~~dyed in accordance with federal regulations. Aviation gasoline does not include any such fuel used in any manner other than being placed in the storage tank of an aircraft.~~

~~206.9825 Aviation fuel tax.—~~

~~(1)(a) Except as otherwise provided in this part, an excise tax of 4.27 cents per gallon of aviation fuel is imposed upon every gallon of aviation fuel sold in this state, or brought into this state for use, upon which such tax has not been paid or the payment thereof has not been lawfully assumed by some person handling the same in this state. Fuel taxed pursuant to this part is not subject to the taxes imposed by ss. 206.41(1)(d), (e), and (f) and 206.87(1)(b), (c), and (d).~~

~~(b)1. Sales of aviation fuel to, and exclusively used for flight training through a school of aeronautics or college of aviation by, a college based in this state which is a tax-exempt organization under s. 501(c)(3) of the Internal Revenue Code or a university based in this state are exempt from the tax imposed by this part if the college or university:~~

~~a. Is accredited by or has applied for accreditation by the Aviation Accreditation Board International; and~~

AMERICAN OVERSIGHT

By Senator _____

~~b. Offers a graduate program in aeronautical or aerospace engineering or offers flight training through a school of aeronautics or college of aviation.~~

~~2. A licensed wholesaler or terminal supplier that sells aviation fuel to a college or university qualified under this paragraph and that does not collect the aviation fuel tax from the college or university on such sale may receive an ultimate vendor credit for the 4.27-cent excise tax previously paid on the aviation fuel delivered to such college or university.~~

~~3. A college or university qualified under this paragraph which purchases aviation fuel from a retail supplier, including a fixed-base operator, and pays the 4.27-cent excise tax on the purchase may apply for and receive a refund of the aviation fuel tax paid.~~

~~(2)(a) An excise tax of 4.27 cents per gallon is imposed on each gallon of kerosene in the same manner as prescribed for diesel fuel under ss. 206.87(2) and 206.872.~~

~~(b) The exemptions provided by s. 206.874 shall apply to kerosene if the dyeing and marking requirements of s. 206.8741 are met.~~

AMERICAN OVERSIGHT

By Senator _____

~~(c) Kerosene prepackaged in containers of 5 gallons or less and labeled "Not for Use in a Motor Vehicle" is exempt from the taxes imposed by this part when sold for home heating and cooking. Packagers may qualify for a refund of taxes previously paid, as prescribed by the department.~~

~~(d) Sales of kerosene in quantities of 5 gallons or less by a person not licensed under this chapter who has no facilities for placing kerosene in the fuel supply system of a motor vehicle may qualify for a refund of taxes paid. Refunds of taxes paid shall be limited to sales for use in home heating or cooking and shall be documented as prescribed by the department.~~

~~(3) An excise tax of 4.27 cents per gallon is imposed on each gallon of aviation gasoline in the manner prescribed by paragraph (2)(a). However, the exemptions allowed by paragraph (2)(b) do not apply to aviation gasoline.~~

~~(4) Any licensed wholesaler or terminal supplier that delivers undyed kerosene to a residence for home heating or cooking may receive a credit or refund as the ultimate vendor of the kerosene for the 4.27-cent excise tax previously paid.~~

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001380

By Senator _____

~~(5) Any licensed wholesaler or terminal supplier that delivers undyed kerosene to a retail dealer not licensed as a wholesaler or terminal supplier for sale as a home heating or cooking fuel may receive a credit or refund as the ultimate vendor of the kerosene for the 4.27-cent excise tax previously paid, provided the retail dealer has no facility for fueling highway vehicles from the tank in which the kerosene is stored.~~

~~(6) Any person who fails to meet the requirements of this section is subject to a backup tax as provided by s. 206.873.~~

~~206.9826 Refund for certain air carriers.—An air carrier conducting scheduled operations or all-cargo operations that are authorized under 14 C.F.R. part 121, 14 C.F.R. part 129, or 14 C.F.R. part 135, is entitled to receive a refund of 1.42 cents per gallon of the taxes imposed by this part on aviation fuel purchased by such air carrier. The refund provided under this section plus the refund provided under s. 206.9855 may not exceed 4.27 cents per gallon of aviation fuel purchased by an air carrier.~~

~~206.9835 Administration of tax.—To the extent that they are not manifestly incompatible with the provisions of this part, the provisions of part I shall govern the~~

~~administration and enforcement of the tax imposed by this part.~~

~~206.9837 Disclosure of price.—Every retail dealer engaged in the sale of aviation fuel to the public shall post in a place clearly visible to the public in the fixed base operator terminal, or on the outside housing of each pump or other dispensing device, the price of the aviation fuel, including a statement disclosing whether the stated price includes tax on the fuel. All display material shall be subject to the approval of the local governing or controlling agency with jurisdiction over the airport.~~

~~206.9845 Distribution of proceeds.—Moneys collected pursuant to this part shall be deposited in the Fuel Tax Collection Trust Fund. Such moneys, after deducting the service charges imposed by s. 215.20, the refunds granted pursuant to s. 206.9855, and the administrative costs incurred by the department in collecting, administering, enforcing, and distributing the tax, which administrative costs may not exceed 2 percent of collections, shall be distributed monthly to the State Transportation Trust Fund.~~

~~206.9855 Refund to carriers.—Any carrier that is in the business of transporting persons or property for~~

AMERICAN OVERSIGHT

~~compensation or hire by air shall be entitled to receive a refund of the taxes imposed by this part on aviation fuel purchased by such carrier. The refund shall not exceed 0.6 percent of the wages paid by the carrier to employees located or based within this state and who are covered by the provisions of chapter 443.~~

~~206.9865 Commercial air carriers; registration; reporting.—~~

~~(1) A commercial air carrier which operates in Florida must apply for and receive from the department an aviation fuel tax license.~~

~~(2) To procure an aviation fuel tax license, the carrier must file an application in such form and furnish such information as the department may require.~~

~~(3) The application must be renewed annually.~~

~~(4) Upon issuance of the aviation fuel tax license, each carrier shall file with the department a report showing inventories; all purchases of tax-paid aviation fuel; all fuels drawn from bonded supplies; imports; and disbursements, sales, and usage. The report shall be filed pursuant to part I of this chapter.~~

~~(5) The license shall be for the purpose of remitting taxes on any aviation fuel which is drawn from bond or~~

Department of State Legislative Proposal
Office of International Affairs

Create Statute in Chapter 15 Secretary of State-
State Protocol Officer-
The Secretary of State shall serve as the state protocol officer. In consultation with the Governor and other governmental officials, the Secretary of State shall develop, maintain, publish, and distribute the state protocol manual.

15.182 International travel by state-funded musical, cultural, or artistic organizations; notification to the Department of ~~Economic Opportunity~~ State.—
(1) If a musical, cultural, or artistic organization that receives state funding is traveling internationally for a presentation, performance, or other significant public viewing, including an organization associated with a college or university, such organization shall notify the Department of ~~Economic Opportunity~~ State of its intentions to travel, together with the date, time, and location of each appearance.
(2) The Department of ~~Economic Opportunity~~ State, in conjunction with the Department of Economic Opportunity and Enterprise Florida, Inc., shall act as an intermediary between performing musical, cultural, and artistic organizations and Florida businesses to encourage and coordinate joint undertakings. Such coordination may include, but is not limited to, encouraging business and industry to sponsor cultural events, assistance with travel of such organizations, and coordinating travel schedules of cultural performance groups and international trade missions.
(3) An organization shall provide the notification to the Department of State required by this section at least 30 days before the date the international travel is to commence or, when an intention to travel internationally is not formed at least 30 days in advance of the date the travel is to commence, as soon as feasible after forming such travel intention. The Department of State shall take an active role in informing such groups of the responsibility to notify the department of travel intentions.

288.012 State of Florida international offices; state protocol officer; protocol manual.—
~~(7) The Governor may designate a state protocol officer. The state protocol officer shall be housed within the Executive Office of the Governor. In consultation with the Governor and other governmental officials, the state protocol officer shall develop, maintain, publish, and distribute the state protocol manual.~~

Create Statute in Chapter 288 International Affairs-
Citizen support organizations; use of state administrative services and property; audit.—
(1) CITIZEN SUPPORT ORGANIZATIONS.—The Office of International Affairs within the Department of State may support the establishment of citizen support organizations to provide assistance, funding, and promotional support for intergovernmental programs. For the purposes of this section, a “citizen support organization” means an organization which is:
(a) A Florida corporation not for profit incorporated under the provisions of chapter 617 and approved by the Department of State.
(b) Organized and operated to conduct programs and activities; raise funds; request and receive grants, gifts, and bequests of money; acquire, receive, hold, invest, and administer, in its own name, securities, funds, objects of value, or other property, real or personal; and make expenditures to or for the direct or indirect benefit of the Office.
(c) Determined by the Office to be consistent with the goals of the Office and in the best interests of the state.

AMERICAN OVERSIGHT

(d) Approved in writing by the Office to operate for the direct or indirect benefit of the Office. Such approval shall be given in a letter of agreement from the Office.
(2) USE OF ADMINISTRATIVE SERVICES AND PROPERTY.—
(a) The Office may prescribe by rule any condition with which a citizen support organization shall comply in order to use Office administrative services, property, or facilities.
(b) The Office shall not permit the use of any administrative services, property, or facilities of the state by a citizen support organization which does not provide equal membership and employment opportunities to all persons regardless of race, color, religion, sex, age, or national origin.
(3) ANNUAL AUDIT.—The citizen support organization shall provide for an annual financial audit in accordance with s. 215.981.

288.816 Intergovernmental relations.—
(1) The state protocol officer shall be responsible for consular operations and the sister city and sister state program and shall serve as liaison with foreign, federal, and other state international organizations and with county and municipal governments in Florida.
(2) The state protocol officer shall be responsible for all consular relations between the state and all foreign governments doing business in Florida. The state protocol officer shall monitor United States laws and directives to ensure that all federal treaties regarding foreign privileges and immunities are properly observed. The state protocol officer shall promulgate rules which shall:
(a) Establish a viable system of registration for foreign government officials residing or having jurisdiction in the state. Emphasis shall be placed on maintaining active communication between the state protocol officer and the United States Department of State in order to be currently informed regarding foreign governmental personnel stationed in, or with official responsibilities for, Florida. Active dialogue shall also be maintained with foreign countries which historically have had dealings with Florida in order to keep them informed of the proper procedure for registering with the state.
(b) Maintain and systematically update a current and accurate list of all such foreign governmental officials, consuls, or consulates.
~~(c) Issue certificates to such foreign governmental officials after verification pursuant to proper investigations through United States Department of State sources and the appropriate foreign government.~~
~~(d) Verify entitlement to sales and use tax exemptions pursuant to United States Department of State guidelines and identification methods.~~
(e) Verify entitlement to issuance of special motor vehicle license plates by the Department of Highway Safety and Motor Vehicles to honorary consuls or such other officials representing foreign governments who are not entitled to issuance of special Consul Corps license plates by the United States Government.
(f) Establish a system of communication to provide all state and local law enforcement agencies with information regarding proper procedures relating to the arrest or incarceration of a foreign citizen.
(g) Request the Department of Law Enforcement to provide transportation and protection services when necessary pursuant to s. 943.68.
(h) Coordinate, when necessary, special activities between foreign governments and Florida state and local governments. These may include Consular Corps Day, Consular Corps conferences, and various other social, cultural, or educational activities.
(i) Notify all newly arrived foreign governmental officials of the services offered by the state protocol officer.
(3) The state protocol officer may: ~~shall operate the sister city and sister state program and~~

AMERICAN OVERSIGHT

~~establish such new programs as needed to further global understanding through the interchange of people, ideas, and culture between Florida and the world. To accomplish this purpose, the state protocol officer shall have the power and authority to:~~

(a) Coordinate and carry out activities designed to encourage the state and its subdivisions to participate in sister city and sister state affiliations with foreign countries and their subdivisions. Such activities may include a State of Florida sister cities conference.

(b) Encourage cooperation with and disseminate information pertaining to the Sister Cities International Program and any other program whose object is to promote linkages with foreign countries and their subdivisions.

(c) Maximize any aid available from all levels of government, public and private agencies, and other entities to facilitate such activities.

~~(d) Establish a viable system of registration for sister city and sister state affiliations between the state and foreign countries and their subdivisions. Such system shall include a method to determine that sufficient ties are properly established as well as a method to supervise how these ties are maintained.~~

~~(e) Maintain a current and accurate listing of all such affiliations. Sister city affiliations shall not be discouraged between the state and any country specified in s. 620(f)(1) of the federal Foreign Assistance Act of 1961, as amended, with whom the United States is currently conducting diplomatic relations unless a mandate from the United States Government expressly prohibits such affiliations.~~

(4) The state protocol officer shall serve as a contact for the state with the Florida Washington Office, the Florida Congressional Delegation, and United States Government agencies with respect to laws or policies which may affect the interests of the state in the area of international relations. All inquiries received regarding international economic trade development or reverse investment opportunities shall be referred to Enterprise Florida, Inc. In addition, the state protocol officer shall serve as liaison with other states with respect to international programs of interest to Florida. The state protocol officer shall also investigate and make suggestions regarding possible areas of joint action or regional cooperation with these states.

(5) The state protocol officer shall have the power and duty to encourage the relocation to Florida of consular offices and multilateral and international agencies and organizations.

(6) The department and Enterprise Florida, Inc., shall help to contribute an international perspective to the state’s development efforts.

Appropriations Project Request - Fiscal Year 2020-21

For projects meeting the Definition of House Rule 5.14

1. Title of Project: FLORIDA FIRST ROBOTICS TEAM GRANT
2. Date of Submission: 11/13/2019
3. House Member Sponsor: Chip LaMarca
   Members Copied:

4. DETAILS OF AMOUNT REQUESTED:

a. Has funding been provided in a previous state budget for this activity? Yes
   If answer to 4a is "No" skip 4b and 4c and proceed to 4d, Col. E
b. What is the most recent fiscal year the project was funded? 2018-19
c. Were the funds provided in the most recent fiscal year subsequently vetoed? No
d. Complete the following Project Request Worksheet to develop your request:

FY:	Input Prior Year Appropriation for this project for FY 2019-20 (If appropriated in 2019-20 enter the appropriated amount, even if vetoed.)			Develop New Funds Request for FY 2020-21 (Requests for additional RECURRING funds are prohibited.)		
Column:	A	B	C	D	E	F
Funds Description:	Prior Year Recurring Funds	Prior Year Nonrecurring Funds	Total Funds Appropriated (Recurring plus Nonrecurring: column A + column B)	Recurring Base Budget (Will equal non-vetoed amounts provided in Column A)	**Additional Nonrecurring Request**	**TOTAL Nonrecurring plus Recurring Base Funds** (Will equal the amount from the Recurring base in Column D plus the Additional Nonrecurring Request in Column E.)
Input Amounts:					900,000	900,000

5. Are funds for this issue requested in a state agency's Legislative Budget Request submitted for FY 2020-21? No

5a. If yes, which state agency?

5b. If no, which is the most appropriate state agency to place an appropriation for the issue being requested? Department of Education

5c. Has the appropriate state agency for administering the funding, if the request were appropriated, been contacted? No

5d. Describe penalties for failing to meet deliverables or performance measures which the agency should provide in its contract to administer the funding if appropriated.

Deobligate a portion of the funds for future grants, but taking into consideration extenuating circumstances

6. Requester:
   a. Name: Sandra Contreras
   b. Organization: FIRST Robotics (For Inspiration and Recognition of Science and Technology)
   c. Email: scontreras@firstinspires.org
   d. Phone #: (954)281-2202

7. Contact for questions about specific technical or financial details about the project:
   a. Name: Sandra Contreras
   b. Organization: FIRST Robotics (For Inspiration and Recognition of Science and Technology)
   c. Email: scontreras@firstinspires.org
   d. Phone #: (954)281-2202

8. Is there a registered lobbyist working to secure funding for this project?
   a. Name: None
   b. Firm: None
   c. Email:
   d. Phone #:

9. Organization or Name of entity receiving funds:
   a. Name: FIRST Robotics
   b. County (County where funds are to be expended): Orange, Palm Beach
   c. Service Area (Counties being served by the service(s) provided with funding): Statewide

10. What type of organization is the entity that will receive the funds? (Select one)
   ○ For Profit
   ◉ Non Profit 501(c) (3)
   ○ Non Profit 501(c) (4)
   ○ Local Government
   ○ University or College
   ○ Other (Please describe)

AMERICAN OVERSIGHT

11. What is the specific purpose or goal that will be achieved by the funds being requested?

FIRST is the world's leading youth-serving nonprofit advancing STEM. FIRST programs inspire innovation and leadership through engaging robotics challenges developed to ignite curiosity and passion in students in grade K-12.These funds will help support high school teams participating in the FIRST Robotics Competition and FIRST Tech Challenge, help fund the FRC Regional competitions: Orlando and South FL, and the FTC State Championship. It will also help other FIRST cross program initiatives.

12. Provide specific details on how funds will be spent. (Select all that apply)

Spending Category	Description	Nonrecurring (Should equal 4d, Col. E) Enter "0" if request is zero for the category
Administrative Costs:		
☐a. Executive Director/Project Head Salary and Benefits		
☐b. Other Salary and Benefits		
☐c. Expense/Equipment/Travel/Supplies/Other		
☐d. Consultants/Contracted Services/Study		
Operational Costs:		
☐e. Salaries and Benefits		
☑f. Expenses/Equipment/Travel/Supplies/Other	$3,000 to each Florida FRC team that participates in a Florida regional, funds to cover part of the regional registration fee. An additional $2,500 for Florida FRC teams that register for a 2nd Florida regional, funds to cover part of the registration fee. Each Florida FRC team that qualifies for the FIRST World Championship by winning their way there to receive $3,000 to help defray cost of travel	900,000

	and participation at the World Competition. $200,000 for each regional competition in Florida (Sou	
☐g. Consultants/Contracted Services/Study		
Fixed Capital Construction/Major Renovation:		
☐h. Construction/Renovation/Land/Planning Engineering		
TOTAL		900,000

13. For the Fixed Capital Costs requested with this issue (In Question 12, category "h. Fixed Capital Outlay" was selected), what type of ownership will the facility be under when complete? (Select one correct option)

○For Profit
○Non Profit 501(c) (3)
○Non Profit 501(c) (4)
○Local Government (e.g., police, fire or local government buildings, local roads, etc.)
○State agency owned facility (For example: college or university facility, buildings for public schools, roads in the state transportation system, etc.)
○Other (Please describe)

14. Is the project request an information technology project?

No

15. Is there any documented show of support for the requested project in the community including public hearings, letters of support, major organizational backing, or other expressions of support?

Yes

15a. Please Describe:

We have a video created by the teams: https://firstinflorida.org/ that has been accessed more than 4,190 times. In previous years, more than 210 letters were sent to Representatives and Senators from teams all across the state of Florida, thanking them for the support received and asking for their continued support.

16. Has the need for the funds been documented by a study, completed by an independent 3rd party, for the area to be served?

Yes

AMERICAN OVERSIGHT
Tracking #: 17325

16a. Please Describe:

The U.S. is ranked 20th out of 30 in high school graduation rates among industrialized nations.[1] Standardized test scores from 30 nations rank 14-year-olds in the U.S. 25th in math and 21st in science.[2] [1 & 2] National Science Board (May, 2010). Preparing the Next Generation of STEM Innovators: Identifying and Developing Our Nation's Human Capital. National Science Foundation.

17. Will the requested funds be used directly for services to citizens?

Yes

17a. What are the activities and services that will be provided to meet the purpose of the funds?

The funds will directly impact 9-12th grade students in their ability to participate and compete in the FIRST Robotics Competition and the FIRST Tech Challenge by lowering the barrier to entry by paying some competition registration costs. It will also support the competitions in which students compete with the robot designed specifically for that year's challenge.

17b. Describe the direct services to be provided to the citizens by the funding requested.

Through the participation in the FIRST Robotics Competition and FIRST Tech Challenge program, students learn many of the required skills needed not only to develop a competitive robot, but also to manage a small business. We also provide a location where registered teams can participate in the robotics competition challenge designed for that year.

17c. Describe the target population to be served (i.e., "the majority of the funds requested will serve these target populations or groups."). Select all that apply to the target population:

- ☐Elderly persons
- ☐Persons with poor mental health
- ☐Persons with poor physical health
- ☐Jobless persons
- ☑Economically disadvantaged persons
- ☑At-risk youth
- ☐Homeless
- ☐Developmentally disabled
- ☐Physically disabled
- ☐Drug users (in health services)
- ☐Preschool students
- ☐Grade school students
- ☑High school students
- ☐University/college students

AMERICAN OVERSIGHT

FLORIDA PATIENT'S BILL OF RIGHTS

This Act shall be known and may be cited as the "Florida Patient's Bill of Rights."

The Legislature finds and declares that in recent years, the cost of health insurance for services covered by insurance has risen exponentially while costs of healthcare for non-covered services has declined in large part due to consumer awareness of the actual cost of non-covered services. In an effort to increase cost transparency and facilitate informed consumer choice this Act requires all healthcare providers, including all Florida licensed physicians and Florida Hospitals, to: (1) disclose the fee that the healthcare provider will accept for cash payment for the non-emergency services provided; (2) curtail surprise "balance-billing" for emergency treatments; and (3) require healthcare insurers to report actual claim information under group health plans.

I. DISCLOSURE OF CHARGES FOR HEALTHCARE SERVICES.

a. All healthcare providers licensed in the State of Florida shall disclose on the provider's website in a searchable format a complete list of the cash amounts in U.S. Dollars that the provider will accept to perform each of the non-emergency treatments that are rendered by the provider in any given year.

b. The healthcare provider must update this list at least once a year.

AMERICAN OVERSIGHT

c. No healthcare provider may charge their patient for non-emergency services that exceed the amounts disclosed on the provider's website.

d. The disclosure of the cash price of treatments shall be in addition to or otherwise supplement any similar requirements in existing Florida law, Federal law, and applicable State and Federal regulations.

II. OUT-OF-NETWORK BILLING PRACTICES

a. The Legislature finds that despite existing State and federal laws and regulations to protect against certain surprise out-of-network charges, these charges continue to pose a problem for health care consumers in Florida. Many consumers find themselves with surprise bills for hospital emergency room procedures or for charges by providers that the consumer had no choice in selecting. The purpose of this bill is to increase transparency in pricing for health care and enhance consumer protections by preventing unexpected costs to the consumer.

b. As used in this act:

"Carrier" means an entity that contracts or offers to contract to provide, deliver, arrange for, pay for, or reimburse any of the costs of health care services under a health benefits plan, including: an insurance company authorized to issue health benefits plans; a health maintenance organization; a health, hospital, or medical service corporation; a multiple employer welfare

AMERICAN OVERSIGHT

arrangement; a state health benefits programs and school employees' health benefits programs; or any other entity providing a health benefits plan. Except as provided under the provisions of this act, "carrier" shall not include any other entity providing or administering a self-funded health benefits plan.

"Covered person" means a person on whose behalf a carrier is obligated to pay health care expense benefits or provide health care services.

"Department" means the Florida Department of Health.

"Emergency or urgent basis" means all emergency and urgent care services.

"Health benefits plan" means a benefits plan which pays or provides hospital and medical expense benefits for covered services, and is delivered or issued for delivery in this State by or through a carrier. For the purposes of this act, "health benefits plan" shall not include the following plans, policies or contracts: Medicaid, Medicare, Medicare Advantage, accident only, credit, disability, long-term care, coverage arising out of a workers' compensation or similar law, automobile medical payment insurance, personal injury protection insurance.

"Health care facility" means a general acute care hospital, satellite emergency department, hospital based off-site ambulatory care facility in which

AMERICAN OVERSIGHT

ambulatory surgical cases are performed, or any licensed ambulatory surgery facility.

"Health care professional" means an individual, acting within the scope of his licensure or certification, who provides a covered service defined by the health benefits plan.

"Health care provider" or "provider" means a health care professional or health care facility.

"Inadvertent out-of-network services" means health care services that are: covered under a managed care health benefits plan that provides a network; and provided by an out-of-network health care provider in the event that a covered person utilizes an in-network health care facility for covered health care services and, for any reason, in-network health care services are unavailable in that facility. "Inadvertent out-of-network services" shall include laboratory testing ordered by an in-network health care provider and performed by an out-of-network bio-analytical laboratory.

"Knowingly, voluntarily, and specifically selected an out-of-network provider" means that a covered person chose the services of a specific provider, with full knowledge that the provider is out-of-network with respect to the covered person's health benefits plan, under circumstances that indicate that covered person had the opportunity to be serviced by an in-network provider,

AMERICAN OVERSIGHT

but instead selected the out-of-network provider. Disclosure by a provider of network status shall not render a covered person's decision to proceed with treatment from that provider a choice made "knowingly" pursuant to this definition.

"Medicaid" means the Medicaid program administered by the State of Florida.

"Medical necessity" or "medically necessary" means or describes a health care service that a health care provider, exercising his or her prudent clinical judgment, would provide to a covered person for the purpose of evaluating, diagnosing, or treating an illness, injury, disease, or its symptoms and that is: in accordance with the generally accepted standards of medical practice; clinically appropriate, in terms of type, frequency, extent, site, and duration, and considered effective for the covered person's illness, injury, or disease; not primarily for the convenience of the covered person or the health care provider; and not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of that covered person's illness, injury, or disease.

"Medicare" means the federal Medicare program established pursuant to 42 U.S.C. s.1395 et seq.

AMERICAN OVERSIGHT

"Self-funded health benefits plan" or "self-funded plan" means a self-insured health benefits plan governed by the provisions of the federal "Employee Retirement Income Security Act of 1974," 29 U.S.C. s.1001 et seq.

c. Prior to scheduling an appointment with a covered person for a non-emergency or elective procedure and in terms the covered person typically understands, a health care facility shall:

i. disclose to the covered person whether the health care facility is in-network or out-of-network with respect to the covered person's health benefits plan;

ii. advise the covered person to check with the physician arranging the facility services to determine whether or not that physician is in-network or out-of-network with respect to the covered person's health benefits plan and provide information about how to determine the health plans participated in by any physician who is reasonably anticipated to provide services to the covered person;

iii. advise the covered person that at a health care facility that is in-network with respect to the person's health benefits plan:

1. the covered person will have a financial responsibility applicable to an in-network procedure and not in excess of the

AMERICAN OVERSIGHT

covered person's copayment, deductible, or coinsurance as provided in the covered person's health benefits plan;

2. unless the covered person, at the time of the disclosure required pursuant to this subsection, has knowingly, voluntarily, and specifically selected an out-of-network provider to provide services, the covered person will not incur any out-of-pocket costs in excess of the charges applicable to an in-network procedure;

3. any bills, charges or attempts to collect by the facility, or any health care professional involved in the procedure, in excess of the covered person's copayment, deductible, or coinsurance as provided in the covered person's health benefits plan in violation of subparagraph 2. of this paragraph should be reported to the covered person's carrier and the relevant regulatory entity; and

4. that if the covered person's coverage is provided through an entity providing or administering a self-funded health benefits plan that does not elect to be subject to the provisions of section bb.-ff. of this act, that:

a. certain health care services may be provided on an out-of-network basis, including those services associated with the health care facility;

AMERICAN OVERSIGHT

b. the covered person may have a financial responsibility applicable to health care services provided by an out-of-network provider, in excess of the covered person's copayment, deductible, or coinsurance, and the covered person may be responsible for any costs in excess of those allowed by the person's self-funded health benefits plan; and

c. the covered person should contact the covered person's self-funded health benefits plan sponsor for further consultation on those costs; and

iv. advise the covered person that at a health care facility that is out-of-network with respect to the covered person's health benefits plan:

1. certain health care services may be provided on an out-of-network basis, including those health care services associated with the health care facility;

2. the covered person may have a financial responsibility applicable to health care services provided at an out-of-network facility, in excess of the covered person's copayment, deductible, or coinsurance, and the covered person may be responsible for any costs in excess of those allowed by their health benefits plan; and

AMERICAN OVERSIGHT

3. that the covered person should contact the covered person's carrier for further consultation on those costs.

d. In a form that is consistent with federal guidelines, a health care facility shall make available to the public a list of the facility's standard charges for items and services provided by the facility.

e. A health care facility shall post on the facility's website:

i. the health benefits plans in which the facility is a participating provider;

ii. a statement that:

1. physician services provided in the facility are not included in the facility's charges;

2. physicians who provide services in the facility may or may not participate with the same health benefits plans as the facility;

3. the covered person should check with the physician arranging for the facility services to determine the health benefits plans in which the physician participates; and

4. the covered person should contact their carrier for further consultation on those costs;

iii. as applicable, the name, mailing address, and telephone number of the hospital-based physician groups that the facility has

AMERICAN OVERSIGHT

contracted with to provide services including, but not limited to, anesthesiology, pathology, and radiology; and

iv. as applicable, the name, mailing address, and telephone number of physicians employed by the facility and whose services may be provided at the facility, and the health benefits plans in which they participate.

f. If, between the time the notice required pursuant to subsection a. of this section is provided to the covered person and the time the procedure takes place, the network status of the facility changes as it relates to the covered person's health benefits plan, the facility shall notify the covered person promptly.

g. The Department of Health shall specify in further detail the content and design of the disclosure form and the manner in which the form shall be provided.

h. Except as provided in subsection m. of this section, a health care professional shall disclose to a covered person in writing or through an internet website the health benefits plans in which the health care professional is a participating provider and the facilities with which the health care professional is affiliated prior to the provision of non-emergency services, and verbally or in writing, at the time of an appointment. If a health care professional does not

AMERICAN OVERSIGHT

participate in the network of the covered person's health benefits plan, the health care professional shall, in terms the covered person typically understands:

i. Prior to scheduling a non-emergency procedure inform the covered person that the professional is out-of-network and that the amount or estimated amount the health care professional will bill the covered person for the services is available upon request;

ii. Upon receipt of a request from a covered person for the service and the Current Procedural Terminology (CPT) codes associated with that service, disclose to the covered person in writing the amount or estimated amount that the health care professional will bill the covered person for the service, and the CPT codes associated with that service, absent unforeseen medical circumstances that may arise when the health care service is provided;

iii. Inform the covered person that the covered person will have a financial responsibility applicable to health care services provided by an out-of-network professional, in excess of the covered person's copayment, deductible, or coinsurance, and the covered person may be responsible for any costs in excess of those allowed by their health benefits plan; and

AMERICAN OVERSIGHT

iv. Advise the covered person to contact the covered person's carrier for further consultation on those costs.

i. A health care professional who is a physician shall provide the covered person, to the extent the information is available, with the name, practice name, mailing address, and telephone number of any health care provider scheduled to perform anesthesiology, laboratory, pathology, radiology, or assistant surgeon services in connection with care to be provided in the physician's office for the covered person or coordinated or referred by the physician for the covered person at the time of referral to, or coordination of, services with that provider. The physician shall provide instructions as to how to determine the health benefits plans in which the health care provider participates and recommend that the covered person should contact the covered person's carrier for further consultation on costs associated with these services.

j. A physician shall, for a covered person's scheduled facility admission or scheduled outpatient facility services, provide the covered person and the facility with the name, practice name, mailing address, and telephone number of any other physician whose services will be arranged by the physician and are scheduled at the time of the pre-admission, testing, registration, or admission at the time the non-emergency services are scheduled, and information as to how to determine the health benefits plans in which the

AMERICAN OVERSIGHT

physician participates, and recommend that the covered person should contact the covered person's carrier for further consultation on costs associated with these services.

k. The receipt or acknowledgement by any covered person of any disclosure required pursuant to this section shall not waive or otherwise affect any protection under existing statutes or regulations regarding in-network health benefits plan coverage available to the covered person or created under this act.

l. If, between the time the notice required pursuant to subsection a. of this section is provided to the covered person and the time the procedure takes place, the network status of the professional changes as it relates to the covered person's health benefits plan, the professional shall notify the covered person promptly.

m. In the case of a primary care physician or internist performing an unscheduled procedure in that provider's office, the notice required pursuant this section may be made verbally at the time of the service.

n. The appropriate professional or occupational licensing board within the Division of Consumer Affairs in the Department of Law and Public Safety shall specify in further detail the content and design of the disclosure form and the manner in which the form shall be provided.

AMERICAN OVERSIGHT

o. A carrier shall update the carrier's website within 20 days of the addition or termination of a provider from the carrier's network or a change in a physician's affiliation with a facility, provided that in the case of a change in affiliation the carrier has had notice of such change.

p. With respect to out-of-network services, for each health benefits plan offered, a carrier shall, consistent with State and federal law, provide a covered person with:

i. a clear and understandable description of the plan's out-of-network health care benefits, including the methodology used by the entity to determine the allowed amount for out-of-network services;

ii. the allowed amount the plan will reimburse under that methodology and, in situations in which a covered person requests allowed amounts associated with a specific Current Procedural Terminology code, the portion of the allowed amount the plan will reimburse and the portion of the allowed amount that the covered person will pay, including an explanation that the covered person will be required to pay the difference between the allowed amount as defined by the carrier's plan and the charges billed by an out-of-network provider;

iii. examples of anticipated out-of-pocket costs for frequently billed out-of-network services;

AMERICAN OVERSIGHT

iv. information in writing and through an internet website that reasonably permits a covered person or prospective covered person to calculate the anticipated out-of-pocket cost for out-of-network services in a geographical region or zip code based upon the difference between the amount the carrier will reimburse for out-of-network services and the usual and customary cost of out-of-network services;

v. information in response to a covered person's request, concerning whether a health care provider is an in-network provider;

vi. such other information as the commissioner determines appropriate and necessary to ensure that a covered person receives sufficient information necessary to estimate their out-of-pocket cost for an out-of-network service and make a well-informed health care decision; and

vii. access to a telephone hotline that shall be operated no less than 16 hours per day for consumers to call with questions about network status and out-of-pocket costs.

q. If a carrier authorizes a covered health care service to be performed by an in-network health care provider with respect to any health benefits plan, and the provider or facility status changes to out-of-network before the authorized service is performed, the carrier shall notify the covered person that

AMERICAN OVERSIGHT

the provider or facility is no longer in-network as soon as practicable. If the carrier fails to provide the notice at least 30 days prior to the authorized service being performed, the covered person's financial responsibility shall be limited to the financial responsibility the covered person would have incurred had the provider been in-network with respect to the covered person's health benefits plan.

r. A carrier shall incorporate into the Explanation of Benefits and all reimbursement correspondence to the consumer and the provider clear and concise notification that inadvertent and involuntary out-of-network charges are not subject to balance billing above and beyond the financial responsibility incurred under the terms of the contract for in-network service. Any attempt by the provider to collect, bill, or invoice funds should be promptly reported to the carrier's customer service department at the phone number that the carrier shall provide on the Explanation of Benefits and all reimbursement correspondence to the consumer.

s. A carrier, and any other entity providing or administering a self-funded health benefits plan that elects to be subject to section bb.-ff. of this act, shall issue a health insurance identification card to the primary insured under a health benefits plan. In a form and manner to be prescribed by the department, the card shall indicate whether the plan is insured or, in the case of self-funded

AMERICAN OVERSIGHT

plans that elect to be subject of section bb.-ff. of this act, whether the plan is self-funded and whether the plan elected to be subject to this act.

t. If a covered person receives medically necessary services at any health care facility on an emergency or urgent basis as defined by the Emergency Medical Treatment and Active Labor Act, 42 U.S.C. s.1395dd et seq., the facility shall not bill the covered person in excess of any deductible, copayment, or coinsurance amount applicable to in-network services pursuant to the covered person's health benefits plan.

u. If a covered person receives medically necessary services at an out-of-network health care facility on an emergency or urgent basis as defined by the Emergency Medical Treatment and Active Labor Act, 42 U.S.C. s.1395dd et seq., and the carrier and facility cannot agree on the final offer as a reimbursement rate for these services pursuant to bb.-ff. of this act, the carrier, health care facility, or covered person, as applicable, may seek redress pursuant to section gg. of this act.

v. If a health care facility is in-network with respect to any health benefits plan, the facility shall ensure that all providers providing services in the facility on an emergency or inadvertent basis are provided notification of the provisions of this act and information as to each health benefits plan with which the facility has a contract to be in-network.

AMERICAN OVERSIGHT

w. A health care facility that contracts with a carrier to be in-network with respect to any health benefits plan shall annually report to the Department of Health the health benefits plans with which the facility has an agreement to be in-network.

x. Subsections t. and u. shall only apply to providers providing services to members of entities providing or administering a self-funded health benefits plan and its plan members if the entity elects to be subject to bb.-ff. of that section.

y. If a covered person receives inadvertent out-of-network services or medically necessary services at an in-network or out-of-network health care facility on an emergency or urgent basis as defined by the Emergency Medical Treatment and Active Labor Act, 42 U.S.C. s.1395dd et seq., the health care professional performing those services shall:

i. in the case of inadvertent out-of-network services, not bill the covered person in excess of any deductible, copayment, or coinsurance amount; and

ii. in the case of emergency and urgent services, not bill the covered person in excess of any deductible, copayment, or coinsurance amount, applicable to in-network services pursuant to the covered person's health benefits plan.

AMERICAN OVERSIGHT

z. If the carrier and the professional cannot agree on a reimbursement rate for the services provided pursuant to subsection a. of this section, pursuant to bb.-ff. of this act the carrier, professional, or covered person, as applicable, may seek redress pursuan to section gg. of this act.

aa. This section shall only apply to providers providing services to members of entities providing or administering a self-funded health benefits plan and its plan members if the entity elects to be subject to bb.-ff. of this act.

bb. With respect to a carrier, if a covered person receives inadvertent out-of-network services, or services at an in-network or out-of-network health care facility on an emergency or urgent basis, the carrier shall ensure that the covered person incurs no greater out-of-pocket costs than the covered person would have incurred with an in-network health care provider for covered services. Pursuant to sections t.-aa. of this act, the out-of-network provider shall not bill the covered person, except for applicable deductible, copayment, or coinsurance amounts that would apply if the covered person utilized an in-network health care provider for the covered services. In the case of services provided to a member of a self-funded plan that does not elect to be subject to the provisions of this section, the provider shall be permitted to bill the covered person in excess of the applicable deductible, copayment, or coinsurance amounts.

AMERICAN OVERSIGHT

cc. With respect to inadvertent out-of-network services, or services at an in-network or out-of-network health care facility on an emergency or urgent basis, benefits provided by a carrier that the covered person receives for health care services shall be assigned to the out-of-network health care provider, which shall require no action on the part of the covered person. Once the benefit is assigned as provided in this subsection:

i. any reimbursement paid by the carrier shall be paid directly to the out-of-network provider; and

ii. the carrier shall provide the out-of-network provider with a written remittance of payment that specifies the proposed reimbursement and the applicable deductible, copayment, or coinsurance amounts owed by the covered person.

dd. An entity providing or administering a self-funded health benefits plan that elects to participate in this section pursuant to ff. of this act, shall comply with the provisions of cc. of this act.

ee. If inadvertent out-of-network services or services provided at an in-network or out-of-network health care facility on an emergency or urgent basis are performed in accordance with bb. of this section, the out-of-network provider may bill the carrier for the services rendered. The carrier may pay the billed amount or the carrier shall determine within 30 days from the date of the

AMERICAN OVERSIGHT

receipt of the claim for the services whether the carrier considers the claim to be excessive, and if so, the carrier shall notify the provider of this determination within 30 days of the receipt of the claim. If the carrier provides this notification, the carrier and the provider shall have 30 days from the date of this notification to negotiate a settlement. The carrier may attempt to negotiate a final reimbursement amount with the out-of-network health care provider which differs from the amount paid by the carrier pursuant to this subsection. If there is no settlement reached after the 30 days, the carrier shall pay the provider their final offer for the services. If the carrier and provider cannot agree on the final offer as a reimbursement rate for these services, the carrier, provider, or covered person, as applicable, may seek redress pursuant to section gg. of this act.

ff. With respect to an entity providing or administering a self-funded health benefits plan and its plan members, this section shall only apply if the plan elects to be subject to the provisions of this section. To elect to be subject to the provisions of this section, the self-funded plan shall provide notice, on an annual basis, to the department, on a form and in a manner prescribed by the department, attesting to the plan's participation and agreeing to be bound by the provisions of this section. The self-funded plan shall amend the employee benefit plan, coverage policies, contracts and any other plan documents to reflect that the benefits of this section shall apply to the plan's members.

AMERICAN OVERSIGHT

gg. If attempts to negotiate reimbursement for services provided by an out-of-network health care provider, pursuant to subsection ee. of this act, do not result in a resolution of the payment dispute, any party may initiate non-binding mediation, arbitration or seek redress in a court of competent jurisdiction. The prevailing party in any such action will be entitled to recover its reasonable attorneys' fees and court costs.

hh. If attempts to negotiate reimbursement for services between an out-of-network health care provider and a member of a self-funded plan does not result in a resolution of the payment dispute within 30 days after the plan member is sent a bill for the services, the plan member or out-of-network health care provider may seek redress pursuant to section gg. of this act.

ii. In addition to the provisions of section gg., a person or entity that violates any provision of this act, or the rules and regulations adopted pursuant hereto, shall be liable to a penalty as provided for in Department of Health regulations.

III. DISCLOSURE OF CLAIMS HISTORY

a. As used in this section:

i. "Employer" has the meaning assigned by 29 U.S.C. Section 1002(5).

AMERICAN OVERSIGHT

ii. "Governmental entity" means a state agency or political subdivision of this state.

iii. "Group health plan" has the meaning assigned by 45 C.F.R. Section 160.103, except that the term does not include disability income or long-term care insurance.

iv. "Health insurance issuer" has the meaning assigned by 45 C.F.R. Section 160.103.

v. "Plan" means an employee welfare benefit plan as defined by 29 U.S.C. Section 1002(1).

vi. "Plan administrator" means an administrator as defined by 29 U.S.C. Section 1002(16)(A).

vii. "Plan sponsor" has the meaning assigned by 29 U.S.C. Section 1002(16)(B).

viii. "Political subdivision" means a county, municipality, school district, special-purpose district, or other subdivision of state government that has jurisdiction limited to a geographic portion of the state.

ix. "Protected health information" has the meaning assigned by 45 C.F.R. Section 160.103.

b. A reference to a federal statute or regulation under section a. means that statute or regulation as it existed on the effective date of this act, except that

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001448

the commissioner, by rule, may adopt a definition based on a later amended, enacted, or adopted federal statute or regulation if the commissioner determines that use of the later amended, enacted, or adopted statute or regulation is consistent with the purposes of this chapter and promotes regulatory consistency.

c. This act applies to all health insurance issuers licensed in the State of Florida.

d. Not later than the 30th day after the date a health insurance issuer receives a written request for a written report of claim information from a plan, plan sponsor, plan administrator, or licensed health insurance broker, the health insurance issuer shall provide the requesting party the report, subject to sections g., h. and i. The health insurance issuer is not obligated to provide a report under this subsection regarding a particular employer or group health plan more than twice in any 12-month period.

e. A health insurance issuer shall provide the report of claim information under section d:

i. in a written report;

ii. through an electronic file transmitted by secure electronic mail or a file transfer protocol site; or

AMERICAN OVERSIGHT

iii. by making the required information available through a secure website or web portal accessible by the requesting plan, plan sponsor, or plan administrator.

f. A report of claim information provided under section d. must contain all information available to the health insurance issuer that is responsive to the request made under section d., including, subject sections g., h. and i. protected health information, for the 36-month period preceding the date of the report or the period specified by section iv., v., and vi., if applicable, or for the entire period of coverage, whichever period is shorter. Subject to section g., h., and i., a report provided under section d. must include:

i. aggregate paid claims experience by month, including claims experience for medical, dental, and pharmacy benefits, as applicable;

ii. total premium paid by month;

iii. total number of covered employees on a monthly basis by coverage tier, including whether coverage was for:

1. an employee only;

2. an employee with dependents only;

3. an employee with a spouse only; or

4. an employee with a spouse and dependents;

AMERICAN OVERSIGHT

iv. the total dollar amount of claims pending as of the date of the report;

v. a separate description and individual claims report for any individual whose total paid claims exceed $15,000 during the 12-month period preceding the date of the report, including the following information related to the claims for that individual:

1. a unique identifying number, characteristic, or code for the individual;

2. the amounts paid;

3. dates of service; and

4. applicable procedure codes and diagnosis codes; and

vi. for claims that are not part of the report described by sections f.i through f.v. , a statement describing precertification requests for hospital stays of five days or longer that were made during the 30-day period preceding the date of the report.

g. A health insurance issuer may not disclose protected health information in a report of claim information provided under this section if the health insurance issuer is prohibited from disclosing that information under another state or federal law that imposes more stringent privacy restrictions than those

AMERICAN OVERSIGHT

imposed under federal law. To withhold information in accordance with this subsection, the health insurance issuer must:

i. notify the plan, plan sponsor, plan administrator, or licensed health insurance broker requesting the report that information is being withheld; and

ii. provide to the plan, plan sponsor, plan administrator, or licensed health insurance broker a list of categories of claim information that the health insurance issuer has determined are subject to the more stringent privacy restrictions under another state or federal law.

h. A plan sponsor is entitled to receive protected health information under sections f.v. and f.vi. and sections l-o. only after an appropriately authorized representative of the plan sponsor makes to the health insurance issuer a certification substantially similar to the following certification:

"I hereby certify that the plan documents comply with the requirements of 45 C.F.R. Section 164.504(f)(2) and that the plan sponsor will safeguard and limit the use and disclosure of protected health information that the plan sponsor may receive from the group health plan to perform the plan administration functions."

i. A plan sponsor that does not provide the certification required by section h. is not entitled to receive the protected health information described by

AMERICAN OVERSIGHT

f.v. and f.vi. and sections l-o, but is entitled to receive a report of claim information that includes the information described by sections f.i-f.iv.

j. In the case of a request made under section d. after the date of termination of coverage, the report must contain all information available to the health insurance issuer as of the date of the report that is responsive to the request, including protected health information, and including the information described by f.i-f.vi. for the period described by section f. preceding the date of termination of coverage or for the entire policy period, whichever period is shorter. Notwithstanding this subsection, the report may not include the protected health information described by sections f.v. and f.vi. unless a certification has been provided in accordance with section h.

k. A plan, plan sponsor, plan administrator, or licensed health insurance broker must request a report under section d. before or on the second anniversary of the date of termination of coverage under a group health plan issued by the health benefit plan issuer.

l. On receipt of the report required by section d., the plan, plan sponsor, plan administrator, or licensed health insurance broker may review the report and, not later than the 10th day after the date the report is received, may make a written request to the health insurance issuer for additional information in accordance with this section for specified individuals.

AMERICAN OVERSIGHT

m. With respect to a request for additional information concerning specified individuals for whom claims information has been provided under section f.v. the health insurance issuer shall provide additional information on the prognosis or recovery if available and, for individuals in active case management, the most recent case management information, including any future expected costs and treatment plan, that relate to the claims for that individual.

n. The health insurance issuer must respond to the request for additional information under this section not later than the 15th day after the date of the request under this section unless the requesting plan, plan sponsor, or plan administrator agrees to a request for additional time.

o. The health insurance issuer is not required to produce the report described by this section unless a certification has been provided in accordance with section h.

p. health insurance issuer that releases information, including protected health information, in accordance with this chapter has not violated a standard of care and is not liable for civil damages resulting from, and is not subject to criminal prosecution for, releasing that information.

q. a health insurance issuer that does not comply with this Chapter III is subject to administrative penalties pursuant to Department of Health regulations.

Governor Ron DeSantis Announces His Bolder, Brighter, Better Future Budget for FY 2020-2021

www.BolderBrighterBetterFuture.com

Tallahassee, Fla. — Today, Governor Ron DeSantis released his budget proposal for FY 2020-2021, a Bolder, Brighter, Better Future.

"My budget proposal for Fiscal Year 2020-2021 builds on our successes of the past year, placing emphasis where it is needed while remaining fiscally responsible to Florida taxpayers," **said Governor DeSantis.** "The budget includes key investments in our K-12 education system, our environment and the well-being of our residents, while recommending over $480 million in savings and over $300 million in tax relief. Although there is still more we can do to improve our state, which we hope to accomplish through this budget, Florida's future has never been bolder, brighter or better than it is today."

Savings and Tax Relief

The total recommendation for the FY 2020-2021 budget is $91.4 billion. The budget recommends $480.5 million in savings – such as administrative efficiencies and elimination of earmarks.

The budget places $5.6 billion in total reserves, including $1.4 billion of General Revenue, which is more than 6 percent of the total budget and more than $200 million more than the current year budget.

The budget also includes more than $300 million in tax relief, including a $56 million 8-day Back to School Sales Tax Holiday, a 10-day Disaster Preparedness Sales Tax Holiday and property tax relief of over $247 million.

Education

The Bolder, Brighter, Better Future budget makes historic investments in the state's education system, including $22.9 billion for the Florida Education Finance Program (FEDP), an increase of over $1 billion.

This includes over $900 million to recruit and retain the best classroom teachers and principals in Florida. Over $600 million is included to raise the minimum salary for full-time classroom teachers to $47,500, which would provide more than 101,000 teachers with a pay raise. Additionally, $300 million is recommended for the Florida Classroom Teacher and Principal Bonus programs.

The budget invests $25 million in key workforce development initiatives: $10 million for the Pathways to Careers Opportunities Grant Program, $10 million for the Work Florida Student Success Incentive Fund at State Colleges

AMERICAN OVERSIGHT

and $5 million for the Work Florida Student Success Incentive Fund at District Postsecondary Programs.

The budget recommends an increase of funding of more than $22 million for Florida college and nearly $24 million for Florida universities, all while maintaining no increase in tuition.

Environment

The budget continues Governor DeSantis' focus on Florida's environment and builds on the success of last year. The budget includes more than $625 million in recurring funding for Everglades restoration and the protection of vital water resources, positioning Florida to be able to reach the Governor's goal of investing $2.5 billion over four years.

Included in the more than $625 million investment is more than $322 million for Everglades restoration projects, $150 million for water quality improvements, $50 million for springs restoration and more than $22 million to combat the harmful effects of algal blooms and red tide.

The budget also invests $50 million in beach nourishment to address Florida's critically eroded shorelines, nearly $9 million in coral reef protection funding, as well as $154 million to protect Florida's prized properties and water: $100 million for the Florida Forever Program and $54 million in new funding for state parks.

Health and Human Services

The budget makes significant investments in the well-being of Floridians and protecting the most vulnerable. Over $54 million is recommended to continue fighting the opioid epidemic, and $17 million is provided in new mental health and substance abuse funding.

In an effort to increase accountability, the Bolder, Brighter, Better Future budget invests over $97 million to provide funding for services to children and families through Florida's child welfare system.

The budget provides $6.4 million in new funding to support the Office of Public and Professional Guardianship, as well as $10 million in funding to enrich the needs of seniors in Florida's communities and enhance the quality of life for individuals with Alzheimer's disease and related dementia and ending abuse, neglect and exploitation of seniors.

To ensure Florida's veterans are receiving the care they deserve, the budget invests $18.2 million for the completion of the Ardie R. Copas State Veterans' Nursing Home in St. Lucie County and the Lake Baldwin State Veterans' Nursing Home in Orange County, as well as $6.7 million for capital improvements, equipment updates and additional nursing staff for Florida's existing state veteran nursing homes.

Transportation and Economic Development

While Florida's economy remains strong, finding affordable housing can still be a challenge. The budget provides $387 million to fully fund Workforce and Affordable Housing Programs: $119.8 million for the State Apartment Incentive Loan (SAIL) Program and $267.2 million for the State Housing Initiative Partnership (SHIP) Program.

As Florida's population continues to increase, key investments must be made to handle this growth and ensure continued efficiency. The budget provides $8.8 billion for the State Transportation Work Program, including $2.8 billion for highway construction, $865.7 million in lane resurfacing and $436.2 million in scheduled repairs and replacement of bridges.

The Bolder, Brighter, Better Future budget includes $50 million for the Florida Job Growth Grant Fund to provide funding for job training and public infrastructure projects that support growth and employment in Florida.

Hurricane Recovery

For the two most recent hurricanes to strike Florida, Irma and Michael, the State of Florida is projected to spend over $1.9 billion on hurricane-related expenses - $627.8 million for Hurricane Irma and $1.3 billion so far for Hurricane Michael.

The Bolder, Brighter, Better Future budget includes $25 million through the Hurricane Michael Recovery Grant Program for the repair and replacement of critical infrastructure and to improve the capacity of emergency services.

Public Safety

Early in his term, Governor DeSantis directed Florida Department of Law Enforcement (FDLE) Commissioner Rick Swearingen to develop a threat assessment strategy to identify and prevent threats of mass violence. Building on this, the budget includes over $4.5 million to implement the first Statewide Behavior Threat

AMERICAN OVERSIGHT

Assessment strategy in the country.

The budget also invests more than $14.5 million to expand and enhance FDLE's crime databases that the department uses daily to investigate crimes and apprehend criminals.

Governor DeSantis is recommending over $89.7 million and additional staffing at the Florida Department of Corrections for needed improvements, including retention bonuses and a pilot program to transition correctional officers from a 12-hour shift to an 8.5-hour shift.

Elections Security

With the 2020 elections getting closer, the Bolder, Brighter, Better Future budget recommends $6.6 million for state-level election oversight activities, with a focus on cybersecurity enhancements to Florida's election system.

Includes in this funding is $1.3 million for ten positions dedicated to cyber security who will provide local Supervisors of Elections with support and recommendations to combat cyber threats. Also included is $1.4 million for voter registration list maintenance services and voter outreach through the Electronic Registration Information Center (ERIC).

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

A bill to be entitled

An act relating to pharmacy benefit managers; providing a short title; providing legislative findings; amending s. 465.003, F.S; providing the definitions of the terms "pharmacy benefit manager" and "pharmacy benefit management services"; creating s. 465.203, F.S.; providing definitions; providing that pharmacy benefit managers have a fiduciary duty and obligation to specified individuals and entities; providing requirements for service performance, contracts, and specified funds for pharmacy benefit managers; authorizing specified pharmacies and pharmacists to contract with pharmacy benefit managers; providing requirements for maximum allowable cost lists; requiring pharmacy benefit managers to respond to certain appeals within a specified timeframe; prohibiting pharmacy benefit managers from engaging in certain practices; requiring pharmacy benefit managers to allow payors access to specified records, data, and information; providing disclosure and reporting requirements; requiring certain income and financial benefits to be passed through to payors; requiring pharmacy benefit managers to allow the Department of Financial Services access to specified records, data, and information; requiring the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001462

department to investigate certain violations; providing penalties; providing that specified violations are subject to the Florida Deceptive and Unfair Trade Practices Act; providing applicability; amending ss. 624.490, 627.64741, 627.6572, and 641.314, F.S.; conforming provisions to changes made by the act; amending ss. 409.9201, 458.331, 459.015, 465.014, 465.015, 465.0156, 465.016, 465.0197, 465.022, 465.023, 465.1901, 499.003, and 893.02, F.S.; conforming cross-references; providing severability; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. This act may be cited as the "Prescription Drug Cost Reduction Act."

Section 2. The Legislature finds that the use of spread pricing, the practice of directing patients to pharmacies owned in whole or in part by pharmacy benefit managers, and other practices by pharmacy benefit managers such as charging drug manufacturers rebates to be included on a drug formulary and keeping the rebates for their own financial gain rather than passing the savings on to health plans, health plan sponsors and providers, health insurers, and patients contribute to the high cost of prescription drugs. In order to reduce the cost of

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001463

prescription drugs in this state, such practices should be prohibited.

Section 3. Section 465.003, Florida Statutes, is amended to read:

465.003 Definitions.—As used in this chapter, the term:

(1) "Administration" means the obtaining and giving of a single dose of medicinal drugs by a legally authorized person to a patient for her or his consumption.

(3) ~~(2)~~ "Board" means the Board of Pharmacy.

(9) ~~(3)~~ "Consultant pharmacist" means a pharmacist licensed by the department and certified as a consultant pharmacist pursuant to s. 465.0125.

(10) ~~(4)~~ "Data communication device" means an electronic device that receives electronic information from one source and transmits or routes it to another, including, but not limited to, any such bridge, router, switch, or gateway.

(11) ~~(5)~~ "Department" means the Department of Health.

(12) ~~(6)~~ "Dispense" means the transfer of possession of one or more doses of a medicinal drug by a pharmacist to the ultimate consumer or her or his agent. As an element of dispensing, the pharmacist shall, prior to the actual physical transfer, interpret and assess the prescription order for potential adverse reactions, interactions, and dosage regimen she or he deems appropriate in the exercise of her or his professional judgment, and the pharmacist shall certify that the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001464

medicinal drug called for by the prescription is ready for transfer. The pharmacist shall also provide counseling on proper drug usage, either orally or in writing, if in the exercise of her or his professional judgment counseling is necessary. The actual sales transaction and delivery of such drug shall not be considered dispensing. The administration shall not be considered dispensing.

(13) ~~(7)~~ "Institutional formulary system" means a method whereby the medical staff evaluates, appraises, and selects those medicinal drugs or proprietary preparations which in the medical staff's clinical judgment are most useful in patient care, and which are available for dispensing by a practicing pharmacist in a Class II or Class III institutional pharmacy.

(14) ~~(8)~~ "Medicinal drugs" or "drugs" means those substances or preparations commonly known as "prescription" or "legend" drugs which are required by federal or state law to be dispensed only on a prescription, but shall not include patents or proprietary preparations as hereafter defined.

(17) ~~(9)~~ "Patent or proprietary preparation" means a medicine in its unbroken, original package which is sold to the public by, or under the authority of, the manufacturer or primary distributor thereof and which is not misbranded under the provisions of the Florida Drug and Cosmetic Act.

(18) ~~(10)~~ "Pharmacist" means any person licensed pursuant to this chapter to practice the profession of pharmacy.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001465

(19) ~~(11)~~ (a) "Pharmacy" includes a community pharmacy, an institutional pharmacy, a nuclear pharmacy, a special pharmacy, and an Internet pharmacy.

1. The term "community pharmacy" includes every location where medicinal drugs are compounded, dispensed, stored, or sold or where prescriptions are filled or dispensed on an outpatient basis.

2. The term "institutional pharmacy" includes every location in a hospital, clinic, nursing home, dispensary, sanitarium, extended care facility, or other facility, hereinafter referred to as "health care institutions," where medicinal drugs are compounded, dispensed, stored, or sold.

3. The term "nuclear pharmacy" includes every location where radioactive drugs and chemicals within the classification of medicinal drugs are compounded, dispensed, stored, or sold. The term "nuclear pharmacy" does not include hospitals licensed under chapter 395 or the nuclear medicine facilities of such hospitals.

4. The term "special pharmacy" includes every location where medicinal drugs are compounded, dispensed, stored, or sold if such locations are not otherwise defined in this subsection.

5. The term "Internet pharmacy" includes locations not otherwise licensed or issued a permit under this chapter, within or outside this state, which use the Internet to communicate with or obtain information from consumers in this state and use

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001466

such communication or information to fill or refill prescriptions or to dispense, distribute, or otherwise engage in the practice of pharmacy in this state. Any act described in this definition constitutes the practice of pharmacy as defined in subsection (23) ~~(13)~~.

(b) The pharmacy department of any permittee shall be considered closed whenever a Florida licensed pharmacist is not present and on duty. The term "not present and on duty" shall not be construed to prevent a pharmacist from exiting the prescription department for the purposes of consulting or responding to inquiries or providing assistance to patients or customers, attending to personal hygiene needs, or performing any other function for which the pharmacist is responsible, provided that such activities are conducted in a manner consistent with the pharmacist's responsibility to provide pharmacy services.

(20) "Pharmacy benefit manager" means an entity that performs pharmacy benefit management services for a health plan, a health plan sponsor, a health plan provider, a health insurer, or any other payor. The term does not include a provider as defined in s. 641.19 or a physician as defined in s. 458.305.

(21) "Pharmacy benefit management services" means services that:

(a) Are provided, directly or through another entity, to a health plan, a health plan sponsor, a health plan provider, a

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001467

health insurer, or any other payor, regardless of whether the services provider and the health plan, health plan sponsor, health plan provider, health insurer, or other payor are related or associated by ownership, common ownership, organization, or otherwise.

(b) Include the procurement of prescription drugs to be dispensed to patients and the administration or management of prescription drug benefits, including, but not limited to, any of the following:

1. Mail service pharmacy or specialty pharmacy.

2. Claims processing, retail network management, or payment of claims to pharmacies for dispensing drugs.

3. Clinical or other formulary or preferred-drug-list development or management.

4. Negotiation, administration, or receipt of rebates, discounts, payment differentials, or other incentives, to include particular drugs in a particular category or to promote the purchase of particular drugs.

5. Patients' compliance, therapeutic intervention, or generic substitution programs.

6. Disease management.

7. Drug use review, step-therapy protocol, or prior authorization.

8. Adjudication of appeals or grievances related to prescription drug coverage.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001468

9. Contracts with network pharmacies.

10. Control of the cost of covered prescription drugs.

(22) ~~(12)~~ "Pharmacy intern" means a person who is currently registered in, and attending, a duly accredited college or school of pharmacy, or who is a graduate of such a school or college of pharmacy, and who is duly and properly registered with the department as provided for under its rules.

(23) ~~(13)~~ "Practice of the profession of pharmacy" includes compounding, dispensing, and consulting concerning contents, therapeutic values, and uses of any medicinal drug; consulting concerning therapeutic values and interactions of patent or proprietary preparations, whether pursuant to prescriptions or in the absence and entirely independent of such prescriptions or orders; and conducting other pharmaceutical services. For purposes of this subsection, "other pharmaceutical services" means the monitoring of the patient's drug therapy and assisting the patient in the management of his or her drug therapy, and includes review of the patient's drug therapy and communication with the patient's prescribing health care provider as licensed under chapter 458, chapter 459, chapter 461, or chapter 466, or similar statutory provision in another jurisdiction, or such provider's agent or such other persons as specifically authorized by the patient, regarding the drug therapy. However, nothing in this subsection may be interpreted to permit an alteration of a prescriber's directions, the diagnosis or

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001469

treatment of any disease, the initiation of any drug therapy, the practice of medicine, or the practice of osteopathic medicine, unless otherwise permitted by law. "Practice of the profession of pharmacy" also includes any other act, service, operation, research, or transaction incidental to, or forming a part of, any of the foregoing acts, requiring, involving, or employing the science or art of any branch of the pharmaceutical profession, study, or training, and shall expressly permit a pharmacist to transmit information from persons authorized to prescribe medicinal drugs to their patients. The practice of the profession of pharmacy also includes the administration of vaccines to adults pursuant to s. 465.189 and the preparation of prepackaged drug products in facilities holding Class III institutional pharmacy permits.

(24) ~~(14)~~ "Prescription" includes any order for drugs or medicinal supplies written or transmitted by any means of communication by a duly licensed practitioner authorized by the laws of the state to prescribe such drugs or medicinal supplies and intended to be dispensed by a pharmacist. The term also includes an orally transmitted order by the lawfully designated agent of such practitioner. The term also includes an order written or transmitted by a practitioner licensed to practice in a jurisdiction other than this state, but only if the pharmacist called upon to dispense such order determines, in the exercise of her or his professional judgment, that the order is valid and

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001470

necessary for the treatment of a chronic or recurrent illness. The term "prescription" also includes a pharmacist's order for a product selected from the formulary created pursuant to s. 465.186. Prescriptions may be retained in written form or the pharmacist may cause them to be recorded in a data processing system, provided that such order can be produced in printed form upon lawful request.

(15) "Nuclear pharmacist" means a pharmacist licensed by the department and certified as a nuclear pharmacist pursuant to s. 465.0126.

(5) ~~(16)~~ "Centralized prescription filling" means the filling of a prescription by one pharmacy upon request by another pharmacy to fill or refill the prescription. The term includes the performance by one pharmacy for another pharmacy of other pharmacy duties such as drug utilization review, therapeutic drug utilization review, claims adjudication, and the obtaining of refill authorizations.

(2) ~~(17)~~ "Automated pharmacy system" means a mechanical system that delivers prescription drugs received from a Florida licensed pharmacy and maintains related transaction information.

(8) ~~(18)~~ "Compounding" means combining, mixing, or altering the ingredients of one or more drugs or products to create another drug or product.

(16) ~~(19)~~ "Outsourcing facility" means a single physical location registered as an outsourcing facility under the federal

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001471

Drug Quality and Security Act, Pub. L. No. 113-54, at which sterile compounding of a drug or product is conducted.

(7) ~~(20)~~ "Compounded sterile product" means a drug that is intended for parenteral administration, an ophthalmic or oral inhalation drug in aqueous format, or a drug or product that is required to be sterile under federal or state law or rule, which is produced through compounding, but is not approved by the United States Food and Drug Administration.

(4) ~~(21)~~ "Central distribution facility" means a facility under common control with a hospital holding a Class III institutional pharmacy permit that may dispense, distribute, compound, or fill prescriptions for medicinal drugs; prepare prepackaged drug products; and conduct other pharmaceutical services.

(6) ~~(22)~~ "Common control" means the power to direct or cause the direction of the management and policies of a person or an organization, whether by ownership of stock, voting rights, contract, or otherwise.

Section 4. Section 465.203, Florida Statutes, is created to read:

465.203 Pharmacy benefit managers.—

(1) As used in this section, the term:

(a) "Affiliate" means a pharmacy:

1. In which a pharmacy benefit manager, directly or indirectly, has an investment, financial interest, or ownership

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001472

interest; or

2. The ownership of which is shared, directly or indirectly, with a pharmacy benefit manager.

(b) "Covered individual" means a member, participant, enrollee, contract holder, policyholder, or beneficiary of a payor.

(c) "Make a referral" means any of the following:

1. To order, direct, or influence, orally or in writing, a covered individual to use an affiliate, including by sending messages to the covered individual through electronic mail, a cellular telephone, or a facsimile machine, or by making telephone calls.

2. To offer or implement plan designs that require a covered individual to use an affiliate.

3. To target a covered individual or a prospective patient with advertisement, marketing, or promotion of an affiliate, including by placing a specific pharmacy name on an insurance card or health plan card supplied to the covered individual.

(d) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacy or pharmacist for a generic drug, brand name drug, specialty drug, biological product, or other prescription drug, excluding dispensing fees, before the application of copayments, coinsurance, and other cost-sharing charges, if any.

(e) "Maximum allowable cost list" means a listing of

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001473

generic drugs, brand name drugs, specialty drugs, biological products, or other prescription drugs or other methodology used directly or indirectly by a pharmacy benefit manager to set the maximum allowable costs for the drugs.

(f) "Payor" means a health plan, a health plan sponsor, a health plan provider, a health insurer, or any other payor that uses pharmacy benefit management services in this state.

(g) "Spread pricing" means the practice by a pharmacy benefit manager of charging or claiming from a payor an amount that is more than the amount the pharmacy benefit manager paid to the pharmacy or pharmacist who filled the prescription or who provided the pharmacy services.

(2)(a) A pharmacy benefit manager has a fiduciary duty and obligation to the covered individuals and the payor. A pharmacy benefit manager shall perform pharmacy benefit management services with care, skill, prudence, diligence, and professionalism and for the best interests of the covered individuals and the payor.

(b) Any provision in a contract between a pharmacy benefit manager and a payor which limits or prohibits the fiduciary duty or obligation of a pharmacy benefit manager to the covered individuals and the payor is void and against the public policy of the state.

(c) All funds received by a pharmacy benefit manager in relation to providing pharmacy benefit management services shall

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001474

be received by the pharmacy benefit manager in trust for the payor. A pharmacy benefit manager shall use or distribute such funds only for the benefit of the covered individuals or the payor.

(3) A pharmacy or pharmacist licensed or registered under this chapter which has a pharmacy permit and is in good standing with the Board of Pharmacy may contract directly or indirectly with a pharmacy benefit manager within 30 days after filing an application with the pharmacy benefit manager, without a probation period, an exclusion period, or minimum inventory requirements.

(4)(a) A maximum allowable cost list must include:

1. Average acquisition cost, including national average drug acquisition cost.

2. Average manufacturer price.

3. Average wholesale price.

4. Brand effective rate or generic effective rate.

5. Discount indexing.

6. Federal upper limits.

7. Wholesale acquisition cost.

8. Any other item that a pharmacy benefit manager or a payor may use to establish reimbursement rates to a pharmacist or pharmacy for filling prescriptions or providing other pharmacy services.

(b) A pharmacy benefit manager must respond within 7 days

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001475

after receipt of an appeal to a maximum allowable cost by a pharmacy, a pharmacist, or a pharmacy services administrative organization on behalf of a pharmacy or pharmacist. The pharmacy benefit manager's failure to respond within 7 days shall be deemed approval of the appeal.

(5) A pharmacy benefit manager may not do any of the following:

(a) Conduct or participate in spread pricing in this state.

(b) Charge a pharmacy or pharmacist a fee related to the adjudication of a claim, including, without limitation, a fee for:

1. The submission of a claim;

2. The enrollment or participation in a retail pharmacy network; or

3. The development or management of claims processing services or claims payment services related to participation in a retail pharmacy network.

(c) Deny a pharmacy or pharmacist the opportunity to participate in a pharmacy network at the preferred participation status even though the pharmacy or pharmacist is willing to accept, as a condition of the preferred participation status, the terms and conditions that the pharmacy benefit manager has established for other pharmacies that are in a pharmacy network at the preferred participation status and that are not owned in

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001476

whole or in part by the pharmacy benefit manager.

(d) Impose registration or permit requirements for a pharmacy or accreditation standards or recertification requirements for a pharmacist which are inconsistent with, more stringent than, or in addition to federal and state requirements for licensure as a pharmacy or pharmacist in this state.

(e) Pay or reimburse a pharmacy or pharmacist an amount for a drug, product, or pharmacy service in the state which is:

1. Less than the amount the pharmacy benefit manager reimburses a pharmacy benefit manager affiliate for providing the same drug, product, or pharmacy service in this state;

2. Less than the actual cost incurred by the pharmacy or pharmacist for providing the drug, product, or pharmacy service in this state; or

3. Different from the combined maximum allowable cost and dispensing fees for a drug. The dispensing fees must be a least equal to the fees for service set by the Agency for Health Care Administration.

(f) Retroactively deny, hold back, or reduce reimbursement for a covered service claim after paying a claim, unless the original claim was submitted fraudulently.

(g) Prohibit a pharmacy or pharmacist from providing information regarding drug pricing, contract terms, or drug reimbursement rates to a member of the Legislature.

(h) Drop a pharmacy or pharmacist from a pharmacy network

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001477

or plan or otherwise engage in any action to retaliate against a pharmacy or pharmacist for providing information regarding drug pricing, contract terms, or drug reimbursement rates to a member of the Legislature.

(i) Engage in the practice of the profession of pharmacy.

(j) Engage in the practice of medicine as defined s. 458.305 or the practice of osteopathic medicine as defined in s. 459.003.

(k) Make a referral.

(6) A payor shall have access to all financial and utilization records, data, and information used by the pharmacy benefit manager in relation to the pharmacy benefit management services provided to the payor.

(7) A pharmacy benefit manager shall:

(a) Disclose in writing to the payor any activity, policy, practice, contract, or arrangement of the pharmacy benefit manager which directly or indirectly presents conflicts of interest with the pharmacy benefit manager's relationship with, or fiduciary duty or obligation to, the covered individuals and the payor.

(b) Report quarterly to the payor any income resulting from pricing discounts, rebates of any kind, inflationary payments, credits, clawbacks, fees, grants, chargebacks, reimbursements, or other financial benefits received by the pharmacy benefit manager from any person or entity. The pharmacy

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001478

benefit manager shall ensure that such income and financial benefits are passed through in full, at least quarterly, to the payor to reduce the cost of prescription drugs and pharmacy services to covered individuals.

(8) The Department of Financial Services shall have access to all financial and utilization records, data, and information used by pharmacy benefit managers in relation to pharmacy benefit management services provided to payors in this state. The department shall investigate any alleged violation of this section.

(9)(a) A pharmacy benefit manager that violates this section is liable for a civil fine of $10,000 for each violation and may have its registration revoked by the Department of Financial Services.

(b) A violation of this section which is committed or performed with such frequency as to indicate a general business practice is subject to the Florida Deceptive and Unfair Trade Practices Act under part II of chapter 501.

(10) This section applies to contracts entered into or renewed on or after January 1, 2021.

Section 5. Subsection (1) of section 624.490, Florida Statutes, is amended to read:

624.490 Registration of pharmacy benefit managers.—

(1) As used in this section, the term "pharmacy benefit manager" means an ~~a person or~~ entity that performs pharmacy

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001479

benefit management services for a health plan, a health plan sponsor, a health plan provider, a health insurer, or any other payor that uses pharmacy benefit management services ~~doing business in this state which contracts to administer prescription drug benefits on behalf of a health insurer or a health maintenance organization to residents of this state~~. The term does not include a provider as defined in s. 641.19 or a physician as defined in s. 458.305. As used in this subsection, the term "pharmacy benefit management services" means services that:

(a) Are provided, directly or through another entity, to a health plan, a health plan sponsor, a health plan provider, a health insurer, or any other payor, regardless of whether the services provider and the health plan, health plan sponsor, health plan provider, health insurer, or other payor are related or associated by ownership, common ownership, organization, or otherwise.

(b) Include the procurement of prescription drugs to be dispensed to patients and the administration or management of prescription drug benefits, including, but not limited to, any of the following:

1. Mail service pharmacy or specialty pharmacy.

2. Claims processing, retail network management, or payment of claims to pharmacies for dispensing drugs.

3. Clinical or other formulary or preferred-drug-list

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001480

development or management.

4. Negotiation, administration, or receipt of rebates, discounts, payment differentials, or other incentives, to include particular drugs in a particular category or to promote the purchase of particular drugs.

5. Patients' compliance, therapeutic intervention, or generic substitution programs.

6. Disease management.

7. Drug use review, step-therapy protocol, or prior authorization.

8. Adjudication of appeals or grievances related to prescription drug coverage.

9. Contracts with network pharmacies.

10. Control of the cost of covered prescription drugs.

Section 6. Section 627.64741, Florida Statutes, is amended to read:

627.64741 Pharmacy benefit manager contracts.—

(1) As used in this section, the term:

(a) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacy or pharmacist for a generic drug, brand name drug, specialty drug, biological product, or other prescription drug, excluding dispensing fees, before ~~prior to~~ the application of copayments, coinsurance, and other cost-sharing charges, if any.

(b) "Maximum allowable cost list" means a listing of

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001481

generic drugs, brand name drugs, specialty drugs, biological products, or other prescription drugs or other methodology used directly or indirectly by a pharmacy benefit manager to set the maximum allowable costs for the drugs.

(c) "Payor" means a health plan, a health plan sponsor, a health plan provider, or any other payor that uses pharmacy benefit management services in this state.

(d) ~~(b)~~ "Pharmacy benefit manager" means an ~~a person or~~ entity that performs pharmacy benefit management services for ~~doing business in this state which contracts to administer or manage prescription drug benefits on behalf of~~ a health insurer or payor ~~to residents of this state~~. The term does not include a provider as defined in s. 641.19 or a physician as defined in s. 458.305.

(e) "Pharmacy benefit management services" means services that:

1. Are provided, directly or through another entity, to a health insurer or payor, regardless of whether the services provider and the health insurer or payor are related or associated by ownership, common ownership, organization, or otherwise.

2. Include the procurement of prescription drugs to be dispensed to patients and the administration or management of prescription drug benefits, including, but not limited to, any of the following:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001482

a. Mail service pharmacy or specialty pharmacy.

b. Claims processing, retail network management, or payment of claims to pharmacies for dispensing drugs.

c. Clinical or other formulary or preferred-drug-list development or management.

d. Negotiation, administration, or receipt of rebates, discounts, payment differentials, or other incentives, to include particular drugs in a particular category or to promote the purchase of particular drugs.

e. Patients' compliance, therapeutic intervention, or generic substitution programs.

f. Disease management.

g. Drug use review, step-therapy protocol, or prior authorization.

h. Adjudication of appeals or grievances related to prescription drug coverage.

i. Contracts with network pharmacies.

j. Control of the cost of covered prescription drugs.

(2) A contract between a health insurer or payor and a pharmacy benefit manager must require that the pharmacy benefit manager:

(a) Update maximum allowable cost pricing information at least every 7 calendar days.

(b) Maintain a process that will, in a timely manner, eliminate drugs from maximum allowable cost lists or modify drug

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001483

prices to remain consistent with changes in pricing data used in formulating maximum allowable cost prices and product availability.

(3) A contract between a health insurer or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from limiting a pharmacy's or pharmacist's ability to disclose whether the cost-sharing obligation exceeds the retail price for a covered prescription drug, and the availability of a more affordable alternative drug, pursuant to s. 465.0244.

(4) A contract between a health insurer or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from requiring an insured to make a payment for a prescription drug at the point of sale in an amount that exceeds the lesser of:

(a) The applicable cost-sharing amount; or

(b) The retail price of the drug in the absence of prescription drug coverage.

(5)(a) A pharmacy benefit manager has a fiduciary duty and obligation to the insureds and to the health insurer that uses pharmacy benefit management services or the payor. The pharmacy benefit manager must meet all the requirements of s. 465.203 and must perform pharmacy benefit management services with care, skill, prudence, diligence, and professionalism and for the best interests of the insureds and the health insurer or payor.

(b) A provision in a contract between a health insurer or

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001484

payor and a pharmacy benefit manager is void and against the public policy of the state if the policy:

1. Limits or prohibits the fiduciary duty or obligation of the pharmacy benefit manager to the insureds and the health insurer or payor; or

2. Violates any provision of s. 465.203.

(c) All funds received by a pharmacy benefit manager in relation to providing pharmacy benefit management services shall be received by the pharmacy benefit manager in trust for the health insurer or payor and shall be used or distributed only for the benefit of the insureds or the health insurer or payor.

(6) A contract between a health insurer or payor and a pharmacy benefit manager must require the maximum allowable cost list to include:

(a) Average acquisition cost, including national average drug acquisition cost.

(b) Average manufacturer price.

(c) Average wholesale price.

(d) Brand effective rate or generic effective rate.

(e) Discount indexing.

(f) Federal upper limits.

(g) Wholesale acquisition cost.

(h) Any other item that a pharmacy benefit manager or a health insurer or payor may use to establish reimbursement rates to a pharmacist or pharmacy for filling prescriptions or

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001485

providing other pharmacy services.

(7) A health insurer that uses pharmacy benefit management services or a payor shall have access to all financial and utilization records, data, and information used by the pharmacy benefit manager in relation to the pharmacy benefit management services provided to the health insurer or payor.

(8) A pharmacy benefit manager shall:

(a) Disclose in writing to the health insurer that uses pharmacy benefit management services or payor any activity, policy, practice, contract, or arrangement of the pharmacy benefit manager which directly or indirectly presents conflicts of interest with the pharmacy benefit manager's relationship with, or fiduciary duty or obligation to, the insureds and the health insurer or payor.

(b) Report quarterly to the health insurer or payor any income resulting from pricing discounts, rebates of any kind, inflationary payments, credits, clawbacks, fees, grants, chargebacks, reimbursements, or other financial benefits received by the pharmacy benefit manager from any person or entity. The pharmacy benefit manager shall ensure that such income and financial benefits are passed through in full, at least quarterly, to the health insurer or payor to reduce the cost of prescription drugs and pharmacy services to the insureds.

(9) The department shall investigate any alleged violation

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001486

of this section.

(10)(a) A pharmacy benefit manager that violates any provision of this section is liable for a civil fine of $10,000 for each violation and may have its registration revoked by the department.

(b) A violation by a pharmacy benefit manager of any provision of this section which is committed or performed with such frequency as to indicate a general business practice is subject to the Florida Deceptive and Unfair Trade Practices Act under part II of chapter 501.

(11)~~(5)~~ This section applies to contracts entered into or renewed on or after January 1, 2021 ~~July 1, 2018~~.

Section 7. Section 627.6572, Florida Statutes, is amended to read:

627.6572 Pharmacy benefit manager contracts.—

(1) As used in this section, the term:

(a) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacy or pharmacist for a generic drug, brand name drug, specialty drug, biological product, or other prescription drug, excluding dispensing fees, before ~~prior to~~ the application of copayments, coinsurance, and other cost-sharing charges, if any.

(b) "Maximum allowable cost list" means a listing of generic drugs, brand name drugs, specialty drugs, biological products, or other prescription drugs or other methodology used

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001487

directly or indirectly by a pharmacy benefit manager to set the maximum allowable costs for the drugs.

(c) "Payor" means a health plan, a health plan sponsor, a health plan provider, or any other payor that uses pharmacy benefit management services in this state.

(d) ~~(b)~~ "Pharmacy benefit manager" means an ~~a person or~~ entity that performs pharmacy benefit management services for ~~doing business in this state which contracts to administer or manage prescription drug benefits on behalf of~~ a health insurer or payor ~~to residents of this state~~. The term does not include a provider as defined in s. 641.19 or a physician as defined in s. 458.305.

(e) "Pharmacy benefit management services" means services that:

1. Are provided, directly or through another entity, to a health insurer or payor, regardless of whether the services provider and the health insurer or payor are related or associated by ownership, common ownership, organization, or otherwise.

2. Include the procurement of prescription drugs to be dispensed to patients and the administration or management of prescription drug benefits, including, but not limited to, any of the following:

a. Mail service pharmacy or specialty pharmacy.

b. Claims processing, retail network management, or

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001488

payment of claims to pharmacies for dispensing drugs.

c. Clinical or other formulary or preferred-drug-list development or management.

d. Negotiation, administration, or receipt of rebates, discounts, payment differentials, or other incentives, to include particular drugs in a particular category or to promote the purchase of particular drugs.

e. Patients' compliance, therapeutic intervention, or generic substitution programs.

f. Disease management.

g. Drug use review, step-therapy protocol, or prior authorization.

h. Adjudication of appeals or grievances related to prescription drug coverage.

i. Contracts with network pharmacies.

j. Control of the cost of covered prescription drugs.

(2) A contract between a health insurer or payor and a pharmacy benefit manager must require that the pharmacy benefit manager:

(a) Update maximum allowable cost pricing information at least every 7 calendar days.

(b) Maintain a process that will, in a timely manner, eliminate drugs from maximum allowable cost lists or modify drug prices to remain consistent with changes in pricing data used in formulating maximum allowable cost prices and product

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001489

availability.

(3) A contract between a health insurer or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from limiting a pharmacy's or pharmacist's ability to disclose whether the cost-sharing obligation exceeds the retail price for a covered prescription drug, and the availability of a more affordable alternative drug, pursuant to s. 465.0244.

(4) A contract between a health insurer or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from requiring an insured to make a payment for a prescription drug at the point of sale in an amount that exceeds the lesser of:

(a) The applicable cost-sharing amount; or

(b) The retail price of the drug in the absence of prescription drug coverage.

(5)(a) A pharmacy benefit manager has a fiduciary duty and obligation to the insureds and to the health insurer that uses pharmacy benefit management services or the payor. The pharmacy benefit manager must meet all the requirements of s. 465.203 and must perform pharmacy benefit management services with care, skill, prudence, diligence, and professionalism and for the best interests of the insureds and the health insurer or payor.

(b) A provision in a contract between a health insurer or payor and a pharmacy benefit manager is void and against the public policy of the state if the policy:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001490

1. Limits or prohibits the fiduciary duty or obligation of the pharmacy benefit manager to the insureds and the health insurer or payor; or

2. Violates any provision of s. 465.203.

(c) All funds received by a pharmacy benefit manager in relation to providing pharmacy benefit management services shall be received by the pharmacy benefit manager in trust for the health insurer or payor and shall be used or distributed only for the benefit of the insureds or the health insurer or payor.

(6) A contract between a health insurer or payor and a pharmacy benefit manager must require the maximum allowable cost list to include:

(a) Average acquisition cost, including national average drug acquisition cost.

(b) Average manufacturer price.

(c) Average wholesale price.

(d) Brand effective rate or generic effective rate.

(e) Discount indexing.

(f) Federal upper limits.

(g) Wholesale acquisition cost.

(h) Any other item that a pharmacy benefit manager or a health insurer or payor may use to establish reimbursement rates to a pharmacist or pharmacy for filling prescriptions or providing other pharmacy services.

(7) A health insurer that uses pharmacy benefit management

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001491

services or a payor shall have access to all financial and utilization records, data, and information used by the pharmacy benefit manager in relation to the pharmacy benefit management services provided to the health insurer or payor.

(8) A pharmacy benefit manager shall:

(a) Disclose in writing to the health insurer that uses pharmacy benefit management services or the payor any activity, policy, practice, contract, or arrangement of the pharmacy benefit manager which directly or indirectly presents conflicts of interest with the pharmacy benefit manager's relationship with, or fiduciary duty or obligation to, the insureds and the health insurer or payor.

(b) Report quarterly to the health insurer or payor any income resulting from pricing discounts, rebates of any kind, inflationary payments, credits, clawbacks, fees, grants, chargebacks, reimbursements, or other financial benefits received by the pharmacy benefit manager from any person or entity. The pharmacy benefit manager shall ensure that such income and financial benefits are passed through in full, at least quarterly, to the health insurer or payor to reduce the cost of prescription drugs and pharmacy services to the insureds.

(9) The department shall investigate any alleged violation of this section.

(10)(a) A pharmacy benefit manager that violates any

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001492

provision of this section is liable for a civil fine of $10,000 for each violation and may have its registration revoked by the department.

(b) A violation by a pharmacy benefit manager of any provision of this section which is committed or performed with such frequency as to indicate a general business practice is subject to the Florida Deceptive and Unfair Trade Practices Act under part II of chapter 501.

(11) ~~(5)~~ This section applies to contracts entered into or renewed on or after January 1, 2021 ~~July 1, 2018~~.

Section 8. Section 641.314, Florida Statutes, is amended to read:

641.314 Pharmacy benefit manager contracts.—

(1) As used in this section, the term:

(a) "Maximum allowable cost" means the per-unit amount that a pharmacy benefit manager reimburses a pharmacy or pharmacist for a generic drug, brand name drug, specialty drug, biological product, or other prescription drug, excluding dispensing fees, before ~~prior to~~ the application of copayments, coinsurance, and other cost-sharing charges, if any.

(b) "Maximum allowable cost list" means a listing of generic drugs, brand name drugs, specialty drugs, biological products, or other prescription drugs or other methodology used directly or indirectly by a pharmacy benefit manager to set the maximum allowable costs for the drugs.

AMERICAN OVERSIGHT

(c) "Payor" means a health plan, a health plan sponsor, a health plan provider, or any other payor that uses pharmacy benefit management services in this state.

(d) ~~(b)~~ "Pharmacy benefit manager" means an ~~a person or~~ entity that performs pharmacy benefit management services for ~~doing business in this state which contracts to administer or manage prescription drug benefits on behalf of~~ a health maintenance organization or payor ~~to residents of this state~~. The term does not include a provider as defined in s. 641.19 or a physician as defined in s. 458.305.

(e) "Pharmacy benefit management services" means services that:

1. Are provided, directly or through another entity, to a health maintenance organization or payor, regardless of whether the services provider and the health maintenance organization or payor are related or associated by ownership, common ownership, organization, or otherwise.

2. Include the procurement of prescription drugs to be dispensed to patients and the administration or management of prescription drug benefits, including, but not limited to, any of the following:

a. Mail service pharmacy or specialty pharmacy.

b. Claims processing, retail network management, or payment of claims to pharmacies for dispensing drugs.

c. Clinical or other formulary or preferred-drug-list

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001494

development or management.

d. Negotiation, administration, or receipt of rebates, discounts, payment differentials, or other incentives, to include particular drugs in a particular category or to promote the purchase of particular drugs.

e. Patients' compliance, therapeutic intervention, or generic substitution programs.

f. Disease management.

g. Drug use review, step-therapy protocol, or prior authorization.

h. Adjudication of appeals or grievances related to prescription drug coverage.

i. Contracts with network pharmacies.

j. Control of the cost of covered prescription drugs.

(2) A contract between a health maintenance organization or payor and a pharmacy benefit manager must require that the pharmacy benefit manager:

(a) Update maximum allowable cost pricing information at least every 7 calendar days.

(b) Maintain a process that will, in a timely manner, eliminate drugs from maximum allowable cost lists or modify drug prices to remain consistent with changes in pricing data used in formulating maximum allowable cost prices and product availability.

(3) A contract between a health maintenance organization

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001495

or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from limiting a pharmacy's or pharmacist's ability to disclose whether the cost-sharing obligation exceeds the retail price for a covered prescription drug, and the availability of a more affordable alternative drug, pursuant to s. 465.0244.

(4) A contract between a health maintenance organization or payor and a pharmacy benefit manager must prohibit the pharmacy benefit manager from requiring a subscriber to make a payment for a prescription drug at the point of sale in an amount that exceeds the lesser of:

(a) The applicable cost-sharing amount; or

(b) The retail price of the drug in the absence of prescription drug coverage.

(5)(a) A pharmacy benefit manager has a fiduciary duty and obligation to the subscribers and to the health maintenance organization that uses pharmacy benefit management services or a payor. The pharmacy benefit manager must meet all the requirements of s. 465.203 and must perform pharmacy benefit management services with care, skill, prudence, diligence, and professionalism and for the best interests of the subscribers and the health maintenance organization or payor.

(b) A provision in a contract between a health maintenance organization or payor and a pharmacy benefit manager is void and against the public policy of this state if the policy:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001496

1. Limits or prohibits the fiduciary duty or obligation of the pharmacy benefit manager to the insureds and the health maintenance organization or payor; or

2. Violates any provision of s. 465.203.

(c) All funds received by a pharmacy benefit manager in relation to providing pharmacy benefit management services shall be received by the pharmacy benefit manager in trust for the health maintenance organization or payor and shall be used or distributed only for the benefit of the insureds or the health maintenance organization or payor.

(6) A contract between a health maintenance organization or payor and a pharmacy benefit manager must require the maximum allowable cost list to include:

(a) Average acquisition cost, including national average drug acquisition cost.

(b) Average manufacturer price.

(c) Average wholesale price.

(d) Brand effective rate or generic effective rate.

(e) Discount indexing.

(f) Federal upper limits.

(g) Wholesale acquisition cost.

(h) Any other item that a pharmacy benefit manager or a health maintenance organization or payor may use to establish reimbursement rates to a pharmacist or pharmacy for filling prescriptions or providing other pharmacy services.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001497

(7) A health maintenance organization that uses pharmacy benefit management services or a payor shall have access to all financial and utilization records, data, and information used by the pharmacy benefit manager in relation to the pharmacy benefit management services provided to the health maintenance organization or payor.

(8) A pharmacy benefit manager shall:

(a) Disclose in writing to the maintenance organization that uses pharmacy benefit management services or the payor any activity, policy, practice, contract, or arrangement of the pharmacy benefit manager which directly or indirectly presents conflicts of interest with the pharmacy benefit manager's relationship with, or fiduciary duty or obligation to, the subscribers and the health maintenance organization or payor.

(b) Report quarterly to the health maintenance organization or payor any income resulting from pricing discounts, rebates of any kind, inflationary payments, credits, clawbacks, fees, grants, chargebacks, reimbursements, or other financial benefits received by the pharmacy benefit manager from any person or entity. The pharmacy benefit manager shall ensure that such income and financial benefits are passed through in full, at least quarterly, to the health maintenance organization or payor to reduce the cost of prescription drugs and pharmacy services to the subscribers.

(9) The department shall investigate any alleged violation

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001498

of this section.

(10)(a) A pharmacy benefit manager that violates any provision of this section is liable for a civil fine of $10,000 for each violation and may have its registration revoked by the department.

(b) A violation of any provision of this section which is committed or performed with such frequency as to indicate a general business practice is subject to the Florida Deceptive and Unfair Trade Practices Act under part II of chapter 501.

(11)~~(5)~~ This section applies to contracts entered into or renewed on or after January 1, 2021 ~~July 1, 2018~~.

Section 9. Paragraph (a) of subsection (1) of section 409.9201, Florida Statutes, is amended to read:

409.9201 Medicaid fraud.—

(1) As used in this section, the term:

(a) "Prescription drug" means any drug, including, but not limited to, finished dosage forms or active ingredients that are subject to, defined in, or described in s. 503(b) of the Federal Food, Drug, and Cosmetic Act or in s. 465.003(14) ~~465.003(8)~~, s. 499.003(17), s. 499.007(13), or s. 499.82(10).

The value of individual items of the legend drugs or goods or services involved in distinct transactions committed during a single scheme or course of conduct, whether involving a single person or several persons, may be aggregated when determining

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001499

the punishment for the offense.

Section 10. Paragraph (pp) of subsection (1) of section 458.331, Florida Statutes, is amended to read:

458.331 Grounds for disciplinary action; action by the board and department.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(pp) Applicable to a licensee who serves as the designated physician of a pain-management clinic as defined in s. 458.3265 or s. 459.0137:

1. Registering a pain-management clinic through misrepresentation or fraud;

2. Procuring, or attempting to procure, the registration of a pain-management clinic for any other person by making or causing to be made, any false representation;

3. Failing to comply with any requirement of chapter 499, the Florida Drug and Cosmetic Act; 21 U.S.C. ss. 301-392, the Federal Food, Drug, and Cosmetic Act; 21 U.S.C. ss. 821 et seq., the Drug Abuse Prevention and Control Act; or chapter 893, the Florida Comprehensive Drug Abuse Prevention and Control Act;

4. Being convicted or found guilty of, regardless of adjudication to, a felony or any other crime involving moral turpitude, fraud, dishonesty, or deceit in any jurisdiction of the courts of this state, of any other state, or of the United States;

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001500

5. Being convicted of, or disciplined by a regulatory agency of the Federal Government or a regulatory agency of another state for, any offense that would constitute a violation of this chapter;

6. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to the practice of, or the ability to practice, a licensed health care profession;

7. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to health care fraud;

8. Dispensing any medicinal drug based upon a communication that purports to be a prescription as defined in s. 465.003 ~~465.003(14)~~ or s. 893.02 if the dispensing practitioner knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship; or

9. Failing to timely notify the board of the date of his or her termination from a pain-management clinic as required by s. 458.3265(3).

Section 11. Paragraph (rr) of subsection (1) of section 459.015, Florida Statutes, is amended to read:

459.015 Grounds for disciplinary action; action by the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001501

board and department.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(rr) Applicable to a licensee who serves as the designated physician of a pain-management clinic as defined in s. 458.3265 or s. 459.0137:

1. Registering a pain-management clinic through misrepresentation or fraud;

2. Procuring, or attempting to procure, the registration of a pain-management clinic for any other person by making or causing to be made, any false representation;

3. Failing to comply with any requirement of chapter 499, the Florida Drug and Cosmetic Act; 21 U.S.C. ss. 301-392, the Federal Food, Drug, and Cosmetic Act; 21 U.S.C. ss. 821 et seq., the Drug Abuse Prevention and Control Act; or chapter 893, the Florida Comprehensive Drug Abuse Prevention and Control Act;

4. Being convicted or found guilty of, regardless of adjudication to, a felony or any other crime involving moral turpitude, fraud, dishonesty, or deceit in any jurisdiction of the courts of this state, of any other state, or of the United States;

5. Being convicted of, or disciplined by a regulatory agency of the Federal Government or a regulatory agency of another state for, any offense that would constitute a violation of this chapter;

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001502

6. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to the practice of, or the ability to practice, a licensed health care profession;

7. Being convicted of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction of the courts of this state, of any other state, or of the United States which relates to health care fraud;

8. Dispensing any medicinal drug based upon a communication that purports to be a prescription as defined in s. 465.003 ~~465.003(14)~~ or s. 893.02 if the dispensing practitioner knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship; or

9. Failing to timely notify the board of the date of his or her termination from a pain-management clinic as required by s. 459.0137(3).

Section 12. Subsection (1) of section 465.014, Florida Statutes, is amended to read:

465.014 Pharmacy technician.—

(1) A person other than a licensed pharmacist or pharmacy intern may not engage in the practice of the profession of pharmacy, except that a licensed pharmacist may delegate to pharmacy technicians who are registered pursuant to this section

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001503

those duties, tasks, and functions that do not fall within the purview of s. 465.003(23) ~~465.003(13)~~. All such delegated acts must be performed under the direct supervision of a licensed pharmacist who is responsible for all such acts performed by persons under his or her supervision. A registered pharmacy technician, under the supervision of a pharmacist, may initiate or receive communications with a practitioner or his or her agent, on behalf of a patient, regarding refill authorization requests. A licensed pharmacist may not supervise more than one registered pharmacy technician unless otherwise permitted by the guidelines adopted by the board. The board shall establish guidelines to be followed by licensees or permittees in determining the circumstances under which a licensed pharmacist may supervise more than one pharmacy technician.

Section 13. Paragraph (c) of subsection (2) of section 465.015, Florida Statutes, is amended to read:

465.015 Violations and penalties.—

(2) It is unlawful for any person:

(c) To sell or dispense drugs as defined in s. 465.003(14) ~~465.003(8)~~ without first being furnished with a prescription.

Section 14. Subsection (9) of section 465.0156, Florida Statutes, is amended to read:

465.0156 Registration of nonresident pharmacies.—

(9) Notwithstanding s. 465.003(18) ~~465.003(10)~~, for purposes of this section, the registered pharmacy and the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001504

pharmacist designated by the registered pharmacy as the prescription department manager or the equivalent must be licensed in the state of location in order to dispense into this state.

Section 15. Paragraph (s) of subsection (1) of section 465.016, Florida Statutes, is amended to read:

465.016 Disciplinary actions.—

(1) The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2):

(s) Dispensing any medicinal drug based upon a communication that purports to be a prescription as defined in ~~by~~ s. 465.003 ~~465.003(14)~~ or s. 893.02 when the pharmacist knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship.

Section 16. Subsection (4) of section 465.0197, Florida Statutes, is amended to read:

465.0197 Internet pharmacy permits.—

(4) Notwithstanding s. 465.003(18) ~~465.003(10)~~, for purposes of this section, the Internet pharmacy and the pharmacist designated by the Internet pharmacy as the prescription department manager or the equivalent must be licensed in the state of location in order to dispense into this state.

Section 17. Paragraph (j) of subsection (5) of section 465.022, Florida Statutes, is amended to read:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001505

465.022 Pharmacies; general requirements; fees.—

(5) The department or board shall deny an application for a pharmacy permit if the applicant or an affiliated person, partner, officer, director, or prescription department manager or consultant pharmacist of record of the applicant:

(j) Has dispensed any medicinal drug based upon a communication that purports to be a prescription as defined in ~~by~~ s. 465.003 ~~465.003(14)~~ or s. 893.02 when the pharmacist knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship that includes a documented patient evaluation, including history and a physical examination adequate to establish the diagnosis for which any drug is prescribed and any other requirement established by board rule under chapter 458, chapter 459, chapter 461, chapter 463, chapter 464, or chapter 466.

For felonies in which the defendant entered a plea of guilty or nolo contendere in an agreement with the court to enter a pretrial intervention or drug diversion program, the department shall deny the application if upon final resolution of the case the licensee has failed to successfully complete the program.

Section 18. Paragraph (h) of subsection (1) of section 465.023, Florida Statutes, is amended to read:

465.023 Pharmacy permittee; disciplinary action.—

(1) The department or the board may revoke or suspend the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001506

permit of any pharmacy permittee, and may fine, place on probation, or otherwise discipline any pharmacy permittee if the permittee, or any affiliated person, partner, officer, director, or agent of the permittee, including a person fingerprinted under s. 465.022(3), has:

(h) Dispensed any medicinal drug based upon a communication that purports to be a prescription as defined in ~~by~~ s. 465.003 ~~465.003(14)~~ or s. 893.02 when the pharmacist knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship that includes a documented patient evaluation, including history and a physical examination adequate to establish the diagnosis for which any drug is prescribed and any other requirement established by board rule under chapter 458, chapter 459, chapter 461, chapter 463, chapter 464, or chapter 466.

Section 19. Section 465.1901, Florida Statutes, is amended to read:

465.1901 Practice of orthotics and pedorthics.—The provisions of chapter 468 relating to orthotics or pedorthics do not apply to any licensed pharmacist or to any person acting under the supervision of a licensed pharmacist. The practice of orthotics or pedorthics by a pharmacist or any of the pharmacist's employees acting under the supervision of a pharmacist shall be construed to be within the meaning of the term "practice of the profession of pharmacy" as defined ~~set~~

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001507

~~forth~~ in s. 465.003 ~~465.003(13)~~, and shall be subject to regulation in the same manner as any other pharmacy practice. The Board of Pharmacy shall develop rules regarding the practice of orthotics and pedorthics by a pharmacist. Any pharmacist or person under the supervision of a pharmacist engaged in the practice of orthotics or pedorthics is not precluded from continuing that practice pending adoption of these rules.

Section 20. Subsection (40) of section 499.003, Florida Statutes, is amended to read:

499.003 Definitions of terms used in this part.—As used in this part, the term:

(40) "Prescription drug" means a prescription, medicinal, or legend drug, including, but not limited to, finished dosage forms or active pharmaceutical ingredients subject to, defined by, or described by s. 503(b) of the federal act or s. 465.003(14) ~~465.003(8)~~, s. 499.007(13), subsection (31), or subsection (47), except that an active pharmaceutical ingredient is a prescription drug only if substantially all finished dosage forms in which it may be lawfully dispensed or administered in this state are also prescription drugs.

Section 21. Paragraph (c) of subsection (24) of section 893.02, Florida Statutes, is amended to read:

893.02 Definitions.—The following words and phrases as used in this chapter shall have the following meanings, unless the context otherwise requires:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-001508

(24) "Prescription" includes any order for drugs or medicinal supplies which is written or transmitted by any means of communication by a licensed practitioner authorized by the laws of this state to prescribe such drugs or medicinal supplies, is issued in good faith and in the course of professional practice, is intended to be dispensed by a person authorized by the laws of this state to do so, and meets the requirements of s. 893.04.

(c) A prescription for a controlled substance may not be issued on the same prescription blank with another prescription for a controlled substance that is named or described in a different schedule or with another prescription for a medicinal drug, as defined in s. 465.003 ~~465.003(8)~~, that is not a controlled substance.

Section 22. If any provision of this act or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Section 23. This act shall take effect January 1, 2021.

Thank you, Mark. Josh, we are looking at Thursday Feb 6 for the Capitol Press Event to launch Florida Economic Development Week, which is planned for Feb 9-15. How does this date look for Senator Gruters? Once we have confirmation from your office, we can work with the Sergeant at Arms to schedule the appropriate Capitol location. I can supply a copy of the 2019 resolution presented by Senator Gruters if need be.

Thank you,

Beth

Greetings Senator Gruters.

The Florida Economic Development Council would again like to invite you to return as the host of the Capitol press event announcing Florida Economic Development Week. The press event will take place Thursday, Feb 6, preferably outside the Senate Chambers. However, this year session will have begun, whereas last year, we were in committee weeks. Our intention is to partner with the Association of Florida Colleges Council of Presidents as we did last year. It was a tremendous event that received great press coverage and launched a week of social media

AMERICAN OVERSIGHT

highlighting the impact of economic development in Florida. Photos from last year are attached.

Ideally, FEDC would like to schedule a call or a meeting with Senator Gruters to plan the press event. Would very much like to get his support in inviting a House member to join him in providing resolutions in support of Florida Economic Development Week. Another new component this year, is the interest of the Governor's office to potentially participate in the press event. This could be in the form of a resolution and/or remarks from Jamal Sowell.

Here is a link to the FEDC Feature in Expansion Solutions magazine. It is a great piece that showcases the reach and impact of FEDC in improving Florida communities and elevating Florida's global competitiveness.
https://expansionsolutionsonline.advanced-pub.com/?issueID=39&pageID=80

Thanks for your consideration, and for all you are doing to prosper Florida citizens.

AMERICAN OVERSIGHT

First in Sunburn: State Sen. Jason Pizzo switches endorsement to Mike Bloomberg — After previously endorsing former Vice President **Joe Biden**, the Miami Democrat is now throwing his support to presidential candidate **Bloomberg**. **Pizzo** said he based his switch on the former New York Mayor's investment to build a winning campaign in Florida. "I ran for office to curb gun violence, pass criminal justice reform, push for repairing infrastructure, and promote affordable housing, I've waited patiently to see that from Biden and others — Mike Bloomberg has a plan and a path to get there," Pizzo said. "This election is more than just defeating Trump, it is the tipping point for issues which are critical to my family, my constituents and all Floridians. Mike has a plan that I am proud to get behind."

—

A year ago, Florida Realtors commissioned a report on the economic impact of vacation rentals in the Sunshine State. Today, the University of Central Florida is releasing the results.

The top line shows the vacation rental industry provides 115,000 jobs and boosts the state economy by more than $27 billion — $16.6 billion in direct spending and $10.8 billion in indirect spending,

"Floridians have long-known that the state's vacation home rental industry has a significant impact on our economy, but the numbers in this report are simply staggering," said Florida Realtors President **Barry Grooms**, a Realtor and co-owner of Sarabay Suncoast Realty Inc. in Bradenton.

Florida Realtors President Barry Grooms says the economic impact of the state's vacation home rental industry is 'staggering.'

"More than $27 billion a year is a substantial contribution to our economy, and the 115,000 jobs it supports are critical to the well-being of many of our communities."

To put those numbers in perspective, the industry generates 312 jobs statewide every day, 13 jobs every hour, and one job every 5 minutes. As far as direct spending, that's nearly $46 million a day and approximately $1.9 million every hour reverberating through the state's economy.

Grooms adds, "Given the vital importance of vacation home rentals to our economy, I truly hope policymakers and stakeholders consider this information as they deliberate on measures that could impact the industry."

AMERICAN OVERSIGHT

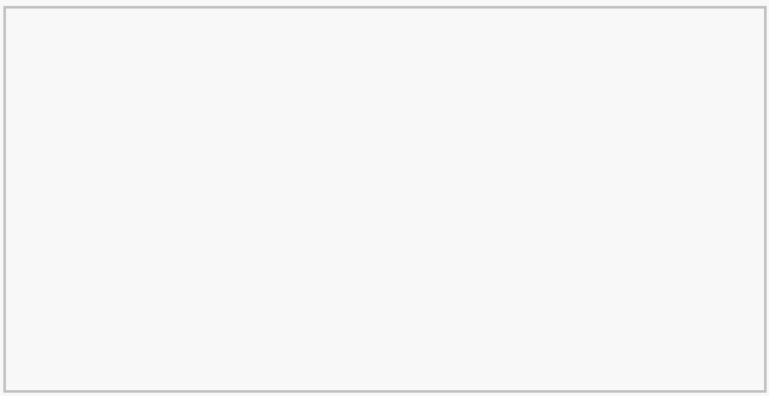
Today's Sunrise

Wednesday marks the half-way point: Day 30 of the 60-day Session. It's the moment when the political roller coaster kicks into high gear — and also the day of the annual Capitol Press Corps Skits.

Also, on today's Sunrise:

— There's been a newfound acceptance of drones in the state Legislature. At first, lawmakers had imposed limits on uncrewed aircraft over fears about surveillance from above by the police state. But now they're considering exemptions for everything from law enforcement to python hunting.

— It's budget time in The Capitol. The House and Senate will approve two different versions of the new spending plan, then spending the final month of Session playing a behind-the-scenes version of Let's Make a Deal. Agriculture Commissioner **Nikki Fried** hopes she's not traded away in the process.



— Police in Jacksonville arrested a man accused of running a van through a volunteer tent at a GOP voter registration event. Fortunately, no one was hurt.

— Fed up with standard cable news stations? There's something new on the lineup. BNC — the Black News Channel — launches today from their studios in Tallahassee, covering community issues often ignored by the mainstream media.

— Republican political consultant **Anthony Pedicini** talks about life, the universe and Florida politics.

— The latest on Florida Men, featuring a voodoo death and first-grade meth.

@RealDonaldTrump: Fake News @CNN & MSDNC

AMERICAN OVERSIGHT

—**@RealDonaldTrump**: "Fake" News @CNN & MSDNC keep talking about "Lt. Col. [**Alexander**] **Vindman** as though I should think only how wonderful he was. Actually, I don't know him, never spoke to him, or met him (I don't believe!) but, he was very insubordinate, reported contents of my "perfect" calls incorrectly, & was given a horrendous report by his superior, the man he reported to, who publicly stated that Vindman had problems with judgement, adhering to the chain of command and leaking information. In other words, "OUT."

—**@MarcoRubio**: Col. Vindman wasn't "fired" he's still an Army officer. He was assigned to NSC to serve the President who has a right to have people he trusts on his staff [**Gordon**] **Sondland** was a political appointee. No point in having a political appointee who no longer has the Presidents confidence

—**@DonaldJTrumpJr**: Allow me a moment to thank — and this may be a bit of a surprise — **Adam Schiff**. Were it not for his crack investigation skills,@real**DonaldTrump** might have had a tougher time unearthing who all needed to be fired. Thanks, Adam!

Tweet, tweet:

—**@sahilkapur**: UMass Lowell poll: 62% of New Hampshire Democrats would rather see a giant meteor strike the earth and extinguish all human life than see President Trump get reelected.

—**@KevinCate**: Watching some old **@AndrewGillum** footage & there is no question, he's one of — if not the most — talented & inspiring political leaders in our country. He should be at the top of everyone's Veep list.

—**@GovRonDeSantis**: The tax credit scholarship program provides educational opportunities to more than 100,000 low-income families in Florida. I support these families and am glad to see **@FifthThird** continue to do so as well. Thanks for empowering parents and students!

—**@SamanthaGross**: There is a ton happening in Tallahassee, across Florida and beyond. Despite attending events statewide, it's been about a month since the governor took questions from the press. **@anaceballos** speaks for us all: [**Ron**] **DeSantis** has been sidestepping reporters, and we are taking notice.

—**@TowsonFraser**: Mandating Florida businesses use an error-ridden federal system was a bad idea then and still is.

—**@Scott_Tobias**: Netflix: Good morning. Here are 12 new shows. Disney Plus: Did you enjoy The Mandalorian? Hold onto that feeling for another nine months or so.

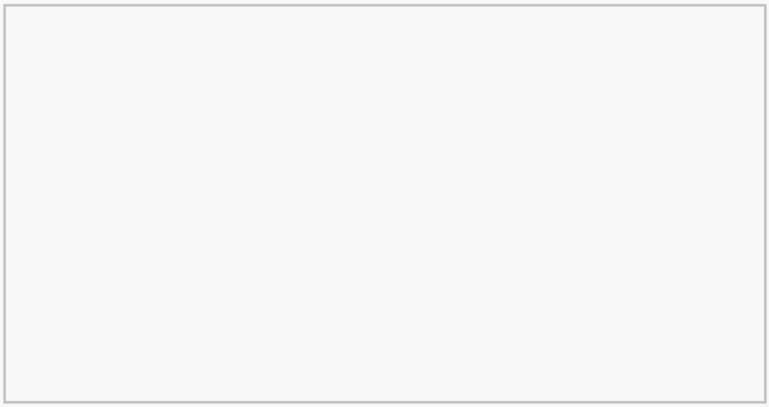
Top story



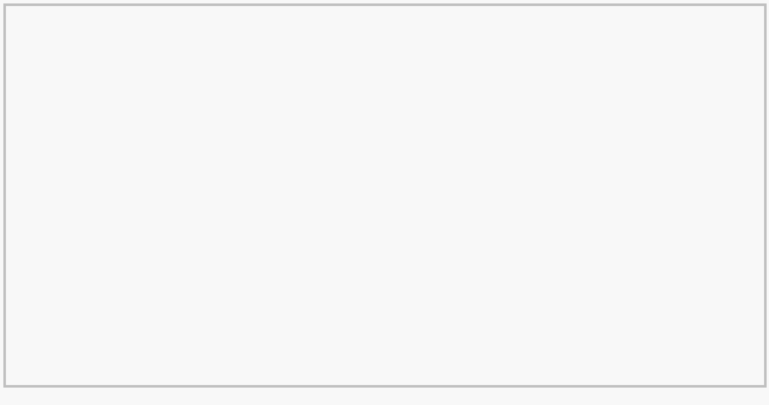
"Florida voted to give 1.4 million felons the right to vote. It hasn't gone smoothly" via Arian Campo-Flores and Jon Kamp of The Wall Street Journal — "It is a confusing, Byzantine morass," said **Myrna Pérez**, director of the Voting Rights and Elections Program at the Brennan Center for Justice, which sued the state. The 2018 amendment ended the state's permanent disenfranchisement of felons. The measure restored voting rights to those who completed their prison terms as well as parole or probation, except people with murder or felony sexual-assault convictions. After it took effect, the Republican-led legislature last year passed a bill that supporters said was needed to clarify its language. Among the bill's provisions was a requirement that felons pay any fees, fines or restitution they owe to fulfill all terms of their sentences. Opponents of the bill said the measure undercut the amendment.

Dateline: Tally

"Without consequences': Dozens of ethics cases are languishing on Capitol Hill

AMERICAN OVERSIGHT

DeSantis' desk" via Jeff Schweers of the Tallahassee Democrat — A backlog of nearly 30 recommended orders from the state's ethics board — imposing penalties on an array of public officials, several of which were high-profile cases — is languishing on the desk of DeSantis. All require final action from him, and all but seven of them arrived from the Florida Commission on Ethics since he took office. The Governor's failure to act also means people who should have been removed from their positions are still in office, including a St. Cloud Community Redevelopment Agency board member whose term is up for renewal next week. Even a $5,000 fine against DeSantis' Democratic rival for governor, former Tallahassee Mayor Gillum, has gone unaddressed.



Ron DeSantis has nearly 30 ethics orders on his desk, waiting for attention.

"**Election year politics? GOP pushing pay raises for teachers and state workers**" via John Kennedy of the GateHouse Capital Bureau — Democrats and union officials say the GOP's motives may be to deflect campaign criticism this fall, or even sow dissent among labor groups jostling over the size of a rare pay hike. But many welcome being central to state budget talks as the Legislature nears its midpoint. It's an unfamiliar place for both. "Republican leaders think this will take away a page from our playbook — that we can't say they haven't done enough for teachers or state workers," said Rep. **Evan Jenne**. "But I'm happy they are finally seeing value in our hardworking public workers." House budget chair **Travis Cummings** dismissed any political shadings to the pay raises.

"**Why is Florida suddenly bullish on teacher pay? Big business is on board**" via Jeffrey Solochek and Emily Mahoney of the Tampa Bay Times — Teachers have been lobbying lawmakers for better pay — not bonuses — for years. Democrats have proposed boosting the minimum salary to $50,000 since 2015. Most often, their voices have stood alone. In 2020, though, some of the most powerful lobbying groups in the state are joining the chorus: those representing the business community. "If we want the best, most dedicated teachers for our children, we need to pay them enough to want to enter and stay in the classroom," North Florida developer **Chris Corr**, also chairman of the Council of 100, wrote in a recent column that circulated across the state. That issue of talent is another key argument. And it's not brand-new.

"**Appeal court sustains House's subpoena of visit Florida's 'Emeril' contract**" via Michael Moline Florida Phoenix — A state appellate court has handed a victory to the Florida House in a dispute over financial records kept by the company that produced the "**Emeril**'s Florida" cooking show under contract with VISIT FLORIDA, the state's tourism promotion arm. The outcome could strengthen the House's hand in the continuing drama over VISIT FLORIDA. That chamber keeps trying to kill the agency while DeSantis and the Senate see it as crucial to promoting Florida's tourism industry. At the least, the ruling vindicates the Legislature's broad authority to investigate suspected corruption, inefficiency, or waste.

AMERICAN OVERSIGHT

One of Emeril Lagasse's cooking shows is embroiled in the battle between the House and VISIT FLORIDA.

"**Will APD changes happen this Session?**" via Christine Sexton of the News Service of Florida — Despite both chambers identifying the Agency for Persons with Disabilities as a priority issue that needed to be addressed during Session, the House has been strangely quiet on how to improve the Medicaid waiver program for people with intellectual and developmental disabilities, dubbed the "iBudget." But the Agency for Persons with Disabilities has spent more money providing services to the 34,000 people in the iBudget program than what the state has agreed to spend, which has spurred lawmakers to take a closer look at how the program operates. The Senate has offered its proposal (SB 82), by Sen. **Aaron Bean**. The bill maintains the iBudget program but makes some changes to how it operates.

"**Al Jacquet hard to find as state imposes fines**" via Joel Englehardt of the Palm Beach Post — The state can't always find him. They're slapping fines on him and routinely seeking corrections in his campaign filings. One recent notice was returned unopened. A friend said **Jacquet** told him last year that he resorted to living in his car for a time while in Tallahassee for the 2019 session. For about six months, Jacquet had no district office. The Florida Elections Commission fined Jacquet $2,000 in September for waiting a year to correct other campaign finance violations. He still hasn't paid the fine, which could lead to the state filing suit against him. A $50 fine went to a collection agency in December 2018 and state records indicate it remains unpaid.

Legislation

"**Florida's tourism industry is behind a bill to block local laws that could create more benefits for workers**" via Chabeli Carrazana of the Orlando Sentinel — Florida's top tourism and business interests are putting their combined political might behind a bill moving through the Legislature that would prevent cities and counties from forcing companies to provide their workers with better benefits or more predictable schedules. Proponents say the bill fosters a pro-business environment and will set a single standard across the state, rather than allow local governments to create a patchwork of different rules. Opponents worry the bill could cancel out local laws such as an Orange County ban on discrimination based on sexual orientation and gender identity in the private sector or a wage recovery ordinance in Osceola County that helps workers when an employer doesn't pay what the worker is due.

"**Sponsors still hopeful puppy mill legislation passes**" via Sarah Mueller of Florida Politics — Sen. **Manny Diaz** is still holding out hope his bill to regulate pet stores will pass this Session. However, the Hialeah Gardens Republican's proposal (SB 1698) has not yet been heard by a committee. The legislation, along with the House companion bill (HB 1237), sponsored by Rep. **Bryan Avila**, aims to rid the state of so-called puppy mills. Both bills seek to set a uniform standard throughout the state, allowing stores that play by the rules to keep their doors open and freeing them of the stigma brought on by shady operations.

Manny Diaz hopes his puppy mill bill will make it through this Session.

AMERICAN OVERSIGHT

Today in Capitol

The Senate Education Committee meets to consider a proposed constitutional amendment SJR 1216 from Sen. **Joe Gruters**, which seeks to set up eight-year term limits for school board members across the state, 1:30 p.m., Room 412, Knott Building.

The Senate Governmental Oversight and Accountability Committee meets to consider several bills, including SB 966 from Sen. **George Gainer**, which seeks to create a public-records exemption for information submitted to government agencies for disaster-recovery housing assistance programs, 1:30 p.m., Room 301, Senate Office Building.

The Senate Innovation, Industry and Technology Committee meets to consider SB 1352 from Sen. **Jeff Brandes**, which seeks to permit vehicles in ride-sharing services such as Uber and Lyft to show digital advertising, 1:30 p.m., Room 110, Senate Office Building.

The House PreK-12 Appropriations Subcommittee meets to consider HB 737 from Rep. **Kimberly Daniels**, which seeks to require a moment of silence at public schools every day, 1:30 p.m., Reed Hall, House Office Building.

The House Transportation & Tourism Appropriations Subcommittee meets to consider HB 1371 from Reps. **Randy Fine** and Rep. **Mike Caruso**, which seeks to improve safety at pedestrian crosswalks, 1:30 p.m., Room 404, House Office Building.

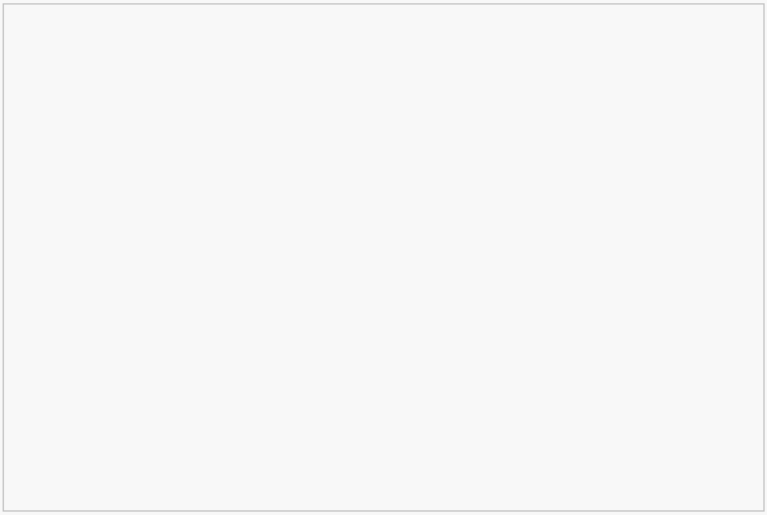
The House Select Committee on the Integrity of Research Institutions meets to hear a presentation on the "risk of foreign interference in research." House Speaker **José Oliva**, called for the committee after the resignation of officials at Moffitt Cancer Center who had ties to China, 4 p.m., Room 404, House Office Building.

The Senate Community Affairs Committee meets to consider SB 1148 from Brandes, which seeks to set up regulations on electric bicycles, 4 p.m., Room 301, Senate Office Building.

The Senate Environment and Natural Resources Committee meets to consider SB 1706 from Chairman **Bill Montford**, which seeks to address pollution in distinct types of public and private water systems, 4 p.m., Room 37, Senate Office Building.

The Senate Ethics and Elections Committee meets to consider the confirmation of several appointees to state and local agencies and boards — such as the state university system's Board of Governors, the Florida Fish and Wildlife Conservation Commission and water management districts, 4 p.m., Room 412, Knott Building.

The Senate Infrastructure and Security Committee meets to consider SPB 7054, which seeks to make changes in several transportation laws, 4 p.m., Room 110, Senate Office Building.



The Senate Special Order Calendar Group will meet to finalize the special-order calendar, which lists bills that will move to the Senate floor, 15 minutes after committee hearings end.

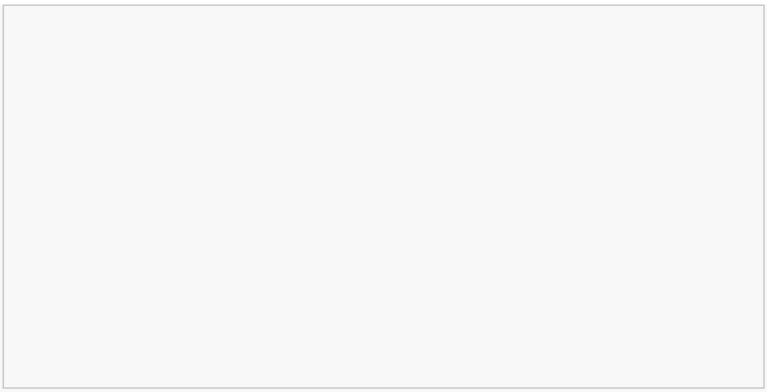
Statewide

"**Florida's unpopular Common Core standards are 'eradicated'**" via The Associated Press — The state Department of Education in a statement said the controversial set of academic standards "has been officially eradicated from Florida classrooms." Education Commissioner **Richard Corcoran** said he is recommending that the state Board of Education next week

AMERICAN OVERSIGHT

adapts Common Core's successor, Benchmarks for Excellent Student Thinking, also known as BEST. The Common Core standards were first proposed a decade ago by associations of governors and state education chiefs, and they were embraced in Florida by former Gov. **Jeb Bush**. A broad coalition of conservatives, liberals, parents and teachers found fault with Common Core for different reasons.

Education Commissioner Richard Corcoran put the final nail in the Common Core coffin.



"**Florida may start grading pre-K schools A through F. Here's why some think that idea is wrong**" via Leslie Postal of the Orlando Sentinel — State lawmakers this year have proposed a new system, one that has generated widespread support — in part because so many dislike the current one — but also has prompted criticism for suggesting pre-K programs be graded A-to-F. The pre-K program, dubbed VPK, served more than 174,000 students last year and cost more than $400 million. Many early-childhood and education advocates are in favor of the new assessments but don't want an A-to-F grade given to pre-K programs. "The VPK accountability system is broken," said **David Daniel** of the Florida Association for Child Care Management, which represents private child care centers. "It doesn't serve private providers, it doesn't serve the policymakers, and it doesn't serve these families."

"**Moffitt returns $1 million to state. Money was linked to scientist with China ties**," via Justine Griffin of the Tampa Bay Times — The funds originally were used to provide a salary and staff for **Howard McLeod**, medical director of the DeBartolo Family Personalized Medicine Institute at Moffitt and a senior member in Moffitt's department of cancer epidemiology. McLeod was forced to resign in December, along with former Moffitt CEO **Alan List** and four other scientists, after an internal investigation found they did not disclose ties to Chinese recruitment programs. "Out of an abundance of caution, Moffitt is refunding $1,093,890 that it could not confirm was spent as it should have been," said **Yvette Tremonti**, Moffitt's chief financial and administrative officer.

"**From smaller asbestos payouts to limiting lawsuit damages: Florida high court's conservative makeover raises stakes in Capitol tort reform battles**" via Gray Rohrer of the Orlando Sentinel — Unlike tax cuts, regulation reductions and other business-friendly measures passed by the GOP-led Legislature, tort reform bills have often failed to get through amid massive opposition from another influential group — the trial attorney lobby. DeSantis' conservative makeover of the Florida Supreme Court means new such laws are more likely to be upheld. Under the old liberal majority, the state's high court knocked down or chipped away at laws capping fees in medical malpractice and workers' compensation cases, upsetting insurers and large corporations. DeSantis has also taken an interest in the tort reform push.

"**Ocala to host Ashley Moody at cybercrime workshop**" via Carlos Medina of the Ocala StarBanner — The workshop will be presented Tuesday by Cyber Florida and the Marion County Clerk of Courts and Comptroller in the wake of several cybercrimes targeting government offices in Florida. A spear-phishing scam hit the city of Ocala in October to the tune of about $740,000. The episode demonstrated how governments could be vulnerable to such attacks. "These attacks on our cities are expensive and diverts the government's focus away from serving its citizens. These workshops and training sessions will help local leaders across Florida implement procedures to prevent, respond to and recover from cyberattacks," **Moody** said in a prepared statement. The workshop is scheduled for 11 a.m. at Southeastern Livestock Pavilion and Extension Auditorium.

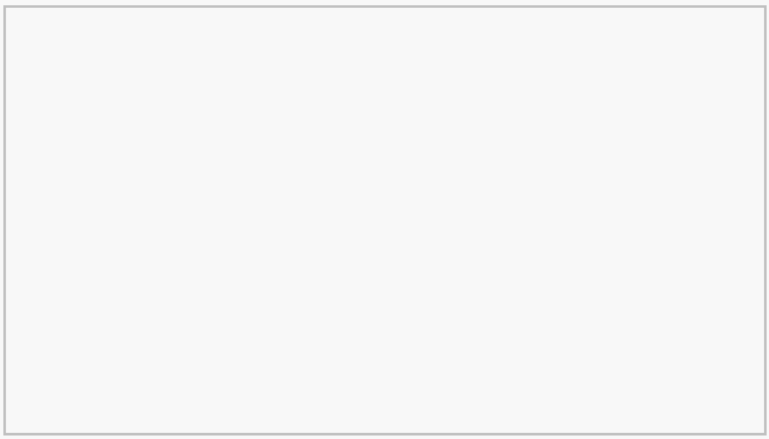
AG Ashley Moody will be heading a cybercrime workshop in Ocala.



"**Federal red tape hamstrings Florida's commercial space growth**" via Jacqueline Feldscher of POLITICO Florida — The arm of the Florida state government tasked with revitalizing its space economy is facing years of delays in acquiring excess federal land and facilities to attract new commercial customers, says **Frank DiBello**, CEO of Space Florida. Significant delays in Washington are slowing things down, asserts DiBello, who has led Space Florida since 2009 and previously managed the aerospace business at consulting firm KPMG. "Right now, when there is federal property that is excess or could be turned over to the state for purposes of meeting the market need, we have to go through a federal process that is long and cumbersome," DiBello said. "I would love to see that streamlined. We're pretty far down on the pecking order."

"**Free orange juice could make a comeback at Florida welcome centers**" via the News Service of Florida — Helping the Department of Citrus bring back free orange juice could hinge on a more significant debate, as the operations of state welcome centers remain locked in a legislative battle about the fate of the tourism-marketing agency VISIT FLORIDA. The Department of Citrus last July eliminated free juice offerings at welcome centers along Interstate 10 west of Pensacola, Interstate 75 near Lake City, and Interstate 95 near Jacksonville, as a $4.1 million cut in state promotional funding went into effect. **Shelley Rossetter**, the department's assistant director of global marketing, said that stopping the flow of free juice "was hard to let go of. The department and growers are very clear that our visitors miss their juice."

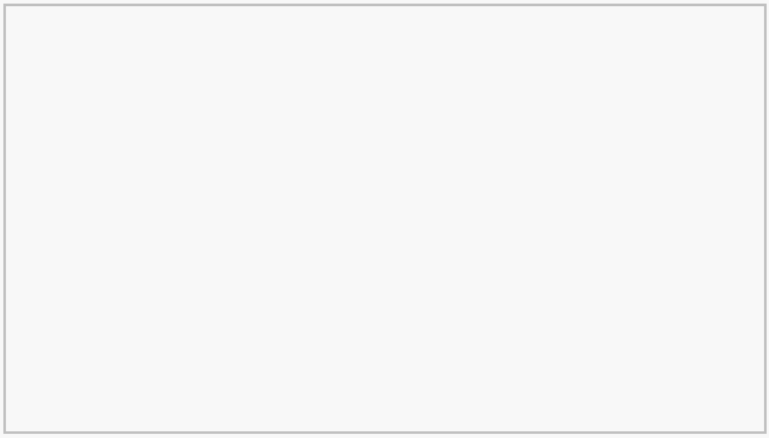
Coronavirus

AMERICAN OVERSIGHT

"Coronavirus has Florida couple quarantined on Diamond Princess cruise ship: 'It's a little bit prisonlike'" Naseem Miller of the Orlando Sentinel — Florida couple**Philip** and **Gay Courter** are trying to make the best of being quarantined on the Diamond Princess in Japan, where dozens of passengers, including 12 Americans, have been diagnosed with the coronavirus. "I'm out on the balcony looking at at least 16 ambulances lined up here on the pier, and they've got the quarantine tunnel set up at the door, so I'm sorry to say it looks like they're going to be offloading more sick passengers today," said Philip Courter, 77, in a phone call from the cruise ship docked at Yokohama, Japan. Meanwhile, the numbers of infections continue to rise, especially in China.

A Florida couple are under coronavirus quarantine on the Princess Diamond cruise ship.

"Rick Scott urges coronavirus transparency. Was he all that transparent on Zika?" via Anthony Man of the South Florida Sun-Sentinel — This week, **Scott** depicted himself as a proponent of transparency. His office issued a news released headlined, "Scott Requests Transparency in Combating Coronavirus in United States." While Gov., Scott's administration was the subject of complaints at the time about a lack of transparency about Zika. "It's rich in irony that Sen. Scott talks about transparency given his record of running from it. In 2016, he literally avoided coordination with Miami Beach Mayor **Philip Levine** and county Mayor **[Carlos] Giménez** around the Zika virus outbreak. He withheld information from local leaders and even his fellow Republican, Gimenez ripped him for his lack of transparency and withholding sensitive information," **Christian Ulvert**, who was a political adviser to Levine, said.



Charlie Crist calls for transparency and action on coronavirus" via Janelle Irwin Taylor of Florida Politics — In a letter to CDC Director **Robert Redfield**, **Crist** asked for transparency in the agencies planning as well as additional action on how individuals and families can take preventative action. Trump does not plan to request emergency funding to respond to the outbreak, which has left many lawmakers frustrated, according to The Hill. While only 12 cases have been reported in the U.S., officials are concerned action is needed to stave off a more widespread problem. Coronavirus first began in China at the end of 2019. So far more than 28,000 cases have been confirmed in Asia, Europe and North America, including in the U.S.

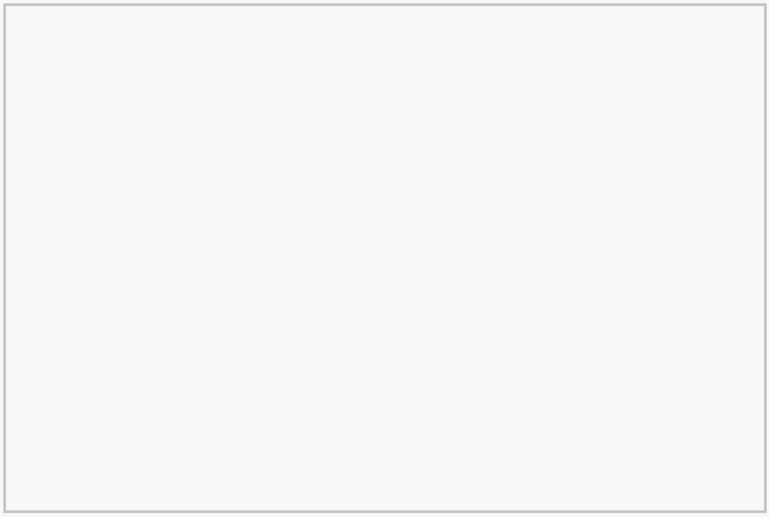
Happening today — Crist will tour a health clinic to highlight flu season and preparations for any possible coronavirus outbreak, 11 a.m., Community Health Center of Pinellas Lealman Clinic, 4950 34th St. North, St. Petersburg.

AMERICAN OVERSIGHT

Mother Nature

"**Florida should help remove shark fin soup from the world's menu**" via David Whitley of the Orlando Sentinel — The shark is yanked out of the ocean, its fins and tail are chopped off, then it's tossed back into the water. Unable to move, the shark drowns or is eaten. Shark finning has been banned in the U.S. since 2000. Fins can still be imported from countries without bans, however. Florida's become a major hub in this trade, so the legislature is considering bills that would prohibit the import, export and sale of shark fins. The issue is not as cut-and-dried as it seems. There's fear such laws would make it harder to track and combat illegal trade, and they could punish responsible fisheries. But many scientists and shark lovers say there's no time to waste.

The U.S. Fish and Wildlife Service confiscated nearly $1 million in shark fins at the Port of Miami.



"**Sierra Club sues to block Pasco road project that cuts through nature preserve**" via CT Bowen of the Tampa Bay Times — The suit was not unexpected. The environmental group had pledged a legal challenge to the U.S. Army Corps of Engineers permit, and Pasco County already had retained outside legal counsel for the court fight. The suit, filed in U.S. District Court in Tampa, names U.S. Army Corps Commander Lt. Gen. **Todd Semonite** and Col. **Andrew Kelly**, of the Corps' Jacksonville district as defendants.**Dan Rametta** of Land O' Lakes, a longtime opponent of the road project, joined the Sierra Club as a plaintiff. The 59-page suit contends the corps issued the environmental permit Dec. 20 without requiring sufficient wildlife studies, a public hearing and inclusion of public comments before 2011.

"**Indialantic motel finally falls to the wrecking ball, 2+ years after Hurricane Irma struck**" via Rick Neale of FLORIDA TODAY — A pyramid-shaped heap of jagged rubble, discolored mattresses and dented water heaters are all that's left of the three-story Beach House Motel that got its roof scalped by Hurricane Irma in September 2017. JCG Demolition & Construction of Melbourne used an excavator to finally raze the dilapidated, dangerous shuttered structure bordering popular James H. Nance Park. "It's been an eyesore for (nearly) three years. I'm happy that it's being resolved moving forward. And, hopefully, they keep the place safe and clear," Indialantic Town Manager **Michael Casey** said. "There was broken glass and windows all over the place."

AMERICAN OVERSIGHT

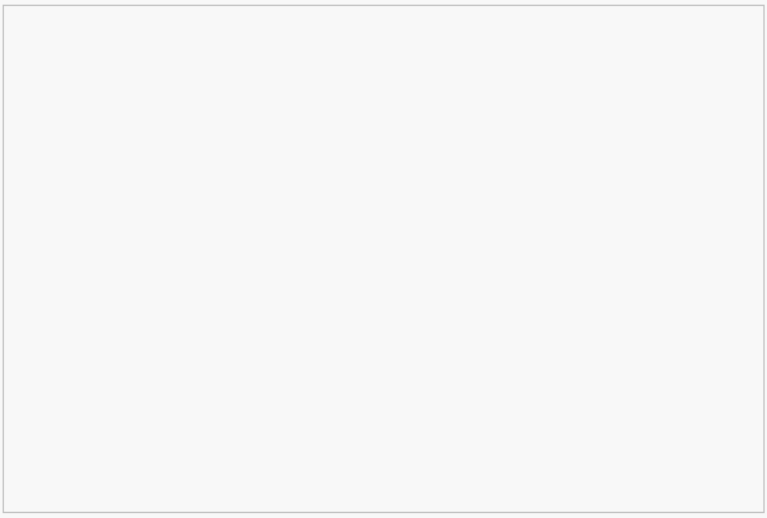
FITN

"Democrats clash on electability and policy in blistering presidential debate" via Matt Viser, Michael Scherer, Chelsea Janes and Cleve Wootson of The Washington Post — With no clear front-runner and four days to go before the New Hampshire primary, seven of the party's leading candidates abandoned the wonky policy contrasts and opaque tonal critiques that had filled the race before Iowa. The debate stage became a free-fire zone instead, the candidates seizing the moment to call each other out. In a sign of the reordering of the Democratic primary race, it was **Bernie Sanders** and **Pete Buttigieg** who often took control of the stage, engaging in impassioned monologues — and seeing their records scrutinized — while rivals raised their hands in the hopes of being called on next. They harped on age and political records, flashed anger, indignation and warned their rivals' policy prescriptions would fail.

The leading Democratic contenders are clashing over electability, policy in a 'free-fire zone.'

"New Hampshire pollsters on high alert after Iowa flop" via Steven Shepard of POLITICO — The University of New Hampshire Survey Center assured CNN — which, along with WMUR-TV, sponsors its pre-primary polling — that everything would work as it should. Unlike the Des Moines Register/CNN/Mediacom poll, which is captained by Iowa pollster **J. Ann Selzer** and contracts with an outside call center to conduct interviews — UNH conducts its polling in-house and closely monitors its procedures. Between the crowded field of candidates, the compressed timeline after an ambiguous Iowa result and Granite Staters' historical penchant for last-minute commitments, the performance of this year's New Hampshire polls could exceed its notorious reputation for volatility. Even UNH pollster Andrew Smith said it's "a fool's errand" to try to nail the results with the final poll.

"NH officials on the primary: We got this" via Kevin Landrigan of the New Hampshire Union Leader — Gov. **Chris Sununu**, Secretary of State **Bill Gardner** and top state and federal prosecutors vow the first-in-the-nation primary will go off without a hitch, though they're prepared for contingencies. During a nearly hourlong news conference, Sununu said the state's "100-year tradition" of fair and transparent elections would continue, and the debacle with the count and reporting of results in Iowa will not happen here. "We have a great record of being right, reliable, and on time, and this time will be no different," Sununu said.

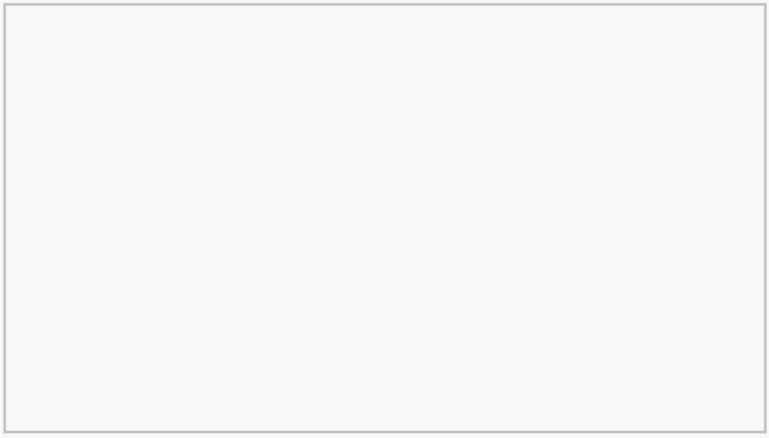


2020

"Joe Biden is collapsing" via Walter Shapiro of The New Republic — In his first words of the debate — the moment when candidates are usually the most scripted — **Biden** confessed, "I took a hit in Iowa, and I'll probably take a hit here." If his comments were a brief misstep in an otherwise smooth debate, it would have been one thing. Biden adopted a combative tone that undercuts one of his most substantial assets as a candidate — his avuncular persona. Biden may merely have been frustrated; the 77-year-old can see himself losing New Hampshire to the dewy Buttigieg (who was born during Biden's second term in the Senate) and to the perpetual left-wing Senate gadfly Bernie Sanders. But he ought to know better.

"Biden shakes up campaign leadership, elevating Anita Dunn" via Katie Glueck and

AMERICAN OVERSIGHT

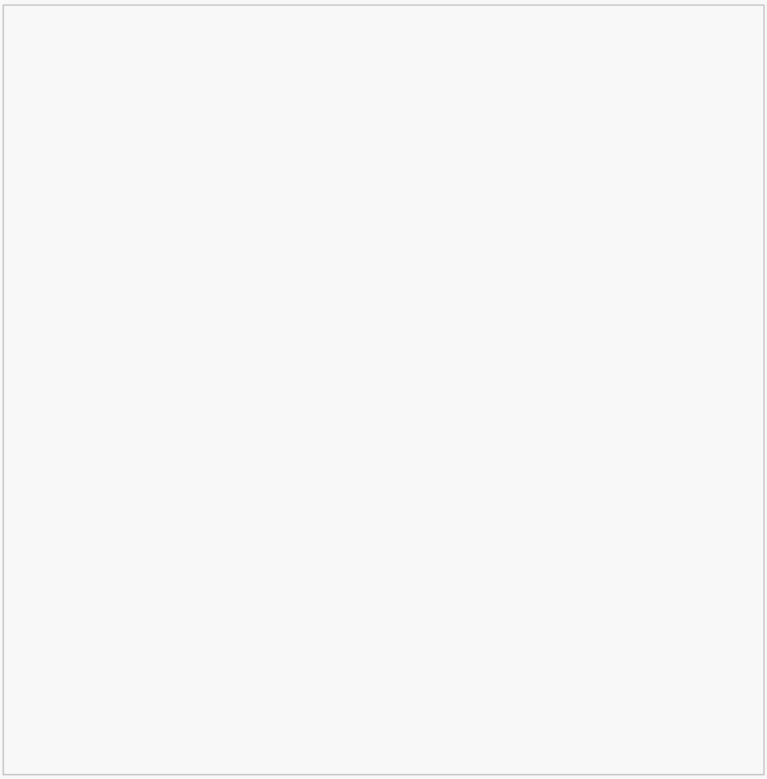


Jonathan Martin of The New York Times — Biden is giving effective control of the campaign to **Dunn**, a veteran Democratic operative and top adviser to him. "She will be working closely with us on campaign strategy and overall coordination on budget and personnel as we build a bigger campaign for the next phase," according to a campaign email obtained by The New York Times. But two senior Biden officials said Dunn is doing more than that — and that she will have final decision-making authority, a decision that came at the behest of the former vice president.

Joe Biden's campaign makes a major shake-up, elevates Anita Dunn to the top adviser.

"**Biden on Pete Buttigieg: 'This guy's not a Barack Obama'**" via Sarah Mucha and Eric Bradner of CNN — Biden mocks Buttigieg's experience as a small-city Mayor in a new digital ad the former vice president's campaign is using on YouTube and Facebook in New Hampshire. The ad opened a bitter new chapter in the Democratic race, with Biden belittling Buttigieg on the campaign trail Saturday and the former Mayor's supporters responding by calling Biden dismissive of those in small cities and towns. Biden, who is attempting to turn around his flagging campaign after a fourth-place finish in Iowa, dismissed comparisons between his attacks on Buttigieg and **Hillary Clinton**'s criticism of then-Sen. **Barack Obama**'s limited experience when the two were primary rivals in 2008. "Oh, come on, man," Biden told reporters in Manchester. "This guy's not a Barack Obama."

To view the ad, **click on the image below**:



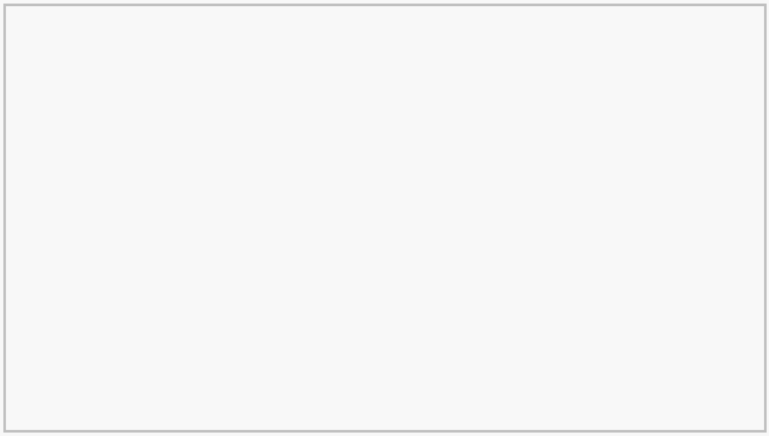
"**Buttigieg reluctantly embraces his barrier-breaking candidacy**" via Ryan Lizza of POLITICO — For the most part, the historical impact of a gay man winning Iowa has been something that has been thrust upon Buttigieg — by the media, by proud gay activists — rather than something that he has boasted about. In recent years there have been vastly different approaches to identity politics in the Democratic Party. The pattern has been that the first to have a realistic shot at breaking a barrier is more circumspect. Buttigieg is in the complicated space of being a barrier breaker: He's willing to celebrate and ruminate on the history when pressed, but being defined as a gay candidate is not part of his strategy to win.

"**Iowa debacle could make Florida primary more important**" via Zac Anderson of the Sarasota Herald-Tribune — Florida Democrats will see 16 names on their presidential primary ballot, including candidates who already have dropped out, such as **Cory Booker** and **Julian Castro**. More candidates likely will drop out before Florida's March 17 primary date, but the ballot had to be finalized back in December to allow time for printing. If the race remains

AMERICAN OVERSIGHT

muddled deep into the primary calendar, Florida could play a key role in the nomination. That scenario looks more likely now, with Iowa's vote-counting problems resulting in the state failing to give the type of big lift or devastating defeat that can help winnow the field.

Tweet, tweet:



"**A Democratic race among mostly white men leaves many women, minorities feeling abandoned**" via Dan Balz of The Washington Post — Despite having two women and an Asian American sharing the stage at the debate in New Hampshire, right now the Democratic race appears to be a contest among two white men in their late 70s, Sanders and former Vice President Biden, and another in his late 30s,Buttigieg. Another septuagenarian, former New York mayor **Mike Bloomberg**, is waiting to pounce, depending on the results of the first four primaries and caucuses. This represents an unexpected turn for a party whose success in the 2018 midterms depended heavily on an outpouring of support and activism by women and whose failure in 2016 was the result, in part at least, of a falloff in turnout among voters of color.

NH horse race

AMERICAN OVERSIGHT

Tomorrow is the New Hampshire primaries, the first actual votes — notwithstanding the Iowa kerfuffle — cast in the 2020 primary season. Here's a rundown of the latest polling leading into the primaries.

Buttigieg is moving slightly ahead of Sanders in New Hampshire, according to a new **Boston Globe/WBZ-TV/Suffolk University poll**. The former South Bend, Indiana, Mayor is leading the Vermont independent Sen. by one percentage point among likely Democratic presidential primary voters. Buttigieg, increased his support in New Hampshire to 25%, versus 24% for Sanders, in the Paul that has a margin of error of plus or minus 4.4 percentage points. Sen. **Elizabeth Warren** saw a small increase to 14% for third place, while former Vice President Biden held steady at 11%.

Polls are showing Pete Buttigieg and Bernie Sanders in a statistical tie in New Hampshire, within the margin of error.

In a February 8 poll from the **Suffolk University Political Research Center**, Sanders takes the lead with 24%, with Buttigieg second with 22%. Warren receives slightly more than 13%, for third place, with Biden at a little over 10%. All other candidates are in the single digits, with about 12% undecided. This poll also has a margin of error of plus or minus 4.4 percentage points.

A **recent NBC News/Marist poll** taken four days before the primary finds Sanders with 25% of likely voters, while Buttigieg gets support from 21%. This puts the two leaders within the poll's 4.7% margin of error. Warren receives 14% (slightly up from the 13% last month), and Biden is fourth with 13% (he had been at 15%).

CNN polling conducted by the University of New Hampshire Survey Center gives Buttigieg a more significant boost in Sanders. However, the Vermont Senator still leads with 28% of likely Democratic primary voters, slightly more than the 25% backing him in mid-January. Buttigieg has risen six points to 21%, while Biden slides five points to 11% and Warren dips to single digits with 9%. Buttigieg's gains come almost entirely at Biden's expense, CNN notes.

AMERICAN OVERSIGHT

The neuroscience of presidential preferences

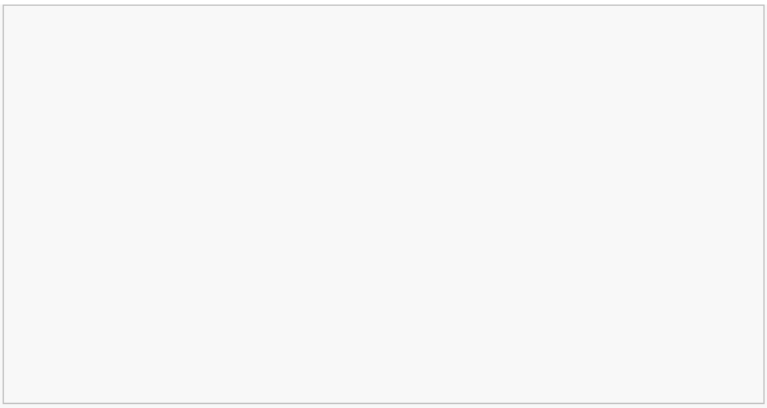
During the 2016 presidential primaries, SPARK Neuro, a company examines brain waves and other physiological signals to understand the subliminal mind, decided to evaluate people's reactions to the Democratic candidates.

As **Sue Halpern writes in The New Yorker**, the company designed a test to learn how people actually felt, as opposed to what they say.

Traditional political polls, a small section of the three-billion-dollar public-opinion-research industry, are often widely conflicting and somewhat unreliable. One reason for this, according to SPARK Neuro CEO **Spencer Gerrol**, is that people tend to say what they think others want to hear — referred to as a "social desirability bias, the innate desire to be liked"— are vulnerable to "groupthink," or they say nothing because they don't want to be judged.

"This is especially problematic in politics," **Gerrol told The New Yorker**, "hence all the errors in polling and all of the mistakes in campaign decisions."

Subconscious feelings are seen as more reliable, because they can't be easily gamed or swayed by outside forces.



"We're not really conscious of our emotions in real-time," Gerrol said. "Our algorithm is not reading minds. It understands if you are paying more attention or less attention and if you have stronger or weaker emotions, and to some degree, what the nature of those emotions are."

"The firm might take on issues, like gun control or climate change, to help advocates craft more effective advertisements, he told me, and has chosen not to take on tobacco companies as clients," **Halpern writes**. "It is currently working with the Department of Defense to understand the specific appeal embedded in terrorists' recruitment materials in order to make equally powerful counter-propaganda."

D.C. matters

"**Donald Trump's post-virus, preelection boom**" via Dion Rabouin of Axios — The Wuhan coronavirus outbreak is already scuttling supply chains and wreaking havoc on companies around the world that do business in China, but if analysts' projections are correct, the rebound from the virus could help propel the U.S. economy to new heights right around the time of the 2020 presidential election. With Trump touting the stock market's performance and job growth as critical accomplishments, that bounceback could play a major role in the election's outcome. S&P Global expects the outbreak to "stabilize globally in April 2020, with virtually no new transmissions in May.

AMERICAN OVERSIGHT

Donald Trump is enjoying a post-virus bump.

"**Trump's Mar-a-Lago: Strikes, tweets and major decisions are made, away from public scrutiny**" via Christine Stapleton of the Palm Beach Post — Presidents dating back to the Founding Fathers have conducted White House business from afar while visiting their hometowns or foreign countries. But Trump has amped up that tradition, conducting domestic and foreign policy actions that have defined his presidency at Mar-a-Lago, Trump's private residence and oceanfront club. Unlike other presidents on holiday from Washington, Trump makes himself accessible to those rich enough to pay his club's $250,000 membership fee, donate large sums to his campaign, attend society fundraisers or stand for hours along a road in rain or heat, hoping to be among the few adoring fans occasionally invited back to Mar-a-Lago for snacks and photos with the president.

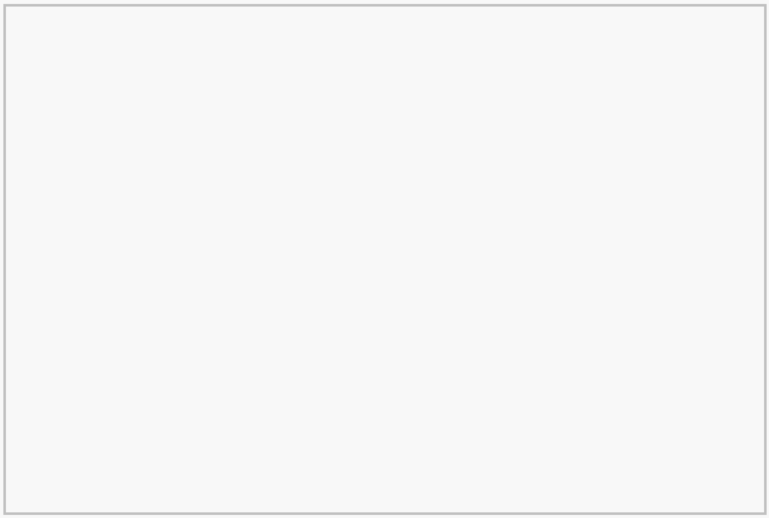
"**Trump impeachment aides leave White House post-acquittal**" via Alayna Treene of Axios — Trump's impeachment gurus, **Tony Sayegh** and **Pam Bondi** are leaving the White House after his acquittal in the Senate. Sayegh and Bondi were hired to run an anti-impeachment war room amid the House impeachment investigation, but now that the president has been acquitted, the two plan to return to their former jobs. Bondi, the former two-term Florida AG, will continue at Ballard Partners, where she chairs the firm's Corporate Regulatory Compliance Practice. **Sayegh**, who had served in a public affairs role for Trump's Treasury Department and has a close relationship with **Ivanka Trump**, **Jared Kushner** and **Donald Trump Jr.**, will return to Teneo as a managing director in New York City.

"**Trump appoints admiral with Miami ties as recovery czar for Puerto Rico**" via Jim Wyss of the Miami Herald — As Puerto Rico is struggling to recover from hurricanes and earthquakes, the White House confirmed that it's appointing U.S. Coast Guard Rear Adm. **Peter Brown** as its liaison for the island. In a statement, the White House said Brown "will coordinate United States Government efforts to build the infrastructure and resiliency of Puerto Rico." The U.S. territory of 3.2 million people has been hit by a series of natural and political disasters in recent years that are strangling its economy. To complicate matters, island authorities have only had access to a fraction of the $48.5 billion in recovery funds that Congress has approved since.

Happening today — Gillum will join representatives of civil-rights groups for a conference call to oppose Trump's nomination of Alabama federal Judge **Andrew Brasher** to the 11th U.S. Circuit Court of Appeals, 11 a.m. Call-in number: 1-877-615-4339. Code: 8967765.

The news comes one day after the Miami-Dade Democratic Party announced they had filed a complaint of their own. The complaint alleged Gaetz violated Florida Bar rules by attempting to barge into closed hearings during the House investigation. A Florida Bar spokesperson said they had not yet received the complaint from the Miami-Dade Democrats. Party Chair **Steve Simeonidis** initiated that complaint. But because a separate file has already been opened, the spokesperson explained the body would not be acting on Simeonidis' complaint either way.

"**Val Demings blasts firing of Lt. Col. Alexander Vindman**" via Antonio Fins of the Palm Beach Post — "The president might fire Lt. Colonel **Vindman**, but he cannot damage the power of truth," **Demings** said in a statement. "He might smear the public servants who stood up to his corruption, but he cannot debase their honor. He might attack the families of those who oppose him, but he cannot weaken their bonds of love and loyalty. With every corrupt act, this president only accentuates the integrity of those who stand against him." Vindman, a key witness in the impeachment inquiry last fall, served as an aide on the National Security Council. He was fired in apparent retaliation by the White House administration for his



AMERICAN OVERSIGHT

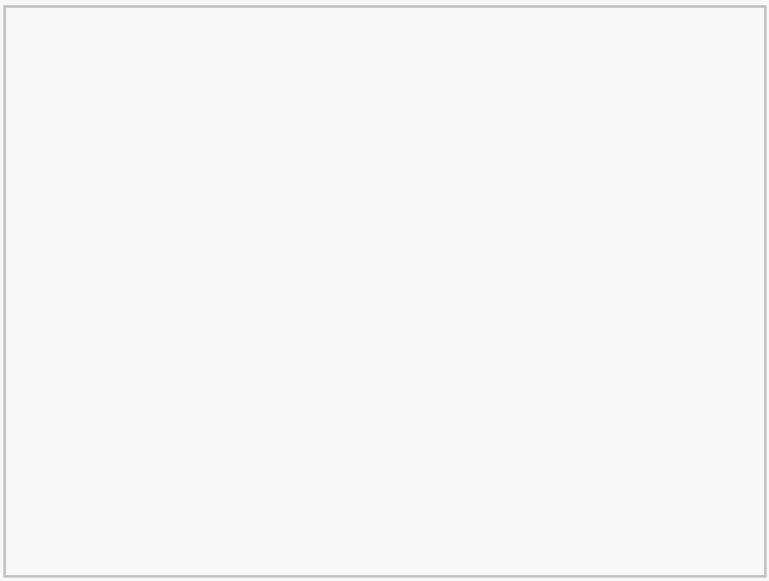
closed-door and public testimony in the Ukraine hearings on Capitol Hill.

The trail

"**There are 62,000 pending citizenship applications in Florida. Here's what that means for 2020**" via Lautaro Grinspan of the Miami Herald — In 2020, bureaucratic delays in processing naturalization applications and an enduring backlog of tens of thousands of pending cases at U.S. Citizenship and Immigration Services (USCIS) could keep scores of would-be Florida voters from the ballot box. For local advocates, that's cause for alarm: "In Florida, we know that elections are won by razor-thin margins," said **Andrea Mercado**, executive director of the New Florida Majority. "So, every vote matters, and every vote from a naturalized citizen matters." As of last September, the national naturalization backlog stood at nearly 650,000 pending applications. In Florida, that number was 62,079 — a more than 75% increase compared to the number of backlogged cases in the state at the same time five years ago.

"**Room for one more: Chelle DiAngelus seeks path in CD 7 Republican field**" via Scott Powers of Florida Politics — The evolving field of Republicans seeking a shot at taking down Democratic Rep. **Stephanie Murphy** in Florida's 7th Congressional District now includes **DiAngelus** who sees a path for someone with experience in the complexities of health care. The Longwood Republican became the seventh active candidate in the CD 7 field after she joined the race last month, a race from which three others already have dropped. She spent most of her professional career as an executive at Florida Hospital, now AdventHealth, including several years as vice president for strategic planning, navigating the hospital company's numerous hospitals, stand-alone emergency rooms, affiliated medical practices, and health care providers through the complexities of the health care market.

Stephanie Murphy draws yet another challenger.



Personnel note: Trey Stapleton joins Amanda Makki's congressional campaign — Stapleton has led statewide and national media efforts for political leaders and government administrations across the nation. In Florida, he helped secure victories for Scott's 2010 gubernatorial campaign, Attorney General Bondi's 2014 reelection campaign, and served as communications director for the Republican Party of Florida. "Amanda has made the American dream her reality, served our country after 9/11, and fought for others throughout her career," Stapleton said. "Her passion to serve and ability to lead are what will make her a great representative for the people of CD 13, and I am honored to be a part of her team." **Makki** praised Stapleton's experience in GOP politics and his service in the United States Air Force.

"**Daughter of football coach Bobby Bowden runs for State Attorney in Okaloosa**" via Jim Little of the Tallahassee Democrat — **Ginger Bowden Madden**, a longtime prosecutor and daughter of famed football coach **Bowden**, has filed to run as State Attorney for the First Judicial Circuit. Madden is currently a prosecutor in Okaloosa County. Madden said: "Our police, sheriffs' offices, and other first responders do a magnificent job as our first line of defense. It is the State Attorney's responsibility to see that work through to its proper conclusion, to put dangerous criminals behind bars and keep our neighborhoods safe." Madden will be running as a Republican against her current boss, Chief Assistant State Attorney **Greg Marcille**, for the top prosecutor job in Escambia, Santa Rosa, Okaloosa and Walton counties.

AMERICAN OVERSIGHT

Local

"**JSO: Van deliberately crashed into Republican registration tent**" via Teresa Stepzinski of the Florida Times-Union — Jacksonville police say a driver intentionally crashed a van through a tent where Duval County GOP volunteers were registering voters Saturday afternoon. Nobody was injured in the incident at the Walmart Supercenter in the Sandalwood neighborhood, Lt. **Larry Gayle** of the Jacksonville Sheriff's Office told reporters. Several Duval County GOP volunteers were working at the registration tent when a white man in his early 20s driving an older brown van pulled up toward the tent. He then drove through the tent, endangering the lives of the workers and damaging the tent and tables, Gayle said. The driver then stopped, got out of the van, and took a video of the scene before he "flipped off" the victims and fled.

A Jacksonville man drove into a GOP voter registration booth.

"**Brandon man arrested after threatening to assassinate Donald Trump**" via News Channel 8 — The Metropolitan Police Department arrested 25-year-old **Roger Hedgpeth** outside the White House. Hedgpeth reportedly approached a U.S. Secret Service police officer on patrol and said, "I am here to assassinate President Donald Trump." He then told the officer he planned to do it with a knife, which the Secret Service officer confiscated after a pat-down search. Hedgpeth was moved to a hospital for a mental health evaluation, where he will be held until further notice. He was arrested for threats to do bodily harm and the possession of a prohibited weapon.

"'**Project Freebird' used meetings at Orange Park resort to craft JEA sales process**" via David Bauerlein of the Florida Times-Union — Newly released documents and interviews with key players in JEA's attempt to potentially sell the utility show how utility executives worked with bankers and attorneys last summer to lay the groundwork for putting the utility up for sale. JEA executives met with outside attorneys and investment bankers who flew into town for three days of sessions last July at The Club Continental, a resort hotel in Orange Park. They even had a code name for the privatization process — Project Freebird — and a timeline that anticipated a referendum in August 2020 for voters to decide if they approved a sale of JEA. All that activity unfolded while the JEA board was saying nothing in public about the possibility of selling JEA.

"**Regrets? On eve of JEA investigation, Council President has a few**" via Mark Woods of the Florida Times-Union — **Scott Wilson** stood on the steps of City Hall and pledged to get to the bottom of all things JEA. Then, even before the committee started meeting, another rock was turned over, a Fan Cam photo unearthed — with the image of Wilson sitting between Mayor **Lenny Curry** and then-JEA CEO **Aaron Zahn**, beverage in hand, at a baseball playoff game in Atlanta. Wilson didn't realize what he was getting into when the Mayor invited him. When he showed up at the airport, he didn't know who else was going — and that once he found out, he should've decided not to go. Yet he still got on the plane. "It was a dumb decision," he said.

"**Another city hit by ransomware attack. This time the police department is the target**" via C. Isaiah Smalls of the Miami Herald — The North Miami Beach Police Department is the latest agency to suffer a cyberattack. City officials confirmed the breach, saying they

AMERICAN OVERSIGHT

discovered the ransomware. The affected computer systems were immediately shut down, but public safety services haven't been interrupted, the city said. "Our Police Department continues to conduct all operations to keep our residents and streets safe," a statement from the city says, "and citizen calls for assistance will continue to be responded to promptly." An ongoing investigation has yet to conclude whether other departments or services were hacked.

"**Pulse survivor research could offer first-ever look at how victims and families move on after tragedy**" via Scott Powers of Florida Politics — The Orlando United Assistance Center, established in the aftermath of the Pulse tragedy, is hoping to reach out to those who survived, immediate family members of those who were slain, and the first responders who were there the morning of June 12, 2016. The results could not only help evolve services but could provide first-ever research on how such populations get on years after tragedy strikes. The center has been the focal point of social and psychological services offered to those three groups. The study, which will include a survey and focus groups, is expected to expand research and responses beyond what has been studied in communities devastated by mass shootings in cities like Aurora, Colorado, and Connecticut.

"**'Pro-life sanctuary' bill blocked from Santa Rosa Commission agenda. Here's why**" via Annie Blanks of the Pensacola News Journal — Santa Rosa County Commissioner Board Chairman **Don Salter** is refusing to put a resolution on the meeting agenda that would declare Santa Rosa County a "pro-life sanctuary," saying the item is too controversial and is above the county's purview. The resolution, which is only symbolic and would proclaim the county as being officially anti-abortion, was proposed by District 2 Commissioner **Bob Cole**. "I think it's too controversial," said Salter, who describes himself as a pro-life Republican. "I think it's above the Board of County Commissioners' purview. Talking with our legal counsel, I think we all feel the same way. We'd be happy to take it up at public forum."

"**Greyhound racing at Sanford Orlando Kennel Club nears end of an era**" via Tobie Nell Perkins of the Orlando Sentinel — The greyhounds still sprint around the track twice as fast as Usain Bolt. They make money for owners, gamblers and track employees for whom dog racing is a way of life. But decades after **Earhart** and **Elvis** came and watched, the sport is fading. The death knell came in November 2018, when Floridians overwhelmingly voted to end greyhound racing. Amendment 13 not only banned the sport but made it constitutionally illegal. That meant all 11 of the Sunshine State's greyhound tracks would have to close their doors by the end of this year. Both racing fanatics and animal welfare activists say the greyhounds will find safe homes. Adoption groups say the waiting lists for dogs are long.

Top Opinion

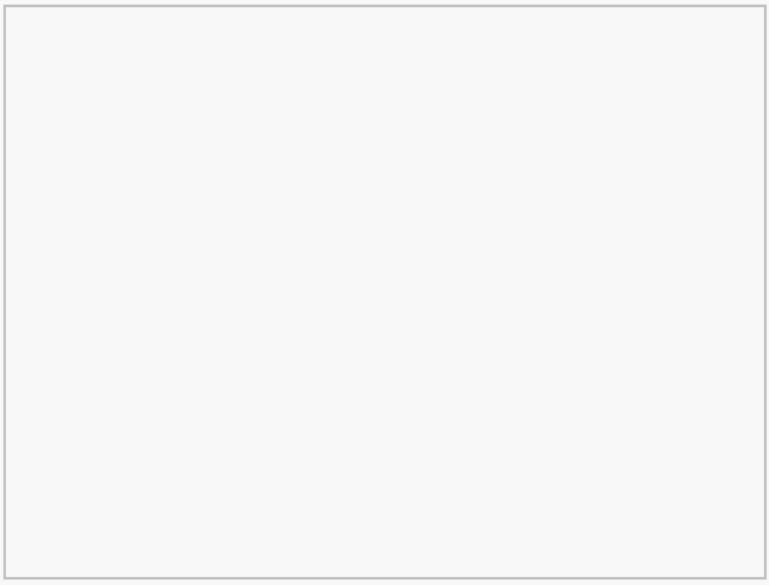
"**Less taxes, less government and more freedom? Not by passing E-Verify mandate**" via Al Cardenas for the South Florida Sun-Sentinel — The mantra of the Republican Party, led by icons like U.S. Sen. **Connie Mack** and Gov. **Jeb Bush**, used to be "less taxes, less government and more personal freedom." The effort to mandate that Florida employers use the federal E-Verify employment eligibility verification system fails in all three of those goals. The E-Verify mandate does not lower the tax burden on Floridians. In fact, while it may not technically be a "tax," it will increase the cost of doing business in Florida and, ultimately, the cost of almost everything we buy. It is a stealth tax for which Florida businesses and consumers will be forced to pay.

AMERICAN OVERSIGHT

Opinions

"**We can't afford a voting rights foe on the 11th circuit**" via Andrew Gillum for the Tampa Bay Times — Senate Majority Leader **Mitch McConnell** moved immediately to resume processing federal judicial nominations. One of those is **Andrew Brasher** for the 11th Circuit, which includes Florida, Alabama and Georgia. Brasher has devoted himself to opposing voting rights. And that makes him an especially bad fit for a circuit in which those rights are under serious attack. For Republicans determined to snuff out voting rights, Brasher is an ace in the hole: As Deputy Alabama Solicitor General, Brasher filed an amicus brief in the Shelby County case in favor of gutting the VRA. As reported by the Alliance for Justice, "Brasher also defended the state's felon anti-voter law that disenfranchised over 286,000 Alabamians, more than half of whom were black."

"**Keep higher-Ed president searches open**" via the South Florida Sun-Sentinel editorial board — The Florida Legislature wants to throw a blanket of secrecy over the searches for the presidents of all 12 state universities and 28 state colleges. The proposal has been around for years, but it's gaining steam this Session and that's not a good sign. The bill is based on a flawed assumption. As Speaker Oliva said secrecy is necessary because "we don't get the best pool of candidates" to run our universities. It is poor public policy to hide the names of people who seek to lead our public universities, control their multibillion-dollar budgets and make decisions that affect the lives of people and communities. As taxpayers, we deserve to know.



"**How tuition vouchers for poor kids became a middle-class entitlement**" via Mac Stipanovich for the Tampa Bay Times — You would expect the Family Empowerment Scholarship Program created last year by the Legislature would have three threshold requirements: the voucher applicant attends a failing public school; the voucher applicant moves to a better private school; and while the families of the voucher applicant need not be as poor as church mice, they at least are not middle class. And you would be wrong. Not one of these things is a requirement for receiving a private school voucher. The many defects in the private school voucher program are vexing from a public policy perspective, but none more so than the purposeful lack of transparency and accountability.

"**Manny Diaz, Jason Fischer: vacation rentals need predictability, uniformity**" via Florida Politics — Vacation rental owners and tourists have been in a state of flux due to rules and regulations that differ from one city or county to the other. That is why we have filed Senate Bill 1128 and House Bill 1011 to create predictable and uniform regulations related to vacation rentals in Florida. The bills will protect homeowners and consumers by clarifying the rules for everyone with a single, statewide system handling vacation rental licensing, inspections and the verification of state tax registrations. This legislation would help all jurisdictions — even those that currently do not have ordinances regulating vacation rentals. The proper place for the regulation of vacation rentals is the DBPR — just like the rest of the hospitality industry.

"**Your independent access to important information threatened by bill in Florida Senate, House**" via Don Coble of Calais Today Online — If Sen.Gruters has his way, you will lose independent access to legal notices. Senate Bill 1340 will be heard at the Judiciary Committee's meeting. Meanwhile, the House's companion bill, HB 7, already has passed through committees and will be heard on the House floor. State law requires each county to post its legal notices with a local publication with paid subscriptions. If SB 1340 and HB 7 are passed, counties no longer would be required to post legal notices, or they could hide them on their own website. That means no oversight to the issues that affect all of us.

AMERICAN OVERSIGHT

"If lawmakers-turned-lobbyists break rules, Legislature should punish" via Steve Bousquet of the South Florida Sun-Sentinel — **Frank Artiles**' career as a member of the Legislature ended very quickly. Still, he dusted himself off and soon returned the way many ex-lawmakers do. He became a lobbyist. But now there are new questions about whether Artiles has run afoul of a rule the House adopted shortly before he left town. Artiles is registered to represent five clients, including Freytech, a Miami company that wants $8 million in the next state budget to remove toxic blue-green algae from Florida waters. The House project request, which directs state money to a specific vendor, lists Artiles as its only lobbyist. If a six-year ban on lobbying by former legislators rings a bell, it should. You probably voted for it.

Frank Artiles is already lobbying the Legislature. Should he be punished?

Personnel note: Foley & Lardner adds on Katie Kelly— **Kelly** has joined Foley & Lardner's State and Local Government Solutions Practice as a public affairs adviser; she will be based in the firm's Tallahassee office. Most recently, Kelly served as Legislative and Governmental Affairs Chief for the Suwannee River Water Management District, where she was responsible for directing the Office of Legislative and Governmental Affairs. In this capacity, Katie served as the liaison to federal and state officials, community leaders to advocate the District's legislative priorities effectively and efficiently. "We welcome Katie Kelly. She will strengthen our ability to serve clients in the Capitol and across Florida," said **Jim McKee**, managing partner of Foley's Tallahassee office.

New and renewed lobbying registrations:

Joshua Aubuchon, Holland & Knight: Dave & Buster's

Albert Balido, Anfield Consulting: Florida Coalition Against Domestic Violence

Taylor Biehl, Capitol Alliance Group: Fraternal & Charitables United

Ronald Brise, Gunster Yoakley & Stewart: Frontier Communications Corporation

Matt Bryan, **David Daniel**, **Thomas Griffin**, **Jeff Hartley**, **Lisa Hurley**, **Jim Naff**, **Teye Reeves**, Smith Bryan & Myers: Florida Urban Medical and Educational Services, Millennia Management Group

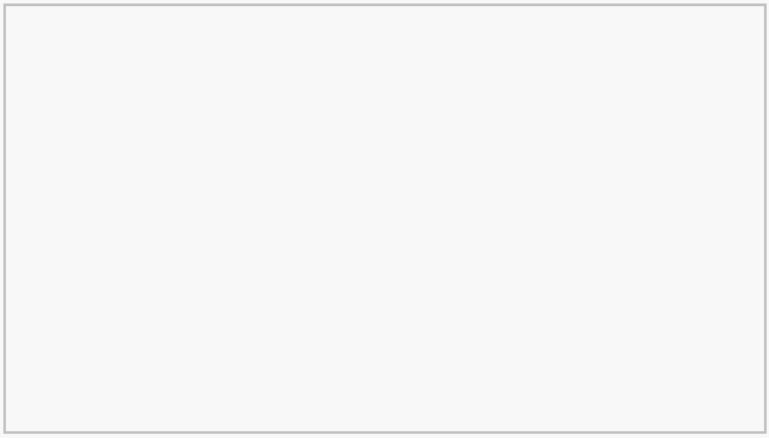
Robert Burleson, Ballard Partners: Continental Heavy Civil Corp

Brecht Heuchan, The Labrador Company: Florida Academy of Anesthesiologist Assistants

James McFaddin, The Southern Group: Non-Secure Programs

David Ramba, Ramba Consulting Group: Kendall Investors 172

Daniel Sibol: PACE Center for Girls



Matthew Ubben, Confianza Consulting: 3MB Construction

AMERICAN OVERSIGHT

Aloe

"**Florida rolling out red carpet for Indies**" via Kristin Fiore of the Villages Daily Sun — In a movie industry dictated by sequels and remakes, independent films are filling a gap that just keeps getting wider. "Audiences are demonstrating that they will support a well-crafted, character-driven independent film, voting with their ticket purchases at the box office," said **Margo Lange**, CEO of ArtAffects Entertainment, a motion picture distribution company. Audiences in The Villages are no exception. More than 50% of the movies shown at Rialto Theatre, Old Mill Playhouse and Barnstorm Theater are indie movies, according to **Deborah Mills**, operations director at The Villages Movie Theaters. "Most independent films that open here end up being No. 1 in the country," added Craig Wolf, manager at Rialto Theatre. "We've gained a reputation. They call us up."

"**PETA claims victory after SeaWorld says no to trainers riding atop dolphins**" via Lori Weisberg of the Los Angeles Times — The decision to move away from such showy theatrics in the dolphin shows was disclosed in a letter sent by a SeaWorld attorney to the Securities and Exchange Commission. The letter was addressing a shareholder proposal made last December by People for the Ethical Treatment of Animals, which asked that SeaWorld prohibit trainers from riding on dolphins' backs and standing on their faces. As of last December, PETA held 163 shares of SeaWorld stock and has owned at least $2,000 worth of common stock for some time.

There will be no more trainers riding dolphins in SeaWorld.

"**Spring training: Time for pitchers, catchers and cheaters**" via Ronald Blum of The Associated Press — This year the players bring along dark clouds of scandal — the 2017 World Series champion Houston Astros have been tainted by their sign-stealing scam and the 2018 champion Boston Red Sox have been accused of similar subversion. Teams hope once workouts start, the stain will fade. "I think those stories lines will weave in and out, but that spring training is that juncture for individual fan bases to be optimistic about what the season ahead holds and it shifts back to that," Toronto Blue Jays President **Mark Shapiro** said. "There's a natural kind of rhythm to spring training that diverts to the positive stories."

Happy birthday

Best wishes to our good friend, **Franco Ripple**, communications director in Fried's office. Also celebrating today are **Carrie Henriquez**, **Celeste Lewis-Hemanes**, and **Jamie Wilson.** Belated wishes to Pinellas GOP Chairman **Todd Jennings** and **Brian Swensen**.

Victoria,

Attached is a bill and talking points that we discussed with the Senator when he met with our swimming pool folks. Kyle in McClure's office has placed it into bill drafting on his end. Below are the talking points and attached bill language for you. Please call me should you have any questions prior to filing.

AMERICAN OVERSIGHT

Swimming Pool Contracting

- Any person who is not required to be licensed as a contractor under state law may perform residential contracting services without a local license under the supervision of a general, building, or residential contractor. This law is known as the Jim Walters exemption.

- The Jim Walters exemption ensures Florida's construction industry is able to safely and economically complete projects without being stifled by unnecessary government regulations.

- Swimming pool contractors are similar to general, building, and residential contractors because they are generally responsible for the entire project, from the first turn of dirt to final completion of the project.

- Unlike general, building, and residential contractors, however, swimming pool contractors are not covered by the Jim Walters exemption. Instead, they are restricted in their use of subcontractors to specialty contractors. Licenses for these specialty contractors were created by agency rule and include areas such as decking, excavation, piping, and trim.

- While specialty licenses were created to allow swimming pool contractors to subcontract their work, specialty licenses have become an unnecessary chokehold restricting job and wage growth because of significant shortage of specialty contractors statewide. There are only 351 specialty contractor licensees for nearly 4,000 swimming pool contractors, and growth has been anemic with just 75 new licensees in the last four years.

- The proposed bill will generate growth in jobs and wages by allowing swimming pool contractors to use individuals who are not required to be licensed as a contractor under state law. Similar to the Jim Walters exemption, safety and quality will be ensured by requiring oversight of these individuals by a licensed swimming pool contractor.

AMERICAN OVERSIGHT

A bill to be entitled

An act relating to swimming pool contractors; amending s. 489.117, F.S.; providing for the performance of contracting services by a person under supervision of specified contractors; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (e) is added to subsection (4) of section 489.117, Florida Statutes, to read:

489.117 Registration; specialty contractors.—

(4)(e) Any person who is not required to obtain registration or certification pursuant to s. 489.105(3)(d)-(i) or s. 489.105(3)(m)-(o) may perform contracting services for the construction, remodeling, repair, or improvement of commercial or residential swimming pools, spas, or interactive water features, as defined in the Florida Building Code, without obtaining a local professional license or specialty swimming pool subcontractor license if such person is under supervision by, and performing contracting services within the scope of, a person certified or registered under s. 489.105(3)(j)-(l). As used in this paragraph, supervision shall not be deemed to require the existence of a direct contract between a person certified or registered under s. 489.105(3)(j)-(l) and the person performing specialty contracting services.

Section 2. This act shall take effect July 1, 2020.

Chair-

It was great chatting with you this morning. Below are some thoughts my team put together for you to consider tonight. Happy to add more if you'd like.

Talking Points for Tampa Bay Times Interview

- Amendment 4 implementation
  - The supporters of Amendment 4 got tongue tied before the Supreme Court this morning and didn't appear to have a good day explaining why they were for including fees & fines, before they were against it.
  - The question the legislature had to answer when implementing this amendment was simple: Should court fees & fines be required prior to restoration. To us, the plain reading of the amendment suggested it should because "all terms of the sentence" means "all terms."
  - This issue is the media's version of the Puerto Rican influx story back in 2017 due to devasting impacts of Hurricane Maria on the island. Former felon voters aren't their key to success when they remain out of touch with a right of center state.
- Voter Reg
  - Republicans were down -538k registrants to the Democrats in 2012. That also happens to be the last time the Democrats won a top-ticket state wide election in Florida.
  - Since 2012, we've managed to cut that margin in half (today we're -241k), and we're doing a better job of turning our voters out.
  - Furthermore we've defeated the Democrats in 20 of the 35 months since the books closed on voter registration for the 2016 election. And the Democrats and their allies have been utilizing paid voter registration efforts during that time, while our growth has been organic.
  - I would also point out that nearly 2-1 more Democrats have become Republicans, than Republicans have become Democrats in that same time period. (107k D's - R's as compared to 65k R's become D).
- What do the Virginia & Kentucky results mean for Florida
  - In short, nothing.
  - Virginia has been trending blue since President Bush won it in 2004. The beltway is growing and the higher educated white voter in Virginia looks more like their counterpart in New York or California than in Florida.
  - In Kentucky, candidates still matter and unfortunately for Governor Bevin, his job approval seems to have caught up with him.

AMERICAN OVERSIGHT

- If you look down ballot, we defeated the Democrats in every cabinet level race by an average of 15%.
    - Governor Bevin lost by .4% or ~5k votes
    - AG: +15%
    - AG Commissioner +20%
    - Auditor +15%
    - Secretary of State +5%
    - Treasurer +21%

- In essence the results last night suggest we can move Kentucky from Safe Trump to Safe Trump, as Leader McConnell will win reelection in Kentucky and the President will win Kentucky.

- Trump in Florida
    - It is with a great honor that we can now call President Trump both a resident of the state of Florida and a constituent of Governor DeSantis.

    - Florida is doing extremely well, and our low tax state has become a desirable destination for the rest of the country. Even Joe Scarborough and Mika Brzenski have taken residency here in Florida (and even voted here in 2018,) fleeing highly taxed states such as New York. They understand all the wonderful benefits that our great state has to offer.

    - Our private polling data continues suggest the President's coalition of voters remains intact in Florida, and we're actually doing better with Hispanics than we did back in 2016.

    - The impeachment mess in Washington is the best turnout motivator we could have asked for.

- Governor DeSantis
    - Today marks one year after Governor DeSantis' historic election victory. But instead of taking a victory lap, we took no time off in getting straight to work.

    - His hard work is being recognized by the voters as evidenced by such impressive job approval numbers that transcend party lines.

Call me if you have any questions.

The Gulf Coast Builders Exchange (GCBX), represents a broad cross section of the commercial building industry, including contractors, subcontractors, suppliers and others from affiliated industries

GCBX's advocacy efforts on behalf of the building industry are conducted in Manatee, Sarasota and Charlotte Counties. Wholly owned by the membership, the Builders Exchange is a not-for-profit corporation operating as a trade organization under the guidance of a volunteer board of directors as representatives of the industry.

News

Manatee County's food banks are being shorted

At GCBX we support local and what better time to come together as a community than the holidays! Let's show them what local is all about and be the leading force in filling our local food banks this holiday season. We know how generous our members are year round and we wanted to come together to support eachother, our local businesses and the local community.

Help us fill the GCBX Office by next Friday, December 20th at Noon.The Food Bank of Manatee County is asking for nonperishable, nutritious food options that they can provide to the community for the holiday season and beyond.

Critically needed items include: canned vegetables, baby cereal & formula, canned fruits, peanut butter, jelly, boxed rice, boxed pasta, canned soups, canned meat, 100% fruit juices, breakfast bars, oatmeal, powdered milk, apple sauce, dried beans, trail mix, and healthy cereals. Please avoid glass containers. 100% of the food collected stays in Manatee County.

GATES Construction Completes Downtown Sarasota Luxury Condominium

GATES Construction has completed 7 One One Palm, a boutique condominium of 16 residences. Located in Sarasota's vibrant and most desirable downtown neighborhood at 711 S. Palm Avenue in Sarasota, the address offers convenient access to Burns Square, South Palm Avenue, State and Main Streets, Island Park and the Bayfront Marina. The 5-story building features 3 bedroom, 3 bath luxury residences with semi-private elevator foyers gourmet kitchens, and spacious terraces. Amenities include a covered parking garage and private storage lockers, over sized pool, spa, private cabanas, fitness center, and a Paw Park. Residents can relax in the resort-style hideaway enjoying the gas grills and fireside tables. Architectural and design services were provided by DSDG Architects.

Sutter Roofing secures contracts for high-profile West Coast Projects

Sutter Roofing Company has secured contracts on several large projects in our region. The firm will be performing the roofing and sheet metal work on the new Sarasota Memorial Hospital Venice facility as well as the new Oncology Center Tower on the hospital's main campus. The firm also recently completed the new USF Morsani College of Medicine Tower in downtown Tampa. "We are very honored to be selected as the roofing contractor for these great healthcare projects for our region" remarked company President Doug Sutter. "Our relationship with the General Contractors, USF, and Sarasota Memorial is long-standing and we will excel on these projects for these great clients."

Glitches in California embolden automatic voter registration foes

Stateline

At a time when momentum around automatic voter registration is building, the latest struggles in California have emboldened critics who have long held that the system could allow noncitizens to vote, even as officials and experts point out that's happened only a handful of times. **NCSL research cited.**

Governor Ron DeSantis Announces Florida's Membership in the Electronic Registration Information Center to Enhance Election Security & Ensure Accurate Voter Rolls

Information-Sharing Agreement Will Reduce Voter Fraud, Improve Customer Service, and Reduce Administrative Costs for Supervisors of Elections

Tallahassee, Fla. – Today, Governor Ron DeSantis and Secretary of State Laurel Lee announced that Florida has been accepted for membership, along with 29 other members, into the Electronic Registration Information Center (ERIC), a multi-state partnership that uses a sophisticated data-matching tool to enhance the accuracy of voter registration systems.

"My administration is committed to protecting the integrity of Florida's voter rolls and preventing election fraud,"**said Governor DeSantis.** "As a member of ERIC, Florida is now equipped with more tools to further ensure accurate voter rolls, make voting easier and reduce costs to taxpayers."

Through ERIC, member states can share information from voter registration systems, motor vehicle databases, social security death records, and U.S. Post Office records. This data-sharing agreement will help identify voters who have moved to another state, passed away, or changed their name in Florida.

In addition to enhancing the accuracy of voter rolls, ERIC also improves voter registration by providing information for member states to contact potentially eligible but unregistered voters with instructions on how to register to vote. Prior to the 2020 general election, Florida will spend $1.3 million to contact potentially eligible voter who are not registered to vote. This outreach is conducted every two years ahead of federal general elections.

"I have heard strong support for joining ERIC from supervisors of elections all over Florida, and I am excited to provide them with one more tool to serve voters in Florida,"
said Florida Secretary of State Laurel M. Lee."Joining ERIC keeps Florida at the forefront of election security and will help us ensure fair and accurate election in 2020 and beyond."

Governor DeSantis included in his 2020-2021 recommended budget to the Florida Legislature the necessary funding to move forward with joining ERIC, which includes annual dues estimated at $75,000 and an estimated $1.3 million to conduct outreach to potentially eligible but unregistered voters through a direct mailer. Florida's full participation in ERIC prior to the 2020 elections will be contingent upon receiving funding from the Legislature.

Since taking office, Governor DeSantis has made securing Florida's elections and protecting voter information a top priority. Through his leadership this year, Florida has made significant investments in election security and has enhanced collaboration between the Florida Department of State and Florida's 67 local Supervisors of Elections.

Governor Ron DeSantis Announces His Bolder, Brighter, Better Future Budget for FY 2020-2021

www.BolderBrighterBetterFuture.com

Tallahassee, Fla. — Today, Governor Ron DeSantis released his budget proposal for FY 2020-2021, a Bolder, Brighter, Better Future.

"My budget proposal for Fiscal Year 2020-2021 builds on our successes of the past year, placing emphasis where it is needed while remaining fiscally responsible to Florida taxpayers," **said Governor DeSantis.** "The budget includes key investments in our K-12 education system, our environment and the well-being of our residents, while recommending over $480 million in savings and over $300 million in tax relief. Although there is still more we can do to improve our state, which we hope to accomplish through this budget, Florida's future has never been bolder, brighter or better than it is today."

Savings and Tax Relief

The total recommendation for the FY 2020-2021 budget is $91.4 billion. The budget recommends $480.5 million in savings – such as administrative efficiencies and elimination of earmarks.

The budget places $5.6 billion in total reserves, including $1.4 billion of General Revenue, which is more than 6 percent of the total budget and more than $200 million more than the current year budget.

The budget also includes more than $300 million in tax relief, including a $56 million 8-day Back to School Sales Tax Holiday, a 10-day Disaster Preparedness Sales Tax Holiday and property tax relief of over $247 million.

Education

The Bolder, Brighter, Better Future budget makes historic investments in the state's education system, including $22.9 billion for the Florida Education Finance Program (FEDP), an increase of over $1 billion.

This includes over $900 million to recruit and retain the best classroom teachers and principals in Florida. Over $600 million is included to raise the minimum salary for full-time classroom teachers to $47,500, which would provide more than 101,000 teachers with a pay raise. Additionally, $300 million is recommended for the Florida Classroom Teacher and Principal Bonus programs.

The budget invests $25 million in key workforce development initiatives: $10 million for the Pathways to Careers Opportunities Grant Program, $10 million for the Work Florida Student Success Incentive Fund at State Colleges and $5 million for the Work Florida Student Success Incentive Fund at District Postsecondary Programs.

The budget recommends an increase of funding of more than $22 million for Florida college and nearly $24 million for Florida universities, all while maintaining no increase in tuition.

Environment

The budget continues Governor DeSantis' focus on Florida's environment and builds on the success of last year. The budget includes more than $625 million in recurring funding for Everglades restoration and the protection of vital water resources, positioning Florida to be able to reach the Governor's goal of investing $2.5 billion over four years.

Included in the more than $625 million investment is more than $322 million for Everglades restoration projects, $150 million for water quality improvements, $50 million for springs restoration and more than $22 million to combat the harmful effects of algal blooms and red tide.

AMERICAN OVERSIGHT

The budget also invests $50 million in beach nourishment to address Florida's critically eroded shorelines, nearly $9 million in coral reef protection funding, as well as $154 million to protect Florida's prized properties and water: $100 million for the Florida Forever Program and $54 million in new funding for state parks.

Health and Human Services

The budget makes significant investments in the well-being of Floridians and protecting the most vulnerable. Over $54 million is recommended to continue fighting the opioid epidemic, and $17 million is provided in new mental health and substance abuse funding.

In an effort to increase accountability, the Bolder, Brighter, Better Future budget invests over $97 million to provide funding for services to children and families through Florida's child welfare system.

The budget provides $6.4 million in new funding to support the Office of Public and Professional Guardianship, as well as $10 million in funding to enrich the needs of seniors in Florida's communities and enhance the quality of life for individuals with Alzheimer's disease and related dementia and ending abuse, neglect and exploitation of seniors.

To ensure Florida's veterans are receiving the care they deserve, the budget invests $18.2 million for the completion of the Ardie R. Copas State Veterans' Nursing Home in St. Lucie County and the Lake Baldwin State Veterans' Nursing Home in Orange County, as well as $6.7 million for capital improvements, equipment updates and additional nursing staff for Florida's existing state veteran nursing homes.

Transportation and Economic Development

While Florida's economy remains strong, finding affordable housing can still be a challenge. The budget provides $387 million to fully fund Workforce and Affordable Housing Programs: $119.8 million for the State Apartment Incentive Loan (SAIL) Program and $267.2 million for the State Housing Initiative Partnership (SHIP) Program.

As Florida's population continues to increase, key investments must be made to handle this growth and ensure continued efficiency. The budget provides $8.8 billion for the State Transportation Work Program, including $2.8 billion for highway construction, $865.7 million in lane resurfacing and $436.2 million in scheduled repairs and replacement of bridges.

The Bolder, Brighter, Better Future budget includes $50 million for the Florida Job Growth Grant Fund to provide funding for job training and public infrastructure projects that support growth and employment in Florida.

Hurricane Recovery

For the two most recent hurricanes to strike Florida, Irma and Michael, the State of Florida is projected to spend over $1.9 billion on hurricane-related expenses - $627.8 million for Hurricane Irma and $1.3 billion so far for Hurricane Michael.

The Bolder, Brighter, Better Future budget includes $25 million through the Hurricane Michael Recovery Grant Program for the repair and replacement of critical infrastructure and to improve the capacity of emergency services.

Public Safety

Early in his term, Governor DeSantis directed Florida Department of Law Enforcement (FDLE) Commissioner Rick Swearingen to develop a threat assessment strategy to identify and prevent threats of mass violence. Building on this, the budget includes over $4.5 million to implement the first Statewide Behavior Threat Assessment strategy in the country.

The budget also invests more than $14.5 million to expand and enhance FDLE's crime databases that the department uses daily to investigate crimes and apprehend criminals.

Governor DeSantis is recommending over $89.7 million and additional staffing at the Florida Department of Corrections for needed improvements, including retention bonuses and a pilot program to transition correctional officers from a 12-hour shift to an 8.5-hour shift.

Elections Security

With the 2020 elections getting closer, the Bolder, Brighter, Better Future budget recommends $6.6 million for state-level election oversight activities, with a focus on cybersecurity enhancements to Florida's election system.

Includes in this funding is $1.3 million for ten positions dedicated to cyber security who will provide local Supervisors of Elections with support and recommendations to combat cyber threats. Also included is $1.4 million for voter registration list maintenance services and voter outreach through the Electronic Registration Information Center (ERIC).

For more details on Governor DeSantis' Bolder, Brighter, Better Future budget, please visit www.BolderBrighterBetterFuture.com.

Governor Ron DeSantis Announces the Opening of Registration for the 2020 Python Challenge™ Python Bowl

Miami, Fla. — Today, Governor Ron DeSantis announced the opening of registration for the 2020 Python Challenge™ Python Bowl. The State of Florida has teamed up with the Miami Super Bowl Host Committee and other partners to support the Committee's Ocean to Everglades (O2E) initiative. The Python Bowl will begin January 10th and members of the public will sign up for training, then compete to remove as many snakes as possible from the wild.

The Governor also announced that python contractors will now have access to over 150 miles of secondary trails within Big Cypress National Park. This will begin immediately and positively impact the scope of the Python Challenge™ competition.

"The protection of our environment and natural resources is critical,"**said Governor DeSantis.** "Invasive Burmese pythons have decimated local wildlife and pose a massive threat to natural food chains and flora and fauna. The 2020 Python Bowl is sure to be a great success, and I look forward to the positive effects it will have on preserving and protecting the Everglades ecosystem."

Photo Credit: Governor's Press Office

"This is not a case of many different agencies doing their own thing, this is one mission supported by a diverse portfolio of assets of different partners, including the sportsmen and women that dedicate so much of their time and effort for conservation," **said Florida Fish and Wildlife Conservation Commission (FWC) Executive Director Eric Sutton.**"As a conservation biologist, it is exciting to be completely aligned with our policy-makers including FWC Commissioners and the governor to combat this important conservation issue."

"We know Governor DeSantis and many partners have long been committed to environmental initiatives like this,"**said FWC Commissioner Rodney Barreto.** "With the support of the Miami Super Bowl Committee, we now have a broader audience ready to learn more about the unique ecosystem of South Florida and how they can help conserve it."

"Governor Ron DeSantis is making a difference in restoring the Everglades and tackling Florida's python problem,"**said South Florida Water Management District (SFWMD) Executive Director Drew Bartlett.**"Along with record-setting recommendations for Everglades restoration funding, the Governor is directing more resources and putting new energy into removing these harmful pythons from the Greater Everglades Ecosystem."

AMERICAN OVERSIGHT

“Governor DeSantis’ strong commitment to Everglades restoration is remarkable,”**said SFWMD Governing Board Member “Alligator Ron” Bergeron.** “Harmful pythons disrupt the natural food chain and prey on native wildlife that depend on the Everglades. With his leadership, Florida is doing more than it ever has to remove pythons from the Everglades and protect this ecosystem for generations to come.”

About the Python Challenge Python Bowl
To register for the Florida Python Challenge™, members of the public must first complete an online training. There are also opportunities for optional in-person trainings that include a hands-on component where the public can learn to identify pythons and practice safe handling and capturing techniques.

Anyone can sign up for in-person trainings even if they are not participating in Python Challenge™. Click here to register for the competition, sign up for training, learn more about Burmese pythons and the unique Everglades ecosystem, and find resources for planning your trip to south Florida to participate in the Python Challenge™.

About invasive Burmese pythons
Burmese pythons are not native to Florida and negatively impact native species. They are found primarily in and around the Everglades ecosystem in south Florida where they prey on birds, mammals and other reptiles. A female Burmese python may lay 50 to 100 eggs at a time. As of Nov.14, 2019, there have been a total of 9,305 Burmese pythons removed from the state of Florida.

Governor Ron DeSantis Highlights Major Accomplishments of 2019

Tallahassee, Fla. – Today, Governor Ron DeSantis reflected on his administration's major accomplishments during his first year in office. The Governor has delivered on the promise that he made to Floridians upon taking office in January, tackling issues that are important to Floridians and the well-being of our state, now and well into the future.

Governor Ron DeSantis said, "2019 was an incredible year for Florida. We have achieved historic accomplishments that are of the utmost importance to Floridians and will bring our state to the next level. In conjunction with the Florida Legislature and our federal, state and local partners, we were able to secure major successes for the environment, education, hurricane recovery, economic development, public safety, military, health care and much more.

"The First Lady and I appreciate the support we have received over the past year. Every day, I wake up grateful for the opportunity to go to work on behalf of Floridians. While we can reflect and be proud of these accomplishments, there is always more that can be done. Looking ahead as we enter the new year, I am excited for our next chapter, as Florida's future has never been brighter."

Major accomplishments of Governor DeSantis' Administration include the following:

EDUCATION

- Record investments in our state's education system, including:
  - The highest ever per-pupil spending at $7,672 per student. This includes an increase of over $242 per student – the largest increase since FY 2013-14.
  - The highest ever K-12 public school funding with $21.8 billion in state and local funding.

- Historic expansion in school choice options for Florida families:
  - Created the Family Empowerment Scholarship Program, which expands educational opportunities for children of families with limited financial resources.
  - Invested over $147 million in funding for the Gardiner Scholarship, which enabled students on the waitlist to be served and created a pathway to clear the waiting list for the Florida Tax Credit Scholarship.

- Issued Executive Order 19-31, which charts a course to make Florida number one in workforce education by 2030 by requiring an annual review of Career and Technical Education courses and the development of best practices to ensure that course offerings are aligned with market demands.

- Issued Executive Order 19-32, which outlines a path for Florida to improve its education system by eliminating Common Core and by strengthening civics education. Standards revisions are currently underway as the Department of Education has recently embarked on a statewide listening tour to hear stakeholder input.

- Invested $10 million in funding for the newly created Florida Pathways to Career Opportunities Grant Program to establish or expand pre-apprenticeship and apprenticeship programs for high school and college students.

- Invested $10 million in funding to support teacher professional development in computer science and reward those teachers for earning credentials to teach high-quality computer science courses.

- Created the Last Mile College Completion Program, which helps students who left college with 12 or fewer credit hours remaining, to complete their first associate or baccalaureate degree.

- Called on state colleges and universities to adopt a free speech resolution to ensure that a free and open exchange of ideas and robust civil discourse is encouraged and protected.

- First Lady Casey DeSantis successfully advocated for the State Board of Education to require every Florida public school

AMERICAN OVERSIGHT

to provide students in grades 6-12 at least five hours of mental health instruction.

- Maintained Florida's higher education system standing in national rankings:
  - This year, Florida was ranked by *U.S. News and World Report* as the top state in the nation for higher education for the third consecutive year. The University of Florida and Florida State University were ranked the #7 and #18 public university in the country, respectively.

ENVIRONMENT

- Secured over $625 million for Everglades Restoration and protection of our vital water resources, putting us well on the way to reaching our goal of $2.5 billion over four years. This year's funding includes:
  - Over $400 million for Everglades restoration – the highest amount of Everglades funding ever;
  - $40 million for the Florida Department of Transportation to expedite the completion of the Tamiami Trail and restore the flow of clean water south;
  - $100 million for springs restoration;
  - $50 million for targeted water quality improvements;
  - $40 million for alternative water supply; and
  - $25 million to combat blue-green algae and red tide.

- Received $60 million in federal support for the Tamiami Trail raising and began the process of removing the old roadbed.

- Created the Blue-Green Algae Task Force consisting of five expert researchers and leading scientists, which released its first report this fall.

- Appointed the state's first Chief Science Officer and first Chief Resilience Officer.

- Established the Office of Environmental Accountability and Transparency and the Office of Resilience and Coastal Protection.

- Submitted the state's plan for the $166 million in Volkswagen Settlement, focusing on reducing diesel emissions for school and transit buses and expanding our electric vehicle charging infrastructure.

- Restored the Red Tide Task Force, which had been dormant for over 15 years.

- Moved the Environmental crimes unit from the Florida Fish and Wildlife Conservation Commission to the Department of Environmental Protection to strengthen enforcement actions.

- Expedited the Everglades Agricultural Area Reservoir, broke ground on the C-43 Reservoir and activated the C-44 Stormwater Treatment Area.

- Successfully lobbied President Trump to increase his request from $67 million to $200 million for South Florida Ecosystem Restoration, which Congress agreed to fund.

- Approved acquisition of ten Florida Forever parcels totaling more than 15,000 acres in conservation lands.

- Received an unprecedented fourth National Gold Medal Award for Excellence in Park and Recreation Management.

- Increased efforts to remove invasive Burmese pythons from the Everglades.

- Added Canal Restoration as priority for the Florida Keys Area of Critical State Concern program and directed the Department of Economic Opportunity to begin developing a Canal Restoration Work Program that will set forth a definitive timeline for canal restoration with essential milestones for the completion of the project.

HEALTHCARE

- Protected the will of voters by calling for and signing into law legislation to allow for the smoking of medical marijuana.

- Worked with President Trump, the U.S. Department of Health and Human Services and the Florida Legislature to develop a plan for the safe and affordable importation of prescription drugs from Canada.

- Signed into law the Patient Savings Act, which allows consumers to receive rewards for choosing low-cost, high-quality medical services.

- Directed the implementation of Shared Savings Program for the State Group Health Insurance Program, rewarding employees and their dependents enrolled in a State Group Insurance plan for selecting more affordable health services.

- Directed the Agency for Health Care Administration to expedite the health care transparency portal to make healthcare pricing available to Floridians sooner.

AMERICAN OVERSIGHT

· Created the Opioid Task Force and secured over $120 million to fight the opioid epidemic.

· First Lady Casey DeSantis established the Hope for Healing Florida Initiative
  - The *Hope for Healing Florida* initiative is a multi-agency mental health and substance abuse campaign designed to bring stakeholders together to find real solutions to mental health problems in our state.

· Signed legislation to repeal the state's Certificate of Need law, encouraging competition to reduce healthcare costs and improve quality.

· Signed legislation that establishes a framework for Floridians to receive telehealth services in Florida, expanding access to healthcare through the use of innovative technologies.

· Prioritized the support of Floridians living with Alzheimer's Disease, including directing the Department of Health to add Alzheimer's and related dementias as a priority within the state health improvement plan.

ECONOMIC AND BUSINESS DEVELOPMENT

- Led an unprecedented business development trade mission to Israel and hosted a historic meeting of Cabinet members in Jerusalem. The trade mission included the signing of over 20 strategic partnerships and Memorandums of Understanding.

- Advocated for full funding of the Sadowski housing trust fund— and secured $115 million specifically for Hurricane Michael housing recovery needs.

- Announced an initiative to develop "Fintech" academies at our state colleges and technical centers and awarded the first grant for such an academy through the Florida Job Growth Grant Fund.

- Announced a job growth grant fund award of $2.86 million for two roads in Panama City to help promote development, support job creation and workforce retention

- Announced nearly $4 million to the Melbourne Airport Authority for infrastructure improvements at the Orlando Melbourne International Airport through the Florida Job Growth Grant Fund.

- Made numerous announcements for Florida's aviation and aerospace industries:
  - Firefly Aerospace Inc.
    - § This is part of a multi-year $52 million project that is expected to generate over 200 jobs.
  - Boeing Space and Launch Headquarters
    - § Boeing announced that it is moving its Space and Launch Headquarters from Arlington, Va. to Titusville on Florida's Space Coast.
  - Lockheed Martin Fleet Ballistic Missile Program Headquarters
    - § Establishing this new site is one milestone in the larger move of more than 300 jobs to the Space Coast area, expanding Lockheed Martin's already significant presence.
  - One Web Satellites new production facility
    - § The 105,500 square foot production facility, which has two production lines capable of producing two satellites a day, is helping to revitalize Florida's Space Coast with 250 new high-tech jobs and 3,000 indirect jobs through the supply chain.
  - United Airlines selected Tampa for a new aircraft maintenance facility
    - § This Tampa project is expected to have an economic impact of more than $30 million and create 40 new high-wage jobs as Florida continues to lead in the aviation industry.
  - Spirit Airlines Headquarters
    - § Announced its intention to build a new state-of-the-art global headquarters complex in Dania Beach, creating 225 jobs for Floridians.
  - CAE USA Headquarters
    - § The new 290,000 square-foot facility will be located on Tampa International Airport property. It is expected to open in 2022.
  - JetBlue Travel Products Subsidiary, "Inspiration Center"
    - § The new Inspiration Center is an open and collaborative environment with a live experimental space where JetBlue Travel Products will test new travel concepts.

· Announced groundbreaking for the state's first Buc-ee's.
  - The Buc-ee's will be a 53,000-square foot travel plaza coming to the interchange of Interstate 95 and LPGA Boulevard in Daytona Beach.

· Announced Opening of CareComm at Tampa General.
  - The center features 20 artificial intelligence apps, 38 large screens with some being touch screens, 32 workstations and a conference room.

· Directed Enterprise Florida, Inc. to include opportunity zone information in their materials and strategy for business

AMERICAN OVERSIGHT

recruitment.

- Created the Talent Development Council to develop a coordinated, data-driven, statewide approach to meeting Florida's needs for a 21st-century workforce that employers and educators use as part of Florida's talent supply system.

HURRICANE RECOVERY

- Directed the Florida Division of Emergency Management to expedite hurricane recovery reimbursements, of which the Division has now paid out over $1 billion since January 2019.
  - $672 million for Hurricane Irma;
  - $422 million for Hurricane Michael;
  - More than $44 million for Hurricanes Hermine and Matthew.

- Hurricane Michael
  - Requested and received 45 days of 100 percent federal cost share for Hurricane Michael debris removal and emergency protective measures.
  - Requested and received 90 percent federal cost share for Hurricane Michael.
  - Secured and delivered 100 FEMA Trailers to Bay County for residents impacted by Hurricane Michael.
  - Directed the Florida Housing Finance Corporation to utilize their resources to assist families affected by Hurricane Michael and they responded with $5 million in housing assistance for Northwest Florida.
  - Awarded nearly $13 million through the Florida Small Business Emergency Bridge Loan for agricultural producers in counties affected by Hurricane Michael.
  - Secured $380 million in grant funding from the U.S. Department of Agriculture for Florida's timber industry following the impacts of Hurricane Michael.
  - Secured $63 million in grant funding from the U.S. Department of Education to restore educational programs in counties affected by Hurricane Michael.

- Hurricane Irma
  - Activated the Rebuild Florida Business Loan Program to help small businesses recovering from Hurricane Irma.
  - Opened the Small Business Emergency Bridge Loan Program for Agricultural Producers.
  - Directed the Florida Division of Emergency Management to expedite reimbursements under the Citrus Block Grant Recovery Program.
  - Announced Florida Housing Finance Corporation is providing $140 million for the construction of new affordable workforce housing to help address housing shortages worsened by Hurricane Irma.

- Hurricane Dorian
  - Secured Major Disaster Declaration for 14 counties affected by Hurricane Dorian.
  - Delivered 590,000 bottles of water to the Bahamas after Hurricane Dorian.

- Announced $8 million available through Volunteer Florida's disaster fund long term recovery grants ($5 million for Irma and $3 million for Michael).

- Appointed Florida's first Disaster Recovery Mental Health Coordinator within the Florida Division of Emergency Management.

LEGAL REFORM AND ELECTIONS SECURITY

- Secured meaningful assignment of benefits reform to fight insurance fraud and its impact on rising insurance costs for Floridians.

- Directed the Department of State to review the security and cybersecurity of our statewide elections systems through a Joint Elections Security Initiative.

- Joined the Electronic Registration Information Center (ERIC) as part of ongoing efforts to enhance the security and integrity of Florida elections.

- Appointed three new Supreme Court Justices who understand that the proper role of the courts is to apply the law and Constitution as written.
  - Pending confirmation of President Trump's 11th Circuit recommendations, two additional appointments will be made.

- Appointed 56 judges across the state, of which 50% are female and 39% are minorities.

PUBLIC SAFETY

- Directed the Florida Department of Law Enforcement to develop a comprehensive, statewide threat assessment strategy to ensure that every government entity coordinates and cooperates in identifying and stopping persons on the pathway toward violence from committing such acts.

AMERICAN OVERSIGHT

- Signed an Executive Order on school safety to expedite the implementation of many of the recommendations of the Marjory Stoneman Douglas High School Public Safety Commission.

- Secured $2.5 million for security funding for Jewish Day Schools to ensure students and staff are safe throughout the state. This funding represents the highest ever total appropriated for Jewish Day School security funding.

- Impaneled a Statewide Grand Jury on School Safety to examine and review school safety measures, as well as the responses of public entities to laws designed to protect schools.

- Secured passage of legislation prohibiting sanctuary cities and upholding the rule of law.

- The crime rate in Florida fell by 9 percent, marking the 48th consecutive year that Florida has seen a drop in its crime rate.

- Juvenile arrests declined 8 percent in Fiscal Year 2018-19, and are down 27 percent in the last five years, marking the lowest juvenile arrest level in Florida in 44 years.

VETERANS AND MILITARY

- Created the *Forward March* Initiative which aims to unite the combined energy and resources of Florida's state agencies, veterans' service organizations, private partners and local communities.

- Created the Governor's Initiative on Lawyers Assisting Warriors (G.I. LAW) to offer pro bono legal services to military members on a variety of civil matters.
  - The initiative now includes participation by 7 statewide law firms, providing free legal representation to over 60 service members.

FISCAL RESPONSIBILITY AND GOOD GOVERNANCE

- Secured over $300 million in tax relief for Florida families, including a 5-day back-to-school sales tax holiday and a 7-day disaster preparedness holiday, as well as a reduction in the business rent tax.

- Issued a full pardon of the Groveland Four, four African-American men wrongfully accused and tried for crimes they did not commit.
  - The four men were Ernest Thomas, Samuel Shepherd, Walter Irvin and Charles Greenlee.

- Requested placement of a statue of Dr. Mary McLeod Bethune in National Statuary Hall.
  - Dr. Mary McLeod Bethune will represent the first African American to have a state-commissioned statue in National Statuary Hall. The statue of Dr. Mary McLeod Bethune is slated to be completed and moved to National Statuary Hall in 2020.

- Signed anti-Semitism legislation affirming Florida's condemnation of discrimination and affirming that anti-Semitism has no place in Florida.

- Held the state's first-ever "Deregathon" where we invited every licensing board under the Department of Business and Professional Regulation's jurisdiction to sit in a room to target for removal unnecessary occupational licensing requirements.
  - Since Deregathon, the boards have eliminated or are in the process of eliminating over 50 unnecessary rules and requirements.
  - Examples include the following:
    - The real estate board cut their license renewal fees in half (from $250 to $125).
    - The barbers' board is in the process of cutting the training hour requirement to become a restricted barber from 1200 hours to 600 hours.
    - The electrical contracting board eliminated the personal financial statement in the application for electrical contractor licensure, changed requirements to allow for certain certifications in lieu of job lists as proof of experience, and eliminated the 21-day waiting period and 7-hour continuing education requirements for examination retakes.

Subject: Group Hotel Rate for 2019 NCOIL Annual National Meeting Closes IN ONE WEEK!

View this email in your browser

Dear NCOIL Participant:

Next Monday, the group rate for the NCOIL Annual Meeting at the JW Marriott in Austin, TX from December 10th – 13th will close. Don't hesitate in booking your room:

The link for legislators is here - and the link for general participants is here.

If you are attending the NAIC meeting prior to the NCOIL meeting, we kindly ask that you make a hotel reservation beginning on December 10th with the NCOIL hotel code. You can do this by calling the hotel at 512-474-4744.

If you have not registered for the meeting please do so here.

The Annual Meeting will begin at the conclusion of the NAIC meeting at the same location. Please plan to arrive in time for the Welcome Reception on the evening of December 10th. There will also be an optional tour of the Texas state capitol on that afternoon.

A full day of policy committees and general sessions that will start with the busy Welcome Breakfast on December 11th and conclude on December 13th. .

NCOIL will celebrate its' 50th year at this meeting.

This meeting has been approved for approved for 15.25 credits of Texas CLE.

The tentative meeting agenda and 30 day materials can be viewed here.

Please do not hesitate to reach out to us with any questions at the NCOIL National Office.

To: Barnhill, Josh <Barnhill.Josh@flsenate.gov>; Brill, Victoria <Brill.Victoria@flsenate.gov>
Subject: Gruters' speech tomm
Attachment(s): "FutureOfFloridaForum Timed Agenda.docx","ATT00001.htm"

Hey gang - happy Sunday! Couple quick things for the boss' folder, assuming he has one, for tomm's (MONDAY) remarks:

He goes on 12:55 but would be great if he was there at least half an hour early to get mic'd up, to the staging area, etc.

He should just call or text me once on-site and I can get him queued up from there.

10 MINS would be plenty but really can't go more than 12 - we've got a tight program tomm due to a lot of speakers not being able to do Tues.

DEBBIE HARVEY, President and COO of Ron Jon Surf Shops will be introducing the Senator.

Would be great for him to hit on importance of leveling playing field between mega online retailers and Main Street brick and mortars here in FL, how this is a competitiveness issue for FL job creators, how the revenue collected could be used to further enhance our competitiveness (re pay down biz rent tax) and, of course, how this is not a new tax.

Bonus points if he says nice things about the Chamber being a trusted partner in his efforts to secure FL's future :)

As always, thanks for getting this on the calendar and call if any questions.

Frank

Subject: Gun Control legislation pending in 2020 session

Senators:

On Monday, January 6th more than 500 people packed the house for another well attended 2nd Amendment Gun Rights Preservation Forum, this one in Brevard County.

As with other of these forums across the state it was maxed out above capacity and had to close the doors turning even more folks away.

The purpose of this forum, and others like it being held around the state, was to educate citizens on the threats coming against their 2nd Amendment Rights from the Florida Senate and also from BAWN (Ban Assault Weapons Now) and their efforts to put an amendment to the Constitution on the ballot banning many semi automatic weapons from purchase and requiring registration of existing weapons.

If you think the law abiding gun owners of Florida are not paying attention to what you are contemplating this session as it relates to their right to keep and bear arms you are mistaken.

I can assure you the Silent Majority is wide awake and paying close attention.

I join all law abiding Florida gun owners and respectfully encourage you to vote NO on all gun control legislation introduced this session from whatever source and YES to any repeals of any gun control legislation or regulation which already exists.

--

Thank you,

Rev Jefferson A. Sweet,

Concerned citizen and voter of the State of Florida

To: Gruters, Joe <Gruters.Joe@flsenate.gov>
Subject: Harnessing the Free Market To Lift Floridians Out Of Poverty

THE FLORIDA PROSPERITY INITIATIVE

Harnessing the Free Market To Lift Floridians Out Of Poverty

At the Florida Chamber Foundation's Future of Florida Forum, former House Speaker Steve Crisafulli announced the launching of the Florida Chamber Foundation's Prosperity Project, whose goal is to find pathways out of generational poverty and increase prosperity for all Floridians.

Today, more than 3 million Floridians live in poverty—900,000 of whom are children under 18. The Florida Prosperity Initiative's goal is to reduce the number of children living in poverty by 50 percent by 2030. We will unite the business community to find ways to harness the free market to attack the ten root causes of poverty in the state.

Speaking to one of the biggest policy barriers, Representative Paul Renner addressed the consequences of increasing the minimum wage for Floridians, and how even modest increases can cause Floridians to turn down promotions and pay raises due to the loss of benefits that accompany higher wages.

"Government has often been a barrier to opportunity, a barrier to work and a barrier to the American Dream," said Representative Renner. "If we could reduce just 10 percent of the poverty roles in Florida, we would see a benefit to the state coffers of between $500 million and $1 billion per year. We've spent trillions in the war on poverty, we don't need to spend trillions more, we need to spend it more appropriately."

Senator Jeff Brandes and Associate Professor of Law at Georgetown, Shon Hopwood, discussed the importance of offering second chances to Florida's non-violent offenders and ensuring they have the tools to attain meaningful employment.

"When people get out of prison, we don't do a great job of preparing people for success or giving them a second chance, particularly in the Google age," said Mr. Hopwood. "We think when someone's served their time, they get a second chance, but rarely is that the case. The stigma of their conviction follows them the rest of their lives, especially in the internet age. The business community can play a huge role in criminal justice reform by considering second chance hiring; it will strengthen communities and change lives."

Get Involved Today

The Florida Prosperity Initiative break the cycle of generational poverty by addressing issues ranging from housing to food security to workforce issues. To learn more about the prosperity project please visit the Florida Prosperity Project website.

Registration will open soon for the Florida Chamber Foundation Prosperity Summit, May 18-19, 2020 in Sarasota. Click here and complete the online form to be notified when Summit registration opens up.

Contact Michael Williams at mwilliams@flfoundation.org for more information on how you can become more involved.

Hi there -

Here is the Senate form for the proposal we have been working on. I believe Rep. Good filed on House side (or was in process of doing so). I'm also attaching the form through the Alliance that we completed - and talking points. Let me know what else you might need at this point.

Thanks!!

Colleen

COMMUNITY ALLIANCE OF SARASOTA COUNTY
LEGISLATIVE ADVOCACY COMMITTEE

RECOMMENDED LEGISLATIVE ISSUE FOR 2020

***System*:** Behavioral Health

Subject: **HOPE Coalition – Health, Opportunity, Prevention, Early Intervention**

Submitted by: Heidi Brown, JFCS Suncoast & Colleen Thayer, NAMI – on behalf of the Community Alliance of Sarasota County - Behavioral Health Stakeholders Consortium

1. **Please indicate #1 for Primary System and #2 for Secondary System that ared most appropriate for this issue:**

- ☐ **Aging**
- X **Behavioral Health (Mental Health and Substance Abuse)**
- ☐ **Child Welfare**
  Children and Youth
- ☐ **Criminal Justice (including Juvenile Justice)**
- ☐ **Developmental Disabilities**
- ☐ **Early Learning (Infant/Toddler/Pre-/VPK) & Education (K-12)**
- ☐ **Health Care**
- ☐ **Homelessness**

2. **Please indicate which is the most appropriate category for this issue:**

- ☒ **Budgetary: A new issue with known fiscal impact or a change in existing Legislation that will have fiscal impact.**
- ☐ **Substantive: Modification of existing Legislation.**
  (check one below)
  - ☐ **With possible fiscal impact**
  - ☐ **With no fiscal impact**
- ☐ **New Legislation with no fiscal impact.**

Please type and submit electronically to kathryn.shea@thefloridacenter.org

If your form is submitted electronically and you do not receive a confirmation email within 24 hours, please contact Kathryn Shea @ 941-371-8820

AMERICAN OVERSIGHT

3. **Please describe your legislative proposal. If applicable, please cite which statute(s) the proposal affects.**

HOPE is a community-wide coordinated approach to mental health and substance abuse intervention, education and care for individuals (0-25) and their families and caregivers.

This proposal creates a pilot, aligned with the Department of Children and Families directive to provide a statewide system of care for the prevention, treatment, and recovery of children and young adults with mental illnesses *as soon as symptoms are detected*. HOPE will utilize the peer & family navigator model to promote early access, engagement, and coordination of services for children, adolescents, and young adults (ages 0-25). The target population are those with emotional or behavioral challenges, or who are believed to be at-risk for out-of-home placement, or in need of referral to higher-level mental health or substance use treatment, special education, child-welfare, or juvenile justice services.

Studies suggest that emotional and behavioral symptoms, if left untreated, are likely to develop into psychological disorders with long-lasting effects well into adulthood. Traditional mental health services and coordinated care for young people have historically been provided at later points in time, often after problem behaviors have caused significant impairment and trauma for the youth and family members.

The pilot proposes early intervention by HOPE Navigators (peer and family member peer) within the following targeted systems:

- Education/School-Based System (pre-k, elementary, middle, high school, post-secondary – public and private)
- Healthcare System (mental health and substance use treatment providers, primary care, recovery support services)
- Juvenile Justice/Criminal Justice System
- Child Welfare System
- Faith-based

The request for the pilot is $600,000 and includes administrative oversight/supervision through an identified local behavioral health provider and eight individual and family navigators (one peer and one family member). Successful implementation of this pilot has the potential for program replication on a state-wide basis.

4. **Describe the specific problem or challenge that will be addressed by this legislative proposal. Be specific about the impact on Sarasota County/statewide. Include local and state data that supports the problem or challenge. Quantify any fiscal impact, if possible. (Reasonable estimates are fine.)**

Mental health services for youth and young adults (0-25) is often fragmented in Florida. A comprehensive focus on access to prevention and early intervention in a seamless, coordinated way is critical to success. In Sarasota County, 52 percent of babies are born into families living in poverty and 215 women delivered babies in Sarasota last year without receiving any prenatal care (First 1000 Days Sarasota County). More than half the mothers in Florida report experiencing postpartum depression after childbirth yet less than 10% sought or received help.

The onset of mental illnesses frequently occurs during childhood, adolescence, or young adulthood. One in 5 youth experience a severe mental disorder during their life and half of all chronic mental illness begins by the age of 14; three-quarters by the age of 24.

The cost of prevention and early intervention is traditionally less than the long-term costs of treating severe and persistent mental illness. Economic analyses of interventions that target the prevention of specific mental, emotional or behavioral disorders or substance use among young

AMERICAN OVERSIGHT

people document the efficacy and effectiveness. The economic impact of untreated mental illness in children and young adults is significant. It costs our economy an estimated $155.7 billion a year in direct health care costs, unemployment and lost productivity for caregivers. Locally, economic impact to Sarasota County is more than $86 million annually.

The U.S. lags far behind the rest of the world related to financing of medical care and mental health care. For every dollar that the federal government spends on medical research through the National Institutes of Health, 16 cents goes to HIV/AIDS, 11 cents goes to cancer, and less than four cents go to all mental illnesses combined. (https://highline.huffingtonpost.com/articles/en/stop-the-madness/)

There is also a correlation between trauma and psychosis. Research suggests that people with psychosis are at high risk for traumatization, both through victimization and because psychotic symptoms and some forms of treatment may be traumatizing (Trauma, PTSD and First Episode Psychosis, Fact Sheet, 2018).

By placing HOPE Coalition Navigators in the identified systems of care, Sarasota County can increase the opportunity for early identification, prevention and appropriate treatment and support for youth, adolescents and young adults. HOPE Coalition intervention can avoid more restrictive, long-term and costly treatment.

5. **Identify the interested/impacted parties and whether they would likely support or oppose your proposal. For instance, are other Sarasota County agencies affected? Are counties, regional agencies, professional associations, interest groups, and/or state agencies affected?**

Likely support includes, but may not be limited to, Sarasota County, Sarasota County School Board, private and public behavioral and primary healthcare providers, Sarasota's faith-based community, the criminal and juvenile justice system, and others to be identified.

6. **Are there Legislators currently supporting or willing to support this issue?**

Sarasota County Legislative Delegation, Rep. Good, Sen. Gruters, Casey DeSantis, First Lady

7. **Has this issue been proposed before? If so, what was the outcome? If it did not succeed, why?** No

8. **Is this a collaborative Issue involving more than one agency? If so, indicate which agency is the Lead Agency.** This is a multi-agency proposal including JFCS of the Suncoast; NAMI Sarasota County; The Florida Center for Early Childhood; The Thinking Center; and others to be identified.

9. **Contact Information: (Representative of Agency or Group. This person, or a designated individual very familiar with the Issue, must attend and present the Issue at the Legislative Summit)**

Talking Points
HOPE Coalition – Health, Opportunity, Prevention, Early Intervention

- HOPE is a community-wide coordinated approach to mental health and substance abuse intervention, education and care for individuals (0-25) and their families and caregivers;

- The onset of mental illnesses frequently occurs during childhood, adolescence, or young adulthood. One in 5 youth experience a severe mental disorder during their life and half of all chronic mental illness begins by the age of 14; three-quarters by the age of 24;

- Studies suggest that emotional and behavioral symptoms, if left untreated, are likely to develop into psychological disorders with long-lasting effects well into adulthood;

- The cost of prevention and early intervention are traditionally less than the long-term costs of treating severe and persistent mental illness. It costs our economy an estimated $155.7 billion a year in direct health care costs, unemployment and lost productivity for caregivers. Locally, Sarasota County alone is more than $86 million annually.

- HOPE will utilize the peer and family navigator model to promote early access, engagement, and coordination of services for children, adolescents, and young adults (ages 0-25);

- Navigators will be charged with 1) knowing the available resources within their system; 2) providing education on mental health and substance use concerns and interventions; 3) overcoming systemic barriers to care through individualized advocacy; 4) offering assistance and support in accessing and coordinating needed services as individuals and families move through one or more of the systems; and 5) developing and delivering mental health information and information on community resources;

- HOPE Navigators will intervene early within 4 targeted systems: 1) Education/School-Based System (pre-k, elementary, middle, high, post-secondary); 2) Healthcare System (mental health and substance use treatment providers, primary care, recovery support services); 3) Juvenile Justice/Criminal Justice System; 4) Child Welfare/System;

- The pilot requests $600,000 that includes a professional partner and eight individual and family navigators (one peer and one family member per identified system).

AMERICAN OVERSIGHT

Partners in the Process
There have been several local initiatives reviewing these issues with a goal of addressing this challenge, including:

- The First 1000 Days initiative is designed to help families better access medical, emotional and wellness services pre-pregnancy through the developmental years including an integrated system designed to address the need for early identification of developmental and/or behavioral concerns and links for children and their families to community-based developmental and behavioral services and supports.

- The Charles & Marjery Barancik Foundation and Gulf Coast Community Foundation recently completed a Child and Youth Mental Health Environmental Scan. The findings support the need for transformation of care in our community including strengthening the system of care, providing support for families, and education and advocacy.

- There is also a strong link between trauma and mental illness. Trauma affects the developing brain and the impact of trauma is different during stages of development (early childhood, later childhood, adolescents, and early adulthood). The principles of trauma-informed approaches are consistent with recovery and in our community two initiatives are underway (Sarasota Strong & Peace4Manasota) that are focusing on these issues.

- Coordinated Specialty Care (CSC) for first episode psychosis (FEP) focuses on early treatment of psychosis, which affects about 3 out of 100 people at some point in their lives, typically when a youth or young adult is in their late teens/early 20's. With early treatment, some people never have another psychotic episode. For others, psychosis may be a recurring symptom of schizophrenia or another mental illness. However, even if they continue to experience symptoms, early treatment provides a foundation for recovery and a full life. Without CSC-FEP, treatment for psychosis often starts only after crises—frequently, long after the first episode and after disability has taken hold. At that stage, treatment is often limited to managing symptoms rather than promoting full recovery. Currently, only 7 CSC-FEP programs/pilots exist in Florida including two in development (Orlando & Tampa); none in our community.

AMERICAN OVERSIGHT

The Florida Senate
Local Funding Initiative Request
Fiscal Year 2020-2021

11. **Program Performance**

a. What specific purpose or goal will be achieved by the funds requested?

The goal of HOPE is to provide a comprehensive focus on access to prevention and early intervention for individuals in the behavioral healthcare system in a seamless, coordinated way. HOPE includes intervention by HOPE Navigators (peer and family peer) in targeted systems: Education/School-based; Healthcare (mental health and substance abuse); Juvenile Justice/ Criminal Justice; Child Welfare; Faith-based.

b. What activities and services will be provided to meet the intended purpose of these funds?

Connections and follow up (ongoing support) for individuals and families in the behavioral healthcare system to services including but not limited to mental health, job training, education, primary health care

c. What direct services will be provided to citizens by the appropriation project?

Navigation through the behavioral healthcare system and specific connections and support to services that are needed within the system of care (health, education, support, criminal justice, etc.)

d. Who is the target population served by this project? How many individuals are expected to be served?

Any individual living with a mental health condition (children, adolescents, young adults, adults) who are in the behavioral health system that need navigation within their system of care or for community services (job training, education, health care, support). 100-200 individuals and their families.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Avoidance of more costly, restrictive and long-term behavioral health treatment through early identification, prevention, treatment and support. Administrative oversight and performance measures developed for each system of care.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Return of funds

Hi there -

Hope all is well! Vicki I know I had spoken to you about this appropriations request but wanted to update you all and see if Senator Gruters would be willing to file it! Rep. Good is doing on House side. I'm in the process of filling out the form - but here is the proposal again, along w/ some budget info. This is the proposal that comes out of the Community Alliance re: behavioral health. So it's not directly a NAMI proposal.

Let me know and thanks much!!

Colleen

3. **Please describe your legislative proposal. If applicable, please cite which statute(s) the proposal affects.**

HOPE is a community-wide coordinated approach to mental health and substance abuse intervention, education and care for individuals (0-25) and their families and caregivers.

This proposal creates a pilot, aligned with the Department of Children and Families directive to provide a statewide system of care for the prevention, treatment, and recovery of children and young adults with mental illnesses *as soon as symptoms are detected*. HOPE will utilize the peer & family navigator model to promote early access, engagement, and coordination of services for children, adolescents, and young adults (ages 0-25). The target population are those with emotional or behavioral challenges, or who are believed to be at-risk for out-of-home placement, or in need of referral to higher-level mental health or substance use treatment, special education, child-welfare, or juvenile justice services.

Studies suggest that emotional and behavioral symptoms, if left untreated, are likely to develop into psychological disorders with long-lasting effects well into adulthood. Traditional mental health services and coordinated care for young people have historically been provided at later points in time, often after problem behaviors have caused significant impairment and trauma for the youth and family members.

The pilot proposes early intervention by HOPE Navigators (peer and family member peer) within the following targeted systems:

- Education/School-Based System (pre-k, elementary, middle, high school, post-secondary – public and private)
- Healthcare System (mental health and substance use treatment providers, primary care, recovery support services)
- Juvenile Justice/Criminal Justice System
- Child Welfare System
- Faith-based

The request for the pilot is $600,000 and includes administrative oversight/supervision through an identified local behavioral health provider and eight individual and family navigators (one peer and one family member). Successful implementation of this pilot has the potential for program replication on a state-wide basis.

4. **Describe the specific problem or challenge that will be addressed by this legislative proposal. Be specific about the impact on Sarasota County/statewide. Include local and state data that supports the problem or challenge. Quantify any fiscal impact, if possible. (Reasonable estimates are fine.)**

Mental health services for youth and young adults (0-25) is often fragmented in Florida. A comprehensive focus on access to prevention and early intervention in a seamless, coordinated way is critical to success. In Sarasota County, 52 percent of babies are born into families living in poverty and 215 women delivered babies in Sarasota last year without receiving any prenatal care (First 1000 Days Sarasota County). More than half the mothers in Florida report experiencing postpartum depression after childbirth yet less than 10% sought or received help.

The onset of mental illnesses frequently occurs during childhood, adolescence, or young adulthood. One in 5 youth experience a severe mental disorder during their life and half of all chronic mental illness begins by the age of 14; three-quarters by the age of 24.

The cost of prevention and early intervention is traditionally less than the long-term costs of treating severe and persistent mental illness. Economic analyses of interventions that target the prevention of specific mental, emotional or behavioral disorders or substance use among young

AMERICAN OVERSIGHT

people document the efficacy and effectiveness. The economic impact of untreated mental illness in children and young adults is significant. It costs our economy an estimated $155.7 billion a year in direct health care costs, unemployment and lost productivity for caregivers. Locally, economic impact to Sarasota County is more than $86 million annually.

The U.S. lags far behind the rest of the world related to financing of medical care and mental health care. For every dollar that the federal government spends on medical research through the National Institutes of Health, 16 cents goes to HIV/AIDS, 11 cents goes to cancer, and less than four cents go to all mental illnesses combined. (https://highline.huffingtonpost.com/articles/en/stop-the-madness/)

There is also a correlation between trauma and psychosis. Research suggests that people with psychosis are at high risk for traumatization, both through victimization and because psychotic symptoms and some forms of treatment may be traumatizing (Trauma, PTSD and First Episode Psychosis, Fact Sheet, 2018).

By placing HOPE Coalition Navigators in the identified systems of care, Sarasota County can increase the opportunity for early identification, prevention and appropriate treatment and support for youth, adolescents and young adults. HOPE Coalition intervention can avoid more restrictive, long-term and costly treatment.

5. **Identify the interested/impacted parties and whether they would likely support or oppose your proposal. For instance, are other Sarasota County agencies affected? Are counties, regional agencies, professional associations, interest groups, and/or state agencies affected?**

Likely support includes, but may not be limited to, Sarasota County, Sarasota County School Board, private and public behavioral and primary healthcare providers, Sarasota's faith-based community, the criminal and juvenile justice system, and others to be identified.

6. **Are there Legislators currently supporting or willing to support this issue?**

TBD – Sarasota County Legislative Delegation, Casey DeSantis, First Lady of Florida

7. **Has this issue been proposed before? If so, what was the outcome? If it did not succeed, why?** No

8. **Is this a collaborative Issue involving more than one agency? If so, indicate which agency is the Lead Agency.** This is a multi-agency proposal including JFCS of the Suncoast; NAMI Sarasota County; The Florida Center for Early Childhood; The Thinking Center; and others to be identified.

Subject: ICYMI: DHS Secretary and ICE Director Visit Raleigh, NC to Discuss Sanctuary Policies

Good afternoon,

Acting Department of Homeland Security (DHS) Secretary Chad F. Wolf and Acting Immigration and Customs Enforcement (ICE) Director Matthew Albence met with federal, state and local officials and angel families yesterday afternoon in Raleigh, North Carolina to discuss several sheriffs who represent counties that refuse to adhere to U.S. immigration law and are failing to cooperate with ICE on detainers for dangerous and violent criminal aliens.

During his remarks, Acting DHS Secretary Wolf cited several examples where sanctuary policies have threatened public safety in North Carolina. Of those, he mentioned Jose Bryan Guzman, an illegal alien charged with murder, who was released from jail in December 2018 after being arrested for felony aggravated robbery. ICE notified the Durham County Sheriff's Office at that time about taking him into custody and issued a detainer for him. However, the sheriff's office refused to honor the detainer and released him back into the community where he allegedly killed his 19-year old girlfriend.

At the conclusion of the meeting, Acting DHS Secretary Wolf and Acting ICE Director Albence called upon the sheriffs of Buncombe, Durham, Forsyth, Guilford, Mecklenburg, and Wake counties to abandon their sanctuary policies and work with ICE to strengthen their partnerships and keep communities safe from dangerous criminal aliens.

Below are some key takeaways for you to consider as you publish content or prepare for future media engagements.

Key Takeaways

- 563 criminal aliens have been released from jail in North Carolina in FY2019 after ICE issued a detainer for them. This follows a report from August which stated that 489 criminal aliens had been released from jail between October 2018 and September 2019, representing a 15 percent increase in declined detainers (or 74 criminals) in just two months.
- Over 90% of ICE arrests are convicted criminals and roughly 70% of the arrests are made at local jails and state prisons.
- Each victim or lost family member of illegal alien crime represents a preventable tragedy.
- Sanctuary policies are an affront to the rule of law and to the U.S. Constitution.
- Sanctuary policies extend beyond geographical and political boundaries.
- Sanctuary policies do not protect communities, they endanger them. All too often, criminal aliens are released into communities only to reoffend, requiring the men and women of ICE to needlessly risk their lives to track down these fugitives in neighborhoods or at workplaces instead of the security of a local jail.
- Sanctuary jurisdictions that choose to not cooperate with ICE are likely to see an increase in at-large arrests in communities.
- It is safer for everyone if ICE takes custody of an alien in the controlled environment of another law enforcement agency as opposed to visiting an alien's residence, place of work, or other public area. Arresting a criminal in the safety, security, and privacy of a jail is always the best option.
- When law enforcement agencies fail to honor detainers and release serious criminal offenders onto the streets, it undermines ICE's ability to protect public safety and carry out its mission;
- ICE prioritizes its limited resources first and foremost by targeting those who pose the greatest threat to public safety and national security.
- Judicial warrants are not necessary for local law enforcement to hold criminal aliens up to 48 hours for ICE to take into custody.

Subject: inability of local govt to handle vacation rentals

Dear Senator Gruters,

I am emailing to express my support for SB 1128 because of the local governments inability to fairly enforce simple noise, parking and trash ordinances in FL. Local governments have gone too far above and beyond, just noise, parking and trash control though.

As you know, this legislative session vacation rental bills again consume the Statehouse agenda, yet again. The argument is fierce on both sides of the debate. As vacation rental bills advance through the House and Senate local governments recite how important it is to have local control of vacation rentals. As you know, in 2014 the legislature gave back 70% of the control of vacation rentals to local governments to regulate them based upon local concerns. Predominantly those are noise, parking and trash, all items already enforced under local ordinances by local government.

But each city has taken that from 1 – 10 steps further with overreaching ordinances. Registration and inspection fees that sometimes exceed $1000 annually, $20,000 fines and months of red tape, applications and inspections.

So let's see how local governments have successfully handled all the power over the past 6 years:

- Hundreds of Bert Harris claims have been filed to a tune of over $60 Million and that grows every day. Expectations are that this will rise to $350 million.
- Dozens of ordinances have been established in city and county governments, some later repealed, some never to see the light of day and some with the sole intent to prohibit vacation rentals from operating, not regulate.
- Dozens of individual filings of litigation to overturn local ordinances.
- The average city compliance rate statewide after enacting an ordinance is a dismal 15% or so.
- Local governments are unable to properly manage the very ordinances they enacted and spend hundreds of thousands if not millions of taxpayer dollars on 3rd party compliance vendors that reside outside of Florida.
- Some local governments have up to a 4-month backlogs of inspections to get vacation rental homes into the system they created.
- State associations have created a sense of urgency around creating local vacation rental ordinances to regulate vacation rentals locally, even when just a handful of short term rental homes exist in a city. This has been divisive and inflammatory at the least.

So who are the real winners and losers here? No winners for sure.

ALL TAXPAYERS LOSE UNDER THE CURRENT RULES. Because whichever side of the issue that you are on, be it a tax paying resident who doesn't like vacation rentals or the vacation rental owner/manager that generates an enormous amount of tax revenues for the city, county and state, both constituent groups have footed the bill for local governments inability to handle what should have been a simple enforcement of existing noise, parking and trash ordinances. Instead, local governments have created a regulatory monster which they can't handle and have cost the taxpayers millions of dollars through all of the above mentioned failures. It's time for one comprehensive approach with SB 1128.

Thank you and please support SB 1128.

SARASOTA COUNTY DUI COURT PROGRAM

NEVER A WRONG TIME
TO DO THE RIGHT THING

For additional information and to view the program contract please visit our website at www.jud12.flcourts.org

DUI Court Mission Statement

To reduce the number of repeat DUI offenders by providing alternative community-based treatment, thereby increasing both offender productivity and public safety.

The Sarasota DUI Court is dedicated to changing behavior, targeting offenders who are alcohol dependent currently charged with driving under the influence having one or more prior drug and/or alcohol related arrest(s). Specialized DUI Courts are a proven method to effectively address community struggles with habitual DUI offenders. It's modeled after the highly successful Drug Court concept, having a graduated sanction / reward structure and following specific *Guiding Principles*. Furthermore, it adds elements within the Court such as mandatory counseling, case management, drug and alcohol testing, and community supervision.

FL-SEN-20-0201-B, 20-0202-A-001643

The requirements of the DUI Court are as follows:

How do people find their way into DUI Court?

- Referral from First Appearance
- Pretrial screening
- Post arrest- conditional release terms
- Opportunity presented at Arraignment
- Attorney referral

DUI Court Application

Referrals can be made directly to the Judge, Public Defender's office, Probation and Program Director.

◊ *Individual Interviews / assessments*

The clinical screening and assessment are conducted by the Counselor, Case Manager and Probation. Additional screenings may be required at anytime by the court.

Upon acceptance of the offender's plea to the DUI charge the offender is placed on supervised probation for a minimum of one year. During this time, the DUI offender is required to comply with the mandatory requirements of Florida Statutes 316.193 and 322.28 and complete all phases of DUI Court.

Financial Requirements

Participants are required to provide a portion of costs towards their individualized DUI program. An initial $100.00 application/ assessment fee and $200.00 monthly program fees are required. Participants are also required to pay their mandatory minimum fines and supervision costs as ordered. Mandatory contributions from participants has therapeutic benefits, allowing participants to be empowered having a sense of ownership through their steps of sobriety and recovery.

Phase I
Orientation
Duration - up to 45 days

Phase II
Early Recovery
Duration - approximately 90 days

Phase III
Maintenance & Relapse Prevention
Duration - approximately 115 days

Phase IV
Continuance of Care &
Commencement
Duration - approximately 115 days

Alumni Support Group Network

Participants must follow all rules and regulations of treatment. Program length is a minimum of 12 months. There are four distinct phases of the DUI Court program. Each phase must be fully completed in order for participants to reach commencement.

Supervision is a crucial link between participants and the DUI Court. Random home visits are conducted in the community by local law enforcement, Probation and case management services throughout every phase of DUI Court. Participants are also monitored through other ways such as ongoing random drug and alcohol tests, electronic monitoring, comprehensive case management and medication maintenance.

Eligibility Criteria

◊ Defendant currently charged with Driving Under the Influence.

◊ Defendant has 1 or more prior alcohol and/ or drug related arrest(s).

◊ Defendant is alcohol and/or drug dependent and desires to change behavior, participate in a treatment program and participate in recovery.

◊ No serious violent criminal history.

◊ No evidence of drug dealing

◊ 18 years of age or older.

◊ Must reside in Sarasota County.

◊ Willing to...Show Up, Be Honest & Try

Staffing and Participants Progress

Each participant's progress is reported to the entire DUI Court through weekly team staffings held prior to the status conference. A review of their treatment and overall program status is discussed, along with any program violations and recommendations. All rewards and sanctions are finalized by the judge.

HB 941 *Substance Abuse Services* Act Children, Family, Seniors Question

Follow-Up to January 16th Staff Meeting

How often do people ordered to substance abuse treatment receive self-help group mandates?

- 59% of AA members received treatment / counseling prior to entering the program
- 397.334: "Treatment-based drug court programs may include pretrial intervention programs as provided in ss. 948.08, 948.16, and 985.345, treatment-based drug court programs authorized in chapter 39, postadjudicatory programs as provided in ss. 948.01, 948.06, and 948.20, and review of the status of compliance or noncompliance of sentenced offenders through a treatment-based drug court program. While enrolled in a treatment-based drug court program, the participant is subject to a coordinated strategy developed by a drug court team under subsection (4). The coordinated strategy may include a protocol of sanctions that may be imposed upon the participant for noncompliance with program rules. The protocol of sanctions may include, but is not limited to, placement in a substance abuse treatment program offered by a licensed service provider as defined in s. 397.311"
- substance abuse services FL statutes link
  - http://www.leg.state.fl.us/Statutes/index.cfm?App_mode=Display_Statute&URL=0300-0399/0397/0397.html
- Alcohol.org
  - https://www.alcohol.org/laws/court-ordered/
-

If Marchman Acted (sent to licensed treatment center) is there also a self-help component?

- Submitted by person on behalf of another individual (in county where individual is located)
- Assessment (up to 5 days), stabilization and long-term treatment (up to 60 days)
- Trained medical professionals assess patient and make treatment recommendations (delivered to the court)
- No punishment for non-compliance, however petitioner can open civil case and repercussions can be put in place if patient does not comply with Marchman rules

AMERICAN OVERSIGHT

How successful are groups like AA?

- 2014 Member Survey
  - 27% Sober < 1 Year
  - 24% 1-5 Years
- **https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2746426/**
  - Rates of abstinence are about twice as high among those who attend AA (study)
  - Higher levels of attendance are related to higher rates of abstinence (study)
  - Prior AA attendance is predictive of subsequent abstinence (study)

Are there any mandated self-help assignments in prior statutes?

- **Proof of Attendance at Meetings**
- Some judges require written proof that offenders have attended a certain number of meetings. Often, when the court-ordered newcomer attends an A.A. meeting, the group secretary (or other group officer) is willing to sign their first name, or to initial a slip furnished by the court saying so-and-so was at the meeting on a particular date. Hopefully, all involved recognize that neither the group nor its members are "bound" in any way by the signature, nor does this courtesy signify affiliation of the A.A. group with any other program or guarantee that the attendee was present for the entire meeting; it simply illustrates cooperation. Court professionals should understand too, that attendance at A.A. meetings doesn't guarantee sobriety.
- Placing great emphasis on A.A.'s principle of Anonymity, we understand that some A.A. members are uncomfortable when asked to sign their full name or to supply other personal information indicating that they are A.A. members. This cherished Tradition of Anonymity provides protection to all A.A.s from being publicly identified as alcoholics, a safeguard especially important to the newcomer. Since each group is autonomous, and providing proof of attendance at meetings is *not* a specific part of A.A.'s program, each group and group member has the right to choose whether or not to sign court slips.
- While some groups have elected not to sign court cards, it is our experience that most groups will try to cooperate with our professional friends. In some areas, courts furnish cooperating A.A. groups with sealed, stamped envelopes addressed to the court. In general, the secretary of the group announces that anybody needing an envelope may get it after the meeting. The newcomer takes the envelope, privately writes his or her name and/or return address on it, and mails it. In other areas, each cooperating group has a sheet, furnished by the court, that the secretary announces is available for court ordered newcomers to sign after the meeting. The secretary returns the sheets in envelopes furnished by the referring agency. In this way, it is not the A.A. group, but the prospect's own signature which affirms he or she was at the meeting.
  - https://www.aa.org/pages/en_US/alcoholics-anonymous-as-a-resource-for-drug-and-alcohol-court-professionals

- So doing violates the Establishment Clause, guaranteeing that at a minimum, "government may not coerce anyone to support or participate in religion or its exercise, or otherwise act in a way which establishes a [state] religion or religious faith, or tends to

AMERICAN OVERSIGHT

do so." (Lee v. Weisman, 1992, U.S. Supreme Court on school prayer.) In short, while not deemed an actual religion, AA – with the steps' numerous references to "God" – is considered to contain enough religious components to make coerced attendance unconstitutional, despite the fact that attendees commonly argue that the 12 steps are "spiritual," not religious.

Example of End User License Agreement and Privacy Policy for Florida based business

TBV ME, CO.
TBV ME End-User License Agreement (Android)

AMERICAN OVERSIGHT

THIS IS A LEGAL AGREEMENT BETWEEN YOU AS THE PERSON ACQUIRING THE SOFTWARE AND/OR YOUR COMPANY IF YOU HAVE ACQUIRED THE SOFTWARE FOR YOUR COMPANY (COLLECTIVELY, "CUSTOMER") AND TBV ME, CO. ("LICENSOR") REGARDING YOUR USE OF THE TBV PLATFORM SOFTWARE AND ALL DATA OR CONTENT THAT IS ACCESSED OR UTILIZED BY THE TBV PLATFORM SOFTWARE (COLLECTIVELY THE "SOFTWARE"). BY INSTALLING OR USING THE SOFTWARE, YOU AGREE TO BE BOUND BY TERMS OF THIS END-USER LICENSE AGREEMENT (THE "AGREEMENT"). IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT, YOU ARE NOT ENTITLED TO USE THE SOFTWARE AND MUST UNINSTALL THE SOFTWARE FROM ANY COMPUTERS OR DEVICES ON WHICH IT IS INSTALLED.

Licensor hereby grants and You accept a non-exclusive, non-transferable license, without the right to sublicense, to use the Software, subject to the following terms and conditions:

AMERICAN OVERSIGHT

1. Proprietary Rights

The Software, including any documentation, is subject to the protection of the copyright laws of the U.S. and foreign jurisdictions, which prohibit unauthorized copying and distribution of copyrighted works. The Software and documentation incorporate Licensor's proprietary and confidential algorithms and techniques that are subject to legal protection as trade secrets. You are granted only those rights expressly conferred by the license grant set forth in Section 2 of this Agreement.

2. License Grant

Licensor grants you a non-transferable, non-exclusive, worldwide license, without the right to sublicense, to install and use the Software on a single device solely for your use in a manner consistent with the terms of this Agreement.

3. Reserved Rights

Licensor reserves any rights not expressly granted in Section 2. Without limiting the foregoing, Licensor reserves the right to license the Software and documentation to others on such terms as Licensor may establish in its sole discretion.

4. Restrictions

You may not:

a. Use the Software except as expressly authorized in this Agreement;
b. License, sublicense, sell, resell, transfer, assign, distribute, hypothecate, lease, loan or otherwise convey, commercially exploit or make available to any third party the Software or documentation in any way;
c. Send to licensor material containing software viruses, worms, Trojan horses or other harmful computer code, files, scripts, agents or programs, or otherwise interfere with or disrupt the integrity or performance of the Software;
d. Modify, translate or adapt the Software or documentation, incorporate the Software or documentation in whole or in part in any other product or create derivative works based on all or part of the Software or documentation;
e. Copy the Software or documentation in any manner or for any purpose.
f. Install or use the Software in a network or similar configuration which permits access by more than one user or device at a time;
g. Disassemble, decrypt, extract, reverse engineer or reverse compile the Software, or otherwise attempt to discover the confidential algorithms and techniques incorporated in the Software, or disclose or use any confidential information of Licensor in any manner other than as expressly authorized in this Agreement; or
h. Share Your login with any other person (including another user or other third party).

You are expected to adhere to certain norms in Your interaction with other users of the Software and Your treatment of the information that the Software provides. Use of the information available in the Software for any commercial or political solicitations is strictly prohibited. Such unauthorized use may result in termination of this license and denial of access to the Software.

This Software is for Your personal use only. Use of this directory or the information available for any other purpose, including, but not limited to, reproducing, and storing in a retrieval system by any means, electronic or mechanical, photocopying or using the addresses (electronic or otherwise) or other information contained in this directory for any commercial or political purpose or mailing is strictly prohibited and is in direct violation of copyright and constitutes misappropriation of corporate property. Such unauthorized use may also violate the rights of privacy and/or publicity of individuals.

AMERICAN OVERSIGHT

5. Term

This Agreement is effective until terminated. The Agreement and Your right to install and use the Software and documentation will automatically terminate without notice in the event of any failure by You to comply with any of the above restrictions or any term of this Agreement. Upon termination, You shall destroy or delete all copies of the Software in Your possession. All provisions of Sections 1, 7 and 8 of this Agreement shall survive termination.

6. Android-Enabled Software Applications:

Licensor offers software applications that are intended to be operated in connection with products made commercially available by third parties that operate using the Android operating system, which is owned by Google Inc. ("Google"). With respect to the Software that is made available for your use in connection with a Google-branded product, in addition to the other terms and conditions set forth in this Agreement, the following terms and conditions apply:

a. Licensor and you acknowledge that this Agreement is concluded between Licensor and you only, and not with Google, and that as between Licensor and Google, Licensor, not Google, is solely responsible for the Software and the content thereof.
b. The Google Play marketplace is owned and operated by Google. Your use of Google Play is governed by a legal agreement between you and Google consisting of the Google Terms of Service (found at http://www.google.com/intl/en/policies/terms/) and the Google Play Terms of Service (found at https://play.google.com/intl/en-US_us/about/play-terms.html, and together with the Google Terms of Service called the "Terms"). In addition, your use of Google Play is subject to the Google Play Business and Program Policies (found at http://play.google.com/about/android-developer-policies.html). The Google Play Market Terms of Service, Google Play Business and Program Policies, and Google Terms of Service shall take precedence in that order in the event of a conflict between them, to the extent of such conflict.
c. Your license to use the Software is limited to a non-transferable license to use the Software on a product that you own or control, as permitted by the terms of this Agreement.
d. Google has no obligation whatsoever to provide any maintenance or support services with respect to the Software.
e. To the maximum extent permitted by applicable law, Google will have no warranty obligation whatsoever with respect to the Software, and will not be liable for any claims, losses, liabilities, damages, costs or expenses attributable to any failure to conform to any warranty.
f. Licensor and you acknowledge that Licensor, not Google, is responsible for addressing any claims of you or any third party relating to the Software or your possession and/or use of the Software, including, but not limited to: (i) product liability claims; (ii) any claim that the Software fails to conform to any applicable legal or regulatory requirement; and (iii) claims arising under consumer protection or similar legislation.
g. In the event of any third party claim that the Software or the end-user's possession and use of the Software infringes that third party's intellectual property rights, as between Licensor and Google, Licensor, not Google, will be solely responsible for the investigation, defense, settlement and discharge of any such intellectual property infringement claim.
h. You represent and warrant that (i) you are not located in a country that is subject to a U.S. Government embargo, or that has been designated by the U.S. Government as a "terrorist supporting" country; and (ii) you are not listed on any U.S. Government list of prohibited or restricted parties.
i. If you have any questions, complaints or claims with respect to the Software, they should be directed to Licensor.

7. Limited Warranty

a. You acknowledge and agree that the Software is provided "AS IS" without warranty of any kind. This is Licensor's entire liability and Your sole and exclusive remedy in connection with any breach of this Agreement, including, but not limited to, any breach of warranty. By accepting this Agreement, You acknowledge and agree that Licensor cannot and does not guarantee or warrant that files available for downloading through the

AMERICAN OVERSIGHT

Internet will be free of infection or viruses, worms, Trojan horses or other code that manifests contaminating or destructive properties. You download all files at Your own risk.

b. LICENSOR DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NONINFRINGEMENT OF THIRD PARTIES' INTELLECTUAL PROPERTY RIGHTS.

8. Limitation of Liability

In no event will Licensor be liable for any damages including any lost profits or other incidental, special, punitive, exemplary, direct, indirect or consequential damages, arising out of or related to the Software, documentation or the use thereof, even if Licensor has been advised, or is otherwise aware, of the possibility of such damages and even if the warranty remedy of Section 7 fails of its essential purpose. You agree that the Limited Warranty of Section 7 and the Limited Liability of Section b are reasonable in light of the licenses fees paid under the License Agreement.

Some states do not allow exclusion of implied warranties or limitation of liability for incidental, special, punitive, or other indirect or consequential damages, so the limitations or exclusions of Sections 7 and 8 of the License Agreement may not apply to You. IN SUCH STATES, THE LIABILITY OF LICENSOR SHALL BE LIMITED TO THE GREATEST EXTENT PERMITTED BY LAW.

9. Miscellaneous

This Agreement, the license granted hereunder, the Software, any modifications thereto and any Services may not be assigned or in any way transferred without the prior written consent of Licensor. This Agreement is entered into solely for the respective benefit of the parties and their successors and assigns, and nothing in this Agreement will be construed as giving any right, remedy or claim under this Agreement to any third parties. Licensor shall not be in default to the extent that failure to perform any obligation under this Agreement is caused solely by supervening conditions beyond its control, including acts of God, fire, natural disaster, war, terrorism, riot or other civil disturbance, outages of electrical, telecommunications or computer server hosting services, acts of government or labor strikes or lockouts ("Force Majeure"). The terms of this Agreement shall be construed in accordance with the substantive laws of the Commonwealth of Massachusetts. The original of this Agreement has been written in English. The parties hereto waive any statute, law, or regulation that might provide an alternative law or forum or to have this Agreement written in any language other than English. Licensor and You exclude the United Nations Convention on Contracts for the International Sale of Goods and the Uniform Computer Information Transactions Act from this Agreement. If any provision of this Agreement is held to be excessively broad as to scope, activity, subject or otherwise so as to be unenforceable at law, such provision shall be constructed by limiting or reducing it so as to be enforceable to the maximum extent compatible with the applicable law as it shall then appear. This Agreement represents the entire understanding between the parties with respect to its subject matter and supersedes all prior written and oral communications. This Agreement may not be modified except by a written agreement signed by authorized representatives of both parties. A waiver by either party of its rights hereunder shall not be binding unless contained in a written agreement signed by an authorized representative of the party waiving its rights. The non-enforcement or waiver of any provision on one occasion shall not constitute a waiver of such provision on any other occasions unless expressly so agreed in writing. The relationship of the parties shall be that of independent contractors. Nothing herein shall be construed to create any agency, partnership, joint venture or similar relationship or to subject the parties to any implied duties or obligations respecting the conduct of their affairs which are not expressly stated herein. Neither party shall have any right or authority to assume or create any obligation or responsibility, either express or implied, on behalf of or in the name of the other party, or to bind the other party in any matter or thing whatsoever.

TBV ME Application Privacy Policy

TBV ME, Co., ("**TBV**", "**We**", "**Us**") has created this privacy policy ("**Privacy Policy**") in order to set out how we collect, use, and disclose personal information through the TBV platform and our related personal contact management services and applications (collectively, together with the TBV platform, the "**Services**"). Any capitalized terms in this Privacy Policy shall have the same meaning as set out in our Terms of Service.

The privacy of our users is of great importance to us. By using the Services in any manner, you acknowledge that you accept the practices and policies outlined in this Privacy Policy and you hereby consent to the collection, use and disclosure of your personal information in accordance with this Privacy Policy.

1 WHAT DOES THIS PRIVACY POLICY COVER?

This Privacy Policy covers our collection, use and disclosure of information about identifiable individuals ("**Personal Information**"), who use the Services ("**Users**").

2 COLLECTION AND USE OF PERSONAL INFORMATION

2.1 User Information

In order to use certain Services, Users must have a valid TBV App account to log into the Services ("**Account**").

When you register for an Account using email registration, TBV collects your name, cell phone number, email address, and location,. This Personal Information is used for the following purposes:

- Verifying the User's identity;
- Allowing Users to create a profile; and
- Contacting Users about relevant information related to the Services.

2.2 Transaction History

When Users use the Services, TBV collects information about the User's activity and transaction history. In particular, TBV keeps track of the device used to log in, the time of day, the time spent on the app, location, actions completed and IP address, and you may also be asked to provide other personal data such as age, location, gender, personal history, etc. ("Personal Information"). This Personal Information is used for the following purposes:

- To allow Users to keep track of their history;
- To store and report activities tracked by the Services;
- To support research and efficacy of the Services;

AMERICAN OVERSIGHT

- For TBV's accounting records;
- To enhance and customize User experience, including showing Users relevant contents; and
- To monitor compliance with our Terms of Service.

2.3 Marketing Communications

TBV will use the contact information provided to notify Users of important information that is relevant to the Services and for marketing communications if the User chooses to opt in. Despite your indicated e-mail preferences, we may send you relevant notices where permitted by law.

2.4 Usage Data

TBV may also collect certain information from Users of the Website and Services, such as Internet addresses, time spent logged into the Services and other usage data ("**Usage Data**"). This Usage Data is logged to help diagnose technical problems, and to administer our Website and Services in order to constantly improve the quality of the Website and Services.

2.5 Cookies

TBV uses tracking technologies, such as cookies, beacons, scripts and tags, are used by us and our third-party partners. These technologies are used in analyzing trends, administering the Services, tracking Users' movements around the Services, gathering demographic information about our User base as a whole and collecting information about your browsing activities over time and across different websites following your use of the Services. We may receive reports based on the use of these technologies by these companies on an individual and aggregated basis. Various browsers may offer their own management tools for removing these types of tracking technologies.

Standing alone, cookies do not identify you personally. They merely recognize your browser. Cookies come in two flavors: session and persistent-based. Session cookies exist only during an online session. They disappear from your computer when you close your browser software or turn off your computer. Persistent cookies remain on your computer after you've closed your browser or turned off your computer.

TBV uses session cookies containing encrypted information to allow the system to uniquely identify you while you are logged in. This information allows TBV to process online transactions and requests. Session cookies help us make sure you are who you say you are after you've logged in and are required in order to use the Service.

TBV uses persistent cookies that only TBV can read and use, to identify the fact that you are a TBV User. We are especially careful about the security and confidentiality of the information stored in persistent cookies. Users who disable their web browser's ability to

AMERICAN OVERSIGHT

accept cookies will be able to browse our Website but may not be able to use all features of our Services.

3 SECURITY AND STORAGE

3.1 Storage Location

TBV stores its data, including Personal Information, on Amazon Web Services servers located in the United States. By submitting any Personal Information or using the Services, you agree to this transfer, storing or processing of your Personal Information in the United States. You acknowledge and agree that your Personal Information may be accessible to law enforcement and governmental agencies in those countries under lawful access regimes or court order.

3.2 Security

The security of your Personal Information is important to us. We use commercially reasonable efforts to store and maintain your Personal Information in a secure environment. We take technical, contractual, administrative, and physical security steps designed to protect Personal Information that you provide to us. We have implemented procedures designed to limit the dissemination of your Personal Information to only such designated staff as are reasonably necessary to carry out the stated purposes we have communicated to you. However, no Internet or email transmission is ever fully secure or error free. In particular, email sent to or from the Services may not be secure. Therefore, you should take special care in deciding what information you send to us via email. Please keep this in mind when disclosing any Personal Information to us via the Internet.

You are also responsible for helping to protect the security of your Personal Information. For instance, never give out your email account information or password for the Services to third parties.

4 DISCLOSURE OF PERSONAL INFORMATION WITH THIRD PARTIES

4.1 Disclosure to our Service Providers

We may from time to time employ or engage other companies and people to perform tasks on our behalf and need to share Personal Information with them to provide the Services. Unless we tell you differently, we only provide such third parties with the Personal Information that they need to perform their specific function. This includes third party companies and individuals employed or engaged by us to facilitate our products and services, including the provision of maintenance services, database management, customer relationship management, web analytics and general improvement of the Services, and businesses who engage our Services (to the extent provided for above). In particular, TBV uses the following service providers: Google Cloud Platform, Amazon AWS, Stripe and Google Analytics.

AMERICAN OVERSIGHT

4.2 Business Transfers

If we (or any of our assets) are acquired, or if we go out of business, enter bankruptcy, or go through some other change of control, Personal Information may be made available or otherwise transferred to the new controlling entity, where permitted under applicable law.

4.3 With Your Consent

If we need to use or disclose any Personal Information in a way not identified in this Privacy Policy, we will notify you and/or obtain your express consent as required under applicable privacy laws.

4.4 Affiliates

We may also share your Personal Information with our subsidiaries or other affiliated companies for purposes consistent with this Privacy Policy.

4.5 As required by law

We may disclose your Personal Information to third parties without your consent if we have reason to believe that disclosing this information is necessary to identify, contact or bring legal action against someone who may be causing injury to or interference with (either intentionally or unintentionally) our rights or property, other Users, or anyone else (including the rights or property of anyone else) that could be harmed by such activities. Further, we may disclose Personal Information when we believe in good faith that such disclosure is required by and in accordance with the law. We also reserve the right to access, read, preserve, and disclose any information as we reasonably believe is necessary to:

- satisfy any applicable law, regulation, legal process or governmental request;
- enforce our contracts or user agreement (Terms of Service), including investigation of potential violations hereof; and
- detect, prevent, or otherwise address fraud, security or technical issues.

5 RETENTION

We will keep your Personal Information for as long as it remains necessary for the identified purpose or as required by law, which may extend beyond the termination of our relationship with you. We may retain certain data as necessary to prevent fraud or future abuse, or for legitimate business purposes, such as analysis of aggregated, non-personally-identifiable data, account recovery, or if required by law. All retained Personal Information will remain subject to the terms of this Privacy Policy.

6 ACCESS, CORRECTION AND ACCURACY

You have the right to access the Personal Information we hold about you in order to verify the Personal Information we have collected in respect to you and to have a general account of

AMERICAN OVERSIGHT

our uses of that information. Upon receipt of your written request, we will provide you with a copy of your Personal Information, although in certain limited circumstances, and as permitted under law, we may not be able to make all relevant information available to you, such as where that information also pertains to another User. In such circumstances we will provide reasons for the denial to you upon request. We will endeavor to deal with all requests for access and modifications in a timely manner.

We will make every reasonable effort to keep your Personal Information accurate and up to date, and we will provide you with mechanisms to update, correct, delete or add to your Personal Information as appropriate. As appropriate, this amended Personal Information will be transmitted to those parties to which we are permitted to disclose your information. Having accurate Personal Information about you enables us to give you the best possible service.

7 CHANGES TO THIS PRIVACY POLICY

We may amend this Privacy Policy from time to time. Use of Personal Information we collect is subject to the Privacy Policy in effect at the time such information is collected, used or disclosed. If we make material changes or changes in the way we use Personal Information, we will notify you by posting an announcement on our Website or sending you an email prior to the change becoming effective. You are bound by any changes to the Privacy Policy when you use the Website or Services after such changes have been first posted.

8 CHILDREN

TBV does not knowingly collect Personal Information from children under the age of 13. If you are under the age of 13, please do not submit any Personal Information through or use the Services. We encourage parents and legal guardians to monitor their children's Internet usage and to help enforce our Privacy Policy by instructing their children never to provide Personal Information through Services without their permission. If you have reason to believe that a child under the age of 13 has provided Personal Information to TBV through the Services, please contact us, and we will endeavor to delete that information from our databases.

9 LINKS TO OTHER WEBSITES AND SERVICES

This Privacy Policy applies only to the Services. The Services may contain links to other web sites or services not operated or controlled by TBV (the "Third Party Services"). The policies and procedures we described here do not apply to the Third Party Services. The links from the Services do not imply that we endorse or have reviewed the Third Party Services. We suggest contacting those third parties directly for information on their privacy policies.

10 EXCLUSIONS

AMERICAN OVERSIGHT

This Privacy Policy does not apply to any Personal Information collected by TBV other than Personal Information collected through the Services. This Privacy Policy shall not apply to any unsolicited information you provide to TBV through the Services or through any other means. This includes, but is not limited to, information posted to any public areas of the Services, such as forums, any ideas for new products or modifications to existing products, and other unsolicited submissions (collectively, "Unsolicited Information"). All Unsolicited Information shall be deemed to be non-confidential and TBV shall be free to reproduce, use, disclose, and distribute such Unsolicited Information to others without limitation or attribution.

11 ADDITIONAL INFORMATION

You can help by keeping us informed of any changes such as a change of address or telephone number. If you would like to access your Personal Information, if you have any questions, comments or suggestions about our Privacy Policy or practice, or if you find any errors in our Personal Information about you, please contact us at: support@tbvme.com

AMERICAN OVERSIGHT

Thank You Chair Ponder,

This bill allows for the option for Drug Courts to use electronic verification methods to ensure attendance at court ordered attendance to pre-trial treatment based programs.

There is an Amendment on the Bill-
The amendment is a product of working closely with staff to clarify the language from the Senate version. It changes the Thank You Mr. Chair and Thank You Staff for working with us on this good bill.

AMERICAN OVERSIGHT

“Shall” to “may” and provides for he focus on drug court programs.

Thank You Mr. Chair and Thank You Staff for working with us on this good bill.

AMERICAN OVERSIGHT

DUI Court

Sarasota **DUI Court** Program

The mission of DUI Court is to reduce the number of repeat DUI offenders by providing alternative community-based treatment, thereby increasing both offender productivity and public safety.

Target Population, Model & Structure

The Sarasota County DUI Court began June of 2008 within the 12th Judicial Circuit. This specialized court is very unique, there being only four other such courts in the state of Florida. The Sarasota DUI Court has received full support from the Sarasota County Board of County Commissioners and the Criminal Justice Commission. The program was started with the support of grant funds petitioned and awarded through the Highway Traffic Safety Administration of the Florida Department of Transportation.

The Sarasota DUI Court is dedicated to changing behavior by targeting offenders who are alcohol/drug dependent and are currently charged with a DUI and have 1 or more prior arrest(s) for alcohol and/or drug related offenses.

It has been noted that Florida is the third highest - ranking state in the country in alcohol related traffic fatalities. This specialty court has been designed to address this problem. Specialized DUI Courts are modeled after the highly successful Drug Court concept, having a graduated sanction/reward structure and following specific guiding principles. Furthermore, it adds elements within the court such as immediate accountability, mandatory counseling, case management, drug and alcohol testing, and community supervision. Statistics from operational DUI Courts show that recidivism decreases substantially after completion.

Upon acceptance of the offender's plea to the pending DUI charge the offender is placed on supervised probation for a period of at least one year. During this time, the DUI offender is required to comply with the mandatory statutory requirements of Florida Statutes 316.193 and 322.28 andcomplete all phases of DUI Court.

Staffing and Participants Progress

Each participant's progress is reported to the DUI Court through weekly team staffings held prior to court with the participants. Detailed status reports are prepared and copied for the Judge and all team members to review as a part of the staffing process. A review of their treatment and overall program status is discussed, along with any program violations and recommendations. The judge makes the final decision on all rewards and sanctioning.

Financial Requirements

Participants are required to provide a portion of costs towards their individualized DUI program. An initial $100.00 administrative fee and $200.00 monthly program fees are required. Mandatory financial contribution from participants has therapeutic benefits, allowing participants to be empowered having a sense of ownership through their steps of sobriety and recovery. Participants are also required to pay their mandatory minimum fines and supervision costs as ordered. In appropriate cases, participants deemed qualified by the judge may work off all or part of their fines and court costs by doing community service work. *Section 938.30, Florida Statutes (2016).*

Eligibility Requirements for **DUI Court**

- ✔ Defendant currently charged with Driving Under the Influence.

TBV ME Application Privacy Policy

TBV ME, Co., ("**TBV**", "**We**", "**Us**") has created this privacy policy ("**Privacy Policy**") in order to set out how we collect, use, and disclose personal information through the TBV platform and our related personal contact management services and applications (collectively, together with the TBV platform, the "**Services**"). Any capitalized terms in this Privacy Policy shall have the same meaning as set out in our Terms of Service.

The privacy of our users is of great importance to us. By using the Services in any manner, you acknowledge that you accept the practices and policies outlined in this Privacy Policy and you hereby consent to the collection, use and disclosure of your personal information in accordance with this Privacy Policy.

1 WHAT DOES THIS PRIVACY POLICY COVER?

This Privacy Policy covers our collection, use and disclosure of information about identifiable individuals ("**Personal Information**"), who use the Services ("**Users**").

2 COLLECTION AND USE OF PERSONAL INFORMATION

2.1 User Information

In order to use certain Services, Users must have a valid TBV App account to log into the Services ("**Account**").

When you register for an Account using email registration, TBV collects your name, cell phone number, email address, and location,. This Personal Information is used for the following purposes:

- Verifying the User's identity;
- Allowing Users to create a profile; and
- Contacting Users about relevant information related to the Services.

2.2 Transaction History

When Users use the Services, TBV collects information about the User's activity and transaction history. In particular, TBV keeps track of the device used to log in, the time of day, the time spent on the app, location, actions completed and IP address, and you may also be asked to provide other personal data such as age, location, gender, personal history, etc. ("Personal Information"). This Personal Information is used for the following purposes:

- To allow Users to keep track of their history;
- To store and report activities tracked by the Services;
- To support research and efficacy of the Services;
- For TBV's accounting records;
- To enhance and customize User experience, including showing Users relevant contents; and
- To monitor compliance with our Terms of Service.

AMERICAN OVERSIGHT

2.3 Marketing Communications

TBV will use the contact information provided to notify Users of important information that is relevant to the Services and for marketing communications if the User chooses to opt in. Despite your indicated e-mail preferences, we may send you relevant notices where permitted by law.

2.4 Usage Data

TBV may also collect certain information from Users of the Website and Services, such as Internet addresses, time spent logged into the Services and other usage data ("**Usage Data**"). This Usage Data is logged to help diagnose technical problems, and to administer our Website and Services in order to constantly improve the quality of the Website and Services.

2.5 Cookies

TBV uses tracking technologies, such as cookies, beacons, scripts and tags, are used by us and our third-party partners. These technologies are used in analyzing trends, administering the Services, tracking Users' movements around the Services, gathering demographic information about our User base as a whole and collecting information about your browsing activities over time and across different websites following your use of the Services. We may receive reports based on the use of these technologies by these companies on an individual and aggregated basis. Various browsers may offer their own management tools for removing these types of tracking technologies.

Standing alone, cookies do not identify you personally. They merely recognize your browser. Cookies come in two flavors: session and persistent-based. Session cookies exist only during an online session. They disappear from your computer when you close your browser software or turn off your computer. Persistent cookies remain on your computer after you've closed your browser or turned off your computer.

TBV uses session cookies containing encrypted information to allow the system to uniquely identify you while you are logged in. This information allows TBV to process online transactions and requests. Session cookies help us make sure you are who you say you are after you've logged in and are required in order to use the Service.

TBV uses persistent cookies that only TBV can read and use, to identify the fact that you are a TBV User. We are especially careful about the security and confidentiality of the information stored in persistent cookies. Users who disable their web browser's ability to accept cookies will be able to browse our Website but may not be able to use all features of our Services.

3 SECURITY AND STORAGE

3.1 Storage Location

TBV stores its data, including Personal Information, on Amazon Web Services servers located in the United States. By submitting any Personal Information or using the Services, you agree to this transfer, storing or processing of your Personal Information in the United States. You acknowledge and agree that your Personal Information may be accessible to law enforcement and governmental agencies in those countries under lawful access regimes or court order.

AMERICAN OVERSIGHT

3.2 Security

The security of your Personal Information is important to us. We use commercially reasonable efforts to store and maintain your Personal Information in a secure environment. We take technical, contractual, administrative, and physical security steps designed to protect Personal Information that you provide to us. We have implemented procedures designed to limit the dissemination of your Personal Information to only such designated staff as are reasonably necessary to carry out the stated purposes we have communicated to you. However, no Internet or email transmission is ever fully secure or error free. In particular, email sent to or from the Services may not be secure. Therefore, you should take special care in deciding what information you send to us via email. Please keep this in mind when disclosing any Personal Information to us via the Internet.

You are also responsible for helping to protect the security of your Personal Information. For instance, never give out your email account information or password for the Services to third parties.

4 DISCLOSURE OF PERSONAL INFORMATION WITH THIRD PARTIES

4.1 Disclosure to our Service Providers

We may from time to time employ or engage other companies and people to perform tasks on our behalf and need to share Personal Information with them to provide the Services. Unless we tell you differently, we only provide such third parties with the Personal Information that they need to perform their specific function. This includes third party companies and individuals employed or engaged by us to facilitate our products and services, including the provision of maintenance services, database management, customer relationship management, web analytics and general improvement of the Services, and businesses who engage our Services (to the extent provided for above). In particular, TBV uses the following service providers: Google Cloud Platform, Amazon AWS, Stripe and Google Analytics.

4.2 Business Transfers

If we (or any of our assets) are acquired, or if we go out of business, enter bankruptcy, or go through some other change of control, Personal Information may be made available or otherwise transferred to the new controlling entity, where permitted under applicable law.

4.3 With Your Consent

If we need to use or disclose any Personal Information in a way not identified in this Privacy Policy, we will notify you and/or obtain your express consent as required under applicable privacy laws.

4.4 Affiliates

We may also share your Personal Information with our subsidiaries or other affiliated companies for purposes consistent with this Privacy Policy.

4.5 As required by law

We may disclose your Personal Information to third parties without your consent if we have reason to believe that disclosing this information is necessary to identify, contact or bring legal action against

AMERICAN OVERSIGHT

someone who may be causing injury to or interference with (either intentionally or unintentionally) our rights or property, other Users, or anyone else (including the rights or property of anyone else) that could be harmed by such activities. Further, we may disclose Personal Information when we believe in good faith that such disclosure is required by and in accordance with the law. We also reserve the right to access, read, preserve, and disclose any information as we reasonably believe is necessary to:

- satisfy any applicable law, regulation, legal process or governmental request;
- enforce our contracts or user agreement (Terms of Service), including investigation of potential violations hereof; and
- detect, prevent, or otherwise address fraud, security or technical issues.

5 RETENTION

We will keep your Personal Information for as long as it remains necessary for the identified purpose or as required by law, which may extend beyond the termination of our relationship with you. We may retain certain data as necessary to prevent fraud or future abuse, or for legitimate business purposes, such as analysis of aggregated, non-personally-identifiable data, account recovery, or if required by law. All retained Personal Information will remain subject to the terms of this Privacy Policy.

6 ACCESS, CORRECTION AND ACCURACY

You have the right to access the Personal Information we hold about you in order to verify the Personal Information we have collected in respect to you and to have a general account of our uses of that information. Upon receipt of your written request, we will provide you with a copy of your Personal Information, although in certain limited circumstances, and as permitted under law, we may not be able to make all relevant information available to you, such as where that information also pertains to another User. In such circumstances we will provide reasons for the denial to you upon request. We will endeavor to deal with all requests for access and modifications in a timely manner.

We will make every reasonable effort to keep your Personal Information accurate and up to date, and we will provide you with mechanisms to update, correct, delete or add to your Personal Information as appropriate. As appropriate, this amended Personal Information will be transmitted to those parties to which we are permitted to disclose your information. Having accurate Personal Information about you enables us to give you the best possible service.

7 CHANGES TO THIS PRIVACY POLICY

We may amend this Privacy Policy from time to time. Use of Personal Information we collect is subject to the Privacy Policy in effect at the time such information is collected, used or disclosed. If we make material changes or changes in the way we use Personal Information, we will notify you by posting an announcement on our Website or sending you an email prior to the change becoming effective. You are bound by any changes to the Privacy Policy when you use the Website or Services after such changes have been first posted.

8 CHILDREN

TBV does not knowingly collect Personal Information from children under the age of 13. If you are under the age of 13, please do not submit any Personal Information through or use the Services. We encourage parents and legal guardians to monitor their children's Internet usage and to help enforce

AMERICAN OVERSIGHT

our Privacy Policy by instructing their children never to provide Personal Information through Services without their permission. If you have reason to believe that a child under the age of 13 has provided Personal Information to TBV through the Services, please contact us, and we will endeavor to delete that information from our databases.

9 LINKS TO OTHER WEBSITES AND SERVICES

This Privacy Policy applies only to the Services. The Services may contain links to other web sites or services not operated or controlled by TBV (the "Third Party Services"). The policies and procedures we described here do not apply to the Third Party Services. The links from the Services do not imply that we endorse or have reviewed the Third Party Services. We suggest contacting those third parties directly for information on their privacy policies.

10 EXCLUSIONS

This Privacy Policy does not apply to any Personal Information collected by TBV other than Personal Information collected through the Services. This Privacy Policy shall not apply to any unsolicited information you provide to TBV through the Services or through any other means. This includes, but is not limited to, information posted to any public areas of the Services, such as forums, any ideas for new products or modifications to existing products, and other unsolicited submissions (collectively, "Unsolicited Information"). All Unsolicited Information shall be deemed to be non-confidential and TBV shall be free to reproduce, use, disclose, and distribute such Unsolicited Information to others without limitation or attribution.

11 ADDITIONAL INFORMATION

You can help by keeping us informed of any changes such as a change of address or telephone number. If you would like to access your Personal Information, if you have any questions, comments or suggestions about our Privacy Policy or practice, or if you find any errors in our Personal Information about you, please contact us at: support@tbvme.com

Subject: Jeb Bush & Ari Fleischer to deliver keynotes - Presidents Day in South Florida - your invitation to attend

Hello,

We are extremely pleased to present the 43rd Governor of Florida (1999-2007) as our keynote speaker on Presidents Day (February 17, 2020), and Ari Fleischer, the 21st White House Press Secretary, for President George W. Bush on February 18, 2020, at our sixteenth annual small & microcap investor conference to be held at the all-new, flagship Hard Rock "Guitar" Hotel in Hollywood, Florida. Both featured speakers will open each day of conference in the Seminole Grand Ballroom at 8:30am. Both Governor Bush and Mr. Fleischer's keynote address will be followed by a moderated question and answer period.

These two gentlemen offer unique insights on the 2020 presidential race like no others. And from a decidedly Florida perspective. Jeb Bush has lived in Florida since 1980 and before becoming governor, was the state's Secretary of Commerce. In 1988 he joined his father's successful campaign for the Presidency. As we all know he was also a presidential candidate in 2016. Before being tapped by President Bush to become the first press secretary of his administration, he served as the spokesperson during the historic presidential recount in Florida.

By way of background, NobleCon brings together c-suite executives of emerging growth companies (125 public companies represented) and the broad investment community (institutional investors, investment advisors, family offices, self-directed investors, independent brokers and equity analysts). These are the companies that may represent the next breakthrough in science, technology and medicine. NobleCon helps build awareness for these companies so they can attract investment support in order to complete their missions. As sponsors of NobleCon, with our roots in Florida since 1984, Noble Capital Markets is intrinsically interested in promoting companies domiciled in our state or those (we think) should be. We have offered Governor DeSantis an opportunity to promote the advantages of having a Florida corporate address, unfortunately his schedule cannot accommodate our invitation.

We would like to invite you to attend our keynote addresses or, if you have a passion for sitting in on the presentations of these corporate leaders and the other events the conference features, you are welcome to attend the entire conference at a significantly reduced attendance fee: Jeb Bush / Ari Fleischer Keynotes: $49 for one or $79 for both; full access to NobleCon16 is $149.

Here is the conference website so you can get all of the detailswww.nobleconference.com. Here is a link to register for the event(s): registration

In closing, we wish to thank you for your public service and doing your part in making Florida the greatest state in the union!

Subject: Jeb Bush & Ari Fleischer to deliver keynotes - Presidents Day in South Florida - your invitation to attend

Hello,

We are extremely pleased to present the 43rd Governor of Florida (1999-2007) as our keynote speaker on Presidents Day (February 17, 2020), and Ari Fleischer, the 21st White House Press Secretary, for President George W. Bush on February 18, 2020, at our sixteenth annual small & microcap investor conference to be held at the all-new, flagship Hard Rock "Guitar" Hotel in Hollywood, Florida. Both featured speakers will open each day of conference in the Seminole Grand Ballroom at 8:30am. Both Governor Bush and Mr. Fleischer's keynote address will be followed by a moderated question and answer period.

These two gentlemen offer unique insights on the 2020 presidential race like no others. And from a decidedly Florida perspective. Jeb Bush has lived in Florida since 1980 and before becoming governor, was the state's Secretary of Commerce. In 1988 he joined his father's successful campaign for the Presidency. As we all know he was also a presidential candidate in 2016. 161.054

Administrative fines; liability for damage; liens.—
(1) In addition to the penalties provided for in ss. 161.052, 161.053, and 161.121, any person, firm, corporation, or governmental agency, or agent thereof, refusing to comply with or willfully violating any of the provisions of s. 161.041, s. 161.052, or s. 161.053, or any rule or order prescribed by the department thereunder, shall incur a fine for each offense in an amount up to ~~**$10,000**~~ **$15,000** to be fixed, imposed, and collected by the department. **Until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense.

AMERICAN OVERSIGHT

252.941

Prohibitions, violations, penalties, intent.—

(2) Any person who willfully commits a violation specified in subsection (1) is guilty of a misdemeanor of the first degree punishable as provided in s. 775.083(1)(g) by a fine of not more than ~~**$10,000**~~ **$15,000** for each offense. **Until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense.

AMERICAN OVERSIGHT

258.397

Biscayne Bay Aquatic Preserve.—

(7) ENFORCEMENT.—The provisions of this section may be enforced in accordance with the provisions of s. 403.412. In addition, the Department of Legal Affairs is authorized to bring an action for civil penalties of ~~**$5,000**~~ **$7,500** per day against any person, natural or corporate, who violates the provisions of this section or any rule or regulation issued hereunder **and until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense. Enforcement of applicable state regulations shall be supplemented by the Miami-Dade County Department of Environmental Resources Management through the creation of a full-time enforcement presence along the Miami River.

AMERICAN OVERSIGHT

258.46

Enforcement; violations; penalty.—The provisions of this act may be enforced by the Board of Trustees of the Internal Improvement Trust Fund or in accordance with the provisions of s. 403.412. However, any violation by any person, natural or corporate, of the provisions of this act or any rule or regulation issued hereunder shall be further punishable by a civil penalty of not less than **~~$500~~ $750** per day or more than **~~$5,000~~ $7,500** per day of such violation **and until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense.

AMERICAN OVERSIGHT

373.129

Maintenance of actions.—The department, the governing board of any water management district, any local board, or a local government to which authority has been delegated pursuant to s. 373.103(8), is authorized to commence and maintain proper and necessary actions and proceedings in any court of competent jurisdiction for any of the following purposes:

(5) To recover a civil penalty for each offense in an amount not to exceed ~~**$10,000**~~ **$15,000** per offense. **Until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense.

AMERICAN OVERSIGHT

373.209

Artesian wells; penalties for violation.—

(3) Any person who violates any provision of this section shall be subject to either:

(a) The remedial measures provided for in s. 373.436; or

(b) A civil penalty of ~~**$100**~~ **$150** a day for each and every day of such violation and for each and every act of violation. The civil penalty may be recovered by the water management board of the water management district in which the well is located or by the department in a suit in a court of competent jurisdiction in the county where the defendant resides, in the county of residence of any defendant if there is more than one defendant, or in the county where the violation took place. The place of suit shall be selected by the board or department, and the suit, by direction of the board or department, shall be instituted and conducted in the name of the board or department by appropriate counsel. The payment of any such damages does not impair or abridge any cause of action which any person may have against the person violating any provision of this section.

AMERICAN OVERSIGHT

373.430

Prohibitions, violation, penalty, intent.—

(3) Any person who willfully commits a violation specified in paragraph (1)(a) is guilty of a felony of the third degree, punishable as provided in ss. 775.082(3)(e) and 775.083(1)(g), by a fine of not more than $50,000 or by imprisonment for 5 years, or by both, for each offense. **Until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense.

(4) Any person who commits a violation specified in paragraph (1)(a) **or paragraph (1)(b)** due to reckless indifference or gross careless disregard is guilty of a misdemeanor of the second degree, punishable as provided in ss. 775.082(4)(b) and 775.083(1)(g), by a fine of not more than ~~**$5,000**~~ **$10,000** or 60 days in jail, or by both, for each offense.

(5) Any person who willfully commits a violation specified in paragraph (1)(b) or **commits a violation specified in** paragraph (1)(c) is guilty of a misdemeanor of the first degree, punishable as provided in ss. 775.082(4)(a) and 775.083(1)(g), by a fine of not more than $10,000 or by 6 months in jail, or by both, for each offense.

AMERICAN OVERSIGHT

(5)(a) A person who violates this section or the terms and requirements of such certification commits a noncriminal infraction. The civil penalty for any such infraction shall be ~~**$500**~~ **$750**, except as otherwise provided in this section.

(e) A person who elects to appear before the county court or who is required to so appear waives the limitations of the civil penalty specified in paragraph (a). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of the infraction is proved, the court shall impose a civil penalty of ~~**$500**~~ **$750**.

AMERICAN OVERSIGHT

376.071

Discharge contingency plan for vessels.—

(2)(a) A master of a vessel that violates subsection (1) commits a noncriminal infraction and shall be cited for such infraction. The civil penalty for such an infraction shall be ~~**$5,000**~~ **$7,500**, except as otherwise provided in this subsection.

(e) A person who elects to appear before the county court or who is required to appear waives the limitations of the civil penalty specified in paragraph (a). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of the infraction is proved, the court shall impose a civil penalty of ~~**$5,000**~~ **$7,500**.

AMERICAN OVERSIGHT

376.16

Enforcement and penalties.—

(1) It is unlawful for any person to violate any provision of ss. 376.011-376.21 or any rule or order of the department made pursuant to this act. Violation shall be punishable by a civil penalty of up to ~~**$50,000**~~ **$75,000** per violation per day to be assessed by the department. **Until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense. The penalty provisions of this subsection shall not apply to any discharge promptly reported and removed by a person responsible, in accordance with the rules and orders of the department, or to any discharge of pollutants equal to or less than 5 gallons.

(2) In addition to the penalty provisions which may apply under subsection (1), a person responsible for two or more discharges of any pollutant reported pursuant to s. 376.12 within a 12-month period at the same facility commits a noncriminal infraction and shall be cited by the department for such infraction.

(a) For discharges of gasoline or diesel over 5 gallons, the civil penalty for the second discharge shall be ~~**$500**~~ **$750** and the civil penalty for each subsequent discharge within a 12-month period shall be ~~**$1,000**~~ **$1,500**, except as otherwise provided in this section.

(b) For discharges of any pollutant other than gasoline or diesel, the civil penalty for a second discharge shall be ~~**$2,500**~~ **$3,750** and the civil penalty for each subsequent discharge within a 12-month period shall be ~~**$5,000**~~ **$7,500**, except as otherwise provided in this section.

AMERICAN OVERSIGHT

(3) A person responsible for two or more discharges of any pollutant reported pursuant to s. 376.12 within a 12-month period at the same facility commits a noncriminal infraction and shall be cited by the department for such infraction.

(a) For discharges of gasoline or diesel equal to or less than 5 gallons, the civil penalty shall be ~~$50~~ **$75** for each discharge subsequent to the first.

(b) For discharges of pollutants other than gasoline or diesel equal to or less than 5 gallons, the civil penalty shall be ~~$100~~ **$150** for each discharge subsequent to the first.

(7) Any person who elects to appear before the county court or who is required to appear waives the limitations of the civil penalties specified in subsection (2). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of an infraction is proved, the court may impose a civil penalty up to, but not exceeding, ~~$500~~ **$750** for the second discharge of gasoline or diesel and a civil penalty up to, but not exceeding, ~~$1,000~~ **$1,500** for each subsequent discharge of gasoline or diesel within a 12-month period.

(8) Any person who elects to appear before the county court or who is required to appear waives the limitations of the civil penalties specified in subsection (2) or subsection (3). The court, after a hearing, shall make a determination as to whether an infraction has been committed. If the commission of an infraction is proved, the court may impose a civil penalty up to, but not exceeding, ~~$5,000~~ **$7,500** for the second discharge of pollutants other than gasoline or diesel and a civil penalty up to, but not exceeding, ~~$10,000~~ **$15,000** for each subsequent discharge of pollutants other than gasoline or diesel within a 12-month period.

AMERICAN OVERSIGHT

376.25

Gambling vessels; registration; required and prohibited releases.—

(6) PENALTIES.—

(a) A person who violates this section is subject to a civil penalty of not more than ~~**$50,000**~~ **$75,000** for each violation. **Until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.**

AMERICAN OVERSIGHT

376.302

Prohibited acts; penalties.—

(3) Any person who willfully commits a violation specified in paragraph (1)(a) or paragraph (1)(b) shall be guilty of a misdemeanor of the first degree punishable as provided in ss. 775.082(4)(a) and 775.083(1)(g), by a fine of not less than $2,500 or more than $25,000, or punishable by 1 year in jail, or by both for each offense. **Until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense.

AMERICAN OVERSIGHT

377.37

Penalties.—

(1)(a) Any person who violates any provision of this law or any rule, regulation, or order of the division made under this chapter or who violates the terms of any permit to drill for or produce oil, gas, or other petroleum products referred to in s. 377.242(1) or to store gas in a natural gas storage facility, or any lessee, permitholder, or operator of equipment or facilities used in the exploration for, drilling for, or production of oil, gas, or other petroleum products, or storage of gas in a natural gas storage facility, who refuses inspection by the division as provided in this chapter, is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air, waters, and property, including animal, plant, and aquatic life, of the state. Furthermore, such person, lessee, permitholder, or operator is subject to the judicial imposition of a civil penalty in an amount of not more than ~~**$10,000**~~ **$15,000** for each offense. However, the court may receive evidence in mitigation. **Until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense. Nothing herein shall give the department the right to bring an action on behalf of any private person.

AMERICAN OVERSIGHT

378.211

Violations; damages; penalties.—

(2) The department may institute a civil action in a court of competent jurisdiction to impose and recover a civil penalty for violation of this part or of any rule adopted or order issued pursuant to this part. The penalty shall not exceed the following amounts, and the court shall consider evidence in mitigation:

(a) For violations of a minor or technical nature, ~~**$100**~~ **$150** per violation.

(b) For major violations by an operator on which a penalty has not been imposed under this paragraph during the previous 5 years, ~~**$1,000**~~ **$1,500** per violation.

(c) For major violations not covered by paragraph (b), ~~**$5,000**~~ **$7,500** per violation.

Subject to the provisions of subsection (4), **until a violation is resolved by order or judgment, each day during any portion of which such violation occurs or is not remediated constitutes a separate offense.**

AMERICAN OVERSIGHT

403.086

Sewage disposal facilities; advanced and secondary waste treatment.—

(2) Any facilities for sanitary sewage disposal shall provide for secondary waste treatment and, in addition thereto, advanced waste treatment as deemed necessary and ordered by the Department of Environmental Protection. Failure to conform shall be punishable by a civil penalty of ~~**$500**~~ **$750** for each 24-hour day or fraction thereof that such failure is allowed to continue thereafter.

AMERICAN OVERSIGHT

403.121

Enforcement; procedure; remedies.—The department shall have the following judicial and administrative remedies available to it for violations of this chapter, as specified in s. 403.161(1).

(1) Judicial remedies:

(b) The department may institute a civil action in a court of competent jurisdiction to impose and to recover a civil penalty for each violation in an amount of not more than ~~**$10,000**~~ **$15,000** per offense. However, the court may receive evidence in mitigation. **Until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense.

(2) Administrative remedies:

(b) If the department has reason to believe a violation has occurred, it may institute an administrative proceeding to order the prevention, abatement, or control of the conditions creating the violation or other appropriate corrective action. Except for violations involving hazardous wastes, $asbestos, or underground injection, the department shall proceed administratively in all cases in which the department seeks administrative penalties that do not exceed of ~~**$10,000**~~ **$50,000** per assessment as calculated in accordance with subsections (3), (4), (5), (6), and (7). Pursuant to 42 U.S.C. s. 300g-2, the administrative penalty assessed pursuant to subsection (3), subsection (4), or subsection (5) against a public water system serving a population of more than 10,000 shall be not less than $1000 per day per violation. The department shall not impose administrative penalties in excess of ~~**$10,000**~~ **$50,000** in a notice of violation. The department shall not have more than one notice of violation seeking administrative penalties pending against the same party at the same time unless the violations occurred at a different site or the violations were discovered

AMERICAN OVERSIGHT

by the department subsequent to the filing of a previous notice of violation.

(g) Nothing herein shall be construed as preventing any other legal or administrative action in accordance with law. Nothing in this subsection shall limit the department's authority provided in ss. 403.131, 403.141, and this section to judicially pursue injunctive relief. When the department exercises its authority to judicially pursue injunctive relief, penalties in any amount up to the statutory maximum sought by the department must be pursued as part of the state court action and not by initiating a separate administrative proceeding. The department retains the authority to judicially pursue penalties in excess of ~~**$10,000**~~ **$50,000** for violations not specifically included in the administrative penalty schedule, or for multiple or multiday violations alleged to exceed a total of ~~**$10,000**~~ **$50,000**. The department also retains the authority provided in ss. 403.131, 403.141, and this section to judicially pursue injunctive relief and damages, if a notice of violation seeking the imposition of administrative penalties has not been issued. The department has the authority to enter into a settlement, either before or after initiating a notice of violation, and the settlement may include a penalty amount different from the administrative penalty schedule. Any case filed in state court because it is alleged to exceed a total of ~~**$10,000**~~ **$50,000** in penalties may be settled in the court action for less than ~~**$10,000**~~ **$50,000**.

(3) Except for violations involving hazardous wastes, asbestos, or underground injection, administrative penalties must be calculated according to the following schedule:

(a) For a drinking water contamination violation, the department shall assess a penalty of ~~**$2,000**~~ **$3,000** for a Maximum Containment Level (MCL) violation; plus ~~**$1,000**~~ **$1,500** if the violation is for a primary inorganic, organic, or radiological

AMERICAN OVERSIGHT

Maximum Contaminant Level or it is a fecal coliform bacteria violation; plus ~~$1,000~~ $1,500 if the violation occurs at a community water system; and plus ~~$1,000~~ $1,500 if any Maximum Contaminant Level is exceeded by more than 100 percent. For failure to obtain a clearance letter prior to placing a drinking water system into service when the system would not have been eligible for clearance, the department shall assess a penalty of ~~$3,000~~ $4,500.

(b) For failure to obtain a required wastewater permit, other than a permit required for surface water discharge, the department shall assess a penalty of ~~$1,000~~ $1,500. For a domestic or industrial wastewater violation not involving a surface water or groundwater quality violation, the department shall assess a penalty of ~~$2,000~~ $3,000 for an unpermitted or unauthorized discharge or effluent-limitation exceedance. For an unpermitted or unauthorized discharge or effluent-limitation exceedance that resulted in a surface water or groundwater quality violation, the department shall assess a penalty of ~~$5,000~~ $7,500.

(c) For a dredge and fill or stormwater violation, the department shall assess a penalty of ~~$1,000~~ $1,500 for unpermitted or unauthorized dredging or filling or unauthorized construction of a stormwater management system against the person or persons responsible for the illegal dredging or filling, or unauthorized construction of a stormwater management system plus ~~$2,000~~ $3,000 if the dredging or filling occurs in an aquatic preserve, Outstanding Florida Water, conservation easement, or Class I or Class II surface water, plus ~~$1,000~~ $1,500 if the area dredged or filled is greater than one-quarter acre but less than or equal to one-half acre, and plus ~~$1,000~~ $1,500 if the area dredged or filled is greater than one-half acre but less than or equal to one acre. The administrative

AMERICAN OVERSIGHT

penalty schedule shall not apply to a dredge and fill violation if the area dredged or filled exceeds one acre. The department retains the authority to seek the judicial imposition of civil penalties for all dredge and fill violations involving more than one acre. The department shall assess a penalty of ~~$3,000~~ **$4,500** for the failure to complete required mitigation, failure to record a required conservation easement, or for a water quality violation resulting from dredging or filling activities, stormwater construction activities or failure of a stormwater treatment facility. For stormwater management systems serving less than 5 acres, the department shall assess a penalty of ~~$2,000~~ **$3,000** for the failure to properly or timely construct a stormwater management system. In addition to the penalties authorized in this subsection, the department shall assess a penalty of ~~$5,000~~ **$7,500** per violation against the contractor or agent of the owner or tenant that conducts unpermitted or unauthorized dredging or filling. For purposes of this paragraph, the preparation or signing of a permit application by a person currently licensed under chapter 471 to practice as a professional engineer shall not make that person an agent of the owner or tenant.

(d) For mangrove trimming or alteration violations, the department shall assess a penalty of ~~$5,000~~ **$7,500** per violation against the contractor or agent of the owner or tenant that conducts mangrove trimming or alteration without a permit as required by s. 403.9328. For purposes of this paragraph, the preparation or signing of a permit application by a person currently licensed under chapter 471 to practice as a professional engineer shall not make that person an agent of the owner or tenant.

(e) For solid waste violations, the department shall assess a penalty of ~~$2,000~~ **$3,000** for the unpermitted or unauthorized

AMERICAN OVERSIGHT

disposal or storage of solid waste; plus $1,000 if the solid waste is Class I or Class III (excluding yard trash) or if the solid waste is construction and demolition debris in excess of 20 cubic yards, plus ~~**$1,000**~~ **$1,500** if the waste is disposed of or stored in any natural or artificial body of water or within 500 feet of a potable water well, plus ~~**$1,000**~~ **$1,500** if the waste contains PCB at a concentration of 50 parts per million or greater; untreated biomedical waste; friable asbestos greater than 1 cubic meter which is not wetted, bagged, and covered; used oil greater than 25 gallons; or 10 or more lead acid batteries. The department shall assess a penalty of ~~**$3,000**~~ **$4,500** for failure to properly maintain leachate control; unauthorized burning; failure to have a trained spotter on duty at the working face when accepting waste; failure to provide access control for three consecutive inspections. The department shall assess a penalty of ~~**$2,000**~~ **$3,000** for failure to construct or maintain a required stormwater management system.

(f) For an air emission violation, the department shall assess a penalty of ~~**$1,000**~~ **$1,500** for an unpermitted or unauthorized air emission or an air-emission-permit exceedance, ~~plus $1,000 if the emission results in an air quality violation,~~ plus ~~**$3,000**~~ **$4,500** if the emission was from a major source and the source was major for the pollutant in violation; plus ~~**$1,000**~~ **$1,500** if the emission was more than 150 percent of the allowable level.

(g) For storage tank system and petroleum contamination violations, the department shall assess a penalty of ~~**$5,000**~~ **$7,500** for failure to empty a damaged storage system as necessary to ensure that a release does not occur until repairs to the storage system are completed; when a release has occurred from that storage tank system; for failure to timely recover free product; or for failure to conduct remediation or monitoring activities until a no-further-action or site-

AMERICAN OVERSIGHT

rehabilitation completion order has been issued. The department shall assess a penalty of ~~$3,000~~ **$4,500** for failure to timely upgrade a storage tank system. The department shall assess a penalty of ~~$2,000~~ **$3,000** for failure to conduct or maintain required release detection; failure to timely investigate a suspected release from a storage system; depositing motor fuel into an unregistered storage tank system; failure to timely assess or remediate petroleum contamination; or failure to properly install a storage tank system. The department shall assess a penalty of $~~$1,000~~ **$1,500** for failure to properly operate, maintain, or close a storage tank system.

(4) In an administrative proceeding, in addition to the penalties that may be assessed under subsection (3), the department shall assess administrative penalties according to the following schedule:

(a) For failure to satisfy financial responsibility requirements or for violation of s. 377.371(1), ~~$5,000~~ **$7,500**.

(b) For failure to install, maintain, or use a required pollution control system or device, ~~$4,000~~ **$6,000**.

(c) For failure to obtain a required permit before construction or modification, ~~$3,000~~ **$4,500**.

(d) For failure to conduct required monitoring or testing; failure to conduct required release detection; or failure to construct in compliance with a permit, ~~$2,000~~ **$3,000**.

(e) For failure to maintain required staff to respond to emergencies; failure to conduct required training; failure to prepare, maintain, or update required contingency plans; failure to adequately respond to emergencies to bring an emergency situation under control; or failure to submit required notification to the department, ~~$1,000~~ **$1,500**.

(f) Except as provided in subsection (2) with respect to public water systems serving a population of more than 10,000, for

AMERICAN OVERSIGHT

failure to prepare, submit, maintain, or use required reports or other required documentation, ~~$500~~ **$750**.

(5) Except as provided in subsection (2) with respect to public water systems serving a population of more than 10,000, for failure to comply with any other departmental regulatory statute or rule requirement not otherwise identified in this section, the department may assess a penalty of ~~$500~~ **$1000**.

(6) For each additional day during which a violation occurs, the administrative penalties in subsection (3), subsection (4), and subsection (5) may be assessed per day per violation.

(7) The history of noncompliance of the violator for any previous violation resulting in an executed consent order, but not including a consent order entered into without a finding of violation, or resulting in a final order or judgment after the effective date of this law involving the imposition of ~~$2,000~~ **$3,000** or more in penalties shall be taken into consideration in the following manner:

(a) One previous such violation within 5 years prior to the filing of the notice of violation will result in a 25-percent per day increase in the scheduled administrative penalty.

(b) Two previous such violations within 5 years prior to the filing of the notice of violation will result in a 50-percent per day increase in the scheduled administrative penalty.

(c) Three or more previous such violations within 5 years prior to the filing of the notice of violation will result in a 100-percent per day increase in the scheduled administrative penalty.

(8) The direct economic benefit gained by the violator from the violation, where consideration of economic benefit is provided by Florida law or required by federal law as part of a federally delegated or approved program, shall be added to the scheduled administrative penalty. The total administrative penalty,

AMERICAN OVERSIGHT

including any economic benefit added to the scheduled administrative penalty, shall not exceed ~~**$10,000**~~ **$15,000**.

(9) The administrative penalties assessed for any particular violation shall not exceed ~~**$5,000**~~ **$7,500** against any one violator, unless the violator has a history of noncompliance, the economic benefit of the violation as described in subsection (8) exceeds ~~**$5,000**~~ **$7,500**, or there are multiday violations. The total administrative penalties shall not exceed ~~**$10,000**~~ **$50,000** per assessment for all violations attributable to a specific person in the notice of violation.

AMERICAN OVERSIGHT

403.141

Civil liability; joint and several liability.—

(1) Whoever commits a violation specified in s. 403.161(1) is liable to the state for any damage caused to the air, waters, or property, including animal, plant, or aquatic life, of the state and for reasonable costs and expenses of the state in tracing the source of the discharge, in controlling and abating the source and the pollutants, and in restoring the air, waters, and property, including animal, plant, and aquatic life, of the state to their former condition, and furthermore is subject to the judicial imposition of a civil penalty for each offense in an amount of not more than ~~**$10,000**~~ **$15,000** per offense. However, the court may receive evidence in mitigation. **Until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense. Nothing herein shall give the department the right to bring an action on behalf of any private person.

AMERICAN OVERSIGHT

403.161

Prohibitions, violation, penalty, intent.—

(3) Any person who willfully commits a violation specified in paragraph (1)(a) is guilty of a felony of the third degree punishable as provided in ss. 775.082(3)(e) and 775.083(1)(g) by a fine of not more than $50,000 or by imprisonment for 5 years, or by both, for each offense. **Until a violation is resolved by order or judgment**, each day during any portion of which such violation occurs **or is not remediated** constitutes a separate offense.

(4) Any person who commits a violation specified in paragraph (1)(a) **or paragraph (1)(b)** due to reckless indifference or gross careless disregard is guilty of a misdemeanor of the second degree, punishable as provided in ss. 775.082(4)(b) and 775.083(1)(g) by a fine of not more than ~~**$5,000**~~ **$10,000** or by 60 days in jail, or by both, for each offense.

(5) Any person who willfully commits a violation specified in paragraph (1)(b) or **commits a violation specified in** paragraph (1)(c) is guilty of a misdemeanor of the first degree punishable as provided in ss. 775.082(4)(a) and 775.083(1)(g) by a fine of not more than $10,000 or by 6 months in jail, or by both for each offense.

AMERICAN OVERSIGHT

403.413

Florida Litter Law.—

(6) PENALTIES; ENFORCEMENT.—

(a) Any person who dumps litter in violation of subsection (4) in an amount not exceeding 15 pounds in weight or 27 cubic feet in volume and not for commercial purposes is guilty of a noncriminal infraction, punishable by a civil penalty of ~~$100~~ **$150**, from which $50 shall be deposited into the Solid Waste Management Trust Fund to be used for the solid waste management grant program pursuant to s. 403.7095. In addition, the court may require the violator to pick up litter or perform other labor commensurate with the offense committed.

AMERICAN OVERSIGHT

403.7234

Small quantity generator notification and verification program.—

(5) Any small quantity generator who does not comply with the requirements of subsection (4) and who has received a notification and survey in person or through one certified letter from the county is subject to a fine of between ~~$50~~ **$75** and ~~$100~~ **$150** per day for a maximum of 100 days. The county may collect such fines and deposit them in its general revenue fund. Fines collected by the county shall be used to carry out the notification and verification procedure established in this section. If there are excess funds after the notification and verification procedures have been completed, such funds shall be used for hazardous and solid waste management purposes only.

AMERICAN OVERSIGHT

403.726

Abatement of imminent hazard caused by hazardous substance.—

(3) An imminent hazard exists if any hazardous substance creates an immediate and substantial danger to human health, safety, or welfare or to the environment. The department may institute action in its own name, using the procedures and remedies of s. 403.121 or s. 403.131, to abate an imminent hazard. However, the department is authorized to recover a civil penalty of not more than ~~$25,000~~ **$37,500** **for each day until a violation is resolved by order or judgment**. Whenever serious harm to human health, safety, and welfare; the environment; or private or public property may occur prior to completion of an administrative hearing or other formal proceeding which might be initiated to abate the risk of serious harm, the department may obtain, ex parte, an injunction without paying filing and service fees prior to the filing and service of process.

AMERICAN OVERSIGHT

403.727

Violations; defenses, penalties, and remedies.—

(3) Violations of the provisions of this act are punishable as follows:

(a) Any person who violates the provisions of this act, the rules or orders of the department, or the conditions of a permit is liable to the state for any damages specified in s. 403.141 and for a civil penalty of not more than $~~50,000~~ **$75,000** for each day of continued violation **or until a violation is resolved by order or judgment**, except as otherwise provided herein. The department may revoke any permit issued to the violator. In any action by the department against a small hazardous waste generator for the improper disposal of hazardous wastes, a rebuttable presumption of improper disposal shall be created if the generator was notified pursuant to s. 403.7234; the generator shall then have the burden of proving that the disposal was proper. If the generator was not so notified, the burden of proving improper disposal shall be placed upon the department.

AMERICAN OVERSIGHT

403.93345

Coral reef protection.—

(8) In addition to the compensation described in subsection (5), the department may assess, per occurrence, civil penalties according to the following schedule:

(a) For any anchoring of a vessel on a coral reef or for any other damage to a coral reef totaling less than or equal to an area of 1 square meter, $~~150~~ **$225**, provided that a responsible party who has anchored a recreational vessel as defined in s. 327.02 which is lawfully registered or exempt from registration pursuant to chapter 328 is issued, at least once, a warning letter in lieu of penalty; with aggravating circumstances, an additional $~~150~~ **$225**; occurring within a state park or aquatic preserve, an additional $~~150~~ **$225**.

(b) For damage totaling more than an area of 1 square meter but less than or equal to an area of 10 square meters, $~~300~~ **$450** per square meter; with aggravating circumstances, an additional $~~300~~ **$450** per square meter; occurring within a state park or aquatic preserve, an additional $~~300~~ **$450** per square meter.

(c) For damage exceeding an area of 10 square meters, $~~1,000~~ **$1,500** per square meter; with aggravating circumstances, an additional $~~1,000~~ **$1,500** per square meter; occurring within a state park or aquatic preserve, an additional $~~1,000~~ **$1,500** per square meter.

(d) For a second violation, the total penalty may be doubled.

(e) For a third violation, the total penalty may be tripled.

(f) For any violation after a third violation, the total penalty may be quadrupled.

(g) The total of penalties levied may not exceed $~~250,000~~ **$375,000** per occurrence.

Subject: LAST CHANCE TO SPONSOR! GCBX 68th ANNUAL INSTALLATION & AWARDS DINNER- February 20, 2020

Dear Senator Joe Gruters,
You are invited to the following event:

GCBX 68th ANNUAL INSTALLATION & AWARDS DINNER

When: 20 Feb 2020 6:00 PM, EST
Where: Hyatt Regency Sarasota- 1000 Blvd of the Arts

LAST CHANCE to become an Annual Dinner Sponsor with an Advertisement in our Program to showcase your business to over 500 GCBX Members! Become a sponsor for the BIGGEST event of the year!

Will you be attending?

REGISTER

Hyatt Regency Sarasota

Networking 6:00 - 7:00 pm
Program 7:00 - 9:00 pm

Registration opens at 5:45 PM

Keynote Speaker:
Attorney General Ashley Moody

Join us in Welcoming Incoming Chairman:

Senator Michael Bennett, Manatee County Supervisor of Elections

Lifetime Achievement Awardee:
Rich Stehle, Climatic Conditioning Company

Posthumous Lifetime Achievement Awardee:
Nathan Benderson, Benderson Development

Chairman's Awardee:
C.J. Dupre, Manatee County Building Official

Plus a Surprise Volunteer of the Year!

This year's dinner theme will be *Preserving Our Past and Building Our Future* We are asking members to

AMERICAN OVERSIGHT

submit local projects for consideration to be showcased at the dinner in different ways including table settings, PowerPoint features and more. Please send your project submission to AlbaniHogan@gcbx.org. We are looking for local projects that fit this theme so please submit your project name for consideration!

A bill to be entitled

An act relating to international affairs; amending s. 15.01, F.S.; requiring the Secretary of State to serve as the state protocol officer; requiring the Secretary of State to take certain actions relating to the state protocol manual; amending s. 15.182, F.S.; requiring that certain organizations provide notice of international travel to the Department of State, rather than the Department of Economic Opportunity; requiring the Department of State, The Department of Economic Opportunity, and Enterprise Florida, Inc., to work in conjunction for a certain purpose; amending s. 288.816, F.S.; revising the duties of the state protocol officer; authorizing, rather than requiring, the state protocol officer to take certain actions; creating s. 288.8165, F.S.; authorizing the Office of International Affairs within the Department of State to support the establishment of citizen support organizations for certain purposes; defining the term "citizen support organization"; authorizing the office to adopt rules; prohibiting the office from allowing a citizen support organization to use certain services, property, or facilities if the organization does not provide equal membership and employment opportunities; requiring citizen support organizations to provide for a certain financial audit; providing a scheduled repeal; amending s. 288.012, F.S.; conforming provisions to changes made by the act; providing an effective date.

AMERICAN OVERSIGHT

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 15.01, Florida Statutes, is amended to read:

15.01 Duties.—

(1) The Secretary of State shall serve as the state protocol officer. In consultation with the Governor and other governmental officials, the Secretary of State shall develop, maintain, publish, and distribute the state protocol manual.

(2) The Department of State shall have the custody of the constitution and Great Seal of this state, and of the original statutes thereof, and of the resolutions of the Legislature, and of all the official correspondence of the Governor. The department shall keep in its office a register and an index of all official letters, orders, communications, messages, documents, and other official acts issued or received by the Governor or the Secretary of State, and record these in a book numbered in chronological order. The Governor, before issuing any order or transmission of any official letter, communication, or document from the executive office or promulgation of any official act or proceeding, except military orders, shall deliver the same or a copy thereof to the Department of State to be recorded.

Section 2. Section 15.182, Florida Statutes, is amended to read:

15.182 International travel by state-funded musical, cultural, or artistic organizations; notification to the Department of State ~~Economic Opportunity~~.—

AMERICAN OVERSIGHT

(1) If a musical, cultural, or artistic organization that receives state funding is traveling internationally for a presentation, performance, or other significant public viewing, including an organization associated with a college or university, such organization shall notify the Department of State ~~Economic Opportunity~~ of its intentions to travel, together with the date, time, and location of each appearance.

(2) The Department of State ~~Economic Opportunity~~, in conjunction with the Department of Economic Opportunity and Enterprise Florida, Inc., shall act as an intermediary between performing musical, cultural, and artistic organizations and Florida businesses to encourage and coordinate joint undertakings. Such coordination may include, but is not limited to, encouraging business and industry to sponsor cultural events, assistance with travel of such organizations, and coordinating travel schedules of cultural performance groups and international trade missions.

(3) An organization shall provide the notification to the Department of State required by this section at least 30 days before the date the international travel is to commence or, when an intention to travel internationally is not formed at least 30 days in advance of the date the travel is to commence, as soon as feasible after forming such travel intention. The Department of State shall take an active role in informing such groups of the responsibility to notify the department of travel intentions.

Section 3. Paragraphs (c) and (d) of subsection (2) and subsection (3) of section 288.816, Florida Statutes, are amended to read:

AMERICAN OVERSIGHT

288.816 Intergovernmental relations.—

(2) The state protocol officer shall be responsible for all consular relations between the state and all foreign governments doing business in Florida. The state protocol officer shall monitor United States laws and directives to ensure that all federal treaties regarding foreign privileges and immunities are properly observed. The state protocol officer shall:

~~(c) Issue certificates to such foreign governmental officials after verification pursuant to proper investigations through United States Department of State sources and the appropriate foreign government.~~

~~(d) Verify entitlement to sales and use tax exemptions pursuant to United States Department of State guidelines and identification methods.~~

(3) The state protocol officer may ~~shall operate the sister city and sister state program and establish such new programs as needed to further global understanding through the interchange of people, ideas, and culture between Florida and the world. To accomplish this purpose, the state protocol officer shall have the power and authority to~~:

(a) Coordinate and carry out activities designed to encourage the state and its subdivisions to participate in sister city and sister state affiliations with foreign countries and their subdivisions. Such activities may include a State of Florida sister cities conference.

(b) Encourage cooperation with and disseminate information pertaining to the Sister Cities International Program and any other program whose object is to promote linkages with foreign countries and their subdivisions.

AMERICAN OVERSIGHT

(c) Maximize any aid available from all levels of government, public and private agencies, and other entities to facilitate such activities.

~~(d) Establish a viable system of registration for sister city and sister state affiliations between the state and foreign countries and their subdivisions. Such system shall include a method to determine that sufficient ties are properly established as well as a method to supervise how these ties are maintained.~~

~~(e) Maintain a current and accurate listing of all such affiliations. Sister city affiliations shall not be discouraged between the state and any country specified in s. 620(f)(1) of the federal Foreign Assistance Act of 1961, as amended, with whom the United States is currently conducting diplomatic relations unless a mandate from the United States Government expressly prohibits such affiliations.~~

Section 4. Section 288.8165, Florida Statutes, is created to read:

288.8165 Citizen support organizations.—

(1) CITIZEN SUPPORT ORGANIZATIONS.—The Office of International Affairs within the Department of State may support the establishment of citizen support organizations to provide assistance, funding, and promotional support for intergovernmental programs. For the purposes of this section, a "citizen support organization" means an organization which is:

(a) A Florida corporation not for profit incorporated under chapter 617 and approved by the Department of State;

(b) Organized and operated to conduct programs and activities; raise funds; request and receive grants, gifts, and

AMERICAN OVERSIGHT

bequests of money; acquire, receive, hold, invest, and administer, in its own name, securities, funds, objects of value, or other property, real or personal; and make expenditures to or for the direct or indirect benefit of the Office of International Affairs;

(c) Determined by the Office of International Affairs to be consistent with the goals of the office and in the best interests of the state; and

(d) Approved in writing by the Office of International Affairs to operate for the direct or indirect benefit of the office. Such approval must be given in a letter of agreement from the office.

(2) USE OF ADMINISTRATIVE SERVICES AND PROPERTY.—

(a) The Office of International Affairs may adopt rules requiring citizen support organizations to meet certain requirements in order to use the office's administrative services, property, or facilities.

(b) The Office of International Affairs may not allow a citizen support organization to use any administrative services, property, or facilities of the state if the citizen support organization does not provide equal membership and employment opportunities to all persons regardless of race, color, religion, sex, age, or national origin.

(3) ANNUAL AUDIT.—Each citizen support organization shall provide for an annual financial audit in accordance with s. 215.981.

(4) FUTURE REPEAL.—This section is repealed October 1, 2025, unless reviewed and saved from repeal by the Legislature.

Section 5. Section 288.012, Florida Statutes, is amended to

AMERICAN OVERSIGHT

read:

288.012 State of Florida international offices~~; state protocol officer; protocol manual~~.—The Legislature finds that the expansion of international trade and tourism is vital to the overall health and growth of the economy of this state. This expansion is hampered by the lack of technical and business assistance, financial assistance, and information services for businesses in this state. The Legislature finds that these businesses could be assisted by providing these services at State of Florida international offices. The Legislature further finds that the accessibility and provision of services at these offices can be enhanced through cooperative agreements or strategic alliances between private businesses and state, local, and international governmental entities.

(1) The department is authorized to:

(a) Establish and operate offices in other countries for the purpose of promoting trade and economic development opportunities of the state, and promoting the gathering of trade data information and research on trade opportunities in specific countries.

(b) Enter into agreements with governmental and private sector entities to establish and operate offices in other countries which contain provisions that may conflict with the general laws of the state pertaining to the purchase of office space, employment of personnel, and contracts for services. When agreements pursuant to this section are made which set compensation in another country's currency, such agreements shall be subject to the requirements of s. 215.425, but the purchase of another country's currency by the department to meet

AMERICAN OVERSIGHT

such obligations shall be subject only to s. 216.311.

(2) Each international office shall have in place an operational plan approved by the participating boards or other governing authority, a copy of which shall be provided to the department. These operating plans shall be reviewed and updated each fiscal year and shall include, at a minimum, the following:

(a) Specific policies and procedures encompassing the entire scope of the operation and management of each office.

(b) A comprehensive, commercial strategic plan identifying marketing opportunities and industry sector priorities for the country in which an international office is located.

(c) Provisions for access to information for Florida businesses related to trade leads and inquiries.

(d) Identification of new and emerging market opportunities for Florida businesses. This information shall be provided either free of charge or on a fee basis with fees set only to recover the costs of providing the information.

(e) Provision of access for Florida businesses to international trade assistance services provided by state and local entities, seaport and airport information, and other services identified by the department.

(f) Qualitative and quantitative performance measures for each office, including, but not limited to, the number of businesses assisted, the number of trade leads and inquiries generated, the number of international buyers and importers contacted, and the amount and type of marketing conducted.

(3) Each international office shall annually submit to Enterprise Florida, Inc., a complete and detailed report on its activities and accomplishments during the previous fiscal year

AMERICAN OVERSIGHT

for inclusion in the annual report required under s. 288.906. In the format and by the annual date prescribed by Enterprise Florida, Inc., the report must set forth information on:

(a) The number of Florida companies assisted.

(b) The number of inquiries received about investment opportunities in this state.

(c) The number of trade leads generated.

(d) The number of investment projects announced.

(e) The estimated U.S. dollar value of sales confirmations.

(f) The number of representation agreements.

(g) The number of company consultations.

(h) Barriers or other issues affecting the effective operation of the office.

(i) Changes in office operations which are planned for the current fiscal year.

(j) Marketing activities conducted.

(k) Strategic alliances formed with organizations in the country in which the office is located.

(l) Activities conducted with Florida's other international offices.

(m) Any other information that the office believes would contribute to an understanding of its activities.

(4) The Department of Economic Opportunity, in connection with the establishment, operation, and management of any of its offices located in another country, is exempt from the provisions of ss. 255.21, 255.25, and 255.254 relating to leasing of buildings; ss. 283.33 and 283.35 relating to bids for printing; ss. 287.001-287.20 relating to purchasing and motor vehicles; and ss. 282.003-282.00515 and 282.702-282.7101

AMERICAN OVERSIGHT

relating to communications, and from all statutory provisions relating to state employment.

(a) The department may exercise such exemptions only upon prior approval of the Governor.

(b) If approval for an exemption under this section is granted as an integral part of a plan of operation for a specified international office, such action shall constitute continuing authority for the department to exercise the exemption, but only in the context and upon the terms originally granted. Any modification of the approved plan of operation with respect to an exemption contained therein must be resubmitted to the Governor for his or her approval. An approval granted to exercise an exemption in any other context shall be restricted to the specific instance for which the exemption is to be exercised.

(c) As used in this subsection, the term "plan of operation" means the plan developed pursuant to subsection (2).

(d) Upon final action by the Governor with respect to a request to exercise the exemption authorized in this subsection, the department shall report such action, along with the original request and any modifications thereto, to the President of the Senate and the Speaker of the House of Representatives within 30 days.

(5) Where feasible and appropriate, international offices established and operated under this section may provide one-stop access to the economic development, trade, and tourism information, services, and programs of the state. Where feasible and appropriate, such offices may also be collocated with other international offices of the state.

AMERICAN OVERSIGHT

(6) The department is authorized to make and to enter into contracts with Enterprise Florida, Inc., to carry out the provisions of this section. The authority, duties, and exemptions provided in this section apply to Enterprise Florida, Inc., to the same degree and subject to the same conditions as applied to the department. To the greatest extent possible, such contracts shall include provisions for cooperative agreements or strategic alliances between private businesses and state, international, and local governmental entities to operate international offices.

~~(7) The Governor may designate a state protocol officer. The state protocol officer shall be housed within the Executive Office of the Governor. In consultation with the Governor and other governmental officials, the state protocol officer shall develop, maintain, publish, and distribute the state protocol manual.~~

Section 6. This act shall take effect July 1, 2020.

Sent: Friday, November 08, 2019 1:42 PM EST
To: Gruters, Joe <Gruters.Joe@flsenate.gov>
Subject: Meeting request: bill idea

Dear Senator Gruters,

My name is Laura Alvarez and I am the Science Advisor for Cruelty Free International, the leading non-profit organization working globally to end animal testing worldwide.

According to a recent poll conducted on behalf of Cruelty Free International, 79% of American adults support a federal law to end animal testing for cosmetics. This shows that people across all age groups and all political views are concerned about and united against cruel and outdated cosmetics tests on animals.

I would therefore like to talk to you about the possibility of introducing a bill to end the sale of animal tested cosmetics in Florida or at the very least, a resolution supporting an end to animal testing for cosmetics in the US.

Our work in other states has resulted in successful passage of laws in California, Illinois and Nevada which all go into effect on January 1 2020. We have worked closely with the cosmetics industry and now have an agreed model language for state bills that I can share with you as well as plenty of background information if you are interested.

I was hoping to arrange a convenient time to meet with you, or appropriate staff, to further discuss this issue. I am currently based in Palm Coast, Florida and would be happy to meet at your district office.

I look forward to hearing from you.

Kind regards,
Laura Alvarez

Subject: Meeting Request

Hello Mr. Barnhill,

This is Dr. Gordon Waldo, Professor Emeritus in the College of Criminology and Criminal Justice at Florida State University.

I would like to schedule a meeting with Senator Gruter as soon as possible to discuss some criminal justice issues. Next week would be good for me but the following week, or even later if necessary, will be okay. Monday is the only day I cannot arrange a meeting because of my teaching schedule, but I can work around all of my other activities on Tuesday, Wednesday, and Thursday. Friday is a possibility but less convenient for me.

If you have any questions or there is anything you would like to discuss prior to setting a meeting date you can call me at 850-228-1200 or e-mail me at gwaldo@fsu.edu

Thank you for your consideration

Gordon Waldo

Good morning Mr. Barnhill,

This is Josh Funderburke from Cotney Construction Lobbying. It was a pleasure meeting you yesterday. As I previously mentioned, we'd like to set up a meeting with Senator Gruters sometime next week, or soon thereafter, to discuss some issues pertinent to the construction industry. Specifically, we would like to discuss SB 948 and SB 1422 (see attached) which relates to construction defect claims and construction liens, respectively.

At your convenience, please let me know what times are available. I look forward to hearing from you.

Regards,

Josh Funderburke
Lobbyist

AMERICAN OVERSIGHT

By Senator Baxley

12-01011-20 2020948__

A bill to be entitled

An act relating to construction defects; amending s. 553.84, F.S.; defining the term "material violation"; revising when a person has a cause of action for a violation relating to the Florida Building Code; providing requirements for such cause of action; amending s. 558.004, F.S.; revising requirements relating to notices of claim; requiring a claimant to allow persons served with a notice of claim to inspect certain records; providing that the claimant, under certain circumstances, does not have a claim for damages that could have been avoided or mitigated; reenacting s. 558.002(5), F.S., relating to definitions for ch. 558, F.S.; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 553.84, Florida Statutes, is amended to read:

553.84 Statutory civil action.—

(1) For purposes of this section, the term "material violation" means a violation that exists within a completed building, structure, or facility which may reasonably result, or has resulted, in physical harm to a person or significant damage to the performance of a building or its systems.

(2) Notwithstanding any other remedies available, any person or party, in an individual capacity or on behalf of a class of persons or parties, damaged as a result of a material

AMERICAN OVERSIGHT

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

violation of this part or the Florida Building Code, has a cause of action in any court of competent jurisdiction against the person or party who committed the violation; however, if the person or party obtains the required building permits and any local government or public agency with authority to enforce the Florida Building Code approves the plans, and if the construction project passes all required inspections under the Florida Building Code, ~~and if there is no personal injury or damage to property other than the property that is the subject of the permits, plans, and inspections,~~ this section does not apply.

(3) A cause of action pled under this section must cite to the specific provisions of this part or the Florida Building Code allegedly violated, must explain how each provision was allegedly violated, and is subject to dismissal for failing to do so ~~unless the person or party knew or should have known that the violation existed~~.

Section 2. Paragraph (b) of subsection (1) and subsections (2) and (7) of section 558.004, Florida Statutes, are amended to read:

558.004 Notice and opportunity to repair.—

(1)

(b) The notice of claim must be made under oath by the claimant and must describe in specific ~~reasonable~~ detail the nature of each alleged construction defect, the name and contact information of any consultants retained by the claimant or on the claimant's behalf to inspect the defect, and, if known, the damage or loss resulting from the defect, including the alleged cost of repairing the defect and any other damages alleged to

AMERICAN OVERSIGHT

have been suffered as a result of the defect. The notice of claim must specifically identify, as applicable, the allegedly defective materials, products, or components and the applicable code provisions, professional standards of care for design, or accepted trade standards for the construction or remodeling allegedly violated and must explain how each cited code provision or standard was violated. Based upon at least a visual inspection by the claimant or its agents, the notice of claim must identify the specific location of each alleged construction defect sufficiently to enable the responding parties to locate the alleged defect without undue burden. If requested, the claimant must allow the person served with the notice of claim under this subsection the opportunity to inspect all maintenance records for the subject property. The claimant has no obligation to perform destructive or other testing for purposes of this notice.

(2) Within 30 days after service of the notice of claim, or within 50 days after service of the notice of claim involving an association representing more than 20 parcels, the person served with the notice of claim under subsection (1) is entitled to perform a reasonable inspection of the property or of each unit subject to the claim to assess each alleged construction defect. An association's right to access property for either maintenance or repair includes the authority to grant access for the inspection. The claimant shall provide the person served with notice under subsection (1) and such person's contractors or agents reasonable access to the property during normal working hours to inspect the property to determine the nature and cause of each alleged construction defect and the nature and extent of

AMERICAN OVERSIGHT

any repairs or replacements necessary to remedy each defect. The person served with notice under subsection (1) shall reasonably coordinate the timing and manner of any and all inspections with the claimant to minimize the number of inspections. If the claimant fails to grant the person served with the notice under subsection (1) the opportunity to conduct a reasonable inspection of the property with the alleged defect during the timeframe established in this section, the claimant does not have a claim for damages that could have been avoided or mitigated had an inspection taken place. The inspection may include destructive testing by mutual agreement under the following reasonable terms and conditions:

(a) If the person served with notice under subsection (1) determines that destructive testing is necessary to determine the nature and cause of the alleged defects, such person shall notify the claimant in writing.

(b) The notice shall describe the destructive testing to be performed, the person selected to do the testing, the estimated anticipated damage and repairs to or restoration of the property resulting from the testing, the estimated amount of time necessary for the testing and to complete the repairs or restoration, and the financial responsibility offered for covering the costs of repairs or restoration.

(c) If the claimant promptly objects to the person selected to perform the destructive testing, the person served with notice under subsection (1) shall provide the claimant with a list of three qualified persons from which the claimant may select one such person to perform the testing. The person selected to perform the testing shall operate as an agent or

AMERICAN OVERSIGHT

subcontractor of the person served with notice under subsection (1) and shall communicate with, submit any reports to, and be solely responsible to the person served with notice.

(d) The testing shall be done at a mutually agreeable time.

(e) The claimant or a representative of the claimant may be present to observe the destructive testing.

(f) The destructive testing shall not render the property uninhabitable.

(g) There shall be no construction lien rights under part I of chapter 713 for the destructive testing caused by a person served with notice under subsection (1) or for restoring the area destructively tested to the condition existing prior to testing, except to the extent the owner contracts for the destructive testing or restoration.

If the claimant refuses to agree and thereafter permit reasonable destructive testing, the claimant shall have no claim for damages which could have been avoided or mitigated had destructive testing been allowed when requested and had a feasible remedy been promptly implemented.

(7) A claimant who receives a timely settlement offer must accept or reject the offer by serving written notice of such acceptance or rejection, signed by the claimant, on the person making the offer within 45 days after receiving the settlement offer. If a claimant initiates an action without first accepting or rejecting the offer, the court shall stay the action upon timely motion until the claimant complies with this subsection.

Section 3. For the purpose of incorporating the amendment made by this act to section 553.84, Florida Statutes, in a

AMERICAN OVERSIGHT

reference thereto, subsection (5) of section 558.002, Florida Statutes, is reenacted to read:

558.002 Definitions.—As used in this chapter, the term:

(5) "Construction defect" means a deficiency in, or a deficiency arising out of, the design, specifications, surveying, planning, supervision, observation of construction, or construction, repair, alteration, or remodeling of real property resulting from:

(a) Defective material, products, or components used in the construction or remodeling;

(b) A violation of the applicable codes in effect at the time of construction or remodeling which gives rise to a cause of action pursuant to s. 553.84;

(c) A failure of the design of real property to meet the applicable professional standards of care at the time of governmental approval; or

(d) A failure to construct or remodel real property in accordance with accepted trade standards for good and workmanlike construction at the time of construction.

Section 4. This act shall take effect July 1, 2020.

A bill to be entitled

An act relating to construction liens; amending s. 713.01, F.S.; revising and deleting definitions; amending s. 713.015, F.S.; revising the notice to owner in certain direct contracts; revising construction; amending s. 713.02, F.S.; deleting a provision establishing the right of certain persons who are not in privity with an owner to have a lien on certain real property; deleting provisions authorizing an owner and a contractor to agree upon the contractor furnishing a payment bond; conforming provisions to changes made by the act; amending s. 713.06, F.S.; deleting provisions establishing the right of persons who are not in privity with the owner to have a lien on the owner's real property; revising provisions relating to payments due under a direct contract; revising the form of the required final payment affidavit; revising provisions relating to the order in which liens must be paid under a direct contract; conforming provisions to changes made by the act; repealing s. 713.23, F.S., relating to payment bonds; repealing s. 713.235, F.S., relating to waivers of the right to claim against payment bonds; repealing s. 713.245, F.S., relating to conditional payment bonds; amending ss. 713.03, 713.04, 713.05, 713.07, 713.08, 713.10, 713.12, 713.13, 713.132, 713.135, 713.16, 713.165, 713.18, 713.20, 713.24, 713.29, 713.31, 713.345, 713.346, 713.3471, and 713.35, F.S.; conforming provisions to changes made by the act and

AMERICAN OVERSIGHT

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

making technical changes; amending ss. 713.22 and 95.11, F.S.; conforming cross-references; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsections (22) through (29) of section 713.01, Florida Statutes, are redesignated as subsections (20) through (27), respectively, and subsections (8), (18), and (19) and present subsections (20) and (21) of that section are amended, to read:

713.01 Definitions.—As used in this part, the term:

(8) "Contractor" means a person other than a materialman or laborer who enters into a direct contract with the owner of real property for improving it, or who takes over from a contractor as so defined the entire remaining work under such direct contract. The term "contractor" includes an architect, landscape architect, or engineer who improves real property under ~~pursuant to~~ a design-build contract authorized by s. 489.103(16).

(18) "Lienor" means a person who is:

(a) A contractor;

(b) A subcontractor;

(c) A sub-subcontractor;

(d) A laborer;

(e) A materialman ~~who contracts with the owner, a contractor, a subcontractor, or a sub-subcontractor~~; or

(f) A professional lienor under s. 713.03,~~;~~

~~and~~ who has a direct contract with the owner and who has a lien

AMERICAN OVERSIGHT

or prospective lien upon real property under this part, and includes his or her successor in interest. No other person may have a lien under this part.

~~(19) "Lienor giving notice" means any lienor, except a contractor, who has duly and timely served a notice to the owner and, if required, to the contractor and subcontractor, as provided in s. 713.06(2).~~

(19)~~(20)~~ "Materialman" means any person who furnishes materials to the owner under a direct contract or to the ~~owner,~~ contractor, subcontractor, or sub-subcontractor under contract on the site of the improvement or for direct delivery to the site of the improvement or, for specially fabricated materials, off the site of the improvement for the particular improvement, and who performs no labor in the installation thereof.

~~(21) "Notice by lienor" means the notice to owner served as provided in s. 713.06(2).~~

Section 2. Section 713.015, Florida Statutes, is amended to read:

713.015 Mandatory provisions for direct contracts.—

(1) Any direct contract greater than $2,500 ~~between an owner and a contractor~~, related to improvements to real property consisting of single or multiple family dwellings up to and including four units, must contain the following notice provision printed in no less than 12-point, capitalized, boldfaced type on the front page of the contract or on a separate page, signed by the owner and dated:

ACCORDING TO FLORIDA'S CONSTRUCTION LIEN LAW (SECTIONS 713.001-713.37, FLORIDA STATUTES), THOSE WHO WORK ON YOUR PROPERTY OR

AMERICAN OVERSIGHT

PROVIDE MATERIALS AND SERVICES, HAVE A DIRECT CONTRACT WITH YOU, AND ARE NOT PAID IN FULL HAVE A RIGHT TO ENFORCE THEIR CLAIM FOR PAYMENT AGAINST YOUR PROPERTY. THIS CLAIM IS KNOWN AS A CONSTRUCTION LIEN. ~~IF YOUR CONTRACTOR OR A SUBCONTRACTOR FAILS TO PAY SUBCONTRACTORS, SUB-SUBCONTRACTORS, OR MATERIAL SUPPLIERS, THOSE PEOPLE WHO ARE OWED MONEY MAY LOOK TO YOUR PROPERTY FOR PAYMENT, EVEN IF YOU HAVE ALREADY PAID YOUR CONTRACTOR IN FULL.~~ IF YOU FAIL TO PAY YOUR CONTRACTOR, YOUR CONTRACTOR MAY ALSO HAVE A LIEN ON YOUR PROPERTY. THIS MEANS IF A LIEN IS FILED YOUR PROPERTY COULD BE SOLD AGAINST YOUR WILL TO PAY FOR LABOR, MATERIALS, OR OTHER SERVICES THAT YOU ~~YOUR CONTRACTOR OR A SUBCONTRACTOR~~ MAY HAVE FAILED TO PAY. ~~TO PROTECT YOURSELF, YOU SHOULD STIPULATE IN THIS CONTRACT THAT BEFORE ANY PAYMENT IS MADE, YOUR CONTRACTOR IS REQUIRED TO PROVIDE YOU WITH A WRITTEN RELEASE OF LIEN FROM ANY PERSON OR COMPANY THAT HAS PROVIDED TO YOU A "NOTICE TO OWNER."~~ FLORIDA'S CONSTRUCTION LIEN LAW IS COMPLEX, AND IT IS RECOMMENDED THAT YOU CONSULT AN ATTORNEY.

(2)(a) If the contract is written, the notice must be in the contract document. If the contract is oral or implied, the notice must be provided in a document referencing the contract.

(b) The failure to provide such written notice does not bar the enforcement of a lien against a person who has not been adversely affected.

(c) ~~This section may not be construed to adversely affect the lien and bond rights of lienors who are not in privity with the owner.~~ This section does not apply when the owner is a contractor licensed under chapter 489 or is a person who created parcels or offers parcels for sale or lease in the ordinary

AMERICAN OVERSIGHT

course of business.

Section 3. Subsections (4) through (7) of section 713.02, Florida Statutes, are amended to read:

713.02 Types of lienors and exemptions.—

~~(4) Persons who are not in privity with an owner and who perform labor or services or furnish materials constituting a part of an improvement under the direct contract of another person shall have rights to a lien on real property as provided in s. 713.06.~~

(4)~~(5)~~ Any improvement for which the direct contract price is $2,500 or less shall be exempt from all other provisions of this part except the provisions of s. 713.05.

~~(6) The owner and contractor may agree that the contractor shall furnish a payment bond as provided in s. 713.23, and upon receipt of the bond the owner is exempt from the other provisions of this part as to that direct contract, but this does not exempt the owner from the lien of the contractor who furnishes the bond. If the bond is provided, it shall secure all liens subsequently accruing under this part as provided in s. 713.23.~~

(5)~~(7)~~ Notwithstanding any other provision of this part, a ~~no~~ lien may not ~~shall~~ exist in favor of any contractor, subcontractor, or sub-subcontractor who is unlicensed as provided in s. 489.128 or s. 489.532. Notwithstanding any other provision of this part, if a contract is rendered unenforceable by an unlicensed contractor, subcontractor, or sub-subcontractor under ~~pursuant to~~ s. 489.128 or s. 489.532, such unenforceability does ~~shall~~ not affect the rights of any other persons in privity with the owner to enforce the contract or~~,~~

AMERICAN OVERSIGHT

lien~~, or bond~~ remedies ~~and shall not affect the obligations of a surety that has provided a bond on behalf of the unlicensed contractor, subcontractor, or sub-subcontractor~~. ~~It shall not be a defense to any claim on a bond or indemnity agreement that the principal or indemnitor is unlicensed as provided in s. 489.128 or s. 489.532.~~

Section 4. Section 713.06, Florida Statutes, is amended to read:

713.06 ~~Liens of persons not in privity;~~ Proper payments.—

~~(1) A materialman or laborer, either of whom is not in privity with the owner, or a subcontractor or sub-subcontractor who complies with the provisions of this part and is subject to the limitations thereof, has a lien on the real property improved for any money that is owed to him or her for labor, services, or materials furnished in accordance with his or her contract and with the direct contract and for any unpaid finance charges due under the lienor's contract. A materialman or laborer, either of whom is not in privity with the owner, or a subcontractor or sub-subcontractor who complies with the provisions of this part and is subject to the limitations thereof, also has a lien on the owner's real property for labor, services, or materials furnished to improve public property if the improvement of the public property is furnished in accordance with his or her contract and with the direct contract. The total amount of all liens allowed under this part for furnishing labor, services, or material covered by any certain direct contract must not exceed the amount of the contract price fixed by the direct contract except as provided in subsection (3). No person may have a lien under this section~~

AMERICAN OVERSIGHT

~~except those lienors specified in it, as their designations are defined in s. 713.01.~~

~~(2)(a) All lienors under this section, except laborers, as a prerequisite to perfecting a lien under this chapter and recording a claim of lien, must serve a notice on the owner setting forth the lienor's name and address, a description sufficient for identification of the real property, and the nature of the services or materials furnished or to be furnished. A sub-subcontractor or a materialman to a subcontractor must serve a copy of the notice on the contractor as a prerequisite to perfecting a lien under this chapter and recording a claim of lien. A materialman to a sub-subcontractor must serve a copy of the notice to owner on the contractor as a prerequisite to perfecting a lien under this chapter and recording a claim of lien. A materialman to a sub-subcontractor shall serve the notice to owner on the subcontractor if the materialman knows the name and address of the subcontractor. The notice must be served before commencing, or not later than 45 days after commencing, to furnish his or her labor, services, or materials, but, in any event, before the date of the owner's disbursement of the final payment after the contractor has furnished the affidavit under subparagraph (3)(d)1. The notice must be served regardless of the method of payments by the owner, whether proper or improper, and does not give to the lienor serving the notice any priority over other lienors in the same category; and the failure to serve the notice, or to timely serve it, is a complete defense to enforcement of a lien by any person. The serving of the notice does not dispense with recording the claim of lien. The notice is not a lien, cloud, or~~

AMERICAN OVERSIGHT

~~encumbrance on the real property nor actual or constructive notice of any of them.~~

~~(b) If the owner, in his or her notice of commencement, has designated a person in addition to himself or herself to receive a copy of such lienor's notice, as provided in s. 713.13(1)(b), the lienor shall serve a copy of his or her notice on the person so designated. The failure by the lienor to serve such copy, however, does not invalidate an otherwise valid lien.~~

~~(c) The notice may be in substantially the following form and must include the information and the warning contained in the following form:~~

~~WARNING! FLORIDA'S CONSTRUCTION LIEN LAW ALLOWS SOME UNPAID CONTRACTORS, SUBCONTRACTORS, AND MATERIAL SUPPLIERS TO FILE LIENS AGAINST YOUR PROPERTY EVEN IF YOU HAVE MADE PAYMENT IN FULL.~~

~~UNDER FLORIDA LAW, YOUR FAILURE TO MAKE SURE THAT WE ARE PAID MAY RESULT IN A LIEN AGAINST YOUR PROPERTY AND YOUR PAYING TWICE.~~

~~TO AVOID A LIEN AND PAYING TWICE, YOU MUST OBTAIN A WRITTEN RELEASE FROM US EVERY TIME YOU PAY YOUR CONTRACTOR.~~

~~NOTICE TO OWNER~~

~~To ...(Owner's name and address)...~~

~~The undersigned hereby informs you that he or she has furnished~~

AMERICAN OVERSIGHT

~~or is furnishing services or materials as follows:~~
~~...(General description of services or materials)... for the improvement of the real property identified as ...(property description)... under an order given by.....~~

~~Florida law prescribes the serving of this notice and restricts your right to make payments under your contract in accordance with Section 713.06, Florida Statutes.~~

~~IMPORTANT INFORMATION FOR YOUR PROTECTION~~

~~Under Florida's laws, those who work on your property or provide materials and are not paid have a right to enforce their claim for payment against your property. This claim is known as a construction lien.~~

~~If your contractor fails to pay subcontractors or material suppliers or neglects to make other legally required payments, the people who are owed money may look to your property for payment, EVEN IF YOU HAVE PAID YOUR CONTRACTOR IN FULL.~~

~~PROTECT YOURSELF:~~

~~-RECOGNIZE that this Notice to Owner may result in a lien against your property unless all those supplying a Notice to Owner have been paid.~~

~~-LEARN more about the Construction Lien Law, Chapter 713, Part I, Florida Statutes, and the meaning of this notice by contacting an attorney or the Florida Department of Business and Professional Regulation.~~

AMERICAN OVERSIGHT

~~...(Lienor's Signature)...~~

~~...(Lienor's Name)...~~

~~...(Lienor's Address)...~~

~~Copies to: ...(Those persons listed in Section 713.06(2)(a) and (b), Florida Statutes)...~~

~~The form may be combined with a notice to contractor given under s. 255.05 or s. 713.23 and, if so, may be entitled "NOTICE TO OWNER/NOTICE TO CONTRACTOR."~~

~~(d) A notice to an owner served on a lender must be in writing, must be served in accordance with s. 713.18, and shall be addressed to the persons designated, if any, and to the place and address designated in the notice of commencement. Any lender who, after receiving a notice provided under this subsection, pays a contractor on behalf of the owner for an improvement shall make proper payments as provided in paragraph (3)(c) as to each such notice received by the lender. The failure of a lender to comply with this paragraph renders the lender liable to the owner for all damages sustained by the owner as a result of that failure. This paragraph does not give any person other than an owner a claim or right of action against a lender for the failure of the lender to comply with this paragraph. Further, this paragraph does not prohibit a lender from disbursing construction funds at any time directly to the owner, in which event the lender has no obligation to make proper payments under this paragraph.~~

~~(e) A lienor, in the absence of a recorded notice of commencement, may rely on the information contained in the building permit application to serve the notice prescribed in~~

AMERICAN OVERSIGHT

~~paragraphs (a), (b), and (c).~~

~~(f) If a lienor has substantially complied with the provisions of paragraphs (a), (b), and (c), errors or omissions do not prevent the enforcement of a claim against a person who has not been adversely affected by such omission or error. However, a lienor must strictly comply with the time requirements of paragraph (a).~~

(1)~~(3)~~ The owner may make proper payments on the direct contract as to lienors under this chapter ~~section,~~ in the following manner:

(a) If the description of the property in the notice prescribed by s. 713.13 is incorrect and the error adversely affects any lienor, payments made on the direct contract shall be held improperly paid to that lienor; but this does not apply to clerical errors when the description listed covers the property where the improvements are.

(b) The owner may pay to any laborers the whole or any part of the amounts that are ~~shall then be~~ due and payable to them respectively for labor or services performed by them and covered by the direct contract, and shall deduct the same from the balance due the contractor under a direct contract.

(c) When any payment becomes due to the lienor ~~contractor~~ on the direct contract, except the final payment:

1. The owner shall pay or cause to be paid, within the specifications of the direct contract ~~limitations imposed by subparagraph 2.~~, the sum then due to each subcontractor, sub-subcontractor, materialman, or laborer ~~lienor giving notice prior to the time of the payment~~. The owner may require, and, in such event, the lienor ~~contractor~~ shall furnish as a

AMERICAN OVERSIGHT

prerequisite to requiring payment to himself or herself, an affidavit as prescribed in subparagraph (d)1.~~,~~ on any payment made, or to be made, on a direct contract~~, but the furnishing of the affidavit shall not relieve the owner of his or her responsibility to pay or cause to be paid all lienors giving notice~~. ~~The owner shall be under no obligation to any lienor, except laborers, from whom he or she has not received a notice to owner at the time of making a payment.~~

~~2. When the payment due is insufficient to pay all bills of lienors giving notice, the owner shall prorate the amount then due under the direct contract among the lienors giving notice pro rata in the manner prescribed in subsection (4). Lienors receiving money shall execute partial releases, as provided in s. 713.20(2), to the extent of the payment received.~~

2.~~3.~~ If any affidavit permitted hereunder recites any outstanding bills for labor, services, or materials, the owner may pay the bills in full direct to the person or firm to which they are due if the balance due on the direct contract at the time the affidavit is given is sufficient to pay the bills and shall deduct the amounts so paid from the balance of payment due the lienor ~~contractor~~. ~~This subparagraph shall not create any obligation of the owner to pay any person who is not a lienor giving notice.~~

~~4. No person furnishing labor or material, or both, who is required to serve a notice under paragraph (2)(a) and who did not serve the notice and whose time for service has expired shall be entitled to be paid by the owner because he or she is listed in an affidavit furnished by the contractor under subparagraph (c)1.~~

AMERICAN OVERSIGHT

3.~~5.~~ If the contract is terminated before completion, the lienor ~~contractor~~ shall comply with subparagraph (d)1.

(d) When the final payment under a direct contract becomes due ~~the contractor~~:

1. The lienor ~~contractor~~ shall give to the owner a final payment affidavit ~~stating, if that be the fact, that all lienors under his or her direct contract who have timely served a notice to owner on the owner and the contractor have been paid in full or, if the fact be otherwise, showing the name of each such lienor who has not been paid in full and the amount due or to become due each for labor, services, or materials furnished. The affidavit must be~~ in substantially the following form:

LIENOR'S ~~CONTRACTOR'S~~ FINAL PAYMENT AFFIDAVIT

State of Florida

County of ....

Before me, the undersigned authority, personally appeared ...(name of affiant)..., who, after being first duly sworn, deposes and says of his or her personal knowledge the following:

1. He or she is the ...(title of affiant)..., of ...(name of lienor's ~~contractor's~~ business)..., which does business in the State of Florida, hereinafter referred to as the "Lienor ~~"Contractor~~."

2. Lienor, under ~~Contractor, pursuant to~~ a contract with ...(name of owner)..., hereinafter referred to as the "Owner," has furnished or caused to be furnished labor, materials, and services for the construction of certain improvements to real property as more particularly set forth in said contract.

3. This affidavit is executed by the Lienor ~~Contractor~~ in

AMERICAN OVERSIGHT

accordance with section 713.06 of the Florida Statutes for the purposes of obtaining final payment from the Owner in the amount of $.....

4. All work to be performed under the direct contract has been fully completed, and all bills for labor, services, or materials ~~lienors~~ under the direct contract have been paid in full, except the following ~~listed lienors~~:

BILL OR INVOICE NUMBER ~~NAME OF LIENOR~~.....AMOUNT DUE

Signed, sealed, and delivered this .... day of ...., ...,

By ...(name of affiant)...

...(title of affiant)...

...(name of lienor's ~~contractor's~~ business)...

Sworn to and subscribed before me this .... day of .... by ...(name of affiant)..., who is personally known to me or produced .... as identification, and did take an oath.

...(name of notary public)...

Notary Public

My Commission Expires:

...(date of expiration of commission)...

The lienor may not ~~contractor shall~~ have a ~~no~~ lien or right of action against the owner for labor, services, or materials furnished under the direct contract while in default for not giving the owner the affidavit; however, the negligent inclusion or omission of any information in the affidavit which has not

AMERICAN OVERSIGHT

prejudiced the owner does not constitute a default that operates to defeat an otherwise valid lien. The lienor ~~contractor~~ shall execute the affidavit and deliver it to the owner at least 5 days before instituting an action as a prerequisite to the institution of any action to enforce his or her lien under this chapter, even if the final payment has not become due because the direct contract is terminated for a reason other than completion ~~and regardless of whether the contractor has any lienors working under him or her or not~~.

2. If the lienor's ~~contractor's~~ affidavit required in this subsection recites any outstanding bills for labor, services, or materials, the owner may, after giving the lienor ~~contractor~~ at least 10 days' written notice, pay such bills in full direct to the person or firm to which they are due, if the balance due on a direct contract at the time the affidavit is given is sufficient to pay them ~~and lienors giving notice~~, and shall deduct the amounts so paid from the balance due the lienor ~~contractor~~. ~~Lienors listed in said affidavit not giving notice, whose 45-day notice time has not expired, shall be paid in full or pro rata, as appropriate, from any balance then remaining due the contractor; but no lienor whose notice time has expired shall be paid by the owner or by any other person except the person with whom that lienor has a contract.~~

~~3. If the balance due is not sufficient to pay in full all lienors listed in the affidavit and entitled to payment from the owner under this part and other lienors giving notice, the owner shall pay no money to anyone until such time as the contractor has furnished him or her with the difference; however, if the contractor fails to furnish the difference within 10 days from~~

AMERICAN OVERSIGHT

~~delivery of the affidavit or notice from the owner to the contractor to furnish the affidavit, the owner shall determine the amount due each lienor and shall disburse to them the amounts due from him or her on a direct contract in accordance with the procedure established by subsection (4).~~

3.~~4.~~ The owner shall have the right to rely on the lienor's ~~contractor's~~ affidavit given under this paragraph in making the final payment~~, unless there are lienors giving notice who are not listed in the affidavit. If there are lienors giving notice who are not so listed, the owner may pay such lienors and any persons listed in the affidavit that are entitled to be paid by the owner under subparagraph 2. and shall thereupon be discharged of any further responsibility under the direct contract, except for any balance that may be due to the contractor~~.

4.~~5.~~ The owner shall retain and not disburse the final payment due under the direct contract ~~that shall not be disbursed~~ until the lienor's ~~contractor's~~ affidavit under subparagraph 1. has been furnished to the owner.

5.~~6.~~ If ~~When final payment has become due to the contractor and~~ the owner fails to withhold final payment when it becomes due, as required by subparagraph 4.~~5.~~, the property improved is ~~shall be~~ subject to the full amount of all valid liens ~~of which the owner has notice~~ at the time the lienor ~~contractor~~ furnishes his or her affidavit.

(e) If the improvement is abandoned before completion, the owner shall determine the amount due each lienor ~~giving notice~~ and shall pay the same in full or prorate in the same manner as provided in subsection (2)~~(4)~~.

AMERICAN OVERSIGHT

(f) A lienor does not ~~No contractor shall~~ have any right to require the owner to pay any money to him or her under a direct contract if such money cannot be properly paid by the owner to the lienor ~~contractor~~ in accordance with this section.

(g) Except with written consent of the lienor ~~contractor~~, before paying any money directly to any person or firm under contract with the lienor ~~except the contractor or any laborer~~, the owner shall give the lienor ~~contractor~~ at least 10 days' written notice of his or her intention to do so~~,~~ and the amount he or she proposes to pay each person or firm ~~lienor~~.

(h) When the owner has properly retained all sums required in this section to be retained but has otherwise made improper payments, the owner's real property is ~~shall be~~ liable to all lienors ~~laborers, subcontractors, sub-subcontractors, and materialmen~~ complying with this chapter only to the extent of the retentions and the improper payments, notwithstanding the other provisions of this subsection. Any money paid by the owner on a direct contract, the payment of which is proved to have caused no detriment to any certain lienor, is considered ~~shall be held~~ properly paid as to the lienor.~~, and~~ If any of the money is considered ~~shall be held~~ not properly paid as to any other lienors, the presumption that the money is not properly paid goes ~~entire benefit of its being held not properly paid as to them shall go~~ to the lienors.

(2)(a) ~~(4)(a) In determining the amounts for which~~ Liens ~~between lienors claiming~~ under a direct contract ~~shall be paid by the owner or allowed by the court within the total amount fixed by the direct contract and under the provisions of this section, the owner or court~~ shall be paid ~~pay or allow such~~

AMERICAN OVERSIGHT

~~liens~~ in the following order:

1. Liens of all laborers.

2. Liens of all persons other than the contractor.

3. Lien of the contractor.

(b) ~~Should the total amount for which liens under such direct contract may be allowed be less than the total amount of liens under such contract in all classes above mentioned, all liens in a class shall be allowed for their full amounts before any liens shall be allowed to any subsequent class. Should the amount applicable to the liens of any single class be insufficient to permit all liens within that class to be allowed for their full amounts, each lien shall be allowed for its pro rata share of the total amount applicable to liens of that class; but if the same labor, services, or materials shall be covered by liens of more than one class, such labor, services, or materials shall be allowed only in the earliest class by which they shall be covered; and also if the same labor, services, or materials shall be covered by liens of two or more lienors of the same class, such labor, services, or materials shall be allowed only in the lien of the lienor farthest removed from the contractor.~~ This section does ~~shall~~ not ~~be construed to~~ affect the priority of liens derived under separate direct contracts.

Section 5. Section 713.23, Florida Statutes, is repealed.

Section 6. Section 713.235, Florida Statutes, is repealed.

Section 7. Section 713.245, Florida Statutes, is repealed.

Section 8. Subsections (1) and (3) of section 713.03, Florida Statutes, are amended to read:

713.03 Liens for professional services.—

AMERICAN OVERSIGHT

(1) Any person who performs services as architect, landscape architect, interior designer, engineer, or surveyor and mapper, subject to compliance with and the limitations imposed by this part, has a lien on the real property improved for any money that is owing to him or her for his or her services used in connection with improving the real property or for his or her services in supervising any portion of the work of improving the real property, rendered in accordance with his or her ~~contract and with the~~ direct contract.

(3) A lien ~~No liens~~ under this section may not ~~shall~~ be acquired until a claim of lien is recorded. A ~~No~~ lienor under this section is not ~~shall be~~ required to serve ~~a notice to owner as provided in s. 713.06(2) or~~ an affidavit concerning unpaid lienors as provided in s. 713.06(1) ~~s. 713.06(3)~~.

Section 9. Section 713.04, Florida Statutes, is amended to read:

713.04 Subdivision improvements.—

(1) Any lienor who~~, regardless of privity,~~ performs services or furnishes material to real property for the purpose of making it suitable as the site for the construction of an improvement or improvements is ~~shall be~~ entitled to a lien on the real property for any money that is owed to her or him for her or his services or materials furnished in accordance with her or his ~~contract and the~~ direct contract. The total amount of liens allowed under this section may ~~shall~~ not exceed the amount of the direct contract under which the lienor furnishes labor, materials, or services. The work of making real property suitable as the site of an improvement includes, ~~shall include~~ but is not ~~shall not be~~ limited to, the grading, leveling,

AMERICAN OVERSIGHT

excavating, and filling of land, including the furnishing of fill soil; the grading and paving of streets, curbs, and sidewalks; the construction of ditches and other area drainage facilities; the laying of pipes and conduits for water, gas, electric, sewage, and drainage purposes; and the construction of canals and shall also include the altering, repairing, and redoing of all these things. When the services or materials are placed on land dedicated to public use and are furnished under contract with the owner of the abutting land, the cost of the services and materials, if unpaid, may be the basis for a lien upon the abutting land. When the services or materials are placed upon land under contract with the owner of the land who subsequently dedicates parts of the land to public use, the person furnishing the services or materials placed upon the dedicated land is ~~shall be~~ entitled to a lien upon the land abutting the dedicated land for the unpaid cost of the services and materials placed upon the dedicated land, or in the case of improvements that serve or benefit real property that is divided by the improvements, to a lien upon each abutting part for the equitable part of the full amount due and owing. If the part of the cost to be borne by each parcel of the land subject to the same lien is not specified in the contract, it shall be prorated equitably among the parcels served or benefited. A ~~No~~ lien under this section may not ~~shall~~ be acquired until a claim of lien is recorded. A ~~No~~ notice of commencement is not required ~~shall be filed~~ for liens under this section. ~~No lienor shall be required to serve a notice to owner for liens under this section.~~

~~(2) If a lienor under this section who is not in privity with the owner serves a notice on the owner in accordance with~~

AMERICAN OVERSIGHT

~~the provisions of s. 713.06(2), payment of lienors by the owner under this section shall be governed by s. 713.06(3)(c), (d), (e), (f), (g), (h), and (4).~~

(2)~~(3)~~ The owner may ~~shall~~ not pay any money on account of a direct contract before actual furnishing of labor and services or materials for subdivision improvements. Any payment not complying with such requirement does ~~shall~~ not qualify as a proper payment under this chapter.

(3)~~(4)~~ The owner shall make final payment on account of a direct contract only after the lienor ~~contractor~~ complies with s. 713.06(1)(d) ~~s. 713.06(3)(d)~~. Any payment not complying with such requirement does ~~shall~~ not qualify as a proper payment under this chapter.

Section 10. Section 713.05, Florida Statutes, is amended to read:

713.05 Liens of persons in privity.—A lienor with a direct contract and who is therefore ~~materialman or laborer, either of whom is~~ in privity with the owner~~, or a contractor~~ who complies with ~~the provisions of~~ this part shall, subject to the limitations thereof, have a lien on the real property improved for any money that is owed to him or her for labor, services, materials, or other items required by, or furnished in accordance with, the direct contract and for unpaid finance charges due under the direct ~~lienor's~~ contract, if any. A lienor ~~materialman or laborer,~~ in privity with the owner~~, or a contractor~~ shall also have a lien on the owner's real property for any money that is owed to him or her for labor, services, or materials furnished to improve public property if the improvements to the public property are a condition of the

AMERICAN OVERSIGHT

permit to improve the owner's real property. A ~~No~~ lien under this section may not ~~shall~~ be acquired until a claim of lien is recorded. A lienor who is~~, as a subcontractor, sub-subcontractor, laborer, or materialman~~ not in privity with the owner who~~,~~ commences to furnish labor, services, or materials ~~material~~ to an improvement and who thereafter becomes in privity with the owner has ~~shall have~~ a lien for any money that is owed to him or her for the labor, services, or materials furnished after he or she becomes in privity with the owner. ~~A lienor may record one claim of lien to cover both his or her work done in privity with the owner and not in privity with the owner. No lienor under this section shall be required to serve a notice to owner as provided in s. 713.06(2).~~ A lienor~~, except a laborer or materialman,~~ who is in privity with the owner and claims a lien under this section shall furnish the lienor's ~~contractor's~~ affidavit required in s. 713.06(1)(d) ~~s. 713.06(3)(d)~~. ~~A contractor may claim a lien for any labor, services, or materials furnished by another lienor for which he or she is obligated to pay the lienor, regardless of the right of the lienor to claim a lien; but, if the lienor claims a valid lien, the contractor shall not recover the amount of the lien recovered by the lienor, and the amount of the contractor's claim of lien may be reduced accordingly by court order. No person shall have a lien under this section except those lienors specified in it, as their designations are defined in s. 713.01.~~

Section 11. Section 713.07, Florida Statutes, is amended to read:

713.07 Priority of liens.—

(1) Liens under ss. 713.03 and 713.04 ~~shall~~ attach at the

AMERICAN OVERSIGHT

time of recordation of the claim of lien and ~~shall~~ take priority as of that time.

(2) Liens under s. 713.05 ~~ss. 713.05 and 713.06 shall~~ attach and take priority as of the time of recordation of the notice of commencement, but in the event a notice of commencement is not filed, ~~then~~ such liens ~~shall~~ attach and take priority as of the time the claim of lien is recorded.

(3) All such liens ~~shall~~ have priority over any conveyance, encumbrance, or demand not recorded against the real property before ~~prior to~~ the time such lien attached as provided herein, but any conveyance, encumbrance, or demand recorded before ~~prior to~~ the time such lien attaches and any proceeds thereof, regardless of when disbursed, ~~shall~~ have priority over such liens.

(4) If construction ceases or the direct contract is terminated before completion and the owner desires to recommence construction, he or she may pay all lienors in full or pro rata in accordance with s. 713.06(2) before ~~s. 713.06(4) prior to~~ recommencement, in which event all liens for the recommenced construction ~~shall~~ take priority from such recommencement; or the owner may record an affidavit in the clerk's office stating his or her intention to recommence construction and that all lienors ~~giving notice~~ have been paid in full except those listed therein as not having been so paid, in which event 30 days after such recording~~,~~ the rights of any person acquiring any interest, lien, or encumbrance on said property or of any lienor on the recommenced construction is ~~shall be~~ paramount to any lien on the prior construction unless such prior lienor records a claim of lien within said 30-day period. A copy of said affidavit

AMERICAN OVERSIGHT

shall be served on each lienor named therein. Before recommencing, the owner shall record and post a notice of commencement for the recommenced construction, as provided in s. 713.13.

Section 12. Subsections (1) and (3) of section 713.08, Florida Statutes, are amended to read:

713.08 Claim of lien.—

(1) For the purpose of perfecting her or his lien under this part, every lienor~~, including laborers and persons in privity,~~ shall record a claim of lien which shall state:

(a) The name of the lienor and the address where notices or process under this part may be served on the lienor.

~~(b) The name of the person with whom the lienor contracted or by whom she or he was employed.~~

(b)~~(c)~~ The labor, services, or materials furnished and the contract price or value thereof. Materials specially fabricated at a place other than the site of the improvement for incorporation in the improvement but not so incorporated and the contract price or value thereof shall be separately stated in the claim of lien.

(c)~~(d)~~ A description of the real property sufficient for identification.

(d)~~(e)~~ The name of the owner.

(e)~~(f)~~ The time when the first and the last item of labor, services, ~~or service~~ or materials was furnished.

(f)~~(g)~~ The amount unpaid the lienor for such labor, ~~or~~ services, or materials and for unpaid finance charges due under the lienor's direct contract.

~~(h) If the lien is claimed by a person not in privity with~~

AMERICAN OVERSIGHT

~~the owner, the date and method of service of the notice to owner. If the lien is claimed by a person not in privity with the contractor or subcontractor, the date and method of service of the copy of the notice on the contractor or subcontractor.~~

(3) The claim of lien shall be sufficient if it is in substantially the following form, and includes the following warning:

WARNING!

THIS LEGAL DOCUMENT REFLECTS THAT A CONSTRUCTION LIEN HAS BEEN PLACED ON THE REAL PROPERTY LISTED HEREIN. UNLESS THE OWNER OF SUCH PROPERTY TAKES ACTION TO SHORTEN THE TIME PERIOD, THIS LIEN MAY REMAIN VALID FOR ONE YEAR FROM THE DATE OF RECORDING, AND SHALL EXPIRE AND BECOME NULL AND VOID THEREAFTER UNLESS LEGAL PROCEEDINGS HAVE BEEN COMMENCED TO FORECLOSE OR TO DISCHARGE THIS LIEN.

CLAIM OF LIEN

State of ....

County of ....

Before me, the undersigned notary public, personally appeared ...., who was duly sworn and says that she or he is (the lienor herein) (the agent of the lienor herein ....), whose address is ....; and that in accordance with a contract with ...., lienor furnished labor, services, or materials consisting of .... on the following described real property in .... County, Florida:

AMERICAN OVERSIGHT

(Legal description of real property)

owned by .... of a total value of $...., of which there remains unpaid $...., and furnished the first of the items on ...., ...(year)..., and the last of the items on ...., ...(year)...~~;~~ ~~and (if the lien is claimed by one not in privity with the owner) that the lienor served her or his notice to owner on ...., ...(year)..., by ....; and (if required) that the lienor served copies of the notice on the contractor on ...., ...(year)..., by .... and on the subcontractor, ..., on ...., ...(year)..., by ....~~.

...(Signature)...

Sworn to (or affirmed) and subscribed before me this .... day of ...., ...(year)..., by ...(name of person making statement)....

...(Signature of Notary Public - State of Florida)...

However, the negligent inclusion or omission of any information in the claim of lien which has not prejudiced the owner does not constitute a default that operates to defeat an otherwise valid lien.

Section 13. Paragraph (a) of subsection (2) and subsection (3) of section 713.10, Florida Statutes, are amended to read:

AMERICAN OVERSIGHT

713.10 Extent of liens.—

(2)(a) When the lease expressly provides that the interest of the lessor shall not be subject to liens for improvements made by the lessee, the lessee shall notify the lienor ~~contractor~~ making any such improvements of such provision or provisions in the lease, and the knowing or willful failure of the lessee to provide such notice to the lienor ~~contractor~~ shall render the contract between the lessee and the lienor ~~contractor~~ voidable at the option of the lienor ~~contractor~~.

(3) Any ~~contractor or~~ lienor under contract to furnish labor, services, or materials for improvements being made by a lessee may serve written demand on the lessor for a copy of the provision in the lease prohibiting liability for improvements made by the lessee, which copy shall be verified under s. 92.525. The demand must identify the lessee and the premises being improved ~~and must be in a document that is separate from the notice to the owner as provided in s. 713.06(2)~~. The interest of any lessor who does not serve a verified copy of the lease provision within 30 days after demand, or who serves a false or fraudulent copy, is subject to a lien under this part by the ~~contractor or~~ lienor who made the demand if the ~~contractor or~~ lienor has otherwise complied with this part and did not have actual notice that the interest of the lessor was not subject to a lien for improvements made by the lessee. The written demand must include a warning in conspicuous type in substantially the following form:

WARNING

AMERICAN OVERSIGHT

YOUR FAILURE TO SERVE THE REQUESTED VERIFIED COPY WITHIN 30 DAYS OR THE SERVICE OF A FALSE COPY MAY RESULT IN YOUR PROPERTY BEING SUBJECT TO THE CLAIM OF LIEN OF THE PERSON REQUESTING THE VERIFIED COPY.

Section 14. Section 713.12, Florida Statutes, is amended to read:

713.12 Liens for improving real property under contract with husband or wife on property of the other or of both.—When the direct contract for improving real property is made with a husband or wife who is not separated and living apart from his or her spouse and the property is owned by the other or by both, the spouse who contracts is considered ~~shall be deemed to be~~ the agent of the other to the extent of subjecting the right, title, or interest of the other in said property to liens under this part unless such other gives ~~shall~~, within 10 days after learning of such contract, ~~give~~ the lienor, ~~contractor~~ and records ~~record~~ in the clerk's office, notice of his or her objection thereto.

Section 15. Subsection (1) and paragraph (b) of subsection (5) of section 713.13, Florida Statutes, are amended to read:

713.13 Notice of commencement.—

(1)(a) Except for an improvement that is exempt under s. 713.02(4) ~~pursuant to s. 713.02(5)~~, an owner or the owner's authorized agent before actually commencing to improve any real property, or recommencing completion of any improvement after default or abandonment, ~~whether or not a project has a payment bond complying with s. 713.23,~~ shall record a notice of commencement in the clerk's office and ~~forthwith~~ post either a certified copy thereof or a notarized statement that the notice

AMERICAN OVERSIGHT

of commencement has been filed for recording along with a copy thereof. The notice of commencement shall contain the following information:

1. A description sufficient for identification of the real property to be improved. The description should include the legal description of the property and also should include the street address and tax folio number of the property, if available, or, if a ~~there is no~~ street address is not available, such additional information as will describe the physical location of the real property to be improved.

2. A general description of the improvement.

3. The name and address of the owner, the owner's interest in the site of the improvement, and the name and address of the fee simple titleholder, if other than such owner. A lessee who contracts for the improvements is an owner as defined in s. 713.01 ~~under s. 713.01(23)~~ and must be listed as the owner together with a statement that the ownership interest is a leasehold interest.

4. The name and address of any potential lienors ~~the contractor~~.

~~5. The name and address of the surety on the payment bond under s. 713.23, if any, and the amount of such bond.~~

5.~~6.~~ The name and address of any person making a loan for the construction of the improvements.

6.~~7.~~ The name and address within the state of a person other than himself or herself who may be designated by the owner as the person upon whom notices or other documents may be served under this part.~~; and~~ Service upon the person so designated constitutes service upon the owner.

AMERICAN OVERSIGHT

~~(b) The owner, at his or her option, may designate a person in addition to himself or herself to receive a copy of the lienor's notice as provided in s. 713.06(2)(b), and if he or she does so, the name and address of such person must be included in the notice of commencement.~~

(b)~~(c)~~ If the contract between the owner and a lienor ~~contractor~~ named in the notice of commencement expresses a period of time for completion ~~for the construction~~ of the improvement that is greater than 1 year, the notice of commencement must state that it is effective for a period of 1 year plus any such additional period of time. Any payments made by the owner after the expiration of the notice of commencement are considered improper payments.

(c)~~(d)~~ A notice of commencement must be in substantially the following form:

Permit No..... Tax Folio No.....

NOTICE OF COMMENCEMENT

State of....

County of....

The undersigned hereby gives notice that improvement will be made to certain real property, and in accordance with Chapter 713, Florida Statutes, the following information is provided in this Notice of Commencement.

1. Description of property: ...(legal description ~~of the property~~, and street address of the property, if available)....

2. General description of improvement:.....

3. Owner information or Lessee information if the Lessee

AMERICAN OVERSIGHT

contracted for the improvement:

a. Name and address:.....

b. Interest in property:.....

c. Name and address of fee simple titleholder (if different from Owner listed above):.....

4.a. Lienors ~~Contractor~~: ...(name and address)....

b. Lienors' ~~Contractor's~~ phone number:.....

~~5. Surety (if applicable, a copy of the payment bond is attached):~~

~~a. Name and address:.....~~

~~b. Phone number:.....~~

~~c. Amount of bond: $.....~~

5.a.~~6.a.~~ Lender: ...(name and address)....

b. Lender's phone number:.....

6.~~7.~~ Persons within the State of Florida designated by Owner upon whom notices or other documents may be served as provided by Section 713.13(1)(a)6. ~~713.13(1)(a)7.~~, Florida Statutes:

a. Names and addresses of designated persons ~~Name and address~~:.....

b. Phone numbers of designated persons:.....

~~8.a. In addition to himself or herself, Owner designates ..... of ..... to receive a copy of the Lienor's Notice as provided in Section 713.13(1)(b), Florida Statutes.~~

~~b. Phone number of person or entity designated by owner:.....~~

7.~~9.~~ Expiration date of notice of commencement (the expiration date will be 1 year after ~~from~~ the date of recording, unless a different date is specified).....

AMERICAN OVERSIGHT

WARNING TO OWNER: ANY PAYMENTS MADE BY THE OWNER AFTER THE EXPIRATION OF THE NOTICE OF COMMENCEMENT ARE CONSIDERED IMPROPER PAYMENTS UNDER CHAPTER 713, PART I, SECTION 713.13, FLORIDA STATUTES, AND CAN RESULT IN YOUR PAYING TWICE FOR IMPROVEMENTS TO YOUR PROPERTY. A NOTICE OF COMMENCEMENT MUST BE RECORDED AND POSTED ON THE JOB SITE BEFORE THE FIRST INSPECTION. IF YOU INTEND TO OBTAIN FINANCING, CONSULT WITH YOUR LENDER OR AN ATTORNEY BEFORE COMMENCING WORK OR RECORDING YOUR NOTICE OF COMMENCEMENT.

AMERICAN OVERSIGHT

~~(e) A copy of any payment bond must be attached at the time of recordation of the notice of commencement. The failure to attach a copy of the bond to the notice of commencement when the notice is recorded negates the exemption provided in s. 713.02(6). However, if a payment bond under s. 713.23 exists but was not attached at the time of recordation of the notice of commencement, the bond may be used to transfer any recorded lien of a lienor except that of the contractor by the recordation and service of a notice of bond pursuant to s. 713.23(2). The notice requirements of s. 713.23 apply to any claim against the bond; however, the time limits for serving any required notices shall, at the option of the lienor, be calculated from the dates specified in s. 713.23 or the date the notice of bond is served on the lienor.~~

(d) ~~(f)~~ The giving of a notice of commencement is effective upon the filing of the notice in the clerk's office.

(e) ~~(g)~~ The owner must sign the notice of commencement and no one else may be permitted to sign in his or her stead.

(5)

(b) The amended notice must identify the official records book and page where the original notice of commencement is recorded, and a copy of the amended notice must be served by the owner upon ~~the contractor and~~ each lienor ~~who serves notice~~ before or within 30 days after the date on which the amended notice is recorded.

Section 16. Paragraph (f) of subsection (1) and subsections (2), (3), and (4) of section 713.132, Florida Statutes, are amended to read:

AMERICAN OVERSIGHT

713.132 Notice of termination.—

(1) An owner may terminate the period of effectiveness of a notice of commencement by executing, swearing to, and recording a notice of termination that contains:

(f) A statement that the owner has, before recording the notice of termination, served a copy of the notice of termination on ~~the contractor and on~~ each lienor who has a direct contract with the owner ~~or who has served a notice to owner~~. The owner is not required to serve a copy of the notice of termination on any lienor who has executed a waiver and release of lien upon final payment in accordance with s. 713.20.

(2) An owner has the right to rely on a lienor's ~~contractor's~~ affidavit given under s. 713.06(1)(d) ~~s. 713.06(3)(d), except with respect to lienors who have already given notice,~~ in connection with the execution, swearing to, and recording of a notice of termination. However, the notice of termination must be accompanied by the contractor's affidavit.

(3) An owner may not record a notice of termination except after completion of construction~~,~~ or after construction ceases before completion and all lienors have been paid in full or pro rata in accordance with s. 713.06(2) ~~s. 713.06(4)~~. If an owner or a contractor, by fraud or collusion, knowingly makes any fraudulent statement or affidavit in a notice of termination or any accompanying affidavit, the owner and the contractor, or either of them, as the case may be, is liable to any lienor who suffers damages as a result of the filing of the fraudulent notice of termination,~~;~~ and any such lienor has a right of action for damages occasioned thereby.

(4) A notice of termination is effective to terminate the

AMERICAN OVERSIGHT

notice of commencement at the later of 30 days after recording of the notice of termination or the date stated in the notice of termination as the date on which the notice of commencement is terminated, if the notice of termination has been served pursuant to paragraph (1)(f) on ~~the contractor and on~~ each lienor who has a direct contract with the owner ~~or who has served a notice to owner~~.

Section 17. Paragraphs (b) and (d) of subsection (1) and paragraph (a) of subsection (6) of section 713.135, Florida Statutes, are amended to read:

713.135 Notice of commencement and applicability of lien.—

(1) When any person applies for a building permit, the authority issuing such permit shall:

(b) Provide the applicant and the owner of the real property upon which improvements are to be constructed with a printed statement stating that the right, title, and interest of the person who has contracted for the improvement may be subject to attachment under the Construction Lien Law. The Department of Business and Professional Regulation shall furnish, for distribution, the statement described in this paragraph, and the statement must be a summary of the Construction Lien Law and must include an explanation of the provisions of the Construction Lien Law relating to the recording, and the posting of copies, of notices of commencement and a statement encouraging the owner to record a notice of commencement and post a copy of the notice of commencement in accordance with s. 713.13. The statement must also contain an explanation of the owner's rights ~~if a lienor fails to furnish the owner with a notice as provided in s. 713.06(2) and an explanation of the~~

AMERICAN OVERSIGHT

~~owner's rights~~ as provided in s. 713.22. The authority that issues the building permit must obtain from the Department of Business and Professional Regulation the statement required by this paragraph and must mail, deliver by electronic mail or other electronic format or facsimile, or personally deliver that statement to the owner or, in a case in which the owner is required to personally appear to obtain the permit, provide that statement to any owner making improvements to real property consisting of a single or multiple family dwelling up to and including four units. However, the failure by the authorities to provide the summary does not subject the issuing authority to liability.

(d) Furnish to the applicant two or more copies of a form of notice of commencement conforming with s. 713.13. If the direct contract is greater than $2,500, the applicant shall file with the issuing authority before ~~prior to~~ the first inspection either a certified copy of the recorded notice of commencement or a notarized statement that the notice of commencement has been filed for recording, along with a copy thereof. In the absence of the filing of a certified copy of the recorded notice of commencement, the issuing authority or a private provider performing inspection services may not perform or approve subsequent inspections until the applicant files by mail, facsimile, hand delivery, or any other means such certified copy with the issuing authority. The certified copy of the notice of commencement must contain the name and address of the owner, the name and address of any lienors ~~the contractor~~, and the location or address of the property being improved. The issuing authority shall verify that the name and address of the owner, the name of

AMERICAN OVERSIGHT

any lienors ~~the contractor~~, and the location or address of the property being improved which is contained in the certified copy of the notice of commencement is consistent with the information in the building permit application. The issuing authority shall provide the recording information on the certified copy of the recorded notice of commencement to any person upon request. This subsection does not require the recording of a notice of commencement before ~~prior to~~ the issuance of a building permit. If a local government requires a separate permit or inspection for installation of temporary electrical service or other temporary utility service, land clearing, or other preliminary site work, such permits may be issued and such inspections may be conducted without providing the issuing authority with a certified copy of a recorded notice of commencement or a notarized statement regarding a recorded notice of commencement. This subsection does not apply to a direct contract to repair or replace an existing heating or air-conditioning system in an amount less than $7,500.

(6)(a) In addition to any other information required by the authority issuing the permit, the building permit application must be in substantially the following form:

Tax Folio No.....

APPLICATION APPROVED BY
.....Permit Officer

Section 18. Section 713.16, Florida Statutes, is amended to read:

713.16 Demand for copy of direct contract and statement ~~statements~~ of account; form.—

(1) A copy of the direct contract of a lienor or owner and

AMERICAN OVERSIGHT

a statement of the amount due or to become due if fixed or ascertainable thereon must be furnished by any party thereto, upon written demand of an owner or a lienor contracting with or employed by the other party to such direct contract. If the owner or lienor refuses or neglects to furnish such copy of the direct contract or such statement, or willfully and falsely states the amount due or to become due if fixed or ascertainable under such direct contract, any person who suffers any detriment thereby has a cause of action against the person refusing or neglecting to furnish the same or willfully and falsely stating the amount due or to become due for his or her damages sustained thereby. The information contained in such copy or statement furnished pursuant to such written demand is binding upon the owner or lienor furnishing it unless actual notice of any modification is given to the person demanding the copy or statement before such person acts in good faith in reliance on it. The person demanding such documents must pay for the reproduction thereof, ~~,~~ and, if such person fails or refuses to do so, he or she is entitled only to inspect such documents at reasonable times and places.

(2) The owner may serve in writing a demand of any lienor for a written statement under oath of his or her account showing the nature of the labor or services performed and to be performed, if any, the materials furnished, the materials to be furnished, if known, the amount paid on account to date, the amount due, and the amount to become due, if known, as of the date of the statement by the lienor. Any such demand to a lienor must be served on the lienor at the address and to the attention of any person who is designated to receive the demand ~~in the~~

AMERICAN OVERSIGHT

~~notice to owner served by such lienor~~ and must include a description of the property and the names of the owner~~, the contractor,~~ and the lienor's customer~~, as set forth in the lienor's notice to owner~~. The failure or refusal to furnish the statement does not deprive the lienor of his or her lien if the demand is not served at the address of the lienor or directed to the attention of the person designated to receive the demand ~~in the notice to owner~~. The failure or refusal to furnish the statement under oath within 30 days after the demand, or the furnishing of a false or fraudulent statement, deprives the person so failing or refusing to furnish such statement of his or her lien. If the owner serves more than one demand for statement of account on a lienor and none of the information regarding the account has changed since the lienor's last response to a demand, the failure or refusal to furnish such statement does not deprive the lienor of his or her lien. The negligent inclusion or omission of any information deprives the person of his or her lien to the extent the owner can demonstrate prejudice from such act or omission by the lienor. The failure to furnish a response to a demand for statement of account does not affect the validity of any claim of lien being enforced through a foreclosure case filed before the date on which the demand for statement is received by the lienor.

(3) A request for sworn statement of account must be in substantially the following form:

REQUEST FOR SWORN STATEMENT OF ACCOUNT

WARNING: YOUR FAILURE TO FURNISH THE REQUESTED STATEMENT, SIGNED

AMERICAN OVERSIGHT

UNDER OATH, WITHIN 30 DAYS OR THE FURNISHING OF A FALSE STATEMENT WILL RESULT IN THE LOSS OF YOUR LIEN.

To: ...(Lienor's name and address)...

The undersigned hereby demands a written statement under oath of his or her account showing the nature of the labor or services performed and to be performed, if any, the materials furnished, the materials to be furnished, if known, the amount paid on account to date, the amount due, and the amount to become due, if known, as of the date on which ~~of~~ the statement for the improvement of real property identified as ...(property description)....

~~...(name of contractor)...~~

...(name of the lienor's customer~~, as set forth in the lienor's Notice to Owner, if such notice has been served~~)...

...(signature and address of owner)...

...(date of request for sworn statement of account)...

~~(4) When a contractor has furnished a payment bond pursuant to s. 713.23, he or she may, when an owner makes any payment to the contractor or directly to a lienor, serve a written demand on any other lienor for a written statement under oath of his or her account showing the nature of the labor or services performed and to be performed, if any, the materials furnished, the materials to be furnished, if known, the amount paid on~~

AMERICAN OVERSIGHT

~~account to date, the amount due, and the amount to become due, if known, as of the date of the statement by the lienor. Any such demand to a lienor must be served on the lienor at the address and to the attention of any person who is designated to receive the demand in the notice to contractor served by such lienor. The demand must include a description of the property and the names of the owner, the contractor, and the lienor's customer, as set forth in the lienor's notice to contractor. The failure or refusal to furnish the statement does not deprive the lienor of his or her rights under the bond if the demand is not served at the address of the lienor or directed to the attention of the person designated to receive the demand in the notice to contractor. The failure to furnish the statement within 30 days after the demand, or the furnishing of a false or fraudulent statement, deprives the person who fails to furnish the statement, or who furnishes the false or fraudulent statement, of his or her rights under the bond. If the contractor serves more than one demand for statement of account on a lienor and none of the information regarding the account has changed since the lienor's last response to a demand, the failure or refusal to furnish such statement does not deprive the lienor of his or her rights under the bond. The negligent inclusion or omission of any information deprives the person of his or her rights under the bond to the extent the contractor can demonstrate prejudice from such act or omission by the lienor. The failure to furnish a response to a demand for statement of account does not affect the validity of any claim on the bond being enforced in a lawsuit filed prior to the date the demand for statement of account is received by the lienor.~~

AMERICAN OVERSIGHT

(4)(a) ~~(5)(a)~~ Any lienor who is perfecting a claim of lien may serve with the claim of lien or thereafter a written demand on the owner for a written statement under oath showing:

1. The amount of the direct contract under which the lien was recorded;

2. The dates and amounts paid or to be paid by or on behalf of the owner for all improvements described in the direct contract;

3. The reasonable estimated costs of completing the direct contract under which the lien was claimed pursuant to the scope of the direct contract; and

4. If known, the actual cost of completion.

(b) Any owner who does not provide the statement within 30 days after demand, or who provides a false or fraudulent statement, is not a prevailing party for purposes of an award of attorney fees under s. 713.29. The written demand must include the following warning in conspicuous type in substantially the following form:

WARNING: YOUR FAILURE TO FURNISH THE REQUESTED STATEMENT WITHIN 30 DAYS OR THE FURNISHING OF A FALSE STATEMENT WILL RESULT IN THE LOSS OF YOUR RIGHT TO RECOVER ATTORNEY FEES IN ANY ACTION TO ENFORCE THE CLAIM OF LIEN OF THE PERSON REQUESTING THIS STATEMENT.

(5) ~~(6)~~ Any written demand served on the owner must include a description of the property and the name ~~names~~ of the ~~contractor and the~~ lienor's customer~~, as set forth in the lienor's notice to owner~~.

(6) ~~(7)~~ For purposes of this section, the term "information"

AMERICAN OVERSIGHT

means the nature and quantity of the labor, services, and materials furnished or to be furnished by a lienor and the amount paid, the amount due, and the amount to become due on the lienor's account.

Section 19. Subsection (3) of section 713.165, Florida Statutes, is amended to read:

713.165 Request for list of subcontractors and suppliers.—

~~(3) A list furnished under this section shall not constitute a notice to owner.~~

Section 20. Subsection (2) of section 713.18, Florida Statutes, is amended to read:

713.18 Manner of serving notices and other instruments.—

(2) Notwithstanding subsection (1), service of a ~~notice to owner or a~~ preliminary notice to contractor under s. 255.05 or~~,~~ s. 337.18~~, or s. 713.23~~ is effective as of the date of mailing if:

(a) The notice is mailed by registered, Global Express Guaranteed, or certified mail, with postage prepaid, to the person to be served at any of the addresses set forth in subsection (3);

(b) The notice is mailed within 40 days after the date on which the lienor first furnishes labor, services, or materials; and

(c)1. The person who served the notice maintains a registered or certified mail log that shows the registered or certified mail number issued by the United States Postal Service, the name and address of the person served, and the date stamp of the United States Postal Service confirming the date of mailing; or

AMERICAN OVERSIGHT

2. The person who served the notice maintains electronic tracking records generated by the United States Postal Service containing the postal tracking number, the name and address of the person served, and verification of the date of receipt by the United States Postal Service.

Section 21. Subsections (1) and (7) of section 713.20, Florida Statutes, are amended to read:

713.20 Waiver or release of liens.—

(1) The acceptance by the lienor of an unsecured note for all or any part of the amount of his or her demand does ~~shall~~ not constitute a waiver of his or her lien therefor unless expressly so agreed in writing, nor shall it in any way affect the ~~period for filing the notice under s. 713.06(2), or the~~ claim of lien under s. 713.08.

(7) A lienor who executes a lien waiver and release in exchange for a check may condition the waiver and release upon ~~on~~ payment of the check. ~~However, in the absence of a payment bond protecting the owner, the owner may withhold from any payment to the contractor the amount of any such unpaid check until any such condition is satisfied.~~

Section 22. Subsections (1), (3), and (4) of section 713.24, Florida Statutes, are amended to read:

713.24 Transfer of liens to security.—

(1) Any lien claimed under this part may be transferred~~,~~ by any person having an interest in the real property upon which the lien is imposed or the direct contract under which the lien is claimed~~,~~ from such real property to other security by either:

(a) Depositing in the clerk's office a sum of money~~;~~ or

(b) Filing in the clerk's office a bond executed as surety

AMERICAN OVERSIGHT

by a surety insurer licensed to do business in this state,

either ~~to be~~ in an amount equal to the amount demanded in such claim of lien, plus interest thereon at the legal rate for 3 years, plus $1,000 or 25 percent of the amount demanded in the claim of lien, whichever is greater, to apply on any attorney ~~attorney's~~ fees and court costs that may be taxed in any proceeding to enforce said lien. Such deposit or bond shall be conditioned to pay any judgment or decree which may be rendered for the satisfaction of the lien for which such claim of lien was recorded. Upon making such deposit or filing such bond, the clerk shall make and record a certificate showing the transfer of the lien from the real property to the security and shall mail a copy thereof by registered or certified mail to the lienor named in the claim of lien so transferred~~,~~ at the address stated therein. Upon filing the certificate of transfer, the real property shall thereupon be released from the lien claimed, and such lien shall be transferred to said security. ~~In the absence of allegations of privity between the lienor and the owner, and~~ Subject to any order of the court increasing the amount required for the lien transfer deposit or bond, no other judgment or decree to pay money may be entered by the court against the owner. The clerk is ~~shall be~~ entitled to a service charge for making and serving the certificate, in the amount of up to $20, from which the clerk shall remit $5 to the Department of Revenue for deposit into the General Revenue Fund. If the transaction involves the transfer of multiple liens, an additional charge of up to $10 for each additional lien shall be charged, from which the clerk shall remit $2.50 to the

AMERICAN OVERSIGHT

Department of Revenue for deposit into the General Revenue Fund. For recording the certificate and approving the bond, the clerk shall receive her or his usual statutory service charges as prescribed in s. 28.24. Any number of liens may be transferred to one such security.

(3) Any party having an interest in such security or the property from which the lien was transferred may at any time, and any number of times, file a complaint in chancery in the circuit court of the county where such security is deposited, or file a motion in a pending action to enforce a lien, for an order to require additional security, reduction of security, change or substitution of sureties, payment of discharge thereof, or any other matter affecting said security. If the court finds that the amount of the deposit or bond in excess of the amount claimed in the claim of lien is insufficient to pay the lienor's attorney ~~attorney's~~ fees and court costs incurred in the action to enforce the lien, the court must increase the amount of the cash deposit or lien transfer bond. Nothing in this section shall be construed to vest exclusive jurisdiction in the circuit courts over transfer bond claims for nonpayment of an amount within the monetary jurisdiction of the county courts.

(4) If a proceeding to enforce a transferred lien is not commenced within the time specified in s. 713.22 or if it appears that the transferred lien has been satisfied of record, the clerk shall return said security upon request of the person depositing or filing the same~~,~~ or the insurer. If a proceeding to enforce a lien is commenced in a court of competent jurisdiction within the time specified in s. 713.22 and, during

AMERICAN OVERSIGHT

such proceeding, the lien is transferred pursuant to this section ~~or s. 713.13(1)(c)~~, an action commenced within 1 year after the transfer, unless otherwise shortened by operation of law, in the same county or circuit court to recover against the security shall be deemed to have been brought as of the date of filing the action to enforce the lien, and the court shall have jurisdiction over the action.

Section 23. Section 713.29, Florida Statutes, is amended to read:

713.29 Attorney ~~Attorney's~~ fees.—In any action brought to enforce a lien ~~or to enforce a claim against a bond~~ under this part, the prevailing party is entitled to recover a reasonable fee for the services of her or his attorney for trial and appeal or for arbitration, in an amount to be determined by the court, which fee must be taxed as part of the prevailing party's costs, as allowed in equitable actions.

Section 24. Paragraph (c) of subsection (2) and subsection (3) of section 713.31, Florida Statutes, are amended to read:

713.31 Remedies in case of fraud or collusion.—

(2)

(c) An owner against whose interest in real property a fraudulent lien is filed, or any other lienor ~~contractor, subcontractor, or sub-subcontractor~~ who suffers damages as a result of the filing of the fraudulent lien, has ~~shall have~~ a right of action for damages occasioned thereby. The action may be instituted independently of any other action, or in connection with a summons to show cause under s. 713.21, or as a counterclaim or cross-claim to any action to enforce or to determine the validity of the lien. The prevailing party in an

AMERICAN OVERSIGHT

action under this paragraph may recover reasonable attorney ~~attorney's~~ fees and costs. If the lienor who files a fraudulent lien is not the prevailing party, the lienor is ~~shall be~~ liable to the owner or the defrauded party who prevails in an action under this subsection in damages, which shall include court costs, clerk's fees, a reasonable attorney ~~attorney's~~ fee and costs for services in securing the discharge of the lien, the amount of any premium for a bond given to obtain the discharge of the lien, interest on any money deposited for the purpose of discharging the lien, and punitive damages in an amount not exceeding the difference between the amount claimed by the lienor to be due or to become due and the amount actually due or to become due.

(3) Any person who willfully files a fraudulent lien, as defined in this section, commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084. A state attorney or the statewide prosecutor, upon the filing of an indictment or information against a lienor ~~contractor, subcontractor, or sub-subcontractor~~ which charges such person with a violation of this subsection, shall forward a copy of the indictment or information to the Department of Business and Professional Regulation. The Department of Business and Professional Regulation shall promptly open an investigation into the matter~~,~~ and, if probable cause is found, shall furnish a copy of any investigative report to the state attorney or statewide prosecutor who furnished a copy of the indictment or information and to the owner of the property which is the subject of the investigation.

Section 25. Paragraph (d) of subsection (1) of section

AMERICAN OVERSIGHT

713.345, Florida Statutes, is amended to read:

713.345 Moneys received for real property improvements; penalty for misapplication.—

(1)

(d) A state attorney or the statewide prosecutor, upon the filing of an indictment or information against a lienor ~~contractor, subcontractor, or sub-subcontractor~~ which charges such person with a violation of paragraph (b), shall forward a copy of the indictment or information to the Department of Business and Professional Regulation. The Department of Business and Professional Regulation shall promptly open an investigation into the matter and, if probable cause is found, shall furnish a copy of any investigative report to the state attorney or statewide prosecutor who furnished a copy of the indictment or information and to the owner of the property which is the subject of the investigation.

Section 26. Subsection (7) of section 713.346, Florida Statutes, is amended to read:

713.346 Payment on construction contracts.—

(7) The prevailing party in any proceeding under this section is entitled to recover costs, including a reasonable attorney ~~attorney's~~ fee, at trial and on appeal.

Section 27. Section 713.3471, Florida Statutes, is amended to read:

713.3471 Lender responsibilities with construction loans.—

(1) Before ~~Prior to~~ a lender making any loan disbursement on any construction loan secured by residential real property directly to the owner, which, for purposes of this subsection, means only a natural person, into the owner's account or

AMERICAN OVERSIGHT

accounts, or jointly to the owner and any other party, the lender shall mail, deliver by electronic mail or other electronic format or facsimile, or personally deliver the following written notice to the borrowers in bold type larger than any other type on the page:

WARNING!

YOUR LENDER IS MAKING A LOAN DISBURSEMENT DIRECTLY TO YOU AS THE BORROWER, OR JOINTLY TO YOU AND ANOTHER PARTY. TO PROTECT YOURSELF FROM HAVING TO PAY TWICE FOR THE SAME LABOR, SERVICES, OR MATERIALS USED IN MAKING THE IMPROVEMENTS TO YOUR PROPERTY, BE SURE THAT YOU REQUIRE ALL LIENORS ~~YOUR CONTRACTOR~~ TO GIVE YOU LIEN RELEASES ~~FROM EACH LIENOR WHO HAS SENT YOU A NOTICE TO OWNER~~ EACH TIME YOU MAKE A PAYMENT TO THE LIENOR ~~YOUR CONTRACTOR~~.

This subsection does not apply when the owner is a contractor licensed under chapter 489 or is a person who creates parcels or offers parcels for sale or lease in the ordinary course of business.

(2)(a) Within 5 business days after a lender makes a final determination, before ~~prior to~~ the distribution of all funds available under a construction loan, that the lender will cease further advances under ~~pursuant to~~ the loan, the lender shall serve written notice of that decision on ~~the contractor and on~~ any ~~other~~ lienor who has given the lender notice. The lender is ~~shall~~ not ~~be~~ liable to a lienor ~~the contractor~~ based upon the

AMERICAN OVERSIGHT

decision of the lender to cease further advances if the lender gives the lienor ~~contractor~~ notice of such decision in accordance with this subsection and the decision is otherwise permitted under the loan documents.

(b) The failure to give notice to the lienor ~~contractor~~ under paragraph (a) renders the lender liable to the lienor ~~contractor~~ to the extent of the actual value of the materials and direct labor costs furnished by the lienor ~~contractor~~ plus 15 percent for overhead, profit, and all other costs from the date on which notice of the lender's decision should have been served on the lienor ~~contractor~~ and the date on which notice of the lender's decision is served on the lienor ~~contractor~~. The lender and the lienor ~~contractor~~ may agree in writing to any other reasonable method for determining the value of the labor, services, and materials furnished by the lienor ~~contractor~~.

(c) The liability of the lender may not ~~shall in no event~~ be greater than the amount of undisbursed funds at the time the notice should have been given unless the failure to give notice was done for the purpose of defrauding the lienor ~~contractor~~. The lender is not liable to the lienor ~~contractor~~ for consequential or punitive damages for failure to give timely notice under this subsection. The lienor has ~~contractor shall have~~ a separate cause of action against the lender for damages sustained as the result of the lender's failure to give timely notice under this subsection. Such separate cause of action may not be used to hinder or delay any foreclosure action filed by the lender, may not be the basis of any claim for an equitable lien or for equitable subordination of the mortgage lien, and may not be asserted as an offset or a defense in the foreclosure

AMERICAN OVERSIGHT

case.

(d) For purposes of serving notice on a lienor ~~the contractor~~ under this subsection, the lender may rely on the name and address of the lienor ~~contractor~~ listed in the notice of commencement or, if a ~~no~~ notice of commencement is not recorded, on the name and address of the lienor ~~contractor~~ listed in the uniform building permit application. ~~For purposes of serving notice on any other lienor under this subsection, the lender may rely upon the name and address of the lienor listed in the notice to owner.~~

(e) A ~~The contractor or any other~~ lienor may not waive the right to receive notice under this paragraph.

(3)(a) If the lender and the borrower have designated a portion of the construction loan proceeds, the borrower may not authorize the lender to disburse the funds so designated for any other purpose until the owner serves ~~the contractor and~~ any ~~other~~ lienor ~~who has given the owner a notice to owner~~ with written notice of that decision, including the amount of such loan proceeds to be disbursed. For the purposes of this subsection, the term "designated construction loan proceeds" means that portion of the loan allocated to actual construction costs of the facility and does ~~shall~~ not include allocated loan proceeds for tenant improvements when ~~where~~ the lienor does not have a ~~contractor has no~~ contractual obligation or work order to proceed with such improvements. The lender is ~~shall~~ not ~~be~~ liable to the lienor ~~contractor~~ based upon the reallocation of the loan proceeds or the disbursement of the loan proceeds if the notice is timely given in accordance with this subsection and the decision is otherwise permitted under the loan

AMERICAN OVERSIGHT

documents.

(b) If the lender is permitted under the loan documents to make disbursements from the loan contrary to the original loan budget without the borrower's prior consent, the lender is responsible for serving the notice to any ~~the contractor or other~~ lienor required under this subsection.

(c) This subsection does not apply to a residential project of four units or fewer ~~less~~.

(d) This subsection does not apply to construction loans of less than $1 million unless the lender has committed to make more than one loan, the total of which loans are greater than $1 million, for the purpose of evading this subsection.

(e) The owner or the lender is not required to give notice to ~~the contractor or~~ any ~~other~~ lienor under this subsection unless the total amount of all disbursements described in paragraph (a) exceed 5 percent of the original amount of the designated construction loan proceeds or $100,000, whichever is less.

(f) Disbursement of loan proceeds contrary to this subsection renders the lender liable to the lienor ~~contractor~~ to the extent of any such disbursements or to the extent of the actual value of the materials and direct labor costs plus 15 percent for overhead, profit, and all other costs, whichever is less. The lender is not liable to the lienor ~~contractor~~ for consequential or punitive damages for disbursing loan proceeds in violation of this subsection. The lienor has ~~contractor shall have~~ a separate cause of action against the lender for damages sustained as the result of the disbursement of loan proceeds in violation of this subsection. Such separate cause of action may

AMERICAN OVERSIGHT

not be used to hinder or delay any foreclosure action filed by the lender, may not be the basis of any claim for equitable subordination of the mortgage lien, and may not be asserted as an offset or a defense in the foreclosure case.

(g) For purposes of serving notice on a lienor ~~the contractor~~ under this subsection, the lender may rely upon the name and address of the lienor ~~contractor~~ listed in the notice of commencement or, if no notice of commencement is recorded, the name and address of the lienor ~~contractor~~ listed in the uniform building permit application. ~~For purposes of serving notice on any other lienor under this subsection, the lender may rely upon the name and address of the lienor listed in the notice to owner.~~

(h) For purposes of this subsection, the lender may rely upon a written statement, signed under oath by the ~~contractor or any other~~ lienor, that confirms that the ~~contractor or the~~ lienor has received the written notice required by this subsection.

(i) A ~~contractor and any other~~ lienor may not waive his or her right to receive notice under this subsection.

Section 28. Section 713.35, Florida Statutes, is amended to read:

713.35 Making or furnishing false statement.—Any person, firm, or corporation who knowingly and intentionally makes or furnishes to another person, firm, or corporation an affidavit, a waiver or release of lien, or other document, whether or not under oath, containing false information about the payment status of any lienors ~~subcontractors, sub-subcontractors, or suppliers~~ in connection with the improvement of real property in

AMERICAN OVERSIGHT

this state, knowing that the one to whom it was furnished might rely on it, and the one to whom it was furnished will part with draw payments or final payment relying on the truth of such statement as an inducement to do so commits a felony of the third degree, punishable as provided in s. 775.082 or s. 775.083. A state attorney or the statewide prosecutor, upon the filing of an indictment or information against a person, firm, or corporation ~~contractor, subcontractor, or sub-subcontractor~~ which charges such person or entity with a violation of this section, shall forward a copy of the indictment or information to the Department of Business and Professional Regulation. The Department of Business and Professional Regulation shall promptly open an investigation into the matter and, if probable cause is found, shall furnish a copy of any investigative report to the state attorney or statewide prosecutor who furnished a copy of the indictment or information and to the owner of the property which is the subject of the investigation.

Section 29. Subsection (2) of section 713.22, Florida Statutes, is amended to read:

713.22 Duration of lien.—

(2) An owner or the owner's attorney may elect to shorten the time prescribed in subsection (1) within which to commence an action to enforce any claim of lien or claim against ~~a bond or~~ other security under ~~s. 713.23 or~~ s. 713.24 by recording in the clerk's office a notice in substantially the following form:

NOTICE OF CONTEST OF LIEN

To: ...(Name and address of lienor)...

AMERICAN OVERSIGHT

You are notified that the undersigned contests the claim of lien filed by you on ...., ...(year)..., and recorded in .... Book ...., Page ...., of the public records of .... County, Florida, and that the time within which you may file suit to enforce your lien is limited to 60 days from the date of service of this notice. This .... day of ...., ...(year)....

Signed: ...(Owner or Attorney)...

The lien of any lienor upon whom such notice is served and who fails to institute a suit to enforce his or her lien within 60 days after service of such notice shall be extinguished automatically. The clerk shall serve, in accordance with s. 713.18, a copy of the notice of contest to the lien claimant at the address shown in the claim of lien or most recent amendment thereto and shall certify to such service and the date of service on the face of the notice and record the notice.

Section 30. Paragraph (b) of subsection (2) and paragraph (e) of subsection (5) of section 95.11, Florida Statutes, are amended to read:

95.11 Limitations other than for the recovery of real property.—Actions other than for recovery of real property shall be commenced as follows:

(2) WITHIN FIVE YEARS.—

(b) A legal or equitable action on a contract, obligation, or liability founded on a written instrument, except for an action to enforce a claim against a payment bond, which shall be governed by the applicable provisions of paragraph (5)(e), s.

AMERICAN OVERSIGHT

255.05(10), or s. 337.18(1), ~~or s. 713.23(1)(e),~~ and except for an action for a deficiency judgment governed by paragraph (5)(h).

(5) WITHIN ONE YEAR.—

(e) Except for actions governed by s. 255.05(10) or~~,~~ s. 337.18(1), ~~or s. 713.23(1)(e),~~ an action to enforce any claim against a payment bond on which the principal is a contractor, subcontractor, or sub-subcontractor as defined in s. 713.01, for private work as well as public work, from the last furnishing of labor, services, or materials or from the last furnishing of labor, services, or materials by the contractor if the contractor is the principal on a bond on the same construction project, whichever is later.

Section 31. This act shall take effect July 1, 2020.

Subject: NCOIL 30 Day Materials!

View this email in your browser

Dear NCOIL Participant:

The 30 Day materials for the 2019 NCOIL Annual Meeting at the JW Marriott in Austin, TX from December 10th – 13th are now posted here.

If you have not done so, please register for the meeting here.

NCOIL will celebrate its' 50th year at this meeting.

This meeting has been approved for 15.25 credits of Texas CLE.

The Annual Meeting will begin at the conclusion of the NAIC meeting at the same location. Please plan to arrive in time for the Welcome Reception on the evening of December 10th. There will also be an optional tour of the Texas state capitol on that afternoon.

A full day of policy committees and general sessions will start with the busy Welcome Breakfast on December 11th.

If you are attending the NAIC meeting prior to the NCOIL meeting, we kindly ask that you make a hotel reservation beginning on December 10th with the NCOIL hotel code. You can do this by calling the hotel at 512-474-4744. If you have already made your hotel reservations with NAIC, we ask that you call the hotel with your confirmation code to amend them. You will not need to physically check out of the hotel room and will receive one hotel bill at the conclusion of your stay.

The hotel block closes on November 25th. The link for legislators is here - and the link for general participants is here.

Please do not hesitate to reach out to us with any questions at the NCOIL National Office.

Best,
Will Melofchik

Subject: NCOIL Property & Casualty Insurance Interim Committee Call

View this email in your browser

Dear Friend:

Representative Edmond Jordan (LA) will be hosting an interim conference call meeting of the NCOIL Property & Casualty Insurance Committee on Tuesday, November 19th from 12:00 p.m. to 1:00 p.m. (EST). The purpose of the interim meeting is for the Committee and interested parties to discuss the first draft of the NCOIL Peer-to-Peer Car Sharing Program Model Act, sponsored by Representative Bart Rowland (KY).

All material and registration information for the call will be circulated next week.

If you have any questions please do not hesitate to contact the NCOIL National Office at 732-201-4133 or Will Melofchik, NCOIL General Counsel at wmelofchik@ncoil.org.

Thank you,
Will Melofchik

ADVANCING JUSTICE 2020

NCSL
NATIONAL CONFERENCE OF STATE LEGISLATURES

AMERICANS FOR PROSPERITY | ALEC American Legislative Exchange Council | NATIONAL ASIAN PACIFIC AMERICAN CAUCUS OF STATE LEGISLATORS | NBCSL National Black Caucus of State Legislators | National Caucus of Native American State Legislators | National Foundation for Women Legislators | NHCSL National Hispanic Caucus of State Legislators

You are invited to participate in the Advancing Justice Summit in **Fort Myers Florida, Feb. 7-8, 2020** to learn about the most pressing issues in criminal justice policy. The meeting will kick off the morning of Friday, Feb. 7 and wrap up mid-day on Saturday, Feb. 8.

Advancing Justice is hosted by the National Conference of State Legislatures, in partnership with Americans for Prosperity, the American Legislative Exchange Council, the National Asian Pacific American Caucus of State Legislators, the National Black Caucus of State Legislators, the National Caucus of Native American State Legislators, the National Foundation for Women Legislators, and the National Hispanic Caucus of State Legislators, with support from Stand Together. This important meeting provides an unparalleled opportunity to learn about proven strategies for criminal justice reform, interact with criminal justice experts and network with your peers from other states.

States are leading on criminal justice reform. Legislative action has focused law enforcement resources on solving the most serious crimes and adopted policy to reduce overall justice-system involvement. Almost all individuals in prison will return to our communities and face the challenge of reintegrating. Communities are safest when the criminal justice system respects human dignity and that means achieving justice for victims and ensuring that those with a criminal record have opportunities to succeed upon reentry. Great strides have been made to interrupt the cycle of justice involvement by building up the communities people return to, but there is more to be done.

At Advancing Justice you will learn about key policy topics and community-based solutions for reducing recidivism and right-sizing your criminal justice system. You will also have opportunities to network and work in smaller groups with state lawmakers who are leaders on this issue, policy experts, and system stakeholders to discuss state-specific strategies and learn from the experiences of others who have successfully built consensus around reforms.

Travel, hotel and meeting-related meal and miscellaneous expenses will be paid by NCSL. To reply, please register online using this link as soon as possible. Upon your acceptance, we will promptly provide you with next steps to confirm and arrange your attendance.

AMERICAN OVERSIGHT

For questions about the registration process please contact Laurel Stiegler at laurel.stiegler@ncsl.org or (303) 856-1649. For substantive questions, reach out to Amber Widgery at amber.widgery@ncsl.org or (303) 856-1466 (or partner contact).

We look forward to including you in what we expect to be an exceptional event!

This event has been made possible through support from Stand Together.

Local Funding Initiative Request
Fiscal Year 2020-2021

Tracking # 10758

1. **Project Title** New College of Florida Multi-Purpose Building

2. **Senate Sponsor** Joe Gruters

3. **Date of Request** 12/02/2019

4. **Project/Program Description**

These funds will provide for the planning and design of new, multi-purpose facilities space to support enrollment growth at New College to 1200 students (approximately a 50% increase in enrollment). This project – the highest priority for New College and the third highest priority for the State University System as well – will provide approximately 107,000 square feet of space to support academic programs (classrooms, labs, auditorium), student development (health & wellness, student life), and administrative support (campus safety, financial affairs).

5. **State Agency to receive requested funds** Board of Governors

State Agency contacted? (•) Yes ( ) No

6. **Amount of the Nonrecurring Request for Fiscal Year 2020-2021**

Type of Funding	Amount
Operations	000
Fixed Capital Outlay	6,000,000
Total State Funds Requested	6,000,000

7. **Total Project Cost for Fiscal Year 2020-2021 (including matching funds available for this project)**

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	6000000	100.0 %
Matching Funds		
Federal	00	0 %
State (excluding the amount of this request)	00	0 %
Local	00	0 %
Other	00	0 %
Total Project Costs for Fiscal Year 2020-2021	6,000,000	100 %

8. **Has this project previously received state funding?** ( ) Yes (•) No

If yes, provide the most recent instance:

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. **Is future-year funding likely to be requested?** (•) Yes ( ) No

If yes, indicate nonrecurring amount per year. 17,400,000

AMERICAN OVERSIGHT

10. **Details on how the requested state funds will be expended**

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		
Other Salary and Benefits		
Expense/Equipment/ Travel/Supplies/Other		
Consultants/Contracted Services/Study		
Operational Costs: Other		
Salary and Benefits		
Expense/Equipment/ Travel/Supplies/Other		
Consultants/Contracted Services/Study		
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/ Land/Planning Engineering	Preparation of architectural design, engineering, and per-construction bid documents and permits.	6,000,000
Total State Funds Requested (must equal total from question #6)		6,000,000

AMERICAN OVERSIGHT

11. **Program Performance**

a. What specific purpose or goal will be achieved by the funds requested?

These funds will provide for the planning and design of new, multi-purpose facilities space to support enrollment growth at New College to 1200 students (approximately a 50% increase in enrollment). This project -- the highest priority for New College and the second highest priority for the State University System as well -- will provide approximately 107,000 square feet of space to support academic programs (classrooms, labs, auditorium), student development (health & wellness, student life), and administrative support (campus safety, financial affairs).

b. What activities and services will be provided to meet the intended purpose of these funds?

Preparation of architectural design, engineering, and pre-construction bid documents and permits.

c. What direct services will be provided to citizens by the appropriation project?

The new facilities space will allow New College to grow to 1,200 students and reach an 80% four-year graduation rate. This will result in an extra 100 New College graduates per year, providing critical human capital the state needs. The new facilities will provide space for academic programs (classrooms, labs, auditorium), student development (health & wellness, student life), and administrative support (campus safety, financial affairs).

d. Who is the target population served by this project? How many individuals are expected to be served?

University students (1,200), plus faculty and support staff.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Growing to 1,200 students and reaching an 80% four-year graduation rate will result in an extra 100 New College graduates per year. The 80% graduation rate will propel New College into the premier tier of all public and private liberal arts colleges in the country. Part of increasing the graduation rate focuses on increasing retention. The cost of educating first year undergraduates at NCF who do not begin a second year is estimated to be $1.2 million. Increasing the retention rate to hit hit a 4-year graduation rate of 80% will reduce those costs by more than half.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Withholding state funds.

No to HB 1011 and SB 1128

I am contacting you today to urge you to**OPPOSE HB 1011 and SB 1128 as currently drafted** At a minimum, meaningful registration and data reporting by short-term rental operators and platforms should be required, as it is for every other commercial enterprise in the state. Not only does fail to do that but these bills nullify the few sensible rules that are protecting communities from being overrun by illegal hotels.

Re: NO on SB1128 Vacation Rentals

These comments are submitted on behalf of Committee of the Islands (COTI) a Sanibel based Florida not for profit corporation established soon after Sanibel's incorporation in 1974. COTI's mission in part is to protect the small-town character of our island community. In furtherance of that mission we oppose and urge you to vote no on SB 1128 because it would undermine a time-tested scheme in place on Sanibel to accommodate thousands of visitors each year while preserving the character of our residential neighborhoods.

Sanibel is a visitor friendly place where short term rentals are encouraged. On Sanibel almost all dwellings along the Gulf beach are in a zone where there are no city-imposed limitations on the duration of rentals. In other zones rentals to visitors are likewise encouraged but with a 28-day minimum rental period. That allows property owners who wish to rent their homes and visitors wanting a longer visit, in a non-resort setting, to find suitable rental accommodations.

While SB 1128 as written would grandfather Sanibel's limitation on the duration of short-term rentals in residential neighborhoods, it would seriously hamper Sanibel's ability to enforce those limitations by preempting an ordinance that requires registration and licensing of rental properties. For that reason and because we believe the bill is based on flawed legislative findings as to why preemption is appropriate, we oppose SB 1128.

Among the findings recited in the bill is an expansive view of constitutionally protected property rights relating to "vacation rentals." Property rights are not absolute. They are subject to reasonable restrictions that further the public health, safety and welfare. Otherwise we would not have local zoning, the very basis of community planning recognized by state law. While few would suggest that homeowners may be barred from renting their homes at all, restrictions on the duration of short term rentals and their regulation in ways that accommodate tourism is not unreasonable. SB 1128 lacks balance in that it fails to take into account any reasonable local interest in regulation vacation rentals.

Troubling as well is the finding that "Vacation rentals are residential in nature. "Residences are places people call home. When we spend a long weekend or a week at a beach front resort, we don't consider that resort our residence. Our residence is the place we return to when the vacation is over. It's the place where we interact socially with neighbors and depend on them in times of stress or emergency. That's the essence of a community — and it's not found in resorts.

Our fear, born out already, is that when homes in residential neighborhoods are converted to short term rental usage the sense of neighborhood is lost and the conversion to vacation usage escalates. With substitution of vacationers for true residential occupants a neighborhood loses its essential character and becomes an array of small resorts with anonymous interval occupants coming and going.

In many communities like Sanibel, the social fabric is based largely on volunteerism — residents giving of their time and

AMERICAN OVERSIGHT

energy to further local social values like helping neighbors in need or protecting sea turtle eggs on the beach from predators. Volunteers are residents — people who live in a community — not vacationers. If you as legislators treat vacationers as residents you risk destroying, over time, the very basis of volunteerism in our local communities. We see that happening already and fear that If SB 1128 is enacted it will simply accelerate that process.

We respectfully request that you vote No to SB 1128 Vacation Rentals.

POLICY NEWS - STATE

New York Police Department To Use UAVs To Guard NYC Marathon

Newsday (NY) (10/31, DeStefano) reports that the New York Police Department (NYPD) "will deploy thousands of uniformed cops and more than 600 vehicles to safeguard the 50,000 runners and millions of onlookers at Sunday's 49th New York City Marathon, officials said." NYPD Commissioner James O'Neill "said the race...will get the full treatment from the department's counterterrorism unit." Officers "will also be able to use counter-drone technology to intercept and neutralize any errant drones that try to penetrate the race route, O'Neill said." The NYPD will use "police drones...pressed into service to monitor the 26.2-mile five-borough race."

DJI Acknowledges Reports Of UAV Grounding By Interior Department

Reuters (10/31) reports that "Chinese drone maker DJI said...Thursday that it is aware of reports that the U.S. Department of the Interior has grounded all non-emergency Chinese-made or partly-made drones in a review of its entire drone program." DJI told Reuters it was "disappointed to learn of this development."

China's Foreign Ministry Comments On UAV Fleet Grounding. Reuters (10/31) reports that "China's foreign ministry said on Thursday after reports that the United States Department of the Interior had grounded its fleet of Chinese-made drones that it hoped Washington would 'stop abusing the concept of national security' and provide a non-discriminatory atmosphere for Chinese companies."

Solving For Safety In Autonomous Aircraft Systems

When market share is up for grabs, virtual VTOL testing is the only way to fly. ANSYS offers the industry's most complete simulation solution for autonomous aircraft. It integrates high-fidelity physics with sensor design and testing, automatic safety-critical code generation and closed-loop simulation for ultra-realistic test flights. Here are the how-tos for accelerating VTOL development — and arriving first to market. Learn More.

POLICY NEWS - FEDERAL

FAA Protocol Allows Diabetic Pilots To Fly Commercial Flights

CNN (10/31, Liebermann) reports that the FAA "is set to allow pilots with insulin-treated diabetes to apply to fly commercial airliners, according to a Department of Transportation official." The new protocol "will allow pilots with insulin-treated diabetes to apply for a first- or second-class medical certificate, which is required to fly commercially." Currently, "pilots with insulin-treated diabetes" are prohibited from piloting airliners or other commercial flights. The Aircraft Owners and Pilots Association (ALPA) "applauded the forthcoming decision." ALPA Senior Vice President of Government Affairs Jim Coon said, "With medical advancements, such as continuous glucose monitoring along with proper protocols, the FAA's impending proposal should help many highly qualified pilots fly commercially."

AVIATION

Qantas Grounds Three Boeing 737 NG Jets Due To Cracks

Reuters (10/31) reports that Qantas Airways "said on Friday it found structural cracks in three of its Boeing Co 737 NG planes after conducting earlier-than-required checks of its aircraft as part of a global issue with the model." The jets "have been removed from service for repair, the airline said in a statement."

The Daily Mail (UK) (10/31) reports that "Qantas said the three aircraft would remain out of service until at least the end of 2019, as it worked with the Civil Aviation Safety Authority to resolve the safety issue."

CNN (10/31, Guy, Walsh) reports that the FAA ordered inspections on 737 NG jets in September after The Boeing Company informed the FAA of the problem. Boeing said in a regulatory filing that a "small percentage" of the jets are affected by the issue, and all 737 NG jets with more than 30,000 flight cycles and a third of the jets with 22,600 cycles

AMERICAN OVERSIGHT

have been inspected.
The Wall Street Journal (10/31, Sider, Subscription Publication) reports that Boeing had estimated that about five percent of the 686 aircraft that had been inspected by October 9 showed signs of cracking.
The Hill (10/31, Frazin) reports that a Southwest Airlines spokesman said that Southwest had removed three jets from service due to the issue.

Vietnam's VietJet Orders 20 Airbus A321XLR Aircraft

Reuters (10/31) reports that Vietnam's VietJet "has ordered 20 Airbus long-range A321XLR aircraft that the budget carrier hopes will support its international expansion as Vietnam's aviation market heats up." In a statement Thursday, VietJet "said...that it will be the 'first carrier in the world' to operate the new long-range version of the single-aisle A320neo family jets." The airline "expects the first aircraft to be delivered in 2023."

Brazil's Gol Posts $61M Loss For Q3

Reuters (10/31, Rochabrun) reports that Brazilian airline Gol Linhas Aereas Inteligentes "on Thursday reported a 242 million reais ($60.69 million) third-quarter loss, hit by problems affecting its Boeing 737 planes." The airline "said it had record revenues of 3.7 billion in the quarter but also reduced its profit forecast for the year to 0.90 reais per share, compared to a previous range of being 1.40 and 1.70 reais per share." Gol, which "flies Boeing 737 planes exclusively," has faced fleet issues from the grounding of the 737 MAX and the "pickle fork" cracks on "11 older 737 NG planes."

DOD Center Developing Airborne Sensor Data For Wildfire Response

ExecutiveGov (10/31) reports that "the Department of Defense's Joint Artificial Intelligence Center (JAIC) is developing an algorithm that will use video data from airborne sensors to visualize wildfire information for first responders, C4ISRnet reported Wednesday." Department of Defense Joint Artificial Intelligence Center Chief of Strategy and Communications Greg Allen "said at a Data Coalition conference that the [JAIC] intends to leverage sensor data the department has been collecting for a long time and 'get it in the hands of people who can use that information.'"

UK RAF Takes Delivery Of First Boeing P-8 Poseidon Aircraft

Aviation Week (10/31) reports that "Britain's Royal Air Force (RAF) has taken delivery of its first Boeing P-8 Poseidon, an initial step toward restoring its long-range maritime patrol capability." During a ceremony Tuesday, The Boeing Company "handed over the first of nine aircraft to senior RAF officers...in Seattle."
The Daily Mail (UK) (10/31, Duell) reports that "following an unveiling ceremony in Seattle, the jet was flown to Naval Air Station Jacksonville in Florida where RAF personnel are being trained to operate the aircraft."

American Airlines Flight Attendants Question Safety Of 737 MAX

Reuters (10/31, Rucinski) reports that a union representing American Airlines' flight attendants sent a letter to Boeing CEO Dennis Muilenburg highlighting the union's concerns with the safety of the Boeing 737 MAX. Association of Professional Flight Attendants President Lori Bassani asserted in the letter, "The 28,000 flight attendants working for American Airlines refuse to walk onto a plane that may not be safe and are calling for the highest possible safety standards to avoid another tragedy." Bassani wants her union to have all of the information about the MAX before flight attendants fly on the plane when it returns to service. Boeing spokesman Gordon Johndroe responded in an email statement, "We are committed to providing flight attendants, pilots and our airline customers the information they need so we can re-earn their trust and that of the traveling public that counts on them."
The Wall Street Journal (10/31, Sider, Subscription Publication) reports that the letter is the most recent result of the congressional hearings in which Boeing executives were questioned about documents related to the 737 MAX crashes. Association of Flight Attendants-CWA President Sara Nelson also said that her union's flight attendants will not fly on the 737 MAX until it is proven to be safe by regulators, pilots, airline officials, and engineers.
Experts Question Corporate Governance Of 737 MAX. CBS News (10/31) reports that when the Lion Air crash occurred, 62 percent of The Boeing Company's board members served on three or more company boards. However, that number fell to 43 percent last week. Currently 12 of Boeing's 14 board members still serve on at least one other board, and nine of those 12 board members have a full time job with another company. Corporate governance expert Nell Minow asserted that board members should expect to spend about 240 hours per year on board-related work, and "that quickly becomes exponentially higher if there is a problem." Minow added, "Boeing is the dictionary definition of a problem."

Qatar Airways, Sky Express Sign Cooperation Agreement

Reuters (10/31) reports that "Greek airline Sky Express said on Thursday it had signed an agreement with Qatar Airways to cooperate on flights connecting Doha with the Greek islands, in a boost to the country's key tourism industry." Sky Express "competes with Aegean Airlines' subsidiary Olympic Airways on domestic routes, flies to 24 Greek destinations, including the popular islands of Corfu, Santorini and Crete on ATR42 and ATR72 twin engine turboprop aircraft."

Switzerland's Helvetic Receives First Embraer 190-E2 Aircraft

Aviation Week (10/31) reports that "Swiss regional carrier Helvetic Airways has taken delivery of its first Embraer E190-E2, starting a period of significant growth for the niche airline." Helvetic Airways "plans to operate four E2s by early 2020 and will return three of 10 E190-E1s in the upcoming months." The airline "has a firm order in place for 12

AMERICAN OVERSIGHT

of the aircraft and options for another 12."

SPACE

Russia Reveals Plans For Additional ISS Spaceships

The Houston Chronicle (10/31, Powell) reports that Roscosmos Director General Dmitry Rogozin "announced that he would fund the construction of two additional manned spaceships in order to deliver NASA astronauts to the International Space Station, according to a Russian news outlet." Rogozin told a Russian news source, "I gave a command to Roscosmos...to allocate extra funds to make two more [Soyuz] spaceships. The production capacities of our factory [the Energia Space Rocket Corporation] allow producing four spaceships a year but it is possible to produce five spacecraft." A spokesman for NASA "said the agency intended to 'discuss options for Soyuz seats with Roscosmos.'"

Shares Of Virgin Galactic Down Since NYSE Debut

Bloomberg (10/31) reports that shares of Virgin Galactic "have yet to post a daily gain since adopting the SPCE ticker on Oct. 28, following a merger with a shell investment company that was already trading." Cestrian Capital Research founder Alex King said, "Even compared to an Uber or Lyft or a Slack, this is a really early-stage business. Think of it as a startup that just happens to be listed." Virgin Galactic Holdings Inc. "tumbled 11% to $9.41 at the close in New York, bringing this week's decline to 20%." King added, "I think this is going to happen a lot with this stock. It's going to have some very red days and some very green days." SpaceFund venture capitalist Meagan Crawford said, "I think what you're seeing today is a market correction based on that hype wearing off a bit."

NASA Officials Define Scope Of Artemis 3 Mission

ExecutiveGov (10/31) reports that "NASA officials say the Artemis missions may be limited to gathering lunar samples, as the space agency plans locations on the Moon to explore, Space News reported Wednesday." In remarks Tuesday at the Lunar Exploration and Analysis Group forum, NASA Lunar Surface Systems Lead John Connolly "said the lunar south pole may contain amounts of water ice within shadowed craters." The Artemis 3 "manned lunar mission" is "scheduled for 2024" and "would last for almost a week on the moon based on current plans."

NASA JPL Hosts Pumpkin-Carving Contest

CNET News (10/31, Kooser) reports that NASA JPL engineers competed Wednesday in "the annual JPL Halloween pumpkin-carving contest." The winning design featured a pumpkin "version of the Apollo 11 moon landing complete with a lunar surface and smoke machine." Mars 2020 rover engineer Billy Allen said, "It's totally different from our normal engineering work, which makes it a nice change of pace. You don't get to do much arts and crafts in the rover world."
SPACE (10/31, Malik) reports that this year's entries included "Apollo moon lander pumpkins, alien gourds, an interactive Europa lander pumpkin," and other designs.

NASA Reviewing Future Mission To Orbit Pluto

The Houston Chronicle (10/31, Powell) reports that "NASA has commissioned a study to explore spending...more time examining and exploring" Pluto. For the research, NASA "is providing $150,000 to" the Southwest Research Institute (SwRI), a San Antonio-based group. SwRI Assistant Director Carly Howett said, "We're looking forward to getting into the nitty gritty of this mission and seeing how feasible it is and what a mission like this could really look like." She added, "We've got different instruments, so we'd be able to look at the heat flow, the activity and trying to really get a grip on whether Pluto does have a sub-surface ocean."

ISS Astronauts To Bake Chocolate Chip Cookies With New Test Oven

The AP (10/31, Dunn) reports that ISS astronauts "are about to get a new test oven for baking chocolate chip cookies from scratch." An experimental "Zero G Oven" is scheduled to launch "Saturday from Virginia on Northrop Grumman's Cygnus capsule." The oven will test "the possibility of making freshly baked goods for space travelers." Nanoracks Senior Internal Payloads Manager Mary Murphy "anticipates a baking time of 15 to 20 minutes per cookie at about 325 F (163 C)."

MANUFACTURING

NASA Selects Trio Of Universities For Aerospace Production Funding Effort

ExecutiveGov (10/31) reports that NASA has selected Tuskegee University, the University of Texas at El Paso, and Virginia State University "to receive hands-on experience and support in aerospace manufacturing capacities to address industry gaps." The minority-serving universities "will create learning opportunities in the design, construction and supply chain management of aerospace components within two years." NASA "said Wednesday its aeronautics research mission directorate has teamed up with the Office of Science, Technology, Engineering and Mathematics Engagement to provide...training, research, learning, apprenticeship and internship efforts in high-volume aerospace production under a $1.5M funding opportunity through the Minority University Research and Education Project."

STEM EDUCATION

AMERICAN OVERSIGHT

Bayer Sponsors STEM Program For Girls

AGDAILY (10/31) reports that “American Agri-Women is hoping to give girls better access to...women who have done great things in STEM fields by launching a Women Heroes of Science & Technology educational program.” Bayer’s Crop Science and McCain Foods will sponsor “the initial project, a downloadable bookmark series for middle school students.”

The Aerospace States Association

Good morning Joe Gruters November 5, 2019

POLICY NEWS - STATE

Advertisement

Singapore To Require Mandatory UAV Registration

Aviation Week (11/4) reports that "the Civil Aviation Authority of Singapore (CAAS) will require that drones weighing more than 250 grams (0.5 lb.) be registered as of Jan. 2, 2020." Following a three-month grace period, the operators of unregistered UAVs face fines "of up to S$10,000 ($7,360) and/or imprisonment of up to six months, CAAS said."

Use Of UAVs By Criminals Raises Legal Ambiguity

The Boston Globe (11/3) reported that "drones pose novel and difficult problems for law enforcement" due to their widespread availability and lack of legal norms. UAVs "have...been put to a host of nefarious uses, from smuggling contraband into prisons to swarming FBI agents who were preparing for a raid." However, "local and state authorities are restricted by federal law from intercepting drones in flight, potentially even when a crime is in progress." Bard College Center for the Study of the Drone Co-Director Arthur Holland Michel said, "The use of drones by criminal groups is appealing in part because drones are harder to catch."

Mandatory UK Registration Scheme For UAVs Begins

The Guardian (UK) (11/5, Topham) reports that UAV operators "in the UK must now sit an online test and pay a £9 annual fee or face a £1,000 fine after the launch of a mandatory national registration scheme on Tuesday."
The Daily Mail (UK) (11/4) reports that "the scheme, launched by the Civil Aviation Authority today, will also create a register of all drones operated in the UK." The scheme covers "any drone or model aircraft weighing between 250g (9oz) and 20kg (44lbs)."
BBC News Online (UK) (11/5) reports that "exemptions have been granted for members of several associations involved with flying model aircraft or other small, remotely controlled craft such as drones."

POLICY NEWS - FEDERAL

Senate Approves $22.75B Fiscal 2020 Budget For NASA

ExecutiveGov (11/4) reports that "U.S. senators voted 84-9 Thursday to pass a minibus spending package that allocates a fiscal year 2020 budget of $22.75B for NASA, SpaceNews reported Friday." The bill allocates "$784M to finance aeronautics research efforts such as work at the Glenn Research Center and another $1.4B to support the Orion project, according to a press release posted by the office of Sen. Sherrod Brown" (D-OH). House Appropriations Committee Chair Nita Lowey (D-NY) said, "While I am pleased the Senate has finally passed a package of appropriations bills, we face a pressing deadline of Nov. 21 and are still far behind in completing an orderly appropriations process."

FAA To End FedBizOpps Contracting Announcements

ExecutiveGov (11/4) reports that the FAA "is advising interested vendors that contracting opportunities with the agency and other related announcements will be posted on the new FAA Contract Opportunities website." The agency will cease issuing announcements on the FedBizOpps (FBO) platform, it said Thursday. The FBO transition is scheduled to begin November 8.

Chinese UAVs Assessed For Potential Security Threats

Aviation International News (11/3) reported that U.S. lawmakers have highlighted the "potential security concerns...regarding the potential for Chinese companies and the Chinese government to misuse data from U.S.-based drones for nefarious purposes." Chinese UAV firm DJI "has repeatedly and vociferously denied charges that data from its drones is used for illicit purposes such as espionage, but did admit that its data was shared with the

AMERICAN OVERSIGHT

Chinese government as it applies to drone operations in China." The Drone Origin Security Act (H.R. 4753) would bar Chinese UAVs from usage by the Department of Homeland Security.

UK Labour Party Considering Ban On Fossil Fuels For Private Aircraft

Aviation International News (11/4) reports that "the UK Labour Party has indicated it would consider a ban on fossil-fuel powered private aircraft flights from 2025."
The Daily Mail (UK) (11/4) reports that "Labour has made green issues a central plank of its campaign ahead of the December 12 election." UK Shadow Secretary of State for Transport Andy McDonald said, "Climate targets cannot be met without curbing pollution from air travel, and a passenger on a private jet produces ten times the emissions of someone on a regular flight."

AVIATION

Sources Suggest Lion Air Targeting IPO Valued At Up To $1B In 2020

Reuters (11/4, Daga, Hepher) reports that "Lion Air is targeting a flotation of up to $1 billion in the first quarter of 2020, several sources close to the matter said." The Indonesian budget carrier "is hoping to fund future aircraft deliveries to service an improving market." A source said, "The Indonesian market is finally showing signs of stability. This is a good time to tap the market."

House Democrats To Continue Investigation Into 737 MAX

Reuters (11/4, Shepardson) reports that House Transportation and Infrastructure Committee Chair Peter DeFazio (D-OR) and aviation subcommittee chair Rick Larsen (D-WA) released a joint letter Monday calling statements made by Boeing CEO Dennis Muilenburg "consistent with a culture of concealment and opaqueness." The letter said that the families of the victims of crashes involving the 737 MAX "deserve a thorough investigation from our Committee about how the regulatory system and the law failed, and that's exactly what our committee intends to do." They wrote that their investigation found that The Boeing Company's leaders were "aware of many of the problems that engineers are now attempting to fix during the design and development phase of the 737 MAX." Boeing spokesman Gordon Johndroe said that Boeing "will continue to cooperate with the committee."
EASA: 737 MAX Likely To Return To European Service In Q1. Reuters (11/4, Frost) reports that the Boeing 737 MAX "is likely to return to service in Europe during the first quarter of 2020, the head of the European Union Aviation Safety Agency (EASA) said...Monday." EASA Executive Director Patrick Ky indicated that "preparations by national authorities and airlines may delay the resumption of commercial flights by up to another two months." Said Ky, "If there are training requirements (and) coordination to be done with the EU member states to make sure everyone does the same thing at the same time, this will take a bit of time."
Fortune (11/4) reports that Ryanair CEO Michael O'Leary "expressed frustration with the slow pace of the EASA certification process" for the 737 MAX. He claimed that the agency was "dragging their heels." He also insisted that he is "very confident" in the safety of the 737 MAX.
Return Of 737 MAX Brings Worries Of Oversupply. Reuters (11/4, Hepher, Daga) reports that industry analysts have expressed concerns that when the Boeing 737 MAX is cleared to fly again, there could be "as many as 1,000 surplus aircraft next year," according to Rob Morris, global head of consultancy at Ascend by Cirium. Morris' prediction is based not only on the increased speed of deliveries of 737 MAX aircraft, but also the second-hand aircraft that fleets had been leasing to cover for flights that were scheduled to be operated by the 737 MAX. Analysts anticipate that it would take up to 18 months for Boeing to deliver all of its aircraft when the grounding is lifted.
Dreamliner Helps Support Boeing As 737 MAX Remains Grounded. The Wall Street Journal (11/4, Sindreu, Subscription Publication) reports that although the Boeing 787 Dreamliner had a rough development and introductory period, the jet is proving to be a key revenue source for Boeing due to the grounding of the 737 MAX. Sales of the Dreamliner have exceeded Boeing's expectations. The aircraft has been more profitable than analysts anticipated.
Avenue Capital Leasing Older Aircraft During MAX Grounding. Reuters (11/4, Stempel) reports that the grounding of the MAX "has been a boon for Marc Lasry, the billionaire chief executive of Avenue Capital Group, who is buying inexpensive, older aircraft for his leasing business."

IAG Agrees To $1.1B Purchase Of Air Europa, Boosting Ibero-American Dominance

Aviation International News (11/4) reports that "International Airlines Group (IAG) has agreed to buy Air Europa" in a "€1 billion ($1.11 billion)" deal. The purchase "will further alter the alliance landscape and give the parent company of Madrid-based Iberia and Barcelona-based low-cost carrier Vueling a dominant position in the Spanish market and re-establish its leadership position in the Europe-to-Latin America market." Iberia CEO Luis Gallego "described the deal as "of strategic importance" for Madrid–Barajas Airport, which in recent years has lagged behind the continent's leading four hubs at Amsterdam, Frankfurt, London Heathrow, and Paris Charles De Gaulle." Gallego added, "Madrid will be able to compete with other European hubs on equal terms with a better position on Europe to Latin America routes and the possibility to become a gateway between Asia and Latin America."

Norwegian Air To Sell Six Boeing 737-800 Aircraft

Reuters (11/5) reports that Norwegian Air "has agreed to sell six of its Boeing 737-800 aircraft to Pembroke Aircraft Leasing 5 Limited, a subsidiary of Standard [Chartered], the Oslo-based budget carrier said in a statement." Norwegian said, "The transaction is expected to increase...liquidity by approximately $55 million after repayment of debt and have a positive equity effect." It added, "The sale is in line with the company's continued strategy of

AMERICAN OVERSIGHT

capitalizing on the scale built up over the last few years and the changed focus from growth to profitability."

Miami Skyscraper To Include VTOL Landing Pad

USA Today (11/4, Brown) reports that a new tower in Miami, Paramount Miami World Center, will have "an observation deck at the top that doubles as a landing pad for vertical takeoff and landing vehicles." Although the building will open in 2020, VTOL use cases in which "passengers can be dropped off at home...could be decades away." There are both technical and regulatory obstacles to VTOL vehicles, although a "hoverbike met U.S. Federal Aviation Administration guidelines in 2018."

Counter-UAS Working Group Formed In Europe

Aviation Week (11/4) reports that "the European Organization for Civil Aviation Equipment (Eurocae) has established a working group to develop standards for counter-drone systems that can be used by airports and air traffic control authorities."

Safran Aircraft Engines CEO To Head Safran Group

Aviation Week (11/4) reports that the board of Safran Group has selected Safran Aircraft Engines CEO Oliver Andries "to be group CEO from January 2021." Andries "will take the helm from Philippe Petitcolin after a year-long transition period to start in January 2020, the company announced" Monday.

SPACE

Boeing Declares Starliner Pad Abort Test A Success

The New York Times (11/4, Padilla, Fortin) reports that The Boeing Company "successfully tested a safety system of its commercial spacecraft on Monday morning, bringing the American aerospace industry one step closer to launching astronauts to the International Space Station for the first time since 2011." Boeing "ran an uncrewed test on the launch abort system of the CST-100 Starliner" at the White Sands Missile Range in New Mexico. In a statement, Boeing said, "Today's pad abort test was a milestone achievement for our CST-100 Starliner team, for NASA, and for American human spaceflight."

The Washington Post (11/4, Davenport) reports that Boeing "declared successful its test of the emergency abort system...even though only two of the three main parachutes deployed." At 9:15 a.m. ET, "the capsule fired its abort engines" and went "hurtling through the air to more than 4,000 feet." In a statement, Boeing Vice President and Program Manager, Commercial Crew Programs, Space Exploration John Mulholland said, "The test team and spacecraft performed flawlessly." He added, "Emergency scenario testing is very complex, and today our team validated that the spacecraft will keep our crew safe in the unlikely event of an abort." Company officials "said they have built in redundancy to the spacecraft, and having two of three parachutes deploy was" sufficient.

Florida Today (11/4) reports that "according to Boeing spokesperson Jessica Landa, the deployment of only two of the parachutes is acceptable within their test parameters for their landing sequence."

Reuters (11/4) reports that "the deployment failure happened during a so-called pad abort test of a system designed to propel the crew to safety in the event of an emergency, Boeing spokesman Todd Blecher said by email." He added, "It's too early to determine why all three main parachutes did not deploy." Blecher also said, "However, having two of three deploy successfully is acceptable for the test parameters and crew safety."

CNET News (11/4, Mack) reports that "shortly before landing, the service module dropped to the ground and a series of airbags on the bottom of Starliner inflated for a soft landing."

CBS News (11/4, Harwood) reports that "after jettisoning its forward heat shield, drogue parachutes deployed and stabilized the spacecraft before two red-and-white main parachutes unfurled about 26 seconds into the flight."

Space News (11/4, Subscription Publication) reports that "the spacecraft's launch abort engines fired for five seconds, and a separate set of orbital maneuvering thrusters for 10 seconds, accelerating the spacecraft to more than 1,000 kilometers per hour to simulate escaping a malfunctioning rocket on the launch pad."

SPACE (11/4) reports that "the capsule was equipped with an anthropomorphic test dummy equipped with sensors to gather data that will help Boeing engineers evaluate the results of the test."

CNN (11/4, Wattles) reports that "it was not immediately clear if further parachute testing will be required or if it could result in further delays in the overall Starliner program."

Florida Today (11/4) provides video footage of the test as part of its coverage.

Bottles Of Wine Arrive At ISS For Science Experiment

The AP (11/4, Dunn) reports that "a dozen bottles of fine French wine arrived at the space station Monday, not for the astronauts, but for science." Researchers will study "the red Bordeaux wine" to determine "how weightlessness and space radiation affect the aging process."

The Daily Mail (UK) (11/4) reports that "a Luxembourg-based wine company launched 12 bottles of red wine to the craft that will be aged for an entire year." Researchers will use the "out of this world" wine in "hopes of developing new flavors and properties for the food industry."

Virgin Galactic Seeks To Serve 1.5K Space Tourists Yearly By 2023

Aviation Week (11/5, Bruno, Norris, Klotz) reports that "Virgin Galactic is building its second and third operational SpaceShipTwos, SS2 and SS2-3, and expects them to join the space tourism company's fleet in 2020 and 2021, respectively." Virgin Galactic seeks to fly 1,500 paying space tourists per year by the end of 2023. The company

AMERICAN OVERSIGHT

“provided an update to its business plan in late October as the company’s shares started trading on the New York Stock Exchange.”

NASA Seeking Lockheed Martin X-59 Sonic Boom Measurement System

Aviation Week (11/4, Warwick) reports that NASA “is seeking proposals for an audio system capable of capturing high-resolution acoustic data from flights of its Lockheed Martin X-59 QueSST low-boom demonstrator over communities across the U.S.” The agency is “gear[ing] up to measure the public acceptability of reduced sonic booms.” The system would deploy “an array of ground recording systems (GRS)...over an area approximately 30 x 50 nm. to gather acoustic data across the entire sonic-boom carpet” under the jet’s flight path.

NASA Voyager 2 Probe Provides Insight On Structure Of Solar System

Reuters (11/4, Roulette) reports that NASA’s Voyager 2 spacecraft has provided insight into the structure of the solar system via “the unexpectedly distinct boundary marking where the sun’s energetic influence ends and interstellar space begins.”
BBC News Online (UK) (11/4) reports that “the boundary between the two regions is known as the heliopause.” University of Iowa Professor Don Gurnett said, “We saw the plasma density at the heliopause jump by a very large amount – a factor of 20, at this rather sharp boundary out there.”
CNN (11/4, Strickland) report that “a suite of five studies detailing the findings was published Monday in the journal Nature Astronomy.”
SPACE (11/4, Wall) reports that “Voyager 2 traversed the heliopause...when the probe was 119 astronomical units (AU) from the sun.”
The Guardian (UK) (11/4, Devlin) reports that “measurements published in five separate papers in Nature Astronomy reveal that Voyager 2 encountered a much sharper, thinner heliosphere boundary than Voyager 1.”
The Daily Mail (UK) (11/4) reports that “in one of the papers, the researchers suggest that the interstellar medium near the heliopause...is hotter than expected, with a temperature of around 30,000–50,000°K (29,000–49,000°C).”
CNET News (11/4, Ryan) reports that “the handful of papers are a trove of space data, analyzing the measurements taken by the spacecraft as it made its way over the edge of the solar system.”

MANUFACTURING

Pratt & Whitney Announces Layoffs Of 60 Employees At Plants In MI

The Lansing (MI) State Journal (11/4, Lyons) reports that Pratt & Whitney “will cut roughly 60 employees at its plants” in Lansing and Holt, Michigan. The company “cited fluctuations in orders as the reason for the layoffs.” Separation benefits will be available to the employees, and the company will offer “enhanced benefits” to more senior employees.

STEM EDUCATION

Maryland Students Participate In Statewide STEM Festival

The AP (11/2, Fitzpatrick) reported that students from Springfield Middle School in Williamsport, Maryland, participated in “the statewide Maryland STEM Festival running from Oct. 11 to Nov. 10.” Springfield Middle students from all grades “were required to design and build a bridge capable of holding between three and 23 portioned bags of rice, make a 5-inch tall hut with a workable door that wouldn’t be blown away by a leaf blower and craft a vessel capable of floating and staying waterproof enough to protect its ‘message in a bottle.’”

Subject: Online Sales Tax… It's NOT a New Tax

FIXING FLORIDA'S ONLINE SALES TAX PROBLEM

Online Sales Tax… It's NOT a New Tax

Senator Joe Gruters presented his vision for leveling the playing field between Florida's main street businesses and online retailers at this year's Future of Florida Forum.

Sen. Gruters is the sponsor of SB 126, a bill strongly supported by the Florida Chamber, which establishes online sales tax parity by:

- Requiring online businesses that conduct 200 or more transactions or sales of over $100,000 in Florida to register with the Florida Department of Revenue and collect and remit sales tax.
- Allowing marketplace providers, like Ebay or Amazon, to collect and remit the sales tax.
- Closing Florida's online sales tax loophole, which would generate $700 million in currently owed, but uncollected taxes.

Closing this loophole could fund any number of legislative priorities such as an increase in teacher pay or lowering the business rent tax.

"There's a percentage advantage that out of state, online retailers have over our local brick and mortar retailers," said Senator Gruters. "We've all seen the people who take a picture of a price in a store then go outside and buy the product online and save $5. But who does that hurt? It hurts our retailers and business owners. This is not a new tax. This is a tax that's already owed, and SB 126 will work to level the playing and add convenience for the consumer."

This is not a new tax. This is an issue of fairness. And it's why 43 of 45 states have already leveled the playing field between main street businesses and online retailers.

Get Involved Today

If you are interested in helping the Florida Chamber level the playing field for all businesses, contact Carolyn Johnson at cjohnson@flchamber.com or 850-521-1235 for more information.

Subject: OPPOSE 1128 VACATION homes in residential neighborhoods

Honorable Chair Gruters and Committee Members,

I understand some of your views on property rights and I want to explain how this situation has proliferated to affect our local citizens property rights in Southwest Florida. Unmanaged, unregulated nightly vacation rentals are popping up in our residential neighborhoods, basically they are “mini-hotels” next door. They have become a nuisance to those that live around them because of the turnover and unusual activity that comes along with people not knowing the neighborhood. As a former mayor, I had many residents complain about these rentals because they absolutely destroyed of the neighboring property owners quality of life. The neighbors have no idea who is staying in the house, how many are staying there, and who to contact if something goes wrong. Their only recourse is to call the police, which is a waste of public safety resources and only addresses the immediate crisis not the long term situation.

Rentals that are managed by a professional company are rarely a nuisance, it is the online, short term, nightly vacation rentals that are a problem. Many do not remit the bed tax or register for a LBT, which is required, yet they have listings and advertisements online.

Please allow local government to regulate this situation in some form. Tying our hands and not even allowing a registration or inspection is wrong in this situation, I urge you to OPPOSE 1128.

Thank you for your service and your attention to this matter, RK

Subject: Pass Bill 1128

Dear Senator:

I live in charming downtown St. Augustine where my husband and I own a garage apartment short term rental. We have operated this rental for 5 years without any problems and frequently have guests of our neighbors use the property at no charge. We have off street parking, limit the number of guests and have never had a problem.

There are several other short term rentals in our neighborhood and they are similarly operated in an responsible manner. We are, however, being surrounded by large hotels and we are losing the quality of our neighborhood from that - not the short term rentals which have always been more than an asset to our community as opposed to the long term rental tenants. There are many multi-family homes in our area.

The St. Augustine City Commission is attempting to regulate STR residents out of business. This will hurt all taxpaying property owners and cause those trying to path our super high property taxes by supplementing their income with STR. I believe the Commissions actions are legally suspect and will cause the taxpayers to sue the City who will oppose the tax payers interest with their own tax dollars.

I support a uniform and streamlined registration system that would simplify compliance for everyone across the state. I would like to see standardized regulation of STR within the state, reducing duplicative state local laws.

Please pass this bill.

Thank you for your thoughtful consideration.

Sincerely,

Marianne Larsen

Sent: Friday, February 07, 2020 3:19 PM EST
To: Rafa Neves <rafael.neves@glasstonegroup.com>
Subject: Please support Senate Bill 1128 at Tuesday's Commerce and Tourism Committee

Honorable Senator:

My family and I own and operate GLASSTONE, a Central Florida business that generates dozens of jobs, represents hundreds of homeowners, hosts thousands of guests and remitted over one million dollars in county and state taxes in the last five years alone. We do not allow any kind of parties in our properties, guests need to be over 21 to book, most of our guests are traveling families with small children and almost all of our owners have just one investment property.

Vacation rental owners and professional managers need clear consistent regulations across Florida and that is what this bill does. It removes the patchwork of ordinances from city-to-city and sometimes from one side of the street to another. HOAs are still protected under this bill and cities can still regulate as long as they do it for all residential properties alike. Also, vacation rentals are always the best-kept properties on the street and pay a large amount of taxes and fees (in Osceola County vacation rentals pay **more** in bed taxes than hotels do).

This bill will ***improve*** enforcement and quality-of-life protections at the local level across ***all*** cities - even those that cannot afford expensive regulatory schemes - because it will give the state the ability to have problematic or unregistered properties taken down from online websites. Locals are always arguing and making the case for "we just want to protect quality-of-life" and this bill solves for that - it just places the power to request takedowns on the state - but that doesn't preclude local governments from reporting nuisance or problem properties to them. Additionally, it will increase transparency by mandating the display of registration numbers on all advertisements.

Finally, research from Oxford Economics released last year has shown that vacation rentals have had minimal impact on housing and rent prices, meaning over-regulation of the practice would have minimal impact on housing affordability issues.

In conclusion, this bill will not impede local municipalities and HOAs from regulating noise, pollution and parking issues (it will only preempt local abuse and discrimation against short-term rentals). On behalf of the hundreds of property managers, thousands of homeowners, hundreds of thousands of workers and millions of guests in the vacation rental industry, please support the advancement of this bill as is.

Respectfully,

Senate Committee on Commerce and Tourism:

Dear Chairman Joe Gruters,
Vice Chair Victor Torres,
Senator Travis Hutson,
Senator Linda Stewart,
and Senator Tom Wright,

Please vote against any further consideration of Senate Bill 1128.

In St. Augustine, vacation rentals were having such an impact on our residential neighborhoods, that the City formed a Short Term Rental Committee made up of 7 members: 3 who owned Short Term Rentals, 2 who owned traditional B&Bs, and 2 regular homeowners. We listened to and took all sides into account and came up with recommendations that were a compromise to all sides. I was one of those people that sat on that committee.

We looked at registration, annual inspection, intensity of use, ancillary use, life-safety, parking, solid waste, effects on existing contracts, and violations and penalties. While in all things, no side got all that they wanted, it was a compromise that suited St. Augustine. Many of the responsible STR owners saw this ordinance as a fair way to ensure the reputation of those held to a high standard and provided for public safety,

These recommendations were sent to the City Commission, Planning and Zoning Board, CIty Staff, and the City Attorney, and Ordinance 2019-50 was passed on January 28, 2020.

I ask that you as Senators from all over Florida, respect the principle of Home Rule.

Please do NOT overturn all the hard work of St. Augustine citizens that went into this matter that greatly affects our City on so many levels.

Respectfully,
Melinda Rakoncay
Short Term Rental Committee Member

Please read and print out the following letter for your records.

AMERICAN OVERSIGHT

Thank you for your time on this important matter.
Respectfully,
The Neighborhood Council of St. Augustine

_____

Dear Chairman Joe Gruters,
Vice Chair Victor Torres,
Senator Travis Hutson,
Senator Linda Stewart,
and Senator Tom Wright,

Please vote against any further consideration of Senate Bill 1128.

While we are not against vacation rentals, the Neighborhood Council of St. Augustine feels strongly that their regulation needs to be controlled locally, where everyone on both sides of the community has input.

Each community is different and has different problems, especially when it comes to their residential neighborhoods.

St. Augustine has many historic neighborhoods which are National Register Historic Districts and an important fabric of St Augustine. Many of our residents, which are the heart of our community, LIVE in these historic single family zoned neighborhoods.

The stability of these historic neighborhoods is being threatened as more and more of these single family residences are being bought and turned into short term rental businesses. This is happening in single family zones, where commercial uses have never been allowed before.

The rights of homeowners, whose biggest investment is often their home, are being undermined by SB 1128, as it takes away control of local residential zoning. IF the state legislature can undo local zoning regulations, how can homeowners be assured of those zoning protections that they bought into?

Once residential neighborhoods are filled with tourists, they will no longer be filled with neighbors, and St. Augustine will simply become a tourist town without the full-time residents who make this a livable city.

St Augustine formed a Short Term Rental (STR) Committee this summer to look into ways to help regulate short-term rentals. This committee was made up equally of regular residents, owners of vacation rentals and traditional B&B owners. They looked at registration, annual inspection, intensity of use, ancillary use, life-safety, parking, solid waste, effects on existing contracts, and violations and penalties. These are typical regulations for any business. Many of the responsible STR owners saw this ordinance as a fair way to ensure the reputation of those held to a high standard and provided for public safety,

We support the Short Term Rental Committee's recommendations along with the input of the PZB, City Commission, and City staff and the passage of the recent Ordinance 2019-50, which provides regulation of short-term rentals.

If SB 1128 passes, it will undo all the hard work of the St. Augustine community on this matter. The Republican Party has always stressed smaller closer-to-home government, where the people have a more direct say in their governing.

We simply want Home Rule, so that the people who live here can govern themselves on a matter that greatly affects their quality of life.

Respectfully,

Subject: Prek-12 Legislative Update - 1/12/20
Attachment(s): "2020_Filed_Bills___Prek_12_Education-Jan11-20.xls"

Attached is an up to date tracking chart of 379 bills that directly or indirectly have implications for school districts. As bills get heard, I'll have a separate chart of those which we will then narrow down to the so-called "watch list" as session progresses. New bills since the last chart start numerically after HB969 and SB1290. Several, such as HB1264/HB157/SB1480 (term limits), HB1059 (parental rights), SB1364 (collective bargaining) and SB486/SB1088 (Best and Brightest and teacher compensation) will garner attention. Deadline for legislators to file bills is Tuesday. Thus, we'll have an onslaught of new bills (or House/Senate companions) this coming week. After that, new bills will be committee proposals.

Tomorrow, Senate Education has a full slate of bills:

SB 0062 K-12 Education (Stargel) - Requiring that a resolution to levy discretionary sales tax include a statement containing certain information; defining the term “early college program”; changing the calculation of full-time equivalent student membership for dual enrollment purposes; providing for calculation of full-time equivalent membership for students earning the Capstone Diploma; requiring school board mental health policies and procedures to include certain items, etc.

SB 0072 Postsecondary Education (Stargel) - Clarifying requirements for new construction, remodeling, or renovation projects; establishing state universities of distinction throughout the State University System; requiring that grant awards administered through the Florida Public Postsecondary Career Education Student Assistance Grant Program not exceed a certain amount; specifying eligibility for initial awards under the Benacquisto Scholarship Program; revising the dates by which a spending plan must be submitted to a Florida College System institution’s board of trustees for approval, etc

SB 0536 Charter Schools (Diaz) - Establishing the High-Performing Charter School Council; providing the process for approving or denying a charter school application submitted to the council; authorizing charter school sponsors and applicants to provide input to the state board regarding the council’s recommendation; providing grounds on which the council may recommend denial of, or the state board may deny, an application submitted by a high-performing charter school or a high-performing charter school system, etc.

SB 0836 Funds for the Operation of Schools (Simmons) - Revising the annual allocation to school districts to include an additional calculation of full-time equivalent membership for students who earn a College Board Advanced Placement Capstone Diploma, etc.

SB 1088 *Teacher Salary Enhancement (Diaz) - Establishing a teacher salary enhancement allocation in the General Appropriations Act; requiring each school district to use the allocated funds to increase teacher salaries; authorizing school districts that meet the teacher salary requirements specified in the appropriations act to use any additional funds provided in the allocation for any lawful operating expenditure, etc.*

SB 1164 Gardiner Scholarship (Perry) - Revising eligibility requirements for the Gardiner Scholarship Program; revising an authorized use of scholarship funds; providing that scholarship funds may be spent for tuition and fees associated with programs relating to art, music, or theater; revising terms under which a student’s scholarship account is closed and program funds revert to the state, etc.

SB 1218 Anti-bullying and Anti-harassment in Schools (Diaz) - Expanding the information that private schools participating in an educational scholarship program are required to publish and provide to parents; requiring such private schools to adopt bullying and harassment policies; requiring such schools to report bullying and harassment incidents to the Department of Education, etc.

We'll have results tomorrow.

Subject: Proposed Senate Bill re: Public Health, Water Efficiency and Cooling Towers
Attachment(s): "billdraft74231.DOCX"

Mr. Dione Ramos, District Secretary
Office of Florida Rep. James Buchanan

Dione,

Thank you for returning my call. Per our conversation today, attached is the proposed public health and water efficiency bill from bill drafting related to cooling towers being sponsored in the Senate by State Sen. Joe Gruters (R) Sarasota. Per Sen. Gruters' suggestion, we respectfully request Rep. Buchanan to sponsor this bill in the House. The bill also has the support of Sarasota County Public Health Official Chuck Henry who is promoting the bill with the Florida Department of Health.

Thank you again for your interest in this important public health and water efficiency bill. As we discussed, Chris Boyd at NSF International, and I, are available to respond to any questions or schedule a conference call with Rep. Buchanan at his request. In the meantime, if you or Rep. Buchanan have any questions about the bill, please contact me anytime. Thank you.

Best regards,

Jay

AMERICAN OVERSIGHT

23-00188-20

A bill to be entitled

An act relating to cooling towers; providing a directive to the Division of Law Revision; creating s. 386.301, F.S.; providing legislative intent; creating s. 386.302, F.S.; defining terms; creating s. 386.303, F.S.; requiring that owners of cooling towers register them with the Department of Health; requiring the department to create a statewide electronic system for such registrations; providing minimum requirements for the registration system; requiring that owners of cooling towers report specified information regarding the towers to the department, beginning on a specified date; providing department responsibilities regarding the registration system; requiring that owners of cooling towers maintain certain cooling tower records for a specified timeframe; requiring that a copy of the cooling tower's maintenance program and plan be kept on the cooling tower premises; creating s. 386.304, F.S.; requiring that owners of cooling towers obtain or update a maintenance program and plan for existing and newly installed cooling towers, by a specified date; providing requirements for the maintenance program and plans; creating s. 386.305, F.S.; requiring that certain culture analyses be conducted by certified environmental laboratories; providing requirements for interpreting the results of such analyses; creating s. 386.306, F.S.; requiring that owners of cooling towers provide notification to the county health department and the public within a

AMERICAN OVERSIGHT

specified timeframe under specified circumstances; requiring county health departments to provide certain notification to the department; requiring the county health department or, at its discretion, the department to determine the method of certain notifications; creating s. 386.307, F.S.; providing cooling tower disinfection standards; requiring that the person conducting the disinfection meet certain qualifications; specifying the types of products that may be used during a disinfection; providing cooling tower efficiency standards; creating s. 386.308, F.S.; requiring that owners of cooling towers have their cooling towers inspected before initial startup and, thereafter, at specified intervals; providing inspection requirements; requiring that persons conducting inspections report deficiencies to the owner for corrective action; requiring initial and annual certification of cooling towers, by a specified date; providing requirements for certification; requiring that all inspection findings, deficiencies, corrective actions, and certifications be reported to the department and maintained by the owner; creating s. 386.309, F.S.; authorizing the department or a county health department to require an owner to conduct a *Legionella* culture sampling and analysis under certain circumstances; authorizing an officer, employee, or agent of the department or county health department to enter a property to inspect a cooling tower; specifying that certain actions by the owner of

AMERICAN OVERSIGHT

a cooling tower may constitute a nuisance; providing for civil and criminal penalties; requiring the State Surgeon General to submit a report to the Legislature by a specified date; providing requirements for the report; creating s. 386.3101, F.S.; authorizing county health departments or the department to issue waivers if the waiver does not present a danger to the public health; providing requirements for the waivers; authorizing county health departments to issue variances under certain circumstances for a specified period of time; providing for severability; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. The Division of Law Revision is directed to create part III of chapter 386, Florida Statutes, consisting of ss. 386.301-386.3101, Florida Statutes, to be entitled "Cooling Towers."

Section 2. Section 386.301, Florida Statutes, is created to read:

386.301 Legislative intent.—The purpose of this part is to protect people from the health hazards of *Legionella*, a bacterium that is known to originate in improperly sanitized cooling towers.

Section 3. Section 386.302, Florida Statutes, is created to read:

386.302 Definitions.—As used in the part, the term:

(1) "Bacteriological culture sampling and analysis" means

AMERICAN OVERSIGHT

the collection of a water sample for the purpose of measuring the live culture growth of aerobic bacterial populations using heterotrophic plate count, dip slides, or a similar method employed by the industry in accordance with the manufacturer's directions for use.

(2) "Building," unless otherwise expressly indicated by the text, means all or part of a structure, premises, or lot which is used or is intended to support or shelter a use or occupancy.

(3) "Cleaning" means physical, mechanical, or other removal of biofilm, scale, debris, rust, other corrosion products, sludge, algae, and other potential sources of contamination.

(4) "Compliance inspection" means the inspection, testing, and other activities that are required on a regular basis in accordance with s. 386.308.

(5) "Cooling tower" means an evaporative condenser, a fluid cooler, or another wet cooling device that is capable of aerosolizing water; that contains or is part of a recirculated water system; and that is incorporated into a building's cooling process, industrial process, refrigeration system, or energy production system.

(6) "Cooling tower cells" means the smallest subdivisions of a tower which can function independently with regard to air and water flow. Each cell may have one or more fans and one or more distribution systems.

(7) "Cooling tower water system" means one or more cooling towers and all of the recirculating water system components, process instruments, and appurtenances through which water flows or comes into contact with chemical applicators, valves, pumps, condensers, heat exchangers, and other related components.

AMERICAN OVERSIGHT

(8) "Corrective action" means disinfection, cleaning, flushing, and other activities to remedy biofilm growth, *Legionella* proliferation, or other system mechanical problems identified through monitoring, inspections, or other means, as determined by the department.

(9) "Cycles of concentration" means the ratio of make-up water volume to blowdown water volume, which may be approximated from the ratio of the conductivity of the blowdown water to the conductivity of the make-up water.

(10) "Department" means the Department of Health.

(11) "Dip slide" means a method to test for microorganisms which consists of a sterile culture medium affixed to a sterile slide that is dipped directly into the sampled liquid.

(12) "Disinfection" means the use of one or more biocides at a defined concentration, under specified conditions, for an established period of time to kill or inactivate pathogenic microorganisms. The term does not include the cleaning of a cooling tower through the application of detergents, penetrants, brushes or other tools, highly pressurized water, or any other method that does not involve the use of a pesticide or economic poison, as defined in s. 482.021(23); the use of a pesticide, as defined in s. 487.021(49); or the use of a restricted-use pesticide, as defined in s. 487.021(58).

(13) "Drift eliminator" means a system of baffles that cause separation of entrained water designed to remove aerosols from cooling tower exhaust.

(14) "Heterotrophic plate count" means a measure of the concentration of microorganisms that require an external source of organic carbon for growth, including bacteria, yeasts, and

AMERICAN OVERSIGHT

mold, in water samples.

(15) "*Legionella*" means the genus of bacteria that is ubiquitous in aqueous environments, including the recirculated water of cooling tower water systems that are not properly or regularly maintained.

(16) "*Legionella* culture sampling and analysis" means the collection of a water sample for the measurement of the live culture of *Legionella* involving the use of specialized media and laboratory methods for growth to determine the species and serogroup.

(17) "Maintenance program and plan" means a written document, developed by a qualified person, which specifies required monitoring, cleaning, disinfection, and other practices for the prevention and control of *Legionella* growth in a cooling tower water system, and is in accordance with section 5, 6, and 7.2 of ANSI/ASHRAE Standard 188-2018, Legionellosis: Risk Management for Building Water Systems and the manufacturer's instructions.

(18) "Owner" means all of the following:

(a) A person, agent, firm, partnership, corporation or other legal entity that has a legal or equitable interest in, or control of, a cooling tower or the premises of the cooling tower.

(b) The legal owner of the building.

(c) A tenant, if the tenant:

1. Owns a cooling tower that services the tenant's leased premises; or

2. Does not own the cooling tower but has a lease or contractual arrangement to maintain the cooling tower.

AMERICAN OVERSIGHT

(19) "Qualified person" means a professional engineer licensed and registered in this state; a certified industrial hygienist; a certified water technologist; a professional with training and experience in developing management plans and performing inspections in accordance with industry protocols, including, but not limited to, NSF Protocol 453-2017: Cooling Towers – Treatment, Operation, and Maintenance to Prevent Legionellosis; or an environmental consultant who has at least 2 years of operational experience in water management planning and operation.

Section 4. Section 386.303, Florida Statutes, is created to read:

386.303 Registration; reporting; recordkeeping.—

(1) REGISTRATION.—Before initial operation, and upon any change in ownership, the owner of a cooling tower shall register each of his or her cooling tower water systems with the department, using a statewide electronic system designated by the department. The registration system must require, at a minimum, all of the following information:

(a) The street address of the building at which the cooling tower is located.

(b) The name, address, telephone number, and email address of each cooling tower owner.

(c) The total number of cooling towers in the system.

(d) The name of the manufacturer of the cooling tower.

(e) The model number of the cooling tower.

(f) The specific unit serial number of the cooling tower, if available.

(g) The cooling capacity of the cooling tower.

AMERICAN OVERSIGHT

(h) The cooling tower water system volume, inclusive of any piping, basin, or sump.

(i) The intended use of the cooling tower.

(j) Whether systematic disinfection in accordance with s. 386.307 is maintained, manually, through timed injection, or through continuous delivery.

(k) Whether maintenance is performed by an employee, a contractor, or another party.

(l) The year the cooling tower was placed into service.

(2) REPORTING.—

(a) Beginning July 1, 2020, a cooling tower owner shall report through the statewide electronic system all of the following information to the department at least every 90 days while the cooling tower is in use:

1. The date of the last bacteriological culture sample collection, the results of the analysis, and the designated due date of any remedial action that is required pursuant to s. 386.304(2)(a).

2. The date of the last *Legionella* culture sample collection, the results of the sample analysis, and the date that any remedial action was taken, as required by s. 386.304(2)(b)-(e).

3. The date of the last compliance inspection performed pursuant to s. 386.308 and the resulting standardized inspection report.

4. The date of the lowest daily cycles of concentration recorded, and the target number of cycles.

5. The average daily make-up water volume and blowdown water volume.

AMERICAN OVERSIGHT

6. The percentage of make-up water that is delivered to the cooling tower versus the blowdown water volume.

7. The date of most recent certification pursuant to s. 386.308.

8. The date of removal or permanent discontinuation of use of the cooling tower, if applicable.

9. Any other information deemed necessary by the department.

(b) If a landlord and a tenant are considered to be owners of a cooling tower, as defined in s. 386.302, only one of the parties is required to register the cooling tower. However, both parties are responsible for ensuring that registration and reporting are completed as required by this part.

(3) STATEWIDE SYSTEM.—

(a) The department shall make the data in the statewide electronic system:

1. Publicly available, as appropriate.

2. Fully accessible to and searchable by county health departments.

(b) This part does not prohibit a county health department from requiring registration with and reporting to a county system or collecting fees associated with the administration of such a system.

(c) The department shall provide owners with a mobile data collection platform that is compatible with Android and Apple devices and that electronically collects, and allows owners to electronically submit, the information required by this part.

(4) RECORDKEEPING.—A cooling tower owner shall:

(a) Maintain for at least 3 years all of the following

AMERICAN OVERSIGHT

records:

1. Required sampling and analyses.

2. Disinfection schedules and applications.

3. Inspection findings, deficiencies, and corrective actions.

4. Required certifications.

(b) Maintain on the premises of the cooling tower a copy of the current maintenance program and plan required by this part.

(c) Make the records and plan required under this subsection immediately available to the department or county health department upon request.

Section 5. Section 386.304, Florida Statutes, is created to read:

386.304 Maintenance program and plan.—

(1) The owner of a cooling tower shall:

(a) By September 1, 2020, develop or update a maintenance program and plan for each existing cooling tower, which must be consistent with section 7.2 of ANSI/ASHRAE Standard 188-2018, Legionellosis: Risk Management for Building Water Systems.

(b) After September 1, 2020, maintain such a maintenance program and plan for each newly installed cooling tower.

(2) The maintenance program and plan must include all of the following elements:

(a) A schedule for routine bacteriological culture sampling and analysis to assess microbiological activity. The sampling and analysis must be conducted at intervals of not more than 7 days while the cooling tower is in use and must require additional bacteriological culture sampling and analysis, as needed, to validate process adjustments.

AMERICAN OVERSIGHT

(b) A schedule for routine *Legionella* culture sampling and analysis within 14 days after startup and, thereafter, while the cooling tower is in use, at monthly intervals. Cooling towers in use year-round must conduct sampling and analysis at intervals of not more than 30 days, and within 2 weeks after startup following maintenance.

(c) A procedure for achieving water efficiency by maintaining a minimum of eight cycles of concentration using automatic conductivity control or for estimating the percentage of water savings through the installation of water meters on make-up and blowdown lines.

(d) A requirement that, in addition to development of the routine *Legionella* culture sampling and analysis schedule required by paragraph (b), immediate *Legionella* culture sampling and analysis be conducted in the event of any of the following:

1. A mechanical breakdown of the cooling tower water system for more than 72 hours.

2. A power failure affecting the cooling tower water system for more than 72 hours.

3. A loss of biocide treatment of the cooling tower water system for more than 72 hours.

4. Failure of conductivity control or any other control methods for more than 72 hours.

5. A determination by the department or a county health department that one or more cases of legionellosis are or may be associated with the cooling tower, based on epidemiologic data or laboratory testing.

6. Any other conditions specified by the department or a county health department.

AMERICAN OVERSIGHT

(e) A requirement that an owner take immediate and appropriate action, including remedial action, in response to a bacteriological or *Legionella* culture analysis. For bacteriological analysis results, the response must include, but need not be limited to, taking action as required by s. 386.305(2). For *Legionella* culture analysis results, the response must include, but need not be limited to, taking action as required by s. 386.305(3) and contacting the county health department as required by s. 386.306.

(f) A requirement that any *Legionella* culture analyses be performed pursuant to s. 386.305(1).

(g) A shutdown and disinfection plan for removing or permanently discontinuing use of a cooling tower.

(h) Requirements for treatment and manual or automated flushing of any piping, basin, sump, or wetted surface during idle conditions.

Section 6. Section 386.305, Florida Statutes, is created to read:

386.305 Culture analyses.—

(1) LABORATORY REQUIREMENTS.—A culture analysis must be performed by an environmental laboratory certified pursuant to s. 403.0625 which is approved to perform such an analysis.

(2) INTERPRETATION OF BACTERIOLOGICAL ANALYSIS RESULTS FROM COOLING TOWERS.—

(a) *Level 1.*—Samples with a culture result that is less than 10,000 colony forming units per milliliter (CFU/mL). The cooling tower owner shall maintain the treatment program and bacteriological monitoring in accordance with the cooling tower's maintenance program and plan.

AMERICAN OVERSIGHT

(b) *Level 2.*—Samples with a culture result that is greater than or equal to 10,000 CFU/mL but less than 100,000 CFU/mL. The cooling tower owner shall do all of the following until the water sample culture results meet the Level 1 criteria:

1. Review the treatment program.

2. Initiate immediate disinfection by increasing biocide concentration or using a different biocide within 24 hours after receiving the analysis results.

3. Retest the water within 3 to 7 days after receiving the analysis results.

(c) *Level 3.*—Samples with a culture result that is greater than or equal to 100,000 CFU/mL but less than 1,000,000 CFU/mL. The cooling tower owner shall do all of the following until the water sample culture results meet the Level 1 criteria:

1. Review the treatment program and provide notification as required by s. 386.306.

2. Increase biocides within 24 hours after receiving the analysis results.

3. Perform a visual inspection to evaluate the need to perform cleaning and additional disinfection.

4. Retest the water within 3 to 7 days after receiving the analysis results.

(d) *Level 4.*—Samples with a culture result that is greater than or equal to 1,000,000 CFU/mL. The cooling tower owner shall do all of the following until the water sample culture results meet the Level 1 criteria:

1. Review the treatment program and provide notification as required by s. 386.306.

2. Increase biocides within 2 hours after receiving the

AMERICAN OVERSIGHT

analysis results.

3. Within 48 hours after receiving the analysis results, perform remediation of the tower by hyper halogenating, cleaning, and flushing the tower.

4. Retest the water within 3 to 7 days after receiving the analysis results.

(3) INTERPRETATION OF *LEGIONELLA* CULTURE RESULTS FROM COOLING TOWERS.—

(a) *Level 1.—Legionella* culture sample results of less than 20 CFU/mL. The cooling tower owner shall maintain the treatment program and monitoring in accordance with the cooling tower's maintenance program and plan.

(b) *Level 2.—Legionella* culture sample results of more than 20 CFU/mL but less than 1,000 CFU/mL. The cooling tower owner shall do all of the following until the water sample culture results meet the Level 1 criteria:

1. Review the treatment program.

2. Perform immediate online disinfection.

3. Retest the water within 3 to 7 days after receiving the analysis results.

a. If the retest indicates a presence of *Legionella* of more than or equal to 20 CFU/mL but less than 100 CFU/mL, the cooling tower owner must repeat the online disinfection.

b. If the subsequent retest indicates a presence of *Legionella* of more than or equal to 100 CFU/mL but less than 1,000 CFU/mL, the cooler tower owner must further investigate the water treatment program and immediately perform online disinfection.

(c) *Level 3.—Legionella* culture sample results of more than

AMERICAN OVERSIGHT

or equal to 1,000 CFU/mL. The cooling tower owner shall do all of the following until the water sample culture results meet the Level 1 criteria:

1. Review the treatment program.

2. Provide notification as required by s. 386.306.

3. Institute immediate system decontamination.

4. Retest the water within 3 to 7 days after receiving the analysis results.

a. If the retest indicates a presence of *Legionella* of more than or equal to 20 CFU/mL but less than 1,000 CFU/mL, the cooling tower owner must take the actions required under paragraph (b).

b. If the subsequent retest indicates a presence of *Legionella* of more than or equal to 1,000 CFU/mL, the owner must perform system decontamination.

Section 7. Section 386.306, Florida Statutes, is created to read:

386.306 Notification.—A cooling tower owner shall:

(1) Notify the county health department within 24 hours after receiving a *Legionella* water sample culture result that exceeds 1,000 colony forming units per milliliter. The county health department shall notify the department within 24 hours after receiving such a report.

(2) Notify the public of such test results in a manner determined by the county health department or, at the discretion of the department, by the department.

Section 8. Section 386.307, Florida Statutes, is created to read:

386.307 Cooling tower standards.—

AMERICAN OVERSIGHT

(1) DISINFECTION.—

(a) A person who disinfects a cooling tower must be a commercial applicator or a certified applicator as defined in s. 487.021 who is licensed to apply biocide in a cooling tower and who is certified in accordance with the requirements of the Florida Pesticide Law, or be an apprentice who is under the direct supervision of a licensed applicator, as defined in s. 487.021.

(b) The cooling tower owner shall maintain the name and certification number of the applicator who disinfects the cooling tower under paragraph (a) or the business name and number of the company providing onsite disinfection.

(c) Only biocide products registered by the Department of Environmental Protection for use in cooling towers or pesticidal devices produced in an establishment registered by the Environmental Protection Agency may be used to disinfect a cooling tower.

(2) EFFICIENCY.—

(a) Each cooling tower owner shall install make-up and blowdown meters on each of his, her, or its cooling towers to monitor the total volume of water used by the cooling tower, and shall ensure that the cooling tower has an automatic conductivity controller, a high-efficiency drift eliminator, and an overflow alarm to prevent overflow of the sump in case of make-up water valve failure. The overflow alarm must provide an alert through an energy management control system to the cooling tower operators in the event of an overflow of the sump.

(b) All cooling towers must achieve at least eight cycles of concentration using automatic conductivity control.

AMERICAN OVERSIGHT

(c) The efficiency of the cooling tower water system must be measured by the percentage of water that is delivered to the cooling tower versus the blowdown water volume.

(d) If the local water utility supplies water to the property, water meters must meet the requirements of the utility.

Section 9. Section 386.308, Florida Statutes, is created to read:

386.308 Compliance inspection and certification.—

(1) COMPLIANCE INSPECTION.—

(a) Each cooling tower owner shall ensure that each of his, her, or its cooling towers is inspected before initial startup and at intervals of not more than every 90 days while in use.

(b) A compliance inspection must be performed by a qualified person who is unaffiliated with the water treatment company; a professional engineer licensed in this state; an industrial hygienist; a water technologist; or an environmental consultant, any of whom must have training and experience in performing inspections in accordance with current standard industry protocols, including, but not limited to, ANSI/ASHRAE Standard 188-2018, Legionellosis: Risk Management for Building Water Systems.

(c) Each compliance inspection must include an evaluation, on a standardized inspection form created by the department, of all of the following:

1. The cooling tower and associated equipment for the presence of organic material, biofilm, algae, debris, and other visible contaminants.

2. The general condition of the cooling tower basin, remote

AMERICAN OVERSIGHT

sump, packing material, and drift eliminators.

3. The water make-up connections and control, including backflow protection or air gaps, as needed.

4. Whether the conductivity control and the make-up and blowdown meters are functioning properly.

5. Whether the water treatment equipment, including, but not limited to, pumps, timers, valves, and strain gauges, are functioning properly.

(d) Information collected during compliance inspections must be collected and entered into the department's mobile data collection platform, must include the standardized inspection form, and must be submitted to the registration portal by a qualified person as specified in paragraph (b).

(e) The person performing the inspection shall report any deficiencies found to the owner so that corrective action may be taken and document all completed corrective actions using the department's mobile data collection platform.

(2) CERTIFICATION.—By November 1, 2020, and by each November 1 thereafter, a cooling tower owner shall obtain an annual certification from a qualified person which certifies that a maintenance program and plan is in place for the cooling tower and that all actions required under that plan and this part have been taken, including, but not limited to, all of the following:

(a) All required bacteriological culture sampling and analyses.

(b) All *Legionella* culture sampling and analyses, including any immediate *Legionella* culture sampling and analyses performed pursuant to s. 386.304(2)(d) and (e).

AMERICAN OVERSIGHT

(c) Any disinfection performed pursuant to the standards specified in section 386.307(1).

(d) All compliance inspections performed pursuant to subsection (1).

(3) REPORTING.—All inspection findings, deficiencies, corrective actions, and certifications must be reported to the department and maintained by the owner as required by s. 386.303.

Section 10. Section 386.309, Florida Statutes, is created to read:

386.309 Enforcement.—

(1) The department or a county health department may require an owner to conduct *Legionella* culture sampling and analysis following a determination, based on epidemiologic data or laboratory testing, that one or more cases of legionellosis are or may be associated with a cooling tower.

(2) An officer, employee, or agent of the department or the county health department may enter onto any property to inspect a cooling tower for compliance with this part and may take water samples as part of such inspections. Such inspections must be conducted as provided in s. 487.071.

(3) If an owner fails to register a cooling tower, develop and maintain a maintenance program and plan for a cooling tower, obtain certification for a cooling tower, disinfect a cooling tower, perform or obtain required culture sampling and analysis, or conduct inspections of a cooling tower as required in this part, the department or the county health department may determine that such failure constitutes a nuisance pursuant to this chapter.

AMERICAN OVERSIGHT

(4) An owner who violates this part is subject to civil and criminal penalties as provided in s. 386.051. Each day that an owner remains in violation of this part shall constitute a separate offense.

(5) The State Surgeon General shall submit a report to the President of the Senate and the Speaker of the House of Representatives by each January 1 which includes all of the following information:

(a) For the prior year:

1. The number of new cooling tower registrations issued and the number of notifications of discontinued use of a cooling tower received by the department pursuant to s. 386.303 as of November 1.

2. The number of annual certifications that a cooling tower was inspected, tested, cleaned, and disinfected received by the department pursuant to s. 386.308 as of November 1.

3. The number of reports of tests for the presence of *Legionella* which reported levels above 1,000 CFU/mL received by the department.

4. The number of inspections of cooling towers conducted by the department, or a county health department on behalf of the department, along with the number and types of any violations cited during such inspections.

5. The number of cleanings, disinfections, or other actions performed by or on behalf of the department.

6. The number of persons diagnosed with legionellosis in this state, to the extent known or reasonably discoverable by the department.

(b) Recommendations as to whether department rules should

AMERICAN OVERSIGHT

be amended to include requirements for any of the building water systems described in ANSI/ASHRAE Standard 188-2018, Legionellosis: Risk Management for Building Water Systems.

(c) Information regarding the implementation of any such requirements, their effectiveness in preventing outbreaks of legionellosis, and recommendations for improvements or modifications to department rules to further the control of *Legionella*.

Section 11. Section 386.3101, Florida Statutes, is created to read:

386.3101 Waivers.—The department may issue a written general or specific waiver with respect to this part if the department determines that such waiver will not present a danger to public health. The department may revoke the waiver upon a determination that the waiver may present a danger to public health.

Section 12. Until December 31, 2021, an owner may submit a written application to a county health department for a variance from any requirement of this part for additional time to come into compliance with this act. A variance may not exceed 90 days. The application must include an explanation as to why the variance will not present a danger to public health. With the approval of the Department of Health, the county health department may approve such application for a variance in writing, subject to any conditions that the department or county health department may deem appropriate to protect public health. The department or the county health department may revoke a variance upon a determination that the variance may present a danger to public health.

AMERICAN OVERSIGHT

Section 13. If any provision of this act or its application to any person or entity or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Section 14. This act shall take effect July 1, 2020.

AMERICAN OVERSIGHT

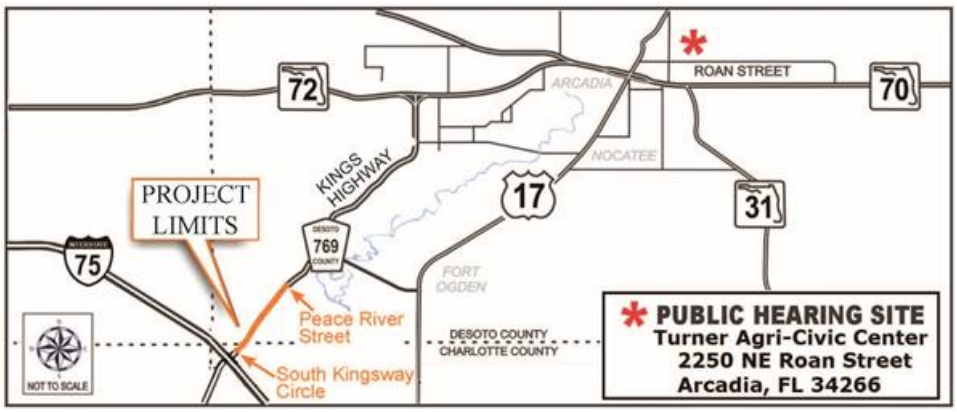
Sent: Thursday, October 10, 2019 2:09 PM EDT
Subject: Public Hearing for CR 769 (Kings Highway) PD&E Study scheduled for Thursday, November 7, 2019, FPID 431297-1-22-01
Attachment(s): "CR 769Newsletter_Oct092019Final.pdf"

The Florida Department of Transportation (FDOT), District One, is hosting a public hearing as a part of the Project Development and Environment (PD&E) study of County Road (CR) 769 (Kings Highway) in Charlotte and Desoto counties. The hearing will be on Thursday, November 7, 2019 at the Turner Agri-Civic Center, Exhibit Hall, 2250 NE Roan Street, Arcadia, Florida, 34266. A map showing the project and hearing location is below.

The public hearing will begin with an open house at 5 p.m. where people can view the proposed conceptual designs, ask questions, and provide comments to FDOT representatives. The formal public hearing will begin at 6 p.m. with introductory remarks from the hearing moderator, followed by a video describing the preferred alternative. A short intermission will follow when people can register to make oral comments. Verbal comments will be taken following the intermission. Written comments will also be accepted at the hearing and through November 18, 2019.

FDOT proposes to widen Kings Highway from a two-lane undivided roadway to a four-lane divided roadway. The study limits are from South Kingsway Circle in Charlotte County to Peace River Street in Desoto County, approximately 2.7 miles. The widening will require right-of-way acquisition for road improvements and stormwater management areas. Encroachments on wetlands and floodplains have been identified and may be given special consideration under Executive Orders 11990 and 11988, Protection of Wetlands and Floodplain Management, respectively. Existing access to properties along Kings Highway will change due to the addition of a median, a result of widening the road.
The no-build alternative, where no improvements other than routine maintenance are made to Kings Highway through 2040, will remain viable throughout the remainder of this study.



Draft project reports and conceptual plans are available for public review from October 16 through November 18, 2019 during regular operating hours at the following locations: Desoto County Library, 125 N. Hillsborough Avenue, Arcadia, FL 34266 and at FDOT, Southwest Area Office, 10041 Daniels Parkway, Fort Myers, FL 33913. These documents can also be found on the project website at www.cr769kingshighway.com.

FDOT is sending notices to property owners located within 300 feet of either side of Kings Highway within the study limits, as well as interested parties. The notice is attached. FDOT encourages all interested people to attend and express their views regarding the project and information presented.

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by FDOT pursuant to 23 U.S.C. §327 and a Memorandum of Understanding dated December 14, 2016 and executed by the Federal Highway Administration and FDOT.

This hearing is developed in compliance with Title VI of the Civil Rights Act of 1964 and related statues. FDOT solicits public participation without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or who require translation services (free of charge) should contact Cynthia Sykes, District One Title VI Coordinator at (863) 519-2287 or by email at Cynthia.Sykes@dot.state.fl.us at least seven days prior to the hearing.

For more information about the CR 769 (Kings Highway) PD&E study, please contact the FDOT Project Manager, Steven A. Andrews at (863) 519-2270 or by e-mail at Steven.Andrews@dot.state.fl.us, or visit the project website at www.cr769kingshighway.com. We look forward to your participation at the public hearing on November 7.

AMERICAN OVERSIGHT

County Road 769 (Kings Highway)
Project Development & Environment Study
From South Kingsway Circle in Charlotte County to Peace River Street in DeSoto County

October 2019

Financial Project ID: 431297-1-22-01

You Are Invited to a Public Hearing

The Florida Department of Transportation (FDOT), invites you to attend a Public Hearing for the County Road (CR) 769 (Kings Highway) Project Development & Environment (PD&E) Study on **Thursday, November 7, 2019** at the Turner Agri-Civic Center - Exhibit Hall, 2250 NE Roan Street, Arcadia, FL 34266. The hearing begins with an open house at 5 p.m. where the public is able to view project materials, ask questions and discuss the project with FDOT representatives. The formal public hearing and comment period will begin at 6 p.m. Verbal and written comments are welcome.

PUBLIC HEARING

Time: 5 p.m. (Open House)
6 p.m. Formal Presentation/ comment period

Date: Thursday, November 7, 2019

Place: Turner Agri-Civic Center
2250 NE Roan Street
Arcadia, FL 34266

Preferred Build Alternative

In March 2018, FDOT held an Alternatives Public Meeting to present alternatives for the widening of Kings Highway to four lanes within the project area. These improvements are identified in the Heartland Regional Transportation Planning Organization's (TPO) Long Range Transportation Plan. Based on comments from the public, engineering and environmental analysis, and through coordination with DeSoto County, FDOT determined that the preferred alternative for the study would be a combination of Alternatives A and B that were shown at the workshop. For Segment 1 (S. Kingsway Circle to SW Glenadine Avenue), the preferred alternative is Alternative A, and for Segment 2 (SW Glenadine Avenue to Agnes Street) & Segment 3 (Agnes Street to Peace River Street), the preferred alternative is Alternative B.

The No-Build alternative, where no improvements other than routine maintenance are made to this segment of Kings Highway, will remain a viable alternative throughout the study.

Draft Project Documents

Draft project documents are available for public review at the public hearing and Wednesday, October 16 through Monday, November 18, 2019 at the:

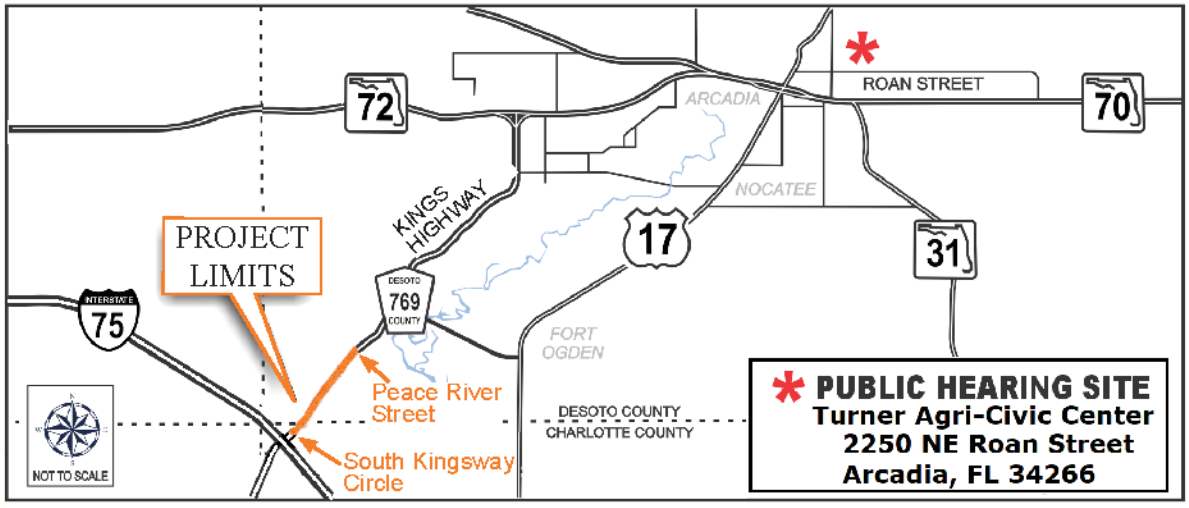
DeSoto County Library
125 N. Hillsborough Avenue
Arcadia, FL 34266
9 a.m. to 6 p.m. Tuesday – Friday
9 a.m. – 2:30 p.m. Saturday
closed Sunday and Monday

Florida Department of Transportation
Southwest Area Office
10041 Daniels Parkway
Fort Myers, FL 33913
8 a.m. to 5 p.m. Monday - Friday

And on the project website at:
www.cr769kingshighway.com

Preferred Build Alternative

Segment 1: 4-lane divided roadway with a multi-use path, sidewalk, and underground drainage



Segment 2: 4-lane divided roadway with a multi-use path, sidewalk, and roadside swales. Existing Kings Highway becomes a 2-lane frontage road from Southwest Glenadine Avenue to Agnes Street.

Segment 3: 4-lane divided roadway with a multi-use path, sidewalk, and roadside swales

AMERICAN OVERSIGHT

Consular Offices in Florida

The State of Florida has one of the largest consular corps in the United Sates. Consular offices serve as official representatives of a foreign country to provide assistance to that government's citizens living or traveling in other countries. Florida's consular corps is home to consular missions and official trade and commercial offices from 85 countries. Miami-Dade County has the largest concentration in Florida, with 71 consular, commercial and trade offices that represent 63 countries.

Thirty-seven (37) consuls general can be found in Florida. They are the highest ranked representative at a consular office and accredited by the United States Department of State. Another 72 honorary consuls are recognized by the U.S. Government. These honorary consuls are American citizens or permanent resident aliens appointed by a foreign country to provide limited consular services to their citizens living or traveling abroad.

Hi Vickie

Yes, I did speak with Dr. Brad Hupp, and he informed me that he was interested in serving as Doctor of the Day on February 25, 2020. I am awaiting his Doctor of the Day Registration Form to complete the process.

Also, we just received the attached Doctor of the Day Registration Form for Dr. Jaclyn Nadler. Please let me know if Senator Joe Gruters will sponsor Dr. Nadler as Doctor of the Day on Thursday, March 5, 2020 in the Florida Senate.

Thanks for all of your help.

Subject: RE: FIBA Southwest Florida Showcase Invitation - Thursday, 11/21 - USF-Sarasota/Manatee

Hello, GeeDee.

We do hope somebody from Senator Gruter's office will join us at the Sarasota/Manatee event on the 21 st. We'd like to recognize that person and the Senator at the event if you can send a representative. Details and the registration link are below. Thank you.

AMERICAN OVERSIGHT

Hey Mark,

Thanks for reaching out. GeeDee Kerr handles scheduling in the district, I have CC'd her on this email and she'd be happy to help. Have a great day.

Josh Barnhill
Legislative Aide
Senator Joe Gruters, District 23
Cell: (850) 933-9792

Hello, Josh.

Per my conversation with Emmabella a few minutes ago, I met with Sen. Gruters on August 29 in Venice to update him on the work our accelerator is doing. I mentioned that we would be having a special showcase event and panel in his district and he asked that I keep him in the loop. That event is scheduled for Thursday, November 21 at the USF Sarasota-Manatee campus. – 9:30 to 11:30 AM. The invitation and event details are below. Please contact me with any questions. If Sen. Gruters can't make it, perhaps someone from your office will join us. Thank you for your help on this and have a great day!

Mark

Please find below the event details for the Florida-Israel Business Accelerator (FIBA) Southwest Florida Showcase events in Naples (Tuesday, 11/19), Fort Myers (Wednesday, 11/20), and Sarasota/Manatee (Thursday, 11/21). You can register for the event(s) of your choice via this link: **FIBA Registration**. There is no charge to attend and, if you know of anyone who'd like to learn about investing in tech, our FIBA companies, and how FIBA can impact economic development in your community, please feel free to forward this invitation. We look forward to seeing you there!

You can also click on the invitation itself for a direct link to the RSVP site and if you have any questions about the event please respond to this message or email mark@fiba.io

I didn't intend to pester you with this, GeeDee. When I met with Senator Gruters on August 29 th, he indicated that either being at the event or having a representative there was important to him. I understand if no one's available to attend. Thank you for following up with me.

Have a great day!

AMERICAN OVERSIGHT

Ringling College of Art and Design,
Elizabeth and Grace Moore,
along with the Sustainable Communities Workshop
cordially invite you to:

An exclusive "work in progress" screening
of "Kiss the Ground" with Director, Josh Tickell

Thursday, November 14th, 2019
Reception: 5:30 PM
Screening 6:30 PM
Post Screening Q & A: 8:00 PM

Kendall Atrium & Morganroth Auditorium
Larry R. Thompson Academic Center
Ringling College of Art and Design

KISS THE GROUND is a new feature length documentary film that brings to light the past, present and future of the largely unexplored power of our soil as the foundation for all life above ground.

About Josh Tickell

The author of four books, Josh Tickell has worked on environmental issues for over twenty years. His career spans a unique mixture of science, political activism, investigative journalism and filmmaking. His directorial debut film, 'FUEL,' is the 2008 Sundance Audience Award winning documentary that investigates the possible replacement of fossil fuels with renewable energy. He co-directed/produced THE BIG FIX, an 'Official Selection' of the 2011 Cannes Film Festival. With his wife, Rebecca, he directed the critically acclaimed documentary PUMP, and GOOD FORTUNE - the John Paul DeJoria story, as well as the forthcoming documentaries, KISS THE GROUND, DOWN TO EARTH and THE REVOLUTION GENERATION. For his rescue mission in the aftermath of the Katrina hurricane in Louisiana, Tickell's nonprofit organization was selected by President Bill Clinton as an inaugural part of his Global Initiative on Climate Change. He is a graduate of New College of Florida and holds an MFA in Film from Florida State University.

Subject: Follow up: Ringling College invites you to an exclusive documentary film screening on Thursday, 11/14
Importance: High

If you haven't responded yet, we hope you can join us for this exclusive documentary film screening event! Please let us know if you will attend and the registration details are listed below.
We look forward to seeing you next Thursday, November 14, at 5:30.
Thanks, Anne

AMERICAN OVERSIGHT

Ringling College of Art and Design,
Elizabeth and Grace Moore,
along with the Sustainable Communities Workshop
cordially invite you to:

An exclusive "work in progress" screening
of "Kiss the Ground" with Director, Josh Tickell

Thursday, November 14th, 2019
Reception: 5:30 PM
Screening 6:30 PM
Post Screening Q & A: 8:00 PM

Kendall Atrium & Morganroth Auditorium
Larry R. Thompson Academic Center
Ringling College of Art and Design

KISS THE GROUND is a new feature length documentary film that brings to light the past, present and future of the largely unexplored power of our soil as the foundation for all life above ground.

About Josh Tickell

The author of four books, Josh Tickell has worked on environmental issues for over twenty years. His career spans a unique mixture of science, political activism, investigative journalism and filmmaking. His directorial debut film, 'FUEL,' is the 2008 Sundance Audience Award winning documentary that investigates the possible replacement of fossil fuels with renewable energy. He co-directed/produced THE BIG FIX, an 'Official Selection' of the 2011 Cannes Film Festival. With his wife, Rebecca, he directed the critically acclaimed documentary PUMP, and GOOD FORTUNE - the John Paul DeJoria story, as well as the forthcoming documentaries, KISS THE GROUND, DOWN TO EARTH and THE REVOLUTION GENERATION. For his rescue mission in the aftermath of the Katrina hurricane in Louisiana, Tickell's nonprofit organization was selected by President Bill Clinton as an inaugural part of his Global Initiative on Climate Change. He is a graduate of New College of Florida and holds an MFA in Film from Florida State University.

AMERICAN OVERSIGHT

From: Carter, Jason <Jason.Carter@myfloridahouse.gov>
Sent: Thursday, January 23, 2020 10:35 AM EST
To: Brill, Victoria <Brill.Victoria@flsenate.gov>
Subject: Re: HB 157
Attachment(s): "Eight is Enough Talking Points.pdf","FL Statewide 3-2018- School Board 8yr Term-Limit X-tabs.pdf","How Term Limits Fight Big Money in Politics.pdf","Pettey-Term-Limits.pdf","REVISEDFLSB Handout.pdf","TermLimitsStateBudgets Holcombe.pdf"

Hi Victoria,

It was good speaking with you a moment ago. Here's what's attached and hopefully all this will help. This is what we used last year

1. Some 8 is Enough talking points

2. Prof. Samantha Pettey paper on term limits increasing the emergence of women in state legislatures (London School of Econ).

3. A handout on last years term limits bills

4. One pager on term limits fighting money in politics. It's Congress-geared, but still informative.

5. Executive Summary from an FSU economics paper showing term limits lowered spending in the states. Good for fiscal conservatives.

If I find/get more information I will definitely send it your way. Have a great day!

Respectfully,

Jason Lee Carter, Esq.
Legislative Assistant to Anthony Sabatini

AMERICAN OVERSIGHT

EIGHT IS ENOUGH - TALKING POINTS

- **Eight-year term limits are the most common and time-tested reform in the United States.** Of the 36 states with term limits on their governors, 35 provide for an eight-year limit. Only Virginia is different, allowing for a four-year maximum. Of the 15 states with legislative term limits, 10 provide for a limit of eight years or fewer. Nine of America's 10 most populous cities have term limits, with each of these laws allowing for eight years or less. The President has an 8-year limit, and it is absurd to suggest any local official needs more time to learn their job than the leader of the free world.

- **Eight-year term limits are the most common limit in Florida and they work.** Florida has eight-year term limits on our Governor, Cabinet, State House, State Senate and countless local positions. We rank as one of the freest and most fiscally healthy states in America and this is no outlier. On average, states with term limits rank better than states without term limits; and states with eight-year limits rank higher than those with longer limits. Why mess with success?

- **Eight-year term limits are the expressed preference of Florida citizens.** When a group of citizens collected nearly 400,000 signatures to put legislative limits on the ballot in Florida in 1992, they chose eight-year limits. The amendment passed with 77 percent support, garnering votes from 3.63 million Floridians. It is important that elected officials respect the will and preference of the voters they represent.

- **Florida voters resoundingly rejected 12 year term limits.** In 2005, Florida legislators placed onto the 2006 ballot an amendment that would have lengthened their own term limit from 8 years to 12. Public denunciation of the politicians behind the change was so intense — and opposition to the measure so deafening — that the legislature was forced to remove its own power grab from the ballot. This move was virtually unprecedented. Then-Governor Jeb Bush applauded the decision to maintain an eight-year limit, crediting this limit with much of Florida's progress during his administration.

- **Florida voters aren't changing their minds about Eight is Enough.** In 2009, lawmakers once more floated the prospect of lengthening Florida's term limits from 8 years to 12. A Quinnipiac poll at the time showed that voters opposed the change by a 79-18 margin. Since that time, no group of citizens has ever emerged to suggest making term limits longer. In fact, every petition drive for term limits in Florida — at the county and municipal level — has called for a limit of eight years or fewer. There are occasionally efforts to move from eight to 12 years in Tallahassee, but these whispers only come from politicians and capitol insiders, NEVER from ordinary people.

- **Eight-year term limits provide for fairer elections and more diversity.** America has an epidemic of unopposed and under-opposed elections at the state legislative level. Around 33% of all elections feature an incumbent running unopposed. Term limits break up this monopoly every eight years and allow a diverse array of citizens to vie for an open seat. Studies also show that state term limits — most of which are eight years — have increased the representation of women and minorities in state legislatures by a statistically significant degree.

AMERICAN OVERSIGHT

How Term Limits Fight Big Money in Politics

A policy snapshot by U.S. Term Limits

Intro

According to a 2015 New York Times/CBS Poll, 84 percent of Americans believe money has too much influence on campaigns. Since fundraising is most unequal when an incumbent defends his seat, any reform that fights incumbency can make the money situation more equal. Term limits is that reform.

Incumbents Get Money

Like any smart investor, special interests spend on candidates who can provide them the best return. That's why sitting congressmen receive $6 for every dollar that goes to their challengers. The advantage makes them powerful and virtually impossible to beat. It also discourages good people from running for office.

Incumbents Win Elections

Incumbents' fundraising edge is a protective shield at election time. It guards them from their own bad votes, talented challengers and potential lost support from the party. This system works for millionaires and billionaires, but not the rest of us:

The Odds of Defeating a US House Incumbent Based on Spending by Challenger

Under $1,000,000	293:2
$1 million to $1,499,999	18:4
$1.5 million to $1,999,999	9:4
$2 million or more	1:1

Source: Center for Responsive Politics

Open Seats, Closed Wallets

The average House incumbent raises around $1.5 million for his re-election campaign. The average challenger raises around $250,000. But what happens in an open seat race? The average candidate there raises a happy medium around $600,000. So, open seat contests bring three positive effects:

1. More candidates
2. More accessibility to elected office
3. More equal fundraising

How to Get There

Term limits are a remedy for incumbency and the money that comes along with it. By guaranteeing open seat races on a regular basis, term limits deliver a more balanced and accessible system. They stop incumbents from growing too unbeatable, and keep Congress from becoming an aristocracy.

Female Candidate Emergence and Term Limits: A State-Level Analysis

Samantha Pettey[1]

Abstract

This study examines term limits to determine the effect they have on female candidate emergence in state legislatures. Initial research finds a negative relationship between term limits and female representation. I offer a candidate-level theory and empirical approach to reevaluate how term limits affect female representation overtime. I argue term limits create an incentive structure that favors female candidates since the incumbency advantage is lessened. To test this theory, I set up a quasi-natural experiment with term limits as the treatment in a difference-in-differences test. Furthermore, I also run logistical regression analysis using candidate-level data from all fifty states from 1990 to 2000. I find women are more likely to run for office in open seats created by term limits. Last, this pattern holds for both Republican and Democratic female candidates.

Keywords

term limits, women and politics, female state legislative candidates

Introduction

Term limits are one of the most significant institutional changes to take place since the modernization of state legislatures (Kurtz, Cain, and Niemi 2007). And since the implementation of term limits, a puzzle in the literature emerges. Conventional wisdom suggests open seats help women gain descriptive representation since women fare as well as men in elections. Term limits provide more open seats, which suggests females have more opportunities to enter into office (Burrell 1994; Darcy, Welch, and Clark 1994; Fox 2000; Seltzer, Newman, and Leighton 1997). Yet studies conducted after the implementation of term limits find the greater number of open seats have negative consequences for female descriptive representation (Bernstein and Chadha 2003; Carroll and Jenkins 2001).

This article seeks to bridge the puzzling finding that more open seats, created by term limits, results in fewer women in office, but focuses on the candidate emergence stage. Theoretically speaking, term limits are only beneficial to women if women actually run for office. Normatively speaking, understanding how term limits help or hinder female candidate emergence is important to study for furthering descriptive representation. Theories on descriptive representation claim the makeup of legislative bodies should reflect the demographics of the public. Politicians better represent their constituents if they resemble the populace with regard to gender, race, social, and economic status. Scholars theorize the importance of descriptive representation and its implications for society because females bring different issues, experiences, and viewpoints to the political table. Increasing the percentage of women in political positions leads to more favorable policies for women (Osborn 2012; Schwindt-Bayer and Mishler 2005; Swers 2002).

In the United States, female descriptive representation has been, and continues to be, much lower than male descriptive representation at all levels of government. Currently, at the state level, female representation ranges from a low of 12 percent in Louisiana to a high of 41 percent in Colorado. The average percentage of females in all fifty state legislatures is only 24.2 percent (Center for American Women and Politics [CAWP] 2014; National Conference of State Legislatures [NCSL] 2014). Not only is the current percentage low, but the percentage of women in state legislative branches has become rather stagnant since the 1990s (Norrander and Wilcox 2012). Given that a large amount of policy-making is delegated to the states, the lack of female representation across all states is troublesome (Carroll and Sanbonmatsu 2013).

Research providing a greater understanding of when and why women run for office, or emerge as candidates, is a critical stage in the process toward understanding the unequal representation between males and females at all levels of government.

This article proceeds as follows. First, I provide a discussion of the extant literature with regard to female candidate emergence and term limits. Next, I detail my expectations on how term limits will affect female candidate emergence. Then, I introduce the data and methods used to test my hypothesis and conclude with a short discussion of the findings and implications of this study.

Emergence

A thread of the women and politics literature focuses on how and why women run for office (Carroll and Sanbonmatsu 2013; Fox and Lawless 2004). In other words, why do some female candidates emerge and run for election while other potential candidates never run? Before there can be parity, there has to be pool of women who are willing to run for office, and ultimately win their campaigns. Below is a discussion of the four main factors scholars identify as inhibiting the emergence of female candidates: institutional barriers, socialization, ambition, and political factors.

Institutional Barriers

From an institutional perspective, the low rates of female descriptive representation in the United States are explained by two main theories: the incumbency advantage and eligibility pool. Incumbency advantage posits that incumbents' high reelection rates reduce opposition and leave little opportunity for new candidates to compete (Burrell 1994; Carroll and Jenkins 2001; Darcy, Welch, and Clark 1994). Furthermore, research finds female candidates at the congressional level to be just as likely to win elections as men, indicating that females are not at an electoral disadvantage per se, but the high incumbency rate keeps women out of office (Burrell 1994; Darcy, Welch, and Clark 1994; Fox 2000; Seltzer, Newman, and Leighton 1997). As such, women will enter office at a glacial pace because the incumbency advantage is so significant.

A second institutional constraint is that the female candidate eligibility pool is smaller than the male candidate pool. The eligibility pool, or where the majority of all candidates emerge from, consists mainly of positions in law and business.[1] Women in Congress tend to emerge from careers in teaching, social work, and health care without a background in politics rather than the typical "political" fields previously mentioned (Carroll and Sanbonmatsu 2013; Clark 1994; Dolan, Deckman, and Swers 2007). Therefore, since fewer women are potential candidates, parity is difficult because women simply do not run.

Sociological Factors

Second, extant literature suggests there are sociological, cultural norms at play which keep women from seeking office. Women are less likely to be socialized to run for political office (Fox and Lawless 2004). Yet political conditioning research suggests women who are engaged in politics are more likely to emerge and run for office at any level (Fox and Lawless 2004). Furthermore, women are more likely to be engaged in politics if issues are salient to them (Campbell and Wolbrecht 2006).

Family responsibilities also inhibit women from being in office, since women tend to have a disproportionate share of responsibilities (Fox and Lawless 2004). Not only that, women see private, family commitments as conflicting with public commitments, and this has changed little overtime (Burrell 1994; Carroll and Sanbonmatsu 2013; Sapiro 1982). Yet these cultural gender norms that seem to place time constraints on future candidates do not seem to inhibit women from participating in other areas of politics—women are just as, if not more, likely to be engaged in local, community-level politics. Therefore, sociological-based time constraint theories are not a sufficient explanation to a lack of female emergence (Burns, Schlozman, and Verba 2001).

Ambition

Third, research finds ambition levels differ by gender; specifically, women's ambition levels are inherently lower than male's. The gender differences in political ambition levels is in part due to the fact that women perceive themselves to be less qualified than men to run for office (see Fox and Lawless 2004; Fulton et al. 2006).

Political Factors

Last, there are political factors that influence whether or not a person will run for office. Research finds parties have a large and significant impact on whether a female will run for office. Most female candidates do not consider running for office until they are approached by a party leader. Without recruitment, the majority of current women office-holders had never seriously considered running for office. There are more women in office when women are actively recruited, whether by party or political organization (Carroll and Sanbonmatsu 2013; Sanbonmatsu 2006).

AMERICAN OVERSIGHT

Term Limits

Term limits are an important institutional attribute that may serve as a bridge between emergence and descriptive representation by creating more open seats. Term limits in state legislatures place restrictions on the number of times an official can serve in office.[2] States began enacting term limits in the early 1990s as a way to force government turnover. Many citizens were displeased with the lack of effective governance at the state level and wanted to stop incumbents from running for office (Reed and Schansberg 1995; Thompson and Moncrief 1993).

Prior to the enactment of term limits, most researchers hypothesized term limits would be beneficial for females. Term limits act as a way to combat the incumbency advantage and create more open seats. These open seats would provide women more opportunities to run for office (Carroll and Jenkins 2001; Crane 1995; Darcy, Welch, and Clark 1994; Ferry 1994; Thompson and Moncrief 1993). Yet, when term limits began to take effect, researchers found term limits did not have the intended effects on women in office (Bernstein and Chadha 2003; Carroll and Jenkins 2001). In 1998, seven states had their first round of termed-out politicians, which created 215 open seats across all seven states. The number of these 215 seats held by women actually dropped from fifty-eight to fifty-three after the 1998 election. Thus, the introduction of term limits resulted in a net loss of five seats for women (Bernstein and Chadha 2003).

In a cross-sectional analysis of the impact term limits had for the year 1998, scholars find an overall negative effect on women in office, but there was variation by state. Some states, such as Arizona and Arkansas, saw minor gains in the number or females in office but most suffered, which reflected in a declining number of females in office (Carroll and Jenkins 2001). Yet what explains these differences across states? And, more importantly, do these initial findings hold up across a longer temporal sample? Further research is needed to resolve the conflict between the expectation that term limits would allow for more female candidates and the early empirical evidence to the contrary.

Emergence and Term Limits Theory

The literature on candidate emergence and term limits offer conflicting explanations on the expectations of female emergence. The term limits literature mainly focuses on overall success of female candidates and largely ignores the impact term limits may have on candidate emergence. Perhaps women are running for office more frequently in the term limited states but are not winning elections. This theory incorporates expectations about open seats from term limits literature and eligibility pool assumptions from the emergence literature to develop a general argument regarding female candidate emergence in term-limited states.

Open Seats

Existing research regarding female descriptive representation is concerned with aggregate levels of female success. Yet as previously discussed, a critical stage of analysis is candidate emergence. The only way women will gain parity is if they run and subsequently win. All else being equal, in terms of electoral outcomes, term limits can only be effective if the number of female candidates running within the states increases. For example, if there are more open seats (created by term limits or not) and the same number, or fewer, women running for office, then open seats will not have a positive impact on the number of females in office. This idea is especially important in term-limited states since the nature of term limits creates more open seats.

Without an increase in female candidate emergence, we are unlikely to find support for the conventional wisdom that more open seats will lead to more women in office. Carroll and Jenkins (2001) show that in states with term limits, the number of female officeholders decreased when term limits were enacted. However, it is possible this finding is due to lower levels of female candidate emergence. The lack of female candidate emergence is apparent in Carroll and Jenkins' (2001) finding that females did not run in a large number of primary elections for either party.

The greater number of open seats created by term limits provide potential female candidates with more opportunities to emerge. Since an incumbent cannot continuously run, the overall likelihood of winning an election will increase for new candidates. Further, Fulton et al. (2006) find women are more likely to run in races if/where they perceive their chances of winning to be high. This rational behavior is present in all candidates as studies also find that candidates act rationally when deciding to enter a race—most only run when the likelihood of winning the seat is high (Black 1972; Jacobson and Kernell 1981; Lazarus 2008). Open seats, created by term limits or otherwise, offer a better chance at winning an election than running against an incumbent. Therefore, states with open seats created by term limits should see an overall increase in the number of female candidates emerging because the perceived opportunity to win the seat is higher.

Eligibility Pool

The greater number of open seats created by term limits will likely effect the eligibility pool. The presence of term limits may influence more women to emerge as

AMERICAN OVERSIGHT

candidates in state legislative elections. This is due to the fact that with term limits, the job is temporary and politics is not necessarily a career path. Therefore, anyone can theoretically have a desire to run and hold office for a short period of time. Amateur candidates, those with no previous office-holding experience, tend to run if they perceive their chance of success to be high, but this is not a necessary condition to emerge (Lazarus 2008). Term limits may create a pool of amateur candidates, specifically female candidates, who are motivated to run for factors other than being a career politician—especially if a potential candidate thinks they can win.

Support for an amateur female candidate pool already exists at the state level. A 2008 CAWP Recruitment Study by Carroll, Sanbonmatsu, and Walsh find nearly 43 percent of women in the lower chamber of the state legislatures had no previous officeholding experience. More importantly, nearly 73 percent of females in the lower house claimed their decision to run for office was not done as a stepping stone toward higher office. The study also finds that nearly 79 percent of women in the lower chamber reported having an occupation that allows for sufficient time and flexibility to hold office was important when considering their run for office. These findings suggest that many women in state legislatures do not plan on being career politicians. Therefore, term limits enhance this favorable environment and allow more opportunities for potential female candidates to run, hold office, and still avoid being career politicians.

Term limits have the potential to create a larger eligibility pool of female candidates. Term limits may add a little extra incentive to run for office since the length of time someone can spend in office is limited. Thus, term limits create a unique opportunity for noncareer politicians to serve short term in office to make policy changes[3] and then leave after they are termed out.

Furthermore, term limits can also have a positive impact on women who want to be career politicians. Given theories on rational choice candidate entry models (Black 1972; Jacobson and Kernell 1981; Lazarus 2008), politicians run when they are most likely to win. Term limited seats will not have an incumbent running, so these seats should theoretically be easier to win, given the lack of an incumbency advantage. This is good for ambitious female politicians because they are in a better situation to win office than when compared with female challengers in a state without term limits trying to win a seat against a long-term incumbent.

Term limits provide a structured timeline for how long one can legally stay in office before they move on to the next level of government. Career politicians may find this structure useful for moving up the political ladder. For example, a female may desire to move out of the lower chamber in the state legislature but no opportunities exist in the upper chamber. States with term limits in both chambers have more open seats and, therefore, greater opportunities for new candidates to run for office. Further, term limits provide an opportunity for women to gain experience and exposure quickly if they move between chambers after being term-out, especially for women who may want to progress into federal office, or governorships, after they have termed out of their state legislature.

In sum, taking into consideration the constraints and variation in the use of term limits across states, one should not expect a drastic increase of women in office in states with term limits immediately. Rather, the number of women in office will likely rise fairly steadily over time as more officials are forced to vacate the state legislature. There may be loss in the short term as research finds (Bernstein and Chadha 2003; Carroll and Jenkins 2001), but this should not be the norm. Open seats will gradually increase as incumbents are termed out, providing potential women candidates with more opportunities to run. In other words, term limits, in combination with open seats, increase the number of women in the eligibility pool. The crux of this theory relies on the fact that term limited states will only increase the number of women in office if the number of women running for office increases. Term limits create a favorable environment for noncareer and career female politicians to run for office, and this is the possibility that I will empirically evaluate in the remainder of this article.

Therefore,

Hypothesis 1 (H1): Term limits increase the likelihood of female candidate emergence.

Data

To examine the hypothesis, I utilize a candidate-level data set of each state's lower legislative chamber. The candidate data comes from the State Legislative Election Returns (SLER): 1967–2010 (Klarner et al. 2013). The dataset captures candidate-level state legislative elections and includes variables such as election results, term length, type of legislative election, incumbency status, and party identification. The large time span allows me to better test the impact of term limits on female candidate emergence. I conduct the analysis across all fifty states at the candidate level in the general election (discussed more below) using a quasi-natural experiment design. I examine the years from 1990 to 2010, both pre- and post-term limits, across all candidates meeting the standard 5 percent threshold (Canon 1978) using states without term limits as the control group.

The SLER data does not contain the candidate's gender, and therefore, I coded each candidate's gender. As a robustness check, I have also utilized the CAWP (Center

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002146

for American Women and Politics) database as a cross-reference. CAWP provides a list of the total number of women who ran in an election for each state. After coding the SLER dataset to include gender, I looked to the CAWP dataset to examine any discrepancies. When there were discrepancies between SLER and CAWP, I cross-referenced the Secretary of State's original election results (when available) to fix or confirm the findings from my dataset. Further, in a handful of cases where the Secretary of State's election results were not readily available and discrepancies existed, I searched newspaper articles for gender candidate cues.[4]

While the SLER dataset contains a large number of election periods, I will only use the time period from 1990 to 2010. Since 1996–2000 is the time frame in which most states first experience the impact of term limits, the time frame allows a roughly equal number of election cycles pre- and post-term limits. The analysis for this time period will therefore capture a considerable amount of elections both before and after term limits took effect in states. Furthermore, the candidate-level dataset is quite large over a twenty-year time frame and produces roughly eighty thousand observations.[5]

Design

As briefly mentioned, the enactment of term limits provides the unique opportunity of an intervention point for an experimental design. Mooney (2009) addresses a major concern when treating term limits as a natural experiment: exogeneity. To model a causal relationship, there needs to be random assignment of the treatment and control group. To test for random assignment, Mooney (2009) ran a series of difference of means tests between states with term limits and states without term limits. The results find the most common and widely used state-level explanatory variables have no statistically significant differences between states with term limits and states without term limits. In other words, there is not a unique underlying factor about states that enacted term limits versus states that did not enact term limits. For example, a state's population, gross domestic product (GDP), ideology, electoral turnout rates, legislative professionalism, and so on, do not predict the adoption of term limits. Therefore, term limits can be treated as a natural experiment because the states with and without term limits have no statistically significant differences between them—that is, random assignment of term limits occurred. The treatment group for the design includes all the states that enacted term limits, and the control group includes all the states that have not enacted term limits.

The enactment of term limits happened at different points in time across the states. Term limits first took effect in a handful of states in the late 1990s and continued to be implemented through the 2000s. As such, there will be multiple intervention points that are unique to the state enacting the term limits. Using panel-level data, I am less likely to violate the assumption that an unobservable/unmeasurable variable has an impact on my main independent variable, term limits. This is important when determining a causal link between term limits and the dependent variable. Table 1 provides a list of the term limited states (which have not been repealed). The table provides the year in which the term limits were enacted and the year in which the first round of legislators were forced to leave due to term limits.

Table 1. Term-Limited States.

State	Year enacted	Year of impact
Maine	1993	1996
California	1990	1996
Colorado	1990	1998

Variables

Dependent

The dependent variable is *female candidate emergence*, which is a dichotomous variable where "1" is a female candidate and "0" is a male candidate. Table 2 reports the descriptive statistics on the number of female candidates in the sample. Between 1990 and 2010, female candidates made up about 26 percent of the total candidates running for office. Male candidates during the same time period made up roughly 73 percent of the total sample. The numbers are not surprising since the overall percentage of women in office across the states during that time averages around 20 to 25 percent.

Independent Variable

The main explanatory variable of interest is *term limits*. States with term limits are coded "1" and states without term limits are coded "0." Since, the intervention points

Table 2. Descriptive Statistics for Female Emergence.

Variable	Number	Percentage of sample
Female Candidates	24,537	26.30%
Male Candidates	68,380	73.30%

Table 3. Descriptive Statistics for Term Limits.

Variable	Number	Percentage of sample
Non-Term Limit Seats	79,029	85.54%
Term-Limit Seats	13,888	14.46%

will be scattered due to states implementing term limits in different years, each state with term limits will be coded to reflect the year in which that state's term limits take effect. States with term limits are coded as "0" until they implement term limits (states who never implement term limits remain coded as 0 throughout). Table 3 shows the distribution for states with and without term limits. Approximately 15 percent of candidates run in term-limited seats. Whereas non-term-limited seats make up about 85 percent of the total sample (the non-term-limited seats include states with enacted term limits but elections before they were implemented). Since this is candidate-level data with a focus on candidate emergence, these numbers represent the distribution of candidates running in the term-limited and non-term-limited races (not the total number of available seats).

Table 4 below provides further descriptive statistics showing the distribution of the data for candidate emergence and term limits. At first glance, females are more prevalent in term-limited states, making up 28 percent of the total candidates versus non-term-limited seats where females are only 25.9 percent of the total candidates. Males are much more likely to emerge as candidates in term-limited and non-term-limited states when compared with their female counterparts making up roughly 71 to 74 percent of the observations within each set of states.

Table 4. Distribution of Candidates and Term Limits.

Variable	Non-term limits	Term limits
Female Candidates	20,646 (25.9%)	3,891 (28%)
Male Candidates	58,383 (73.9%)	9,997 (71.2%)

Control Variables Candidate-Level Controls

The model includes several candidate-level and state-/district-level controls. The first control is for *open seat* and is coded as "1" if a candidate runs in a district with an open seat and "0" if an incumbent is running within that district. As extant research and my theory suggests, open seats decrease institutional barriers for women to enter office so I expect open seats to have a positive impact on the likelihood a female will run for office.

Incumbents have an advantage in elections, even at the state level. Incumbents are more likely to win their elections and is an important variable to include in the model. Here, *incumbent* is coded so a "0" is a non-incumbent and "1" is an incumbent candidate. As with the extant literature, I expect incumbency to have a negative impact on female candidate emergence. Incumbents inhibit females from winning office and may keep them from running completely due to the costs associated with running a campaign, especially one where the challenger is expected to lose against an incumbent. While congressional literature finds women have an increasing tendency to run as challengers against female incumbents (see Lawless and Pearson 2008), much of the literature finds incumbents dissuade candidates from emerging.

Another important control variable is *party*. Research finds female candidates tend to emerge and hold seats in office more often as Democrats than Republicans. Republicans are coded as "0," and I expect that Democrats, coded as "1," will have a positive impact on the number of female candidates.

A measure of competitiveness is also important, especially since females are less likely to run for office if they perceive their chances of winning to be low. As a crude measure of competitiveness, I include the *number of candidates* in each election. While this is not a direct measure of whether a race is competitive or not because it does not include the types of candidates running,[6] Lawless and Pearson (2008) find females tend to be in elections where they are facing more than one opponent. While a majority of races are unopposed or have only two candidates, capturing opposition, especially if there is zero opposition, is an important control.

State-Level Controls

Research also finds women are more successful when they compete in multimember districts (MMD; Carroll 1994; Darcy, Welch, and Clark 1994). This is due to the fact that there are more opportunities to win a seat, and it is not a zero-sum game. A handful of state legislatures use MMDs in their elections rather than single-member districts (SMD). To measure MMDs, I use the *district type* variable, which differentiates between the types of districts. The variable is coded as a dummy for purposes of this study where "0" is an SMD and "1" is an MMD.

I also include a control for *term length*. Given my theory that term limits may attract females who do not wish to be career politicians, I expect there to be a negative

AMERICAN OVERSIGHT

relationship between the length of a term in office and female emergence. Females should be more likely to emerge in states with fewer years in a term; the longer a term, the less likely a female will emerge. Most lower chambers in states have two-year terms, but there are a small handful of states with four-year terms.

I also include a measure of *legislative professionalism*. I use the Squire index, which is a value between 0 and 1 assigned to states based on the level of professionalization within the legislature. Values closer to 0 are the least professional, and values closest to 1 are the most professional (see Squire 1992). I expect professionalization to have a negative impact on the likelihood a female candidate will emerge. This measure is capturing my theoretical argument that women are more likely to emerge when they do not want to be career politicians; therefore, when professionalism increases, female emergence will decrease.

Last, I include a measure for if a candidate emerges in a southern state. The variable *south* is coded with a "1" if the state is a southern state and "0" if otherwise. This measure tries to capture some of the known differences between female representation in the southern versus northern states. I expect southern states will have fewer women emerging as candidates. Table 5 below lists all the variables and their predicted direction for the logistical regression.

Table 5. Variables and Predicted Directions for Logistical Regression.

Variable	Predicted direction
Term Limits	(+)
Open Seat	(+)
Incumbent	(–)
Party ID	(+)
Number of Candidates	(−)
District Type	(+)
Term Length	(−)
Legislature Professionalization	(−)
South	(−)

Method

I employ two methods to test my hypothesis that term limits increase female candidate emergence. The first is a difference-in-differences method. Difference in differences allows time-invariant covariates to be factored out, while incorporating overall exogenous shocks or trends in the system. Difference in differences allows the researcher to control for many factors while "manipulating" one key variable, in this case, term limits, to provide a causal link between the independent and dependent variable.

The difference-in-differences method is shown below using states as the unit of analysis. Equation 1 represents the model for states with term limits. Term limits serve as an intervention point, and the difference in female emergence rates before and after term limits were implemented is provided. The model keeps all variables constant while the unobservable/time-invariant, *ai*, factors are already factored out. Equation 2 represents the control group: states without term limits.[7] Equation 3 represents the difference between the treatment and control groups: states with term limits and states lacking term limits. The error terms are also differenced so this better captures overall shocks to the system and can capture any general trends. If there is a difference found in Equation 3, then term limits have a causal impact on women emergence.

$$\Delta yiTL = \delta 0 + \beta + \Delta uiTL \quad (1)$$

where $\Delta yiTL$ denotes the difference in y for states with term limits

$$\Delta yiNTL = \delta 0 + \beta + \Delta uiNTL \quad (2)$$

where $\Delta yiNTL$ denotes the difference in y for states without term limits

$$\Delta yiTL - \Delta yiNTL = \beta + \left(\Delta uiTL - \Delta uiNTL\right) \quad (3)$$

where y is the mean number of women emerging.

I also run a logistical regression to examine the impact term limits have on the likelihood a female candidate will run for office. The unit of analysis for the logit model is the candidate year. Therefore, candidates will appear in the model for every election cycle they run as a new observation. Where difference in differences examines the overall difference in emergence between male and female candidates in states, the logistical regression aims to capture and predict the likelihood a candidate is a female based on the electoral environment at the individual level. Last, the standard errors are clustered around each individual legislator to control for differences across each candidate.

Results

The difference-in-differences results find term limits increase the mean number of female candidates running for office in states. Table 6 and Figure 1 provide evidence of this relationship within and across states. States with term limits, labeled with (e) for experimental group, see a small increase in the number of females emerging while states without term limits, label (c) for control, see a smaller overall increase. Figure 1 shows the positive effect term limits have on female emergence as well. Post-term limits, there is an overall increase in female

emergence for all the states, but the slope is steeper for states that enacted term limits.

The control group, states without term limits (c), saw a within-group difference in female emergence post-term limits (1996) of 1.8 percent, while the experimental group, states with term limits (e), have a within-group difference of 2.4 percent. Substantively, this shows term limits increase the overall percentage of women emerging by about 0.6 percent. While the percentage seems rather small, this 0.6 percent effect size of term limits equates to roughly ten more women emerging in term-limited states. For example, between 1994 and 2000, Ohio (a state with term limits) had a 0.06 difference in means. In 1996, forty-one females ran for office and in 2000, the first year term limits took effect, fifty-two females emerged (even if just by 0.6 percent, or ten females per election year), the better their chances are for increasing descriptive representation overall in those states. Women cannot win office and gain parity if they are not emerging. Term limits, as tested in the difference-in-differences model suggest there is a positive, causal relationship between term limits and female candidate emergence.

The difference in differences analysis provides a look at states, while the logit analysis looks at the individual level (while controlling for state-level factors). Table 7 shows the results of the logit model, which also supports the hypothesis that term limits increase the likelihood a female candidate will emerge. Logistical regressions are

not directly interpretable without predicted probability models, but term limits is in the expected, positive direction and is statistically significant. Furthermore, all of the control variables are consistent with past literature, in the expected direction, and most are also statistically significant at a level. Only incumbency and term length are insignificant, but both are on the cusp of significance at the .10 level.

While the direction and impact are important, predicted probabilities for logistical regression provide substantive, interpretable results. Table 8 provides predicted probabilities for when a candidate is a Democrat, and Table 9 provides the predicted probabilities for Republican candidates. All the predicted probabilities values are set based on the most likely of cases, rather than an overall mean, which oftentimes captures unlikely cases (such as a 2.5-year term, which does not exist). Therefore, number of candidates is set at 2 (to represent one opponent), term length is set to two, south is set to zero (only looking at nonsouthern states), and professionalization is set to the mean.[8] The tables vary by open seat, district type, incumbency, and party identification.[9] The Open Seat column represents races where no incumbent runs for office. The Non-Incumbent column represents candidate emergence for non-incumbents in nonopen seat races, that is, challengers. Last, the rows represent whether the candidate is in a term-limited or non-term-limited state, and whether the candidate is in an SMD or MMD.

Table 8 shows the substantive differences between Democratic female candidate emergence in term-limited and non-term-limited states. Women are emerging about 2 percent more of the time when term limits are present. In an SMD when there is an open seat, a female candidate emerges about 32 percent of the time in states without term limits versus 34 percent of the time in states with term limits. Open seat races in MMDs also have women emerging 2 percent more in the term-limited states at

about 37 percent of the time versus 35 percent of the time in the non-term-limited states. Women are most likely to emerge in these MMDs with term limits. And while this number is not 50 percent (meaning half the candidates are men, half are women), 37 percent is quite high given the average 24 percent descriptive representation across all the states.

Female emergence as challengers (non-incumbents) also provides evidence in support of the hypothesis that term limits increase female emergence. Women are emerging around 30 percent of the time in SMDs with no term limits versus 32 percent of the time in states with term limits. While winning a seat as a challenger is generally harder due to the incumbency advantage, term limits seem to encourage more women to run. The same pattern exists in MMDs where women emerge as challengers around 33 percent of the time in non-term-limited states and 35 percent of the time in the term-limited states.

Perhaps the most interesting finding is that women are just as likely to emerge as challengers in term-limited states as they are in open seats in states without term limits (around 32 percent in the SMDs and 35 percent in the MMDs). This comparison is important because previous literature finds open seats are one of the best chances women have to gain parity, and they emerge much more often in these seats. Given the equal likelihood of turnout between said open seats and the term-limited nonopen seats, the effect of term limits is similar to the "best case" scenario for women emergence. This suggests term limits lower the incumbency advantage (or at least the perception of how strong it is) and increase a candidate's confidence in their ability to win an election to a level similar to an open-seat election.

Table 9 reports the predicted probabilities for Republicans. The overall predicted probabilities are comparatively lower than the Democratic ones, which is expected given Democratic female candidate trends. The literature finds women are much more likely to emerge, and ultimately win office, as Democrats. For example, Democratic women emerge around 34 percent of the time in term-limited SMDs versus Republican women only emerge around 24 percent of the time. There is about a 10 percent difference between female Democratic and Republican candidate emergence.

Despite the comparatively lower emergence rates, term limits still have a positive effect on female Republicans. The difference in female Republican candidate emergence between term-limited states and non-term-limited states is about 1.5 percent. In other words, the probability a female Republican will emerge increases by about 1.5 percent in term-limited states (vs. about 2 percent for Democratic women). For example, in open seat races in SMDs, women emerge about 23 percent of the time in states without term limits and about 24 percent of the time in states with term limits. The pattern is similar in MMDs where women emerge around 25 percent of the time in states without term limits and 27 percent of the time in states with term limits.

Looking at Republican challengers in the Non-Incumbent column also supports the hypothesis that term limits increase emergence. Women are much more likely to emerge as challengers in term-limited states than non-term-limited states. In SMDs with term limits, women emerge 23 percent of the time versus 22 percent of the time in states without. And in MMDs, women emerge 26 percent of the time versus 24 percent of the time in states without. Further, the results are consistent with the Democratic female candidate emergence finding that women emerge as challengers in term-limited states as often as women emerge in open seats in states without term limits.

While term limits only increase Republican female emergence by 1.5 percent, any increase is arguably positive for women (especially Republican women) who are rather underrepresented in states. Given that term limits increase Democratic female emergence by about 2 percent, the overall increase term limits provide for both parties is evidence that term limits do not have the negative, unintended consequences on women in office. The evidence provided here supports the theory that term limits increase

AMERICAN OVERSIGHT

female candidate emergence and also sheds a bit more light on the conventional wisdom about how the incumbency advantage hurts women. Term limits seem to change the candidate pool, and lower the effects of the incumbency advantage. This change lowers the risk associated with running, which increases the number of women willing to emerge as candidates—in open seats, as challengers, and across both parties. Term limits increase the number of women running, and when women run, they win.

Conclusion and Implications

Currently, females make up only 24 percent of state legislators in the United States. This is concerning given a 2009 CAWP study that indicates the growth of female candidates at the state legislative level has remained fairly stagnant since 1997. Since about half of women in higher office begin their political career at lower levels of government, this stagnation in female state legislators is an important area of research to study. If the number of women in state legislatures does not increase and/or gain parity, to generally reflect the population descriptively, the implications for descriptive and substantive representation is concerning at the state and national level.

This article offers a theoretical explanation on how the institutional feature of term limits affects the number of female candidates deciding to run for office. Initial studies on term limits suggest term limits have negative effects on female descriptive representation but largely ignored emergence. Using a candidate-level dataset and experimental design, I find term limits have a positive effect on women candidate emergence. Further, the findings suggest term limits are more beneficial than open seats are for increasing emergence. Term limits boost Democratic females' emergence about 2 percent and female Republican emergence by about 1.5 percent. This suggests term limits may be creating an incentive structure that is widening the eligibility pool. Specifically, term limits make seats, both open and nonopen, more desirable to women candidates.

Overall, these findings are important because the initial findings suggesting term limits are bad for women may not be as problematic as expected. A greater number of female candidates emerging, as presented here, can lead to a greater number or females in office. Future research should focus on the success of female challengers in term-limited states. The results here suggest term limits decrease the incumbency advantage and incentivize women to emerge more as challengers in term-limited seats. The more research and data on these women candidates available, such as candidate quality, campaign financing, and so on, may add insight into how term limits increase emergence, but may not increase descriptive representation. For example, women may emerge, but research suggests competition and relative candidate quality matter, especially in open seat elections (Barnes, Branton, and Cassese 2017; Fulton 2012, 2014). As this article argues, emergence is only the first step, but increasing female challengers is a step in the right direction toward parity—especially if women are successful in their pursuit of office as challengers, rather than waiting for an open seat. Perhaps the successful women are those running in the open seats rather than as challengers. Future research should disentangle this relationship to make the connection between term limits and female descriptive representation.

Last, implications for national representation of women in office are worth considering. The impact of term limits and the type of candidate attracted to the legislatures are likely to have an impact beyond the state level. If term-limited states are attracting candidates who do not want to be career politicians, this may negatively affect female recruitment success for congressional races. Take for example the possibility of a candidate seeking office in a term-limited state with no intentions of being a career politician and leaving after their term has expired—the politician may go back to their previous career, or they may seek higher office. If this politician is female and decides not to run for higher office, overtime, descriptive representation at the national level may be negatively affected. Therefore, future research tracking where women go after they are termed out in the states would also be an important addition to the literature on descriptive representation.

Notes

1. Men also receive more encouragement than females at a younger age to enter fields that are more likely to lead to political careers such as law and business (Fox and Lawless 2004).
2. Since the 1990s, twenty-one states have passed legislation for term limits, but six states have repealed them. Term limits were generally passed via citizen initiatives, and in four states (Massachusetts, Oregon, Washington and Wyoming), the state supreme courts repealed the term limits, and in two states (Idaho and Utah), the state legislature repealed the term limits (NCSL 2014)
3. Also in the 2008 CAWP recruitment study, 35 percent of women in the lower chamber report their decision to run was based on concern about one or more specific policy issues.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002152

4. In the cases where I could not determine the gender of a candidate, I did not include these cases in the models. Some were missing first names in the original SLER study, and I could not determine first names. The missing candidates make up <3 percent of the total observations.
5. Some states allow candidate fusion; candidates can run under multiple-party identifications in the same election. For these cases, I use the party ID, which received the most votes. For example, if Jane Smith ran as a Republican and received ten thousand votes, and as a Democrat with five thousand votes, I drop the Democratic identification, and Jane Smith is coded as a Republican for the election year.
6. That is, whether or not the candidate is a qualified candidate and is more likely to win than a nonquality candidate. Nonquality means a candidate has little to no relevant experience in politics. Usually specified as previous office-holding experience at some level of government.
7. By nature of experimental design, the control group never enacted term limits but a standard year is set as a point of comparison for the pre-/post-estimation. Therefore, the year 1996 is used as the beginning of the "post treatment" for the control group—states without term limits—since the first wave of term limits began in the same year.
8. The online appendix provides two additional tables for female candidate emergence in the South.
9. Tables 8 and 9 have the exact same parameters for determining the predicted probabilities and the only variation between the two is party identification.

Supplemental Material

Replication data for this article is available with the manuscript on the PRQ website.

AMERICAN OVERSIGHT

U.S. TERM LIMITS

SJR 274/HJR 229
Please cosponsor this important legislation

This 2019 session, the Florida Legislature has introduced HJR 229 in the House and SJR 274 in the Senate for 8-year term limits on Florida school boards.

BENEFITS OF 8-YEAR TERM LIMITS ON SCHOOL BOARD MEMBERS

- ✓ Term limits foster regular, open seat elections.
- ✓ Term limits encourage independence by the school board, as term limits will regularly sever the relationships that grow between special interests and incumbent board members.
- ✓ Term limits improve citizen access to the process, encourage candidates to run for office and work on meaningful campaigns, and increase voter participation in elections.
- ✓ Term limits encourage new faces and fresh ideas. Incumbent members often have their heels dug in over past political battles or are wedded to the special interests they have relied on for reelection.
- ✓ Term limits mandate rotation in office which expands the circle of citizens with intimate knowledge of how the school board works.
- ✓ Term limits encourage transparency and discourage corruption.
- ✓ Term limits create a level playing field between the school board and Florida's other political offices, most of which have an eight-year term limit.

TELL THEM 8 IS ENOUGH!

Term Limits and State Budgets

Randall G. Holcombe
Robert J. Gmeiner
Florida State University

This study examines the effects of state legislative term limits on state government revenues and expenditures. It uses a panel dataset of the 50 states from 1988 to 2011 to estimate the effect of term limits on state government budgets, yielding 1200 observations. The study compares state budget growth in states that adopted term limits with budget growth in states that did not. The main findings of the study are:

o From 1992 to 2000, fifteen states enacted voter-approved term limits for their state legislators.

o In most of those states, the term limits became effective from the late 1990s into the early 2000s, so the dataset has roughly the same number of observations prior to term limits becoming effective as after in those states that adopted term limits.

o An empirical examination of the effects of legislative term limits on state budgets shows that state government budgets grew significantly more slowly after the term limits took effect.

o Prior to term limits taking effect, state government expenditures and revenues grew at about the same rate in states that enacted term limits as in those that did not.

o Different regression models looking at both expenditures and revenues estimate that after term limits took effect, state government expenditure and revenue growth was between 16% and 46% lower in term limit states than in states that did not enact legislative term limits.

o The empirical results are both statistically and economically significant. The slower growth of state budgets in term limit states means that in an eleven year period after term limits took effect, states with term limits would have budgets from 5% to 10% lower than in comparable non-term limited states.

Thanks Kathryn!

Unfortunately, all those dates we will be in Tallahassee for committee weeks.

I appreciate you thinking of us and if there is any additional information, please feel free to pass it along.

Best,
Vickie

Subject: Lido FINALLY has a crescent shaped beach, first time in it's creation. Groins only benefit is to privatize sections of lido

Senator, You must convince the County to require a WNCA permit for the Groins. City's plan to avoid environmental regulations (quietly supported by many at the county) as just too risky to dredge Cut B and C, add unneeded groins and use Ted Spirling park as construction site... Other than these 3 things I just can't care anymore.

Lido is crescent; if left alone it'll be sustainable on its own... If they go off-shore and do NOTHING ELSE... My God, they'd finally have a beach that does not erode like the last 15 times we paid to nourish it only to have private property signs go up... these groins are just that.

EIS and IMP will support what I am saying. We looked at outcomes with all the dredge cuts, BUT we should be very worried about the Groins all by themselves. We (w/SKA) didn't have standing to focus on Groins as structures. Only City Commission or County Commission have this authority.
SKA (us) did make comments about permeable adjustable groins; it was rejected without factual rationale by Alex Davis-Shaw.

THINK ABOUT THIS; If they only placed Groins and didn't dredge, we have big problems that include starving the pass of sand resulting in big deep water where ICW were shoals and shoreline protection up to/ beyond Shell Rd. Shoreline erosion up beyond Shell Rd, and ACOE shows devastation erosion of the park and sand would move out, miss the pass.

Just look at what we had before Bird Key and Lido; and what's healed so far. Look at the ACOE reports.

Reminder: In 2002-2006 (I think) So many people drowned DIED in the dangerous rip currents off S. Lido that the airs of Ted Sperling park closed it to swimming. IT WILL 100% CREAT THE SAME.

Public funds can't pay for groins that cut off public access and erode public beach park... With our growth; we can NOT afford to lose this park. Beaches are already stressed to the point of owners closing them.

Sincerely,
Paul Revere

VALUE ENGINEERING REPORT

31 October 2013

AMERICAN OVERSIGHT

PROPOSAL NO. 1 (33.00): ***Base beachfill quantities and erosion rates on P&S scope development and include post 2004 information instead of using 2004 report alone***

ORIGINAL DESIGN:

The beach template design presented in the 2004 Feasibility Study would require placement of approximately 1,074,700 cubic yards (CY) of sand fill, consisting of 460,200 CY of design fill volume and approximately 614,500 CY of sacrificial advance fill. The design volumes were "…based on nourishment of the entire active profile rather than a design template." Paragraph A-75 of the study indicated "the width of the advance fill section is based on the 5 year renourishment interval and the observed rates of erosion and shoreline recession between 1991 and 1998." Therefore, this would indicate a 122,900 CY/YR of erosion would occur to support the 614,500 CY value.

However, the tabulation of the 122,900 CY/YR cannot be ascertained within the report. Please review and consider the following:

1. Table A-27 indicates the design erosion rate of 95,251 cy/yr.
2. The 1974-1992 sediment budget indicates a 117,000 Cubic Yards (CYs) losses on the island with 17,000 CY/YR of erosional losses to the north.
3. A response to an ITR comment indicated that "The engineering appendix suggests that aggravated erosion is not expected at the north end."
4. A review of the 3-year post-construction monitoring report after the most recent placement event in 2009, indicates 464,176 of cubic yards were placed, but after three years, 282,742 cubic yards still remain, or essentially 60,478 CY/YR of erosional loses.
5. Of the selected plan which considers placement of three terminal structures at the south end of the island, I am not sure if the erosion rate was adjusted by the presence of these structures. Now, the meeting minutes from ITR conference held on 02 May 2012 indicated that "modeling showed that over 50,000 cubic yards of material per year could be reduced from the diffusion losses at the south end of the project with these structures.

Therefore, it would seem clear to use a 65,000 CY/YR erosion rate from the existing area.

PROPOSED DESIGN:

The proposed design will based on the design provided in table A-25 and not meeting volume requirements as specified in the 2004 report. In addition, the cost savings will include the reduction in other project costs related to the shortened construction schedule such as environmental monitoring, construction vibration controls and monitoring, etc…

ADVANTAGES:

There will be two advantages. The first advantage would be the decrease in costs associated with the project from 1,074,700 cubic yards to about 880,000 cubic yards. The last value was attained comparing the 2013 survey of the area to the template provided in table A-25 which tallied to 750,000 cubic yards and assuming a 65,000 cubic yard erosion rate for two years

AMERICAN OVERSIGHT

would be appropriate. This amount could be considerable less if the sponsor proceeds with the schedule nourishment of 122,000 cubic yards of material within reaches 2 and 3.

The second advantage is a reduced quantity of fill material needed within the selected borrow area. This should help the borrow area in recovery of lost material when it erodes back to the dredged areas.

DISADVANTAGES:

None.

AMERICAN OVERSIGHT

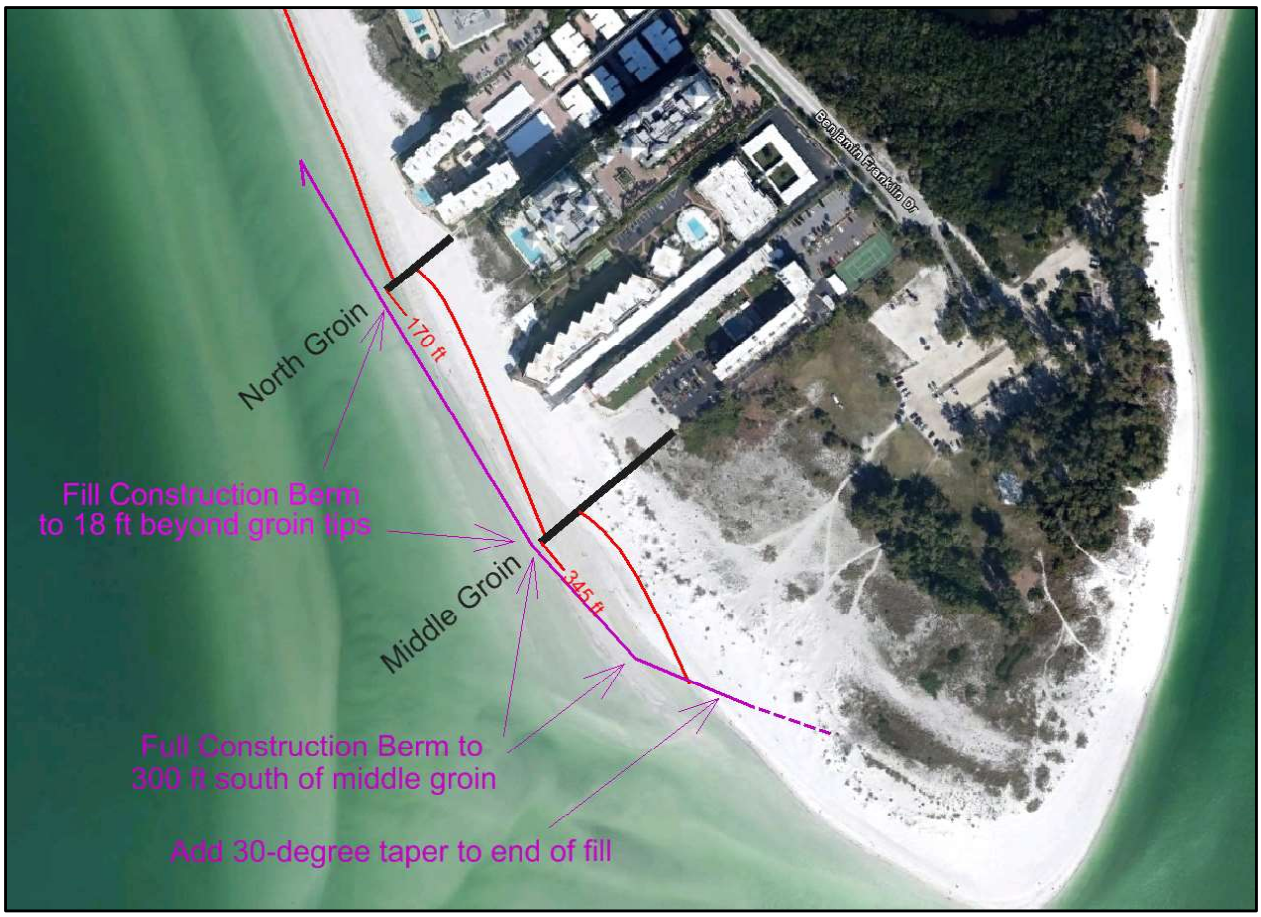

Figure 9. Proposed beach fill placement.

Conclusions.

In order to promote a more favorable shoreline response along the southern portion of Lido Key the following design changes are recommended. The northern groin would be reduced in length to 170 feet. The middle groin would be reduced in length to 345 feet. These values represent the lengths along the crest of the structures; adding the front slopes and 5-foot scour aprons at the end of each structure yields total lengths along the foundations of 187 feet and 362 feet, respectively. In order to promote more efficient bypassing of sediment and to reduce downdrift impacts, the permeability of the two groins will be increased by removing the chinking stone that was proposed in the VE analysis. Other than this minor change, the cross-sections of each groin would remain the same as was proposed in the VE Study. Finally, the beach fill configuration has been modified to shift some material from the southern tip of the island northward to central Lido Key, to act as a feeder beach. The seaward edge of the berm for the revised beach fill construction template is shown in Figure 9. The exact volumes of placement will be determined based on surveys taken prior to project construction.

Engineering Analysis
Lido Key Groin Field

Purpose and Goals of This Analysis.

The purpose of this analysis is to re-examine the overall design of the proposed groin field and the associated beach fill along southern Lido Key, with the goal of minimizing any adverse impacts to the region, particularly downdrift of the groin structures. To accomplish this goal, alternative methods of analysis will be used to determine the minimum possible lengths of the northern and middle groins that are required to hold the project berm in place along southern Lido Key. The importance of the terminal groin will be re-evaluated in light of the recommended changes to the design of the northern and middle groins. Finally, the beach fill placement plan will be re-examined to assure that fill will be placed along this region of Lido Key in the most effective manner possible, to maintain the design conditions that were laid out in the 2004 Sarasota County, Lido Key Feasibility Report throughout the 5-year renourishment interval.

History of Lido Key Groin Design.

Two previous studies have been performed to date, to establish the design of the groin field at the southern end of Lido Key. Each of these studies are briefly summarized:

1. The design of the three-groin system at the south end of Lido Key was originally formulated in the *2004 Sarasota County / Lido Key Feasibility Report*[1]. The resulting lengths of the structures from that analysis were 320 ft (north), 440 ft (middle), and 650 ft (south). The structures were included in the selected plan in the 2004 feasibility report to address the very high erosion rates along southern Lido Key beaches. That study concluded that a combination of groins and beach fill would provide the most cost effective storm damage reduction over the 50-year period of analysis; whereas beach fill alone would be more costly due to the need to renourish more frequently and with a higher overall volume of sand. The 2004 report noted that additional design and engineering work was recommended prior to construction to optimize the design of the groins. This report details this recommended final groin design process.

2. A *Value Engineering (VE) Study*[2] was performed in 2013 to examine various cost-savings measures for the project. One of the main recommendations of the VE study was to examine the possibility of constructing shorter groin structures. To support this re-analysis of groin lengths, a GENESIS numerical modeling shoreline change simulation was performed. The recommended structure lengths were shortened as a result of this analysis, to 270 ft (north), and 405 ft (middle). The southern terminal groin remained 650 feet in length. It should be noted that the length of the southern groin was not examined in that 2013 study effort, since it did not ever extend into the water and therefore could not be simulated using GENESIS. Figure 1 shows an aerial photograph of the study area with overlays indicating the positions of the three groins, and the lengths of the structures as recommended in the Feasibility Report and the 2013 VE Study. Figure 2 shows the recommended cross-section of each groin, from the 2013 VE Study.

AMERICAN OVERSIGHT

Figure 1. South Lido Key groin field. Recommended structure lengths from the Feasibility Study (FS) and Value Engineering Study (VE).

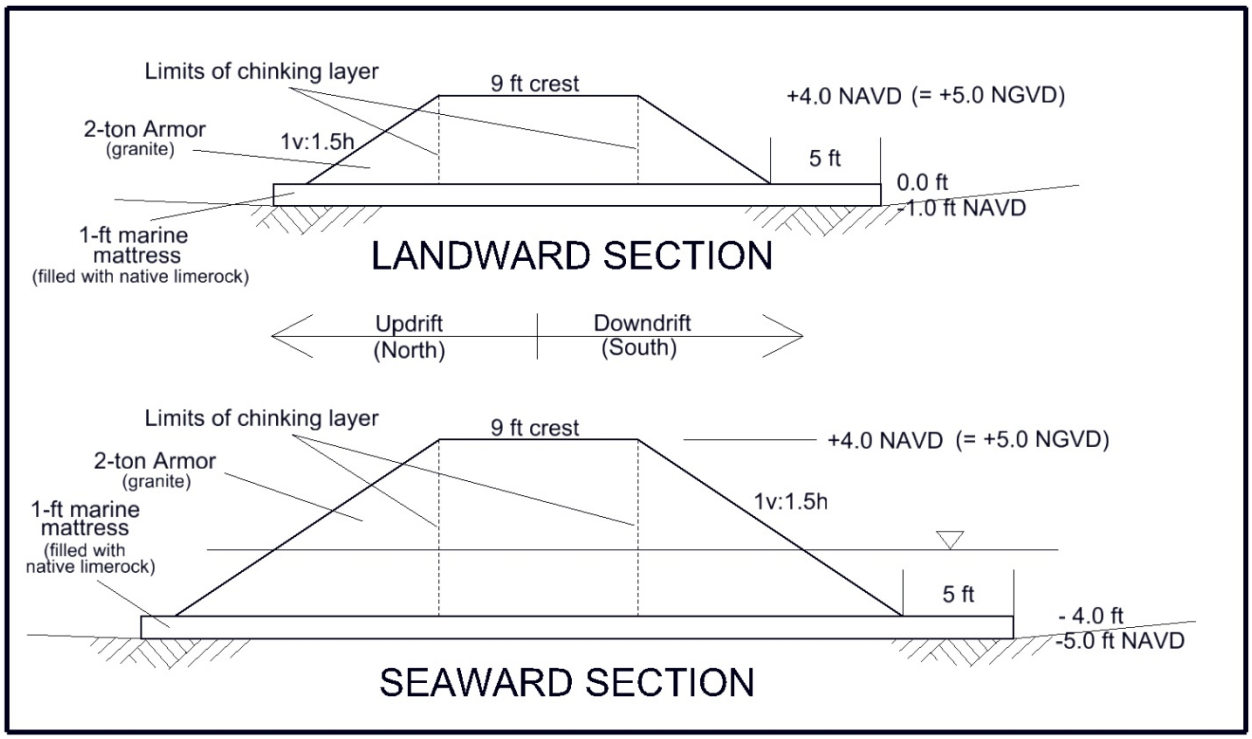

Figure 2. Recommended groin cross-section, from 2013 VE Study.

AMERICAN OVERSIGHT

Some shortcomings were noted in the use of the GENESIS shoreline change model in this study effort. First, GENESIS is not particularly well-suited for use adjacent to tidal inlets, as tidal currents can drive significant amounts of sediment transport and the model is unable to account for this movement of material. Tidal currents can also refract the waves that drive longshore transport, and these effects cannot be fully accounted for either. The assumption of straight and parallel depth contours is often not valid near inlets, and the model uses this assumption to shoal waves in to breaking depths. Also, GENESIS was originally set up to simulate sediment movement along the full length of Lido Key (about 2.5 miles). As a result a coarse grid spacing (50 meters/164 feet) was used, and this large grid size did not provide the desired level of detail in the relatively confined region of the groin field at the south end of the island. For these reasons additional analysis of the groin field design was warranted, using alternative design methods. This report presents the results of these analyses.

Design Considerations Used in This Analysis.

Several methods of analysis are available to determine the most effective design of groin fields. Various predictive techniques have been formulated over the years that can determine shoreline responses to various groin / beach fill configurations, and these equilibrium shoreline positions are a key component of successful groin field design. As described above, the GENESIS numerical shoreline simulation model is a widely-used tool that can be applied under a wide variety of conditions for formulating groin field / beach fill design, but its application in this case was difficult for the reasons cited. Other analytical techniques have been presented in the Corps of Engineers' Shore Protection Manual (1984) and more recent Coastal Engineering Manual (2002). Other researchers including Silvester, Hsu, and Bodge have presented methods that are applicable to the conditions observed at southern Lido Key.

Under normal conditions, groin design is a relatively straightforward process and can be accomplished using a range of methods, from relatively simple empirical methods to detailed numerical analyses using predictive (and relatively complicated) models such as GENESIS. In many cases (such as for Lido Key) the results from the two methods corroborate each other.

Due to the location of the groin field within the area of tidal influence of Big Sarasota Pass, some special design considerations may apply. Some key points to consider in designing these structures are:

- Tidal currents can influence sediment transport along the shoreline in ways that may be difficult or impossible for the predictive models to account for. In the case of southern Lido Key, ebb and flood tidal currents could influence sediment movement as far north as the middle groin location. However, the groins can also provide some localized protection against tidal currents running directly along the beach.

- Two obvious sediment pathways exist for longshore transport along most of Lido Key, and particularly along the southern portion of the island. The primary pathway appears to be the offshore bar, which is well-defined and obvious in most surveys and aerial photographs. The seaward face of the bar is located about 150-200 feet seaward of the waterline along most of the barrier island, and larger storm waves break along this region, transporting sediment in a

AMERICAN OVERSIGHT

predominantly southward direction. Smaller waves pass over the bar with little effect, and result in much lower rates of transport directly along the shoreline.

- Beginning about 3,000 feet north of the pass, the bar begins to diverge from the shoreline. At the position of the northern groin the seaward edge of the bar is about 500 feet offshore, and at the middle groin it is over 800 feet offshore. Interference with transport along this bar system should be avoided, as this mechanism feeds sand directly into the Big Sarasota Pass shoal system, and this process plays a key role in replenishing the proposed borrow area. Since the groins would extend only a fraction of this distance off of the shoreline they will not impact the sediment transport along this offshore bar system, even accounting for natural fluctuations of the position of the bar system.

- The groins are intended to accumulate sand from the immediate vicinity of the shoreline only. This pathway will have much less effect on the shoaling rate of the inlet shoal than the outer bar, as described above. In order to confine the effects of the structures to the nearshore system, all groin construction should be contained within the active nearshore profile.

- In order to reduce downdrift effects and promote maximum bypassing of material, the groin field should be pre-filled with sediment at the time of construction.

- A relatively deep trough exists between the shoreline and the nearshore bar; the groins should in no case extend across this trough and interfere substantially with tidal currents. Care should be taken so that the groins do not 'jet' sediment out into this flow pathway, where sediment can be lost from the nearshore system. The offshore transport of sediment caused by the rip currents that frequently form along the updrift sides of groins can be minimized by increasing the porosity of the structures.

- A primary goal in this groin redesign process is to maintain at least the minimum required width of shoreline along southern Lido Key. This has proven difficult without stabilizing structures, especially in the region between survey monuments DNR- 42 to DNR-44, shown in Figure 3. Along this region in particular the post-renourishment shoreline typically recedes in a relatively short period of time, in some cases to landward of the Erosion Control Line (ECL) / seawall positions. As described in the 2004 Feasibility Report, the authorized project berm width is 80 feet as measured from the project baseline, and the baseline is defined in that report as follows : "*The project is defined in terms of a mean high water (MHW) extension. Over the project length, the May 2000 MHW shoreline position is adopted as the project baseline. The design shoreline lies 80 feet seaward of the baseline and defines the Lido Key project*". Along this reach of southern Lido Key (R-42 to R-44) the baseline generally extends along the seawall fronting the oceanfront developments, as shown by the red lines in Figure 3. The corresponding design MHW shoreline lies approximately 80 feet seaward of the seawall line along most of the length of the groin field, and is indicated in Figure 3 by the orange lines. A primary goal of groin redesign in this report will be to maintain the equilibrated MHW position at / seaward of this position during the entire interval between renourishments as outlined in the 2004 feasibility study.

AMERICAN OVERSIGHT

Re-analysis of the groin system at southern Lido Key will proceed in the direction of littoral transport, i.e. from north to south. This will allow the equilibrated shoreline positions to be more accurately predicted based on analytical techniques. The lengths of the northern and middle groins will be calculated first, based on the minimum required positions of the resulting equilibrated shorelines. Then the design of the terminal (southern) groin will be examined separately, since the function of that structure is fundamentally different than that of the northern two groins.

Figure 3. Minimum required shoreline positions along southern Lido Key.

Redesign of the Northern and Middle Groins.

The purpose of the northern and middle groins is to maintain a stable beach berm along these erosive areas of Lido Key. The alongshore positions of these groins are shown in Figure 1. In the original design as presented in the 2004 Feasibility Report the lengths of the northern and middle groins were given as 320 and 440 feet, respectively. As a result of GENESIS shoreline modeling conducted as part of the VE Study effort in 2013, the lengths were reduced to 270 feet and 405 feet respectively, with no significant loss of performance anticipated. In Figure 1 the original lengths of the structures are indicated by the solid red lines; the seaward positions of the original and reduced structures are indicated numerically as shown.

As described above, using the required minimum 80-foot offset as the most landward allowable position of the MHW line, the minimum lengths of the northern and middle groin will be determined based on the estimated position of the equilibrated shoreline under incrementally adjusted values of groin lengths. The minimum lengths of groins that are required to hold the design 80-foot MHW extension will then be selected as the recommended plan. The two groins

AMERICAN OVERSIGHT

will be designed to hold the 80-foot offset MHW position along this erosive area and still have minimal impact on the downdrift shoreline. This can be accomplished by minimizing structure lengths while increasing permeability. Once the groin field has been properly backfilled and an adequate supply of sediment placed to the north, the beach planform will stabilize to its new equilibrium position. Existing littoral processes should then continue along southern Lido Key, largely unaffected by the presence of the structures.

Two different methods will be used to predict the equilibrated shoreline position under the influence of various groin lengths : a case study method, and empirical methods. In both analyses it will be assumed that the Lido Key shoreline will be provided with adequate supplies of sand in the future, either from bypassing southward around New Pass (whether material is provided naturally or mechanically is unimportant), or through periodic beach fill placements. By periodically placing adequate supplies of sand along the central and southern shoreline of Lido Key, sufficient volumes of sediment will remain available for natural littoral transport southward. This will in turn maintain the beaches along the southern tip of Lido Key, the southern shoreline inside Big Sarasota Pass, and the shoal within the Pass.

Method #1 – Case Study. As described in the U.S. Army Corps of Engineers' Shore Protection Manual[3], the *"best estimation of this* (equilibrated shoreline) *orientation is determined by observing fillets at nearby structures with similar coastal processes."* Such a structure exists a short distance northward on Lido Key. A relic rubble-mound groin of similar dimensions as the proposed structures is located approximately 0.8 miles north of the project site. In order to determine the minimum effective lengths of the proposed northern and middle groins, the shoreline responses in the vicinity of this structure will be examined.

Using Google Earth, shoreline positions were examined in the vicinity of this groin throughout a 20-year period (1994-2014). Shoreline configurations varied between symmetrical positioning of the waterline on either side of the groin, to relatively large offsets of shoreline positions, with the shoreline to the north always extending further seaward. It can be assumed that these fluctuations in shoreline position are due to the volume of sediment in the system, as well as recent wave intensity and direction. In most cases when there is little or no shoreline offset north/south of the groin, either the area is fully impounded with large volumes of sand, and/or the offset has been equalized by recent northward sediment transport. Conversely, when large offsets are observed the shoreline is usually in a more depleted condition, and/ or sediment transport has been predominantly in a southward direction in response to recent wave activity.

For this analysis adequate volumes of sand must always be available north of the northern groin for transport, as a minimal shoreline offset is desired. To achieve a minimal offset the northern groin will also be reduced in length to the shortest possible structure required to maintain the design (80-ft) shoreline offset seaward of the ECL as shown in Figure 3. The most critical (farthest seaward) location of the ECL is along the property immediately north of the northern groin, where the seawall line is displaced further westward than adjacent properties. This is the point where shoreline recession first encroaches on the design berm, and shoreline response in this area will be examined in detail.

AMERICAN OVERSIGHT

For this case study, an appropriate set of shoreline positions at the existing structure must first be selected. The entire 20-year period of record of aerial photographs was examined in Google Earth to select these shoreline positions. These positions should ideally reflect the beach in a nourished condition (as the project shoreline will always be provided an adequate source of updrift sand), and the positions should not reflect an excessively high (or low) degree of offset due to recent storm activity. With these parameters in mind, a reasonable "average" shoreline condition was selected from the 24 January 2013 shoreline in Google Earth. This shoreline is shown in Figure 4.

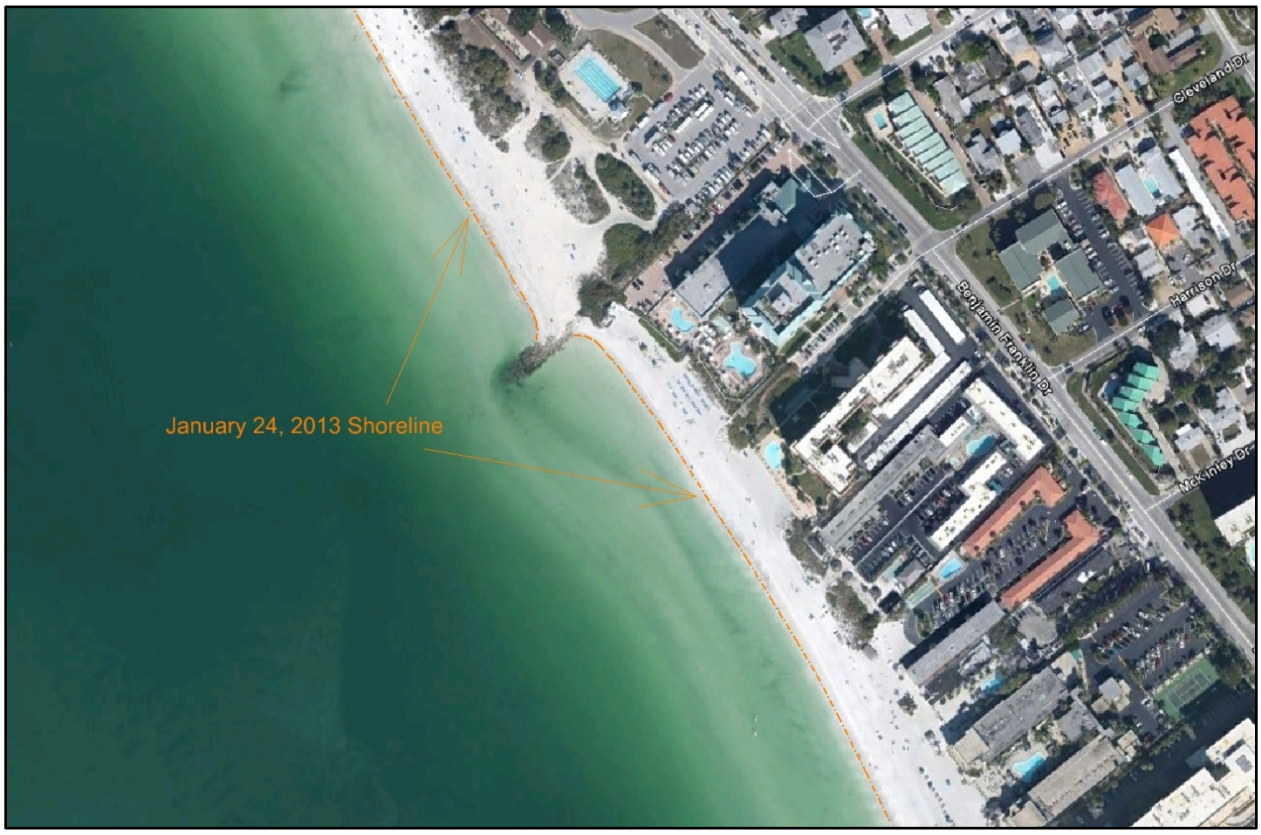

Figure 4. Shoreline positions at existing groin chosen for Case Study, Lido Key.

Once selected, this shoreline was transposed to the location of the proposed northern groin and adjusted landward/seaward in a CADD program, until the updrift shoreline approximated the position of the minimum allowable shoreline position shown in Figure 5. Care was also taken to ensure that the downdrift shoreline did not cross below the 80-ft threshold south of the groin. Once this position was set, the corresponding length of the groin could be measured. The length along the crest of the structure was measured as 163 feet.

Based on observations of the performance of the existing groin at central Lido Key, a 163-ft long northern groin will be adequate to maintain the desired berm width along the shoreline to the north, with minimal disruption to the natural southward flow of sediment along the coast. To further aid the southward bypassing of material, this northern groin will not be chinked (as was recommended in the VE Study). Similar to the groin at central Lido Key, the voids between the 2-ton armor stones will be left open; this will further aid in bypassing, while at the same time

AMERICAN OVERSIGHT

further reducing construction costs. Increasing the porosity of the groin will also reduce the potential for scouring around the structure, and reduce rip current formation as more longshore current is able to pass through the structure instead of around the seaward tip.

Figure 5. Predicted groin lengths and shoreline positions resulting from the Case Study.

With the position of the northern groin established, the predicted shape of the downdrift shoreline (between the northern and middle groins) can be readily determined by using the transposed downdrift shoreline from the existing groin at central Lido Key. Translating this waterline configuration to the shoreline cell south of the 163-foot northern groin yields an approximate position for the reach of shoreline between the northern and middle groins. Repeating the methodology used at the northern groin, the required length of the middle structure is determined as 323 feet. Again, this length will coincide with the approximate position of the seaward end of the crest of the structure as shown in Figure 5.

Note that approximately half of the length of the middle groin is well inland of the beach berm, and is required only to tie the structure into the existing highly-recessed seawall. One possible variation to the recommended rubble-mound design could be to construct the landward 150 feet +/- (the region of the groin landward of the dune field) using sheet pile only. The sheet pile would still prevent flanking of the structure during extreme storm events, while also greatly reducing the footprint of the structure and saving on construction costs.

AMERICAN OVERSIGHT

The same procedure is repeated once again to predict the shoreline configuration south of the middle groin. Due to the complex offshore bathymetry and strong tidal currents along this reach, this shoreline position is more difficult to predict, but applying the same methodology yields the approximate shoreline position shown in Figure 5. Although this figure indicates a substantial amount of erosion along this southernmost shoreline cell, this predicted position was based on a 'worst-case' scenario, so actual shoreline recession would most likely be considerably less.

Method #2 – Empirical Analysis. This alternative analysis will be performed using various methods to best suit the existing site conditions. Design will proceed from north to south, following the direction of littoral flow. As with the previous Case Study analysis, a primary assumption of this analysis will be that adequate volumes of sediment are present at all times along the beaches north of the groin field; the area to the north will in effect function as a feeder beach throughout each renourishment cycle.

The first step in this empirical analysis is to establish the position of the shoreline updrift/north of the northern groin. As described in Bodge[5], for shorelines with adequate supplies of updrift sediment (as the proposed project will be), the updrift depth contour will intersect the seaward end of the groin at 1.0 to 1.5 times the difference between mean sea level (MSL) and mean low water (MLW). In this case, the difference between MSL and MLW is 0.68 feet, based on tidal data for Sarasota from the 2004 Feasibility Study. Following this methodology and allowing for a 'maximum-erosion' scenario (1.5 x 0.68 ft = 1.02 ft), the -1.02 ft contour would be positioned along the seaward tip of the northern groin. Applying the 1v:12h beach slope to calculate the position of the MHW line yields a landward offset of 32 feet from the -1.02 ft contour. In the CADD file, graphically translating the position of the MHW line on/offshore to provide the proper 80-foot offset from the baseline (ECL) position results in a minimum corresponding groin length of 170 feet, as measured along the crest of the structure. This is in very close agreement with the value of 163 feet as determined in the Case Study. Due to the 1v on 1.5h front slope of the groin and the 5-ft wide scour apron, the corresponding position of the seaward tip of the foundation of the groin will be at 187 feet, relative to the ECL.

With the length and position of the northern groin established, the resulting equilibrated position of the shoreline between the northern and middle groins can be calculated. Many methods for performing this calculation have been proposed over the years, and most rely on a logarithmic spiral routine. The method described in the U.S. Army Corps of Engineers' Coastal Engineering Manual[4] (CEM) was selected as the most applicable, due to the compatibility of the actual project area with the parameters required by the methodology. This method was developed by Hsu, Silvester, and Xia and is described in the CEM, Part III, Chapter 2, Section 3(i).

A diagram showing the definitions of the variables used in these computations for Lido Key is shown in Figure 6. Using equation III-2-24 from the CEM (also shown in Figure 6), the variable R_o is set to the distance between the northern and middle groins, 585 feet. The wave angle Beta is incrementally varied from 10 to 40 degrees to cover the range of incident wave conditions and to perform a sensitivity analysis of wave angle vs shoreline response. For the sake of clarity, Figure 6 shows only one such series of calculations based on an incident wave angle of 17

AMERICAN OVERSIGHT

degrees. This appeared to be the most prominent incident wave angle observed throughout the record of aerial photographs. The values for C_o, C_1, and C_2 are derived from the graph in Figure III-2-27 of the CEM. Equation III-2-24 is then solved for the equilibrated shoreline position R at each of the incrementally-adjusted values for the radial angle Theta (shown by orange lines varying from 3 to 85 degrees in Figure 6). In this manner a calculated log-spiral shoreline can be derived for each incident wave angle.

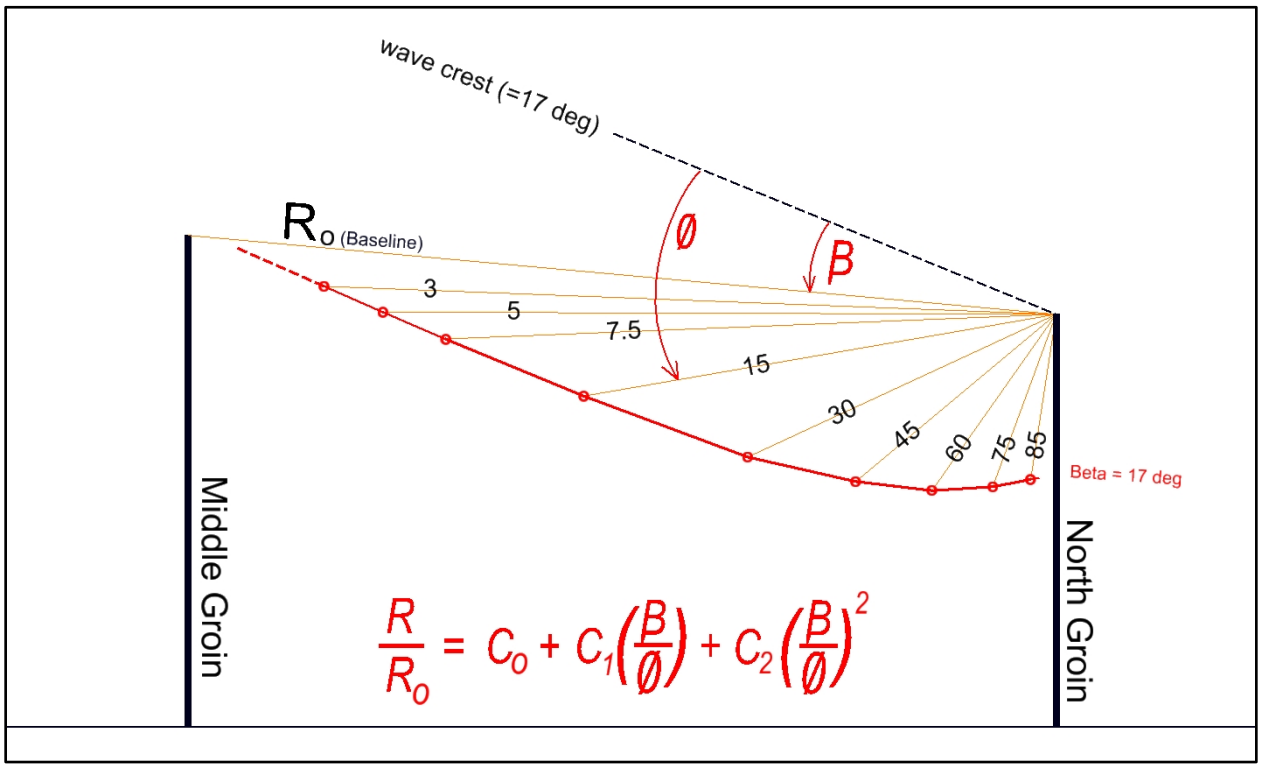

Figure 6. Definition of parameters for Eq. III-2-24.

Since the outer sandbar tends to align waves parallel to the shoreline before they can enter the nearshore area, smaller wave angles would be more applicable to calculations applied to the region of shoreline near the groin field. Based on historical aerial photography contained in Google Earth, a maximum nearshore incident wave angle of about 17 degrees is measured for visible swell. Greater angles can be observed for small wind-generated waves but the sediment-transport potential of those waves is very low. Shoreline positions for the 10, 17, and 20 – degree incident wave angles were calculated and plotted over an aerial photograph of the area. It was observed that the 10-degree calculated log-spiral shoreline best matched the observed site conditions, and agreed very closely with the shoreline from the case study. The 10-degree shoreline was therefore selected for further use in design of the groin field.

Once this design shoreline was selected the required minimum length of the middle groin could then be determined by using the proper offsets as described in the Bodge method (described above and in reference 5). It should be noted that the effects of wave angle on the equilibrium shoreline position decrease rapidly with distance from the updrift (in this case, northern) groin. Therefore the calculated position of the tip of the middle groin was not very sensitive to the wave

AMERICAN OVERSIGHT

angle selected, but increasing the incident wave angle did result in increasing erosion immediately downdrift of the northern groin.

In a manner similar to that used for design of the northern groin, the method suggested by Bodge was again used to properly position the seaward tip of the middle groin. By starting with the log-spiral shorelines calculated above, then extending the seaward end of the middle groin to coincide with the calculated position of the -1.02-ft contour (adjusting for slope down from the MSL line), the length of the crest of this structure is calculated to be 345 feet (or 362 feet along the length of the foundation). This value is 22 feet longer than the length calculated in the case study, and will be adopted as the recommended length of the middle groin because it represents a slightly more conservative value in terms of maintaining the design berm condition between the northern and middle groins. Downdrift erosion would be minimized by proper beach fill placement and by increasing the porosity of the structure by eliminating the placement of chinking stone, as was recommended for the northern groin.

This empirical method can then be repeated to calculate the approximate position of the shoreline on the downdrift (south) side of the middle groin. Due to a shift in shoreline orientation near Big Sarasota Pass, an incident wave angle of 20 degrees is recommended. Repeating the calculations using Equation III-2-24, the shoreline position south of the middle groin is determined. The final equilibrated MSL shoreline positions that were calculated using these empirical methods are shown in Figure 7.

Figure 7. Calculated final equilibrated shoreline positions.

AMERICAN OVERSIGHT

Summary of Design : Northern and Middle Groins. The northern and middle groins would each be constructed according to the two design cross-sections shown in Figure 8. The cross-sections as shown in Figure 8 differ from those in Figure 2 only in that the chinking stone has been removed. The length of the northern groin is calculated to be 170 feet, and the length of the middle groin is calculated to be 345 feet. Both values represent distances along the crest of the structures; the corresponding lengths along the foundations would be 187 and 372 feet, respectively. These values represent the minimum length of structures that can maintain the minimum-required 80-foot offset MHW shoreline along southern Lido Key throughout the 5-year renourishment interval. Due to their reduced lengths and increased porosity, these structures would have minimal impact on littoral processes along southern Lido Key and should not create significant adverse downdrift effects.

The proposed layout of the structures is described as follows. Construction of the north groin would begin at the southwest corner of the seawall shown in Figure 7, and would proceed seaward using the 'Landward Section' in Figure 8 for the first 50 feet, followed by a 50-foot transition, then the remaining 70 feet of the structure would be constructed using the 'Seaward Section'. For the middle groin, construction would tie into the southwest corner of the existing rock wall as shown in Figure 7 and would proceed seaward using the 'Landward Section' for the first 140 feet, followed by a 50-foot transition, then the remaining 155 feet of the structure would be constructed using the 'Seaward Section'. All lengths are measured along the crest of the structures. Both structures would be constructed along an azimuth of 235 degrees, measured clockwise from due north. The stone sizes and gradations as described in the 2013 VE Study would be used in the construction of both groins, as shown in Figure 8. The quantities of materials required to construct the two groins are shown in Table 1.

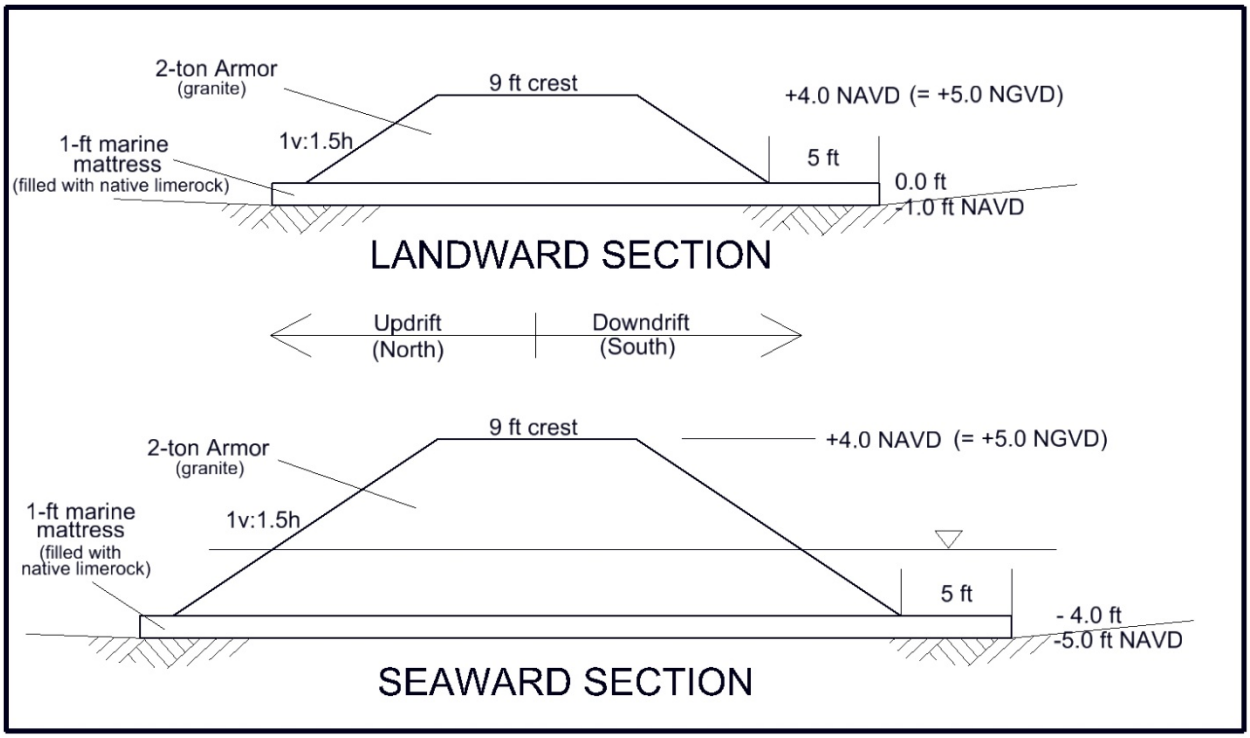

Figure 8. Recommended design cross-sections of northern and middle groins.

AMERICAN OVERSIGHT

TABLE 1 QUANTITIES OF MATERIALS REQUIRED NORTH AND MIDDLE GROINS				
SUBTOTAL - NORTH GROIN (170') :

Geotextile fabric	**2131**	**SY**		

Redesign of the Southern (Terminal) Groin.

The original purpose of the southern, or terminal, groin as formulated in the 2004 Feasibility Report was to stabilize the southern tip of Lido Key. This would be accomplished by impounding a large volume of material to the north of this 650-foot long structure, to guard against excessive downdrift erosion that could be caused by the much longer northern and middle groins that were recommended in that report. The originally-proposed lengths and positions of all three structures are shown in Figure 1.

The seaward end of the terminal structure was originally located at/near the waterline at the time of the 2004 Feasibility Study. Due to steady accretion of this area the structure was located well inland at the time of the 2013 VE Study. The 2013 VE Study recommended that the structure remain in place as an assurance against loss of the south end of Lido Key due to either ongoing erosion, or in the event of catastrophic storm damage. However, due to the re-engineering of the northern and middle groins at southern Lido Key as part of this current redesign effort, the risk of these types of damages occurring has now been greatly reduced.

The southern tip of the island has proven highly stable in recent years, and this stability is expected to continue following construction of the groins and beach fill placement. The ongoing renourishment of Lido Key as a result of the Federal HSDR project should maintain the stability of this area into the future, without the addition of the terminal structure. The pre-project littoral processes along the south end of the island will continue largely uninterrupted after project construction: in addition to allowing material to bypass the northern and middle groins and nourish the Gulf shoreline, material will be free to flow around the southern tip of the island and nourish the bay-side shoreline inside Big Sarasota Pass. A portion of this material will ultimately be transported into the Big Sarasota Pass shoal system, as presently occurs. Continuation of these natural processes should promote a stable, and possibly slightly accretionary, shoreline along the southern end of the island.

AMERICAN OVERSIGHT

Since the risk of potential damages along the southernmost end of Lido Key has been greatly reduced as a result of this groin redesign effort, it is recommended that the construction of the terminal groin be deferred. The southern Lido Key shoreline should be monitored following construction of the beach fill and groins, and construction of the terminal groin would proceed only if it is proven necessary in the future. In the event that a terminal groin is determined to be necessary, it is further recommended that a sheet-pile design be examined instead of the rubble-mound structure recommended in the 2004 Feasibility Study. This would greatly reduce construction costs as well as the overall footprint of the structure.

Redesign of Beach Fill.

In accordance with the design of the groin system as presented above, the plan for placement of beach fill has been modified to shift a portion of the placement volume from the southern tip of Lido Key to the central region of the island, where it will be used to much greater benefit as a feeder beach. This will ensure that a steady supply of sediment is available to feed into the groin system throughout the 5-year period between renourishments. To accomplish this without increasing the overall volume of fill to be placed, the volume placed throughout the groin field will be reduced and the volume placed north of the groin field will be correspondingly increased.

Specifically, the construction berm will be reduced to the width required to extend to the tips of the northern and middle groins, after post-construction slope adjustment. This will accomplish the pre-filling of the shoreline cells between the groins that is required in order to minimize downdrift erosion. According to information presented in the 2004 Feasibility Study, the construction template features a 1v : 10h slope and the equilibrated slope averages 1v : 12h above MLW. Therefore, as this steeper construction slope equilibrates, the seaward edge of the level berm will recede landward by approximately 18 feet. In order to position the seaward edge of the equilibrated berm at the tip of the groin crest, the berm will be constructed 18 feet wider than the position of the northern and middle groin tips. The resulting construction berm widths along the length of the groin field will vary, but the maximum width will be about 190 feet as measured from the ECL.

In the shoreline cell south of the middle groin, the equilibrated shoreline position (as determined by the log-spiral method) indicates the potential for some minor downdrift erosion along the first 300 feet +/- south of that structure. Therefore, in order to adequately pre-fill that region, fill will be placed to the full construction template along the first 300 feet south of the middle groin. At that point a taper would be constructed at a 30-degreee angle to tie into the existing +4.0 ft contour on the existing shoreline. The proposed fill placement plan is shown in Figure 9.

AMERICAN OVERSIGHT

Figure 9. Proposed beach fill placement.

Conclusions.

In order to promote a more favorable shoreline response along the southern portion of Lido Key the following design changes are recommended. The northern groin would be reduced in length to 170 feet. The middle groin would be reduced in length to 345 feet. These values represent the lengths along the crest of the structures; adding the front slopes and 5-foot scour aprons at the end of each structure yields total lengths along the foundations of 187 feet and 362 feet, respectively. In order to promote more efficient bypassing of sediment and to reduce downdrift impacts, the permeability of the two groins will be increased by removing the chinking stone that was proposed in the VE analysis. Other than this minor change, the cross-sections of each groin would remain the same as was proposed in the VE Study. Finally, the beach fill configuration has been modified to shift some material from the southern tip of the island northward to central Lido Key, to act as a feeder beach. The seaward edge of the berm for the revised beach fill construction template is shown in Figure 9. The exact volumes of placement will be determined based on surveys taken prior to project construction.

AMERICAN OVERSIGHT

INTRODUCTION

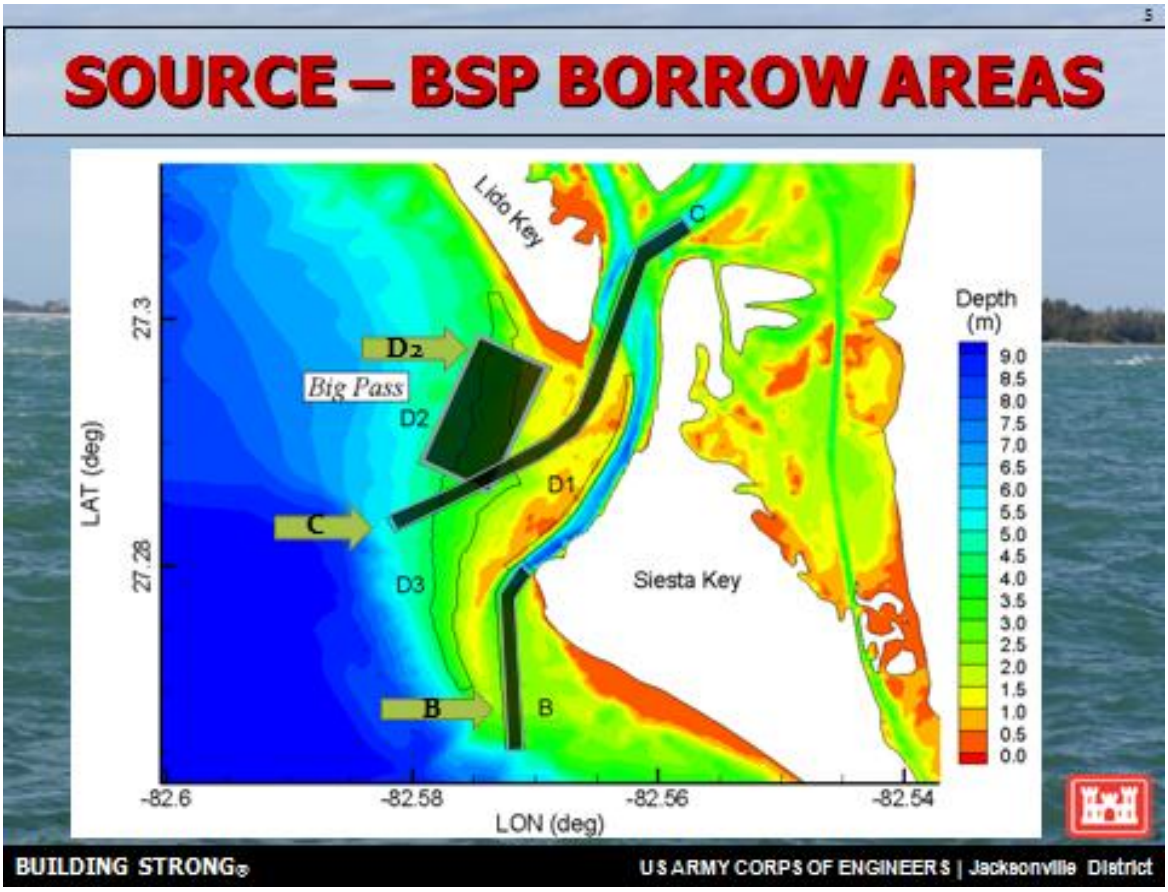
This Value Engineering (VE) Report documents the completion of the Lido Key Hurricane and Storm Damage Reduction Project (Preconstruction, Engineering and Design Phase), Sarasota County, FL, October 2013.value analysis. The project is at the Preconstruction, Engineering and Design (PED) phase, preliminary phase of development for the Plans and Specifications (P&S). Value improvements proposed herein will be addressed during further P&S refinements.

PROJECT DESCRIPTION (on date of VE Study, 7-11Oct13)

The Hurricane and Storm Damage Reduction (HSDR) Project, Lido Key, Sarasota County, Florida (Lido Key Project) is described in a Final Integrated Project Implementation Report and Environmental Impact Statement dated October 2002 with April 2004 Addendum. The Chief of Engineers Report was signed 22 December 2004. Congress re-authorized the project in Section 364 of the Water Resources Development Act of 1999, Public Law 106-53. The non-Federal sponsor is the City of Sarasota. A Design Agreement for the Lido Key Project was signed 12 September 2007 between The Department of the Army and The City of Sarasota, Florida.

The Lido Project consists of a set of features that will improve shore protection while reducing coastal erosion and wave or surge impacts to upland development for 8,280 ft segment of the Lido Key Gulf of Mexico shoreline. The authorized plan as recommended in the Chief's Report includes construction of an 80-foot-wide beach berm at elevation +5 feet National Geodetic Vertical Datum (NGVD) over 8,200 ft. of shoreline, with 3 groins located near the southern limits of the project. Periodic nourishment, at a five (5) year interval, would optimize the net benefits over the 50 year period of analysis. Construction of the project would require placement of approximately 460,200 cy of design fill and 614,500 cy of advanced fill material. Three borrow areas, delineated for use, are located between 7.2 and 9.5 nautical miles offshore. The Lido Key shoreline is made up of private and extensively used public beaches. The project will improve storm damage prevention to coastal development and existing structures, while providing recreational benefits to Lido Key. A vicinity map and the recommended plan are displayed below.

AMERICAN OVERSIGHT



2004 Feasibility Study Features

- Project Length (ft) = 8,280 (R-35 to R43)
- Design berm elevation = +5 ft NGVD
- Approximately 460,000 cy of design and 615,000 cy of advance material (1,075,000 cy)
- Three Borrow areas were delineated (5, 6 & 7)
- 5-year nourishment interval over 50-year life
- 615,000 cy required for each re-nourishment
- Three groins are part of the project along the southern portion
- Initial Estimated Construction cost = $22,708,000 (62.4%/37.6%)

Subsequent to the Chiefs Report, borrow area clearances were updated to protect habitats of concern. The result was the borrow areas in the decision document needed to replaced or augmented. Further detailed analyses and coordination changed the borrow area to Big Shoal Pass. The current alternative borrow alternatives at Big Pass are depicted on the following graphic.

AMERICAN OVERSIGHT

PROJECT ISSUES, CONCERNS AND VALUE IMPROVEMENT OPPORTUNITIES

The Project Delivery Team identified the follow topics that could be improved via a Value Analysis. These topics were discussed and improvement ideas vetted during this VE study.

- Cost versus 902 Limits
- Use of Groins and Optimization
- Project schedule needs
- PED activities and costs
- NEPA and Permitting
- Non-Federal Sponsor Concerns
- Navigability of Big Pass
- Dredging of B/A
- Prevention of erosion on south end of Lido Key
- Bay side erosion, South Lido Park Area

AMERICAN OVERSIGHT

VALUE METHODOLOGY

This report documents the VE workshop conducted 11-17 October 2013. The workshop was conducted using the six-phase Value Engineering Job Plan as sanctioned by USACE and the Society of American Value Engineers International (SAVE). This process, as explained below, was executed as part of daily activities as described in the Workshop Agenda exhibited in Appendix A. The VE Team was comprised of USACE Team Members from the Jacksonville District. The roster is located in Appendix B.

The VE Workshop culminated in the development phase where ideas were captured and refined into proposals or design comments. Design comments are topics that warrant consideration but their savings were not computable (quantitative) with current information. Appendix E contains the related documentation.

Information Phase

At the beginning of the study, the project team presents current planning and design status of the project. This includes a general overview and various project requirements. Project details are presented as appropriate. Discussion with the VE Team enhances the Team's knowledge and understanding of the project.

Function Analysis Phase

Key to the VE process is the Function Analysis. Analyzing the functional requirements of a project is essential to assuring an owner that the project has been designed to meet the stated criteria and its need and purpose. The analysis of these functions is a primary element in a value study, and is used to create ideas and develop proposals. This procedure is beneficial to the team, as it forces the participants to think in terms of functions. For this study, team members developed a function list and then considered the list in regards to the report's recommended plan features. This facilitated a deeper understanding of the project. The function analysis is presented in Appendix C.

Creativity Phase

The Creativity Phase involves identifying and listing creative ideas. During this phase, the team participates in a brainstorming session to identify as many means as possible to provide the necessary project functions. Judgment of the ideas is not permitted in order to generate a broad range of ideas. The creative phase continues through the other phases as ideas can, and often times do, create other ideas.

Evaluation Phase

The purpose of the Evaluation Phase was to systematically assess the potential impacts of ideas generated during the Creativity Phase relative to their potential for value improvement. Each idea is evaluated in terms of its potential impact to cost and overall project performance. Once each idea is fully evaluated, it is given a rating to identify whether it would be carried forward and/or developed as an alternative, combined with other ideas, presented as a design suggestion, dismissed from further consideration or that it is already being done by Project Delivery Team. Appendix D lists those ideas

AMERICAN OVERSIGHT

with their evaluation disposition. The appendix tables also display the evolution of ideas from creation through their embodiment into proposals or comments.

Development Phase

During the Development Phase, ideas passing evaluation are expanded and developed into comments. The development process considers such things as the impact to performance, cost, constructability, and schedule of the alternative concepts relative to the baseline concept. This analysis is prepared as appropriate for each alternative, and the information may include an initial cost and/or life cycle cost comparisons. Each alternative or idea describes the baseline concept and proposed changes and includes a technical discussion.

Presentation Phase

The VE Workshop concluded with a preliminary presentation of the value team's assessment of the project and value alternatives and ideas. The presentation provides an opportunity for the owner, project team, and stakeholders to preview the alternatives and develop an understanding of the rationale behind them. The presentation is also used to refine proposal justification to include the corporate perspective. The presentation was conducted 4Nov13.

AMERICAN OVERSIGHT

STUDY RESULTS AND RECOMMENDATIONS

Study results are summarized below in proposals where quantitative cost avoidance opportunities can be realized and in comments where those ideas are captured that warrant further consideration by the PDT. Related cost avoidance will be developed for awarded contract and reported in the Value Engineering Reporting System (VERS). Should ideas/comments result in quantifiable cost avoidance, those ideas/comments will be documented as proposals and appended to this report.

The VE team developed seven proposal alternatives that warrant more detailed investigation. In general, VE team proposals centered on:

- Updating the beach fill erosion rates with post 2004 information; and
- Optimizing groin design.

PROPOSALS

The following proposals and potential cost avoidance will be evaluated by the PDT for incorporation into the project's design.

P1. Base beachfill quantities and erosion rates on P&S scope development and include post 2004 information instead of using 2004 report alone, $1,476,000.

P2A. Groin Optimization (Optimize dimensions, use local stone in marine mattresses, reduce sheet pile lengths), $1,139,000.

P2B. Groin Optimization (Optimize dimensions, use local stone in marine mattresses, replace sheet pile with grouted chinking stone), $1,390,000.

P2C. Groin Optimization (Optimize dimensions, use local stone in marine mattresses, reduce sheet pile lengths, selectively shorten groins), $1,422,000.

P2D. Groin Optimization (Optimize dimensions, use local stone in marine mattresses, replace sheet pile with grouted chinking stone, selectively shorten groins), $1,661,000.

P2E1. Eliminate the grouting from the chinking for P2B, $1,910,000.

P2E2. Eliminate the grouting from the chinking for P2D, $2,151,000.

AMERICAN OVERSIGHT

COMMENTS

The following comments are offered for consideration by the PDT during further P&S and Design Documentation Report development. Should comments result in quantitative cost avoidance, this report will be appended with the proposal.

C1. Consider allowing the use of truck hauled sand.

C2. Reevaluate the use of T-groins (other alternatives to rubble mound groins).

C3. Revisit the northwest borrow area for contour dredging/backpassing for beachfill.

C4. Reconsider the equipment assumptions in the current estimate and address sequencing in the order of work.

C5. Check environmental windows for piping plover versus construction period.

C6. Consider RFP for acquisition.

C7. Plant dune vegetation.

C8. Use park for staging area.

C9. Reuse any remnant stone from the beach in groins.

C10. Revisit Current Working Estimate construction period for groins.

C11. Recommend reviewing the Cost and Schedule Risk Analysis for related VE improvements.

C12. Using sheet pile to the top elevation in the groins will pose a safety hazard to the public. Reduce several feet below top of groin or do not use.

APPENDIX C: FUNCTION ANALYSIS

AMERICAN OVERSIGHT

DOD VE and Efficiency Initiatives

In an effort to provide better value for the taxpayer and the warfighter.... *(examine)* five broad areas of initiatives as follows:

- *Target affordability and control cost growth;*
- *Incentivize productivity and innovation in industry;*
- *Promote real competition;*
- *Improve tradecraft in services acquisition; and*
- *Reduce non-productive processes and bureaucracy.*

LIDO KEY, FL- FUNCTION LIST		
Reduce Storm/Hurricane Damage	Identify/Distribute Sand Sources	Attract User
Maintain Sand in coastal system	Vegetate dunes	
Protect Property/Infrastructure	Distribute Sand (Pipe/Truck)	Target Affordability
Minimize Erosion Impacts	Protect Environmental Habitat	Control Cost Growth
Enhance Beach/Shoreline	Minimize Environmental Impacts	Incentivize innovation
Add Beachfill	Monitor Impacts	Incentivize productivity
		Promote Competition
Develop Sand Delivery/Placement Options		
	Satisfy User	Reduce Processes
Widen Advanced Sand Nourishment		
		Reduce Bureaucracy

AMERICAN OVERSIGHT

LIDO KEY, FL- FUNCTION LIST

Install Groins		
Block Sand Transport		
or		
Impede Sand Transport		
Retain fill template		
Block longshore currents		
Provide habitat		
Anchor tip of island		
Protect park		

RUBBLE MOUND GROIN FUNCTIONS

Other Breakwater, Groin or Training Wall Functions

- Allow overtopping
- Reduce wave heights
- Dissipate or reflect wave energy
- Force currents along structure
- Reduce or address wave run-up

Rubble Mound Training Wall Functions

- Break waves
- Reduce wave height/climate
- Block transverse current
- Retain fill
- Prevent scour

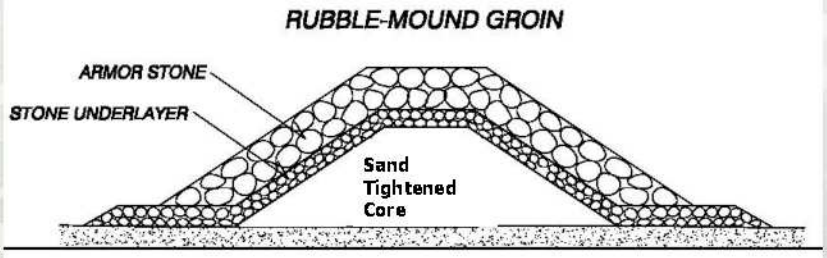

Figure VI-2-9. Examples of groin structures

Mat or Blanket/Foundation Layer Functions

- Retain fill
- Prevent Scour
- Distribute weight

Sand Tightened Core Functions

- Impede or limit energy transmission
- Block Sand
- Retain blanket or underlayer

AMERICAN OVERSIGHT

APPENDIX E: PROPOSAL AND RECOMMENDATION DOCUMENTATION

AMERICAN OVERSIGHT

PROPOSAL NO. 1 (33.00): ***Base beachfill quantities and erosion rates on P&S scope development and include post 2004 information instead of using 2004 report alone***

ORIGINAL DESIGN:

The beach template design presented in the 2004 Feasibility Study would require placement of approximately 1,074,700 cubic yards (CY) of sand fill, consisting of 460,200 CY of design fill volume and approximately 614,500 CY of sacrificial advance fill. The design volumes were "…based on nourishment of the entire active profile rather than a design template." Paragraph A-75 of the study indicated "the width of the advance fill section is based on the 5 year renourishment interval and the observed rates of erosion and shoreline recession between 1991 and 1998." Therefore, this would indicate a 122,900 CY/YR of erosion would occur to support the 614,500 CY value.

However, the tabulation of the 122,900 CY/YR cannot be ascertained within the report. Please review and consider the following:

1. Table A-27 indicates the design erosion rate of 95,251 cy/yr.
2. The 1974-1992 sediment budget indicates a 117,000 Cubic Yards (CYs) losses on the island with 17,000 CY/YR of erosional losses to the north.
3. A response to an ITR comment indicated that "The engineering appendix suggests that aggravated erosion is not expected at the north end."
4. A review of the 3-year post-construction monitoring report after the most recent placement event in 2009, indicates 464,176 of cubic yards were placed, but after three years, 282,742 cubic yards still remain, or essentially 60,478 CY/YR of erosional loses.
5. Of the selected plan which considers placement of three terminal structures at the south end of the island, I am not sure if the erosion rate was adjusted by the presence of these structures. Now, the meeting minutes from ITR conference held on 02 May 2012 indicated that "modeling showed that over 50,000 cubic yards of material per year could be reduced from the diffusion losses at the south end of the project with these structures.

Therefore, it would seem clear to use a 65,000 CY/YR erosion rate from the existing area.

PROPOSED DESIGN:

The proposed design will based on the design provided in table A-25 and not meeting volume requirements as specified in the 2004 report. In addition, the cost savings will include the reduction in other project costs related to the shortened construction schedule such as environmental monitoring, construction vibration controls and monitoring, etc…

ADVANTAGES:

There will be two advantages. The first advantage would be the decrease in costs associated with the project from 1,074,700 cubic yards to about 880,000 cubic yards. The last value was attained comparing the 2013 survey of the area to the template provided in table A-25 which tallied to 750,000 cubic yards and assuming a 65,000 cubic yard erosion rate for two years

AMERICAN OVERSIGHT

would be appropriate. This amount could be considerable less if the sponsor proceeds with the schedule nourishment of 122,000 cubic yards of material within reaches 2 and 3.

The second advantage is a reduced quantity of fill material needed within the selected borrow area. This should help the borrow area in recovery of lost material when it erodes back to the dredged areas.

DISADVANTAGES:

None.

AMERICAN OVERSIGHT

PROPOSAL NO. P2, (See Idea List): *Groin Optimization* (optimize groin design and layout)

VE ANALYSIS OF THE LIDO KEY GROIN FIELD.

The purpose of this VE Study is to examine the authorized project features, with the goal of reducing costs without sacrificing project performance. The first step of this process involved a review of the development of the currently authorized project, as presented in the 2004 report "*Sarasota County, Florida, Hurricane and Storm Damage Reduction Project, Lido Key, Feasibility Report, April 2004 Addendum*". This report served as the basis of design for the proposed beach fill template and groin structures.

Some more recent follow-up investigations have been performed by Dr. Kelly Legault (SAJ-EN-WC). These investigations involved modeling of the project area with the numerical model GENESIS (to determine optimal groin design) and CMS (to determine changes to flow through Big Sarasota Pass under a number of borrow area dredging scenarios). As a result of this modeling effort there were no changes recommended to the groin system as presented in the 2004 Feasibility Report. Dr. Legault's modeling did suggest some additional refinements of the borrow areas originally proposed in the 2004 report however.

Since no changes to the layout of the groin field were recommended during this recent numerical modeling investigation, the plan as presented in the 2004 Feasibility Study will be the subject of this VE Study. The plan consists of 3 groins, located at the southern end of Lido Key. The southernmost groin is located at the very southern tip of the island and will function as a terminal structure, anchoring the southern end of Lido Key. This groin will be 650 feet long, with the landward half of the structure positioned along the northern bank of Big Sarasota Pass. The next groin will be located 800 feet north of the terminal groin, and will extend from the +5 ft NGVD (= +4.0 ft NAVD88) contour, seaward for a distance of 440 feet. The northernmost groin will be located 1,400 feet north of the terminal groin, and will extend from the existing seawall, seaward for a distance of 320 feet. Each structure will be oriented along an azimuth of 235 degrees, as measured from due north, clockwise.

These groin positions, lengths, and orientations were modeled in some detail in the 2004 study using the numerical model GENESIS. Additional design parameters for the groins were established in the 2004 report as well. Median stone size, crest elevation, side slopes, foundation elevation etc were all specified in the 2004 report. Some of these parameters may be evaluated and changed based on updated information on site conditions. These re-evaluations are presented in the following sections of this discussion.

AMERICAN OVERSIGHT

As part of the VE process, a matrix of suggested cost-saving alternatives to the recommended plan was developed. The table below represents the portion of this matrix that is specific to reducing costs associated with construction of the groins only. Other portions of the overall VE proposal matrix focus on cost-reducing measures for beach fill placement, borrow areas, construction methodology, etc, and will be included in the final VE report.

Lido Key VE - Evaluated and Grouped Ideas

Idea	Idea Group	Action	Already Being Done or Eliminate, Idea Group = 0.00; Keep Idea, Idea Group = Number; Combine into another idea, Idea Group = N.ii
2	2.00		use local rock in groin xsec
11	2.11		use local rock for sublayers then granite for armor
5	5.00		geotubes instead of groins (they have UV coating)
8	8.00		Groin Modification (modify groin xsec design)
9	8.09		min groin dimensions
12	8.12		revisit Top width and top groin elevation
13	8.13		revisit groin side slopes
14	8.14		variable base el for groins
18	8.18		use matresses for foundation layer
35	8.35		alternative means of sand tightening
47	8.47		consider low profile groins
48	8.48		staggered heights of groins
49	8.49		staggered lengths of groins
62	8.62		don't extend vinyl sheet pile to El 5, safety hazard
63	8.63		Reduce the vinyl sheet pile depth to extend into the foundation mattress only

The matrix of VE proposals from the table above were investigated, discussed, and recommendations made as to whether to pursue the proposed action further. Because many of these options were logically combined together to optimize project performance and/or reduce costs, a much shorter final matrix of proposals resulted from this analysis, and is summarized in the following table.

Groin Optimization Alternatives	
P2A	Optimize Dimensions, use local stone in mattresses, reduce sheet pile lenghts
P2B	Optimize Dimensions, use local stone in mattresses, replace sheet pile w/chinking
P2C	P2A with selective shortened groins
P2D	P2B with selective shortened groins
P2E1	P2C without grouted chinking stone
P2E2	P2D without grouted chinking stone

AMERICAN OVERSIGHT

PROPOSAL NO. P2A, (Ideas 2.11, 8.18, 8.14, 8.62, 8.63): ***Groin Optimization (Optimize dimensions, use local stone in marine mattresses, reduce sheet pile lengths).***

ORIGINAL DESIGN:

The groin cross-section design as described in the 2004 Feasibility Study consists of the following: all three structures would be constructed of 2-ton, 165 pcf granite, with a crest elevation of +5 ft NGVD (= +4.0 ft NAVD), a crest width of 12 feet, and side slopes of 1v : 2h. Two layers of granite (total 6 ft thick) would be placed over a layer of 400-lb core stone. Core and armor stone are placed over a layer of unconstrained bedding stone. A vinyl sheet pile wall would be driven down the centerline of each groin to -24 feet to sand-tighten the structures.

PROPOSED DESIGN:

Several VE proposals are included in this design since these improvements represent current construction practice and/or changing site conditions since the 2004 study. The use of foundation mattresses **(VE # 8.18)** is recommended in accordance with current design practices and as a cost-saving measure. Furthermore, the foundation mattresses can be filled with either native Florida limerock or imported granite, whichever is cheaper **(VE # 2.11)**, with no loss of performance. Side slopes will be steepened to 1v : 1.5h along both sides of each groin **(VE # 8.13)** in order to reduce the quantity of materials (and cost) required. The original 1v : 2h side slope will be maintained at the head of each structure, to avoid compromising structural stability. A variable base elevation **(VE # 8.14)** was incorporated into all VE alternatives as described in the general overview document, based on the latest survey data. The top elevation of the sheet pile was reduced **(VE # 8.62)** to +3.5 ft NAVD, which equates to 6 inches below the crest of the groins. This modification was recommended for safety reasons, as all structures are expected to accommodate heavy pedestrian traffic. The depth of embedment of the sheet piles was reduced **(VE # 8.63)** from -24 feet to 5 feet below existing grade, because the piles are included only to provide a sand-tight barrier, not as structural members. Armor stone placement will provide the required lateral stability of the sheet pile wall. Other VE proposals recommended further reducing groin cross-sectional dimensions **(VE # 8.09, 8.12)**, but this was not possible because the groin crest widths and elevations as described above are currently at the minimum dimensions required to still be in accordance with current design guidance.

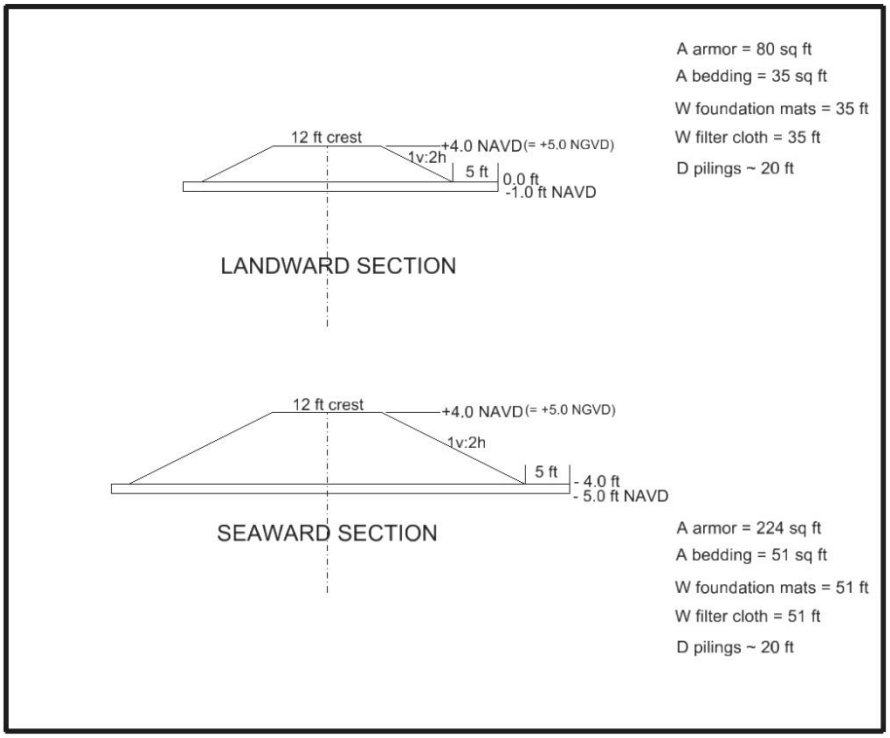
ADVANTAGES:

Incorporation of the proposals described above would significantly reduce the quantities of materials required, without compromising the function or the longevity of the structures. Use of foundation mattresses would improve the overall stability of the structures, as the bedding material would be more effectively contained than in the original design, and a thinner bedding layer could be used. The side slopes of 1v:1.5h provide adequate stability along the sides of the structures, while the flatter slope of 1v : 2h would be used only at the heads, where waves impact the structures head-on. The variable base elevations of the groins are generally only about 2-4 feet below existing grade and minimize the volume of excavation, and the quantity of materials required to construct the structures. Lowering the top elevation and raising the bottom elevation of sheet piles significantly reduces the quantities of piles required.

AMERICAN OVERSIGHT

DISADVANTAGES:

Marginally increased sediment bypassing could occur during storm events due to the slight lowering of the sheet pile elevation. This rate is expected to be minimal, and would only occur during period of heavy overwash. However, some bypassing is desirable in order to renourish the downdrift beaches. Decrease in depth of penetration of sheet piles can result in loss of stability of the pile wall during construction; stone should be placed along the newly-constructed wall to increase lateral stability. A shallower base elevation could result in an increased potential for scouring along the downdrift (south) side of the structures. To avoid scouring damage a 5-ft wide scour apron would be constructed by extending the foundation mattresses beyond the southward-facing toe of the structures as shown.



ACTIVITIES TO IMPLEMENT:

Obtain cost estimates, determine availability of local limerock for bedding material.

JUSTIFICATION: The justification for considering this alternative is below.

AMERICAN OVERSIGHT

PROPOSAL NO. P2B (Ideas 2.11, 8.18, 8.14): ***Groin Optimization (Optimize dimensions, use local stone in marine mattresses, replace sheet pile with grouted chinking stone).***

ORIGINAL DESIGN:

The three groins would be constructed as rubble-mound structures. Sand-tightening would be achieved using a vinyl sheet pile wall, driven down the centerline of the structure.

PROPOSED DESIGN:

This proposal further refines the design presented in Alternative P2A, substituting the use of chinking stone instead of sheet pile to provide the required sand-tightening. The sheet pile wall would be removed from all three structures and replaced with chinking stone, which would be placed within the voids of the armor stone during construction. Chinking stone would be grouted as it was placed, to further reduce voids and increase stability of the chinking layer. Chinking stone density would be 165 pcf, to further decrease the potential for any ungrouted stone to be washed out of structure by wave action. Corps guidance requires a minimum of 3 stone-widths across the crest of such rubble-mound structures. The original groin design was 4 stones wide (12 ft), to allow for the placement of 2 stones on each side of the sheet pile wall. Without this sheet pile wall the crest can be reduced to 3 stones wide (9 ft), which will reduce the volume of stone accordingly.

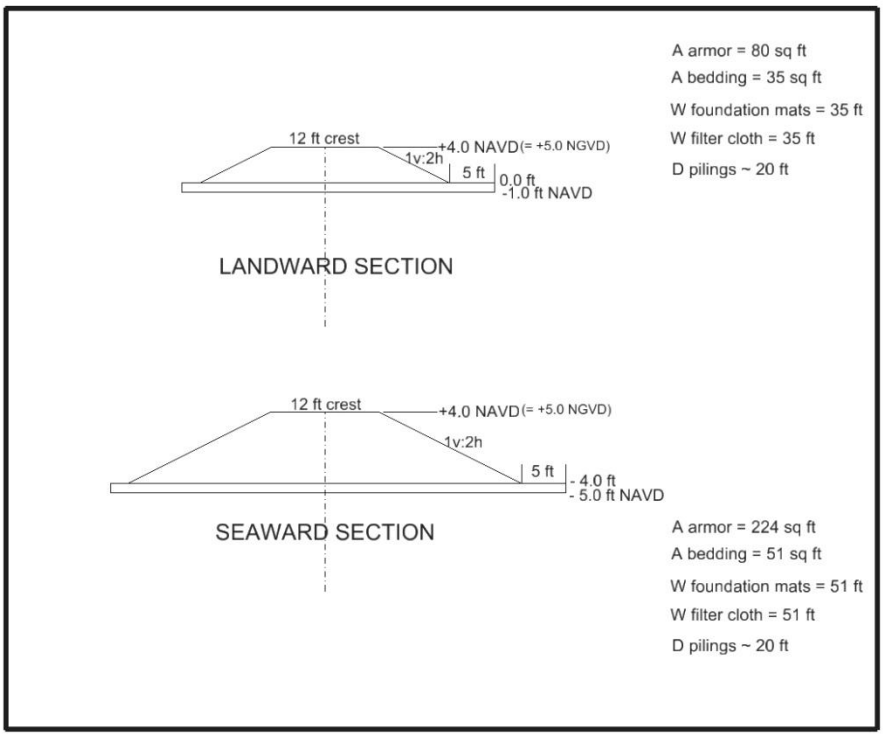
ADVANTAGES:

In addition to frequently providing cost savings over other methods, chinking and grouting have proven to be effective means of sand-tightening structures. Construction is simplified : typically, a layer of armor stone will be placed along the foundation, then a layer of smaller chinking stone placed within the voids, grouted if necessary, then the next armor layer is placed, etc. This method is often easier to construct in the field vs the difficulties (and specialized equipment) associated with driving sheet piles in a wave-prone environment. Chinking to the top elevation of the structure could provide a smooth surface to drive equipment over, and for public use of the structure for recreational purposes. Chinking stone is flexible and can settle, etc, along with the structure over time, typically with little or no damage.

DISADVANTAGES:

The use of the more expensive granite (vs locally-produced limerock) is recommended for the chinking stone, due to its greater density and resistance to breaking. The use of this more expensive stone could negate some cost savings. Grout would be added to the chinking stone as it is placed, both to further decrease the permeability of the structure and to bind the chinking stone together so that wave action does not displace the chinking stone outward through voids in the armor stone. This option also increases the cost somewhat, and includes the risk that grout may leak into adjacent waters during construction. Heavily-grouted sections may crack and break over time due to differential settlement, possibly compromising the long term sand-tightness of the structure.

AMERICAN OVERSIGHT



ACTIVITIES TO IMPLEMENT:

Develop cost estimates for chinking/grouting based on revised quantities attached to this proposal.

JUSTIFICATION: The justification for considering this alternative is below.

AMERICAN OVERSIGHT

PROPOSAL NO. P2C (Ideas 2.11, 8.18, 8.14, 8.62, 8.63, 8.49): ***Groin Optimization (Optimize dimensions, use local stone in marine mattresses, reduce sheet pile lengths, selectively shorten groins).***

ORIGINAL DESIGN:

The groin field was designed as an interactive system of structures, working together to stabilize the south end of Lido Key. The number, positions, and lengths of the structures were fine-tuned in the 2004 Feasibility Study, using the numerical shoreline simulation model GENESIS. The end result of this analysis was a system of 3 groins, described as follows. A terminal groin is located at the south end of Lido Key, and its purpose is to anchor the southern end of the island. This structure is 650 feet long, with a portion of the groin extending along the bayside shoreline of the island. The second groin is located 800 feet north of the terminal structure, and extends 440 feet seaward of the +4 ft NAVD contour. The northernmost groin is located 1,400 feet north of the terminal structure, and extends 320 feet seaward of the seawall at that location. All structures are oriented roughly shore-normal, at an azimuth of 235 degrees as measured from north, clockwise. All three groins would be sand-tightened by driving vinyl sheet piling down the centerlines during construction.

PROPOSED DESIGN:

VE proposal 8.49 suggest a re-examination of the lengths of the groins, to determine if any of the structures could be shortened without compromising project performance. A re-analysis of the plan-view layout of the groin system is not the intention of this proposal; Proposal #8.49 is more of a response to changing site conditions since the numerical modeling was performed for the 2004 Feasibility Study. At the time of the shoreline modeling analysis for the 2004 Feasibility Study, aerial photography shows that the offshore positions of the seaward tips of the northern 2 groins were about equal, with each situated about 275 feet seaward of the shoreline position at that time. Since that time the shoreline has been renourished and its position has changed considerably, and the future performance of the groin field could be impacted as a result. Based on current shoreline aerial photography, the position of the seaward tip of the northern groin would be approximately 175 feet from the (2013) waterline, while the position of the seaward tip of the central groin is only about 100 feet from the waterline. By extending the northern (updrift) structure further offshore, this arrangement has the potential to impound large volumes of sediment updrift of the groin field. While beneficial to the shoreline to the north of the groin system, the shoreline within the field could be starved of material until the northern groin becomes fully impounded. Based on the present shoreline position it appears that the northernmost groin could be shortened by up to about 75 feet with no significant loss of performance of the groin field system. This would position the seaward end of the northern groin approximately 100 feet seaward of the waterline, which is the same relative position as the second groin. Shortening this structure could improve performance of the groin field by allowing additional material to bypass the northernmost structure, allowing more material to enter the two shoreline cells contained within the groin field. This layout would provide more effective nourishment of the shoreline along the south end of Lido Key. Essentially, this VE proposal recommends all of the design modifications as described in VE Proposal # P2A, with the only additional change being that the seaward end of the northern groin be shortened by 75 feet.

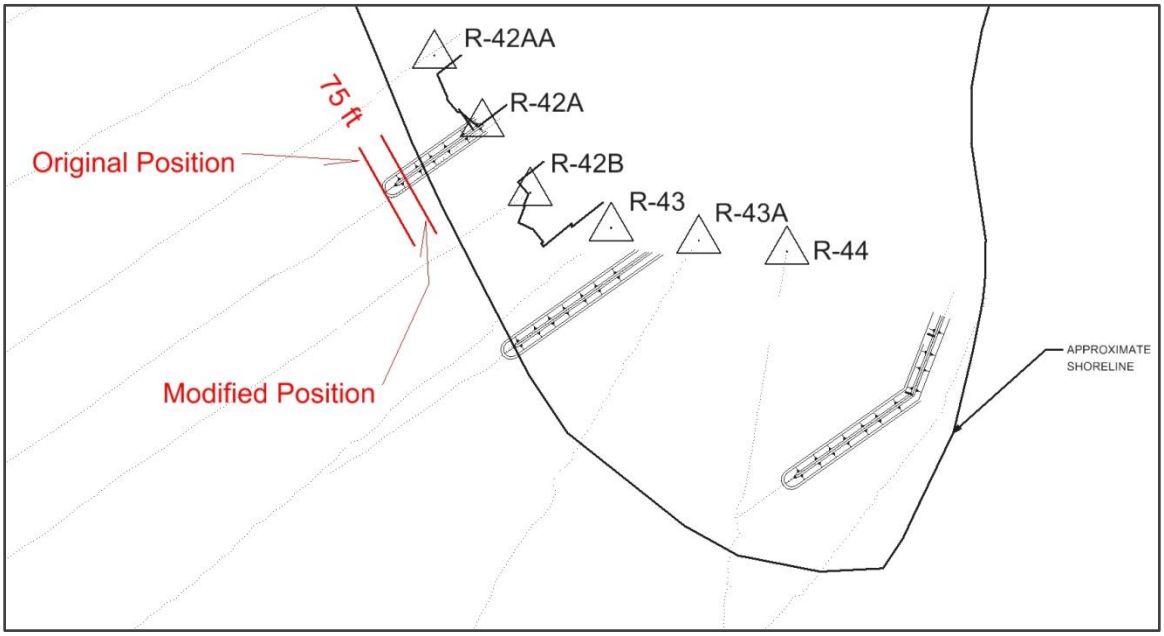
AMERICAN OVERSIGHT

ADVANTAGES:

Incorporation of the proposals described above should still maintain berm widths in excess of the design template to the north (updrift) of the structure, while allowing more material to bypass and nourish the two remaining shoreline cells to the south. Shortening the north groin by 75 feet would reposition the seaward tip of the structure to approximately 100 feet seaward of the waterline, which is the same position as the second groin. This would tend to equalize the bypass rates between the two northern groins, as was the goal of the 2004 design. Additionally, the quantities of materials required to construct the north groin would be reduced substantially. Groin construction would be mostly eliminated through some of the deepest waters observed in the project area.

DISADVANTAGES:

The width of the accreted beach berm north of the northern groin would be reduced accordingly, but would still be well in excess of the 80-foot design template. Increased sediment bypassing would occur, especially during storm events as material bypasses around the seaward tip of the structure due to wave action. However, adequate bypassing is essential to maintaining the downdrift beaches.



ACTIVITIES TO IMPLEMENT:

Obtain consensus from modelers that any reduction in length of the northern groin would not be detrimental to the project.

JUSTIFICATION: The justification for considering this alternative is below.

AMERICAN OVERSIGHT

PROPOSAL NO. P2D (Ideas 2.11, 8.18, 8.14, 8.49): ***Groin Optimization (Optimize dimensions, use local stone in marine mattresses, replace sheet pile with grouted chinking stone, selectively shorten groins).***

ORIGINAL DESIGN:

The three groins would be constructed as rubble-mound structures. Sand-tightening would be achieved using a vinyl sheet pile wall, driven down the centerline of the structure.

PROPOSED DESIGN:

This alternative further refines the design presented for proposal P2B. Specifically, the length of the northernmost groin would be reduced by 75 feet, in accordance with the changing site conditions described in the discussion for Proposal P2C above. All other aspects of the cross-section and plan-view layout would be the same as for Proposal P2B : chinking stone would still be the means of sand-tightening the three structures; the only difference is that the length of the northern groin would be reduced by 75 feet at its seaward end.

ADVANTAGES:

As described for Proposal P2B, chinking and grouting have proven to be effective means of sand-tightening structures, and can result in cost savings. This method is often easier to construct in the field vs the difficulties (and specialized equipment) associated with driving sheet piles in a wave-prone environment. The shortened northern groin would allow greater sand-bypassing to the two shoreline cells at the southern end of the island, and would result in additional savings of materials and cost during construction.

DISADVANTAGES:

Shortening the length of the northern structure by 75 feet would result in a narrowing of the berm width north of the structure by a similar amount, but the resulting berm would still be adequate to provide the desired level of protection.

ACTIVITIES TO IMPLEMENT:

Develop cost estimates for the groin field based on revised quantities attached to this proposal. Obtain consensus from modelers that any reduction in length of northern groin would not be detrimental to the project.

JUSTIFICATION:

AMERICAN OVERSIGHT

PROPOSAL NO. P2E1. (Ideas 2.11, 8.18, 8.14): ***Groin Optimization (Optimize dimensions, use local stone in marine mattresses, replace sheet pile with chinking stone without grout).***

ORIGINAL DESIGN:

The original design for proposal P2B calls for chinking all three structures, then grouting the chinking stone.

PROPOSED DESIGN:

This proposal eliminates the grouting from the chinking for Proposal P2B. There are some opinions that if properly installed the grouting can be eliminated.

ADVANTAGES:

Eliminating the grouting will make the groin installation much easier, faster and less expensive.

DISADVANTAGES:

The structures could become slightly more permeable without the use of grout to seal voids in the chinking layer. This increase in permeability is expected to be minimal however. There is an increased chance that chinking stone could be washed out of the groins and onto adjacent beaches without grout to bind the chinking stone together.

JUSTIFICATION:

If upon further analysis and coordination the grouting can be eliminated, definite savings can be realized through cost savings by removal of the grouting from the bid schedule plus any additional savings associated with shortening the construction schedule.

The Florida Chamber of Commerce's newly elected Chairman of the Board of Directors, Charley Caulkins, will be in town Tuesday, **November 12** and Wednesday, **November 13**, for meetings with executive branch and legislative leaders. He requested that we try and schedule him a brief meeting with Senator Gruters on either day he is town to introduce himself and briefly discuss the 2020 legislative session.

I know this is relatively last minute, but after all the good things he's heard about Joe, he's anxious to meet him. Let me know if you can squeeze him in.

Thank you!

Subject: Please support SB 404/HB 265 Parental Consent Prior to a Minor's Abortion

Dear Senator Gruters,

As a general rule, a parent must consent to a minor's medical treatment. The same should be true for abortion.

Abortion can involve lifelong emotional and physical trauma, especially for minors. Family involvement is critical when making an irreversible decision, especially one that ends a life.

Please sign on as a co-sponsor of SB 404/HB 265 and support the successful passage of this important legislation.

Sincerely,

Victoria Erquiaga

AMERICAN OVERSIGHT

State Protocol Officer (Office of International Affairs) Talking Points:

- State protocol officer functions resided with the Secretary of State as the state protocol officer prior to 2004, when they were transferred to the Office of Tourism, Trade and Economic Development within the Office of Governor.

- In 2011, some functions were delegated to the newly created Department of Economic Opportunity while the majority became duties of a state protocol officer to be named by the Governor and to be housed within the EOG.

- This bill returns certain state protocol officer and intergovernmental relations functions back to the Secretary of State.

- Bill requires (1) FTE at $117,896 for FY 20-21. Which has been included in the Governor's recommended budget.

- The bill removes the purpose statement of the sister city and sister state program and makes discretionary certain activities thereunder such as establishing new programs as needed.

- The bill removes issuing certificates to foreign governmental officials after verification pursuant to proper investigations through the United States DOS and the appropriate foreign government.

- The bill removes verifying entitlement to sales and use tax exemptions pursuant to the United States DOS guidelines and identification methods.

- The bill removes maintaining a current and accurate listing of all such affiliations.

- Lastly, the bill removes the language prescribing certain parameters on the sister city and state affiliations.

Cc: Kerr, GeeDee <Kerr.GeeDee@flsenate.gov>
Subject: FW: SCHEDULE- FEDC 2020 Florida Economic Development Week February 9-15

Greetings Senator Gruters.

The Florida Economic Development Council would again like to invite you to return as the host of the Capitol press event announcing Florida Economic Development Week. The press event will take place Thursday, Feb 6, preferably outside the Senate Chambers. However, this year session will have begun, whereas last year, we were in committee weeks. Our intention is to partner with the Association of Florida Colleges Council of Presidents as we did last year. It was a tremendous event that received great press coverage and launched a week of social media highlighting the impact of economic development in Florida. Photos from last year are attached.

Ideally, FEDC would like to schedule a call or a meeting with Senator Gruters to plan the press event. Would very much like to get his support in inviting a House member to join him in providing resolutions in support of Florida Economic Development Week. Another new component this year, is the interest of the Governor's office to potentially participate in the press event. This could be in the form of a resolution and/or remarks from Jamal Sowell.

Here is a link to the FEDC Feature in Expansion Solutions magazine. It is a great piece that showcases the reach and impact of FEDC in improving Florida communities and elevating Florida's global competitiveness. https://expansionsolutionsonline.advanced-pub.com/?issueID=39&pageID=80

Thanks for your consideration, and for all you are doing to prosper Florida citizens.

Thank you, Mark. Josh, we are looking at Thursday Feb 6 for the Capitol Press Event to launch Florida Economic Development Week, which is planned for Feb 9-15. How does this date look for Senator Gruters? Once we have confirmation from your office, we can work with the Sergeant at Arms to schedule the appropriate Capitol location. I can supply a copy of the 2019 resolution presented by Senator Gruters if need be.

Thank you,

Beth

Subject: FW: SCHEDULE- FEDC 2020 Florida Economic Development Week February 9-15

Greetings Senator Gruters.

The Florida Economic Development Council would again like to invite you to return as the host of the Capitol press event announcing Florida Economic Development Week. The press event will take place Thursday, Feb 6, preferably outside the Senate Chambers. However, this year session will have begun, whereas last year, we were in committee weeks. Our intention is to partner with the Association of Florida Colleges Council of Presidents as we did last year. It was a tremendous event that received great press coverage and launched a week of social media highlighting the impact of economic development in Florida. Photos from last year are attached.

Ideally, FEDC would like to schedule a call or a meeting with Senator Gruters to plan the press event. Would very much like to get his support in inviting a House member to join him in providing resolutions in support of Florida Economic Development Week. Another new component this year, is the interest of the Governor's office to potentially participate in the press event. This could be in the form of a resolution and/or remarks from Jamal Sowell.

Here is a link to the FEDC Feature in Expansion Solutions magazine. It is a great piece that showcases the reach and impact of FEDC in improving Florida communities and elevating Florida's global competitiveness. https://expansionsolutionsonline.advanced-pub.com/?issueID=39&pageID=80

Subject: [EXT] Senator Gruters constituent Fred Nassar re: Amateur Radio Special License Plate

Good morning Jennifer:
Our constituent has a question,,pls see below e-mail
Name: Fred Nassar
Address: **1336 Natrona Dr.North Port, FL 34286**
Tel # 903-204-2666

Please let me know if you need anything further from me.
Thank you.
GeeDee

Dear Senator Gruters:
I wrote the Department back in November concerning an issue I was having obtaining an amateur radio specialty plate for my vehicle. Currently, my assigned FCC call sign is currently in use and the Department is not inclined to recall or re-issue the plate. I went back and looked at the statute (provided below for your convenience) again and wanted to suggest another way to have an amateur radio specialty plate issued to my vehicle that includes my call sign. I would like to get your feedback to see if the Department would issue such a plate without going through a vanity plate. My suggestion is to issue the **amateur specialty plate** with my call sign preceded with a prefix. That way the tag is unique and still contains my call sign and would meet the statute. I would propose the plate "CQ KE4Q" . Is this something the Department would approve, and if so would I be able to make application through the local DMV office?

Thank you,
Fred Nassar

20.083 Amateur radio operators; special license plates; fees.—

(1) A person who is the owner or lessee of an automobile or truck for private use, a truck weighing not more than 7,999 pounds, or a recreational vehicle as specified in s. 320.08(9)(c) or (d), which is not used for hire or commercial use; who is a resident of the state; and who holds a valid official amateur radio station license recognized by the Federal Communications Commission **shall be issued a special license plate upon application**, accompanied by proof of ownership of such radio station license, and payment of the following tax and fees:

(a) The license tax required for the vehicle, as prescribed by s. 320.08(2), (3)(a), (b), or (c), (4)(a), (b), (c), (d), (e), or (f), or (9); and

(b) An initial additional fee of $5, and an additional fee of $1.50 thereafter.

(2) The license plate issued shall meet the requirements of s. 320.06, **except that, in lieu of the numbers as prescribed by s. 320.06, it shall be inscribed with the official amateur radio call letters of the applicant, as assigned by the Federal Communications Commission,** including as a prefix, when applicable, those call letters assigned by the Armed Services of the United States of America, not to exceed eight characters. In lieu of the name of the county or the designation “Sunshine State” on the bottom of the plate as prescribed in s. 320.06, the words “Amateur Radio” shall be inscribed.

(3) All applications for such plates shall be made to the department.

320.06(6) F.S.

(6) All license plates issued pursuant to this chapter are the property of the state.

> Our Department does comply with statute to issue amateur radio license plates, however, we do not issue plates with the same configuration. I did speak to Paula, our specialty and special license plate expert (whom you have previously spoken to). The Department does typically recall plates that are deemed offensive or plates where the applicant no longer meets statutory criteria to possess them, but it is not regular practice to recall plates for other reasons.
> Since this request was asking the Bureau of Issuance Oversight to go beyond common practices and procedures, I felt it warranted

AMERICAN OVERSIGHT

review by the Director of Motorist Services, Robert Kynoch. He understood your concern and considered the request. Ultimately, since your request would greatly inconvenience another constituent who has done nothing in this case to warrant the action, he decided against fulfilling your request to recall their plate. The desired configuration may come available in September of 2029, unless the other driver changes their plate of their own volition before that time.

Respectfully,

Patrice DeVore
Legislative Liaison
Office of Legislative Affairs
Department of Highway Safety and Motor Vehicles

Subject: [EXT] Amateur Radio Special License Plate

Ms. Hatcher, I was referred to you as someone who could, or put me in touch with someone who may be able to help me resolve an issue I am having with obtaining an amateur radio license plate under F.S. 320.083 for my vehicle.

Here is my problem: I am the current holder of the FCC issued amateur radio call sign KE4Q. I understand this configuration is already in use on an Enduring Freedom specialty plate. I also understand that this was a random Department issued plate (e.g. not a vanity/personalized plate). The statute below (I have highlighted pertinent sections) indicates the Department shall issue a special license plate upon application, showing proof of license and paying applicable fees. I have spoken to your staff at the local tag office and in Tallahassee and they are telling me that the Department will not recall a tag already in use to accommodate my request.

I can not find anything in the F.A.C. or F.S. that addresses this conflict. However, Section 320.06(6) indicates all plates are property of the State and it seems that the Department has the authority to recall a tag. This is certainly true with offensive personalized plates. I would like to appeal this to someone and ask the Department to comply with the Statute. Since the configuration I am seeking is not a personalized plate, it seems logical that the plate in question could be recalled and reissued with another configuration for the current registration holder. Thus, allowing you to comply with the Statue and my request.

I look forwarded to hearing back from you. I have also copied my local representative in the hopes that my request can be evaluated further.

Thank you,
Frederick Nassar
1336 Natrona Dr.
North Port, FL 34286

320.083 Amateur radio operators; special license plates; fees.—

(1) A person who is the owner or lessee of an automobile or truck for private use, a truck weighing not more than 7,999 pounds, or a recreational vehicle as specified in s. 320.08(9)(c) or (d), which is not used for hire or commercial use; who is a resident of the state; and who holds a valid official amateur radio station license recognized by the Federal Communications Commission shall be issued a special license plate upon application, accompanied by proof of ownership of such radio station license, and payment of the following tax and fees:

(a) The license tax required for the vehicle, as prescribed by s. 320.08(2), (3)(a), (b), or (c), (4)(a), (b), (c), (d), (e), or (f), or (9); and

(b) An initial additional fee of $5, and an additional fee of $1.50 thereafter.

(2) The license plate issued shall meet the requirements of s. 320.06, except that, in lieu of the numbers as prescribed by s. 320.06, it shall be inscribed with the official amateur radio call letters of the applicant, as assigned by the Federal Communications Commission, including as a prefix, when applicable, those call letters assigned by the Armed Services of the United States of America, not to exceed eight characters. In lieu of the name of the county or the designation "Sunshine State" on the bottom of the plate as prescribed in s. 320.06, the words "Amateur Radio" shall be inscribed.

(3) All applications for such plates shall be made to the department.

320.06(6) F.S.

(6) All license plates issued pursuant to this chapter are the property of the state.

Subject: RE: Subrogation impacting Florida Communities

Matt: Thank you very much for your detailed email. For the Representatives on this email I can back up what Matt is saying 100%. I have been specializing in the Community Association industry for 15 years and my partner Negar and I insure over 500 condo associations through out the State. I have been heavily involved with CAI (Community Association Institute) on the local and National level as well. This homeowner carrier subrogation issue is causing real harm to associations. Two quick points I would add below for you all to consider…

- **AOB Fight:** As you all know there was a lot of pressure from insurance carriers to pass AOB legislation due to what the carriers felt were unfair practices that were hurting the carrier's ability to do business in the State. I find this issue to be very similar and creates a hypocritical position for the carriers. The carriers that are pursuing this subrogation are absolutely taking advantage of a loop hole in the law that shouldn't be there that only serves their interest. Very similar to how they felt about the law firms pushing the AOBs.

- **Carriers Argument to Keep It:** I have yet to hear any insurance carrier provide a compelling reason why they need to keep the ability for this subrogation in the law the way it is currently constructed. I also have no idea how carriers that are practicing this can defend it and I bet they wouldn't want to publicly because it plays horribly. It is absolutely self-serving and in the end defeats the purpose of the insurance policy. They are an insurance carrier in place to pay property insurance claims. The ability to blindly subrogate any claim paid regardless of fact to recoup whatever payments you can is nothing more than an opportunistic money grab. I have seen them do this on claims in the Panhandle with Hurricane Michael. How is the condo association negligent or responsible for a Category 5 hurricane causing damage to the interior of a condo unit? To me situations like the Hurricane Michael claim subrogation shows exactly what this is about. The carriers aren't even looking at the merits of these cases, they are just subrogating everything because they can. See details of one of these below that should tell you everything you need to know…

Subject: Subrogation impacting Florida Communities

AMERICAN OVERSIGHT

Importance: High

Good Morning Senator Gruters, Representative Buchanan, and Representative Webb,

First and foremost, thank you for everything you do for the Great State of Florida. As a native of Florida, I am grateful for the blood, sweat and tears you put into serving the people of Florida.

I am writing you this morning to voice my concerns about the insurance subrogation issue in the State of Florida. In the past week alone, I've had three separate associations in Sarasota and Manatee Counties served with a demand letter from the insurance company Universal.

A few years ago, when rewriting the condominium law, changes were made to the special assessments and other association's issues, and the *waiver of subrogation* was to be moved to an insurance bill, but it was overlooked. This oversight allows the condo unit owners insurance carrier, that writes an HO-6 policy, to sue the associations and is now producing thousands of subrogation claims against condominium associations throughout the State of Florida.

These demands claim negligence on behalf of the associations and that the association is responsible for these damages due to the association's negligence in maintaining these common area pipes, which is not reasonable for an association to constantly maintain and replace piping behind the walls. The majority of claims are from sudden and accidental water damage, the most common case of loss for condominium associations. Many of these claims are filed years after the water damage event, which makes them impossible for the associations' general liability insurance carriers to inspect and adjust.

To be clear, the HO-6 or unit owners policy's carrier is collecting premiums from the owners to provide coverages for water damage claims, per the terms of their policy. All is good, until the association receives a suit or demand notice from the HO-6 carrier for the damages they have paid under the terms of their own policy.

Every owner is an additional insured on the association's policy; therefore, the suit/demand is being made against that same owner that received payment that is now being subrogated against. Full circle, the HO-6 insurance company wins, and their profits soar. Ultimately, the unit owner who is a member of the association is penalized as their association's dues now increase and they might be unaware that their unit owner carrier has caused this to happen.

This practice of subrogation as stated above is ***not*** performed by the majority of the HO-6 insurance carriers and is used on a limited basis when negligence may be apparent by the responsible party.

In the beginning, many association's carriers were paying the demand from the HO-6 carrier at first in order to avoid going to court without further investigating the demand and determining if their insured was negligent. This has led to the HO-6 carrier sending demand letters on almost all HO-6 claims they receive, even if there was not negligence on the association's part.

In addition, these few HO-6 carriers that are subrogating, also refer their own contractors to make the repairs. The number one claim for condominium associations is water damage, it's a sweet sound to those carriers that take the unit owner's premium, make money on the repairs, and subrogate against to the association for their "losses." How is this not a conflict of interest?

The premium increases and/or lack of liability coverage for the association has become a huge issue. As a result of the increased frequency of subrogation claims, the costs for carriers to defend a rise in water damage claims, is becoming the association's problem from their unit owners. At this time, associations are seeing 15-30% increases on their general liability and the premiums will continue to climb. Eventually the demand for subrogation will cause the general liability carriers to impose a large deductible or in the case of Mt. Hawley just exclude water damage altogether. Consumers owning condominiums will in turn have to self-insure and will feel the effects through higher association dues or imposed special assessments. This may lead to consumers not purchasing condominiums due to the high association dues and potential for large association assessments.

Below, I have provided a detailed analysis of the subrogation issue in Florida.

Subrogation History

1. In 2010, legislature made a change to FS 718.111 (11) (g) section about unit owner coverage wording that prohibited a unit owner's policy from subrogating against the condominium association in which their unit is contained in. This section was moved to FS 627.714 and the subrogation language was left out on the move so the current language is silent on the topic.
2. Starting in 2016, HO-6 carriers caught on to this change and began to start subrogating against associations on almost all water damage claims. Claims starting coming in for subrogation against associations on incidents that occurred all the way back to 2012 at this time.
3. During this time, almost all HO-6 carriers had language in their policy contract still stating they would not subrogate against the associations matching the statute that was changed back in 2010.
4. In 2016, most of the HO-6 carriers started filing form changes to remove this subrogation language preventing them from subrogation against the association.
5. Since the form changes, HO-6 carriers have become more aggressive with subrogation against the condominium associations.
6. Condominium associations are not lender compliant if they have the ability to subrogate against a unit owner in the coverage forms, which is often checked and required by lenders.
7. The solution is to amend the Florida Statute 627 language to amend language so that neither the association nor the unit owner

AMERICAN OVERSIGHT

carriers can subrogate against each other.

Subrogation Process//Difficulty for Association Carriers to Adjust

1. HO-6 carrier sends letter to pay back damages for the HO-6 carrier paid.
2. Association carrier is sent first notice of loss and they are typically a year or so after.
3. Primarily water damage claims, which is the most common type of loss for this class of business.
4. Association's carrier requests information such as full details of the claim, documentation, photos, copies of service providers' information, and copies of the HO-6 policy.
5. HO-6 carrier refuses to provide information, offers a quick way out which is settlement and threatens suit if not paid.
6. HO-6 carrier rarely provides the information to prove the association is negligent.
7. HO-6 carrier e-files lawsuit at minimal cost to them.
8. Association has to get an attorney involved, which typically costs $4K on the average.
9. Negligence still hasn't been proven by HO-6 carrier but costs are rising to adjust the claim.
10. Carrier will back down if the association's declaration of covenants do not allow for the unit owner to subrogate against the association.

Examples of subrogation Claims That Show No Negligence Against the Association:

EX. 1: Subrogating for water damages caused by Hurricane Irma, especially potential water damage issues caused by the roof failing from the high winds.

EX. 2: Subrogating for water damages caused by a unit owner's hot water heater bursting in the unit above.
EX. 2.1: In one case, the unit owner's water heater was over fifteen years old when it burst. The association has a policy in place that any water heater over ten years old must be replaced by the individual owner. The HO-6 insurance company still subrogated against the association even though they weren't negligent.

EX. 3: Contractor renovating a unit for a unit owner shoved blue towels down the drain lines causing a sewer backup.

EX. 4: Water damage on a 4th floor unit claimed to be caused by failure to maintain the roof. Building is six stories and no other units surrounding this 4th floor unit sustained water damage.

EX. 5: Subrogation demand made against association for allowing upstairs unit owner to hire contractor that caused damage to downstairs unit. Contractor was licensed and insured.

EX. 6: Carrier filed a subrogation action against an association for an alleged water intrusion through a window resulting from the irrigation system spraying at the building for many years. Unit had been vacant for some time because the owner had moved to an assisted living facility. The window maintenance was the responsibility of the unit owner and the window was found to be 25 years old, never maintained. The carrier demanded reimbursement from the association for a full mold remediation of the unit, along with personal belongings.

Influx of Subrogation Claims by the Numbers

In the last year, sample carrier received 232 claims which on average costs $4,200 a claim. The frequency of claims have more than doubled over the past 12 months than years before. There are approximately 6 insurance carriers actively writing liability coverage for Florida condominium associations. We would expect that those carriers are receiving similar if not more claims than the sample carrier since the sample carrier has done a good job of making it more difficult on the HO-6 carrier to want to subrogate against insureds and have been successful with getting them closed out or the suit dismissed. The influx of liability claims for subrogation has a result of almost $6M of loss adjustment expense into the liability market for association risks.

Why should this be a concern for associations?

The majority of claims are from sudden and accidental water damage, the most common case of loss for condominium associations. Many of these claims are filed years after the water damage event, which makes these claims impossible for the associations' general liability insurance carriers to inspect and adjust with the proper information.

To be clear, the HO-6 or unit owners' insurance carrier is collecting premiums from the owners to provide coverages for water damage claims per the terms of their policy. All is good, until the association receives a suit or demand notice from the HO-6 carrier for the damages they have paid under the terms of their own policy.

Every owner is an additional insured on the association's policy; therefore, the suit/demand is being made against that same owner that received payment that is now being subrogated against. Full circle, the HO-6 insurance company wins, and their profits soar. Ultimately, the unit owner, who is a member of the association, is penalized as their association's monthly assessments now increase and they might be unaware that their unit owner carrier has caused this to happen.

In addition, these few HO-6 carriers that are subrogating often refer their own contractors to make the repairs. Since the number one claim for condominium associations is water damage, it's a sweet sound to those carriers that take the unit owner's premium, make money on the repairs, and subrogate against to the association for their "losses."

The premium increases and/or lack of availability to obtain liability coverage for the associations has become a huge issue, as a result of

AMERICAN OVERSIGHT

the increased frequency of subrogation claims costing carriers to defend. At this time, associations are seeing 15-30% increases on their general liability premiums and with continued subrogation claims flowing in the premiums will continue to climb. Eventually the demand for subrogation will cause the general liability carriers to impose a large deductible or just exclude water damage from their policy. If this happens, consumers owning condominiums will in turn have to self-insure and will feel the effects through higher association monthly assessments or imposed special assessments to cover the deductibles. This may lead to consumers not purchasing a condominium unit due the potential of high association monthly assessments and potential for large association assessments that are not expected.

What is the solution?
Suggested language so that it is fair to both the HO-6 carriers and the association carriers:

Subsection (4) of section 627.714 Florida Statutes, is amended to read:
Residential condominium unit owner coverage; loss assessment coverage required-
(4) Every individual unit owner's residential property policy must contain a provision stating that the coverage afforded by such policy is excess coverage over the amount recoverable under any other policy covering the same property. If a condominium association's insurance policy for the association does not provide rights for subrogation against the unit owners in the association, an insurance policy issued to an individual unit owner located in the association may not provide rights of subrogation against the condominium association.

If your schedules permits, I would like to arrange a meeting in the next week to discuss the subrogation issue in greater detail. 2020 is the year of action on the subrogation issue. If this issue is not addressed, it will have a long term effect on community associations in Florida. It is worth noting that Florida has the most community associations out of any other State in the country.

If you have any questions or concerns, please do not hesitate to contact me.

Take care,

Matt

Victoria,

Attached is a bill and talking points that we discussed with the Senator when he met with our swimming pool folks. Kyle in McClure's office has placed it into bill drafting on his end. Below are the talking points and attached bill language for you. Please call me should you have any questions prior to filing.

-C

AMERICAN OVERSIGHT

23-00833-20

A bill to be entitled

An act relating to specialty contracting services; amending s. 489.117, F.S.; authorizing certain persons under the supervision of specified licensed contractors to perform certain specialty contracting services for commercial or residential swimming pools, hot tubs or spas, or interactive water features; providing that such supervision does not require a direct contract between specified persons; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (e) is added to subsection (4) of section 489.117, Florida Statutes, to read:

489.117 Registration; specialty contractors.—

(4)

(e) Any person who is not required to be certified or registered under s. 489.105(3)(d)-(i) or s. 489.105(3)(m)-(o) may perform specialty contracting services for the construction, remodeling, repair, or improvement of commercial or residential swimming pools, hot tubs or spas, or interactive water features, as defined in the Florida Building Code, without obtaining a local contractor license or specialty license if such person is under the supervision of a person who is certified or registered under s. 489.105(3)(j)-(l), provided that the work is within the scope of the supervising contractor's license. Such supervision does not require a direct contract between a person certified or registered under s. 489.105(3)(j)-(l) and the person performing

Subject: Re: test

Dear Senator Gruters,
My name is Julie Michelle Cable. My birth name is Julie Michelle Brown.
I have been a resident here of Sarasota County living mostly in Venice for 56 years. I was born in Alabama and lived with my biological mother who then married and that man(became my step father) Wayne Freeman adopted me, changing my last name to Freeman. It appears though that my birth certificate was never amended to support the name change as expected.

I am reaching out to you on the advise of my brother who tells me that instead of approaching a constitutional attorney I should start with the Senator for my area. I hope you can help me, I am at my wits end with searching for resolution.

My driver's license expired November 2019. Upon renewal procedure the Department of Motor Vehicles has advised me that they cannot renew my driver's license due to the fact that my birth certificate is not the correct name to be in line with the paper trail of who I am. My first driver's license was issued with Freeman being my last name around 1977-78 ...they should have record of that.....I have all the papers in line to show my name changes from that point to this current day....(ie: marriage, divorce). My parents are elderly and totally uncooperative .....they are telling me that the adoption record papers were stolen.

Due to this invalid license a hardship is being created because I cannot open a bank account without a valid license. I have a company newly registered with the State of Florida for home inspecting and I cannot get the first job because I cannot open a bank account. I need your help please. This new business is so I can support my family. I have lived here in Sarasota County since I was 1 year old.....every registration of my vehicles, purchasing a home, a passport have all taken place in this county.
The following is pertinent information to who I am and how I can be reached.
Julie Michelle Cable
340 Glen Oak Rd.
Venice, FL 34293

Phone 941-525-6311

email : cablejmichelle@gmail.com

I grew up on Shamrock Dr in South Venice....spent 17 yrs there and then moved about for a few years, then I purchased a home 1821 Faun Rd. where I lived for almost 30 years.....I have been on Glen Oak rd in Venice Gardens for approx 5 years.

I am happy to answer any questions for you.
Desperate for help,
Julie Michelle Cable

Committee/Subcommittee hearing bill: Commerce Committee
Representative Goff-Marcil offered the following:

Amendment (with title amendment)

Between lines 60 and 61, insert:

Section 2. Section 509.113, Florida Statutes, is created to read:

509.113 Certain registration for vacation rentals.—A sexual offender as defined in s. 944.606(1)(f) must register at the sheriff's office in the county in which the sexual offender is temporarily residing pursuant to s. 775.21 at least 48 hours before arrival at the vacation rental, regardless of the length of stay. A vacation rental owner or operator who rents a vacation rental to a sexual offender must notify all property owners within 1,000 feet of the vacation rental property at least 24 hours before the sexual offender's arrival. The

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002298

division may fine, suspend, or revoke the license of any owner or operator of a vacation rental if such owner or operator is not in compliance with the requirements of this section. Any advertisement for a vacation rental posted online must prominently display the physical address of the vacation rental and a link to a website created by the Department of Law Enforcement pursuant to s. 943.043 to notify the public of any information regarding sexual offenders. Such advertisement must prominently display a link to s. 943.0435 and include the following statement: "Every sexual offender intending to temporarily reside at a vacation rental in Florida is required by Florida law to register in accordance with section 509.113, Florida Statutes."

T I T L E A M E N D M E N T

Remove line 6 and insert:
exception; creating s. 509.113, F.S.; requiring sexual offenders to register with the sheriff's office of the county in which they will be temporarily residing in a vacation rental within a certain timeframe; providing requirements for such registration; requiring an owner or operator of a vacation rental to notify specified property owners within a certain timeframe; providing penalties;

Senate . House

. . . . .

The Committee on Commerce and Tourism (Gruters) recommended the following:

Senate Amendment to Amendment (758236) (with title amendment)

Delete lines 20 - 22
and insert:
Section 2. Subsection (9) of section 509.221, Florida Statutes, is amended to read:
509.221 Sanitary regulations.—
(9) Subsections (2), (5), and (6) do not apply to any facility or unit classified as a ~~vacation rental,~~ nontransient apartment~~,~~ or timeshare project as described in s. 509.242(1)(d)

AMERICAN OVERSIGHT

and (g), respectively ~~s. 509.242(1)(c), (d), and (g)~~. Paragraph (2)(a) does not apply to a vacation rental.

Section 3. Paragraph (a) of subsection (2) and subsection (7) of section 509.032, Florida Statutes, are amended to read:

509.032 Duties.—

(2) INSPECTION OF PREMISES.—

(a) The division has jurisdiction and is responsible for all inspections required by this chapter. The division is responsible for quality assurance. The division shall inspect each licensed public lodging establishment at least biannually, except for transient and nontransient apartments, which shall be inspected at least annually. Each establishment licensed by the division shall be inspected at such other times as the division determines is necessary to ensure the public's health, safety, and welfare. The division shall adopt by rule a risk-based inspection frequency for each licensed public food service establishment. The rule must require at least one, but not more than four, routine inspections that must be performed annually, and may include guidelines that consider the inspection and compliance history of a public food service establishment, the type of food and food preparation, and the type of service. The division shall reassess the inspection frequency of all licensed public food service establishments at least annually. Public lodging units classified as ~~vacation rentals or~~ timeshare projects are not subject to this requirement but shall be made available to the division upon request. If, during the inspection of a public lodging establishment classified for renting to transient or nontransient tenants, an inspector identifies vulnerable adults who appear to be victims of

AMERICAN OVERSIGHT

neglect, as defined in s. 415.102, or, in the case of a building that is not equipped with automatic sprinkler systems, tenants or clients who may be unable to self-preserve in an emergency, the division shall convene meetings with the following agencies as appropriate to the individual situation: the Department of Health, the Department of Elderly Affairs, the area agency on aging, the local fire marshal, the landlord and affected tenants and clients, and other relevant organizations, to develop a plan that improves the prospects for safety of affected residents and, if necessary, identifies alternative living arrangements such as facilities licensed under part II of chapter 400 or under chapter 429.

Joe,

Happy New Year! Hope you are doing well.

I sent a message through the Senate website and to your Senate email address requesting an appointment for next Tuesday (1/21/2020). I am traveling with the Brevard County Chambers to Tallahassee and wondering if you have availability for a short appointment with our group?

Thanks,

Subject: Urgent Response HB1011 & SB1128 Short-Term Rentals

To All Honorable State Senators and State Representatives,

I am contacting you today to urge you to **OPPOSE HB 1011 and SB 1128 as currently drafted** . At a minimum, meaningful registration and data reporting by short-term rental operators and platforms should be required, as it is for every other commercial enterprise in the state. Not only does fail to do that but these bills nullify the few sensible rules that are protecting communities from being overrun by illegal hotels.

Please HB 1011 and SB 1128 and protect our state's residential neighborhoods.

Sincerely, a concerned Clearview Oaks Condominium Association's Board of Directors

Respectfully,

Mitch Lucas LCAM

Good morning Vickie,

I received these documents this morning from a contact that I have and wanted to share them. I was hoping you could help me understand the newborn screening actions by state document. Looking forward to meeting a little later this morning 😁

Hi Nicole,

You are more than welcome to stop by. The Senator has two bill presentations at 10 AM so I am not sure what it will look like in the AM. If not, I am happy to meet with you after the Health Policy meeting.

Thanks!
Vickie

Sure. That should work.

Would you be available to meet with Savannah and I tomorrow morning prior to the health policy committee meeting?

Thanks!

Nicole

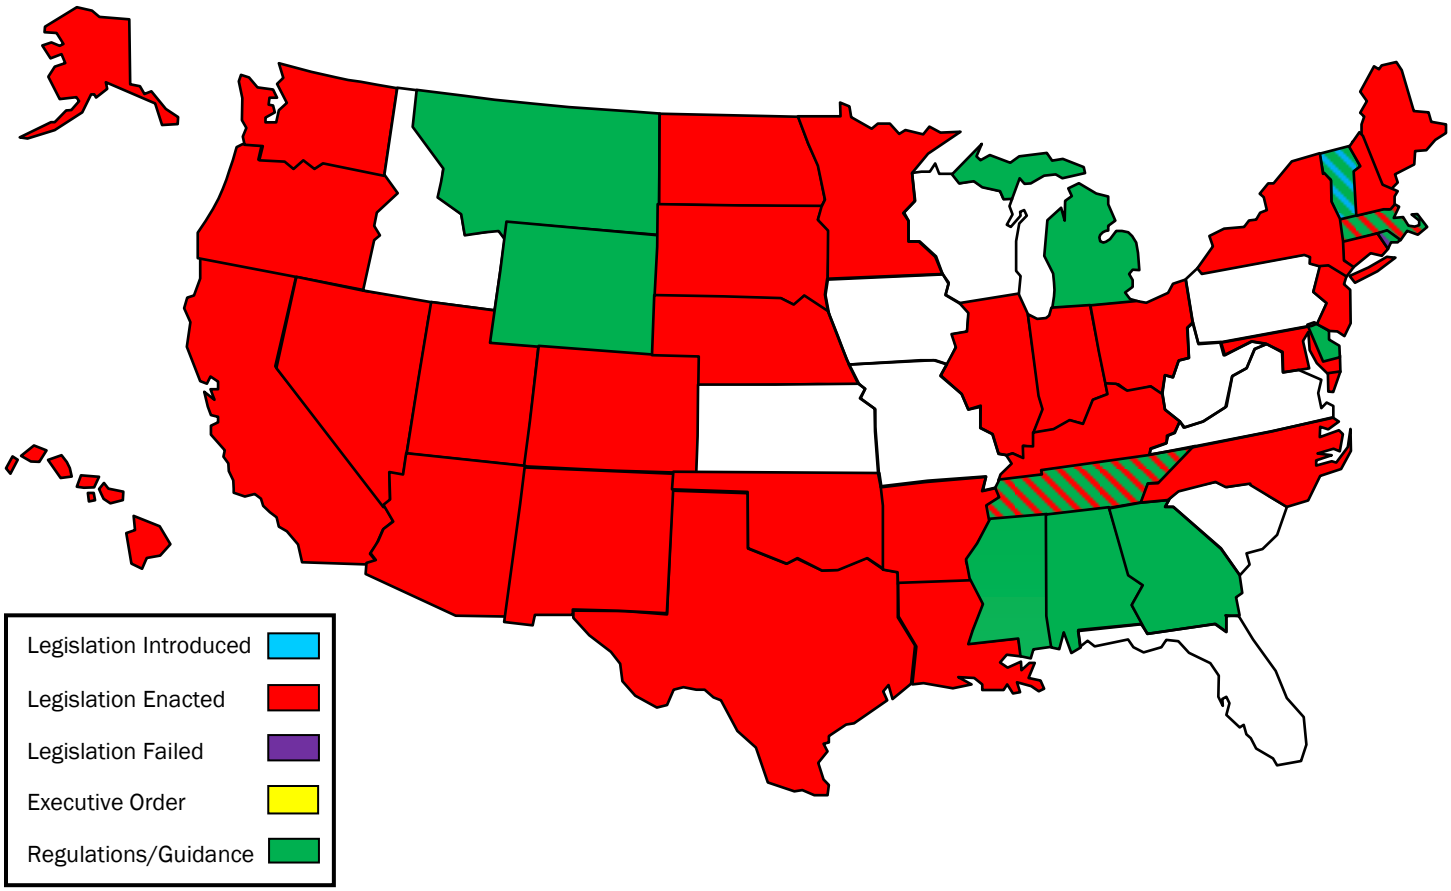
Hi Nicole,

Are you available to meet with Chestin Goodman, who works for Sen. Bean at 2 p.m. on Wednesday? Unfortunately, Sen. Bean is unable to meet this week but Chestin will be able to relay the story and convey the information about SB 518.



Thank you!
Vickie

CDC's National Center on Birth Defects and Developmental Disabilities (NCBDDD)

Improving the Health of People Across the Lifespan:

NCBDDD'S CONGENITAL HEART DEFECTS TRACKING AND RESEARCH

NCBDDD is committed to helping individuals with congenital heart defects in each phase of life, through public health tracking, research and prevention.

WHAT'S THE PROBLEM?

Congenital heart defects are **common, costly, and critical** conditions that affect people throughout their lives.

Every **15 minutes**, a baby is born with a congenital heart defect in the United States.

In 2013, hospital costs exceeded **$6 billion** to care for children with congenital heart defects.

More than **2.4 million** U.S. children and adults are living with congenital heart defects.

About **20-30%** of people with congenital heart defects have other physical problems or problems with achieving skills, learning, or understanding.

WHAT'S THE SOLUTION?

NCBDDD is learning more about congenital heart defects through public health **tracking** and **research** to develop interventions to help prevent congenital heart defects and **improve** the lives of those living with these conditions.

NCBDDD has worked with programs to **evaluate and conduct newborn screening for critical congenital heart defects** and conducted a cost-effectiveness analysis.

About **1 in 4** babies with congenital heart defects have critical congenital heart defects that might be identified through screening by pulse oximetry.

NCBDDD funds 14 state programs to **track birth defects**, including congenital heart defects.

Pooling data across states helps us see the national picture. For example, we know that **more than 1,600** U.S. babies are born with tetralogy of Fallot (a critical congenital heart defect) each year.

NCBDDD funds several **research centers** across the nation to help understand the **causes** of birth defects, including congenital heart defects.

For example, we found a **2-fold** increased risk for hypoplastic left heart syndrome (another critical congenital heart defect) in babies of mothers who took opioid pain medications early in pregnancy.

NCBDDD expanded **tracking** to look at health issues and needs for people **of all ages** living with congenital heart defects.

NCBDDD launched **CH STRONG,** a survey of adults living with congenital heart defects.

While we have learned a lot, much work remains. For more information on congenital heart defects, visit **www.cdc.gov/heartdefects.**

Saving Babies | Helping Children | Protecting People | Improving Health

AMERICAN OVERSIGHT
Ft-SEN-20-0201-B, 20-0202-A-002327

CDC's Tracking and Research for the Prevention of Congenital Heart Defects

CDC is working with partners to identify the causes of congenital heart defects (CHDs) and learn more about how to prevent them. We want to learn more about individuals living with CHDs and identify strategies to improve their health.

Understanding Congenital Heart Defects

CHDs are conditions present at birth that can affect the structure of a baby's heart and the way it works. They are the most common type of birth defect.

- Nearly 40,000 infants in the United States are born with a CHD each year.
- CHDs are a leading cause of birth defect-related infant death during the first year of life.
- In 2013, hospital costs to care for children with CHDs exceeded $6 billion.
- About 1.4 million adults and 1.0 million children in the United States are living with CHDs.

Tracking Congenital Heart Defects

CDC supports state-based birth defects tracking systems to collect information about many birth defects, including CHDs. Information on children with CHDs obtained from these systems is used to:

- Understand their characteristics.
- Identify disparities in health and survival.
- Plan for services across the lifespan.
- Help to ensure they receive necessary medical care and services.
- This information provides a basis for research studies designed to identify potential causes of CHDs and find ways to prevent them.

Identifying Preventable Causes

The Centers for Birth Defects Research and Prevention (CBDRP) are CDC-funded research centers examining the causes of birth defects, including CHDs.

- The CBDRP collaborate on two large studies: the National Birth Defects Prevention Study (NBDPS) and the Birth Defects Study To Evaluate Pregnancy exposureS (BD-STEPS). These studies can help to identify the possible causes of birth defects with a focus on risk factors that can be changed.
- For example, CBDRP researchers have learned that women who are obese, use tobacco and/or take certain medications have an increased risk of having a baby with a CHD. Changing these risk factors may hold promise for preventing some CHDs.

Although researchers are learning more about CHDs and their risk factors, the causes of most CHDs are unknown and more research is needed.

Newborn Screening for Critical Congenital Heart Defects

Of the 40,000 babies born each year with a CHD in the United States, about 7,200 have a critical CHD (CCHD),which are some of the most serious types of CHDs. Babies with a CCHD usually require surgery or catheter procedure in the first year of life. CCHD newborn screening has been implemented in nearly every state.

- States that require CCHD screening have 33% fewer infant deaths from CCHD compared to states without screening requirements.
- CCHD screening is projected to save at least 120 babies each year in the United States.
- CDC is working with partners to better understand how newborn screening is impacting the lives of those with CCHD.

Congenital Heart Defects across the Lifespan

As medical care and treatment have advanced, babies with CHDs are living longer and healthier lives, many into adulthood. Although this is remarkable progress, it presents new challenges to meet the special needs of these individuals. CDC is working to learn the number of people living with CHDs and to collect information about their long-term health outcomes, healthcare costs, and quality of life. This information can help identify opportunities to support the health and wellness of all persons living with CHDs.

- In 2012, CDC received funding to track adolescents and adults with CHDs. From 2012--2015, CDC worked on a pilot project with Emory University in Georgia, the New York State Department of Health, and the Massachusetts Department of Public Health to develop population-based tracking of adolescents and adults with CHD.
- In 2015, CDC started a four-year project to expand upon the pilot project. Five sites—University of Colorado, Duke University in North Carolina, Emory University in Georgia, the New York State Department of Health, and the University of Utah—are working to better understand the survival, healthcare use, and longer term health outcomes of individuals of all ages with CHDs.
- Since 2015, CDC has collaborated with the New York State Department of Health to evaluate geographic barriers to care and healthcare costs for adolescents with CHDs.
- In 2016, CDC, in partnership with March of Dimes, the University of Arizona College of Medicine, and the Arkansas Center for Birth Defects Research and Prevention launched the Congenital Heart Survey To Recognize Outcomes, Needs, and well-beinG (CH STRONG), a survey among adults with CHDs to assess their health, social and educational status, and quality of life.

These activities can provide important insights to guide our continued efforts to prevent CHDs and support families affected by them. To learn more about CHDs, please visit www.cdc.gov/heartdefects.

To: Barnhill, Josh <Barnhill.Josh@flsenate.gov>
Subject: REMINDER: Have you contacted the Senators?

Floridians for Immigration Enforcement

www.flimen.org

REMINDER: Have you contacted the Senators?
Do so before 4PM Tuesday, 1/28/2020.

Update from FLIMEN;

The dots are getting connected. FLIMEN takes no position on gun legislation, **but CS/SR214, per the references in the articles below, will likely used as a basis for red-flag laws.**

Because this resolution CS/SR214 is so wide and inconsistent with definitions, then Second Amendment defenders might want to be worried about the linkage of this 'White Nationalism' resolution to redflag laws. Below the articles have numerous references to a relationship.

https://www.politico.com/states/florida/story/2019/08/05/tipping-point-in-shift-florida-republicans-blame-shootings-on-white-nationalism-1129971

> When asked by POLITICO Monday, most prominent Florida Republicans agreed that white nationalism is playing a bigger role in mass shootings.
> "Yes. White nationalism is definitely a big factor and has been in other acts of violence in recent years," Senate President Bill Galvano told POLITICO.

https://www.voanews.com/usa/florida-leaders-move-condemn-white-nationalism

> Earlier this week, Sen. Kamala Harris of California, a Democratic presidential hopeful, called for a federal ``red flag'' law that would allow law enforcement to take away guns from white nationalists, if a judge agrees if a person poses an imminent danger.
>
> While Galvano says he's open to possibly expanding the Florida's ``red flag'' laws, he told the Associated Press on Thursday that the two issues should be addressed separately.
>
> ``Do both issues need to be considered and talked about? The answer is yes, but I don't know if you can just merge them,'' Galvano said.
>
> ….
> Galvano said ``everything would be on the table'' as his chamber begins work on strengthening laws to curb mass violence and to expand the laws enacted in response to the Parkland shootings. But when pressed, Galvano said he would leave it to legislative committees to come up with specific legislation.

https://www.miaminewtimes.com/news/florida-lawmakers-rewrite-bill-condemning-white-supremacy-11439413

> "I am hopeful that if the legislature is at least willing to vote for this revised resolution, that they would consider updates to Florida Hate Crime statute and meaningful policies to reduce gun violence."

Florida Senators Should Endorse Racial Equality,
Not SPLC Hate Labels!

Republican leadership, Senate President Galvano and resolutuion sponsor Senator Simpson, are rushing a dangerous resolution through the Senate. Masses of calls and emails are needed before 4PM, Tuesday, January 28th, 2020.

It won't take but 10 minutes to call President Galvano, Senator Simpson and five Judiciary Committee members.
Just leave messages with your name and a statement

AMERICAN OVERSIGHT

"I oppose the racist White Nationalist resolution CS/SR 214 because (one talking point)."
It is easy to send emails messages as the message is pre-loaded with subject and body, just add your name.

While resolutions do not carry the same importance as legislation, CS/SR 214, a resolution denouncing 'White Nationalists' is naïve, inaccurate, misguided, dangerous, without merit and divisive. FLIMEN requests every concerned citizen take action against this resolution which is substantially based on information from the highly discredited and extremely polarizing Southern Poverty Law Center (SPLC). See SPLC Exposed.

While Floridians for Immigration Enforcement (FLIMEN) *agrees* with substantial parts of the resolution FLIMEN suggests one of the following changes;

1. A total revision focusing on The American Principle of Racial Equality, as proposed in this letter.
2. Striking of the ambiguous, dangerous, liberal, weaponized terms 'white nationalists, white supremacists,' or better yet.
3. Table the divisive resolution and move onto legislation that has real benefits to Floridians.

FLIMEN has virtually no media coverage so it is mainly up to concerned citizens who receive this message to take action. Please make the calls below and FORWARD THIS MESSAGE TO YOUR LISTS, especially groups.

Talking Points;

- Racist – This resolution is flat-out racist. Only the white race was targeted. What about determining wrong doings based upon American Rule of Law and not immutable characteristics?
- Racial Equality The resolution should affirm support for the American Principle of Racial Equality.
- Inaccurate – Rather than some empirical data proving white violence, the biased and incompetent Bill Analysis is basically a rendition of SPLC's infamous hate labels.
- Liberal Narrative Weaponization - The Alinsky-style name-calling used by liberals will cause many innocent citizens to be swept up by *the wide, wide net of 'white nationalists*'

TIME: 4:00—6:00 p.m.
PLACE: Toni Jennings Committee Room, 110 Senate Building, Tallahassee, FL

AMERICAN OVERSIGHT

EXPANDED AGENDA
Watch Judiciary Meeting Live

Racist

Can you find any other race targeted in the SPLC-centric Bill Analysis?

Racial Equality

Adopting the American principle of Racial Equality provides an opportunity to redirect the narrative and would provide a more universally acceptable goal.

FLIMEN has provided a draft resolution based on the American Principle of Racial Equality in this letter.

Inaccurate

The Bill Analysis states;

> "Florida has been the site of several mass shootings that include Pulse Nightclub in Orlando, Marjory Stoneman Douglas High School in Parkland, Fort Lauderdale-Hollywood International Airport, Jacksonville Landing, as well as a SunTrust Bank in Sebring.1 Many of these acts of targeted mass violence appear to have been motivated by violent extremism based on a variety of supremacy philosophies."

The very next paragraph is about 'white nationalists.' It is inaccurate and simplistic to equate these atrocities exclusively to 'white nationalists.'

The left never fails to sensationalize tragedies like these, even if there is no connection to 'White Nationalism and White Supremacy' if it benefits their narrative.

Liberal Narrative Weaponization

The major problem with the term 'White Nationalist' is that it is the Democrats' way of redefining terminology to smear Republicans or anyone who opposes their views, often those who support immigration enforcement. FLIMEN has been the target of liberal Democrat smear campaigns for a long time, so we are a bit of an expert in this area.

SPLC is the main driver of much of the ongoing "Hate" and "Racist" rhetoric. SPLC is an antagonistic opponent to most every value for which Republicans stand, especially immigration enforcement. As an example, the SPLC instigated the boycott of Mark Krikorian of Center for Immigration Studies during a committee meeting last year. SPLC, was one of the parties involved in the federal lawsuit against the Anti-Sanctuary bill SB 168. Judge Bloom upheld all but a minor aspect of the bill. Yet Senate Republicans made SPLC central to this resolution!

SPLC calls any organization that supports immigration enforcement a "Hate Group, Racist, White Supremist, or Neo Nazi." Their definition of 'White Nationalist' is wrong and ridiculously broad per their web page.

The wide, wide net caused by the ambiguous definition of 'white nationalist' will certainly be used against Republican by Democrats in the next critical 2020 election and thereafter.

Remember, Democrats have already changed the national narrative by overusing the word 'racist' as well as using the term 'undocumented immigrant' in place of the actual legal term of "illegal alien!" Democrats are now falsely claiming that anyone using the term "illegal alien" should be accused of hate speech. With the current language in the proposed revision, Democrats will achieve equating people who support the rule of law and immigration enforcement in any form to be 'White Nationalists or White Supremacists'.

We simply must not continue to allow the Democrats to define and control the narrative and the rhetoric!

Unbelievable but the very biased Bill Analysis even references this page below THAT CLEARLY SHOWS LIBERALS EQUATE NEO-NAZIS to 'white nationalists.' This is OUTRAGEOUS!

SPLC Defines White Nationalist
https://www.splcenter.org/fighting-hate/extremist-files/ideology/white-nationalist

AMERICAN OVERSIGHT

Their definition obviously equates “White Nationalist” to “neo-Nazi”!

So, what is a "White Nationalist?" To many it means a Caucasian who supports the concept of America First. It should be noted that America's Founding Fathers were White, and they were decidedly Nationalists. Much of the deep difference between Democrats and Republicans is a different view of globalism vs. nationalism. President Trump has often expressed the concept of taking care of USA first, along with a skepticism on the ‘New World Order’ which is typically embraced by the Democrats.

“White Supremacy” means racial superiority which we despise.

Neo-Nazi has yet a different meaning, as an advocate of fascism, which we despise.

The common use liberal definition of “White Nationalism” is conveniently shown in an OP-ED by the Palm Beach (Com)Post.
https://www.palmbeachpost.com/opinion/20190331/editorial-florida-lawmakers-must-soundly-denounce-white-nationalism-shut-down-sanctuary-cities-bill

---

There you have it very clearly; Democrats consider Republicans who support immigration law enforcement “white nationalism.”

Using simple logic with these examples;

Republicans supporting immigration enforcement=
White Nationalists =
White Supremacists =
Neo-Nazis

Links clearly showing liberals constantly and viciously branding Republicans with SPLC labels;

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Innovation, Industry, and Technology

BILL:	SB 1102
INTRODUCER:	Senator Gruters
SUBJECT:	Specialty Contracting Services
DATE:	January 17, 2020
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Kraemer	Imhof	IT	**Pre-meeting**
2.			CA	
3.			RC	

I. Summary:

SB 1102 creates an exemption from local and state licensing for persons under the supervision of a certified or registered pool contractor for the construction, remodeling, or repair of swimming pools, hot tubs, and other water features. The supervising contractor need not have a direct contract with the unlicensed person performing the specialty contracting services. The exemption is not available for persons required to be certified or registered as contractors for specified trade categories described in current law.[1]

The bill has no impact on state government.

The bill provides an effective date of July 1, 2020.

II. Present Situation:

Part I of ch. 489, F.S., dealing with Constructing Contracting, sets forth requirements for qualified persons to be licensed if they have sufficient technical expertise in the applicate trade.[2]

A contractor is a person who undertakes a job or submits a bid to construct, repair, alter, remodel, add to, demolish, subtract from, or improve any building or structure for others, and whose job scope is substantially similar to one of 17 specified scopes of work.[3] A contractor

[1] *See* ss. 489.105(3)(a) through (i) and (m) through (o), F.S. The specified scopes of work are identified as general contractor, building contractor, residential contractor, sheet metal contractor, roofing contractor, Class A, B, and C air-conditioning contractor, mechanical contractor, plumbing contractor, underground utility and excavation contractor, and solar contractor.
[2] *See* ss. 489.101-489.146, F.S.
[3] *See* ss. 489.105(3)(a) through (q), F.S. The specified scopes of work are identified as general contractor, building contractor, residential contractor, sheet metal contractor, roofing contractor, Class A, B, and C air-conditioning contractor, mechanical contractor, commercial pool/spa contractor, residential pool/spa contractor, swimming pool servicing contractor, plumbing contractor, underground utility and excavation contractor, solar contractor, pollutant storage systems contractor, and specialty contractor.

AMERICAN OVERSIGHT

must be licensed by the Department of Business and Professional Regulation's Construction Industry Licensing Board (board) or certified by the county in which he or she wishes to work.[4] In most circumstances, a contractor must subcontract all electrical, mechanical, plumbing, roofing, sheet metal, swimming pool, and air-conditioning work unless the contractor holds a state certificate or registration in the appropriate trade category.[5]

A subcontractor who does not have a state certificate or registration may work under the supervision of a licensed or certified contractor, if:

- The work of the subcontractor falls within the scope of the contractor's license; and
- The subcontractor is not engaged in construction work that would require specified contractor licensing (i.e., licensure as an electrical contractor,[6]a septic tank contractor,[7] a sheet metal contractor, roofing contractor, Class A, B, or C air-conditioning contractor, mechanical contractor, commercial pool/spa contractor, residential pool/spa contractor, swimming pool servicing contractor, plumbing contractor, underground utility and excavation contractor, or solar contractor.[8]

The term "certification" means the act by a contractor obtaining or holding a geographically unlimited certificate of competency from the DBPR.[9] A contractor registered with the DBPR has fulfilled competency requirements only in those jurisdictions in which a registration is issued, and registered contractors may contract only in those jurisdictions.[10]

The term "specialty contractor" means a contractor whose scope of practice is limited to:

- A particular construction category adopted by board rule; and
- A subset of the [trade categories for contractors listed in s. 489.105(3)(a) through (p), F.S., such as roofing, air-conditioning, plumbing, etc.].[11]

The board has adopted rules for the voluntary certification of swimming pool specialty contractors and residential pool/spa servicing contractors.[12] Licenses for these contractors include those for:

- Swimming Pool Layout;
- Swimming Pool Structural;
- Swimming Pool Excavation;
- Swimming Pool Trim;
- Swimming Pool Decking;
- Swimming Pool Piping; and
- Swimming Pool Finishes.

---

[4] Sections 489.107(1), 489.113(1), and 489.117(1)(b), F.S.
[5] Section 489.113(3), F.S. Various exceptions for general, building, residential, and solar contractors are set forth in ss. 489.113(3)(a) through (g), F.S.
[6] *See* Part II, of ch. 489, F.S., relating to Electrical and Alarm System Contracting,
[7] *See* Part III of ch. 489, F.S., relating to Septic Tank Contracting.
[8] Section 489.113(2), F.S.
[9] *See* s. 489.105(7) and (8), F.S.
[10] *See* ss. 489.105((9) and (10), F.S.
[11] Section 489.105(3)(q), F.S.
[12] *See* Fla. Admin. Code R. 61G4-15.032 and 61G4-15.040 (2020) available at https://www.flrules.org/gateway/ChapterHome.asp?Chapter=61G4-15 (last visited Jan. 14, 2020).

AMERICAN OVERSIGHT

Section 489.117(4(d), F.S., similarly allows unlicensed persons to perform contracting services[13] related to the construction, remodeling, repair, or improvement of single-family residences and townhomes, under supervision by a certified or registered general, building, or residential contractor. The supervising contractor need not have a direct contract with the unlicensed person performing the contracting services. A legal challenge to the applicability of this exemption to local license requirements in St. Johns County was not successful.[14]

III. Effect of Proposed Changes:

SB 1102 amends s. 487.117(4), F.S., to exempt from local and state licensing for persons under the supervision of a certified or registered commercial pool/spa contractor, a residential pool/spa contractor, or a swimming pool/spa servicing contractor (a licensed pool contractor) for the performance of certain specialty contracting services. The bill provides a contractual relationship between the supervising contractor and those performing the specialty contracting services is not required (i.e., the performance of such contracting services is outside the business of contracting and need not be undertaken through a contractor/subcontractor relationship).

The services that may be performed by unlicensed persons under the supervision of a licensed pool contractor include the construction, remodeling, repair, or improvement of swimming pools, hot tubs, spas, and interactive water features, as defined in the Florida Building Code (code).[15] Of those terms, the current code does not appear to define "interactive water features." However, the described scope of work for "swimming pool piping specialty contractor" includes "decorative or interactive water displays or areas."[16]

The exemption is not available for persons required to be certified or registered as contractors for specified trade categories described in s. 489.105(3), F.S.[17]

The exemption from local contractor licensing and specialty contractor licensing created in the bill is similar to an exemption enacted in 1993.[18] Section 489.117(4)(d), F.S., allows unlicensed persons to perform contracting services related to the construction, remodeling, repair, or improvement of single-family residences and townhomes, under supervision by a certified or registered general, building, or residential contractor. The supervising contractor need not have a direct contract with the unlicensed person performing the contracting services.

---

[13] The specified scopes of work are sheet metal contractor, roofing contractor, Class A, B, and C air-conditioning contractor, mechanical contractor, plumbing contractor, underground utility and excavation contractor, and solar contractor.
[14] *See Florida Home Builders Ass'n v. St. Johns County*, 914 So.2d 1035 (Fla. 5th DCA 2005).
[15] The term "swimming pool" is defined as "[a]ny structure intended for swimming, recreational bathing or wading that contains water over 24 inches (610 mm) deep. This includes in-ground, aboveground and on-ground pools; hot tubs; spas and fixed-in-place wading pools." *See* ch. 2 of the 2017 Florida Building Code (Sixth Edition), available at https://codes.iccsafe.org/content/FBC2017/chapter-2-definitions (last visited Jan. 14, 2020).
[16] *See* Fla. Admin. Code R. 61G4-15.032(2)(f), relating to certification of swimming pool piping specialty contractors, available at https://www.flrules.org/gateway/ChapterHome.asp?Chapter=61G4-15 (last visited Jan. 14, 2020).
[17] *See* ss. 489.105(3)(a) through (i) and (m) through (o), F.S. The specified scopes of work are identified as general contractor, building contractor, residential contractor, sheet metal contractor, roofing contractor, Class A, B, and C air-conditioning contractor, mechanical contractor, plumbing contractor, underground utility and excavation contractor, and solar contractor.
[18] *See* ch. 93-154, s. 3, and ch. 93-166, s. 12, Laws of Fla. These provisions have been subsequently amended.

AMERICAN OVERSIGHT

SB 1102 Questions & Answers

Q: Why is this bill needed?
A: There is a labor shortage in the swimming pool subcontractor market—there are not enough licensed swimming pool subcontractors to serve the active pool contractors (roughly 11:1 ratio of contractors to subcontractors—3893 active licensed swimming pool contractors and only 351 licensed swimming specialty subcontractors). Consequently, many pool contractors find themselves in a position where their only option to finish a job is use an unlicensed subcontractor. This bill will put more people to work legally in the swimming pool industry.

Q: Why can't subcontractors just get licensed?
A: The statutory requirements disincentivizes subcontractors from obtaining the subcontractor license. They have to demonstrate 4 years of specific experience in the license area, pass a credit check or post a bond, and pass an exam—nearly the same requirements as full-fledged swimming pool contractor. Consequently, many elect not to obtain the license. As a result, there have only been 75 new specialty swimming pool sub-contractors licensed since 2016.

AMERICAN OVERSIGHT

Q: Wouldn't removing the licensing requirement lead to bad or dangerous work being done on swimming pools?
A: No. The prime swimming pool contractor is ultimately responsible for the construction of the swimming pool, whether it is an employee of the contractor or a subcontractor. The swimming pool contractor is supervising and checking the work and is responsible for the quality of the work.

Q: How would this bill effect the subcontractors' and contractors' workers comp insurance?
A: There should be no effect. A prime swimming pool contractor's workers comp policy should account for subcontractors on the job site and a subcontractor would still be able to carry a workers comp policy based on a local business license.

Q: What is Jim Walters Exemption?
A: The Jim Walter Exemption allows unlicensed contractors to perform work on single family residences and townhouses if the unlicensed contractor is supervised by a licensed general, building or residential contractor. Currently, a building general contractor can hire unlicensed on site because it falls under their GC license. The Jim Walters exemption ensures Florida's construction industry is able to safely and economically complete

AMERICAN OVERSIGHT

projects without being stifled by unnecessary government regulations.

Q: Difference between Construction and Swimming Pool Contractors?
A: Swimming pool contractors are similar to general, building, and residential contractors because they are largely responsible for the entire project, from the first turn of dirt to final completion of the project.

Q: Difference between current specialty license and general swimming pool contractor license?
A: The main difference is the ability to carry more liability insurance and two additional exams you are required to take. DBPR is responsible for the licensure of contractors.*(THIS IS GENERAL – not specific)*

Q: What are the 7 different types of voluntarily specialty licenses?
A: The board has adopted rules for the voluntary certification of swimming pool specialty contractors and residential pool/spa servicing contractors:

1. Swimming Pool **Layout** Specialty Contractor
    a. Scope: layout, shaping, steel installation, and rough piping of pools, spas, and hot tub shells

AMERICAN OVERSIGHT

2. Swimming Pool **Structural** Specialty Contractor
    a. Scope: shaping and shooting of gunite, shotcrete, concrete, or similar product mix used in the construction of swimming pools and spas. This scope of work includes the installation of fiberglass shells and vinyl liners
3. Swimming Pool **Excavation** Specialty Contractor
    a. Scope: the excavation and earthmoving required for the installation of pools, spas, and hot tub shells
4. Swimming Pool **Trim** Specialty Contractor
    a. Scope: installation of tile and coping for pools, spas, and hot tub shells. Decorative or interactive water displays or areas that use recirculated water, including waterfalls and spray nozzles, are also included
5. Swimming Pool **Decking** Specialty Contractor
    a. Scope: construction and installation of concrete flatwork, pavers and bricks, retaining walls, and footings associated with the construction of pools, spas, and hot tub shells
6. Swimming Pool **Piping** Specialty Contractor

AMERICAN OVERSIGHT

a. Scope: installation of piping or the installation of circulating, filtering, disinfecting, controlling, or monitoring equipment and devices used in the construction of pools, spas, hot tubs, and decorative or interactive water displays or areas

7. Swimming Pool **Finishes** Specialty Contractor
   a. Scope: coating or plastering of the interior surfaces of pools, spas, or hot tub shells

Q: What rule does this fall under?

A: Florida Administrative Rule under Rule 61G4-15.032.

LICENSURE NUMBERS: Swimming Pool Specialty Subcontractor Shortage

- 3893 Licensed Swimming Pool Contractors in the State of Florida
- 351 Licensed Swimming Pool Specialty Sub Contractors in the State of Florida
- Only 75 new Swimming Pool Specialty Contractors Since 2016
- Only 107 License Practical Exam Proctors throughout the state

AMERICAN OVERSIGHT

SB 1102 –Specialty Contracting Services

Thank you Mr. Chair.

- Senate Bill 1102 address a work force shortage by removing unnecessary regulatory burdens for swimming pool contractors and unlicensed workers.
- This bill creates an exemption, modeled after the Jim Walters exemption for local and state licensing requirements related to the swimming pool industry.
- Individuals under the supervision of a certified or registered pool contractor for the construction, remodeling, or repair of swimming pools, hot tubs, and other water features would be allowed to work without a specialty license.
- Currently, specialty licenses were created to allow swimming pool contractors to subcontract their work. There is a significant shortage of specialty contractors statewide with only 351 special contractor licensees compared to roughly 4,000 swimming pool contractors statewide. There have been less than 100 specialty licenses applied for in the last few years.
- The licensure requires 4 years of experience, a credit check or bond, and a practical exam.
- Supporting SB 1102 will generate growth in jobs and wages for Floridians by removing these burdens in the industry.

That is the bill Mr. Chair.

Subject: SB 1102

Hey Vickie,
I hope you had a great holiday.

We see that Sen. Gruters' SB 1102 has language to expand the "Jim Walters Exemption" to include pool and spa contractors.

The FHBA has an amendment that we would like to see included in the bill.

We would like the following amendmentto Florida Statues Section 489.117(4)(d):

(d) Any person who is not required to obtain registration or certification pursuant to s. 489.105(3)(d)-(o) may perform contracting services for the construction, remodeling, repair, or improvement of single-family residences, including a townhouse as defined in the Florida Building Code, and clubhouses or recreation buildings in a residential development, without obtaining a local license if such person is under the supervision of a certified or registered general, building, or residential contractor. As used in this paragraph, supervision shall not be deemed to require the existence of a direct contract between the certified or registered general, building, or residential contractor and the person performing specialty contracting services.

Would Sen. Gruters be amendable to the amendment? We can meet with him to discuss.

Please let us know and whether he would like to meet.

FYI, we are also working with the FSPA lobbyists to get the current or similar language of SB 1102 in other bills such as HB 3.

Thanks,
Scott

Subject: SB 1128 is an unfundated mandate

Dear Chair Gruters and members of the Senate Committee on Commerce and Tourism,

I am writing to you about SB 1128, a very flawed Vacation Rental bill for both Florida residents and Vacation Rental guests alike. This bill proposes to preempt all licensing and inspections of Vacation Rentals to the State but provides ZERO funding for the already overburdened DBPR agency to handle that task. The Division of Hotels and Restaurants of the DBPR can't handle its current workload. **I reference an April 2018 Inspector General's performance audit report for # A-1617BPR-023.**

In that report I.G. Lynne T. Winston states that **the Division of Hotels and Restaurants: "has struggled to meet the approved performance standards for the food service and lodging inspection measures. Our office concluded that absent other factors and given the current trends, the division will continue to struggle to meet the performance standards for these measures."** That report was issued before SB 1128 proposed to add many thousands of Vacation Rentals to the DBPR's workload.

A staff analysis for HB 1011, the companion bill for SB 1128, shows an estimated $450,000 is needed in year one and over $412,000 on a recurring basis to hire 6 employees to accomplish licensing by the DBPR **but there is no mention of funding for *inspections.* The bill has no initial or recurring inspections mandated for sanitary conditions or fire safety.** There are many thousands of Vacation Rental properties that would need to be inspected and the only way to do that is to partner with local agencies. Does the bill sponsor intend that Vacation Rentals be left unregulated through lack of funding?

Florida has a fire code and this bill will likely interfere with the ability of local fire officials to inspect properties for egress windows, fire extinguishers and smoke detectors. SB 1128 tries to eliminate inspections by reclassifying all **Vacation Rentals as *"residential in nature, a residential use, and thus permitted in residential neighborhoods"*** A majority of Vacation Rentals are now owned by investors, not residents sharing a home. These rentals are business ventures and they are often poorly run because they are largely unregulated. This bill seeks to make that situation worse by eliminating any ability for local governments or local fire departments to do inspections.

Investors in Pinellas County often buy up older homes near the beaches and convert them to Vacation Rental businesses. In that scenario, the garage is more lucrative if used as a bedroom space. Normally a bedroom requires an egress window to pass a building inspection, but you can pass if the space is declared to be an office or den. So a garage can be easily converted and be used for lucrative,extra sleeping space, but without windows and that poses a fire safety hazard for guests (especially when a water heater or dryer is nearby). That's just one reason we need fire safety inspections. Another is a lack of fire extinguishers. A Vacation Rental in my neighborhood had a grill fire last year which required our local fire department to intervene. The guests could not locate a fire extinguisher in the unit.

Some of the other failings in SB 1128 are in a lack of unified registration requirements. If a guest can register with just a credit card and no positive ID, then the industry will continue to attract criminals that seek to take advantage of that anonymity. Any acceptable bill needs protections to keep sexual predators out of residential neighborhoods were kids live. Positive ID could help track down human traffickers and make Vacation Rentals less desirable for use in drug crimes too.

Thoughtful members in the Innovation, Industry and Technology committee asked for amendments to address some of these issues I've mentioned, but the bill has yet to be amended to address any of these concerns. **If the state wants to take over all regulation of vacation rentals then the state bears the burden to keep its residents and visitors safe.**

I urge you to vote NO on SB 1128

Thank you,

Kelly Cisarik
A concerned 28 year resident of Indian Rocks Beach, Florida

Subject: SB 1128

As a permanent resident in the city of St. Augustine, we are extremely concerned about SB 1128 and what it would do to our lovely neighborhood and endanger those who rent some of the units that are available now. We know first hand of local rentals that are considered unsafe to occupy. The use of old extension cords powering appliances, no smoke detectors, no fire extinguishers. We need local city and county government to be regulating these properties to the effect that they are safe for rental by registration and inspection. The state of Florida really should not be handling the day to day aspects of this process. I trust our city and county legislators to manage this regulation. SB 1128 will undermine the local ability to help make for safe rentals. We are currently living in between two short term rental homes that have made the neighborhood more like a hotel space. Both owners of these properties live out of the state of Florida and are not actively involved in the neighborhood as someone who lives here full time. The city laws would help apply consistent and organized operation of these rentals plus provide communication access in the event there are problems caused by the short term occupants. I cannot see any reason why you would support SB 1128 and urge you to convey to our state Senate members that the citizens in our community DO NOT support it.

Best Regards.

Subject: SB 1128

My name is Bill Anderson. I am a longtime resident of St Augustine, and am writing you to discourage the passage of SB1128, which would remove local municipalities ability to regulate short term rentals. Our city has a reputation of being a living city, with beautiful residential neighborhoods. I have observed the erosion of these neighborhoods due to the explosion of STRs. Our City Commission has recently voted to approve 3 ordinances which would allow the city to regulate STRs within the city limits including mandatory registration, a registration fee, establish fire safety, intensity of use, and parking requirements. I strongly believe our city government should be permitted to regulate STRs.

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT of STATE

SB 1212 by Senator Gruters

International Affairs

- SB 1212 seeks to provide the Department of State with more of an active role in fostering strong international relationships and working more closely with the Consular Corp in Florida.

- The bill requires the Secretary of State to serve as the State Protocol Officer. These functions resided with the Secretary of State prior to 2004, when they were transferred to the Office of Tourism, Trade, and Economic Development within the Office of the Governor. In 2011, some functions were delegated to the newly created Department of Economic Opportunity, while the majority became duties of a state protocol officer to be named by the Governor and to be housed within the Executive Office of the Governor.

- The bill authorizes the Department of State to support the establishment of citizen support organization (CSO) for certain purposes.

- The bill removes the purpose statement of the sister city and sister state program and makes discretionary certain activities thereunder such as establishing new programs as needed.

- It also removes issuing certificates to foreign governmental officials after verification pursuant to proper investigations through the United States DOS and the appropriate foreign government.

- Additionally, The Department of State, Office of the Secretary and the Division of Administrative Services, requests $123,994 ($119,868 recurring and $4,126 nonrecurring) in budget authority from the General Revenue Fund for 1.00 Full Time Equivalent (FTE) position to establish the Office of International Affairs.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Governmental Oversight and Accountability

BILL:	SB 1212
INTRODUCER:	Senator Gruters
SUBJECT:	International Affairs
DATE:	January 24, 2020
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Ponder	McVaney	GO	**Pre-meeting**
2.			IS	
3.			RC	

I. Summary:

SB 1212 amends s. 15.01, F.S., to provide that the Secretary of State shall serve as the state protocol officer. The bill revises s. 15.182, F.S., such that the Department of State is the only entity that shall receive notice of intent to travel internationally by state-funded musical, cultural, or artistic organizations.

The bill creates s. 288.8165, F.S., providing for the establishment of citizen support organizations to assist the Office of International Affairs within the Department of State by providing assistance, funding and promotional support for intergovernmental programs.

The bill may have a minimal impact on government expenditures in the establishment of citizen support organizations. However, the Department of State will also experience a slightly positive impact as private resources from citizen support organizations augment the purpose and programs of the Office of International Affairs. The private sector will experience an indeterminate fiscal impact in establishing citizen support organizations as well as meeting the audit, transparency and reporting requirements.

The bill takes effect July 1, 2020.

II. Present Situation:

Secretary of State

The Secretary of State (the Secretary) holds a statutorily created office whose duties are "as provided by law."[1] The Secretary serves as the head of the Department of State.[2] The Department of State consists of the following six divisions:

[1] FLA. CONST. art. XII, s. 24. The Office of the Secretary of State was created in 1845, under the State Constitution.
[2] Section 20.10(1), F.S. *See* FLA. CONST. art. XII, s. 24.

AMERICAN OVERSIGHT

- Division of Elections;
- Division of Historical Resources;
- Division of Corporations;
- Division of Library and Information Services;
- Division of Cultural Affairs; and the
- Division of Administration.[3]

The Secretary is appointed by the Governor, subject to confirmation by the Senate and performs the functions conferred by the State Constitution upon the custodian of state records.[4] Pursuant to Chapter 15, F.S., the Secretary of State is the custodian of the constitution, the Great Seal of this state, the original statutes, and of the resolutions of the Legislature, and of all the official correspondence of the Governor.[5] The Department of State is required to maintain a register and an index of all official letters, orders, communications, messages, documents and other official acts issued or received by the Governor or the Secretary of State, and record these in a book numbered in chronological order.[6] Before issuing any order or transmission of an official letter, communication or document from the executive office or promulgation of any official act or proceeding, except military orders, the Governor is required to deliver the same or a copy thereof to the Department of State for recordation.[7]

Notice of International Travel

The Department of Economic Opportunity (DEO) "assist[s] the Governor in working with the Legislature, state agencies, business leaders, and economic development professionals to formulate and implement coherent and consistent policies and strategies designed to promote economic opportunities to all Floridians."[8]

In accordance with s. 15.182, F.S., if a musical, cultural or artistic organization that receives state funding is traveling internationally for a presentation, performance, or other significant public viewing, including an organization associated with a college or university, such an organization is required to notify the DEO of its intention to travel as well as the date, time and location of each appearance. DEO, in conjunction with Enterprise Florida, Inc.[9] (EFI), is required to act as an intermediary between artistic organizations and Florida businesses to encourage and coordinate joint undertakings, such as the sponsoring of cultural events.[10].

Section 15.182(3), F.S., requires an organization to provide notice to the Department of State at least 30 days prior to the date international travel is to commence. If the intention to travel internationally is not formed 30 days in advance, notice to the Department of State shall be given

[3] Section 20.01(2), F.S.
[4] Section 20.10(1), F.S.
[5] Section 15.01, F.S.
[6] Section 15.01, F.S.
[7] *Id.*
[8] Section 20.60, F.S.
[9] Enterprise Florida, Inc., created by s. 288.901, F.S., serves as the state's economic development organization, operating under a contract with DEO. Enterprise Florida, Inc., is a nonprofit corporation, governed by a board of directors chaired by the Governor.
[10] Section 15.182(2), F.S.

AMERICAN OVERSIGHT

as soon as feasible.[11] Thus, under this section, notice of intent to travel internationally by state-funded organizations must be given to both DEO and the Department of State. Section 15.182(3),F.S., further requires that the Department of State take "an active role in informing such groups of the responsibility to notify the [D]epartment [of State] of travel intentions."

The State Protocol Officer

The Governor, pursuant to s. 288.012(7), F.S., may designate a state protocol officer (SPO) who shall be housed within the Executive Office of the Governor. The SPO is required to develop maintain, publish, and distribute the state protocol manual.[12] The SPO is responsible for consular operations and the sister city and sister state program as well as serving as a liaison with foreign, federal and other international organizations and with local governments.[13] The SPO must maintain consular relations between the state and all foreign governments doing business in Florida and has the duty to ensure all federal treaties regarding foreign privileges and immunities are properly observed by monitoring U.S. Laws and directives.

Additionally, the SPO is required to:

- Establish a viable system of registration for foreign government officials residing or having jurisdiction in the state[14];
- Maintain and systematically update a current and accurate list of all such foreign governmental officials, consuls, or consulates;
- Issue certificates to such foreign governmental officials after verification pursuant to proper investigations through U.S. Department of State sources and the appropriate foreign government;
- Verify entitlement to sales and use tax exemptions pursuant to U.S. Department of State guidelines and identification methods;
- Verify entitlement to issuance of special motor vehicle license plates by the Department of Highway Safety and Motor Vehicles to honorary consuls or such other officials representing foreign governments who are not entitled to issuance of special Consul Corps license plates by the U.S. Government;
- Establish a system of communication to provide all state and local law enforcement agencies with information regarding proper procedures relating to the arrest or incarceration of a foreign citizen;
- Request the Department of Law Enforcement to provide transportation and protection services when necessary pursuant to s. 943.68;
- Coordinate, when necessary, special activities between foreign governments and Florida state and local governments (such as Consular Corps Day, Consular Corps conferences, and various other social, cultural, or educational activities);
- Notify all newly arrived foreign governmental officials of the services offered by the SPO.[15]

[11] Section 15.182(3), F.S.
[12] Section 288.012(7), F.S.
[13] Section 288.816(1), F.S.
[14] This provisions instructs that an emphasis shall be placed on maintaining active communication between the SPO and the U.S. Department of State in order to be currently informed regarding foreign governmental personnel stationed in, or with official responsibilities for, Florida. Active dialogue shall also be maintained with foreign countries which historically have had dealings with Florida in order to keep them informed of the proper procedure for registering with the state.
[15] Section 288.816(2), F.S.

AMERICAN OVERSIGHT

The duties of the SPO also include the operation of the sister city and sister state program and establishing such new programs as needed to further global understanding through the interchange of people, ideas, and culture between Florida and the world. In order to accomplish this purpose, the SPO has the power and authority to:

- Coordinate and carry out activities designed to encourage the state and its subdivisions to participate in sister city and sister state affiliations with foreign countries and their subdivisions[16];
- Encourage cooperation with and disseminate information pertaining to the Sister Cities International Program and any other program whose object is to promote linkages with foreign countries and their subdivisions;
- Maximize any aid available from all levels of government, public and private agencies, and other entities to facilitate such activities;
- Establish a viable system of registration for sister city and sister state affiliations between the state and foreign countries and their subdivisions. Such system shall include a method to determine that sufficient ties are properly established as well as a method to supervise how these ties are maintained; and
- Maintain a current and accurate listing of all such affiliations.[17]

The SPO serves as a contact for the state with the Florida Washington Office, the Florida Congressional Delegation, and United States Government agencies with respect to laws or policies which may affect the interests of the state in the area of international relations.[18] The SPO is directed to direct all inquiries regarding international economic trade development or reverse investment opportunities to Enterprise Florida, Inc.[19] The SPO serves as a liaison with other states regarding international programs of interest to Florida, and investigates and makes suggestions regarding possible areas of joint action or regional cooperation.[20] The SPO is granted the power and has the duty to encourage the relocation of consular offices and multilateral and international agencies and organizations to Florida.[21]

Under s. 288.816(6), F.S., the DEO and EFI must help to contribute an international perspective to the state's development efforts.

Citizen Support Organizations

Citizen support organizations (CSOs) and direct-support organizations (DSOs) are statutorily created private entities that are generally required to be non-profit corporations and are authorized to carry out specific tasks in support of public entities or public causes. The functions

[16] Such activities may include a State of Florida sister cities conference. Section 288.816(3)(a), F.S.
[17] Sister city affiliations shall not be discouraged between the state and any country specified in s. 620(f)(1) of the federal Foreign Assistance Act of 1961 (22 U.S.C.A. Section 2370(f)(1)), as amended, with whom the United States is currently conducting diplomatic relations unless a mandate from the United States Government expressly prohibits such affiliations.
[18] Section 288.816(4), F.S.
[19] *Id.*
[20] *Id.*
[21] Section 288.816(5), F.S.

AMERICAN OVERSIGHT

and purposes of a CSO or DSO are prescribed by its enabling statute and, for most, by a written contract with the agency the CSO or DSO was created to support.[22]

Legislature created s. 20.058, F.S., to establish a comprehensive set of transparency and reporting requirements for CSOs created or authorized pursuant to law or executive order and created, approved, or administered by a state agency.[23] Specifically, the law requires each CSO to annually submit, by August 1, the following information related to its organization, mission, and finances to the agency it supports:[24]

- The name, mailing address, telephone number, and website address of the organization;
- The statutory authority or executive order that created the organization;
- A brief description of the mission of, and results obtained by, the organization;
- A brief description of the organization's plans for the next three fiscal years;
- A copy of the organization's code of ethics; and
- A copy of the organization's most recent federal Internal Revenue Service (IRS) Return of Organization Exempt from Income Tax form (Form 990).[25]

Each agency receiving the above information must make the information available to the public through the agency's website. If the CSO maintains a website, the agency's website must provide a link to that website.[26] Additionally, any contract between an agency and a CSO must be contingent upon the CSO submitting and posting the information.[27] If a CSO fails to submit the required information for two consecutive years, the agency must terminate the contract with the CSO.[28] The contract must also include a provision for ending operations and returning state-issued funds to the state if the authorizing statute is repealed, the contract is terminated, or the organization is dissolved.[29]

By August 15 of each year, the agency must report to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Office of Program Policy Analysis and Government Accountability the information provided by the CSO. The report must also include a recommendation by the agency, with supporting rationale, to continue, terminate, or modify the agency's association with each CSO.[30]

A law creating or authorizing the creation of a CSO must state that the creation or authorization for the CSO is repealed on October 1 of the fifth year after enactment, unless reviewed and saved from repeal by the Legislature. CSOs in existence prior to July 1, 2014, must be reviewed by the Legislature by July 1, 2019.[31]

---

[22] Because the bill speaks to the establishment of a CSO, the analysis focuses on CSOs. DSOs are subject to the same transparency and reporting requirements as CSOs.
[23] Chapter 2014-96, Laws of Fla.
[24] Section 20.058(1), F.S.
[25] The IRS Form 990 is an annual information return required to be filed with the IRS by most organizations exempt from federal income tax under 26 U.S.C. 501.

AMERICAN OVERSIGHT

III. Effect of Proposed Changes:

Section 1 amends s. 15.01, F.S., to provide that the Secretary shall serve as the state protocol officer and that the Secretary, in consultation with the Governor and other governmental officials, shall develop, maintain, publish, and distribute the state protocol manual.

Section 2 amends s. 15.182, F.S., to designate the Department of State as the agency to whom state-funded musical, cultural, or artistic organizations must provide notice of intent to travel internationally.

Section 3 amends s. 288.816(2), F.S., to remove from the SPO's responsibilities the requirement of (i) issuing certificates to such foreign governmental officials after verification pursuant to proper investigations through U.S. Department of State sources and the appropriate foreign governments; and (ii) verifying entitlement to sales and use tax exemptions pursuant to U.S. Department of State guidelines and identification methods.

The bill also amends s. 288.816(3), F.S., and makes permissive the SPO's role regarding sister city and sister state programs. The bill eliminates the requirement of a system of registration for sister city and sister state affiliations as well as the duty to maintain an accurate listing of all such affiliations.

Section 4 creates 288.8165, F.S., allowing the Office of International Affairs (OIA) within the Department of State to support the establishment of CSOs to provide assistance, funding and promotional support for intergovernmental programs. A CSO must be:

- A Florida corporation not for profit incorporated under chapter 617 and approved by the Department of State:
- Organized and operated to conduct programs and activities; raise funds; request and receive grants, gifts and bequests of money; acquire, receive, hold, invest, and administer, in its own name, securities, funds, objects of value, or other property, real or personal; and make expenditures to or for the direct or indirect benefit of the OIA;
- Determined by the OIA to be consistent with the goals of the office an in the best interests of the State; and
- Approved in writing (by a letter of agreement) by the OIA to operate for the direct or indirect benefit of the office.

The bill specifies operational requirements and annual audit requirement for the CSOs.

The bill grants rulemaking authority to the OIA for the adoptions of rules requiring CSOs to meet certain requirements in order to use the office's administrative services, property, or facilities.

The bill provides for the future repeal of this section on October 1, 2025, unless it is reviewed and saved from repeal by the Legislature.

Section 5 amends s. 288.012, F.S., to make conforming changes.

Section 6 provides that the act will take effect on July 1, 2020.

AMERICAN OVERSIGHT

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The mandate restrictions do not apply because the bill does not require counties and municipalities to spend funds, reduce counties' or municipalities' ability to raise revenue, or reduce the percentage of state tax shared with counties and municipalities.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

This bill does not impact state or local taxes or fees.

B. Private Sector Impact:

The bill will have an indeterminate fiscal impact on the private sector in the establishment of CSOs and in meeting the audit, transparency and reporting requirements.

C. Government Sector Impact:

The bill may have a minimal impact on government expenditures in the establishment of CSOs. However, the Department of State will experience an indeterminate positive fiscal impact as private resources from CSOs will augment the purpose and programs of the OIA.

VI. Technical Deficiencies:

None.

AMERICAN OVERSIGHT

VII. Related Issues:

The Office of International Affairs (OIA) is not created by statute or other provision of law. Section 20.04(3), F.S., mandates (with some exceptions not relevant here) the internal structure of all departments and provides that the principal unit of the department is the "division," the principal unit of the division is the "bureau," and the principal unit of the bureau is the "section." If further subdivision is required, s. 20.04(3)(d), F.S., instructs that sections may be divided into "subsections." Thus, the term "office" is not within the proper nomenclature.

Because the bill provides rulemaking authority to the OIA, it is suggested consideration be given to (i) granting rulemaking authority to the Department of State rather than OIA, or (ii) amending s. 20.10, F.S., to define the OIA as an entity within the Department of State.

The stated purpose of the CSOs is to provide assistance, funding and promotional support for *intergovernmental programs*. (emphasis added). The term "intergovernmental programs" is not defined. However, because the CSOs are supported by the OIA, it would suggest that such programs are to be international rather than national in nature. The bill specifies that OIA must make a determination that the CSO is "*consistent with the goals of the office* and in the best interests of the state." (emphasis added). As stated above, OIA is not created in law and the office cannot be located on the Department of State's website. Thus, there is little to no guidance as to the "goals of the office." It is suggested that consideration be given to either defining the term "intergovernmental programs" or providing more specificity as to the stated purpose of the CSOs. Alternatively, if, as suggested above, s. 20.10, F.S., is amended to define the OIA, the goals or purpose of the office could be stated therein.

VIII. Statutes Affected:

This bill substantially amends sections 15.01, 15.182, 288.816, and 288.012 of the Florida Statutes.

This bill creates s. 288.8165, F.S., of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

AMERICAN OVERSIGHT

SB 1212 – International Affairs

1) *Explain Bill*
2) *Explain Amendment Barcode #316316*

Thank you Mr. Chairman.

- Senate Bill 1212 designates the Secretary of State to serve as the State Protocol Officer. This will continue growing Florida's relationships within the international community and provide a closer working relationships with the Consular Corps in Florida.

- The bill authorizes the creation of a citizen-support organization to assist the Department of State with assistance, funding, and promotional support of intergovernmental programs.

- Lastly, this bill removes language related the purpose statement of the sister city and sister state program, issuance of certificates after verification to foreign government officials, and verification of entitlement to sales and use tax exemptions already approved by the United States Department of State.

That is the bill Mr. Chairman. **If not prompted, "I have an amendment Mr. Chairman."*

AMERICAN OVERSIGHT

Amendment Talking Points – Barcode #316316

- This amendment was recommended by staff to fix technical issues related to rulemaking and statutory requirements.

- Removes any reference to the Office of International Affairs throughout and replaces it with the Department of State.

- Consolidates duplicative notice provisions regarding intent to travel internationally into one provision.

- Conforms the provisions authorizing the Department to establish Citizen Support Organizations to the requirements for such organizations under Florida Statute. (20.2551)

AMERICAN OVERSIGHT

QUESTIONS AND ANSWERS

Q: What is a Citizen Support Organization and a Direct-Support Organization?
A: Private entities (usually non-profit corporations) authorized to carry out specific tasks in support of a public entity. Example:

Q: Is there a fiscal?

A: Yes, this bill would create 1 full time employee at $123,994 ($119,868 recurring and $4,126 nonrecurring) from General Revenue to establish the Office of International Affairs. This amount was requested by the Governor.

Q: Who is currently the State Protocol Officer?

A: Governor DeSantis has not appointed one to my knowledge. These functions are currently in three different locations – EOG, DEO, and EFI. These functions resided with the Secretary of State prior to 2004, when they were transferred to the Office of Tourism, Trade, and Economic Development within the Office of the Governor. In 2011, some functions were delegated to the newly created Department of Economic Opportunity, while the majority became duties of a state protocol officer to be named by the Governor and to be housed within the Executive Office of the Governor.

Q: What is the Consular Corps?
A: They are consulates and honorary consuls in Florida. The Honorary consult of Belarus is located in my district (North Port). I am also working with the British Consulate by sponsoring a Senate Memorial.

Q: Is there a repeal date for the CSO?
A: Yes, it is October 1, 2025 unless reinstate by the Legislature.

AMERICAN OVERSIGHT

Q: What is the Secretary of State currently responsible for?
A: Elections, Historical Resources, Corporations, Library and information Services, Cultural Affairs and Administration. They are appointed by the Governor and are the custodians of state records.

Q: Will this remove power from Enterprise Florida or Department of Economic Opportunity?
A: No, this will allow them to collaborate when working with groups when they travel internationally.

Q: What is the State Protocol Officer?
A: The SPO is required to develop maintain, publish, and distribute the state protocol manual. The SPO is responsible for consular operations and the sister city and sister state program as well as serving as a liaison with foreign, federal and other international organizations and with local governments. The SPO must maintain consular relations between the state and all foreign governments doing business in Florida and has the duty to ensure all federal treaties regarding foreign privileges and immunities are properly observed by monitoring U.S. Laws and directives.

Victoria,

Happy Friday! I have attached several documents that supports and gives information on SB 1212- Office of International Affairs. I have also attached the draft amendment language that has not been filed yet so we anticipate that popping out very soon. So keep that document between us until then J (again it is just a technical amendment to get it in line with statute and proper rulemaking- it doesn't do anything drastic).

Please let me know if you need anything additional. Happy to come by and meet with the Senator on Monday morning. Just let me know J

Thank you and have a great weekend!

AMERICAN OVERSIGHT

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Governmental Oversight and Accountability recommended the following:

Senate Amendment (with title amendment)

Delete lines 54 - 173
and insert:
Section 2. Section 15.182, Florida Statutes, is amended to read:
15.182 International travel by state-funded musical, cultural, or artistic organizations; notification to the Department of State ~~Economic Opportunity~~.—
(1) If a musical, cultural, or artistic organization that receives state funding is traveling internationally for a

AMERICAN OVERSIGHT

presentation, performance, or other significant public viewing, including an organization associated with a college or university, such organization shall notify the Department of State ~~Economic Opportunity~~ in writing of its intentions to travel, together with the date, time, and location of each appearance. The notice shall be provided to the department at least 30 days prior to the date the international travel is to commence or, when an intention to travel internationally is not formed at least 30 days in advance of the date the travel is to commence, as soon as feasible after forming such travel intention. The department shall take an active role in informing such artistic organizations of the responsibility to provide notice of international travel intentions.

(2) The Department of State ~~Economic Opportunity~~, in conjunction with the Department of Economic Opportunity and Enterprise Florida, Inc., shall act as an intermediary between performing musical, cultural, and artistic organizations and Florida businesses to encourage and coordinate joint undertakings. Such coordination may include, but is not limited to, encouraging business and industry to sponsor cultural events, assistance with travel of such organizations, and coordinating travel schedules of cultural performance groups and international trade missions.

~~(3) An organization shall provide the notification to the Department of State required by this section at least 30 days before the date the international travel is to commence or, when an intention to travel internationally is not formed at least 30 days in advance of the date the travel is to commence, as soon as feasible after forming such travel intention. The Department~~

AMERICAN OVERSIGHT

~~of State shall take an active role in informing such groups of the responsibility to notify the department of travel intentions.~~

Section 3. Paragraphs (c) and (d) of subsection (2) and subsection (3) of section 288.816, Florida Statutes, are amended to read:

288.816 Intergovernmental relations.—

(2) The state protocol officer shall be responsible for all consular relations between the state and all foreign governments doing business in Florida. The state protocol officer shall monitor United States laws and directives to ensure that all federal treaties regarding foreign privileges and immunities are properly observed. The state protocol officer shall:

~~(c) Issue certificates to such foreign governmental officials after verification pursuant to proper investigations through United States Department of State sources and the appropriate foreign government.~~

~~(d) Verify entitlement to sales and use tax exemptions pursuant to United States Department of State guidelines and identification methods.~~

(3) The state protocol officer may ~~shall operate the sister city and sister state program and establish such new programs as needed to further global understanding through the interchange of people, ideas, and culture between Florida and the world. To accomplish this purpose, the state protocol officer shall have the power and authority to~~:

(a) Coordinate and carry out activities designed to encourage the state and its subdivisions to participate in sister city and sister state affiliations with foreign countries

AMERICAN OVERSIGHT

and their subdivisions. Such activities may include a State of Florida sister cities conference.

(b) Encourage cooperation with and disseminate information pertaining to the Sister Cities International Program and any other program whose object is to promote linkages with foreign countries and their subdivisions.

(c) Maximize any aid available from all levels of government, public and private agencies, and other entities to facilitate such activities.

~~(d) Establish a viable system of registration for sister city and sister state affiliations between the state and foreign countries and their subdivisions. Such system shall include a method to determine that sufficient ties are properly established as well as a method to supervise how these ties are maintained.~~

~~(e) Maintain a current and accurate listing of all such affiliations. Sister city affiliations shall not be discouraged between the state and any country specified in s. 620(f)(1) of the federal Foreign Assistance Act of 1961, as amended, with whom the United States is currently conducting diplomatic relations unless a mandate from the United States Government expressly prohibits such affiliations.~~

Section 4. Section 288.8165, Florida Statutes, is created to read:

288.8165 Citizen support organizations.—

(1) CITIZEN SUPPORT ORGANIZATIONS.—The Department of State may authorize the establishment of citizen support organizations to provide assistance, funding, and promotional support for the intergovernmental programs of the department. For the purposes

AMERICAN OVERSIGHT

of this section, a "citizen support organization" means an organization which:

(a) Is a Florida corporation not for profit incorporated under chapter 617 and approved by the Department of State.

(b) Is organized and operated to conduct programs and activities; raise funds; request and receive grants, gifts, and bequests of money; acquire, receive, hold, invest, and administer, in its own name, securities, funds, or real or personal property; and make expenditures for the benefit of the intergovernmental programs of the department; except that such organization may not receive funds from the department by grant or gift unless specifically authorized by the Legislature. If the citizen support organization by contract provides fiscal and administrative services to the department for a grant or program that benefits the intergovernmental programs of the department, the organization may be reimbursed or compensated for such services by the department if the services are a direct benefit to the intergovernmental programs of the department.

(c) The department has determined to be consistent with the goals of the intergovernmental programs of the department and in the best interests of the state.

(d) Is approved in writing by the department to operate for the benefit of the intergovernmental programs of the department. Such approval must be stated in a letter of agreement from the Secretary of State.

(2) USE OF ADMINISTRATIVE SERVICES AND PROPERTY.—

(a) The department may permit a citizen support organization to use department property, facilities, and personnel free of charge. A citizen support organization may use

AMERICAN OVERSIGHT

commission property, facilities, and personnel if such use is consistent with the approved purpose of that citizen support organization and if such use does not unreasonably interfere with the general public's use of commission property, facilities, and personnel for established purposes.

(b) The department may prescribe conditions upon the use by a citizen support organization of commission property, facilities, or personnel.

(c) The department may not permit the use of any property, facilities, or personnel of the state by a citizen support organization that does not provide equal membership and employment opportunities to all persons regardless of race, color, national origin, religion, sex, or age.

(3) ANNUAL AUDIT.—Each citizen support organization shall provide for an annual financial audit in accordance with s. 215.981.

(4) FUTURE REPEAL.—This section is repealed October 1, 2025, unless reviewed and saved from repeal by the Legislature.

================ T I T L E A M E N D M E N T ================

And the title is amended as follows:

Delete lines 16 - 21

and insert:

creating s. 288.8165; authorizing the Department of State to support the establishment of citizen support organizations for certain purposes; defining the term "citizen support organization"; authorizing the department to adopt rules; prohibiting the department from allowing a

AMERICAN OVERSIGHT

FLORIDA DEPARTMENT of STATE

SB 1212 by Senator Gruters

International Affairs

- SB 1212 seeks to provide the Department of State with more of an active role in fostering strong international relationships and working more closely with the Consular Corp in Florida.

- The bill requires the Secretary of State to serve as the State Protocol Officer. These functions resided with the Secretary of State prior to 2004, when they were transferred to the Office of Tourism, Trade, and Economic Development within the Office of the Governor. In 2011, some functions were delegated to the newly created Department of Economic Opportunity, while the majority became duties of a state protocol officer to be named by the Governor and to be housed within the Executive Office of the Governor.

- The bill authorizes the Department of State to support the establishment of citizen support organization (CSO) for certain purposes.

- The bill removes the purpose statement of the sister city and sister state program and makes discretionary certain activities thereunder such as establishing new programs as needed.

- It also removes issuing certificates to foreign governmental officials after verification pursuant to proper investigations through the United States DOS and the appropriate foreign government.

- Additionally, The Department of State, Office of the Secretary and the Division of Administrative Services, requests $123,994 ($119,868 recurring and $4,126 nonrecurring) in budget authority from the General Revenue Fund for 1.00 Full Time Equivalent (FTE) position to establish the Office of International Affairs.

BILL ANALYSIS INFORMATION	
DATE OF ANALYSIS:	1/15/2020
LEAD AGENCY ANALYST:	Brittany Dover
ADDITIONAL ANALYST(S):	Sandy Shaugnessy/Curtis Young
LEGAL ANALYST:	Colleen O'Brien
FISCAL ANALYST:	Click or tap here to enter text.

POLICY ANALYSIS

1. EXECUTIVE SUMMARY

Returning state protocol officer designation to prior statutory placement and reviving prior language designating the Secretary of State as the state protocol officer; returning coordination functions and duties pertaining to international travel by state-funded musical, cultural, or artistic organizations to the Department of State, in conjunction with the Department of Economic Opportunity and Enterprise Florida, Inc.; removing or making discretionary certain intergovernmental relations functions of the state protocol officer; authorizing the establishment of citizen support organizations to provide assistance, funding, and promotional support for intergovernmental programs. Effective Date: July 1, 2020.

2. SUBSTANTIVE BILL ANALYSIS

1. PRESENT SITUATION:

State protocol officer functions resided with the Secretary of State as the state protocol officer prior to 2004, when they were transferred to the Office of Tourism, Trade, and Economic Development within the Office of the Governor. In 2011, some functions were delegated to the newly created Department of Economic Opportunity, while the majority became duties of a state protocol officer to be named by the Governor and to be housed within the Executive Office of the Governor.

2. EFFECT OF THE BILL:

The bill names the Secretary of State as the state protocol officer, along with the attendant intergovernmental relations functions under sections 288.816 (with some amendments to duties) and 15.182, Florida Statutes.

As to amendments to duties, the bill strikes the following intergovernmental relations functions from section 288.816, Florida Statutes:

- Issuing certificates to foreign governmental officials after verification pursuant to proper investigations through United States Department of State sources and the appropriate foreign government;
- Verifying entitlement to sales and use tax exemptions pursuant to United States Department of State guidelines and identification methods;
- Establishing a viable system of registration and sister state affiliations between the state and foreign countries and their subdivisions, including establishing mechanisms to supervise the maintenance of these ties; and

AMERICAN OVERSIGHT

- Maintaining a current and accurate listing of all such affiliations.

The bill additionally strikes language prescribing certain parameters on sister city and state affiliations.

The bill removes the purpose statement of the sister city and sister state program and makes discretionary certain activities thereunder, such as establishing new programs as needed.

The bill creates new section 288.8161, Florida Statutes, authorizing the establishment of citizen support organizations to provide assistance, funding, and promotional support to the Department of State for intergovernmental programs.

3. DOES THE BILL DIRECT OR ALLOW THE AGENCY/BOARD/COMMISSION/DEPARTMENT TO DEVELOP, ADOPT, OR ELIMINATE RULES, REGULATIONS, POLICIES, OR PROCEDURES? Y☐ N☒

If yes, explain:	Click or tap here to enter text.
Is the change consistent with the agency's core mission?	Y☐ N☐
Rule(s) impacted (provide references to F.A.C., etc.):	Click or tap here to enter text.

4. **WHAT IS THE POSITION OF AFFECTED CITIZENS OR STAKEHOLDER GROUPS?**

Proponents and summary of position:	Unknown
Opponents and summary of position:	Unknown

5. ARE THERE ANY REPORTS OR STUDIES REQUIRED BY THIS BILL? Y☐ N☒

AMERICAN OVERSIGHT

TECHNOLOGY IMPACT

1. DOES THE BILL IMPACT THE AGENCY'S TECHNOLOGY SYSTEMS (I.E. IT SUPPORT, LICENSING SOFTWARE, DATA STORAGE, ETC.)? Y☐ N☒

If yes, describe the anticipated impact to the agency including any fiscal impact.	Click or tap here to enter text.

FEDERAL IMPACT

1. DOES THE BILL HAVE A FEDERAL IMPACT (I.E. FEDERAL COMPLIANCE, FEDERAL FUNDING, FEDERAL AGENCY INVOLVEMENT, ETC.)? Y☐ N☒

If yes, describe the anticipated impact including any fiscal impact.	Click or tap here to enter text.

ADDITIONAL COMMENTS

LEGAL - GENERAL COUNSEL'S OFFICE REVIEW

Issues/concerns/comments:	If the duties being stricken from section 288.816 are currently necessary and being performed, they may need to be specifically delegated to the performing entity or individual so as not to leave a void in duties. If they are unnecessary or duplicative of another entity or individual's existing responsibilities, striking them should suffice.

AMERICAN OVERSIGHT

State Protocol Officer (Office of International Affairs) Talking Points:

- State protocol officer functions resided with the Secretary of State as the state protocol officer prior to 2004, when they were transferred to the Office of Tourism, Trade and Economic Development within the Office of Governor.

- In 2011, some functions were delegated to the newly created Department of Economic Opportunity while the majority became duties of a state protocol officer to be named by the Governor and to be housed within the EOG.

- This bill returns certain state protocol officer and intergovernmental relations functions back to the Secretary of State.

- Bill requires (1) FTE at $117,896 for FY 20-21. Which has been included in the Governor's recommended budget.

- The bill removes the purpose statement of the sister city and sister state program and makes discretionary certain activities thereunder such as establishing new programs as needed.

- The bill removes issuing certificates to foreign governmental officials after verification pursuant to proper investigations through the United States DOS and the appropriate foreign government.

- The bill removes verifying entitlement to sales and use tax exemptions pursuant to the United States DOS guidelines and identification methods.

- The bill removes maintaining a current and accurate listing of all such affiliations.

- Lastly, the bill removes the language prescribing certain parameters on the sister city and state affiliations.

AMERICAN OVERSIGHT

By Senator Gruters

23-00203-20 2020126__

A bill to be entitled

An act relating to the sales and use tax; amending s. 212.02, F.S.; revising the definition of the term "retail sale"; amending s. 212.05, F.S.; conforming a provision to changes made by the act; amending s. 212.0596, F.S.; renaming the term "mail order sale" to "remote sale" and revising the definition; revising conditions under which certain dealers are subject to sales tax levies and collection; defining the term "making a substantial number of remote sales"; deleting an exemption for certain dealers from collecting local option surtaxes; conforming provisions to changes made by the act; creating s. 212.05965, F.S.; defining terms; providing that certain marketplace providers are subject to registration, collection, and remittance requirements for sales taxes; requiring marketplace providers to provide a certain certification to their marketplace sellers; specifying requirements for marketplace sellers; requiring marketplace providers to allow the Department of Revenue to examine and audit their books and records; specifying the examination and audit authority of the department; providing that a marketplace seller, and not the marketplace provider, is liable for sales tax collection and remittance under certain circumstances; authorizing marketplace providers and marketplace sellers to enter into agreements for the recovery of certain taxes, interest, and penalties; authorizing the department to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002389

settle and compromise taxes, interest, or penalties assessed on sales conducted through a marketplace; providing construction and applicability; amending s. 212.06, F.S.; revising the definition of the term "dealer"; conforming provisions to changes made by the act; amending s. 212.12, F.S.; deleting an exclusion from certain dealers who are allowed a dealer's credit for collecting tax; deleting the authority of the department's executive director to negotiate a collection allowance with certain dealers; conforming a provision to changes made by the act; amending s. 212.18, F.S.; conforming a provision to changes made by the act; reenacting s. 212.20(4), F.S., relating to refunds of taxes adjudicated unconstitutionally collected, to incorporate the amendment made to s. 212.0596, F.S., in a reference thereto; authorizing the department to adopt emergency rules; providing for expiration of the authority; providing for severability; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (e) of subsection (14) of section 212.02, Florida Statutes, is amended to read:

212.02 Definitions.—The following terms and phrases when used in this chapter have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

(14)

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002390

(e) The term "retail sale" includes a remote ~~mail order~~ sale~~,~~ as defined in s. 212.0596(1).

(f) The term "retail sale" includes a sale facilitated through a marketplace as defined in s. 212.05965(1).

~~Section 2. Effective October 1, 2020, paragraph (f) is added to subsection (14) of section 212.02, Florida Statutes, to read:~~

~~212.02 Definitions.—The following terms and phrases when used in this chapter have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:~~

~~(14)~~

~~(f) The term "retail sale" includes a sale facilitated through a marketplace as defined in s. 212.05965(1).~~

Section ~~3~~2. Section 212.05, Florida Statutes, is amended to read:

212.05 Sales, storage, use tax.—It is hereby declared to be the legislative intent that every person is exercising a taxable privilege who engages in the business of selling tangible personal property at retail in this state, including the business of making remote ~~mail order~~ sales;~~, or~~ who rents or furnishes any of the things or services taxable under this chapter;~~,~~ or who stores for use or consumption in this state any item or article of tangible personal property as defined herein and who leases or rents such property within the state.

(1) For the exercise of such privilege, a tax is levied on each taxable transaction or incident, which tax is due and payable as follows:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002391

(a)1.a. At the rate of 6 percent of the sales price of each item or article of tangible personal property when sold at retail in this state, computed on each taxable sale for the purpose of remitting the amount of tax due the state, and including each and every retail sale.

b. Each occasional or isolated sale of an aircraft, boat, mobile home, or motor vehicle of a class or type which is required to be registered, licensed, titled, or documented in this state or by the United States Government shall be subject to tax at the rate provided in this paragraph. The department shall by rule adopt any nationally recognized publication for valuation of used motor vehicles as the reference price list for any used motor vehicle which is required to be licensed pursuant to s. 320.08(1), (2), (3)(a), (b), (c), or (e), or (9). If any party to an occasional or isolated sale of such a vehicle reports to the tax collector a sales price which is less than 80 percent of the average loan price for the specified model and year of such vehicle as listed in the most recent reference price list, the tax levied under this paragraph shall be computed by the department on such average loan price unless the parties to the sale have provided to the tax collector an affidavit signed by each party, or other substantial proof, stating the actual sales price. Any party to such sale who reports a sales price less than the actual sales price is guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083. The department shall collect or attempt to collect from such party any delinquent sales taxes. In addition, such party shall pay any tax due and any penalty and interest assessed plus a penalty equal to twice the amount

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002392

of the additional tax owed. Notwithstanding any other provision of law, the Department of Revenue may waive or compromise any penalty imposed pursuant to this subparagraph.

2. This paragraph does not apply to the sale of a boat or aircraft by or through a registered dealer under this chapter to a purchaser who, at the time of taking delivery, is a nonresident of this state, does not make his or her permanent place of abode in this state, and is not engaged in carrying on in this state any employment, trade, business, or profession in which the boat or aircraft will be used in this state, or is a corporation none of the officers or directors of which is a resident of, or makes his or her permanent place of abode in, this state, or is a noncorporate entity that has no individual vested with authority to participate in the management, direction, or control of the entity's affairs who is a resident of, or makes his or her permanent abode in, this state. For purposes of this exemption, either a registered dealer acting on his or her own behalf as seller, a registered dealer acting as broker on behalf of a seller, or a registered dealer acting as broker on behalf of the purchaser may be deemed to be the selling dealer. This exemption shall not be allowed unless:

a. The purchaser removes a qualifying boat, as described in sub-subparagraph f., from the state within 90 days after the date of purchase or extension, or the purchaser removes a nonqualifying boat or an aircraft from this state within 10 days after the date of purchase or, when the boat or aircraft is repaired or altered, within 20 days after completion of the repairs or alterations; or if the aircraft will be registered in a foreign jurisdiction and:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002393

(I) Application for the aircraft's registration is properly filed with a civil airworthiness authority of a foreign jurisdiction within 10 days after the date of purchase;

(II) The purchaser removes the aircraft from the state to a foreign jurisdiction within 10 days after the date the aircraft is registered by the applicable foreign airworthiness authority; and

(III) The aircraft is operated in the state solely to remove it from the state to a foreign jurisdiction.

For purposes of this sub-subparagraph, the term "foreign jurisdiction" means any jurisdiction outside of the United States or any of its territories;

b. The purchaser, within 30 days from the date of departure, provides the department with written proof that the purchaser licensed, registered, titled, or documented the boat or aircraft outside the state. If such written proof is unavailable, within 30 days the purchaser shall provide proof that the purchaser applied for such license, title, registration, or documentation. The purchaser shall forward to the department proof of title, license, registration, or documentation upon receipt;

c. The purchaser, within 10 days of removing the boat or aircraft from Florida, furnishes the department with proof of removal in the form of receipts for fuel, dockage, slippage, tie-down, or hangaring from outside of Florida. The information so provided must clearly and specifically identify the boat or aircraft;

d. The selling dealer, within 5 days of the date of sale,

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002394

provides to the department a copy of the sales invoice, closing statement, bills of sale, and the original affidavit signed by the purchaser attesting that he or she has read the provisions of this section;

e. The seller makes a copy of the affidavit a part of his or her record for as long as required by s. 213.35; and

f. Unless the nonresident purchaser of a boat of 5 net tons of admeasurement or larger intends to remove the boat from this state within 10 days after the date of purchase or when the boat is repaired or altered, within 20 days after completion of the repairs or alterations, the nonresident purchaser applies to the selling dealer for a decal which authorizes 90 days after the date of purchase for removal of the boat. The nonresident purchaser of a qualifying boat may apply to the selling dealer within 60 days after the date of purchase for an extension decal that authorizes the boat to remain in this state for an additional 90 days, but not more than a total of 180 days, before the nonresident purchaser is required to pay the tax imposed by this chapter. The department is authorized to issue decals in advance to dealers. The number of decals issued in advance to a dealer shall be consistent with the volume of the dealer's past sales of boats which qualify under this sub-subparagraph. The selling dealer or his or her agent shall mark and affix the decals to qualifying boats in the manner prescribed by the department, before delivery of the boat.

(I) The department is hereby authorized to charge dealers a fee sufficient to recover the costs of decals issued, except the extension decal shall cost $425.

(II) The proceeds from the sale of decals will be deposited

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002395

into the administrative trust fund.

(III) Decals shall display information to identify the boat as a qualifying boat under this sub-subparagraph, including, but not limited to, the decal's date of expiration.

(IV) The department is authorized to require dealers who purchase decals to file reports with the department and may prescribe all necessary records by rule. All such records are subject to inspection by the department.

(V) Any dealer or his or her agent who issues a decal falsely, fails to affix a decal, mismarks the expiration date of a decal, or fails to properly account for decals will be considered prima facie to have committed a fraudulent act to evade the tax and will be liable for payment of the tax plus a mandatory penalty of 200 percent of the tax, and shall be liable for fine and punishment as provided by law for a conviction of a misdemeanor of the first degree, as provided in s. 775.082 or s. 775.083.

(VI) Any nonresident purchaser of a boat who removes a decal before permanently removing the boat from the state, or defaces, changes, modifies, or alters a decal in a manner affecting its expiration date before its expiration, or who causes or allows the same to be done by another, will be considered prima facie to have committed a fraudulent act to evade the tax and will be liable for payment of the tax plus a mandatory penalty of 200 percent of the tax, and shall be liable for fine and punishment as provided by law for a conviction of a misdemeanor of the first degree, as provided in s. 775.082 or s. 775.083.

(VII) The department is authorized to adopt rules necessary

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002396

to administer and enforce this subparagraph and to publish the necessary forms and instructions.

(VIII) The department is hereby authorized to adopt emergency rules pursuant to s. 120.54(4) to administer and enforce the provisions of this subparagraph.

If the purchaser fails to remove the qualifying boat from this state within the maximum 180 days after purchase or a nonqualifying boat or an aircraft from this state within 10 days after purchase or, when the boat or aircraft is repaired or altered, within 20 days after completion of such repairs or alterations, or permits the boat or aircraft to return to this state within 6 months from the date of departure, except as provided in s. 212.08(7)(fff), or if the purchaser fails to furnish the department with any of the documentation required by this subparagraph within the prescribed time period, the purchaser shall be liable for use tax on the cost price of the boat or aircraft and, in addition thereto, payment of a penalty to the Department of Revenue equal to the tax payable. This penalty shall be in lieu of the penalty imposed by s. 212.12(2). The maximum 180-day period following the sale of a qualifying boat tax-exempt to a nonresident may not be tolled for any reason.

(b) At the rate of 6 percent of the cost price of each item or article of tangible personal property when the same is not sold but is used, consumed, distributed, or stored for use or consumption in this state; however, for tangible property originally purchased exempt from tax for use exclusively for lease and which is converted to the owner’s own use, tax may be

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002397

paid on the fair market value of the property at the time of conversion. If the fair market value of the property cannot be determined, use tax at the time of conversion shall be based on the owner's acquisition cost. Under no circumstances may the aggregate amount of sales tax from leasing the property and use tax due at the time of conversion be less than the total sales tax that would have been due on the original acquisition cost paid by the owner.

(c) At the rate of 6 percent of the gross proceeds derived from the lease or rental of tangible personal property, as defined herein; however, the following special provisions apply to the lease or rental of motor vehicles:

1. When a motor vehicle is leased or rented for a period of less than 12 months:

a. If the motor vehicle is rented in Florida, the entire amount of such rental is taxable, even if the vehicle is dropped off in another state.

b. If the motor vehicle is rented in another state and dropped off in Florida, the rental is exempt from Florida tax.

2. Except as provided in subparagraph 3., for the lease or rental of a motor vehicle for a period of not less than 12 months, sales tax is due on the lease or rental payments if the vehicle is registered in this state; provided, however, that no tax shall be due if the taxpayer documents use of the motor vehicle outside this state and tax is being paid on the lease or rental payments in another state.

3. The tax imposed by this chapter does not apply to the lease or rental of a commercial motor vehicle as defined in s. 316.003(13)(a) to one lessee or rentee for a period of not less

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002398

than 12 months when tax was paid on the purchase price of such vehicle by the lessor. To the extent tax was paid with respect to the purchase of such vehicle in another state, territory of the United States, or the District of Columbia, the Florida tax payable shall be reduced in accordance with the provisions of s. 212.06(7). This subparagraph shall only be available when the lease or rental of such property is an established business or part of an established business or the same is incidental or germane to such business.

(d) At the rate of 6 percent of the lease or rental price paid by a lessee or rentee, or contracted or agreed to be paid by a lessee or rentee, to the owner of the tangible personal property.

(e)1. At the rate of 6 percent on charges for:

a. Prepaid calling arrangements. The tax on charges for prepaid calling arrangements shall be collected at the time of sale and remitted by the selling dealer.

(I) "Prepaid calling arrangement" has the same meaning as provided in s. 202.11.

(II) If the sale or recharge of the prepaid calling arrangement does not take place at the dealer's place of business, it shall be deemed to have taken place at the customer's shipping address or, if no item is shipped, at the customer's address or the location associated with the customer's mobile telephone number.

(III) The sale or recharge of a prepaid calling arrangement shall be treated as a sale of tangible personal property for purposes of this chapter, regardless of whether a tangible item evidencing such arrangement is furnished to the purchaser, and

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002399

such sale within this state subjects the selling dealer to the jurisdiction of this state for purposes of this subsection.

(IV) No additional tax under this chapter or chapter 202 is due or payable if a purchaser of a prepaid calling arrangement who has paid tax under this chapter on the sale or recharge of such arrangement applies one or more units of the prepaid calling arrangement to obtain communications services as described in s. 202.11(9)(b)3., other services that are not communications services, or products.

b. The installation of telecommunication and telegraphic equipment.

c. Electrical power or energy, except that the tax rate for charges for electrical power or energy is 4.35 percent. Charges for electrical power and energy do not include taxes imposed under ss. 166.231 and 203.01(1)(a)3.

2. Section 212.17(3), regarding credit for tax paid on charges subsequently found to be worthless, is equally applicable to any tax paid under this section on charges for prepaid calling arrangements, telecommunication or telegraph services, or electric power subsequently found to be uncollectible. As used in this paragraph, the term "charges" does not include any excise or similar tax levied by the Federal Government, a political subdivision of this state, or a municipality upon the purchase, sale, or recharge of prepaid calling arrangements or upon the purchase or sale of telecommunication, television system program, or telegraph service or electric power, which tax is collected by the seller from the purchaser.

(f) At the rate of 6 percent on the sale, rental, use,

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002400

consumption, or storage for use in this state of machines and equipment, and parts and accessories therefor, used in manufacturing, processing, compounding, producing, mining, or quarrying personal property for sale or to be used in furnishing communications, transportation, or public utility services.

(g)1. At the rate of 6 percent on the retail price of newspapers and magazines sold or used in Florida.

2. Notwithstanding other provisions of this chapter, inserts of printed materials which are distributed with a newspaper or magazine are a component part of the newspaper or magazine, and neither the sale nor use of such inserts is subject to tax when:

a. Printed by a newspaper or magazine publisher or commercial printer and distributed as a component part of a newspaper or magazine, which means that the items after being printed are delivered directly to a newspaper or magazine publisher by the printer for inclusion in editions of the distributed newspaper or magazine;

b. Such publications are labeled as part of the designated newspaper or magazine publication into which they are to be inserted; and

c. The purchaser of the insert presents a resale certificate to the vendor stating that the inserts are to be distributed as a component part of a newspaper or magazine.

(h)1. A tax is imposed at the rate of 4 percent on the charges for the use of coin-operated amusement machines. The tax shall be calculated by dividing the gross receipts from such charges for the applicable reporting period by a divisor, determined as provided in this subparagraph, to compute gross

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002401

taxable sales, and then subtracting gross taxable sales from gross receipts to arrive at the amount of tax due. For counties that do not impose a discretionary sales surtax, the divisor is equal to 1.04; for counties that impose a 0.5 percent discretionary sales surtax, the divisor is equal to 1.045; for counties that impose a 1 percent discretionary sales surtax, the divisor is equal to 1.050; and for counties that impose a 2 percent sales surtax, the divisor is equal to 1.060. If a county imposes a discretionary sales surtax that is not listed in this subparagraph, the department shall make the applicable divisor available in an electronic format or otherwise. Additional divisors shall bear the same mathematical relationship to the next higher and next lower divisors as the new surtax rate bears to the next higher and next lower surtax rates for which divisors have been established. When a machine is activated by a slug, token, coupon, or any similar device which has been purchased, the tax is on the price paid by the user of the device for such device.

2. As used in this paragraph, the term "operator" means any person who possesses a coin-operated amusement machine for the purpose of generating sales through that machine and who is responsible for removing the receipts from the machine.

a. If the owner of the machine is also the operator of it, he or she shall be liable for payment of the tax without any deduction for rent or a license fee paid to a location owner for the use of any real property on which the machine is located.

b. If the owner or lessee of the machine is also its operator, he or she shall be liable for payment of the tax on the purchase or lease of the machine, as well as the tax on

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002402

sales generated through the machine.

c. If the proprietor of the business where the machine is located does not own the machine, he or she shall be deemed to be the lessee and operator of the machine and is responsible for the payment of the tax on sales, unless such responsibility is otherwise provided for in a written agreement between him or her and the machine owner.

3.a. An operator of a coin-operated amusement machine may not operate or cause to be operated in this state any such machine until the operator has registered with the department and has conspicuously displayed an identifying certificate issued by the department. The identifying certificate shall be issued by the department upon application from the operator. The identifying certificate shall include a unique number, and the certificate shall be permanently marked with the operator's name, the operator's sales tax number, and the maximum number of machines to be operated under the certificate. An identifying certificate shall not be transferred from one operator to another. The identifying certificate must be conspicuously displayed on the premises where the coin-operated amusement machines are being operated.

b. The operator of the machine must obtain an identifying certificate before the machine is first operated in the state and by July 1 of each year thereafter. The annual fee for each certificate shall be based on the number of machines identified on the application times $30 and is due and payable upon application for the identifying device. The application shall contain the operator's name, sales tax number, business address where the machines are being operated, and the number of

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002403

machines in operation at that place of business by the operator. No operator may operate more machines than are listed on the certificate. A new certificate is required if more machines are being operated at that location than are listed on the certificate. The fee for the new certificate shall be based on the number of additional machines identified on the application form times $30.

c. A penalty of $250 per machine is imposed on the operator for failing to properly obtain and display the required identifying certificate. A penalty of $250 is imposed on the lessee of any machine placed in a place of business without a proper current identifying certificate. Such penalties shall apply in addition to all other applicable taxes, interest, and penalties.

d. Operators of coin-operated amusement machines must obtain a separate sales and use tax certificate of registration for each county in which such machines are located. One sales and use tax certificate of registration is sufficient for all of the operator’s machines within a single county.

4. The provisions of this paragraph do not apply to coin-operated amusement machines owned and operated by churches or synagogues.

5. In addition to any other penalties imposed by this chapter, a person who knowingly and willfully violates any provision of this paragraph commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

6. The department may adopt rules necessary to administer the provisions of this paragraph.

(i)1. At the rate of 6 percent on charges for all:

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002404

a. Detective, burglar protection, and other protection services (NAICS National Numbers 561611, 561612, 561613, and 561621). Fingerprint services required under s. 790.06 or s. 790.062 are not subject to the tax. Any law enforcement officer, as defined in s. 943.10, who is performing approved duties as determined by his or her local law enforcement agency in his or her capacity as a law enforcement officer, and who is subject to the direct and immediate command of his or her law enforcement agency, and in the law enforcement officer's uniform as authorized by his or her law enforcement agency, is performing law enforcement and public safety services and is not performing detective, burglar protection, or other protective services, if the law enforcement officer is performing his or her approved duties in a geographical area in which the law enforcement officer has arrest jurisdiction. Such law enforcement and public safety services are not subject to tax irrespective of whether the duty is characterized as "extra duty," "off-duty," or "secondary employment," and irrespective of whether the officer is paid directly or through the officer's agency by an outside source. The term "law enforcement officer" includes full-time or part-time law enforcement officers, and any auxiliary law enforcement officer, when such auxiliary law enforcement officer is working under the direct supervision of a full-time or part-time law enforcement officer.

b. Nonresidential cleaning, excluding cleaning of the interiors of transportation equipment, and nonresidential building pest control services (NAICS National Numbers 561710 and 561720).

2. As used in this paragraph, "NAICS" means those

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002405

classifications contained in the North American Industry Classification System, as published in 2007 by the Office of Management and Budget, Executive Office of the President.

3. Charges for detective, burglar protection, and other protection security services performed in this state but used outside this state are exempt from taxation. Charges for detective, burglar protection, and other protection security services performed outside this state and used in this state are subject to tax.

4. If a transaction involves both the sale or use of a service taxable under this paragraph and the sale or use of a service or any other item not taxable under this chapter, the consideration paid must be separately identified and stated with respect to the taxable and exempt portions of the transaction or the entire transaction shall be presumed taxable. The burden shall be on the seller of the service or the purchaser of the service, whichever applicable, to overcome this presumption by providing documentary evidence as to which portion of the transaction is exempt from tax. The department is authorized to adjust the amount of consideration identified as the taxable and exempt portions of the transaction; however, a determination that the taxable and exempt portions are inaccurately stated and that the adjustment is applicable must be supported by substantial competent evidence.

5. Each seller of services subject to sales tax pursuant to this paragraph shall maintain a monthly log showing each transaction for which sales tax was not collected because the services meet the requirements of subparagraph 3. for out-of-state use. The log must identify the purchaser’s name, location

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002406

and mailing address, and federal employer identification number, if a business, or the social security number, if an individual, the service sold, the price of the service, the date of sale, the reason for the exemption, and the sales invoice number. The monthly log shall be maintained pursuant to the same requirements and subject to the same penalties imposed for the keeping of similar records pursuant to this chapter.

(j)1. Notwithstanding any other provision of this chapter, there is hereby levied a tax on the sale, use, consumption, or storage for use in this state of any coin or currency, whether in circulation or not, when such coin or currency:

a. Is not legal tender;

b. If legal tender, is sold, exchanged, or traded at a rate in excess of its face value; or

c. Is sold, exchanged, or traded at a rate based on its precious metal content.

2. Such tax shall be at a rate of 6 percent of the price at which the coin or currency is sold, exchanged, or traded, except that, with respect to a coin or currency which is legal tender of the United States and which is sold, exchanged, or traded, such tax shall not be levied.

3. There are exempt from this tax exchanges of coins or currency which are in general circulation in, and legal tender of, one nation for coins or currency which are in general circulation in, and legal tender of, another nation when exchanged solely for use as legal tender and at an exchange rate based on the relative value of each as a medium of exchange.

4. With respect to any transaction that involves the sale of coins or currency taxable under this paragraph in which the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002407

taxable amount represented by the sale of such coins or currency exceeds $500, the entire amount represented by the sale of such coins or currency is exempt from the tax imposed under this paragraph. The dealer must maintain proper documentation, as prescribed by rule of the department, to identify that portion of a transaction which involves the sale of coins or currency and is exempt under this subparagraph.

(k) At the rate of 6 percent of the sales price of each gallon of diesel fuel not taxed under chapter 206 purchased for use in a vessel, except dyed diesel fuel that is exempt pursuant to s. 212.08(4)(a)4.

(l) Florists located in this state are liable for sales tax on sales to retail customers regardless of where or by whom the items sold are to be delivered. Florists located in this state are not liable for sales tax on payments received from other florists for items delivered to customers in this state.

(m) Operators of game concessions or other concessionaires who customarily award tangible personal property as prizes may, in lieu of paying tax on the cost price of such property, pay tax on 25 percent of the gross receipts from such concession activity.

(2) The tax shall be collected by the dealer, as defined herein, and remitted by the dealer to the state at the time and in the manner as hereinafter provided.

(3) The tax so levied is in addition to all other taxes, whether levied in the form of excise, license, or privilege taxes, and in addition to all other fees and taxes levied.

(4) The tax imposed pursuant to this chapter shall be due and payable according to the brackets set forth in s. 212.12.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002408

(5) Notwithstanding any other provision of this chapter, the maximum amount of tax imposed under this chapter and collected on each sale or use of a boat in this state may not exceed $18,000 and on each repair of a boat in this state may not exceed $60,000.

Section 43. Section 212.0596, Florida Statutes, is amended to read:

212.0596 Taxation of remote ~~mail order~~ sales.—

(1) For purposes of this chapter, a "remote ~~mail order~~ sale" is a retail sale of tangible personal property~~,~~ ordered by mail, telephone, the Internet, or other means of communication, from a dealer who receives the order outside of this state ~~in another state of the United States, or in a commonwealth, territory, or other area under the jurisdiction of the United States,~~ and transports the property or causes the property to be transported~~, whether or not by mail,~~ from any jurisdiction ~~of the United States~~, including this state, to a person in this state, including the person who ordered the property.

(2) Every dealer as defined in s. 212.06(2)(c) who makes a remote ~~mail order~~ sale is subject to the power of this state to levy and collect the tax imposed by this chapter when any of the following applies:

(a) The dealer is a corporation doing business under the laws of this state or is a person domiciled in, a resident of, or a citizen of~~,~~ this state.~~,~~

(b) The dealer maintains retail establishments or offices in this state, regardless of whether the remote ~~mail order~~ sales thus subject to taxation by this state result from or are related in any other way to the activities of such

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002409

establishments or offices.~~;~~

(c) The dealer has agents in this state who solicit business or transact business on behalf of the dealer, regardless of whether the remote ~~mail order~~ sales thus subject to taxation by this state result from or are related in any other way to such solicitation or transaction of business. For purposes of this paragraph, ~~except that~~ a printer who mails or delivers for an out-of-state print purchaser material the printer printed for it is ~~shall~~ not ~~be~~ deemed to be the print purchaser's agent. ~~for purposes of this paragraph;~~

(d) The property was delivered in this state in fulfillment of a sales contract that was entered into in this state, in accordance with applicable conflict of laws rules, when a person in this state accepted an offer by ordering the property.~~;~~

(e) The dealer, by purposefully or systematically exploiting the market provided by this state by any media-assisted, media-facilitated, or media-solicited means, including, but not limited to, direct mail advertising, unsolicited distribution of catalogs, computer-assisted shopping, television, radio, or other electronic media, or magazine or newspaper advertisements or other media, creates nexus with this state.~~;~~

(f) Through compact or reciprocity with another jurisdiction of the United States, that jurisdiction uses its taxing power and its jurisdiction over the retailer in support of this state's taxing power.~~;~~

(g) The dealer consents, expressly or by implication, to the imposition of the tax imposed by this chapter.~~;~~

(h) The dealer is subject to service of process under s.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002410

48.181.~~;~~

(i) The dealer's remote ~~mail order~~ sales are subject to the power of this state to tax sales or to require the dealer to collect use taxes under a statute or statutes of the United States.~~;~~

(j) The dealer owns real property or tangible personal property that is physically in this state. For purposes of this paragraph, ~~except that~~ a dealer whose only property, ~~(~~including property owned by an affiliate,~~)~~ in this state is located at the premises of a printer with which the vendor has contracted for printing~~,~~ and is either a final printed product, ~~or~~ property that ~~which~~ becomes a part of the final printed product, or property from which the printed product is produced, is not deemed to own such property. ~~for purposes of this paragraph;~~

(k) The dealer, while not having nexus with this state on any of the bases described in paragraphs (a)-(j) or paragraph (l), is a corporation that is a member of an affiliated group of corporations, as defined in s. 1504(a) of the Internal Revenue Code, whose members are includable under s. 1504(b) of the Internal Revenue Code and whose members are eligible to file a consolidated tax return for federal corporate income tax purposes and any parent or subsidiary corporation in the affiliated group has nexus with this state on one or more of the bases described in paragraphs (a)-(j) or paragraph (l).~~; or~~

(l) The dealer or the dealer's activities, ~~have sufficient connection with or relationship to this state or its residents of some type~~ other than those described in paragraphs (a)-(k), result in making a substantial number of remote sales under subsection (3) ~~to create nexus empowering this state to tax its~~

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002411

~~mail order sales or to require the dealer to collect sales tax or accrue use tax~~.

(3)(a) Every person ~~dealer~~ engaged in the business of making a substantial number of remote ~~mail order~~ sales is a dealer for purposes of this chapter ~~subject to the requirements of this chapter for cooperation of dealers in collection of taxes and in administration of this chapter, except that no fee shall be imposed upon such dealer for carrying out any required activity~~.

(b) As used in this section, the term "making a substantial number of remote sales" means:

1. Conducting 200 or more retail sales of tangible personal property in the previous calendar year to be delivered to a location within this state; or

2. Conducting any number of retail sales of tangible personal property in an amount exceeding $100,000 in the previous calendar year to be delivered to a location within this state.

For purposes of this paragraph, tangible personal property delivered to a location within this state is presumed to be used, consumed, distributed, or stored to be used or consumed in this state.

(4) The department shall, with the consent of another jurisdiction of the United States whose cooperation is needed, enforce this chapter in that jurisdiction, either directly or, at the option of that jurisdiction, through its officers or employees.

(5) The tax required under this section to be collected and

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002412

any amount unreturned to a purchaser that is not tax but was collected from the purchaser under the representation that it was tax constitute funds of the State of Florida from the moment of collection.

(6) ~~Notwithstanding other provisions of law, a dealer who makes a mail order sale in this state is exempt from collecting and remitting any local option surtax on the sale, unless the dealer is located in a county that imposes a surtax within the meaning of s. 212.054(3)(a), the order is placed through the dealer's location in such county, and the property purchased is delivered into such county or into another county in this state that levies the surtax, in which case the provisions of s. 212.054(3)(a) are applicable.~~

~~(7)~~ The department may establish by rule procedures for collecting the use tax from unregistered persons who but for their remote ~~mail order~~ purchases would not be required to remit sales or use tax directly to the department. The procedures may provide for waiver of registration, provisions for irregular remittance of tax, elimination of the collection allowance, and nonapplication of local option surtaxes.

Section ~~54~~. ~~Effective October 1, 2020, section~~Section 212.05965, Florida Statutes, is created to read:

212.05965 Taxation of marketplace sales.—

(1) As used in this section, the term:

(a) "Marketplace" means any physical place or electronic medium through which tangible personal property is offered for sale.

(b) "Marketplace provider" means a person who facilitates a retail sale by a marketplace seller by listing or advertising

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002413

for sale by the marketplace seller tangible personal property in a marketplace, and who directly, or indirectly through agreements or arrangements with third parties, collects payment from the customer and transmits the payment to the marketplace seller, regardless of whether the marketplace provider receives compensation or other consideration in exchange for its services.

1. The term does not include a person who solely provides travel agency services. As used in this subparagraph, the term "travel agency services" means arranging, booking, or otherwise facilitating for a commission, fee, or other consideration vacation or travel packages, rental cars, or other travel reservations; tickets for domestic or foreign travel by air, rail, ship, bus, or other mode of transportation; or hotel or other lodging accommodations.

2. The term does not include a person who is a delivery network company unless the delivery network company is a registered dealer for purposes of this chapter and the delivery network company notifies all local merchants that sell through the delivery network company's website or mobile application that the delivery network company is subject to the requirements of a marketplace provider under this section. As used in this subparagraph, the term:

a. "Delivery network company" means a person who maintains a website or mobile application used to facilitate delivery services, the sale of local products, or both.

b. "Delivery network courier" means an individual who provides delivery services through a delivery network company website or mobile application using a personal means of

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002414

transportation, such as a motor vehicle as defined in s. 320.01(1), bicycle, scooter, or other similar means of transportation; using public transportation; or by walking.

c. "Delivery services" means the pickup and delivery by a delivery network courier of one or more local products from a local merchant to a customer, which may include the selection, collection, and purchase of the local product in connection with the delivery. The term does not include any delivery requiring more than 75 miles of travel from the local merchant to the customer.

d. "Local merchant" means a kitchen, restaurant, or a third-party merchant, including a grocery store, retail store, convenience store, or business of another type, which is not under common ownership or control of the delivery network company.

e. "Local product" means any tangible personal property, including food, but excluding freight, mail, or a package to which postage has been affixed.

3. The term does not include a payment processor business appointed by a dealer to handle payment transactions from various channels, such as credit cards, debit cards, and third party payment processors whose sole activity with respect to marketplace sales is to handle transactions between two parties.

(c) "Marketplace seller" means a person who has an agreement with a marketplace provider and who makes retail sales of tangible personal property through a marketplace owned, operated, or controlled by the marketplace provider.

(2) Every marketplace provider that has a physical presence in this state or that is making or facilitating through a

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002415

marketplace a substantial number of remote sales as defined in s. 212.0596(3)(b) is subject to the requirements imposed by this chapter on dealers for registration and for the collection and remittance of taxes. Such marketplace providers must collect the tax pursuant to s. 212.05 on the sales price of each item or article of tangible personal property sold, including any services that are a part of the sale of the tangible personal property.

(3) A marketplace provider shall certify to its marketplace sellers that it will collect and remit the tax imposed under this chapter on taxable retail sales made through the marketplace. Such certification may be included in the agreement between the marketplace provider and marketplace seller.

(4)(a) A marketplace seller may not collect and remit the tax under this chapter on a taxable retail sale when the sale is made through the marketplace and the marketplace provider certifies, as required under subsection (3), that it will collect and remit such tax. A marketplace seller shall exclude such sales made through the marketplace from the marketplace seller's tax return under s. 212.11.

(b)1. A marketplace seller that has a physical presence in this state shall register and shall collect and remit the tax imposed under this chapter on all taxable retail sales made outside of the marketplace.

2. A marketplace seller making a substantial number of remote sales as defined in s. 212.0596(3)(b) shall register and shall collect and remit the tax imposed under this chapter on all taxable retail sales made outside of the marketplace. Sales made through the marketplace are not considered for the purposes

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002416

of determining whether the seller has made a substantial number of remote sales.

(5)(a) A marketplace provider shall allow the department to examine and audit its books and records pursuant to s. 212.13. For retail sales facilitated through a marketplace, the department may not examine or audit the books and records of marketplace sellers, nor may the department assess marketplace sellers except to the extent the marketplace provider seeks relief under paragraph (b). The department may examine, audit, and assess a marketplace seller for retail sales made outside of the marketplace under paragraph (4)(b).

(b) The marketplace provider is relieved of liability for the tax on the retail sale and the marketplace seller or customer is liable for the tax imposed under this chapter if the marketplace provider demonstrates to the department's satisfaction that the marketplace provider made a reasonable effort to obtain accurate information related to the retail sales facilitated through the marketplace from the marketplace seller, but that the failure to collect and pay the correct amount of tax imposed under this chapter was due to the marketplace seller providing incorrect or incomplete information to the marketplace provider. This paragraph does not apply to a retail sale for which the marketplace provider is the seller if the marketplace provider and marketplace seller are related parties or if transactions between a marketplace seller and marketplace buyer are not conducted at arm's length.

(6) For purposes of registration pursuant to s. 212.18, a marketplace is deemed a separate place of business.

(7) A marketplace provider and marketplace seller may agree

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002417

by contract or otherwise that if a marketplace provider pays the tax imposed under this chapter on a retail sale facilitated through a marketplace for a marketplace seller as a result of an audit or otherwise, the marketplace provider has the right to recover such tax and any associated interest and penalties from the marketplace seller.

(8) Consistent with s. 213.21, the department may settle and compromise any tax, interest, or penalty assessed on retail sales conducted through a marketplace.

(9) For purposes of this section, the limitations in ss. 213.30(3) and 213.756(2) apply.

(10) This section may not be construed to authorize the state to collect sales tax from both the marketplace provider and the marketplace seller on the same retail sale.

Section ~~65~~. Paragraph (c) of subsection (2) and paragraph (a) of subsection (5) of section 212.06, Florida Statutes, are amended to read:

212.06 Sales, storage, use tax; collectible from dealers; "dealer" defined; dealers to collect from purchasers; legislative intent as to scope of tax.—

(2)

(c) The term "dealer" is further defined to mean every person, as used in this chapter, who sells at retail or who offers for sale at retail, or who has in his or her possession for sale at retail; or for use, consumption, or distribution; or for storage to be used or consumed in this state, tangible personal property as defined herein, including a retailer who transacts a remote ~~mail order~~ sale or who is a marketplace provider under s. 212.05965.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002418

(5)(a)1. Except as provided in subparagraph 2., it is not the intention of this chapter to levy a tax upon tangible personal property imported, produced, or manufactured in this state for export, provided that tangible personal property may not be considered as being imported, produced, or manufactured for export unless the importer, producer, or manufacturer delivers the same to a licensed exporter for exporting or to a common carrier for shipment outside the state or mails the same by United States mail to a destination outside the state; or, in the case of aircraft being exported under their own power to a destination outside the continental limits of the United States, by submission to the department of a duly signed and validated United States customs declaration, showing the departure of the aircraft from the continental United States; and further with respect to aircraft, the canceled United States registry of said aircraft; or in the case of parts and equipment installed on aircraft of foreign registry, by submission to the department of documentation, the extent of which shall be provided by rule, showing the departure of the aircraft from the continental United States; nor is it the intention of this chapter to levy a tax on any sale which the state is prohibited from taxing under the Constitution or laws of the United States. Every retail sale made to a person physically present at the time of sale shall be presumed to have been delivered in this state.

2.a. Notwithstanding subparagraph 1., a tax is levied on each sale of tangible personal property to be transported to a cooperating state as defined in sub-subparagraph c., at the rate specified in sub-subparagraph d. However, a Florida dealer will be relieved from the requirements of collecting taxes pursuant

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002419

to this subparagraph if the Florida dealer obtains from the purchaser an affidavit setting forth the purchaser's name, address, state taxpayer identification number, and a statement that the purchaser is aware of his or her state's use tax laws, is a registered dealer in Florida or another state, or is purchasing the tangible personal property for resale or is otherwise not required to pay the tax on the transaction. The department may, by rule, provide a form to be used for the purposes set forth herein.

b. For purposes of this subparagraph, "a cooperating state" is one determined by the executive director of the department to cooperate satisfactorily with this state in collecting taxes on remote ~~mail order~~ sales. No state shall be so determined unless it meets all the following minimum requirements:

(I) It levies and collects taxes on remote ~~mail order~~ sales of property transported from that state to persons in this state, as described in s. 212.0596, upon request of the department.

(II) The tax so collected shall be at the rate specified in s. 212.05, not including any local option or tourist or convention development taxes collected pursuant to s. 125.0104 or this chapter.

(III) Such state agrees to remit to the department all taxes so collected no later than 30 days from the last day of the calendar quarter following their collection.

(IV) Such state authorizes the department to audit dealers within its jurisdiction who make remote ~~mail order~~ sales that are the subject of s. 212.0596, or makes arrangements deemed adequate by the department for auditing them with its own

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002420

personnel.

(V) Such state agrees to provide to the department records obtained by it from retailers or dealers in such state showing delivery of tangible personal property into this state upon which no sales or use tax has been paid in a manner similar to that provided in sub-subparagraph g.

c. For purposes of this subparagraph, "sales of tangible personal property to be transported to a cooperating state" means remote ~~mail order~~ sales to a person who is in the cooperating state at the time the order is executed, from a dealer who receives that order in this state.

d. The tax levied by sub-subparagraph a. shall be at the rate at which such a sale would have been taxed pursuant to the cooperating state's tax laws if consummated in the cooperating state by a dealer and a purchaser, both of whom were physically present in that state at the time of the sale.

e. The tax levied by sub-subparagraph a., when collected, shall be held in the State Treasury in trust for the benefit of the cooperating state and shall be paid to it at a time agreed upon between the department, acting for this state, and the cooperating state or the department or agency designated by it to act for it; however, such payment shall in no event be made later than 30 days from the last day of the calendar quarter after the tax was collected. Funds held in trust for the benefit of a cooperating state shall not be subject to the service charges imposed by s. 215.20.

f. The department is authorized to perform such acts and to provide such cooperation to a cooperating state with reference to the tax levied by sub-subparagraph a. as is required of the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002421

cooperating state by sub-subparagraph b.

g. In furtherance of this act, dealers selling tangible personal property for delivery in another state shall make available to the department, upon request of the department, records of all tangible personal property so sold. Such records shall include a description of the property, the name and address of the purchaser, the name and address of the person to whom the property was sent, the purchase price of the property, information regarding whether sales tax was paid in this state on the purchase price, and such other information as the department may by rule prescribe.

Section ~~76~~. Paragraph (a) of subsection (1) and paragraph (a) of subsection (5) of section 212.12, Florida Statutes, are amended to read:

212.12 Dealer's credit for collecting tax; penalties for noncompliance; powers of Department of Revenue in dealing with delinquents; brackets applicable to taxable transactions; records required.—

(1)(a)~~1.~~ Notwithstanding any other law and for the purpose of compensating persons granting licenses for and the lessors of real and personal property taxed hereunder, for the purpose of compensating dealers in tangible personal property, for the purpose of compensating dealers providing communication services and taxable services, for the purpose of compensating owners of places where admissions are collected, and for the purpose of compensating remitters of any taxes or fees reported on the same documents utilized for the sales and use tax, as compensation for the keeping of prescribed records, filing timely tax returns, and the proper accounting and remitting of taxes by

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002422

them, such seller, person, lessor, dealer, owner, and remitter ~~(except dealers who make mail order sales)~~ who files the return required pursuant to s. 212.11 only by electronic means and who pays the amount due on such return only by electronic means shall be allowed 2.5 percent of the amount of the tax due, accounted for, and remitted to the department in the form of a deduction. However, if the amount of the tax due and remitted to the department by electronic means for the reporting period exceeds $1,200, an allowance is not allowed for all amounts in excess of $1,200. For purposes of this paragraph ~~subparagraph~~, the term "electronic means" has the same meaning as provided in s. 213.755(2)(c).

~~2. The executive director of the department is authorized to negotiate a collection allowance, pursuant to rules promulgated by the department, with a dealer who makes mail order sales. The rules of the department shall provide guidelines for establishing the collection allowance based upon the dealer's estimated costs of collecting the tax, the volume and value of the dealer's mail order sales to purchasers in this state, and the administrative and legal costs and likelihood of achieving collection of the tax absent the cooperation of the dealer. However, in no event shall the collection allowance negotiated by the executive director exceed 10 percent of the tax remitted for a reporting period.~~

(5)(a) The department is authorized to audit or inspect the records and accounts of dealers defined herein, including audits or inspections of dealers who make remote ~~mail order~~ sales ~~to the extent permitted by another state~~, and to correct by credit any overpayment of tax, and, in the event of a deficiency, an

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002423

assessment shall be made and collected. No administrative finding of fact is necessary prior to the assessment of any tax deficiency.

Section ~~8~~7. Paragraph (f) of subsection (3) of section 212.18, Florida Statutes, is amended to read:

212.18 Administration of law; registration of dealers; rules.—

(3)

(f) As used in this paragraph, the term "exhibitor" means a person who enters into an agreement authorizing the display of tangible personal property or services at a convention or a trade show. The following provisions apply to the registration of exhibitors as dealers under this chapter:

1. An exhibitor whose agreement prohibits the sale of tangible personal property or services subject to the tax imposed in this chapter is not required to register as a dealer.

2. An exhibitor whose agreement provides for the sale at wholesale only of tangible personal property or services subject to the tax imposed by this chapter must obtain a resale certificate from the purchasing dealer but is not required to register as a dealer.

3. An exhibitor whose agreement authorizes the retail sale of tangible personal property or services subject to the tax imposed by this chapter must register as a dealer and collect the tax on such sales.

4. An exhibitor who makes a remote ~~mail order~~ sale pursuant to s. 212.0596 must register as a dealer.

A person who conducts a convention or a trade show must make his

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002424

or her exhibitor's agreements available to the department for inspection and copying.

Section 8. Subsection (5) of section 213.27, Florida Statutes, is amended to read:

213.27 Contracts with debt collection agencies and certain vendors.--

(5) The department may, for the purpose of ascertaining 1064 the amount of or collecting any taxes due from a person making remote sales that are subject to s. 212.0596(2) or s. 212.05965 doing mail order business in this state, contract with any auditing agency doing business within or without this state for the purpose of conducting an audit of such remote sales mail order business; however, such audit agency may not conduct an audit on behalf of the department of any person domiciled in this state, person registered for sales and use tax purposes in this state, or corporation filing a Florida corporate tax return, if any such person or corporation objects to such audit in writing to the department and the auditing agency. The department shall notify the taxpayer by mail at least 30 days before the department assigns the collection of such taxes.

Section 9. For the purpose of incorporating the amendment made by this act to section 212.0596, Florida Statutes, in a reference thereto, subsection (4) of section 212.20, Florida Statutes, is reenacted to read:

212.20 Funds collected, disposition; additional powers of department; operational expense; refund of taxes adjudicated unconstitutionally collected.—

(4) When there has been a final adjudication that any tax pursuant to s. 212.0596 was levied, collected, or both, contrary

to the Constitution of the United States or the State Constitution, the department shall, in accordance with rules, determine, based upon claims for refund and other evidence and information, who paid such tax or taxes, and refund to each such person the amount of tax paid. For purposes of this subsection, a "final adjudication" is a decision of a court of competent jurisdiction from which no appeal can be taken or from which the official or officials of this state with authority to make such decisions has or have decided not to appeal.

Section 10. (1) The Department of Revenue is authorized, and all conditions are deemed met, to adopt emergency rules pursuant to s. 120.54(4), Florida Statutes, for the purpose of administering this act.

(2) Notwithstanding any other law, emergency rules adopted pursuant to subsection (1) are effective for 6 months after adoption and may be renewed during the pendency of procedures to adopt permanent rules addressing the subject of the emergency rules.

(3) This section shall take effect upon this act becoming a law and expires July 1, 2021.

Section 11. If any provision of this act or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Section 12. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon this act becoming a law, this act shall take effect July 1,

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

Case No. 19-cv-22927-BLOOM/Louis

CITY OF SOUTH MIAMI, et al.,

Plaintiffs,

v.

RON DESANTIS, et al.,

Defendants.
_____/

ORDER

THIS CAUSE is before the Court on Plaintiffs'[1] Amended Motion for Preliminary Injunction and Request for Hearing. ECF No. [47] ("Amended Motion"). Defendants[2] filed a Response in Opposition to the Motion, ECF No. [19] ("Response"), to which Plaintiffs replied, ECF No. [39] ("Reply"). Defendants were also permitted to file a Surreply in Opposition, ECF No. [45] ("Surreply"), in order to respond to Plaintiffs' Amended Complaint, ECF No. [38] ("Amended Complaint"), which added one additional Plaintiff. The United States of America filed a Statement of Interest, ECF No. [23], to which Plaintiffs responded, ECF No. [50] ("SOI Response"). *Amici curiae* were permitted to file an amicus brief in support of Plaintiffs, ECF No. [61] ("Amicus Brief"). The instant Amended Motion requests that the Court grant a preliminary

[1] Plaintiffs include the City of South Miami; Philip K. Stoddard, Mayor of City of South Miami ("Mayor Stoddard"); Florida Immigrant Coalition, Inc. ("FLIC"), The Farmworker Association of Florida, Inc. ("FWAF"), Family Action Network Movement, Inc. ("FANM"), QLatinx, and WeCount!, Inc. ("WeCount"), on behalf of their members and their organizations as a whole; Americans for Immigrant Justice, Inc. ("AI Justice"), The Guatemalan-Maya Center, Inc. ("GMC"), Hope Community Center, Inc. ("Hope"), and Westminster Presbyterian Church United of Gainesville, Florida, Inc. ("Westminster"), on behalf of their organizations (collectively, "Plaintiffs").

[2] Defendants include Ron DeSantis, Governor of the State of Florida ("Governor DeSantis"), and Ashley Moody, Attorney General of the State of Florida (collectively, "Defendants").

AMERICAN OVERSIGHT

injunction enjoining Defendants from enforcing Chapter 908 of the Florida Statutes because the law is preempted by federal immigration law and is unconstitutionally vague. The Court has carefully considered the Amended Motion, all opposing and supporting submissions, the parties' arguments presented at the Hearing, the record in this case, and the applicable law, and is otherwise fully advised. For the reasons set forth below, Plaintiffs' Amended Motion is granted in part and denied in part.

I. BACKGROUND

On May 2, 2019, the Florida legislature passed Senate Bill 168 ("SB 168"), which aimed to further the State of Florida's interest in "cooperat[ing] and assist[ing] the federal government in the enforcement of federal immigration laws within this state." Fla. Stat. § 908.101 (2019); ECF No. [5-1] at 2. The law was adapted from a model law originally drafted by organizations designated by the Southern Poverty Law Center to be hate groups, based on their anti-immigrant platforms. ECF No. [38] at 26. Moreover, SB 168 was described by its sponsors as an "anti-sanctuary cities law." *Id.* at 26, 27. On June 14, 2019, Governor DeSantis signed SB 168 into law, and it was enacted as Chapter 908 of the Florida Statutes. *See* Fla. Stat. ch. 908; ECF No. [5-1] at 7. Among other things, SB 168 prohibits so-called "sanctuary policies" that indicate certain jurisdictions' intent not to cooperate with Immigration and Customs Enforcement ("ICE"). ECF No. [19] at 4. The law delineates specific immigration enforcement efforts with which local jurisdictions must comply. These include complying with immigration detainers and transporting aliens to federal facilities. *Id.* at 4-5; *see* Fla. Stat. § 908.105; Fla. Stat. § 908.104(4). Furthermore, under SB 168, the Attorney General and the Governor are vested with enforcement authority to seek injunctive relief or to exercise the Governor's suspension power, should a government official

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002430

fail to comply with the law's mandates. Fla. Stat. § 908.107. This enforcement provision is scheduled to take effect on October 1, 2019. ECF No. [19] at 5.

The instant action challenges the constitutionality of numerous provisions of SB 168 and seeks injunctive and declaratory relief to prevent the law from taking effect. ECF No. [38] at 3.

A. Relevant SB 168 Provisions

The provisions of SB 168 that are being challenged are reproduced in full below. Any supplemental provisions that are relevant to the Court's analysis are also set forth below.

SB 168 sets forth the definition of certain terms used in the statute in § 908.102. Plaintiffs Amended Complaint specifically challenges § 908.102(6)'s definition of "sanctuary policy" ("Sanctuary Definition"). Nevertheless, many of the other definitions in this section are relevant to the Court's analysis.

> Definitions.—As used in this chapter, the term:
>
> (1) "Federal immigration agency" means the United States Department of Justice and the United States Department of Homeland Security, a division within such an agency, including United States Immigration and Customs Enforcement and United States Customs and Border Protection, any successor agency, and any other federal agency charged with the enforcement of immigration law.
>
> (2) "Immigration detainer" means a facially sufficient written or electronic request issued by a federal immigration agency using that agency's official form to request that another law enforcement agency detain a person based on probable cause to believe that the person to be detained is a removable alien under federal immigration law, including detainers issued pursuant to 8 U.S.C. ss. 1226 and 1357 along with a warrant described in paragraph (c). For purposes of this subsection, an immigration detainer is deemed facially sufficient if:
>
> (a) The federal immigration agency's official form is complete and indicates on its face that the federal immigration official has probable cause to believe that the person to be detained is a removable alien under federal immigration law; or
>
> (b) The federal immigration agency's official form is incomplete and fails to indicate on its face that the federal immigration official has probable cause to believe that the person to be detained is a removable alien under federal immigration law, but is supported by an affidavit, order, or other official documentation that indicates that the federal immigration agency has probable cause to believe that the person to be detained is a removable alien under federal immigration law; and

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002431

> (c) The federal immigration agency supplies with its detention request a Form I-200 Warrant for Arrest of Alien or a Form I-205 Warrant of Removal/Deportation or a successor warrant or other warrant authorized by federal law.
>
> (3) "Inmate" means a person in the custody of a law enforcement agency.
>
> (4) "Law enforcement agency" means an agency in this state charged with enforcement of state, county, municipal, or federal laws or with managing custody of detained persons in this state and includes municipal police departments, sheriffs' offices, state police departments, state university and college police departments, county correctional agencies, and the Department of Corrections.
>
> (5) "Local governmental entity" means any county, municipality, or other political subdivision of this state.
>
> (6) "Sanctuary policy" means a law, policy, practice, procedure, or custom adopted or allowed by a state entity or local governmental entity which prohibits or impedes a law enforcement agency from complying with 8 U.S.C. s. 1373 or which prohibits or impedes a law enforcement agency from communicating or cooperating with a federal immigration agency so as to limit such law enforcement agency in, or prohibit the agency from:
>
> (a) Complying with an immigration detainer;
>
> (b) Complying with a request from a federal immigration agency to notify the agency before the release of an inmate or detainee in the custody of the law enforcement agency;
>
> (c) Providing a federal immigration agency access to an inmate for interview;
>
> (d) Participating in any program or agreement authorized under s. 287 of the Immigration and Nationality Act, 8 U.S.C. s. 1357; or
>
> (e) Providing a federal immigration agency with an inmate's incarceration status or release date.
>
> (7) "State entity" means the state or any office, board, bureau, commission, department, branch, division, or institution thereof, including institutions within the State University System and the Florida College System.

Fla. Stat. § 908.102.

Based on § 908.102(6)'s Sanctuary Definition, § 908.103 states, "Sanctuary policies prohibited.—A state entity, law enforcement agency, or local governmental entity may not adopt or have in effect a sanctuary policy." Fla. Stat. § 908.103 ("Sanctuary Prohibition").[3]

The requirement that state and local law enforcement entities and agencies cooperate with federal immigration enforcement efforts, § 908.104, states:

[3] Collectively, the Sanctuary Definition and the Sanctuary Prohibition will be referred to as "Sanctuary Provisions."

AMERICAN OVERSIGHT

Cooperation with federal immigration authorities.—

(1) A law enforcement agency shall use best efforts to support the enforcement of federal immigration law. This subsection applies to an official, representative, agent, or employee of the entity or agency only when he or she is acting within the scope of his or her official duties or within the scope of his or her employment.[4]

(2) Except as otherwise expressly prohibited by federal law, a state entity, local governmental entity, or law enforcement agency, or an employee, an agent, or a representative of the entity or agency, may not prohibit or in any way restrict a law enforcement agency from taking any of the following actions with respect to information regarding a person's immigration status:

(a) Sending the information to or requesting, receiving, or reviewing the information from a federal immigration agency for purposes of this chapter.

(b) Recording and maintaining the information for purposes of this chapter.

(c) Exchanging the information with a federal immigration agency or another state entity, local governmental entity, or law enforcement agency for purposes of this chapter.

(d) Using the information to comply with an immigration detainer.

(e) Using the information to confirm the identity of a person who is detained by a law enforcement agency.

(3)(a) For purposes of this subsection, the term "applicable criminal case" means a criminal case in which:

1. The judgment requires the defendant to be confined in a secure correctional facility; and

2. The judge:

a. Indicates in the record under s. 908.105 that the defendant is subject to an immigration detainer; or

b. Otherwise indicates in the record that the defendant is subject to a transfer into federal custody.

(b) In an applicable criminal case, when the judge sentences a defendant who is the subject of an immigration detainer to confinement, the judge shall issue an order requiring the secure correctional facility in which the defendant is to be confined to reduce the defendant's sentence by a period of not more than 12 days on the facility's determination that the reduction in sentence will facilitate the seamless transfer of the defendant into federal custody. For purposes of this paragraph, the term "secure correctional facility" means a state correctional institution as defined in s. 944.02 or a county detention facility or a municipal detention facility as defined in s. 951.23.

(c) If the information specified in sub-subparagraph (a)2.a. or sub-subparagraph (a)2.b. is not available at the time the sentence is pronounced in the case, but is received by a law enforcement agency afterwards, the law enforcement agency shall notify the judge who shall issue the order described by paragraph (b) as soon as the information becomes available.

[4] Section 908.104(1) will be referred to as the "Best Efforts" provision.

AMERICAN OVERSIGHT

> (4) When a county correctional facility or the Department of Corrections receives verification from a federal immigration agency that a person subject to an immigration detainer is in the law enforcement agency's custody, the agency may securely transport the person to a federal facility in this state or to another point of transfer to federal custody outside the jurisdiction of the law enforcement agency. The law enforcement agency may transfer a person who is subject to an immigration detainer and is confined in a secure correctional facility to the custody of a federal immigration agency not earlier than 12 days before his or her release date. A law enforcement agency shall obtain judicial authorization before securely transporting an alien to a point of transfer outside of this state.[5]
>
> (5) This section does not require a state entity, local governmental entity, or law enforcement agency to provide a federal immigration agency with information related to a victim of or a witness to a criminal offense if the victim or witness timely and in good faith responds to the entity's or agency's request for information and cooperation in the investigation or prosecution of the offense.
>
> (6) A state entity, local governmental entity, or law enforcement agency that, pursuant to subsection (5), withholds information regarding the immigration information of a victim of or witness to a criminal offense shall document the victim's or witness's cooperation in the entity's or agency's investigative records related to the offense and shall retain the records for at least 10 years for the purpose of audit, verification, or inspection by the Auditor General.
>
> (7) This section does not authorize a law enforcement agency to detain an alien unlawfully present in the United States pursuant to an immigration detainer solely because the alien witnessed or reported a crime or was a victim of a criminal offense.
>
> (8) This section does not apply to any alien unlawfully present in the United States if he or she is or has been a necessary witness or victim of a crime of domestic violence, rape, sexual exploitation, sexual assault, murder, manslaughter, assault, battery, human trafficking, kidnapping, false imprisonment, involuntary servitude, fraud in foreign labor contracting, blackmail, extortion, or witness tampering.

Fla. Stat. § 908.104.

Section 908.105 mandates that state and local law enforcement agencies comply with immigration detainers received by federal immigration authorities ("Detainer Mandate").

> Duties related to immigration detainers.—
>
> (1) A law enforcement agency that has custody of a person subject to an immigration detainer issued by a federal immigration agency shall:
>
> (a) Provide to the judge authorized to grant or deny the person's release on bail under chapter 903 notice that the person is subject to an immigration detainer.

[5] Section 908.104(4) will be referred to as the "Transport Requirement."

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002434

> (b) Record in the person's case file that the person is subject to an immigration detainer.
>
> (c) Upon determining that the immigration detainer is in accordance with s. 908.102(2), comply with the requests made in the immigration detainer.
>
> (2) A law enforcement agency is not required to perform a duty imposed by paragraph (1)(a) or paragraph (1)(b) with respect to a person who is transferred to the custody of the agency by another law enforcement agency if the transferring agency performed that duty before the transfer.
>
> (3) A judge who receives notice that a person is subject to an immigration detainer shall cause the fact to be recorded in the court record, regardless of whether the notice is received before or after a judgment in the case.

Fla. Stat. § 908.105.

Moreover, § 908.106 requires county correctional facilities to enter into agreements with the federal government for the reimbursement of costs incurred pursuant to honoring immigration detainer requests ("Cost Reimbursement").

> Reimbursement of costs.—Each county correctional facility shall enter into an agreement or agreements with a federal immigration agency for temporarily housing persons who are the subject of immigration detainers and for the payment of the costs of housing and detaining those persons. A compliant agreement may include any contract between a correctional facility and a federal immigration agency for housing or detaining persons subject to immigration detainers, such as basic ordering agreements in effect on or after July 1, 2019, agreements authorized by s. 287 of the Immigration and Nationality Act, 8 U.S.C. s. 1357, or successor agreements and other similar agreements authorized by federal law.

Fla. Stat. § 908.106.

Finally, in the event that state and local officers fail to comply with the immigration enforcement efforts specified in SB 168, § 908.107 sets forth the Governor and the Attorney General's ability to enforce Chapter 908.

> Enforcement.—
>
> (1) Any executive or administrative state, county, or municipal officer who violates his or her duties under this chapter may be subject to action by the Governor in the exercise of his or her authority under the State Constitution and state law. Pursuant to s. 1(b), Art. IV of the State Constitution, the Governor may initiate judicial proceedings in the name of the state against such officers to enforce compliance with any duty under this chapter or restrain any unauthorized act contrary to this chapter.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002435

> (2) In addition, the Attorney General may file suit against a local governmental entity or local law enforcement agency in a court of competent jurisdiction for declaratory or injunctive relief for a violation of this chapter.
>
> (3) If a local governmental entity or local law enforcement agency violates this chapter, the court must enjoin the unlawful sanctuary policy. The court has continuing jurisdiction over the parties and subject matter and may enforce its orders with the initiation of contempt proceedings as provided by law.
>
> (4) An order approving a consent decree or granting an injunction must include written findings of fact that describe with specificity the existence and nature of the sanctuary policy that violates this chapter.

Fla. Stat. § 908.107.

B. <u>This Action</u>

Following the enactment of SB 168, on July 16, 2019, Plaintiffs initiated this action against Defendants, ECF No. [1] ("Complaint"), and filed their original Motion for Preliminary Injunction, ECF No. [5], and accompanying memorandum of law, ECF No. [5-1]. Specifically, Plaintiffs sought declaratory and injunctive relief, arguing that SB 168's Detainer Mandate, Transport Requirement, and Cost Reimbursement provisions are preempted by federal law, and that the "Best Efforts" provision and the Sanctuary Provisions are unconstitutionally vague.

On August 21, 2019, Plaintiffs amended their Complaint to include Mayor Stoddard as a Plaintiff and added two counts relating to Mayor Stoddard's claims. ECF No. [38]; ECF No. [40]. The Amended Complaint asserts the following eleven counts on behalf of the different Plaintiffs: Count I – § 908.105's Detainer Mandate violates the Supremacy Clause, U.S. Const. art. VI, § 2; Count II – § 908.104(4)'s Transport Requirement violates the Supremacy Clause; Count III – § 908.160's Cost Reimbursement violates the Supremacy Clause; Counts IV, V, and VI – § 908.102(6)'s and § 908.103's Sanctuary Provisions violate the Due Process Clause; Counts VII, VIII, and IX – § 908.104(1)'s "Best Efforts" provision violates the Due Process Clause; Count X

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002436

– § 908.104(1)'s "Best Efforts" provision violates the Equal Protection Clause; and Count XI – § 908.103's Sanctuary Prohibition violates the Equal Protection Clause.[6] *Id.*

On August 30, 2019, Plaintiffs amended their Motion for Preliminary Injunction to include additional arguments with regard to Mayor Stoddard's claims. ECF No. [47]. Plaintiffs' Amended Motion incorporated the arguments previously asserted in their Memorandum of Law attached to their original Motion, ECF No. [5-1], and their Reply, ECF No. [39]. Defendants filed their Response, ECF No. [19], and Surreply, ECF No. [45],[7] in opposition to the imposition of a preliminary injunction.

The Court held a hearing on September 26, 2019, ("Hearing"), which was attended by Plaintiffs' counsel, Defendants' counsel, and counsel for the United States of America, who sought the Court's leave to participate in the hearing, ECF No. [57]; *see also* ECF No. [60]. During the Hearing, Plaintiffs argued in support of a preliminary injunction that SB 168's challenged provisions are unconstitutional based on preemption and vagueness. Defendants argued that Plaintiffs lack standing and that a preliminary injunction is not warranted as SB 168 is neither preempted by federal law nor unconstitutionally vague. The United States of America participated and argued that federal immigration law does not preempt any of the challenged provisions of SB 168.

[6] It is relevant for the Court's standing analysis below to explain the relationship between each of the Plaintiffs and the counts asserted in the Amended Complaint. Count I is brought by the City of South Miami; FLIC, FWAF, FANM, QLatinx, and WeCount, on behalf of their members and their organizations as a whole; and AI Justice, GMC, Hope, and Westminster, on behalf of their organizations. Counts II, IV, VII, X, and XI are brought by FLIC, FWAF, FANM, QLatinx, and WeCount, on behalf of their members and their organizations as a whole; and AI Justice, GMC, Hope, and Westminster, on behalf of their organizations. Count III is brought by FLIC, FWAF, FANM, QLatinx, WeCount, AI Justice, GMC, Hope, and Westminster, on behalf of their organizations. Counts V and VIII are brought by the City of South Miami. Counts VI and IX are brought by Mayor Stoddard.

[7] Defendants' Surreply addresses arguments regarding the addition of Mayor Stoddard as a Plaintiff in the Amended Complaint.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002437

II. LEGAL STANDARD

A. Standing

Standing is a threshold question of "whether the litigant is entitled to have the court decide the merits of the dispute or of particular issues." *Sims v. Fla. Dep't of Highway Safety & Motor Vehicles*, 862 F.2d 1449, 1458 (11th Cir. 1989) (en banc). "[S]tanding requirements 'are not mere pleading requirements but rather [are] an indispensable part of the plaintiff's case.'" *Church v. City of Huntsville*, 30 F.3d 1332, 1336 (11th Cir. 1994) (quoting *Lujan v. Defenders of Wildlife*, 504 U.S. 555, 561 (1992)). "To establish standing, a plaintiff must have 'suffered an injury-in-fact that would be corrected by [a] favorable decision in the lawsuit.'" *Church*, 30 F.3d at 1335 (quoting *Cheffer v. McGregor*, 6 F.3d 705, 708 (11th Cir. 1993)).

> [A]t an irreducible minimum, Art. III requires the party who invokes the court's authority to "show that he personally has suffered some actual or threatened injury as a result of the putatively illegal conduct of the defendant," and that the injury "fairly can be traced to the challenged action" and "is likely to be redressed by a favorable decision."

Valley Forge Christian Coll. v. Americans United for Separation of Church and State, 454 U.S. 464, 472 (1982) (quoting *Gladstone, Realtors v. Vill. of Bellwood*, 441 U.S. 91, 99 (1979)).

B. Preliminary Injunction

"A preliminary injunction may be issued to protect the plaintiff from irreparable injury and to preserve the district court's power to render a meaningful decision after a trial on the merits." *Canal Auth. of the State of Fla. v. Callaway*, 489 F.2d 567, 572 (5th Cir. 1974);[8] *Ne. Fla. Chapter of Ass'n of Gen. Contractors of Am. v. City of Jacksonville, Fla.*, 896 F.2d 1283, 1285 (11th Cir. 1990) ("*NE Fla. CAGC of Am.*") ("The basis of injunctive relief in the federal courts has always

[8] The Court of Appeals for the Eleventh Circuit, in *Bonner v. City of Prichard*, 661 F.2d 1206, 1209 (11th Cir. 1981), adopted all decisions of the Court of Appeals for the Fifth Circuit that were rendered prior to September 30, 1981.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002438

been irreparable harm and inadequacy of legal remedies." (quoting *Sampson v. Murray*, 415 U.S. 61, 90 (1974))). District courts ultimately have discretion on whether or not to grant a preliminary injunction. *Callaway*, 489 F.2d at 572. However, "a preliminary injunction is an extraordinary and drastic remedy which should not be granted unless the movant clearly carries the burden of persuasion." *Id.* at 573. Accordingly, a movant must prove four factors in order to establish that a preliminary injunction is appropriate: (1) "a substantial likelihood of success on the merits," (2) "that the preliminary injunction is necessary to prevent irreparable injury," (3) "that the threatened injury outweighs the harm the preliminary injunction would cause the other litigant," and (4) "that the preliminary injunction would not be averse to the public interest." *Chavez v. Fla. SP Warden*, 742 F.3d 1267, 1271 (11th Cir. 2014) (citing *Parker v. State Bd. of Pardons & Paroles*, 275 F.3d 1032, 1034-35 (11th Cir. 2001)).

Because preliminary injunctions are drastic, often time-sensitive, remedies, they are "customarily granted on the basis of procedures that are less formal and evidence that is less complete than in a trial on the merits. A party thus is not required to prove his case in full at a preliminary-injunction hearing." *Univ. of Tex. v. Camenisch*, 451 U.S. 390, 395 (1981) (citation omitted). As such, "all of the well-pleaded allegations [in a movant's] complaint and uncontroverted affidavits filed in support of the motion for a preliminary injunction are taken as true." *Elrod v. Burns*, 427 U.S. 347, 350 n.1 (1976).

III. DISCUSSION

In their Amended Motion, Plaintiffs request that the Court preliminarily enjoin § 908.105(1)'s Detainer Mandate, § 908.104(4)'s Transport Requirement, § 908.106's Cost Reimbursement, § 908.104(1)'s "Best Efforts" provision, § 908.102(6)'s Sanctuary Definition, and § 908.103's Sanctuary Prohibition, based on their likelihood of success on the merits, the

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002439

irreparable harm they will suffer if SB 168 takes effect, and the equitable factors weighing in their favor. ECF No. [47]. Specifically, Plaintiffs contend that the Detainer Mandate, the Transport Requirement, and the Cost Reimbursement provisions violate the Supremacy Clause because they are preempted by the Immigration and Nationality Act ("INA"). *Id.* at 2. Additionally, Plaintiffs argue that the "Best Efforts" provision and the Sanctuary Provisions violate the Due Process Clause of the Fourteenth Amendment because they are unconstitutionally vague. *Id.* Moreover, because Plaintiffs do not consider the provisions of SB 168 to be severable, they request that the Court preliminarily enjoin SB 168 in its entirety. *Id.*

Conversely, in their Response, Defendants argue that the Organizational Plaintiffs[9] lack standing to bring any of their claims, aside from the Detainer Mandate challenge; the City of South Miami lacks standing to bring its vagueness challenges; and Mayor Stoddard's[10] delay in joining this action rebuts any allegation that he will suffer irreparable harm under the preliminary injunction analysis. ECF No. [19]; *see also* ECF No. [45]. Defendants also assert that a preliminary injunction is not warranted because Plaintiffs cannot establish a likelihood of success on the merits on either their preemption claims or their vagueness challenges. ECF No. [19] at 10-18. Further, Defendants allege that the remaining equitable factors under the preliminary injunction analysis weigh in their favor. *Id.* at 19. Finally, if the Court determines that a preliminary injunction is warranted on any of the challenged provisions, Defendants request that the enjoined provisions be severed from the remainder of SB 168. *Id.* at 20.

[9] Any reference to the "Organizational Plaintiffs" includes FLIC, FWAF, FANM, QLatinx, WeCount, and AI Justice, GMC, Hope, and Westminster.
[10] Defendants' arguments as to Mayor Stoddard are set forth in their Surreply. ECF No. [45] at 2-3.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002440

A. Standing

As an initial matter, the Court will address the issue of Plaintiffs' standing. Defendants argue that the Organizational Plaintiffs lack standing to challenge the Transport Requirement, Cost Reimbursement, "Best Efforts" provision, and Sanctuary Provisions. ECF No. [19] at 7-9. Additionally, Defendants contest Plaintiff City of South Miami's standing to assert its vagueness challenges. *Id.* at 9-10.

"A threshold question in every federal case is whether the plaintiff has made out a justiciable case or controversy within the meaning of article III." *NE Fla. CAGC of Am.*, 896 F.2d at 1287 n.1 (Tjoflat, C.J., specially concurring) (quoting *Church of Scientology Flag Serv. Org. v. City of Clearwater*, 777 F.2d 598, 606 (11th Cir. 1985)). As explained above, to establish standing, a "plaintiff must have (1) suffered an injury in fact, (2) that is fairly traceable to the challenged conduct of the defendant, and (3) that is likely to be redressed by a favorable judicial decision." *Spokeo, Inc. v. Robins*, 136 S. Ct. 1540, 1547 (2016). Moreover, "[s]tanding cannot be waived or conceded by the parties." *A&M Gerber Chiropractic LLC v. GEICO Gen. Ins. Co.*, 925 F.3d 1205, 1210 (11th Cir. 2019).

The United States Supreme Court has defined "injury in fact" as "an invasion of a judicially cognizable interest which is (a) concrete and particularized and (b) actual or imminent, not conjectural or hypothetical." *Bennett v. Spear*, 520 U.S. 154, 167 (1997).

> When, as here, plaintiffs file a pre-enforcement, constitutional challenge to a state statute, the injury requirement may be satisfied by establishing "'a realistic danger of sustaining direct injury as a result of the statute's operation or enforcement.'" *Socialist Workers Party v. Leahy*, 145 F.3d 1240, 1245 (11th Cir. 1998) (quoting *Am. Civil Liberties Union v. The Fla. Bar (ACLU)*, 999 F.2d 1486, 1492 (11th Cir. 1993)). A plaintiff may meet this standard in any of three ways: "(1) [the plaintiff] was threatened with application of the statute; (2) application is likely; or (3) there is a credible threat of application." *Id.* (citing *ACLU*, 999 F.2d at 1492).

AMERICAN OVERSIGHT

Ga. Latino All. for Human Rights v. Governor of Ga., 691 F.3d 1250, 1257-58 (11th Cir. 2012) ("*GLAHR*"). Additionally, there must be a causal connection between a plaintiff's injury and a defendant's alleged illegal conduct. *Id.* at 1257. "Finally, it must be 'likely, as opposed to merely speculative, that the injury will be redressed by a favorable decision.'" *Id.* (quoting *Bennett*, 520 U.S. at 167).

1. Organizational Plaintiffs' Standing

Defendants argue that the Organizational Plaintiffs do not have standing to assert any of their claims on behalf of themselves or their members. Defendants contend that the Organizational Plaintiffs will not suffer any irreparable injury as a result of SB 168's enactment because the law does not impose any obligation on the organizations or their members. ECF No. [19] at 7-9. Conversely, Organizational Plaintiffs contend that they have standing to represent themselves because they have had to, and will continue to need to, divert resources away from their core activities to respond to the increased concerns of their members and the community about SB 168's implications. ECF No. [39] at 2-5. Furthermore, these organizations assert that they can properly bring claims on behalf of their members, who have independent standing, because they have sufficiently pled that these members will be personally and adversely impacted by the heightened immigration enforcement efforts by state and local officials pursuant to SB 168. *Id.*

Organizations can establish standing to sue either on their own behalf or on behalf of their members. "[A]n organization has standing to sue on its own behalf if the defendant's illegal acts impair its ability to engage in its projects by forcing the organization to divert resources to counteract those illegal acts." *GLAHR*, 691 F.3d at 1259-60 (quoting *Common Cause/Ga. v. Billups*, 554 F.3d 1340, 1350 (11th Cir. 2009); *Fla. State Conference of the NAACP v. Browning*, 522 F.3d 1153, 1165 (11th Cir. 2008)). An organization can establish injury for standing purposes

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002442

by showing either that it has already suffered a cognizable injury when it had to divert its resources, or that it reasonably anticipates that it will have to divert its resources in the future, to address the illegal conduct. *Billups*, 554 F.3d at 1350; *Browning*, 522 F.3d at 1165-66.

Additionally, "[i]t has long been settled that an organization has standing to sue to redress injuries suffered by its members without a showing of injury to the association itself." *Doe v. Stincer*, 175 F.3d 879, 882 (11th Cir. 1999); *see also Warth v. Seldin*, 422 U.S. 490, 511 (1975) ("Even in the absence of injury to itself, an association may have standing solely as the representative of its members."). The Supreme Court has explained that an association may sue on behalf of its members when: "(a) its members would otherwise have standing to sue in their own right; (b) the interests it seeks to protect are germane to the organization's purpose; and (c) neither the claim asserted nor the relief requested requires the participation of individual members in the lawsuit." *Hunt v. Wash. State Apple Advert. Comm'n*, 432 U.S. 333, 343 (1977).

> Accordingly, under *Hunt*, an association may bring suit on behalf of its members or constituents despite the fact that individual members have not actually brought suit themselves. Nor must the association name the members on whose behalf suit is brought. As we have stated, "neither unusual circumstances, inability of individual members to assert rights nor an explicit statement of representation are prerequisites."

Doe, 175 F.3d at 882 (quoting *Church of Scientology v. Cazares*, 638 F.2d 1272, 1279 (5th Cir. 1981)).

Each of the Organizational Plaintiffs has generally set forth facts in the Amended Complaint regarding the injuries the organizations and their members have sustained after the passage of SB 168. ECF No. [38]. The Organizational Plaintiffs' missions all center around immigrant communities and advocating for their rights. *Id.* at 6-23. Moreover, each of the Organizational Plaintiffs has detailed how SB 168 has forced it to divert its resources away from its core mission activities in order to address member concerns about the law and its implications.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002443

Id. at 9, 11, 13-14, 15, 17, 18, 19-20, 21-22, 23. These diversions of resources in order to specifically address SB 168 include, for example, operating a toll-free hotline to address increased calls requesting information on the law, *Id.* at 10; additional volunteer training, *Id.* at 11; hosting community meetings, *Id.* at 13; hiring additional staff, *Id.* at 15; addressing heightened requests for referrals to immigration attorneys, *Id.* at 18; conducting Know Your Rights presentations, *Id.* at 11, 20; answering member requests for clarification on the law, *Id.* at 21; and organizing forums and legal clinics to aid in the preparation of power of attorney's for members, *Id.* at 23. They also contend that they will continue to have to divert their resources in the future, in response to SB 168's ultimate application. *Id.* at 10, 12, 14, 15, 17, 18-19, 20, 22, 23. Moreover, the Organizational Plaintiffs will suffer diminished membership and beneficiaries if SB 168 takes effect. ECF No. [5-1] at 19.

Organizational Plaintiffs also explain how SB 168 has, and will continue to, injure their individual members. ECF No. [38] at 6-23. Specifically, Organizational Plaintiffs' assert that their members will suffer injuries "from racial and ethnic profiling, and unlawfully prolonged stops, arrests, and detentions on suspicion of civil immigration violations" by law enforcement. *Id.* at 14, 15, 22, 23; ECF No. [5-1] at 18. With SB 168 in force, Organizational Plaintiffs contend that these members will be reluctant to report crimes or act as witnesses due to their fear of interacting with law enforcement officers who may detain them. ECF No. [38] at 17, 20, 22; ECF No. [5-1] at 18. Further, they explain that members' fear and uncertainty about SB 168's implications "has and will continue to discourage members from accessing essential healthcare and government services, including shelter during a hurricane, enforcing their legal rights, including in cases of domestic violence, and applying to and enrolling in public schools and universities." ECF No. [38] at 15, 17, 19-20, 22; ECF No. [5-1] at 18.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002444

a. Detainer Mandate and Transport Requirement Challenges

In the preemption claims asserted in Counts I and II, Organizational Plaintiffs set forth the general injuries discussed above with regard to their present and future need to divert resources as a result of SB 168. ECF No. [38] at 6-23, 46-52. Additionally, they seek to protect the rights of their members to be free from unlawful immigration enforcement. ECF No. [39] at 4. Organizational Plaintiffs contend that at least one member of each membership-based organization will be unlawfully detained under SB 168's Detainer Mandate and will be unlawfully transported into federal immigration custody by un-deputized law enforcement officers. *Id.*

Defendants argue that the Organizational Plaintiffs lack standing because SB 168 does not impose any duties on the Organizational Plaintiffs upon which injury can be based. ECF No. [19] at 7-9.

> When a governmental prohibition or restriction imposed on one party causes specific harm to a third party, harm that a constitutional provision or statute was intended to prevent, the indirectness of the injury does not necessarily deprive the person harmed of standing to vindicate his rights. But it may make it substantially more difficult to meet the minimum requirement of Art. III: to establish that, in fact, the asserted injury was the consequence of the defendants' actions, or that prospective relief will remove the harm.

Warth, 422 U.S. at 505 (1975) (citation omitted).

In the instant action, Organizational Plaintiffs have sufficiently pled injury in fact with regard to their preemption challenges in Counts I and II. The organizations have diverted, and will continue to have to divert, resources away from core activities in order to respond to member inquiries about SB 168's enactment, implications, and enforcement. Moreover, Organizational Plaintiffs face, among other things, decreased membership and participation due to SB 168's impact. *Browning*, 522 F.3d at 1165 ("an organization has standing to sue on its own behalf if the defendant's illegal acts impair its ability to engage in its projects by forcing the organization to divert resources to counteract those illegal acts" (citing *Havens Realty Corp. v. Coleman*, 455 U.S.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002445

363, 379 (1982))). Similarly, Organizational Plaintiffs have established an actual and imminent threat of injury to their members from the unlawful detention, transportation, and enforcement under SB 168. *Babbitt v. United Farm Workers Nat. Union*, 442 U.S. 289, 298 (1979) ("[o]ne does not have to await the consummation of threatened injury to obtain preventive relief. If the injury is certainly impending, that is enough." (quoting *Pennsylvania v. West Virginia*, 262 U.S. 553, 593 (1923))). These asserted injuries to the organizations and their members arise directly from SB 168's enactment and can be redressed by enjoining these provisions. Accordingly, the Court concludes that the Organizational Plaintiffs have standing to assert their preemption challenges on behalf of themselves and their members.

b. Cost Reimbursement Challenge

In Count III, Organizational Plaintiffs assert that the Cost Reimbursement provision is preempted and have set forth their respective injuries. ECF No. [38] at 6-23, 52-55. Specifically, Organizational Plaintiffs have had to divert resources away from core mission activities in order to address SB 168's application with their members. *Id.* at 9, 11, 13-14, 15, 17, 18, 19-20, 21-22, 23. These organizations anticipate having to continue to divert additional resources in the future to respond to members' needs as SB 168 is enforced. *Id.* at 10, 12, 14, 15, 17, 18-19, 20, 22, 23. Moreover, these Organizational Plaintiffs will suffer diminished membership and beneficiaries if SB 168 takes effect. ECF No. [5-1] at 19.

When asked at the Hearing what specific injuries were sustained regarding the Cost Reimbursement provision, counsel for Plaintiffs indicated that, in addition to the diversion of resources, Organizational Plaintiffs were engaging in discussions with state and local law enforcement agencies and government agencies about how to respond to SB 168 and the Cost Reimbursement provision in particular. While these communications with local agencies were not

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002446

addressed in the Amended Complaint or in Plaintiffs' Amended Motion, it does not change the Court's analysis. Plaintiffs have not established any causal connection between SB 168's Cost Reimbursement provision and the injuries Plaintiffs have sustained and anticipate sustaining moving forward.

The Court finds that there is an insufficient nexus between the provision requiring local law enforcement agencies to seek reimbursement for costs incurred in complying with federal immigration efforts and Organizational Plaintiffs' diversion of resources. As alleged by the Organizational Plaintiffs, the diversion of resources to address the concerns and implications of SB 168 relate to the unlawful detention and transport of immigrants. *See generally* ECF No. [38] at 9-23. The injuries alleged stem directly from concerns and confusion regarding the legality and scope of the Detainer Mandate and the Transport Requirement, not the Cost Reimbursement provision. *See generally id.* Because Organizational Plaintiffs have failed to sufficiently establish a causal link between the injuries sustained and the Cost Reimbursement provision of SB 168, the Court concludes that Plaintiffs lack standing to assert this claim. *Browning*, 522 F.3d at 1160 ("a plaintiff must establish 'a realistic danger of sustaining a direct injury as a result of the statute's operation or enforcement" (quoting *Babbitt*, 442 U.S. 289)). As such, this Court lacks jurisdiction to review the Cost Reimbursement challenge in Count III. *Warth*, 422 U.S. at 499 ("A federal court's jurisdiction therefore can be invoked only when the plaintiff himself has suffered 'some threatened or actual injury resulting from the putatively illegal action.'" (quoting *Linda R.S. v. Richard D.*, 410 U.S. 614, 617 (1973))).

c. Sanctuary Provisions and "Best Efforts" Provision Challenges

Under Counts IV and VII, the vagueness challenges to the Sanctuary Provisions and "Best Efforts" provision, Organizational Plaintiffs' delineate the general injuries sustained due to their

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002447

present and future need to divert resources as a result of SB 168. ECF No. [38] at 6-23, 55-57, 61-64. Additionally, they seek to protect the rights of their members to be free from unlawful immigration enforcement. ECF No. [39] at 4. Organizational Plaintiffs contend that at least one member of each membership-based organization will be subject to an unlawful, and potentially arbitrary, arrest pursuant to the "Best Efforts" provision and the Sanctuary Provisions. *Id.* at 5.

Similar to the preemption challenges in Counts I and II, Organizational Plaintiffs have sufficiently pled injury in fact with regard to their vagueness claims. The organizations have diverted, and will continue to have to divert, resources away from core activities in order to respond to member inquiries about SB 168's enactment, implications, and enforcement. Moreover, Organizational Plaintiffs face, among other things, decreased membership and participation due to SB 168's impact. *Browning*, 522 F.3d at 1165 ("an organization has standing to sue on its own behalf if the defendant's illegal acts impair its ability to engage in its projects by forcing the organization to divert resources to counteract those illegal acts" (citing *Havens Realty Corp.*, 455 U.S. at 379)). Similarly, Organizational Plaintiffs have established an actual and imminent threat of injury to their members from the unlawful detention, transportation, and enforcement under SB 168, which will be aggravated by the enforcement of the Sanctuary Prohibition and the "Best Efforts" provision. *Babbitt*, 442 U.S. at 298 ("[o]ne does not have to await the consummation of threatened injury to obtain preventive relief. If the injury is certainly impending, that is enough." (quoting *Pennsylvania v. West Virginia*, 262 U.S. at 593)). These asserted injuries to the organizations and their members arise directly from SB 168's enactment and can be redressed by enjoining these provisions. Accordingly, the Court concludes that the Organizational Plaintiffs have standing to assert their vagueness challenges on behalf of themselves and their members.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002448

2. Plaintiff City of South Miami's Standing

Defendants concede the City of South Miami's standing to challenge the Detainer Mandate. However, Defendants argue that the City of South Miami lacks standing to assert its vagueness challenges in Counts V and VIII because Fourteenth Amendment protections only apply to "persons." ECF No. [19] at 9. Plaintiffs' Reply concedes that municipalities lack standing to raise Fourteenth Amendment claims. ECF No. [39] at 2. However, because "[s]tanding cannot be waived or conceded by the parties," *A&M Gerber Chiropractic LLC*, 925 F.3d at 1210, the Court must nevertheless examine whether the City of South Miami has standing to bring its claims.

"In assessing the standing to sue of a state entity, [courts] are bound by the Supreme Court's or [the Eleventh Circuit's] determination of whether any given constitutional provision or law protects the interests of the body in question." *United States v. State of Ala.*, 791 F.2d 1450, 1455 (11th Cir. 1986). Thus, a municipality's standing depends on the nature of the claim asserted. Political subdivisions have been permitted to challenge the constitutionality of state statutes under the Supremacy Clause. *See Rogers v. Brockette*, 588 F.2d 1057, 1071 (5th Cir. 1979). However, as the Supreme Court has explained, "Being but creatures of the State, municipal corporations have no standing to invoke . . . the provisions of the Fourteenth Amendment of the Constitution in opposition to the will of their creator." *Coleman v. Miller*, 307 U.S. 433, 441 (1939).

In examining whether a municipality has standing to assert a constitutional challenge to a state statute under the Supremacy Clause, the Fifth Circuit set forth three prerequisites that must be met: (1) "to sue in federal court, a plaintiff must allege 'a distinct and palpable injury' to itself"; (2) "ordinarily a plaintiff 'must assert his own legal rights and interests, and cannot rest his claim to relief on the legal rights or interests of third parties'"; and (3) "a claim must present a genuine,

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002449

live case or controversy under Article III." *Rogers*, 588 F.2d at 1060 (citations omitted) (footnotes omitted).

a. Preemption Challenge

The City of South Miami has alleged its injuries under SB 168. ECF No. [38] at 6-7. Specifically, the City of South Miami "believes SB 168 does not provide [the City], [the police department], or its residents any actual and understandable notice of the statutory requirements that apply to their conduct." *Id.* at 7. With regard to Count I, the City of South Miami is unsure which provisions of SB 168 apply to it, and it is concerned that the resolutions and policies currently in place may violate SB 168's requirements, especially the City's resolution providing that immigration detainers will not be honored as a matter of course. *Id.* The City of South Miami's potential noncompliance with SB 168 could result in the suspension without pay of its leadership and enforcement actions by the Governor and the Attorney General. *Id.* However, the City of South Miami's attempts to comply with SB 168 will expose the City to liability and damage lawsuits for local law enforcement officers' improper immigration enforcement pursuant to SB 168. *Id.*

As noted above, political subdivisions may establish standing to challenge the constitutionality of state statutes under the Supremacy Clause. *See Rogers*, 588 F.2d at 1071. Here, the City of South Miami asserts a "distinct and palpable injury to itself" because it faces liability and damage lawsuits if its agencies unlawfully comply or attempt to comply with SB 168's Detainer Mandate when its law enforcement officers do not have the authority to do so under federal law, but it faces enforcement actions by the Attorney General if it fails to comply with the Detainer Mandate. *See id.* at 1061. Moreover, the question of whether Congress intended to preempt the field of immigration enforcement dictates the City of South Miami's authority, or lack thereof, to refuse compliance with the Detainer Mandate. *See id.* at 1062-63. Finally, the City of

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002450

South Miami's preemption challenge presents a live case or controversy because the imposition of an injunction on the Detainer Mandate would directly remedy the City of South Miami's threatened injury of damage lawsuits by individuals whose constitutional rights were violated and enforcement actions by the Attorney General for noncompliance. *See id.* at 1063. Accordingly, the Court concludes that the City of South Miami has standing to bring its Detainer Mandate preemption claim.

b. Vagueness Challenges

In Count V, the City of South Miami asserts that the language of the Sanctuary Definition is so vague that it cannot determine what policies are prohibited and which immigration enforcement actions require law enforcement compliance. ECF No. [38] at 58. Similarly, in Count VIII, the City of South Miami argues that the lack of explicit standards in the "Best Efforts" provision fails to set forth any meaningful standard of conduct. *Id.* at 65. As a result, SB 168 will result in arbitrary and discriminatory enforcement. *Id.* Further, the City of South Miami is unable to determine what is prohibited or which local entities and agencies must comply with the "Best Efforts" provision due to SB 168's vague language and inconsistent references to local entities, agencies, and their employees. *Id*. at 66. The City of South Miami asserts that, because of the vague language in the Sanctuary Provisions and the "Best Efforts" provision, and the resulting inability to determine what conduct is proscribed, complying with SB 168 exposes the City to liability. *Id.* at 58, 66. Moreover, government entities that violate the requirements of SB 168 are subject to enforcement actions by the Attorney General. *Id.* at 58, 66. Furthermore, even if the City attempts to comply with SB 168, it may nonetheless face enforcement actions by the Attorney General due to SB 168's vagueness. *Id.* at 58, 66.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002451

As noted above, "[b]eing but creatures of the State, municipal corporations have no standing to invoke . . . the provisions of the Fourteenth Amendment of the Constitution in opposition to the will of their creator." *Coleman*, 307 U.S. at 441. Vagueness claims, such as those asserted in Counts V and VIII, are rooted in the Due Process Clause of the Fourteenth Amendment. *See Lanzetta v. N.J.*, 306 U.S. 451, 454 (1939); *Alabama*, 791 F.2d at 1455. As such, the City of South Miami lacks standing to assert its vagueness challenges.

3. Plaintiff Mayor Stoddard's Standing

In their Surreply, Defendants concede that Mayor Stoddard has standing to bring his vagueness challenges in Counts VI and IX. ECF No. [45] at 1. Nonetheless, as with the City of South Miami, this Court has an independent obligation to assess whether Mayor Stoddard has standing to assert his vagueness challenges.

While political subdivisions may not have standing to challenge the constitutionality of state statutes on vagueness grounds, the Supreme Court has recognized public officials' legitimate interest in challenging "the enforcement of statutes in relation to which they have official duties." *Coleman*, 307 U.S. at 441-42; *see also Finch v. Miss. State Med. Assoc., Inc.*, 585 F.2d 765, 773 (5th Cir. 1978) ("plaintiffs who sued in their official capacities may assert constitutional claims against the state." (quoting *City of New York v. Richardson*, 473 F.2d 923, 933 (2d Cir. 1973)). Moreover, the Supreme Court has explained that public officials have a sufficient personal stake in the outcome of a case for standing purposes when, believing a state statute to be unconstitutional, "they are in the position of having to choose between violating their oath [by complying with the statute] and taking a step — refusing to comply with [the statute] — that would be likely to bring their expulsion from office." *Bd. of Edu. of Cent. Sch. Dist. No. 1 v. Allen*, 392 U.S. 236, 241 n.5 (1968).

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002452

In Count VI, Mayor Stoddard asserts that the language of the Sanctuary Definition is so vague that he has no way to determine what conduct or policy is prohibited and which immigration enforcement actions require law enforcement compliance. ECF No. [38] at 61. As a result, Mayor Stoddard's ability to establish policies and resolutions guiding local law enforcement agencies' conduct is undermined because he "is unable to determine whether any of the actions, resolutions, policies, or statements he makes place him in violation of SB 168." *Id.* at 60.

Similarly, in Count IX, Mayor Stoddard challenges the constitutionality of SB 168's "Best Efforts" provision because "[s]uch vague language fails to give Mayor Stoddard fair notice of what he must, and must not do, in order to be in compliance with SB 168 and to avoid an enforcement suit or removal from office." *Id.* at 67. Mayor Stoddard is unable to determine what conduct is prohibited or which local entities and agencies must comply with the "Best Efforts" provision due to SB 168's vague language and inconsistent references to local entities, agencies, and their employees. *Id*. at 68. SB 168's vague mandates undermine Mayor Stoddard's ability to establish policies and resolutions to guide police conduct on what actions satisfy "best efforts." *Id.*

Mayor Stoddard asserts that, because of the vague language in the Sanctuary Provisions and the "Best Efforts" provision, and his resulting inability to determine proscribed conduct, complying with SB 168 exposes him to liability. *Id.* at 61, 68. Moreover, officials who violate the requirements of SB 168 are subject to enforcement actions or suspension from office by the Governor. *Id.* at 68, 69. As such, Mayor Stoddard is now faced with the threat of suspension or removal for failing to comply with SB 168. *Id.* Alternatively, he faces political liability and damage lawsuits for improper immigration enforcement actions taken pursuant to SB 168. *Id.* at 61, 68-69. Furthermore, Mayor Stoddard's attempted, yet insufficient, compliance with SB 168 may result in suspension or removal from office. *Id.* at 61, 69.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002453

Mayor Stoddard has sufficiently alleged a concrete, imminent, and "realistic danger of sustaining direct injury as a result of the statute's operation or enforcement." *GLAHR*, 691 F.3d at 1257 (quoting *Socialist Workers Party*, 145 F.3d at 1245). Specifically, Mayor Stoddard is "in the position of having to choose between violating [his] oath [by complying with SB 168] and taking a step — refusing to comply with [SB 168] — that would likely bring [his] expulsion from office." *Allen*, 392 U.S. at 241 n.5. Accordingly, the Court concludes that Mayor Stoddard has satisfied the injury-in-fact requirement of the standing analysis. Moreover, the causal connection between the asserted injury and the alleged illegal conduct here is clear because Mayor Stoddard's injury stems directly from SB 168's application and enforcement. Finally, Mayor Stoddard's purported injury will be redressed if this Court ultimately enjoins SB 168. Therefore, Mayor Stoddard has standing to challenge the vagueness of the Sanctuary Provisions and "Best Efforts" provision.

B. Preliminary Injunction

Having determined that Plaintiffs have standing to sue, the Court turns to the merits of Plaintiffs' request for a preliminary injunction. A movant must prove four factors in order to establish that a preliminary injunction is appropriate: (1) "a substantial likelihood of success on the merits," (2) "that the preliminary injunction is necessary to prevent irreparable injury," (3) "that the threatened injury outweighs the harm the preliminary injunction would cause the other litigant," and (4) "that the preliminary injunction would not be averse to the public interest." *Chavez*, 742 F.3d at 1271 (citing *Parker*, 275 F.3d at 1034-35). "Failure to show any of the four factors is fatal" to the preliminary injunction inquiry. *Am. Civil Liberties Union of Fla., Inc. v. Miami-Dade Sch. Bd.*, 557 F.3d 1177, 1198 (11th Cir. 2009).

> When a federal court before trial enjoins the enforcement of a municipal ordinance adopted by a duly elected city council, the court overrules the decision of the elected representatives of the people and, thus, in a sense interferes with the processes of democratic government. Such a step can occasionally be justified by the

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002454

> Constitution (itself the highest product of democratic processes). Still, preliminary injunctions of legislative enactments—because they interfere with the democratic process and lack the safeguards against abuse or error that come with a full trial on the merits—must be granted reluctantly and only upon a clear showing that the injunction before trial is definitely demanded by the Constitution and by the other strict legal and equitable principles that restrain courts.

NE Fla. CAGC of Am., 896 F.2d at 1285.

Plaintiffs' Amended Motion requests that this Court grant a preliminary injunction to enjoin SB 168 from taking effect, pending the resolution of the instant case. ECF No. [47]. Plaintiffs assert that a preliminary injunction is appropriate because the challenged provisions of SB 168 are either preempted by federal law or are unconstitutionally vague. *Id.* Defendants contend that this Court should deny the Amended Motion because Plaintiffs' claims are meritless and unlikely to succeed, they have failed to sufficiently allege irreparable harm, and the equitable factors weigh in favor of denying the preliminary injunction. ECF No. [19].

1. Substantial Likelihood of Success on the Merits

With regard to the preliminary injunction factors, the Eleventh Circuit has stated that the substantial likelihood of success on the merits is "generally the most important [factor]." *Schiavo ex rel. Schindler v. Schiavo*, 403 F.3d 1223, 1232 (11th Cir. 2005). "A substantial likelihood of success on the merits requires a showing of only likely or probable, rather than certain, success." *Id.*

a. Preemption Challenges

Plaintiffs argue that the Detainer Mandate and the Transport Requirement[11] violate the Supremacy Clause because these provisions are preempted by federal immigration law. ECF No. [5-1] at 3-11.

[11] As discussed above, the Court does not address Plaintiffs' arguments regarding the Cost Reimbursement provision's preemption, as they lack standing to assert that claim.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002455

"Federalism, central to the constitutional design, adopts the principle that both the National and State Governments have elements of sovereignty the other is bound to respect." *Arizona v. United States*, 567 U.S. 387, 398 (2012). Nonetheless, the Supremacy Clause mandates that federal law "shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding." U.S. Const. art. VI, § 2. Thus, "[w]here the two conflict, federal law trumps state law; that was always clear. What constitutes a conflict is often less clear." *Browning*, 522 F.3d at 1167 (citations omitted).

Under the preemption doctrine, Congress has the power to preempt state law, and this preemption typically falls into one of "three categories: (1) express preemption; (2) field preemption; and (3) conflict preemption." *Id.*; *Arizona*, 567 U.S. at 399-400. "Express preemption occurs when Congress manifests its intent to displace a state law using the text of a federal statute." *Browning*, 522 F.3d at 1167. "Implied preemption" has generally been used to encompass field and conflict preemption. *Id.* "Field preemption occurs when a congressional legislative scheme is 'so pervasive as to make the reasonable inference that Congress left no room for the states to supplement it,'" *id.* (quoting *Rice v. Santa Fe Elevator Corp.*, 331 U.S. 218, 230 (1947)), or "where there is a 'federal interest . . . so dominant that the federal system will be assumed to preclude enforcement of state laws on the same subject,'" *Arizona*, 567 U.S. at 399 (quoting *Rice*, 331 U.S. at 230). "Conflict preemption occurs either when it is physically impossible to comply with both the federal and state laws or when the state law stands as an obstacle to the objective of the federal law." *Browning*, 522 F.3d at 1167.

Two main considerations guide district courts' preemption analysis: "First, the purpose of Congress is the ultimate touchstone in every pre-emption case. Second, we assume that the historic police powers of the States were not to be superseded by the Federal Act unless that was the clear

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002456

and manifest purpose of Congress." *United States v. Alabama*, 691 F.3d 1269, 1281-82 (11th Cir. 2012) (citations and internal quotation marks omitted).

As the Supreme Court has explained,

> The Government of the United States has broad, undoubted power over the subject of immigration and the status of aliens. This authority rests, in part, on the National Government's constitutional power to "establish an uniform Rule of Naturalization," Art. I, § 8, cl. 4, and its inherent power as sovereign to control and conduct relations with foreign nations. The federal power to determine immigration policy is well settled.

Arizona, 567 U.S. at 394-95 (citations omitted). The field of immigration governance "is extensive and complex." *Id.* at 395. As such, "Congress has specified which aliens may be removed from the United States and the procedures for doing so." *Id.* at 396. Nonetheless, the Supreme Court has emphasized that "[t]he pervasiveness of federal regulation does not diminish the importance of immigration policy to the States." *Id.* at 397.

The Executive Branch is tasked with the enforcement of immigration law, and immigration officials are given "broad discretion" in the exercise of their powers. *Id.* at 396-97. Although there are numerous agencies within the Department of Homeland Security ("DHS"), *id.* at 397, ICE is the agency relevant to the instant action. "ICE officers are responsible 'for the identification, apprehension, and removal of illegal aliens from the United States.'" *Id.*

"As a general rule, it is not a crime for a removable alien to remain present in the United States." *Id.* at 407. Moreover, "[r]emoval is a civil, not criminal, matter." *Id.* at 396.

> The federal statutory structure instructs when it is appropriate to arrest an alien during the removal process. For example, the Attorney General can exercise discretion to issue a warrant for an alien's arrest and detention "pending a decision on whether the alien is to be removed from the United States." [8 U.S.C.] § 1226(a). And if an alien is ordered removed after a hearing, the Attorney General will issue a warrant. See 8 CFR § 241.2(a)(1). In both instances, the warrants are executed by federal officers who have received training in the enforcement of immigration law. See §§ 241.2(b), 287.5(e)(3). If no federal warrant has been issued, those officers have more limited authority. See 8 U.S.C. § 1357(a).

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002457

Id. at 407-08 (some citations omitted).

Congress has delineated specific, "limited circumstances in which state officers may perform the functions of an immigration officer." *Id.* at 408. Relevant to the instant case, the Attorney General may grant this authority to specific state or local law enforcement officers pursuant to a formal agreement, commonly referred to as a "287(g) Agreement,"[12] which allows officers to perform the duties of a federal immigration officer under the direction and supervision of the Attorney General after completing adequate immigration training. 8 U.S.C. § 1357(g)(1); *Arizona*, 567 U.S. at 408-09. Without a 287(g) Agreement, local law enforcement agencies are not permitted to unilaterally perform the functions of federal immigration officers, such as detaining an alien for being removable, "absent any request, approval, or other instruction from the Federal Government." *Arizona*, 567 U.S. at 410.

Nevertheless, the Supreme Court has recognized that "[c]onsultation between federal and state officials is an important feature of the immigration system." *Id.* at 411. Congress has explicitly stated that state and local law enforcement agencies do not need a 287(g) Agreement (A) "to communicate with the [Federal Government] regarding the immigration status of any individual," or (B) "otherwise to cooperate[13] with the [Federal Government] in the identification,

[12] The federal government's authorization to enter into 287(g) Agreements is codified in 8 U.S.C. § 1357(g):

> (1) Notwithstanding section 1342 of Title 31, the Attorney General may enter into a written agreement with a State, or any political subdivision of a State, pursuant to which an officer or employee of the State or subdivision, who is determined by the Attorney General to be qualified to perform a function of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States (including the transportation of such aliens across State lines to detention centers), may carry out such function at the expense of the State or political subdivision and to the extent consistent with State and local law.

8 U.S.C. § 1357(g)(1).

[13] The Court will refer to the provision in 8 U.S.C. § 1357(g)(10)(B) as the "cooperation clause."

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002458

apprehension, detention, or removal of aliens not lawfully present in the United States." 8 U.S.C. § 1357(g)(10); *Arizona*, 567 U.S. at 411-12.

The parties in this case disagree on what the phrase "otherwise to cooperate" means, in the context of enforcing immigration detainers and transporting detained aliens into federal custody. Before examining each party's arguments, a brief history of immigration detainers is warranted.

Amici curiae in support of Plaintiffs provided the Court with an informative history on the evolution of the immigration detainer. ECF No. [61] at 17-23. There is only one reference to "detainers" in the INA. *See* 8 U.S.C. § 1357(d); *Arizona*, 567 U.S. at 410 ("State officials can also assist the Federal Government by responding to requests for information about when an alien will be released from their custody." (citing 8 U.S.C. § 1357(d))). *Amici* assert that detainers were historically understood to be requests for information about a suspected alien's expected release date and nothing more. ECF No. [61] at 18.

However, in 1997, federal immigration agencies began requesting that local law enforcement agencies, pursuant to detainer requests, hold suspected aliens in custody for up to forty-eight hours beyond their scheduled release from custody. *Id.* at 17. Specifically, the Code of Federal Regulation's Detainer Provisions state:

> (a) Detainers in general. Detainers are issued pursuant to sections 236 and 287 of the Act and this chapter 1. Any authorized immigration officer may at any time issue a Form I-247, Immigration Detainer – Notice of Action, to any other Federal, State, or local law enforcement agency. A detainer serves to advise another law enforcement agency that the Department seeks custody of an alien presently in the custody of that agency, for the purpose of arresting and removing the alien. The detainer is a request that such agency advise the Department, prior to release of the alien, in order for the Department to arrange to assume custody, in situations when gaining immediate physical custody is either impracticable or impossible.
>
> . . . .
>
> (d) Temporary detention at Department request. Upon a determination by the Department to issue a detainer for an alien not otherwise detained by a criminal justice agency, such agency shall maintain custody of the alien for a period not to

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002459

> exceed 48 hours, excluding Saturdays, Sundays, and holidays in order to permit assumption of custody by the Department.

8 C.F.R. § 287.7. Based on this additional request to hold an individual beyond their custodial sentence, a detainer has developed into "a written request to state or local officials, asking them (1) to notify [DHS] as soon as practicable before an alien is released and (2) to maintain custody of the alien for up to 48 hours beyond the preexisting release date so that DHS may assume custody." *City of El Cenizo, Tex. v. Tex.*, 890 F.3d 164, 174 (5th Cir. 2018); 8 C.F.R. § 287.7; *United States v. Ovando-Garzo*, 752 F.3d 1161, 1164 (8th Cir. 2014) (holding that identifying an alien, communicating with federal immigration officers, and detaining an alien until federal officers could take custody was not unilateral conduct outside the scope of a local law enforcement officer's authority); *see Corley v. United States*, 556 U.S. 303, 314 (2009) ("one of the most basic interpretive canons, that "'[a] statute should be construed so that effect is given to all its provisions, so that no part will be inoperative or superfluous, void or insignificant.'" (quoting *Hibbs v. Winn*, 542 U.S. 88, 101 (2004))); *see also Lopez-Aguilar v. Marion Cty. Sheriff's Dep't*, 296 F. Supp. 3d 959, 969 (S.D. Ind. 2017) ("'An immigration detainer is a piece of paper issued by immigration officials that purports to command other law enforcement officials to hold a prisoner, who otherwise would be released, in custody and deliver that person to federal immigration officials.' It is 'the principle mechanism for [ICE] . . . to obtain custody over suspected immigration violators in the custody of state or local law enforcement officials.'" (quoting Christopher N. Lasch, *Federal Immigration Detainers After* Arizona v. United States, 46 Loy. L.A. L. Rev. 629, 634 (2013))). In April 2017, ICE implemented an internal policy that required all detainer requests to be accompanied by an administrative immigration warrant issued by a federal immigration officer indicating the immigration officer's probable cause to believe an individual is removable. ECF No. [19] at 3.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002460

Amici contend, and Plaintiffs agree, that this expansion of the detainer request is beyond the scope of power Congress intended to grant to federal immigration officers and the forty-eight-hour hold constitutes a subsequent arrest that requires probable cause that a criminal violation occurred. ECF No. [61]; *see Lopez-Aguilar*, 296 F. Supp. 3d at 972 ("Plainly, federal immigration law does not permit . . . every law enforcement officer employed by a state governmental body to engage in the enforcement of federal immigration law on the same terms and basis as federal officials, free from any restriction by the governmental body (even, presumably, as to enforcement priorities)."). Additionally, Plaintiffs and *amici* argue that detainer holds are arrests performed by local law enforcement officers who lack Congressional authorization under the INA, regardless of the detainer and accompanying administrative warrant. *Id.* As such, Plaintiffs assert that the Detainer Mandate requiring that local law enforcement officers comply with detainer holds is preempted by federal law.

In their Response, Defendants argue that "[c]onsultation between federal and state officials is an important feature of the immigration system," *Arizona*, 567 U.S. at 411, and that, by expressly including the cooperation clause under § 1357(g)(10)(B), Congress gave a clear indication that it sought to facilitate, not preempt, the type of cooperation that SB 168 mandates. ECF No. [19] at 12. Moreover, in its Statement of Interest, the United States of America asserts that local law enforcement agencies' compliance with detainer requests falls within the cooperation that Congress intended to allow under § 1357(g)(10)(B). ECF No. [23] at 12. Cooperating with immigration detainer requests falls squarely within *Arizona*'s reasoning because this cooperation is done only pursuant to a federal request, rather than unilaterally. *Id.* at 13 ("SB 168 provides for the very authorization Plaintiffs allude to in the form of federal immigration detainers.").

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002461

Thus, the precise issue before the Court is whether SB 168's Detainer Mandate and Transport Requirement are preempted by federal law or whether these provisions regulate conduct that falls within the meaning of the cooperation clause's "otherwise to cooperate" language.

i. Field Preemption Challenge to the Detainer Mandate and Transport Requirement

Plaintiffs argue that the Detainer Mandate and Transport Requirement are field preempted because the INA occupies the field of when state and local law enforcement can participate in detaining aliens and "SB 168 rejects the Congressional framework and creates its own authorization for immigration arrest, detention, and transport by undeputized local officers." ECF No. [50] at 3.

"Field preemption occurs when a congressional legislative scheme is 'so pervasive as to make the reasonable inference that Congress left no room for the states to supplement it,'" *Browning*, 522 F.3d at 1167 (quoting *Rice*, 331 U.S. at 230), or "where there is a 'federal interest . . . so dominant that the federal system will be assumed to preclude enforcement of state laws on the same subject,'" *Arizona*, 567 U.S. at 399 (quoting *Rice*, 331 U.S. at 230). "To determine the boundaries that Congress sought to occupy within the field, we look to 'the federal statute itself, read in the light of its constitutional setting and its legislative history.'" *Alabama*, 691 F.3d at 1281 (quoting *De Canas v. Bica*, 424 U.S. 351, 360 n. 8 (1976)). Because neither provision is field preempted, the Court addresses these arguments first.

Considering the language of the INA itself, it is clear that Congress did not intend to preclude states from supplementing the field of how local law enforcement agencies can participate in federal immigration enforcement efforts. Specifically, the express language of the cooperation clause in § 1357(g)(10)(B) leaves numerous cooperative avenues open for law enforcement officers to participate in the immigration efforts of federal officers. 8 U.S.C. § 1357(g)(10)(B).

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002462

"This provision indicates that Congress intended local cooperation without a formal agreement in a range of key enforcement functions." *City of El Cenizo*, 890 F.3d at 179.

The Fifth Circuit's field preemption reasoning in *City of El Cenizo* is informative here. *See generally id.* at 164. *City of El Cenizo* centered around the enactment of a law similar to SB 168. *Id.* at 173-75. In addressing the issue of field preemption, the Fifth Circuit in *City of El Cenizo* enunciated a critical distinction between the Texas law and the provisions of § 1357(g):

> To establish field preemption, moreover, the plaintiffs must prove that federal law evinces "the clear and manifest purpose of Congress" to preclude even complementary state legislation on the same subject. *De Canas*, 424 U.S. at 357. Federal law does not suggest the intent — let alone a "clear and manifest" one — to prevent states from regulating *whether* their localities cooperate in immigration enforcement. Section 1357 does not require cooperation at all. And the savings clause allowing cooperation without a 287(g) agreement indicates that some state and local regulation of cooperation is permissible.

Id. at 178; *see also id.* at 177 ("Federal law regulates *how* local entities may cooperate in immigration enforcement; [the Texas law] specifies *whether* they cooperate.").

Similarly, here, the Detainer Mandate regulates *whether* local entities cooperate in the federal government's immigration enforcement efforts by stating that law enforcement agencies "shall . . . comply with the requests made in the immigration detainer." Fla. Stat. § 908.105(1)(c). The Court must limit its analysis of Plaintiffs' field preemption challenges to whether Congress intended to preclude any further state regulation of local law enforcement agencies' cooperation with federal immigration enforcement. Similar reasoning also applies to the Transport Requirement. Plaintiffs have not established Congress's clear and manifest intent to preclude any complementary state regulation on cooperating with immigration officials for the transport of aliens. As the Fifth Circuit in *City of El Cenizo* held, § 1357(g)(10)(B)'s cooperation clause indicates that Congress intentionally left the issue of state and local law enforcement's cooperation

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002463

with federal immigration efforts open to further regulation. *See* 890 F.3d at 178. Therefore, SB 168's Detainer Mandate and Transport Requirement are not field preempted.

ii. Conflict Preemption Challenge to the Detainer Mandate

Plaintiffs also argue that SB 168's Detainer Mandate is conflict preempted. ECF No. [5-1] at 8-10.

Conflict preemption can arise in two ways:

> First, conflict preemption can occur "when it is physically impossible to comply with both the federal and the state laws." Conflict preemption may also arise "when the state law stands as an obstacle to the objective of the federal law." We use our judgment to determine what constitutes an unconstitutional obstacle to federal law, and this judgment is "informed by examining the federal statute as a whole and identifying its purpose and intended effects."

Alabama, 691 F.3d at 1281 (citations omitted).

The Supreme Court, in *Arizona*, held that an Arizona law authorizing state and local police officers to make warrantless arrests of suspected aliens if they had probable cause to believe the alien was removable was conflict preempted by federal immigration law. 567 U.S. at 410. In so holding, the Supreme Court noted that the Arizona law would "provide state officers even greater authority to arrest aliens on the basis of possible removability than Congress has given to trained federal immigration officers." *Id.* at 408. The *Arizona* Court, in examining the statutory authorization for 287(g) Agreements and § 1357(g)(10)(B)'s cooperation clause, noted that Congress clearly accounted for some degree of federal-local cooperation in immigration efforts. *Id.* at 409-10. However, the Court found Arizona's law to be conflict preempted because the law granted local officials the unilateral authorization to make immigration arrests — something Congress exclusively entrusted to the Federal Government. *Id.* The Supreme Court distinguished this unilateral state action from permissible cooperation under § 1357(g)(10)(B) by explaining that cooperation necessarily requires some sort of "request, approval, or other instruction from the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002464

Federal Government" in order for local law enforcement officers to properly participate in immigration enforcement actions. *Id.* at 410. A state law that attempts to achieve its own immigration policy by authorizing law enforcement's unilateral immigration action impermissibly stands as an obstacle to the objectives of the INA and frustrates federal immigration objectives, such as foreign relations. *Id.* at 409-10.

Here, the Detainer Mandate states, in relevant part, "A law enforcement agency that has custody of a person subject to an immigration detainer issued by a federal immigration agency shall . . . comply with the requests made in the immigration detainer." Fla. Stat. 908.105(1)(c). Defendants assert that the Detainer Mandate falls within the conduct that was explicitly contemplated in the cooperation clause because it only grants local officers the power to temporarily detain suspected aliens after a federal immigration official has made a probable cause determination as to removability and has explicitly requested that the individual be held. ECF No. [19] at 12; *Arizona*, 567 U.S. at 411 ("Consultation between federal and state officials is an important feature of the immigration system."). Plaintiffs argue instead that the Detainer Mandate creates a system of enforcement where all local officers are authorized to make subsequent detainer arrests, absent a 287(g) Agreement granting them the power to do so.

The Court recognizes the body of case law across the nation that has determined that these immigration detainer holds are unconstitutional subsequent arrests in violation of the Fourth Amendment, two of which are in this District.[14] Plaintiffs rely on many of these cases for their preemption arguments. However, these cases concerned post-enforcement Fourth Amendment

[14] *See, e.g.*, *Morales v. Chadbourne*, 793 F.3d 208, 217 (1st Cir. 2015); *Santos v. Frederick Cty. Bd. Of Comm'rs*, 725 F.3d 451, 465-66 (4th Cir. 2013); *Melendres v. Arpaio*, 695 F.3d 990 (9th Cir. 2012); *C.F.C. v. Miami-Dade Cty.*, 349 F. Supp. 3d 1236 (S.D. Fla. 2018); *Creedle v. Miami-Dade Cty.*, 349 F. Supp. 3d 1276 (S.D. Fla. 2018); *Lopez-Aguilar*, 296 F. Supp. 3d 959; *Lunn v. Commonwealth*, 78 N.E.3d 1143, 1153 (Mass. 2017); *People ex rel. Swenson v. Ponte*, 46 Misc. 3d 273, 278 (N.Y. Sup. Ct. 2014); *see also Moreno v. Napolitano*, 213 F. Supp. 3d 999, 1005, n.3 (N.D. Ill. 2016).

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002465

challenges to detainer holds, not a pre-enforcement facial challenge to a state statute mandating local officers' compliance with detainer requests. The Court believes this distinction to be critical.

As noted in *Creedle*,

> The Fifth Circuit stresses throughout its opinion [in *City of El Cenizo*] that plaintiffs had a stringent burden, not only because of the preliminary injunction standard, but also because of the "exacting standard" of bringing a "pre-enforcement facial challenge." In *El Cenizo*, no discovery had yet been taken and no facts had been adduced other than those alleged in the complaint. The Fifth Circuit noted that "such a challenge is the most difficult to mount successfully" because "it is not enough for the plaintiffs to demonstrate that the ICE-detainer mandate will often cause Fourth Amendment violations." Instead, plaintiffs "must establish that the mandate is unconstitutional in all of its applications." In analyzing whether the "ICE-detainer mandate" in [the Texas law] facially violated the Fourth Amendment, the Fifth Circuit stated that "plaintiffs must establish that every seizure authorized by the ICE-detainer mandate violates the Fourth Amendment" and concluded that plaintiffs could not satisfy that "exacting standard."

Creedle, 349 F. Supp. 3d at 1298 (footnote omitted) (quoting *City of El Cenizo*, 890 F.3d at 187). Similarly, here, Plaintiffs assert a facial pre-enforcement challenge to SB 168's Detainer Mandate. Thus, Plaintiffs must satisfy a "stringent burden" in order to be successful on their claims. *City of El Cenizo*, 890 F.3d at 187.

Moreover, those cases present markedly different situations than the instant case — namely, the cases cited did not address the situation where a detainer request was issued alongside an administrative warrant alleging probable cause. The combination of the detainer and the administrative warrant rectify many of the issues presented in those prior cases.

The Court finds the reasoning of *Lopez-Lopez v. County of Allegan*, to be particularly persuasive on this point. 321 F. Supp. 3d 794 (W.D. Mich. 2018). There, the district court addressed a Fourth Amendment challenge to a hold based on a detainer request and an accompanying administrative warrant. *Id.* at 796. In finding that the detainer hold did not violate the defendant's Fourth Amendment rights, in *Lopez-Lopez*, the court reviewed and distinguished the previous line of cases holding that immigration detainers violated the Fourth Amendment. *Id.*

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002466

at 799-802; *id.* at 799 ("Plaintiff asserts that '[n]umerous federal district courts have found that detention by local authorities pursuant to ICE detainers alone violates the Constitutional rights of the detainee.' The problem is that Lopez-Lopez was not detained solely on the basis of an ICE detainer. Additionally, the detainers at issue in the cases he cites are substantively different from the detainer ICE issued in this case. Further, some of the cases are wholly irrelevant to the discussion because they determine only that cooperation with ICE detainers is discretionary rather than mandatory — a well-settled principle that does not bear on the outcome." (citation omitted)).[15] Specifically, the *Lopez-Lopez* court noted that, while a detainer alone or an administrative warrant alone may not comply with the Fourth Amendment's requirements because law enforcement officers "[e]ither [] lack probable cause (situations without an administrative warrant) or they lack a request to act (situations without a detainer)," the combination of the detainer and the administrative warrant rectifies these issues and complies with the Supreme Court's holding in *Arizona*. *Id.* at 801; *id.* ("ICE issued a facially valid administrative warrant for [defendant's] arrest, based on a determination that there was probable cause to believe he was removable. Then, ICE requested that the localities detain [defendant] through the use of an I-247 detainer — which also recited the basis for probable cause. [The] County cooperated by complying with the federal

[15] *See Lopez-Lopez*, 321 F. Supp. 3d at 800 (distinguishing *Buquer v. City of Indianapolis*, 797 F. Supp. 2d 905 (S.D. Ind. 2011), because *Buquer* involved a state law authorizing local officers to use their discretion in conducting warrantless immigration arrests); *id.* (distinguishing *Morales v. Chadbourne*, 996 F. Supp. 2d 19 (D. R.I. 2014), *aff'd in part, rev'd in part*, 793 F.3d 208 (1st Cir. 2015), because in *Morales*, ICE did not provide an arrest warrant with the detainer); *id.* at 800-01 (distinguishing *Santos*, 725 F.3d 451, because the plaintiff there was seized before ICE confirmed that a warrant had issued); *id.* at 801 (distinguishing *Ochoa v. Campbell*, 266 F. Supp. 3d 1237 (E.D. Wash. 2017), because ICE only presented an administrative warrant without a detainer); *see also Melendres*, 695 F.3d 990 (detention of aliens during a traffic stop "based on reasonable suspicion or knowledge that the person was unlawfully in the [country]," without a federal request); *C.F.C.*, 349 F. Supp. 3d 1236 (detainer not accompanied by an administrative warrant); *Creedle*, 349 F. Supp. 3d 1276 (detainer not accompanied by an administrative warrant); *Lopez-Aguilar*, 296 F. Supp. 3d 959 (no detainer issued).

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002467

government's request (as allowed pursuant to § 1357(g)(10)) 'by providing operational support' by holding [defendant] until ICE could take custody of him the following day.").

The reasoning in *Lopez-Lopez* presents a clear instance where complying with a detainer satisfies the Fourth Amendment's requirements.[16] Moreover, the current detainer practice and the mandates of SB 168 require that all detainer requests be accompanied by administrative warrants. ECF No. [19] at 3; ECF No. [19-1] at 15-20. Plaintiffs cannot satisfy their burden on a facial challenge of establishing "that every seizure authorized by the ICE-detainer mandate violates the Fourth Amendment." *City of El Cenizo*, 890 F.3d at 187.

The Fifth Circuit in *City of El Cenizo* also examined the cooperation clause under § 1357(g)(10)(B) and recognized that "Congress intended local cooperation without formal agreement in a range of key enforcement functions." *Id.* at 179. Moreover, the *City of El Cenizo* noted that officers acting pursuant to a 287(g) Agreement "become de facto immigration officers, competent to act on their own initiative." *Id.* at 180. Thus, these 287(g) officers are expressly granted the authority to make unilateral decisions on immigration enforcement issues, absent any predicate request from the federal government. *Arizona*, 567 U.S. at 410.

In contrast, here, officers acting pursuant to the Detainer Mandate are only authorized to detain suspected aliens after receiving such a detainer request from federal immigration officers. These detainers must be accompanied by a Form I-200 "Warrant of Arrest of Alien" or a Form I-205 "Warrant of Removal/Deportation." *See* Appendix. Form I-247A is titled "Immigration Detainer – Notice of Action," which requests that local officers "[m]aintain custody of the alien for a period **NOT TO EXCEED 48 HOURS** beyond the time when he/she would otherwise have

[16] Moreover, as the Eleventh Circuit has noted, "The Fourth Amendment does not require warrants to be based on probable cause of a crime, as opposed to a civil offense. Nothing in the original public meaning of 'probable cause' or 'Warrants' excludes civil offenses." *United States v. Phillips*, 834 F.3d 1176, 1181 (11th Cir. 2016).

AMERICAN OVERSIGHT

been released from your custody to allow DHS to assume custody." *See* Appendix (emphasis in original); ECF No. [61] at 49. When questioned at the Hearing about acts local officers may properly conduct pursuant to a detainer request, Plaintiffs' counsel indicated that officers were limited to providing information about an inmate's release date. While a request for information is contained within the detainer, so is the request to temporarily detain. Further, while requests for information and communications between federal and state officials without a 287(g) Agreement are expressly contemplated in § 1357(g)(10)(A), Congress's addition of the § 1357(g)(10)(B) cooperation clause authorizes additional cooperative conduct, aside from communication, between federal immigration officers and local law enforcement. Absent any clear statutory indication to the contrary, and consistent with *City of El Cenizo*, the Court concludes that honoring federal immigration detainer requests falls within the scope of cooperation contemplated by Congress under § 1357(g)(10)(B).

Plaintiffs further argue that Defendants' examples of 287(g) Agreements with local law enforcement agencies reaffirm their interpretation that detainer holds fall within the purview of § 1357(g)(1). ECF No. [50] at 12. Specifically, Plaintiffs note that the 287(g) Agreement with Clay County, ECF No. [19-2], granting local officers the authority to "process [aliens] for immigration violations," "serve warrants of arrest for immigration violations," and "detain and transport" aliens, is rendered meaningless if officers can honor detainer requests under the cooperation clause absent such agreements. ECF No. [50] at 12. However, as the Fifth Circuit in *City of El Cenizo* explained, officers acting pursuant to a 287(g) Agreement "become de facto immigration officers, competent to act on their own initiative." 890 F.3d at 180. Thus, these 287(g) officers are expressly granted the authority to make unilateral decisions on immigration enforcement issues, absent any predicate request from the federal government. *Arizona*, 567 U.S. at 410. Conversely, officers

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002469

operating under SB 168's Detainer Mandate are only permitted to hold a suspected alien for forty-eight hours if federal immigration officers explicitly request that they do so pursuant to a facially valid detainer request. Fla. Stat. § 908.105(1). Officers acting pursuant to 287(g) Agreements are allowed to hold suspected aliens without any prior request from the federal government. *City of El Cenizo*, 890 F.3d at 180.

Plaintiffs also provide no indication that local officers are taking any unilateral immigration action in honoring these detainer requests, such as serving or executing the administrative immigration warrants. *See* 8 C.F.R. § 287.5 (listing which officials may serve and execute administrative warrants). Absent unilateral conduct that circumvents the explicit grants of power Congress gave only to federal immigration authorities, honoring a detainer request complies with the Supreme Court's holding in *Arizona* that officers may not engage in unilateral state immigration actions, "*absent any request, approval, or other instruction from the Federal Government*." 567 U.S. at 410; *see also id.* ("examples of what would constitute cooperation under federal law. . . . include situations where States participate in a joint task force with federal officers, provide operational support in executing a warrant, or allow federal immigration officials to gain access to detainees held in state facilities." (citing Dept. of Homeland Security, Guidance on State and Local Governments' Assistance in Immigration Enforcement and Related Matters 13-14 (2011))). The Detainer Mandate in this case is contingent upon the receipt of a detainer request issued by an authorized federal immigration officer that indicates the federal officer has probable cause to believe that the detainee is unlawfully in the United States. The Court concludes that this hold, pursuant to federal request, falls within the cooperation clause's scope under § 1357(g)(10)(B).

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002470

Based upon the plain language of § 1357(g)(10)(B), SB 168's Detainer Mandate on its face is not preempted because it falls within the scope of "cooperat[ion] . . . in the . . . detention . . . of aliens not lawfully present in the United States." 8. U.S.C. § 1357(g)(10)(B); *Arizona*, 567 U.S. 387; *City of El Cenizo*, 890 F.3d at 179. As such, the Court finds that Plaintiffs have failed to establish that SB 168's Detainer Mandate is conflict preempted.

iii. Conflict Preemption Challenge to the Transport Requirement

Moreover, Plaintiffs assert that SB 168's Transport Requirement is conflict preempted. ECF No. [5-1] at 8-10.

The Transport Requirement provides that,

> When a county correctional facility or the Department of Corrections receives verification from a federal immigration agency that a person subject to an immigration detainer is in the law enforcement agency's custody, the agency may securely transport the person to a federal facility in this state or to another point of transfer to federal custody outside the jurisdiction of the law enforcement agency. The law enforcement agency may transfer a person who is subject to an immigration detainer and is confined in a secure correctional facility to the custody of a federal immigration agency not earlier than 12 days before his or her release date. A law enforcement agency shall obtain judicial authorization before securely transporting an alien to a point of transfer outside of this state.

Fla. Stat. § 908.104(4). The plain language of this provision authorizes local agencies to transport individuals subject to an immigration detainer across state lines into federal custody. Plaintiffs allege that this provision is conflict preempted because it frustrates Congress's objectives in creating 287(g) Agreements. ECF No. [5-1] at 10-11. Specifically, Plaintiffs correctly note that, unlike complying with detainers, § 1357(g)(1) expressly lists the transport across state lines as a power that can only be delegated to local officers pursuant to a 287(g) Agreement. *See* 8 U.S.C. § 1357(g)(1) ("Notwithstanding section 1342 of Title 31, the Attorney General may enter into a written agreement with a State, or any political subdivision of a State, pursuant to which an officer or employee of the State or subdivision, who is determined by the Attorney General to be qualified

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002471

to perform a function of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States (*including the transportation of such aliens across State lines to detention centers*), may carry out such function at the expense of the State or political subdivision and to the extent consistent with State and local law." (emphasis added)). SB 168's attempt to grant this exact transport power to local officers frustrates Congress's objectives for immigration transport because it renders the express language in § 1357(g)(1) on the transport of aliens pursuant to a 287(g) Agreement meaningless. *Robbins v. Garrison Prop. & Cas. Ins. Co.*, 809 F.3d 583, 586 (11th Cir. 2015) ("It is 'axiomatic that all parts of a statute must be read together in order to achieve a consistent whole.' 'Where possible, courts must give full effect to all statutory provisions and construe related statutory provisions in harmony with one another.'" (quoting *Forsythe v. Longboat Key Beach Erosion Control Dist.*, 604 So. 2d 452, 455 (Fla. 1992))).

Moreover, the Transport Requirement's language explicitly grants local law enforcement agencies discretionary power to transport an alien into federal custody "absent any request, approval, or other instruction from the Federal Government." *Arizona*, 567 U.S. at 410. This is precisely the type of unilateral conduct that *Arizona* expressly prohibited. *Id.* Further, the mandate requiring law enforcement officers to obtain the prior judicial authorization does not rectify the issue of unilateral conduct in the Transport Requirement. Instead, this judicial authorization requirement seeks to vest additional powers in the state judiciary that could otherwise only be performed by federal immigration officials — namely, allowing state judges to unilaterally authorize transport across state lines into federal custody. *See* Fla. Stat. § 908.104(4). This unilateral decision by local officers and state judges, in effect, "allows the State to achieve its own immigration policy," which is not permitted. *Arizona*, 567 U.S. 408. Therefore, the Court concludes that the Transport Requirement is conflict preempted because it frustrates the purpose

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002472

of 1357(g)(1). *See Browning*, 522 F.3d at 1167 ("Conflict preemption occurs [] when . . . when the state law stands as an obstacle to the objective of the federal law.").

b. Vagueness Challenges

Plaintiffs also argue that SB 168's "Best Efforts" provision and Sanctuary Provisions are unconstitutionally vague because the terms "best efforts" in § 908.104(1) and "impedes" in § 908.102(6) and, by reference, § 908.103, do not provide people of ordinary intelligence with a reasonable opportunity to understand what conduct is prohibited and because SB 168 authorizes the arbitrary and discriminatory enforcement of these provisions. ECF No. [5-1] at 12.

The Supreme Court has explained that a statute is void for vagueness (1) if it "fails to give a person of ordinary intelligence fair notice that his contemplated conduct is forbidden by statute," and (2) if "it encourages arbitrary and erratic arrests and convictions." *Papachristou v. City of Jacksonville*, 405 U.S. 156, 162 (1972).

On a facial vagueness challenge, a movant must establish that the law is "incapable of any valid application." *Vill. of Hoffman Estates v. Flip Side, Hoffman Estates, Inc.*, 455 U.S. 489, 494 n.5 (1982). To sustain such a challenge, the movant "must prove that the enactment is vague 'not in the sense that it requires a person to conform his conduct to an imprecise but comprehensible normative standard, but rather in the sense that no standard of conduct is specified at all. Such a provision simply has *no* core.'" *Id*. at 495 n.7 (citations omitted). "The degree of vagueness that the Constitution tolerates — as well as the relative importance of fair notice and fair enforcement — depends in part on the nature of the enactment." *Id.* at 498. Therefore, courts must consider whether the law implicates civil penalties or criminal penalties, because the nature of the penalty affects the level of tolerance a court will have for the vague language. *Id*. at 489-90. Additionally, courts must examine whether the law "threatens to inhibit the exercise of constitutionally protected

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002473

rights," *id*. at 490, and whether it places "unfettered discretion . . . in the hands of the [] police." *Papachristou*, 405 U.S. at 168.

"Condemned to the use of words, we can never expect mathematical certainty from our language." *Grayned v. City of Rockford*, 408 U.S. 104, 110 (1972). Yet, when the words of a challenged statute "are marked by 'flexibility and reasonable breadth, rather than meticulous specificity,'" the Supreme Court has upheld the challenged law. *Id.* Moreover, the Supreme Court has explained that a statute is not impermissibly vague when it "give[s] fair warning as to what is prohibited," and "'defines boundaries sufficiently distinct' for citizens, policemen, juries, and appellate judges." *Id.* at 114 (citations omitted).

A pre-enforcement challenge for vagueness centers primarily around whether the statute gives fair warning of the prohibited conduct because the danger of arbitrary enforcement is still speculative. *Vill. of Hoffman Estates*, 455 U.S. at 503. "Although it is possible that specific future applications . . . may engender concrete problems of constitutional dimension, it will be time enough to consider such problems when they arise." *Id.* (citations omitted). As such, a statute is unconstitutionally vague on its face when "it is plagued with such 'hopeless indeterminacy' that it precludes 'fair notice of the conduct it punishes,'" and invites arbitrary enforcement. *City of El Cenizo*, 890 F.3d at 190. Moreover, "pre-enforcement facial challenges are 'disfavored' because they 'often rest on speculation' and 'threaten to short circuit the democratic process by preventing laws embodying the will of the people from being implemented in a manner consistent with the Constitution.'" *Id*. at 191 (quoting *Wash. State Grange v. Wash. State Republican Party*, 552 U.S. 442, 450-51 (2008)). "In general, as-applied challenges brought in post-enforcement proceedings" are more appropriate for vagueness challenges because they are "the basic building blocks of constitutional adjudication." *Id*. (quoting *Gonzales v. Carhart*, 550 U.S. 124, 168 (2007)).

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002474

Plaintiffs contend that the terms "best efforts" in § 908.104(1) and "impedes" in § 908.102(6) and, by reference, § 908.103, are unconstitutionally vague because they do not provide people of ordinary intelligence with a reasonable opportunity understand what conduct is prohibited and because SB 168 authorizes the arbitrary and discriminatory enforcement of these provisions. ECF No. [5-1] at 12. Conversely, Defendants argue that Plaintiffs have failed to establish that these provisions are unconstitutionally vague in every application, as required for a facial vagueness challenge. ECF No. [19] at 16. Additionally, Defendants explain that, when read within the context of SB 168 as a whole, the challenged provisions clearly indicate what conduct is prohibited or encouraged. *Id.*

i. Unconstitutional Vagueness of "Best Efforts" Under § 908.104(1)

Plaintiffs contend that the "Best Efforts" provision is unconstitutionally vague because it does not give fair notice as to what conduct falls short of "best efforts" and it encourages arbitrary and discriminatory enforcement.[17] ECF No. [5-1] at 12-16. Specifically, Plaintiffs assert that "best efforts" does not provide individuals the reasonable opportunity to understand what conduct is prohibited and enforceable, nor does the phrase provide law enforcement agencies any clarity about what efforts are sufficient under the statute. *Id.* at 12-13. Moreover, the lack of standards of conduct under "best efforts" encourages arbitrary and discriminatory enforcement against individuals and law enforcement agencies. *Id.* at 14-15. In response, Defendants argue that the

[17] Plaintiffs also argue that the "Best Efforts" provision's vagueness is aggravated by the language in the bill title. ECF No. [5-1] at 15. This argument is meritless. Although the bill title does state that "[a]n Act relating to federal immigration enforcement . . . requiring state entities, local governmental entities, and law enforcement agencies to use best efforts to support the enforcement of federal immigration law," *id.*, it clearly references § 908.104's application as a whole. Specifically, while the mandates of § 908.104(1) explicitly apply to "law enforcement agenc[ies]," § 908.104(2) then goes on to regulate the conduct of "a state entity, local governmental entity, or law enforcement entity, or an employee, an agent, or a representative of the entity or agent." Fla. Stat. § 908.104(1)-(2). Accordingly, when read in the context of the statute as a whole, the "Best Efforts" provision is sufficiently clear on who it applies to.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002475

"Best Efforts" provision is not unconstitutionally vague because the phrase "best efforts" is used in numerous Florida Statutes. ECF No. [19] at 17. Additionally, Defendants assert that ICE policies detail the extent of the agency's desired cooperation from local law enforcement agencies, which provides sufficient context to rebut any vagueness. *Id.*

The "Best Efforts" provision states, in relevant part, "A law enforcement agency shall use best efforts to support the enforcement of federal immigration law." Fla. Stat. § 908.104(1). Moreover, *Black's Law Dictionary* defines "best efforts" as

> Diligent attempts to carry out an obligation; esp., all actions rationally calculated to achieve a usu. stated objective, to the point of leaving no possible route to success untried. As a standard, a best-efforts obligation is stronger than a good-faith obligation. Best efforts are measured by the measures that a reasonable person in the same circumstances and of the same nature as the acting party would take.

BEST EFFORTS, *Black's Law Dictionary* (11th ed. 2019). This definition, while marked by "flexibility and reasonable breadth, rather than meticulous specificity," provides sufficient notice as to what efforts are required of law enforcement agencies. *Grayned*, 408 U.S. at 110.

Moreover, on a pre-enforcement facial challenge for vagueness, the Court's examination centers primarily around whether the statute gives fair warning of the prohibited conduct because the danger of arbitrary enforcement is still speculative. *Vill. of Hoffman Estates*, 455 U.S. at 503. With regard to Plaintiffs' assertion that "best efforts" encourages arbitrary and discriminatory enforcement, on a pre-enforcement challenge, "There is a basic uncertainty about what the law means and how it will be enforced. . . .[W]ithout the benefit of a definitive interpretation from the state courts, it would be inappropriate to assume [the "Best Efforts" provision] will be construed in a way that creates a conflict with federal law." *Arizona*, 567 U.S. at 415; *cf. Fox v. Washington*, 236 U.S. 273, 277 (1915) ("So far as statutes fairly may be construed in such a way as to avoid doubtful constitutional questions they should be so construed; and it is to be presumed that state laws will be construed in that way by the state courts." (citation omitted)). This type of speculative

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002476

constitutional challenge is more appropriately brought under an as-applied challenge at the post-enforcement stage. *City of El Cenizo*, 890 F.3d at 191. Therefore, at this pre-enforcement stage, this Court will not "adopt limiting constructions that are not strictly necessary to preserve the constitutionality of a statute." *Id.* Accordingly, the Court believes "best efforts" to be sufficiently clear as to what conduct is or is not required for a facial pre-enforcement vagueness challenge.

ii. Unconstitutional Vagueness of "Impede" Under § 908.102(6) and Unconstitutionality, by Reference, of § 908.103

Plaintiffs also assert that the Sanctuary Provisions are unconstitutionally vague because individuals are not provided a reasonable opportunity to understand what conduct constitutes "imped[ing]." ECF No. [5-1] at 16-17. The Court concludes that, when read in context, the term "impedes" in the Sanctuary Definition is not unconstitutionally vague. Specifically, the Sanctuary Definition states in full,

> (6) "Sanctuary policy" means a law, policy, practice, procedure, or custom adopted or allowed by a state entity or local governmental entity which prohibits or impedes a law enforcement agency from complying with 8 U.S.C. s. 1373 or which prohibits or impedes a law enforcement agency from communicating or cooperating with a federal immigration agency so as to limit such law enforcement agency in, or prohibit the agency from:
>
> (a) Complying with an immigration detainer;
>
> (b) Complying with a request from a federal immigration agency to notify the agency before the release of an inmate or detainee in the custody of the law enforcement agency;
>
> (c) Providing a federal immigration agency access to an inmate for interview;
>
> (d) Participating in any program or agreement authorized under s. 287 of the Immigration and Nationality Act, 8 U.S.C. s. 1357; or
>
> (e) Providing a federal immigration agency with an inmate's incarceration status or release date.

Fla. Stat. § 908.102(6). Reading this provision as a whole, subsections (a) through (e) clearly set forth specific actions that state and local government entities are not allowed to "impede" or "prohibit." *Id.* § 908.102(6)(a)-(e).

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002477

"Impedes" is not so vague, when read in the context of the Sanctuary Definition as a whole, that it fails to give a person of ordinary intelligence fair notice that his contemplated conduct is forbidden by statute. *Papachristou*, 405 U.S. at 162. Moreover, because Plaintiffs assert a facial pre-enforcement vagueness challenge, they must establish that the Sanctuary Definition "is plagued with such 'hopeless indeterminacy' that it precludes 'fair notice of the conduct it punishes.'" *City of El Cenizo*, 890 F.3d at 190. The Court concludes that Plaintiffs have failed to sufficiently establish that the Sanctuary Definition is plagued with "hopeless indeterminacy" as to proscribed conduct. *Id.* "Impedes" does not render SB 168's Sanctuary Definition unconstitutionally vague, when read alongside the explicit list of immigration efforts set forth in subsections (a) through (e), because it "give[s] fair warning as to what is prohibited," and "'defines boundaries sufficiently distinct' for citizens, policemen, juries, and appellate judges." *Grayned*, 408 U.S. at 114.

2. Irreparable Injury

"The basis of injunctive relief in the federal courts has always been irreparable harm and inadequacy of legal remedies." *Sampson v. Murray,* 415 U.S. 61, 88 (1974). "A showing of irreparable harm is 'the *sine qua non* of injunctive relief.' The injury must be 'neither remote nor speculative, but actual and imminent.' An injury is 'irreparable only if it cannot be undone through monetary remedies." *NE Fla. CAGC of Am.*, 896 F.2d at 1285 (quoting *Frejlach v. Butler,* 573 F.2d 1026, 1027 (8th Cir. 1978); *Tucker Anthony Realty Corp. v. Schlesinger,* 888 F.2d 969, 973 (2d Cir. 1989)). Courts have stated that the purpose of a preliminary injunction is to preserve the status quo when, absent the preservation of the status quo, a movant will suffer irreparable harm. *See Callaway*, 489 F.2d at 576.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002478

Plaintiffs state that they will suffer irreparable harm if SB 168 is not enjoined because their injuries cannot be redressed through an award of monetary damages. ECF No. [5-1] at 17; *NE Fla. CAGC of Am.*, 896 F.2d at 1285. Plaintiffs' allegations regarding their irreparable injuries are the same injuries discussed above with regard to standing. ECF No. [5-1] at 17-19. Organizational Plaintiffs have had to divert resources away from core mission activities to respond to SB 168 and anticipate having to divert more resources in the future to address SB 168's enforcement. *Id.* Organizational Plaintiffs' individual members will face an actual and imminent threat of irreparable harm from racial profiling, ethnic profiling, and unlawful detentions and transport across state lines by local law enforcement officers once SB 168 takes effect. *Id.* at 18.

Defendants argue that Plaintiffs have not sufficiently alleged any actual or imminent threat of irreparable injury. ECF No. [19] at 19. Further, Defendants assert that any allegation that Mayor Stoddard will suffer irreparable injury from SB 168 is rebutted by his delay in joining this action as a Plaintiff. ECF No. [45] at 2. However, because Plaintiffs have only established a substantial likelihood of success on the Transport Requirement, the Court will not address Defendants' arguments with regard to Mayor Stoddard's irreparable injury.

Organizational Plaintiffs face, among other things, decreased membership and participation due to SB 168's impact. *Browning*, 522 F.3d at 1165 ("an organization has standing to sue on its own behalf if the defendant's illegal acts impair its ability to engage in its projects by forcing the organization to divert resources to counteract those illegal acts" (citing *Havens Realty Corp.*, 455 U.S. at 379)). Similarly, Organizational Plaintiffs have established an actual and imminent threat of injury to their members from the unlawful detention, transportation, and enforcement under SB 168. *Babbitt*, 442 U.S. at 298 ("[o]ne does not have to await the consummation of threatened injury to obtain preventive relief. If the injury is certainly impending,

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002479

that is enough." (quoting *Pennsylvania v. West Virginia*, 262 U.S. at 593)). These injuries to the organizations and their members arise directly from SB 168's enactment and can be redressed by enjoining the conflict-preempted Transport Requirement. Accordingly, the Court concludes that the Plaintiffs have established that the enactment of the Transport Requirement will cause them immediate, irreparable harm sufficient to satisfy this component of the preliminary injunction test.

3. Threatened Injury Outweighs the Harm of Imposing a Preliminary Injunction

The third preliminary injunction factor requires that the movant prove that the threatened injury outweighs the harm the preliminary injunction would cause the other litigant. *Chavez*, 742 F.3d at 1271. "A preliminary injunction is an extraordinary remedy never awarded as of right. In each case, courts 'must balance the competing claims of injury and must consider the effect on each party of the granting or withholding of the requested relief,'" paying particular attention to "the public consequences in employing the extraordinary remedy of injunction." *Winter v. Nat. Res. Def. Council, Inc.*, 555 U.S. 7, 24 (2008).

"The equities weigh in favor of enjoining those provisions that are preempted by federal law. The United States suffers injury when its valid laws in a domain of federal authority are undermined by impermissible state regulations." *Alabama*, 691 F.3d at 1301. Conversely, "[A]ny time a State is enjoined by a court from effectuating statutes enacted by representatives of its people, it suffers a form of irreparable injury." *Maryland v. King*, 567 U.S. 1301 (2012).

Where, as here, Plaintiff has demonstrated a substantial likelihood of success on the merits of their preemption challenge to SB 168's Transport Requirement, the State's interest in enforcing its statutes is outweighed by the injury sustained by the United States "when its valid laws in a domain of federal authority are undermined by impermissible state regulations." *Alabama*, 691 F.3d at 1301. Additionally, absent a preliminary injunction to preserve the status quo, Plaintiffs

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002480

have established that they will suffer serious and irreparable harm. *See Callaway*, 489 F.2d at 576. Therefore, the Court concludes that Plaintiffs' threatened injuries outweigh the harm a preliminary injunction would cause Defendants.

4. Preliminary Injunction is not Averse to the Public Interest

Finally, in establishing that a preliminary injunction is appropriate, a movant must prove that the injunction would not be averse to the public interest. *Chavez*, 742 F.3d at 1271. "Frustration of federal statutes and prerogatives are not in the public interest, and we discern no harm from the state's nonenforcement of invalid legislation." *Alabama*, 691 F.3d at 1301. Furthermore, because Plaintiffs' threatened injuries implicate the State's infringement upon significant constitutional and civil rights, a preliminary injunction that protects these rights pending a decision on the merits is in the public interest. *Alabama*, 691 F.3d at 1301; *Melendres*, 695 F.3d at 1002 ("it is always in the public interest to prevent the violation of a party's constitutional rights." (citations omitted)).

C. Severability

Plaintiffs argue that, if the Court enjoins any provision of SB 168, it must enjoin SB 168 in its entirety because the individual provisions are not severable. ECF No. [5-1] at 3. Conversely, Defendants contend that, as a matter of law, the Court should sever any enjoined clauses from SB 168 because Florida law "clearly favors" severability. ECF No. [19] at 20.

The Eleventh Circuit has previously explained the issue of severability.

> Severability of a local ordinance is a question of state law. And Florida law clearly favors (where possible) severance of the invalid portions of a law from the valid ones. According to the Florida Supreme Court, "[s]everability is a judicial doctrine recognizing the obligation of the judiciary to uphold the constitutionality of legislative enactments where it is possible to strike only the unconstitutional portions." The doctrine of severability is "derived from the respect of the judiciary for the separation of powers, and is 'designed to show great deference to the legislative prerogative to enact laws.'"

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002481

> Severability is not possible, however, when "the taint of an illegal provision has infected the entire enactment, requiring the whole unit to fail." Whether a statute is severable is determined by "its relation to the overall legislative intent of the statute of which it is a part, and whether the statute, less the invalid provisions, can still accomplish this intent." The doctrine of severability, thus, "recognizes that federal courts have an affirmative duty to preserve the validity of legislative enactments when it is at all possible to do so."

Coral Springs St. Sys., Inc. v. City of Sunrise, 371 F.3d 1320, 1347 (11th Cir. 2004) (citations omitted).

As discussed above, the Court finds that the Transport Requirement is preempted by federal immigration law. Accordingly, the Court must assess whether this provision is severable from SB 168. The "taint" of SB 168's Transport Requirement does not "infect the entire enactment" because the unconstitutional authorization to transport aliens across state lines into federal custody does not implicate any of the other statutory provisions of SB 168. Thus, given the "affirmative duty to preserve the validity of legislative enactments when it is at all possible to do so," the Court concludes that the Transport Requirement is severable from the rest of SB 168. *Id.*

D. Posting a Bond

Plaintiffs request that this Court issue the preliminary injunction without requiring them to post a bond. ECF No. [5-1] at 20. Defendants make no mention of any opposition to Plaintiffs' request in their Response and Surreply.

Before a district court may issue a preliminary injunction, Federal Rule of Civil Procedure 65(c) requires that a movant "give[] security in an amount that the court considers proper to pay the costs and damages sustained by any party found to have been wrongfully enjoined." Fed. R. Civ. P. 65(c). The Eleventh Circuit has explained that "it is well-established that 'the amount of security required by the rule is a matter within the discretion of the trial court . . . [, and] the court may elect to require no security at all.'" *BellSouth Telecomm., Inc. v. MCIMetro Access Transmission Servs., LLC*, 425 F.3d 964, 971 (11th Cir. 2005) (quoting *City of Atlanta v. Metro.*

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002482

Atlanta Rapid Transit Auth., 636 F.2d 1084, 1094 (5th Cir. Unit B Feb. 1981)); *Corrigan Dispatch Co. v. Casa Guzman, S. A.*, 569 F.2d 300, 302-03 (5th Cir. 1978) ("Rule [65(c)] requires security only in 'such sum as the court deems proper.' The amount of security required is a matter for the discretion of the trial court; it may elect to require no security at all." (citations omitted)). Moreover, where plaintiffs "seek only to vindicate their federal statutory and constitutional rights, this case implicates the public interest and the balance of hardships tips sharply in favor of plaintiffs," district courts have exercised their discretion in not requiring plaintiffs to give security. *Campos v. Immigration and Naturalization Serv.*, 70 F. Supp. 2d 1296, 1310 (S.D. Fla. 1998).

In requesting that the Court issue a preliminary injunction, Plaintiffs seek only to vindicate their federal statutory and constitutional rights. *Id.* Moreover, as discussed above, the equitable factors weigh heavily in Plaintiffs' favor. *Id.* Accordingly, the Court will not require Plaintiffs to post a security bond.

IV. CONCLUSION

For the foregoing reasons, it is **ORDERED AND ADJUDGED** that Plaintiffs' Amended Motion, ECF No. [47], is **GRANTED in part and DENIED in part** consistent with this Order.

DONE AND ORDERED in Chambers at Miami, Florida, on September 30, 2019.

APPENDIX
Form I-247A

DEPARTMENT OF HOMELAND SECURITY
IMMIGRATION DETAINER - NOTICE OF ACTION

Subject ID: Event #:	File No: Date:
TO: (Name and Title of Institution - OR Any Subsequent Law Enforcement Agency)	FROM: (Department of Homeland Security Office Address)

Name of Alien: _____

Date of Birth: _____ Citizenship: _____ Sex: _____

1. DHS HAS DETERMINED THAT PROBABLE CAUSE EXISTS THAT THE SUBJECT IS A REMOVABLE ALIEN. THIS DETERMINATION IS BASED ON *(complete box 1 or 2).*

- ☐ A final order of removal against the alien;
- ☐ The pendency of ongoing removal proceedings against the alien;
- ☐ Biometric confirmation of the alien's identity and a records check of federal databases that affirmatively indicate, by themselves or in addition to other reliable information, that the alien either lacks immigration status or notwithstanding such status is removable under U.S. immigration law; and/or
- ☐ Statements made by the alien to an immigration officer and/or other reliable evidence that affirmatively indicate the alien either lacks immigration status or notwithstanding such status is removable under U.S. immigration law.

2. DHS TRANSFERRED THE ALIEN TO YOUR CUSTODY FOR A PROCEEDING OR INVESTIGATION *(complete box 1 or 2).*

- ☐ Upon completion of the proceeding or investigation for which the alien was transferred to your custody, DHS intends to resume custody of the alien to complete processing and/or make an admissibility determination.

IT IS THEREFORE REQUESTED THAT YOU:

- **Notify DHS** as early as practicable (at least 48 hours, if possible) before the alien is released from your custody. Please notify DHS by calling ☐ U.S. Immigration and Customs Enforcement (ICE) or ☐ U.S. Customs and Border Protection (CBP) at _____. If you cannot reach an official at the number(s) provided, please contact the Law Enforcement Support Center at: (802) 872-6020.
- **Maintain custody** of the alien for a period **NOT TO EXCEED 48 HOURS** beyond the time when he/she would otherwise have been released from your custody to allow DHS to assume custody. The alien **must be served with a copy of this form** for the detainer to take effect. This detainer arises from DHS authorities and should not impact decisions about the alien's bail, rehabilitation, parole, release, diversion, custody classification, work, quarter assignments, or other matters
- Relay this detainer to any other law enforcement agency to which you transfer custody of the alien.
- Notify this office in the event of the alien's death, hospitalization or transfer to another institution.

☐ If checked: please cancel the detainer related to this alien previously submitted to you on _____ (date).

SAMPLE

_____ (Name and title of Immigration Officer)

_____ (Signature of Immigration Officer) (Sign in ink)

Notice: If the alien may be the victim of a crime or you want the alien to remain in the United States for a law enforcement purpose, notify the ICE Law Enforcement Support Center at (802) 872-6020. You may also call this number if you have any other questions or concerns about this matter.

TO BE COMPLETED BY THE LAW ENFORCEMENT AGENCY CURRENTLY HOLDING THE ALIEN WHO IS THE SUBJECT OF THIS NOTICE:

Please provide the information below, sign, and return to DHS by mailing, emailing or faxing a copy to _____ .

Local Booking/Inmate #: _____ Estimated release date/time: _____

Date of latest criminal charge/conviction: _____ Last offense charged/conviction: _____

This form was served upon the alien on _____ , in the following manner:

☐ in person ☐ by inmate mail delivery ☐ other (please specify): _____

_____ (Name and title of Officer)

_____ (Signature of Officer) (Sign in ink)

DHS Form I-247A (3/17) Apx-21 Page 1 of 3

AMERICAN OVERSIGHT

NOTICE TO THE DETAINEE

The Department of Homeland Security (DHS) has placed an immigration detainer on you. An immigration detainer is a notice to a law enforcement agency that DHS intends to assume custody of you (after you otherwise would be released from custody) because there is probable cause that you are subject to removal from the United States under federal immigration law. DHS has requested that the law enforcement agency that is currently detaining you maintain custody of you for a period not to exceed 48 hours beyond the time when you would have been released based on your criminal charges or convictions. **If DHS does not take you into custody during this additional 48 hour period, you should contact your custodian** (the agency that is holding you now) to inquire about your release. **If you believe you are a United States citizen or the victim of a crime, please advise DHS by calling the ICE Law Enforcement Support Center toll free at (855) 448-6903.**

NOTIFICACIÓN A LA PERSONA DETENIDA

El Departamento de Seguridad Nacional (DHS) le ha puesto una retención de inmigración. Una retención de inmigración es un aviso a una agencia de la ley que DHS tiene la intención de asumir la custodia de usted (después de lo contrario, usted sería puesto en libertad de la custodia) porque hay causa probable que usted está sujeto a que lo expulsen de los Estados Unidos bajo la ley de inmigración federal. DHS ha solicitado que la agencia de la ley que le tiene detenido actualmente mantenga custodia de usted por un periodo de tiempo que no exceda de 48 horas más del tiempo original que habría sido puesto en libertad en base a los cargos judiciales o a sus antecedentes penales. **Si DHS no le pone en custodia durante este periodo adicional de 48 horas, usted debe de contactarse con su custodio** (la agencia que le tiene detenido en este momento) para preguntar acerca de su liberación. **Si usted cree que es un ciudadano de los Estados Unidos o la víctima de un crimen, por favor avise al DHS llamando gratuitamente al Centro de Apoyo a la Aplicación de la Ley ICE al (855) 448-6903.**

AVIS AU DETENU OU À LA DÉTENUE

Le Département de la Sécurité Intérieure (DHS) a placé un dépositaire d'immigration sur vous. Un dépositaire d'immigration est un avis à une agence de force de l'ordre que le DHS a l'intention de vous prendre en garde à vue (après celà vous pourrez par ailleurs être remis en liberté) parce qu'il y a une cause probable que vous soyez sujet à expulsion des États-Unis en vertu de la loi fédérale sur l'immigration. Le DHS a demandé que l'agence de force de l'ordre qui vous détient actuellement puisse vous maintenir en garde pendant une période ne devant pas dépasser 48 heures au-delà du temps après lequel vous auriez été libéré en se basant sur vos accusations criminelles ou condamnations. **Si le DHS ne vous prenne pas en garde à vue au cours de cette période supplémentaire de 48 heures, vous devez contacter votre gardien (ne)** (l'agence qui vous détient maintenant) pour vous renseigner sur votre libération. **Si vous croyez que vous êtes un citoyen ou une citoyenne des États-Unis ou une victime d'un crime, s'il vous plaît aviser le DHS en appelant gratuitement le centre d'assistance de force de l'ordre de l'ICE au (855) 448-6903**

NOTIFICAÇÃO AO DETENTO

O Departamento de Segurança Nacional (DHS) expediu um mandado de detenção migratória contra você. Um mandado de detenção migratória é uma notificação feita à uma agência de segurança pública que o DHS tem a intenção de assumir a sua custódia (após a qual você, caso contrário, seria liberado da custódia) porque existe causa provável que você está sujeito a ser removido dos Estados Unidos de acordo com a lei federal de imigração. ODHS solicitou à agência de segurança pública onde você está atualmente detido para manter a sua guarda por um período de no máximo 48 horas além do tempo que você teria sido liberado com base nas suas acusações ou condenações criminais. **Se o DHS não leva-lo sob custódia durante este período adicional de 48 horas, você deve entrar em contato com quem tiver a sua custódia** (a agência onde você está atualmente detido) para perguntar a respeito da sua liberação. **Se você acredita ser um cidadão dos Estados Unidos ou a vítima de um crime, por favor informe ao DHS através de uma ligação gratuita ao Centro de Suporte de Segurança Pública do Serviço de Imigração e Alfândega (ICE) pelo telefone (855) 448-6903.**

Form I-200

U.S. DEPARTMENT OF HOMELAND SECURITY **Warrant for Arrest of Alien**

File No. _____

Date: _____

To: Any immigration officer authorized pursuant to sections 236 and 287 of the Immigration and Nationality Act and part 287 of title 8, Code of Federal Regulations, to serve warrants of arrest for immigration violations

I have determined that there is probable cause to believe that _____ is removable from the United States. This determination is based upon:

☐ the execution of a charging document to initiate removal proceedings against the subject;

☐ the pendency of ongoing removal proceedings against the subject;

☐ the failure to establish admissibility subsequent to deferred inspection;

☐ biometric confirmation of the subject's identity and a records check of federal databases that affirmatively indicate, by themselves or in addition to other reliable information, that the subject either lacks immigration status or notwithstanding such status is removable under U.S. immigration law; and/or

☐ statements made voluntarily by the subject to an immigration officer and/or other reliable evidence that affirmatively indicate the subject either lacks immigration status or notwithstanding such status is removable under U.S. immigration law.

YOU ARE COMMANDED to arrest and take into custody for removal proceedings under the Immigration and Nationality Act, the above-named alien.

Subject: SB 168 - Sanctuary Cities Order.pdf
Attachment(s): "Sanctuary Cities Order.pdf"

Hi Vickie,

You might have already seen the judge's order from yesterday where the plaintiffs challenged SB 168 in federal court in Miami. But if you haven't, here is a copy for you.

I haven't read it in its entirety, but it sounds like the judge has upheld all provisions that were challenged except the provision for transporting detainees across state lines.

Please let me know if you have any questions and we will try to answer them … after we read the 61 page decision.

Thanks,
Eva

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

Case No. 19-cv-22927-BLOOM/Louis

CITY OF SOUTH MIAMI, et al.,

Plaintiffs,

v.

RON DESANTIS, et al.,

Defendants.
_____/

ORDER

THIS CAUSE is before the Court on Plaintiffs'[1] Amended Motion for Preliminary Injunction and Request for Hearing. ECF No. [47] ("Amended Motion"). Defendants[2] filed a Response in Opposition to the Motion, ECF No. [19] ("Response"), to which Plaintiffs replied, ECF No. [39] ("Reply"). Defendants were also permitted to file a Surreply in Opposition, ECF No. [45] ("Surreply"), in order to respond to Plaintiffs' Amended Complaint, ECF No. [38] ("Amended Complaint"), which added one additional Plaintiff. The United States of America filed a Statement of Interest, ECF No. [23], to which Plaintiffs responded, ECF No. [50] ("SOI Response"). *Amici curiae* were permitted to file an amicus brief in support of Plaintiffs, ECF No. [61] ("Amicus Brief"). The instant Amended Motion requests that the Court grant a preliminary

[1] Plaintiffs include the City of South Miami; Philip K. Stoddard, Mayor of City of South Miami ("Mayor Stoddard"); Florida Immigrant Coalition, Inc. ("FLIC"), The Farmworker Association of Florida, Inc. ("FWAF"), Family Action Network Movement, Inc. ("FANM"), QLatinx, and WeCount!, Inc. ("WeCount"), on behalf of their members and their organizations as a whole; Americans for Immigrant Justice, Inc. ("AI Justice"), The Guatemalan-Maya Center, Inc. ("GMC"), Hope Community Center, Inc. ("Hope"), and Westminster Presbyterian Church United of Gainesville, Florida, Inc. ("Westminster"), on behalf of their organizations (collectively, "Plaintiffs").

[2] Defendants include Ron DeSantis, Governor of the State of Florida ("Governor DeSantis"), and Ashley Moody, Attorney General of the State of Florida (collectively, "Defendants").

AMERICAN OVERSIGHT

injunction enjoining Defendants from enforcing Chapter 908 of the Florida Statutes because the law is preempted by federal immigration law and is unconstitutionally vague. The Court has carefully considered the Amended Motion, all opposing and supporting submissions, the parties' arguments presented at the Hearing, the record in this case, and the applicable law, and is otherwise fully advised. For the reasons set forth below, Plaintiffs' Amended Motion is granted in part and denied in part.

I. BACKGROUND

On May 2, 2019, the Florida legislature passed Senate Bill 168 ("SB 168"), which aimed to further the State of Florida's interest in "cooperat[ing] and assist[ing] the federal government in the enforcement of federal immigration laws within this state." Fla. Stat. § 908.101 (2019); ECF No. [5-1] at 2. The law was adapted from a model law originally drafted by organizations designated by the Southern Poverty Law Center to be hate groups, based on their anti-immigrant platforms. ECF No. [38] at 26. Moreover, SB 168 was described by its sponsors as an "anti-sanctuary cities law." *Id.* at 26, 27. On June 14, 2019, Governor DeSantis signed SB 168 into law, and it was enacted as Chapter 908 of the Florida Statutes. *See* Fla. Stat. ch. 908; ECF No. [5-1] at 7. Among other things, SB 168 prohibits so-called "sanctuary policies" that indicate certain jurisdictions' intent not to cooperate with Immigration and Customs Enforcement ("ICE"). ECF No. [19] at 4. The law delineates specific immigration enforcement efforts with which local jurisdictions must comply. These include complying with immigration detainers and transporting aliens to federal facilities. *Id.* at 4-5; *see* Fla. Stat. § 908.105; Fla. Stat. § 908.104(4). Furthermore, under SB 168, the Attorney General and the Governor are vested with enforcement authority to seek injunctive relief or to exercise the Governor's suspension power, should a government official

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002492

fail to comply with the law's mandates. Fla. Stat. § 908.107. This enforcement provision is scheduled to take effect on October 1, 2019. ECF No. [19] at 5.

The instant action challenges the constitutionality of numerous provisions of SB 168 and seeks injunctive and declaratory relief to prevent the law from taking effect. ECF No. [38] at 3.

A. Relevant SB 168 Provisions

The provisions of SB 168 that are being challenged are reproduced in full below. Any supplemental provisions that are relevant to the Court's analysis are also set forth below.

SB 168 sets forth the definition of certain terms used in the statute in § 908.102. Plaintiffs Amended Complaint specifically challenges § 908.102(6)'s definition of "sanctuary policy" ("Sanctuary Definition"). Nevertheless, many of the other definitions in this section are relevant to the Court's analysis.

> Definitions.—As used in this chapter, the term:
>
> (1) "Federal immigration agency" means the United States Department of Justice and the United States Department of Homeland Security, a division within such an agency, including United States Immigration and Customs Enforcement and United States Customs and Border Protection, any successor agency, and any other federal agency charged with the enforcement of immigration law.
>
> (2) "Immigration detainer" means a facially sufficient written or electronic request issued by a federal immigration agency using that agency's official form to request that another law enforcement agency detain a person based on probable cause to believe that the person to be detained is a removable alien under federal immigration law, including detainers issued pursuant to 8 U.S.C. ss. 1226 and 1357 along with a warrant described in paragraph (c). For purposes of this subsection, an immigration detainer is deemed facially sufficient if:
>
> (a) The federal immigration agency's official form is complete and indicates on its face that the federal immigration official has probable cause to believe that the person to be detained is a removable alien under federal immigration law; or
>
> (b) The federal immigration agency's official form is incomplete and fails to indicate on its face that the federal immigration official has probable cause to believe that the person to be detained is a removable alien under federal immigration law, but is supported by an affidavit, order, or other official documentation that indicates that the federal immigration agency has probable cause to believe that the person to be detained is a removable alien under federal immigration law; and

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002493

> (c) The federal immigration agency supplies with its detention request a Form I-200 Warrant for Arrest of Alien or a Form I-205 Warrant of Removal/Deportation or a successor warrant or other warrant authorized by federal law.
>
> (3) "Inmate" means a person in the custody of a law enforcement agency.
>
> (4) "Law enforcement agency" means an agency in this state charged with enforcement of state, county, municipal, or federal laws or with managing custody of detained persons in this state and includes municipal police departments, sheriffs' offices, state police departments, state university and college police departments, county correctional agencies, and the Department of Corrections.
>
> (5) "Local governmental entity" means any county, municipality, or other political subdivision of this state.
>
> (6) "Sanctuary policy" means a law, policy, practice, procedure, or custom adopted or allowed by a state entity or local governmental entity which prohibits or impedes a law enforcement agency from complying with 8 U.S.C. s. 1373 or which prohibits or impedes a law enforcement agency from communicating or cooperating with a federal immigration agency so as to limit such law enforcement agency in, or prohibit the agency from:
>
> (a) Complying with an immigration detainer;
>
> (b) Complying with a request from a federal immigration agency to notify the agency before the release of an inmate or detainee in the custody of the law enforcement agency;
>
> (c) Providing a federal immigration agency access to an inmate for interview;
>
> (d) Participating in any program or agreement authorized under s. 287 of the Immigration and Nationality Act, 8 U.S.C. s. 1357; or
>
> (e) Providing a federal immigration agency with an inmate's incarceration status or release date.
>
> (7) "State entity" means the state or any office, board, bureau, commission, department, branch, division, or institution thereof, including institutions within the State University System and the Florida College System.

Fla. Stat. § 908.102.

Based on § 908.102(6)'s Sanctuary Definition, § 908.103 states, "Sanctuary policies prohibited.—A state entity, law enforcement agency, or local governmental entity may not adopt or have in effect a sanctuary policy." Fla. Stat. § 908.103 ("Sanctuary Prohibition").[3]

The requirement that state and local law enforcement entities and agencies cooperate with federal immigration enforcement efforts, § 908.104, states:

[3] Collectively, the Sanctuary Definition and the Sanctuary Prohibition will be referred to as "Sanctuary Provisions."

AMERICAN OVERSIGHT

Cooperation with federal immigration authorities.—

(1) A law enforcement agency shall use best efforts to support the enforcement of federal immigration law. This subsection applies to an official, representative, agent, or employee of the entity or agency only when he or she is acting within the scope of his or her official duties or within the scope of his or her employment.[4]

(2) Except as otherwise expressly prohibited by federal law, a state entity, local governmental entity, or law enforcement agency, or an employee, an agent, or a representative of the entity or agency, may not prohibit or in any way restrict a law enforcement agency from taking any of the following actions with respect to information regarding a person's immigration status:

(a) Sending the information to or requesting, receiving, or reviewing the information from a federal immigration agency for purposes of this chapter.

(b) Recording and maintaining the information for purposes of this chapter.

(c) Exchanging the information with a federal immigration agency or another state entity, local governmental entity, or law enforcement agency for purposes of this chapter.

(d) Using the information to comply with an immigration detainer.

(e) Using the information to confirm the identity of a person who is detained by a law enforcement agency.

(3)(a) For purposes of this subsection, the term "applicable criminal case" means a criminal case in which:

1. The judgment requires the defendant to be confined in a secure correctional facility; and

2. The judge:

a. Indicates in the record under s. 908.105 that the defendant is subject to an immigration detainer; or

b. Otherwise indicates in the record that the defendant is subject to a transfer into federal custody.

(b) In an applicable criminal case, when the judge sentences a defendant who is the subject of an immigration detainer to confinement, the judge shall issue an order requiring the secure correctional facility in which the defendant is to be confined to reduce the defendant's sentence by a period of not more than 12 days on the facility's determination that the reduction in sentence will facilitate the seamless transfer of the defendant into federal custody. For purposes of this paragraph, the term "secure correctional facility" means a state correctional institution as defined in s. 944.02 or a county detention facility or a municipal detention facility as defined in s. 951.23.

(c) If the information specified in sub-subparagraph (a)2.a. or sub-subparagraph (a)2.b. is not available at the time the sentence is pronounced in the case, but is received by a law enforcement agency afterwards, the law enforcement agency shall notify the judge who shall issue the order described by paragraph (b) as soon as the information becomes available.

[4] Section 908.104(1) will be referred to as the "Best Efforts" provision.

AMERICAN OVERSIGHT

> (4) When a county correctional facility or the Department of Corrections receives verification from a federal immigration agency that a person subject to an immigration detainer is in the law enforcement agency's custody, the agency may securely transport the person to a federal facility in this state or to another point of transfer to federal custody outside the jurisdiction of the law enforcement agency. The law enforcement agency may transfer a person who is subject to an immigration detainer and is confined in a secure correctional facility to the custody of a federal immigration agency not earlier than 12 days before his or her release date. A law enforcement agency shall obtain judicial authorization before securely transporting an alien to a point of transfer outside of this state.[5]
>
> (5) This section does not require a state entity, local governmental entity, or law enforcement agency to provide a federal immigration agency with information related to a victim of or a witness to a criminal offense if the victim or witness timely and in good faith responds to the entity's or agency's request for information and cooperation in the investigation or prosecution of the offense.
>
> (6) A state entity, local governmental entity, or law enforcement agency that, pursuant to subsection (5), withholds information regarding the immigration information of a victim of or witness to a criminal offense shall document the victim's or witness's cooperation in the entity's or agency's investigative records related to the offense and shall retain the records for at least 10 years for the purpose of audit, verification, or inspection by the Auditor General.
>
> (7) This section does not authorize a law enforcement agency to detain an alien unlawfully present in the United States pursuant to an immigration detainer solely because the alien witnessed or reported a crime or was a victim of a criminal offense.
>
> (8) This section does not apply to any alien unlawfully present in the United States if he or she is or has been a necessary witness or victim of a crime of domestic violence, rape, sexual exploitation, sexual assault, murder, manslaughter, assault, battery, human trafficking, kidnapping, false imprisonment, involuntary servitude, fraud in foreign labor contracting, blackmail, extortion, or witness tampering.

Fla. Stat. § 908.104.

Section 908.105 mandates that state and local law enforcement agencies comply with immigration detainers received by federal immigration authorities ("Detainer Mandate").

> Duties related to immigration detainers.—
>
> (1) A law enforcement agency that has custody of a person subject to an immigration detainer issued by a federal immigration agency shall:
>
> (a) Provide to the judge authorized to grant or deny the person's release on bail under chapter 903 notice that the person is subject to an immigration detainer.

[5] Section 908.104(4) will be referred to as the "Transport Requirement."

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002496

> (b) Record in the person's case file that the person is subject to an immigration detainer.
>
> (c) Upon determining that the immigration detainer is in accordance with s. 908.102(2), comply with the requests made in the immigration detainer.
>
> (2) A law enforcement agency is not required to perform a duty imposed by paragraph (1)(a) or paragraph (1)(b) with respect to a person who is transferred to the custody of the agency by another law enforcement agency if the transferring agency performed that duty before the transfer.
>
> (3) A judge who receives notice that a person is subject to an immigration detainer shall cause the fact to be recorded in the court record, regardless of whether the notice is received before or after a judgment in the case.

Fla. Stat. § 908.105.

Moreover, § 908.106 requires county correctional facilities to enter into agreements with the federal government for the reimbursement of costs incurred pursuant to honoring immigration detainer requests ("Cost Reimbursement").

> Reimbursement of costs.—Each county correctional facility shall enter into an agreement or agreements with a federal immigration agency for temporarily housing persons who are the subject of immigration detainers and for the payment of the costs of housing and detaining those persons. A compliant agreement may include any contract between a correctional facility and a federal immigration agency for housing or detaining persons subject to immigration detainers, such as basic ordering agreements in effect on or after July 1, 2019, agreements authorized by s. 287 of the Immigration and Nationality Act, 8 U.S.C. s. 1357, or successor agreements and other similar agreements authorized by federal law.

Fla. Stat. § 908.106.

Finally, in the event that state and local officers fail to comply with the immigration enforcement efforts specified in SB 168, § 908.107 sets forth the Governor and the Attorney General's ability to enforce Chapter 908.

> Enforcement.—
>
> (1) Any executive or administrative state, county, or municipal officer who violates his or her duties under this chapter may be subject to action by the Governor in the exercise of his or her authority under the State Constitution and state law. Pursuant to s. 1(b), Art. IV of the State Constitution, the Governor may initiate judicial proceedings in the name of the state against such officers to enforce compliance with any duty under this chapter or restrain any unauthorized act contrary to this chapter.

AMERICAN OVERSIGHT

> (2) In addition, the Attorney General may file suit against a local governmental entity or local law enforcement agency in a court of competent jurisdiction for declaratory or injunctive relief for a violation of this chapter.
>
> (3) If a local governmental entity or local law enforcement agency violates this chapter, the court must enjoin the unlawful sanctuary policy. The court has continuing jurisdiction over the parties and subject matter and may enforce its orders with the initiation of contempt proceedings as provided by law.
>
> (4) An order approving a consent decree or granting an injunction must include written findings of fact that describe with specificity the existence and nature of the sanctuary policy that violates this chapter.

Fla. Stat. § 908.107.

B. <u>This Action</u>

Following the enactment of SB 168, on July 16, 2019, Plaintiffs initiated this action against Defendants, ECF No. [1] ("Complaint"), and filed their original Motion for Preliminary Injunction, ECF No. [5], and accompanying memorandum of law, ECF No. [5-1]. Specifically, Plaintiffs sought declaratory and injunctive relief, arguing that SB 168's Detainer Mandate, Transport Requirement, and Cost Reimbursement provisions are preempted by federal law, and that the "Best Efforts" provision and the Sanctuary Provisions are unconstitutionally vague.

On August 21, 2019, Plaintiffs amended their Complaint to include Mayor Stoddard as a Plaintiff and added two counts relating to Mayor Stoddard's claims. ECF No. [38]; ECF No. [40]. The Amended Complaint asserts the following eleven counts on behalf of the different Plaintiffs: Count I – § 908.105's Detainer Mandate violates the Supremacy Clause, U.S. Const. art. VI, § 2; Count II – § 908.104(4)'s Transport Requirement violates the Supremacy Clause; Count III – § 908.160's Cost Reimbursement violates the Supremacy Clause; Counts IV, V, and VI – § 908.102(6)'s and § 908.103's Sanctuary Provisions violate the Due Process Clause; Counts VII, VIII, and IX – § 908.104(1)'s "Best Efforts" provision violates the Due Process Clause; Count X

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002498

– § 908.104(1)'s "Best Efforts" provision violates the Equal Protection Clause; and Count XI – § 908.103's Sanctuary Prohibition violates the Equal Protection Clause.[6] *Id.*

On August 30, 2019, Plaintiffs amended their Motion for Preliminary Injunction to include additional arguments with regard to Mayor Stoddard's claims. ECF No. [47]. Plaintiffs' Amended Motion incorporated the arguments previously asserted in their Memorandum of Law attached to their original Motion, ECF No. [5-1], and their Reply, ECF No. [39]. Defendants filed their Response, ECF No. [19], and Surreply, ECF No. [45],[7] in opposition to the imposition of a preliminary injunction.

The Court held a hearing on September 26, 2019, ("Hearing"), which was attended by Plaintiffs' counsel, Defendants' counsel, and counsel for the United States of America, who sought the Court's leave to participate in the hearing, ECF No. [57]; *see also* ECF No. [60]. During the Hearing, Plaintiffs argued in support of a preliminary injunction that SB 168's challenged provisions are unconstitutional based on preemption and vagueness. Defendants argued that Plaintiffs lack standing and that a preliminary injunction is not warranted as SB 168 is neither preempted by federal law nor unconstitutionally vague. The United States of America participated and argued that federal immigration law does not preempt any of the challenged provisions of SB 168.

[6] It is relevant for the Court's standing analysis below to explain the relationship between each of the Plaintiffs and the counts asserted in the Amended Complaint. Count I is brought by the City of South Miami; FLIC, FWAF, FANM, QLatinx, and WeCount, on behalf of their members and their organizations as a whole; and AI Justice, GMC, Hope, and Westminster, on behalf of their organizations. Counts II, IV, VII, X, and XI are brought by FLIC, FWAF, FANM, QLatinx, and WeCount, on behalf of their members and their organizations as a whole; and AI Justice, GMC, Hope, and Westminster, on behalf of their organizations. Count III is brought by FLIC, FWAF, FANM, QLatinx, WeCount, AI Justice, GMC, Hope, and Westminster, on behalf of their organizations. Counts V and VIII are brought by the City of South Miami. Counts VI and IX are brought by Mayor Stoddard.

[7] Defendants' Surreply addresses arguments regarding the addition of Mayor Stoddard as a Plaintiff in the Amended Complaint.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002499

II. LEGAL STANDARD

A. Standing

Standing is a threshold question of "whether the litigant is entitled to have the court decide the merits of the dispute or of particular issues." *Sims v. Fla. Dep't of Highway Safety & Motor Vehicles*, 862 F.2d 1449, 1458 (11th Cir. 1989) (en banc). "[S]tanding requirements 'are not mere pleading requirements but rather [are] an indispensable part of the plaintiff's case.'" *Church v. City of Huntsville*, 30 F.3d 1332, 1336 (11th Cir. 1994) (quoting *Lujan v. Defenders of Wildlife*, 504 U.S. 555, 561 (1992)). "To establish standing, a plaintiff must have 'suffered an injury-in-fact that would be corrected by [a] favorable decision in the lawsuit.'" *Church*, 30 F.3d at 1335 (quoting *Cheffer v. McGregor*, 6 F.3d 705, 708 (11th Cir. 1993)).

> [A]t an irreducible minimum, Art. III requires the party who invokes the court's authority to "show that he personally has suffered some actual or threatened injury as a result of the putatively illegal conduct of the defendant," and that the injury "fairly can be traced to the challenged action" and "is likely to be redressed by a favorable decision."

Valley Forge Christian Coll. v. Americans United for Separation of Church and State, 454 U.S. 464, 472 (1982) (quoting *Gladstone, Realtors v. Vill. of Bellwood*, 441 U.S. 91, 99 (1979)).

B. Preliminary Injunction

"A preliminary injunction may be issued to protect the plaintiff from irreparable injury and to preserve the district court's power to render a meaningful decision after a trial on the merits." *Canal Auth. of the State of Fla. v. Callaway*, 489 F.2d 567, 572 (5th Cir. 1974);[8] *Ne. Fla. Chapter of Ass'n of Gen. Contractors of Am. v. City of Jacksonville, Fla.*, 896 F.2d 1283, 1285 (11th Cir. 1990) ("*NE Fla. CAGC of Am.*") ("The basis of injunctive relief in the federal courts has always

[8] The Court of Appeals for the Eleventh Circuit, in *Bonner v. City of Prichard*, 661 F.2d 1206, 1209 (11th Cir. 1981), adopted all decisions of the Court of Appeals for the Fifth Circuit that were rendered prior to September 30, 1981.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002500

been irreparable harm and inadequacy of legal remedies." (quoting *Sampson v. Murray*, 415 U.S. 61, 90 (1974))). District courts ultimately have discretion on whether or not to grant a preliminary injunction. *Callaway*, 489 F.2d at 572. However, "a preliminary injunction is an extraordinary and drastic remedy which should not be granted unless the movant clearly carries the burden of persuasion." *Id.* at 573. Accordingly, a movant must prove four factors in order to establish that a preliminary injunction is appropriate: (1) "a substantial likelihood of success on the merits," (2) "that the preliminary injunction is necessary to prevent irreparable injury," (3) "that the threatened injury outweighs the harm the preliminary injunction would cause the other litigant," and (4) "that the preliminary injunction would not be averse to the public interest." *Chavez v. Fla. SP Warden*, 742 F.3d 1267, 1271 (11th Cir. 2014) (citing *Parker v. State Bd. of Pardons & Paroles*, 275 F.3d 1032, 1034-35 (11th Cir. 2001)).

Because preliminary injunctions are drastic, often time-sensitive, remedies, they are "customarily granted on the basis of procedures that are less formal and evidence that is less complete than in a trial on the merits. A party thus is not required to prove his case in full at a preliminary-injunction hearing." *Univ. of Tex. v. Camenisch*, 451 U.S. 390, 395 (1981) (citation omitted). As such, "all of the well-pleaded allegations [in a movant's] complaint and uncontroverted affidavits filed in support of the motion for a preliminary injunction are taken as true." *Elrod v. Burns*, 427 U.S. 347, 350 n.1 (1976).

III. DISCUSSION

In their Amended Motion, Plaintiffs request that the Court preliminarily enjoin § 908.105(1)'s Detainer Mandate, § 908.104(4)'s Transport Requirement, § 908.106's Cost Reimbursement, § 908.104(1)'s "Best Efforts" provision, § 908.102(6)'s Sanctuary Definition, and § 908.103's Sanctuary Prohibition, based on their likelihood of success on the merits, the

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002501

irreparable harm they will suffer if SB 168 takes effect, and the equitable factors weighing in their favor. ECF No. [47]. Specifically, Plaintiffs contend that the Detainer Mandate, the Transport Requirement, and the Cost Reimbursement provisions violate the Supremacy Clause because they are preempted by the Immigration and Nationality Act ("INA"). *Id.* at 2. Additionally, Plaintiffs argue that the "Best Efforts" provision and the Sanctuary Provisions violate the Due Process Clause of the Fourteenth Amendment because they are unconstitutionally vague. *Id.* Moreover, because Plaintiffs do not consider the provisions of SB 168 to be severable, they request that the Court preliminarily enjoin SB 168 in its entirety. *Id.*

Conversely, in their Response, Defendants argue that the Organizational Plaintiffs[9] lack standing to bring any of their claims, aside from the Detainer Mandate challenge; the City of South Miami lacks standing to bring its vagueness challenges; and Mayor Stoddard's[10] delay in joining this action rebuts any allegation that he will suffer irreparable harm under the preliminary injunction analysis. ECF No. [19]; *see also* ECF No. [45]. Defendants also assert that a preliminary injunction is not warranted because Plaintiffs cannot establish a likelihood of success on the merits on either their preemption claims or their vagueness challenges. ECF No. [19] at 10-18. Further, Defendants allege that the remaining equitable factors under the preliminary injunction analysis weigh in their favor. *Id.* at 19. Finally, if the Court determines that a preliminary injunction is warranted on any of the challenged provisions, Defendants request that the enjoined provisions be severed from the remainder of SB 168. *Id.* at 20.

[9] Any reference to the "Organizational Plaintiffs" includes FLIC, FWAF, FANM, QLatinx, WeCount, and AI Justice, GMC, Hope, and Westminster.
[10] Defendants' arguments as to Mayor Stoddard are set forth in their Surreply. ECF No. [45] at 2-3.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002502

A. Standing

As an initial matter, the Court will address the issue of Plaintiffs' standing. Defendants argue that the Organizational Plaintiffs lack standing to challenge the Transport Requirement, Cost Reimbursement, "Best Efforts" provision, and Sanctuary Provisions. ECF No. [19] at 7-9. Additionally, Defendants contest Plaintiff City of South Miami's standing to assert its vagueness challenges. *Id.* at 9-10.

"A threshold question in every federal case is whether the plaintiff has made out a justiciable case or controversy within the meaning of article III." *NE Fla. CAGC of Am.*, 896 F.2d at 1287 n.1 (Tjoflat, C.J., specially concurring) (quoting *Church of Scientology Flag Serv. Org. v. City of Clearwater*, 777 F.2d 598, 606 (11th Cir. 1985)). As explained above, to establish standing, a "plaintiff must have (1) suffered an injury in fact, (2) that is fairly traceable to the challenged conduct of the defendant, and (3) that is likely to be redressed by a favorable judicial decision." *Spokeo, Inc. v. Robins*, 136 S. Ct. 1540, 1547 (2016). Moreover, "[s]tanding cannot be waived or conceded by the parties." *A&M Gerber Chiropractic LLC v. GEICO Gen. Ins. Co.*, 925 F.3d 1205, 1210 (11th Cir. 2019).

The United States Supreme Court has defined "injury in fact" as "an invasion of a judicially cognizable interest which is (a) concrete and particularized and (b) actual or imminent, not conjectural or hypothetical." *Bennett v. Spear*, 520 U.S. 154, 167 (1997).

> When, as here, plaintiffs file a pre-enforcement, constitutional challenge to a state statute, the injury requirement may be satisfied by establishing "'a realistic danger of sustaining direct injury as a result of the statute's operation or enforcement.'" *Socialist Workers Party v. Leahy*, 145 F.3d 1240, 1245 (11th Cir. 1998) (quoting *Am. Civil Liberties Union v. The Fla. Bar (ACLU)*, 999 F.2d 1486, 1492 (11th Cir. 1993)). A plaintiff may meet this standard in any of three ways: "(1) [the plaintiff] was threatened with application of the statute; (2) application is likely; or (3) there is a credible threat of application." *Id.* (citing *ACLU*, 999 F.2d at 1492).

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002503

Ga. Latino All. for Human Rights v. Governor of Ga., 691 F.3d 1250, 1257-58 (11th Cir. 2012) ("*GLAHR*"). Additionally, there must be a causal connection between a plaintiff's injury and a defendant's alleged illegal conduct. *Id.* at 1257. "Finally, it must be 'likely, as opposed to merely speculative, that the injury will be redressed by a favorable decision.'" *Id.* (quoting *Bennett*, 520 U.S. at 167).

1. Organizational Plaintiffs' Standing

Defendants argue that the Organizational Plaintiffs do not have standing to assert any of their claims on behalf of themselves or their members. Defendants contend that the Organizational Plaintiffs will not suffer any irreparable injury as a result of SB 168's enactment because the law does not impose any obligation on the organizations or their members. ECF No. [19] at 7-9. Conversely, Organizational Plaintiffs contend that they have standing to represent themselves because they have had to, and will continue to need to, divert resources away from their core activities to respond to the increased concerns of their members and the community about SB 168's implications. ECF No. [39] at 2-5. Furthermore, these organizations assert that they can properly bring claims on behalf of their members, who have independent standing, because they have sufficiently pled that these members will be personally and adversely impacted by the heightened immigration enforcement efforts by state and local officials pursuant to SB 168. *Id.*

Organizations can establish standing to sue either on their own behalf or on behalf of their members. "[A]n organization has standing to sue on its own behalf if the defendant's illegal acts impair its ability to engage in its projects by forcing the organization to divert resources to counteract those illegal acts." *GLAHR*, 691 F.3d at 1259-60 (quoting *Common Cause/Ga. v. Billups*, 554 F.3d 1340, 1350 (11th Cir. 2009); *Fla. State Conference of the NAACP v. Browning*, 522 F.3d 1153, 1165 (11th Cir. 2008)). An organization can establish injury for standing purposes

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002504

by showing either that it has already suffered a cognizable injury when it had to divert its resources, or that it reasonably anticipates that it will have to divert its resources in the future, to address the illegal conduct. *Billups*, 554 F.3d at 1350; *Browning*, 522 F.3d at 1165-66.

Additionally, "[i]t has long been settled that an organization has standing to sue to redress injuries suffered by its members without a showing of injury to the association itself." *Doe v. Stincer*, 175 F.3d 879, 882 (11th Cir. 1999); *see also Warth v. Seldin*, 422 U.S. 490, 511 (1975) ("Even in the absence of injury to itself, an association may have standing solely as the representative of its members."). The Supreme Court has explained that an association may sue on behalf of its members when: "(a) its members would otherwise have standing to sue in their own right; (b) the interests it seeks to protect are germane to the organization's purpose; and (c) neither the claim asserted nor the relief requested requires the participation of individual members in the lawsuit." *Hunt v. Wash. State Apple Advert. Comm'n*, 432 U.S. 333, 343 (1977).

> Accordingly, under *Hunt*, an association may bring suit on behalf of its members or constituents despite the fact that individual members have not actually brought suit themselves. Nor must the association name the members on whose behalf suit is brought. As we have stated, "neither unusual circumstances, inability of individual members to assert rights nor an explicit statement of representation are prerequisites."

Doe, 175 F.3d at 882 (quoting *Church of Scientology v. Cazares*, 638 F.2d 1272, 1279 (5th Cir. 1981)).

Each of the Organizational Plaintiffs has generally set forth facts in the Amended Complaint regarding the injuries the organizations and their members have sustained after the passage of SB 168. ECF No. [38]. The Organizational Plaintiffs' missions all center around immigrant communities and advocating for their rights. *Id.* at 6-23. Moreover, each of the Organizational Plaintiffs has detailed how SB 168 has forced it to divert its resources away from its core mission activities in order to address member concerns about the law and its implications.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002505

Id. at 9, 11, 13-14, 15, 17, 18, 19-20, 21-22, 23. These diversions of resources in order to specifically address SB 168 include, for example, operating a toll-free hotline to address increased calls requesting information on the law, *Id.* at 10; additional volunteer training, *Id.* at 11; hosting community meetings, *Id.* at 13; hiring additional staff, *Id.* at 15; addressing heightened requests for referrals to immigration attorneys, *Id.* at 18; conducting Know Your Rights presentations, *Id.* at 11, 20; answering member requests for clarification on the law, *Id.* at 21; and organizing forums and legal clinics to aid in the preparation of power of attorney's for members, *Id.* at 23. They also contend that they will continue to have to divert their resources in the future, in response to SB 168's ultimate application. *Id.* at 10, 12, 14, 15, 17, 18-19, 20, 22, 23. Moreover, the Organizational Plaintiffs will suffer diminished membership and beneficiaries if SB 168 takes effect. ECF No. [5-1] at 19.

Organizational Plaintiffs also explain how SB 168 has, and will continue to, injure their individual members. ECF No. [38] at 6-23. Specifically, Organizational Plaintiffs' assert that their members will suffer injuries "from racial and ethnic profiling, and unlawfully prolonged stops, arrests, and detentions on suspicion of civil immigration violations" by law enforcement. *Id.* at 14, 15, 22, 23; ECF No. [5-1] at 18. With SB 168 in force, Organizational Plaintiffs contend that these members will be reluctant to report crimes or act as witnesses due to their fear of interacting with law enforcement officers who may detain them. ECF No. [38] at 17, 20, 22; ECF No. [5-1] at 18. Further, they explain that members' fear and uncertainty about SB 168's implications "has and will continue to discourage members from accessing essential healthcare and government services, including shelter during a hurricane, enforcing their legal rights, including in cases of domestic violence, and applying to and enrolling in public schools and universities." ECF No. [38] at 15, 17, 19-20, 22; ECF No. [5-1] at 18.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002506

a. Detainer Mandate and Transport Requirement Challenges

In the preemption claims asserted in Counts I and II, Organizational Plaintiffs set forth the general injuries discussed above with regard to their present and future need to divert resources as a result of SB 168. ECF No. [38] at 6-23, 46-52. Additionally, they seek to protect the rights of their members to be free from unlawful immigration enforcement. ECF No. [39] at 4. Organizational Plaintiffs contend that at least one member of each membership-based organization will be unlawfully detained under SB 168's Detainer Mandate and will be unlawfully transported into federal immigration custody by un-deputized law enforcement officers. *Id.*

Defendants argue that the Organizational Plaintiffs lack standing because SB 168 does not impose any duties on the Organizational Plaintiffs upon which injury can be based. ECF No. [19] at 7-9.

> When a governmental prohibition or restriction imposed on one party causes specific harm to a third party, harm that a constitutional provision or statute was intended to prevent, the indirectness of the injury does not necessarily deprive the person harmed of standing to vindicate his rights. But it may make it substantially more difficult to meet the minimum requirement of Art. III: to establish that, in fact, the asserted injury was the consequence of the defendants' actions, or that prospective relief will remove the harm.

Warth, 422 U.S. at 505 (1975) (citation omitted).

In the instant action, Organizational Plaintiffs have sufficiently pled injury in fact with regard to their preemption challenges in Counts I and II. The organizations have diverted, and will continue to have to divert, resources away from core activities in order to respond to member inquiries about SB 168's enactment, implications, and enforcement. Moreover, Organizational Plaintiffs face, among other things, decreased membership and participation due to SB 168's impact. *Browning*, 522 F.3d at 1165 ("an organization has standing to sue on its own behalf if the defendant's illegal acts impair its ability to engage in its projects by forcing the organization to divert resources to counteract those illegal acts" (citing *Havens Realty Corp. v. Coleman*, 455 U.S.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002507

363, 379 (1982))). Similarly, Organizational Plaintiffs have established an actual and imminent threat of injury to their members from the unlawful detention, transportation, and enforcement under SB 168. *Babbitt v. United Farm Workers Nat. Union*, 442 U.S. 289, 298 (1979) ("[o]ne does not have to await the consummation of threatened injury to obtain preventive relief. If the injury is certainly impending, that is enough." (quoting *Pennsylvania v. West Virginia*, 262 U.S. 553, 593 (1923))). These asserted injuries to the organizations and their members arise directly from SB 168's enactment and can be redressed by enjoining these provisions. Accordingly, the Court concludes that the Organizational Plaintiffs have standing to assert their preemption challenges on behalf of themselves and their members.

b. Cost Reimbursement Challenge

In Count III, Organizational Plaintiffs assert that the Cost Reimbursement provision is preempted and have set forth their respective injuries. ECF No. [38] at 6-23, 52-55. Specifically, Organizational Plaintiffs have had to divert resources away from core mission activities in order to address SB 168's application with their members. *Id.* at 9, 11, 13-14, 15, 17, 18, 19-20, 21-22, 23. These organizations anticipate having to continue to divert additional resources in the future to respond to members' needs as SB 168 is enforced. *Id.* at 10, 12, 14, 15, 17, 18-19, 20, 22, 23. Moreover, these Organizational Plaintiffs will suffer diminished membership and beneficiaries if SB 168 takes effect. ECF No. [5-1] at 19.

When asked at the Hearing what specific injuries were sustained regarding the Cost Reimbursement provision, counsel for Plaintiffs indicated that, in addition to the diversion of resources, Organizational Plaintiffs were engaging in discussions with state and local law enforcement agencies and government agencies about how to respond to SB 168 and the Cost Reimbursement provision in particular. While these communications with local agencies were not

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002508

addressed in the Amended Complaint or in Plaintiffs' Amended Motion, it does not change the Court's analysis. Plaintiffs have not established any causal connection between SB 168's Cost Reimbursement provision and the injuries Plaintiffs have sustained and anticipate sustaining moving forward.

The Court finds that there is an insufficient nexus between the provision requiring local law enforcement agencies to seek reimbursement for costs incurred in complying with federal immigration efforts and Organizational Plaintiffs' diversion of resources. As alleged by the Organizational Plaintiffs, the diversion of resources to address the concerns and implications of SB 168 relate to the unlawful detention and transport of immigrants. *See generally* ECF No. [38] at 9-23. The injuries alleged stem directly from concerns and confusion regarding the legality and scope of the Detainer Mandate and the Transport Requirement, not the Cost Reimbursement provision. *See generally id.* Because Organizational Plaintiffs have failed to sufficiently establish a causal link between the injuries sustained and the Cost Reimbursement provision of SB 168, the Court concludes that Plaintiffs lack standing to assert this claim. *Browning*, 522 F.3d at 1160 ("a plaintiff must establish 'a realistic danger of sustaining a direct injury as a result of the statute's operation or enforcement" (quoting *Babbitt*, 442 U.S. 289)). As such, this Court lacks jurisdiction to review the Cost Reimbursement challenge in Count III. *Warth*, 422 U.S. at 499 ("A federal court's jurisdiction therefore can be invoked only when the plaintiff himself has suffered 'some threatened or actual injury resulting from the putatively illegal action.'" (quoting *Linda R.S. v. Richard D.*, 410 U.S. 614, 617 (1973))).

c. Sanctuary Provisions and "Best Efforts" Provision Challenges

Under Counts IV and VII, the vagueness challenges to the Sanctuary Provisions and "Best Efforts" provision, Organizational Plaintiffs' delineate the general injuries sustained due to their

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002509

present and future need to divert resources as a result of SB 168. ECF No. [38] at 6-23, 55-57, 61-64. Additionally, they seek to protect the rights of their members to be free from unlawful immigration enforcement. ECF No. [39] at 4. Organizational Plaintiffs contend that at least one member of each membership-based organization will be subject to an unlawful, and potentially arbitrary, arrest pursuant to the "Best Efforts" provision and the Sanctuary Provisions. *Id.* at 5.

Similar to the preemption challenges in Counts I and II, Organizational Plaintiffs have sufficiently pled injury in fact with regard to their vagueness claims. The organizations have diverted, and will continue to have to divert, resources away from core activities in order to respond to member inquiries about SB 168's enactment, implications, and enforcement. Moreover, Organizational Plaintiffs face, among other things, decreased membership and participation due to SB 168's impact. *Browning*, 522 F.3d at 1165 ("an organization has standing to sue on its own behalf if the defendant's illegal acts impair its ability to engage in its projects by forcing the organization to divert resources to counteract those illegal acts" (citing *Havens Realty Corp.*, 455 U.S. at 379)). Similarly, Organizational Plaintiffs have established an actual and imminent threat of injury to their members from the unlawful detention, transportation, and enforcement under SB 168, which will be aggravated by the enforcement of the Sanctuary Prohibition and the "Best Efforts" provision. *Babbitt*, 442 U.S. at 298 ("[o]ne does not have to await the consummation of threatened injury to obtain preventive relief. If the injury is certainly impending, that is enough." (quoting *Pennsylvania v. West Virginia*, 262 U.S. at 593)). These asserted injuries to the organizations and their members arise directly from SB 168's enactment and can be redressed by enjoining these provisions. Accordingly, the Court concludes that the Organizational Plaintiffs have standing to assert their vagueness challenges on behalf of themselves and their members.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002510

2. Plaintiff City of South Miami's Standing

Defendants concede the City of South Miami's standing to challenge the Detainer Mandate. However, Defendants argue that the City of South Miami lacks standing to assert its vagueness challenges in Counts V and VIII because Fourteenth Amendment protections only apply to "persons." ECF No. [19] at 9. Plaintiffs' Reply concedes that municipalities lack standing to raise Fourteenth Amendment claims. ECF No. [39] at 2. However, because "[s]tanding cannot be waived or conceded by the parties," *A&M Gerber Chiropractic LLC*, 925 F.3d at 1210, the Court must nevertheless examine whether the City of South Miami has standing to bring its claims.

"In assessing the standing to sue of a state entity, [courts] are bound by the Supreme Court's or [the Eleventh Circuit's] determination of whether any given constitutional provision or law protects the interests of the body in question." *United States v. State of Ala.*, 791 F.2d 1450, 1455 (11th Cir. 1986). Thus, a municipality's standing depends on the nature of the claim asserted. Political subdivisions have been permitted to challenge the constitutionality of state statutes under the Supremacy Clause. *See Rogers v. Brockette*, 588 F.2d 1057, 1071 (5th Cir. 1979). However, as the Supreme Court has explained, "Being but creatures of the State, municipal corporations have no standing to invoke . . . the provisions of the Fourteenth Amendment of the Constitution in opposition to the will of their creator." *Coleman v. Miller*, 307 U.S. 433, 441 (1939).

In examining whether a municipality has standing to assert a constitutional challenge to a state statute under the Supremacy Clause, the Fifth Circuit set forth three prerequisites that must be met: (1) "to sue in federal court, a plaintiff must allege 'a distinct and palpable injury' to itself"; (2) "ordinarily a plaintiff 'must assert his own legal rights and interests, and cannot rest his claim to relief on the legal rights or interests of third parties'"; and (3) "a claim must present a genuine,

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002511

live case or controversy under Article III." *Rogers*, 588 F.2d at 1060 (citations omitted) (footnotes omitted).

a. Preemption Challenge

The City of South Miami has alleged its injuries under SB 168. ECF No. [38] at 6-7. Specifically, the City of South Miami "believes SB 168 does not provide [the City], [the police department], or its residents any actual and understandable notice of the statutory requirements that apply to their conduct." *Id.* at 7. With regard to Count I, the City of South Miami is unsure which provisions of SB 168 apply to it, and it is concerned that the resolutions and policies currently in place may violate SB 168's requirements, especially the City's resolution providing that immigration detainers will not be honored as a matter of course. *Id.* The City of South Miami's potential noncompliance with SB 168 could result in the suspension without pay of its leadership and enforcement actions by the Governor and the Attorney General. *Id.* However, the City of South Miami's attempts to comply with SB 168 will expose the City to liability and damage lawsuits for local law enforcement officers' improper immigration enforcement pursuant to SB 168. *Id.*

As noted above, political subdivisions may establish standing to challenge the constitutionality of state statutes under the Supremacy Clause. *See Rogers*, 588 F.2d at 1071. Here, the City of South Miami asserts a "distinct and palpable injury to itself" because it faces liability and damage lawsuits if its agencies unlawfully comply or attempt to comply with SB 168's Detainer Mandate when its law enforcement officers do not have the authority to do so under federal law, but it faces enforcement actions by the Attorney General if it fails to comply with the Detainer Mandate. *See id.* at 1061. Moreover, the question of whether Congress intended to preempt the field of immigration enforcement dictates the City of South Miami's authority, or lack thereof, to refuse compliance with the Detainer Mandate. *See id.* at 1062-63. Finally, the City of

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002512

South Miami's preemption challenge presents a live case or controversy because the imposition of an injunction on the Detainer Mandate would directly remedy the City of South Miami's threatened injury of damage lawsuits by individuals whose constitutional rights were violated and enforcement actions by the Attorney General for noncompliance. *See id.* at 1063. Accordingly, the Court concludes that the City of South Miami has standing to bring its Detainer Mandate preemption claim.

b. Vagueness Challenges

In Count V, the City of South Miami asserts that the language of the Sanctuary Definition is so vague that it cannot determine what policies are prohibited and which immigration enforcement actions require law enforcement compliance. ECF No. [38] at 58. Similarly, in Count VIII, the City of South Miami argues that the lack of explicit standards in the "Best Efforts" provision fails to set forth any meaningful standard of conduct. *Id.* at 65. As a result, SB 168 will result in arbitrary and discriminatory enforcement. *Id.* Further, the City of South Miami is unable to determine what is prohibited or which local entities and agencies must comply with the "Best Efforts" provision due to SB 168's vague language and inconsistent references to local entities, agencies, and their employees. *Id*. at 66. The City of South Miami asserts that, because of the vague language in the Sanctuary Provisions and the "Best Efforts" provision, and the resulting inability to determine what conduct is proscribed, complying with SB 168 exposes the City to liability. *Id.* at 58, 66. Moreover, government entities that violate the requirements of SB 168 are subject to enforcement actions by the Attorney General. *Id.* at 58, 66. Furthermore, even if the City attempts to comply with SB 168, it may nonetheless face enforcement actions by the Attorney General due to SB 168's vagueness. *Id.* at 58, 66.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002513

As noted above, "[b]eing but creatures of the State, municipal corporations have no standing to invoke . . . the provisions of the Fourteenth Amendment of the Constitution in opposition to the will of their creator." *Coleman*, 307 U.S. at 441. Vagueness claims, such as those asserted in Counts V and VIII, are rooted in the Due Process Clause of the Fourteenth Amendment. *See Lanzetta v. N.J.*, 306 U.S. 451, 454 (1939); *Alabama*, 791 F.2d at 1455. As such, the City of South Miami lacks standing to assert its vagueness challenges.

3. Plaintiff Mayor Stoddard's Standing

In their Surreply, Defendants concede that Mayor Stoddard has standing to bring his vagueness challenges in Counts VI and IX. ECF No. [45] at 1. Nonetheless, as with the City of South Miami, this Court has an independent obligation to assess whether Mayor Stoddard has standing to assert his vagueness challenges.

While political subdivisions may not have standing to challenge the constitutionality of state statutes on vagueness grounds, the Supreme Court has recognized public officials' legitimate interest in challenging "the enforcement of statutes in relation to which they have official duties." *Coleman*, 307 U.S. at 441-42; *see also Finch v. Miss. State Med. Assoc., Inc.*, 585 F.2d 765, 773 (5th Cir. 1978) ("plaintiffs who sued in their official capacities may assert constitutional claims against the state." (quoting *City of New York v. Richardson*, 473 F.2d 923, 933 (2d Cir. 1973)). Moreover, the Supreme Court has explained that public officials have a sufficient personal stake in the outcome of a case for standing purposes when, believing a state statute to be unconstitutional, "they are in the position of having to choose between violating their oath [by complying with the statute] and taking a step — refusing to comply with [the statute] — that would be likely to bring their expulsion from office." *Bd. of Edu. of Cent. Sch. Dist. No. 1 v. Allen*, 392 U.S. 236, 241 n.5 (1968).

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002514

In Count VI, Mayor Stoddard asserts that the language of the Sanctuary Definition is so vague that he has no way to determine what conduct or policy is prohibited and which immigration enforcement actions require law enforcement compliance. ECF No. [38] at 61. As a result, Mayor Stoddard's ability to establish policies and resolutions guiding local law enforcement agencies' conduct is undermined because he "is unable to determine whether any of the actions, resolutions, policies, or statements he makes place him in violation of SB 168." *Id.* at 60.

Similarly, in Count IX, Mayor Stoddard challenges the constitutionality of SB 168's "Best Efforts" provision because "[s]uch vague language fails to give Mayor Stoddard fair notice of what he must, and must not do, in order to be in compliance with SB 168 and to avoid an enforcement suit or removal from office." *Id.* at 67. Mayor Stoddard is unable to determine what conduct is prohibited or which local entities and agencies must comply with the "Best Efforts" provision due to SB 168's vague language and inconsistent references to local entities, agencies, and their employees. *Id*. at 68. SB 168's vague mandates undermine Mayor Stoddard's ability to establish policies and resolutions to guide police conduct on what actions satisfy "best efforts." *Id.*

Mayor Stoddard asserts that, because of the vague language in the Sanctuary Provisions and the "Best Efforts" provision, and his resulting inability to determine proscribed conduct, complying with SB 168 exposes him to liability. *Id.* at 61, 68. Moreover, officials who violate the requirements of SB 168 are subject to enforcement actions or suspension from office by the Governor. *Id.* at 68, 69. As such, Mayor Stoddard is now faced with the threat of suspension or removal for failing to comply with SB 168. *Id.* Alternatively, he faces political liability and damage lawsuits for improper immigration enforcement actions taken pursuant to SB 168. *Id.* at 61, 68-69. Furthermore, Mayor Stoddard's attempted, yet insufficient, compliance with SB 168 may result in suspension or removal from office. *Id.* at 61, 69.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002515

Mayor Stoddard has sufficiently alleged a concrete, imminent, and "realistic danger of sustaining direct injury as a result of the statute's operation or enforcement." *GLAHR*, 691 F.3d at 1257 (quoting *Socialist Workers Party*, 145 F.3d at 1245). Specifically, Mayor Stoddard is "in the position of having to choose between violating [his] oath [by complying with SB 168] and taking a step — refusing to comply with [SB 168] — that would likely bring [his] expulsion from office." *Allen*, 392 U.S. at 241 n.5. Accordingly, the Court concludes that Mayor Stoddard has satisfied the injury-in-fact requirement of the standing analysis. Moreover, the causal connection between the asserted injury and the alleged illegal conduct here is clear because Mayor Stoddard's injury stems directly from SB 168's application and enforcement. Finally, Mayor Stoddard's purported injury will be redressed if this Court ultimately enjoins SB 168. Therefore, Mayor Stoddard has standing to challenge the vagueness of the Sanctuary Provisions and "Best Efforts" provision.

B. Preliminary Injunction

Having determined that Plaintiffs have standing to sue, the Court turns to the merits of Plaintiffs' request for a preliminary injunction. A movant must prove four factors in order to establish that a preliminary injunction is appropriate: (1) "a substantial likelihood of success on the merits," (2) "that the preliminary injunction is necessary to prevent irreparable injury," (3) "that the threatened injury outweighs the harm the preliminary injunction would cause the other litigant," and (4) "that the preliminary injunction would not be averse to the public interest." *Chavez*, 742 F.3d at 1271 (citing *Parker*, 275 F.3d at 1034-35). "Failure to show any of the four factors is fatal" to the preliminary injunction inquiry. *Am. Civil Liberties Union of Fla., Inc. v. Miami-Dade Sch. Bd.*, 557 F.3d 1177, 1198 (11th Cir. 2009).

> When a federal court before trial enjoins the enforcement of a municipal ordinance adopted by a duly elected city council, the court overrules the decision of the elected representatives of the people and, thus, in a sense interferes with the processes of democratic government. Such a step can occasionally be justified by the

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002516

> Constitution (itself the highest product of democratic processes). Still, preliminary injunctions of legislative enactments—because they interfere with the democratic process and lack the safeguards against abuse or error that come with a full trial on the merits—must be granted reluctantly and only upon a clear showing that the injunction before trial is definitely demanded by the Constitution and by the other strict legal and equitable principles that restrain courts.

NE Fla. CAGC of Am., 896 F.2d at 1285.

Plaintiffs' Amended Motion requests that this Court grant a preliminary injunction to enjoin SB 168 from taking effect, pending the resolution of the instant case. ECF No. [47]. Plaintiffs assert that a preliminary injunction is appropriate because the challenged provisions of SB 168 are either preempted by federal law or are unconstitutionally vague. *Id.* Defendants contend that this Court should deny the Amended Motion because Plaintiffs' claims are meritless and unlikely to succeed, they have failed to sufficiently allege irreparable harm, and the equitable factors weigh in favor of denying the preliminary injunction. ECF No. [19].

1. Substantial Likelihood of Success on the Merits

With regard to the preliminary injunction factors, the Eleventh Circuit has stated that the substantial likelihood of success on the merits is "generally the most important [factor]." *Schiavo ex rel. Schindler v. Schiavo*, 403 F.3d 1223, 1232 (11th Cir. 2005). "A substantial likelihood of success on the merits requires a showing of only likely or probable, rather than certain, success." *Id.*

a. Preemption Challenges

Plaintiffs argue that the Detainer Mandate and the Transport Requirement[11] violate the Supremacy Clause because these provisions are preempted by federal immigration law. ECF No. [5-1] at 3-11.

[11] As discussed above, the Court does not address Plaintiffs' arguments regarding the Cost Reimbursement provision's preemption, as they lack standing to assert that claim.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002517

"Federalism, central to the constitutional design, adopts the principle that both the National and State Governments have elements of sovereignty the other is bound to respect." *Arizona v. United States*, 567 U.S. 387, 398 (2012). Nonetheless, the Supremacy Clause mandates that federal law "shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any Thing in the Constitution or Laws of any State to the Contrary notwithstanding." U.S. Const. art. VI, § 2. Thus, "[w]here the two conflict, federal law trumps state law; that was always clear. What constitutes a conflict is often less clear." *Browning*, 522 F.3d at 1167 (citations omitted).

Under the preemption doctrine, Congress has the power to preempt state law, and this preemption typically falls into one of "three categories: (1) express preemption; (2) field preemption; and (3) conflict preemption." *Id.*; *Arizona*, 567 U.S. at 399-400. "Express preemption occurs when Congress manifests its intent to displace a state law using the text of a federal statute." *Browning*, 522 F.3d at 1167. "Implied preemption" has generally been used to encompass field and conflict preemption. *Id.* "Field preemption occurs when a congressional legislative scheme is 'so pervasive as to make the reasonable inference that Congress left no room for the states to supplement it,'" *id.* (quoting *Rice v. Santa Fe Elevator Corp.*, 331 U.S. 218, 230 (1947)), or "where there is a 'federal interest . . . so dominant that the federal system will be assumed to preclude enforcement of state laws on the same subject,'" *Arizona*, 567 U.S. at 399 (quoting *Rice*, 331 U.S. at 230). "Conflict preemption occurs either when it is physically impossible to comply with both the federal and state laws or when the state law stands as an obstacle to the objective of the federal law." *Browning*, 522 F.3d at 1167.

Two main considerations guide district courts' preemption analysis: "First, the purpose of Congress is the ultimate touchstone in every pre-emption case. Second, we assume that the historic police powers of the States were not to be superseded by the Federal Act unless that was the clear

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002518

and manifest purpose of Congress." *United States v. Alabama*, 691 F.3d 1269, 1281-82 (11th Cir. 2012) (citations and internal quotation marks omitted).

As the Supreme Court has explained,

> The Government of the United States has broad, undoubted power over the subject of immigration and the status of aliens. This authority rests, in part, on the National Government's constitutional power to "establish an uniform Rule of Naturalization," Art. I, § 8, cl. 4, and its inherent power as sovereign to control and conduct relations with foreign nations. The federal power to determine immigration policy is well settled.

Arizona, 567 U.S. at 394-95 (citations omitted). The field of immigration governance "is extensive and complex." *Id.* at 395. As such, "Congress has specified which aliens may be removed from the United States and the procedures for doing so." *Id.* at 396. Nonetheless, the Supreme Court has emphasized that "[t]he pervasiveness of federal regulation does not diminish the importance of immigration policy to the States." *Id.* at 397.

The Executive Branch is tasked with the enforcement of immigration law, and immigration officials are given "broad discretion" in the exercise of their powers. *Id.* at 396-97. Although there are numerous agencies within the Department of Homeland Security ("DHS"), *id.* at 397, ICE is the agency relevant to the instant action. "ICE officers are responsible 'for the identification, apprehension, and removal of illegal aliens from the United States.'" *Id.*

"As a general rule, it is not a crime for a removable alien to remain present in the United States." *Id.* at 407. Moreover, "[r]emoval is a civil, not criminal, matter." *Id.* at 396.

> The federal statutory structure instructs when it is appropriate to arrest an alien during the removal process. For example, the Attorney General can exercise discretion to issue a warrant for an alien's arrest and detention "pending a decision on whether the alien is to be removed from the United States." [8 U.S.C.] § 1226(a). And if an alien is ordered removed after a hearing, the Attorney General will issue a warrant. See 8 CFR § 241.2(a)(1). In both instances, the warrants are executed by federal officers who have received training in the enforcement of immigration law. See §§ 241.2(b), 287.5(e)(3). If no federal warrant has been issued, those officers have more limited authority. See 8 U.S.C. § 1357(a).

AMERICAN OVERSIGHT

Id. at 407-08 (some citations omitted).

Congress has delineated specific, "limited circumstances in which state officers may perform the functions of an immigration officer." *Id.* at 408. Relevant to the instant case, the Attorney General may grant this authority to specific state or local law enforcement officers pursuant to a formal agreement, commonly referred to as a "287(g) Agreement,"[12] which allows officers to perform the duties of a federal immigration officer under the direction and supervision of the Attorney General after completing adequate immigration training. 8 U.S.C. § 1357(g)(1); *Arizona*, 567 U.S. at 408-09. Without a 287(g) Agreement, local law enforcement agencies are not permitted to unilaterally perform the functions of federal immigration officers, such as detaining an alien for being removable, "absent any request, approval, or other instruction from the Federal Government." *Arizona*, 567 U.S. at 410.

Nevertheless, the Supreme Court has recognized that "[c]onsultation between federal and state officials is an important feature of the immigration system." *Id.* at 411. Congress has explicitly stated that state and local law enforcement agencies do not need a 287(g) Agreement (A) "to communicate with the [Federal Government] regarding the immigration status of any individual," or (B) "otherwise to cooperate[13] with the [Federal Government] in the identification,

[12] The federal government's authorization to enter into 287(g) Agreements is codified in 8 U.S.C. § 1357(g):

> (1) Notwithstanding section 1342 of Title 31, the Attorney General may enter into a written agreement with a State, or any political subdivision of a State, pursuant to which an officer or employee of the State or subdivision, who is determined by the Attorney General to be qualified to perform a function of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States (including the transportation of such aliens across State lines to detention centers), may carry out such function at the expense of the State or political subdivision and to the extent consistent with State and local law.

8 U.S.C. § 1357(g)(1).

[13] The Court will refer to the provision in 8 U.S.C. § 1357(g)(10)(B) as the "cooperation clause."

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002520

apprehension, detention, or removal of aliens not lawfully present in the United States." 8 U.S.C. § 1357(g)(10); *Arizona*, 567 U.S. at 411-12.

The parties in this case disagree on what the phrase "otherwise to cooperate" means, in the context of enforcing immigration detainers and transporting detained aliens into federal custody. Before examining each party's arguments, a brief history of immigration detainers is warranted.

Amici curiae in support of Plaintiffs provided the Court with an informative history on the evolution of the immigration detainer. ECF No. [61] at 17-23. There is only one reference to "detainers" in the INA. *See* 8 U.S.C. § 1357(d); *Arizona*, 567 U.S. at 410 ("State officials can also assist the Federal Government by responding to requests for information about when an alien will be released from their custody." (citing 8 U.S.C. § 1357(d))). *Amici* assert that detainers were historically understood to be requests for information about a suspected alien's expected release date and nothing more. ECF No. [61] at 18.

However, in 1997, federal immigration agencies began requesting that local law enforcement agencies, pursuant to detainer requests, hold suspected aliens in custody for up to forty-eight hours beyond their scheduled release from custody. *Id.* at 17. Specifically, the Code of Federal Regulation's Detainer Provisions state:

> (a) Detainers in general. Detainers are issued pursuant to sections 236 and 287 of the Act and this chapter 1. Any authorized immigration officer may at any time issue a Form I-247, Immigration Detainer – Notice of Action, to any other Federal, State, or local law enforcement agency. A detainer serves to advise another law enforcement agency that the Department seeks custody of an alien presently in the custody of that agency, for the purpose of arresting and removing the alien. The detainer is a request that such agency advise the Department, prior to release of the alien, in order for the Department to arrange to assume custody, in situations when gaining immediate physical custody is either impracticable or impossible.
>
> . . . .
>
> (d) Temporary detention at Department request. Upon a determination by the Department to issue a detainer for an alien not otherwise detained by a criminal justice agency, such agency shall maintain custody of the alien for a period not to

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002521

> exceed 48 hours, excluding Saturdays, Sundays, and holidays in order to permit assumption of custody by the Department.

8 C.F.R. § 287.7. Based on this additional request to hold an individual beyond their custodial sentence, a detainer has developed into "a written request to state or local officials, asking them (1) to notify [DHS] as soon as practicable before an alien is released and (2) to maintain custody of the alien for up to 48 hours beyond the preexisting release date so that DHS may assume custody." *City of El Cenizo, Tex. v. Tex.*, 890 F.3d 164, 174 (5th Cir. 2018); 8 C.F.R. § 287.7; *United States v. Ovando-Garzo*, 752 F.3d 1161, 1164 (8th Cir. 2014) (holding that identifying an alien, communicating with federal immigration officers, and detaining an alien until federal officers could take custody was not unilateral conduct outside the scope of a local law enforcement officer's authority); *see Corley v. United States*, 556 U.S. 303, 314 (2009) ("one of the most basic interpretive canons, that "'[a] statute should be construed so that effect is given to all its provisions, so that no part will be inoperative or superfluous, void or insignificant.'" (quoting *Hibbs v. Winn*, 542 U.S. 88, 101 (2004))); *see also Lopez-Aguilar v. Marion Cty. Sheriff's Dep't*, 296 F. Supp. 3d 959, 969 (S.D. Ind. 2017) ("'An immigration detainer is a piece of paper issued by immigration officials that purports to command other law enforcement officials to hold a prisoner, who otherwise would be released, in custody and deliver that person to federal immigration officials.' It is 'the principle mechanism for [ICE] . . . to obtain custody over suspected immigration violators in the custody of state or local law enforcement officials.'" (quoting Christopher N. Lasch, *Federal Immigration Detainers After* Arizona v. United States, 46 Loy. L.A. L. Rev. 629, 634 (2013))). In April 2017, ICE implemented an internal policy that required all detainer requests to be accompanied by an administrative immigration warrant issued by a federal immigration officer indicating the immigration officer's probable cause to believe an individual is removable. ECF No. [19] at 3.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002522

Amici contend, and Plaintiffs agree, that this expansion of the detainer request is beyond the scope of power Congress intended to grant to federal immigration officers and the forty-eight-hour hold constitutes a subsequent arrest that requires probable cause that a criminal violation occurred. ECF No. [61]; *see Lopez-Aguilar*, 296 F. Supp. 3d at 972 ("Plainly, federal immigration law does not permit . . . every law enforcement officer employed by a state governmental body to engage in the enforcement of federal immigration law on the same terms and basis as federal officials, free from any restriction by the governmental body (even, presumably, as to enforcement priorities)."). Additionally, Plaintiffs and *amici* argue that detainer holds are arrests performed by local law enforcement officers who lack Congressional authorization under the INA, regardless of the detainer and accompanying administrative warrant. *Id.* As such, Plaintiffs assert that the Detainer Mandate requiring that local law enforcement officers comply with detainer holds is preempted by federal law.

In their Response, Defendants argue that "[c]onsultation between federal and state officials is an important feature of the immigration system," *Arizona*, 567 U.S. at 411, and that, by expressly including the cooperation clause under § 1357(g)(10)(B), Congress gave a clear indication that it sought to facilitate, not preempt, the type of cooperation that SB 168 mandates. ECF No. [19] at 12. Moreover, in its Statement of Interest, the United States of America asserts that local law enforcement agencies' compliance with detainer requests falls within the cooperation that Congress intended to allow under § 1357(g)(10)(B). ECF No. [23] at 12. Cooperating with immigration detainer requests falls squarely within *Arizona*'s reasoning because this cooperation is done only pursuant to a federal request, rather than unilaterally. *Id.* at 13 ("SB 168 provides for the very authorization Plaintiffs allude to in the form of federal immigration detainers.").

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002523

Thus, the precise issue before the Court is whether SB 168's Detainer Mandate and Transport Requirement are preempted by federal law or whether these provisions regulate conduct that falls within the meaning of the cooperation clause's "otherwise to cooperate" language.

i. Field Preemption Challenge to the Detainer Mandate and Transport Requirement

Plaintiffs argue that the Detainer Mandate and Transport Requirement are field preempted because the INA occupies the field of when state and local law enforcement can participate in detaining aliens and "SB 168 rejects the Congressional framework and creates its own authorization for immigration arrest, detention, and transport by undeputized local officers." ECF No. [50] at 3.

"Field preemption occurs when a congressional legislative scheme is 'so pervasive as to make the reasonable inference that Congress left no room for the states to supplement it,'" *Browning*, 522 F.3d at 1167 (quoting *Rice*, 331 U.S. at 230), or "where there is a 'federal interest . . . so dominant that the federal system will be assumed to preclude enforcement of state laws on the same subject,'" *Arizona*, 567 U.S. at 399 (quoting *Rice*, 331 U.S. at 230). "To determine the boundaries that Congress sought to occupy within the field, we look to 'the federal statute itself, read in the light of its constitutional setting and its legislative history.'" *Alabama*, 691 F.3d at 1281 (quoting *De Canas v. Bica*, 424 U.S. 351, 360 n. 8 (1976)). Because neither provision is field preempted, the Court addresses these arguments first.

Considering the language of the INA itself, it is clear that Congress did not intend to preclude states from supplementing the field of how local law enforcement agencies can participate in federal immigration enforcement efforts. Specifically, the express language of the cooperation clause in § 1357(g)(10)(B) leaves numerous cooperative avenues open for law enforcement officers to participate in the immigration efforts of federal officers. 8 U.S.C. § 1357(g)(10)(B).

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002524

"This provision indicates that Congress intended local cooperation without a formal agreement in a range of key enforcement functions." *City of El Cenizo*, 890 F.3d at 179.

The Fifth Circuit's field preemption reasoning in *City of El Cenizo* is informative here. *See generally id.* at 164. *City of El Cenizo* centered around the enactment of a law similar to SB 168. *Id.* at 173-75. In addressing the issue of field preemption, the Fifth Circuit in *City of El Cenizo* enunciated a critical distinction between the Texas law and the provisions of § 1357(g):

> To establish field preemption, moreover, the plaintiffs must prove that federal law evinces "the clear and manifest purpose of Congress" to preclude even complementary state legislation on the same subject. *De Canas*, 424 U.S. at 357. Federal law does not suggest the intent — let alone a "clear and manifest" one — to prevent states from regulating *whether* their localities cooperate in immigration enforcement. Section 1357 does not require cooperation at all. And the savings clause allowing cooperation without a 287(g) agreement indicates that some state and local regulation of cooperation is permissible.

Id. at 178; *see also id.* at 177 ("Federal law regulates *how* local entities may cooperate in immigration enforcement; [the Texas law] specifies *whether* they cooperate.").

Similarly, here, the Detainer Mandate regulates *whether* local entities cooperate in the federal government's immigration enforcement efforts by stating that law enforcement agencies "shall . . . comply with the requests made in the immigration detainer." Fla. Stat. § 908.105(1)(c). The Court must limit its analysis of Plaintiffs' field preemption challenges to whether Congress intended to preclude any further state regulation of local law enforcement agencies' cooperation with federal immigration enforcement. Similar reasoning also applies to the Transport Requirement. Plaintiffs have not established Congress's clear and manifest intent to preclude any complementary state regulation on cooperating with immigration officials for the transport of aliens. As the Fifth Circuit in *City of El Cenizo* held, § 1357(g)(10)(B)'s cooperation clause indicates that Congress intentionally left the issue of state and local law enforcement's cooperation

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002525

with federal immigration efforts open to further regulation. *See* 890 F.3d at 178. Therefore, SB 168's Detainer Mandate and Transport Requirement are not field preempted.

ii. Conflict Preemption Challenge to the Detainer Mandate

Plaintiffs also argue that SB 168's Detainer Mandate is conflict preempted. ECF No. [5-1] at 8-10.

Conflict preemption can arise in two ways:

> First, conflict preemption can occur "when it is physically impossible to comply with both the federal and the state laws." Conflict preemption may also arise "when the state law stands as an obstacle to the objective of the federal law." We use our judgment to determine what constitutes an unconstitutional obstacle to federal law, and this judgment is "informed by examining the federal statute as a whole and identifying its purpose and intended effects."

Alabama, 691 F.3d at 1281 (citations omitted).

The Supreme Court, in *Arizona*, held that an Arizona law authorizing state and local police officers to make warrantless arrests of suspected aliens if they had probable cause to believe the alien was removable was conflict preempted by federal immigration law. 567 U.S. at 410. In so holding, the Supreme Court noted that the Arizona law would "provide state officers even greater authority to arrest aliens on the basis of possible removability than Congress has given to trained federal immigration officers." *Id.* at 408. The *Arizona* Court, in examining the statutory authorization for 287(g) Agreements and § 1357(g)(10)(B)'s cooperation clause, noted that Congress clearly accounted for some degree of federal-local cooperation in immigration efforts. *Id.* at 409-10. However, the Court found Arizona's law to be conflict preempted because the law granted local officials the unilateral authorization to make immigration arrests — something Congress exclusively entrusted to the Federal Government. *Id.* The Supreme Court distinguished this unilateral state action from permissible cooperation under § 1357(g)(10)(B) by explaining that cooperation necessarily requires some sort of "request, approval, or other instruction from the

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002526

Federal Government" in order for local law enforcement officers to properly participate in immigration enforcement actions. *Id.* at 410. A state law that attempts to achieve its own immigration policy by authorizing law enforcement's unilateral immigration action impermissibly stands as an obstacle to the objectives of the INA and frustrates federal immigration objectives, such as foreign relations. *Id.* at 409-10.

Here, the Detainer Mandate states, in relevant part, "A law enforcement agency that has custody of a person subject to an immigration detainer issued by a federal immigration agency shall . . . comply with the requests made in the immigration detainer." Fla. Stat. 908.105(1)(c). Defendants assert that the Detainer Mandate falls within the conduct that was explicitly contemplated in the cooperation clause because it only grants local officers the power to temporarily detain suspected aliens after a federal immigration official has made a probable cause determination as to removability and has explicitly requested that the individual be held. ECF No. [19] at 12; *Arizona*, 567 U.S. at 411 ("Consultation between federal and state officials is an important feature of the immigration system."). Plaintiffs argue instead that the Detainer Mandate creates a system of enforcement where all local officers are authorized to make subsequent detainer arrests, absent a 287(g) Agreement granting them the power to do so.

The Court recognizes the body of case law across the nation that has determined that these immigration detainer holds are unconstitutional subsequent arrests in violation of the Fourth Amendment, two of which are in this District.[14] Plaintiffs rely on many of these cases for their preemption arguments. However, these cases concerned post-enforcement Fourth Amendment

[14] *See, e.g.*, *Morales v. Chadbourne*, 793 F.3d 208, 217 (1st Cir. 2015); *Santos v. Frederick Cty. Bd. Of Comm'rs*, 725 F.3d 451, 465-66 (4th Cir. 2013); *Melendres v. Arpaio*, 695 F.3d 990 (9th Cir. 2012); *C.F.C. v. Miami-Dade Cty.*, 349 F. Supp. 3d 1236 (S.D. Fla. 2018); *Creedle v. Miami-Dade Cty.*, 349 F. Supp. 3d 1276 (S.D. Fla. 2018); *Lopez-Aguilar*, 296 F. Supp. 3d 959; *Lunn v. Commonwealth*, 78 N.E.3d 1143, 1153 (Mass. 2017); *People ex rel. Swenson v. Ponte*, 46 Misc. 3d 273, 278 (N.Y. Sup. Ct. 2014); *see also Moreno v. Napolitano*, 213 F. Supp. 3d 999, 1005, n.3 (N.D. Ill. 2016).

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002527

challenges to detainer holds, not a pre-enforcement facial challenge to a state statute mandating local officers' compliance with detainer requests. The Court believes this distinction to be critical.

As noted in *Creedle*,

> The Fifth Circuit stresses throughout its opinion [in *City of El Cenizo*] that plaintiffs had a stringent burden, not only because of the preliminary injunction standard, but also because of the "exacting standard" of bringing a "pre-enforcement facial challenge." In *El Cenizo*, no discovery had yet been taken and no facts had been adduced other than those alleged in the complaint. The Fifth Circuit noted that "such a challenge is the most difficult to mount successfully" because "it is not enough for the plaintiffs to demonstrate that the ICE-detainer mandate will often cause Fourth Amendment violations." Instead, plaintiffs "must establish that the mandate is unconstitutional in all of its applications." In analyzing whether the "ICE-detainer mandate" in [the Texas law] facially violated the Fourth Amendment, the Fifth Circuit stated that "plaintiffs must establish that every seizure authorized by the ICE-detainer mandate violates the Fourth Amendment" and concluded that plaintiffs could not satisfy that "exacting standard."

Creedle, 349 F. Supp. 3d at 1298 (footnote omitted) (quoting *City of El Cenizo*, 890 F.3d at 187). Similarly, here, Plaintiffs assert a facial pre-enforcement challenge to SB 168's Detainer Mandate. Thus, Plaintiffs must satisfy a "stringent burden" in order to be successful on their claims. *City of El Cenizo*, 890 F.3d at 187.

Moreover, those cases present markedly different situations than the instant case — namely, the cases cited did not address the situation where a detainer request was issued alongside an administrative warrant alleging probable cause. The combination of the detainer and the administrative warrant rectify many of the issues presented in those prior cases.

The Court finds the reasoning of *Lopez-Lopez v. County of Allegan*, to be particularly persuasive on this point. 321 F. Supp. 3d 794 (W.D. Mich. 2018). There, the district court addressed a Fourth Amendment challenge to a hold based on a detainer request and an accompanying administrative warrant. *Id.* at 796. In finding that the detainer hold did not violate the defendant's Fourth Amendment rights, in *Lopez-Lopez*, the court reviewed and distinguished the previous line of cases holding that immigration detainers violated the Fourth Amendment. *Id.*

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002528

at 799-802; *id.* at 799 ("Plaintiff asserts that '[n]umerous federal district courts have found that detention by local authorities pursuant to ICE detainers alone violates the Constitutional rights of the detainee.' The problem is that Lopez-Lopez was not detained solely on the basis of an ICE detainer. Additionally, the detainers at issue in the cases he cites are substantively different from the detainer ICE issued in this case. Further, some of the cases are wholly irrelevant to the discussion because they determine only that cooperation with ICE detainers is discretionary rather than mandatory — a well-settled principle that does not bear on the outcome." (citation omitted)).[15] Specifically, the *Lopez-Lopez* court noted that, while a detainer alone or an administrative warrant alone may not comply with the Fourth Amendment's requirements because law enforcement officers "[e]ither [] lack probable cause (situations without an administrative warrant) or they lack a request to act (situations without a detainer)," the combination of the detainer and the administrative warrant rectifies these issues and complies with the Supreme Court's holding in *Arizona*. *Id.* at 801; *id.* ("ICE issued a facially valid administrative warrant for [defendant's] arrest, based on a determination that there was probable cause to believe he was removable. Then, ICE requested that the localities detain [defendant] through the use of an I-247 detainer — which also recited the basis for probable cause. [The] County cooperated by complying with the federal

[15] *See Lopez-Lopez*, 321 F. Supp. 3d at 800 (distinguishing *Buquer v. City of Indianapolis*, 797 F. Supp. 2d 905 (S.D. Ind. 2011), because *Buquer* involved a state law authorizing local officers to use their discretion in conducting warrantless immigration arrests); *id.* (distinguishing *Morales v. Chadbourne*, 996 F. Supp. 2d 19 (D. R.I. 2014), *aff'd in part, rev'd in part*, 793 F.3d 208 (1st Cir. 2015), because in *Morales*, ICE did not provide an arrest warrant with the detainer); *id.* at 800-01 (distinguishing *Santos*, 725 F.3d 451, because the plaintiff there was seized before ICE confirmed that a warrant had issued); *id.* at 801 (distinguishing *Ochoa v. Campbell*, 266 F. Supp. 3d 1237 (E.D. Wash. 2017), because ICE only presented an administrative warrant without a detainer); *see also Melendres*, 695 F.3d 990 (detention of aliens during a traffic stop "based on reasonable suspicion or knowledge that the person was unlawfully in the [country]," without a federal request); *C.F.C.*, 349 F. Supp. 3d 1236 (detainer not accompanied by an administrative warrant); *Creedle*, 349 F. Supp. 3d 1276 (detainer not accompanied by an administrative warrant); *Lopez-Aguilar*, 296 F. Supp. 3d 959 (no detainer issued).

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002529

government's request (as allowed pursuant to § 1357(g)(10)) 'by providing operational support' by holding [defendant] until ICE could take custody of him the following day.").

The reasoning in *Lopez-Lopez* presents a clear instance where complying with a detainer satisfies the Fourth Amendment's requirements.[16] Moreover, the current detainer practice and the mandates of SB 168 require that all detainer requests be accompanied by administrative warrants. ECF No. [19] at 3; ECF No. [19-1] at 15-20. Plaintiffs cannot satisfy their burden on a facial challenge of establishing "that every seizure authorized by the ICE-detainer mandate violates the Fourth Amendment." *City of El Cenizo*, 890 F.3d at 187.

The Fifth Circuit in *City of El Cenizo* also examined the cooperation clause under § 1357(g)(10)(B) and recognized that "Congress intended local cooperation without formal agreement in a range of key enforcement functions." *Id.* at 179. Moreover, the *City of El Cenizo* noted that officers acting pursuant to a 287(g) Agreement "become de facto immigration officers, competent to act on their own initiative." *Id.* at 180. Thus, these 287(g) officers are expressly granted the authority to make unilateral decisions on immigration enforcement issues, absent any predicate request from the federal government. *Arizona*, 567 U.S. at 410.

In contrast, here, officers acting pursuant to the Detainer Mandate are only authorized to detain suspected aliens after receiving such a detainer request from federal immigration officers. These detainers must be accompanied by a Form I-200 "Warrant of Arrest of Alien" or a Form I-205 "Warrant of Removal/Deportation." *See* Appendix. Form I-247A is titled "Immigration Detainer – Notice of Action," which requests that local officers "[m]aintain custody of the alien for a period **NOT TO EXCEED 48 HOURS** beyond the time when he/she would otherwise have

[16] Moreover, as the Eleventh Circuit has noted, "The Fourth Amendment does not require warrants to be based on probable cause of a crime, as opposed to a civil offense. Nothing in the original public meaning of 'probable cause' or 'Warrants' excludes civil offenses." *United States v. Phillips*, 834 F.3d 1176, 1181 (11th Cir. 2016).

AMERICAN OVERSIGHT

been released from your custody to allow DHS to assume custody." *See* Appendix (emphasis in original); ECF No. [61] at 49. When questioned at the Hearing about acts local officers may properly conduct pursuant to a detainer request, Plaintiffs' counsel indicated that officers were limited to providing information about an inmate's release date. While a request for information is contained within the detainer, so is the request to temporarily detain. Further, while requests for information and communications between federal and state officials without a 287(g) Agreement are expressly contemplated in § 1357(g)(10)(A), Congress's addition of the § 1357(g)(10)(B) cooperation clause authorizes additional cooperative conduct, aside from communication, between federal immigration officers and local law enforcement. Absent any clear statutory indication to the contrary, and consistent with *City of El Cenizo*, the Court concludes that honoring federal immigration detainer requests falls within the scope of cooperation contemplated by Congress under § 1357(g)(10)(B).

Plaintiffs further argue that Defendants' examples of 287(g) Agreements with local law enforcement agencies reaffirm their interpretation that detainer holds fall within the purview of § 1357(g)(1). ECF No. [50] at 12. Specifically, Plaintiffs note that the 287(g) Agreement with Clay County, ECF No. [19-2], granting local officers the authority to "process [aliens] for immigration violations," "serve warrants of arrest for immigration violations," and "detain and transport" aliens, is rendered meaningless if officers can honor detainer requests under the cooperation clause absent such agreements. ECF No. [50] at 12. However, as the Fifth Circuit in *City of El Cenizo* explained, officers acting pursuant to a 287(g) Agreement "become de facto immigration officers, competent to act on their own initiative." 890 F.3d at 180. Thus, these 287(g) officers are expressly granted the authority to make unilateral decisions on immigration enforcement issues, absent any predicate request from the federal government. *Arizona*, 567 U.S. at 410. Conversely, officers

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002531

operating under SB 168's Detainer Mandate are only permitted to hold a suspected alien for forty-eight hours if federal immigration officers explicitly request that they do so pursuant to a facially valid detainer request. Fla. Stat. § 908.105(1). Officers acting pursuant to 287(g) Agreements are allowed to hold suspected aliens without any prior request from the federal government. *City of El Cenizo*, 890 F.3d at 180.

Plaintiffs also provide no indication that local officers are taking any unilateral immigration action in honoring these detainer requests, such as serving or executing the administrative immigration warrants. *See* 8 C.F.R. § 287.5 (listing which officials may serve and execute administrative warrants). Absent unilateral conduct that circumvents the explicit grants of power Congress gave only to federal immigration authorities, honoring a detainer request complies with the Supreme Court's holding in *Arizona* that officers may not engage in unilateral state immigration actions, "*absent any request, approval, or other instruction from the Federal Government*." 567 U.S. at 410; *see also id.* ("examples of what would constitute cooperation under federal law. . . . include situations where States participate in a joint task force with federal officers, provide operational support in executing a warrant, or allow federal immigration officials to gain access to detainees held in state facilities." (citing Dept. of Homeland Security, Guidance on State and Local Governments' Assistance in Immigration Enforcement and Related Matters 13-14 (2011))). The Detainer Mandate in this case is contingent upon the receipt of a detainer request issued by an authorized federal immigration officer that indicates the federal officer has probable cause to believe that the detainee is unlawfully in the United States. The Court concludes that this hold, pursuant to federal request, falls within the cooperation clause's scope under § 1357(g)(10)(B).

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002532

Based upon the plain language of § 1357(g)(10)(B), SB 168's Detainer Mandate on its face is not preempted because it falls within the scope of "cooperat[ion] . . . in the . . . detention . . . of aliens not lawfully present in the United States." 8. U.S.C. § 1357(g)(10)(B); *Arizona*, 567 U.S. 387; *City of El Cenizo*, 890 F.3d at 179. As such, the Court finds that Plaintiffs have failed to establish that SB 168's Detainer Mandate is conflict preempted.

iii. Conflict Preemption Challenge to the Transport Requirement

Moreover, Plaintiffs assert that SB 168's Transport Requirement is conflict preempted. ECF No. [5-1] at 8-10.

The Transport Requirement provides that,

> When a county correctional facility or the Department of Corrections receives verification from a federal immigration agency that a person subject to an immigration detainer is in the law enforcement agency's custody, the agency may securely transport the person to a federal facility in this state or to another point of transfer to federal custody outside the jurisdiction of the law enforcement agency. The law enforcement agency may transfer a person who is subject to an immigration detainer and is confined in a secure correctional facility to the custody of a federal immigration agency not earlier than 12 days before his or her release date. A law enforcement agency shall obtain judicial authorization before securely transporting an alien to a point of transfer outside of this state.

Fla. Stat. § 908.104(4). The plain language of this provision authorizes local agencies to transport individuals subject to an immigration detainer across state lines into federal custody. Plaintiffs allege that this provision is conflict preempted because it frustrates Congress's objectives in creating 287(g) Agreements. ECF No. [5-1] at 10-11. Specifically, Plaintiffs correctly note that, unlike complying with detainers, § 1357(g)(1) expressly lists the transport across state lines as a power that can only be delegated to local officers pursuant to a 287(g) Agreement. *See* 8 U.S.C. § 1357(g)(1) ("Notwithstanding section 1342 of Title 31, the Attorney General may enter into a written agreement with a State, or any political subdivision of a State, pursuant to which an officer or employee of the State or subdivision, who is determined by the Attorney General to be qualified

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002533

to perform a function of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States (*including the transportation of such aliens across State lines to detention centers*), may carry out such function at the expense of the State or political subdivision and to the extent consistent with State and local law." (emphasis added)). SB 168's attempt to grant this exact transport power to local officers frustrates Congress's objectives for immigration transport because it renders the express language in § 1357(g)(1) on the transport of aliens pursuant to a 287(g) Agreement meaningless. *Robbins v. Garrison Prop. & Cas. Ins. Co.*, 809 F.3d 583, 586 (11th Cir. 2015) ("It is 'axiomatic that all parts of a statute must be read together in order to achieve a consistent whole.' 'Where possible, courts must give full effect to all statutory provisions and construe related statutory provisions in harmony with one another.'" (quoting *Forsythe v. Longboat Key Beach Erosion Control Dist.*, 604 So. 2d 452, 455 (Fla. 1992))).

Moreover, the Transport Requirement's language explicitly grants local law enforcement agencies discretionary power to transport an alien into federal custody "absent any request, approval, or other instruction from the Federal Government." *Arizona*, 567 U.S. at 410. This is precisely the type of unilateral conduct that *Arizona* expressly prohibited. *Id.* Further, the mandate requiring law enforcement officers to obtain the prior judicial authorization does not rectify the issue of unilateral conduct in the Transport Requirement. Instead, this judicial authorization requirement seeks to vest additional powers in the state judiciary that could otherwise only be performed by federal immigration officials — namely, allowing state judges to unilaterally authorize transport across state lines into federal custody. *See* Fla. Stat. § 908.104(4). This unilateral decision by local officers and state judges, in effect, "allows the State to achieve its own immigration policy," which is not permitted. *Arizona*, 567 U.S. 408. Therefore, the Court concludes that the Transport Requirement is conflict preempted because it frustrates the purpose

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002534

of 1357(g)(1). *See Browning*, 522 F.3d at 1167 ("Conflict preemption occurs [] when . . . when the state law stands as an obstacle to the objective of the federal law.").

b. Vagueness Challenges

Plaintiffs also argue that SB 168's "Best Efforts" provision and Sanctuary Provisions are unconstitutionally vague because the terms "best efforts" in § 908.104(1) and "impedes" in § 908.102(6) and, by reference, § 908.103, do not provide people of ordinary intelligence with a reasonable opportunity to understand what conduct is prohibited and because SB 168 authorizes the arbitrary and discriminatory enforcement of these provisions. ECF No. [5-1] at 12.

The Supreme Court has explained that a statute is void for vagueness (1) if it "fails to give a person of ordinary intelligence fair notice that his contemplated conduct is forbidden by statute," and (2) if "it encourages arbitrary and erratic arrests and convictions." *Papachristou v. City of Jacksonville*, 405 U.S. 156, 162 (1972).

On a facial vagueness challenge, a movant must establish that the law is "incapable of any valid application." *Vill. of Hoffman Estates v. Flip Side, Hoffman Estates, Inc.*, 455 U.S. 489, 494 n.5 (1982). To sustain such a challenge, the movant "must prove that the enactment is vague 'not in the sense that it requires a person to conform his conduct to an imprecise but comprehensible normative standard, but rather in the sense that no standard of conduct is specified at all. Such a provision simply has *no* core.'" *Id*. at 495 n.7 (citations omitted). "The degree of vagueness that the Constitution tolerates — as well as the relative importance of fair notice and fair enforcement — depends in part on the nature of the enactment." *Id.* at 498. Therefore, courts must consider whether the law implicates civil penalties or criminal penalties, because the nature of the penalty affects the level of tolerance a court will have for the vague language. *Id*. at 489-90. Additionally, courts must examine whether the law "threatens to inhibit the exercise of constitutionally protected

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002535

rights," *id*. at 490, and whether it places "unfettered discretion . . . in the hands of the [] police." *Papachristou*, 405 U.S. at 168.

"Condemned to the use of words, we can never expect mathematical certainty from our language." *Grayned v. City of Rockford*, 408 U.S. 104, 110 (1972). Yet, when the words of a challenged statute "are marked by 'flexibility and reasonable breadth, rather than meticulous specificity,'" the Supreme Court has upheld the challenged law. *Id.* Moreover, the Supreme Court has explained that a statute is not impermissibly vague when it "give[s] fair warning as to what is prohibited," and "'defines boundaries sufficiently distinct' for citizens, policemen, juries, and appellate judges." *Id.* at 114 (citations omitted).

A pre-enforcement challenge for vagueness centers primarily around whether the statute gives fair warning of the prohibited conduct because the danger of arbitrary enforcement is still speculative. *Vill. of Hoffman Estates*, 455 U.S. at 503. "Although it is possible that specific future applications . . . may engender concrete problems of constitutional dimension, it will be time enough to consider such problems when they arise." *Id.* (citations omitted). As such, a statute is unconstitutionally vague on its face when "it is plagued with such 'hopeless indeterminacy' that it precludes 'fair notice of the conduct it punishes,'" and invites arbitrary enforcement. *City of El Cenizo*, 890 F.3d at 190. Moreover, "pre-enforcement facial challenges are 'disfavored' because they 'often rest on speculation' and 'threaten to short circuit the democratic process by preventing laws embodying the will of the people from being implemented in a manner consistent with the Constitution.'" *Id*. at 191 (quoting *Wash. State Grange v. Wash. State Republican Party*, 552 U.S. 442, 450-51 (2008)). "In general, as-applied challenges brought in post-enforcement proceedings" are more appropriate for vagueness challenges because they are "the basic building blocks of constitutional adjudication." *Id*. (quoting *Gonzales v. Carhart*, 550 U.S. 124, 168 (2007)).

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002536

Plaintiffs contend that the terms "best efforts" in § 908.104(1) and "impedes" in § 908.102(6) and, by reference, § 908.103, are unconstitutionally vague because they do not provide people of ordinary intelligence with a reasonable opportunity understand what conduct is prohibited and because SB 168 authorizes the arbitrary and discriminatory enforcement of these provisions. ECF No. [5-1] at 12. Conversely, Defendants argue that Plaintiffs have failed to establish that these provisions are unconstitutionally vague in every application, as required for a facial vagueness challenge. ECF No. [19] at 16. Additionally, Defendants explain that, when read within the context of SB 168 as a whole, the challenged provisions clearly indicate what conduct is prohibited or encouraged. *Id.*

i. Unconstitutional Vagueness of "Best Efforts" Under § 908.104(1)

Plaintiffs contend that the "Best Efforts" provision is unconstitutionally vague because it does not give fair notice as to what conduct falls short of "best efforts" and it encourages arbitrary and discriminatory enforcement.[17] ECF No. [5-1] at 12-16. Specifically, Plaintiffs assert that "best efforts" does not provide individuals the reasonable opportunity to understand what conduct is prohibited and enforceable, nor does the phrase provide law enforcement agencies any clarity about what efforts are sufficient under the statute. *Id.* at 12-13. Moreover, the lack of standards of conduct under "best efforts" encourages arbitrary and discriminatory enforcement against individuals and law enforcement agencies. *Id.* at 14-15. In response, Defendants argue that the

[17] Plaintiffs also argue that the "Best Efforts" provision's vagueness is aggravated by the language in the bill title. ECF No. [5-1] at 15. This argument is meritless. Although the bill title does state that "[a]n Act relating to federal immigration enforcement . . . requiring state entities, local governmental entities, and law enforcement agencies to use best efforts to support the enforcement of federal immigration law," *id.*, it clearly references § 908.104's application as a whole. Specifically, while the mandates of § 908.104(1) explicitly apply to "law enforcement agenc[ies]," § 908.104(2) then goes on to regulate the conduct of "a state entity, local governmental entity, or law enforcement entity, or an employee, an agent, or a representative of the entity or agent." Fla. Stat. § 908.104(1)-(2). Accordingly, when read in the context of the statute as a whole, the "Best Efforts" provision is sufficiently clear on who it applies to.

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002537

"Best Efforts" provision is not unconstitutionally vague because the phrase "best efforts" is used in numerous Florida Statutes. ECF No. [19] at 17. Additionally, Defendants assert that ICE policies detail the extent of the agency's desired cooperation from local law enforcement agencies, which provides sufficient context to rebut any vagueness. *Id.*

The "Best Efforts" provision states, in relevant part, "A law enforcement agency shall use best efforts to support the enforcement of federal immigration law." Fla. Stat. § 908.104(1). Moreover, *Black's Law Dictionary* defines "best efforts" as

> Diligent attempts to carry out an obligation; esp., all actions rationally calculated to achieve a usu. stated objective, to the point of leaving no possible route to success untried. As a standard, a best-efforts obligation is stronger than a good-faith obligation. Best efforts are measured by the measures that a reasonable person in the same circumstances and of the same nature as the acting party would take.

BEST EFFORTS, *Black's Law Dictionary* (11th ed. 2019). This definition, while marked by "flexibility and reasonable breadth, rather than meticulous specificity," provides sufficient notice as to what efforts are required of law enforcement agencies. *Grayned*, 408 U.S. at 110.

Moreover, on a pre-enforcement facial challenge for vagueness, the Court's examination centers primarily around whether the statute gives fair warning of the prohibited conduct because the danger of arbitrary enforcement is still speculative. *Vill. of Hoffman Estates*, 455 U.S. at 503. With regard to Plaintiffs' assertion that "best efforts" encourages arbitrary and discriminatory enforcement, on a pre-enforcement challenge, "There is a basic uncertainty about what the law means and how it will be enforced. . . .[W]ithout the benefit of a definitive interpretation from the state courts, it would be inappropriate to assume [the "Best Efforts" provision] will be construed in a way that creates a conflict with federal law." *Arizona*, 567 U.S. at 415; *cf. Fox v. Washington*, 236 U.S. 273, 277 (1915) ("So far as statutes fairly may be construed in such a way as to avoid doubtful constitutional questions they should be so construed; and it is to be presumed that state laws will be construed in that way by the state courts." (citation omitted)). This type of speculative

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002538

constitutional challenge is more appropriately brought under an as-applied challenge at the post-enforcement stage. *City of El Cenizo*, 890 F.3d at 191. Therefore, at this pre-enforcement stage, this Court will not "adopt limiting constructions that are not strictly necessary to preserve the constitutionality of a statute." *Id.* Accordingly, the Court believes "best efforts" to be sufficiently clear as to what conduct is or is not required for a facial pre-enforcement vagueness challenge.

ii. Unconstitutional Vagueness of "Impede" Under § 908.102(6) and Unconstitutionality, by Reference, of § 908.103

Plaintiffs also assert that the Sanctuary Provisions are unconstitutionally vague because individuals are not provided a reasonable opportunity to understand what conduct constitutes "imped[ing]." ECF No. [5-1] at 16-17. The Court concludes that, when read in context, the term "impedes" in the Sanctuary Definition is not unconstitutionally vague. Specifically, the Sanctuary Definition states in full,

> (6) "Sanctuary policy" means a law, policy, practice, procedure, or custom adopted or allowed by a state entity or local governmental entity which prohibits or impedes a law enforcement agency from complying with 8 U.S.C. s. 1373 or which prohibits or impedes a law enforcement agency from communicating or cooperating with a federal immigration agency so as to limit such law enforcement agency in, or prohibit the agency from:
>
> (a) Complying with an immigration detainer;
>
> (b) Complying with a request from a federal immigration agency to notify the agency before the release of an inmate or detainee in the custody of the law enforcement agency;
>
> (c) Providing a federal immigration agency access to an inmate for interview;
>
> (d) Participating in any program or agreement authorized under s. 287 of the Immigration and Nationality Act, 8 U.S.C. s. 1357; or
>
> (e) Providing a federal immigration agency with an inmate's incarceration status or release date.

Fla. Stat. § 908.102(6). Reading this provision as a whole, subsections (a) through (e) clearly set forth specific actions that state and local government entities are not allowed to "impede" or "prohibit." *Id.* § 908.102(6)(a)-(e).

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002539

"Impedes" is not so vague, when read in the context of the Sanctuary Definition as a whole, that it fails to give a person of ordinary intelligence fair notice that his contemplated conduct is forbidden by statute. *Papachristou*, 405 U.S. at 162. Moreover, because Plaintiffs assert a facial pre-enforcement vagueness challenge, they must establish that the Sanctuary Definition "is plagued with such 'hopeless indeterminacy' that it precludes 'fair notice of the conduct it punishes.'" *City of El Cenizo*, 890 F.3d at 190. The Court concludes that Plaintiffs have failed to sufficiently establish that the Sanctuary Definition is plagued with "hopeless indeterminacy" as to proscribed conduct. *Id.* "Impedes" does not render SB 168's Sanctuary Definition unconstitutionally vague, when read alongside the explicit list of immigration efforts set forth in subsections (a) through (e), because it "give[s] fair warning as to what is prohibited," and "'defines boundaries sufficiently distinct' for citizens, policemen, juries, and appellate judges." *Grayned*, 408 U.S. at 114.

2. Irreparable Injury

"The basis of injunctive relief in the federal courts has always been irreparable harm and inadequacy of legal remedies." *Sampson v. Murray,* 415 U.S. 61, 88 (1974). "A showing of irreparable harm is 'the *sine qua non* of injunctive relief.' The injury must be 'neither remote nor speculative, but actual and imminent.' An injury is 'irreparable only if it cannot be undone through monetary remedies." *NE Fla. CAGC of Am.*, 896 F.2d at 1285 (quoting *Frejlach v. Butler,* 573 F.2d 1026, 1027 (8th Cir. 1978); *Tucker Anthony Realty Corp. v. Schlesinger,* 888 F.2d 969, 973 (2d Cir. 1989)). Courts have stated that the purpose of a preliminary injunction is to preserve the status quo when, absent the preservation of the status quo, a movant will suffer irreparable harm. *See Callaway*, 489 F.2d at 576.

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002540

Plaintiffs state that they will suffer irreparable harm if SB 168 is not enjoined because their injuries cannot be redressed through an award of monetary damages. ECF No. [5-1] at 17; *NE Fla. CAGC of Am.*, 896 F.2d at 1285. Plaintiffs' allegations regarding their irreparable injuries are the same injuries discussed above with regard to standing. ECF No. [5-1] at 17-19. Organizational Plaintiffs have had to divert resources away from core mission activities to respond to SB 168 and anticipate having to divert more resources in the future to address SB 168's enforcement. *Id.* Organizational Plaintiffs' individual members will face an actual and imminent threat of irreparable harm from racial profiling, ethnic profiling, and unlawful detentions and transport across state lines by local law enforcement officers once SB 168 takes effect. *Id.* at 18.

Defendants argue that Plaintiffs have not sufficiently alleged any actual or imminent threat of irreparable injury. ECF No. [19] at 19. Further, Defendants assert that any allegation that Mayor Stoddard will suffer irreparable injury from SB 168 is rebutted by his delay in joining this action as a Plaintiff. ECF No. [45] at 2. However, because Plaintiffs have only established a substantial likelihood of success on the Transport Requirement, the Court will not address Defendants' arguments with regard to Mayor Stoddard's irreparable injury.

Organizational Plaintiffs face, among other things, decreased membership and participation due to SB 168's impact. *Browning*, 522 F.3d at 1165 ("an organization has standing to sue on its own behalf if the defendant's illegal acts impair its ability to engage in its projects by forcing the organization to divert resources to counteract those illegal acts" (citing *Havens Realty Corp.*, 455 U.S. at 379)). Similarly, Organizational Plaintiffs have established an actual and imminent threat of injury to their members from the unlawful detention, transportation, and enforcement under SB 168. *Babbitt*, 442 U.S. at 298 ("[o]ne does not have to await the consummation of threatened injury to obtain preventive relief. If the injury is certainly impending,

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002541

that is enough." (quoting *Pennsylvania v. West Virginia*, 262 U.S. at 593)). These injuries to the organizations and their members arise directly from SB 168's enactment and can be redressed by enjoining the conflict-preempted Transport Requirement. Accordingly, the Court concludes that the Plaintiffs have established that the enactment of the Transport Requirement will cause them immediate, irreparable harm sufficient to satisfy this component of the preliminary injunction test.

3. Threatened Injury Outweighs the Harm of Imposing a Preliminary Injunction

The third preliminary injunction factor requires that the movant prove that the threatened injury outweighs the harm the preliminary injunction would cause the other litigant. *Chavez*, 742 F.3d at 1271. "A preliminary injunction is an extraordinary remedy never awarded as of right. In each case, courts 'must balance the competing claims of injury and must consider the effect on each party of the granting or withholding of the requested relief,'" paying particular attention to "the public consequences in employing the extraordinary remedy of injunction." *Winter v. Nat. Res. Def. Council, Inc.*, 555 U.S. 7, 24 (2008).

"The equities weigh in favor of enjoining those provisions that are preempted by federal law. The United States suffers injury when its valid laws in a domain of federal authority are undermined by impermissible state regulations." *Alabama*, 691 F.3d at 1301. Conversely, "[A]ny time a State is enjoined by a court from effectuating statutes enacted by representatives of its people, it suffers a form of irreparable injury." *Maryland v. King*, 567 U.S. 1301 (2012).

Where, as here, Plaintiff has demonstrated a substantial likelihood of success on the merits of their preemption challenge to SB 168's Transport Requirement, the State's interest in enforcing its statutes is outweighed by the injury sustained by the United States "when its valid laws in a domain of federal authority are undermined by impermissible state regulations." *Alabama*, 691 F.3d at 1301. Additionally, absent a preliminary injunction to preserve the status quo, Plaintiffs

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002542

have established that they will suffer serious and irreparable harm. *See Callaway*, 489 F.2d at 576. Therefore, the Court concludes that Plaintiffs' threatened injuries outweigh the harm a preliminary injunction would cause Defendants.

4. Preliminary Injunction is not Averse to the Public Interest

Finally, in establishing that a preliminary injunction is appropriate, a movant must prove that the injunction would not be averse to the public interest. *Chavez*, 742 F.3d at 1271. "Frustration of federal statutes and prerogatives are not in the public interest, and we discern no harm from the state's nonenforcement of invalid legislation." *Alabama*, 691 F.3d at 1301. Furthermore, because Plaintiffs' threatened injuries implicate the State's infringement upon significant constitutional and civil rights, a preliminary injunction that protects these rights pending a decision on the merits is in the public interest. *Alabama*, 691 F.3d at 1301; *Melendres*, 695 F.3d at 1002 ("it is always in the public interest to prevent the violation of a party's constitutional rights." (citations omitted)).

C. Severability

Plaintiffs argue that, if the Court enjoins any provision of SB 168, it must enjoin SB 168 in its entirety because the individual provisions are not severable. ECF No. [5-1] at 3. Conversely, Defendants contend that, as a matter of law, the Court should sever any enjoined clauses from SB 168 because Florida law "clearly favors" severability. ECF No. [19] at 20.

The Eleventh Circuit has previously explained the issue of severability.

> Severability of a local ordinance is a question of state law. And Florida law clearly favors (where possible) severance of the invalid portions of a law from the valid ones. According to the Florida Supreme Court, "[s]everability is a judicial doctrine recognizing the obligation of the judiciary to uphold the constitutionality of legislative enactments where it is possible to strike only the unconstitutional portions." The doctrine of severability is "derived from the respect of the judiciary for the separation of powers, and is 'designed to show great deference to the legislative prerogative to enact laws.'"

AMERICAN OVERSIGHT
FL-SEN-20-0201-B, 20-0202-A-002543

> Severability is not possible, however, when "the taint of an illegal provision has infected the entire enactment, requiring the whole unit to fail." Whether a statute is severable is determined by "its relation to the overall legislative intent of the statute of which it is a part, and whether the statute, less the invalid provisions, can still accomplish this intent." The doctrine of severability, thus, "recognizes that federal courts have an affirmative duty to preserve the validity of legislative enactments when it is at all possible to do so."

Coral Springs St. Sys., Inc. v. City of Sunrise, 371 F.3d 1320, 1347 (11th Cir. 2004) (citations omitted).

As discussed above, the Court finds that the Transport Requirement is preempted by federal immigration law. Accordingly, the Court must assess whether this provision is severable from SB 168. The "taint" of SB 168's Transport Requirement does not "infect the entire enactment" because the unconstitutional authorization to transport aliens across state lines into federal custody does not implicate any of the other statutory provisions of SB 168. Thus, given the "affirmative duty to preserve the validity of legislative enactments when it is at all possible to do so," the Court concludes that the Transport Requirement is severable from the rest of SB 168. *Id.*

D. Posting a Bond

Plaintiffs request that this Court issue the preliminary injunction without requiring them to post a bond. ECF No. [5-1] at 20. Defendants make no mention of any opposition to Plaintiffs' request in their Response and Surreply.

Before a district court may issue a preliminary injunction, Federal Rule of Civil Procedure 65(c) requires that a movant "give[] security in an amount that the court considers proper to pay the costs and damages sustained by any party found to have been wrongfully enjoined." Fed. R. Civ. P. 65(c). The Eleventh Circuit has explained that "it is well-established that 'the amount of security required by the rule is a matter within the discretion of the trial court . . . [, and] the court may elect to require no security at all.'" *BellSouth Telecomm., Inc. v. MCIMetro Access Transmission Servs., LLC*, 425 F.3d 964, 971 (11th Cir. 2005) (quoting *City of Atlanta v. Metro.*

AMERICAN OVERSIGHT

FL-SEN-20-0201-B, 20-0202-A-002544

Atlanta Rapid Transit Auth., 636 F.2d 1084, 1094 (5th Cir. Unit B Feb. 1981)); *Corrigan Dispatch Co. v. Casa Guzman, S. A.*, 569 F.2d 300, 302-03 (5th Cir. 1978) ("Rule [65(c)] requires security only in 'such sum as the court deems proper.' The amount of security required is a matter for the discretion of the trial court; it may elect to require no security at all." (citations omitted)). Moreover, where plaintiffs "seek only to vindicate their federal statutory and constitutional rights, this case implicates the public interest and the balance of hardships tips sharply in favor of plaintiffs," district courts have exercised their discretion in not requiring plaintiffs to give security. *Campos v. Immigration and Naturalization Serv.*, 70 F. Supp. 2d 1296, 1310 (S.D. Fla. 1998).

In requesting that the Court issue a preliminary injunction, Plaintiffs seek only to vindicate their federal statutory and constitutional rights. *Id.* Moreover, as discussed above, the equitable factors weigh heavily in Plaintiffs' favor. *Id.* Accordingly, the Court will not require Plaintiffs to post a security bond.

IV. CONCLUSION

For the foregoing reasons, it is **ORDERED AND ADJUDGED** that Plaintiffs' Amended Motion, ECF No. [47], is **GRANTED in part and DENIED in part** consistent with this Order.

DONE AND ORDERED in Chambers at Miami, Florida, on September 30, 2019.

APPENDIX
Form I-247A

DEPARTMENT OF HOMELAND SECURITY
IMMIGRATION DETAINER - NOTICE OF ACTION

Subject ID: Event #:	File No: Date:
TO: (Name and Title of Institution - OR Any Subsequent Law Enforcement Agency)	FROM: (Department of Homeland Security Office Address)

Name of Alien: _____

Date of Birth: _____ Citizenship: _____ Sex: _____

1. DHS HAS DETERMINED THAT PROBABLE CAUSE EXISTS THAT THE SUBJECT IS A REMOVABLE ALIEN. THIS DETERMINATION IS BASED ON *(complete box 1 or 2).*

- ☐ A final order of removal against the alien;
- ☐ The pendency of ongoing removal proceedings against the alien;
- ☐ Biometric confirmation of the alien's identity and a records check of federal databases that affirmatively indicate, by themselves or in addition to other reliable information, that the alien either lacks immigration status or notwithstanding such status is removable under U.S. immigration law; and/or
- ☐ Statements made by the alien to an immigration officer and/or other reliable evidence that affirmatively indicate the alien either lacks immigration status or notwithstanding such status is removable under U.S. immigration law.

2. DHS TRANSFERRED THE ALIEN TO YOUR CUSTODY FOR A PROCEEDING OR INVESTIGATION *(complete box 1 or 2).*

- ☐ Upon completion of the proceeding or investigation for which the alien was transferred to your custody, DHS intends to resume custody of the alien to complete processing and/or make an admissibility determination.

IT IS THEREFORE REQUESTED THAT YOU:

- **Notify DHS** as early as practicable (at least 48 hours, if possible) before the alien is released from your custody. Please notify DHS by calling ☐ U.S. Immigration and Customs Enforcement (ICE) or ☐ U.S. Customs and Border Protection (CBP) at _____. If you cannot reach an official at the number(s) provided, please contact the Law Enforcement Support Center at: (802) 872-6020.
- **Maintain custody** of the alien for a period **NOT TO EXCEED 48 HOURS** beyond the time when he/she would otherwise have been released from your custody to allow DHS to assume custody. The alien **must be served with a copy of this form** for the detainer to take effect. This detainer arises from DHS authorities and should not impact decisions about the alien's bail, rehabilitation, parole, release, diversion, custody classification, work, quarter assignments, or other matters
- Relay this detainer to any other law enforcement agency to which you transfer custody of the alien.
- Notify this office in the event of the alien's death, hospitalization or transfer to another institution.

☐ If checked: please cancel the detainer related to this alien previously submitted to you on _____ (date).

SAMPLE

_____ (Name and title of Immigration Officer)

_____ (Signature of Immigration Officer) (Sign in ink)

Notice: If the alien may be the victim of a crime or you want the alien to remain in the United States for a law enforcement purpose, notify the ICE Law Enforcement Support Center at (802) 872-6020. You may also call this number if you have any other questions or concerns about this matter.

TO BE COMPLETED BY THE LAW ENFORCEMENT AGENCY CURRENTLY HOLDING THE ALIEN WHO IS THE SUBJECT OF THIS NOTICE:

Please provide the information below, sign, and return to DHS by mailing, emailing or faxing a copy to _____ .

Local Booking/Inmate #: _____ Estimated release date/time: _____

Date of latest criminal charge/conviction: _____ Last offense charged/conviction: _____

This form was served upon the alien on _____ , in the following manner:

☐ in person ☐ by inmate mail delivery ☐ other (please specify): _____

_____ (Name and title of Officer)

_____ (Signature of Officer) (Sign in ink)

AMERICAN OVERSIGHT

NOTICE TO THE DETAINEE

The Department of Homeland Security (DHS) has placed an immigration detainer on you. An immigration detainer is a notice to a law enforcement agency that DHS intends to assume custody of you (after you otherwise would be released from custody) because there is probable cause that you are subject to removal from the United States under federal immigration law. DHS has requested that the law enforcement agency that is currently detaining you maintain custody of you for a period not to exceed 48 hours beyond the time when you would have been released based on your criminal charges or convictions. **If DHS does not take you into custody during this additional 48 hour period, you should contact your custodian** (the agency that is holding you now) to inquire about your release. **If you believe you are a United States citizen or the victim of a crime, please advise DHS by calling the ICE Law Enforcement Support Center toll free at (855) 448-6903.**

NOTIFICACIÓN A LA PERSONA DETENIDA

El Departamento de Seguridad Nacional (DHS) le ha puesto una retención de inmigración. Una retención de inmigración es un aviso a una agencia de la ley que DHS tiene la intención de asumir la custodia de usted (después de lo contrario, usted sería puesto en libertad de la custodia) porque hay causa probable que usted está sujeto a que lo expulsen de los Estados Unidos bajo la ley de inmigración federal. DHS ha solicitado que la agencia de la ley que le tiene detenido actualmente mantenga custodia de usted por un periodo de tiempo que no exceda de 48 horas más del tiempo original que habría sido puesto en libertad en base a los cargos judiciales o a sus antecedentes penales. **Si DHS no le pone en custodia durante este periodo adicional de 48 horas, usted debe de contactarse con su custodio** (la agencia que le tiene detenido en este momento) para preguntar acerca de su liberación. **Si usted cree que es un ciudadano de los Estados Unidos o la víctima de un crimen, por favor avise al DHS llamando gratuitamente al Centro de Apoyo a la Aplicación de la Ley ICE al (855) 448-6903.**

AVIS AU DETENU OU À LA DÉTENUE

Le Département de la Sécurité Intérieure (DHS) a placé un dépositaire d'immigration sur vous. Un dépositaire d'immigration est un avis à une agence de force de l'ordre que le DHS a l'intention de vous prendre en garde à vue (après celà vous pourrez par ailleurs être remis en liberté) parce qu'il y a une cause probable que vous soyez sujet à expulsion des États-Unis en vertu de la loi fédérale sur l'immigration. Le DHS a demandé que l'agence de force de l'ordre qui vous détient actuellement puisse vous maintenir en garde pendant une période ne devant pas dépasser 48 heures au-delà du temps après lequel vous auriez été libéré en se basant sur vos accusations criminelles ou condamnations. **Si le DHS ne vous prenne pas en garde à vue au cours de cette période supplémentaire de 48 heures, vous devez contacter votre gardien (ne)** (l'agence qui vous détient maintenant) pour vous renseigner sur votre libération. **Si vous croyez que vous êtes un citoyen ou une citoyenne des États-Unis ou une victime d'un crime, s'il vous plaît aviser le DHS en appelant gratuitement le centre d'assistance de force de l'ordre de l'ICE au (855) 448-6903**

NOTIFICAÇÃO AO DETENTO

O Departamento de Segurança Nacional (DHS) expediu um mandado de detenção migratória contra você. Um mandado de detenção migratória é uma notificação feita à uma agência de segurança pública que o DHS tem a intenção de assumir a sua custódia (após a qual você, caso contrário, seria liberado da custódia) porque existe causa provável que você está sujeito a ser removido dos Estados Unidos de acordo com a lei federal de imigração. ODHS solicitou à agência de segurança pública onde você está atualmente detido para manter a sua guarda por um período de no máximo 48 horas além do tempo que você teria sido liberado com base nas suas acusações ou condenações criminais. **Se o DHS não leva-lo sob custódia durante este período adicional de 48 horas, você deve entrar em contato com quem tiver a sua custódia** (a agência onde você está atualmente detido) para perguntar a respeito da sua liberação. **Se você acredita ser um cidadão dos Estados Unidos ou a vítima de um crime, por favor informe ao DHS através de uma ligação gratuita ao Centro de Suporte de Segurança Pública do Serviço de Imigração e Alfândega (ICE) pelo telefone (855) 448-6903.**

U.S. DEPARTMENT OF HOMELAND SECURITY **Warrant for Arrest of Alien**

File No. _____

Date: _____

To: Any immigration officer authorized pursuant to sections 236 and 287 of the Immigration and Nationality Act and part 287 of title 8, Code of Federal Regulations, to serve warrants of arrest for immigration violations

I have determined that there is probable cause to believe that _____ is removable from the United States. This determination is based upon:

☐ the execution of a charging document to initiate removal proceedings against the subject;

☐ the pendency of ongoing removal proceedings against the subject;

☐ the failure to establish admissibility subsequent to deferred inspection;

☐ biometric confirmation of the subject's identity and a records check of federal databases that affirmatively indicate, by themselves or in addition to other reliable information, that the subject either lacks immigration status or notwithstanding such status is removable under U.S. immigration law; and/or

☐ statements made voluntarily by the subject to an immigration officer and/or other reliable evidence that affirmatively indicate the subject either lacks immigration status or notwithstanding such status is removable under U.S. immigration law.

YOU ARE COMMANDED to arrest and take into custody for removal proceedings under the Immigration and Nationality Act, the above-named alien.

My name is Bill Anderson. I am a longtime resident of St Augustine., and am writing to discourage the passage of SB1128, which would remove local municipalities ability to regulate short term rentals. Our city has a reputation of being a living city, with beautiful residential neighborhoods. I have observed the erosion of these neighborhoods due to the explosion of STRs. Our City Commission has recently voted to approve 3 ordinances would allow the city to regulate STRs within the city limits, including mandatory registration, a registration fee, establish fire safety, intensity of use, and parking requirements. I strongly believe our city government should be permitted to regulate STRs.

My name is Nancy Antorena
I live in 7400 Beachview Drive, North Bay Village, Fl since 1998.
Please vote NO for SB1128

I am contacting you today to urge you to **OPPOSE SB 1128 as currently drafted**. At a minimum, meaningful registration and data reporting by short-term rental operators and platforms should be required, as it is for every other commercial enterprise in the state. Not only does fail to do that but these bills nullify the few sensible rules that are protecting communities from being overrun by illegal hotels.

Please OPPOSE SB 1128 and protect our state's residential neighborhoods.

Sincerely, a concerned Floridian

11. **Program Performance**

a. What specific purpose or goal will be achieved by the funds requested?

To provide high quality prevention and intervention programs to support a safe learning environment for all students and faculty. To provide early substance abuse and mental health prevention and intervention services to students. To develop collaborative relationships with community partners to better serve students.

b. What activities and services will be provided to meet the intended purpose of these funds?

Service components of the program include health promotion for the general student body; attention to students who are at specie risk for substance abuse, teen pregnancy, violence/bullying, suicide, academic failure suspension,, or dropping out; and early problem identification, referral, and intervention for students exhibiting problem behaviors.

c. What direct services will be provided to citizens by the appropriation project?

Making available a Student Assistance Specialisty to identify and refer students to services/specialists specific to the needs of the student to address their issues.

d. Who is the target population served by this project? How many individuals are expected to be served?

The Sarasota School District for students in 9th through 12th grade.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

To assure that the students and faculty by using effective practices, principle, and strategies will remove barriers that impede students success. The overall evaluation will be the cooperative responsibility of the Office of Research and Evaluation, the Sarasota School Board and the Student Assistance Program Coordinator and/or First Step Program Director, and a contracter external evaluation.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Either to re-write the program or shut the program down and return unused funds.

Subject: Re: test

Dear Senator Gruters,
My name is Julie Michelle Cable. My birth name is Julie Michelle Brown.
I have been a resident here of Sarasota County living mostly in Venice for 56 years. I was born in Alabama and lived with my biological mother who then married and that man(became my step father) Wayne Freeman adopted me, changing my last name to Freeman. It appears though that my birth certificate was never amended to support the name change as expected.

I am reaching out to you on the advise of my brother who tells me that instead of approaching a constitutional attorney I should start with the Senator for my area. I hope you can help me, I am at my wits end with searching for resolution.

My driver's license expired November 2019. Upon renewal procedure the Department of Motor Vehicles has advised me that they cannot renew my driver's license due to the fact that my birth certificate is not the correct name to be in line with the paper trail of who I am. My first driver's license was issued with Freeman being my last name around 1977-78 ...they should have record of that.....I have all the papers in line to show my name changes from that point to this current day....(ie: marriage, divorce). My parents are elderly and totally uncooperative .....they are telling me that the adoption record papers were stolen.

Due to this invalid license a hardship is being created because I cannot open a bank account without a valid license. I have a company newly registered with the State of Florida for home inspecting and I cannot get the first job because I cannot open a bank account. I need your help please. This new business is so I can support my family. I have lived here in Sarasota County since I was 1 year old.....every registration of my vehicles, purchasing a home, a passport have all taken place in this county.
The following is pertinent information to who I am and how I can be reached.
Julie Michelle Cable
340 Glen Oak Rd.
Venice, FL 34293

Phone 941-525-6311

email : cablejmichelle@gmail.com

I grew up on Shamrock Dr in South Venice....spent 17 yrs there and then moved about for a few years, then I purchased a home 1821 Faun Rd. where I lived for almost 30 years.....I have been on Glen Oak rd in Venice Gardens for approx 5 years.

I am happy to answer any questions for you.
Desperate for help,
Julie Michelle Cable

Subject: speaking invite

Josh,

Hope you're well, amigo. Spoke with the Senator about the below and got a big yes from him on the ask but of course want to make sure everything lines up from a calendar perspective. See below and let me know when we can confirm him and start marketing his attendance to potential attendees:

WHAT: Florida Chamber of Commerce's Annual Meeting, the Future of Florida Forum
WHERE: Hyatt Regency Grand Cypress, Orlando, FL
WHEN: Monday, October 28 @ 12:40pm

ASK: 10-12 min TED talk on Internet Sales Tax - tentatively would list it in the program as"Online Sales Tax: It's a Fairness Issue"

More details, including hotel room block (which is quickly filling up) here:https://www.flchamber.com/event_post/future-of-florida-forum/

Of course we'd love to have him stay for as much of the program (Oct 28-29) as his schedule allows.

Thanks,
Frank

Mariana Castro mariana@impacfund.org **470-269-4962**

Below is a statement from IMPAC and ABIC regarding Sen. Tom Lee's E-verify legislation filed yesterday

ORLANDO, FLORIDA- Today, Florida Sen. Tom Lee (R) whose district covers Pasco, Hillsborough, and Polk County, has filed SB 664, mandatory E-verify legislation. Mandating the use of E-Verify absent a path to legal status is economically harmful and morally wrong. E-verify will hurt Florida's economic growth and industries already struggling to find workers. E-Verify has a 12% error rate and could jeopardize the jobs of 1.1 million U.S. citizens and lawfully present Floridians and cost Florida employers $4.7 billion to replace lawfully present workers that receive false disqualification, according to CATO Institute, a conservative think tank.

Bob Dickinson, Carnival Cruises retired CEO "With a record low unemployment and crushing worker shortages in the hospitality, construction, elderly care and agriculture, Florida's economic growth will continue to struggle unless we find solutions and E-verify is **shooting ourselves in the foot** Instead, our Florida legislature should pass legislation to train, license and insure every Florida driver, regardless of their immigration status."

Paul Dimare, President of Dimare Fresh Inc. Florida Farmer of the Year 2016 "E-verify will destroy our agriculture and service economy. We are already dealing with staggering worker shortages and raising wages to keep workers here. Our government needs to listen to business voices and protect Florida's economy and stop playing politics. Our immigration system is broken and our federal government needs to find solutions; but while that is stuck in DC politics remain at an impasse, Florida can take action by providing driver's licenses for all to increase our prosperity and safety. "

Major employers and job creators representing nearly every industry across Florida have already signed a letter opposing mandatory statewide E-verify. These business leaders are asking the legislature and the governor to instead support sensible laws such as driver's licenses and insurance for all.

AMERICAN OVERSIGHT

An Open Letter from Florida Business Leaders

Dear Governor Ron DeSantis, Senate President Bill Galvano and House Speaker Jose Oliva,

Florida businesses and our economy rely and benefit from the hard work, entrepreneurship, and optimism that our immigrant communities bring to our state. Immigrants are vital to Florida, representing over 25 percent of our workforce. Immigrant business owners employ over 500,000 fellow Floridians, and immigrants in Florida add over $83 billion annually to our economy. The innovative spirit of new Americans keeps our Florida moving forward. This is why we urge you to:

1) Oppose an unfunded and notoriously flawed mandatory E-Verify system that hurts both immigrant and U.S. born workers, and

2) Support driver's license legislation that is sensible pro-business and pro-public safety measure to train, test, license and insure every driver in Florida, regardless of their immigration status. We live in polarized and divisive times, and in the wake of El Paso shooting that targeted Hispanics, it is time for Florida leaders to come together for sensible immigration solutions rather than irresponsible rhetoric and policy that could harm the economy and encourage violence.

According to the Insurance Research Council, Florida tops the nation with the highest rate of uninsured drivers, currently at 26.5 percent of drivers driving without insurance. By denying nearly one million Florida residents the ability to be licensed and insured, we not only force them into the shadows and jeopardize the safety of all who use our roads, we also elevate insurance rates for every licensed Florida driver. Mandating auto insurance and licensing all drivers will increase public safety and decrease costs for everyone. It will also bring millions of much needed dollars to the automobile insurance pool and generate state revenue in the form of driver's license and tag/registration fees, and sales tax on new automobile sales. Finally, it will serve as a boost for auto dealers in the form of thousands of new drivers.

E-Verify, on the other hand, would be a disaster for Florida's economy. With record low unemployment and staggering worker shortages in the hospitality and agriculture sectors, imposing mandatory E-Verify would only further hold back the growth of our economy. According to data from the Cato Institute, E-Verify could jeopardize the jobs of 1.1 million U.S. citizens and lawfully present Floridians, and cost Florida employers $4.7 billion to replace lawfully present workers that receive false disqualification. Mandating a flawed and costly system will devastate our economy.

Now is the time to make sure there are powerful, reasonable voices speaking out and ensuring our roads and neighborhoods are safe and Florida businesses are not hurt by additional expensive, burdensome regulations. We encourage you to bring all stakeholders to the table to find common ground and address our state's challenges in a manner that embraces pro-business, pro-immigrant, and pro-public safety solutions.

Subject: Strategies for Rural Economic Development

ECONOMIC DEVELOPMENT

Strategies for Rural Economic Development

Florida's economy has seen a significant reshaping over the past 20 years. By 2030, rapid advancements in technology and automation will replace nearly half of all jobs that currently exist. While many urban areas of Florida have already begun preparing for this change, a large number of our rural areas are still reeling from the economic realities of the changes in agriculture and the devastation of Hurricane Michael.

At the Florida Chamber Foundation's Future of Florida Forum, Todd Powell, Chairman of the Foundation's Board of Trustees led a panel addressing the challenges to rural economic development and pathways to achieve the Blueprint 2030 goal of doubling the rural county share of Florida's gross domestic product. The panel was made up of Michelle Dennard, President and CEO of CareerSource Florida, Jeff Hendry, Executive Director of the North Florida Economic Development Partnership, and Gray Swoope, President and CEO of VisionFirst Advisors.

A focus on rural and inland Florida economic development include:

- Supporting development of manufacturing and logistics operations along existing corridors such as I-10 and U.S. 27.
- Strengthening the effectiveness of Florida's Rural Areas of Opportunity and other targeted rural development programs.
- Increase broadband access to Florida's rural and inland counties.
- Provide higher levels of connectivity options between Florida's urban and rural communities.

"In addition to the Florida Scorecard, the Florida Chamber has created regional scorecards for our three rural regions so we can track our metrics," said Jeff Hendry. "The first one available is Opportunity Florida, covering the panhandle."

"Please don't forget about the people in Northwest Florida," Hendry continued. "You can't appreciate the devastation that Hurricane Michael caused if you haven't been there. Speak with your legislators about doing what's right to make these communities whole. It won't happen overnight but we have to start somewhere, and we have to start now."

Attachment(s): "html (19).pdf"

Hello

I am writing you to ask for your support bill SB564. I ask that you help us reform Florida prison system. Don't you want to be apart of history? Florida is currently rank third in the nation for the amount of incarcerated individuals. We need change, we need to help this broken system, we the people who voted for you are asking for you to support this reform.

Sincerely,

Wife of incarcerated love one and Florida Voter

AMERICAN OVERSIGHT

By Senator Bracy

11-00222-20 2020564__

A bill to be entitled

An act relating to murder; amending s. 782.04, F.S.; revising the elements of murder in the first degree and murder in the second degree; revising the elements of what constitutes felony murder, for murder in the second degree; deleting provisions relating to felony murder, for murder in the third degree; creating s. 782.041, F.S.; authorizing persons convicted under certain murder provisions to file a petition with the sentencing court to have his or her murder conviction vacated or to be resentenced, as applicable, on or after a specified date; amending ss. 27.401, 394.912, 775.0823, 782.065, 921.0022, 944.275, 947.146, and 948.012, F.S.; conforming provisions to changes made by the act; amending s. 921.0024, F.S.; conforming cross-references; providing an effective date.

WHEREAS, there is a need for statutory changes to more equitably sentence offenders in accordance with their level of involvement in homicides, and

WHEREAS, it is a bedrock principle of the law and of equity that a person should be punished for his or her actions according to his or her level of individual culpability, and

WHEREAS, it is necessary to amend Florida's felony murder rule to limit convictions and subsequent sentencing so that the laws of this state fairly address the culpability of the individual and assist in the reduction of prison overcrowding, which partially results from lengthy sentences that are not commensurate with the culpability of the individual, NOW,

AMERICAN OVERSIGHT

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 782.04, Florida Statutes, is amended to read:

782.04 Murder.—

(1)(a) The unlawful killing of a human being:

1. When perpetrated from a premeditated design to effect the death of the person killed or any human being;

~~2. When committed by a person engaged in the perpetration of, or in the attempt to perpetrate, any:~~

h. Sufentanil, as described in s. 893.03(2)(b)30.; or

i. A controlled substance analog, as described in s. 893.0356, of any substance specified in sub-subparagraphs a.-h.,

is murder in the first degree and constitutes a capital felony, punishable as provided in s. 775.082.

(b) In all cases under this section, the procedure set forth in s. 921.141 shall be followed in order to determine sentence of death or life imprisonment. If the prosecutor intends to seek the death penalty, the prosecutor must give

AMERICAN OVERSIGHT

notice to the defendant and file the notice with the court within 45 days after arraignment. The notice must contain a list of the aggravating factors the state intends to prove and has reason to believe it can prove beyond a reasonable doubt. The court may allow the prosecutor to amend the notice upon a showing of good cause.

(2) The unlawful killing of a human being, when perpetrated by any act imminently dangerous to another and evincing a depraved mind regardless of human life, although without any premeditated design to effect the death of any particular individual, is murder in the second degree and constitutes a felony of the first degree, punishable by imprisonment for a term of years not exceeding life or as provided in s. 775.082, s. 775.083, or s. 775.084.

(3)(a) The unlawful killing of a human being when committed by a person or a participant engaged in the perpetration of, or in the attempt to perpetrate, any of the violations listed in paragraph (b) is murder in the second degree, a felony of the first degree, punishable by imprisonment for a term of years not exceeding life or as provided in s. 775.082, s. 775.083, or s. 775.084, only if one of the following is proven:

1. The person was the actual killer.

2. The person was not the actual killer, but, with the intent to kill, aided, abetted, counseled, commanded, induced, solicited, requested, or assisted the actual killer in the commission of murder.

3. The person was a major participant in the underlying felony and acted with reckless indifference to human life.

(b)1. Trafficking offense prohibited by s. 893.135(1).

(4)~~(5)~~ As used in this section, the term "terrorism" means an activity that:

(a)1. Involves a violent act or an act dangerous to human life which is a violation of the criminal laws of this state or of the United States; or

2. Involves a violation of s. 815.06; and

(b) Is intended to:

1. Intimidate, injure, or coerce a civilian population;

2. Influence the policy of a government by intimidation or coercion; or

3. Affect the conduct of government through destruction of property, assassination, murder, kidnapping, or aircraft piracy.

Section 2. Section 782.041, Florida Statutes, is created to read:
