of property	(b) Month and year placed in service	(c) Basis for depreciation (business/investment use only–see instructions)	(d) Recovery period	(e) Convention	(f) Method	(g) Depreciation deduction
19a	3-year property						
b	5-year property						
c	7-year property						
d	10-year property						
e	15-year property						
f	20-year property						
g	25-year property			25 yrs.		S/L	
h	Residential rental property			27.5 yrs.	MM	S/L	
				27.5 yrs.	MM	S/L	
i	Nonresidential real property			39 yrs.	MM	S/L	
					MM	S/L	

Section C—Assets Placed in Service During 2017 Tax Year Using the Alternative Depreciation System

20a	Class life					S/L	
b	12-year			12 yrs.		S/L	
c	40-year			40 yrs.	MM	S/L	

Part IV Summary (See instructions.)

21	Listed property. Enter amount from line 28	21	
22	**Total.** Add amounts from line 12, lines 14 through 17, lines 19 and 20 in column (g), and line 21. Enter here and on the appropriate lines of your return. Partnerships and S corporations—see instructions	22	9,401
23	For assets shown above and placed in service during the current year, enter the portion of the basis attributable to section 263A costs	23

Subject: 2019 NCOIL Annual National Meeting Early Bird Rate Closes on October 14

View this email in your browser

Dear NCOIL Participant:

We write today to remind you that registration for the 2019 NCOIL Annual Meeting at the JW Marriott in Austin, TX from December 10th – 13th is now open here. The early bird rate closes on October 14th.

A tentative meeting schedule is posted here.

NCOIL will celebrate its' 50th year at this meeting.

This meeting has been approved for 15.25 credits of Texas CLE.

The Annual Meeting will begin at the conclusion of the NAIC meeting at the same location. Please plan to arrive in time for the Welcome Reception on the evening of December 10th. There will also be an optional tour of the Texas state capitol on that afternoon.

A full day of policy committees and general sessions will start with the busy Welcome Breakfast on December 11th.

If you are attending the NAIC meeting prior to the NCOIL meeting, we kindly ask that you make a hotel reservation beginning on December 10th with the NCOIL hotel code. You can do this by calling the hotel at 512-474-4744. If you have already made your hotel reservations with NAIC, we ask that you call the hotel with your confirmation code to amend them. You will not need to physically check out of the hotel room and will receive one hotel bill at the conclusion of your stay.

The hotel block closes on November 25th. The link for legislators is here - and the link for general participants is here.

Please do not hesitate to reach out to us with any questions at the NCOIL National Office.

Subject: 2020 Legislative Legacies Reunion Dinner
Attachment(s): "HC Legislative Reunion Registration Brochure 2019 Web.pdf"

Dear Senator,

Please join your colleagues for a commemoration of your collective service to the State during the ***2020 Legislative Legacies Reunion Dinner*** on ***Tuesday, February 4, 2020*** at ***6:30 PM*** at the ***FSU Alumni Center***.

Gather during this signature Legislative Reunion program to enjoy the soulful sounds of Baby Grey, historic photos and stories featuring the decades past and present, and a delicious buffet dinner.

To register for the ***2020 Legislative Legacies Reunion Dinner***, please visit the Legislative Reunion Registration Page.

For more information about the entire exciting slate of 2020 Legislative Reunion activities to be held February 3-5, we have attached the complete Legislative Reunion Registration Brochure.

Please do not hesitate to reach out to Historic Capitol staff at 850-487-1902 if you have any questions regarding the program or would like assistance with the registration process.

We hope that you will join us for an evening filled with historic moments!

With warm regards,
The 2020 Legislative Reunion Host Committee

NOON-1:30 PM | $20

Historic Capitol Senate Chamber

Limited to 80 registrants

Panel participants, including former Senate President John McKay and House Speaker Tom Feeney, will share Florida stories about the historic outcome of the 2000 Presidential Election. Before the program, stop by room 118 to view the "butterfly" ballot and voting booth. Do you have any artifacts from Election 2000? Be sure to let Historic Capitol staff know! Fee includes lunch.

Supreme Court Tour

1:45 PM-3:00 PM

Meet at Historic Capitol Visitor Services Desk to walk down to the Supreme Court.

Limited to 20 registrants

Tour the Supreme Court of Florida.

Venues

Be sure to refer to the list below when signing up for events.

CAPITOL COMPLEX
400 South Monroe Street
Tallahassee, FL 32399

DEPARTMENT OF STATE
R.A. Gray Building
500 South Bronough Street
Tallahassee, FL 32399

FLORIDA SUPREME COURT

AMERICAN OVERSIGHT

PARKING AND DIRECTIONS

Because parking can be limited near the Capitol Complex, parking will be available at Governor's Square Mall and you may ride the Legislative Employee Shuttles to the Capitol Complex. Downtown and Governor's Square parking maps are available at www.flhistoriccapitol.gov.

On-street metered parking is available in downtown Tallahassee. Paid parking is also available at the Kleman Plaza Parking Garage, located between College Avenue and Pensacola Street with entrances on Duval or Bronough Streets.

Spouses Tea in the Senate Spouse Lounge

2:00 PM-3:00 PM

Mrs. Galvano invites all former spouses to share in fellowship and fun with the current spouses.
Please RSVP by selecting Spouses Tea during registration.

Reunion Appearance on the Senate Floor

3:30 PM-4:30 PM

Fourth Floor Rotunda
Line up by decade with your fellow former Senators to be honored on the Senate floor.

Legislative Reception hosted by the Honorable John Thrasher

5:30 PM-6:15 PM | $15

FSU President's House
Please park at the FSU Alumni Center adjacent to the FSU President's House. Enter lots via West Tennessee Street entrance.
Limited to 100 registrants
Florida State University President John Thrasher and First Lady Jean Thrasher invite you to the FSU President's House for a reception in honor of your legislative service.

Legislative Legacies Reunion Dinner

6:30 PM-9:00 PM | $65

FSU Alumni Center
Drinks and Dinner Service at 6:30 PM
Program at 7:15 PM
Enjoy the soulful sounds of Baby Gray and share your favorite memories with your classmates. Fee includes beer, wine, and buffet dinner.

WEDNESDAY, FEBRUARY 5

Reunion Appearance on the House Floor

9:00 AM-10:00 AM

Fourth Floor Rotunda
Line up by decade with your fellow former Representatives to be honored on the House floor.

Tour of *Florida Inspired*

10:00 AM-11:00 AM

Meet at Historic Capitol Visitor Services Desk to walk down to Department of State.
Limited to 20 registrants
Explore the Museum of Florida History's newest exhibit featuring more than 125 landscape paintings by 98 different artists from the Risner Fine Art Collection.

Farewell Luncheon and Author Talk

10:30 AM-NOON | $25

The Governor's Club Plantation Room
Limited to 40 registrants
Gather for a fond farewell as former Senate President Mike Haridopolos and Mr. Peter Dunbar discuss their work on *The Modern Republican Party in Florida* (University of Florida Press, 2019). Fee includes lunch.

AMERICAN OVERSIGHT

By Senator Gruters

23-00203-20 2020126__

A bill to be entitled

An act relating to the sales and use tax; amending s. 212.02, F.S.; revising the definition of the term "retail sale"; amending s. 212.05, F.S.; conforming a provision to changes made by the act; amending s. 212.0596, F.S.; renaming the term "mail order sale" to "remote sale" and revising the definition; revising conditions under which certain dealers are subject to sales tax levies and collection; defining the term "making a substantial number of remote sales"; deleting an exemption for certain dealers from collecting local option surtaxes; conforming provisions to changes made by the act; creating s. 212.05965, F.S.; defining terms; providing that certain marketplace providers are subject to registration, collection, and remittance requirements for sales taxes; requiring marketplace providers to provide a certain certification to their marketplace sellers; specifying requirements for marketplace sellers; requiring marketplace providers to allow the Department of Revenue to examine and audit their books and records; specifying the examination and audit authority of the department; providing that a marketplace seller, and not the marketplace provider, is liable for sales tax collection and remittance under certain circumstances; authorizing marketplace providers and marketplace sellers to enter into agreements for the recovery of certain taxes, interest, and penalties; authorizing the department to

AMERICAN OVERSIGHT

FL-SEN-20-0201-B-20-0202-A-000602

settle and compromise taxes, interest, or penalties assessed on sales conducted through a marketplace; providing construction and applicability; amending s. 212.06, F.S.; revising the definition of the term "dealer"; conforming provisions to changes made by the act; amending s. 212.12, F.S.; deleting an exclusion from certain dealers who are allowed a dealer's credit for collecting tax; deleting the authority of the department's executive director to negotiate a collection allowance with certain dealers; conforming a provision to changes made by the act; amending s. 212.18, F.S.; conforming a provision to changes made by the act; reenacting s. 212.20(4), F.S., relating to refunds of taxes adjudicated unconstitutionally collected, to incorporate the amendment made to s. 212.0596, F.S., in a reference thereto; authorizing the department to adopt emergency rules; providing for expiration of the authority; providing for severability; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (e) of subsection (14) of section 212.02, Florida Statutes, is amended to read:

212.02 Definitions.—The following terms and phrases when used in this chapter have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

(14)

AMERICAN OVERSIGHT

(e) The term "retail sale" includes a remote ~~mail order~~ sale~~,~~ as defined in s. 212.0596(1).

Section 2. Effective October 1, 2020, paragraph (f) is added to subsection (14) of section 212.02, Florida Statutes, to read:

212.02 Definitions.—The following terms and phrases when used in this chapter have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

(14)

(f) The term "retail sale" includes a sale facilitated through a marketplace as defined in s. 212.05965(1).

Section 3. Section 212.05, Florida Statutes, is amended to read:

212.05 Sales, storage, use tax.—It is hereby declared to be the legislative intent that every person is exercising a taxable privilege who engages in the business of selling tangible personal property at retail in this state, including the business of making remote ~~mail order~~ sales~~;, or~~ who rents or furnishes any of the things or services taxable under this chapter~~;,~~ or who stores for use or consumption in this state any item or article of tangible personal property as defined herein and who leases or rents such property within the state.

(1) For the exercise of such privilege, a tax is levied on each taxable transaction or incident, which tax is due and payable as follows:

(a)1.a. At the rate of 6 percent of the sales price of each item or article of tangible personal property when sold at retail in this state, computed on each taxable sale for the

AMERICAN OVERSIGHT

purpose of remitting the amount of tax due the state, and including each and every retail sale.

b. Each occasional or isolated sale of an aircraft, boat, mobile home, or motor vehicle of a class or type which is required to be registered, licensed, titled, or documented in this state or by the United States Government shall be subject to tax at the rate provided in this paragraph. The department shall by rule adopt any nationally recognized publication for valuation of used motor vehicles as the reference price list for any used motor vehicle which is required to be licensed pursuant to s. 320.08(1), (2), (3)(a), (b), (c), or (e), or (9). If any party to an occasional or isolated sale of such a vehicle reports to the tax collector a sales price which is less than 80 percent of the average loan price for the specified model and year of such vehicle as listed in the most recent reference price list, the tax levied under this paragraph shall be computed by the department on such average loan price unless the parties to the sale have provided to the tax collector an affidavit signed by each party, or other substantial proof, stating the actual sales price. Any party to such sale who reports a sales price less than the actual sales price is guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083. The department shall collect or attempt to collect from such party any delinquent sales taxes. In addition, such party shall pay any tax due and any penalty and interest assessed plus a penalty equal to twice the amount of the additional tax owed. Notwithstanding any other provision of law, the Department of Revenue may waive or compromise any penalty imposed pursuant to this subparagraph.

AMERICAN OVERSIGHT

2. This paragraph does not apply to the sale of a boat or aircraft by or through a registered dealer under this chapter to a purchaser who, at the time of taking delivery, is a nonresident of this state, does not make his or her permanent place of abode in this state, and is not engaged in carrying on in this state any employment, trade, business, or profession in which the boat or aircraft will be used in this state, or is a corporation none of the officers or directors of which is a resident of, or makes his or her permanent place of abode in, this state, or is a noncorporate entity that has no individual vested with authority to participate in the management, direction, or control of the entity's affairs who is a resident of, or makes his or her permanent abode in, this state. For purposes of this exemption, either a registered dealer acting on his or her own behalf as seller, a registered dealer acting as broker on behalf of a seller, or a registered dealer acting as broker on behalf of the purchaser may be deemed to be the selling dealer. This exemption shall not be allowed unless:

a. The purchaser removes a qualifying boat, as described in sub-subparagraph f., from the state within 90 days after the date of purchase or extension, or the purchaser removes a nonqualifying boat or an aircraft from this state within 10 days after the date of purchase or, when the boat or aircraft is repaired or altered, within 20 days after completion of the repairs or alterations; or if the aircraft will be registered in a foreign jurisdiction and:

(I) Application for the aircraft's registration is properly filed with a civil airworthiness authority of a foreign jurisdiction within 10 days after the date of purchase;

AMERICAN OVERSIGHT

(II) The purchaser removes the aircraft from the state to a foreign jurisdiction within 10 days after the date the aircraft is registered by the applicable foreign airworthiness authority; and

(III) The aircraft is operated in the state solely to remove it from the state to a foreign jurisdiction.

For purposes of this sub-subparagraph, the term "foreign jurisdiction" means any jurisdiction outside of the United States or any of its territories;

b. The purchaser, within 30 days from the date of departure, provides the department with written proof that the purchaser licensed, registered, titled, or documented the boat or aircraft outside the state. If such written proof is unavailable, within 30 days the purchaser shall provide proof that the purchaser applied for such license, title, registration, or documentation. The purchaser shall forward to the department proof of title, license, registration, or documentation upon receipt;

c. The purchaser, within 10 days of removing the boat or aircraft from Florida, furnishes the department with proof of removal in the form of receipts for fuel, dockage, slippage, tie-down, or hangaring from outside of Florida. The information so provided must clearly and specifically identify the boat or aircraft;

d. The selling dealer, within 5 days of the date of sale, provides to the department a copy of the sales invoice, closing statement, bills of sale, and the original affidavit signed by the purchaser attesting that he or she has read the provisions

AMERICAN OVERSIGHT

of this section;

e. The seller makes a copy of the affidavit a part of his or her record for as long as required by s. 213.35; and

f. Unless the nonresident purchaser of a boat of 5 net tons of admeasurement or larger intends to remove the boat from this state within 10 days after the date of purchase or when the boat is repaired or altered, within 20 days after completion of the repairs or alterations, the nonresident purchaser applies to the selling dealer for a decal which authorizes 90 days after the date of purchase for removal of the boat. The nonresident purchaser of a qualifying boat may apply to the selling dealer within 60 days after the date of purchase for an extension decal that authorizes the boat to remain in this state for an additional 90 days, but not more than a total of 180 days, before the nonresident purchaser is required to pay the tax imposed by this chapter. The department is authorized to issue decals in advance to dealers. The number of decals issued in advance to a dealer shall be consistent with the volume of the dealer's past sales of boats which qualify under this sub-subparagraph. The selling dealer or his or her agent shall mark and affix the decals to qualifying boats in the manner prescribed by the department, before delivery of the boat.

(I) The department is hereby authorized to charge dealers a fee sufficient to recover the costs of decals issued, except the extension decal shall cost $425.

(II) The proceeds from the sale of decals will be deposited into the administrative trust fund.

(III) Decals shall display information to identify the boat as a qualifying boat under this sub-subparagraph, including, but

AMERICAN OVERSIGHT

not limited to, the decal's date of expiration.

(IV) The department is authorized to require dealers who purchase decals to file reports with the department and may prescribe all necessary records by rule. All such records are subject to inspection by the department.

(V) Any dealer or his or her agent who issues a decal falsely, fails to affix a decal, mismarks the expiration date of a decal, or fails to properly account for decals will be considered prima facie to have committed a fraudulent act to evade the tax and will be liable for payment of the tax plus a mandatory penalty of 200 percent of the tax, and shall be liable for fine and punishment as provided by law for a conviction of a misdemeanor of the first degree, as provided in s. 775.082 or s. 775.083.

(VI) Any nonresident purchaser of a boat who removes a decal before permanently removing the boat from the state, or defaces, changes, modifies, or alters a decal in a manner affecting its expiration date before its expiration, or who causes or allows the same to be done by another, will be considered prima facie to have committed a fraudulent act to evade the tax and will be liable for payment of the tax plus a mandatory penalty of 200 percent of the tax, and shall be liable for fine and punishment as provided by law for a conviction of a misdemeanor of the first degree, as provided in s. 775.082 or s. 775.083.

(VII) The department is authorized to adopt rules necessary to administer and enforce this subparagraph and to publish the necessary forms and instructions.

(VIII) The department is hereby authorized to adopt

AMERICAN OVERSIGHT

emergency rules pursuant to s. 120.54(4) to administer and enforce the provisions of this subparagraph.

If the purchaser fails to remove the qualifying boat from this state within the maximum 180 days after purchase or a nonqualifying boat or an aircraft from this state within 10 days after purchase or, when the boat or aircraft is repaired or altered, within 20 days after completion of such repairs or alterations, or permits the boat or aircraft to return to this state within 6 months from the date of departure, except as provided in s. 212.08(7)(fff), or if the purchaser fails to furnish the department with any of the documentation required by this subparagraph within the prescribed time period, the purchaser shall be liable for use tax on the cost price of the boat or aircraft and, in addition thereto, payment of a penalty to the Department of Revenue equal to the tax payable. This penalty shall be in lieu of the penalty imposed by s. 212.12(2). The maximum 180-day period following the sale of a qualifying boat tax-exempt to a nonresident may not be tolled for any reason.

(b) At the rate of 6 percent of the cost price of each item or article of tangible personal property when the same is not sold but is used, consumed, distributed, or stored for use or consumption in this state; however, for tangible property originally purchased exempt from tax for use exclusively for lease and which is converted to the owner’s own use, tax may be paid on the fair market value of the property at the time of conversion. If the fair market value of the property cannot be determined, use tax at the time of conversion shall be based on

AMERICAN OVERSIGHT

the owner's acquisition cost. Under no circumstances may the aggregate amount of sales tax from leasing the property and use tax due at the time of conversion be less than the total sales tax that would have been due on the original acquisition cost paid by the owner.

(c) At the rate of 6 percent of the gross proceeds derived from the lease or rental of tangible personal property, as defined herein; however, the following special provisions apply to the lease or rental of motor vehicles:

1. When a motor vehicle is leased or rented for a period of less than 12 months:

a. If the motor vehicle is rented in Florida, the entire amount of such rental is taxable, even if the vehicle is dropped off in another state.

b. If the motor vehicle is rented in another state and dropped off in Florida, the rental is exempt from Florida tax.

2. Except as provided in subparagraph 3., for the lease or rental of a motor vehicle for a period of not less than 12 months, sales tax is due on the lease or rental payments if the vehicle is registered in this state; provided, however, that no tax shall be due if the taxpayer documents use of the motor vehicle outside this state and tax is being paid on the lease or rental payments in another state.

3. The tax imposed by this chapter does not apply to the lease or rental of a commercial motor vehicle as defined in s. 316.003(13)(a) to one lessee or rentee for a period of not less than 12 months when tax was paid on the purchase price of such vehicle by the lessor. To the extent tax was paid with respect to the purchase of such vehicle in another state, territory of

AMERICAN OVERSIGHT

the United States, or the District of Columbia, the Florida tax payable shall be reduced in accordance with the provisions of s. 212.06(7). This subparagraph shall only be available when the lease or rental of such property is an established business or part of an established business or the same is incidental or germane to such business.

(d) At the rate of 6 percent of the lease or rental price paid by a lessee or rentee, or contracted or agreed to be paid by a lessee or rentee, to the owner of the tangible personal property.

(e)1. At the rate of 6 percent on charges for:

a. Prepaid calling arrangements. The tax on charges for prepaid calling arrangements shall be collected at the time of sale and remitted by the selling dealer.

(I) "Prepaid calling arrangement" has the same meaning as provided in s. 202.11.

(II) If the sale or recharge of the prepaid calling arrangement does not take place at the dealer's place of business, it shall be deemed to have taken place at the customer's shipping address or, if no item is shipped, at the customer's address or the location associated with the customer's mobile telephone number.

(III) The sale or recharge of a prepaid calling arrangement shall be treated as a sale of tangible personal property for purposes of this chapter, regardless of whether a tangible item evidencing such arrangement is furnished to the purchaser, and such sale within this state subjects the selling dealer to the jurisdiction of this state for purposes of this subsection.

(IV) No additional tax under this chapter or chapter 202 is

AMERICAN OVERSIGHT

due or payable if a purchaser of a prepaid calling arrangement who has paid tax under this chapter on the sale or recharge of such arrangement applies one or more units of the prepaid calling arrangement to obtain communications services as described in s. 202.11(9)(b)3., other services that are not communications services, or products.

b. The installation of telecommunication and telegraphic equipment.

c. Electrical power or energy, except that the tax rate for charges for electrical power or energy is 4.35 percent. Charges for electrical power and energy do not include taxes imposed under ss. 166.231 and 203.01(1)(a)3.

2. Section 212.17(3), regarding credit for tax paid on charges subsequently found to be worthless, is equally applicable to any tax paid under this section on charges for prepaid calling arrangements, telecommunication or telegraph services, or electric power subsequently found to be uncollectible. As used in this paragraph, the term "charges" does not include any excise or similar tax levied by the Federal Government, a political subdivision of this state, or a municipality upon the purchase, sale, or recharge of prepaid calling arrangements or upon the purchase or sale of telecommunication, television system program, or telegraph service or electric power, which tax is collected by the seller from the purchaser.

(f) At the rate of 6 percent on the sale, rental, use, consumption, or storage for use in this state of machines and equipment, and parts and accessories therefor, used in manufacturing, processing, compounding, producing, mining, or

AMERICAN OVERSIGHT

quarrying personal property for sale or to be used in furnishing communications, transportation, or public utility services.

(g)1. At the rate of 6 percent on the retail price of newspapers and magazines sold or used in Florida.

2. Notwithstanding other provisions of this chapter, inserts of printed materials which are distributed with a newspaper or magazine are a component part of the newspaper or magazine, and neither the sale nor use of such inserts is subject to tax when:

a. Printed by a newspaper or magazine publisher or commercial printer and distributed as a component part of a newspaper or magazine, which means that the items after being printed are delivered directly to a newspaper or magazine publisher by the printer for inclusion in editions of the distributed newspaper or magazine;

b. Such publications are labeled as part of the designated newspaper or magazine publication into which they are to be inserted; and

c. The purchaser of the insert presents a resale certificate to the vendor stating that the inserts are to be distributed as a component part of a newspaper or magazine.

(h)1. A tax is imposed at the rate of 4 percent on the charges for the use of coin-operated amusement machines. The tax shall be calculated by dividing the gross receipts from such charges for the applicable reporting period by a divisor, determined as provided in this subparagraph, to compute gross taxable sales, and then subtracting gross taxable sales from gross receipts to arrive at the amount of tax due. For counties that do not impose a discretionary sales surtax, the divisor is

AMERICAN OVERSIGHT

equal to 1.04; for counties that impose a 0.5 percent discretionary sales surtax, the divisor is equal to 1.045; for counties that impose a 1 percent discretionary sales surtax, the divisor is equal to 1.050; and for counties that impose a 2 percent sales surtax, the divisor is equal to 1.060. If a county imposes a discretionary sales surtax that is not listed in this subparagraph, the department shall make the applicable divisor available in an electronic format or otherwise. Additional divisors shall bear the same mathematical relationship to the next higher and next lower divisors as the new surtax rate bears to the next higher and next lower surtax rates for which divisors have been established. When a machine is activated by a slug, token, coupon, or any similar device which has been purchased, the tax is on the price paid by the user of the device for such device.

2. As used in this paragraph, the term "operator" means any person who possesses a coin-operated amusement machine for the purpose of generating sales through that machine and who is responsible for removing the receipts from the machine.

a. If the owner of the machine is also the operator of it, he or she shall be liable for payment of the tax without any deduction for rent or a license fee paid to a location owner for the use of any real property on which the machine is located.

b. If the owner or lessee of the machine is also its operator, he or she shall be liable for payment of the tax on the purchase or lease of the machine, as well as the tax on sales generated through the machine.

c. If the proprietor of the business where the machine is located does not own the machine, he or she shall be deemed to

AMERICAN OVERSIGHT

be the lessee and operator of the machine and is responsible for the payment of the tax on sales, unless such responsibility is otherwise provided for in a written agreement between him or her and the machine owner.

3.a. An operator of a coin-operated amusement machine may not operate or cause to be operated in this state any such machine until the operator has registered with the department and has conspicuously displayed an identifying certificate issued by the department. The identifying certificate shall be issued by the department upon application from the operator. The identifying certificate shall include a unique number, and the certificate shall be permanently marked with the operator's name, the operator's sales tax number, and the maximum number of machines to be operated under the certificate. An identifying certificate shall not be transferred from one operator to another. The identifying certificate must be conspicuously displayed on the premises where the coin-operated amusement machines are being operated.

b. The operator of the machine must obtain an identifying certificate before the machine is first operated in the state and by July 1 of each year thereafter. The annual fee for each certificate shall be based on the number of machines identified on the application times $30 and is due and payable upon application for the identifying device. The application shall contain the operator's name, sales tax number, business address where the machines are being operated, and the number of machines in operation at that place of business by the operator. No operator may operate more machines than are listed on the certificate. A new certificate is required if more machines are

AMERICAN OVERSIGHT

being operated at that location than are listed on the certificate. The fee for the new certificate shall be based on the number of additional machines identified on the application form times $30.

c. A penalty of $250 per machine is imposed on the operator for failing to properly obtain and display the required identifying certificate. A penalty of $250 is imposed on the lessee of any machine placed in a place of business without a proper current identifying certificate. Such penalties shall apply in addition to all other applicable taxes, interest, and penalties.

d. Operators of coin-operated amusement machines must obtain a separate sales and use tax certificate of registration for each county in which such machines are located. One sales and use tax certificate of registration is sufficient for all of the operator’s machines within a single county.

4. The provisions of this paragraph do not apply to coin-operated amusement machines owned and operated by churches or synagogues.

5. In addition to any other penalties imposed by this chapter, a person who knowingly and willfully violates any provision of this paragraph commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

6. The department may adopt rules necessary to administer the provisions of this paragraph.

(i)1. At the rate of 6 percent on charges for all:

a. Detective, burglar protection, and other protection services (NAICS National Numbers 561611, 561612, 561613, and 561621). Fingerprint services required under s. 790.06 or s.

AMERICAN OVERSIGHT

790.062 are not subject to the tax. Any law enforcement officer, as defined in s. 943.10, who is performing approved duties as determined by his or her local law enforcement agency in his or her capacity as a law enforcement officer, and who is subject to the direct and immediate command of his or her law enforcement agency, and in the law enforcement officer's uniform as authorized by his or her law enforcement agency, is performing law enforcement and public safety services and is not performing detective, burglar protection, or other protective services, if the law enforcement officer is performing his or her approved duties in a geographical area in which the law enforcement officer has arrest jurisdiction. Such law enforcement and public safety services are not subject to tax irrespective of whether the duty is characterized as "extra duty," "off-duty," or "secondary employment," and irrespective of whether the officer is paid directly or through the officer's agency by an outside source. The term "law enforcement officer" includes full-time or part-time law enforcement officers, and any auxiliary law enforcement officer, when such auxiliary law enforcement officer is working under the direct supervision of a full-time or part-time law enforcement officer.

b. Nonresidential cleaning, excluding cleaning of the interiors of transportation equipment, and nonresidential building pest control services (NAICS National Numbers 561710 and 561720).

2. As used in this paragraph, "NAICS" means those classifications contained in the North American Industry Classification System, as published in 2007 by the Office of Management and Budget, Executive Office of the President.

AMERICAN OVERSIGHT

3. Charges for detective, burglar protection, and other protection security services performed in this state but used outside this state are exempt from taxation. Charges for detective, burglar protection, and other protection security services performed outside this state and used in this state are subject to tax.

4. If a transaction involves both the sale or use of a service taxable under this paragraph and the sale or use of a service or any other item not taxable under this chapter, the consideration paid must be separately identified and stated with respect to the taxable and exempt portions of the transaction or the entire transaction shall be presumed taxable. The burden shall be on the seller of the service or the purchaser of the service, whichever applicable, to overcome this presumption by providing documentary evidence as to which portion of the transaction is exempt from tax. The department is authorized to adjust the amount of consideration identified as the taxable and exempt portions of the transaction; however, a determination that the taxable and exempt portions are inaccurately stated and that the adjustment is applicable must be supported by substantial competent evidence.

5. Each seller of services subject to sales tax pursuant to this paragraph shall maintain a monthly log showing each transaction for which sales tax was not collected because the services meet the requirements of subparagraph 3. for out-of-state use. The log must identify the purchaser’s name, location and mailing address, and federal employer identification number, if a business, or the social security number, if an individual, the service sold, the price of the service, the date of sale,

AMERICAN OVERSIGHT

the reason for the exemption, and the sales invoice number. The monthly log shall be maintained pursuant to the same requirements and subject to the same penalties imposed for the keeping of similar records pursuant to this chapter.

(j)1. Notwithstanding any other provision of this chapter, there is hereby levied a tax on the sale, use, consumption, or storage for use in this state of any coin or currency, whether in circulation or not, when such coin or currency:

a. Is not legal tender;

b. If legal tender, is sold, exchanged, or traded at a rate in excess of its face value; or

c. Is sold, exchanged, or traded at a rate based on its precious metal content.

2. Such tax shall be at a rate of 6 percent of the price at which the coin or currency is sold, exchanged, or traded, except that, with respect to a coin or currency which is legal tender of the United States and which is sold, exchanged, or traded, such tax shall not be levied.

3. There are exempt from this tax exchanges of coins or currency which are in general circulation in, and legal tender of, one nation for coins or currency which are in general circulation in, and legal tender of, another nation when exchanged solely for use as legal tender and at an exchange rate based on the relative value of each as a medium of exchange.

4. With respect to any transaction that involves the sale of coins or currency taxable under this paragraph in which the taxable amount represented by the sale of such coins or currency exceeds $500, the entire amount represented by the sale of such coins or currency is exempt from the tax imposed under this

AMERICAN OVERSIGHT

paragraph. The dealer must maintain proper documentation, as prescribed by rule of the department, to identify that portion of a transaction which involves the sale of coins or currency and is exempt under this subparagraph.

(k) At the rate of 6 percent of the sales price of each gallon of diesel fuel not taxed under chapter 206 purchased for use in a vessel, except dyed diesel fuel that is exempt pursuant to s. 212.08(4)(a)4.

(l) Florists located in this state are liable for sales tax on sales to retail customers regardless of where or by whom the items sold are to be delivered. Florists located in this state are not liable for sales tax on payments received from other florists for items delivered to customers in this state.

(m) Operators of game concessions or other concessionaires who customarily award tangible personal property as prizes may, in lieu of paying tax on the cost price of such property, pay tax on 25 percent of the gross receipts from such concession activity.

(2) The tax shall be collected by the dealer, as defined herein, and remitted by the dealer to the state at the time and in the manner as hereinafter provided.

(3) The tax so levied is in addition to all other taxes, whether levied in the form of excise, license, or privilege taxes, and in addition to all other fees and taxes levied.

(4) The tax imposed pursuant to this chapter shall be due and payable according to the brackets set forth in s. 212.12.

(5) Notwithstanding any other provision of this chapter, the maximum amount of tax imposed under this chapter and collected on each sale or use of a boat in this state may not

AMERICAN OVERSIGHT

exceed $18,000 and on each repair of a boat in this state may not exceed $60,000.

Section 4. Section 212.0596, Florida Statutes, is amended to read:

212.0596 Taxation of remote ~~mail order~~ sales.—

(1) For purposes of this chapter, a "remote ~~mail order~~ sale" is a retail sale of tangible personal property~~,~~ ordered by mail, telephone, the Internet, or other means of communication, from a dealer who receives the order outside of this state ~~in another state of the United States, or in a commonwealth, territory, or other area under the jurisdiction of the United States,~~ and transports the property or causes the property to be transported~~, whether or not by mail,~~ from any jurisdiction ~~of the United States~~, including this state, to a person in this state, including the person who ordered the property.

(2) Every dealer as defined in s. 212.06(2)(c) who makes a remote ~~mail order~~ sale is subject to the power of this state to levy and collect the tax imposed by this chapter when any of the following applies:

(a) The dealer is a corporation doing business under the laws of this state or is a person domiciled in, a resident of, or a citizen of~~,~~ this state.~~;~~

(b) The dealer maintains retail establishments or offices in this state, regardless of whether the remote ~~mail order~~ sales thus subject to taxation by this state result from or are related in any other way to the activities of such establishments or offices.~~;~~

(c) The dealer has agents in this state who solicit business or transact business on behalf of the dealer,

AMERICAN OVERSIGHT

regardless of whether the remote ~~mail order~~ sales thus subject to taxation by this state result from or are related in any other way to such solicitation or transaction of business. For purposes of this paragraph, ~~except that~~ a printer who mails or delivers for an out-of-state print purchaser material the printer printed for it is ~~shall~~ not ~~be~~ deemed to be the print purchaser's agent. ~~for purposes of this paragraph;~~

(d) The property was delivered in this state in fulfillment of a sales contract that was entered into in this state, in accordance with applicable conflict of laws rules, when a person in this state accepted an offer by ordering the property.~~;~~

(e) The dealer, by purposefully or systematically exploiting the market provided by this state by any media-assisted, media-facilitated, or media-solicited means, including, but not limited to, direct mail advertising, unsolicited distribution of catalogs, computer-assisted shopping, television, radio, or other electronic media, or magazine or newspaper advertisements or other media, creates nexus with this state.~~;~~

(f) Through compact or reciprocity with another jurisdiction of the United States, that jurisdiction uses its taxing power and its jurisdiction over the retailer in support of this state's taxing power.~~;~~

(g) The dealer consents, expressly or by implication, to the imposition of the tax imposed by this chapter.~~;~~

(h) The dealer is subject to service of process under s. 48.181.~~;~~

(i) The dealer's remote ~~mail order~~ sales are subject to the power of this state to tax sales or to require the dealer to

AMERICAN OVERSIGHT

collect use taxes under a statute or statutes of the United States.~~;~~

(j) The dealer owns real property or tangible personal property that is physically in this state. For purposes of this paragraph, ~~except that~~ a dealer whose only property, ~~(~~including property owned by an affiliate,~~)~~ in this state is located at the premises of a printer with which the vendor has contracted for printing~~,~~ and is either a final printed product, ~~or~~ property that ~~which~~ becomes a part of the final printed product, or property from which the printed product is produced, is not deemed to own such property. ~~for purposes of this paragraph;~~

(k) The dealer, while not having nexus with this state on any of the bases described in paragraphs (a)-(j) or paragraph (l), is a corporation that is a member of an affiliated group of corporations, as defined in s. 1504(a) of the Internal Revenue Code, whose members are includable under s. 1504(b) of the Internal Revenue Code and whose members are eligible to file a consolidated tax return for federal corporate income tax purposes and any parent or subsidiary corporation in the affiliated group has nexus with this state on one or more of the bases described in paragraphs (a)-(j) or paragraph (l).~~; or~~

(l) The dealer or the dealer's activities, ~~have sufficient connection with or relationship to this state or its residents of some type~~ other than those described in paragraphs (a)-(k), result in making a substantial number of remote sales under subsection (3) ~~to create nexus empowering this state to tax its mail order sales or to require the dealer to collect sales tax or accrue use tax~~.

(3)(a) Every person ~~dealer~~ engaged in the business of

AMERICAN OVERSIGHT

making a substantial number of remote ~~mail order~~ sales is a dealer for purposes of this chapter ~~subject to the requirements of this chapter for cooperation of dealers in collection of taxes and in administration of this chapter, except that no fee shall be imposed upon such dealer for carrying out any required activity~~.

(b) As used in this section, the term "making a substantial number of remote sales" means:

1. Conducting 200 or more retail sales of tangible personal property in the previous calendar year to be delivered to a location within this state; or

2. Conducting any number of retail sales of tangible personal property in an amount exceeding $100,000 in the previous calendar year to be delivered to a location within this state.

For purposes of this paragraph, tangible personal property delivered to a location within this state is presumed to be used, consumed, distributed, or stored to be used or consumed in this state.

(4) The department shall, with the consent of another jurisdiction of the United States whose cooperation is needed, enforce this chapter in that jurisdiction, either directly or, at the option of that jurisdiction, through its officers or employees.

(5) The tax required under this section to be collected and any amount unreturned to a purchaser that is not tax but was collected from the purchaser under the representation that it was tax constitute funds of the State of Florida from the moment

AMERICAN OVERSIGHT

of collection.

(6) ~~Notwithstanding other provisions of law, a dealer who makes a mail order sale in this state is exempt from collecting and remitting any local option surtax on the sale, unless the dealer is located in a county that imposes a surtax within the meaning of s. 212.054(3)(a), the order is placed through the dealer's location in such county, and the property purchased is delivered into such county or into another county in this state that levies the surtax, in which case the provisions of s. 212.054(3)(a) are applicable.~~

~~(7)~~ The department may establish by rule procedures for collecting the use tax from unregistered persons who but for their remote ~~mail order~~ purchases would not be required to remit sales or use tax directly to the department. The procedures may provide for waiver of registration, provisions for irregular remittance of tax, elimination of the collection allowance, and nonapplication of local option surtaxes.

Section 5. Effective October 1, 2020, section 212.05965, Florida Statutes, is created to read:

212.05965 Taxation of marketplace sales.—

(1) As used in this section, the term:

(a) "Marketplace" means any physical place or electronic medium through which tangible personal property is offered for sale.

(b) "Marketplace provider" means a person who facilitates a retail sale by a marketplace seller by listing or advertising for sale by the marketplace seller tangible personal property in a marketplace, and who directly, or indirectly through agreements or arrangements with third parties, collects payment

AMERICAN OVERSIGHT

from the customer and transmits the payment to the marketplace seller, regardless of whether the marketplace provider receives compensation or other consideration in exchange for its services.

1. The term does not include a person who solely provides travel agency services. As used in this subparagraph, the term "travel agency services" means arranging, booking, or otherwise facilitating for a commission, fee, or other consideration vacation or travel packages, rental cars, or other travel reservations; tickets for domestic or foreign travel by air, rail, ship, bus, or other mode of transportation; or hotel or other lodging accommodations.

2. The term does not include a person who is a delivery network company unless the delivery network company is a registered dealer for purposes of this chapter and the delivery network company notifies all local merchants that sell through the delivery network company's website or mobile application that the delivery network company is subject to the requirements of a marketplace provider under this section. As used in this subparagraph, the term:

a. "Delivery network company" means a person who maintains a website or mobile application used to facilitate delivery services, the sale of local products, or both.

b. "Delivery network courier" means an individual who provides delivery services through a delivery network company website or mobile application using a personal means of transportation, such as a motor vehicle as defined in s. 320.01(1), bicycle, scooter, or other similar means of transportation; using public transportation; or by walking.

AMERICAN OVERSIGHT

c. "Delivery services" means the pickup and delivery by a delivery network courier of one or more local products from a local merchant to a customer, which may include the selection, collection, and purchase of the local product in connection with the delivery. The term does not include any delivery requiring more than 75 miles of travel from the local merchant to the customer.

d. "Local merchant" means a kitchen, restaurant, or a third-party merchant, including a grocery store, retail store, convenience store, or business of another type, which is not under common ownership or control of the delivery network company.

e. "Local product" means any tangible personal property, including food, but excluding freight, mail, or a package to which postage has been affixed.

(c) "Marketplace seller" means a person who has an agreement with a marketplace provider and who makes retail sales of tangible personal property through a marketplace owned, operated, or controlled by the marketplace provider.

(2) Every marketplace provider that has a physical presence in this state or that is making or facilitating through a marketplace a substantial number of remote sales as defined in s. 212.0596(3)(b) is subject to the requirements imposed by this chapter on dealers for registration and for the collection and remittance of taxes.

(3) A marketplace provider shall certify to its marketplace sellers that it will collect and remit the tax imposed under this chapter on taxable retail sales made through the marketplace. Such certification may be included in the agreement

AMERICAN OVERSIGHT

between the marketplace provider and marketplace seller.

(4)(a) A marketplace seller may not collect and remit the tax under this chapter on a taxable retail sale when the sale is made through the marketplace and the marketplace provider certifies, as required under subsection (3), that it will collect and remit such tax. A marketplace seller shall exclude such sales made through the marketplace from the marketplace seller's tax return under s. 212.11.

(b)1. A marketplace seller that has a physical presence in this state shall register and shall collect and remit the tax imposed under this chapter on all taxable retail sales made outside of the marketplace.

2. A marketplace seller making a substantial number of remote sales as defined in s. 212.0596(3)(b) shall register and shall collect and remit the tax imposed under this chapter on all taxable retail sales made outside of the marketplace. Sales made through the marketplace are not considered for the purposes of determining whether the seller has made a substantial number of remote sales.

(5)(a) A marketplace provider shall allow the department to examine and audit its books and records pursuant to s. 212.13. For retail sales facilitated through a marketplace, the department may not examine or audit the books and records of marketplace sellers, nor may the department assess marketplace sellers except to the extent the marketplace provider seeks relief under paragraph (b). The department may examine, audit, and assess a marketplace seller for retail sales made outside of the marketplace under paragraph (4)(b).

(b) The marketplace provider is relieved of liability for

AMERICAN OVERSIGHT

the tax on the retail sale and the marketplace seller or customer is liable for the tax imposed under this chapter if the marketplace provider demonstrates to the department's satisfaction that the marketplace provider made a reasonable effort to obtain accurate information related to the retail sales facilitated through the marketplace from the marketplace seller, but that the failure to collect and pay the correct amount of tax imposed under this chapter was due to the marketplace seller providing incorrect or incomplete information to the marketplace provider. This paragraph does not apply to a retail sale for which the marketplace provider is the seller if the marketplace provider and marketplace seller are related parties or if transactions between a marketplace seller and marketplace buyer are not conducted at arm's length.

(6) For purposes of registration pursuant to s. 212.18, a marketplace is deemed a separate place of business.

(7) A marketplace provider and marketplace seller may agree by contract or otherwise that if a marketplace provider pays the tax imposed under this chapter on a retail sale facilitated through a marketplace for a marketplace seller as a result of an audit or otherwise, the marketplace provider has the right to recover such tax and any associated interest and penalties from the marketplace seller.

(8) Consistent with s. 213.21, the department may settle and compromise any tax, interest, or penalty assessed on retail sales conducted through a marketplace.

(9) For purposes of this section, the limitations in ss. 213.30(3) and 213.756(2) apply.

(10) This section may not be construed to authorize the

AMERICAN OVERSIGHT

state to collect sales tax from both the marketplace provider and the marketplace seller on the same retail sale.

Section 6. Paragraph (c) of subsection (2) and paragraph (a) of subsection (5) of section 212.06, Florida Statutes, are amended to read:

212.06 Sales, storage, use tax; collectible from dealers; "dealer" defined; dealers to collect from purchasers; legislative intent as to scope of tax.—

(2)

(c) The term "dealer" is further defined to mean every person, as used in this chapter, who sells at retail or who offers for sale at retail, or who has in his or her possession for sale at retail; or for use, consumption, or distribution; or for storage to be used or consumed in this state, tangible personal property as defined herein, including a retailer who transacts a remote ~~mail order~~ sale or who is a marketplace provider under s. 212.05965.

(5)(a)1. Except as provided in subparagraph 2., it is not the intention of this chapter to levy a tax upon tangible personal property imported, produced, or manufactured in this state for export, provided that tangible personal property may not be considered as being imported, produced, or manufactured for export unless the importer, producer, or manufacturer delivers the same to a licensed exporter for exporting or to a common carrier for shipment outside the state or mails the same by United States mail to a destination outside the state; or, in the case of aircraft being exported under their own power to a destination outside the continental limits of the United States, by submission to the department of a duly signed and validated

AMERICAN OVERSIGHT

United States customs declaration, showing the departure of the aircraft from the continental United States; and further with respect to aircraft, the canceled United States registry of said aircraft; or in the case of parts and equipment installed on aircraft of foreign registry, by submission to the department of documentation, the extent of which shall be provided by rule, showing the departure of the aircraft from the continental United States; nor is it the intention of this chapter to levy a tax on any sale which the state is prohibited from taxing under the Constitution or laws of the United States. Every retail sale made to a person physically present at the time of sale shall be presumed to have been delivered in this state.

2.a. Notwithstanding subparagraph 1., a tax is levied on each sale of tangible personal property to be transported to a cooperating state as defined in sub-subparagraph c., at the rate specified in sub-subparagraph d. However, a Florida dealer will be relieved from the requirements of collecting taxes pursuant to this subparagraph if the Florida dealer obtains from the purchaser an affidavit setting forth the purchaser's name, address, state taxpayer identification number, and a statement that the purchaser is aware of his or her state's use tax laws, is a registered dealer in Florida or another state, or is purchasing the tangible personal property for resale or is otherwise not required to pay the tax on the transaction. The department may, by rule, provide a form to be used for the purposes set forth herein.

b. For purposes of this subparagraph, "a cooperating state" is one determined by the executive director of the department to cooperate satisfactorily with this state in collecting taxes on

AMERICAN OVERSIGHT

remote ~~mail order~~ sales. No state shall be so determined unless it meets all the following minimum requirements:

(I) It levies and collects taxes on remote ~~mail order~~ sales of property transported from that state to persons in this state, as described in s. 212.0596, upon request of the department.

(II) The tax so collected shall be at the rate specified in s. 212.05, not including any local option or tourist or convention development taxes collected pursuant to s. 125.0104 or this chapter.

(III) Such state agrees to remit to the department all taxes so collected no later than 30 days from the last day of the calendar quarter following their collection.

(IV) Such state authorizes the department to audit dealers within its jurisdiction who make remote ~~mail order~~ sales that are the subject of s. 212.0596, or makes arrangements deemed adequate by the department for auditing them with its own personnel.

(V) Such state agrees to provide to the department records obtained by it from retailers or dealers in such state showing delivery of tangible personal property into this state upon which no sales or use tax has been paid in a manner similar to that provided in sub-subparagraph g.

c. For purposes of this subparagraph, "sales of tangible personal property to be transported to a cooperating state" means remote ~~mail order~~ sales to a person who is in the cooperating state at the time the order is executed, from a dealer who receives that order in this state.

d. The tax levied by sub-subparagraph a. shall be at the

AMERICAN OVERSIGHT

rate at which such a sale would have been taxed pursuant to the cooperating state's tax laws if consummated in the cooperating state by a dealer and a purchaser, both of whom were physically present in that state at the time of the sale.

e. The tax levied by sub-subparagraph a., when collected, shall be held in the State Treasury in trust for the benefit of the cooperating state and shall be paid to it at a time agreed upon between the department, acting for this state, and the cooperating state or the department or agency designated by it to act for it; however, such payment shall in no event be made later than 30 days from the last day of the calendar quarter after the tax was collected. Funds held in trust for the benefit of a cooperating state shall not be subject to the service charges imposed by s. 215.20.

f. The department is authorized to perform such acts and to provide such cooperation to a cooperating state with reference to the tax levied by sub-subparagraph a. as is required of the cooperating state by sub-subparagraph b.

g. In furtherance of this act, dealers selling tangible personal property for delivery in another state shall make available to the department, upon request of the department, records of all tangible personal property so sold. Such records shall include a description of the property, the name and address of the purchaser, the name and address of the person to whom the property was sent, the purchase price of the property, information regarding whether sales tax was paid in this state on the purchase price, and such other information as the department may by rule prescribe.

Section 7. Paragraph (a) of subsection (1) and paragraph

AMERICAN OVERSIGHT

(a) of subsection (5) of section 212.12, Florida Statutes, are amended to read:

212.12 Dealer's credit for collecting tax; penalties for noncompliance; powers of Department of Revenue in dealing with delinquents; brackets applicable to taxable transactions; records required.—

(1)(a)~~1.~~ Notwithstanding any other law and for the purpose of compensating persons granting licenses for and the lessors of real and personal property taxed hereunder, for the purpose of compensating dealers in tangible personal property, for the purpose of compensating dealers providing communication services and taxable services, for the purpose of compensating owners of places where admissions are collected, and for the purpose of compensating remitters of any taxes or fees reported on the same documents utilized for the sales and use tax, as compensation for the keeping of prescribed records, filing timely tax returns, and the proper accounting and remitting of taxes by them, such seller, person, lessor, dealer, owner, and remitter ~~(except dealers who make mail order sales)~~ who files the return required pursuant to s. 212.11 only by electronic means and who pays the amount due on such return only by electronic means shall be allowed 2.5 percent of the amount of the tax due, accounted for, and remitted to the department in the form of a deduction. However, if the amount of the tax due and remitted to the department by electronic means for the reporting period exceeds $1,200, an allowance is not allowed for all amounts in excess of $1,200. For purposes of this paragraph ~~subparagraph~~, the term "electronic means" has the same meaning as provided in s. 213.755(2)(c).

AMERICAN OVERSIGHT

~~2. The executive director of the department is authorized to negotiate a collection allowance, pursuant to rules promulgated by the department, with a dealer who makes mail order sales. The rules of the department shall provide guidelines for establishing the collection allowance based upon the dealer's estimated costs of collecting the tax, the volume and value of the dealer's mail order sales to purchasers in this state, and the administrative and legal costs and likelihood of achieving collection of the tax absent the cooperation of the dealer. However, in no event shall the collection allowance negotiated by the executive director exceed 10 percent of the tax remitted for a reporting period.~~

(5)(a) The department is authorized to audit or inspect the records and accounts of dealers defined herein, including audits or inspections of dealers who make remote ~~mail order~~ sales ~~to the extent permitted by another state~~, and to correct by credit any overpayment of tax, and, in the event of a deficiency, an assessment shall be made and collected. No administrative finding of fact is necessary prior to the assessment of any tax deficiency.

Section 8. Paragraph (f) of subsection (3) of section 212.18, Florida Statutes, is amended to read:

212.18 Administration of law; registration of dealers; rules.—

(3)

(f) As used in this paragraph, the term "exhibitor" means a person who enters into an agreement authorizing the display of tangible personal property or services at a convention or a trade show. The following provisions apply to the registration

AMERICAN OVERSIGHT

of exhibitors as dealers under this chapter:

1. An exhibitor whose agreement prohibits the sale of tangible personal property or services subject to the tax imposed in this chapter is not required to register as a dealer.

2. An exhibitor whose agreement provides for the sale at wholesale only of tangible personal property or services subject to the tax imposed by this chapter must obtain a resale certificate from the purchasing dealer but is not required to register as a dealer.

3. An exhibitor whose agreement authorizes the retail sale of tangible personal property or services subject to the tax imposed by this chapter must register as a dealer and collect the tax on such sales.

4. An exhibitor who makes a remote ~~mail order~~ sale pursuant to s. 212.0596 must register as a dealer.

A person who conducts a convention or a trade show must make his or her exhibitor's agreements available to the department for inspection and copying.

Section 9. For the purpose of incorporating the amendment made by this act to section 212.0596, Florida Statutes, in a reference thereto, subsection (4) of section 212.20, Florida Statutes, is reenacted to read:

212.20 Funds collected, disposition; additional powers of department; operational expense; refund of taxes adjudicated unconstitutionally collected.—

(4) When there has been a final adjudication that any tax pursuant to s. 212.0596 was levied, collected, or both, contrary to the Constitution of the United States or the State

AMERICAN OVERSIGHT

Constitution, the department shall, in accordance with rules, determine, based upon claims for refund and other evidence and information, who paid such tax or taxes, and refund to each such person the amount of tax paid. For purposes of this subsection, a "final adjudication" is a decision of a court of competent jurisdiction from which no appeal can be taken or from which the official or officials of this state with authority to make such decisions has or have decided not to appeal.

Section 10. (1) The Department of Revenue is authorized, and all conditions are deemed met, to adopt emergency rules pursuant to s. 120.54(4), Florida Statutes, for the purpose of administering this act.

(2) Notwithstanding any other law, emergency rules adopted pursuant to subsection (1) are effective for 6 months after adoption and may be renewed during the pendency of procedures to adopt permanent rules addressing the subject of the emergency rules.

(3) This section shall take effect upon this act becoming a law and expires July 1, 2021.

Section 11. If any provision of this act or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Section 12. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon this act becoming a law, this act shall take effect July 1, 2020.

AMERICAN OVERSIGHT

The Florida Senate
Local Funding Initiative Request
Fiscal Year 2020-2021

Tracking # 10758

1. **Project Title** New College of Florida Multi-Purpose Building

2. **Senate Sponsor** Joe Gruters

3. **Date of Request** 12/02/2019

4. **Project/Program Description**

These funds will provide for the planning and design of new, multi-purpose facilities space to support enrollment growth at New College to 1200 students (approximately a 50% increase in enrollment). This project – the highest priority for New College and the third highest priority for the State University System as well – will provide approximately 107,000 square feet of space to support academic programs (classrooms, labs, auditorium), student development (health & wellness, student life), and administrative support (campus safety, financial affairs).

5. **State Agency to receive requested funds** Board of Governors

State Agency contacted? (•) Yes ( ) No

6. **Amount of the Nonrecurring Request for Fiscal Year 2020-2021**

Type of Funding	Amount
Operations	000
Fixed Capital Outlay	6,000,000
Total State Funds Requested	6,000,000

7. **Total Project Cost for Fiscal Year 2020-2021 (including matching funds available for this project)**

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	6000000	100.0 %
Matching Funds		
Federal	00	0 %
State (excluding the amount of this request)	00	0 %
Local	00	0 %
Other	00	0 %
Total Project Costs for Fiscal Year 2020-2021	6,000,000	100 %

8. **Has this project previously received state funding?** ( ) Yes (•) No

If yes, provide the most recent instance:

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. **Is future-year funding likely to be requested?** (•) Yes ( ) No

If yes, indicate nonrecurring amount per year. 17,400,000

AMERICAN OVERSIGHT

10. **Details on how the requested state funds will be expended**

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		
Other Salary and Benefits		
Expense/Equipment/ Travel/Supplies/Other		
Consultants/Contracted Services/Study		
Operational Costs: Other		
Salary and Benefits

Fixed Capital Construction/Major Renovation:		
Construction/Renovation/ Land/Planning Engineering	Preparation of architectural design, engineering, and per-construction bid documents and permits.	6,000,000
Total State Funds Requested (must equal total from question #6)		6,000,000

AMERICAN OVERSIGHT

11. **Program Performance**

a. What specific purpose or goal will be achieved by the funds requested?

These funds will provide for the planning and design of new, multi-purpose facilities space to support enrollment growth at New College to 1200 students (approximately a 50% increase in enrollment). This project -- the highest priority for New College and the second highest priority for the State University System as well -- will provide approximately 107,000 square feet of space to support academic programs (classrooms, labs, auditorium), student development (health & wellness, student life), and administrative support (campus safety, financial affairs).

b. What activities and services will be provided to meet the intended purpose of these funds?

Preparation of architectural design, engineering, and pre-construction bid documents and permits.

c. What direct services will be provided to citizens by the appropriation project?

The new facilities space will allow New College to grow to 1,200 students and reach an 80% four-year graduation rate. This will result in an extra 100 New College graduates per year, providing critical human capital the state needs. The new facilities will provide space for academic programs (classrooms, labs, auditorium), student development (health & wellness, student life), and administrative support (campus safety, financial affairs).

d. Who is the target population served by this project? How many individuals are expected to be served?

University students (1,200), plus faculty and support staff.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Growing to 1,200 students and reaching an 80% four-year graduation rate will result in an extra 100 New College graduates per year. The 80% graduation rate will propel New College into the premier tier of all public and private liberal arts colleges in the country. Part of increasing the graduation rate focuses on increasing retention. The cost of educating first year undergraduates at NCF who do not begin a second year is estimated to be $1.2 million. Increasing the retention rate to hit hit a 4-year graduation rate of 80% will reduce those costs by more than half.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Withholding state funds.

AMERICAN OVERSIGHT

By renting their homes, Floridians will make $24 million as the Super Bowl comes to town

During last year's Super Bowl, one in four hosts who rented out their homes on Airbnb were doing so for the first time. It's safe to expect more of the same this year, as about 61,000 guests fill rooms in South Florida.

Florida House supports asking voters to repeal state's Constitution Revision Commission

The state House approved a proposal that would ask Florida voters in November to eliminate a powerful panel that placed seven constitutional amendments on the 2018 ballot — all of which passed.

Florida gas prices on the decline after 2020 record high

Gas prices in Florida jumped to a new 2020 high of $2.56 per gallon on Wednesday but have since declined 4 cents.

Human trafficking continues to be a growing problem in Florida

Florida has been known as a hotbed for human trafficking because of the state's economy. Florida's booming agriculture and tourism industries are two industries where trafficking can flourish.

Sysco's FreshPoint Central Florida distribution center to add 150 jobs after doubling size

A produce distribution center south of Orlando has doubled in size and is expected to add 150 jobs by 2029.

AMERICAN OVERSIGHT

From: Brill, Victoria
Sent: Thursday, February 06, 2020 9:49 PM EST
To: Hebrank, Kari B. <KHebrank@carltonfields.com>; Carlos Cruz <cruz@convergegov.com>
Subject: amendmentdraft77275
Attachment(s): "amendmentdraft77275.DOCX"

Hi Kari/Carlos,

Please see the attached draft language for SB 1102. The drafter also recommended the language on lines 13-15 of this draft to mirror the same phrase we use in the bill on line 28.

Please let me know ASAP if this is ok.

Thank you,
Vickie

Vickie Brill, MBA
Senior Legislative Aide
Sen. Joe Gruters, District 23
(941) 378-6309
(850) 487-5023

AMERICAN OVERSIGHT

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Community Affairs (Gruters) recommended the following:

Senate Amendment (with directory and title amendments)

Between lines 17 and 18
insert:

(d) Any person who is not required to obtain registration or certification pursuant to s. 489.105(3)(d)-(o) may perform contracting services for the construction, remodeling, repair, or improvement of single-family residences, including a townhouse as defined in the Florida Building Code, and clubhouses or recreation buildings in a residential development without obtaining a local license if such person is under the

AMERICAN OVERSIGHT

supervision of a certified or registered general, building, or residential contractor. Such ~~As used in this paragraph,~~ supervision does not ~~shall not be deemed to~~ require ~~the existence of~~ a direct contract between the certified or registered general, building, or residential contractor and the person performing specialty contracting services.

====== D I R E C T O R Y C L A U S E A M E N D M E N T ======
And the directory clause is amended as follows:

Delete lines 14 - 15

and insert:

Section 1. Paragraph (d) of subsection (4) of section 489.117, Florida Statutes, is amended, and paragraph (e) is added to that subsection, to read:

================ T I T L E A M E N D M E N T ================
And the title is amended as follows:

Delete line 3

and insert:

amending s. 489.117, F.S.; revising the types of buildings for which individuals who are not required to obtain certain registrations or certifications may perform contracting services without a local license; authorizing certain persons

Michael Bidwell, president of the Arizona Cardinals, will share his game plan for leadership both on and off the field. Away from the front office, Bidwell is Chairman-elect of Greater Phoenix Leadership and past Chairman of the Greater Phoenix Economic Council. He also serves on the boards of the Arizona Commerce Authority, Arizona Super Bowl Host Committee and the Pat Tillman Foundation.

Prepare for the 2020 Legislative Session

In addition to huddling up with an NFL president, this year's NCSL Capitol Forum offers a full agenda that covers the issues that matter the most to your state. Here are just a few can't-miss sessions:

- The State of Redistricting: An Overview
- Arming School Personnel: The Pros and Cons
- It's Go Time for the Census: Counting Down to 2020
- State Actions on Student Loan Oversight: Dollars and Sense
- Supreme Court Preview: Get Briefed on All the Hot Issues

Subject: BALD Details for Tuesday, November 19, 2019
Attachment(s): "BALD Nov 2019 Agenda_Final.pdf","BALD Presentation_11.19.19.pptx","CourthouseProposal.pdf","Parking_SCF Bradenton map 10_2019.pdf"

Good Afternoon,

President Galvano is looking forward to seeing everyone at the Bay Area Legislative Delegation Meeting this Tuesday, November 19. Here are some final details related to parking, the agenda, as well as the electronic versions of the presentations available.

***
Date: Tuesday, November 19, 2019
Time: 9:00 a.m. to Noon
Location: Library and Learning Center at State College of Florida, 5840 26th St W, Bradenton, FL 34207
***

Parking: State College of Florida recommends **Parking Lot H**, located off the 60th Ave. W. entrance of the campus. Parking passes are not required for guests of special events and there are no fees to park on campus. If you need assistance, the SCF Public Safety team will be available to help.

If you have not confirmed your attendance, please do so by the end of the day. To ensure that every delegation member has a seat, we must communicate a final head count to SCF staff by 5:00 p.m. today.

Please feel free to reach out at any time with questions.

Sincerely,

Amanda E. Romant

Legislative Assistant to President Bill Galvano, District 21
1023 Manatee Avenue West
Suite 201
Bradenton, Florida 34205
Office: 941.741.3401
Fax: 888.263.7894

SECOND DISTRICT COURT OF APPEAL SPACE AND LOCATION NEEDS

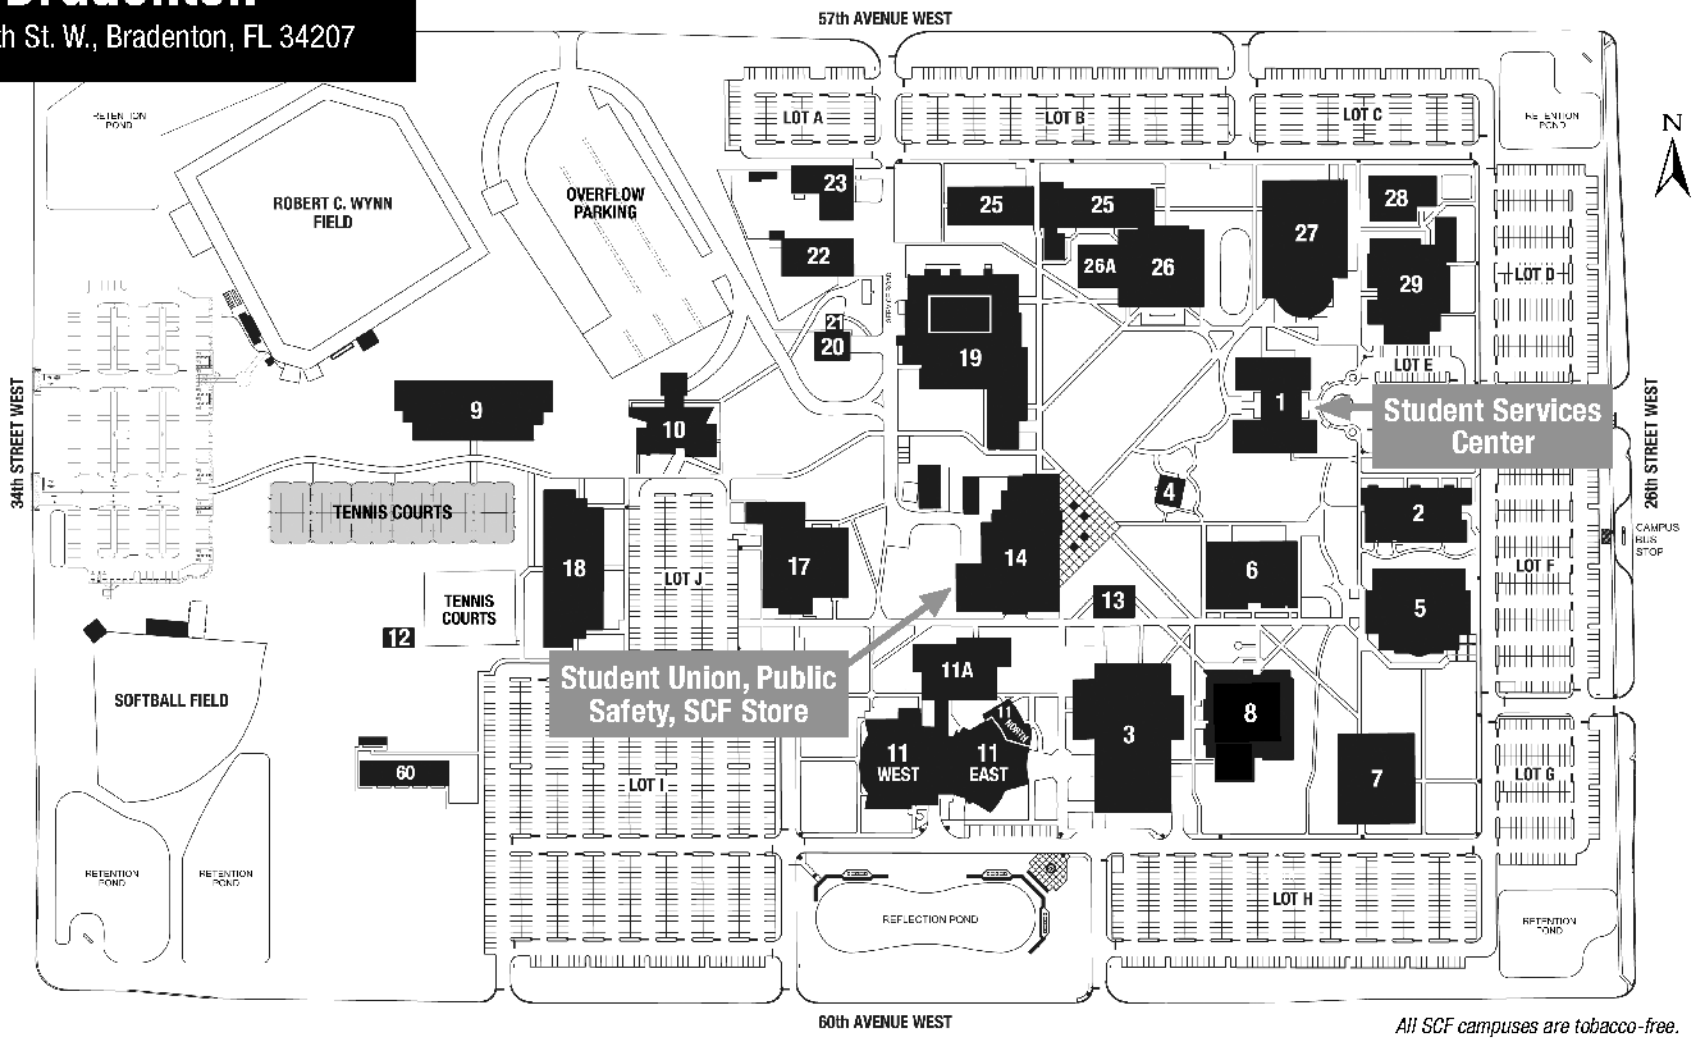
Issue

The Second DCA headquarters is currently located in leased office space in Lakeland, with space for three judges but with no courtroom. The court also occupies leased space in Tampa controlled by Stetson University College of Law. With the Tampa lease expiring in June 2023, the Second DCA is seeking a long-term solution to its Tampa branch space and location needs.

Proposed Solution

- Keep Lakeland as Second DCA's headquarters, pursuant to s. 35.05, F.S.
- Maintain current 13,000-square-foot leased space in Lakeland.
- Secure new Tampa branch leased space for court operations under rent-to-own arrangement with option to buy during the term, an approach the Legislature has used to address other state government building needs.

Considerations



- Current space in Stetson building is 26,500 square feet. Extrapolating from the 2016 space and location needs study commissioned by the Legislature, the Tampa branch location should be approximately 60,000 square feet, which by maintaining the leased space in Lakeland is 13,000 less than would otherwise be needed.
- New Tampa branch facility would be located somewhere within the zone suggested by the previously referenced study. A near-airport or easy-interstate-access location makes more economic and practical sense, but all options will be considered.
- Lease would be rent-to-own over 30 years with option to purchase at any time during the term. It will include a clause that the court can terminate in any year in which the Legislature chooses not to fund the rental payment.
- The space would be designed by the owner/lessor but with court input and will be:
    - Understated from traditional courthouses, as it will be designed to meet the court's needs but also anticipate a subsequent tenant should the court vacate during the term.
    - Designed with a sharp focus on the future and make maximum use of technology for the benefit of the court, lawyers, and parties.
    - Designed as class A space as per DMS requirements.
- Space would be self-contained and free-standing for security purposes.
- Current rent for Stetson space is $678,000 per year. Anticipated rent for new space with adequate square footage is $2.2 million per year, based on a square-foot average of $38-$40 for commercial space in Tampa Bay Area.

SECOND DISTRICT COURT OF APPEAL SPACE AND LOCATION NEEDS

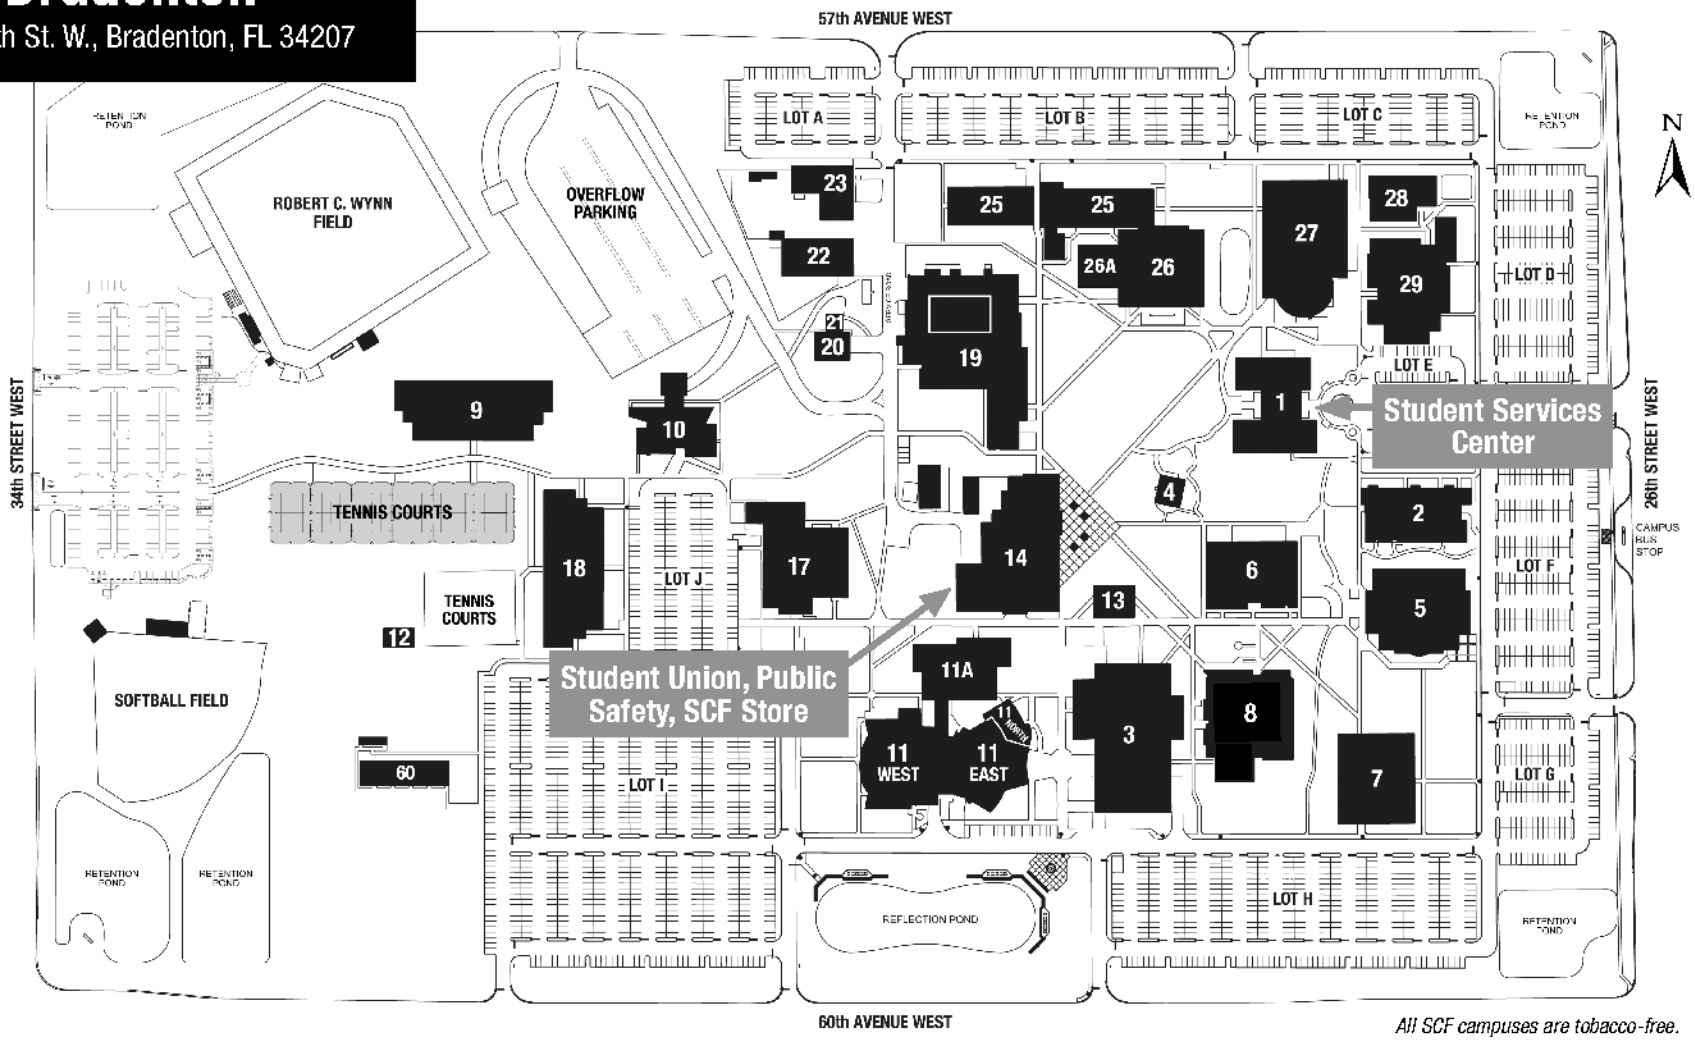
Issue

The Second DCA headquarters is currently located in leased office space in Lakeland, with space for three judges but with no courtroom. The court also occupies leased space in Tampa controlled by Stetson University College of Law. With the Tampa lease expiring in June 2023, the Second DCA is seeking a long-term solution to its Tampa branch space and location needs.

Proposed Solution

- Keep Lakeland as Second DCA's headquarters, pursuant to s. 35.05, F.S.
- Maintain current 13,000-square-foot leased space in Lakeland.
- Secure new Tampa branch leased space for court operations under rent-to-own arrangement with option to buy during the term, an approach the Legislature has used to address other state government building needs.

Considerations



- Current space in Stetson building is 26,500 square feet. Extrapolating from the 2016 space and location needs study commissioned by the Legislature, the Tampa branch location should be approximately 60,000 square feet, which by maintaining the leased space in Lakeland is 13,000 less than would otherwise be needed.
- New Tampa branch facility would be located somewhere within the zone suggested by the previously referenced study. A near-airport or easy-interstate-access location makes more economic and practical sense, but all options will be considered.
- Lease would be rent-to-own over 30 years with option to purchase at any time during the term. It will include a clause that the court can terminate in any year in which the Legislature chooses not to fund the rental payment.
- The space would be designed by the owner/lessor but with court input and will be:
    - Understated from traditional courthouses, as it will be designed to meet the court's needs but also anticipate a subsequent tenant should the court vacate during the term.
    - Designed with a sharp focus on the future and make maximum use of technology for the benefit of the court, lawyers, and parties.
    - Designed as class A space as per DMS requirements.
- Space would be self-contained and free-standing for security purposes.
- Current rent for Stetson space is $678,000 per year. Anticipated rent for new space with adequate square footage is $2.2 million per year, based on a square-foot average of $38-$40 for commercial space in Tampa Bay Area.

12:00 - Program
Location: The Grove - Fever Tree Hall

Attendees will learn about the National Institute of Standards and Technology (NIST) Framework, a comprehensive five-step process that helps businesses prepare for the cyber-attacks threatening your data.

Presented By:
Nathan Bailey, Chief Operating Officer for SouthTech
David Karins, Karins Engineering Group
Jared Hawkins, Atlas Insurance Agency

$40 for GCBX Members

Lunch will be Included.

Click here for Flyer

*It is the policy of GCBX to charge for events if cancellations are not made at least 72 hours prior to the even .

Best regards,
Gulf Coast Builders Exchange

AMERICAN OVERSIGHT

Dear Senator Joe Gruters,
You are invited to the followingevent:

GCBX LUNCH & LEARN: CYBERSECURITY

When: 22 Jan 2020 11:30 AM, EST
Where: Grove- 10670 Boardwalk Loop, Lakewood Ranch, FL 34202

Will you be attending?

Register | Not attending

EVENT DETAILS:

GCBX Lunch & Learn: Cybersecurity

Wednesday, January 22nd
11:30 am – 1:15 pm
11:30 - Registration
12:00 - Program
Location: The Grove - Fever Tree Hall

Attendees will learn about the National Institute of Standards and Technology (NIST) Framework, a comprehensive five-step process that helps businesses prepare for the cyber-attacks threatening your data.

AMERICAN OVERSIGHT

23-01448-20

A bill to be entitled

An act relating to environmental enforcement; amending ss. 161.054, 252.941, 258.397, 258.46, 373.129, 373.209, 373.430, 376.065, 376.071, 376.16, 376.25, 376.302, 377.37, 378.211, 403.086, 403.121, 403.141, 403.161, 403.413, 403.7234, 403.726, 403.727, and 403.93345, F.S.; increasing the civil penalties for violations of certain provisions relating to beach and shore construction, the Accidental Release Prevention Program, the Biscayne Bay Aquatic Preserve, aquatic preserves, the state water resource plan, artesian wells, pollution, operating a terminal facility without discharge prevention and response certificates, discharge contingency plans for vessels, the Pollutant Discharge Prevention and Control Act, the Clean Ocean Act, the pollution of surface and ground waters, the regulation of oil and gas resources, the Phosphate Land Reclamation Act, sewage disposal facilities, pollution control, reasonable costs and expenses for pollution releases, necessary permits, dumping litter, small quantity generators, the abatement of imminent hazards caused by hazardous substances, hazardous waste generators, transporters, or facilities, and coral reef protection, respectively; providing that each day that certain violations are not remediated constitutes a separate offense; making technical changes; reenacting s. 252.940(1)(c), F.S., to incorporate the amendment made to s. 252.941, F.S., in a reference thereto;

AMERICAN OVERSIGHT

reenacting s. 823.11(5), F.S., to incorporate the amendment made to s. 376.16, F.S., in a reference thereto; reenacting s. 376.303(1)(d), F.S., to incorporate the amendment made to s. 376.302, F.S., in a reference thereto; reenacting ss. 403.077(5), 403.131(2), 403.4154(3)(d), and 403.860(5), F.S., to incorporate the amendment made to s. 403.121, F.S., in a reference thereto; reenacting ss. 403.708(10), 403.7191(7), and 403.811, F.S., to incorporate the amendment made to s. 403.141, F.S., in a reference thereto; reenacting s. 403.7255(2), F.S., to incorporate the amendment made to s. 403.161, F.S., in a reference thereto; reenacting s. 403.7186(8), F.S., to incorporate the amendment made to ss. 403.141 and 403.161, F.S., in references thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 161.054, Florida Statutes, is amended to read:

161.054 Administrative fines; liability for damage; liens.—

(1) In addition to the penalties provided for in ss. 161.052, 161.053, and 161.121, any person, firm, corporation, or governmental agency, or agent thereof, refusing to comply with or willfully violating ~~any of the provisions of~~ s. 161.041, s. 161.052, or s. 161.053, or any rule or order prescribed by the department thereunder, shall incur a fine for each offense in an amount up to $15,000 ~~$10,000~~ to be fixed, imposed, and collected

AMERICAN OVERSIGHT

by the department. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 2. Subsection (2) of section 252.941, Florida Statutes, is amended to read:

252.941 Prohibitions, violations, penalties, intent.—

(2) A ~~Any~~ person who willfully violates ~~commits a violation specified in~~ subsection (1) commits ~~is guilty of~~ a misdemeanor of the first degree, punishable as provided in s. 775.083(1)(g) by a fine of not more than $15,000 ~~$10,000~~ for each offense. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 3. Subsection (7) of section 258.397, Florida Statutes, is amended to read:

258.397 Biscayne Bay Aquatic Preserve.—

(7) ENFORCEMENT.—~~The provisions of~~ This section may be enforced in accordance with ~~the provisions of~~ s. 403.412. In addition, the Department of Legal Affairs may ~~is authorized to~~ bring an action for civil penalties of $7,500 ~~$5,000~~ per day against any person, natural or corporate, who violates ~~the provisions of~~ this section or any rule or regulation issued hereunder. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense. Enforcement of applicable state regulations shall be supplemented by the Miami-Dade County Department of Environmental Resources Management through the creation of a full-time enforcement presence along the Miami River.

AMERICAN OVERSIGHT

Section 4. Section 258.46, Florida Statutes, is amended to read:

258.46 Enforcement; violations; penalty.—~~The provisions of~~ This act may be enforced by the Board of Trustees of the Internal Improvement Trust Fund or in accordance with ~~the provisions of~~ s. 403.412. However, any violation by any person, natural or corporate, of ~~the provisions of~~ this act or any rule or regulation issued hereunder is ~~shall be~~ further punishable by a civil penalty of not less than $4,750 ~~$500~~ per day or more than $7,500 ~~$5,000~~ per day of such violation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 5. Subsections (5) and (7) of section 373.129, Florida Statutes, are amended, to read:

373.129 Maintenance of actions.—The department, the governing board of any water management district, any local board, or a local government to which authority has been delegated pursuant to s. 373.103(8), is authorized to commence and maintain proper and necessary actions and proceedings in any court of competent jurisdiction for any of the following purposes:

(5) To recover a civil penalty for each offense in an amount not to exceed $15,000 ~~$10,000~~ per offense. Until a violation is resolved by order or judgment, each date during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(a) A civil penalty recovered by a water management district pursuant to this subsection shall be retained and used

AMERICAN OVERSIGHT

exclusively by the water management district that collected the money. A civil penalty recovered by the department pursuant to this subsection must be deposited into the Water Quality Assurance Trust Fund established under s. 376.307.

(b) A local government that is delegated authority pursuant to s. 373.103(8) may deposit a civil penalty recovered pursuant to this subsection into a local water pollution control program trust fund, notwithstanding ~~the provisions of~~ paragraph (a). However, civil penalties that are deposited in a local water pollution control program trust fund and that are recovered for violations of state water quality standards may be used only to restore water quality in the area that was the subject of the action, and civil penalties that are deposited in a local water pollution control program trust fund and that are recovered for violation of requirements relating to water quantity may be used only to purchase lands and make capital improvements associated with surface water management, or other purposes consistent with the requirements of this chapter for the management and storage of surface water.

(7) To enforce ~~the provisions of~~ part IV of this chapter in the same manner and to the same extent as provided in ss. 373.430, 403.121(1) and (2), 403.131, 403.141, and 403.161.

Section 6. Subsection (3) of section 373.209, Florida Statutes, is amended to read:

373.209 Artesian wells; penalties for violation.—

(3) Any person who violates ~~any provision of~~ this section is ~~shall be~~ subject to either:

(a) The remedial measures provided for in s. 373.436; or

(b) A civil penalty of $150 ~~$100~~ a day for each and every

AMERICAN OVERSIGHT

day of such violation and for each and every act of violation. The civil penalty may be recovered by the water management board of the water management district in which the well is located or by the department in a suit in a court of competent jurisdiction in the county where the defendant resides, in the county of residence of any defendant if there is more than one defendant, or in the county where the violation took place. The place of suit shall be selected by the board or department, and the suit, by direction of the board or department, shall be instituted and conducted in the name of the board or department by appropriate counsel. The payment of any such damages does not impair or abridge any cause of action which any person may have against the person violating ~~any provision of~~ this section.

Section 7. Subsections (2) through (5) of section 373.430, Florida Statutes, are amended to read:

373.430 Prohibitions, violation, penalty, intent.—

(2) A person who ~~Whoever~~ commits a violation specified in subsection (1) is liable for any damage caused and for civil penalties as provided in s. 373.129.

(3) A ~~Any~~ person who willfully violates ~~commits a violation specified in~~ paragraph (1)(a) commits ~~is guilty of~~ a felony of the third degree, punishable as provided in ss. 775.082(3)(e) and 775.083(1)(g), by a fine of not more than $50,000 or by imprisonment for 5 years, or by both, for each offense. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(4) A ~~Any~~ person who violates ~~commits a violation specified in~~ paragraph (1)(a) or paragraph (1)(b) due to reckless

AMERICAN OVERSIGHT

indifference or gross careless disregard commits ~~is guilty of~~ a misdemeanor of the second degree, punishable as provided in ss. 775.082(4)(b) and 775.083(1)(g), by a fine of not more than $10,000 ~~$5,000~~ or 60 days in jail, or by both, for each offense.

(5) A ~~Any~~ person who willfully violates ~~commits a violation specified in~~ paragraph (1)(b) or who violates paragraph (1)(c) commits ~~is guilty of~~ a misdemeanor of the first degree, punishable as provided in ss. 775.082(4)(a) and 775.083(1)(g), by a fine of not more than $10,000 or by 6 months in jail, or by both, for each offense.

Section 8. Paragraphs (a) and (e) of subsection (5) of section 376.065, Florida Statutes, are amended to read:

376.065 Operation of terminal facility without discharge prevention and response certificate prohibited; penalty.—

(5)(a) A person who violates this section or the terms and requirements of such certification commits a noncriminal infraction. The civil penalty for any such infraction shall be $750 ~~$500~~, except as otherwise provided in this section.

(e) A person who elects to appear before the county court or who is required to so appear waives the limitations of the civil penalty specified in paragraph (a). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of the infraction is proved, the court shall impose a civil penalty of $750 ~~$500~~.

Section 9. Paragraphs (a) and (e) of subsection (2) of section 376.071, Florida Statutes, are amended to read:

376.071 Discharge contingency plan for vessels.—

(2)(a) A master of a vessel that violates subsection (1) commits a noncriminal infraction and shall be cited for such

AMERICAN OVERSIGHT

infraction. The civil penalty for such an infraction shall be $7,500 ~~$5,000~~, except as otherwise provided in this subsection.

(e) A person who elects to appear before the county court or who is required to appear waives the limitations of the civil penalty specified in paragraph (a). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of the infraction is proved, the court shall impose a civil penalty of $7,500 ~~$5,000~~.

Section 10. Section 376.16, Florida Statutes, is amended to read:

376.16 Enforcement and penalties.—

(1) It is unlawful for any person to violate ~~any provision of~~ ss. 376.011-376.21 or any rule or order of the department made pursuant to this act. A violation is ~~shall be~~ punishable by a civil penalty of up to $75,000 ~~$50,000~~ per violation per day to be assessed by the department. Until a violation is resolved by order or judgment, each day during any portion of which the violation occurs or is not remediated constitutes a separate offense. The penalty provisions of this subsection do ~~shall~~ not apply to any discharge promptly reported and removed by a person responsible, in accordance with the rules and orders of the department, or to any discharge of pollutants equal to or less than 5 gallons.

(2) In addition to the penalty provisions which may apply under subsection (1), a person responsible for two or more discharges of any pollutant reported pursuant to s. 376.12 within a 12-month period at the same facility commits a noncriminal infraction and shall be cited by the department for such infraction.

AMERICAN OVERSIGHT

(a) For discharges of gasoline or diesel over 5 gallons, the civil penalty for the second discharge shall be $750 ~~$500~~ and the civil penalty for each subsequent discharge within a 12-month period shall be $1,500 ~~$1,000~~, except as otherwise provided in this section.

(b) For discharges of any pollutant other than gasoline or diesel, the civil penalty for a second discharge shall be $3,750 ~~$2,500~~ and the civil penalty for each subsequent discharge within a 12-month period shall be $7,500 ~~$5,000~~, except as otherwise provided in this section.

(3) A person responsible for two or more discharges of any pollutant reported pursuant to s. 376.12 within a 12-month period at the same facility commits a noncriminal infraction and shall be cited by the department for such infraction.

(a) For discharges of gasoline or diesel equal to or less than 5 gallons, the civil penalty shall be $75 ~~$50~~ for each discharge subsequent to the first.

(b) For discharges of pollutants other than gasoline or diesel equal to or less than 5 gallons, the civil penalty shall be $150 ~~$100~~ for each discharge subsequent to the first.

(4) A person charged with a noncriminal infraction pursuant to subsection (2) or subsection (3) may:

(a) Pay the civil penalty;

(b) Post a bond equal to the amount of the applicable civil penalty; or

(c) Sign and accept a citation indicating a promise to appear before the county court.

The department employee authorized to issue these citations may

AMERICAN OVERSIGHT

indicate on the citation the time and location of the scheduled hearing and shall indicate the applicable civil penalty.

(5) Any person who willfully refuses to post bond or accept and sign a citation commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(6) After compliance with paragraph (4)(b) or paragraph (4)(c), any person charged with a noncriminal infraction under subsection (2) or subsection (3) may:

(a) Pay the civil penalty, either by mail or in person, within 30 days after the date of receiving the citation; or

(b) If the person has posted bond, forfeit the bond by not appearing at the designated time and location.

A person cited for an infraction under this section who pays the civil penalty or forfeits the bond has admitted the infraction and waives the right to a hearing on the issue of commission of the infraction. Such admission may not be used as evidence in any other proceeding.

(7) Any person who elects to appear before the county court or who is required to appear waives the limitations of the civil penalties specified in subsection (2). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of an infraction is proved, the court may impose a civil penalty up to, but not exceeding, $750 ~~$500~~ for the second discharge of gasoline or diesel and a civil penalty up to, but not exceeding, $1,500 ~~$1,000~~ for each subsequent discharge of gasoline or diesel within a 12-month period.

(8) Any person who elects to appear before the county court

AMERICAN OVERSIGHT

or who is required to appear waives the limitations of the civil penalties specified in subsection (2) or subsection (3). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of an infraction is proved, the court may impose a civil penalty up to, but not exceeding, $7,500 ~~$5,000~~ for the second discharge of pollutants other than gasoline or diesel and a civil penalty up to, but not exceeding, $15,000 ~~$10,000~~ for each subsequent discharge of pollutants other than gasoline or diesel within a 12-month period.

(9) At a hearing under this section, the commission of a charged offense must be proved by the greater weight of the evidence.

(10) A person who is found by a hearing official to have committed an infraction may appeal that finding to the circuit court.

(11) Any person who has not posted bond and who neither pays the applicable civil penalty, as specified in subsection (2) or subsection (3) within 30 days of receipt of the citation nor appears before the court commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(12) Any person who makes or causes to be made a false statement that which the person does not believe to be true in response to requirements of ~~the provisions of~~ ss. 376.011-376.21 commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 11. Paragraph (a) of subsection (6) of section 376.25, Florida Statutes, is amended to read:

376.25 Gambling vessels; registration; required and

AMERICAN OVERSIGHT

prohibited releases.—

(6) PENALTIES.—

(a) A person who violates this section is subject to a civil penalty of not more than $75,000 ~~$50,000~~ for each violation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 12. Subsections (2) and (3) of section 376.302, Florida Statutes, are amended to read:

376.302 Prohibited acts; penalties.—

(2) Except as provided in s. 376.311, any person who violates ~~commits a violation specified in~~ subsection (1) is liable to the state for any damage caused and for civil penalties as provided in s. 403.141.

(3) Any person who willfully violates ~~commits a violation specified in~~ paragraph (1)(a) or paragraph (1)(b) commits ~~shall be guilty of~~ a misdemeanor of the first degree, punishable as provided in ss. 775.082(4)(a) and 775.083(1)(g), by a fine of not less than $2,500 or more than $25,000, or punishable by 1 year in jail, or by both for each offense. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 13. Paragraph (a) of subsection (1) of section 377.37, Florida Statutes, is amended to read:

377.37 Penalties.—

(1)(a) Any person who violates ~~any provision of~~ this law or any rule, regulation, or order of the division made under this chapter or who violates the terms of any permit to drill for or

AMERICAN OVERSIGHT

produce oil, gas, or other petroleum products referred to in s. 377.242(1) or to store gas in a natural gas storage facility, or any lessee, permitholder, or operator of equipment or facilities used in the exploration for, drilling for, or production of oil, gas, or other petroleum products, or storage of gas in a natural gas storage facility, who refuses inspection by the division as provided in this chapter, is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air, waters, and property, including animal, plant, and aquatic life, of the state. Furthermore, such person, lessee, permitholder, or operator is subject to the judicial imposition of a civil penalty in an amount of not more than $15,000 ~~$10,000~~ for each offense. However, the court may receive evidence in mitigation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense. This section does not ~~Nothing herein shall~~ give the department the right to bring an action on behalf of any private person.

Section 14. Subsection (2) of section 378.211, Florida Statutes, is amended to read:

378.211 Violations; damages; penalties.—

(2) The department may institute a civil action in a court of competent jurisdiction to impose and recover a civil penalty for violation of this part or of any rule adopted or order issued pursuant to this part. The penalty may ~~shall~~ not exceed the following amounts, and the court shall consider evidence in

AMERICAN OVERSIGHT

mitigation:

(a) For violations of a minor or technical nature, $150 ~~$100~~ per violation.

(b) For major violations by an operator on which a penalty has not been imposed under this paragraph during the previous 5 years, $1,500 ~~$1,000~~ per violation.

(c) For major violations not covered by paragraph (b), $7,500 ~~$5,000~~ per violation.

Subject to ~~the provisions of~~ subsection (4), until a violation is resolved by order or judgment, each day or any portion thereof in which the violation continues or is not remediated shall constitute a separate violation.

Section 15. Subsection (2) of section 403.086, Florida Statutes, is amended to read:

403.086 Sewage disposal facilities; advanced and secondary waste treatment.—

(2) Any facilities for sanitary sewage disposal shall provide for secondary waste treatment and, in addition thereto, advanced waste treatment as deemed necessary and ordered by the Department of Environmental Protection. Failure to conform shall be punishable by a civil penalty of $750 ~~$500~~ for each 24-hour day or fraction thereof that such failure is allowed to continue thereafter.

Section 16. Section 403.121, Florida Statutes, is amended to read:

403.121 Enforcement; procedure; remedies.—The department shall have the following judicial and administrative remedies available to it for violations of this chapter, as specified in

AMERICAN OVERSIGHT

s. 403.161(1).

(1) Judicial remedies:

(a) The department may institute a civil action in a court of competent jurisdiction to establish liability and to recover damages for any injury to the air, waters, or property, including animal, plant, and aquatic life, of the state caused by any violation.

(b) The department may institute a civil action in a court of competent jurisdiction to impose and to recover a civil penalty for each violation in an amount of not more than $15,000 ~~$10,000~~ per offense. However, the court may receive evidence in mitigation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(c) Except as provided in paragraph (2)(c), it is ~~shall~~ not ~~be~~ a defense to, or ground for dismissal of, these judicial remedies for damages and civil penalties that the department has failed to exhaust its administrative remedies, has failed to serve a notice of violation, or has failed to hold an administrative hearing prior to the institution of a civil action.

(2) Administrative remedies:

(a) The department may institute an administrative proceeding to establish liability and to recover damages for any injury to the air, waters, or property, including animal, plant, or aquatic life, of the state caused by any violation. The department may order that the violator pay a specified sum as damages to the state. Judgment for the amount of damages determined by the department may be entered in any court having

AMERICAN OVERSIGHT

jurisdiction thereof and may be enforced as any other judgment.

(b) If the department has reason to believe a violation has occurred, it may institute an administrative proceeding to order the prevention, abatement, or control of the conditions creating the violation or other appropriate corrective action. Except for violations involving hazardous wastes, asbestos, or underground injection, the department shall proceed administratively in all cases in which the department seeks administrative penalties that do not exceed $50,000 ~~$10,000~~ per assessment as calculated in accordance with subsections (3), (4), (5), (6), and (7). Pursuant to 42 U.S.C. s. 300g-2, the administrative penalty assessed pursuant to subsection (3), subsection (4), or subsection (5) against a public water system serving a population of more than 10,000 shall be not less than $1,000 per day per violation. The department may ~~shall~~ not impose administrative penalties in excess of $50,000 ~~$10,000~~ in a notice of violation. The department may ~~shall~~ not have more than one notice of violation seeking administrative penalties pending against the same party at the same time unless the violations occurred at a different site or the violations were discovered by the department subsequent to the filing of a previous notice of violation.

(c) An administrative proceeding shall be instituted by the department's serving of a written notice of violation upon the alleged violator by certified mail. If the department is unable to effect service by certified mail, the notice of violation may be hand delivered or personally served in accordance with chapter 48. The notice shall specify the ~~provision of the~~ law, rule, regulation, permit, certification, or order of the

AMERICAN OVERSIGHT

department alleged to be violated and the facts alleged to constitute a violation thereof. An order for corrective action, penalty assessment, or damages may be included with the notice. When the department is seeking to impose an administrative penalty for any violation by issuing a notice of violation, any corrective action needed to correct the violation or damages caused by the violation must be pursued in the notice of violation or they are waived. However, an ~~no~~ order is not ~~shall become~~ effective until after service and an administrative hearing, if requested within 20 days after service. Failure to request an administrative hearing within this time period constitutes ~~shall constitute~~ a waiver thereof, unless the respondent files a written notice with the department within this time period opting out of the administrative process initiated by the department to impose administrative penalties. Any respondent choosing to opt out of the administrative process initiated by the department in an action that seeks the imposition of administrative penalties must file a written notice with the department within 20 days after service of the notice of violation opting out of the administrative process. A respondent's decision to opt out of the administrative process does not preclude the department from initiating a state court action seeking injunctive relief, damages, and the judicial imposition of civil penalties.

(d) If a person timely files a petition challenging a notice of violation, that person will thereafter be referred to as the respondent. The hearing requested by the respondent shall be held within 180 days after the department has referred the initial petition to the Division of Administrative Hearings

AMERICAN OVERSIGHT

unless the parties agree to a later date. The department has the burden of proving with the preponderance of the evidence that the respondent is responsible for the violation. ~~No~~ Administrative penalties should not be imposed unless the department satisfies that burden. Following the close of the hearing, the administrative law judge shall issue a final order on all matters, including the imposition of an administrative penalty. When the department seeks to enforce that portion of a final order imposing administrative penalties pursuant to s. 120.69, the respondent may ~~shall~~ not assert as a defense the inappropriateness of the administrative remedy. The department retains its final-order authority in all administrative actions that do not request the imposition of administrative penalties.

(e) After filing a petition requesting a formal hearing in response to a notice of violation in which the department imposes an administrative penalty, a respondent may request that a private mediator be appointed to mediate the dispute by contacting the Florida Conflict Resolution Consortium within 10 days after receipt of the initial order from the administrative law judge. The Florida Conflict Resolution Consortium shall pay all of the costs of the mediator and for up to 8 hours of the mediator's time per case at $150 per hour. Upon notice from the respondent, the Florida Conflict Resolution Consortium shall provide to the respondent a panel of possible mediators from the area in which the hearing on the petition would be heard. The respondent shall select the mediator and notify the Florida Conflict Resolution Consortium of the selection within 15 days of receipt of the proposed panel of mediators. The Florida Conflict Resolution Consortium shall provide all of the

AMERICAN OVERSIGHT

administrative support for the mediation process. The mediation must be completed at least 15 days before the final hearing date set by the administrative law judge.

(f) In any administrative proceeding brought by the department, the prevailing party shall recover all costs as provided in ss. 57.041 and 57.071. The costs must be included in the final order. The respondent is the prevailing party when an order is entered awarding no penalties to the department and such order has not been reversed on appeal or the time for seeking judicial review has expired. The respondent is ~~shall be~~ entitled to an award of attorney's fees if the administrative law judge determines that the notice of violation issued by the department seeking the imposition of administrative penalties was not substantially justified as defined in s. 57.111(3)(e). An ~~No~~ award of attorney's fees as provided by this subsection may not ~~shall~~ exceed $15,000.

(g) Nothing herein shall be construed as preventing any other legal or administrative action in accordance with law. Nothing in this subsection shall limit the department's authority provided in ss. 403.131, 403.141, and this section to judicially pursue injunctive relief. When the department exercises its authority to judicially pursue injunctive relief, penalties in any amount up to the statutory maximum sought by the department must be pursued as part of the state court action and not by initiating a separate administrative proceeding. The department retains the authority to judicially pursue penalties in excess of $50,000 ~~$10,000~~ for violations not specifically included in the administrative penalty schedule, or for multiple or multiday violations alleged to exceed a total of $50,000

AMERICAN OVERSIGHT

~~$10,000~~. The department also retains the authority provided in ss. 403.131, 403.141, and this section to judicially pursue injunctive relief and damages, if a notice of violation seeking the imposition of administrative penalties has not been issued. The department has the authority to enter into a settlement, either before or after initiating a notice of violation, and the settlement may include a penalty amount different from the administrative penalty schedule. Any case filed in state court because it is alleged to exceed a total of $50,000 ~~$10,000~~ in penalties may be settled in the court action for less than $50,000 ~~$10,000~~.

(h) Chapter 120 applies ~~shall apply~~ to any administrative action taken by the department or any delegated program pursuing administrative penalties in accordance with this section.

(3) Except for violations involving hazardous wastes, asbestos, or underground injection, administrative penalties must be calculated according to the following schedule:

(a) For a drinking water contamination violation, the department shall assess a penalty of $3,000 ~~$2,000~~ for a Maximum Containment Level (MCL) violation; plus $1,500 ~~$1,000~~ if the violation is for a primary inorganic, organic, or radiological Maximum Contaminant Level or it is a fecal coliform bacteria violation; plus $1,500 ~~$1,000~~ if the violation occurs at a community water system; and plus $1,500 ~~$1,000~~ if any Maximum Contaminant Level is exceeded by more than 100 percent. For failure to obtain a clearance letter prior to placing a drinking water system into service when the system would not have been eligible for clearance, the department shall assess a penalty of $4,500 ~~$3,000~~.

AMERICAN OVERSIGHT

(b) For failure to obtain a required wastewater permit, other than a permit required for surface water discharge, the department shall assess a penalty of $1,500 ~~$1,000~~. For a domestic or industrial wastewater violation not involving a surface water or groundwater quality violation, the department shall assess a penalty of $3,000 ~~$2,000~~ for an unpermitted or unauthorized discharge or effluent-limitation exceedance. For an unpermitted or unauthorized discharge or effluent-limitation exceedance that resulted in a surface water or groundwater quality violation, the department shall assess a penalty of $7,500 ~~$5,000~~.

(c) For a dredge and fill or stormwater violation, the department shall assess a penalty of $1,500 ~~$1,000~~ for unpermitted or unauthorized dredging or filling or unauthorized construction of a stormwater management system against the person or persons responsible for the illegal dredging or filling, or unauthorized construction of a stormwater management system plus $3,000 ~~$2,000~~ if the dredging or filling occurs in an aquatic preserve, an Outstanding Florida Water, a conservation easement, or a Class I or Class II surface water, plus $1,500 ~~$1,000~~ if the area dredged or filled is greater than one-quarter acre but less than or equal to one-half acre, and plus $1,500 ~~$1,000~~ if the area dredged or filled is greater than one-half acre but less than or equal to one acre. The administrative penalty schedule does ~~shall~~ not apply to a dredge and fill violation if the area dredged or filled exceeds one acre. The department retains the authority to seek the judicial imposition of civil penalties for all dredge and fill violations involving more than one acre. The department shall assess a

AMERICAN OVERSIGHT

penalty of $4,500 ~~$3,000~~ for the failure to complete required mitigation, failure to record a required conservation easement, or for a water quality violation resulting from dredging or filling activities, stormwater construction activities or failure of a stormwater treatment facility. For stormwater management systems serving less than 5 acres, the department shall assess a penalty of $3,000 ~~$2,000~~ for the failure to properly or timely construct a stormwater management system. In addition to the penalties authorized in this subsection, the department shall assess a penalty of $7,500 ~~$5,000~~ per violation against the contractor or agent of the owner or tenant that conducts unpermitted or unauthorized dredging or filling. For purposes of this paragraph, the preparation or signing of a permit application by a person currently licensed under chapter 471 to practice as a professional engineer does ~~shall~~ not make that person an agent of the owner or tenant.

(d) For mangrove trimming or alteration violations, the department shall assess a penalty of $7,500 ~~$5,000~~ per violation against the contractor or agent of the owner or tenant that conducts mangrove trimming or alteration without a permit as required by s. 403.9328. For purposes of this paragraph, the preparation or signing of a permit application by a person currently licensed under chapter 471 to practice as a professional engineer does ~~shall~~ not make that person an agent of the owner or tenant.

(e) For solid waste violations, the department shall assess a penalty of $3,000 ~~$2,000~~ for the unpermitted or unauthorized disposal or storage of solid waste; plus $1,000 if the solid waste is Class I or Class III (excluding yard trash) or if the

AMERICAN OVERSIGHT

solid waste is construction and demolition debris in excess of 20 cubic yards, plus $1,500 ~~$1,000~~ if the waste is disposed of or stored in any natural or artificial body of water or within 500 feet of a potable water well, plus $1,500 ~~$1,000~~ if the waste contains PCB at a concentration of 50 parts per million or greater; untreated biomedical waste; friable asbestos greater than 1 cubic meter which is not wetted, bagged, and covered; used oil greater than 25 gallons; or 10 or more lead acid batteries. The department shall assess a penalty of $4,500 ~~$3,000~~ for failure to properly maintain leachate control; unauthorized burning; failure to have a trained spotter on duty at the working face when accepting waste; or failure to provide access control for three consecutive inspections. The department shall assess a penalty of $3,000 ~~$2,000~~ for failure to construct or maintain a required stormwater management system.

(f) For an air emission violation, the department shall assess a penalty of $1,500 ~~$1,000~~ for an unpermitted or unauthorized air emission or an air-emission-permit exceedance, ~~plus $1,000 if the emission results in an air quality violation,~~ plus $4,500 ~~$3,000~~ if the emission was from a major source and the source was major for the pollutant in violation; plus $1,500 ~~$1,000~~ if the emission was more than 150 percent of the allowable level.

(g) For storage tank system and petroleum contamination violations, the department shall assess a penalty of $7,500 ~~$5,000~~ for failure to empty a damaged storage system as necessary to ensure that a release does not occur until repairs to the storage system are completed; when a release has occurred from that storage tank system; for failure to timely recover

AMERICAN OVERSIGHT

free product; or for failure to conduct remediation or monitoring activities until a no-further-action or site-rehabilitation completion order has been issued. The department shall assess a penalty of $4,500 ~~$3,000~~ for failure to timely upgrade a storage tank system. The department shall assess a penalty of $3,000 ~~$2,000~~ for failure to conduct or maintain required release detection; failure to timely investigate a suspected release from a storage system; depositing motor fuel into an unregistered storage tank system; failure to timely assess or remediate petroleum contamination; or failure to properly install a storage tank system. The department shall assess a penalty of $1,500 ~~$1,000~~ for failure to properly operate, maintain, or close a storage tank system.

(4) In an administrative proceeding, in addition to the penalties that may be assessed under subsection (3), the department shall assess administrative penalties according to the following schedule:

(a) For failure to satisfy financial responsibility requirements or for violation of s. 377.371(1), $7,500 ~~$5,000~~.

(b) For failure to install, maintain, or use a required pollution control system or device, $6,000 ~~$4,000~~.

(c) For failure to obtain a required permit before construction or modification, $4,500 ~~$3,000~~.

(d) For failure to conduct required monitoring or testing; failure to conduct required release detection; or failure to construct in compliance with a permit, $3,000 ~~$2,000~~.

(e) For failure to maintain required staff to respond to emergencies; failure to conduct required training; failure to prepare, maintain, or update required contingency plans; failure

AMERICAN OVERSIGHT

to adequately respond to emergencies to bring an emergency situation under control; or failure to submit required notification to the department, $1,500 ~~$1,000~~.

(f) Except as provided in subsection (2) with respect to public water systems serving a population of more than 10,000, for failure to prepare, submit, maintain, or use required reports or other required documentation, $750 ~~$500~~.

(5) Except as provided in subsection (2) with respect to public water systems serving a population of more than 10,000, for failure to comply with any other departmental regulatory statute or rule requirement not otherwise identified in this section, the department may assess a penalty of $1,000 ~~$500~~.

(6) For each additional day during which a violation occurs, the administrative penalties in subsections ~~subsection~~ (3), ~~subsection~~ (4), and ~~subsection~~ (5) may be assessed per day per violation.

(7) The history of noncompliance of the violator for any previous violation resulting in an executed consent order, but not including a consent order entered into without a finding of violation, or resulting in a final order or judgment after the effective date of this law involving the imposition of $3,000 ~~$2,000~~ or more in penalties shall be taken into consideration in the following manner:

(a) One previous such violation within 5 years prior to the filing of the notice of violation will result in a 25-percent per day increase in the scheduled administrative penalty.

(b) Two previous such violations within 5 years prior to the filing of the notice of violation will result in a 50-percent per day increase in the scheduled administrative

AMERICAN OVERSIGHT

penalty.

(c) Three or more previous such violations within 5 years prior to the filing of the notice of violation will result in a 100-percent per day increase in the scheduled administrative penalty.

(8) The direct economic benefit gained by the violator from the violation, where consideration of economic benefit is provided by Florida law or required by federal law as part of a federally delegated or approved program, shall be added to the scheduled administrative penalty. The total administrative penalty, including any economic benefit added to the scheduled administrative penalty, may ~~shall~~ not exceed $15,000 ~~$10,000~~.

(9) The administrative penalties assessed for any particular violation may ~~shall~~ not exceed $7,500 ~~$5,000~~ against any one violator, unless the violator has a history of noncompliance, the economic benefit of the violation as described in subsection (8) exceeds $7,500 ~~$5,000~~, or there are multiday violations. The total administrative penalties may ~~shall~~ not exceed $50,000 ~~$10,000~~ per assessment for all violations attributable to a specific person in the notice of violation.

(10) The administrative law judge may receive evidence in mitigation. The penalties identified in subsections ~~subsection~~ (3), ~~subsection~~ (4), and ~~subsection~~ (5) may be reduced up to 50 percent by the administrative law judge for mitigating circumstances, including good faith efforts to comply prior to or after discovery of the violations by the department. Upon an affirmative finding that the violation was caused by circumstances beyond the reasonable control of the respondent

AMERICAN OVERSIGHT

and could not have been prevented by respondent's due diligence, the administrative law judge may further reduce the penalty.

(11) Penalties collected pursuant to this section shall be deposited into the Water Quality Assurance Trust Fund or other trust fund designated by statute and shall be used to fund the restoration of ecosystems, or polluted areas of the state, as defined by the department, to their condition before pollution occurred. The Florida Conflict Resolution Consortium may use a portion of the fund to administer the mediation process provided in paragraph (2)(e) and to contract with private mediators for administrative penalty cases.

(12) The purpose of the administrative penalty schedule and process is to provide a more predictable and efficient manner for individuals and businesses to resolve relatively minor environmental disputes. Subsections (3)-(7) may ~~Subsection (3), subsection (4), subsection (5), subsection (6), or subsection (7) shall~~ not be construed as limiting a state court in the assessment of damages. The administrative penalty schedule does not apply to the judicial imposition of civil penalties in state court as provided in this section.

Section 17. Subsection (1) of section 403.141, Florida Statutes, is amended to read:

403.141 Civil liability; joint and several liability.—

(1) Whoever violates ~~commits a violation specified in~~ s. 403.161(1) is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air,

AMERICAN OVERSIGHT

waters, and property, including animal, plant, and aquatic life, of the state to their former condition, and furthermore is subject to the judicial imposition of a civil penalty for each offense in an amount of not more than $15,000 ~~$10,000~~ per offense. However, the court may receive evidence in mitigation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense. Nothing herein gives ~~shall give~~ the department the right to bring an action on behalf of any private person.

Section 18. Subsections (2) through (5) of section 403.161, Florida Statutes, are amended to read:

403.161 Prohibitions, violation, penalty, intent.—

(2) A person who violates ~~Whoever commits a violation specified in~~ subsection (1) is liable to the state for any damage caused and for civil penalties as provided in s. 403.141.

(3) A ~~Any~~ person who willfully violates ~~commits a violation specified in~~ paragraph (1)(a) commits ~~is guilty of~~ a felony of the third degree, punishable as provided in ss. 775.082(3)(e) and 775.083(1)(g) by a fine of not more than $50,000 or by imprisonment for 5 years, or by both, for each offense. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(4) A ~~Any~~ person who violates ~~commits a violation specified in~~ paragraph (1)(a) or paragraph (1)(b) due to reckless indifference or gross careless disregard commits ~~is guilty of~~ a misdemeanor of the second degree, punishable as provided in ss. 775.082(4)(b) and 775.083(1)(g) by a fine of not more than

AMERICAN OVERSIGHT

$10,000 ~~$5,000~~ or by 60 days in jail, or by both, for each offense.

(5) A ~~Any~~ person who willfully violates ~~commits a violation specified in~~ paragraph (1)(b) or who violates paragraph (1)(c) commits ~~is guilty of~~ a misdemeanor of the first degree punishable as provided in ss. 775.082(4)(a) and 775.083(1)(g) by a fine of not more than $10,000 or by 6 months in jail, or by both for each offense.

Section 19. Paragraph (a) of subsection (6) of section 403.413, Florida Statutes, is amended to read:

403.413 Florida Litter Law.—

(6) PENALTIES; ENFORCEMENT.—

(a) Any person who dumps litter in violation of subsection (4) in an amount not exceeding 15 pounds in weight or 27 cubic feet in volume and not for commercial purposes commits ~~is guilty of~~ a noncriminal infraction, punishable by a civil penalty of $150 ~~$100~~, from which $50 shall be deposited into the Solid Waste Management Trust Fund to be used for the solid waste management grant program pursuant to s. 403.7095. In addition, the court may require the violator to pick up litter or perform other labor commensurate with the offense committed.

Section 20. Subsection (5) of section 403.7234, Florida Statutes, is amended to read:

403.7234 Small quantity generator notification and verification program.—

(5) Any small quantity generator who does not comply with the requirements of subsection (4) and who has received a notification and survey in person or through one certified letter from the county is subject to a fine of between $75 ~~$50~~

AMERICAN OVERSIGHT

and $150 ~~$100~~ per day for a maximum of 100 days. The county may collect such fines and deposit them in its general revenue fund. Fines collected by the county shall be used to carry out the notification and verification procedure established in this section. If there are excess funds after the notification and verification procedures have been completed, such funds shall be used for hazardous and solid waste management purposes only.

Section 21. Subsection (3) of section 403.726, Florida Statutes, is amended to read:

403.726 Abatement of imminent hazard caused by hazardous substance.—

(3) An imminent hazard exists if any hazardous substance creates an immediate and substantial danger to human health, safety, or welfare or to the environment. The department may institute action in its own name, using the procedures and remedies of s. 403.121 or s. 403.131, to abate an imminent hazard. However, the department is authorized to recover a civil penalty of not more than $37,500 ~~$25,000~~ for each day until a ~~of continued~~ violation is resolved by order or judgment. Whenever serious harm to human health, safety, and welfare; the environment; or private or public property may occur prior to completion of an administrative hearing or other formal proceeding that which might be initiated to abate the risk of serious harm, the department may obtain, ex parte, an injunction without paying filing and service fees prior to the filing and service of process.

Section 22. Paragraph (a) of subsection (3) of section 403.727, Florida Statutes, is amended to read:

403.727 Violations; defenses, penalties, and remedies.—

AMERICAN OVERSIGHT

(3) Violations of the provisions of this act are punishable as follows:

(a) Any person who violates ~~the provisions of~~ this act, the rules or orders of the department, or the conditions of a permit is liable to the state for any damages specified in s. 403.141 and for a civil penalty of not more than $75,000 ~~$50,000~~ for each day of continued violation or until a violation is resolved by order or judgment, except as otherwise provided herein. The department may revoke any permit issued to the violator. In any action by the department against a small hazardous waste generator for the improper disposal of hazardous wastes, a rebuttable presumption of improper disposal shall be created if the generator was notified pursuant to s. 403.7234; the generator shall then have the burden of proving that the disposal was proper. If the generator was not so notified, the burden of proving improper disposal shall be placed upon the department.

Section 23. Subsection (8) of section 403.93345, Florida Statutes, is amended to read:

403.93345 Coral reef protection.—

(8) In addition to the compensation described in subsection (5), the department may assess, per occurrence, civil penalties according to the following schedule:

(a) For any anchoring of a vessel on a coral reef or for any other damage to a coral reef totaling less than or equal to an area of 1 square meter, $225 ~~$150~~, provided that a responsible party who has anchored a recreational vessel as defined in s. 327.02 which is lawfully registered or exempt from registration pursuant to chapter 328 is issued, at least once, a

AMERICAN OVERSIGHT

warning letter in lieu of penalty; with aggravating circumstances, an additional $225 ~~$150~~; occurring within a state park or aquatic preserve, an additional $225 ~~$150~~.

(b) For damage totaling more than an area of 1 square meter but less than or equal to an area of 10 square meters, $450 ~~$300~~ per square meter; with aggravating circumstances, an additional $450 ~~$300~~ per square meter; occurring within a state park or aquatic preserve, an additional $450 ~~$300~~ per square meter.

(c) For damage exceeding an area of 10 square meters, $1,500 ~~$1,000~~ per square meter; with aggravating circumstances, an additional $1,500 ~~$1,000~~ per square meter; occurring within a state park or aquatic preserve, an additional $1,500 ~~$1,000~~ per square meter.

(d) For a second violation, the total penalty may be doubled.

(e) For a third violation, the total penalty may be tripled.

(f) For any violation after a third violation, the total penalty may be quadrupled.

(g) The total of penalties levied may not exceed $375,000 ~~$250,000~~ per occurrence.

Section 24. Paragraph (c) of subsection (1) of s. 252.940, Florida Statutes, is reenacted for the purpose of incorporating the amendment made by this act to s. 252.941, Florida Statutes, in a reference thereto.

Section 25. Subsection (5) of s. 823.11, Florida Statutes, is reenacted for the purpose of incorporating the amendment made by this act to s. 376.16, Florida Statutes, in a reference thereto.

AMERICAN OVERSIGHT

Section 26. Paragraph (d) of subsection (1) of s. 376.303, Florida Statutes, is reenacted for the purpose of incorporating the amendment made by this act to s. 376.302, Florida Statutes, in a reference thereto.

Section 27. Subsection (5) of s. 403.077, subsection (2) of s. 403.131, paragraph (d) of subsection (3) of s. 403.4154, and subsection (5) of s. 403.860, Florida Statutes, are reenacted for the purpose of incorporating the amendment made by this act to s. 403.121, Florida Statutes, in references thereto.

Section 28. Subsection (10) of s. 403.708, subsection (7) of s. 403.7191, and s. 403.811, Florida Statutes, are reenacted for the purpose of incorporating the amendment made by this act to s. 403.141, Florida Statutes, in references thereto.

Section 29. Subsection (2) of s. 403.7255, Florida Statutes, is reenacted for the purpose of incorporating the amendment made by this act to s. 403.161, Florida Statutes, in a reference thereto.

Section 30. Subsection (8) of s. 403.7186, Florida Statutes, is reenacted for the purpose of incorporating the amendments made by this act to ss. 403.141 and 403.161, Florida Statutes, in references thereto.

Section 31. This act shall take effect July 1, 2020.

Attachment(s): "SAMH Bill 1 Language.doc","OCW Bill 2 Child Welfare Language.docx"

Hi Vickie,

Could you please transfer the following bill drafts to the respective Senator's offices:

23-01040-20 (OCW Bill 2) – Kayla Lott in Senator Perry's office
23-01042-20 (SAMH Bill 1) – Taylor Peck in Senator Montford's office

Thank you so much, and have a great weekend!

Best,

Lindsey Zander
Deputy Director of Legislative Affairs
Department of Children and Families
1317 Winewood Blvd.

AMERICAN OVERSIGHT

A bill to be entitled

An act relating to child welfare

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (a) of subsection (4) of section 20.19, Florida Statutes is amended to read:

20.19 Department of Children and Families. -

(4)

(a) The department, through offices, shall provide services relating to:

1. Adult protection.

2. Child care regulation.

3. Child welfare.

4. Domestic violence.

5. Economic self-sufficiency.

6. Homelessness.

7. Mental health.

8. Refugees.

9. Substance abuse.

10. Well-being of staff.

Section 2. Subsection (2) is incorporated in section (1) of section 25.385, Florida Statutes, and new subsection (2) is added to that section, to read:

25.385 Standards for instruction of circuit and county court judges ~~in handling domestic violence cases~~.-

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000753

(1) The Florida Court Educational Council shall establish standards for instruction of circuit and county court judges who have responsibility for domestic violence cases, and the council shall provide such instruction on a periodic and timely basis.

~~(2)~~ As used in this section:

(a) The term "domestic violence" has the meaning set forth in s. 741.28.

(b) "Family or household member" has the meaning set forth in s. 741.28.

(2) The Florida Court Educational Council shall establish standards for instruction of circuit court judges who have responsibility for dependency cases. The standards for instruction must be consistent with an reinforce the purposes of Chapter 39, particularly the purpose of ensuring that a permanent placement is achieved as soon as possible for every child in foster care and that no child remains in foster care longer than 1 year. This instruction must be provided on a periodic and timely basis and may be provided by or in consultation with current or retired judiciary, the Department of Children and Families, or the Statewide Guardian ad Litem Office established by s. 39.8296, F.S.

Section 3. Section 39.01(56), Florida Statutes, is amended to read:

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000754

(56) "Parent" means a woman who gives birth to a child and a man whose consent to the adoption of the child would be required under s. 63.062(1). The term "parent" also means legal father as defined in this section. If a child has been legally adopted, the term "parent" means the adoptive mother or father of the child. For purposes of this chapter only, when the phrase "parent or legal custodian" is used, it refers to rights or responsibilities of the parent and, only if there is no living parent with intact parental rights, to the rights or responsibilities of the legal custodian who has assumed the role of the parent. The term does not include an individual whose parental relationship to the child has been legally terminated, or an alleged or prospective parent, unless~~:~~

~~(a) The parental status falls within the terms of s. 39.503(1) or s. 63.062(1); or~~

~~(b)~~ P<u>parental</u> status is applied for the purpose of determining whether the child has been abandoned.

Section 4. Subsection (7) of section 39.205, Florida Statutes, is amended to read:

39.205 Penalties relating to reporting of child abuse, abandonment, or neglect.-

(7) The department shall establish procedures for determining whether a false report of child abuse, abandonment, or neglect has been made and for submitting all identifying information relating to such a report to

Coding: Words ~~stricken~~ are deletions; words <u>underlined</u> are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000755

the appropriate law enforcement agency ~~and shall report annually to the Legislature the number of reports referred~~.

Section 5. Paragraph (a) of subsection (7) of section 39.302, Florida Statutes is amended to read:

39.302 Protective Investigations of institutional child abuse, abandonment, or neglect.-

(7)

(a) However, if such a person is a licensee of the department and is named in any capacity in a report ~~in three or more reports~~ within a 5-year period, the department must ~~may~~ review the report ~~those reports~~ and determine whether the information contained in the report~~s~~ is relevant for purposes of determining whether the person's license should be renewed or revoked. If the information is relevant to the decision to renew or revoke the license, the department may rely on the information contained in the report in making that decision.

Section 6. Paragraph (c) of subsection (8) of section 39.402, Florida Statutes, is amended to read:

39.402 Placement in a shelter.-

(8)

(c) At the shelter hearing, the court shall:

1. Appoint a guardian ad litem to represent the best interest of the child, unless the court finds that such representation is unnecessary;

DRAFT

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

2. Inform the parents or legal custodians of their right to counsel to represent them at the shelter hearing and at each subsequent hearing or proceeding, and the right of the parents to appointed counsel, pursuant to the procedures set forth in s. 39.013;

3. Give the parents or legal custodians an opportunity to be heard and to present evidence; and

4. Inquire of those present at the shelter hearing as to the identity and location of the legal father. In determining who the legal father of the child may be, the court shall inquire under oath of those present at the shelter hearing whether they have any of the following information:

a. Whether the mother of the child was married at the probable time of conception of the child or at the time of birth of the child.

b. Whether the mother was cohabiting with a male at the probable time of conception of the child.

c. Whether the mother has received payments or promises of support with respect to the child or because of her pregnancy from a man who claims to be the father.

d. Whether the mother has named any man as the father on the birth certificate of the child or in connection with applying for or receiving public assistance.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000757

e. Whether any man has acknowledged or claimed paternity of the child in a jurisdiction in which the mother resided at the time of or since conception of the child or in which the child has resided or resides.

f. Whether a man is named on the birth certificate of the child pursuant to s. 382.013(2).

g. Whether a man has been determined by a court order to be the father of the child.

h. Whether a man has been determined to be the father of the child by the Department of Revenue as provided in s. 409.256.

5. If the inquiry under subsection (8)(c)4. identifies a person as a legal father, as defined in s. 39.01(40), the court shall enter an order establishing the paternity of the child. Once an order establishing paternity has been entered, the court shall not take any further action to disestablish this paternity in the absence of an action filed pursuant to chapter 742. Where a Chapter 742 action is filed, the court having jurisdiction over the dependency matter may conduct proceedings under chapter 742 either as part of the chapter 39 proceeding or in a separate action under chapter 742. In such a proceeding, the putative father must first prove he has acted with diligence in seeking the establishment of paternity and has manifested a substantial and continuing concern for the welfare of the child. If these facts are established, the

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000758

putative father must then prove by clear and convincing evidence that there is a clear and compelling reason to establish paternity and disestablish the legal father based primarily on the child's best interest. Where the establishment of the putative father's paternity will delay permanency for the child or the putative father cannot pass a home study to be a placement for the child, there is a rebuttable presumption that it is not in the child's best interest to disestablish the child's legal father to establish the legal status of the putative father.

Section 7. Paragraphs (b) and (i) of subsection (6) of section 39.407, Florida Statutes, are amended to read:

39.407 Medical, psychiatric, and psychological examination and treatment of child; physical, mental, or substance abuse examination of person with or requesting child custody. -

(6) Children who are in the legal custody of the department may be placed by the department, without prior approval of the court, in a residential treatment center licensed under s. 394.875 or a hospital licensed under chapter 395 for residential mental health treatment only pursuant to this section or may be placed by the court in accordance with an order of involuntary examination or involuntary placement entered pursuant to s. 394.463 or s. 394.467. All children placed in a residential treatment

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

DRAFT
AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000759

program under this subsection must have a guardian ad litem appointed.

(b) Whenever the department believes that a child in its legal custody is emotionally disturbed and may need residential treatment, an examination and suitability assessment must be conducted by a qualified evaluator who is appointed by the ~~Agency for Health Care Administration~~ Department of Children and Families. This suitability assessment must be completed before the placement of the child in a residential treatment center for emotionally disturbed children and adolescents or a hospital. The qualified evaluator must be a psychiatrist or a psychologist licensed in Florida who has at least 3 years of experience in the diagnosis and treatment of serious emotional disturbances in children and adolescents and who has no actual or perceived conflict of interest with any inpatient facility or residential treatment center or program.

(i) The department must adopt rules for implementing timeframes for the completion of suitability assessments by qualified evaluators and a procedure that includes timeframes for completing the 3-month independent review by the qualified evaluators of the child's progress toward achieving the goals and objectives of the treatment plan which review must be submitted to the court. The ~~Agency for Health Care Administration~~ Department and Children and Families must adopt rules for the registration of qualified

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000760

evaluators, the procedure for selecting the evaluators to conduct the reviews required under this section, and a reasonable, cost-efficient fee schedule for qualified evaluators.

Section 8. Section 39.503, Florida Statutes, is amended to read:

39.503 Identity or location of parent unknown; special procedures.—

(1) If the identity or location of a parent is unknown and a petition for dependency ~~or shelter~~ is filed, the court shall conduct under oath the following inquiry of the parent or legal custodian who is available, or, if no parent or legal custodian is available, of any relative or custodian of the child who is present at the hearing and likely to have any of the following information:

(a) Whether the mother of the child was married at the probable time of conception of the child or at the time of birth of the child.

(b) Whether the mother was cohabiting with a male at the probable time of conception of the child.

(c) Whether the mother has received payments or promises of support with respect to the child or because of her pregnancy from a man who claims to be the father.

(d) Whether the mother has named any man as the father on the birth certificate of the child or in

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000761

connection with applying for or receiving public assistance.

(e) Whether any man has acknowledged or claimed paternity of the child in a jurisdiction in which the mother resided at the time of or since conception of the child, or in which the child has resided or resides.

(f) Whether a man is named on the birth certificate of the child pursuant to s. 382.013(2).

(g) Whether a man has been determined by a court order to be the father of the child.

(h) Whether a man has been determined to be the father of the child by the Department of Revenue as provided in s. 409.256.

(2) The information required in subsection (1) may be supplied to the court or the department in the form of a sworn affidavit by a person having personal knowledge of the facts.

(3) If the inquiry under subsection (1) identifies any person as a parent or, where there is no legal father, a prospective parent and that person's location is known, the court shall require notice of the hearing to be provided to that person.

(4) If the inquiry under subsection (1) identifies a person as a legal father, as defined in s. 39.01(40), the court shall enter an order establishing the paternity of the child. Once an order establishing

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

paternity has been entered, the court shall not take any further action to disestablish this paternity in the absence of an action filed pursuant to chapter 742. Where a chapter 742 action is filed, the court having jurisdiction over the dependency matter may conduct proceedings under chapter 742 either as part of the chapter 39 proceeding or in a separate action under chapter 742. In such a proceeding, the putative father must first prove he has acted with diligence in seeking the establishment of paternity and has manifested a substantial and continuing concern for the welfare of the child. If these facts are established, the putative father must then prove by clear and convincing evidence that there is a clear and compelling reason to establish paternity and disestablish the legal father based primarily on the child's best interest. Where the establishment of the putative father's paternity will delay permanency for the child or the putative father cannot pass a home study to be a placement for the child, there is a rebuttable presumption that it is not in the child's best interest to disestablish the child's legal father to establish the legal status of the putative father.

~~(4)~~(5) If the inquiry under subsection (1) fails to identify any person as a parent or, where there is no legal father, a prospective parent, the court shall

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

so find and may proceed without further notice and the petitioner is relieved of further search.

~~(5)~~(6) If the inquiry under subsection (1) identifies a parent or, where there is no legal father, a prospective parent~~,~~ and that person's location is unknown, the court shall direct the petitioner to conduct a diligent search for that person before scheduling a disposition hearing regarding the dependency of the child unless the court finds that the best interest of the child requires proceeding without notice to the person whose location is unknown.

~~(6)~~(7) The diligent search required by subsection ~~(5)~~(6) must include, at a minimum, inquiries of all relatives of the parent or prospective parent made known to the petitioner, inquiries of all offices of program areas of the department likely to have information about the parent or prospective parent, inquiries of other state and federal agencies likely to have information about the parent or prospective parent, inquiries of appropriate utility and postal providers, a thorough search of at least one electronic database specifically designed for locating persons, a search of the Florida Putative Father Registry, and inquiries of appropriate law enforcement agencies. Pursuant to s. 453 of the Social Security Act, 42 U.S.C. s. 653(c)(4), the department, as the state agency administering Titles IV-B and IV-E of the act,

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000764

shall be provided access to the federal and state parent locator service for diligent search activities.

~~(7)~~(8) Any agency contacted by a petitioner with a request for information pursuant to subsection ~~(6)~~(7) shall release the requested information to the petitioner without the necessity of a subpoena or court order.

~~(8)~~(9) If the inquiry and diligent search identifies and locates a parent, the individual shall be considered a parent for all purposes under this chapter and the court shall require notice of all hearings to be provided to that person.

(10) If the inquiry and diligent search identifies and locates a prospective parent and there is no legal father, that person must be given the opportunity to become a party to the proceedings by completing a sworn affidavit of parenthood and filing it with the court or the department. A prospective parent who files a sworn affidavit of parenthood while the child is a dependent child but no later than at the time of or before the adjudicatory hearing in any termination of parental rights proceeding for the child shall be considered a parent for all purposes under this ~~section~~ chapter unless the other parent contests the determination of parenthood. No person shall have standing to file a sworn affidavit of parenthood or otherwise establish parenthood at the time of or after the adjudicatory

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000765

hearing in a termination of parental rights proceeding for a child. If the known parent contests the recognition of the prospective parent as a parent, the court having jurisdiction over the dependency matter shall conduct paternity proceedings under chapter 742. ~~t~~The prospective parent may not be recognized as a parent until proceedings to determine maternity or paternity ~~under chapter 742~~ have been concluded. However, the prospective parent shall continue to receive notice of hearings as a participant pending results of the ~~chapter 742~~ proceedings to determine maternity or paternity.

~~(9)~~(11) If the diligent search under subsection ~~(5)~~(6) fails to ~~identify and~~ locate a parent or, where there is no legal father, a prospective parent who was identified during the inquiry under subsection (1), the court shall so find and may proceed without further notice and the petitioner is relieved of further search.

Section 9. Paragraph (c) of subsection (1) and subsections (3) and (7) of section 39.521, Florida Statutes, are amended to read:

39.521 Disposition hearings; powers of disposition.--

(1)

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000766

(c) When any child is adjudicated by a court to be dependent, the court having jurisdiction of the child has the power by order to:

1. Require the parent and, when appropriate, the legal guardian or the child to participate in treatment and services identified as necessary. The court may require the person who has custody or who is requesting custody of the child to submit to a mental health or substance abuse disorder assessment or evaluation. The order may be made only upon good cause shown and pursuant to notice and procedural requirements provided under the Florida Rules of Juvenile Procedure. The mental health assessment or evaluation must be administered by a qualified professional as defined in s. 39.01, and the substance abuse assessment or evaluation must be administered by a qualified professional as defined in s. 397.311. The court may also require such person to participate in and comply with treatment and services identified as necessary, including, when appropriate and available, participation in and compliance with a mental health court program established under chapter 394 or a treatment-based drug court program established under s. 397.334. Adjudication of a child as dependent based upon evidence of harm as defined in s. 39.01(35)(g) demonstrates good cause, and the court shall require the parent whose actions caused the harm to submit to a

DRAFT

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000767

substance abuse disorder assessment or evaluation and to participate and comply with treatment and services identified in the assessment or evaluation as being necessary. In addition to supervision by the department, the court, including the mental health court program or the treatment-based drug court program, may oversee the progress and compliance with treatment by a person who has custody or is requesting custody of the child. The court may impose appropriate available sanctions for noncompliance upon a person who has custody or is requesting custody of the child or make a finding of noncompliance for consideration in determining whether an alternative placement of the child is in the child's best interests. Any order entered under this subparagraph may be made only upon good cause shown. This subparagraph does not authorize placement of a child with a person seeking custody of the child, other than the child's parent or legal custodian, who requires mental health or substance abuse disorder treatment.

2. Require, if the court deems necessary, the parties to participate in dependency mediation.

3. Require placement of the child either under the protective supervision of an authorized agent of the department in the home of one or both of the child's parents or in the home of a relative of the child or another adult approved by the court, or in the custody

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000768

of the department. ~~Protective supervision continues until the court terminates it or until the child reaches the age of 18, whichever date is first. Protective supervision shall be terminated by the court whenever the court determines that permanency has been achieved for the child, whether with a parent, another relative, or a legal custodian, and that protective supervision is no longer needed. The termination of supervision may be with or without retaining jurisdiction, at the court's discretion, and shall in either case be considered a permanency option for the child. The order terminating supervision by the department must set forth the powers of the custodian of the child and include the powers ordinarily granted to a guardian of the person of a minor unless otherwise specified. Upon the court's termination of supervision by the department, further judicial reviews are not required if permanency has been established for the child.~~

4. Determine whether the child has a strong attachment to the prospective permanent guardian and whether such guardian has a strong commitment to permanently caring for the child.

(3) When any child is adjudicated by a court to be dependent, the court shall determine the appropriate placement for the child as follows:

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000769

(a) If the court determines that the child can safely remain in the home with the parent with whom the child was residing at the time the events or conditions arose that brought the child within the jurisdiction of the court and that remaining in this home is in the best interest of the child, then the court shall order conditions under which the child may remain or return to the home and that this placement be under the protective supervision of the department for not less than 6 months.

(b) If there is a parent with whom the child was not residing at the time the events or conditions arose that brought the child within the jurisdiction of the court who desires to assume custody of the child, the court shall place the child with that parent upon completion of a home study, unless the court finds that such placement would endanger the safety, well-being, or physical, mental, or emotional health of the child. Any party with knowledge of the facts may present to the court evidence regarding whether the placement will endanger the safety, well-being, or physical, mental, or emotional health of the child. If the court places the child with such parent, it may do either of the following:

1. Order that the parent assume sole custodial responsibilities for the child. The court may also provide for reasonable visitation by the noncustodial

DRAFT

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000770

parent. The court may then terminate its jurisdiction over the child.

2. Order that the parent assume custody subject to the jurisdiction of the circuit court hearing dependency matters. The court may order that reunification services be provided to the parent from whom the child has been removed, that services be provided solely to the parent who is assuming physical custody in order to allow that parent to retain later custody without court jurisdiction, or that services be provided to both parents, in which case the court shall determine at every review hearing which parent, if either, shall have custody of the child. The standard for changing custody of the child from one parent to another or to a relative or another adult approved by the court shall be the best interest of the child.

(c) If no fit parent is willing or available to assume care and custody of the child, place the child in the temporary legal custody of an adult relative, the adoptive parent of the child's sibling, or another adult approved by the court who is willing to care for the child, under the protective supervision of the department. The department must supervise this placement until the child reaches permanency status in this home, and in no case for a period of less than 6 months. Permanency in a relative placement shall be by adoption, long-term custody, or guardianship.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

(d) If the child cannot be safely placed in a nonlicensed placement, the court shall commit the child to the temporary legal custody of the department. Such commitment invests in the department all rights and responsibilities of a legal custodian. The department shall not return any child to the physical care and custody of the person from whom the child was removed, except for court-approved visitation periods, without the approval of the court. Any order for visitation or other contact must conform to the provisions of s. 39.0139. The term of such commitment continues until terminated by the court or until the child reaches the age of 18. After the child is committed to the temporary legal custody of the department, all further proceedings under this section are governed by this chapter.

~~Protective supervision continues until the court terminates it or until the child reaches the age of 18, whichever date is first. Protective supervision shall be terminated by the court whenever the court determines that permanency has been achieved for the child, whether with a parent, another relative, or a legal custodian, and that protective supervision is no longer needed. The termination of supervision may be with or without retaining jurisdiction, at the court's discretion, and shall in either case be considered a permanency option for the child. The order terminating~~

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000772

~~supervision by the department shall set forth the powers of the custodian of the child and shall include the powers ordinarily granted to a guardian of the person of a minor unless otherwise specified. Upon the court's termination of supervision by the department, no further judicial reviews are required, so long as permanency has been established for the child.~~

~~(7) The court may enter an order ending its jurisdiction when a child has been returned to the parents, provided the court shall not terminate its jurisdiction or the department's supervision over the child until 6 months after the child's return. The department shall supervise the placement of the child after reunification for at least 6 months with each parent or legal custodian from whom the child was removed. The court shall determine whether its jurisdiction should be continued or terminated in such a case based on a report of the department or agency or the child's guardian ad litem, and any other relevant factors; if its jurisdiction is to be terminated, the court shall enter an order to that effect.~~

Section 10. Section 39.522, Florida Statutes, is amended to read:

39.522 Postdisposition change of custody.- The court may change the temporary legal custody or the conditions of protective supervision at a postdisposition hearing, without the necessity of

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000773

another adjudicatory hearing. If a child must be removed from the parent's custody while the department is supervising the placement of the child after the child has been returned to the parent, the modification of placement shall be pursuant to this section.

(1) At any time, an authorized agent of the Department or a law enforcement officer may remove a child from a court-ordered placement and take the child into custody if the child's current caregiver requests immediate removal of the child from the home or if the circumstances meet the criteria of s. 39.401(b). The Department shall file a motion to modify placement within one business day of the child being taken into custody. Unless all parties stipulate to the change of placement, the court shall set a hearing within 24 hours of the filing of the motion. At the hearing, the court shall determine whether the Department has established probable cause that reasonable grounds exist to immediately remove the child from the current placement. The court may base its determination on a sworn motion or affidavit and may hear all relevant and material evidence, including oral and written reports to the extent of its probative value even though it would not be competent evidence at an adjudicatory hearing. If probable cause is not established to support the removal from the placement, the court shall enter an order to return the child to the placement.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000774

If the caregiver admits to a need for a change of placement or probable cause is established to support the removal from the placement, the court shall enter an order changing the placement. If the child is not placed in foster care, then the new placement for the child must meet the home study criteria in Chapter 39. Where the court modifies a child's placement based upon a probable cause standard, the court shall conduct a subsequent evidentiary hearing on the motion, unless all parties waive the hearing, at which the court shall determine whether the Department has established by a preponderance of the evidence that continuing the child in the new placement is in the child's best interest. When applying this standard, the court shall consider the continuity of the child's placement in the same out-of-home residence as a factor when determining the best interests of the child.

(2) At any time before a child is residing in the permanent placement approved at a permanency hearing, a child who has been placed in the child's own home under the protective supervision of an authorized agent of the department, in the home of a relative, in the home of a legal custodian, or in some other place may be brought before the court by the department or by any other party ~~interested person~~, upon the filing of a ~~petition~~ motion alleging a need for a change in the conditions of protective supervision or the placement.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

If the parents or other legal custodians deny the need for a change, the court shall hear all parties in person or by counsel, or both. Upon the admission of a need for a change or after such hearing, the court shall enter an order changing the placement, modifying the conditions of protective supervision, or continuing the conditions of protective supervision as ordered. The standard for changing custody of the child shall be whether a preponderance of the evidence establishes that a change is in the best interest of the child. When applying this standard, the court shall consider the continuity of the child's placement in the same out-of-home residence as a factor when determining the best interests of the child. If the child is not placed in foster care, then the new placement for the child must meet the home study criteria and court approval pursuant to this chapter.

~~(2)~~(3) In cases where the issue before the court is whether a child should be reunited with a parent, the court shall review the conditions for return and determine whether the circumstances that caused the out-of-home placement and issues subsequently identified have been remedied to the extent that the return of the child to the home with an in-home safety plan prepared or approved by the department will not be detrimental to the child's safety, well-being, and physical, mental, and emotional health.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

~~(3)~~(4) In cases where the issue before the court is whether a child who is placed in the custody of a parent should be reunited with the other parent upon a finding that the circumstances that caused the out-of-home placement and issues subsequently identified have been remedied to the extent that the return of the child to the home of the other parent with an in-home safety plan prepared or approved by the department will not be detrimental to the child, the standard shall be that the safety, well-being, and physical, mental, and emotional health of the child would not be endangered by reunification and that reunification would be in the best interest of the child.

Section 11. Subsection (7) of section 39.6011, Florida Statutes, is amended to read:

39.6011 Case plan development.-

(7) The case plan must be filed with the court and copies provided to all parties, including the child if appropriate:~~, not less than 3 business days before the disposition hearing.~~

(a) Not less than 72 hours before the disposition hearing, if the disposition hearing occurs on or after the 60th day after the date the child was placed in out-of-home care.

(b) Not less than 72 hours before the case plan acceptance hearing, if the disposition hearing occurs before the 60th day after the date the child was placed in

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000777

out-of-home care and a case plan has not been submitted pursuant to this paragraph, or if the court does not approve the case plan at the disposition hearing.

Section 12. Section 39.630, Florida Statutes, is created to read:

39.630 Case closure.- For all proceedings under this chapter, the court shall close the judicial case by terminating protective supervision and its jurisdiction as provided in this section.

(1) Where a child has been placed under the protective supervision of the department, protective supervision continues until the court terminates it or until the child reaches the age of 18, whichever date is first. Protective supervision shall be terminated by the court whenever the court determines that permanency has been achieved for the child, whether with a parent, another relative, or a legal custodian, and that protective supervision is no longer needed except that the department must supervise the placement of the child after reunification for at least 6 months with each parent or legal custodian from whom the child was removed. The termination of supervision may be with or without retaining jurisdiction, at the court's discretion.

(2) The order terminating supervision by the department must set forth the powers of the custodian of the child and include the powers ordinarily granted

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000778

to a guardian of the person of a minor unless otherwise specified.

(3) Upon the court's termination of supervision by the department, further judicial reviews are not required.

(4) The court must enter a written order ending its jurisdiction when a child has been returned to a parent, provided the court shall not terminate its jurisdiction over the child for at least 6 months after the child's return to the home and not until protective supervision is no longer need.

(5) Where a child has not been removed from the home, the court must enter a written order ending its jurisdiction when the court determines that permanency has been achieved for the child.

(6) Where a child is placed in the custody of a parent and the court determines that reasonable efforts to reunify the child with the other parent are not required, the court may at any time order that the custodial parent assume sole custodial responsibilities for the child, may provide for reasonable visitation by the noncustodial parent, and may then terminate its jurisdiction over the child. If the court has previously approved a case plan that requires that services be provided to the noncustodial parent, the court may not terminate its jurisdiction prior to the expiration of the case plan unless the court finds by a

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000779

preponderance of the evidence that it is not likely that the child will be reunified with the noncustodial parent within 12 months after the child was removed from the home.

(7) Where a child has been adopted pursuant to a chapter 63 proceeding, the court must enter a written order terminating its jurisdiction over the child in the chapter 39 proceeding.

(8) The court shall determine whether its jurisdiction should be continued or terminated based on a report of the department or agency or the child's guardian ad litem.

Section 13. Subsection (3) of section 39.801, Florida Statutes, is amended to read:

(3) Before the court may terminate parental rights, in addition to the other requirements set forth in this part, the following requirements must be met:

(a) Notice of the date, time, and place of the advisory hearing for the petition to terminate parental rights and a copy of the petition must be personally served upon the following persons, specifically notifying them that a petition has been filed:

1. The parents of the child.

2. The legal custodians of the child.

3. If the parents who would be entitled to notice are dead or unknown, a living relative of the child,

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

unless upon diligent search and inquiry no such relative can be found.

4. Any person who has physical custody of the child.

5. Any grandparent entitled to priority for adoption under s. 63.0425.

6. Any prospective parent who has been identified and located under s. 39.503 or s. 39.803, unless a court order has been entered pursuant to s. 39.503~~(4)~~(5) or ~~(9)~~(11) or s. 39.803~~(4)~~(5) or ~~(9)~~(11) which indicates no further notice is required. Except as otherwise provided in this section, if there is not a legal father, notice of the petition for termination of parental rights must be provided to any known prospective father who is identified under oath before the court or who is identified by a diligent search of the Florida Putative Father Registry. Service of the notice of the petition for termination of parental rights is not required if the prospective father executes an affidavit of nonpaternity or a consent to termination of his parental rights which is accepted by the court after notice and opportunity to be heard by all parties to address the best interests of the child in accepting such affidavit.

7. The guardian ad litem for the child or the representative of the guardian ad litem program, if the program has been appointed.

by the person given notice. If a parent appears for the advisory hearing and the court orders that parent to personally appear at the adjudicatory hearing for the petition for termination of parental rights, stating the date, time, and location of said hearing, then failure of that parent to personally appear at the adjudicatory hearing shall constitute consent for termination of parental rights.

Section 14. Section 39.8025, Florida Statutes, is created to read:

39.8025 Permanent commitment of children with deceased parents to the department for subsequent adoption.-

(1) Where both parents of a child are deceased and the child does not have a legal custodian through a probate or guardianship proceeding, the child meets the definition of a child who is found to be dependent pursuant to s. 39.01(15)(e) and shall be permanently committed to the custody of the department for the purpose of adoption as outlined in this section.

(2) Where both parents of a child are deceased and the child does not have a legal custodian through a probate or guardianship proceeding, an attorney for the department, or any other person who has knowledge of the facts alleged or is informed of them and believes that they are true, may initiate a proceeding seeking an adjudication of dependency and permanent commitment of the child to the custody of the

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000783

department for the purpose of adoption by filing a petition for adjudication and permanent commitment. If after a child has already been adjudicated dependent both parents become deceased or the last living parent becomes deceased, an attorney for the department, or any other person who has knowledge of the facts alleged or is informed of them and believes that they are true, may file a petition for permanent commitment.

(a) The petition shall be in writing, identify the deceased parents, and allege the facts that establish both parents of a child are deceased and the child does not have a legal custodian through a probate or guardianship proceeding.

(b) The form of the petition is governed by the Florida Rules of Juvenile Procedure.

(c) The petition must be signed by the petitioner under oath stating the petitioner's good faith in filing the petition.

(3) When a child has been placed in shelter status by order of the court and not yet adjudicated, a petition for adjudication and permanent commitment must be filed within 21 days after the shelter hearing. In all other cases, the petition must be filed within a reasonable time after the date the child was referred to protective investigation or after the petitioner becomes aware of the facts supporting the petition.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

(4) When a petition for adjudication and permanent commitment or a petition for permanent commitment has been filed, the clerk of court shall set the case before the court for an adjudicatory hearing.

(5) Notice of the date, time, and place of the adjudicatory hearing for the petition for adjudication and permanent commitment or the petition for permanent commitment and a copy of the petition must be served upon the following persons in accordance with the Florida Rules of Juvenile Procedure, specifically notifying them that a petition has been filed:

(a) Any person who has physical custody of the child.

(b) A living relative of each parent of the child, unless upon diligent search and inquiry no such relative can be found.

(c) The guardian ad litem for the child or the representative of the guardian ad litem program, if the program has been appointed.

(6) The adjudicatory hearing shall be held as soon as practicable after the petition is filed and in accordance with the Florida Rules of Juvenile Procedure, but no later than 30 days after the arraignment.

(7) Adjudicatory hearings shall be conducted by the judge without a jury, applying the rules of evidence in use in civil cases and adjourning the hearings from time to time as necessary. In a hearing on a petition for adjudication and permanent commitment or a petition for

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

permanent commitment, the court shall consider whether the petitioner has established by clear and convincing evidence that both parents of the child are deceased and the child does not have a legal custodian through a probate or guardianship proceeding. The presentation of a certified copy of the death certificate for each parent shall constitute evidence of the parents' deaths and no further evidence is required to establish that element.

(8) If the court finds that a petition for adjudication and permanent commitment has been establish by clear and convincing evidence, the court shall enter a written order adjudicating the child dependent and permanently committing the child to the custody of the department for the purpose of adoption. The order shall provide for a disposition hearing, to be scheduled no later than 30 days after entry of the order, in which the department shall provide to the court a case plan that identifies the permanency goal for the child. Reasonable efforts must be made to place the child in a timely manner in accordance with the permanency plan and to complete whatever steps are necessary to finalize the permanent placement of the child. Thereafter, until the adoption of the child is finalized or the child reaches the age of 18 years, whichever occurs first, the court shall hold hearings at 6-month intervals to review the progress being made toward permanency for the child.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000786

(9) If the court finds that a petition for permanent commitment has been establish by clear and convincing evidence, the court shall enter a written order permanently committing the child to the custody of the department for the purpose of adoption. The order does not need to readjudicate the child. The order shall provide for a disposition hearing, to be scheduled no later than 30 days after entry of the order, in which the department shall provide to the court an amended case plan that identifies the permanency goal for the child. Reasonable efforts must be made to place the child in a timely manner in accordance with the permanency plan and to complete whatever steps are necessary to finalize the permanent placement of the child. Thereafter, until the adoption of the child is finalized or the child reaches the age of 18 years, whichever occurs first, the court shall hold hearings at 6-month intervals to review the progress being made toward permanency for the child.

(10) If the court finds at the adjudicatory hearing on a petition for adjudication and permanent commitment that clear and convincing evidence does not establish that both parents of a child are deceased and the child does not have a legal custodian through a probate or guardianship proceeding but that a preponderance of the evidence establishes the child has no parent or legal custodian capable of providing supervision or care, the court shall enter a written order adjudicating the child dependent.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000787

The order shall provide for a disposition hearing, to be scheduled no later than 30 days after entry of the order, pursuant to s. 39.521.

(11) If the court finds at the adjudicatory hearing on a petition for adjudication and permanent commitment that clear and convincing evidence does not establish that both parents of a child are deceased and the child does not have a legal custodian through a probate or guardianship proceeding and that a preponderance of the evidence does not establish the child has no parent or legal custodian capable of providing supervision or care, the court shall enter a written order so finding and dismissing the case.

(12) If the court finds at the adjudicatory hearing on a petition for permanent commitment that clear and convincing evidence does not establish that both parents of a child are deceased and the child does not have a legal custodian through a probate or guardianship proceeding the court shall enter a written order so finding. Such an order does not bar the petitioner from filing a subsequent petition for permanent commitment based on newly discovered evidence that establishes both parents of a child are deceased and the child does not have a legal custodian through a probate or guardianship proceeding.

Section 15 Section 39.803, Florida Statutes, is amended to read:

AMERICAN OVERSIGHT

39.803 Identity or location of parent unknown after filing of termination of parental rights petition; special procedures.—

(1) If the identity or location of a parent is unknown, ~~and~~ a petition for termination of parental rights is filed, and the court has not previously conducted an inquiry or entered an order relieving the petitioner of further notice or search under s. 39.503, the court shall conduct under oath the following inquiry of the parent who is available, or, if no parent is available, of any relative, caregiver, or legal custodian of the child who is present at the hearing and likely to have the information:

(a) Whether the mother of the child was married at the probable time of conception of the child or at the time of birth of the child.

(b) Whether the mother was cohabiting with a male at the probable time of conception of the child.

(c) Whether the mother has received payments or promises of support with respect to the child or because of her pregnancy from a man who claims to be the father.

(d) Whether the mother has named any man as the father on the birth certificate of the child or in connection with applying for or receiving public assistance.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000789

(e) Whether any man has acknowledged or claimed paternity of the child in a jurisdiction in which the mother resided at the time of or since conception of the child, or in which the child has resided or resides.

(f) Whether a man is named on the birth certificate of the child pursuant to s. 382.013(2).

(g) Whether a man has been determined by a court order to be the father of the child.

(h) Whether a man has been determined to be the father of the child by the Department of Revenue as provided in s. 409.256.

(2) The information required in subsection (1) may be supplied to the court or the department in the form of a sworn affidavit by a person having personal knowledge of the facts.

(3) If the inquiry under subsection (1) identifies any person as a parent or, where there is no legal father, a prospective parent and that person's location is known, the court shall require notice of the hearing to be provided to that person.

(4) If the inquiry under subsection (1) identifies a person as a legal father, as defined in s. 39.01(40), the court shall enter an order establishing the paternity of the child. Once an order establishing paternity has been entered, the court shall not take any further action to disestablish this paternity in

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

the absence of an action filed pursuant to chapter 742. Where a Chapter 742 action is filed, the court having jurisdiction over the dependency matter may conduct proceedings under chapter 742 either as part of the chapter 39 proceeding or in a separate action under chapter 742. In such a proceeding, the putative father must first prove he has acted with diligence in seeking the establishment of paternity and has manifested a substantial and continuing concern for the welfare of the child. If these facts are established, the putative father must then prove by clear and convincing evidence that there is a clear and compelling reason to establish paternity and disestablish the legal father based primarily on the child's best interest. Where the establishment of the putative father's paternity will delay permanency for the child or the putative father cannot pass a home study to be a placement for the child, there is a rebuttable presumption that it is not in the child's best interest to disestablish the child's legal father to establish the legal status of the putative father.

~~(4)~~(5) If the inquiry under subsection (1) fails to identify any person as a parent or, where there is no legal father, a prospective parent, the court shall so find and may proceed without further notice and the petitioner is relieved of further search.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000791

~~(5)~~(6) If the inquiry under subsection (1) identifies a parent or, where there is no legal father, prospective parent, and that person's location is unknown, the court shall direct the petitioner to conduct a diligent search for that person before scheduling an adjudicatory hearing regarding the petition for termination of parental rights to the child unless the court finds that the best interest of the child requires proceeding without actual notice to the person whose location is unknown.

~~(6)~~(7) The diligent search required by subsection ~~(5)~~(6) must include, at a minimum, inquiries of all known relatives of the parent or prospective parent, inquiries of all offices of program areas of the department likely to have information about the parent or prospective parent, inquiries of other state and federal agencies likely to have information about the parent or prospective parent, inquiries of appropriate utility and postal providers, a thorough search of at least one electronic database specifically designed for locating persons, a search of the Florida Putative Father Registry, and inquiries of appropriate law enforcement agencies. Pursuant to s. 453 of the Social Security Act, 42 U.S.C. s. 653(c)(4), the department, as the state agency administering Titles IV-B and IV-E of the act, shall be provided access to the federal and

Section 17. Section 39.812, Florida Statutes, is amended to read:

39.812 Postdisposition relief; petition for adoption.-

(1) If the department is given custody of a child for subsequent adoption in accordance with this chapter, the department may place the child with an agency as defined in s. 63.032, with a child-caring agency registered under s. 409.176, or in a family home for prospective subsequent adoption without the need for a court order unless as otherwise provided by s. 39.812. The department is authorized, without the need for a court order, to allow prospective adoptive parents to visit with a child in the department's custody to determine whether adoptive placement would be appropriate. The department may thereafter become a party to any proceeding for the legal adoption of the child and appear in any court where the adoption proceeding is pending and consent to the adoption, and that consent alone shall in all cases be sufficient.

(2) In any subsequent adoption proceeding, the parents are not entitled to notice of the proceeding and are not entitled to knowledge at any time after the order terminating parental rights is entered of the whereabouts of the child or of the identity or location of any person having the custody of or having adopted the child, except as provided by order of the court

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000795

pursuant to this chapter or chapter 63. In any habeas corpus or other proceeding involving the child brought by any parent of the child, an agent or contract provider of the department may not be compelled to divulge that information, but may be compelled to produce the child before a court of competent jurisdiction if the child is still subject to the guardianship of the department.

(3) The entry of the custody order to the department does not entitle the department to guardianship of the estate or property of the child, but the department shall be the guardian of the person of the child.

(4) The court shall retain jurisdiction over any child placed in the custody of the department until the child is adopted. After custody of a child for subsequent adoption has been given to the department, the court has jurisdiction for the purpose of reviewing the status of the child and the progress being made toward permanent adoptive placement. As part of this continuing jurisdiction, for good cause shown by the guardian ad litem for the child, the court may review the appropriateness of the adoptive placement of the child.

(a) If the department has denied an individual's application to adopt a child, that denied applicant may file a motion to file a Chapter 63 petition to adopt a

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000796

child without the department's consent, wherein the denied applicant must allege that the department unreasonably withheld its consent to the adoption, and the court as part of its continuing jurisdiction may review and rule upon the motion.

1. The denied applicant shall have standing in the Chapter 39 proceeding only to file such a motion and to present evidence in support of the motion at a hearing.

2. When reviewing whether the department unreasonably withheld its consent, the court shall only consider whether the department's review of the application was consistent with the agency's policies and made in an expeditious manner, using an abuse of discretion review. The court may not weigh the denied applicant against another applicant to determine which placement is in the child's best interest.

3. If the denied applicant establishes by a preponderance of the evidence that the department unreasonably withheld its consent, the court shall enter an order that finds the denied applicant may file a petition to adopt the child pursuant to Chapter 63 and the department's consent is waived.

4. If the denied applicant does not prove by a preponderance of the evidence that the department unreasonably withheld its consent, the court shall enter an order so finding.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000797

5. The denied applicant's standing in the Chapter 39 proceeding is terminated upon the entry of a court order on the motion.

(b) When a licensed foster parent or court-ordered custodian has applied to adopt a child who has resided with the foster parent or custodian for at least 6 months and who has previously been permanently committed to the legal custody of the department and the department does not grant the application to adopt, the department may not, in the absence of a prior court order authorizing it to do so, remove the child from the foster home or custodian, except when:

1.~~(a)~~ There is probable cause to believe that the child is at imminent risk of abuse or neglect;

2.~~(b)~~ Thirty days have expired following written notice to the foster parent or custodian of the denial of the application to adopt, within which period no formal challenge of the department's decision has been filed; or

3.~~(c)~~ The foster parent or custodian agrees to the child's removal.; or

4.~~(d)~~ The department has selected another prospective adoptive applicant to adopt the child and either the foster parent or custodian has not filed a motion to file a Chapter 63 petition to adopt a child without the department's consent pursuant to subsection (4) or the court has denied such a motion.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

FL-SEN-20-0201-B, 20-0202-A-000798

(5) The petition for adoption must be filed in the division of the circuit court which entered the judgment terminating parental rights, unless a motion for change of venue is granted pursuant to s. 47.122. A copy of the consent executed by the department must be attached to the petition, unless waived pursuant to ~~s. 63.062(7)~~subsection (4) of this section. The petition must be accompanied by a statement, signed by the prospective adoptive parents, acknowledging receipt of all information required to be disclosed under s. 63.085 and a form provided by the department which details the social and medical history of the child and each parent and includes the social security number and date of birth for each parent, if such information is available or readily obtainable. The prospective adoptive parents may not file a petition for adoption until the judgment terminating parental rights becomes final. An adoption proceeding under this subsection is governed by chapter 63.

(6)(a) Once a child's adoption is finalized, the community-based care lead agency must make a reasonable effort to contact the adoptive family by telephone 1 year after the date of finalization of the adoption as a postadoption service. For purposes of this subsection, the term "reasonable effort" means the exercise of reasonable diligence and care by the community-based care lead agency to make contact with

DRAFT

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000799

the adoptive family. At a minimum, the agency must document the following:

1. The number of attempts made by the community-based care lead agency to contact the adoptive family and whether those attempts were successful;

2. The types of postadoption services that were requested by the adoptive family and whether those services were provided by the community-based care lead agency; and

3. Any feedback received by the community-based care lead agency from the adoptive family relating to the quality or effectiveness of the services provided.

(b) The community-based care lead agency must report annually to the department on the outcomes achieved and recommendations for improvement under this subsection.

Section 18. Section 39.813, Florida Statutes, is amended to read:

39.813 Continuing jurisdiction.- The court which terminates the parental rights of a child who is the subject of termination proceedings pursuant to this chapter shall retain exclusive jurisdiction in all matters pertaining to the child's adoption pursuant to chapter 63. The Department's decision to deny an application to adopt a child who is under the court's jurisdiction is reviewable only through a motion to file a chapter 63 petition to adopt a child without the department's consent as provided

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

in s. 39.812(4) and is not subject to the provisions of chapter 120.

Section 19. Subsection (7) of section 63.062, Florida Statutes, is amended to read:

63.062 Persons required to consent to adoption; affidavit of nonpaternity; waiver of venue.-

(7) If parental rights to the minor have previously been terminated, the adoption entity with which the minor has been placed for subsequent adoption may provide consent to the adoption. In such case, no other consent is required. When the minor has been permanently committed to the department for subsequent adoption, the department must consent to the adoption or the petition must attach to the petition to adopt a court order entered pursuant to s 39.812(4) that finds the department ~~The consent of the department shall be waived upon a determination by the court that such consent is being~~ unreasonably withheld its consent and ~~if the petitioner has filed with the court~~ a favorable preliminary adoptive home study as required under s. 63.092.

Section 20. Subsection (6) of section 63.082, Florida Statutes, is amended to read:

63.082 Execution of consent to adoption or affidavit of nonpaternity; family social and medical history; revocation of consent.-

DRAFT

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000801

(6)(a) If a parent executes a consent for adoption of a minor with an adoption entity or qualified prospective adoptive parents and the minor child is under the supervision of the department, or otherwise subject to the jurisdiction of the dependency court as a result of the entry of a shelter order, a dependency petition, or a petition for termination of parental rights pursuant to chapter 39, but parental rights have not yet been terminated, the adoption consent is valid, binding, and enforceable by the court.

(b) Upon execution of the consent of the parent, the adoption entity shall be permitted to intervene in the dependency case as a party in interest and must provide the court that acquired jurisdiction over the minor, pursuant to the shelter order or dependency petition filed by the department, a copy of the preliminary home study of the prospective adoptive parents and any other evidence of the suitability of the placement. The preliminary home study must be maintained with strictest confidentiality within the dependency court file and the department's file. A preliminary home study must be provided to the court in all cases in which an adoption entity has intervened pursuant to this section. The exemption in s. 63.092(3) excusing the filing of a home study for a stepparent or a relative does not apply when a minor child is under the supervision of the department or otherwise subject to the jurisdiction of the dependency court as a result of the filing of a shelter

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000802

petition, a dependency petition, or a petition for termination of parental rights pursuant to chapter 39. Unless the court has concerns regarding the qualifications of the home study provider, or concerns that the home study may not be adequate to determine the best interests of the child, the home study provided by the adoption entity shall be deemed to be sufficient and no additional home study needs to be performed by the department.

(c) If an adoption entity files a motion to intervene in the dependency case in accordance with this chapter, the dependency court shall promptly grant a hearing to determine whether the adoption entity has filed the required documents to be permitted to intervene and whether a change of placement of the child is in the best interests of the child. Absent good cause or mutual agreement of the parties, the final hearing on the motion to intervene and the change of placement of the child must be held within 30 days after the filing of the motion, and a written final order shall be filed within 15 days after the hearing.

(d) If after consideration of all relevant factors, including those set forth in paragraph (e), the court determines that the prospective adoptive parents are properly qualified to adopt the minor child and that the adoption is in the best interests of the minor child, the court shall promptly order the transfer of custody of the minor child to the prospective adoptive parents, under the supervision of the adoption entity. The court may establish

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000803

reasonable requirements for the transfer of custody in the transfer order, including a reasonable period of time to transition final custody to the prospective adoptive parents. The adoption entity shall thereafter provide monthly supervision reports to the department until finalization of the adoption. If the child has been determined to be dependent by the court, the department shall provide information to the prospective adoptive parents at the time they receive placement of the dependent child regarding approved parent training classes available within the community. The department shall file with the court an acknowledgment of the parent's receipt of the information regarding approved parent training classes available within the community.

(e) In determining whether the best interests of the child are served by transferring the custody of the minor child to the prospective adoptive parent selected by the parent or adoption entity, the court shall consider and weigh all relevant factors, including, but not limited to:

1. The permanency offered;

2. The established bonded relationship between the child and the current caregiver in any potential adoptive home in which the child has been residing;

3. The stability of the potential adoptive home in which the child has been residing as well as the desirability of maintaining continuity of placement;

DRAFT

402.281 Gold Seal Quality Care Program.-

(4) In order to obtain and maintain a designation as a Gold Seal Quality Care provider, a child care facility, large family child care home, or family day care home must meet the following additional criteria:

(a) The child care provider must not have had any class I violations, as defined by rule, within the 2 years preceding its application for designation as a Gold Seal Quality Care provider. Commission of a class I violation shall be grounds for termination of the designation as a Gold Seal Quality Care provider until the provider has no class I violations for a period of 2 years from the date of the Department's final action.

(b) The child care provider must not have had three or more class II violations, as defined by rule, within the 2 years preceding its application for designation as a Gold Seal Quality Care provider. Commission of three or more class II violations within a 2-year period shall be grounds for termination of the designation as a Gold Seal Quality Care provider until the provider has no class II violations for a period of 1 year from the date of the Department's final action.

(c) The child care provider must not have been cited for the same class III violation, as defined by rule, three or more times and failed to correct the violation within 1 year after the date of each citation, within the 2 years preceding its application for designation as a Gold Seal

Quality Care provider. Commission of the same class III violation three or more times and failure to correct within the required time during a 2-year period may be grounds for termination of the designation as a Gold Seal Quality Care provider until the provider has no class III violations for a period of 1 year from the date of the Department's final action.

Section 22. Subsection (1) of section 402.301, Florida Statutes is amended to read:

402.301 Child care facilities; legislative intent and declaration of purpose and policy.— It is the legislative intent to protect the health, safety, and well-being of the children of the state and to promote their emotional and intellectual development and care. Toward that end:

(1) It is the purpose of ss. 402.301-402.319 to establish statewide minimum standards for the care and protection of children in child care facilities, to ensure maintenance of these standards, and to approve county administration and enforcement to regulate conditions in such facilities through a program of licensing. During periods of rule development, the department may work with a child care advisory council that consists of child care facility owners/directors, operators of family day care homes, and large family child care operators.

Section 23. Subsections (8) and (11) of section 402.302, Florida Statutes, are amended to read:

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

402.302 Definitions.-As used in this chapter, the term:

(8) "Family day care home" means an occupied primary residence belonging to the operator of the family day care home in which child care is regularly provided for children from at least two unrelated families and which receives a payment, fee, or grant for any of the children receiving care, whether or not operated for profit. Household children under 13 years of age, when on the premises of the family day care home or on a field trip with children enrolled in child care, shall be included in the overall capacity of the licensed home. A family day care home shall be allowed to provide care for one of the following groups of children, which shall include household children present in the home under 13 years of age:

(a) A maximum of four children from birth to 12 months of age.

(b) A maximum of three children from birth to 12 months of age, and other children, for a maximum total of six children.

(c) A maximum of six preschool children if all are older than 12 months of age.

(d) A maximum of 10 children if no more than 5 are preschool age and, of those 5, no more than 2 are under 12 months of age.

(11) "Large family child care home" means an occupied primary residence belonging to the large family child care

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

home operator in which child care is regularly provided for children from at least two unrelated families, which receives a payment, fee, or grant for any of the children receiving care, whether or not operated for profit, and which has at least two full-time child care personnel on the premises during the hours of operation. One of the two full-time child care personnel must be the owner or occupant of the residence. A large family child care home must first have operated as a licensed family day care home for 2 years, with an operator who has had a child development associate credential or its equivalent and for 1 year, before seeking licensure as a large family child care home. Household children under 13 years of age, when on the premises of the large family child care home or on a field trip with children enrolled in child care, shall be included in the overall capacity of the licensed home. A large family child care home shall be allowed to provide care for one of the following groups of children, which shall include household children present in the home under 13 years of age:

(a) A maximum of 8 children from birth to 24 months of age.

(b) A maximum of 12 children, with no more than 4 children under 24 months of age.

Section 24. Subparagraphs (1), (7), and (9) of section 402.305, Florida Statutes, are amended to read:

402.305 Licensing standards; child care facilities.—

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000809

(1) LICENSING STANDARDS. — The department shall establish licensing standards that each licensed child care facility must meet regardless of the origin or source of the fees used to operate the facility or the type of children served by the facility.

(a) The standards shall be designed to address the following areas:

1. The health, sanitation, safety, and adequate physical surroundings for all children in child care.

2. The health and nutrition of all children in child care.

3. The child development needs of all children in child care.

(b) All standards established under ss. 402.301-402.319 must be consistent with the rules adopted by the State Fire Marshal for child care facilities. However, if the facility is operated in a public school, the department shall use the public-school fire code, as provided in the rules of the State Board of Education, as the minimum standard for firesafety.

(c) The minimum standards for child care facilities shall be adopted in the rules of the department and shall address the areas delineated in this section. The standards shall align with the requirements of this section and the Child Care and Development Fund pursuant to 45 C.F.R. part 98. The department, in adopting rules to establish minimum standards for child care facilities, shall recognize that

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000810

different age groups of children may require different standards. The department may adopt different minimum standards for facilities that serve children in different age groups, including school-age children. The department shall also adopt by rule a definition for child care which distinguishes between child care programs that require child care licensure and after-school programs that do not require licensure. Notwithstanding any other provision of law to the contrary, minimum child care licensing standards shall be developed to provide for reasonable, affordable, and safe before-school and after-school care. After-school programs that otherwise meet the criteria for exclusion from licensure may provide snacks and meals through the federal Afterschool Meal Program (AMP) administered by the Department of Health in accordance with federal regulations and standards. The Department of Health shall consider meals to be provided through the AMP only if the program is actively participating in the AMP, is in good standing with the department, and the meals meet AMP requirements. Standards, at a minimum, shall allow for a credentialed director to supervise multiple before-school and after-school sites.

(7) SANITATION AND SAFETY.—

(a) Minimum standards shall include requirements for sanitary and safety conditions, first aid treatment, emergency procedures, and pediatric cardiopulmonary resuscitation. The minimum standards shall require that at

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000811

least one staff person trained and certified in cardiopulmonary resuscitation, as evidenced by current documentation of course completion, must be present at all times that children are present.

(b) In the case of a child care program for school-age children attending before and after school programs on the public-school site, the department shall use the public school fire code, as adopted in the rules of the State Board of Education, as the minimum standard for firesafety. In the case of a child care program for school-age children attending before-school and after-school programs on a site operated by a municipality, the department shall adopt rules for such site and intended use.

(c) Some type of communications system, such as a pocket pager or beeper, shall be provided to a parent whose child is in drop-in child care to ensure the immediate return of the parent to the child, if necessary.

(9) ADMISSIONS AND RECORDKEEPING.—

(a) Minimum standards shall include requirements for preadmission and periodic health examinations, requirements for immunizations, and requirements for maintaining emergency information and health records on all children.

(b) At time of enrollment and annually thereafter, ~~During the months of August and September of each year,~~ each child care facility shall provide parents of children enrolled in the facility detailed information regarding the causes, symptoms, and transmission of the influenza virus

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000812

in an effort to educate those parents regarding the importance of immunizing their children against influenza as recommended by the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention.

(c) At time of enrollment and annually thereafter, ~~During the months of April and September of each year,~~ at a minimum, each facility shall provide parents of children enrolled in the facility information regarding the potential for a distracted adult to fail to drop off a child at the facility and instead leave the child in the adult's vehicle upon arrival at the adult's destination. The child care facility shall also give parents information about resources with suggestions to avoid this occurrence. The department shall develop a flyer or brochure with this information that shall be posted to the department's website, which child care facilities may choose to reproduce and provide to parents to satisfy the requirements of this paragraph.

(d) Because of the nature and duration of drop-in child care, requirements for preadmission and periodic health examinations and requirements for medically signed records of immunization required for child care facilities shall not apply. A parent of a child in drop-in child care shall, however, be required to attest to the child's health condition and the type and current status of the child's immunizations.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

(e) Any child shall be exempt from medical or physical examination or medical or surgical treatment upon written request of the parent or guardian of such child who objects to the examination and treatment. However, the laws, rules, and regulations relating to contagious or communicable diseases and sanitary matters shall not be violated because of any exemption from or variation of the health and immunization minimum standards.

(10) TRANSPORTATION SAFETY.—

(a) Minimum standards shall include all of the following for child care facilities, family day care homes, and large family child care homes:

1. Requirements ~~requirements~~ for child restraints or seat belts in vehicles used by child care facilities and large family child care homes to transport children,

2. Requirements ~~requirements~~ for annual inspections of such ~~the~~ vehicles,

3. Limitations ~~limitations~~ on the number of children that may be transported in ~~the~~ such vehicles,

4. Procedures ~~procedures~~ to ensure that ~~avoid leaving~~ children are not inadvertently left in vehicles when transported by the facility, and that systems are in place to ensure accountability for children transported by such facilities and homes ~~the child care facility~~.

5. Prior to providing transportation services or reinstating transportation services after a lapse or discontinuation of more than 30 days, a child care

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

facility, family day care home, or large family child care home shall be approved by the department to transport children. Approval by the department is based on the provider's demonstration of compliance with all current rules for transportation.

(b) A child care facility, family day care home, or large family child care home is not responsible for the safe transport of children when they are being transported by a parent or guardian.

Section 25. Subsection (3) of section 402.3054, Florida Statutes, is amended to read:

402.3054 Child enrichment service providers.-

(3) A child enrichment service provider shall be of good moral character based upon screening. This screening shall be conducted in the same manner as that of child care personnel and as provided in s. 402.305(2)(a)~~chapter 435~~, using the level 2 standards for screening set forth in that chapter. A child enrichment service provider must meet the screening requirements prior to providing services to a child in a child care facility. A child enrichment service provider who has met the screening standards shall not be required to be under the direct and constant supervision of child care personnel.

Section 26. Subsections (13) through (15) of section 402.313, Florida Statutes, are amended to read:

402.313 Family day care homes.—

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

(13) The department shall, by rule, establish minimum standards for family day care homes that are required to be licensed by county licensing ordinance or county licensing resolution or that voluntarily choose to be licensed. The standards should include requirements for staffing, training, maintenance of immunization records, minimum health and safety standards, reduced standards for the regulation of child care during evening hours by municipalities and counties, and enforcement of standards. The standards shall align with the requirements of this section and the Child Care and Development Fund pursuant to 45 C.F.R. part 98.

(14) At time of enrollment and annually thereafter, ~~During the months of August and September of each year,~~ each family day care home shall provide parents of children enrolled in the home detailed information regarding the causes, symptoms, and transmission of the influenza virus in an effort to educate those parents regarding the importance of immunizing their children against influenza as recommended by the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention.

(15) At time of enrollment and annually thereafter, ~~During the months of April and September of each year,~~ at a minimum, each family day care home shall provide parents of children attending the family day care home information regarding the potential for a distracted adult to fail to

drop off a child at the family day care home and instead leave the child in the adult's vehicle upon arrival at the adult's destination. The family day care home shall also give parents information about resources with suggestions to avoid this occurrence. The department shall develop a flyer or brochure with this information that shall be posted to the department's website, which family day care homes may choose to reproduce and provide to parents to satisfy the requirements of this subsection.

Section 27. Subsections (7), (9), and (10) of section 402.3131, Florida Statutes, are amended to read:

402.3131 Large Family Child Care homes. -

(7) The department shall, by rule, establish minimum standards for large family child care homes. The standards shall include, at a minimum, requirements for staffing, maintenance of immunization records, minimum health standards, minimum safety standards, minimum square footage, and enforcement of standards. The standards shall align with the requirements of this section and the Child Care and Development Fund pursuant to 45 C.F.R. part 98.

(9) At time of enrollment and annually thereafter, ~~During the months of August and September of each year,~~ each large family child care home shall provide parents of children enrolled in the home detailed information regarding the causes, symptoms, and transmission of the influenza virus in an effort to educate those parents regarding the importance of immunizing their children

against influenza as recommended by the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention.

(10) At time of enrollment and annually thereafter, ~~During the months of April and September of each year,~~ at a minimum, each large family child care home shall provide parents of children attending the large family child care home information regarding the potential for a distracted adult to fail to drop off a child at the large family child care home and instead leave the child in the adult's vehicle upon arrival at the adult's destination. The large family child care home shall also give parents information about resources with suggestions to avoid this occurrence. The department shall develop a flyer or brochure with this information that shall be posted to the department's website, which large family child care homes may choose to reproduce and provide to parents to satisfy the requirements of this subsection.

Section 28. Subsections (6) and (7) of section 409.1451, Florida Statutes, are amended to read:

409.1451 The Road-to-Independence Program

(6) Accountability.- The department shall develop outcome measures for the program and other performance measures ~~in order~~ to maintain oversight of the program. ~~No later than January 31 of each year, the department shall prepare a report on the outcome measures and the department's oversight activities and submit the report to~~

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000818

~~the President of the Senate, the Speaker of the House of Representatives, and the committees with jurisdiction over issues relating to children and families in the Senate and the House of Representatives. The report must include:~~

~~(a) An analysis of performance on the outcome measures developed under this section reported for each community-based care lead agency and compared with the performance of the department on the same measures.~~

~~(b) A description of the department's oversight of the program, including, by lead agency, any programmatic or fiscal deficiencies found, corrective actions required, and current status of compliance.~~

~~(c) Any rules adopted or proposed under this section since the last report. For the purposes of the first report, any rules adopted or proposed under this section must be included~~.

(7) INDEPENDENT LIVING SERVICES ADVISORY COUNCIL.—The secretary shall establish the Independent Living Services Advisory Council for the purpose of reviewing and making recommendations concerning the implementation and operation of the provisions of s. 39.6251 and the Road-to-Independence Program. The advisory council shall function as specified in this subsection until the Legislature determines that the advisory council can no longer provide a valuable contribution to the department's efforts to achieve the

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-000819

goals of the services designed to enable a young adult to live independently.

(a) The advisory council shall assess the implementation and operation of the Road-to-Independence Program and advise the department on actions that would improve the ability of these Road-to-Independence Program services to meet the established goals. The advisory council shall keep the department informed of problems being experienced with the services, barriers to the effective and efficient integration of services and support across systems, and successes that the system of services has achieved. The department shall consider, but is not required to implement, the recommendations of the advisory council.

~~(b) The advisory council shall report to the secretary on the status of the implementation of the Road to Independence Program, efforts to publicize the availability of the Road to Independence Program, the success of the services, problems identified, recommendations for department or legislative action, and the department's implementation of the recommendations contained in the Independent Living Services Integration Workgroup Report submitted to the appropriate substantive committees of the Legislature by December 31, 2013. The department shall submit a report by December 31 of each year to the Governor, the President of the Senate, and the Speaker of the House~~

DRAFT

AMERICAN OVERSIGHT

SAMH BILL #1

A bill to be entitled

An act relating to substance abuse and mental health; amending s. 394.455, F.S.; revising the definition of mental illness; amending s. 394.492, F.S.; revising definitions; amending s. 394.674, F.S.; revising eligibility requirements for department-funded substance abuse and mental health services; amending s. 916.111, F.S.; revising definitions; amending s. 394.656, F.S.; revising requirements for the criminal justice, mental health, and substance abuse reinvestment grant program; amending s. 394.658, F.S.; revising requirements for selection of grant award recipients; amending s. 397.321, F.S.; revising duties of the department of children and families; amending s. 397.99, F.S.; revising requirements for the school substance abuse prevention partnership grant; amending s. 394.908, F.S.; revising requirements for substance abuse and mental health funding equity; providing for an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (28) of section 394.455, Florida Statutes, is amended to read:

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

DRAFT

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000823

394.455 Definitions.—As used in this part, the term:

(28) "Mental illness" means an impairment of the mental or emotional processes that exercise conscious control of one's actions or of the ability to perceive or understand reality, which impairment substantially interferes with the person's ability to meet the ordinary demands of living. For the purposes of this part, the term does not include a developmental disability as defined in chapter 393, intoxication, or conditions manifested only by dementia, antisocial behavior, or substance abuse.

Section 2. Subsections (1) and (4) through (6) of section 394.492, Florida Statutes, are amended to read:

394.492 Definitions.—As used in ss. 394.490-394.497, the term:

(1) "Adolescent" means a person who is at least 13 years of age but under 21 ~~18~~ years of age.

(4) "Child or adolescent at risk of emotional disturbance" means a person under 21 ~~18~~ years of age who has an increased likelihood of becoming emotionally disturbed because of risk factors that include, but are not limited to:

(a) Being homeless.

(b) Having a family history of mental illness.

(c) Being physically or sexually abused or neglected.

(d) Abusing alcohol or other substances.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

DRAFT

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000824

(e) Being infected with human immunodeficiency virus (HIV).

(f) Having a chronic and serious physical illness.

(g) Having been exposed to domestic violence.

(h) Having multiple out-of-home placements.

(i) Having trauma exposure.

(5) "Child or adolescent who has an emotional disturbance" means a person under 21 ~~18~~ years of age who is diagnosed with a mental, emotional, or behavioral disorder of sufficient duration to meet one of the diagnostic categories specified in the most recent edition of the Diagnostic and Statistical Manual of the American Psychiatric Association, but who does not exhibit behaviors that substantially interfere with or limit his or her role or ability to function in the family, school, or community. The emotional disturbance must not be considered to be a temporary response to a stressful situation. The term does not include a child or adolescent who meets the criteria for involuntary placement under s. 394.467(1).

(6) "Child or adolescent who has a serious emotional disturbance or mental illness" means a person under 21 ~~18~~ years of age who:

(a) Is diagnosed as having a mental, emotional, or behavioral disorder that meets one of the diagnostic categories specified in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association; and

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000825

(b) Exhibits behaviors that substantially interfere with or limit his or her role or ability to function in the family, school, or community, which behaviors are not considered to be a temporary response to a stressful situation.

The term includes a child or adolescent who meets the criteria for involuntary placement under s. 394.467(1).

Section 3. Section 394.674, Florida Statutes, is amended to read:

394.674 Eligibility for publicly funded substance abuse and mental health services; fee collection requirements.—

(1) To be eligible to receive substance abuse and mental health services funded by the department, an individual must be indigent, uninsured, or underinsured, and must meet at least one of the following criteria: ~~a member of at least one of the department's priority populations approved by the Legislature. The priority populations include:~~

(a) For ~~adult~~ mental health services, an individual must be one of the following:

1. An adult who has a serious mental illness, as defined by the department using criteria that minimally include diagnosis, prognosis, functional impairment, and receipt of disability income for a psychiatric condition.

2. An adult at risk of serious mental illness, defined as:

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000826

a. Having a primary diagnosis of a mental disorder as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association that is not considered a serious mental illness; or

b. Having a diagnosed condition defined as Z-codes in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association; and

c. Experiencing a severe stressful event and problems with coping or symptoms placing the individual at risk of more restrictive interventions.

3. A child or adolescent at risk of emotional disturbance as defined in s. 394.492(4).

4. A child or adolescent who has an emotional disturbance as defined in s. 394.492(5).

5. A child or adolescent who has a serious emotional disturbance or mental illness as defined in s. 394.492(6).

6. An individual who has a primary diagnosis of mental illness and a co-occurring substance use disorder.

An individual experiencing an acute mental or emotional crisis as defined in s. 394.67(17).

~~Adults who have severe and persistent mental illness, as designated by the department using criteria that include severity of diagnosis, duration of the mental illness, ability to independently perform activities of daily~~

~~through the Center for Mental Health Services and Substance Abuse Prevention and Treatment Block Grants.~~

(2) Providers receiving department funds for behavioral health services must give priority to the following populations:

1. Pregnant women and women with dependent children.

2. Intravenous drug users.

3. Individuals who have a substance use disorder and have been ordered by the court to receive treatment.

4. Parents and caretakers with child welfare involvement and parents and caretakers who put children at risk due to substance abuse.

5. Children and adolescents under state supervision.

6. Individuals involved in the criminal justice system including those deemed incompetent to proceed or not guilty by reason of insanity under chapter 916.

(3)~~(2)~~ Crisis services, as defined in s. 394.67, must, within the limitations of available state and local matching resources, be available to each individual ~~person~~ who is eligible for services under subsection (1), regardless of the individual's ~~person's~~ ability to pay for such services. An individual ~~person~~ who is experiencing a mental health crisis and who does not meet the criteria for involuntary examination under s. 394.463(1), or an individual ~~person~~ who is experiencing a substance abuse crisis and who does not meet the involuntary admission criteria in s. 397.675, must contribute to the cost of his

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

or her care and treatment pursuant to the sliding fee scale developed under subsection (5) ~~(4)~~, unless charging a fee is contraindicated because of the crisis situation.

(4)~~(3)~~ Mental health services, substance abuse services, and crisis services, as defined in s. 394.67, must, within the limitations of available state and local matching resources, be available to each individual ~~person~~ who is eligible for services under subsection (1). Such individual ~~person~~ must contribute to the cost of his or her care and treatment pursuant to the sliding fee scale developed under subsection (5)~~(4)~~.

(5)~~(4)~~ The department shall adopt rules to implement ~~client~~ eligibility, ~~client~~ enrollment, and fee collection requirements for publicly funded substance abuse and mental health services.

(a) The rules must require each provider under contract with the department or managing entities which enrolls eligible individuals ~~persons~~ into treatment to develop a sliding fee scale for individuals ~~persons~~ who have a net family income at or above 150 percent of the Federal Poverty Income Guidelines, unless otherwise required by state or federal law. The sliding fee scale must use the uniform schedule of discounts by which a provider under contract with the department or managing entity discount~~s~~ its established ~~client~~ charges for services supported with state, federal, or local funds, using, at a minimum, factors such as family income,

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000831

financial assets, and family size as declared by the individual ~~person~~ or the individual's ~~person's~~ guardian. The rules must include uniform criteria to be used by all service providers in developing the schedule of discounts for the sliding fee scale.

(b) The rules must address the most expensive types of treatment, such as residential and inpatient treatment, in order to make it possible for an individual ~~client~~ to responsibly contribute to his or her mental health or substance abuse care without jeopardizing the family's financial stability. An individual ~~person~~ who is not eligible for Medicaid and whose net family income is less than 150 percent of the Federal Poverty Income Guidelines must pay a portion of his or her treatment costs which is comparable to the copayment amount required by the Medicaid program for Medicaid clients pursuant to s. 409.9081.

(c) The rules must require that individuals ~~persons~~ who receive financial assistance from the Federal Government because of a disability and are in long-term residential treatment settings contribute to their board and care costs and treatment costs and must be consistent with the provisions in s. 409.212.

(6)~~(5)~~ An individual ~~person~~ who meets the eligibility criteria in subsection (1) shall be served in accordance with the appropriate district substance abuse and mental health services plan specified in s. 394.75 and within available resources.

(k) One representative of the Florida Association of Managing Entities;

~~(l) One representative of the Florida Council for Community Mental Health;~~

(l)~~(m)~~ One representative of the National Alliance of Mental Illness;

(m)~~(n)~~ One representative of the Florida Prosecuting Attorneys Association;

(n)~~(o)~~ One representative of the Florida Public Defender Association; and

(o)~~(p)~~ One administrator of an assisted living facility that holds a limited mental health license.

(3) The committee shall serve as the advisory body to review policy and funding issues that help reduce the impact of persons with mental illness and substance abuse disorders on communities, criminal justice agencies, and the court system. The committee shall advise the department in selecting priorities for grants~~ and investing awarded grant moneys~~.

(4) The committee must have experience in substance use and mental health disorders, community corrections, and law enforcement. ~~To the extent possible, the committee shall have expertise in grant review and grant application scoring.~~

(5)(a) A county, a consortium of counties, or an~~ not for profit community provider or managing~~ entity designated by the county planning council or committee, as described

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

DRAFT

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000834

in s. 394.657, may apply for a 1-year planning grant or a 3-year implementation or expansion grant. ~~The purpose of the grants is to demonstrate that investment in treatment efforts related to mental illness, substance abuse disorders, or co-occurring mental health and substance abuse disorders results in a reduced demand on the resources of the judicial, corrections, juvenile detention, and health and social services systems.~~

(b) To be eligible to receive a ~~1 year planning grant or a 3 year implementation or expansion~~ grant:

1. A county applicant must have a planning council or committee that is in compliance with the membership requirements set forth in this section.

2. A county planning council or committee may designate a not-for-profit community provider, ~~or~~ a managing entity as described in s. 394.9082, a sheriff's office, or a local law enforcement agency to apply on behalf of the county. The county planning council or committee must provide ~~must be designated by the county planning council or committee and have written authorization to submit an application. A not-for-profit community provider or managing entity must have~~ written authorization for each designated entity and each submitted application.

(c) The department may award a 3-year implementation or expansion grant to an applicant who has not received a 1-year planning grant.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000835

(d) The department may require an applicant to conduct sequential intercept mapping for a project. For purposes of this paragraph, the term "sequential intercept mapping" means a process for reviewing a local community's mental health, substance abuse, criminal justice, and related systems and identifying points of interceptions where interventions may be made to prevent an individual with a substance abuse disorder or mental illness from deeper involvement in the criminal justice system.

(6) The department ~~grant review and selection committee~~ shall select the grant recipients in collaboration with the Department of Corrections, the Department of Juvenile Justice, the Department of Elder Affairs, the Office of the State Courts Administrator, and the Department of Veterans' Affairs. ~~and notify the department in writing of the recipients' names.~~ Contingent upon the availability of funds ~~and upon notification by the grant review and selection committee of those applicants approved to receive planning, implementation, or expansion grants~~, the department may transfer funds appropriated for the grant program to a selected grant recipient.

Section 5. Subsection (1) is amended, and subsection (3) is repealed of section 394.658, Florida Statutes, to read:

394.658 Criminal Justice, Mental Health, and Substance Abuse Reinvestment Grant Program requirements.—

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

DRAFT

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000836

(1) The ~~Criminal Justice, Mental Health, and Substance Abuse Statewide Grant Review Committee, in collaboration with the~~ Department of Children and Families, in collaboration with the Department of Corrections, the Department of Juvenile Justice, the Department of Elder~~ly~~ Affairs, the Department of Veterans' Affairs, and the Office of the State Courts Administrator, shall establish criteria to be used to review submitted applications and to select the county that will be awarded a 1-year planning grant or a 3-year implementation or expansion grant. A planning, implementation, or expansion grant may not be awarded unless the application of the county meets the established criteria.

(a) The application criteria for a 1-year planning grant must include a requirement that the applicant county or counties have a strategic plan to initiate systemic change to identify and treat individuals who have a mental illness, substance abuse disorder, or co-occurring mental health and substance abuse disorders who are in, or at risk of entering, the criminal or juvenile justice systems. The 1-year planning grant must be used to develop effective collaboration efforts among participants in affected governmental agencies, including the criminal, juvenile, and civil justice systems, mental health and substance abuse treatment service providers, transportation programs, and housing assistance programs. The collaboration efforts shall be the basis for developing a problem-solving model

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000837

and strategic plan for treating adults and juveniles who are in, or at risk of entering, the criminal or juvenile justice system and doing so at the earliest point of contact, taking into consideration public safety. The planning grant shall include strategies to divert individuals from judicial commitment to community-based service programs offered by the Department of Children and Families in accordance with ss. 916.13 and 916.17.

(b) The application criteria for a 3-year implementation or expansion grant shall require information from a county that demonstrates its completion of a well-established collaboration plan that includes public-private partnership models and the application of evidence-based practices. The implementation or expansion grants may support programs and diversion initiatives that include, but need not be limited to:

1. Mental health courts;

2. Diversion programs;

3. Alternative prosecution and sentencing programs;

4. Crisis intervention teams;

5. Treatment accountability services;

6. Specialized training for criminal justice, juvenile justice, and treatment services professionals;

7. Service delivery of collateral services such as housing, transitional housing, and supported employment; and

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000838

8. Reentry services to create or expand mental health and substance abuse services and supports for affected persons.

(c) Each county application must include the following information:

1. An analysis of the current population of the jail and juvenile detention center in the county, which includes:

a. The screening and assessment process that the county uses to identify an adult or juvenile who has a mental illness, substance abuse disorder, or co-occurring mental health and substance abuse disorders;

b. The percentage of each category of persons admitted to the jail and juvenile detention center that represents people who have a mental illness, substance abuse disorder, or co-occurring mental health and substance abuse disorders; and

c. An analysis of observed contributing factors that affect population trends in the county jail and juvenile detention center.

2. A description of the strategies the county intends to use to serve one or more clearly defined subsets of the population of the jail and juvenile detention center who have a mental illness or to serve those at risk of arrest and incarceration. The proposed strategies may include identifying the population designated to receive the new interventions, a description of the services and

DRAFT

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000839

supervision methods to be applied to that population, and the goals and measurable objectives of the new interventions. The interventions a county may use with the target population may include, but are not limited to:

a. Specialized responses by law enforcement agencies;

b. Centralized receiving facilities for individuals evidencing behavioral difficulties;

c. Postbooking alternatives to incarceration;

d. New court programs, including pretrial services and specialized dockets;

e. Specialized diversion programs;

f. Intensified transition services that are directed to the designated populations while they are in jail or juvenile detention to facilitate their transition to the community;

g. Specialized probation processes;

h. Day-reporting centers;

i. Linkages to community-based, evidence-based treatment programs for adults and juveniles who have mental illness or substance abuse disorders; and

j. Community services and programs designed to prevent high-risk populations from becoming involved in the criminal or juvenile justice system.

3. The projected effect the proposed initiatives will have on the population and the budget of the jail and juvenile detention center. The information must include:

DRAFT

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000840

a. The county's estimate of how the initiative will reduce the expenditures associated with the incarceration of adults and the detention of juveniles who have a mental illness;

b. The methodology that the county intends to use to measure the defined outcomes and the corresponding savings or averted costs;

c. The county's estimate of how the cost savings or averted costs will sustain or expand the mental health and substance abuse treatment services and supports needed in the community; and

d. How the county's proposed initiative will reduce the number of individuals judicially committed to a state mental health treatment facility.

4. The proposed strategies that the county intends to use to preserve and enhance its community mental health and substance abuse system, which serves as the local behavioral health safety net for low-income and uninsured individuals.

5. The proposed strategies that the county intends to use to continue the implemented or expanded programs and initiatives that have resulted from the grant funding.

~~(3) Using the criteria adopted by rule, the county designated or established criminal justice, juvenile justice, mental health, and substance abuse planning council or committee shall prepare the county or counties' application for the 1-year planning or 3-year~~

~~implementation or expansion grant. The county shall submit the completed application to the statewide grant review committee.~~

Section 6. Section 394.908, Florida Statutes, is amended to read:

394.908 Substance abuse and mental health funding equity; distribution of appropriations.—In recognition of the historical inequity in the funding of substance abuse and mental health services for the department's districts and regions and to rectify this inequity and provide for equitable funding in the future throughout the state, the following funding process shall be used:

(1) Funding thresholds for substance abuse and mental health services in each of the current districts, statewide, shall be established based on the current number of individuals in need per district of substance abuse and mental health services, respectively.

(2) "Individuals in need" means those persons who meet eligibility criteria pursuant to s. 394.674 ~~fit the profile of the respective priority populations~~ and require mental health or substance abuse services.

(3) Any additional funding beyond the 2005-2006 fiscal year base appropriation for ~~alcohol, drug abuse, and~~ substance abuse and mental health services shall be allocated to districts for substance abuse and mental health services based on:

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000842

(a) Epidemiological estimates of disabilities that apply to eligible individuals ~~the respective priority populations~~.

(b) A pro rata share distribution that ensures districts below the statewide average funding level per ~~individual in each priority population of~~ "individuals in need" receive funding necessary to achieve equity.

(4) Individuals ~~Priority populations for individuals~~ in need shall be displayed for each district and distributed concurrently with the approved operating budget. The display ~~by priority population~~ shall show: The annual number of individuals served based on prior year actual numbers, the annual cost per individual served, and the estimated number of the total ~~priority population for~~ individuals in need.

(5) The annual cost per individual served shall be defined as the total actual funding for either mental health or substance abuse services ~~each priority population~~ divided by the number of individuals served receiving either mental health or substance abuse services in ~~the priority population for~~ that year.

Section 7. Present subsections (17) through (20) of section 397.321, Florida Statutes, are redesignated as subsections (16) through (19), respectively, and present subsection (16) of that section is deleted, to read:

397.321 Duties of the department.—The department shall:

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000843

~~(16) Develop a certification process by rule for community substance abuse prevention coalitions.~~

(16)~~(17)~~ Provide sufficient and qualified staff to oversee all contracting, licensing, and planning functions within each of its substate offices, as permitted by legislative appropriation.

(17)~~(18)~~ Ensure that the department develops and ensures the implementation of procedures between its Substance Abuse Program Office and other departmental programs regarding the referral of substance abuse impaired persons to service providers, information on service providers, information on methods of identifying substance abuse impaired juveniles, and procedures for referring such juveniles to appropriate service providers.

(18)~~(19)~~ Designate addictions receiving facilities for the purpose of ensuring that only qualified service providers render services within the context of a secure facility setting.

(19)~~(20)~~ Develop and prominently display on its website all forms necessary for the implementation and administration of parts IV and V of this chapter. These forms shall include, but are not limited to, a petition for involuntary admission form and all related pleading forms, and a form to be used by law enforcement agencies pursuant to s. 397.6772. The department shall notify law enforcement agencies, the courts, and other state agencies of the existence and availability of such forms.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000845

substance use, intervention activities serving students who are experimenting with substance use, or both prevention and intervention activities, if a comprehensive approach is indicated as a result of a needs assessment.

(c) Grants may target youth, parents, and teachers and other school staff, coaches, social workers, case managers, and other prevention stakeholders.

(d) Performance measures for grant program activities shall measure improvements in student attitudes or behaviors as determined by the department.

(e) At least 50 percent of the grant funds available for local projects must be allocated to support the replication of prevention programs and practices that are based on research and have been evaluated and proven effective. The Managing Entity ~~department~~ shall develop related qualifying criteria.

(f) In order to be considered for funding, the grant application shall include the following assurances and information:

1. A letter from the administrators of the programs collaborating on the project, such as the school principal, community-based organization executive director, or recreation department director, confirming that the grant application has been reviewed and that each partner is committed to supporting implementation of the activities described in the grant proposal.

Coding: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-000846

2. A rationale and description of the program and the services to be provided, including:

a. An analysis of prevention issues related to the substance abuse prevention profile of the target population.

b. A description of other primary substance use and related risk factors.

c. Goals and objectives based on the findings of the needs assessment.

d. The selection of programs or strategies that have been shown to be effective in addressing the findings of the needs assessment.

e. A method of identifying the target group for universal prevention strategies, and a method for identifying the individual student participants in selected and indicated prevention strategies.

f. A description of how students will be targeted.

g. Provisions for the participation of parents and guardians in the program.

h. An evaluation component to measure the effectiveness of the program in accordance with performance-based program budgeting effectiveness measures.

i. A program budget, which includes the amount and sources of local cash and in-kind resources committed to the budget and which establishes, to the satisfaction of the Managing Entity ~~department~~, that the entity will make a

509.XXX Mobile food dispensing vehicle; preemption. –

1. As used in this section, the term:
    a. “Mobile food dispensing vehicle” means any vehicle mounted public food service establishment which is self-propelled or otherwise movable from place to place and includes self-contained utilities, such as gas, water, electricity and liquid waste disposal.
    b. “Division” means the Division of Hotels and Restaurants of the Department of Business and Professional Regulation.

2. A municipality, county or other local government entity may not:
    a. Require a separate license, registration or permit beyond those established by the division pursuant to F.S. 509.241 as a condition for the mobile food dispensing vehicle’s operation within the jurisdiction.
    b. Require a separate license, registration or permit fee beyond those established by the division pursuant to F.S. 509.251. as a condition for the mobile food dispensing vehicle’s operation within the jurisdiction.
    c. Entirely or constructively prohibit mobile food dispensing vehicles from operating within the jurisdiction.

23-01453-20

A bill to be entitled

An act relating to the tax on aviation fuel; repealing ss. 206.9815, 206.9825, 206.9826, 206.9835, 206.9837, 206.9845, 206.9855, 206.9865, and 206.9875, F.S., relating to definitions, the tax on aviation fuel, refunds for certain air carriers, administration of the tax, disclosure of price, distribution of proceeds, refunds to carriers, commercial air carrier registration and reporting, and a tax exemption for federal entities, respectively; amending ss. 163.3206, 206.42, 206.9915, 207.003, 207.005, 213.053, 332.007, and 332.009, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Part III of chapter 206, Florida Statutes, composed of ss. 206.9815, 206.9825, 206.9826, 206.9835, 206.9837, 206.9845, 206.9855, 206.9865, and 206.9875, Florida Statutes, is repealed.

Section 2. Paragraph (a) of subsection (2) of section 163.3206, Florida Statutes, is amended to read:

163.3206 Fuel terminals.—

(2) As used in this section, the term:

(a) "Fuel" means any of the following:

1. Alternative fuel as defined in s. 525.01.

2. Aviation fuel. As used in this subparagraph, the term "aviation fuel" means fuel for use in aircraft, and includes aviation gasoline and aviation turbine fuels and kerosene, as

AMERICAN OVERSIGHT

determined by the American Society for Testing and Materials specifications D-910 or D-1655 or current specifications ~~as defined in s. 206.9815~~.

3. Diesel fuel as defined in s. 206.86.

4. Gas as defined in s. 206.9925.

5. Motor fuel as defined in s. 206.01.

6. Natural gas fuel as defined in s. 206.9951.

7. Oil as defined in s. 206.9925.

8. Petroleum fuel as defined in s. 525.01.

9. Petroleum product as defined in s. 206.9925.

Section 3. Subsection (1) of section 206.42, Florida Statutes, is amended to read:

206.42 Aviation gasoline exempt from excise tax; rocket fuel.—

(1) Each and every dealer in aviation gasoline in the state by whatever name designated who purchases from any terminal supplier, importer, or wholesaler, and sells, aviation gasoline (A.S.T.M. specification D-910 or current specification), of such quality not adapted for use in ordinary motor vehicles, being designed for and sold and exclusively used for aircraft, is exempted from the payment of taxes levied under this part~~, but is subject to the tax levied under part III~~.

Section 4. Subsection (3) of section 206.9915, Florida Statutes, is amended to read:

206.9915 Legislative intent and general provisions.—

(3) The provisions of ss. 206.01, 206.02, 206.026, 206.027, 206.028, 206.051, 206.052, 206.054, 206.055, 206.06, 206.07, 206.075, 206.08, 206.09, 206.095, 206.10, 206.11, 206.12, 206.13, 206.14, 206.15, 206.16, 206.17, 206.175, 206.18,

AMERICAN OVERSIGHT

206.199, 206.20, 206.204, 206.205, 206.21, 206.215, 206.22, 206.24, 206.27, 206.28, 206.416, 206.42, 206.44, 206.48, 206.49, 206.56, 206.59, 206.86, 206.87, 206.872, 206.873, 206.8735, 206.874, 206.8741, 206.8745, 206.94, and 206.945~~, and 206.9815~~ shall, as far as lawful or practicable, be applicable to the levy and collection of taxes imposed pursuant to this part as if fully set out in this part and made expressly applicable to the taxes imposed herein.

Section 5. Section 207.003, Florida Statutes, is amended to read:

207.003 Privilege tax levied.—A tax for the privilege of operating any commercial motor vehicle upon the public highways of this state shall be levied upon every motor carrier at a rate which includes the minimum rates provided in parts I, II, and III ~~IV~~ of chapter 206 on each gallon of diesel fuel or motor fuel used for the propulsion of a commercial motor vehicle by such motor carrier within the state.

Section 6. Subsection (3) of section 207.005, Florida Statutes, is amended to read:

207.005 Returns and payment of tax; delinquencies; calculation of fuel used during operations in the state; credit; bond.—

(3) For the purpose of computing the carrier's liability for the road privilege tax, the total gallons of fuel used in the propulsion of any commercial motor vehicle in this state shall be multiplied by the rates provided in parts I, II, and III ~~IV~~ of chapter 206. From the sum determined by this calculation, there shall be allowed a credit equal to the amount of the tax per gallon under parts I, II, and III ~~IV~~ of chapter

AMERICAN OVERSIGHT

206 for each gallon of fuel purchased in this state during the reporting period when the diesel fuel or motor fuel tax was paid at the time of purchase. If the tax paid under parts I, II, and III ~~IV~~ of chapter 206 exceeds the total tax due under this chapter, the excess may be allowed as a credit against future tax payments, until the credit is fully offset or until eight calendar quarters shall have passed since the end of the calendar quarter in which the credit accrued, whichever occurs first. A refund may be made for this credit provided it exceeds $10.

Section 7. Paragraph (h) of subsection (8) of section 213.053, Florida Statutes, is amended to read:

213.053 Confidentiality and information sharing.—

(8) Notwithstanding any other provision of this section, the department may provide:

(h) Names and addresses of persons paying taxes pursuant to part III ~~IV~~ of chapter 206 to the Department of Environmental Protection in the conduct of its official duties.

Disclosure of information under this subsection shall be pursuant to a written agreement between the executive director and the agency. Such agencies, governmental or nongovernmental, shall be bound by the same requirements of confidentiality as the Department of Revenue. Breach of confidentiality is a misdemeanor of the first degree, punishable as provided by s. 775.082 or s. 775.083.

Section 8. Subsection (7) of section 332.007, Florida Statutes, is amended to read:

332.007 Administration and financing of aviation and

AMERICAN OVERSIGHT

airport programs and projects; state plan.—

(7) Subject to the availability of appropriated funds ~~in addition to aviation fuel tax revenues~~, the department may participate in the capital cost of eligible public airport and aviation discretionary capacity improvement projects. The annual legislative budget request shall be based on the funding required for discretionary capacity improvement projects in the aviation and airport work program.

(a) The department shall provide priority funding in support of:

1. Land acquisition which provides additional capacity at the qualifying international airport or at that airport's supplemental air carrier airport.

2. Runway and taxiway projects that add capacity or are necessary to accommodate technological changes in the aviation industry.

3. Airport access transportation projects that improve direct airport access and are approved by the airport sponsor.

4. International terminal projects that increase international gate capacity.

(b) No single airport shall secure discretionary capacity improvement project funds in excess of 50 percent of the total discretionary capacity improvement project funds available in any given budget year.

(c) Unless prohibited by the General Appropriations Act or by law, the department may transfer funds within each category of the airport and aviation discretionary capacity improvement program to maximize the aviation services or federal aid available to this state.

AMERICAN OVERSIGHT

(d) The department may fund up to 50 percent of the portion of eligible project costs which are not funded by the Federal Government except that the department may initially fund up to 75 percent of the cost of land acquisition for a new airport or for the expansion of an existing airport which is owned and operated by a municipality, a county, or an authority, and shall be reimbursed to the normal statutory project share when federal funds become available or within 10 years after the date of acquisition, whichever is earlier.

Section 9. Section 332.009, Florida Statutes, is amended to read:

332.009 Limitation on operation of chapter. ~~Nothing in this chapter shall be construed to authorize expenditure of aviation fuel tax revenues on space transportation projects.~~ Nothing in this chapter shall be construed to limit the department's authority under s. 331.360.

Section 10. This act shall take effect July 1, 2020.

AMERICAN OVERSIGHT

23-01005B-20

A bill to be entitled

An act relating to the Department of Health; amending s. 400.93, F.S.; exempting allopathic, osteopathic, and chiropractic physicians who sell or rent electrostimulation medical equipment and supplies therefor from home medical equipment provider licensure requirements under certain circumstances; creating s. 456.4501, F.S.; implementing the Interstate Medical Licensure Compact in this state; providing for an interstate medical licensure process; providing requirements for multistate practice; creating s. 456.4502, F.S.; establishing that a formal hearing before the Division of Administrative Hearings must be held if there are any disputed issues of material fact when the licenses of certain physicians and osteopathic physicians are suspended or revoked by this state under the compact; requiring the department to notify the division of a petition for a formal hearing within a specified timeframe; requiring the administrative law judge to issue a recommended order; requiring the Board of Medicine or the Board of Osteopathic Medicine, as applicable, to determine and issue final orders in certain cases; providing the department with standing to seek judicial review of any final order of the boards; creating s. 456.4504, F.S.; authorizing the department to adopt rules; creating s. 456.48, F.S.; providing a definition for the term "health insurer"; requiring the Financial Services Commission, in consultation with the Agency

AMERICAN OVERSIGHT

for Health Care Administration, to adopt a certain standard form by rule for the verification of credentials of specified health care professionals; requiring health insurers and hospitals to use only such form after a specified date; creating s. 456.481, F.S.; providing definitions and applicability; specifying requirements for applicants to qualify for expedited credentialing and certain payments; requiring managed care plans to treat applicants as participating providers in their respective health benefit plan networks for certain purposes; authorizing a managed care plan to exclude applicants from its participating provider directory or listings while their applications are pending approval; specifying a managed care plan's right to recover certain amounts from an applicant under certain circumstances; prohibiting an applicant or the applicant's medical group from charging a managed care plan enrollee certain fees; providing construction; creating s. 458.3129, F.S.; establishing that a physician licensed under the Interstate Medical Licensure Compact is deemed to be licensed under chapter 458, F.S.; creating s. 459.074, F.S.; establishing that an osteopathic physician licensed under the Interstate Medical Licensure Compact is deemed to be licensed under chapter 459, F.S.; amending s. 491.003, F.S.; defining the terms "certified master social worker" and "practice of generalist social work"; amending s. 491.004, F.S.;

AMERICAN OVERSIGHT

deleting an obsolete provision; amending s. 491.0045, F.S.; revising intern registration requirements; providing an exception; amending s. 491.005, F.S.; revising the licensure requirements for clinical social workers, marriage and family therapists, and mental health counselors; amending s. 491.0057, F.S.; requiring that an applicant for dual licensure as a marriage and family therapist pass an examination designated by the Board of Clinical Social Work, Marriage and Family Therapy, and Mental Health Counseling instead of by the department; amending s. 491.006, F.S.; revising requirements for licensure or certification by endorsement for certain professions; repealing s. 491.0065, F.S., relating to requirements for instruction on HIV and AIDS; amending s. 491.007, F.S.; deleting a provision providing certified master social workers an exemption from continuing education requirements; deleting a provision requiring the board to establish a procedure for the biennial renewal of intern registrations; amending s. 491.009, F.S.; revising who may enter an order denying licensure or imposing penalties against an applicant for licensure under certain circumstances; amending s. 491.012, F.S.; providing that using the title "certified master social worker" without a valid, active license is unlawful; amending s. 491.0145, F.S.; requiring the department to license an applicant for designation as a certified master social worker under certain circumstances; requiring applicants for designation as

AMERICAN OVERSIGHT

a certified master social worker to submit their application to the board; deleting a provision relating to the nonrefundable fee for examination set by department rule; authorizing the board to adopt rules; amending s. 491.0149, F.S.; requiring the use of applicable professional titles by specified licensees and registrants on social media and other specified materials; repealing s. 491.015, F.S., relating to duties of the department as to certified master social workers; creating s. 627.444, F.S.; providing a definition for the term "health insurer"; specifying requirements and procedures for, and restrictions on, health insurers and their designees in reviewing credentialing applications; authorizing a civil cause of action for applicants against health insurers or designees under certain circumstances; amending s. 768.28, F.S.; designating the state commissioners of the Interstate Medical Licensure Compact Commission and other members or employees of the commission as state agents for the purpose of applying sovereign immunity and waivers of sovereign immunity; requiring the commission to pay certain claims or judgments; authorizing the commission to maintain insurance coverage to pay such claims or judgments; amending s. 414.065, F.S.; conforming a cross-reference; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

AMERICAN OVERSIGHT

Section 1. Paragraph (l) is added to subsection (5) of section 400.93, Florida Statutes, to read:

400.93 Licensure required; exemptions; unlawful acts; penalties.—

(5) The following are exempt from home medical equipment provider licensure, unless they have a separate company, corporation, or division that is in the business of providing home medical equipment and services for sale or rent to consumers at their regular or temporary place of residence pursuant to the provisions of this part:

(l) Physicians licensed under chapter 458, chapter 459, or chapter 460 for the sale or rental of electrostimulation medical equipment and electrostimulation medical equipment supplies to their patients in the course of their practice.

Section 2. Section 456.4501, Florida Statutes, is created to read:

456.4501 Interstate Medical Licensure Compact.—The Interstate Medical Licensure Compact is hereby enacted into law and entered into by this state with all other jurisdictions legally joining therein in the form substantially as follows:

SECTION 1

PURPOSE

In order to strengthen access to health care, and in recognition of the advances in the delivery of health care, the member states of the Interstate Medical Licensure Compact have allied in common purpose to develop a comprehensive process that complements the existing licensing and regulatory authority of

AMERICAN OVERSIGHT

state medical boards, provides a streamlined process that allows physicians to become licensed in multiple states, thereby enhancing the portability of a medical license and ensuring the safety of patients. The Compact creates another pathway for licensure and does not otherwise change a state's existing Medical Practice Act. The Compact also adopts the prevailing standard for licensure and affirms that the practice of medicine occurs where the patient is located at the time of the physician-patient encounter, and therefore, requires the physician to be under the jurisdiction of the state medical board where the patient is located. State medical boards that participate in the Compact retain the jurisdiction to impose an adverse action against a license to practice medicine in that state issued to a physician through the procedures in the Compact.

SECTION 2

DEFINITIONS

In this compact:

(a) "Bylaws" means those bylaws established by the Interstate Commission pursuant to Section 11 for its governance, or for directing and controlling its actions and conduct.

(b) "Commissioner" means the voting representative appointed by each member board pursuant to Section 11.

(c) "Conviction" means a finding by a court that an individual is guilty of a criminal offense through adjudication, or entry of a plea of guilt or no contest to the charge by the offender. Evidence of an entry of a conviction of a criminal

AMERICAN OVERSIGHT

offense by the court shall be considered final for purposes of disciplinary action by a member board.

(d) "Expedited License" means a full and unrestricted medical license granted by a member state to an eligible physician through the process set forth in the Compact.

(e) "Interstate Commission" means the interstate commission created pursuant to Section 11.

(f) "License" means authorization by a state for a physician to engage in the practice of medicine, which would be unlawful without the authorization.

(g) "Medical Practice Act" means laws and regulations governing the practice of allopathic and osteopathic medicine within a member state.

(h) "Member Board" means a state agency in a member state that acts in the sovereign interests of the state by protecting the public through licensure, regulation, and education of physicians as directed by the state government.

(i) "Member State" means a state that has enacted the Compact.

(j) "Practice of medicine" means the diagnosis, treatment, prevention, cure, or relieving of a human disease, ailment, defect, complaint, or other physical or mental condition, by attendance, advice, device, diagnostic test, or other means, or offering, undertaking, attempting to do, or holding oneself out as able to do, any of these acts.

(k) "Physician" means any person who:

(1) Is a graduate of a medical school accredited by the Liaison Committee on Medical Education, the Commission on Osteopathic College Accreditation, or a medical school listed in

AMERICAN OVERSIGHT

the International Medical Education Directory or its equivalent;

(2) Passed each component of the United States Medical Licensing Examination (USMLE) or the Comprehensive Osteopathic Medical Licensing Examination (COMLEX-USA) within three attempts, or any of its predecessor examinations accepted by a state medical board as an equivalent examination for licensure purposes;

(3) Successfully completed graduate medical education approved by the Accreditation Council for Graduate Medical Education or the American Osteopathic Association;

(4) Holds specialty certification or a time-unlimited specialty certificate recognized by the American Board of Medical Specialties or the American Osteopathic Association's Bureau of Osteopathic Specialists; however, the specialty certification or a time-unlimited specialty certificate does not have to be maintained once a physician is initially determined to be eligible for expedited licensure through the Compact;

(5) Possesses a full and unrestricted license to engage in the practice of medicine issued by a member board;

(6) Has never been convicted, received adjudication, deferred adjudication, community supervision, or deferred disposition for any offense by a court of appropriate jurisdiction;

(7) Has never held a license authorizing the practice of medicine subjected to discipline by a licensing agency in any state, federal, or foreign jurisdiction, excluding any action related to non-payment of fees related to a license;

(8) Has never had a controlled substance license or permit suspended or revoked by a state or the United States Drug

AMERICAN OVERSIGHT

Enforcement Administration; and

(9) Is not under active investigation by a licensing agency or law enforcement authority in any state, federal, or foreign jurisdiction.

(l) "Offense" means a felony, high court misdemeanor, or crime of moral turpitude.

(m) "Rule" means a written statement by the Interstate Commission promulgated pursuant to Section 12 of the Compact that is of general applicability, implements, interprets, or prescribes a policy or provision of the Compact, or an organizational, procedural, or practice requirement of the Interstate Commission, and has the force and effect of statutory law in a member state, if the rule is not inconsistent with the laws of the member state. The term includes the amendment, repeal, or suspension of an existing rule.

(n) "State" means any state, commonwealth, district, or territory of the United States.

(o) "State of Principal License" means a member state where a physician holds a license to practice medicine and which has been designated as such by the physician for purposes of registration and participation in the Compact.

SECTION 3

ELIGIBILITY

(a) A physician must meet the eligibility requirements as defined in Section 2(k) to receive an expedited license under the terms and provisions of the Compact.

(b) A physician who does not meet the requirements of

AMERICAN OVERSIGHT

Section 2(k) may obtain a license to practice medicine in a member state if the individual complies with all laws and requirements, other than the Compact, relating to the issuance of a license to practice medicine in that state.

SECTION 4

DESIGNATION OF STATE OF PRINCIPAL LICENSE

(a) A physician shall designate a member state as the state of principal license for purposes of registration for expedited licensure through the Compact if the physician possesses a full and unrestricted license to practice medicine in that state, and the state is:

(1) The state of primary residence for the physician, or

(2) The state where at least 25% of the practice of medicine occurs, or

(3) The location of the physician's employer, or

(4) If no state qualifies under subsection (1), subsection (2), or subsection (3), the state designated as state of residence for purpose of federal income tax.

(b) A physician may redesignate a member state as state of principal license at any time, as long as the state meets the requirements in subsection (a).

(c) The Interstate Commission is authorized to develop rules to facilitate redesignation of another member state as the state of principal license.

SECTION 5

APPLICATION AND ISSUANCE OF EXPEDITED LICENSURE

AMERICAN OVERSIGHT

(a) A physician seeking licensure through the Compact shall file an application for an expedited license with the member board of the state selected by the physician as the state of principal license.

(b) Upon receipt of an application for an expedited license, the member board within the state selected as the state of principal license shall evaluate whether the physician is eligible for expedited licensure and issue a letter of qualification, verifying or denying the physician's eligibility, to the Interstate Commission.

(1) Static qualifications, which include verification of medical education, graduate medical education, results of any medical or licensing examination, and other qualifications as determined by the Interstate Commission through rule, shall not be subject to additional primary source verification where already primary source verified by the state of principal license.

(2) The member board within the state selected as the state of principal license shall, in the course of verifying eligibility, perform a criminal background check of an applicant, including the use of the results of fingerprint or other biometric data checks compliant with the requirements of the Federal Bureau of Investigation, with the exception of federal employees who have suitability determination in accordance with U.S. 5 C.F.R. s. 731.202.

(3) Appeal on the determination of eligibility shall be made to the member state where the application was filed and shall be subject to the law of that state.

AMERICAN OVERSIGHT

(c) Upon verification in subsection (b), physicians eligible for an expedited license shall complete the registration process established by the Interstate Commission to receive a license in a member state selected pursuant to subsection (a), including the payment of any applicable fees.

(d) After receiving verification of eligibility under subsection (b) and any fees under subsection (c), a member board shall issue an expedited license to the physician. This license shall authorize the physician to practice medicine in the issuing state consistent with the Medical Practice Act and all applicable laws and regulations of the issuing member board and member state.

(e) An expedited license shall be valid for a period consistent with the licensure period in the member state and in the same manner as required for other physicians holding a full and unrestricted license within the member state.

(f) An expedited license obtained through the Compact shall be terminated if a physician fails to maintain a license in the state of principal licensure for a non-disciplinary reason, without redesignation of a new state of principal licensure.

(g) The Interstate Commission is authorized to develop rules regarding the application process, including payment of any applicable fees, and the issuance of an expedited license.

SECTION 6

FEES FOR EXPEDITED LICENSURE

(a) A member state issuing an expedited license authorizing the practice of medicine in that state, or the regulating

AMERICAN OVERSIGHT

authority of the member state, may impose a fee for a license issued or renewed through the Compact.

(b) The Interstate Commission is authorized to develop rules regarding fees for expedited licenses. However, those rules shall not limit the authority of a member state, or the regulating authority of the member state, to impose and determine the amount of a fee under subsection (a).

SECTION 7

RENEWAL AND CONTINUED PARTICIPATION

(a) A physician seeking to renew an expedited license granted in a member state shall complete a renewal process with the Interstate Commission if the physician:

(1) Maintains a full and unrestricted license in a state of principal license;

(2) Has not been convicted, received adjudication, deferred adjudication, community supervision, or deferred disposition for any offense by a court of appropriate jurisdiction;

(3) Has not had a license authorizing the practice of medicine subject to discipline by a licensing agency in any state, federal, or foreign jurisdiction, excluding any action related to non-payment of fees related to a license; and

(4) Has not had a controlled substance license or permit suspended or revoked by a state or the United States Drug Enforcement Administration.

(b) Physicians shall comply with all continuing professional development or continuing medical education requirements for renewal of a license issued by a member state.

AMERICAN OVERSIGHT

(c) The Interstate Commission shall collect any renewal fees charged for the renewal of a license and distribute the fees to the applicable member board.

(d) Upon receipt of any renewal fees collected in subsection (c), a member board shall renew the physician's license.

(e) Physician information collected by the Interstate Commission during the renewal process will be distributed to all member boards.

(f) The Interstate Commission is authorized to develop rules to address renewal of licenses obtained through the Compact.

SECTION 8

COORDINATED INFORMATION SYSTEM

(a) The Interstate Commission shall establish a database of all physicians licensed, or who have applied for licensure, under Section 5.

(b) Notwithstanding any other provision of law, member boards shall report to the Interstate Commission any public action or complaints against a licensed physician who has applied or received an expedited license through the Compact.

(c) Member boards shall report disciplinary or investigatory information determined as necessary and proper by rule of the Interstate Commission.

(d) Member boards may report any non-public complaint, disciplinary, or investigatory information not required by subsection (c) to the Interstate Commission.

AMERICAN OVERSIGHT

(e) Member boards shall share complaint or disciplinary information about a physician upon request of another member board.

(f) All information provided to the Interstate Commission or distributed by member boards shall be confidential, filed under seal, and used only for investigatory or disciplinary matters.

(g) The Interstate Commission is authorized to develop rules for mandated or discretionary sharing of information by member boards.

SECTION 9

JOINT INVESTIGATIONS

(a) Licensure and disciplinary records of physicians are deemed investigative.

(b) In addition to the authority granted to a member board by its respective Medical Practice Act or other applicable state law, a member board may participate with other member boards in joint investigations of physicians licensed by the member boards.

(c) A subpoena issued by a member state shall be enforceable in other member states.

(d) Member boards may share any investigative, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the Compact.

(e) Any member state may investigate actual or alleged violations of the statutes authorizing the practice of medicine in any other member state in which a physician holds a license

AMERICAN OVERSIGHT

FL-SEN-20-0201-B-20-0202-A-000874

to practice medicine.

SECTION 10

DISCIPLINARY ACTIONS

(a) Any disciplinary action taken by any member board against a physician licensed through the Compact shall be deemed unprofessional conduct which may be subject to discipline by other member boards, in addition to any violation of the Medical Practice Act or regulations in that state.

(b) If a license granted to a physician by the member board in the state of principal license is revoked, surrendered or relinquished in lieu of discipline, or suspended, then all licenses issued to the physician by member boards shall automatically be placed, without further action necessary by any member board, on the same status. If the member board in the state of principal license subsequently reinstates the physician's license, a license issued to the physician by any other member board shall remain encumbered until that respective member board takes action to reinstate the license in a manner consistent with the Medical Practice Act of that state.

(c) If disciplinary action is taken against a physician by a member board not in the state of principal license, any other member board may deem the action conclusive as to matter of law and fact decided, and:

(1) Impose the same or lesser sanction(s) against the physician so long as such sanctions are consistent with the Medical Practice Act of that state; or

(2) Pursue separate disciplinary action against the

AMERICAN OVERSIGHT

physician under its respective Medical Practice Act, regardless of the action taken in other member states.

(d) If a license granted to a physician by a member board is revoked, surrendered or relinquished in lieu of discipline, or suspended, then any license(s) issued to the physician by any other member board(s) shall be suspended, automatically and immediately without further action necessary by the other member board(s), for ninety (90) days upon entry of the order by the disciplining board, to permit the member board(s) to investigate the basis for the action under the Medical Practice Act of that state. A member board may terminate the automatic suspension of the license it issued prior to the completion of the ninety (90) day suspension period in a manner consistent with the Medical Practice Act of that state.

SECTION 11

INTERSTATE MEDICAL LICENSURE COMPACT COMMISSION

(a) The member states hereby create the "Interstate Medical Licensure Compact Commission."

(b) The purpose of the Interstate Commission is the administration of the Interstate Medical Licensure Compact, which is a discretionary state function.

(c) The Interstate Commission shall be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth in the Compact, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of the Compact.

AMERICAN OVERSIGHT

(d) The Interstate Commission shall consist of two voting representatives appointed by each member state who shall serve as Commissioners. In states where allopathic and osteopathic physicians are regulated by separate member boards, or if the licensing and disciplinary authority is split between multiple member boards within a member state, the member state shall appoint one representative from each member board. A Commissioner shall be a(n):

(1) Allopathic or osteopathic physician appointed to a member board;

(2) Executive director, executive secretary, or similar executive of a member board; or

(3) Member of the public appointed to a member board.

(e) The Interstate Commission shall meet at least once each calendar year. A portion of this meeting shall be a business meeting to address such matters as may properly come before the Commission, including the election of officers. The chairperson may call additional meetings and shall call for a meeting upon the request of a majority of the member states.

(f) The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

(g) Each Commissioner participating at a meeting of the Interstate Commission is entitled to one vote. A majority of Commissioners shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission. A Commissioner shall not delegate a vote to another Commissioner. In the absence of its Commissioner, a member state may delegate voting authority for a

AMERICAN OVERSIGHT

specified meeting to another person from that state who shall meet the requirements of subsection (d).

(h) The Interstate Commission shall provide public notice of all meetings and all meetings shall be open to the public. The Interstate Commission may close a meeting, in full or in portion, where it determines by a two-thirds vote of the Commissioners present that an open meeting would be likely to:

(1) Relate solely to the internal personnel practices and procedures of the Interstate Commission;

(2) Discuss matters specifically exempted from disclosure by federal statute;

(3) Discuss trade secrets, commercial, or financial information that is privileged or confidential;

(4) Involve accusing a person of a crime, or formally censuring a person;

(5) Discuss information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(6) Discuss investigative records compiled for law enforcement purposes; or

(7) Specifically relate to the participation in a civil action or other legal proceeding.

(i) The Interstate Commission shall keep minutes which shall fully describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, including record of any roll call votes.

(j) The Interstate Commission shall make its information and official records, to the extent not otherwise designated in the Compact or by its rules, available to the public for

AMERICAN OVERSIGHT

inspection.

(k) The Interstate Commission shall establish an executive committee, which shall include officers, members, and others as determined by the bylaws. The executive committee shall have the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. When acting on behalf of the Interstate Commission, the executive committee shall oversee the administration of the Compact including enforcement and compliance with the provisions of the Compact, its bylaws and rules, and other such duties as necessary.

(l) The Interstate Commission may establish other committees for governance and administration of the Compact.

SECTION 12

POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The Interstate Commission shall have the duty and power to:

(a) Oversee and maintain the administration of the Compact;

(b) Promulgate rules which shall be binding to the extent and in the manner provided for in the Compact;

(c) Issue, upon the request of a member state or member board, advisory opinions concerning the meaning or interpretation of the Compact, its bylaws, rules, and actions;

(d) Enforce compliance with Compact provisions, the rules promulgated by the Interstate Commission, and the bylaws, using all necessary and proper means, including but not limited to the use of judicial process;

(e) Establish and appoint committees including, but not

AMERICAN OVERSIGHT

limited to, an executive committee as required by Section 11, which shall have the power to act on behalf of the Interstate Commission in carrying out its powers and duties;

(f) Pay, or provide for the payment of the expenses related to the establishment, organization, and ongoing activities of the Interstate Commission;

(g) Establish and maintain one or more offices;

(h) Borrow, accept, hire, or contract for services of personnel;

(i) Purchase and maintain insurance and bonds;

(j) Employ an executive director who shall have such powers to employ, select or appoint employees, agents, or consultants, and to determine their qualifications, define their duties, and fix their compensation;

(k) Establish personnel policies and programs relating to conflicts of interest, rates of compensation, and qualifications of personnel;

(l) Accept donations and grants of money, equipment, supplies, materials and services, and to receive, utilize, and dispose of it in a manner consistent with the conflict of interest policies established by the Interstate Commission;

(m) Lease, purchase, accept contributions or donations of, or otherwise to own, hold, improve or use, any property, real, personal, or mixed;

(n) Sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal, or mixed;

(o) Establish a budget and make expenditures;

(p) Adopt a seal and bylaws governing the management and

AMERICAN OVERSIGHT

operation of the Interstate Commission;

(q) Report annually to the legislatures and governors of the member states concerning the activities of the Interstate Commission during the preceding year. Such reports shall also include reports of financial audits and any recommendations that may have been adopted by the Interstate Commission;

(r) Coordinate education, training, and public awareness regarding the Compact, its implementation, and its operation;

(s) Maintain records in accordance with the bylaws;

(t) Seek and obtain trademarks, copyrights, and patents; and

(u) Perform such functions as may be necessary or appropriate to achieve the purposes of the Compact.

SECTION 13

FINANCE POWERS

(a) The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff. The total assessment, subject to appropriation, must be sufficient to cover the annual budget approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount shall be allocated upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

(b) The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same.

AMERICAN OVERSIGHT

(c) The Interstate Commission shall not pledge the credit of any of the member states, except by, and with the authority of, the member state.

(d) The Interstate Commission shall be subject to a yearly financial audit conducted by a certified or licensed public accountant and the report of the audit shall be included in the annual report of the Interstate Commission.

SECTION 14

ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

(a) The Interstate Commission shall, by a majority of Commissioners present and voting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the Compact within twelve (12) months of the first Interstate Commission meeting.

(b) The Interstate Commission shall elect or appoint annually from among its Commissioners a chairperson, a vice-chairperson, and a treasurer, each of whom shall have such authority and duties as may be specified in the bylaws. The chairperson, or in the chairperson's absence or disability, the vice-chairperson, shall preside at all meetings of the Interstate Commission.

(c) Officers selected in subsection (b) shall serve without remuneration from the Interstate Commission.

(d) The officers and employees of the Interstate Commission shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or

AMERICAN OVERSIGHT

arising out of, or relating to, an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of Interstate Commission employment, duties, or responsibilities; provided that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

(1) The liability of the executive director and employees of the Interstate Commission or representatives of the Interstate Commission, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state, may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

(2) The Interstate Commission shall defend the executive director, its employees, and subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend such Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error or omission that occurred within the scope of Interstate Commission employment, duties or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of

AMERICAN OVERSIGHT

Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

(3) To the extent not covered by the state involved, member state, or the Interstate Commission, the representatives or employees of the Interstate Commission shall be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

SECTION 15

RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

(a) The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of the Compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of the Compact, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

AMERICAN OVERSIGHT

(b) Rules deemed appropriate for the operations of the Interstate Commission shall be made pursuant to a rulemaking process that substantially conforms to the "Model State Administrative Procedure Act" of 2010, and subsequent amendments thereto.

(c) Not later than thirty (30) days after a rule is promulgated, any person may file a petition for judicial review of the rule in the United States District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices, provided that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the authority granted to the Interstate Commission.

SECTION 16

OVERSIGHT OF INTERSTATE COMPACT

(a) The executive, legislative, and judicial branches of state government in each member state shall enforce the Compact and shall take all actions necessary and appropriate to effectuate the Compact's purposes and intent. The provisions of the Compact and the rules promulgated hereunder shall have standing as statutory law but shall not override existing state authority to regulate the practice of medicine.

(b) All courts shall take judicial notice of the Compact

AMERICAN OVERSIGHT

and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of the Compact which may affect the powers, responsibilities or actions of the Interstate Commission.

(c) The Interstate Commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, the Compact, or promulgated rules.

SECTION 17

ENFORCEMENT OF INTERSTATE COMPACT

(a) The Interstate Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of the Compact.

(b) The Interstate Commission may, by majority vote of the Commissioners, initiate legal action in the United States District Court for the District of Columbia, or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its principal offices, to enforce compliance with the provisions of the Compact, and its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

(c) The remedies herein shall not be the exclusive remedies

AMERICAN OVERSIGHT

of the Interstate Commission. The Interstate Commission may avail itself of any other remedies available under state law or the regulation of a profession.

SECTION 18

DEFAULT PROCEDURES

(a) The grounds for default include, but are not limited to, failure of a member state to perform such obligations or responsibilities imposed upon it by the Compact, or the rules and bylaws of the Interstate Commission promulgated under the Compact.

(b) If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under the Compact, or the bylaws or promulgated rules, the Interstate Commission shall:

(1) Provide written notice to the defaulting state and other member states, of the nature of the default, the means of curing the default, and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state must cure its default; and

(2) Provide remedial training and specific technical assistance regarding the default.

(c) If the defaulting state fails to cure the default, the defaulting state shall be terminated from the Compact upon an affirmative vote of a majority of the Commissioners and all rights, privileges, and benefits conferred by the Compact shall terminate on the effective date of termination. A cure of the

AMERICAN OVERSIGHT

default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

(d) Termination of membership in the Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to terminate shall be given by the Interstate Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(e) The Interstate Commission shall establish rules and procedures to address licenses and physicians that are materially impacted by the termination of a member state, or the withdrawal of a member state.

(f) The member state which has been terminated is responsible for all dues, obligations, and liabilities incurred through the effective date of termination including obligations, the performance of which extends beyond the effective date of termination.

(g) The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or which has been terminated from the Compact, unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

(h) The defaulting state may appeal the action of the Interstate Commission by petitioning the United States District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

AMERICAN OVERSIGHT

SECTION 19

DISPUTE RESOLUTION

(a) The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes which are subject to the Compact and which may arise among member states or member boards.

(b) The Interstate Commission shall promulgate rules providing for both mediation and binding dispute resolution as appropriate.

SECTION 20

MEMBER STATES, EFFECTIVE DATE AND AMENDMENT

(a) Any state is eligible to become a member state of the Compact.

(b) The Compact shall become effective and binding upon legislative enactment of the Compact into law by no less than seven (7) states. Thereafter, it shall become effective and binding on a state upon enactment of the Compact into law by that state.

(c) The governors of non-member states, or their designees, shall be invited to participate in the activities of the Interstate Commission on a non-voting basis prior to adoption of the Compact by all states.

(d) The Interstate Commission may propose amendments to the Compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by

AMERICAN OVERSIGHT

unanimous consent of the member states.

SECTION 21

WITHDRAWAL

(a) Once effective, the Compact shall continue in force and remain binding upon each and every member state; provided that a member state may withdraw from the Compact by specifically repealing the statute which enacted the Compact into law.

(b) Withdrawal from the Compact shall be by the enactment of a statute repealing the same, but shall not take effect until one (1) year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member state.

(c) The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing the Compact in the withdrawing state.

(d) The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty (60) days of its receipt of notice provided under subsection (c).

(e) The withdrawing state is responsible for all dues, obligations and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

(f) Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the Compact or upon such later date as determined by the Interstate Commission.

AMERICAN OVERSIGHT

(g) The Interstate Commission is authorized to develop rules to address the impact of the withdrawal of a member state on licenses granted in other member states to physicians who designated the withdrawing member state as the state of principal license.

SECTION 22
DISSOLUTION

(a) The Compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the Compact to one (1) member state.

(b) Upon the dissolution of the Compact, the Compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

SECTION 23
SEVERABILITY AND CONSTRUCTION

(a) The provisions of the Compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the Compact shall be enforceable.

(b) The provisions of the Compact shall be liberally construed to effectuate its purposes.

(c) Nothing in the Compact shall be construed to prohibit the applicability of other interstate compacts to which the

AMERICAN OVERSIGHT

states are members.

SECTION 24

BINDING EFFECT OF COMPACT AND OTHER LAWS

(a) Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with the Compact.

(b) All laws in a member state in conflict with the Compact are superseded to the extent of the conflict.

(c) All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Commission, are binding upon the member states.

(d) All agreements between the Interstate Commission and the member states are binding in accordance with their terms.

(e) In the event any provision of the Compact exceeds the constitutional limits imposed on the legislature of any member state, such provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state.

Section 3. Section 456.4502, Florida Statutes, is created to read:

456.4502 Interstate Medical Licensure Compact; disciplinary proceedings.—A physician licensed pursuant to chapter 458, chapter 459, or s. 456.4501 whose license is suspended or revoked by this state pursuant to the Interstate Medical Licensure Compact as a result of disciplinary action taken against the physician's license in another state shall be granted a formal hearing before an administrative law judge from the Division of Administrative Hearings held pursuant to chapter

AMERICAN OVERSIGHT

120 if there are any disputed issues of material fact. In such proceedings:

(a) Notwithstanding s. 120.569(2), the department shall notify the division within 45 days after receipt of a petition or request for a formal hearing.

(b) The determination of whether the physician has violated the laws and rules regulating the practice of medicine or osteopathic medicine, as applicable, including a determination of the reasonable standard of care, is a conclusion of law that is to be determined by appropriate board, and is not a finding of fact to be determined by an administrative law judge.

(c) The administrative law judge shall issue a recommended order pursuant to chapter 120.

(d) The Board of Medicine or the Board of Osteopathic Medicine, as applicable, shall determine and issue the final order in each disciplinary case. Such order shall constitute final agency action.

(e) Any consent order or agreed-upon settlement is subject to the approval of the department.

(f) The department shall have standing to seek judicial review of any final order of the board, pursuant to s. 120.68.

Section 4. Section 456.4504, Florida Statutes, is created to read:

456.4504 Interstate Medical Licensure Compact rules.—The department may adopt rules to implement the Interstate Medical Licensure Compact.

Section 5. Section 456.48, Florida Statutes, is created to read:

456.48 Standardized credentialing application.—

AMERICAN OVERSIGHT

(1) As used in this section, the term "health insurer" means an authorized insurer offering health insurance as defined in s. 624.603, a managed care plan as defined in s. 409.962, or a health maintenance organization as defined in s. 641.19(12).

(2) The Financial Services Commission, in consultation with the Agency for Health Care Administration, shall adopt by rule a standardized credentialing form for verifying the credentials of an applicant licensed under chapter 458, chapter 459, chapter 461, or chapter 466. In prescribing a form under this section, the commission shall adopt the most current version of the credentialing application form provided by the Council for Affordable Quality Healthcare, Inc.

(3) Notwithstanding any other law to the contrary, effective January 1, 2021, or 6 months after the effective date of the rule adopting the standardized credentialing form, whichever is later, a health insurer or a hospital licensed under chapter 395 shall use only the standardized credentialing form approved by the commission to verify the credentials of an applicant licensed under chapter 458, chapter 459, chapter 461, or chapter 466.

Section 6. Section 456.481, Florida Statutes, is created to read:

456.481 Expedited credentialing process.—

(1) As used in this section, the term:

(a) "Applicant" means a person licensed under chapter 458, chapter 459, chapter 461, or chapter 466 who is applying for expedited credentialing under this section.

(b) "Enrollee" means an individual who is eligible to receive health care services under a managed care plan.

AMERICAN OVERSIGHT

(c) "Managed care plan" means an insurer issuing a health insurance policy pursuant to s. 627.6471 or s. 627.6472, a managed care plan as defined in s. 409.962, or a health maintenance organization as defined in s. 641.19(12).

(d) "Medical group" means an entity through which health care services are provided to individuals by two or more persons licensed under chapter 458, chapter 459, chapter 461, or chapter 466 and that receives reimbursement for such services.

(e) "Participating provider" means a person licensed under chapter 458, chapter 459, chapter 461, or chapter 466 who has contracted with a managed care plan to provide services to enrollees.

(2) This section applies only to an applicant who joins an established medical group that has a current contract in force with a managed care plan.

(3) To qualify for expedited credentialing under this section and for payment under subsection (4), an applicant must:

(a) Be licensed in this state by, and be in good standing with, the Board of Medicine, the Board of Osteopathic Medicine, the Board of Podiatric Medicine, or the Board of Dentistry, as applicable.

(b) Submit all documentation and any other information required by the managed care plan as necessary for the managed care plan to begin the credentialing process to include such applicant in its health benefit plan network.

(c) Agree to comply with the terms of the managed care plan's participating provider contract in force with the applicant's established medical group.

(4) For purposes of payment, after an applicant qualifies

AMERICAN OVERSIGHT

for expedited credentialing under subsection (3), the managed care plan shall consider the applicant a participating provider in its health benefit plan network when services are provided to the managed care plan's enrollees by the applicant, including:

(a) Authorizing the applicant to collect copayments from enrollees.

(b) Making payments to the applicant.

(c) Authorizing the applicant to provide services to enrollees.

(5) Pending the approval of an application submitted under this section, the managed care plan may exclude the applicant from the managed care plan's directory of participating providers or any other listing of participating providers.

(6) If, upon completion of the expedited credentialing process, the managed care plan determines that the applicant does not meet the managed care plan's credentialing requirements:

(a) The managed care plan may recover from the applicant or the applicant's medical group an amount equal to the difference between payments for in-network benefits and out-of-network benefits.

(b) The applicant or the applicant's medical group may retain any copayments collected or in the process of being collected as of the date of the managed care plan's determination.

(7) An enrollee in a managed care plan is not responsible, and must be held harmless, for the difference between the in-network payment to the applicant and the out-of-network charge of the applicant or the applicant's medical group for the

AMERICAN OVERSIGHT

service provided to the enrollee. The applicant and the applicant's medical group may not charge the enrollee for any portion of the applicant's fee which is not paid or reimbursed by the enrollee's managed care plan.

(8) A managed care plan that complies with this section is not subject to any liability for damages arising out of or in connection with, directly or indirectly, payment by the managed care plan to an applicant as if the applicant were a participating provider in the health benefit plan network.

Section 7. Section 458.3129, Florida Statutes, is created to read:

458.3129 Interstate Medical Licensure Compact.—A physician licensed to practice medicine under s. 456.4501 is deemed to also be licensed under this chapter.

Section 8. Section 459.074, Florida Statutes, is created to read:

459.074 Interstate Medical Licensure Compact.—A physician licensed to practice osteopathic medicine under s. 456.4501 is deemed to also be licensed under this chapter.

Section 9. Present subsections (2) through (7) of section 491.003, Florida Statutes, are redesignated as subsections (3) through (8), respectively, present subsections (8) through (17) are redesignated as subsections (10) through (19), respectively, and new subsections (2) and (9) are added to that section to read:

491.003 Definitions.—As used in this chapter:

(2) "Certified master social worker" means a person licensed under this chapter to practice generalist social work.

(9) The term "practice of generalist social work" means the

AMERICAN OVERSIGHT

application of social work theory, knowledge, methods, and ethics to and the professional use of self to restore or enhance social, psychosocial, or biopsychosocial functioning of individuals, couples, families, groups, organizations, and communities. The term includes the application of specialized knowledge and advanced practice skills to nondiagnostic assessment, treatment planning, implementation and evaluation, case management, information and referral, supervision, and consultation; to education, research, advocacy, community organization; and to the development, implementation, and administration of policies, programs, and activities.

Section 10. Subsections (3) and (4) of section 491.004, Florida Statutes, are amended to read:

491.004 Board of Clinical Social Work, Marriage and Family Therapy, and Mental Health Counseling.—

~~(3) No later than January 1, 1988, the Governor shall appoint nine members of the board as follows:~~

~~(a) Three members for terms of 2 years each.~~

~~(b) Three members for terms of 3 years each.~~

~~(c) Three members for terms of 4 years each.~~

(3) ~~(4)~~ As the terms of the ~~initial~~ members expire, the Governor shall appoint successors for terms of 4 years; and those members shall serve until their successors are appointed.

Section 11. Subsections (2) and (6) of section 491.0045, Florida Statutes, are amended to read:

491.0045 Intern registration; requirements.—

(2) The department shall register as a clinical social worker intern, marriage and family therapist intern, or mental health counselor intern each applicant who the board certifies

AMERICAN OVERSIGHT

has done all of the following:

(a) Completed the application form and remitted a nonrefundable application fee not to exceed $200, as set by board rule.~~;~~

(b)1. Completed the education requirements as specified in s. 491.005(1)(c), (3)(c), or (4)(c) for the profession for which he or she is applying for licensure, if needed; and

2. Submitted an acceptable supervision plan, as determined by the board, for meeting the practicum, internship, or field work required for licensure that was not satisfied in his or her graduate program.

(c) Identified a qualified supervisor.

(d) Completed an 8-hour Florida laws and rules course approved by the board.

(6) A registration issued on or before March 31, 2017, expires March 31, 2022, and may not be renewed or reissued. Any registration issued after March 31, 2017, expires 60 months after the date it is issued. The board may make a one-time exception from the requirements of this section in emergency or hardship cases, as defined by board rule, if ~~A subsequent intern registration may not be issued unless~~ the candidate has passed the theory and practice examination described in s. 491.005(1)(d), (3)(d), and (4)(d).

Section 12. Subsection (1), paragraph (b) of subsection (2), and subsections (3) and (4) of section 491.005, Florida Statutes, are amended to read:

491.005 Licensure by examination.—

(1) CLINICAL SOCIAL WORK.—Upon verification of documentation and payment of a fee not to exceed $200, as set by

AMERICAN OVERSIGHT

board rule, plus the actual per applicant cost ~~to the department~~ for purchase of the examination from the ~~American~~ Association of ~~State~~ Social Work ~~Worker's~~ Boards or its successor ~~a similar national organization~~, the department shall issue a license as a clinical social worker to an applicant who the board certifies:

(a) Has submitted an application and paid the appropriate fee.

(b)1. Has received a doctoral degree in social work from a graduate school of social work which at the time the applicant graduated was accredited by an accrediting agency recognized by the United States Department of Education or has received a master's degree in social work from a graduate school of social work which at the time the applicant graduated:

a. Was accredited by the Council on Social Work Education;

b. Was accredited by the Canadian Association of Schools of Social Work; or

c. Has been determined to have been a program equivalent to programs approved by the Council on Social Work Education by the Foreign Equivalency Determination Service of the Council on Social Work Education. An applicant who graduated from a program at a university or college outside of the United States or Canada must present documentation of the equivalency determination from the council in order to qualify.

2. The applicant's graduate program must have emphasized direct clinical patient or client health care services, including, but not limited to, coursework in clinical social work, psychiatric social work, medical social work, social casework, psychotherapy, or group therapy. The applicant's graduate program must have included all of the following

AMERICAN OVERSIGHT

coursework:

a. A supervised field placement which was part of the applicant's advanced concentration in direct practice, during which the applicant provided clinical services directly to clients.

b. Completion of 24 semester hours or 32 quarter hours in courses approved by board rule ~~theory of human behavior and practice methods as courses in clinically oriented services, including a minimum of one course in psychopathology, and no more than one course in research, taken in a school of social work accredited or approved pursuant to subparagraph 1~~.

~~3. If the course title which appears on the applicant's transcript does not clearly identify the content of the coursework, the applicant shall be required to provide additional documentation, including, but not limited to, a syllabus or catalog description published for the course.~~

(c) Has had at least 2 years of clinical social work experience, which took place subsequent to completion of a graduate degree in social work at an institution meeting the accreditation requirements of this section, under the supervision of a licensed clinical social worker or the equivalent who is a qualified supervisor as determined by the board. An individual who intends to practice in Florida to satisfy clinical experience requirements must register pursuant to s. 491.0045 before commencing practice. If the applicant's graduate program was not a program which emphasized direct clinical patient or client health care services as described in subparagraph (b)2., the supervised experience requirement must take place after the applicant has completed a minimum of 15

AMERICAN OVERSIGHT

semester hours or 22 quarter hours of the coursework required. A doctoral internship may be applied toward the clinical social work experience requirement. A licensed mental health professional must be on the premises when clinical services are provided by a registered intern in a private practice setting.

(d) Has passed a theory and practice examination designated ~~provided~~ by the board ~~department for this purpose~~.

(e) Has demonstrated, in a manner designated by board rule ~~of the board~~, knowledge of the laws and rules governing the practice of clinical social work, marriage and family therapy, and mental health counseling.

(2) CLINICAL SOCIAL WORK.—

(b) An applicant from a master's or doctoral program in social work which did not emphasize direct patient or client services may complete the clinical curriculum content requirement by returning to a graduate program accredited by the Council on Social Work Education or the Canadian Association for Social Work Education ~~of Schools of Social Work~~, or to a clinical social work graduate program with comparable standards, in order to complete the education requirements for examination. However, a maximum of 6 semester or 9 quarter hours of the clinical curriculum content requirement may be completed by credit awarded for independent study coursework as defined by board rule.

(3) MARRIAGE AND FAMILY THERAPY.—Upon verification of documentation and payment of a fee not to exceed $200, as set by board rule, plus the actual cost ~~to the department~~ for the purchase of the examination from the Association of Marital and Family Therapy Regulatory Boards ~~Board~~, or its successor ~~similar~~

AMERICAN OVERSIGHT

~~national~~ organization, the department shall issue a license as a marriage and family therapist to an applicant who the board certifies:

(a) Has submitted an application and paid the appropriate fee.

(b)~~1.~~ Has a minimum of a master's degree with major emphasis in marriage and family therapy, or a closely related field, from a program accredited by the Commission on Accreditation for Marriage and Family Therapy Education or from a state university program accredited by the Council for Accreditation of Counseling and Related Educational Programs which has graduate courses approved by the Board of Clinical Social Work, Marriage and Family Therapy, and Mental Health Counseling ~~and has completed all of the following requirements:~~

~~a. Thirty-six semester hours or 48 quarter hours of graduate coursework, which must include a minimum of 3 semester hours or 4 quarter hours of graduate-level course credits in each of the following nine areas: dynamics of marriage and family systems; marriage therapy and counseling theory and techniques; family therapy and counseling theory and techniques; individual human development theories throughout the life cycle; personality theory or general counseling theory and techniques; psychopathology; human sexuality theory and counseling techniques; psychosocial theory; and substance abuse theory and counseling techniques. Courses in research, evaluation, appraisal, assessment, or testing theories and procedures; thesis or dissertation work; or practicums, internships, or fieldwork may not be applied toward this requirement.~~

~~b. A minimum of one graduate-level course of 3 semester~~

AMERICAN OVERSIGHT

~~hours or 4 quarter hours in legal, ethical, and professional standards issues in the practice of marriage and family therapy or a course determined by the board to be equivalent.~~

~~c. A minimum of one graduate-level course of 3 semester hours or 4 quarter hours in diagnosis, appraisal, assessment, and testing for individual or interpersonal disorder or dysfunction; and a minimum of one 3-semester-hour or 4-quarter-hour graduate-level course in behavioral research which focuses on the interpretation and application of research data as it applies to clinical practice. Credit for thesis or dissertation work, practicums, internships, or fieldwork may not be applied toward this requirement.~~

~~d. A minimum of one supervised clinical practicum, internship, or field experience in a marriage and family counseling setting, during which the student provided 180 direct client contact hours of marriage and family therapy services under the supervision of an individual who met the requirements for supervision under paragraph (c). This requirement may be met by a supervised practice experience which took place outside the academic arena, but which is certified as equivalent to a graduate-level practicum or internship program which required a minimum of 180 direct client contact hours of marriage and family therapy services currently offered within an academic program of a college or university accredited by an accrediting agency approved by the United States Department of Education, or an institution which is publicly recognized as a member in good standing with the Association of Universities and Colleges of Canada or a training institution accredited by the Commission on Accreditation for Marriage and Family Therapy Education~~

AMERICAN OVERSIGHT

~~recognized by the United States Department of Education. Certification shall be required from an official of such college, university, or training institution.~~

~~2. If the course title which appears on the applicant's transcript does not clearly identify the content of the coursework, the applicant shall be required to provide additional documentation, including, but not limited to, a syllabus or catalog description published for the course~~.

The required master's degree must have been received in an institution of higher education which at the time the applicant graduated was: fully accredited by a regional accrediting body recognized by the Council for Higher Education Accreditation ~~Commission on Recognition of Postsecondary Accreditation~~; publicly recognized as a member in good standing with ~~the Association of~~ Universities ~~and Colleges of~~ Canada; or an institution of higher education located outside the United States and Canada~~,~~ which at the time the applicant was enrolled and at the time the applicant graduated maintained a standard of training substantially equivalent to the standards of training of those institutions in the United States which are accredited by a regional accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation. Such foreign education and training must have been received in an institution or program of higher education officially recognized by the government of the country in which it is located as an institution or program to train students to practice as professional marriage and family therapists or psychotherapists. The burden of establishing that the requirements of this

AMERICAN OVERSIGHT

provision have been met shall be upon the applicant, and the board shall require documentation, such as, but not limited to, an evaluation by a foreign equivalency determination service, as evidence that the applicant's graduate degree program and education were equivalent to an accredited program in this country. An applicant with a master's degree from a program which did not emphasize marriage and family therapy may complete the coursework requirement in a training institution fully accredited by the Commission on Accreditation for Marriage and Family Therapy Education recognized by the United States Department of Education.

(c) Has had at least 2 years of clinical experience during which 50 percent of the applicant's clients were receiving marriage and family therapy services, which must be at the post-master's level under the supervision of a licensed marriage and family therapist with at least 5 years of experience, or the equivalent, who is a qualified supervisor as determined by the board. An individual who intends to practice in Florida to satisfy the clinical experience requirements must register pursuant to s. 491.0045 before commencing practice. If a graduate has a master's degree with a major emphasis in marriage and family therapy or a closely related field that did not include all the coursework required under paragraph (b) ~~sub-subparagraphs (b)1.a.-c.~~, credit for the post-master's level clinical experience shall not commence until the applicant has completed a minimum of 10 of the courses required under paragraph (b) ~~sub-subparagraphs (b)1.a.-c.~~, as determined by the board, and at least 6 semester hours or 9 quarter hours of the course credits must have been completed in the area of marriage

AMERICAN OVERSIGHT

and family systems, theories, or techniques. Within the 2 ~~3~~ years of required experience, the applicant shall provide direct individual, group, or family therapy and counseling, to include the following categories of cases: unmarried dyads, married couples, separating and divorcing couples, and family groups including children. A doctoral internship may be applied toward the clinical experience requirement. A licensed mental health professional must be on the premises when clinical services are provided by a registered intern in a private practice setting.

(d) Has passed a theory and practice examination designated ~~provided~~ by the board ~~department~~ for this purpose.

(e) Has demonstrated, in a manner designated by board rule ~~of the board~~, knowledge of the laws and rules governing the practice of clinical social work, marriage and family therapy, and mental health counseling.

(f) For the purposes of dual licensure, the department shall license as a marriage and family therapist any person who meets the requirements of s. 491.0057. Fees for dual licensure shall not exceed those stated in this subsection.

(4) MENTAL HEALTH COUNSELING.—Upon verification of documentation and payment of a fee not to exceed $200, as set by board rule, plus the actual per applicant cost ~~to the department~~ for purchase of the examination from the National Board for Certified Counselors or its successor ~~Professional Examination Service for the National Academy of Certified Clinical Mental Health Counselors or a similar national organization~~, the department shall issue a license as a mental health counselor to an applicant who the board certifies:

(a) Has submitted an application and paid the appropriate

AMERICAN OVERSIGHT

fee.

(b)1. Has a minimum of an earned master's degree from a mental health counseling program accredited by the Council for the Accreditation of Counseling and Related Educational Programs that consists of at least 60 semester hours or 80 quarter hours of clinical and didactic instruction~~, including a course in human sexuality and a course in substance abuse~~. If the master's degree is earned from a program related to the practice of mental health counseling that is not accredited by the Council for the Accreditation of Counseling and Related Educational Programs, then the coursework and practicum, internship, or fieldwork must consist of at least 60 semester hours or 80 quarter hours and meet the following requirements:

a. Thirty-three semester hours or 44 quarter hours of graduate coursework, which must include a minimum of 3 semester hours or 4 quarter hours of graduate-level coursework in each of the following 11 content areas: counseling theories and practice; human growth and development; diagnosis and treatment of psychopathology; human sexuality; group theories and practice; individual evaluation and assessment; career and lifestyle assessment; research and program evaluation; social and cultural foundations; substance abuse; and legal, ethical, and professional standards issues in the practice of mental health counseling ~~in community settings; and substance abuse~~. Courses in research, thesis or dissertation work, practicums, internships, or fieldwork may not be applied toward this requirement.

b. A minimum of 3 semester hours or 4 quarter hours of graduate-level coursework addressing diagnostic processes,

AMERICAN OVERSIGHT

including differential diagnosis and the use of the current diagnostic tools, such as the current edition of the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders. The graduate program must have emphasized the common core curricular experience ~~in legal, ethical, and professional standards issues in the practice of mental health counseling, which includes goals, objectives, and practices of professional counseling organizations, codes of ethics, legal considerations, standards of preparation, certifications and licensing, and the role identity and professional obligations of mental health counselors. Courses in research, thesis or dissertation work, practicums, internships, or fieldwork may not be applied toward this requirement~~.

c. The equivalent, as determined by the board, of at least 700 ~~1,000~~ hours of university-sponsored supervised clinical practicum, internship, or field experience that includes at least 280 hours of direct client services, as required in the accrediting standards of the Council for Accreditation of Counseling and Related Educational Programs for mental health counseling programs. This experience may not be used to satisfy the post-master's clinical experience requirement.

2. If the course title which appears on the applicant's transcript does not clearly identify the content of the coursework, the applicant shall be required to provide additional documentation, including, but not limited to, a syllabus or catalog description published for the course.

Education and training in mental health counseling must have been received in an institution of higher education which at the

AMERICAN OVERSIGHT

time the applicant graduated was: fully accredited by a regional accrediting body recognized by the Council for Higher Education Accreditation or its successor ~~Commission on Recognition of Postsecondary Accreditation~~; publicly recognized as a member in good standing with ~~the Association of~~ Universities ~~and Colleges of~~ Canada; or an institution of higher education located outside the United States and Canada, which at the time the applicant was enrolled and at the time the applicant graduated maintained a standard of training substantially equivalent to the standards of training of those institutions in the United States which are accredited by a regional accrediting body recognized by the Council for Higher Education Accreditation or its successor ~~Commission on Recognition of Postsecondary Accreditation~~. Such foreign education and training must have been received in an institution or program of higher education officially recognized by the government of the country in which it is located as an institution or program to train students to practice as mental health counselors. The burden of establishing that the requirements of this provision have been met shall be upon the applicant, and the board shall require documentation, such as, but not limited to, an evaluation by a foreign equivalency determination service, as evidence that the applicant's graduate degree program and education were equivalent to an accredited program in this country. Beginning July 1, 2026, an applicant must have a master's degree in a program that is accredited by the Council for Accreditation of Counseling and Related Educational Programs which consists of at least 60 semester hours or 80 quarter hours to apply for licensure under this paragraph.

AMERICAN OVERSIGHT

(c) Has had at least 2 years of clinical experience in mental health counseling~~,~~ which must be at the post-master's level under the supervision of a licensed mental health counselor or the equivalent who is a qualified supervisor as determined by the board. An individual who intends to practice in Florida to satisfy the clinical experience requirements must register pursuant to s. 491.0045 before commencing practice. If a graduate has a master's degree with a major related to the practice of mental health counseling that did not include all the coursework required under sub-subparagraphs (b)1.a.-b., credit for the post-master's level clinical experience shall not commence until the applicant has completed a minimum of seven of the courses required under sub-subparagraphs (b)1.a.-b., as determined by the board, one of which must be a course in psychopathology or abnormal psychology. A doctoral internship may be applied toward the clinical experience requirement. A licensed mental health professional must be on the premises when clinical services are provided by a registered intern in a private practice setting.

(d) Has passed a theory and practice examination designated ~~provided~~ by the board ~~department~~ for this purpose.

(e) Has demonstrated, in a manner designated by board rule ~~of the board~~, knowledge of the laws and rules governing the practice of clinical social work, marriage and family therapy, and mental health counseling.

Section 13. Subsection (3) of section 491.0057, Florida Statutes, is amended to read:

491.0057 Dual licensure as a marriage and family therapist.—The department shall license as a marriage and family

AMERICAN OVERSIGHT

therapist any person who demonstrates to the board that he or she:

(3) Has passed the examination designated ~~provided~~ by the board ~~department~~ for marriage and family therapy.

Section 14. Paragraph (b) of subsection (1) of section 491.006, Florida Statutes, is amended to read:

491.006 Licensure or certification by endorsement.—

(1) The department shall license or grant a certificate to a person in a profession regulated by this chapter who, upon applying to the department and remitting the appropriate fee, demonstrates to the board that he or she:

(b)1. Holds an active valid license to practice and has actively practiced the profession for which licensure is applied in another state for 3 of the last 5 years immediately preceding licensure.

~~2. Meets the education requirements of this chapter for the profession for which licensure is applied.~~

2.~~3.~~ Has passed a substantially equivalent licensing examination in another state or has passed the licensure examination in this state in the profession for which the applicant seeks licensure.

3.~~4.~~ Holds a license in good standing, is not under investigation for an act that would constitute a violation of this chapter, and has not been found to have committed any act that would constitute a violation of this chapter. ~~The fees paid by any applicant for certification as a master social worker under this section are nonrefundable.~~

Section 15. Section 491.0065, Florida Statutes, is repealed.

AMERICAN OVERSIGHT

Section 16. Subsections (2) and (3) of section 491.007, Florida Statutes, are amended to read:

491.007 Renewal of license, registration, or certificate.—

(2) Each applicant for renewal shall present satisfactory evidence that, in the period since the license or certificate was issued, the applicant has completed continuing education requirements set by rule of the board or department. Not more than 25 classroom hours of continuing education per year shall be required. ~~A certified master social worker is exempt from the continuing education requirements for the first renewal of the certificate.~~

~~(3) The board or department shall prescribe by rule a method for the biennial renewal of an intern registration at a fee set by rule, not to exceed $100.~~

Section 17. Subsection (2) of section 491.009, Florida Statutes, is amended to read:

491.009 Discipline.—

(2) The ~~department, or, in the case of psychologists, the~~ board~~,~~ may enter an order denying licensure or imposing any of the penalties in s. 456.072(2) against any applicant for licensure or licensee who is found guilty of violating any provision of subsection (1) of this section or who is found guilty of violating any provision of s. 456.072(1).

Section 18. Paragraph (a) of subsection (1) of section 491.012, Florida Statutes, is amended to read:

491.012 Violations; penalty; injunction.—

(1) It is unlawful and a violation of this chapter for any person to:

(a) Use the following titles or any combination thereof,

AMERICAN OVERSIGHT

unless she or he holds a valid, active license as a clinical social worker issued pursuant to this chapter:

1. "Licensed clinical social worker."

2. "Clinical social worker."

3. "Licensed social worker."

4. "Psychiatric social worker."

5. "Psychosocial worker."

6. "Certified master social worker."

Section 19. Section 491.0145, Florida Statutes, is amended to read:

491.0145 Certified master social worker.—

(1) The department shall license ~~may certify~~ an applicant for a designation as a certified master social worker who, upon applying to the department and remitting the appropriate fee, demonstrates to the board that he or she has met the following conditions:

(a) ~~(1)~~ The applicant has submitted ~~completes~~ an application and has paid ~~to be provided by the department and pays~~ a nonrefundable fee not to exceed $250 to be established by rule of the board ~~department. The completed application must be received by the department at least 60 days before the date of the examination in order for the applicant to qualify to take the scheduled exam~~.

(b) ~~(2)~~ The applicant submits proof satisfactory to the board ~~department~~ that the applicant has received a doctoral degree in social work, or a master's degree in social work with a major emphasis or specialty in ~~clinical practice or administration, including, but not limited to, agency~~ administration and supervision, program planning and evaluation,

AMERICAN OVERSIGHT

staff development, research, community organization, community services, social planning, and human service advocacy. Doctoral degrees must have been received from a graduate school of social work which at the time the applicant was enrolled and graduated was accredited by an accrediting agency approved by the United States Department of Education. Master's degrees must have been received from a graduate school of social work which at the time the applicant was enrolled and graduated was accredited by the Council on Social Work Education or the Canadian Association of Schools for ~~of~~ Social Work Education or by one that meets comparable standards.

(c) ~~(3)~~ The applicant has had at least 2 ~~3~~ years' experience, as defined by rule of the board, including, but not limited to, clinical services or administrative activities as described in paragraph (b) ~~defined in subsection (2)~~, ~~2 years of~~ which must be at the post-master's level under the supervision of a person who meets the education and experience requirements for licensure ~~certification~~ as a certified master social worker, as defined by rule of the board, or licensure as a clinical social worker under this chapter. A doctoral internship may be applied toward the supervision requirement.

(d) ~~(4)~~ Any person who holds a master's degree in social work from an institution ~~institutions~~ outside the United States may apply to the board ~~department~~ for licensure ~~certification~~ if the academic training in social work has been evaluated as equivalent to a degree from a school accredited by the Council on Social Work Education. Any such person shall submit a copy of the academic training from the Foreign Equivalency Determination Service of the Council on Social Work Education.

AMERICAN OVERSIGHT

(e)~~(5)~~ The applicant has passed an examination required by the board ~~department~~ for this purpose. ~~The nonrefundable fee for such examination may not exceed $250 as set by department rule.~~

(2)~~(6)~~ ~~Nothing in~~ This chapter does not ~~shall be construed to~~ authorize a certified master social worker to provide clinical social work services.

(3) The board may adopt rules to implement this section.

Section 20. Section 491.0149, Florida Statutes, is amended to read:

491.0149 Display of license; use of professional title on promotional materials.—

(1)(a) A person licensed under this chapter as a clinical social worker, marriage and family therapist, ~~or~~ mental health counselor, or certified ~~as a~~ master social worker shall conspicuously display the valid license issued by the department or a true copy thereof at each location at which the licensee practices his or her profession.

(b)1. A licensed clinical social worker shall include the words "licensed clinical social worker" or the letters "LCSW" on all promotional materials, including cards, brochures, stationery, advertisements, social media, and signs, naming the licensee.

2. A licensed marriage and family therapist shall include the words "licensed marriage and family therapist" or the letters "LMFT" on all promotional materials, including cards, brochures, stationery, advertisements, social media, and signs, naming the licensee.

3. A licensed mental health counselor shall include the words "licensed mental health counselor" or the letters "LMHC"

AMERICAN OVERSIGHT

on all promotional materials, including cards, brochures, stationery, advertisements, social media, and signs, naming the licensee.

(c) A generalist social worker shall include the words "certified master social worker" or the letters "CMSW" on all promotional materials, including cards, brochures, stationery, advertisements, social media, and signs, naming the licensee.

(2)(a) A person registered under this chapter as a clinical social worker intern, marriage and family therapist intern, or mental health counselor intern shall conspicuously display the valid registration issued by the department or a true copy thereof at each location at which the registered intern is completing the experience requirements.

(b) A registered clinical social worker intern shall include the words "registered clinical social worker intern," a registered marriage and family therapist intern shall include the words "registered marriage and family therapist intern," and a registered mental health counselor intern shall include the words "registered mental health counselor intern" on all promotional materials, including cards, brochures, stationery, advertisements, social media, and signs, naming the registered intern.

(3)(a) A person provisionally licensed under this chapter as a provisional clinical social worker licensee, provisional marriage and family therapist licensee, or provisional mental health counselor licensee shall conspicuously display the valid provisional license issued by the department or a true copy thereof at each location at which the provisional licensee is providing services.

AMERICAN OVERSIGHT

(b) A provisional clinical social worker licensee shall include the words "provisional clinical social worker licensee," a provisional marriage and family therapist licensee shall include the words "provisional marriage and family therapist licensee," and a provisional mental health counselor licensee shall include the words "provisional mental health counselor licensee" on all promotional materials, including cards, brochures, stationery, advertisements, social media, and signs, naming the provisional licensee.

Section 21. Section 491.015, Florida Statutes, is repealed.

Section 22. Section 627.444, Florida Statutes, is created to read:

627.444 Credentialing.—

(1) As used in this section, the term "health insurer" means an authorized insurer offering health insurance as defined in s. 624.603, a managed care plan as defined in s. 409.962, or a health maintenance organization as defined in s. 641.19(12).

(2) A health insurer or its designee must provide electronic or written verification of receipt to an applicant within 10 calendar days after the health insurer or its designee receives the applicant's application.

(3)(a) Upon receipt of an application, a health insurer or its designee must promptly review the application to determine whether it is complete. The health insurer or its designee must conclude the credentialing process within 30 calendar days after the date on which the health insurer or its designee determines an application is complete.

(b) If the health insurer or its designee determines that the application is incomplete, the health insurer or its

AMERICAN OVERSIGHT

designee must so notify the applicant in writing within 10 calendar days after the date on which the health insurer or its designee received the application. The written notice must include a detailed list of all items required to complete the application. If the health insurer or its designee does not send the notice within such period, the application is deemed complete.

(c) If the health insurer or its designee notifies the applicant of an incomplete application in accordance with paragraph (b), the period under paragraph (a) is tolled and the application is suspended from the date on which the notice was sent to the applicant until the date on which the health insurer or its designee receives the required information from the applicant.

(d) The health insurer or its designee may request only that information necessary for the health insurer or its designee to fairly and responsibly review the application.

(4) An applicant may bring an action in a court of appropriate jurisdiction against a health insurer or its designee for a violation of this section.

Section 23. Paragraph (h) is added to subsection (10) of section 768.28, Florida Statutes, to read:

768.28 Waiver of sovereign immunity in tort actions; recovery limits; limitation on attorney fees; statute of limitations; exclusions; indemnification; risk management programs.—

(10)

(h) For the purposes of this section, the representative appointed from the Board of Medicine and the representative

AMERICAN OVERSIGHT

appointed from the Board of Osteopathic Medicine, when serving as commissioners of the Interstate Medical Licensure Compact Commission pursuant to s. 456.4501, and any administrator, officer, executive director, employee, or representative of the Interstate Medical Licensure Compact Commission, when acting within the scope of their employment, duties, or responsibilities in this state, are considered agents of the state. The commission shall pay any claims or judgments pursuant to this section and may maintain insurance coverage to pay any such claims or judgments.

Section 24. Paragraph (c) of subsection (4) of section 414.065, Florida Statutes, is amended to read:

414.065 Noncompliance with work requirements.—

(4) EXCEPTIONS TO NONCOMPLIANCE PENALTIES.—Unless otherwise provided, the situations listed in this subsection shall constitute exceptions to the penalties for noncompliance with participation requirements, except that these situations do not constitute exceptions to the applicable time limit for receipt of temporary cash assistance:

(c) *Noncompliance related to treatment or remediation of past effects of domestic violence.*—An individual who is determined to be unable to comply with the work requirements under this section due to mental or physical impairment related to past incidents of domestic violence may be exempt from work requirements, except that such individual shall comply with a plan that specifies alternative requirements that prepare the individual for self-sufficiency while providing for the safety of the individual and the individual's dependents. A participant who is determined to be out of compliance with the alternative

AMERICAN OVERSIGHT

requirement plan shall be subject to the penalties under subsection (1). The plan must include counseling or a course of treatment necessary for the individual to resume participation. The need for treatment and the expected duration of such treatment must be verified by a physician licensed under chapter 458 or chapter 459; a psychologist licensed under s. 490.005(1), s. 490.006, or the provision identified as s. 490.013(2) in s. 1, chapter 81-235, Laws of Florida; a therapist as defined in s. 491.003(3) or (7) ~~s. 491.003(2) or (6)~~; or a treatment professional who is registered under s. 39.905(1)(g), is authorized to maintain confidentiality under s. 90.5036(1)(d), and has a minimum of 2 years' ~~years~~ experience at a certified domestic violence center. An exception granted under this paragraph does not automatically constitute an exception from the time limitations on benefits specified under s. 414.105.

Section 25. This act shall take effect July 1, 2020.

A bill to be entitled

An act relating to mobile food dispensing vehicles; amending s. 509.013, F.S.; providing a definition for the term "mobile food dispensing vehicle"; creating s. 509.099, F.S.; prohibiting a municipality, a county, or another local governmental entity from requiring a mobile food dispensing vehicle to obtain a separate license, registration, or permit or to pay a separate license, registration, or permit fee or from prohibiting such a vehicle from operating within the jurisdiction of the municipality, county, or locality; amending ss. 159.27, 212.08, 316.1955, 404.056, 477.0135, 509.032, 509.221, 553.5041, 705.17, 705.185, 717.1355, and 877.24, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 509.013, Florida Statutes, is amended to read:

509.013 Definitions.—As used in this chapter, the term:

(1)~~(6)~~ "Director" means the director of the Division of Hotels and Restaurants of the Department of Business and Professional Regulation.

(2)~~(1)~~ "Division" means the Division of Hotels and Restaurants of the Department of Business and Professional Regulation.

(3) "Guest" means any patron, customer, tenant, lodger, boarder, or occupant of a public lodging establishment or public

AMERICAN OVERSIGHT

food service establishment.

(4) "Mobile food dispensing vehicle" means any vehicle-mounted public food service establishment which is self-propelled or otherwise movable from place to place and includes self-contained utilities, such as gas, water, electricity, and liquid waste disposal.

(5) ~~(16)~~ "Nontransient" means a guest in nontransient occupancy.

(6) ~~(14)~~ "Nontransient establishment" means any public lodging establishment that is rented or leased to guests by an operator whose intention is that the dwelling unit occupied will be the sole residence of the guest.

(7) ~~(15)~~ "Nontransient occupancy" means occupancy when it is the intention of the parties that the occupancy will not be temporary. There is a rebuttable presumption that, when the dwelling unit occupied is the sole residence of the guest, the occupancy is nontransient.

(8) ~~(2)~~ "Operator" means the owner, licensee, proprietor, lessee, manager, assistant manager, or appointed agent of a public lodging establishment or public food service establishment.

(9) ~~(5)~~ (a) "Public food service establishment" means any building, vehicle, place, or structure, or any room or division in a building, vehicle, place, or structure where food is prepared, served, or sold for immediate consumption on or in the vicinity of the premises; called for or taken out by customers; or prepared before ~~prior to~~ being delivered to another location for consumption. The term includes a culinary education program, as defined in s. 381.0072(2), which offers, prepares, serves, or

AMERICAN OVERSIGHT

sells food to the general public, regardless of whether it is inspected by another state agency for compliance with sanitation standards.

(b) The following are excluded from the definition in paragraph (a):

1. Any place maintained and operated by a public or private school, college, or university:

a. For the use of students and faculty; or

b. Temporarily to serve such events as fairs, carnivals, food contests, cook-offs, and athletic contests.

2. Any eating place maintained and operated by a church or a religious, nonprofit fraternal, or nonprofit civic organization:

a. For the use of members and associates; or

b. Temporarily to serve such events as fairs, carnivals, food contests, cook-offs, or athletic contests.

Upon request by the division, a church or a religious, nonprofit fraternal, or nonprofit civic organization claiming an exclusion under this subparagraph must provide the division documentation of its status as a church or a religious, nonprofit fraternal, or nonprofit civic organization.

3. Any eating place maintained and operated by an individual or entity at a food contest, cook-off, or a temporary event lasting from 1 to 3 days which is hosted by a church or a religious, nonprofit fraternal, or nonprofit civic organization. Upon request by the division, the event host must provide the division documentation of its status as a church or a religious, nonprofit fraternal, or nonprofit civic organization.

AMERICAN OVERSIGHT

4. Any eating place located on an airplane, train, bus, or watercraft which is a common carrier.

5. Any eating place maintained by a facility certified or licensed and regulated by the Agency for Health Care Administration or the Department of Children and Families or other similar place that is regulated under s. 381.0072.

6. Any place of business issued a permit or inspected by the Department of Agriculture and Consumer Services under s. 500.12.

7. Any place of business where the food available for consumption is limited to ice, beverages with or without garnishment, popcorn, or prepackaged items sold without additions or preparation.

8. Any theater, if the primary use is as a theater and if patron service is limited to food items customarily served to the admittees of theaters.

9. Any vending machine that dispenses any food or beverages other than potentially hazardous foods, as defined by division rule.

10. Any vending machine that dispenses potentially hazardous food and which is located in a facility regulated under s. 381.0072.

11. Any research and development test kitchen limited to the use of employees and which is not open to the general public.

(10) ~~(4)~~ (a) "Public lodging establishment" includes a transient public lodging establishment as defined in subparagraph 1. and a nontransient public lodging establishment as defined in subparagraph 2.

AMERICAN OVERSIGHT

1. "Transient public lodging establishment" means any unit, group of units, dwelling, building, or group of buildings within a single complex of buildings which is rented to guests more than three times in a calendar year for periods of less than 30 days or 1 calendar month, whichever is less, or which is advertised or held out to the public as a place regularly rented to guests.

2. "Nontransient public lodging establishment" means any unit, group of units, dwelling, building, or group of buildings within a single complex of buildings which is rented to guests for periods of at least 30 days or 1 calendar month, whichever is less, or which is advertised or held out to the public as a place regularly rented to guests for periods of at least 30 days or 1 calendar month.

License classifications of public lodging establishments, and the definitions therefor, are set out in s. 509.242. For the purpose of licensure, the term does not include condominium common elements as defined in s. 718.103.

(b) The following are excluded from the definitions in paragraph (a):

1. Any dormitory or other living or sleeping facility maintained by a public or private school, college, or university for the use of students, faculty, or visitors.

2. Any facility certified or licensed and regulated by the Agency for Health Care Administration or the Department of Children and Families or other similar place regulated under s. 381.0072.

3. Any place renting four rental units or less, unless the

AMERICAN OVERSIGHT

rental units are advertised or held out to the public to be places that are regularly rented to transients.

4. Any unit or group of units in a condominium, cooperative, or timeshare plan and any individually or collectively owned one-family, two-family, three-family, or four-family dwelling house or dwelling unit that is rented for periods of at least 30 days or 1 calendar month, whichever is less, and that is not advertised or held out to the public as a place regularly rented for periods of less than 1 calendar month, provided that no more than four rental units within a single complex of buildings are available for rent.

5. Any migrant labor camp or residential migrant housing permitted by the Department of Health under ss. 381.008-381.00895.

6. Any establishment inspected by the Department of Health and regulated by chapter 513.

7. Any nonprofit organization that operates a facility providing housing only to patients, patients' families, and patients' caregivers and not to the general public.

8. Any apartment building inspected by the United States Department of Housing and Urban Development or other entity acting on the department's behalf that is designated primarily as housing for persons at least 62 years of age. The division may require the operator of the apartment building to attest in writing that such building meets the criteria provided in this subparagraph. The division may adopt rules to implement this requirement.

9. Any roominghouse, boardinghouse, or other living or sleeping facility that may not be classified as a hotel, motel,

AMERICAN OVERSIGHT

timeshare project, vacation rental, nontransient apartment, bed and breakfast inn, or transient apartment under s. 509.242.

(11) ~~(7)~~ "Single complex of buildings" means all buildings or structures that are owned, managed, controlled, or operated under one business name and are situated on the same tract or plot of land that is not separated by a public street or highway.

(12) ~~(8)~~ "Temporary food service event" means any event of 30 days or less in duration where food is prepared, served, or sold to the general public.

(13) ~~(9)~~ "Theme park or entertainment complex" means a complex comprised of at least 25 contiguous acres owned and controlled by the same business entity and which contains permanent exhibitions and a variety of recreational activities and has a minimum of 1 million visitors annually.

(14) ~~(10)~~ "Third-party provider" means, for purposes of s. 509.049, any provider of an approved food safety training program that provides training or such a training program to a public food service establishment that is not under common ownership or control with the provider.

(15) ~~(13)~~ "Transient" means a guest in transient occupancy.

(16) ~~(11)~~ "Transient establishment" means any public lodging establishment that is rented or leased to guests by an operator whose intention is that such guests' occupancy will be temporary.

(17) ~~(12)~~ "Transient occupancy" means occupancy when it is the intention of the parties that the occupancy will be temporary. There is a rebuttable presumption that, when the dwelling unit occupied is not the sole residence of the guest,

AMERICAN OVERSIGHT

the occupancy is transient.

Section 2. Section 509.099, Florida Statutes, is created to read:

509.099 Mobile food dispensing vehicle; preemption.—A municipality, a county, or other local governmental entity may not:

(1) Require a separate license, registration, or permit, or a separate license, registration, or permit fee beyond those established by the division under s. 509.241 or s. 509.251, as applicable, as a condition for the operation of a mobile food dispensing vehicle within the jurisdiction of the municipality, county, or locality.

(2) Prohibit mobile food dispensing vehicles from operating within the jurisdiction of the municipality, county, or locality.

Section 3. Subsection (12) of section 159.27, Florida Statutes, is amended to read:

159.27 Definitions.—The following words and terms, unless the context clearly indicates a different meaning, shall have the following meanings:

(12) "Public lodging or restaurant facility" means property used for any public lodging establishment as defined in s. 509.242 or public food service establishment as defined in s. 509.013 ~~s. 509.013(5)~~ if it is part of the complex of, or necessary to, another facility qualifying under this part.

Section 4. Paragraph (jj) of subsection (7) of section 212.08, Florida Statutes, is amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the

AMERICAN OVERSIGHT

rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(7) MISCELLANEOUS EXEMPTIONS.—Exemptions provided to any entity by this chapter do not inure to any transaction that is otherwise taxable under this chapter when payment is made by a representative or employee of the entity by any means, including, but not limited to, cash, check, or credit card, even when that representative or employee is subsequently reimbursed by the entity. In addition, exemptions provided to any entity by this subsection do not inure to any transaction that is otherwise taxable under this chapter unless the entity has obtained a sales tax exemption certificate from the department or the entity obtains or provides other documentation as required by the department. Eligible purchases or leases made with such a certificate must be in strict compliance with this subsection and departmental rules, and any person who makes an exempt purchase with a certificate that is not in strict compliance with this subsection and the rules is liable for and shall pay the tax. The department may adopt rules to administer this subsection.

(jj) *Complimentary meals.*—Also exempt from the tax imposed by this chapter are food or drinks that are furnished as part of a packaged room rate by any person offering for rent or lease any transient living accommodations as described in s. 509.013 ~~s. 509.013(4)(a)~~ which are licensed under part I of chapter 509 and which are subject to the tax under s. 212.03, if a separate charge or specific amount for the food or drinks is not shown.

AMERICAN OVERSIGHT

Such food or drinks are considered to be sold at retail as part of the total charge for the transient living accommodations. Moreover, the person offering the accommodations is not considered to be the consumer of items purchased in furnishing such food or drinks and may purchase those items under conditions of a sale for resale.

Section 5. Paragraph (b) of subsection (4) of section 316.1955, Florida Statutes, is amended to read:

316.1955 Enforcement of parking requirements for persons who have disabilities.—

(4)

(b) Notwithstanding paragraph (a), a theme park or an entertainment complex as defined in s. 509.013 ~~s. 509.013(9)~~ which provides parking in designated areas for persons who have disabilities may allow any vehicle that is transporting a person who has a disability to remain parked in a space reserved for persons who have disabilities throughout the period the theme park is open to the public for that day.

Section 6. Subsection (5) of section 404.056, Florida Statutes, is amended to read:

404.056 Environmental radiation standards and projects; certification of persons performing measurement or mitigation services; mandatory testing; notification on real estate documents; rules.—

(5) NOTIFICATION ON REAL ESTATE DOCUMENTS.—Notification shall be provided on at least one document, form, or application executed at the time of, or before ~~prior to~~, contract for sale and purchase of any building or execution of a rental agreement for any building. Such notification shall contain the following

AMERICAN OVERSIGHT

language:

"RADON GAS: Radon is a naturally occurring radioactive gas that, when it has accumulated in a building in sufficient quantities, may present health risks to persons who are exposed to it over time. Levels of radon that exceed federal and state guidelines have been found in buildings in Florida. Additional information regarding radon and radon testing may be obtained from your county health department."

The requirements of this subsection do not apply to any residential transient occupancy, as described in s. 509.013 ~~s. 509.013(12)~~, provided that such occupancy is 45 days or less in duration.

Section 7. Subsection (6) of section 477.0135, Florida Statutes, is amended to read:

477.0135 Exemptions.—

(6) A license is not required of any individual providing makeup or special effects services in a theme park or entertainment complex to an actor, stunt person, musician, extra, or other talent, or providing makeup or special effects services to the general public. The term "theme park or entertainment complex" has the same meaning as in s. 509.013 ~~s. 509.013(9)~~.

Section 8. Paragraph (c) of subsection (3) of section 509.032, Florida Statutes, is amended to read:

509.032 Duties.—

(3) SANITARY STANDARDS; EMERGENCIES; TEMPORARY FOOD SERVICE EVENTS.—The division shall:

AMERICAN OVERSIGHT

(c) Administer a public notification process for temporary food service events and distribute educational materials that address safe food storage, preparation, and service procedures.

1. Sponsors of temporary food service events shall notify the division not less than 3 days before the scheduled event of the type of food service proposed, the time and location of the event, a complete list of food service vendors participating in the event, the number of individual food service facilities each vendor will operate at the event, and the identification number of each food service vendor's current license as a public food service establishment or temporary food service event licensee. Notification may be completed orally, by telephone, in person, or in writing. A public food service establishment or food service vendor may not use this notification process to circumvent the license requirements of this chapter.

2. The division shall keep a record of all notifications received for proposed temporary food service events and shall provide appropriate educational materials to the event sponsors and notify the event sponsors of the availability of the food-recovery brochure developed under s. 595.420.

3.a. Unless excluded under s. 509.013 ~~s. 509.013(5)(b)~~, a public food service establishment or other food service vendor must obtain one of the following classes of license from the division: an individual license, for a fee of no more than $105, for each temporary food service event in which it participates; or an annual license, for a fee of no more than $1,000, that entitles the licensee to participate in an unlimited number of food service events during the license period. The division shall establish license fees, by rule, and may limit the number

AMERICAN OVERSIGHT

of food service facilities a licensee may operate at a particular temporary food service event under a single license.

b. Public food service establishments holding current licenses from the division may operate under the regulations of such a license at temporary food service events.

Section 9. Paragraph (b) of subsection (2) of section 509.221, Florida Statutes, is amended to read:

509.221 Sanitary regulations.—

(2)

(b) Within a theme park or entertainment complex as defined in s. 509.013 ~~s. 509.013(9)~~, the bathrooms are not required to be in the same building as the public food service establishment, so long as they are reasonably accessible.

Section 10. Paragraph (b) of subsection (5) of section 553.5041, Florida Statutes, is amended to read:

553.5041 Parking spaces for persons who have disabilities.—

(5) Accessible perpendicular and diagonal accessible parking spaces and loading zones must be designed and located to conform to ss. 502 and 503 of the standards.

(b) If there are multiple entrances or multiple retail stores, the parking spaces must be dispersed to provide parking at the nearest accessible entrance. If a theme park or an entertainment complex as defined in s. 509.013 ~~s. 509.013(9)~~ provides parking in several lots or areas from which access to the theme park or entertainment complex is provided, a single lot or area may be designated for parking by persons who have disabilities, if the lot or area is located on the shortest accessible route to an accessible entrance to the theme park or entertainment complex or to transportation to such an accessible

AMERICAN OVERSIGHT

entrance.

Section 11. Subsection (2) of section 705.17, Florida Statutes, is amended to read:

705.17 Exceptions.—

(2) Sections 705.1015-705.106 do not apply to any personal property lost or abandoned on premises located within a theme park or entertainment complex, as defined in s. 509.013 ~~s. 509.013(9)~~, or operated as a zoo, a museum, or an aquarium, or on the premises of a public food service establishment or a public lodging establishment licensed under part I of chapter 509, if the owner or operator of such premises elects to comply with s. 705.185.

Section 12. Section 705.185, Florida Statutes, is amended to read:

705.185 Disposal of personal property lost or abandoned on the premises of certain facilities.—When any lost or abandoned personal property is found on premises located within a theme park or entertainment complex, as defined in s. 509.013 ~~s. 509.013(9)~~, or operated as a zoo, a museum, or an aquarium, or on the premises of a public food service establishment or a public lodging establishment licensed under part I of chapter 509, if the owner or operator of such premises elects to comply with this section, any lost or abandoned property must be delivered to such owner or operator, who must take charge of the property and make a record of the date such property was found. If the property is not claimed by its owner within 30 days after it is found, or a longer period of time as may be deemed appropriate by the owner or operator of the premises, the owner or operator of the premises may not sell and must dispose of the

AMERICAN OVERSIGHT

property or donate it to a charitable institution that is exempt from federal income tax under s. 501(c)(3) of the Internal Revenue Code for sale or other disposal as the charitable institution deems appropriate. The rightful owner of the property may reclaim the property from the owner or operator of the premises at any time before the disposal or donation of the property in accordance with this section and the established policies and procedures of the owner or operator of the premises. A charitable institution that accepts an electronic device, as defined in s. 815.03(9), access to which is not secured by a password or other personal identification technology, shall make a reasonable effort to delete all personal data from the electronic device before its sale or disposal.

Section 13. Section 717.1355, Florida Statutes, is amended to read:

717.1355 Theme park and entertainment complex tickets.—This chapter does not apply to any tickets for admission to a theme park or entertainment complex as defined in s. 509.013 ~~s. 509.013(9)~~, or to any tickets to a permanent exhibition or recreational activity within such theme park or entertainment complex.

Section 14. Subsection (8) of section 877.24, Florida Statutes, is amended to read:

877.24 Nonapplication of s. 877.22.—Section 877.22 does not apply to a minor who is:

(8) Attending an organized event held at and sponsored by a theme park or entertainment complex as defined in s. 509.013 ~~s. 509.013(9)~~.

AMERICAN OVERSIGHT

436 Section 15. This act shall take effect July 1, 2020.

Senator,

The following four bills are up on Tuesday:

1) SB 922 – Economic Development @ 10 AM in Commerce & Tourism
    a. Staff Analysis attached (http://flsenate.gov/Session/Bill/2020/922/Analyses/2020s00922.pre.cm.PDF)
    b. Waiting on Q&A and TP
    c. Need to discuss amendments (1 technical and 1 substantive) and amendment to the amendment to substantive amendment
2) SB 1102 – Specialty Contracting Services @ 2:30 PM in Innovation, Industry, & Technology
    a. Staff Analysis attached (http://flsenate.gov/Session/Bill/2020/1102/Analyses/2020s01102.pre.it.PDF)
    b. Background information & Q&A attached (VB review not complete yet)
    c. No amendments
3) SB 1140 – Public Accountancy @ 2:30 PM in Innovation, Industry, & Technology
    a. Staff Analysis attached (http://flsenate.gov/Session/Bill/2020/1140/Analyses/2020s01140.pre.it.PDF)
    b. Waiting on Q&A and TP
    c. No amendments
4) SB 514 – Homestead Exemptions @ 4:30 in Community Affairs
    a. Staff Analysis attached (http://flsenate.gov/Session/Bill/2020/514/Analyses/2020s00514.pre.ca.PDF)
    b. Working on modifying Q&A & TP from last year (similar bill)
    c. Strike-All amendments recommended from staff and matches HB (http://flsenate.gov/Session/Bill/2020/514/Amendment/301196/PDF)

Please let me know if you have any questions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Innovation, Industry, and Technology

BILL:	SB 1102
INTRODUCER:	Senator Gruters
SUBJECT:	Specialty Contracting Services
DATE:	January 17, 2020
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Kraemer	Imhof	IT	**Pre-meeting**
2.			CA	
3.			RC	

I. Summary:

SB 1102 creates an exemption from local and state licensing for persons under the supervision of a certified or registered pool contractor for the construction, remodeling, or repair of swimming pools, hot tubs, and other water features. The supervising contractor need not have a direct contract with the unlicensed person performing the specialty contracting services. The exemption is not available for persons required to be certified or registered as contractors for specified trade categories described in current law.[1]

The bill has no impact on state government.

The bill provides an effective date of July 1, 2020.

II. Present Situation:

Part I of ch. 489, F.S., dealing with Constructing Contracting, sets forth requirements for qualified persons to be licensed if they have sufficient technical expertise in the applicate trade.[2]

A contractor is a person who undertakes a job or submits a bid to construct, repair, alter, remodel, add to, demolish, subtract from, or improve any building or structure for others, and whose job scope is substantially similar to one of 17 specified scopes of work.[3] A contractor

[1] *See* ss. 489.105(3)(a) through (i) and (m) through (o), F.S. The specified scopes of work are identified as general contractor, building contractor, residential contractor, sheet metal contractor, roofing contractor, Class A, B, and C air-conditioning contractor, mechanical contractor, plumbing contractor, underground utility and excavation contractor, and solar contractor.
[2] *See* ss. 489.101-489.146, F.S.
[3] *See* ss. 489.105(3)(a) through (q), F.S. The specified scopes of work are identified as general contractor, building contractor, residential contractor, sheet metal contractor, roofing contractor, Class A, B, and C air-conditioning contractor, mechanical contractor, commercial pool/spa contractor, residential pool/spa contractor, swimming pool servicing contractor, plumbing contractor, underground utility and excavation contractor, solar contractor, pollutant storage systems contractor, and specialty contractor.

AMERICAN OVERSIGHT

must be licensed by the Department of Business and Professional Regulation's Construction Industry Licensing Board (board) or certified by the county in which he or she wishes to work.[4] In most circumstances, a contractor must subcontract all electrical, mechanical, plumbing, roofing, sheet metal, swimming pool, and air-conditioning work unless the contractor holds a state certificate or registration in the appropriate trade category.[5]

A subcontractor who does not have a state certificate or registration may work under the supervision of a licensed or certified contractor, if:

- The work of the subcontractor falls within the scope of the contractor's license; and
- The subcontractor is not engaged in construction work that would require specified contractor licensing (i.e., licensure as an electrical contractor,[6]a septic tank contractor,[7] a sheet metal contractor, roofing contractor, Class A, B, or C air-conditioning contractor, mechanical contractor, commercial pool/spa contractor, residential pool/spa contractor, swimming pool servicing contractor, plumbing contractor, underground utility and excavation contractor, or solar contractor.[8]

The term "certification" means the act by a contractor obtaining or holding a geographically unlimited certificate of competency from the DBPR.[9] A contractor registered with the DBPR has fulfilled competency requirements only in those jurisdictions in which a registration is issued, and registered contractors may contract only in those jurisdictions.[10]

The term "specialty contractor" means a contractor whose scope of practice is limited to:

- A particular construction category adopted by board rule; and
- A subset of the [trade categories for contractors listed in s. 489.105(3)(a) through (p), F.S., such as roofing, air-conditioning, plumbing, etc.].[11]

The board has adopted rules for the voluntary certification of swimming pool specialty contractors and residential pool/spa servicing contractors.[12] Licenses for these contractors include those for:

- Swimming Pool Layout;
- Swimming Pool Structural;
- Swimming Pool Excavation;
- Swimming Pool Trim;
- Swimming Pool Decking;
- Swimming Pool Piping; and
- Swimming Pool Finishes.

---

[4] Sections 489.107(1), 489.113(1), and 489.117(1)(b), F.S.
[5] Section 489.113(3), F.S. Various exceptions for general, building, residential, and solar contractors are set forth in ss. 489.113(3)(a) through (g), F.S.
[6] *See* Part II, of ch. 489, F.S., relating to Electrical and Alarm System Contracting,
[7] *See* Part III of ch. 489, F.S., relating to Septic Tank Contracting.
[8] Section 489.113(2), F.S.
[9] *See* s. 489.105(7) and (8), F.S.
[10] *See* ss. 489.105((9) and (10), F.S.
[11] Section 489.105(3)(q), F.S.
[12] *See* Fla. Admin. Code R. 61G4-15.032 and 61G4-15.040 (2020) available at https://www.flrules.org/gateway/ChapterHome.asp?Chapter=61G4-15 (last visited Jan. 14, 2020).

AMERICAN OVERSIGHT

Section 489.117(4(d), F.S., similarly allows unlicensed persons to perform contracting services[13] related to the construction, remodeling, repair, or improvement of single-family residences and townhomes, under supervision by a certified or registered general, building, or residential contractor. The supervising contractor need not have a direct contract with the unlicensed person performing the contracting services. A legal challenge to the applicability of this exemption to local license requirements in St. Johns County was not successful.[14]

III. Effect of Proposed Changes:

SB 1102 amends s. 487.117(4), F.S., to exempt from local and state licensing for persons under the supervision of a certified or registered commercial pool/spa contractor, a residential pool/spa contractor, or a swimming pool/spa servicing contractor (a licensed pool contractor) for the performance of certain specialty contracting services. The bill provides a contractual relationship between the supervising contractor and those performing the specialty contracting services is not required (i.e., the performance of such contracting services is outside the business of contracting and need not be undertaken through a contractor/subcontractor relationship).

The services that may be performed by unlicensed persons under the supervision of a licensed pool contractor include the construction, remodeling, repair, or improvement of swimming pools, hot tubs, spas, and interactive water features, as defined in the Florida Building Code (code).[15] Of those terms, the current code does not appear to define "interactive water features." However, the described scope of work for "swimming pool piping specialty contractor" includes "decorative or interactive water displays or areas."[16]

The exemption is not available for persons required to be certified or registered as contractors for specified trade categories described in s. 489.105(3), F.S.[17]

The exemption from local contractor licensing and specialty contractor licensing created in the bill is similar to an exemption enacted in 1993.[18] Section 489.117(4)(d), F.S., allows unlicensed persons to perform contracting services related to the construction, remodeling, repair, or improvement of single-family residences and townhomes, under supervision by a certified or registered general, building, or residential contractor. The supervising contractor need not have a direct contract with the unlicensed person performing the contracting services.

---

[13] The specified scopes of work are sheet metal contractor, roofing contractor, Class A, B, and C air-conditioning contractor, mechanical contractor, plumbing contractor, underground utility and excavation contractor, and solar contractor.
[14] *See Florida Home Builders Ass'n v. St. Johns County*, 914 So.2d 1035 (Fla. 5th DCA 2005).
[15] The term "swimming pool" is defined as "[a]ny structure intended for swimming, recreational bathing or wading that contains water over 24 inches (610 mm) deep. This includes in-ground, aboveground and on-ground pools; hot tubs; spas and fixed-in-place wading pools." *See* ch. 2 of the 2017 Florida Building Code (Sixth Edition), available at https://codes.iccsafe.org/content/FBC2017/chapter-2-definitions (last visited Jan. 14, 2020).
[16] *See* Fla. Admin. Code R. 61G4-15.032(2)(f), relating to certification of swimming pool piping specialty contractors, available at https://www.flrules.org/gateway/ChapterHome.asp?Chapter=61G4-15 (last visited Jan. 14, 2020).
[17] *See* ss. 489.105(3)(a) through (i) and (m) through (o), F.S. The specified scopes of work are identified as general contractor, building contractor, residential contractor, sheet metal contractor, roofing contractor, Class A, B, and C air-conditioning contractor, mechanical contractor, plumbing contractor, underground utility and excavation contractor, and solar contractor.
[18] *See* ch. 93-154, s. 3, and ch. 93-166, s. 12, Laws of Fla. These provisions have been subsequently amended.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Innovation, Industry, and Technology

BILL:	SB 1140
INTRODUCER:	Senator Gruters
SUBJECT:	Public Accountancy
DATE:	January 17, 2020
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Oxamendi	Imhof	IT	**Pre-meeting**
2.			CM	
3.			RC	

I. Summary:

SB 1140 permits a nonresident Florida-licensed certified public accountant (CPA) to renew his or her license, if the CPA has complied with the continuing education requirements in the state in which his or her office is located. However, a nonresident CPA must satisfy Florida's ethics-related continuing education requirements. If the state in which the nonresident CPA's office is located does not have continuing education requirements as a condition for license renewal, the nonresident CPA must comply with the continuing education requirements in Florida.

The bill requires that the majority of the hours for continuing education in ethics must review the applicable Florida statutes and rules.

The bill permits a CPA to place his or her license in a retired status if the person is at least 55 years of age, holds a current active or inactive license that is in good standing, and is not the subject of any sanction or disciplinary action. If a licensee on retired status reenters the workforce in a position that has an association with accounting or any of the CPA services, the licensee automatically loses her or his retired status. A retired CPA:

- May continue to provide services utilizing accounting skills, and tax, management advisory, or consulting services, as defined in s. 473.302(8)(b), F.S., but may not provide certain accounting services defined ss. 473.302(8)(a), (c), and (d), F.S., such as services that involve an opinion on financial statements or the preparation of financial statements.
- May engage in specified activities, including serving without compensation on a board of directors or board of trustees, providing volunteer tax preparation services, and participating in an advisory role for a similar charitable, civic, or other nonprofit organizations.
- May accept routine reimbursement for certain expenses, such as actual costs of travel and meals associated with volunteer services.
- May use the title of "retired CPA," but may not offer or render professional services that require her or his signature and use of the CPA title, regardless of whether the word "retired" is attached to such title.

AMERICAN OVERSIGHT

- Is not required to fulfill the continuing education requirements.
- May reactivate her or his license in a conditional manner determined by the board, which must require the payment of fees and the completion of any required continuing education.

The effective date of the bill is July 1, 2020.

II. Present Situation:

The Florida Board of Accounting (board) in the Department of Business and Professional Regulation (DBPR) is the agency responsible for regulating and licensing more than 38,000 active and 2,700 inactive CPAs and more than 5,700 accounting firms in Florida.[1] The Division of Certified Public Accounting provides administrative support to the nine-member board, which consists of seven CPAs and two laypersons.[2]

A certified public accountant is a person who holds a license to practice public accounting in this state under ch. 473, F.S., or an individual who is practicing public accounting in this state pursuant to the practice privilege granted in s. 473.3141, F.S.[3]

The practice of public accounting includes offering to the public the performance of services involving audits, reviews, compilations, tax preparation, management advisory or consulting services, or preparation of financial statements.[4] To engage in the practice of public accounting, as defined in s. 473.302(8)(a), F.S., an individual or firm must be licensed pursuant to ss. 473.308 or 473.3101, F.S., and business entities must meet the requirements of s. 473.309, F.S.

Definitions

Section 473.302(8), F.S., define the terms "practice of," "practicing public accountancy," or "public accounting" to mean:

> (a) Offering to perform or performing for the public one or more types of services involving the expression of an opinion on financial statements, the attestation as an expert in accountancy to the reliability or fairness of presentation of financial information, the utilization of any form of opinion or financial statements that provide a level of assurance, the utilization of any form of disclaimer of opinion which conveys an assurance of reliability as to matters not specifically disclaimed, or the expression of an opinion on the reliability of an assertion by one party for the use by a third party;

[1] Florida Department of Business and Professional Regulation, Fiscal Year 2018-2019 Annual Report, page 12, available at http://www.myfloridalicense.com/DBPR/os/documents/DivisionAnnualReport_FY1819.pdf(last visited Jan. 14, 2020).
[2] Section 473.303, F.S.
[3] *See* s. 473.302(4), F.S. Section 473.3141, F.S., permits a person who does not have an office in Florida to practice public accountancy in this state without obtaining a license under ch. 473, F.S., notifying or registering with the board, or paying a fee if the person meets the required criteria.
[4] Section 473.302(8), F.S.

AMERICAN OVERSIGHT

(b) Offering to perform or performing for the public one or more types of services involving the use of accounting skills, or one or more types of tax, management advisory, or consulting services, by any person who is a certified public accountant who holds an active license, issued pursuant to this chapter, or who is authorized to practice public accounting pursuant to the practice privileges granted in s. 473.3141, [F.S.,] including the performance of such services by a certified public accountant in the employ of a person or firm; or

(c) Offering to perform or performing for the public one or more types of service involving the preparation of financial statements not included within paragraph (a), by a certified public accountant who holds an active license, issued pursuant to this chapter, or who is authorized to practice public accounting pursuant to the practice privileges granted in s. 473.3141[, F.S.]; by a firm of certified public accountants; or by a firm in which a certified public accountant has an ownership interest, including the performance of such services in the employ of another person. The board shall adopt rules establishing standards of practice for such reports and financial statements; provided, however, that nothing in this paragraph shall be construed to permit the board to adopt rules that have the result of prohibiting Florida certified public accountants employed by unlicensed firms from preparing financial statements as authorized by this paragraph.

Qualifications

To be licensed as a certified public accountant, a person must:[5]

- Be of good moral character;
- Pass the licensure exam; and
- Have at least 150 semester hours of education, with a focus on accounting and business.

License by Endorsement

Section 473.308, F.S., provides for the licensure of individuals desiring to be licensed as a certified public accountant. Section 473.308(7), F.S., provides for licensure of certified public accountants by endorsement. To qualify, an applicant for licensure by endorsement the applicant must satisfy education, work experience, good moral character requirements. Applicants for endorsement must also have completed education courses that are equivalent to the continuing education requirements in this state during the two years immediately preceding the application for licensure by endorsement.

If the applicant is <u>not licensed</u> in another state or territory, the applicant must:[6]

- Have passed a national, regional, state, or territorial licensing examination that is substantially equivalent to the examination required by s. 473.306, F.S.; and
- Have completed continuing professional education courses that are at least equivalent to the continuing professional education requirements for a Florida certified public accountant.

[5] Sections 473.308(2)-(5), F.S.
[6] Section 473.308(7)(a), F.S.

AMERICAN OVERSIGHT

If the applicant is licensed in another state or territory, the applicant has:[7]

- Satisfied licensing criteria that were substantially equivalent to the licensure criteria in this state at the time the license was issued; or
- If the licensing criterial are not substantially equivalent to Florida, passed a national, regional, state of territorial licensing examination with examination criteria that were substantially equivalent to the examination criteria required in this state; or
- A valid license in another state or territory for at least 10 years before applying for a license in Florida, and has passed a national, regional, state of territorial licensing examination with examination criteria that were substantially equivalent to the examination criteria required in this state.

Continuing Education

Certified public accountants, as part of the license renewal procedure, are required to submit proof satisfactory to the board that, during the two years prior to their application for renewal, they have successfully completed not less than 48 or more than 80 hours of continuing professional education programs in public accounting subjects approved by the board.[8] The board has the authority to prescribe by rule additional continuing professional education hours, not to exceed 25 percent of the total hours required, for failure to complete the hours required for renewal by the end of the reestablishment period.[9]

At least 25 percent of the total hours required by the board must be in accounting-related and auditing-related subjects, as distinguished from federal and local taxation matters and management services.[10]

Not less than 10 percent of the total continuing education hours must be in accounting-related and auditing-related subjects, as distinguished from federal and local taxation matters and management services.[11]

Not less than five percent of the continuing education must be in ethics applicable to the practice of public accounting, including a review of the provisions of ch. 455, F.S.,[12] and ch. 473, F.S., and the related administrative rules. This requirement must be administered by providers approved by the board.

Inactive Licenses

Section 473.313(1), F.S., permits Florida-licensed CPAs to request that their license be placed on inactive status. Section 473.313(2), F.S., authorizes the board to adopt rules establishing the

[7] Section 473.308(7)(b), F.S.
[8] Section 473.312(1)(a), F.S.

[12] Chapter 455, relates to the regulation of professions by the department.

AMERICAN OVERSIGHT

minimum requirements for placing a license on inactive status, renewing an inactive license, and reactivating the inactive license.[13]

A person may reactivate a license by applying to the department and paying a $250 application fee.[14] If the license is delinquent on January 1 because of failure to report completed continuing education requirements, the applicant must submit a complete application to the board by March 15 immediately after the delinquent period.[15]

Current law does not provide CPAs the option of placing licenses into a retired status as an alternative to inactive status.

III. Effect of Proposed Changes:

Licensure by Endorsement

The bill amends s. 476.308(1)(a)1., F.S., to change the term "another state" to "any state". The bill does not make the same change throughout s. 476.308, F.S., where the term "another state" is used. Section 476.308(1)(a)1., F.S., as amended by the bill, appears to include persons who have not been licensed in Florida within the licensure by endorsement requirements in paragraph (a). The amendment to this section appears to not have a substantive effect because such a person, i.e., a person from Florida who has not been license in any state or territory, must satisfy the licensing requirements of this state whether they do so through the regular licensure qualification process or the licensure by endorsement process.

Continuing Education

The bill amends s. 473.311(1), F.S., to permit a nonresident licensee to renew his or her Florida license if the licensee has complied with the continuing education requirements in the state in which his or her office is located. However, under the bill, the nonresident licensee is required to complete not less than 5 percent of the continuing education in ethics applicable to the practice of public accounting, including a review of the provisions of ch. 455, F.S., and ch. 473, F.S., and the related administrative rules.

The nonresident licensee must comply with the continuing education requirements in Florida if the state in which the nonresident licensee's office is located does not have continuing education requirements as a condition for license renewal.

The bill amends s. 473.312(1)(c), F.S., require that the majority of the hours for the continuing education in ethics must be in a review of the provisions of ch. 455, F.S.,[16] and ch. 473, F.S., and the related administrative rules.

[13] *See* Fla. Admin R. 61H1-33.006 (2019).

[15] Section 473.313(3), F.S.
[16] Chapter 455, relates to the regulation of professions by the department.

AMERICAN OVERSIGHT

Retired Status

The bill amends s. 473.313, F.S., to permit a Florida CPA to place his or her license in a retired status if the person is:

- At least 55 years of age;
- Holds a current active or inactive license; and
- In good standing and not the subject of any sanction or disciplinary action.

If a licensee on retired status reenters the workforce in a position that has an association with accounting or any of the services, the licensee automatically loses her or his retired status. However, a CPA on retired status may continue to provide services utilizing accounting skills, and tax, management advisory, or consulting services, as defined in s. 473.302(8)(b), F.S., but may not provide certain accounting services defined ss. 473.302(8)(a), (c), and (d), F.S., such as services that involve an opinion on financial statements or the preparation of financial statements.

The bill authorizes a retired licensee to engage in specified activities, including serving without compensation on a board of directors or board of trustees, providing volunteer tax preparation services, and participating in an advisory role for a similar charitable, civic, or other nonprofit organizations.

A licensee on retired status must affirm in writing her or his understanding of the limited types of activities in which she or he may engage while in retired status and that she or he has a professional duty to ensure that she or he holds the professional competencies necessary to participate in such activities.

A retired licensee:

- May accept routine reimbursement for actual costs of travel and meals associated with volunteer services or de minimis per diem amounts paid to the licensee to cover such expenses as allowed by law.
- May use the title of "retired CPA," but may not offer or render professional services that require her or his signature and use of the CPA title, regardless of whether the word "retired" is attached to such title.
- Is not required to maintain the continuing education requirements.
- May reactivate her or his license in a conditional manner determined by the board, which must require the payment of fees and the completion of any required continuing education.

Effective Date

The effective date of the bill is July 1, 2020.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Community Affairs

BILL:	SB 514
INTRODUCER:	Senator Gruters
SUBJECT:	Homestead Exemptions
DATE:	January 14, 2020
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Toman	Ryon	CA	**Pre-meeting**
2.			FT	
3.			AP	

I. Summary:

SB 514 allows a person or family unit to retain a homestead exemption under certain circumstances.

Current law provides that a property owner who is receiving or claiming an ad valorem tax exemption in another state that is conditioned upon permanent residency in that state may not receive the ad valorem homestead exemption in Florida. This provision operates regardless of whether the property owner applied for the exemption in the other state or was granted the exemption without applying for it.

The bill allows a person or family unit that has a homestead exemption in Florida and an ad valorem, residency-based exemption or credit in another state to retain the Florida homestead exemption if: 1) the person or family unit demonstrates to the satisfaction of the property appraiser that the person or family unit did not apply for the exemption or credit in the other state and, 2) the person or family unit has relinquished the exemption or credit in the other state.

The bill authorizes the Department of Revenue to require its homestead exemption forms to contain information about an applicant's receipt of residency-based tax exemptions or credits in another state.

The changes made by the bill apply to tax years beginning on or after January 1, 2021.

II. Present Situation:

General Overview of Property Taxation

The ad valorem tax or "property tax" is an annual tax levied by counties, municipalities, school districts, and some special districts. The tax is based on the taxable value of property as of

AMERICAN OVERSIGHT

January 1 of each year.[1] The property appraiser annually determines the assessed or "just value"[2] of property within the taxing authority and then applies relevant exclusions, assessment limitations, and exemptions to determine the property's "taxable value."[3] Tax bills are mailed in November of each year based on the previous January 1 valuation and payment is due by March 31.

The Florida Constitution prohibits the state from levying ad valorem taxes[4] and limits the Legislature's authority to provide for property valuations at less than just value, unless expressly authorized.[5]

The just valuation standard generally requires the property appraiser to consider the highest and best use of property;[6] however, the Florida Constitution authorizes certain types of property to be valued based on their current use (classified use assessments), which often result in lower assessments. Properties that receive classified use treatment in Florida include: agricultural land, land producing high water recharge to Florida's aquifers, and land used exclusively for noncommercial recreational purposes;[7] land used for conservation purposes;[8] historic properties when authorized by the county or municipality;[9] and certain working waterfront property.[10]

Statewide Homestead Exemption

Every person having legal and equitable title to real estate and who maintains a permanent residence on the real estate (homestead property) is eligible for a $25,000 tax exemption applicable to all ad valorem tax levies, including levies by school districts.[11] An additional $25,000 exemption applies to homestead property value between $50,000 and $75,000.[12] This exemption does not apply to ad valorem taxes levied by school districts.

Section 196.031(5), F.S., provides that a person who is receiving or claiming an ad valorem tax exemption or a tax credit in another state where permanent residency is required as a basis for the granting of that exemption or tax credit is not entitled to a homestead exemption in Florida.

---

[1] Both real property and tangible personal property are subject to tax. Section 192.001(12), F.S., defines "real property" as land, buildings, fixtures, and all other improvements to land. Section 192.001(11)(d), F.S., defines "tangible personal property" as all goods, chattels, and other articles of value capable of manual possession and whose chief value is intrinsic to the article itself.

[2] Property must be valued at "just value" for purposes of property taxation, unless the Florida Constitution provides otherwise. FLA. CONST. art VII, s. 4. Just value has been interpreted by the courts to mean the fair market value that a willing buyer would pay a willing seller for the property in an arm's-length transaction. *See Walter v. Shuler,* 176 So. 2d 81 (Fla. 1965); *Deltona Corp. v. Bailey*, 336 So. 2d 1163 (Fla. 1976); *Southern Bell Tel. & Tel. Co. v. Dade County,* 275 So. 2d 4 (Fla. 1973).

AMERICAN OVERSIGHT

Improperly Granted Homestead Exemptions

Florida provides several property tax exemptions for homestead property.[13] Since Florida's homestead exemption requires that the property owner use the homestead property as a permanent residence, a property owner can only have one homestead exemption.

If a property appraiser determines that for any year or years within the prior 10 years a property owner was granted a homestead exemption, but was not entitled to it, the property appraiser must send the owner a notice of intent to file a tax lien on any property owned by the owner in that county.[14] The property owner has 30 days to pay the taxes owed, plus a penalty of 50 percent of the unpaid taxes for each year and 15 percent interest per annum. If not paid within 30 days of notice, the property appraiser must file a tax lien.[15] The tax lien remains on the property until it is paid or until it expires after 20 years.[16] The lien process applies whether or not the taxpayer applied for the residency-based exemption in the other state.

If a homestead exemption is improperly granted as a result of a clerical mistake or an omission by the property appraiser, the person improperly receiving the exemption shall not be assessed penalty and interest.[17]

III. Effect of Proposed Changes:

Section 1 amends s. 196.031, F.S., to specify that a person or family unit that receives or claims an ad valorem tax exemption or tax credit in another state where permanent residency is required as a basis for granting that exemption or credit is disqualified from the homestead tax exemption in Florida, unless the person or family unit demonstrates to the satisfaction of the property appraiser that the person or family unit did not apply for the exemption or credit in the other state and that the person or family unit has relinquished such exemption or credit.

Section 2 amends s. 196.121, F.S., to authorize the Department of Revenue to include on its forms for homestead exemptions the requirement that the homestead exemption applicant provide information about tax exemptions or tax credits in another state where permanent residency is required as a basis for the tax exemption or tax credit.

Section 3 provides that the changes made by the bill apply beginning with the 2021 tax roll.

Section 4 provides an effective date of July 1, 2020.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

[13] *See, e.g.,* ss. 196.031, 196.071, 196.075, 196.081, and 196.091, F.S.

[17] Section 196.161(1)(b), F.S.

AMERICAN OVERSIGHT

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has not yet determined the fiscal impact of the bill.

B. Private Sector Impact:

A property owner that has been found to have a Florida homestead exemption and a similar exemption or credit in another state may continue to qualify for the homestead exemption in Florida if she or he did not apply for the tax exemption or tax credit in another state and relinquishes the exemption or credit in the other state.

C. Government Sector Impact:

According to the Florida Department of Revenue (DOR), if the bill passes, DOR would need to amend Form DR-501 and Rule 12D-16.002, F.A.C.[18]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 196.031 and 196.121.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Commerce and Tourism

BILL:	SB 922
INTRODUCER:	Senator Gruters
SUBJECT:	Economic Development
DATE:	January 17, 2020
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Reeve	McKay	CM	**Pre-meeting**
2.			ATD	
3.			AP	

I. Summary:

SB 922 makes changes to the Qualified Target Industry Tax Refund Program. Specifically, the bill provides that certain businesses that relocate to, or expand into, a county affected by Hurricane Michael are eligible to receive an increased tax refund and authorizes certain businesses located in a county affected by Hurricane Michael to apply for an economic recovery extension. The bill also removes the scheduled repeal date for the tax refund program.

The bill takes effect July 1, 2020.

II. Present Situation:

Qualified Target Industry Tax Refund Program

The Qualified Target Industry (QTI) Tax Refund Program was created by the Legislature in 1994 to encourage the creation and retention of high-quality, high-wage jobs by providing state tax refunds to eligible businesses creating jobs in certain target industries. Tax refunds awarded through the program are determined by the number of jobs created, the average annual wages paid, and the location of the eligible business. Under current law, the tax refund program will expire on June 30, 2020.[1]

In order to be eligible to receive a tax refund, a business must apply to be certified as a qualified target industry business by the Department of Economic Opportunity (DEO). Businesses must be engaged in one of Florida's target industries as identified by DEO and Enterprise Florida, Inc. (EFI).[2] The current qualified targeted industries are aviation and aerospace; life sciences;

[1] Section 288.106(9), F.S.

[2] Section 288.106(2)(q), F.S. Every three years, beginning January 1, 2011, DEO must consult with EFI, economic development organizations, the State University System, local governments, employee and employer organizations, market

AMERICAN OVERSIGHT

manufacturing; defense and homeland security; information technology; financial and professional services; logistics and distribution; research and development; cleantech; and corporate headquarters.[3]

Additionally, a business applying for certification as a qualified target industry business must meet the following requirements:

- A business's project must create at least 10 new jobs, or create a net employment increase of at least 10 percent in the case of an expansion of an existing business. The DEO is authorized to waive this requirement for a business in a rural community or an enterprise zone;[4]
- New jobs must pay an annual average wage of at least 115 percent of the average private sector wage in a business's area or the statewide private sector average wage. The DEO is authorized to waive this requirement for a business in a brownfield area, a rural city, a rural community, or an enterprise zone.[5] Jobs created by a manufacturing project in any location within the state may pay an annual average wage of at least 100 percent of the average private sector wage in a business's area;[6] and
- A business must receive a local funding match, paid by public or private sources, equal to 20 percent of the annual tax refund. The existence of local financial support must be confirmed by a resolution adopted by the governing body of the county or municipality where the business is located.[7] A business located in a brownfield area, a rural city, or a rural community is authorized to exercise an exemption from the local financial support requirement, but the business would not be eligible for more than 80 percent of the total tax refunds originally allowed.[8]

Under s. 288.106(3)(d), tax refunds may be claimed for one or more of the following taxes paid:

- Sales and use tax;
- Corporate income taxes;
- Insurance premium taxes;
- Intangible personal property taxes;
- Ad valorem taxes;
- Certain state communication services taxes; and
- Excise taxes on documents.

Qualified target industry businesses are eligible to receive a tax refund equal to $3,000 per newly created job. If a business is located in a rural community or an enterprise zone, the refund amount is increased to $6,000 per created job.[9] Qualified target industry businesses may also be eligible for the following additional tax refund payments under s. 288.106(3)(b):

---

analysts, and economists to review and revise the list of target industries. Target industries are determined according to criteria found in statute.

[7] Section 288.106(4)(a)10., F.S.

[8] Section 288.106(2)(k), F.S.

[9] Section 288.106(3)(b)1., F.S.

AMERICAN OVERSIGHT

- $1,000 per created job if such jobs pay an average annual wage of at least 150 percent of the average private sector wage in a business's area;
- $2,000 per created job if such jobs pay an average annual wage of at least 200 percent of the average private sector wage in a business's area;
- $1,000 per created job if a business's local financial support is equal to the state's incentive award; and
- $2,000 per created jobs if a business falls within one of the designated high-impact sectors[10] or increases exports of its goods through a seaport[11] or airport in the state by at least 10 percent by value or tonnage in each of the years the business receives a tax refund.

A qualified target industry business cannot receive more than $1.5 million in tax refunds in any fiscal year, or more than $2.5 million in any fiscal year if the business is located in an enterprise zone.[12] The total state share of tax refund payments may not exceed $35 million.[13]

In the event of negative economic conditions in a business's industry, a named hurricane or tropical storm, or specific acts of terrorism, a qualified target industry business may request an economic recovery extension. The request must provide evidence detailing how the aforementioned conditions have prevented a business from carrying out the terms of its tax refund agreement. Upon approval, the DEO will renegotiate a business's tax refund agreement. Agreements may not be extended for more than 2 years, and a business that receives an extension may not receive a tax refund for the period covered by the extension. Requests for an economic recovery extension were permitted in lieu of any tax refund claim scheduled between January 1, 2009, and July 1, 2012.[14]

In response to the Deepwater Horizon oil spill, the Legislature enacted a special incentive within the QTI program to encourage business investment in the counties disproportionally affected by the disaster.[15] DEO was authorized to waive any or all wage or local financial support requirements between July 1, 2011, and June 30, 2014, for a business located in Bay, Escambia, Franklin, Gulf, Okaloosa, Santa Rosa, Walton, or Wakulla County. During this period, a qualified target industry business that relocated all or part of its business to one of such counties from another state was also eligible for a tax refund of $6,000 per job created.[16]

---

[10] Pursuant to s. 288.108(6), F.S., EFI must consult with the DEO, economic development organizations, the State University System, local governments, employee and employer organizations, market analysts, and economists every three years, beginning January 1, 2011, to review the designated high-impact sectors. The sectors currently designated as high impact are transportation equipment (including aviation and aerospace), information technology, life sciences, financial services, corporate headquarters, and clean energy. *See* Office of Program Policy Analysis and Government Accountability, *Florida Economic Development Program Evaluations – Year 7*, 17 (2019), *available at* http://www.oppaga.state.fl.us/MonitorDocs/Reports/pdf/1916rpt.pdf (last visited Jan. 17, 2020).

[11] Section 288.106(3)(b)4.b., F.S., limits seaports to the ports of Jacksonville, Tampa, Port Everglades, Miami, Port Canaveral, Ft. Pierce, Palm Beach, Port Manatee, Port St. Joe, Panama City, St. Petersburg, Pensacola, Fernandina, and Key West.

[12] Section 288.106(3)(c), F.S.

[13] Section 288.095(3)(a), F.S.

[14] Section 288.106(5)(b)1., F.S.

[15] Chapter 2011-142, s. 150, Laws of Fla.

[16] Section 288.106(8), F.S.

AMERICAN OVERSIGHT

To date, 1,360 businesses have been approved to participate in the QTI program and over $260 million has been awarded in tax refunds. According to the DEO, the 321 businesses actively participating in the program in the 2018-2019 fiscal year created 7,462 jobs in total and exceeded the number of total new jobs expected to be created by 3,184.[17]

After June 30, 2020, a business may not become certified as a qualified target industry business. Tax refund agreements already in existence before then will remain in effect.

Hurricane Michael

Hurricane Michael made landfall in the Florida Panhandle as a Category 5 Hurricane on October 10, 2018. The storm, the fourth most powerful hurricane to hit the country, remained at category 3 strength as it traveled into southwest Georgia. Storm surge and 160 mph winds caused destruction and losses of almost $7 billion along the hurricane's path.[18] In the year following the storm, FEMA has provided $1.9 billion in federal funds for housing assistance, disaster loans, public assistance grants, and hazard mitigation grants.[19] Businesses have been slow to reopen, largely due to a shortage of workers worsened by the lack of affordable housing in the area.

III. Effect of Proposed Changes:

SB 922 amends certain provisions in s. 288.106, F.S., regarding economic recovery extensions and additional tax refunds for qualified businesses in Disproportionally Affected Counties.

Under current law, a qualified target industry business was authorized to submit a request for an economic recovery extension in lieu of any tax refund claim scheduled to be submitted between January 1, 2009, and July 1, 2012. The bill amends s. 288.106(5)(b)4, F.S., which would allow a qualified target industry business located in a county affected by Hurricane Michael to apply for an economic recovery extension in lieu of any tax refund claim scheduled to be submitted after January 1, 2021, but before July 1, 2023. A business that receives an economic recovery extension may not receive a tax refund for the period covered by the extension, which is not to exceed 2 years.

Section 288.106(8), F.S., authorized the DEO to waive any or all wage or local financial support requirements between July 1, 2011, and June 30, 2014, for a business located in a "Disproportionally Affected County." During this period, a qualified target industry business relocating all or part of its business to a "Disproportionally Affected County" from another state was also eligible for a tax refund of $6,000 per job created. SB 922 would replace all references to a "Disproportionally Affected County" with a "county affected by Hurricane Michael" and update the period during which requirements can be waived and businesses can receive an additional tax refund to between July 1, 2020, and June 30, 2023. DEO's decision to waive wage

AMERICAN OVERSIGHT

or financial support eligibility requirements would also have to be stated in writing. The bill would increase the additional tax refund to $10,000 per created job and entitle a business that "relocates from another state to, or establishes its business or expands its existing business in, a county affected by Hurricane Michael" to such a refund. The bill defines a "county affected by Hurricane Michael" as Bay, Calhoun, Franklin, Gadsden, Gulf, Holmes, Jackson, Jefferson, Leon, Liberty, Okaloosa, Wakulla, Walton, or Washington County.

The bill removes the tax refund program's expiration date of June 30, 2020, and would permanently reauthorize the program.

The bill takes effect July 1, 2020.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has not yet met regarding the bill.

The bill increases the amount of tax refunds that certain qualified target industry businesses in specified counties are eligible to receive. However, the annual funding cap of $35 million, pursuant to s. 288.095(3)(a), F.S., would still apply. This could decrease the total number of tax refunds the DEO is able to award through the program.

B. Private Sector Impact:

The amount of tax refunds available to a qualified target industry business that relocates to or expands into to a county affected by Hurricane Michael is increased from $6,000 to

AMERICAN OVERSIGHT

$10,000 per created job, which could incentivize certain businesses to relocate to or expand into those areas.

C. Government Sector Impact:

The Department of Economic Opportunity has not yet analyzed the bill's potential impact.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 288.106 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

AMERICAN OVERSIGHT

SB 1102

Questions & Answers

Q: Why is this bill needed?
A: There is a labor shortage in the swimming pool subcontractor market—there are not enough licensed swimming pool subcontractors to serve the active pool contractors (roughly 11:1 ratio of contractors to subcontractors—3893 active licensed swimming pool contractors and only 351 licensed swimming specialty subcontractors). Consequently, many pool contractors find themselves in a position where their only option to finish a job is use an unlicensed subcontractor. This bill will put more people to work legally in the swimming pool industry.

Q: Why can't subcontractors just get licensed?
A: The statutory requirements disincentivizes subcontractors from obtaining the subcontractor license. They have to demonstrate 4 years of specific experience in the license area, pass a credit check or post a bond, and pass an exam—nearly the same requirements as full-fledged swimming pool contractor. Consequently, many elect not to obtain the license. As a result, there have only been 75 new specialty swimming pool sub-contractors licensed since 2016.

Q:Wouldn't removing the licensing requirement lead to bad or dangerous work being done on swimming pools?
A: No. The prime swimming pool contractor is ultimately responsible for the construction of the swimming pool, whether it is an employee of the contractor or a subcontractor. The swimming pool contractor is supervising and checking the work and is responsible for the quality of the work.

Q: How would this bill effect the subcontractors' and contractors' workers comp insurance?
A: There should be no effect. A prime swimming pool contractor's workers comp policy should account for subcontractors on the job site and a subcontractor would still be able to carry a workers comp policy based on a local business license.

AMERICAN OVERSIGHT

SB 1102 – Specialty Contracting Services

- Any person who is not required to be registered or certified as a contractor for licensed trades may perform residential contracting services without a local license under the supervision of a general, building, or residential contractor. This law is known as the Jim Walters exemption.

- The Jim Walters exemption ensures Florida's construction industry is able to safely and economically complete projects without being stifled by unnecessary government regulations.

- Swimming pool contractors are similar to general, building, and residential contractors because they are largely responsible for the entire project, from the first turn of dirt to final completion of the project.

- Unlike general, building, and residential contractors, however, swimming pool contractors are not covered by the Jim Walters exemption. Instead, they are restricted in their use of subcontractors to specialty contractors. Licenses for these specialty contractors were created by agency rule and include areas such as decking, excavation, and trim.

- While specialty licenses were created to allow swimming pool contractors to subcontract their work, specialty licenses have become an unnecessary chokehold restricting job and wage growth because of significant shortage of specialty contractors statewide. There are only 351 specialty contractor licensees for nearly 4,000 swimming pool contractors, and growth has been anemic with just 75 new licensees in the last four years.

- The proposed bill will generate growth in jobs and wages by allowing swimming pool contractors to use individuals who will work under the supervision and scope of the contractor's license. Similar to the Jim Walters exemption, safety and quality will be ensured by requiring oversight of these individuals by a licensed swimming pool contractor.

AMERICAN OVERSIGHT

Swimming Pool Subcontractors: Fact Sheet

Swimming Pool Contractors (CPC licensees) rely heavily on subcontractors that specialize in a limited part of the swimming pool construction process to complete new builds and remodels efficiently while keeping high standards.

To allow CPC licensees to hire subcontractors, 7 categories of Swimming Pool Specialty Contractors were created by administrative rule under Rule 61G4-15.032:

1. Swimming Pool Layout Specialty Contractor
    a. Scope: layout, shaping, steel installation, and rough piping of pools, spas, and hot tub shells
2. Swimming Pool Structural Specialty Contractor
    a. Scope: shaping and shooting of gunite, shotcrete, concrete, or similar product mix used in the construction of swimming pools and spas. This scope of work includes the installation of fiberglass shells and vinyl liners
3. Swimming Pool Excavation Specialty Contractor
    a. Scope: the excavation and earthmoving required for the installation of pools, spas, and hot tub shells
4. Swimming Pool Trim Specialty Contractor
    a. Scope: installation of tile and coping for pools, spas, and hot tub shells. Decorative or interactive water displays or areas that use recirculated water, including waterfalls and spray nozzles, are also included
5. Swimming Pool Decking Specialty Contractor
    a. Scope: construction and installation of concrete flatwork, pavers and bricks, retaining walls, and footings associated with the construction of pools, spas, and hot tub shells
6. Swimming Pool Piping Specialty Contractor
    a. Scope: installation of piping or the installation of circulating, filtering, disinfecting, controlling, or monitoring equipment and devices used in the construction of pools, spas, hot tubs, and decorative or interactive water displays or areas
7. Swimming Pool Finishes Specialty Contractor
    a. Scope: coating or plastering of the interior surfaces of pools, spas, or hot tub shells

Swimming Pool Specialty Subcontractor licensure has similar requirements as a Swimming Pool Contractor, disincentivizing application for Specialty Subcontractor license:

AMERICAN OVERSIGHT

- 4 Years of Experience
- Credit Check or Bond
- Practical Exam

Swimming Pool Specialty Subcontractor Shortage

- 3893 Licensed Swimming Pool Contractors in the State of Florida
- 351 Licensed Swimming Pool Specialty Sub Contractors in the State of Florida
- Only 75 new Swimming Pool Specialty Contractors Since 2016
- Only 107 License Practical Exam Proctors throughout the state

Capitol to Capitol | Monday, Oct. 21, 2019

NCSL in D.C.

NCSL will host a briefing on Capitol Hill this week to educate congressional staff on the importance of state cyber proficiency and funding. In addition to South Carolina Senator Tom Alexander (R), co-chair of NCSL's Executive Committee Task Force on Cybersecurity, other participants include New Jersey Office of Homeland Security Director and Preparedness Jared Maples; Maj. Gen. Timothy Williams, adjutant general, Virginia; and Delaware Chief Information Officer James Collins, the National Association of State Chief Information Officers' past-president. Senator Gary Peters, a chief co-sponsor of the NCSL supported S. 1846, the "State and Local Government Cybersecurity Act of 2019" is also expected to speak on the importance of federal-state-local collaboration on cybersecurity issues.

Last week, NCSL participated in an event with U.S. Senator Mike Lee (R-Utah) where he unveiled legislation to provide significant new authority to state and local governments to regulate drone operations. The bill, which NCSL supports, would allow state and local governments (when not preempted by states) to set reasonable restrictions on drone operations—something states are generally preempted from doing now.

NCSL's recent correspondence with the Hill and the administration:

- NCSL letter to Senator Gary Peters (D-Mich.) and Senator Rob Portman (R-Ohio) thanking them for their leadership in introducing S 1846, the "State and Local Government Cybersecurity Act of 2019." (Oct. 21, 2019)
- NCSL comments in response to the U.S. Environmental Protection Agency's (EPA) proposed rule, Updating Regulations on Water Quality Certification (Oct. 16, 2019)

State-Federal Blogs:

- Long-Awaited Updates to Lead and Copper Rule Released—What's Proposed? (NCSL, Oct. 16, 2019
- States, Not Feds, Should Oversee Sports Betting (NCSL, Oct. 16, 2019)

After Recess, Senate Appropriators May Drive "Mini-Bus"

Upon returning last week from October recess, lawmakers made little progress in advancing fiscal year (FY) 2020 spending bills, but Senate leadership expressed it may attempt to move a cluster of less controversial bills this week. Senate Appropriations Chairman Richard Shelby (R-Ala.) hopes to pass a "mini-bus" of bills first procedurally, then to the actual Senate floor.

The package is expected to include funding for Commerce-Justice-Science, Agriculture-FDA, Interior-Environment, Transportation-HUD and MILCON-VA. House and Senate staffers attempted to craft allocations over the October recess that would be amenable to both chambers but funding over the president's border wall continued to be an obstacle for any substantive reconciliation. While the House passed 10 of its 12 annual spending bills before the August recess, the Senate has yet to pass any of the bills required to fund the FY that began Oct. 1. The continuing resolution (PL 116-59), which has kept the federal government operating into this new FY based on FY 2019 levels, is set to expire Nov. 21.

Senate Considers Pension Plan Relief

Senate activity to help failing pension plans for coal miners and other union workers is gaining bipartisan momentum as more than 1 million retirees would be affected by a $66 billion looming shortfall, according to reports. While the strategy for advancing measures is still unclear, Senate Finance Chairman Chuck Grassley (R-Iowa) said his committee is working on a plan he hopes can be used to engage in substantive discussions with the House, which proposed its own version of legislation that would extend loans to struggling plans. The Congressional Budget Office ultimately found the House bill would have had very little impact on addressing the crisis, but the Senate has expressed interest in proposing a comprehensive plan that would include low-interest loans and grants.

NCSL Contact: Erlinda Doherty

Vaping Tax, Extenders Legislation Gain Momentum

The House Ways and Means Committee plans to consider legislation this week that would place a federal tax on electronic cigarettes. While the actual vehicle for moving this measure forward is still unclear, a bipartisan measure from Representative Tom Suozzi (D-N.Y.) and Representative Pete King (R-N.Y.) that would tax e-cigarettes at $3 a pack, is being considered. Bipartisan momentum on tax extender legislation is also forming as Grassley has expressed support in working with Minority Chairman Ron Wyden (D-Ore.) to potentially adopt the House Ways and Means version of an extenders package that has already gained ground in that chamber.

DYK? Considered baseball's national anthem, "Take Me Out to the Ball Game" was written by composer Albert von Tilzer and lyricist Jack Norworth, both of whom had never attended a professional baseball game prior to writing the song.

EPA Proposes Major Changes to Renewable Fuel Standard

The Environmental Protection Agency (EPA) proposed a major update to the Renewable Fuel standard for FY 2020 and FY 2021. The proposed rule is centered around ensuring a set amount of biofuels is blended into the nation's fuel supply, based upon the amount determined by the EPA regardless of the hardship waivers it issues.

Specifically, the EPA will continue to grant economic hardship waivers to small refiners when warranted, but will require large refineries to blend extra gallons equal to a three-year rolling average of the number of exempted gallons, which for the upcoming 2020 compliance year is expected to be about a billion gallons. The intent is to ensure that refiners must blend close to the 15 billion gallons of conventional ethanol required by the EPA's annual rule. The administration also announced it will begin a process to make it easier for gas stations to sell gasoline with 15% ethanol (E15), as it will permit gas stations to use the same tanks they use for 10% ethanol fuel—the standard gasoline used in most cars—for 15% ethanol (E15). Previously, the administration acted to legalize the year-round sales of E15.

Trump Administration Announces Future Changes to Medicare Reform

Earlier this month, the administration announced an executive order (EO) regarding future changes to the Medicare program with a focus on Medicare Advantage (MA) plans. Several of the EO's recommendations include: reducing barriers for enrollees to get Medicare Medical Savings Accounts, ensuring fee-for-service (FFS) Medicare is not promoted over MA; a report submitted by the secretary of Health and Human Services and other White House officials identifying approaches that would modify Medicare FFS payments to more closely reflect prices paid for MA and commercial health insurance plans services; providing beneficiaries with improved access to providers; emphasizing time spent with patients over Medicare payments received; and the elimination of unnecessary regulatory billing requirements and benefit definitions among others. The announcement included a response regarding Democratic presidential candidates' proposals to reform America's health care system into a universal health care model, with some including Medicare for All.

POTUS Issues New EO on Federal Guidance

The president issued two EOs. One EO requires agencies to post all guidance documents on a searchable website, and anything not posted is considered rescinded. The other EO is aimed at preventing opaque or unlawful interpretations of regulations. Requiring federal agencies to make all agency guidance publicly available, as well as conducting educational outreach to industries when policy changes are made, is intended to reduce the legal weight of federal agency guidance. In addition, "significant" guidance documents will go through a public comment process, although this process is already standard practice at certain agencies.

NCSL Banner

building-1758584_640(4).jpg

Capitol to Capitol | Monday, Oct. 28, 2019

This week the Senate will continue to try and move fiscal year 2020 appropriations. The House, in addition to hearing more impeachment testimony, is scheduled to hold votes on several bills including reauthorizing funding and programs under the Older Americans Act, regulating the sale of online e-cigarettes and making full use of the Harbor Maintenance Trust Fund (read NCSL's letter of support).

NCSL State and Local Cybersecurity Day on the Hill

Last week NCSL organized and participated in a congressional briefing titled "State and Local Cybersecurity Day on the Hill." Senator Thomas Alexander (R-S.C.) represented NCSL, and was joined by officials from the National Governors Association and the National Association of Chief Information Officers. Alexander's remarks addressed cybersecurity as a nonpartisan issue, the need for increased coordination between federal, state and local governments, and reiterated NCSL's support for federal legislation, S.1846, that supports the goal of federal, state, and local collaboration on cybersecurity issues.

Longer-Term Continuing Resolution Becoming More Likely

The Senate was expected to pass a "minibus" last week—a package of noncontroversial bills funding the departments of Agriculture, Transportation-HUD, Interior-Environment and Commerce-Justice-State—but debate regarding amendments halted that progress. While Senate leadership maintains that passage is still possible this week, both chambers remain nearly at an impasse on funding for the border wall, making a longer-term continuing resolution seem more likely.

NCSL Contact: Erlinda Doherty

AMERICAN OVERSIGHT

Ways and Means Approves First Federal E-Cigarette Tax

The House Ways and Means Committee approved legislation last week creating a tax on e-cigarettes with the expectation that the measure would lower usage rates in minors and young adults, while generating an estimated $10 billion in revenue. HR 4742 would apply a $1-per-pack federal tax rate on nicotine-based vapes, which is about the same rate currently enforced on traditional cigarettes. While the bill was approved along mostly partisan lines, there has been discussion that a bill taxing a wider array of vaporized products could get more widespread support. The House has already drafted a bipartisan version of this broader bill and the Senate Finance Committee has two versions of its own. There has been momentum in recent weeks to pass legislation aimed at banning flavored vaping products due to reported harmful effects, but the already large list of tax measures lingering in both chambers presents a challenge for this issue to take priority. Meanwhile, the president, who originally supported an across-the-board ban of flavored vaping products, has recently backpedaled on that pledge.

Roadway Fatalities Continue Decline, but Pedestrian and Bicycle Deaths Increase

New data released by the National Highway and Traffic Safety Administration (NHTSA) show there was a decrease in overall highway traffic fatalities in 2018, but deaths of pedestrians and bicyclists increased. Overall, 36,560 people died on the roads in 2018, down 2.4% from the year before. However, despite the decrease in overall deaths, pedestrian and bicyclist fatalities continued to rise, with deaths of those on foot climbing 3.4% to 6,283 last year, more than in any year since 1990. Deaths of pedestrians have jumped by 42% in the last decade, even as the combined number of all other traffic deaths has fallen by 8%. NHTSA's initial estimates for the first half of 2019 also show the positive trends may continue, with a 3.4% decrease in total fatalities compared to the same period in 2018.

Capitol to Capitol | Monday, Oct. 7, 2019

Congress is in recess until Oct. 15; the current continuing resolution (CR) expires Nov. 21. More on the CR can be found in last week's Capitol to Capitol.

Surprise Billing and Prescription Drugs, Congress Marches On

Members and staff are still meeting to work on proposals to address surprise medical bills and prescription drug prices. House Ways and Means Chairman Richard Neal (D-Maine) proposed a solution to Democratic lawmakers that would bring together stakeholder groups and relevant federal agencies, such as Health and Human Services and the departments of Labor and Treasury, to develop recommendations that could then be issued as a regulation by the administration. Neal's proposal is one of several among lawmakers to address these policies before the end the of the year.

TSA: Only 27% of Americans have REAL ID as One Year Deadline Passes

TSA reported that only 27% of Americans have been issued a Real ID-compliant identification card. Acting TSA Deputy Administrator Patricia Cogswell noted that the low enrollment numbers may in part be explained by the fact that some states have only recently begun to issue the licenses, but acknowledged that the low enrollment is concerning. All travelers age 18 or older have until Oct. 1, 2020, to obtain a Real ID-compliant identification card. After that date, those without a Real ID will have to present another form of acceptable identification to fly domestically. That includes U.S. passports, Department of Homeland Security trusted traveler cards, transportation worker identification credentials and permanent resident cards. Currently, 47 states issue compliant ID cards. More on the REAL ID can be found here.

Court Rules EPA Failed to Achieve Appropriate Reductions in Interstate Air Pollution

The D.C. Circuit Court of Appeals unanimously ordered the Environmental Protection Agency (EPA) to devise a new plan on how to address pollution that travels across state lines. Specifically, EPA is ordered to revise its 2018 "closeout" rule, which would have ended the requirements of certain states in the eastern half of the U.S. to reduce smog under the Cross State Air Pollution Rule (CSAPR).

CSAPR was initially promulgated to require upwind states to reduce power plant emissions that travel with wind patterns and contribute to ozone and fine particle pollution on downwind states. This ruling builds off a related case from Sept. 2019 where the court ruled largely in favor of CSAPR, but that EPA needed impose a deadline for upwind states to eliminate their "significant contributions" to downwind ozone pollution. Further legal challenges surrounding the CSAPR are anticipated.

NTSB Formally Recommends Seat Belt Requirement for Limos

The National Transportation Safety Board (NTSB) issued a recommendation, which is not legally binding, for new federal seat belt requirements for limousines. The recommendation comes as NTSB investigates an October 2018 limousine crash that killed 20 people. Specifically, the board wants the National Highway Traffic Safety Administration to require lap/shoulder belts for each passenger seat on all new vehicles used as limousines, and to require that limousine seating systems "meet minimum performance standards to ensure their integrity during a crash."

CMS Appeals 340B Ruling Date

A federal D.C. district court judge ruled last year that the Centers for Medicare and Medicaid Services (CMS) lacked authority to reduce reimbursements for Medicare Part B drugs, which are purchased through the 340B program by certain hospitals. Despite the court's decision, the CMS has defended the reductions during the appeals process, with oral arguments scheduled before the D.C. Circuit Court of Appeals on Nov. 8. The agency's proposed cuts are almost 30% to hospitals participating in the 340B program.

FDA Releases New Food Safety Dashboard

The Food and Drug Administration (FDA) announced a "Food Safety Dashboard" (FSMA) tool used to track implementation of new rules under the Food Safety Modernization Act and new metrics for inspections and recalls. The FDA noted that "comparing the FSMA data with our recall data shows the bigger picture, demonstrating the effectiveness of preventive measures as food recalls once again have reached a five-year low."

Explore Critical Issues Facing States at NCSL Capitol Forum
Registration is now open for NCSL's Capitol Forum, **Dec. 10-12 in sunny Phoenix.**

This year's NCSL Capitol Forum is an excellent opportunity to connect with your colleagues from across the country to explore the most critical issues facing the states. From redistricting to our ever-popular Supreme Court roundup and preview, there will be something for everyone.

Early bird registration for the 2019 NCSL Capitol Forum ends Tuesday, Nov. 19. Take advantage of this discounted rate and register today!

DYK? The Pony Express mail service ran nonstop and was faster than its competitors. During a route, a rider typically traveled 75 to 100 miles, and changed horses every 10 to 15 miles at one of the nearly 200 relief stations along the way. Changes between horses and riders were synchronized so no time was wasted. For the more dangerous work, riders were paid between $100 and $125 per month; for treacherous routes, a few riders were paid $150.

Citizens again to evaluate reduction options

Print

MAITLAND, FL - Citizens Property Insurance Corporation will again seek input from independent evaluators to determine if it is doing all it can to serve its policyholders and Floridians as the state's insurer of last resort.

Citizens Board of Governors last week agreed that Citizens should again seek an outside review to see if additional options are available for Citizens to continue protecting Florida property owners while further reducing its footprint since the last outside study was published five years ago.

In August 2019, Senator Jeff Brandes, R-St. Petersburg, challenged Citizens to look at ways to further reduce its policy count, which at the time was 420,000. The board first discussed the issue at its September meeting. Last Wednesday, board members agreed with Citizens staff to move forward.

"Senator Brandes is right. We should continue to look at ways to improve for our policyholders and stakeholders," said Citizens Chairman Bo Rivard. "We agree the timing is right and look forward to seeing where it leads us."

At its peak in 2011, Citizens covered 1.5 million policies - 23 percent of the Florida market - with exposure that topped $512 billion. In the event of a 1-in-100-year storm, Floridians were on the hook for $11.6 billion in assessments.

Since then, Citizens has eliminated the risk of assessment in a 1-in-100-year storm and reduced its policy count through depopulation efforts, an invigorated private market and legislative reforms to reduce unnecessary litigation and assignment of benefits abuse.

From 2011 to 2015, Citizens was the subject of studies by outside groups including Florida State University, the James Madison Institute, the Insurance Information Institute and the National Association of Insurance Commissioners. The studies focused on ways to reduce Citizens exposure from its peak.

Citizens policy count has since leveled off and remained relatively stable in 2019, hovering above 420,000 until November, when Citizens added roughly 23,000 policyholders from Florida Specialty Insurance Company, which was placed in receivership by state regulators in October. As of December 6, 2019, Citizens policy count stood at 444,000.

"We still believe it is appropriate to examine what might be necessary to get Citizens exposure to an even lower level," said Barry Gilway, Citizens President/CEO and Executive Director.

"We got lucky:" 2019 CAT season brings minimal losses

JACKSONVILLE, FL - After dodging a few meteorological bullets, Floridians emerged from the 2019 hurricane season with hardly a scratch as potentially disastrous storms spared the state despite a couple very close calls.

Citizens suffered minimal losses during the six-month hurricane season that ended November 30, a big relief following two previous seasons that so far brought nearly $2 billion in claims from tens of thousands of policyholders in the Keys and the Florida Panhandle.

The year's biggest threat was Hurricane Dorian. At one point, the storm reached Category 5 strength as it battered the Bahamas with sustained winds of 185 mph. It was the strongest hurricane on record to strike the Bahamas since records began in 1851.

At Citizens, earlier projections estimated the potential for billions of dollars in losses from nearly 250,000 policyholders within the hurricane cone if Dorian made landfall in south Florida and then turned north to rake the entire eastern Florida seaboard.

"We were incredibly lucky with Dorian," said Barry Gilway, President/CEO and Executive Director. "If that storm would have hit the way it hit in the Bahamas between Dade and Broward, then this would have been the storm of the century. It would have been the

largest storm on record."

In preparation, Citizens catastrophe response team kicked into high gear preparing for a worst-case scenario. Logistical preparations included plans to deploy staff to Catastrophe Response Centers, and alerting vendors that adjusters may be needed to handle claims. Daily briefings over several days updated Board members and Citizens leadership about the shifting nature of the storm in both direction and intensity.

While Florida was spared much of Dorian's wrath, Citizens policyholders did not go through the 2019 hurricane season unscathed. Dorian has so far resulted in 116 claims representing about $250,000 in indemnity payments. Additionally, a Brevard County hailstorm and Tropical Storms Humberto and Nestor prompted 429 claims and $4.5 million in indemnity payments.

Citizens and other insurers also continued to deal with effects from Hurricane Michael. As of December 13, Citizens had closed 94 percent of claims.

2019 rates kick in December 1, reflect savings from HB 7065

TALLAHASSEE, FL - Citizens 2019 rates began kicking in for new and renewal polices on December 1, 2019 with many policyholders seeing rate reductions or more limited rate increases after Florida lawmakers made significant assignment of benefits reforms earlier in the year.

Florida lawmakers in the 2019 session approved HB 7065. In June, Citizens Board of Governors approved a statewide average capped increase of 2.3 percent for homeowners multiperil policyholders. The increase was smaller than the 8.5 percent increase recommended in December 2018 that did not reflect passage of HB 7065.

Taking the changes into account, 110,000 homeowners, condo unit owners, dwelling and mobile homeowners policyholders will see rate decreases or smaller increases. Going forward,Citizens has preliminary data showing HB 7065 has had a positive impact on lowering AOB litigation and abuse.

Reminder: Lobbyist registration with Citizens deadline December 31

TALLAHASSEE, FL - Any lobbyist who represents a principal seeking to influence Citizens' policy and procurement decisions after September 1, 2018, is required to register with Citizens. Registered lobbyists and their principals are entered in a publicly searchable database on Citizens' website.

Visit the Lobbyist page on Citizens' website to learn more information. The 2020 Citizens lobbyist registration deadline is December 31, 2019. Lobbyists previously registered with Citizens should have received an email reminder with renewal instructions.

Gregg Profozich speaking to Manufacturers' Council of the Inland Empire

TECHNOLOGY IS KEY TO SURVIVAL OF MANUFACTURERS

Presenter, Gregg Profozich, Director of Advanced Manufacturing Technologies at California Manufacturing Technology Consulting (CMTC), gave the audience plenty to think about as he covered Manufacturing 4.0: Where We Are… Where We Are Going. Manufacturers attending the Manufacturers' Council of the Inland Empire meeting on October 30 were intrigued to learn about the latest innovations in their industry.

Manufacturing 4.0 includes cyber-physical systems (CPS), the internet of things (IoT), industrial internet of things (IIoT), cloud computing, cognitive computing and artificial intelligence.

Profozich said, "New technologies can lead to rapid, widespread change as the rate of technology adoption is accelerating across society. As an example, the hearing aid industry essentially converted to additive manufacturing in only 500 days." He then went into detail on three emerging manufacturing technologies: additive manufacturing, advanced robotics and smart manufacturing. Each of these technologies will fundamentally change how products are manufactured.

BLACK FRIDAY AND CYBER MONDAY TOP 10 FRAUD ALERT TIPS

Reprinted from KnowB4 blog article by Stu Sjouwerman

We have been warning against these types of scams for years and the bad guys are at it again. Black Friday attracts crowds, crowds attract scammers, and that means you need to take extra care when shopping online over the Black Friday and Cyber Monday weekend.

About 75% of Americans plan to do at least half of their holiday shopping online this year, shows a new TransUnion 2019 Holiday Retail Fraud Survey. Yes, online shopping skips the crowds at the mall, but you need to navigate an increasingly dangerous cybersecurity minefield.

It's Holiday Season for the bad guys too! But not the way you might think. They go into scam-overdrive mode. Black Friday and Cyber Monday are the busiest on-line shopping days and the bad guys are planning to get rich with your money. So, here are the **Top 10 Fraud Alert Tips:**

- **Never click on links in emails.** If you want to shop at a site, enter that site address in your browser. There are thousands of fake sites that look almost identical to the real thing. Don't fall for evil-twin shopping sites.
- **Don't open attachments with special offers.** It's a classic scam. The offer should be in the email and you should be able to see it right away.
- **Watch for malicious ads and popups.** Do not click on ads that sound too good to be true, and ignore popups that might propose the "best deal ever".
- **Beware of e-skimmers.** This is a new one. Do you know that bad guys sometimes skim your credit card at gas stations or ATMs? Well, there is a new flavor of that, the shopping website you order from might be infected with a "e-skimmer" and they steal your card data when you check out. You can prevent that by using PayPal or Amazon.
- **Use a credit card to buy stuff online if possible.** NEVER use a debit card to make online purchases but use that debit card to take out cash only.
- **Do not shop over a public Wi-Fi.** You simply do not know if it's secure and who is listening. Only shop using a secure, trusted network. If you have no other way to shop, use a VPN which encrypts your traffic.
- **Be very careful when you see a free offer during the holidays.** There is an explosion of all kinds of survey fraud and gift card scams.
- **Do not re-use any of your passwords.** Instead, use a password manager to create hard-to-break passwords. Re-using any password is literally an invitation to get hacked.
- **Keep a close eye on your credit card and bank accounts.** During this season, unexpected and strange charges might appear which could very well be the first sign your card or even your whole identity has been stolen. If you think you might have been scammed, stay calm and call your credit card company, nix that card and get a new one.
- **Be especially suspicious of gift card scams**. They can be a perfect holiday gift, but gift card scams are skyrocketing. Only buy gift cards from trusted sources.

So, especially this time of year, do not let the bad guys exploit your holiday spirit and use it against you. Remember to stay alert when you shop online! *Think Before You Click!*

WHY VETERANS MAKE GREAT INDUSTRIAL EMPLOYEES AND HOW TO RECRUIT THEM TO JOIN YOUR TEAM

Reprinted from Thomas Net, author Lindsay Gilder

Serving in the military is an incredible challenge. But for many veterans, the biggest hurdle often comes during their return to civilian life. 44% of veterans who served in the decade since September 11 have a difficult time readjusting after completing their service, according to a recent Pew Research Center study.

A great way to give back to the veterans who protect our freedom and our country is to make this difficult transition a little bit easier.

Veterans possess a wealth of skills and knowledge that makes them great candidates for jobs in manufacturing and industrial businesses. Thomas Insights spoke to leading industry professionals about the traits that make veterans uniquely qualified for these rewarding positions, and how your industrial business can find and recruit talented veteran candidates for your open job opportunities.

Read the article online to learn more about:

- What Traits Make Veterans Great Candidates for Industrial Jobs?
- What You Need to Know About Hiring Veterans
- How to Recruit Veterans into Open Opportunities at Your Company

"Smart employers realize that there are some skills that can be taught and learned while there are other intangible skills that must be developed via experience over time. The military does a very good job of putting people in positions of great responsibility early in their careers. This is why many military veterans have leadership skills and a work ethic that is usually found in more experienced candidates."

Manufacturing Month

AMERICAN OVERSIGHT

On behalf of over 5,000 students and communi[illegible]

You Rock

On behalf of over 5,000 students and community members in California, thank you for your participation, making Manufacturing Day 2019 a success! We really appreciate all the organizers and event hosts for helping manufacturers to shine a spotlight on manufacturing and inspiring new talent to consider it for the future.

Hey! We have lots of photos to share ... but may be missing yours. Please take a moment to send us any photos taken during your Manufacturing Month event. Look for the MFGDAY19 Flip Book posted soon on our website — highlighting the manufacturers and organizations involved.

Are you ready?

MFGDAY-sq

Planning for Manufacturing Day October 2, 2020 has started! Throughout the month of October next year, manufacturers will be celebrating National Manufacturing Day by opening their facilities for student tours or participating in expos. Taking on the vital work of inspiring our young people to pursue careers in manufacturing and engineering, manufacturers help answer the critical challenge of workforce development. Today's science, technology, engineering, and math graduates will help manufacturing face the challenges of changing technology, global competition, and sustaining production growth.

Are you interested in holding a Manufacturing Day event in October 2020? Please contact Steve Brand, Communications Manager, at comm@cmtc.com

GEN Z IS THE ANSWER TO THE SKILLS GAP— THEY JUST DON'T KNOW IT YET

Reprinted from IndustryWeek.com (Oct. 30, 2019), author Alan Mindlin

> Gen Z refers to the generation that was born between 1996-2010, following milennials. This generation has been raised on the internet and social media, with some the oldest finishing college by 2020 and entering the workforce.

Having witnessed the student-loan crisis, this generation [Gen Z] may be more open to educational paths other than four-year college.

With their unique characteristics and career outlook, the Gen Z workforce can help solve the manufacturing skills gap. But lack of awareness and mis-perceptions about the industry are holding them back. That all adds up to a big opportunity for manufacturers to change their outreach, hiring and benefit strategies to connect with this generation of potential workers.

Having witnessed the massive debt and competitive job market many milennials faced upon graduation, Gen Z is determined to make practical educational decisions with an emphasis on financial stability. For many of them, a four-year college degree is only necessary if it's a requirement for their ultimate career goals. Instead, they're considering alternative education options that require less time and money to set them on their future paths.

New-collar jobs, a term coined by IBM CEO Ginni Rometty, provide that balance of job security and little up-front investment. These jobs require the technical and soft skills that are valuable in today's economy, but don't require a four-year degree. Instead, *new-collar workers* are trained through technical colleges, vocational schools, certification programs or even on-the-job instruction.

New-collar jobs are especially prevalent in the manufacturing industry, which has evolved dramatically with advances

AMERICAN OVERSIGHT

in technology. Today's manufacturers need employees with digital skills in automation, software, robotics, analytics, cloud computing and 3D printing. As digital natives, Gen Z's experience with tech means they can easily adapt and adopt the skills needed to work with these new technologies.

The lack of awareness around manufacturing

Despite this seemingly perfect fit, most members of Gen Z haven't considered careers in manufacturing. This is due in large part to a lack of awareness around the number of available manufacturing jobs and the variety of roles, as well as the misperceptions associated with the industry.

Many Gen Z'ers simply don't know much about the manufacturing industry. Manufacturing careers are rarely included in high school curriculums. And parents likely aren't talking to their kids about the industry either, as many believe manufacturing is outdated, low-paying or unchallenging. Similarly, Silicon Valley giants like Google, Apple and Tesla are perceived as more tech-savvy — even though new innovations like IoT and advanced robotics are also transforming the manufacturing industry. By the time many members of Gen Z learn about the career possibilities in manufacturing (if they ever do), they've already chosen another path.

What manufacturers can do

Employers can take several steps to help create awareness, change misperceptions and encourage Gen Z to get excited about their industry.

- **Public outreach and partnerships**: Reach out to Gen Z where they already are — get in touch with local high schools, community colleges, vocational programs and other nearby services. Establish collaborative programs aimed at creating a talent pipeline that will benefit the entire community. Internships and apprenticeships provide Gen Z'ers the opportunity to gain the active, hands-on and immersive learning experiences they crave,while allowing businesses the chance to test-run future candidates.
- **Financial and career growth incentives**: Give Gen Z'ers what they want: a clear path to financial and career growth. Aside from partnerships with local educational institutions, create your own in-house learning and development programs. Cover the costs of training and certification in exchange for job contracts with minimum durations. Consider a scholarship program to pay for the offsite training of promising candidates. Additionally, offer cross-training and create paths for employees to transfer and grow within your organization.
- **On-the-job perks**: Make your company a great place to work. This may sound obvious, but keep in mind that Gen Z has different preferences than older generations. While Gen Z'ers appreciate traditional benefits like healthcare and 401(k) matches, they're also inclined to seek out flexible perks, like remote work opportunities for office employees or factories that have transitioned to a four-day work week.
- **Government programs**: Contact your local representatives about changing school curriculum, providing community resources or creating a public awareness campaign. Your state workforce development board can help you coordinate training programs, which may be eligible for funding through the Workforce Innovation and Opportunity Act (WIOA).

Skilled workers are out there — manufacturers just need to adapt their searches. A change in perspective around job requirements combined with awareness and training initiatives will widen the talent pool and welcome the next generation of new-collar workers.

AMERICAN OVERSIGHT

GETTING FOOD ON OUR TABLES FROM THE U.S. AND AROUND THE WORLD, SAFELY AND LESS WASTEFULLY

Reprinted from NIST article, author Nenad Ivezic
Nenad Ivezic is the leader of the Process Engineering Group in the Systems Integration Division of the NIST Engineering Laboratory.

I'm still amazed to see strawberries, avocados and watermelons in my grocery store out of their "normal" season. As amazing as this is, I know it means that my food is arriving from far-flung destinations and may be subjected to poor conditions or handling along the way. So, now, even more so than before, I regularly check where the fresh fruit or produce is hauled in from. Instinctively, I try to remember any recent news of recalls due to foodborne illness. Did I hear about any recalls or hospitalizations lately?

Yes, grocery shopping does give me pause these days.

A recent study found that "addressing drivers of food waste can slash the value of food lost and wasted every year globally by nearly $700 billion." Clearly, moving food from farm to table nowadays is not without challenges, to say the least. Yet, there are some outstanding developments that are starting to help address these safety and waste issues.

For example, food manufacturers and distributors are beginning to attach new internet of things (IoT) sensors to food shipping containers. These IoT devices use the regular internet communication infrastructure (the same as your email app does) to "talk" to senders and receivers of the containers about their temperature, humidity and other conditions, including unauthorized tampering with the contents. These sensors provide critical and useful information to the monitoring systems of both the sender and the receiver of the shipments.

Also, to achieve efficient delivery, up-to-date information on things like shipment plans needs to be exchanged among all partners.

And, at the end of the supply chain, before appearing in grocery stores, the crops and food shipments may need to pass quality tests. Hence, laboratories and their partners must electronically exchange testing information such as inspection orders, test specifications and test results.

As you can see, more than ever, moving food safely and efficiently around the U.S. and the world requires that partners in the food supply chain exchange important information in a usable and timely manner. Before that can happen, however, a community of stakeholders, including food manufacturers, IoT device-makers and operators in the food supply chain, needs to find a meaningful and feasible way of representing that data to assure it is communicated and interpreted as intended.

SB 1343 Harassment Avoidance Training Requirement

To ensure a workplace free of sexual harassment, **employers must satisfy the harassment avoidance training requirement** under Section 12950.1.

Harassment Avoidance Training

CMTC offers web-based events, facilitated by a Harassment Avoidance trainer, to satisfy this legal requirement. This comprehensive course is designed specifically for the small- and medium-sized manufacturer.

Price is only $35 per person. To register, simply select from the dates below, click on the date that fits your schedule. Training available in English or in Spanish.

Upon completion of the webinar, your company will be sent a third-party survey from our funding partner. This survey is confidential and is used to capture the economic impacts of our projects.

December Webinars

Classes in English

Wednesdays **9:00 am - 11:00 am**	**Thursdays** **1:00 - 3:00 pm**
December 4	December 5
December 11	December 12

Classes in Spanish
Tuesdays: 8:00 am - 10:00 am

December 3	December 10

Thursdays: 10:00 am - Noon

December 5	December 12

SB 1343 requires California employers who employ 5 or more employees, including temporary or seasonal employees, to provide at least 2 hours of sexual harassment avoidance training to all supervisory employees and at least one hour of sexual harassment avoidance training to all non-supervisory employees, and once every 2 years as specified.

EXPORTING? FEDERAL ASSISTANCE IS AVAILABLE FOR CALIFORNIA MANUFACTURERS

Last year, the United States exported $2.5 trillion—yes, *trillion*—dollars worth of goods and services to foreign countries. Our nation is the third-largest exporter in the world, trailing only China and the European Union. Within our borders, California is by far the top exporting state, shipping out nearly $280 billion worth of goods and services in 2018. Have you got in on global trade yet, or are you letting the competition reap all the rewards? For many small and medium-sized manufacturers (SMMs), entering the exporting arena often comes down to a matter of knowledge and cost. But did you know that there federal programs available to assist you?

WHY IT'S IMPORTANT FOR MANUFACTURERS TO KEEP UP WITH TECHNOLOGY

Technology is evolving at an astonishing pace, changing the way we live and the way we do business. Of course, it's not just Silicon Valley tech companies that need to keep up with these advancements. Today, businesses big and small, across all industries, need to prioritize technology in order to effectively compete, keep operations running efficiently, and deliver greater value to customers. Manufacturers that allow themselves to fall behind simply enable others to step up and steal their customers, and potentially their entire business.

On behalf of over 5,000 students and community members in California, thank you for your participation, making Manufacturing Day 2019 a success! We really appreciate all the organizers and event hosts for helping manufacturers to shine a spotlight on manufacturing and inspiring new talent to consider it for the future.

Hey! We have lots of photos to share ... but may be missing yours. Please take a moment to send us any photos taken during your Manufacturing Month event. Look for the MFGDAY19 Flip Book posted soon on our website — highlighting the manufacturers and organizations involved.

Are you ready?

MFGDAY-sq

Planning for Manufacturing Day October 2, 2020 has started! Throughout the month of October next year, manufacturers will be celebrating National Manufacturing Day by opening their facilities for student tours or participating in expos. Taking on the vital work of inspiring our young people to pursue careers in manufacturing and engineering, manufacturers help answer the critical challenge of workforce development. Today's science, technology, engineering, and math graduates will help manufacturing face the challenges of changing technology, global competition, and sustaining production growth.

Are you interested in holding a Manufacturing Day event in October 2020? Please contact Steve Brand, Communications Manager, at comm@cmtc.com

GEN Z IS THE ANSWER TO THE SKILLS GAP— THEY JUST DON'T KNOW IT YET

Reprinted from IndustryWeek.com (Oct. 30, 2019), author Alan Mindlin

> Gen Z refers to the generation that was born between 1996-2010, following milennials. This generation has been raised on the internet and social media, with some the oldest finishing college by 2020 and entering the workforce.

Having witnessed the student-loan crisis, this generation [Gen Z] may be more open to educational paths other than four-year college.

With their unique characteristics and career outlook, the Gen Z workforce can help solve the manufacturing skills gap. But lack of awareness and mis-perceptions about the industry are holding them back. That all adds up to a big opportunity for manufacturers to change their outreach, hiring and benefit strategies to connect with this generation of potential workers.

Having witnessed the massive debt and competitive job market many milennials faced upon graduation, Gen Z is determined to make practical educational decisions with an emphasis on financial stability. For many of them, a four-year college degree is only necessary if it's a requirement for their ultimate career goals. Instead, they're considering alternative education options that require less time and money to set them on their future paths.

New-collar jobs, a term coined by IBM CEO Ginni Rometty, provide that balance of job security and little up-front investment. These jobs require the technical and soft skills that are valuable in today's economy, but don't require a four-year degree. Instead, *new-collar workers* are trained through technical colleges, vocational schools, certification programs or even on-the-job instruction.

New-collar jobs are especially prevalent in the manufacturing industry, which has evolved dramatically with advances

AMERICAN OVERSIGHT

in technology. Today's manufacturers need employees with digital skills in automation, software, robotics, analytics, cloud computing and 3D printing. As digital natives, Gen Z's experience with tech means they can easily adapt and adopt the skills needed to work with these new technologies.

The lack of awareness around manufacturing

Despite this seemingly perfect fit, most members of Gen Z haven't considered careers in manufacturing. This is due in large part to a lack of awareness around the number of available manufacturing jobs and the variety of roles, as well as the misperceptions associated with the industry.

Many Gen Z'ers simply don't know much about the manufacturing industry. Manufacturing careers are rarely included in high school curriculums. And parents likely aren't talking to their kids about the industry either, as many believe manufacturing is outdated, low-paying or unchallenging. Similarly, Silicon Valley giants like Google, Apple and Tesla are perceived as more tech-savvy — even though new innovations like IoT and advanced robotics are also transforming the manufacturing industry. By the time many members of Gen Z learn about the career possibilities in manufacturing (if they ever do), they've already chosen another path.

What manufacturers can do

Employers can take several steps to help create awareness, change misperceptions and encourage Gen Z to get excited about their industry.

- **Public outreach and partnerships**: Reach out to Gen Z where they already are — get in touch with local high schools, community colleges, vocational programs and other nearby services. Establish collaborative programs aimed at creating a talent pipeline that will benefit the entire community. Internships and apprenticeships provide Gen Z'ers the opportunity to gain the active, hands-on and immersive learning experiences they crave,while allowing businesses the chance to test-run future candidates.
- **Financial and career growth incentives**: Give Gen Z'ers what they want: a clear path to financial and career growth. Aside from partnerships with local educational institutions, create your own in-house learning and development programs. Cover the costs of training and certification in exchange for job contracts with minimum durations. Consider a scholarship program to pay for the offsite training of promising candidates. Additionally, offer cross-training and create paths for employees to transfer and grow within your organization.
- **On-the-job perks**: Make your company a great place to work. This may sound obvious, but keep in mind that Gen Z has different preferences than older generations. While Gen Z'ers appreciate traditional benefits like healthcare and 401(k) matches, they're also inclined to seek out flexible perks, like remote work opportunities for office employees or factories that have transitioned to a four-day work week.
- **Government programs**: Contact your local representatives about changing school curriculum, providing community resources or creating a public awareness campaign. Your state workforce development board can help you coordinate training programs, which may be eligible for funding through the Workforce Innovation and Opportunity Act (WIOA).

Skilled workers are out there — manufacturers just need to adapt their searches. A change in perspective around job requirements combined with awareness and training initiatives will widen the talent pool and welcome the next generation of new-collar workers.

GETTING FOOD ON OUR TABLES FROM THE U.S. AND AROUND THE WORLD, SAFELY AND LESS WASTEFULLY

Reprinted from NIST article, author Nenad Ivezic
Nenad Ivezic is the leader of the Process Engineering Group in the Systems Integration Division of the NIST Engineering Laboratory.

I'm still amazed to see strawberries, avocados and watermelons in my grocery store out of their "normal" season. As amazing as this is, I know it means that my food is arriving from far-flung destinations and may be subjected to poor conditions or handling along the way. So, now, even more so than before, I regularly check where the fresh fruit or produce is hauled in from. Instinctively, I try to remember any recent news of recalls due to foodborne illness. Did I hear about any recalls or hospitalizations lately?

Yes, grocery shopping does give me pause these days.

A recent study found that "addressing drivers of food waste can slash the value of food lost and wasted every year globally by nearly $700 billion." Clearly, moving food from farm to table nowadays is not without challenges, to say the least. Yet, there are some outstanding developments that are starting to help address these safety and waste issues.

For example, food manufacturers and distributors are beginning to attach new internet of things (IoT) sensors to food shipping containers. These IoT devices use the regular internet communication infrastructure (the same as your email app does) to "talk" to senders and receivers of the containers about their temperature, humidity and other conditions, including unauthorized tampering with the contents. These sensors provide critical and useful information to the monitoring systems of both the sender and the receiver of the shipments.

Also, to achieve efficient delivery, up-to-date information on things like shipment plans needs to be exchanged among all partners.

And, at the end of the supply chain, before appearing in grocery stores, the crops and food shipments may need to pass quality tests. Hence, laboratories and their partners must electronically exchange testing information such as inspection orders, test specifications and test results.

As you can see, more than ever, moving food safely and efficiently around the U.S. and the world requires that partners in the food supply chain exchange important information in a usable and timely manner. Before that can happen, however, a community of stakeholders, including food manufacturers, IoT device-makers and operators in the food supply chain, needs to find a meaningful and feasible way of representing that data to assure it is communicated and interpreted as intended.

Regulatory Updates

AMERICAN OVERSIGHT

SB 1343 Harassment Avoidance Training Requirement

To ensure a workplace free of sexual harassment, **employers must satisfy the harassment avoidance training requirement** under Section 12950.1.

Harassment Avoidance Training

CMTC offers web-based events, facilitated by a Harassment Avoidance trainer, to satisfy this legal requirement. This comprehensive course is designed specifically for the small- and medium-sized manufacturer.

Price is only $35 per person. To register, simply select from the dates below, click on the date that fits your schedule. Training available in English or in Spanish.

Upon completion of the webinar, your company will be sent a third-party survey from our funding partner. This survey is confidential and is used to capture the economic impacts of our projects.

December Webinars

Classes in English

Wednesdays **9:00 am - 11:00 am**	**Thursdays** **1:00 - 3:00 pm**
December 4	December 5
December 11	December 12

Classes in Spanish
Tuesdays: 8:00 am - 10:00 am

December 3	December 10

Thursdays: 10:00 am - Noon

December 5	December 12

SB 1343 requires California employers who employ 5 or more employees, including temporary or seasonal employees, to provide at least 2 hours of sexual harassment avoidance training to all supervisory employees and at least one hour of sexual harassment avoidance training to all non-supervisory employees, and once every 2 years as specified.

EXPORTING? FEDERAL ASSISTANCE IS AVAILABLE FOR CALIFORNIA MANUFACTURERS

Last year, the United States exported $2.5 trillion—yes, *trillion*—dollars worth of goods and services to foreign countries. Our nation is the third-largest exporter in the world, trailing only China and the European Union. Within our borders, California is by far the top exporting state, shipping out nearly $280 billion worth of goods and services in 2018. Have you got in on global trade yet, or are you letting the competition reap all the rewards? For many small and medium-sized manufacturers (SMMs), entering the exporting arena often comes down to a matter of knowledge and cost. But did you know that there federal programs available to assist you?

WHY IT'S IMPORTANT FOR MANUFACTURERS TO KEEP UP WITH TECHNOLOGY

Technology is evolving at an astonishing pace, changing the way we live and the way we do business. Of course, it's not just Silicon Valley tech companies that need to keep up with these advancements. Today, businesses big and small, across all industries, need to prioritize technology in order to effectively compete, keep operations running efficiently, and deliver greater value to customers. Manufacturers that allow themselves to fall behind simply enable others to step up and steal their customers, and potentially their entire business.

COMMITTEE MEETING NOTICE

GOVERNMENTAL OVERSIGHT AND ACCOUNTABILITY
Senator Hooper, Chair
Senator Rader, Vice Chair

MEETING DATE: Monday, February 10, 2020
TIME: 1:30—3:30 p.m.
PLACE: 301 Senate Building

AMENDMENT DEADLINE: The amendment deadline for this meeting, including proposed committee substitutes and delete everything amendments, is Friday, February 7, 2020 at 1:30 p.m. All amendments must be in final form and barcoded when filed.

MEMBERS: Senator Hooper, Chair; Senator Rader, Vice Chair; Senators Albritton, Bean, and Torres

---

CS/SB 666 by Commerce and Tourism / Mayfield—Florida Development Finance Corporation

---

SB 858 by Gruters—Cost-of-living Adjustment for Special Risk Class Retirees

---

CS/SB 928 by Health Policy / Harrell—Public Records and Meetings/Interstate Medical Licensure Compact

---

SB 966 by Gainer—Public Records/Disaster Recovery Assistance

CS/SB 1024 by Criminal Justice / Bean—Public Records/Postconviction Reinvestigative Information

---

CS/SB 1030 by Infrastructure and Security / Stargel—Public Records/Vessel Title or Registration/Department of Highway Safety and Motor Vehicles

---

SB 1260 by Albritton—Florida Space Exploration Monument

SB 1270 by Lee—Fiduciary Duty of Care for Appointed Public Officials and Executive Officers

---

SB 1312 by Montford—Voting Systems

SB 1466 by Baxley—Special Districts

SB 1632 by Rouson—Cultural Affairs

SB 1636 by Baxley—Repeal of Advisory Bodies and Councils

CS/SB 1718 by Criminal Justice / Brandes—Public Meetings and Records/Conditional Aging Inmate Release Program

---

With the Chair's approval, DURING regular session file 1 copy with the Secretary of the Senate (Room 303, Capitol) at least 3 days before meeting and PRIOR to regular session at least 7 days before meeting (Rules 2.6 and 2.8). File 1 copy with the Sergeant at Arms.

Subject: Critical Information for your Business! Last Chance to Register! GCBX Lunch & Learn- Wednesday, January 22nd

AMERICAN OVERSIGHT

Dear Senator Joe Gruters,
You are invited to the following event:

GCBX LUNCH & LEARN: CYBERSECURITY

When: 22 Jan 2020 11:30 AM, EST
Where: Grove- 10670 Boardwalk Loop, Lakewood Ranch, FL 34202

Each attendee will leave with a Cybersecurity Playbook for Contractors that you can use now and in the future to Identify, Protect, Detect & Respond to Cybersecuirty attacks/issues in your business.

Will you be attending?

Register | Not attending

EVENT DETAILS:

GCBX Lunch & Learn: Cybersecurity

Wednesday, January 22nd

11:30 am – 1:15 pm

11:30 - Registration

12:00 - Program

Location: The Grove - Fever Tree Hall

Attendees will learn about the National Institute of Standards and Technology (NIST) Framework, a comprehensive five-step process that helps businesses prepare for the cyber-attacks threatening your data.

Each attendee will leave with a Cybersecurity Playbook for contractors that you can use now and in the future to Identify, Protect, Detect & Respond to Cybersecuirty attacks/issues in your business.

Presented By:
Nathan Bailey, Chief Operating Officer for SouthTech
David Karins, Karins Engineering Group

$40 for GCBX Members

Lunch will be Included.

Click here for Flyer

Thank You Presenting Sponsor!

*It is the policy of GCBX to charge for events if cancellations are not made at least 72 hours prior to the even .

Best regards,
Gulf Coast Builders Exchange

A bill to be entitled

An act relating to environmental enforcement; amending ss. 161.054, 258.397, 258.46, 373.129, 373.209, 373.430, 376.065, 376.071, 376.16, 376.25, 377.37, 378.211, 403.086, 403.121, 403.141, 403.161, 403.413, 403.7234, 403.726, 403.727, and 403.93345, F.S.; increasing the civil penalties for violations of certain provisions relating to beach and shore construction, the Biscayne Bay Aquatic Preserve, aquatic preserves, the state water resource plan, artesian wells, pollution, operating a terminal facility without discharge prevention and response certificates, discharge contingency plans for vessels, the Pollutant Discharge Prevention and Control Act, the Clean Ocean Act, the pollution of surface and ground waters, the regulation of oil and gas resources, the Phosphate Land Reclamation Act, sewage disposal facilities, pollution control, reasonable costs and expenses for pollution releases, necessary permits, dumping litter, small quantity generators, the abatement of imminent hazards caused by hazardous substances, hazardous waste generators, transporters, or facilities, and coral reef protection, respectively; providing that each day that certain violations are not remediated constitutes a separate offense; making technical changes; reenacting s. 823.11(5), F.S., to incorporate the amendment made to s. 376.16, F.S., in a reference thereto; reenacting ss. 403.077(5), 403.131(2), 403.4154(3)(d), and

AMERICAN OVERSIGHT

403.860(5), F.S., to incorporate the amendment made to s. 403.121, F.S., in a reference thereto; reenacting ss. 403.708(10), 403.7191(7), and 403.811, F.S., to incorporate the amendment made to s. 403.141, F.S., in a reference thereto; reenacting s. 403.7255(2), F.S., to incorporate the amendment made to s. 403.161, F.S., in a reference thereto; reenacting s. 403.7186(8), F.S., to incorporate the amendment made to ss. 403.141 and 403.161, F.S., in references thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 161.054, Florida Statutes, is amended to read:

161.054 Administrative fines; liability for damage; liens.—

(1) In addition to the penalties provided for in ss. 161.052, 161.053, and 161.121, any person, firm, corporation, or governmental agency, or agent thereof, refusing to comply with or willfully violating ~~any of the provisions of~~ s. 161.041, s. 161.052, or s. 161.053, or any rule or order prescribed by the department thereunder, shall incur a fine for each offense in an amount up to $15,000 ~~$10,000~~ to be fixed, imposed, and collected by the department. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 2. Subsection (7) of section 258.397, Florida Statutes, is amended to read:

258.397 Biscayne Bay Aquatic Preserve.—

AMERICAN OVERSIGHT

(7) ENFORCEMENT.—~~The provisions of~~ This section may be enforced in accordance with ~~the provisions of~~ s. 403.412. In addition, the Department of Legal Affairs may ~~is authorized to~~ bring an action for civil penalties of $7,500 ~~$5,000~~ per day against any person, natural or corporate, who violates ~~the provisions of~~ this section or any rule or regulation issued hereunder. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense. Enforcement of applicable state regulations shall be supplemented by the Miami-Dade County Department of Environmental Resources Management through the creation of a full-time enforcement presence along the Miami River.

Section 3. Section 258.46, Florida Statutes, is amended to read:

258.46 Enforcement; violations; penalty.—~~The provisions of~~ This act may be enforced by the Board of Trustees of the Internal Improvement Trust Fund or in accordance with ~~the provisions of~~ s. 403.412. However, any violation by any person, natural or corporate, of ~~the provisions of~~ this act or any rule or regulation issued hereunder is ~~shall be~~ further punishable by a civil penalty of not less than $750 ~~$500~~ per day or more than $7,500 ~~$5,000~~ per day of such violation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 4. Subsections (5) and (7) of section 373.129, Florida Statutes, are amended, to read:

373.129 Maintenance of actions.—The department, the

AMERICAN OVERSIGHT

governing board of any water management district, any local board, or a local government to which authority has been delegated pursuant to s. 373.103(8), is authorized to commence and maintain proper and necessary actions and proceedings in any court of competent jurisdiction for any of the following purposes:

(5) To recover a civil penalty for each offense in an amount not to exceed $15,000 ~~$10,000~~ per offense. Until a violation is resolved by order or judgment, each date during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(a) A civil penalty recovered by a water management district pursuant to this subsection shall be retained and used exclusively by the water management district that collected the money. A civil penalty recovered by the department pursuant to this subsection must be deposited into the Water Quality Assurance Trust Fund established under s. 376.307.

(b) A local government that is delegated authority pursuant to s. 373.103(8) may deposit a civil penalty recovered pursuant to this subsection into a local water pollution control program trust fund, notwithstanding ~~the provisions of~~ paragraph (a). However, civil penalties that are deposited in a local water pollution control program trust fund and that are recovered for violations of state water quality standards may be used only to restore water quality in the area that was the subject of the action, and civil penalties that are deposited in a local water pollution control program trust fund and that are recovered for violation of requirements relating to water quantity may be used only to purchase lands and make capital improvements associated

AMERICAN OVERSIGHT

with surface water management, or other purposes consistent with the requirements of this chapter for the management and storage of surface water.

(7) To enforce ~~the provisions of~~ part IV of this chapter in the same manner and to the same extent as provided in ss. 373.430, 403.121(1) and (2), 403.131, 403.141, and 403.161.

Section 5. Subsection (3) of section 373.209, Florida Statutes, is amended to read:

373.209 Artesian wells; penalties for violation.—

(3) Any person who violates ~~any provision of~~ this section is ~~shall be~~ subject to either:

(a) The remedial measures provided for in s. 373.436; or

(b) A civil penalty of $150 ~~$100~~ a day for each and every day of such violation and for each and every act of violation. The civil penalty may be recovered by the water management board of the water management district in which the well is located or by the department in a suit in a court of competent jurisdiction in the county where the defendant resides, in the county of residence of any defendant if there is more than one defendant, or in the county where the violation took place. The place of suit shall be selected by the board or department, and the suit, by direction of the board or department, shall be instituted and conducted in the name of the board or department by appropriate counsel. The payment of any such damages does not impair or abridge any cause of action which any person may have against the person violating ~~any provision of~~ this section.

Section 6. Subsections (2) through (5) of section 373.430, Florida Statutes, are amended to read:

373.430 Prohibitions, violation, penalty, intent.—

AMERICAN OVERSIGHT

(2) A person who ~~Whoever~~ commits a violation specified in subsection (1) is liable for any damage caused and for civil penalties as provided in s. 373.129.

(3) A ~~Any~~ person who willfully commits a violation specified in paragraph (1)(a) commits ~~is guilty of~~ a felony of the third degree, punishable as provided in ss. 775.082(3)(e) and 775.083(1)(g), by a fine of not more than $50,000 or by imprisonment for 5 years, or by both, for each offense. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(4) A ~~Any~~ person who commits a violation specified in paragraph (1)(a) or paragraph (1)(b) due to reckless indifference or gross careless disregard commits ~~is guilty of~~ a misdemeanor of the second degree, punishable as provided in ss. 775.082(4)(b) and 775.083(1)(g), by a fine of not more than $10,000 ~~$5,000~~ or 60 days in jail, or by both, for each offense.

(5) A ~~Any~~ person who willfully commits a violation specified in paragraph (1)(b) or paragraph (1)(c) commits ~~is guilty of~~ a misdemeanor of the first degree, punishable as provided in ss. 775.082(4)(a) and 775.083(1)(g), by a fine of not more than $10,000 or by 6 months in jail, or by both, for each offense.

Section 7. Paragraphs (a) and (e) of subsection (5) of section 376.065, Florida Statutes, are amended to read:

376.065 Operation of terminal facility without discharge prevention and response certificate prohibited; penalty.—

(5)(a) A person who violates this section or the terms and requirements of such certification commits a noncriminal

AMERICAN OVERSIGHT

infraction. The civil penalty for any such infraction shall be $750 ~~$500~~, except as otherwise provided in this section.

(e) A person who elects to appear before the county court or who is required to so appear waives the limitations of the civil penalty specified in paragraph (a). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of the infraction is proved, the court shall impose a civil penalty of $750 ~~$500~~.

Section 8. Paragraphs (a) and (e) of subsection (2) of section 376.071, Florida Statutes, are amended to read:

376.071 Discharge contingency plan for vessels.—

(2)(a) A master of a vessel that violates subsection (1) commits a noncriminal infraction and shall be cited for such infraction. The civil penalty for such an infraction shall be $7,500 ~~$5,000~~, except as otherwise provided in this subsection.

(e) A person who elects to appear before the county court or who is required to appear waives the limitations of the civil penalty specified in paragraph (a). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of the infraction is proved, the court shall impose a civil penalty of $7,500 ~~$5,000~~.

Section 9. Section 376.16, Florida Statutes, is amended to read:

376.16 Enforcement and penalties.—

(1) It is unlawful for any person to violate ~~any provision of~~ ss. 376.011-376.21 or any rule or order of the department made pursuant to this act. A violation is ~~shall be~~ punishable by a civil penalty of up to $75,000 ~~$50,000~~ per violation per day to be assessed by the department. Until a violation is resolved

AMERICAN OVERSIGHT

by order or judgment, each day during any portion of which the violation occurs or is not remediated constitutes a separate offense. The penalty provisions of this subsection do ~~shall~~ not apply to any discharge promptly reported and removed by a person responsible, in accordance with the rules and orders of the department, or to any discharge of pollutants equal to or less than 5 gallons.

(2) In addition to the penalty provisions which may apply under subsection (1), a person responsible for two or more discharges of any pollutant reported pursuant to s. 376.12 within a 12-month period at the same facility commits a noncriminal infraction and shall be cited by the department for such infraction.

(a) For discharges of gasoline or diesel over 5 gallons, the civil penalty for the second discharge shall be $750 ~~$500~~ and the civil penalty for each subsequent discharge within a 12-month period shall be $1,500 ~~$1,000~~, except as otherwise provided in this section.

(b) For discharges of any pollutant other than gasoline or diesel, the civil penalty for a second discharge shall be $3,750 ~~$2,500~~ and the civil penalty for each subsequent discharge within a 12-month period shall be $7,500 ~~$5,000~~, except as otherwise provided in this section.

(3) A person responsible for two or more discharges of any pollutant reported pursuant to s. 376.12 within a 12-month period at the same facility commits a noncriminal infraction and shall be cited by the department for such infraction.

(a) For discharges of gasoline or diesel equal to or less than 5 gallons, the civil penalty shall be $75 ~~$50~~ for each

AMERICAN OVERSIGHT

discharge subsequent to the first.

(b) For discharges of pollutants other than gasoline or diesel equal to or less than 5 gallons, the civil penalty shall be $150 ~~$100~~ for each discharge subsequent to the first.

(4) A person charged with a noncriminal infraction pursuant to subsection (2) or subsection (3) may:

(a) Pay the civil penalty;

(b) Post a bond equal to the amount of the applicable civil penalty; or

(c) Sign and accept a citation indicating a promise to appear before the county court.

The department employee authorized to issue these citations may indicate on the citation the time and location of the scheduled hearing and shall indicate the applicable civil penalty.

(5) Any person who willfully refuses to post bond or accept and sign a citation commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(6) After compliance with paragraph (4)(b) or paragraph (4)(c), any person charged with a noncriminal infraction under subsection (2) or subsection (3) may:

(a) Pay the civil penalty, either by mail or in person, within 30 days after the date of receiving the citation; or

(b) If the person has posted bond, forfeit the bond by not appearing at the designated time and location.

A person cited for an infraction under this section who pays the civil penalty or forfeits the bond has admitted the infraction and waives the right to a hearing on the issue of commission of

AMERICAN OVERSIGHT

the infraction. Such admission may not be used as evidence in any other proceeding.

(7) Any person who elects to appear before the county court or who is required to appear waives the limitations of the civil penalties specified in subsection (2). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of an infraction is proved, the court may impose a civil penalty up to, but not exceeding, $750 ~~$500~~ for the second discharge of gasoline or diesel and a civil penalty up to, but not exceeding, $1,500 ~~$1,000~~ for each subsequent discharge of gasoline or diesel within a 12-month period.

(8) Any person who elects to appear before the county court or who is required to appear waives the limitations of the civil penalties specified in subsection (2) or subsection (3). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of an infraction is proved, the court may impose a civil penalty up to, but not exceeding, $7,500 ~~$5,000~~ for the second discharge of pollutants other than gasoline or diesel and a civil penalty up to, but not exceeding, $15,000 ~~$10,000~~ for each subsequent discharge of pollutants other than gasoline or diesel within a 12-month period.

(9) At a hearing under this section, the commission of a charged offense must be proved by the greater weight of the evidence.

(10) A person who is found by a hearing official to have committed an infraction may appeal that finding to the circuit court.

AMERICAN OVERSIGHT

(11) Any person who has not posted bond and who neither pays the applicable civil penalty, as specified in subsection (2) or subsection (3) within 30 days of receipt of the citation nor appears before the court commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(12) Any person who makes or causes to be made a false statement that which the person does not believe to be true in response to requirements of ~~the provisions of~~ ss. 376.011-376.21 commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 10. Paragraph (a) of subsection (6) of section 376.25, Florida Statutes, is amended to read:

376.25 Gambling vessels; registration; required and prohibited releases.—

(6) PENALTIES.—

(a) A person who violates this section is subject to a civil penalty of not more than $75,000 ~~$50,000~~ for each violation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 11. Paragraph (a) of subsection (1) of section 377.37, Florida Statutes, is amended to read:

377.37 Penalties.—

(1)(a) Any person who violates ~~any provision of~~ this law or any rule, regulation, or order of the division made under this chapter or who violates the terms of any permit to drill for or produce oil, gas, or other petroleum products referred to in s. 377.242(1) or to store gas in a natural gas storage facility, or any lessee, permitholder, or operator of equipment or facilities

AMERICAN OVERSIGHT

used in the exploration for, drilling for, or production of oil, gas, or other petroleum products, or storage of gas in a natural gas storage facility, who refuses inspection by the division as provided in this chapter, is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air, waters, and property, including animal, plant, and aquatic life, of the state. Furthermore, such person, lessee, permitholder, or operator is subject to the judicial imposition of a civil penalty in an amount of not more than $15,000 ~~$10,000~~ for each offense. However, the court may receive evidence in mitigation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense. This section does not ~~Nothing herein shall~~ give the department the right to bring an action on behalf of any private person.

Section 12. Subsection (2) of section 378.211, Florida Statutes, is amended to read:

378.211 Violations; damages; penalties.—

(2) The department may institute a civil action in a court of competent jurisdiction to impose and recover a civil penalty for violation of this part or of any rule adopted or order issued pursuant to this part. The penalty may ~~shall~~ not exceed the following amounts, and the court shall consider evidence in mitigation:

(a) For violations of a minor or technical nature, $150 ~~$100~~ per violation.

AMERICAN OVERSIGHT

(b) For major violations by an operator on which a penalty has not been imposed under this paragraph during the previous 5 years, $1,500 ~~$1,000~~ per violation.

(c) For major violations not covered by paragraph (b), $7,500 ~~$5,000~~ per violation.

Subject to ~~the provisions of~~ subsection (4), until a violation is resolved by order or judgment, each day or any portion thereof in which the violation continues or is not remediated shall constitute a separate violation.

Section 13. Subsection (2) of section 403.086, Florida Statutes, is amended to read:

403.086 Sewage disposal facilities; advanced and secondary waste treatment.—

(2) Any facilities for sanitary sewage disposal shall provide for secondary waste treatment and, in addition thereto, advanced waste treatment as deemed necessary and ordered by the Department of Environmental Protection. Failure to conform shall be punishable by a civil penalty of $750 ~~$500~~ for each 24-hour day or fraction thereof that such failure is allowed to continue thereafter.

Section 14. Section 403.121, Florida Statutes, is amended to read:

403.121 Enforcement; procedure; remedies.—The department shall have the following judicial and administrative remedies available to it for violations of this chapter, as specified in s. 403.161(1).

(1) Judicial remedies:

(a) The department may institute a civil action in a court

AMERICAN OVERSIGHT

of competent jurisdiction to establish liability and to recover damages for any injury to the air, waters, or property, including animal, plant, and aquatic life, of the state caused by any violation.

(b) The department may institute a civil action in a court of competent jurisdiction to impose and to recover a civil penalty for each violation in an amount of not more than $15,000 ~~$10,000~~ per offense. However, the court may receive evidence in mitigation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(c) Except as provided in paragraph (2)(c), it is ~~shall~~ not ~~be~~ a defense to, or ground for dismissal of, these judicial remedies for damages and civil penalties that the department has failed to exhaust its administrative remedies, has failed to serve a notice of violation, or has failed to hold an administrative hearing prior to the institution of a civil action.

(2) Administrative remedies:

(a) The department may institute an administrative proceeding to establish liability and to recover damages for any injury to the air, waters, or property, including animal, plant, or aquatic life, of the state caused by any violation. The department may order that the violator pay a specified sum as damages to the state. Judgment for the amount of damages determined by the department may be entered in any court having jurisdiction thereof and may be enforced as any other judgment.

(b) If the department has reason to believe a violation has occurred, it may institute an administrative proceeding to order

AMERICAN OVERSIGHT

the prevention, abatement, or control of the conditions creating the violation or other appropriate corrective action. Except for violations involving hazardous wastes, asbestos, or underground injection, the department shall proceed administratively in all cases in which the department seeks administrative penalties that do not exceed $50,000 ~~$10,000~~ per assessment as calculated in accordance with subsections (3), (4), (5), (6), and (7). Pursuant to 42 U.S.C. s. 300g-2, the administrative penalty assessed pursuant to subsection (3), subsection (4), or subsection (5) against a public water system serving a population of more than 10,000 shall be not less than $1,000 per day per violation. The department may ~~shall~~ not impose administrative penalties in excess of $50,000 ~~$10,000~~ in a notice of violation. The department may ~~shall~~ not have more than one notice of violation seeking administrative penalties pending against the same party at the same time unless the violations occurred at a different site or the violations were discovered by the department subsequent to the filing of a previous notice of violation.

(c) An administrative proceeding shall be instituted by the department's serving of a written notice of violation upon the alleged violator by certified mail. If the department is unable to effect service by certified mail, the notice of violation may be hand delivered or personally served in accordance with chapter 48. The notice shall specify the ~~provision of the~~ law, rule, regulation, permit, certification, or order of the department alleged to be violated and the facts alleged to constitute a violation thereof. An order for corrective action, penalty assessment, or damages may be included with the notice.

AMERICAN OVERSIGHT

When the department is seeking to impose an administrative penalty for any violation by issuing a notice of violation, any corrective action needed to correct the violation or damages caused by the violation must be pursued in the notice of violation or they are waived. However, an ~~no~~ order is not ~~shall become~~ effective until after service and an administrative hearing, if requested within 20 days after service. Failure to request an administrative hearing within this time period constitutes ~~shall constitute~~ a waiver thereof, unless the respondent files a written notice with the department within this time period opting out of the administrative process initiated by the department to impose administrative penalties. Any respondent choosing to opt out of the administrative process initiated by the department in an action that seeks the imposition of administrative penalties must file a written notice with the department within 20 days after service of the notice of violation opting out of the administrative process. A respondent's decision to opt out of the administrative process does not preclude the department from initiating a state court action seeking injunctive relief, damages, and the judicial imposition of civil penalties.

(d) If a person timely files a petition challenging a notice of violation, that person will thereafter be referred to as the respondent. The hearing requested by the respondent shall be held within 180 days after the department has referred the initial petition to the Division of Administrative Hearings unless the parties agree to a later date. The department has the burden of proving with the preponderance of the evidence that the respondent is responsible for the violation. ~~No~~

AMERICAN OVERSIGHT

Administrative penalties should not be imposed unless the department satisfies that burden. Following the close of the hearing, the administrative law judge shall issue a final order on all matters, including the imposition of an administrative penalty. When the department seeks to enforce that portion of a final order imposing administrative penalties pursuant to s. 120.69, the respondent may ~~shall~~ not assert as a defense the inappropriateness of the administrative remedy. The department retains its final-order authority in all administrative actions that do not request the imposition of administrative penalties.

(e) After filing a petition requesting a formal hearing in response to a notice of violation in which the department imposes an administrative penalty, a respondent may request that a private mediator be appointed to mediate the dispute by contacting the Florida Conflict Resolution Consortium within 10 days after receipt of the initial order from the administrative law judge. The Florida Conflict Resolution Consortium shall pay all of the costs of the mediator and for up to 8 hours of the mediator's time per case at $150 per hour. Upon notice from the respondent, the Florida Conflict Resolution Consortium shall provide to the respondent a panel of possible mediators from the area in which the hearing on the petition would be heard. The respondent shall select the mediator and notify the Florida Conflict Resolution Consortium of the selection within 15 days of receipt of the proposed panel of mediators. The Florida Conflict Resolution Consortium shall provide all of the administrative support for the mediation process. The mediation must be completed at least 15 days before the final hearing date set by the administrative law judge.

AMERICAN OVERSIGHT

(f) In any administrative proceeding brought by the department, the prevailing party shall recover all costs as provided in ss. 57.041 and 57.071. The costs must be included in the final order. The respondent is the prevailing party when an order is entered awarding no penalties to the department and such order has not been reversed on appeal or the time for seeking judicial review has expired. The respondent is ~~shall be~~ entitled to an award of attorney's fees if the administrative law judge determines that the notice of violation issued by the department seeking the imposition of administrative penalties was not substantially justified as defined in s. 57.111(3)(e). An ~~No~~ award of attorney's fees as provided by this subsection may not ~~shall~~ exceed $15,000.

(g) Nothing herein shall be construed as preventing any other legal or administrative action in accordance with law. Nothing in this subsection shall limit the department's authority provided in ss. 403.131, 403.141, and this section to judicially pursue injunctive relief. When the department exercises its authority to judicially pursue injunctive relief, penalties in any amount up to the statutory maximum sought by the department must be pursued as part of the state court action and not by initiating a separate administrative proceeding. The department retains the authority to judicially pursue penalties in excess of $50,000 ~~$10,000~~ for violations not specifically included in the administrative penalty schedule, or for multiple or multiday violations alleged to exceed a total of $50,000 ~~$10,000~~. The department also retains the authority provided in ss. 403.131, 403.141, and this section to judicially pursue injunctive relief and damages, if a notice of violation seeking

AMERICAN OVERSIGHT

the imposition of administrative penalties has not been issued. The department has the authority to enter into a settlement, either before or after initiating a notice of violation, and the settlement may include a penalty amount different from the administrative penalty schedule. Any case filed in state court because it is alleged to exceed a total of $50,000 ~~$10,000~~ in penalties may be settled in the court action for less than $50,000 ~~$10,000~~.

(h) Chapter 120 applies ~~shall apply~~ to any administrative action taken by the department or any delegated program pursuing administrative penalties in accordance with this section.

(3) Except for violations involving hazardous wastes, asbestos, or underground injection, administrative penalties must be calculated according to the following schedule:

(a) For a drinking water contamination violation, the department shall assess a penalty of $3,000 ~~$2,000~~ for a Maximum Containment Level (MCL) violation; plus $1,500 ~~$1,000~~ if the violation is for a primary inorganic, organic, or radiological Maximum Contaminant Level or it is a fecal coliform bacteria violation; plus $1,500 ~~$1,000~~ if the violation occurs at a community water system; and plus $1,500 ~~$1,000~~ if any Maximum Contaminant Level is exceeded by more than 100 percent. For failure to obtain a clearance letter prior to placing a drinking water system into service when the system would not have been eligible for clearance, the department shall assess a penalty of $4,500 ~~$3,000~~.

(b) For failure to obtain a required wastewater permit, other than a permit required for surface water discharge, the department shall assess a penalty of $1,500 ~~$1,000~~. For a

AMERICAN OVERSIGHT

552 domestic or industrial wastewater violation not involving a
553 surface water or groundwater quality violation, the department
554 shall assess a penalty of $3,000 ~~$2,000~~ for an unpermitted or
555 unauthorized discharge or effluent-limitation exceedance. For an
556 unpermitted or unauthorized discharge or effluent-limitation
557 exceedance that resulted in a surface water or groundwater
558 quality violation, the department shall assess a penalty of
559 $7,500 ~~$5,000~~.
560 (c) For a dredge and fill or stormwater violation, the
561 department shall assess a penalty of $1,500 ~~$1,000~~ for
562 unpermitted or unauthorized dredging or filling or unauthorized
563 construction of a stormwater management system against the
564 person or persons responsible for the illegal dredging or
565 filling, or unauthorized construction of a stormwater management
566 system plus $3,000 ~~$2,000~~ if the dredging or filling occurs in
567 an aquatic preserve, an Outstanding Florida Water, a
568 conservation easement, or a Class I or Class II surface water,
569 plus $1,500 ~~$1,000~~ if the area dredged or filled is greater than
570 one-quarter acre but less than or equal to one-half acre, and
571 plus $1,500 ~~$1,000~~ if the area dredged or filled is greater than
572 one-half acre but less than or equal to one acre. The
573 administrative penalty schedule does ~~shall~~ not apply to a dredge
574 and fill violation if the area dredged or filled exceeds one
575 acre. The department retains the authority to seek the judicial
576 imposition of civil penalties for all dredge and fill violations
577 involving more than one acre. The department shall assess a
578 penalty of $4,500 ~~$3,000~~ for the failure to complete required
579 mitigation, failure to record a required conservation easement,
580 or for a water quality violation resulting from dredging or

AMERICAN OVERSIGHT

filling activities, stormwater construction activities or failure of a stormwater treatment facility. For stormwater management systems serving less than 5 acres, the department shall assess a penalty of $3,000 ~~$2,000~~ for the failure to properly or timely construct a stormwater management system. In addition to the penalties authorized in this subsection, the department shall assess a penalty of $7,500 ~~$5,000~~ per violation against the contractor or agent of the owner or tenant that conducts unpermitted or unauthorized dredging or filling. For purposes of this paragraph, the preparation or signing of a permit application by a person currently licensed under chapter 471 to practice as a professional engineer does ~~shall~~ not make that person an agent of the owner or tenant.

(d) For mangrove trimming or alteration violations, the department shall assess a penalty of $7,500 ~~$5,000~~ per violation against the contractor or agent of the owner or tenant that conducts mangrove trimming or alteration without a permit as required by s. 403.9328. For purposes of this paragraph, the preparation or signing of a permit application by a person currently licensed under chapter 471 to practice as a professional engineer does ~~shall~~ not make that person an agent of the owner or tenant.

(e) For solid waste violations, the department shall assess a penalty of $3,000 ~~$2,000~~ for the unpermitted or unauthorized disposal or storage of solid waste; plus $1,000 if the solid waste is Class I or Class III (excluding yard trash) or if the solid waste is construction and demolition debris in excess of 20 cubic yards, plus $1,500 ~~$1,000~~ if the waste is disposed of or stored in any natural or artificial body of water or within

AMERICAN OVERSIGHT

500 feet of a potable water well, plus $1,500 ~~$1,000~~ if the waste contains PCB at a concentration of 50 parts per million or greater; untreated biomedical waste; friable asbestos greater than 1 cubic meter which is not wetted, bagged, and covered; used oil greater than 25 gallons; or 10 or more lead acid batteries. The department shall assess a penalty of $4,500 ~~$3,000~~ for failure to properly maintain leachate control; unauthorized burning; failure to have a trained spotter on duty at the working face when accepting waste; or failure to provide access control for three consecutive inspections. The department shall assess a penalty of $3,000 ~~$2,000~~ for failure to construct or maintain a required stormwater management system.

(f) For an air emission violation, the department shall assess a penalty of $1,500 ~~$1,000~~ for an unpermitted or unauthorized air emission or an air-emission-permit exceedance, ~~plus $1,000 if the emission results in an air quality violation,~~ plus $4,500 ~~$3,000~~ if the emission was from a major source and the source was major for the pollutant in violation; plus $1,500 ~~$1,000~~ if the emission was more than 150 percent of the allowable level.

(g) For storage tank system and petroleum contamination violations, the department shall assess a penalty of $7,500 ~~$5,000~~ for failure to empty a damaged storage system as necessary to ensure that a release does not occur until repairs to the storage system are completed; when a release has occurred from that storage tank system; for failure to timely recover free product; or for failure to conduct remediation or monitoring activities until a no-further-action or site-rehabilitation completion order has been issued. The department

AMERICAN OVERSIGHT

shall assess a penalty of $4,500 ~~$3,000~~ for failure to timely upgrade a storage tank system. The department shall assess a penalty of $3,000 ~~$2,000~~ for failure to conduct or maintain required release detection; failure to timely investigate a suspected release from a storage system; depositing motor fuel into an unregistered storage tank system; failure to timely assess or remediate petroleum contamination; or failure to properly install a storage tank system. The department shall assess a penalty of $1,500 ~~$1,000~~ for failure to properly operate, maintain, or close a storage tank system.

(4) In an administrative proceeding, in addition to the penalties that may be assessed under subsection (3), the department shall assess administrative penalties according to the following schedule:

(a) For failure to satisfy financial responsibility requirements or for violation of s. 377.371(1), $7,500 ~~$5,000~~.

(b) For failure to install, maintain, or use a required pollution control system or device, $6,000 ~~$4,000~~.

(c) For failure to obtain a required permit before construction or modification, $4,500 ~~$3,000~~.

(d) For failure to conduct required monitoring or testing; failure to conduct required release detection; or failure to construct in compliance with a permit, $3,000 ~~$2,000~~.

(e) For failure to maintain required staff to respond to emergencies; failure to conduct required training; failure to prepare, maintain, or update required contingency plans; failure to adequately respond to emergencies to bring an emergency situation under control; or failure to submit required notification to the department, $1,500 ~~$1,000~~.

AMERICAN OVERSIGHT

(f) Except as provided in subsection (2) with respect to public water systems serving a population of more than 10,000, for failure to prepare, submit, maintain, or use required reports or other required documentation, $750 ~~$500~~.

(5) Except as provided in subsection (2) with respect to public water systems serving a population of more than 10,000, for failure to comply with any other departmental regulatory statute or rule requirement not otherwise identified in this section, the department may assess a penalty of $1,000 ~~$500~~.

(6) For each additional day during which a violation occurs, the administrative penalties in subsections ~~subsection~~ (3), ~~subsection~~ (4), and ~~subsection~~ (5) may be assessed per day per violation.

(7) The history of noncompliance of the violator for any previous violation resulting in an executed consent order, but not including a consent order entered into without a finding of violation, or resulting in a final order or judgment after the effective date of this law involving the imposition of $3,000 ~~$2,000~~ or more in penalties shall be taken into consideration in the following manner:

(a) One previous such violation within 5 years prior to the filing of the notice of violation will result in a 25-percent per day increase in the scheduled administrative penalty.

(b) Two previous such violations within 5 years prior to the filing of the notice of violation will result in a 50-percent per day increase in the scheduled administrative penalty.

(c) Three or more previous such violations within 5 years prior to the filing of the notice of violation will result in a

AMERICAN OVERSIGHT

100-percent per day increase in the scheduled administrative penalty.

(8) The direct economic benefit gained by the violator from the violation, where consideration of economic benefit is provided by Florida law or required by federal law as part of a federally delegated or approved program, shall be added to the scheduled administrative penalty. The total administrative penalty, including any economic benefit added to the scheduled administrative penalty, may ~~shall~~ not exceed $15,000 ~~$10,000~~.

(9) The administrative penalties assessed for any particular violation may ~~shall~~ not exceed $7,500 ~~$5,000~~ against any one violator, unless the violator has a history of noncompliance, the economic benefit of the violation as described in subsection (8) exceeds $7,500 ~~$5,000~~, or there are multiday violations. The total administrative penalties may ~~shall~~ not exceed $50,000 ~~$10,000~~ per assessment for all violations attributable to a specific person in the notice of violation.

(10) The administrative law judge may receive evidence in mitigation. The penalties identified in subsections ~~subsection~~ (3), ~~subsection~~ (4), and ~~subsection~~ (5) may be reduced up to 50 percent by the administrative law judge for mitigating circumstances, including good faith efforts to comply prior to or after discovery of the violations by the department. Upon an affirmative finding that the violation was caused by circumstances beyond the reasonable control of the respondent and could not have been prevented by respondent's due diligence, the administrative law judge may further reduce the penalty.

(11) Penalties collected pursuant to this section shall be

AMERICAN OVERSIGHT

deposited into the Water Quality Assurance Trust Fund or other trust fund designated by statute and shall be used to fund the restoration of ecosystems, or polluted areas of the state, as defined by the department, to their condition before pollution occurred. The Florida Conflict Resolution Consortium may use a portion of the fund to administer the mediation process provided in paragraph (2)(e) and to contract with private mediators for administrative penalty cases.

(12) The purpose of the administrative penalty schedule and process is to provide a more predictable and efficient manner for individuals and businesses to resolve relatively minor environmental disputes. Subsections (3)-(7) may ~~Subsection (3), subsection (4), subsection (5), subsection (6), or subsection (7) shall~~ not be construed as limiting a state court in the assessment of damages. The administrative penalty schedule does not apply to the judicial imposition of civil penalties in state court as provided in this section.

Section 15. Subsection (1) of section 403.141, Florida Statutes, is amended to read:

403.141 Civil liability; joint and several liability.—

(1) A person who ~~Whoever~~ commits a violation specified in s. 403.161(1) is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air, waters, and property, including animal, plant, and aquatic life, of the state to their former condition, and furthermore is subject to the judicial imposition of a civil

AMERICAN OVERSIGHT

penalty for each offense in an amount of not more than $15,000 ~~$10,000~~ per offense. However, the court may receive evidence in mitigation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense. Nothing herein gives ~~shall give~~ the department the right to bring an action on behalf of any private person.

Section 16. Subsections (2) through (5) of section 403.161, Florida Statutes, are amended to read:

403.161 Prohibitions, violation, penalty, intent.—

(2) A person who ~~Whoever~~ commits a violation specified in subsection (1) is liable to the state for any damage caused and for civil penalties as provided in s. 403.141.

(3) A ~~Any~~ person who willfully commits a violation specified in paragraph (1)(a) commits ~~is guilty of~~ a felony of the third degree, punishable as provided in ss. 775.082(3)(e) and 775.083(1)(g) by a fine of not more than $50,000 or by imprisonment for 5 years, or by both, for each offense. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(4) A ~~Any~~ person who commits a violation specified in paragraph (1)(a) or paragraph (1)(b) due to reckless indifference or gross careless disregard commits ~~is guilty of~~ a misdemeanor of the second degree, punishable as provided in ss. 775.082(4)(b) and 775.083(1)(g) by a fine of not more than $10,000 ~~$5,000~~ or by 60 days in jail, or by both, for each offense.

(5) A ~~Any~~ person who willfully commits a violation

AMERICAN OVERSIGHT

specified in paragraph (1)(b) or paragraph (1)(c) commits ~~is guilty of~~ a misdemeanor of the first degree punishable as provided in ss. 775.082(4)(a) and 775.083(1)(g) by a fine of not more than $10,000 or by 6 months in jail, or by both for each offense.

Section 17. Paragraph (a) of subsection (6) of section 403.413, Florida Statutes, is amended to read:

403.413 Florida Litter Law.—

(6) PENALTIES; ENFORCEMENT.—

(a) Any person who dumps litter in violation of subsection (4) in an amount not exceeding 15 pounds in weight or 27 cubic feet in volume and not for commercial purposes commits ~~is guilty of~~ a noncriminal infraction, punishable by a civil penalty of $150 ~~$100~~, from which $50 shall be deposited into the Solid Waste Management Trust Fund to be used for the solid waste management grant program pursuant to s. 403.7095. In addition, the court may require the violator to pick up litter or perform other labor commensurate with the offense committed.

Section 18. Subsection (5) of section 403.7234, Florida Statutes, is amended to read:

403.7234 Small quantity generator notification and verification program.—

(5) Any small quantity generator who does not comply with the requirements of subsection (4) and who has received a notification and survey in person or through one certified letter from the county is subject to a fine of between $75 ~~$50~~ and $150 ~~$100~~ per day for a maximum of 100 days. The county may collect such fines and deposit them in its general revenue fund. Fines collected by the county shall be used to carry out the

AMERICAN OVERSIGHT

notification and verification procedure established in this section. If there are excess funds after the notification and verification procedures have been completed, such funds shall be used for hazardous and solid waste management purposes only.

Section 19. Subsection (3) of section 403.726, Florida Statutes, is amended to read:

403.726 Abatement of imminent hazard caused by hazardous substance.—

(3) An imminent hazard exists if any hazardous substance creates an immediate and substantial danger to human health, safety, or welfare or to the environment. The department may institute action in its own name, using the procedures and remedies of s. 403.121 or s. 403.131, to abate an imminent hazard. However, the department is authorized to recover a civil penalty of not more than $37,500 ~~$25,000~~ for each day until a ~~of continued~~ violation is resolved by order or judgment. Whenever serious harm to human health, safety, and welfare; the environment; or private or public property may occur prior to completion of an administrative hearing or other formal proceeding that which might be initiated to abate the risk of serious harm, the department may obtain, ex parte, an injunction without paying filing and service fees prior to the filing and service of process.

Section 20. Paragraph (a) of subsection (3) of section 403.727, Florida Statutes, is amended to read:

403.727 Violations; defenses, penalties, and remedies.—

(3) Violations of the provisions of this act are punishable as follows:

(a) Any person who violates ~~the provisions of~~ this act, the

AMERICAN OVERSIGHT

rules or orders of the department, or the conditions of a permit is liable to the state for any damages specified in s. 403.141 and for a civil penalty of not more than $75,000 ~~$50,000~~ for each day of continued violation or until a violation is resolved by order or judgment, except as otherwise provided herein. The department may revoke any permit issued to the violator. In any action by the department against a small hazardous waste generator for the improper disposal of hazardous wastes, a rebuttable presumption of improper disposal shall be created if the generator was notified pursuant to s. 403.7234; the generator shall then have the burden of proving that the disposal was proper. If the generator was not so notified, the burden of proving improper disposal shall be placed upon the department.

Section 21. Subsection (8) of section 403.93345, Florida Statutes, is amended to read:

403.93345 Coral reef protection.—

(8) In addition to the compensation described in subsection (5), the department may assess, per occurrence, civil penalties according to the following schedule:

(a) For any anchoring of a vessel on a coral reef or for any other damage to a coral reef totaling less than or equal to an area of 1 square meter, $225 ~~$150~~, provided that a responsible party who has anchored a recreational vessel as defined in s. 327.02 which is lawfully registered or exempt from registration pursuant to chapter 328 is issued, at least once, a warning letter in lieu of penalty; with aggravating circumstances, an additional $225 ~~$150~~; occurring within a state park or aquatic preserve, an additional $225 ~~$150~~.

AMERICAN OVERSIGHT

(b) For damage totaling more than an area of 1 square meter but less than or equal to an area of 10 square meters, $450 ~~$300~~ per square meter; with aggravating circumstances, an additional $450 ~~$300~~ per square meter; occurring within a state park or aquatic preserve, an additional $450 ~~$300~~ per square meter.

(c) For damage exceeding an area of 10 square meters, $1,500 ~~$1,000~~ per square meter; with aggravating circumstances, an additional $1,500 ~~$1,000~~ per square meter; occurring within a state park or aquatic preserve, an additional $1,500 ~~$1,000~~ per square meter.

(d) For a second violation, the total penalty may be doubled.

(e) For a third violation, the total penalty may be tripled.

(f) For any violation after a third violation, the total penalty may be quadrupled.

(g) The total of penalties levied may not exceed $375,000 ~~$250,000~~ per occurrence.

Section 22. Subsection (5) of s. 823.11, Florida Statutes, is reenacted for the purpose of incorporating the amendment made by this act to s. 376.16, Florida Statutes, in a reference thereto.

Section 23. Subsection (5) of s. 403.077, subsection (2) of s. 403.131, paragraph (d) of subsection (3) of s. 403.4154, and subsection (5) of s. 403.860, Florida Statutes, are reenacted for the purpose of incorporating the amendment made by this act to s. 403.121, Florida Statutes, in references thereto.

Section 24. Subsection (10) of s. 403.708, subsection (7) of s. 403.7191, and s. 403.811, Florida Statutes, are reenacted

AMERICAN OVERSIGHT

for the purpose of incorporating the amendment made by this act to s. 403.141, Florida Statutes, in references thereto.

Section 25. Subsection (2) of s. 403.7255, Florida Statutes, is reenacted for the purpose of incorporating the amendment made by this act to s. 403.161, Florida Statutes, in a reference thereto.

Section 26. Subsection (8) of s. 403.7186, Florida Statutes, is reenacted for the purpose of incorporating the amendments made by this act to ss. 403.141 and 403.161, Florida Statutes, in references thereto.

Section 27. This act shall take effect July 1, 2020.

CC: BAPS Administrator <BAPS.Administrator@LASPBS.STATE.FL.US>
Subject: Department of Revenue Proposed Budget Amendment EOG Log# O0049

To All Legislative Members: This request is pending approval by the Executive Office of the Governor and is now in Legislative Consultation. It will be implemented at the end of the consultation period on 12/2/2019 if no formal objection is filed, pursuant to Chapter 216.177 F.S.

Budget Amendment Request #: O0049
Requested by: Department of Revenue

Problem Statement:

The Department of Revenue (Department) requests changes to its legislatively approved performance measures and standards (LRPP) pursuant to section 216.1827(3)(a), Florida Statutes, by submitting such changes to the Executive Office of the Governor for approval, subject to the review and objection procedure set forth

AMERICAN OVERSIGHT

in section 216.177, Florida Statutes. The Department evaluates changes in laws, economic conditions, agency responsibilities, and other factors that may require revisions to currently approved performance measures and standards.

Agency Request:

The Department requests to revise certain current year performance measures and standards as indicated in the LRPP for Fiscal Years 2020-21 through 2024-25. These changes will ensure that measures and standards are appropriately stated and consistent with the Department's current processes and methodologies. Without these changes, the currently approved performance measures and standards for Fiscal Year 2019-20 will not provide a precise means of assessing

AMERICAN OVERSIGHT

agency performance. The following performance measures and standards changes are needed for the Exhibit II.

1) Total collections received (in billions) - Standard change: Increase to $52.694

FY 18-19 Prior Year Actual - $52.562B, Exhibit II

FY 19-20 Approved Standard - $51.818B, Exhibit II

Explanation: This standard is comprised of taxes and fees administered by the Department as well as other receipts processed by the agency. The taxes and fees portion of the standard is subject to revision by the Revenue Estimating Conference (REC) at designated intervals throughout the year. Therefore, fluctuations in the economy can potentially impact total collections received. In FY 2018-19, the total

AMERICAN OVERSIGHT

collections received were $52.562 billion or 4.6% above the approved standard. Therefore, the Department is recommending an upward revision to $52.694 billion or 1.69% above the previously published standard of $51.818 billion for FY 2019/20.

2) Percent of Audits Completed within 305 days from commencement - Standard change: Increase to 90%

FY 18-19 Prior Year Actual – 93.9%, Exhibit II

FY 19-20 Approved Standard – 82%, Exhibit II

Explanation: The Department anticipates an overall increase in this standard due to the integration of Compliance Campaigns audits into the Customer Relationship Management (CRM) system. This shift allows all Notices of Proposed

AMERICAN OVERSIGHT

Assessments (NOPAs) issued Department-wide to follow a consistent, parallel process. The requested standard increase is commensurate with expected performance for FY 2019-20.

3) Percent of collection cases resolved with payment -New title and standard: 63.0%

FY 18-19 Prior Year Actual – N/A

FY 19-20 Approved Standard – N/A

Explanation: The successful implementation and continuation of the General Tax Administration (GTA) Program's collections strategy to focus on pre-warrant "case resolution" prevents the aging of outstanding liabilities. Pre-warrant cases may be resolved via waivers, cancellations, payments, or filed returns. A full year of data was compiled to establish a baseline for this new

AMERICAN OVERSIGHT

measure. Thus, the requested standard is commensurate with expected performance for FY 2019-20.

4) Number of collection cases resolved- New title and standard: 600,000

FY 18-19 Prior Year Actual – N/A

FY 19-20 Approved Standard – N/A

Explanation: The Department is requesting this change to properly align the measure with the workflow of the Receivables Management process. The shift to “case resolution” strategy continues to transform taxpayer behavior resulting in the generation of fewer notices of outstanding tax liabilities. In addition, the Receivables Management Process has instituted the following preemptive methods to minimize the creation of notices:

AMERICAN OVERSIGHT

- Launching Education and Compliance Outreach (ECO) Program to contact newly registered taxpayers and help them with common filing errors

- Making corrections to account registration information to prevent issuance of erroneous delinquencies.

- Working on creating a bankruptcy service center to route bankruptcy items to a specialized group

- Corporate Income Tax (CIT) project – accounts created based on extension of time requests are inactivated preventing a delinquency notice from being issued.

A full year of data was compiled to establish a baseline for this new measure. Thus, the requested standard is commensurate with expected performance for FY 2019-20.

AMERICAN OVERSIGHT

5) Cost Effectiveness - Standard change: Increase to $319.67

FY 18-19 Prior Year Actual - $363.85, Exhibit II

FY 19-20 Approved Standard - $314.85, Exhibit II

Explanation- “Total Collections Received” serves as the numerator for the calculation of this measure. Therefore, any revisions to the “Total Collections Received” standard will impact the calculation of the cost effectiveness measure. See the “Total Collections Received” explanation for more detail. The Department is recommending an upward revision for this standard to $319.67 from $314.85 previously published.

AMERICAN OVERSIGHT

Department of State Legislative Proposal
Office of International Affairs

Create Statute in Chapter 15 Secretary of State-
State Protocol Officer-
The Secretary of State shall serve as the state protocol officer. In consultation with the Governor and other governmental officials, the Secretary of State shall develop, maintain, publish, and distribute the state protocol manual.

15.182 International travel by state-funded musical, cultural, or artistic organizations; notification to the Department of ~~Economic Opportunity~~ State.—
(1) If a musical, cultural, or artistic organization that receives state funding is traveling internationally for a presentation, performance, or other significant public viewing, including an organization associated with a college or university, such organization shall notify the Department of ~~Economic Opportunity~~ State of its intentions to travel, together with the date, time, and location of each appearance.
(2) The Department of ~~Economic Opportunity~~ State, in conjunction with the Department of Economic Opportunity and Enterprise Florida, Inc., shall act as an intermediary between performing musical, cultural, and artistic organizations and Florida businesses to encourage and coordinate joint undertakings. Such coordination may include, but is not limited to, encouraging business and industry to sponsor cultural events, assistance with travel of such organizations, and coordinating travel schedules of cultural performance groups and international trade missions.
(3) An organization shall provide the notification to the Department of State required by this section at least 30 days before the date the international travel is to commence or, when an intention to travel internationally is not formed at least 30 days in advance of the date the travel is to commence, as soon as feasible after forming such travel intention. The Department of State shall take an active role in informing such groups of the responsibility to notify the department of travel intentions.

288.012 State of Florida international offices; state protocol officer; protocol manual.—
~~(7) The Governor may designate a state protocol officer. The state protocol officer shall be housed within the Executive Office of the Governor. In consultation with the Governor and other governmental officials, the state protocol officer shall develop, maintain, publish, and distribute the state protocol manual.~~

Create Statute in Chapter 288 International Affairs-
Citizen support organizations; use of state administrative services and property; audit.—
(1) CITIZEN SUPPORT ORGANIZATIONS.—The Office of International Affairs within the Department of State may support the establishment of citizen support organizations to provide assistance, funding, and promotional support for intergovernmental programs. For the purposes of this section, a “citizen support organization” means an organization which is:
(a) A Florida corporation not for profit incorporated under the provisions of chapter 617 and approved by the Department of State.
(b) Organized and operated to conduct programs and activities; raise funds; request and receive grants, gifts, and bequests of money; acquire, receive, hold, invest, and administer, in its own name, securities, funds, objects of value, or other property, real or personal; and make expenditures to or for the direct or indirect benefit of the Office.
(c) Determined by the Office to be consistent with the goals of the Office and in the best interests of the state.

AMERICAN OVERSIGHT

(d) Approved in writing by the Office to operate for the direct or indirect benefit of the Office. Such approval shall be given in a letter of agreement from the Office.
(2) USE OF ADMINISTRATIVE SERVICES AND PROPERTY.—
(a) The Office may prescribe by rule any condition with which a citizen support organization shall comply in order to use Office administrative services, property, or facilities.
(b) The Office shall not permit the use of any administrative services, property, or facilities of the state by a citizen support organization which does not provide equal membership and employment opportunities to all persons regardless of race, color, religion, sex, age, or national origin.
(3) ANNUAL AUDIT.—The citizen support organization shall provide for an annual financial audit in accordance with s. 215.981.

288.816 Intergovernmental relations.—
(1) The state protocol officer shall be responsible for consular operations and the sister city and sister state program and shall serve as liaison with foreign, federal, and other state international organizations and with county and municipal governments in Florida.
(2) The state protocol officer shall be responsible for all consular relations between the state and all foreign governments doing business in Florida. The state protocol officer shall monitor United States laws and directives to ensure that all federal treaties regarding foreign privileges and immunities are properly observed. The state protocol officer shall promulgate rules which shall:
(a) Establish a viable system of registration for foreign government officials residing or having jurisdiction in the state. Emphasis shall be placed on maintaining active communication between the state protocol officer and the United States Department of State in order to be currently informed regarding foreign governmental personnel stationed in, or with official responsibilities for, Florida. Active dialogue shall also be maintained with foreign countries which historically have had dealings with Florida in order to keep them informed of the proper procedure for registering with the state.
(b) Maintain and systematically update a current and accurate list of all such foreign governmental officials, consuls, or consulates.
~~(c) Issue certificates to such foreign governmental officials after verification pursuant to proper investigations through United States Department of State sources and the appropriate foreign government.~~
~~(d) Verify entitlement to sales and use tax exemptions pursuant to United States Department of State guidelines and identification methods.~~
(e) Verify entitlement to issuance of special motor vehicle license plates by the Department of Highway Safety and Motor Vehicles to honorary consuls or such other officials representing foreign governments who are not entitled to issuance of special Consul Corps license plates by the United States Government.
(f) Establish a system of communication to provide all state and local law enforcement agencies with information regarding proper procedures relating to the arrest or incarceration of a foreign citizen.
(g) Request the Department of Law Enforcement to provide transportation and protection services when necessary pursuant to s. 943.68.
(h) Coordinate, when necessary, special activities between foreign governments and Florida state and local governments. These may include Consular Corps Day, Consular Corps conferences, and various other social, cultural, or educational activities.
(i) Notify all newly arrived foreign governmental officials of the services offered by the state protocol officer.
(3) The state protocol officer may: ~~shall operate the sister city and sister state program and~~

AMERICAN OVERSIGHT

~~establish such new programs as needed to further global understanding through the interchange of people, ideas, and culture between Florida and the world. To accomplish this purpose, the state protocol officer shall have the power and authority to:~~

(a) Coordinate and carry out activities designed to encourage the state and its subdivisions to participate in sister city and sister state affiliations with foreign countries and their subdivisions. Such activities may include a State of Florida sister cities conference.

(b) Encourage cooperation with and disseminate information pertaining to the Sister Cities International Program and any other program whose object is to promote linkages with foreign countries and their subdivisions.

(c) Maximize any aid available from all levels of government, public and private agencies, and other entities to facilitate such activities.

~~(d) Establish a viable system of registration for sister city and sister state affiliations between the state and foreign countries and their subdivisions. Such system shall include a method to determine that sufficient ties are properly established as well as a method to supervise how these ties are maintained.~~

~~(e) Maintain a current and accurate listing of all such affiliations. Sister city affiliations shall not be discouraged between the state and any country specified in s. 620(f)(1) of the federal Foreign Assistance Act of 1961, as amended, with whom the United States is currently conducting diplomatic relations unless a mandate from the United States Government expressly prohibits such affiliations.~~

(4) The state protocol officer shall serve as a contact for the state with the Florida Washington Office, the Florida Congressional Delegation, and United States Government agencies with respect to laws or policies which may affect the interests of the state in the area of international relations. All inquiries received regarding international economic trade development or reverse investment opportunities shall be referred to Enterprise Florida, Inc. In addition, the state protocol officer shall serve as liaison with other states with respect to international programs of interest to Florida. The state protocol officer shall also investigate and make suggestions regarding possible areas of joint action or regional cooperation with these states.

(5) The state protocol officer shall have the power and duty to encourage the relocation to Florida of consular offices and multilateral and international agencies and organizations.

(6) The department and Enterprise Florida, Inc., shall help to contribute an international perspective to the state’s development efforts.

AMERICAN OVERSIGHT

A bill to be entitled

An act relating to the verification of employment eligibility; amending s. 448.09, F.S.; providing definitions; requiring public employers, contractors, and subcontractors to register with and use the E-Verify system; prohibiting such entities from entering into a contract unless each party to the contract registers with and uses the E-Verify system; requiring a subcontractor to provide a contractor with a certain affidavit; requiring a contractor to maintain a copy of such affidavit; authorizing the termination of a contract under certain conditions; providing that such termination is not a breach of contract; authorizing a challenge to such termination; requiring private employers to verify the employment eligibility of newly hired employees beginning on a specified date; providing an exception; providing acceptable methods for verifying employment eligibility; requiring a private employer to provide a public employer with a certain affidavit in order to bid on or otherwise contract with the public employer; authorizing the termination of a contract under certain conditions; providing that such termination is not a breach of contract; providing certain liability if a contract is terminated; providing specified immunity and

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001075

nonliability for private employers; creating a rebuttable presumption for private employers; providing construction; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 448.09, Florida Statutes, is amended to read:

448.09 Unauthorized aliens; employment prohibited.—

(1) EMPLOYMENT ELIGIBILITY.—It is ~~shall be~~ unlawful for any person or entity to knowingly ~~to~~ employ, hire, recruit, or refer, either for herself or himself or on behalf of another, for private or public employment within the state, an alien who is not duly authorized to work by the immigration laws or the Attorney General of the United States.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Contractor" means a person or entity that has entered or is attempting to enter into a contract with a public employer to provide labor, supplies, or services to such employer in exchange for salary, wages, or other remuneration.

(b) "Employee" means a person filling an authorized and established position who performs labor or services for a public or private employer in exchange for salary, wages, or other remuneration.

(c) "E-Verify system" means an Internet-based system

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001076

operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees.

(d) "Legal alien" means a person who is or was lawfully present or permanently residing legally in the United States and allowed to work at the time of employment and remains so throughout the duration of that employment.

(e) "Private employer" means a person or entity that employs persons to perform labor or services in exchange for salary, wages, or other remuneration. The term does not include:

1. A public employer;

2. The occupant or owner of a private residence who hires:

a. Casual labor, as defined in s. 443.036, to be performed entirely within the private residence; or

b. A licensed independent contractor, as defined in federal laws or regulations, to perform a specified portion of labor or services; or

3. An employee leasing company licensed under part XI of chapter 468 that enters into a written agreement or understanding with a client company which places the primary obligation for compliance with this section upon the client company. In the absence of a written agreement or understanding, the employee leasing company is responsible for compliance with this section. Such employee leasing company shall, at all times, remain an employer as otherwise defined in federal laws or

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001077

regulations.

(f) "Public employer" means an agency within state, regional, county, local, or municipal government, whether executive, judicial, or legislative, or any public school, community college, or state university that employs persons who perform labor or services for that employer in exchange for salary, wages, or other remuneration or that enters or attempts to enter into a contract with a contractor.

(g) "Subcontractor" means a person or entity that provides labor, supplies, or services to or for a contractor or another subcontractor in exchange for salary, wages, or other remuneration.

(h) "Unauthorized alien" means a person who is not authorized under federal law to be employed in the United States, as described in 8 U.S.C. s. 1324a(h)(3). The term shall be interpreted consistently with that section and any applicable federal rules or regulations.

(3) PUBLIC EMPLOYERS, CONTRACTORS, AND SUBCONTRACTORS.—

(a) Beginning January 1, 2021, every public employer, contractor, and subcontractor shall register with and use the E-Verify system to verify the work authorization status of all newly hired employees. A public employer, contractor, or subcontractor may not enter into a contract unless each party to the contract registers with and uses the E-Verify system.

(b)1. If a contractor enters into a contract with a

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001078

subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien.

2. The contractor shall maintain a copy of such affidavit for the duration of the contract.

(c)1. A public employer, contractor, or subcontractor who has a good faith belief that a person or entity with which it is contracting has knowingly violated subsection (1) shall terminate the contract with the person or entity.

2. A public employer that has a good faith belief that a subcontractor knowingly violated this subsection, but the contractor otherwise complied with this subsection, shall promptly notify the contractor and order the contractor to immediately terminate the contract with the subcontractor.

3. A contract terminated under subparagraph 1. or subparagraph 2. is not a breach of contract and may not be considered as such.

(d) A public employer, contractor, or subcontractor may file an action with a circuit or county court to challenge a termination under paragraph (c) no later than 20 calendar days after the date on which the contract was terminated.

(e) If a public employer terminates a contract with a contractor under paragraph (c), the contractor may not be awarded a public contract for at least 1 year after the date on

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001079

which the contract was terminated.

(4) PRIVATE EMPLOYERS.—

(a) Beginning January 1, 2021, a private employer shall, after making an offer of employment which has been accepted by a person, verify such person's employment eligibility. A private employer is not required to verify the employment eligibility of a continuing employee hired before January 1, 2021. However, if a person is a contract employee retained by a private employer, the private employer must verify the employee's employment eligibility upon the renewal or extension of his or her contract.

(b) A private employer shall verify a person's employment eligibility by:

1. Using the E-Verify system; or

2. Requiring the person to provide a picture identification card that complies with the Real ID Act of 2005, Pub. L. No. 109-13, and a certified copy of one of the following documents:

a. A United States birth certificate;

b. A certificate of naturalization;

c. A certificate of citizenship;

d. An alien registration receipt card; or

e. A United States immigration form I-94 stamped to indicate "employment authorized."

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001080

The private employer must retain a copy of the documents provided under this subparagraph for at least 3 years after the person's initial date of employment.

(c) A private employer may not bid on or otherwise contract with a public employer for the performance of labor or services in this state unless the private employer provides the public employer with an affidavit stating that:

1. The private employer is registered with and uses the E-Verify system to verify that all newly hired employees are legal citizens of the United States or legal aliens.

2. The private employer will continue to use the E-Verify system to verify the employment eligibility of all newly hired employees for the duration of the contract.

3. The private employer requires all subcontractors to provide an affidavit stating compliance with subparagraphs 1. and 2.

(d)1. A private employer that violates this subsection may be subject to termination of its public contract, if applicable, and may not be awarded a public contract for at least 1 year after the date on which the contract was terminated. The termination of the contract is not a breach of contract and may not be considered as such.

2. A private employer is liable for any additional costs incurred by the public employer as a result of the termination of the contract.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001081

(e) A private employer that complies with this subsection may not be held civilly or criminally liable under state law for hiring, continuing to employ, or refusing to hire an unauthorized alien if the information obtained under paragraph (b) indicates that the person's work authorization status was not that of an unauthorized alien.

(f) For purposes of this subsection, compliance with paragraph (b) creates a rebuttable presumption that a private employer did not knowingly employ an unauthorized alien in violation of subsection (1).

(5) ~~(2)~~ PENALTIES.—

(a) The first violation of subsection (1) is ~~shall be~~ a noncriminal violation as defined in s. 775.08(3) and, upon conviction, is ~~shall be~~ punishable as provided in s. 775.082(5) by a civil fine of not more than $500, regardless of the number of unauthorized aliens with respect to whom the violation occurred.

(b) ~~(3)~~ Any person who has been previously convicted for a violation of subsection (1) and who thereafter violates subsection (1) is~~, shall be~~ guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. Any such subsequent violation of this section constitutes ~~shall constitute~~ a separate offense with respect to each unauthorized alien.

(6) CONSTRUCTION.—This section shall be enforced without

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001082

regard to race, color, or national origin and shall be construed in a manner so as to be fully consistent with any applicable federal laws or regulations.

Section 2. This act shall take effect July 1, 2020.

Subject: Early Bird Rate for 2019 NCOIL Annual National Meeting Closes in ONE Week!

View this email in your browser

Dear NCOIL Participant:

We write today to remind you that registration for the 2019 NCOIL Annual Meeting at the JW Marriott in Austin, TX from December 10th – 13th is now open here. The early bird rate closes on October 14th.

A tentative meeting schedule is posted here.

NCOIL will celebrate its' 50th year at this meeting.

This meeting has been approved for 15.25 credits of Texas CLE.

The Annual Meeting will begin at the conclusion of the NAIC meeting at the same location. Please plan to arrive in time for the Welcome Reception on the evening of December 10th. There will also be an optional tour of the Texas state capitol on that afternoon.

A full day of policy committees and general sessions will start with the busy Welcome Breakfast on December 11th.

If you are attending the NAIC meeting prior to the NCOIL meeting, we kindly ask that you make a hotel reservation beginning on December 10th with the NCOIL hotel code. You can do this by calling the hotel at 512-474-4744. If you have already made your hotel reservations with NAIC, we ask that you call the hotel with your confirmation code to amend them. You will not need to physically check out of the hotel room and will receive one hotel bill at the conclusion of your stay.

The hotel block closes on November 25th. The link for legislators is here - and the link for general participants is here.

Please do not hesitate to reach out to us with any questions at the NCOIL National Office.

AMERICAN OVERSIGHT

A bill to be entitled

An act relating to the verification of employment eligibility; amending s. 448.09, F.S.; providing definitions; requiring public employers, contractors, and subcontractors to register with and use the E-Verify system; prohibiting such entities from entering into a contract unless each party to the contract registers with and uses the E-Verify system; requiring a subcontractor to provide a contractor with a certain affidavit; requiring a contractor to maintain a copy of such affidavit; authorizing the termination of a contract under certain conditions; providing that such termination is not a breach of contract; authorizing a challenge to such termination; requiring private employers to verify the employment eligibility of newly hired employees beginning on a specified date; providing an exception; providing acceptable methods for verifying employment eligibility; requiring a private employer to provide a public employer with a certain affidavit in order to bid on or otherwise contract with the public employer; authorizing the termination of a contract under certain conditions; providing that such termination is not a breach of contract; providing certain liability if a contract is terminated; providing specified immunity and

DRAFT

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001103

nonliability for private employers; creating a rebuttable presumption for private employers; providing construction; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 448.09, Florida Statutes, is amended to read:

448.09 Unauthorized aliens; employment prohibited.—

(1) EMPLOYMENT ELIGIBILITY.—It is ~~shall be~~ unlawful for any person or entity to knowingly ~~to~~ employ, hire, recruit, or refer, either for herself or himself or on behalf of another, for private or public employment within the state, an alien who is not duly authorized to work by the immigration laws or the Attorney General of the United States.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Contractor" means a person or entity that has entered or is attempting to enter into a contract with a public employer to provide labor, supplies, or services to such employer in exchange for salary, wages, or other remuneration.

(b) "Employee" means a person filling an authorized and established position who performs labor or services for a public or private employer in exchange for salary, wages, or other remuneration.

(c) "E-Verify system" means an Internet-based system

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001104

operated by the United States Department of Homeland Security that allows participating employers to electronically verify the employment eligibility of newly hired employees.

(d) "Legal alien" means a person who is or was lawfully present or permanently residing legally in the United States and allowed to work at the time of employment and remains so throughout the duration of that employment.

(e) "Private employer" means a person or entity that employs persons to perform labor or services in exchange for salary, wages, or other remuneration. The term does not include:

1. A public employer;

2. The occupant or owner of a private residence who hires:

a. Casual labor, as defined in s. 443.036, to be performed entirely within the private residence; or

b. A licensed independent contractor, as defined in federal laws or regulations, to perform a specified portion of labor or services; or

3. An employee leasing company licensed under part XI of chapter 468 that enters into a written agreement or understanding with a client company which places the primary obligation for compliance with this section upon the client company. In the absence of a written agreement or understanding, the employee leasing company is responsible for compliance with this section. Such employee leasing company shall, at all times, remain an employer as otherwise defined in federal laws or

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001105

regulations.

(f) "Public employer" means an agency within state, county, or municipal government that employs persons who perform labor or services for that employer in exchange for salary, wages, or other remuneration or that enters or attempts to enter into a contract with a contractor.

(g) "Subcontractor" means a person or entity that provides labor, supplies, or services to or for a contractor or another subcontractor in exchange for salary, wages, or other remuneration.

(h) "Unauthorized alien" means a person who is not authorized under federal law to be employed in the United States, as described in 8 U.S.C. s. 1324a(h)(3). The term shall be interpreted consistently with that section and any applicable federal rules or regulations.

(3) PUBLIC EMPLOYERS, CONTRACTORS, AND SUBCONTRACTORS.—

(a) Beginning January 1, 2021, every public employer, contractor, and subcontractor shall register with and use the E-Verify system to verify the work authorization status of all newly hired employees. A public employer, contractor, or subcontractor may not enter into a contract unless each party to the contract registers with and uses the E-Verify system.

(b)1. If a contractor enters into a contract with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001106

employ, contract with, or subcontract with an unauthorized alien.

2. The contractor shall maintain a copy of such affidavit for the duration of the contract.

(c)1. A public employer, contractor, or subcontractor who has a good faith belief that a person or entity with which it is contracting has knowingly violated subsection (1) shall terminate the contract with the person or entity.

2. A public employer that has a good faith belief that a subcontractor knowingly violated this subsection, but the contractor otherwise complied with this subsection, shall promptly notify the contractor and order the contractor to immediately terminate the contract with the subcontractor.

3. A contract terminated under subparagraph 1. or subparagraph 2. is not a breach of contract and may not be considered as such.

(d) A public employer, contractor, or subcontractor may file an action with a circuit or county court to challenge a termination under paragraph (c) no later than 20 calendar days after the date on which the contract was terminated.

(e) If a public employer terminates a contract with a contractor under paragraph (c), the contractor may not be awarded a public contract for at least 1 year after the date on which the contract was terminated.

(4) PRIVATE EMPLOYERS.—

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001107

(a) Beginning January 1, 2021, a private employer shall, after making an offer of employment which has been accepted by a person, verify such person's employment eligibility. A private employer is not required to verify the employment eligibility of a continuing employee hired before January 1, 2021. However, if a person is a contract employee retained by a private employer, the private employer must verify the employee's employment eligibility upon the renewal or extension of his or her contract.

(b) A private employer shall verify a person's employment eligibility by:

1. Using the E-Verify system; or

2. Requiring the person to provide a picture identification card that complies with the Real ID Act of 2005, Pub. L. No. 109-13, and a certified copy of one of the following documents:

a. A United States birth certificate;

b. A certificate of naturalization;

c. A certificate of citizenship;

d. An alien registration receipt card; or

e. A United States immigration form I-94 stamped to indicate "employment authorized."

The private employer must retain a copy of the documents provided under this subparagraph for at least 3 years after the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001108

person's initial date of employment.

(c) A private employer may not bid on or otherwise contract with a public employer for the performance of labor or services in this state unless the private employer provides the public employer with an affidavit stating that:

1. The private employer is registered with and uses the E-Verify system to verify that all newly hired employees are legal citizens of the United States or legal aliens.

2. The private employer will continue to use the E-Verify system to verify the employment eligibility of all newly hired employees for the duration of the contract.

3. The private employer requires all subcontractors to provide an affidavit stating compliance with subparagraphs 1. and 2.

(d)1. A private employer that violates this subsection may be subject to termination of its public contract, if applicable, and may not be awarded a public contract for at least 1 year after the date on which the contract was terminated. The termination of the contract is not a breach of contract and may not be considered as such.

2. A private employer is liable for any additional costs incurred by the public employer as a result of the termination of the contract.

(e) A private employer that complies with this subsection may not be held civilly or criminally liable under state law for

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001109

hiring, continuing to employ, or refusing to hire an unauthorized alien if the information obtained under paragraph (b) indicates that the person's work authorization status was not that of an unauthorized alien.

(f) For purposes of this subsection, compliance with paragraph (b) creates a rebuttable presumption that a private employer did not knowingly employ an unauthorized alien in violation of subsection (1).

(5) ~~(2)~~ PENALTIES.—

(a) The first violation of subsection (1) is ~~shall be~~ a noncriminal violation as defined in s. 775.08(3) and, upon conviction, is ~~shall be~~ punishable as provided in s. 775.082(5) by a civil fine of not more than $500, regardless of the number of unauthorized aliens with respect to whom the violation occurred.

(b) ~~(3)~~ Any person who has been previously convicted for a violation of subsection (1) and who thereafter violates subsection (1) is~~, shall be~~ guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. Any such subsequent violation of this section constitutes ~~shall constitute~~ a separate offense with respect to each unauthorized alien.

(6) CONSTRUCTION.—This section shall be enforced without regard to race, color, or national origin and shall be construed in a manner so as to be fully consistent with any applicable

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001110

federal laws or regulations.

Section 2. This act shall take effect July 1, 2020.

AMERICAN OVERSIGHT

FAQ SB 898 FIGA Limits

Q. What is FIGA?

A. The Florida Insurance Guarantee Association. Established by the legislature in 1970 to protect admitted carrier policyholders should an admitted carrier become insolvent and unable to pay claims. FIGA is the safety net for Florida's admitted carrier policyholders.

Q. How long has the FIGA limit been at $100k per condominium unit?

A. It has been 50 years, since the inception of FIGA in 1970 the level of coverage has not increased. The cost to rebuild or repair has gone up significantly in the last 50 years.

Q. Has the FIGA limit for single family homes been increased since 1970?

A. Yes it has, it has been increased to $500k in the last several years.

Q. What is the impact on Florida's Condominium Associations if this limit is not increased?

A. Currently in Florida, due to the lack of an increase in the FIGA cap for Condominium Associations, condominiums in Florida are severely under insured. The current FIGA cap would not cover the cost to rebuild the condominium in the event of a major storm like we saw in the panhandle. Because of the recent storms of 2017 and 2018, the inadequacy of the current FIGA limit for condominiums has been exposed. SB 898's intention is to address this inadequacy before not after a catastrophic storm impacts Florida.

Q. How does SB 898 address the lack of coverage for condominium associations?

A. By increasing the FIGA cap on condominiums from $100k to $200k per unit. Condominium owners in Florida will be afforded needed safety net protections to be made whole.

Q. How does FIGA generate the additional revenue needed to cover the increase in coverage?

A. SB 898 affords FIGA the ability to increase its assessment points and bonding ability from 2 to 4 points to cover the increase in coverage.

Q. When can FIGA access these additional assessment points?

A. As prescribed by Florida law, FIGA can only access these additional points in cases of extreme loss and the policy holder's admitted carrier has become insolvent. To sum it up, only in the event of a major category 5 storm would these additional assessment points be accessed.

AMERICAN OVERSIGHT

Q. Dos this bill deal with surplus lines coverage in any way?

A. No, FIGA only applies to admitted carriers.

Q. How does current law affect the states effort to depopulate Citizens?

A. Currently, by not having adequate FIGA limits commercial residential policy holders are unwilling to move out of citizens to an admitted carrier for fear of not having adequate coverage. SB 898 would help to depopulate Citizens and incentive policy holders to move into the private market place.

Subject: FIBA Southwest Florida Showcase Invitation

Hello, Josh.

Per my conversation with Emmabella a few minutes ago, I met with Sen. Gruters on August 29 in Venice to update him on the work our accelerator is doing. I mentioned that we would be having a special showcase event and panel in his district and he asked that I keep him in the loop. That event is scheduled for Thursday, November 21 at the USF Sarasota-Manatee campus. – 9:30 to 11:30 AM. The invitation and event details are below. Please contact me with any questions. If Sen. Gruters can't make it, perhaps someone from your office will join us. Thank you for your help on this and have a great day!

Mark

February 11, 2020

The Honorable Joe Gruters
Florida Senate
324 Senate Office Building
404 South Monroe Street
Tallahassee, FL 32399-1100

RE: Support SB 1828: Litigation Financing Consumer Protection
When the 2020 Florida Chamber Business Agenda Wins, Florida Wins

Dear Senator Gruters:

The Florida Chamber of Commerce urges you to **support SB 1828,** related to litigation financing consumer protection. This bill, proposed by Senator Jeff Brandes, will be heard in the Senate Banking and Insurance Committee on Tuesday, February 11, 2020.

Litigation financing is a newer industry that has emerged to provide loans to consumers in exchange for a portion of the recovery or proceeds from a civil claim. These loans are up-front cash for the consumer, but often come with very high interest rates and leave the borrower with little to no recovery by the conclusion of the case. In fact, these loans sometimes force consumers to not act in their best interest and settle the case because the amount of the settlement offer does not leave the consumer with any recovery money after the litigation financier and other liens are paid.

SB 1828 is a consumer friendly bill to regulate litigation financing companies. This bill creates a registration process and requires the posting of a surety bond to do business in the state. The bill also requires a series of disclosures to the consumer, including the amount of the loan, an itemized list of all fees and charges, the interest rate, and the total amount due in 6 month intervals for 3 years. The bill also requires disclosure that the consumer owes nothing if they lose the case, or if the amount awarded is less than the loan, that the litigation financier will accept a reduced sum as full payment. Additionally, the consumer has the ability to cancel the contract within 5 days and return the loan.

This bill is important to Florida's business community because it:

- Prevents gamesmanship by litigation financing companies to take advantage of consumers;
- Provides transparency and protections to consumers that might borrow money from litigation financiers; and
- Requires notification to the other party or defense that a third party has a contingent right to receive any proceeds from the claim.

The Florida Chamber urges you to **support SB 1828**, and will consider votes on this legislation, and any substantive amendments to it in committee or on the floor, in our annual *How They Voted* report card. Because of the importance of this issue to employers across the state, our Board of Directors has determined that this bill, and any substantive amendments to it in committee or on the floor, will be counted ***twice*** on our legislative report card. The grade that you earn will be based on your voting record on the issues, such as this one. We will make every effort to notify you prior to a vote that may be included in our annual Legislative Report Card. If you have any questions about this or other issues, please do not hesitate to contact me.

Regards,

Frank C. Walker, III
Vice President of Government Affairs

CC: Charles Caulkins, Chair, Florida Chamber of Commerce
Mark Wilson, President & CEO, Florida Chamber of Commerce
David Hart, Executive Vice President, Florida Chamber of Commerce

Subject: Florida Chamber Creates New Political Initiatives

2020 ELECTION

The Florida Chamber Unveils the Free Enterprise Fund and the Florida Institute for Political Leadership

At this year's Future of Florida Forum, the Florida Chamber announced the expansion of the Florida Chamber Political Institute (FCPI) and the creation of two new political initiatives.

FCPI is the research-based arm of the Florida Chamber's political operation. FCPI travels statewide and interviews hundreds of new candidates, identifying pro-jobs, pro-business candidates. These efforts are vital in ensuring the right candidates are identified, but as campaigns have changed over the years, the Chamber realizes it's time to increase the scope of the Florida Chamber's political efforts.

David Hart, Executive Vice President of the Florida Chamber of Commerce shared that in 2018, Florida saw two key races, the Governor's race and the U.S. Senate race, become the two most expensive statewide campaigns in the entire country. In an effort to ensure the business community's interests remain paramount, the Florida Chamber is announcing the creation of the Free Enterprise Fund. The fund will unite Florida's business community in support of candidates who share our belief in free enterprise.

Florida Institute for Political Leadership

During a session entitled, Better Candidates Equal a Better Future, Rick Asnani, President of Cornerstone Solutions Florida identified the reasons it is imperative for the business community to continue to recruit and support the right candidates at all levels of government. To accomplish this, the Florida Chamber is launching the Florida Institute for Political Leadership (FIPL).

FIPL is a non-partisan effort to recruit, train, and provide campaign training to business-friendly candidates for a wide array of local government offices. Anyone interested in running for an elected position can use the FIPL portal to identify what positions have upcoming elections. The heart of the Institute is the leadership and campaign training offered at no cost to the participants we are partnering with to improve Florida's economic future. The Florida Chamber will partner with local chambers to offer these trainings in communities across the state.

Get Involved Today

Visit the Florida Chamber Political Institute for more information on how you can get involved.

For more information on the Florida Chamber Free Enterprise Fund, contact David Hart at dhart@flchamber.com.

Visit the Florida Institute For Political Leadership to find out how you can get more involved in elections.

Appropriations Project Request - Fiscal Year 2020-21

For projects meeting the Definition of House Rule 5.14

1. Title of Project: FLORIDA FIRST ROBOTICS TEAM GRANT
2. Date of Submission: 11/13/2019
3. House Member Sponsor: Chip LaMarca
   Members Copied:

4. DETAILS OF AMOUNT REQUESTED:

a. Has funding been provided in a previous state budget for this activity? Yes
   If answer to 4a is "No" skip 4b and 4c and proceed to 4d, Col. E
b. What is the most recent fiscal year the project was funded? 2018-19
c. Were the funds provided in the most recent fiscal year subsequently vetoed? No
d. Complete the following Project Request Worksheet to develop your request:

FY:	Input Prior Year Appropriation for this project for FY 2019-20 (If appropriated in 2019-20 enter the appropriated amount, even if vetoed.)			Develop New Funds Request for FY 2020-21 (Requests for additional RECURRING funds are prohibited.)		
Column:	A	B	C	D	E	F
Funds Description:	Prior Year Recurring Funds	Prior Year Nonrecurring Funds	Total Funds Appropriated (Recurring plus Nonrecurring: column A + column B)	Recurring Base Budget (Will equal non-vetoed amounts provided in Column A)	**Additional Nonrecurring Request**	**TOTAL Nonrecurring plus Recurring Base Funds** (Will equal the amount from the Recurring base in Column D plus the Additional Nonrecurring Request in Column E.)
Input Amounts:					900,000	900,000

5. Are funds for this issue requested in a state agency's Legislative Budget Request submitted for FY 2020-21? No
   5a. If yes, which state agency?
   5b. If no, which is the most appropriate state agency to place an appropriation for the issue being requested? Department of Education
   5c. Has the appropriate state agency for administering the funding, if the request were appropriated, been contacted? No
   5d. Describe penalties for failing to meet deliverables or performance measures which the agency should provide in its contract to administer the funding if appropriated.
   Deobligate a portion of the funds for future grants, but taking into consideration extenuating circumstances

☐h. Construction/Renovation/Land/Planning Engineering		
TOTAL		900,000

13. For the Fixed Capital Costs requested with this issue (In Question 12, category "h. Fixed Capital Outlay" was selected), what type of ownership will the facility be under when complete? (Select one correct option)

○For Profit
○Non Profit 501(c) (3)
○Non Profit 501(c) (4)
○Local Government (e.g., police, fire or local government buildings, local roads, etc.)
○State agency owned facility (For example: college or university facility, buildings for public schools, roads in the state transportation system, etc.)
○Other (Please describe)

14. Is the project request an information technology project?

No

15. Is there any documented show of support for the requested project in the community including public hearings, letters of support, major organizational backing, or other expressions of support?

Yes

15a. Please Describe:

We have a video created by the teams: https://firstinflorida.org/ that has been accessed more than 4,190 times. In previous years, more than 210 letters were sent to Representatives and Senators from teams all across the state of Florida, thanking them for the support received and asking for their continued support.

16. Has the need for the funds been documented by a study, completed by an independent 3rd party, for the area to be served?

Yes

AMERICAN OVERSIGHT
Tracking #: 17325

16a. Please Describe:

The U.S. is ranked 20th out of 30 in high school graduation rates among industrialized nations.[1] Standardized test scores from 30 nations rank 14-year-olds in the U.S. 25th in math and 21st in science.[2] [1 & 2] National Science Board (May, 2010). Preparing the Next Generation of STEM Innovators: Identifying and Developing Our Nation's Human Capital. National Science Foundation.

17. Will the requested funds be used directly for services to citizens?

Yes

17a. What are the activities and services that will be provided to meet the purpose of the funds?

The funds will directly impact 9-12th grade students in their ability to participate and compete in the FIRST Robotics Competition and the FIRST Tech Challenge by lowering the barrier to entry by paying some competition registration costs. It will also support the competitions in which students compete with the robot designed specifically for that year's challenge.

17b. Describe the direct services to be provided to the citizens by the funding requested.

Through the participation in the FIRST Robotics Competition and FIRST Tech Challenge program, students learn many of the required skills needed not only to develop a competitive robot, but also to manage a small business. We also provide a location where registered teams can participate in the robotics competition challenge designed for that year.

17c. Describe the target population to be served (i.e., "the majority of the funds requested will serve these target populations or groups."). Select all that apply to the target population:

- ☐Elderly persons
- ☐Persons with poor mental health
- ☐Persons with poor physical health
- ☐Jobless persons
- ☑Economically disadvantaged persons
- ☑At-risk youth
- ☐Homeless
- ☐Developmentally disabled
- ☐Physically disabled
- ☐Drug users (in health services)
- ☐Preschool students
- ☐Grade school students
- ☑High school students
- ☐University/college students

AMERICAN OVERSIGHT
Tracking #: 17325

☐Currently or formerly incarcerated persons
☐Drug offenders (in criminal Justice)
☐Victims of crime
☐General (The majority of the funds will benefit no specific group)
☐Other (Please describe)

17d. How many in the target population are expected to be served?
○< 25
○25-50
○51-100
○101-200
○201-400
○401-800
⊙>800

18. What benefits or outcomes will be realized by the expenditure of funds requested? (Select each Benefit/Outcome that applies)

Benefit or Outcome	Provide a specific measure of the benefit or outcome	Describe the method for measuring level of benefit
☐Improve physical health		
☐Improve mental health		
☐Enrich cultural experience		
☐Improve agricultural production/promotion/education		
☑Improve quality of education	Number of teams that register for the 2020 FIRST Robotics Competition and FIRST Tech Challenge Season in Florida.	Registration numbers for 2020. Compare number of teams before funding to number of teams after funding.
☐Enhance/preserve/improve environmental or fish and wildlife quality		
☐Protect the general public from harm (environmental, criminal, etc.)

Appropriations Project Request - Fiscal Year 2020-21

For projects meeting the Definition of House Rule 5.14

1. Title of Project: FLORIDA FIRST ROBOTICS TEAM GRANT
2. Date of Submission: 11/13/2019
3. House Member Sponsor: Chip LaMarca
   Members Copied:

4. DETAILS OF AMOUNT REQUESTED:

a. Has funding been provided in a previous state budget for this activity? Yes
   If answer to 4a is "No" skip 4b and 4c and proceed to 4d, Col. E
b. What is the most recent fiscal year the project was funded? 2018-19
c. Were the funds provided in the most recent fiscal year subsequently vetoed? No
d. Complete the following Project Request Worksheet to develop your request:

FY:	Input Prior Year Appropriation for this project for FY 2019-20 (If appropriated in 2019-20 enter the appropriated amount, even if vetoed.)			Develop New Funds Request for FY 2020-21 (Requests for additional RECURRING funds are prohibited.)		
Column:	A	B	C	D	E	F
Funds Description:	Prior Year Recurring Funds	Prior Year Nonrecurring Funds	Total Funds Appropriated (Recurring plus Nonrecurring: column A + column B)	Recurring Base Budget (Will equal non-vetoed amounts provided in Column A)	**Additional Nonrecurring Request**	**TOTAL Nonrecurring plus Recurring Base Funds** (Will equal the amount from the Recurring base in Column D plus the Additional Nonrecurring Request in Column E.)
Input Amounts:					900,000	900,000

5. Are funds for this issue requested in a state agency's Legislative Budget Request submitted for FY 2020-21? No
   5a. If yes, which state agency?
   5b. If no, which is the most appropriate state agency to place an appropriation for the issue being requested? Department of Education
   5c. Has the appropriate state agency for administering the funding, if the request were appropriated, been contacted? No
   5d. Describe penalties for failing to meet deliverables or performance measures which the agency should provide in its contract to administer the funding if appropriated.
   Deobligate a portion of the funds for future grants, but taking into consideration extenuating circumstances

AMERICAN OVERSIGHT

11. **Program Performance**

a. What specific purpose or goal will be achieved by the funds requested?

Allow more High School students to participate in FIRST Robotics Competition and support the infrastructure needed to provide the program in the State.

b. What activities and services will be provided to meet the intended purpose of these funds?

The funds will directly impact 9-12th grade students in their ability to participate and compete in the FIRST Robotics Competition by lowering the barrier to entry by paying some competition registration costs. It will also support the events in which students compete with the robot designed specifically for that year's challenge.

c. What direct services will be provided to citizens by the appropriation project?

Through the participation in the FIRST Robotics Competition program, students learn many of the required skills needed not only to develop a competitive robot, but also to manage a small business. We also provide a location where registered teams can participate in the robotics competition challenge designed for that year.
Services include supporting competition venue, defraying expenditures of teams so that students can focus on STEM and not in additional fundraising activities. In many cases these funds will be the difference between a team existing or not, so funding provides a service of constructive, hands on, educational experience for young people.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is high school students, economically disadvantaged youth persons, at-risk youth. We expect to serve over 3,000 students next year.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The quality of education will be improved, generating more students that when they graduate from High School, they are interested in following a STEM career. The methodology will be to survey Seniors attending the FL Regionals and count how many are following a STEM path. The first year is the base line, and the results will be compared versus following years.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

De-obligate a portion of the funds for future grants, but taking into consideration extenuating circumstances.

GOING BACK TO THE MOON

Florida Putting a Woman On the Moon By 2024

At the Florida Chamber Foundation's Future of Florida Forum, Frank DiBello, President & CEO of Space Florida and Mark Wiese, Gateway Logistics Element Manager from NASA's Kennedy Space Center, gave more information on the Artemis program, NASA's plan to put the first woman on the moon by 2024.

The Artemis program will also seek to put the first human on Mars and develop support systems for both endeavors.

The economic impact to Florida's Space Coast has enormous potential as NASA will team with the private sector and international partners to develop the material support needed for these missions.

"In the next decade, we expect over 10,000 satellites to be launched to support our insatiable demand for bandwidth globally and to connect all of the people in the world who are now unconnected to the internet," said Frank DiBello, President and CEO of Space Florida. "More importantly there will be companies going up into lower earth orbit to create research and manufacture value in space. Our vision is for Florida to be the economic center of that activity."

ENTERPRISE FLORIDA

Florida's Strategy to Diversify the Economy and Grow High Wage Jobs

The Florida Chamber has consistently advocated for fully funding Enterprise Florida. Enterprise Florida is the principle economic development organization for the state of Florida, with a mission to diversify Florida's economy by recruiting new businesses to the state and retain and expand existing industries and businesses.
At today's Future of Florida Forum, **Jamal Sowell, Florida's Secretary of Commerce and President and CEO of Enterprise Florida** explained how Florida's economy can thrive and grow high wage jobs.
"Workforce and talent are the best incentives Florida has to offer," said Secretary Sowell. "A cohesive pipeline of skills development does not just make sense for businesses who are seeking qualified and trained workers, it is also a signal of hope to Floridians of all walks of life. A highly skilled workforce demands a cohesive statewide strategy that ignores no socio-economic class and sets up students for success."

To: Kerr, GeeDee <Kerr.GeeDee@flsenate.gov>
Subject: Free Webinar: Public Communication Aspects of Deploying Connected and Automated Vehicles

logo

Positive Message. Positive Engagement. Positive Opinion.

img

Global-5 is offering a free webinar for transportation officials, planners and engineers on how to communicate with the public about connected and automated vehicles. The webinar will be held Friday, December 13, from 12 p.m. to 1 p.m. Eastern Time. Advance registration is requested but not required.

OVERVIEW

Transportation pros understand the benefits of connected and automated vehicles, but communicating that knowledge to the public can be a challenge. Global-5 has been a key player in connected and automated vehicle deployments-and we've learned a lot along the way. In this webinar, we'll offer tips and tools for engaging the public for a successful deployment. Topics will include gauging your community's readiness for connected and automated vehicles; communicating the benefits; building public acceptance; and recruiting and training participants.

ABOUT US

Global-5 is a full-service public relations and marketing firm with more than 20 years of experience exceeding client expectations in government and in the transportation, construction, automotive

AMERICAN OVERSIGHT

and emerging technologies industries. A nationwide leader in communicating about connected and automated vehicles, Global-5 has performed outreach, knowledge transfer, participant recruitment and training services for transportation agencies at the federal, state and local levels.

Attachment(s): "billdraft75494.DOCX"

Hey Vickie,

Please see the below comments for the bill draft attached.

Let us know if you have any questions or concerns.

Thank you!

Tyler C. Russell
Deputy Legislative Affairs Director
Office of the Governor
850.445.0709

1. Section 252.941 (lines 64-71) should be removed from the bill altogether. This is not a statute administered by DEP. It's administered by DEM. In addition, the fine is criminal and this legislation is designed to address only civil and administrative penalties (*with the exception of the criminal fines necessary to comply with federal requirements for our delegated programs in 373.430 and 403.161).
2. Section 376.302 (lines 329-342) should also be removed from the bill altogether. There is no civil penalty amount being increased because, instead of specifying an amount, the statute cross references section 403.141 and the penalty amount in 403.141 is already being adjusted at line 787. So nothing needs to be done to section 376.302. The proposed amendments to the criminal provision is not consistent with the legislation because, again, it is designed to address only civil and administrative penalty provisions (*with the exception of the criminal fines necessary to comply with federal requirements for our delegated programs in 373.430 and 403.161).
3. There is a typo at line 96. Instead of $4750, it should be $750.
4. In lines 65, 165, 173, 179, 331, 334, 778, 797, 800, 808, 815-816, the legislation changes the phrase "commits violations specified in …" to "violates." This is technically incorrect because, you cannot "violate" the cross-referenced sections --- they all say "It is a violation to do X," not "You cannot do X." You can violate the latter, but not the former.

Please note that under Florida law correspondence sent to the Governor's Office, which is not confidential or exempt pursuant to chapter 119 of the Florida Statutes, is a public record made available upon request.

23-01448-20

A bill to be entitled

An act relating to environmental enforcement; amending ss. 161.054, 252.941, 258.397, 258.46, 373.129, 373.209, 373.430, 376.065, 376.071, 376.16, 376.25, 376.302, 377.37, 378.211, 403.086, 403.121, 403.141, 403.161, 403.413, 403.7234, 403.726, 403.727, and 403.93345, F.S.; increasing the civil penalties for violations of certain provisions relating to beach and shore construction, the Accidental Release Prevention Program, the Biscayne Bay Aquatic Preserve, aquatic preserves, the state water resource plan, artesian wells, pollution, operating a terminal facility without discharge prevention and response certificates, discharge contingency plans for vessels, the Pollutant Discharge Prevention and Control Act, the Clean Ocean Act, the pollution of surface and ground waters, the regulation of oil and gas resources, the Phosphate Land Reclamation Act, sewage disposal facilities, pollution control, reasonable costs and expenses for pollution releases, necessary permits, dumping litter, small quantity generators, the abatement of imminent hazards caused by hazardous substances, hazardous waste generators, transporters, or facilities, and coral reef protection, respectively; providing that each day that certain violations are not remediated constitutes a separate offense; making technical changes; reenacting s. 252.940(1)(c), F.S., to incorporate the amendment made to s. 252.941, F.S., in a reference thereto;

AMERICAN OVERSIGHT

reenacting s. 823.11(5), F.S., to incorporate the amendment made to s. 376.16, F.S., in a reference thereto; reenacting s. 376.303(1)(d), F.S., to incorporate the amendment made to s. 376.302, F.S., in a reference thereto; reenacting ss. 403.077(5), 403.131(2), 403.4154(3)(d), and 403.860(5), F.S., to incorporate the amendment made to s. 403.121, F.S., in a reference thereto; reenacting ss. 403.708(10), 403.7191(7), and 403.811, F.S., to incorporate the amendment made to s. 403.141, F.S., in a reference thereto; reenacting s. 403.7255(2), F.S., to incorporate the amendment made to s. 403.161, F.S., in a reference thereto; reenacting s. 403.7186(8), F.S., to incorporate the amendment made to ss. 403.141 and 403.161, F.S., in references thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 161.054, Florida Statutes, is amended to read:

161.054 Administrative fines; liability for damage; liens.—

(1) In addition to the penalties provided for in ss. 161.052, 161.053, and 161.121, any person, firm, corporation, or governmental agency, or agent thereof, refusing to comply with or willfully violating ~~any of the provisions of~~ s. 161.041, s. 161.052, or s. 161.053, or any rule or order prescribed by the department thereunder, shall incur a fine for each offense in an amount up to $15,000 ~~$10,000~~ to be fixed, imposed, and collected

AMERICAN OVERSIGHT

by the department. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 2. Subsection (2) of section 252.941, Florida Statutes, is amended to read:

252.941 Prohibitions, violations, penalties, intent.—

(2) A ~~Any~~ person who willfully violates ~~commits a violation specified in~~ subsection (1) commits ~~is guilty of~~ a misdemeanor of the first degree, punishable as provided in s. 775.083(1)(g) by a fine of not more than $15,000 ~~$10,000~~ for each offense. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 3. Subsection (7) of section 258.397, Florida Statutes, is amended to read:

258.397 Biscayne Bay Aquatic Preserve.—

(7) ENFORCEMENT.—~~The provisions of~~ This section may be enforced in accordance with ~~the provisions of~~ s. 403.412. In addition, the Department of Legal Affairs may ~~is authorized to~~ bring an action for civil penalties of $7,500 ~~$5,000~~ per day against any person, natural or corporate, who violates ~~the provisions of~~ this section or any rule or regulation issued hereunder. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense. Enforcement of applicable state regulations shall be supplemented by the Miami-Dade County Department of Environmental Resources Management through the creation of a full-time enforcement presence along the Miami River.

AMERICAN OVERSIGHT

Section 4. Section 258.46, Florida Statutes, is amended to read:

258.46 Enforcement; violations; penalty.—~~The provisions of~~ This act may be enforced by the Board of Trustees of the Internal Improvement Trust Fund or in accordance with ~~the provisions of~~ s. 403.412. However, any violation by any person, natural or corporate, of ~~the provisions of~~ this act or any rule or regulation issued hereunder is ~~shall be~~ further punishable by a civil penalty of not less than $4,750 ~~$500~~ per day or more than $7,500 ~~$5,000~~ per day of such violation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 5. Subsections (5) and (7) of section 373.129, Florida Statutes, are amended, to read:

373.129 Maintenance of actions.—The department, the governing board of any water management district, any local board, or a local government to which authority has been delegated pursuant to s. 373.103(8), is authorized to commence and maintain proper and necessary actions and proceedings in any court of competent jurisdiction for any of the following purposes:

(5) To recover a civil penalty for each offense in an amount not to exceed $15,000 ~~$10,000~~ per offense. Until a violation is resolved by order or judgment, each date during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(a) A civil penalty recovered by a water management district pursuant to this subsection shall be retained and used

AMERICAN OVERSIGHT

exclusively by the water management district that collected the money. A civil penalty recovered by the department pursuant to this subsection must be deposited into the Water Quality Assurance Trust Fund established under s. 376.307.

(b) A local government that is delegated authority pursuant to s. 373.103(8) may deposit a civil penalty recovered pursuant to this subsection into a local water pollution control program trust fund, notwithstanding ~~the provisions of~~ paragraph (a). However, civil penalties that are deposited in a local water pollution control program trust fund and that are recovered for violations of state water quality standards may be used only to restore water quality in the area that was the subject of the action, and civil penalties that are deposited in a local water pollution control program trust fund and that are recovered for violation of requirements relating to water quantity may be used only to purchase lands and make capital improvements associated with surface water management, or other purposes consistent with the requirements of this chapter for the management and storage of surface water.

(7) To enforce ~~the provisions of~~ part IV of this chapter in the same manner and to the same extent as provided in ss. 373.430, 403.121(1) and (2), 403.131, 403.141, and 403.161.

Section 6. Subsection (3) of section 373.209, Florida Statutes, is amended to read:

373.209 Artesian wells; penalties for violation.—

(3) Any person who violates ~~any provision of~~ this section is ~~shall be~~ subject to either:

(a) The remedial measures provided for in s. 373.436; or

(b) A civil penalty of $150 ~~$100~~ a day for each and every

AMERICAN OVERSIGHT

day of such violation and for each and every act of violation. The civil penalty may be recovered by the water management board of the water management district in which the well is located or by the department in a suit in a court of competent jurisdiction in the county where the defendant resides, in the county of residence of any defendant if there is more than one defendant, or in the county where the violation took place. The place of suit shall be selected by the board or department, and the suit, by direction of the board or department, shall be instituted and conducted in the name of the board or department by appropriate counsel. The payment of any such damages does not impair or abridge any cause of action which any person may have against the person violating ~~any provision of~~ this section.

Section 7. Subsections (2) through (5) of section 373.430, Florida Statutes, are amended to read:

373.430 Prohibitions, violation, penalty, intent.—

(2) A person who ~~Whoever~~ commits a violation specified in subsection (1) is liable for any damage caused and for civil penalties as provided in s. 373.129.

(3) A ~~Any~~ person who willfully violates ~~commits a violation specified in~~ paragraph (1)(a) commits ~~is guilty of~~ a felony of the third degree, punishable as provided in ss. 775.082(3)(e) and 775.083(1)(g), by a fine of not more than $50,000 or by imprisonment for 5 years, or by both, for each offense. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(4) A ~~Any~~ person who violates ~~commits a violation specified in~~ paragraph (1)(a) or paragraph (1)(b) due to reckless

AMERICAN OVERSIGHT

indifference or gross careless disregard commits ~~is guilty of~~ a misdemeanor of the second degree, punishable as provided in ss. 775.082(4)(b) and 775.083(1)(g), by a fine of not more than $10,000 ~~$5,000~~ or 60 days in jail, or by both, for each offense.

(5) A ~~Any~~ person who willfully violates ~~commits a violation specified in~~ paragraph (1)(b) or who violates paragraph (1)(c) commits ~~is guilty of~~ a misdemeanor of the first degree, punishable as provided in ss. 775.082(4)(a) and 775.083(1)(g), by a fine of not more than $10,000 or by 6 months in jail, or by both, for each offense.

Section 8. Paragraphs (a) and (e) of subsection (5) of section 376.065, Florida Statutes, are amended to read:

376.065 Operation of terminal facility without discharge prevention and response certificate prohibited; penalty.—

(5)(a) A person who violates this section or the terms and requirements of such certification commits a noncriminal infraction. The civil penalty for any such infraction shall be $750 ~~$500~~, except as otherwise provided in this section.

(e) A person who elects to appear before the county court or who is required to so appear waives the limitations of the civil penalty specified in paragraph (a). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of the infraction is proved, the court shall impose a civil penalty of $750 ~~$500~~.

Section 9. Paragraphs (a) and (e) of subsection (2) of section 376.071, Florida Statutes, are amended to read:

376.071 Discharge contingency plan for vessels.—

(2)(a) A master of a vessel that violates subsection (1) commits a noncriminal infraction and shall be cited for such

AMERICAN OVERSIGHT

infraction. The civil penalty for such an infraction shall be $7,500 ~~$5,000~~, except as otherwise provided in this subsection.

(e) A person who elects to appear before the county court or who is required to appear waives the limitations of the civil penalty specified in paragraph (a). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of the infraction is proved, the court shall impose a civil penalty of $7,500 ~~$5,000~~.

Section 10. Section 376.16, Florida Statutes, is amended to read:

376.16 Enforcement and penalties.—

(1) It is unlawful for any person to violate ~~any provision of~~ ss. 376.011-376.21 or any rule or order of the department made pursuant to this act. A violation is ~~shall be~~ punishable by a civil penalty of up to $75,000 ~~$50,000~~ per violation per day to be assessed by the department. Until a violation is resolved by order or judgment, each day during any portion of which the violation occurs or is not remediated constitutes a separate offense. The penalty provisions of this subsection do ~~shall~~ not apply to any discharge promptly reported and removed by a person responsible, in accordance with the rules and orders of the department, or to any discharge of pollutants equal to or less than 5 gallons.

(2) In addition to the penalty provisions which may apply under subsection (1), a person responsible for two or more discharges of any pollutant reported pursuant to s. 376.12 within a 12-month period at the same facility commits a noncriminal infraction and shall be cited by the department for such infraction.

AMERICAN OVERSIGHT

(a) For discharges of gasoline or diesel over 5 gallons, the civil penalty for the second discharge shall be $750 ~~$500~~ and the civil penalty for each subsequent discharge within a 12-month period shall be $1,500 ~~$1,000~~, except as otherwise provided in this section.

(b) For discharges of any pollutant other than gasoline or diesel, the civil penalty for a second discharge shall be $3,750 ~~$2,500~~ and the civil penalty for each subsequent discharge within a 12-month period shall be $7,500 ~~$5,000~~, except as otherwise provided in this section.

(3) A person responsible for two or more discharges of any pollutant reported pursuant to s. 376.12 within a 12-month period at the same facility commits a noncriminal infraction and shall be cited by the department for such infraction.

(a) For discharges of gasoline or diesel equal to or less than 5 gallons, the civil penalty shall be $75 ~~$50~~ for each discharge subsequent to the first.

(b) For discharges of pollutants other than gasoline or diesel equal to or less than 5 gallons, the civil penalty shall be $150 ~~$100~~ for each discharge subsequent to the first.

(4) A person charged with a noncriminal infraction pursuant to subsection (2) or subsection (3) may:

(a) Pay the civil penalty;

(b) Post a bond equal to the amount of the applicable civil penalty; or

(c) Sign and accept a citation indicating a promise to appear before the county court.

The department employee authorized to issue these citations may

AMERICAN OVERSIGHT

indicate on the citation the time and location of the scheduled hearing and shall indicate the applicable civil penalty.

(5) Any person who willfully refuses to post bond or accept and sign a citation commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(6) After compliance with paragraph (4)(b) or paragraph (4)(c), any person charged with a noncriminal infraction under subsection (2) or subsection (3) may:

(a) Pay the civil penalty, either by mail or in person, within 30 days after the date of receiving the citation; or

(b) If the person has posted bond, forfeit the bond by not appearing at the designated time and location.

A person cited for an infraction under this section who pays the civil penalty or forfeits the bond has admitted the infraction and waives the right to a hearing on the issue of commission of the infraction. Such admission may not be used as evidence in any other proceeding.

(7) Any person who elects to appear before the county court or who is required to appear waives the limitations of the civil penalties specified in subsection (2). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of an infraction is proved, the court may impose a civil penalty up to, but not exceeding, $750 ~~$500~~ for the second discharge of gasoline or diesel and a civil penalty up to, but not exceeding, $1,500 ~~$1,000~~ for each subsequent discharge of gasoline or diesel within a 12-month period.

(8) Any person who elects to appear before the county court

AMERICAN OVERSIGHT

or who is required to appear waives the limitations of the civil penalties specified in subsection (2) or subsection (3). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of an infraction is proved, the court may impose a civil penalty up to, but not exceeding, $7,500 ~~$5,000~~ for the second discharge of pollutants other than gasoline or diesel and a civil penalty up to, but not exceeding, $15,000 ~~$10,000~~ for each subsequent discharge of pollutants other than gasoline or diesel within a 12-month period.

(9) At a hearing under this section, the commission of a charged offense must be proved by the greater weight of the evidence.

(10) A person who is found by a hearing official to have committed an infraction may appeal that finding to the circuit court.

(11) Any person who has not posted bond and who neither pays the applicable civil penalty, as specified in subsection (2) or subsection (3) within 30 days of receipt of the citation nor appears before the court commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(12) Any person who makes or causes to be made a false statement that which the person does not believe to be true in response to requirements of ~~the provisions of~~ ss. 376.011-376.21 commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 11. Paragraph (a) of subsection (6) of section 376.25, Florida Statutes, is amended to read:

376.25 Gambling vessels; registration; required and

AMERICAN OVERSIGHT

prohibited releases.—

(6) PENALTIES.—

(a) A person who violates this section is subject to a civil penalty of not more than $75,000 ~~$50,000~~ for each violation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 12. Subsections (2) and (3) of section 376.302, Florida Statutes, are amended to read:

376.302 Prohibited acts; penalties.—

(2) Except as provided in s. 376.311, any person who violates ~~commits a violation specified in~~ subsection (1) is liable to the state for any damage caused and for civil penalties as provided in s. 403.141.

(3) Any person who willfully violates ~~commits a violation specified in~~ paragraph (1)(a) or paragraph (1)(b) commits ~~shall be guilty of~~ a misdemeanor of the first degree, punishable as provided in ss. 775.082(4)(a) and 775.083(1)(g), by a fine of not less than $2,500 or more than $25,000, or punishable by 1 year in jail, or by both for each offense. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

Section 13. Paragraph (a) of subsection (1) of section 377.37, Florida Statutes, is amended to read:

377.37 Penalties.—

(1)(a) Any person who violates ~~any provision of~~ this law or any rule, regulation, or order of the division made under this chapter or who violates the terms of any permit to drill for or

AMERICAN OVERSIGHT

produce oil, gas, or other petroleum products referred to in s. 377.242(1) or to store gas in a natural gas storage facility, or any lessee, permitholder, or operator of equipment or facilities used in the exploration for, drilling for, or production of oil, gas, or other petroleum products, or storage of gas in a natural gas storage facility, who refuses inspection by the division as provided in this chapter, is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air, waters, and property, including animal, plant, and aquatic life, of the state. Furthermore, such person, lessee, permitholder, or operator is subject to the judicial imposition of a civil penalty in an amount of not more than $15,000 ~~$10,000~~ for each offense. However, the court may receive evidence in mitigation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense. This section does not ~~Nothing herein shall~~ give the department the right to bring an action on behalf of any private person.

Section 14. Subsection (2) of section 378.211, Florida Statutes, is amended to read:

378.211 Violations; damages; penalties.—

(2) The department may institute a civil action in a court of competent jurisdiction to impose and recover a civil penalty for violation of this part or of any rule adopted or order issued pursuant to this part. The penalty may ~~shall~~ not exceed the following amounts, and the court shall consider evidence in

AMERICAN OVERSIGHT

mitigation:

(a) For violations of a minor or technical nature, $150 ~~$100~~ per violation.

(b) For major violations by an operator on which a penalty has not been imposed under this paragraph during the previous 5 years, $1,500 ~~$1,000~~ per violation.

(c) For major violations not covered by paragraph (b), $7,500 ~~$5,000~~ per violation.

Subject to ~~the provisions of~~ subsection (4), until a violation is resolved by order or judgment, each day or any portion thereof in which the violation continues or is not remediated shall constitute a separate violation.

Section 15. Subsection (2) of section 403.086, Florida Statutes, is amended to read:

403.086 Sewage disposal facilities; advanced and secondary waste treatment.—

(2) Any facilities for sanitary sewage disposal shall provide for secondary waste treatment and, in addition thereto, advanced waste treatment as deemed necessary and ordered by the Department of Environmental Protection. Failure to conform shall be punishable by a civil penalty of $750 ~~$500~~ for each 24-hour day or fraction thereof that such failure is allowed to continue thereafter.

Section 16. Section 403.121, Florida Statutes, is amended to read:

403.121 Enforcement; procedure; remedies.—The department shall have the following judicial and administrative remedies available to it for violations of this chapter, as specified in

AMERICAN OVERSIGHT

s. 403.161(1).

(1) Judicial remedies:

(a) The department may institute a civil action in a court of competent jurisdiction to establish liability and to recover damages for any injury to the air, waters, or property, including animal, plant, and aquatic life, of the state caused by any violation.

(b) The department may institute a civil action in a court of competent jurisdiction to impose and to recover a civil penalty for each violation in an amount of not more than $15,000 ~~$10,000~~ per offense. However, the court may receive evidence in mitigation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(c) Except as provided in paragraph (2)(c), it is ~~shall~~ not ~~be~~ a defense to, or ground for dismissal of, these judicial remedies for damages and civil penalties that the department has failed to exhaust its administrative remedies, has failed to serve a notice of violation, or has failed to hold an administrative hearing prior to the institution of a civil action.

(2) Administrative remedies:

(a) The department may institute an administrative proceeding to establish liability and to recover damages for any injury to the air, waters, or property, including animal, plant, or aquatic life, of the state caused by any violation. The department may order that the violator pay a specified sum as damages to the state. Judgment for the amount of damages determined by the department may be entered in any court having

AMERICAN OVERSIGHT

jurisdiction thereof and may be enforced as any other judgment.

(b) If the department has reason to believe a violation has occurred, it may institute an administrative proceeding to order the prevention, abatement, or control of the conditions creating the violation or other appropriate corrective action. Except for violations involving hazardous wastes, asbestos, or underground injection, the department shall proceed administratively in all cases in which the department seeks administrative penalties that do not exceed $50,000 ~~$10,000~~ per assessment as calculated in accordance with subsections (3), (4), (5), (6), and (7). Pursuant to 42 U.S.C. s. 300g-2, the administrative penalty assessed pursuant to subsection (3), subsection (4), or subsection (5) against a public water system serving a population of more than 10,000 shall be not less than $1,000 per day per violation. The department may ~~shall~~ not impose administrative penalties in excess of $50,000 ~~$10,000~~ in a notice of violation. The department may ~~shall~~ not have more than one notice of violation seeking administrative penalties pending against the same party at the same time unless the violations occurred at a different site or the violations were discovered by the department subsequent to the filing of a previous notice of violation.

(c) An administrative proceeding shall be instituted by the department's serving of a written notice of violation upon the alleged violator by certified mail. If the department is unable to effect service by certified mail, the notice of violation may be hand delivered or personally served in accordance with chapter 48. The notice shall specify the ~~provision of the~~ law, rule, regulation, permit, certification, or order of the

AMERICAN OVERSIGHT

department alleged to be violated and the facts alleged to constitute a violation thereof. An order for corrective action, penalty assessment, or damages may be included with the notice. When the department is seeking to impose an administrative penalty for any violation by issuing a notice of violation, any corrective action needed to correct the violation or damages caused by the violation must be pursued in the notice of violation or they are waived. However, an ~~no~~ order is not ~~shall become~~ effective until after service and an administrative hearing, if requested within 20 days after service. Failure to request an administrative hearing within this time period constitutes ~~shall constitute~~ a waiver thereof, unless the respondent files a written notice with the department within this time period opting out of the administrative process initiated by the department to impose administrative penalties. Any respondent choosing to opt out of the administrative process initiated by the department in an action that seeks the imposition of administrative penalties must file a written notice with the department within 20 days after service of the notice of violation opting out of the administrative process. A respondent's decision to opt out of the administrative process does not preclude the department from initiating a state court action seeking injunctive relief, damages, and the judicial imposition of civil penalties.

(d) If a person timely files a petition challenging a notice of violation, that person will thereafter be referred to as the respondent. The hearing requested by the respondent shall be held within 180 days after the department has referred the initial petition to the Division of Administrative Hearings

AMERICAN OVERSIGHT

unless the parties agree to a later date. The department has the burden of proving with the preponderance of the evidence that the respondent is responsible for the violation. ~~No~~ Administrative penalties should not be imposed unless the department satisfies that burden. Following the close of the hearing, the administrative law judge shall issue a final order on all matters, including the imposition of an administrative penalty. When the department seeks to enforce that portion of a final order imposing administrative penalties pursuant to s. 120.69, the respondent may ~~shall~~ not assert as a defense the inappropriateness of the administrative remedy. The department retains its final-order authority in all administrative actions that do not request the imposition of administrative penalties.

(e) After filing a petition requesting a formal hearing in response to a notice of violation in which the department imposes an administrative penalty, a respondent may request that a private mediator be appointed to mediate the dispute by contacting the Florida Conflict Resolution Consortium within 10 days after receipt of the initial order from the administrative law judge. The Florida Conflict Resolution Consortium shall pay all of the costs of the mediator and for up to 8 hours of the mediator's time per case at $150 per hour. Upon notice from the respondent, the Florida Conflict Resolution Consortium shall provide to the respondent a panel of possible mediators from the area in which the hearing on the petition would be heard. The respondent shall select the mediator and notify the Florida Conflict Resolution Consortium of the selection within 15 days of receipt of the proposed panel of mediators. The Florida Conflict Resolution Consortium shall provide all of the

AMERICAN OVERSIGHT

administrative support for the mediation process. The mediation must be completed at least 15 days before the final hearing date set by the administrative law judge.

(f) In any administrative proceeding brought by the department, the prevailing party shall recover all costs as provided in ss. 57.041 and 57.071. The costs must be included in the final order. The respondent is the prevailing party when an order is entered awarding no penalties to the department and such order has not been reversed on appeal or the time for seeking judicial review has expired. The respondent is ~~shall be~~ entitled to an award of attorney's fees if the administrative law judge determines that the notice of violation issued by the department seeking the imposition of administrative penalties was not substantially justified as defined in s. 57.111(3)(e). An ~~No~~ award of attorney's fees as provided by this subsection may not ~~shall~~ exceed $15,000.

(g) Nothing herein shall be construed as preventing any other legal or administrative action in accordance with law. Nothing in this subsection shall limit the department's authority provided in ss. 403.131, 403.141, and this section to judicially pursue injunctive relief. When the department exercises its authority to judicially pursue injunctive relief, penalties in any amount up to the statutory maximum sought by the department must be pursued as part of the state court action and not by initiating a separate administrative proceeding. The department retains the authority to judicially pursue penalties in excess of $50,000 ~~$10,000~~ for violations not specifically included in the administrative penalty schedule, or for multiple or multiday violations alleged to exceed a total of $50,000

AMERICAN OVERSIGHT

~~$10,000~~. The department also retains the authority provided in ss. 403.131, 403.141, and this section to judicially pursue injunctive relief and damages, if a notice of violation seeking the imposition of administrative penalties has not been issued. The department has the authority to enter into a settlement, either before or after initiating a notice of violation, and the settlement may include a penalty amount different from the administrative penalty schedule. Any case filed in state court because it is alleged to exceed a total of $50,000 ~~$10,000~~ in penalties may be settled in the court action for less than $50,000 ~~$10,000~~.

(h) Chapter 120 applies ~~shall apply~~ to any administrative action taken by the department or any delegated program pursuing administrative penalties in accordance with this section.

(3) Except for violations involving hazardous wastes, asbestos, or underground injection, administrative penalties must be calculated according to the following schedule:

(a) For a drinking water contamination violation, the department shall assess a penalty of $3,000 ~~$2,000~~ for a Maximum Containment Level (MCL) violation; plus $1,500 ~~$1,000~~ if the violation is for a primary inorganic, organic, or radiological Maximum Contaminant Level or it is a fecal coliform bacteria violation; plus $1,500 ~~$1,000~~ if the violation occurs at a community water system; and plus $1,500 ~~$1,000~~ if any Maximum Contaminant Level is exceeded by more than 100 percent. For failure to obtain a clearance letter prior to placing a drinking water system into service when the system would not have been eligible for clearance, the department shall assess a penalty of $4,500 ~~$3,000~~.

AMERICAN OVERSIGHT

(b) For failure to obtain a required wastewater permit, other than a permit required for surface water discharge, the department shall assess a penalty of $1,500 ~~$1,000~~. For a domestic or industrial wastewater violation not involving a surface water or groundwater quality violation, the department shall assess a penalty of $3,000 ~~$2,000~~ for an unpermitted or unauthorized discharge or effluent-limitation exceedance. For an unpermitted or unauthorized discharge or effluent-limitation exceedance that resulted in a surface water or groundwater quality violation, the department shall assess a penalty of $7,500 ~~$5,000~~.

(c) For a dredge and fill or stormwater violation, the department shall assess a penalty of $1,500 ~~$1,000~~ for unpermitted or unauthorized dredging or filling or unauthorized construction of a stormwater management system against the person or persons responsible for the illegal dredging or filling, or unauthorized construction of a stormwater management system plus $3,000 ~~$2,000~~ if the dredging or filling occurs in an aquatic preserve, an Outstanding Florida Water, a conservation easement, or a Class I or Class II surface water, plus $1,500 ~~$1,000~~ if the area dredged or filled is greater than one-quarter acre but less than or equal to one-half acre, and plus $1,500 ~~$1,000~~ if the area dredged or filled is greater than one-half acre but less than or equal to one acre. The administrative penalty schedule does ~~shall~~ not apply to a dredge and fill violation if the area dredged or filled exceeds one acre. The department retains the authority to seek the judicial imposition of civil penalties for all dredge and fill violations involving more than one acre. The department shall assess a

AMERICAN OVERSIGHT

penalty of $4,500 ~~$3,000~~ for the failure to complete required mitigation, failure to record a required conservation easement, or for a water quality violation resulting from dredging or filling activities, stormwater construction activities or failure of a stormwater treatment facility. For stormwater management systems serving less than 5 acres, the department shall assess a penalty of $3,000 ~~$2,000~~ for the failure to properly or timely construct a stormwater management system. In addition to the penalties authorized in this subsection, the department shall assess a penalty of $7,500 ~~$5,000~~ per violation against the contractor or agent of the owner or tenant that conducts unpermitted or unauthorized dredging or filling. For purposes of this paragraph, the preparation or signing of a permit application by a person currently licensed under chapter 471 to practice as a professional engineer does ~~shall~~ not make that person an agent of the owner or tenant.

(d) For mangrove trimming or alteration violations, the department shall assess a penalty of $7,500 ~~$5,000~~ per violation against the contractor or agent of the owner or tenant that conducts mangrove trimming or alteration without a permit as required by s. 403.9328. For purposes of this paragraph, the preparation or signing of a permit application by a person currently licensed under chapter 471 to practice as a professional engineer does ~~shall~~ not make that person an agent of the owner or tenant.

(e) For solid waste violations, the department shall assess a penalty of $3,000 ~~$2,000~~ for the unpermitted or unauthorized disposal or storage of solid waste; plus $1,000 if the solid waste is Class I or Class III (excluding yard trash) or if the

AMERICAN OVERSIGHT

solid waste is construction and demolition debris in excess of 20 cubic yards, plus $1,500 ~~$1,000~~ if the waste is disposed of or stored in any natural or artificial body of water or within 500 feet of a potable water well, plus $1,500 ~~$1,000~~ if the waste contains PCB at a concentration of 50 parts per million or greater; untreated biomedical waste; friable asbestos greater than 1 cubic meter which is not wetted, bagged, and covered; used oil greater than 25 gallons; or 10 or more lead acid batteries. The department shall assess a penalty of $4,500 ~~$3,000~~ for failure to properly maintain leachate control; unauthorized burning; failure to have a trained spotter on duty at the working face when accepting waste; or failure to provide access control for three consecutive inspections. The department shall assess a penalty of $3,000 ~~$2,000~~ for failure to construct or maintain a required stormwater management system.

(f) For an air emission violation, the department shall assess a penalty of $1,500 ~~$1,000~~ for an unpermitted or unauthorized air emission or an air-emission-permit exceedance, ~~plus $1,000 if the emission results in an air quality violation,~~ plus $4,500 ~~$3,000~~ if the emission was from a major source and the source was major for the pollutant in violation; plus $1,500 ~~$1,000~~ if the emission was more than 150 percent of the allowable level.

(g) For storage tank system and petroleum contamination violations, the department shall assess a penalty of $7,500 ~~$5,000~~ for failure to empty a damaged storage system as necessary to ensure that a release does not occur until repairs to the storage system are completed; when a release has occurred from that storage tank system; for failure to timely recover

AMERICAN OVERSIGHT

free product; or for failure to conduct remediation or monitoring activities until a no-further-action or site-rehabilitation completion order has been issued. The department shall assess a penalty of $4,500 ~~$3,000~~ for failure to timely upgrade a storage tank system. The department shall assess a penalty of $3,000 ~~$2,000~~ for failure to conduct or maintain required release detection; failure to timely investigate a suspected release from a storage system; depositing motor fuel into an unregistered storage tank system; failure to timely assess or remediate petroleum contamination; or failure to properly install a storage tank system. The department shall assess a penalty of $1,500 ~~$1,000~~ for failure to properly operate, maintain, or close a storage tank system.

(4) In an administrative proceeding, in addition to the penalties that may be assessed under subsection (3), the department shall assess administrative penalties according to the following schedule:

(a) For failure to satisfy financial responsibility requirements or for violation of s. 377.371(1), $7,500 ~~$5,000~~.

(b) For failure to install, maintain, or use a required pollution control system or device, $6,000 ~~$4,000~~.

(c) For failure to obtain a required permit before construction or modification, $4,500 ~~$3,000~~.

(d) For failure to conduct required monitoring or testing; failure to conduct required release detection; or failure to construct in compliance with a permit, $3,000 ~~$2,000~~.

(e) For failure to maintain required staff to respond to emergencies; failure to conduct required training; failure to prepare, maintain, or update required contingency plans; failure

AMERICAN OVERSIGHT

to adequately respond to emergencies to bring an emergency situation under control; or failure to submit required notification to the department, $1,500 ~~$1,000~~.

(f) Except as provided in subsection (2) with respect to public water systems serving a population of more than 10,000, for failure to prepare, submit, maintain, or use required reports or other required documentation, $750 ~~$500~~.

(5) Except as provided in subsection (2) with respect to public water systems serving a population of more than 10,000, for failure to comply with any other departmental regulatory statute or rule requirement not otherwise identified in this section, the department may assess a penalty of $1,000 ~~$500~~.

(6) For each additional day during which a violation occurs, the administrative penalties in subsections ~~subsection~~ (3), ~~subsection~~ (4), and ~~subsection~~ (5) may be assessed per day per violation.

(7) The history of noncompliance of the violator for any previous violation resulting in an executed consent order, but not including a consent order entered into without a finding of violation, or resulting in a final order or judgment after the effective date of this law involving the imposition of $3,000 ~~$2,000~~ or more in penalties shall be taken into consideration in the following manner:

(a) One previous such violation within 5 years prior to the filing of the notice of violation will result in a 25-percent per day increase in the scheduled administrative penalty.

(b) Two previous such violations within 5 years prior to the filing of the notice of violation will result in a 50-percent per day increase in the scheduled administrative

AMERICAN OVERSIGHT

penalty.

(c) Three or more previous such violations within 5 years prior to the filing of the notice of violation will result in a 100-percent per day increase in the scheduled administrative penalty.

(8) The direct economic benefit gained by the violator from the violation, where consideration of economic benefit is provided by Florida law or required by federal law as part of a federally delegated or approved program, shall be added to the scheduled administrative penalty. The total administrative penalty, including any economic benefit added to the scheduled administrative penalty, may ~~shall~~ not exceed $15,000 ~~$10,000~~.

(9) The administrative penalties assessed for any particular violation may ~~shall~~ not exceed $7,500 ~~$5,000~~ against any one violator, unless the violator has a history of noncompliance, the economic benefit of the violation as described in subsection (8) exceeds $7,500 ~~$5,000~~, or there are multiday violations. The total administrative penalties may ~~shall~~ not exceed $50,000 ~~$10,000~~ per assessment for all violations attributable to a specific person in the notice of violation.

(10) The administrative law judge may receive evidence in mitigation. The penalties identified in subsections ~~subsection~~ (3), ~~subsection~~ (4), and ~~subsection~~ (5) may be reduced up to 50 percent by the administrative law judge for mitigating circumstances, including good faith efforts to comply prior to or after discovery of the violations by the department. Upon an affirmative finding that the violation was caused by circumstances beyond the reasonable control of the respondent

AMERICAN OVERSIGHT

and could not have been prevented by respondent's due diligence, the administrative law judge may further reduce the penalty.

(11) Penalties collected pursuant to this section shall be deposited into the Water Quality Assurance Trust Fund or other trust fund designated by statute and shall be used to fund the restoration of ecosystems, or polluted areas of the state, as defined by the department, to their condition before pollution occurred. The Florida Conflict Resolution Consortium may use a portion of the fund to administer the mediation process provided in paragraph (2)(e) and to contract with private mediators for administrative penalty cases.

(12) The purpose of the administrative penalty schedule and process is to provide a more predictable and efficient manner for individuals and businesses to resolve relatively minor environmental disputes. Subsections (3)-(7) may ~~Subsection (3), subsection (4), subsection (5), subsection (6), or subsection (7) shall~~ not be construed as limiting a state court in the assessment of damages. The administrative penalty schedule does not apply to the judicial imposition of civil penalties in state court as provided in this section.

Section 17. Subsection (1) of section 403.141, Florida Statutes, is amended to read:

403.141 Civil liability; joint and several liability.—

(1) Whoever violates ~~commits a violation specified in~~ s. 403.161(1) is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air,

AMERICAN OVERSIGHT

waters, and property, including animal, plant, and aquatic life, of the state to their former condition, and furthermore is subject to the judicial imposition of a civil penalty for each offense in an amount of not more than $15,000 ~~$10,000~~ per offense. However, the court may receive evidence in mitigation. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense. Nothing herein gives ~~shall give~~ the department the right to bring an action on behalf of any private person.

Section 18. Subsections (2) through (5) of section 403.161, Florida Statutes, are amended to read:

403.161 Prohibitions, violation, penalty, intent.—

(2) A person who violates ~~Whoever commits a violation specified in~~ subsection (1) is liable to the state for any damage caused and for civil penalties as provided in s. 403.141.

(3) A ~~Any~~ person who willfully violates ~~commits a violation specified in~~ paragraph (1)(a) commits ~~is guilty of~~ a felony of the third degree, punishable as provided in ss. 775.082(3)(e) and 775.083(1)(g) by a fine of not more than $50,000 or by imprisonment for 5 years, or by both, for each offense. Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.

(4) A ~~Any~~ person who violates ~~commits a violation specified in~~ paragraph (1)(a) or paragraph (1)(b) due to reckless indifference or gross careless disregard commits ~~is guilty of~~ a misdemeanor of the second degree, punishable as provided in ss. 775.082(4)(b) and 775.083(1)(g) by a fine of not more than

AMERICAN OVERSIGHT

$10,000 ~~$5,000~~ or by 60 days in jail, or by both, for each offense.

(5) A ~~Any~~ person who willfully violates ~~commits a violation specified in~~ paragraph (1)(b) or who violates paragraph (1)(c) commits ~~is guilty of~~ a misdemeanor of the first degree punishable as provided in ss. 775.082(4)(a) and 775.083(1)(g) by a fine of not more than $10,000 or by 6 months in jail, or by both for each offense.

Section 19. Paragraph (a) of subsection (6) of section 403.413, Florida Statutes, is amended to read:

403.413 Florida Litter Law.—

(6) PENALTIES; ENFORCEMENT.—

(a) Any person who dumps litter in violation of subsection (4) in an amount not exceeding 15 pounds in weight or 27 cubic feet in volume and not for commercial purposes commits ~~is guilty of~~ a noncriminal infraction, punishable by a civil penalty of $150 ~~$100~~, from which $50 shall be deposited into the Solid Waste Management Trust Fund to be used for the solid waste management grant program pursuant to s. 403.7095. In addition, the court may require the violator to pick up litter or perform other labor commensurate with the offense committed.

Section 20. Subsection (5) of section 403.7234, Florida Statutes, is amended to read:

403.7234 Small quantity generator notification and verification program.—

(5) Any small quantity generator who does not comply with the requirements of subsection (4) and who has received a notification and survey in person or through one certified letter from the county is subject to a fine of between $75 ~~$50~~

AMERICAN OVERSIGHT

and $150 ~~$100~~ per day for a maximum of 100 days. The county may collect such fines and deposit them in its general revenue fund. Fines collected by the county shall be used to carry out the notification and verification procedure established in this section. If there are excess funds after the notification and verification procedures have been completed, such funds shall be used for hazardous and solid waste management purposes only.

Section 21. Subsection (3) of section 403.726, Florida Statutes, is amended to read:

403.726 Abatement of imminent hazard caused by hazardous substance.—

(3) An imminent hazard exists if any hazardous substance creates an immediate and substantial danger to human health, safety, or welfare or to the environment. The department may institute action in its own name, using the procedures and remedies of s. 403.121 or s. 403.131, to abate an imminent hazard. However, the department is authorized to recover a civil penalty of not more than $37,500 ~~$25,000~~ for each day until a ~~of continued~~ violation is resolved by order or judgment. Whenever serious harm to human health, safety, and welfare; the environment; or private or public property may occur prior to completion of an administrative hearing or other formal proceeding that which might be initiated to abate the risk of serious harm, the department may obtain, ex parte, an injunction without paying filing and service fees prior to the filing and service of process.

Section 22. Paragraph (a) of subsection (3) of section 403.727, Florida Statutes, is amended to read:

403.727 Violations; defenses, penalties, and remedies.—

AMERICAN OVERSIGHT

(3) Violations of the provisions of this act are punishable as follows:

(a) Any person who violates ~~the provisions of~~ this act, the rules or orders of the department, or the conditions of a permit is liable to the state for any damages specified in s. 403.141 and for a civil penalty of not more than $75,000 ~~$50,000~~ for each day of continued violation or until a violation is resolved by order or judgment, except as otherwise provided herein. The department may revoke any permit issued to the violator. In any action by the department against a small hazardous waste generator for the improper disposal of hazardous wastes, a rebuttable presumption of improper disposal shall be created if the generator was notified pursuant to s. 403.7234; the generator shall then have the burden of proving that the disposal was proper. If the generator was not so notified, the burden of proving improper disposal shall be placed upon the department.

Section 23. Subsection (8) of section 403.93345, Florida Statutes, is amended to read:

403.93345 Coral reef protection.—

(8) In addition to the compensation described in subsection (5), the department may assess, per occurrence, civil penalties according to the following schedule:

(a) For any anchoring of a vessel on a coral reef or for any other damage to a coral reef totaling less than or equal to an area of 1 square meter, $225 ~~$150~~, provided that a responsible party who has anchored a recreational vessel as defined in s. 327.02 which is lawfully registered or exempt from registration pursuant to chapter 328 is issued, at least once, a

AMERICAN OVERSIGHT

warning letter in lieu of penalty; with aggravating circumstances, an additional $225 ~~$150~~; occurring within a state park or aquatic preserve, an additional $225 ~~$150~~.

(b) For damage totaling more than an area of 1 square meter but less than or equal to an area of 10 square meters, $450 ~~$300~~ per square meter; with aggravating circumstances, an additional $450 ~~$300~~ per square meter; occurring within a state park or aquatic preserve, an additional $450 ~~$300~~ per square meter.

(c) For damage exceeding an area of 10 square meters, $1,500 ~~$1,000~~ per square meter; with aggravating circumstances, an additional $1,500 ~~$1,000~~ per square meter; occurring within a state park or aquatic preserve, an additional $1,500 ~~$1,000~~ per square meter.

(d) For a second violation, the total penalty may be doubled.

(e) For a third violation, the total penalty may be tripled.

(f) For any violation after a third violation, the total penalty may be quadrupled.

(g) The total of penalties levied may not exceed $375,000 ~~$250,000~~ per occurrence.

Section 24. Paragraph (c) of subsection (1) of s. 252.940, Florida Statutes, is reenacted for the purpose of incorporating the amendment made by this act to s. 252.941, Florida Statutes, in a reference thereto.

Section 25. Subsection (5) of s. 823.11, Florida Statutes, is reenacted for the purpose of incorporating the amendment made by this act to s. 376.16, Florida Statutes, in a reference thereto.

AMERICAN OVERSIGHT

Section 26. Paragraph (d) of subsection (1) of s. 376.303, Florida Statutes, is reenacted for the purpose of incorporating the amendment made by this act to s. 376.302, Florida Statutes, in a reference thereto.

Section 27. Subsection (5) of s. 403.077, subsection (2) of s. 403.131, paragraph (d) of subsection (3) of s. 403.4154, and subsection (5) of s. 403.860, Florida Statutes, are reenacted for the purpose of incorporating the amendment made by this act to s. 403.121, Florida Statutes, in references thereto.

Section 28. Subsection (10) of s. 403.708, subsection (7) of s. 403.7191, and s. 403.811, Florida Statutes, are reenacted for the purpose of incorporating the amendment made by this act to s. 403.141, Florida Statutes, in references thereto.

Section 29. Subsection (2) of s. 403.7255, Florida Statutes, is reenacted for the purpose of incorporating the amendment made by this act to s. 403.161, Florida Statutes, in a reference thereto.

Section 30. Subsection (8) of s. 403.7186, Florida Statutes, is reenacted for the purpose of incorporating the amendments made by this act to ss. 403.141 and 403.161, Florida Statutes, in references thereto.

Section 31. This act shall take effect July 1, 2020.

> - Yet front and center will be former state Senator and now County Commissioner **Detert, who, last week, bullied and insulted Sarasota's African American community** from the County Commission dais, brazenly asking: " "Did you care enough about your "community" to draw a map to protect your "community"? (referring to Newtown) (VIDEO at the 59:00 mark at the Oct. 30th Meeting; press the "Video" hyperlink)
> - Detert's record of lashing out at constituents who challenge her ethically bankrupt behavior is now documented. In the previous email below, Detert attempted to shame the citizens of Sarasota in 2011 for questioning the 2011 decennial redistricting effort that resulted in **ILLEGAL**, **GERRYMANDERED** state legislative and US Congressional maps that **VIOLATED** the Florida Constitution.
> - **It is crystal clear Detert has no regard for the rule of law as Detert attempts to RACIALLY GERRYMANDER Sarasota.**
> - **Detert on multiple occasions has attempted to mislead the citizens of Sarasota** into thinking that the Fair Districts amendments to the Florida Constitution apply to localities, thus protecting Sarasota from Detert's attempt to rig the 2020 election through partisan (and now racial--which is federally illegal) gerrymandering designed to favor incumbents and their hand-picked successors. (VIDEO This can be found at the 47:00 mark from the Oct. 30th meeting)
> - **So, what is happening tomorrow at Tiger Bay is a celebration of the 19th amendment to the US Constitution that includes a panelist who is actively attempting to run roughshod over the 15th amendment which enfranchised black men.**
> - HYPOCRISY + INJUSTICE: Detert is attempting to advance a map that **CUTS OUT** from the 2020 election the first ever **African American person elected to the City Commission, Mayor Fredd Atkins.**
> - **Compounding the hypocritical composition of this panel** is Detert's record in the State Senate where she CUT the number of Early Voting Days from 14 to 8 and specifically **ELIMINATED Early Voting the Sunday before Election Day when predominantly black churches host "Souls to the Polls" voting drives.** This measure was designed to reduce participation of black voters in advance of the 2012 Presidential election.
> - Then-state Senator Detert's response when questioned about her vote to CUT EARLY VOTING: "Nevertheless, Detert doesn't want to go back to the full 14-day schedule, **saying those who support the extended schedule are guilty of "rounding up people who had no intention of voting" and "know nothing about any of the candidates."** (Sarasota Magazine)
> - The news media is beginning to catch on to Commissioner Detert's unacceptable behavior when she

AMERICAN OVERSIGHT

- The news media is beginning to catch on to Commissioner Detert's unacceptable behavior. But she crossed the line when she challenged certain speakers as “not caring enough” to have submitted a map themselves, and charged some citizens with being “vicious” and ignorant." (Herald Tribune)

- Herald Tribune: "Not only would this eliminate the campaign of the only other announced District 1 candidate — former mayor, city commissioner and longtime Newtown leader Fredd Atkins, who lost a bid for an at-large County Commission seat in 2017 — **it would effectively disenfranchise Sarasota’s historically black neighborhood for the next two years. How can anyone who knows anything of Sarasota and Newtown’s history possibly think this is a good idea?** Even if by appearance alone, it echoes historical racial injustices and black voter suppression and sends a clear message to the neighborhood that, once again, the white majority controls its fate.

Redistricting Scam Fueling Anti-Establishment Energy + GOP Losses

- The City of Venice is composed of 9,000 Republicans, 5,900 Democrats and 5,300 NPAs.
- The new Mayor-elect of Venice, Ron Feinsod (D), DEFEATED a sitting incumbent, Bob Daniels (R), who was supported by UNLIMITED political committee dollars with a mailer hitting almost daily for three weeks.
- Bob Daniels refused to speak out against redistricting. (SRQ Daily)

Thoughts on Tiger Bay

- When you ask a question to Commission Detert on the redistricting scam, do not let Detert or her close ally, moderator of the panel, former state Senator Lisa Carlton, interrupt you or bully you in their response. **Detert has a history of bullying individuals in an audience setting.** The panel has been **rigged** by Detert's allies who control Tiger Bay. Their aim is to support and elevate Detert despite her effort to racially gerrymander Sarasota through the selection of a map developed by a self-admitted criminal, Robert Waechter, using bad data that undercounts minority populations.

We will fight and we will win.

And then in 2011--

SENATOR DETERT: It is probably not in my best interest to tell you what I think, but, frankly, I am very disappointed in our community. If you recall last year, we spent about a half a million dollars to promote civility, and for this woman in the front to stand up and say, "Stop, the child is fighting," this is our half of the table. This is my good friend, Senator Joyner, from a gerrymandered district, my good friend, the Democrat. Nobody on this side of the table is fighting. None of this group is fighting over districts or anything else. We came to listen. I thank the Representatives, look at the size of the crowd that came here today, they came early, they took a tour of the Ringling Museum. I was hoping they would be impressed with our community, because they all get to vote on our budget, things like this university, things that we want for our community. This is an opportunity to showcase the community. It is also an opportunity to participate in your government. **Now, you can either have tons of paranoia run rampant and you can protest, or you can pull up a chair and you can participate.** In the past, districts were gerrymandered. **No one at this table probably drew any of the districts, the salamander, the this, the that, the whatever.**

- (Writer's note: But guess who did draw those districts in 2001? **Former State Senator Lisa Carlton**--please see page 98 of the Senate Journal from 2001 and meeting minutes from the 2001 meeting at same location of the 2011 hearing where former **Senator Detert had the audacity to lash out at her constituents** before voting to VIOLATE the Florida Constitution and ILLEGALLY gerrymander state legislative and US Congressional districts)

The best testimony we had today was this morning in Largo at 8:00 a.m. from an 84-year-old woman who was probably the smartest woman in the room. She's seen lots of redistricting. And she referred to one map as the bug splat. Peggy Simone, you probably did that, for crying out loud. So it is not like gerrymandering is new. This is the most open, transparent situation you will ever see up until now, thanks to things like technology, the Internet. There are no maps in the back room that we are all going to run back there and arm wrestle over. In fact, I have to congratulate our Chairman, Senator Gaetz. The very first meeting we ever had -- and he told this to me, frankly, in private, he said, "I don't even want to know where anybody on the Committee lives." And you know what? I don't want to know where anybody on the Committee lives either. I think -- I did participate in redistricting in the year 2000. I personally 2 drew District 70. I think it is compact. I think it is a community of interest. You have to hit the numbers. **There are certain rules. And for you all to stand up and read us the rules, guess what, we know the rules. We have read the amendments, and we did not start out 8 this meeting by saying we have no intention of 9 keeping any of the rules.** So, frankly, I am a little disappointed in the lack of civility. I think we have been as polite on our side of the table as we can be. We intend to be fair, and, really, you probably won't know until we do produce the maps, and then you will -- and then you will be --

- Then-State Senator Detert's venomous diatribe was interrupted by her colleague, Senate President Don Gaetz.

SENATOR GAETZ: Ma'am, ma'am, ma'am

Commissioner Detert--You are a bully and now that Halloween has passed, YOU have been unmasked.

AMERICAN OVERSIGHT

But some local Republicans are predicting that the GOP will experience some blowback from the Sarasota County Commission's redistricting effort, which has drawn significant criticism from both Republicans and Democrats who view it as an effort to gerrymander the districts for partisan purposes, and to protect incumbents."

- Chair Gruters has stood by idly as one of his predecessors, self-admitted criminal, Robert Waechter, hijacks and manipulates the process.
- The "Acting" Chair of the Sarasota GOP canceled his appearance on Bill Logan's ABC7 Roundtable this Wednesday because he has lost control of the redistricting situation and is in a state of panic. He instead dispatched a proxy that had no depth of knowledge on the issue and further eroded any remaining public trust in the Sarasota County GOP, Commissioners Detert/Moran/Maio. (VIDEO)
- Gruters' "Acting" Chair began constructing a flimsy house of cards when he submitted a misleading guest opinion editorial in both the Herald Tribune and SRQ Magazine asserting that pre-2020 Census redistricting must be undertaken due to an imbalance IN REGISTERED VOTERS. We all know that redistricting is done on the basis of TOTAL POPULATION. (Herald Tribune)
- Commissioner Detert back in June also attempted to mislead the citizens of Sarasota: "Commissioner Nancy Detert said she determined that redistricting was necessary **after reviewing the total number of registered voters in each district** and finding that they vary significantly." (Herald Tribune)

Under Chair Gruters' tenure, the Sarasota GOP has been thrust into a world of trouble and is seeing its power to control the conversation, diminish. He is standing by idly as Commissioners **Detert**, **Moran** and **Maio** plot to RACIALLY GERRYMANDER Sarasota County.

The credibility of a major political party--the Sarasota and Florida GOP--is quickly evaporating.

> > Yesterday, the Sarasota County Commission, at the urging of former State Senator and now-Commissioner Nancy Detert,

AMERICAN OVERSIGHT

voted 3-2 to send two maps to a public hearing process, for possible adoption and implementation for the 2020 election. (Herald Tribune)

The map publicly favored by Commissioner Detert was submitted at the eleventh hour by self-admitted criminal and former Chair of the Sarasota County Republican Party, Robert Waechter. (Herald Tribune)

The proposed map would do two things:

1. Remove Sarasota's historically black neighborhood (Newtown) from the existing district (District 1 held by Commissioner Michael Moran) and slide Sarasota's black community into an adjacent district, thereby disallowing Newtown from participating in the 2020 County Commission election.
2. Remove Sarasota's first ever African American citizen elected to the Sarasota City Commission, Mayor Fredd Atkins, from his existing district, and preventing him from continuing his 2020 campaign for County Commission. Mayor Atkins is a Sarasota icon, and, as I stated, was the first ever African American elected to the Sarasota City Commission as a result of a federal lawsuit filed in the 1980's. This lawsuit resulted in the City of Sarasota moving from an at-large format of electing Commissioners to a hybrid at-large and single member district system.

Sadly, yesterday's vote by Commissioner Detert is a continuation of Commissioner Detert's **malevolent pattern of minority voter disenfranchisement** that first began during her time in the State Senate when she voted in 2011 to CUT Early Voting from 14 days to 8, specifically targeting the final Sunday of Early Voting before Election Day when predominantly black churches organize Souls to the Polls drives.

- "In 2011 Republicans, who had super majorities in both chambers of the legislature, passed HB 1355, which curtailed early voting days from 14 to eight; greatly proscribed the activities of voter registration organizations like the League of Women Voters; and made it harder for voters who had changed counties since the last election to cast ballots, a move that affected minorities proportionately more than whites. The League and others challenged the law in court, and a federal judge threw out most of the provisions related to voter registration organizations." (Palm Beach Post)
- "But a GOP consultant who asked to remain anonymous out of fear of retribution said black voters were a concern. “I know that the cutting out of the Sunday before Election Day was one of their targets only because that’s a big day when the black churches organize themselves,” he said." (Palm Beach Post)
- "... but she (Detert) remains unapologetic about one vote: her 2011 “yes” that helped cut the number of early voting days from 14 to eight. The measure eliminated voting on the final Sunday before Election Day, which had been a popular day for African-Americans to cast their ballots. One study estimated that 49,000 voters in Central Florida alone were discouraged from voting in 2012 because of long lines on Election Day. Nevertheless, Detert doesn’t want to go back to the full 14-day schedule, saying those who support the extended schedule are guilty of “rounding up people who had no intention of voting” and “know nothing about any of the candidates.” (Sarasota Magazine)
- Also while in the State Senate, Nancy Detert voted to BLOCK the passage of what is now referred to as the Competitive Workforce Act which would make illegal discrimination in the workplace and public accommodation on the basis of sexual orientation/gender identity.
- "For example one Republican legislator, Sen. Nancy Detert of Sarasota, tells the Palm Beach Post that she's worried that "cross-dressing" employees will cause disruptions, and that the bill will only be used as an opportunity not to protect people's rights but give people more reasons to suit when being fired." (Miami New Times)

If you appear on the Tiger Bay panel next week, but make no mention of the racial gerrymandering taking place in Sarasota, your presence would elevate Commissioner Detert and normalize her behavior.

Commissioner Fried, as the state's top and only statewide elected Democrat, I urge you to carefully weigh the pros and cons of appearing on a panel with Commissioner Detert.

This is a crucial time for Sarasota and the state of Florida.

I am asking you to lead on this issue.

Respectfully,

--Gabriel Hament

FLORIDA CHAMBER of Commerce

October 14, 2019

The Honorable Joe Gruters
Florida Senate
324 Senate Office Building
404 South Monroe Street
Tallahassee, FL 32399-1100

RE: Support SB 126: Sales and Use Tax
When the 2020 Florida Chamber Business Agenda Wins, Florida Wins

Dear Chair Gruters:

The Florida Chamber of Commerce urges you to **support SB 126**, related to the sales and use tax. This bill, proposed by Senator Joe Gruters, will be heard in the Senate Commerce & Tourism Committee on Tuesday, October 15, 2019.

Historically, brick and mortar businesses have been at a 6 percent disadvantage in Florida compared to their online counterparts because they are required to collect sales taxes. In June 2018, the United States Supreme Court issued an opinion in *South Dakota v. Wayfair* which paved the way for states to begin collecting the sales tax on internet purchases if a company has a significant economic presence in the state. Of the 45 states that collect sales tax, 43 states have adopted rules or passed legislation to implement the *Wayfair* decision and set minimum requirements to establish an economic presence. In Florida, this is a tax that has always been due. The responsibility has simply been on the taxpayer to submit the tax to the Florida Department of Revenue for online purchases.

SB 126 amends Florida's mail order sales statute to include remote sales that are made by mail, telephone or on the Internet and sets minimum requirements to establish an economic presence, per the *Wayfair* decision. Under this bill, businesses that conduct 200 or more transactions or sales of over $100,000 in Florida will be required to register with the Florida Department of Revenue and collect and remit sales tax. Alternatively, the bill allows for marketplace providers, like Ebay or Amazon, to collect and remit the sales tax.

This bill is important to Florida's business community because it:

- Puts Florida main street businesses on equal footing with out of state businesses and remote sellers;
- Streamlines the tax collection process for consumers by requiring remote businesses and marketplace providers to collect and remit the tax; and
- Creates equity in Florida's tax system for all businesses.

The Florida Chamber urges you to **support SB 126**, and will consider votes on this legislation, and any substantive amendments to it in committee or on the floor, in our annual *How They Voted* report card. The grade that you earn will be based on your voting record on the issues, such as this one. We will make every effort to notify you prior to a vote that may be included in our annual legislative report card. If you have any questions about this or other issues, please do not hesitate to contact me.

FLORIDA CHAMBER of Commerce

January 21, 2020

The Honorable Joe Gruters
Florida Senate
324 Senate Office Building
404 South Monroe Street
Tallahassee, FL 32399-1100

RE: Support SB 914: Property Insurance
When the 2020 Florida Chamber Business Agenda Wins, Florida Wins

Dear Senator Gruters:

The Florida Chamber of Commerce urges you to **support SB 914,** related to property insurance. This bill, proposed by Senator Jeff Brandes, will be heard in the Senate Banking and Insurance Committee on Tuesday, January 21, 2020.

The Florida Chamber of Commerce supports reducing cost drivers in insurance claims and reducing unnecessary litigation. SB 914 specifies that attorney fees in property insurance claims shall be awarded using a loadstar fee and that a contingency risk multiplier should not be used. A loadstar fee is calculated using the number of attorney hours that were expended on the case multiplied by a reasonable hourly rate. When a contingency risk multiplier is used, not only do attorney fees increase exponentially, but attorneys are able to take on less legitimate claims. Attorneys can win fewer cases and make the same amount or more money when contingency risk multipliers are added to an outcome of a case.

The United States Supreme Court has already found that contingency risk multipliers should only be used in "rare and exceptional" circumstances and that the loadstar already reflects the difficulty of a claim either through a higher number of hours expended by the attorney or a higher hourly rate. Unfortunately, the former Florida Supreme Court opened the floodgates for a contingency risk multiplier in the case *Joyce v. Federated National Insurance Company* and made multipliers the rule, not the exception, in property insurance cases. The Florida Legislature has precedent in eliminating the contingency risk multiplier and eliminated the multiplier for PIP claims in 2012.

This bill is important to Florida's business community because it:

- Addresses rising attorney fees by eliminating the contingency fee risk multiplier in favor of a loadstar fee, which adequately considers the difficulty of a case;
- Fixes a Florida Supreme Court decision that overturned decades of precedent related to attorney fees; and
- Ensures a reasonable attorney fee through the calculation of a loadstar fee.

The Florida Chamber urges you to **support SB 914**, and will consider votes on this legislation, and any substantive amendments to it in committee or on the floor, in our annual *How They Voted* report card. Because of the importance of this issue to employers across the state, our Board of Directors has determined that this bill, and any substantive amendments to it in committee or on the floor, will be counted ***twice*** on our legislative report card. The grade that you earn will be based on your voting record on the issues,

AMERICAN OVERSIGHT

such as this one. We will make every effort to notify you prior to a vote that may be included in our annual Legislative Report Card. If you have any questions about this or other issues, please do not hesitate to contact me.

FLORIDA CHAMBER of Commerce

January 21, 2020

The Honorable Joe Gruters
Florida Senate
324 Senate Office Building
404 South Monroe Street
Tallahassee, FL 32399-1100

RE: Support SB 922: Economic Development
When the 2020 Florida Chamber Business Agenda Wins, Florida Wins

Dear Chair Gruters:

The Florida Chamber of Commerce urges you to **support SB 922,** related to economic development. This bill, proposed by Senator Joe Gruters, will be heard in the Senate Commerce and Tourism Committee on Tuesday, January 21, 2020.

SB 922 extends the Qualified Targeted Industry (QTI) Tax Refund program, which is set to expire on June 30, 2020, without legislative action. Additionally, the bill encourages the recovery in areas impacted by Hurricane Michael by relaxing certain requirements for the QTI program in those counties. Qualified targeted industries are determined by the Florida Department of Economic Opportunity and are high-wage industries that help diversify Florida's economy. Current targeted industries include aviation & aerospace, informational technology, manufacturing and logistics & distribution. The QTI Tax Refund program is available for existing and relocating companies that are in a designated targeted industry and create new-full time jobs that pay at least 115% of the private-sector annual average wage.

This bill is important to Florida's business community because it:

- Encourages the growth of high-wage jobs by extending the QTI Tax Refund program;
- Assists in Hurricane Michael recovery by relaxing wage and local match requirements for Michael affected counties; and
- Maintains an important tool to diversify the state's economy, protecting the state and its taxpayers during a recession.

The Florida Chamber urges you to **support SB 922**, and will consider votes on this legislation, and any substantive amendments to it in committee or on the floor, in our annual *How They Voted* report card. Because of the importance of this issue to employers across the state, our Board of Directors has determined that this bill, and any substantive amendments to it in committee or on the floor, will be counted ***twice*** on our legislative report card. AMERICAN OVERSIGHT

FLAHIGA AMENDMENT

Currently there are two classes of assessments that the Florida Life and Health Insurance Guaranty Association (FLAHIGA) may levy; a “Class A” assessment for expenses, capped at $250 per insurer per year; and a “Class B” assessment, to pay the claims of insolvent life and health insurers (capped at 1% of an insurers net written premium for life and health, and 0.5 percent for long term care).

The other guaranty funds, (FIGA and FWCIGA) do not make this distinction between Class A and Class B assessments, and only have a single assessment which may cover both policyholder claims and the administrative costs to pay those claims.

This amendment eliminates the distinction between Class A and Class B, and conforms FLAHIGA to FIGA and FWCIGA.

No change is made in the 1% and 0.5% assessment caps in current law.

AMERICAN OVERSIGHT

Amendment _____

Between lines _____ and _____ insert:

Section ____. Subsections (2) through (9) of section 631.718, Florida Statutes are amended to read:

631.718 Assessments.—

~~(2) There shall be two classes of assessments, as follows:~~

~~(a) Class A assessments shall be made by the board of directors for the purpose of meeting administrative costs and other general expenses and for examinations conducted under the authority of s. 631.723(3) which are not related to a particular impaired or insolvent insurer.~~

~~(b) Class B assessments shall be made by the board of directors for the purpose of carrying out the powers and duties of the association under s. 631.717 relating to an impaired or insolvent domestic, foreign, or alien insurer.~~

~~(3)(a) The amount of any Class A assessment shall be determined by the board and may be made on a non-pro rata basis. The assessment may not be credited against future insolvency assessments and may not exceed $250 per member insurer in any one calendar year.~~

~~1.~~(b)~~1.~~ (2)(a) The amount of any ~~Class B~~ assessment, except for assessments related to long-term care insurance, must be allocated for assessment purposes among the accounts pursuant to an allocation formula, which may be based on the premiums or reserves of the impaired or insolvent insurer.

(b)~~2.~~ The amount of the ~~Class B~~ assessment for long-term care insurance written by the impaired or insolvent insurer must be allocated according to a methodology included in the plan of operation and approved by the department. The methodology must provide for 50 percent of the assessment to be allocated to health member insurers and 50 percent to be allocated to life and annuity member insurers.

(c)~~3.~~ For the purposes of the methodology outlined in ~~subparagraph 2.~~paragraph (b) and included in the plan of operation, the health member insurers' share of the assessment must be calculated by including the assessable premiums of member health maintenance organizations of the Florida Health Maintenance Organization Consumer Assistance Plan.

AMERICAN OVERSIGHT

(dc) ~~Class B assessments~~Assessments against member insurers for each account must be based upon the premiums received on business in this state by each assessed member insurer on policies or contracts covered by each account for the 3 most recent calendar years for which information is available preceding the year of the assessment in proportion to premiums received on business in this state for those calendar years by all assessed member insurers. If the most recent 3 years of premium information is not available for each member insurer, the board of directors may use the premium information that is reasonably available.

(ed) Assessments for funds to meet the requirements of the association with respect to an impaired or insolvent insurer may not be made until necessary to implement the purposes of this part.

(fe) ~~Classification of assessments under subsection (2) and computation~~ Computation of assessments under this subsection must be made with a reasonable degree of accuracy, recognizing that exact determinations are not always possible.

(34) The association may abate or defer, in whole or in part, the assessment of a member insurer if, in the opinion of the board, payment of the assessment would endanger the ability of the member insurer to fulfill its contractual obligations. In the event an assessment against a member insurer is abated, or deferred in whole or in part, the amount by which such assessment is abated or deferred may be assessed against the other member insurers in a manner consistent with the basis for assessments set forth in this section.

(45)(a)1. The total of all assessments upon a member insurer for each account may not in any one calendar year exceed 1 percent of the sum of the insurer's premiums written in this state regarding business covered by the account received during the 3 calendar years preceding the year in which the assessment is made, divided by three. If premium information for the 3-year period is not reasonably available for each member insurer, the association may use any reasonably available premium information.

2. For long-term care insurer impairments and insolvencies only, the total assessments upon a member insurer or member health maintenance organization of the Florida Health Maintenance Organization Consumer Assistance Plan may not, in any one calendar year, exceed 0.5 percent of the sum of the member insurer's or member health maintenance organization's premiums written in this state regarding business covered by the account received during the calendar year preceding the year in which

AMERICAN OVERSIGHT

the assessment is made. If premium information is not reasonably available for each member insurer or member health maintenance organization of the Florida Health Maintenance Organization Consumer Assistance Plan, the association or the Florida Health Maintenance Organization Consumer Assistance Plan may use any reasonably available premium information.

(b) The provisions of this subsection apply to any assessments made on or after October 1, 1995, without regard to the date of the impairment or insolvency.

(c) If the maximum assessment, together with the other assets of the association in its nonadministrative accounts, does not provide in any one year in any account an amount sufficient to carry out the responsibilities of the association, the necessary additional funds must be assessed as soon thereafter as permitted by this part.

(5~~6~~) The board may, by an equitable method as established in the plan of operation, refund to member insurers, in proportion to the contribution of each insurer to an account, the amount by which the assets of such account exceed the amount the board finds is necessary to carry out during the coming year the obligations of the association with regard to that account, including assets accruing from net realized gains and income from investments. A reasonable amount may be retained in any account to provide funds for the continuing expenses of the association and for future losses if refunds are impractical.

(~~7~~6) It shall be proper for any member insurer, in determining its premium rates and policyowner dividends as to any kind of insurance within the scope of this part, to consider the amount reasonably necessary to meet its assessment obligations under this part.

(~~8~~7) The association shall issue to each member insurer paying an assessment under this part, ~~other than a Class A assessment,~~ a certificate of contribution, in a form prescribed by the office, for the amount of the assessment so paid. All outstanding certificates are of equal dignity and priority without reference to amounts or dates of issue. A certificate of contribution may be shown by the insurer in its financial statement as an asset in such form and for such amount, if any, and period of time as the office approves. However, any amount offset pursuant to s. 631.72 may not be shown as an asset of the insurer on any of its financial statements.

(~~9~~8) Notwithstanding any provision to the contrary, no member insurer that is a nonprofit insurance company which issues annuity contracts or group annuity contracts pursuant to s. 121.35, or for

AMERICAN OVERSIGHT

the benefit of employees of educational institutions situated in this state may be assessed in any one calendar year an amount greater than the amount which it paid to this state in the previous year as premium tax and corporate tax on the business to which this part applies or 0.1 percent of written premium on such business in this state, whichever is greater.

Section _____. Subsection (2) of section 631.818, Florida Statutes is amended to read:

631.818 Powers and duties of the plan.—

(2) In the event of a long-term care insurer impairment or insolvency, pursuant to s. 631.819(2)(c), the plan shall:

(a) Collect and transmit all information requested by the Florida Life and Health Insurance Guaranty Association for the association to determine the appropriate assessment base of the health insurance account pursuant to ss. 631.715(2)(a)1. and 631.718(23)(ba)-(c).

Section _____. Subsection (2) of section 631.819, Florida Statutes is amended to read:

631.819 Assessments.—

(2) Assessments for funds to meet the requirements of the plan with respect to an insolvent HMO shall not be made until necessary to implement the purposes of this part. In order to carry out its duties and powers under this part, upon the insolvency of an HMO, the plan shall levy and collect assessments as follows:

(a) Each HMO, prior to receiving a certificate of authority after July 1, 1989, shall pay an assessment of $25,000 to the plan.

(b) If the funds provided under paragraph (a) are insufficient to carry out the powers and duties of the plan, the plan shall levy an assessment directly against all HMOs.

(c) For the purposes of long-term care insurer impairment and insolvency assessments under s. 631.718(32)(ba), member HMOs must be assessed in the same manner as member insurers of the Florida Life and Health Insurance Guaranty Association under part III of this chapter. Long-term care insurer impairment and insolvency assessments must be levied and collected by the plan pursuant to this part, deposited into the health insurance account established under s. 631.715, and used solely for long-term

Dear delegation members and legislative assistants,

Please see message below from Beth Duda, Executive Director of the Suncoast Campaign for Grade Level Reading. I hope you can join us for one of these screenings of *Brain Matters*, an international documentary on the importance of early brain development, early nurturing experiences, and the lifelong impact of high quality early childhood development. We must make a greater investment in the early years of a child's life. The science is clear and convincing and now policy decisions must match and support the science. I do hope Speaker Oliva does declare 2020 the Year of the Child and we, as a state, commit to investing in the lives of young children and their families. It is a great return on investment! Respectfully, kathryn

Subject: Join us for a screening of Brain Matters

Friends,

Why is it that some children thrive while other's do not? Is it a matter of genetics, IQ, socioeconomic background or education? Carlota Nelson, in her ground-breaking documentary, answers these questions in an enlightening globe-trotting journey about what truly helps make children realize their full potential…..and now is your chance to see this important film.

I hope you will participate in one of the upcoming screenings of this documentary*Brain Matters*. We have a local connection to this documentary…and we'll be hosting screenings in Charlotte, DeSoto, Manatee and Sarasota counties. Please spread the word – we want to have a full-house for each showing. I've attached a flyer with direct registration links for all the events.

Here's the background on the film. In April of 2017, The Suncoast Campaign for Grade-Level Reading worked with the international documentary film crew of *Brain Matters* and director, Carlota Nelson. As they were working on the film, funded by the Genesis Foundation, they came to the Suncoast to interview Ellen Galinsky, author of Mind in the Making, during one of her visits here. They also interviewed Kathryn Shea, CEO of The Florida Center and filmed part of a Mind in the Making workshop at Glenallen school led by Jennifer Kahler and Lora Kosten. Pamela Melton, an elementary school teacher participating in the Mind in the Making workshop and her husband Eric, allowed the crew to come to their home to film them with their two children. The final film includes footage of all of those events.

The Florida Center for Early Childhood Education is partnering with the Suncoast Campaign for Grade-Level Reading for 5 screenings of the documentary film, *Brain Matters*. We will have a screening in Charlotte County, Manatee County, Sarasota County, and two in DeSoto County. Each screening will be followed by a facilitated Q&A session. Target Audience: Early Learning Educators, K-12 Teachers, Social Services Staff, Nonprofits working with children and parents, Government agencies, Business Leaders and elected officials.

- **The following are the confirmed dates and times for the Screenings/Discussions**
    - **Sarasota County: Saturday, November 9, 2019 from 10:00am – 12:30pm at USF-SM Selby Auditorium.**
    - **Manatee County: Tuesday, November 12, 2019 from 4:00 – 6:30pm at Manatee Community Foundation.**
    - **Charlotte County: Wednesday, November 13, 2019 from 6:00 – 8:30pm at 1st United Methodist Church, Punta Gorda**
    - **DeSoto County: Friday, November 15, 2019 from 4:00 – 6:30pm AND Saturday, November 16, 2019 from 10:00am – 12:30pm at South Florida State College, DeSoto Campus**.

There was a screening of the completed film in late May in Bogotá, Colombia and one in early June in New York. This film is beautifully shot and was created to focus on the importance of brain development in the first years of life.

AMERICAN OVERSIGHT

A bill to be entitled

An act relating to pharmacy benefit managers; providing a short title; providing legislative findings; amending s. 465.003, F.S; providing the definitions of the terms "pharmacy benefit manager" and "pharmacy benefit management services"; creating s. 465.203, F.S.; providing definitions; providing that pharmacy benefit managers have a fiduciary duty and obligation to specified individuals and entities; providing requirements for service performance, contracts, and specified funds for pharmacy benefit managers; authorizing specified pharmacies and pharmacists to contract with pharmacy benefit managers; providing requirements for maximum allowable cost lists; requiring pharmacy benefit managers to respond to certain appeals within a specified timeframe; prohibiting pharmacy benefit managers from engaging in certain practices; requiring pharmacy benefit managers to allow payors access to specified records, data, and information; providing disclosure and reporting requirements; requiring certain income and financial benefits to be passed through to payors; requiring pharmacy benefit managers to allow the Department of Financial Services access to specified records, data, and information; requiring the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001241

department to investigate certain violations; providing penalties; providing that specified violations are subject to the Florida Deceptive and Unfair Trade Practices Act; providing applicability; amending ss. 624.490, 627.64741, 627.6572, and 641.314, F.S.; conforming provisions to changes made by the act; amending ss. 409.9201, 458.331, 459.015, 465.014, 465.015, 465.0156, 465.016, 465.0197, 465.022, 465.023, 465.1901, 499.003, and 893.02, F.S.; conforming cross-references; providing severability; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. This act may be cited as the "Prescription Drug Cost Reduction Act."

Section 2. The Legislature finds that the use of spread pricing, the practice of directing patients to pharmacies owned in whole or in part by pharmacy benefit managers, and other practices by pharmacy benefit managers such as charging drug manufacturers rebates to be included on a drug formulary and keeping the rebates for their own financial gain rather than passing the savings on to health plans, health plan sponsors and providers, health insurers, and patients contribute to the high cost of prescription drugs. In order to reduce the cost of

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001242

prescription drugs in this state, such practices should be prohibited.

Section 3. Section 465.003, Florida Statutes, is amended to read:

465.003 Definitions.—As used in this chapter, the term:

(1) "Administration" means the obtaining and giving of a single dose of medicinal drugs by a legally authorized person to a patient for her or his consumption.

(3) ~~(2)~~ "Board" means the Board of Pharmacy.

(9) ~~(3)~~ "Consultant pharmacist" means a pharmacist licensed by the department and certified as a consultant pharmacist pursuant to s. 465.0125.

(10) ~~(4)~~ "Data communication device" means an electronic device that receives electronic information from one source and transmits or routes it to another, including, but not limited to, any such bridge, router, switch, or gateway.

(11) ~~(5)~~ "Department" means the Department of Health.

(12) ~~(6)~~ "Dispense" means the transfer of possession of one or more doses of a medicinal drug by a pharmacist to the ultimate consumer or her or his agent. As an element of dispensing, the pharmacist shall, prior to the actual physical transfer, interpret and assess the prescription order for potential adverse reactions, interactions, and dosage regimen she or he deems appropriate in the exercise of her or his professional judgment, and the pharmacist shall certify that the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001243

medicinal drug called for by the prescription is ready for transfer. The pharmacist shall also provide counseling on proper drug usage, either orally or in writing, if in the exercise of her or his professional judgment counseling is necessary. The actual sales transaction and delivery of such drug shall not be considered dispensing. The administration shall not be considered dispensing.

(13) ~~(7)~~ "Institutional formulary system" means a method whereby the medical staff evaluates, appraises, and selects those medicinal drugs or proprietary preparations which in the medical staff's clinical judgment are most useful in patient care, and which are available for dispensing by a practicing pharmacist in a Class II or Class III institutional pharmacy.

(14) ~~(8)~~ "Medicinal drugs" or "drugs" means those substances or preparations commonly known as "prescription" or "legend" drugs which are required by federal or state law to be dispensed only on a prescription, but shall not include patents or proprietary preparations as hereafter defined.

(17) ~~(9)~~ "Patent or proprietary preparation" means a medicine in its unbroken, original package which is sold to the public by, or under the authority of, the manufacturer or primary distributor thereof and which is not misbranded under the provisions of the Florida Drug and Cosmetic Act.

(18) ~~(10)~~ "Pharmacist" means any person licensed pursuant to this chapter to practice the profession of pharmacy.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001244

(19) ~~(11)~~ (a) "Pharmacy" includes a community pharmacy, an institutional pharmacy, a nuclear pharmacy, a special pharmacy, and an Internet pharmacy.

1. The term "community pharmacy" includes every location where medicinal drugs are compounded, dispensed, stored, or sold or where prescriptions are filled or dispensed on an outpatient basis.

2. The term "institutional pharmacy" includes every location in a hospital, clinic, nursing home, dispensary, sanitarium, extended care facility, or other facility, hereinafter referred to as "health care institutions," where medicinal drugs are compounded, dispensed, stored, or sold.

3. The term "nuclear pharmacy" includes every location where radioactive drugs and chemicals within the classification of medicinal drugs are compounded, dispensed, stored, or sold. The term "nuclear pharmacy" does not include hospitals licensed under chapter 395 or the nuclear medicine facilities of such hospitals.

4. The term "special pharmacy" includes every location where medicinal drugs are compounded, dispensed, stored, or sold if such locations are not otherwise defined in this subsection.

5. The term "Internet pharmacy" includes locations not otherwise licensed or issued a permit under this chapter, within or outside this state, which use the Internet to communicate with or obtain information from consumers in this state and use

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001245

such communication or information to fill or refill prescriptions or to dispense, distribute, or otherwise engage in the practice of pharmacy in this state. Any act described in this definition constitutes the practice of pharmacy as defined in subsection (23) ~~(13)~~.

(b) The pharmacy department of any permittee shall be considered closed whenever a Florida licensed pharmacist is not present and on duty. The term "not present and on duty" shall not be construed to prevent a pharmacist from exiting the prescription department for the purposes of consulting or responding to inquiries or providing assistance to patients or customers, attending to personal hygiene needs, or performing any other function for which the pharmacist is responsible, provided that such activities are conducted in a manner consistent with the pharmacist's responsibility to provide pharmacy services.

(20) "Pharmacy benefit manager" means an entity that performs pharmacy benefit management services for a health plan, a health plan sponsor, a health plan provider, a health insurer, or any other payor. The term does not include a provider as defined in s. 641.19 or a physician as defined in s. 458.305.

(21) "Pharmacy benefit management services" means services that:

(a) Are provided, directly or through another entity, to a health plan, a health plan sponsor, a health plan provider, a

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001246

health insurer, or any other payor, regardless of whether the services provider and the health plan, health plan sponsor, health plan provider, health insurer, or other payor are related or associated by ownership, common ownership, organization, or otherwise.

(b) Include the procurement of prescription drugs to be dispensed to patients and the administration or management of prescription drug benefits, including, but not limited to, any of the following:

1. Mail service pharmacy or specialty pharmacy.

2. Claims processing, retail network management, or payment of claims to pharmacies for dispensing drugs.

3. Clinical or other formulary or preferred-drug-list development or management.

4. Negotiation, administration, or receipt of rebates, discounts, payment differentials, or other incentives, to include particular drugs in a particular category or to promote the purchase of particular drugs.

5. Patients' compliance, therapeutic intervention, or generic substitution programs.

6. Disease management.

7. Drug use review, step-therapy protocol, or prior authorization.

8. Adjudication of appeals or grievances related to prescription drug coverage.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001247

9. Contracts with network pharmacies.

10. Control of the cost of covered prescription drugs.

(22) ~~(12)~~ "Pharmacy intern" means a person who is currently registered in, and attending, a duly accredited college or school of pharmacy, or who is a graduate of such a school or college of pharmacy, and who is duly and properly registered with the department as provided for under its rules.

(23) ~~(13)~~ "Practice of the profession of pharmacy" includes compounding, dispensing, and consulting concerning contents, therapeutic values, and uses of any medicinal drug; consulting concerning therapeutic values and interactions of patent or proprietary preparations, whether pursuant to prescriptions or in the absence and entirely independent of such prescriptions or orders; and conducting other pharmaceutical services. For purposes of this subsection, "other pharmaceutical services" means the monitoring of the patient's drug therapy and assisting the patient in the management of his or her drug therapy, and includes review of the patient's drug therapy and communication with the patient's prescribing health care provider as licensed under chapter 458, chapter 459, chapter 461, or chapter 466, or similar statutory provision in another jurisdiction, or such provider's agent or such other persons as specifically authorized by the patient, regarding the drug therapy. However, nothing in this subsection may be interpreted to permit an alteration of a prescriber's directions, the diagnosis or

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001248

treatment of any disease, the initiation of any drug therapy, the practice of medicine, or the practice of osteopathic medicine, unless otherwise permitted by law. "Practice of the profession of pharmacy" also includes any other act, service, operation, research, or transaction incidental to, or forming a part of, any of the foregoing acts, requiring, involving, or employing the science or art of any branch of the pharmaceutical profession, study, or training, and shall expressly permit a pharmacist to transmit information from persons authorized to prescribe medicinal drugs to their patients. The practice of the profession of pharmacy also includes the administration of vaccines to adults pursuant to s. 465.189 and the preparation of prepackaged drug products in facilities holding Class III institutional pharmacy permits.

(24) ~~(14)~~ "Prescription" includes any order for drugs or medicinal supplies written or transmitted by any means of communication by a duly licensed practitioner authorized by the laws of the state to prescribe such drugs or medicinal supplies and intended to be dispensed by a pharmacist. The term also includes an orally transmitted order by the lawfully designated agent of such practitioner. The term also includes an order written or transmitted by a practitioner licensed to practice in a jurisdiction other than this state, but only if the pharmacist called upon to dispense such order determines, in the exercise of her or his professional judgment, that the order is valid and

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001249

necessary for the treatment of a chronic or recurrent illness. The term "prescription" also includes a pharmacist's order for a product selected from the formulary created pursuant to s. 465.186. Prescriptions may be retained in written form or the pharmacist may cause them to be recorded in a data processing system, provided that such order can be produced in printed form upon lawful request.

(15) "Nuclear pharmacist" means a pharmacist licensed by the department and certified as a nuclear pharmacist pursuant to s. 465.0126.

(5) ~~(16)~~ "Centralized prescription filling" means the filling of a prescription by one pharmacy upon request by another pharmacy to fill or refill the prescription. The term includes the performance by one pharmacy for another pharmacy of other pharmacy duties such as drug utilization review, therapeutic drug utilization review, claims adjudication, and the obtaining of refill authorizations.

(2) ~~(17)~~ "Automated pharmacy system" means a mechanical system that delivers prescription drugs received from a Florida licensed pharmacy and maintains related transaction information.

(8) ~~(18)~~ "Compounding" means combining, mixing, or altering the ingredients of one or more drugs or products to create another drug or product.

(16) ~~(19)~~ "Outsourcing facility" means a single physical location registered as an outsourcing facility under the federal

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001250

Drug Quality and Security Act, Pub. L. No. 113-54, at which sterile compounding of a drug or product is conducted.

(7) ~~(20)~~ "Compounded sterile product" means a drug that is intended for parenteral administration, an ophthalmic or oral inhalation drug in aqueous format, or a drug or product that is required to be sterile under federal or state law or rule, which is produced through compounding, but is not approved by the United States Food and Drug Administration.

(4) ~~(21)~~ "Central distribution facility" means a facility under common control with a hospital holding a Class III institutional pharmacy permit that may dispense, distribute, compound, or fill prescriptions for medicinal drugs; prepare prepackaged drug products; and conduct other pharmaceutical services.

(6) ~~(22)~~ "Common control" means the power to direct or cause the direction of the management and policies of a person or an organization, whether by ownership of stock, voting rights, contract, or otherwise.

Section 4. Section 465.203, Florida Statutes, is created to read:

465.203 Pharmacy benefit managers.—

(1) As used in this section, the term:

(a) "Affiliate" means a pharmacy:

1. In which a pharmacy benefit manager, directly or indirectly, has an investment, financial interest, or ownership

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001251

interest; or

2. The ownership of which is shared, directly or indirectly, with a pharmacy benefit manager.

(b) "Covered individual" means a member, participant, enrollee, contract holder, policyholder, or beneficiary of a payor.

(c) "Make a referral" means any of the following:

1. To order, direct, or influence, orally or in writing, a covered individual to use an affiliate, including by sending messages to the covered individual through electronic mail, a cellular telephone, or a facsimile machine, or by making telephone calls.

2. To offer or implement plan designs that require a covered individual to use an affiliate.

3. To target a covered individual or a prospective patient with advertisement, marketing, or promotion of an affiliate, including by placing a specific pharmacy name on an insurance card or health plan card supplied to the covered individual.

(d) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacy or pharmacist for a generic drug, brand name drug, specialty drug, biological product, or other prescription drug, excluding dispensing fees, before the application of copayments, coinsurance, and other cost-sharing charges, if any.

(e) "Maximum allowable cost list" means a listing of

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001252

generic drugs, brand name drugs, specialty drugs, biological products, or other prescription drugs or other methodology used directly or indirectly by a pharmacy benefit manager to set the maximum allowable costs for the drugs.

(f) "Payor" means a health plan, a health plan sponsor, a health plan provider, a health insurer, or any other payor that uses pharmacy benefit management services in this state.

(g) "Spread pricing" means the practice by a pharmacy benefit manager of charging or claiming from a payor an amount that is more than the amount the pharmacy benefit manager paid to the pharmacy or pharmacist who filled the prescription or who provided the pharmacy services.

(2)(a) A pharmacy benefit manager has a fiduciary duty and obligation to the covered individuals and the payor. A pharmacy benefit manager shall perform pharmacy benefit management services with care, skill, prudence, diligence, and professionalism and for the best interests of the covered individuals and the payor.

(b) Any provision in a contract between a pharmacy benefit manager and a payor which limits or prohibits the fiduciary duty or obligation of a pharmacy benefit manager to the covered individuals and the payor is void and against the public policy of the state.

(c) All funds received by a pharmacy benefit manager in relation to providing pharmacy benefit management services shall

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001253

be received by the pharmacy benefit manager in trust for the payor. A pharmacy benefit manager shall use or distribute such funds only for the benefit of the covered individuals or the payor.

(3) A pharmacy or pharmacist licensed or registered under this chapter which has a pharmacy permit and is in good standing with the Board of Pharmacy may contract directly or indirectly with a pharmacy benefit manager within 30 days after filing an application with the pharmacy benefit manager, without a probation period, an exclusion period, or minimum inventory requirements.

(4)(a) A maximum allowable cost list must include:

1. Average acquisition cost, including national average drug acquisition cost.

2. Average manufacturer price.

3. Average wholesale price.

4. Brand effective rate or generic effective rate.

5. Discount indexing.

6. Federal upper limits.

7. Wholesale acquisition cost.

8. Any other item that a pharmacy benefit manager or a payor may use to establish reimbursement rates to a pharmacist or pharmacy for filling prescriptions or providing other pharmacy services.

(b) A pharmacy benefit manager must respond within 7 days

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001254

after receipt of an appeal to a maximum allowable cost by a pharmacy, a pharmacist, or a pharmacy services administrative organization on behalf of a pharmacy or pharmacist. The pharmacy benefit manager's failure to respond within 7 days shall be deemed approval of the appeal.

(5) A pharmacy benefit manager may not do any of the following:

(a) Conduct or participate in spread pricing in this state.

(b) Charge a pharmacy or pharmacist a fee related to the adjudication of a claim, including, without limitation, a fee for:

1. The submission of a claim;

2. The enrollment or participation in a retail pharmacy network; or

3. The development or management of claims processing services or claims payment services related to participation in a retail pharmacy network.

(c) Deny a pharmacy or pharmacist the opportunity to participate in a pharmacy network at the preferred participation status even though the pharmacy or pharmacist is willing to accept, as a condition of the preferred participation status, the terms and conditions that the pharmacy benefit manager has established for other pharmacies that are in a pharmacy network at the preferred participation status and that are not owned in

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001255

whole or in part by the pharmacy benefit manager.

(d) Impose registration or permit requirements for a pharmacy or accreditation standards or recertification requirements for a pharmacist which are inconsistent with, more stringent than, or in addition to federal and state requirements for licensure as a pharmacy or pharmacist in this state.

(e) Pay or reimburse a pharmacy or pharmacist an amount for a drug, product, or pharmacy service in the state which is:

1. Less than the amount the pharmacy benefit manager reimburses a pharmacy benefit manager affiliate for providing the same drug, product, or pharmacy service in this state;

2. Less than the actual cost incurred by the pharmacy or pharmacist for providing the drug, product, or pharmacy service in this state; or

3. Different from the combined maximum allowable cost and dispensing fees for a drug. The dispensing fees must be a least equal to the fees for service set by the Agency for Health Care Administration.

(f) Retroactively deny, hold back, or reduce reimbursement for a covered service claim after paying a claim, unless the original claim was submitted fraudulently.

(g) Prohibit a pharmacy or pharmacist from providing information regarding drug pricing, contract terms, or drug reimbursement rates to a member of the Legislature.

(h) Drop a pharmacy or pharmacist from a pharmacy network

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001256

or plan or otherwise engage in any action to retaliate against a pharmacy or pharmacist for providing information regarding drug pricing, contract terms, or drug reimbursement rates to a member of the Legislature.

(i) Engage in the practice of the profession of pharmacy.

(j) Engage in the practice of medicine as defined s. 458.305 or the practice of osteopathic medicine as defined in s. 459.003.

(k) Make a referral.

(6) A payor shall have access to all financial and utilization records, data, and information used by the pharmacy benefit manager in relation to the pharmacy benefit management services provided to the payor.

(7) A pharmacy benefit manager shall:

(a) Disclose in writing to the payor any activity, policy, practice, contract, or arrangement of the pharmacy benefit manager which directly or indirectly presents conflicts of interest with the pharmacy benefit manager's relationship with, or fiduciary duty or obligation to, the covered individuals and the payor.

(b) Report quarterly to the payor any income resulting from pricing discounts, rebates of any kind, inflationary payments, credits, clawbacks, fees, grants, chargebacks, reimbursements, or other financial benefits received by the pharmacy benefit manager from any person or entity. The pharmacy

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001257

benefit manager shall ensure that such income and financial benefits are passed through in full, at least quarterly, to the payor to reduce the cost of prescription drugs and pharmacy services to covered individuals.

(8) The Department of Financial Services shall have access to all financial and utilization records, data, and information used by pharmacy benefit managers in relation to pharmacy benefit management services provided to payors in this state. The department shall investigate any alleged violation of this section.

(9)(a) A pharmacy benefit manager that violates this section is liable for a civil fine of $10,000 for each violation and may have its registration revoked by the Department of Financial Services.

(b) A violation of this section which is committed or performed with such frequency as to indicate a general business practice is subject to the Florida Deceptive and Unfair Trade Practices Act under part II of chapter 501.

(10) This section applies to contracts entered into or renewed on or after January 1, 2021.

Section 5. Subsection (1) of section 624.490, Florida Statutes, is amended to read:

624.490 Registration of pharmacy benefit managers.—

(1) As used in this section, the term "pharmacy benefit manager" means an ~~a person or~~ entity that performs pharmacy

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001258

benefit management services for a health plan, a health plan sponsor, a health plan provider, a health insurer, or any other payor that uses pharmacy benefit management services ~~doing business in this state which contracts to administer prescription drug benefits on behalf of a health insurer or a health maintenance organization to residents of this state~~. The term does not include a provider as defined in s. 641.19 or a physician as defined in s. 458.305. As used in this subsection, the term "pharmacy benefit management services" means services that:

(a) Are provided, directly or through another entity, to a health plan, a health plan sponsor, a health plan provider, a health insurer, or any other payor, regardless of whether the services provider and the health plan, health plan sponsor, health plan provider, health insurer, or other payor are related or associated by ownership, common ownership, organization, or otherwise.

(b) Include the procurement of prescription drugs to be dispensed to patients and the administration or management of prescription drug benefits, including, but not limited to, any of the following:

1. Mail service pharmacy or specialty pharmacy.

2. Claims processing, retail network management, or payment of claims to pharmacies for dispensing drugs.

3. Clinical or other formulary or preferred-drug-list

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001259

development or management.

4. Negotiation, administration, or receipt of rebates, discounts, payment differentials, or other incentives, to include particular drugs in a particular category or to promote the purchase of particular drugs.

5. Patients' compliance, therapeutic intervention, or generic substitution programs.

6. Disease management.

7. Drug use review, step-therapy protocol, or prior authorization.

8. Adjudication of appeals or grievances related to prescription drug coverage.

9. Contracts with network pharmacies.

10. Control of the cost of covered prescription drugs.

Section 6. Section 627.64741, Florida Statutes, is amended to read:

627.64741 Pharmacy benefit manager contracts.—

(1) As used in this section, the term:

(a) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacy or pharmacist for a generic drug, brand name drug, specialty drug, biological product, or other prescription drug, excluding dispensing fees, before ~~prior to~~ the application of copayments, coinsurance, and other cost-sharing charges, if any.

(b) "Maximum allowable cost list" means a listing of

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001260

generic drugs, brand name drugs, specialty drugs, biological products, or other prescription drugs or other methodology used directly or indirectly by a pharmacy benefit manager to set the maximum allowable costs for the drugs.

(c) "Payor" means a health plan, a health plan sponsor, a health plan provider, or any other payor that uses pharmacy benefit management services in this state.

(d) ~~(b)~~ "Pharmacy benefit manager" means an ~~a person or~~ entity that performs pharmacy benefit management services for ~~doing business in this state which contracts to administer or manage prescription drug benefits on behalf of~~ a health insurer or payor ~~to residents of this state~~. The term does not include a provider as defined in s. 641.19 or a physician as defined in s. 458.305.

(e) "Pharmacy benefit management services" means services that:

1. Are provided, directly or through another entity, to a health insurer or payor, regardless of whether the services provider and the health insurer or payor are related or associated by ownership, common ownership, organization, or otherwise.

2. Include the procurement of prescription drugs to be dispensed to patients and the administration or management of prescription drug benefits, including, but not limited to, any of the following:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001261

a. Mail service pharmacy or specialty pharmacy.

b. Claims processing, retail network management, or payment of claims to pharmacies for dispensing drugs.

c. Clinical or other formulary or preferred-drug-list development or management.

d. Negotiation, administration, or receipt of rebates, discounts, payment differentials, or other incentives, to include particular drugs in a particular category or to promote the purchase of particular drugs.

e. Patients' compliance, therapeutic intervention, or generic substitution programs.

f. Disease management.

g. Drug use review, step-therapy protocol, or prior authorization.

h. Adjudication of appeals or grievances related to prescription drug coverage.

i. Contracts with network pharmacies.

j. Control of the cost of covered prescription drugs.

(2) A contract between a health insurer or payor and a pharmacy benefit manager must require that the pharmacy benefit manager:

(a) Update maximum allowable cost pricing information at least every 7 calendar days.

(b) Maintain a process that will, in a timely manner, eliminate drugs from maximum allowable cost lists or modify drug

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001262

prices to remain consistent with changes in pricing data used in formulating maximum allowable cost prices and product availability.

(3) A contract between a health insurer or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from limiting a pharmacy's or pharmacist's ability to disclose whether the cost-sharing obligation exceeds the retail price for a covered prescription drug, and the availability of a more affordable alternative drug, pursuant to s. 465.0244.

(4) A contract between a health insurer or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from requiring an insured to make a payment for a prescription drug at the point of sale in an amount that exceeds the lesser of:

(a) The applicable cost-sharing amount; or

(b) The retail price of the drug in the absence of prescription drug coverage.

(5)(a) A pharmacy benefit manager has a fiduciary duty and obligation to the insureds and to the health insurer that uses pharmacy benefit management services or the payor. The pharmacy benefit manager must meet all the requirements of s. 465.203 and must perform pharmacy benefit management services with care, skill, prudence, diligence, and professionalism and for the best interests of the insureds and the health insurer or payor.

(b) A provision in a contract between a health insurer or

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001263

payor and a pharmacy benefit manager is void and against the public policy of the state if the policy:

1. Limits or prohibits the fiduciary duty or obligation of the pharmacy benefit manager to the insureds and the health insurer or payor; or

2. Violates any provision of s. 465.203.

(c) All funds received by a pharmacy benefit manager in relation to providing pharmacy benefit management services shall be received by the pharmacy benefit manager in trust for the health insurer or payor and shall be used or distributed only for the benefit of the insureds or the health insurer or payor.

(6) A contract between a health insurer or payor and a pharmacy benefit manager must require the maximum allowable cost list to include:

(a) Average acquisition cost, including national average drug acquisition cost.

(b) Average manufacturer price.

(c) Average wholesale price.

(d) Brand effective rate or generic effective rate.

(e) Discount indexing.

(f) Federal upper limits.

(g) Wholesale acquisition cost.

(h) Any other item that a pharmacy benefit manager or a health insurer or payor may use to establish reimbursement rates to a pharmacist or pharmacy for filling prescriptions or

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001264

providing other pharmacy services.

(7) A health insurer that uses pharmacy benefit management services or a payor shall have access to all financial and utilization records, data, and information used by the pharmacy benefit manager in relation to the pharmacy benefit management services provided to the health insurer or payor.

(8) A pharmacy benefit manager shall:

(a) Disclose in writing to the health insurer that uses pharmacy benefit management services or payor any activity, policy, practice, contract, or arrangement of the pharmacy benefit manager which directly or indirectly presents conflicts of interest with the pharmacy benefit manager's relationship with, or fiduciary duty or obligation to, the insureds and the health insurer or payor.

(b) Report quarterly to the health insurer or payor any income resulting from pricing discounts, rebates of any kind, inflationary payments, credits, clawbacks, fees, grants, chargebacks, reimbursements, or other financial benefits received by the pharmacy benefit manager from any person or entity. The pharmacy benefit manager shall ensure that such income and financial benefits are passed through in full, at least quarterly, to the health insurer or payor to reduce the cost of prescription drugs and pharmacy services to the insureds.

(9) The department shall investigate any alleged violation

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001265

of this section.

(10)(a) A pharmacy benefit manager that violates any provision of this section is liable for a civil fine of $10,000 for each violation and may have its registration revoked by the department.

(b) A violation by a pharmacy benefit manager of any provision of this section which is committed or performed with such frequency as to indicate a general business practice is subject to the Florida Deceptive and Unfair Trade Practices Act under part II of chapter 501.

(11) ~~(5)~~ This section applies to contracts entered into or renewed on or after January 1, 2021 ~~July 1, 2018~~.

Section 7. Section 627.6572, Florida Statutes, is amended to read:

627.6572 Pharmacy benefit manager contracts.—

(1) As used in this section, the term:

(a) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacy or pharmacist for a generic drug, brand name drug, specialty drug, biological product, or other prescription drug, excluding dispensing fees, before ~~prior to~~ the application of copayments, coinsurance, and other cost-sharing charges, if any.

(b) "Maximum allowable cost list" means a listing of generic drugs, brand name drugs, specialty drugs, biological products, or other prescription drugs or other methodology used

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001266

directly or indirectly by a pharmacy benefit manager to set the maximum allowable costs for the drugs.

(c) "Payor" means a health plan, a health plan sponsor, a health plan provider, or any other payor that uses pharmacy benefit management services in this state.

(d) ~~(b)~~ "Pharmacy benefit manager" means an ~~a person or~~ entity that performs pharmacy benefit management services for ~~doing business in this state which contracts to administer or manage prescription drug benefits on behalf of~~ a health insurer or payor ~~to residents of this state~~. The term does not include a provider as defined in s. 641.19 or a physician as defined in s. 458.305.

(e) "Pharmacy benefit management services" means services that:

1. Are provided, directly or through another entity, to a health insurer or payor, regardless of whether the services provider and the health insurer or payor are related or associated by ownership, common ownership, organization, or otherwise.

2. Include the procurement of prescription drugs to be dispensed to patients and the administration or management of prescription drug benefits, including, but not limited to, any of the following:

a. Mail service pharmacy or specialty pharmacy.

b. Claims processing, retail network management, or

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001267

payment of claims to pharmacies for dispensing drugs.

c. Clinical or other formulary or preferred-drug-list development or management.

d. Negotiation, administration, or receipt of rebates, discounts, payment differentials, or other incentives, to include particular drugs in a particular category or to promote the purchase of particular drugs.

e. Patients' compliance, therapeutic intervention, or generic substitution programs.

f. Disease management.

g. Drug use review, step-therapy protocol, or prior authorization.

h. Adjudication of appeals or grievances related to prescription drug coverage.

i. Contracts with network pharmacies.

j. Control of the cost of covered prescription drugs.

(2) A contract between a health insurer or payor and a pharmacy benefit manager must require that the pharmacy benefit manager:

(a) Update maximum allowable cost pricing information at least every 7 calendar days.

(b) Maintain a process that will, in a timely manner, eliminate drugs from maximum allowable cost lists or modify drug prices to remain consistent with changes in pricing data used in formulating maximum allowable cost prices and product

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001268

availability.

(3) A contract between a health insurer or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from limiting a pharmacy's or pharmacist's ability to disclose whether the cost-sharing obligation exceeds the retail price for a covered prescription drug, and the availability of a more affordable alternative drug, pursuant to s. 465.0244.

(4) A contract between a health insurer or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from requiring an insured to make a payment for a prescription drug at the point of sale in an amount that exceeds the lesser of:

(a) The applicable cost-sharing amount; or

(b) The retail price of the drug in the absence of prescription drug coverage.

(5)(a) A pharmacy benefit manager has a fiduciary duty and obligation to the insureds and to the health insurer that uses pharmacy benefit management services or the payor. The pharmacy benefit manager must meet all the requirements of s. 465.203 and must perform pharmacy benefit management services with care, skill, prudence, diligence, and professionalism and for the best interests of the insureds and the health insurer or payor.

(b) A provision in a contract between a health insurer or payor and a pharmacy benefit manager is void and against the public policy of the state if the policy:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001269

1. Limits or prohibits the fiduciary duty or obligation of the pharmacy benefit manager to the insureds and the health insurer or payor; or

2. Violates any provision of s. 465.203.

(c) All funds received by a pharmacy benefit manager in relation to providing pharmacy benefit management services shall be received by the pharmacy benefit manager in trust for the health insurer or payor and shall be used or distributed only for the benefit of the insureds or the health insurer or payor.

(6) A contract between a health insurer or payor and a pharmacy benefit manager must require the maximum allowable cost list to include:

(a) Average acquisition cost, including national average drug acquisition cost.

(b) Average manufacturer price.

(c) Average wholesale price.

(d) Brand effective rate or generic effective rate.

(e) Discount indexing.

(f) Federal upper limits.

(g) Wholesale acquisition cost.

(h) Any other item that a pharmacy benefit manager or a health insurer or payor may use to establish reimbursement rates to a pharmacist or pharmacy for filling prescriptions or providing other pharmacy services.

(7) A health insurer that uses pharmacy benefit management

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001270

services or a payor shall have access to all financial and utilization records, data, and information used by the pharmacy benefit manager in relation to the pharmacy benefit management services provided to the health insurer or payor.

(8) A pharmacy benefit manager shall:

(a) Disclose in writing to the health insurer that uses pharmacy benefit management services or the payor any activity, policy, practice, contract, or arrangement of the pharmacy benefit manager which directly or indirectly presents conflicts of interest with the pharmacy benefit manager's relationship with, or fiduciary duty or obligation to, the insureds and the health insurer or payor.

(b) Report quarterly to the health insurer or payor any income resulting from pricing discounts, rebates of any kind, inflationary payments, credits, clawbacks, fees, grants, chargebacks, reimbursements, or other financial benefits received by the pharmacy benefit manager from any person or entity. The pharmacy benefit manager shall ensure that such income and financial benefits are passed through in full, at least quarterly, to the health insurer or payor to reduce the cost of prescription drugs and pharmacy services to the insureds.

(9) The department shall investigate any alleged violation of this section.

(10)(a) A pharmacy benefit manager that violates any

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001271

provision of this section is liable for a civil fine of $10,000 for each violation and may have its registration revoked by the department.

(b) A violation by a pharmacy benefit manager of any provision of this section which is committed or performed with such frequency as to indicate a general business practice is subject to the Florida Deceptive and Unfair Trade Practices Act under part II of chapter 501.

(11) ~~(5)~~ This section applies to contracts entered into or renewed on or after January 1, 2021 ~~July 1, 2018~~.

Section 8. Section 641.314, Florida Statutes, is amended to read:

641.314 Pharmacy benefit manager contracts.—

(1) As used in this section, the term:

(a) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacy or pharmacist for a generic drug, brand name drug, specialty drug, biological product, or other prescription drug, excluding dispensing fees, before ~~prior to~~ the application of copayments, coinsurance, and other cost-sharing charges, if any.

(b) "Maximum allowable cost list" means a listing of generic drugs, brand name drugs, specialty drugs, biological products, or other prescription drugs or other methodology used directly or indirectly by a pharmacy benefit manager to set the maximum allowable costs for the drugs.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001272

(c) "Payor" means a health plan, a health plan sponsor, a health plan provider, or any other payor that uses pharmacy benefit management services in this state.

(d) ~~(b)~~ "Pharmacy benefit manager" means an ~~a person or~~ entity that performs pharmacy benefit management services for ~~doing business in this state which contracts to administer or manage prescription drug benefits on behalf of~~ a health maintenance organization or payor ~~to residents of this state~~. The term does not include a provider as defined in s. 641.19 or a physician as defined in s. 458.305.

(e) "Pharmacy benefit management services" means services that:

1. Are provided, directly or through another entity, to a health maintenance organization or payor, regardless of whether the services provider and the health maintenance organization or payor are related or associated by ownership, common ownership, organization, or otherwise.

2. Include the procurement of prescription drugs to be dispensed to patients and the administration or management of prescription drug benefits, including, but not limited to, any of the following:

a. Mail service pharmacy or specialty pharmacy.

b. Claims processing, retail network management, or payment of claims to pharmacies for dispensing drugs.

c. Clinical or other formulary or preferred-drug-list

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001273

development or management.

d. Negotiation, administration, or receipt of rebates, discounts, payment differentials, or other incentives, to include particular drugs in a particular category or to promote the purchase of particular drugs.

e. Patients' compliance, therapeutic intervention, or generic substitution programs.

f. Disease management.

g. Drug use review, step-therapy protocol, or prior authorization.

h. Adjudication of appeals or grievances related to prescription drug coverage.

i. Contracts with network pharmacies.

j. Control of the cost of covered prescription drugs.

(2) A contract between a health maintenance organization or payor and a pharmacy benefit manager must require that the pharmacy benefit manager:

(a) Update maximum allowable cost pricing information at least every 7 calendar days.

(b) Maintain a process that will, in a timely manner, eliminate drugs from maximum allowable cost lists or modify drug prices to remain consistent with changes in pricing data used in formulating maximum allowable cost prices and product availability.

(3) A contract between a health maintenance organization

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001274

or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from limiting a pharmacy's or pharmacist's ability to disclose whether the cost-sharing obligation exceeds the retail price for a covered prescription drug, and the availability of a more affordable alternative drug, pursuant to s. 465.0244.

(4) A contract between a health maintenance organization or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from requiring a subscriber to make a payment for a prescription drug at the point of sale in an amount that exceeds the lesser of:

(a) The applicable cost-sharing amount; or

(b) The retail price of the drug in the absence of prescription drug coverage.

(5)(a) A pharmacy benefit manager has a fiduciary duty and obligation to the subscribers and to the health maintenance organization that uses pharmacy benefit management services or a payor. The pharmacy benefit manager must meet all the requirements of s. 465.203 and must perform pharmacy benefit management services with care, skill, prudence, diligence, and professionalism and for the best interests of the subscribers and the health maintenance organization or payor.

(b) A provision in a contract between a health maintenance organization or payor and a pharmacy benefit manager is void and against the public policy of this state if the policy:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001275

1. Limits or prohibits the fiduciary duty or obligation of the pharmacy benefit manager to the insureds and the health maintenance organization or payor; or

2. Violates any provision of s. 465.203.

(c) All funds received by a pharmacy benefit manager in relation to providing pharmacy benefit management services shall be received by the pharmacy benefit manager in trust for the health maintenance organization or payor and shall be used or distributed only for the benefit of the insureds or the health maintenance organization or payor.

(6) A contract between a health maintenance organization or payor and a pharmacy benefit manager must require the maximum allowable cost list to include:

(a) Average acquisition cost, including national average drug acquisition cost.

(b) Average manufacturer price.

(c) Average wholesale price.

(d) Brand effective rate or generic effective rate.

(e) Discount indexing.

(f) Federal upper limits.

(g) Wholesale acquisition cost.

(h) Any other item that a pharmacy benefit manager or a health maintenance organization or payor may use to establish reimbursement rates to a pharmacist or pharmacy for filling prescriptions or providing other pharmacy services.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001276

(7) A health maintenance organization that uses pharmacy benefit management services or a payor shall have access to all financial and utilization records, data, and information used by the pharmacy benefit manager in relation to the pharmacy benefit management services provided to the health maintenance organization or payor.

(8) A pharmacy benefit manager shall:

(a) Disclose in writing to the maintenance organization that uses pharmacy benefit management services or the payor any activity, policy, practice, contract, or arrangement of the pharmacy benefit manager which directly or indirectly presents conflicts of interest with the pharmacy benefit manager's relationship with, or fiduciary duty or obligation to, the subscribers and the health maintenance organization or payor.

(b) Report quarterly to the health maintenance organization or payor any income resulting from pricing discounts, rebates of any kind, inflationary payments, credits, clawbacks, fees, grants, chargebacks, reimbursements, or other financial benefits received by the pharmacy benefit manager from any person or entity. The pharmacy benefit manager shall ensure that such income and financial benefits are passed through in full, at least quarterly, to the health maintenance organization or payor to reduce the cost of prescription drugs and pharmacy services to the subscribers.

(9) The department shall investigate any alleged violation

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001277

of this section.

(10)(a) A pharmacy benefit manager that violates any provision of this section is liable for a civil fine of $10,000 for each violation and may have its registration revoked by the department.

(b) A violation of any provision of this section which is committed or performed with such frequency as to indicate a general business practice is subject to the Florida Deceptive and Unfair Trade Practices Act under part II of chapter 501.

(11)~~(5)~~ This section applies to contracts entered into or renewed on or after January 1, 2021 ~~July 1, 2018~~.

Section 9. Paragraph (a) of subsection (1) of section 409.9201, Florida Statutes, is amended to read:

409.9201 Medicaid fraud.—

(1) As used in this section, the term:

(a) "Prescription drug" means any drug, including, but not limited to, finished dosage forms or active ingredients that are subject to, defined in, or described in s. 503(b) of the Federal Food, Drug, and Cosmetic Act or in s. 465.003(14) ~~465.003(8)~~, s. 499.003(17), s. 499.007(13), or s. 499.82(10).

The value of individual items of the legend drugs or goods or services involved in distinct transactions committed during a single scheme or course of conduct, whether involving a single person or several persons, may be aggregated when determining

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001278

the punishment for the offense.

Section 10. Paragraph (pp) of subsection (1) of section 458.331, Florida Statutes, is amended to read:

458.331 Grounds for disciplinary action; action by the board and department.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(pp) Applicable to a licensee who serves as the designated physician of a pain-management clinic as defined in s. 458.3265 or s. 459.0137:

1. Registering a pain-management clinic through misrepresentation or fraud;

2. Procuring, or attempting to procure, the registration of a pain-management clinic for any other person by making or causing to be made, any false representation;

3. Failing to comply with any requirement of chapter 499, the Florida Drug and Cosmetic Act; 21 U.S.C. ss. 301-392, the Federal Food, Drug, and Cosmetic Act; 21 U.S.C. ss. 821 et seq., the Drug Abuse Prevention and Control Act; or chapter 893, the Florida Comprehensive Drug Abuse Prevention and Control Act;

4. Being convicted or found guilty of, regardless of adjudication to, a felony or any other crime involving moral turpitude, fraud, dishonesty, or deceit in any jurisdiction of the courts of this state, of any other state, or of the United States;

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001279

5. Being convicted of, or disciplined by a regulatory agency of the Federal Government or a regulatory agency of another state for, any offense that would constitute a violation of this chapter;

6. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to the practice of, or the ability to practice, a licensed health care profession;

7. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to health care fraud;

8. Dispensing any medicinal drug based upon a communication that purports to be a prescription as defined in s. 465.003 ~~465.003(14)~~ or s. 893.02 if the dispensing practitioner knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship; or

9. Failing to timely notify the board of the date of his or her termination from a pain-management clinic as required by s. 458.3265(3).

Section 11. Paragraph (rr) of subsection (1) of section 459.015, Florida Statutes, is amended to read:

459.015 Grounds for disciplinary action; action by the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001280

board and department.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(rr) Applicable to a licensee who serves as the designated physician of a pain-management clinic as defined in s. 458.3265 or s. 459.0137:

1. Registering a pain-management clinic through misrepresentation or fraud;

2. Procuring, or attempting to procure, the registration of a pain-management clinic for any other person by making or causing to be made, any false representation;

3. Failing to comply with any requirement of chapter 499, the Florida Drug and Cosmetic Act; 21 U.S.C. ss. 301-392, the Federal Food, Drug, and Cosmetic Act; 21 U.S.C. ss. 821 et seq., the Drug Abuse Prevention and Control Act; or chapter 893, the Florida Comprehensive Drug Abuse Prevention and Control Act;

4. Being convicted or found guilty of, regardless of adjudication to, a felony or any other crime involving moral turpitude, fraud, dishonesty, or deceit in any jurisdiction of the courts of this state, of any other state, or of the United States;

5. Being convicted of, or disciplined by a regulatory agency of the Federal Government or a regulatory agency of another state for, any offense that would constitute a violation of this chapter;

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001281

6. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to the practice of, or the ability to practice, a licensed health care profession;

7. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to health care fraud;

8. Dispensing any medicinal drug based upon a communication that purports to be a prescription as defined in s. 465.003 ~~465.003(14)~~ or s. 893.02 if the dispensing practitioner knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship; or

9. Failing to timely notify the board of the date of his or her termination from a pain-management clinic as required by s. 459.0137(3).

Section 12. Subsection (1) of section 465.014, Florida Statutes, is amended to read:

465.014 Pharmacy technician.—

(1) A person other than a licensed pharmacist or pharmacy intern may not engage in the practice of the profession of pharmacy, except that a licensed pharmacist may delegate to pharmacy technicians who are registered pursuant to this section

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001282

1051 those duties, tasks, and functions that do not fall within the
1052 purview of s. 465.003(23) ~~465.003(13)~~. All such delegated acts
1053 must be performed under the direct supervision of a licensed
1054 pharmacist who is responsible for all such acts performed by
1055 persons under his or her supervision. A registered pharmacy
1056 technician, under the supervision of a pharmacist, may initiate
1057 or receive communications with a practitioner or his or her
1058 agent, on behalf of a patient, regarding refill authorization
1059 requests. A licensed pharmacist may not supervise more than one
1060 registered pharmacy technician unless otherwise permitted by the
1061 guidelines adopted by the board. The board shall establish
1062 guidelines to be followed by licensees or permittees in
1063 determining the circumstances under which a licensed pharmacist
1064 may supervise more than one pharmacy technician.
1065 Section 13. Paragraph (c) of subsection (2) of section
1066 465.015, Florida Statutes, is amended to read:
1067 465.015 Violations and penalties.—
1068 (2) It is unlawful for any person:
1069 (c) To sell or dispense drugs as defined in s. 465.003(14)
1070 ~~465.003(8)~~ without first being furnished with a prescription.
1071 Section 14. Subsection (9) of section 465.0156, Florida
1072 Statutes, is amended to read:
1073 465.0156 Registration of nonresident pharmacies.—
1074 (9) Notwithstanding s. 465.003(18) ~~465.003(10)~~, for
1075 purposes of this section, the registered pharmacy and the

AMERICAN OVERSIGHT

pharmacist designated by the registered pharmacy as the prescription department manager or the equivalent must be licensed in the state of location in order to dispense into this state.

Section 15. Paragraph (s) of subsection (1) of section 465.016, Florida Statutes, is amended to read:

465.016 Disciplinary actions.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(s) Dispensing any medicinal drug based upon a communication that purports to be a prescription as defined in ~~by~~ s. 465.003 ~~465.003(14)~~ or s. 893.02 when the pharmacist knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship.

Section 16. Subsection (4) of section 465.0197, Florida Statutes, is amended to read:

465.0197 Internet pharmacy permits.—

(4) Notwithstanding s. 465.003(18) ~~465.003(10)~~, for purposes of this section, the Internet pharmacy and the pharmacist designated by the Internet pharmacy as the prescription department manager or the equivalent must be licensed in the state of location in order to dispense into this state.

Section 17. Paragraph (j) of subsection (5) of section 465.022, Florida Statutes, is amended to read:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001284

465.022 Pharmacies; general requirements; fees.—

(5) The department or board shall deny an application for a pharmacy permit if the applicant or an affiliated person, partner, officer, director, or prescription department manager or consultant pharmacist of record of the applicant:

(j) Has dispensed any medicinal drug based upon a communication that purports to be a prescription as defined in ~~by~~ s. 465.003 ~~465.003(14)~~ or s. 893.02 when the pharmacist knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship that includes a documented patient evaluation, including history and a physical examination adequate to establish the diagnosis for which any drug is prescribed and any other requirement established by board rule under chapter 458, chapter 459, chapter 461, chapter 463, chapter 464, or chapter 466.

For felonies in which the defendant entered a plea of guilty or nolo contendere in an agreement with the court to enter a pretrial intervention or drug diversion program, the department shall deny the application if upon final resolution of the case the licensee has failed to successfully complete the program.

Section 18. Paragraph (h) of subsection (1) of section 465.023, Florida Statutes, is amended to read:

465.023 Pharmacy permittee; disciplinary action.—

(1) The department or the board may revoke or suspend the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001285

permit of any pharmacy permittee, and may fine, place on probation, or otherwise discipline any pharmacy permittee if the permittee, or any affiliated person, partner, officer, director, or agent of the permittee, including a person fingerprinted under s. 465.022(3), has:

(h) Dispensed any medicinal drug based upon a communication that purports to be a prescription as defined in ~~by~~ s. 465.003 ~~465.003(14)~~ or s. 893.02 when the pharmacist knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship that includes a documented patient evaluation, including history and a physical examination adequate to establish the diagnosis for which any drug is prescribed and any other requirement established by board rule under chapter 458, chapter 459, chapter 461, chapter 463, chapter 464, or chapter 466.

Section 19. Section 465.1901, Florida Statutes, is amended to read:

465.1901 Practice of orthotics and pedorthics.—The provisions of chapter 468 relating to orthotics or pedorthics do not apply to any licensed pharmacist or to any person acting under the supervision of a licensed pharmacist. The practice of orthotics or pedorthics by a pharmacist or any of the pharmacist's employees acting under the supervision of a pharmacist shall be construed to be within the meaning of the term "practice of the profession of pharmacy" as defined ~~set~~

AMERICAN OVERSIGHT

~~forth~~ in s. 465.003 ~~465.003(13)~~, and shall be subject to regulation in the same manner as any other pharmacy practice. The Board of Pharmacy shall develop rules regarding the practice of orthotics and pedorthics by a pharmacist. Any pharmacist or person under the supervision of a pharmacist engaged in the practice of orthotics or pedorthics is not precluded from continuing that practice pending adoption of these rules.

Section 20. Subsection (40) of section 499.003, Florida Statutes, is amended to read:

499.003 Definitions of terms used in this part.—As used in this part, the term:

(40) "Prescription drug" means a prescription, medicinal, or legend drug, including, but not limited to, finished dosage forms or active pharmaceutical ingredients subject to, defined by, or described by s. 503(b) of the federal act or s. 465.003(14) ~~465.003(8)~~, s. 499.007(13), subsection (31), or subsection (47), except that an active pharmaceutical ingredient is a prescription drug only if substantially all finished dosage forms in which it may be lawfully dispensed or administered in this state are also prescription drugs.

Section 21. Paragraph (c) of subsection (24) of section 893.02, Florida Statutes, is amended to read:

893.02 Definitions.—The following words and phrases as used in this chapter shall have the following meanings, unless the context otherwise requires:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001287

(24) "Prescription" includes any order for drugs or medicinal supplies which is written or transmitted by any means of communication by a licensed practitioner authorized by the laws of this state to prescribe such drugs or medicinal supplies, is issued in good faith and in the course of professional practice, is intended to be dispensed by a person authorized by the laws of this state to do so, and meets the requirements of s. 893.04.

(c) A prescription for a controlled substance may not be issued on the same prescription blank with another prescription for a controlled substance that is named or described in a different schedule or with another prescription for a medicinal drug, as defined in s. 465.003 ~~465.003(8)~~, that is not a controlled substance.

Section 22. If any provision of this act or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Section 23. This act shall take effect January 1, 2021.

Subject: Rep. James Buchanan HB 941 Question Follow-Up

Good Afternoon Hilary,

I appreciate meeting with you and Jo yesterday and the opportunity to answer some of your questions.

Please find attached the information we compiled in conjunction with our office, stakeholders, and substance abuse experts.
Information provided:

- Intent
- Competitors
- Marchman Act Information
- Substance Abuse Services Efficacy
- Example of Terms of Service
- Privacy Policy
- Letter of Support for such services

Thank you,

Christopher Hodge, MBA

AMERICAN OVERSIGHT

First Step
Addiction Recovery Programs

Chuck Madden, CEO
Trust but Verify
1626 Ringling Blvd.
Sarasota, FL 34236

Dear Chuck:

Since beginning as a Beta testing site for the Trust but Verify Phone Application in early 2019, First Step of Sarasota has experienced many positives as a direct result of utilization of this app beyond accountability. Clients that have used the app for tracking sober support/12 step meeting attendance have reported that they like the app and the ease of checking in and out of meetings. The paper format used prior to this app for verification of attendance not only took away the anonymous factor for many clients but, also left First Step staff questioning the verifiability. Clients also report that they like how they are able to access available meetings nearby and at convenient times with ease which has increased engagement in sober support meetings. Clients also have the ability to have a compiled list of all meetings documenting they have attended which has proven to be helpful for family or judicial court related proceedings.

The TBV app aids the counselor and client relationship. Counselors are able to check in with their clients via a messaging system between face-to-face contacts. Counselors can "nudge" clients that have not been engaging in meetings or can send a message reminding clients of upcoming appts. This allows the TBV app to become a treatment "extender" helping to ensure additional recovery support beyond the clinical setting. One of the most important indicators of potential treatment success is how engaged the individual is in 12 step recovery. This app is proving to improve treatment outcomes by reinforcing exposure to support systems outside of our clinical office.

As a result of our positive experience with the TBV app, First Step outpatient is expanding its utilization with Child Welfare parents through our Family Safety Program and plan to implement it as part of our Road to Recovery initiative with Sarasota County Jail. Our project Recovery Peer Specialist will make the app available to inmates with opiate disorders exiting jail into the community. It will be a part of an overall treatment based transition program.

In closing, First Step feels fortunate to have the opportunity to be an initial partner with TBV and are happy to share our experience further with those who might have additional questions.

Best regards,

Phillip J. "P.J." Brooks, MA, LMHC

HB 941 *Substance Abuse Services* Act Children, Family, Seniors Question

Follow-Up to January 16th Staff Meeting

Surgeon General: 1 in 7 in USA will face substance addiction
https://www.usatoday.com/story/news/nation-now/2016/11/17/surgeon-general-1-7-us-face-substance-addiction/93993474/

- Intent: Provide for the state a means for use of an Opt-In Application of Technology for electronic verification in conjunction with traditional verification means. This is another tool in the belt of the state to help combat addiction.
- Safe use of third-party service with protected cloud based service utility
- State of Florida already employs electronic verification of location and other biometrics in regards to ankle monitoring bracelets and urine tests for verification of use of banned or illicit substances.

a. Dynamicare is an evidenced based digital platform that reinforces a person's recovery from addiction and rewards healthy behavior.

How often do people ordered to substance abuse treatment receive self-help group mandates?

- 59% of AA members received treatment / counseling prior to entering the program
- 397.334: "Treatment-based drug court programs may include pretrial intervention programs as provided in ss. 948.08, 948.16, and 985.345, treatment-based drug court programs authorized in chapter 39, postadjudicatory programs as provided in ss. 948.01, 948.06, and 948.20, and review of the status of compliance or noncompliance of sentenced offenders through a treatment-based drug court program. While enrolled in a treatment-based drug court program, the participant is subject to a coordinated strategy developed by a drug court team under subsection (4). The coordinated strategy may include a protocol of sanctions that may be imposed upon the participant for noncompliance with program rules. The protocol of sanctions may include, but is not limited to, placement in a substance abuse treatment program offered by a licensed service provider as defined in s. 397.311"

If Marchman Acted (sent to licensed treatment center) is there also a self-help component?

- Submitted by person on behalf of another individual (in county where individual is located)
- Assessment (up to 5 days), stabilization and long-term treatment (up to 60 days)
- Trained medical professionals assess patient and make treatment recommendations (delivered to the court)
- No punishment for non-compliance, however petitioner can open civil case and repercussions can be put in place if patient does not comply with Marchman rules

How successful are groups like AA?

- 2014 Member Survey
  - 27% Sober < 1 Year
  - 24% 1-5 Years
- **https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2746426/**
  - Rates of abstinence are about twice as high among those who attend AA (study)
  - Higher levels of attendance are related to higher rates of abstinence (study)
  - Prior AA attendance is predictive of subsequent abstinence (study)

AMERICAN OVERSIGHT

Are there any mandated self-help assignments in prior statutes?

Proof of Attendance at Meetings

- Some judges require written proof that offenders have attended a certain number of meetings. Often, when the court-ordered newcomer attends an A.A. meeting, the group secretary (or other group officer) is willing to sign their first name, or to initial a slip furnished by the court saying so-and-so was at the meeting on a particular date. Hopefully, all involved recognize that neither the group nor its members are "bound" in any way by the signature, nor does this courtesy signify affiliation of the A.A. group with any other program or guarantee that the attendee was present for the entire meeting; it simply illustrates cooperation. Court professionals should understand too, that attendance at A.A. meetings doesn't guarantee sobriety.
- Placing great emphasis on A.A.'s principle of Anonymity, we understand that some A.A. members are uncomfortable when asked to sign their full name or to supply other personal information indicating that they are A.A. members. This cherished Tradition of Anonymity provides protection to all A.A.s from being publicly identified as alcoholics, a safeguard especially important to the newcomer. Since each group is autonomous, and providing proof of attendance at meetings is *not* a specific part of A.A.'s program, each group and group member has the right to choose whether or not to sign court slips.
- While some groups have elected not to sign court cards, it is our experience that most groups will try to cooperate with our professional friends. In some areas, courts furnish cooperating A.A. groups with sealed, stamped envelopes addressed to the court. In general, the secretary of the group announces that anybody needing an envelope may get it after the meeting. The newcomer takes the envelope, privately writes his or her name and/or return address on it, and mails it. In other areas, each cooperating group has a sheet, furnished by the court, that the secretary announces is available for court ordered newcomers to sign after the meeting. The secretary returns the sheets in envelopes furnished by the referring agency. In this way, it is not the A.A. group, but the prospect's own signature which affirms he or she was at the meeting.
    - https://www.aa.org/pages/en_US/alcoholics-anonymous-as-a-resource-for-drug-and-alcohol-court-professionals

- So doing violates the Establishment Clause, guaranteeing that at a minimum, "government may not coerce anyone to support or participate in religion or its exercise, or otherwise act in a way which establishes a [state] religion or religious faith, or tends to do so." (Lee v. Weisman, 1992, U.S. Supreme Court on school prayer.) In short, while not deemed an actual religion, AA – with the steps' numerous references to "God" – is considered to contain enough religious components to make coerced attendance unconstitutional, despite the fact that attendees commonly argue that the 12 steps are "spiritual," not religious.
    - https://www.rehabs.com/pro-talk-articles/you-cant-make-me-or-can-you-mandated-aa-attendance/
    - https://www.drugrehab.com/treatment/court-ordered/

AMERICAN OVERSIGHT

Who would be paying for the app? Users, groups or states?

- Users ($20 / Month for specific service in HB 941
- Provide to state
- Intent is to provide no mandate for exclusive electronic verification

Biometric concerns – data storage and usage?

Court Ordered use

Stakeholder Point of View & Talking Points

How often do people ordered to substance abuse treatment receive self-help group mandates?

1. Based on my experience, nearly 100% of people ordered to substance abuse treatment are either mandated or strongly encouraged to attend some form of self-help meetings in addition to any formal programming
2. Can't speak to the balance of the paragraph other than to state that ALL drug court and other addiction courts that I am familiar with strongly suggest or mandate self-help group attendance in addition to court mandates

If Marchman Acted is there a self-help component?

1. All Marchman Act holding facilities incorporate self-help meetings within the facilities.
2. Upon discharge, self-help meeting attendance is strongly encouraged along with professional substance abuse treatment for all Marchman acted individuals

How successful are groups like AA?

1. I think it is important to not focus solely on AA, but to look at all self-help groups nationally. While it remains very difficult to get actual statistics on 'self-help" success, most people in long-term recovery will reference the importance of meeting like mined people and self-help meeting attendance as important or very important in their early recovery.
2. A regularly accepted recovery anecdote is "90 meetings in 90 days 90% chance of remaining sober/clean at 1 year"
3. As a founder of TBV, I can state unequivocally that meeting attendance and the people I met in those meetings saved my life and is one of the most important factors in my sobriety

Are there any mandated self-help assignments in prior statutes?

1. Can't speak to the majority of this section however I will state that my experience across the country shows me that self-help attendance is mandated or strongly encouraged in very state and within multiple verticals within each state, not to mention nearly every outpatient treatment program and upon discharge from most inpatient programs.

AMERICAN OVERSIGHT

2. The current method of "honor method" reporting of attendance is ineffective and potentially damaging. The court wants you attend therefore the court should actually want to know if the person actually attended. The court would never accept a "self-reported result" for a urinalysis and should treat meeting attendance compliance the same way.
3. TBV provides BETTER anonymity for the court ordered person because they can provide proof of attendance without having to present themselves to a chairperson for a signature.
4. TBV offers self-help meetings in many genres. Some 12 step with religious undertones (AA, NA, Celebrate Recovery). Some secular (Life Ring, Smart Recovery) and a Buddhist inspired group (Refuge Recovery) and recovery yoga. Referring someone to self-help, does not equate to referring someone to a religious program.

Who would be paying for the app?

1. TBV is designed to paid for by the person attending the group meetings similar to drug testing costs, interlock devices etc. We have established a price of $20/mnth/client as a very low barrier to entry. (This is designed to help the recovery community not hurt). Additionally, TBV is in the process of issuing thousands of free licenses to assist the recovery and ultimately TBV will have a 501c3 sister group that will give away a free license for every 20 sold and as looking at sponsoring (paying for) detox and half-way house beds in markets where we operate

Example of End User License Agreement and Privacy Policy for Florida based business

TBV ME, CO.
TBV ME End-User License Agreement (Android)

THIS IS A LEGAL AGREEMENT BETWEEN YOU AS THE PERSON ACQUIRING THE SOFTWARE AND/OR YOUR COMPANY IF YOU HAVE ACQUIRED THE SOFTWARE FOR YOUR COMPANY (COLLECTIVELY, "CUSTOMER") AND TBV ME, CO. ("LICENSOR") REGARDING YOUR USE OF THE TBV PLATFORM SOFTWARE AND ALL DATA OR CONTENT THAT IS ACCESSED OR UTILIZED BY THE TBV PLATFORM SOFTWARE (COLLECTIVELY THE "SOFTWARE"). BY INSTALLING OR USING THE SOFTWARE, YOU AGREE TO BE BOUND BY TERMS OF THIS END-USER LICENSE AGREEMENT (THE "AGREEMENT"). IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT, YOU ARE NOT ENTITLED TO USE THE SOFTWARE AND MUST UNINSTALL THE SOFTWARE FROM ANY COMPUTERS OR DEVICES ON WHICH IT IS INSTALLED.

Licensor hereby grants and You accept a non-exclusive, non-transferable license, without the right to sublicense, to use the Software, subject to the following terms and conditions:

1. Proprietary Rights

The Software, including any documentation, is subject to the protection of the copyright laws of the U.S. and foreign jurisdictions, which prohibit unauthorized copying and distribution of copyrighted works. The Software and documentation incorporate Licensor's proprietary and confidential algorithms and techniques that are subject to legal protection as trade secrets. You are granted only those rights expressly conferred by the license grant set forth in Section 2 of this Agreement.

2. License Grant

Licensor grants you a non-transferable, non-exclusive, worldwide license, without the right to sublicense, to install and use the Software on a single device solely for your use in a manner consistent with the terms of this Agreement.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001295

3. Reserved Rights

Licensor reserves any rights not expressly granted in Section 2. Without limiting the foregoing, Licensor reserves the right to license the Software and documentation to others on such terms as Licensor may establish in its sole discretion.

4. Restrictions

You may not:

a. Use the Software except as expressly authorized in this Agreement;
b. License, sublicense, sell, resell, transfer, assign, distribute, hypothecate, lease, loan or otherwise convey, commercially exploit or make available to any third party the Software or documentation in any way;
c. Send to licensor material containing software viruses, worms, Trojan horses or other harmful computer code, files, scripts, agents or programs, or otherwise interfere with or disrupt the integrity or performance of the Software;
d. Modify, translate or adapt the Software or documentation, incorporate the Software or documentation in whole or in part in any other product or create derivative works based on all or part of the Software or documentation;
e. Copy the Software or documentation in any manner or for any purpose.
f. Install or use the Software in a network or similar configuration which permits access by more than one user or device at a time;
g. Disassemble, decrypt, extract, reverse engineer or reverse compile the Software, or otherwise attempt to discover the confidential algorithms and techniques incorporated in the Software, or disclose or use any confidential information of Licensor in any manner other than as expressly authorized in this Agreement; or
h. Share Your login with any other person (including another user or other third party).

You are expected to adhere to certain norms in Your interaction with other users of the Software and Your treatment of the information that the Software provides. Use of the information available in the Software for any commercial or political solicitations is strictly prohibited. Such unauthorized use may result in termination of this license and denial of access to the Software.

This Software is for Your personal use only. Use of this directory or the information available for any other purpose, including, but not limited to, reproducing, and storing in a retrieval system by any means, electronic or mechanical, photocopying or using the addresses (electronic or otherwise) or other information contained in this directory for any commercial or political purpose or mailing is strictly prohibited and is in direct violation of copyright and constitutes misappropriation of corporate property. Such unauthorized use may also violate the rights of privacy and/or publicity of individuals.

5. Term

This Agreement is effective until terminated. The Agreement and Your right to install and use the Software and documentation will automatically terminate without notice in the event of any failure by You to comply with any of the above restrictions or any term of this Agreement. Upon termination, You shall destroy or delete all copies of the Software in Your possession. All provisions of Sections 1, 7 and 8 of this Agreement shall survive termination.

6. Android-Enabled Software Applications:

Licensor offers software applications that are intended to be operated in connection with products made commercially available by third parties that operate using the Android operating system, which is owned by Google Inc. ("Google"). With respect to the Software that is made available for your use in connection with a Google-branded product, in addition to the other terms and conditions set forth in this Agreement, the following terms and conditions apply:

a. Licensor and you acknowledge that this Agreement is concluded between Licensor and you only, and not with Google, and that as between Licensor and Google, Licensor, not Google, is solely responsible for the Software and the content thereof.
b. The Google Play marketplace is owned and operated by Google. Your use of Google Play is governed by a legal agreement between you and Google consisting of the Google Terms of Service (found at

AMERICAN OVERSIGHT

http://www.google.com/intl/en/policies/terms/) and the Google Play Terms of Service (found at https://play.google.com/intl/en-US_us/about/play-terms.html, and together with the Google Terms of Service called the "Terms"). In addition, your use of Google Play is subject to the Google Play Business and Program Policies (found at http://play.google.com/about/android-developer-policies.html). The Google Play Market Terms of Service, Google Play Business and Program Policies, and Google Terms of Service shall take precedence in that order in the event of a conflict between them, to the extent of such conflict.

c. Your license to use the Software is limited to a non-transferable license to use the Software on a product that you own or control, as permitted by the terms of this Agreement.
d. Google has no obligation whatsoever to provide any maintenance or support services with respect to the Software.
e. To the maximum extent permitted by applicable law, Google will have no warranty obligation whatsoever with respect to the Software, and will not be liable for any claims, losses, liabilities, damages, costs or expenses attributable to any failure to conform to any warranty.
f. Licensor and you acknowledge that Licensor, not Google, is responsible for addressing any claims of you or any third party relating to the Software or your possession and/or use of the Software, including, but not limited to: (i) product liability claims; (ii) any claim that the Software fails to conform to any applicable legal or regulatory requirement; and (iii) claims arising under consumer protection or similar legislation.
g. In the event of any third party claim that the Software or the end-user's possession and use of the Software infringes that third party's intellectual property rights, as between Licensor and Google, Licensor, not Google, will be solely responsible for the investigation, defense, settlement and discharge of any such intellectual property infringement claim.
h. You represent and warrant that (i) you are not located in a country that is subject to a U.S. Government embargo, or that has been designated by the U.S. Government as a "terrorist supporting" country; and (ii) you are not listed on any U.S. Government list of prohibited or restricted parties.
i. If you have any questions, complaints or claims with respect to the Software, they should be directed to Licensor.

7. Limited Warranty

a. You acknowledge and agree that the Software is provided "AS IS" without warranty of any kind. This is Licensor's entire liability and Your sole and exclusive remedy in connection with any breach of this Agreement, including, but not limited to, any breach of warranty. By accepting this Agreement, You acknowledge and agree that Licensor cannot and does not guarantee or warrant that files available for downloading through the Internet will be free of infection or viruses, worms, Trojan horses or other code that manifests contaminating or destructive properties. You download all files at Your own risk.

b. LICENSOR DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NONINFRINGEMENT OF THIRD PARTIES' INTELLECTUAL PROPERTY RIGHTS.

8. Limitation of Liability

In no event will Licensor be liable for any damages including any lost profits or other incidental, special, punitive, exemplary, direct, indirect or consequential damages, arising out of or related to the Software, documentation or the use thereof, even if Licensor has been advised, or is otherwise aware, of the possibility of such damages and even if the warranty remedy of Section 7 fails of its essential purpose. You agree that the Limited Warranty of Section 7 and the Limited Liability of Section b are reasonable in light of the licenses fees paid under the License Agreement.

Some states do not allow exclusion of implied warranties or limitation of liability for incidental, special, punitive, or other indirect or consequential damages, so the limitations or exclusions of Sections 7 and 8 of the License Agreement may not apply to You. IN SUCH STATES, THE LIABILITY OF LICENSOR SHALL BE LIMITED TO THE GREATEST EXTENT PERMITTED BY LAW.

9. Miscellaneous

This Agreement, the license granted hereunder, the Software, any modifications thereto and any Services may not be assigned or in any way transferred without the prior written consent of Licensor. This Agreement is entered into solely for the respective benefit of the parties and their successors and assigns, and nothing in this Agreement will be construed as giving any right, remedy or claim under this Agreement to any third parties. Licensor shall not be in default to the extent that

AMERICAN OVERSIGHT

failure to perform any obligation under this Agreement is caused solely by supervening conditions beyond its control, including acts of God, fire, natural disaster, war, terrorism, riot or other civil disturbance, outages of electrical, telecommunications or computer server hosting services, acts of government or labor strikes or lockouts ("Force Majeure"). The terms of this Agreement shall be construed in accordance with the substantive laws of the Commonwealth of Massachusetts. The original of this Agreement has been written in English. The parties hereto waive any statute, law, or regulation that might provide an alternative law or forum or to have this Agreement written in any language other than English. Licensor and You exclude the United Nations Convention on Contracts for the International Sale of Goods and the Uniform Computer Information Transactions Act from this Agreement. If any provision of this Agreement is held to be excessively broad as to scope, activity, subject or otherwise so as to be unenforceable at law, such provision shall be constructed by limiting or reducing it so as to be enforceable to the maximum extent compatible with the applicable law as it shall then appear. This Agreement represents the entire understanding between the parties with respect to its subject matter and supersedes all prior written and oral communications. This Agreement may not be modified except by a written agreement signed by authorized representatives of both parties. A waiver by either party of its rights hereunder shall not be binding unless contained in a written agreement signed by an authorized representative of the party waiving its rights. The non-enforcement or waiver of any provision on one occasion shall not constitute a waiver of such provision on any other occasions unless expressly so agreed in writing. The relationship of the parties shall be that of independent contractors. Nothing herein shall be construed to create any agency, partnership, joint venture or similar relationship or to subject the parties to any implied duties or obligations respecting the conduct of their affairs which are not expressly stated herein. Neither party shall have any right or authority to assume or create any obligation or responsibility, either express or implied, on behalf of or in the name of the other party, or to bind the other party in any matter or thing whatsoever.

TBV ME Application Privacy Policy

TBV ME, Co., ("**TBV**", "**We**", "**Us**") has created this privacy policy ("**Privacy Policy**") in order to set out how we collect, use, and disclose personal information through the TBV platform and our related personal contact management services and applications (collectively, together with the TBV platform, the "**Services**"). Any capitalized terms in this Privacy Policy shall have the same meaning as set out in our Terms of Service.

The privacy of our users is of great importance to us. By using the Services in any manner, you acknowledge that you accept the practices and policies outlined in this Privacy Policy and you hereby consent to the collection, use and disclosure of your personal information in accordance with this Privacy Policy.

1 WHAT DOES THIS PRIVACY POLICY COVER?

This Privacy Policy covers our collection, use and disclosure of information about identifiable individuals ("**Personal Information**"), who use the Services ("**Users**").

2 COLLECTION AND USE OF PERSONAL INFORMATION

2.1 User Information

In order to use certain Services, Users must have a valid TBV App account to log into the Services ("**Account**").

When you register for an Account using email registration, TBV collects your name, cell phone number, email address, and location,. This Personal Information is used for the following purposes:

AMERICAN OVERSIGHT

- Verifying the User's identity;
- Allowing Users to create a profile; and
- Contacting Users about relevant information related to the Services.

2.2 Transaction History

When Users use the Services, TBV collects information about the User's activity and transaction history. In particular, TBV keeps track of the device used to log in, the time of day, the time spent on the app, location, actions completed and IP address, and you may also be asked to provide other personal data such as age, location, gender, personal history, etc. ("Personal Information"). This Personal Information is used for the following purposes:

- To allow Users to keep track of their history;
- To store and report activities tracked by the Services;
- To support research and efficacy of the Services;
- For TBV's accounting records;
- To enhance and customize User experience, including showing Users relevant contents; and
- To monitor compliance with our Terms of Service.

2.3 Marketing Communications

TBV will use the contact information provided to notify Users of important information that is relevant to the Services and for marketing communications if the User chooses to opt in. Despite your indicated e-mail preferences, we may send you relevant notices where permitted by law.

2.4 Usage Data

TBV may also collect certain information from Users of the Website and Services, such as Internet addresses, time spent logged into the Services and other usage data ("**Usage Data**"). This Usage Data is logged to help diagnose technical problems, and to administer our Website and Services in order to constantly improve the quality of the Website and Services.

2.5 Cookies

TBV uses tracking technologies, such as cookies, beacons, scripts and tags, are used by us and our third-party partners. These technologies are used in analyzing trends, administering the Services, tracking Users' movements around the Services, gathering demographic information about our User base as a whole and collecting information about your browsing activities over time and across different websites following your use of the Services. We may receive reports based on the use of these technologies by these companies on an individual and aggregated basis. Various browsers may offer their own management tools for removing these types of tracking technologies.

Standing alone, cookies do not identify you personally. They merely recognize your browser. Cookies come in two flavors: session and persistent-based. Session cookies exist only during an online session. They disappear from your computer when you close your browser software or turn off your

AMERICAN OVERSIGHT

computer. Persistent cookies remain on your computer after you've closed your browser or turned off your computer.

TBV uses session cookies containing encrypted information to allow the system to uniquely identify you while you are logged in. This information allows TBV to process online transactions and requests. Session cookies help us make sure you are who you say you are after you've logged in and are required in order to use the Service.

TBV uses persistent cookies that only TBV can read and use, to identify the fact that you are a TBV User. We are especially careful about the security and confidentiality of the information stored in persistent cookies. Users who disable their web browser's ability to accept cookies will be able to browse our Website but may not be able to use all features of our Services.

3 SECURITY AND STORAGE

3.1 Storage Location

TBV stores its data, including Personal Information, on Amazon Web Services servers located in the United States. By submitting any Personal Information or using the Services, you agree to this transfer, storing or processing of your Personal Information in the United States. You acknowledge and agree that your Personal Information may be accessible to law enforcement and governmental agencies in those countries under lawful access regimes or court order.

3.2 Security

The security of your Personal Information is important to us. We use commercially reasonable efforts to store and maintain your Personal Information in a secure environment. We take technical, contractual, administrative, and physical security steps designed to protect Personal Information that you provide to us. We have implemented procedures designed to limit the dissemination of your Personal Information to only such designated staff as are reasonably necessary to carry out the stated purposes we have communicated to you. However, no Internet or email transmission is ever fully secure or error free. In particular, email sent to or from the Services may not be secure. Therefore, you should take special care in deciding what information you send to us via email. Please keep this in mind when disclosing any Personal Information to us via the Internet.

You are also responsible for helping to protect the security of your Personal Information. For instance, never give out your email account information or password for the Services to third parties.

4 DISCLOSURE OF PERSONAL INFORMATION WITH THIRD PARTIES

4.1 Disclosure to our Service Providers

We may from time to time employ or engage other companies and people to perform tasks on our behalf and need to share Personal Information with them to provide the Services. Unless we tell you differently, we only provide such third parties with the Personal Information that they need to perform their specific function. This includes third party companies and individuals employed or engaged by us to facilitate our products and services, including the provision of maintenance services, database management, customer relationship management, web analytics and general improvement of

AMERICAN OVERSIGHT

the Services, and businesses who engage our Services (to the extent provided for above). In particular, TBV uses the following service providers: Google Cloud Platform, Amazon AWS, Stripe and Google Analytics.

4.2 Business Transfers

If we (or any of our assets) are acquired, or if we go out of business, enter bankruptcy, or go through some other change of control, Personal Information may be made available or otherwise transferred to the new controlling entity, where permitted under applicable law.

4.3 With Your Consent

If we need to use or disclose any Personal Information in a way not identified in this Privacy Policy, we will notify you and/or obtain your express consent as required under applicable privacy laws.

4.4 Affiliates

We may also share your Personal Information with our subsidiaries or other affiliated companies for purposes consistent with this Privacy Policy.

4.5 As required by law

We may disclose your Personal Information to third parties without your consent if we have reason to believe that disclosing this information is necessary to identify, contact or bring legal action against someone who may be causing injury to or interference with (either intentionally or unintentionally) our rights or property, other Users, or anyone else (including the rights or property of anyone else) that could be harmed by such activities. Further, we may disclose Personal Information when we believe in good faith that such disclosure is required by and in accordance with the law. We also reserve the right to access, read, preserve, and disclose any information as we reasonably believe is necessary to:

- satisfy any applicable law, regulation, legal process or governmental request;
- enforce our contracts or user agreement (Terms of Service), including investigation of potential violations hereof; and
- detect, prevent, or otherwise address fraud, security or technical issues.

5 RETENTION

We will keep your Personal Information for as long as it remains necessary for the identified purpose or as required by law, which may extend beyond the termination of our relationship with you. We may retain certain data as necessary to prevent fraud or future abuse, or for legitimate business purposes, such as analysis of aggregated, non-personally-identifiable data, account recovery, or if required by law. All retained Personal Information will remain subject to the terms of this Privacy Policy.

6 ACCESS, CORRECTION AND ACCURACY

ACTIVE/99347676.1

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001301

You have the right to access the Personal Information we hold about you in order to verify the Personal Information we have collected in respect to you and to have a general account of our uses of that information. Upon receipt of your written request, we will provide you with a copy of your Personal Information, although in certain limited circumstances, and as permitted under law, we may not be able to make all relevant information available to you, such as where that information also pertains to another User. In such circumstances we will provide reasons for the denial to you upon request. We will endeavor to deal with all requests for access and modifications in a timely manner.

We will make every reasonable effort to keep your Personal Information accurate and up to date, and we will provide you with mechanisms to update, correct, delete or add to your Personal Information as appropriate. As appropriate, this amended Personal Information will be transmitted to those parties to which we are permitted to disclose your information. Having accurate Personal Information about you enables us to give you the best possible service.

7 CHANGES TO THIS PRIVACY POLICY

We may amend this Privacy Policy from time to time. Use of Personal Information we collect is subject to the Privacy Policy in effect at the time such information is collected, used or disclosed. If we make material changes or changes in the way we use Personal Information, we will notify you by posting an announcement on our Website or sending you an email prior to the change becoming effective. You are bound by any changes to the Privacy Policy when you use the Website or Services after such changes have been first posted.

8 CHILDREN

TBV does not knowingly collect Personal Information from children under the age of 13. If you are under the age of 13, please do not submit any Personal Information through or use the Services. We encourage parents and legal guardians to monitor their children's Internet usage and to help enforce our Privacy Policy by instructing their children never to provide Personal Information through Services without their permission. If you have reason to believe that a child under the age of 13 has provided Personal Information to TBV through the Services, please contact us, and we will endeavor to delete that information from our databases.

9 LINKS TO OTHER WEBSITES AND SERVICES

This Privacy Policy applies only to the Services. The Services may contain links to other web sites or services not operated or controlled by TBV (the "Third Party Services"). The policies and procedures we described here do not apply to the Third Party Services. The links from the Services do not imply that we endorse or have reviewed the Third Party Services. We suggest contacting those third parties directly for information on their privacy policies.

10 EXCLUSIONS

This Privacy Policy does not apply to any Personal Information collected by TBV other than Personal Information collected through the Services. This Privacy Policy shall not apply to any unsolicited information you provide to TBV through the Services or through any other means. This includes, but is not limited to, information posted to any public areas of the Services, such as forums, any ideas for new products or modifications to existing products, and other unsolicited submissions (collectively,

Hi Victoria!

Happy New Year to you as well! Sorry for my delay I am just getting back to the office after a week out. I have attached the Talking Points for SB 1212 and we are still working on securing a House sponsor…it looks like we will probably run it as a PCB.

We are closing the details within the next day or so, I will follow up with you once our plan is in play.

Thank you so much!

State Protocol Officer (Office of International Affairs) Talking Points:

- State protocol officer functions resided with the Secretary of State as the state protocol officer prior to 2004, when they were transferred to the Office of Tourism, Trade and Economic Development within the Office of Governor.

- In 2011, some functions were delegated to the newly created Department of Economic Opportunity while the majority became duties of a state protocol officer to be named by the Governor and to be housed within the EOG.

- This bill returns certain state protocol officer and intergovernmental relations functions back to the Secretary of State.

- Bill requires (1) FTE at $117,896 for FY 20-21. Which has been included in the Governor's recommended budget.

- The bill removes the purpose statement of the sister city and sister state program and makes discretionary certain activities thereunder such as establishing new programs as needed.

- The bill removes issuing certificates to foreign governmental officials after verification pursuant to proper investigations through the United States DOS and the appropriate foreign government.

- The bill removes verifying entitlement to sales and use tax exemptions pursuant to the United States DOS guidelines and identification methods.

- The bill removes maintaining a current and accurate listing of all such affiliations.

- Lastly, the bill removes the language prescribing certain parameters on the sister city and state affiliations.

Subject: FW: SCHEDULE- FEDC 2020 Florida Economic Development Week February 9-15

Greetings Senator Gruters.

The Florida Economic Development Council would again like to invite you to return as the host of the Capitol press event announcing Florida Economic Development Week. The press event will take place Thursday, Feb 6, preferably outside the Senate Chambers. However, this year session will have begun, whereas last year, we were in committee weeks. Our intention is to partner with the Association of Florida Colleges Council of Presidents as we did last year. It was a tremendous event that received great press coverage and launched a week of social media highlighting the impact of economic development in Florida. Photos from last year are attached.

Ideally, FEDC would like to schedule a call or a meeting with Senator Gruters to plan the press event. Would very much like to get his support in inviting a House member to join him in providing resolutions in support of Florida Economic Development Week. Another new component this year, is the interest of the Governor's office to potentially participate in the press event. This could be in the form of a resolution and/or remarks from Jamal Sowell.

Here is a link to the FEDC Feature in Expansion Solutions magazine. It is a great piece that showcases the reach and impact of FEDC in improving Florida communities and elevating Florida's global competitiveness. https://expansionsolutionsonline.advanced-pub.com/?issueID=39&pageID=80

Thanks for your consideration, and for all you are doing to prosper Florida citizens.

Subject: Re: test

Dear Senator Gruters,
My name is Julie Michelle Cable. My birth name is Julie Michelle Brown.
I have been a resident here of Sarasota County living mostly in Venice for 56 years. I was born in Alabama and lived with my biological mother who then married and that man(became my step father) Wayne Freeman adopted me, changing my last name to Freeman. It appears though that my birth certificate was never amended to support the name change as expected.

I am reaching out to you on the advise of my brother who tells me that instead of approaching a constitutional attorney I should start with the Senator for my area. I hope you can help me, I am at my wits end with searching for resolution.

My driver's license expired November 2019. Upon renewal procedure the Department of Motor Vehicles has advised me that they cannot renew my driver's license due to the fact that my birth certificate is not the correct name to be in line with the paper trail of who I am. My first driver's license was issued with Freeman being my last name around 1977-78 ...they should have record of that.....I have all the papers in line to show my name changes from that point to this current day....(ie: marriage, divorce). My parents are elderly and totally uncooperative .....they are telling me that the adoption record papers were stolen.

Due to this invalid license a hardship is being created because I cannot open a bank account without a valid license. I have a company newly registered with the State of Florida for home inspecting and I cannot get the first job because I cannot open a bank account. I need your help please. This new business is so I can support my family. I have lived here in Sarasota County since I was 1 year old.....every registration of my vehicles, purchasing a home, a passport have all taken place in this county.
The following is pertinent information to who I am and how I can be reached.
Julie Michelle Cable
340 Glen Oak Rd.
Venice, FL 34293

Phone 941-525-6311

email : cablejmichelle@gmail.com

I grew up on Shamrock Dr in South Venice....spent 17 yrs there and then moved about for a few years, then I purchased a home 1821 Faun Rd. where I lived for almost 30 years.....I have been on Glen Oak rd in Venice Gardens for approx 5 years.

AMERICAN OVERSIGHT

I am happy to answer any questions for you.
Desperate for help,
Julie Michelle Cable

AMERICAN OVERSIGHT

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Ethics and Elections

BILL:	SJR 1216
INTRODUCER:	Senator Gruters
SUBJECT:	Limitation on Terms of Office for Members of a District School Board
DATE:	January 24, 2020 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Fox	Roberts	EE	**Pre-meeting**
2.			ED	
3.			RC	

I. Summary:

SJR 1216 proposes that district school board members be subject to a 12-year consecutive service term limitation. The restriction goes further than the current "eight-is-enough" term limit that applies to Cabinet members and State legislators. The provision would operate prospectively beginning with the 2020 general election. The likely earliest date that any currently serving school board member could be "termed-out" would be in November 2032.

The joint resolution, if passed by a 3/5ths vote of each House of the Legislature, will be voted on at the general election in November 2020, unless the legislature authorizes an earlier special election for that specific purpose.

II. Present Situation:

Term Limits

The Florida Constitution provides that a person holding any of the following offices may not have his or her name on the ballot for reelection if the person has served, or but for resignation would have served, in an office for *eight* consecutive years:

- State Senator;
- State Representative;
- Lieutenant Governor;
- Florida Cabinet member;
- U.S. Representative from Florida; or
- U.S. Senator from Florida.[1]

[1] Art. VI, s. 4(b), FLA. CONST.

AMERICAN OVERSIGHT

The U.S. Supreme Court has held that state-imposed limits on the terms of *federal* office holders violate the U.S. Constitution, effectively rendering unenforceable Florida's term limits on its congressional members.[2]

The term limits provision was proposed by citizen initiative and passed at the 1992 general election by a greater than 3-to-1 margin (approved by over 76% of electors voting on the measure).[3] The amendment applied *prospectively*; service prior to the 1992 election did not count toward the eight-year restriction. Thus, the term limits amendment did not begin to have a direct impact until the 2000 election cycle.

Florida School Boards

There are currently 358 school board members across the 67 districts in Florida.[4] There is no provision in the Florida Constitution or Florida Statutes that limits the term of school board members.

Section 4(a) of Article IX of the Florida Constitution provides that:

> Each county shall constitute a school district … In each school district there shall be a school board composed of five or more members chosen by vote of the electors in a nonpartisan election for appropriately staggered terms of four years, as provided by law.

The responsibility of each school district includes operating, controlling, and supervising all free public schools within the school district and determining the rate of school district taxes within the limits of the school district.[5]

III. Effect of Proposed Changes:

SJR 1216 provides that a person may not appear on the ballot for reelection to the office of school board member if by the end of his or her current term he or she served, or but for resignation will have served, in that office for 12 consecutive years. The language goes further than the current 8-year constitutional limits that apply to Cabinet members and State legislators. The proposed amendment would operate prospectively beginning with the 2020 general election, unless the Legislature authorizes it to be voted at an earlier special election; thus, the earliest any currently serving school board member could be "termed-out" likely would be at the 2032 general election.

AMERICAN OVERSIGHT

The joint resolution, if passed by a 3/5ths vote of each House of the Legislature, will be voted on at the general election in November 2020, unless the legislature authorizes an earlier special election for that purpose. The joint resolution would apply upon approval of the voters — at least 60% of those voting on the measure.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Division of Elections is required to advertise the full text of proposed constitutional amendments in English and Spanish twice in a newspaper of general circulation in each county before the election in which the amendment shall be submitted to the electors. The Division is also required to provide each Supervisor of Elections with either booklets or posters displaying the full text of proposed amendments.

The Division has not completed an agency bill analysis for this bill or for the identical House Bill. Using the Division's 2018 general election estimate of $120.31 per word, this amendment would cost just over ***$38,250***.

AMERICAN OVERSIGHT

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This joint resolution substantially amends Articles IX and XII of the Florida Constitution.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

AMERICAN OVERSIGHT

EIGHT IS ENOUGH - TALKING POINTS

- **Eight-year term limits are the most common and time-tested reform in the United States.** Of the 36 states with term limits on their governors, 35 provide for an eight-year limit. Only Virginia is different, allowing for a four-year maximum. Of the 15 states with legislative term limits, 10 provide for a limit of eight years or fewer. Nine of America's 10 most populous cities have term limits, with each of these laws allowing for eight years or less. The President has an 8-year limit, and it is absurd to suggest any local official needs more time to learn their job than the leader of the free world.

- **Eight-year term limits are the most common limit in Florida and they work.** Florida has eight-year term limits on our Governor, Cabinet, State House, State Senate and countless local positions. We rank as one of the freest and most fiscally healthy states in America and this is no outlier. On average, states with term limits rank better than states without term limits; and states with eight-year limits rank higher than those with longer limits. Why mess with success?

- **Eight-year term limits are the expressed preference of Florida citizens.** When a group of citizens collected nearly 400,000 signatures to put legislative limits on the ballot in Florida in 1992, they chose eight-year limits. The amendment passed with 77 percent support, garnering votes from 3.63 million Floridians. It is important that elected officials respect the will and preference of the voters they represent.

- **Florida voters resoundingly rejected 12 year term limits.** In 2005, Florida legislators placed onto the 2006 ballot an amendment that would have lengthened their own term limit from 8 years to 12. Public denunciation of the politicians behind the change was so intense — and opposition to the measure so deafening — that the legislature was forced to remove its own power grab from the ballot. This move was virtually unprecedented. Then-Governor Jeb Bush applauded the decision to maintain an eight-year limit, crediting this limit with much of Florida's progress during his administration.

- **Florida voters aren't changing their minds about Eight is Enough.** In 2009, lawmakers once more floated the prospect of lengthening Florida's term limits from 8 years to 12. A Quinnipiac poll at the time showed that voters opposed the change by a 79-18 margin. Since that time, no group of citizens has ever emerged to suggest making term limits longer. In fact, every petition drive for term limits in Florida — at the county and municipal level — has called for a limit of eight years or fewer. There are occasionally efforts to move from eight to 12 years in Tallahassee, but these whispers only come from politicians and capitol insiders, NEVER from ordinary people.

- **Eight-year term limits provide for fairer elections and more diversity.** America has an epidemic of unopposed and under-opposed elections at the state legislative level. Around 33% of all elections feature an incumbent running unopposed. Term limits break up this monopoly every eight years and allow a diverse array of citizens to vie for an open seat. Studies also show that state term limits — most of which are eight years — have increased the representation of women and minorities in state legislatures by a statistically significant degree.

How Term Limits Fight Big Money in Politics

A policy snapshot by U.S. Term Limits

Intro

According to a 2015 New York Times/CBS Poll, 84 percent of Americans believe money has too much influence on campaigns. Since fundraising is most unequal when an incumbent defends his seat, any reform that fights incumbency can make the money situation more equal. Term limits is that reform.

Incumbents Get Money

Like any smart investor, special interests spend on candidates who can provide them the best return. That's why sitting congressmen receive $6 for every dollar that goes to their challengers. The advantage makes them powerful and virtually impossible to beat. It also discourages good people from running for office.

Incumbents Win Elections

Incumbents' fundraising edge is a protective shield at election time. It guards them from their own bad votes, talented challengers and potential lost support from the party. This system works for millionaires and billionaires, but not the rest of us:

The Odds of Defeating a US House Incumbent Based on Spending by Challenger

Under $1,000,000	293:2
$1 million to $1,499,999	18:4
$1.5 million to $1,999,999	9:4
$2 million or more	1:1

Source: Center for Responsive Politics

Open Seats, Closed Wallets

The average House incumbent raises around $1.5 million for his re-election campaign. The average challenger raises around $250,000. But what happens in an open seat race? The average candidate there raises a happy medium around $600,000. So, open seat contests bring three positive effects:

1. More candidates
2. More accessibility to elected office
3. More equal fundraising

How to Get There

Term limits are a remedy for incumbency and the money that comes along with it. By guaranteeing open seat races on a regular basis, term limits deliver a more balanced and accessible system. They stop incumbents from growing too unbeatable, and keep Congress from becoming an aristocracy.

Female Candidate Emergence and Term Limits: A State-Level Analysis

Samantha Pettey[1]

Abstract

This study examines term limits to determine the effect they have on female candidate emergence in state legislatures. Initial research finds a negative relationship between term limits and female representation. I offer a candidate-level theory and empirical approach to reevaluate how term limits affect female representation overtime. I argue term limits create an incentive structure that favors female candidates since the incumbency advantage is lessened. To test this theory, I set up a quasi-natural experiment with term limits as the treatment in a difference-in-differences test. Furthermore, I also run logistical regression analysis using candidate-level data from all fifty states from 1990 to 2000. I find women are more likely to run for office in open seats created by term limits. Last, this pattern holds for both Republican and Democratic female candidates.

Keywords

term limits, women and politics, female state legislative candidates

Introduction

Term limits are one of the most significant institutional changes to take place since the modernization of state legislatures (Kurtz, Cain, and Niemi 2007). And since the implementation of term limits, a puzzle in the literature emerges. Conventional wisdom suggests open seats help women gain descriptive representation since women fare as well as men in elections. Term limits provide more open seats, which suggests females have more opportunities to enter into office (Burrell 1994; Darcy, Welch, and Clark 1994; Fox 2000; Seltzer, Newman, and Leighton 1997). Yet studies conducted after the implementation of term limits find the greater number of open seats have negative consequences for female descriptive representation (Bernstein and Chadha 2003; Carroll and Jenkins 2001).

This article seeks to bridge the puzzling finding that more open seats, created by term limits, results in fewer women in office, but focuses on the candidate emergence stage. Theoretically speaking, term limits are only beneficial to women if women actually run for office. Normatively speaking, understanding how term limits help or hinder female candidate emergence is important to study for furthering descriptive representation. Theories on descriptive representation claim the makeup of legislative bodies should reflect the demographics of the public. Politicians better represent their constituents if they resemble the populace with regard to gender, race, social, and economic status. Scholars theorize the importance of descriptive representation and its implications for society because females bring different issues, experiences, and viewpoints to the political table. Increasing the percentage of women in political positions leads to more favorable policies for women (Osborn 2012; Schwindt-Bayer and Mishler 2005; Swers 2002).

In the United States, female descriptive representation has been, and continues to be, much lower than male descriptive representation at all levels of government. Currently, at the state level, female representation ranges from a low of 12 percent in Louisiana to a high of 41 percent in Colorado. The average percentage of females in all fifty state legislatures is only 24.2 percent (Center for American Women and Politics [CAWP] 2014; National Conference of State Legislatures [NCSL] 2014). Not only is the current percentage low, but the percentage of women in state legislative branches has become rather stagnant since the 1990s (Norrander and Wilcox 2012). Given that a large amount of policy-making is delegated to the states, the lack of female representation across all states is troublesome (Carroll and Sanbonmatsu 2013).

Research providing a greater understanding of when and why women run for office, or emerge as candidates, is a critical stage in the process toward understanding the unequal representation between males and females at all levels of government.

This article proceeds as follows. First, I provide a discussion of the extant literature with regard to female candidate emergence and term limits. Next, I detail my expectations on how term limits will affect female candidate emergence. Then, I introduce the data and methods used to test my hypothesis and conclude with a short discussion of the findings and implications of this study.

Emergence

A thread of the women and politics literature focuses on how and why women run for office (Carroll and Sanbonmatsu 2013; Fox and Lawless 2004). In other words, why do some female candidates emerge and run for election while other potential candidates never run? Before there can be parity, there has to be pool of women who are willing to run for office, and ultimately win their campaigns. Below is a discussion of the four main factors scholars identify as inhibiting the emergence of female candidates: institutional barriers, socialization, ambition, and political factors.

Institutional Barriers

From an institutional perspective, the low rates of female descriptive representation in the United States are explained by two main theories: the incumbency advantage and eligibility pool. Incumbency advantage posits that incumbents' high reelection rates reduce opposition and leave little opportunity for new candidates to compete (Burrell 1994; Carroll and Jenkins 2001; Darcy, Welch, and Clark 1994). Furthermore, research finds female candidates at the congressional level to be just as likely to win elections as men, indicating that females are not at an electoral disadvantage per se, but the high incumbency rate keeps women out of office (Burrell 1994; Darcy, Welch, and Clark 1994; Fox 2000; Seltzer, Newman, and Leighton 1997). As such, women will enter office at a glacial pace because the incumbency advantage is so significant.

A second institutional constraint is that the female candidate eligibility pool is smaller than the male candidate pool. The eligibility pool, or where the majority of all candidates emerge from, consists mainly of positions in law and business.[1] Women in Congress tend to emerge from careers in teaching, social work, and health care without a background in politics rather than the typical "political" fields previously mentioned (Carroll and Sanbonmatsu 2013; Clark 1994; Dolan, Deckman, and Swers 2007). Therefore, since fewer women are potential candidates, parity is difficult because women simply do not run.

Sociological Factors

Second, extant literature suggests there are sociological, cultural norms at play which keep women from seeking office. Women are less likely to be socialized to run for political office (Fox and Lawless 2004). Yet political conditioning research suggests women who are engaged in politics are more likely to emerge and run for office at any level (Fox and Lawless 2004). Furthermore, women are more likely to be engaged in politics if issues are salient to them (Campbell and Wolbrecht 2006).

Family responsibilities also inhibit women from being in office, since women tend to have a disproportionate share of responsibilities (Fox and Lawless 2004). Not only that, women see private, family commitments as conflicting with public commitments, and this has changed little overtime (Burrell 1994; Carroll and Sanbonmatsu 2013; Sapiro 1982). Yet these cultural gender norms that seem to place time constraints on future candidates do not seem to inhibit women from participating in other areas of politics—women are just as, if not more, likely to be engaged in local, community-level politics. Therefore, sociological-based time constraint theories are not a sufficient explanation to a lack of female emergence (Burns, Schlozman, and Verba 2001).

Ambition

Third, research finds ambition levels differ by gender; specifically, women's ambition levels are inherently lower than male's. The gender differences in political ambition levels is in part due to the fact that women perceive themselves to be less qualified than men to run for office (see Fox and Lawless 2004; Fulton et al. 2006).

Political Factors

Last, there are political factors that influence whether or not a person will run for office. Research finds parties have a large and significant impact on whether a female will run for office. Most female candidates do not consider running for office until they are approached by a party leader. Without recruitment, the majority of current women office-holders had never seriously considered running for office. There are more women in office when women are actively recruited, whether by party or political organization (Carroll and Sanbonmatsu 2013; Sanbonmatsu 2006).

AMERICAN OVERSIGHT

Term Limits

Term limits are an important institutional attribute that may serve as a bridge between emergence and descriptive representation by creating more open seats. Term limits in state legislatures place restrictions on the number of times an official can serve in office.[2] States began enacting term limits in the early 1990s as a way to force government turnover. Many citizens were displeased with the lack of effective governance at the state level and wanted to stop incumbents from running for office (Reed and Schansberg 1995; Thompson and Moncrief 1993).

Prior to the enactment of term limits, most researchers hypothesized term limits would be beneficial for females. Term limits act as a way to combat the incumbency advantage and create more open seats. These open seats would provide women more opportunities to run for office (Carroll and Jenkins 2001; Crane 1995; Darcy, Welch, and Clark 1994; Ferry 1994; Thompson and Moncrief 1993). Yet, when term limits began to take effect, researchers found term limits did not have the intended effects on women in office (Bernstein and Chadha 2003; Carroll and Jenkins 2001). In 1998, seven states had their first round of termed-out politicians, which created 215 open seats across all seven states. The number of these 215 seats held by women actually dropped from fifty-eight to fifty-three after the 1998 election. Thus, the introduction of term limits resulted in a net loss of five seats for women (Bernstein and Chadha 2003).

In a cross-sectional analysis of the impact term limits had for the year 1998, scholars find an overall negative effect on women in office, but there was variation by state. Some states, such as Arizona and Arkansas, saw minor gains in the number or females in office but most suffered, which reflected in a declining number of females in office (Carroll and Jenkins 2001). Yet what explains these differences across states? And, more importantly, do these initial findings hold up across a longer temporal sample? Further research is needed to resolve the conflict between the expectation that term limits would allow for more female candidates and the early empirical evidence to the contrary.

Emergence and Term Limits Theory

The literature on candidate emergence and term limits offer conflicting explanations on the expectations of female emergence. The term limits literature mainly focuses on overall success of female candidates and largely ignores the impact term limits may have on candidate emergence. Perhaps women are running for office more frequently in the term limited states but are not winning elections. This theory incorporates expectations about open seats from term limits literature and eligibility pool assumptions from the emergence literature to develop a general argument regarding female candidate emergence in term-limited states.

Open Seats

Existing research regarding female descriptive representation is concerned with aggregate levels of female success. Yet as previously discussed, a critical stage of analysis is candidate emergence. The only way women will gain parity is if they run and subsequently win. All else being equal, in terms of electoral outcomes, term limits can only be effective if the number of female candidates running within the states increases. For example, if there are more open seats (created by term limits or not) and the same number, or fewer, women running for office, then open seats will not have a positive impact on the number of females in office. This idea is especially important in term-limited states since the nature of term limits creates more open seats.

Without an increase in female candidate emergence, we are unlikely to find support for the conventional wisdom that more open seats will lead to more women in office. Carroll and Jenkins (2001) show that in states with term limits, the number of female officeholders decreased when term limits were enacted. However, it is possible this finding is due to lower levels of female candidate emergence. The lack of female candidate emergence is apparent in Carroll and Jenkins' (2001) finding that females did not run in a large number of primary elections for either party.

The greater number of open seats created by term limits provide potential female candidates with more opportunities to emerge. Since an incumbent cannot continuously run, the overall likelihood of winning an election will increase for new candidates. Further, Fulton et al. (2006) find women are more likely to run in races if/where they perceive their chances of winning to be high. This rational behavior is present in all candidates as studies also find that candidates act rationally when deciding to enter a race—most only run when the likelihood of winning the seat is high (Black 1972; Jacobson and Kernell 1981; Lazarus 2008). Open seats, created by term limits or otherwise, offer a better chance at winning an election than running against an incumbent. Therefore, states with open seats created by term limits should see an overall increase in the number of female candidates emerging because the perceived opportunity to win the seat is higher.

Eligibility Pool

The greater number of open seats created by term limits will likely effect the eligibility pool. The presence of term limits may influence more women to emerge as

AMERICAN OVERSIGHT

candidates in state legislative elections. This is due to the fact that with term limits, the job is temporary and politics is not necessarily a career path. Therefore, anyone can theoretically have a desire to run and hold office for a short period of time. Amateur candidates, those with no previous office-holding experience, tend to run if they perceive their chance of success to be high, but this is not a necessary condition to emerge (Lazarus 2008). Term limits may create a pool of amateur candidates, specifically female candidates, who are motivated to run for factors other than being a career politician—especially if a potential candidate thinks they can win.

Support for an amateur female candidate pool already exists at the state level. A 2008 CAWP Recruitment Study by Carroll, Sanbonmatsu, and Walsh find nearly 43 percent of women in the lower chamber of the state legislatures had no previous officeholding experience. More importantly, nearly 73 percent of females in the lower house claimed their decision to run for office was not done as a stepping stone toward higher office. The study also finds that nearly 79 percent of women in the lower chamber reported having an occupation that allows for sufficient time and flexibility to hold office was important when considering their run for office. These findings suggest that many women in state legislatures do not plan on being career politicians. Therefore, term limits enhance this favorable environment and allow more opportunities for potential female candidates to run, hold office, and still avoid being career politicians.

Term limits have the potential to create a larger eligibility pool of female candidates. Term limits may add a little extra incentive to run for office since the length of time someone can spend in office is limited. Thus, term limits create a unique opportunity for noncareer politicians to serve short term in office to make policy changes[3] and then leave after they are termed out.

Furthermore, term limits can also have a positive impact on women who want to be career politicians. Given theories on rational choice candidate entry models (Black 1972; Jacobson and Kernell 1981; Lazarus 2008), politicians run when they are most likely to win. Term limited seats will not have an incumbent running, so these seats should theoretically be easier to win, given the lack of an incumbency advantage. This is good for ambitious female politicians because they are in a better situation to win office than when compared with female challengers in a state without term limits trying to win a seat against a long-term incumbent.

Term limits provide a structured timeline for how long one can legally stay in office before they move on to the next level of government. Career politicians may find this structure useful for moving up the political ladder. For example, a female may desire to move out of the lower chamber in the state legislature but no opportunities exist in the upper chamber. States with term limits in both chambers have more open seats and, therefore, greater opportunities for new candidates to run for office. Further, term limits provide an opportunity for women to gain experience and exposure quickly if they move between chambers after being term-out, especially for women who may want to progress into federal office, or governorships, after they have termed out of their state legislature.

In sum, taking into consideration the constraints and variation in the use of term limits across states, one should not expect a drastic increase of women in office in states with term limits immediately. Rather, the number of women in office will likely rise fairly steadily over time as more officials are forced to vacate the state legislature. There may be loss in the short term as research finds (Bernstein and Chadha 2003; Carroll and Jenkins 2001), but this should not be the norm. Open seats will gradually increase as incumbents are termed out, providing potential women candidates with more opportunities to run. In other words, term limits, in combination with open seats, increase the number of women in the eligibility pool. The crux of this theory relies on the fact that term limited states will only increase the number of women in office if the number of women running for office increases. Term limits create a favorable environment for noncareer and career female politicians to run for office, and this is the possibility that I will empirically evaluate in the remainder of this article.

Therefore,

Hypothesis 1 (H1): Term limits increase the likelihood of female candidate emergence.

Data

To examine the hypothesis, I utilize a candidate-level data set of each state's lower legislative chamber. The candidate data comes from the State Legislative Election Returns (SLER): 1967–2010 (Klarner et al. 2013). The dataset captures candidate-level state legislative elections and includes variables such as election results, term length, type of legislative election, incumbency status, and party identification. The large time span allows me to better test the impact of term limits on female candidate emergence. I conduct the analysis across all fifty states at the candidate level in the general election (discussed more below) using a quasi-natural experiment design. I examine the years from 1990 to 2010, both pre- and post-term limits, across all candidates meeting the standard 5 percent threshold (Canon 1978) using states without term limits as the control group.

The SLER data does not contain the candidate's gender, and therefore, I coded each candidate's gender. As a robustness check, I have also utilized the CAWP (Center

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001343

for American Women and Politics) database as a cross-reference. CAWP provides a list of the total number of women who ran in an election for each state. After coding the SLER dataset to include gender, I looked to the CAWP dataset to examine any discrepancies. When there were discrepancies between SLER and CAWP, I cross-referenced the Secretary of State's original election results (when available) to fix or confirm the findings from my dataset. Further, in a handful of cases where the Secretary of State's election results were not readily available and discrepancies existed, I searched newspaper articles for gender candidate cues.[4]

While the SLER dataset contains a large number of election periods, I will only use the time period from 1990 to 2010. Since 1996–2000 is the time frame in which most states first experience the impact of term limits, the time frame allows a roughly equal number of election cycles pre- and post-term limits. The analysis for this time period will therefore capture a considerable amount of elections both before and after term limits took effect in states. Furthermore, the candidate-level dataset is quite large over a twenty-year time frame and produces roughly eighty thousand observations.[5]

Design

As briefly mentioned, the enactment of term limits provides the unique opportunity of an intervention point for an experimental design. Mooney (2009) addresses a major concern when treating term limits as a natural experiment: exogeneity. To model a causal relationship, there needs to be random assignment of the treatment and control group. To test for random assignment, Mooney (2009) ran a series of difference of means tests between states with term limits and states without term limits. The results find the most common and widely used state-level explanatory variables have no statistically significant differences between states with term limits and states without term limits. In other words, there is not a unique underlying factor about states that enacted term limits versus states that did not enact term limits. For example, a state's population, gross domestic product (GDP), ideology, electoral turnout rates, legislative professionalism, and so on, do not predict the adoption of term limits. Therefore, term limits can be treated as a natural experiment because the states with and without term limits have no statistically significant differences between them—that is, random assignment of term limits occurred. The treatment group for the design includes all the states that enacted term limits, and the control group includes all the states that have not enacted term limits.

The enactment of term limits happened at different points in time across the states. Term limits first took effect in a handful of states in the late 1990s and continued to be implemented through the 2000s. As such, there will be multiple intervention points that are unique to the state enacting the term limits. Using panel-level data, I am less likely to violate the assumption that an unobservable/unmeasurable variable has an impact on my main independent variable, term limits. This is important when determining a causal link between term limits and the dependent variable. Table 1 provides a list of the term limited states (which have not been repealed). The table provides the year in which the term limits were enacted and the year in which the first round of legislators were forced to leave due to term limits.

Table 1. Term-Limited States.

State	Year enacted	Year of impact
Maine	1993	1996

Variables

Dependent

The dependent variable is *female candidate emergence*, which is a dichotomous variable where "1" is a female candidate and "0" is a male candidate. Table 2 reports the descriptive statistics on the number of female candidates in the sample. Between 1990 and 2010, female candidates made up about 26 percent of the total candidates running for office. Male candidates during the same time period made up roughly 73 percent of the total sample. The numbers are not surprising since the overall percentage of women in office across the states during that time averages around 20 to 25 percent.

Independent Variable

The main explanatory variable of interest is *term limits*. States with term limits are coded "1" and states without term limits are coded "0." Since, the intervention points

Male Candidates	68,380	73.30%

Table 3. Descriptive Statistics for Term Limits.

Variable	Number	Percentage of sample
Non-Term Limit Seats	79,029	85.54%
Term-Limit Seats	13,888	14.46%

will be scattered due to states implementing term limits in different years, each state with term limits will be coded to reflect the year in which that state's term limits take effect. States with term limits are coded as "0" until they implement term limits (states who never implement term limits remain coded as 0 throughout). Table 3 shows the distribution for states with and without term limits. Approximately 15 percent of candidates run in term-limited seats. Whereas non-term-limited seats make up about 85 percent of the total sample (the non-term-limited seats include states with enacted term limits but elections before they were implemented). Since this is candidate-level data with a focus on candidate emergence, these numbers represent the distribution of candidates running in the term-limited and non-term-limited races (not the total number of available seats).

Table 4 below provides further descriptive statistics showing the distribution of the data for candidate emergence and term limits. At first glance, females are more prevalent in term-limited states, making up 28 percent of the total candidates versus non-term-limited seats where females are only 25.9 percent of the total candidates. Males are much more likely to emerge as candidates in term-limited and non-term-limited states when compared with their female counterparts making up roughly 71 to 74 percent of the observations within each set of states.

Control Variables Candidate-Level Controls

The model includes several candidate-level and state-/district-level controls. The first control is for *open seat* and is coded as "1" if a candidate runs in a district with an open seat and "0" if an incumbent is running within that district. As extant research and my theory suggests, open seats decrease institutional barriers for women to enter office so I expect open seats to have a positive impact on the likelihood a female will run for office.

Incumbents have an advantage in elections, even at the state level. Incumbents are more likely to win their

Table 4. Distribution of Candidates and Term Limits.

Variable	Non-term limits	Term limits
Female Candidates	20,646 (25.9%)	3,891 (28%)
Male Candidates	58,383 (73.9%)	9,997 (71.2%)

elections and is an important variable to include in the model. Here, *incumbent* is coded so a "0" is a non-incumbent and "1" is an incumbent candidate. As with the extant literature, I expect incumbency to have a negative impact on female candidate emergence. Incumbents inhibit females from winning office and may keep them from running completely due to the costs associated with running a campaign, especially one where the challenger is expected to lose against an incumbent. While congressional literature finds women have an increasing tendency to run as challengers against female incumbents (see Lawless and Pearson 2008), much of the literature finds incumbents dissuade candidates from emerging.

Another important control variable is *party*. Research finds female candidates tend to emerge and hold seats in office more often as Democrats than Republicans. Republicans are coded as "0," and I expect that Democrats, coded as "1," will have a positive impact on the number of female candidates.

A measure of competitiveness is also important, especially since females are less likely to run for office if they perceive their chances of winning to be low. As a crude measure of competitiveness, I include the *number of candidates* in each election. While this is not a direct measure of whether a race is competitive or not because it does not include the types of candidates running,[6] Lawless and Pearson (2008) find females tend to be in elections where they are facing more than one opponent. While a majority of races are unopposed or have only two candidates, capturing opposition, especially if there is zero opposition, is an important control.

State-Level Controls

Research also finds women are more successful when they compete in multimember districts (MMD; Carroll 1994; Darcy, Welch, and Clark 1994). This is due to the fact that there are more opportunities to win a seat, and it is not a zero-sum game. A handful of state legislatures use MMDs in their elections rather than single-member districts (SMD). To measure MMDs, I use the *district type* variable, which differentiates between the types of districts. The variable is coded as a dummy for purposes of this study where "0" is an SMD and "1" is an MMD.

I also include a control for *term length*. Given my theory that term limits may attract females who do not wish to be career politicians, I expect there to be a negative

AMERICAN OVERSIGHT

relationship between the length of a term in office and female emergence. Females should be more likely to emerge in states with fewer years in a term; the longer a term, the less likely a female will emerge. Most lower chambers in states have two-year terms, but there are a small handful of states with four-year terms.

I also include a measure of *legislative professionalism*. I use the Squire index, which is a value between 0 and 1 assigned to states based on the level of professionalization within the legislature. Values closer to 0 are the least professional, and values closest to 1 are the most professional (see Squire 1992). I expect professionalization to have a negative impact on the likelihood a female candidate will emerge. This measure is capturing my theoretical argument that women are more likely to emerge when they do not want to be career politicians; therefore, when professionalism increases, female emergence will decrease.

Last, I include a measure for if a candidate emerges in a southern state. The variable *south* is coded with a "1" if the state is a southern state and "0" if otherwise. This measure tries to capture some of the known differences between female representation in the southern versus northern states. I expect southern states will have fewer women emerging as candidates. Table 5 below lists all the variables and their predicted direction for the logistical regression.

Table 5. Variables and Predicted Directions for Logistical Regression.

Variable	Predicted direction
Term Limits	(+)
Open Seat	(+)
Incumbent	(–)
Party ID	(+)
Number of Candidates	(−)
District Type	(+)
Term Length	(−)
Legislature Professionalization	(−)
South	(−)

Method

I employ two methods to test my hypothesis that term limits increase female candidate emergence. The first is a difference-in-differences method. Difference in differences allows time-invariant covariates to be factored out, while incorporating overall exogenous shocks or trends in the system. Difference in differences allows the researcher to control for many factors while "manipulating" one key variable, in this case, term limits, to provide a causal link between the independent and dependent variable.

The difference-in-differences method is shown below using states as the unit of analysis. Equation 1 represents the model for states with term limits. Term limits serve as an intervention point, and the difference in female emergence rates before and after term limits were implemented is provided. The model keeps all variables constant while the unobservable/time-invariant, *ai*, factors are already factored out. Equation 2 represents the control group: states without term limits.[7] Equation 3 represents the difference between the treatment and control groups: states with term limits and states lacking term limits. The error terms are also differenced so this better captures overall shocks to the system and can capture any general trends. If there is a difference found in Equation 3, then term limits have a causal impact on women emergence.

$$\Delta yiTL = \delta 0 + \beta + \Delta uiTL \quad (1)$$

where $\Delta yiTL$ denotes the difference in y for states with term limits

$$\Delta yiNTL = \delta 0 + \beta + \Delta uiNTL \quad (2)$$

where $\Delta yiNTL$ denotes the difference in y for states without term limits

$$\Delta yiTL - \Delta yiNTL = \beta + \left(\Delta uiTL - \Delta uiNTL\right) \quad (3)$$

where y is the mean number of women emerging.

I also run a logistical regression to examine the impact term limits have on the likelihood a female candidate will run for office. The unit of analysis for the logit model is the candidate year. Therefore, candidates will appear in the model for every election cycle they run as a new observation. Where difference in differences examines the overall difference in emergence between male and female candidates in states, the logistical regression aims to capture and predict the likelihood a candidate is a female based on the electoral environment at the individual level. Last, the standard errors are clustered around each individual legislator to control for differences across each candidate.

Results

The difference-in-differences results find term limits increase the mean number of female candidates running for office in states. Table 6 and Figure 1 provide evidence of this relationship within and across states. States with term limits, labeled with (e) for experimental group, see a small increase in the number of females emerging while states without term limits, label (c) for control, see a smaller overall increase. Figure 1 shows the positive effect term limits have on female emergence as well. Post-term limits, there is an overall increase in female

emergence for all the states, but the slope is steeper for states that enacted term limits.

The control group, states without term limits (c), saw a within-group difference in female emergence post-term limits (1996) of 1.8 percent, while the experimental group, states with term limits (e), have a within-group difference of 2.4 percent. Substantively, this shows term limits increase the overall percentage of women emerging by about 0.6 percent. While the percentage seems rather small, this 0.6 percent effect size of term limits equates to roughly ten more women emerging in term-limited states. For example, between 1994 and 2000, Ohio (a state with term limits) had a 0.06 difference in means. In 1996, forty-one females ran for office and in 2000, the first year term limits took effect, fifty-two females emerged (even if just by 0.6 percent, or ten females per election year), the better their chances are for increasing descriptive representation overall in those states. Women cannot win office and gain parity if they are not emerging. Term limits, as tested in the difference-in-differences model suggest there is a positive, causal relationship between term limits and female candidate emergence.

The difference in differences analysis provides a look at states, while the logit analysis looks at the individual level (while controlling for state-level factors). Table 7 shows the results of the logit model, which also supports the hypothesis that term limits increase the likelihood a female candidate will emerge. Logistical regressions are

not directly interpretable without predicted probability models, but term limits is in the expected, positive direction and is statistically significant. Furthermore, all of the control variables are consistent with past literature, in the expected direction, and most are also statistically significant at a level. Only incumbency and term length are insignificant, but both are on the cusp of significance at the .10 level.

While the direction and impact are important, predicted probabilities for logistical regression provide substantive, interpretable results. Table 8 provides predicted probabilities for when a candidate is a Democrat, and Table 9 provides the predicted probabilities for Republican candidates. All the predicted probabilities values are set based on the most likely of cases, rather than an overall mean, which oftentimes captures unlikely cases (such as a 2.5-year term, which does not exist). Therefore, number of candidates is set at 2 (to represent one opponent), term length is set to two, south is set to zero (only looking at nonsouthern states), and professionalization is set to the mean.[8] The tables vary by open seat, district type, incumbency, and party identification.[9] The Open Seat column represents races where no incumbent runs for office. The Non-Incumbent column represents candidate emergence for non-incumbents in nonopen seat races, that is, challengers. Last, the rows represent whether the candidate is in a term-limited or non-term-limited state, and whether the candidate is in an SMD or MMD.

Table 8 shows the substantive differences between Democratic female candidate emergence in term-limited and non-term-limited states. Women are emerging about 2 percent more of the time when term limits are present. In an SMD when there is an open seat, a female candidate emerges about 32 percent of the time in states without term limits versus 34 percent of the time in states with term limits. Open seat races in MMDs also have women emerging 2 percent more in the term-limited states at

about 37 percent of the time versus 35 percent of the time in the non-term-limited states. Women are most likely to emerge in these MMDs with term limits. And while this number is not 50 percent (meaning half the candidates are men, half are women), 37 percent is quite high given the average 24 percent descriptive representation across all the states.

Female emergence as challengers (non-incumbents) also provides evidence in support of the hypothesis that term limits increase female emergence. Women are emerging around 30 percent of the time in SMDs with no term limits versus 32 percent of the time in states with term limits. While winning a seat as a challenger is generally harder due to the incumbency advantage, term limits seem to encourage more women to run. The same pattern exists in MMDs where women emerge as challengers around 33 percent of the time in non-term-limited states and 35 percent of the time in the term-limited states.

Perhaps the most interesting finding is that women are just as likely to emerge as challengers in term-limited states as they are in open seats in states without term limits (around 32 percent in the SMDs and 35 percent in the MMDs). This comparison is important because previous literature finds open seats are one of the best chances women have to gain parity, and they emerge much more often in these seats. Given the equal likelihood of turnout between said open seats and the term-limited nonopen seats, the effect of term limits is similar to the "best case" scenario for women emergence. This suggests term limits lower the incumbency advantage (or at least the perception of how strong it is) and increase a candidate's confidence in their ability to win an election to a level similar to an open-seat election.

Table 9 reports the predicted probabilities for Republicans. The overall predicted probabilities are comparatively lower than the Democratic ones, which is expected given Democratic female candidate trends. The literature finds women are much more likely to emerge, and ultimately win office, as Democrats. For example, Democratic women emerge around 34 percent of the time in term-limited SMDs versus Republican women only emerge around 24 percent of the time. There is about a 10 percent difference between female Democratic and Republican candidate emergence.

Despite the comparatively lower emergence rates, term limits still have a positive effect on female Republicans. The difference in female Republican candidate emergence between term-limited states and non-term-limited states is about 1.5 percent. In other words, the probability a female Republican will emerge increases by about 1.5 percent in term-limited states (vs. about 2 percent for Democratic women). For example, in open seat races in SMDs, women emerge about 23 percent of the time in states without term limits and about 24 percent of the time in states with term limits. The pattern is similar in MMDs where women emerge around 25 percent of the time in states without term limits and 27 percent of the time in states with term limits.

Looking at Republican challengers in the Non-Incumbent column also supports the hypothesis that term limits increase emergence. Women are much more likely to emerge as challengers in term-limited states than non-term-limited states. In SMDs with term limits, women emerge 23 percent of the time versus 22 percent of the time in states without. And in MMDs, women emerge 26 percent of the time versus 24 percent of the time in states without. Further, the results are consistent with the Democratic female candidate emergence finding that women emerge as challengers in term-limited states as often as women emerge in open seats in states without term limits.

While term limits only increase Republican female emergence by 1.5 percent, any increase is arguably positive for women (especially Republican women) who are rather underrepresented in states. Given that term limits increase Democratic female emergence by about 2 percent, the overall increase term limits provide for both parties is evidence that term limits do not have the negative, unintended consequences on women in office. The evidence provided here supports the theory that term limits increase

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-001348

female candidate emergence and also sheds a bit more light on the conventional wisdom about how the incumbency advantage hurts women. Term limits seem to change the candidate pool, and lower the effects of the incumbency advantage. This change lowers the risk associated with running, which increases the number of women willing to emerge as candidates—in open seats, as challengers, and across both parties. Term limits increase the number of women running, and when women run, they win.

Conclusion and Implications

Currently, females make up only 24 percent of state legislators in the United States. This is concerning given a 2009 CAWP study that indicates the growth of female candidates at the state legislative level has remained fairly stagnant since 1997. Since about half of women in higher office begin their political career at lower levels of government, this stagnation in female state legislators is an important area of research to study. If the number of women in state legislatures does not increase and/or gain parity, to generally reflect the population descriptively, the implications for descriptive and substantive representation is concerning at the state and national level.

This article offers a theoretical explanation on how the institutional feature of term limits affects the number of female candidates deciding to run for office. Initial studies on term limits suggest term limits have negative effects on female descriptive representation but largely ignored emergence. Using a candidate-level dataset and experimental design, I find term limits have a positive effect on women candidate emergence. Further, the findings suggest term limits are more beneficial than open seats are for increasing emergence. Term limits boost Democratic females' emergence about 2 percent and female Republican emergence by about 1.5 percent. This suggests term limits may be creating an incentive structure that is widening the eligibility pool. Specifically, term limits make seats, both open and nonopen, more desirable to women candidates.

Overall, these findings are important because the initial findings suggesting term limits are bad for women may not be as problematic as expected. A greater number of female candidates emerging, as presented here, can lead to a greater number or females in office. Future research should focus on the success of female challengers in term-limited states. The results here suggest term limits decrease the incumbency advantage and incentivize women to emerge more as challengers in term-limited seats. The more research and data on these women candidates available, such as candidate quality, campaign financing, and so on, may add insight into how term limits increase emergence, but may not increase descriptive representation. For example, women may emerge, but research suggests competition and relative candidate quality matter, especially in open seat elections (Barnes, Branton, and Cassese 2017; Fulton 2012, 2014). As this article argues, emergence is only the first step, but increasing female challengers is a step in the right direction toward parity—especially if women are successful in their pursuit of office as challengers, rather than waiting for an open seat. Perhaps the successful women are those running in the open seats rather than as challengers. Future research should disentangle this relationship to make the connection between term limits and female descriptive representation.

Last, implications for national representation of women in office are worth considering. The impact of term limits and the type of candidate attracted to the legislatures are likely to have an impact beyond the state level. If term-limited states are attracting candidates who do not want to be career politicians, this may negatively affect female recruitment success for congressional races. Take for example the possibility of a candidate seeking office in a term-limited state with no intentions of being a career politician and leaving after their term has expired—the politician may go back to their previous career, or they may seek higher office. If this politician is female and decides not to run for higher office, overtime, descriptive representation at the national level may be negatively affected. Therefore, future research tracking where women go after they are termed out in the states would also be an important addition to the literature on descriptive representation.

Notes

1. Men also receive more encouragement than females at a younger age to enter fields that are more likely to lead to political careers such as law and business (Fox and Lawless 2004).
2. Since the 1990s, twenty-one states have passed legislation for term limits, but six states have repealed them. Term limits were generally passed via citizen initiatives, and in four states (Massachusetts, Oregon, Washington and Wyoming), the state supreme courts repealed the term limits, and in two states (Idaho and Utah), the state legislature repealed the term limits (NCSL 2014)
3. Also in the 2008 CAWP recruitment study, 35 percent of women in the lower chamber report their decision to run was based on concern about one or more specific policy issues.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001349

4. In the cases where I could not determine the gender of a candidate, I did not include these cases in the models. Some were missing first names in the original SLER study, and I could not determine first names. The missing candidates make up <3 percent of the total observations.
5. Some states allow candidate fusion; candidates can run under multiple-party identifications in the same election. For these cases, I use the party ID, which received the most votes. For example, if Jane Smith ran as a Republican and received ten thousand votes, and as a Democrat with five thousand votes, I drop the Democratic identification, and Jane Smith is coded as a Republican for the election year.
6. That is, whether or not the candidate is a qualified candidate and is more likely to win than a nonquality candidate. Nonquality means a candidate has little to no relevant experience in politics. Usually specified as previous office-holding experience at some level of government.
7. By nature of experimental design, the control group never enacted term limits but a standard year is set as a point of comparison for the pre-/post-estimation. Therefore, the year 1996 is used as the beginning of the "post treatment" for the control group—states without term limits—since the first wave of term limits began in the same year.
8. The online appendix provides two additional tables for female candidate emergence in the South.
9. Tables 8 and 9 have the exact same parameters for determining the predicted probabilities and the only variation between the two is party identification.

AMERICAN OVERSIGHT

U.S. TERM LIMITS

SJR 274/HJR 229
Please cosponsor this important legislation

This 2019 session, the Florida Legislature has introduced HJR 229 in the House and SJR 274 in the Senate for 8-year term limits on Florida school boards.

BENEFITS OF 8-YEAR TERM LIMITS ON SCHOOL BOARD MEMBERS

- ✓ Term limits foster regular, open seat elections.
- ✓ Term limits encourage independence by the school board, as term limits will regularly sever the relationships that grow between special interests and incumbent board members.
- ✓ Term limits improve citizen access to the process, encourage candidates to run for office and work on meaningful campaigns, and increase voter participation in elections.
- ✓ Term limits encourage new faces and fresh ideas. Incumbent members often have their heels dug in over past political battles or are wedded to the special interests they have relied on for reelection.
- ✓ Term limits mandate rotation in office which expands the circle of citizens with intimate knowledge of how the school board works.
- ✓ Term limits encourage transparency and discourage corruption.
- ✓ Term limits create a level playing field between the school board and Florida's other political offices, most of which have an eight-year term limit.

TELL THEM 8 IS ENOUGH!

Term Limits and State Budgets

Randall G. Holcombe
Robert J. Gmeiner
Florida State University

This study examines the effects of state legislative term limits on state government revenues and expenditures. It uses a panel dataset of the 50 states from 1988 to 2011 to estimate the effect of term limits on state government budgets, yielding 1200 observations. The study compares state budget growth in states that adopted term limits with budget growth in states that did not. The main findings of the study are:

o From 1992 to 2000, fifteen states enacted voter-approved term limits for their state legislators.

o In most of those states, the term limits became effective from the late 1990s into the early 2000s, so the dataset has roughly the same number of observations prior to term limits becoming effective as after in those states that adopted term limits.

o An empirical examination of the effects of legislative term limits on state budgets shows that state government budgets grew significantly more slowly after the term limits took effect.

o Prior to term limits taking effect, state government expenditures and revenues grew at about the same rate in states that enacted term limits as in those that did not.

o Different regression models looking at both expenditures and revenues estimate that after term limits took effect, state government expenditure and revenue growth was between 16% and 46% lower in term limit states than in states that did not enact legislative term limits.

o The empirical results are both statistically and economically significant. The slower growth of state budgets in term limit states means that in an eleven year period after term limits took effect, states with term limits would have budgets from 5% to 10% lower than in comparable non-term limited states.

AMERICAN OVERSIGHT

SJR 1216 – Limitation on Terms of Office for Members of a District School Board

1) Explain the bill
2) Explain the amendment barcode # 327674

Thank you Mr. Chairman.

- Senate Joint Resolution 1216 would allow Floridians to decide if term limits should be enacted for School Board members.
- School Board members have responsibilities similar to those of the State Legislature. They control, operate, and supervise monetary and policy decisions for students.
- The joint resolution would be placed on the ballot at the general election in November 2020. This new section would be created in Article IX of the Florida Constitution.
- This resolution would prohibit a person from appearing on the ballot for more than 12 **consecutive** years.

That is the bill Mr. Chairman and I do have an amendment.

AMERICAN OVERSIGHT

AMENDMENT BARCODE # 327674

- This amendment changes the number of consecutive years appearing on the ballot from 12 to 8. 8 years aligns with Florida's current term limits placed on the State Legislature, Cabinet members and this would provide consistency among elected office.

AMERICAN OVERSIGHT

Q: Why are you changing the amendment from 12 to 8 years?

A: 8 years aligns with Florida's current term limits placed on the State Legislature, Cabinet members and this would provide consistency among elected office.

History of Term Limits in Florida:
A: Term Limits were voted on by the people in 1992 with 77 percent of the vote.

Q: How many school boards members are there now?

A: There are currently 358 school board members across the 67 districts in Florida.

Q: How many charter counties are there in Florida?

A: 20 Charter Counties.

Q: Why are we doing this statewide instead of letting Charter Counties to make this decision themselves?
A: To provide consistency in years among all elected office holders.

AMERICAN OVERSIGHT

Q: What is the earliest anyone would be affected if passed?

A: 2028.

2019 Ethics and Elections Committee
Senator Baxley Introduction:

This is a joint resolution proposes creating new section to limit terms of office for members of a district school board.

8 year term limits are the most common in Florida and they work. Lists positions currently affected.

“Eight is enough” was private initiative people feel more control of their own government. Florida’s rationale is that you can run as many times and serve as many times as you want just not consecutively. In response to what citizens what to be citizen government.

Questions:

Q: You indicated that this is in response to what citizens want. Is there a certain group that is looking at this specifically in regards of school board members only in Florida?

A: This is an incremental change and you will see more things looked at over time. I don’t know an organization per say in Florida but there is one called U.S. term limits nationally. The biggest focus for them is Congress but anywhere they can stagger this to a sense of ownership of government. Incumbency is a powerful tool.

Q: You said there’s data to back this up. Who other than U.S. term limits have done these statistics? How do we know if these statistics (not push)/ polls were balanced when they were recorded?

A: Not sure I can reassure you completely but across the country it is growing. More and more local governments are looking to make elected officials more responsive to the electorate and it’s largely worked to be well founded.

AMERICAN OVERSIGHT

Q: Is this something that could be translated to the local governments/ school districts to put in place?

A: There are different ways to approach this idea that is one of them. Counties that have their own charter can already exercise this as an option that is happening. I think it is something we should address to as a state-wide policy, instead of locally.

2019 Education Committee
Sen. Baxley Introduction:

Pretty simple concept SJR creating a new section to limit the terms of school board to 8 years. 8 year term limits is the most common and they work. 8 year currently among list office. Time-tested reform nationwide and I think it is time to move forward. The year 2028 would be earliest anyone affected currently in office if this resolution passes. A vote to see what the people want to do this in 2020 and if term limits are wanted and then implemented statewide.

Q: SJR 274 provides that a person may not appear on the ballot for reelection to the office of school board member if by the end of his or her current term he or she served, or but for resignation will have served, in that office for 8 consecutive years.
A: We are giving the chance for the people of Florida to have a voice and a vote every 4 years but for a maximum of 8 consecutively. There is a power of incumbency that should be released and allow the people to vote for their citizen government.

2020 Pre-K-12 Innovation Committee
Rep. Sabatini Introduction:

This is a constitutional amendment, this is a bill to give Floridians if they wish to vote for term limits. There is no bi-partisan bill this year in the history of the legislature. Over 82% of Floridians have been polled and are in support of term limits. You can look around this room and see it now, the diversity. Fresh group of people, who come with new issues and everyone "Rotation of Leadership" as you succeed and achieve, you are moved to

AMERICAN OVERSIGHT

different places. If you are a public servant and they want to move you to another position. You rank up in leadership.

Questions:

Q: Why are we limiting people if we're allowed to choose?

A: We're not limiting them. We're limiting consecutive terms. Consecutive terms are so important because it creates competition with new ideas and perspectives. This will force people to pay attention to our election process. Competitive elections serve democracy well.

Q: Why JUST the constitutional officer of school boards? Why not all of the constitution officers?

A: Arguably after the President, Governor, Cabinet, all of these high-power positions being term limited, in my opinion the next problem that's not being term limited is the school board. School Boards control 20 billion dollars mandated for education in our state more than any other officer. A quarter of our budget is administered by School Board members. Personally believe that everyone should be term limited, but we should narrowly tailor a bill that focuses on one or two elected offices first.

AMERICAN OVERSIGHT

HB 1265: Verification of Employment Eligibility

SPONSOR(S): Rep. Byrd
DATE:
IDENTICAL/SIMILAR BILLS & SPONSOR:

SUMMARY
HB 1265 requires all Florida public employers, contractors, and subcontractors are to use the E-Verify system to confirm eligibility for employment. It also requires private employers to verify the employment eligibility of newly hired employees, giving them the option of using E-Verify or submission of verification documents compliant under the Real ID Act and other current law.

Effective date of July 1, 2020.

Current Situation:

E-Verify and its Current Use in Florida and Other States
The E-Verify Employment Eligibility Verification Program is an Internet-based system that allows employers to verify the employment authorization status of newly hired and, in the case of federal contractors, existing employees. Jointly administered by the U.S. Citizenship and Immigration Services (USCIS) and the Social Security Administration (SSA), E-Verify compares the data provided on an employee's Form I-9, Employment Eligibility Verification Form, to government records in order to help employers determine if a new hire is eligible to work in the United States. Although the use of E-Verify is not currently mandatory nationwide, numerous states and municipalities have passed legislation requiring its use for some or all employers. Currently, the following 22 states require E-Verify use at some level:

Alabama, Arizona, Colorado, Florida, Georgia, Idaho, Indiana, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Carolina, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Virginia, West Virginia

On January 4, 2011 Governor Rick Scott signed Executive Order 11-02 requiring agencies under his direction to use E-Verify; it was superseded on May 27, 2011 by Executive Order 11-116 that brought the policy in line with standard E-Verify practices requiring verification of new employees rather than both new and existing employees. Specifically, all agencies under the direction of the Governor are directed to verify the employment eligibility of all new employees through E-Verify; agencies not under the direction of the Governor are "encouraged" to follow the same guidelines. The executive order also mandates that as a condition of all contracts for the provision of goods and services in excess of nominal value, all agencies under the direction of the Governor must require contractors and their subcontractors to use E-Verify for all new employees hired during the contract term. Agencies not under the direction of the Governor are encouraged to follow these guidelines as well.

Proposed Changes:

Florida Public Employers, Contractors, and Subcontractors
HB 1265 requires that as of January 1, 2021 all Florida public employers, contractors, and subcontractors register with and use the E-Verify system to verify the work authorization status of all newly hired employees. A public employer, contractor, or subcontractor may not enter into a contract unless each party to the contract registers with and uses the E-Verify system.

Further, if a contractor enters into a contract with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien. A public employer, contractor, or subcontractor who has a good faith belief that a person or entity with which it is contracting has knowingly violated the verification requirements shall terminate the contract with the person or entity. A public employer that has a good faith belief that a subcontractor knowingly violated verification, but the contractor otherwise complied with the requirement, shall promptly notify the contractor and order the contractor to immediately terminate the contract with the

AMERICAN OVERSIGHT

subcontractor. Any contract terminated under the specified conditions is not a breach of contract and may not be considered as such.

If a public employer terminates a contract with a contractor under the specified conditions, the contractor may not be awarded a public contract for at least 1 year after the date on which the contract was terminated. A public employer, contractor, or subcontractor may file an action with a circuit or county court to challenge a contract termination under the specified conditions no later than 20 calendar days after the date on which the contract was terminated.

Florida Private Employers
The bill also requires that as of January 1, 2021 all Florida private employers making an offer of employment which has been accepted by a person to verify such person's employment eligibility. A private employer is not required to verify the employment eligibility of a continuing employee hired before January 1, 2021; however, if a person is a contract employee retained by a private employer, the private employer must verify the employee's employment eligibility upon the renewal or extension of his or her contract.

A private employer is required to verify a person's employment eligibility by one of two methods:

1. Using the E-Verify system; or
2. Requiring the person to provide a picture identification card that complies with the Real ID Act of 2005, Pub. L. No. 109-13, and a certified copy of one of the following documents:
   a. A United States birth certificate;
   b. A certificate of naturalization;
   c. A certificate of citizenship;
   d. An alien registration receipt card; or
   e. A United States immigration form I-94 stamped to indicate "employment authorized."

Compliance with this requirement creates a rebuttable presumption that the private employer did not knowingly employ an unauthorized alien.

Further, no private employers may bid on or otherwise contract with a public employer for the performance of labor or services in Florida unless the private employer provides the public employer with an affidavit stating that:

1. The private employer is registered with and uses the E-Verify system to verify that all newly hired employees are legal citizens of the United States or legal aliens.
2. The private employer will continue to use the E-Verify system to verify the employment eligibility of all newly hired employees for the duration of the contract.
3. The private employer requires all subcontractors to provide an affidavit stating compliance with the verification requirements.

A private employer that violates these provisions may be subject to termination of its public contract, if applicable, and may not be awarded a public contract for at least 1 year after the date on which the contract was terminated. The termination of the contract is not a breach of contract and may not be considered as such. A private employer is liable for any additional costs incurred by the public employer as a result of the termination of the contract. A private employer that complies with the verification requirements may not be held civilly or criminally liable under state law for hiring, continuing to employ, or refusing to hire an unauthorized alien if the information obtained indicates that the person's work authorization status was not that of an unauthorized alien.

Finally, the bill states that the provisions are be enforced without regard to race, color, or national origin and shall be construed in a manner so as to be fully consistent with any applicable federal laws or regulations.

AMERICAN OVERSIGHT

FISCAL IMPACT

Overall indeterminate; no additional costs to Florida state agencies, contractors, and subcontractors under the purview of the Governor since they are already required to use E-Verify by the existing executive order. Depending on whether or not they currently use E-Verify, other state and local public employers, contractors, and subcontractors may incur additional costs associated with compliance. For private employers, given that the bill provides an option of using E-Verify or accepting other validated documentation costs for compliance could potentially be minimal.

PROPONENTS/OPPONENTS

COMMITTEE ACTION

01/10/20	HOUSE	Filed

AMERICAN OVERSIGHT

Talking Points: HB 1265 Verification of Employment Eligibility

Florida Public Employers

- Effective January 1, 2021, HB 1265 would require all Florida public employers, contractors, and subcontractors to use the E-Verify system to confirm the employment eligibility of newly hired employees.

- Subcontractors operating under public employer contracts must submit affidavits stating that they do not employ, contract with, or subcontract with unauthorized aliens.

- Knowing violations of the verification and employment provisions require immediate contract termination, and any such contractors may not be awarded a public contract for at least 1 year after the date on which the contract was terminated.

Florida Private Employers

- Effective January 1, 2021, all private employers would be required to confirm the employment eligibility of newly hired employees, giving them the option of using E-Verify or submission of verification documents compliant under the Real ID Act and other current law; this includes picture identification and either a certified birth certificate, certificate of naturalization, certificate of citizenship, an alien registration receipt card, or a United States immigration form I-94 stamped to indicate "employment authorized." Compliance with this requirement creates a rebuttable presumption that the private employer did not knowingly employ an unauthorized alien.

- No private employers may bid on or otherwise contract with a public employer for the performance of labor or services in Florida unless the private employer provides the public employer with an affidavit stating that the private employer is registered with and uses the E-Verify system; the private employer will continue to use the E-Verify system for the duration of the contract; and the private employer requires all subcontractors to provide an affidavit stating compliance with the verification requirements.

- A private employer that violates these provisions may be subject to termination of its public contract, if applicable, and may not be awarded a public contract for at least 1 year after the date on which the contract was terminated.

- A private employer that complies with the verification requirements may not be held civilly or criminally liable under state law for hiring, continuing to employ, or refusing to hire an unauthorized alien if the information obtained indicates that the person's work authorization status was not that of an unauthorized alien.

Subject: FW: We're Not Willing to Tax Florida's Future Away

Dear Sen. Gruters:
Ronald Reagan used to say, if you want less of something, tax it.

With all due respect to recent news reports, the Florida Chamber of Commerce is not willing to tax Florida's future away.

That's why we're uniting Florida's business community for good, and working to grow Florida's economy from the 17th to the 10th largest in the world. A competitive and equitable tax system that encourages job growth and strengthens our economy will be essential in achieving this goal.

If you have questions about recent attempts by some in the media to obfuscate the legislature's efforts and progress on making Florida's tax code as competitive as possible, please feel free to reach out to me or Frank Walker at fwalker@flchamber.com.

My best,

Mark

Committee/Subcommittee hearing bill: Commerce Committee
Representative Goff-Marcil offered the following:

Amendment (with title amendment)

Between lines 60 and 61, insert:

Section 2. Section 509.113, Florida Statutes, is created to read:

509.113 Certain registration for vacation rentals.—A sexual offender as defined in s. 944.606(1)(f) must register at the sheriff's office in the county in which the sexual offender is temporarily residing pursuant to s. 775.21 at least 48 hours before arrival at the vacation rental, regardless of the length of stay. A vacation rental owner or operator who rents a vacation rental to a sexual offender must notify all property owners within 1,000 feet of the vacation rental property at least 24 hours before the sexual offender's arrival. The

division may fine, suspend, or revoke the license of any owner or operator of a vacation rental if such owner or operator is not in compliance with the requirements of this section. Any advertisement for a vacation rental posted online must prominently display the physical address of the vacation rental and a link to a website created by the Department of Law Enforcement pursuant to s. 943.043 to notify the public of any information regarding sexual offenders. Such advertisement must prominently display a link to s. 943.0435 and include the following statement: "Every sexual offender intending to temporarily reside at a vacation rental in Florida is required by Florida law to register in accordance with section 509.113, Florida Statutes."

T I T L E A M E N D M E N T

Remove line 6 and insert:
exception; creating s. 509.113, F.S.; requiring sexual offenders to register with the sheriff's office of the county in which they will be temporarily residing in a vacation rental within a certain timeframe; providing requirements for such registration; requiring an owner or operator of a vacation rental to notify specified property owners within a certain timeframe; providing penalties;
