Team, this is the data request letter to the hospitals that needs to go out today. It has been suggested to do it under the Vice President's signature. CMS is sending it through the regular approval process, but wanted to give this team a heads up on what was going on. Once approved, CMS can send it out to the 4,500 hospital CEOs. We will also set up calls for CDC to answer questions etc. Please let me know when OVP has signed off and I will get it out.

Subject: Frequently Asked COVID-19 Testing Questions

Doug,

Below are the frequently asked testing questions I am getting, HHS is getting, and HHS Regional Directors are getting from governors' offices and other state staff.

While I have a good sense of the answers to most of the 13 questions below, a lot of them require state-specific and complicated responses.

Frequently Asked COVID-19 Testing Questions

- The International Reagent Resource (IRR) often does not have supplies we need, the volume we need, or the transparency turnaround we need. How can this be resolved? Is

there a better mechanism to get large quantities of extraction reagent that is shipped reliably?

- How can my state get more extraction reagent it needs?
- How can I find out what testing platforms are in my state?
- How can my State we get more private pharmacy-based testing in rural areas particular with Rite-AIDS, CVS, Walgreens, etc.?
- My state has high-throughput system platforms but how can I get more personnel to run the machines?
- How can my get more Abbot ID Now test kits?
- How can my state and hospitals get the PPE it needs to test more people?
- How can my state and hospitals get the swabs it needs to test more people?
- I want to test more in hard-to-reach areas (rural, nursing homes, meat packing plants) but don't have the testing supplies, funding, personnel to assist. What are the solutions? I'm maximizing all my testing platforms in my state, but still not testing enough to move to Phase 1 of the President's Guidelines. How can I expand testing?
- Why do commercial labs take too much time to get results back?
- My state and hospitals cannot afford to expand testing. What federal support exists to cover the costs?
- How can I partner with the Federally Qualified Healthcare Centers to conduct testing in rural areas?
- Is a personal use medical device testing platform being worked out to assist homebound patients?

Thanks,

Nic

Hello all,

CDC is prepared to convene a follow up meeting to brief Dr. Birx on the community mitigation efforts **tomorrow, Thursday (4/23) at 9:30am**

Dr. Birx would like to ensure all principals who wish to attend/dial-in are included in this briefing.

The briefing will take place in EEOB 176 with an **option for a dial-in** [b 6] ; [b 6]

We will have a large television monitor to display documents for those attending in the room.

VTC is not available for this meeting.

CDC briefing materials for discussion are attached.

Please confirm whether your principal would like to attend in person or by phone (to ensure appropriate hard copies are provided).

We will observe social distancing practices for those who attend in the room.

CDC has seen an uptick in data on deaths and infections in nursing homes. Last week, CMS and CDC put out strong warnings around limiting visitors and screening those that enter the facility. The Nursing Home industry did the same. (b) (5)

Dr. Redfield has data if anyone would like to review. We were hoping to bring this to the task force today. But in light of the cancellation, I am sending this email. Please advise, ASAP.
