SENT VIA EMAIL:

Dear Austin Evers:

This correspondence is in response to your Open Records Act Request Reference#: R001204-022420 dated February 24, 2020. Your request sought the following:

Please see the attached open records request (GA-FULTON-20-0267).

All responsive records are available.

Please feel free to contact me at if you have any questions.
Sincerely,

Mariska Bodison
Registration & Elections

xc: Steven E. Rosenberg, Open Records Custodian

Shana Eatmon, Legal Assistant
Unique McCray, Administrative Coordinator II

To monitor the progress, update this request, and retrieve responsive records, please log into the [Fulton County Open Records Center](#).

Subject: Pending Verification
Attachment(s): "FULTON County – Pending Citizenship Voters.xlsx"

Good Afternoon,

Attached to this email, you will find a spreadsheet that contains all of your voters currently in Pending status with a status reason of Citizenship Verification. Please review the documents that you have on file for these records to confirm that proof of citizenship was not submitted with the original application. Be sure to check inside the pocket of any state provided voter registration application for documents that could have been missed when the application was originally reviewed.

If you find proof of citizenship, the following actions should be taken:

1. Locate the record in ElectionNet.
2. Begin a change on the voter record.
3. Select the User Correction functionality by checking the checkbox next to User Correction in the Voter Identification section.
4. Update the US Citizen status to YES.
5. Select the type of document provided from the proof of citizenship dropdown menu.
6. Update the voter status to Active.
7. Complete the change voter process.

Please let me know when you have completed this project. We need this completed by August 23^d.

Thanks,

Leigh Combs
Liaison, Elections Division

Batch Printing Procedures on ElectionNet (ENET)

1. Log-on to **ENET** using Username and Password provided.
2. Prior to processing DDS Applications, print list of applications to be processed from Dashboard. To do this, select **"Review"** next to **"There are ____ DDS Applications to Process,"** then select **"Print All."**
3. Process DDS Applications on the **ENET Dashboard**. Ensure that all information is updated accordingly including NAME, ADDR, DL #, SS #, etc.
4. When processing is complete, (on **Dashboard**) locate and select the **"Review"** button next to **"There are ____ items batch which are to be printed."**
5. After making the selection, locate and select the **"Review"** button next to the date the applications were processed, *not the date on the application*.
6. When printing the processed applications, select **"Registration"** from the **"Letter Type"** list. Only a list of DDS applications processed will be queried.
7.  Check the **"Select All"** box, located above the queried list.

Georgia Voter Registration System
Secretary of State Brian P. Kemp

Dashboard > Reminders > Batch Print

Batch Print

Username: SYSTEM 122RPHFER [Select] Letter Type: ID REQUIRED NON CITIZENSHIP REGISTRATION REJECT [Select]

☒ Select All

Username	Letter Type	Voter Registration #	Voter Name	Date of Birth	Batch Created	Printed
122RPHFER	REGISTRATION	10021968	RICKY WRIGHT	03/30/1958	04/30/2013 12:13:17	YES

[Print] [Review]

8. Scroll to the bottom of the list and select **"Print."** An Adobe file will open which contains all of the DDS Applications processed. On the applications you will see the applicant's biographic information, applicant's signature, precinct, district combination and registration number.
9. Place DDS printing paper in Office Networked Printer (Konica). Ensure that no

Print Option in Adobe

https://firefly.sos.ga.gov/internal/Documents/Training/Misc/Batch_Printing_on_ElectionNet.docx

one else will be doing any printing for the next few minutes.

10. To print two (2) applications per sheet on the Office Networked Printer

- a. Select the print option in Adobe
- b. Select the printer **\\rc-print1/voter-BH363-KON**
- c. In the upper right corner select **"Properties"**

- i. Select **"Basic"** Tab
 1. **"Original Orientation,"** select the **"Landscape"** option
 2. **"Original Size"** is 5 ½ x 8 ½
 3. **"Paper Size"** is 8 ½ x 11
- ii. Select **"Layout"** Tab
 1. Check the **"Combination"** box, located in the center frame. Ensure that is set for **"2 in 1."**
 2. Select **"Combination Details,"** select the **"Top to Bottom"** **"Layout Order."**
- d. Select **"OK"** on the **"Properties"** screen.
- e. Ensure that **"Page Scaling"** is set at **None** and there is no check mark in **"Auto-Rotate and Center"**
- f. Select **"OK"** on the **"Print"** screen.

Be sure all applications are printed, by comparing to the list of applications to be processed printed in the beginning.

History – Change
Reason

Review and Auditing

ElectionNet Processing of Backlog

- Due to the changes to the verification process introduced by House Bill 316, no voters should be in Pending status with the status reason of DDS Verification or SSN Verification
- All records currently in Pending status for failure to match with DDS, SSA, or Citizenship status will now be sent through the new verification process to ensure the records are in the proper status and on a system clock, if appropriate
- Scenarios for the Pending DDS and SSN records after the verification process
 - All DDS and SSN pending verification records that provided id regardless if the identifiers were a match will be moved to Active status with no MIDR requirement
 - All DDS and SSN pending verification records that did not provide ID but pass all identifier matches will be moved to Active status with no MIDR requirement
 - All DDS and SSN pending verification records that did not provide ID and did not pass all identifier matches will be moved to Active status with MIDR requirement

Review and Auditing

ElectionNet Processing of Backlog

- Scenarios for records that are moved from Pending Citizenship status to Active after reprocessing
 - All pending citizenship records that now pass citizenship and provided id will be moved to Active status with no MIDR requirement regardless if all identifiers matched
 - All pending citizenship records that now pass citizenship, identifiers are a match, and did not provide id will be moved to Active status with no MIDR requirement
 - All pending citizenship records that now pass citizenship, all or some identifiers fail to match, and did not provide id will be moved to Active status with MIDR requirement
 - All pending citizenship records that remain marked as No for citizenship verification will be placed in Pending Citizenship status and will be placed on the Pending voters on the 26 month clock list

Review and Auditing

ElectionNet Processing of Backlog

- Scenarios for records remaining in Pending Citizenship status
 - If ID was provided with the application regardless if identifiers all pass, the record will not be MIDR
 - If ID was not provided with the application but all identifiers pass, the record will not be MIDR
 - If ID was not provided with the application and all or some identifiers are not matched, the record will be marked as MIDR
 - The Pending Citizenship letter should be printed and mailed as soon as possible
 - Printing the letter starts the 26 month clock for the voter
 - Printing the letter places the letter in the View Corres. Tab of the voter's record
 - The MIDR letter should be printed and mailed as soon as possible
 - Printing the letter places the letter in the View Corres. Tab of the voter's record

OFFICIAL ELECTION BULLETIN

October 23, 2018

TO: County Election Officials and County Registrars

FROM: Chris Harvey, Elections Division Director

RE: Handling Pending Verification Registrations At Voting Locations

Below please find guidance and instructions regarding handling voter registrations in pending verification status. This information was also provided leading up to the 2016 General Election.

As you know, all voter registration applications are checked against the information on file with the Georgia Department of Driver Services (“DDS”) or the Social Security Administration (“SSA”).

Any voter whose registration that is facially complete but whose DDS number or SSA number cannot be verified because key information such as first name, last name, and date of birth does not match the information on file with the Georgia DDS or the SSA will remain in pending status and will **not** be rejected for 26 months pursuant to O.C.G.A. § 21-2-220.1.

Pending applicants whose information (other than citizenship status) did not match are eligible to vote during early voting or on Election Day and must be allowed to vote a regular ballot if they show one of the following forms of identification and there are no other issues that would require the voter to vote a provisional ballot (i.e. wrong county, wrong precinct, already voted, etc.):

- (1) A Georgia driver’s license (including an expired Georgia driver’s license);
- (2) A valid Georgia voter identification card or other valid photo identification card issued by a branch, department, agency, or entity of the State of Georgia, any other state, or the United States which is authorized by law to issue personal identification. This includes a valid student photo ID card issued by a Georgia public college, university, or technical school; a valid out-of-state driver’s license; public transit issued photo ID card; and any other federal or state agency or government issued photo ID card;
- (3) A valid United States passport;
- (4) A valid employee photo identification card issued by any branch, department, agency, or entity of the United States government, this state, or any county, municipality, board, authority, or other entity of this state;
- (5) A valid United States military photo identification card; or
- (6) A valid tribal photo identification card.

After the applicant shows an acceptable form of identification at the polling place or early voting site and casts a ballot, that elector should be given credit for voting and their eNet status should be updated from “pending” to “active” using Site Override. **The identification shown is not required to exactly match the information in ExpressPoll. Instead, you must simply confirm that the voter is the same person as the applicant.**

Pending applicants whose registration did not match DDS records for citizenship status are eligible to vote a regular ballot during early voting or on Election Day for the November 6, 2018 General Election if they provide one of the forms of identification above and one of the following forms of proof of citizenship and a deputy registrar is available to review the proof of citizenship:

- (1) Birth certificate, issued by a U.S. State (if the person was born in the U.S.), or by the U.S. Department of State (if the person was born overseas and the parents registered the child's birth and U.S. citizenship at birth with the U.S. Embassy or Consulate).
- (2) U.S. Passport, issued by the U.S. Department of State.
- (3) Certificate of Citizenship, issued to a person born outside the U.S. who was still a U.S. citizen at birth, or to a person who later automatically became a U.S. citizen.
- (4) Naturalization Certificate, issued to a person who became a U.S. citizen after birth through the naturalization process.
- (5) A Report of Birth Abroad of a U.S. Citizen.
- (6) A Certification of birth issued by the Department of State.
- (7) A U.S. Citizen ID card.
- (8) An American Indian Card issued by the Department of Homeland Security with the classification code "KIC" (Issued by DHS to identify U.S. citizen members of the Texas Band of Kickapoos living near the U.S./Mexican border).
- (9) Final adoption decree showing the child's name and U.S. birthplace.
- (10) Evidence of civil service employment by the U.S. government before June 1976.
- (11) An official U.S. military record of service showing a U.S. place of birth.
- (12) A Northern Mariana Identification Card (Issued by the INS to a collectively naturalized citizen of the U.S. who was born in the Northern Mariana Islands before November 4, 1986).
- (13) Extract of U.S. hospital record of birth established at the time of the person's birth indicating a U.S. place of birth.
- (14) Life or health or other insurance record which indicates a U.S. place of birth and which is dated at least 5 years before the initial application date.
- (15) Federal or State census record which indicates U.S. citizenship or a U.S. place of birth (Generally for persons born 1900 through 1950).

(16) Institutional admission papers from a nursing home, skilled nursing care facility or other institution which indicates a U.S. place of birth.

(17) Medical (clinical, doctor, or hospital) record which indicates a U.S. place of birth and which is dated at least 5 years before the application date.

(18) A driver's license or identification card issued by an agency of a U.S. state if that agency indicates on the driver's license or identification card that the applicant has provided satisfactory evidence of United States citizenship to the agency.

- A Georgia driver's license or ID card is proof of citizenship unless it says LIMITED-TERM.

(19) Other document that was created at least 5 years before the application. Document must be one of the following and show a U.S. place of birth: Seneca Indian tribal census record; Bureau of Indian Affairs tribal census records of the Navaho Indians; U.S. State Vital Statistics official notification of birth registration; an amended or delayed U.S. public birth record that is amended more than 5 years after the person's birth; or statement signed by the physician or midwife who was in attendance at the time of birth.

(20) If other forms of documentation cannot be obtained, documentation may be provided by a written affidavit, signed under penalty of perjury, from two citizens, one of whom cannot be related to the person in question, who have specific knowledge of event(s) establishing the person in question's citizenship status. The person in question or another knowledgeable individual must also submit an affidavit stating why the documents are not available. Affidavits are only expected to be used in rare circumstances.

If a deputy registrar is not present at the time the applicant requests a ballot, the applicant may present the proof of citizenship to the poll manager who shall transmit a copy of the applicant's proof of citizenship to the county registrar's office via text message, email or fax, if said technology is available to the poll manager at the polling location. The county registrar shall immediately update the applicant's citizenship status so that the applicant shall be permitted to cast a regular ballot and convey that information to the poll manager at the polling location. If that technology is not available to the poll manager, the applicant shall be offered the opportunity to cast a provisional ballot, the provisional ballot envelope shall be marked by the poll manager with "CIZ" to confirm that the applicant presented one of the forms of acceptable proof of citizenship and ID at the time the ballot was cast, and the provisional ballot shall be counted as a vote without requiring any further action on the part of the voter.

If an applicant who is in pending status due to citizenship verification does not present one of the acceptable forms of proof of citizenship when a ballot is requested during early voting or on Election Day, the applicant shall be offered the opportunity to cast a provisional ballot. The provisional ballot envelope is to be marked "X". The applicant shall be instructed that he or she will be required to present proof of citizenship in person, via fax, email or text to the county registrar before the close of the provisional ballot period on the Friday following the election in order for the provisional ballot to count as a vote.

INSTRUCTIONS FOR PROCESSING PENDING VOTERS ON THE EXPRESSPOLL UNITS

There are two different indicators for voters in Pending status in ExpressPoll: **V** and **X**.

PENDING VOTERS IN “V” STATUS

- If a Poll Worker pulls up a voter and sees that the voter is in V status, it means that they failed verification with the Department of Driver Services or the Social Security Administration. When the Poll Worker selects the voter, they will be prompted with the following message:
 - “Voter is a first time registrant whose application has not been fully verified. Voter must show an acceptable form of ID before voting. If no acceptable ID is provided, send the voter to the provisional station.”
- If the voter is able to provide the proper identification outline in 21-2-417(a), the Poll Worker will select the button marked “ID Provided Issue Voter Card” and create a voter access card.
- If the voter is unable to provide the required identification, they should be sent to the provisional ballot station.

PENDING VOTERS IN “X” STATUS

- If a Poll Worker pulls up a voter that is in X status, they will notice the record is highlighted in purple. When they select the voter they will see the following message, which will also be highlighted in purple:
 - “Voter has been flagged in the Voter Registration System as a possible Noncitizen. Issue the Voter a Challenged Ballot. Contact the County Registrar for individual’s current status.”
- At this point, the Poll Worker does not have the option to create a voter access card for this voter. There are four different scenarios that could take place at this point.
 1. If the voter has proof of citizenship with them and there is a deputy registrar at the polling location that can verify the documents, the Poll Manager can override the X status for the voter using their supervisor password. They would change the voter status to A and then the Poll Worker could then issue that voter a voter access card.
 2. If there is not a deputy registrar at the polling place, but the voter presents proof of citizenship to the poll manager, the poll manager shall call the registrar’s office and send by text message, email or fax a copy of the proof of citizenship if the technology is available. The county registrar shall update the voter’s citizenship status and instruct the Poll Manager to override the X status and change the voter to A status in ExpressPoll. The Poll Worker could then issue that voter a voter access card.
 3. If that technology is not available to the poll manager, the voter shall be offered the opportunity to cast a provisional ballot. The provisional ballot envelope shall be marked “**CIZ**” to confirm that the applicant presented one of the forms of acceptable proof of citizenship and ID, and the provisional ballot shall be counted as a vote without requiring any further action on the part of the voter.
 4. If the voter does not have proof of citizenship, the voter should be directed to the provisional ballot station to cast a provisional ballot. The voter will need to present citizenship documentation in person, via fax, email, or text to the county registrar’s office before end of business on Friday, 11/9/18 to resolve their provisional status.

OFFICIAL ELECTION BULLETIN

November 2, 2018

TO: County Election Officials and County Registrars

FROM: Chris Harvey, Elections Division Director

RE: Pending Citizenship Registrations at Voting Locations

District Court Judge Eleanor Ross has just issued an injunction regarding the way voters in pending citizenship status are able to resolve their citizenship verification issue at the polls. The injunction will require posting information at the polls, additional training for poll managers, and a slight change to the procedure for verifying proof of citizenship at polling places. A copy of the full order is available as a separate OEB.

The Judge has ordered that **Poll Managers**, in addition to Deputy Registrars, be allowed to verify proof of citizenship at the polls. You should immediately communicate to your Poll Managers this information and the list of acceptable proof of citizenship. Please ensure that they are prepared to review and verify proof of citizenship documentation at the polls for any voter marked in the ExpressPoll with X (Pending Citizenship Verification). It is also important that poll managers separately document when someone in Pending Citizenship Verification status shows proof of citizenship and votes on the DRE so that the registrars can update the person's record in ENET after the election to reflect they are a citizen and in Active status.

The Judge has also ordered that the list of acceptable documentation to prove citizenship be posted at polling places. The list is available as a separate OEB. Below is guidance consistent with the injunction.

For the November 6, 2018 General Election, at a polling location, the individual whose registration did not match DDS records for citizenship status may provide proof of identity and acceptable proof of citizenship, to a poll manager or a deputy registrar, and after verification, cast a regular ballot. A single document that meets the standard for both proof of citizenship and photo ID is sufficient to satisfy both requirements. The following are forms of proof of citizenship:

- (1) Birth certificate, issued by a U.S. State (if the person was born in the U.S.), or by the U.S. Department of State (if the person was born overseas and the parents registered the child's birth and U.S. citizenship at birth with the U.S. Embassy or Consulate).
- (2) U.S. Passport, issued by the U.S. Department of State.
- (3) Certificate of Citizenship, issued to a person born outside the U.S. who was still a U.S. citizen at birth, or to a person who later automatically became a U.S. citizen.

- (4) Naturalization Certificate, issued to a person who became a U.S. citizen after birth through the naturalization process.
- (5) A Report of Birth Abroad of a U.S. Citizen.
- (6) A Certification of birth issued by the Department of State.
- (7) A U.S. Citizen ID card.
- (8) An American Indian Card issued by the Department of Homeland Security with the classification code "KIC" (Issued by DHS to identify U.S. citizen members of the Texas Band of Kickapoos living near the U.S./Mexican border).
- (9) Final adoption decree showing the child's name and U.S. birthplace.
- (10) Evidence of civil service employment by the U.S. government before June 1976.
- (11) An official U.S. military record of service showing a U.S. place of birth.
- (12) A Northern Mariana Identification Card (Issued by the INS to a collectively naturalized citizen of the U.S. who was born in the Northern Mariana Islands before November 4, 1986).
- (13) Extract of U.S. hospital record of birth established at the time of the person's birth indicating a U.S. place of birth.
- (14) Life or health or other insurance record which indicates a U.S. place of birth and which is dated at least 5 years before the initial application date.
- (15) Federal or State census record which indicates U.S. citizenship or a U.S. place of birth (Generally for persons born 1900 through 1950).
- (16) Institutional admission papers from a nursing home, skilled nursing care facility or other institution which indicates a U.S. place of birth.
- (17) Medical (clinical, doctor, or hospital) record which indicates a U.S. place of birth and which is dated at least 5 years before the application date.
- (18) A driver's license or identification card issued by an agency of a U.S. state if that agency indicates on the driver's license or identification card that the applicant has provided satisfactory evidence of United States citizenship to the agency.
 - A Georgia driver's license or ID card is proof of citizenship unless it says LIMITED-TERM.
- (19) Other document that was created at least 5 years before the application. Document must be one of the following and show a U.S. place of birth: Seneca Indian tribal census record; Bureau of Indian Affairs tribal census records of the Navaho Indians; U.S. State Vital Statistics official notification of birth registration; an amended or delayed U.S. public birth record that is amended more than 5 years after the person's birth; or statement signed by the physician or midwife who was in attendance at the time of birth.

(20) If other forms of documentation cannot be obtained, documentation may be provided by a written affidavit, signed under penalty of perjury, from two citizens, one of whom cannot be related to the person in question, who have specific knowledge of event(s) establishing the person in question's citizenship status. The person in question or another knowledgeable individual must also submit an affidavit stating why the documents are not available. Affidavits are only expected to be used in rare circumstances.

If an applicant who is in pending status due to citizenship verification does not present one of the acceptable forms of proof of citizenship when a ballot is requested during early voting or on Election Day, the applicant shall be offered the opportunity to (a) cast a provisional ballot or (b) he or she may return to the polling location (before the polls close) with sufficient proof of citizenship. The applicant shall be instructed that he or she will be required to present proof of citizenship in person, via fax, email or text to the county registrar before the close of the provisional ballot period on the Friday following the election in order for the provisional ballot to count as a vote.

INSTRUCTIONS FOR PROCESSING PENDING CITIZENSHIP VOTERS ON THE EXPRESSPOLL UNITS

PENDING VOTERS IN “X” STATUS

Voters that are in pending status due to citizenship verification will be marked in the ExpressPoll units with a status of X and highlighted in purple. When the poll worker selects the voter, he or she will see the following message, also highlighted in purple:

- “Voter has been flagged in the Voter Registration System as a possible Noncitizen. Issue the Voter a Challenged Ballot. Contact the County Registrar for individual’s current status.”

When a poll worker encounters a voter highlighted in the X status and highlighted in purple, the poll worker should communicate to the voter that their record is currently in pending status due to a failure to verify citizenship with the Department of Driver Services. They should then ask the voter if he or she has one of the acceptable forms of documentation of proof of citizenship. There are two possible outcomes:

1. If the voter has proof of citizenship with them, the Poll Manager should review the proof of citizenship and determine if it is sufficient. If it is, the Poll Manager can override the X status for the voter using their supervisor password and issue a voter access card. The Poll Manager should also document the voter’s information and that proof of citizenship was provided to ensure that the registrars can update the voter’s registration record to reflect he or she is a citizen and place them in Active status after the election.
2. If the voter does not have proof of citizenship, the voter should be directed to the provisional ballot station to cast a provisional ballot. The provisional ballot envelope is to be marked “X”. The applicant shall be instructed that he or she will be required to present proof of citizenship in person, via fax, email or text to the county registrar before the close of the provisional ballot period on the Friday following the election in order for the provisional ballot to count as a vote.

OFFICIAL ELECTION BULLETIN

June 26, 2019

TO: County Election Officials and County Registrars

FROM: Chris Harvey, Elections Division Director

RE: Verification Process Update in ElectionNet

O.C.G.A. § 21-2-220.1, the code section outlining the verification process for voter registration applications, was amended by House Bill 316 in the 2019 legislative session of the General Assembly. Because of this legislation, voter records will no longer be placed in pending status when their information fails to match with the Department of Driver Services (DDS) or the Social Security Administration (SSA) for Last Name, First Name, Date of Birth, Georgia Driver's License or Identification Number, or Social Security Number. However, these voter records will be flagged Missing Identification Required (MIDR) status if they have not already provided HAVA ID. The voter registration system will be updated during the maintenance hours on Wednesday evening, 6/26/19, to reflect this change.

The citizenship verification and identification requirements remain unchanged. The system will continue to generate pending letters for records that fail citizenship verification. The system will continue to produce the ID required letters for applicants that do not provide a copy of an acceptable ID when registering to vote for the first time. Registrars should continue to mail these letters.

As a reminder:

- If an applicant provides proof of citizenship with their application, **be sure to enter the type of document provided in the "Proof of Citizenship" dropdown menu in the Voter Identification section while completing the data entry for new voters.** Making this selection will override the results of the citizenship verification process and prevent new citizens that have not updated their information with DDS from failing verification.
- If an applicant does not provide identification with their application but passes the verification process, this satisfies the identification requirements of 21-2-220(c), and the voter will not be placed in Missing Identification Required (MIDR) status.
- Before printing a Pending Citizenship or MIDR Letter, be sure to double check data entry for typos and the pocket of the physical applications to be sure that proof of citizenship or copies of HAVA ID were not provided with the application.

Melanie Frechette and John Hallman will give a detailed explanation of the system changes to the verification process as part of the June Monthly Election Forum Webinar on Thursday, 6/27/19, at 10:00am. I encourage you to join this webinar. If you cannot join, this webinar will be recorded and posted to Firefly so that it can be viewed at your convenience. The presentation and the recorded webinar will be available under the 3T section of Firefly.

During the 2017 legislative session, the Georgia General Assembly passed House Bill 268, which made changes to the verification process.

In the past, incomplete applications (pending - missing information) and applications that failed to match the information on file at the Department of Driver Services (DDS) or the Social Security Administration (SSA) (pending – DDS/SSA verification) were both placed on the 40 day clock.

HB 268 has extended the time period for applicants that come back as a non match from DDS or SSA to 26 months before the application is rejected.

Overview

Verification
Process

Updating the
Letter

Office of
Secretary
of State
Brian P. Kemp

In order to update ElectionNet to comply with this new requirement, a 26 month clock has been created. This 26 month clock will only apply to applications that are designated as a non match in the DDS or SSA verification process.

The 40 day clock will remain for applications that are received with missing information.

Through these two clocks, ElectionNet will update the status of pending applications. If either clock expires before the record is updated, the application will automatically be moved into rejected status and a rejection letter will be generated.

Additional changes have been made to the data entry screens of ElectionNet so that registrars can enter applications submitted with incomplete information in the system.

The goal of these changes is to allow for the registrars to enter more applications into eNet, instead of managing them offline.

Entering the applications into the system will increase visibility of the records with outstanding issues, provide system generated letter to send to the voters, and improve your ability to track their status.

Missing Information Letter – Checkbox Letter

IMPORTANT VOTER REGISTRATION INFORMATION
FROM EARLY COUNTY

January 16, 2018
REGISTRATION #: 11443615
BRANDON STEPHENSON
1 OAK ST
BLAKELY GA 39823

Dear Applicant:

The EARLY County Board of Registrars received your voter registration application. However, some required information is missing from your application. The information needed to complete your application is indicated below by a check appearing next to the paragraph(s) describing the missing information. You must provide this information within thirty (30) days for your voter registration application to be processed. Failure to provide all of the required information will result in the rejection of your application.

☐ Missing First Name	Georgia law requires a voter registration applicant's name before a county can process a voter registration application. Our records indicate that you failed to provide your first name on your voter registration application.
☐ Missing Last Name	Georgia law requires a voter registration applicant's name before a county can process a voter registration application. Our records indicate that you failed to provide your last name on your voter registration application.
☐ Missing Residential Address	Georgia law requires individuals to be residents of the county in which they are registered to vote. Our records indicate that you failed to provide a valid address reflecting residency on your voter registration application.
☐ Missing Date of Birth	The Constitution of the State of Georgia requires individuals to be at least 18 years of age on or before election day in order to vote. Our records indicate that you failed to provide your date of birth on your voter registration application.
☐ Missing Signature/Oath	Federal law requires that voter registration applicants swear or affirm they are United States Citizens and are at least 18 years of age on or before election day. Georgia law requires voter registration applicants swear or affirm that they reside at the listed residential address, they are eligible to vote, are not currently serving a felony sentence, and have not been declared judicially incompetent. Our records indicate that you failed to sign this oath on your voter registration application.

Page 1 of 3

☒ Missing Driver's License or Social Security Number

Federal law requires voter registration applicants provide certain information. Specifically, an applicant must provide his or her driver's license number or the last four digits of their Social Security number. If an applicant does not provide a driver's license number or the last four digits of their Social Security number, he or she must indicate that he or she has not been issued a current and valid driver's license or a Social Security card when they register to vote. Without this information, an application may not be processed by a State, 52 U.S.C.S. § 21083. Our records indicate that you did not provide this information with your voter registration application.

The missing information must be provided for your registration to be processed. You will not be registered to vote unless you provide this information within thirty (30) days. You may provide this documentation to our office during normal business hours. You may also provide this information by completing the questionnaire on the next page and submitting it to our office by personal delivery, mail, email as an attachment, or facsimile to the address, fax, or email address provided below.

If you have received this notice within thirty (30) days of an election or primary, you may still be eligible to vote by providing the proper documents when you request a ballot. If you have any questions, please contact our office at:

If an application is submitted with all of the required information, or once an application that was missing information has been updated to include all of the required fields, the record will be placed in Pending Verification status. Records in this status are queued for an overnight batch process that sends the applicants information to either the Department of Driver Services or the Social Security Administration.

DDS will verify as many records as possible. The only records that are sent to SSA are records that cannot be verified by DDS.

- Applications with DL numbers or Georgia ID numbers are processed by DDS.
- Applications that only contain an SSN (full or last 4) are sent to the SSA.

Best Practice

Before printing this letter and starting the 26 month clock for the application, go back to the original application submitted by the voter to check for data entry errors.

- Check for typos
- Ask for a second opinion on difficult handwriting on non match items
- If any acceptable forms of ID are included with the application, refer to them for assistance in confirming the information

If you discover that you made an error, make the correction using the User Correction functionality. This will send the record back through verification again with the updated information.

Within these buckets, each voter record will show the breakdown of the response codes received from DDS or SSA.

The Department of Driver Services provides a Yes or No answer to each field submitted matched.

SSA	Last Name Match	First Name Match	DOB Match	Last 4 SSN Match	DL # Match	Citizen
Y	Y	Y	N	N	Y	Y
Y	Y	Y	N	N	Y	Y
Y	N	Y	Y	N	Y	Y
Y	N	Y	Y	Y	Y	N
Y	Y	Y	N	Y	Y	Y
Y	Y	N	N	N	Y	Y

Verification Process

The Social Security Administration matching process does not give individual field responses, but instead gives a single response for each record submitted. The possible responses are:

Response Code	Response Description
Z	No Match Found
Y	Single Match – Deceased
X	Single Match – Alive
W	Multiple Matches – At least one alive and at least one deceased
V	Multiple Matches – All Alive
T	Multiple Matches – All Deceased
S	Invalid Input Data
9	System Error. Unable to process at this time

These changes will only affect paper voter registration applications that are submitted to your office.

- Applications from DDS and OLVR will not be sent if they are incomplete.
- DDS Applications are verified before populating on the county dashboards.
- OLVR applications are verified in real time when the applicants enter their information into the website.

It is important to set a contact person for each letter before you or any of your employees begin process voter registration applications. If you have not predetermined who will be listed on each letter, the system will choose for you.

- Missing information letters will generate instantly after an application is entered with one or more fields indicated as missing.
- Verification letters are generate overnight as part of the verification batch process.
