EXTERNAL SENDER

Hi,
The upload just finished. You should have everything for your public records request. With this response we will consider this request closed. Have a good one. 😊

Thanks,
Mary

MILKEN INSTITUTE 2018 GLOBAL CONFERENCE

Private Session Invitation Reminder

Dear Daniel,

We look forward to seeing you at the 21st Annual Milken Institute Global Conference. You were recently invited to participate in a private event or session during the conference and we have not received your response.

You have until 5pm PST on Wednesday, April 25, 2018 to access the below portal to make your selection.

CLICK HERE TO BUILD YOUR PRIVATE SESSION ITINERARY

Please save this link to view your private event or session itinerary in the future for easy reference.

Invitations are non-transferable and will be confirmed on a first-come, first-served basis.

Subject: 2018 Payments in Lieu of Taxes (PILT) Data Call-Prior Year Payment
Attachments: Enclosure 1_userguide_PILT2018.pdf; Enclosure 2 _PILT2018.pdf; Enclosure 3_PILT2018 Final.xlsx; Enclosure 4_Reconciliation_PILT2018 Final.xlsx

Greetings!

The Department of the Interior is currently collecting the information necessary to make the 2018 annual payment under the Payments in Lieu of Taxes (PILT) Act. The enclosed materials contain the guidance and templates you will need to provide this information.

The Department is currently operating under a Continuing Resolution, so future Congressional action will determine whether full-year appropriations are available for the 2018 PILT program. Pending appropriation, PILT payments are scheduled to be issued on or before July 1, 2018. Local governments within your state should receive their payments on time, provided the requested information is furnished by **February 8, 2018.** The enclosed materials contain the instructions and forms you will need to report this information to us.

Delays in receiving this information by the requested date may compromise the Department's ability to issue on time payments to local governments. If you are unable to meet this deadline, please contact the PILT program office as soon as possible to request an extension.
For the FY 2018 data call, the Department will be collecting data electronically. The following documents are required by the Department in order to calculate PILT payments. The completed package will contain:

1. A statement signed by the Governor, or a designated official, certifying the enclosed information is correct.

AMERICAN OVERSIGHT

2. A completed Enclosure 3 template detailing the allocation of prior year payments to counties/units of local government.
3. Either a completed Enclosure 4 template or an accompanying explanation of any differences between the amounts reported on Enclosure 2 and the amounts reported by the state in Enclosure 3.
4. Supporting documentation (e.g. copies of statutes, policy, etc.) regarding relevant state laws that govern how Federal revenue sharing payments should be used, including those amounts that do not flow through the state, but are received by the local units directly.
5. Any state legislation, policy decisions, county name changes, etc. effective after July 1, 2017 which may impact PILT payments.

The completed certification package, including all supporting information outlined above, should be emailed to doi_pilt@ios.doi.gov by **February 8, 2018.**

In order to better support you in providing the requested information, the PILT Team will be offering web-based training in the coming weeks. Information about the date and time will be sent out next week. Please contact Ms. Dionna Kiernan of the Department's Office of Budget at (202) 513-7783 or via e-mail at doi_pilt@ios.doi.gov, with any questions about these materials.

We appreciate the excellent cooperation you and your staff provide to us each year. Your efforts are instrumental in making the program a success.

Thank you,

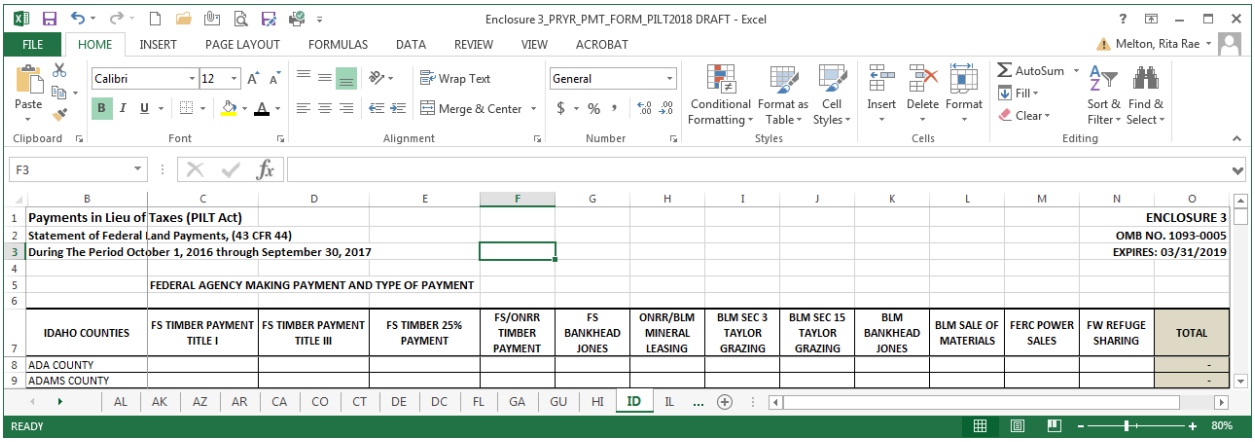
PILT Program Office

AMERICAN OVERSIGHT

NV-DA-20-0615-A-000004

USER GUIDE FOR PROVIDING PILT DATA TO THE DEPARTMENT OF THE INTERIOR

The Payment in Lieu of Taxes (PILT) Act specifies the Chief Executive Officer of a state shall submit to the Secretary of the Interior a listing of the amounts transferred by the state to each unit of local government out of amounts received under a payment law.



The information furnished to the Department of the Interior is for the purpose of calculating the PILT payment for each county within the state.

This user guide was created to assist you with completing that task. It provides guidance on entering the requested data into the Enclosure 3 spreadsheet attachment you received as part of the Department of the Interior's data call; reconciling any differences between Enclosure 2 and Enclosure 3 on the Enclosure 4 (Reconciliation Balance Sheet) spreadsheet; and on the Certification requirements as well as the submission process.

ENCLOSURE 3

The information you enter on the Enclosure 3 spreadsheet is the revenue sharing amounts passed through to counties in your state during the period **October 1, 2016 through September 30, 2017.** Any amounts received but not passed through to local units of government during the period should be noted and included in next year's report.

The following screen shot is an example of the Enclosure 3 attachment:

A description for each column in the spreadsheet is provided below:

Column B – STATE/COUNTY

Enclosure 3 is state specific. It contains tabs for each state containing information specific to the state selected. To select your state, click on the tab that contains your state abbreviation. In the example given, the ID tab is selected.

Since the tab selected on the spreadsheet is for the State of Idaho, the counties presented in column B on Enclosure 3 are those local units of government (counties) specific to Idaho. If a county in your state received funds for the first time and is not listed on the spreadsheet,

AMERICAN OVERSIGHT

please enter the county's name at the bottom of the spreadsheet and note that it is a new county.

Overview of Columns C through N

Columns C through N on the Enclosure 3 spreadsheet (displayed below) list the Federal Agency making the payment and the type of payment made. A description for each of these columns will be provided in more detail in the following pages.

	B	C	D	E	F	G	H	I	J	K	L	M	N	O
1	Payments in Lieu of Taxes (PILT Act)													ENCLOSURE 3
2	Statement of Federal Land Payments, (43 CFR 44)													OMB NO. 1093-0005
3	During The Period October 1, 2016 through September 30, 2017													EXPIRES: 03/31/2019
4														
5		FEDERAL AGENCY MAKING PAYMENT AND TYPE OF PAYMENT												
6														
7	IDAHO COUNTIES	FS TIMBER PAYMENT TITLE I	FS TIMBER PAYMENT TITLE III	FS TIMBER 25% PAYMENT	FS/ONRR TIMBER PAYMENT	FS BANKHEAD JONES	ONRR/BLM MINERAL LEASING	BLM SEC 3 TAYLOR GRAZING	BLM SEC 15 TAYLOR GRAZING	BLM BANKHEAD JONES	BLM SALE OF MATERIALS	FERC POWER SALES	FW REFUGE SHARING	TOTAL

The federal agencies and the type of payments they make are:

- Forest Service (FS) – Timber (Title I, Title III, and 25% Payment) and Bankhead Jones
- Office of National Resources Revenue (ONRR) – Timber and Mineral Leasing
- Bureau of Land Management (BLM) – Mineral Leasing, Taylor Grazing, Bankhead Jones and Sale of Materials
- Federal Energy Regulatory Commission (FERC) – Power Sales
- Fish and Wildlife Service (FW) – Refuge Revenue Sharing

To ensure the totals reported on the Enclosure 3 spreadsheet reflect the total amount of funds received, please refer to the Enclosure 2 attachment included in the data call for the total amount received by all counties.

Enclosure 2 details Federal payments by state made to either the state or to local units directly. Locate your state within the spreadsheet to obtain the information needed.

In our example below, Idaho is located on line 24 in the 2018 Enclosure 2 spreadsheet.

	A	B	C	D	E	F	I	J	K	L	M	N	O	P
1		PRIOR YEAR PAYMENTS RECEIVED BY THE STATE AND LOCAL GOVERNMENTS												ENCLOSURE 2
2		DURING THE PERIOD OCTOBER 1, 2016 THROUGH SEPTEMBER 30, 2017												
3														
4														
5		FS	FS	FS	ONRR	FS	ONNR/BLM	BLM SEC 3	BLM SEC 15	BLM	BLM	FERC	FW REF	
6		TIMBER	TIMBER	TIMBER	FS TIMBER	BANKHEAD	MINERAL	TAYLOR	TAYLOR	BANKHEAD	SALE OF	POWER	REVENUE	
7		PAYMENT	PAYMENT	PAYMENT	PAYMENT	JONES	LEASING	GRAZING	GRAZING	JONES	MATERIALS	SALES	SHARING	
8	STATE	TITLE I	TITLE III	25% PAYMENT									RESERVE AREAS	TOTAL
9													ONLY	
23	HAWAII						$0					$0		$0
24	IDAHO			$2,196,688	$104	$2,653	$5,072,120	$213,288	$28,715		$33,383	$129,344	$128	$7,676,423

Please enter the amounts received by the county into the appropriate column on your Enclosure 3 spreadsheet for the corresponding agency the amount was received from.

To continue with our example, the FWS reported payments of $128 to Idaho for Refuge Revenue Sharing. On the Enclosure 3 spreadsheet, Idaho shall report the amount each county received under column N entitled "FW Revenue Sharing". For the purpose of this example, let's say the following amounts were passed through to the following counties by Idaho:

Canon County - $50
Owyhee County - $35
Payette County - $18
Washington County - $25

The amount received by the county should be entered on the Enclosure 3 spreadsheet as follows:

AMERICAN OVERSIGHT

	B	C	D	E	F	G	H	I	J	K	L	M	N
1	Payments in Lieu of Taxes (PILT Act)												E
2	Statement of Federal Land Payments, (43 CFR 44)												OMB N
3	During The Period October 1, 2016 through September 30, 2017												EXPIRES
4													
5		FEDERAL AGENCY MAKING PAYMENT AND TYPE OF PAYMENT											
6													
7	IDAHO COUNTIES	FS TIMBER PAYMENT TITLE I	FS TIMBER PAYMENT TITLE III	FS TIMBER 25% PAYMENT	FS/ONRR TIMBER PAYMENT	FS BANKHEAD JONES	ONRR/BLM MINERAL LEASING	BLM SEC 3 TAYLOR GRAZING	BLM SEC 15 TAYLOR GRAZING	BLM BANKHEAD JONES	BLM SALE OF MATERIALS	FERC POWER SALES	FW REFUGE SHARING
20	CAMAS COUNTY												50
44	OWYHEE COUNTY												35
45	PAYETTE COUNTY												18
51	WASHINGTON COUNTY												25

Please enter the amount each county received in number format rounded to the nearest dollar (rounding up for amounts .50 and higher and round down for amounts .49 and lower). Please do not submit cents.

The **"pass through"** amounts reported by your state should take into consideration the following summarized Comptroller General's Decision number B-167553:

1. Payments to units of local government under the PILT Act are to be reduced only by the amounts of payments actually received by the units of local government. Thus, Federal revenues paid to a state and distributed by the state directly to a politically and financially independent school district or other independent districts should not be deducted from payments to that unit of local government. Payments to other single or special purpose districts should be treated in a similar manner.

2. Federal revenues should not be considered "received" by the unit of local government when paid to a state then distributed by the state to a unit of local government with the requirement by state law to pass these revenues directly to a politically and financially independent school district. These payments should not be deducted from payments to that unit of local government unless that unit is legally responsible for provision of school services and has collected other tax revenues for that purpose. Payments passed through to other special or single purpose districts should be treated in a like manner.

Amounts reported by your state as being passed through to local governments will be used to calculate the county's PILT payment within your state.

Column C, D and E – FS TIMBER PAYMENT TITLE I, III AND 25% PAYMENT

These columns on the spreadsheet are the payments received by the Forest Service for timber harvesting. Amounts can be found under columns B, C and D entitled FS Timber Payment Title I, FS Timber Payment Title III, and FS Timber Payment Title 25% on Enclosure 2.

Timber payments made by the Forest Service under the Secure Rural Schools and Community Self-Determination Act of 2000 law should be included on this report. A summary is as follows:

> Title I requires a county that elects to receive its share of the "full payment amount", and would receive $100,000 or more, to spend no less than 80 and no more than 85 percent of the funds in the same manner as the original timber fund payment was expended (for schools and roads with the amount to independent schools not being deducted from PILT). The county is also required to reserve the remaining 15 to 20 percent of its share for one or more of the following purposes: projects under Title II; projects under Title III; or both. A county that elects to receive its share of the "full payment amount" and that will receive less than $100,000 may elect to spend all of its funds in the same manner as the original twenty-five percent funds are expended.

As a result of delayed disbursements some counties will be reporting payments under the Secure

AMERICAN OVERSIGHT

Schools and Roads Act, all other counties received their payment under the 25% Timber Act, the amounts reported under this column should include the following:

1. The roads portion of both the FS Timber payments (if the county has elected to continue this method) and Title I payments under the Secure Schools and Roads Act (if the county has elected this method) and;

2. The roads portion of any timber payments made by the Office of Natural Resources Revenue.

Payments received by counties under Title II of the Secure Schools and Roads Act should not be reported, since they are not deductible for PILT purposes.

In addition, all Title III payments received by the county under the Secure Schools and Roads Act are deductible under PILT and should be entered, in total, under this column.

Column F – FS/ONRR TIMBER PAYMENT

This column is necessary because the Office of Natural Resources Revenue is responsible for making some of the timber payments formerly made by the U.S. Forest Service. The timber payments made by ONRR are made by wire transfer and are included with the monthly ONRR mineral leasing payments to states under the heading "NFF" (National Forest Fund).

Column G – FS BANKHEAD JONES

Payments received by the county from the Forest Service under the Bankhead Jones Act should be entered under this column.

Column H – ONRR/BLM MINERAL LEASING

Amounts received by the county from the Office of National Resources Revenue and the Bureau of Land Management for mineral leasing should be entered under this column.

Column I – BLM SEC 3 TAYLOR GRAZING

Payments received from the Bureau of Land Management for Section 3 of the Taylor Grazing Act by the county are entered under this column.

Column J – BLM SEC 15 TAYLOR GRAZING

Payments received from the Bureau of Land Management for Section 15 of the Taylor Grazing Act by the county are entered under this column.

Column K – BLM BANKHEAD JONES

Payments received by the county from the Bureau of Land Management under the Bankhead Jones Act should be entered under this column.

Column L – BLM SALE OF MATERIALS

Amounts received by the county from the Bureau of Land Management for the Sale of Materials should be entered under this column.
Column M – FERC POWER SALES

AMERICAN OVERSIGHT

Payments received from the Federal Energy Regulatory Commission for power sales by the county are entered under this column.

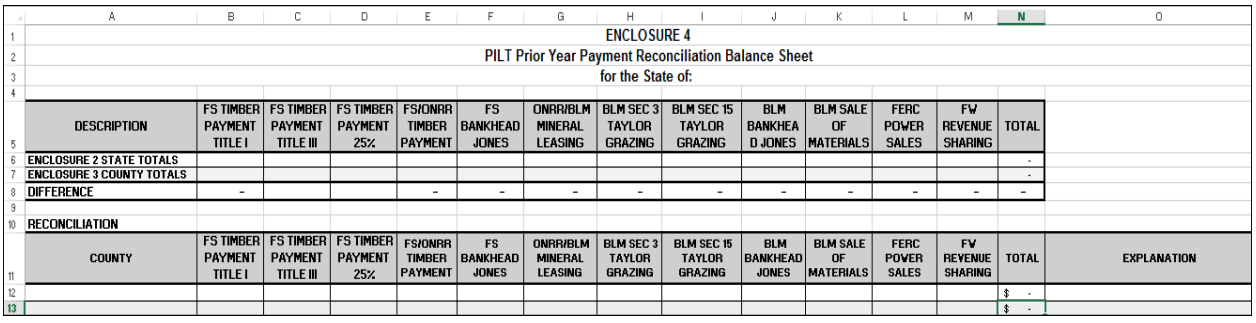
Column N – FW REFUGE REVENUE SHARING

Payments received under the Refuge Revenue Sharing Act by the county from the Fish and Wildlife Service are entered under this column.

Column O – TOTAL

Do not enter data into this column. The cell contains a formula summing the total amount of payments made to a county by all corresponding Federal agencies.

ENCLOSURE 4



Enclosure 4 is a Reconciliation Balance Sheet to assist you in reconciling differences, if any, between the amounts reported as paid to states on the Enclosure 2 spreadsheet by corresponding Federal agencies and the payment amounts "passed through" to counties by the states as reported on Enclosure 3.

For example, according to Enclosure 2, BLM reported the State of Idaho received funds in the amount of $33,383 for the Sale of Materials. Since $33,383 was reported on Enclosure 2 for the State of Idaho, the State of Idaho should report all the counties that received those funds on Enclosure 3. If the total amount reported for all the counties totals $33,383, there is no difference to reconcile. If Idaho reports the total amount of funds received for all counties on Enclosure 3 is $33,000 vs the $33,383 reported on Enclosure 2, Idaho must provide a detailed explanation for the difference on Enclosure 4 by county.

Using the Enclosure 4 is not a requirement, however, any differences between the amounts reported on Enclosure 2 reported by the Federal agencies and Enclosure 3 amounts provided by your state must be explained.

Completing the Enclosure 4 does not eliminate the requirement for a detailed explanation of any variances between Enclosure 2 and 3 in the Certification Statement.

The following screen shot is an example of the Enclosure 4 attachment:

ENCLOSURE 4

An explanation for completing Enclosure 4 is outlined in the following pages.

Row 3

AMERICAN OVERSIGHT

To easily identify the state submitting the Enclosure 4 spreadsheet, please populate your state name in this row. Enter your state name after "for the State of:" heading as shown below.

for the State of: Idaho

Row 6 - Columns B through M

Enter the amounts listed corresponding to the column headings in the Enclosure 2 spreadsheet for your state.

For example, transfer the total amounts from cells B24 through M24 listed in Enclosure 2 for the State of Idaho (displayed below) to cells B6 through M6 in Enclosure 4 (displayed below).

Enclosure 2:

	A	B	C	D	E	F	I	J	K	L	M	N	O	P

Row 7 – Column N

Do not enter data into cell N7. This cell contains a formula that automatically sums up the amounts from cells B7 through M7. This amount should correspond (equal) the total amount listed in your Enclosure 3 circled above.

Row 8 – Columns B through N

Do not enter data into cells B8 through N8 on the Enclosure 4 spreadsheet. These cells contain a formula that automatically calculates the difference between the amount reported by the Federal agencies on Enclosure 2 and the amounts reported by you on Enclosure 3.

These differences must be explained.

Row 10 - Reconciliation

To reconcile any differences on the Enclosure 4 spreadsheet, enter the name of the county and amount of difference in the corresponding columns until all the differences have been explained. Do not enter data into the "Total" or "Difference" cells. These cells contain formulas that automatically calculate totals and differences, if any.

Example of Enclosure 4 Difference Totals **before** Reconciliation:

7	COUNTY TOTALS			2,096,999			3,501,535						128	5,598,662

Example of Enclosure 4 Difference Totals **after** Reconciliation:

7	COUNTY TOTALS			2,196,688	104	2,653	5,072,120	213,288	28,715		33,383	129,344	128	7,676,423
8	DIFFERENCE	-	-	-	-	-	-	-	-	-	-	-	-	-

It is recommended that differences be explained one county at a time starting with the first county listed on the Enclosure 3 spreadsheet for which there is a difference between the total prior year payment and the deductible amount.

For example, the State of Idaho reported that the county of Ada (the first county listed on Idaho's

	B	C	D	E	F	G	H	I	J	K	L	M

8	ADA COUNTY				1382							1382

Enclosure 3 spreadsheet) received prior year payments in the amount of $1,382 from ONRR/BLM for Mineral Leasing (displayed below).

AMERICAN OVERSIGHT

Idaho Code, Section 57-1306, states that 90% of the mineral lease receipts are distributed to the Public School Income fund and the other 10% is distributed to the general fund of the counties where the revenue was generated.

In our example, Idaho had received $13,820 for Ada County for mineral leasing. Pursuant to the code, 10% of the $13,820 revenue received ($1,382) was passed through to Ada (as displayed above in Idaho's Enclosure 3) and the remaining 90% ($12,438) was distributed to the Public School Income fund. Since $12,438 was distributed to the schools and not to the county, this amount is recorded on the reconciliation spreadsheet under the corresponding column. A notation for the difference is entered under the "Explanation" column of the spreadsheet as displayed below.

Ada County						$ 12,438							$ 12,438	Idaho Code, Section 57-1306, states that 90% of mineral lease receipts are distributed to the Public School fund

The corresponding "County Totals" and "Difference" cells located at the bottom of Enclosure 4 will automatically update as amounts are entered. Continue this process until the difference row in the Enclosure 4 is $0.00 indicating that any differences between the Enclosure 2 and 3 totals are reconciled.

CERTIFIED STATEMENT

The Department of the Interior will calculate PILT payments (certify payment computations) only after receiving a statement outlining all land revenue sharing payments that each local government received from the state during the previous fiscal year.

The statement must be signed by the Governor or a designated official of the state in which the local government is located.

The Certification shall include an explanation of any differences between the amounts reported as paid to states on the Enclosure 2 spreadsheet and the amounts reported by the states on the Enclosure 3 spreadsheet.

Explanations shall include the corresponding applicable state laws that govern how amounts received should be used (including those amounts that do not flow through the state but are received by the local units directly) and any state legislation that may have been enacted since July 30, 2017, directing the state to reallocate PILT payments to other smaller units of local government.

SUBMISSION

The following should be submitted by the appropriate state office to the Department of the Interior:

- Certified Statement
- Enclosure 3
- Enclosure 4 or similar reconciliation balance sheet (if applicable)
- Copies of applicable state laws that govern how amounts received should be used

AMERICAN OVERSIGHT

(include those amounts that do not flow through the state but are received by the local units directly).
- Statement that there is no state law that governs how these amounts are to be used if applicable.
- Copy(s) of any state legislation that may have been enacted since July 30, 2017, directing the state to reallocate PILT payments to other smaller units of local government (this information is used to determine if and when the Federal payment should be made to the state government).

The Certified Statement, Enclosure 3, and all supplementary information outlined above should be emailed to doi_pilt@ios.doi.gov by January 23, 2018.

Failure to furnish this information would make it impossible for us to compute and make the in-lieu payments to local governments within your state.

If you have any questions concerning this information request, please call or e-mail Ms. Dionna Kiernan of the DOI Office of Budget on (202) 513-7783 or doi_pilt@ios.doi.gov. Additional information regarding the PILT program as well as a copy of the PILT Act is available at www.doi.gov/pilt/.

NOTE: AMOUNTS SHOWN ON THIS TABLE REPRESENT PAYMENTS MADE TO STATE OR LOCAL GOVERNMENTS DURING THE TIME PERIOD OF OCTOBER 2016 THROUGH SEPTEMBER 2017.

IF ANY PAYMENTS MADE TO THE STATE WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS OR WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS DURING THE OCTOBER 2016 THROUGH SEPTEMBER 2017 TIME PERIOD THEN THOSE PAYMENTS SHOULD NOT BE INCLUDED IN THE SUBMISSION. PLEASE CHECK WITH YOUR STATE TREASURER'S OFFICE TO DETERMINE IF STATE RECEIVED PAYMENTS WERE DISTRIBUTED AND WHEN.

Paperwork Reduction Act Statement The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) requires us to inform you that this information is being used to compute payments due units of general local government under the PILT Act (31 U.S.C. 6901-6907). Responses to this request is required to obtain a benefit. The public reporting burden for this collection of information is estimated to average 53 hours per response, including the time required for gathering the data needed and completing the reviewing the collection of information form. Send comments on the burden estimate or on any other aspect of this information collection, including suggestions for reducing this burden, to the Department of the Interior, Office of Budget, MS 4116, 1849 C St. NW, Washington, DC 20240. Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

NOTE: AMOUNTS SHOWN ON THIS TABLE REPRESENT PAYMENTS MADE TO STATE OR LOCAL GOVERNMENTS DURING THE TIME PERIOD OF OCTOBER 2016 THROUGH SEPTEMBER 2017.

IF ANY PAYMENTS MADE TO THE STATE WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS OR WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS DURING THE OCTOBER 2016 THROUGH SEPTEMBER 2017 TIME PERIOD THEN THOSE PAYMENTS SHOULD NOT BE INCLUDED IN

Paperwork Reduction Act Statement The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) requires us to inform you that this information is being used to compute payments due units of general local government under the PILT Act (31 U.S.C. 6901-6907). Responses to this request is required to obtain a benefit. The public reporting burden for this collection of information is estimated to average 53 hours per response, including the time required for gathering the data needed and completing the reviewing the collection of information form. Send comments on the burden estimate or on any other aspect of this information collection, including suggestions for reducing this burden, to the Department of the Interior, Office of Budget, MS 4116, 1849 C St. NW, Washington, DC 20240. Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

NOTE: AMOUNTS SHOWN ON THIS TABLE REPRESENT PAYMENTS MADE TO STATE OR LOCAL GOVERNMENTS DURING THE TIME PERIOD OF OCTOBER 2016 THROUGH SEPTEMBER 2017.

IF ANY PAYMENTS MADE TO THE STATE WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS OR WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS DURING THE OCTOBER 2016 THROUGH SEPTEMBER 2017 TIME PERIOD THEN THOSE PAYMENTS SHOULD NOT BE INCLUDED

Paperwork Reduction Act Statement The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) requires us to inform you that this information is being used to compute payments due units of general local government under the PILT Act (31 U.S.C. 6901-6907). Responses to this request is required to obtain a benefit. The public reporting burden for this collection of information is estimated to average 53 hours per response, including the time required for gathering the data needed and completing the reviewing the collection of information form. Send comments on the burden estimate or on any other aspect of this information collection, including suggestions for reducing this burden, to the Department of the Interior, Office of Budget, MS 4116, 1849 C St. NW, Washington, DC 20240. Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

NOTE: AMOUNTS SHOWN ON THIS TABLE REPRESENT PAYMENTS MADE TO STATE OR LOCAL GOVERNMENTS DURING THE TIME PERIOD OF OCTOBER 2016 THROUGH SEPTEMBER 2017.

IF ANY PAYMENTS MADE TO THE STATE WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS OR WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS DURING THE OCTOBER 2016 THROUGH SEPTEMBER 2017 TIME PERIOD THEN THOSE PAYMENTS SHOULD NOT BE INCLUDED IN THE

Paperwork Reduction Act Statement The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) requires us to inform you that this information is being used to compute payments due units of general local government under the PILT Act (31 U.S.C. 6901-6907). Responses to this request is required to obtain a benefit. The public reporting burden for this collection of information is estimated to average 53 hours per response, including the time required for gathering the data needed and completing the reviewing the collection of information form. Send comments on the burden estimate or on any other aspect of this information collection, including suggestions for reducing this burden, to the Department of the Interior, Office of Budget, MS 4116, 1849 C St. NW, Washington, DC 20240. Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

NOTE: AMOUNTS SHOWN ON THIS TABLE REPRESENT PAYMENTS MADE TO STATE OR LOCAL GOVERNMENTS DURING THE TIME PERIOD OF OCTOBER 2016 THROUGH SEPTEMBER 2017.

IF ANY PAYMENTS MADE TO THE STATE WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS OR WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS DURING THE OCTOBER 2016 THROUGH SEPTEMBER 2017 TIME PERIOD THEN THOSE PAYMENTS SHOULD NOT BE INCLUDED

Paperwork Reduction Act Statement The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) requires us to inform you that this information is being used to compute payments due units of general local government under the PILT Act (31 U.S.C. 6901-6907). Responses to this request is required to obtain a benefit. The public reporting burden for this collection of information is estimated to average 53 hours per response, including the time required for gathering the data needed and completing the reviewing the collection of information form. Send comments on the burden estimate or on any other aspect of this information collection, including suggestions for reducing this burden, to the Department of the Interior, Office of Budget, MS 4116, 1849 C St. NW, Washington, DC 20240. Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

NOTE: AMOUNTS SHOWN ON THIS TABLE REPRESENT PAYMENTS MADE TO STATE OR LOCAL GOVERNMENTS DURING THE TIME PERIOD OF OCTOBER 2016 THROUGH SEPTEMBER 2017.

IF ANY PAYMENTS MADE TO THE STATE WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS OR WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS DURING THE OCTOBER 2016 THROUGH SEPTEMBER 2017 TIME PERIOD THEN THOSE PAYMENTS SHOULD NOT BE INCLUDED IN THE

Paperwork Reduction Act Statement The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) requires us to inform you that this information is being used to compute payments due units of general local government under the PILT Act (31 U.S.C. 6901-6907). Responses to this request is required to obtain a benefit. The public reporting burden for this collection of information is estimated to average 53 hours per response, including the time required for gathering the data needed and completing the reviewing the collection of information form. Send comments on the burden estimate or on any other aspect of this information collection, including suggestions for reducing this burden, to the Department of the Interior, Office of Budget, MS 4116, 1849 C St. NW, Washington, DC 20240. Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

NOTE: AMOUNTS SHOWN ON THIS TABLE REPRESENT PAYMENTS MADE TO STATE OR LOCAL GOVERNMENTS DURING THE TIME PERIOD OF OCTOBER 2015 THROUGH SEPTEMBER 2016. PAYMENTS MADE DIRECTLY TO THE STATE GOVERNMENT ARE MARKED WITH AN (*) , PAYMENTS MADE DIRECTLY TO LOCAL GOVERNMENT UNITS ARE NOT MARKED.

PLEASE BE SURE THAT PAYMENTS MARKED WITH AN (*) WERE ACTUALLY DISTRIBUTED BY THE STATE TO LOCAL GOVERNMENTS AND WERE DISTRIBUTED OR RECEIVED BY THE LOCAL GOVERNMENT DURING THE OCTOBER 2015 THROUGH SEPTEMBER 2016 TIME PERIOD.

IF ANY PAYMENTS MADE TO THE STATE WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS AT ALL OR WERE NOT DISTRIBUTED TO LOCAL GOVERNMENTS DURING THE OCTOBER 2015 THROUGH SEPTEMBER 2016 TIME PERIOD THEN THEY SHOULD NOT BE INCLUDED IN THE SUBMISSION. PLEASE CHECK WITH YOUR STATE TREASURER'S OFFICE TO DETERMINE IF STATE RECEIVED PAYMENTS WERE DISTRIBUTED AND WHEN.

Paperwork Reduction Act Statement The Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) requires us to inform you that this information is being used to compute payments due units of general local government under the PILT Act (31 U.S.C. 6901-6907). Response to this request is required to obtain a benefit. The public reporting burden for this collection of information is estimated to average 53 hours per response, including the time required for gathering the data needed and completing and reviewing the collection of information form. Send comments on the burden estimate or on any other aspect of this information collection, including suggestions for reducing this burden, to Department of the Interior, Office of Budget, MS 4116 MIB, 1849 C St. NW, Washington, DC 20240. Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Proposed Conservation Bond Language- 2019 Legislative Session

Section 1.
Chapter 6, Statutes of Nevada 2001, 17th Special Session, is hereby amended to read as follows: At the general election held on November 5, 2002, the voters of this state, in the manner prescribed by chapter 349 of NRS, approved passage of Ballot Question 1 which allowed the State of Nevada to issue general obligation bonds of the state to protect, preserve and obtain the benefits of the property and natural resources of this state in an amount not to exceed $200,000,000. Passage of Ballot Question 1 allowed bonds to be issued at one time or from time to time, and the Legislature levied such tax as was necessary to pay the principal of and interest on the bonds. The proceeds of such tax together with any other amounts appropriated to pay the principal of and interest on the bonds when due was deposited in the consolidated bond interest and redemption fund.

Sec. 2. Given that the voters of this State approved a question that was submitted by the Nevada Legislature in accordance with subsection 1 of NRS 349.010 for the State to issue general obligation bonds of the state to protect, preserve and obtain the benefits of the property and natural resources of this state in an amount not to exceed $200,000,000:

1. Such approval shall be deemed to constitute approval of the qualified electors for the issuance of general obligation bonds by the State, and no other approval of the qualified electors is required for the continued issuance of general obligation bonds in the amount of $200,000,000 to protect, preserve and obtain the benefits of the property and natural resources of this state after the completed issuance of the initial issued general obligation bond.
    a. The approval by voters shall not allow the continued issuance of general obligation bonds to protect, preserve and obtain the benefits of the property and natural resources of this state if they contravene the limit of indebtedness provided by the Constitution of the State of Nevada.
    b. The minimum amount of general obligations bonds issued each fiscal year by the State to protect, preserve and obtain the benefits of the property and natural resources of this state shall be no less than $10,000,000.
    c. Notwithstanding the provisions of NRS 349.078, the State Board of Finance may continue to issue general obligation bonds of the State to protect, preserve and obtain the benefits of the property and natural resources of this State pursuant to chapter 6, Statutes of Nevada 2001, 17th Special Session until June 30, 2039.

Sec. 3. The proceeds of the bonds issued pursuant to section 2 of this act, after deducting applicable charges, must be deposited in the Fund to Protect Natural Resources created pursuant to section 3 of chapter 6, Statues of Nevada 2001, 17th Special Session, and, notwithstanding the provisions of chapter 6, Statues of Nevada 2001, 17th Special Session, to the contrary must be used as follows:

Sec. 4. Except as otherwise provided in subsection 10 of section 5 of this act, of the total bond issue, pursuant to section 2 of this act:

1. An amount of $10,000,000 must be allocated to the Walker River State Recreation Area for the following purposes:

(a) Planning, development, and design of the Walker River State Recreation Area;

AMERICAN OVERSIGHT

(b) Design or construction of recreational facilities, campsites, and recreational trails, including, without limitation, hiking, equestrian, and bicycle trails;

(c) Design or construction of buildings or other facilities for the Walker River State Recreation Area; or

(d) Providing other infrastructure for the Walker River State Recreation Area.

2. An amount of $30,000,000 must be allocated to the Las Vegas Springs Preserve in Clark County for the following purposes:

(a) Planning, development, or design of the preserve;

(b) Providing wildlife habitat;

(c) Design or construction of buildings or other facilities for the preserve; or

(d) Providing other infrastructure for the preserve.

3. An amount of $10,000,000 must be allocated in Clark County for the wetlands park and the Las Vegas Wash. The money allocated pursuant to this paragraph must be used to:

(a) Divert water, control erosion, and make improvements to restore the existing wetlands, and to create new wetlands;

(b) Acquire and develop land or water rights; and

(c) Provide recreational facilities.

4. An amount of $30,000,000 must be allocated to the Nevada Division of Museums and History for the Nevada State Railroad Museum, Boulder City for the following purposes:

(a) Design or construction of buildings or other infrastructure for the railroad museum;

(b) Providing other infrastructure for the railroad museum;

(c) Moving exhibits from other locations to the museum; or

(d) Creation of new exhibits.

5. An amount of $20,000,000 must be allocated to the Ice Age Fossils State Park, also known as Tule Springs State Park, for the following purposes:

(a) Planning, development, and design of Ice Age Fossils State Park;

(b) Design or construction of recreational facilities, campsites, and recreational trails, including, without limitation, hiking, equestrian, and bicycle trails;

(c) Design or construction of buildings or other facilities for Ice Age Fossils State Park; or

(d) Providing other infrastructure for Ice Age Fossils State Park.

6. An amount of $10,000,000 must be allocated to the Outside Las Vegas Foundation for the following purposes:

(a) Planning, development, or design of the Las Vegas Valley Rim Trail;

(b) Design or construction of recreational facilities, campsites, and recreational trails, including, without limitation, hiking, equestrian, and bicycle trails;

(c) Design or construction of buildings or other facilities for the Las Vegas Valley Rim Trail.

7. An amount of $8,000,000 must be allocated to the City of Las Vegas for the following purposes:

(a) Restoration of the Huntridge Theater;

(b) Development, design or construction of additional infrastructure or facilities for the Huntridge Theater.

8. An amount of $8,000,000 must be allocated to Clark County for the following purposes:

(a) Planning, development or design of parks in Clark County;

(b) Design or construction of recreational facilities or recreational trails, including, without limitation, hiking, equestrian, and bicycle trails for parks;

AMERICAN OVERSIGHT

(c) Design or construction of buildings or other facilities for parks.

9. An amount of $5,000,000 must be allocated to the Nevada Arts Council to establish a matching grant program for the following purposes:

(a) Planning, development or design of an art museum in Clark County;

(b) Creation of exhibits related to water issues and infrastructure along the Colorado River.

10. An amount of $2,000,000 must be allocated to the Nevada Division of Museums and History for the East Ely Railway Depot Museum for the following purposes:

(a) Design or construction of buildings or other infrastructure for the railroad museum;

(b) Providing other infrastructure for the railroad museum;

(c) Moving exhibits from other locations to the museum; or

(d) Creation of new exhibits.

11. An amount of $2,000,000 must be allocated to the City of Caliente for following purposes:

(a) Design or construction of buildings or other infrastructure for the Caliente Railroad Depot;

(b) Moving exhibits from other locations to the Caliente Railroad Depot; or

(c) Creation of new exhibits for the Caliente Railroad Depot.

12. An amount of $65,000,000 must be allocated to the State Department of Conservation and Natural Resources to be administered by the Division of State Lands to carry out the purposes set forth in this subsection. The money allocated pursuant to this subsection must be used for the following purposes:

(a) To make grants to state agencies, counties, municipalities, and private non-profit organizations that qualify for grants pursuant to the regulations adopted by the Administrator of the Division of State Lands for the following purposes:

(1) Design or construction of trails, recreational facilities, and campsites;

(2) Design or construction of campsites or youth camp facilities;

(3) Development or adoption of open spaces;

(4) Acquisition of land and water or land and water interests to protect and enhance wildlife habitat, sensitive or unique vegetation, historic or cultural resources, riparian corridors, wetlands, and other environmental resources pursuant to an adopted plan for open spaces;

(5) Acquisition of land and water or land and water interests for the public benefit to protect and enhance wildlife habitat, sensitive or unique vegetation, historic or cultural resources, riparian corridors, floodplains and wetlands, and other environmental resources;

(6) Acquisition of real or personal property or interests in real or personal property to enhance, protect, and manage wildlife and wildlife habitat, or enhance recreational opportunities related to wildlife, or both;

(7) Development, renovation, or improvement of existing facilities or habitat for fish or other wildlife;

(8) Acquisition of land and water or land and water interests for urban parks and green belts;

(9) Development of habitat conservation plans;

(10) Enhancement and restoration of the Carson River corridor;

(11) Enhancement and restoration of the Truckee River;

(12) Enhancement and the development of the Lake Tahoe Path System;

(13) Design, construction or development of infrastructure for county and municipal museums;

AMERICAN OVERSIGHT

(14) Design, construction or development of state parks;
(15) Purchase and retirement of conservation credits.

(b) Grants allocated pursuant to subsection 12 of section 4 shall be disbursed in the following manner:

(1) No less than $10,000,000 shall be allocated to projects for the design or construction of campsites and youth camp facilities within Clark County.
(2) No less than $27,000,000 shall be allocated to projects within Carson City, and the counties of: Churchill, Douglas, Elko, Esmerelda, Eureka, Humboldt, Lander, Lincoln, Lyon, Mineral, Nye, Pershing, Storey, or White Pine.
(3) No less than $20,000,000 shall be allocated to projects within Washoe County.
(4) No less than $5,000,000 shall be allocated to projects for the design or construction of campsites and youth camp facilities within Washoe County.

Sec. 5. 1. No grant may be awarded pursuant to subsection 12(a)(3-12) of section 4 of this act unless the recipient of the grant provides a matching amount that is not less than 25 percent of the total cost of the project, plan or acquisition funded by the grant.

2. The Director of the State Department of Conservation and Natural Resources shall prescribe the method pursuant to which the entities that administer the programs and projects described in section 4 of this act may request money from the Fund to Protect Natural Resources in accordance with the allocations made pursuant to that section.

3. The State Department of Conservation and Natural Resources may use the proceeds from the bonds issued pursuant to section 2 of this act and the interest income thereon to defray the costs of administering the provisions of this act and may request an appropriation to defray the costs of administering this act if the money in the fund is not sufficient. The money in the fund must be used only for the purposes set forth in this act and must not be used to replace or supplant funding available from other sources.

4. Any interest or income earned on the money in the fund must be credited to the fund. Any money remaining in the fund at the end of the fiscal year does not revert to the general fund but remains in the fund for authorized expenditure.

5. All claims against the fund must be paid as other claims against the state are paid.

6. Any interests in land or water acquired by the state pursuant to this act:

(a) Must be acquired and held by the Division of State Lands pursuant to chapter 321 of NRS.

(b) Must not be acquired by condemnation or the power of eminent domain.

7. The acquisition of any water rights pursuant to this act must not have a negative impact on the distribution of water to other persons who hold valid water rights.

8. Any property acquired pursuant to the provisions of this act may include easements and other interests in land. Before acquiring any interest in land pursuant to this act, recipients of money pursuant to this act must consider such alternatives to the acquisition of fee simple title as may be available, including, without limitation, the acquisition of easements and remainders after life estates.

9. If any interests in land or water acquired by the state pursuant to this act, or portions thereof, are later determined not to be necessary to carry out the purposes of the act, those interests may be sold or leased by the Division of State Lands pursuant to chapter 321 of NRS and the

AMERICAN OVERSIGHT

proceeds deposited in the fund to protect natural resources. The proceeds received from such transactions must be expended to carry out the purposes of this act.

10. Money may be reallocated among the purposes set forth in each subsection of section 4 of this act with the advance approval of the Interim Finance Committee.

11. The Administrator of the Division of State Lands of the State Department of Conservation and Natural Resources may adopt such regulations as are necessary to carry out the programs and projects and award the grants described in subsection 12 of section 4 of this act.

12. The Department of Wildlife may use up to 5 percent of the money allocated pursuant to subsection 12(a)(5)(6)(7) of section 4 of this act for expenses relating to personnel required to implement programs and projects funded pursuant to that subsection.

Sec. 6. The Legislature finds and declares that the issuance of bonds pursuant to this act:

1. Is necessary for the protection and preservation of the property and natural resources of this state and for the purpose of obtaining the benefits thereof; and

2. Constitutes an exercise of the authority conferred by the second paragraph of section 3 of article 9 of the Constitution of the State of Nevada.

Sec. 7. To the extent not inconsistent with the provisions of this act, the provisions of the State Securities Law, contained in chapter 349 of NRS, apply to the bonds issued pursuant to this act.

Sec. 8. Notwithstanding the provisions of NRS 361.453 to the contrary, any levy imposed by the legislature for the repayment of bonded indebtedness issued pursuant to the provisions of this act must not be included in calculating the limitation set forth in subsection 1 of NRS 361.453 on the total ad valorem tax levied for all public purposes.

Sec. 9. If any provision of this act, or application thereof to any person, thing or circumstance, is held invalid, the invalidity shall not affect the provisions or application of this act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

Sec. 10. This act becomes effective on July 1, 2019.

Subject: Advance Copy of Press Release on Blockchains retaining Lance Gilman
Attachments: 2018_03-26_Lance Gilman comes to Blockchains_clean (1).pdf

Gentlemen,

Attached is an advance copy of a press release that will go out Monday morning to the media. This is a joint Blockchains/Lance Gilman announcement that Blockchains has retained the Lance Gilman team to coordinate Development and Marketing for the Blockchains projects in Northern Nevada.

Thanks very much.

Kris

AMERICAN OVERSIGHT

MEDIA RELEASE

BLOCKCHAINS, LLC HIRES LANCE GILMAN TEAM AS DEVELOPMENT AND MARKETING COORDINATOR

March 23, 2018

(Reno, NV) – The new owner of the vast majority of available land at Tahoe-Reno Industrial Center, **Blockchains, LLC** has retained **Lance Gilman** as Development and Marketing Coordinator for the company in Northern Nevada. He will be assisted in this role by Kris Thompson, who has maintained similar responsibilities alongside Gilman for nearly a decade.

Blockchains, LLC recently purchased over 67,000 acres (104) square miles in Tahoe-Reno Industrial Center (TRI), making it the largest landholder by far in the industrial park, with a total landmass over 20 times larger than the Tesla property.

Gilman will be providing assistance to Blockchains, LLC in coordinating overall development, infrastructure, land planning, government relations, and marketing.

"I'm honored to be brought on board with Blockchains," said Lance Gilman. "Their vision for the property is truly epic in size and scope. They will formally roll out their plans to the public in the next few months, and everyone in Northern Nevada better buckle their seatbelts for this one. Blockchains's plans and concepts, when built, will change the face of Northern Nevada in much the same way Tesla and Switch have, perhaps even more so. It will put Blockchains and Nevada in the pole position for the race to capture the dominant market share around the globe for blockchain technology.

"I still also represent TRI and my best friend Don Roger Norman, as before," Gilman said. "Roger gave me his blessing for this opportunity, as he and Jeff [Blockchains's CEO] have developed a very close friendship. Real good chemistry there, they really hit it off. Roger is convinced that Jeff and his team are best possible choice to carry on Roger's dreams at TRI, and then take it far, far beyond into a future that will be incredible for our economy and Northern Nevadans."

"Lance has a proven track record of success in development and marketing," said David Berns, President of Blockchains, LLC. "When I started looking for land up here, I kept hearing Lance is the greatest salesman on earth," Berns chuckled, "and the next thing I knew, we were buying half of Storey County. Well, we quickly agreed 'we want that guy working for us.'"

AMERICAN OVERSIGHT

“After a nationwide search, we selected TRI as the site for our project, or I should say projects,” said Berns. “We will be rolling it out in the coming months, but I can tell you it’s big, very big, and it’s never been done before. We have spent our adult lives representing consumers battling against injustice, and now we want to give back to consumers and businesses by showcasing a broad technology that puts the power to control information and finances in their hands, in their own communities, and not in the hands of the financial elites of the world.

Media Inquiries:

Rich Crombie 775-240-7958

Blockchains, LLC is at the forefront of one of the most revolutionary innovations since the advent of the Internet, blockchain distributed ledger technology. A premier innovator in the blockchain space, Blockchains conceptualizes and incubates blockchain-powered ideas, ventures, and businesses.

Blockchains’s current projects focus on financial services, trusted identity solutions, and software development of distributed applications (Dapps) on the Ethereum blockchain. Blockchains serves as a proponent and platform for the next generation of technological disruption—changing the way individuals and businesses transact and interact with one another all across the world.

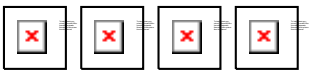
From: Jarad Van Wagoner <jarad.vanwagoner@rrpartners.com>
Sent: Friday, September 07, 2018 11:44 AM
To: Andrew Clinger
Subject: Andrew Clinger Call - Governor's Tech Summit Discussion
Attachments: attachment.ics; Tech Summit_Draft Run of Show.docx; Draft_Panel Run of Show.docx

Based on initial discussions with Tesla and Blockchains, we've put together a proposed agenda for the Tech Summit. I've attached it as well as a detailed draft of the proposed run of show for the panel portion of the Summit.

We think it would be great to have representation on the panel from CEOs/senior executives of the following companies:

- Elon Musk, Tesla (confirmed). He will make remarks. The CTO for Tesla, JB Straubel, may participate in the panel.
- Jeff Berns, Blockchains, LLC (confirmed)
- Rob Roy, Switch (confirmed)
- Wal-Mart (pending)
- Panasonic (pending)
- Google (pending)
- Apple (pending)



Also, below are a number of questions/issues that would benefit from the Governor's or staff's input. We can discuss on Monday or when we can get on the phone.

Questions

1. Any thoughts or direction on the proposed draft agenda and panel organization?
2. Invited Participants and Attendees – attendance can be kept to 30-50 or we can go as big as up to 100.
    a. Panelists? Anybody to add?
    b. Other attendees: EDAWN, Reno-Sparks Chamber of Commerce, other local businesses.
    c. State Agency attendees: GOED, etc.
3. Press Engagement for the Governor:
    a. Is Governor open to one-on-one interviews with press or would he prefer a press pool scenario for questions?
4. Proclamations: I'll leave this to Pete and Michon to follow up with the Governor regarding the status of any proclamations at this point.
5. GOED Participation: Will GOED participate in the event? Assist with press coverage?

AMERICAN OVERSIGHT

Stephanie M. Klapstein

Subject: Andrew Clinger Call - Governor's Tech Summit Discussion
Location: 719-651-0709

Start: Mon 9/10/2018 3:00 PM
End: Mon 9/10/2018 3:30 PM
Show Time As: Tentative

Recurrence: (none)

Meeting Status: Not yet responded

Organizer: Jarad Van Wagoner

Based on initial discussions with Tesla and Blockchains, we've put together a proposed agenda for the Tech Summit. I've attached it as well as a detailed draft of the proposed run of show for the panel portion of the Summit.

We think it would be great to have representation on the panel from CEOs/senior executives of the following companies:

- Elon Musk, Tesla (confirmed). He will make remarks. The CTO for Tesla, JB Straubel, may participate in the panel.
- Jeff Berns, Blockchains, LLC (confirmed)
- Rob Roy, Switch (confirmed)
- Wal-Mart (pending)
- Panasonic (pending)
- Google (pending)
- Apple (pending)

Also, below are a number of questions/issues that would benefit from the Governor's or staff's input. We can discuss on Monday or when we can get on the phone.

Questions

1. Any thoughts or direction on the proposed draft agenda and panel organization?
2. Invited Participants and Attendees – attendance can be kept to 30-50 or we can go as big as up to 100.
   * Panelists? Anybody to add?
   * Other attendees: EDAWN, Reno-Sparks Chamber of Commerce, other local businesses.
   * State Agency attendees: GOED, etc.
3. Press Engagement for the Governor:

   * Is Governor open to one-on-one interviews with press or would he prefer a press pool scenario for questions?

1. Proclamations: I'll leave this to Pete and Michon to follow up with the Governor regarding the status of any proclamations at this point.
2. GOED Participation: Will GOED participate in the event? Assist with press coverage?

AMERICAN OVERSIGHT

Panel Run of Show
60-75 Minutes Total

Opening/Introductory Remarks – 10 to 20 minutes

- Option 1: Introductory Remarks by Moderator (Governor) – 5-10 minutes
    - Introduce:
        - Participants
        - General topic and format

- Moderator would need scripted, short bio/highlights for each participant

- Option 2: Introductory Remarks by Moderator (Governor) – 15-20 minutes
    - Invite each participant to introduce themselves
        - 2-3 minutes each
    - Introduce general topic and format

Question and Answer – 25 to 35 minutes

- Moderator will ask each participant two or three questions, depending on number of panelists
- Option to allow panel members to ask other panel members one question.

- All questions will need to be vetted/determined with the participants. NO SURPRISE QUESTIONS.

Closing Remarks – 5 to 15 minutes

- Option 1: Moderator makes closing remarks to summarize the discussion.

- Option 2: Moderator offers each participant to make a 90 second closing statement
    - Moderator offers each participant opportunity to make a 90 second closing statement
    - Moderator wraps up panel with summary – 3-5 minutes

Potential Panel Representation

- Tesla
- Blockchain
- Switch
- Wal-Mart
- Panasonic
- Google
- Apple

Potential Discussion/Question Topics

- Government policy impact on innovation. Opportunities and concerns
- Infrastructure opportunities and challenges – public and/or private

AMERICAN OVERSIGHT

- Social impact of innovation – opportunities and challenges
- What is your (Company Name) mission? Why do you do what you do?

Subject: Announcing the Milken Institute London Summit 2018 Agenda and Speakers

View web version

Tuesday, December 4, 2018 | Park Plaza Westminster Bridge

Dear Daniel,

We look forward to seeing you at the Milken Institute London Summit, on Tuesday, December 4, 2018, at the Park Plaza Wesminster Bridge. The full London Summit agenda is now **available online**.

Below are some of the sessions and speakers to expect at this year's London Summit, which will provide unique perspectives on and insights into what is destined for the United Kingdom and Continental Europe in a moment of great anticipation.

London Summit 2018 will feature more than 20 sessions, including:

- The Future of the United Kingdom and the European Union
- How Artificial Intelligence Will Change Business and People In The Coming Decade
- Global Trade Outlook in Perspective
- European Values, Identity and Politics in 2019
- Blockchain Applications on the Brink of Transforming Business
- Global Capital Markets In The Year Ahead

Our program will feature more than 120 speakers, including:

AMERICAN OVERSIGHT

- **Lord Mandelson**, Former European Trade Commissioner and British First Secretary of State
- **Ayaan Hirsi Ali**, Founder, AHA Foundation; Senior Fellow, Future of Diplomacy Project, Belfer Center for Science and International Affairs, Harvard University
- **Philippe Ducom**, President, ExxonMobil Europe
- **Mikhail Khodorkovsky**, Founder, Open Russia
- **Frauke Petry**, Member, Bundestag; Chair, die Blaue Partei; Former Chairwoman, Alternative for Germany
- **Matt Ridley**, Member, House of Lords; Journalist and Author

Subject: April 17, 2019 INVITE - An Opportunity Zone Conference with State, Local, Tribal, and Community Leaders

Governor's Senior Staff,

The White House Office of Intergovernmental Affairs in coordination with other Executive Office of the President components will be hosting **An Opportunity Zone Conference with State, Local, Tribal, and Community Leaders** on April 17, 2019 at the White House.

We extend an invitation to your Governor to have one representative from your State government at this conference. This could be a governor's policy staff member or governor's cabinet member (e.g., state economic development director, state housing director). Due to space limitations, we only have space for one (1) representative from the governor's team.

Please communicate the one individual from your state government to Olivia Imhoff (Olivia.P.Imhoff2@who.eop.gov) no later than Friday, April 5, 2019. Include their name, email address, and phone number. The White House will then extend an official invite to that individual.

Thanks,
Olivia

THE WHITE HOUSE

The White House Office of Intergovernmental Affairs invites you to attend

An Opportunity Zone Conference with State, Local, Tribal, and Community Leaders

April 17, 2019

1:00 p.m. - 4:00 p.m.

Please communicate the **one (1) individual from your state government attending this conference to Olivia Imhoff (Olivia.P.Imhoff2@who.eop.gov) no later than Friday, April 5,**

AMERICAN OVERSIGHT

2019. Include their name, email address, and phone number. The White House will then extend an official invite to that individual along with a registration link.

We are hosting an informational briefing call on Friday, March 29 for those who would like to learn more about the nature of this event. Please fill out the link below in order to receive dial-in information.

Informational Briefing Call About the Conference Friday, March 29 at 3:00 p.m. Eastern Time: Register for Call Here

A list of frequently asked questions is below. More information, including arrival instructions (i.e., address and times) and the itinerary, will be forthcoming. Pertinent event updates will be sent to the email address that you register with.

Sincerely,

White House Office of Intergovernmental Affairs

Frequently Asked Questions:

What information do I need to submit in order to attend? Clicking on the registration link provided above will outline the information you are required to submit in order to register to attend. Secret Service requires all visitors to submit this information prior to arrival. Please do not fill out this information if you cannot attend. It is essential that all information is submitted accurately. The information you submit must exactly match what is listed on your government issued photo identification that you will be required to present to Secret Service before entry onto White House grounds. The information you submit must exactly match that of your government issued identification (can be a passport, driver's license, etc.) that you will be required to present to Secret Service before entering White House grounds.

How do I know if I successfully registered? Once you click on the registration link, fill out all required information, and submit it, you will receive a confirmation message to the email address you provided. Please make sure to check your spam/junk email folder if you do not receive this confirmation.

What time should I plan to arrive? While the conference begins at 1:00 p.m., you'll want to plan on arriving by 12:30 p.m. in order to get through security. You'll be allowed to enter the White House grounds in the time window between 12:00 p.m. and 2:00 p.m.

What if the link does not work? If the registration link provided does not work or will not properly load, try using a different browser. If you are still unable to register, please contact White House Office of Intergovernmental Affairs staff or reply to this email.

Is this invitation transferable / can I bring a friend or relative? No, this invitation is non-transferable unless discussed with the White House Office of Intergovernmental Affairs. Any information submitted from an uninvited guest will not be processed.

Who is speaking and what's on the agenda? An agenda will be sent out prior to the conference; you can expect senior Administration officials to speak and participate in this conference.

AMERICAN OVERSIGHT

Where do I go? All events will take place on the White House complex (1600 Pennsylvania Avenue, NW, Washington DC). We will provide further information ahead of the event date.

How do I get around Washington, D.C.? For travel and transportation in Washington, D.C., taxies and ride sharing services are readily available. The metro is also a convenient way to travel. The closest metro stops are Metro Center and Farragut West. More information on the metro, including travel times and maps, can be found by clicking here.

For all other questions: Please reach out to Olivia Imhoff at (202) 881-7466 or Olivia.P.Imhoff2@who.eop.gov.

Subject: AUGUST 13, 2018 ELECTRONIC TRANSPORTATION BOARD MEETING PACKET
Attachments: August 13, 2018 Board Packet.pdf; August 13, 2018 Draft Agenda.pdf

Importance: High

Board Members, Directors and Assistants,

The August 13, 2018 Transportation Board Meeting packet is ready to be viewed on the FTP site, instructions for accessing the site can be found below.

To get to the site, click on this link: ftp://transboard.nevadadot.com

Once the screen comes up, click on 'View' and then 'Open FTP site in Windows Explorer'. If you are running Windows 7, an Internet Explorer Security window may come up letting you know a website wants to open web content on your computer. Click 'allow' to bring up the login screen.

To log on use the Username of transboard and password of NDOTmember (NDOT must be in caps, member must be in lower case, and there is no space between them).

Once logged in you will see several PDF documents. The packet is broken up by items for ease of navigating, though the document titled 'August 13, 2018 Board Packet' is the complete packet, including the agenda, in one file. Due to the size of the documents it may take a few moments for them to open. Copying the files from the FTP site to your computer should help them to open more quickly. Again, because of the size of the documents it may take a few minutes for them to copy to your computer.

** If you have trouble getting to the documents I have attached them to this email.**

AMERICAN OVERSIGHT

Please do not hesitate to contact Holli Stocks (hstocks@dot.nv.gov) or myself with any questions.
A hard copy packet can be provided upon request.

Transcript of Nevada Department of Transportation
Board of Directors Meeting
July 9, 2018

Governor Brian Sandoval
Lt. Governor Mark Hutchison
Controller Ron Knecht
Member Martin
Len Savage
BJ Almberg
Rudy Malfabon
Dennis Gallagher

Sandoval: Good morning, ladies and gentlemen. I will call the Nevada Department of Transportation Board of Directors Meeting to order. Full house. Everyone is bright-eyed and bushy-tailed after a holiday week, right, ready to go? That wasn't the enthusiastic response that I was looking for. Anyway, so, let's begin, and can you hear us loud and clear in Las Vegas, Frank?

Martin: Yes, sir.

Sandoval: And in Elko as well? All right, thank you. First Agenda item is Presentation of Retirement Plaques to 25+ Year Employees. Director Malfabon.

Malfabon: Thank you, Governor. Good morning, Board Members. What we'll do is I'll go over Items 1 and 2, and then we'll do the photo op with the Board Members present. First of all, the Agenda Item 1—oh, let me also mention that Ruth Borrelli, our Chief of the Right of Way Division, mentioned that Item 9, we did receive a signed facsimile. So, we are going to remove Item No. 9 from the Agenda today because we did reach a settlement with the owner. Moving on to Item 1, the retirees, we wanted to wish all of these folks well. They've served, nearly all of them, this time, nearly three decades of service each, but let me start out with Sherry Barkdull, who retired from financial management. She was Management Analyst III with 33 years of service. Ed Ely, Highway Maintenance Supervisor II from District 2, 25 years of service. Paul Frost, who was the Chief of Roadway Design, retired with 25 years of service. Reid Kaiser, who is well known around these parts, congratulations, Reid, 28 years of service, retired as the Assistant Director of Operations. I'll mention in the Director's Report a new face at the table. You all know him, too. Richard Lopez, Engineering Tech V in Right of Way Survey Services retired with 29 years of service. Deborah McCurdy, Management Analyst III, 30 years of service in information technology. Michael Montes, Highway Maintenance Worker III in Lovelock, 31 years of service.

DRAFT

AMERICAN OVERSIGHT

Chris Petersen, you might recall me addressing him as a "design stud" because he was involved in all the major projects. He got a lot of needling from that, Supervisor III in Roadway Design, 30 years of service. Ed Shope, Highway Maintenance Supervisor I in Gardnerville, 30 years of service here in District 2, Gardnerville. Don Tom, Highway Maintenance Supervisor I in Fallon, 33 years of service, another one from District 2. So, where were you before you were promoted? You lost a lot of people in District 2, but we wish them well. You know, with that many years of service going out the door, we really will miss that, all that experience, and we want them to do well whether they're going to be working in a second career or going fishing. We want to just express our appreciation for their years of service to the state of Nevada and especially to the Nevada Department of Transportation. Governor, I know that you wanted to say a few words.

Sandoval: Thank you, Director, and I was trying to do this napkin math, but it's well over three hundred years of experience that we're recognizing today. Will the individuals who are here that are retiring that were just called, will you please raise your hands? Reid is the only one? [laughter] You know, I'd be with—wherever they are, I want to be there, too. In six months, maybe I will be, but any event, for you, Reid, and for everybody else that are not here, but I think we will have a nice record in the minutes about it. I think in this day and age, it's simply remarkable that somebody will spend three decades with an organization and serve the state and serve the people of Nevada, and the portfolio of individuals that Rudy named have brought a swath of experience that is just amazing. And public service is a calling, and I know we have a lot of folks here that are on the staff, and I think I've said this before. We have a great opportunity and a great gift to be able to wake up every day and serve the people of this state, and particularly in the Nevada Department of Transportation, this is a responsibility that touches every man, woman, and child in Nevada. And as I said, I'm coming to my end, but this isn't about me. It's about what I've seen for the past seven-and-a-half years and the dedication and the commitment to ensure that we have the best infrastructure and the best transportation system in America. And it really makes me proud as I drive around the state to see what has been accomplished. It really makes me proud when we have these natural disasters and these snow storms and things and see the response and see those crews out there in the toughest of conditions and taking the risks and doing whatever it takes to make sure that the people of this state are safe. And it's bittersweet for me to see all these individuals go because they really have done a great job for the state, but you've earned it. I mean, you've earned a great retirement, although I know you're

AMERICAN OVERSIGHT

going to keep working, Reid, which is—but in any event, for all those individuals have really earned the opportunity to stop and take a breath and really have that sense of satisfaction for what you've accomplished on behalf of the people of the state of Nevada. So, I'm not sure if any of the other Board Members have any words that they'd like to say, but I know that I speak on behalf of all the people of Nevada and offer my heartfelt thanks for a job well done. So, thank you very much. [applause] Anyone else have any comments they'd like to make?

Knecht: Second.

Sandoval: Okay. All right. Thank you, Rudy.

Malfabon: Memorial hats that were provided by one of the mothers of the deceased. We wanted to commemorate that and take a photo of the folks wearing the hats today. First award—we have several today, and it's really in recognition of what you were saying, Governor, the hard work of our employees. There's so many people involved in a lot of these projects. I'm going to mention some of the names, but there's so many to go over today. Just start out with America's Transportation Award we won for the—this is an award that's given regionally, and we won the WASHTO award. There's going to be an opportunity to have more input as the public gets to vote on these projects as AASHTO combines all the regional winners into one kind of competition at the end of summer. We also had—well, let me start out with America's Transportation Award. This was for USA Parkway, which, as we know, it was a well-received project, nine-to-one benefit cost ratio, which is practically unheard of in our transportation world to see so much benefit because of the time savings between I-80 and US 50. The project was completed three months ahead of schedule and on budget, really well done as a design-build project, and really supports economic development of that industrial center just as it opens up the commuting opportunities for the areas, a lot of the towns and Carson City as not having to go through Reno and I-80 to get to the industrial center now for employment. So, a lot of good benefits to the project. It's well known that our project team did a great job on that, and we're pleased to see the national recognition, too, as we received the regional award for America's transportation. When we do the photo opportunity later, I'm going to call up Pedro Rodriguez. Thor, you were District Engineer at the time. If Rick Bosch is in the audience, too, as your assistant over construction. Sam Lompa was the Resident Engineer over this, and Seth Alexander represented Ames Construction. I don't know if Seth is around today. He might be down South.

DRAFT

AMERICAN OVERSIGHT

Moving on to the American Public Works Association, they have a spring and fall conference, and they have Project of the Year Awards. At the spring conference, they gave out the Project of the Year Under $5 Million and Project of the Year in the $5 to $10 million range. The first award winner is the US 50 cave rock tunnel extension and water quality improvements project in the $5 to $10 million range, and our Project Manager, Devin Cartwright, did a great job leading the project team. I'm going to read off some of the names a little bit later, but we coordinated a lot with the tribe on this project to extend the tunnels 60 feet long, 27-foot-tall tunnel extension that was very aesthetically pleasing the way that it was blended in with the landscaping and the rock in that area and protects the motorists and bicyclists from rock fall in that area. As we saw before, we had previously a temporary fencing there that would try to act as a catchment for some of the boulders falling down the hillside, and this greatly improved safety on that tunnel. I'm going to mention a lot of names here, but primarily, we wanted to acknowledge the efforts of Devin Cartwright as the Project Manager and John Angel as the Resident Engineer and also our contractor, Q&D Construction, Kurt Matzoll and Jeff Bean. But I'm going to read off some other names of people that were involved in that in case they're in audience so they can also come up during the photo opportunity, Amanda Callegari, Cliff Creger, Kimberly Diegle, Dennis Faulkner, Ron Marwin, Mike Griswold, Seth Johnson, David Lauffer, Rupali Mohansingh, Matt Nussbaumer, Meg Ragonese, Beth Smith, Britton Tucker, Eric McGill, Scott Carroll, David Chase, Sabra Gilbert-Young, Sholeh Moll, Ryan Bennett, Richard Reynolds, Dean Mottram, Jared Feser, Julie Maxey, and Alma Piceno-Ramirez, and Monty Lowe, and those were all the NDOT folks involved with this project. It's such a great team that all did their part not only to build this—design and get this project built, but to be an award winner and be recognized. This is just one of the several awards this project has won, so congratulations to all those teams, and I apologize if we missed any of the team members. The next award from American Public Works Association was the Transportation Project of the Year for Under $5 million, and I went to the Pahrump roundabouts project. Our Project Manager was Shawn Paterson. Our Resident Engineer was Don Christiansen in Las Vegas District 1, and Las Vegas Paving was our contractor. So, we built a single lane roundabout at the intersection of State Route 372 and Blagg Road and also a two-lane roundabout at the intersection of State Route 372 and Pahrump Valley Boulevard. And just to give you some background on roundabouts in Pahrump, they were very controversial when they were initially discussed and presented to the community there, and it was nice to see that they actually wanted these roundabouts eventually once they saw the benefits of safety and just easier movement of traffic

AMERICAN OVERSIGHT

without having to stop at a traffic signal. A lot of times traffic signals aren't warranted and aren't the best solution to some of these intersection challenges, and I thought that the team did a great job of delivering this project in a community that, initially, several years ago, didn't like the idea of roundabouts at all. As I mentioned, Shawn Paterson, I'm sorry, is our Project Manager. Don Christiansen is our Resident Engineer, John Bradshaw for Roadway Design, Bill Ezell, Brian Deal, Michael Chmelovsky, Lori Campbell from Safety, James Moore, Seth Johnson, and then from Las Vegas Paving, Darren Keser. So, congratulations to those two members. Again, I apologize if we skipped any of the team members in that list.

We also won from AASHTO, the organization of the state DOTs for the Research Advisory Committee—Research Advising Committee annual meeting. That's called RAC. That had Research Sweet 16 Awards, and it's rare that you get awards for research, but this is significant that we were one of the Sweet 16 winners for a project that was streamlining hydrologic prediction processes using new and more accurate techniques and methods. It's actually a title that you can understand and research. Wanted to acknowledge the efforts of Brian Wilson in Hydraulics for NDOT, Ken Chambers, who leads our research program, Manju Kumar in research, and we had our principle investigators, Dr. Annje Dodd and Project Director Jeff House from House Moran Consulting Incorporated and Dr. Baxter Vieux from Vieux and Associates. So, we—as you mentioned, Governor, we do have some inclement weather. Sometimes flash flooding and flooding occurs, yet there's no one size fits all drainage design, and they looked into analyzing storm events in Nevada and looking at using that analysis to basically have a better design ultimately of drainage infrastructure so you can maximize your available funds, so congratulations. I mention that team, and those that are present will be welcome to come up, Brian Wilson, Ken Chambers, Manju, if you're here, Dr. Vieux, and Dr. Dodd.

Then we have the 2016 Excellence in Partnering Award, and that's given annually statewide to recognize completed projects that optimize the principles of partnering, and partnering is all about working with the contractor, better communication, trying to make decisions at the lowest level, but also trying to understand each other's positions and being able to speak just honestly and face-to-face and solve these problems that arise on construction projects. There's no project design that's perfect. There's no contractor that's perfect, but working together between our designers, our Resident Engineers, construction crew, and the contractor, we can resolve any kind of issues that can come up on a project

AMERICAN OVERSIGHT

using these partnering processes, and everybody buys into this concept, and they have an escalation process as well to deal with any issues that can't be resolved at a low level. But we're honored to acknowledge the—the Wells bypass project on Interstate 80 from milepost about 69 to 75. Elko Construction Crew 908 was construction crew that administered the project, and W.W. Clyde was the contractor. DCS was—also augmented our staff on this project. And I wanted to mention that this is W.W. Clyde's first major northern Nevada project, and they had some obstacles that they faced on this with turnover of our crew, but also just the traffic on I-80, dealing with all that and getting this project built successfully. As far as the team members, we have Ken Smith was the Assistant RE. Mirak Mehari is one of the Staff Engineers on the project. Berhane Tesfagabr is the Resident Engineer. For W.W. Clyde, Garrett McMullin, John Thompson, Orlan Lund, Dustin Olson, and Jeff Clyde. If any of those are present in Elko or here in Carson, we'd like to acknowledge their efforts. For DCS, Mike Glock was the Principal Engineer on the project. Mike Murphy was the Consultant Resident Engineer on the project. Another 2017 Excellence in Partnering Award goes to the Carson City Freeway, South Carson Street to Fairview, a major improvement for traffic movement here and safety improvements here in Carson City. Construction Crew 907 was the crew that administered that project. Road and Highway Builders was the contractor. We also had Parsons, and Ventura Consulting Group was the partnering facilitator, and we all know that those of us that live up here in northern Nevada, how great—that project has been well-received by the public and motorists, the commuters along that route, the Carson Freeway, to get it down to the intersection with US 50 and 395. It involved—the project involved innovative strategies to overcome challenges such as implementing the conveyor system that we talked about before, moved a million cubic yards of excavated material under the South Carson Street to the Oasis Pit, reducing whole cost and eliminating a lot of major impacts to traffic. So, that was RHB's idea and really helped to make it safer and less of a headache for commuters in that area while we were under construction. Ashley Hurlbut is the Resident Engineer on that project. Mark Cooper is her assistant. Will Hellickson and Barry Vasques, Stephen Blakely from Road and Highway Builders, wanted to acknowledge their efforts, from Parsons, who helped us out with augmentation of the construction management. Dave Titzel was the Consultant Assistant RE, and Charisse Holtz was the Office Engineer. From Ventura Consulting Group, Neal Flesner was a partnering facilitator.

The next Excellence of Partnering Award goes to USA Parkway. I talked about that earlier as it won one of the regional awards for America's Transportation

AMERICAN OVERSIGHT

Awards. Reno Construction Crew 905 was involved in overseeing that project with Ames Construction as the design-build lead. HDR and Diversified Consulting Services, DCS, were also involved in that one, was facilitated for partnering by RHA and Associates. I'll mention some of the names involved in this project. Sam Lompa was the Resident Engineer, Brad Celarec from Ames, Jim Jarrett, and Matt Horrocks. From HDR, Gary Selmi, who's moved on to a different company, but he was working for HDR at that time. Mike Glock from DCS is the consultant on that project. Renee Hoekstra was the partnering facilitator.

The next Excellence of Partnering Award is a Frontier Award for Elko Construction Crew 912 and RHB and Top Quality Resources for Contract No. 3661, State Route 318 and State Route—US 6 east of Murray Street. This was a project that involved slow-flattening and drainage pipe extensions. As we've been doing some of these rural projects, we feel that slow-flattening will address some of the run off the road crashes and hopefully reduce fatalities across the state. RHB and NDOT had to work on some challenges. A water line was damaged during the installation of a footing of a dynamic message sign. They mitigated the issue without a negative impact to traffic. Some of the names of folks, Fred Leyva, the Assistant RE, I think may be present here today. Mirak Mehari was the Resident Engineer. Denny Hogue was also an assistant on that project, Steve Blakely from Road and Highway Builders. Clint Madsen and Colin Maher also worked on that project, and Ron Portaro was the partnering facilitator on this project.

The next partnering award goes to Contract 3665, I-80 Fernley to Lyon-Churchill County line. That was administered in District 2 by DCS, and Granite Construction Company was the contractor. The project team formed strong relationships and worked towards the same goal. They faced two main challenges. Developing an accurate project schedule which was important to the multiple highway paving projects the contractor had to complete, and also, it was the new percent within limits. This is a new specification that can reward the contractor for better quality. So, with low-bid projects, sometimes you get what you pay for. There's no incentive to give us better, even if it is a quality improvement that serves the durability and is better for the public in the long run. So, the percent within limits spec was one of the newer specs that we applied on this project. So, the contractor could earn a bonus—could get dinged if he didn't give us the quality that we wanted. We also had a smoothness spec on this one. So, it completed ten days ahead of schedule, and 8,000 daily drivers on the

AMERICAN OVERSIGHT

roadway were provided a smoother, safer interstate surface pavement. Mike Murphy, who I believe is—I see you there, Mike, in Elko—was the Resident Engineer. Tom Adams was the Assistant RE for Granite Construction. Marty Powers and Gunner Young, Shelly Humphries, worked on that project.

The next Excellence in Partnering Frontier Award goes to Aultman Street, Great Basin Highway in Ely, Nevada, and that one was administered by our Maintenance Crew 380, and Reck Brothers was the contractor. The contractor and NDOT worked together to address the shortage in manpower and hauling equipment. NDOT provided the manpower and equipment for traffic control and hauling materials to the project site, allowing the contractor to complete the project ahead of schedule and under budget. So, this one was a coal mill and overlay project there in Ely. So, a great job by the project team, and significant that it was a partnership with maintenance. Eric Trujillo was the Highway Maintenance Manager. Ed Stones was the Supervisor I in Maintenance. Terry Reck was the representative from Reck Brothers on that project.

Gold Award for Excellence in Partnering goes to the Pyramid-McCarran Intersection improvement. This one was a partnership. Primarily, the heavy lift was by RTC of Washoe County, and NDOT participated in some of the efforts to deliver the project as well, and this really is a testament to what the RTC does in Washoe County with spending some of their funding on state highways to benefit the public at large in that community. We recognize the collaborative efforts of the RTC of Washoe County, NDOT, City of Sparks, HDR, Construction Materials Engineers, CME, Nichols Consulting Engineers, Black Eagle Consulting, CA Group, Taylor Made Solutions, Granite Construction, and the partnering facilitator was Renee Hoekstra of RHA, LLC, as the subcontractors and stakeholders in this successful project at Pyramid-McCarran Intersection. Anyone that's driven through there knows that great improvement in the flow of traffic and safety at that intersection, adding some additional turn lanes and through lanes, really great aesthetics with the walls that were built there and some of the landscaping. So, great project, also had some challenges with utility issues on that. They used marathon paving efforts to work with the—and get the project done as soon as possible, worked with the local businesses that were impacted, and the project saved 25 working days by utilizing precast retaining walls. No claims were filed on that project. Scott Gibson is the Project Manager at RTC, but the whole team should be commended for their efforts. Mike Brown from NCE, Shane Cocking from Black Eagle, Marty Crew from CME. From Granite Construction, Jason Fritz was the Project Superintendent for Granite. Andrew

DRAFT

AMERICAN OVERSIGHT

Howard and Mark Temen were also project engineers on the project. Renee Hoekstra was the partnering facilitator and wanted to mention the efforts of Amber Sosa from city of Sparks and Kathleen Taylor from Taylor Made Solutions, the Public Outreach Coordinator. So, great efforts by those teams and wanted to congratulate them all, and we'll do our photos, first of all, with retirements. Reid Kaiser, we have your fake clock.

[photo opportunity]

Malfabon: Oh, the hats. Governor, so, it was Len, the Governor, you. Bill was not—well, he was there, but isn't present today. We wanted to do a photo op with the hats, so if we could...

Sandoval: Just a reminder for everybody, as you know, last year, we tragically lost two young men in an accident that were BLM firefighters, and Cynthia O'Malley was here last month and presented each of the Board Members—we dedicated a portion of a highway to those young men, and it's an incredible, incredible memorial to them and to all firefighters, and it's just a terrible tragedy. And so Mrs. O'Malley had had these hats made in memory of Will and Jacob, and so she had asked—I was in Las Vegas last month, if we could all take a picture as a Board together with the hats on, and so we're going to take the opportunity to do that. And I'm sure you're aware right now we have a 300,000-acre fire burning out there from Winnemucca to Elko up to Owyhee to the Idaho border, and there are several other fires, and these young men and women are fighting in the toughest of conditions and terrain and temperatures and, you know, you name it, and they're out there protecting life and property. So, it's truly something that's just a stark reminder of the risks that they take on behalf of all of us. So, with that, in memory of Jacob and Will, we're going to take this picture with these hats.

[photo opportunity]

Sandoval: That brings us to Agenda Item No. 3, the Director's Report. Rudy, please proceed.

Malfabon: Thank you, Governor, and thank you, Board Members, for those photo opportunities. I know it means a lot to those folks that we get those photos taken with you. As I alluded to earlier, we're pleased to announce that Thor Dyson is the new Assistant Director for Operations. He has 29 years of experience with NDOT, 15 years as the District 2 District Engineer where he oversaw a lot of the same types of operations, construction, maintenance, traffic operations in the district as well as some other items, but he also passed the Certified Public

AMERICAN OVERSIGHT

Manager Program, which is a great program offered here in our state to prepare folks for public service, but taken to the next level. It's quit a commitment in that CPM class. Thor is a registered PE in Nevada and California. He's going to oversee those headquarters divisions involved with operations, construction, maintenance, and asset management, materials, traffic operations, equipment division, so really is the bread and butter of where the rubber hits the road for Nevada Department of Transportation. Congratulations, Thor. [applause] I don't know if you wanted to say anything. Okay.

Governor, you had mentioned the sacrifice of the two firefighters, and I just wanted to express my appreciation to our maintenance forces that are there, ready, willing, and able, whatever time of the day, weekends and nights to support any kind of firefighting efforts where you have to close roads. More recently, US 93 had to be closed, significant fire events. It's really a hot summer right now, and we're in the midst of a really tough fire season, not only in our state, but I know that our firefighters also help out in neighboring states when they're available. So, thank you for our maintenance folks' efforts and coordinating with them.

It's pretty quiet on the federal front. Senate EPW Committee recently held a hearing on autonomous vehicles. Their version of the autonomous vehicle legislation is called the Self Drive Act, and they'll be taking that up later this year. I also wanted to mention that we'll be giving a presentation to the members of our delegation and the Arizona delegation that could form the I-11 caucus. On July 17th, Tracy Larkin-Thomason will be back in DC for other events, and she's going to take that opportunity to brief them on what's happening on I-11 as well as the ADOT representatives.

Wanted to congratulate Lee Gibson as the Executive Director of RTC and his whole team that was involved with the southeast connector project. That was built in two phases. Granite Construction did phase two. Kiewit did phase one, but a lot of the team members were involved in the environmental challenges, and even legal issues were something to overcome on this project, and RTC did a great job delivering this project. You see on the inset there Senator Heller was on hand to congratulate the project team from the RTC, great effort, delivered that project, and Lee will give a little update about that project during the public comment period, but congratulations. One of the things that's going to happen with this project opening up, it's going to take some traffic off of the Spaghetti Bowl Interchange, and while we still need that Spaghetti Bowl project improvement, it'll significantly help—the people coming from Sparks to go south

AMERICAN OVERSIGHT
NV-DA-20-0615-A-000109

on 580 will have a new route, a new alternative available to them and hopefully alleviate some of the congestion at Spaghetti Bowl.

Speaking of Spaghetti Bowl, we wanted to mention that Chief Engineer, Assistant Director for Engineering Cole Mortensen presented to the Reno-Tahoe Airport Board middle of last month. They were nice to you, right, Cole? But we view them as a participating agency now, and they just passed a resolution saying what they wanted to see with those direct connect ramps, but Cole explained to them that we're working towards a win-win with that, but we don't want to shortcut or delay the draft environmental impacts statement process as we shoot for getting federal approvals. Lee Gibson and I both cosigned a letter to FHWA giving our support for the preferred alternative for that project as we get close to having a draft EIS. And the RFQ was released, and the responses are due from the design-build teams on July 16th. So, we're fielding a lot of questions from those design-build teams interested in that project for the Spaghetti Bowl Express design-build, which we'll hopefully be selecting a team about a year from now.

We're having our second round of public meetings for I-11. PEL stands for planning and environmental linkage. It's a way to shortcut the schedule for environmental so you don't have to look at some of these corridors that don't make sense for I-11. There's various factors to look at in determining what makes the most sense for these corridors to consider for I-11, and this is our second round of public meetings to communicate the factors, how they ranked as far as the corridors, and there's still a lot of work to do for environmental clearance of I-11 north of Las Vegas, but this is a great effort by the project team on—to mention Kevin Verre and his efforts as well as Julie Maxey for conducting all of these public meetings. We're kind of going from Carson City down and taking the road trip to Las Vegas, but there you see the dates and times. Wanted to also mention that July 24th, the public that is not physically present at the meeting can still watch on Facebook Live for that live streaming on July 24th for the Carson City meeting. It will be also video-conferenced to Winnemucca, Elko, and Las Vegas.

We had unfortunate events recently with a wrong way driver, but also a lot of traffic fatalities over the 4th of July week, very unfortunate, but I wanted to mention that we did install this wrong way detection system on US 395 as part of an intelligent transportation systems project. Fifteen locations from Oddie to Bordertown were installed. They'll be activated later this summer, and we're looking at ten locations on I-80 that will be installed and then eventually activated next year, but these are a system that notifies the Nevada Highway Patrol when

AMERICAN OVERSIGHT

there is a wrong way driver entering at a ramp. And then NHP will coordinate with NDOT to help in those efforts. These are crashes that are not very common, but when they do happen, they're very tragic, because it's likely that there will be a fatality involved when there is a collision with a wrong way driver.

Wanted to mention that there is a safety review by our traffic safety division staff and working with District 2 staff on Mount Rose Highway. There's a lot of development, a lot more traffic along that highway. We're coordinating with Washoe County on developments in that area. There is a significant amount of residential development going on, on Mount Rose Highway, but I've asked staff to look at having more of a thoughtful plan, not only the safety review and some of those recommendations, but look at what is the likelihood of having some additional traffic signals in that corridor or other major improvements so that we can anticipate the growth along that highway and have a safer route for commuters and people that are driving up to Tahoe, tourists that might not be as familiar with that area. So, we want to look at these intersections and have a best plan for the future and thankful for the efforts of our safety division in District 2 in developing that plan and working with the Washoe County and developers in that area.

We had bids open June 28th for what we call the Centennial Bowl. That's the interchange of US 95 in Clark County, 215 in northwest Las Vegas. Unfortunately, we had—the bids—apparent low bidder is significantly higher than the Engineer's Estimate. What we advertise is a range for Engineer's Estimate. We don't actually give the number out. We give a range. So, ours was—our estimate was at the lower end of that range, $49 to $59 million range advertised for bids, and apparent low bid is $61 million. So, we're looking at the issue. We had the steel escalation clause. There's a lot of steel on this project, a lot of bridges, so seeing if that had an impact. You've heard discussion about steel tariffs and maybe that driving the market prices up for steel, but looking also for if there's any possibility of some quantity busts, some bid errors for quantities that we need to address. We'll have a recommendation on whether to award or to re-advertise with any modifications as needed if there was an issue, but if it's due to the steel issue and us not estimating that properly, likely that we would recommend to the Board that we award that project and adjust our bid estimates appropriately for the added increased in prices, but we've been hearing from contractors that it is causing an issue—a concern nationwide with steel prices.

A little update on the Tonopah electric vehicle charging station for the Electric Highway. We did run into a couple of underground utilities. Valley Electric is—

AMERICAN OVERSIGHT

thankfully, they have some slack in their fiber line so that they can use that slack and move their line over so it's not in conflict with the retaining wall that we're building for this project. There is also a copper conductor that's underground there that we have to relocate, and we're working with that utility company. We did put the contract on hold with our contractor, and we'll ask them to—if they have to renegotiate, we'd rather keep the project with the same contractor rather than redesign and then re-procure so that we can do our best effort to complete it in 2018 with our existing contractor, but we might have to renegotiate some of the prices because of the delay and the changes in the design with the retaining wall. But hopefully, we want to work towards finishing that this year. As far as the issue of rural electric vehicle charging stations, we're working with the Governor's Office of Energy and our respective Deputy AGs to discuss the issue of some of the limitations and statutes related to public use of the right of way. The concern has been when—let's say a utility company like Valley Electric is putting in a charging station with NDOT right of way or public right of way, the NRS currently restricts them receiving any money for that provision of the charging station power to someone that's charging their vehicle. So, we'll have to work out those details. Perhaps it might be a change to NRS as needed, Governor, but we'll work with your staff on that. But we will be meeting with the AG staff and our counterparts at the Office of Energy to figure out what we need to do so that we can have this program as we use some of the Volkswagen settlement funds for rural electric vehicle charging stations within public right of way, because we feel that it is a service, and it is related to public safety when someone wants to get around in a battery-powered electric vehicle. It is important for them to have that kind of a choice and not have that anxiety when they're out there in rural Nevada.

I mentioned before the RTC of Southern Nevada is going to hold a major event to commemorate completion. I said groundbreaking. It actually should be ribbon cutting on I-11, Phase 2, August 9th. There will be a large contingent of speakers, Governor. I know that it's been coordinating with your office and the Governor of Arizona as well. So, great turnout expected for that. It's a momentous event. It's going to really help the traffic and the freight movement between Phoenix and Las Vegas. I know that Arizona DOT has a lot more work to do on their side, but we appreciate the efforts of RTC of Southern Nevada for their commitment and their investment in completing that section of I-11. Later on during this meeting, you'll consider the award of Blue Diamond Road Phase 2. It's a major project —it completes the widening of Blue Diamond Road, State Route 160 in that area of Mountain Spring Summit. The apparent low bidder is Aggregate Industries at about $58.6 million, and we're working with our environmental experts on the

AMERICAN OVERSIGHT

Tropicana Interchange. I mentioned last month about the HOV ramp and the MGM and stadium developers are concerned about that ramp, but likely that we would just look at the HOV plan and update that to see what's a best alternative location for the HOV ramp, working with the federal highway administration as well and also ties in with the next bullet point. The Federal Highway Administration rejected the slip ramp concept at City Parkway, and that's currently a great separation. It doesn't have any ramps connecting from Interstate 515 there downtown Las Vegas, but is an area of redevelopment there by Symphony Park. But there are criteria, the current national standards that FHWA relies upon for interstate access, and the slip ramp concept did not meet those criteria. So, we're looking at a possibility of an HOV ramp at the center of the 515 that would be more acceptable and would achieve that purpose of having more connectivity and access to the Interstate 515 at that area near Symphony Park. We're working with FHWA and the City of Las Vegas on that concept.

No settlements expected at this July Board of Examiners Meeting for NDOT. It is kind of a brief Director's update, but I wanted to acknowledge the efforts of all those award winners and the RTC of Washoe County for their successful project for the southeast connector, and I'm willing to answer any questions from the Board.

Sandoval: Thank you, Rudy. I just have two quick questions. On the Mount Rose Highway, I get a lot of feedback with regard to bike lanes. Will that be part of the consideration of the plan as you look at things?

Malfabon: We could—I'll have to ask safety to look at that, because I know that that is kind of a popular route, and I know, Thor, you've taken that as you bike around.

Dyson: Governor, Thor Dyson, Assistant Director of Operations. So, Mount Rose Highway has bike lanes right now on the four-lane section basically from Timberline Drive all the way down to Summit Mall or 395A, and I'm confident that those will be accounted for. There's too much time investment that has already been put forward. So, a lot of individuals ride out of Reno through Thomas Creek, access Mount Rose, or do various rides around the area. So, yes, I'm quite confident that that will not be going away.

Sandoval: Thank you for that, and on the Electric Highway, Rudy, is there an update on the Hawthorne charging station?

AMERICAN OVERSIGHT

Malfabon: We had to have our contractor come out and fix something that wasn't working. So, it might even be activated now, back up and running, but we'll follow up on that, Governor, and get word to your office.

Sandoval: I'm trying to track. So, obviously, we have charging stations in Las Vegas. The next one would be in Indian Springs?

Malfabon: Yes, the Governor's Office of Energy is working on a site at Indian Springs with a private business owner.

Sandoval: And then Beatty is completed, because I was there.

Malfabon: Yes.

Sandoval: And then next would be—is there one planned for Goldfield?

Malfabon: Not to my knowledge. I think that they were looking at between Beatty and Tonopah as kind of the limit, but there might be something planned for Goldfield. I'll follow up with the Governor's Office of Energy on that.

Sandoval: And so we've talked about Tonopah. We've talked about Hawthorne. We have one in Fallon. That should essentially—and we have one here in Carson City. So, that should complete that highway, the 95, correct?

Malfabon: Yes.

Sandoval: Okay, so, we're just waiting on Indian Springs, Tonopah, and Hawthorne.

Malfabon: Hawthorne is actually built. They just had a problem once they activated it, and they need the contractor to come back in and fix it.

Sandoval: Okay. No, and it's interesting to me, because there was a press story on how they weren't being used, but the point being nobody can use them yet because they can't make it all the way. And so once the route is completed, people will have the confidence to drive the entire route. So, that's why these last two pieces are really important.

Malfabon: Correct, Governor.

Sandoval: Okay. That's all I have. Questions from other Board Members with regard to the Director's Report. Member Savage.

Savage: Thank you, Governor. Thank you, Director Malfabon, for your report. One question on the Spaghetti Bowl Express design-build project. Last month, you

AMERICAN OVERSIGHT

briefly talked about the grant application, and I didn't know if there was any update on the grant application process for that Spaghetti Bowl Express design project.

Malfabon: Cole will answer that.

Mortensen: Governor, Members of the Board, for the record, Cole Mortensen, Assistant Director of Engineering. The last update that I had is that that application is currently being put together by the consultant we have on board. So, it hasn't been completed yet, but they're working on it.

Savage: Thank you, Cole. Thank you, Governor.

Sandoval: Frank, did you have any questions from Las Vegas?

Martin: No, sir, and we have the Lieutenant Governor joined us, too.

Sandoval: All right. Welcome, Mr. Lieutenant...

Hutchison: No further questions. Thank you, Governor.

Sandoval: All right, thank you. We can't see you right now, so that's why it was—yeah. All right. And no other questions or comments with regard to the Director's Report. Then let's move on to Agenda Item No. 4, Public Comment. I have two people signed in for public comment. Mr. Gibson.

Gibson: Good morning, Governor, Members of the Transportation Board. For the record, Lee Gibson, Regional Transportation Commission, Washoe County. I want to take a moment, and if I can get those pictures—there you go. That's it, southeast connector right there. We opened it Friday at about 5:30 in the afternoon, and I was out there for about two hours on Saturday, amazing. There you go. Look, just people are all over the place. Traffic seems to be a little more—from a visual inspection, more than I thought we were going to get, and the bikes are both on the road in the shoulder and on the multi-use path. So, just want to do a quick shout out to our team to include Jacobs Engineering, Atkins Consultant, Granite Construction, Stantec, Kiewit. Infrastructure did phase one. That was six years ago we started that. So, T.Y. Lin, CME, Black Eagle, and [inaudible] Environmental. Governor, this is a $300 million fuel tax project for Washoe County, and stay tuned, more to come.

I also want to point out that we've just received within the last two weeks our finding of no significant impact for Virginia Street. This positions us now to

AMERICAN OVERSIGHT

work with the Federal Transit Administration to receive a capital investment grant of $40 million. This will complete our funding package. With respect to that grant agreement, we know we are in the current appropriations bill. Talking with the Senate appropriations staff and House staff members, we know we're in there. We just need to get the administration to move on that grant agreement and get that delivered to us. Governor, anything you can do, working with Senator Heller, working with the administration, working with secretary Chao, we would deeply appreciate it in moving that grant agreement. With this finding of no significant impact, we will begin utility relocations, and we will begin right of way acquisition for the parcels and the easements that we need in order to get that project going on.

I do want to mention two other projects. We are starting the design with our local dollars for the Sun Valley Boulevard improvements. That's a state facility, once again an example of our partnership with Rudy and NDOT where we and Washoe County move forward on state roads irrespective of funding source, same thing with the Pyramid Highway widening. We're going to start working on that design here with respect to getting that underway. I do want to talk briefly about the Spaghetti Bowl. As Rudy mentioned, we've signed off on our side of the draft EIS and preferred alternative. We will be taking to our board in August, a regional transportation plan amendment, which will get us positioned in order to move forward with the expedited project and get that underway.

Governor, we have put in the ground or are putting in the ground right now a little over half-a-billion dollars of infrastructure. We appreciate our partnership with the State, with the Federal Highway Administration, the Federal Transit Administration, and we like to think that there will be more good things to come. So, thank you very much for the opportunity to be here today, and we'll be seeing everyone soon. Thank you.

Sandoval: Thank you, Mr. Gibson. Mr. Lake, have you signed in for—oh, no, no, no. Actually, that was not—I looked at the wrong one. Deanna Gray was—I think she was one of the award winners. Yeah. All right, anyone else in Northern Nevada for public comment? I hear and see no one. Is there anyone present in Southern Nevada that would like to provide public comment?

Martin: No, sir.

Sandoval: All right. Thank you. Then we'll proceed with Agenda Item No. 5, which is Approval of the June 11, 2018 Board Meeting Minutes. Have the Members had an opportunity to review the minutes and are there any changes? Mr. Knecht.

AMERICAN OVERSIGHT

Knecht: Thank you, Governor, and at the bottom of page 40, the fourth line from the bottom, the word "inaudible" is there. It should have been—I said R squared should replace that. That's a technical term. I'm sorry.

Sandoval: Any other changes to the minutes? Okay, if there are none, the Chair will accept a motion to approve the minutes with the change suggested by the Controller.

Knecht: So moved.

Sandoval: The Controller has moved for approval. Is there a second?

Savage: Second.

Sandoval: Second by Member Savage. Any questions or discussion on the motion? Hear none. All in favor say aye. [ayes around] Those opposed say no. Okay, that motion passes unanimously. Frank, do you mind if we just mind—or mark you as abstained?

Martin: Yes, please. It just dawned on me. Thank you.

Sandoval: Yeah. All right, thank you. Okay, that motion passes unanimously. We'll move to Agenda Item No. 6, Approval of Contracts Over $5 million. Mr. Nellis, good morning.

Nellis: Good morning, Governor, Members of the Board. For the record, Robert Nellis, Assistant Director for Administration. There are two contracts on page 3 of 24 for the Board's consideration. The first is a resurfacing project located on State Route 160, Blue Diamond Road, a little over a mile north of Mountain Spring Summit to the Clark County, Nye County line. Get caught up here on my slides. There were five bids, and the Director recommends award to Aggregate Industries in the amount of $58,561,165.

The second resurfacing project is located on State Route 156, Lee Canyon Road, and on State Route 157, Kyle Canyon Road in Clark County. There were three bids, and the Director recommends award to Aggregate Industries in the amount of $5,759,759, and with that, Governor, that concludes Agenda Item No. 6. Does the Board have any questions for us regarding either of these contracts?

Sandoval: All right, thank you. Mr. Nellis or whoever, with regard to Aggregate Industries being the successful bidder, it has the bandwidth to get both of these done timely?

Malfabon: I'll respond to that, Governor. Yes, they do. It's primarily the nature of the work. There's not a lot of repaving on the first one. It's more of the widening and the

AMERICAN OVERSIGHT
NV-DA-20-0615-A-000117

drainage structure construction, and they'll be able to do the repaving this year for the Mount Charleston highways, Route 156 and 157. So, most likely, the repaving will occur later, but they are—they do have capacity for multiple paving projects at one time.

Sandoval: Thank you, and just to comment, probably the Controller was going to talk about it, but the Engineer's Estimate and the difference in the—we just paid for the Centennial Bowl, so that's good, the $7 million difference there. All right, questions or comments from other Board Members? Mr. Controller.

Knecht: Thank you, Governor, and the only thing I was going to ask about is on the map, page 5 of 24, how long is that distance in the green segment that we're going to be working on? Roughly, I don't need it to the hundredth. Okay. I agree with you, Governor, that we should take note of the fact that we got 10% below the Engineer's Estimate, and I think that's a great thing.

Sandoval: Thank you, Mr. Controller. Any other questions or comments with regard to Agenda Item No. 6? Mr. Nellis, any more presentation?

Nellis: No, sir, that concludes this Agenda item.

Sandoval: Thank you. If there are no questions or comments, the Chair will accept a motion to approve the contracts over $5 million presented in Agenda Item No. 6.

Martin: So moved.

Hutchison: Second.

Sandoval: Member Martin has moved to approve. The Lieutenant Governor has seconded the motion. Any questions or discussion on the motion? I hear none. All in favor say aye. [ayes around] Those opposed say no. That motion passes unanimously. Let's move to Agenda Item No. 7, Approval of Agreements Over $300,000. Mr. Nellis.

Nellis: Thank you, Governor. There's one agreement under Agenda Item No. 7 that can be found on page 3 of 14 for the Board's consideration. This is in the amount of $500,000 to provide service and maintain maintenance on the roadside weather information system and the fixed anti-icing spray system. This will provide fall and spring switchover inspections, remote technical assistance, emergency on-site service calls, materials, and a yearly certification operation training session. And with that, Governor, that concludes Agenda Item No. 7. Does the Board have any questions regarding this agreement?

AMERICAN OVERSIGHT

Sandoval: Thank you, Mr. Nellis. Board Members, any questions on Agenda Item No. 7? Member Savage.

Savage: Thank you, Governor. Not so much a question, just a comment. I want to thank Thor Dyson and Mike Fuess. I reached out to them recently on some questions regarding the system, and I've been skeptical of the system since day one because it's a mechanical system, and I know there's been a lot of cost to NDOT, but it's all about saving the lives, and I know it's a sole-source contract with Boschung of America, and they have other devices in Europe as well as the east coast. And I just ask them to respond timely on NDOT's behalf when we need them, and I guess time will tell how this system really works, because it is a mechanical system on some different bridges, and I do want to thank Thor and Mike again, but that's all I have. Governor, thank you.

Sandoval: Thank you. Other questions or comments on Agenda Item No. 7?

Martin: I have one, sir, and the Lieutenant Governor shares it, too. It seems that right at the top of page 5 of 14, it states the only North American provider of the Boschung technology and parts providing factory training, engineering, installation, et cetera. We bought a system and there was only one provider? I don't understand how that happened.

Dyson: Board Member Frank Martin, this is Thor Dyson, Assistant Director of Operations. So, this was done—this was a sole-source effort back in 2006 and seven for Contract 3292 to put these anti-icing systems in our bridge decks, four in particular on the project on Contract 3292, and the concept is to have the structures fully automated so when there's frost or ice conditions, that they'll turn on, and these spray systems that are embedded in the asphalt will spray those particular lanes, those particular structures, and keep the bridge deck from freezing. To answer your question, at the time, it was a sole-source agreement from this company. Boschung is out of Switzerland. They're small in the US in the sense that they don't have a lot of staff, but they do have a number of these different anti-icing systems in the structures throughout North America and Canada and in the US. We did—at the time, the Assistant Director of Operations, at that time, really wanted to try this system, and we've gone through the construction. NDOT did the design as far as the placement and the location of the conduit and the—and then with technical advice from Boschung where to put this anti-icing system, meaning the spray. So, when that was finally constructed, there was a four-year warranty period and test period, and we're past that. That warranty period ended over a year ago, and as Board Member Savage had—Len

AMERICAN OVERSIGHT

Savage had mentioned, it is a tricky mechanical system. We've done a lot on our own to repair it through Facetime and Skype and some other things, but there are parts of it that are above us, and this contract is to help us with that repair. It's still being evaluated, and the answer to your question for a long-winded answer is yes, they're the only ones that I'm aware of that put that system in. There's different warm systems that go into the asphalt. They're mechanical as well. We have something similar in the runaway truck ramps that were constructed on Mount Rose Highway, the redo of the runaway escape ramp I should say, truck escape ramp. We're going to keep an eye on it. I don't know if this is going to really work out. The $500,000 for this is for two years, and we don't anticipate at all to use the entire $500,000. We hope not. The parts list was supposed to be in your Board Packet. We're not sure why, but the parts are expensive, and they're all European, European gauge, threads, everything. So, it's a project that we're going to need to have maintained, and we're going to stay on top of it.

Martin: Okay, thanks, Thor. I was just curious about the sole-sourcing, and it sounds like these guys need to be held to a level of accountability and response time from what Member Savage said. And I'm wondering if there's a provision in this proposal for that. I didn't see that specifically.

Dyson: I'll need to check, Member Savage.

Martin: Thank you. That's all I have.

Sandoval: For the record, Member Martin. That's what Thor meant. Yeah, I guess it begs the question, does it work? Is it working?

Dyson: Governor, Thor Dyson, Assistant Director of Operations. Yes, it does work, but it's worked intermittently. I know last year there was a number of accidents that occurred in that area that did not occur on the structures. We watch it closely. We work with it closely. If it doesn't work, then we go back to our old practice of sanding and salting the structures. If we think it's not working, we're not going to take that chance. We'll sand and salt it accordingly or brine it.

Sandoval: I guess $500,000 buys a lot of sand and salt and brine. Are we throwing good money after bad?

Dyson: Potentially, yes. We want to just see how this works out. We're hoping that—we're not going to come close to that $500,000. We're hoping the parts hold it together, and they're expensive. They're from Europe. Really...

DRAFT

AMERICAN OVERSIGHT

Sandoval: No, and I'm not being critical of you, but there are a lot of ifs and buts here, and I think Frank brought up a really good point with regard to accountability and response time by the contractor, and frankly, I'd be a little more comfortable deferring this for another month so we could have the answer to that question whether or not that's in the contract, and if it's not, that we should put it in there, because as you know, with the winters that we have, we need them to be on the ball and responsive.

Dyson: So, Governor, I can assure you that they've been very responsive remotely. If it's something that they physically have to come out, that takes a little bit longer time.

Sandoval: They have to fly someone from Switzerland?

Dyson: Pennsylvania.

Sandoval: And you're the guy who's always been out there in the elements waiting for them to show up, right?

Dyson: Correct, and, you know, we're still addressing public safety and keeping public safety. We're just not getting the benefit of this state of the art piece of equipment.

Sandoval: I'll defer to the other members, but this is a lot of money, and if we can get a crew out there and get something, you know, we'll be spending the extra money to get more salt and sand and brine down, waiting for them, and then the storm is over. And so—but I am really curious to see what the specs are for response time, if any, and perhaps—will it cause any jeopardy for us to defer this another month?

Dyson: Well, the system is operating right now during the summertime. It just operates at night, because you've got to spray every three days or so to clean out those nozzles because of the highway environment. If you don't, it'll plug up. So, right now, it's spraying, and unfortunately, it's spraying chemical. We don't like to see that. We can't somehow convert it, and we're waiting for this to be approved so that we can bring these guys out. We were—because it's sole-sourced, we can't go get three quotes. We need an agreement.

Sandoval: What, if any, activity was there prior to the warranty—prior to the system going out of warranty? In other words, did we have to make a lot of warranty calls on the contractor?

Dyson: We did make a number of warranty calls for that four-year period—three-year period. We finally got it working to where we agreed it was sufficient, meaning it

AMERICAN OVERSIGHT

was performing appropriately. We needed to close out the entire contract as well, because that was holding us up. We didn't feel pressured to do that. We finally got the system operating the way we wanted it, but as Board Member Savage had stated, you know, it's mechanical, and it has issues, and so it's going to need a lot of TLC, the system.

Sandoval: And again, I...

Hutchison: Governor?

Sandoval: Yeah, and just when—I'm just—I don't want us, you know, putting—pardon the words, but a lipstick on a pig. You know, it's just—I don't hear a lot of confidence, and I'm not being critical of you, but you're the one who's dealt with it for the past four years, but I don't hear a lot of confidence in the system moving forward.

Dyson: You're correct, but at the same time, we have it, and there's been a lot of money invested into it. It's something we inherited at the District, and we've been trying to make it work. It does work, not as reliably as we'd like to see it, but it...

Sandoval: Well, it works during the summer. I mean, does it work in the winter?

Dyson: It works in the winter, you know, and the pile-up that happened last year—the accidents, I should state, was not near the Galena structure, and the Galena structure, the system was working.

Sandoval: Thank you. Mr. Lieutenant Governor.

Hutchison: Governor, thank you. I just had a follow-up point and question if we are going to defer this, Governor. I note in the paperwork that it says that Boschung is the only authorized provider of the technology and the parts. Well, usually, that authorized provider requirement has to do usually with the warranty work. If you do—if you have an authorized provider, then it's within the warranty. Well, we're outside of the warranty. Do we have to still use this company to perform the work and are there other alternatives, I would like to know, to service providers who could maintain—because this is just a maintenance contract—who can maintain and service the equipment, but who would not be Boschung? Is there an—are there alternatives to that now that we're outside of the warranty? That would be something that I would be interested in if we're going to defer this to understand more, and it may be a better, more reliable source. Even though it's not an authorized provider, it may be a type of system that, you know, other service providers can handle.

AMERICAN OVERSIGHT

Dyson: So, Lieutenant Governor, Thor Dyson, Assistant Director of Operations. We could take a look at that for other providers. Again, it's pure European. Everything is European parts, European threads, gauges, so forth. So, we could look for someone that could do that for us on those specialized repairs, specialized parts.

Hutchison: And just to follow up, Member Martin and I were talking about this. Part of the contract requires training of our own personnel. Is it possible to get more training from these folks so that we can do more of this in-house ourselves or what's been our experience with them actually training NDOT personnel for this purpose?

Dyson: We've had good luck and good experience with them training NDOT staff out in the field. Unfortunately, we have a lot of staff that, you know, come and go as well because of different issues of retention and recruitment, but we've had some training, and we've got some staff that are trained up. They can do some of the minor repairs. A lot of times we can do it through, like I said, Facetime or remotely working with the individuals from Boschung America that's based out of Pennsylvania.

Hutchison: Thank you. I'm in favor of deferring this, Governor, until we get some more information, maybe an update.

Sandoval: And Thor, I don't mean to keep coming up with these metaphors, but is this a lemon? Is the system a lemon, and now we're out of warranty, and we're paying to maintain a lemon, and two, do you remember—do you recall how much we paid for it in the first place?

Dyson: Governor, Thor Dyson, Assistant Director of Operation. It requires a lot of, like I said earlier, TLC, and it's hard to—I'd hate to call it a lemon, because I know it's worked in Europe. It's worked in Switzerland and other places, but they had more staff there. We could—you know, we do as much work as we can in-house repairing it, getting familiar with it. I've got some sharp individuals. I don't think getting another contractor or supplier is possible. You know, a lot of these high-tech type systems are set up in such a way that you're kind of either—you go with them and you're stuck with them or—and in this case, that's what's happening, or we shut it down and we just go back to our old practice of sanding and salting the bridge decks and the roadways. You know, in theory, right up front when it came out in 2006 and seven, there was a push to put it out, try it. It's nice to have something that's fully automated, spraying the deck, and you don't have to—you don't have that lag time. It's happening, and when it works, it works well. It's lowering the freezing point of the bridge deck and preventing someone from

AMERICAN OVERSIGHT

getting hurt or killed. So, that in itself, you know, it has value, and we evaluate that closely. It's also a method of dealing with, you know, the vacancies we have and the lack of staff. So, if even just two or three of the bridge decks are working appropriately, you know, it helps us. I hate throwing good money in after bad. I have older cars. I have older cars, and, you know, you got to make a decision. We have older equipment at NDOT. We really hate throwing in good money in after bad. It's hard to sit here and say it's a lemon when—I wouldn't call it a lemon, but I would say it's high maintenance.

Sandoval: No, and I feel like I'm cross-examining you. I'm not, and I know that you inherited this, but, you know, in the realm of things, this isn't a ton of money, but there's a point here to be considered, and, you know, we have to make good decisions. And obviously, I don't want to make a decision that could make the difference between life and death for an individual that's traveling on that road, but at the same time, I have a lot of confidence in our maintenance team to get out there and make the same—treat the road the same as this system would. And again, we're spending a lot of time on this, but it's important.

Dyson: Governor, can I give you just a couple other facts? The initial system, when it was put in the contract, it was $4.25 million, that particular item. It uses potassium acetate, which is non-corrosive, and it helps save the bridge deck. That material does not go into Galena Creek or into the waters. It's all collected and piped and gone into detention basins. So, there are some benefits with this system. It keeps our bridge deck and that bridge lasting a lot longer. So, it's—when you put salt, salt brine, sand salt, it's going to hammer that deck and destroy the life of that bridge deck earlier. So, there's upfront costs, and then there's long-term costs, and we're using this—call it anti-corrosive chemical on the bridge decks to preserve those decks. We did go through the three-year period. We finally got it to work through the testing phases. The warranty is out. It ended last year, and we are where we're at right now. We have to convert it in the springtime once we're confident there's no more storms to spray water, and we have to convert it in the fall from water back to chemicals when we have confidence the storms are coming, and it'll spray for frost even though there's no snow. It'll spray for frost and freezing rain and that kind of thing. So, it's got its benefits, but it's high maintenance.

Sandoval: Mr. Controller.

Knecht: Thank you, Governor, and welcome to being Assistant Director, Thor. Long ago and far away, the amount of salt that the state of Illinois used on its roads rusted

AMERICAN OVERSIGHT

out the rocker panels on my MGB. You've been forthcoming about the challenge between—or the comparison between salt and this anti-corrosive chemical on the road and the structure. Is there a significant difference here between the two for the effect on people's vehicles?

Dyson: You know, we're sanding and salting, putting brine between the structures. So, we're looking at saving those bridge decks and not having to go in and repair them any time sooner than necessary and being disruptive to traffic. We're also—any time we can be environmentally sensitive and use something that's not corrosive like, you know, salt and brine—the problem is, is potassium acetate is very expensive compared to salt, but it's worthwhile putting this chemical on the structures from an environmental standpoint and from a corrosion standpoint to the decks. It has value, this system does. It works when no one is out there, and if we keep it working and there's a frost tomorrow, let's say—in Nevada, the weather can change. I know it's supposed to be a hundred-and-whatever tomorrow, but in a week, it could be—who knows? It could be snowing and freezing—or frost. That system would work, provided it had the chemical in it and we hadn't made the change yet. So, there is some benefit to having this system and to have it work. It's automated. It doesn't require a person. It's immediate.

Knecht: Thank you.

Sandoval: Member Savage.

Savage: Thank you, Governor, last comment. I think deferring this and having a cost benefit analysis so we can make a wise decision, all of us, and get a good recommendation from the staff as to their true thoughts is not going to hurt anything for 30 days. Thank you, Governor.

Sandoval: Thank you, and I just want to echo—oh, Member Almberg.

Almberg: Just one comment. I've had the same concerns as the rest of the Board Members had, and I had actually a long conversation this morning with both Tracy and Thor about this, and so I understand their concerns. You know, my recommendation was something Lieutenant Governor had basically brought up here, was what's the possibility of our staff, you know, being trained? We're spending a lot of money here. We could spend a lot of money to hire staff and train them specifically for this, but, you know, they come back in and said, well, that's a great concept, but they also have trouble staffing NDOT, and so it's pretty hard to even staff that position even if we have it funded. I'm supportive in

AMERICAN OVERSIGHT

delaying this to get some additional facts, and the comment that I have based on this discussion is, is it possible to create a brine from this chemical that would not be corrosive to the deck that you can apply manually instead of through this system? And you don't necessarily have to answer that, but I'm saying if we're going to delay that, that might be something that you look into to bring back to us next month. That's all for me, Governor. Thanks.

Sandoval: No, and I just want to echo what the Controller said. Don't interpret anything as being critical of you. I mean, this is something that is dated, and as I said, you're trying to make a silk purse out of a pig's ear here, and it just—I'm full of those metaphors today. But in any event, we just want to make the right decision, and again, I appreciate your being forthcoming and trying to be delicate as well and trying to do what's in the best interest. So, if there is no objection from any of the Board Members, I'd like to continue Agenda Item 7 to—I don't know, if you could have that information to the next regularly scheduled meeting or to a meeting in the future where you could have all that information for the Board.

Dyson: We'll have it next month.

Sandoval: Okay, then we'll defer it to the August agenda. Thank you. Can we—Dennis, do we need to take a motion on that? Okay, thank you. All right, let's move to Agenda Item No. 8, Contracts, Agreements, and Settlements. Mr. Nellis.

Nellis: Thank you, Governor. There are two attachments under Agenda Item No. 8 for the Board's information and no settlements this month. Beginning with Attachment A, there are three contracts that can be found on page 4 of 11 for the Board's information. The first project is located on State Route 582, Boulder Highway. This is for pedestrian safety improvements to include updating crosswalks, installing pedestrian median islands, rectangular rapid flash beacons, LED street lighting, and ADA ramps. There were six bids, and the Director awarded the contract to MC4 Construction in the amount of $1,494,243.30.

The second project is for resurfacing ramps on Interstate 80 and US 395. There were two bids, and the Director awarded the contract to Granite Construction in the amount of $873,873.

Lastly, the third project is for resurfacing on State Route 305 in Lander County. There were three bids, and the Director awarded the contract to Sierra Nevada Construction in the amount of $1,322,007, and with that, does the Board have any questions regarding these three contracts before turning to Attachment B?

AMERICAN OVERSIGHT

Sandoval: Board Members, any questions on these contracts? I hear none. Mr. Nellis, please proceed.

Nellis: Mic on. There we go. Forty-two agreements under Attachment B that can be found on pages 9 through 11 for the Board's information. Items 1 through 7 are acquisitions and facility agreements. Eight through 29 are service providers, and then lastly, Items 30 through 42 on page 11 are no cost agreements and amendments, and that does conclude Agenda Item No. 8, Governor. Does the Board have any questions regarding these agreements?

Sandoval: Thank you, Mr. Nellis. Questions from Board Members? Member Savage.

Savage: Thank you, Governor, just one question on Item No. 10, retraining services of $85,000 dispersed to the AGC. Have we done that in the past?

Larkin: For the record, Tracy Larkin, Deputy Director. Yes, this will be the third year we're doing it. It has been augmented by about $10,000 this year because we also needed them to assist on flagging and OSHA training, because we have not been able to keep up on our own. This has been primarily for DBE and minority training and that it's provided at no cost or minimal cost to them, and there was 492 of them who took classes last year from there.

Savage: Okay. As long as we're getting the value and the instruction and they're learning something so we don't have to be so repetitive. I think that's the important service.

Larkin: We have found a partnership with them has been very beneficial. They also have a diversity group that has really kind of been more homegrown. We found that it is better being a partner kind of coming in as a resource than actually being the one holding the classes. One, we get a much better participation, and what we're finding is they're talking to each other about the benefits of the programs, so it's been very successful.

Savage: That's great. Thank you so much, Tracy. Thank you, Governor.

Sandoval: Board Members, any other questions with regard to the contracts? I hear none, and Mr. Nellis, that does complete your presentation?

Nellis: Yes, sir.

Sandoval: And that is an informational item, so we'll move on. Agenda Item No. 9 has been removed from the Agenda, and congratulations on getting that resolved, Ms.

AMERICAN OVERSIGHT

Borrelli. Thank you. We'll move to Agenda Item No. 10, Formal Amendments and Administrative Amendments to the FFY 2018-2021 Statewide Transportation Improvement Program.

Rosenberg: Sondra Rosenberg for the record, Assistant Director for Planning. This is our quarterly update of the changes to the stip. As you can see, it's quite a bit thinner than it usually is, so that's a good thing, fewer changes, nothing major of note, although I do want to mention there's a number of ADA projects that were added in, continuing the work on the safety data collection with partnering agencies as well as a couple FTA grants to Washoe RTC and RTC of Southern Nevada, and that's it.

Sandoval: Thank you. Board Members, any questions on Agenda Item No. 10?

Martin: I have one, sir.

Sandoval: Please proceed.

Martin: Sondra, I was just telling the Lieutenant Governor this is one of the easiest to understand documents I've reviewed in the last 12 years of sitting here, okay, so thank you very much.

Rosenberg: Thank you, sir. It took us a few tries, but we're getting it now.

Martin: Yeah. The other one is, is that I see the first item, 18-14, RTC Southern Nevada, there's a—you're moving $31,000 around, but it's for the Clark County School District police department crash data collection. Do we really get anything out of the Clark County Police Department or school district police department we don't get out of Metro or North Las Vegas or Highway Patrol? I see somebody in the background shaking their head.

Rosenberg: I believe so. So, you know, we're working with all of the law enforcement agencies to collect it. So, it really depends on who's responding and doing the initial reporting. So, if that happens to be the school district police, we want that initial information. That's the best I know. We can follow up with more information if you like.

Malfabon: And if I may add—this is Director Malfabon, Member Martin. We also have to collect information on non-motorized, so pedestrians and bicyclists. So, sometimes the school district can be the best source of information for those types of crashes.

DRAFT

AMERICAN OVERSIGHT

Martin: Okay, thank you. Just a simple question, thanks.

Sandoval: Thank you, Frank. Any other questions or comments on Agenda Item No. 10? I hear none, so the Chair will accept a motion to approve the formal amendments and administrative amendments to the FFY 2018-2021 STIP.

Savage: So moved.

Martin: So moved.

Sandoval: Member Savage has moved to approve. Frank, may I take yours as a second?

Martin: Absolutely, thank you, sir.

Sandoval: Member Martin has seconded the motion. Any questions or discussion? I hear none. All in favor say aye. [ayes around] Opposed say no. That motion passes unanimously. We'll move to Agenda Item No. 11, Old Business. Director Malfabon.

Malfabon: Thank you, Governor. Under old business, we have the standard reports on outside counsel costs on open matters and the monthly Litigation Report. I did receive the latest version dated as of June 30th on the Fatality Report. We did have some—basically, we're even. A lot of the gains that we made earlier in the year are starting to be wiped away, but we were at 153 fatalities at this time last year and same number currently in this year. But I wanted to note there are some improvements being made in motorcyclist safety and pedestrian safety. We were at 37 last year in Clark County alone, and currently, we're at 26. So, just as you saw on that Boulder Highway project, we're doing some great projects for pedestrian safety not only in southern Nevada, but also up at Lake Tahoe and Reno, Sparks, Carson City area. With motorcyclists in Clark County, we had 22 motorcyclist fatalities, and we're currently at 17 compared to the 22 last year. So, we're making some improvements in some areas, but still have some challenges with highway traffic safety. Recently during the 4th of July week, we had quite a spike in fatalities, but our safety staff have really been on top of it and are working to review a lot of the corridors in the urban areas and make improvements, design some projects that will result in improvements.

Sandoval: Okay, thank you, Rudy, and just one question. Perhaps you can't answer it now, but as you know, we repurposed a significant amount of money to invest in pedestrian safety projects. Have we done a look back at those locations where we did those improvements to see if there have been any incidents at those locations?

DRAFT

AMERICAN OVERSIGHT

Malfabon: We'll follow up on that, Governor. Some of them are more recent improvements, but the traffic safety staff I'm sure can do some analysis and provide that in the future.

Sandoval: Thank you. All right, Board Members, questions with regard to Agenda Item No. 11?

Hutchison: Governor?

Sandoval: Mr. Lieutenant Governor, please proceed.

Hutchison: Thank you. Just a real quick question, Dennis, for you on the outside counsel report. I'm looking at the contracts that were closed or expired since the last report, and I see the Campbell contract, four-year contract. We had authorized $250,000, and there's still over $245,000 remaining. So, I take it that this four-year contract—under this four-year contract, there was less than $5,000 expended on legal services; is that correct?

Gallagher: For the record, Dennis Gallagher, Counsel for the Board. That is correct, Lieutenant Governor. Mr. Campbell's area of expertise is with utilities, and we had anticipated the possibility of some serious negotiations with the utilities in regards to primarily Project NEON and the Boulder City Bypass, and that didn't happen due to the great efforts, I think, of the contractor and the NDOT staff.

Hutchison: Well, that's a nice way to manage your legal expenses, Mr. Gallagher, so congratulations on that. Those are all the questions that I had on the report this month, Governor. Thank you.

Sandoval: Thank you, Mr. Lieutenant Governor. Board Members, any other questions with regard to Agenda Item No. 11? We'll move—at least mine says there is no Agenda Item 12. It goes from 11 to 13 on mine, so we'll go to Agenda Item No.—what is marked on the Agenda as Agenda Item 13, Public Comment. Is there any public comment from Carson City?

Speaker: Governor, I'd just like to follow up on the Controller's question. The total mileage on that contract is 29 miles, approximately 6.5 of some widening and 22 of a mill and fill.

Knecht: Thank you.

Sandoval: Any other public comment from Carson City? Any public comment from Southern Nevada?

AMERICAN OVERSIGHT
NV-DA-20-0615-A-000130

Martin: No, sir.

Sandoval: All right, then, is there a motion to adjourn?

Knecht: So moved.

Sandoval: Controller has moved to adjourn. Is there a second?

Almberg: Second.

Sandoval: Second by Member Almberg. All in favor please say aye. [ayes around] That motion passes unanimously. This meeting is adjourned. Thank you very much, ladies and gentlemen.

MEMORANDUM

August 3, 2018

TO: **Department of Transportation Board of Directors**
FROM: **Rudy Malfabon, Director**
SUBJECT: **August 13, 2018 Transportation Board of Directors Meeting**
Item #4: **Approval of Contracts Over $5,000,000 – For Possible Action**

Summary:

The purpose of this item is to present to the Board a list of construction contracts which are over $5,000,000 for discussion and approval.

Background:

The Department contracts for services relating to the construction, operation and maintenance of the State's multi-modal transportation system. Contracts listed in this item are all low-bid (or guaranteed maximum price for Construction Manager at Risk (CMAR) contracts) per statute.

The attached construction contracts constitute all contracts over $5,000,000 for which the bids were opened and the analysis completed by the Bid Review and Analysis Team and the Contract Compliance section of the Department from June 21, 2018, through July 23, 2018.

Analysis:

These contracts have been prepared following the Code of Federal Regulations, Nevada Revised Statutes, Nevada Administrative Code, State Administrative Manual, and/or Department policies and procedures.

List of Attachments:

A) State of Nevada Department of Transportation Contracts for Approval, June 21, 2018, through July 23, 2018.

Recommendation for Board Action:

Approval of the contracts listed on Attachment A.

Prepared by: Administrative Services Division

MEMORANDUM
Administrative Services

July 18, 2018

To: Rudy Malfabon, Director
Cole Mortensen, Assistant Director, Engineering
Thor Dyson, Assistant Director, Operations

From: Tianne Simpson, Contract Services Manager – Administrative Services

Subject: Concurrence in Award for Contract No. 3724, Project No. STBG-NHPP-095-2(064), US 95 Northwest Corridor Phase 3C at milepost 88 and CC 215 from Grand Montecito to Tenaya Way, Clark County, described as Construct Northbound US 95 to Westbound CC 215 flyover, Southbound US 95 to Eastbound CC 215 flyover and Eastbound CC 215 to Southbound US 95 ramps. The Engineer's Estimate is $49,130,545.11.

This memo is to confirm concurrence in award of the subject contract.

Bid proposals were opened on June 28, 2018. Las Vegas Paving Corporation is the apparent low bidder at $61,500,000.00 and they submitted a properly executed proposal, bid bond and anti-collusion affidavit. There was no second bid proposal submitted for this contract.

The project is Federally funded, required 5.00% DBE participation, and is not subject to State Bidder Preference provisions.

The subcontractor and supplier listings submitted by the Las Vegas Paving Corporation have been reviewed and confirmed by Contract Services. The DBE information submitted by the Las Vegas Paving Corporation has been reviewed and certified by the External Civil Rights office. Las Vegas Paving Corporation has met the required DBE participation with a 5.00% commitment. The bid is above the Engineer's Estimate Range, and a copy of the Unofficial Bid Results report is attached for your reference. The BRAT Co-Chairs have provided their recommendation to award, and the report is attached.

Your concurrence in award of this contract by endorsement hereon is respectfully requested. Upon receipt a packet will be prepared to obtain Transportation Board approval of the award at the next available meeting.

MEMORANDUM

Contract Compliance

July 5, 2018

To: Rachell Bennett, Administrative Services Officer II

From: Paulita De La Cruz, DBE Specialist DocuSigned by: 9A647C8047694B9...

Subject: NDOT Bidder DBE Information – Contract no. 3724, US 95 NW Corridor Phase 3C AT MP 88 and CC 215 from Grand Montecito to Tenaya Way, MP 88 and CC 215 37-39., in Clark County, to construct NB95 to WB215 flyover, SB95 to EB215 flyover and EB215 to SB95 ramps.

Apparent low bid: $61,500,000.00

The DBE information for General Design and Construction Co., Inc., Fencing Specialists, Inc., and LAM Contracting LLC, submitted by the apparent low bidder, Las Vegas Paving Corporation, has been received by Contract Compliance and we have concluded:

General Design and Construction Co., Inc., Fencing Specialists, Inc., and LAM Contracting LLC, hold active State of Nevada business licenses and are Nevada certified DBE firms. Additionally, General Design and Construction Co., Inc., Fencing Specialists, Inc., and LAM Contracting LLC, holds an active Nevada State Contractors Board license. All firms are clear of State disqualification and Federal exclusion.

The DBE goal of 5.00% has been met with a 5.00% DBE committed participation by the apparent low bidder Las Vegas Paving Corporation.

The DBE firms are approved for this contract.

5020970	14,503.780	CLASS D CONCRETE, MODIFIED (MAJOR)	CUYD	$625.00	$1,000.00	N/A	N/A	N/A	160%	Yes	Quantity OK, EE Price low. ICE re-evaluated $800 after considering additional falsework needs and risk in aggresive schedule. Limited history for flyover bridge work and difficulty in estimating contractor resources and material availability. Phase 3A bid was $328 but a large portion was for constructing a regional flood RCB. Consider separate bid item for bridge concrete for future projects

MEMORANDUM

August 3, 2018

TO: **Department of Transportation Board of Directors**
FROM: **Rudy Malfabon, Director**
SUBJECT: **August 13, 2018, Transportation Board of Directors Meeting**
Item #5: **Approval of Agreements Over $300,000 - For Possible Action**

Summary:

The purpose of this item is to provide the Board a list of agreements over $300,000 for discussion and approval following the process approved at the July 11, 2011 Transportation Board meeting. This list consists of any design build contracts and all agreements (and amendments) for non-construction matters, such as consultants, service providers, etc. that obligate total funds of over $300,000, during the period from June 13, 2018, through July 17, 2018.

Background:

The Department contracts for services relating to the development, construction, operation and maintenance of the State's multi-modal transportation system. The attached agreements constitute new agreements and amendments which take the total agreement above $300,000 during the period from June 13, 2018, through July 17, 2018.

Analysis:

These agreements have been prepared following the Code of Federal Regulations, Nevada Revised Statutes, Nevada Administrative Code, State Administrative Manual, and/or Department policies and procedures. They represent the necessary support services needed to deliver the State of Nevada's multi-modal transportation system.

List of Attachments:

A) State of Nevada Department of Transportation Agreements for Approval, June 13, 2018, through July 17, 2018

Recommendation for Board Action:

Approval of all agreements listed on Attachment A

Prepared by: Administrative Services Division

MEMORANDUM

July 23, 2018

TO: Sondra Rosenberg, Assistant Director

FROM: Lori Campbell, Project Manager

SUBJECT: Negotiation Summary for P036-14-816, Amendment 2

A negotiation meeting was held via teleconference on April 2, 2018, with Kimley-Horn and Associates and Lori Campbell of the Nevada Department of Transportation (Traffic Safety Engineering) in attendance.

This duration of this agreement will be ending on 12/31/2019.

The scope of services that are to be provided by the SERVICE PROVIDER was reaffirmed by both parties at the outset.

The following schedule was agreed to by both parties:

Date	Task to be Completed
April, 2019	Safety Management Plans

Key personnel dedicated to this project are as follows:

Name	Title
Lindsay Saner	Kimley-Horn and Associates, Project Manager
Mike Colety	Kimley-Horn and Associates, Project Manager

There are no sub-consultants being utilized on this Project.

The DEPARTMENT's original estimate was $665,000

The SERVICE PROVIDER's original estimate was $665,000

The negotiations yielded the following:

- An increase in funds of $687,240.54 for Safety Management Plans to cover Task Order #3 (Sahara Ave) and Task Order #3 (Jones & Cheyenne) for a total agreement amount of $1,352,240.54.

Reviewed and Approved:

Assistant Director

AMERICAN OVERSIGHT

Task 1: Project Administration

1.1 Invoicing and Progress Reports – The SERVICE PROVIDER Project Manager (PM) will submit monthly progress reports with the monthly invoices to the NDOT Project Manager (PM).

1.2 Project Coordination – The SERVICE PROVIDER PM will be responsible for coordination with the NDOT PM and other project stakeholders, technical advisory committee members and all SERVICE PROVIDER's team members during the project.

1.3 Project Management – The SERVICE PROVIDER PM will be responsible for all project management duties and activities required for a successful completion of the project.

Deliverables:

- Progress reports, invoices and meeting minutes submitted each month.

Task 2: Existing Project Conditions

2.1 Analyze Safety Issues – Obtain the 5-year crash data for the identified corridor(s) and for the signalized intersections that will include crashes within 500 ft. on the cross streets at this intersections. Conduct an accuracy review of the crash data prior to the crash analysis. Conduct the crash analysis and prepare a crash summary. The crash analysis will focus on crash type, crash groupings and will provide a separate analysis for pedestrian, bicycle and transit bus related crashes. The SERVICE PROVIDER PM will request and evaluate crash narratives and witness reports for all pedestrian, bicycle and transit bus crashes. The crash summary will provide a basis for identifying safety issues in the corridor. Field reviews will be performed to verify all potential safety issues. A critical crash and safety issues location map will be prepared. Input on the corridor(s) safety issues will be solicited from the reporting agencies within their respective areas and Road Safety Audit (RSA) report.

2.2 Analyze Vehicle and Pedestrian Data – Vehicle and pedestrian movements and AADTs will be provided by the SERVICE PROVIDER PM at all of the intersections on the corridor (if not available from NDOT and local agencies).

2.3 Review Policies, Plans and Studies – Assemble all applicable policies, plans and studies that pertain to the identified corridor. A summary memo will be prepared after a review of all policies plans and studies related to the identified corridor. This will include any RSA that was conducted or is to be conducted on the corridor. A Geographic Information System (GIS) map will be prepared showing all of the plans and studies locations along the identified corridor.

2.4 Create GIS Maps of Existing ROW, Roadway Geometries and Traffic Control Devices – Maps will include existing right of way, lane configurations, driveways, on-street parking, location and connectivity of adjacent parking, existing bicycle facilities, bus stops, the pedestrian network in the corridor (including any accessibility issues for pedestrians), marked crosswalks and other traffic control devices.

2.5 Use the Highway Safety Manual (HSM) to analyze the corridor – Utilizing the data elements collected and analyze the corridor for mitigation plans and report the findings with the deliverables.

AMERICAN OVERSIGHT

2.6 Use the Interactive Highway Safety Design Model (IHSDM) to analyze the mitigation strategies – Utilizing the mitigation plans from 2.5, evaluate the corridor' options to obtain the best mitigation plan for the corridor.

Information Provided by Stakeholders:

- NDOT's SHSP
- NDOT's STIP
- NDOT's RSA, if indentified Corridor has had an RSA performed on it
- Southern Nevada (SNV) and/or Washoe County Regional Transportation Commission (RTC) Regional Transportation Plan (RTP) & Regional Transportation Improvement Plan (RTIP).
- SNV RTC's Bicycle and Pedestrian Plans, City/County Bicycle Plan and Pedestrian Safety Action Plan
- SNV and/or Washoe County RTC Transit System Analysis
- Master Plans from any City/County entity that has an indentified corridor(s) within its urban boundaries
- Crash Data for the indentified corridor(s)

Deliverables:

- Five year summary of all crashes in the corridor.
- Location aerial/GIS map of critical crashes and identified safety issues.
- Summary memo and GIS location map of all past safety related policies, plans and studies from stakeholders. This will consider future projects (NDOT, RTCs, Counties and Cities) along the corridor and all NDOT studies and data collection efforts.
- Aerial/GIS map series for existing right of way, roadway geometry and other features within the corridor.

Task 3: Develop and Evaluate Recommendations

3.1 Roadway and Traffic Improvements – Utilizing the crash summary and field reviews, identify and evaluate a series of short and long term improvements to address roadway and access safety issues on the identified corridor. This effort includes but not limited to the following:

- Field review of existing and/or proposed roadway, and access geometry in the corridor.
- Meetings with stakeholders that may include Law Enforcement, City representative, County representative, NDOT (staff from Safety Engineering, Traffic Operations, District, and Planning Division), RTC engineering/planning, and MPO to discuss safety improvements in the corridor.
- Improvements at intersections, along the corridor between intersections and any access management related improvements.
- Improvements will be shown on maps and the evaluation process will be documented in the final report.
- Improvements may include any identified improvements by the RTC, City, and County along the studied corridor.
- Proposed roadway and access improvements will be shown on maps and summarized in a Roadway and Access Management Needs report.

3.2 Pedestrian, Bicycle and ADA Improvements – Utilizing the crash summary and field reviews, identify and evaluate a series of short and long term improvements to address pedestrian, bicycle and ADA safety issues on the corridor. This effort includes but not limited to the following:

AMERICAN OVERSIGHT

- Field review of existing and proposed pedestrian, bicycle and ADA facilities in the corridor.
- Meetings with stakeholders that may include Law Enforcement, City representative, County representative, NDOT (staff from Safety Engineering, Traffic Operations, District, and Planning Bicycle and Pedestrian Program), RTC engineering/planning, and Metropolitan Planning organization (MPO) to discuss safety improvements in the corridor.
- Includes all existing and proposed pedestrian and bicycle facilities, pedestrian connectivity within the corridor.
- Includes any ADA accessibility issues and will be shown on maps.
- Proposed pedestrian, bicycle and ADA improvements will be shown on maps and summarized in a Pedestrian, Bicycle and ADA Needs report.

The pedestrian, bicycle and ADA evaluation process will be documented in the final report.

3.3 Transit Improvements - Utilizing the crash summary and field reviews, identify and evaluate a series of short and long term improvements to address transit safety issues on the corridor. This effort includes but not limited to the following:

- Field review of existing and future bus facilities in the corridor.
- Meetings with RTC Transit staff to discuss current and future transit needs in the corridor.
- Includes bus stop improvement needs, queue jump potential, transit signal priority potential and transit passenger connectivity.
- Proposed Transit improvements will be shown on maps and summarized in a Transit Needs report.

The transit improvement evaluation process will be documented in the final report.

Deliverables:

- Summary of proposed improvements

3.4 Prioritize Short and Long Term Improvements – All of the proposed improvements identified and evaluated in 3.1, 3.2 and 3.3 will be prioritized with input from NDOT and the stakeholders.

3.5 Right of Way (ROW) Requirements for Improvements – All of the proposed improvements will be evaluated to determine the need for right of way acquisition. This effort will include the following:

- Review of all proposed improvements (short and long term) and the potential ROW needs for each improvement.
- ROW requirements will be categorized by type of improvement.
- ROW requirements will show the approximate amount of ROW needed.
- ROW requirements will be shown on maps and summarized in a ROW Needs report.

3.6 Land Use Analysis – Conduct an inventory of land use within the studied corridor. This effort will be coordinated with the City, County, RTC, and MPO. This effort includes but not limited to the following:

- Field review of existing land use on both sides of the corridor.
- Identify existing vacant land and/or buildings.

AMERICAN OVERSIGHT

- Meetings with stakeholders that may include Law Enforcement, City representative, County representative, NDOT (staff from Safety Engineering, Traffic Operations, District, and Planning Division), RTC engineering/planning, and MPO to discuss and assess redevelopment potential within the corridor.
- Memo and maps documenting the existing and proposed land use of the corridor.

Deliverables:

- Corridor Needs Reports that identify a series of short and long range proposed improvements, along with location maps and the source for each improvement for the following categories:
  - Intersections
  - Corridor travel lanes
  - Access Management
  - Pedestrians, bicycles and ADA
  - Transit
- Prioritized list of all short and long range improvements from Sections 3.1, 3.2 and 3.3.
- ROW Needs Report and maps showing existing right of way and proposed right of way needs for improvements.
- Map of Land Use showing all vacant and/or currently unused parcels.
- Summary of proposed improvements.

Task 4: Public and Agency Involvement

4.1 Project Technical Advisory Committee (TAC) – Establish a project TAC that includes representatives from RTC, City, NDOT, MPO, Federal Highway Administration, Federal Transit Administration, Law Enforcement, and representative from Indian Reservations. The TAC will review the project study issues and results. The TAC will meet as needed during the study period. SERVICE PROVIDER will perform all logistics for the TAC, including meeting location, notices and updates to members, meeting documentation and follow-up. Meeting minutes will be developed and distributed by SERVICE PROVIDER for TAC comment after each meeting.

4.2 Public Information Meetings/Planning Workshops – Four public information meetings (open house/workshop format) will be held during the project time frame. In addition to these meetings up to six neighborhood meetings will be held with residents, business/property owners and community groups to address specific issues. These meetings will be coordinated with the NDOT Public Information Hearings Officer. SERVICE PROVIDER will perform all logistics for all meetings, including public noticing as per NDOT requirements, direct mail notices, media release development for NDOT distribution, securing meeting locations, meeting set-up and tear down, meeting handouts and displays, audio/visual needs, obtaining a court reporter, photography as needed, and a post-meeting report detailing the meeting.

4.3 Stakeholder Working Group – SERVICE PROVIDER will establish a stakeholder working group (SWG) comprised of business owners/stakeholders to serve as a sounding board for the potential impacts of proposed improvements. This group would meet regularly during the project. SERVICE PROVIDER will perform all logistics for the SWG, including meeting locations, notices and updates to members, meeting documentation and follow-up. Meeting minutes will be developed and distributed by SERVICE PROVIDER for SWG comment after each meeting.

4.4 Project Presentation – The SERVICE PROVIDER in coordination with NDOT PM will make presentations to the RTC Advisory Committee, City, County, and other entity (as required) to provide updates on the status of the project. The SERVICE PROVIDER will develop a PowerPoint presentation for use during the study, and will make various presentations specifically at the beginning and at the conclusion of the study during the course of the project.

AMERICAN OVERSIGHT

SERVICE PROVIDER will address and document all questions, concerns and input from the committee.

4.5 Project Information for the RTC Board of Commissioners and County Commissioners/City Council Meetings – SERVICE PROVIDER will provide information, as requested, for project status reports to the RTC Board of Commissioners and to the Reno City Council.

4.6 NDOT Web Page Project Updates – NDOT maintains project pages for all major projects under their jurisdiction. If required, a full project website is necessary. SERVICE PROVIDER will provide NDOT project information to be placed on their website and will provide information such as project description, photographs, maps, comment forms, project contacts and relevant news. This information will also include a one-page "fast facts" project fact sheet to provide basic information about study elements and schedule. SERVICE PROVIDER will update the fact sheet as deemed necessary.

4.7 PowerPoint Template – The SERVICE PROVIDER will develop and design a unique PowerPoint template for the study for use in all presentations, in order to help brand and uniquely identify the project to the public.

Deliverables:

- Meeting minutes will be prepared and distributed for all TAC and Stakeholder Work Group meetings. This will include list of attendees.
- Summary memos will be prepared for the RTC Advisory and Bicycle/Pedestrian Committee meetings. This will include a list of attendees.
- Summary memos will be prepared for the public information meetings and will include a list of attendees.
- Project status reports for presentation to the RTC Board of Commissioners and the Reno City Council.
- Project Web Page showing current project information.
- PowerPoint template for use in all presentations.

Task 5: Report Preparation

5.1 Prepare Draft Report - SERVICE PROVIDER will write the draft report that will be the basis for the Safety Management Plan. The report will include all identified safety issues and the agreed upon short and long range improvements to address the safety issues, and construction phases if required. The report will include all maps prepared during the course of the project, all right of way information (both existing and proposed) and the results of the economic analysis for redevelopment potential. The report appendices will include copies of the meeting minutes and summary memos. The draft report will undergo a QA/QC review prior to submittal to NDOT.

Deliverables: Draft Report including all pertinent documents.

5.2 Revised Report - Following the completion of the Draft Report, SERVICE PROVIDER will present the report to the NDOT PM. Following the review by the NDOT PM the draft report will be presented to the project TAC members, RTC, County, and/or City for their review. The revised report will undergo a QA/QC review prior to final submittal.

Deliverables: Revised Draft Report including all pertinent documents.

AMERICAN OVERSIGHT

5.3 Final Report Submission to NDOT - After all comments received from the NDOT PM, project TAC, RTC and County/City are duly addressed and incorporated into the report, SERVICE PROVIDER will resubmit the final report to the NDOT PM for final review and approval. The approved report including all pertinent documents will be wet stamped by the SERVICE PROVIDER PM (Professional Engineer).

Deliverables: Final Safety Management Plan report including all pertinent documents.

Purpose of, and Justification for, Budget Request:

** This 2A was originally assigned Agreement# 224-18-015**
The purpose of this effort is to update the Department's Pioneer Program Guidelines and Project Management Division's policies and procedures in order to establish policies and procedures related to a State Infrastructure Bank, legislative support, and support pertaining to unsolicited proposals. Recent Legislation implemented new regulations on project delivery including the authority to solicit for Public Private Partnerships and the creation of a State Infrastructure Bank. Guidelines and policy regarding the legislation have yet to be created. The Pioneer Program Guidelines, last updated in August 2013, have served as the backbone of alternative project delivery and helped the Department successfully deliver several Design-Build and Construction Manager at Risk (CMAR) projects. Since the last update of the Pioneer Program Guidelines, the Industry has evolved, making it necessary to incorporate new legislation, lessons learned, process updates, training, and best industry practice into the guidelines.

Scope of Services:

** This 2A was originally assigned Agreement# 224-18-015**

MEMORANDUM

July 27, 2018

TO: Cole Mortensen, Assistant Director of Engineering

FROM: Nick Johnson, Chief Project Management NJ DS

SUBJECT: Negotiation Summary for RFP 244-18-015 Pioneer Program Update and Professional Services for Alternative Project and Program Delivery

---

Negotiation meetings were held at NDOT headquarters in Carson City between July 17th and July 23rd, 2018 with John Munoz and Jim Gallegos of CDM Smith and Nick Johnson, Pedro Rodriguez, Rick Splawinski, and Dale Keller of the Nevada Department of Transportation (DEPARTMENT) in attendance. In addition, numerous discussions on the scope and fee estimate for the Project were performed by email.

This duration of this agreement will be 1.5 years, ending on December 31, 2019.

The scope of services that are to be provided by the SERVICE PROVIDER was reaffirmed by both parties at the outset. Both parties agreed to the final attached scope of services.

The following schedule was agreed to by both parties:

Date	Task to be Completed
August 2018	Program Advisory Review Meeting
September 2018	High-Level Project Screening Report
October 2018	Project Evaluation Report Completion
November 2018	Final Recommendation
June 2019	Legislative Review for Pioneer Program Update

Key personnel dedicated to this project are as follows:

Name	Title
John Munoz	Project Manager
Jim Gallegos	Deputy PM
Meredith Benefield	Project Coordinator

NV DA 20-016 A 000167

The original estimate was $814,355.00 including 922 man-hours of work by the SERVICE PROVIDER, and direct expenses at $587,918.00 (including sub-consultant expenses).

The negotiations yielded the following:

1. There will be 922 total man-hours allotted to throughout the course of this agreement for an amount of $216,937.00.
2. The Parties agreed that it is difficult to estimate the level of consultant effort for this phase of the work. As such, as part of this approval, we request your approval to change the method of payment from “Cost plus Fixed Fee” to “Specific Rate of Compensation.” With this method, the Department will not be responsible for payment of a “Fixed Fee” if the actual work performed by the consultant is less than anticipated.
4. The direct expenses agreed to total $492,867.00 for sub-consultants, reproduction, communication, travel and per diem. There will be no direct compensation for computer time.
5. The total negotiated cost for this agreement is $709,804.00.

RFP 244-18-015

Pioneer Program Manual Update and
Professional Services for Alternative Innovative
Project and Program Delivery

Unsolicited Proposal Services and Pioneer Program Update/Legislative Review

July 25, 2018

AMERICAN OVERSIGHT
Approved for Release: NV DA 20-06 Ver 000172

PROJECT DESCRIPTION

The Department has received interest in the submittal of an unsolicited proposal (UP) which will require an in-depth technical, financial, and legal review of the project and programmatic considerations, which may factor into the decision to advance a proposal through the procurement process. The UP will be evaluated in accordance with the Pioneer Program with deviations made to incorporate recent legislation and other updates to support decisions by the Department.

Recent legislation has resulted in new regulations on project delivery including the authority to solicit for Public Private Partnerships and the creation of a State Infrastructure Bank. The scope of work for this agreement shall also include researching and analyzing the new legislation and determining the need for new and necessary changes required to make Department manuals, processes, and policies current.

Based on the scope of work provided in RFP 244-18-015, It is anticipated that the full scope of work will be identified, negotiated, and executed through an amendment(s) to this agreement and scope of work. This first agreement is necessary to begin work immediately for time sensitive and critical items of work as outlined below.

SUMMARY OF WORK

Task 1: Project Organization and Management
Task 2: Evaluation of Unsolicited Proposal
Task 3: Pioneer Program Update/Legislative Review

AMERICAN OVERSIGHT

1 PROJECT ORGANIZATION AND MANAGEMENT

1.1 Project Management

This task will involve managing and coordinating the Project activities with Department staff, the attorney general's office, local and federal agencies, and industry partners as well as facilitating meetings and workshops, preparing presentations and exhibits and preparing meeting documentation.

It will also involve reporting progress, managing the schedule, coordination with sub consultants, and invoicing. *(assumes schedule of 4 months)*

1.1.1 Project Management Plan

The Service Provider will develop a Project Management Plan (PMP) in accordance with Department's Project Management Guidelines, that will establish the project goals, the team's mission, and the process and milestones to fit the Department's timeline for reviewing the Unsolicited Proposal (UP) and completing the work necessary to complete all tasks and achieve the Project goals. The PMP will include a detailed schedule of the review process, meetings with NDOT leadership and subject matter experts, workshops, and draft and final deliverables.

The draft PMP will be submitted to the Department for review within 21 days following Notice to Proceed and minor updates will be made when requested by the Department.

Should the UP reach the Project Evaluation level of review, the PMP will be re-evaluated and updated to include any additional information and detail as required by the Department.

1.1.2 Unsolicited Proposal Program Advisory Committee (UPPAC) Meeting

The Service Provider will attend a UPPAC Meeting to assist the Department's UP Program Manager with presenting the UP and facilitating the committee's evaluation and recommendation to the Program Director. The Service Provider will provide support for meeting organization, the presentation, evaluation criteria and meeting documentation as required.

1.1.3 Project Workshop

To evaluate the UP and associated risks and opportunities, the Service Provider will conduct a workshop during the Project Evaluation Phase of the Project. The workshop will include core project team members and key stakeholders as determined by the Department. The Service Provider will prepare an agenda and a draft risk/opportunity matrix and will develop a summary of the workshop and the results of the risk mitigation strategy discussions. The results of the workshop will be distributed to the participants.

AMERICAN OVERSIGHT

1.1.4 Kickoff Meeting and Project Status Meetings

To provide consistent communication and updates throughout the life of the project, a kickoff meeting will be held following the Notice to Proceed with the Service Provider's key staff and the Department and status meetings will be held between the Service Provider's PM and Deputy PM and the Department on a weekly basis. The Service Provider will prepare a draft agenda and will develop a summary of each meeting and distribute it to the meeting participants and the Project Team. Attendance by Service Provider key staff will be determined on a case-by-case basis and in-person attendance will be limited to "monthly" for Service Provider key staff residing outside of the Carson City area unless requested otherwise by the Department. Remote access will be provided for all required attendance at the Project Status Meetings.

1.1.5 Government Officials Meetings

Throughout the life of the project the Service Provider will be available to attend Transportation Board meetings, meet with federal, state and local agencies and brief elected officials on the project. It is assumed that up to ten (10) meetings or briefings will be required:

1.2 Schedule

The Service Provider will develop a flow chart of activities and a milestone schedule. The flow chart and schedule will provide the Department with a sequential scheme of events and dates to measure the project's progress. The Service Provider will update the schedule twice a month and submit to the Department for review at mid-month and as part of the Service Provider's monthly progress report to the Department.

1.3 Progress Report

Each month the Service Provider will provide a progress report along with the monthly invoice that detail the month's activities and reports any upcoming project milestones.

1.4 Quality Assurance and Quality Control (QA/QC) *

The Service Provider shall provide project management review for all deliverables. The Service Provider's QA/QC procedures shall be documented in the form of QA/QC Plan and submitted to the Department as part of the PMP for review.

Deliverables*

- Draft & Final PMP – including one major update upon approval of the UP to the Project Evaluation level
- Eighteen (18) Project Status Meetings agenda & summaries
- Original Schedule plus eight (8) Schedule updates
- Four (4) Monthly Progress Reports

AMERICAN OVERSIGHT

- Up to five (5) different powerpoint presentations (briefings & workshops)
- Two (2) Risk Identification and Mitigation Matrices

Meetings/Travel*

- One (1) UPACC Meeting
- One (1) Project Evaluation (Risk) Workshop
- Eighteen (18) Bi-Weekly Project Status Meetings
- Ten (10) Government Officials* Travel included for key staff only as described in the Fee

2 EVALUATION OF UNSOLICITED PROPOSALS

2.1 Overview

The Service Provider will provide a variety of activities related to the support in the technical, legal and financial review, analysis, processing, acceptance, or rejection of any unsolicited proposal the Department may receive. The Service Provider will also work closely with the Attorney General's staff in order to ultimately obtain their approval. The Service Provider's tasks, activities, and deliverables are as follows:

- Deliver financial and technical opinions, white papers and presentations as requested regarding matters affecting or that could potentially affect the project;
- Provide continuing legal advice to the Department and the Attorney General's Office as requested from time to time on issues impacting the proposal and the evaluation;

The Service Provider will review UPs in accordance with the Pioneer Program Guidelines (Guidelines). The evaluation process will include reviews for completeness, technical, legal and financial opportunities, risks and concerns. The Service Provider will meet with the Department, affected agencies and Project Team members and committees to present findings and facilitate the evaluation and decision-making process.

The Service Provider will identify, prioritize, assign, and track technical, legal, and financial risks and opportunities, formulate clarification questions and risk mitigating solutions and prepare recommendations (White Papers) to establish formal recommendations with documentation to support the conclusions.

The Service Provider will develop and share presentations with leadership to illustrate the critical components, commitments, terms risks, and potential value of the UP with a summary of next steps along with target dates for their completion.

AMERICAN OVERSIGHT

2.2 Completeness Review

The Service Provider will assist the Department with conducting a review of the UP to determine whether the UP contains all of the required information to conduct a thorough review and evaluation of the UP and to verify that it meets statutory requirements.

2.3 High Level Project Screening

The Service Provider will manage and conduct the High level Project Screening in accordance with the Pioneer Program Guidelines.

2.3.1 Review of the UP

The Service Provider will review the UP based on the High Level Project Screening Criteria, draft follow-up questions, identify risks and opportunities and support coordination efforts to facilitate the completion of the high-level review. The Service Provider will develop templates, prepare recommendation letters, correspondence with Proposers and develop high-level decision-making tools to help facilitate the process.

2.3.2 High Level Project Screening Report

The Service Provider will draft a High Level Project Screening report and provide guidance and documentation to support the results of the High Level Project Screening. The High-Level Project Screening Report will include a preliminary analysis regarding the scope, commercial structure, technical attributes and viability of undertaking a project as a potential public-private partnership (P3). The High Level Project Screening Report will address the following Guidelines criteria:

- Consistency with Statewide Transportation Plan and Need
- Network Continuity Considerations
- Constructability
- Congestion Relief Potential
- Potential Safety Impacts
- Social Impacts
- Environmental Impacts and Status
- Project Status
- Financial Feasibility
- Stakeholder and Citizenry Acceptability
- Impact on Other Projects

In addition, to the extent possible the report will answer the following additional questions:

AMERICAN OVERSIGHT

- Is the project sufficiently complex enough to benefit from transferring the risk through P3 delivery?
- Is the project consistent with FHWA and USDOT initiatives?
- Does P3 provide for project acceleration?
- Does P3 provide for project efficiencies? and
- Is there a reasonable possibility of transferring risk?

The report will be developed in cooperation with the Department's Project Review Team and will include the identification of risks, benefits and opportunities and will include suggested clarification questions and conditions as well as a recommendation for approval or denial. The Report will be submitted to the Department's Project Manager.

2.4 Intergovernmental Review

If the High Level Project Screening results are favorable, the Service Provider will assist the Department with facilitating the review by each governmental entity that has jurisdiction over an area in which any part of the transportation facility included in the UP is located. The Service Provider will prepare a PowerPoint presentation and attend meetings between the Department, the FHWA and the affected local agencies to assist with responding to questions that may arise during the review process to allow the governmental entity to make a determination as to whether the facility is compatible with its local, regional or statewide transportation plan or program, in accordance with 4.4.5 of the Guidelines.

2.5 Project Evaluation

If the response from the Intergovernmental Review is favorable the Service Provider will assist with the Project Evaluation in accordance with 4.4.6 and Appendix G of the Guidelines. This more in-depth investigation of the High Level Project Screening criteria and additional question as listed in Section 2.3 above will include the following:

2.5.1 Review of the UP

The Service Provider will conduct an in depth quantitative investigation of the UP, draft follow-up questions, further identify and refine risks and opportunities and support coordination efforts to facilitate the completion of the evaluation. The Service Provider will prepare templates, correspondence and documentation to facilitate the process.

2.5.2 Financial Model**

Service Provider will prepare a Preliminary Financial Analysis. This analysis will include developing ad hoc, quantitative sketch level models for financial benefit assessment to determine financial feasibility and to analyze project delivery alternatives.

AMERICAN OVERSIGHT
Approved Agreement Over $50,000
NV DA 20-0616 A 0001108
Page 29 of 94

2.5.2.1 Prepare an updated, detailed financial evaluation report based on the high-level project screening financial assessment report and additional findings as well as NDOT inputs/comments

2.5.3 Public Sector Comparator

The Service Provider will assist the Department in developing estimates of the timing and costs for delivery of the same project scope as the UP using a DB delivery approach.

2.5.4 Shadow Bid

The Service Provider will prepare estimates of the expected timing and costs for delivery of the same project scope as the UP using a competitive procurement for P3 delivery approach.

2.5.5 Project Risks

The Service Provider will refine the risks, benefits and opportunities created during the High Level Project Screening process.

2.5.6 Assumptions

To the extent not required in Appendix G, the Service Provider will develop a comprehensive list of assumptions about critical factors affecting the UP's success or failure.

The Service Provider, in cooperation with Department's Project Review Team will prepare and submit a Project Evaluation Report in accordance with the outline available in Appendix G and provide guidance and documentation to support the results of the report. The final report will include a summary of NDOT's preferred approach for the project including timeline for possible implementation.

Deliverables*

- Templates, documentation and Department correspondence to support the review process
- High Level Project Screening Report
- Project Evaluation Report
- UP Review & Comment Submittals

Meetings/Travel*

- Six (6) UP Internal CDMS Team Meetings. These will be strategic teleconference calls at key milestones

Assumptions:

- UP review cycle will involve no more than the major cycles of reviews, meetings and recommendations.

AMERICAN OVERSIGHT
Approved Agreement Over $100,000
NV DA 20-0616 A 000179
Page 30 of 94

- The Department will furnish timely financial and technical information and direction to allow completion of the evaluation process, specifically the information that is not otherwise required to be developed or provided by the Service Provider.

- All plan submittals to the Department will be electronic PDF

- The results of the High Level Project Screening may require a reevaluation of the scope and the estimated fees associated with the detailed quantitative delivery options analysis. Any changes resulting from this process shall be discussed with the Department and mutually agreed upon.

* Travel included for key staff only as described in the Fee
** The responsibilities under this contract do not include advising NDOT, or any municipal entity or other person or entity, regarding municipal financial products or the issuance of municipal securities, including advice with respect to the structure, timing, term, or other similar matters concerning such products or issuances, including derivatives, GICs, forward supply contracts for securities or plans to invest muni bond proceeds. The CONSULTANT and SUBCONSULTANTS are not serving as a "municipal advisor" for purposes of the registration requirements of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) or the municipal advisor registration rules issued by the Securities and Exchange Commission, and do not owe a fiduciary duty pursuant to Section 15B of the Exchange Act to the Central San with respect to the information and material prepared pursuant to this contract.

3 PIONEER PROGRAM UPDATES/ LEGISLATIVE REVIEW

The service Provider will review the Pioneer Program Guidelines and related legislation for evaluating unsolicited proposals. The Service Provider will identify Pioneer Program updates for the UP evaluation and sole source negotiation process based in part on the evaluation process, lessons learned and best practices in the industry. The Service Provider will review BDR's that may directly or indirectly affect the Program and will provide input (support or opposition) to the ongoing legislative efforts as requested by the Department.

Director Comments:

With staffing vacancies and the need to support project delivery, I support this. Be prepared to answer questions from the Board when it is agendized for Board approval. Consider drafting the agreement for two years with a two year option in the event of performance issues or the ability to handle work in-house based on which projects are being delivered (significant ROW support needed beyond NDOT capacity versus projects that can be handled by NDOT). - RM

STATE OF NEVADA
DEPARTMENT OF TRANSPORTATION

MEMORANDUM

August 1, 2018

TO: Cole Mortensen, Assistant Director-Engineering

FROM: Britt Tucker, R/W Staff Specialist/Project Manager

SUBJECT: Negotiation Summary for RFP P024-18-030, Agreement P247-18-030 Right-of-Way Support Services.

This RFP solicited up to three (3) firms to augment existing staff levels and provide right-of-way services throughout the state to meet project deadlines and workload. The two (2) firms selected to enter into negotiations are:

1. Atkins North America, Inc Agreement P247-18-030
2. Overland Pacific and Cutler, LLC Agreement P248-18-030

The negotiations for Agreement P247-18-030 with Atkins North America, Inc. were accomplished through e-mail and phone conversations on multiple dates. Terms and conditions were negotiated and put through draft review. Final Service Agreement execution is forthcoming.

The DBE goal for this agreement has been established at zero percent (0%).

The methods of payment for this RFP is Specific Rates of Compensation and are identified below. Due to the broad range of services identified in this RFP the Cost Per Unit method was also included as an option and will likely only be used for Appraisals and Appraisal Review Tasks for future project parcels.

Atkins requested annual cost of living increases commensurate with U.S. Bureau of Labor Statistics consumer price index for the greater Reno area as reported on June 30th.

The scope of services that are to be provided by the SERVICE PROVIDER was reaffirmed by both parties through the Service Agreement draft review. See Scope Attached.

Key personnel dedicated to this project for Atkins North America Inc. are as follows:

Atkins:	
Roger Phillipi, PE	Principle in Charge
Paul Saucedo	Project Manager
DeAnne Franklin, SRWA	Quality Assurance/Control
Alan Yoshida, SRWA	Utility Relocation Lead (North)
Heidi Dexheimer, PE, WRS	Utility Relocation Lead (South)
Eric Christianson, PLS	Survey Services Lead
Scott Krueger, MAI	Appraisal Manager (North)
Reese Perkins, MAI	Appraisal Manager (South)

As a result of RFP 024-18-030, two (2) Master Service Agreements shall be awarded with SERVICE PROVIDERs to perform the Scope of Services. All Master Service Agreement SERVICE PROVIDERs will be invited to submit a response to a Request for Approach (RFA) when each task is identified. RFAs will be evaluated and ranked by the DEPARTMENT's Project Manager, with final ranking approved by the Division Head. The top-ranked SERVICE PROVIDER will be awarded the Task Order. The total amount of Task Orders issued to all

AMERICAN OVERSIGHT

NV DA 20-016 A 000185

DocuSign Envelope ID: 9896F3B8-F883-47B8-B465-F0379BA4BD2D

SERVICE PROVIDERs related to the Scope of Services under RFP 024-18-030 shall not exceed Ten Million and No/100 Dollars ($10,000.000.00). Specific Rates of Compensation has been selected as the method of payment, for which the consultant will be paid at an agreed and supported fixed hourly rate for each class of employee engaged directly in the work. The rates will per hour and include direct salary costs, indirect salary costs, other costs, and fixed fee. It is anticipated that each Task Order for appraisal and appraisal reviews will be negotiated as a Cost Per Unit.

Travel costs will be reimbursed at the current rates allotted to state employees. Travel costs will be reimbursed based on actual costs limited by Federal Travel Regulations (FTR) and the CONUS rate for Nevada. The FTR breaks down meals and incidental expenses at its website: www.gsa.gov/mie. The first and last travel days are calculated at seventy-five percent (75%). The lodging rate excludes taxes and fees. Taxes and fees are reimbursable. See this website for lodging in Nevada: http://www.gsa.gov/portal/category/100120. The SERVICE PROVIDER shall provide lodging receipts.

The overhead rate of 143.77% was provided by the Internal Audit Division for Atkins North America, Inc.

MEMORANDUM

August 1, 2018

TO: Cole Mortensen, Assistant Director-Engineering

FROM: Britt Tucker, R/W Staff Specialist/Project Manager

SUBJECT: Negotiation Summary for RFP P024-18-030 Agreement P248-18-030 Right-of-Way Support Services.

This RFP solicited up to three (3) firms to augment existing staff levels and provide right-of-way services throughout the state to meet project deadlines and workload. The two (2) firms selected to enter into negotiations are:

1. Atkins North America, Inc Agreement P247-18-030
2. Overland Pacific and Cutler, LLC Agreement P248-18-030

The negotiations for Agreement P248-18-030 with OPC, LLC were accomplished through e-mail and phone conversations on multiple dates. Terms and conditions were negotiated and put through draft review. Final Service Agreement execution is forthcoming.

The DBE goal for this agreement has been established at zero percent (0%).

The methods of payment for this RFP is Specific Rates of Compensation and are identified below. Due to the broad range of services identified in this RFP the Cost Per Unit method was also included as an option and will likely only be used for Appraisals and Appraisal Review Tasks for future project parcels.

OPC, LLC requested annual cost of living increases commensurate with U.S. Bureau of Labor Statistics consumer price index for the greater Las Vegas area as reported on June 30th.

The scope of services that are to be provided by the SERVICE PROVIDER was reaffirmed by both parties through the Service Agreement draft review. See Scope Attached.

Key personnel dedicated to this project for OPC, LLC. are as follows:

<u>Overland Pacific & Cutler:</u>

Charles Grombacher, J.D.	Project/Program Manager
Todd Salvatore	Acquisitions Lead
Teresa Grombacher	Quality Assurance/Control
Mike Parker	Utility Manager
Karen Christie, RPM	Property Manager
Halana Salazar, PLS	Professional Land Surveyor
Glenn Anderson, MAI, SRA, AI-GRS	Appraisal Lead

As a result of RFP 024-18-030, two (2) Master Service Agreements shall be awarded with SERVICE PROVIDERs to perform the Scope of Services. All Master Service Agreement SERVICE PROVIDERs will be invited to submit a response to a Request for Approach (RFA) when each task is identified. AMERICAN OVERSIGHT

Attachment A
Scope of Services

Service Provider shall:

- Abide by all applicable laws, regulations, codes, and polices related to right-of-way services, including but not limited to 42 USC § 4601, et seq. and implemented through 49 CFR Part 24 (Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970), 23 CFR parts 645, 646 and 710, NAC and NRS, the Nevada Department of Transportation Right-of-Way Manual and Local Public Agency Manuals as applicable.

- Ensure continuity of personnel assigned and provide complete information transfer from any reassigned personnel.

- Assign personnel that have sufficient working knowledge of applicable CFR, NAC, NRS and industry standard practice related to right-of-way services.

- Support DEPARTMENT Right-of-Way Division staff by providing right-of-way survey services, land surveying, title research, appraisal, appraisal review, acquisition support, relocation support, property management support, utility coordination, LPA oversight for acquisitions and relocations, training of DEPARTMENT staff or contractors in DEPARTMENT right-of-way processes, and other services as may be required to support the DEPARTMENT's Right-of-Way Division needs on an as-needed basis.

- Demonstrate a working knowledge of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 sufficient to effectively augment the DEPARTMENT's real property acquisition, relocation and real property management efforts.

- Report to the Chief Right-of-Way Agent or their assigned designee.

- Maintain individual diaries for all work performed on each project and/or task assigned.

- Maintain and provide a professional and positive working relationship with internal and external customers.

- Coordinate with the Right-of-Way Staff Specialists to create training programs, modules and materials covering State and Federal laws governing right-of-way activities, the history of the Division and the development of its policies/procedures for acquisitions/negotiations and relocation pertaining to businesses, residences, farms, non-profits and utilities, appraisal and appraisal review, property management and utility coordination.

- Training shall cover all aspects of right-of-way and DEPARTMENT's processes associated with that work based on Federal, State codes and laws as well as internal policies and procedures identified in the R/W Manual.

- Training shall follow all current federal and state laws and regulations governing the Right-of-Way profession as it relates to state and federally funded transportation projects.

- Training modules shall be in an electronic format (e.g. PowerPoint) capable of being edited for future expansion and use.

- All training modules shall be the property of the Right-of-Way Division and provided to the Staff Specialists for review and approval prior to finalizing its content.

AMERICAN OVERSIGHT

- Provide upon request onsite training, for DEPARTMENT staff, in Carson City and Las Vegas.

- Provide, upon request, onsite training throughout the state of Nevada for Local Public Agencies and maintain a record of the individuals that have been certified.

- Maintain and provide updates to all training materials as needed or upon request for the life of this Service Agreement.

- Provide reports of right-of-way survey services, appraisal, appraisal review, acquisition, utility coordination, condemnation coordination and training progress including schedule and budget data as applicable.

- Provide close coordination and regular interaction with DEPARTMENT Right-of-Way Agents, Supervisor, and Administration to ensure smooth operation of Right-of-Way processes.

- Coordinate and lead third party coordination meetings, prepare meeting minutes and document assigned tasks and action items.

- Coordinate with other DEPARTMENT staff and third parties related to right-of-way services as assigned.

- Conduct Meetings/Workshops as Required for Discussion of Right-of-Way Processes and Issues for the following:

  Appraisal
  Appraisal Review
  Fee acquisitions
  Permanent easements
  Temporary easements
  Tenant-owned improvements
  Permissions to construct
  Control of access
  Service point requirements
  Locked gates
  Entry permits
  Utility conflicts
  Utility relocations
  Relocation of displaced persons
  Quality Control – Staff Specialist workshop
  R/W Setting
  Property Management
  Agreement based land exchanges

- Coordinate Right-of-Way Setting Meetings and assist the design team by providing input and recommendations on right-of-way needs (i.e. location, limits, duration and purpose), and the types of rights to be acquired. The type and purpose of the rights to be acquired may include fee title, permanent easement, temporary/construction easement, replacement utility easements, permissions to construct and control of access. In addition, the Consultant right-of-way staff will assist with any right-of-way issues including but not limited to locked gates, service point locations and analyses of alternatives to avoid right-of-way (i.e. purchasing real property versus building retaining walls).

  Right-of-way meetings will include: A right-of-way needs assessment meeting; a pre-right-of-way setting, a final right-of-way setting and amended right-of-way setting meeting, as required. It is assumed that all of these meetings will be held at DEPARTMENT Headquarters in Carson City. The DEPARTMENT will determine appropriate attendance by DEPARTMENT and FHWA staff.

- Respond to property owners and to general public inquiries regarding right-of-way acquisition and

AMERICAN OVERSIGHT

relocation procedures under the Uniform and the DEPARTMENT's Right-of-Way Manual.

1.0 Utility Coordination:

Service Provider personnel shall:

1.1 Report to the Assistant Chief of Right-of-Way Utilities or their assigned designee.

1.2 Support DEPARTMENT staff in the identification, mitigation and resolution of utility conflicts on assigned projects.

1.3 Provide weekly report of design progress, utility design schedule and project utility budget.

1.4 Establish a Utility Conflict Matrix for each project that clearly identifies the conflicts based on the referenced design, potential resolutions, risks, costs, and important dates.

1.5 Provide close coordination and regular interaction with DEPARTMENT Right-of-Way Agents, Supervisor, and Administration to ensure smooth operation of Right-of-Way processes.

1.6 Coordinate and lead third party coordination meetings, prepare meeting minutes and document assigned tasks and action items.

1.7 Coordinate with third parties related to development of service points, utility access points and easement delineation requirements.

1.8 Provide coordination services for utilities. Services will include but are not limited to: identifying and acquiring necessary easements for construction, preparing and filing Public Utility Commission (PUC) Applications, obtaining necessary permits, coordinating with utility companies or entities, verifying prior rights status, identifying replacement easements when required and negotiating utility agreements.

1.9 Field Review: Conduct a thorough field review of the project to determine the extent and general location of all utilities within the R/W.

1.10 Contact Utility Companies: Contact each utility company in the area and within the region to solicit information about possible facilities within the project limits that may not be evident from existing plans, permits, records or field inspections. Submit letters to Utility Companies for DEPARTMENT's authorization to incur costs for preliminary engineering.

1.11 Coordination with DEPARTMENT Designers: Contact the DEPARTMENT's project design team and obtain preliminary plans and meet with each utility to identify and verify the general location and completeness of the current information. Obtain utilities as-built plans of facilities with the R/W and project area as well as any prior rights or easement documentation.

1.12 Identify Utilities for Encroachment Permits: Request permits, review and verify all utilities located pursuant to an encroachment permit.

1.13 Design/Utility Company Field Review: Schedule and conduct a field review with the DEPARTMENT's design team and all of the utility companies. This can be done with all of the utility companies in attendance or, as circumstances dictate, with individual companies.

1.14 Coordinate Relocation Plans/Estimates: Coordinate with the utility companies to ensure that all plans and relocation cost estimates are produced in a timely fashion to meet the project schedule.

1.15 Review of Prior Rights: Review and research the prior rights documentation provided by the utility companies to ensure the provisions of the NRS and Title 23 CFR Part 645 regulations are satisfied.

AMERICAN OVERSIGHT

1.16 Review Relocation Plans/Estimates: Once received, perform a detailed review of the utility companies' plans and cost estimates to ensure they comply with NRS, NAC and Title 23 CFR Part 645 regulations, with particular attention to betterment, depreciation and salvage credits.

1.17 Utility Relocation Agreements/Occupancy Documents: Draft the utility relocation agreements and occupancy documents and process the agreements for approval and signatures by the utility and the DEPARTMENT.

1.18 Coordination during Relocations: Coordinate with DEPARTMENT utility inspectors during the utility adjustments and relocations.

1.19 Sub-surface utility Engineering: Assist DEPARTMENT staff in determining the need for Subsurface Utility Engineering (SUE). Process Consultant agreements for SUE services.

Railroad Coordination/Relocation

1.20 Provide coordination services for railroad. Services will include but are not limited to: identifying and acquiring necessary easements for construction, preparing and filing Public Utility Commission (PUC) Applications, obtaining necessary permits, coordinating with utility companies or entities, verifying prior rights status, identifying replacement easements when required and negotiating utility agreements.

1.21 Identify Existing Railroad Right of Way: including location, leases, utilities and permittees on Railroad property. Research and review any existing Construction Maintenance Agreements between the DEPARTMENT and Railroad for Special Provisions and existing easements.

1.22 Identify Needs from Railroad: After design plans are available, meet with Railroad and determine the needs of the Railroad with respect to additional land, sight distances, clearances, maintenance and general requirements for a grade separation over the tracks.

1.23 Bridge Coordination: Provide close coordination with DEPARTMENT bridge designers and the Railroad plan review engineers, to ensure a free flow of plans, information and approvals.

1.24 Identify Railroad Needs: Insure provisions are made for any additional tracks, off track maintenance roads and space is provided for relocated railroad utilities in accordance with Title 23 CFR Part 646, Subpart B and the Nevada Public Utilities Commission.

1.25 Submit Plans to the Railroad: Formally submit plans to the Railroad with authorization to incur costs for plans and estimates.

1.26 Identify Relocation Impact/Costs: Determine if the Railroad has any obligation to move or change its facilities at its own expense or participate in a share of the costs for the project.

1.27 PUC Petition: Draft, coordinate and file petitions to the Public Utilities Commission and ensure that all required exhibits, plans and estimates are obtained and provided. Attend PUC hearings/public meetings if required. Obtain PUC approval and submit to the DEPARTMENT.

1.28 Coordinate Railroad Plans: Coordinate with the Railroad to ensure a timely flow of information and facilitate completion of their plans and estimates required for the Railroad accomplished work.

1.29 Check Railroad Plans: Check the Railroad plans and estimates when received for completeness and accuracy and submit to the DEPARTMENT for review and approval.

1.30 Railroad Agreement: Coordinate with Railroad regarding drafting of the agreement between the DEPARTMENT and Railroad and process it for review, approval and distribution accordingly.

1.31 Coordination with Utility Inspectors: Coordinate with DEPARTMENT utility inspectors during the

AMERICAN OVERSIGHT

railroad adjustment and relocation, and occupancy permits.

Training

1.32 Develop and provide Utility Coordination training to DEPARTMENT Right-of-Way personnel and/or DEPARTMENT contractors as requested.

2.0 Survey Services

Service Provider personnel shall:

General Tasks

2.1 Follow the regulations set forth in the Nevada Revised Statutes (NRS), Nevada Administrative Code (NAC), United States Code (USC) and the Code of Federal Regulations (CFR).

2.2 Strive for accuracy, visual clarity and sound land surveying practices while producing the mapping, legal descriptions, calculations and title research so they may be accepted in any court as professional work, if the situation arises.

2.3 Meet with RWSS Manager II, PLS, prior to beginning survey services activities to review standards and procedures, and to determine the approach to services/tasks.

2.4 Produce and/or maintain the mapping and documentation to show all right-of-way under the jurisdiction of the DEPARTMENT. Right-of-Way is held in various forms such as prescriptive right, permanent easement, license, lease, agreement, deed, fee, Federal Grant and/or Special Use Permit.

2.5 Create and maintain project binders in both hard copy and digital format for assigned projects, in accordance with the *Project Binder Template,* to be provided to the successful Proposer.

2.6 Maintain a project diary for each assigned project, including details of decisions as they are made, dates of task milestones, completions and submittals.

2.7 Attend project meetings as coordinated by DEPARTMENT Project Management.

2.8 Coordinate meetings, as needed, for project team and/or RWSS involvement.

2.9 Use field surveys and public records to determine the location of property boundaries, encumbrances and easements of record for the affected ownerships within project limits.

2.10 Use milepost-based numbering for the naming of DEPARTMENT parcels, utilizing route-type abbreviation, county abbreviation, route name, and milepost location (e.g. U-395-WA-012.345).

2.11 Use appropriate parcel name suffixes for non-fee and surplus parcels, such as “PE” for permanent easements, “TE” for temporary easements, “LE” for-lease parcels, and “LI” for license parcels.

2.12 Review and/or compile current R/W mapping and documents, contract plans, surplus property records, and public records.

2.13 Attend and participate in project R/W setting meetings.

2.14 Create parcel calculations and submit preliminary areas for acquisition parcels to DEPARTMENT Appraisal Section upon completion of R/W settings, consisting of a listing of assessor parcel numbers (APN's), assessor maps, and approximate parcel acquisition areas.

AMERICAN OVERSIGHT

2.15 Assemble packages for RWSS 3-way review. These packages will consist of checked real world parcel calculations with PLSS section tie and point of beginning, 10k calculations, legal descriptions, and R/W Plans with Property Schedule, or related mapping.

2.16 Provide all task and project-related files to RWSS, in digital format, upon completion of services being provided, including: dgn, alg., .pdf, Excel and Word files.

2.17 Provide all task and project-related files to RWSS, in hard-copy format, upon completion of services being provided. These include wet-stamped originals and all documents with original signatures or initials.

Survey

2.18 Coordinate survey activities with DEPARTMENT Location Division. Obtain the most recent survey data for the project, including from adjacent projects. Ensure project coordinates are compatible and in accordance with the latest edition of the *NDOT Special Instructions for Location Consultants.*

2.19 Prepare and submit requests for survey, upon RWSS Manager II, PLS review and approval, to the DEPARTMENT Location Division.

2.20 Coordinate with the Location Division to schedule work.

2.21 Include RWSS Management in the correspondence trail for all project and task related services.

2.22 Gather all available information from the public record, the DEPARTMENT's Location Division, and any other pertinent sources.

Title

2.23 Preliminary stages - capacity project: research the number of parcels potentially affected by the corridor alignment or alignments. County assessor land ownership names and addresses are forwarded to the Hearings Officer for use in coordinating public hearings.

2.24 After the R/W is set, determine which parcels need preliminary title reports for projects involving the acquisition of property rights.

2.25 A preliminary title report is valid only if it is less than six (6) months old from the date of issue, with the exception of the Las Vegas area.

2.26 A preliminary title report is only valid for the Las Vegas area if it is less than three (3) months old from the date of issue.

2.27 Preliminary title reports older than these dates will require title updates or requests for new preliminary title reports, if there is a substantial change in ownership, encumbrances, or both.

2.28 Prepare chain of title research, if necessary, including online database searches of county assessor and recorder websites, and site visits to research grantee/grantor indexes.

2.29 Save digital copies of all research, documents, maps, etc.

Calculations

2.30 Use the versions of MicroStation and InRoads currently used by the DEPARTMENT, using English units for all calculation reports.

AMERICAN OVERSIGHT

2.31 Use industry standards, the 'draft' *Calculations Standards* as detailed in *Appendix A* of the folder titled Handbook, (to be provided to the successful Proposer), and the *2009 BLM Manual of Surveying Instructions* as the basis for the creation of and format for all calculation reports.

2.32 Cite sources of information used, methodology and rationale on all calculation reports.

2.33 Check and initial or stamp all calculations reports to acknowledge review and acceptance.

2.34 Prepare a map to accompany all calculation reports showing the calculated points as they relate to the subject parcels/linework.

2.35 Complete section net and land boundary calculations will be produced to create a reliable PLSS-based grid to adequately describe and map property boundaries.

2.36 Use DEPARTMENT-generated centerlines, as provided by the DEPARTMENT Design or Location divisions.

2.37 Use a common header at the top of all calculation reports, describing the type of calculations, i.e. Section Net, Centerline, Previously Acquired R/W, Preliminary Total Property, Real World Total, Preliminary Acquisition, Real World Acquisition with Tie and Point of Beginning (POB), and 10k Acquisition with closure.

2.38 Use bold text for all newly created points and descriptions in Preliminary Calculation Reports.

2.39 Use two (2) decimal places for linear distances, as well as acreage and square footage in all calculation reports.

2.40 Prepare previously acquired R/W calculations.

2.41 Prepare preliminary parcel calculations. Preliminary calculation reports will have a preamble, when necessary, at the beginning or along the side of the report to describe what, why and how regarding the calculations.

2.42 Prepare real world calculations with parcel ties.

2.43 Prepare 10k calculations of real world calculations with closure.

2.44 Prepare 10k calculations of the Legal Description.

2.45 Create clearance calculations as evidence for R/W breaks.

2.46 Calculate parcel alignments in a clockwise direction.

Mapping

2.47 Produce CADD-generated R/W Plans for DEPARTMENT acquisition projects, and Sketch Maps for disposal, lease, or license of DEPARTMENT parcels.

2.48 Prepare CADD-generated R/W mapping utilizing the current version of MicroStation being used by DEPARTMENT.

2.49 Use the "Nevada DOT" tools created and maintained by the DEPARTMENT's CADD Support Division.

2.50 Base the line work for relevant boundaries off calculations using the version of InRoads currently

AMERICAN OVERSIGHT

in use by the DEPARTMENT.

2.51 R/W Plans are to be of a suitable scale, CADD-generated and sized to print on 11" x 17" paper.

2.52 Sketch Maps are to be of a suitable scale, CADD-generated and sized to print on 8 1/2" x 11" paper with a 1" margin on all sides.

2.53 Submit 30%, 60%, and 90% R/W Plans digitally to RWSS for review as they become available.

2.54 Submit one (1) complete PLS stamped hard copy and digital set of final R/W Plans to RWSS (including Property Schedule), along with final CADD MicroStation mapping files (dgn. format), the InRoads-based calculation reports with accompanying maps depicting points.

2.55 Coordinate map identification numbers with the RWSS Business Process Analyst for retention in the DEPARTMENT's IRWIN database. These numbers will be placed on each generated map.

2.56 Adhere to the following standards/formats for all R/W Plans as they pertain to the Cover Sheet, Legend Sheet (Symbology Sheet), Layout Sheet, Interior Sheets, and Property Schedule.

Legal Descriptions

2.57 Compose legal descriptions used in the preparation of legal documents for such purposes as appraisal, acquisition or condemnation of property, leasing, licensing, sale, relinquishment or abandonment of property held by the DEPARTMENT in the name of the State of Nevada.

2.58 Write the legal description in accordance with DEPARTMENT and industry standards so that the property may be located on the ground by any competent surveyor and is capable of withstanding a test in a court of law.

2.59 A description of land shall have a base of location by reference to: lines of the Public Land Survey System, recorded subdivision, adjoining lands of record, physical monuments, or any point or line which can be identified with relation to other records.

2.60 Create legal descriptions using Microsoft Word in digital format, scans of signed off/PLS stamped legal descriptions in Adobe pdf format.

2.61 Complete a legal description of each parcel for inclusion in a recordable grant or deed acceptable to the DEPARTMENT.

2.62 Prepare legal descriptions adhering to RWSS standards and formatting as defined in the RWSS SharePoint site under *Legal Description Format*.

Reviews

2.63 Perform internal reviews for cohesiveness and accuracy of the calculations, mapping and legal descriptions as produced, with evidence of the reviews shown with initials of the reviewers. The creator of a document shall not be its reviewer.

2.64 Submit items in progress or completed to RWSS management for review.

Submittals

2.65 Submit completed mapping and legal descriptions to DEPARTMENT R/W Acquisitions and Appraisal in accordance with the memos in the *Initial Submission Memos* folder.

2.66 Submit final mapping to the RWSS Business Process Analyst for retention in DEPARTMENT's

AMERICAN OVERSIGHT

IRWIN database.

Federal Lands:

2.67 Coordinate applications and highway easement deeds for highway rights-of-way and material sites from the Bureau of Land Management (BLM) or the U.S. Forest Service (USFS) through the R/W and Civil Rights Program Manager of the Federal Highway Administration, Nevada Division. The mapping that will be prepared to support such an application will be to the R/W Plan standards.

2.68 Certify, through R/W Management, the R/W which falls upon public lands once a *Letter of Consent* is issued by the BLM or USFS, and the R/W easement deeds are signed and recorded in the appropriate county recorder's office.

2.69 Utilize the processes as described in the current *Memorandum of Understanding and Operating Manual* for transactions dealing with the BLM.

Water Rights Applications:

2.70 Prepare all applications for water rights needed by the DEPARTMENT. The applications are prepared on a reproducible in accordance with the State Engineer's regulations and governing State statutes. The final product must be signed by a Nevada registered Water Rights Surveyor. DEPARTMENT's permanent reproducible is retained in the RWSS Section.

Lands Acquired Reports

2.71 Recorded documents are received by DEPARTMENT's R/W Management Analyst or the R/W Business Process Analyst after recordation of documents.

2.72 All land rights acquired are verified against the R/W Plans and recording data is added to the Property Schedules.

2.73 All mapping is updated to show all land rights disposed of, either by reference to the specific surplus or road transfer number, or by a revision to the CADD mapping, as applicable.

2.74 Property Schedules are updated to show the area and recording information for the disposed areas.

2.75 The R/W Verifications are updated to reflect acquisitions and disposals.

2.76 All mapping changes, including Property Schedules, are submitted to the RWSS Business Process Analyst for retention in DEPARTMENT's IRWIN database.

2.77 All hard copy revised R/W Plans, including Property Schedules, are placed in and indexed in the applicable Jumbo file folder and index. The Jumbo files are a set of drawers in which hard copy R/W Plans are retained, located near the RWSS offices.

Disposals/Surplus/Road Transfers

2.78 Prepare Sketch Maps, legal descriptions and detailed calculations needed to abandon, relinquish or sell parcels of surplus land or superseded portions of R/W.

2.79 Provide all property descriptions and maps necessary for the disposal of lands which the "Surplus Property Committee" has recommended for action to the Transportation Board of Directors. These may include, but are not limited to:

AMERICAN OVERSIGHT

2.80 Lands returned to original owner or holder of reversionary right.

2.81 Disposal as agreed upon by municipal or county governments and the DEPARTMENT.

2.82 Transfer or relinquishment to other State Departments or governmental agencies.

2.83 Sale at public auction or by sealed bid.

2.84 Negotiated sale or trade.

Resolutions of Relinquishment

2.85 The Transportation Board of Directors may relinquish to a city or county any highway R/W which has been superseded by relocation or been deleted from the State system by legislative enactment (NRS 408.527).

2.86 Prepare Resolutions Consenting to Land Transfer Agreements in accordance with the appropriate resolution templates and Track Changes function as found in the RWSS SharePoint site.

2.87 Prepare Resolutions of Relinquishment in accordance with the appropriate resolution template with Track Changes as found in the RWSS SharePoint site.

2.88 Follow the Surplus Property and Resolution checklists, to be provided to the successful Proposer.

Resolutions of Abandonment

2.89 Prepare Resolutions of Abandonment in accordance with the appropriate resolution template with Track Changes as found in the RWSS SharePoint site. This is for the DEPARTMENT to abandon highway R/W that was held by easement interest and has been superseded by relocation or is in excess of the DEPARTMENT's needs per NRS 408.523.

2.90 Follow the Surplus Property and Resolution checklists, to be provided to the successful Proposer.

Final Voucher – All projects are officially closed through the Final Voucher process which accounts for all property acquisitions and final R/W limits.

2.91 Research all the R/W Plans in RWSS and identify outstanding R/W transfers from the DEPARTMENT to Local Public Agencies or Utility Companies.

2.92 Inform R/W Acquisitions of the outstanding R/W transfers, so the projects can be Final Vouchered.

2.93 Identify which projects in RWSS are ready to be final vouchered and follow the Final Voucher Checklist, to be provided to the successful Proposer.

Checklists

2.94 Use appropriate checklists as found in the RWSS SharePoint site. Checklists exist for tasks including Surpluses, Resolutions, Lands Acquired Reports, Final Vouchers, R/W Verifications, leases and licenses, etc. All necessary checklists will be provided to the successful Proposer.

Training

2.95 Create training modules for RWSS staff related to topics such as property/land and title research, the PLSS, survey mathematics and calculations, laws related to land surveying, writing legal descriptions, and CADD.

AMERICAN OVERSIGHT

2.96 Provide training to RWSS staff related to topics such as property/land and title research, the PLSS, survey mathematics and calculations, laws related to land surveying, writing legal descriptions, and CADD.

RWSS Handbook – Coordinate and complete, or contribute to the completion of, the RWSS Handbook.

2.97 Assist in the digitizing of RWSS information, including the scanning of Surplus folders, Material Site folders, project files, and other hard copy RWSS documents.

2.98 Service Provider has the option, with RWSS consent, to embed a technician within RWSS for the sole purpose of performing the contracted duties of the Service Provider.

3.0 Appraisal

Service Provider personnel shall:

3.1 For each parcel (acquisition/disposal) to be valued for the DEPARTMENT:
Provide the DEPARTMENT with an appraisal report prepared by a DEPARTMENT approved appraiser.

3.2 Coordinate selection of qualified, Certified Appraisers who are licensed by the State of Nevada and approved by the DEPARTMENT's Right-of-Way Division. DEPARTMENT approval is required for each appraiser and each review appraiser the Service Provider plans to use for this project.

3.3 Prepare the appraisal in conformance with Law (including the Uniform Relocation Assistance and Real Property Acquisitions Policies Act of 1970, as amended), and in accordance with professional appraisal methods and applicable DEPARTMENT standards as described in the DEPARTMENT Right-of-Way Manual.

3.4 Establish personal pre-appraisal contact with each owner of record and each occupant lessee or tenant. Contact shall be in person and in writing. The written contact may be but is not limited to the mailing of an introductory letter. Offer each owner of record, party of interest and any occupants, tenants and lessees; or their designated representatives, in writing, via certified mail return receipt, the opportunity to accompany the appraiser on the appraiser's inspection of the parcel. The appraiser shall maintain a record of all such contacts. Said report shall be included with the appraisal in the acquisition file. If the appraiser is not able to contact the owner by certified mail the appraiser shall use other reasonable and necessary methods to contact that owner and document the methods used in that effort. If contact is not possible or the owner(s) decline to accompany the appraiser for the property inspection, the appraiser shall document these facts in his/her appraisal report.

3.5 Prepare an appraisal report (self-contained/comprehensive) for each parcel that:

- Complies with and includes all matters required by this agreement and the DEPARTMENT R/W related manuals; and other applicable guidelines.
- Satisfies the requirements of the Uniform Standards of Professional Appraisal Practices (USPAP) in effect at the time the appraisal is submitted.
- Includes all pertinent special analyses, studies, or reports, including but not limited to a Real and Personal Property Report.

3.6 For each parcel, provide the DEPARTMENT's R/W Division with copies of all written leases, licenses, and other occupancy agreements to identify lessees, licensees, and other occupants with potential compensable interests in each parcel to determine the value of each such interest.

AMERICAN OVERSIGHT

3.7 Submit timely written notification to the DEPARTMENT of any concerns that could require environmental remediation of or other special attention to R/W parcels and/or Additional Properties.

3.8 Update appraisals and appraisal reviews when required by the DEPARTMENT.

3.9 When requested by the DEPARTMENT, provide copies of appraisal file documents as may be needed to respond to discovery motions or requests for production.

Pre-Appraisal Activities

3.10 Obtain pertinent portions of articles of incorporation or partnership information on property owners from Secretary of State for current status and list of officers. Provide project Planning Notices and General Information Notices to property owners/tenants. Contact and meet with owners/tenants as necessary to obtain signed real property inventory lists and certification of ownership forms. Work with owners and tenants to identify tenant-owned improvements on applicable properties. Provide owner/tenant inventory list to the appraiser.

3.11 Prepare a preliminary scope of work for each parcel.

Appraisal Management

3.12 Analyze each acquisition parcel for project impacts, the larger parcel and partial vs. total take concepts, and access to the remainders in the after condition. Prepare detailed appraiser instructions including all DEPARTMENT requirements and any special instructions. Solicit bids from no less than three (3) approved appraisers and reviewers. Prepare six (6) letters with exhibits and preliminary parcel scopes. Mail letters to appraisers to obtain bids for appraisals on all parcels. Follow up with appraisers as needed. Prepare appraisal and appraisal review contracts after the bids are reviewed, the appraiser selections have been made, and certificates of insurance coverage are obtained. Meet with appraisers to discuss the project, appraisal issues and DEPARTMENT requirements, including inviting the Owner to accompany appraiser. Establish personal pre-appraisal contact with each owner of record and each occupant lessee or tenant. Contact shall be in person and in writing. The written contact may be but is not limited to the mailing of an introductory letter. Document all contacts using a form approved by the DEPARTMENT. Offer each owner of record, party of interest and any occupants, tenants and lessees or their designated representatives, in writing, via certified mail return receipt, the opportunity to accompany the appraiser on the appraiser's inspection of the parcel. The appraiser shall maintain a record of all such contacts. Said report shall be included with the appraisal in the acquisition file. If the appraiser is not able to contact the owner by certified mail the appraisal shall use other reasonable and necessary methods to contact that owner and document the methods used in that effort. If contact is not possible or the owner(s) decline to accompany the appraiser for the property inspection, the appraiser shall document these facts in his/her appraisal report.

3.12 Appraisal reports shall include, where applicable: cost to cure damages (even if planned to be cured under the contract by construction contract work), determination of retention values for improvements, contributory value of tenant-owned improvements and economic rent for properties that may be rented prior to clearance.

3.13 Obtain appraisal reports and check for compliance with the appraisal contract ensuring that reports meet requirements. Forward report to the review appraiser for formal reviews based on DEPARTMENT format. Submit approved review appraiser's reports and values to the DEPARTMENT for approval. Review invoices from the appraisers and submit for payment.

Appraisal Review

AMERICAN OVERSIGHT

3.14 Document all observed issues with the Appraiser's draft submittals and document Appraiser's response to communicated issues.

3.15 Perform Review Determinations, as necessary.

Training

3.16 Develop and provide Appraisal training to DEPARTMENT Right-of-Way personnel and/or DEPARTMENT contractors as requested.

4.0 Real Property Acquisition

Service Provider personnel shall:

4.1 Conduct all negotiations in accordance with the requirements of the DEPARTMENT Right-of-Way Manual, Nevada Revised Statutes, The Code of Federal regulations and the Uniform Relocations Assistance and Real Property Acquisitions Policies Act of 1970, as amended.

4.2 Provide qualified and experienced agents to work on acquisitions and negotiations

4.3 Identify lessees, licensees, occupants, or other parties with potential compensable interests and if appropriate after consultation with the DEPARTMENT and negotiate with such parties for the acquisition of their compensable interests. Provide timely response to the verbal or written inquiries of any property owner, lessee, licensee, occupant or other holder of a compensable interest, as applicable, not more than ten (10) working days after the inquiry.

4.4 Prepare a working file for each acquisition parcel following the procedures listed in the DEPARTMENT Right-of-Way Manual. Include a just compensation memorandum. Provide the DEPARTMENT's Right-of-Way Division with direct access to a maintained and regularly updated electronic file containing the Negotiator's Diary (Form 529) for each owner documenting each owner contact with the date, time, location, persons present, and subjects discussed during each contact.

4.5 Verify negotiation data by reviewing and verifying right of way engineering data, title, appraisal reports, deeds, legal descriptions, parcel maps and conducting field reviews. Identify all title exceptions and subordinate rights to be cleared and obtain necessary documents to clear these from title. Conduct field review of the acquisition.

4.6 Make initial contact with owners by telephone to gather pertinent data, lease facts, and information to complete an Ownership Occupancy form (Form 547).

4.7 Prepare acquisition packages in accordance with DEPARTMENT policies and procedures to include a Letter of Offer, Appraisal Summary Statement, Public Highway Agreement, Deed, FHWA's ACQUISITION Brochure Publication No. FHWA-HEP-05-030 and Title VI Questionnaire.

4.8 Submit the acquisition packages to the DEPARTMENT's Right-of-Way Division for preliminary review prior to contacting owners. Such packages shall be reviewed and returned to the Service Provider with comment or direction for corrections within ten (10) working days. The Service Provider shall make all recommended corrections and return the packages to the DEPARTMENT's Right-of-Way Division for final preliminary review prior to contacting the owners. This package shall include the Public Highway Agreement, Preliminary Title Report, Deeds, Legal Description, Appraisal Summary Statement, Negotiator's Diary, Title VI Questionnaire, R/W parcel maps, agent's business card, a copy of the Just Compensation Memo and Mutual Release forms when applicable.

4.9 Coordinate with the relocation agent so that concurrent acquisition and relocation activities can be

AMERICAN OVERSIGHT

completed in the manner required under the Uniform Act and to the protect the affected property owner and/or tenant.

4.10 Make every reasonable effort to meet with owners as soon as possible after receipt of acquisition approval from DEPARTMENT. Meet with owners in person to present the acquisition packages if possible. When owners reside outside the local area the initial offer may be made my U.S. Mail. In such cases the agent shall follow up within three (3) business days to ensure the owner understands the details of the project, its effect on the property, the amount of the offer and the owner's rights under the Uniform Act. Such contacts shall be clearly documented in the agent's parcel diary.

4.11 Provide an appraisal copy to the owner upon request. When tenant-owned improvements have been certified and released by owner and tenant, make offers to tenants for tenant-owned improvements including Offer Letter, Appraisal Summary Statement, Public Highway Agreement, Deed, and obtain and record a signed Mutual Release & Certification form.

4.12 Explain the acquisition process by answering questions, addressing concerns and problem solving through negotiations. Allow a reasonable amount of time (at least thirty (30) calendar days) for the owner/tenant to consider the offer with multiple contacts being made to answer questions, research issues and concerns, resolve differences and obtain DEPARTMENT input.

4.13 Open and coordinate the close of escrow with a title/escrow company for accepted offers. Inform DEPARTMENT with memo and attachments. Promptly prepare and transmit closing package to the DEPARTMENT Staff Specialist with a summary memo, request for payment and all appropriate documents and forms as outlined in the DEPARTMENT Right-of-Way Manual. Provide DEPARTMENT information for payment of escrow fees including an escrow invoice and supporting documentation. Meet owner/tenant onsite for a walk-through, obtain keys and take physical possession of property. Monitor closing of escrow to ensure timely payment to owners.

4.14 Advise the property owners and other holders of compensable interests or their representatives of the administrative settlement process for rejected offers. In all dealings with property owners and other holders of compensable interests, clearly represent and maintain that the DEPARTMENT has the ultimate decision authority regarding any settlement requests. Confer with and deliver to the project Right-of-Way Coordinator any settlement request from property owners, lessees, licensees, occupants, or other holders of any compensable interest, as applicable, including a detailed recommendation from the Service Provider. Assist with counter-offers as required and present them to the DEPARTMENT for consideration. Assist with the negotiation of administrative settlements and prepare settlement packages. Deliver the administrative settlement request and the Service Provider's recommendation to the DEPARTMENT within five (5) working days of receipt of the request. Remain open to all reasonable settlement requests (that comply with the regulations as outlined herein) from property owners that are feasible and help expedite the right-of-way acquisition process. Note that the DEPARTMENT encourages all positive and creative solutions that both satisfy the property owner and promote the success of the project.

4.15 Prepare and deliver documents of conveyance to the property owner, lessee, licensee, occupant, or other holder of any compensable interest, as applicable, and obtain their execution of the same. Obtain notarization of all signatures on documents to be recorded in accordance with Nevada Law. All owners of record need to sign the conveying document. If new parties of interest are discovered during negotiations or vesting is other than was indicated on the original documents, the acquisition file shall be revised to include all corrected grantors and all appropriate forms, deeds and other documents will be revised accordingly. Deliver the original recorded conveyance document or documents to the project Right-of-Way Coordinator.

4.16 Consult with DEPARTMENT's Attorneys as needed where agreements cannot be reached. Request the DEPARTMENT's Right-of-Way Division to convene a Condemnation Review Board meeting and prepare condemnation packages as required including Negotiator's Report (Form

AMERICAN OVERSIGHT

561). Provide complete condemnation packages to the DEPARTMENT's Right-of-Way Division no less than ten (10) working days prior to the Condemnation Review Board meeting. Prepare for and attend the Condemnation Review Board meeting to brief the DEPARTMENT on all conditions and progress of the acquisition. Prepare the Letter Rescinding Offer upon receipt of proper notice from the DEPARTMENT.

4.17 Prepare and deliver the Project Certification memo and checklist no later than sixty (60) calendar days prior to the project certification date.

4.18 Review right-of-way activities for entire project and specify locations and time frames on any concurrent work, construction contract work or any requirements to be included in the contract Special Provisions. Address all acquisitions, relocations and demolition activities.

4.19 Secure an Agreement for Construction Outside Right-of-Way for constructing drive way tie-ins, or other features that benefit the property owner, but which are not required for the project. A Right of Entry is only applicable and approved for use when these construction features can be eliminated from the project if permission to enter and construct is not granted by the property owner or his or her designated representative.

4.20 Complete and record all deeds necessary to transfer real property interests in replacement easements in accordance with DEPARTMENT guidelines. Review preliminary plans for all project phases to ensure that the proposed replacement easements will not be impacted in subsequent phases.

4.21 Provide oversight of Local Public Agency (LPA) projects for compliance with the following but not limited to: DEPARTMENT LPA Manual, Right-of-Way Manual, applicable CFR, NAC and NRS governing real property acquisitions for under the Uniform Act.

Training

4.22 Develop and provide Real Property Acquisition training to DEPARTMENT Right-of-Way personnel and/or DEPARTMENT contractors as requested.

5.0 Relocation, Residential and Non-residential

Service Provider personnel shall:

5.1 Prepare a relocation plan and deliver to the DEPARTMENT the written Relocation Plan which will contain the following elements:

- Introduction
- Relocation Plan requirements
- Identification of project impacts
- Parcel-by-parcel discussion

5.2 Plan shall consist of a breakdown of the needs assessment, a plan for implementing the relocation services, a timeline for completion of the relocations and a budget estimate for the cost of the relocations.

Residential

5.4 Estimate number of households to be displaced including information such as owner/tenant status, estimated value and rental rates of properties to be acquired, family characteristics, and special consideration of the impacts on minorities, the elderly, large families, and persons with disabilities when applicable.

- Identification of owner-occupants

AMERICAN OVERSIGHT

- Identification of tenant-occupied properties
- Description of improvements/household composition
- Principal planning concerns
- Solutions and mitigation measures
- Availability of replacement property

Non-Residential – Business

5.5 Plan will address the non-residential occupants and will recognize the problems associated with the displacement of businesses and develop solutions to minimize the adverse impact of displacement. Once identified, the affected owners and, if allowed, the businesses, will be interviewed to determine the following, if relevant:

- Identification data
- Description of business activity
- Principal planning concerns
- Number of employees;
- Current lease terms;
- Financial capacity;
- Time required to vacate;
- Ease/difficulty in locating a replacement site; and
- Consideration of any special relocation advisory services.

Respond to property owners and to general public inquiries regarding right-of-way acquisition and relocation procedures under the Uniform Act and the DEPARTMENT's Right-of-Way Manual.

Relocation Assistance Activities

5.6 As soon as feasible, provide relocation advisory services and written notices of relocation assistance in accordance with the Uniform Relocation Assistance and Real Property Acquisitions Act of 1970, as amended (Uniform Act) and DEPARTMENT's Policies and Procedures to potential owners, lessees, licensees, occupants and other holders of compensable interests and other potential displacees.

5.7 Conduct relocation interviews with potential displaces; discuss general eligibility requirements, programs and services, complete and maintain interview forms. Maintain a written daily diary as part of the record.

Residential Relocation

5.8 Deliver to the displacee a Notice of Relocation Eligibility, Ninety (90) Day Notice, Supplemental Housing Study and a Relocation Brochures. Conduct an initial interview in which moving options are explained for the project. The notice and the study must identify the location of the comparable property used to compute the Supplemental Housing Payment. When the parcel is acquired and if the displacee has not yet vacated the site, deliver a Thirty (30) Day Notice to the displacee. This notice may not be sent any earlier than sixty (60) calendar days from the date the initial ninety (90) calendar day notice was delivered. All notices need to be reflected in the agent's diary and copies retained in the relocation file.

5.9 The agent shall monitor the move. All moving expenses must be documented and approved by a qualified agent and by the DEPARTMENT's Right-of-Way Division. The maximum eligible amounts should be stated on the displacee's Notice of Eligibility.

AMERICAN OVERSIGHT

Non-residential Relocation

5.10 Business relocation advisory services will begin, if possible, at or before the underlying real property is appraised. This will allow sufficient lead time to identify problems unique to the business and allow Service Provider time to develop solutions to minimize the impact.

5.11 Deliver to the displacee a Notice of Relocation Eligibility, a Ninety (90) Day Notice, and a Relocation Brochures. Conduct an initial interview in which moving options are explained for the project. When the parcel is acquired and if the displacee has not yet vacated the site, deliver a Thirty (30) Day Notice to the displacee. This notice may not be sent any earlier than sixty (60) calendar days from the date the initial ninety (90) calendar day notice was delivered. All notices need to be reflected in the agent's diary and copies retained in the relocation file.

5.12 The agent shall monitor the move. All moving expenses must be documented and approved by a qualified agent and by the DEPARTMENT's Right-of-Way Division. The maximum eligible amounts should be stated on the displacee's Notice of Eligibility.

Billboard Relocation

5.13 Deliver to Displacee Notices of Relocation Eligibility, Ninety (90) Day Notice, Relocation Brochures and conduct an initial interview in which moving options are explained. Prepare and obtain relocatee's signature on an Inventory of Personal Property. Offer support in locating a replacement site and in obtaining required permits to relocate the billboard. Monitor the billboard removal and conduct a final inspection of the vacated and replacement sites. Prepare payment packages for the removal and re-construction of the billboard which shall include all eligible associated expenses.

5.14 When possible, relocate a billboard to remainder sites or comparable replacement sites within the City or County.

Storage Unit Tenant Relocation

5.15 Each occupant or entity leasing space and storing property is considered a separate displaced person under applicable law and, as such, is entitled to relocation assistance for the move of the property. Each occupant or entity can be offered a pre-established amount for moving the contents of their storage unit. The amount is based on the cubic volume of the unit. The move factors should include truck/equipment rental and compensation for time, packing, loading, transportation and unloading the property. Alternatively, each occupant can opt for a commercial move payment.

5.16 The Locker tenants are not entitled to search expenses, or any replacement rent differential entitlement. Each tenant should, however, receive advisory assistance services, which would include referrals to replacement facilities.

5.17 Provide relocation assistance to those parties affected by the right-of-way acquisition and complete necessary forms for all displacees, as required. Provide sufficient advisory assistance to those displaced as well as to those affected by the project in compliance with applicable regulations and DEPARTMENT policies and procedures.

5.18 Obtain approval from the DEPARTMENT's Right-of-Way Division of each agent who will actually work on the project. All agents must be fully qualified to perform the duties assigned and be pre-approved by the DEPARTMENT's Chief Right-of-Way Agent.

5.19 Provide written notice, of the pending acquisition, to any occupants believed to be ineligible for relocation assistance. Direct potential displacees to submit eligibility questions, in writing, to the Service Provider's Right-of-Way Coordinator. The Service Provider's Right-of-Way Coordinator

AMERICAN OVERSIGHT

will forward the questions to the DEPARTMENT's Supervisory Right-of-Way Agent for a recommendation to each question.

5.20 Locate, evaluate and maintain files on comparable available housing for residential properties and suitable replacement properties for businesses. Make this information available to displaced persons or persons not displaced but who are adjacent to or affected by the project.

5.21 Conduct field inspections of all displacement properties. Prepare an inventory of personal property for single family residence. Prepare an inventory for tenant-owned improvements for businesses. Obtain moving cost estimates and/or verification of actual costs incurred and assist with completing a moving expense claim.

5.22 Compute and submit claim requests for relocation payments, to include supplemental housing payments and rental housing payments, to the DEPARTMENT's Right-of-Way Division using a form approved by the DEPARTMENT. If applicable, obtain Right-of-Way Division approval of all relocation supplements prior to presenting relocation notices of eligibility or housing studies to the displaced person.

5.23 Perform a Decent, Safe and Sanitary (DS&S) inspection of the selected replacement residence using a form approved by the DEPARTMENT. No supplemental housing payments shall be released unless or until the replacement property has met the DS&S requirements, unless expressly and specifically approved by the DEPARTMENT.

5.24 Prior to obtaining moving bids, for both residential and nonresidential moves, the agent shall prepare a moving plan with appropriate photographs and an inventory of all personal property to be moved. This inventory should be prepared by the displacee, however if necessary, the inventory can be prepared by the agent. The agent and the displacee shall review the inventory to verify its accuracy. Once prepared, the inventory is to be provided to the moving companies (if applicable) to insure they will prepare consistent and comparable bids for the move and for all associated mechanical, electrical, plumbing and other reasonable and necessary expenses.

5.25 To relocate personal property from a residence, either owner or tenant occupied, the displacee may elect to do a commercial move, a self-move or a fixed residential move. To relocated personal property from a nonresidential property, the displacee may elect to do a commercial move or a self-move based on the lower of two (2) bids or supported by receipted bills. The agent shall coordinate moves with the displacees and moving companies in compliance with DEPARTMENT policies and procedures, and the Uniform Relocation Assistance and Real Property Acquisitions Act of 1970, as amended (Uniform Act).

5.26 Process and compute increased interest payments on the mortgage of an owner-occupied dwelling, if applicable. All residential supplemental payments, except moving expense payments, are to be made payable to the title company and applied to the purchase price of the replacement dwelling, for the benefit of the displacee.

5.27 Assist displacees in filing relocation appeals and provide the DEPARTMENT with documentation for any appeal received. Attend appeal hearings and provide information and documentation to the DEPARTMENT's Right-of-Way Division prior to and at the hearing (if applicable).

5.28 Maintain electronic relocation contact logs, aka the agent's Diary. When the Diary has been completed (after each relocation is complete) the agent shall provide the DEPARTMENT with the original signed and dated Diary.

5.29 Perform quality control activities for the relocation assistance activities.

5.30 Submit a Residential or a Nonresidential Relocation Closing Statement on forms approved by the

AMERICAN OVERSIGHT

DEPARTMENT upon verifying the displacee has relocated and has received payment of the final claim.

5.31 Assist the office of the Attorney General's (OAG's) with any eviction proceedings. Serve notice of eviction proceedings to the occupant(s) of a property who have not complied with move dates. Coordinate the eviction process with the local authorities and accompany the Sherriff's/Police Department when the local authorities are carrying out eviction.

Securing Vacant Properties:

5.32 After acquisition and relocation are complete coordinate with the DEPARTMENT's Staff Specialist, Property Management and the Assistant Chief Right-of-Way Agent, Acquisitions to secure the dwelling and/or other structures no later than twenty-four (24) hours after vacancy to protect the right-of-way. Property Management will assume the responsibility of managing the property in accordance with DEPARTMENT Policies and Procedures from the time escrow closes until the property is needed for construction.

Training

5.33 Develop and provide Relocation training to DEPARTMENT Right-of-Way personnel and/or DEPARTMENT contractors as requested.

6.0 Property Management

Service Provider personnel shall:

6.1 Interim property management shall consist of managing acquired properties in accordance with DEPARTMENT policies and procedures from the time escrow closes until they are needed for construction. Early property management activities include an initial inspection and assessment of the property, having utilities disconnected and removing the property from the tax rolls. Depending upon the property, it may also be necessary to contract and administer the securing of structures, installation of temporary fencing, rodent and pest control, weed abatement, roving security, and coordination with demolition activities. Frequent and ongoing inspections shall be required to ensure that the acquired properties are secured and comply with any city or county health or safety codes.

6.2 Property Security, Clearance and Demolition of Right-of-Way - After acquisition or possession of any parcel of right-of-way, secure and protect all buildings, improvements, and fixtures in the right-of-way until they are disposed of or demolished. Mow the grass board up and winterize the buildings as required by the DEPARTMENT or applicable law.

6.3 Salvage Rights - First rights to salvage fixtures within an improvement, that is purchased for the project, shall be retained by the DEPARTMENT. If items are to be salvaged by the DEPARTMENT, said salvage works shall be completed prior to the date the property is delivered to the Service Provider for demolition.

6.4 Personal Property - Coordinate with the owner and occupants to ensure the clearance of personal property from the right-of-way, as applicable. Provide written notification to the DEPARTMENT of any personal property that remains in the right-of-way after being vacated by the occupants. Advise displaced owner occupants, to obtain personal property insurance to be effective as of the date of closing until the date they vacate the property.

6.5 Pest Control - Provide for any insect and rodent control and initiate extermination as required to rid the right-of-way, as applicable, from infestations.

6.6 Utility Service - Terminate all utility service(s) when applicable.

AMERICAN OVERSIGHT

6.7 Demolition - Prior to any demolition activities, Service Provider shall check with the DEPARTMENT to confirm there is FHWA approval to clear the right-of-way. If utilities have not been disconnected, make requests of the respective utility companies to do so. Contact the appropriate Staff Specialist to arrange for an environmental inspection through the DEPARTMENT's Environmental Services Division. Once completed, send the DEPARTMENT's environmental inspection report and a letter of invitation to bid to companies listed on the DEPARTMENT's pre-qualified demolition list. Hold a pre-bid meeting. Sealed bids shall be opened, and all bids entered on bid log sheet. Verify that the contractor has a demolition license, is in good standing with the State Contractors Board and has proper insurance and workman's compensation coverage. Prepare a draft Clearance Contract between the DEPARTMENT and the contractor and provide the draft to the DEPARTMENT for approval. Upon approval of the draft, obtain demolition contractor's signature and forward the document to the DEPARTMENT for final execution. Once executed, provide the demolition contractor with a notice to proceed. Service Provider shall monitor and inspect the demolition work, review contractor invoices for completeness and accuracy and submit all invoices to the DEPARTMENT for direct payment.

6.8 Construction Clearance - Do not begin construction on any project until specifically approved by the DEPARTMENT. Verify all property rights for the project have been conveyed in favor of the DEPARTMENT by a Right of Occupancy Agreement, an Order for Immediate Occupancy or a Right of Entry Agreement.

6.9 Governmental Approvals - Secure required governmental approvals for demolition, and environmental surveys/tests; notify the DEPARTMENT in writing of all such activities.

6.10 Documentation - Prepare necessary documentation for disposal of improvements and fixtures in accordance with applicable laws and submit documentation to the DEPARTMENT.

6.11 Demolition/Removal Requirements - Process all required forms, documents and permit applications to proceed with the timely demolition and/or removal of any and all improvements and fixtures located within the right-of-way, as applicable.

6.12 Improvements - Document the disposal of improvements and fixtures in accordance with applicable laws and submit documentation to the Right-of-Way Project Coordinator.

6.13 DEPARTMENT Notification - Notify the DEPARTMENT upon completion of the demolition and clearance of the right-of-way, as applicable.

6.14 Parcel Files - Maintain file records of each parcel in accordance with applicable law. Each file shall include all documents required by the contract, FHWA, and/or the DEPARTMENT.

Training

6.15 Develop and provide Property Management training to DEPARTMENT Right-of-Way personnel and/or DEPARTMENT contractors as requested.

7.0 Outdoor Advertising Control

Service Provider personnel shall:

7.1 Inspect and report all Outdoor Advertising signs near DEPARTMENT right-of-way throughout the state to Headquarters Permit staff in accordance with the Right-of-Way Manual and applicable law.

7.2 Provide training to DEPARTMENT staff on the Outdoor Advertising Control procedures, laws and tools.

AMERICAN OVERSIGHT

8.0 Condemnation Coordination

Service Provider personnel shall:

8.1 Furnishes liaison assistance between Legal Services and the DEPARTMENT's multiple Divisions and outside counsel and consultants; contracts with Fee Appraisers and other expert witnesses; independently reviews the appraisal reports, title search and files of properties recommended for condemnation for completeness and accuracy; evaluates assembled data and prepares an analytical report for Legal Services; coordinates the preparation of all additional material and data required for court action such as exhibits, photographs, missing data, etc.; ensures that all original source data is returned to permanent files upon conclusion of court action; is currently a non-voting member of the Condemnation Review Board and attends project status meetings, Legal Services and other legal, and right-of-way staff meetings.

Training

8.2 Develop and provide Condemnation Coordination training to DEPARTMENT Right-of-Way personnel and/or DEPARTMENT contractors as requested.

MEMORANDUM

Project Management

July 11, 2018

To: **Rudy Malfabon, P.E., Director**
From: **Nick Johnson, P.E., Chief Project Management** DS NJ
Subject: **Request for Sole Source for Professional Exemption**

Pursuant to NAC 333.150, the Project Management Division is requesting a sole source professional exemption to hire HDR Engineering, Inc. (HDR) to perform the design and support the construction of the Signals, Lighting and Intelligent Transportation Systems (SLI) necessary for the US95NW Centennial Bowl, Phase 3D/E Project.

The scope of services for this project includes providing the design, cost estimates, notes to specifications as well as bidding and construction support for the SLI for this Project.

This request is made based on the following statute:

1. **NAC 333.150 Requirements for contract for services of independent contractor;** competitive selection; request for proposals; effective date. **(**NRS 333.130**,** 333.135**)**

2. Such a contract which by its nature is not adapted to be awarded by competitive selection, including, without limitation, a contract for:
    a. Services which may only be contracted from a sole source as determined by the Administrator;
    b. Professional services, including, without limitation, a contract for the services of:
        1) An expert witness;
        2) A professional engineer;
        3) A registered architect;
        4) An attorney;
        5) An accountant; or
        6) Any other professional, if the services of that professional are not adapted to competitive selection as determined by the Administrator; or
    c. Services necessitated by an emergency affecting the national defense or an emergency caused by an act of God or any other unforeseeable circumstances, as determined by the Administrator.

HDR was selected and awarded the contract to provide structural design services, traffic engineering analysis and public information support for the US95NW Centennial Bowl Project based upon previous experience, expertise, and qualifications of the key personnel, all of whom have worked on other Department projects.

The rationale for requesting the sole source professional exemption is as follows:

AMERICAN OVERSIGHT

1) The Department performed a competitive procurement and selected HDR based largely upon previous experience, expertise, and qualifications of the key personnel proposed for the scope of work and their ability to work as a team.
2) HDR has been working on this project for the past 8 years and is the most familiar with the Project, including traffic patterns and SLI needs. Costs associated with familiarizing new personnel with the project would represent a significant budget, in addition to frequent coordination with previous and ongoing HDR activities.
3) The Department's Traffic Operations Division does not have the resources to meet the delivery schedule of this major project. The Intermediate Submittal is in October, and initiating a new competitive procurement will cause significant delay to the design as well as the utility agreements needed for the SLI.
4) HDR developed the traffic engineering analysis for each of the signalized intersections, including the laneage needs, and understands the signing and signalization necessary for each. HDR also optimized the traffic signal timing plans for each of the locations and reviewed the need for ITS facilities as part of their analyses.
5) A sole source exemption allows NDOT to retain key personnel performing technical services for this project in a more efficient manner without delay to these projects.

As such, it is recommended to issue a sole source agreement HDR Engineering, Inc. to perform the SLI design and construction support to ensure continuity of the projects and to protect the public interest by moving the projects forward.

MEMORANDUM

July 25, 2018

TO: Cole Mortensen, Assistant Director Engineering

FROM: Jenica Keller, Senior Project Manager DS JK

SUBJECT: Negotiation Summary for P362-18-015 Engineering Services for US-95NW Centennial Bowl Phase 3D/E

A negotiation meeting was held at NDOT Traffic Operations in Carson City on July 19, 2018, with Reid Kaiser and Pam Pierce, HDR Engineering Inc. and Eric MacGill, Jeannie Drown and David Hutchinson of Traffic Operations and Jenica Keller of Project Management of the Nevada Department of Transportation (DEPARTMENT) in attendance.

This duration of this agreement will be approximately 5 years, ending on June 30, 2023.

The scope of services that are to be provided by the SERVICE PROVIDER was reaffirmed by both parties at the outset. The scope of services includes:

1. Design and Construction Support for
    a. Signals, Lighting and Intelligent Transportation Systems (SLI) and
    b. Permanent Signing.

The following schedule was agreed to by both parties:

Date	Task to be Completed
October 2018	Submit Intermediate PS&E
October 2019	Submit QA PS&E
January 2020	Submit Final PS&E
June 2020	Begin Construction
December 2022	Construction Complete

Key personnel dedicated to this project are as follows:

Name	Title
Reid Kaiser	Principle in Charge
Pam Pierce	Project Manager
Laycee Kolkman	Senior Traffic Lead

There are no sub-consultants being utilized on this Project.

The DEPARTMENT's original estimate was $750,773 including direct labor (4,915 man-hours of work by the SERVICE PROVIDER), overhead rate of 148.91%, a 12% fee, and direct expenses at $22,960.

AMERICAN OVERSIGHT

DocuSign Envelope ID: 46C91584-5D38-4152-8D7C-0DB703EF3E1F

The SERVICE PROVIDER's original estimate was $749,013, including direct labor (5,065 man-hours of work by the SERVICE PROVIDER), overhead rate of 148.91%, a 12% fee, and direct expenses at $22,960.

The overhead rate of 148.91% was provided by the Internal Audit Division.

The negotiations yielded the following:

1. There will be 4,437 total man-hours allotted throughout the course of this agreement at a direct labor cost of $233,463 including a prorated amount for anticipated raises, which will take effect over the term of the agreement.

2. Based upon the direct labor costs and an overhead rate of 148.91%, the overhead amount will be $347,649.

3. A fee of 12% was agreed to by both parties and will be $69,733 for this agreement based upon direct labor costs and an overhead rate of 148.91%.

4. The direct expenses agreed to total $22,960 for reproduction, communication, travel and per diem. There will be no direct compensation for computer time.

5. The total negotiated cost for this agreement is $673,805.

AMERICAN OVERSIGHT

Attachment A
SCOPE OF SERVICES

SCOPE OF SERVICES GENERAL DESCRIPTION

The proposed project is the US 95/CC215 Centennial Bowl Interchange (US 95NW Phase 3D/E) located in Clark County, Nevada. Improvements include the construction of the westbound CC-215 to northbound US-95, southbound US 95 to westbound CC215, eastbound CC215 to northbound US 95, widen northbound US 95 to eastbound CC215 to two (2) lanes, construct Sky Pointe interchange from Centennial Parkway to Azure Drive, realign and widen Oso Blanca Road and connect to Centennial Center Boulevard, upgrade CC215 to divided six (6) lane freeway from Tenaya Way to Grand Montecito Parkway and construct a multi-use path from Sky Pointe Drive to Grand Montecito Parkway.

The work consists of completing the design and support the construction of the Signals, Lighting and Intelligent Transportation Systems (SLI) and Permanent Signing necessary for the US95NW Centennial Bowl Phase 3D/E Project. This work includes advancing the SLI and Permanent Signing design from the 73518 Intermediate Plans dated March 2013, addressing SLI and Permanent Signing elements included in Contract 3583 dated December 2014 through July 2017, and addressing SLI and Permanent Signing elements included in Contract 3724 dated January 2018 with construction anticipated to commence October 2018.

The following milestone schedule is anticipated for this project:

Item	Approximate Date	Task Lead
Submit Intermediate (60%) PS&E	10/2018	HDR
Intermediate PS&E Review Meeting	12/2018	NDOT
Submit QA PS&E to Specs	10/2019	HDR
Distribute QA PS&E to Team	11/2019	NDOT
QA PS&E Review Meeting	12/2019	NDOT
Submit Final Docs	1/2020	HDR
Begin Construction	6/2020	NDOT
Construction Complete	12/2022	NDOT

The scope of services includes the following tasks:

1.0 DESIGN PROJECT MANAGEMENT

1.1 DESIGN PROJECT ADMINISTRATION

The DEPARTMENT's Project Manager (PM) will manage the US 95NW Centennial Bowl Phase 3D/E Project team (including SERVICE PROVIDER augmentation) and deliver the project.

The SERVICE PROVIDER will provide a committed, readily available management and design team focused on the SLI Services for the US 95NW Centennial Bowl Phase 3D/E Project that is knowledgeable of past and proposed DEPARTMENT efforts, experienced with the proposed scope elements, and has the available capacity to successfully oversee the design and construction support efforts within the anticipated schedule.

The SERVICE PROVIDER's Project Manager shall correspond directly with the DEPARTMENT's Project Manager. All correspondence between the SERVICE PROVIDER and the DEPARTMENT

AMERICAN OVERSIGHT

shall include notification to the DEPARTMENT's Project Manager unless directed otherwise by the DEPARTMENT's Project Manager. The SERVICE PROVIDER's Project Manager shall provide the DEPARTMENT's Project Manager monthly, detailed management reports clearly identifying project progress (budget and schedule). The project management reports will identify work completed, schedule and progress relative to the project schedule, and budget used for the various tasks.

1.2 Design Meetings and Coordination

1.2.1 Design Kick-off Meeting

The DEPARTMENT will arrange and conduct a kick-off meeting with the SERVICE PROVIDER. The meeting will be scheduled within ten (10) business days of the issuance of the Notice to Proceed (NTP). This meeting will review the scope of work, Project schedule, and establish lines of communication. It will inform the SERVICE PROVIDER of project status and scoping to complete critical path items. The meeting shall be attended by the DEPARTMENT's PM, SERVICE PROVIDER's PM, the DEPARTMENT's Traffic Operations Division staff, and at a minimum one of the SERVICE PROVIDER's Traffic Leads.

1.2.2 Design Monthly Team Meetings

The DEPARTMENT's team meetings are held monthly. The team meeting is attended by video conference between the DEPARTMENT's District I (Las Vegas) and the DEPARTMENT's Headquarters (Carson City). SERVICE PROVIDER will prepare for and attend these meetings in person at either the District I location or at Headquarters. The SERVICE PROVIDER will correspond with all DEPARTMENT Divisions during the team meetings for the success of the project.

As the SERVICE PROVIDER's PM attends the DEPARTMENT's team meetings under a separate agreement, at a minimum one of the SERVICE PROVIDER's Traffic Leads will attend the monthly team meetings on a quarterly basis (6 meetings assumed).

1.2.3 Other Design Team Meetings

SERVICE PROVIDER will prepare for and attend other DEPARTMENT team meetings as necessary to coordinate the SLI and permanent sign design with other DEPARTMENT discipline teams. These meetings include monthly technical team meetings and traffic control meetings. The SERVICE PROVIDER's PM and/or one of the SERVICE PROVIDER's Traffic Leads will attend these meetings on a quarterly basis (6 meetings assumed).

1.2.4 Design Field Reviews

The SERVICE PROVIDER shall visit the site as necessary to verify existing conditions and ongoing construction as necessary for the SLI and permanent sign design. (2 site visits assumed).

1.2.5 Design Utilities and Local Agencies Meetings

SERVICE PROVIDER will organize and attend meetings to coordinate the SLI design with other local agencies including the City of Las Vegas and FAST; utilities including, but not limited to, NV Energy; NDOT Traffic Operations, NDOT R/W Utilities, NDOT District 1 staff, Resident Engineer and others as necessary. SERVICE PROVIDER will prepare agendas, meeting minutes and track action items for the group (4 meetings assumed).

1.2.6 Design Review Meetings

AMERICAN OVERSIGHT

The SERVICE PROVIDER shall attend the Intermediate (60%) Design Review Meeting and QA Review Meeting in Carson City to respond to comments made by the DEPARTMENT, Constructability and QA/QC Review team, and other project stakeholders including the City of Las Vegas and FAST. The meetings shall be attended by the SERVICE PROVIDER's PM and at a minimum one of the SERVICE PROVIDER's Traffic Leads.

2.0 INTERMEDIATE (60%) TRAFFIC DESIGN

The DEPARTMENT shall provide current existing and proposed CAD base files in MicroStation V8i format from the 73518 Intermediate Plans dated March 2013, Contract 3583 dated December 2014 through July 2017, Contract 3724 dated January 2018, and those for the US 95NW Centennial Bowl Phase 3D/E Project including current progress to date. The SERVICE PROVIDER will coordinate with DEPARTMENT staff, including Roadway Design, NDOT Traffic Operations, and NDOT R/W Utilities to obtain updated proposed CAD base files as the design progresses.

2.1 Lighting

The SERVICE PROVIDER will develop the Intermediate (60%) lighting design with the high mast and Type 7/Type 14 light poles based on the layouts included in 73518 Intermediate Plans dated March 2013, address lighting elements included in Contract 3583 dated December 2014 through July 2017, and address lighting elements included in Contract 3724 dated January 2018 with construction anticipated to commence October 2018. SERVICE PROVIDER will prepare Intermediate (60%) lighting plans including layouts showing lighting standard and conduit locations and other lighting appurtenances in accordance with applicable standards, design criteria, and the DEPARTMENT's SLI Design Guide. The SERVICE PROVIDER will prepare Intermediate (60%) lighting notes.

The SERVICE PROVIDER will coordinate with Landscape Architecture regarding architectural lighting. Architectural lighting design is not considered to be part of this scope of work and will not be provided. The DEPARTMENT Landscape Architecture shall provide the necessary information to size the power circuit(s) and will provide the location of the demarc point pull box to the SERVICE PROVIDER. SERVICE PROVIDER will provide the power circuit to a demarc point pull box that Landscape Architecture will connect to.

The SERVICE PROVIDER will coordinate requirements for electrical service with Landscape Architecture, NV Energy, NDOT R/W Utilities, NDOT Traffic Operations SLI Section, and NDOT District 1 staff. The SERVICE PROVIDER will determine the electrical service points and coordinate with Landscape Architecture, NV Energy, NDOT R/W Utilities, and NDOT District 1 staff for the electrical services.

The SERVICE PROVIDER will prepare a lighting analysis for the project. The lighting analysis will include an executive summary, Photometric design using AGI 32, hardware recommendations, voltage selection, pavement classification and maps of the roadway as necessary. The DEPARTMENT shall provide proposed design surfaces in InRoads dtm format needed for the photometric design. The lighting analysis report will make recommendations for lighting design.

Deliverables:

- Intermediate (60%) Lighting Notes Sheet
- Intermediate (60%) Lighting Plans
- Lighting Analysis Report

AMERICAN OVERSIGHT

2.2 PERMANENT SIGNING

The SERVICE PROVIDER will develop the Intermediate (60%) permanent signing design based on 73518 Intermediate Plans dated March 2013, address signing elements included in Contract 3583 dated December 2014 through July 2017, and address signing elements included in Contract 3724 dated January 2018 with construction anticipated to commence October 2018. The SERVICE PROVIDER will prepare Intermediate (60%) permanent signing plans including layouts showing overhead and ground mounted sign panels, removals, posts and overhead sign structures, and other signing components in accordance with MUTCD and DEPARTMENT standards. The SERVICE PROVIDER will prepare Intermediate (60%) signing notes.

Deliverables:

- Intermediate (60%) Signing Notes Sheet
- Intermediate (60%) Permanent Signing Roll Plot(s)

2.3 SIGNALS

The SERVICE PROVIDER will develop the Intermediate (60%) traffic signal designs for the following intersections:

- Sky Pointe Dr / W Centennial Pkwy
- Sky Pointe Dr / EB CC215 Ramp (between “P3” and “P2” ramps)
- Sky Pointe Dr / WB CC215 Ramp (between “P4” and “P1” ramps)
- Modifications at Sky Pointe Dr / Tropical Pkwy/Azure Dr
- Modifications at Oso Blanca Rd / Centennial Center Blvd
- Undergrounds at Oso Blanca Rd / EB and WB CC215 Slip Ramps (stop sign controlled)
- Removal of signal system at existing Sky Pointe Dr / CC215
- Removal of signal system at existing Oso Blanca Rd / CC215

The SERVICE PROVIDER will prepare Intermediate (60%) signal plans based on 73518 Intermediate Plans dated March 2013 and address signal elements included in Contract 3724 dated January 2018 with construction anticipated to commence October 2018, including layouts showing locations of traffic signal appurtenances and signal phasing in accordance with applicable standards, design criteria, and the DEPARTMENT’s SLI Design Guide. The SERVICE PROVIDER will prepare Intermediate (60%) traffic signal notes.

The SERVICE PROVIDER will coordinate requirements for electrical service with NV Energy, NDOT R/W Utilities, NDOT Traffic Operations SLI Section, and NDOT District 1 staff. The SERVICE PROVIDER will determine the electrical service points and coordinate with NV Energy, NDOT R/W Utilities, and NDOT District 1 staff for the electrical services.

The SERVICE PROVIDER will develop a traffic signal justification analysis for each of the three new signals above. As there are currently no traffic signals at these locations, analysis volumes will be based on the traffic projections developed as part of the existing approved CCAR document that includes these intersections. The SERVICE PROVIDER will evaluate the signals for Warrant 2 (4-hr vehicular volume) and Warrant 3 (peak hour volume). Additional warrants (i.e. 8-hr vehicular volume, pedestrian, and crash experience) will not be evaluated as they are not applicable at this time.

The SERVICE PROVIDER will prepare a traffic signal justification analysis report, including the outcome of the warrant analysis and recommendations for the intersections.

Deliverables:

- Intermediate (60%) Signal Notes Sheet

AMERICAN OVERSIGHT

- Intermediate (60%) Signal Plans
- Traffic Signal Justification Analysis Report

2.4 INTELLIGENT TRANSPORTATION SYSTEMS (ITS)

The SERVICE PROVIDER will develop the Intermediate (60%) ITS design based on 73518 Intermediate Plans dated March 2013, address ITS elements included in Contract 3583 dated December 2014 through July 2017, and address ITS elements included in Contract 3724 dated January 2018 with construction anticipated to commence October 2018, and review of work completed as part of prior project phases.

The SERVICE PROVIDER will review the DEPARTMENT's current SLI Design Guide, current network diagrams and with NDOT Traffic Operations staff will develop a minor ITS specific basis of design memorandum. This will be a memo report that will serve to drive the ITS design efforts. Components that will be included in this analysis are:

- ITS network, main hub, and fiber pathing
- NDOT ITS equipment specifications
- Wrong Way Driver Warning System – multiple systems currently deployed state wide, will work with DEPARMENT staff to determine system components specific to these installations
- Traffic Flow Detectors – specify radar units, design parameters, and installation requirements.

The Intermediate (60%) ITS plans will include the following elements;

- Reestablishing fiber connections impacted by project, including relocating existing fiber run south of CC215 within the project limits. The design will provide fiber runs along both the north and south sides of CC215 back to main fiber hub.
- Interconnecting new and modified signals listed in section 2.3.
- Three wrong way driver warning systems
- Five Traffic Flow Detector Systems on CC215 and ramps per previous plans

The SERVICE PROVIDER will coordinate requirements for electrical service with NV Energy, NDOT R/W Utilities, NDOT Traffic Operations SLI Section, and NDOT District 1 staff. The SERVICE PROVIDER will determine the electrical service points and coordinate with NV Energy, NDOT R/W Utilities, and NDOT District 1 staff for the electrical services.

It is assumed that no CCTV cameras, ramp meters, roadway weather/ice warning system, dynamic travel time signs, and/or active management signs will be provided as part of this design.

Deliverables:

- ITS Basis of Design Memo
- Intermediate (60%) ITS Layout Sheet
- Intermediate (60%) ITS Notes Sheet
- Intermediate (60%) ITS Plans

2.5 CONSTRUCTION STAGING - TEMPORARY SIGNALS

The SERVICE PROVIDER will develop Intermediate (60%) temporary traffic signal design based on traffic control phasing and detours provided by the DEPARTMENT for the Traffic Control Reference Documents for this project. The SERVICE PROVIDER will prepare Intermediate (60%) temporary signal plans including temporary signal location layouts, camera locations, phase diagrams and notes.

AMERICAN OVERSIGHT

The SERVICE PROVIDER will coordinate requirements for temporary traffic signals with DEPARTMENT staff, including Roadway Design, NDOT Traffic Operations, Construction, R/W Utilities, and District 1 staff.

It is assumed that all construction associated with the temporary traffic signal plans will be included in the Lump Sum bid item 625 0490 Rent Traffic Control Devices and any individual bid item identification and quantification for all temporary traffic signal systems for the Estimate of Quantities Report would be considered outside this scope of services.

Deliverables:

- Intermediate (60%) Temporary Signal Notes Sheet for the Traffic Control Reference Documents
- Intermediate (60%) Temporary Signal Plans for the Traffic Control Reference Documents

2.6 Construction Cost Estimates

The SERVICE PROVIDER will develop an Intermediate (60%) Construction Cost Estimate for Permanent Signing and SLI items, including the DEPARTMENT's bid item numbers and descriptions, in accordance with the DEPARTMENT's Project Cost Estimation Manual and SLI Design Guide. The SERVICE PROVIDER's Intermediate (60%) Construction Cost Estimate for Permanent Signing and SLI items will be used by the DEPARTMENT to track project costs. Permanent Signing and SLI quantities will be at the Intermediate (60%) design level, but most Permanent Signing and SLI bid item numbers will be identified to cover all known work. This Construction Cost Estimate is the SERVICE PROVIDER's Opinion of Probable Construction Cost.

The SERVICE PROVIDER will coordinate with DEPARTMENT staff to make sure the Permanent Signing and SLI items and costs are included in the Intermediate (60%) Estimate of Quantities Report and Intermediate (60%) Engineer's Estimate for the US95NW Centennial Bowl Phase 3D/E Project.

Deliverables:

- Intermediate (60%) Permanent Signing and SLI Cost Estimate including Bid Item List, Quantities, and Unit Prices

2.7 Specifications and Special Provisions

The SERVICE PROVIDER will develop Notes to the Permanent Signing and SLI Specifications and current Permanent Signing and SLI pull sheets identifying known requirements specific to and for development of the Intermediate (60%) Special Provisions for:

- Section 108.04 – Limitations of Operations
- Section 624 – Accommodations for Public Traffic
- SLI and Permanent Signing items that require clarification or modification

The SERVICE PROVIDER will coordinate with DEPARTMENT staff to obtain current Permanent Signing and SLI pull sheets. The SERVICE PROVIDER will coordinate with DEPARTMENT staff to make sure the Permanent Signing and SLI items are addressed in the Intermediate (60%) Special Provisions for the US95NW Centennial Bowl Phase 3D/E Project.

Deliverables:

- Intermediate (60%) Notes to the Permanent Signing and SLI Specifications and Permanent Signing and SLI pull sheets

AMERICAN OVERSIGHT

3.0 QA (90%) TRAFFIC DESIGN

The SERVICE PROVIDER will coordinate with DEPARTMENT staff, including Roadway Design and NDOT R/W Utilities to obtain updated proposed CAD base files in MicroStation V8i format as the design progresses.
The SERVICE PROVIDER will prepare and provide responses to written Intermediate (60%) SLI and Permanent Signing submittal comments from the Intermediate (60%) Design Review Meeting. The SERVICE PROVIDER will integrate reconciled DEPARTMENT, Constructability and QA/QC team, and relevant agencies' (including the City of Las Vegas and FAST) comments into the Intermediate (60%) SLI and Permanent Signing design and revise and refine the SLI and Permanent Signing design documents to the 90% level.

3.1 LIGHTING

The SERVICE PROVIDER will refine the Intermediate (60%) lighting plans to the 90% level, including layouts showing lighting standard and conduit locations, and other lighting appurtenances in accordance with applicable standards, design criteria, and the DEPARTMENT's SLI Design Guide. The SERVICE PROVIDER will prepare lighting schedules, lighting details including any structural foundation requirements, lighting structure list, and refine lighting notes.

The SERVICE PROVIDER will provide voltage drop calculations based on the locations shown in the layouts depicted in the QA (90%) lighting plans developed above.

The SERVICE PROVIDER will coordinate with Landscape Architecture regarding architectural lighting. Architectural lighting design is not considered to be part of this scope of work and will not be provided. DEPARTMENT Landscape Architecture shall provide the necessary information to size the power circuit(s) and will provide the location of the demarc point pull box to the SERVICE PROVIDER. SERVICE PROVIDER will provide the power circuit to a demarc point pull box that Landscape Architecture will connect to.

The SERVICE PROVIDER will coordinate requirements for electrical service with Landscape Architecture, NV Energy, NDOT R/W Utilities, NDOT Traffic Operations SLI Section, and NDOT District 1 staff. The SERVICE PROVIDER will determine the electrical service points and coordinate with NV Energy, NDOT R/W Utilities, and NDOT District 1 staff for the electrical services. The SERVICE PROVIDER will obtain and provide the addresses for the service points from the local entity.

Deliverables:

- QA (90%) Lighting Notes Sheet
- QA (90%) Lighting Plans
- QA (90%) Lighting Schedules
- QA (90%) Lighting Details
- QA (90%) Lighting Structure List
- QA (90%) Voltage Drop Calculations

3.2 SIGNING

The SERVICE PROVIDER will refine the Intermediate (60%) traffic signing roll plot to the 90% level, including layouts showing overhead and ground mounted sign panels, removals, posts and overhead sign structures, and other signing components in accordance with applicable standards and design criteria. The SERVICE PROVIDER will prepare sign panel details for ground mounted signs and overhead sign structures, summaries, overhead signing cross sections, and any structural

AMERICAN OVERSIGHT

foundation requirements in accordance applicable standards and design criteria. The SERVICE PROVIDER will refine the signing notes.

If required, the SERVICE PROVIDER shall prepare design calculations and 90% level plans for up to two overhead sign structures that have sign panel sizes that are larger than those accommodated under the DEPARTMENT's 2017 Standard Plans. In the event that design calculations are required for overhead sign structures, the DEPARTMENT will provide the SERVICE PROVIDER with the applicable Geotechnical design parameters for the foundation.

Deliverables:

- QA (90%) Signing Notes Sheet
- QA (90%) Signing Summary Sheets
- QA (90%) Signing Removal Plans
- QA (90%) Signing Plans
- QA (90%) Signing Details
- QA (90%) Ground Mounted Sign Panel Details
- QA (90%) Overhead Sign Structure Panel Details
- QA (90%) Overhead Signing Cross Sections
- QA (90%) Overhead Sign Structure Plans (two assumed)
- QA (90%) Design Calculations for Overhead Sign Structure(s)

3.3 SIGNALS

The SERVICE PROVIDER will refine the Intermediate (60%) traffic signal designs to the 90% level for the following intersections:

- Sky Pointe Dr / W Centennial Pkwy
- Sky Pointe Dr / EB CC215 Ramp (between "P3" and "P2" ramps)
- Sky Pointe Dr / WB CC215 Ramp (between "P4" and "P1" ramps)
- Modifications at Sky Pointe Dr / Tropical Pkwy/Azure Dr
- Modifications at Oso Blanca Rd / Centennial Center Blvd
- Undergrounds at Oso Blanca Rd / EB and WB CC215 Slip Ramps (stop sign controlled)
- Removal of signal system at existing Sky Pointe Dr / CC215
- Removal of signal system at existing Oso Blanca Rd / CC215

The SERVICE PROVIDER will refine the Intermediate (60%) signal plans to the 90% level, including layouts showing locations of traffic signal appurtenances and signal phasing in accordance with applicable standards, design criteria, and the DEPARTMENT's SLI Design Guide. The signal plans will reflect interconnect conduit for the length of the project. The SERVICE PROVIDER will prepare signal schedules, details for internally illuminated street name signs (IISNS), details including structural or foundation requirements, signal structure list, and refine the traffic signal notes.

The SERVICE PROVIDER will coordinate requirements for electrical service with NV Energy, NDOT R/W Utilities, NDOT Traffic Operations SLI Section, and NDOT District 1 staff. The SERVICE PROVIDER will determine the electrical service points and coordinate with NV Energy, NDOT R/W Utilities, and NDOT District 1 staff for the electrical services. The SERVICE PROVIDER will obtain and provide the addresses for the service points from the local entity.

Deliverables:

- QA (90%) Signal Notes Sheet
- QA (90%) Signal Plans

AMERICAN OVERSIGHT

- QA (90%) Conduit and Detector Plans
- QA (90%) Signal Schedules
- QA (90%) Signal Details
- QA (90%) IISNS Format Sheets
- QA (90%) Signal Structure List

3.4 Intelligent Transportation Systems (ITS)

The SERVICE PROVIDER will refine the Intermediate (60%) ITS plan to the 90% design level, including fiber splicing details, ITS cabinet notes and details, detector location and orientation, wrong way warning system detail, flow detector detail, and prepare the ITS structure list.

The SERVICE PROVIDER will coordinate requirements for electrical service with NV Energy, NDOT R/W Utilities, NDOT Traffic Operations SLI Section, and NDOT District 1 staff. The SERVICE PROVIDER will determine the electrical service points and coordinate with NV Energy, NDOT R/W Utilities, and NDOT District 1 staff for the electrical services. The SERVICE PROVIDER will obtain and provide the addresses for the service points from the local entity.

Deliverables:

- QA (90%) ITS Layout Sheet
- QA (90%) ITS Notes Sheet
- QA (90%) ITS Plans
- QA (90%) Conduit and Routing Schedules
- QA (90%) Fiber Splicing Details
- QA (90%) Wrong Way Warning System Detail
- QA (90%) Flow Detector Detail
- QA (90%) ITS Structure List

3.5 Construction Staging - Temporary Signals

The SERVICE PROVIDER will refine the Intermediate (60%) temporary traffic signal design to the 90% level based on traffic control phasing and detours provided by the DEPARTMENT for the Traffic Control Reference Documents for this project. The SERVICE PROVIDER will refine the temporary signal plans including temporary signal location layouts, camera locations, phase diagrams, and notes. The SERVICE PROVIDER will prepare temporary signal conduit and conductor schedules.

The SERVICE PROVIDER will coordinate requirements for temporary traffic signals with DEPARTMENT staff, including Roadway Design, Traffic Operations, Construction, R/W Utilities, and District 1 staff.

It is assumed that all construction associated with the temporary traffic signal plans will be included in the Lump Sum bid item 625 0490 Rent Traffic Control Devices and any individual bid item identification and quantification for all temporary traffic signal systems for the Estimate of Quantities Report would be considered outside this scope of services.

Deliverables:

- QA (90%) Temporary Signal Notes Sheet for the Traffic Control Reference Documents
- QA (90%) Temporary Signal Plans for the Traffic Control Reference Documents
- QA (90%) Temporary Signal Schedules for the Traffic Control Reference Documents

3.6 Construction Cost Estimates

AMERICAN OVERSIGHT

The SERVICE PROVIDER will refine the Intermediate (60%) Construction Cost Estimate for Permanent Signing and SLI items to the 90% level, including the DEPARTMENT's bid item numbers and descriptions, in accordance with the DEPARTMENT's Project Cost Estimation Manual and SLI Design Guide. The SERVICE PROVIDER will provide a summary of which Permanent Signing and SLI bid items were added or deleted from the Intermediate (60%) Construction Cost Estimate for Permanent Signing and SLI items. This Construction Cost Estimate is the SERVICE PROVIDER's Opinion of Probable Construction Cost.

The SERVICE PROVIDER will coordinate with DEPARTMENT staff to make sure the Permanent Signing and SLI items and costs are included in the QA (90%) Estimate of Quantities Report and QA (90%) Engineer's Estimate for the US95NW Centennial Bowl Phase 3D/E Project.

Deliverables:

- QA (90%) Permanent Signing and SLI Cost Estimate including Bid Item List, Quantities, and Unit Prices

3.7 Specifications and Special Provisions

The SERVICE PROVIDER will refine the Intermediate (60%) Notes to the Permanent Signing and SLI Specifications and current Permanent Signing and SLI pull sheets to the 90% level, identifying known requirements specific to and for development of the QA (90%) Special Provisions for:

- Section 108.04 – Limitations of Operations
- Section 624 – Accommodations for Public Traffic
- Permanent Signing and SLI items that require clarification or modification

The SERVICE PROVIDER will coordinate with DEPARTMENT staff to obtain current Permanent Signing and SLI pull sheets. The SERVICE PROVIDER will coordinate with DEPARTMENT staff to make sure the Permanent Signing and SLI items are addressed in the QA (90%) Special Provisions for the US95NW Centennial Bowl Phase 3D/E Project.

Deliverables:

- QA (90%) Notes to the Permanent Signing and SLI Specifications and Permanent Signing and SLI pull sheets

4.0 Final Traffic Submittal

The SERVICE PROVIDER will prepare and provide responses to written QA Permanent Signing and SLI submittal comments from QA Design Review Meeting. The SERVICE PROVIDER will integrate reconciled DEPARTMENT, Constructability and QA/QC team, and relevant agencies' (including the City of Las Vegas and FAST) comments into the QA (90%) Permanent Signing and SLI design and revise and refine the Permanent Signing and SLI design documents to the Final level for inclusion in the US95NW Centennial Bowl Phase 3D/E Project Contract Documents.

The SERVICE PROVIDER will coordinate with DEPARTMENT staff to make sure the Permanent Signing and SLI items and costs are included in the Estimate of Quantities Report and Engineer's Estimate for the US95NW Centennial Bowl Phase 3D/E Project.

The SERVICE PROVIDER will coordinate with DEPARTMENT staff to make sure the Permanent Signing and SLI items are addressed in the Special Provisions for the US95NW Centennial Bowl Phase 3D/E Project.

- Flow Detector Detail
- ITS Structure List
- Temporary Signal Notes Sheet for the Traffic Control Reference Documents
- Temporary Signal Plans for the Traffic Control Reference Documents
- Temporary Signal Schedules for the Traffic Control Reference Documents

5.0 CONTRACT ADMINISTRATION SUPPORT

5.1 SUPPORT FOR MISCELLANEOUS MANAGEMENT ITEMS

The SERVICE PROVIDER will provide miscellaneous support for additional items not described specifically in the scope of services. The work will be performed as requested by the DEPARTMENT Project Manager. (up to 45 hours each of SERVICE PROVIDER's Project Manager and Senior Traffic Engineer assumed)

5.2 SUPPLEMENTAL NOTICES

The SERVICE PROVIDER recognizes unforeseen developments sometimes require that supplemental design details be produced for distribution to potential bidders, prior to the bid opening. The SERVICE PROVIDER will develop and submit revised advertisement documents including Permanent Signing and SLI plan sheets, Special Provisions, and quantities upon direction of the DEPARTMENT's Project Manager. The SERVICE PROVIDER will provide one (1) original suitable

AMERICAN OVERSIGHT

for reproduction and one (1) electronic copy. The DEPARTMENT shall be responsible for reproduction and distribution of any Supplemental Notices. A total of two (2) Supplemental Notices are assumed to be developed to accommodate unanticipated issues.

6.0 Construction Support

6.1 Administration

The SERVICE PROVIDER's Project Manager shall correspond directly with the DEPARTMENT's Project Manager through the duration of construction of the US95NW Centennial Bowl Phase 3D/E Project, anticipated to be approximately thirty (30) months. All correspondence between the SERVICE PROVIDER and the DEPARTMENT shall include notification to the DEPARTMENT's Project Manager unless directed otherwise by the DEPARTMENT's Project Manager.

6.2 Submittals

The SERVICE PROVIDER recognizes that formal Requests for Information (RFI's) or Requests for Clarification (RFC's) may result to address supplemental design issues. The SERVICE PROVIDER will prepare responses to the SLI questions as directed. (up to 15 RFC's/RFI's with 4 hours Senior Traffic Engineer and Traffic Engineer each assumed).

The SERVICE PROVIDER recognizes unforeseen developments sometimes require that supplemental design details be produced for distribution during construction of the US95NW Centennial Bowl Phase 3D/E Project, anticipated to be approximately thirty (30) months. The SERVICE PROVIDER will develop and submit revised contract documents including Permanent Signing and SLI plan sheets, Special Provisions, and quantities upon direction of the DEPARTMENT's Project Manager. Up to two (2) Supplemental Notices are assumed to be developed to accommodate unanticipated issues.

The SERVICE PROVIDER will participate in the review of Shop Drawings and Submittals pertaining to the Overhead Sign Structures designed by the SERVICE PROVIDER. The SERVICE PROVIDER will review the Shop Drawings and Submittals pertaining to the Overhead Sign Structures designed by the SERVICE PROVIDER for adequacy, adherence to standards, and appropriateness to the project situation. The anticipated effort includes initial review and subsequent review of each submittal pertaining to Overhead Sign Structures designed by the SERVICE PROVIDER.

The SERVICE PROVIDER will direct correspondence related to Submittals and Shop Drawing Reviews pertaining to Overhead Sign Structures designed by the SERVICE PROVIDER, and responses to RFI's and RFC's pertaining to SLI elements to the DEPARTMENT's Project Manager.

6.3 Support

The SERVICE PROVIDER's Permanent Signing and SLI design team will provide support to the DEPARTMENT's Resident Engineer to address supplemental design issues raised in response to design-related RFI's pertaining to Permanent Signing and SLI elements, and otherwise provide construction support services. The SERVICE PROVIDER will attend site visits or construction progress meetings at the DEPARTMENT's Project Manager's request (4 site visits assumed).

MEMORANDUM

July 30, 2018

To: Nevada Department of Transportation Board of Directors

Thru: Rudy Malfabon, PE (NDOT Director)

Thru: Thor A. Dyson, PE, CPM (NDOT Assistant Director for Operations)

From: Mike Fuess, PE, PTOE

Subject: Staff Report for Proposed Sole Source Contract with Boschung America

---

Summary

NDOT currently owns, manages and maintains an automated anti-icing system manufactured by Boschung America. NDOT District II is requesting an on call contract to help with preventive maintenance, planned repairs, unscheduled repairs, training, parts procurement and phone support.

Background

In 1999, Rick Nelson, PE (District Engineer at the time) initiated correspondence with Boschung America in order to deploy their automated anti-icing systems in Nevada as a safety strategy for our larger high traffic volume structures in ice prone areas. Bridges typically experience icing conditions well before roadway segments that are insulated by the earth below. When Rick Nelson was the Assistant Director for Operations, he directed that the I580 Extension Project between Reno and Carson City include the Boschung anti-icing system for the Galena Forest Bridge, Steamboat Hills Bridge, Galena Creek Bridge and the Browns Creek Bridge as a safety strategy for motorist driving during ice prone weather and as a strategy to extend the life of the bridges by reducing salt exposure to the structural steel components in the bridge structures. In 2013, this system was deployed and operational. This was a capital investment of roughly $4.5M.

The system is a sole source technologically intense facility. Complex pavement sensors and a weather station monitor the environment around the structure. A proprietary computerized controller monitors these environmental conditions through complex proprietary algorithms and activates pumps to spray product automatically in order to proactively treat the bridges with potassium acetate anti-icing solution.

AMERICAN OVERSIGHT

Approved for Release by NV DA 20-0615 A-000281

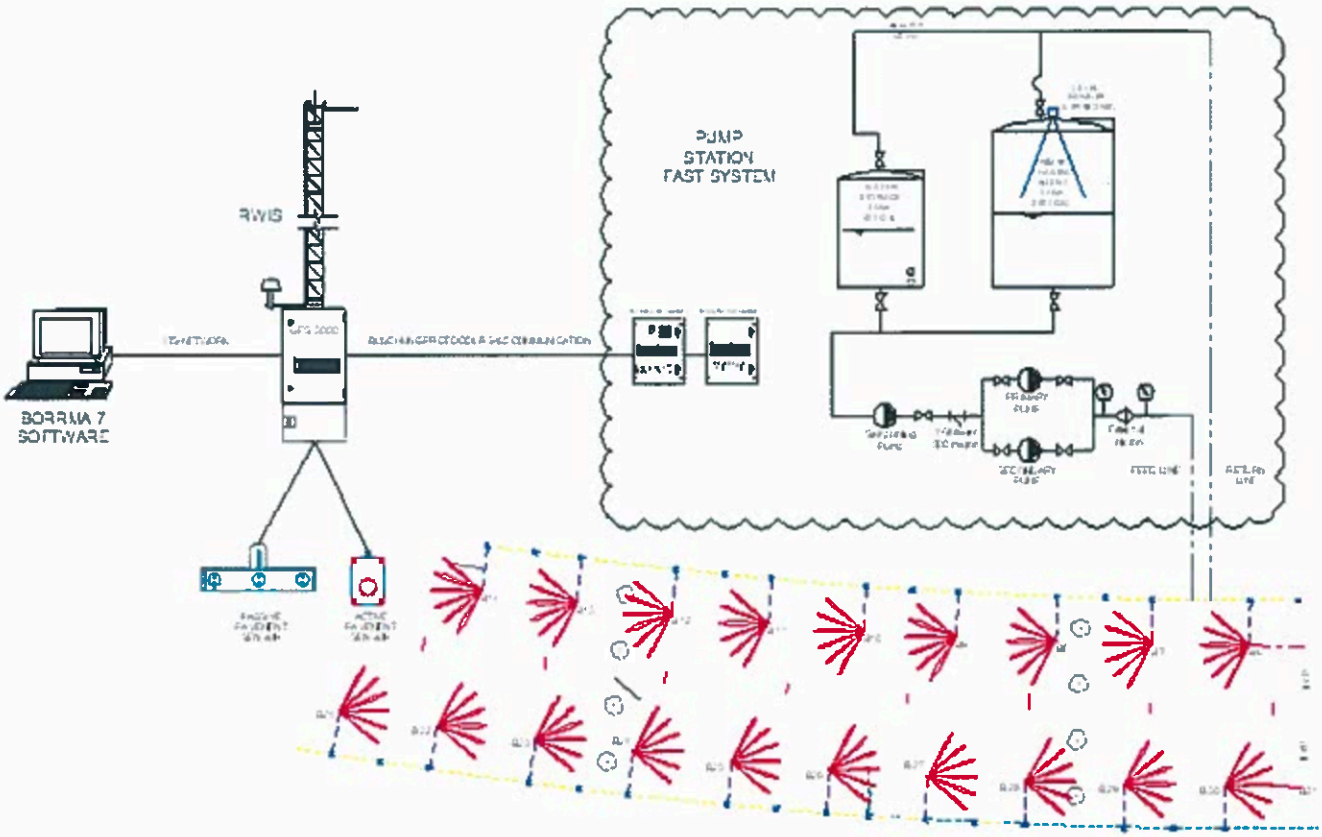

Figure 1: Boschung America Anti-Icing System Skematic

Facts & Findings

- NDOT made significant investment and constructed the Boschung anti-icing system as a critical safety feature for I580 between Reno and Carson City. The system is deployed on four bridges where loss of roadway friction due to ice was a significant concern.
- The system is technologically advanced and requires support from the manufacture in order to maintain reliable operation. It is our experience that high-tech systems experience a significant increase in required maintenance after about five years of continuous use. This system has been in place since 2013.
- Many components of the system can only be purchased through Boschung America. Replacement parts for the system vary in cost between roughly $1,000 and $25,000.
- Boschung America is intimately familiar with our system and is the only contractor qualified to train NDOT staff on basic tasks related to the system.
- When we received the system, it came with a warranty and with spare parts. The warranty period has since expired. We have exhausted most of our supply of spare parts.
- Given this was constructed as a high-tech safety system, NDOT has implemented preventive maintenance and life cycle replacement strategies in order to maximize system reliability.
- To date, there have been zero fatalities during winter weather events on the four structures using the Boschung Anti-icing system.

AMERICAN OVERSIGHT

Options

- Accept proposed on-call contract with Boschung America for scheduled maintenance, scheduled and unscheduled repairs, training, phone support and parts procurement.
- Negotiate sole source agreements as needed for required service
- Implement a polymer overlay on Galena Forest structure and abandon the Boschung anti-icing system
- Abandon the Boschung anti-icing system and rely on the NDOT salt/sand and salt brine anti-icing programs
- Do nothing and repair Boschung system as failures occur

Staff Recommendation

The Boschung Anti-Icing System was deployed as a key safety strategy and as a critical strategy to extend the physical life of the bridge structure. Staff recommends that the board make and approve a motion to accept the proposed on-call contract with Boschung America for scheduled maintenance, scheduled and unscheduled repairs, training, phone support and parts procurement.

MEMORANDUM

District II

April 13, 2018

To: Thor Dyson, P.E., District Engineer

From: Marlene Revera, District Agreement Liaison

Subject: Approval Request for Service Provider Agreement P612-17-201

District II requests authorization to enter into a Service Provider Agreement with Boschung America, LLC. Boschung America, LLC is the only North American authorized provider of Boschung technology and parts providing factory trained engineering, installation expertise, commissioning, testing and service of Boschung products.

The Boschung Fast systems are located at:

- Browns Creek-I-580 at MP 9.51
- Galena Creek-I-580 at MP 10.28
- Steamboat Hills-I-580 at MP 13.28
- Galena Forest-I-580 at MP 14.3

The cost of the agreement will be $500,000.00 for a two-year agreement. Funds are available in the District II Cat 04 budget.

Approval of this memo by the District Engineer authorizes the request to solicit the services.

MEMORANDUM

May 29, 2018

TO: Tracy Larkin-Thomason, Assistant Director

FROM: Steve Cordle, Project Manager

SUBJECT: Negotiation Summary for Sole Source Agreement P612-17-201 Boschung System

---

A negotiation meeting was held at District II in Reno on April 18, 2018, with SERVICE PROVIDER MEMBER Chris Vitek and DEPARTMENT MEMBERS Steve Cordle and Marlene Revera of the Nevada Department of Transportation (DEPARTMENT) in attendance.

The DBE goal for this agreement has been established at Zero percent (0%).

This duration of this agreement will be two (2) years, ending on July 31, 2020.

The scope of services that are to be provided by the SERVICE PROVIDER was reaffirmed by both parties at the outset.

(INSERT OR ATTACH THE SCOPE OF SERVICES IF APPLICABLE)

The following schedule was agreed to by both parties:

Completion Date: July 31, 2020. To update the Boschung System, test software, switch chemicals and ensure the systems are running correctly.

Key personnel dedicated to this project are as follows:

Name	Title
Michael Fuess	ADE Maintenance
Brad Burge	Maintenance Manager
Troy Hammond	Highway Maintenance Supervisor II
Steve Cordle	Project Manager
Dane Rice	Highway Maintenance Worker IV

There are no sub-consultants being utilized on this Project.

The DEPARTMENT's original estimate was $500,000.00 including direct labor.

The SERVICE PROVIDER's original estimate was $500,000.00, including direct labor (technician labor at $120.00 per hour-as needed, technician labor, on site (overtime weekends, holidays), at $180.00 per hour-as needed.

Fixed Anti-Icing System and Roadside Weather Information System, Maintenance and Repair

Proposal #: 102882

Prepared For:

Nevada Department of Transportation

Prepared By:

Chris Vitek

PH: 724-658-3300 ext. 506

cgv@BoschungAmerica.com

AMERICAN OVERSIGHT

Approval of Agreements Over $300,000
Page 88 of 94
Approved Agreement No. NV-DOT-20-0615-A-000287
Page 88 of 94

PURPOSE

The Nevada Department of Transportation (NVDOT) has several combined Roadside Weather Information System (RWIS) and Fixed Anti-Icing Spray System (FAST) installations that improve safety by preemptively spraying liquid anti-icing chemical on various locations listed below. This system consists of Boschung® proprietary hardware, computer programs, and devices. Potassium acetate is used for anti-icing. The systems are complex and require routine maintenance for effective operation. Public safety is in turn dependent on this.

The purpose of this contract is to maintain effective system operation through performing a fall startup inspection, a spring switch-over inspection, remote technical assistance, emergency on-site service call provision, materials provision, and a yearly certified operation training session.

SERVICE LOCATIONS:

- Browns Creek - I-580 at Milepost 9.51
- Galena Creek - I-580 at Milepost 10.28
- Steamboat Hills - I-580 at Milepost 13.28
- Galena Forest - I-580 at Milepost 14.3

SERVICES PROVIDED:

1) FALL SWITCHOVER

Switch system over from water to anti-icing chemical, operate all valves, spray units and devices through at least one complete cycle, operate computer control system, and check for operation within manufacturer's specification, check RWIS instrument function and output. Detailed service items are listed below

- Central Processing Unit (desktop computer)
    - Clean cabinet
    - Inspect PC for defects
    - Check modem operation and cable condition
    - Verify dial tone at modem
    - Test and reset PC power switches
    - Review system log for errors
    - Clean display screen
    - Perform check disk and defrag on PC
    - Assess hard drive capacity
    - Update software as needed

AMERICAN OVERSIGHT

- Road Weather Information System
  - Check stability of RPU
  - Replace padlock if defective
  - Clean dirt, trash, nests, and animal parts/debris from inside of cabinet
  - Check and if needed, place rodent control.
  - Check and seal any holes in cabinet
  - Check all RPU and panel hardware; tighten and replace if necessary
  - Verify power supply voltages
  - Clean lens on precipitation sensor and check operation
  - Clean shield on humidity sensor
  - Perform the shock test on the relative humidity sensor
  - Check relative humidity sensor output with a known source
  - Verify wind direction at all four compass points
  - Check modem operation at power interrupter
  - Check for dial tone and noise on the line
  - Clean pavement sensors
  - Run Auto-Test on pavement sensors
  - Inspect for cracks around sensor; notify NVDOT
- FAST
  - Replace system chemical filter
  - Verify and rectify, if required, operation of system and transfer pump
  - Check pressure switch operation limits
  - Verify flow meter operation and accuracy
  - Test main solenoid valve for proper operation
  - Check operation of level sensor
  - Check operation of valve units
  - Verify spray disk patterns; clean and adjust disks as needed
  - Inspect system for leaks, poor sealant or loose components
  - Verify system programs (spray programs, customer set points, etc.)
  - Verify maintenance spray set points

AMERICAN OVERSIGHT

2) SPRING SWITCHOVER

Switchover system by flushing with water. Operate all valves, spray units and devices through at least one complete cycle, operate computer control system, and check for proper operation. Detailed service items are listed below

- Central Processing Unit
  - Clean dust and debris from cabinet
  - Inspect PC for defects
  - Check operation and condition of the modem and cables
  - Verify dial tone at modem
  - Test and reset power switches on the PC
  - Review system log for errors
- Road Weather Information System
  - Check stability of RPU
  - Check and seal any holes in cabinet
  - Check all RPU and panel hardware; tighten and replace if necessary
  - Verify power supply voltages
  - Check operation of the modem at power interrupter
  - Check for dial tone and noise on the line
  - Clean surface of pavement sensors (weather permitting)
  - Run Auto-Test on pavement sensors
  - Inspect for cracks around sensor; notify NVDOT for filling
- FAST
  - Check operation of valve units
  - Spray disk patterns; clean and adjust disks as needed
  - Inspect system for leaks
  - Flush system with water (switchover)
  - Initiate weekly maintenance spray cycle and verify set points

3) REMOTE TECHNICAL SUPPORT AND SITE MONITORING

- Remote technical support will be provided via telephone or email.
- Technician shall attempt to troubleshoot system malfunctions remotely
- Remote technical support will be unlimited through the contract period
- Site will be remotely investigated once weekly by a qualified technician

AMERICAN OVERSIGHT

Approval of Agreements Over $300,000
Page 91 of 94

4) UNSCHEDULED ON-SITE SERVICE (if Needed)

- Provide on-site service callouts when requested by NVDOT representative with a confirming written authorization.
- Perform service at the specific site.
- Notify the system operator when repair technician arrives on site.
- Troubleshoot system operation based on operator's reported symptoms.
- Repair or replace components as required to maintain autonomous operation of the system.
- Maintain an on-site log of tests performed and actions taken.
- Participate in exit interview with system operator where the following takes place:
- All changes to settings and control criteria are provided in a written report.
- System operator is trained in any changes made.
- Components replaced, removed, or recalibrated.
- List of items of concern or requiring more than routine maintenance are documented in writing.
- Provide written report of problems found, action taken, materials and parts used, and future recommendations.
- All unscheduled on-site service will be invoiced as used.

5) CERTIFIED OPERATION TRAINING

- Training is provided by a qualified Boschung America personal.
- Provide one full day Operation Training for up to 5 attendees annually.
- Training includes instruction for switching the Boschung FAST system over for winter or summer operation.
- Basic understanding of assisting Boschung Technician in rebooting FAST computer system

REPAIR/REPLACEMENT PARTS

- Replace damaged parts in kind.
- Work with original manufacturer(s) for parts under warranty and any new parts used must be approved by NVDOT.
- All parts will be priced according to Boschung America's pricelist.

AMERICAN OVERSIGHT

Unscheduled Labor and Parts

- Technician Labor $120 per hour (as Needed)
- Technician labor, on site (overtime, weekends, holidays) $180 per Hour (as Needed)
- Part and Replacement Parts will be billed per Boschung America price list provided to NVDOT
- Shipping cost will be prepaid and added to the invoice
    - FedEx or UPS Ground - Unless otherwise approved by the department

TIMELINESS

- Seasonal Switchovers
    - Service appointments will be scheduled with Nevada DOT – District 2 and Boschung America

- Unscheduled On-site Service
    - Provide on-site service as needed
    - NVDOT directs the hours that the service technician may work on the site depending on traffic and weather conditions

TRAFFIC CONTROL

- Traffic control, site access, special lift equipment, railroad permits, flaggers, etc. will be provided by NVDOT as designated on the work order.

MEMORANDUM

August 3, 2018

TO: **Department of Transportation Board of Directors**
FROM: **Rudy Malfabon, Director**
SUBJECT: **August 13, 2018, Transportation Board of Directors Meeting**
ITEM #6: **Contracts, Agreements, and Settlements – Informational Item Only**

Summary:

The purpose of this item is to inform the Board of the following:

- Construction contracts under $5,000,000 awarded June 13, 2018, through July 17, 2018.
- Agreements under $300,000 executed June 13, 2018, through July 17, 2018.

Any emergency agreements authorized by statute will be presented here as an informational item.

Background:

Pursuant to NRS 408.131(5), the Transportation Board has authority to "[e]xecute or approve all instruments and documents in the name of the State or Department necessary to carry out the provisions of the chapter". Additionally, the Director may execute all contracts necessary to carry out the provisions of Chapter 408 of NRS with the approval of the board, except those construction contracts that must be executed by the chairman of the board. Other contracts or agreements not related to the construction, reconstruction, improvement and maintenance of highways must be presented to and approved by the Board of Examiners. This item is intended to inform the Board of various matters relating to the Department of Transportation but which do not require any formal action by the Board.

The Department contracts for services relating to the construction, operation and maintenance of the State's multi-modal transportation system. Contracts listed in this item are all low-bid per statute and executed by the Governor in his capacity as Board Chairman. The projects are part of the STIP document approved by the Board. In addition, the Department negotiates settlements with contractors, property owners, and other parties to resolve disputes. These proposed settlements are presented to the Board of Examiners, with the support and advisement of the Attorney General's Office, for approval. Other matters included in this item would be any emergency agreements entered into by the Department during the reporting period.

AMERICAN OVERSIGHT

The attached construction contracts and agreements constitute all that were awarded for construction from June 13, 2018, through July 17, 2018 and agreements executed by the Department from June 13, 2018, through July 17, 2018. There were no settlements during the reporting period.

Analysis:

These contracts have been executed following the Code of Federal Regulations, Nevada Revised Statutes, Nevada Administrative Code, State Administrative Manual, and/or Department policies and procedures.

List of Attachments:

A) State of Nevada Department of Transportation Contracts Awarded – Under $5,000,000, June 13, 2018, through July 17, 2018.

B) State of Nevada Department of Transportation Executed Agreements – Informational, June 13, 2018, through July 17, 2018.

Recommendation for Board Action: Informational item only

Prepared by: Administrative Services Division

STATE OF NEVADA DEPARTMENT OF TRANSPORTATION
CONTRACTS AWARDED - INFORMATIONAL
June 13, 2018, through July 17, 2018

1. June 14, 2018 at 1:30 PM the following bids were opened for Contract 3726, Project No. SP-000M(055), on FRCL02 – Primm Road, in Clark County, for roadbed modification with plant-mix bituminous surface & open grade, drainage, and ADA improvements.

Las Vegas Paving Corporation	$1,343,000.00
Aggregate Industries SWR, Inc.	$1,415,415.00
Engineer's Estimate	$1,365,605.42

The Director awarded the contract on July 10, 2018, to Las Vegas Paving Corporation in the amount of $1,343,000.00.

2. June 14, 2018 at 2:00 PM the following bids were opened for Contract 3725, Project No. STP-080-2(056), on I-80 at Fairview Ditch, in Pershing County, to replace Substructure B-1392E.

Q & D Construction LLC	$826,618.35
Road and Highway Builders LLC	$1,020,020.00
Spanish Springs Construction, Inc.	$1,844,444.00
Engineer's Estimate	$1,113,907.82

The Director awarded the contract on July 11, 2018, to Q & D Construction, LLC in the amount of $826,618.35.

3. June 14, 2018 at 2:30 PM the following bids were opened for Contract 3723, Project No. SPI-580-1(026), on I-580 at South Meadows Parkway, in Washoe County, to construct landscape and aesthetics.

Q & D Construction LLC	$1,517,509.60
A & K Earth Movers, Inc.	$1,565,000.00
Engineer's Estimate	$1,162,258.63

The Director awarded the contract on July 11, 2018, to Q & D Construction, LLC in the amount of $1,517,509.60.

4. June 21, 2018 at 1:30 PM the following bids were opened for Contract 3727, Project No. SP-000M(061), on SR 789, in Humboldt County, for chip seal with seal coat.

VSS International, Inc.	$811,120.00
Intermountain Slurry Seal, Inc.	$875,880.00
Sierra Nevada Construction, Inc.	$898,007.00
Engineer's Estimate	$691,580.04

The Director awarded the contract on July 10, 2018, to VSS International, Inc. in the amount of $811,120.00.

AMERICAN OVERSIGHT

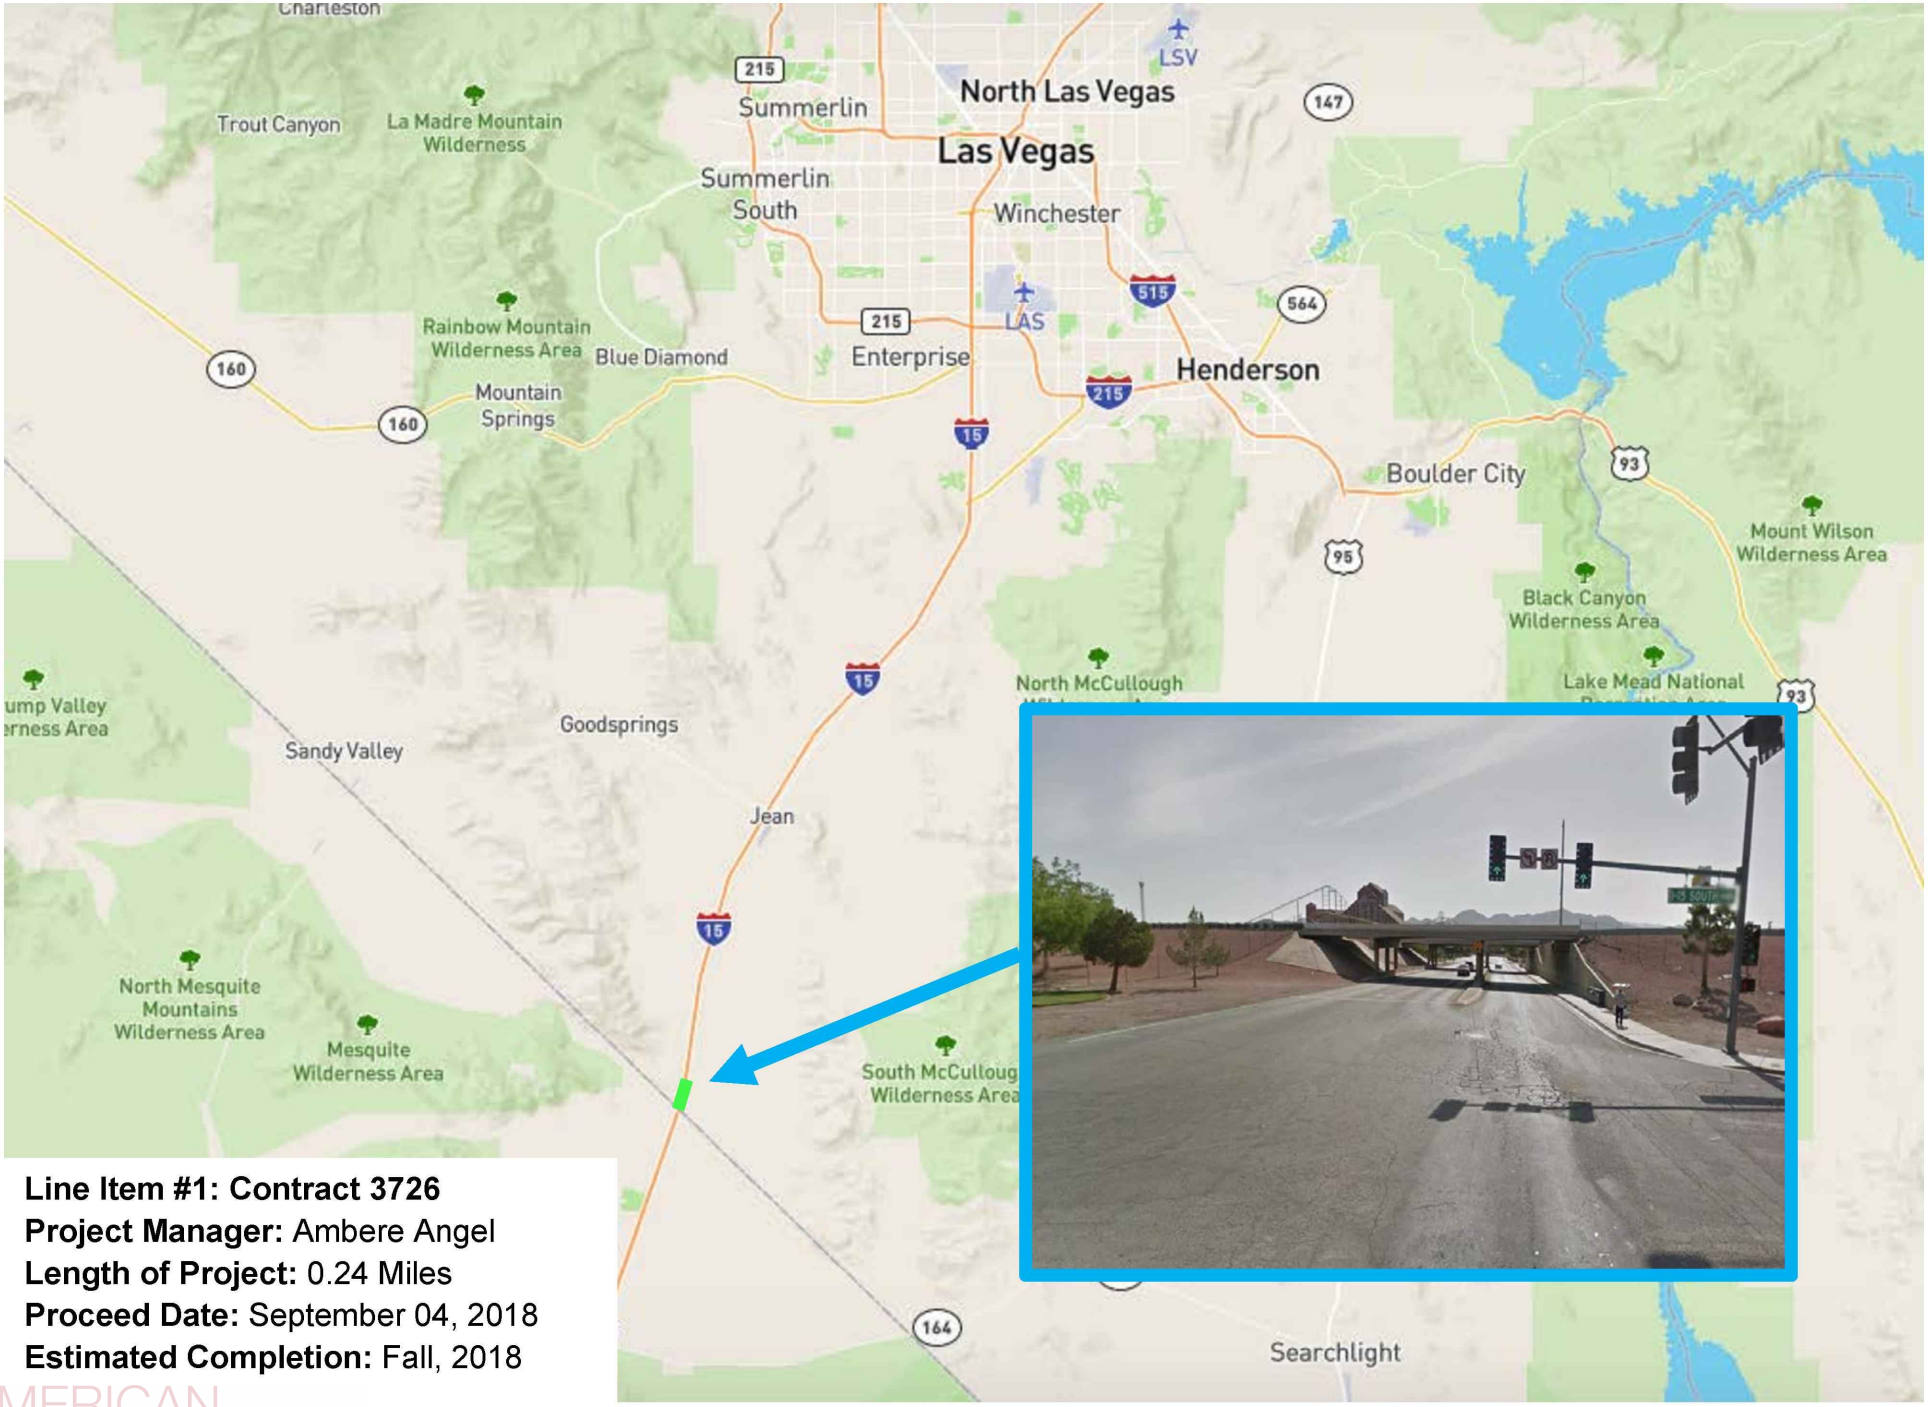
5. June 28, 2018 at 2:00 PM the following bids were opened for Contract 3730, Project No. SPSR-0226(006), on SR 226, in Elko County, for 2" overlay.

Q & D Construction LLC	$1,499,000.00
Road and Highway Builders LLC	$1,575,575.00
Remington Construction Company LLC	$1,777,777.00
Engineer's Estimate	$1,088,264.04

The Director awarded the contract on July 17, 2018, to Q & D Construction, LLC in the amount of $1,499,000.00.

6. June 28, 2018 at 2:30 PM the following bids were opened for Contract 3731, Project No. SP-000M(062), on US 95A, SR 340 and SR 827, in Lyon County, for slurry seal.

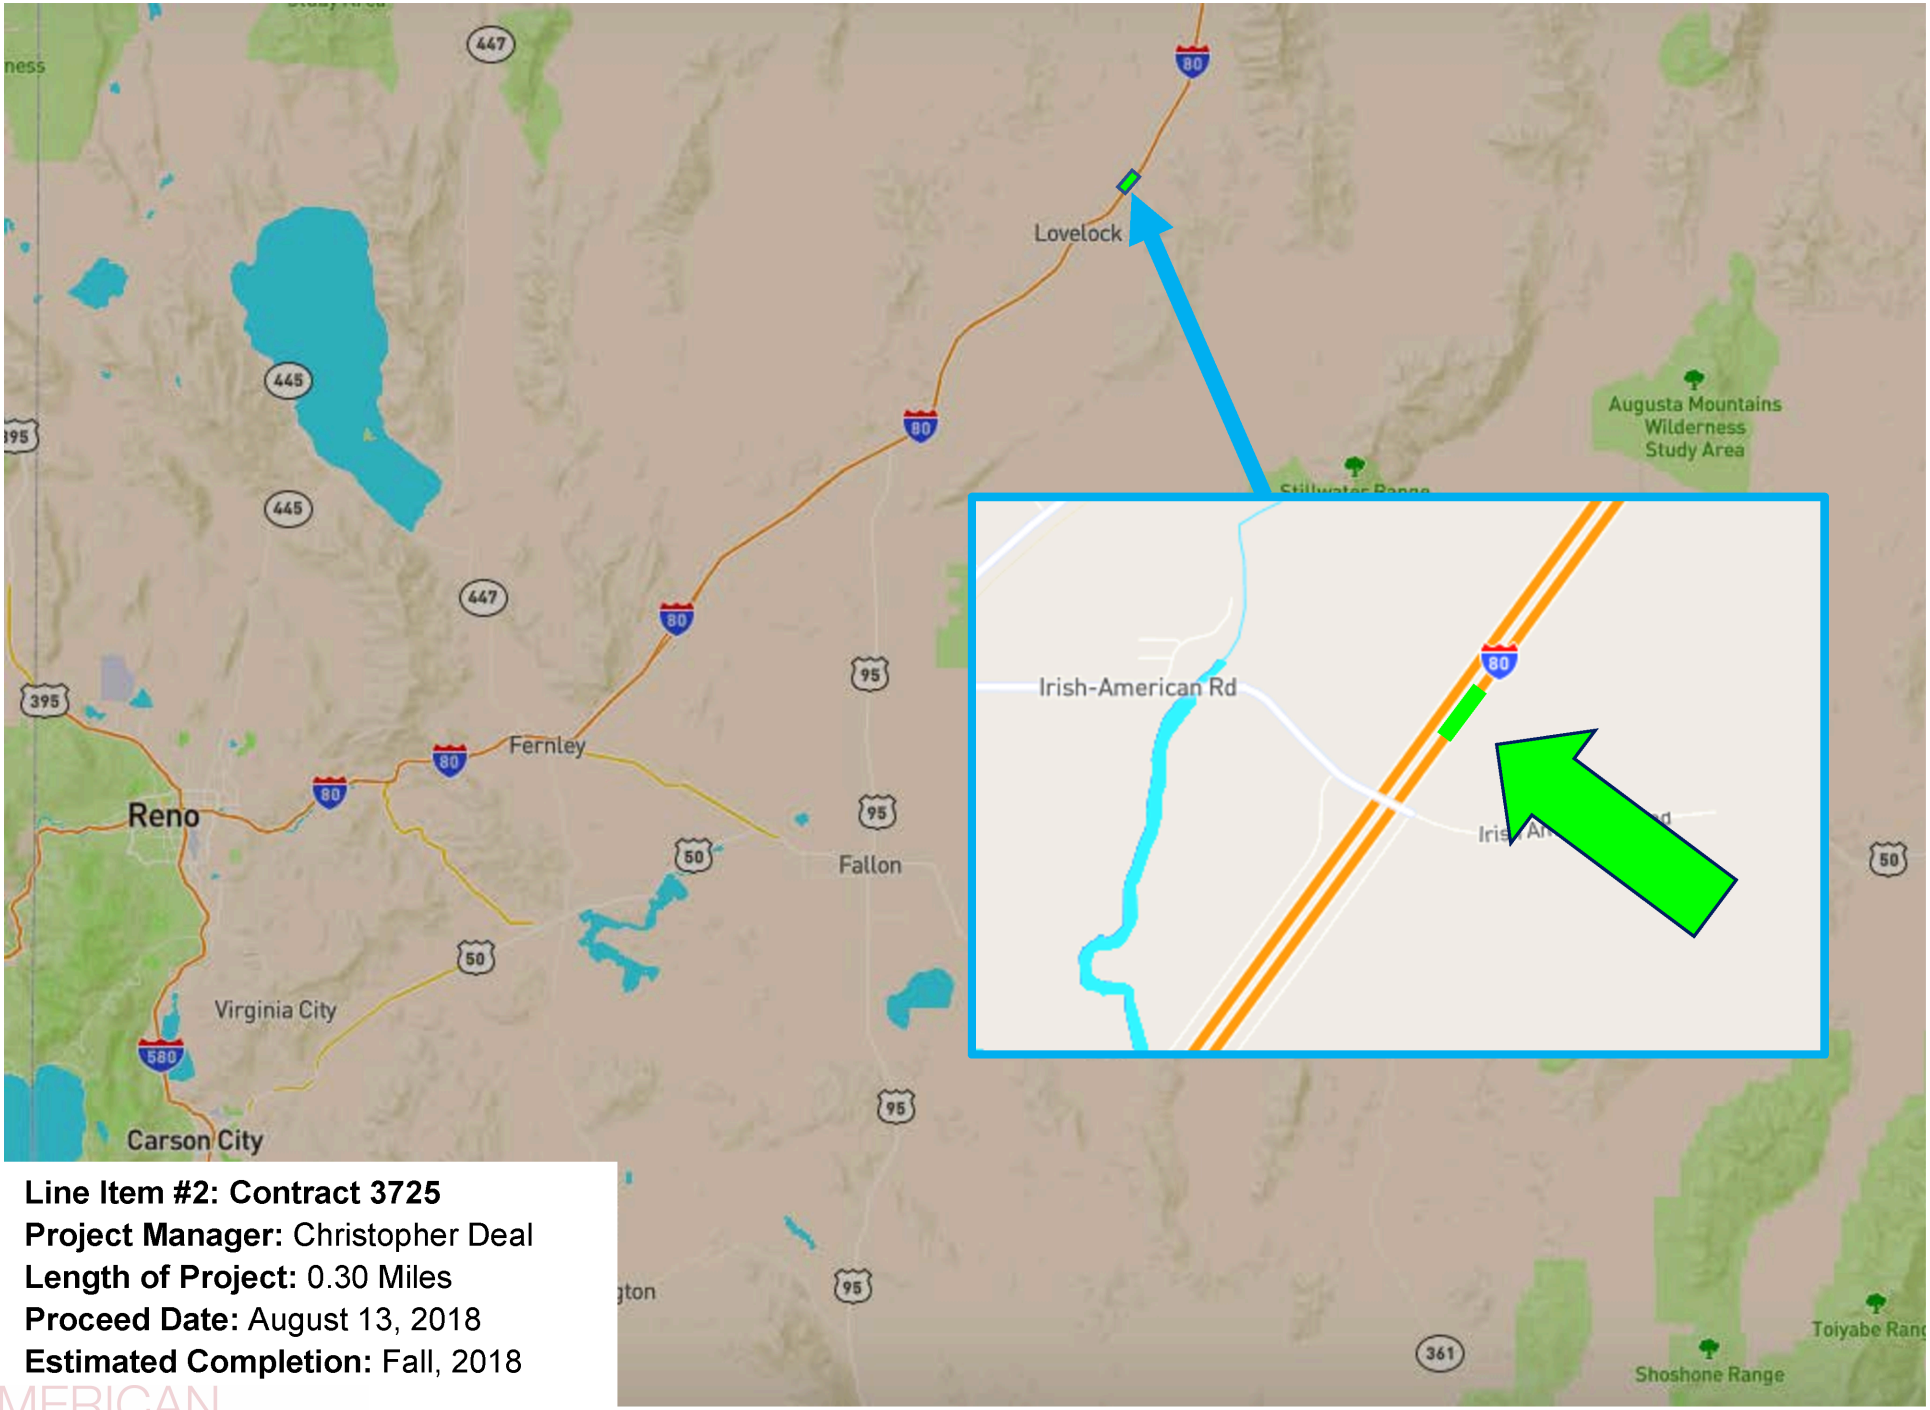
VSS International, Inc.	$349,205.05
Intermountain Slurry Seal, Inc.	$378,378.00
Sierra Nevada Construction, Inc.	$384,007.00
Engineer's Estimate	$519,475.99



The Director awarded the contract on July 17, 2018, to VSS International, Inc. in the amount of $349,205.05.

7. June 28, 2018 at 3:00 PM the following bids were opened for Contract 3732, Project No. SPF-093-5(024), on US 93, in Elko County, for chip seal with seal coat.

VSS International, Inc.	$1,827,000.00
Intermountain Slurry Seal, Inc.	$1,995,994.00
Sierra Nevada Construction, Inc.	$2,044,007.00
Engineer's Estimate	$1,601,023.65



The Director awarded the contract on July 17, 2018, to VSS International, Inc. in the amount of $1,827,000.00.

MEMORANDUM

August 1, 2018

TO: **Department of Transportation Board of Directors**

FROM: **Rudy Malfabon, Director**

SUBJECT: **July 9, 2018 Transportation Board of Directors Meeting**

Item #7 : **Disposal of NDOT right-of-way, a strip of land between IR-580 and US-395A, north of the Winters Ranch Interchange, in the County of Washoe, State of Nevada**

SUR 16-11 – For board approval

Summary:

Approval is requested from the Department of Transportation Board of Directors to dispose of the above referenced right-of-way by Direct Sale. The right-of-way parcel to be sold is a strip of land between IR-580 and US-395A, north of the Winters Ranch Interchange, in the County of Washoe, State of Nevada referenced as Parcel U-395-WA-007.758 XS1. It is an improved parcel consisting of 2.56 acres as further depicted on the attached sketch map marked Exhibits "A" and "B".

Background:

The Department originally acquired this parcel in fee on November 9, 1989, as part of Project QF-395-2(17). The project is now complete and operational; therefore, the Department no longer requires the surplus parcel.

In 2016, Dennis & Penny Sayan contacted the Department to request a sale of the property for the development of their property. The Surplus Property Committee met on November 29, 2016 and determined that the surplus property could be sold through a Direct Sale.

Analysis:

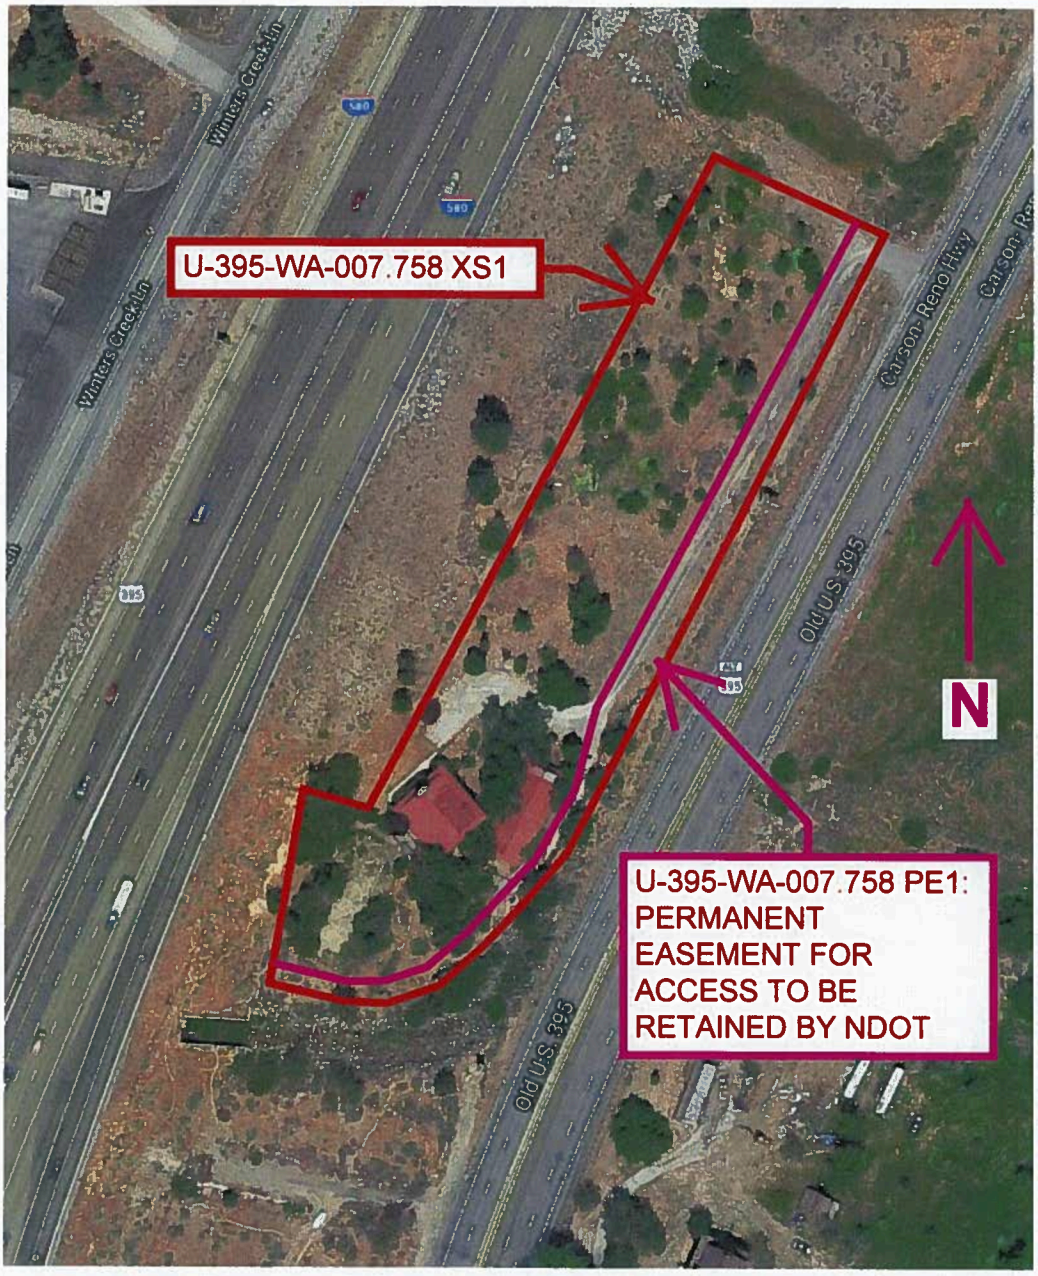
The Department has completed an appraisal of the surplus property, to obtain fair market value, as required by N.R.S. 408.533. The value for Parcel U-395-WA-007.758 XS1 has been set at $150,000.00. The Direct Sale will benefit the State in potential revenue and the elimination of liability and maintenance responsibilities. The release of NDOT's interest in this parcel is being made in accordance with N.R.S. 408.533.

AMERICAN OVERSIGHT

List of Attachments:

1. Location Map
2. Sketch Map depicted as Exhibits "A" and "B"
3. Copy of the Intent to Purchase (Form 894-C)
4. Environmental Approval
5. N.R.S. 408.533

Recommendation for Board Action:



Approval of the disposal of NDOT right-of-way, a strip of land between IR-580 and US-395A, north of the Winters Ranch Interchange, in the County of Washoe, State of Nevada

Prepared by: Ruth Borrelli, Chief R/W Agent

DIRECT SALE INTENT TO PURCHASE
Nevada Department of Transportation

This direct sale payment is for the purchase of the above-referenced real property, as described by the legal description attached hereto.

The undersigned purchaser hereby agrees to pay to the Nevada Department of Transportation, $ 150,000.00 as the full purchase price for said property, to be paid in a lump sum payment, without interest, on or before 90 Days from the Transportation Board approval date.

All terms and conditions of the Department of Transportation's procedures for a direct sale under Nevada Revised Statue 408.533 are hereby specifically incorporated by reference into the terms of this direct sale.

The property will be conveyed by Quitclaim Deed.

The name on the deed is to be as follows:

Purchaser may take possession of the property upon receipt of the recorded Quitclaim Deed, or upon other written notice from the Department of Transportation, if applicable.

All notices pertaining to matters arising in connection with this transaction may be made to purchaser in person or by registered mail addressed as follows:

AMERICAN OVERSIGHT

NRS 408.533 Disposal of property.

1. All real property, interests therein or improvements thereon and personal property acquired before, on or after April 1, 1957, in accordance with the provisions of NRS 408.487 and 408.489 must, after approval by the Board and if no longer needed for highway purposes, be disposed of by the Director in accordance with the provisions of subsection 2, except that:

(a) When the property was originally donated to the State, no charge may be made if it is returned to the original owner or to the holder of the reversionary right.

(b) When the property has been wholly or partially paid for by towns, cities or counties, disposal of the property and of money received therefor must be agreed upon by the governing bodies of the towns, cities and counties and the Department.

(c) When the title to the real property has been acquired in fee pursuant to NRS 408.487 and 408.489 and, in the opinion of the Board, a sale by means of a public auction or sealed bids is uneconomical or impractical because:

(1) There is no access to the property;

(2) The property has value or an increased value only to a single adjoining property owner; or

(3) Such a sale would work an undue hardship upon a property owner as a result of a severance of the property of that owner or a denial of access to a public highway,

the Board may enter into a direct sale of the property with such an owner or any other person for its fair market value.

(d) When the property has been acquired and the property or any portion of the property is no longer needed for highway purposes, the Department shall give notice of its intention to dispose of the property by publication in a newspaper of general circulation in the county where the property is situated. The notice must include the Department's appraisal of the fair market value of the property. Any person from whom the property was purchased or his heir or grantee may purchase the property at its fair market value by direct sale from the Department within 60 days after the notice is published. If more than one person qualified to purchase the property by direct sale pursuant to this paragraph so requests, the person with the superior claim, as determined by the Department in its sole discretion, is entitled to purchase the property by direct sale. If a person who is entitled to purchase the property by direct sale pursuant to this paragraph reasonably believes that the Department's appraisal of the property is greater than the fair market value of the property, the person may file an objection to the appraisal with the Department. The Department shall set forth the procedure for filing an objection and the process under which a final determination will be made of the fair market value of the property for which an objection is filed. The Department shall sell the property in the manner provided in subsection 2 if:

(1) No person requests to purchase the property by direct sale within 60 days after the notice is published pursuant to this paragraph; or

(2) A person who files an objection pursuant to this paragraph fails, within 10 business days after he receives a written notice of the final determination of the fair market value of the property, to notify the Department in writing that he wishes to purchase the property at the fair market value set forth in the notice.

(e) When the property is sought by another public agency for a reasonable public use, the Department may first offer the property to the public agency at its fair market value.

2. All property, interests or improvements not included within the provisions of subsection 1 must first be offered for sale by the Department singly or in combination at public auction or by sealed bids. If the highest bid received is 90 percent or more of the Department's appraisal of the fair market value of the property, the property may be sold to the highest bidder. The notice and the terms of the sale must be published in a newspaper of general circulation in the county where the property is situated. The auctions and openings of bids must be conducted by the Department. If the property cannot be sold for 90 percent or more of its fair market value, the Department may enter into a written listing agreement with a person licensed pursuant to chapter 645 of NRS to sell or lease the property for 90 percent or more of its fair market value.

3. It is conclusively presumed in favor of the Department and any purchaser for value that the Department acted within its lawful authority in acquiring and disposing of the property, and that the Director acted within his lawful authority in executing any conveyance vesting title in the purchaser. All such conveyances must be quitclaim in nature and the Department shall not warrant title, furnish title insurance or pay the tax on transfer of real property.

4. No person has a right of action against the Department or its employees for a violation of this section. This subsection does not prevent an action by the Attorney General on behalf of the State of Nevada or any aggrieved person.

5. All sums of money received by the Department for the sale of real and personal property must be deposited with the State Treasurer to be credited to the State Highway Fund, unless the Federal Highway Administration participated in acquisition of the property, in which case a pro rata share of the money obtained by disposal of the property must be paid to the Federal Highway Administration.

6. The Department may reserve and except easements, rights or interests from the conveyance of any real property disposed of in accordance with this section or exchanged pursuant to subsection 5 of NRS 408.489. The easements, rights or interests include, but are not limited to:

(a) Abutter's rights of light, view or air.

(b) Easements of access to and from abutting land.

(c) Covenants prohibiting the use of signs, structures or devices advertising activities not conducted, services not rendered or goods not produced or available on the real property.

(Added to NRS by 1957, 693; A 1959, 599; 1963, 978; 1967, 1743; 1971, 140; 1979, 1781; 1985, 707; 1987, 1812; 1989, 1308; 1991, 1691; 1995, 1140; 2001, 2132)

MEMORANDUM

August 1, 2018

TO: **Department of Transportation Board of Directors**

FROM: **Rudy Malfabon, Director**

SUBJECT: **August 13, 2018 Transportation Board of Directors Meeting**

Item # 8 : **Disposal of a portion of NDOT right-of-way located on SR-604 (Las Vegas Boulevard) at SR-593 (Tropicana Avenue), County of Clark, State of Nevada.**

RT18-01A1 – For Board Approval

Summary:

Approval is requested from the Department of Transportation Board of Directors to dispose of the above-referenced right-of-way by Resolution of Relinquishment. The right-of-way parcel to be relinquished is a portion of NDOT right-of-way located on SR-604 (Las Vegas Boulevard) at SR-593 (Tropicana Avenue), County of Clark, State of Nevada. The parcel is currently improved with roadbed and pedestrian bridges consisting of approximately 2.89 acres as depicted on the attached sketch maps labeled Exhibit "A" and "B".

Background:

Between the years 1938 and 2006, the Department acquired the property in fee from various property owners for highway purposes for projects CM-593(2), I-015-1(6)28 and IR-015-1(81)37.

Clark County consented by resolution passed and adopted on June 5, 2018, to the Department's relinquishment of right-of-way located on SR-604 (Las Vegas Boulevard) at SR-593 (Tropicana Avenue), County of Clark, State of Nevada.

Analysis:

On January 16, 2018, the Department entered into a Cooperative Agreement with Clark County to relinquish ownership of the right-of-way which is no longer required for highway purposes. This transfer will be a benefit to the Department with the elimination of all liability and future maintenance responsibilities. The release of NDOT's interest in this parcel is being made in accordance with NRS 408.527.

AMERICAN OVERSIGHT

right-of-way for a portion of SR-604 (Las Vegas Blvd.), extending from Highway Engineer's Station "X" 524+33.68 P.O.T. to Highway Engineer's Station "X" 530+63.68 P.O.T.; and

WHEREAS, said right-of-way is delineated and identified as Parcel S-604-CL-000.000 RT1 on EXHIBITS "A" and "B", attached hereto and made a part hereof; and

WHEREAS, as set forth in NRS 408.527, the Nevada Department of Transportation may, by resolution of the board, relinquish to cities and counties any portion of any state highway which has been superseded by relocation or which the Department determines exceeds its needs; and

WHEREAS, said right-of-way is of no further contemplated use by the Department due to that portion of SR-604 being in excess of its needs; and

WHEREAS, the County of Clark has requested the relinquishment of aforesaid portion of highway for the purpose of a transportation facility; and

WHEREAS, the County of Clark has agreed to accept the relinquishment of said right-of-way for the aforesaid portion of SR-604 together with any and all revocable leases and licenses entered into between the Department and the adjoining owners for the multiple use of the right-of-way; and

WHEREAS, the County of Clark entered into an agreement with the Department on January 16, 2018, to accept the hereinafter described designated road as a part of the County of Clark road system; and

WHEREAS, the Board of County Commissioners of Clark County, State of Nevada, consented by resolution passed and adopted on June 5, 2018, to the Department relinquishing the aforesaid portion of said road to the County of Clark; and

WHEREAS, NRS 408.527 provides that the Department of Transportation may relinquish any portion of a state highway which has been superseded by relocation or which the Department determines exceeds its needs after the Department and the city or county have

AMERICAN OVERSIGHT

entered into an agreement and the city or county legislative body has adopted a resolution consenting thereto.

THEREFORE, it is hereby determined by the Board of Directors of the Nevada Department of Transportation, State of Nevada, that the following described right-of-way and incidents thereto, being all that land, delineated and identified as Parcel S-604-CL-000.000 RT1 on EXHIBITS "A" and "B", attached hereto and made a part hereof, is hereby relinquished to the County of Clark of the State of Nevada. Said right-of-way is described as follows: Situate, lying and being in the County of Clark, State of Nevada, and more particularly described as being a portion of the SE 1/4 of the SE 1/4 of Section 20, a portion of the SW 1/4 of the SW 1/4 of Section 21, a portion of the NW 1/4 of the NW 1/4 of Section 28, and a portion of the NE 1/4 of the NE 1/4 of Section 29, all in T. 21 S., R. 61 E., M.D.M., more fully described as follows:

> Being all that portion of SR-604 (Las Vegas Blvd.) lying within said Sections, beginning at the southerly right-of-way line of SR-604 at Highway Engineer's Station "X" 524+33.68 P.O.T., extending northerly a distance of 630 feet to the northerly right-of-way line of SR-604 at Highway Engineer's Station "X" 530+63.68 P.O.T.
>
> Said parcel further described as being all that portion of SR-604 (Las Vegas Blvd.) between Highway Engineer's Station "A" 880+70.00 P.O.T. and Highway Engineer's Station "A" 887+00.00 P.O.T. as described in that certain Resolution of Relinquishment filed for record on October 16, 2003, as Instrument 20031016-04078, Official Records, Clark County, Nevada.
>
> EXCEPTING THEREFROM any and all water rights appurtenant to said parcel.
>
> SUBJECT TO any and all existing easements whether of record or not.

The Basis of Bearing for this description is the NEVADA STATE PLANE COORDINATE SYSTEM, NAD 83/94 DATUM, East Zone, as determined by the State of Nevada, Department of Transportation.

AMERICAN OVERSIGHT

It is the intent of the Department to relinquish to the County of Clark all of the Department's right, title and interest in and to the aforesaid described right-of-way as shown on EXHIBITS "A" and "B", attached hereto and made a part hereof.

MEMORANDUM

Environmental Services Division

April 2, 2018

To: Diana Callahan, Staff Specialist, Acquisitions, Right-of-Way

From: Steve M. Cooke, PE, Chief, Environmental Services

Subject: Environmental Clearance for Transportation Board
Surplus No.: RT 18-01 A1
Project: No Given
EAs: 71129, 71500, 71907
Road Transfer Parcel: S-604-CL-000.000 RT1
Description: SR604 (Las Vegas Blvd.) at SR593 (Tropicana Ave.)
Disposal of Right-of-Way by Relinquishment

The Environmental Services Division reviewed the requested action as presented in your memo dated March 21, 2018, and found it clear of any documented environmental concern for disposal.

NRS 408.527 Procedure for relinquishment of roadways; regulations.

1. Whenever the Department and the county or city concerned have entered into a written agreement providing therefor, and the legislative body of the county or city has adopted a resolution consenting thereto, the Board may relinquish to the county or city:

(a) Any portion of any state highway which has been deleted from the state highway system by legislative enactment; or

(b) Any portion of any state highway which has been superseded by relocation or which the Department determines exceeds its needs.

2. Whenever the county or city concerned and the Department have entered into a written agreement providing therefor, and the Board has adopted a resolution consenting thereto, the county or city may relinquish to the Department any portion of any county or city road which the Department agrees qualifies to join the state highway system.

3. By resolution of the Board, the Department may upon request relinquish to the Division of State Lands of the State Department of Conservation and Natural Resources for the public use of another state agency any portion of any state highway which has been superseded by relocation or which the Department determines exceeds its needs.

4. Relinquishment must be made by a resolution. A certified copy of the resolution must be filed with the legislative body of the county or city concerned. The resolution must be recorded in the office of the county recorder of the county where the land is located and, upon recordation, all right, title and interest of the State in and to that portion of any state highway vests in the county, city or division, as the case may be.

5. Nothing in NRS 408.523 limits the power of the Board to relinquish abandoned or vacated portions of a state highway to a county, city or the Division.

6. If the Board relinquishes property pursuant to subsection 5, and the purpose for which the property was relinquished is abandoned or ceases to exist, then, absent an agreement or a provision of law to the contrary, and regardless of the interest of the Department in the property before it was relinquished, all right, title and interest in the property shall vest in the county, city or Division without reversion to the Department.

7. The Board may accept from a county or city any portion of any county or city road which has changed in function such that it has risen to the level of functioning as a state highway. Such a road may be traded for any portion of any state highway relinquished by the Department or accepted by the Department after equitable compensation or trade values have been negotiated and agreed to in writing.

8. A county or city may accept from the Department any portion of any state highway which no longer functions to support the state highway system and which exceeds the needs of the Department. Such a highway may be traded for any portion of any county or city road relinquished by the county or city or accepted by the county or city after equitable compensation or trade values have been negotiated and agreed to in writing.

9. Any portion of a state highway or county or city road that is relinquished or traded pursuant to this section must be placed in good repair, or the parties must establish and agree in writing to equitable monetary compensation. If any highways or roads, or portions thereof, to be relinquished or traded are not of comparable value, the parties must negotiate and agree in writing to equitable monetary compensation or equitable trade considerations.

10. The Department, in cooperation with local governments, shall adopt regulations governing procedural documents that address the process by which highways and roads are relinquished.

11. The vesting of all right, title and interest of the Department in and to portions of any state highways relinquished previously by the Department in the city, county or state agency to which it was relinquished is hereby confirmed.

(Added to NRS by 1960, 68; A 1983, 338; 1987, 1102, 1812; 1989, 1308; 1991, 1173; 2013, 1844)

MEMORANDUM

August 1, 2018

TO: **Department of Transportation Board of Directors**

FROM: **Rudy Malfabon, P.E., Director**

SUBJECT: **August 13, 2018 Transportation Board of Directors Meeting**

ITEM #9: **Discussion of the Fiscal Year 2019 NDOT Work Program and the 2019-2022 DRAFT Statewide Transportation Improvement Program – Informational item only.**

Summary:

This agenda item is to brief you on the DRAFT FFY19-FFY22 Statewide Transportation Improvement Program (STIP) and DRAFT 2019 NDOT Work Program currently out for public comment. NDOT staff has spent the last twelve months working with federal and regional agencies, local governments, and planning boards to develop these planning and program documents.

Statewide Transportation Improvement Program (STIP), FFY2019-FFY2022
Work Program (WP), FY 2019
Short Range Element (SRE), FY 2020-2022
Long Range Element (LRE), FY 2023 and Beyond

Following consultations with Nevada's seventeen counties and the thirty-day public comment period the STIP is then submitted to the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA) for approval and to the Environmental Protection Agency (EPA) for consultation. The State Transportation Board will approve the 2019 WP at the September board meeting.

Background:

The STIP lists all capital and non-capital transportation projects proposed for federal transportation funding or are considered regionally significant. These projects improve the capacity, condition, operations and safety of Nevada's transportation system, such as increasing the number of lanes, constructing new roads, road extensions, and intersection improvements along with the Department Maintenance Program. It also includes transit, rail, pedestrian walkway, and bicycle facility projects.

The Department is required to include, without change, all projects listed in the Metropolitan Planning Organization's (MPO) approved Regional Transportation Improvement Program (RTIP) following review by NDOT staff and approval by the NDOT Director. All other projects

AMERICAN OVERSIGHT

outside of the MPOs are included in the Non MPO portion of the STIP, thus capturing all federal funded and regionally significant projects over the four-year period.

The STIP is approved by the Governor's Designee (Director of the Department of Transportation) and submitted to the FHWA, FTA for approval and the EPA for consultation.

The Work Program (WP) lists the projects the Department intends to work on during the current fiscal year (Annual Work Program), proposed projects for short term (Short Range Element 2020-2022) and proposed projects outside of that time frame. This document satisfies Nevada Revised Statue (NRS 408.203) requiring the Director of NDOT to submit a four and ten-year list of transportation projects to the State Legislative Council Bureau every even year and the State Legislature every odd year. The WP lists projects that the Department plans to complete using state resources, in addition to the federal funds as outlined in the four-year STIP.

NDOT will submit these planning documents to the State Legislature/Legislative Council Bureau following the State Transportation Board acceptance/approval and FHWA and FTA for approval of the STIP portion.

As part of the Department's public participation process, staff met with the 14 rural County Commissions and is planned to present to Nevada's MPOs during the month of August to present the proposed FY 2019 Work Program.

Recommendation for Board Action:

Informational Item Only.

AMERICAN OVERSIGHT

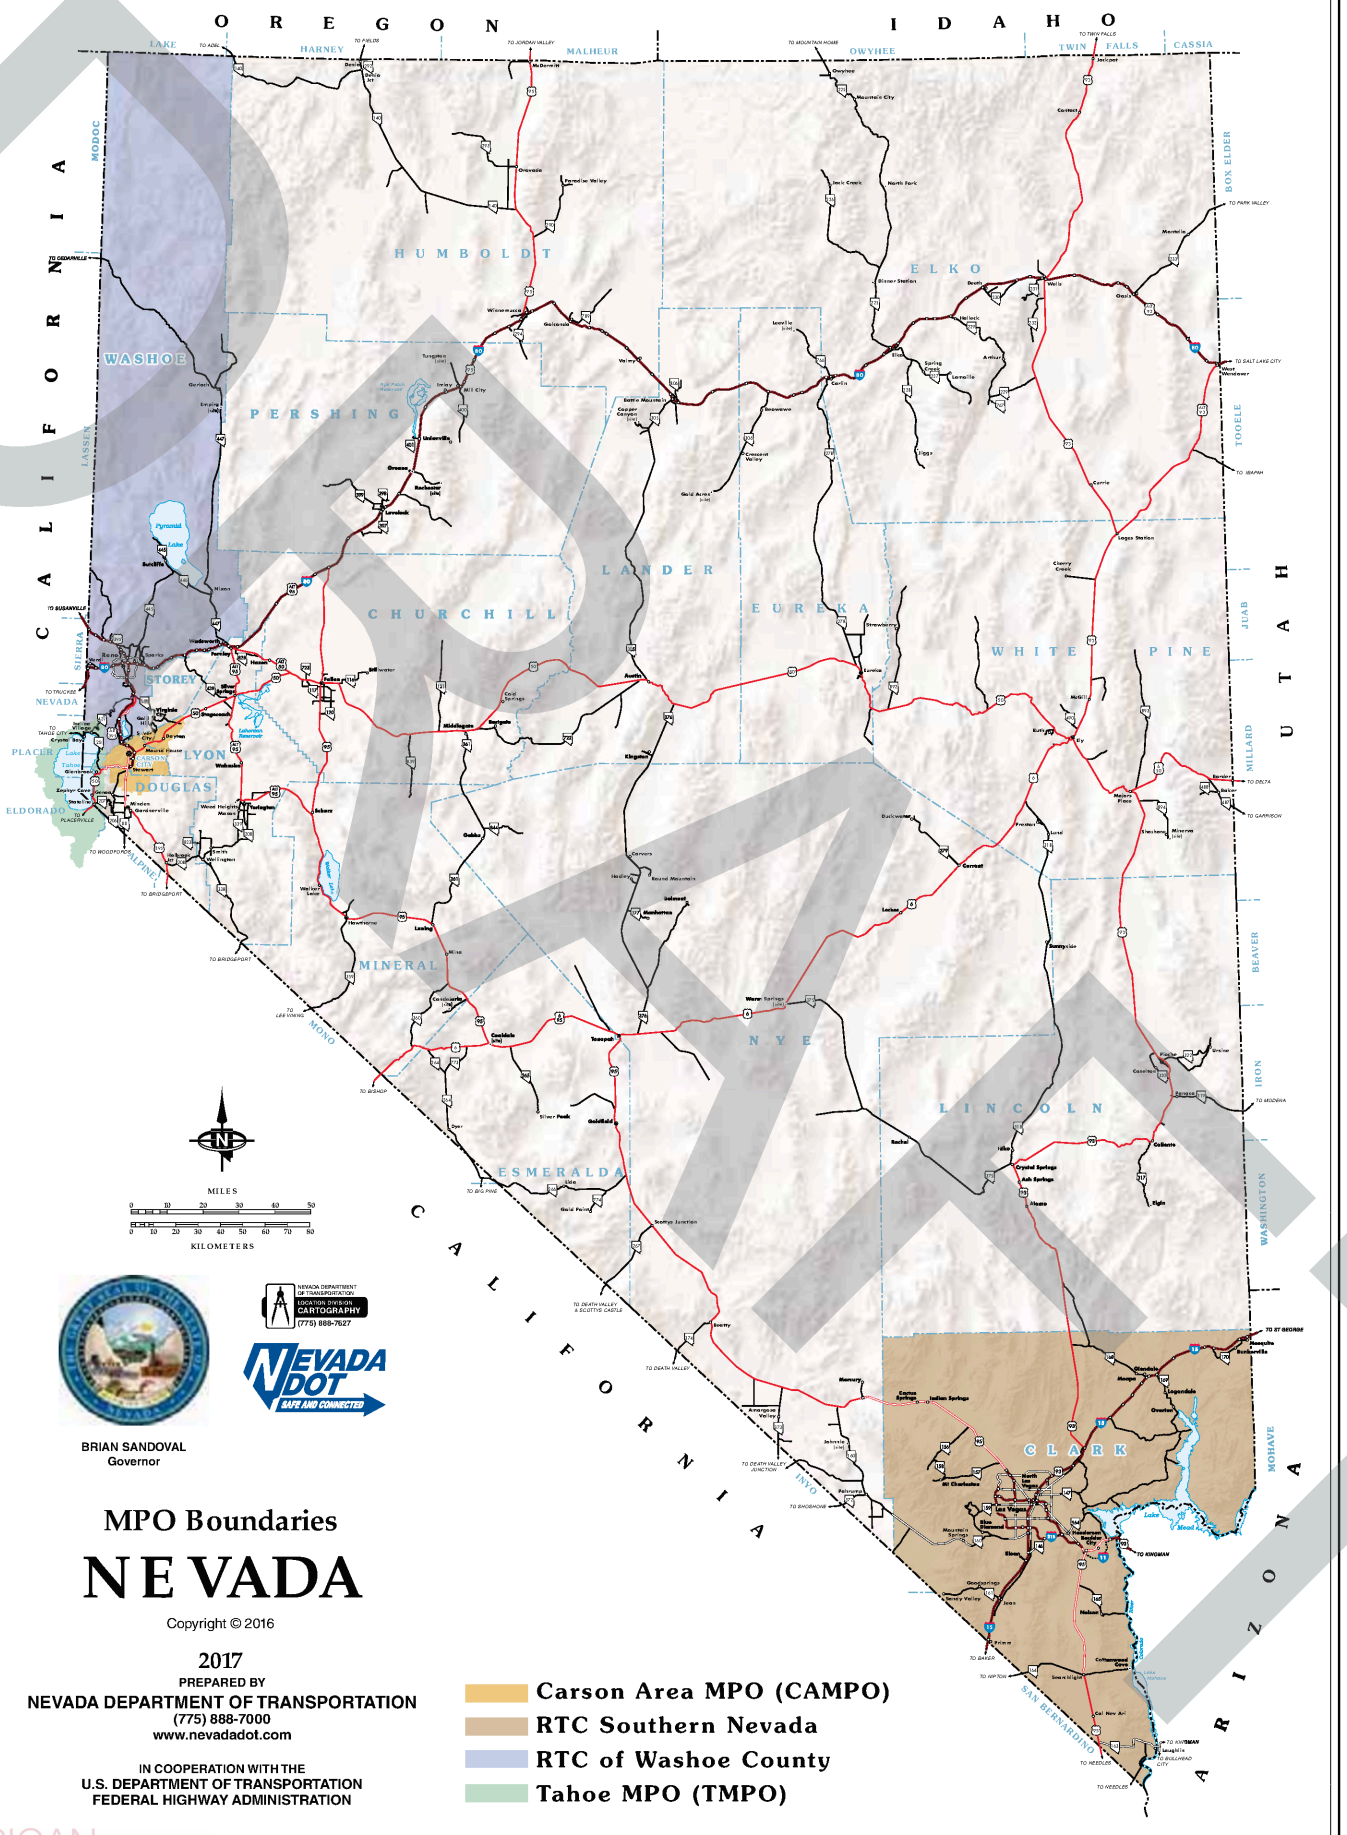
Statewide Transportation Improvement Program (STIP)

The Statewide Transportation Improvement Program (STIP) is the state's transportation capital improvement program. Federally funded and regionally significant projects across the state are included in the STIP. The Nevada Department of Transportation (NDOT) STIP is a four-year plan and includes funding levels by year for project obligation and is fiscally constrained. Federal Highway Administration (FHWA) Federal Transit Administration (FTA) approves the STIP. The STIP is required to be updated a minimum of every four years, NDOT produces a yearly STIP.

Metropolitan Planning Organization (MPO)

A Metropolitan Planning Organization (MPO) are required to represent localities in all urbanized areas with population over 50,000 as determined by the U.S. Census. MPOs are designated by agreement between the governor and local governments that together represent at least 75 percent of the affected population or in accordance with procedures established by applicable state or local law.



An urbanized area with a population over 200,000 as defined by the Bureau of the Census and designated by the Secretary of the U.S. Department of Transportation is called a Transportation Management Area (TMA).

MPOs and TMAs are required to develop a Transportation Improvement Program (TIP), a list of funded transportation projects covering a minimum of four years. The TIP is developed and formally adopted by an MPO/TMA as part of the metropolitan transportation planning process and require projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53. Once a TIP has been approved by the MPO, it shall be included in the STIP without modification or by reference. A TIP in a nonattainment or maintenance area is subject to FHWA/FTA conformity finding before inclusion in the STIP.

Nevada has four of these organizations in the state:

- **Regional Transportation Commission of Southern Nevada (RTCSNV)**: Administers MPO/TMA activities throughout Clark County
  - http://www.rtcsnv.com/
- **Regional Transportation Commission of Washoe County (RTCWA)**: Administers MPO/TMA activities throughout Washoe County
  - https://www.rtcwashoe.com/
- **Lake Tahoe Metropolitan Planning Organization (TMPO)**: Administers MPO/TMA activities throughout the Lake Tahoe Basin
  - http://www.trpa.org/transportation/
- **Carson Area Metropolitan Planning Organization (CAMPO)**: Administers metropolitan planning activities in Carson City and portions of Douglas and Lyon Counties
  - http://www/carspmareampo.com

DRAFT

AMERICAN OVERSIGHT

Projects Included in the STIP

- All capital and non-capital transportation projects (or phases of projects) within the boundaries of the State proposed for funding under Title 23 U.S.C. and Title 49 U.S.C. Chapter 53.
- Transportation Alternative
- Transit Improvements
- Tribal Transportation Projects
- Regionally Significant Projects

Projects Not Required in the STIP

- Metropolitan Planning Projects (MP)
- State Planning and Research (SPR)
- Emergency Relief (ER)
- National planning and research projects funded under 49 U.S.C. 5314
- Project management oversight projects funded under 49 U.S.C. 5327
- State/locally funded projects that are not deemed regionally significant

Regionally Significant

A regionally significant project is a transportation project (other than an exempt project) that is on a facility which serves regional transportation needs (such as access to and from the area outside of the region, major activity centers in the region, major planned developments such as new retail malls, sports complexes, or transportation terminals as well as most terminals themselves) and would normally be included in the modeling of a metropolitan area's transportation network, including a minimum all principal arterial highways and all fixed guide way transit facilities that offer an alternative to regional highway travel.

STIP Project Regulations

This STIP shall include for each project the following:

1. Phase of Work (preliminary engineering (PE), right-of-way (ROW), construction (Con) or Other (usually programs or inspections).
2. Descriptive material (type of work, termini) for each project
3. Estimated total project cost, by phase, by year (all funding per phase MUST be in a single year for obligation purposes)
4. Identification of the lead agency responsible for the project

STIP Formal and Administrative Amendments

Revisions to the STIP can be made throughout the year through a Formal Amendment and or an Administrative Modification defined as:

- **Formal Amendments are required for**:
  - addition or deletion of any project (if within a nonattainment area a conformity determination is required)
  - substantial changes to the scope of a project (changing number of lanes, changing the type of the project, change in project termini)
  - moving a project into or out of the first four years of the STIP/TIP (if within a nonattainment area a conformity determination is required)
  - change in a project total programmed amount greater than 40% or greater than $5,000,000
  - changes in a project's fund source from non-federal to federal

**This action also requires approval from the Governing Board, if within an MPO or TMA, approval of NDOT Director and approval from either FHWA or FTA (depending if the project is highway or transit).*

- **Administrative Amendment**:

Administrative Modifications are required for any revision that does not meet the criteria above such as:

  - changes in a federally funded project amount up to $5,000,000 but less than 40%
  - minor changes to the termini
  - adding or deleting a phase of a project without major changes to the scope of the project
  - moving projects between any of the fiscal years of the STIP/TIP
  - minor changes to funding sources
  - changing a project's lead agency
  - changes made to an existing projects amount of non-federal funds
  - adding a regionally significant project that does not require air quality conformity and uses 100% state or local funds
  - combining two or more projects already in the STIP/TIP if scope and funding stay overall intact

**An administrative modification does not require public review and comment or a conformity determination in nonattainment and maintenance areas. This action requires approval from the Executive Director, within an MPO or TMA, and approval of NDOT Director, Federal approval is not required.*

DRAFT

AMERICAN OVERSIGHT

Regionally significant means a project that is on a facility which serves regional transportation needs, such as a facility that provides access:

- From outside of the region
- To major activity centers in the region
- To major planned developments such as a new retail mall, sports complexes, etc.
- To transportation terminals

Such projects would normally be included in the modeling of a metropolitan area's transportation network, including as a minimum, all principal arterial highways and all fixed guideway transit facilities that offer a significant alternative to regional highway travel.

DRAFT

STIP/TIP Fiscal Constraint

Fiscal constraint is identified as having sufficient federal funds on a yearly basis to program projects in the STIP within budget. This is accomplished using committed, available, or reasonably available funds to support the transportation system to maintain operations, capital, and maintenance. Projects may only be included in the four years of the TIP/STIP if funds for those projects are “available” or “committed”.

Federal funding reflected in the STIP for projects is based on full apportionment by fund source as identified from the FHWA FMIS 10A report. All funding for projects is required to be identified by federal fund source, required matching source, by phase by year (all funding per phase MUST be in a single year for obligation purposes, spreading a phase across multiple years is not permittable per CFR 630.106 (a)(2)).

The cumulative total of State and Federal funds should not exceed the total of funds reasonably available to the State.

The outer years of fiscal constraint are inflated by 5% per the guidance in the FAST Act and are an estimate and subject to change. Funding amounts will be updated at the beginning of each active fiscal year with the year’s apportionment of funds as identified from the FHWA FMIS 10A report.

Fixing America's Surface Transportation Act "FAST Act" Overview

On December 4, 2015, President Obama signed into law Public Law 114-94, the Fixing America's Surface Transportation Act (FAST Act). The FAST Act funds surface transportation programs—including, but not limited to, Federal-aid highways—at over $305 billion for fiscal years (FY) 2016 through 2020. It is the first long-term surface transportation authorization enacted in a decade that provides long-term funding certainty for surface transportation. This summary reviews the policies and programs of the FAST Act administered by the Federal Highway Administration (FHWA).

The Moving Ahead for Progress in the 21st Century Act (MAP-21), enacted in 2012, included provisions to make the Federal surface transportation more streamlined, performance-based, and multimodal, and to address challenges facing the U.S. transportation system, including improving safety, maintaining infrastructure condition, reducing traffic congestion, improving efficiency of the system and freight movement, protecting the environment, and reducing delays in project delivery. The FAST Act builds on the changes made by MAP-21.

Setting the course for transportation investment in highways, the FAST Act—

- *Improves mobility on America's highways*

  The FAST Act establishes and funds new programs to support critical transportation projects to ease congestion and facilitate the movement of freight on the Interstate System and other major roads. Examples include developing a new National Multimodal Freight Policy, apportioning funding through a new National Highway Freight Program, and authorizing a new discretionary grant program for Nationally Significant Freight and Highway Projects (FASTLANE Grants).

- *Creates jobs and supports economic growth*

  The FAST Act authorizes $226.3 billion in Federal funding for FY 2016 through 2020 for road, bridge, bicycling, and walking improvements. In addition, the FAST Act includes a number of provisions designed to improve freight movement in support of national goals.

- *Accelerates project delivery and promotes innovation*

  Building on the reforms of MAP-21 and FHWA's Every Day Counts initiative, the FAST Act incorporates changes aimed at ensuring the timely delivery of transportation projects. These changes will improve innovation and efficiency in the development of projects, through the planning and environmental review process, to project delivery.

Federal Highway Administration Funded Programs Overview

National Highway Performance Program	The National Highway Performance Program (NHPP) supports the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a State's asset management plan.
NHPP	
95/5	
±$193M	

Surface Transportation Block Grant Program	The FAST Act converted the long-standing Surface Transportation Program (STP) into the Surface Transportation Block Grant Program (STBG). STBG has the most flexible eligibilities among all Federal-aid Highway programs; it can be used for highway, transit, bicycle, pedestrian and other transportation projects. The STBG promotes flexibility in state and local transportation decisions and provides funding to best address transportation needs. This fund source is sub allocated to the State, TMAs and other population designations across the state.
STBG	
95/5	
±$108M	

**Please note estimated total is before federally required sub allocation set aside formula*

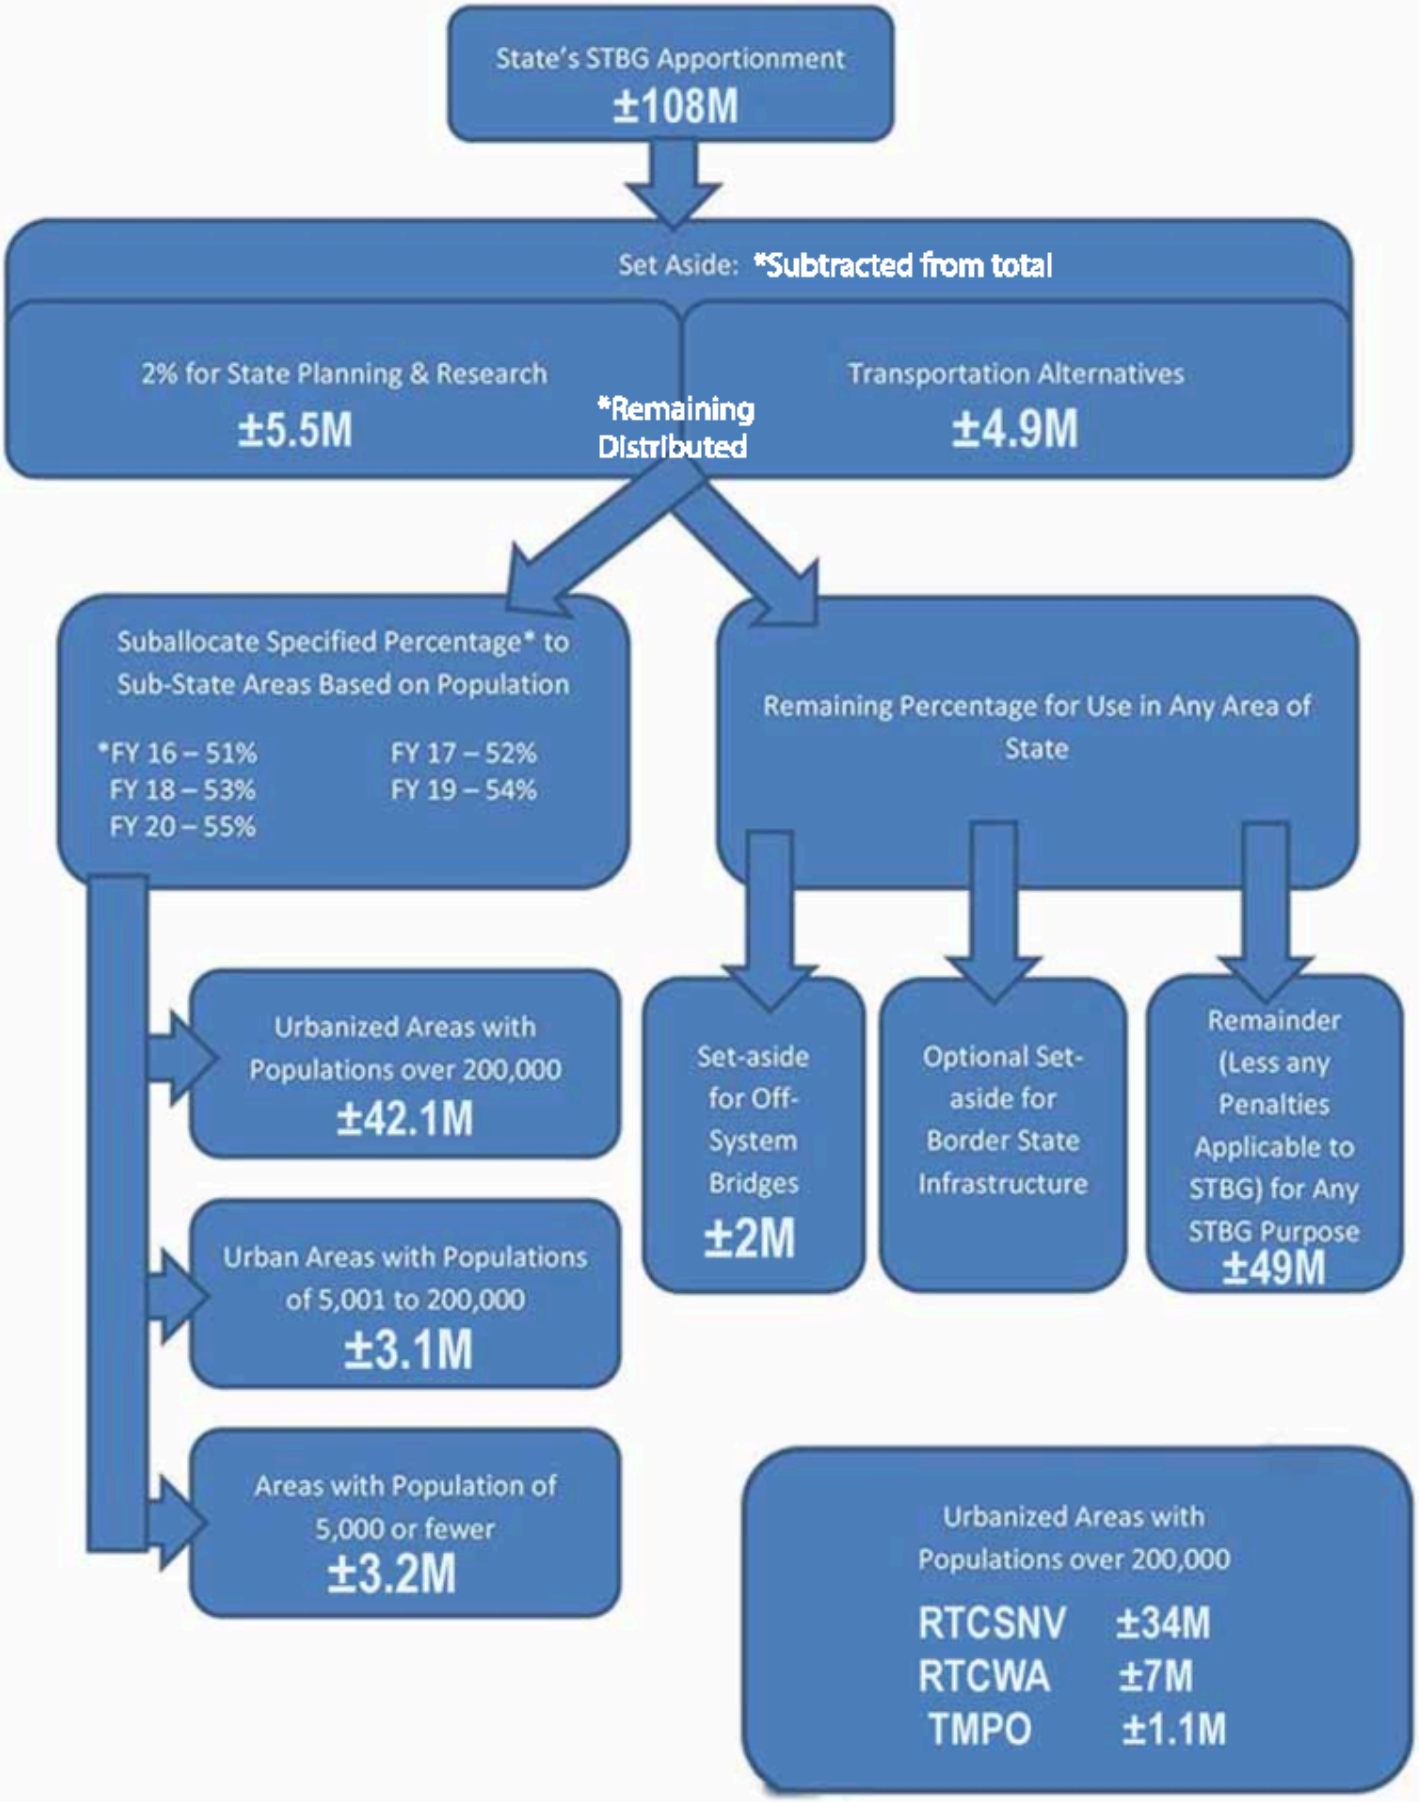
National Highway Freight Program	The FAST Act establishes a new National Highway Freight Program, funded by FHWA, ($49 million) to improve the efficient movement of freight on the National Highway Freight Network (NHFN). This program supports several goals, including: • Investing in infrastructure and operational improvements that strengthen economic competitiveness, reduce congestion, reduce the cost of freight transportation, improve reliability, and increase productivity; • Improving the safety, security, efficiency, and resiliency of freight transportation in rural and urban areas; • Improving the state of good repair of the NHFN; • Using innovation and advanced technology to improve NHFN safety, efficiency, and reliability; • Improving the efficiency and productivity of the NHFN; • Improving State flexibility to support multi-State corridor planning and address highway freight connectivity; and Reducing the environmental impacts of freight movement on the NHFN.
HWY Freight	
95/5	
±$11M	

DRAFT

AMERICAN OVERSIGHT

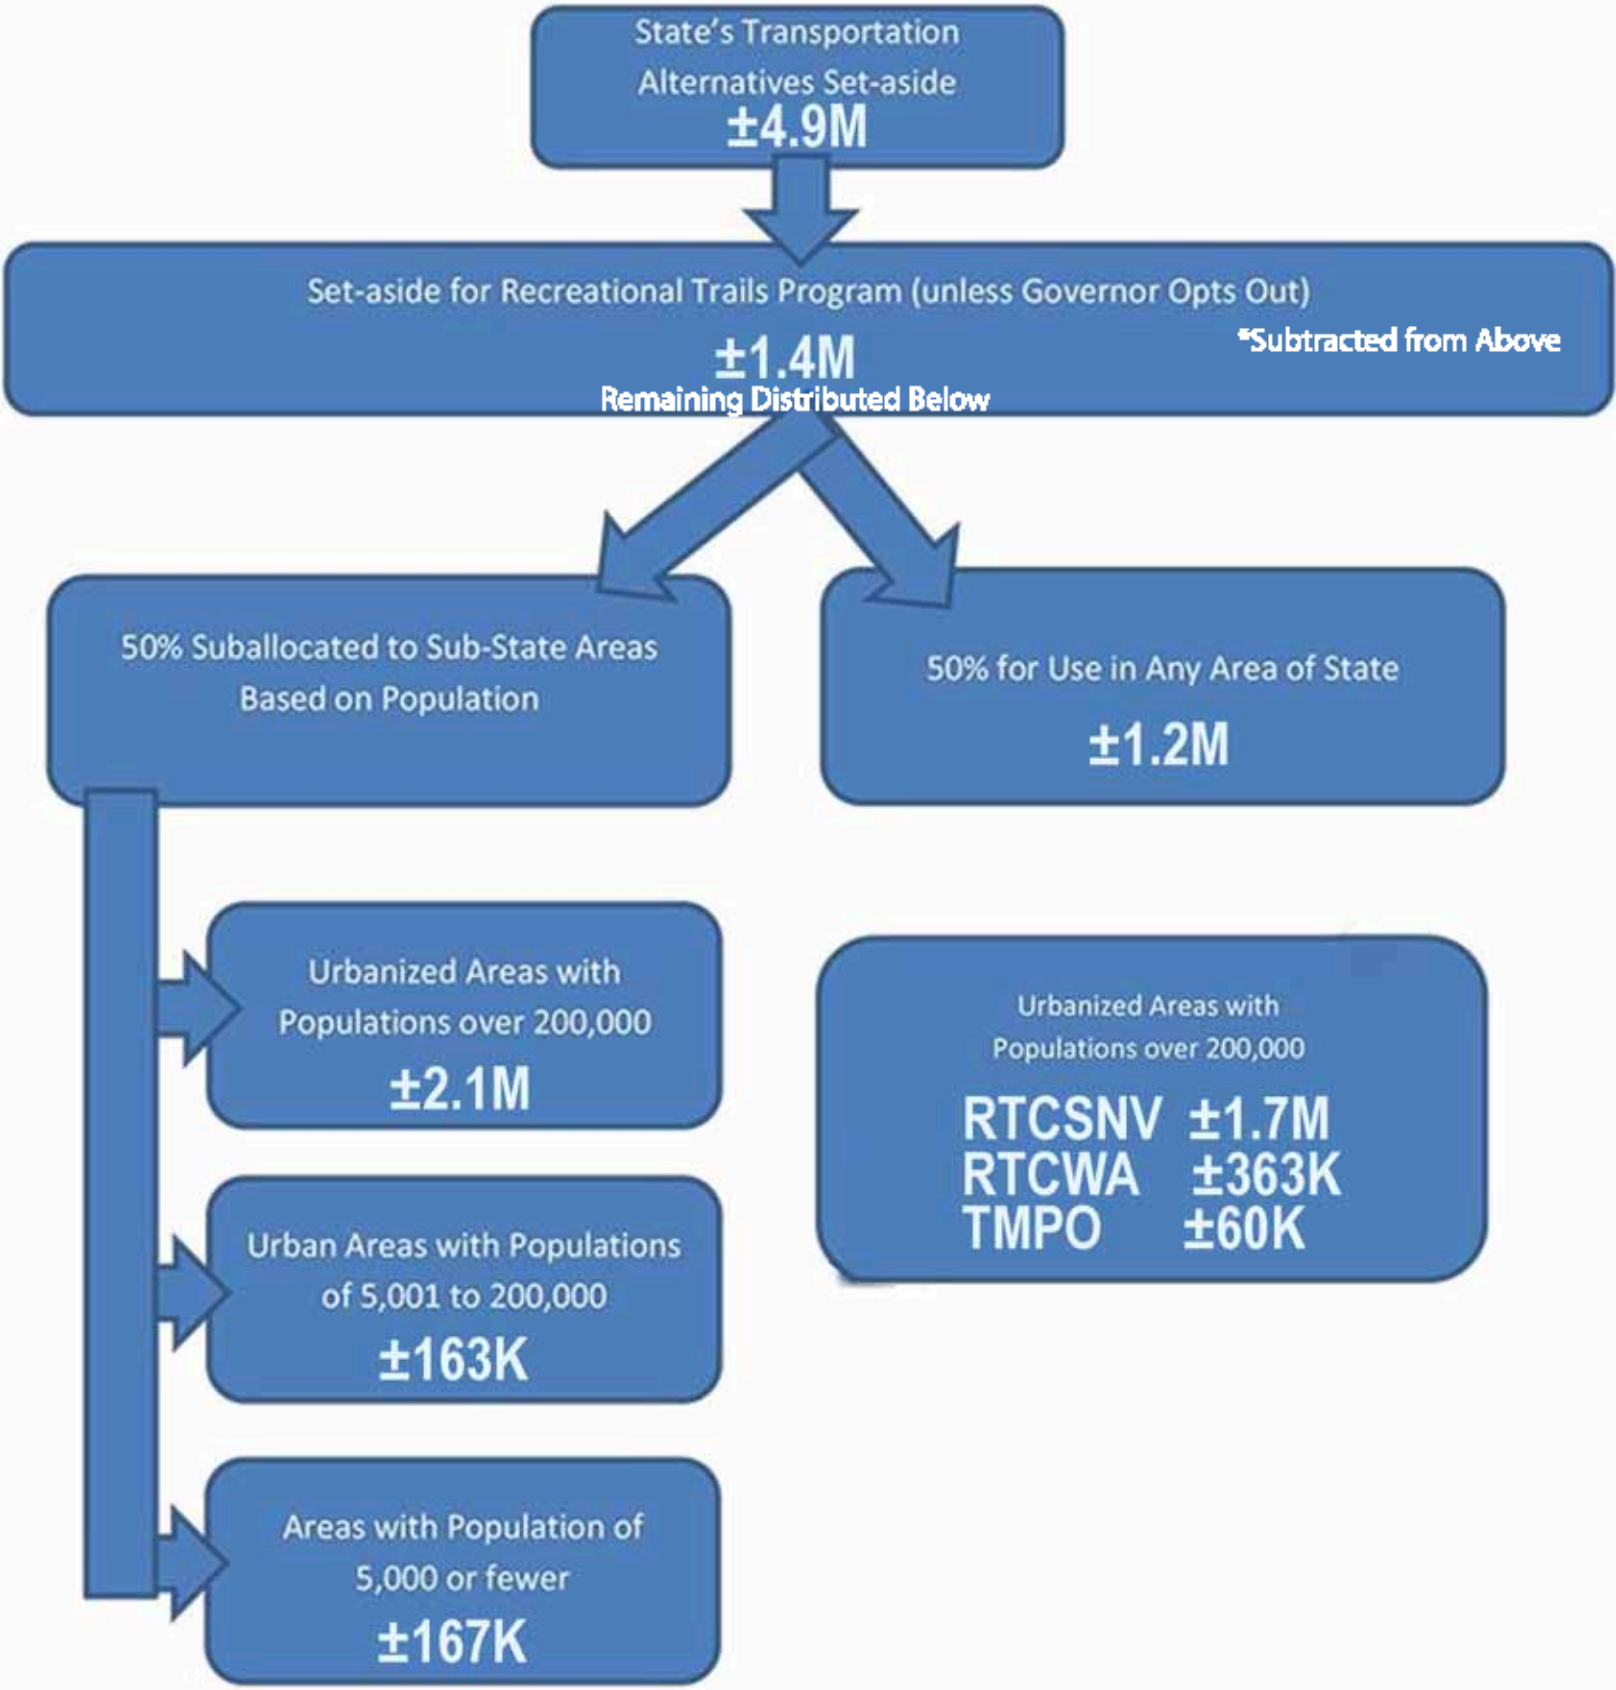
Highway Safety Improvement Program	The FAST Act continues the Highway Safety Improvement Program (HSIP) to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State owned public roads and roads on Tribal lands.
HSIP	
95/5	
±$21M	

Congestion Mitigation and Air Quality Program	The Congestion Mitigation and Air Quality Improvement (CMAQ) program provides annual federal funding from FHWA, to states and local jurisdictions to meet the requirements of the Clean Air Act. Funding is available for transportation projects and programs that reduce congestion and improve air quality. Eligible areas include those that do not meet the National Ambient AQ standards for ozone, carbon monoxide, or particulate matter (nonattainment areas); and for former nonattainment areas that are now in compliance (maintenance areas). Federal law does not require NDOT to share these funds with local governments; however, NDOT has elected to make the CMAQ program a local program— distributing funds to eligible TMAs by formula based on population, particle matter volumes and CO2 levels. The RTCSNV and RTCWA are eligible for formula distribution of these funds.
CMAQ	
95/5	
±$25M	



Transportation Alternatives Program	Funding for Transportation Alternatives (TA) is set aside from the overall STBG funding amount. After accounting for this set-aside, FHWA distributes a percentage of a State's STBG funds based on population (suballocated), and the remaining funds are available for use anywhere in the State. The suballocated percentage starts at 51 percent in FY 2016, and then grows each year, to 55 percent in FY 2020. Project eligible for this funds source include Construction, planning, and design of on-road and off-road trail facilities for pedestrians, bicyclists, and other nonmotorized forms of transportation, including sidewalks, bicycle infrastructure, pedestrian and bicycle signals, traffic calming techniques, lighting and other safety-related infrastructure, and transportation projects to achieve compliance with the Americans with Disabilities Act of 1990.
TAP	
95/5	
±$4.9M	

**Please note estimated total is before federally required sub allocation set aside formula*



**The next two pages will show the sub allocations of STBG and TAP*

Federal Transit Administration Funded Programs Overview

NDOT's Rural Transit Division administers State and Federal grant programs that are used to pay for operating local transit districts, local government transit services, and private transit organizations. The 2018-2021 STIP includes many Federal transit funding programs that provide for projects in metropolitan and rural areas throughout Nevada.

Programs include community support for public transit (including fixed guideway passenger rail and bus rapid transit), transportation for seniors and people with disabilities, mass transit vehicle replacement, intercity bus service, planning, training, technical assistance, and travel options programs. To meet financial plan timelines set by FTA, most transit projects are funded through a solicitation after the STIP is approved.

Program Name	Funding Source	Purpose
Metropolitan and Statewide Transportation Planning	FTA Section 5303 and 5304	Provides basis for making short and long-range public transportation decisions.
Urbanized Area Formula	FTA Section 5307	Supports public transportation capital, planning, job access and reverse commute projects, as well as operating expenses in certain circumstances for Urbanized Areas.
Bus and Bus Facilities	FTA Section 5339	Capital purchases of transit vehicles and vehicle related facilities for small urban and rural transit providers.
Enhanced Mobility of Seniors and Individuals with Disabilities	FTA Section 5310	Capital and operations support benefiting elderly and people with disabilities.
Rural Areas Formula	FTA Section 5311	Transit services in rural areas. This program includes intercity service and technical assistance.

How to Interpret Project Information and NDOT's eSTIP

NDOT adopted and implemented an eSTIP system in 2015. The eSTIP is a fully integrated system with the MPOs for the development of the project lists for the TIPs and includes electronic approvals and notifications. It allows the local public agencies (LPA) within each MPO/TMA to submit projects, and or changes to projects, for review and approval by the MPO, State and Federal agencies. This fully integrated system is displayed to our public website upon approval of the TIPs by the governing boards and or by the executive directors. The eSTIP has saved staff time and enhanced transparency to the public, providing timely and live up to date project information. The public website can be viewed in table list of projects or with an interactive map, it can also be searched by several different values and fields of projects and their information.

NDOT's eSTIP can be found here: https://estip.nevadadot.com/default.asp

The next pages breakdown the project page of the eSTIP and explains how to read the information provided.

AMERICAN OVERSIGHT

STIP

Performance-based Planning and Programming

The Moving Ahead for Progress in the 21st Century (MAP-21) Act, followed by the Fixing America's Surface Transportation (FAST) Act, require the implementation of performance management to ensure the Statewide Transportation Improvement Program (STIP) and other transportation plans reflect national goals – safety, infrastructure condition, congestion reduction, system reliability, freight movement and economic vitality, environmental sustainability, and reduction in project delivery delays. They must also incorporate performance measures and establish performance targets by which progress can be assessed. This performance-based approach will lead to increased transparency, accountability, logical project selection, and efficient investment of limited transportation funds.

The Nevada Department of Transportation (NDOT) and the Metropolitan Planning Organizations (MPOs) are effectively collaborating to comply with the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) final rules.
This collaboration to date has resulted in NDOT establishing statewide performance targets for most of the performance measures included in the final rules.
The goals, objectives, measures, targets, and strategies as to how these targets will be achieved are incorporated into the STIP by reference to the respective plans as follows:

- Safety (The Nevada Strategic Highway Safety Plan - Highway Safety Improvement Program)
- Pavement and Bridge (Nevada Asset Management Plan)
- Freight (The Nevada Freight Plan)
- System Reliability (The Nevada Transportation Systems Management & Operation Plan)

At present, targets for the Congestion Mitigation and Air Quality measures have not been established. The legislative deadline for state DOTs to set these targets is October 1, 2018. NDOT in coordination with the Regional Transportation Commission of Southern Nevada (RTCSN) will establish these performance targets by the due date and, develop a Congestion Mitigation and Air Quality Improvement (CMAQ) Program performance plan. After the development of the (CMAQ) performance plan, the goals, objectives, measures, targets and how they will be accomplished will be incorporated into the STIP like all other plans by reference.

NDOT identifies by project the seven major performance measures as identified by the MAP-21 Legislation: Safety, Infrastructure Condition, Congestion Reduction, System Reliability, Freight

AMERICAN OVERSIGHT

Movement and Economic Vitality, Environmental Sustainability, Reduce Project Delivery Delays. As NDOT continues our efforts in the coordinated development of the State's Long Range Transportation Plan, One Nevada, a robust process prioritization will be developed to meet these and ongoing performance targets.

MEMORANDUM

August 1, 2018

TO: Department of Transportation Board of Directors

FROM: Rudy Malfabon, P.E., Director

SUBJECT: August 13, 2018 Transportation Board of Directors Meeting

ITEM #10: Present Executive Branch Audit Findings on Non-Construction Contracts – Informational item only

---

Summary:

The Division of Internal Audits, under the Governor's Finance Office, performed an audit on NDOT's administrative agreements between March and May 2018. The audit report was presented to the Executive Branch Audit Committee on June 14, 2018 and contained six recommendations. NDOT accepted recommendations #2 through #6 and agreed to a timeframe for implementation over the next five months. Only recommendation #1, "*Submit administrative contracts and amendments of $50,000 and above to the Transportation Board for approval*," requires Transportation Board approval prior to implementation.

Background:

In 2011, newly elected Governor, Brian Sandoval, asked the Transportation Board members to determine the contract limits of NDOT's Director in accordance with NRS 408.131(6). At the July 2011 Transportation Board meeting, the Board was presented with two options for approving future contracts and agreements. Option No. 1 provided for the Board to approve all agreements (including amendments) while Option No. 2 provided for the Board to approve all agreements over $300,000. The record reflected the Board did not wish to approve all agreements and the $300,000 approval threshold was established in consultation with the Governor's Office and was commensurate with practices in other states. Option No. 2 passed unanimously.

Analysis:

The rationale presented in the audit regarding Recommendation #1 is that by reducing Transportation Board approval of contracts and amendments over $50,000, the approval threshold would be consistent with requirements specified in State Administrative Manual (SAM). SAM is an official publication of the Governor's Finance Office issued under the authority of the Governor and Board of Examiners (NRS 353.0540). It is a compilation of policy statements that may be established in the absence of specific statutes where guidance and instructions are necessary for agencies to conduct business to promote economy and efficiency in State government.

SAM provides for exceptions to agencies that have statutory authorities granted to them and, unlike many other state agencies, NDOT has specific statutes as well as a governing Board to determine policy on approval limits. Under NRS 408.131(6), the Transportation Board has independent statutory authority to delegate the approval authority it deems necessary to the

AMERICAN OVERSIGHT

Director. The audit report contained no findings to justify how reducing the delegated authority from $300,000 to $50,000 would improve the efficiency and effectiveness of NDOT.

Recommendation:

NDOT stated in the audit response it's concerns with the potential for loss of efficiencies by lowering the delegated authority. Over the last five years, 588 agreements would have been affected had delegation authority been reduced to $50,000. This action would have resulted in longer design schedules and potential project cost increases, and the creation of internal processing inefficiencies.

NDOT strives to be efficient and effective in keeping with the Governor's Strategic Planning Framework to deliver projects, programs, and services to the citizens of Nevada. Specifically, NDOT strives to eliminate redundant policies, procedures, and practices in keeping with Section 8.2.1 of the Governors Strategic Planning Framework.

Since there were no audit findings to justify lowering the delegated authority to the Director, NDOT recommends the Transportation Board defer acting on this audit recommendation to the next administration when the NDOT will review all the previously approved delegated authorities with the incoming Governor.

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

EXECUTIVE SUMMARY
Department of Transportation
Administrative Contracts

Introduction..... page 1

Objective:.....**Improve Oversight of NDOT's Contract Management**

Submit Administrative Contracts and Amendments of $50,000 and more to NDOT Board for Approval.....page 2

Submitting administrative contracts and amendments of $50,000 and above to the NDOT Board for approval will ensure consistency with approval levels required by the State Administrative Manual (SAM) 0322 for other state agencies.

The NDOT Board approves administrative contracts of $300,000 and above. Both the NDOT Board and the State Board of Examiners (BOE) provide for a high level of approval; however, BOE approves contracts of $50,000 and more in accordance with SAM 0322.

Submit Sole Source Contracts to Purchasing for Approval.....page 4

Submitting sole source contracts to the Purchasing Division Administrator for approval will ensure compliance with regulations and state-wide consistency when awarding sole source contracts.

Two contracts for aircraft pilot services and one contract for employee training were approved by the NDOT director instead of the Purchasing Division Administrator. NAC 333.150 requires sole source contracts be approved by the Purchasing Division Administrator.

AMERICAN OVERSIGHT

Renew Director Approval Limit for New Governor.....page 5

Renewing the NDOT director's contract approval limit when there is a new Governor will ensure the limit is consistent with the Governor's vision of state administration.

The Governor serves as chair of the NDOT Board. The Board delegates to the director the authority to approve contracts up to a specified limit. Contracts approved by the director do not require Board approval, and are submitted to the Board as informational items only. The director's contract approval limit is currently $300,000.

Ensure All Relevant Contract Information is Provided to NDOT Board for Informational Items.....page 6

Ensuring all relevant contract information is provided to the NDOT Board for informational items by using the Budget Division's contract summary form, or modifying NDOT's agreement summary sheet will ensure all relevant information is provided to the NDOT Board in summary form as is provided to the BOE.

For informational items, the NDOT Board is not provided the same information provided to the BOE; such as, reason the contractor was chosen; whether the contractor is currently involved in litigation with the state; and why state employees are not able to perform the job.

NDOT should use the Budget Division's contract summary form, currently provided to the BOE, for providing information to the NDOT Board. Alternatively, NDOT could modify its agreement summary sheet to contain the same information as the Budget Division's contract summary form and provide it to the Board.

Comply with State and Federal Guidelines and NDOT's Reporting Requirements...... page 8

Complying with state and federal guidelines regarding contracts will ensure uniformity and completeness of contract documentation. Additionally, reporting informational items to the NDOT Board ensures consistency and transparency.

We noted missing documentation, including: certificates of liability insurance and/or worker's compensation insurance affidavits; contract evaluation criteria; and a federal form related to disclosure of lobbying activities. Not maintaining these documents may leave the state open to financial risks, possible loss of federal funding, and subject recipients to civil penalties.

Additionally, three contracts were not reported to the NDOT Board as informational items in accordance with NDOT's reporting requirements.

Section 0320 of the State Administrative Manual (SAM) requires every contractor to furnish the state with a certificate of liability insurance or worker's compensation insurance affidavit prior to the start of work. NDOT's Procurement and Agreement Manual requires contract evaluation criteria to be submitted to Agreement Services prior to solicitation. Pursuant to Title 31, United States Code, Section 1352, recipients of federal funds are required to complete the Disclosure of Lobbying Activities form.

Timetable for Implementing Audit Recommendations

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

INTRODUCTION

At the request of the Governor's Finance Office, the Division of Internal Audits conducted an audit of the Nevada Department of Transportation (NDOT). Our audit focused on NDOT's administrative contracts. The audit's scope and methodology, background, and acknowledgements are included in Appendix C.

Our audit objective was to develop recommendations to:

- ✓ Improve oversight of NDOT's contract management.

Nevada Department of Transportation Response and Implementation Plan

We provided draft copies of this report to NDOT for its review and comments. NDOT's comments have been considered in the preparation of this report and are included in Appendix D. In its response, NDOT accepted our recommendations. Appendix E includes a timetable to implement our recommendations.

NRS 353A.090 requires within six months after the final report is issued to the Executive Branch Audit Committee, the Administrator of the Division of Internal Audits shall evaluate the steps NDOT has taken to implement the recommendations and shall determine whether the steps are achieving the desired results. The administrator shall report the six month follow-up results to the committee and NDOT officials.

The following report contains our findings, conclusions, and recommendations.

AMERICAN OVERSIGHT

Improve Oversight of NDOT's Contract Management

The Nevada Department of Transportation (NDOT) can improve oversight of administrative contract management by:

- Submitting administrative contracts and amendments of $50,000 and above to the NDOT Board for approval;
- Submitting sole source contracts to the Purchasing Division Administrator for review and approval;
- Renewing the director's contract approval limit when there is a new Governor;
- Ensuring all relevant contract information is provided to the NDOT Board for informational items; and
- Complying with state and federal guidelines and NDOT's reporting requirements.

Submit Administrative Contracts and Amendments of $50,000 and Above to NDOT Board for Approval

NDOT should submit administrative contracts and amendments of $50,000 and above to the NDOT Board for approval. This will provide consistency with approval levels required by the State Administrative Manual (SAM) 0322 for other state agencies.

NDOT Board Approves $300,000 and Above

The NDOT Board approves administrative contracts of $300,000 and above. In accordance with NRS 408.131, the NDOT Board delegated to the director contract approval limit of up to $300,000. These contracts are submitted to the NDOT Board as informational items only.

Both the NDOT Board and the State Board of Examiners (BOE) provide for a high level of approval; however, BOE approves contracts of $50,000 and more in accordance with SAM 0322.

AMERICAN OVERSIGHT

Conclusion

Submitting administrative contracts and amendments of $50,000 and above to the NDOT Board for approval will ensure consistency with approval levels required by the State Administrative Manual (SAM) 0322 for other state agencies.

Recommendation

1. Submit administrative contracts and amendments of $50,000 and above to the NDOT Board for approval.

AMERICAN OVERSIGHT

Submit Sole Source Contracts to Purchasing for Approval

NDOT should submit sole source contracts to the Purchasing Division Administrator for review and approval.[1] This will ensure compliance with regulations and state-wide consistency when approving sole source contracts.

Director Authorized Sole Source Contracts

Our review revealed three sole source contracts were approved by the director. Two of the contracts were for aircraft pilot services on an as-needed basis to support NDOT flights and one was for NDOT employee training.

NAC 333.150 requires sole source contracts to be approved by the Administrator of the Purchasing Division. This ensures consistency for sole source approvals with state guidelines.

Conclusion

Submitting sole source contracts to the Purchasing Division Administrator for approval will ensure compliance with regulations and state-wide consistency when approving sole source contracts.

Recommendation

2. Submit sole source contracts to Purchasing Division Administrator for approval.

[1] Sole source contracts are not required to be opened to competitive bidding if the Purchasing Division Administrator deems them not adaptable to competitive selection.

AMERICAN OVERSIGHT

Renew Director Approval Limit for New Governor

The NDOT Board should renew the director's contract approval limit when there is a new Governor.[2] This will ensure the director's contract approval limit is consistent with the Governor's vision of state administration. Pursuant to NRS 408.131, the NDOT Board can delegate contract approval to the director.

Conclusion

Renewing the director's contract approval limit when there is a new Governor will ensure consistency with the Governor's vision of state administration.

Recommendation

3. Renew the director's contract approval limit when there is a new Governor.

[2] Per NRS 408.106, the Governor serves as the Chair of the NDOT Board.

AMERICAN OVERSIGHT

Ensure All Relevant Contract Information is Provided to NDOT Board for Informational Items

NDOT should ensure all relevant contract information is provided to the NDOT Board by using the Budget Division's contract summary form or modifying its agreement summary sheet for informational items. This will ensure all relevant information regarding the contract is provided to the NDOT Board in summary form as is provided to the BOE.

The BOE is provided contract information for contracts $10,000 and above using Budget Division's contract summary form.[3] The contract summary form summarizes all relevant contract information for the BOE.

For informational items, the NDOT Board is provided a list of contracts that includes the name of the contractor, purpose of the contract, amount, start and end date, agreement type (i.e., interlocal, cooperative, right of way), and miscellaneous notes about the contract.

The list does not include some of the information contained on the Budget Division's contract summary form, such as: what conditions require this work to be done; why state employees were not able to perform this work; if the contractor is a current or former employee of the state; and if the contractor is currently involved in litigation with the state.

NDOT's Agreement Summary Sheet is Not Provided to the Board

NDOT has an agreement summary sheet that is used to summarize contract information; however, the agreement summary sheet is not provided to the NDOT Board.[4] The agreement summary sheet is maintained in the contract's folder as part of the contract file.

The agreement summary sheet contains more information than the list provided to the Board but does not include all the information provided to BOE on Budget Division's summary form. The agreement summary sheet does not include information, such as: reason the contractor was chosen; whether the contractor is currently involved in litigation with the state; and why state employees are not able to perform the job.

NDOT could modify its agreement summary sheet to contain the same information as Budget Division's contract summary form or use the Budget Division's contract summary form.

---

[3] Appendix A – Budget Division's Contract Summary Form.
[4] Appendix B – Agreement Summary Sheet.

AMERICAN OVERSIGHT

Conclusion

Ensuring all relevant contract information is provided to the NDOT Board by using Budget Division's contract summary form or modifying its agreement summary sheet for informational items will help guarantee all relevant information regarding the contract is provided to the NDOT Board in summary form as is provided to the BOE.

Recommendation

4. Ensure all relevant contract information is provided to NDOT Board for informational items.

AMERICAN OVERSIGHT

Comply with State and Federal Guidelines and NDOT's Reporting Requirements

NDOT should comply with state and federal guidelines regarding contracts. This will ensure uniformity and completeness of contract documentation. Additionally, NDOT should report required informational items to the NDOT Board pursuant to NDOT's reporting requirements. Reporting informational items to the NDOT Board ensures consistency and transparency.

NDOT Did Not Comply with State and Federal Guidelines

Our review of 47 out of 858 contracts (5 percent) totaling almost $10 million executed in fiscal years 2016 and 2017 revealed instances of missing documentation.

Missing Documentation

There were four contract files missing documentation, including: certificates of liability insurance and/or worker's compensation insurance affidavits; contract evaluation criteria; and a federal form related to disclosure of lobbying activities.

- Three contract files were missing certificates of liability insurance and/or worker's compensation insurance affidavits. Missing certificates of liability insurance and/or worker's compensation insurance affidavits may leave the state open to financial risk.

  Section 0320 of the State Administrative Manual requires every contractor to furnish the state with a certificate of liability insurance or worker's compensation insurance affidavit prior to the start of work. This information is required to be maintained by NDOT per the Division of Risk Management; and

- One contract file was missing both contract evaluation criteria and the federal disclosure of lobbying activities form. Missing disclosure forms may leave the state open to possible loss of federal funding and subjects recipients to civil penalties.

  NDOT's Procurement and Agreement Manual requires contract evaluation criteria to be submitted to Agreement Services prior to advertisement of the solicitation.[5] Pursuant to Title 31, United States Code, Section 1352, recipients of federal funds are required to complete the Disclosure of Lobbying Activities form.

[5] Agreement Services is a division within NDOT that reviews contracts and agreements prior to execution.

AMERICAN OVERSIGHT

NDOT Did Not Report Informational Items to the NDOT Board

Our review of 47 contracts revealed one amendment and two contracts were not reported to the NDOT Board. The amendment was for $53,275 (previously approved $1.8 million contract for Northern Nevada traffic study); one contract for $150,000 (aerial survey for I-80); and one contract for $289,410 (landscape architecture) were not reported to the NDOT Board as informational items.

Each of these contracts is required to be submitted to the NDOT Board as an informational item. Complying with NDOT reporting requirements will ensure consistency and transparency in reporting to NDOT Board members.

Conclusion

Compliance with state and federal guidelines will ensure uniformity and completeness of contract documentation. Additionally, reporting required informational items to the NDOT Board pursuant to NDOT's reporting requirement will ensure consistency and transparency.

Recommendations

5. Comply with state and federal guidelines.

6. Report informational items to the NDOT Board.

AMERICAN OVERSIGHT

Budget Division's Contract Summary Form

BOE

For Board Use Only
Date: _____

CONTRACT SUMMARY

(This form must accompany all contracts submitted to the Board of Examiners (BOE) for review and approval)

I. DESCRIPTION OF CONTRACT

1. Contract Number: **19965**

		Legal Entity Name:	BARKER COLEMAN CONSTRUCTION
Agency Name:	**DEPARTMENT OF TRANSPORTATION**	Contractor Name:	**BARKER COLEMAN CONSTRUCTION**
Agency Code:	**800**	Address:	**LLC**
Appropriation Unit:	**4660 - All Categories**		**5945 LOS ALTOS PKWY STE 101**
Is budget authority available?:	**Yes**	City/State/Zip	**SPARKS, NV 89436**
If "No" please explain:	Not Applicable	Contact/Phone:	775/626-4144
		Vendor No.:	T27017345
		NV Business ID:	5

To what State Fiscal Year(s) will the contract be charged? **2019-2020**

What is the source of funds that will be used to pay the contractor? Indicate the percentage of each funding source if the contractor will be paid by multiple funding sources.

	General Funds	0.00 %	Fees	0.00 %
	Federal Funds	0.00 %	Bonds	0.00 %
X	Highway Funds	**100.00 %**	Other funding	0.00 %

2. Contract start date:
   a. Effective upon Board of Examiner's approval? **Yes** or b. other effective date: **NA**
   Anticipated BOE meeting date 07/2018

Retroactive? **No**

If "Yes", please explain

Not Applicable

3. Termination Date: **06/30/2020**
   Contract term: **2 years**
4. Type of contract: **Contract**
   Contract description: **Test bg**
5. Purpose of contract:

to print blank

6. NEW CONTRACT
   The maximum amount of the contract for the term of the contract is: **$1,000,000.00**

II. JUSTIFICATION

7. What conditions require that this work be done?

comparison

8. Explain why State employees in your agency or other State agencies are not able to do this work:

different system

9. Were quotes or proposals solicited? No
   Was the solicitation (RFP) done by the Purchasing Division? No
   a. List the names of vendors that were solicited to submit proposals (include at least three):

Not Applicable

   b. Solicitation Waiver: **Not Applicable**
   c. Why was this contractor chosen in preference to other?

   d. Last bid date: Anticipated re-bid date:

AMERICAN OVERSIGHT

10. Does the contract contain any IT components? No

III. OTHER INFORMATION

11. Is there an Indirect Cost Rate or Percentage Paid to the Contractor?
No If "Yes", please provide the Indirect Cost Rate or Percentage Paid to the Contractor
Not Applicable

12. a. Is the contractor a current employee of the State of Nevada or will the contracted services be performed by a current employee of the State of Nevada?
No

b. Was the contractor formerly employed by the State of Nevada within the last 24 months or will the contracted services be performed by someone formerly employed by the State of Nevada within the last 24 months?
No

c. Is the contractor employed by any of Nevada's political subdivisions or by any other government?
No If "Yes", please explain
Not Applicable

13. Has the contractor ever been engaged under contract by any State agency?
No If "Yes", specify when and for which agency and indicate if the quality of service provided to the identified agency has been verified as satisfactory:
Not Applicable

14. Is the contractor currently involved in litigation with the State of Nevada?
No If "Yes", please provide details of the litigation and facts supporting approval of the contract:
Not Applicable

15. The contractor is registered with the Nevada Secretary of State's Office as a:
LLC

16. a. Is the Contractor Name the same as the legal Entity Name?
Yes

17. a. Does the contractor have a current Nevada State Business License (SBL)?
No b. If "No", is an exemption on file with the Nevada Secretary of State's Office?
Yes

18. a. Is the legal entity active and in good standing with the Nevada Secretary of State's Office?
Yes

AMERICAN OVERSIGHT

Appendix C
Scope and Methodology, Background, and Acknowledgements

Scope and Methodology

We began the audit in February 2018. In the course of our work, we interviewed NDOT staff and discussed processes inherent to their responsibilities.

We reviewed contracts, documents and records, applicable Nevada Revised Statutes, Nevada Administrative Code, State Administrative Manual, and other state and NDOT guidelines. We concluded fieldwork and testing in April 2018.

We conducted our audit in conformance with the *International Standards for the Professional Practice of Internal Auditing.*

Background

The Nevada Department of Transportation (NDOT) is administered by a seven-member Board of Directors consisting of the Governor, Lieutenant Governor, State Controller who services as ex officio member, and four members appointed by the Governor who represent different highway districts based on population. NDOT is responsible for maintaining and improving Nevada's highway system which includes U.S. highways and Interstate highways within the state's boundaries. For fiscal years ended 2016 and 2017, NDOT had 858 non-construction contracts of approximately $332.6 million.

Acknowledgments

We express appreciation to the NDOT director, assistant director, and staff for their cooperation and assistance throughout the audit.

Contributors to this report included:

Vita Ozoude, CMA, CGMA, CPA, MBA
Executive Branch Audit Manager

Jaynalynn Seley, MBA
Executive Branch Auditor

Mr. Steve Weinberger
Administrator
Division of Internal Audits
209 E. Musser Street, Suite 302
Carson City, NV 89701

RECEIVED
JUN 06 2018
DIVISION OF INTERNAL AUDITS

Dear Mr. Weinberger:

Thank you for meeting with me, key NDOT managers and NDOT's Chief Counsel on May 10, 2018 to discuss the draft audit report. NDOT appreciated the opportunity to meet with you and your executive branch auditors to learn your perspective on the findings, conclusions, and recommendations. As requested, NDOT is providing responses to each of the recommendations below.

Submit Administrative Contracts and Amendments of $50,000 and Above to NDOT Board for Approval

NDOT Board Approves $300,000 and Above

The NDOT Board approves administrative contracts of $300,000 and above. In accordance with NRS 408.131, the NDOT Board delegated contract approval to the director approval of contracts up to $300,000. These contracts are submitted to the NDOT Board as informational items only.

Both the NDOT Board and the State Board of Examiners (BOE) provide for a high level of approval; however, BOE approves contracts of $50,000 and more in accordance with SAM 0322.

NDOT's comments: In 2011, newly elected Governor, Brian Sandoval, recognized the high value of NDOT's contracts and as Chairman of the Transportation Board, engaged the Board members to determine the contract limits of NDOT's director. At the July 2011 Transportation Board meeting the Board was presented with two options for approving future contracts and agreements. Option No. 1 provided for the Board approve all agreements (including amendments) while Option No. 2 provided for the Board to approve all agreements over $300,000, accounting for approximately 70% of all contracts. Governor Sandoval stated that he would support Option No. 2. Member Frank Martin moved for approval of Option No. 2 and the motion was passed unanimously. The minutes from the July 2011 Transportation Board meeting are attached.

AMERICAN OVERSIGHT

Conclusion

Submitting administrative contracts and amendments of $50,000 and above to the NDOT Board for approval will ensure consistency with approval levels required by the State Administrative Manual (SAM) 0322 for other state agencies

NDOT's comments: While lowering the authority granted to the NDOT director to $50,000 will be consistent with the levels for BOE approval (SAM 0222) for other state agencies, NDOT has concerns with possible loss of efficiencies. NDOT is neutral on this issue and will defer to the direction of the Executive Audit Committee, however, the delegation of authority to the NDOT director will be referred to the Transportation Board for final approval as was determined in July 2011 (Transportation Board Minutes Attached).

Recommendation

1. Submit administrative contracts and amendments of $50,000 and above to the NDOT Board for approval.

Nevada Department of Transportation Response:
The Nevada Department of Transportation requires Transportation Board approval to accept this recommendation. NDOT will present this recommendation to the Transportation Board for their consideration

Implementation period: Present at August 2018 Transportation Board for consideration.

Director Authorized Sole Source Contracts

The audit report states, "NAC 333.150 requires sole source contracts to be approved by the Administrator of the Purchasing Division. This ensures consistency for sole source approvals with state guidelines."

NDOT's comments: NAC 333.150 states "*Except as otherwise provided by specific statute, a contract entered into pursuant to NRS 333.700 for the services of an independent contractor must: (a) Be awarded pursuant to the provisions of this chapter and chapter 333 of NRS.*" NDOT contracts, including sole source contracts, are an exception to NRS 333.700, which do not require approval of the Administrator of the Purchasing Division. The three sole source contracts cited in the audit are administrative contracts specifically for the Department of Transportation. Pilot Services are exclusively for the aircraft managed by NDOT to conduct highway related business and the third contract is for NDOT employee training, which is related to the administration of the highways of the state and appropriately approved by NDOT's director.

AMERICAN OVERSIGHT

Conclusion

Submitting sole source contracts to the Purchasing Division Administrator for approval will ensure compliance with regulations and state-wide consistency when approving sole source contracts. Submit sole source contracts to Purchasing Division Administrator for approval.

NDOT's comments: NDOT is required to be efficient and responsive to Constitutionally elected officers and their need to travel for state business. The two sole source contracts cited in this finding were necessary to continue to provide flight services to NDOT employees and elected officials until NDOT could fill vacant pilot positions. Securing State Purchasing Administrator approval only creates inefficiency in the approval process causing delays resulting in the purchase of more expensive commercial airline flights. This would not only affect NDOT, but the Constitutionally elected officials' travel budgets. NDOT is in compliance with NRS when awarding sole source contracts which ensures compliance with regulations and statewide consistency.

An example of efficiency achieved when NDOT awards sole source contracts is the Reno Early Action Project south of the Spaghetti Bowl. This sole source was supported by the Transportation Board when it approved a major amendment to the consultant agreement at the May 2018 Transportation Board meeting. There are many agreements that are time sensitive and/or specific to NDOT expertise, and having the current process ensures that NDOT can keep the projects moving forward with little to no delay. NDOT will coordinate with the Purchasing Administrator to ensure a timely approval process on certain sole source contracts to ensure continued efficiency.

Recommendation

2. Submit sole source contracts to Purchasing Division Administrator for approval.

Nevada Department of Transportation Response:
The Nevada Department of Transportation accepts this recommendation and will develop a process with the Purchasing Administrator to ensure timely and efficient approval of any sole source contracts not excepted from NRS 333.700, emergency contracts issued pursuant to NRS 408.323, and those not addressed by AGO Opinion No. 96-31.

Implementation period: Within the next six months before the end of Governor Sandoval's term.

AMERICAN OVERSIGHT

Renew Director Approval Limit for New Governor

The NDOT Board should renew the director's contract approval limit when there is a new Governor. This will ensure the director's contract approval limit is consistent with the Governor's vision of state administration. Pursuant to NRS 408.131, the NDOT Board can delegate contract approval to the director.

NDOT's comments: It will be appropriate to present this to the new Governor and Transportation Board.

Conclusion

Renewing the director's contract approval limit when there is a new Governor will ensure consistency with the Governor's vision of state administration.

NDOT's comments: NDOT appreciates the need for consistency with the new Governor's vision of state administration and will review many administrative details with the new Governor to ensure transparency and consistency as well as efficiency and effectiveness of project administration, delivery, and operations.

Recommendation

3. Renew the director's contract approval limit when there is a new Governor.

Nevada Department of Transportation Response:
The Nevada Department of Transportation accepts this recommendation and will meet with the new Governor to review the contract approval limits. Any changes to the current delegation of authority requires Transportation Board action.

Implementation period: After the election of the new Governor at that Governor's discretion.

Ensure All Relevant Contract Information is Provided to NDOT Board for Informational Items

NDOT's Agreement Summary Sheet is Not Provided to the Board

NDOT could modify its agreement summary sheet to contain the same information as Budget Division's contract summary form or use the Budget Division's contract summary form.

AMERICAN OVERSIGHT

Conclusion

Ensuring all relevant contract information is provided to the NDOT Board by using the Budget Division's contract summary form or modifying its agreement summary sheet for informational items will help guarantee all relevant information regarding the contract is provided to the NDOT Board in summary form as is provided to the BOE.

NDOT's comments: NDOT appreciates the helpful suggestions to modify its agreement summary sheet to contain more information for the Board's review. Doing so would add approximately 60 pages on average to an already substantial board packet. However, NDOT always provides more information to interested Board members upon request and could make the agreement summaries available as requested.

Recommendation

4. Ensure all relevant contract information is provided to NDOT Board for informational items.

Nevada Department of Transportation Response:
The Nevada Department of Transportation accepts this recommendation and will work on revising its agreement summary form to provide more detailed information. The department will also write a memorandum to be included in the informational items section of the Board agenda notifying Board members that agreement summaries will be made available to the Board (and the public) upon request.

Implementation period: Within the next six months before the end of Governor Sandoval's term.

Comply with State and Federal Guidelines and NDOT's Reporting Requirements

NDOT Did Not Comply with State and Federal Guidelines

There were four contract files missing documentation, including: certificates of liability insurance and/or worker's compensation insurance affidavits; contract evaluation criteria; and a federal form related to disclosure of lobbying activities.

NDOT's comments: NDOT appreciates this finding and has already been working with the Agreement Services Section to ensure all files are complete and contain the necessary documentation described above.

NDOT Did Not Report Information Items to the Board

One amendment and two contracts were not reported to the NDOT Board.

AMERICAN OVERSIGHT

NDOT's comments: NDOT appreciates this finding and has already been working with the Agreement Services Section to ensure all informational items are reported to the Board. NDOT processes many contracts and agreements and from time to time finds an amendment or agreement that failed to be reported to the Board. When discovered, NDOT adds the agreement or amendment to the next Board agenda and notes the oversight for transparency purposes.

Conclusions

5. Comply with state and federal guidelines.

6. Report informational items to the NDOT Board.

Nevada Department of Transportation Response:
The Nevada Department of Transportation accepts these recommendations and has begun immediate implementation to ensure NDOT files are complete and in compliance with state and federal guidelines as well as reporting all amendments and agreements as informational items to the Board.

Implementation period: Within the next six months before the end of Governor Sandoval's term.

NDOT thanks the Division of Internal Audits for its recommendations and appreciates the professionalism shown by the executive auditors during the audit period. We strive to be efficient and effective as a department in keeping with the Governor's Strategic Planning Framework to deliver projects, programs, and services to the citizens of Nevada. Specifically, NDOT strives to eliminate redundant policies, procedures, and practices in keeping with Section 8.2.1 of the Governors Strategic Planning Framework.

NDOT values the audit's objective to "Improve Oversight of NDOT's Contract Management" and thanks Governor Sandoval for the leadership he has provided over the last eight years to achieve this goal as Chairman of the Transportation Board. NDOT looks forward to continuing to work with the Governor's Finance Office on furthering the Governor's legacy to develop greater efficiencies, eliminate redundancies, and streamline processes in the best interest of Nevada.

Sincerely,

Rudy Malfabon

Rudy Malfabon, P.E.
Director

MEMORANDUM

June 27, 2011

TO: Department of Transportation Board of Directors
FROM: Susan Martinovich, Director
SUBJECT: July 11, 2011 Transportation Board of Directors Meeting
Item #9: Agreement and Contract Process Approval

Summary:

This item is to discuss and present for approval a process for the Transportation Board of Directors to approve Agreements and Contracts entered into by the Department of Transportation.

Background:

As background to this item it might be beneficial for the board to have a brief summary of certain of its statutory duties and responsibilities as well as a brief history of the Board's delegation of authority to the NDOT director.

Pursuant to NRS 408.131(5), the Transportation Board has authority to "[e]xecute or approve all instruments and documents in the name of the state or department necessary to carry out the provisions of the chapter." The Board also has the statutory authorization to delegate to the NDOT director "such authority as it deems necessary under the provisions of this chapter." NRS 408.131(6). *See* also NRS 408.205. However, "[t]he board shall not delegate to the director its authority to approve purchases of equipment . . . ." NRS 408.389. Additionally, the director may execute all contract necessary to carry out the provisions of Chapter 408 of NRS with the approval of the board, except those construction contracts that must be executed by the chairman of the board. *See* NRS 408.205(1). This statutory authorization is consistent with its legislative intent behind the creation of NDOT:

> To this end, it is the express inent of the legislature to make the board of directors of the department of transportation custodian to the state highways and roads and to provide sufficiently broad authority to enable the board to function adequately and efficiently in all areas of appropriate jurisdiction, subject to the limitation of the constitution and the legislative mandate proposed in this chapter.

A brief history as to how the Board's delegation of authority evolved may be informative and may provide context for this agenda item. The Legislature created the Department of Transportation and abolished the Department of Highways in 1957. *See* 1957 Nev. Stat. Ch. 370, Sec. 21, p. 665. At that time, the Legislature created a board of directors consisting of the governor, attorney general, and the state controller. In 1987, the Legislature repealed that section and amended NRS 408.100 making the Department's director rather than a board of directors the administrator of the Department. *See* 1987 Nev. Stat. Ch. 740, Sec. 9.7, p. 1799. In 1989, the Legislature created a new board of directors consisting of the governor, lieutenant governor, attorney general, the state controller, and three members appointed by the governor. *See* 1989 Nev. Stat. Ch. 603, Sec. 3, p. 1296. The following year at its meeting in April of 1990, the Board considered delegating to the director the ability to execute contracts which otherwise would have required Board approval. The Board approved by motion the delegation to the director of the duty to approve agreements, contracts, and instruments required to be

AMERICAN OVERSIGHT

approved by the Board and granted the director the authority to delegate such authority to the deputy director and assistant directors as deemed necessary by the director.

Analysis:

With this overview of certain statutory authority granted to the Board coupled with the brief summary of the delegation of authority, the following is a recommendation for a revised process for approval of agreements and contracts with a recommendation on what types of matters would be presented to the Board of Examiners for approval, and those which would be presented to the Transportation Board of Directors for approval, ratification, or informational purposes.

Option 1:

- All claim settlements would go to the Board of Examiners for approval (except those within the jurisdiction and financial threshold of the Tort Claim Fund which would go to the tort claims administrator). All claim settlements that are presented to the Board of Examiners will be reported to the Transportation Board as informational items. (Examples include claim settlements for: personnel, construction, right-of-way)

- All agreements related to policy and planning for railways, urban public transportation, and aviation would go to the Board of Examiners.

- All of the following would be presented to the Transportation Board for approval/ratification:

    - All design build construction contracts.

    - All agreements (including amendments) for nonconstruction matters such as consultants, service providers, leases, licenses, etc. (except as otherwise noted above related to railways, urban public transportation, and aviation, and those items exepted below.)

      In order to allow for the free flow of commerce, since Board Meetings are currently held quarterly, it is recommended that the director be authorized to enter into all these agreements (except the design build contracts) provided that they contain a cancellation clause in the event the Board does not approve or ratify the agreement. The contracting party would receive prorated compensation from the start date of the effective date of the cancellation.

- All construction contracts will be signed by the governor as chairman of the board and will be presented to the Board for informational purposes. These contracts will relate to projects that are on the Annual Work Program which is approved by the Board.

- All right of way acquisition agreements (except right-of-way settlement claims as mentioned above) will be presented to the Board for informational purposes. These agreements follow the Federal Highway Administration processes as defined in CFR 23, and timing is critical in both working with the property owners and in project delivery.

AMERICAN OVERSIGHT

- The director or her/his designee may enter contracts as deemed necessary in the event of disaster or great emergency as authorized by NRS 408.323(2). Any such contracts will be reported to the Board.

- Any agreement or contract not involving the expenditure of any state funds (i.e. those involving only federal or local monies) may be signed by the director, and will not be submitted to the Board. Matters handled by State Purchasing will not be submitted to the Board. Routine operational matters such as truck permitting, event permits, facility special use permit, highway agreements for liter-free highways, interlocal agreements, non-governmental traffic video use agreement, etc. will not be presented to the Board.

Option 2:

- All claim settlements would go to the Board of Examiners for approval (except those within the jurisdiction and financial threshold of the Tort Claim Fund which would go to the tort claims administrator). All claim settlements that are presented to the Board of Examiners will be reported to the Transportation Board as informational items. (Examples include claim settlements for: personnel, construction, right-of-way)

- All agreements related to policy and planning for railways, urban public transportation, and aviation would go to the Board of Examiners.

- All of the following would be presented to the Transportation Board for approval/ratification:

    - All design build construction contracts.

    - All agreements over $300k (including amendments) for non-construction matters such as consultants, service providers, leases, licenses, etc. (except as otherwise noted above related to railways, urban public transportation, and aviation, and those items excepted below). This accounts approximately 70% of all contracts.

    - All construction contracts over $5 million. This accounts for approximately 80% of contracts.

  To meet time frames established to deliver seasonal work and to minimize impact to the public to accomplish work in one construction season, or to meet milestone dates, or funding parameters, the **Transportation Board would need to meet monthly** to accommodate project delivery schedules and contractor's bidding practices. NDOT will also work with industry to change our practice of 30 day award to 60 days as they will need to hold their bid prices until approval.

- All construction contracts under $5 million will be signed by the governor as chairman of the board and will be presented to the Board for informational

AMERICAN OVERSIGHT

purposes. These contracts will relate to projects that are on the Annual Work Program which is approved by the Board.

- All right of way acquisition agreements (except right-of-way settlement claims as mentioned above) will be presented to the Board for informational purposes. These agreements follow the Federal Highway Administration processes as defined in CFR 23, and timing is critical in both working with the property owners and in project delivery.

- The director or her/his designee may enter contracts as deemed necessary in the event of disaster or great emergency as authorized by NRS 408.323(2). Any such contracts will be reported to the Board.

- Any agreement or contract not involving the expenditure of any state funds (i.e. those involving only federal or local monies) may be signed by the director, and will not be submitted to the Board. Matters handled by State Purchasing will not be submitted to the Board. Routine operational matters such as truck permitting, event permits, facility special use permit, highway agreements for liter-free highways, interlocal agreements, non-governmental traffic video use agreement, etc. will not be presented to the Board.

Recommendation for Board Action:

Approval and adoption of one the options as outlined above or combination thereof.

Prepared by:

Dennis Gallagher, Chief Deputy Attorney General Transportation Division,
Office of the Nevada Attorney General

AMERICAN OVERSIGHT

9. Agreement and Contract Approval Process – *For possible action.*

Director Martinovich explained that this item is an effort to be more transparent and provide more information to the public and to the Board. Staff has developed two options for consideration by the Board as to a new and improved process for approval of agreements and contracts.

The first option is that all claims and settlements would go to the Board of Examiners for approval except those that fall within the tort claim fund and then would be reported to the Transportation Board. This would include all claims and settlements that involve legal counsel which would include settlements with contracting claims, personnel issues or even right-of-way issues. She wanted to clarify that it wouldn't be the contracts that come in at low bid, it would be for all non-construction matters would come to this Board. It would be set up that if the Board does not approve an agreement, that we could terminate it.

Option 2 is different because everything would be brought to the Board. All claims and settlements would still go to the Board of Examiners, but the biggest differences is that all agreements over the amount of $300,000 would be presented to the Board for approval, as well as all construction projects over $5,000,000. The difference and the challenge is that the Board would need to meet monthly as opposed to quarterly to accommodate contract bid prices and the construction season.

Governor Sandoval asked if the only difference with Option 1 is that the Board would have the ability to ratify construction contract as opposed to them being presented as an informational item.

Director Martinovich stated that was correct. The other difference is that at this time, the Department does not take claim approvals before the Board of Examiners.

Dennis Gallagher stated that an extraordinary delegation of authority that was given to the Director that authorized the Director to enter into all contracts.

Member Martin stated that he has strong feelings about this particular subject and the matter of delegation, and the fiduciary responsibility of the Board approving certain contracts or just ratifying based on a review process that's within the NDOT.

Governor Sandoval stated that he does not believe that the Board has to look at every single contract, but would provide approval of contracts above a certain threshold.

Director Martinovich stated that staff took the liberty in Item No. 10 for all of the agreements that we've entered into during the last quarter and will present them for approval.

Governor Sandoval asked that, in the future, would the Board be seeing them for approval.

Controller Wallin asked what the difference is between construction settlements and construction claims and what the current approval process is for each of these.

AMERICAN OVERSIGHT

Director Martinovich responded that construction claims are when a contractor makes a claim for additional compensation due to change orders or due to other circumstances and these are processed through the Dispute Resolution Board and the Director usually follows that recommendation. Other times we just don't come to settlement and those typically go to Legal and then would go to the Board of Examiners. At this time, they do not go through the Board of Examiners. The Director works through the Attorney General's Office in making a final settlement. At this time, both claims and settlements are decided by the Director in conjunction with the Attorney General's Office.

Controller Wallin would like information regarding how much has been paid in construction settlements over the last five years, the company name and how much was paid for the contract amount prior to settlement. She also wants to know how much was paid in right-of-way claims, who was paid and what was the appraisal amount compared to how much was actually paid.

Director Martinovich responded that staff will provide the requested information to all Board Members.

Controller Wallin then asked about companies filing false claims.

Director Martinovich responded that the Department works closely with the Attorney General's Office to take action against false claims and that is part of the consideration in settlement.

Controller Wallin asked if a Project Manager can change the scope of a design build project or should it come before the Board for approval.

Director Martinovich responded that the Project Manager typically cannot change the scope of a design build project because the Department has issued an RFP that closely outlines the specifications required as well as the criteria for selection. There may be circumstances because of unknown conditions, such as utility locations, where modifications need to be made and that is not brought back to the Board.

Controller Wallin would like the Board to be informed of those things and then expressed concerns about entering into a contract with somebody and then the Board does not approve the contract, it may not be cost effective to terminate the contract and would like to know the reason staff would want contracts with federal dollars to be exempt.

Director Martinovich responded that in reality, most contracts are not under way in three months and the reason for the exemption is that rarely is there a contract with only federal monies and those are typically non-governmental traffic use agreements.

Member Savage asked if a committee was established to come up with these two options and how were the thresholds in Option No. 2 determined.

Director Martinovich responded that she looked at how other states moved forward and their processes, as well as worked with the Governor's Office to develop these recommendations. The thresholds are very flexible and were established by looking at the amount of the majority of contracts.

AMERICAN OVERSIGHT

Member Savage stated that this is a difficult decision and there needs to be some serious consideration before moving forward.

Governor Sandoval asked if the Board would be approving approximately 70% of the contracts if Option No. 2 was approved.

Director Martinovich stated that is correct.
Governor Sandoval stated that he would support Option No. 2 as he would have more comfort in having the ability to review the contracts and would be more than happy to meet monthly and establishing a regular meeting time would be beneficial.

Director Martinovich suggested that we do not start monthly meetings until after the regularly scheduled meeting in October.

Governor Sandoval agreed that starting in October would be a good idea if Option No. 2 is approved. He then asked for further discussion by the Board or any public comment. Hearing none, he asked for a motion.

Member Martin moved for approval of Option No. 2 with implementation to begin after the October Board meeting.

The motion was passed unanimously and Governor Sandoval declared the item passed.

A

AMERICAN OVERSIGHT

Appendix E

Timetable for Implementing Audit Recommendations

In consultation with the Department of Transportation (NDOT), the Division of Internal Audits categorized the recommendations contained within this report into one of two separate implementation time frames (i.e., *Category 1* – less than six months; *Category 2* – more than six months). NDOT should begin taking steps to implement all recommendations as soon as possible. NDOT's target completion dates are incorporated from Appendix D.

Category 1: Recommendations with an anticipated implementation period of less than six months.

Recommendations	Time Frame
1. Submit administrative contracts and amendments of $50,000 and above to the NDOT Board for approval. (page 3)	Aug. 2018
2. Submit sole source contracts to Purchasing Division Administrator for approval. (page 4)	Dec. 2018
4. Ensure all relevant contract information is provided to NDOT Board for informational items. (page 7)	Dec. 2018
5. Comply with state and federal guidelines. (page 9)	Dec. 2018
6. Report informational items to the NDOT Board. (page 9)	Dec. 2018
	Dec. 2018

Category 2: Recommendations with an anticipated implementation period exceeding six months.

Recommendations	Time Frame
3. Renew the director's contract approval limit when there is a new Governor. (page 5)	Jan. 2019

AMERICAN OVERSIGHT

The Division of Internal Audits shall evaluate the action taken by NDOT concerning the report recommendations within six months from the issuance of this report. The Division of Internal Audits must report the results of its evaluation to the Executive Branch Audit Committee and NDOT.

AMERICAN OVERSIGHT

Attachment B

Nevada Revised Statutes

Powers and Duties of the Transportation Board of Director and the Director

NRS 408.131 Duties. [Effective on the date on which the Director of the Department of Transportation notifies the Governor and the Director of the Legislative Counsel Bureau that sufficient money is available to capitalize and carry out the business of the Nevada State Infrastructure Bank created by NRS 408.55069.] Except as otherwise provided in NRS 408.55048 to 408.55088, inclusive, the Board shall:

1. Consider, at its meetings, all questions relating to the general policy of the Department and transact such business as properly comes before it.
2. Receive and consider, at such time as the Board selects, an annual report by the Director.
3. Except as otherwise provided in NRS 408.203, act for the Department in all matters relating to recommendations, reports and such other matters as the Board finds advisable to submit to the Legislature.
4. Maintain a record of all proceedings of the Board.
5. Execute or approve all instruments and documents in the name of the State or the Department necessary to carry out the provisions of this chapter.
6. Except as otherwise provided in NRS 408.389, delegate to the Director such authority as it deems necessary under the provisions of this chapter.
7. Act by resolution, vote or order entered in its records.

(Added to NRS by 1989, 1297; A 1993, 1366; 2017, 4137, effective on the date on which the Director of the Department of Transportation notifies the Governor and the Director of the Legislative Counsel Bureau that sufficient money is available to capitalize and carry out the business of the Nevada State Infrastructure Bank created by NRS 408.55069)

NRS 408.205 Powers of Director: Execution of instruments and documents; deductions from wages of officers and employees for purchase of United States Savings Bonds or similar obligations. [Effective on the date on which the Director of the Department of Transportation notifies the Governor and the Director of the Legislative Counsel Bureau that sufficient money is available to capitalize and carry out the business of the Nevada State Infrastructure Bank created by NRS 408.55069.]

1. With the approval of the Board, the Director may execute all plans, specifications, contracts and instruments in the name of the State of Nevada necessary for the carrying out of the provisions of this chapter, except as otherwise provided in NRS 408.55048 to 408.55088, inclusive, and except those construction contracts as provided in NRS 408.327 and 408.347.
2. The Director has such other power and authority as is necessary and proper under the provisions of this chapter, or as the Board delegates to the Director.
3. The Director shall provide for the purchase of United States Savings Bonds or similar United States obligations by salary or wage deductions for officers and employees of the Department who make written requests for such deductions and purchases. To allow all Department officers and employees the opportunity of requesting salary or wage deductions for the purchase of United States obligations, the Director shall provide forms authorizing the deductions and purchases and shall make them readily available to all Department officers and employees.

(Added to NRS by 1957, 668; A 1979, 1766; 1987, 1802; 1989, 1299; 2017, 4138, effective on the date on which the Director of the Department of Transportation notifies the Governor and the Director of the Legislative Counsel Bureau that sufficient money is available to capitalize and carry out the business of the Nevada State Infrastructure Bank created by NRS 408.55069)

Jojo,

Just wanted to ensure you were tracking a potential provider for rural service. Axion is a satellite entertainment provider that has moved relocated to Reno and was approved for incentives at the last GOED board meeting (draft minutes attached – item 5B)/ "Mr. Wendt advised Axion Corporation provided advanced satellite technologies and services that enabled consumer and residential access to a new generation of high throughput satellites." And " Governor Sandoval inquired whether the company's service would be accessible in rural Nevada. Mr. Wendt confirmed this was accurate and advised the first three spot beams to be launched would be in northern Nevada. Thus, providing broadband capabilities to any citizen in the State of Nevada."

I've also attached their board application packet.

I am not sure they are a fit to integrate into your programs but they might be. I can find a good POC if you'd like to connect with them. - Matt

Board Summary

Axion Corporation

505 E. Windmill Lane Suite 1C-117, Las Vegas, NV 89123
Thomas Wendt, Chief Executive Officer
Company Headquarters

Date: May 17, 2018
Main Location: Carson City

Business Type: New | County: Washoe County | Development Authority Representative: Stan Thomas - EDAWN

APPLICATION HIGHLIGHTS

- Axion Corporation is considering establishing a facility in Reno, NV. The northern Nevada facility would house the company's engineering, manufacturing, distribution, headquarters, and satellite support services.
- The target date for the expansion is fall 2018, with operations to commence in November 2018.

PROFILE

Axion Corporation is a provider of satellite-based entertainment services for the consumer and commercial markets. The company is a start-up currently based in Las Vegas, Nevada. After careful consideration of growth potential, the company has formulated plans to relocate to Reno, Nevada from its current location. The company plans to hire and train employees from the local Reno area, and begin engineering, manufacturing, distribution, headquarters, and satellite support services at a location in the Reno area for which we are currently searching. The target date for the physical move is fall 2018, with operations to commence in November 2018. *Source: Axion Corporation*

SIGNIFICANCE OF ABATEMENTS IN THE COMPANY'S DECISION TO RELOCATE/EXPAND

Axion Corporation is eyeing tremendous opportunity in its markets and, like any young company, needs to establish its operations in a cost-effective manner to support its projected growth. The incentive and abatement programs offered through GOED will make it possible to build the company's manufacturing, engineering, distribution, business and headquarters operations in a manner that is pleasing to investors and essential to Axion Corporation's bottom line. These incentives and abatements are of the highest importance to Axion Corporation and the company is grateful to be included as a candidate for these programs. *Source: Axion Corporation*

Re: Axion Corporation

Dear Paul;

EDAWN hereby supports the application of Axion Corporation for the Sales & Use Tax Abatement, Modified Business Tax Abatement, and Personal Property Tax Abatement.

Axion is a provider of satellite-based entertainment services for the consumer and commercial markets. The company is planning to relocate its corporate headquarters, manufacturing and engineering to Reno with plans to commence operations by November 2018.

The company will be investing approximately $27,000,000 in capital equipment and plans to hire 205 employees by the end of Year Two at an average wage of $40.60 per hour and 511 employees at the end of 5 years.

The company's compensation package includes medical, dental, and vision benefits. Additional compensation includes merit increases, overtime, PTO/sick/vacation, retirement plan/profit sharing/401K, tuition assistance, retirement plan/profit sharing/401K, and bonus. Employee health insurance is covered 70% by the company and commences upon employment.

EDAWN supports this application as the company meets all three program requirements. Your consideration and support of the incentive application for Axion is a significant factor in their pending decision to expand in northern Nevada and speaks favorably to the State's business-friendly environment.

Sincerely,

Stan Thomas
EDAWN, Executive Vice-President
Business Development

AXION CORPORATION

April 4, 2018

Governor's Office of Economic Development
808 West Nye Lane
Carson City, NV 89703

Dear Commission Members:

Axion Corporation is a provider of satellite-based entertainment services for the consumer and commercial markets. We are a start-up currently based in Las Vegas, Nevada. After careful consideration of our growth potential, our company has formulated plans to relocate to Reno, Nevada from our current location in Las Vegas, Nevada. We plan to hire and train employees from the local Reno area, and begin engineering, manufacturing, distribution, headquarters, and satellite support services at a location in the Reno area for which we are currently searching. The target date for the physical move is fall 2018, with operations to commence in November 2018.

The decision to relocate our operations from Las Vegas operation to Reno was due to several factors, including the business tax structure, cost of living, availability of technical talent, and logistic advantages offered by the region. In addition, Axion is aware of the benefits of the State Incentive Program, and this also was a critical factor in deciding to relocate our manufacturing and engineering operations to Reno.

The relocation plan to Reno involves setting up a manufacturing operation and engineering offices and investments in additional equipment. In order to staff and operate our operations, the plan is to hire up to 205 employees in the first two years, with increases over five years. The average hourly rate of the employees is projected to be $40.60.

We are excited about the market opportunities presented by this relocation and the advantages that locating this facility in Reno will offer our company. In conjunction with Nevada's business-friendly environment, we see this as a first step in what will be increased growth for Axion Corp.

Sincerely,

Peter Vrettas
President & CAO

RE: REQUEST FOR CONFIDENTIALITY OF RECORDS AND DOCUMENTS

Dear Director Anderson:

On April 5, 2018, Axion Corporation submitted an application to you as the Executive Director of the State of Nevada Governor's Office of Economic Development ("GOED") requesting approval of economic incentives for their new operation in Nevada. The purpose of this letter is to request confidentiality pursuant to Section 4 of Assembly Bill No. 17 (2015 Regular Session) as codified in NRS 231.069.

Please be advised Axion Corporation specifically deems the following information proprietary and confidential:

1) The detailed schedule of Employment List
2) The detailed schedule of Capital Equipment List

Thank you for your consideration. If you have any questions or require any further information, please do not hesitate to contact me.

Sincerely,

Peter T. Vrettas
President & CAO

Has your company ever applied and been approved for incentives available by the Governor's Office of Economic Development? ☐ Yes ☑ No

If Yes, list the program awarded, date of approval, and status of the accounts (attach separate sheet if necessary):

Section 3 - Program Requirements

Please check two of the boxes below; the company must meet at least two of the three program requirements:

- [x] A capital investment of $1,000,000 in eligible equipment in urban areas or $250,000 in eligible equipment in rural areas are required. This criteria is businesses. In cases of expanding businesses, the capital investment must equal at least 20% of the value of the tangible property owned by the business.
- [x] New businesses locating in urban areas require fifty (50) or more permanent, full-time employees on its payroll by the eighth calendar quarter following quarter in which the abatement becomes effective. In rural areas, the requirement is ten (10) or more. For an expansion, the business must increase employees on its payroll by 10% more than its existing employees prior to expansion, or by 25 (urban) or 6 (rural) employees, whichever is greater.
- [x] In urban areas, the average hourly wage that will be paid by the business to its new employees is at least 100% of the average statewide hourly wage. in rural areas, the average hourly wage will equal or exceed the lesser of the county-wide average hourly wage or statewide average hourly wage.

Note: Criteria is different depending on whether the business is in a county whose population is 100,000 or more or a city whose population is 60,000 or more (i.e., "urban" area), or if the business is in a county whose population is less than 100,000 or a city whose population is less than 60,000 (i.e., "rural" area).

Section 4 - Nevada Facility

Type of Facility:

- [x] Headquarters
- [x] Technology
- [x] Back Office Operations
- [x] Research & Development / Intellectual Property
- [ ] Service Provider
- [x] Distribution / Fulfillment
- [x] Manufacturing
- [ ] Other: _____

Site Selection Factors

Company Name: Axion Corp. County: Washoe

Section 1 - Site Selection Ratings

Directions: Please rate the select factors by importance to the company's business (1 = very low; 5 = very high). Attach this form to the Incentives Application.

Availability of qualified workforce:	3	Transportation infrastructure:	1
Labor costs:	2	Transportation costs:	1
Real estate availability:	4	State and local tax structure:	5
Real estate costs:	3	State and local incentives:	5
Utility infrastructure:	5	Business permitting & regulatory structure:	3
Utility costs:	2	Access to higher education resources:	3

Please summarize the importance of the abatement program to your decision (please include at least a paragraph summary):

Axion Corp. is eyeing tremendous opportunity in its markets, and like any young company, needs to establish its operations in a cost-effective manner as a springboard to its projected growth. The incentive and abatement programs offered through GOED will make it possible to build our manufacturing, engineering, distribution, business and headquarters operations in a manner that is pleasing to our investors and essential to our bottom line. These incentives and abatements are of the highest importance to Axion, and we are grateful to be included as a candidate for these programs.

2. PUBLIC COMMENT

Mr. Brian Wilcox, Chief Information Security Officer (CISO), BlackRidge Technology (BlackRidge), provided public comment in Carson City. Mr. Wilcox advised he was the former CISO for the State of Nevada prior to joining Blackridge, a military grade cyber defense security company headquartered in Reno, Nevada. Mr. Wilcox noted his previous role had awarded him a unique vantage point to understanding the strengths, weaknesses, threats, and opportunities of the state's cyber defenses. Mr. Wilcox advised he'd come in front of the Board as an extension of his public trust obligation fostered while in official capacity with the state. Mr. Wilcox noted BlackRidge was unique in providing a solution that forever changed safe internet communications. Transport Access Control (TAC), the primary of seven patents held by BlackRidge, acts as the liaison between the chaos of the internet and organizational networks, preventing unapproved traffic from being initiated. The solution authenticates every connection on the first packet of data, resulting in an immediate reduction in malicious, unwanted traffic that poses the bulk of cyber threats. Mr. Wilcox would continue informing Nevada's state entities that the next generation of cyber defenses had arrived and BlackRidge would be managing efforts through the Nevada Office of Cyber Defense Coordination.

AMERICAN OVERSIGHT

Mr. Jared Smith, Chief Operating Officer, Las Vegas Global Economic Alliance (LVGEA) provided public comment from Las Vegas. Mr. Smith noted the May 17 meeting agenda comprised the most projects LVGEA had ever represented at a GOED Board meeting. Mr. Smith commended the companies, Nevada's Economic Development infrastructure staff, and the state's incentive and abatement programs.

3. GOVERNOR SANDOVAL'S COMMENTS

Governor Brian Sandoval opened the meeting and welcomed new Nevada Governor's Office of Economic Development (GOED) Board member Mr. Adam Kramer, Executive Vice President of Strategy, Switch, Inc. Mr. Kramer thanked Governor Sandoval and noted he was greatly appreciative for the opportunity to serve on the Board.

Governor Sandoval noted the meeting's robust agenda and thanked the GOED Board, Regional Development Authorities, local governments, and Nevada's institutions of higher learning for their work with companies considering Nevada for relocation or expansion.

4. APPROVAL OF THE MARCH 15, 2018 BOARD MEETING MINUTES

A MOTION WAS MADE BY MR. DAN KLAICH TO APPROVE THE MARCH 15, 2018 MEETING MINUTES; THIS MOTION WAS SECONDED BY MR. KRAMER. THE MOTION PASSED UNANIMOUSLY.

5. ABATEMENT APPLICATIONS FOR BOARD APPROVAL:

A. ADVANCED TECHNOLOGIES MANAGEMENT, INC. DBA PICTOGRAPHICS

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Perry Ursem, Vice President of Business Retention and Expansion, LVGEA presented Advanced Technologies Management, Inc. dba Pictographics (Pictographics), and provided a brief overview of the company and abatements sought. Pictographics is an industry leader in print technology, utilizing the latest hardware to deliver the highest quality products. The company produced graphics for events, trade shows, interior design, and architectural installations and is was a manufacturer for strategic partners. The expansion would add 27 new jobs, producing an average hourly wage of $27.35, and capital investment projections of $17.6m. Mr. Ursem was joined by Mr. Craig Miller, President and Chief Executive Officer, Pictograhics.

Mr. Miller advised Pictographics planned to expand its existing southern Nevada manufacturing facility in conjunction with leasing or purchasing a second facility. The company started as a family-run, suburban home-based, credit-card-financed business and evolved into a 'world class' company. The company has been the principal graphics provider for the Fiesta Bowl, BCS

AMERICAN OVERSIGHT

National Championship, NBA All Star Games, and for key exhibitors at the Consumer Electronics Show (CES) including Intel, Nokia, and LG Electronics. Pictographics continued to expand its market by becoming a total solution provider and by partnering with other solutions companies. Mr. Miller noted the company was currently forming an alliance with Hewlett-Packard (HP) to become a manufacturing center for 3D printing. Pictographics had been named the beta site for HP's new 580 color printer and the beta site for Mimaki USA's 3DUJ-553 photorealistic 3D printer.

Lieutenant Governor Mark Hutchison asked whether the company's technology was intellectual property (IP) protected. Mr. Miller confirmed Pictographics had several patents and initial access to certain products and technologies. To support this the company had teamed up with high schools, and the university system, to develop the talent pipeline required for the progressive additive manufacturing sector. Additionally, the company planned to grow its intern program to offer internships to UNLV undergraduate and graduate students. Mr. Miller highlighted the University of Las Vegas' (UNLV) engineering program and noted the company had excellent experiences working with Mr. Rama Venkat, Dean, UNLV Howard R. Hughes College of Engineering.

A MOTION WAS MADE BY MR. KLAICH TO APPROVE THE APPLICATION FOR A SALES TAX ABATEMENT, MODIFIED BUSINESS TAX ABATEMENT, AND PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 5A. THIS MOTION WAS SECONDED BY SECRETARY OF STATE BARBARA CEGAVSKE. THE MOTION PASSED UNANIMOUSLY.

B. AXION CORPORATION

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Stan Thomas, Executive Vice President, Economic Development Authority of Western Nevada (EDAWN), presented Axion Corporation and provided a brief overview of the company and abatements sought. Axion Corporation is a provider of satellite-based entertainment services for the consumer and commercial markets. Axion Corporation is considering establishing a facility in Reno, NV. The northern Nevada facility would house the company's engineering, manufacturing, distribution, headquarters, and satellite support services. The company planned to invest over $27m in capital equipment and anticipated hiring 205 employees with an average wage over $40.00 an hour. Mr. Thomas was joined by Mr. Thomas Wendt, Chief Executive Officer, Axion Corporation

Mr. Wendt advised Axion Corporation provided advanced satellite technologies and services that enabled consumer and residential access to a new generation of high throughput satellites. Axion Corporation would initially deliver products in the United States however the first satellite's coverage would include North America, Mexico, Latin America, the Caribbean. The company's initial target market was the 14 million households in the United States currently with little or no

AMERICAN OVERSIGHT

access to residential broadband services. The economic incentives and dynamic business climate were important reasons Axion Corporation had reviewed as a Nevada location.
Governor Sandoval inquired whether the company's service would be accessible in rural Nevada. Mr. Wendt confirmed this was accurate and advised the first three spot beams to be launched would be in northern Nevada. Thus, providing broadband capabilities to any citizen in the State of Nevada.

Governor Sandoval inquired about the specific skill sets sought in employees. Mr. Wendt advised approximately half of the company's employees would be required to have engineering skillsets. However, the company would also be seeking to fill roles in manufacturing, distribution, IT, business development, and corporate headquarter positions.

Governor Sandoval inquired whether the company planned to work with Nevada learning institutions for recruitment purposes. Mr. Wendt noted the company anticipated collaborating with the University of Reno (UNR) and UNLV for hiring and employment program purposes.

Secretary of State Cegavske inquired whether the company also planned to reach out to community colleges. Mr. Wendt advised EDAWN had connected the company with local community colleges and Axion Corporation was exploring the opportunity to develop a 12-week training process.

A MOTION WAS MADE BY LIEUTENANT GOVERNOR HUTCHISON TO APPROVE THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 5B. THIS MOTION WAS SECONDED BY DR. WELDON HAVINS. THE MOTION PASSED UNANIMOUSLY.

C. CAREMARK, LLC
- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

D. CAREMARK, LLC
- **CATALYST FUND**

Governor Sandoval advised Agenda Items 5C and 5D would be heard together.

Mr. Michael Walsh, Vice President of Economic Development, LVGEA, presented Caremark, LLC, and provided a brief overview of the company and abatements sought. Caremark, LLC, operates as a subsidiary of the American retail and health care company CVS Health (CVS). CVS is a Fortune 10 company and is presently the largest pharmacy chain in the United States in terms of number of locations and total prescription revenues. Caremark, LLC offers prescription benefits management services in the United States. The company designs and fulfills prescription drug benefit plans. The company offers prescription benefit services, including local retail pharmacy and home delivery options; specialty pharmacy services, such as pharmaceuticals and other therapeutic services for participants with chronic or genetic disorders; and care patterns

AMERICAN OVERSIGHT

disease management programs, which provide participant care for complex conditions. Caremark, LLC anticipates hiring 102 new employees in the first 24 months of operations, with an average hourly wage of $25.73. The company anticipated making a capital investment of $5m in equipment. Mr. Walsh thanked Mr. Gustavo Perez, Senior Manager - Indirect Tax, Ernst & Young for bringing this opportunity to the State of Nevada. Mr. Walsh was joined by Mr. Dan Klein, Director of Engineering, Caremark, LLC.

Mr. Klein advised CVS/Caremark, LLC had recently been focused on the creation of a prescription management service center that would provide innovative tools and strategies to help improve clinical outcomes for client plan members while assisting them in managing pharmacy overall health care costs. The company was seeking the most operationally efficient and cost-effective location to accommodate its business needs as the company was planning for large capital and hiring commitments. Mr. Klein highlighted the company's commitment to community engagement and corporate citizenship via event sponsorship, volunteerism, and disaster relief. The company is also committed to leveraging local universities to increase high-paying positions in the pharmaceutical sector, which in turn would drive industry growth. Mr. Klein noted the opportunity for partnerships and collaborations with UNLV, the College of Southern Nevada (CSN), and other southern Nevada institutions.

Governor Sandoval requested additional information on the role of a prescription management service. Mr. Klein advised the center would be staffed with employees versed in handling high-touch patient counseling, coaching, and therapy management. In the specialty pharmacy business there was a significant volume of high-touch patients requiring nursing, pharmacist intervention, and additional specialized medical services. The services provided by the new facility would be focused nationally and delivered telephonically.

Governor Sandoval inquired about the specific skill sets sought in employees. Mr. Klein advised the company would primarily be seeking pharmacy technicians, pharmacists, and nurses.

Governor Sandoval asked about the company's next steps should it be awarded the abatements sought. Mr. Klein advised the company would make it final decision, on the location for its prescription management service center, within a week.

Governor Sandoval inquired whether Nevada's incentive packages were important in terms of the company's decision to locate in Nevada. Mr. Klein confirmed this was a critical factor in the company's decision-making process.

A MOTION WAS MADE BY MR. RAYMOND SPECHT TO APPROVE THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 5C, AND A CATALYST FUND GRANT IN AN AMOUNT NOT TO EXCEED $350,000, AS DESCRIBED IN AGENDA ITEM 5D. THIS MOTION WAS SECONDED BY MR. KRAMER. THE MOTION PASSED UNANIMOUSLY.

AMERICAN OVERSIGHT

E. FORTRESS INNOVATIONS, INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Ursem, LVGEA, presented Fortress Innovations, Inc. and provided a brief overview of the company and abatements sought. Fortress Innovations, Inc. is a vertically integrated company that manufactures and sells a proprietary structural wall system named the "1WallSystem™ which allows construction to be done faster, stronger, less-expensive and with the highest energy-efficiency and fire ratings in the market. The company also manufactures steel framing components, steel trusses and distributes a suite of proprietary insulation paints/coatings for commercial, industrial and domestic/residential use that significantly increase energy performance by deflecting over 98% of the sun's heat and ultraviolet rays and significantly reduces acoustic levels while providing a protective "skin" over the structure to protect it against the elements over a 25-year life-cycle. The project would include 30 new hires at an average hourly wage of $25.18, and a capital investment of approximately $5.6m. Mr. Ursem was joined by Mr. Dean Pardee, Chief Executive Officer, Fortress Innovations, Inc.

Mr. Pardee advised the Fortress Innovations, Inc. planned to build a 275,000-square-foot permanent manufacturing facility in southern Nevada. In order to commence production while its manufacturing plant was built, the company would lease 10,000 to 20,000 square feet in a Nevada location. Mr. Pardee noted the company was a US military veteran 1st hiring company and would actively participate in military support, environmental, affordable housing, homelessness, and animal therapy support initiatives.

Governor Sandoval asked if the company planned to do its own development or sell its projects to developers. Mr. Pardee advised the company planned to do both. The company was currently speaking with several large builders and companies directly involved with the residential and commercial construction industry in Nevada. There may be opportunity build a client base, or form joint ventures in addition to the company's own projects.

Mr. James Barrett inquired about the specific skill sets sought in employees. Mr. Pardee advised, from a framing standpoint, a team could be trained within 48 hours. The company had significantly simplified the building process to enable this. The Los Angeles Department of Building and Safety had stated it was the best technology seen in 30 years.

Mr. Specht asked about the company's employment projection of 180 new jobs created in five-years. Mr. Pardee advised there would be employment across all areas of the company including factory workers, field construction, developers, and construction managers.

A MOTION WAS MADE BY MR. BARRETT TO APPROVE THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 5E. THIS MOTION WAS SECONDED BY MR. KLAICH. THE MOTION PASSED UNANIMOUSLY.

AMERICAN OVERSIGHT

F. FULCRUM SIERRA BIOFUELS, LLC

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**
- **REAL PROPERTY TAX ABATEMENT**

Ms. Nancy McCormick, Senior Vice President of Retention and Expansion, EDAWN, presented Fulcrum Sierra Biofuels, LLC and provided a brief overview of the company and abatements sought. Fulcrum Sierra BioFuels, LLC (Fulcrum) is a wholly-owned subsidiary of Fulcrum BioEnergy, Inc (FBE). FBE was formed to develop a reliable and efficient process for converting municipal solid waste (MSW) into renewable transportation fuels. Fulcrum Sierra BioFuels, LLC's existing Feedstock Processing Facility in Storey County processes MSW-derived feedstock to be shredded and compacted for transport to the company's Biorefinery, where it would be converted into renewable transportation fuels, including jet fuel and diesel. The Biorefinery, also in Storey County, would produce transportation fuel that competed directly with high-priced fossil fuels, and was expected to have a lower cost, lower carbon, and lower emissions than traditional fossil fuel alternatives. Collectively the Feedstock Processing Facility and Biorefinery would convert approximately 175,000 tons per year of MSW, or household garbage, into approximately 10.5 million gallons per year (800 barrels per day) of renewable Syncrude that would be upgraded and processed into low-carbon transportation fuel products. The project would include an equipment investment of approximately $13.25m, and building costs exceeding $12.9m. The company would add 13 positions at an average hourly rate of $22.04. Ms. McCormick was joined by Ms. Jeanne Benedetti, Senior Director Project Development, Fulcrum Sierra Biofuels, LLC.

Ms. Benedetti advised Fulcrum planned to commence the Stage 2 expansion of its Feedstock Processing Facility located in Storey County, Nevada. This will include an additional 29,000 square-feet of building to accommodate the installation of additional processing equipment.

Governor Sandoval inquired whether the waste streams came directly to the company, or through a waste management organization. Ms. Benedetti advised, the trash went through the local waste management transfer station. When Fulcrum was ready to receive a trash shipment it turned on a green light at the front of its facility. The route trucks going past would turn into Fulcrum's facility rather than continuing a quarter mile to the scale house.

Governor Sandoval asked whether the company's process could make landfills obsolete. Ms. Benedetti noted the company could not accept trash such as tires and mattresses, however the process contributed to a significant landfill reduction.

Mr. Klaich asked about the economics of this process. Ms. Benedetti advised Fulcrum's product costs approximately one dollar a gallon to produce. As the feedstock was free the production costs were significantly less than those of fossil fuel.

A MOTION WAS MADE BY MR. KRAMER TO APPROVE THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, A PERSONAL PROPERTY TAX ABATEMENT, AND A REAL PROPERTY

AMERICAN OVERSIGHT

ABATEMENT AS DESCRIBED IN AGENDA ITEM 5F. THIS MOTION WAS SECONDED BY MR. KLAICH. THE MOTION PASSED UNANIMOUSLY.

G. KRS GLOBAL BIOTECHNOLOGY, INC.
- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

H. KRS GLOBAL BIOTECHNOLOGY, INC.
- **CATALYST FUND**

Governor Sandoval advised Agenda Items 5G and 5H would be heard together.

Mr. Walsh, LVGEA, presented KRS Global Biotechnology, Inc., and provided a brief overview of the company and abatements sought. KRS Global Biotechnology, Inc. makes custom pharmaceuticals; sterile products such as syringes and IV bags; purified water for drug manufacturing; and a kit used by hospitals and other compounding pharmacies to test their technicians. The company provides its services to patients, surgery centers, ophthalmology clinics, hospitals, universities, and veterinarians nationwide and is committed to being the top provider of these compounding services while developing quality processes that facilitate the highest level of safety for patients of parenteral, enteral, oral, and topical preparations. KRS Global Biotechnology, Inc. is a FDA registered medical device manufacturer and registered 'outsourcer of human drugs' under The Drug Quality and Security Act, a law designed to help protect consumers from exposure to pharmaceutical drugs that may be counterfeit, stolen, contaminated, or otherwise harmful. The project would involve the hire of 50 new employees in at an average hourly wage of $25.00 and a capital investment of $34.5m. Mr. Walsh was joined by Mr. Riccardo Roscetti, President and Chief Operating Officer, KRS Global Biotechnology, Inc.

Mr. Roscetti advised, as a result of the increased demand for the company's products and services, KRS Global Biotechnology, Inc. would be expanding capacity to provide additional manufacturing, research and development, and warehousing operations. The company is currently evaluating the construction of a licensed pharmaceutical manufacturing facility. The new facility would be 150,000 square foot of newly constructed space housing clean rooms, production lines, and warehousing.

Governor Sandoval asked about the roles to be filled at the company’s new facility. Mr. Roscetti advised there were various skill sets sought, one of these being technicians. The company had previously set up a technician training school, in Florida, for pharmacy tech certifications. Mr. Roscetti noted the company would seek opportunities to work with local colleges and universities to train the workforce for its new facility.

Governor Sandoval asked, assuming favorable consideration of its application, would the company be likely to select Nevada. Mr. Roscetti confirmed the company was committed to a Nevada location and noted the company had been attracted to Nevada for its well-trained

AMERICAN OVERSIGHT

workforce, attractive economic environment, and commitment to the biotechnology pharmaceutical space via the UNLV Medical School.

Lieutenant Governor Hutchison asked if UNLV's Medical School has been an integral factor in the company's decision to consider Nevada. Mr. Roscetti confirmed and advised generally, strong medical schools had the talent, production capabilities, and products sought by the company.

Lieutenant Governor Hutchison asked if the company had been in contact with the UNLV Medical School thus far. Mr. Roscetti advised the company planned to make contact regarding collaboration opportunities

A MOTION WAS MADE BY MR. BARRETT TO APPROVE THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 5G, AND A CATALYST FUND GRANT IN AN AMOUNT NOT TO EXCEED $640,000, AS DESCRIBED IN AGENDA ITEM 5H. THIS MOTION WAS SECONDED BY MR. KLAICH. THE MOTION PASSED UNANIMOUSLY.

I. POLARIS INDUSTIRES, INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Andrew Haskin, Director of Business Development, Northern Nevada Development Authority (NNDA), presented Polaris Industries, Inc., and provided a brief overview of the company and abatements sought. Polaris Industries, Inc. designs, engineers, manufactures, and markets power sports vehicles worldwide. The company offers ORVs, including all-terrain vehicles and side-by-side vehicles for recreational and utility use; snowmobiles; motorcycles; and low emission, light duty hauling, passenger, commercial, and industrial vehicles, as well as snow bike conversion kit systems. Polaris Industries, Inc. also produces or supplies various replacement parts and accessories and manufactures, distributes, retails, and installs aftermarket parts and accessories for light trucks, jeeps, sport-utility vehicles, and other four-wheel drive vehicles. In addition, the company sells recreational apparel through a network of dealers and distributors, as well as online. The project would create 64 new jobs at an average hourly wage of $21.95 an hour with an approximate investment of $13.6m in capital equipment. Mr. Haskin was joined by Mr. Paul Eickhoff, Senior Director of Distribution, Polaris Industries, Inc.

Mr. Eickhoff advised Polaris Industries, Inc. was considering building a 500,000 square-foot facility in the Lyon County. The proposed project would establish the company's first western United States distribution center.

Governor Sandoval asked whether the company would seek a new or existing facility. Mr. Eickhoff advised the company would be seeking a green field, ground up build.

AMERICAN OVERSIGHT

Governor Sandoval asked, assuming favorable consideration of its application, would the company be likely to select Nevada. Mr. Eickhoff advised a decision was anticipated within the forthcoming few weeks.

Mr. Kramer noted the company's application listed the City of Fernley, as a potential location, and highlighted that the Mayor of Fernley was a committed partner in economic development, and would be a great local partner for the company.

A MOTION WAS MADE BY MR. KLAICH TO APPROVE THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 5H. THIS MOTION WAS SECONDED BY SECRETARY OF STATE CEGAVSKE. THE MOTION PASSED UNANIMOUSLY.

J. RITCHIE BROS. AUCTIONEERS (AMERICA), INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Ursem, LVGEA presented Ritchie Bros. Auctioneers (America) Inc. (RBA), and provided a brief overview of the company and abatements sought. RBA is the world's largest industrial auctioneer. The company is headquartered in Burnaby, Vancouver, and has 110 locations in 25 countries and 44 auction sites worldwide. RBA has been operating in the State of Nevada since October 29, 1997. The company operates across multiple sectors including transportation, agricultural, material handling, mining, forestry, petroleum, and marine industries. RBA sells, through unreserved public auctions, a broad range of used and unused industrial assets such as equipment, trucks and other assets utilized in the construction. The expansion would include 25 new jobs at an average hourly wage of $22.94 and project capital investment of $3m. Mr. Ursem thanked Ms. Gina Gavin, Director of Economic Development, City of North Las Vegas (NLV), NLV's Economic Development team, and Mayor John Lee for their letter support of RBA's application. Mr. Ursem was joined by Mr. Randy Berry, Senior Vice President of Digital Operations, RBA, and Mr. Connor Humphrey, Vice President, GovPlanet.

Mr. Berry advised the company planned to expand its southern Nevada operations to establish a 169,080 square-foot warehouse facility that would be used to manage the storage and distribution of equipment. The warehouse will be the central processing center in the region handling storage, logistics, inventory management, auction management, and delivery orders.

Governor Sandoval asked, assuming favorable consideration of its application, would the company be likely to expand in Nevada. Mr. Berry confirmed this was the case.

Governor Sandoval where the company new facility would be located. Mr. Humphrey confirmed the new facility would be located in NLV, close enough to leverage the company's existing auction site for certain asset types not requiring significant indoor storage and handling.

AMERICAN OVERSIGHT

Governor Sandoval asked about the company's hiring and recruitment plans. Mr. Berry advised the company would initially seek to fill key warehouse operations positions and would continue to hire warehouse staff as the company built out its operation. This would include supervisors, inventory management coordinators, merchandising, coordinators, receiving clerks, shipping clerks, and other support personnel.

Lieutenant Governor Hutchison inquired about the online aspect of the business. Mr. Berry noted the company had multiple online selling platforms including IronPlanet selling core heavy equipment, construction, and trucks, and GovPlanet which is focused on government assets.

Mr. Kramer abstained from the vote due to potential conflicts.

A MOTION WAS MADE BY DR. HAVINS TO APPROVE THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 5J. THIS MOTION WAS SECONDED BY MR. SPECHT. THE MOTION PASSED UNANIMOUSLY.

K. SEPHORA USA, INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Walsh, LVGEA, presented Sephora USA, Inc. and provided a brief overview of the company and abatements sought. Sephora USA, Inc. is a French chain of cosmetics stores founded in 1969. Featuring nearly 300 brands, along with its own private label, Sephora offers beauty products including makeup, skincare, body, fragrance, nail color, and haircare. Sephora is owned by luxury conglomerate Moet Hennessy Louis Vuitton as of 1997. Sephora USA, Inc. operates approximately 1,900 locations in 33 countries worldwide, with an expanding base of over 430 stores across the Americas. The company also had 590 Sephora locations in JCPenney stores across the US. In addition to the company's number of stores, Sephora offered its products for sale on its website. The project would comprise approximately $36m in capital investment and the hire of 60 employees at an average wage of $24.05. Mr. Walsh was joined by Mr. Jeff Ritacco, Vice President of Logistics, Sephora USA, Inc. and John Lenio, Executive Vice President, CBRE Group.

Mr. Ritacco advised Sephora USA, Inc. was considering opening a 715,000 square-foot distribution facility in NLV. The proposed project would include a new regional distribution center which would ship products to stores and customers located in 11 western states. At full operations, the new distribution center would process approximately $100m in goods a year. Additionally, all employees would be new and there would be no transfer of jobs from one distribution center to another.

AMERICAN OVERSIGHT

Governor Sandoval asked about the company's next steps should it be awarded the abatements sought. Mr. Ritacco advised the company was keen to decide swiftly and noted the Board's approval of tax incentives would greatly assist the company's decision to locate in Nevada.

Governor Sandoval asked when the company planned to be operational at its new site. Mr. Ritacco advised operations were anticipated to commence by July of 2019.

Mr. Specht highlighted the company's focus on hiring veterans or persons with a disability status. Mr. Lenio advised such hires currently made up 15% of the company's Mississippi facility's workforce and the company frequently worked with states and counties to develop and implement training programs. Mr. Specht noted the potential for partnerships with Opportunity Village.

A MOTION WAS MADE BY SECRETARY OF STATE CEGAVSKE TO APPROVE THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 5K. THIS MOTION WAS SECONDED BY LIEUTENANT GOVERNOR HUTCHISON. THE MOTION PASSED UNANIMOUSLY.

6. ABATEMENT APPLICATIONS FOR DIRECTOR APPROVAL:

A. 3PEA INTERNATIONAL, INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Ursem, LVGEA, presented 3PEA International, Inc., and provided a brief overview of the company and abatements sought. 3PEA International, Inc. designs and develops payment solutions, prepaid card programs, and processing services under the PaySign® brand name for corporate, consumer, and government applications. The company offers various services, including transaction processing, cardholder enrollment, value loading, cardholder account management, reporting, and customer service through PaySign® platform, a proprietary card processing platform. It also develops prepaid card programs for healthcare reimbursement payments, pharmaceutical co-pay assistance, corporate expense and per diem payments, and donor payments for source plasma and automobile dealership incentives, as well as payroll cards, general purpose re-loadable cards, travel cards, and loyalty rewards cards for the hospitality industry. In addition, the company offers Buy and Bill programs for patients to purchase directly from physician's office or through an infusion center for physician administered therapies; and Survey Instant Rewards card programs for organizations to gather survey data. The company's principal target markets for processing services comprise prepaid card issuers, retail and private-label issuers, small third-party processors, and small and mid-size financial institutions in the United States and internationally. The project would hire 35 new employees at an average hourly wage of $40.20 with a projected $828,000 in capital investment. Mr. Ursem was joined by Mr. Christian Mueller, Controller, 3PEA International, Inc., and Mr. Mark Newcomer, President and Chief Operating Office, 3PEA International, Inc.

AMERICAN OVERSIGHT

Mr. Newcomer advised, in order to accommodate its southern Nevada expansion plans, 3PEA International, Inc. was seeking to relocate from its current 11,541 square-foot space to a 21,000 square-foot facility. The company relocated to Nevada in 2004 with a total of three employees. Since that time, Nevada had afforded the company a great climate to grow in.

Governor Sandoval asked about the company's recruitment and hiring plans. Mr. Newcomer advised, so far, the company had been able to successfully source its workforce locally. These roles had included customer service relationship management, and front and back-end development, and biopharmaceutical sales.

Director Anderson noted the company's approval for an MBT abatement was contingent upon the Department of Taxation's pending determination on the company's status as a financial institution.

DIRECTOR ANDERSON APPROVED THE APPLICATION FOR A SALES TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 6A. DIRECTOR ANDERSON APPROVED THE COMPANY'S APPLICATION FOR A MODIFIED BUSINESS TAX ABATEMENT, PENDING THE OUTCOME OF THE DEPARTMENT OF TAXATION'S DETERMINATION OF THE COMPANY'S STATUS, AS DESCRIBED IN AGENDA ITEM 6A.

B. ALPHA GUARDIAN

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Walsh, LVGEA, presented Alpha Guardian and provided a brief overview of the company and abatements sought. Alpha Guardian is a leader in the residential safe, security and storage industry. The company was established in August 2017 following the announcement that MidOcean Partners was partnering with Cannon Safe, Inc. and simultaneously combining it with Stack-On Products to create a market leader in the residential safe and secure storage sector. Cannon and Stack-On bring together two highly complementary operations. The project would hire 35 new employees at an average wage of $26.92. The company planned to make a capital investment of $181,530. Mr. Walsh was joined by Mr. Jesse Bugarin, Chief Project Office Alpha Guardian and Mr. Roger Jenkins, Vice President of Finance, Alpha Guardian.

Mr. Bugarin advised Alpha Guardian was planning to expand its current Nevada operations. The company was currently renting a 24,000 square-foot facility in southern Nevada. The planned expansion would require a facility of at least 100,000 square feet. The company was also considering relocating its Chicago Stack-On brand operations from Illinois to Las Vegas.

Lieutenant Governor Hutchison asked about the operations at the expanded facility. Mr. Bugarin advised the expansion would primarily accommodate distribution.

AMERICAN OVERSIGHT

Mr. Jenkins noted the company had experienced great success working with UNLV to offer internship programs. One participant in the internship program had been hired by the company upon graduating. Mr. Jenkins also noted the company had a commitment to supporting its employees' learning and growth and had implemented a program called Alpha Guardian University. The program focused on adult literacy. Alpha Guardian University has executed 1,300 hours of training between 2016 and 2018.

DIRECTOR ANDERSON APPROVED THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 6B.

C. CANNAE HOLDINGS, INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Walsh, LVGEA, presented Cannae Holdings, Inc., and provided a brief overview of the company and abatements sought. Cannae Holdings, Inc. is a diversified investment company headquartered in Las Vegas. The firm primarily invests in restaurants, technology enabled healthcare services, financial services and more. Cannae's strategic acquisitions contain a mix of majority and minority owned businesses with significant underlying value. These holdings include majority and minority equity investment stakes in a number of entities, including American Blue-Ribbon Holdings, LLC (ABRH), and Ceridian Holding, LLC (Ceridian). In October 2017, the company purchased the shares of T-System Holding, LLC. T-System is a provider of clinical documentation and coding solutions to hospital-based and free-standing emergency departments and urgent care facilities. The project would hire 50 new employees at $36.90. The company planned to make a capital investment of approximately $1.1m. Mr Walsh was joined by Mr. Richard Cox, Executive Vice President and Chief Financial Officer, Cannae Holdings, Inc. and Mr. Gary Amico, Amico and Associates, Inc.

Mr. Cox advised Cannae Holdings, Inc. was considering building headquarter operations adjacent to its existing Las Vegas facility. The project would involve hiring of financial, information technology, and accounting personnel.

Mr. Cox highlighted the company's commitment to Las Vegas and the local community and noted the company was involved in various corporate citizenship and community engagement activities. The executive group of Cannae included Mr. Bill Foley, the lead person of the ownership group responsible for bringing the National Hockey League to Las Vegas and Nevada. The Vegas Golden Knights were associated with the Golden Knights Foundation, an organization that serves as the primary charitable link between the Vegas Golden Knights and the Las Vegas community.

The Folded Flag Foundation was also an organization with an executive board that included Mr. Bill Foley and Mr. Richard Cox, the CFO of Cannae Holdings, Inc. The Folded Flag Foundation's mission was to provide educational scholarships and support grants to the spouses and children of the United States military and governmental personnel who died as a result of

AMERICAN OVERSIGHT

hostile action or in an accident related to U.S. combat operations. The Folded Flag Foundation recently held an event at The Cosmopolitan on March 29, 2018 where it raised more than $50k to help support the families of fallen heroes.

Director Anderson asked whether the company intended to hire locally. Mr. Cox advised the company initially sought to recruit locally. So far, most of the company's workforce had been sourced from Las Vegas, and the company anticipated this continuing to the extent the required talent was available.

Director Anderson inquired whether the company worked with any of the universities for recruiting purposes. Mr. Cox advised the company offered entry level roles and was currently looking at partnerships with UNLV and other local learning institutions. The company also planned to explore collaborations with UNLV to develop internship programs.

DIRECTOR ANDERSON APPROVED THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 6C.

7. WORKFORCE INNOVATION FOR THE NEW NEVADA (WINN) FUND PROGRAM APPLICATIONS - FOR BOARD APPROVAL

A. RENO AREA DATA ANALYTICS - REQUEST FOR APPROVAL TO ENTER INTO A WINN GRANT AGREEMENT NOT TO EXCEED $300,000

Ms. Stacey Bostwick, Workforce Development Program Coordinator, GOED, introduced Agenda Item 7A and noted GOED has been working with its partners Truckee Meadows Community College (TMCC), NCLab, and Desert Research Institute's AIC to develop a first building block of the Machine Learning option within the Advanced Automation and Robotics track of LEAP Advanced ICT (Information Communications Technology). This building block would address the growing workforce requirements for skills in Data Analytics and would be a decisive contribution to add to and considerably strengthen the talent pool in this field benefitting effectively every industry in Nevada as well as attracting 21st century technology heavy companies to locate in the state. This project was now seeking funding to develop a completely online, hands-on and self-paced learning program (non-credit) and make it available to 500 workers and job seekers, in the Reno area, to provide the skills and knowledge necessary for employment and growth in analytical professions. Ms. Bostwick was joined by Ms. Barbara Walden, Director of Applied Technologies, TMCC, Mr. Vasily Kamyshanov, the Chief Operating Officer, NCLab, and Mr. Russ Riggs, the Chief Operating Officer, Lift 361.

Ms. Walden noted, as Nevada's economy became more diverse, it brought the challenge of upskilling the workforce. The Panasonic Preferred Pathway (P3) training program was an example of meeting those workforce challenges via innovative programs and delivery methods. This had enabled Panasonic to hire the trained employees it required at the Tesla Gigafactory and allowed for Nevadans with no advanced manufacturing experience to receive the training necessary to work in one of Nevada's most promising and emerging industries. Another

AMERICAN OVERSIGHT

identified challenge was building Nevada's technology sector pipeline. Coding, cyber security, and data analytics were greatly in-demand skill sets. Additionally, these skills were not unique to technology, and crossed every industry sector including marketing, health care, business, and government.

Mr. Kamyshanov advised NCLab had developed online courses for STEM disciplines and was currently part of a Nevada Ready 21 Program for middle schools. NCLab is also working with Clark County, Washoe County, and rural areas of Nevada. This project would enable NCLab to qualify students to become workforce ready for technology based careers.

Mr. Riggs advised his company focused exclusively on analytics. The company offered custom analytics based on client's specific needs. The company's services were highly specialized and attracting talent had been difficult in the past. Mr. Riggs stated the project would introduce more data analytics into schools and equip more students with skills in this area.

Governor Sandoval inquired about the process of signing up for the program. Ms. Walden advised, for the purposes of the WINN funds, there would be an intake process including an application for the funding and assessment of an applicant's overall objective in participating and completing the program.

Director Anderson inquired about the program development and maintenance costs. Mr. Kamyshanov advised online education has a solid propriety platform to deliver complex knowledge to people, and this course would be developed together with participating companies to really match the job demand. Once the set was developed the costs to support it would be low. Once developed, it could easily scale to an unlimited number of students.

Director Anderson about the program timeframes. Ms. Waldon noted promotion and intake would commence within two months with a targeted course commencing by October 2018. Each course would take 80-120 hours for completion and it was estimated funding will be fully utilized by June 30, 2019. Program outcomes would be reported and evaluated using self-reported data gathered from participants and employer partners to understand the placement and wage gains experienced as a result of program completion.

A MOTION WAS MADE BY DR. DANA BENNETT TO APPROVE THE REQUEST OF RENO AREA DATA ANALYTICS TO ENTER INTO A WINN GRANT AGREEMENT NOT TO EXCEED $300,000 AS DESCRIBED IN AGENDA ITEM 7A. THIS MOTION WAS SECONDED BY MR. KLAICH. THE MOTION PASSED UNANIMOUSLY.

B. CLARK COUNTY HEALTH AND TECHNOLOGY - REQUEST FOR APPROVAL TO ENTER INTO A WINN GRANT AGREEMENT NOT TO EXCEED $700,000

Ms. Bostwick introduced Agenda Item 7B. Ms. Bostwick advised this program proposed to develop both a workforce increase in nursing and home health and infuse new technology training and the necessary skills to become effective bridges between clinical and community

AMERICAN OVERSIGHT

settings. This would help improve transitions from clinical to community settings, with strong potential to improve population health outcomes, reduce health disparities, and to control health care costs. Partners of the program include BrightStar Home Health, Hallmark Home Care, Homewatch Caregivers, Home Care Assistance, and the Nevada State Board of Nursing. The proposed strategy established increased capacity to on-ramp into healthcare through Home Healthcare or Nursing Assistant programs with new infusions of technology certifications. Beyond the strong economic value of creating new health jobs in southern Nevada, this approach would support efforts to mitigate the current economic burden incurred by the state due to chronic diseases and hospital readmissions. Students completing the program would represent the future of health care with skills and competencies in the use of technology to improve patient and community health outcomes. Ms. Bostwick was joined by Ms. Luz Castro, Health Care Specialist, College of Southern Nevada (CSN), Ms. Catherine Prato-Lefkowitz, Director of Nursing Education, Nevada State Board of Nursing, and Ms. Cynthia Knight, Director of Client and Caregiver Services, Homewatch Caregivers.

Ms. Castro explained the CSN Division of Workforce and Economic Development program strived to deliver a high-standard curriculum that taught and promoted all competencies and principles required for qualified home health aides and Certified Nursing Assistants (CNA). CNA programs are highly recognized by industry leaders and home health aides were among the fastest growing jobs in the industry. There were several barriers to the required education, the the primary being tuition. CSN also needed to innovate its programs with technology competencies to upskill and deliver a high-quality service to employers and the community. As the program certificates would be offered both online and in-person, students would have flexibility regarding different modes of matriculation. Several employers had already expressed interest in partnering with CSN and hiring its students upon completion of this program.

Ms. Knight advised there was currently a severe shortage of qualified candidates and this had inhibited growth of the business. Homewatch Caregivers had a contract with the Veterans Administration to provide care for veterans in their own home and the company was looking to CSN to develop qualified candidates as quickly as possible.

Ms. Catherine Prato-Lefkowitz advised a CNA certification was a valuable entry point into any health care occupation or profession. Many CNA students, particularly in high schools, had goals of becoming nurses, physicians, or dentists. Increasing the technological literacy for CNAs and nurses would be an effective path to increase competencies. Technology is commonplace in health care. However, it is not as commonplace in the training that CNAs and nurses receive.

Dr. Havins inquired about the tuition costs for a CNA program and the portion of this to be covered under the WINN program. Ms. Bostwick advised tuition for the CNA program was approximately $2,400. The program was structured to cover 100% of this fee.

Lieutenant Governor Hutchison asked how many tuitions would be covered by the program application. Ms. Bostwick advised the current application would cover 250 individuals. However, the objective would be to consistently seek opportunities for integration. In conjunction with WINN there may be scope to leverage additional funding sources for tuitions and increases in technology infusion and certification.

AMERICAN OVERSIGHT

A MOTION WAS MADE BY MR. BARRETT TO APPROVE THE REQUEST BY THE CLARK COUNTY HEALTH AND TECHNOLOGY TO ENTER INTO A WINN GRANT AGREEMENT NOT TO EXCEED $700,000 AS DESCRIBED IN AGENDA ITEM 7B. THIS MOTION WAS SECONDED BY DR. HAVINS. THE MOTION PASSED UNANIMOUSLY.

8. WORKFORCE INNOVATION FOR THE NEW NEVADA (WINN) FUND PROGRAM APPLICATIONS - FOR DIRECTOR APPROVAL

A. RENO AREA LOGISTICS AND MANUFACTURING RE-ENTRY INITIATIVE-REQUEST FOR APPROVAL TO ENTER INTO A WINN GRANT AGREEMENT NOT TO EXCEED $75,000

Ms. Bostwick introduced Agenda Item 8A and advised the objective of this program was to provide career development opportunities to individuals involved in the justice system, in northern Nevada, with a direct pathway to higher wage employment. This proposal would create trained, professional individuals, who otherwise may not have the opportunity to work in these industries, and who would meet the needs of local employers to expand their businesses. Quality Plastics, High Mountain Door and Trim, Reno Custom Crating, Sierra Meat and Seafood and Iron had all expressed a need for trained and skilled employees to sustain and expand their Manufacturing and Logistics businesses. Phase One would be launched in May 2018 and include a cohort of 30 participants. Ms. Bostwick was joined by Ms. Camille Vega, Re-Entry Coordinator, TMCC, Mr. Jonathan Wilson, Facility Manager, Northern Nevada Transitional Housing, and Mr. Bill Owensby, IT Director, Quality Plastics.

Ms. Vega stated current data showed one in three Americans had some sort of criminal record. These individuals had minimal support in re-entering society post incarceration. One-half of those released were incarcerated within their first year. Two-thirds were re-incarcerated within three years, and over five years, three-quarters were re-incarcerated. One of the greatest factors in reducing re-incarceration was meaningful employment.

Mr. Wilson advised he joined northern Nevada Transitional Housing in August 2017. Prior to this he'd been with the Department of Corrections for almost 15 years and had noted the lack of transitional support for inmates. Mr. Wilson and Ms. Vega had discussed the potential for certificate programs. Additionally, Mr. Wilson noted he had identified employers interested in participating in the program. Sought after skills pertained to manufacturing, logistics, food preparation, and food safety.

Mr. Bill Owensby advised Quality Plastics advocated for inmate re-entry with 40% of its currently staff being previously incarcerated. The typical new hires from these re-entry programs were reliable and consistent. Additionally, being gainfully employed could contribute to elevated self-worth and lower risks of reoffending. Mr. Owensby advised the company hired him from a restitution center two-years earlier. He now held the position of IT Director.

AMERICAN OVERSIGHT

Governor Sandoval highlighted his position as Chairman of the Board of Prison Commissioners and noted at times parole eligible inmates would select not to parole as they had no job or place to go. Governor Sandoval thanked the employers involved in the application and noted the importance of providing resources, tools and skills for a productive life.

Mr. Don Soderberg commended the program and noted the Nevada Department of Employment, Training and Rehabilitation (DETR) had also been involved in re-entry initiatives. Feedback often highlight how dependable and enthusiastic these employees were with some of the best employees being participants of re-entry programs.

Governor Sandoval asked if the program would also be available to women. Ms. Vega stated the first cohort would solely include 30 males. Best practices in re-entry program development and implementation had identified that men and women were best supported in separate training programs. Ms. Vegas advised the intention was to have a cohort of women in the second semester, pending additional funding.

Governor Sandoval thanked Ms. Vega and encouraged the group to come back to present a second application. Ms. Vega noted the objective was to do so in four months.

DIRECTOR ANDERSON APPROVED THE REQUST FOR RENO AREA LOGISTICS AND MANUFACTURING RE-ENTRY INITIATIVE TO ENTER INTO A WINN GRANT AGREEMENT NOT TO EXCEED $75,000.

9. DIRECTOR'S REPORT - REVIEW AND DISCUSSION

Director Anderson advised GOED's International Trade Division recently completed an advanced planning trip to Ghana, Botswana, and South Africa to prepare for a Governor-led trade mission that would take place in summer 2018. The trip was a success as partnership opportunities were identified in several sectors including trade, water technology, higher education, smart city technology, technology transfer, and good governance.

At the National Governors Association North America Summit in May 2018, Governor Sandoval and Premier Rachel Notley of Alberta, Canada signed an MOU focused on collaboration in the development, testing, and commercialization of drone technology. This followed a successful trade mission to Nevada of over fifty Alberta businesses in February 2018.

Mr. Randy Walden, GOED's Advanced Manufacturing Industry Specialist and Chair of State Apprenticeship Council; oversaw the approval of over 600 apprenticeships which included a recently announced 425 Panasonic employees. The apprentices would be attending classes at TMCC utilizing the flexible delivery manufacturing courses developed for the P3 program last year. This would be the first group of apprentices and would followed in the upcoming months by participants from Tesla as well as other manufacturers in Northern Nevada. Apprenticeships played a vital role in providing a highly qualified workforce for new and existing companies in Nevada.

AMERICAN OVERSIGHT

On April 20, 2018 GOED submitted a list of recommended census tracts, Governor Sandoval, to be designated as Opportunity Zones. Nevada's identification process has been held up as a 'best practice' by Policy Map who was involved in the creation of opportunity zone policy.

The Nevada Film Office (NFO) was working on revamping its online locations directory. The new online locations directory had been designed to better connect potential film locations around Nevada with production companies, giving local businesses more control and more opportunity. The directory was in the final stages and should launch in late May 2018 with an associated marketing campaign commercial promoted on Facebook, Twitter, and potentially local television.

Dr. Barclay was working with the Touro Center for Disaster Life Support, UNLV, the College of Southern Nevada, health industry corporate employers and other stakeholders to develop a series of certificates in Technology for Emergency Preparedness and Disaster Response. These certificates will be offered from high school to graduate level and will contribute to building and strengthening a technology-ready workforce.

Director Anderson welcomed Ms. Bostwick, as GOED's new WINN Coordinator. Ms. Bostwick is based in GOED's Las Vegas office.

10. STATE OF NEVADA UNEMPLOYMENT RATE UPDATE - as established by the Research and Analysis Division of the Nevada Department of Employment, Training and Rehabilitation.

Agenda item 10. was for information only. GOED is committed to providing this information for each Board meeting. There were no questions or comments regarding this item.

11. PUBLIC COMMENT

Mr. Cory Hunt, Deputy Director, GOED provided public comment from Carson City. Mr. Hunt stated May 18, 2018 would be his last day at GOED. Mr. Hunt thanked Governor Sandoval for the great privilege of serving the State of Nevada during his roles with the Governor's Office and GOED. Mr. Hunt also thanked Mr. Steve Hill, Mr. Paul Anderson, Mr. Bob Potts, the GOED Board, Nevada's RDA's, and GOED's staff. Mr. Hunt noted he looked forward to continuing opportunities and projects that would support Nevada's growth.

Governor Sandoval wished Mr. Hunt the best in his future endeavors and commended his contribution to the State of Nevada and dedication to the multiple projects he'd been involved in.

Assemblywoman Irene Bustamante-Adams, Chief Strategy Officer, Workforce Connections, provided comment from Las Vegas and thanked the GOED Board for supporting the Clark County Health and Technology WINN Fund application. Assemblywoman Bustamante-Adams also thanked Dr. Gillian Barclay, Healthcare Industry Specialist, GOED for bringing a global vision to Nevada and competitively positioning the state in terms of serving the employer.

AMERICAN OVERSIGHT

12. ADJOURNMENT

A MOTION WAS MADE BY DR. HAVINS TO ADJOURN THE BOARD MEETING. THIS MOTION WAS SECONDED BY MR. KLAICH. THE MOTION PASSED UNANIMOUSLY.

Treasury Releases Highly Anticipated Rules for 'Opportunity Zones'

BILL LUCIA | Secretary Steve Mnuchin has said he expects that $100 billion of private investment in economically distressed areas could occur under the program.

The proposed rules focus on two broad areas: the establishment and operation of the special funds that can make investments through the program, and the tax breaks for capital gains that individual taxpayers and companies funnel into those funds. **Read full article »**

Subject: Canada Connects: Alberta Enterprise Group Trade Mission - 2/14 thru 2/16/2018
Attachments: Itinerary.0214.Working Doc.docx; Itinerary.0215.Working Doc.docx; Itinerary.0216.Working Doc.docx

Dear Pam:

I hope this finds you well and that you had a great holiday season.

I know we talked a while ago about the trade mission, scheduled between 2/14 - 2/16/2018, that I'm helping coordinate with the Alberta Enterprise Group, a member-based business group located in Edmonton. We are also partnering with Alberta's provincial office of Trade and Economic Development, and are getting support from GOED. We've been primarily working through GOED on some of the State agency asks. GOED coordinated the lunch with the Governor on 2/15/2018 at the Governor's Mansion. The I'm attaching the working schedule for your information. If you could keep any distribution of the schedule within the Governor's office, that would be appreciated, since there are still some pieces in play.

We are expecting around 65 delegates, and they are all very excited for the program. Please let me know if there are any of the panels you or anyone else from the office would like to attend. And, if you have any questions at all, please let me know.

Look forward to seeing you soon, and have a very happy Friday.

Best,
Jennifer Taylor, Esq.

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of American Fire and Casualty Company, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS – Section 12. Power of Attorney. Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts – SECTION 5. Surety Bonds and Undertakings. Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Gregory W. Davenport, the undersigned, Assistant Secretary, of American Fire and Casualty Company, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 14 day of July, 20 17.

CONTRACT FORM

CONTRACT #3708

This Contract, made and entered into this 5th day of February 2018, by and between the State of Nevada Department of Transportation, hereinafter called the Department, and Sierra Nevada Construction, Inc. of 2055 East Greg Street, Sparks, NV 89431, hereinafter called the Contractor.

Witnesseth: The Contractor agrees with the Department that, for the consideration and agreements hereinafter mentioned and contained to be made and performed by the Department, and under the conditions expressed in a bond bearing even date with these presents, and hereunto annexed, that the Contractor shall and will at its own proper cost and expense, do all the work and furnish all the materials necessary for the substantial construction and completion, and to the satisfaction of the Department, of a portion of the highway system of the State of Nevada, being in the Counties of Storey and Washoe, on SR 439, USA Parkway, Route Section SR439, Mileposts WA 0.12 to ST 9.67, install and upgrade interchange lighting at USA Parkway Interchange, widen and install a signal system at Electric Avenue, hereinafter called the Project, in strict conformity, in every part and particular, with the Department's Standard Specifications for Road and Bridge Construction 2014, Project Plans, Project Special Provisions, and Project Invitation to Bid which are made a part hereof, and in full compliance with the terms of this Contract.

And the Contractor hereby further agrees to receive and accept the prices set forth in the Proposal – Contract #3708, Total Proposal Amount: One Million Eight Hundred Fifty-Four Thousand Seven and 00/100 Dollars ($1,854,007.00), hereto annexed and thereby made a part of this Contract, as full compensation for furnishing all materials and labor, and the doing of all work, in strict accordance with the plans, special provisions and specifications hereinbefore mentioned, to the satisfaction of the Resident Engineer and in the manner and under the conditions hereinbefore specified.

The Department hereby promises and agrees with the Contractor, to employ, and does hereby employ, the Contractor to provide the materials and do the work according to the terms and conditions herein contained and referred to, for the prices aforesaid, and hereby contracts to pay the same at the time, in the manner, and upon the conditions set forth herein; and the parties themselves, their heirs, executors, administrators, successors, and assigns, do hereby agree to the full performance of the covenants herein contained. The Contractor further agrees that no moneys payable under this Contract shall be assigned by power of attorney, or otherwise, except upon the written consent of the Department.

In the event that a Bidder's Preference was applied to the Contractor's Proposal and Bidder's Preference contributed to the Contractor being awarded the Contract, pursuant to subsection 2 of NRS 338.1389, subsection 2 of NRS 338.147, subsection 3 of NRS 338.1693, subsection 3 of NRS 338.1727 or subsection 2 of NRS 408.3886 a contractor must submit to the Department a signed affidavit which certifies that, for the duration of the project, collectively, and not on any specific day:

(a) At least 50 percent of the workers employed on the project, including, without limitation, any employees of the Contractor and of any subcontractor engaged on the project, will hold a valid driver's license or identification card issued by the Department of Motor Vehicles of the State of Nevada;

(b) All vehicles used primarily for the project will be:

1. Registered and partially apportioned to Nevada pursuant to the International Registration Plan, as adopted by the Department of Motor Vehicles pursuant to NRS 706.826; or
2. Registered in this State.

(c) The Contractor and any subcontractor engaged on the project will maintain and make available for inspection within this State his or her records concerning payroll relating to the project.

AMERICAN OVERSIGHT

Contractor agrees that failure to comply with any requirement of paragraphs (a) to (c), inclusive, above at any time during the entire duration of the Project is a material breach of this Contract and entitles the Department to liquidated damages against the party responsible for a failure to comply with a requirement of paragraphs (a) to (c), inclusive above. If a party to the Contract causes a material breach of contract between the Contractor and the Department as a result of a failure to comply with paragraphs (a) to (c), inclusive, above, the party is liable to the Department for liquidated damages in the amount of one percent (1%) of the cost of the largest contract to which he or she is a party. The Department may recover this amount directly against the party that causes the material breach, and no other party is liable to the Department for liquidated damages. These damages are not intended as a penalty. Damages are difficult to ascertain and the Parties agree that this amount is a reasonable estimate of presumed actual damages. Contractor must provide in any contract between Contractor and any subcontractor for the apportionment of liquidated damages assessed pursuant to this section if a person other than Contractor was responsible for the breach of this Contract for the Project caused by a failure to comply with a requirement of paragraphs (a) to (c), inclusive, above. The apportionment of liquidated damages must be in proportion to the responsibility of each party for the breach.

During the performance of this contract, the contractor, for itself, its assignees and successors in interest agrees as follows:

(1) **Compliance with Regulations:** The Contractor shall comply with the Regulation relative to nondiscrimination in federally-assisted programs of the Department of Transportation (hereinafter, "DOT") Title 49, Code of Federal Regulations, Part 21, and the Federal Highway Administration (hereinafter "FHWA") Title 23, Code of Federal Regulations, Part 200 as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this contract.

(2) **Nondiscrimination:** The Contractor, with regard to the work performed by it during the contract, shall not discriminate on the grounds of race, color, national origin, sex, age, disability/handicap, and low income status in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Contractor shall not participate either directly or indirectly in the discrimination prohibited by 49 CFR, section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.

(3) **Solicitations for Subcontractors, Including Procurements of Materials and Equipment:** In all solicitations either by competitive bidding or negotiation made by the Contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by the Contractor of the Contractor's obligations under this contract and the Regulations relative to nondiscrimination on the grounds of race, color, national origin, sex, age, disability/handicap, and low income status.

(4) **Information and Reports:** The Contractor shall provide all information and reports required by the Regulations or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Nevada Department of Transportation (hereinafter, "NDOT") or the FHWA to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of a Contractor is in the exclusive possession of another who fails or refuses to furnish this information the Contractor shall so certify to the NDOT, or the FHWA as appropriate, and shall set forth what efforts it has made to obtain the information.

(5) **Sanctions for Noncompliance:** In the event of the Contractor's noncompliance with the nondiscrimination provisions of this contract, the NDOT shall impose such contract sanctions as it or the FHWA may determine to be appropriate, including, but not limited to:
   a. withholding of payments to the Contractor under the contract until the Contractor complies, and/or
   b. cancellation, termination or suspension of the contract, in whole or in part.

(6) **Incorporation of Provisions:** The Contractor shall include the provisions of paragraphs (1) through (6) in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto.

AMERICAN OVERSIGHT

DocuSign Envelope ID: 5026A4A7-E796-4339-ADF3-DD8BFE1C0569

It is further agreed, by and between the parties hereto, that should there be any conflict between the terms of this Contract and the Proposal of the Contractor, then this Contract shall control, and nothing herein shall be considered an acceptance of the terms of such Proposal conflicting therewith.

And the Contractor hereby further agrees that the payment of the final amount due under this Contract shall release the State of Nevada and the Department of Transportation from any and all claims or liability on account of work performed under this Contract other than such claims, if any, as may be specifically excepted by the Contractor in writing at the time final payment is made.

In Witness Whereof, each party to the presents have hereunto caused this Contract to be executed by a duly authorized representative as of the year and date first above written.

PERFORMANCE BOND

Whereas, the Nevada Department of Transportation, hereinafter designated as "NDOT", has awarded to Sierra Nevada Construction, Inc. of 2055 East Greg Street, Sparks, NV 89431, hereinafter designated "PRINCIPAL", a Contract dated February 5, 2018, for the following work: Construction of a portion of the State Route Highway System in Storey and Washoe Counties, SR 439, USA Parkway, install and upgrade interchange lighting at USA Parkway Interchange, widen and install a signal system at Electric Avenue; and

Whereas, PRINCIPAL is required under the terms of said Contract and by law to furnish a Bond for the performance of said Contract;

Now therefore, we PRINCIPAL, and

Liberty Mutual Insurance Company; 1001 4th Avenue, #1700, Seattle, WA 98154

(Surety Company Name and Primary Address)

hereinafter designated "SURETY", are held and firmly bound unto NDOT, in the sum of One Million Eight Hundred Fifty-Four Thousand Seven and 00/100 Dollars ($1,854,007.00), lawful money of the United States, being not less than one hundred percent (100%) of the estimated contract cost of the work, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that if the above-bounden PRINCIPAL's heirs, executors, administrators, successors, or assigns, shall in all things stand to and abide by, and well and truly keep and faithfully perform the covenants, conditions, and agreements in the Contract and any alterations made as therein provided, on PRINCIPAL's part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning; and shall indemnify and save harmless NDOT, its officers and agents, as therein stipulated; then this obligation shall become null and void. Otherwise, it shall be and remain in full force and virtue.

SURETY, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of Contract, or to the work to be performed thereunder, shall in any way affect its obligation on this Bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract or to the work.

And SURETY, for value received, hereby stipulates and agrees, if requested to do so by NDOT, to perform and fully complete the work mentioned and described in said Contract, pursuant to the terms, conditions and covenants thereof, if for any cause, said Principal fails or neglects to so perform and fully complete said work; the said SURETY further agrees to commence said work to full completion within twenty (20) days after notice thereof from NDOT, and to fully complete the same with all due diligence and in accordance with the plans and specifications.

And SURETY, for value received, further stipulates and agrees that should NDOT incur attorney's fees or other expenses for the enforcement of the Contract or this Bond, the same shall be paid by SURETY to NDOT.

The Surety Company hereby certifies that it is duly authorized by certificate of authority issued by the State of Nevada Division of Insurance to conduct business in the State of Nevada.

PAYMENT BOND

Whereas, the Nevada Department of Transportation, hereinafter designated as "NDOT", has awarded to Sierra Nevada Construction, Inc. of 2055 East Greg Street, Sparks, NV 89431, hereinafter designated "PRINCIPAL", a Contract dated February 5, 2018, for the following work: Construction of a portion of the State Route Highway System in Storey County, SR 439, USA Parkway, install and upgrade interchange lighting at USA Parkway Interchange, widen and install a signal system at Electric Avenue; and

Whereas, PRINCIPAL is required under the terms of said Contract and by law to furnish a Bond for labor and materials used in said Contract;

Now therefore, we PRINCIPAL, and

Liberty Mutual Insurance Company, 1001 4th Avenue, #1700, Seattle, WA 98154

(Surety Company Name and Primary Address)

hereinafter designated "SURETY", are held and firmly bound unto NDOT, in the sum of One Million Eight Hundred Fifty-Four Thousand Seven and 00/100 Dollars ($1,854,007.00), lawful money of the United States, being not less than one hundred percent (100%) of the estimated contract cost of the work, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that if the above-bounden PRINCIPAL's heirs, executors, administrators, successors, or assigns, shall in all things stand to and abide by, and well and truly keep and faithfully perform the covenants, conditions, and agreements in the Contract and any alterations made as therein provided, on PRINCIPAL's part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning; and shall indemnify and save harmless NDOT, its officers and agents, as therein stipulated; then this obligation shall become null and void. Otherwise, it shall be and remain in full force and virtue.

SURETY, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of Contract, or to the work to be performed thereunder, shall in any way affect its obligation on this Bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract or to the work.

And SURETY, for value received, hereby stipulates and agrees, if requested to do so by NDOT, to perform and fully complete the work mentioned and described in said Contract, pursuant to the terms, conditions and covenants thereof, if for any cause, said Principal fails or neglects to so perform and fully complete said work; the said SURETY further agrees to commence said work to full completion within twenty (20) days after notice thereof from NDOT, and to fully complete the same with all due diligence and in accordance with the plans and specifications.

And SURETY, for value received, further stipulates and agrees that should NDOT incur attorney's fees or other expenses for the enforcement of the Contract or this Bond, the same shall be paid by SURETY to NDOT.

The Surety Company hereby certifies that it is duly authorized by certificate of authority issued by the State of Nevada Division of Insurance to conduct business in the State of Nevada.

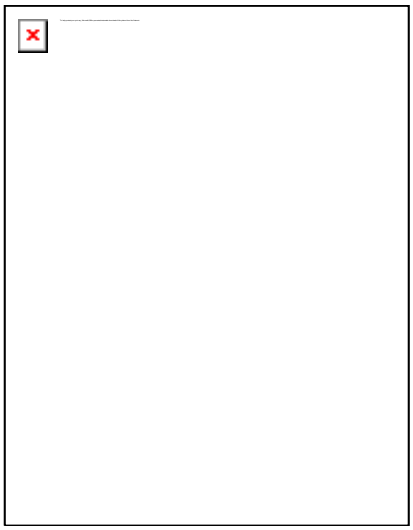
"Borrowers") owned and financed redevelopment projects on real property located out of state in Cincinnati and Kansas City. Instead of entering into a mortgage loan secured by real property and entering into a separate mezzanine loan secured by limited partnership interests in the Borrowers, the parties to the litigation entered into a single loan secured by both forms of collateral. **Read More on Loans Here>**

IRS Releases New "Issue Snapshot" on Single-Family Housing Bonds

The IRS has released another "issue snapshot," which deals with qualified mortgage bonds (or, as they are often called in our lingo, single-family housing bonds). An issuer uses the proceeds of qualified mortgage bonds to make loans to private homeowners. Because of the private loan limitation, the bonds are private activity bonds. **More on Bonds Here**

Seal or no Seal? Virginia Supreme Court Decision Should Prompt Closer Scrutiny of Leases



A recent ruling by the Supreme Court of Virginia may invalidate hundreds of leases because they are not under "seal" and therefore do not meet Virginia's "Deed of Lease" requirement. Landlords and tenants should review their Virginia leases to ensure compliance with this pivotal decision. **More on Court's Decision Here >**

Dear CoOp Members,

Thank you for your patience as we adjusted budget options for some last minute considerations. Please find the attached packet for our Monday meeting as well as excel versions of the budgets for easier review. We will review each of these scenarios and cover the circumstances and decisions made to bring us to these options. We will also have a brief welcome orientation from OverDrive. I will be working tomorrow and please do not hesitate to call anytime if you have questions. Looking forward to a productive meeting on Monday- thank you again!

Respectfully,
Cyndi

NOTICE OF PUBLIC MEETING
Nevada Library Cooperative (CoOp)

WHEN: Monday, 18 June 2018 - 10:00 am - 1:00 pm

WHERE: NV Supreme Court Law Library, rm 107
201 S Carson Street
Carson City, NV 89701

and GoToMeeting

NV CoOp Board Meeting
NV CoOp Executive Committee Meeting

Please join my meeting from your computer, tablet or smartphone.
https://global.gotomeeting.com/join/272942173

You can also dial in using your phone.
United States: +1 (571) 317-3122

Access Code: 272-942-173

First GoToMeeting? Let's do a quick system check: https://link.gotomeeting.com/system-check

IN ACCORDANCE WITH NRS 241, THE BOARD MAY: (I) CHANGE THE ORDER OF THE AGENDA, (II) COMBINE TWO OR MORE AGENDA ITEMS FOR CONSIDERATION, (III) REMOVE AN ITEM FROM THE AGENDA OR DELAY DISCUSSION RELATING TO AN ITEM ON THE AGENDA AT ANY TIME, (IV) AND IF THE AGENDA IS NOT COMPLETED, RECESS THE MEETING AND CONTINUE ON ANOTHER SPECIFIED DATE AND TIME.

NV LIBRARY COOPERATIVE BOARD AGENDA

1. **CALL TO ORDER:** Introduction of members and audience.

2. **PUBLIC COMMENT:** Members of the public who wish to address the Board may come forward and speak on any topic that is relevant to or within the authority of the Board. The Board respects the right of citizens to present differing opinions and views. Comments may be limited to three minutes per person. If you believe your item requires extended discussion or action, you may ask a member of the Board to place it on the Board's agenda for a future meeting. No action may be taken on a matter raised under this item of the agenda unless the matter is noticed on a Board agenda as an item on which action may be taken. In accordance with the Open Meeting Law, the Chairperson may recognize public comment at any time and/or may prohibit public comment if the person speaking is willfully disruptive of the meeting by being irrelevant, repetitious, slanderous, offensive, inflammatory, irrational or amounting to personal attacks or interfering with the rights of other speakers.

3. **FOR POSSIBLE ACTION:** Discussion and possible action on approval of agenda items.

4. **INFORMATION ONLY**: Presentation by OverDrive.

5. **FOR POSSIBLE ACTION:** Discussion and possible action to approve the final FY2019 CoOp budget.

6. **INFORMATION ONLY:** Discussion to determine agenda items for future meetings.

7. **FOR POSSIBLE ACTION:** Discussion and Possible Action to determine future meeting date(s).

8. **PUBLIC COMMENT:** Members of the public who wish to address the Board may come forward and speak on any topic that is relevant to or within the authority of the Board. The Board respects the right of citizens to present differing opinions and views. Comments may be limited to three minutes per person. If you believe your item requires extended discussion or action, you may ask a member of the Board to place it on the Board's agenda for a future meeting. No action may be taken on a matter raised under this item of

AMERICAN OVERSIGHT

the agenda unless the matter is noticed on a Board agenda as an item on which action may be taken. In accordance with the Open Meeting Law, the Chairperson may recognize public comment at any time and/or may prohibit public comment if the person speaking is willfully disruptive of the meeting by being irrelevant, repetitious, slanderous, offensive, inflammatory, irrational or amounting to personal attacks or interfering with the rights of other speakers.

9. **FOR POSSIBLE ACTION:** Adjournment

IN ACCORDANCE WITH NRS 241, THE COMMITTEE MAY: (I) CHANGE THE ORDER OF THE AGENDA, (II) COMBINE TWO OR MORE AGENDA ITEMS FOR CONSIDERATION, (III) REMOVE AN ITEM FROM THE AGENDA OR DELAY DISCUSSION RELATING TO AN ITEM ON THE AGENDA AT ANY TIME, (IV) AND IF THE AGENDA IS NOT COMPLETED, RECESS THE MEETING AND CONTINUE ON ANOTHER SPECIFIED DATE AND TIME.

NV LIBRARY COOPERATIVE EXECUTIVE COMMITTEE MEETING

1. **CALL TO ORDER:** Introduction of members and audience.

2. **PUBLIC COMMENT:** Members of the public who wish to address the Executive Committee may come forward and speak on any topic that is relevant to or within the authority of the Committee. The Committee respects the right of citizens to present differing opinions and views. Comments may be limited to three minutes per person. If you believe your item requires extended discussion or action, you may ask a member of the Committee to place it on the Committee's agenda for a future meeting. No action may be taken on a matter raised under this item of the agenda unless the matter is noticed on a Committee agenda as an item on which action may be taken. In accordance with the Open Meeting Law, the Chairperson may recognize public comment at any time and/or may prohibit public comment if the person speaking is willfully disruptive of the meeting by being irrelevant, repetitious, slanderous, offensive, inflammatory, irrational or amounting to personal attacks or interfering with the rights of other speakers.

3. **FOR POSSIBLE ACTION:** Discussion and possible action on approval of agenda items.

4. **FOR POSSIBLE ACTION:** Discussion and possible action to approve the final FY2019 CoOp budget.

5. **INFORMATION ONLY:** Discussion to determine agenda items for future meetings.

6. **FOR POSSIBLE ACTION:** Discussion and Possible Action to determine future meeting date(s).

7. **PUBLIC COMMENT:** Members of the public who wish to address the Executive Committee may come forward and speak on any topic that is relevant to or within the authority of the Committee. The Committee respects the right of citizens to present differing opinions and views. Comments may be limited to three minutes per person. If you believe your item requires extended discussion or action, you may ask a member of the Committee to place it on the Committee's agenda for a future meeting. No action may be taken on a matter raised under this item of the agenda unless the matter is noticed on a Committee agenda as an item on which action may be taken. In accordance with the Open Meeting Law, the Chairperson may recognize public comment at any time and/or may prohibit public comment if the person speaking is willfully disruptive of the meeting by being irrelevant, repetitious, slanderous, offensive, inflammatory, irrational or amounting to personal attacks or interfering with the rights of other speakers.

8. **FOR POSSIBLE ACTION:** Adjournment

If you need special accommodations or copies of the documentation referenced above, please contact Cyndi O at 775-583-8750, by 14 June 2018.

In accordance with NRS 241.020, this public notice and agenda was posted on or before 13 June 2018 on the Nevada Library Cooperative website, http://www.nvlibrarycoop.org, the State of Nevada's Public Notice Website, https://notice.nv.gov, and in the following locations:

Subject: Couple of Follow Up Items

Hi, Andrew –

A couple of items I neglected to bring up this morning:

- TMWA Board will approve the water rights issue that will help get effluent water to TRIC. This is a 50 year deal. This deal was negotiated by GOED and we support it. We only intend to list it as an informational contract at our July Transportation Board meeting. We view it as a service agreement with TMWA where they manage the water rights associated with our highway right-of-way (we never actually use those water rights associated with highway ROW, so no problem for NDOT).
- The subgroup of the Transportation Board known as the Construction Working Group (CWG) consists of Frank Martin, Len Savage and B.J. Almberg. Frank and Len want NDOT to request a BDR to have our retention of funds at 5% of contract value (we retain that money that the contractor has earned until we formally accept the project). We currently withhold the lesser of 5% of contract value or $50,000. They feel that on larger projects, $50,000 is not much to withhold (most contracts are over $1,000,000 in value). AGC has opposed this in the past. NDOT may have submitted a BDR several years ago that AGC opposed (we're researching). I have no problem submitting a conceptual BDR at the request of CWG, but don't think it will go anywhere at the Legislature if it does get Governor support to develop further.

The Governor asked Steve Weinberger from the executive audit group to modify the audit recommendations regarding BOE approval of non-construction contracts. Steve called me this afternoon to discuss. Gov said rewrite the report so the Transportation Board delegation to the NDOT Director matches the BOE threshold of $50k. This allows us to keep contract approval at the Transportation Board and keeps the AG's Opinion out of the audit. We can live with that, obviously, although it will result in having more action items on the agenda for agreements between $50k and the current delegation to the NDOT Director of $300k.

If you have any opinion on the above two bullet points (TMWA and CWG issues), let me know.
Thanks!

Subject: Debt Could Be Double the Size of the Economy by 2048

CBO's 2018 Long-Term Budget Outlook
June 26, 2018

Read the paper.

The Congressional Budget Office (CBO) released its 2018 Long-Term Budget Outlook today, reiterating the budget's uns trajectory. CBO projects debt held by the public will reach a new record as a share of the economy within 16 years, and w levels within three decades.

If recent tax cuts and spending increases are extended rather than allowed to expire, ***we estimate debt would be doubl economy within three decades.***

The report shows:

- **Debt Is Rising Unsustainably**. CBO projects debt held by the public will roughly double as a share of the econor from 78 percent of GDP at the end of 2018 to 152 percent of GDP in 2048 – an unprecedented level.

- **Spending Is Growing Faster Than Revenue**. CBO projects spending will grow rapidly, from less than 21 percen 29 percent by 2048. Revenue will grow slowly, from less than 17 percent of GDP in 2018 to nearly 20 percent of G deficits grow from 3.9 percent of GDP in 2018 to 9.5 percent by 2048, approaching the post-World War II record s

- **Recent Legislation Will Substantially Worsen the Long-Term Outlook if Extended.** Because the unpaid-for 2 spending deal were largely temporary, they have little effect on CBO's long-term debt estimates under current law would be about 50 percent of GDP higher in 2048 – roughly 200 percent of GDP – if temporary provisions were e

- **High And Rising Debt Will Have Adverse and Potentially Dangerous Consequences.** The fiscal situation will economic growth, lower income, higher interest rates, ballooning interest payments, reduced fiscal space, weaker leadership, and an increased likelihood of a fiscal crisis.

- **Major Trust Funds Are Headed Toward Insolvency.** CBO projects the Highway, PBGC Multi-Employer, Social Insurance, Social Security Old-Age and Survivors Insurance, and Medicare Hospital Insurance trust funds will all without action to stabilize their finances.

AMERICAN OVERSIGHT

- **Fixing the Debt Will Get Harder the Longer Policymakers Wait.** Delaying necessary deficit reduction will mean and tax increases concentrated on fewer people. CBO estimates the size of the needed adjustment would grow b waited just ten years to take action.

Lawmakers need to work together to address this bleak fiscal picture now so problems do not compound any further.

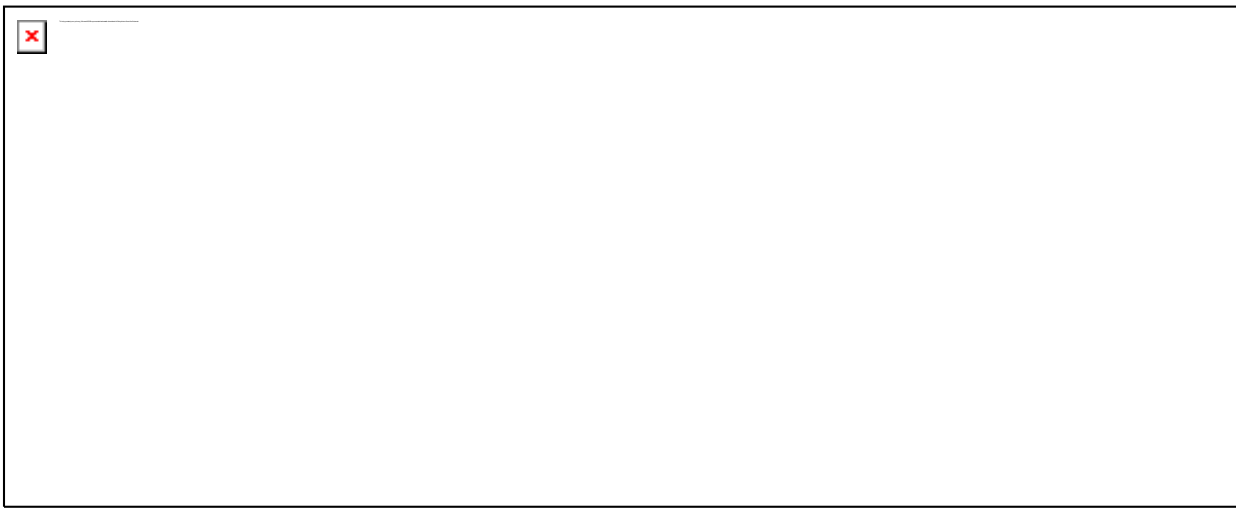
Debt Is Rising Unsustainably

Debt held by the public will total 78 percent of the economy by the end of 2018 – a post-war record nearly twice as high a and will grow rapidly from there with no end in sight.

Under current law, CBO projects debt will exceed the size of the economy by 2031, top its record high by 2034, and reach level at 152 percent of GDP within three decades.

Annual deficits will also grow rapidly under CBO's projections. Under current law, the deficit will double from 3.9 percent o percent by 2041 and reach 9.5 percent by 2048 – near the post-war record of 9.8 percent set at the height of the Great R

These numbers assume recent tax cuts and spending increases expire as under current law. If they are extended, we est the size of the economy by 2027, hit a new record by 2029, and ***double*** the size of the economy by 2048.



In 2048 under this scenario, debt will total **200 percent of GDP** and deficits will exceed 13 percent of GDP. There is little massive level of debt.

These debt projections are modestly higher than estimates from the Government Accountability Office (GAO) that debt w percent of GDP by 2048.

Spending Is Growing Faster Than Revenue

Rising long-term deficits are driven by rapid growth in spending – particularly spending on health care, retirement, and int in excess of the growth in revenue.

CBO projects revenue will rise from 16.6 percent of GDP in 2018 to 18.5 percent in 2028 and 19.8 percent in 2048. This c
historical average of 17.4 percent and record of 20.0 percent in 2000. Spending, meanwhile, will grow from 20.6 percent c
percent by 2048 under current law. By comparison, spending has averaged 20.3 percent of GDP over the past 50 years,
percent of GDP in 2009.

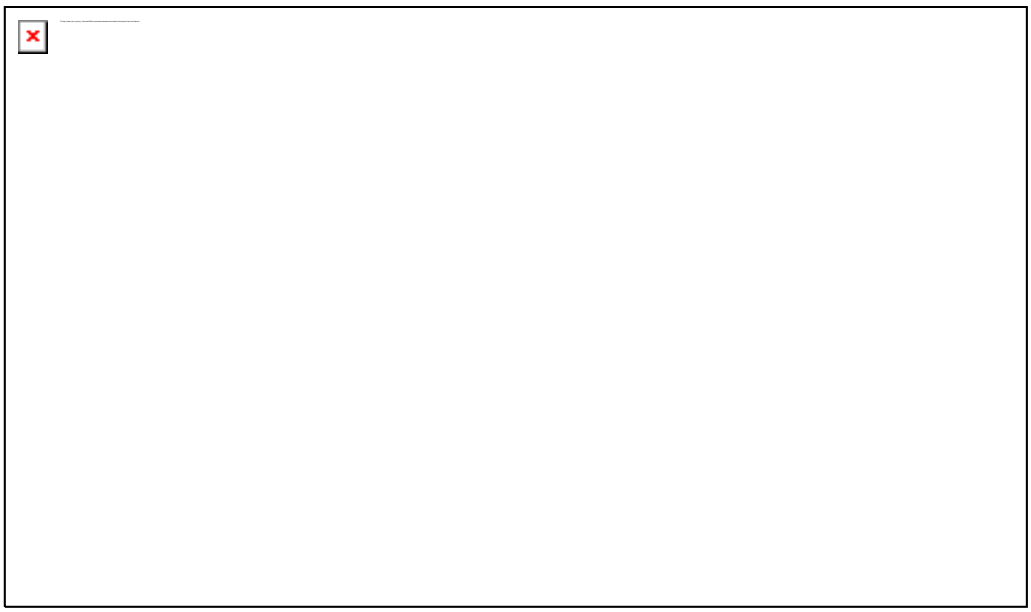
Much of the projected revenue growth is due to the expiration of many provisions in the Tax Cuts and Jobs Act, as well as
CPI" for indexing the tax code and the scheduled implementation of the health care "Cadillac Tax" in 2022.

CBO's projections for spending, meanwhile, reflect the continued aging of the population, rising health care spending, and
and debt. In fact, spending on Social Security, health care, and interest on the debt explain all future spending growth as
combined spending will rise by roughly 10 percent of GDP, from 11.7 percent of GDP in 2018 to 21.8 percent by 2048.

By 2041, spending on Social Security, health care, and interest will exceed all revenue. That essentially means eve
appropriates – whether for defense, education, or basic research – will be financed with borrowed money. ***By 2050, inter
largest federal spending program, eclipsing Social Security, Medicare, and all discretionary spending.***

If expiring tax cuts and recent spending increases were continued, revenue would be much lower and spending much hig
revenue would reach 18 percent of GDP and spending nearly 32 percent of GDP by 2048. In this scenario, spending on S
care, and interest will exceed all revenue by 2033 – eight years earlier than under current law – and interest would be the
program by 2042.

Recent Legislation Will Substantially Worsen the Long-Term Outlook if Extended



Recent tax cuts and spending increases have significantly worsened the budget outlook over the next decade and would
longer-term outlook if extended.

CBO currently projects that debt will reach 96 percent of GDP by 2028, which is 5 percentage points and $2.2 trillion high
last March. Nearly $2 trillion of this difference is the result of the deficit-financed Tax Cuts and Jobs Act (TCJA) and anoth
the direct spending increase in the Bipartisan Budget Act (BBA) and other legislative changes.

Because large parts of the TCJA and BBA expire under current law and the permanent parts modestly reduce deficits, thi
begin to converge with last year's over time. Last year, CBO projected debt would reach 150 percent of GDP by 2047, co
this year. The 2047 deficit was 9.8 percent of GDP last year, compared to 9.3 percent this year.

We estimate that ***if expiring policies are continued, debt will be almost one-third worse than last year's projection***
would rise to more than 190 percent of GDP by 2047 (nearly 200 percent by 2048), compared to last year's current law pr
of GDP in 2047. Deficits would rise to above 13 percent of GDP by 2047.

AMERICAN OVERSIGHT

The rise in debt under this scenario is the result of both higher spending and lower revenue. Non-interest spending would of GDP in 2047, compared to CBO's previous projections of 23.2 percent. Revenue, meanwhile, would exceed 18 percen CBO's previous projections of 19.6 percent. Interest would grow to nearly 8 percent of GDP, compared to 6.2 percent unc projections.

In other words, recent legislation considerably increased the debt and would dramatically worsen the long-term budget ou extend them without offsets.

High and Rising Debt Will Have Adverse and Potentially Dangerous Consequences

The United States has never owed as much debt as it is projected to owe by the 2030s. CBO warns that such high and ri dramatic adverse consequences.

Rising debt is likely to substantially slow economic growth and reduce future incomes by leading savers and investors to bonds in place of productive investments.

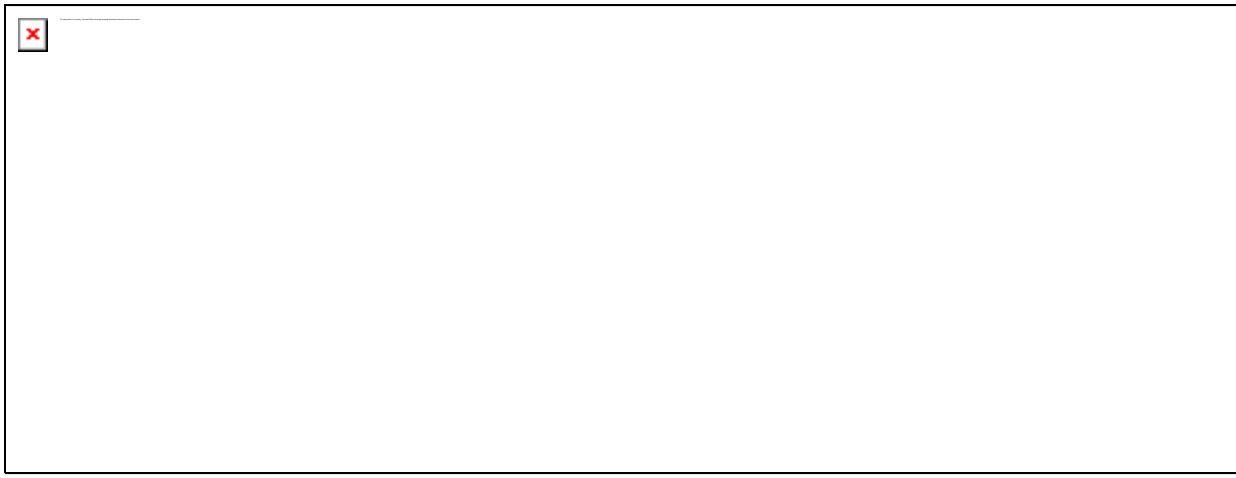
CBO's projections of GNP per capita show that in three decades, currently projected rising debt will reduce average incor roughly $3,000 per person. Assuming various tax cuts and spending hikes are extended and debt grows by an extra 50 p could be as much 6 percent or $6,000 lower by our estimate (based on last year's report).

Rising debt also causes interest rates to rise. CBO estimates average rates on federal debt will be 13 percent, or 50 basis result of rising debt. These higher rates will spill over into mortgages, car loans, student loans, business loans, and credit

As a result of higher interest rates and higher debt, government interest payments will grow. Under current law, interest p quadruple from 1.6 percent of GDP this year to 6.3 percent by 2048, exceeding the size of Medicaid in 2020, defense in 2 2046, Interest will become the largest spending program by exceeding Social Security after 2048. If Congress extended v we estimate that interest costs would more than quintuple to 8.1 percent of GDP by 2048, becoming the largest governme

Growing interest payments and rising debt could weaken U.S. international leadership and mean less fiscal space to prot important investments, fund new priorities, or respond to the next recession, crisis, or emergency. CBO explains that "wh relatively small, the federal government is able to borrow money at lower rates to cover unexpected costs, such as those recessions, financial crises, natural disasters, or wars. By contrast, when outstanding debt is large, the government has le financial and economic crises."

AMERICAN OVERSIGHT



Finally, growing levels of debt increase the risk of fiscal crisis. As CBO warns, “dramatic increases in Treasury rates woul value of outstanding government securities, and the resulting losses—for mutual funds, pension funds, insurance compar holders of government debt—could be large enough to cause some financial institutions to fail.” Such a crisis would caus the U.S. and global economy and leave policymakers with “limited—and unappealing—options.”

While growing debt would damage the economy, declining debt can improve it. In previous reports, CBO showed that a $ package would boost average incomes by $5,000 per person and lower interest rates by three-quarters of a percentage p

All of the Major Trust Funds Are Headed Toward Insolvency

A number of important federal programs are financed through trust funds. Within the next 14 years, CBO projects five ma exhaust their reserves and become insolvent.

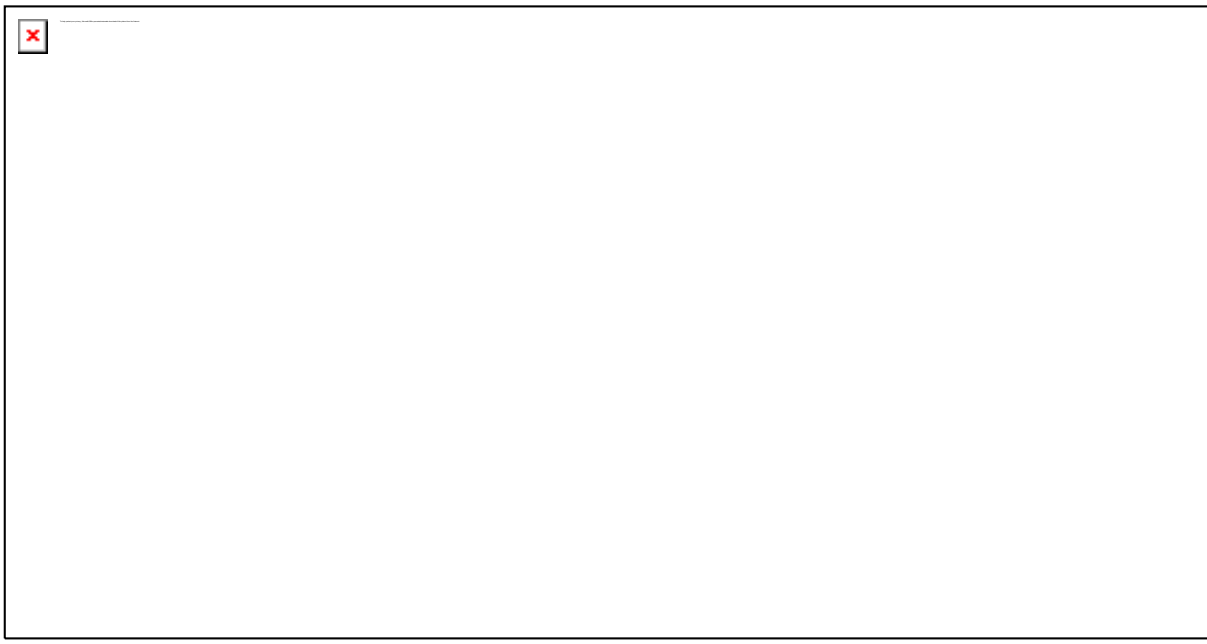
Specifically, CBO projects the Highway Trust Fund will be depleted by 2022, the Pension Benefit Guaranty Corporation (P fund and Social Security Disability Insurance (SSDI) Trust Fund by 2025, the Medicare Hospital Insurance (HI) Trust Fun Social Security Old-Age and Survivors Insurance Trust Fund by 2032. On a combined basis, the Social Security trust fun reserves in 2031.

At the time of insolvency, the law requires spending be reduced to available revenue in these programs. CBO estimates S for example, would be abruptly cut by 25 percent for all beneficiaries regardless of age or income. Medicare’s cut would li percent.

Importantly, CBO’s debt projections assume that these programs (other than PBGC) will continue to spend even after trus If policymakers wish to maintain the internally-funded nature of these programs, however, substantial adjustments will be

CBO estimates Social Security’s shortfall will total 1.5 percent of GDP over 75 years and 1.9 percent of GDP in the 75th y program solvent would require the equivalent of a 35 percent (4.4 percentage point) increase in the payroll tax rate or a 2 benefits. Maintaining sustainable solvency beyond 75 years would require the equivalent of an ultimate 38 percent (6 per in the payroll tax rate or a 30 percent cut in benefits.

A Social Security solvency package could reduce projected debt by between 30 and 50 percentage points by 2048, depe design. If the shortfalls in other trust funds were also addressed, debt could be stabilized well below 100 percent of GDP levels. In addition, solvency plans would ensure these programs could continue to provide benefits and payments to thos



Fixing the Debt Will Get Harder the Longer We Wait

Policymakers will need to make tough decisions on changes to spending and revenue in order to put the debt on a downw importantly, they need to do them soon; the longer they wait, the harder and costlier the necessary adjustments will be.

AMERICAN OVERSIGHT

CBO projects that maintaining today's high debt as a share of the economy for the next 30 years will require annual tax o
(excluding interest) of 1.9 percent of GDP if they start in 2019 – the equivalent of $4.8 trillion over a decade. Waiting anot
make this even more expensive, to the tune of 2.9 percent of GDP, the equivalent of $7.3 trillion over the same decade. I
would increase by half.

Thought of another way, policymakers could raise revenue 11 percent or cut non-interest spending 10 percent to stabilize
today – but would have to raise revenue by 17 percent or cut non-interest spending by 15 percent if they wait just a decad
Putting the debt on a downward path would require even larger savings. Reducing debt to its 50-year historical average o
would require adjustments of 3.0 percent of GDP today ($7.6 trillion) or 4.6 percent of GDP ($11.6 trillion) if they waited a
these changes.

Delaying actions to fix the debt also allows less time to carefully phase in changes and allow households and businesses
Waiting also requires concentrating any spending cuts or tax hikes on fewer people and reduces the ability of policymake
targeted reforms that protect more vulnerable beneficiaries and taxpayers. At some point, needed changes may become
policymakers are unwilling to act, absent a crisis.

Conclusion

CBO continues to remind us what we've known for a while and seem to be ignoring: the federal budget is on an unsustain
over the long term. If policymakers make the tough decisions now – rather than wait until there's a crisis point for action –
fairer and less painful.

With debt on course to double its current levels and quadruple its historic average, lawmakers need to stop making it wor
affordable and paying for any extensions to the recent tax cuts and spending increases to prevent debt from rising to twic
economy within three decades. We cannot afford to make these temporary policies permanent without making choices to
actual deficit reduction.

CBO's projections of the budget and economy reiterate the fundamental challenges we face: the population is aging – wh
of Social Security and Medicare as well as slower economic growth.

There is no magic bullet to fix these problems. Ignoring CBO's impartial projections, which are consistent with nearly ever
not make the problem go away. Indeed, it will make the problem worse as a result of the high cost of delay.

AMERICAN OVERSIGHT

Attachments: BCKGR_Regtrack-FinalActions_Dec2018_FINAL.pdf; BKGR_Regulatory_Upcoming Actions_Dec2018._FINAL.pdf; BCKGR_RegulatoryEvents_Dec2018_FINAL.pdf

Dear WGA Staff Council:

Welcome to the December 2018 edition of the Western Governors' Association's *Federal Regulatory Tracking Report*. The Report has three components, delivered monthly:

- **Final Regulatory Actions** -- A listing of federal regulatory actions impacting the West that have gone final in the past month, along with information on effective dates and other pertinent details.

- **Upcoming Regulatory Deadlines** -- A listing of upcoming federal regulatory rulemaking deadlines, along with links to relevant Federal Register documents.

- **Upcoming Events** -- A calendar of upcoming federal agency meetings / conference calls relating to regulatory actions.

Items are chronologically within topics in all three documents. This month's Report includes items within these topics:

- Agriculture / Rural Development
- Air Quality
- Conservation / Endangered Species Act
- Cybersecurity
- Electricity
- Emergency Management
- Energy
- Environmental Management
- Fisheries
- Health Care
- Indian Affairs
- Invasive Species
- Nuclear Energy / Waste
- Resource (Natural) Management
- Telecommunications
- Trade
- Transportation
- Waste Management
- Workforce Development
- Water

AMERICAN OVERSIGHT

REGULATORY REPORT: UPCOMING FEDERAL ACTIONS

December 1, 2018

Please see an updated tracking of proposed regulatory actions on which federal agencies are currently taking public comment. Included are those that impact Western states, and which fall within the following issue topics:

- Agriculture / Rural Development
- Air Quality
- Conservation / Endangered Species Act
- Electricity
- Cybersecurity
- Emergency Management
- Energy
- Environmental Management
- Fisheries
- Health Care
- Indian Affairs
- Invasive Species
- Nuclear Energy / Waste
- Resource (Natural) Management
- Telecommunications
- Trade
- Transportation
- Waste Management
- Water
- Workforce Development

Updated through 11/30/18: Chronological listing by effective date within topics.

FEDERAL REGULATORY REPORT-- ACTIONS FINALIZED

December 1, 2018

Below is a list of some of the key "final actions" -- published by federal agencies in the past month -- with consequences for the Western region. This month's report includes items within the following topic areas:

- Agriculture / Rural Development
- Air Quality
- Conservation / Endangered Species Act
- Electricity
- Energy
- Environmental Management
- Fisheries
- Health Care
- Indian Affairs
- Nuclear Energy / Waste
- Regulatory Affairs
- Resource (Natural) Management
- Telecommunications
- Transportation
- Waste Management
- Water

Please note that the specific effective dates for individual items may extend several months into the future.

Updated through 11/30/18: Chronological listing by effective date within topics.

Subject: December 2018 Edition: WGA Federal Regulatory Tracking Reports
Attachments: BCKGR_Regtrack-FinalActions_Dec2018_FINAL.pdf; BKGR_Regulatory_Upcoming Actions_Dec2018._FINAL.pdf; BCKGR_RegulatoryEvents_Dec2018_FINAL.pdf

Dear WGA Staff Council:

Welcome to the December 2018 edition of the Western Governors' Association's *Federal Regulatory Tracking Report*. The Report has three components, delivered monthly:

- **Final Regulatory Actions** -- A listing of federal regulatory actions impacting the West that have gone final in the past month, along with information on effective dates and other pertinent details.

- **Upcoming Regulatory Deadlines** -- A listing of upcoming federal regulatory rulemaking deadlines, along with links to relevant Federal Register documents.

- **Upcoming Events** -- A calendar of upcoming federal agency meetings / conference calls relating to regulatory actions.

Items are chronologically within topics in all three documents. This month's Report includes items within these topics:

- Agriculture / Rural Development
- Air Quality
- Conservation / Endangered Species Act
- Cybersecurity
- Electricity
- Emergency Management
- Energy
- Environmental Management
- Fisheries
- Health Care
- Indian Affairs
- Invasive Species
- Nuclear Energy / Waste
- Resource (Natural) Management
- Telecommunications
- Trade
- Transportation
- Waste Management
- Workforce Development
- Water

AMERICAN OVERSIGHT

REGULATORY REPORT: UPCOMING FEDERAL ACTIONS

December 1, 2018

Please see an updated tracking of proposed regulatory actions on which federal agencies are currently taking public comment. Included are those that impact Western states, and which fall within the following issue topics:

- Agriculture / Rural Development
- Air Quality
- Conservation / Endangered Species Act
- Electricity
- Cybersecurity
- Emergency Management
- Energy
- Environmental Management
- Fisheries
- Health Care
- Indian Affairs
- Invasive Species
- Nuclear Energy / Waste
- Resource (Natural) Management
- Telecommunications
- Trade
- Transportation
- Waste Management
- Water
- Workforce Development

Updated through 11/30/18: Chronological listing by effective date within topics.

FEDERAL REGULATORY REPORT-- ACTIONS FINALIZED

December 1, 2018

Below is a list of some of the key "final actions" -- published by federal agencies in the past month -- with consequences for the Western region. This month's report includes items within the following topic areas:

- Agriculture / Rural Development
- Air Quality
- Conservation / Endangered Species Act
- Electricity
- Energy
- Environmental Management
- Fisheries
- Health Care
- Indian Affairs
- Nuclear Energy / Waste
- Regulatory Affairs
- Resource (Natural) Management
- Telecommunications
- Transportation
- Waste Management
- Water

Please note that the specific effective dates for individual items may extend several months into the future.

Updated through 11/30/18: Chronological listing by effective date within topics.

Subject: Director's Report and Meeting Minutes - Future Guide
Attachments: March 2019 Director's Report - Future training.docx; GOED Board Meeting Minutes - Future Training.docx

Hi Stacy and Mariah,

You both did so great with the Board Meeting. You guys really pulled it all together and did awesome.

This is no big deal at all, but I attach the Director's Report with a few updates for next time. These are not big things and I def. saw no need to change these before the Board Meeting. This is really just a guide that I hope will be helpful in the future.

I have also tried to break down the minutes into the format I usually follow.

Hope these are helpful 😊

Kind regards,

Melanie Sheldon

AMERICAN OVERSIGHT

INTERNATIONAL TRADE

1. Governor's Office of Economic Development International Division (GOEDID) approved grants for small businesses statewide to increase their export opportunities. Companies include:

    - Bon Tool, a contractor-grade tool manufacturer with a distribution center in Henderson, was awarded $5,000
    - Geotemps, a recruiting service for the minerals and energy industries based in Elko, was awarded $5,000
    - Pet International, a pet supply export company based in Nevada, was awarded $10,000
    - Quality Corrections and Inspections, a high-volume inspection rework company, serving footwear, apparel and consumer goods industries with an office in Henderson, was awarded $10,000
    - Retro Manufacturing, a manufacturer of audio and safety products for classic cars based in Henderson, was awarded $10,000
    - Universal Industries, a distribution service for home furnishings to furniture and mattress retailers based in Las Vegas, was awarded $5,000
    - Free Brands, an all-natural deodorant manufacturer based in Las Vegas, was awarded $10,000
    - Hickory Ridge Group, a research company that provides economics studies and analytics-related corporate and government training based in Las Vegas, was awarded $1,995

2. GOEDID organized the completion of the first phase of the joint immersion program Nevada-Lubelskie Acceleration Bridge (NLAB):

    - Sixteen companies came to Nevada in three (3) cohorts (July-November 2018 and January 2019) and spend two (2) weeks in Reno, Carson City, Las Vegas, and Henderson.
    - First participating company: Netins Software has already established their Nevada-based company: Innovative Programing Alliance, has entrepreneurial residency at the University of Las Vegas (UNLV) International Gaming Institute and has started (January 2019) – in partnership with Western Nevada College – the Academy for Coders (as a part of the local communities' engagement strategy).
    - Next editions of NLAB will be continued in the years 2019/2020.

3. GOEDID strengthened a strategic collaboration between University of Reno (UNR) College of Business and Warsaw School of Economics by managing the process of preparing and winning the grant received from the National Agency of Academic Exchange (NAWA) to support 30+ faculty and startup exchanges between Nevada and Poland as well as the organization of international economic development symposiums in Reno (2018 & 2020) and in Warsaw (2019):

    - In December 2018, ten (10) researchers from Poland came to Nevada for 1st UNR College of Business – Warsaw School of Economics Joint Symposium on Entrepreneurship, Economic Development and Public Policy.
    - In May 2019, four (4) academic startups from Nevada will be selected in the competitive procedure and with NVG mentor will go to Warsaw this year for the immersion program there.

AMERICAN OVERSIGHT

- Ten (10) UNR researchers will take part in the Second Symposium in Warsaw in October 2019. The Roundtable Discussions on supporting startup ecosystems in Nevada and Poland & collaboration opportunities under Nevada Global platform are planned as well.

4. The GOEDID office is currently organizing the first ever Nevada Global Summit which is scheduled for June 6 in Las Vegas. This summit will include over 25 representative Consuls and Ambassadors that serve Nevada and will showcase the business impact of the international community working with GOED~~-~~ID and our small businesses.

5. GOED's International Division will be applying in April for an increase for the STEP Grant to offer more funds for small businesses seeking to export their goods internationally.

6. GOEDID went on a trade mission to Ireland, Scotland and Poland the last week of January first week of February 2019. Partnerships that resulted were with colleges that would like to have student exchanges and Polish Businesses that are investing in Nevada and have already secured funding to enter the Las Vegas Business market which includes hiring Nevadans. During the Scottish leg of the trip, several chamber and business groups met with the team and the Director of GOEDID, Mr. Kristopher Sanchez was invited back to speak at the Scottish Council for Development and Industry Annual Business Conference that confers over 300 of the UK's business leaders. Also, partnerships that resulted were with colleges that would like to have student exchanges and Polish Businesses that are investing in Nevada and have already secured funding to enter the Las Vegas Business market which includes hiring Nevadans.

ECONOMIC DEVELOPMENT

7. Mr. Bob Potts, Research Director, GOED recently represented GOED in New Orleans at the Council of Chief State School Officers' Career Readiness Network Convening. The main purpose of this meeting was to provide a platform to work within and across teams from the other nine states awarded phase two New Skills for Youth (NSFY) grant funding. The focus was to build on and refine strategies that expand access to high-quality, high-demand pathways for all students. Mr. Potts' focus and contribution revolved around employer engagement in developing these pathways.

8. ~~Bob~~ Mr. Potts with other members of NNDA's Pioneer Awards Selection Committee chose the 2018 Pioneer Award winners. There were four business award categories including: Leader in Sustainability, Non-Profit of the Year, Manufacturer of the Year, and Entrepreneur of the Year.

9. Mr.~~Bob~~ Potts, with the Economic Development Authority of Western Nevada (EDAWN) and the Economic Planning Indicators Committee, a broad group of northern Nevada decision makers and stakeholders, developed 5-year job, population, and housing projections for strategic regional policy and infrastructure planning.

10. In January, ~~Bob~~ Mr. Potts joined other members of the University of Nevada's Cooperative Extension Advisory Council in Las Vegas to review current activity and enhance the agencies outreach in assisting rural, urban, and urban distressed communities. Areas of focus include: Agriculture and Natural Resources; Horticulture; Health and Nutrition; Children, Youth and Families; Economic and Community Development; and 4-H.

AMERICAN OVERSIGHT

11. In February, ~~Bob~~ Mr. Potts, as GOED's designated representative on the State Apprenticeship Council, joined other Council members in approving program standard revisions of four existing apprenticeship programs and raising the minimum wage for apprentices in the construction industry. Additionally, the Council discussed and learned about resources to support apprentices with disabilities and learned about the new LifeWorksNV website OWINN launched that helps Nevadans find apprenticeships and other forms of work-based learning by zip code. The site can also be viewed in Spanish. However, much of the discussion revolved around Nevada being out of compliance with the Federal law that guides apprenticeships and the risk that all apprenticeship programs face if Nevada remains out of compliance with the federal law. Further efforts to bring the state into compliance are currently in front of the Legislature under AB 68.

12. During the current quarter ~~Bob~~ Mr. Potts made several economic and workforce development presentations for a variety of stakeholder groups in the state. These included: The Northern Nevada Work-based Learning Advisory Group, The Governor's Workforce Development Board, educators at the Nevada ACT/OWINN Summit, and NNDA at their quarterly Business Edge Lunch Meeting.

13. ~~Bob~~ Mr. Potts was recently designated as GOED's representative on the Governor's Office of Science, Innovation & Technology STEM Advisory Council. The mission of the Nevada STEM Advisory Council is to lead students to rewarding careers by increasing their interest and achievement in the fields of science, engineering, technology, and mathematics.

14. SRI state economic study, "A New Economic Agenda for Nevada" completed and submitted for review/approval before being released.

15. Newmark Knight Frank completed an external study of Nevada's incentive packages by comparing Las Vegas/Reno to four other communities in the Western/South Western Region. This report was submitted for review/approval before being released.

16. GOED has begun reviewing and redrafting the RDA Scope of Work and rebid process. The current RDA contracts expire on June 30, 2019. Goal is to have the redraft completed by April and released to the RDAs in May.

AUTONOMOUS SYSTEMS

17. On 15 February 2019, the National Aeronautics and Space Administration (NASA) publicly announced the State of Nevada as an award recipient for the Unmanned Aircraft Systems Traffic Management (UTM) Technical Capability Level (TCL) 4 operation.

18. In January 2019, U.S. Secretary of Transportation Elaine L. Chao announced the selection of the Nevada as a test site that will develop and demonstrate technology to manage the airspace for the safe deployment of drones in the US National Airspace System (NAS) in their UTM Pilot Program (UPP).

OPPORTUNITY ZONES

AMERICAN OVERSIGHT

19. GOED, in coordination with the Federal Reserve and Business and Industry, held an "Understanding Opportunity Zones in Nevada" one day conference on November 27 at the City of Las Vegas Chambers. Attendance was free for the public to attend and we had over 400 individuals participate. Mr. Derek Armstrong, Deputy Director, GOED~~Derek Armstrong~~ helped coordinate the event and was also a featured speaker.

20. In December~~, Deputy Director Derek~~. Mr. Armstrong participated in the new legislator training to provide an overview of the office and information to new legislators.

21. GOED has made several presentations to the Nevada Legislature including a budget presentation to the joint Assembly Ways and Means and Senate Finance committees, a hearing on Assembly Bill 32 to the Assembly Taxation committee, and an overview of GOED to the joint Assembly Taxation and Senate Revenue Committees.

22. GOED sponsored and participated in the planning and execution of the Northern Nevada Opportunity Zone Summit March 19 and March 20, 2019. ~~The~~ Mr. Steve Glickman, Chief Architect of the Opportunity Zone Program, was the key note speaker. The conference spent a day focusing on fundamentals of a deal, real estate versus business deals, local best practices, opportunity to pitch projects, extensive networking, and a day long series of tours at TRIC and the downtown Reno. This conference was a follow up to the November Opportunity Zone Forum hosted by GOED, Business and Industry and the San Francisco Federal Reserve Bank in Las Vegas.

COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG)/ MAINSTREET

23. Federal allocations from US Department of Housing and Urban Development (HUD) will be completed by April 15. GOED received fourteen (14) projects with total requested amount of $3,568,979. Estimated allocation expected is $3,283,051. The CDBG advisory committee allocation meeting scheduled April 23 and April 24.

24. The 2019-20 Annual Action Plan (SF424 and State Certificates) is due to HUD June 25, 2019. The draft plan is due to CDBG Program Administrator for CDBG, HOME Investment Partnership Program (HOME), Housing Opportunities for Persons With AIDS (HOPWA), and Emergency Solutions Grant (ESG) by May 9. The public comment period for this plan is from May 15 to June 15, 2019.

Formatted: Font: Calibri, Not Bold

25. The HUD Consolidated Plan 2020 – 2024 and Analysis of Impediments to Fair Housing Choice is due May 15, 2020. The GOED CDBG Program Administrator is coordinating a plan with program staff for HOME, HOPWA, and ESG.

26. GOED in partnership with US Department of Agriculture (USDA) and UNR, is coordinating a Comprehensive Economic Development Strategy (CEDS) for White Pine County.

27. GOED is completing a USDA Rural Business Development Grant for Nothern Nevada Regional Development Authority (NNRDA). This grant will be used to complete a Comprehensive Economic Development Strategy (CEDS) for the region encompassing Elko, Eureka, Humboldt, Lander and White Pine counties. As part of this project, faculty from the University Center for Economic Development (UCED) would serve as the lead

AMERICAN OVERSIGHT

entity, in partnership with the Governor's Office of Economic Development (GOED) and USDA Rural Development.

Total cost of this project is estimated at $70,000.00 with funding from the following sources:

- USDA Rural Development Rural Business Development Grant (RBDG) at $45,000
- Mining Industry contribution total $10,000
- NNRDA and/or the member counties of Elko, Eureka, Humboldt, Lander and White Pine Counties $10,000
- GOED contribution total $5000

28. Main Street program agreements completed with the following communities:

Gardenville (Designated – Nationally Accredited)
Reno (Exploring – Urban Main)
Henderson (Exploring – Urban Main)
Wells (Affiliate)
Lovelock (Affiliate)
Tonopah (Affiliate)
Winnemucca (Exploring)
Ely (Exploring)
Mesquite (Exploring)
Fallon (Exploring)

29. Total Main Street Grants awarded January 2019: $99,206.00

Gardnerville	$1,700	Banners
Wells	$20,000	Property Assessment
Ely	$30,000	Style Guide
Lovelock	$4,000	Informational Boards
Reno	$35,000	Educational Brochure, pop art, streetscape
Winnemucca	$8,506	Historical Book

30. SSBCI: Collateral Support Program (CSP): GOED and Valley Bank of Nevada closed one loan for $1,615,000, collateral support expended $400,000.

31. Nevada Opportunity Fund (NOF): GOED and Bank of Nevada approved one Nevada Opportunity Fund Loan for $25,000. The Opportunity Loan program has now approved 10 of 16 applicants for a total of $450K of the $1M allocated.

HEALTH CARE

32. Dr. Gillian Barclay, GOED's Health Care Industry Specialist, has worked with UNLV ~~the University of Nevada, Las Vegas~~ and the National Science Foundation to plan and launch the Nevada Mobile Health (mHealth) Training Institute. The 2-day training institute is developed from the successful National Institutes of Health/National Science Foundation model to grow health technology research and development (R&D) and product commercialization. The inaugural training is planned for June 2019 and will focus on multidisciplinary faculty development in R&D and product commercialization for mHealth technologies.

AMERICAN OVERSIGHT
NV-DA-20-0615-A-000856

These digital technologies are foundational products for 21st century population health initiatives that include sports R&D. Four additional institutes are planned through December 2020 to grow and sustain in-state capacity and infrastructure for innovation and entrepreneurship within this component of the health economy.

33. Dr. Barclay has partnered with Las Vegas HEALS to plan and launch the inaugural symposium on Diversifying the Health Economy in Nevada: Expanding Beyond Clinical Delivery Services. The symposium is being held on March 7 and will feature Nevada-based businesses and Nevada expertise in health R&D. The symposium goals are to understand how health R&D will help grow and diversify Nevada's economy; highlight how strengthening health R&D will help to retain Nevada's new generation of healthcare professionals; highlight unique opportunities for R&D in Nevada.

34. Dr. Barclay has worked with Touro University, Valley Health System and the College of Southern Nevada to expand health simulation and pre-hospital care training to health care providers and emergency responders in rural Nevada. This work will include the use of autonomous systems and other technologies with the goals to reduce health care costs, improve health care access and health outcomes for Nevadans. General Electric Healthcare has partnered for this work, which will include opportunities for new health technology R&D to address the health needs of rural Nevadans.

35. Dr. Barclay has partnered with Gg~~g~~raduate M~~m~~edical Eeducation (GME) stakeholders and Las Vegas HEALS to develop a new multisectoral taskforce with the sole focus on physician retention to ensure a strong return on the state's investments in GME. This taskforce will be led by HEALS and will engage stakeholders throughout the state.

36. GOED, Las Vegas HEALS and GME Taskforce stakeholders will convene a Nevada-based GME informational meeting with the Accreditation Council for Graduate Medical Education (ACGME) in May 2019. This Council is responsible for accrediting graduate medical training programs (i.e., internships, residencies, and fellowships, and subspecialty residencies) for physicians in the United States. The goal is to obtain updated information on GME education, and to plan next steps for GME in the state for a high- quality physician workforce to benefit Nevadans.

37. Dr. Barclay was elected to the board of the Nevada Chapter of Health Occupations Students of America (Nevada HOSA) in March 2019.

38. Dr. Barclay will be honored in June 2019 with a "lifetime achievement award" from Hip Hop Public Health for her work to improve the health of youth around the globe.

RURAL / MINING

39. Mr. Joel Lenz, GOED's Mining Industry Specialist participated in Mining Day at the Legislature where he interacted with over eighty (80) mining industry personnel, legislators, legislative staff members, and The Nevada Department of Conservation and Natural Resources (DCNR) staff. The day consisted of formal presentations, panel sessions, as well as opportunities for private conversations regarding topics germane to the mining industry.

40. Mr. Lenz discussed Waterton's Gemfield Project, in Esmeralda County, with principals and consultants for the Company. The Gemfield Project will require the relocation of a 2.5 mile stretch of Highway 95 adjacent to the mine near the town of Goldfield. Waterton was contacting GOED's mining specialist to enlist support for expected interaction with the Nevada Department of Transportation regarding the highway relocation project.

AMERICAN OVERSIGHT

41. Mr. Lenz presented "The Results of a Study of on Precious Metals Toll Milling and Copper Concentrate Processing Opportunities in Nevada" to the Geological Society of Nevada at their meeting in Elko.

42. The Canadian think-tank, The Fraser Institute, named Nevada as the best jurisdiction in the world for mining investment in their 2018 annual survey. **Nevada moved up to first place in the 2018 survey from third place last year.** The twenty-one-year-old survey is a report card on governmental policy that either attracts mining investment or discourages it. Eighty-three (83) jurisdictions around the world are ranked, not only on geologic attractiveness, but also governmental policy. Last year, exploration investment in Nevada rose significantly to $453 million.

KNOWLEDGE FUND

43. Data Analytics classes are now being offered at Truckee Meadows Community College (TMCC) with 250 free seats available in an effort supported by the WINN grant program. Mr. Karsten Heise, Director Strategic Programs, initiated the course development in Data Analytics and Data Visualization in partnership with TMCC. The online course platform is being developed by NCLab, a local Reno-based start-up. The initiative constitutes a component of GOED's Learn and Earn Advanced career Pathway (*LEAP*) framework for Advanced Information Communication Technologies (ICT). The courses will offer opportunities for obtaining introductory skills needed in the era of the Fourth Industrial Revolution and to increase digital literacy required for employment in a data and automation centric modern economy. Further extensions toward a full certificate are currently being worked on.

44. The Northern Nevada Work Based Learning Coalition made further progress. The initiative branded as "*Career Bound NV*" comprises strategic partners and stakeholders from Douglas and Washoe county as well as Carson City. Its vision is for *motivated students and committed employers contributing to a robust economy* and its mission is *connecting youth to meaningful career pathways while supporting schools and employers in developing workforce solutions for Nevada*. Mr. ~~Karsten~~ Heise, ~~Director Strategic Programs,~~ has been a driving member of the core steering team since inception. First projects are expected to launch in late summer with the beginning of the new school year.

45. Battle Born Growth Escalator, Nevada's state venture program funded by the federal State Small Business Credit Initiative (SSBCI), is currently in the process of completing its second full-exit. Portfolio company WiseBanyan is being acquired by New York Stock Exchange listed Axos Financial (NYSE: AX). All key employees will be transferring to the new organization. Las Vegas based WiseBanyan launched in 2013 and is the world's first free financial advisor.

FILM OFFICE

46. The status of the Nevada Film Office (NFO) Tax Incentive for Fiscal Year 2019 is summarized below:

AMERICAN OVERSIGHT

47. The 2019 production directory has been completed and is being distributed. The current directory has 313 listings including crew and vendors. The production directory is the yellow pages for the film industry offers opportunities for Nevada small businesses to work with productions filming in Nevada.

48. The film office will be attending the Association of Film Commissioners International week in early April. During the week the NFO will be connecting with production heads from several major studios to promote Nevada as a production destination. In addition, we will be working with other film commissioners to deal with matters affecting the industry and opportunities for Nevada.

49. In the month of February, the NFO website had 29,917 page visits, and continues to average almost 30,000 visits per month.

50. The NFO continues to work with rural RDA's to promote locations all around the state of Nevada and grow the number of locations in our locations database.

PROCUREMENT TECHNICAL ASSISTANCE CENTER (PTAC)

51. Ms. Joan C. Rueben, Director of the Nevada Procurement Technical Assistance Center (PTAC), Procurement Outreach Program, served as an invited panelist on government contracting and subcontracting for a U.S. Small Business Administration (SBA) Emerging Leaders Program meeting on Nov. 7, 2018. The meeting was held at the SBA's Nevada District Office in Las Vegas, and five (5) SBA program participants were in attendance. The SBA program provides free entrepreneurship education and training for executives of small, poised-for-growth companies that are potential job creators.

52. The Nevada PTAC team members conducted in-person workshops at either Clark County Government Center or Washoe County Government Center. Topics included: successful government contracting (Nov.); doing business with the Nevada Department of Transportation (Dec.); doing business with the U.S. Bureau of Reclamation (Jan.); and doing business with the State of Nevada Purchasing Division (Feb.). An overall

AMERICAN OVERSIGHT

total of 86 organizational representatives attended the workshops, which are co-sponsored by the Nevada SBDC.

53. Nevada PTAC team members taught live training webinars for small business clients throughout the state. Topics included: resources for veteran-owned businesses in Nevada (Nov.-Mr. Paul~~.~~ Gallaspie, Government Contracts Adviser, GOED PTAC); developing a company's capability statement document for government contracting (Dec.-Ms. ~~J.~~ Rueben); harnessing business intelligence and market research for federal government contracting (Jan.-Mr. Steve. Yates, Government Contracts Adviser, GOED PTAC); and advantages of small business certifications (Feb.-Ms. Maggie~~.~~ Neidigh Government Contracts Adviser, GOED PTAC). An overall total of 84 organizational representatives accessed the webinars, which are co-sponsored by the Nevada SBDC. The PTAC also arranged for a doing business with the U.S. Bureau of Land Management webinar that was accessed by seven (7) individuals.

54. The Nevada PTAC continues to contribute and add value at State of Nevada Department of Business & Industry-led meetings, such as the small business roundtable meetings (Jan.) and the small business resource partner marketing initiative meetings (Dec. and Feb.), that have been taking place at the Nevada Business Resource Center. The Nevada PTAC is appreciative of its statewide resource partners which continually refer small businesses to the PTAC to receive free one-on-one counseling and other services.

55. ~~Joan C.~~ Ms. Rueben, ~~Director of the Nevada PTAC~~, served as an invited presenter on government contracting for a Clark County Small Business Opportunity Program (SBOP) meeting on February 21, 2019. The meeting was held at the Clark County Government Center, and thirteen (13) SBOP participants were in attendance. The SBOP is designed to help small business owners increase their capacity to compete for government contracts by allowing them to receive a combination of classroom training, mentoring, coaching, and professional relationship-building activities.

56. The Nevada PTAC continues to serve on the planning committee for the next annual Committed to Our Business Community event taking place on August 22, 2019, at the Las Vegas Convention Center. This is a free event for Nevada businesses. It provides a forum for them to market their goods, services, and capabilities to local, state, and federal government procurement professionals and fellow business attendees. Several hundred businesses typically attend the event.

57. With its event co-sponsor Carson Valley Chamber of Commerce, Nevada PTAC team members (Mr. Juan Manzano, Deputy Director, GOED PTAC ~~Manzano~~, ~~Steve~~ Mr. Yates, and Ms ~~Maggie~~ Neidigh) helped to plan and execute a small business matchmaker event on February 27, 2019, at the Carson Valley Improvement Club Hall in Minden. About fifty (50) business representatives had the opportunity to meet with government and prime contractor procurement personnel, resource partners whose mission is to support small business, and fellow business attendees.

58. Nevada PTAC client, Titan Wire & Cable LLC, is based in Sparks and the company is involved in the sale and distribution of electrical and electronic equipment, including electrical wire, power and distribution equipment, and fiber optic material and components. Late last year, the business was awarded a contract by the U.S. Navy to supply electrical connectors, wires, breaker boxes, and labels. Based on the contract, the company maintained all of its full-time, part-time, and temporary positions.

AMERICAN OVERSIGHT

59. Nevada PTAC client, Advanced Security Solutions Inc., based in Las Vegas is a veteran-owned small business providing telephone equipment and systems business services. Late last year, the company was awarded a contract by the 99th Contracting Squadron, Nellis Air Force Base, to install an intercom system. The contract allowed the business to retain two (2) full-time positions and create one (1) temporary position.

60. Nevada PTAC client, MNW Construction LLC, is based in Carson City and is a woman-owned small business, a certified service-disabled veteran-owned small business, and a certified Nevada Local Emerging Small Business. The company specializes in construction services. Late last year, the business was awarded a contract by the State of Nevada Public Works Division to provide Americans with Disabilities Act site upgrades to the Sierra Regional Center. Based on the contract, the company was able to retain seven (7) full-time positions.

WORKFORCE DEVELOPMENT (WINN)

61. Ms. Stacey Bostwick, Workforce Development Program Coordinator, GOED supported the launch of eight (8) WINN-funded programs representing an investment of $3.3 million in workforce development opportunities in the Information Technology, Health and Mining industries in Nevada

62. Ms. Bostwick worked to advance the GOED-sponsored bill: **AB32 – Revises provisions governing workforce development.**

63. Ms. Bostwick held meetings to promote integration opportunities and WINN systems information sharing with: Nevada Department of Corrections, Western Governor's University, Jobs for the Future, Nevada Department of Employment, Training & Rehabilitation and several veteran interest groups including Hiring Our Heroes, Empower America, and the State Veterans Coordinator in Administration.

STAFF ANNOUCEMENTS

64. In November 2018, GOED welcomed **Ms. Sonia Joya as its new Deputy Director of the International Trade Division**. With over 20 years of executive level experience serving elected officials in federal and state government affairs, and as a former director and state director for congressional and U.S. Senate office, Ms. Joya managed teams of up to 200 government employees for targeted issues specific projects and exercises including census operations and Congressional District Director Training. Ms. Joya's responsibilities involved fundraising for Congressional and County School Board Races, grant management for Senate Homeland Security Grants, ethics liaison for U.S. Senate Office with Senate Ethics Committee. Ms. Joya worked closely with Small Business Administration, U.S. Department of Commerce, and other federal agencies in serving Nevada businesses through advocacy and representation. Ms. Joya serves on the government affairs boards of the Latin, Urban and Asian Chambers of Commerce and works closely with diverse groups in furthering business opportunities for all communities. Ms. Joya is a graduate of the UNLV ~~University of Nevada Las Vegas~~ with a Bachelor's Degree in Communications Theory.

AMERICAN OVERSIGHT

65. Mr. **Keith Paul** was named GOED's **Communication Director** in January 2019 having more than 15 years of experience in strategic and crisis communications and media relations in Nevada. Mr. Paul ~~Keith~~ has worked in public and media relations in the public and private sectors advocating for diverse organizations including law enforcement, elected officials, information technology departments and government entities. He also comes with more than 10 years' experience as a newspaper reporter. Mr. Paul ~~Keith~~ earned his Master's Degree from University of Nevada, Las Vegas in Public Administration and Bachelor's Degree in Journalism from the University of Maryland.

66. In January 2019, GOED welcomed **Ms. Dijana Mitrovic** as its new **International Trade Division Assistant.** She has over 15 years of professional experience in government departments and international organizations. ~~Dijana~~ Ms. **Mitrovic** worked as a program manager and consultant for tax policy and leadership programs in Slovenia, building coalitions with over 40 governments, universities, and international organizations, supporting stronger public sector governance, capacity development in public financial management, and contributing to the economic growth programs in respective countries. She also worked for the finance ministry and customs agency in Serbia, leading bilateral, multilateral, and European Union projects, engaging in strategic planning, contracting, financing, and quality control of regional and economic development, institution building, strengthening human capital, and rural development operational programs. Ms. **Mitrovic** ~~Dijana holds~~ a Bachelor's Degree in Japanese and also speaks Serbian / Croatian, Slovenian, and French.

67. In February 2019, GOED welcomed Ms. **Stacy Ewing** as its new **Business Development Assistant.** ~~Stacy~~ Ms. Ewing has over 20 years professional experience in the public and private sectors, including 15 years legal experience in oil and gas law, easements and access, probates, estate planning, business law, real estate law including eminent domain, condemnation, and adverse possession, and civil litigation. Stacy also worked for the City of Cape Coral (Florida) as an Administrative Assistant for the Public Works Department where she coordinated with City's Finance Department, Auditing Department, Clerk's Office, Council Offices, Emergency Operations Center, and FEMA representatives on various projects. Ms. Ewing ~~Stacy~~ holds an Associate's Degree in Paralegal Studies and is currently working on her Bachelor's Degree in Business Management.

AMERICAN OVERSIGHT

STATE OF NEVADA
GOVERNOR'S OFFICE OF ECONOMIC DEVELOPMENT
BOARD MEETING MINUTES
November 15, 2018

The meeting of the Board of Economic Development was called to order by Governor Brian Sandoval at the Grant Sawyer Building, Legislative Counsel Bureau, Room 4401, 555 E. Washington Avenue, Las Vegas, Nevada, 89101 and via video conference to the Legislative Counsel Bureau, 401 South Carson Street, Room 3137, Carson City, Nevada, 89701

1. VOTING BOARD MEMBERS PRESENT

Governor Brian Sandoval, State of Nevada
Lieutenant Governor Mark Hutchison, State of Nevada
Secretary of State Barbara Cegavske, State of Nevada
Mr. James Barrett, Jr., President and Founder, The JABarrett Company
Mr. Raymond Specht, Chief Operating Officer, Specht Leadership Consulting
Dr. Dana Bennett, President, Nevada Mining Association
Mr. Dan Klaich, Voting Member at Large
Dr. Weldon Havins, Director, Medical Jurisprudence and Ophthalmology, Touro University Nevada

VOTING BOARD MEMBERS ABSENT AND EXCUSED

Mr. Adam Kramer, Executive Vice President of Strategy, Switch, Inc.

NON-VOTING BOARD MEMBERS PRESENT

Mr. Don Soderberg, Director, Department of Employment Rehabilitation and Training

NON-VOTING BOARD MEMBERS ABSENT AND EXCUSED

Dr. Thom Reilly, Chancellor and Chief Executive Officer, Nevada System of Higher Education

STAFF MEMBERS PRESENT

Paul Anderson, Executive Director, GOED, Secretary of Board
Henna Rasul, Senior Deputy Attorney General, Board Counsel to GOED
Derek Armstrong, Deputy Director, GOED
Matt Moore, Deputy Director, GOED
Bob Potts, Director of Research, GOED
Grace Chou, Director of Manufacturing and Technology, GOED
Karsten Heise, Director of Strategic Programs, GOED
Pawel Pietrasienski, Director of Special Projects, GOED
Gillian Barclay, Healthcare Industry Specialist, GOED
Stacey Bostwick, Workforce Development Program Coordinator, GOED
Ash Azmak, International Business Manager, GOED

AMERICAN OVERSIGHT

Melanie Sheldon, Program Manager, GOED
Michelle Sibley, Human Resources Manager & Executive Assistant of Operations, GOED
Mariah Heriman, Executive Assistant & Program Management Specialist, GOED

GUESTS PRESENT

Scott Anderson, Secretary of State's Office
Christine Guerci, Special Counsel to the Colorado River Commission and GOED
Shelli Long, Department of Taxation
Lezlie Helget, Department of Taxation
Ryan Smith, City of Las Vegas
Marcia Turner, University Medical Center
Saju Joseph, Valley Health
Angela Amar, University of Las Vegas
Carolyn Sabo, University of Las Vegas
Clarissa Cota, College of Southern Nevada
Bret Murphy, Great Basin College
Camille Vega, Truckee Meadows Community College
Jonathan Wilson, Northern Nevada Transitional Housing
David Campbell, Pilot Thomas Logistics
Mackenzie Campbell, Pilot Thomas Logistics
Patricia White, Desert Air
David Belpedio, MarksNelson, LLC
Randall Stubbs, Private Citizen
Enrique Buenrostro, Private Citizen
Stan Thomas, Economic Development Authority of Western Nevada
Michael Walsh, Las Vegas Global Economic Alliance
Kylie Rowe, Las Vegas Global Economic Alliance
Perry Ursem, Las Vegas Global Economic Alliance
Dustin Moore, Aqua Metals, Inc.
Sean Berkley, Berkley International
Eric Berkley, Berkley International
Jonathan Stock, Outside Counsel to Design LLC
Dennis Lane, Fox Factory, Inc.
Craig Marquiz, HAPPIE Home, Inc.
Anthony Rufo, HAPPIE Home, Inc.
Jay Wessell, James Loudspeaker, LLC
Gary Green, Premium Waters, Inc.
David VanderKlipp, Premium Waters, Inc.
JB Straubel, Redwood Materials, Inc.
Andrew Stevenson, Redwood Materials, Inc.
Glenn Abood, rfXcel Corporation
Rajiv Bhagat, rfXcel Corporation
Anita Pramoda, Owned Outcomes

AMERICAN OVERSIGHT

2. PUBLIC COMMENT

Governor Brian Sandoval asked if anyone from the public sought to make public comment. No public comment was provided.

3. GOVERNOR SANDOVAL'S COMMENTS

Governor Sandoval advised this would be his last meeting as Chair of the Governor's Office of Economic Development (GOED) Board and noted his first GOED board meeting had not contained a single agenda item. In comparison, today's Agenda was filled with exciting projects and possibilities for the state of Nevada.

Governor Sandoval thanked all GOED Board Members, past and present. He also thanked the Regional Development Authorities (RDA) for their contribution to building the New Nevada. Nevada's economy had diversified beyond anticipation particularly in the areas of Unmanned Ariel Vehicles (UAVs), autonomous vehicles, data centers, advanced manufacturing, internet fulfillment, and technology.

Governor Sandoval referred to January 2011 when Nevada's unemployment rate was 14%, approximately 175,000 Nevadans had lost their jobs, and Nevada led the country in foreclosures and bankruptcies. Currently the unemployment rate was 4.4%. This was the lowest it had been since 2007. Those 175,000 lost jobs have been replaced with approximately 280,000 new jobs.

Director Paul Anderson noted Governor Sandoval had commenced his appointment as Governor at time when Nevadans needed him most. Governor Sandoval has stepped into leadership and decided economic development would be an important component of the state's recovery and growth. That vision became a reality with the creation of more than 280,000 new jobs. The diversified economy was now better positioned to weather a recession and the New Nevada led the US in economic growth.

Director Anderson thanked Governor Sandoval for his dedication and leadership and noted one of the Governor's favorite quotes, by Edward Everett Hale, epitomized his service to the state – '*I am only one; but still I am one. I cannot do everything; but still I can do something; and because I cannot do everything, I will not refuse to do the something that I can do'.*

Governor Sandoval thanked Director Anderson and his staff at GOED noting the state, counties, municipalities, and RDA's collective dedication to economic development stemmed from an epic love for Nevada and a passion to make it the best state it could possibly be.

AMERICAN OVERSIGHT

4. APPROVAL OF THE SEPTEMBER 20, 2018 BOARD MEETING MINUTES

Dr. Dana Bennett requested two revisions. On 6D page 9 and 8A page 17 there was no note of the motion passing unanimously. The Board approved the minutes subject to these revisions being made.

A MOTION WAS MADE BY SECRETARY OF STATE BARBARA CEGAVSKE TO APPROVE THE SEPTEMBER 20, 2018 MEETING MINUTES WITH REVISIONS TO 6D PAGE 9, AND 8A PAGE 17. THIS MOTION WAS SECONDED BY DR. BENNETT. THE MOTION PASSED UNANIMOUSLY.

5. ABATEMENT APPLICATIONS FOR BOARD APPROVAL

A. AQUA METALS, INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

B. AQUA METALS, INC.

- **CATALYST FUND**

INTRODUCTION OF RDA AND COMPANY – SAME FORMAT ALWAYS

Mr. Stan Thomas, Executive Vice President, Economic Development Authority of Western Nevada (EDAWN) presented Aqua Metals, Inc. (Aqua Metals) and provided an overview of the company and abatements sought.

#1 COMPANY OVERVIEW
#2 PROJECT OVERVIEW
#3 INTRODUCE COMPANY REP

#1 Aqua Metals is a developer of a patent-pending electrochemical battery recycling technology. The company was reinventing lead recycling with its proprietary technology, known as AquaRefining™. The room temperature, water-based process was fundamentally non-polluting, eliminating the toxic emissions created by lead smelting. The modular design of AquaRefining™ technology enables flexible and economic expansion of lead recycling to meet the growing demand for lead to power new applications including: stop/start automobile batteries, which complement the vehicle's main battery, internet data centers, and alternative energy applications including solar, wind and grid-scale storage. **#2** The project would hire 28 employees at an average hourly wage of $67.73 per hour and make an approximate capital equipment investment of $33,000. **#3** Mr. Thomas was joined by Mr. Dustin Moore, Director of Commercial Operations, Aqua Metals.

AMERICAN OVERSIGHT

COMPANY REP COMMENT/OVERVIEW

Mr. Moore advised the company operated the world's only clean battery recycling business and had built the world's first AquaRefining™ lead facility in Nevada's Tahoe Reno Industrial Center (TRIC) in mid-2016.

Aqua Metals was now considering the relocation of its headquarters operations from Alameda, CA to TRIC.

QUESTIONS FROM THE BOARD

Governor Sandoval inquired as to the number of batteries the company took in and recycled. Mr. Moore advised the Nevada facility currently crushed approximately 15,000 pounds per hour. At a full capacity, the facility could crush over 100 million pounds of lead acid batteries annually.

Governor Sandoval inquired about Aqua Metals client base. Mr. Moore advised a major client was one of the largest lead acid battery manufacturers in the world. Every piece of lead the company recovered went right back into the battery stream or was used in energy storage applications. Everything was recycled, including plastic casings, the active material in the batteries, the grid lead, the hard lead, and the poles.

Lieutenant Governor Hutchinson noted the company's high wages and asked how this impacted recruitment. Mr. Moore stated the company had its hiring challenges. However, there been no shortage of applicants. Additionally, the company had just increased the entry-level semi-skilled plant worker wage to $21.50 an hour.

Mr. Dan Klaich asked what percentage of new employees would be hired locally. Mr. Moore advised approximately 15 to 20 percent of employees would be relocated from the CA headquarters. The remainder would be hired locally.

Lieutenant Governor Hutchison asked how important the tax incentive program had been in Aqua Metals' decision to locate its headquarters in Nevada. Mr. Moore noted the tax program had been a critical factor in selecting the TRIC location for an expansion.

Governor Sandoval inquired how much capital investment the company has already made in its Nevadan facility. Mr. Moore advised it was in excess of $100 million.

CLOSING STATEMENT

Governor Sandoval thanked the company for its application and all it done for Nevada thus far.

AMERICAN OVERSIGHT

BOARD MOTION

A MOTION WAS MADE BY MR. DAN KLAICH TO APPROVE THE ABATEMENT APPLICATION OF AQUA METALS, INC. FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS PRESENTED IN AGENDA ITEM 5A AND A CATALYST FUND GRANT IN THE SUM OF $150,000 AS PRESENTED IN AGENDA ITEM 5B. THIS MOTION WAS SECONDED BY MR. JAMES BARRETT. THE MOTION PASSED UNANIMOUSLY.

C. DESIGN LLC

- **DATA CENTER SALES TAX ABATEMENT**
- **DATA CENTER PERSONAL PROPERTY TAX ABATEMENT**

INTRODUCTION OF RDA AND COMPANY – SAME FORMAT ALWAYS

Mr. Michael Walsh, Vice President of Economic Development, Las Vegas Global Economic Alliance (LVGEA), presented Design LLC (Design) and provided a brief overview of the company and abatements sought.

#1 COMPANY OVERVIEW
#2 PROJECT OVERVIEW
#3 INTRODUCE COMPANY REP

#1 Design is a wholly owned subsidiary of Google, LLC (Google). Google was founded in 1998 and is a US technology company that offers internet-related services and products and operates multiple data centers in the US and around the world. Google has a diversified portfolio of internet-related services and products, which include online advertising technologies, search engine, cloud computing, software and hardware. Google and its affiliates employ 89,058 employees. #2 The company's new southern Nevada project would hire 50 employees at an average hourly wage of $31.25 per hour and make an approximate capital investment of $600 million within its first five years of operation. **#3** Mr. Walsh was joined by Mr. Jonathan Stock, Outside Counsel to Design /Google, LLC.

COMPANY REP COMMENT/OVERVIEW

Mr. Stock advised Design planned to build a data center in Henderson. The project would make Nevada an important part of the company's growth strategy. The proposed data center would primarily service the company's customers in North America and provide support for

AMERICAN OVERSIGHT

all Google services including Google searches, YouTube, Google Calendar, Google Maps, Google Documents, Gmail, and cloud computing services.

Mr. Stock noted the state's incentives, the leadership of Governor Sandoval, and the GOED team had made Nevada competitive in the location selection process and a key choice for this project. Additionally, Nevada had a well-educated and diverse workforce, reduced risk of natural disasters, availability of efficient power sources, infrastructure for telecommunications, and a high quality of life.

QUESTIONS FROM THE BOARD

Governor Sandoval asked about the company's next steps should it be awarded the abatements sought. Mr. Stock advised the final decision was pending. However, the outcome of the abatement application approval process would assist in finalizing the decision to locate the project in Nevada.

Mr. Raymond Specht inquired about the company's experience working with Nevada's economic development entities compared to the other states. Mr. Stock advised the company had experienced supportive partnerships and positive interactions at each step. The relationships both with the City of Henderson and GOED were essential components in making Nevada an attractive location.

Governor Sandoval noted the company's estimated incentives totaled approximately $22.5 million over a 20-year period. However, the total expected returns, in the form of local and state taxes, was estimated at approximately $94 million in addition to the newly created high wage direct jobs and indirect construction jobs.

CLOSING STATEMENTS

Governor Sandoval noted the company's presence in Nevada had the potential to be a force multiplier for similar companies and projects.

BOARD MOTION

A MOTION WAS MADE BY DR. WELDON HAVINS TO APPROVE THE ABATEMENT APPLICATION OF DESIGN LLC FOR A DATA CENTER SALES TAX ABATEMENT, AND A DATA CENTER PERSONAL PROPERTY TAX ABATEMENT AS PRESENTED IN AGENDA ITM 5C. THIS MOTION WAS SECONDED BY MR. RAYMOND SPECHT. THE MOTION PASSED UNANIMOUSLY.

D. PREMIUM WATERS, INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**

AMERICAN OVERSIGHT

- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Perry Ursem, Vice President of Business Retention and Expansion, LVGEA, presented Premium Waters, Inc. (Premium Waters) and provided an overview of the company and abatements sought.

Premium Waters is a leading manufacturer of private label bottled water in the United States with products distributed to multiple channels across 47 states. The company manufactures its product from the ground up, starting with plastic resin, blowing the bottle, filling, labeling and packaging. Premium Waters sells its products through a network of bottling plants and distribution centers, as well as distributors. The new expansion project would add 12 employees at an average hourly wage of $22.89 per hour and make an approximate capital equipment investment of $12 million. Mr. Ursem was joined by Mr. David VanderKlipp, Production Manager, Premium Waters, and Mr. David Belpedio, Partner, MarksNelson, LLC.

Mr. Belpedio advised Premium Waters established its existing North Las Vegas facility in 2016. The company was now requesting tax incentives to assist with an expansion project. The project would increase the company's current facility from 160,000 sq. ft to 290,000 sq. ft.

Governor Sandoval asked about the company's next steps should it be awarded the abatements sought. Mr. Belpedio confirmed the company would move forward with the planned expansion of its North Las Vegas facility.

The Lieutenant Governor inquired what the expansion would mean for the company's operations. Mr. Vanderklipp advised the expansion would enable the company to double its capacity and distribution to the western United States.

Governor Sandoval highlighted the company's plan to use the projected cost savings, from the support of the incentives, to hire a greater number of full-time employees from the local area.

Lieutenant Governor Hutchison noted the company's expansion application was a good example of the incentive program's dual purpose to attract new business and grow existing Nevadan businesses. In the case of Premium Waters, the program had played a role in both situations.

Mr. Belpedio noted another critical factor was the treatment of new and existing companies. He praised Mr. Ursem for his interactions with the company and stated it had been a pleasure working with him. Governor Sandoval commended Mr. Ursem and noted this further evidenced Nevada's Economic Development entities' appreciation of the state's new and existing businesses and understanding that every dollar of investment was important for the future sustainability of the state.

AMERICAN OVERSIGHT

A MOTION WAS MADE BY LIEUTENANT GOVERNOR HUTCHISON TO APPROVE THE ABATEMENT APPLICATION OF PREMIUM WATERS, INC. FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT, AS PRESENTED IN AGENDA ITEM 5D. THIS MOTION WAS SECONDED BY MR. SPECHT. THE MOTION PASSED UNANIMOUSLY.

E. REDWOOD MATERIALS, INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Andrew Haskin, Director of Business Development, Northern Nevada Development Authority (NNDA) presented Redwood Materials, Inc. (Redwood Materials) and provided an overview of the company and abatements sought.

Redwood Materials was founded in 2017 by a team of engineers and scientists who saw the growing problem of electronic waste ending up in landfills. The United Nations University estimates 44.7 million metric tons of used electronics are generated each year with only about 20% of which is recycled with a recoverable value of $63.6 billion. The company uses sustainable processes to recover technology materials from post-consumer and post-industrial electronics. Redwood Materials is focused on developing efficient and sustainable methods to reprocess used electronics back into materials and components to be re-used in similar supply chains. The project would create 31 new jobs at an average hourly wage of $27.42 and include an approximate capital equipment investment of $3.8 million. Mr. Haskin was joined by Mr. Andrew Stevenson, Chief Financial Officer, Redwood Materials, and JB Straubel, Chief Executive Officer, Redwood Materials.

Mr. Straubal advised Redwood Materials currently had its operations in Milpitas, CA, and was planning to open a new facility in Carson City. In addition to processing materials, future plans may also include a relocation of headquarters operations and research and development staff.

Mr. Stevenson noted the company had chosen to locate in Nevada for its business-friendly climate and the availability of a highly qualified, motivated workforce interested in pursuing long-term careers in new technologies.
Mr. Straubal highlighted the state's vast potential for processing, manufacturing, technology development, and start-up company growth.

Lieutenant Governor Hutchison asked about the company's recruitment plans. Mr. Straubal confirmed the company planned to hire locally. Initially, the company would be seeking to hire engineers and technical staff.

AMERICAN OVERSIGHT

Governor Sandoval asked how the company would obtain its feedstock. Mr. Straubal advised the initial strategy was to partner with companies manufacturing these components. These companies had a strong incentive to provide customers with options to bring materials back for recycling.

Governor Sandoval highlighted Nevada's growing cluster of recycling companies such as Aqua Metals, Inc., and Fulcrum Sierra Biofuels, LLC and noted it was great to see Nevada emerge as a leader in the fourth industrial revolution.

A MOTION WAS MADE BY MR. BARRETT TO APPROVE THE ABATEMENT APPLICATION OF REDWOOD MATERIALS, INC. FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS PRESENTED IN AGENDA ITEM 5E. THIS MOTION WAS SECONDED BY DR. HAVINS. THE MOTION PASSED UNANIMOUSLY.

F. rfXCEL CORPORATION

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Thomas, EDAWN, presented rfXcel Corporation (rfXcel) and provided an overview of the company and abatements sought.
rfXcel provides software as a service (SaaS) based solutions that enable enterprises in the pharmaceutical, food and beverage, and other industries to quickly achieve their product serialization, traceability and compliance needs to prevent counterfeits from compromising their supply chains. rfXcel is the first company to focus on the safety of the pharmaceutical supply chain and its platform provides compliance, serialization,

traceability, and monitoring solutions to manufacturers, repackagers, wholesalers, distributors, and dispensers in pharmaceutical and life sciences industries. The company also provides services for the U.S. public sector, including federal agencies, state and local governments, as well as defense and law enforcement. The company's Nevadan project would create 82 new jobs at an average hourly wage of $22.54 and include an approximate capital equipment investment of $625,000. Mr. Thomas was joined by Mr. Glen Abood, Chief Executive Officer, rfXcel, and Mr. Rajiv Bhagat, rfXcel.

Mr. Abood noted rfXcel was founded in 2003 and was currently based in San Ramon, CA. In the past three years the company had grown and was now looking at expansion options. After extensive due diligence, Reno was selected for its lower operating costs, high quality of life, and workforce. Mr. Abood noted the company had also been seeking a state that appreciated its businesses and cared about smaller sized businesses like rfXcel. Although rfXcel's headcount was currently 120 people around the globe, there was significant capability and potential for future growth and expansion. Proximity to the University of

AMERICAN OVERSIGHT

Reno (UNR) was also advantageous for hiring purposes. Mr. Abood noted he was pleased to announce the company had recently signed a five-year lease on a 3,000-square-foot office in south Reno.

Governor Sandoval inquired if the company was looking for partnerships with UNR. Mr. Abood confirmed this was the case for both research purposes as well providing employment opportunities to students graduating in the areas of technology, business, finance, and engineering. The company sought to build a pipeline of UNR graduates and provide summer intern programs. The company also planned to participate in UNR's Capstone program. On the research side, UNR was currently doing innovative work in artificial intelligence (AI), blockchain, and big data. These were all areas of interest to rfXcel. Mr. Thomas had connected the company with the Associate Dean of Engineering and partnership discussions had already commenced. Governor Sandoval encouraged Mr. Abood to also engage with the University of Las Vegas (UNLV) and the Desert Research Institute (DRI) for potential partnerships.

Governor Sandoval asked if blockchain technology would play a part in rfXcel's future. Mr. Abood advised the company was very interested in blockchain in the pharmaceutical space and the food and beverage industry. Within the next few years, there would be blockchain connections and the company was excited to be at the forefront of this.

Governor Sandoval inquired about the specific skill sets sought in employees. Mr. Abood advised the company was seeking to hire people with an Undergrad or Master's degree in software development or electrical engineering for the technical side of their team. The company also sought candidates with skills in program management, finance, sales, and implementation.

Mr. Klaich asked if the company's technology could play a part in curbing the opioid crisis. Mr. Abood confirmed the company had convened a group to focus on public

services, including tracking opiates as they were distributed. rfXcel's technology would enable regulatory authorities to gain deeper insight into the distribution chain across America.

Lieutenant Governor Hutchinson noted the rfXcel had also considered Idaho, Texas, Arizona, Utah, and Washington as potential locations and had selected Nevada overall. As a result, the state now had a company that would offer great jobs, wages, and benefits to many Nevadans.

A MOTION WAS MADE BY MR. KLAICH TO APPROVE THE ABATEMENT APPLICATION OF RFXCEL CORPORATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS PRESENTED IN AGENDA ITEM 5F. THIS MOTION WAS SECONDED BY MR. SPECHT. THE MOTION PASSED UNANIMOUSLY.

AMERICAN OVERSIGHT

6. ABATEMENT APPLICATIONS FOR DIRECTOR APPROVAL

A. BERKLEY INTERNATIONAL

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Haskin, NNDA, presented Berkley International (Berkley) and provided an overview of the company and abatements sought.

Berkley is a family owned business that manufactures environmentally friendly molded fiber products. Molded fiber is the most consumer identifiable packaging medium in the market and is made by taking 100% recycled paper, breaking down the paper, blending it with water, reforming and drying the part. Berkley's domestic, state-of-the-art molded fiber manufacturing equipment gave the company the ability to deliver impactful, premium sustainable packaging in a timely and cost-effective manner. In addition to supplying much of the wine packaging to northern California, the company supplied protective packaging for numerous products in Utah and California. In 2016, the Los Angeles Business Journal named Berkley the #1 fastest growing private company in Los Angeles. Berkley's new project would hire 28 employees at an average hourly wage of $22.96 per hour and make an approximate capital equipment investment of $1.6 million. Mr. Haskin was joined by Mr. Eric Berkley, President, Berkley, and Mr. Sean Berkley, Vice President, Berkley.

Mr. E. Berkley advised Berkley International has been in business for five years and planned to locate a new headquarters and manufacturing/distribution facility in Carson City. The company had selected Nevada as its incentive package and utility rates would support future growth. Mr. S. Berkley highlighted Nevada's business friendly climate, affordable land process, strong manufacturing workforce, and geographical desirability. Berkley planned to make the Nevada location its manufacturing hub and seek to grow the company locally.

Governor Sandoval asked where Berkley sourced the feedstock for its product. Mr. S. Berkley advised 100% of the company's material came from recycling depots. Recycled fibers used included recycled newsprint and corrugated boxes.

Governor Sandoval asked about the company's next steps should it be awarded the abatements sought. Mr. S. Berkley advised the company would move forward with its plans for a Carson City facility. The company was currently looking at a building and had also identified a potential backup should any issue arise with the first option.

Governor Sandoval asked when Berkley planned to commence operations and how the company would source its workforce. Mr. S. Berkley advised the company anticipated being operational by the end of 2019. Approximately 90% of the hires would be from the local area.

AMERICAN OVERSIGHT

Director Anderson noted the company had a significant client base in California and asked how this would affect shipping logistics. Ms. S. Berkley advised the company's biggest piece of business was in Napa. Transit was shorter from Carson City to Napa than from the company's Los Angeles facility.

Director Anderson inquired how energy costs and reliability impacted the company's decision. Mr. S. Berkley noted it was a critical consideration and one of the biggest factors in the company seeking a location outside of Los Angeles.

Mr. Don Soderberg noted this was the first time the Board had received two advanced manufacturing facility applications for Carson City. This demonstrated a maturation of the abatement application process.

DIRECTOR ANDERSON APPROVED THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 6A.

B. FANATICS RETAIL GROUP FULFILMENT, LLC

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Governor Sandoval noted Agenda Item 6B had been removed from the Agenda.

C. FOX FACTORY, INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Thomas, EDAWN, presented FOX Factory, Inc. (FOX Factory) and provided an overview of the company and abatements sought.
For over three decades, FOX Factory has been an industry leader in the design and development of high-performance shock absorbers and racing suspension products for snowmobiles, mountain bikes, motorcycles, ATVs, UTVs, off-road cars, trucks, and SUVs. The company was a direct supplier to leading power vehicle original equipment manufacturers ('OEMs'). Additionally, the company supplied top bicycle OEMs and their contract manufacturers and provided aftermarket products to retailers and distributors. The project would create 50 new jobs at an average hourly wage of $22.73 per hour and make an approximate capital equipment investment of $482,500. Mr. Thomas was joined by Mr. Dennis Lane, Director, FOX Factory.

AMERICAN OVERSIGHT

Mr. Lane advised the company planned to relocate from its current location in Scotts Valley, CA, to Sparks and establish 65,000 + sq. ft. of distribution operation warehouse space and build out 7,000+ sq. ft. of office space for its operations, service center, and sales department. For the previous few months the company had been performing an extensive location review for their sales, service, and distribution center. Nevada was ultimately selected for its quality of life, affordable real estate, operational costs, and its position as a central shipping hub to the western United States. Additionally, the tax incentives provided crucial savings for FOX Factory to make initial investments to commence operations.

Mr. Lane noted FOX Factory planned to be an active member in its new community. The company looked forward to fostering strong connections with local small business owners, in the bicycle and outdoor communities, along with supporting local business events and gatherings.

Governor Sandoval asked what percentage of employees would be hired locally. Mr. Lane confirmed the majority of the employees would be hired locally with a few relocations from CA.

Lieutenant Governor highlighted that FOX Factory was another well-known, high-quality and high-profile company selecting to locate in the State of Nevada.

DIRECTOR ANDERSON APPROVED THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 6C.

D. HAPPIE HOME, INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Ms. Kylie Rowe, Vice President of Communications and Public Affairs, LVGEA presented HAPPIE Home, Inc. (HAPPIE) and provided an overview of the company and abatements sought.

HAPPIE is an acronym for 'Helping All People Promote Independence Every day'. HAPPIE is the Internet of Things (IoT) forming the bridge that connects the Smart, Secure Home of today with the Health, Wellness and Tele-Medicine goals of tomorrow. The HAPPIE system is designed to provide the approx. 43.5 million unpaid caregivers with a hardware, software and AI solutions that enable them to better care for their loved ones, while simultaneously empowering those they care for with the ability to more safely and securely remain in their home, maintaining their independence and enabling them to age-in-place. The company's software included machine language learning, facial and vocal

AMERICAN OVERSIGHT

recognition, and pattern sensing systems. If particular patterns were disrupted, the caregiver would receive an automatic alert from the sensors that were placed within the home. The project would create 51 new jobs at an average hourly wage of $35.18 per hour and include an approximate capital equipment investment of $130,000. Ms. Rowe was joined by Mr. Anthony Rufo President, HAPPIE, and Mr. Craig Marquiz, Outside Counsel to HAPPIE.

Mr. Marquiz advised HAPPIE was a Nevadan company with plans to grow its operations in southern Nevada. The proposed Las Vegas facility would serve HAPPIE's national and global client base and the company would seek to hire and train employees from the local Las Vegas area. The company had already developed relationships with the southern Nevada medical community and the university system including schools of medicine, nursing, and engineering. Additionally, HAPPIE had partnered with the Cleveland Clinic on its Brain Health initiative.
Dr. Havins asked about the status of the HAPPIE Product. Mr. Rufo advised the engineering and architecture were complete. The product was currently patent pending and had a proprietary database and operating system.

Dr. Havins asked when the company anticipated a completed product going to market. Mr. Marquiz confirmed the company was almost finished with the technology development stage and was moving toward manufacturing the product. The company anticipated a producible model by mid-2019. The company was also reviewing cost-effective manufacturing methods to ensure competitive pricing for the wider population along with the best approach to implement the product offer into the market.

Dr. Havins asked if the company had approached any insurance providers. Mr. Marquiz advised they'd had preliminary conversations and were working to present the HAPPIE system as a viable option to help lower health care costs by keeping people in their homes as opposed to inpatient or long-term care facilities.

Mr. Specht asked if the company's manufacturing facility and call center operations would be homegrown in Nevada. Mr. Marquiz confirmed this was HAPPIE's plan.

Lieutenant Governor Hutchison noted he found HAPPIE to be an inspiring business and thought the state of Nevada was the best place to provide such opportunities to families who desperately needed it.

DIRECTOR ANDERSON APPROVED THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 6D.

AMERICAN OVERSIGHT

E. JAMES LOUDSPEAKER LLC

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Haskin, NNDA, presented James Loudspeaker, LLC (James Loudspeaker) and provided an overview of the company and abatements sought.

James Loudspeaker is a designer and manufacturer of custom installation loudspeaker products. For nine years, the company had been designing, manufacturing, and marketing specialized and very high-performance loudspeaker products for the custom home installation market. Using the latest in material technology and patented designs, the company produced a wide range of products. The company had over 700 US and Canadian dealers and distributed worldwide in over 50 countries. The project would create 16 new jobs at an average hourly wage of $25.92 per hour and include an approximate capital equipment investment of 650,000. Mr. Haskin was joined by Mr. Jay Wessell, Chief Operating Officer, James Loudspeaker.

Mr. Wessell advised James Loudspeaker was in the process of relocating its Napa, CA facility to Minden. The company had been operating in Napa for 22 years. However, it had decided to relocate and commenced looking for a new business friendly operating environment with good lifestyle options for its employees. James Loudspeaker operated in an entrepreneurial environment and employed a significant number of young people with young families. Nevada offered a good cost of living and a high quality of life. The company had recently purchased a building in Minden's Meridian Business Park and planned to make this location its corporate headquarters. The Minden facility would house the company's design, engineering, manufacturing, assembly, service and general/administrative operations.

Governor Sandoval asked how the company marketed its services and attracted its client base. Mr. Wessell advised, in conjunction with its website, the company operated via custom installers. The company would not sell products or retail directly from its Minden location. Clients would be referred to a dealer or representative in the first instance.

Mr. Klaich noted that some aspects of a company's abatement application aren't always apparent until a company presents to the GOED Board. Mr. Wessell's presentation demonstrated how much James Loudspeaker cared for its employees and was focused on providing a safe, productive environment to live, own houses, and raise children. This kind of company was an asset to Nevada.

Director Anderson noted Nevada needed companies, such as James Loudspeaker, that were producing great products and employing people at good wages with quality benefits. It was these jobs that attracted import dollars and grew the Nevada economy.

AMERICAN OVERSIGHT

DIRECTOR ANDERSON APPROVED THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 6E.

F. OWNED OUTCOMES, INC.

- **SALES TAX ABATEMENT**
- **MODIFIED BUSINESS TAX ABATEMENT**
- **PERSONAL PROPERTY TAX ABATEMENT**

Mr. Ursem, LVGEA, presented Owned Outcomes, Inc. (Owned Outcomes) and provided an overview of the company and abatements sought.

Owned Outcomes was founded for the purposes of serving healthcare providers and payors in their efforts to deliver accessible, affordable and applicable care for citizens around the country and to improve healthcare by uniting various constituents through data insights. Owned Outcomes was a software company that helped participating organizations be successful at various forms of value-based care including bundled payments. Owned Outcomes was currently helping providers serve patients in 31 states through 10,000+ physicians representing more than $10bn of medical spend. The project would create 12 new jobs at an average hourly wage of $35.15 per hour and include an approximate capital equipment investment of $129,000. Mr. Ursem was joined by Ms. Anita Pramoda, Chief Executive Officer, Owned Outcomes.

Ms. Pramoda advised the company was founded in Las Vegas in 2014. Since inception, the business has grown to 15 Las Vegas-based employees and derived all its revenues from non-Nevadan customers. Owned Outcomes was exploring the option to expand operations in southern Nevada including expansion of its current 2,000-square-foot facility to a 6,000 plus square-foot facility within the forthcoming months.

Governor Sandoval asked if the company has seen better patient outcomes, cost savings, and efficiencies as a result of its software. Ms. Pramoda stated the company had seen improvements on virtually every single front in terms of the quality metrics medical professionals look to along with the tools and processes to provide patients the correct care at the right time.

Governor Sandoval inquired about the reception from health care providers and hospital representatives. Ms. Pramoda noted the company had received a warm welcome from their partners, both the payers and providers. Using a decision support system, and an augmentation system, equated to predictive and explanatory models. When the model made recommendations, 94% of the models got accepted and those care decisions were passed right through into operation. This was one example of the positive reception experienced.

AMERICAN OVERSIGHT

Dr. Havins asked if the company had been able to use the models to predict more accurately post-operative treatment of pain and medication regulation. Ms. Pramoda advised Owned Outcomes had not started working on pain yet. The company was currently focusing on hospital-acquired infections and social determinants of health.

Governor Sandoval asked if Ms. Pramoda was aware of the Healthy Nevada Project. Ms. Pramoda advised she had just started learning about it. The company was eager to connect with them and offer its support.

Director Anderson thanked the company for its application and noted Owned Outcomes had crafted an amazing application of big data.

DIRECTOR ANDERSON APPROVED THE APPLICATION FOR A SALES TAX ABATEMENT, A MODIFIED BUSINESS TAX ABATEMENT, AND A PERSONAL PROPERTY TAX ABATEMENT AS DESCRIBED IN AGENDA ITEM 6F.

7. WORKFORCE INNOVATION FOR NEW NEVADA (WINN) FUND PROGRAM FOR BOARD APPROVAL

A. REQUEST APPROVAL TO ENTER INTO AGREEMENT WITH UNLV FOR DEVELOPMENT OF A POPULATION HEALTH TRAINING PROGRAM – FUNDING NOT TO EXCEED $900,000.

INTRODUCE ITEM

Ms. Stacy Bostwick, Workforce Development Program Coordinator, GOED, presented Agenda item 7A and provided an overview of the WINN Fund application.

PROGRAM OVERVIEW

Ms. Bostwick advised the application was a result of a year-long effort to develop a new nursing leadership strategy to both address nursing faculty needs and establish a new pipeline of nurses with competencies in clinical research administration, genetics counseling, data analytics, and health information technology. Nursing is the foundation of the health care system and strategies must be developed to ensure investments in the physician workforce are complemented by investments to strengthen and diversify the nursing workforce. Post bachelor and graduate nursing students at the UNLV School of Nursing (UNLVSON) would be targeted for this program with the certified nursing instructor train-the trainer certification as a mandatory requirement. This approach provided healthcare professionals with the skills needed to address existing shortages, increased the nursing educator pipeline at the onset, and addressed the state-wide shortage of nursing educators for certified nursing assistant programs.

AMERICAN OVERSIGHT

INTRODUCE INDUSTRY SUPPORT

In support of the application, Ms. Bostwick was joined by Dr. Angela Amar, Dean of UNLVSON; Ms. Marcia Turner, Chief Administrative Officer, University Medical Center (UMC); Dr. Saju Joseph, General Surgery Residency Program, Valley Health Systems (VHS); and Ms. Carolyn Sabo, Professor and Director of Strategic Initiatives, UNLVSON.

BOARD QUESTIONS

Governor Sandoval asked why UNLV wasn't funding this program in the first instance. Dr. Amar stated UNLV, UNR and the Community College system were currently funding the basic education for nurses and prepared students for generalist practice in alignment with the national standards. The WINN funding would support strategic upskilling. The focus was on the future of the workforce, aligning the workforce with the needs of the population and providing an opportunity to individualize and personalize curriculum for the needs of the Nevadan population.

Governor Sandoval asked if UNR would also offer this program. Dr. Amar advised this was the case and noted the UNR School of Nursing Dean and she had made an agreement to partner in bettering nursing for the state. Additionally, private universities, such as Touro, also planned to offer the new certificates.

The Governor asked how many nurses the proposed program would serve. Dr. Amar advised approximately 280.

Lieutenant Governor Hutchison asked where the 280 nurses would get their education if the program's WINN funding was not approved. Dr. Amar noted the training was offered outside the state. However, there were currently no such programs within Nevada. If the proposed program went forward it would be very beneficial. Needs were going to steadily increase as the population aged and as Nevada attracted different business to the state. This program will ensure a pipeline of nurses with the required skillsets.

Dr. Amar advised nursing shortages were often due to shortages in faculty. One proposal objective would be to build clinical preceptor, clinical nurse, and education programs to produce more educators for residences in UNLV's programs.

Mr. Klaich advised he was unable to support the application. It was his belief the WINN funding program was established for Nevada's community colleges who were traditionally underfunded compared with the universities. Mr. Klaich noted, although the WINN statutory language indicated a qualified provider was 'any institution within the Nevada system of higher education' he would not be supporting the application.

AMERICAN OVERSIGHT

Dr. Havins asked Director Anderson whether WINN funding was intended solely for community colleges. Director Anderson advised it was created and intended for workforce development. There was no statute limiting usage. The WINN funds had historically been awarded to a variety of learning institutions.

Mr. Klaich noted his vote was certainly not a reflection on the quality or the need for this program, and commended Ms. Turner for all the work she had done in the medical community.

CLOSING STATEMENT

Governor Sandoval stated when the original economic development plan was introduced a main focus area was the enhancement and growth of the medical sector. Governor Sandoval hoped the approval of this application would act as catalyst in terms of producing the nursing professionals and creating more opportunities for Nevadans to enter these fields. As this was the 'right investment at the right time, it was also hoped the system of higher education would also invest in this program.

NOTE IF ANYONE IS ABSTAINING

Dr. Bennett advised she would be abstaining from voting on Agenda item 7A as some of the funding would be directed to the Guinn Center for Public Policy Priorities and she currently served on its Advisory Council.

BOARD MOTION

A MOTION WAS MADE BY MR. BARRETT TO APPROVE THE REQUEST TO ENTER INTO AN AGREEMENT WITH UNLV FOR DEVELOPMENT OF A POPULATION HEALTH TRAINING PROGRAM, FUNDING NOT TO EXCEED $900,000, AS PRESENTED IN AGENDA ITEM 7A. THIS MOTION WAS SECONDED BY SECRETARY OF STATE CEGAVSKE. THE MOTION PASSED, WITH MR. KLAICH OPPOSING AND DR. BENNETT ABSTAINING.

B. **WORKFORCE INNOVATION FOR THE NEW NEVADA (WINN) FUND PROGRAM FOR BOARD APPROVAL –** Request approval to enter into agreement with College of Southern Nevada (CSN) for development of a Pre-Hospital Care and Preparedness program - Funding not to exceed $350,000.

Ms. Bostwick, GOED, presented Agenda item 7B and provided an overview of the WINN Fund application.

AMERICAN OVERSIGHT

CSN will partner with Valley Health Systems (VHS) Graduate Medical Education (GME) program to develop a Point of Care Ultrasound (POCUS) training certificate course with emphasis on pre-hospital clinical care models. CSN's training consisted of a 'train the trainer' partnership with the VHS GME, that would focus upon providing Emergency Room (ER) physicians, CSN faculty, and CSN Paramedic Medicine students with skilled training in using portable ultrasonography at a 'patient's bedside', whether it is in an ambulance in route or a hospital setting. Subsequent cohorts of CSN students would receive POCUS training by CSN faculty. The VHS GME program would develop a POCUS training certification course to be incorporated into CSN's Associates of Science (AAS) and Certificate of Achievement (CA) Paramedic Medicine curriculum. The training was designed to address new pre-hospital clinical care models in both Nye and Clark County. CSN students who were currently enrolled in the Paramedic AAS and CA Programs would be eligible to participate in POCUS. The VHS GME program would recruit and identify resident physician candidates for the training program. Both CSN and VHS GME would work with other local partners to offer the training program following the initial cohort.

In support of the application, Ms. Bostwick was joined by Dr. Joseph, VHS, and Ms. Clarissa Cota, Interim Vice President for Academic Affairs, CSN.

Dr. Joseph noted VHS was the second largest employer in Nevada. Its primary focus was high-quality care at the lowest cost. The WINN Fund proposal supported this. In the pre-hospital setting, specifically in rural areas, the triage of patients and swift delivery of care was crucial. Emergency Medical Services (EMS) first-responders provide much more than transport. Today, they were advanced, high-level medical professionals and an integral part of the health care team. VHS had partnered with CSN to develop this curriculum. The goal was to train CSN faculty, teach EMS students the required skillsets, and provide the equipment necessary to ultimately save money and lives within the community.

Ms. Cota stated CSN had a long history of training the future workforce, and the first-responder/paramedic medicine program was an integral part of this. The VHS partnership and WINN proposal offered a unique and exciting opportunity for CSN.

BOARD MOTION

A MOTION WAS MADE BY MR. BARRETT TO APPROVE THE REQUEST TO ENTER INTO AN AGREEMENT WITH CSN FOR DEVELOPMENT OF A PRE-HOSPITAL CARE AND PREPARDEDNESS PROGRAM, FUNDING NOT TO EXCEED $350,000, AS PRESENTED IN AGENDA ITEM 7B. THIS MOTION WAS SECONDED BY LIEUTENANT GOVERNOR HUTCHISON. THE MOTION PASSED UNANIMOUSLY.

AMERICAN OVERSIGHT

C. **WORKFORCE INNOVATION FOR THE NEW NEVADA (WINN) FUND PROGRAM FOR BOARD APPROVAL –** Request approval to enter into agreement with Touro University for development of a Pre-Hospital Care and Preparedness program - Funding not to exceed $350,000.

Ms. Bostwick presented Agenda item 7C and provided an overview of the WINN Fund application.

The Regional Disaster Life Support Center at Touro University Nevada provided educational courses certified by the national accrediting entity, the National Disaster Life Support Center. Certification courses were available to health care providers, first responders, law enforcement, and other community members. Courses focused on how to prepare for, and better manage, a public health emergency or mass casualty disaster. The goal was to achieve and promote world-wide excellence in education, training, research and response related to disaster medicine and public health preparedness based on competency-based educational principles, scientific evidence, and the best clinical and public health practices. The centers had been created across the United States in the wake of the 9/11 disaster and were considered the 'gold standard' for training health professionals and first responders. The National Disaster Life Support courses were developed through collaboration between four universities, and several of the centers were affiliated with medical schools around the country.

Touro University would partner with the VHS, and local partners, to provide certified training in basic and advanced disaster life support. Training components included team-based approaches to pre-hospital care management. In the case of clinicians and first responders, some of the team-based skills and competencies gained during this training were transferrable to other aspects of clinical care. VHS intended to train all incoming physician residents hired as part of the state's recent investments in GME expansion. Upon hiring, physician residents would complete the basic and advanced certificates in disaster life support as part of their orientation. In support of the application, Ms. Bostwick was joined by Dr. Joseph, VHS.

Dr. Joseph noted having a physician workforce equipped to deal with natural disasters was crucially important as was providing the necessary infrastructure to build this workforce.

Dr. Havins stated he would be abstaining from voting on Agenda item 7C due to his employment with Touro University.

A MOTION WAS MADE BY MR. SPECHT TO APPROVE THE REQUEST FOR APPROVAL TO ENTER INTO AN AGREEMENT WITH TOURO UNIVERSITY FOR DEVELOPMENT OF A PRE-HOSPITAL CARE AND PREPARDEDNESS PROGRAM, FUNDING NOT TO EXCEED $350,000, AS PRESENTED IN AGENDA ITEM 7C. THIS MOTION WAS SECONDED BY MR. KLAICH. THE MOTION PASSED WITH DR. HAVINS ABSTAINING.

AMERICAN OVERSIGHT

D. **WORKFORCE INNOVATION FOR THE NEW NEVADA (WINN) FUND PROGRAM FOR BOARD APPROVAL –** Request approval to enter into agreement with Great Basin College (GBC) for development of Commercial Driver's License program - Funding not to exceed $375,000.

Ms. Bostwick presented Agenda item 7D and provided an overview of the WINN Fund application.

Area mining companies had approached GBC to reinstate its training for a high-quality Commercial Driver's License (CDL). These companies heavily relied on competent truck drivers to provide the transportation of goods into and out of their mine sites for all mining operations. There was currently a nation-wide shortage of truck drivers (453 average annual openings), and the entire area of northeastern Nevada had been affected (164 average annual openings throughout all of GBC's outreach counties). GBC had to end its training in 2017. The closest training programs currently available to the area were in Sparks, Reno, Las Vegas, or out of state in Salt Lake City, Utah. Due to the high-quality drivers GBC was previously able to produce through its proven training program, area mining companies had indicated a preference to invest in GBC's program, rather than seek training in distant metropolitan areas. As such, several companies were willing to address the shortage of drivers by creating a consortium of mining and trucking companies that could work toward a sustainable training model.

The GBC CDL Training Program would provide basic knowledge of tractor/semi-trailer operation, proper maintenance and operation of motor cargo equipment, principles of routine vehicle inspections, review of the Rules and Regulations of the Department of Transportation, and other federal and state regulatory agencies. Students would also learn vehicle operations, how to couple and uncouple of units, how to park and secure the vehicle under normal conditions, and safety procedures as defined by the Occupational Safety and Health Act. Recruitment into the program would occur by referrals from industry partners as well as community agencies such as JOIN, DWSS and Nevada JobConnect.

In support of the application, Ms. Bostwick was joined by Mr. Bret Murphy, Dean of Business and Technology, GBC and Mr. David Campbell, Vice President and General Manager; Pilot Thomas Logistics.
Mr. Murphy noted community business leaders, in the mining and trucking industry, had been integral in developing the CDL Driver Training Program

Mr. Campbell highlighted the demand for qualified truck drivers in the entire US and particularly Nevada. The truck driver pool was rapidly depleting due to an aging workforce. Mr. Campbell advised 70% of his drivers were over the age of 50. These positions paid approximately $83,000 to $100,000 per year.

AMERICAN OVERSIGHT

Secretary of State Cegavske noted the opportunities this program would provide for people located in Nevada's the rural areas.

Dr. Bennett agreed the program was critical to the mining industry and a vital step towards addressing a statewide problem. However, Dr. Bennett had been advised by the Board's Deputy Attorney General (DAG) she should abstain from voting due to her position as President of Nevada Mining.

A MOTION WAS MADE BY SECRETARY OF STATE CEGAVSKE TO APPROVE THE REQUEST TO ENTER INTO AN AGREEMENT WITH GBC FOR DEVELOPMENT OF A COMMERCIAL DRIVER'S LICENSE PROGRAM, FUNDING NOT TO EXCEED $350,000, AS PRESENTED IN AGENDA ITEM 7D. THIS MOTION WAS SECONDED BY DR. HAVINS. THE MOTION PASSED WITH DR. BENNETT ABSTAINING.

E. WORKFORCE INNOVATION FOR THE NEW NEVADA (WINN) FUND PROGRAM FOR BOARD APPROVAL – Request approval to enter into agreement with Truckee Meadows Community College (TMCC) for expansion of Re-Entry Workforce Development program - Funding not to exceed $190,000.

Ms. Bostwick presented Agenda item 7E and provided an overview of the WINN Fund application.

TMCC received a WINN grant approval May 2018 to provide ReEntry educational and technical skills training for 30 males involved in the justice system. The pilot project was designed to address the recidivism rate resulting from lack of training and job placement for those recently released from incarceration. The pilot project was currently serving 20 males, of which seven had successfully completed forklift operations certification and three had successfully completed OSHA certification. TMCC was requesting funding to support a ReEntry and Diversion Phase II program to serve an additional 27 individuals in the justice system (target 10 female and 17 males) and provide educational and technical skills training in Logistics, Auto/Diesel Mechanics, and HVAC/R. TMCC partners in this effort included Desert Air LLC, a local HVAC and Plumbing business, and Penske, a local Truck Rental and Logistics Solutions business. Both had committed to employing and paying a living wage to students who completed the necessary certifications to work in their businesses.

The ReEntry and Diversion Phase II program was designed to provide participants with foundational support and work-related skills necessary to seek and retain gainful employment while filling gaps in workforce demands for TMCC employer partners.

All participants were required to attend and complete a 16 week 'Getting Ahead' program as a prerequisite. Getting Ahead was based on the nationally recognized Bridges Out of Poverty program. Getting Ahead enabled participants, to examine their own experience of poverty as well as explore issues in the community that impact poverty, such as banking, housing, jobs, transportation, through an assessment of their own resources and how to build those resources as part of their move to self-sufficiency. Getting Ahead would provide participants with a foundation for determining whether

AMERICAN OVERSIGHT

they have the support and resources necessary to pursue and complete a certificate program. TMCC program staff were currently working on the development of an assessment tool, that could be used to determine levels of college readiness for potential participants. Participants would be advised of the three industry training areas available and upon their selection would receive basic computer literacy and financial literacy instruction to prepare them for class. Upon enrollment in the participants would also have access to TMCC Student Services resources including Financial Aid and Scholarships; Tutoring and Learning Center; Counseling (including referrals/access to childcare, transportation, and the campus food pantry) and career services (resume writing, job fairs).

TMCC would conduct outreach and marketing to the current agency partners Nevada State Parole and Probation, Washoe County Specialty Courts, and Northern Nevada Transitional Housing Facility) notifying them of Phase II of this program.

In support of the application, Ms. Bostwick was joined by Ms. Camille Vega, Reentry Coordinator, TMCC; Lieutenant Jonathan Wilson, Facility Manager, Northern Nevada Transitional Housing (NNTH); Ms. Patricia White, Manager, Desert Air; Mr. Randall Stubbs, Private Citizen and TMCC Student, and Mr. Enrique Buenrostro, Private Citizen and TMCC Student

Ms. Vega advised the ReEntry program had gained significant momentum since the initial WINN application approval in May 2018. There had been meetings with various colleges and Department of Corrections officials to develop a statewide education plan for both incarcerated individuals and those on parole and probation. The first ‘class’ of 21 had completed their OSHA and forklift training and many had completed the steps for certification in their chosen fields. Ms. Vega stated the initial program had been so successful, there was now a waiting list of people from state parole and probation, federal supervised release, and various courts. The program would be expanded to include funding for women and the curriculum would be expanded to HVAC and diesel along with the logistics manufacturing, and food service programs.

Mr. Stubbs, Citizen and TMCC student, shared his post-incarceration experiences, highlighting the importance of his educational opportunities. When he was transferred to NNTH he enrolled in the P3 manufacturing program and was then accepted into the TMCC Justice Involved Vocational Education Program (JIVE) program and would shortly be graduating. Mr. Stubbs currently had a full-time job and would continue to work and go to school. His plan was to pursue a degree in manufacturing and continue to be an example for his friends and family. Mr. Stubbs stated he owed his success to the JIVE program and TMCC.

Governor Sandoval noted he was very proud of Mr. Stubbs, the example he was setting, and the perseverance and courage he had shown by appearing before the Board. Mr. Stubbs was a model for what the WINN Program was trying to accomplish. Governor Sandoval wished Mr. Stubbs the best of luck and noted he looked forward to seeing his further successes.

AMERICAN OVERSIGHT

Mr. Buenrostro, Citizen and TMCC student, advised he'd first started in the program when his federal probation sent him to TMCC. The program had changed his life and he was now a full time TMCC student completing an HVAC course. He would complete his HVAC certification in May 2019. He was also working at Desert Air full time and noted he owed his success to Ms. Vega and the overall program.

Ms. White, Desert Air, had high praise for the program and its graduates. She noted it was difficult to find qualified people with the education and certification to do the required work. The TMCC program was thorough and its graduates were highly competent. Employers were aware of this and the demand for participants was growing. Desert Air believed all people deserve a second chance and that the ReEntry program worked.

Governor Sandoval thanked Ms. White for her company's willingness to participate and promote this program and commended Mr. Buenrostro for his success, achievements and how far he had come in such a short time. For those on parole, the success rate was exponentially greater when they had a good job and could earn a living.

Governor Sandoval noted the attendance and testimony of Mr. Enrique and Mr. Stubbs had ended the GOED Board meeting on a high note and highlighted the WINN Program had been designed to benefit the people and businesses of Nevada and provide opportunities to everybody.

A MOTION WAS MADE BY SECRETARY OF STATE CEGAVSKE TO APPROVE THE REQUEST TO ENTER INTO AN AGREEMENT WITH TMCC FOR AN EXPANSION OF THE REENTRY WORKFORCE DEVELOPMENT PROGRAM, FUNDING NOT TO EXCEED $190,000, AS PRESENTED IN AGENDA ITEM 7E. THE MOTION WAS SECONDED BY MR. BARRETT. THE MOTION PASSED UNANIMOUSLY.

8. DIRECTOR'S REPORT

Director Anderson encouraged the GOED Board Members to review the Knowledge Fund report included in their packets. This comprised information on all existing Knowledge Fund programs and the plans for these moving forward.

Director Anderson highlighted the industry involvement with the WINN funding proposals. This was a key piece as it demonstrated the program's ability to meet the needs of businesses and develop employment pipelines for Nevadan employers.

9. STATE OF NEVADA UNEMPLOYMENT RATE UPDATE – as established by the Research and Analysis Division of the Nevada Department of Employment, Training and Rehabilitation

#1 Agenda item 11. was for information only. GOED was committed to providing this information for each Board meeting.

#2 Governor Sandoval again highlighted the statewide unemployment rate was the lowest it had been since 2007.

10. PUBLIC COMMENT

Lieutenant Governor Hutchison thanked Governor Sandoval for his service and noted he was exactly the right person, at the right time, to lead the state through a recession and bless the lives of so many Nevadans from an economic development standpoint. Governor Sandoval noted Secretary of State Cegavske, Lieutenant Governor Hutchinson, Mr. Klaich and he had commenced the economic development journey together in 2011. He also noted Mr. Soderberg's Cabinet service and Director Anderson's service in the Nevada legislature. Governor Sandoval highlighted the GOED Board's passion for the State of Nevada and stated he was honored and humbled to Chair the GOED Board.

ADJOURNEMENT MOTION FORMAT IS SAME FOR EACH MEETING

11. ADJOURNMENT

A MOTION WAS MADE BY SECRETARY OF STATE CEGAVAKE TO ADJOURN THE MEETING. THIS MOTION WAS SECONDED BY LIEUTENANT GOVERNOR HUTCHISON. THE MOTION PASSED UNANIMOUSLY.

Transcript of Nevada Department of Transportation
Board of Directors Meeting
November 14, 2018

Governor Brian Sandoval
Lt. Governor Mark Hutchison
Controller Ron Knecht
Frank Martin
Virginia Valentine
Len Savage
BJ Almberg
Rudy Malfabon
Bill Hoffman
Dennis Gallagher

Sandoval: Good morning, ladies and gentlemen. I will call the Department of Transportation Board of Directors Meeting to order. Can you hear us loud and clear in Carson City?

Hoffman: Yes, we can.

Sandoval: And this may be a first, with the entire Board in Southern Nevada for a meeting, correct?

Malfabon: I think it's the second, other than the Project NEON approval.

Sandoval: All right. Well, why don't we commence with Agenda Item No. 1 which is the Director's Report. Director Malfabon.

Malfabon: Thank you, Governor. Good morning Board Members. Get this up there. Let's first start out with some emergency operations information. Those of you up north know there was an incident involving a Washoe County Sherriff's helicopter, when they were escorting Vice President Pence back to the Reno area, the helicopter clipped some power lines. NV Energy is going to repair those power lines this upcoming weekend. Serious traffic impacts are expected because they have to shut down the highway between Reno and Carson City. Unfortunately, there's no good alternative routes available because of where the power lines are located. You can't get to the old highway, let alone I-580.

We're using our dynamic message signs along the freeway in Carson City and in Reno to let people know that this work is going to be going on this weekend with closures in the morning, 7:00 AM to 1:00 PM on Saturday and Sunday. We'll

DRAFT

AMERICAN OVERSIGHT

have a press release to give more details on that, but those power lines need to be repaired by NV Energy.

The federal update. So, we're currently under a continuing resolution funding surface transportation in the United States until December 7th. We expect the lame duck Congress to pass the actual appropriations bill for this current federal fiscal year. With the change in the House, we're hearing that the Democrat Party Leadership is in support of an infrastructure bill in the next Congress. They still have to work in a bipartisan manner to get that approved by the Senate. Peter DeFazio from Oregon will be the Chair of the House Transportation and Infrastructure Committee and he's been supportive of spending on infrastructure as well.

A little update on Xpress West just bought the rights to—the rights to Xpress West Project were purchased by Brightline. It's a company out of Florida that runs passenger rail. They're in that state. We're having preliminary discussions with them about a Memorandum of Understanding on how we're going to work together to support the project. We anticipate that they're going to get into the I-15 right-of-way, we'll work with them on that, as well as the design reviews, any kind of changes to existing projects that we have planned in that corridor. We have some interchanges on I-15 south of Las Vegas to still construct in the coming years and they'll be impacted by the—whether the location of the rail project impacts them or not. We'll have to work that out. Obviously funding is a major issue on this project, but they're hopeful that they'll start construction soon, once they get that funding situation settled.

A different Xpress project, Spaghetti Bowl Xpress. Wanted to give an update to the Board. The draft environmental impact statement has been posted for public review. It's a big step in the process for getting environmental clearance from the federal government. A public hearing scheduled for December 12th at the Reno Sparks Convention Center and that's from 3:00 PM to 7:30 PM, with two live broadcasts on Facebook Live from the presentations. They'll be initially given at 3:30 and then repeated at 5:30 PM. So, folks that can't make it down there to the Convention Center can watch online and see the presentation. The comment period will be open until January 15, 2019. Our environmental staff and the agencies that have been cooperating with us on this document have done an amazing job to fast track this environmental clearance. Wanted to thank them for

DRAFT

AMERICAN OVERSIGHT

their efforts. We're getting close to a federal decision from the Federal Highway Administration early next year.

As far as the I-80 Unsolicited Proposal, this is as a reminder, just for the widening that's proposed by—as a public/private partnership on I-80, east of Sparks. We'll have a presentation next month at the Transportation Board for you to consider on what actions to take on this, but we are just wrapping up all the reviews and the—both financial and technical on this and we'll have more information for the Board's consideration next month.

We recently went to the Interim Finance Committee. When we had the Shared Radio System budgeted in our biennial budget request for the current biennium, we didn't know the exact cost yet; we hadn't negotiated the agreement. Subsequently, the Board has approved that contract with Harris and now we know the cost. So, we went back to the Interim Finance Committee, for the budget authority for this current fiscal year and received that as well as—explained the funding split. They wanted to know how it was going to be split between the State Highway Fund and the General Fund Agencies that rely on this shared radio system. So, that went well. I testified along with the technical staff from Traffic Operations to get that approved and we're on way with that contract now.

We have an update on—the bids were opened for the widening of US-50 from Roy's Road to US-95A. Granite Construction is the apparent low bidder at about $50 million bid there. We got good competitive bids on that. We're conducting the bid analysis currently with our staff and we'll have the request to award before this Transportation Board next month. We're excited about getting that project underway next year.

We had a tragic event this last weekend with a triple fatality at Thomas Creek Road and Mount Rose Highway. Wanted to mention some of the things that we've been doing to improve safety along this corridor. You may recall in May of this year, we had a fatal crash at a different intersection on Mount Rose Highway, but I, after that crash, I reviewed the corridor with Thor Dyson when he was still District Engineer and requested that we do a review with our safety staff of some—what safety improvements that we could do. Do it as a corridor assessment.

So, they did a road safety assessment that was conducted in July. We received the draft report recently in October and I directed staff to proceed with the early

DRAFT

AMERICAN OVERSIGHT

action items, like lighting improvements and signage improvements and then look at any major improvements that could be added to the Statewide Transportation Improvement Program.

We had an initial meeting with some of the stakeholders that live along Mount Rose Highway and presented initial findings to them at the end of October but we're going to have a community meeting in December of this year. A very tragic event that hopefully, some of the improvements that we make will improve the safety along this corridor. The event that occurred recently, there was two good Samaritans that were assisting an initial crash where the driver was a fatality and they were struck by another vehicle. So, it resulted in three people dying on that fatal crash. A very unfortunate event. Our hearts are with the surviving family and friends of the folks that were deceased.

Wanted to mention that we conducted an intersection control evaluation in Fernley on—it's actually US-50A, I put US-50 on there, it should be 50-Alternate, Nevada Pacific Parkway and saw that traffic signal warrants have been met at that location. The City of Fernley, Public Works Director had requested our assistance with the project there to have a signal, so I've directed staff to proceed with that signal project at that intersection at US-50A and Nevada Pacific Parkway in Fernley.

Desert Engineering did commence the retaining wall work at the Nevada—I mean, EV, electric vehicle charging station at Tonopah, at US-95, Electric Highway. We addressed the utility conflicts there. They had some fiber and some other underground utilities in the way of the underground work for the charging station. I know that the weather has been nice lately, but Tonopah is very high elevation, about 6,000 feet. Eventually it's going to get very cold, it already is cold at night, but they're going to get the heavy weather, so we're about 25% complete Governor, but I know that you wanted to make that route down the Electric Highway. We might make some other accommodations, maybe a car switch there if you're interested, but we won't—partially it's looking like we won't have it completed by the time the end of the year. We're about, as I said, 25% complete and still have the charging equipment and the power line hookups to do with NV Energy.

We're here today to attend an event later on, at 2:00 with the workers on the Project NEON. I think you would agree, we drove through the project this morning and they've done an awesome job with the traffic switches on the

DRAFT

AMERICAN OVERSIGHT

northbound I-15, it was flowing really well. They have some major work to do on the southbound lanes of I-15, but the team really deserves some appreciation from NDOT and from the Transportation Board for their hard work. They've been double shifting for months and have done a great job with outreach on this project. We were working hard with our Project NEON team to have this major switch completed before Black Friday next week. So, I think that you'll definitely, as you drive through the project, you'll see all the progress that's been made and I think that the public sees that and is less hesitant to complain because they see so much work going on day and night on this project. It's showing the benefits with the flow of traffic, at least that we noticed on the northbound lanes this morning. Definitely some more work to do and we'll wrap up the project. We're in the home stretch and we'll complete it next Spring.

Our other major contract down here in North Las Vegas, we've been widening US-93 and improving the Garnet Interchange at I-15 and US-93. We're planning for the ribbon cutting event on December 13th for that project. Ames Construction has done a great job there for NDOT at that interchange. It's a diverging diamond interchange, is kind of what you see at Moana Lane up there in Reno, as an example. It will be a unique interchange that will have better flow and safer flow of traffic. A lot of trucks there, the county landfill is at that interchange, so looking forward to that ribbon cutting event on December 13th, with Ames.

Some upcoming meetings. We have a public workshop on our 408 regulations related to partnering with telecommunication companies on fiber in the right-of-way. We also have a public information meeting scheduled for a major project down here in Las Vegas, I-15 North and Clark County Beltway Interchange. That project is going to wrap up and start—it will go out for bids next year. It's a major improvement at that system interchange.

Recently, yesterday the Board of Examiners approved a settlement with Jackson, LLC. This was a settlement for $642,000 and our exposure on this one was in excess of $2 million. This settlement resolves all actions in their entirety inclusive of all attorney's fees, costs and interest. We felt that it was in the best interest of the taxpayers and the state to accept this settlement with Jackson. It was approved by the Board of Examiners. We'll have more details in next month's packet, since it was just recently approved, the details will come next month.

DRAFT

AMERICAN OVERSIGHT

Speaking of next month, the Board Meeting will be held a little earlier. December 3rd at 9:30 and we'll meet in Headquarters in Carson City. It's going to be a full agenda. We have a couple of public—the regulations process, so the public meetings will have been held and you'll have approval of some of those regulations for 408 and also with the over dimensional permitting process for commercial vehicles, for trucks. A lot of other end of the year items to have, like our information reports that are published, our fact book, our preservation report. Those types of reports will be before the Board as well.

Last but not least, I wanted to wish the best to Dave Gaskin, who is announced his retirement this month. He'll be going on to more hiking and traveling and just enjoying life in general. So, I wanted to extend my appreciation to Dave for his leadership of the Stormwater group. As he reported last month, we're out from under that—the consent decree with USEPA and Dave's done an amazing job with the staff. Just really getting that Stormwater Program on its legs and assistant Deputy Director Bill Hoffman really started that group and then once we got the Governor's support and the legislative support for the additional staff and the equipment for maintenance, Dave took over the reins and really saw that through. Saw it through completion with the consent decree being vacated by the Courts. So, best wishes to Dave and enjoy your retirement Dave.

Gaskin: Thank you very much Rudy.

[applause]

Malfabon: That concludes the Director's report, willing to answer any questions from the Board.

Sandoval: Thank you, Director Malfabon. First, Dave, we had an opportunity to speak privately, but I will say publicly what I said privately. I think you've done a magnificent job that has truly affected the health, safety and welfare of every man, woman and child in this state. We went from a really horrible situation in this Department and the maintenance stations and some of the things we saw before when the EPA inspected and you turned it around. We needed a leader like you to take us to where we are, to a point where the EPA has, you know, we got that resolution that Rudy talked about. We developed a whole new Department. We even have a project today that we're going to be approving that has something to do with stormwater and taking care of Lake Tahoe. It isn't just about Lake Tahoe, it's about all parts of the state. I know I really appreciate what

DRAFT

AMERICAN OVERSIGHT

you've done because you've saved this Department and you've saved this state from millions of dollars in fines and put a face on this that we needed. A professional, I mean, you left your Department where you were and came over here and took the reins.

I think as you go into retirement, you can look back with a lot of satisfaction on what you've done. I don't know if any of the other Board Members have any comments but I truly appreciate what you've done because some of us who sat here and saw where we were and how far we've come, it's because of your leadership, so thank you.

Gaskin: Thank you very much, Governor.

Martin: Dave, I wanted to congratulate you. Coming from the vertical world, I get to work with those forces that you've been working with, [inaudible] over the course of the last few years, it's not always a direct path. You seem to have found a direct path for us to get so many issues taken care of in such a short period of time. My hat is really off to you. We're going to miss your presence around the NDOT, especially talking from a Board Member.

Gaskin: Thank you.

Martin: Thank you.

Gaskin: Thank you all for your support and interest over the years. Couldn't have done it without all of you and the team at NDOT working together. It was a very positive experience.

Sandoval: Thank you, Dave.

Hutchison: Thank you, Dave.

Sandoval: You're going to have some—

Martin: I wanted to make one quick statement.

Sandoval: Sure.

Martin: Rudy, you were talking about the Interstate 15 northbound and so on and I was telling the Governor and Len here that I came through there about 6:15 last night

DRAFT

AMERICAN OVERSIGHT

from Spring Mountain Road, which Spring Mountain Road through to the Spaghetti Bowl is always—

Hutchison: A mess.

Martin: Yeah. But I came through there about 6:15, not too long after rush hour, northbound and it went right straight through. I mean, I was astonished at how short the travel time was between Spring Mountain Road and me actually being able to get on northbound 95. No stops. Nothing below 35-40 miles an hour, before it'd be dead stopped, so.

Hutchison: Yeah.

Martin: Kiewit and the team out there have done a phenomenal job of putting that thing together.

Malfabon: Thanks, Frank.

Sandoval: All right, I do have a couple of questions. On this presentation in December, for the I-80 Unsolicited Proposal, is that a staff presentation?

Malfabon: Yes. NDOT staff will present to the Board about what they've seen in the financial and technical review of the project and then give the Board an opportunity to consider how to move forward. What actions to take.

Sandoval: Okay. We've talked about this, so are we still or is NDOT still focused on just one contractor or is this going to be positioned so that other contractors would have an opportunity—

Malfabon: That will be presented to the Board, Governor, as an option to—whether—the options by NRS with an unsolicited proposal are to accept it, to reject it and go out for competitive procurement or to reject it. All of the options will be explained in the Board—

Sandoval: And what is staff's recommendation going to be?

Malfabon: I think that we have to gather that together. Right now, my concern would be that the—on the financial. I haven't been briefed personally on the financial aspects of it. We've had our financial consultants reviewing it. So, that's what I want to receive before it's presented to the Board, I want to have a better handle on what are the financial implications of the project and I have not been briefed on that

DRAFT

AMERICAN OVERSIGHT

yet. I've stayed away from being involved in that until they're completed with their due process and review.

Sandoval: So, given that, is it premature to be making a presentation like this, if you don't even know what the financial piece is?

Malfabon: I think—well, our staff knows the financial, just personally, I've stayed outside of that review, I haven't been involved in the review, as the Director of the Department. I wanted to be briefed on what are the findings from the technical and the financial review. I don't think that it's premature to have it before the Board, but we can definitely—once I receive that information, hopefully before the end of this month.

Sandoval: And I said this in a previous meeting. I see you Cole reaching for your microphone, just a sec. How do we know if that's the best price if we're only getting one bid?

Malfabon: That's a concern Governor, that we don't know until—unless we had a competitive procurement that that's the best price. I think that we can do some review and we do have independent cost estimating ability but because it's so early in the process, we don't really have plans, we just can do a high-level review, even with a production based cost estimate, not an engineer's estimate.

Sandoval: Part of the question being asked is whether we should move forward, accept—

Malfabon: Right.

Sandoval: --the unsolicited proposal. And, it's almost—I don't know how we could possibly accept it not knowing what other contractors may have—may be willing to present as well.

Malfabon: I tend to agree with that assessment, Governor. It's fairly early in the process. I don't know, Cole, if you want to add to that, but definitely, my concern would be that competitive nature is going to typically yield a competitive price, but—

Mortensen: Yeah, good morning Governor, Members of the Board. I would say that we've heard you all very loud and clear on the competitive aspect of that. So, we are evaluating the proposal in its—as proposed. We're also evaluating the proposal with taking a look at it through NDOT eyes to actually determine whether or not we think that the values and the costs in there are appropriate. So, what we're

DRAFT

AMERICAN OVERSIGHT

doing is, we're running another P3 bid that we kind of refer to as a shadow bid, so it's what we think that proposal should've been. We're also going to be comparing that to what we think we could do delivering the project using bonding, similar to what you saw on Project NEON. We're also going to be able to present the no-build alternative, which will give you guys an understanding what it's going to cost the state and taxpayers in delays and those types of social impacts to not doing something there for the project. Then, as Rudy mentioned, we anticipate having the ability to provide you guys with a recommendation on how to move forward with the I-80 corridor.

Sandoval: And all of that's happening next month?

Mortensen: We're very hopeful. We've been really pushing our project team to get it done by the December Board Meeting. Presently, we're scheduling meetings with each of the Board Members to be able to brief them. I believe it's going to end up being, you know, the week before the Board Meeting, unfortunately, since the December Board Meeting was moved up. But, we'd like the opportunity to sit down with each one of you to discuss the findings and kind of the overall aspects of it. Because it's really pretty complicated, you know, once you kind of get into the nuts and bolts of it. We are looking at the bonding that we have out there, what we have available and again, you know, we always have to consider our priorities statewide as well. So, those are all of the things we anticipate being able to discuss in the December Board Meeting.

Sandoval: And then, given this project on USA Parkway that we have in our—on our Agenda today, you know how—we spent $6 million, whatever it is there and then we're going to be getting an unsolicited proposal. Will that be redesigned as part of this unsolicited proposal and would we have to, essentially, if we do this project and we do the unsolicited proposal or something like it, would we have to redo work that we just did?

Mortensen: Governor, what I would say with this project is that this one is going to be an immediate need and I would have to go back and look at what was actually in the technical aspects of the unsolicited proposal to tell you what the interchange—what they plan to do there, as far as modifying that interchange itself. I think the important part about the project today and I don't know if you're familiar with kind of the traffic issues that are out there but right now, presently, in the morning with the traffic commute going out to the Tahoe Reno Industrial Center, it backs

DRAFT

AMERICAN OVERSIGHT

up on to I-80 and it's never good to have that speed differential in a general purpose lane.

So, what this is going to be doing is it's going to be providing auxiliary lanes that that traffic can back up into rather than the general purpose lanes and then on the other side, the westbound side, it's going to be providing an auxiliary lane that those trucks can accelerate in. Right now, part of the issue that we have there at that interchange is that those trucks come on to the freeway and they don't really have a good run to get up to the 70 miles per hour that the facility is running at and so it does cause congestion there. Those trucks are just slow to get up to speed. And so, I think that from a safety and operations standpoint, that the investment on the USA Parkway project today is well worth it.

Sandoval: I'm not questioning that. I just don't want to be three years from now, tearing down what we spent $6 million on today. That's my only comment. I get it. We've got to do something now, but I would think the proposal, hopefully whatever it is for the future would incorporate these improvements that we're making now so that we're not spending money now that will be wasted later.

Mortensen: I have Pedro Rodriguez here, next to me, he's the PM for both projects. I believe he probably has some of those details that you're asking for.

Rodriguez: Good morning. For the record, Pedro Rodriguez, NDOT Project Management. Governor, to answer your question, the signal interchange project that's being voted on today will complement anything we do in the future should the I-80 unsolicited proposal move forward.

Sandoval: Okay. That's very important to know, so thank you. All right. I'm looking forward to the event today. I will say, on the Electric Highway, Rudy, I'm disappointed. I've been talking about this for years. I've heard time and time again that it's going to get done and now you're telling me it's not. I don't know if it wasn't a priority or not, I don't know why it didn't get it done. It was something that I had asked to get done that you said was doable. Here we are and it's not. So, it is what it is. I hope that it gets completed. As I said, this is something we started six years ago, five years ago and we've been talking about it. In any event, like I said, I can't change it. I asked for photos, I've seen that photo and I thought it was based on your indication that it was much further along than it is. Again, you know, can't say anything more.

DRAFT

AMERICAN OVERSIGHT

So, Board Members, any other questions or comments with regards to the Director's Report?

Hutchison: Governor?

Sandoval: Mr. Lieutenant Governor.

Hutchison: Rudy, I wonder if you could just put a little more detail on Xpress West. You know, that's been on the planning stages for a long, long time. Is there anything different now than there has been in the past to lead you to believe that that would actually come to fruition sometime in the near future?

Malfabon: I have not heard the details about the funding. It's the same project, so it would be the Las Vegas to Victorville and then they were looking at Victorville to Palmdale, as another connection to get to Southern California. The Brightline Company purchased the rights to the project and they are getting the—they got the federal approvals for that transfer of ownership of the project. They did have an environmental study that was approved. I think they have to update it because it's been over five years since that environmental document was approved.

For the most part, we had talked about a lot of the ground work for previously when it was owned by a different company, about how to work together. So, we have a good launching point for the project, it's just whether they have the funding secured. I think Tracy might add to that.

Larkin: I have heard that the funding has been secured. I heard that through the Project Manager, maybe to do about 6-8 months of the environmental. There is some change of alignment before it went on the northwesterly side and then crossed over where Ivanpah was and then came into town. Now they would like to come up the center, and this has to do with construction costs, then turn off at Sloan and go in the northwesterly side, coming into town along Dean Martin and there was some property nearby Flamingo, I haven't seen the engineering details for that. Some of that is outside of our right-of-way. They are hopefully, like I said, have that done in 6-8 months. They want to begin construction the middle of next year. They'd like to be in operation, I think it was—honestly, I can't remember if it was 2020 or 2022, 2020 seems so close. I can provide more details as it comes up.

So, we have put a project manager to work with them directly. It will be a permit within the right-of-way. The I-15 right-of-way that was established during the initial environmental impact study which was completed in 2011.

DRAFT

AMERICAN OVERSIGHT

Hutchison: Have we ever had a project manager assigned before or is this so far along now, we're actually assigning a project manager?

Larkin: Because of the complications of the details, we'll be working with Xpress West. We also had the City of Palmdale was out here recently and we were talking with them. Talking with BLM. Just basically making sure all the pieces go together. And along with the permit process because we do not have rail expertise within the Department to review the design, so there will be—we are contracting to have that done, which is a pass-thru cost to the developer.

Hutchison: Is that private funding?

Larkin: Yes.

Hutchison: So, we don't have to wait for the government to allocate anything or decide what Congress is going to do?

Larkin: At this point, we have not been requested for any money.

Hutchison: Great.

Larkin: Which was a different conversation.

Hutchison: Thank you. Thank you Governor.

Sandoval: Thank you, Mr. Lieutenant Governor. Any other questions or comments from Board Members on the Director's Report?

Almberg: I've got a quick question.

Sandoval: Mr. Almberg.

Almberg: Hey Rudy, I've got a question. It's not directly based on your report here, but back in June there was some email correspondence going on about NDOT preparing a BDR for NDOT's retention specifications.

Malfabon: Yes.

Almberg: Is that still proceeding?

Malfabon: Yes.

Almberg: Okay.

DRAFT

AMERICAN OVERSIGHT

Malfabon: The language was recently received from the Legislative Council Bureau. We have agreed to that language in the BDR, so it's going to forward with the Governor's support.

Almberg: Great. Thank you.

Sandoval: Thank you. Mr. Controller.

Knecht: Thank you Governor. Rudy, the accident at Thomas Creek Road and Mount Rose Highway, was that due—was that in the daylight or in the dark, or?

Malfabon: It was in the dark. I know that it's getting darker earlier now that we've had the time change, but it was in hours of darkness and the first two cars collided head on, kind of the left side of each vehicle struck head on and then the two separate motorists stopped their vehicles and were trying to assist when they were struck by another car.

Knecht: Because that's a nice flat broad intersection. I guess it's not well lighted.

Malfabon: It has a traffic signal there too.

Knecht: It does, yeah. I came through there last night. I'm glad I wasn't one of them. Thank you.

Sandoval: All right, thank you, Mr. Controller. Any further questions or comments with regard to the Director's Report? All right. We'll move to Public Comment. Is there any member of the public present in Las Vegas that would like to provide public comment to the Board? I see and hear no one. Is there anyone present in Carson City that would like to provide public comment to the Board? Yes sir, if you would please identify yourself for the record. Your mic is not on sir, we can't hear you.

White: Is it on now?

Sandoval: Yes, please proceed.

White: Oh, okay. Good morning Governor and Board. For the record, Maurice White, Carson City. Regarding items 7 and 8 of this November 14 meeting, I am asking you to remove from consideration for transfer to Carson City Parcel No. S529CC00.462, also known as APN 00916123. This parcel, formerly leased to Carson City's Board Supervisor, Brad Bonkowski, also known as Greg Street

DRAFT

AMERICAN OVERSIGHT

Partners, has an underground storage tank facility contamination that has not been remediated nor has the UST facility been removed. On this parcel in 1996, Resource Concepts, Inc. performed a site assessment of the soil and water confirming the UST facility contamination and detail mapped the contamination plume.

In December of 2010, Jerry Hoover of NDOT issued a letter to Scott Heaton, Carson City Supervisor, Brad Bonkowski's lawyer. This letter informed Supervisor Bonkowski that he was the responsible owner of the UST facility, the associated environmental contamination and ordered him to remove the UST facility and remediate the environmental contamination. To date, that work has not been done.

In August of 2016, the Carson City Board of Supervisors, including Supervisor Bonkowski, voted to approve Amendment #4 to the 1997 Agreement between NDOT and Carson City. Paragraphs 12 and 13 attempt to assign Supervisor Bonkowski's responsibility of this environmental contamination to the taxpayers of Carson City.

Subsequently, the Nevada Commission on Ethics issued opinion RO1678C, sanctioning and fining Supervisor Bonkowski for concealing his fellow supervisors and the community of his ownership and responsibility for the environmental contamination and referenced on the referenced parcel.

During the hearing, Commissioner P.K. O'Neill informed Supervisor Bonkowski that the Commission's action did not absolve Bonkowski from his responsibility to clean up the contamination. Commissioner O'Neill further stated, he did not want Carson City to be financially impacted by the contamination cleanup.

Your vote today could complete this attempted grievous imposition of assigning remediation costs of this clean up to Carson City taxpayers. I ask you again, please remove this parcel from consideration for transfer until this environmental contamination cleanup is completed. There is so much more to discuss about this issue than three minutes allows. I thank you for your time and I can answer any questions if you may have some.

Sandoval: No questions, but thank you. Mr. Gallagher, I'll ask you to address that when this agenda item comes up, if you're able to. All right, thank you. Is there any other public comment from Carson City?

DRAFT

AMERICAN OVERSIGHT

Maloney: Good morning. Lucia Maloney, Transportation Manager for Carson City. Thank you for the opportunity to comment this morning and it's nice to see you all. We at Carson City greatly value our relationship with NDOT, as we continue to work hand-in-hand on many great projects and programs in the region.

We're particularly excited to move forward with design and construction of improvements to the South Carson Street. The South Carson Street Complete Streets Project plans to convert this large spanning corridor into a complete street that facilitates comfortable, safe travel for pedestrians, cyclists and motorists alike. It improves business access. It spurs private investment and it prepares Carson City for the future of Smart City Advancements.

As you probably know, the City was awarded a $7.6 million TIGER Grant in the Spring of 2018 by the USDOT. The USDOT described the project as an important investment in Carson City's infrastructure with a focus to improve pedestrian safety and mobility in the area and enhanced commercial and business access. Our TIGER Grant application garnered project support from Governor Sandoval, NDOT Leadership, Senators and Congressmen from both sides of the aisle and many others. We thank you for your support.

As part of the TIGER Grant and any federally aided project, Carson City will be required to certify the right-of-way and show that we have clear legal possession of South Carson Street right-of-way in order to construct the proposed improvements. Therefore, the thoroughness and completeness of these relinquishment documents will be critical in helping streamline our efforts to certify the right-of-way properly.

We understand that we have been provided with everything we need to legally show this ownership and successfully certify the right-of-way. On behalf of Carson City, please allow me to thank the Department for your efforts in compiling the necessary documents and working with us to get this right. Our partnership is stronger than ever and we're excited to move forward on this project and projects in the future. Thank you.

Sandoval: Thank you very much. Is there any other public comment from Carson City?

Grace: Good morning, Governor, Lieutenant Governor, and Board. My name is Joel Grace. I am the Vice President of Development for Reno Land. I'm also a

AMERICAN OVERSIGHT

Member of the [inaudible] Transportation Coalition where we work with the RTC and NDOT on various different projects.

I'm here regarding something that came up in the report. One of the items with the unsolicited offer—with the offer. Amongst other projects that we have in Northern Nevada, we have about 730 acres left to be developed in Tahoe Reno Industrial Center that we're looking at R&D, Tech, staying more away from distribution but the higher paying jobs and good quality jobs that we're looking to provide out there.

Anybody that's been out there at 5:00 or in the morning understands the traffic and safety concerns that are going on, so I won't beat that. The biggest thing with the unsolicited offer that came forward was just a sense of urgency, is if we could kind of impose anything, it would be the sense of urgency because of the Big Four that we've been communicating with on job numbers, what their future plans are, if they are 50% right, we're behind the 8-ball already.

So, just here to lend some support to the Lincoln Partners proposal and anything that comes forward. I understand there's policy and procedure as far as other offers, but if there's anything we can express today, it would be the sense of urgency.

Just in closing, just want to thank the Governor for his service, Lieutenant Governor, you guys will be missed.

Sandoval: Thank you very much.

Hooper: Good morning.

Sandoval: Good morning.

Hooper: I'm Daphne Hooper, City Manager for the City of Fernley for the record. Today I have with me Tim Thompson our Planning Director and Dave Whalen, our Public Works Director. The City of Fernley is experiencing growth and economic development as the Tesla Effect moves east. We have a great multiuse project with a $20 million investment that will be beneficial to the City and to the region, which will eventually provide commercial and housing which are very much in need.

DRAFT

AMERICAN OVERSIGHT

The issue at hand is that the development is being built between the existing roundabout and the existing interchange of Nevada Pacific Parkway along the Highway 50A corridor. This corridor has been problematic over the last decade and a half. The project intersection to access Highway 50A is at River Ranch Road and Highway 50, which is in NDOT right-of-way. Over the years, NDOT has performed analysis to determine the traffic needs for this portion of the road. In the early 2010s, the speed limit within the corridor was increased, which to the disappointment of the desires of the City Council at the time. In 2016, prior to movement on development, NDOT was asked to reevaluate this corridor by the City to see if another assessment might indicate that crashes that were occurring warranted a change in speed or signalization.

In September 2017, NDOT shared the ICE study done by a third-party engineer firm for NDOT. This ICE analysis determined that a traffic light was recommended at the intersection and the Nevada Pacific Parkway intersection as well, as to alleviate high-speed crashes. Unfortunately, the process to vet and build a recommended High-T Signal is potentially five years away based on a letter from NDOT District 2 to the Public Works Director of Fernley. This creates a problem with the project moving forward because of the liability it creates with additional traffic. In this case, the City has conditioned the project to have the current developer pay a proportionate share to build this signal, which they have done. The developer submitted a check to the City of Fernley for $58,000 which provides for their fair share contribution toward the $450,000 project.

Unfortunately, the project cannot proceed until they have met the condition of the light installation. The City is concerned about the safety issues as identified in the ICE Study which will be increased with the addition of this project. As with other signals in the community, the City is willing to maintain the light once it has been constructed. The City Council, local law enforcement and the fire district are all in favor of seeing more conservative traffic conditions through this corridor. The roadway is also adjacent to the City's main park, the out of town park, which hosts most of our kid's sport leagues and local events such as July 4th.

We would like to request that a commitment from NDOT to install the light immediately to help with economic development, housing and ultimately safety. I noticed on the Director's Report that there was a slide that included this project, so anything that you can do to support this would be helpful, thank you.

DRAFT

AMERICAN OVERSIGHT

Sandoval: Thank you very much. Any other public comment from Carson City?

Price: Good morning Governor and esteemed Board Members. I'm Judy Price for the record and I'm here for public asset management. I'm a concerned taxpayer first and foremost and much to the chagrin, I think it's become perhaps something of a personal duty to my relationship with NDOT and no longer being employed here.

I'm here today to prove that I'm not a disgruntled employee. That's a whole other thing. On April 9, 2015, Jerry Hoover accosted me in the garage here at NDOT and I took it to the Supervisor and that's yet to be resolved or spoken to, even—so, we'll deal with that on another matter. Today, I'm here to get a follow-up and if I could just read a brief statement. I appreciate everybody, by the way, last month that I was here because I was a nervous wreck and as you can see, I still am. So, your agreement to just be humble and bear with me is greatly appreciated.

The follow-up I'll look forward to because I still haven't heard it and I'd just like to tie in that and remind the Board that the US-50 project where there was retaliation and in my opinion, abuse against the public. An elderly gentleman was the reason I came here today. I can bring up many, many other projects that that ties into as well, but I won't because it was written in what I gave the Board last month. These are Exhibits, Governor, with due respect, they were written in handwriting the night before that meeting.

I've heard comments and I'm not saying this as a derogatory toward anybody, you have 1,700 I think plus employees at the Department of Transportation, if I'm not mistaken. Out of that, you probably have a heart and 90% of those people, they are hardworking and they have excellent intent. So, these Exhibits are meant to be taken seriously by somebody and I'm going to give a follow-up to those today. I'm just going to hand them for the sake of time to the community.

I won't bring up that I'm not even guaranteed at this moment that any of you from the Board, which I respect, with all due, because that's the statute that you are in charge of my assets, which means my—the people. The people at NDOT. Like a Jesse McDonald and I'm privileged to be able to use her name. She's an Admin III in right-of-way and she'll always be an Admin III unless somebody helps to open the door and allow her to grow.

DRAFT

AMERICAN OVERSIGHT

On October 8th, I brought in comments that I personally had witnessed, belittling and isolation and the favoritism, the neglect, the threat, the rejection, it's all obvious and I know it's all on the record—I mean, you know, it's just for the record I'm stating it.

This right here is the plan for the McCarran Pyramid Project. This is the entire 100% utility plans for that project. I started this and I still have the refrigerator art in the back of it. I'm proud to say that Thor Dyson actually was such a big help and others but the way that we got to our right-of-way setting on this sir and esteemed members is archaic. It needs to change. I told that to the Committee last month. I did the math and if I do six minutes, if I get three minutes before and after every meeting, that's 172 minutes. It needs to change and it needs to get up and it needs to get GIS, that right-of-way, engineering division needs to be overhauled. There's a group of wonderful people. You have several that are being targeted for right now, where Judy Price is standing. Unemployed, after 46 years of full time work with never receiving a check from a government other than the hard work I did at State Lands and here.

This methodology is broken and it doesn't serve the taxpayers sir, and I know that they can fix it. They have a utility data layer project that the community and utility of Sparks accepted. They wanted to overlay all of their utility as-builts on to our right-of-way and we couldn't accommodate that. We brought over, I think 162 people in this very room, which I put that meeting together and they were saying, yes Judy, we're ready and we couldn't accommodate that sir.

So, every project that Mr. Malfabon and the group puts together, we have to go back to reinventing the wheel and that does not serve the public. I want to help fix it. The utility community is ready. I spoke about things in those exhibits that I'm not even certain or nor will I ever be but I'll be back to keep grinding away, to see if the property management process is changing to benefit. I drive every day by that property across from the Winters Ranch and it's been dilapidated and getting worse for the taxpayer asset day by day. There's quick fixes.

The surplus is a broken process. You really need somebody to just rewrite the whole right-of-way manual to simplify it sir, with all due respect. And, if you had a real estate experienced person in there that could help with the negotiations—and I'm here to proudly say this is given to me, this on my lapel from the National Guard when I had the privilege of working with very high integrity people like Robert Nellis. They gave this to me when I exited there of one month shy of five

DRAFT

AMERICAN OVERSIGHT

years employment as a state commendation medal for logistics. That's not to brag, nor is this, it's to show that I work. And I'm an asset, and I'm no longer able to be one, even though I want to be and I'm capable.

So, in closing, I just want to say that all of this only happens because the Board lacks the power, I suppose, to help these individuals that are in leadership positions to respect people rather than abuse them. Help the community, give them a spirit of hope. It's difficult to go in and call everybody, Chief, Chief, Chief, Chief, Chief; we could start with a simple fix, let's just look at the language we use every day.

It's your job and your responsibility and ultimately, all I'm not sure to be honest, I've been a lot in your law library over the months I got penalized with time off by the public. I studied a lot and I didn't see anything that was more important than the civics. The definition of civics. It's the social science designed for the dealing with the rights and the duties of the citizens. It's simple. That's your job, it was my job when I did it for almost 14 years. It was the 18 minutes on March 12th that makes me be here today because I kept trying to do this quietly at my job, at my desk, Mr. Malfabon. I reached out for help and I tried desperately to just help culture change to a more positive impact. It cost me everything. I have nothing again to gain here today. I'm so grateful I'm not as nervous.

I don't want a lot. I've talked to your senior advisor. I thank you greatly, Governor, that you had him reach out to me, that was very kind of you. We did not have a resolution to the best of my knowledge and I appreciate that you sent the Human Resource service individual, asking what I want, but I think it's pretty clear what I want.

Then, I'm going to close with this because I think it's pretty powerful. Recently, I heard a voice and it was a voice that has a lot of power and it was a voice that I consider, has a lot of hope in it, spoke that truth matters. It still matters. The truth still matters. So, that's all I have to give today and I just thank you very sincerely for your time. I would appreciate greatly if these exhibits, which are only three, I apologize, but it costs me money to make copies, if you could get a copy of these to each of your Board Members sir, I would be greatly appreciative. Thank you for your time.

Sandoval: Thank you. Is there any other public comment from Carson City? Good morning.

DRAFT

AMERICAN OVERSIGHT

Kazmierksi: Good morning Governor, Board Members. I'm Mike Kazmierski, President and CEO of EDAWN Economic Authority of Western Nevada. I'm here to provide comments and support on something like the public/private unsolicited offer to increase capacity on the I-80 corridor between [inaudible] and Reno/Sparks and the Industrial Center, in fact, all the way out to Fernley.

I think everyone who has been on that road lately knows it's a problem. If you look at the 20-year plan, there's not a widening solution, really planned, certainly not funded. At least not in the next 10 years. Governor, you know from the recent tech conference at the Industrial Center, we're looking at massive growth there. Even if we fall far short of what was projected by just two companies, Blockchain and Tesla, talking about 15,000-20,000 people, where we just have 7,000 now.

We do have—we've added over 100, almost 200 new companies to the region, many in the industrial park. Certainly, we have significant growth expected in Fernley. We actually have four major projects expected to land in Fernley in the next six to nine months. I don't think Fernley knows what's going to hit them. And, while they are planning housing out there, we're looking at most of that workforce, in fact, 90% of what is working at the Industrial Center is still in the metro area. There's not a lot of housing out in the north 40 and if we don't do something soon and when I say soon, three to five years, some people would say tomorrow because the people that are commuting on a daily basis now are having serious problems getting to and from the Industrial Center—we're going to have serious problems, not just with safety, but with mobility. That's our major corridor as you know, through our state in the north and it affects a lot of things, beyond just what's happening at the Industrial Center.

So, my request is that we take a hard look at the public/private unsolicited proposal. If it needs to be competed, that certainly makes a lot of sense. At the end of the day, probably the fastest way, the most cost-effective way to get this done in our lifetime is to do something as a public/private venture as opposed to putting it on the list and letting it just bump down the priorities when we have other very, very important priorities on the list as well.

I would close by just saying, it's been a pleasure working with NDOT. I have had an opportunity to understand better what they're trying to do and we are asking them to do 100 things and we have funding for 50, or some would say 20. I hate to say, this is one of the 20. So, maybe bringing in another way to do it with a

AMERICAN OVERSIGHT

public/private solution could help us get this done in a timely manner. Thank you.

Sandoval: Thank you, Mr. Kazmierski. Is there any other public comment from Carson City? I don't see anyone coming forward, thank you. We'll move to Agenda Item No. 3, which is approval of the October 8, 2018 Board Meeting Minutes. Have the Members had an opportunity to review the minutes and are there any changes? If there are none, the Chair will accept a motion for approval.

Savage: Move to approve.

Hutchison: Move to approve.

Sandoval: Member Savage has moved for approval. Lieutenant Governor has seconded the motion. All those in favor of the motion, say aye. [ayes around] Those opposed, say no. That motion passes unanimously.

Knecht: Governor?

Sandoval: Yes.

Knecht: Will you mark me as abstaining.

Sandoval: Oh, thank you. Mr. Controller. If the record would reflect that the Controller has abstained from the vote because he was not present at the October 8, 2018 meeting. We'll move on to Agenda Item No. 4 which is Approval of Agreements or excuse me, Contracts over $5 million. Mr. Nellis.

Nellis: Good morning Governor and Members of the Board. For the record, Robert Nellis, Assistant Director for Administration. There are two contracts under Agenda Item No. 4 today for the Board's consideration and they can be found on Page 3 of 23 in your packet.

The first project is located on US-50 from Spooner Summit to Clear Creek Interchange in Carson City and Douglas Counties. This is for multiple storm drains, drop inlets, trench drains, slope flattening, grading, concrete curve and gutters, channel work and replacing guard rail with concrete barrier rail. There were five bids and the Director recommends award to Granite Construction Company in the amount of $7,994,944.

DRAFT

AMERICAN OVERSIGHT

The second contract is located on Interstate 80 at USA Parkway in Washoe County. This is for interchange improvements. There were five bids and the Director recommends award to Ames Construction in the amount of $6,456,359.76.

Governor, that concludes Agenda Item No. 4, does the Board have any questions regarding these two contracts?

[sound issues]

Sandoval: Why don't you start over again, Mr. Controller.

Knecht: Sure. I'll start over. The difference on Item 2, between the engineer's estimate and the low bidder is positive and that's a good thing, but for Item 1, the difference is over a million dollars and that's roughly 14% more or less. Can you give me some comfort about that? Maybe not.

Hoffman: We're looking Mr. Controller, we'll be with you in a second.

Knecht: Thank you. I do note that all five bids were above the engineer's estimate by well over a million, the first two were about a million, a million plus, the other three were way out of range and I just wondered, I know from Item 5 also that any number of others were underestimated on this one or overbid or whatever, is it something systematic in the market right now for construction services or is there something idiosyncratic about this one that we should note?

Mortensen: Governor, Members of the Board, I don't believe that our BRAT team, when they reviewed this bid found anything that was of concern. I would expect that the difference between the engineer's estimate and the bid were likely due to the economic growth in the region as well as the area that this project is in. It's going to be a haul from many of our materials locations, so sometimes that ends up adding additional costs to our projects that may be unanticipated.

Dyson: Also, Thor Dyson, Assistant Director of Operations. As Assistant Director Cole Mortensen stated, contractors are extremely busy at this point. In addition, this area is difficult. It's on steep terrain. It has a lot of things to deal with as far as the slope and stormwater management. In addition, we've got to pay attention to traffic. We've got traffic control up on top and you know, I believe that the contractor that's the low bid is a reasonable contractor and the price seems right to us even though our engineer's estimate is lower by 14%.

DRAFT

AMERICAN OVERSIGHT

Knecht: Thank you Thor and Cole. Mr. Dyson, considering all the factors, the slope, the stormwater, the safety factors, etc., and the market, I would think that those are taken account of in making the engineer's estimate. When was the engineer's estimate made?

Mortensen: Generally the engineer's estimate is made at about—between 90-100%. One of the things that I have in—from the BRAT review team here is that they believed the difference is also due to part of the new pipes that we're putting in and the additional structure excavation to get that in and as Thor mentioned, when you're trying to do excavation on slopes, that starts being a little more problematic and so I think it's just a kind of a situation where it all came together and it's a little more difficult than what we anticipated with our engineer's estimate.

Knecht: I'm certainly willing to accept that, I just wondered what was the date of the engineer's estimate? Roughly. Not to the minute.

Mortensen: I don't have that. I would anticipate that it was probably three months ago.

Knecht: Okay. Thank you and thank you Governor.

Sandoval: All right, thank you Mr. Controller. Other questions? On this agenda—Member Savage.

Savage: Governor, just one question or one comment. On Page 7 of 23 in the packet it says, the estimate range [audio cut] I know it does fall within the estimate a range and the competitive values for an $85,000 delta from first to second bidder indicates it's the right price. So, I can fully this support agenda item. That's all I have Governor.

Sandoval: Okay, thank you Member Savage. Any other questions with regard to Agenda Item No. 4? I hear none. Mr. Nellis, any further presentation?

Nellis: No sir, that concludes this Agenda item.

Sandoval: All right, thank you. If there are no further questions, the Chair will accept a motion for approval of the contracts over $5 million as presented in Agenda Item No. 4.

Almberg: So moved.

Sandoval: Member Almberg has moved for approval. Is there a second?

DRAFT

AMERICAN OVERSIGHT

Martin: Second.

Sandoval: Second by Mr. Martin. Any questions or discussion on the motion? I hear none, all in favor say aye. [ayes around] Opposed, say no. That motion passes unanimously. Let's move to Agenda Item No. 5, Approval of Agreements over $300,000. Mr. Nellis.

Nellis: Thank you Governor. There are four agreements under Agenda Item No. 5 for the Board's consideration. They can be found on Page 3 of 96 in your packet.

The first one is with HDR in the amount of $2,437,722. This is Amendment No. 6 to increase authority and extend the termination date to provide additional support required for geotechnical investigation and analysis, independent structural review, as well as project visualization for Centennial Bowl public meetings.

Line Item No. 2 is with SH Architecture in the amount of $1,671,606. This is for a feasibility study for Las Vegas Maintenance Station to provide architectural and engineering support for space utilization and a building study of the existing maintenance facility at the District 1 Headquarters.

Line Item No. 3 is with Cambridge Systematics in the amount of $375,453. This is for an autonomous vehicle feasibility study to determine potential ridership levels, lane and bridge options and configurations, as well as, technology infrastructure for a facility between Reno-Sparks and the TRIC Industrial Park. Also, to potentially develop public/private partnership funding mechanism for that facility.

Lastly, Line Item No. 4 is with Aurigo Software Technologies in the amount of $11,365,499. This is for a project estimating, funding and scheduling system replacement for three of NDOT's systems. Each Board Member was emailed a packet containing answers to the Board's questions from the October Meeting when this agreement was first presented. Deputy IT Chief, Kim Munoz, as well as representatives from Aurigo are available to answer any additional questions the Board may have on this agreement.

With that Governor, that concludes this Agenda item and we'd be happy to take any questions on any of these four agreements.

DRAFT

AMERICAN OVERSIGHT

Sandoval: Thank you, Mr. Nellis. I have a question on No. 2, with regard to—I suppose it affects this campus where we're sitting right now. Is that something that's going to be presented to the legislature?

Malfabon: Not this current biennium, Governor, this is just a feasibility study to look at options. There's some possibility of some land available in the northern [inaudible]. It was not anticipated in our budget request for a new facility, but the feasibility study is kind of the first step to look at. There was some—the City of Las Vegas is taking over the Cashman Center. That baseball team has moved out to Summerlin and they want to look at revitalization of this area, including the possibility of NDOT's land here as well. A lot of work to be done to look at that. As you can see, this facility is old and spread out, as a campus. So, we're looking at some benefits of consolidation of the office space and looking at some other options in the valley to move the maintenance facility to.

Sandoval: And, why was the original estimate—at least the Department estimate was $250,000, the service provider is $1.6 million?

Malfabon: I'd have to get staff to respond to that.

Dyson: Governor, this is Thor Dyson. Anita Bush is coming up to discuss and answer your question.

Bush: Good morning, Governor, Members of the Board. The original estimate was only focused on an existing space study in the District 1 yard. The scope of the actual feasibility study includes conceptual plans for the existing yard, conceptual plans for the new yard, so we can, when it's time to present for the Legislature, we have good cost estimates that we can present to them. So, the scope really evolved from the original estimate, of the $250,000.

Sandoval: Yeah, because this is more than—I mean, this includes a campus design.

Bush: Yes, so—

Sandoval: And, it won't even—it wouldn't even go to the Legislature until 2021, correct?

Bush: Yes, that's correct. Because, you know, when we present to the Legislature, we are kind of anticipating the questions we are going to get. It's usually asked from us to consider, okay how much it would cost to improve the existing yard, to accommodate the space needs in the existing yard, how much it's going to cost to

DRAFT

AMERICAN OVERSIGHT

move the yard, so when we—we really didn't have a good scope in mind when we got the initial charge to do a feasibility study on the existing yard. So, once we put more thought into it, that's—we developed the scope and it became much, much bigger.

Sandoval: And the only other reason—I brought it up because I was concerned about that jump and also, most if not all the other state agencies when they do this, they bring it to the Legislature first for a feasibility and architectural study. That's the way it's been for every state building and I'm just wondering if it would be more prudent to have the Legislature review this so that they'll understand the entire process rather than having it come to them after the fact in 2021.

Malfabon: Governor, previously the Legislature did approve [audio cut] it was never built because we went into the recession, but I assumed that staff was looking at that previous support from the Legislature as identifying the need to consolidate it and build a new facility here for NDOT. Subsequently, we had the availability of land in the northwest part of the Valley, along the Beltway, as an option to look into. And so, it changed from the building a new building here on this site back when Jeff Fontaine was the Director, to now looking at options for that. I think it's a point well taken that typically when new facilities are planned for a state agency, the Legislature has to weigh in on that decision.

Sandoval: I bet there's probably maybe five members of the Legislature that are there now, that were there then.

Malfabon: I think so.

Sandoval: And, it's just term limits, what have you. Again, I'm not going to be here, but just a little advice, that I think if you went forward in 2021 with all these plans and hadn't presented it to the Legislature first, you might get some cross looks at the Transportation Committee Meetings. I think Lieutenant Governor was a Member of the Transportation Committee, was he not, or were you?

Hutchison: I was not.

Sandoval: Oh, but you were in the Legislature.

Hutchison: I think that your assessment of the cross looks by the Legislature is exactly right, Governor.

DRAFT

AMERICAN OVERSIGHT

Sandoval: So, I'm not sure what to do with this because you know, we've got a Legislative Session coming up in two months. As I said, I think that there might be, I'm not saying that there will be, but there might be a perception at the Legislature that this was going around them without their opportunity to have a say.

Hutchison: Governor, I'll just second that and just say that I think the best approach is to fully inform the Legislature and get leadership involved and sort of go there with your hat in your hand and ask them what they want you to do if anything more, because the worst thing you could do is just get that perception that you're trying to sort of just, you know, end run around them or present something that they haven't seen and considered before. So, I just second that, Governor.

Sandoval: So again, my advice, for whatever it's worth is, each of the Directors make a presentation to the respective committees that have jurisdiction and it seems that it would be more prudent to make that presentation, or this matter as part of that presentation to see if the Legislature has an appetite to look at this and if it doesn't then bring it back to the Board for review and approval. Mr. Controller, did you want to weigh in, I thought you—

Knecht: I'll just third the observation because I was on the Assembly Transportation Committee and I agree with both you and the Lieutenant Governor that this could not be well received. Of course, that was in the old days when people served forever, but—

Sandoval: All right, other Board Members, questions or comments on these contracts? Member Savage.

Savage: Thank you Governor. A couple of questions and comments. Beginning with Agenda Item No. 1, on the HDR item. Can anyone tell me the current amount that HDR has billed to this date, percentage wise, roughly? Because it's shocking to me that here we are at the end of 2018, the current contract runs through 2020. I realize the work needs to be done, I'm just looking at the whole timing issue as to why because I know HDR has done a good job, but I'm wondering why it's so premature.

Mortensen: For the record, Cole Mortensen, Assistant Director of Engineering. I will have somebody find out how much they've actually billed to date. I understand that this is exactly what the Board doesn't like seeing, as far as the number of amendments that we've had on this contract. That's partially due to kind of the

DRAFT

AMERICAN OVERSIGHT

arc of the story of this project. We've had to break it into several packages to get them out the door. We've had some hiring issues in our Geotechnical Division that's prevented us from actually getting out there and getting the geotechnical investigation done, which is why we're coming forward with this amendment. We just simply don't have the staff available to meet the timelines that we're trying to meet.

As you can see, from part of the other amendments, there were also various other items that we weren't able to perform as a Department at the time in order to keep it moving. One of it was allowing the local interchange for the City of Las Vegas, that was Amendment No. 1 to do the traffic analysis for that. Amendment No. 2 was simply to amend the termination date, just because this project has dragged out as we've phased it and it's made sense to keep HDR on board because they're familiar with the project from one end to the other. Amendment 3 was including an independent structural bridge check that we didn't have the internal resource for, retaining walls, a public meeting and additional traffic operations and modeling for Phase 3A. Amendment No. 4, was again, due to the additional work in the construction of Phase 3, specifically change and control of access report. The design of additional structures and the continued project management, public information and outreach. So, you know, as these projects spread out, it does cost us a little more in that actual management of the project. Amendment 5 was due to an accounting error, it was just a math error in the agreement itself, so we had to fix that. And again, here we are with Amendment No. 6, to add additional geotechnical investigation and some structural design work that we simply don't have resources for in house.

Savage: Thank you Cole. I certainly understand, HDR is giving the Department and the State of Nevada the value—

Mortensen: Yeah.

Savage: --like they always do on the project. I understand that the project has been modified over the last eight years. I'm just curious as to why it's two years in advance and secondly, can you remind me what type of delivery we're having? Is this going to be a lump sum hard bid project?

Mortensen: Yes.

Savage: Or, it is, okay. Very good. So, this is all pre-engineering work up to that point.

DRAFT

AMERICAN OVERSIGHT

Mortensen: Correct. Correct and that's why we're two years ahead of time is, we're having them help us put the plan set together so we can do the hard bid at that time.

Savage: So, when do you expect the hard bid to be solicited?

Mortensen: I would have to get back to you on that, as far as where it's actually landed in our plan. I don't have that in front of me.

Malfabon: I believe this is—the final phase is 2020 for this interchange.

Savage: The final phase is 2020?

Malfabon: Yes. It's currently, there's a construction phase that's underway, under construction now and this one comes on, right as that completes this last and final phase, goes out for bids.

Savage: Okay.

Nellis: Member Savage, this is Robert Nellis. We do have a number of how much that's been expended to date, it's $4,274,800.

Savage: So, that's one reason the contract was amended.

Mortensen: Correct.

Savage: Because the current amount is $3.1, okay.

Mortensen: No, the current agreement total right now, Board Member Savage is $5,274,179.

Savage: Exactly, I stand corrected. I was looking at the original amount. So, it's not billed to the point it's approved at this time.

Mortenson: Correct.

Savage: That's good. That sounds fine to me.

Mortensen: Yes, correct. We're adding additional scope of work through the contract that we need to because of a lack of resources on our end. So, there still is work that they're doing, that hasn't been billed to us yet. We need to move forward with the geotechnical investigation and get the plans done.

Savage: Thank you, Cole. That's all I have Governor, except for Item No. 4, and I don't know if we're ready—

DRAFT

AMERICAN OVERSIGHT

Sandoval: You can go ahead and move to 4.

Almberg: I've got a question on 1.

Sandoval: Oh, okay. Member Almberg.

Almberg: On Item No. 1, on Page 8 of 96, we have 12,108 man-hours projected for this. So, are those man-hours, those are excluding the time involved for the subconsultant for the geotechnical work, is that correct?

Mortensen: I believe that is correct, Board Member Almberg. The subconsultant for the geotechnical investigation itself, I believe is a direct expense under Item 4 on that page.

Almberg: Correct and that's the way I was taking it, as well but I just wanted to verify that. With reading the scope of work associated with this Item No. 1 here, there includes—appears to be two subconsultants. One is to perform the public outreach and the other one is for the geotechnical. Is there any other subconsultants that I missed?

Mortensen: I would have to get back to you on that. I don't believe so, but there may have been subconsultants on previous items of work. So, this—these negotiations may have only included those two subconsultants based on this amendment. Overall, the overall scope of the project may have other subconsultants involved.

Almberg: Okay. And then, finally, based on subconsultant work of, you know, close to $700,000, is there a reason that we're not going out and obtaining a consultant just to do that work directly for us instead of getting a subconsultant under the existing agreement?

Mortensen: That's something that we generally haven't done. We usually rely on one prime service provider and then have the subconsultants working under them. I think that there would be additional cost and risk associated with having multiple agreements out there trying to get subs to perform work. Then, what ends up happening is we run the risk of our—let's just say we went out and did a geotechnical investigation service provider agreement. We would potentially be on the hook for the performance of the one subcontractor doing the geotechnical investigation if they hold up the work of the engineer doing the actual geotechnical design. So, part of it is managing the risk for the Department on that part. If we utilize the prime and having them hire the subconsultant, they

DRAFT

AMERICAN OVERSIGHT

take the risk of the schedule and getting that work done and any delays that may happen for their sub, rather than the Department having two separate service provider agreements.

Almberg: Okay. One last thing on Page 17 of 96, it talks about webcams and having a live stream video. What exactly is that for? I mean, is this something we do on every project?

Mortensen: This is something that we've moved more and more towards from a public outreach standpoint. We've found that the public's more involved if we can get more audio/visual feedback to them so that they can visualize what that project is going to be. I think that the webcams would provide an opportunity for the traveling public to look up on the website to see what the traffic looks like through the interchange to make a decision as to whether or not they want to travel through the work zone or find an alternate route. I believe the webcams also help our construction management group, just kind of watch and keep track of what's going on out there. We've had a number of instances where it's been very helpful to have the webcams taking pictures for us and keeping track of the actual work that's getting done and where it's getting done at.

Almberg: Okay, that's all for me, Governor, thank you.

Sandoval: Thank you. Why don't we move to Contract No. 4, Member Savage.

Savage: Thank you Governor. Before I go to 4, I would like to make note on Agenda Item No. 3, I want to compliment the Department for the feasibility study for the autonomous vehicle. On Page 34 of 96, that study is going to occur between Reno/Sparks and the TRI Center. The Department remains very well aware of the congestion out there and we're doing a lot of things in different ways. The end result will be quantitative results regarding the feasibility of this potential automated vehicle. So, I compliment the Department on that study. Money well spent.

Then, on to Agenda Item No. 4. As you know, there were a few questions last month and I want to first of all, thank Robert, Dave and Kim for their patience. I stated last month, I'm not an IT guy. I'm still not an IT guy. I'm a business guy, but I've learned a lot after meeting several times with Robert, Dave and Kim. I appreciate your patience.

DRAFT

AMERICAN OVERSIGHT

We've openly discussed specific concerns and issues with the construction project management and the financial side of NDOT. I believe the process has been openly transparent and educational to ensure at the end of the day that NDOT and the people of Nevada are getting the best value for the dollar spent. I remain cautiously optimistic but at the same time, after talking to several NDOT people, something has to be done.

We all know this five year Aurigo Masterworks agreement is significant, but it is imperative that Aurigo ensure the consistent service and timely responses to NDOT. The UDOT, Wisconsin and the Massachusetts Departments of Transportation references that staff has forwarded to the Board have been extremely helpful and they answered many of my questions. Each DOT had very worthwhile comments, pros and cons. They were very honest, so I thank each one of those DOTs.

But I do have a few questions for Aurigo, just briefly and I don't know if Robert or Dave or Kim can answer those or if there's anybody from Aurigo.

Speaker: They're approaching the microphone now.

Sreenivasan: Governor, Members of the Board. My name is Balaji Sreenivasan, I'm CEO of Aurigo Software and I thank you for the opportunity to come up here and answer any questions you may have. I also have two of my colleagues, esteemed members of my executive team here; Kevin Koenig our CTO and Josh Moriarty our Senior Director of Professional Services, who will drive the program, if we're selected.

Savage: Thank you sir, for coming to Carson City today. That means the world. You know that we've been in discussion. I know staff has been in discussion with you this last month. I do have a few questions to have an understanding and clear conscious on my behalf. The first question is, what DOT do you feel is most similar to NDOT in their operation and modeling?

Sreenivasan: The way we look at DOTs is mostly in terms of CIP budgets and how they manage their programs and scope and functionality of what they really want to automate. The three references we gave you are all very similar, albeit a little different. Massachusetts has the best fit in terms of functionality that Nevada is looking to automate, from a software functionality perspective. Wisconsin has a different set of product mix that they're deploying, but from a user perspective,

DRAFT

AMERICAN OVERSIGHT

they have more number of users—double—than what Nevada is actually looking to do. Utah comes the closest in terms of user base and functionality that Nevada is trying to accomplish here.

Savage: Thank you, that is helpful. Question No. 2, last month, staff presented that both Texas and Colorado were users of Aurigo and it's come to our attention that both of those states have dropped Aurigo. If you could answer that question as to why they have gone in a different direction.

Sreenivasan: Yeah, thank you. So, the two contracts are very different. TxDOT was not terminated. It was a mutual termination for convenience by both TxDOT and Aurigo. So, let me explain what the context was. We were not the first vendor they selected. They had selected Hewlett Packard, HP, in the first go round. That contract was for $12 million and it turned out 10 months into the program that they had underestimated what it would cost to deliver such a large program. Texas is a pretty unique state, $100 billion CIP Program, much more complex than most state DOTs that you would encounter.

The second go round, it was Aurigo and Accenture that had bid the program and we competed with IBM, Deloitte and a few other large technology vendors and we were all in the same ballpark, so a contract of $32 million was awarded to us. A year into the program, we were still in elaboration. We had never started any software development or anything. We were trying to figure out what they wanted because it was a four-year implementation program. We realized that the scope they were looking for was probably two and a half, to three times more, even at that stage, then what we had bid. It made a lot of sense, for both parties at that time, to mutually terminate because the contract vehicle we had didn't allow for making a change order.

Colorado was not terminated. Colorado was basically a case where they had procured a planning system and when they started the program, there was an ah-ha moment with the team where they thought they had procured program and planning and they hadn't. So, they're re-procuring the system. In fact, we just resubmitted our bid 15 days back.

Savage: Okay, so that's good. Colorado was not terminated, it was never initiated.

Sreenivasan: Yes, it was never initiated. We just started it, it was paused and now it's being re-procured. TxDOT was terminated mutually for convenience by both parties.

DRAFT

AMERICAN OVERSIGHT

Savage: Okay, thank you sir. I appreciate the clarification. Question No. 3, on some of the references between Wisconsin and UDOT, there were concerns about a United States based project manager and business analyst. One of the comments that UMASS had, or MassDOT had was that it was very helpful to have a United States based project manager and business analyst. Will NDOT have that support?

Sreenivasan: The simple answer is yes and the longer answer is that we are a global business. We have—we're headquartered in the US and we are an American company, but we have operations in Canada and India. For the purpose of all DOT projects and all public sector programs, we staff all resources in the US and for Nevada, all resources assigned to the program will be stationed here, in Austin, Texas, which is where we're headquartered.

Savage: Perfect, thank you. Next question is, on the Wisconsin review, it looked like they had a $1 million unlimited license fee. Right now, we're projected at $1.5, so my question is, how many users does Wisconsin currently have?

Sreenivasan: Yeah, Wisconsin has 2,000 users and they have 950 internal users and approximately 1,000 external users from a contracting perspective. They haven't licensed the exact products that Nevada is licensing. They have licensed a much smaller subset of just contract and solicitation and bidding; whereas, Nevada DOT is actually procuring a lot more functionality from us. So, the Aurigo Masterworks Software is a suite of many products. We have 11 products. Nevada is actually soliciting more number of products than Wisconsin did, therefore, there's a higher fee involved with that.

Savage: Okay. So, it's not apples and apples.

Sreenivasan: No.

Savage: It's a different set of modules. Okay.

Sreenivasan: Yes.

Savage: Thank you sir. Second to last question, again, looking at the background on some of these other DOTs, they all voice concerns of personnel changes by Aurigo during their agreements. How can NDOT be assured that this will be kept to a bare minimum by Aurigo?

DRAFT

AMERICAN OVERSIGHT

Sreenivasan: That's an easy answer, but I'll give you what happened. The growth in the company has really been the last four years. We've had 100% YOY growth for the last four years. As a result, I think three years back when we just started work with Wisconsin, we didn't have the critical mass required to deliver larger programs and so we were hiring tremendously in 2015 and 2016. As a result of that, a lot of that staff had to come back to Austin to get trained and then get redeployed and we had some amount of churn. That has been fixed. We have the critical mass right now; the team size is three times where we were in 2014. We absolutely have the scale to deliver the programs like this.

Savage: So, you'll have—

Sreenivasan: We actually have named resources for NDOT in our proposal, and those named resources will be kept on the program, there will be no change.

Savage: That's great to hear. Lastly, in my discussions with Robert, Dave and Kim, I was told I need to ask you that, it is our understanding that you're willing to return all the money spent by NDOT through liquidated damages if we are not completely satisfied, is that correct?

Sreenivasan: Let me clarify. Again, simple answer is yes. The longer answer is that we have language that we have provided to NDOT that if you, for some reason, want to terminate the contract for cause, during the implementation phase and any software has not been accepted by NDOT, then we will return all the monies. However, if software has been accepted, is in production, then monies paid for that portion will obviously not be returned.

Savage: That's fair. So, you completely stand behind your product, 1000%.

Sreenivasan: Absolutely.

Savage: That's all I have at this time. I sincerely appreciate you being here in person today to answer these questions. As you realize, this is a major investment for our state and we all want Aurigo to be successful on this venture, while ensuring the Nevada Department of Transportation makes a seamless and cost-efficient transition to this new software. That's all I have Governor.

Sandoval: Thank you Member Savage. Good questions. We just—it has to work. And, unfortunately, at least in my experience and this isn't anything about you but in other departments, we've had some pretty dramatic failures with technology. It's

DRAFT

AMERICAN OVERSIGHT

led to litigation, it's led to a lot of delays and so, when it comes to another big ticket item that really will be the backbone of this Department when it comes to projects, we just want to be sure. So, that's just my comment. Unfortunately, you're getting a lot harder questions because of the experience we've had in other places. I really—I agree with Member Savage, it's very meaningful and this is actually a first for me where the CEO has come forward and answered the questions directly. That's very impressive.

Savage: It is.

Sreenivasan: Thank you Governor.

Sandoval: Other questions? No, did you have something else, I didn't mean to interrupt you.

Sreenivasan: No. I said, thank you. We really appreciate the opportunity to come here and present to you and Nevada is an important customer to us. We are doing business in the State of Nevada. The City of Las Vegas is one of our projects, deployed. They're using our software already. We're really looking forward to the opportunity to work with the State.

Sandoval: Thank you. Mr. Controller.

Knecht: Thank you Governor. I sympathize with Member Savage and with yourself. When I ran for Controller four years ago, I knew that we were facing IT issues. I didn't realize that that would take up at least a quarter or more like a third of my job. It is a challenge we've had. We had a problematic contract and we went through two contract revisions, amendments, with the help of the AG's Office etc. So, I know from experience what the Governor knows about what a challenge this is and what Mr. Savage has pointed out here.

I want to say that Kim and Dave and Robert came to my office and gave me a very thorough and efficient briefing on what they presented last time and on the answers to the questions. My concern was with only one bidder, how do we make sure that essentially the taxpayers of Nevada will be getting full value for their money. I think, the questions that Mr. Savage asked and that they answered satisfied me on that. So, I'm ready to support this. I do thank you for coming, as the CEO and I won't say that when I was on the Board of Regents, another CEO came and unfortunately that experience wasn't as good in the long run but I'm hopeful and confident that this one will be better. So, I just want the record to

DRAFT

AMERICAN OVERSIGHT

reflect that I got the full briefing and I've given this the full consideration and thank you again Len, and Governor.

Sandoval: Thank you, Mr. Controller. Any other questions or comments on this contract? Mr. Almberg.

Almberg: I just wondered why nobody came to my office to update me. [laughter]

Martin: Me too.

[crosstalk, laughter]

Almberg: That's all for me Governor.

Sandoval: All right. If we vote on Contracts 1-4 and that brings me back to Contract No. 2, as to how we should handle that. We could—

Sreenivasan: Thank you.

Sandoval: Thank you very much sir—provide a motion subject to approval by the Legislature or just remove it until it's brought forward to the Legislature?

Malfabon: I think it would be best to remove it. It was stated that the additional estimate was very low. When we saw it was significantly more, I think it is best to approach it from that manner, Governor.

Sandoval: A stitch in time saves nine, Rudy, I'm just trying to help you out there. All right then. We will remove Contract No. 2, subject to presentation by the Legislature and further consideration by this Board. So, the Chair will accept a motion for approval of Contracts 1, 3 and 4.

Knecht: So moved.

Sandoval: Controller has moved for approval.

Savage: Second.

Sandoval: Second by Member Savage. Any questions or discussion on the motion? I hear none, all in favor say aye. [ayes around] Those opposed say no. That motion passes unanimously. Let's move on to Contracts, Agreements and Settlements. Mr. Nellis.

DRAFT

AMERICAN OVERSIGHT

Nellis: Thank you Governor, Members of the Board. There are three attachments that are under Agenda Item No. 6 for the Board's Information. Beginning with Attachment A, there are 10 contracts and one emergency contract that can be found on Pages 4-7 of 33 in your packet.

The first project is located on US-95 from the California/Nevada state line, to Boulder City Bypass in Clark County; to install intelligent transportation system infrastructure. There were five bids and the Director awarded the contract to Las Vegas Electric, Inc., in the amount of $3,248,771.10.

The second contract is located on Main Street in Fallon to replace a bridge structure. There were three bids and the Director awarded the contract to A& K Earthmovers in the amount of $940,000.

The third project is located on SR-397, 398 and 399 for resurfacing and culvert replacements. There were five bids and the Director awarded the contract to Granite Construction Company in the amount of $410,410.

The fourth project is to install edge line stripe and center line rumble strips at multiple locations in Lincoln, Mineral and Nye Counties. There were two bids and the Director awarded the contract to Nevada Barricade and Sign Company in the amount of $532,100.74.

The fifth project is located on US-395 in Douglas and Washoe Counties. This is to install a Nevada State Gateway Monument at both Topaz and Bordertown. There was one bid and the Director awarded the contract to Spanish Springs Construction, in the amount of $791,444.

The sixth project is located on US-93 in Clark County. Also to install a Nevada State Gateway Monument at Hoover Dam. There were two bids and the Director awarded the contract to Las Vegas Paving Corporation in the amount of $396,090.

The seventh project is located on US-93 in Elko County. Also to install a Nevada State Gateway Monument at Jackpot. There was one bid and the Director awarded the contract to Spanish Springs Construction in the amount of $415,444.

The eighth project is to install edge line stripe and centerline rumble strips at multiple locations in Elko, Eureka, Humboldt, Lander and White Pine Counties. There were two bids and the Director awarded the contract to Surface Preparation Technologies in the amount of $725,412.50.

DRAFT

AMERICAN OVERSIGHT

The ninth project is to install edge line stripe and centerline rumble strips at multiple locations in Churchill, Lyon, Mineral and Washoe Counties. There were two bids and the Director awarded the contract to Nevada Barricade and Sign Company in the amount of $506,200.75.

The tenth project is located at NDOT's north annex building in Carson City to install an emergency generator. There were two bids and the Director awarded the contract to Simerson Construction in the amount of $392,374.50.

Lastly, the eleventh item is an emergency project located on Kietzke Lane in Washoe County to remove and repair a damaged storm drain, system pipes and drop inlets. The Director awarded the contract to Q&D Construction in the amount of $200,000.

Does the Board have any questions regarding these 11 projects before we turn to Attachment B?

Sandoval: Thank you Mr. Nellis, any questions? Member Savage.

Savage: Thank you, Governor. Mr. Nellis, just a couple of comments. I know this is an information item only, but Items 4-10, there were three projects that only had one bidder and there were four projects that had two bidders. Is the Department reaching out to the construction industry and marketing and being proactive to the point where we can get more than one bidder or two bidders on a project? What are we doing as a Department? Because I know it's busy out there, but again, we pay every two weeks, we currently don't hold retention. It's a pretty good deal, to works for the Department of Transportation. Are we doing anything on that?

Hoffman: Member Savage, this is Bill Hoffman, Deputy Director. Good morning.

Savage: Good morning.

Hoffman: Well, it is busy, as you've mentioned, but you bring up some great comments and we do meet with the AGC in Northern Nevada and the Southern Contractors of Southern Nevada. So, good comment. We can definitely reach out to them. It is excessively busy out there, especially in Northern Nevada where you see a lot of cones. Down south in Southern Nevada, you see contractors working everywhere. We will reach out to the contractors, Member Savage.

DRAFT

AMERICAN OVERSIGHT

Savage: That would be appreciated, Mr. Hoffman, because I know as a vertical contractor, it's very important to know that the money is there at the end of the day. With the Department of Transportation here in Nevada, the money is there. So, I would think there'd be a few more contractors looking at some of this work, but I'd appreciate it if you'd look into it. Thank you Governor, that's all I had.

Sandoval: Thank you. Mr. Controller?

Knecht: Thank you. Thank you, Governor. My question goes to the fact that nine of these 10 projects, excluding only number 3 came in between a quarter of a percent and 67% over the engineer's estimate. I understand the market has heated up, but I'm wondering, there must be a systematic problem in the estimating or something to get that kind of a result. There's a really thin probability that it would happen stochastically.

Hoffman: That's a great comment, Mr. Controller. We'll look into that as well. So, when we meet with the contractors and talk to them, we'll talk about number of bidders and then, we'll work internally with our estimation process. Cole Mortensen and Scott Hine and then we'll work across the Board with the contractors, making sure that the estimates are real and that we have enough contractors on board to make it beneficial for the taxpayers of Nevada.

Knecht: Thank you.

Sandoval: All right, anything else? Member Almberg.

Almberg: Multiple of these contracts that went out here were for edge rumble strips and centerline rumble strips. Last Board Meeting we had a rumble strip that was supposed to be on the Board, but we pulled it off. It's not on this Board Meeting. I was wondering if those rumble strips are included in these projects.

Hoffman: We don't have that information, Member Almberg. This is Deputy Director Hoffman, but we'll get that information to you as soon as we can.

Almberg: Okay, I appreciate it. And, will that rumble strip be back up next month?

Hoffman: I'm not sure, but we'll get that information to you very soon.

Almberg: Because as far as I'm aware, I think we've come to consensus of what we were looking at, so just I appreciate it. That's all for me.

DRAFT

AMERICAN OVERSIGHT

Sandoval: All right, thank you. Anything else? All right, Mr. Nellis, please proceed.

Nellis: Thank you, Governor. There's 74 agreements under Attachment B, on Pages 23-27 for the Board's information. Items 1-2 are an Acquisition and an Appraisal. Items 3-12 are Facility and Interlocal Agreements. Items 13-29 are Service Providers. Lastly, Items 30-74 are No Cost Agreements and Amendments. Does the Board have any questions on any of these agreements before we turn to Attachment C?

Sandoval: Any questions on Attachment B? We'll go with the Lieutenant Governor.

Hutchison: Thank you. My question and Dennis, this is for you, it's the Kip Jones contract extension. Maybe you could just—I don't know if you want to do it now or would it be better under Agenda Item 12, as far as the update on that. And, it looks like this is going to be $150,000 and I saw on our outside counsel report that we've got about $100,000 left. So, are we thinking about $250,000 remaining on this and just kind of an update? Either now or later, whatever is best for you Dennis.

Gallagher: For the record, Dennis Gallagher, Counsel to the Board. This involves the Nassiri case. Mr. Nassiri had recently filed another appeal with the Supreme Court. So, it was anticipated that this would carry us up to the Supreme Court and possibly back down again. Mr. Nassiri recently, his counsel has withdrawn for failure to be paid. We are in the process of—we agreed to an informal meeting with Mr. Nassiri and his former counsel before proceeding with an official judgment/debtor examination. If the appeal goes away, this agreement will probably not incur many fees.

Hutchison: So, it sounds like Dennis, this may be an attempt to get a little negotiating power to resolve the case, that's why they filed another appeal?

Gallagher: Yes, as recently as yesterday, Mr. Nassiri reached out to a representative of NDOT with a proposal that's not acceptable to the Department. For the Board's edification, the status of the case currently is the District Court awarded NDOT a little over $1.1 million in cost and fees in defending this action over the past 6-7 years.

Hutchison: Did the appeal originate from that award, or was it just—was the prior appeal not dispositive of all issues?

DRAFT

AMERICAN OVERSIGHT

Gallagher: The prior appeal dealt with everything but the fees and costs, when it was sent back down, the fees and costs were then awarded and now it's the new deal.

Hutchison: Now it's being awarded, okay. It sounds like this is headed for a settlement and Mr. Nassiri may be being a little more reasonable and we can find a resolution to this, it sounds like.

Gallagher: We're always available to listen to any proposals.

Hutchison: To reasonable proposals.

Gallagher: Yes.

Hutchison: Because NDOT Counsel is always reasonable. I know that from experience. [laughter] Thank you, Governor.

Sandoval: Thank you, Mr. Lieutenant Governor. Mr. Controller.

Knecht: Thank you, Governor. I'm going to go first to Items 32, 37 and 39. All of which are supposed to be no-cost agreements but they have amounts ranging from $4,800 to over $1 million. Can somebody explain to me how those are no-cost agreements? Excuse me, forget Item 37 because that's an Amendment. It does say no-cost agreement but there's no amendment amount. Items 32 and 39 are called no-cost interlocal agreements and they have positive dollar amounts.

Nellis: Mr. Controller, this is Robert Nellis. These are receivable amounts, so there's no cost to the Department. We're receiving the funds for those.

Knecht: Say that again.

Nellis: These are funds that we are receiving.

Knecht: Okay.

Nellis: So, they're not—yeah, it's not a cost to the Department. We're not paying out the money.

Knecht: Okay. I appreciate that explanation. That's helpful. It wasn't apparent on the face of the document, as least as far as I could tell. Let's go back to Item 11. I'm sort of surprised the Governor didn't go forward with this one. This is research and design—or, research by a consortium research studies or that's the purpose. It says, conduct research on topics to be selected by an NDOT advisory board,

DRAFT

AMERICAN OVERSIGHT

through a consortium of universities led by UNR, etc., etc., etc. $143,700. Give me some comfort that this is going to actually deliver some value to NDOT and to the taxpayers.

Rosenberg: For the record, Sondra Rosenberg, Assistant Director for Planning. I was also surprised this hadn't come up yet.

Sandoval: I've got to let everybody else have some fun. [laughter]

Rosenberg: Let's go back to the research topic on the other item—no. What this is, it's actually a holdover from several years ago when this consortium of universities was selected for a University Transportation Center Grant. We had an agreement with them—I can't remember if it was four or five years ago, when they won that to help support that research that was federally funded at a 50% match level.

Much of that has been expended. It's actually leveraged. The required match is 50%. It's actually leveraged, I think significantly more than that in additional research funds, both from the universities as well as other partners. We had a slight amount remaining, this $143,000. The additional requests that we were getting from the universities, we were having a bit of a disagreement on the overhead rate. We decided it was simpler to clarify that in one agreement with the remaining committing funds towards that, that UTC research and the way that works is, each time they have a proposal for selected research they would like us to fund, we have to agree to that 50% of that research statement. They come to us on a one-by-one basis, not to exceed this amount and we say, yes this is worth some of our funds to—there's a benefit to the Department to select that.

So, it's one agreement, rather than the individual ones we get through our typical research program, because they got this large grant from USDOT. So, we'll be working with them to expend those remaining funds, to complete their UTC grant amount.

Knecht: Okay so, the short version of that is, this is sort of an overhang from the previous agreement—

Rosenberg: Correct.

Knecht: And that we're going to trust you, Sondra, to make sure that we get full value.

DRAFT

AMERICAN OVERSIGHT
NV-DA-20-0615-A-000941

Rosenberg: Correct. Yeah, this was—it was previously committed funds, essentially. So, we just rewrote the agreement to clarify that overhead rate, at the lower rate, per state funded agreements, rather than at the higher rate for federal agreements because the federal funds don't come through us. So, yes, essentially the Director's Office serves as the Research Management Committee and we will be approving any of these funds that are actually spent on this specific research.

Knecht: So, by explaining that you're leaning on them about the overhead rate, you give me some confidence, so thank you for that. I've got two more. One is Item 10 with the City of Las Vegas. We're increasing the authority by $500,000 from $1.1 million, which is something like 45%, due to a delay in the start of the project. These are all nice soft round numbers with the City of North Las Vegas. Cole, can you or somebody explain to me how we got to $500,000 increase due to the termination date being extended from June 30th of this year to the end of 2020, due to a delay in the start of the project?

Mortensen: Yes, for the record, this is Cole Mortensen, Assistant Director of Engineering. That particular project was taking a portion of a resurfacing project in an agreement with City of North Las Vegas to allow them to construct and bid it because they were putting in, I believe a water line, through that area. Sorry, not a water line, an interceptor sewer project. We knew that they were coming in after us, so we didn't want to build the project just to have them come in and cut it. It's my understanding that the difference in the agreement was the difference in the engineer's estimate. So, early on, we did an agreement with them for the $1.1 million. Once we got down to a point where they actually bid the job, there was quite an increase in the cost there and we were on the hook for it because that was our portion of the work.

Knecht: I think I follow that. Final one and this is a little bit bigger. Mr. Dyson, Item 12, $4.25 million to provide necessary funding for the Freeway Management System Component of the FAST System and the Central Operations Building, referred to as the Traffic Management Center, etc. That's a big chunk of money for one of these. It just meets the—or, comes under the threshold, but it's for maintaining and operating the ITS, can you explain what the ITS is and why $4.25 million is a reasonable figure?

Malfabon: I can actually take that Thor. So, the RTC of Southern Nevada has the Freeway and Arterial System of Transportation, FAST, Operations Center. NDOT and Clark County, the cities here locally pay the RTC to operate and maintain those

DRAFT

AMERICAN OVERSIGHT

devices. So, we have, as far as our Intelligent Transportation System devices, it's signals at interchanges and it's the cameras, it's the flow meters that will look at how traffic is flowing in certain highways. A lot of state highways or arterials will be discussed later on in the transfer agreement, but those have traffic signals that are part of those, the system. So, a lot of devices are out there that they—yeah, the overhead structure, the DMSs, they maintain that because they have a—it's seamless in that they can have the technicians go out there rapidly. As part of this agreement, this agreement's been in place but it's due for renewal and we've added a lot of devices under Project NEON. So, that was a lot of the justification for the increased cost. You can see those as you drive around town today. A lot of those overhead message boards is part of the Automated Traffic Management System. So, this was just a renegotiation of the cost based on the number of devices. It's similar to what they do in Clark County and all the cities down here.

Knecht: How does the billing work on—under this contract? Do they bill it by event or—

Malfabon: It's a monthly—I believe it's a monthly bill that's reviewed by the District staff for agreement to pay. They review it and then they submit it up to Traffic Operations for a final review and it's processed for payment.

Knecht: Thank you Rudy, thank you Governor.

Sandoval: Thank you, Mr. Controller. Just wanted the record to reflect that Member Valentine has joined us in Carson City. All right, any further questions with regard to Attachment B? All right, Mr. Nellis, if you'd please proceed.

Nellis: Thank you, Governor. There is one settlement under Attachment C for the Board's information. This is with FLP Holdings, LLC in the amount of $75,000. It's an inverse condemnation for a billboard that was removed and never replaced along I-15 and Cactus Avenue in Las Vegas.

That concludes Agenda Item No. 6. If there any questions, I'm sure Mr. Gallagher will be able to answer them.

Sandoval: All right, any further questions with regard to Agenda Item No. 6? If there are no questions, this is an informational item only, so there will be no vote. We'll move on to Agenda Item No. 7 which is a Road Transfer.

Malfabon: Thank you, Governor, Board Members. Items 7, 8 and 9 are associated with Road Transfers. As NDOT completed the construction of Interstate 580 in Carson City,

DRAFT

AMERICAN OVERSIGHT

the Carson Freeway, we looked at an agreement as was mentioned earlier during public comment with Carson City to take over some of the local roads. So, this completes the disposal of the NDOT right-of-way to Carson City.

Item 7 is associated with Carson Street from Fairview to the freeway, to I-580, intersection. Item 8 is associated with the frontage road at Clear Creek Avenue, in the same vicinity at the south end of the freeway. Item 9 is for Snyder Avenue. The City passed a resolution supporting the transfer from NDOT to the City and I think that now is the time for Dennis Gallagher, our Chief Counsel, to address that issue of the underground storage ground tanks on property that was mentioned in public comment.

Gallagher: Thank you, Director. For the record, Dennis Gallagher, Counsel for the Board. The question that came up this morning is dealing with some underground tanks that have been at that location for decades. The relinquishment of this property to the City doesn't change the responsibility to remove those tanks. It will just keep the Department in the change of title, which we currently hold and now add the Carson City. I take it from the comments by the representative from Carson City, they are aware of this situation and under the circumstances, are still willing to accept this property from the State.

Sandoval: All right, anything else?

Mortensen: Governor, if I may add to that.

Sandoval: Yes.

Mortensen: We have a letter from NDEP dated July 14, 2010, basically confirming that the site has been treated. Now, with sites like this where you have a fuel tank and there's a plume, I believe that the important part of the treatment is to ensure that the plume is no longer migrating or anything along those lines. At this location, it is not. The tanks have been scoured and cleaned, which is one of the requirements for underground storage tanks. So, essentially at this point in time, the site is considered remediated.

Sandoval: Okay. Again, I haven't done this in a while, but just the mere relinquishment to Carson City wouldn't absolve the property owner from any potential liability, is that an accurate way to put it, Mr. Gallagher?

Gallagher: For the record, Dennis Gallagher. That is a very accurate way to put it, Governor.

DRAFT

AMERICAN OVERSIGHT

Sandoval: Yeah, all right. Thank you. Mr. Controller.

Knecht: Governor, thank you for making that point clear, but as Mr. Gallagher pointed out, we'll still be in the chain of title and the transfer doesn't absolve the state from any potential liability either, does it?

Gallagher: All the record holders will be potentially liable, if the current owner is unable to remediate it, but as Mr. Mortensen put out, or just stated, NDEP used this site now as remediated and that could be why Carson City is willing to accept this property.

Knecht: NDEP does, is it possible the federal government will have a contrary opinion? Does it have any jurisdiction on this?

Gallagher: Yes, they have jurisdiction, but NDEP is the arm of the EPA, if you will, in the State of Nevada.

Mortensen: If I may, based on the guidance that we have here, I have the requirements for 40 CFR 280.20 and 40 CFR 280.21, that provide the requirements for those underground storage tanks, in a temporary closure condition, which is what they consider this, since they're still in place. They've just been remediated. That would be the requirement that the NDEP would be holding the property owner to.

Knecht: I guess the bottom line is this - is there some possibility that the removal of those tanks will be required in the future? A practical possible idea.

Gallagher: For the record, Dennis Gallagher. I suppose it is possible, depending on what the City of Carson City chooses to do with that property.

Sandoval: We won't be in any worse off position by relinquishing this than we are now, correct?

Gallagher: That is correct, Governor.

Sandoval: Yeah.

Hutchison: Governor?

Sandoval: Yeah, Mr. Lieutenant Governor.

Hutchison: My understanding of all this federal law is, everybody in the chain of title is going to be liable. This is—the federal law captures anybody who has ever held chain

DRAFT

AMERICAN OVERSIGHT

of title. Matter of fact, people who like, just drive trucks over it can be responsible for it. So, there's nothing that we're going to do today that's going to increase the state's liability. There's really nothing we can do that's going to decrease the state's liability. We're in the chain of title period, for time and all eternity and so is this individual. I know Mr. White had expressed some concern about that during public comment, but so is this individual property owner, is not going to be absolved of liability. Is that your understanding of what the federal law is and state requirements, Mr. Gallagher?

Gallagher: For the record, Dennis Gallagher. That is in fact my understanding and you put it so much better than I could express it. Thank you.

Mortensen: If I may, the risk at this point in time is not increasing. What would happen if the storage tanks were to be removed, they would have to be handled in whatever fashion necessary for the tank itself. The soil and the material around the tanks to a certain level would be removed and handled as a hazardous material, under the circumstances that we normally would handle that, to the level that they get disturbed, I would assume. At this point in time, I don't think that the liability is a great liability.

Sandoval: I think we've covered this pretty well, in terms of that there—if there is indeed a responsibility by the property owner, or that property owner still will be responsible, it provides comfort that Mr. Mortensen has presented a letter from NDEP that says that the tanks have been cleaned. Carson City does not foreclose its ability to seek damages or compensation or clean up from the property owner. So, it—you know, the other piece of this is, this is necessary to move forward with that Complete Streets Project. Given that we've laid, I think, a sufficient record that the State is in no worse position by virtue of this relinquishment, that the property owner is still responsible, that—I guess, that's all I have. I'm comfortable moving forward with Agenda Items 7, 8 and 9 because they are all part of the same project. Any other comments or questions from Board Members?

Knecht: Governor, I just see Mr. White raising his hand, can we indulge him a question?

Sandoval: Well, I just don't want to get into a debate on the record—

Knecht: No, I understand that.

DRAFT

AMERICAN OVERSIGHT

Sandoval: Mr. Controller, you know, I think we've heard what we need to hear on that with regard to public comment.

Knecht: I guess he'll have an opportunity at the end of the meeting to say whatever else he has to say at this point?

Sandoval: Yes, Member Savage.

Savage: Thank you, Governor. Just a comment on the relinquishment. I know Bob has been working on a lot of relinquishments for eight years and we have several Board Meetings, so I just want to thank Carson City for seeing the big picture. It's a pleasure and I wish other cities would also relinquish some of the roads that we have throughout the State of Nevada because they just need to see the big picture. So, I thank Carson City. Thank you, Governor.

Sandoval: For those of us that have sat on this Board for a while, this was one of my issues, we continue to essentially subsidize some of the local governments because we take care of highways that are no longer highways and are within city limits, etc. Again, I think, a little bit at a time and this is a great project. We've got that TIGER Grant that allows this project to go forward when it otherwise wouldn't. This project can't go forward unless we do this relinquishment. I would imagine there's also a time limit on the ability to use those TIGER Grant funds and complete the project. Is that accurate, Director Malfabon?

Malfabon: Yes Governor, typically, federal funds have a certain timeframe that they're allowed to spend it.

Sandoval: All right. So, within each of these agenda items is a Resolution of Relinquishment. The Chair will accept a motion to approve the Resolutions of Relinquishment as presented in Agenda Items 7, 8 and 9.

Martin: So moved.

Almberg: Second.

Sandoval: Member Martin has moved for approval. Member Almberg has seconded the motion. Any questions or discussion on the motion? I hear none. All in favor, please say aye. [ayes around] Those opposed say no. That motion passes unanimously. Let's move to Agenda Item No. 10, speaking of transfers between NDOT and local governments, Clark County.

DRAFT

AMERICAN OVERSIGHT

Madewell: Good morning Governor, Members of the Board. My name is Bob Madewell, I'm the—

Hutchison: Can they hear you in Carson City?

Madewell: I'm not sure.

[pause to fix audio]

Madewell: Let me restart it. Good morning, Governor, Members of the Board. For the record, my name is Bob Madewell. I'm the Manager of the Roadway Systems Unit of the NDOT Planning. I deal with [audio cut] in the state and today, I'm very excited to bring this one to you.

We've had over two years plus, negotiations with Clark County regarding the transfer of a portion of the CC215, you may all also be aware, it's also called the Beltway. In exchange for NDOT taking over that road, a portion that's between Stephanie and Warm Springs. We already have the portion between 515 and Stephanie. Also, the portion between 515—or, excuse me, I-15 and the Airport Connector, Warm Springs, in that area.

In exchange for that, they're going to take over several of the state roads, which I will mention to you in my presentation, but it's been an accumulation of a couple of years of negotiations. I definitely want to thank Clark County and their staff, specifically Public Works Director, Dennis Cederburg, for his assistance and getting us through to this point.

The accumulation of that is two agreements that were signed by Clark County on October 2nd of this year. We had to go with two agreements because one is a new agreement to transfer roads that were not contained in an earlier agreement where we—where NDOT took over the responsibility for those roads. So, this is a new agreement. Two of the roads involved in this transfer are roads that were involved with a 1983 agreement where the state took over several roads in the Clark County area for the purpose of maintenance and operation only. We never obtained the right-of-way to those. So, we're giving those back to Clark County.

The other ones in the original agreement that I'm talking about today, they'll actually be right-of-way transfers and at some point in the future, you will have an opportunity or the Board will have an opportunity to approve that actual transfer at that time.

DRAFT

AMERICAN OVERSIGHT

As mentioned to you, the two years of the transfer and the result of the two agreements, the Transportation Board will have the final say on a portion of this and when I get to the maps at the end, you will see two different maps that will show you the roads in question that you'll ultimately have that opportunity to actually vote on that transfer at that time.

If you could bear with me, this pushing over to the left is a little different for me.

So, I wanted to give you a little brief on relinquishments first, because some of you may have been involved in my presentation back in 2013 and 2015 where we went to the Transportation Board and updated NRS 408.527 that required a new process for road transfers. It required us to first meet with and negotiate with various agencies on this road transfer. During the process, it also required that we develop and create a manual, a guiding manual that all the cities and counties and NDOT followed that process to negotiate, so that there was an equitable transfer or exchange of properties. In some cases, there may be a monetary exchange. In this particular case, it's an exchange of roads for roads. So, in those discussions with Clark County, we have determined that the equitable exchange will be the transfer of the roads because of the uses.

NRS 408.527 also allows the state to take roads that are no longer in—the state no longer needs. We have a lot of surface streets in the state, as the Governor has mentioned that NDOT has taken over for a lot—for various reasons through the past. They don't act as State Routes for our purposes. We prefer to have roads that act as freeways, expressways, high-speed, higher volume roads that will get you from, not just Point A to Point B, but Point A to Point Z sometimes.

In this case, when we started these negotiations, we looked at those elements and the roads that we're giving back to Clark County are surface streets here in the Clark County, City of Las Vegas area. In exchange for that, as I mentioned, we're going to be taking on the CC215, which is acting as a freeway today, if you will. Many of you have driven it, if you haven't, please do.

I mentioned the 2013 Legislation where we made the rule changes. Here are some of the key elements that occurred out of that 2013 change. Defined the instances where Department can relinquish roads or accept roads. Relinquish roads exceeds the Department's needs. In this case, surface streets exceed our needs because we don't need them to travel between freeways. We want people to get on the freeways and travel those freeways. We don't need surface streets

DRAFT

AMERICAN OVERSIGHT

because they tend to work for local businesses or residential uses. People getting around their community, if you will. We do need freeways and we do need expressways. We do need those high-speed roadways. That's where we're talking about on the third bullet there where it says, accept the roads that have risen to the level of qualifying as a state route. And, very specific there, I'll give you some examples: high volume, multilane, access controlled, long distance routes.

In this process, when we started this negotiation with Clark County, we did use the new Guide to Road Relinquishments. I call it "new" even though it's about four years old now. We've had this opportunity to actually apply many of the elements of that. We started out with a formal documentation of do you want to talk and they responded. We followed the further processes that are involved in the manual and identified a negotiation process, as I've said, over two years of negotiations, many, many meetings between the two agencies and consideration on both sides got us to this point today where again, I have to stay very excited about this because this is, in my opinion, one of the bigger ones we're doing in the state right now.

So, I want to go straight on to the maps and show you the roads in question because I've talked about some of those but some of you may not be aware of them. The first attachment shows the routes that we're giving to Clark County. Those are currently state routes and we're giving those portions to Clark County. I do want to caveat something here that, some of those roads, we're giving half of the road to Clark County, the other half goes to the City of Las Vegas; which I'm in final negotiations with them. My hope is, within the next two months, by January, we'll have completed that.

So, as you look at this map and you see those breaks, see that really as a solid line through because part of those roads are in the jurisdiction of Clark County. Part of those roads are in the jurisdiction of the City of Las Vegas. We are working with them, and again, within the next two months, very confident that we'll be completing that negotiation.

You have, I believe in your packet, the roads that are involved. Real quickly, I can tell you it's a portion of Charleston, portions of Sahara. Tropicana between Las Vegas Boulevard and Maryland. A little portion of Russell that goes over the freeway Interstate 15, over to Las Vegas Boulevard. And, in exchange for those roads and then my third map, when I get ready to show you, will be those two

DRAFT

AMERICAN OVERSIGHT

roads that were involved in the 1983 agreement, where we just simply are giving it back to them for them to take control of again.

In exchange for that, as I mentioned, we're going to be taking Warm Springs, from Stephanie—I mean, excuse me. CC215 from Warm Springs to Stephanie. We already maintain the portion from Interstate 15 to Warm Springs, as well as Stephanie to 515. This other portion will complete the entire portion of CC215 between Interstate 15 and Interstate 515.

The only other piece to that I need to add is that, this process—and I'll mention this again because this is a key point, this process of transfer takes an extended amount of time when you're doing right-of-way documents. So, the first phase of this is, we want to do the transfers and within 30 days of the signing of the agreements that had already been signed by Clark County, operation and maintenance would transfer to Clark County and we would transfer operation and maintenance of the 215, except a small portion of it.

Clark County wants to keep the portion for operation and maintenance between Warm Springs and Pecos because they're adding a lane in each direction. They have a project there that should be completed sometime in the next, let's say 6-18 months. It will take us that long to do the right-of-way documents, anyway. That's a cost savings to the state, I might add, by them having already put those lanes in.

Eventually, we will own all of that portion between 15 and 515 and Clark County would though take over the portions that I've shown you in the prior map for those surface roads within 30 days after signing of the agreements, which I hope today, your action will allow our Director to sign those agreements and let us move forward with this action.

This third map, of course I wanted to show you is the map that involves the two routes that would go back to Clark County. In the 1983 agreement, NDOT took over the operation and maintenance of those roads so they are technically state routes right now today. That's a portion of Jones, that's what it is, and the other portion of Sahara that takes off from Boulder Highway and goes on over to Nellis. That was the portion that was the amendment in the two agreements.

With that, I gave you a very brief quick overview of two years or so of negotiation but also wanted to make sure you understood that—that this action

AMERICAN OVERSIGHT

will transfer a lot of those surface roads, get them out of the state's system and put us back into the business of working on and utilizing freeway type arterials, in this case CC215. I will also add that, this is the first phase of many to come. This is the first phase. We did a lot of work on this, to create templates for the future work, to get us to the next level. Very detailed agreement. I don't know if you have a copy of the agreements in your package, but you will see in Attachment C in there, that if you do not see that, it's a lot of detail, multiple pages of how we're going to handle in detail the maintenance and operation of these roads, including bridges and the offramps and onramps and everything. So, we got very detailed in it. That's the meats of the potato here, but the reality is, NDOT will get off of some surface streets, back into some portion of what can be decided/determined as a freeway, the CC215. It's Phase 1 of many future phases that come. As we trade more routes to them that are surface roads and take on more portions of the CC215 from 15 on around, as portions of it's built.

With that, I'm open for any questions you may have. I can tap dance too. [laughter]

Sandoval: Thank you. It's an excellent report. I appreciate all your work. I guess I have a process question which is, this is marked as an action item and it's listed as a report on the status of road transfers between the Department and Clark County. We have copies of maps, so what we would—

Malfabon: That was at my request Governor, just basically to give the Transportation Board a new credit for authorizing me to sign—by the matrix of what's delegated to the Director and typically interagency agreements are delegated to the Director to sign, but I wanted it on the record that the Board supports this move and it is a testament to your guidance and direction to the Department to get these things done, for transfers. Subsequently, as Bob mentioned, in 18 months, the formal action for the legal transfer of right-of-way will take place at the Transportation Board.

Sandoval: Thank you. As I said, this has been years in the making. It's the right thing to do and I want to compliment Clark County for its willingness to cooperate with us and with us being the State. If I were to take a motion, would it be, Mr. Gallagher, to approve the report on the status of road transfers between the Department and Clark County? What would be the action we're taking here?

DRAFT

AMERICAN OVERSIGHT

Gallagher: For the record, Dennis Gallagher, Counsel for the Board. Yes, Governor, given the agenda, that would be the appropriate motion, as the Director indicated when we get into the actual transfers, they'll be brought back to the Board.

Sandoval: Okay. Thank you. All right, any other questions or comments from Board Members?

Martin: I have one for this gentleman.

Sandoval: Mr. Martin.

Martin: So, after two years of negotiation and I'm assuming you're spending most of your time working on this thing, you're trying to get all the cats in one playpen. Do you really want to see us pass it or are you fearing you're going to be out of a job after we do that? [laughter]

Madewell: Member Martin, being out of a job with the number of roads that the state has that they would like to give back to local agencies would take more years than I have left in my life. [laughter]

Martin: So then you can support us passing it.

Madewell: Absolutely. I ask for your approval of it to allow our Director to sign that and allow this one to slightly move off of my plate so I can focus more on the next phase of this as well as the discussion I'm having with the City of Las Vegas again tomorrow morning, on the next portions that will help finalize these roads. I would ask your support.

Martin: Okay. So, I'll move for approval of this item.

Sandoval: Okay, before we take the motion, Lieutenant Governor.

Hutchison: Bob, thank you very much for this briefing. I have a couple of just questions. So, the goal is to take all of 215, right? Are you going to start working on west of the I-15 next? Is that what you're kind of--

Madewell: That would be our hope, but that has been a preliminary discussion so far, yes.

Hutchison: Okay. Then, will actually change? Will the signage change? I travel that road every day. I'm just wondering, will it change from CC215 to SR215, or—

Madewell: It's actually not SR, it's IR, Interstate—

DRAFT

AMERICAN OVERSIGHT

Hutchison: Oh, it'd be an interstate, okay.

Madewell: So, there's a quick piece I will tell you on that. A portion that's already been approved by Federal Highways years ago for an interstate designation was the portion from 515 to I-15, that's already…

Hutchison: That's already an interstate.

Madewell: That's already approved for designation. It can't be an interstate today because Clark County owns it, the state doesn't. So, having said that, yes, we will—that will be changed to Interstate 515. Route signing would be changed to say Interstate 515 out there.

Hutchison: So, that will say, that's I-515. That will just be a—it will be I-215.

Madewell: It's 215, right. Yes.

Hutchison: Right, okay. Right. And then my—just a curiosity question. I, for the life of me, can't understand why the state would do that, but why would the state have back in the day designated, you know, Sahara between Rainbow and Decatur to be a State Route? It just seems like there's—I'm sure there's a good explanation for that, but can't imagine one right now.

Malfabon: I believe it was associated with the Fuel Tax Revenue, in order to improve some of those roads, back in the 80s, there was an agreement the state would take responsibility for some of those roads between the curve lines and that way the pavement could be improved systematically as they were due for repaving. So, it had to do with revenue available, that was more available to the state at that time and it was thought that we needed to address the needs on these local roads. I can't—you know, I wasn't around back then, but it was back in the early 80s, they had an agreement for all these local roads, became state routes. I think it had to do with condition and need and available revenues.

Hutchison: Just curious, thank you. Thank you, Bob.

Madewell: I can actually add one thing to assist Director Malfabon and that was that, during that time, there was a need to change those over to Federal Aid Highways. So, at that time, that was prior to a huge change in the federal aid system. So, the state had opportunities to have federal aid highways [crosstalk]

DRAFT

AMERICAN OVERSIGHT

Hutchison: Okay. So, it really all came down to funding. Okay, thank you. Thank you, Governor.

Sandoval: Thank you, Mr. Lieutenant Governor. Any questions in addition to those that have been asked? Member Martin?

Martin: Now?

Sandoval: Yes, please.

Martin: I'll make a motion to approve the Agenda Item No. 10.

Sandoval: Yes.

Martin: That's in front of the Board.

Sandoval: Member Martin has moved to approve Agenda Item No. 10; is there a second?

Hutchison: Second.

Sandoval: Second by the Lieutenant Governor. Any questions or discussion on the motion? I hear none. All those in favor, please say aye. [ayes around] Oppose, no. Motion passes unanimously.

Malfabon: Thank you, Bob, for your hard effort on this, I know there's a lot more to do but, good job.

Sandoval: All right, we'll move to Agenda Item No. 11, the One Nevada Transportation Plan.

Rosenberg: Good afternoon, Sondra Rosenberg, Assistant Director for Planning. We saved the best for last. This is our new statewide Transportation Plan, the One Nevada Transportation Plan. One vision, one plan, one Nevada. So, we've been working on this for a couple of years. I did do a presentation two months ago to the Board for information. Now, we're coming back for hopefully for approval. I will go quickly because this isn't new information, but there is a lot to cover and I'm very excited about it.

What is the One Nevada Transportation Plan? This is a strategic document that guides future activities at NDOT. This doesn't have a detailed listing of our projects. That can be found in the electronic STIP. It really is to set the framework, set the foundation for how we go about transportation planning in the

DRAFT

AMERICAN OVERSIGHT

state and how we go about selecting our priorities and allocating resources. It will be regularly updated.

This plan was developed, led by NDOT Planning Division. Our Project Manager, Tim Mueller, is in the room with me today. Our consultant project manager, Brian Gant is in the room with you down there today. It was really a community effort, across the Department and with our partner agencies. It really took a village to create this visionary document. We got involvement across NDOT with all the Divisions. We also had a steering and technical committee made up of lots of those partner agencies at the local, state, regional level, federal level as well. We also garnered input from the traveling public and community and advocacy partners and supported that with technical analysis, performance data and other existing planning efforts.

Part of that outreach and I mentioned this last time as well, we did kind of do a roadshow, a tour around the state meeting with community members from various different communities as well as had focus group meetings, surveys, online survey, mobile outreach. We did a number of different venues to try and get input on this planning document. With again, the goal to have one vision for transportation for the state.

That vision is a safe and connected multimodal transportation system that links Nevadans and supports the state's economic vitality. That is supported by six goal areas; enhance safety, preserve infrastructure, optimize mobility, transform economies, foster sustainability and connect communities. Those goals were developed not only through that input from Department partners and the public, but also to align with USDOT FAST Act National goals, as well as NDOT strategic goals and so there, you can see that, that's a figure from the document. In addition, in the document itself, it also shows alignment with the State of Nevada's strategic planning framework as well as the regional planning goals. So, our metropolitan planning organization partners, we really wanted to align those other transportation agency goals with the statewide ones.

What's in the plan? So, this is just the table of contents. That includes the vision. Nevada Today, which has the current conditions. Nevada Tomorrow. Future trends we expect. What we've heard from the public. Our proposed performance and prioritization approach. Funding needs and strategies. And then, the implementation actions. I've said this before, I'll continue to say this, this is the foundation. This is really the starting point. So, I'm really excited about that

DRAFT

AMERICAN OVERSIGHT

Nevada Next chapter that outlines the next steps we have to take to really put this in action.

That includes planning for performance. This includes a roadmap for us to connect decision-making through performance and prioritization framework. That includes allocating resources, setting targets, prioritizing projects and measuring progress. Then we start that all over again. This will help NDOT make the right decisions on the right projects, at the right time.

We put this plan out, the draft plan. We presented the Executive Summary to you two months ago and since then, we put it out for public comment. Beginning at the end of September going through the end of October. During that time, we, staff, continued to revise the document more for consistency with other documents, readability and brevity. We wanted to make sure there was no erroneous information in there. We wanted to get to the point and convey that message clearly. Those revisions didn't alter the message or key findings of the document, really just to improve the readability of it.

Then we received comments, public comments from eight public individuals. I say from eight individuals because some of them were multipart comments. For the most part, they really didn't change the document. One of them had very specific requests in terms of understanding some of the figures. The rest of them really had mostly positive feedback. There was one that wanted to sell us a website search tool. We didn't—we're not going to do anything with that one, but really the biggest feedback, really positive feedback on improving the transparency and collaboration in the state. A lot of comments or a lot of emphasis on really the desire for increased multimodal recommendations and emphasis and primarily with high-capacity transit. So, we're going to reach out to those individuals and sort of explain why we currently have a limited role in that space, but what we'd like to do to kind of expand that conversation on what the state DOT's role is on transit and high-capacity modal options. There was a specific comment on some very specific current safety and way finding concerns. We'll reach out on that specific comment and then you know, specific project suggestions. So, we're going to reach out to all those individuals with responses and hope to engage them in future iterations of this and continuing to improve this process.

This is the Performance Implementation Roadmap. In my prior presentation, this was shown as that long and winding road. It will take us a while to get to kind of

AMERICAN OVERSIGHT
NV-DA-20-0615-A-000957

a full integrated performance driven process, however, again this builds a really great foundation and we have a roadmap for the steps we need to take to get there and ongoing increasing collaboration, coordination and transparency.

You can find the plan itself at OneNVPlan.com or contact our Project Manager, Tim Mueller with the NDOT Planning Division. We are working on improving the website. Once we get the plan approved, we're going to continue to work on how we communicate that. So, working on a more interactive website that's going to be a little more user friendly, not just pointing to the documents but really providing easy information on our current performance metrics and goal areas and things like that. So, I'd be happy to take any questions. Thank you.

Sandoval: Thank you. First and foremost, this is an awesome product. The amount of time and effort that must've gone into this is unimaginable. I bet its thousands of hours. So, my compliments for what you've put together there. It's a comprehensive understandable great product that I think will set an example for many, many years. I really want to convey my appreciation to you, Ms. Rosenberg, and your team, for putting this together.

The only question I have and I've been through probably 80% of this. Like I said, it's really good reading. Is there any intersection at all with the STIP?

Rosenberg: Yes. What we're—what this is setting the foundation for is actually another process we've been working on for a couple of years called the PLANA which is actually linked to the ESTIP. It's the Planning and Needs Assessment. So that tool is going to give us a way to collect all of the needs that aren't funded yet and to evaluate first at the planning level to see if it's truly a need and aligns with our goals. Then those that do, pass it on to scoping, that eventually become a project in that electronic STIP and work program.

So, in the interim, while we're working through that process, what we've done is simply provide a link to the ESTIP, on the One Nevada Plan website with the plan, so we say you know, here's the plan, here's the foundation, here's our current list of projects and we'll continue to refine that process and improve that transparency and where those needs go, how they get evaluated and eventually funded and refined.

Sandoval: So, there's no conflict between this and the STIP?

Rosenberg: No, absolutely not.

DRAFT

AMERICAN OVERSIGHT

Sandoval: Okay.

Rosenberg: And in fact, can you put my presentation back up, I have a ton of extra slides just in case. [laughter]

Sandoval: No, I trust you. I trust you, it's okay.

Rosenberg: And bear with me—

[crosstalk, laughter]

Hutchison: She's got a slide for this.

Rosenberg: And, I'm sure that Mark put together the initial draft of this presentation is doing a little, I told you so, because he had this in there and I took it out. On the right there is—and this is in the plan. So, this is part of that roadmap, in terms of where we're going and what process we're trying to build. The idea is that projects and ideas really need suggestions, concerns come into this, the plan, to form the planning and needs assessment. That gets screened at the long-range level, the planning level, really to see if it's aligned with the goals of this process. Then, if they are and as we refine those suggestions into real needs and as they become closer to becoming a real project, then they get considered for allocation of resources. Then eventually, to that mid-range level, that's where we start kind of refining the scope, defining the project a little bit more, ensuring that the researchers are available so that by the time projects get into the STIP, we're pretty confident on what it is, how much it's going to cost and when we can get it done.

So again, we're not there yet, but this is our vision in mind. We have kind of that long range list, our long range element in the work program, which is attached to the electronic STIP. Then we have that four-year constrained list of projects. So, we have kind of the starting and end points, and what we're working on is that process to further refine, to have better transparency in terms of where those long range projects fit in terms of our priorities and likelihood of getting funding. So, we're working on kind of those middle pieces, but we have that long range list and the short range constrained list. It's all part of this process. This document, this process is to help us have a more—have more confidence in that STIP document at the end of the day.

Sandoval: Thank you. Other questions or comments? Mr. Lieutenant Governor.

DRAFT

AMERICAN OVERSIGHT

Hutchison: Thank you, Governor. Again, I echo the Governor's sentiments and observations and conclusions about what's been done here with the plan. I really just kind of have a comment and maybe a question for follow-up. This is, this really is good work and lots of lots of time spent on this. I just think it'd be prudent for the Department to think about how this is going to be presented to the next Administration and to the Legislature. This is really a key working document for what's been happening over the last year or even longer, when this has been put together. I wonder if there's been thought given to how this will be presented to the next Administration and to the upcoming Legislature.

Rosenberg: I am going to give that back to Director Malfabon actually, we have— Let me take a stab at it first actually. We did purposely want to get this kind of wrapped up and documented under this current Administration because we know this Governor, this Board has been very supportive of this type of a process. So, we wanted to get kind of support, kind of wrapped up and then use this as an education piece for the incoming Administration, as well as the Legislature, in terms of the details of how we're going to do that, I don't know that we know that yet. That was the intent, so we have something in place to kind of say, here's how we do things at the Department.

Hutchison: Yeah. If I could just interject, what you don't want to have happen is just have the next Administration come in and this just gets shelved somewhere and they're going to start all over again, or they want to start from scratch when you've got such a great product already. So, you may want to just give that some thought in terms of how that's going to be presented and offered, not only to this next Administration, but the Legislature as well. Rudy, do you have any thoughts on that?

Malfabon: I think that it's a good process. As Sondra had mentioned, it's going to be implemented over a few years. The idea was to take a lot of what we hear at our workshops and our annual presentations to counties, what they're telling us, what their needs are. As you saw during public comment, there was some needs expressed in Fernley today. The idea is gather those up, but also go through a rigorous process so that we look at the available revenues and the needs around the state and look at all the things that are supported. Safety, economic development, mobility.

Ultimately, it's the responsibility of the Transportation Board in approving the Statewide Transportation Improvement Program to give the guidance to the

DRAFT

AMERICAN OVERSIGHT

Department and the oversight and governance. So, it's part of the process to get that influence from the public, as well as decision-makers across the State and ultimately from the Board.

Hutchison: I just think it's impressive, some of these slides here, that maybe ought to be emphasized. This was not just something that was cooked up by NDOT or by this Board and this was a lot of engagement across the State.

Malfabon: Yes.

Hutchison: When you look at some of these slides here, in terms of more than 2,000 Nevadans were engaged in the process. You talk about all your mobile workshops and advisory partners and the input you received. I think it's really important that the incoming Administration understands, this is really a statewide effort and lots and lots of participants that really result in this fine work product that we have before us. So, my compliments and thanks again for your work.

Sandoval: Mr. Controller.

Knecht: Thank you. I have just one question. I saw the reference early on in this document to transit, light rail, etc., and I heard your discussion. The thought that occurred to me throughout is I looked for some more detail on that matter and didn't find it, was that with mobility on demand as a service, with autonomous vehicles, etc., isn't it likely that we're going to gut to a great extent the demand that's necessary for transit and light rail projects? What they need is high occupancy and high frequency and it seems to me that they're not going to have that in the future as people have more alternatives.

Rosenberg: Thank you, that's a great comment. These are the types of things that keep me up at night, as a transportation planner. With the emerging technology, like you said, mobility on demand, mobility as a service, when I was in grad school we had a class on discrete choice models. So, when we do our travel demand model, there used to be a step in there where you assigned discrete choices to the travelers, right. Are they going to drive alone? Are they going to carpool? Are they going to take the bus? Are they going to walk, bike? Those choices are no longer discrete, right? So, it might be some combination or those or you're getting an autonomous rideshare system. I know there's a lot of work nationally on how to do those travel demand models, but the reality is, we need to look at all of the above type solutions.

DRAFT

AMERICAN OVERSIGHT
NV-DA-20-0615-A-000961

So, in the past, we were the Highway Department and the urban areas, the MPOs, were the transit providers in the urban areas. We do get some funds for the Rural Transit Program, but that's kind of a—a very small piece of what's really needed. So, what we're hoping to do, what we're hoping this sets the foundation for is a broader conversation about what the transportation needs are for Nevadans. Then start looking at how do we meet those needs.

Right now, we're very limited because of our funding structure on supporting things other than highway type departments. That was actually one of the comments we got. It was a lot of, how come you're not doing this or that and at the end, it said, well I understand that you're supporting the car culture because that's where your funding comes from and that's really part of the issue here, but we want to broaden that conversation in planning to say, there are needs, there are transportation needs out there. What are those needs? What is our role in supporting those needs and how do we get there?

That was a long-winded answer that didn't really answer your question other than to say that, we're definitely thinking about it and part of this—I'm glad we're getting some kudos, some attention in terms of the collaboration of this document, because the intent is that this is a document for Nevada, by Nevadans. To kind of break down those silos, not only of expertise, but agency silos. So, it shouldn't—it doesn't matter to the traveling public where the county lines start and end, where the state lines start and end, who is running the transit. We have a role to support transportation in the state and so we want to start talking with the rural communities that are trying to connect to the urban communities for transit providers, right? So, you know, can we map out what's currently out there, what the needs are and help those collaborations, help those conversations, even if we're not funding the ultimate solution.

So, I'm kind of rambling on now, but it is something we're thinking about. We're breaking down those silos. We're having those conversations and we're hoping that we can have a more—more collaborative, more integrated approach in the future.

Knecht: Actually, your answer helped me more than you may know. When I was in transportation civil engineering graduate school, shortly after the fall of Rome, back when y'all were the Highway Department, the transportation demand models, A) assumed that we were talking about cars and roads, and B) they were basically focused on large employment destinations, factories and such. So yeah,

DRAFT

AMERICAN OVERSIGHT

things have changed and we do need to take a broader approach and I'm glad to see you're doing that. Thank you. Thank you, Governor.

Rosenberg: Thank you.

Sandoval: Thank you. Any other questions or comments on this agenda item, Member Savage.

Savage: Thank you, Governor. I'll make this brief. Sondra, this is the best for the last, so I don't want this to go by without saying, thank you, to you Sondra, to Tim and everyone else at NDOT within your Department. Sondra, your passion and engagement and leadership is sincerely appreciated. I want to just, for the record, out of the 70 plus pages within this packet, which are very informative, I would like to draw everyone's attention to Page 2. I'd like to read this for the record.

Due to the next Administration carrying this on, at the bottom, in Paragraph 1.1 – this plan responds to a call to action to action by Governor Sandoval, documented in the 2016-2020 Nevada Strategic Planning Framework, entitled "Generations to Come". In this first edition document, Governor Sandoval addresses Nevadans saying that "we must continue to push to build that stronger Nevada and make it a place where the generations to come will call home." Through this document, he chartered a course towards what he calls the New Nevada. A place of innovation, new and sometimes disruptive technologies and policies that amplify Nevadans' innate desire to succeed. Each agency of the government must play a role in ensuring this journey is a success. NDOT is tasked with advancing this infrastructure needs as reflected in this One Nevada Transportation Plan.

Almost emotional, but I thank you Sondra, I thank you Governor for your foresight, your leadership. Lieutenant Governor, Controller, Sondra, Tim and everyone else, and Rudy as well. Thank you so much. This is blueprint and it will continue forward. Thank you.

Sandoval: Thank you, Member Savage. Member Almberg.

Almberg: I would just like to reiterate everything that's been said here. You guys did a tremendous job with this document. It lays out the exact framework of how we want to accomplish our goals and what our goals actually are. In here, I think this document is invaluable to the public and not even to the public, but it's invaluable to me as a Board Member. I mean, there's so much information contained in a precise, concise manner to help myself, even understand some of these projects

DRAFT

AMERICAN OVERSIGHT

and how it works. So, I just want to reiterate what a great job this is. I read this thing from front to back and there's just so much information contained in here and expressed in such an eloquent manner; you guys did a great job. Thank you.

Sandoval: Thank you. Anyone else? So, you ready Sondra for a motion?

Rosenberg: I am so ready.

Sandoval: I thought so. [laughter] So, without further ado, the Chair will probably accept a motion to approve the One Nevada Plan as presented in Agenda Item No. 11.

Hutchison: Move to approve.

Sandoval: Lieutenant Governor has moved for approval. Member Valentine, you want to make a second?

Valentine: I would, I second.

Sandoval: Member Valentine has seconded the motion. Any questions or discussion on the motion? There are none. All those in favor, please say aye. [ayes around] Those opposed say no. That motion passes unanimously. Congratulations.

Rosenberg: Thank you very much.

Sandoval: Agenda Item 12, Old Business. Director Malfabon.

Malfabon: Good work on the One Nevada Plan, Sondra, to you and your staff. Moving on to Item 12, Old Business. We have the report of Outside Counsel Costs on Open Matters and the Monthly Litigation Report. And, our Chief Counsel, Dennis Gallagher is able to answer any questions for the Board.

Sandoval: Mr. Lieutenant Governor.

Hutchison: Yeah, thank you very much Governor. Dennis, just one question on—I think I—you've given repeated updates on the open outside counsel matters. We got an update from you on Nassiri earlier, so I appreciate that. I've made this observation from time to time, but I think when I started on this Board, this was two pages long, maybe two and a half pages long, of outside counsel contracts. It looks like after this Nassiri case is probably going to come to a, it sounds like, positive resolution and probably a settlement, that we're down to just really one. Outstanding job and outstanding work and on behalf of me as a Board Member

DRAFT

AMERICAN OVERSIGHT

and a lawyer knows how tough this is to get some of these things done, to handle litigation like you have, a real tribute to your professionalism, Dennis. So, thank you.

I've got one question for you and there's a new case now, it appears to be a condemnation action, eminent domain, Tropicana and Dean Martin. Just quick update on that, since that's a new one. Do you remember it?

Gallagher: For the record, Dennis Gallagher. Actually, I'd like to recognize some of the deputies assigned to the Las Vegas Office.

Hutchison: Oh, great.

Gallagher: Including the Deputy that's responsible for this case, the Canyon Apartments. It's just—it's a minor case involving, we need some property to make some improvements along Tropicana.

Hutchison: And that's it.

Gallagher: That's it.

Hutchison: So, it's not some big project, it's just like a what, a widening, or just an improvement?

Gallagher: Some ADA improvements.

Hutchison: ADA improvements necessary, okay. So, you're not too worried about that one.

Gallagher: I'm certainly not. I think the case is in very, very capable hands.

Hutchison: I'm sure we'll win on summary judgment. [laughter] Thank you.

Malfabon: And we do have the interchange project at Tropicana that we're working on, the environmental clearance too.

Hutchison: Right, right. Okay. Yeah, we talked about that before. Okay, Governor, thank you so much.

Sandoval: Thank you.

Malfabon: Moving on to Attachment C, we have the latest report on fatalities from the Office of Traffic Safety. As you can see, a lot of red in that report. So, we still have our challenges, particularly with pedestrian safety. I did want to mention that I was

DRAFT

AMERICAN OVERSIGHT

able to attend, along with many of our NDOT staff, the annual safety summit recently held here in Las Vegas. Director Wright from the Department of Public Safety received an award and several other folks from around the community received awards for their efforts in promoting safety. Whether it was in the area of emergency medical response or the first responders from the Department of Public Safety, Metro, all the law enforcement agencies, educators that worked tirelessly to get the message out on how to improve safety amongst our children, drivers.

Governor, you brought up the point about teen drivers in the past and the graduated driver's license laws in Nevada. There's definitely a big cohort of folks, not just at NDOT, but around the state that are working on the issue of traffic safety and hopfully driving these fatalities down in the future. Any questions on this item?

Sandoval: Any questions, Board Members? Thank you. All right, thank you Rudy. Are there any other questions or comments with regard to Agenda Item No. 12? Let's move to Agenda Item 13, Public Comment. Is there any member of the public present in Las Vegas that would like to provide public comment to the Board? I hear and see no one. Is there anyone present in Carson City that would like to provide public comment to the Board?

Stevens: Hello, my name is Cindy Stevens for the record and I am a lifelong Nevadan. First of all, I would like to say thank you, Governor Sandoval, for your service to our state.

Sandoval: Thank you.

Stevens: I just wanted to get a little clarification on the information that I heard today. Is this Board considering spending over $1.6 million on monuments and does a generator really cost $392,000? The other thing I'd like to ask is, sorry I'm nervous, does the Department of Transportation currently actively seek multiple bids and is there a process in place to seek multiple bids? If not, maybe there should be. I think that would benefit the citizens of this state, thank you.

Sandoval: Thank you, Ms. Stevens. If there's somebody available in Carson City that could assist her with her questions, that would be appreciated. Perhaps, Mr. Hoffman?

Hoffman: Yes sir, will do. Thank you, Governor.

DRAFT

AMERICAN OVERSIGHT

Sandoval: Thank you. We'll move to Agenda Item—or, is there any other public comment from Carson City? I hear and see none. Is there a motion for adjournment?

Savage: So moved.

Sandoval: Member Savage has moved to adjourn. Is there a second?

Almberg: Second.

Sandoval: Member Almberg seconded the motion. All in favor say aye. [ayes around] Those opposed say no. That motion passes unanimously. This meeting is adjourned, thank you ladies and gentlemen.

Subject: Follow Up: White House Conference Call Regarding Proposed Regulations on Opportunity Zones
Attachments: Opportunity Zone Initial Reg Release Q&A.pdf; Designated QOZs.6.14.18.xlsx

Good afternoon,

Thank you for joining the White House and Department of Treasury on the conference call today regarding proposed opportunity zone regulations. We are encouraged by the enthusiasm for this important effort designed to spur investment in distressed communities throughout the country. As we mentioned, Treasury certified 8,761 communities in all 50 states, including Washington, D.C. and five U.S. Territories. Almost 35 million Americans live in these communities which present both the need for investment and significant investment opportunities.

Secretary Mnuchin stated it best, "We want all Americans to experience the dynamic opportunities being generated by President Trump's economic policies. We anticipate that $100 billion in private capital will be dedicated towards creating jobs and economic development in Opportunity Zones. This incentive will foster economic revitalization and promote sustainable economic growth, which was a major goal of the Tax Cuts and Jobs Act."

As promised we are following up with additional information. This information serves as reference material for understanding the regulations and can be shared with your colleagues.

1) To access the U.S. Department of the Treasury's press release and Opportunity Zone notice of proposed rulemaking, please click here.
2) Another excellent resource is the U.S. Department of the Treasury's Community Development Institutions Fund (CDFI). This houses all information on Opportunity zones, including a map and list of the over 8,000 zones found in the U.S. For this resource, please click here.
3) Finally, we have attached the talking points on Opportunity Zones and the notice of proposed rulemaking, as well as an excel sheet which lists all the designated zones by census tract, county, and state.

Once again, thank you for taking the time to join us. We look forward to working with you.

Sincerely,

Jennifer Korn and Joy Ruiz
Office of Public Liaison
The White House

OPPORTUNITY ZONES – WHAT YOU NEED TO KNOW

Opportunity Zones –Topline Messages

1. *A Powerful Vehicle for Economic Growth and Job Creation*
2. *More Americans Will Share in Economic Success Than Ever Before*
3. *Unlock Capital to Reinvest in our Communities*
4. *Jumpstart American Communities*
5. *Revitalize our Hurting Cities*
6. *Create Momentum for Economic Recovery*
7. *Attract Investment to Diverse Areas Across Our Nation*
8. *Restore the American Dream*

What are Opportunity Zones?

The Opportunity Zones incentive, created by the 2017 Tax Cuts and Jobs Act, was designed to spur economic development and job creation by encouraging long-term investments in low-income communities nationwide.

- Opportunity Zones are located in **economically distressed communities** designated by the chief executives of every U.S. state and territory. State and local officials continue to be actively engaged in the process as Opportunity Zones take shape.
- The incentive offers **capital gains tax relief** to investors for new investment in designated Opportunity Zones.
- **8,761 communities** in **all 50 states**, D.C. and five U.S. territories have been designated as Opportunity Zones.
- Nearly **35 million Americans** live in communities designated as Opportunity Zones.
- These communities present both the **need for investment** and **significant investment opportunities**:
    - Average **poverty rates of 32 percent** compared with a U.S. average rate of 17 percent.
    - **Unemployment** rates **1.6 times higher** than the average U.S. census tract.
    - Median **family income** on average **37 percent below** the state median.

Why Invest in Opportunity Zones?

Investors who invest the amount of prior capital gains in low-income communities benefit in two ways:

- Tax on gains is **deferred as late as 2026.**
    - If the investor holds that investment for **5 to 7 years**, **10 percent** of the deferred tax on the prior gain is forgiven.
    - Tax forgiveness on the prior gain increases to **15 percent** for fund investments held for at least **7 years.**

AMERICAN OVERSIGHT

- If the investor holds the investment for at least **10 years the investor avoids tax on any gains on the investment.**

Opportunity Zones retain their designation for **10 years** but investors can **hold their investments** in Qualified Opportunity Funds **through 2047 without losing tax benefits**.

Opportunity Zones Will Drive Economic Growth

Opportunity Zones are an uplifting, transformational vehicle through which businesses and investors can use their planned capital expenditures as a force for positive change, bringing economic growth and opportunities to distressed areas.

- Opportunity Zones represent more than a simple tax break – they are **a powerful vehicle** for bringing economic growth to the American communities that need it most.
- Opportunity Zones can help **create momentum** in communities that need a boost in their economic **recovery efforts**.
    - For example, the entire island of **Puerto Rico** is designated as an Opportunity Zone to encourage private investment for rebuilding and redevelopment efforts.

Opportunity Zones Will Revitalize Our Communities

Opportunity Zones will unlock capital that will revitalize our hurting cities and unleash their economic potential.

- Incentivizing private investment into these low-income communities will foster **economic revitalization**, job creation and promote **sustainable economic growth** across the nation.
- The resulting benefits of Opportunity Zones will be **jobs and economic growth** that will move these communities forward and **create a brighter future.**
- Secretary Mnuchin anticipates **$100 billion** in private capital will be invested in Opportunity Zones.

Opportunity Zones Will Create Opportunity For All

We want Americans across the country to experience the economic boom that tax reform and President Trump's economic policies have inspired.

- By providing businesses and investors with the opportunity to bring jobs and development into distressed neighborhoods, **more Americans will share in our economic success than ever before.**
- Opportunity Zones are an important stepping stone to **wealth creation in low-income communities** where people feel they have been left behind.

What Do the Regulations Say?

- The proposed regulations provide investors and fund sponsors the information they need to confidently enter into new business arrangements in designated Opportunity Zones. They provide clarity regarding which gains qualify for deferral, the eligibility of certain taxpayers and investments, Opportunity Fund parameters, and other guidance.
- Specifically, the proposed regulations make clear that almost all capital gains qualify for deferral and provide rules allowing either a partnership or its partners to elect deferral. Similar rules apply to other

AMERICAN OVERSIGHT

pass-through entities, such as S corporations and their shareholders, as well as estates and trusts and their beneficiaries.

- To qualify for deferral, the amount of a capital gain must be invested in a qualified opportunity fund (QOF), which must be an entity treated as a partnership or corporation for Federal tax purposes and organized in any of the 50 states, D.C. or five U.S. territories for the purpose of investing in qualified opportunity zone property.

- The QOF must hold at least 90 percent of its assets in qualified opportunity zone property. Investors who hold their QOF investment for at least 10 years may qualify to increase their basis to the fair market value of the investment on the date it is sold.

- The proposed regulations also provide that if at least 70 percent of the tangible business property owned or leased by a trade or business is qualified opportunity zone business property, the requirement that "substantially all" of such tangible business property is qualified opportunity zone business property can be satisfied if other requirements are met. If the tangible property is a building, the proposed regulations provide that "substantial improvement" is measured based only on the basis of the building (not of the land).

- In addition to the proposed regulations, Treasury issued additional guidance to aid taxpayers participating in the qualified opportunity zone program. This additional guidance addresses the "original use" requirement for land purchased after 2017 in qualified Opportunity Zones.
