Austin R. Evers
American Oversight
1030 15th Street NW, Suite B255
Washington, DC 20005

Dear Mr. Evers:

This interim response is from other agencies and entities equity responses which relates to your Freedom of Information Act (5 U.S.C. §552) request of 3/5/2020, which you sent to the Centers for Medicare & Medicaid Services. Within your correspondence you requested all email communications (including emails, complete email chains, email attachments, calendar invitations, and calendar invitation attachments) between (a) the Centers for Medicare and Medicaid Services (CMS) officials listed in Column A of the request, and (b) the Executive Office of the President (EOP) officials listed in Column B of the request.

After careful review of the documents submitted to me, a total of five hundred (500) pages, I have determined to release them to you, as enclosed. Ninety-five (95) pages are released to you in their entirety. However, I am denying you access to portions of three hundred sixty-five pages (365) pursuant to Exemptions 5 and 6 of the FOIA (5 U.S.C. §552(b)(5) (including the presidential communications privilege and deliberative process privilege) and (b)(6). Ten pages (10) are duplicates. Thirty (30) pages are blank.

Exemption 5 of the FOIA permits the withholding of “inter-agency memorandums or letters which are pre-decisional and contain staff advise, opinion and recommendation which are part of the agency’s deliberative decision-making process.” The intent of this exemption is to preserve free and candid dialogue leading to decision making; to protect against public confusion that might result from disclosure of reasons and rationales that were not in fact ultimately the grounds for an agency’s action. The pages and portions of pages that you are denied access to contain pre-decisional information, in that they are preliminary findings and notes generated through a deliberative process.

Exemption 6 of the FOIA permits a Federal agency to withhold information contained in personnel and medical files and similar files the disclosure of which would “constitute a clearly

unwarranted invasion of personal privacy.” I have weighed the public interest in disclosure (which the Supreme Court has held to be limited in this context to the public interest that would be served by shedding light in the agency’s performance of its statutory duties) against the harm to the privacy of the individuals identified in these records and have concluded that the privacy interest of the subject individuals outweighs the public interest in disclosure in this particular matter.

Additional non-exempt documents or portions of responsive documents will be forwarded to you upon completion of review.

Sincerely yours,

Hugh Gilmore
Hugh Gilmore
Director
Freedom of Information Group

Subject: CDC to brief Dr. Birx - Thursday (4/23) 9:30am // Community Mitigation
Attachments: Adjusting Mitigation Overview_4-21-2020_clean.docx; Mitigation Adjustment Guidance_CDC_04.20.20_clean_3.docx; Camps Decision Tree.pdf; Childcare Decision Tree.pdf; Faith Based Decision Tree.pdf; Mass Transit Decision Tree.pdf; Restaurants and Bars Decision Tree.pdf; Schools Decision Tree (1).pdf; Workplace Decision Tree.pdf

Hello all,

CDC is prepared to convene a follow up meeting to brief Dr. Birx on the community mitigation efforts **tomorrow, Thursday (4/23) at 9:30am**

Dr. Birx would like to ensure all principals who wish to attend/dial-in are included in this briefing.

The briefing will take place in EEOB 176 with an **option for a dial-in** b 6

We will have a large television monitor to display documents for those attending in the room.

VTC is not available for this meeting.

CDC briefing materials for discussion are attached.

Please confirm whether your principal would like to attend in person or by phone (to ensure appropriate hard copies are provided).

We will observe social distancing practices for those who attend in the room.

Sincerely,

TAM

Tyler Ann McGuffee

Subject: Reopening guidance documents

Dr Birx:

Attached are final documents on community mitigation efforts for reopening America. These include two Word documents, an overview and guidance for specific groups for adjusting through the three phases, and decision tree pdf documents for each of the specific groups. We look forward to speaking to you tomorrow on these and other community mitigation issues.

Thanks

Dan.

Subject: From Dr. Birx -- Follow up to 6:30pm (b) (5) Health Strategy Meeting
Attachments: Summary of April 7 meetingFinal.pdf

Please see the attached document and note below from Dr. Birx as a follow up to last night's 6:30pm (b) (5) Health Strategy Meeting.

Dear All,

Incredible thank you for last night. Your brilliance and focus despite exhaustion was inspiring and allowed us to make great progress. Sincere thanks to HHS and Paul Mango for putting together last night's presentation and this document.

Please find attached the summary and work streams and I look forward to our critical pathway progress together.

Deb

Sincerely,

TAM

Subject: RE: RE: policy ideas
Attachments: DRAFT_Legislative Proposals for Consideration_4.0.docx

Thanks Seema, and hi Chris and Nick. Please see attached for a preliminary draft of legislative priorities for your consideration. As Seema noted we are updating this with additional information and will share that with you soon. Let me know if you have any questions or guidance.

Thanks,

Alec

Subject: policy ideas

Seema

Would you mind copying me on the policy ideas that you had and mentioned on the call with Jared a couple of days ago ?

Thanks

Chris

Subject: Re: Scheduling for Tuesday

All -

Apologies for another email on this meeting. The meeting will begin promptly at 9:15AM. Please note, the meeting room has been updated to EEOB 374 (SMS Large). This room is a SCIF and all electronic devices must be stored in the lockers outside the room. Please use the WAVES link I sent earlier to submit for building entry. I have updated the time on the back end of the system.

The dial in information remains the same. Please remember to mute your line at the start of the meeting.

Thanks,
Rebecca

Subject: RE: Scheduling for Tuesday

Hi,

Could you please send the names of attendees (both in person and by phone)? Will there be an AV requirement? At what level classification will this meeting be held?

I will generate the WAVES link and conference line and will send that out once I have the information.

Thanks,

Rebecca

Subject: RE: Scheduling for Tuesday

Following up with Dr. Birx availability for Tuesday, (4/28) 10:00am-10:45am

I am going to let this group handle the meeting room, calendar invite to all attendees and IT requirements.

Last time I arranged the meeting, the President's IT support team's time was wasted due to a lack of communication.

You will need to ensure all principals that attended the last meeting are available to attend/invited to this meeting.

Rob Garverick, our Minister Counselor for Economic Affairs, will follow up on this with the CEO. We are already working through with the GOI the back office issues related to the financial services industry. A lot of layers. We will push hard to argue that this billing process is an essential service. Please note that they are very serious and stringent about the lockdown.

Subject: Options to Address the Uninsured

Attached is a paper on options to address the uninsured with COVID. b 5
b 5 Would like to get the Task Force to clear this.
We are getting hit with a lot of requests from States and this fills a niche that the stimulus will not. Just gave the paper to OMB, so they may make some revisions. OVP comms told us that we could announce on Sunday, so would appreciate discussion tomorrow if possible. Thanks for considering.

Subject: TF requests from NYC

All,

I had an hour long conversation with Dr. Shah, the Chief Surgeon at NYU this morning. Lots I could share, but here are some potential action items/ requests.

- 1) He requested the task force convene a meeting with insurers ASAP and develop plans for them to approve non covid care/ specialty treatment/ transfers. He feels a very high number of people are dying in NYC from a fear or an inability to seek non- covid care than are dying from covid. I submitted proposed talking points on staying healthy while social distancing previously (including knowing when and how to seek care for non covid issues), but one of the impediments to care from Dr. Shah's perspective is that many of the insurance workers who deal with prior authorizations and approvals are not working at the moment. So a patient may be sitting in a hospital for days waiting for approval for transfer to a long term care facility, or may not be able to get a test or advanced treatment, because it requires prior authorization and the division who approves these things are considered non essential, or just aren't working due to stay at home orders. I looped in Seema because there is an obvious CMS component to this, though the problem extends to commercial insurers.
- 2) It was recommended that we try to organize an external group that can curate and vet best practices in clinical care. How to test, how to treat different populations, how and when to use/ reuse PPE, etc. They've come up with some unique solutions to conserve PPE at NYU, including dedicating one person and one area for COVID testing, so people can just stay in full PPE all day vs on a case by case basis (they call it test in a box). They also are using non credentialed/ retired docs round virtually with the team, and then call family members (who aren't allowed in the hospital) twice a day, so they can hear directly from a doctor. b5

Subject: Confirmed - CDC to brief Dr. Birx re: Community Mitigation Tools

When: Thursday, April 23, 2020 9:30 AM-10:00 AM (UTC-05:00) Eastern Time (US & Canada).

Where: EEOB 176 or Dial-In:

b 6

b 6

Principals

- Dr. Birx
- Dr. Redfield
- Dr. Hahn
- Surgeon General Adams
- Administrator Verma
- Dr. Fauci (*by phone*)
- ADM Giroir (*by phone*)
- Joseph Grogan

CDC Staff

Speaking mode:

- Dr. Daniel Jernigan, MD, MPH, CDC Liaison to NRCC dbj0@cdc.gov
- Dr. Matthew Biggerstaff, ScD, MPH, Co-technical Lead of NRCC Data and Analytics Taskforce, zmo2@cdc.gov
- Henry Walke, MD, MPH, Deputy Incident Manager, hfw3@cdc.gov
- Rebecca Payne, MPH, NRCC Community Mitigation Taskforce Lead, rco0@cdc.gov
- Anne Schuchat, MD, CDC Principal Deputy Director and COVID-19 Incident Manager, acs1@cdc.gov
- Carolyn Greene, MD, CDC representative on NRCC Community Mitigation Taskforce cqg4@cdc.gov

Listen only mode:

- Jennifer McQuiston, DVM, MS, Principal Deputy Incident Manager, fzh7@cdc.gov
- Dana Meaney-Delman, MD, Principal Deputy Incident Manager, vmo0@cdc.gov

Additional invited attendees

- Stephen Redd
- Irum Zaidi
- Daniel Gastfriend
- Charles Vitek

Dr Birx:

Attached are final documents on community mitigation efforts for reopening America. These include two Word documents, an overview and guidance for specific groups for adjusting through the three phases, and decision tree pdf documents for each of the specific groups. We look forward to speaking to you tomorrow on these and other community mitigation issues.

Thanks

Dan.

Subject: Options to Address the Uninsured
Attachments: Options to Support Uninsured Americans amid COVID 3_26 v5.docx

Attached is a paper on options to address the uninsured with COVID. b 5
b 5 Would like to get the Task Force to clear this.
We are getting hit with a lot of requests from States and this fills a niche that the stimulus has not. Just gave the paper to OMB, so they may make some revisions, but hope to get this

Subject: Concerns About Testing Priority for LTC Facilities

Administrator Verma – Please find attached a letter from AHCA/NCAL President and CEO Mark Parkinson to Vice President Pence regarding very concerning information we have learned that private labs are telling long term care operators that they are not a top priority for COVID-19 testing. This is a very urgent matter as long term care operators are not able to best prevent and contain the virus without being able to properly identify it. Mark Parkinson and Dr. David Gifford, SVP of Quality and Regulatory Affairs, are available for any additional information or questions. Thank you, Scott

Subject: COVID R&D from DHS
Attachments: DHS R&D_SARS COV2.pdf

Dr. Brix (and team),

Wanted to make you aware of some work the DHS Science & Tech (S&T) is doing in support of COVID-19. Given the unique capabilities of S&T's National Biodefense Analysis and Countermeasures Center (NBACC) in Maryland, we have significant experience and well-established capabilities to determine how well the virus survives on surfaces and while suspended in air. In addition, NBACC has conducted decontamination research that will inform our operational response. Results from S&T NBACC's efforts are preliminary but wanted to make sure you were aware due to their operational relevance.

S&T's Acting Undersecretary is Bill Bryan, who can be reached at 202.254.8392; william.bryan@hq.dhs.gov

Key findings from Bill's team includes:

Major health-record company drops opposition to federal data-sharing rule

By [CASEY ROSS](#) [@caseymross](#)
APRIL 23, 2020

After months of fierce opposition, the electronic health record company Epic said Thursday it is dropping its opposition to a federal rule designed to improve patients' access to their medical records, removing a potential barrier to its implementation.

In a statement provided to STAT, the company said changes made by federal regulators in the final draft of the rule assuage its concern that the freer exchange of information, especially with private app developers, would undermine patients' privacy.

"They created final rules with many material improvements, including greater flexibility for healthcare organizations to educate patients on how apps will use their data," the statement said. The company also cited changes in the rule that place greater access on

the use of common data formats to share patient information between health systems.

The company's statement came just a day after the Trump administration posted its final rule in the [federal register](#) and said it intends to put it into effect over the next couple of years. The rule is designed to accomplish two primary aims: make it easier for patients to get immediate digital access to their records on smartphones, and facilitate the exchange of information by health providers and insurers to improve care. On Tuesday, the administration said it will [relax enforcement](#) of certain provisions for three to six months due to challenges created by the coronavirus outbreak.

Epic had been among the most vocal and aggressive opponents of the new rule. Although it never filed a formal legal challenge, its posture had become increasingly strident in the weeks before the final rule was announced in early March, raising the specter of a lawsuit that could have pushed back its implementation.

It is still possible that such a legal challenge could emerge from another party. The American Hospital Association has continued to raise objections on privacy grounds. A spokesman for the organization did not directly respond to a question about possible legal action, but said regulators are still not being given enough leeway amid the pandemic, especially as it relates to information-blocking provisions that would penalize hospitals for not sharing data.

The Centers for Medicare and Medicaid Services gave greater flexibility for insurers and hospitals to comply with those provisions, but other government agencies have not, the hospital group said.

“ONC did not take the same proactive posture in the final information blocking rule,” the AHA’s statement said, referring to the Office of the National Coordinator for Health Information Technology, which also enforces provisions relating to providers. “Hospitals and health systems need to remain focused on caring for their patients and communities, rather than compliance with complex regulation, as they battle the COVID-19 pandemic.”

Epic was a major force in marshaling opposition among hospitals, as it had encouraged them to sign letters raising concerns about privacy, overly burdensome regulations, and vaguely written exemptions, among other perceived problems.

Some onlookers had argued that Epic’s privacy concerns were meant to divert attention from a deeper motive to protect its bottom line, because its control over information kept in patient health records had limited competition from upstart companies. An expected byproduct of the rule is greater sharing of health information with app developers and large technology companies that may seek to build products in business lines Epic is also pursuing, such as the exploding market for machine learning analytics.

Executives with Epic said Thursday, however, that the company has long supported the core goals of expanding patients' access to their medical records and ensuring that clinical data could be shared between providers. Jackie Gerhart, a physician who works on Epic's clinical informatics team, said patients can use its [MyChart](#) app to share their records; she also noted that the company in 2008 shared the first patient record between two health care organizations by making it easier for different data applications to communicate with one another, a concept known as interoperability.

"We have a rich history of interoperability and wanting patients to have autonomy over their data," Gerhart said. "We support the administration's goal to put Americans in control of their health care information."

Health data specialists said facilitating the exchange of health data in medical records is especially important now, as doctors and drug companies scramble to develop treatments for Covid-19 and understand how the disease is affecting different kinds of patients.

"Covid-19 has thrown into extraordinary relief the need for an interoperable health IT backbone and for data sharing," said Kenneth Mandl, a Harvard professor who directs the Computational Health Informatics Program at Boston Children's Hospital. "I applaud Epic's decision and look forward to engaging with them in management of the global pandemic and in building a learning health care system that truly serves the patient."

Chris,

I'm copying our Ambassador to India, Ken Juster, to work this with the State Dept.

(b) (5)

Amb Ken Juster, meet Brian Harrison, HHS chief of staff. Please work together on this. If Envision and HCA aren't able to process medical bills, so must be many other US hospital systems. This one looks quite urgent. (b) (5)

NSC stands ready to help however you need.

Best,

Matt

Matt

See below

Is there someone at NSC or State Department that he could talk to today ?

I have no idea whether/how we could help , but seems like it should be on someone's radar ?

Thanks
Chris

On Mar 25, 2020, at 8:23 PM, Henry R. Kravis b 6 @icloud.com>
wrote:

Dear Chris

I need some help from you with an urgent issue we have with one of our US companies, Envision Health.

Envision does all of our billing for the health work we do in the US in INDIA, and now that INDIA has shut down, the company cannot get any of its medical bills processed for our procedures at the various hospitals where we work. If we can't resolve this quickly, the company will run out of money due to the substantial lost revenue from lack of billing.

Not surprising, a number of other hospital chains in the US have the same issue, such as HCA.

I would like for you to please speak with the CEO at Envision, Jim Rechtin. I am copying him on this email, so that he can connect with you to explain in more detail the problem.

His contact information is:

Jim Rechtin
CEO

Envision Health

b 6 @bluebird-strategies.com> wrote:

Hi Joe.

I know you guys are drinking from a firehose so apologies for troubling you. **But I have an urgent COVID testing issue that my client Thermo Fisher Scientific needs immediate help with.**

Yesterday, CMS put out guidance (see article below) increasing their reimbursement rate for high throughput COVID tests, and they gave examples in the guidance that did not include the Thermo Fisher platform. (Highlighted in yellow.) CMS not including the Thermo Fisher platform has created confusion among their customers and could hurt their ability to ramp up testing. We guess this is an oversight since they meet the CMS requirements.

We are hoping you can bring this to the attention of the CMS leadership so that they can publicly confirm that the Thermo Fisher platform is also eligible for the higher reimbursement rate for high throughput COVID tests.

Thanks and let me know if you have any questions.

CMS Increases Payment Rates

for High-Throughput SARS-CoV-2 Tests

Apr 15, 2020

NEW YORK – The Centers for Medicare and Medicaid Services announced Wednesday it is increasing payments for high-throughput SARS-CoV-2 lab tests.

CMS will pay \$100 for SARS-CoV-2 diagnostic tests that use high-throughput technologies allowing for increased capacity and faster results. Labs can bill for these tests using code U0003 for PCR-based coronavirus tests and code U0004 for tests using any technique with high-throughput technology.

High-throughput tests can process at least 200 specimens per day using "highly sophisticated equipment that requires specially trained technicians and more time-intensive processes to assure quality," the agency said. Examples of high-throughput technology listed by CMS include Roche's Cobas 6800 and 8800 systems, Abbott's m2000 system, Hologic's Panther Fusion system, Cepheid's GeneXpert Infinity system, and NeuMoDx's 288 Molecular system.

The original rate [set in March](#) was \$35.91 or \$35.92 for labs using the test developed by the US Centers for Disease Control and Prevention, and between \$51.31 and \$51.33 for non-CDC tests. For tests that don't use high-throughput technology, Medicare Administrative Contractors remain in charge of the payment rate and are currently paying about \$51.

The new rate took effect on April 14.

"We know that the lack of predictable reimbursement for tests performed has been a barrier to entry for some laboratories, and today's decision will help encourage all laboratories with the appropriate expertise to come to the table and perform COVID-19 testing." American Clinical Laboratory Association President Julie Khani said in a statement about the rate change. "We also hope that other payers will follow CMS's strong example of leadership today."

Meghan:

We accepted all the edits and addressed the comments in the attached clean version. If WaPo doesn't take it we will try CNN Online (on the recommendation of the VP's office). Please let us know when we are good to send this over to the Post – they are hoping to have it today. Thanks!

Damian

Hey Meghan – I hope you are doing well. I’m assuming you are the best contact on op-eds going forward. If not, let me know who else to include.

Please see attached an op-ed from CMS Administrator Verma for which we would like to request an expedited review. The hope is to get it into **publication this Thursday AM**. Aiming for WaPo. This was drafted in consultation with the VP’s office, and it is my understanding they’ve seen a draft already.

Apologies for short notice. Please let us know if you’ve any questions, and thank you for your help.

- Ryan

Thanks, Brady – what is the Thursday event?

Personally would have liked to wait to announce until the first shipments were pushed this weekend/ early next week, but NBC News has extensive info and is planning to run a story. We can either preview it and make sure the facts get out there, or we can let NBC run with what they have, but we will likely be behind the curve with whatever narrative they choose to promote.

Leave this up to WH Comms as to how they'd like to move forward. Admiral P is ready and available to chat with the AP about this.

Colleagues,

Please see NBC investigative journalist query below. I assume the language is from FEMA sent to state directors. (b) (5)

 Btw, Laura has written several critical articles about federal response to nursing homes. Rachel Maddow uses Laura's stories and info during her daily nursing home updates.

Best,

Johnathan

Subject: From NBC News - Shipments to nursing homes

Dear CMS Press –

Can we get a comment from the agency about this FEMA effort to get PPE to nursing homes? Is CMS involved? If so, why is AHCA providing the names of the nursing homes and not CMS?

Is CMS coordinating to give the nursing homes a heads up that the PPE is coming?

Is there a similar effort underway by CMS to help nursing homes with testing? Any further details would be helpful.

Thank you –

Laura Strickler, NBC News

State Directors,

Under the direction of the White House Coronavirus Task Force, FEMA has been tasked to coordinate shipments of a seven day supply of personal protective equipment (PPE) to more than 15,000 nursing homes across the Nation. This mission will supplement existing efforts to ensure nursing homes across the

country have PPE during the COVID-19 pandemic. Please see attached spreadsheet and note that in the bottom left there is a tab for each state. This has also been sent to your State Health.

- Shipments are expected to begin **the first week of May and be completed in mid-June.**
- The PPE is being shipped **only to Medicaid and Medicare-certified nursing homes based on input from the American Health Care Association.**
- Each facility will receive an allotment of four items (gloves, gowns, eye protection and surgical masks) based on the staffing size of the facility, which ranges from less than 10 employees to nearly 500.
- The gowns included in these shipments are level 1 medical gowns, which are used in basic care settings for minimal risk situations.
- Due to the large number of nursing homes, facilities are not likely to receive notification prior to their shipment arriving. However, as possible, FEMA will provide notification to a state prior to shipments arriving at their Medicaid/ Medicare-certified facilities.

On Background: Who is not included:

- Some nursing homes that are state licensed and only accept private pay (estimated to be a very small number of less than 200 nationally).
- Veterans Affairs CLCs because they are federally licensed through the VA (about 113 nationally)
- Assisted living facilities (about 28,000 nationally)
- Intermediate care facilities (about 5,795 which CMS has a list that can be provided if needed)

Frequently Asked Questions

Why are gowns being distributed to nursing homes when there is a shortage?

- *The gowns included in these shipments are level 1 medical gowns, which are used in basic care settings for minimal risk situations. They were sourced by a small distributor contracted for this project.*
- *On a broader scale, the Supply Chain Task Force is working with multiple large textile companies to expand production and flow of*

gowns nationally.

- *So far, FEMA has awarded contracts to three manufacturers that will produce a combined 90 million gowns over the next 90 days. These gowns will last from 30 to 50 washes.*
- *Additional contracts are in the works with other manufacturers to continue increasing expansion of gown production, further stabilizing the private sector supply chain.*
- *The Supply Chain Task Force also continues to accelerate the flow of private sector owned gowns through Project Airbridge. 8.5 million gowns have been delivered from overseas manufacturers to the U.S. and into private sector supply chains through Airbridge.*
- *As of April 23, FEMA, HHS, and the private sector combined have coordinated the delivery of or are currently shipping 14.9 million surgical gowns.*

Why aren't all nursing homes included? Can a nursing home get on the list?

- The PPE is being shipped only to Medicaid and Medicare-certified nursing homes based on input from the American Health Care Association. Healthcare facilities with critical PPE supply needs should contact their local or state public health and/or emergency management agencies to let them know.

Why haven't the supplies arrived at a particular nursing home yet?

The first shipments will focus on facilities within prioritized hotspots and expand to facilities across all 50 states and Puerto Rico. Shipments begin in early May and are expected to be completed in mid-June.

Why are nursing homes receiving these deliveries? Shouldn't the supplies go to hospitals or to locations that the Governor prioritizes?

Due to the critical need for PPE at nursing homes where some of our Nation's most vulnerable residents live, these supplies are meant to supplement existing PPE efforts by the federal government. FEMA and HHS continue working with states, tribes and territories on PPE needs through a variety of ways.

How did FEMA determine what amount of supplies to send to each nursing home?

Each facility will receive an allotment of all four items. Allotment amounts are based on the staffing size of each facility, which ranges from less than 10 employees to nearly 500. The supplies are only a supplement to serve as a bridge between other PPE shipments.

Hey all!

So I understand AMA and ASV have both been engaged on this issue and there is b5 Wanted
to get the crew on one chain in the hopes that would help with coordination.

For those not aware- Two large health insurers have committed to making not only Covid testing free of charge but also any treatment related. This is great news for those covered under these plans and hopefully others will follow suit.

Happy to do whatever is helpful, including getting out of the way :)

I'll let folks take from here, and if I missed anyone please add. Wanted to make sure I got anyone and everyone possibly involved or engaged.

Subject: Fwd: Fwd: Indiana Medicaid allows telemedicine and telephone options for most health care and mental health interactions

FOR IMMEDIATE RELEASE

March 19, 2020

Indiana Medicaid allows telemedicine and telephone options for most health care and mental health interactions

Policy intended to streamline access to health services, protect frontline health care workers and help ensure appropriate utilization of emergency services

INDIANAPOLIS – The Indiana Family and Social Services Administration announced today that, to help contain the spread of the coronavirus (COVID-19), Indiana Medicaid will allow interactions between patients and doctors and other health care providers, as well as other Medicaid service deliveries, to occur

either over the phone or through the use of telemedicine technologies whenever possible. Effective immediately, most health services – including covered mental health services and Medicaid home- and community-based services – will be reimbursed as if they took place in person. This policy will remain in place – and telemedicine/telephone interactions will be encouraged – for as long as Indiana remains under a declaration of a public health emergency by Governor Eric Holcomb.

“As we continue our work to protect the health of Hoosiers, in-person human interactions must be held to an absolute minimum and, in this extraordinary time, that must include contact between doctors, other health care professionals and patients,” said Jennifer Sullivan, M.D., M.P.H., FSSA Secretary. “We also hope this will help Hoosiers get the care they need faster and more efficiently, while helping reserve our emergency rooms and hospital beds for sick patients who truly need a higher level of care during this public health emergency.”

Telephone and telemedicine visits will be covered for both in- and out-of-state providers and for all covered services, with some exceptions for certain services that require physical interaction. These exceptions include surgical procedures, radiology, laboratory services, anesthesia services, audiological services and chiropractor services. A complete list of exceptions and additional guidance for Indiana Health Coverage Programs-enrolled providers will be published shortly on [this page](#).

Reimbursement will be allowed for covered services for both Traditional (fee-for-service) Medicaid as well as all managed care programs. All services rendered must be within the provider’s applicable licensure and scope of practice. Neither text nor email messages will be reimbursable.

Indiana Medicaid recommends patients call their health care providers to inquire about telephone/telehealth visit options, especially if the patient has an appointment scheduled.

Subject: RE: RE: Kidney Care Workgroup Meeting
Nick, Kristen and others,

b5

I am happy to help keep these meetings intact and help support the transitions taking place at HHS. However, this meeting time directly conflicts with my biweekly meeting with KHI/FDA/RTI/MIT meeting on the patient preference survey development for ESRD. So I will not be able to attend. Perhaps if it works out for others, could we consider shifting this meeting to the next weekly Tuesdays (Feb. 25, March 3, 17, 31)?

I would very much like to continue participating and am willing to help in ny way I can.

Thanks,

Murray

-
- **FEMA:** Dial **b 6** **from your VTC unit (or Movi/Jabber)** at least 20 minutes before the conference starts to conduct Audio/Video checks with the Video Operations Center.
 - **Non-FEMA:** Technical staff must contact the FEMA Video Operations Center (**540-542-2171**) to determine a connection

method, and to conduct an Audio/Video test at least one hour prior to the conference.

Audio Only? Dial: b 6 **Muted PIN:** b 6 (Note, a speaking PIN has already been provided to those with an identified speaking role. Please contact the FEMA National Watch (fema-nwc@fema.dhs.gov) for assistance.)

Participants are required to:

- Properly reserve a video teleconferencing room, if needed, through your resource manager in advance and notify local IT of the reservation
- Dial the conference number provided above and perform an A/V check with the VOC
- Keep all microphones muted, unless speaking.

Note: The video bridge will be available 30 minutes prior to the scheduled start time. If you require assistance connecting or have questions, please call the FEMA Video Operations Center on (540-542-2171)

Subject: COVID-19 - (b) (5) Working Group

When: Wednesday, March 11, 2020 10:00 AM-11:30 AM (UTC-05:00) Eastern Time (US & Canada).

Where: West Wing - White House Situation Room

**ATTACHMENT: CRUISE LINES INTERNATIONAL
ASSOCIATION (CLIA) – CRUISE INDUSTRY COVID-19
PUBLIC HEALTH RESPONSE AND PROTOCOLS.**

**IF YOU ARE HAVING DIFFICULTY CONNECTING BY SVTC,
PLEASE CALL ^{b 6} (unclassified) or ^{b 6}
(classified) TO BE CONNECTED BY VOICE OR SECURE
VOICE.**

**PLEASE NOTE TIME CHANGE TO 10:00 AM. (No
need to resubmit WAVES)**

AGENDA INCLUDED BELOW

Dear Colleagues,

NSC requests your participation at **10:00 am** on Wednesday,
March 11 in the **White House Situation Room** to discuss
COVID-19 - (b) (5)

Participation can be in-person or by SVTC. Please attend at
a level sufficient to represent all views within your
Department/Agency.

In-person attendees, please use this WAVES link to register for attendance: <https://events.whitehouse.gov/?rid=WFYK6Y8M9C>.

All information submitted must exactly match the government-issued ID you present when arriving. Cleared guests enter at the Southwest Visitors' Entrance at 17th St. and E St. NW. At the first Secret Service checkpoint, attendees are required to show a government-issued photo ID or passport.

Those joining by SVTC: please make arrangements the day prior to the meeting and, if you have any difficulties with connectivity, please have your technical staff call 202-456-9451 (unclassified) or 534-0880 (classified).

AGENDA

(b) (5)

Look forward to seeing you.
