Re: 20-cv-01367 / 2020-HQLI-00030

Dear Ms. Lewis:

This is the final interim release of records related to your Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS), received on March 19, 2020.

For this production, the DHS received back 70 pages it sent out for consultation. Portions of the records are withheld in part/full pursuant to FOIA exemption (b)(5), (b)(6), and/or (b)(7)(c). These pages are Bates stamped with DHS PRIV-ICE-01367-006296 to DHS PRIV-ICE-01367-006365.

If you have any questions regarding this release, please contact Andrew Freidah, United States Department of Justice's Civil Division, Federal Programs Branch, at Andrew.f.freidah@usdoj.gov.

Sincerely,

A handwritten signature in blue ink that reads "Eric A. Neuschaefter".

Eric A. Neuschaefter
Senior Director, FOIA Litigation, Appeals, Policy,
and Training (Acting)

Enclosed: 70 Pages

We had a pretty different impression yesterday. Add to that that “criminal aliens” is a very wide, challenging concept for several of our folks. Is the AS2 walking ICE back from its statement yesterday? It isn’t clear what, if any, operations are actually going to be different. Also, are all CBP and HSI detailees still being sent back?

Also, in response to your email below, does that mean you are going to issue some clarifying information (publicly)? And what does monitoring mean? We are being reminded that almost half of the currently detained population is “Other Immigration Violator” (i.e., not criminal). Any update on CDC guidance for detention centers?

Thanks,

(b)(6)

Subject: Re: Getback to Chairwoman - ICE posture during COVID-19

Hi there -

Getting questions about whether this new posture applies to the detained population. Based on our conversation, I have said that it does not, but that you all are looking at vulnerable (to COVID-19) populations for potential release (of some kind (parole, bond, ATD)).

We are, as you can imagine, getting pressure from some members and groups to have the new posture apply to the detained population as well.

If there's a clarifying message you can provide on that, it might be helpful.

Thanks,

+++++

To ensure the welfare and safety of the general public as well as officers and agents in light of the ongoing COVID-19 pandemic response, U.S. Immigration and Customs Enforcement (ICE) will temporarily adjust its enforcement posture

beginning today, March 18, 2020. ICE's highest priorities are to promote life-saving and public safety activities.

ICE Enforcement and Removal Operations (ERO) will focus enforcement on public safety risks and individuals subject to mandatory detention based on criminal grounds. For those individuals who do not fall into those categories, ERO will exercise discretion to delay enforcement actions until after the crisis or utilize alternatives to detention, as appropriate.

Homeland Security Investigations will continue to carry out mission critical criminal investigations and enforcement operations as determined necessary to maintain public safety and national security. Examples include child exploitation, gangs, narcotics trafficking, human trafficking, human smuggling, and participation on the Joint Terrorism Task Force. This work will be conducted based on ability to coordinate and work with prosecutors from the Department of Justice and intake at both the U.S. Marshals Service and Bureau of Prisons.

During the COVID-19 crisis, ICE will not carry out enforcement operations at or near health care facilities, such as hospitals, doctors' offices, accredited health clinics, and emergent or urgent care facilities, except in the most extraordinary of circumstances. Individuals should not avoid seeking medical care because they fear civil immigration enforcement.

Subject: RE: Guatemala - New Ask

Good morning all - Adding a requirement that this information be gathered and sent to GoG ahead of time will be overly burdensome for our medical staff, and provide little information and certainly nothing substantive for GoG to review and analyze prior to accepting the flight. The agency will commit to ensuring that no one is sent to Guatemala unless they are tested negative for CV19. I would propose that we push back on this ask stating that their request is far too onerous on the medical staff and offers very little utility in assessing ones fitness for travel. We can reassess if they renew the ask but this should be our initial response. Thanks

(b)(6); (b)(7)(C) was there further offline conversation? I'll defer to Ambassador Arreaga, but Hugo and I talked last night and it sounds like they may have agreement for a number of flights next week.

For the sake of discussion – if GOG agrees to a Monday flight and we’re holding people for three more days until then anyway, would it be possible to collect and provide them test results tomorrow as a show of good faith for this one flight?

Also for the sake of discussion – would it help if there were some sort of daily GOG-USG call or working group where a subset of this group could talk through questions like this? Conversations are flying in all directions, and you’re at the center of the insanity. Just wondering if consolidating the discussions would help.

(b)(6);
(b)(7)(C) and Valerie,

A couple of thoughts to share--

--Would be useful to know where these proposed 119 would be coming from, Marlen—which detention centers? I passed the info on New Orleans and Atlanta to foreign minister in our conversation this morning, as per the points you passed. Is there any more on updated screening protocols? Moving from 129 to 119 would be helpful.

(b)(5)

--I also want to point out that Friday (4/17) we announced **\$13.2 in USAID monies for Haiti COVID 19 response and \$2.9 million in CDC COVID response funding for Haiti, so just want to keep this whole of USG approach in mind.**

--Was option one actually splitting into two flights? Wanted to confirm this was intent as

(b)(5)

Here is a Reuters article that just came out on this topic:

“Haitian source says three deportees from U.S. have coronavirus

HAVANA/PORT-AU-PRINCE (Reuters) - Three migrants the United States deported two weeks ago to Haiti, on a flight that raised objections from human rights advocates, have tested positive for the novel coronavirus while in quarantine in the Caribbean country, a Haitian health ministry source told Reuters.

Several U.S. lawmakers had also opposed the deportation flight to Haiti given the risk of spreading the virus further in the poorest country in the Americas, which is especially vulnerable to an outbreak.

At the point of the flight, the Caribbean nation had just 25 confirmed cases compared to more than 380,000 in its northern neighbor. It now has 47 but that number could rise swiftly.

A major outbreak of the novel coronavirus could be devastating for Haiti, which has around 100 ventilators for 11 million residents and where the healthcare system was already collapsing.

Haiti’s water and sanitation system are also in a shambles. While the government has closed borders and declared a state of emergency, many Haitians have continued to go about their daily lives as usual given they live hand to mouth and cannot afford to stay home. Around two thirds live under the poverty line.

“These people who were in quarantine were tested and three came back positive,” the source said.

Reuters was unable to independently verify the information.

The Trump administration has pressured impoverished countries like Haiti and Guatemala to keep receiving deported migrants despite growing concerns returnees are bringing the virus with them.

Forty-six Guatemalan migrants on two deportation flights from the United States last week also tested positive for the coronavirus, according to the Central American nation's government.

The U.S. Immigration and Customs Enforcement and State Department did not immediately reply to a request for comment on the Haitian cases.

With limited resources, Haiti faces a recession this year and has also been grappling with political instability and gang violence.

Authorities have so far carried out only 508 tests, according to the health ministry, although it hopes to ramp up testing next month with the arrival of rapid tests.

The government this weekend extended the state of emergency for another month under which borders are closed, as are schools, universities and places of worship.

However it allowed textile industrial parks, which are one of its top sources of foreign currency revenue, to restart this Monday albeit only at 30 percent capacity"

...Thank you.

Subject: Haiti: Two COVID -positive ICE removals transferred to Mirebalais Hospital; One Escapes

The Prime Minister conducted a lengthy interview on Radio Metropole this morning. He
--stressed the need to extend measures to limit the spread of the COVID-19 in Haiti
-- called on Haitians to show solidarity during the crisis
--noted that out of the 68 persons** repatriated from the U.S., 3 are tested positive for COVID-19 and that out of the 47 cases confirmed in Haiti; 30 of them are from people who returned to Haiti after foreign travel.
-- noted that the hotels used for quarantine were selected by the Health Ministry because they are close to the airport, implying that this would limit the risk of spreading.

(Note: During the interview, the PM did not specifically discuss the repatriation flight or call for suspension of repatriation flights.)

Also, two of the COVID-positive deportees, (b)(6) have been **transferred to the hospital in Mirebalais** (Dr Paul Farmer's Partners in Health/Zanmi Lasante founded the hospital, which is part of the government of Haiti network). **I just learned that the second name on the list of four, (b)(6), escaped from the quarantine center and is at large. Press has not yet picked that up.** The fourth individual is still at the quarantine site (hotel)-Boss.

(b)(6) @ice.dhs.gov>; Sison, Michele J (Port-au-Prince) <(b)(6) @state.gov>
Subject: Haiti: FOREIGN MINISTER TELEPHONED AT 0800 TO REQUEST DELAY OF
ICE FLIGHT

As I suspected it would , my cellphone rang at 0800 precisely . It was Foreign Minister Claude Joseph, informing me that the Health Ministry had confirmed the three positive tests for recent ICE deportees and that public reaction was already negative (we're tracking now what is coming up in local press; the Prime Minister also just announced he'd be going on radio this morning).

(b)(5)

I let the PM know that I had seen the press article last night and had engaged Washington. I noted that (per Marlen's emails)
--we still planned on the Thursday 11 am flight as per the PM's Saturday night authorization letter on the 129.
--ICE had identified within New Orleans and Atlanta that would not/not be sending deportees, and that must family members on the scheduled flight would be coming from family residential areas in Texas (Karnes & Dilley) and Pennsylvania.
--old medical screening pulling someone from the manifest if their temperature was 100.4 or above which was consistent with CDC guidelines. As of this week, ICE has changed that and no one with a reading of 99 degrees or above will be added to manifest.

(b)(5)

(b)(5) I told him that I thought that was **very unlikely** but that I would pass his concerns now to Washington State and ICE and seek an immediate **update on additional screening** measures. **I am also talking with CDC Haiti at 0900 to see if we can get the 4 names of the COVID positives so we can pass them to ICE for contact screening purposes to identify which detention centers they had come from.**

Subject: Haiti: DEPORTEES' POSITIVE COVID TESTS NOW IN THE HAITIAN MEDIA

(b)(6); (b)(7)(C) and Valerie, wrote today at 12:09 pm, “we are literally in the process of significantly adjusting our processes and hope to be able to share something later tonight.” I would really appreciate need whatever updates you have on new screening procedures and talking points **as soon as possible** tonight/early tomorrow morning. I have not received any phone calls yet from the government, but a **local media outlet just broke the story, “Three of 68 deportees have the sickness”** (you’ll recall that the original manifest was 68). **The fourth individual whose result was inconclusive tested positive** this evening. CDC will receive the names of the four tomorrow; we do not yet have this from the Ministry of Health or its National Lab..

Here’s an informal translation of the French-language media article:

“At least 3 of the 68 Haitians deported on April 7 by the American authorities tested positive for COVID 19. This was revealed to VantBefInfo (VBI) by a credible source. Two of them refused to believe the results of the test given by the Ministry of Public Health and Population and caused disorder at the hotel where they had been placed in quarantine.

The three new cases announced on April 19 by the Ministry of Public Health and Population are in connection to Haitians deported to Haiti on April 7; this was confirmed to VantBefInfo by a credible source. Having learned this news on Sunday morning, the three persons who tested positive for COVID 19 argued about the results of the test given by the health authorities ,

arguing that they felt well and had no symptoms of the Coronavirus. They were supported by those who had tested negative, according to our source.

One of the afflicted even tried to escape, (and would have succeeded) had it not been for the vigilance of the policemen present to ensure security at the location. The ambulance that arrived to get them (the positive individuals) was empty at the time of the writing of this article at 4:55 pm. For the moment, the rebels are still at the quarantine location. No decision has yet been taken with regard to them. Those who tested negative have been handed over to immigration for follow up, according to our source. However, seven of the deportees have already departed the location. “

Note: Per CDC, there is still a standoff at the quarantine hotel, with the three positives refusing to accept the test results and be moved to another location.

The 61 deportees were tested on Friday, April 17. They arrived on April 7, so this was at the ten day mark. Again, pls let your health people know this was the PCR test. They went right from the plane into the contracted buses (we had two Embassy officers on site to observe), directly to the Health Ministry-rented and supervised quarantine site.

Our CDC acting director and his team are pretty busy with the epidemiological aspects of this COVID crisis, as we've trained 300 health ministry staff in contact tracing and the CDC team is doing site visits to the Haitian COVID treatment centers, ordering reagents, etc. Happy to continue to serve as the interface with our CDC team, Marlen (their day job is a \$110 million HIV/AIDS and multidrug resistant TB program, so they are working hard these days).

I asked CDC earlier for the four names and will do so again. It's not clear to me that the lab staff (with whom CDC is in touch) have the actual names or if these are somehow coded in the lab. I told CDC we needed this asap as I was sure DHS/ICE would want to know for contact tracing purposes from which centers the 4 had departed.

Subject: Haiti: 3 of the 61 April 7 ICE deportees test COVID positive; 4th being retested:

Dear (b)(6); (b)(7)(C) and Valerie,

I received late last night the PM's letter authorizing the arrival of the 129 non-criminal/family members on Thursday, April 23. **However, an hour later, I was informed by our CDC liaison to Haiti's national lab that out of the 61 Haitian deportees from the last (April 7) flight, three tested positive for COVID 19.** One additional came back with inconclusive results, so they will be retesting that individual today. Not clear that the President, PM, or Health Minister are yet aware (it's of course a weekend)—but I do **expect strong pushback on next week's removal flight** once these positive results become known to the Haitian leadership. **This just got a lot harder.** I imagine this will also attract negative media and public attention once known, as well as **create security challenges** for the current two quarantine sites.

I checked with CDC; the National Lab's testing of the deportees was done using the PCR "gold standard" polymerase chain reaction test, not the rapid test (the latter, as I understand it, is more apt to give false results).

My question for Marlen and Valerie: Do you expect DHS/ICE will amend its medical screening protocols given the Guatemala developments and this Haiti development?

I should underscore that **we have been clear about DHS medical screening guidelines with the Haitian government.** I had provided these in written form to the Prime Minister, Justice Minister, and Foreign Minister at their request on Saturday, March 14. Thus, the GoH had these points ahead of the April 7 flight, in a document prepared and cleared by DHS ICE Santo Domingo and, ICE Santo Domingo Paul Capicchioni assured me, In fact, the FM had asked for them again right before the April 7 flight, so I actually sent these to him twice. Below is the ICE language we shared in the original English plus French and Creole translations:

- *ICE medically screens incoming detainees, isolating/grouping symptomatic subjects to prevent contagion or spreading.*
- *ICE quarantines suspected COVID-19 infected individuals, obtaining test samples, transports the detainee to a hospital for formal evaluation/treatment.*
- *ICE reviews requests within 24 hours, referring potential contagious individuals to a medical provider. When COVID-19 symptoms are present they collect samples for assessment to the contract lab.*
- *ICE again medically screens/evaluates detainees prior to/clearing them for removal by comprehensively reviewing medical records, identifying potential infectious disease, and taking the detainee's temperature 12 hours before removal from the flight. Febrile individuals (temperature equivalent to 38 degrees Celsius or higher) remain in custody for medical assessment.*

- ICE medical screening forms for each arriving passenger will be provided to the Ministry of Public Health officials.

Thank you and I do **hope that you will share as soon as possible --today or early Monday -- any expected changes to these ICE screening protocols, as well as any further DHS/ICE public talking points.**

Subject: Haiti: Update on Request for 4/21 ICE charter mission

Dear (b)(6);
(b)(7)(C) and Valerie,

Good evening. I wanted to let you know that I've spoken twice with the Haitian Prime Minister on the removal flight request for 129 non-criminal/family members we received on Tuesday night, **and just received a call from Haitian President Moise** on this matter.

Here's where we are:

--as you may recall, the **61 non-criminal deportees who arrived April 7** are still in their fourteen-day quarantine at two Port au Prince hotels, supervised by the Health Ministry. **Their fourteen-day quarantine will end April 21** (the same day the next group of 129 is supposed to arrive).

(b)(5)

--My question for Marlen: (b)(5)

(b)(5)

I'd greatly appreciate your earliest reply. (b)(5)

(b)(5)

Thanks very much, and here's hoping for a quiet and peaceful weekend for us all.

Sir –

Hot off the press! And we just checked – they are in TX as I type. Delivery will all be today – some arriving as early as 0900 CMT via FEDEX.

Feeling pretty relieved right now!!

If that's the desire I can get an address they are shipping from. Remember it's 84 boxes of material plus the ID NOW devices. Have to get HHS to agree as Abbott won't release the material to us at the site.

First, would like to see how your call goes with Deputy Secretary. I have not heard back from Giroir.

Abel, Daniel B VADM <(b)(6)>
Subject: RE: ID NOW COVID-19 kits

If their shipping won't get them there until Friday (or even tomorrow), our folks could pick them up today and get on a plane to go where we need them in Texas.

Dave and Dan, I'm including you here (out of the blue, sorry), as TSA and USCG folks may be folks we turn to for this effort.

Ken

Subject: ID NOW COVID-19 kits

The kits are shipping out of New Jersey. Don't have an address (I believe it's Hanover, NJ); unsure if picking them up would be faster as they have a shipping process that is underway but there you have it.

Subject: Local Coordination to Ensure Safe Releases of Detainees

Chris –

Thank you for your help. I'm including Ray and Hope for their respective offices out of recognition of your role and that this may start to involve other Hill stakeholders.

I think the call with the Chairwoman was productive. She was attempting to thank AD1 before the call ended but had accidentally pressed mute. She was very appreciative of the transparency and tone of the conversation as well. Please pass that along if you can. She felt bad about how the meeting ended.

As promised: This is by no means comprehensive, and some of this may already be underway in some field offices, but is perhaps not standard or as robust in others →

1. **Information Sharing for Those Who Are Being Currently Released** – in detention facilities/field offices where releases are occurring due to litigation or for other reasons, NGOs have stated that it would be helpful to know what type of arrangements have been made to share post release plans. Additionally:
 - Released individuals need to have had time to contact loved ones/friends to try and arrange transport upon release – should be given at least 36-48 hours to do so. If contact cannot be made or arrangements are not possible, certain arrangements should be made to ensure that individuals have initial places to be released to locally. (I think it would be useful to be able to explain to folks which individuals can have this time to make those arrangements, and which individuals can't because of the immediacy of executing orders from a Judge.)
 - If released individuals are infected or exposed to COVID-19, they need to be given PPE.
 - If released individuals are infected with COVID-19, ICE needs to notify local health centers and other places of initial destination of this in advance to ensure that proper CDC guidelines can be implemented.
 - If released individuals are infected with COVID-19, local state and community entities need to be notified in advance. Such information should be put on the post release plans.
 - Knowledge of testing the released population should be widely shared.
2. **Transportation for Those Released from Detention by ICE** – as you know, ICE has funding for transportation and in the past has used that transportation funding for transporting individuals no longer in their custody. This was used to transport families released from ICE to NGO shelters along the border. When NGO or family/community transportation is not possible or not timely, ICE should use its transportation funding to provide transportation of released detainees to a stabilization location. Additionally:
 - Buses or other form of ICE transport should implement CDC guidelines for spacing/social distancing.
 - All detainees and transport staff should have PPE/access to hand sanitizer while being transported.
 - Transport and numbers of detainees should be clearly and in advance communicated to local community partners at the destination location.
 - Drop off should occur between normal business hours 8am-6pm (this is vital for NGOs who have been hit by low volunteer rates these days - we don't want people to show up to a understaffed health center or respite center).
3. **Local Advanced Planning** – to ensure that everyone full understand how small scale and large scale releases will happen, we recommend an added level of advance coordination and planning within each field office:

- Each field office should meet (virtually) with and establish an SOP or similar product to clearly outline expectations, roles and responsibilities, and to clearly explain any legal or resource limitations.
- NGO service providers can make clear what their capabilities are and what, if any, unique limitations or logistic challenges they may have.
- Should clearly outline what kind of information will be provided in advance of any release (numbers being release, health status, travel arrangements, etc.).
- This should be well documented in advance to address shifting of personnel overtime, and can be a tool beyond COVID-19 response.
- Needs to contemplate how coordination will be different for small scale releases versus large scale releases.

4. **Accessing Services for Those Already Enrolled in ICE ATDs** – Turning to the immigrant population already enrolled in ATDs- it is a public health and prevention imperative that services go to online service provision to the extent possible for the safety of ICE and contractor staff, ATD enrollees and the larger community.

- Counseling, telehealth, legal services, mental health, trafficking prevention, cultural orientation - should all be implemented online in ISAP III ECMS and in the upcoming ISAP IV. (Currently legal and social service providers for UAC, refugees, and other vulnerable mobile populations are being required to provide service delivery in this manner and this should be a requirement for contractors/grantees providing services for immigrants on ATDs at least at this time.)
- Robust Public Health guidelines on Social Distancing and Quarantine should be implemented in all ISAP III ECMS, and general ISAP programming
- Information on the Immigration Court Hearings Openings and Closings Should Be Communicated to All on ATD

I would be happy to get some folks from the NGO communities to discuss the path forward if that would be helpful. Also, I have included my Senate minority counterpart who is interested in this as well.

Thanks,

(b)(6)

Chris, et al -

Effective tomorrow we're raising the bar on temperature checks. Current CDC guidance is 100.4. We're lowering that to 99 or above which is a higher standard than CDC advocates. Our new guidance will be sent out in the morning.

Subject: Information request from Committees on Foreign Affairs, Homeland Security and Judiciary -
April 10 Visa Sanctions Memorandum

CAUTION: This email originated from outside of DHS. DO NOT click links or open attachments unless you recognize and/or trust the sender. Contact your component SOC with questions or concerns.

State Department and DHS Colleagues:

Hope everyone is doing well.

Our three committees (HFAC, CHS and Judiciary) would like to request information related to the President's April 10 Memorandum on Visa Sanctions for the Secretary of State and the Secretary of Homeland Security. Specifically, we request the following by COB Thursday:

(1) Please provide a list of countries on which 243(d) visa sanctions are currently imposed, including the types of visas (nonimmigrant visas, immigrant visas, etc.) affected.

(2) Please provide a list of countries with which the U.S. has engaged in diplomatic discussions regarding the imposition of 243(d) visa sanctions since COVID-19 was declared a national emergency in the United States, and the status of such discussions. What U.S. diplomatic outreach has occurred and what, if any, concerns have been raised by foreign government officials regarding the acceptance of individuals who are citizens, subjects, nationals or residents of each such country?

(3) Please describe the quarantine processes in place to ensure that returnees do not spread COVID-19 further among their respective populations in Haiti, Guatemala, Honduras, El Salvador, Mexico, the Dominican Republic and any additional countries in which the U.S. has engaged in diplomatic discussions regarding the imposition of 243(d) visa sanctions since COVID-19 was declared a US national emergency. Do the quarantine processes account for asymptomatic individuals?

(4) What is the State Department and DHS's assessment of the ability of each of the aforementioned governments to ensure that returnees do not spread COVID-19 among their respective populations?

As noted, given the critical importance of these issues to the three Committees, we request this information by **COB this Thursday April 16th**.

Thank you very much.

Eric

Eric Jacobstein

Senior Policy Advisor

House Committee on Foreign Affairs

Chairman Eliot L. Engel

Hey Tae,

I know you're probably swamped but wanted to follow up on this and to also talk to you about the ICE MOU. Trying to figure out the best next steps.

Thanks again and hang in there.

Peter E. Mina

Subject: Question re: Immigration Enforcement/COVID-19

Good morning Tae,

Do you have a couple of minutes for a question on enforcement? I would appreciate your opinion before pushing something ICE's way.

Thanks,

I know that Dr. Joel Montgomery already sent back our comments re this, but I just also received some feedback from our team who has worked in high-density settings with some considerations and recommendations as well. (attached) I hope that these comments will be helpful, and thanks so much for reaching out.

All the best,
Joe
