CARSON CITY, Nev. — The annual Stewart Father's Day Powwow was held at the Stewart Indian School on Father's Day weekend.

The Native American Culture event included competition dancing and food, in which participants experienced American Indian heritage, history and pride.

Families and friends gathered to enjoy Indian tacos as well as arts and crafts from vendors.

Nevada Governor Brian Sandoval was an an attendee of the event.

The Stewart Father's Day Powwow benefits the establishment of the Stewart Indian Cultural Center. It was named the 2015 Event of the Year by the Carson City Chamber of Commerce.

AMERICAN OVERSIGHT

Opportunity Zones certified in Nevada
Nevada Appeal
https://www.nevadaappeal.com/news/business/opportunity-zones-certified-in-nevada/

Gov. Brian Sandoval says the U.S. Treasury has certified Nevada's Opportunity Zones.

He said the designation will encourage private investment in parts of Nevada in the most need and "kick start" construction of affordable housing projects.

"From Southern Nevada to Northern Nevada and areas in between, the certification of Nevada's designated Opportunity Zones will benefit communities big and small," he said.

Opportunity Zones are intended to generate investment in low-income communities by providing tax breaks to private investors.

Nevada voters can take the lead on renewable energy development
Las Vegas Sun editorial
https://lasvegassun.com/news/2018/jun/17/nevada-voters-can-take-the-lead-on-renewable-energ/

In 1997, Nevada became one of the first states in the U.S. to adopt a minimum requirement for green energy production.

Today, however, other states have zoomed past us in setting such standards. In fact, Nevada's requirement for 25 percent of our energy to come from renewable sources no longer ranks us in the top 10. We're trailing New Jersey, of all places. New Jersey!

So it's commendable that a group known as Nevadans for Clean Future Energy has been working on an initiative to boost Nevada's minimum to 50 percent by 2030.

The group is circulating a petition that would put the initiative on a statewide ballot. Tuesday is the last day the group can collect signatures.

Organizers say they're confident the petition drive will be successful, which is good to hear. The initiative deserves a spot on the ballot.

Nevadans have shown time and again they support development of renewable energy, so it's worthwhile to debate whether to bump up the requirement to 50 percent. It's also worth exploring considering the popularity of a similar bill in the 2017 Nevada Legislature, which would have raised the minimum to 40 percent.

Gov. Brian Sandoval vetoed that measure, saying its passage was "premature in the face of evolving energy policy in Nevada." Sandoval said the requirement — technically known as a Renewable Portfolio Standard — could create complications given the likely passage of the Nevada Energy Choice Initiative ballot issue, which would allow Nevadans to choose their energy provider in the same way they select a cable/internet provider. Specifically, Sandoval was concerned that the increased RPS would create added costs that would deter providers from entering the market or be passed along to customers in the form of higher electricity rates.

Sandoval also said the change could result in higher fees for resorts and large corporations to exit the NV Energy grid and obtain their power from third parties.

AMERICAN OVERSIGHT

Those points will no doubt be discussed if the RPS initiative gets on the ballot, but there's one thing that's not up for debate: Setting a higher requirement is the only guarantee for Nevadans that renewable energy production will expand here.

And that's important, because there are clear benefits from growing the state's green energy industry.

Our abundance of sunlight and our above-average potential in geothermal production makes us one of the nation's best-suited places to develop renewables, yet only about 18 percent of our energy is generated by those sources. Meanwhile, we're spending roughly $700 million a year to import natural gas and other fossil fuels to power the state's grid.

Boosting production from renewable sources would not only reduce those costs, but would help free the state from volatility in the fossil fuel market.

It would also generate economic activity, of which the current 25 percent standard has already yielded $7 billion in solar and geothermal operations.

Other benefits would come from reducing carbon emissions, which would help improve air quality and reduce respiratory problems triggered by air pollution. Nevada produced 35 million metric tons of carbon dioxide in 2015, which would be reduced by 3 million tons a year under the initiative.

Whether this is the right time to increase the standard, and whether this is the right level for Nevada, are questions that should be debated.

Getting the question on the ballot is a starting point, though, which is why the petition deserves support.

More Nevada kids have health insurance, but state 9th worst
Jessie Bekker
Las Vegas Review Journal
https://www.reviewjournal.com/life/health/more-nevada-kids-have-health-insurance-but-state-9th-worst/

The number of children in Nevada without health insurance was cut by more than half between 2011 and 2016, but the state's rate of uninsured kids remains the ninth-highest in the U.S., according to a new report.

The gains in insurance coverage occurred after passage of the Affordable Care Act in 2010 and Nevada's subsequent expansion of the federal Medicaid program, said Elizabeth Lukanen, deputy director of the State Health Access Data Assistance Center. The policy research center based at the University of Minnesota released the report Friday.

Denise Tanata, executive director for the Children's Advocacy Alliance, a nonprofit in Nevada, said the state's current rate of uninsured children of 6.3 percent is a big improvement from the beginning of the decade.

"We're absolutely still behind, and we've got a ways to go to catch up, but we're definitely moving in the right direction to do that," Tanata said. "The fact we're not last anymore is good."

The report analyzed U.S. Census Bureau survey data in all 50 states and Washington, D.C., tracking changes in public and private coverage and in the uninsured rate by race and ethnicity and household members' income and educational status.

From worst, to ninth

Lukanen said the drop in the state's uninsured rate quickened after 2013.

That may have been the result of the ACA's individual mandate requiring uninsured Americans to acquire health insurance or pay a penalty, which took effect the next year, Tanata said. Parents typically buy their children insurance when acquiring it for themselves, she said.

The Medicaid expansion, which doubled the number of Nevadans insured under the program to 600,000, also took effect the next year, lowering the uninsured rate for children and adults alike.

"Definitely, Nevada was sort of a standout state in terms of reductions in uninsurance," Lukanen said.

The 8.1 percentage point decline in the state's uninsured rate among children between 2013 and 2016 was the largest percentage point drop in the nation, she noted.

Even so, Nevada remains among the worst states in terms of its uninsured rate among children. That's because it started as worst in the nation in 2013, when 14.4 percent of children in the state lacked health insurance, ahead of No. 2 Texas, which had a rate of 13.2 percent.

"It's kind of an uphill battle," Lukanen said.

Disparities persist

Despite significant improvements across the board, disparities in insurance rates persist in the Silver State. About 10 percent of Hispanic children and children from households where family members achieved a high school education or less still lack health insurance, the report said.

One reason may be that parents whose children are eligible aren't signing them up.

For example, undocumented parents often fear sharing their personal information with the government could lead to deportation or cancellation of a residency application, Tanata said, meaning they are reluctant to apply for their citizen children.

That's despite the 2017 passage of state Senate Bill 325, which eliminated the five-year wait period to become eligible for Medicaid and Children's Health Insurance Plan previously required for children who were granted legal residence.

Lukanen and Tanata fear that questions about the future of the Affordable Care Act and the demise of its individual mandate provision, as well as anti-immigrant rhetoric from some Republican lawmakers, could reverse the progress made in Nevada and across the nation.

"I think every time you infuse uncertainty and question into a policy area, people get confused and, most likely, lose out," she said.

New Clark County schools superintendent faces trust-building challenge
Meghin Delaney
Las Vegas Review Journal
https://www.reviewjournal.com/news/education/new-clark-county-schools-superintendent-faces-trust-building-challenge/

ORLANDO, Fla. — Establishing trust.

That, in two words, is the biggest challenge facing Jesus Jara when he arrives this week to become the Clark County School District superintendent.

There are obvious similarities between Las Vegas and Orlando, but the climates of the two tourist meccas' school systems are not among them.

In Orlando, where Jara, 48, just concluded a six-year run as deputy superintendent, district officials, the school board and parents all seem to pull in the same direction to move the academic needle upward.

That's hardly the case in Clark County, where trust among district officials, legislators, parents and trustees often seems nonexistent and divisions threaten to undermine modest progress in academic achievement.

Jara — who doesn't mind whether you pronounce his last name with a J or an H — is aware of the challenge awaiting him when he clocks in Tuesday.

During a recent visit with the Las Vegas Review-Journal in his last weeks on the job in Florida, he said earning the trust of the entire community is critical to propelling the district forward.

But he also said he views what others see as mistrust a little differently, calling it a "passion" for students and education.

"The passion I can work with," he said. "What we need to do is just channel it together to … work as one and collaborate together so we can then have a real clear focus on being the No. 1 district for kids."

Operating transparently and having open dialogues are two ways Jara thinks Clark County can begin to build a culture around education that resembles Orlando's.

Rebecca Garcia, a 39-year-old with three children attending Clark County schools, said it's going to take a lot of showing up for Jara to restore her trust. But she acknowledges being impressed by his skills, experience and temperament in his interview with trustees.

"I think CCSD is at a juncture where we need a fresh perspective who is willing to leave the status quo, who isn't part of the status quo and who can set a new direction for the district," Garcia said.

Jara says Clark County parents can get a good sense of the approach he will bring by looking at changes that have occurred in Orange County, Florida, in recent years, including voters entrusting the school district with more tax money through ballot initiatives.

AMERICAN OVERSIGHT

Overall, Jara said, Orange County schools have found a good balance between school autonomy and central oversight.

He wants to implement a similar structure in the Clark County district, which is still wrestling with the Legislature-mandated reorganization.

Budget flexibility

To demonstrate the flexibility of the Orange County system and illustrate how it can adjust to different challenges, Jara took a reporter on a tour of five schools.

At Colonial High School, he discussed principal autonomy, using the school's third-year principal, Jose Martinez, as an example.

The school, which serves up to 3,600 students, is similar to many Clark County high schools. It is 87 percent nonwhite. It's a Title I school, and 71 percent of students qualify for free or reduced lunch under federal standards, an indicator of poverty.

It's earns a consistent "C" on Florida's five-tier rating scale.
But unlike most Clark County schools, every student has their own tablet.

Also, the principal has near-complete control over the budget, as long as the school meets the district's criteria for academic achievement. That's similar to what's being done in Clark County, though at this point Orange County principals appear to have more spending flexibility. That required additional budgeting training for principals, Jara said.

At Colonial, for example, Martinez responded to parent and student feedback by cutting a couple coaching positions and using that money to cover fees for band and orchestra programs. There's money available for dry-cleaning uniforms, for example.

A better example came from Colonial's enrollment of roughly 200 Puerto Rican students who fled to Florida after Hurricanes Irma and Maria decimated their homeland.

"We knew right away we needed a system in place," Jara recalled, sipping from a cup of Dunkin Donuts coffee as he described how Martinez and his team jumped into action to prepare for the influx.

The solution included getting the school's Latinos in Action club involved.

A spinoff of student government clubs, Latinos in Action operates in a handful of Orange County schools and focuses heavily on mentorship.

Because the system was already in place, Martinez said, it was easier to absorb the newcomers with only minimal disruption to other students.

School turnaround

While the district lets schools like Colonial make such calls, schools that aren't cutting it academically have less autonomy.

AMERICAN OVERSIGHT

Washington Shores Elementary School was a dilapidated facility nestled into an old, historically impoverished neighborhood.

Four years ago, the school received an “F” rating and a promise of support from the district. That included a spot in the school transformation office that Jara helped create and replacement of the old building.

Nate Stephens, the principal brought in to lead the transformation, grew up in the neighborhood and serves as the ultimate role model for the children.

“This is the exit from the neighborhood. This is personal for me,” he said.

Part of the transformation involved training teachers on how to talk to students using higher-level vocabulary to set an example, Stephens said. If you hold high expectations, he said, the students can and will meet them.

In the latest state ratings, the school climbed to a “C.”

During the tour of the school, students impressed Jara with their vocabularies. He sat with a kindergarten student who used the word “bacteria” in an essay on ice cream. A third-grade student talked about how physical activity teaches “collaboration.”

“It’s the same kids, the same community, learning at a higher level,” Jara said.

The transformation office is similar to Clark County’s turnaround initiatives but more advanced in some ways. For instance, it has a system to ease schools back to the mainstream once they reach an achievement standard. Over two to three years, the school is weaned off transformation office support, and budgetary control is returned to the principal.

That prevents what some Clark County schools with high-needs students are seeing now when certain state funding measures, like the Zoom and Victory programs, provide extra support only to vanish once student achievement improves.

That’s one reason Jara likes systems that focus on and reprioritize existing funds rather than relying on new money.

‘Master’ principals

Next on Jara’s list is Millennia Elementary School, which shares Principal Anne Lynaugh with nearby Millennia Gardens Elementary School, similar to Clark County’s “franchise principal” program.

The idea of both programs is to leverage experience and talent, but Jara said he worries about burnout. Both districts also have training programs aimed at nurturing up-and-coming administrative talent.

In Lynaugh’s schools, Jara shows a knack for connecting with students, easily slipping into and out of his native Spanish. Jara moved to Miami from Venezuela when he was 10.

“My parents had a vision of the American Dream, and I’m living it,” Jara said over a chicken sandwich and Diet Coke, one of three cans consumed during the daylong visit.

AMERICAN OVERSIGHT

Like their Clark County counterparts, Orange County students speak a multitude of languages, which can sometimes pose a problem, said Lynaugh. But with technology in every classroom and the rise of programs like Google Translate, students who aren't yet fluent in English are able to work independently.

Hands-on learning

Next up is Orange Technical College.

Don't let the name deceive you. Students do not earn bachelor's or associate degrees but can pursue a wide range of career certifications.

Funded by the state and run by districts, Florida's technical colleges are similar to vocational schools. They are open to adults and high school students. Adults pay tuition and any required fees, while students generally pay only for supplies or instructional materials.

Five campuses in Orange County offer more than 40 programs, including cosmetology, mechanics, animation and welding. Students spend half their days at their zoned high school and half in their career or technical program.

Jara's son, Alex — second-oldest of his three kids — is an alumnus, collecting a welding certificate two days before his high school graduation.

"This is hands-on learning," the elder Jara said.

The schools defy the notion that vocational schools are somehow lesser. Through partnerships with high-profile companies and up-to-date programs, including modeling simulation design and production, it's remarkable what they can accomplish, Jara said.

For example, combining a standard program like brick masonry with virtual reality technology keeps costs down by letting students practice in a simulation before actually laying bricks.

Closing achievement gaps

The last stop is Hunter's Creek Middle School, which is consistently rated at the highest level by the state. Principal Amy McHale is about to get even more autonomy and flexibility as she tries to narrow the achievement gap between the school's highest- and lowest-performing students.

But again, the district has a system for her to work within. She's allowed to try innovative approaches, mostly involving technology, but must narrow the gap — a goal the Clark County schools also have been pursuing under outgoing Superintendent Pat Skorkowsky — within three years.

Her plans include moving students to two days of block scheduling next year to devote more time to math and "really focus on the gaps," she said.

On to Clark County

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003642

Although Jara will be across the country by then, he promised to keep a close eye on Orlando and maintain a close relationship with Orange County Superintendent Barbara Jenkins, whom he called the greatest school superintendent in the country.

That comment came at his last School Board meeting in late May, where he was showered with praise from trustees. He also had the chance to lay out some of his hopes for Clark County.

“I hope to become sister school districts to replicate the work of the talented administrators and phenomenal teachers in Orange County,” he said.

Time will tell if culture change can also be exported.

Federal lands law jeopardizes future of Nevada’s Mint 400
Michael Scott Davidson
Las Vegas Review Journal
https://www.reviewjournal.com/news/politics-and-government/clark-county/federal-lands-law-jeopardizes-future-of-nevadas-mint-400/

Since its creation 50 years ago, the Mint 400 off-road race has become local legend.

The 120-mile-long desert loop that runs east of Interstate 15 between Las Vegas and Primm is known for its unforgiving difficulty. About half the trucks and dune buggies that start the race are unable to finish.

The event was immortalized in 1972 in journalist Hunter S. Thompson’s novel “Fear and Loathing in Las Vegas.”

This year’s iteration of the event, held in March, drew an estimated 35,000 attendees from around the world and created $40 million in economic impact for the state, according to Josh Martelli, who co-owns the race with his brother, Matt.

“It is our Indy 500,” Martelli said.

But the race’s future in Southern Nevada is being threatened by federal legislation that would open nearly 39,000 acres of federal land for development, including land south of the Las Vegas Valley. Clark County commissioners are scheduled to vote Tuesday whether to sign a resolution supporting the legislation.

Martelli said the northern half of the Mint 400 course crosses that land. Moving the route would cause the race to lose some of its difficulty and accompanying prestige. And finding a new route would be difficult because of protections for animals such as the desert tortoise.

“This proposal eliminates at least 40 to 50 miles of our racecourse, and we don’t really have a lot of good alternatives,” he said. “We’re essentially being sandwiched between new commercial development and preservation of natural resources.”

Martelli said county staffers have assured him they will support preservation of the racecourse through 2023 and help identify an alternative route. But the race organizer said the next best place to hold the race would be near Phoenix.

AMERICAN OVERSIGHT

“That would be a huge economic loss for Clark County and Las Vegas,” Martelli said.

The land proposal has also drawn the ire of other off-road organizations.

“Not only will it affect competitive events, (but) it will also affect people that go out and ride on the weekend,” said Kenny Thatcher, president of Southern Nevada Off Road Enthusiasts. “There’s probably over 300,000 off-highway vehicles in Clark County.”

Thatcher said those vehicles are owned by people spending money on gas, car parts and auto repairs. They often stop in Primm for lunch when they go riding.

“Primm Valley stands to lose a lot from it,” Thatcher said. “We’re blue-collar people. We have disposable income, and this is how we use it. It’s a big industry.”

At their Tuesday meeting, commissioners also will discuss the formation of a committee focused on preserving local off-road recreation. Additionally, they will decide whether to sign an agreement with Nellis Air Force Base that would give the county ownership of almost one-tenth of the 10,000 acre Nellis Dunes off-road recreation area north of Las Vegas

Martelli said he views the committee idea as an olive branch from the County Commission to the off-road community, but both he and Thatcher remain wary of what effect such a committee could have.

Regardless, Thatcher said he hopes to bring at least 300 people to the commission meeting to oppose the lands bill.

“If they think they’re going to send everyone out to the Nellis Dunes, you can’t put 300,000 people in 10,000 acres. It’s not going to work,” Thatcher said. “We’ll have to go outside of Clark County to do anything.”

Resolution up for approval

Clark County Commission is slated to vote Tuesday on a resolution seeking federal legislation to open almost 39,000 acres of public land for development and set aside more than 370,000 acres of new wilderness and protected areas for the desert tortoise and other threatened species.

The four-page resolution outlines 15 separate transactions, including a 41,000-acre expansion of the Moapa River Indian Reservation, several new or expanded wilderness areas totaling almost 83,000 acres and nine areas of “critical environmental concern” totaling almost 293,000 acres.

The document and related maps are available for review on the county’s website at https://bit.ly/2JHlh1d.

County officials gave the general public its first look at the proposal during a June 5 open house, then accepted written input for a week.

Those wishing to provide further input will have to do so during public comment Tuesday.

The commission meeting is slated to start at 9 a.m. The resolution is item No. 97 on the agenda.

AMERICAN OVERSIGHT

Many Nevada drivers to pay more for minimum liability coverage
Art Marroquin
Las Vegas Review Journal
https://www.reviewjournal.com/news/news-columns/road-warrior/many-nevada-drivers-to-pay-more-for-minimum-liability-coverage/

Nevada drivers might want to double-check their insurance, because changes are coming in about two weeks.

The threshold for minimum liability coverage goes up July 1 under a law approved during last year's legislative session.

New minimums require motorists to carry $25,000 per person for bodily injury, $50,000 per accident, plus $20,000 for property damage coverage per accident, officials with the Nevada Department of Motor Vehicles said.

That's a significant jump from the current requirement of $15,000, $30,000 and $10,000, respectively — currently ranked as the second-lowest in the United States, DMV officials said.

"The costs of medical care and automobile repairs have gone up significantly," Nevada DMV Director Terri Albertson said. "The cost of a crash can easily exceed these older minimums."

About 32 percent of Nevada's 2.3 million licensed drivers carried the minimum coverage as of last year, including the Road Warrior.

Most drivers were notified about the need for increased coverage during their most recent policy renewals. And like many of you, the Road Warrior made the required adjustments to his policy last month.

Depending on your driving record and insurance company, the change in rates could range from $10 to $50. Insurance companies will no longer be allowed to write the lower limits; those that do could be sanctioned, DMV spokesman Kevin Malone said.

Scofflaw drivers failing to purchase auto liability insurance at the new minimum limits could be cited and fined and have their vehicle registration canceled until the appropriate coverage is purchased, according to the Nevada Division of Insurance website.

Local leaders meet with Nevada politicians on development goals
Bailey Schulz
Las Vegas Review Journal
https://www.reviewjournal.com/business/local-leaders-meet-with-nevada-politicians-on-development-goals/

A group of 25 business and community leaders from the Las Vegas Global Economic Alliance and local chambers met with congressional delegations and agencies this week in Washington, D.C., to discuss policy issues affecting Southern Nevada.

The Federal Forum, held Tuesday and Wednesday, discussed big-picture issues including the impact of Yucca Mountain on economic development and tourism, I-11's development and the future of the autonomous vehicle industry in Las Vegas.

AMERICAN OVERSIGHT

The alliance is a private-public partnership that works with the Governor's Office of Economic Development and other state partners to recruit new businesses to the state and to expand existing businesses that export at least half of their goods or services outside of Nevada. It achieves its mission largely by preparing companies to be approved for state tax abatements.

Ray Specht, who chairs the LVGEA's policy committee, said the forum touched on how to keep expanding the local economy when it already is seeing growth in areas such as employment and population.

"One of the things we talked about is how now is not the time to take the foot off the gas pedal," Specht said. "What do we do to make LGVEA the most competitive regional development authority?"

Lisette Partelow, the director of K-12 strategic initiatives at the Center for American Progress, a think tank in Washington, spoke about education policy at one of the forum's sessions. She said the group had an insightful discussion on short- and long-term goals on how to improve teacher recruitment and retainment. Suggestions included improving salaries and requiring higher degrees for certain positions.

The forum was also meant to help strengthen relationships between the LVGEA and delegation.

"Our entire delegation has been very open and willing to work with us," alliance CEO and President Jonas Peterson said.

Peterson said the access to state politicians will help to accomplish the group's priorities.

"There's a clear sense of where we want to go and what we want these policy programs to look like."

Vaping industry credits economy, lower taxes for its migration to Las Vegas
Vegas INC
https://vegasinc.lasvegassun.com/business/2018/jun/18/vaping-industry-credits-economy-lower-taxes-for-it/

When they were first mass produced, e-cigarettes and vaping products formed an industry widely considered to be a dud in the United States. Popularized in China in the early 2000s, they launched with little fanfare in the U.S. past decade as a less harmful alternative to tobacco.

But in recent years, the battery-powered vaporizer industry has taken off. It was worth $10 billion in 2017, and market research estimates it will reach $34 billion by 2021, $46 billion by 2023 and $64 billion by 2025.

As neighboring states have thrown in massive taxes and regulations to combat large vaping corporations from growing too much, many companies are moving to Las Vegas.

"This city gives people a well-rounded life, and from a traffic perspective, everybody's time is being used more efficiently," says Billy Wilson, CEO of online retail and wholesale supplier E-Cig Distributors. "It's great for business because it's easy to convince clients to come to Las Vegas for meetings and conventions. You don't have to twist too many arms."

Wilson's company, which distributes almost 10 million e-cig products around the world each year, is one of more than a dozen vaping mega-companies to move from California and Washington to the Las Vegas Valley as regulations and future proposed laws have hampered the industry in those states, starting in 2016. While each

AMERICAN OVERSIGHT

company's reasons for moving here vary, interviewed CEOs cited California's Prop 56—which increased consumer taxes on tobacco and vaping products by almost 230 percent starting in 2017—and Washington's House Bill 2165, which proposes to hike up such taxes by more than 60 percent, as contributing factors for their migration to the Valley.

After moving five times around Orange County from 2012 to 2017, Wilson convinced 28 of E-Cig Distributors' then-40 employees to join him in a full-scale move to Las Vegas last March. Operating here for more than a year, Wilson says his company is thriving more than ever in a state that's "much more open to business." He credited local and state economic departments for helping ECD make a "relatively seamless" move.

"We had 45 days to identify a building, pack everybody up and make the move actually happen," he says. "We finally shut down operations in Orange County on a Thursday, and we were open in Las Vegas the next Monday."

Facts and figures about e-cigarettes and vaping products
• Vaping products produce an aerosol by heating a flavored liquid that's inhaled by users into their lungs. The battery-powered products come in varying shapes and sizes and are known as "e-cigs," "mods" and "vape pens" among other nicknames.

• While vaping products save users from tar and other cancer-causing substances found in tobacco and marijuana cigarettes, vape juices can still include harmful chemicals like nicotine, diacetyl and — for weed vapes — THC.

• The vaping industry was worth $10 billion in 2017, and market research estimates it will reach $34 billion by 2021, $46 billion by 2023 and $64 billion by 2025.

• San Francisco-based Juul has 54 percent market share in the industry, and federal officials expect the brand to continue growing among both adults and underage users.

• (Sources: U.S. Centers for Disease Control and Prevention, U.S. Dept. of Health and Human Services, Nielsen)

Jimmy Chen, CEO of Uvaper Wholesale, moved 20 of his 50 employees this year from Kent, Washington, for the chance at a more centrally located distribution headquarters in Las Vegas. Chen, like Wilson, says the move made sense among other reasons because he's able to more easily attract clients to visit Las Vegas than the Pacific Northwest. Chen says he hopes to hire an additional 30 employees at Uvaper's Las Vegas headquarters by the end of the year to keep up with growing business.

Vape industry employees, like Corben Madden, ECD's chief technology officer, says their dollar also goes much further in the Valley, thanks to lower home and rental rates and no state income tax.

"I save a ton of money on each paycheck and my taxes at the end of the year," he says.

Wilson, Chen and Madden say diversification of the Valley's economy also was an attractive draw. Traditionally known as a city for gambling and entertainment, the addition of professional sports teams and modern businesses such as Amazon, Postmates, Soothe and others give Las Vegas the feel of a "well-established West Coast city," Madden says.

AMERICAN OVERSIGHT

But while Nevada has taken a business-friendly approach to the vape industry, federal officials warn a growing number of young users may eventually lead the state to implement tax hikes similar to those in California and Washington. Of the estimated 10 to 12 million vape users in the United States, more than 2 million are underage, according to figures from the U.S. Center of Disease Control.

San Francisco-based brand Juul last month achieved 54 percent of the vape market share, according to statistics from Nielsen, thanks in part to viral videos of its users experimenting with the products on social media. Under heavy pressure, the vape giant declared its support to raise the minimum purchase age for vaping products from 18 to 21 years old and contributed $30 million to research and prevention of underage use of its products.

“Our company’s mission is to eliminate cigarettes and help the more than 1 billion smokers worldwide switch to a better alternative,” says Juul Labs CEO Kevin Burns. “At the same time, we are committed to deterring young people, as well as adults who do not currently smoke, from using our products.”

Brian King, who oversees the CDC’s Office on Smoking and Health, called the growing youth e-cigarette usage statistics “concerning,” adding that almost 60 percent of Americans who vape are also tobacco users. Despite industry marketing claims that e-cigarette products can help people stop smoking tobacco, King says evidence on vape products as healthy alternatives to traditional cigarettes is “not conclusive.” Vaping products have not been proven to help tobacco users quit, either.

“There are some people successfully quitting tobacco with e-cigarettes, but the majority of users are not,” King says. “We know e-cigarettes are safer than combustible cigarettes, but that doesn’t mean they’re safe. The science on the issue is still really mixed.”

Group focuses on bringing Super Bowl, Final Four to Las Vegas
Richard N. Velotta
Las Vegas Review Journal
https://www.reviewjournal.com/business/tourism/group-focuses-on-bringing-super-bowl-final-four-to-las-vegas/

In the end, a newly appointed committee charged with attracting major sporting events to Southern Nevada might need seed money most.

The 19-member Southern Nevada Sporting Event Committee gathered for the first time Friday to begin strategizing about the best ways to attract and finance bids for events like the Super Bowl, the NFL draft, and the NCAA’s Final Four and Frozen Four.

Rossi Ralenkotter, CEO of the Las Vegas Convention and Visitors Authority, noted that the goal of putting more “heads in beds” with high-profile sports events may be more challenging than it looks, because schedulers will have to avoid bringing in large crowds when big conventions are already in town. He also noted that preparing a competitive bid takes financial resources, so part of the solution could be determining a funding source.

Chaired by Paul Anderson, the committee includes six Nevada Resorts Association members and representatives of the Vegas Golden Knights and the Oakland Raiders.
Some members with venues already in place are already attracting events, including Boyd Gaming’s Orleans Arena and MGM Resorts International’s T-Mobile Arena, MGM Grand Garden and Mandalay Bay Events Center. By 2020, the new 65,000-seat Las Vegas stadium will be available.

AMERICAN OVERSIGHT

This year the Las Vegas Motor Speedway joins the list of facilities hosting two annual NASCAR weekends.

The South Point has not only one of the best equestrian arenas in the region, but also one of the top bowling centers.

The committee is expected to meet four or five more times before delivering a report to Gov. Brian Sandoval and the Nevada Legislature by Dec. 31.

Members will likely discuss whether a separate sports commission should be formed and the best way for Southern Nevada's sports venues to coordinate efforts to draw high-profile events to the city.

One of the reasons the committee plans to deliver a report by the end of the year is so that it could approach the Legislature for seed money to get started.

Committee members agreed that they want to hear background reports from the LVCVA and Las Vegas Events about how they bring events to Southern Nevada.

A familiar organization will handle staffing responsibilities for the new committee. Brian Gordon, a principal with Las Vegas-based Applied Analysis, has been contracted to provide staffing support for the group. Gordon's associate, Jeremy Aguero, has a similar function with the Las Vegas Stadium Authority.

Gordon said Friday that he would soon set up a website for the committee to provide information for its public meetings.

The next committee meeting hasn't been scheduled, but it is expected to be sometime from July 9-16.

Committee members

-Chairman Paul Anderson, executive director, Governor's Office of Economic Development.

-Andy Abboud, senior vice president, Las Vegas Sands Corp.

-Marc Badain, president, Oakland Raiders.

-Michael Britt, vice president, Government Relations, Red Rock Resorts.

-Carolyn Goodman, mayor of Las Vegas.

-Dallas Haun, chairman, Nevada State Bank.

-John Hill, public relations and advertising representative, Palm Mortuary.

-Steve Hill, chairman, Las Vegas Stadium Authority.

-John Maddox, vice president, Government Relations and Development, Caesars Entertainment Corp.

-John McManus, executive vice president, MGM Resorts International.

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003649

-Bill Noonan, senior vice president, Industry and Government Affairs, Boyd Gaming Corp.

-Rossi Ralenkotter, CEO, Las Vegas Convention and Visitors Authority.

-Thom Reilly, chancellor, Nevada System of Higher Education.

-Peter Sadowski, executive vice president, Vegas Golden Knights.

-Mary Beth Sewald, president and CEO, Las Vegas Metro Chamber of Commerce.

-Scott Sibella, chairman of the board, Las Vegas Events.

-Kim Sinatra, executive vice president, general counsel, Wynn Resorts Ltd.

-Steve Sisolak, chairman, Clark County Commission.

-Steve Stallworth, general manager, Arena & Equestrian Center, South Point.

Gov. Brian Sandoval also appointed four non-voting Technical Advisory Committee members: Scott Adams, City of Las Vegas city manager; Clark County Manager Yolanda King; Regional Transportation Commission of Southern Nevada General Manager Tina Quigley; and Clark County Department of Aviation Director Rosemary Vassiliadis.

Heller announces $12 million for Tahoe Restoration Act
Nevada Appeal
https://www.nevadaappeal.com/news/government/heller-announces-12-million-for-tahoe-restoration-act/

Sen. Dean Heller, R-Nev., on Friday announced there will be $12 million in federal funding for fire detection cameras and the battle against invasive species.

Heller said earlier this month he urged the Department of Agriculture and Forest Service to fund and support wildfire prevention and detection efforts. He said Friday there's $6 million in the budget to support innovative wildfire projects including modernizing aviation, radio and evacuation infrastructure. He said the act also contains $2 million specifically to support efforts such as AlertTahoe, a camera system to help detect widlfires in the basin much earlier than other methods.

It also calls on the forest service to work with UNR on wildfire risk mapping.

In addition, he said there's $6 million in the appropriations bill to combat invasive species at the lake.

Nevada DMV makes it easier to change gender on licenses
Associated Press
https://elkodaily.com/news/state-and-regional/nevada-dmv-makes-it-easier-to-change-gender-on-licenses/article_234e65d4-cd43-58b1-9f75-3ea79a1f756d.html#tracking-source=home-top-story

LAS VEGAS (AP) — A doctor's approval is no longer required to change the listed gender on a driver's license or identification card at Nevada's Department of Motor Vehicles, which is working on adding a new option for those who don't identify as male or female.

AMERICAN OVERSIGHT

The previous policy added further costs and stress for trans and gender-nonconforming people, said Jane Heenan, Gender Justice Nevada's clinical director. Heenan recalls one person who spent money on multiple doctor visits because they could not find a physician who would sign off on the form.

"Driver licenses no longer require any kind of external permission or affirmation from medical professionals of any kind," Heenan said. "It reduces the complexities of this process, which are already very complex for people seeking to make these changes. Lifting that burden is significant."

An updated driver's license costs $9.25 and a new ID card is $8.25, according to the DMV.

The change is similar to a move by the Nevada Department of Health and Human Services, which changed its rules in 2016 to allow people to update the gender on their birth certificate using a self-declaration process, The Las Vegas Sun reported Thursday.

"Requiring medical certification of gender identity is an outdated practice," said Kevin Malone, a DMV spokesman.

The DMV has not said when a third option for people who don't identify as male or female will be added.

"We are planning to add a nonbinary gender marker," Malone said. "However, this requires computer system programming and extensive testing with law enforcement and other stakeholders to ensure they receive the proper information."

Nevada prison officials struggle with doctors who refuse to treat inmates
Michelle Rindels
The Nevada Independent
https://thenevadaindependent.com/article/nevada-prison-officials-struggle-with-doctors-who-refuse-to-treat-inmates

Nevada prison officials say they sometimes have to take inmates through the back door or bring them before or after normal business hours for non-emergency medical care because off-site doctors are reluctant to treat them, if they treat them at all.

The hesitance to offer medical care to incarcerated people is one of the reasons cited by a new audit as to why prisons are sometimes resorting to more expensive out-of-network medical providers. Officials say there's not much they can do to compel in-network providers to see an inmate.

"There is no statutory requirement that they would be forced to provide services to everyone that subscribes to their network," said John Borrowman, the deputy director of support services at the Nevada Department of Corrections. "We have no leverage statutory or otherwise to force a provider to see an inmate."

The audit, presented Thursday at the Executive Branch Audit Committee that includes all Nevada constitutional officers, noted that the prisons resorted to out-of-network providers in 16 cases, or about 8 percent of the sample. One example was that the prisons are favoring a single out-of-network urologist in Southern Nevada because that doctor is willing to serve inmates on-site at the remote Ely prison and in conservation camps, so officials also use that physician for off-site appointments.

AMERICAN OVERSIGHT

Borrowman noted that the networks the state buys into for medical care are also used by the general public and other state health groups, such as the Public Employee Benefits Program, and aren't exclusively designed for inmate populations. He said in a future request for proposals, there may be an effort to gauge how many providers in a network will take inmate patients.

Lt. Gov. Mark Hutchison said he hoped the state could use its leverage as a large payer of health services to negotiate

"We ought to have as a very basic requirement that these folks are willing to provide services for the inmates who need them so we don't have to keep going outside the network," he said.

The out-of-network services discussion is part of a larger conversation about how to manage the rising cost of health care in Nevada prisons. In 2017, the department spent $11.7 million on off-site medical expenses alone.

"This has been a concern of mine since I've gotten here," said NDOC Director James Dzurenda. "We have noticed a trend over the years of increasing medical costs and overnight hospital stays."

Auditors' suggestions for keeping costs under control included:

Finding a third party administrator who can do "targeted case management" and ensure inmates staying at a hospital are getting only necessary treatments at the best rates. Oregon has implemented this system and reported saving 20 percent on hospital costs over two years.
Reviewing prison medical payouts to ensure they match with the treatment that was authorized by the department's Utilization Review Committee, which reviews requests for off-site medical care and prioritizes them.

The Indy Explains: Everything you need to know about NV Energy's solar proposal
Riley Snyder and Daniel Rothberg
The Nevada Independent
https://thenevadaindependent.com/article/nv-indy-explains-everything-you-need-to-know-about-nv-energys-solar-proposal

What kind of event could bring together Nevada's governor, lieutenant governor, a congressman, two gubernatorial candidates and dozens of Assembly and state Senate members?

Far down the list of anyone's guess would likely be the unveiling of NV Energy's 2018 Integrated Resource Plan (IRP), a lengthy, data-heavy planning document the utility is required to submit to state regulators every three years detailing how it plans to meet future electric supply and demand.

But members of Nevada's political elite crowded the Springs Preserve last week to hear utility CEO Paul Caudill unveil details of the utility's 2018 IRP, including six proposed agreements to develop six new photovoltaic solar farms throughout the state and several major battery storage projects, doubling the state's renewable energy production by 2023.

The star-studded unveiling, which also includes a contract for potentially the cheapest solar production price in the country, was somewhat unusual for the IRP process, which typically resides in the realm of energy policy wonks and other denizens who follow the normally dry regulatory proceedings.

AMERICAN OVERSIGHT

Unmentioned during the event but clearly present throughout the utility's IRP filing was the specter of Question 3, a proposed constitutional amendment that would end NV Energy's monopoly control of the state's electric market and require the state set up and switch to a competitive retail market by 2023.

NV Energy, which has donated millions of dollars to a PAC opposing the ballot question, states in the IRP application that the expansive planned move toward more renewable generation wouldn't go forward if the ballot measure passes, as the amendment would prohibit the utility from owning generating stations or entering into power purchase contracts with outside firms.

Here's what the IRP process entails, and what the future landscape of Nevada's energy policy could look like over the next three years.

What is an IRP?

Under state law, an electric utility is required to file a "plan to increase its supply of electricity or decrease the demands made on its system by its customers" to the state's Public Utilities Commission every three years, due on June 1.

That broad outline takes the form of a filing consisting of thousands of pages of applications, testimony and appendixes from the utility, a window into how it plans to manage electric demand and procurement of supply over a period stretching out over the next three decades.

From there, the PUC — which consists of three commissioners appointed by the governor — is required to hold hearings and take testimony from any interested parties on the application, and judge it based on several criteria including meeting reliability minimums, the state's renewable portfolio standard and acquiring fuel sources judged on flexibility, diversity and reliability.

After receiving the application, the PUC has 135 days to approve the utility's energy supply plan. This year, that's Oct. 14. The PUC then has 210 days to approve the rest of the plan, which for 2018 falls on Dec. 28, fewer than six weeks before the Legislature convenes.

State lawmakers in 2017 approved a number of changes to the IRP process, including requiring the utility for the first time to file it jointly for its entities serving both Northern and Southern Nevada service territories.

In its 2018 application, NV Energy laid out its broad goals for its future energy supply and demand goals thusly:

"The overarching goal of this 2018 Joint IRP is to meet growth and shrink our exposure to natural gas prices by delivering more low-cost renewable energy to our customers, accelerating our transition to a cleaner energy future with near-term investments by our (power purchase agreements) counterparties to support new Nevada-based renewable energy resources, shoring up our transmission infrastructure, and increasing or investment in energy efficiency programs."

Clean energy and Question 3

Clean energy advocates see this latest IRP as a shift for the utility, which had approached solar and energy storage projects more conservatively in the past. They also see it as the utility adjusting to the times, a reflection of the dramatic drop in solar and battery storage prices over the past few years, even with the recent tariffs on solar panels imposed by the Trump administration.

AMERICAN OVERSIGHT

One of NV Energy's proposed solar projects, Copper Mountain 5, would provide the cheapest solar energy in the country, according to Greentech Media, which is part of a research firm that tracks solar contract prices. That price could increase after the first year, but the other proposals are similarly low priced contracts, said Colin Smith, an analyst at Greentech Media Research.

"These projects are on par with some of the lowest [contract] prices to date," he said.

The IRP could put more pressure on clean energy groups, many of which have stayed neutral on the Energy Choice Initiative, to decide whether they support the ballot measure or the utility's continued regulated monopoly over the state's energy portfolio. Robert Johnston, a senior attorney at Western Resource Advocates, said there is some concern that moving to an energy choice market might slow down progress on building out large-scale solar projects.

Johnston noted that there would likely be several transition years before Nevada has an open energy market. There is concern among some environmental groups, he said, that during the transition period, there will be a halt in the construction of new solar projects.

"We think it will be a long and complicated process," he said. "And the question is: Who is going to be building new renewable projects during this interval where you could really have a cloud of legal and regulatory uncertainty hovering over the state? … What we've seen in Nevada is that developers won't break ground on these projects until they have a long-term buyer under contract who is committed to buying energy out of that project for the next 20 to 25 years."

Under the proposed plan, the state's energy supply plan would rise from 14 percent renewable in 2017 to 32 percent renewable in 2023.

Jon Wellinghoff, a policy advisor for the ballot measure and former chairman of the Federal Energy Regulatory Commission dismissed these concerns. He argued that companies might invest in clean energy even during the transition period before a restructured market goes into effect.

He laid out a few hypotheticals in which that might be possible. A large company that owns several stores in the state, Wal-Mart for instance, could enter into a contract for a solar facility to serve its stores under energy choice. Or, Wellinghoff said, a casino giant such as MGM Resorts International could invest in solar to aggregate and then offer to its large employee base.

If the market is opened, Wellinghoff said, he expects solar and battery storage to be the predominant types of energy procured because of how competitive their pricing has become.

"There's no question those are the primary things they're going to invest in," he said.

The Question 3 factor

NV Energy says in the filing that it will only move forward with all of the proposed solar projects if Question 3 fails in November. If not, the company would be required to sell off all of their power purchase agreements and power plants as part of the dismantling of the monopoly structure.

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003654

If the ballot question passes, the utility proposed going forward with only one of the six proposed renewable energy projects — a 300 solar megawatt power purchase agreement with 8minuteenergy at the Eagle Shadow Mountain Solar Farm. Its IRP filing states that doing so will help the utility's Northern Nevada operations meet the minimum Renewable Portfolio Standard goal.

The utility is also asking for the approval of four major transmission system upgrades to help interconnect the newly planned renewable energy projects, in total worth $22.9 million and that the utility could later recover through an adjustment in rates. If Question 3 is approved by the voters, the utility is asking the PUC to approve only a $550,000 transmission upgrade.

NV Energy executive Shawn Elicegui wrote in testimony filed with the IRP that because the utility would only need to meet the needs of customers through 2023 if the ballot measure passed, it wouldn't make sense to enter into several long-term solar power contracts that it would then need to turn around and sell almost immediately.

"NV Energy's focus will shift from long-term, centralizing planning that focuses on energy supply to short-term planning," Elicegui wrote in the filing. "Adding six long-term obligations, as well as battery storage to a list of assets that needs to be transferred and which add to the obligations backed by the full faith and credit of the State is not necessary to meet customers' needs through 2023."

Does NV Energy really need the proposed solar?

The IRP requires the utility to prepare two analyses, one that addresses supply and another that addresses demand. But the two are interconnected. Growing energy demand has typically been used to justify the need for procuring more supply or building more transmission lines.

For utilities across the country, power sales have flattened or increased at smaller rates, even as economies have grown. Part of this has to do with improvements in energy efficiency.

The same trend is true for NV Energy. In its filing, it forecasts its peak load — the maximum amount of energy required by its customers — to grow at about 0.7 percent in Southern Nevada and dip slightly in Northern Nevada between 2019 and 2029. The forecast is low, the company said, because it factors in the expiration of contracts and an ambitious energy efficiency plan (the IRP proposes cutting sales by more than 1.1 percent through energy efficiency).

Wellinghoff said that even with Valmy plant — the utility's lone remaining coal-fired plant — coming offline in the near future, the utilities commission might punt on NV Energy's plan because the utility could satisfy its customers' needs without new solar farms.

"We'll be well into the transition to energy choice by [the time they need that energy]," he said.

NV Energy argues that even though adding solar will bring more generation to the grid, it will lower costs over time because the utility will be less reliant on purchasing natural gas. Right now, the utility must choose whether to purchase power on the Western wholesale market or purchase natural gas as fuel for those power plants. The six solar energy projects would give the utility more flexibility to avoid those costs, which could fluctuate in the future.

In the filing, NV Energy said the plan would "shrink customers' exposure to natural gas prices."

AMERICAN OVERSIGHT

The utility's plan also called for extending out the planned lifespan for several of its existing power plants until around 2030 largely to provide capacity support during times of peak electric demand, as most of them are in good operating condition.

Valmy retirement

One of the highlights cited by Caudill and others in the presentation of the IRP is moving up the retirement date for one of the units of the Valmy coal-burning generation plants, the utility's lone remaining coal-fired facility in the state.

Long a target for environmental groups, the utility initially planned on operating the rural Humboldt County-based plants through their expected retirement date of 2025, to help meet peak demand during hot summer months and because the utility considered coal to be a more reliable resource than large-scale solar.

The IRP filed by the utility calls for one of the two generating plants (which it co-owns with Idaho Power) to be retired by 2021, with the other staying operational through 2025.

But retirement of the Valmy plant is conditioned on several factors, including:

the PUC approving all three Northern Nevada renewable energy projects and coming into operation before June 2022
no unexpected increases in area electric demand that would create a larger energy load
stable conditions in western energy markets
avoiding increases in transmission area load
the commission approving regulatory asset accounts, which would allow the utility to recover the cost of closing the plant early through changes in rates.
NV Energy said the conditions, like the approval of three new solar projects, are necessary to maintain a reliable grid in an area that serves Reno and mining customers near Elko.

Uncertainty over the retirement date is due to various unsolved factors in the utility's electric supply mix over the next three years, Elicegui wrote in a filing submitted as part of the IRP, requiring a series of tests to ensure that retiring the plant early wouldn't disrupt the utility's ability to deliver electricity during peak demand times.

"While our current long-term reliability assessment indicates that we should be able to retire North Valmy Unit 1 in 2021 without compromising our fundamental directive – to safely and reliably deliver low-cost energy to customers – we need to confirm those findings with additional analysis as 2021 approaches," Elicegui wrote in the filing.

'Nobody likes' family separation policy, Trump adviser says
Associated Press
https://www.reviewjournal.com/news/nation-and-world/nobody-likes-family-separation-policy-trump-adviser-says/

WASHINGTON — A top White House adviser on Sunday distanced the Trump administration from responsibility for separating migrant children from their parents at the U.S.-Mexico border, even though the administration put in place and could easily end a policy that has led to a spike in cases of split and distraught families.

AMERICAN OVERSIGHT

President Donald Trump has tried to blame Democrats for a situation that has sparked a national debate over his hard-line approach to immigration enforcement.

“Nobody likes” breaking up families and “seeing babies ripped from their mothers’ arms,” said Kellyanne Conway, a counselor to the president.

Nearly 2,000 children were separated from their families over a six-week period in April and May after Attorney General Jeff Sessions announced a new “zero-tolerance” policy that refers all cases of illegal entry for criminal prosecution. U.S. protocol prohibits detaining children with their parents because the children are not charged with a crime and the parents are.

The administration wants to send a message, said a Republican critic of the policy, “that if you cross the border with children, your children are going to be ripped away from you. That’s traumatizing to the children who are innocent victims, and it is contrary to our values in this country.”

Maine Sen. Susan Collins added that “we know from years of experience that we need to fix our immigration laws and that using children is not the answer.”

Trump plans to meet with House Republicans on Tuesday to discuss pending immigration legislation amid an election-season debate over an issue that helped vault the New York real estate mogul into the Oval Office in 2016. The House is expected to vote this week on a bill pushed by conservatives that may not have enough support to pass, and a compromise measure that the White House has endorsed.

In other developments surrounding the immigration controversy:

— A Republican congressman from Texas who toured a tent-like shelter for hundreds of minors who entered the country illegally said Saturday the facility is a byproduct of a flawed immigration strategy. U.S. Rep. Will Hurd said the shelter near the Tornillo port of entry in far West Texas will house about 360 boys who are 16 and 17. The teens began arriving Friday, the same day Hurd toured the shelter, he said, noting that they’re being moved from other shelters to make way for younger immigrant children taken into custody at the border.

— The intensifying the divide among Republicans over immigration policy is fueling concerns that a voter backlash could cost the GOP control of the House in November. To many conservatives, the compromise immigration proposal released this past week by House Speaker Paul Ryan, R-Wis., is little more than “amnesty.” One tea party group described the Republican plan as “the final betrayal.” Fox Business host Lou Dobbs, who is close to President Donald Trump, tweeted Friday that Ryan is “trying to open our borders even more and give illegal immigrants the biggest amnesty in American history.”

— Scuttling immigration legislation could turn off independent voters, an especially important bloc for House Republicans competing in dozens of districts that Democrat Hillary Clinton won in the 2016 presidential election. “The GOP’s in a tough spot,” said Republican pollster Frank Luntz. “The hardcore Trump voter has a different point of view than the ever-important independent voter, and there doesn’t seem to be a middle ground.”

Conway rejected the idea that Trump was using the kids as leverage to force Democrats to negotiate on immigration and his long-promised border wall, even after Trump tweeted Saturday: “Democrats can fix their forced family breakup at the Border by working with Republicans on new legislation, for a change!”

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003657

To Rep. Adam Schiff, D-Calif., the administration is "using the grief, the tears, the pain of these kids as mortar to build our wall. And it's an effort to extort a bill to their liking in the Congress."

Schiff said the practice was "deeply unethical" and that Republicans' refusal to criticize Trump represented a "sad degeneration" of the GOP, which he said had become "the party of lies."

Conway, however, put the onus on Democrats, saying if there are serious about overhauling the system, "they'll come together again and try to close these loopholes and get real immigration reform."

Asked whether the president was willing to end the policy, she said: "The president is ready to get meaningful immigration reform across the board."

More directly, Rep. Ben Ray Lujon, D-N.M., said Trump "could pick up the phone and stop it today."

The House proposals face broad opposition from Democrats, and even if a bill does pass, the closely divided Senate seems unlikely to go along.

Rep. Michael McCaul, who helped write the conservative version with Rep. Bob Goodlatte, said he had spoken to Trump on Saturday and that the president "is fully committed to both of these bills. He's put the full weight of his office behind it."

McCaul, R-Texas, said both bills satisfy Trump's main objectives.

"Without him coming to Capitol Hill on Tuesday, I don't think we'd have that sort of maximum pressure, if you will, to get us across the goal line, and I anticipate on Tuesday that he's going to be the leader he is and we're going to get something passed out of the House," said McCaul, R-Texas.

Trump's former chief strategist said Republicans would face steep consequences for pushing the compromise bill because it provides a path to citizenship for young "Dreamer" immigrants brought to the country illegally as children. Steve Bannon argued that effort risked alienating Trump's political base and contributing to election losses in November, when Republicans hope to preserve their congressional majorities.

"I strongly recommend that we just wait until 2019, right, to address this," he said, while defending the administration's practice of separating parents from children as an example of Trump making good on a key campaign promise.

"We ran on a policy, very simply, stop mass illegal immigration and limit legal immigration, get our sovereignty back, and to help our workers, OK? And so he went to a zero tolerance policy," Bannon said. "Zero tolerance, it's a crime to come across illegally, and children get separated,."

Rep. Beto O'Rourke, D-Texas, said he was working on legislation that would end the practice of family separation.

Speaking from Texas, where he was leading a march to a town where a new tent structure for children recently opened, O'Rourke said "we can do the right thing by this country and for those kids, and not do it at the price of a 2,000-mile, 30-foot-high, $30 billion wall, not doing it at the price of deporting people who are seeking

AMERICAN OVERSIGHT

asylum, deporting people in some cases back to certain death, not doing it at the cost of ending family migration, which is the story of this country."

The situation now is "inhumane" and "un-American," he said. The blame, he said, rests "on all of us, not just the Trump administration."

Conway and Schiff appeared on NBC's "Meet the Press," Collins was on CBS' "Face the Nation," Lujan and Bannon spoke on ABC's "This Week," O'Rourke was interviewed on CNN's "State of the Union" and McCaul was on Fox's "Sunday Morning Futures."

Sandoval's legacy: the 'New Nevada'
Op-Ed by Mark Hutchison
Reno Gazette Journal
https://www.rgj.com/story/opinion/voices/2018/11/01/sandovals-legacy-new-nevada-hutchison/1847337002/

Nevadans soon will cast their final ballots for a host of candidates and issues, but none will be more meaningful or important to the health and welfare of Nevada than our next governor. Tuesday, we look to the future with hope. Today, let's recall how far we've come and appreciate who championed our cause along the way.

Historian Jon Meacham once observed, "One of the mysteries of history is why is it that certain moments produce exactly the right human beings?" I believe that history will record that Brian Sandoval was exactly the right Nevadan to serve at exactly the right time as our state's 29th governor.

In September 2009, he left a lifetime appointment as a federal district court judge, the pinnacle of any legal career and a job he loved, and announced he would run for governor of Nevada. In 2010, he took on and defeated an incumbent Republican governor in the primary election and then prevailed in the general election against the most prominent and powerful Democratic family in the state.

When Brian Sandoval was inaugurated, Nevada's economy was dismal at best. Our unemployment rate was ranked the highest in the nation at 14 percent. One out of every 11 housing units fell into foreclosure. Our residents filed for bankruptcy at twice the rate of the national average. Governor Sandoval and his

AMERICAN OVERSIGHT

administration went to work over the next eight years to implement policies and champion legislation that created what he called the "New Nevada."

This New Nevada is stronger than ever. Nevada's unemployment rate currently stands at 4.5 percent, the lowest since 2007. We lead the country in private sector job growth, and as of last month, we've added more than 276,000 jobs since the Great Recession by producing opportunities in advanced manufacturing, logistics and operations, information technology, health and medical, and aerospace and defense. This kind of economic diversification is something we Nevadans only dreamed about before Governor Sandoval assumed the reins of government. And we did this while strengthening our traditional core industries of gaming, hospitality, conventions, mining, construction and agriculture.

Economic diversification and job growth have been an important part of the New Nevada, but no more so than education funding and reforms, environmental improvements, transportation innovations, social services transformations, health care accessibility and advancements, public safety enhancements, and so much more that the Sandoval administration has accomplished.

As someone with a front-row seat to the building of the New Nevada, I firmly believe that Governor Sandoval gets out of bed every morning with one objective in mind: What's in the best interest of the people of the state of Nevada? One of my first significant events with Governor Sandoval was in October 2013 when I served as the master of ceremonies for the Boy Scouts' annual luncheon where Governor Sandoval was being awarded the Good Scout of the Year award. I was honored to introduce the governor and recognize him as a more-than-worthy recipient of the award. Brian Sandoval truly embodies the Scout Law: trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean and reverent.

We left the hotel ballroom together, and I accompanied the governor as he walked through the hotel and to the parking area. As we walked, the governor greeted with his trademark graciousness the many hotel employees who wanted to meet him. We talked about the events of the day, the most prominent being the shutdown of the federal government that morning. The governor said he hoped that Congress could reach an agreement to restore the government's operations. Then he revealed what I consider his governing philosophy. He said that as governor, his job was to ensure that government works for the benefit of all Nevadans.

It has been the privilege of a lifetime to serve my fellow Nevadans as lieutenant governor at the side of Governor Brian Sandoval. To me, he is and will always be exactly the right Nevadan who served at exactly the right time. As we cast our votes on Tuesday, may we all consider applying the Sandoval philosophy of government and vote for candidates who we believe will get up on Wednesday morning and subsequent mornings with one objective in mind: what's in the best interest of the people of the state of Nevada? If we do, the New Nevada will continue to thrive and will remain the place we are so proud to call home.

Mark Hutchison is Nevada's lieutenant governor.

Nevada jury: $250K per mental patient dumped to other states
Ken Ritter
Associated Press
http://www.startribune.com/nevada-jury-250k-per-mental-patient-dumped-to-other-states/499357681/

LAS VEGAS — A Nevada jury put the state and a former mental hospital administrator on the hook Thursday for class-action damages that could range from about $9 million to more than $22 million for putting patients on buses in Las Vegas for one-way trips to cities around the country.

AMERICAN OVERSIGHT

An eight-woman jury deliberated less than three hours after a two-week trial before deciding unanimously that every Rawson-Neal Psychiatric Hospital patient who was given a Greyhound bus ticket to another city and no other arrangements for care after June 2011 should receive $250,000.

State law could cap damages at $100,000 per plaintiff, or $8.9 million.

State Department of Health and Human Services spokeswoman Martha Framsted said the jury decision will be appealed.

The judgment could top $22.5 million if the cap is waived, said attorney Mark Merin, a Sacramento, California, lawyer who represented plaintiff James Flavy Coy Brown.

Brown was the subject of an award-winning investigation in 2013 by the Sacramento Bee that brought to light what the lawsuit derides as "Greyhound therapy."

"There are at least 371 people in the class. We have been personally in touch with 89 of them," said Merin, who took the case to Clark County District Court after a federal judge dismissed an American Civil Liberties Union lawsuit in 2014.

Brown, then 48, and diagnosed with psychosis, told reporters in Las Vegas in 2013 that he arrived "homeless, confused and anxious" in Sacramento after a 15-hour bus ride from Las Vegas. After a day on the streets, hospital emergency room officials found him space at a psychiatric hospital. Brown was later reunited with his daughter in North Carolina.

Merin said he heard similar stories of indigent patients arriving in strange cities in every U.S. state and sleeping in bus stations, under benches and on the street if they were not arrested or hospitalized.

"Maybe now the state will talk about a settlement," the attorney said. "If they don't win on appeal, they're going to have to face this verdict."

State Attorney General Adam Laxalt's office issued a statement noting the issue came to light before Laxalt took office in 2015, and that his "client" defendants included Southern Nevada Mental Health Services and the state Health and Human Services Department.

The jury found negligence on the part of officials including the now-retired mental health services administrator Chelsea Szklany.

Laxalt, a Republican, is running for governor to replace term-limited GOP Gov. Brian Sandoval, who reached a $400,000 settlement of a lawsuit that San Francisco officials filed in 2013 over similar patient dumping allegations involving 24 people.

Rawson-Neal opened in 2006 as the only state psychiatric facility in Las Vegas following years of complaints that mentally ill people were clogging emergency rooms at for-profit hospitals in southern Nevada.

The region now has 2.2 million of Nevada's nearly 3 million residents.

AMERICAN OVERSIGHT

State officials reported in 2014 that Rawson-Neal treated an average of more than 6,000 people per year during a five-year span, and that nearly 1,500 patients had been provided bus transportation out of the state.

Clark County students who refuse searches face discipline
Amelia Pak-Harvey
Las Vegas Review Journal
https://www.reviewjournal.com/news/education/clark-county-students-who-refuse-searches-face-discipline-1516523/

Students who refuse to submit to a random search for weapons will face disciplinary action and may be removed from school property, the Clark County School District announced Thursday.

The announcement to randomly search middle- and high-school students with handheld metal detectors follows the fatal shooting of a student outside Canyon Springs High School in September and the confiscation of 11 guns found on students this year.

Searches, which will start in the coming weeks, will be conducted as students arrive to school and while in class. A computer program will decide which school, classroom and students to search, the district said.

When a school is randomly selected, the program will generate a random number, such as 3 or 5, according to the district. That will determine which students to search as they arrive at school — every third student, for example, or every fifth student.

Students entering school will be directed to a search area, advised of the purpose of the search and told to place their belongings on a table.

Students who don't consent to the search will be disciplined "as they would for breaking any other school rule," according to district spokeswoman Melinda Malone.

"We will ask them and their parents to come in to meet with the school administrator," she said in an email.

Staff will search the belongings "only to the degree necessary to affirm that no weapons are concealed therein," according to procedures.

After removing metal objects from their pockets, students will be scanned with a metal detector.

"Staff conducting the search must use an identical scanning technique/pattern for each student," the procedures state. "The handheld device should not touch the student's body during the search."

If the detector activates, the student will be asked if they have any metal objects. They will either remove the object or the staff member will confirm the object is not a weapon either visually or by "lightly touching" the activated area.

If a search requires physical contact, it will be conducted by someone of the same gender as the student. Students who indicate that they identify with another gender will have a choice on who will search them at that point.

Students who have any prohibited items — not just weapons, but drugs or alcohol, for example — may face disciplinary action.

Students who are searched in randomly selected classrooms will be directed to stand, carry their belongings and form a line near the door. Students will wait to be directed to a search area in the hallway, and teachers will remain in the classroom to monitor behavior of students waiting in line.

The district will document every student searched, as well as the date, time, location and staff member who conducted the search.

"Our goal as educators is always to discover concerns before they become problems by developing strong relationships," Superintendent Jesus Jara wrote in a letter to parents on Thursday. "I encourage students to report any rumors of weapons, potential fights, and other safety concerns to school police or to the SafeVoice app."

Jury rules against Nevada in patient dumping case
David Ferrara
Las Vegas Review Journal
https://www.reviewjournal.com/crime/courts/jury-rules-against-nevada-in-patient-dumping-case-1516619/

A Las Vegas jury on Thursday handed down what could amount to a multimillion-dollar penalty against Nevada for busing mental patients out of state without support services awaiting them.

Rawson-Neal Psychiatric Hospital came under scrutiny in early 2013 after media reports about patients receiving one-way tickets to unfamiliar parts of the country.

A jury of eight women awarded $250,000 to James Flavy Coy Brown in a class-action lawsuit against Southern Nevada Adult Mental Health Services, the hospital, its administrator and others after a trial over the practice. That same dollar amount should be given to each of the patients, their lawyers said.

A deputy attorney general, representing the defendants, declined to comment on the verdict, but a spokeswoman for the state Department of Health and Human Services said in an email to the Review-Journal that the department will ask the attorney general's office to appeal the decision.

"Rawson Neal hospital continues to be committed to providing safe and appropriate discharges," spokeswoman Martha Framsted also said in the email.

The plaintiffs' lawyers had contacted 89 people who were bused out of state, including 11 who testified during the trial, according to Sacramento attorney Mark Merin. At least 371 had been identified in the class, he said.

Upward of 1,500 people treated at the facility had been sent to states across the country and to Washington, D.C., Merin said after the verdict was reached.

State law caps lawsuits against government agencies at $100,000, but another lawyer for the patients, Allen Lichtenstein, said that cap may not be in play against the hospital's administrator, Chelsea Szklany, who was sued individually.

Through the trial that started last month, witnesses, including Brown, described their troubles after being dropped off in unfamiliar towns in testimony that Merin called "just mind-blowing."

Some of the patients immediately became homeless, sleeping under benches, in bus stations and on curbs, the lawyer said. Others told of arrests, hospitalization, "everything you can imagine."

The Sacramento Bee first reported that Brown spent 72 hours at Rawson-Neal before he was picked up by a taxi, driven to a bus station and placed on a bus traveling to Northern California without any form of identification or ability to obtain medication for his mental illness.

In their verdict, jurors found that Southern Nevada Adult Mental Health Services violated state law regarding indigent residents who had recovered from mental illnesses by failing to return them to their families, previous residences or to the counties where they had been involuntarily committed.

The jury decided that those patients were harmed because of the violation and that state agents, including Szklany, breached their duties to psychiatric patients who were discharged and sent by taxi to a Greyhound Bus station, before being carried out of state. The hospital staff also failed to arrange for follow-up care and housing, and provide medical documentation, the jury found.

"I think the jury listened very carefully," Merin said.

"Maybe now the state will actually talk about settling," he said. "They have to recognize that if they don't win on appeal, they're going to have to face this verdict."

Las Vegas stadium to have Caesars-branded entrance
Richard N. Velotta
Las Vegas Review Journal
https://www.reviewjournal.com/business/stadium/las-vegas-stadium-to-have-caesars-branded-entrance-1516255/

Caesars Entertainment Corp., the operator of Caesars Palace and eight other Las Vegas casino properties, has signed a 15-year agreement to be a founding partner of the $1.8 billion Las Vegas stadium.

Financial terms of the deal announced Thursday weren't disclosed.

As a founding partner, Caesars will host a branded stadium entrance and drop-off zone, digital signage, media, radio and print assets in addition to alumni, player and cheerleader appearances.

"We are honored to align with a company that shares the Raiders' values of improving the local community and delivering exceptional customer service in creating this transformative project," Raiders President Marc Badain said.

The partnership is the first Raiders deal with a gaming and hospitality company and will give Caesars customers and members of their Total Rewards loyalty club access to exclusive experiences.

High-rollers will have access to the customized Caesars-branded owners suite at the 50-yard line of the Las Vegas stadium, VIP dinners on the field, training facility events, fantasy camp participation, stadium tours and tickets to home games and most stadium events.

AMERICAN OVERSIGHT

The Las Vegas stadium will have five entrances that could potentially have branded sponsorships, similar to the design of U.S. Bank Stadium in Minneapolis.

At that stadium, the home of the Minnesota Vikings, entrances are referred to as "gates" and are sponsored by suburban Minneapolis corporations Ecolab, Pentair and Polaris as well as Verizon and Legacy.

The Caesars partnership deal is different from a stadium naming rights sponsorship the Raiders are pursuing. The team is quietly discussing naming rights to the stadium with a number of companies the team has not named. In September, team officials indicated talks are with the types of companies that have typically sponsored stadiums in the past — airlines, telecommunications companies, financial institutions and other large corporations. A team official had no comment on the status of those negotiations Thursday.

"With this deep partnership, Caesars will become an essential part of the game time ritual for Raiders fans everywhere," said Chris Holdren, chief marketing officer for Caesars. "From activations to exclusive experiences, fans of the silver and black will see Caesars as their home on game day."

Caesars may elaborate further later Thursday when the company has a conference call to announce its third-quarter earnings.

Casino and sports betting operators including MGM, Caesars and William Hill US, have been pursuing partnerships with leagues and teams since the U.S. Supreme Court overturned a law in May that banned wagering in most states.

Partnership announcements have been trickling since May, and it's just the beginning, said Irwin Raij, co-chair of the sports group at New York-based O'Melveny & Myers, whose clients include professional teams.

"We are going to see a lot more deals at the team level," Raij said in response to the recent MGM-Jets partnership.

Becky Harris, chairwoman of the state Gaming Control Board, had not seen details of the Caesars deal, but said she was doubtful that regulators would have any concerns since the deal doesn't involve gambling.

Las Vegas substance-use treatment center to open this month
Jessie Bekker
Las Vegas Review Journal
https://www.reviewjournal.com/life/health/las-vegas-substance-use-treatment-center-to-open-this-month-1516554/

A substance-use treatment facility will open in mid-November with the promise of providing a continuum of care, from detoxification to transitional living.

CrossRoads of Southern Nevada founder Jeff Iverson, who's in recovery himself, made the announcement Thursday at a ribbon-cutting ceremony at the Las Vegas facility, 2121 W. Charleston Blvd.

"I'm really honored to be a part of a project that is so needed in the community," said Iverson, joined by the center's staff and board of directors, along with health care industry members and public officials.

AMERICAN OVERSIGHT

The opening comes four months after Iverson planned to admit patients. At the time, he had staff members, but contracts with insurers weren't established, and he was waiting on a license from the state for a detoxification facility.

He was working on securing designation from the Southern Nevada Health District as a drop-off site for first responders, too.

He may have contracts with Medicaid-managed care organizations and private insurers, but the state hasn't granted the facility a license as a detox center. Iverson said he's hopeful that piece will come through next week.

Julie Kotchevar, administrator for the state Department of Health and Human Services Division of Public and Behavioral Health, said the department would issue the license after the facility has passed an inspection.

"We can provide all of the services here that are proposed, except for the medical detox," Iverson said. He said he was in talks with fire and police officials about the facility being designated as a drop-off location.

Iverson raised "several million dollars just to get to the point where I am now" in private donations, he told reporters Thursday. He said he would turn to city and county officials to address options for public and grant funding should the need arise.

'I love my community'

Public officials lauded Iverson and his staff Thursday for creating a 172-bed facility to detox substance users and treat them through their transition away from life on drugs. The facility's bed space will be split between patients needing detoxification and those seeking short-term housing.

The facility will also provide on-site medical care and an outpatient clinic.

Without the bed space, those needing mental health and substance use treatment end up in county jails and in hospital emergency rooms instead of in specialized care, said Clark County Commissioner Steve Sisolak, who's running for governor.

"What you're doing here is giving hope to individuals that otherwise didn't have hope," he said to a crowd of about 80 people Thursday. He was joined by Las Vegas Mayor Carolyn Goodman, Las Vegas Metropolitan Police Department Sheriff Joe Lombardo and First Assistant Attorney General J. Brin Gibson.

Iverson said he is in discussion with county officials to determine how to best serve uninsured clients but promised the center would not turn anyone away.

"I love my community, and I want to do things to help," he said. "Hundreds will be going through our continuum."

Open enrollment for Nevada Health Link begins Nov. 1
Nevada Appeal
https://www.nevadaappeal.com/news/local/open-enrollment-for-nevada-health-link-begins-nov-1/

Nevada Health Link, the state's online health insurance marketplace, began open enrollment for 2019 health insurance plans on Thursday. For the next 45 days, Nevada residents can shop for and enroll in a qualified health plan that best fits their budgetary and health circumstances. Nevada Health Link reminds consumers statewide they have access to free in-person assistance from a licensed enrollment professional who can help them navigate the insurance process and determine their eligibility for federal tax credits and cost sharing reduction subsidies. This year's open enrollment ends on Dec. 15.

Last year, Nevada Health Link enrolled a record 91,003 Nevadans. With approximately 9 percent of Nevadans currently uninsured, Nevada Health Link is working to reach all eligible residents throughout the state, especially underserved populations.

"We know how confusing and intimidating it can be to navigate the world of health insurance and find the right plan. That's why we want to remind consumers of the resources available to assist them," said Heather Korbulic, executive director for the Nevada Exchange. "With ongoing changes that continue to affect the healthcare industry, including new rules, federal requirements and various health insurance options saturating the marketplace, now more than ever, Nevadans need to understand what they are purchasing before they buy.

"Qualified health plans sold on the exchange provide comprehensive coverage and you won't be denied because of a pre-existing condition. Nevada Health Link is here to help you navigate the enrollment process. While we have achieved milestone enrollment numbers year-over-year, we remain focused on both uninsured and underinsured Nevadans, particularly those from underserved areas and populations, because no one, regardless of their income, can afford to be without health insurance."

More than 80 percent of Nevadans who enroll in a health plan purchased through Nevada Health Link are eligible for financial assistance from the federal government to help offset monthly health insurance payments.

"This is yet another important example of why in-person assistance can be especially valuable to consumers. We want to ensure Nevadans are taking full advantage of all the assistance programs for which they qualify," Korbulic said.

To find an enrollment assister near you, use the in-person assistance search tool on NevadaHealthLink.com. Residents who are currently insured with exchange-based health plans are also encouraged to shop for new plans, as plans and premiums have changed. Consumers can call 1-855-768-5465 or email customerservicenvhl@exchange.nv.gov for more information.

Blockchains company makes big promises, including e-sports arena and master-planned community, at unveiling in Prague
Riley Snyder
The Nevada Independent
https://thenevadaindependent.com/article/blockchains-company-makes-big-promises-including-e-sports-arena-and-master-planned-community-at-unveiling-in-prague

Eleven months after purchasing a chunk of land nearly the size of Reno, Blockchains LLC is finally going public with its ambitious plans to build a public-focused blockchain-centered tech oasis in the Nevada desert.

At an event in Prague on Thursday, company CEO Jeffrey Berns made a long-awaited announcement about the plans of the enigmatic company, which purchased 67,000 acres of land at the Tahoe-Reno Industrial Park in January but has been mostly tight-lipped about its planned use in the subsequent 11 months.

Berns, who made the presentation alongside a hologram of the young girl who appears in the company's promotional videos, outlined additional details of the company's proposed "Innovation Park" at the conference, which he said would "highlight the power of the public blockchain" through various projects including a blockchain-based master-planned community, a promised e-sports arena and a blockchain-servicing bank.

Berns, a multimillionaire consumer protection attorney, acknowledged that little in his background is related to blockchain development, but said he was enough of a believer in the technology's potential to put up $250 million to get the company off the ground.

"I'm not a developer," he said. "I have no idea how to code. I'm older than most of you in the audience, and I come from a profession that many of you think causes more problems than solutions. But I will tell you this: In all my life, in all of my career as a lawyer, I never saw a technology that I believed in more or one that I thought really could change the balance of power back to us instead of corporations, instead of Wall Street."

In the abstract, blockchain technology is essentially a public digital ledger open to users and distributed across the internet. Bitcoin, the digital cryptocurrency, is probably the best known example of the technology, but Blockchains relies on another platform called Ethereum that allows users to develop and build applications for various purposes, from executing contracts to tracking a supply chain.

"No government, no bank, no corporation," Berns said Thursday. "Just trusting in math."

Berns said that one of his biggest fears would be seeing established financial and banking players decide to use their own private blockchain technology and requiring their customers use it as well, which he said went against the point of the technology. To that end, he said 90 percent of the company's ownership and 100 percent of its voting rights would be shared between five or six "stakeholder groups," one of which would include developers, which will allow them to create their own governance structures and corporate models.

"It's not really even a company," he said. "I think, really, this is me trying to create a movement to use the public blockchain to empower the individual. To change the way we do things. And all I've done is wrapped a company inside it in order to monetize and perpetuate this movement that I hope we'll all share in."

Several details of the company's plans have trickled out over the past year, including an initiative to develop a high-speed fiber network in rural Storey County and to hire between 10,000 and 20,000 people within the next decade to build the "blockchain center of the universe."

Additional plans include creation of a residential living space on company land that would use blockchain technology to develop houses, apartments, banks, markets, stores and schools. The New York Times reported Thursday that the company is working with Storey County on a master-planned community with thousands of homes and a school, but that construction isn't scheduled to begin until late 2019.

Berns also announced a lightly-detailed plan to create an "immersive content creation studio" that he described as a cross between a movie studio, recording studio and game developer, highlighting his own experience as the publisher of a blockchain-based news website.

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003669

As part of the company's commitment to custody of digital records, Berns said it had put up the funds to purchase nuclear bomb-resistant storage bunkers in Georgia and Wyoming and planned to construct another one in Nevada. He said the company had also purchased space at similar high-security facilities in Switzerland and Sweden.

"What we will be able to do is provide security that is unmatched, that no bank, no single government will be able to offer to the people that want to put their digital assets in storage here," he said. Berns said that he had purchased an unnamed bank, and planned to make it the most "consumer-friendly, transparent" banking institution that would cater to blockchain users and companies.

He also highlighted a somewhat controversial designation of Storey County as an "Opportunity Zone," a creation of the tax overhaul legislation designed to spur development and investment in zip codes with low prosperity by providing capital gains tax breaks to investors who place their money in qualified funds in that area.

Berns also referenced the company's Wednesday announcement of a memorandum of understanding with NV Energy to develop blockchain-based energy products, and said to expect similar announcements coming out in the next six months.

On a more local level, the company appears to be contracting with prominent advertising firm R&R Partners, and two company executives — Pete Ernaut and Michon Martin — could be seen greeting Berns after the event.

Federal health care website up and running after slow start
Associated Press
https://www.reviewjournal.com/life/health/federal-health-care-website-up-and-running-after-slow-start-1516451/

WASHINGTON — The federal website where consumers can get health insurance under the Affordable Care Act was up and running Thursday after a slow start as sign-up season for 2019 opened days before the midterm elections.

During early morning hours, people accessing the site were directed to a screen that said work was underway. A recording at the HealthCare.gov call center conveyed a similar message. Things seemed to be running normally by about 9 a.m. EDT.

With health care a major issue in Tuesday's elections, this sign-up season under the Trump administration is getting close scrutiny.

In earlier years, technical problems with the site created major headaches for the Obama administration. Some Democrats cited HealthCare.gov's meltdown after its 2013 debut as one of the reasons they lost control of the Senate the following year.

Since those initial problems were fixed, the website serving people in 39 states has worked fairly smoothly, first under President Barack Obama and now under Donald Trump. The rest of the states and the District of Columbia run their own sign-ups.

A spokesperson for the Centers for Medicare and Medicaid Services said Thursday morning that HealthCare.gov was open for business.

Before the site went live for sign-ups at the start of a new coverage year, technicians had to load up details on thousands of changes in plans and premiums.

“Prior to every open enrollment, final preparations must take place ahead of the start of the open enrollment period to ensure the website runs smoothly for consumers,” said a statement from the agency. The statement said the agency’s commitment had been that the site would be ready “in the morning.”

The health law’s sixth sign-up season began with stabilizing premiums and more choices for consumers.

Nationally, average premiums are going up only by low single-digit percentages for 2019. In some states, and for some types of plans, premiums will decline. Fewer areas will see increases. Insurers also are expanding their participation.

But Republicans have not backed off their pledge to fully repeal the health law, despite failing to do so in Trump’s first year. Still, other changes by the GOP-run Congress and the administration for next year may result in fewer people signing up.

Congress did get rid of the unpopular requirement that most people carry health insurance or risk fines, starting Jan. 1. The administration has opened the way for insurers to offer alternatives to the law’s comprehensive coverage, including plans that don’t have to cover pre-existing conditions.

Democrats have made maintaining protections for pre-existing conditions a major issue in the elections, forcing Republicans on the defensive. They also accuse Trump of trying to “sabotage” the health law, and a core group of former Obama administration officials has kept close tabs on sign-up season.

Despite all the political drama, enrollment has remained remarkably stable.

About 10 million people have private policies through HealthCare.gov and state-run insurance markets, with roughly 9 in 10 getting taxpayer-financed help to pay their premiums. An estimated 12 million more are covered through the law’s Medicaid expansion, aimed at low-income adults.

Income-based subsidies that protect consumers from high premiums remain available for next year, as has been the case since the overhaul went into effect. Open enrollment ends Dec. 15 for coverage starting Jan. 1.

NEVADA ASSOCIATION OF COUNTIES
Annual Business Meeting
September 27, 2017
Winnemucca Convention Center
Winnemucca, Nevada

UNADOPTED MINUTES

ATTENDANCE: President Phillips, President Elect Weekly, Vice President Waits, Past President Wichman, Carson City Mayor Crowell, Churchill County Commissioner Olsen, Douglas County Commissioner Thaler, Elko County Commissioner Dahl, Esmeralda County Commissioner Bates, Humboldt County Commissioner French, Lyon County Commissioner Alt, Mineral County Tipton, Nye County Commissioner Schinhofen, Pershing County Commissioner Shank, Storey County Commissioner McGuffey, Washoe County Commissioner Herman, White Pine County Commissioner Perea, Churchill County Commissioner Erquiaga, Lyon County Commissioner Honeywell and Catherine Backaric, Nevada Association of County Treasurers. (NACO Staff Jeff Fontaine, Dagny Stapleton and Tori Sundheim)

OTHER ATTENDEES: Rob Stokes, Elko County Manager; Norman Frey; Susan Frey; Roger Mancebo; John Slaughter, Washoe County Manager; Jamie Rodriguez, Washoe County; Doug Johnson and Dean Bill Payne, CABNR

1. **Public Comment**. Mayor Crowell announced that Tori would be sworn in to the Nevada State Bar on Oct. 16th at 3:30p and asked those who could to attend the ceremony and following reception. Jeff let the Board know that former Douglas County Commissioner and Past NACO President, Doug Johnson had given him a photo taken in Congressman Amodei's office in honor of his retirement. Tori also informed the group that the Land Use Plan Amendments for the Greater Sage-grouse are being reopened and requested that the Board members from the affected counties meet with her the following morning.

2. **Approval of Agenda**. The agenda was approved on a motion by Past President Wichman with second by Commissioner Tipton.

3. **Approval of the Minutes of the November 16, 2016 NACO Annual Business Meeting**. The minutes were approved on a motion by Past President Wichman with second by Commissioner Tipton.

4. **President's Report**. President Phillips delivered a card to Jeff on behalf of the Board thanking him for his service to the Association.

5. **Executive Director's Report.** None was given.

6. **Election of NACO Officers for 2018**. President Phillips informed the Board that President Elect Weekly would assume the Presidency of the Association in January, Vice President Waits will assume the President Elect position and he would become the Past President and that requires the election of a Vice President for 2018. He noted that the nominating committee recommended that Commissioner French be elected to the position. Mayor Crowell moved that nominations cease and the Association unanimously elected Commissioner French to the position on a concurrent second by Commissioner Dahl and Past President Wichman.

7. **Public Comment**. Norm Frey and Roger Mancebo, Past Presidents of NACO, spoke to the retirement of Jeff and their experience with his leadership. They complemented his steering of the NACO ship and expressed continued support of the Association and Dagny as the new Executive Director.

The meeting was adjourned on a motion by Commissioner Tipton with second by Commissioner McGuffey.

NEVADA ASSOCIATION OF COUNTIES (NACO)

Board of Directors' Meeting
October 19th, 2018, 9:30 a.m.
Clark County Government Center
Pueblo Conference Room, 1st Floor
500 South Grand Central Parkway
Las Vegas, NV 89155

UNADOPTED MINUTES

Attendance: President Weekly, President Elect Waits, Vice President French, Mineral County Commissioner Tipton, Lyon County Commissioner Hunewill, Clark County Commissioner Kirkpatrick, Lincoln County Commissioner Higbee, Elko County Commissioner Steninger, Nye County Commissioner Schinhofen, Washoe County Commissioner Hartung and NACO Staff (Dagny Stapleton, Vinson Guthreau, Sandy Hoover and Amanda Evans)

Remote Attendance: Nye County Commissioner Wichman, Washoe County Commissioner Lucey, Churchill County Commissioner Olsen and Nancy Parent, Nevada Association of Clerks and Election Officials

Other Attendance: Nye County Manager Tim Sutton, Washoe County Manager John Slaughter, Clark County Manager Yolanda King, Nye County Public Information Officer Arnold Knightly, Alex Ortiz, Kathleen Walpool, Justin Harrison, Ariana Saunders, University of Nevada Cooperative Extension Director Ivory Lyles, Eric Killian, Murph Glover, Edgar Patino, Christina Bailey and Cynthia Alejandre

The meeting was called to order at 9:30 a.m.

1. **Public Comment**. None was given

2. **Approval of Agenda**. The agenda was approved on a motion by Commissioner Tipton with second by Commissioner Hartung.

3. **NACO President's Report**. President Weekly thanked the Board for traveling to Clark County and thanked Commissioner Kirkpatrick and her family for hosting the previous evening's dinner. President Weekly thanked President Elect Waits for her assistance in chairing the September meeting of the Board as he was attending remotely. He encouraged the Board to view the 1 October memorial in the Clark County Government Center's lobby and reviewed the ceremonies that took place earlier in the month on the anniversary of the tragedy. President Weekly encouraged the Board to participate in the boots and denim theme for the President's Reception at the Association's upcoming conference and concluded his remarks by recognizing Commissioner Wichman's birthday.

4. **NACO Executive Director's Report**. Dagny reminded the Board that the Association's Annual Conference is the following month and that each county is responsible for providing a silent auction item for the event. She informed the Board that the Nevada Division of Forestry has an advisory committee that the Association has a representative on. Former Pershing County Commissioner Irwin was the Association's appointee to that committee and as he has stepped down, the seat is now open. She outlined the activities of the committee include fire prevention projects and grant funding. She requested that any Board members, Commissioners or key county staff persons with fire background who are interested in serving on the committee please contact her.

5. **Approval of Minutes of the September 28, 2018 NACO Board of Directors Meeting**. The minutes were approved on a motion by Commissioner Tipton with second by Commissioner Hartung.

6. **Discussion and Approval of 2019 NACO Board meeting dates**. Dagny referenced the proposed calendar included in the agenda packet and President Elect Waits suggested having a meeting in Clark County, possibly in November. Commissioner Kirkpatrick suggested having a Clark County

AMERICAN OVERSIGHT

meeting in February and the Board expressed concern with staff being away from Carson City during the Legislative Session. There was additional discussion about the benefit of having a Clark County meeting prior to the National Association of Counties Annual Conference next July. NACO Staff was instructed to continue discussions on a possible meeting in Clark County and the item will be brought back to the Board for approval.

7. **Preliminary Discussion of NACO's 2019 Budget**. Dagny reviewed the preliminary budget and summary distributed to the Board. She informed the Board that she is continuing work on the budget with the Association's Fiscal Officer, Alan Kalt, and that the final budget proposal will be brought back to the Board in December for approval. Highlights covered during the discussion included: an overview the 2019 County Dues Assessments including the continuation of the public lands dues assessment at .5%; budget savings in 2018; a 2% COLA increase for staff; projected loss of income on an abbreviated 2019 Annual Conference; and an anticipated capital expense of the NACO office roof replacement. Commissioner Hartung inquired as to the budget for health insurance costs remaining flat and Dagny clarified that, though healthcare costs have increased by 10-12% annually, the 2018 increase was offset by savings from NACO no longer covering the Executive Director's dependents. No action was taken on this item.

8. **Presentation of a Reporting Tool for Rural Counties to Use to Monitor Contract Public Defenders**. Dagny reminded the Board that at their June meeting staff was directed to work with county and indigent defense stakeholders to develop a standardized tool to be used to monitor rural contract public defenders. She referenced the instructions and the tool included in the packet and noted that the recommendations from the working group include requesting that public defenders complete the document and report to the individual County Commissions on a quarterly basis. She informed the Board that she will distribute the documents to the rural counties and encouraged the Board to reach out to staff with any questions. She concluded her remarks on the item by thanking the members of the working group. No action was taken.

9. **Presentation and Discussion of the Stepping Up Initiative in Nevada Including County Efforts to Reduce the Number of People with Mental Illnesses in Jails, Jessica Flood, Regional Behavioral Health Coordinator, Northern Region, and Ariana Saunders, Behavioral Health Coordinator, Clark County Social Services**. Ms. Flood informed the Board that her region includes Carson City, Lyon, Churchill, Douglas, Mineral and Storey Counties. She also noted that Joelle Gutman serves as the Coordinator for the remainder of the rural counties and that Washoe County is a region unto itself, as is Clark County. Ms. Flood gave a review of the Stepping Up Initiative and its national focus on reducing incarceration rates of those with mental illness. Ms. Saunders noted that those with mental illness tend to have longer jail stays, increased recidivism and greater costs for health care and substance abuse treatment. Ms. Flood and Ms. Saunders further discussed the Initiative, its endorsement by NACo and its support from counties across the country. They also discussed tools developed to help identify and divert individuals from the criminal justice system; training programs; current initiatives; and successes realized across the State through use of the program. Commissioner Kirkpatrick noted that collaborative efforts are critical as is the education of first responders on alternative services available and addressing housing issues. President Weekly spoke to his participation in a recent Stepping Up Summit and the breadth of collaboration he witnessed from agencies across the State. Commissioner Tipton noted that Mineral County's challenges include a lack of available services. Commissioner Hartung noted that data collected in Washoe County shows cost savings in providing these individuals alternative services vs. incarceration. President Elect Waits inquired as to the Coordinator's needs for support and it was noted that support from the Commissions and individual Commissioners would be very welcome. Dagny offered to provide information and connections to any rural counties who request it and Commissioner Hunewill noted that county Health and Human Services departments are good partners for law enforcement when addressing these issues. No action was taken on the item.

10. **Update on the Recent FCC Order to Preempt Local Government Authority to Regulate and Permit the Construction of Small Cell/5G Technology**. Dagny reminded the Board of their discussion of this item at the August Board meeting. She informed the Board that the FCC administratively implemented restrictions to local authority at the federal level. She noted that NACo is working on a document that will include details of when the laws will go into effect and what counties can do to prepare. Commissioner Kirkpatrick informed the Board that the orders include a limit of $270

AMERICAN OVERSIGHT

for a permit, a 60-day permit review period, no limitation on placement or aesthetics and the ability to deduct infrastructure costs from franchise fees. She noted that she is involved in conversations at the National Association of Counties Board of Directors to potentially engage in legal action on the issue. The Commissioner noted the harming of county infrastructure due to the placement of the 5G infrastructure and encouraged the passage of ordinances in each county to protect their interests. Commissioner Schinhofen noted that anytime local government authority is preempted it is never positive. President French requested clarification on the possibility of NACo bringing legal action. Commissioner Kirkpatrick stated that she called every member of the State's Congressional Delegation and none of them were aware that the proposal had been moving forward. Dagny noted that she received a communication from NACo that morning that Seattle, Phoenix and the US Conference of Mayors have decided to sue, and that L.A. County is considering the option of litigation. When asked if NACo would enter litigation she was told that, at the least, they would provide briefs to those jurisdictions who do enter suits. Commissioner Hartung likened the orders to the granting of an easement in perpetuity and encouraged future discussion of at least the filing of an Amicus Brief,if additional suits are filed. Dagny informed the Board that she had polled her colleagues nationwide and that one additional points of concern is public safety. Vice President French noted the need for national unification on the issue. Staff was directed to continue monitoring and working on the issue. No official Board action was taken.

11. **Discussion and Authorization of Legal Counsel of Record to Oversee, Prepare and File an Appeal to the United States Ninth Circuit Court of Appeals on Behalf of NACO as Defendant-Intervenor from the Federal District Court's "Order Re Summary Judgment" and "Remedy Order" in the Matter of Desert Survivors, et al. v. U.S. Department of the Interior, et al**. Dagny reviewed the background of the issue and the Fish and Wildlife Service's (USFWS) decision not to list the Bi-State Sage Grouse as endangered based on local conservation efforts. She reminded the Board that the Service was sued on the decision and that the Association had joined the suit as intervenors on the side of the USFWS along with the State of Nevada and Mono County. She noted that the Association's former Natural Resources Coordinator, Tori Sundheim had prepared the associated legal documents and argued the case in court. Dagny informed the Board that the Judge found on behalf of the Plaintiff's and that the Judge's Remedy orders the Service to review the decision and re-issue a listing decision by October 2019 with a possible 6 month extension period if needed. The Service can appeal the decision and that opportunity is being considered by the Department of Justice (DOJ). Tori and Brian Stockton of the Nevada Attorney General's office joined the meeting by teleconference and informed the Board that the State will appeal if the DOJ decides to appeal. She noted that the main issues identified in filing an appeal without the Service is the Judge's determination of the Service's SPR and PECE policies and not being able to address the policies without the Service's involvement. Vice President French inquired as to any conversations with the Service and if there is an indication whether they will file an appeal, Tori noted that the service is weighing an administrative fix vs. the filing of an appeal. Vice President French noted his concern for the setting of precedent should the decision not be appealed. Commissioner Tipton echoed Vice President French's comments. Dagny informed the Board that the AG's office has agreed to handle an appeal and Dan Yu of the Carson City DA's office has agreed to be the Association's attorney of record on the issue. Commissioner Schinhofen moved to intervene if the State and the Service appeal. The Board unanimously agreed to intervene if an appeal is filed, on a second by Commissioner Tipton.

12. **Update on Interim Legislative Activities, Bill Draft Requests, and County Priorities for the 2019 Nevada Legislative Session**. Vince informed the Board the BDR submitted for the fifteen rural counties to be able to enact a 5-cent diesel tax could be impacted should the City of Fernley's ballot initiative to impose a 10-cent diesel tax fail. He also noted that the City has submitted a BDR that would give cities taxing authority outside of the RTC formula. Vice President French inquired whether there were attempts to consolidate efforts and Vince noted that discussions were held but were ultimately unsuccessful. Commissioner Kirkpatrick noted that the cities are asking for a lot of additional authorities from the Legislature and initial conversations with the caucus' have not been positive. Vince noted that Fernley's ballot question does not include funding for truck parking and reminded the Board that the NACO BDR does not require a 2/3's majority vote. Dagny informed the Board that the League of Cities has submitted a BDR to expand the authority of cities to determine the maximum number of marijuana dispensaries in their jurisdictions, which is currently determined by each county. Commissioner Schinhofen inquired if the BDR includes a definition of incorporated cities and

AMERICAN OVERSIGHT

Commissioner Higbee voiced concern with the costs of services counties are required to provide to the establishments yet they have no regulatory authority. No action was taken on the item.

13. **Update and Possible Action Regarding Natural Resources and Public Lands and Issues Affecting Counties Including:** No Board actions were taken on these items.

    a. **The BLM and USFS Greater Sage Grouse Resource Management Plan Amendments.** Sandy informed the Board that the USFS had published notice of the release of their draft documents and that the public comment period extends to January 3rd. She overviewed the rough timeline for the document including that the draft is expected in February with the final record of decision (ROD) expected sometime between April and July of 2019. Vice President French informed the Board that the document closely parallels the BLM's plan. Sandy informed the Board that NACO's comments were submitted on the internal draft of the BLM document in September and that the final documents are expected to be published on November 2nd. Sandy noted that mitigation plans are missing from the current document and that is of great concern, but MOA's are being worked on regarding implementation of the State's mitigation efforts.

    b. **NACO Public Lands and Natural Resources Committee Update.** Sandy informed the Board that applications are being accepted for the BLM Nevada's Resource Advisory Councils (RAC)s and subgroups and encouraged any Commissioners interested in applying to contact her for additional information. Nominations are due October 31st. Vice President French informed the Board that he had attended the BLM Wild Horse & Burro Advisory Board meeting in Salt Lake City. He discussed the Board's concern with the critical mass situation regarding the animals and that 60% of the budget being used for long term holding is unsustainable. He noted that a major shift in the conversation had occurred when the ASPCA offered to get involved with the management of the horses. Vice President French informed the Board that a subgroup had been convened to work on the issue. Additional conversations held by the group included regulations for gathers and ecosystem protections. He also informed the Board that three new members had been appointed to the Board. Commissioner Tipton informed the Board that the next meeting of the Public Lands & Natural Resources Committee would be at the Annual Conference and Dagny encouraged the Board to apply for the open positions on the BLM's state RAC's and to let her know if NACO could offer any support.

14. **NACO Committee of the Emeritus Update**. Vince informed the Board that the Committee had completed the update of the New Commissioner Handbook and plans for the Newly Elected Official Training at the upcoming Annual Conference.

15. **National Association of Counties and Western Interstate Region Board Member Updates**. Vice President French informed the Board that he was unable to attend the WIR meeting due to the Wild Horse and Burro meeting in Salt Lake but that a large portion of the discussions at the meeting were surrounding PILT, SRS, fire and forest management and the need to review and comment on the USFS's new handbook. Commissioner Kirkpatrick informed the Board that there was a staff change on the Transportation Committee and expressed concerns with a reduction in federal transportation dollars. She also noted that the NACo Board of Directors is working on educational sessions that have additional resources for implementation and expanded webinars. Dagny also noted that the newsletter contains information on NACo webinars.

16. **NACO Board Member Updates**. Members of the Board gave updates on activities within their counties.

17. **Public Comment**. None was given.

April 20th, 2018, 9:30 a.m.

UNADOPTED MINUTES

Attendance: President Weekly, President Elect Waits, Mineral County Commissioner Tipton, Lyon County Commissioner Hunewill, Lincoln County Commissioner Higbee, Churchill County Commissioner Olsen, Douglas County Commissioner Thaler, Washoe County Commissioner Hartung, Elko County Commissioner Steninger, Clark County Commissioner Kirkpatrick and NACO Staff (Dagny Stapleton, Vinson Guthreau, Tori Sundheim and Amanda Evans)

Remote Attendance: Vice President French, Carson City Mayor Crowell, Storey County Commissioner McGuffey

Other Attendees: Dr. Ivory Lyles, UNCE; Washoe County Manager, John Slaughter; Clark County Manager, Yolanda King; Katie Walpole and Alex Ortiz, Clark County; Murph Glover, NDOT; Edgar Patino, NV Energy; Cindy Brown and Vicki Higgins

The meeting was called to order at 9:34 a.m.

1. **Public Comment**. Clark County Manager King welcomed the Board to the first of two scheduled meetings in 2018 to be held in Clark County. UNR Cooperative Extension (UNCE) Director, Dr. Ivory Lyles informed the Board that he would complete his tour of all seventeen counties the following week and thanked the Board for their assistance and open communication as he completes his assessment of the various programmatic needs across the State. Cindy Brown and Vicki Higgins spoke to the Board regarding regulation of and protections for medical marijuana card holders. President Weekly thanked his staff for assisting with the planning efforts to bring the meeting to Clark County.

2. **Approval of Agenda**. The agenda was approved on a motion by Commissioner Tipton with second by Commissioner Thaler

3. **NACO President's Report**. President Weekly requested Mr. Ortiz and Ms. Walpole give the Board an update on the planning efforts for the National Association of Counties (NACo) Annual Conference to be hosted by Clark County in 2019 and thanked Commissioner Kirkpatrick for her planning efforts. Mr. Ortiz informed the Board that he and Ms. Walpole had been working closely with NACo regarding the planning and outlined their plans to obtain video clips showcasing Nevada's diversity. The video created will be shown during promotional efforts at the NACo conference in Nashville in July. He also requested promotional items from Nevada's counties that can be given to conference attendees. President Weekly acknowledged Vice President French's birthday and for his work on behalf of Nevada's counties.

.

4. **NACO Executive Director's Report**. Dagny announced there were opportunities to be appointed to the National Association of Counties Policy Steering Committees and encouraged those that are interested to reach out to her directly. She also informed the Board that the incoming NACo President will be appointing leadership positions to the Committees as well as to the NACo Board and requested anyone interested in serving in a leadership role to reach out to her for an application. She announced a grant through USDA for broadband service from $100K to $3M with limited matching funds required and mentioned the Nevada Stepping Up Conference information, included in the packet. President Elect Waits presented President Weekly with a birthday card signed by the Board and thanked him for his service to the Association and his hospitality in hosting the April meeting of the Board. Commissioner Kirkpatrick, President Weekly and Clark County Manager Yolanda King presented Dagny with a proclamation from Clark County for National County Government Month.

AMERICAN OVERSIGHT

5. **Approval of Minutes of the March 23, 2018 NACO Board of Directors Meeting**. The minutes were approved on a motion by Commissioner Hartung with second by Commissioner Tipton.

6. **Discussion and Possible Approval of an Adjustment to the NACO Office Manager Salary**. Dagny referenced the budget discussion in November and her commitment to bring any potential changes to the Board in the spring. She informed the group that she revised the official job description to more accurately reflect the tasks currently assigned and completed an informal salary study with the assistance of POOL/PACT. She recommended a 5% increase based on current tasks which would leave room in the salary range for future COLA and merit increases. The Office Manager's salary was increased at the recommendation on a motion by Commissioner Tipton with second by Commissioner Thaler.

7. **Discussion and Possible Action on NACO Outreach Efforts to Support the National Association of Counties Annual Conference in Clark County in 2019**. Dagny informed the Board that Clark County is planning a Las Vegas night at the NACo conference in Nashville to promote the 2019 conference. She requested direction to staff on how to aid those efforts and noted that those attending the 2018 conference would be asked to participate in the outreach efforts. President Elect Waits noted that the host hotels would be an avenue to show video footage. Commissioner Kirkpatrick noted concerns with hosting the conference in Las Vegas as it is often portrayed as a party town and the need to showcase the diversity of the State. Commissioner Tipton commented on the NACo conference held in Reno and the fact that attendance is often driven by location. She also noted that hands on educational tours are more interesting than standard educational sessions comprised solely of speakers. Commissioner Hartung echoed the need to showcase Nevada as being far more than simply the Las Vegas strip. Commissioner Kirkpatrick requested feedback within the following 15-20 days for planning purposes. Ms. Walpole informed the Board that the County's booth at the 2018 conference will be next to the registration table and outlined some of the ideas that they will be instituting for outreach efforts. Dagny requested video clips showing or promoting individual counties, and ideas for outreach and tours, be sent to staff for compilation and distribution to Clark County. The Board also directed Staff to work on ideas for some type of button, t-shirt or other items that the Nevada delegation can wear during the Nashville conference to help promote the 2019 Conference.

8. **Approval of NACO Talking Points to be Used to Conduct Outreach to Legislators and State Constitutional Officers**. Dagny referenced the document included in the agenda packet that had been developed at the direction of the Legislative Committee. She requested feedback and approval of the document. Vinson thanked the Board for their flexibility while the document was being drafted and the Board approved the document by consensus and without comment.

9. **Discussion and Presentation on the University of Nevada Cooperative Extension Effort to Gather and Create an Ongoing Repository of Socioeconomic Data for each County in Nevada, Dr. Tom Harris and Buddy Borden**. Mr. Borden and Dr. Harris spoke to the Board regarding the partnership between UNCE, CABNR and the federal land agencies to address deficits in land management plans, specifically in their lack of inclusion of socioeconomic impacts to local communities. Mr. Borden cited National Environmental Policy Act (NEPA) requirements requiring the plans to use qualitative not quantitative data tools and the need to educate the public and interested NGO's on the laws to avoid litigation. The Board was informed that UNCE is developing baseline socioeconomic data for all 17 counties. Resources from UNCE and CABNR have already been committed and the BLM and Forest Service are also trying to locate funds to assist in the development of the database. The project is expected to take 12-24 months to complete and the Board was informed that UNCE would be visiting all 17 counties to obtain the necessary information. Commissioner Kirkpatrick voiced concerns with who would ultimately own the data. Mr. Borden noted that since the project is being funded with public monies barriers can and will be put in place to protect the data for public uses. Commissioner Tipton noted that the project will be critical to Mineral County, but that she would have issues with the ability to gather the information necessary due to lack of resources. President Weekly suggested partnering some of the counties with limited resources with those that have more available staff. Commissioner Higbee noted that it will be good to have verification of information that has been widely known but not quantified by science. Dagny noted that the initial thought for the need of the tool was for use in federal comments but that ultimately the data can be used by counties for many different purposes including economic development; grant applications, and planning efforts.

AMERICAN OVERSIGHT

10. **Presentation from the Nevada Association of County Human Services Directors on County Human Services Programs, Mike Pawlak, Clark County Director of Social Service**. Mr. Pawlak introduced Michelle Fuller-Hallauer, a manager in the Clark County Department of Social Services. Mr. Pawlak noted that the presentation is a follow up to the previous presentation given by Nevada Association of Human Services Administrators President Edrie LaVoie, as requested by the Board. He noted the new directions that Human Service programs had taken due to the expansion of Medicaid and the Affordable Care Act (ACA) - specifically the move from a safety-net based system to investing in prevention driven models. He also noted that while all 17 counties are mandated to provide the same services the delivery of these services varies by county. Ms. Fuller-Hallauer gave an overview of three specific programs developed by Douglas, Churchill and Clark Counties that are examples of successful transitions from the safety-net model. Mr. Pawlak referenced the Stepping Up Summit to address re-entry programs that would be held the following week as well as the coordination of efforts between Human Service Departments and Public Safety Departments to develop best practices to ensure successful transitions for those individuals previously incarcerated. Comments from the Board included the need for coordinated efforts among multiple jurisdictions.

11. **Update Regarding Recreational and Medical Marijuana in Nevada, as it Relates to Counties**. Dagny referenced the discussion the previous month regarding the distribution of marijuana taxes and clarified that all 17 counties will receive approximately $88K to offset costs of impacts related to the legalization of marijuana. She also informed the Board that those counties that have marijuana business will receive monies based on the population of the counties. She said that the 2017 distribution had been sent by the Department of Taxation and that the 2018 distribution would be completed in November and going forward the yearly distribution will occur in November. She also updated the Board on the State licensing process: in June the licensing process will open for those businesses that already have licenses to apply and then one additional time prior to November. Then in November the process will open to any businesses that do not currently have licenses to apply. Commissioner Kirkpatrick inquired about the timing of granting of the licenses and Dagny said that the Department has 90 days to approve provisional licenses. Commissioner Thaler inquired as to the $88K distributed to all counties and Dagny further clarified that the initial ballot question contained language that ensured that some funding would be given to local government. Commissioner Kirkpatrick noted concern with the licensing process and a transition to selling licenses by locally held companies to outside firms and a desire to coordinate efforts and increase communication between counties on marijuana ordinances. Dagny suggested the convening of a NACO subcommittee on marijuana and the Board directed staff to form a subcommittee.

12. **Update and Possible Action Regarding Public Lands and Natural Resources Issues Affecting Counties Including:**

    a. **NACO Public Lands and Natural Resources Committee Update.** Tori informed the Board that the Committee's meeting had been postponed to the following week due to the Board meeting being held in Clark County and thanked the University of Nevada for the work being done on the socioeconomic impact analysis. Commissioner Tipton discussed the continued work on the update of the priorities of the Committee for the coming year and that the final plan will be brought forward for Board approval in May. Commissioner Kirkpatrick inquired as to the status of federal lands bills and Tori said she will develop and distribute a comprehensive list of where they currently stand.

    b. **Comments on Changes to Clean Water Act Coverage of "Discharges of Pollutants" Due May 21, 2018.** Tori informed the Board that a notice was published in the Federal Register requesting comments from local governments and inquired as to the Board's appetite for providing comments. Dagny added that the item falls under the purview of the comments submitted on the Waters of the US rule. Tori requested any concerns be forwarded to her and that the Public Lands and Natural Resources Committee would make the final decision on providing comments.

    c. **The U.S. Department of the Navy's DEIS for the Fallon Range Training Complex Modernization.** Tori informed the Board that the process is moving forward and that a public draft is expected prior to January of 2019.

AMERICAN OVERSIGHT

d. **NACO as Defendant-Intervenor in the Lawsuit against the U.S. Fish and Wildlife Service Seeking to Vacate their Decision not to List the Bi-State Sage Grouse as an Endangered Species**. This item was heard in closed session, no action was taken.

13. **NACO Committee of the Emeritus Update**. Dagny informed the Board that the workshop held earlier in the month on the legislative process was very successful and well attended. The workshop was recorded and has been posted to the NACO website. She noted the next workshop will be held on July 20th and the topic is on why county natural resources and public lands plans are important and how to write them. She concluded the item with the Committee's continued work on the new commissioner training to be held at the Annual Conference.

14. **National Association of Counties and Western Interstate Region Board Member Updates**. Commissioner Tipton informed the Board that the next meeting of the NACo Board of Directors will be held in Nashville, Tennessee, at the Annual Conference and that the Western Interstate Region meeting will be held in May in Sun Valley, Idaho.

15. **NACO Board Member Updates**. Updates were given by members of the Board highlighting various activities within their counties.

16. **Public Comment**. Amanda informed the Board that sponsor registration had been opened for the 2018 NACO conference and requested any Board members who would like the information to distribute to businesses within their counties to contact her.

The meeting was adjourned at 12:45

AMERICAN OVERSIGHT

NEVADA ASSOCIATION OF COUNTIES (NACO)
Board of Directors' Meeting
February 23rd, 2018

UNADOPTED MINUTES

Attendance: President Weekly, President Elect Waits, Vice President French, Washoe County Commissioner Lucey, Mineral County Commissioner Tipton, Carson City Mayor Crowell, Lyon County Commissioner Hunewill, Storey County Commissioner McGuffey, Douglas County Commissioner Thaler, Nye County Commissioner Wichman, Lincoln County Commissioner Higbee and NACO Staff: (Dagny Stapleton, Vinson Guthreau, Tori Sundheim and Amanda Evans)

Remote Attendance: Washoe County Commissioner Hartung, Churchill County Commissioner Olsen and Pershing County Commissioner Shank.

Other Attendance: Elko County Manager, Rob Stokes; Lyon County Commissioner, Don Alt; Nye County Manager, Tim Sutton; Nye County Public Information Officer, Arnold Knightly; Molly Walt, Nevada Commission for Women; Mark Krueger, Nevada Attorney General's Office; Ed Smith, UNR Cooperative Extension; Michael Beaudoin, Nevada Division of Forestry; and Lee Bonner, NDOT.

The meeting was called to order at 9:30 a.m.

1. **Public Comment**. Molly Walt from the Nevada Commission for Women gave a brief overview of the Commission, its creation by the Legislature, the makeup of the Board of the Commission and upcoming strategic planning session and workshops. Ms. Walt requested to be placed on a future agenda to provide more detailed information on the Commission. President Weekly agreed to her request. Mark Krueger of the NV Attorney General's Office informed the Board that his office would be reaching out to the counties to gather information on impacts and damages to the counties due to the current opioid crisis. He assured the Board that the investigation the State is undertaking with several other states will not have an impact on any opioid lawsuits the counties may decide to enter into. He also informed the Board that Patty Cafferata, the Office's official County Liaison, would reach out to NACO with information on an opioid working group.

2. **Approval of Agenda**. The agenda was approved on a motion by Commissioner Wichman with second by Commissioner Lucey.

3. **NACO President's Report**. President Weekly reappointed Commissioner Tipton and Vice President French to the positions of Chair and Vice Chair of the NACO Public Lands Committee. He acknowledged the birthdays of those Board members born in February and congratulated Commissioner Lucey on the recent birth of his daughter.

.

4. **NACO Executive Director's Report**. Dagny formally introduced Vinson to the Board and outlined his qualifications and experience, including his former position with the Association. She informed the Board that Alan Kalt, who has been an Association appointee to the Committee on Local Government Finance (CLGF) for over twenty years, had retired and therefore the Board would need to appoint a new member to that Committee. She asked the Board to consider nominations for a rural representative to the CLGF for appointment at the next Board meeting. She also informed the Board that the Legislative Committee would be convening soon and discussed the outreach activities the Committee would be conducting and asked any Board members interested in serving on the Committee to reach out to her or Vinson to be added to the distribution list. Dagny informed the group that the first meeting of the Cooperative Extension Advisory Counsel was held the previous Friday in Las Vegas and that the proposed budget enhancement for Extension of $4.7 million continues to move forward. She also relayed that Extension Director Lyles would like to address the NACO Board March. Dagny also informed the Board that the Right to Council Commission had convened and that two meetings had been held. She announced that one of the first tasks of the Commission was to hire a consultant to gather data from the rural counties on how they provide indigent defense. The

AMERICAN OVERSIGHT

Commission hired the 6th Amendment Center for this task and Dagny announced to the Board that David Carroll and his associates would be reaching out to the rural counties shortly. Dagny also announced that National County Government Month is in April and that NACO Staff is working on ideas for promoting counties and their services. She concluded her report by discussing the release of the 2018 NACO Directory and the successful replacement of the NACO telephone system.

5. **Approval of Minutes of the January 19, 2018 NACO Board of Directors Meeting**. The minutes were approved on a motion by Commissioner Tipton with second by Commissioner Wichman.

6. **Approval of Additional 2018 NACO Associate Members**. The newest application for Associate Membership was approved on a motion by Commissioner Wichman with second by Commissioner Tipton.

7. **Approval of the Appointment of Alan Kalt to serve as NACO's Fiscal Officer**. Mr. Kalt was appointed to the office of NACO Fiscal Officer on a motion by Commissioner Tipton with second by Commissioner Wichman. He will assist with the Association's financial reports and budgeting process and will also attend NACO Board meetings as needed.

8. **Approval of NACO's 2017 Financial Statements and January 31, 2018 Investment Reports**. The financial statements and investment reports were approved on a motion by Mayor Crowell with second by Commissioner Tipton.

9. **Discussion and Presentation on the Newly Organized Nevada Network of Fire Adapted Communities, Ed Smith, University of Nevada Cooperative Extension and Michael Beaudoin, Network Coordinator (Nevada Division of Forestry)**. Mr. Smith reviewed the Network, its history and goal of educating and supporting communities on wildfire prevention. He informed the Board that the Network has 173 members in ten communities and that the leadership of the Network is transitioning from Cooperative Extension to the Nevada Division of Forestry. Mr. Smith introduced Michael Beaudoin, who was recently hired as the Network's Coordinator through the Division of Forestry. Mr. Beaudoin gave the Board an overview of his experience and qualifications. He informed the Board that he feels that Nevada is at the leading edge of wildfire mitigation and that he would like to come back to the Board when he has completed his strategic plan for the Network. Commissioner Lucey noted that Arrowcreek in Washoe County is a member of the Network and inquired as to exactly what the definition of an adapted community is. Mr. Smith clarified that an adapted community is a community committed to reducing wildfire threat and one that is able to survive a fire with little assistance from fire fighters; he elaborated that the primary mechanisms for reaching this goal are education and fuels management projects. He also noted that member communities receive assistance with project funding, educational programs and organization. Commissioner Lucey requested that the Network to work with each county on fuels management plans. President Waits inquired whether presentations were going to be given to each county Board of Commissioners. She was informed that the Network plans to request time on each agenda. President Weekly was informed that Mr. Charleston and Mountain Springs are members of the Network in Clark County and he offered to put Mr. Beaudoin in direct contact with Commissioner Brown, in whose district both of the communities are located. Vice President French noted the importance of interfacing with wildland support groups and fire districts and he was assured that the Network would be doing so. Mr. Smith concluded the presentation with the announcement of his retirement and thanked the Board for their support and cooperation over his career. Dagny concluded the item noting that the program is nationally recognized and that the Network is in need of two community representatives to represent the Northern and Southern areas. She asked members to let her know if they had any suggestions for nominees.

10. **Federal Legislative Update Provided by the National Association of Counties (NACo) Legislative Staff**. Deborah Cox, Legislative Director and Johnathan Shuffield, Associate Legislative Director for Public Lands joined the meeting via teleconference. Ms. Cox informed the Board that there are openings on policy steering committees and that she would work with Dagny on getting any members appointed, should they wish to serve. She discussed the political climate in Washington and the announcements of many members of Congress that they would not be running for re-election. She made note of challenges with unfunded mandates and regulations. She informed the Board that

AMERICAN OVERSIGHT

NACo had been working on the tax reform bill, closely watching the budget and appropriations, public health care issues including the opioid epidemic, public lands issues and infrastructure. She spoke about the budget and appropriations processes and the continuing resolutions (CR) the government have been working under. She noted that an omnibus spending bill is being drafted and the hope was to have it passed prior to the expiration of the current CR. Ms. Cox also discussed the President's infrastructure plan and noted that NACo had been working closely with the White House and the various Congressional committees on the plan. She noted that Congress is now looking at how to shape legislation to accomplish what the President outlined in the plan. Ms. Cox referenced the comprehensive analysis NACo had completed on the plan which can be found on the NACo website and encouraged conversations with the Nevada Delegation on the plan. Mr. Shuffield started with PILT and informed the Board that the President's budget includes full funding for the program in 2019 and that the final funding level for 2018 would be known sometime around the end of March. He informed the Board that there would be a press conference regarding SRS on March 6th and that they are still working on getting fixes in place regarding fire funding and forest management provisions, but that there is bi-partisan support for the reauthorization of the program. He also informed the Board that the President's budget asked Congress to remove the rider that was making population control of wild horses and burros a challenge. Commissioner Higbee inquired about PILT re-distribution and calculations. Mr. Shuffield informed the Board that a Montana Congressman is looking at sponsoring legislation that would remove the population caps to direct more money to small population counties and potentially add funds to the program but that it has yet to be introduced. Dagny thanked Ms. Cox and Mr. Shuffield for their presentation.

11. **Update and Discussion on NACO and NACO Members' Participation in the National Association of Counties 2018 Legislative Conference in Washington D.C., including Meetings and Events Held During the Conference**. Board and County representative attendance at the Conference was confirmed. Dagny reviewed the agenda for the trip and noted that an itinerary will be sent to those attending prior to the Conference. She referenced the Federal Priorities document included in the packet and noted that it is similar to years past and that there were some minor changes to the previously distributed document. She asked members to direct their attention to the public lands and transportation sections, to which NACO staff had made minor changes based on current discussions in D.C. and the receipt of additional information. The Association's 2018 Federal Priorities were approved on a motion by Commissioner Tipton with second by Commissioner Lucey.

12. **Update and Possible Action Regarding Public Lands and Natural Resources Issues Affecting Counties Including:** Commissioner Tipton informed the Board that the Public Lands Committee would be developing draft language for MOU's with the Forest Service and BLM. She also noted that the Committee will be providing an updated Public Lands Action Plan. Tori informed the Board that a meeting is being held at Holland and Hart to discuss the redo of the BLM and USFS's sage grouse plans and encouraged all affected counties to participate.

    a. **Proposed Department of the Interior Reorganization Including NACO Position, and Joint Position Letter from the Western Governors' Association, NACo Western Interstate Region, and the Utah and Wyoming Associations of Counties**. Tori gave an overview of the item and informed the Board that she had recently attended a meeting about the proposed reorganization in Salt Lake City. Several Nevada County Commissioners also attended that meeting. She noted that there was a contingency of western associations including the Western Governors Association and several state associations of counties that had produced a letter to respond to the proposal. She informed the Board that a revised letter based upon a map that had been released that morning had been distributed for the Board's consideration. She also noted that signing onto the letter is a strategic response and that the Board would be free to take a stronger position in the future if they see fit. Tori stressed that signing onto the letter is effectively a seat at the table and that there wasn't an opportunity to change the language because several of the other participants had already approved the letter as written. Dagny was instructed to sign the letter on behalf of the Association on a motion by Commissioner Wichman with second by Commissioner Tipton. Commissioner Lucey asked to have it brought back for discussion after the NACo Legislative Conference. Dagny asked for and received clarification that the Board's official position on the proposal in its current form is opposed.

AMERICAN OVERSIGHT

b. **The Center for Biological Diversity's Lawsuit against the U.S. Fish and Wildlife Service Seeking to Vacate their Decision not to List the Bi-State Sage Grouse as an Endangered Species and NACO's Motion to Intervene on behalf of the Service**. Tori informed the Board that the reply brief had been submitted and that oral arguments were scheduled on March 16th. She added that the case is a window into future listing decisions and how the FWS will or won't be able to adopt policy recognizing local conservation efforts. Dagny recognized Tori's work on the reply brief, informing the Board that Mono County and the AG's office had deferred to her and that she would be conducting the oral arguments in San Francisco.

13. **NACO Committee of the Emeritus Update**. Dagny informed the Board that Vinson had been working on the county commissioner brochure and that the Washoe County Clerk's office had help with the final design for distribution. She also noted that the County Clerk's cannot distribute the brochure but that Vinson had been developing a strategy for distribution through community groups and state and local party associations.

14. **National Association of Counties and Western Interstate Region Board Member Updates**. The next meetings of the individual Boards will be held at the NACo Legislative Conference and Vice President French and Commissioner Tipton will have updates at the next meeting. Commissioner Lucey also informed the Board that Commissioner Hartung would be attending the Transportation Steering Committee on his behalf and that he will have an update in March as well.

15. **NACO Board Member Updates**. Updates were given by members of the Board on activities within their counties.

16. **Public Comment**. None was given.

The meeting was adjourned at 11:52 a.m.

AMERICAN OVERSIGHT

Gina Rackley
Humboldt County Comptroller / Auditor
50 W. Fifth Street, #203
Winnemucca, NV 89445
775-623-6467
Comptroller@hcnv.us

Dear NACO Board Members,

Thank you for this opportunity to apply for the Committee on Local Government Finance vacancy. This Committee is very important with their service to our Cities, Counties, Schools and State in a very key way and I am honored to submit my resume to you for your consideration of appointment.

A little about myself, I am a native Nevadan born and raised in Hawthorne during the boom years when the base was in full operation. Following high school I attended the University of Nevada – Reno, where I met my husband, Jim, who is a 5th generation native Nevadan. In 1990, we moved to Winnemucca as my husband was hired in the mining industry, where he still works today. We have two children – Jessica, who graduated from Montana State University and has since returned to Nevada receiving a job with Great Basin Institute in Ely; and Jimmy, who is a junior at Lowry High School in Winnemucca.

Experience

I have 28 years of experience in local government finance. I began my career in the City of Winnemucca Clerk / Treasurer's office from 1990 to 1999. I accepted a position as Accounting Technician in the Humboldt County Comptroller's office working under and mentored by then Comptroller, Bruce Brooks, from 1999 to 2006. In 2006 I was elected as Humboldt County Treasurer and served in that capacity for 10 years. I applied for the vacancy of the Comptroller / Auditor position with the confidence that my years of experience in local government finance would benefit Humboldt County. The Humboldt County Board of Commissioners agreed and I was honored to receive their appointment as Comptroller / Auditor effective January 2017.

Education

I graduated from Mineral County High School, Hawthorne, NV in 1986.
Attended the University of Nevada – Reno from 1986 to 1999 majoring in Business Administration
Graduated from Great Basin College, Winnemucca, NV with an degree in Business Administration

References

Alan Kalt, Retired Churchill County Comptroller	775-427-5272
Bruce Brooks, Retired Humboldt County Comptroller	775-625-0146

If selected as one of the Nevada Association of Counties representatives to the Committee on Local Government Finance, I would be greatly honored and proudly serve to the best of my ability. I would be happy to speak with you further and answer any questions you may have.

March 15, 2018

via email: dstapleton@nvnaco.org

Dagny Stapleton, Executive Director
Nevada Association of Counties
304 South Minnesota Street
Carson City, Nevada 89703

RE: Resource Concepts, Inc. (RCI) Proposal for Technical Support to the Nevada Association of Counties (NACO) for the BLM's Nevada Greater Sage-grouse Land Use Plan Amendment (LUPA)

Dear Ms. Stapleton:

Per our meeting at NACO on February 28, and my subsequent email to you on March 2, 2018, Resource Concepts, Inc. (RCI) offers this proposal for your consideration. RCI would provide technical support to NACO for the BLM's Nevada Greater Sage-grouse Land Use Plan Amendment, and engage along with NACO in the BLM NEPA process as appropriate. RCI's primary responsibilities would include:

1. Focused technical support in three key areas:
    a. Greater Sage-grouse Habitat Maps. Advance a protocol for updating habitat maps and classifications based on relevant and updated on-the-ground information without requiring another LUPA.
    b. Habitat Objectives Table 2.2. Advocate for objectives that are truly applied as objectives rather than standards and ensure that such objectives are applied in a feasible manner based on ecological site potential and current site condition rather than an unreasonable blanket standard.
    c. Adaptive Management portion (Appendix J) of the current LUPA. Ensure true adaptive management principals are applied rather than simply imposing additional restrictions.
2. Identify and utilize examples of issues that local government has experienced as a result of the current LUPA in order to strengthen the case for addressing and resolving the above-listed items.
3. Engage in the LUPA NEPA process. Attend necessary meetings, work with collaborators and cooperators, engage the BLM as appropriate through the Cooperating Agency process, review State and BLM proposals and documents, and develop written comment as necessary for NACO's use.

RCI's general approach to accomplishing the above-listed scope of work would be as follows:

1. Utilize the Nevada "State Plan" as a starting point, and offer adjustments and improvements where necessary;
2. Coordinate closely and work directly with NACO to advance proposals (to support existing components of the State Plan, or support concepts with specific modifications / updates) through the BLM process at the appropriate time and in the appropriate format; and,

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003714

3. Engage the BLM, State Sagebrush Ecosystem Program (SEC/SETT), and other federal or state agencies / entities as appropriate, with an eye towards reaching a collaborative solution and outcome while attempting to avoid future need for litigation by local governments.

All deliverables (concepts, proposals, formal comments, and correspondence with collaborators) shall be shared directly with you, appropriate staff and NACO members. RCI understands that all deliverables are the property of NACO and that such products may be shared with associated Counties and collaborators as you deem appropriate.

RCI understands that the BLM's Cooperating Agency process will commence in March 2018, with planned completion and Record of Decision issued in April 2019. As such, RCI would propose an agreement term of March 1, 2018 through June 30, 2019. If the BLM's timeline is extended, then the end of the term could be adjusted as needed.

While it is difficult to anticipate how the process will unfold between now and next spring/summer, RCI estimates that the above-listed scope of work and approach would cost between $44,000 and $48,000. As such, RCI would propose a time and materials agreement not to exceed $50,000 total. RCI will coordinate all tasks prior to initiation with NACO, invoice on a monthly basis and provide monthly progress/budget reports. RCI will only bill for work completed, including time and any expenses incurred based on the terms and conditions of the attached Fee Schedule.

If the terms of this proposal are acceptable to you, please acknowledge by signing the below "approval" line. Please do not hesitate to contact me to discuss any questions or concerns you may have.

Thank you,

Jeremy Drew, Resource Project Manager
Resource Concepts, Inc.

Jeremy Drew, Resource Project Manager

Since joining RCI in 2005, Mr. Drew has drawn on his unique combination of technical background, field experience, and communication skills to complete a variety of challenging natural resource projects. Prior to joining RCI he was a seasonal employee and volunteer with the Nevada Division of Wildlife working throughout Nevada, and a summer intern with the Congressional Sportsmen's Foundation in Washington DC. His unique combination of education and experience has afforded him the skills to effectively communicate and articulate from both technical and policy standpoints. He has served as Project Manager for some of RCI's largest natural resource clients, including leadership roles in multi-disciplinary and collaborative Project Teams. In addition to his professional role with RCI, Mr. Drew has served as a volunteer director for two prominent Nevada sportsmen-conservation organizations. Mr. Drew also served on the Governor-appointed Nevada Board of Wildlife Commissioners as a Sportsmen's Representative from Douglas County and the Nevada Sagebrush Ecosystem Council.

Recent Representative Projects:

The Conservation Fund – Jacks Valley Ranch Biological Assessment. As Project Manager, Mr. Drew developed a Biological Assessment for the historic Jacks Valley Ranch located in Douglas County, Nevada. Mr. Drew worked with The Conservation Fund, Nevada Land Trust, the Ascuaga family, and Nevada Department of Wildlife to develop biological information and mapping in support of a grant funding nomination through the Southern Nevada Public Land Management Act (SNPLMA). Despite a short timeframe, RCI completed the project on time, contributing to a successful nomination. The result secured funding for a 1,200+ acre conservation easement that was used to conserve a working ranch, open space and invaluable wildlife habitat in perpetuity.

City of Yerington Land Conveyance. As Project Manager, Mr. Drew led an RCI Team that completed a Biological Technical Report, Phase 1 Environmental Site Assessment and Environmental Assessment for a tract of BLM land that was over 10,000 acres. Field work included biological surveys for BLM Sensitive plants and animals, as well as noxious weeds. Mr. Drew was lead author on the Environmental Assessment for the conveyance of approximately 10,000 acres from the BLM to the City of Yerington as required by federal legislation. The project was legislatively mandated for completion within a 180-day window, requiring close coordination with the BLM's Carson City District Office, City of Yerington and other Project Consultants. RCI's work was completed on time and under budget, helping to complete the land conveyance as quickly as possible.

Nevada Pinyon-Juniper Partnership. As Project Manager, Mr. Drew coordinates the day-to-day activities of the Partnership. Members consist of federal, state and local government, non-government organizations and interest groups, including: public land managers, researchers, industry representatives and economic development professionals. The goal of the Partnership is to encourage the science-based rehabilitation and restoration of pinyon-juniper woodlands on a landscape level using sound management practices. The Partnership is unique in that it explores various means by which utilization of pinyon-juniper biomass, generated from rehabilitation projects, could be utilized in an economical and environmentally sound manner that ultimately expands treatment acres while generating rural economic development.

Wilderness Assessment. As Project Manager, Mr. Drew provided project leadership and technical assistance for *An Evaluation of Natural Resources, Unique Values, Land Uses and Stakeholder Input for the South Pine Grove Hills, Bald Mountain and East Walker River Area*. This evaluation was commissioned to determine the true values of an area of public land that was being proposed as a Wilderness Area as part of a larger lands bill in the United States Congress. As a result of the evaluation, local, state and federal policy makers were able to make an informed decision and derive a consensus-based wilderness proposal after being gridlocked by a series of competing interests and viewpoints prior to publication of the evaluation. The Wovoka Wilderness Area was ultimately designated upon passage of the Lyon County Lands Act.

Various Biological Surveys. Mr. Drew has served as Project Manager and field team member for a host of biological survey work, and preparation of several biological technical reports. He is experienced in background data searches and field surveys for US Fish and Wildlife threatened and endangered species, BLM Sensitive plant and animal (bat, bird/raptor, and mammal) species, and noxious weeds. Mr. Drew has worked across a multitude of federal jurisdictions with both the US Forest Service and BLM. Clients have ranged from local government, utility districts, renewable energy development, and mining exploration and development.

AMERICAN OVERSIGHT

Jeremy Drew, Resource Project Manager

Lincoln County Nuclear Oversight Program. Mr. Drew has provided technical assistance and public land policy direction as Project Manager to Lincoln County, as it relates to the Caliente Rail Corridor. The Corridor has been planned to carry high-level nuclear waste across Lincoln County to a potential future repository at Yucca Mountain. Mr. Drew has coordinated and collaborated with local stakeholders, county representatives and other county contractors to determine the impacts of such a project to Lincoln County, its citizens and its natural resources. The project team has developed mitigation measures and alternative design and routing proposals, reviewed and provided comment to various environmental documents, engaged in various administrative hearings and procedures, and evaluated related renewable energy projects for compatibility and cumulative impacts.

Delamar Valley Livestock. As Project Manager, Mr. Drew has assisted this large ranching operation with an overall evaluation of its water resources (both surface and underground). Mr. Drew has assisted in various water rights filings, water conveyance and efficiency improvements, and planning efforts. He has served as an expert witness in a high-profile water rights hearing in an effort to protect the client's water rights, its overall operation and the natural resources associated with the ranch. Work has focused on balancing water demands for ranching and agricultural with the conservation of critical environmental resources and values shared by the ranch owners.

Off-highway Vehicle (OHV) Working Group. Mr. Drew was retained to serve as the Co-Coordinator of a statewide OHV Working Group. The group consisted of representatives from a multitude of interest groups, including but not limited to, OHV dealers, OHV racers, OHV recreationalists, sportsmen, ranchers, farmers, conservationists and environmentalists. The purpose of the group was to develop a consensus OHV Registration Program for the State of Nevada, and to develop and support legislation within the Nevada Legislature that met the intent of the group. The legislation developed by the group passed in one session, after four previous unsuccessful attempts.

Carson City, Waterfall Fire Watershed Assessment. Mr. Drew served as part of a multidisciplinary team that completed a comprehensive watershed assessment for Carson City. Mr. Drew utilized both his natural resource and civil engineering background to help complete the analysis, including evaluation of both upland and riparian ecosystems, as well as City infrastructure (i.e. roads, water systems and storm drainage). Mr. Drew has assisted in various environmental assessments and engineering design projects that were recommended based on the findings of the initial assessment.

Shoshone-Bannock Tribe. Mr. Drew served as part of a multidisciplinary team that completed a comprehensive range assessment for tribal holdings. Mr. Drew evaluated proper functioning condition of riparian areas and grazing utilization rates in upland areas. He helped to develop and review the overall rangeland assessment report and recommendations to improve future management.

N-4 State Grazing Board. Mr. Drew has provided technical services for grazing-related public lands policy issues for the N-4 grazing board. Projects have included review and comment to grazing policy documents, NEPA documents, and large-scale projects and rights-of-way on public lands.

Additional Past Projects:

Expertise in Biological Monitoring in Western Nevada. Mr. Drew resides in Carson Valley, works in Carson City, and has an advanced knowledge of western Nevada and its wildlife. Over the past 15 years, Mr. Drew has worked on a wide variety of biological monitoring projects during his employment with RCI and in his previous employment with the Nevada Department of Wildlife. Experience includes field surveys and population monitoring of avian wildlife, sensitive species and big game populations. Mr. Drew served 6 years, 2 as Chair, as a member of the Nevada Board of Wildlife Commissioners representing sportsmen from Douglas County.

Expertise with Avian Wildlife. Mr. Drew has an extensive knowledge of avian wildlife. He has led and worked as a team member for a variety of avian wildlife projects such as: urban waterfowl capture and relocation; waterfowl brood survey; waterfowl banding; aerial raptor surveys; migratory bird surveys; burrowing owl surveys; and, greater sage-grouse capture and population monitoring.

Stillwater Farms / Canvasback Gun Club. In his capacity as Project Manager, Mr. Drew developed a written management plan for the Stillwater Farms and Canvasback Gun Club located near Fallon, Nevada. The Management Plan was completed to capture the knowledge and experience of the farm's long-time manager in order to explore options for securing a conservation easement for the property. The property is managed to provide habitat for waterfowl, shorebirds and other wildlife in balance with recreational demands of club members.

Lincoln County Habitat Conservation Program. Mr. Drew provided technical assistance for planning and implementation of the Southeastern Lincoln County Multi-species Habitat Conservation Plan. Later serving as Project Manager, his primary duties included identification of mitigation sites and development of mitigation plans for southwestern willow flycatcher habitat projects.

NEVADA ASSOCIATION OF COUNTIES (NACO)

Board of Directors' Meeting
February 23rd, 2018, 9:30 a.m.
NACO Office
304 S. Minnesota Street
Carson City, NV 89703

AGENDA

Some NACO Board members may attend via video link or phone from other locations. Items on the agenda may be taken out of order. The NACO Board may combine two or more agenda items for consideration. The NACO Board may remove an item from the agenda or delay discussion relating to an item on the agenda at any time.

Call to Order, Roll Call and Pledge of Allegiance

1. Public Comment. Please Limit Comments to 3 Minutes.

2. Approval of Agenda. **For Possible Action.**

3. NACO President's Report.

.

4. NACO Executive Director's Report.

5. Approval of Minutes of the January 19, 2017 NACO Board of Directors Meeting. **For Possible Action.**

6. Approval of Additional 2018 NACO Associate Members. **For Possible Action.**

7. Approval of the Appointment of Alan Kalt to serve as NACO's Fiscal Officer. **For Possible Action.**

8. Approval of NACO's 2017 Financial Statements and January 31, 2018 Investment Reports. **For Possible Action.**

9. Discussion and Presentation on the Newly Organized Nevada Network of Fire Adapted Communities, Ed Smith, University of Nevada Cooperative Extension and Michael Beaudoin, Network Coordinator (Nevada Division of Forestry).

10. Federal Legislative Update Provided by the National Association of Counties (NACo) Legislative Staff.

11. Update and Discussion on NACO and NACO Members' Participation in the National Association of Counties 2018 Legislative Conference in Washington D.C., including Meetings and Events Held During the Conference. **For Possible Action.**

Note: The NACO Board of Directors May Interrupt the Open Meeting and Exclude the Public from the Meeting for the Limited Purpose of Receiving the Information and for Deliberation Relative to Agenda Item #12 (b) below:

12. **Update and Possible Action** Regarding Public Lands and Natural Resources Issues Affecting Counties Including:

    a. Proposed Department of the Interior Reorganization Including NACO Position, and Joint Position Letter from the Western Governors' Association, NACo Western Interstate Region, and the Utah and Wyoming Associations of Counties.

    b. The Center for Biological Diversity's Lawsuit against the U.S. Fish and Wildlife Service Seeking to Vacate their Decision not to List the Bi-State Sage Grouse as an Endangered Species and NACO's Motion to Intervene on behalf of the Service.

NEVADA ASSOCIATION OF COUNTIES (NACO)

Board of Directors' Meeting
January 19th, 2018, 9:30 a.m.

UNADOPTED MINUTES

ATTENDANCE: President Phillips, President Elect Weekly, Vice President Waits, Past President Wichman, Humboldt County Commissioner French, Mineral County Commissioner Tipton, Clark County Commissioner Kirkpatrick, Elko County Commissioner Dahl, Lincoln County Commissioner Higbee, Lyon County Commissioner Hunewill, Carson City Mayor Crowell, Storey County Commissioner McGuffey, Douglas County Commissioner Thaler, Esmeralda County Commissioner Bates, Elko County Commissioner Steninger, Churchill County Commissioner Olsen; and Edrie LaVoie, Nevada Association of Human Services Administrators.

REMOTE ATTENDANCE: Churchill County Manager, Eleanor Lockwood; Erin Dickinson, Crueger Dickinson; and Nancy Parent, Nevada Association of Clerks and Election Officials

OTHER ATTENDANCE: Robert Eglet, Richard Hi, Brenden Laux, and Robert Adams, Eglet Prince; Churchill County DA, Ben Shawcraft; Lee Bonner, NDOT; Clark County Commissioner, Chris Giunchigliani; Lyon County Manager, Jeff Page; Washoe County Commissioner, Jeanne Herman; Washoe County Manager, John Slaughter; Clark County Assistant Manager, Kevin Schiller; and former NACO Executive Director, Jeff Fontaine.

The Meeting was called to order by President Phillips at 9:30AM

1. **Public Comment**. None was given.

2. **Approval of Agenda**. The agenda was approved on a motion by Commissioner Tipton with second by Past President Wichman.

3. **Investiture of the 2018 NACO Officers**. Clark County Commissioner, Lawrence Weekly was installed as President; Lander County Commissioner, Patsy Waits was installed as President Elect; Humboldt County Commissioner, Jim French was installed as Vice President and Lincoln County Commissioner; Kevin Phillips assumed the office of Immediate Past President. Past President Phillips administered the oath of office for each of the new officers.

4. **NACO President's Report**. President Weekly thanked the Board for their support and discussed his goals to continue to work more closely as a State and to continue to help each other through both common and more regionally affected issues through the sharing of information and resources. He thanked Past President Phillips for his leadership and recognized the new members of the Board. President Weekly concluded his remarks with the reminder that the April meeting will be held in Clark County and requested that the members let staff know if they plan to attend the meeting in person in order to plan accordingly.

.

5. **NACO Executive Director's Report**. Dagny reminded the Board that the Committee of the Emeritus would be conducting their second workshop of the interim on February 2nd regarding county tax revenues. She announced that the Department of Business and Industry would be hosting a workshop on financing available to counties on February 16th. She informed the Board that there would be a Block Chain conference regarding crypto-currency in Reno and that there may be applications for use of the technology for counties. Dagny concluded her remarks with the announcement that Vinson Gurthreau had been hired as the Deputy Director and would start on January 29th. She noted that Vinson had previously worked for the Association and had also worked for the State and in other capacities related to local government.

AMERICAN OVERSIGHT

6. **Approval of Minutes of the December 15th, 2017 NACO Board of Directors Meeting**. The minutes were approved on a motion by Past President Phillips with second by Commissioner Tipton.

7. **Approval of NACO's 2018 Associate Members**. NACO's 2018 roster of Associate Members was approved on a motion by Commissioner Tipton with second by Commissioner Wichman.

8. **Approval of the Appointment of NACO Executive Director Dagny Stapleton to the University of Nevada Cooperative Extension Advisory Council**. Dagny was appointed to the represent the Association on the Council on a motion by Commissioner Wichman with second by Commissioners Tipton and Bates.

9. **Approval of NACO Resolution 18-01 Recognizing January as National Radon Action Month**. The Resolution was approved on a motion by Commissioner Tipton with second by Commissioner Wichman. President Elect Waits also informed the Board that free test kits can be obtained through University of Nevada Cooperative Extension program.

10. **Discussion and Presentation Regarding the Opioid Epidemic in Nevada and Options for Counties to Engage in Legal Action Against Opioid Manufacturers, Robert Eglet, Partner, Eglet Prince; Erin Dickinson, Partner, Crueger Dickinson**. Dagny reminded the Board of the discussion that had taken place at the December meeting regarding the issue and that at the Board's direction the firms Eglet Prince and Crueger Dickinson, who have both been engaged by counties on opioid lawsuits, were invited to address the Board. She noted the materials included in the agenda packet, including the brief filed on behalf of Clark County. Mr. Eglet informed the Board that Eglet Prince is a Nevada law firm and gave a presentation that included background information on the impacts of the epidemic in Nevada and the aggressive marketing campaign that pharmaceutical companies targeted to doctors that downplayed the risks of addiction. Mr. Eglet's presentation also included information on the number of prescriptions written throughout the country and the state, specifically noting that in some areas the number of prescriptions exceeded the number of living adults. He discussed his firm's strategy regarding filing the lawsuit in state in the hope of retaining control and a larger settlement than if the case was filed or pulled into federal court. He also noted that Nevada has stricter product liability laws. He concluded his presentation with a review of his firm's qualifications and accomplishments. Ms. Dickinson spoke regarding the federal litigation and how Nevada's counties could fit into those suits. She noted that her team, comprised of several different firms, represents 183 counties throughout the country and that most cases filed in state courts were being removed to federal court. She discussed the recent hearing in federal court and the presiding judge's plan of action to resolve the nationwide cases in 2018. She noted that the judge has invited all parties involved including the AG's and states to participate in the process. She concluded her remarks by indicating their interest in working with local litigators and stressed their opinion that federal court is the right place for the conclusion of this matter. Questions from the Board included current settlement talks with the 40 AG's that had filed; specific damages identified by counties; and the potential distribution of funds if settlement is reached at the federal level vs. the state level. The costs to counties for providing the necessary data regarding the impacts to their services from the epidemic, along with an offer from Eglet Prince to cover those costs as a part of any contract signed with their firm, was also discussed. President Weekly reminded the Board that Clark County had engaged with Eglet Prince, but that individual counties were invited to contact the firms directly for additional information. No action was taken by the Board.

11. **Presentation from the Nevada Association of County Human Services Administrators, *County Human Services 101*, Edrie LaVoie, Lyon County Human Services Director**. Ms. LaVoie, Lyon County Human Services Director, thanked the Board for the opportunity to present to on the human services provided by counties. She noted that while each county has different needs and models for service delivery, all 17 counties are bound by NRS to provide a myriad of social services. She provided an overview of those mandated services along with the associated chapters in Nevada Statute. She noted that the 2011 legislative session transferred responsibility for many services to the counties, including increases in the county responsibility for Medicaid match. She discussed the statute changes that moved fiscal responsibility for child protection services and child developmental services from the state to the counties, even though the state still provides the services. Ms. LaVoie noted the impact of the change to the assessments was $19.4M. She also reviewed the funding for human services specifically different tax levy's and how they are utilized and either maintained by the

AMERICAN OVERSIGHT

state or returned to the counties. She discussed the changes to indigent care costs due to the implementation of the ACA and how the Indigent Accident Fund had evolved to address those changes and costs to counties. She reiterated that all 17 counties are responsible for providing the same services, but that delivery models differ based on the needs of the individual county. She noted that each county has a responsibility to develop and adopt standards through county code. She addressed NRS that defines county responsibilities and how the institution of the ACA changed county responsibility to provide medical care and that with the repeal of the individual mandate that could result in needing to provide those services again. Ms. LaVoie noted that county human services are evolving to change their service models based on community needs and changes in federal and state laws. President Weekly addressed issues between local governments (city v. county) and the level of responsibility for providing services, noting that it is clear counties have the greater level of responsibility. Mayor Crowell inquired as to the level of damages counties may have sustained as a result of the opioid epidemic, Ms. LaVoie noted that a large percentage of people to whom services are provided have addiction issues. Commissioner Tipton noted that 50-55% of return inmates have issues with substance abuse. Dagny noted that one of the issues that NACO works on with the rural county human services directors includes negotiation of contracts with the State. Edrie indicated that her presentation was available to share and that their Association could provide any additional information that the NACO Board might be interested in.

12. **Update and Discussion on NACO and NACO Members' Participation in the National Association of Counties 2018 Legislative Conference in Washington D.C., including Meetings and Events Held During the Conference**. Dagny reminded the Board that the Conference would be held March 3-7. She informed the Board that the Association is setting meetings with each of the Federal Delegation members and encouraged attendance at these meetings to discuss statewide issues. She referenced the draft Federal Priorities document that was distributed and requested any input be directed to staff, as the document does not need to be finalized until the next Board meeting. President Weekly requested those attending to let staff know and referenced the additional events the Association facilitates. It was noted that National policy requests are due to the NACo Steering Committee's on February 6th. No action was taken.

13. **Discussion Regarding the Ongoing Development of Policies and Programs Governing the use of Drones (Unmanned Aerial Systems), Including the Federal Unmanned Aerial Systems Integration Pilot Program**. Dagny reminded the Board that drones were addressed at a prior NACO meeting and that Commissioners Kirkpatrick and Tipton, who have both been a part of discussions on this topic at the National Association Board, will follow up on that conversation. Commissioner Kirkpatrick referenced information that had been distributed and informed the Board that local entities are able to regulate who, when and where drones can fly. She noted that issues have arisen in the public safety arena. She informed the Board that Clark County had looked into participating in pilot programs and that the federal government was expected to have funds set aside for grant programs. She also noted that the State is working on the issue and that they are looking for local government input. Commissioner Dahl stated that he agreed that participation is important. Commissioner Tipton told the Board that she had the opportunity to speak to a representative from Gila County AZ and during that discussion she was informed that there is an overarching federal advisory board that is coming up with rules and regulations for the nation and that unfortunately only one member of that board is a local government representative while most of the remainder are industry representatives. She specifically noted discussions regarding the potential for crashes of unmanned taxis and the responsibility for the cost of cleanup and the use of drones in criminal activity. Commissioner Tipton noted that there are benefits to drone usage but local government input is imperative. Commissioner Kirkpatrick inquired as to the appetite for participation during the development of the regulations with State. She clarified that at this time participation means whether counties are interested in being included. Dagny noted that per the discussion there are three pieces to the issue, how counties can use drones in house, economic development opportunities for private industry and local pre-emption with regards to how federal regulations will affect how counties can regulate drones. Commissioner Kirkpatrick noted that the NACo transportation committee had been working on the issue and she would like to develop a subcommittee to work on the issue in conjunction with the State. All members indicated that they would like more information and/or to participate on a subcommittee to discuss the issue.

AMERICAN OVERSIGHT

Note: The NACO Board of Directors May Interrupt the Open Meeting and Exclude the Public from the Meeting for the Limited Purpose of Receiving the Information and for Deliberation Relative to Agenda Items #14 (b) and (d) below:

14. **Update and Possible Action Regarding Public Lands and Natural Resources Issues Including**: Commissioner Tipton informed the Board that the Public Lands and Natural Resources Committee had met the previous day and deferred to Tori for updating the Board on the items below.

    a. **NACO's Engagement in the Bureau of Land Management's and U.S. Forest Service's Greater Sage Grouse Resource Management Plan Amendments**. Tori informed the Board that comments had been submitted per the Board's previous direction. She told the Board that she expected to see the scoping report be released in the short term with direction from the Department of Interior on implementation. She noted that she is hopeful for a Nevada specific plan per the order of the court. She informed the Board that Cooperating Agency agreements are expected to be entered into and she is working with counties on those agreements and encouraged attendance at privileged meetings, in person if at all possible.

    b. **The Ongoing Lawsuit Filed by the State of Nevada and Nine Nevada Counties Regarding the BLM's and U.S. Forest Service's Greater Sage Grouse Resource Management Plans**. Tori informed the Board that this is a standing item and there is nothing new to report.

    c. **Release of the Draft Environmental Impact Statement for the Nevada Test and Training Range Military Land Withdrawal at Nellis Air Force Base**. Tori informed the Board that the draft EIS had been released and that it had been in the news. She referenced the public meetings that were being held and encouraged attendance by those affected. Commissioner Wichman encouraged that the group read the DEIS, because it speaks to impacts to specific communities and contains language that could be helpful in the future with other agencies. Commissioner McGuffey noted that he is opposed to the taking of more land especially as it impacts use of land by Nevadan's and inquired as to if it would be helpful for those not directly impacted to attend, Tori noted that public participation is always important. Commissioner Olsen noted that there is a large impact to his county from the Naval Air Station in regards to civilian payroll, conservation efforts etc. and that it is important for mitigation of negative impacts. Commissioner Kirkpatrick noted that Clark County has held conversations with the Base leadership on working with the other counties affected on how to lessen impacts. Tori concluded the discussion with the reminder that as Commissioners, engagement is enabled through the NEPA process and staff is available for support.

    d. **The Center for Biological Diversity's Lawsuit against the U.S. Fish and Wildlife Service Seeking to Vacate their Decision not to List the Bi-State Sage Grouse as an Endangered Species and NACO's Motion to Intervene on behalf of the Service**. Tori reminded the Board that the Association had chosen to intervene and that it is important because the partnership developed for conservation of the species is a model for conservation and that the decision will have an affect all listing decisions going forward. She informed the Board that the reply brief is due February 6th and that oral arguments will be held on March 16th in San Francisco.

15. **NACO Committee of the Emeritus Update**. Commissioner Wichman noted that Past President Phillips had asked her to participate in the last meeting in his stead and she noted that she had a wonderful time Chairing the Committee for the past two years. She said that she is excited for the next workshop on county revenues. Commissioner Tipton inquired as to the completion of the pamphlet on being a County Commissioner and Dagny informed the group that the document is being refined and that she will be having Vinson tackle that project.

16. **National Association of Counties and Western Interstate Region Board Member Updates**. Commissioner Dahl informed the Board that there had been one Western Interstate Region call since the meeting in Wyoming that dealt primarily with PILT and SRS and the next meeting will be in Idaho in May. Commissioner Kirkpatrick noted that the WIR group is lucky to have Commissioner Cruikshank at the helm. Vice President French informed the Board that he would like to bring some

AMERICAN OVERSIGHT

new issues before WIR, and specifically spoke to the proposal of the Interior Department to add additional district regions to the West that is cause for concern, specifically as it relates to loss of input for rural jurisdictions. Commissioner Tipton noted that the proposal does not appear to give counties any additional voice and can negate decisions made a state level and Commissioner French concurred and added that the proposal somewhat mimic's the Planning 2.0 initiative that was removed by Congressional Action. Commissioner Kirkpatrick echoed concern specifically where water concerns come into play and encouraged the placement of the issue on individual commission agendas.

17. **NACO Board Member Updates**. Updates were given by members of the Board on activities in their counties.

18. **Public Comment**. President Elect Waits reminded the Board that she sat on the State Division on Aging and wanted to let the Board know that a lot of the tobacco settlement funds were spread through the counties for projects that benefited the elderly.

The meeting was adjourned at 1:50PM

Nevada Association of Counties (NACO) Federal Priorities

Health & Human Services

Protect the Federal State Local Partnership for Medicaid: NACO supports maintaining the federal-state-local structure for financing and delivering Medicaid services while maximizing or enhancing flexibility to support local systems of care. Counties are concerned about measures that would further shift Medicaid costs to counties, including proposals to institute block grants or per capita caps. Counties' ability to raise revenue is already restricted by the State and these proposals would increase the amount of uncompensated care provided by counties and reduce counties' ability to provide for the health of our residents. Counties have made the most of Medicaid's flexibility and have constructed health systems that serve a disproportionate share of low income populations, including the homeless, and those cycling in and out of county jails. Medicaid funding also impacts county hospitals - without sustained funding, county hospitals would be forced to shutter their doors. Counties do support efforts to improve the efficiency, flexibility and effectiveness of policies and operations.

Protect Funding for Key Behavioral Health Programs: NACO supports measures that maintain funding for the Substance Abuse and Mental Health Services Administration (SAMHSA) block grants, ease the Institute of Mental Disease (IMD) exclusion, expand access to health information technology (HIT), and to develop and expand the behavioral health workforce.

www.nvnaco.org

Public Safety

Mental Health and Jails: County jails are not the appropriate place to treat individuals with mental illness, unfortunately, nationally, 64% of jail inmates in the United States have a behavioral health issue. In Nevada, our county jails are one of the largest providers of behavioral health services in the State. NACO supports measures that enhance the ability of counties to prevent and treat mental illness and substance use disorders, both in the community and within the context of the criminal justice system. NACO also supports programs and legislation that divert non-violent individuals struggling with mental illness and/or substance use disorders from jails and into treatment programs while protecting overall public safety. NACO also supports the extension of Medicaid to individuals detained in county jails pending disposition of charges and the suspension, instead of termination, of benefits during the incarceration period. Because States refuse to assume the federal share of providing Medicaid services to eligible persons in custody in county jails, benefits and eligibility can be terminated; as a consequence, the entire cost of medical care for all arrested and detained individuals falls to the counties.

Justice and Mental Health Collaboration Program (JMHCP):
(Formerly known as The Mentally Ill Offender Treatment and Crime Reduction Act) This program supports local efforts to decrease mental illness in jails through a broad range of activities, including: jail diversion programs, mental health courts, in-jail treatments and transitional services. JMHCP should be fully funded in the annual appropriations process, and Congress should reauthorize the program.

The U.S. Department of Justice's Byrne JAG: This grant program is a critical part of the federal government's support for local law enforcement programs and initiatives. Byrne JAG funds can be used for local criminal justice programs related to prosecution and courts; prevention and education; corrections and community corrections; drug treatment and enforcement; planning, evaluation, and technology improvement; and crime victim and witness programs (other than compensation). Full funding for the program should be a priority in annual appropriations.

www.nvnaco.org

Public Lands & Natural Resources

Public Land Management: As Nevada's Congressional Delegation is aware, Nevada has the largest percentage of federal lands (87%) of any state, and some of our counties (Nye, Esmeralda, Lander, Lincoln and White Pine) have 90 to 98 percent of their total county acreage administered by the federal government. As a result, Nevada's counties find their local economies, fiscal condition, and quality of life influenced considerably by federal land management decisions. For example, public access for recreation is critically important; however, the actual economic benefits from recreation on public lands to rural economies and county revenues are small to none, while the additional number of visitors increases the demand for county services. For many Nevada communities, resource-based industries that are tied to public lands are their lifeblood. And in all counties, staying apprised of and involved in federal land management planning and conservation efforts is critical, as federal agency decisions are inextricably tied to counties' ability to effectively plan for the future and provide mandated services. Counties provide road maintenance, emergency response, law enforcement and other services on public lands and to public lands users, and also manage assets that require federal permits, leases, or easements. For all these reasons, federal land management and meaningful engagement with counties is crucial and NACO supports the following: efforts to increase federal land managers' engagement with county governments; appropriate revenue sharing; and the transfer of some federal land to states, at the state's request and in consultation with the counties. Also, NACO opposes the designation of national monuments made without consulting the county government in which the monument is located or without the funding necessary to provide for those who wish to visit.

Continued Full Funding of PILT (Payment in Lieu of Taxes): The PILT program provides payments to counties and other local governments to offset losses in tax revenues due to the presence of substantial federal land acreage within their jurisdictions. PILT payments are necessary to support essential local government services (mandated by law) such as education, emergency services, transportation infrastructure, law enforcement and health care. Because local governments are unable to tax the property values or products derived from federal lands, Nevada's rural counties are increasingly relying on PILT to balance their budgets and provide essential services. Without predictable mandatory funding, PILT will remain a discretionary program subject to the annual appropriations process. Thanks to the work of Nevada's federal delegation, PILT was fully funded for $465 million in FY 17. Counties ask members of Congress to support long-term predictable full funding for PILT in FY 2018 and beyond.

Funding Wildfire Response: NACO supports federal reforms to end the practice of "fire borrowing" and improve forest management and hazardous fuels management on federal lands. Fire borrowing occurs when the Forest Service takes funds away from forest health, fire prevention, and other management activities to help pay the costs to fight current wildfires. As catastrophic wildfires increase, agencies are using up funds intended for forest management to fight wildfires, as opposed to emergency funds similar to what the Federal Emergency Management Agency is allowed to use for natural disasters that exceed their annual budget. NACO would support legislation providing emergency funding to fight wildfires on public land so that the Forest Service can afford to continue critical forest management activities.

www.nvnaco.org

Military Withdrawals: The National Defense Authorization Act will be introduced to Congress for renewal in 2021. The boundaries for both the Air Force's Nellis Test and Training Range and the Navy's Fallon Range Training Complex Naval Station in Nevada are subject to reauthorization, and both bases will be asking for Congress's permission to withdraw an additional 604,789 acres of land for Fallon and 220,000 acres for Nellis to expand their boundaries in Nevada. Both agencies are currently developing Legislative Environmental Impact Statements that will be submitted to Congress before a final decision is made. Counties are currently evaluating the impacts to their communities from the proposed withdrawals and NACO asks that our congressional delegation support counties during this process and consider their needs and requests.

Wild Horses and Burros: By large margin, Nevada has the largest population of wild horses and burros on public lands of any State, and wild horses and burros have long been an integral part of the landscape and heritage of Nevada. Unfortunately, wild horse and burro populations have far exceeded Appropriate Management Levels (AMLs) for some time; horse populations have a growth rate of 15 to 20 percent a year, meaning the herds double in size about every four years. The resulting overpopulation has created serious environmental concerns for horses, wildlife, and the ecology of Nevada's rangelands. This situation also has both direct and indirect impacts on counties. NACO urges our congressional delegation to assure that the Department of Interior complies with the WFRWH&BA so that Nevada's rangelands are managed in a thriving ecological balance.

Endangered Species Act and Sage-Grouse: Stakeholders across Nevada have engaged in significant collaborative conservation efforts and species management planning to prevent a potential listing decision for Bi-state and Greater Sage-grouse populations under the Endangered Species Act. The Department of the Interior is currently revising the Greater Sage Grouse Land Use Plan Amendments, and counties hope this revision considers the needs of the species as well as the planning needs of the State of Nevada and Nevada's counties. At the same time, the Fish and Wildlife Service will look at all ongoing efforts to save the species when it reviews the status in the future. Federal funding for local collaborative conservation efforts is imperative to achieve locally-driven solutions, reduce local impacts and improve the outlook of the species.

Wilderness Study Areas (WSAs): In Nevada, there are approximately 2,552,000 acres that were designated over 30 years ago as areas that need to be studied to determine whether they contain wilderness characteristics. NACO supports Congressional language that would require that a decision be made regarding the management of these acres and that any acres not selected as wilderness be released to their previous status.

County Financing and Funding

County Authority to Collect Existing Sales Tax from Online Retailers: NACO supports legislation to permit the collection of existing sales and use taxes from remote sellers. The issue of collecting remote sales taxes has taken on greater significance in recent years due to the Internet's growth as a growing retail marketplace currently valued at $200 billion dollars. As a result, state and local governments have lost billions in uncollected sales taxes and Main Street businesses find themselves at a large competitive disadvantage to online merchants. Including in Nevada, where based on 2012 numbers, these tax revenue losses approached $400 million dollars statewide. This disadvantage is amplified because online merchants and their customers use and benefit from local infrastructure and services without contributing to their provision.

Unfunded Mandates and Preservation of County Revenues: NACO opposes any new unfunded mandates and federal initiatives that fail to protect county revenues. In addition, NACO opposes efforts by any industry seeking to create its own special immunity from state and local taxation. NACO supports efforts that preserve and enable state and local governments to exercise their tax authority.

Support Funding for the Community Development Block Grant (CDBG) Program: NACO strongly supports the Community Development Block Grant (CDBG) program established in the Housing and Community Development Act of 1974. The CDBG program provides increased opportunities for elected county officials to plan, implement, and evaluate local community development and housing assistance programs. In order for the potential of the CDBG program to be fully realized, it must be fully funded and properly administered. NACO urges Congress, HUD and the Office of Management and Budget to comprehensively review the adequacy of present and future program levels, so that all counties, not just those that receive a direct entitlement, can participate in this important program area.

Transportation & County Infrastructure

Long-term Transportation Funding and Financing: Nevada's counties welcome the renewed focus on infrastructure. Nevada's counties support a solvent and secure dedicated federal funding source for our growing transportation and infrastructure needs. We believe a strong federal-state-local partnership will be critical to delivering a bipartisan infrastructure package that invests in every community. Counties know firsthand the infrastructure needs of our communities, including roads, bridges, airports, transit, water and sewer systems, public facilities, energy, broadband and our telecommunications network. Despite strict constraints on counties' ability to generate revenue and an ever-growing list of federal and state unfunded mandates, counties invest significantly in infrastructure. In Nevada over 60% of the roads are county maintained and counties are struggling to keep up with this responsibility. The long-term solvency of the Highway Trust Fund is critical to meeting these needs. We also welcome a renewed focus on streamlining the federal review process to help deliver urgently needed projects. Additionally, we must find the correct balance between federal, state and local investments and private sector partnerships. NACO supports continuing to urge the Administration and Congress to ensure that any infrastructure package includes the following county priorities: allocating more funding for locally owned infrastructure, a focus on local decision making and prioritizing investments that provide for increased economic development, mobility and safety.

I-11: NACO supports funding for current and future phases of I-11, including into Northern Nevada. I-11 will provide a significant economic benefit to Southern Nevada as well a significant potential benefit throughout Northwestern Nevada.

County Water/Wastewater: NACO supports the State Revolving Loan Fund (SRF) programs, the Clean Water State Revolving Loan Fund (CWSRF), and the Drinking Water State Revolving Loan Fund, as supplements to, not a substitute for, federal grants programs. Grants and technical assistance should be made available to those small, rural, disadvantaged communities that are unable to meet their needs solely with loans.

Telecommunications

Support Broadband Deployment and Adoption: NACO supports legislation and administrative policies that help counties attract broadband services regardless of population or technology used. This includes legislation that provides tax credits to telecommunications providers that develop broadband in rural and under-served communities and gives broadened eligibility and additional federal agency loan authority or extension of credit to telecommunications providers that deploy broadband in rural communities.

AMERICAN OVERSIGHT

February xx, 2018

Honorable Ryan Zinke
Secretary
U.S. Department of the Interior
1849 C Street, N.W.
Washington D.C. 20240

Dear Secretary Zinke:

On behalf of Western Governors and counties throughout the region, we seek to provide feedback on the preliminary plans to reorganize the Department of the Interior (the Department) and its bureaus.

We appreciate your desire to make the Department more efficient and support your goal of moving the Department's offices, employees, and decision-making closer to the lands and resources it manages. We also urge you to use this reorganization as an opportunity to improve the working relationship between the federal government and state and local governments.

To accomplish these objectives, Western Governors and counties advocate for Departmental office boundaries that follow state lines and state-level decision-making authority. State-based regions help achieve the partnerships needed to solve our mutual and complex resource challenges. Each state and its governments represent local needs and can capitalize on resources to address common objectives, including wildlife, land use planning, environmental quality, and water resources management. Continuing this approach, while also moving agency decision-makers closer to the lands they manage, would increase efficiency and decentralize decision-making, while also respecting state authority and improving the Department's ability to consult and cooperate with state and local governments.

We are committed to improving the partnership that must exist between our governments and Departmental agencies for the responsible management of the land and resources of the West. We look forward to providing additional feedback, input and assistance on the Department's reorganization.

Sincerely,

XXXXXXX

NEVADA ASSOCIATION OF COUNTIES (NACO)

Board of Directors' Meeting
August 24, 2018, 9:30 a.m.
NACO Office
304 S. Minnesota Street
Carson City, NV 89703

Unadopted Minutes

Attendance: President Weekly, President-Elect Waits, Vice President French, Mineral County Commissioner Tipton, Douglas County Commissioner Thaler, Lincoln County Commissioner Higbee, Carson City Mayor Crowell, Nye County Commissioner Wichman, Washoe County Commissioner Hartung, Churchill County Commissioner Olsen, Elko County Commissioner Steninger, Lyon County Commissioner Hunewill, Western Interstate Region Representative-Elko County Commissioner Dahl.

Remote Attendance: Clark County Commissioner Kirkpatrick, Esmeralda County Commissioner Bates, Eureka County Commissioner Goicoechea and Nancy Parent, Nevada Association of Clerks & Election Officials.

Other Attendance: Nye County Manager Sutton, Nye County Public Information Officer Knightly, Washoe County Manager John Slaughter, Churchill County Manager Barbee, Lyon County Commissioner Ken Grey, Storey County Planning Manager Austin Osborne; Tom Collins, NACO Committee of the Emeritus; Lee Bonner and Doug Miller, NDOT; Dr. Ivory Lyles, University of Nevada-Cooperative Extension; Sandra Morgan and Dan Jacobsen, AT&T; Linda Bissett, NV Energy; Marta Jensen and Shannon Liss, NV Department of Health & Human Services; Mike Wilden, Chief of Staff Nevada Governor Brian Sandoval; Chris Pritsos, University of Nevada-College of Biotechnology and Natural Resources; and Mary Walker, Lobbyist.

The meeting was called to order at 9:31 a.m.

1. **Public Comment**. None was given.

2. **Approval of Agenda**. The agenda was approved on a motion by Commissioner Tipton with second by Commissioner Higbee.

3. **NACO President's Report**. President Weekly recognized the birthdays of Commissioners Higbee, Phillips and Stork. He thanked those that traveled to the National Association of Counties (NACo) Annual Conference in Nashville and thanked them for their assistance in promoting the 2019 NACo Annual Conference to be held in Clark County. He thanked staff for preparing the previous evenings BBQ and apologized for not being able to attend as he had started a Doctoral program.

4. **NACO Executive Director's Report**. Dagny informed the Board that agenda item number 11 would be heard time certain at 10:00a.m. She discussed NACo's High Performance Leadership program, an online training program for county staff in management positions. She addressed the election of the Association's Vice President and requested that any Commissioners interested in being considered by the nominating committee should submit a letter of interest to her prior to September 15th. Dagny informed the Board that the State received a grant for opioid preparedness and would be accepting proposals from counties to receive sub-grant awards to prepare opioid overdose preparedness plans. She referenced a link in the agenda packet. She informed the Board that a member of the Legislature had reached out regarding SJR14, which seeks to address property tax reform. The request to NACO was for counties to contribute a total of $5,000.00 to assist in the cost of conducting a study to determine what the potential impacts to state, local governments and residents would be. She informed the Board that there are funds available in the Special Studies line item of the NACO budget. Dagny concluded her report by introducing the Association's new Natural Resources Manager, Sandy Hoover.

AMERICAN OVERSIGHT

5. **Approval of Minutes of the June 22, 2018 NACO Board of Directors Meeting**. The minutes were approved on a motion by Commissioner Tipton with second by Commissioner Hartung.

6. **Approval of NACO's June 2018 Financial Statements and Investment Reports**. Dagny noted that she had been working with the Association's Fiscal Office, Alan Kalt, to rework the financial reports to more closely mirror the Association's budget. She also noted that the income statement now includes the budgeted amount as well as the amount spent to date. The financial statements were approved on a motion by Commissioner Tipton with second by President Elect Waits.

7. **Recap of the 2018 National Association of Counties (NACo) Conference and Attendance by Nevada County Commissioners**. Board members in attendance concurred that it was a good conference with great value and subject matter. They also echoed the appreciation expressed by President Weekly regarding the promotion of the 2019 NACo conference in Clark County and strongly encouraged all Commissioners to attend the conference in the future.

8. **Update on the 2019 National Association of Counties Conference in Clark County including Possible Approval of a Fundraising Letter from NACO**. Dagny informed the Board that Clark County had requested a fundraising letter to support their efforts in obtaining sponsorships for the event. She referenced a letter, included in the agenda packet, that was used by Washoe County in a previous year and suggested that, if the Board approved sending a letter, that could be used as the template. Commissioner Steninger inquired as to the amount needed and President Weekly informed the Board that they are required to raise $500,000 for the event and that Clark County has committed to half of that amount. Commissioner Tipton stated that she didn't have an issue with providing a letter and that the host county isn't the only county that benefits from the event. President Elect Waits noted that it would not be as expensive to attend the conference next year and echoed the benefit to surrounding counties. Vice President French also noted that while Nevada may be considered a small state and somewhat insignificant on a national stage, Nevada is a significant presence in NACo and its members look to us for input. President Weekly acknowledged the work of Commissioner Kirkpatrick and county staff for their hard work on the event. Commissioner Hartung inquired whether there had been funds from the state tourism department committed and requested that staff keep the item on the agenda. A letter from the Association was approved on a motion by Commissioner Tipton with second by Commissioner Hartung.

9. **NACO Annual Conference Update Including Discussion on Date and Location of the 2019 Annual Conference**. Dagny informed the Board that early bird registration had been extended and that staff continued to work on the educational panels and requested that any Commissioner that had an idea for specific topics to reach out to staff. She reminded the Board that the 2019 conference would be discussed in September, including possible changes to the conference due to the National Association's conference. Commissioner Thaler encouraged the Board to ensure that they can attend the President's reception at the conference in November and President Weekly encouraged everyone to participate in his theme for the evening of denim and boots. Commissioner Olsen also noted that Churchill County would be interested in hosting in 2019.

10. **Update on the University of Nevada Cooperative Extension Program (UNCE), including Discussion of the Proposed Supplemental Budget Request for a $4.7million Enhancement for UNCE**. Director Lyles thanked the Board for the partnership between the University and the Board over the past 18 months while he determined the needs of the State and the individual counties. Mr. Lyles referenced the document included in the agenda packet and reviewed the majority of the items included therein including: that UNCE received no findings on the audit of the program presented to the Regents in July, that an agreement was reached regarding the budget surplus in Clark County, potential improvements to the 4-H facilities in Lake Tahoe, seeking partnerships for baseline socioeconomic data collection, the importance of NSHE's budget enhancement request for UNCE. Mr. Lyles gave additional background on 2009 budget cuts and the need for the budget enhancement to stabilize many important statewide programs. He also discussed the UNCE Advisory Council and a meeting of the Council to be held in late August. President Elect Waits inquired as to the make up of the Council and Dr. Lyles noted that it is made up of 21 members from various counties and additional stakeholders and that there are no UNCE staff members on the Council. Dagny informed the Board that the NACO working group had met with the Chancellor and that the conversation was positive. It was noted that President Weekly had spoke in favor of the budget enhancement before the Board of

AMERICAN OVERSIGHT

Regents and that, while it is unknown if the enhancement will be approved by Governor or the Legislature, the University will continue to advocate for the funding. No action was taken.

11. **Discussion of FY 20-21 State Budget Priorities for Counties and the FY19 Proposal to Amend the Current State Budget to Increase the Assessment to Counties for the Non-Federal Medicaid Match**. President Weekly introduced the Governor's Chief of Staff Mike Wilden. Dagny informed the Board that a letter had been received from the Medicaid division of DHHS regarding a proposed increase to the county Medicaid match and gave an overview of the history of the issue. She noted that a bill was enacted in 2011 that allowed DHHS to change at will the population segment for which counties were responsible, and that that segment had been subsequently increased. She addressed the documents included in the agenda packet and made note that the increase requested is for the current fiscal year and would have to come from the counties' currently adopted budgets. She noted that the proposal would need legislative approval and would be brought to the Interim Finance Committee in October. She also noted that rural counties are capped at $0.08 of assessed value, and that those counties that are at that cap would not see an increase in their assessment. Mr. Wilden also addressed the history of the assessments, noting that the counties and the state have been partners in program since the 80's and that the program has been growing since the State opted into the expansion program included in the ACA. He informed the Board of some of the struggles experienced by the State and that there is an estimated $20-50 million shortfall for the current fiscal year. He noted that the State has been working on several different scenarios to address the shortfall and that the request is for counties to contribute an additional $6-9 million. Mr. Wilden also noted that there are several components of the FY20-21 proposed budget that the Governor's office would like to discuss with the counties, with hopes that the forecast received by the Economic Forum is positive. Commissioner Hartung referenced a recent comment by the Governor that the State has one billion dollars 'in the bank' and/or the use of marijuana tax funds. Mr. Wilden clarified that the billion dollars the Governor referenced is in the Unemployment Trust Fund. He also clarified that there is $200 Million in the 'rainy day fund' but that those funds can only be accessed by the Legislature or during a severe economic downturn. Mr. Wilden also referenced the marijuana funds and what had occurred during the 2017 legislative session and that it is fully expected the use of the marijuana funds will be changed during the upcoming legislative session. It was noted that county revenues are flat and that counties would have to cut services in other areas to accommodate the request. Commissioner Kirkpatrick inquired as to when the assessments would be due, and if the IFC would be able to float a portion of the deficit so that the issue could be brought up in the next Legislative Session instead - as this would give time for the counties and the state to work together to find a long-term solution. Mr. Wilden stated that there is not enough money in the State contingency fund to correct the issue and a supplemental appropriation would need to be done in the legislature. Commissioner Kirkpatrick suggested that the shortfall be funded through a supplemental request at the beginning of the next Legislative Session. Many members of the Board echoed each other when they discussed the inability to come up with the requested funds in their current budgets due to flat revenues; as well as the inability to cut services that are mandated and already stressed to the maximum. The ability to opt out of the program was also discussed and Mr. Wilden noted that if the counties opt out, the State would then be forced to opt out as well, leaving counties responsible for indigent medical costs. Commissioner Olsen inquired as to when the State knew about the situation, especially when there were issues in the closed FY18 budget and how it occurred. Mr. Wilden said that it became evident during fiscal analysis during April and May but that estimated actuals had only been known for three to four weeks. He also stated that there were some inappropriate billing issues and fraud that the State is addressing. Dagny inquired as to any other changes to assessments to be aware of. Mr. Wilden suggested that an overall discussion on county assessments was perhaps in order and indicated he was willing to have that including regarding: Medicaid match, IGT, IAF, UPL, youth alternative placement and youth parole. Mr. Wilden also noted that the Governor's office will work with the counties and NACO staff during preparation for the transition to a new Governor. Commissioner Hartung brought up Yucca Mountain in relation to funding for the State budget. No action was taken.

12. **Update on Interim Legislative Activities and County Priorities for the 2019 Nevada Legislative Session Including Approval of NACO Bill Draft Requests**. Dagny reminded the Board that the Association's Legislative Committee had been meeting monthly and that Bill Draft Requests (BDRs) are due on September 1st. She informed the Board that the Committee had identified five BDR ideas for consideration with an additional two to be discussed for possible introduction by Legislators. Vince discussed the first three potential BDRs: 1) enabling the use of 911 fees collected to be used to

AMERICAN OVERSIGHT

conduct audits. This would ensure that counties are receiving all the fees they are entitled to; 2) enabling Boards of County Commissioners in counties with very small district's (ie: GID's, TV, water) who are unable to conduct business due to lack of a quorum and interest in filling the seats to appoint members; 3) and the resurrection of a bill from the previous session to enable counties to enact a diesel fuel tax of up to five cents. Dagny discussed the 4th proposal which was in relation to Clark County's experience after the 1 October tragedy related to the collection and distribution of monies for victims and the need for counties to obtain 501c3 status. The proposed BDR would enable a county to create a 501c3 in times of emergency to assist victims and residents. The final NACO BDR proposal would change the State's primary election system to return to pre-2015 law, so that, in races with candidates from only one party, the top two vote getters would move on to the general. The two additional proposals, which the Committee suggested finding sponsors for were: to allow public snow plow vehicles the right of way; and 2) to enable counties under 100,000 in population to abolish the position of Public Administrator as an elected office if the county continued to provide the service. Commissioner Wichman noted that the current primary rules exclude large segments of the population and disenfranchise voters. With regards to the diesel tax it was clarified that it is not indexing, and Mayor Crowell noted a bill being brought by the City of Fernley that could result in conflict by proposing that all cities be allowed to raise a 5-cent diesel tax. Commissioner Tipton inquired whether there were Legislators willing to carry the last two suggestions and Dagny said that although they have ideas on who they may approach, staff needs Board approval to move forward. The Board approved all 5 BDRs to be introduced by the Association and to seek legislative support for the other two on a motion by Commissioner Tipton with second by Commissioner Wichman.

13. **Update and Discussion Regarding Legislation Preempting Some Local Government Authority to Regulate and Permit the Construction of Small Cell Technology**. Dagny informed the Board that the issue is being discussed across the country and that there is a bill that has been introduced in Congress regarding the issue. Dagny provided background on the item informing the Board that the technology is specific to 5G cellular and wireless use. She noted that there is a need for the technology to expand in urban areas due to existing infrastructure being at or near capacity. She informed the Board that the technology consists of boxes that are placed on power poles etc., however they must be placed within 500' of each other and will therefore require multiple devices in dense areas, unlike current cell towers. She discussed the bill in Congress (SB3157) which would limit local government permitting fees, cap fees for rights-of-way, limit the amount of time to respond for requests to install the infrastructure on county property and allow for automatic installation if a response is not given within the allotted time. NACo has opposed the bill and has requested that counties contact their delegations with concern. Dagny noted that the industry has requested fair and reasonable permitting fees and timelines. She also informed the Board that bills have been introduced in some states that would preempt local government authority to permit the infrastructure entirely. Concerns raised by local government include the need for jurisdictions to be able to address safety concerns as well as visual impacts. She also noted that within the states where legislation has been introduced to preempt local government authority some states have been able to reach compromises with the industry. It was noted that there is not currently a bill in the Nevada Legislature to preempt local government authority but that there are conversations taking place regarding the issue. Dagny also stressed that it is an immediate concern in the urban areas but that it will become an issue in rural areas as well. Mayor Crowell noted that it is important to address the issue and work towards reaching a compromise that protects local government interests. Commissioner Thaler informed the Board that he had seen the boxes and that while they are relatively small the density required could become intrusive because each provider needs their own box. President Weekly expressed concern with installation on private property. Dagny noted that one of the main discussions is surrounding safety and visual impact and that it is an issue at the forefront of discussion among her fellow Executive Directors. Commissioner Hartung expressed concern with interference of other frequencies such as those used by EMS. Dan Jacobsen from AT&T informed the Board that if interference became an issue it would be the industry's responsibility to rectify the problem. Storey County's Austin Osborne expressed concern with high tourist populations making small communities high density areas and potential requests for installation of the infrastructure in historic districts and on protected buildings. Staff was directed to continue working on the issue on a motion by Commissioner Tipton with second by Commissioner Hartung.

14. **Discussion Regarding August 7th, 2018 Correspondence from Nevada State Senator Joyce Woodhouse and the Committee to Study the Needs Related to the Behavioral and Cognitive**

AMERICAN OVERSIGHT

Care of Older Persons Encouraging Nevada's Counties to Expand the Role of their EMS Services to Include Community Paramedicine Services. Dagny referenced the letter included in the agenda packet from Senator Woodhouse and the Committee, which asked the Association to encourage counties to expand EMS services to include paramedicine. She noted that the proposed services would utilize EMT's to bring a basic level of service to patients where they live, and would include things like wellness checks, prescription assistance and help with transportation. Dagny noted that Medicaid does reimburse for the services but that there are additional certifications required. She informed the Board that the Committee made around 50 recommendations and the letter was one of them as a best practice. Commissioner Hartung noted that Washoe County provides the services but cautioned that the service has become an issue in union contract negotiations. President Elect Waits informed the Board that Lander County has looked at the service, with help from State EMS, and that it would be an excellent service in very rural areas. Commissioner Wichman noted that Northern Nye County has had great success with REMSA and being able to provide the service. Dagny informed the Board that she had researched the item when the letter was received and that a few of the rural hospitals have received grants to provide the service. No action was taken on the item.

15. **Update and Possible Action Regarding Natural Resources and Public Lands and Issues Affecting Counties Including**:

    a. **Discussion of Proposed Reforms to Payment in Lieu of Taxes (PILT), Commissioner Jim French, NACO Public Lands and Natural Resources Subcommittee Vice Chair**. Vice President French referenced previous Board discussion regarding the current formula for PILT payments being skewed away from rural counties by population cap. He referenced that the responsibility to provide services remains the same to counties of smaller populations but that they are provided disproportionate funds to provide them. Vice President French informed the Board that WIR and the NACo Public Lands Steering Committee were working on a more equitable distribution formula. He informed the Board that a Montana Congressional Representative has a bill that will be introduced in September that will address the SRS offset to PILT payments for those counties that have both, potentially placing the SRS lands into PILT if SRS is not reauthorized which could cause a reduction in the amount of PILT money available to counties. He noted that with the recent multiyear reauthorization of SRS there is opportunity to attempt to create a trust fund for SRS to stabilize the funding of the program, thereby creating stability in PILT funding. He informed the Board that the proposed trust fund could be created by increased timber sales. Within that conversation is potential adjustment of the population cap in the PILT distribution formula and the need for PILT to be a permanent line item in the budget and have a reliable funding mechanism. The formula adjustment proposal would remove the small population penalty from the distribution formula and allow a distribution base solely on square miles. With regards to the stabilization of the fund, the discussion includes reauthorization of the Land and Water Conservation Fund and to provide for a large pool of funds collected within the Fund to be allocated to PILT. Dagny inquired as to the Board's appetite to support the proposed formula change, whether it could impact payments to the larger population counties. Vice President French noted that the creation of a trust fund would potentially negate the cap of yearly funding of the program and therefore not affect the large population counties payments. President Weekly noted that it would depend on the final language within the bill. Staff was directed to use its discretion regarding support of the bill dependent on the bill language and considering the lengthy discussions by the Board on the issue on a motion by Commissioner Tipton with second by Commissioner Wichman.

    b. **Discussion of the National Association of Counties (NACo) PILT Fly-In Event in Washington D.C. and Possible Approval of NACO Funds to Support the Attendance of One Representative from Nevada**. Vice President French reminded the Board that he attended the event the previous year as a guest of NACo, but that WIR funding for the event is allocated to other states this year. Despite that he had again been invited to attend but would be willing to defer to another member of the Board if they preferred. Dagny informed the Board that she had reviewed the budget and there are funds available to support Vice President French's travel costs. The NACO Bylaws allow for approval of additional travel funds on a case by case basis. Vice President French was nominated to attend, with funding

AMERICAN OVERSIGHT

assistance from NACO, on a motion by Commissioner Hartung with second by Commissioner Wichman.

c. **Update on the BLM and USFS Greater Sage Grouse Resource Management Plan Amendments**. Dagny informed the Board that comments had been submitted on the BLM's DEIS at the end of July, that scoping comments had been also submitted to the Forest Service and that work will continue to on the issue. Sandy informed the Board that the BLM is going through the comments and expect to have a draft FEIS to cooperators by mid-September, it's release to the public will be by October 12th, that that will then initiate a 30-day protest period, then the 60 day Governor's consistency review period, and that the ROD will be expected at the end of December. She also reminded the Board that there was a cooperator's meeting the following week at the BLM's offices in Sparks.

d. **Discussion of Possible NACO Comments on Proposed Revisions to the Regulations that Implement Portions of the Endangered Species Act (ESA)**. Sandy informed the Board that the U.S. Fish and Wildlife Service and National Marine Fisheries Service have proposed reform to the Endangered Species Act of 1973, as amended under three rule revisions. Recommendations from the PL&NR Committee request support from the Board on the following:

- the first would allow for economic information to be presented in any listing decisions. Also, although it is beyond the scope of the Services' proposed rules, the PL&NR committee also supports a policy in which the review and consideration of economic information be required in any listing decisions.
- the second item would eliminate the current application of prohibitions for endangered species to threatened species as described in subsections 17.31 and 17.71 of Title 50 and would make protections for threatened species based on species specific rules.
- the third item would expedite the consultation process for actions that result in minimal adverse effects to listed species.

Commissioner Tipton noted that currently the agency does not have to look at economic data and that the Committee's recommendation is that the data must be included with all scientific data prior to a listing decision. Vice President French noted that the data would be included in the justification, which would require the agency to prove that the threat to the species outweighs the economic impacts to the communities in question. Commissioner Steninger suggested the inclusion of historical population information within the data included in the justifications. Vice President French clarified that is already a component of justification and that is a place for challenge if it is not included in the agency justification as it is already required under statute. Dagny stated that issue can be made a policy of the PL&NR Committee. Commissioner Hartung brought up that removal of predators should be included in a listing decision. Commissioner Higbee noted that predation is not being actively considered. Comments as discussed were approved on a motion by Commissioner Tipton with second by Commissioner Olsen.

e. **Update on NACO Comments to the Council on Environmental Quality's Advance Notice of Proposed Rulemaking (ANPRM) Regarding Update to the Regulations for Implementing the Procedural Provisions of the National Environmental Policy Act (NEPA)**. Sandy informed the Board that comments had been submitted based on the PL&NR Action plan and the comments provided on the BLM's Planning 2.0 and reminded the Board that they were included in the agenda packet.

f. **NACO Public Lands and Natural Resources Committee Update**. Commissioner Tipton informed the Board that the Committee had discussed the potential to create one cohesive statewide lands bill for Nevada counties, but that it would be discussed at a future meeting. Vice President French gave an update on the BLM Wild Horse & Burro Advisory Board which had not been disbanded but had been effectively "neutered" due to lack of a quorum; however, the members in question had been reappointed and there would be a meeting in September. He discussed that the BLM's report to Congress did not include all of the

AMERICAN OVERSIGHT

recommendations of the Board, which proved that the agency could not meets its obligation under the law under current policy. He informed the Board that the report was not sent to the Advisory Board in a timely manner for review prior to submission. He informed the Board that the BLM has instituted an aggressive gather plan that includes implementation of a stipend for adoption immediately and that gives title at the time of adoption not after several years. Commissioner Tipton concluded the update with the importance of inclusion and/or updating of specific county natural resources plans within county master plans. Commissioner Wichman noted that SLUPAC will assist in development of those plans.

16. **NACO Committee of the Emeritus Update**. Vince informed the Board that the July workshop on the importance of county natural resource plans was very well attended and that the presentations of all four of the expert presenters as well as a video of the workshop could be found on the NACO website. He also informed the Board that the Committee is continuing the update of the materials and program for the newly elected officials training to be conducted by the Committee at the November conference.

17. **National Association of Counties and Western Interstate Region Board Member Updates**. Vice President French informed the Board that conversations at WIR include wildfire reduction and remediation including livestock grazing for targeted fuel reductions as well as ESA reforms and specific aspects that provide opportunities for change without having to go to Congress for approval. Commissioner Dahl referenced the update given earlier in the meeting on PILT by Vice President French and stressed the need to embrace change to assist fellow counties with challenging situations. Commissioner Tipton encouraged the Board to encourage staff to enroll in the NACo leadership training reminding the Board that NACo will provide a partial scholarship for a county's first enrollee. She also informed the Board that the WIR winter meeting would be held in the Phoenix area and concluded her remarks with the success of the NACo Annual Conference.

18. **NACO Board Member Updates**. Updates were given by members of the Board on various activities in their counties.

19. **Public Comment**. None was given.

The meeting was adjourned at 1:40 p.m.

July 13, 2018

To the Board of Directors
Nevada Association of Commissioners

We have audited the financial statements of the business-type activities of **Nevada Association of Counties (NACO)** for the year ended **December 31, 2017**. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards as well as certain information related to the planned scope and timing of our audit. Professional standards require that we provide you with the following information related to our audit which is divided into the following two sections:

Section I – Required Communications with those Charged with Governance

Section II – Other recommendations and related information

Section I includes information that current auditing standards require independent auditors to communicate to those individuals charged with governance. We will report this information annually to the Board in our audit committee letter.

Section II presents recommendations related to internal controls, procedures, and other matters during our current audit year. These comments are offered in the interest of helping the Board in its efforts toward continuous improvement, not just in the areas of internal controls and accounting procedures, but also in operations, administrative efficiency and effectiveness.

Section I – Communications Required under AU 260

Our Responsibility under U.S. Generally Accepted Auditing Standards
As stated in our engagement letter dated August 14, 2017, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

Our responsibility for the supplementary information accompanying the financial statements, as described by professional standards, is to evaluate the presentation of the supplementary information in relation to the financial statements as a whole, and to report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

AMERICAN OVERSIGHT

Planned Scope and Timing of the Audit
We performed the audit according to the planned scope and timing previously communicated to you in our letter regarding planning matters dated August 14, 2017.

Significant Audit Findings
Qualitative Aspects of Accounting Practices
Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by NACO are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the fiscal year audited. However, we recommend that the existing policy manual be updated and made readily available to staff and management.

We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The most sensitive estimates affecting the financial statements were:
The most sensitive estimates affecting NACO's financial statements were for compensated absences and the implementation for GASB 68, accounting and financial reporting for pensions, and the tracking of grants and other revenues and expenditures where NACO acts as a pass through organization.

Management's estimate of Accounts Receivable is based on their judgment on what they believe is collectible derived from known facts. The estimate for compensated absences is based on accrued time valued at each employee's current pay rate as of year-end. The value of that balance will change dependent upon the pay rate at the time it is used.

We evaluated the key factors and assumptions used to develop the Accounts Receivable balance and compensated absences balance in determining that they are reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was regarding the implementation of GASB 68 which records the pension liability on the books. These amounts are prepared by PERS in an actuary study and are available to the public on their web site.

Management has agreed and accepted the proposed adjustments and recommendations.
The financial statement disclosures are neutral, consistent, and clear.

AMERICAN OVERSIGHT

Difficulties Encountered in Performing the Audit
We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatement
Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. The adjustments proposed were as follows:

1. The adjustment required for recording the GASB 68 pension liability. Management has recorded this entry that we provided.
2. Reimbursements for the health insurance of the former executive director in the amount of $7,324 were removed from revenues and shown as a reduction in employee benefits.
3. Membership dues were reduced by $128,166 and shown as a separate line item on the statement of revenues and expenses as Public lands task force assessment.

Disagreements with Management
For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations
We have requested certain representations from management that are included in the management representation letter dated July 27, 2018.

Management Consultations with Other Independent Accountants
In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings
We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Section II – Other Recommendations and Related Information

Other Matters
With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003769

financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We provided an audit committee recommendations letter to the fiscal officer. In that letter we identified exceptions and noted our recommendations.

This information is intended solely for the use of Board of Directors charged with governance and management, and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

July 13, 2018

Nevada Association of County Commissioners
304 S. Minnesota St.
Carson City, NV 89703

Dagny Stapleton, Executive Director
Alan Kalt, Fiscal Officer

RE: 2017 Audit Committee Letter

Dear Ms. Stapleton and Mr. Kalt,

The following comments and recommendations are based on the results of our audit of the Association's 2017 financial statements.

It is our responsibility to report on the fair presentation of the financial statements in all material respects. Management is responsible for developing and maintaining an effective system of internal accounting controls, keeping the accounting books in good order and for all amounts including the estimates that are presented in the financial statements. Our responsibility as the auditor is to examine, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit involved judgment about the number of transactions to be examined and tested. Because of the concept of reasonable assurance and because we did not perform a detailed examination of all transactions, there is a risk that material errors, fraud, or other illegal acts may exist and not be detected by us.

The financial statements contain significant estimates that are the responsibility of management. The most significant is the loss reserves estimate. Management has engaged an independent actuary to assist in determining a reasonable estimate of the loss reserves and that estimate has been used in the financial statements.

1 - Communication of control deficiencies or material weakness. - Statement on Auditing Standards (SAS) 112.
Our consideration of internal controls was for the limited purpose of conducting our organization's audit and would not necessarily identify all deficiencies in internal controls that might be significant or material weaknesses.

A control deficiency exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned duties to prevent or detect

AMERICAN OVERSIGHT

misstatements on a timely basis. A *significant deficiency* is a control deficiency or combination of control deficiencies that adversely affects the entity's ability to initiate, authorize, record, process or report financial data reliably in accordance with accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements, that is more than inconsequential, will not be prevented or detected by the entity's internal controls.

A *material weakness* is a significant deficiency or combination of significant deficiencies that results in more than a remote likelihood that a material misstatement of the financial statements will not be detected by the entity's internal controls.

It is important to note that control deficiencies are not necessarily problems you will choose to address. However, they do represent potential risks. Our job as your auditor is to ensure that you understand where deficiencies or weaknesses exist so that you can make informed business decisions on how best to respond to these risks. We did not identify deficiencies in internal controls that we would consider to be material, however we did identify significant deficiencies which are discussed below.

2 - The following prior year comments were not implemented and may be helpful in strengthening internal controls.

2A - Evidence of reviews
In the past control procedures included listing the tasks and reconciliations performed each month and providing that to management. We recommend that this procedure be used again to provide greater accountability to management on the timing and performance of important tasks.

5-Authorized signatures to transfer funds in investment account
The Raymond James confirmation indicated that Robert Hadfield and Wayne Carlson are authorized to transfer funds to other accounts held by NACO. We recommended that the authorizations be updated. Management updated the signers on the account for the new users on August 17, 2017, however, Raymond James indicates that the former users have not been removed. We recommend that management follows up to have former users removed.

3 - Disbursements tests performed
We tested disbursement controls selecting a sample to provide a 95% confidence level.

In addition, we selected a sample of disbursements and checked for appropriate signatures and verified that amounts agreed to invoices, included evidence of approval and that those disbursements were recorded to the proper accounts.

The following lists our sample statistics:

1. It was noted that one check was written for $800 but the supporting invoices showed payment due of $720.
2. There were seven invoices without evidence of approval; all were re-occurring monthly expenditures to PERS, Western Insurance Specialists, and payment on credit cards.

AMERICAN OVERSIGHT

	Total Disbursements	Total Disbursements Tested ($)	Percent Tested	Total Disbursements Count	Total Disbursements Tested (Count)	Percent Tested
Admin Expenses	$ 377,486	$ 207,861	55%	366	65	18%

4 – Proposed audit adjustments
The following adjustments were proposed to management and accepted and recorded as of December 31, 2017.

A – An adjustment to comply with GASB 68 which requires the reporting of the net pension liability and the associated deferred outflows and inflows. This amount is based on the PERS actuarial report dated June 30, 2018.

B – The former executive director reimbursed NACO for his monthly health insurance costs and this was reported as revenue. We proposed an adjustment to net the revenues against health insurance costs reducing by $7,234 the actual health insurance benefits paid to employees.

C – NACO assessed an additional $128,166 and reported this as membership dues. We recommended that this assessment be reported as a separate line item of revenue so as not to inflate the reporting of the normal annual dues.

There were some adjustments that were not proposed to management to record as they were immaterial. These included over recognizing $5,000 in the IAF revenue contract and over accruing compensated absences of $1,700.

5- Review of investment policy
We recommend that the executive director and board meet with the investment advisor to discuss and review the investment policy. This will provide an opportunity for the executive director to better understand and ask questions regarding the existing policy and to determine with the board if there should be any changes in that policy.

6 - Update accounting policy and procedures manual
We recommend that the accounting policy and procedures manual be updated.

Over the years there have been procedural changes but those changes have not been documented. Updating the procedures manual will provide clear documentation which will be helpful to refer to on a regular basis and for when there are staff and management changes. It will also aid in the review of those procedures for gaps in internal controls or redundancy. It is further recommended that when the manual is updated the revision date be shown in the manual.

7-Bank reconciliation control
NACO's controls over the bank reconciliation process requires that the executive director receive the bank statements unopened and initial the statements indicating that an original copy was received and that it was reviewed for unusual items. In reviewing the bank statements it was noted that there were no initials found on the bank statements for four months.

An additional control is that the bank reconciliation is to be reviewed by management and that the statement is initialed indicating that the review has been performed. It was noted that this was

AMERICAN OVERSIGHT

done only in the last month of the year after the new fiscal officer became actively involved. We recommend that these controls be performed without exception.

If you have any questions please do not hesitate to contact us.

Sincerely,

Bertrand & Associates, LLC

INDEPENDENT AUDITOR'S REPORT

To the Executive Director and the Board of Directors
Nevada Association of County Commissioners

Report on the Financial Statements
We have audited the accompanying statement of net position of the Nevada Association of County Commissioners (NACO), a non-profit corporation, as of December 31, 2017 and 2016 and the related statements of revenues and expenses and changes in net position and statement of changes in cash flows for the years then ended.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

AMERICAN OVERSIGHT

Opinions
In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Nevada Association of County Commissioners as of December 31, 2017 and 2016 and the respective changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters
Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, GASB required supplemental information and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management Discussion and Analysis

Financial Highlights

NACO's assets increased in 2017 by $104,034, to $1,498,435. The increase is mostly attributable to the increase in cash from $191,735 to $312,386. This increase is due in part to the collection of additional dues through the newly enacted public lands assessment. The public lands assessment was approved by the membership and added to the NACO dues structure in November of 2016. It was created to provide additional support to the membership on issues related to the management of natural resources and public lands in their counties. There was also a small increase to NACO dues attributable to a slight increase in county revenues, upon which part of the dues formula is based.

Of the total assets, $337,646 consists of unrestricted assets. NACO's primary revenue resources remain county membership dues and conference fees at $443,677 an increase of $7,915 compared to prior year amount of $435,762. The remainder of the revenues include the public lands assessment dues of $128,166, a contract with the State of Nevada in the amount of $70,000 to administer the Fund for Hospital Care to Indigent Persons and national programs and interest income.

Financial Analysis

By far, the largest portion of NACO assets continues to be investments in the amount of $598,635. Investments during the year increased $41,605 or 7.5% due to increases in fair market values of investments and interest earned and reinvested during the year. See Note 2 Deposits and Investments on page 12 for more information. At the end of the fiscal year, NACO had $312,386 cash or cash equivalents. NACO's liabilities for the year ending December 31, 2017 totaling $681,561. Of this amount, current liabilities associated with accounts payable and accrued expenses were $14,421 and $4,279. Non-current liabilities include $9,257 attributable to accrued vacation and sick leave for employees. The remaining liability balance of $653,604 was attributable to PERS net pension liability. NACO's net position increased $34,792 during the year from $885,682 to $920,474 demonstrating continued financial strength.

Economic Factors

The budget of the Nevada Association of Counties is comprised in part of dues collected from member counties. Dues are calculated using a formula based on three components: Audited Schedule 1 revenues, population, and the amount of the most recent federal Payment in Lieu of Taxes (PILT) payment made to each county. NACO enjoys 100% county participation with all 17 counties paying their fully assessed dues in 2017. Any changes in the financial market economy that are reflected in the stock and bond markets are reflected in accounts held by NACO. See Note 2-Deposits and Investments for more details.

AMERICAN OVERSIGHT

Conclusions

NACO continues to be in a strong financial position showing a net increase of $34,792 in net position at the end of the year. Diversified investments and assets, including the office building, provides NACO with a high level of financial security and stability. While Nevada continues to see economic growth, NACO should continue to closely monitor the financial condition of all the counties to assure that it can rely on membership dues as its most significant sources of revenue. The additional dues assessment approved by the membership indicates that the members support the value-added services provided by additional staff to meet the needs of Nevada's counties. Staff continues to identify opportunities to diversify and enhance revenues including; seeking state and federal grant opportunities, increasing the usage of existing agreements with Nationwide Retirement Solutions, and the U.S. Communities Purchasing Alliance, for which NACO receives a royalty, and seeking other marketing and service agreements that would be of benefit to Nevada's counties.

This financial report is designed to provide a general overview of the financial activity and condition of the Nevada Association of Counties, for all of those with an interest in the Association. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Executive Director, 304 South Minnesota Street, Carson City, Nevada 89703 or email at dstapleton@nvnaco.org or access the NACO web-site at NVNACO.ORG.

AMERICAN OVERSIGHT

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities:
The Association is a non-profit corporation incorporated in the state of Nevada. The Association was organized for the purpose of aiding member counties in the conduct of general governmental affairs and to influence the state legislature in ways that will benefit county governments and the people they serve. The Association members are elected officials of various counties in Nevada that they represent. As such, the Association is considered a quasi-governmental organization. The Association is more commonly known as the Nevada Association of Counties or as NACO.

Basis of Presentation, Measurement Focus – Basis of Accounting:
NACO has prepared its financial statements in accordance with accounting principles generally accepted in the United States of America. NACO has implemented Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis – for State and Local Governments*.

The financial statements have been prepared on the basis of accounting principles generally accepted in the United States of America for governmental entities. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Cash & Investments:
For purposes of the cash flow statements, NACO considers highly liquid asset accounts available for current use within three months or less to be cash equivalents. NACO maintains its cash, cash equivalents and investments in a commercial bank and a brokerage institution. All amounts in the commercial bank are insured by the FDIC or collateralized. Amounts at the brokerage firm up to the SPIC insurance limit are insured through SPIC and additional amounts are insured by the broker through an insurance policy.

Investments consist of marketable securities in corporate and governmental securities. Securities are reported at their fair value on the balance sheet. Fair value is determined utilizing the market value of the investments as reflected on the applicable brokerage statements. Net increases and decreases in the fair value are included in the statement of revenues and expenses and changes in net asset balances.

Accounts Receivable:
Accounts receivable represents amounts earned but not received on the performance of the Indigent Accident Fund grant, the Supplemental grant, and other miscellaneous receivables.

Fixed Assets:
Equipment on the books is depreciated over the estimated useful lives of the assets using the straight-line method and the lives assigned to assets range from 5 years to 10 years. The office building cost is depreciated using the straight-line method over a period of 40 years with no salvage value.

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003785

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Compensated Absences:
Compensated absences are recorded when the liabilities are incurred. Accumulated benefits are limited to a set maximum.

Revenues:
Revenues are provided through membership fees, sponsor and conference fees, administration of the state's Indigent Accident Fund and Supplemental Fund, national insurance programs, government grants and investment income. NACO receives federal grants and contracts with a private vendor to administer the grants on behalf of NACO for the benefit of its members.

Federal Income Tax:
NACO is exempt from income taxes under section 501(c)(4) of the Internal Revenue Service Code. Tax returns for the years ending December 31, 2017, 2016 and 2015 are open to audit by the Internal Revenue Service.

NOTE 2- DEPOSITS AND INVESTMENTS

NACO, as allowed, maintains its cash, cash equivalents and investments in a commercial bank and a brokerage institution. Amounts in commercial banks are insured by the FDIC for balances up to $250,000. Amounts at the brokerage firm are insured through SPIC and additional amounts are insured by the broker through an insurance policy.

The carrying amount of NACO's deposits at commercial banks on December 31, 2017 and 2016 was $312,386 and $191,735 respectively and the bank balance was $317, 577 and $248,409. The difference between the carrying amount and bank balance results from outstanding checks and deposits not yet reflected in the bank's records.

Deposits that are greater than the FDIC insurance limit were $67,577 in 2017 and $ 46,258 in 2016. When there are balances in excess of FDIC insurance they are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer.

Credit risk:
Credit risk is the risk of default on a debt security that may arise from an issuer failing to make required interest or principal payments such that NACO will not be able to recover the full interest and principal value of those investments or securities.

AMERICAN OVERSIGHT

NOTE 2 - DEPOSITS AND INVESTMENTS (continued)

Concentration of Financial Risk:
NACO limits investments in equities of any one issuer to 5% of the total investment portfolio. No more than 20% of the portfolio may be invested in a single industry. NACO limits investments in fixed income securities of any one issuer to 10% of the total portfolio and no security may be purchased that has a maturity date greater than 30 years. The policy does not place a limit on the purchase of U.S. Government and U.S. Government backed securities.

Interest Rate Risk:
Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. NACO's policy for managing its exposure to fair value losses arising from increasing interest rates is to be invested in a range of 0% to 70% in fixed income securities, 0% -50% in equities and 0% to 100% in cash.

A summary of investments as of December 31, 2017 is as follows:

		Investment Maturities in Years				S&P
	Fair Value	**1 year or less**	**1-5**	**5-10**	**Over 10**	Rating
U.S. Treasuries	$ 56,168	$ -	$ 17,828	$ 38,340	$ -	
U.S. Government & Agencies	11,809	-	11,809	-	-	
U.S. Mortgage-backed securities	124,829	-	26,035	69,574	29,220	
Corporate bonds	211,995	9,054	152,218	50,723	-	AAA to BBB+
Equity securities	193,834	193,834	-	-	-	
Total cash and investments	**$ 598,635**	**$ 202,888**	**$ 207,890**	**$ 158,637**	**$ 29,220**	

A summary of investments as of December 31, 2016 is as follows:

		Investment Maturities in Years				
	Fair Value	**1 year of less**	**1-5**	**5-10**	**Over 10**	
U.S. Treasuries	$ 41,246	$ -	$ 10,029	$ 31,217	$ -	
U.S. Government & Agencies	12,191	$ -	$ 8,249	$ 3,942	$ -	
U.S. Mortgage-backed securities	106,293	$ -	$ 28,068	$ 44,886	$ 33,339	
Corporate bonds	211,837	$ -	$ 148,537	$ 63,300	$ -	AAA to A-
Equity securities	185,463	$ 185,463	$ -	$ -	$ -	
Total cash and investments	**$ 557,030**	**$ 185,463**	**$ 194,883**	**$ 143,345**	**$ 33,339**	

Actual maturities may differ from contractual maturities as some borrowers have the right to call or repay with or without call or prepayment penalties. Investments are reported at fair value by the investment broker as determined by an outside pricing firm.

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003787

NOTE 3 - CAPITAL ASSETS AND DEPRECIATION

Depreciation is taken on the financial statements over the estimated useful lives of the assets using the straight line method. It is believed by management that the useful lives of furniture, equipment and vehicles range from five to ten years with no salvage value. NACO's policy is to capitalize assets costing $1,000 or more. For buildings, the useful life is deemed to be 40 years with no salvage value. When assets are disposed of the cost and related accumulated depreciation are removed from the general ledger and any resulting gain or loss is recognized in operations.

Activity for the years ended December 31 was as follows:

	Useful life	December 31, 2016	Additions	Dispositions	December 31, 2017
Building and improvements	40	$ 538,217	$ -	$ -	$ 538,217
Furniture and equipment	5 – 10	173,614	1,247	-	174,861
Vehicles	5 – 10	32,878	-	-	32,878
Total Assets		744,709	1,247	-	745,956

		$ 517,598	**$ (34,890)**	**$ -**	**$ 482,708**

NOTE 4 - RELATED PARTY TRANSACTIONS

Various directors of NACO also serve on the board of the Indigent Accident Fund, an agency who contracts with NACO for claims administration. Revenues of $70,000 in 2017 and $ 60,000 in 2016 from these contracts are identified on the financial statements as Indigent Accident and Supplemental Programs.

Mr. Wayne Carlson, executive director of the Nevada Public Agency Insurance Pool, is authorized to sign checks of NACO in the absence of NACO's executive director with one other NACO authorized signer. NACO contracts with PARMS for bookkeeping services and paid fees of $12,000 in 2017 and 2016. PARMS is solely owned by Mr. Wayne Carlson.

AMERICAN OVERSIGHT

NOTE 5 – LEASES

Copier

In January of 2016 NACO entered into a lease agreement with Sierra Office Solutions for a high-speed copy machine replacing the existing leased machine. The copier lease is classified as an operating lease with minimum monthly payment of $232.53 for 60 months. Minimum lease payments are as follows:

2018	2,790
2019	2,790
2020	2,790
Total	**$ 8,370**

NOTE 6 –DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLANS

A. General Information about the Pension Plans

Defined Benefit Plan Description – All qualified permanent and probationary employees are eligible to participate in the Board's Employee Pension Plans, cost-sharing multiple employer defined benefit pension plans administered by the Public Employees' Retirement System of Nevada (PERS). Benefit provisions under the Plans are established by State statute and Board resolution. PERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the PERS website.

Benefits Provided – PERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. For regular members entering the System before January 1, 2010, regular members are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service, or at any age with thirty years of services. For regular members entering the System on or after January 1, 2010, regular members are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with thirty years of service.

Contributions – The contributions are made in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. Funding contributions for the Plans are determined bi- annually on an actuarial basis as of June 30 by PERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Board is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

AMERICAN OVERSIGHT

NOTE 6 –DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (continued)
The Plans' provisions and benefits in effect at December 31, 2017 are summarized as follows:

	Prior to	between July 1, 2001	On or after	On or after
Hire date	July 1, 2001	and January 1, 2010	January 1, 2010	July 1, 2015
Benefit formula	2.50%	2.67%	2.50%	2.25%
Benefit vesting option 1	5 years service @65	5 years service @65	5 years service @65	5 years service @65
Benefit vesting option 2	10 years service @60	10 years service @60	10 years service @62	10 years service @62
Benefit vesting option 3	any age with 30 years service	any age with 30 years service	any age with 30 years service	30 years service @55
Benefit payments	monthly for life	monthly for life	monthly for life	monthly for life
Retirement age	50-55	52-67	52-67	52-67
Monthly benefits as a % of eligible	2.50%	2.67%	2.50%	2.25%
Required employer contributions rates	unavailable	unavailable - 21.5%	28%	28%

Contributions – The contributions are made in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. Funding contributions for the Plans are determined annually on an actuarial basis as of June 30 by PERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Board is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

NOTE 6 –DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (continued)
For the year ended December 31, 2017, the contributions recognized as part of pension expense for the Plan was as follows:

Contributions - employer	$82,556

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2017 valuation date, NACO reported net pension liabilities for its proportionate shares of the net pension liability of the Plan as follows:

	Proportionate share of Net pension Liability
Miscellaneous plan	$653,604

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003790

NOTE 6 –DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (continued)
NACO's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2017, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017 rolled forward to December 31, 2017 using standard update procedures. NACO's proportion of the net pension liability was based on a projection of the NACO's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The Board's proportionate share of the net pension liability as of June 30, 2016 and 2017 was as follows:

Proportion - June 30, 2016	0.47500%
Proportion - June 30, 2017	0.49100%
Change-Increase (decrease)	0.01600%

For the year ended December 31, 2017, NACO recognized a pension expense of $120,962.

At December 31, 2017, NACO reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of	Deferred Inflows of Resources
Differences between expected and actual experience	$ -	$ 42,890
Changes in assumptions	43,360	-
Net difference between projected and actual earnings on pension plan investments	(55,184)	-
Changes in proportion and differences between NACO contributions and proportionate share of contributions	161,776	4,240
NACO contributions subsequent to the measurement	41,278	-
Total	$ 191,230	$ 47,130

$41,278 reported as deferred outflows of resources related to contributions to NVPERS subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2018.

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003791

NOTE 6 –DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (continued)
Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Measurement Period Ended June 30:		
2019	$	(11,711)
2020		15,160
2021		3,915
2022		(10,675)
2023		5,520
2024		2,501
Thereafter		-

Actuarial Assumptions – The total pension liabilities in the June 30, 2017 actuarial valuations were determined using the following actuarial assumptions:

	Miscellaneous
Valuation date	June 30, 2017
Measurement date	June 30, 2017
Actuarial Cost Method	Entry -Age Normal Co
Actuarial Assumptions:	
Consumer Price Index	3.50%
Inflation	3.50%
Payroll growth	5.00%
Projected salary increase	4.6-9.75%
Productivity pay increases	0.75%
Investment rate of return	8.00%

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2017 valuation were based on the results of the experience review completed in 2017. Further details of the Experience Study can found on the PERS website.

Discount Rate – The discount rate used to measure the total pension liability was 7.5% as of June 30, 2017. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2017, was projected to be available to make all projected future benefit payments of current active and inactive employees.

Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2017 and June 30, 2016.

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003792

NOTE 6 –DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (continued)
The System's Investment Objectives and Policies detail the fund's long-term investment goals, management responsibilities, return/risk expectations, and monitoring requirements. These policies are subject to change at any time by the Board and are reviewed thoroughly at least annually to ensure that they continue to reflect the System's expectations.

Asset allocation is the most significant factor influencing the risk and return of the investment program. Since inception 98% of the System's investment performance is explained by asset allocation. Determination of the fund's long-term asset allocation involves estimating the expected return and risk of major types of investments and blending them into a portfolio which meets the System's risk/return objectives.

To establish an appropriate long-term asset allocation strategy, the Board evaluates expected return and risk for each of the major asset types (stocks, bonds, private markets). These asset classes are then combined in the most efficient manner possible to construct a portfolio that matches the risk and return needs of the fund. By diversifying the System's investments in multiple asset classes the Board is able to reduce the volatility of annual investment earnings. The Board reviews capital market expectations and asset allocation annually. In addition, the Board employs a disciplined rebalancing policy to manage market volatility and to ensure the portfolio's exposures are consistent with the System's long-term asset targets.

Additional information on the discount rate, investment strategy and diversification is available in the PERS CAFR which can be found at www.nvpers.org.

The System's policies which determine the investment portfolio target asset allocation are established by the Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

Asset Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return*
Domestic Equity	42%	5.50%
International Equity	18%	5.75%
Domestic Fixed Income	30%	0.25%
Private Markets	10%	6.80%

*As of June 30, 2017, PERS' long-term inflation assumption was 2.75%

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003793

NOTE 6 –DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (continued)
S***ensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate*** – The following presents the net pension liability of the PERS as of June 30, 2017, calculated using the discount rate of 7.50%, as well as what the PERS net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current discount rate:

	Discount rate -1% (6.5%)	Current Discount Rate (7.5%)	Discount Rate +1% (8.5%)
Misc. Tier1	$987,187	$653,604	$375,493

Additional information supporting the Schedule of Employer Allocations and the Schedule of Pension Amounts by Employer is located in the PERS Comprehensive Annual Financial Report (CAFR) available on the PERS website.

NOTE 7 – DEFERRED COMPENSATION PLAN
NACO offers a defined contribution plan in accordance with IRS code section 457(b) to its employees. Employee contributions are voluntarily and are made on a pre-tax basis. Employer contributions are discretionary and in the current year the organization elected to not make any contributions. Employees contributed $21,850 and $23,400 for 2017 and 2016. NACO Services, a subsidiary of the National Association of Counties, sponsors the deferred compensation program, which is administered by Nationwide Retirement Solutions.

NOTE 8 - INSURANCE
NACO is a member of the Nevada Public Agency Insurance Pool (Pool) and Public Agency Compensation Trust (Pact) which was formed by various Nevada municipalities for the purpose of reducing insurance premiums and providing more stable insurance costs for its members. In the event that claims and expenses exceed net assets of the Pool or Pact, special assessments may be made to their members. Pool provides property and casualty insurance and Pact provides workers compensation coverage.

NOTE 9 – OTHER POST EMPLOYMENT BENEFITS
Plan Description:
NACO contributes to an agent multiple-employer defined benefit postemployment healthcare plan, Public Employees' Benefits Plan (PEBP), for eligible retired employees as per NRS 287.023. The plan provides medical, vision, dental, and life insurance benefits to eligible retired employees. Employees of NACO are not eligible for participation in the Plan, but if an employee qualifies for the Plan based on service years as an employee of the State of Nevada, NACO may be required to contribute toward the costs of providing postemployment benefits. NRS 287.043 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees.

AMERICAN OVERSIGHT

NOTE 9 – OTHER POST EMPLOYMENT BENEFITS (continued)

Local governments are required to pay their pro-rata cost to provide coverage for persons joining PEBP. Some of NACO's past and current employees may qualify for participation in the plan in the future. As of the date of the Independent Auditors' Report, only one past employee is a participant in the Plan. Complete financial statements for the State Retirees' Health and Welfare Benefits Trust Fund can be obtained from PEBP at 901 South Stewart Street, Carson City, Nevada 89701.

Funding Policy:
PEBP, NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired employees. The unsubsidized retiree plan rates varies dependent upon which plan type the retiree chooses and their years of covered employment. The participating plan member's monthly contribution is deducted from their pension checks based on the plan chosen, reduced by the amount of the subsidy; therefore, their contribution amounts are not available.

For the plan year ended December 31, 2017 there is one former employee who receives a subsidy from NACO for their OPEB. As a participating employer, NACO is billed for their portion of the subsidy on a monthly basis and is legally required under NRS 287.023 to provide for it. For fiscal years 2017 and 2016 NACO was billed for $1,460 and $1,449 its share of the subsidy. The contribution requirements of plan members and NACO are established and amended by the PEBP Board of Trustees. Payments will be made annually as calculated by PEBP and expensed when paid.

NOTE 10 –SUBSEQUENT EVENTS

Management has evaluated the activities and transactions subsequent to December 31, 2017 to determine the need for any adjustments to, and disclosure within the financial statements for the year ended December 31, 2017. Management has evaluated subsequent events through July 27, 2018 which is the date the financial statements were available for issue.

AMERICAN OVERSIGHT

U.S. Department of the Interior

Interior Reorganization

Share

Frequently Asked Questions about the DOI Reorganization

Regions & Reorganization Rationale

1. Why do you want to reorganize Interior?

Secretary Zinke's vision is to:

- Plan for and modernize the Department for the next 100 years of land and water management, and better coordinate collaborative conservation, recreation, and permitting
- Shift resources to the field; with more focus on local decision-making and less emphasis on Washington, D.C.
- Improve collaboration and coordination across our bureaus, and with other agencies to facilitate better coordination of collaborative conservation, recreation, and permitting
- Empower the field to more easily resolve conflicts and be more responsive to the public on regional resource issues.

2. How and why is Interior changing long-standing regional boundaries?

We followed the philosophy of John Wesley Powell, the second director of the U.S. Geological Survey (1881-1894), in taking a science-based approach looking at watersheds, wildlife corridors, and ecosystems to propose boundaries generally following state lines in these areas. We asked for employee, Tribal, State, and Congressional input on this proposal.

This modernization will result in:

AMERICAN OVERSIGHT

- Reducing bureaucratic barriers to serving the American public.
- Sharing departmental resources more effectively.
- More efficient use of program dollars for mission activities.
- Improving collaboration and coordination among federal, state and local agencies
- Facilitating joint problem-solving and effective decision-making
- Increasing authority, decision-making, responsibility, and resources in the field.

3. The proposed regional boundaries split the Navajo Nation between two regions. How will this impact service delivery to the Navajo Nation?

Tribal consultations are currently in progress to discuss this issue directly with Indian Country. If tribes do not want to participate in the reorganization, then they will not be required to participate.

Job Security and Relocations

4. Will people lose their jobs or be asked to relocate due to the reorganization?

No one will be forced to move. We believe that the reorganization will facilitate inter-bureau coordination, training, and experience and could enhance employees' career development and movement of employees among bureaus.

The Department has absolutely no plans to run a Reduction In Force (RIF).

5. Will the Department use Voluntary Early Retirement Authority (VERA) and Voluntary Separation Incentive Payment (VSIP) to facilitate the reorganization?

To the extent OMB and OPM authorize us to use early outs and buyouts, we may consider doing so.

6. Will bureau headquarters functions be moved as a result of the reorganization?

The FY19 President's Budget included a request for funding to support the migration of bureaus to unified regional boundaries and in some instances to begin shifting some headquarters resources in BLM and FWS west to an as yet unidentified location in order to gradually establish western headquarters for those agencies. In addition, a few more headquarters positions in the Bureau of Reclamation may be moved to Denver, where many of the Bureau's central functions are located already.

AMERICAN OVERSIGHT

Interior Regional Directors (IRDs)

7. IRDs will be put in place to address inter-bureau conflict. What kinds of conflicts are sparking this change?

Overlapping responsibilities and geographic frames of reference often create unnecessary confusion for citizens, businesses, and government. The various bureaus at the Department oversee a broad range of resources and assets, often close or overlapping, many times with conflicting missions. Navigating this complex environment can be unduly difficult and time-consuming for all stakeholders. One goal of the reorganization is to create mechanisms within the Department to streamline communications and decision-making.

8. Bureaus often produce conflicting decisions or recommendations because they serve different missions. How will IRDs resolve this as, ultimately, bureau staff are still accountable to their specific mission? Will front-line supervisors in bureau field offices report to a different superior as a result of the new regional boundaries?

Existing chains of command will stay the same. Conflicts in decision-making will be resolved on a case-by-case basis. IRDs are there to facilitate a problem-solving environment among bureau regional directors to discover the best way to move forward, supporting all bureau missions. IRDs will help facilitate regular and frequent communication and coordination among bureaus.

9. What will be the role and scope of responsibilities for each IRD?

The IRD will coordinate the mission and administrative functions that are common to more than one bureau within the region. The particular responsibilities will likely vary from region to region, as a function of the work of the bureaus within a given region. The IRD will not have line authority or budget authority. They are there to convene, mediate, and help drive progress within the region, as needed. IRDs will also supervise and administer shared services within the region. Bureau directors and assistant secretaries will continue to have authority over national policy, budget, personnel, training, uniforms, workforce planning and related functions, as well as line authority over mission areas that are unique to particular bureaus. IRDs do not change the existing authorities or chains of command within bureaus, since their primary mission is to enhance regional coordination and resolve conflicts.

10. Who will serve as IRDs for these new unified regions?

AMERICAN OVERSIGHT

Existing bureau SES leaders will serve as IRDs on a rotational basis. The current chains of command will stay the same.

How Will Unified Regions Work?

11. How will the bureau regional directors coordinate with their counterparts in other bureaus in the same region?

Bureau regional directors will continue to work with their colleagues in other bureaus following regular procedures. If a conflict arises between bureaus, or if additional support is required to move a project forward, IRDs will be able to assist with coordination, communication and joint decision-making.

12. How will the new regional boundaries affect how employees do their every day jobs in the field? How will the Department ensure that institutional knowledge is preserved and applied appropriately through the reorganization process?

The new regional boundaries should have very little impact on field operations. Employees can expect more leadership support for taking steps to coordinate more closely with other bureaus or other federal agencies. This transition will take place over time. Colleagues you currently work with will still be available for consultation throughout the transition period so that no institutional knowledge is lost.

13. Considering most DOI bureaus have fewer than 12 regions, this would increase the number of SES Regional Directors. Would this require hiring more SES positions?

Currently, not all bureaus have senior leadership in each of the proposed unified regions. During the first year or so of the transition period it is likely that an SES leader from one region could have virtual responsibilities in another region. In the future, the total number of bureau SES leaders could increase so that each region has a senior executive where a bureau has a significant presence.

14. Different regions have different priorities (e.g., invasive species vs. wildland fire prevention, etc.). How will these variations be addressed?

While the President and the Secretary will set national goals for the Department, bureau directors will continue to have the ability to apply and interpret policies and set priorities, based on the local conditions as appropriate, within their regions. The needs of the public will be of

AMERICAN OVERSIGHT

paramount importance. The unified regions will be better suited to address as yet unforeseen issues that will arise in the future.

Shared Services

15. What services will be shared?

We are looking at potentially sharing HR, IT, and procurement. Other activities could be considered for shared services in the future. We will be able to identify specifically which ones as the new unified regions begin working together.

16. How will this impact bureau and office budgets?

We are considering how to coordinate permitting, recreation, and collaborative conservation activities within each region. We are also considering shared services to reduce administrative redundancies by sharing core services across bureaus, which will maximize the use of program dollars for program activities.

17. How will this impact employee access to core services (HR, IT, etc.)

Our goal is to improve efficiency while maintaining or improving service. Employees should experience an increase in service accessibility and quality.

United States District Court
Northern District of California

UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

DESERT SURVIVORS, et al.,

Plaintiffs,

v.

US DEPARTMENT OF THE INTERIOR, et al.,

Defendants.

Case No. 16-cv-01165-JCS

REMEDY ORDER

I. INTRODUCTION

In this case, Plaintiffs Desert Survivors, Center for Biological Diversity, WildEarth Guardians, and Western Watersheds Project challenged: 1) the decision of the U.S. Fish and Wildlife Service to withdraw the proposed listing of the Bi-State Sage-Grouse as "threatened" under the Endangered Species Act (the "Withdrawal Decision"); and 2) the Service's "Final Policy on Interpretation of the Phrase 'Significant Portion of its Range' in the Endangered Species Act" (the "SPR Policy"). On May 15, 2018, the Court issued an order granting Plaintiffs' summary judgment motion and denying Defendants' summary judgment motions. In response to the Court's request, the parties have provided briefing on the appropriate remedy in light of the Court's rulings. The Court's ruling on remedies is set forth below.[1]

II. WITHDRAWAL DECISION REMEDY

Judicial review of agency action under the Endangered Species Act is governed by the "arbitrary or capricious" standard set forth in the Administrative Procedures Act ("APA"), which provides that "a reviewing court shall . . . hold unlawful and set aside agency action, findings, and

[1] The parties have consented to the jurisdiction of the undersigned magistrate judge pursuant to 28 U.S.C. § 636(c).

AMERICAN OVERSIGHT

conclusions found to be . . . arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law." 5 U.S.C. § 706(2)(A). In its summary judgment order, the Court concluded that the Service's Withdrawal Decision was arbitrary and capricious under the APA and unsupported by the record. Therefore, as the parties have agreed, the appropriate remedy is to vacate the Withdrawal Decision and remand with directions to the United States Fish and Wildlife Service ("FWS") to issue a new final listing decision. The parties also agree that the proposed rule to list the Bi-State DPS that was the subject of the Withdrawal Decision should be reinstated. *See Paulsen v. Daniels*, 413 F.3d 999, 1008 (9th Cir. 2005) ("The effect of invalidating an agency rule is to reinstate the rule previously in force."). Finally, the parties have agreed on certain requirements regarding the timing of the actions required of FWS upon remand, which the Court finds to be reasonable.

Therefore, with respect to the Withdrawal Decision, the Court ORDERS as follows:

1) The Withdrawal of the Proposed Rule to List the Bi-State Distinct Population Segment of Greater Sage-Grouse and Designate Critical Habitat ("Withdrawal Decision"), published at 80 Fed. Reg. 22,828 (Apr. 23, 2015), is HEREBY VACATED and set aside;

2) The prior proposal to list the Bi-State Sage-Grouse as a threatened species and to designate critical habitat, published at 78 Fed. Reg. 64,328 (Oct. 28, 2013) ("Proposed Listing"), is HEREBY REINSTATED;

3) Federal Defendants shall provide a new opportunity for public comment on the Proposed Listing and shall prepare and publish in the Federal Register a new and final listing determination on the proposed rule by **October 1, 2019**;

4) If the Federal Defendants make a finding that additional time is needed because there is "substantial disagreement regarding the sufficiency or accuracy of the available data relevant to the determination" and submit that finding to the Court by October 1, 2019, then the time for Federal Defendants to prepare and publish in the Federal Register a final listing determination on the proposed rule shall be extended to April 1, 2020.

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003812

III. SPR POLICY REMEDY

In its summary judgment order, the Court concluded that the definition of "significant" in the SPR Policy is an impermissible interpretation of the "significant portion of its range" language in the Endangered Species Act. The parties agree that some sort of vacatur of the SPR Policy is an appropriate remedy, and both sides agree that any vacatur of the SPR Policy should be limited to the definition of "significant" that the Court found to be impermissible. Defendants, however, contend the Court should limit the vacatur order to the particular geographical region in which Plaintiffs' injury occurred, namely, the District of Nevada and the Eastern District of California, where the Bi-State DPS is found. Plaintiffs contend there should be no such limitation. The Court concludes that Plaintiffs are correct.

As a preliminary matter, the Court notes that in "rare circumstances," an invalid rule may be left in place without vacatur on the basis of equity concerns. *Ctr. for Envtl. Health v. Vilsack*, No. 15-CV-01690-JSC, 2016 WL 3383954, at *10 (N.D. Cal. June 20, 2016) (citing *Pollinator Stewardship Council v. U.S. E.P.A.*, 806 F.3d 520, 532 (9th Cir. 2015) (Courts "leave an invalid rule in place only when equity demands that we do so."")). "To determine whether to make an exception to the usual remedy of vacatur, the Court considers two factors: (1) 'how serious the agency's errors are,' and (2) 'the disruptive consequences of an interim change that may itself be changed.'" *State v. United States Bureau of Land Mgmt.*, 277 F. Supp. 3d 1106, 1125 (N.D. Cal. 2017), appeal dismissed sub nom. *State by & through Becerra v. United States Bureau of Land Mgmt.*, No. 17-17456, 2018 WL 2735410 (9th Cir. Mar. 15, 2018) (citing *Cal. Cmtys. Against Toxics v. Envtl. Prot. Agency*, 688 F.3d 989, 992 (9th Cir. 2012) (quoting *Allied–Signal, Inc. v. U.S. Nuclear Regulatory Comm'n*, 988 F.2d 146, 150–51 (D.C. Cir. 1993)). Defendants do not invoke this exception, however, in support of their request for a geographical limitation on the Court's vacatur order.

Instead, Defendants point to the Ninth Circuit's admonition in *Los Angeles Havens Hospice, Inc. v. Sebelius*, that a remedy should be "no more burdensome . . . than necessary to provide complete relief to the plaintiffs." 638 F.3d 644, 664 (9th Cir. 2011). According to Defendants, because the injury Plaintiffs suffered occurred only in the Bi-State DPS, a remedy that

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003813

extends only to that geographical region is all that is needed or appropriate to afford sufficient relief. They further assert that under *Los Angeles Havens Hospice,* a geographically limited vacatur order is preferable to nationwide vacatur because other courts will have the opportunity to address a difficult issue in different factual contexts, resulting in multiple decisions by various courts of appeals. 638 F.3d at 664.

Defendants also suggest that a geographical limitation is required under *Lujan v. National Wildlife Federation*, 497 U.S. 871, 873 (1990) and the rules governing Article III standing. They point out that in *Center for Biological Diversity v. Jewell* ("*CBD I*"), Case No. 14-2506 (District of Arizona), Judge Marquez amended her order vacating the SPR Policy on the basis that the plaintiffs in that case had established Article III standing only "with respect to the Final Pygmy Owl Finding and the Final SPR Policy as applied in the District of Arizona" and not "to challenge the Final SPR Policy nationwide." Case No. 14-2506, Docket No. 81 (citing *Lujan v. Nat'l Wildife Fed'n*, 497 U.S. 871, 891 (1990)).

The Court is not persuaded that an order partially vacating the SPR Policy – without a geographic limitation – violates the principle set forth in *Los Angeles Havens Hospice* or the rules that govern Article III standing. First, the remedy requested by the plaintiffs in *Los Angeles Havens Hospice* went beyond asking the court to vacate the challenged regulation. In that case, a hospice provider brought a facial challenge to a regulation imposing an aggregate cap on Medicare payments to hospice providers. 638 F.3d at 665. The court found that the hospice provider, which had received an overpayment demand from the Department of Health and Human Services that was based on the hospice cap regulation, had standing to challenge the regulation, both on its face and as applied. *Id.* at 653. It further found that the regulation was inconsistent with the applicable hospice cap statute under which it was promulgated. *Id.* The judgment entered by the district court did "not only invalidate[ ] the 2006 overpayment demand and the hospice cap regulation," however. *Id.* It "also stated that 'HHS is hereby enjoined prospectively from using the current [version of] 42 C.F.R. § 418.309(b)(1) to calculate hospice cap liability for *any* hospice.'" *Id.* (emphasis in original). It was this injunctive relief that the court found to be unduly burdensome, concluding that the district court abused its discretion but stopping short of finding

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003814

that the nationwide injunction was "in excess of its jurisdiction." *Id.* at 661. In reaching this conclusion, the Court of Appeals relied on the district court's own finding that "a nationwide injunction would not be in the public interest because it would significantly disrupt the administration of the Medicare program by inhibiting HHS from enforcing the statutorily mandated hospice cap as to over 3,000 hospice providers, and would create great uncertainty for the government, Medicare contractors, and the hospice providers." *Id.*

In contrast to *Los Angeles Havens Hospice*, Plaintiffs here have not asked for a nationwide injunction. Nor have Defendants pointed to evidence that an order vacating one aspect of the SPR Policy will lead to the sort of disruption that was likely to result from a nationwide injunction in *Los Angeles Havens Hospice*. Indeed, it is not clear that the geographical limitation proposed by Defendants would not itself be a source of confusion given that Plaintiffs have identified a number of species whose habitats include the Eastern District of California and/or the District of Nevada and also other districts where the definition of "significant" under the SPR Policy would remain in effect under Defendants' proposal. Moreover, nothing in *Los Angeles Havens Hospice* suggests that the court would have abused its discretion if it had merely vacated the challenged regulation, as Plaintiffs request here. To the contrary, the court in that case made clear that "[a]n order declaring the hospice cap regulation invalid, enjoining further enforcement against Haven Hospice, and requiring the Secretary to recalculate its liability in conformity with the hospice cap statute, would have afforded the plaintiff complete relief." *Id.*

Further, the Court is not persuaded that the possible benefit of multiple decisions by courts of appeals addressing different fact patterns justifies limiting the scope of the vacatur geographically. The Court found that the SPR Policy is deficient as a *matter of law*, meaning that it cannot be reconciled with any set of facts. Further, to the extent that the Court has found that the definition of "significant" is inconsistent with the Endangered Species Act, any possible benefit that might arise from multiple decisions addressing the lawfulness of the policy is outweighed by the fact that application of the policy could prevent species from being afforded the protection the ESA was intended by Congress to afford them. *See Nw. Envtl. Advocates v. U.S. E.P.A*, No. C 03-05760 SI, 2006 WL 2669042, at *10 (N.D. Cal. Sept. 18, 2006), *aff'd sub nom.*

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003815

Nw. Envtl. Advocates v. U.S. E.P.A., 537 F.3d 1006 (9th Cir. 2008) ("In considering which of the parties' positions most closely approximates the proper remedy in this case, the Court is primarily guided by one factor: the EPA regulation is plainly contrary to the congressional intent embodied in the Clean Water Act.").

The Court also rejects Defendants' argument that the Court should place a geographical limitation on the vacatur of the SPR Policy on the basis of Article III standing. Courts have "made clear that '[w]hen a reviewing court determines that agency regulations are unlawful, the ordinary result is that the rules are vacated—not that their application to the individual petitioners is proscribed.'" *Nat'l Min. Ass'n v. U.S. Army Corps of Engineers*, 145 F.3d 1399, 1409 (D.C. Cir. 1998)(quoting *Harmon v. Thornburgh*, 878 F.2d 484, 495 n. 21 (D.C.Cir.1989)). The court in in *National Mining Association* pointed to the following passage in Justice Blackmun's dissent in *Lujan v. National Wildlife Federation*, 497 U.S. 871, 110 S.Ct. 3177, 111 L.Ed.2d 695 (1990), which "apparently express[ed] the view of all nine Justices on this question:"

> The Administrative Procedure Act permits suit to be brought by any person "adversely affected or aggrieved by agency action." In some cases the "agency action" will consist of a rule of broad applicability; and if the plaintiff prevails, the result is that the rule is invalidated, not simply that the court forbids its application to a particular individual. Under these circumstances a single plaintiff, so long as he is injured by the rule, may obtain "programmatic" relief that affects the rights of parties not before the court. On the other hand, if a generally lawful policy is applied in an illegal manner on a particular occasion, one who is injured is not thereby entitled to challenge other applications of the rule.

145 F.3d at 1409 (quoting *Lujan*, 497 U.S. at 913)(Blackmun, J., dissenting) (citation omitted).

Likewise, the majority in *Lujan* – while finding that there had been no final agency action that had subjected the plaintiff to concrete harm and thus, that the plaintiff's claims were not ripe for review under Article III – recognized that if there *had* been some final agency action that was ripe for review, an individual who was adversely affected by the action could seek a remedy that went beyond the individual's injury. 497 U.S. at 890 n. 2. In particular, Justice Scalia stated:

> If there is in fact some specific order or regulation, applying some particular measure across the board to all individual classification terminations and withdrawal revocations, and if that order or regulation is final, and has become ripe for review in the manner we discuss subsequently in text, it can of course be challenged under the

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003816

> APA by a person adversely affected-and the entire "land withdrawal review program," insofar as the content of that particular action is concerned, would thereby be affected.

Id. The Court found in its summary judgment order that Plaintiffs' challenge to the definition of "significant" under the SPR Policy is ripe for review. Accordingly, *Lujan* supports the conclusion that Plaintiffs have standing under Article III to seek vacatur of the SPR Policy without a geographical limitation.[2]

For these reasons, the Court vacates and sets aside the "significant portion" part of the SPR Policy that it found to be unlawful in its summary judgment order.

IT IS SO ORDERED.

Dated: August 24, 2018

JOSEPH C. SPERO
Chief Magistrate Judge

United States District Court
Northern District of California

[2] The Court respectfully declines to follow the decision in *CBD I* limiting the vacatur order in that case to the District of Arizona. Although the court in *CBD I* cited *Lujan* for the proposition that a regulation is not ripe for review under the APA until there has been some concrete action applying to the claimant's situation, the court did not explain how that language supported the conclusion that the plaintiffs in that case – who *had* been subject to concrete agency action and were bringing a facial challenge to the SPR Policy based on the harm that they suffered from that concrete action – lacked standing to seek vacatur beyond the geographical area where they suffered injury. As discussed above, *Lujan* recognizes that a successful facial challenge to a regulation may result in its invalidation even if that remedy affects nonparties. The Court finds nothing in *Lujan* that suggests that a party who brings a facial challenge based on a concrete injury has standing only as to the geographical area where the injury occurred. The only other case Defendants cite in which vacatur was geographically limited is *Cape Hatteras Access Pres. All. v. U.S. Dep't of Interior*, 344 F. Supp. 2d 108 (D.D.C. 2004). In that case, however, the court limited the scope of the vacatur simply because the parties had agreed to do so and did not discuss any of the issues raised by the parties here as to the scope of the vacatur.

NEVADA ASSOCIATION OF COUNTIES (NACO)

Board of Directors' Meeting
December 14, 2018, 9:30 a.m.
NACO Office
304 S. Minnesota Street
Carson City, NV 89703

AGENDA

Some NACO Board members may attend via video link or phone from other locations. Items on the agenda may be taken out of order. The NACO Board may combine two or more agenda items for consideration. The NACO Board may remove an item from the agenda or delay discussion relating to an item on the agenda at any time.

Call to Order, Roll Call and Pledge of Allegiance

1. Public Comment. Please Limit Comments to 3 Minutes.

2. Approval of Agenda. **For Possible Action**

3. NACO President's Report.

4. NACO Executive Director's Report.

5. Approval of Minutes of the November 14th, 2018 NACO Board of Directors Meeting. **For Possible Action**

6. Approval of NACO's October 2018 Financial Statements and October 31, 2018 Investment Reports. **For Possible Action**

7. Discussion and Approval of NACO's 2019 Budget. **For Possible Action**

8. Approval of NACO Resolution 18-02 Thanking Douglas County for Hosting the 2017 NACO Annual Conference. **For Possible Action**

9. Final Update on NACO's 2018 Annual Conference.

10. Possible Approval of an Annual Conference Performance Bonus for NACO's Office Manager. F**or Possible Action**

11. Nomination of One of Nevada's Two Representatives to the National Association of Counties (NACo) Board to Serve out the Remainder of the Appointment Currently Held by Commissioner Tipton. **For Possible Action**

12. Presentation and Discussion on State Requirements in County Subdivision and Water/Wastewater Infrastructure Approval Processes, Jennifer Carr, Deputy Administrator, Nevada Division of Environmental Protection.

13. Update and Possible Action Regarding Proposed Legislative Measures, Budget Requests, and NACO Priorities for the 2019 Nevada Legislative Session. **For Possible Action**

14. **Update and Possible Action** Regarding Natural Resources and Public Lands and Issues Affecting Counties Including:

    a. NACO Public Lands and Natural Resources Committee Update.
    b. The BLM and USFS Greater Sage Grouse Resource Management Plan Amendments.

AMERICAN OVERSIGHT

c. Discussion on the Contract with Resource Concepts, Inc., to provide Technical Support to Counties on Issues Related to the Greater Sage Grouse Resource Management Plan Amendments.
d. Possible NACO Support for the Request of an Executive Action Related to RS2477 Rights of Way.
e. The U.S. Department of the Navy's DEIS for the Fallon Range Training Complex Modernization.

15. National Association of Counties and Western Interstate Region Board Member Updates.

16. NACO Board Member Updates.

17. Public Comment. Please Limit Comments to 3 Minutes.

Adjournment.

Members of the public who are disabled and require special accommodations or assistance at the meeting are requested to notify NACO in writing at 304 S. Minnesota Street, Carson City, NV 89703, or by calling (775) 883-7863 at least three working days prior to the meeting.

Members of the public can request copies of the supporting material for the meeting by contacting Amanda Evans at (775) 883-7863. Supporting material will be available at the NACO office and on the NACO website at: www.nvnaco.org

Minden, NV 89423

UNADOPTED MINUTES

Attendance: President Weekly, President Elect Waits, Vice President French, Western Interstate Region Representative Elko County Commissioner Dahl, Churchill County Commissioner Olsen, Clark County Commissioner Kirkpatrick, Douglas County Commissioner Thaler, Elko County Commissioner Steninger, Esmeralda County Commissioner Bates, Lincoln County Commissioner Higbee, Lyon County Commissioner Hunewill, Mineral County Commissioner Tipton, Nye County Commissioner Wichman, Pershing County Commissioner Shank, Washoe County Commissioner Hartung, White Pine County Commissioner Stork, NACO Fiscal Officer Kalt and NACO Staff (Dagny Stapleton, Vinson Guthreau and Sandra Hoover)

Other Attendance: Churchill County Manager Jim Barbee, Washoe County Commissioner Herman, Lyon County DA Steve Rye, Humboldt County Manager Dave Mendiola, Marla McDaid Williams, Lee Boner - NDOT, Elko County Manager Rob Stokes, Lyon County Commissioner Alt, Norm and Sue Frey

The meeting was called to order at 8:17 a.m.

1. **Public Comment**. None was given.

2. **Approval of Agenda**. The agenda was approved on a motion by Commissioner Tipton with second by Commissioner Hartung.

3. **NACO President's Report**. President Weekly welcomed support from the Association and Counties as Clark County prepares to host the 2019 National Association of Counties (NACo) Annual Conference in July. He noted that the December meeting would be his last as President and wished a blessed Thanksgiving season to the Board.

4. **NACO Executive Director's Report**. Dagny deferred to her report given during the General Membership meeting.

5. **Approval of Minutes of the October 19th, 2018 NACO Board of Directors Meeting**. The minutes were approved on a motion by Commissioner Hartung with second by Commissioner Tipton.

6. **Discussion and Approval of 2019 NACO Board meeting dates**. President Weekly noted that the item was brought back from a prior meeting due to potential conflicts with the legislative session and previously discussed potential meetings in Clark County. Dagny informed the Board that staff had proposed hosting the meeting in Clark County on January 25th, due to Clark County and NACO Board members wishing to discuss potential events and locations for events for the NACo Annual Conference. She noted that the date was the best date due to conflicts with the legislative session and June/July would be to close to the NACo conference. President Elect Waits noted a conflict with the Lander County Commission meeting. Vice President French noted the previous discussion held by the Board regarding the sharing of the plans for the conference, conflicts with the availability of Clark County and NACO staff due to the legislative session, and President Weekly noted that January is their preferred timing to host the meeting. Additional discussion from the Board included having the meeting later in the day and Clark County's planned efforts to encourage registration for the event at the NACo Legislative Conference in March, and the desire to have Nevada's attendee's at the Legislative Conference help advertise the planned tours and events for the Summer Conference. Commissioner Kirkpatrick noted that the County is planning on doing several things differently than at any previous conference and that they are excited to share their plans. Dagny suggested having the

AMERICAN OVERSIGHT

tour of the event locations/and or presentation by Clark about Conference plans begin at 10:00 a.m. and then have the Board meeting begin at 1:00 p.m. The 2019 meeting calendar was approved with Dagny's suggested timing for the January meeting on a motion by Commissioner Tipton with second by Commissioner Higbee. Dagny concluded the item by informing the Board that the approved 2019 NACO Board meeting schedule will be distributed to all Board members.

7. **Approval of the 2018 NACO Honor Roll and NACO Participatory Democracy Awards**. The award recipients were unanimously approved on a motion by Commissioner Tipton with second by Commissioner Wichman.

8. **Discussion and Possible Action Regarding the BLM Greater Sage Grouse Resource Management Plan Amendment and Final EIS**. Sandy informed the Board that the BLM had delayed the publication of the FEIS in order to facilitate continued discussion with the Governors of the affected states, noting that when the document is published there will be a 30-day protest period. Sandy stated that 70-80% of the items requested by the Association had been incorporated in the draft document but there are still issues outstanding that could be worthy of protesting in the final document. Those issues include land disposal and mitigation. She informed the Board that when the document is published a meeting would be held with the Governor's office regarding the State's intentions going forward, but requested, at the direction of the Public Lands and Natural Resources Committee, permission from the Board for the Committee to meet and make a final determination on whether to protest due to the short timeframe of the protest period. Commissioner Wichman moved to allow the Committee to make the determination and the motion was passed on a second by Commissioner Kirkpatrick.

9. **National Association of Counties and Western Interstate Region Board Member Updates**. Commissioner Kirkpatrick informed the Board that she had attended the recent NACo Board meeting and that there was a focus on rural economic development. She reported that she left the meeting with several takeaways and action plans and that Nevada is participating on every level. Commissioner Tipton noted that the NACo Board's next meeting would be on December 7th & 8th in San Diego and that President Weekly would be attending the meeting in her place. Dagny noted that Commissioner Tipton is terming out and that the Board would need to appoint her replacement to the NACo Board of Directors at their December meeting. Commissioner Dahl informed the Board that discussions at the last WIR meeting included PILT and SRS funding. He noted that the group decided to focus primarily on the issue of wildfire and how the epidemic is going to be addressed and additional discussion was held regarding RS2477 roads. Commissioner Hartung inquired as to fuels management programs and the differences in the state's topography. Commissioner Dahl noted that discussions included utilizing updated AUM levels to allow for targeted grazing and Vice President French noted that noxious weed issues and flash fuels are major issues. He also referenced a discussion held with Congressman Amodei regarding the issue and FEMA's role in wildfire management. Commissioner Wichman noted that the reauthorization of SRS is imperative for funding projects to address invasive weeds, creating fire breaks and partnering on Sage Grouse initiatives. Commissioner Olsen noted that timing for restoration following a wildfire is an important issue, specifically regarding re-vegetation that must be completed in the Fall to be effective. Vice President French echoed the timing issue brought up by Commissioner Olsen and also noted the need to end the practice of fire borrowing.

10. **NACO Board Member Updates**. Updates were given by members of the Board on activities within their respective counties.

11. **Public Comment.** Commissioner Higbee offered the assistance of Lincoln County to Clark County as they prepare to host the NACo Annual Conference.

Adjournment.

AMERICAN OVERSIGHT

2019 BUDGET DESCRIPTION

NACO REVENUES

MEMBERSHIP DUES: The 2019 NACO dues for all counties are calculated to be a total of $361,491. The 2018 dues were $352,846. The NACO Dues Schedule was developed to recognize the various unique characteristics of each county, while at the same time providing a systematic method of assessment that considers the changes occurring yearly in our member county revenues. As such, the 2019 dues are based upon the FY 17 audited S-1 revenues for each county and the 2017 certified population figures. The 2019 dues, including the public lands assessment dues, for the majority of counties increased by less than $2,500

PUBLIC LANDS ASSESSMENT DUES: This revenue calculation is based on the equivalent of a percentage, as determined by the Board of up to .5%, of the most recent federal Payment in Lieu of Taxes (PILT) payment made to each county. The proposed Assessment for 2019 is based on 0.5% and is a total of $134,936. This assessment pays for the expense of expanded NACO support for counties on natural resources-related issues.

ASSOCIATE MEMBERSHIPS: $18,000 is anticipated as revenue from Associate Memberships in 2019. The 2018 actual is $18,750, an increase of $3,750 over 2017.

CONFERENCE REVENUE: Conference revenue for 2019 is projected to be $35,395, approximately $45,000 less than will be realized in 2018. This reduction is due to a projected decrease in sponsorships for 2019 only, as well as the NACO Board's approval of a shorter conference for 2019 resulting in lower registration fees.

INDIGENT ACCIDENT FUND/ SUPPLEMENTAL FUND: $70,000 is budgeted by NACO for administration of the Indigent Accident Fund, this amount was increased by $10,000 during the 2017 Legislative Session. The current contract extends through June 2019.

INTEREST INCOME: $15,000 has been budgeted for investments that are managed by Raymond James Financial Advisors, which is the same amount as 2018. Income for 2018 is projected to be approximately $16,500; however, because this amount can fluctuate, the projected revenue for 2019 is $15,000.

TRANSFER FROM INVESTMENTS: In past years transfers from investments have been made for large capital improvements, as approved by the NACO Board. The projected amount to be transferred in 2019 is 0.

NATIONAL PROGRAMS: Through agreements entered into by the Board, the Association receives revenue from NACo for marketing the U.S. Communities Program, Nationwide Retirement Services (deferred compensation) and the Caremark Discount Prescription Card Program. The Association also receives royalties based on county participation in the U.S. Communities Program and Nationwide Retirement Services as well as constituent use of the Caremark Discount Prescription Card. We anticipate receiving $17,000 in revenue for participation in these national programs, an increase from 2018 of $6,000. NACO can generate additional revenue as well as savings for counties by increasing the use of the national programs.

DRAFT

AMERICAN OVERSIGHT

NACO EXPENSES

STAFF SALARIES AND BENEFITS: The 2019 budget calls for continuing with a full-time NACO staff of four: Executive Director, Deputy Director, Office Manager and Natural Resources Manager. Salaries for NACO employees are $309,419 which includes a 2% cost of living increase (COLA) for all employees effective January 1, 2019. The total cost of staff salaries is still less than the budgeted amount for 2017, due to staff turnover; and all projected staff salaries for 2019 are within the salary ranges for those positions. All employees are members of the employer funded Public Employees Retirement System. The PERS contribution rate is currently 28.00%. NACO employees are also provided life insurance, health, dental and vision insurance. The 2019 budget reflects no additional increases in health insurance costs as the budgeted amount for health insurance in 2018 included a significant increase which was not realized.

WORKER'S COMP/FICA: The Workers' Compensation is provided under the Public Agency Insurance Pool. The 2019 budget amount is $6,000. The budgeted amount for 2018 was $5,500, but actual cost will be approximately $5,800.

AUDIT: $8,500 is budgeted for our independent auditor, Michael Bertrand, to conduct the 2018 NACO Audit. The actual amount for 2017 was $7,225 and for 2018 was $8,125.

BOARD MEETINGS: $7,500 is allocated for expenses related to 2019 Board meetings, which includes expenses for staff to travel if the Board decides to hold any Board meetings remotely, as well as costs for 1-2 annual Board gatherings. This amount is $2,500 less than was budgeted in 2018.

CONFERENCE EXPENSE: $35,000 is allocated for the 2019 NACO Annual Conference which will be an abbreviated, 1-2 day conference, location TBD. The amount allocated in 2018 was $45,000, though NACO staff has worked to realize substantial savings at the 2018 venue, as a result, final expenses should include a savings of approximately $10,000.

DONATIONS/SPONSORSHIPS: $1,500 is being proposed for donations during 2019 to support other groups affiliated with the mission of NACO. This is the same as last year.

EQUIPMENT LEASES, MAINTENANCE, AND IT SUPPORT: $8,500 is allocated for office equipment leases, maintenance and IT support. This figure represents the lease of a copier, scanner and fax machine, as well as maintenance costs for equipment. This figure also includes costs for IT support as well as support for the NACO website. There is an 11% increase to this budget item which represents slight increases for both equipment leases and IT support.

EQUIPMENT PURCHASES AND SYSTEM MAINTENANCE: $4,500 is allocated for computer and other office equipment. This is the same amount that was budgeted for in 2017 and 2018.

COUNTY LEADERSHIP INSTITUTE: $2,200 is allocated in 2019 to support attendance for one participant in the National Association of Counties Leadership Institute training program. This is the same amount that was requested in 2018.

INTERNET SERVICE: The cost for internet service for the NACO offices and NACO Conference room in 2019 is projected to be $4,788.

LEGISLATIVE EXPENSES: $5,000 is requested for legislative expenses during 2019 to support active dialogue with members of the legislature and lobbying team efforts on behalf of the membership. Dating back to 2015 the amount that was budgeted was $3,000. The proposed increase reflects rising costs for both the joint NACO and League of Cities Legislative Reception, as well as travel to conduct outreach to legislators.

LIABILITY AND AUTO INSURANCE: NACO is a member of the Nevada Public Agency Insurance Pool. $5,500 is allocated for general liability for the office and NACO vehicle, an increase of $460.

DRAFT
AMERICAN OVERSIGHT
NV-DA-20-0615-A-003833

OFFICE SUPPLIES: $3,500 is allocated for office supplies, which is the same amount budgeted for 2017 and 2018.

POSTAGE: $500 is allocated for postage, which is the same amount budgeted for 2018 and less than the approved budget amount for 2017.

PRINTING: $750 is allocated for general printing a 25% decrease from 2018.

PROFESSIONAL SERVICES: $18,388 has been allocated to pay for professional services during the year. This includes payroll processing and bookkeeping services. The amount budgeted in 2018 was $17,142.

PEHB LIABILITY: $1,552 has been budgeted for the prorated subsidy for a former NACO employee who has retired from the State and is currently receiving Public Employee's Health Benefits. This is the same amount as last year.

BUILDING OPERATING EXPENSES: $18,403 is budgeted for taxes, utilities, landscaping/snow removal, janitorial services, and minor maintenance and repair. This is the same amount budgeted in 2017 and 2018.

BUILDING CAPITAL IMPROVEMENT PROGRAM: $6,000 is budgeted for minor improvements and repairs such as painting, window glazing, roof repairs etc. and is the same as last year, and an additional $20,000 is being requested to replace the roof on the NACO building. Current estimates for the roof repair are between $16,000 and $20,000. Total budgeted amount is $26,000.

PUBLICATIONS/DUES/REGISTRATION FEES: $7,743 is allocated for newspapers and magazine subscriptions, membership dues in other organizations and registration fees to outside conferences and meetings. This is the same amount budgeted for 2018.

TELEPHONE: $7,000 is allocated for telephone expenses including office phones, NACO conference line and cell phones for NACO staff. In 2018 $13,200 was budgeted for this item; however, that included internet expenses. In 2018 NACO acquired new, updated, internet service, the cost for which is now shown under a separate budget item. The budgeted amount for "Internet Service" for 2019 is $4,788.

VIDEO-CONFERENCE HOSTING: $6,649 is budgeted for the operation and maintenance of NACO's video-conferencing system, which includes hosting and some technical support. This is a 30% reduction from 2018 due to the fact that NACO is no longer paying for the system warranty and the University of Nevada Cooperative Extension program has begun assisting NACO with technical support for the hardware.

STAFF TRAVEL: $20,000 is allocated for NACO staff travel for 2018, the same as 2017. This includes travel to the NACo Legislative Conference, the NACo Annual Conference, the annual NCCAE meeting, and any other travel that may be required of the NACO staff in the course of carrying out the mission of NACO, including visiting and serving our membership on site.

REPRESENTATIVE TRAVEL: $17,000 is allocated for the NACO President, NACo and WIR Board members and other NACO Board members for travel pursuant to NACO's travel policy. This is an increase of $2,000 from 2017 and 2018.

SPECIAL STUDIES AND LITIGATION: $15,000 is allocated for special studies including but not limited to technical studies related to legislative issues and legal research and litigation.

VEHICLE MAINTENANCE: $3,000 is budgeted for 2019, the same as 2017 and 2018.

W.I.R. DUES: $9,991 is budgeted for WIR annual dues for 2019.

of the Nevada Association of Counties

A RESOLUTION THANKING DOUGLAS COUNTY FOR HOSTING NACO'S 2018 ANNUAL CONFERENCE

WHEREAS, NACO holds an annual conference to provide its members with an opportunity to receive training and information on relevant issues, as well as to network with county officials and private sector partners from across Nevada, and

WHEREAS, the 2018 Annual Conference, provided an outstanding educational, and social experience, and demonstrated the commitment of Douglas County to furthering the goals of NACO, and

WHEREAS, the 2018 Annual Conference was very well attended, with over 200 participants including representatives from 16 of Nevada's counties, and

WHEREAS, Douglas County staff and Commissioners assisted in planning the Conference and also provided invaluable help during the Conference, and

WHEREAS, the hospitality and effort of the Commissioners and staff of Douglas County was the key to a successful 2018 Annual Conference, and

WHEREAS, NACO recognizes the importance of Douglas County and the contributions they make to our State.

THEREFORE, BE IT RESOLVED, that the Nevada Association of Counties Board of Directors, on behalf of all Nevada Counties, extends its sincere appreciation and thanks to the Commissioners and staff of Douglas County for hosting a truly outstanding Annual Conference; and

THEREFORE, BE IT FURTHER RESOLVED, that a copy of this resolution be transmitted to the Board of County Commissioners of Douglas County.

Passed, Approved and Adopted this 14th day of December, 2018 by the Board of Directors of the Nevada Association of Counties.

RESOLUTION

* *

WHEREAS, the District Judges of the Seventh Judicial District of Nevada, in and for the Counties of Eureka, Lincoln and White Pine are charged with presiding over litigation, both civil and criminal, arising out of Ely State Prison; and

WHEREAS, Ely State Prison is the designated maximum security prison for the State of Nevada where the most violent, dangerous inmates in the prison system are incarcerated; and

WHEREAS, inmates incarcerated at Ely State Prison are regularly transported to the White Pine County Courthouse to make appearances in District Court for such litigation; and

WHEREAS, the White Pine County Courthouse, built in 1906, has served the citizens of White Pine County for over one hundred years; and

WHEREAS, the Commission on Rural Courts empaneled by the Judicial Council of the State of Nevada issued its Report in 2003 identifying serious security flaws arising out of the age and design of the White Pine County Courthouse and which negatively affects the ability of the District Judges to ensure a safe, secure environment for such prison litigation; and

WHEREAS, the Criminal Justice System in Rural Nevada and Transitional Housing for Released Offenders (S.C.R. 32) Committee empaneled by the 2003 Nevada Legislature listened to testimony, toured the White Pine County Courthouse, and recognized and expressed its concern over the security flaws identified in the aged Courthouse, and further expressed its concern over the District Judge's ability to safely conduct and preside over prison litigation in the Courthouse; and

WHEREAS, the United States Marshall's Service conducted a facility survey in 2007 which concluded in part that the White Pine County Courthouse "should no longer be used for any

AMERICAN OVERSIGHT

courthouse related matters either civil or criminal"; and

WHEREAS, the extreme need for a new court facility in White Pine County has clearly been shown; and

WHEREAS, the County of White Pine is able to partially fund the construction of a new court facility; and

WHEREAS, it is widely recognized across the State of Nevada that Judges of the Seventh Judicial District provide a vital service to all of the citizens of Nevada by presiding over cases arising out of Ely State Prison;

NOW, THEREFORE, be it resolved and recommended by the Judicial Council of the State of Nevada that the State of Nevada should recognize the critical need for a new court facility in White Pine County and should further realize the State's moral responsibility to assist with this critical need;

BE IT FURTHER RESOLVED AND RECOMMENDED by the Judicial Council of the State of Nevada that the Nevada Legislature should appropriate sufficient monies to assist White Pine County in the construction of a new courthouse facility in White Pine County, Nevada..

Passed, Adopted and Approved this _____ day of _____, 2016.

Chief Justice Ron D. Parraguirre
Chair, Judicial Council of the State of Nevada

NEVADA ASSOCIATION OF COUNTIES (NACO)

Board of Directors' Meeting
October 19th, 2018, 9:30 a.m.
Clark County Government Center
Pueblo Conference Room, 1st Floor
500 South Grand Central Parkway
Las Vegas, NV 89155

AGENDA

Some NACO Board members may attend via video link or phone from other locations. Items on the agenda may be taken out of order. The NACO Board may combine two or more agenda items for consideration. The NACO Board may remove an item from the agenda or delay discussion relating to an item on the agenda at any time.

Call to Order, Roll Call and Pledge of Allegiance

1. Public Comment. Please Limit Comments to 3 Minutes.

2. Approval of Agenda. **For Possible Action.**

3. NACO President's Report.

4. NACO Executive Director's Report.

5. Approval of Minutes of the September 28, 2018 NACO Board of Directors Meeting. **For Possible Action**

6. Discussion and Approval of 2019 NACO Board meeting dates. **For Possible Action**

7. Preliminary Discussion of NACO's 2019 Budget.

8. Presentation of a Reporting Tool for Rural Counties to Use to Monitor Contract Public Defenders. **For Possible Action**

9. Presentation and Discussion of the Stepping Up Initiative in Nevada Including County Efforts to Reduce the Number of People with Mental Illnesses in Jails, Jessica Flood, Regional Behavioral Health Coordinator, Northern Region, and Ariana Saunders, Behavioral Health Coordinator, Clark County Social Services. **For Possible Action**

10. Update on the Recent FCC Order to Preempt Local Government Authority to Regulate and Permit the Construction of Small Cell/5G Technology. **For Possible Action**

11. Discussion and Authorization of Legal Counsel of Record to Oversee, Prepare and File an Appeal to the United States Ninth Circuit Court of Appeals on Behalf of NACO as Defendant-Intervenor from the Federal District Court's "Order Re Summary Judgment" and "Remedy Order" in the Matter of Desert Survivors, et al. v. U.S. Department of the Interior, et al. **For Possible Action.**

12. Update on Interim Legislative Activities, Bill Draft Requests, and County Priorities for the 2019 Nevada Legislative Session. **For Possible Action**

13. **Update and Possible Action** Regarding Natural Resources and Public Lands and Issues Affecting Counties Including:

    a. The BLM and USFS Greater Sage Grouse Resource Management Plan Amendments.

    b. NACO Public Lands and Natural Resources Committee Update.

NEVADA ASSOCIATION OF COUNTIES (NACO)

Board of Directors' Meeting
September 28, 2018, 9:30 a.m.
NACO Office
304 S. Minnesota Street
Carson City, NV 89703

UNDADOPTED MINUTES

Attendance: President Elect Waits, Vice President French, Washoe County Commissioner Lucey, Mineral County Commissioner Tipton, Lincoln County Commissioner Higbee, Lyon County Commissioner Hunewill, Washoe County Commissioner Hartung, Nye County Commissioner Wichman, Churchill County Commissioner Olsen, Elko County Commissioner Steninger, Western Interstate Region Member Elko County Commissioner Dahl, Storey County Commissioner McGuffey and Nancy Parent, Nevada Association of Clerks and Election Officials (NACO Staff: Dagny Stapleton, Vinson Guthreau and Amanda Evans)

Remote Attendance: President Weekly, Clark County Commissioner Kirkpatrick, Nye County Manager Sutton, Nye County Assistant Manager Dellinger and Nye County PIO Knightly

Other Attendance: Joni Eastly; Hank James, NV Rural Electric Association; Sandra Douglas-Morgan and Dan Jacobsen, AT&T; Lee Boner and Doug Miller, NDOT; Linda Bisset and Carolyn Barbash, NV Energy; Michael Bertrand, Bertrand & Associates; Ryan Cherry, Yes on 3; Tom Grady; Mike Roberson, Coalition to Defeat Question 3 and Nevada Supreme Court Justice Hardesty.

The meeting was called to order at 9:32 a.m. President Weekly turned the meeting over to President Elect Waits as he was attending remotely.

1. **Public Comment**. None was given.

2. **Approval of Agenda**. The agenda was approved, with the notation that item 11 would be heard time certain at 11:30 on a motion by Commissioner Tipton with second by Commissioner Higbee.

3. **NACO President's Report**. President Weekly thanked staff for the Association's engagement on Twitter and encouraged the Board to follow the Association's account. He reminded the Board to make their arrangements for October's meeting of the Board in Clark County and to communicate with staff if they will attend both the Board meeting and the dinner Commissioner Kirkpatrick will be hosting on Thursday evening. President Weekly also noted the upcoming conference in Douglas County.

4. **NACO Executive Director's Report**. Dagny highlighted the Certified Public Official training program and referenced the brochure distributed to the Board. She encouraged participation in the program. She also discussed the draft conference agenda, also distributed to the Board, and informed the Board that the President's Reception will have a boots and denim theme. She concluded her remarks by reminding the Board that Commissioner Kirkpatrick has invited Board members to her home for dinner on October 18th, prior to the next NACO Board meeting in Clark County. Information on the dinner will be distributed to the Board closer to the event.

5. **Approval of Minutes of the August 24, 2018 NACO Board of Directors Meeting**. The minutes were approved on a motion by Commissioner Tipton with second by Commissioner Olsen.

6. **NACO Annual Conference Update Including Discussion on Date and Location of the 2019 Annual Conference**. Dagny noted that with the NACo Annual Conference taking place in Clark County, it became apparent that the approach to the NACO Annual conference would need to be adjusted. She informed the Board that she had reviewed how the conference was handled when Washoe County hosted NACo in 2010 and that that year NACO had held a one-day conference. She also stated that many of the sponsors that support the Nevada NACO Conference will be asked to

AMERICAN OVERSIGHT

support the National Conference and as a result, opportunities for NACO Conference sponsorships may be limited, as potentially will the revenue generated for the organization. Dagny proposed hosting a single-day event on September 25, 2019. Commissioner Tipton inquired as to the POWER courses held as part of the Certified Public Officials program, and it was clarified that UNR would still be able to offer those courses the day before the NACO conference. Dagny stated that staff would research central and affordable locations for the 2019 Conference. Both former Nye County Commissioner Joni Eastley and Commissioner Hartung offered their counties as potential hosts. Dagny also informed the Board that Churchill County officially offered to host the NACO Annual Conference in 2020. Commissioner Tipton moved to approve an abbreviated conference with location to be determined in 2019 and for Churchill County to be approved to host the event in 2020. The motion passed on a second from Commissioner Wichman.

7. **Presentation of NACO's 2017 Financial Audit, Michael Bertrand, Bertrand and Associates, LLC.** Mr. Bertrand referred to the financial statements included in the agenda packet. He highlighted an increase in the Association's assets, changes to the state's pension system and an increase in revenues which resulted in an improvement to the Association's financial position. He discussed the Management Recommendations and noted that recommendations made the previous year were completed and that financial statements are being reviewed in a timely manner. He gave an overview of the audit process, the sample disbursements that were tested and general ledger adjustments. Mr. Bertrand also discussed a review of investment policies and stated that the Association's accounting policy is being reviewed by Fiscal Officer Alan Kalt and Dagny, due to his recommendation. He concluded his remarks by noting the diligence of Mr. Kalt in reviewing the Association's financial statements and noting that there are no serious issues to be raised with the Board. Commissioner McGuffey inquired as to the lack of policies and procedures, and Mr. Bertrand clarified that there are policies in place but that it is his recommendation to review and compile a procedures manual. He said that Dagny and Mr. Kalt are working on revisions to the current policies. The audit was accepted on a motion by Commissioner Tipton with second by Commissioner Hartung.

8. **Presentation on the 2018 Nevada Statewide Ballot Question #3: The Energy Choice Initiative**. Dagny informed the Board that the item would be heard in a structured format giving the proponents on each side of the issue equal time to present to the Board and rebut statements made following the initial presentations. Ryan Cherry presented in support of the initiative. He referenced the packet distributed that morning, including the language of the question. He reviewed the three ways the question would allow for the procurement of electricity, guarantees for protections for residential solar consumers to sell power back to the market, and the ending of NV Energy's certification as the provider of public necessity. He also informed the Board that the question requires development and implementation of rules and regulations to be approved by the Legislature by 2023. Mr. Cherry reviewed price change models of states that currently have competitive markets and concluded his remarks with forecasts for economic development in the fields of clean and renewable energy. Mike Roberson spoke in opposition to the question. He noted that no states have deregulated electricity through a constitutional amendment. He stated that the proposal is expected to cost $4B to dismantle the current system and is projected to cause critical budget shortfalls to local governments. He informed the Board that should the question pass that all current service providers would be required to cancel any long-term contracts and divest their assets. Mr. Roberson stated that current Nevada rates are lower than the national average and up to 30% lower than rates in de-regulated states. He stated that deregulation would create a compete-to-sell market, rather than a compete-to-provide market, with no guarantees for service provided to Nevada consumers. He also addressed loss of franchise fees to the state and concluded his remarks with concerns of unintended consequences resulting from a constitutional amendment. Mr. Roberson yielded his final minutes to the Nevada Rural Electrical Association's Executive Director, Hank James. Mr. James informed the Board that the Association is a cooperative of power districts and other entities to acquire power on behalf of the members. He noted that the cooperatives are non-profit entities that provide power to areas of the state that would otherwise not be served. He expressed concerns with the proposed constitutional amendment and that the potential dissolution of current statutory language that enables electric coops to acquire and provide power to their service territories. Mr. Cherry stated that his group disagrees with Mr. James' concerns regarding the dissolution of the enabling language for coop's and stated that the question language provides these protections. He addressed municipalities that are producing power, noting that his group is prepared to work with all service providers in the drafting of rules and regulations. Mr. Cherry also disagreed with Mr. Roberson's statements regarding potential rate

AMERICAN OVERSIGHT

increases and renewable energy projects. Mr. Roberson expressed additional concerns with constitutional amendments, a lack of policy protections, unknown details regarding implementation and concluded his remarks with the cross-section of groups that oppose the question. The Board expressed concern with the constitutional amendment included in the question, lack of local controls and lack of representation of rural communities. President Weekly noted that he has been facilitating educational presentations on the issue throughout his district and encouraged Board members to do so as well in order to provide constituents with the information to make an informed decision on the question. Commissioner Kirkpatrick informed the Board that she is the co-chair of the Coalition to defeat the question. The Board took no action on the item.

9. **Update from AT&T Including Provider of Last Resort Services in Nevada's Counties and AT&T's Role in Implementing FirstNet (First Responder Network Authority)**. Dagny reminded the Board that in 2016 AT&T petitioned the Public Utilities Commission (PUC) to be relieved of their designation as the Provider of Last Resort (the requirement to provide landline service in areas where there are no other service providers) in several areas of the State. She informed the Board that Lander, Eureka and White Pine counties requested that the designation not be removed, and that as a result AT&T does not currently have the authority to remove land line service in those counties. Dan Jacobsen reviewed the actions taken by the Legislature in 2013 that allowed for the removal of the designation if certain criteria were met. He spoke to the fact that a large percentage of AT&T's customers no longer use land line services and that the cost to maintain land line infrastructure is no longer feasible. Mr. Jacobsen noted the 2016 application to have the designation removed and the modifications made to the application following the presentation of concerns of the counties. He informed the Board that there is no application currently submitted or pending submission to have the designation removed in the areas where it currently exists and that there has been no removal of land line services. Vice President French stated that Humboldt County has no appetite for releasing the designation and expressed concerns with lack of wireless coverage and internet service resulting in challenges to economic development. Mr. Jacobsen stated that wireless service is a competitive market and that return on investment is key in investment in infrastructure development. President Elect Waits inquired about rate increases and Mr. Jacobsen noted that there is a lack of subsidy available to help control rates, but that all rates across the State are the same. Sandra Douglas-Morgan presented on FirstNet. She informed the Board that FirstNet is a federal first responder agency created on the recommendation of the 9/11 Commission. FirstNet provides a dedicated and secure network for public safety agencies to communicate across the country. Ms. Morgan informed the Board that AT&T was selected as the provider partner through a competitive bid process in 2017. All 50 states have opted into the Network and AT&T will be working with all public safety agencies to identify gaps in coverage. FirstNet has resulted in $40B in infrastructure investments in the largest public-private partnership to date. Commissioner McGuffey thanked AT&T for installing a cell tower in a portion of Storey County that lacked service. Vice President French inquired as to how the locations of towers was determined. Ms. Morgan stated that the locations were identified through cooperation with the Department of Public Safety, local agencies and the Department of Homeland Security. Vice President French encouraged the inclusion of local government engineering departments and the consideration of co-location of towers on existing county infrastructure sites.

10. **Update on the Nevada Right to Counsel Commission's Proposed Recommendations for Reforms of Nevada's Indigent Defense System**. Dagny informed the Board that the Commission is moving forward with recommendations. She reminded the Board that the Commission had contracted with the 6th Amendment Center who submitted their report to the Commission. The report found that the rural counties are doing their best to provide indigent defense without assistance or oversite from the State. The report also specifically noted budget constraints of the rural counties while some counties are not meeting national standards, it is not due to lack of effort or concern for indigent defense. Dagny informed the Board that the Commission's recommendation is a BDR that includes the recommendations within the report. The recommendations include: continuance of local control; the creation of a statewide oversite board independent of the judiciary and legislature that can set standards, conduct trainings and support and evaluate county public defenders. The recommendation also included that any standards or recommendations for changes by the statewide board would be funded by the State. Dagny informed the Board that the LCB will now draft the bill and the Commission will then review it. Dagny noted that NACO has four representatives on the Commission, Commissioner Tipton, Mayor Crowell, Joni Eastly and Tom Grady, and that Washoe and Clark Counties also have representatives on the Commission. Vice President French inquired as to if there

AMERICAN OVERSIGHT

was discussion regarding giving the counties financial assistance for the services they already provide, since the state is legally responsible for indigent defense. Commissioner Tipton noted that it is unlikely that the State would pick up the costs and Ms. Eastly noted that it was discussed and that the language included in the BDR would cap the counties costs at what they are currently. Commissioners Wichman and Olsen noted that they are pleased with the results of the work completed by the Commission. Mr. Grady noted that the Commission was chaired by Justice Cherry and that he stated that the counties should not have to pay anymore than what they are for the services. Dagny also clarified that while the report did show deficiencies in rural county provision of indigent defense, it also stated that the only viable option is for the rural counties to continue providing the service and recommended that the State must support the counties. Ms. Eastly concluded the update with the need for continued work on caseload standards, and that broad sweeping standards will not work because of differences from county to county. Dagny inquired if the Board is satisfied with the direction its representatives on the Commission were taking and it was noted that the Board is very pleased. No action was taken.

11. **Update on the Nevada Supreme Court's Committee to Study Evidence-Based Pretrial Release**. This item was heard time certain at 11:30a.m. Dagny gave background on the item and thanked the Justice Hardesty for attending. She stated that the issue of pre-trial reform was introduced to the Board around two years ago by the Justice. She noted that the proposed reform is to use a risk assessment tool to determine if a person facing criminal justice charges should be released on their own recognizance, released with monitoring or held in jail, in lieu of the state's current bail system. Dagny informed the Board that she served on the Committee on behalf of the Association and that the Board's initial direction was to determine fiscal impacts to counties to implement the tool, including potential additions to staff as well as additional monitoring costs. She also noted that fiscal impacts could also be positive due to reduced costs associated with decreased jail populations. The bulk of the work completed centered around the policy of using the tool, development of and validation of the tool. There are three validated versions of the tool being tested in the state. The three pilot counties officially testing the tool are White Pine, Washoe and Clark and they have reported results including fiscal impacts back to the Committee. Several other counties have begun using the tool, but they have yet to report any findings back to the Committee. Though nothing conclusive has been reported back to the Committee on costs associated with implementing the tool, the Committee did ask the Court to mandate use of the tool, and the Supreme Court will consider mandating use of the tool across the State. Dagny informed the Board that staff is requesting direction regarding implementation of the tool, and whether NACO would like to provide a letter to the Court that would include concern regarding fiscal impacts to counties and timing of implementation. Justice Hardesty remarked that the issue came about due to questions surrounding the constitutionality of the bail system and lawsuits being filed against counties throughout the country. He noted that through a subcommittee it was determined that the bail system in Nevada is inconsistent even within the same jurisdictional boundaries. Justice Hardesty informed the Board that the tool is to be used by Judges pre-conviction to provide guidance for determining risk of failure to appear or to commit a crime while released. He noted that tool's behavior predictors have been validated by millions of cases throughout the country over the course of several years. He also noted that the tool is not a solution to overcrowding in jails but to allow low risk offenders to be released pending trial. The Board was informed that the average jail population in Nevada is 10,600 and that 74% of that population is comprised of 1st time misdemeanor offenders. He noted that NRS requires release on own recognizance (OR) if applicable but without the tool there was no way for a judge to determine the potential risk associated with OR releases. The Justice went through the counties implementing use of the tool and noted that the feedback received is that the costs are negligible for implementation. Commissioner Wichman inquired as to providing direction to law enforcement officers to the issuance of tickets vs. arrest for non-violent minor misdemeanors, to which the Justice stated that NRS already allows for that option. Commissioner Lucey informed the Board that Washoe County experienced some issue with implementation across jurisdictions and encouraged careful implementation planning prior to officially adopting the tool. Dagny informed the Board that, though Justice Hardesty may have heard anecdotally that some pilot counties did not incur significant costs by implementing the tool, that was information that was never provided to the Committee, though it had been requested. Dagny inquired as to the Board's desire to take a position. Commissioner Olsen informed the Board that Churchill County has been using alternative court services and pre-trial risk assessment for several years and that they have experienced about a $250,000.00 fiscal impact annually, which is significant for their county. Commissioner McGuffey noted that when he was a Justice of the Peace he had a great deal

AMERICAN OVERSIGHT

of difficulty in determining bails and often consulted with colleagues. Commissioner Lucey stated that there is a need to have funds available to assist counties with implementation. Discussion from the Board also consisted of impacts to Human Services surrounding loss of employment, issues with child custody and housing. Commissioner Hartung moved to draft a letter to the Supreme Court indicating the Board's support for the implementation of a validated pretrial risk assessment tool on a statewide basis, and to request that, if the Supreme Court mandates the use of such a tool, they: 1) allow counties latitude in implementing the tool; and 2) gather additional information on potential budgetary and staffing impacts from implementation so that counties can adequately prepare to use the tool. The motion was approved on a second by Commissioner Steninger.

12. **Update on Interim Legislative Activities, Bill Draft Requests, and County Priorities for the 2019 Nevada Legislative Session**. This item was not heard in the interest of time as there were no significant updates to give the Board.

13. **Update and Possible Action Regarding Natural Resources and Public Lands and Issues Affecting Counties Including:** President Elect Waits had a prior commitment requiring her to leave the meeting and passed the gavel to Vice President French to conclude the meeting.

    a. **The BLM and USFS Greater Sage Grouse Resource Management Plan Amendments.** Dagny informed the Board that the Association had submitted comments on the BLM's internal draft FEIS and that they are expecting to publish their final FEIS on or about October 12. Once published there will be a 30-day protest period and a Governor's Consistency Review period and then the final Record of Decision (ROD) is expected sometime in December. The Association also submitted comments on the Forest Services' Internal Draft EIS earlier in the month and they are expected to publish their DEIS sometime the following week. This publication will start a 90-day public comment period. Dagny informed the Board that the comments submitted had mirrored prior discussion and direction of the Board.

    b. **The Department of the Interior Proposed Reorganization.** Commissioner Tipton informed the Board that the Proposed Reorganization is, for all intents and purposes, completed. She noted that the proposal is not intended to have an effect on state offices but is intended to give a path to relief beyond appeal to Washington D.C. for issues that the individual state offices are not able to resolve. She noted that through communications with Department Officials, there is hope that a representative will be present at the Annual Conference to provide further clarification on the plan.

    c. **Update on Outcome of the Center for Biological Diversity's Lawsuit Against the U.S. Fish and Wildlife Service Seeking to Vacate their Decision not to List the Bi-State Sage Grouse as an Endangered Species and NACO's Motion to Intervene on Behalf of the US F&WS.** Dagny reviewed the history of the issue and informed the Board that the Judge found on behalf of the Center. She informed the Board that the Judge set precedent by over-ruling the science the Agency used when making their decision and noted that the remedy listed in the decision requires that the Agency re-open and prepare a new listing decision within a year and a half. Dagny informed the Board that the Agency is weighing a decision to appeal and that if the Department chooses to appeal then the AG's office will also appeal as an intervenor. If that occurs there is a potential for NACO to join the appeal - this decision and options for the Board to consider will be presented at the October NACO Board meeting. Vice President French reiterated that the decision sets a new precedent that could have far reaching effects for future listing decisions. Dagny suggested any members of the Board with contacts within the Secretary's office encourage the Department to appeal.

    d. **NACO Public Lands and Natural Resources Committee Update.** Vice President French referenced the BLM's recent wild horse and burro gathers being conducted under 'emergency' actions. He also informed the Board that the next National Wild Horse and Burro Advisory Board (BLM) meeting will take place October 9-12 and he will report back. Commissioner Tipton informed the Board that comments had also been submitted on behalf of the Association on proposed ESA reforms. Discussion was also had regarding proposals to update the Forest Service's handbook.

AMERICAN OVERSIGHT

14. **NACO Committee of the Emeritus Update**. Vinson informed the Board that the Newly Elected Official Training was in the final planning stages. He noted that the updates to the New Commissioner Handbook were complete and that the Committee had approved the panelists for the training. The panelists will be Committee members Joni Eastly and Tom Collins as well as Wayne Carlson from POOL/PACT.

15. **National Association of Counties and Western Interstate Region Board Member Updates**. The Board was informed that both Boards would be meeting in October in Arizona and that updates would be provided after those meetings.

16. **NACO Board Member Updates**. Updates were given by members of the Board on activities within their counties.

17. **Public Comment**. None was given.

The meeting was adjourned at 1:35 p.m.

Rural County Public Defender Reporting Tool

Instruction Manual

Created by the Nevada Association of Counties (NACO)
October 2018

Introduction: In 2017, Nevada's legislature took a preliminary step toward reforming the state's indigent defense system by establishing the Nevada Right to Counsel Commission (NRTCC). This Commission conducted, with the assistance of the Sixth Amendment Center (6AC), a study of the provision of indigent defense services in Nevada's rural counties. During the NRTCC's discussions, as well as through information gathered by the 6AC, the Nevada Association of Counties (NACO) heard from its rural county members about one important challenge they faced. That challenge is, although county commissions and county managers in rural Nevada are tasked with overseeing any contract public defenders they may have hired, they do not have a uniform reporting tool or system through which they could gather information from public defenders on their work. Such a tool could accomplish two things: 1) Help county managers and commissions understand the tasks and challenges rural contract public defenders face; and 2) Help counties ensure public defenders are meeting the terms of their contracts.

In response, NACO convened a working group to create such a tool. The working group included a county commissioner, current or former county or assistant county managers, a prosecutor, and a defense attorney. Rural counties are encouraged use the tool. Please ask your county's contract public defender(s) to fill it out once every quarter. It is suggested the reports be presented to the county commission. The instructions below provide information on how to use the tool.

Section	Question/Instruction
1	County: Please list the county in which you provide indigent defense services and for which the case load report pertains.
2	Law Firm: Please list the name of the law firm that employs you. If you are self-employed, please list "sole practitioner."
3	Attorney Name: Please list the first and last name of the attorney. Please note, a separate report must be filled out for each and every attorney in a public defender office or law firm.
4	Reporting Quarter: A county fiscal year begins on July 1st and ends on June 30th. Therefore, the four reporting quarters are as follows: Quarter 1: July 1st through September 30th. Quarter 2: October 1st through December 31st. Quarter 3: January 1st through March 31st. Quarter 4: April 1st through June 30th. Please indicate the appropriate fiscal quarter that is being reported.
5	Final Day of Last Reporting Period: Please indicate the day on which you last reported your public defender workload. For example, if the current report is for the second quarter of a fiscal year (e.g. October 1st through December 31st), then the final day of last reporting period should be marked "September 30th."

AMERICAN OVERSIGHT

Caseload Reporting: For all public defense caseload reporting, Sections #6 through #9, please use the following uniform definition of a "case": Count the defendant and all charges involved in a single incident as a single case. If the charging document contains multiple defendants involved in a single incident, count each defendant as a single case. When cases involve multiple charges arising out of a single incident, please count the case by "top charge" at the time of filing, regardless of the severity of the case when it is disposed. That is, a case filed as a felony but disposed as a misdemeanor through plea negotiations should be counted in caseload reports as a felony.

Explanation: Using a district attorney's charging instrument to define a "case" does not produce uniform caseload data because different prosecutors have different philosophies on how to charge (as it should be). For example, one prosecutor may want to charge suspected co-conspirators on a single charging document. However, two separate public defense providers must each represent the individual co-defendants. Each right to counsel provider is ethically bound to provide zealous representation to the co-defendant assigned to them, meaning that each defense provider must conduct independent investigations and engage in separate case prep and plea negotiations. They are, in every sense of the word, two separate "cases."

Similarly, if a defendant is charged with shoplifting in one store on one day and a separate store on another day, and yet a third store on a third day, a prosecutor may want to file a single charging document to show the serial pattern of the accused. But, from the defense perspective, an attorney must interview three potential sets of eyewitnesses, and investigate three different crime scenes. It is quite possible the defendant committed two of the alleged crimes, but not the third. Each one must be treated as its own case.

This differs in kind with the work and effort needed to investigate and defend all of the charges arising from a single incident. Say a defendant is charged with reckless driving and subsequently is alleged to have resisted arrest or to have accosted the arresting officer. All of the work effort of a defense attorney is around the same sets of facts, the same eyewitnesses and the same crime scene.

Similar issue arise when trying to count a "case" by "charge" or by "defendant." Because defendants are sometimes charged with multiple counts arising out of a single incident, using "charges" as the definition of a "case," will artificially inflate caseload numbers. The opposite is true when counting cases by "defendant." Because defendants may be charged in multiple offenses occurring on different days in different places, counting "defendants" will underreport an attorney's actual workload.

AMERICAN OVERSIGHT

Section	Question/Instruction
6	Pending Cases: Please list all open, pending public defense cases you have as of the date reported in Section #5 (above) by each classification listed. If you have no cases pending under a specific classification please list "0." No line should be left blank. If you list cases under the category "other," please list the case type.
7	New Appointments: Please list the total number of new cases to which you were appointed during the time period listed in Section #4 using the uniform definition of a "case." New appointments shall be broken down by each of the three months contained in the reporting quarter. If you have new assignments under a specific classification please list "0." No line should be left blank. If you list cases under the category "other," please list the case type. Cases in which an indigent defense client absconded and for which a bench warrant was issued in a prior report, and for which a client is returned to court during the current reporting period, should be counted as a new assignment.
8	Disposed Cases: Please list the total number of cases you disposed during the time period listed in Section #4 using the uniform definition of a "case." Dispositions shall be broken down by each of the three months contained in the reporting quarter. If you have no dispositions under a specific classification please list "0." No line should be left blank. If you list cases under the category "other," please list the case type.
9	Disposition Detail: For each classification of case type, please list the number of cases that were dismissed during the reporting period. Similarly, please list the number of cases by case type for which a defendant entered a guilty plea. Also, please list the number of cases for which an indigent defense client absconded and for which a bench warrant was issued. If an indigent defense client is returned on a bench warrant within the same reporting period and the case is disposed within the same reporting time period, count the case under the actual disposition category.
10	Number of Hours spent on court appointed representation (from this jurisdiction): Please indicate the total number of hours spent on all indigent defense cases arising from the county listed in Section #1. Do not count hours spent on indigent defense cases arising out of other counties or municipalities. Percentage of total hours spent on court-appointed representation (from this jurisdiction): Please estimate the percentage of work hours expended on indigent defense cases arising from the county identified in Section #1 as an overall percentage of your total time spent on all public and private cases. If you are a full-time government-employed public defender, you should indicate "100%." If you are a private attorney and take indigent defense cases from outside the county listed in Section #1, please count those other indigent defense cases as part of your "private" caseload for this response.
11	Other jurisdictional indigent defense workload: If you handled indigent defense cases during the reporting period in any other jurisdiction (including municipalities), please list the name of the county or municipality where this work occurred.
12	Other criminal justice work: If you performed any work in a different criminal justice capacity (e.g., magistrate, prosecutor, etc.) in any jurisdiction (including municipalities) other than the county listed in Section #1, please list the name of the county or municipality where this work occurred. Also, please indicate what criminal justice capacity performed.
13	Support personnel: Please list any and all support staff employed by the law firm indicated in Section #2 above. You do not need to list individual names but rather by job classification. For example, if a law firm or public defender office employs two legal secretaries, please indicate this as: "Legal secretaries (2)." If the law firm or public defender employs part-time support staff, please indicate the percentage of a full-time equivalent employee. For example, if a law firm or public defender office employs one full-time legal secretary and one half-time legal secretary, please indicate this as: "Legal secretaries (1.5)."

FCC curtails local control in 5G deployment order

By Arthur Scott, Zach George Sep. 26, 2018

KEY TAKEAWAYS

FCC approves a new rule limiting local control of public rights-of-way for 5G wireless telecommunications facilities; NACo and NLC release joint statement in response The order limits fees local governments can charge providers and narrows the review process for municipalities to adequately assed 5G deployment applications

On September 26, the Federal Communications Commission (FCC) approved a new rule – the *Streamlining Deployment of Next Generation Wireless Infrastructure Declaratory Ruling and Third Report and Order* – on 5G wireless network deployment that curtails local authority. The FCC decision limits fees local governments may assess on telecommunications companies for the placement, construction or co-location of new wireless service facilities.

The ruling also constrains local governments to 60 days to evaluate applications from wireless companies to attach 5G Small Cells to existing structures and 90 days to review applications for equipment on entirely new structures. By narrowing the window for evaluating 5G deployment applications, the FCC rule could prevent local governments from properly examining the impact that construction, modification or installation of broadcasting facilities may have on public health, safety and welfare of the community.

In response to the order, NACo and National League of Cities (NLC) released a joint statement highlighting concerns with the new regulations. Citing over 100 local governments from 22 states who filed comments prior to the FCC's decision, NACo and NLC stated, "The FCC's impractical actions will significantly impede local governments' ability to serve as trustees of public property, safety and well-being. The decision will transfer significant local public resources to private companies, without securing any guarantee of public benefit in return."

The new regulations will go into effect 90 days after publication in the Federal Register. Once. Once in effect, counties will be susceptible to enforcement action if wireless providers or other small cell applicants claim a local government is not in compliance with the new requirements.

Specifically, the declaratory ruling and report and order will:

- **Create two new categories of shot clocks** for small cell wireless facility review. Local governments would have 60 days to complete review of applications for collocated small cells, and 90 days for small cells on new structures. These shot clocks include "all aspects of and

AMERICAN OVERSIGHT

steps in the siting process," including mandatory pre-application procedures, public notice and meeting periods, and construction permitting.

- **Determine that exceeding the shot clock is a "prohibition on the provision of services,"** and allow wireless site applicants to seek expedited injunctive relief in court within 30 days of a local government missing a shot clock deadline. More restrictive state laws will remain in effect and will not be replaced by this order.
- **Limit application fees for all small wireless facilities** to $500 for up to five sites, and $100 per site for each site thereafter.
- **Limit recurring fees for small cells in public rights-of-way** to a "reasonable approximation" of the locality's "objectively reasonable costs" for maintaining the rights-of-way, which must be no higher than fees for similar actors. The FCC defines reasonable recurring fees to be limited to $270 per site, per year. Local governments are expressly prohibited from recovering any cost not directly related to rights-of-way maintenance. The FCC also finds gross revenue fees to be presumptively unreasonable and existing agreements are not grandfathered.
- **Limit allowable local aesthetic requirements**, including minimum spacing requirements, to those that are "(1) reasonable, (2) no more burdensome than those applied to other types of infrastructure deployments and (3) published in advance." The FCC notes that undergrounding requirements for wireless facilities would constitute an illegal prohibition of service by a local government.

RE: Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment, WC Docket No. 17-84; Accelerating Wireless Broadband Deployment by Removing Barriers to Infrastructure Investment, WT Docket No. 17-79

Dear Ms. Dortch:

Clark County, Nevada writes to express our concerns over the Federal Communications Commission's proposed Declaratory Ruling and Third Report and Order regarding state and local governance of small cell wireless infrastructure deployment. **Clark County is committed to continuing its strong relationship working with small cell providers in our community to establish fair and transparent processes to best support the communities priorities related to infrastructure deployment.**

While we share the Commission's objective of finding new ways to effectively deploy broadband technologies, especially in underserved communities, we are concerned that the proposed language would significantly impede local governments' ability to serve as trustees of public property, safety and welfare. Counties own substantial amounts of public right-of-ways, which many communication providers use to construct their own communications networks. The proposed order would significantly narrow the amount of time for local governments to evaluate 5G deployment applications from communication providers – effectively hindering our ability to fulfill public health and safety responsibilities during the construction and modification of broadcasting facilities.

- **The FCC's proposed new collocation shot clock category is too extreme.** The proposal designates any preexisting structure, regardless of its design or suitability for attaching wireless equipment, as eligible for this new expedited 60 day shot clock. When paired with the FCC's previous decision exempting small wireless facilities from federal historic and environmental review, this places an unreasonable burden on local governments to prevent historic preservation, environmental, or safety harms to the community. The addition of up to three cubic feet of antenna and 28 cubic feet of additional equipment to a structure not originally designed to carry that equipment is substantial and may necessitate more review than the FCC has allowed in its proposal.

BOARD OF COUNTY COMMISSIONERS
STEVE SISOLAK, Chairman • CHRIS GIUNCHIGLIANI, Vice Chair
SUSAN BRAGER • LARRY BROWN • JAMES B. GIBSON • MARILYN KIRKPATRICK • LAWRENCE WEEKLY
YOLANDA T. KING, County Manager

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003866

- **The FCC's proposed definition of "effective prohibition" is overly broad.** The draft report and order proposes a definition of "effective prohibition" that invites challenges to long-standing local rights of way requirements unless they meet a subjective and unclear set of guidelines. While the Commission may have intended to preserve local review, this framing and definition of effective prohibition opens local governments to the likelihood of more, not less, conflict and litigation over requirements for aesthetics, spacing, and undergrounding.

- **The FCC's proposed recurring fee structure is an unreasonable overreach that will harm local policy innovation.** We disagree with the FCC's interpretation of "fair and reasonable compensation" as meaning approximately $270 per small cell site. Local governments share the federal government's goal of ensuring affordable broadband access for every American, regardless of their income level or address. That is why many cities have worked to negotiate fair deals with wireless providers, which may exceed that number or provide additional benefits to the community. Additionally, the Commission has moved away from rate regulation in recent years. Why does it see fit to so narrowly dictate the rates charged by municipalities?

Clark County has worked with private business to build the best broadband infrastructure possible for our residents. We oppose this effort to restrict local authority and stymie local innovation, while limiting the obligations providers have to our community. We urge you to oppose this declaratory ruling and report and order.

Respectfully submitted,

YOLANDA T. KING
County Manager

AMERICAN OVERSIGHT

United States District Court
Northern District of California

UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

DESERT SURVIVORS, et al.,

Plaintiffs,

v.

US DEPARTMENT OF THE INTERIOR, et al.,

Defendants.

Case No. 16-cv-01165-JCS

REMEDY ORDER

I. INTRODUCTION

In this case, Plaintiffs Desert Survivors, Center for Biological Diversity, WildEarth Guardians, and Western Watersheds Project challenged: 1) the decision of the U.S. Fish and Wildlife Service to withdraw the proposed listing of the Bi-State Sage-Grouse as "threatened" under the Endangered Species Act (the "Withdrawal Decision"); and 2) the Service's "Final Policy on Interpretation of the Phrase 'Significant Portion of its Range' in the Endangered Species Act" (the "SPR Policy"). On May 15, 2018, the Court issued an order granting Plaintiffs' summary judgment motion and denying Defendants' summary judgment motions. In response to the Court's request, the parties have provided briefing on the appropriate remedy in light of the Court's rulings. The Court's ruling on remedies is set forth below.[1]

II. WITHDRAWAL DECISION REMEDY

Judicial review of agency action under the Endangered Species Act is governed by the "arbitrary or capricious" standard set forth in the Administrative Procedures Act ("APA"), which provides that "a reviewing court shall . . . hold unlawful and set aside agency action, findings, and

[1] The parties have consented to the jurisdiction of the undersigned magistrate judge pursuant to 28 U.S.C. § 636(c).

AMERICAN OVERSIGHT

conclusions found to be . . . arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law." 5 U.S.C. § 706(2)(A). In its summary judgment order, the Court concluded that the Service's Withdrawal Decision was arbitrary and capricious under the APA and unsupported by the record. Therefore, as the parties have agreed, the appropriate remedy is to vacate the Withdrawal Decision and remand with directions to the United States Fish and Wildlife Service ("FWS") to issue a new final listing decision. The parties also agree that the proposed rule to list the Bi-State DPS that was the subject of the Withdrawal Decision should be reinstated. *See Paulsen v. Daniels*, 413 F.3d 999, 1008 (9th Cir. 2005) ("The effect of invalidating an agency rule is to reinstate the rule previously in force."). Finally, the parties have agreed on certain requirements regarding the timing of the actions required of FWS upon remand, which the Court finds to be reasonable.

Therefore, with respect to the Withdrawal Decision, the Court ORDERS as follows:

1) The Withdrawal of the Proposed Rule to List the Bi-State Distinct Population Segment of Greater Sage-Grouse and Designate Critical Habitat ("Withdrawal Decision"), published at 80 Fed. Reg. 22,828 (Apr. 23, 2015), is HEREBY VACATED and set aside;

2) The prior proposal to list the Bi-State Sage-Grouse as a threatened species and to designate critical habitat, published at 78 Fed. Reg. 64,328 (Oct. 28, 2013) ("Proposed Listing"), is HEREBY REINSTATED;

3) Federal Defendants shall provide a new opportunity for public comment on the Proposed Listing and shall prepare and publish in the Federal Register a new and final listing determination on the proposed rule by **October 1, 2019**;

4) If the Federal Defendants make a finding that additional time is needed because there is "substantial disagreement regarding the sufficiency or accuracy of the available data relevant to the determination" and submit that finding to the Court by October 1, 2019, then the time for Federal Defendants to prepare and publish in the Federal Register a final listing determination on the proposed rule shall be extended to April 1, 2020.

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003870

III. SPR POLICY REMEDY

In its summary judgment order, the Court concluded that the definition of "significant" in the SPR Policy is an impermissible interpretation of the "significant portion of its range" language in the Endangered Species Act. The parties agree that some sort of vacatur of the SPR Policy is an appropriate remedy, and both sides agree that any vacatur of the SPR Policy should be limited to the definition of "significant" that the Court found to be impermissible. Defendants, however, contend the Court should limit the vacatur order to the particular geographical region in which Plaintiffs' injury occurred, namely, the District of Nevada and the Eastern District of California, where the Bi-State DPS is found. Plaintiffs contend there should be no such limitation. The Court concludes that Plaintiffs are correct.

As a preliminary matter, the Court notes that in "rare circumstances," an invalid rule may be left in place without vacatur on the basis of equity concerns. *Ctr. for Envtl. Health v. Vilsack*, No. 15-CV-01690-JSC, 2016 WL 3383954, at *10 (N.D. Cal. June 20, 2016) (citing *Pollinator Stewardship Council v. U.S. E.P.A.*, 806 F.3d 520, 532 (9th Cir. 2015) (Courts "leave an invalid rule in place only when equity demands that we do so.")). "To determine whether to make an exception to the usual remedy of vacatur, the Court considers two factors: (1) 'how serious the agency's errors are,' and (2) 'the disruptive consequences of an interim change that may itself be changed.'" *State v. United States Bureau of Land Mgmt.*, 277 F. Supp. 3d 1106, 1125 (N.D. Cal. 2017), appeal dismissed sub nom. *State by & through Becerra v. United States Bureau of Land Mgmt.*, No. 17-17456, 2018 WL 2735410 (9th Cir. Mar. 15, 2018) (citing *Cal. Cmtys. Against Toxics v. Envtl. Prot. Agency*, 688 F.3d 989, 992 (9th Cir. 2012) (quoting *Allied–Signal, Inc. v. U.S. Nuclear Regulatory Comm'n*, 988 F.2d 146, 150–51 (D.C. Cir. 1993)). Defendants do not invoke this exception, however, in support of their request for a geographical limitation on the Court's vacatur order.

Instead, Defendants point to the Ninth Circuit's admonition in *Los Angeles Havens Hospice, Inc. v. Sebelius*, that a remedy should be "no more burdensome . . . than necessary to provide complete relief to the plaintiffs." 638 F.3d 644, 664 (9th Cir. 2011). According to Defendants, because the injury Plaintiffs suffered occurred only in the Bi-State DPS, a remedy that

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003871

extends only to that geographical region is all that is needed or appropriate to afford sufficient relief. They further assert that under *Los Angeles Havens Hospice,* a geographically limited vacatur order is preferable to nationwide vacatur because other courts will have the opportunity to address a difficult issue in different factual contexts, resulting in multiple decisions by various courts of appeals. 638 F.3d at 664.

Defendants also suggest that a geographical limitation is required under *Lujan v. National Wildlife Federation*, 497 U.S. 871, 873 (1990) and the rules governing Article III standing. They point out that in *Center for Biological Diversity v. Jewell* ("*CBD I*"), Case No. 14-2506 (District of Arizona), Judge Marquez amended her order vacating the SPR Policy on the basis that the plaintiffs in that case had established Article III standing only "with respect to the Final Pygmy Owl Finding and the Final SPR Policy as applied in the District of Arizona" and not "to challenge the Final SPR Policy nationwide." Case No. 14-2506, Docket No. 81 (citing *Lujan v. Nat'l Wildife Fed'n*, 497 U.S. 871, 891 (1990)).

The Court is not persuaded that an order partially vacating the SPR Policy – without a geographic limitation – violates the principle set forth in *Los Angeles Havens Hospice* or the rules that govern Article III standing. First, the remedy requested by the plaintiffs in *Los Angeles Havens Hospice* went beyond asking the court to vacate the challenged regulation. In that case, a hospice provider brought a facial challenge to a regulation imposing an aggregate cap on Medicare payments to hospice providers. 638 F.3d at 665. The court found that the hospice provider, which had received an overpayment demand from the Department of Health and Human Services that was based on the hospice cap regulation, had standing to challenge the regulation, both on its face and as applied. *Id.* at 653. It further found that the regulation was inconsistent with the applicable hospice cap statute under which it was promulgated. *Id.* The judgment entered by the district court did "not only invalidate[ ] the 2006 overpayment demand and the hospice cap regulation," however. *Id.* It "also stated that 'HHS is hereby enjoined prospectively from using the current [version of] 42 C.F.R. § 418.309(b)(1) to calculate hospice cap liability for *any* hospice.'" *Id.* (emphasis in original). It was this injunctive relief that the court found to be unduly burdensome, concluding that the district court abused its discretion but stopping short of finding

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003872

that the nationwide injunction was "in excess of its jurisdiction." *Id.* at 661. In reaching this conclusion, the Court of Appeals relied on the district court's own finding that "a nationwide injunction would not be in the public interest because it would significantly disrupt the administration of the Medicare program by inhibiting HHS from enforcing the statutorily mandated hospice cap as to over 3,000 hospice providers, and would create great uncertainty for the government, Medicare contractors, and the hospice providers." *Id.*

In contrast to *Los Angeles Havens Hospice*, Plaintiffs here have not asked for a nationwide injunction. Nor have Defendants pointed to evidence that an order vacating one aspect of the SPR Policy will lead to the sort of disruption that was likely to result from a nationwide injunction in *Los Angeles Havens Hospice*. Indeed, it is not clear that the geographical limitation proposed by Defendants would not itself be a source of confusion given that Plaintiffs have identified a number of species whose habitats include the Eastern District of California and/or the District of Nevada and also other districts where the definition of "significant" under the SPR Policy would remain in effect under Defendants' proposal. Moreover, nothing in *Los Angeles Havens Hospice* suggests that the court would have abused its discretion if it had merely vacated the challenged regulation, as Plaintiffs request here. To the contrary, the court in that case made clear that "[a]n order declaring the hospice cap regulation invalid, enjoining further enforcement against Haven Hospice, and requiring the Secretary to recalculate its liability in conformity with the hospice cap statute, would have afforded the plaintiff complete relief." *Id.*

Further, the Court is not persuaded that the possible benefit of multiple decisions by courts of appeals addressing different fact patterns justifies limiting the scope of the vacatur geographically. The Court found that the SPR Policy is deficient as a *matter of law*, meaning that it cannot be reconciled with any set of facts. Further, to the extent that the Court has found that the definition of "significant" is inconsistent with the Endangered Species Act, any possible benefit that might arise from multiple decisions addressing the lawfulness of the policy is outweighed by the fact that application of the policy could prevent species from being afforded the protection the ESA was intended by Congress to afford them. *See Nw. Envtl. Advocates v. U.S. E.P.A*, No. C 03-05760 SI, 2006 WL 2669042, at *10 (N.D. Cal. Sept. 18, 2006), *aff'd sub nom.*

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003873

Nw. Envtl. Advocates v. U.S. E.P.A., 537 F.3d 1006 (9th Cir. 2008) ("In considering which of the parties' positions most closely approximates the proper remedy in this case, the Court is primarily guided by one factor: the EPA regulation is plainly contrary to the congressional intent embodied in the Clean Water Act.").

The Court also rejects Defendants' argument that the Court should place a geographical limitation on the vacatur of the SPR Policy on the basis of Article III standing. Courts have "made clear that '[w]hen a reviewing court determines that agency regulations are unlawful, the ordinary result is that the rules are vacated—not that their application to the individual petitioners is proscribed.'" *Nat'l Min. Ass'n v. U.S. Army Corps of Engineers*, 145 F.3d 1399, 1409 (D.C. Cir. 1998)(quoting *Harmon v. Thornburgh*, 878 F.2d 484, 495 n. 21 (D.C.Cir.1989)). The court in in *National Mining Association* pointed to the following passage in Justice Blackmun's dissent in *Lujan v. National Wildlife Federation*, 497 U.S. 871, 110 S.Ct. 3177, 111 L.Ed.2d 695 (1990), which "apparently express[ed] the view of all nine Justices on this question:"

> The Administrative Procedure Act permits suit to be brought by any person "adversely affected or aggrieved by agency action." In some cases the "agency action" will consist of a rule of broad applicability; and if the plaintiff prevails, the result is that the rule is invalidated, not simply that the court forbids its application to a particular individual. Under these circumstances a single plaintiff, so long as he is injured by the rule, may obtain "programmatic" relief that affects the rights of parties not before the court. On the other hand, if a generally lawful policy is applied in an illegal manner on a particular occasion, one who is injured is not thereby entitled to challenge other applications of the rule.

145 F.3d at 1409 (quoting *Lujan*, 497 U.S. at 913)(Blackmun, J., dissenting) (citation omitted).

Likewise, the majority in *Lujan* – while finding that there had been no final agency action that had subjected the plaintiff to concrete harm and thus, that the plaintiff's claims were not ripe for review under Article III – recognized that if there *had* been some final agency action that was ripe for review, an individual who was adversely affected by the action could seek a remedy that went beyond the individual's injury. 497 U.S. at 890 n. 2. In particular, Justice Scalia stated:

> If there is in fact some specific order or regulation, applying some particular measure across the board to all individual classification terminations and withdrawal revocations, and if that order or regulation is final, and has become ripe for review in the manner we discuss subsequently in text, it can of course be challenged under the

AMERICAN OVERSIGHT

NV-DA-20-0615-A-003874

> APA by a person adversely affected-and the entire "land withdrawal review program," insofar as the content of that particular action is concerned, would thereby be affected.

Id. The Court found in its summary judgment order that Plaintiffs' challenge to the definition of "significant" under the SPR Policy is ripe for review. Accordingly, *Lujan* supports the conclusion that Plaintiffs have standing under Article III to seek vacatur of the SPR Policy without a geographical limitation.[2]

For these reasons, the Court vacates and sets aside the "significant portion" part of the SPR Policy that it found to be unlawful in its summary judgment order.

IT IS SO ORDERED.

Dated: August 24, 2018

JOSEPH C. SPERO
Chief Magistrate Judge

United States District Court
Northern District of California

[2] The Court respectfully declines to follow the decision in *CBD I* limiting the vacatur order in that case to the District of Arizona. Although the court in *CBD I* cited *Lujan* for the proposition that a regulation is not ripe for review under the APA until there has been some concrete action applying to the claimant's situation, the court did not explain how that language supported the conclusion that the plaintiffs in that case – who *had* been subject to concrete agency action and were bringing a facial challenge to the SPR Policy based on the harm that they suffered from that concrete action – lacked standing to seek vacatur beyond the geographical area where they suffered injury. As discussed above, *Lujan* recognizes that a successful facial challenge to a regulation may result in its invalidation even if that remedy affects nonparties. The Court finds nothing in *Lujan* that suggests that a party who brings a facial challenge based on a concrete injury has standing only as to the geographical area where the injury occurred. The only other case Defendants cite in which vacatur was geographically limited is *Cape Hatteras Access Pres. All. v. U.S. Dep't of Interior*, 344 F. Supp. 2d 108 (D.D.C. 2004). In that case, however, the court limited the scope of the vacatur simply because the parties had agreed to do so and did not discuss any of the issues raised by the parties here as to the scope of the vacatur.

IV. STANDARD OF REVIEW 6

V. ARGUMENT 7

A. The ESA and its implementing regulations require the Service to consider voluntary or future measures, such as the Bi-State Action Plan, in listing decisions. 8

B. The Service properly applied and explained its use of the PECE to withdraw its proposal to list the bi-state sage grouse as a threatened species. 9

1. The Service's finding that the Bi-State Action Plan was certain to be implemented was not irrational. 9

i. Plaintiffs wrongly suggest that BLM and USFS Plan Amendments were the "primary basis" for the Service's decision and ignore record evidence that the Service relied upon. 12

ii. The Service adequately determined that there was a high level of certainty that the parties would obtain the necessary funding. 13

2. The Service exercised its expert judgment and adequately explained why Bi-State Action Plan efforts were certain to be effective. 15

i. The Service adequately explained its use of the Conservation Planning Tool and Integrated Population Model. 16

NOTICE OF MOTION AND MOTION

To all Parties and their Attorneys of Record: Please take notice that on March 16, 2018, at 9:30 a.m., in Courtroom G, 15th Floor, 450 Golden Gate Avenue, San Francisco, CA 94102, or as soon thereafter as the matter may be heard, under Fed. R. Civ. P. 56 and Civ. L-R 7-2, 7-4, and 56-1, Defendant-Intervenors Nevada, Nevada Association of Counties, and County of Mono, California, move this court for summary judgment against all claims in Plaintiffs' Complaint relating to the final withdrawal of a proposed rule to list the bi-state sage grouse as threatened under the Endangered Species Act. This motion is based on this Memorandum of Points and Authorities, the Administrative Record, other admissible documents, and any oral evidence or argument offered at the hearing.

MEMORANDUM OF POINTS AND AUTHORITIES

I. INTRODUCTION

Plaintiffs seek by court order what they could not get through the administrative process. In doing so, they disparage the unprecedented efforts of dozens of on-the-ground state and federal officials as, effectively, a sham. They describe a do-nothing Fish & Wildlife Service whose decisions are "sleight-of-hand."[1] They belittle with skeptical quotations the "commitment" of various agencies.[2] They seize on every instance of fresh thought as evidence of bad faith or laziness. They deprecate every departure from an uncompromising pro-listing position as suspect or "abrupt" or "inexplicable."[3] They nitpick, observing, for instance, that although the Bi-State Action Plan ("Plan") specified that it would continue to remove pinyon-juniper trees to benefit the sage grouse—as has been done for years, over thousands of tree acres—the Plan fails, they say, to "articulate" precisely how many future acres to remove.[4]

The truth is that when it comes to complex, multi-year decisions like how best to protect a species in territory where other species, including humans, must also live, there is always room to disagree. The very scientists and policy-planners who serve shoulder to shoulder on committees, and who study the same technical reports, themselves engage in earnest dispute. This, in the end, is why

Congress requires that courts uphold such decisions so long as there is a rational basis for the decision.

The Obama Administration's Fish & Wildlife Service chose to withdraw a proposed "threatened" listing of the bi-state sage grouse because the Service saw assembled before it one of the broadest and best-funded coalitions ever formed to protect one species.[5] This coalition's plan—the Bi-State Action Plan—was approved in 2012 by the Fish & Wildlife Service ("Service"), U.S. Forest Service, Bureau of Land Management, National Resources Conservation Service, U.S. Geological Survey, Nevada State Department of Wildlife, and California Department of Fish and Wildlife.[6] The leadership of these agencies formed an Executive Oversight Committee and a Technical Advisory Committee (an inter-agency team of scientists) that would collaborate with the long-established Local Area Working Group, a ground-level team of concerned citizens, nonprofits, private landowners, industry representatives, counties, tribal representatives, Department of Defense, and other state and federal agencies. All collaboratively implemented targeted conservation efforts.

In 2013, this unmatched "all hands" alliance redoubled its efforts *precisely* in response to the Service's concerns—in order to prevent a decision to list the species.[7] These labors paid off: in 2015, after years of work, the majority of experts among the state, federal, and private biologists across the region, including those within the Service, came to agree that the Bi-State Action Plan will effectively protect the bi-state sage grouse population.[8] A victory for Plaintiffs here would undermine this extraordinary collaborative effort and, in fact, endanger the very species that all sides wish to conserve.

II. FACTUAL HISTORY

In 2013, the Service proposed to list the bi-state sage grouse as a threatened species because it found that "existing regulatory mechanisms" were "inadequate to protect" the species subset.[9] At the same time, the Service added that "managing agencies are beginning to work more collaboratively across jurisdictional boundaries" and that the Bi-State Action Plan, "if completely refined and fully

implemented, may result in the removal of threats to the Bi-State DPS so that the protections of the Act may no longer be warranted."[10] On this summons, the agencies, federal and state, in California and Nevada, intensified their commitment to improve, fund, and implement the Plan.

Pre-2013 conservation efforts had been significant. But under the Service's stringent standards, Plan partners had to achieve new levels of certainty of implementation and effectiveness.[11] The partners, informed by local science and expertise, developed new empirical models, specified new project locations, secured new funding, and put into motion new projects to address threats to the bird such as habitat loss and fragmentation.[12] All this was consistent with the 2013 report of the Conservation Objectives Team of State agencies and Service representatives—the COT Report.[13] The COT Report contained a discrete set of objectives for each threat category to achieve stable or positive bi-state sage grouse population trends, covering fire, non-native or invasive plant species, energy development, sagebrush removal, grazing, range management structures, free-roaming equid management, pinyon-juniper expansion, agricultural conversion, mining, recreation, ex-urban development, infrastructure, and fences.[14] The Plan partners identified actions for each threat category and explored conservation models and data collection tools to obtain reliable population and habitat projections to inform future actions.[15]

By 2015, Plan partners had completed or initiated 200 key projects and identified 79 priority ongoing or future projects ranked by immediacy of threat and broken down by threat categories; these would require $38 million in funding.[16] Analysis under the Policy for Evaluation of Conservation Efforts ("PECE") measured the effectiveness of these actions against COT Report objectives.[17] Partners, for instance, finalized two sophisticated new scientific models for population and habitat

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003882

projections: the "Conservation Planning Tool" and "Integrated Population Model."[18] The first model allowed the Service to measure the effectiveness of current and future projects and to assess the effect of management actions on sage grouse populations.[19] The second model let the Service confirm stable population projections, even taking into consideration Population Management Units for which data was unavailable.[20] The Plan partners provided an extraordinary $45,233,333 in financial assurances.[21] Finally, the Agencies executed a "Service First Agreement" that let funding acquired by *any* partner to be applied to *any* project across the bi-state sage grouse range.[22]

Plaintiffs claim that the "only difference" between the Bi-State Action Plan found lacking by the Service in 2013 and the Bi-State Action Plan accepted by the Service in 2015 is a "packet" consisting of a "flowchart," "commitment" letters to fund vegetation and easement projects, and a claim that the packet "represent[s] a unified and collaborative approach."[23] In other words, mere paperwork. Plaintiffs' itemization leaves out documents like the (1) Memorandum of Understanding Facilitating Interagency Cooperation, (2) Service First Agreement, (3) Technical Advisory Committee's Summary Letter of Implementation to Date and Effectiveness, (4) Science Support for Effectiveness of Actions by Threat to Conserve the Bi-State Distinct Population Segment, (5) Bi-State Sage Grouse Habitat Characterization and Verification, (6) Conservation Planning Tool, (7) Bi-State Integrated Population Model, and (8) numerous documents related to regulatory mechanisms and assurances.[24] These are critical documents. They set out not only pledges by agencies to solidify their commitment but provided information essential to the Service's PECE analysis. Plaintiffs' characterization of developments from 2013 to 2015 as being one of paper promises is plainly untrue. The far-reaching accomplishments outlined above more than provided a rational basis for the Service's finding that the Plan was certain to be implemented and effective. Plaintiffs fail to show that the Service did not explain its reasoning or rationally apply PECE in

evaluating the Plan. Plaintiffs offer no information that the Service failed to consider. The Service's withdrawal rests on overwhelming record evidence.

III. LEGAL BACKGROUND

The Endangered Species Act of 1973 ("ESA") reflects Congress's view that collaborative multi-jurisdictional agreements, with pooled resources and mutual safeguards, best support conservation. The Fish & Wildlife Service is mandated to "encourage the States and other interested parties" to develop and maintain conservation programs.[25] Service decisions are to be made only "after taking into account those efforts, if any, being made by any State or…political subdivision."[26] Case law, likewise, captures the truth that local community involvement is the surest guarantor of long-term results. For instance, in *Greater Yellowstone Coalition, Inc. v. Servheen*, 665 F.3d 1015, 1032 (9th Cir. 2011), the Ninth Circuit recognized that the Service, in de-listing the grizzly bear, rightfully relied on a voluntary inter-agency, multi-state conservation plan achievement as the basis for de-listing.

The ESA defines a "threatened" species as one that is "likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range."[27] Section 4(a)(1) of the ESA requires that the Secretary determine whether a species is endangered or threatened because of one or more of the following factors: (A) the present or threatened destruction, modification, or curtailment of its habitat or range; (B) overutilization for commercial, recreational, scientific, or educational purposes; (C) disease or predation; (D) the inadequacy of existing regulatory mechanisms; or (E) other natural or manmade factors affecting its continued existence.[28] Listing Factor D, largely at issue here, does not require that "existing regulatory mechanisms" be legally binding.[29] The D.C. Circuit this year explained that "[h]ad Congress intended to so limit the analysis, it could have used 'State law or regulation,' as it did elsewhere in the ESA."[30] Courts describe Listing Factor D's "regulatory mechanisms" and PECE's

"conservation efforts" interchangeably, as "nonbinding measures" that "'if sufficiently certain and effective to alleviate a threat [of endangerment] may render a [legally binding] regulatory mechanism unnecessary."[31] The terms "significant" and "range," are sufficiently unspecific and broad that the Secretary "necessarily has a wide degree of discretion in delineating 'a significant portion of its range.'"[32]

The Policy for Evaluation of Conservation Efforts, dating from March 2003, is a framework by which the Service evaluates voluntary conservation plans that are certain to occur but as yet (1) are unimplemented or (2) haven't yielded results.[33] PECE considers future efforts in the present tense.[34] The basic inquiry is whether these future efforts are "sufficiently certain to be implemented and effective."[35] In particular, the Service looks at "conservation efforts identified in conservation agreements, conservation plans, management plans, or similar documents developed by Federal agencies, State and local governments, Tribal governments, businesses, organizations, and individuals."[36] PECE is how the Service fulfills its duty under 16 U.S.C. § 1533(b)(1)(A) to consider existing conservation efforts before making a listing determination. One of PECE's purposes is to "guide the development of conservation efforts that sufficiently improve a species' status" so that listing becomes unnecessary.[37] PECE, then, operates not only to help evaluate voluntary conservation efforts, but to spur them.[38] PECE also reserves power to the Service to "re-evaluate its listing decision should there be a 'failure to implement the conservation effort' for *any* reason."[39]

IV. STANDARD OF REVIEW

Plaintiffs' challenge to the Service's listing decision is reviewed under the Administrative Procedure Act ("APA"), 5 U.S.C. § 706(2)(A). A court must uphold agency actions unless they are "arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law." A court's

responsibility is to determine, in light of the record considered by the agency, whether the decision was a product of reasoned decision-making.[40]

The ESA's mandate that the Service rely on the "best scientific and commercial data available" is fairly unrestrictive; the requirement "merely prohibits [an agency] from *disregarding* available scientific evidence that is in some way better than the evidence it relies on."[41] What constitutes the "best scientific and commercial data available" falls squarely within the Service's special expertise.[42] There is a strong presumption in favor of upholding the decision of the Service in view of its expertise in the area of wildlife conservation and management.[43] This is because these decisions turn on the Service's predictive judgment as to "models, methodologies, and weighing scientific evidence."[44] Courts may not choose among competing scientific views respecting the status of a species, even where alternative conclusions are presented that "as an original matter, a court might find…more persuasive."[45]

V. ARGUMENT

The perfectly rational reason behind the Service's withdrawal decision comes across in Plaintiffs' own briefing. They acknowledge that the Service's April 2015 decision reflected its acceptance of promises of voluntary action and future funding.[46] They quote the Service's statement in the Federal Register that the Service acted after seeing a "documented track record of active participation and implementation by the signatory agencies, and commitment to continue implementation into the future."[47] Interpreting for themselves the meaning and weight of internal assessments, Plaintiffs label the Service's reliance on future efforts "inexplicable." Yet the supposedly "abrupt" shift that Plaintiffs decry—"abrupt" meaning, apparently, occurring over an 18-month period—arose from considerable new and energetic efforts.[48]

Plaintiffs try to undermine the Service's views by selective citation—nowhere easier than with a record of this size—of internal correspondence among agency staffers reflecting ongoing deliberations.[49] But these records only demonstrate the intensity of the deliberations; the demanding nature of the Service's consideration; and the fact that no predetermined conclusions existed.[50] The Service's decision was more than rational—it was exacting. The record shows, between 2013 and 2015, some 23 public meetings discussing PECE compliance for the Plan between the Executive Oversight Committee, Technical Advisory Committee, Local Area Working Group, and Mono County Working Group.

Courts, of course, do not overturn agency decisions based on internal deliberations. The Service has not only the right to change its mind but a *duty* to do so if new facts compel it. Here, the Service met with substantial new developments during the public comment period. In *Northwest Ecosystem Alliance v. U.S. Fish & Wildlife Service*, 475 F.3d 1136, 1145 (9th Cir. 2007), the Ninth Circuit explained that a "paramount purpose" of the APA is *precisely* to "make an agency publish its preliminary rule and then to rethink that position, in light of the comments and additional information received."[51] When the Service withdrew its 2013 proposed listing, it systematically considered the relevant factors and articulated a rational connection between the facts found and the choices made. The decision, the Service explained, was based on new science and information that became available after the 2013 proposal.

A. The ESA and its implementing regulations require the Service to consider voluntary or future measures, such as the Bi-State Action Plan, in listing decisions.

Plaintiffs argue that the ESA does not allow the Service to consider voluntary or future conservation measures in determining whether to list species. To the contrary, such consideration is obligatory.[52] In many of these cases, the very Plaintiffs here raised similar objections that courts

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003887

rejected, finding that the Service exercised its judgment in a responsible, reasoned way.[53] PECE requires the Service to consider all pertinent conservation efforts, not just selected ones and not merely when requested to do so.

B. The Service properly applied and explained its use of the PECE to withdraw its proposal to list the bi-state sage grouse as a threatened species.

Plaintiffs' argument that the Service misapplied PECE by addressing voluntary or "speculative" future efforts is essentially a facial attack on PECE.[54] Yet PECE was developed specifically to measure the certainty of efforts that, as Plaintiffs write, "have not been implemented."[55] So long as these efforts are certain to be implemented and effective, they are deemed *not speculative*.

But what is more, the Bi-State Action Plan was, in 2015, an *existing* plan that had already accomplished much. Plaintiffs note, for instance, that the Service decided that listing was unwarranted after examining "*partially completed* and *ongoing* conservation measures," in addition, of course, to "planned future conservation."[56] And the Plan's efforts were never *rejected* by the Service. To the contrary, in 2013, at the time of the listing proposal, the Service's position was that Plan efforts "*continue* to provide conservation benefits to the DPS into the future," and that the Plan, "*if completely refined and fully implemented*, may result in the removal of threats to the bi-state [sage grouse] so that the protections of the Act may no longer be warranted."[57] Plaintiffs proclaim the supposed impermissibility of relying on efforts yet to be executed, but every plan, by definition, has its execution in the future. This is true, too, of any plan that would follow an ESA listing.

1. The Service's finding that the Bi-State Action Plan was certain to be implemented was not irrational.

PECE specifies numerous fact-specific criteria that must be considered in assessing the

---

[53] *DoW III*, 815 F.3d at 8-9. Plaintiffs omit these cases and rely instead on statements in non-binding district court decisions that were either decided pre-PECE or that do not speak to the application of the Service's PECE criteria. We do not address those decisions here, as Dfts. Mot. at 16, 18 does.

likelihood that future conservation efforts will be implemented and that those efforts will be effective.[58] But the key is that so long as the Service's findings are supported by substantial evidence—meaning reasonable even if contrary evidence exists—there is, as courts explain, "no risk" that the Service would rely on an "overly speculative agreement."[59]

The Service properly applied the "implementation" prong factors and adequately explained its reasoning. By 2015, as noted, new scientific models had been completed; Plan partners had completed or begun implementing 200 key projects; 79 priority projects were identified, ranked by immediacy of threat and threat categories; and more than $45 million in financial assurances were in place. This information, quite reasonably, persuaded the Service that the Plan's efforts were certain to be implemented. These projects addressed close to a million acres of grazing permit terms and conditions, infrastructure improvements such as fence improvements and powerline removals, horse gathers, targeted conifer-removal treatments, meadow improvements, conservation easements, prescribed and fire rehabilitation, road closures, monitoring, data collection, and research.[60] For instance, over 2,682 miles of roads were closed to address threats like habitat fragmentation, human noise, and car collisions.[61] Or take conservation easements: Plaintiffs diminish them as purely speculative, but before 2015, conservation easements were actually emplaced on 12,538 acres in the Bodie, Desert Creek-Fales, White Mountains, and South Mono PMUs.[62]

In *DoW II* and *III*, the court found that the Service properly withdrew a proposed listing for the dune sagebrush lizard when it concluded, two years after its initial decision, that a State of Texas plan made that listing unnecessary.[63] The Texas plan was far less comprehensive than the Bi-State Action Plan here. With the former, for example, unlike here, the Service, though upheld, "did not explain how the Texas plan has identified the specific participation necessary for the plan's success" and enrollees

had only committed $773,000 to the project.[64] The court also noted that the plaintiffs there, like those here, "merely repackage their challenge to the Service's predictions about the likelihood" that the Plan will be successfully implemented.[65]

The Bi-State Action Plan's structure is strikingly similar to the Grizzly Bear Recovery Plan discussed in *Servheen*—a plan "widely regarded as a success and a model for recovery plans elsewhere."[66] There, as here, Plan signatories were a state-federal partnership including the U.S. Forest Service, National Park Service, Geological Survey, Bureau of Land Management, Montana Department of Fish, Wildlife, and Parks, Wyoming Game and Fish Department, and the Idaho Department of Fish and Game.[67] These agencies formed the Yellowstone Grizzly Coordinating Committee that oversaw a Geological Survey-led team of scientists called the Interagency Grizzly Bear Study Team.[68] The key difference is that the Service in *Servheen* failed to evaluate a new threat to the Grizzly Bear's food source, whitebark pine loss.[69] No such problem arises in our case, because "no new threats to the [bi-state sage grouse] were discovered since the 2013 proposed listing rule, and [Plan] efforts since 2013 already had or were certain to reduce existing threats."[70]

The movement from proposed listing in 2013 to a withdrawal of that proposal in 2015 makes sense given that the Service had always planned, as early as 2012, to evaluate the Plan under PECE.[71] Before 2015, Plan partners worked diligently to accomplish delineated conservation goals based on threat priorities. Collaboration and adaptive management allowed Plan partners, including the Service, to improve at obtaining the tools required, like new technical data and models and funding, and to identify and complete key projects. In fact, in 2012, before the proposed listing decision, the Local Area Working Group and Technical Advisory Committee developed a matrix listing all past completed projects, along with an assessment regarding each of the listing factors, and identified future projects

AMERICAN OVERSIGHT

necessary to continue reducing the threats to the bi-state population.[72] As these matrices were updated over time, Plan partners were able to use past successes and failures to develop new conservation and population models to address priority habitat objectives. The Plan was methodically implemented to achieve these objectives, which, in turn, guided future partner funding and implementation.[73] By 2015, the Service was confident that these efforts were reducing threats to the bi-state sage grouse and that future projects were certain to be implemented and effective.

i. Plaintiffs wrongly suggest that BLM and USFS Plan Amendments were the "primary basis" for the Service's decision and ignore record evidence that the Service relied upon.

In 2015, the Service determined that "existing regulatory mechanisms are adequate" on account of the Bi-State Action Plan—not because (as Plaintiffs claim) the Service relied on incomplete Bureau of Land Management and Forest Service Plan Amendments.[74] The Service sufficiently explained what it ultimately decided: that the Plan was the "primary document guiding conservation efforts that have resulted in significant amelioration of the threats to the DPS."[75] The Service viewed federal plan amendments as parallel but not controlling, noting that "[b]ecause the [Bi-State Action Plan] has effectively addressed the threats to the DPS, the plan amendments, while helpful, are not necessary to achieve conservation through reduction of threats to the DPS."[76]

The Service was entitled to rely on its PECE analysis to evaluate the adequacy of regulatory mechanisms under Listing Factor D. It consistently signaled that in conducting such an analysis it would rely on the Plan. For example, it said in 2013 that if additional specifics (e.g., funding) were provided, the Plan could well result in the removal of threats such that a listing would no longer be warranted.[77]

Plaintiffs argue that in considering "existing regulatory mechanisms," the Service, by law, may

AMERICAN OVERSIGHT
NV-DA-20-0615-A-003891

not consider *future* conservation efforts.[78] Oddly, the first decision cited by Plaintiffs on this point rejected their argument.[79] In *Rocky Mountain Wild v. Walsh*, the court wrote that Listing Factor D "does *not*…foreclose consideration of planned conservation efforts" in making a listing decision.[80] Other courts discuss Listing Factor D's "regulatory mechanisms" and PECE's "conservation efforts" interchangeably.[81] The court in *DoW III* rejected outright Plaintiffs' argument that future efforts—there, a Texas plan and New Mexico agreement—"fail a reasonable analysis under Factor D because they are not regulatory mechanisms and are too speculative."[82] This was a "non-starter," the court said, because plaintiffs' claim that PECE criteria "cannot wholly substitute for the ESA's five factor evaluation" was merely an "attempt to supplement the *Policy* with a requirement that is not in it."[83]

ii. The Service adequately determined that there was a high level of certainty that the parties would obtain the necessary funding.

Certainty of implementation is examined in part by looking at whether funding is available for prescribed projects.[84] Here Plaintiffs concentrate their attack. PECE requires that funding be assured for at least one year.[85] For future funding, PECE recommends that the Service receive a "written commitment from the senior official of a state agency or organization to request or provide necessary funding in subsequent budget cycles" or "documentation showing that funds are available through appropriations to existing programs and that the implementation of this plan is a priority for these programs."[86] The Service received each of these assurances.[87] During PECE development, several commenters expressed concern over federal authorizations; the Service responded that a "high level of certainty of funding does not mean that funding must be in place now for implementation of the entire plan."[88] Plaintiffs raise the specter of

unfulfilled federal promises by pointing to a website discussing supposed 2018 budget cuts,[89] but this citation postdates the decision at issue and so is irrelevant (and moreover appears to depart from Plaintiffs' pledge, made at the January 13, 2017 hearing, not to go outside the administrative record).

The Plan commitment package showed up to *three* years of funding were assured, with a funding schedule and commitments to obtain the remaining funding over the next *ten* years.[90] The $45,233,333 in funding commitments coupled with the Service First Agreement ensured, moreover, that Plan projects would not be contingent on any one partner's ability to obtain funding.[91] The Service also considered the Plan partners' ability to obtain past funding for the 200 completed or initiated projects to show the likelihood that future funding would be obtained.[92]

In total, federal Plan partners pledged $33.8 million: Bureau of Land Management ($6.5 million), Natural Resources Conservation Service ($12 million), Department of Agriculture ($13.9 million), Geological Survey ($400,000), and the Service ($1 million).[93] Portions of these amounts were appropriated in February 2014, amounts to be used for sage grouse conservation efforts through FY 2018; the remainder would be requested for future funding cycles.[94] Plaintiff Center for Biological Diversity, during the public comment period, actually emphasized the strength of these federal dollars on the proposed critical habitat designation: in June 2014, the Center noted, the "administration announced that $31 million in spending through 2024 would be allocated to help ranchers and others improve habitat for the bi-state population" and urged the Service to subtract the full $31 million from the cost estimate in the final economic analysis.[95]

The remaining $11,433,333 is to come from state and private funds: the Nevada Department of Wildlife ($3.4 million), California Department of Fish and Wildlife ($2.5 million), Mono County ($2.2

million), and private and nonprofit contributions ($3.33 million).[96] Even if federal appropriations were not reliable, a position outright rejected in the Service's PECE, these State and private funds do not derive from federal appropriations. Not only is this level of commitment to conservation efforts high by national standards, it far exceeds what courts recently have found adequate.[97] For example, it dwarfs the $773,000 in participation fees deemed sufficient to protect the sagebrush lizard in Texas and New Mexico.[98] The Plan alliance, with its multiple funding sources, is well prepared to withstand the ebb and flow of administrative financial priorities by contrast to an effort that the Service conducts on its own.

2. The Service exercised its expert judgment and adequately explained why Bi-State Action Plan efforts were certain to be effective.

Plaintiffs assert that the Service had too much confidence in the effectiveness of proposed conservation efforts. But the Service relied on its expertise and experience.[99] Plaintiffs fail to demonstrate that the Service acted arbitrarily in agreeing with multiple concurring experts that the Plan was highly certain to be effective. The "effectiveness" prong of PECE is by nature a technical inquiry that requires weighing scientific evidence; court review is "at its most deferential" here.[100]

Plaintiffs allege that the withdrawal decision is inconsistent with the best available science on the bi-state sage grouse population.[101] Yet they do not allege that the science or models are insufficient, or that the Service failed to explain them or acknowledge their limitations. This dooms the allegation. Nor does the record support Plaintiffs' insinuation that the withdrawal decision was driven by "politics."[102] The Service noted in fall 2014: "there hasn't been any pressure felt by the Directorate or the Department."[103] The charge, moreover, is irrelevant given that Plaintiffs cannot "point to any science that the Service ignored, misused, or manipulated, or to any material switch in the Service's position."[104] This

circuit recognizes that the best available science requirement is broad; it just disallows an agency from *ignoring* scientific evidence better than the evidence it relies on.[105] The existence or weighing of competing views as to scientific conclusions or policy choices (inherent in virtually every such decision) cannot be used to show that the Service's determinations were arbitrary or capricious.[106] A reviewing court evaluates "agency choices with respect to models, methodologies, and weighing scientific evidence" *only* to ensure that the agency's choices are supported by reasoned analysis.[107]

The Service met this standard. Plaintiffs themselves report that scientists were actually optimistic when looking forward.[108] Plaintiffs note, for example, that during the Service's Recommendation Team meeting, thirteen Service biologists were asked: "Given the information provided since 2013 and the anticipated future conservation efforts, what is the proposed status for the future (threatened/endangered/not warranted)?"[109] Three still supported a "threatened" listing—but more than twice as many did *not*. These eight, instead, recommended a "not warranted" decision—based, again, precisely on future conservation efforts.[110] These experts provided various explanations that are reflected in the withdrawal decision.[111] This shows not only that the Service undertook considerable deliberations on this issue but that the Service adopted, rationally, the majority expert opinion regarding the anticipated success of the Plan. Plaintiffs do not allege that the experts were given incorrect information. The Service explained in its final 2015 decision that, consistent with these internal deliberations, the Plan had "reduced threats to the DPS now and into the future."[112] Where, as here, the Service articulates a rational connection between the facts concerning threats to the species and determinations on listing, courts defer to the Service's expert judgment.

i. The Service adequately explained its use of the Conservation Planning Tool and Integrated Population Model.

NV-DA-20-0615-A-003895

The Service properly detailed its reliance on new planning tools for priority conservation projects. Plan partners in 2012 identified the data and models needed to meet conservation objectives.[113] By 2014, Plan-funded models were populated by telemetry and GPS tracking of marked birds and modeling inputs such as vegetation, topography, surface roughness, proximity to anthropogenic disturbance or infrastructure, and other information pertinent to sage grouse use or avoidance.[114] These tools provided a way to scientifically inform conservation efforts.[115] For instance, the Integrated Population Model uses lek counts and demographic parameters to assess population growth and trajectories over time. This, in turn, refines the Conservation Planning Tool.[116] All this, again, was a development between 2013 and 2015, i.e., between the proposed listing and withdrawal of that proposed listing.

The Plan targets, using the Conservation Planning Tool, the most important areas for conservation. The projects populated by this tool are ranked by a variety of inputs, including acreage and return on investment; the tool produces a list of projects based on urgency and effectiveness.[117] This is especially important when considering the significance of woodland treatments and private conservation easements and in understanding the Service's explanation for why only a few thousand acres of targeted private conservation easements or woodland treatments could effectively reduce threats to the population.[118] For example, improper grazing can be a threat to bi-state sage grouse persistence, but conservation easements that encourage sustainable grazing practices, maintain water features, and prevent urbanization are key to species survival.[119] Private lands constitute a small percentage of habitat, but 5,400 acres of such lands contain upwards of 75% of the "core breeding habitat" in Nevada.[120] So it stands to reason that conservation easement acreage is proportional to the availability of core breeding

habitat. Conservation of these areas through easements or fee title acquisitions has significantly reduced threats to this key component of bi-state sage grouse habitat.[121]

The best available science—the Integrated Population Model—shows that the trend is stable or improving for most bi-state sage grouse.[122] The trend is what matters. Plaintiffs claim that the "present survival prospects for the Bi-State Sage Grouse are bleak."[123] This is contradicted by the record, including even by their own comment letters during the public process. One Plaintiff wrote then that "preliminary results from modeling appear to show some population stability in the groups of bi-state sage grouse for which data was available of high enough quality to be included in the modeling."[124] Another Plaintiff acknowledged that the model found that "trends in males counted per lek for the Bi-State populations have been relatively stable since 2003."[125] Plaintiffs today assert that the "once-thriving population" has declined, precipitously, to "as few as 2,497 birds."[126] They neglect to mention that this figure, the record's lowest population count, dates from 2008—almost a decade ago, well before the concerted efforts that have served to guarantee the bird's future. The population count in 2012, the latest year used in the Population Model, showed an almost quadrupled population of 9,828.[127] The Integrated Population Model nevertheless incorporated all data points on population count—low and high—into its growth trajectories and still found population growth trends stable or improving.

In addressing populations by Population Management Unit (or PMUs), the model showed stable or increasing trends for the central core of the DPS—the Bodie, Desert Creek-Fales, and South Mono PMUs.[128] In 2013 the Service found that the central core populations had a "probability of persistence between 85 and 100 percent over the next 30 years."[129] There is little data to support *any* conclusions about the Pine Nut, Mount Grant, and White Mountains PMUs because the data was inadequate or

unavailable for those populations.[130] Yet lack of data does not mean a lack of sage grouse. The record does not support Plaintiffs' claims of precipitous decline.

Plaintiffs misstate Service conclusions to paint a grim (but inaccurate) picture. For example, Plaintiffs write: "[e]ach of the Bi-State Sage Grouse's six PMUs is now largely geographically and genetically isolated."[131] What the Service actually said was that the bi-state sage grouse is "genetically unique and markedly separate from the rest of the species' range."[132] The Service was not asserting that individual PMUs are isolated from *each other*, but rather that the bi-state sage grouse (as all agree) is simply different from other western sage grouse populations, i.e., a distinct population segment. Or Plaintiffs quote the Service's 2015 decision as stating that "connectivity"—important to genetic diversity—"between the Bi-State Sage Grouse's PMUs continues to erode,"[133] but omit the next sentence: "However, as discussed in the [PECE analysis], conservation efforts are effectively…helping maintain connectivity."[134] The 2015 decision also emphasized that "[o]ngoing and future conservation efforts are likely to *increase*…connectivity."[135] Elsewhere, Plaintiffs use a Service species status report to assert that leks in the South Mono area "have begun producing nonviable eggs."[136] Actually, the report only said that nonviable eggs appeared in a "single isolated" subpart of the South Mono area (called Parker Meadows) but not in the larger, core portion of the area.[137] The bottom line is that on these and other factual questions, the Service plainly weighed the evidence and addressed it in its decision.

Plaintiffs assert that the bi-state sage grouse has lost "half of its habitat" during the past 150 years. But a timeline that begins near the close of the Civil War is a problematic starting point, since reliable modern data on habitat was not collected until about 2002.[138] The Ninth Circuit has held that "it simply does not make sense to assume that the loss of a predetermined percentage of habitat or range

would necessarily qualify a species for listing."[139] This is why the Service's interpretation of "range" as focusing on "current range" has been upheld as reasonable.[140] Where the area that a species is expected to survive is much smaller than its historical range, the Secretary must only "explain her conclusion that the area in which the species can no longer live is not a "'significant portion of its range.'"[141]

Notwithstanding this lack of data for non-core PMUs and overall stable population-growth trends, the withdrawal decision analyzed together the Pine Nut, Grant, and White Mountains PMUs for its "significant portion of its range" analysis and found this portion, without the core population, is not in danger of extinction or likely to become so in the foreseeable future.[142] This conclusion is appropriate. The best available science standard does not require the Service to obtain perfect data, especially where it is not technically feasible.[143] The Service found that, although available information "may lead some to believe" these PMUs may be at risk, the "best available information currently indicates that a substantial amount of conservation is currently being applied (and will be carried out in the future)" within these PMUs.[144] The Service adequately explained its findings in 2013 and then why those findings changed in 2015 given new scientific models and the forecasted effectiveness of Plan efforts.

VI. CONCLUSION

Plaintiffs dislike that bi-state sage grouse conservation efforts are proceeding along different lines than they prefer. They seem not to trust state and federal officials in the way that the Service must. But the Service took its withdrawal decision seriously—and it is to the Service that Congress entrusted this decision. The best available science does not support a listing. The only question for the Court is whether, on this record, the agency had a reasonable basis to withdraw its proposed rule. The Service's judgment was more than amply supported.

NEVADA ASSOCIATION OF COUNTIES (NACO)

Board of Directors' Meeting
June 22nd, 2018, 9:30 a.m.
NACO Office
304 S. Minnesota Street
Carson City, NV 89703

AGENDA

Some NACO Board members may attend via video link or phone from other locations. Items on the agenda may be taken out of order. The NACO Board may combine two or more agenda items for consideration. The NACO Board may remove an item from the agenda or delay discussion relating to an item on the agenda at any time.

Call to Order, Roll Call and Pledge of Allegiance

1. Public Comment. Please Limit Comments to 3 Minutes.

2. Approval of Agenda. **For Possible Action.**

3. NACO President's Report.

.

4. NACO Executive Director's Report.

5. Approval of Minutes of the May 18th, 2018 NACO Board of Directors Meeting. **For Possible Action.**

6. Election of Nevada's Two Representatives to the National Association of Counties (NACo) Board of Directors. **For Possible Action.**

7. Possible Approval of a Letter from NACO to Governor Sandoval Regarding the State's 2019-2021 Biennium Budget. **For Possible Action**

8. Presentation and Discussion Regarding the Nevada Network of Fire Adapted Communities and How Counties Can Get Involved, Michael Beaudoin, Coordinator.

9. Presentation and Discussion Regarding the Certified Local Government Program and Other Opportunities for Counties to Access Funding for Historic Preservation Projects, Jim Bertolini, Historian, Nevada State Historic Preservation Office.

10. Discussion and Possible NACO Support for the Creation of a Reporting Tool for Rural Counties to Use to Monitor Contract Public Defenders. **For Possible Action**

11. Update on Legislative Committees and Studies, Legislative Priorities, and Possible Approval of NACO Bill Draft Requests for the 2019 Legislative Session. **For Possible Action**

Update and Possible Action Regarding Public Lands and Natural Resources Issues Affecting Counties Including:

    a. NACO Public Lands and Natural Resources Committee Update.

    b. Update on the BLM and USFS Greater Sage Grouse Resource Management Plan Amendments, Including Discussion and Possible Action Regarding Cooperating Agency Status with the USFS.

12. NACO Committee of the Emeritus Update.

13. National Association of Counties and Western Interstate Region Board Member Updates.

AMERICAN OVERSIGHT

14. NACO Board Member Updates.

15. Public Comment. Please Limit Comments to 3 Minutes

Adjournment.

Members of the public who are disabled and require special accommodations or assistance at the meeting are requested to notify NACO in writing at 304 S. Minnesota Street, Carson City, NV 89703, or by calling (775) 883-7863 at least three working days prior to the meeting.

Members of the public can request copies of the supporting material for the meeting by contacting Amanda Evans at (775) 883-7863. Supporting material will be available at the NACO office and on the NACO website at: www.nvnaco.org

This agenda was posted at the following locations:
NACO Office 304 S. Minnesota Street, Carson City, NV 89703
Washoe County Admin. Building 1001 E. Ninth Street, Reno, NV 89520
Elko County Manager's Office 540 Court Street #101, Elko NV 89801

In order for your county to cast its votes in the National Association of Counties annual election of officers you must complete the credentials form, signed by your Commission Chair, by June 29th. Please find additional information attached.

AMERICAN OVERSIGHT

MEMORANDUM

ELECTION OF NACo OFFICERS AND VOTING ON POLICY

To: County Board Chairpersons, Parish Presidents, Borough Mayors, County Judges, Elected County Executives and County Clerks
From: Roy Charles Brooks, NACo President
Date: May 18, 2018
Subject: Voting Credentials – 2018 Annual Conference

NACo is preparing for the 83rd Annual Conference to be held July 13-16, 2018, in Nashville-Davidson County, Tenn. It is important that your county participates in the association's annual election of officers and policy adoption. **In order to participate, a county must have paid its membership dues and have one paid registrant for the conference, according to NACo bylaws**.

Please read the enclosed information carefully. Indicate on the credentials form the name of the county voting delegate and alternate authorized to pick up your county's voting materials.

A checklist is enclosed to assist you in filling out the voting credentials form. Additionally, **the chief elected official of your county must sign the form**. A chief elected official may include the following:

- board chair/president
- mayor
- county judge
- **elected** county executive

Please fill out this form in advance and mail, fax or scan and e-mail the enclosed form by ***FRIDAY, JUNE 29***.

If no one from your county is planning to register for the conference, you do not have to turn in the credentials form.

Alex Koroknay-Palicz - Fax (866) 370-9421

Credentials Committee
Attn: Alex Koroknay-Palicz
National Association of Counties

2018 Credentials Process Frequently Asked Questions

On what issues or for which candidates do counties/parishes/boroughs vote?
Counties vote on resolutions that set NACo legislative and association policy for the coming year. Delegates also elect NACo officers for the coming year. The position of second vice president is usually the one position that is contested.

How can my county vote?
A county must be a NACo member "in good standing" in order to vote. This means your county's dues for 2018 must be paid before the voting occurs. **Also, the county must have at least one paid registration for the annual conference and have proper credentials**.

What are credentials?
Credentials attest to a county's eligibility to vote. Credentials contain information on the number of votes a county is eligible to cast, as well as the identity of the delegate that is authorized to cast the county's vote.

How is the credentials form distributed?
The form is mailed to the clerk and chief elected official of member counties so that the county can provide the name of the voting delegate to NACo. Conference registrants will receive an e-mail with a link to the credentials form as well. Only counties that have paid their 2018 NACo dues will receive a credentials form. This form is mailed in May. Please return this form by Friday, June 29, 2018.

Why did I receive a credentials form?
You are receiving this form because you are the chief elected official at your county, your county's clerk, or you registered for the 2018 NACo Annual Conference. If you wish to vote, please bring the credentials form to your chief elected official to fill out and return to us. Please see this packet for more instructions on the form.

My county has misplaced the credentials form. What should I do?
The credentials form will be available in the Elections and Voting Credentials section of the NACo website (*www.naco.org/credentials*) shortly after it is mailed. After you download, print, and fill out the form correctly, you can return it to NACo. Please call Alex Koroknay-Palicz at 888.407.NACo (6226) x291 if you need assistance.

If my county is not registering for the Annual Conference, does my county have to send in the credentials form?
No. Only counties who register are able to vote. Please do not return the credentials form to the NACo office if your county does not plan to register for the Annual Conference.

What is a voting delegate?
A voting delegate is someone authorized by your county/parish/borough board to pick up a ballot and cast your county's votes at the annual conference. The delegate must have a paid registration to the conference.

Who may be a voting delegate?
Any elected or appointed official or staff member from your county/parish/borough may be a voting delegate. That decision is up to your county board.

What is an alternate?
An alternate is another elected or appointed official or staff member from the county delegated by the county to pick up and cast its ballot. The alternate must have a paid registration to the conference.

- The delegate OR alternate listed on the credentials form may pick up your county's ballot.

AMERICAN OVERSIGHT

My county has only one person attending the conference. Does my county have to designate an alternate?
No. It is not necessary to list an alternate if a delegate is named.

Whose ballots may the state associations of counties/parishes/boroughs receive?
Your state association of counties/parishes/boroughs is allowed to pick up any unclaimed ballots from counties/parishes/boroughs that have registered delegates. The pick-up time for state associations is Sunday afternoon (2 to 5 pm) during the conference. The state association may then cast those ballots in the election.

My county does not want our state association to pick up our votes. How does my county go about indicating this decision?
You must check the box that says "*If my ballot is not picked up, I DO NOT AUTHORIZE my state association to pick up or cast my county's vote. I understand that my county's votes will NOT be cast if I select this option.*"

- Remember that your county's votes will not be cast at all with this option if your delegate does not pick up the ballot.

If I do not get my credentials form into the NACo office by June 29, may I become credentialed on site at the conference?
Yes. You may bring the original credentials form signed by your chief elected official or fill out the on-site ballot form. By signing the on-site ballot form you declare that you and the other conference attendees from your county have agreed that you are the voting delegate for your county. You must be registered for the conference to be able to vote.

What would happen if more than one registered attendee from my county fills out the on-site ballot form?
If there is uncertainty as to who the authorized delegate is, and more than one person claims to be your county's authorized delegate, officials from your county will need to resolve the dispute by 1 p.m. CDT on Sunday July 15, 2018. Unless the dispute is resolved, your county's votes will not be counted. To resolve the dispute, all registrants who filled out the on-site ballot form need to agree as to who is authorized to cast their county's votes and communicate that to Alex Koroknay-Palicz at the credentials desk by 1 p.m. CDT on July 15.

How do I get my ballot?
When you submit your credentials form NACo staff prints out a paper ballot to bring to the NACo Annual Business Meeting. In order to vote you will need to pick up this paper ballot at the NACo Credentials Desk. Your county has until 1 p.m. on Sunday July 15 to come to the Credentials Desk and pick up your ballot. If you do not pick it up by 1 p.m. your state association can then pick up your vote until 5 p.m. unless you check the box on the form to not permit them. If you check that box and do not pick up your own ballot your county WILL NOT be permitted to vote.

What would happen if I've picked up my ballot, but I need to leave before the election on Monday?
If you have picked up the ballot for your county but won't be present to cast it at the NACo Annual Business Meeting on Monday morning, you can give that ballot to a delegate from your same county, from another active member in your state, the head of your state delegation, or your state association president or president's designee. To do this, you (transferer) and the person you are handing the ballot to (transferee) must sign the Record of Ballot Transfer form on the back of your ballot.

My county won't be attending this year's Annual Conference, can we still vote?
Yes. Your county can still have its votes counted without attending the conference, but one person from your county still needs to register. You must have at least one person registered by 12 PM CDT on July 10. If you register, do not plan to attend and wish to vote, you MUST designate your state association president as your delegate on the Credentials Form. Your state association president or his/her designee will pick up and cast your ballot.

AMERICAN OVERSIGHT

How does NACo determine the number of votes each county receives?
The number of votes is determined by the amount of dues a county pays. Dues are based on population. All counties are entitled to at least one vote. Members with more than $1,199 in dues are entitled to one additional vote for each additional $1,200 in dues or fraction thereof paid in the year the meeting is held.

- Counties with dues of $450 to $1,199 receive one vote.
- Counties with dues of $1,200 to $2,399 receive two votes, and so on.
- The maximum number of votes a county can receive is 51.

My county has 10 votes. How can our 25 commissioners divide or share the votes?
That is up to your county. NACo has no rule as to how counties decide to allocate their votes. Counties may split their vote amongst the candidates running for second vice president if it is desired.

I've heard the term "unit vote" used. What is that?
Some states, by custom or policy, cast all of their votes as a block or "unit." State associations typically have a meeting before the election to determine how they will handle the voting process.

- Check with your state association regarding the time, date and location of this meeting.
- NACo bylaws permit each county to cast its vote as it chooses. Your county does not have to vote with your state association should you so choose.

When does the voting take place?
This year's election will be held on Monday, July 16, 2018 at 9:30 a.m. at the NACo Annual Business Meeting.

How does the voting occur?
Votes are cast by state, not by state association. Counties from a state sit together as a delegation. The reading clerk will call out states at random. A state appointed representative will approach the microphone and call out that state's vote. This will continue until one of the candidates has a majority of the total number of votes being cast. Voting may still continue after a majority has been reached.

What is a roll call?
Roll call is a way of voting for NACo resolutions to be passed. If a roll call is necessary, the names of the states will be read out in alphabetical order by the reading clerk. A state appointed representative will approach the microphone and call out that state's vote as "yes" or "no." This will continue until all votes have been cast.

What happens if there is a dispute over the election process?
It is rare, but sometimes irregularities occur with how votes are cast or counted, or how the credentialing process is conducted. As a safeguard elections may be challenged during the voting process at the NACo Annual Business Meeting. Challenges are allowed under two circumstances. A voting delegate may challenge the vote for his/her state, and his/her state only. A candidate running to become a NACo officer may challenge the vote of any state. If a challenge is made, the NACo Credentials Committee may audit the ballots of a state delegation to ensure that the number of votes the state is casting matches the number of ballots the state has. The committee may also audit the ballot transfer records on the back of each ballot and the State Voting Totals Form, which is a form states fill out showing the number of votes cast for each candidate.

Please use the following checklist before returning the credentials form.

YES **NO** Has my county/parish/borough paid its 2018 NACo dues?

If no, please contact NACo's Membership department at 888.407.NACo (6226). 2018 dues must be paid before votes may be cast.

YES **NO** Has my county/parish/borough registered or at least one person from my county/parish/borough paid the registration fee to attend the annual conference?

If no, STOP. The county must have at least one paid conference registrant to cast a ballot, according to NACo's bylaws. If no one from your county is registered for the conference, your county may not vote in the election. If your county does not plan on registering for the conference, you do not need to turn this credentials form back in to the NACo office.

If you have answered "YES" to both of the above questions, please continue.

YES **NO** Has my county designated a voting delegate and alternate, if applicable?

Only ONE alternate may be designated per county. If more than one alternate is designated per form, only the first will be counted as the credentialed voting alternate.

YES **NO** Has the chief elected official of my county/parish/borough (board chair, mayor, parish president, elected county executive, etc.) signed the credentials form?

*If you have answered **yes** to **all** questions, please either fax, mail **or** scan and e-mail the credentials form by Friday, June 29, 2018 to:*

Alex Koroknay-Palicz
Fax # (866) 370-9421

Or:

AMERICAN OVERSIGHT

NEVADA ASSOCIATION OF COUNTIES (NACO)

Board of Directors' Meeting
May 18th, 2018, 9:30 a.m.
NACO Office
304 S. Minnesota Street
Carson City, NV 89703

UNADOPTED MINUTES

Attendance: President Weekly, President Elect Waits, Vice President French, Elko County Commissioner Dahl, Douglas County Commissioner Thaler, Lincoln County Commissioner Higbee, Esmeralda County Commissioner Bates, Elko County Commissioner Steninger, Storey County Commissioner McGuffey, Lyon County Commissioner Hunewill, Washoe County Commissioner Hartung, Churchill County Commissioner Olsen, Carson City Mayor Crowell, NACO Fiscal Officer Kalt & NACO Staff (Dagny Stapleton, Vinson Guthreau, Tori Sundheim & Amanda Evans)

Remote Attendance: Pershing County Commissioner Shank & Nancy Parent, Nevada of Clerks and Election Officials

Other Attendance: Murph Glover, NDOT; Steven Meglio & Marshall Smith, POOL/PACT; Dane Windsor, NACo & Dean Bill Payne, UNR

The meeting was called to order at 9:30 a.m.

1. **Public Comment**. Commissioner Olsen addressed the Board regarding the sale of UNR Agricultural Experiment Station property and shared a resolution encouraging the Board of Regents to ensure that the proceeds of any land sale be placed in a trust fund to benefit the College of Agriculture, Biotechnology and Natural Resources per the policy set forth in their existing resolution.

2. **Approval of Agenda**. The agenda was approved on a motion by Commissioner Dahl with second by Commissioner Thaler.

3. **NACO President's Report**. President Weekly thanked the Board for making the trip to Clark County the previous month, and recognized President Elect Waits' birthday.

4. **NACO Executive Director's Report**. Dagny announced that the TIGER program had been replaced by the BUILD grant program for federal transportation grants and the application deadline is July 18. She informed the Board that the bids received for replacing the video conference system are not currently within the Association budget, but work had been completed with the system support staff and some of the issues previously experienced have been rectified. Commissioner Hartung inquired as to the potential for refurbished equipment and Amanda informed the Board that she hadn't previously looked into that option but was willing to do so. She did add that she would be cautious regarding obtaining support on refurbished or used equipment. President Weekly noted that video conferencing is a powerful tool and discussed the potential for possibly obtaining some type of grant funding to assist in replacing the components of the system that are no longer able to be serviced. Dagny addressed questions from previous meetings regarding the usage of the distribution of marijuana funds to the counties and reminded the Board that the funds can be placed in the general fund, however it is advised that counties use the funds for items clearly connected to impacts from legalization of marijuana such as law enforcement, human services, code enforcement, etc. She noted that PILT will be addressed in item 11. Commissioner Steninger inquired whether any Commissioners had heard about a possible bill to remove the guaranteed funding from counties that had zoned out marijuana establishments. None of the members had heard of such a bill. Dagny concluded her remarks by addressing Tori's departure and recognizing the many things Tori accomplished over the course of her employment with NACO. Dagny also outlined the recruitment process for filling Tori's position.

AMERICAN OVERSIGHT

5. **Approval of Minutes of the April 20, 2018 NACO Board of Directors Meeting**. The minutes were approved on a motion by Mayor Crowell with second by Commissioner McGuffey. President Elect Waits requested that the location of the Board meeting be included in the minutes going forward.

6. **Approval of NACO's March 2018 Financial Statements and March 29, 2018 Investment Reports**. Dagny informed the Board that the Association's Fiscal Officer, Alan Kalt, was in attendance to help answer any questions and that she is working with him on a new format for the statements that will be instituted in the next quarter. The financial statements and investment reports were approved on a motion by Commissioner Hartung with second by WIR member Dahl.

7. **Presentation and Discussion Regarding Security and Public Access in County Buildings, Marshall Smith POOL/PACT**. Mr. Smith informed the Board that he is the Risk Manager for POOL/PACT and began his presentation discussing "1st Amendment audits". In general, a 1st Amendment audit is a test of whether protected activity is properly tolerated by governmental entities and employees, for example, a member of the public videotaping in a public building. Documents outlining details of the audits were distributed to the Board and Mr. Smith noted that the location of where an audit is being attempted matters. In general, 1st Amendment audits can only be conducted in locations identified as public, streets, sidewalks, meeting rooms, social media etc. They cannot be attempted or conducted in areas where public access is denied. Commissioner Hartung inquired about safety concerns, specifically a person attempting to survey a location for nefarious purposes. Mr. Smith noted that it is a very grey area and that Homeland Security is developing guidelines that will allow for removal of a person given certain circumstances and that regardless of a person's right to be in the location they do not have the right to interfere with legitimate business activity. Vice President French inquired as to the issue of a person photographing a private residence from a public location. Mr. Smith informed the Commissioner that the best course of action is to contact law enforcement to determine the legalities of the current situation. President Elect Waits inquired as to employees feeling threatened by a person's actions. Mr. Smith noted that counties are able to restrict public access to locations within public buildings. Steven Meglio addressed physical security. He noted that it is important for counties to develop a security plan. He addressed single point entry locations, landscape design to funnel public access to an entry location and the use of CCT systems. President Elect Waits inquired about weapon restrictions and Mr. Smith recommended directing questions regarding exemptions to restrictions to the District Attorney. The discussion also addressed metal detector usage and the employment of security officers.

8. **Presentation and Discussion Regarding the U.S. Communities Program and County Purchasing Efficiencies, Dane Windsor, National Association of Counties (NACo)**. Mr. Windsor gave the Board an overview of the program's goal to encourage the responsible use of public funds. He noted that the program is a purchasing cooperative and that it allows smaller entities to leverage the discounts of larger entities' contracts for goods and services. The Cooperative adopts the contracts of large governmental entities after they have gone through the public bidding process thereby allowing smaller entities to purchase goods and services directly under previously vetted contracts without having to go through a lengthy and labor intensive bidding process. He informed the Board that there is no cost to participate in the program and that average savings are typically 10-20% and can go up to 40%. Each agency is able to determine their own terms when purchasing. He also informed the Board that NACO, as a sponsor of the program, does receive non-dues revenue based on quarterly usage of the program. Mr. Windsor then gave a brief overview of the program's website and national usage of the program which is roughly 2/3 of the counties in the country. Mr. Windsor concluded his remarks by informing the Board that he is willing to work with the Association to conduct trainings for county purchasing personnel on the program, and that there is an easy, streamlined online process through which purchasing can be conducted.

9. **Update on Interim Legislative Committees and Studies and Preliminary Discussion on NACO Legislative Priorities for the 2019 Legislative Session**. Dagny informed the Board that the Right to Counsel Commission has held three meetings to discuss indigent defense reform. She reminded the Board that counties have six representatives on the Commission and that at the last meeting several counties gave presentations to the Commission. The next steps for the Commission include the acceptance of a report on rural county public defense systems by the 6th Amendment Center and the development of a recommendation to the Legislature. She discussed the Interim Public Lands

AMERICAN OVERSIGHT

Committee and informed the Board that the focus of the committee is currently on how public lands impact communities and economic development and that Commissioners Wichman and Tipton were presenting to the Committee that day. Vinson discussed the Committee on Affordable Housing, chaired by Senator Ratti and informed the Board that the Committee's goal is to identify potential solutions to funding and providing additional affordable housing units. Potential solutions being discussed are enabling local governments to lower fees associated with building affordable housing units. Commissioner Thaler asked about a definition of affordable and Vinson said that the Committee is looking at that definition and will most likely propose changes to comport with federal definitions. President Weekly noted the importance of the issue and varied populations it affects and how the needs vary by those populations. Commissioner McGuffey inquired about funding and Vinson said that the current discussed solutions that may affect counties are only enabling legislation. The Board also discussed issues with market driven price increases and the potential to work with employers and the banking industry to help find solutions as well. Dagny discussed the Energy Choice Initiative that would change the Nevada Constitution to deregulate energy and if it passes in November the Legislature will be required to develop the regulations and deregulation process. The Board directed staff to bring a presentation on the issue to a future meeting, to determine if they will take an official position. Vince informed the Board that July 1 is the date that Legislative BDR summaries will be released and that NACO's BDR's are due September 1st. Vince also let the Board know that the Legislative Committee is working on recommendations to bring to them. Staff will continue to watch all legislative items closely and bring anything of concern to the Board.

10. **Discussion and Approval of an Update to NACO's Natural Resources and Public Lands Action Plan**. Tori referenced the draft distributed to the Board. She also reviewed the items from the previous plan that had been completed. Items on the Plan include ongoing efforts regarding wild horses & burro's, full funding for PILT, wildfire - including efforts to stop fire borrowing - and issues with invasive species and weed management. The Public Lands and Natural Resources Committee approved the Plan when they met the previous day. The Plan was adopted by the Board on a motion by Commissioner Dahl with second by Commissioner McGuffey.

11. **Update and Possible Action Regarding Public Lands and Natural Resources Issues Affecting Counties Including:**

    a. **NACO Public Lands and Natural Resources Committee Update.** Vice President French noted the upcoming workshop by the Emeritus Committee on Public Lands and Natural Resources plans and the importance to ensure they have consistency with BLM travel management plans and expressed concern with recognized and closeable roads. He also stressed the need for the plans to be consistent with county master plans and ensure they are relevant. Having some consistency within the format of the plan was also noted as being important to ensure that the agencies could develop some comfort with their reviews. Commissioner Olsen reminded the Board that Commissioner Wichman had all the roads in Nye County catalogued and that Churchill County is doing the same to combat issues with agency travel management plans.

    b. **Update on the Greater Sage Grouse Resource Management Plan Amendments.** Tori informed the Board that the DEIS was released to the public and that comments are due August 2nd. She informed the Board that staff is working with all the Association's partners to have a plan in place. She noted that Jeremy Drew from RCI is at the Sagebrush Ecosystem Council to share the county objectives with the State. She also informed the Board that information was provided to the BLM to help them understand the needs of the counties including the need for exceptions for services and ground truthing. Dagny informed the Board that a meeting will be held in mid-July amongst counties to finalize strategy and county inputs.

    c. **Discussion of Substitution of New Counsel to Represent NACO as Defendant-Intervenor on behalf of the Service in Lawsuit against the U.S. Fish and Wildlife Service Seeking to Vacate their Decision not to List the Bi-State Sage Grouse as an Endangered Species.** This item was heard in closed session. Following the closed session the Board discussed the substitution of counsel required by Tori's departure. Mayor Crowell informed the Board that Carson City was willing to have a member of their District Attorney's office act

AMERICAN OVERSIGHT

as counsel for the next steps in the suit. The Board approved the substitution on a motion by Commissioner Dahl with second by Vice President French.

12. **NACO Committee of the Emeritus Update**. Vinson informed the Board that the Committee is working on the County Natural Resources and Public Lands Plan Workshop to be held on July 20th and the new commissioner training which will be held at the NACO Annual Conference in November.

13. **National Association of Counties and Western Interstate Region Board Member Updates**. Commissioner Dahl and Vice President French informed the Board that the WIR meeting was the following week in Idaho and items to be discussed include PILT and possible change in the disbursement formula, specifically in the population cap. Vice President French also informed the Board that a county in Utah had filed suit due to the removal of the automatic reauthorization language for PILT in the omnibus. It was also noted that WIR is recruiting for leadership positions on the Board.

14. **NACO Board Member Updates**. Updates were given by members of the Board highlighting various activities within their counties.

15. **Public Comment**. None was given.

The meeting was adjourned at 12:59 p.m.

DRAFT

AMERICAN OVERSIGHT

http://www.livingwithfire.info/it-takes-a-community

AMERICAN OVERSIGHT

The following links and/or pages are support for agenda Item 9

The Nevada State Historic Preservation Office (SHPO) is making changes to a program that may be of interest to counties. SHPO is seeking input from local government officials and related organizations concerning some revisions they are making to the Certified Local Government (CLG) program. Proposed revisions to this program are being made in an effort to make it accessible to more of Nevada's counties and cities. The public comment period runs through June 29th. The proposed new materials are online at http://shpo.nv.gov/clg.

If you're not familiar with the CLG program, it is a partnership program between a local government, SHPO, and the National Park Service for local governments that demonstrate a commitment to historic preservation. Within the proposed revisions, SHPO is hoping to redefine that commitment as the establishment of a citizen commission for historic preservation, and the passing of an ordinance that, at minimum, acknowledges the importance of preserving historic places to a community's long-term identity and economic development.

Chief among the benefits of becoming a CLG is access to special grants from our SHPO. Those grants can fund a great number of projects, including county-wide preservation plans, surveys of historic places within a county, and education programs to help owners of historic property learn current best practices. SHPO also provides training, education, and other support to CLGs as funding and travel allows.

AMERICAN OVERSIGHT

U.S. Forest Service
Sage-Grouse Bulletin #5
June 7, 2018

Summary: Sage-Grouse Bulletin #5 provides an update on the development of plan amendments in advance of a June 21, 2018 NOI. It also includes information on planning timelines and the decision framework.

Potential Plan Amendments – Development of Proposed Action

On May 22 and 23, 2018 the Forest Service's core Interdisciplinary Team and technical specialists met to develop proposed changes to Greater Sage-Grouse (GRSG) plan amendments in response to comments received as a result of the 2017 Notice of Intent to Prepare an Environmental Impact Statement (NOI), internal scoping, and through coordination with the Sage Grouse Task Force. The purpose of proposed changes are to improve the clarity, efficiency, and implementation of greater sage-grouse plans, including better alignment with Bureau of Land Management (BLM) and state plans, in order to benefit greater sage-grouse conservation on the landscape scale.

There are several categories of proposed changes, which vary by state, and include:

- Streamlining plans in accordance with BLM plans and Forest Service (FS) policy
- Eliminating subset of priority habitat management areas (PHMA) known as sagebrush focal areas
- Editing to correct minor clerical errors, for clarity, and to reduce redundancy
- Creating clarifying stipulations for when habitat disturbing activities are allowed
- Clarifying the current process of making the exceptions for minerals development
- Modifying mapped habitat management areas, and clarifying their purpose and use
- Modifying livestock management guidelines by replacing specific grass-height requirements with standardized use of the habitat assessment framework
- Stressing treatment of invasive plants in PHMAs
- Modifying the adaptive management framework to align the FS framework with BLM and state-based adaptive management systems
- Focusing protections for greater sage-grouse in order to better incentivize habitat disturbance to areas outside of PHMAs
- Modifying the compensatory mitigation framework, including the use of no net loss or net conservation gain elements, in order to promote landscape-scale effectiveness by aligning the FS framework with BLM and state-based compensatory mitigation systems

Cooperating agency meetings. Preliminary meetings are ongoing in several states to provide an opportunity to discuss specific proposed actions and to make adjustments prior to the release of the NOI. There will be additional opportunities to provide input on proposed plan changes for cooperating agencies, the public, and other partners during the NOI and draft EIS comment periods.

Plan Amendments –NEPA Timelines

The Forest Service plans to complete one multi-region EIS. At this time, it is likely that the Records of Decision will occur on a state by state basis. The timeline to complete the proposed GRSG plan amendments includes the publication of a NOI on or about June 21 (30 day comment period), a draft EIS for public comment in late August (90 day comment period), a final EIS and draft RODS in January, 2019 (60 day objection period), and then signing of the RODs approving the plan amendments as early as the end of March 2019 to mid-June 2019 at the latest, depending on the complexity of objections received.

NEVADA ASSOCIATION OF COUNTIES (NACO)

Board of Directors' Meeting
January 19th, 2018, 9:30 a.m.
NACO Office
304 S. Minnesota Street
Carson City, NV 89703

AGENDA

Some NACO Board members may attend via video link or phone from other locations. Items on the agenda may be taken out of order. The NACO Board may combine two or more agenda items for consideration. The NACO Board may remove an item from the agenda or delay discussion relating to an item on the agenda at any time.

Call to Order, Roll Call and Pledge of Allegiance

1. Public Comment. Please Limit Comments to 3 Minutes.

2. Approval of Agenda. **For Possible Action.**

3. Investiture of the 2018 NACO Officers.

4. NACO President's Report.

.

5. NACO Executive Director's Report.

6. Approval of Minutes of the December 15th, 2017 NACO Board of Directors Meeting. **For Possible Action.**

7. Approval of NACO's 2018 Associate Members. **For Possible Action.**

8. Approval of the Appointment of NACO Executive Director Dagny Stapleton to the University of Nevada Cooperative Extension Advisory Council. **For Possible Action.**

9. Approval of NACO Resolution 18-01 Recognizing January as National Radon Action Month. **For Possible Action.**

10. Discussion and Presentation Regarding the Opioid Epidemic in Nevada and Options for Counties to Engage in Legal Action Against Opioid Manufacturers, Robert Eglet, Partner, Eglet Prince; Erin Dickinson, Partner, Crueger Dickinson. **For Possible Action.**

11. Presentation from the Nevada Association of County Human Services Administrators, *County Human Services 101*, Edrie LaVoie, Lyon County Human Services Director.

12. Update and Discussion on NACO and NACO Members' Participation in the National Association of Counties 2018 Legislative Conference in Washington D.C., including Meetings and Events Held During the Conference. **For Possible Action.**

13. Discussion Regarding the Ongoing Development of Policies and Programs Governing the use of Drones (Unmanned Aerial Systems), Including the Federal Unmanned Aerial Systems Integration Pilot Program. **For Possible Action.**

Note: The NACO Board of Directors May Interrupt the Open Meeting and Exclude the Public from the Meeting for the Limited Purpose of Receiving the Information and for Deliberation Relative to Agenda Items #14 (b) and (d) below:

14. Update and Possible Action Regarding Public Lands and Natural Resources Issues Including:

AMERICAN OVERSIGHT

a. NACO's Engagement in the Bureau of Land Management's and U.S. Forest Service's Greater Sage Grouse Resource Management Plan Amendments.

b. The Ongoing Lawsuit Filed by the State of Nevada and Nine Nevada Counties Regarding the BLM's and U.S. Forest Service's Greater Sage Grouse Resource Management Plans.

c. Release of the Draft Environmental Impact Statement for the Nevada Test and Training Range Military Land Withdrawal at Nellis Air Force Base.

d. The Center for Biological Diversity's Lawsuit against the U.S. Fish and Wildlife Service Seeking to Vacate their Decision not to List the Bi-State Sage Grouse as an Endangered Species and NACO's Motion to Intervene on behalf of the Service.

15. NACO Committee of the Emeritus Update.

16. National Association of Counties and Western Interstate Region Board Member Updates.

17. NACO Board Member Updates.

18. Public Comment - Please Limit Comments to 3 Minutes

Adjournment.

Members of the public who are disabled and require special accommodations or assistance at the meeting are requested to notify NACO in writing at 304 S. Minnesota Street, Carson City, NV 89703, or by calling (775) 883-7863 at least three working days prior to the meeting.

Members of the public can request copies of the supporting material for the meeting by contacting Amanda Evans at (775) 883-7863. Supporting material will be available at the NACO office and on the NACO website at: www.nvnaco.org

This agenda was posted at the following locations:

AMERICAN OVERSIGHT

NEVADA ASSOCIATION OF COUNTIES (NACO)

Board of Directors' Meeting
December 15th, 2017, 9:30 a.m.

UNADOPTED MINUTES

ATTENDANCE: President Phillips, Vice President Waits, Mineral County Commissioner Tipton, Elko County Commissioner Dahl, Washoe County Commissioner Herman, Lincoln County Commissioner Higbee, Lyon County Commissioner Alt, Humboldt County Commissioner French, Storey County Commissioner McGuffey, Esmeralda County Commissioner Bates, Elko County Commissioner Steninger, Churchill County Commissioner Olsen and NACO Staff: (Dagny Stapleton, Amanda Evans and Tori Sundheim)

REMOTE ATTENDANCE: President Elect Weekly, Clark County Commissioner Kirkpatrick and White Pine County Commissioner Perea

OTHER ATTENDANCE: Christopher Robinson, DETR; Dr. Ivory Lyles, University of Nevada Cooperative Extension and Lee Bonner, NDOT

The meeting was called to order by President Phillips at 9:31am.

1. **Public Comment**. None was given.

2. **Approval of Agenda**. The agenda was approved on a motion by Commissioner Tipton with second by Commissioner Bates.

3. **NACO President's Report**. President Phillips thanked President Elect Weekly for conducting the November meeting in his absence.

.

4. **NACO Executive Director's Report**. Dagny informed the Board that the Commission on Aging is looking for a county representative and that any Commissioners interested in serving should apply for appointment directly; additional information was included in the meeting materials. She welcomed Elko County Commissioner Steninger to the Board and noted that Commissioner Dahl will still serve on the Board as a WIR Representative as outlined in the By-Laws. She reminded the Board that the counties that have NACO Officers and representatives on the NACo and WIR Boards have an automatic appointment to the NACO Board and so they could also have an additional commissioner from their counties serve on NACO. Dagny informed the Board that the NACo Legislative Conference will take place at the beginning of March in Washington D.C. She informed the Board that staff is following the interim legislative committees and the development and adoption of the regulations associated with bills approved during the 2017 session. Staff is currently working to review and weigh in on regulations associated with the implementation of recreational marijuana and renewable energy tax abatements. Amanda informed the Board of issues associated with the "end of life" status of the NACO office's current telephone system and explained that a new system has been purchased and should be functional in January. In the meantime she asked the Board to contact staff via email or cell.

5. **Approval of Minutes of the November 17, 2017 NACO Board of Directors Meeting**. The minutes were approved on a motion by Commissioner Tipton with second by Commissioner Bates.

6. **Discussion and Approval of NACO's 2018 Budget**. Dagny reminded the Board that the draft budget was presented and discussed at the November Board meeting. She provided an answer to the question posed by Commissioner Thaler at that meeting, that any bonus pay approved would not accrue retirement benefits. The budget was approved on a motion by Commissioner Tipton with second by Commissioner French.

AMERICAN OVERSIGHT

7. **Introduction and Update from the Director of the University of Nevada Cooperative Extension, and CABNR Associate Dean for Engagement, Ivory Lyles**. Dr. Lyles distributed Cooperative Extension's Annual Report to the Board and asked that the Board call him at any time with any questions. Dr. Lyles spoke about his background and career prior to coming to Nevada. He stated that one of his top priorities is to enhance and improve communications with NACO and the individual counties and Commissioners. He informed the Board that within the next three months the Cooperative Extension Advisory Council and that Commissioner Kirkpatrick and Dagny have already been asked to serve on the Council. He informed the Board that he had met with President Johnson regarding the proposed budget enhancement and the 2019 legislative process and noted that the President asked him to relay that he intends to deliver on this promise to budget an increase in funding for Extension. He said that that proposed enhancement will go before the Board of Regents at their April meeting for approval. He also spoke about Extension programming and the institution of a small business development program in southern Nevada; he said that MOUs had already been signed with the program partners. Commissioner Kirkpatrick inquired as to his ability to give both her and Commissioner Weekly the information on the program he had just spoken of and Dr. Lyles promised to reach out immediately. Commissioner French noted that during the interview process Dr. Lyles had noted that he would be an advocate for the 4-H program and inquired as to what was being done to support the program in the rural communities. Dr. Lyles informed the Board that this was a priority for him and that he is in the process of reviewing the program. He said that staff has been instructed to provide two white papers regarding the program, one specific to individual county staff and one specific to the programs and structure of each county program. He said that his goals regarding 4-H are the reinstitution of individual county advisory committees, concentration on STEM programs and the enhancement of the camp facility to include a conference center. Commissioner Alt noted the need to educate on public lands issues and Commissioner Herman noted that while STEM programs are important to the urban areas it is vital to maintain agriculture programs in the 4-H and Extension programs. Commissioner Kirkpatrick stated the agriculture programs are just as important to Clark County as they are in the rural communities, specifically noting that existing programs in Clark County have implemented community gardens in 113 schools in cooperation with non-profit groups and that 4-H programs have helped educate kids about healthy eating and where their food comes from. President Elect Weekly thanked Commissioner Kirkpatrick for putting that information on the record and reiterated that Extension was another program that brought the urban and rural areas of the state together.

8. **Discussion Regarding the Opioid Epidemic in Nevada and Options for Counties to Engage in Legal Action Against Opioid Manufacturers**. Dagny informed the Board that the item had been placed on the agenda because of discussion regarding the potential for counties to file suits to recover damages for the costs associated with the opioid epidemic. She noted that NACo has been engaged in the issue and has a task force dedicated to the situation. Information included in the agenda packet described actions that counties across the country had taken and included a link to a Nevada database with county specific information on impacts from the epidemic. She noted that Nevada is one of the most affected states in terms of deaths from Opioids, and that in Lyon County in 2015, for example 1200 prescriptions had been written for every 1,000 citizens. She explained that she had been informed that law firms had been reaching out to some of the counties and that Clark County had recently voted to engage with a Nevada firm with experience in national class action suits to represent them in a lawsuit against the opioid manufacturers. Lawsuits like this are paid for on a contingency basis so that counties do not pay any legal fees for the representation. She went on the explain that the AG is working on this issue as well and is part of a group of over 40 state AG's that conducted an investigation into the actions of the pharmaceutical companies and have already entered into settlement talks. She shared that a group from NACO had a meeting with the AG's office to gather information about the State's efforts. The group learned that the damages the state is claiming are somewhat different than those that counties can show, and that the AG's intent is to share any settlement funds with counties; however, any funds received by the state would also have to go before the Legislature for disbursement. Commissioner Kirkpatrick noted that Clark County made the decision they did because they felt that the county needed the ability to plan ahead for long term local needs and have the ability to direct the funds received. Vice President Waits noted that a large focus of the NACo Legislative Conference will be on the epidemic. Commissioner French inquired as to other counties who had been approached by law firms and it was noted that Washoe and Elko Counties had been contacted. Commissioner Higbee inquired as to the need to sue vs. asking the pharmaceutical companies to assist in rectifying the problem. Commissioner Kirkpatrick informed the Board that the

AMERICAN OVERSIGHT

legislature had begun working on the issue in 2013 but they received pushback from doctors and pharmacies. Commissioner McGuffey inquired as to if there is a number on non-problem usage. Commissioner Kirkpatrick noted that the focus has been and needs to be on problem usage and how prescriptions are written. Commissioner Olsen noted that there is evidence in Churchill County that 85-90% of the jail population is addicted to some form of substance and 2X as many women are jailed than 20 years ago. Commissioner French noted that he had attended the meeting with the AG's office and following the meeting he asked the 6th judicial drug court for the impacts to Humboldt County. He was told that 90% of those in the drug court system started with prescription Opioids or marijuana and then progressed to Heroin. He also noted that there are significant impacts to the cost of county services caused by the epidemic. Commissioner Tipton also noted that the Mineral County Sheriff has informed her that 50% of returning inmates have mental health issues and have addiction issues. Dagny informed the Board that some of the counties that have settled hadn't gone to court as the companies had come to the table to discuss settlement after the cases were filed. She also suggested that rural counties have their DA's take a look at the issue if there was interest. Staff was directed to inquire whether Clark County's firm would be willing to come speak to the Board and to bring additional information back to the Board at the next meeting. No action was taken beyond the direction to staff.

9. **Presentation from the Department of Employment, Training, and Rehabilitation on State Economic Data Available to Counties, Christopher Robison, Supervising Economist**. Christopher Robinson gave the Board a high level overview on the data specific to and available to counties through the Department. Resources available include publications, presentations, trainings, online job ads and career resources as well all individual county profiles and projections. Mr. Robinson informed the Board that a business directory is being developed that will show businesses operating in the counties via several different factors and encouraged the Commissioners to reach out to the Department with any questions or to request publications or trainings. Commissioner French inquired about statistics regarding labor participation and Mr. Robinson noted that they are working in partnership with the Census Bureau on those numbers and why people are not participating in the labor market. He noted that those results would be based on survey results and the answers given by participants.

10. **Presentation and Discussion on the Coalition Against Bigger Trucks Initiative, Pam Mann**. Ms. Mann gave a presentation on the Coalition's request for support to limit the size of semi-truck and trailer combinations on federal highways. Her presentation included information on crash statistics, bridge stress, pavement damage, and service violations. She requested the Association support the initiative. Paul Enos of the Nevada Trucking Association noted that Nevada law already exceeds the parameters set forth in the Coalition's proposal. He noted that dynamics are different for small carriers vs. those that affect national highways. He requested that the Association take no action on the item. Commissioner Dahl asked how Nevada compared to Arizona and Mr. Enos stated that Arizona does not have longer combination vehicles other than a small stretch of I-15 between Nevada and Utah that required Congressional action in 2016 to allow the combination vehicles. Commissioner Olsen noted that requiring smaller trucks will drive costs up for small producers and result in higher consumer prices. He also noted that the drivers in the larger vehicles with multiple trailers are veteran drivers. Commissioner French took issue with the mandatory language of the federal proposal, and Ms. Mann noted that all state DOT's have the ability to allow larger truck/trailer combinations as needed and reiterated effects on local roads. The Board voted to take no action on a motion by Commissioner Alt with second by Commissioner Herman.

11. **Update and Possible Action Regarding Public Lands and Natural Resources Issues Including:**

    a. **NACO's Engagement in the Bureau of Land Management's and U.S. Forest Service's Greater Sage Grouse Resource Management Plan Amendments.** Tori informed the Board that BLM Scoping Comments had been submitted on the 1st and that she is collecting comments submitted by others. She noted that the Forest Service is on a different schedule and the those Scoping Comments will be submitted on January 5th. She informed the Board that she will be adjusting the comments submitted to the BLM to the requirements and of the Forest Service. She requested the Commissioners to contact her with any questions or additional information on the comments and/or how participation would look going forward in the process.

AMERICAN OVERSIGHT

b. **The Ongoing Lawsuit Filed by the State of Nevada and Nine Nevada Counties Regarding the BLM's and U.S. Forest Service's Greater Sage Grouse Resource Management Plans.** Tori informed the Board that there are upcoming meetings on the issue and additional information would be provided at a future meeting.

c. **Comments on the U.S. Fish and Wildlife Service's Proposed Mitigation Policy Revisions.** Tori noted that the Service has been ordered to rewrite their policies finalized in 2016 by Executive Order and that Comments had been submitted at that time. She referenced the submitted comments included in the agenda back up, noting that she would be conducting a review of the order and the comments prior to the Jan 5th submission date and she was instructed to submit the comments as written, or have any changes reviewed by the Public Lands Committee prior to submission, on a motion by Commissioner Tipton with second by Commissioner French.

d. **Cooperating Agency Status for the U.S. Forest Service's Upcoming Noxious Weed Management Plan.** Commissioner Tipton informed the Board that the Public Lands Committee recommends that each county have their own Cooperating Agency Status and name the Association and Tori as a point of contact. Staff was also directed to apply for Cooperating Agency Status as an Association on a motion by Commissioner French with second by Commissioner Tipton.

e. **The Center for Biological Diversity's Lawsuit against the U.S. Fish and Wildlife Service Seeking to Vacate their Decision not to List the Bi-State Sage Grouse as an Endangered Species and NACO's Motion to Intervene on behalf of the Service.** Tori reminded the Board that the reply brief was submitted previously and informed them that a reply is expected the same day. She noted that the reply will be due February 6th and that the hearing will be on March 16th at 9:30am in San Francisco.

12. **National Association of Counties and Western Interstate Region Board Member Updates**. Commissioner Tipton informed the Board that she had attended the winter meeting in Texas the previous week and that she brought materials back for the group. She noted that the winter meeting is more of a housekeeping meeting and that a lot of workshops centered around President Brooks' initiative on childhood poverty. She also noted that she attended the WGA meeting in Arizona. Commissioner Dahl reiterated the report he had previously given on the last WIR meeting and that fire will still be the number one issue of the WIR Board for the year.

13. **NACO Board Member Updates**. Updates were given by members of the Board.

14. **Public Comment**. None was given.

The meeting was adjourned at 1:55pm

Nevada Association of Counties (NACO)
Resolution 18-01

Resolution in Support of National Radon Action Month

WHEREAS, many Nevada residents don't know about radon, yet need to know, for the safety and health of their families, as radon is a colorless, odorless, naturally occurring radioactive gas that is the primary cause of lung cancer among nonsmokers; the second leading cause of lung cancer in smokers and

WHEREAS, the U.S. EPA estimates 21,000 people in the U.S. die each year from lung cancer caused by indoor radon exposure, and lung and bronchus cancer kill more people in a year than any other cancer; and

WHEREAS, radon kills more people than secondhand smoke, drunk driving, choking, drowning or home fires; and

WHEREAS, any home in Nevada may have elevated levels of radon, even if neighboring homes do not, and living in a home with an average radon level of 4 picocuries per liter of air poses a similar risk of developing lung cancer as smoking half a pack of cigarettes a day; and

WHEREAS, testing is the only way to know if a home has an elevated radon level, and testing is easy and inexpensive, and when identified, homes can be fixed; and

WHEREAS, University of Nevada Cooperative Extension, the Nevada Division of Public and Behavioral Health, and the U.S. Environmental Protection Agency support efforts to encourage all Nevada residents to test their homes for radon, mitigate elevated levels of radon, and have new homes built with radon-reducing materials and features.

NOW, THEREFORE, **we, the Nevada Association of Counties,** do hereby proclaim January 2018, as **"NATIONAL RADON ACTION MONTH" In all Nevada counties**

PASSED, APPROVED AND ADOPTED this 19th day of January, 2018 by the Board of Directors of the Nevada Association of Counties.

RE: Scoping Comments on Notice of Intent to Amend Land Use Plans Regarding Greater Sage-Grouse Conservation and Prepare Associated Environmental Impact Statements or Environmental Assessments. 82 Fed. Reg. 55346 (Nov. 21, 2017).

Dear Mr. Shivik,

As the state association for all 17 of Nevada's counties, the Nevada Association of Counties ("NACO") greatly appreciates the opportunity to provide scoping comments for the U.S. Forest Service's Notice of Intent to Amend Land Management Plans for Greater Sage-Grouse Conservation 82 Fed. Reg. 55346 (Nov. 21, 2017)[1]. This scoping letter is timely submitted, within the 45-day scoping period beginning on November 21, 2017 and ending January 5, 2018.

[1] This letter also applies to the Bureau of Land Management's parallel efforts, published at 82 Fed. Reg. 47248 (Oct. 11, 2017).

AMERICAN OVERSIGHT

A plan amendment is required for the State of Nevada. The Court Order described in the Notice of Intent is a result of a lawsuit filed by nine of NACO's member counties, Humboldt, Eureka, Elko, White Pine, Lincoln, Washoe, Pershing, Churchill, and Lander Counties.[2] The Court Order requires that the USFS prepare a Plan Amendment for sage-grouse plans in Nevada.[3]

In addition to the issues outlined by Court Order, Nevada Counties request that, due to new information and circumstances, the USFS also include the additional issues outlined below in the plan amendment. A Supplemental EIS, or plan amendment, must be prepared by an agency when "(1) changes to the proposed action would result in significant environmental impacts that were not evaluated in the EIS; or (2) new information or circumstances relevant to environmental concerns and bearing on the proposed action or its impacts would result in significant environmental impacts not evaluated in the EIS."[4] To determine whether these two factors are present, the Agency must apply "a 'rule of reason,' if there remains major federal action to occur, and if the new information is sufficient to show that the remaining action will affect the quality of the human environment in a significant manner or to a significant extent not already considered."[5] This "rule of reason" is applied the same way the decision whether to create an EIS is applied.[6] Significant new information has been discovered and circumstances have been identified since the final Record of Decision was signed in September 2015.

State-specific plan amendments are imperative to achieve the goal of sage-grouse conservation, as each state's geography, governmental capacity, and wildlife management plans and programs are different. The 2011 Fish and Wildlife Service Settlement Agreements resulted in an accelerated listing schedule for the greater sage-grouse, which resulted in an equally accelerated land use plan decision-making process that does not incorporate local stakeholder input.

NACO engaged throughout the Greater Sage-Grouse Plan Amendment Process finalized in 2015 at 80 Fed. Reg. 57633 (Sept. 24, 2015), and the recently cancelled Sagebrush Focal Area Mineral Withdrawal at 82 Fed. Reg. 47248 (Oct. 11, 2017). The information provided by NACO and its member counties during those NEPA processes are hereby incorporated by reference.

Issues to be Addressed

NACO has identified the following issues that should be addressed in the SEIS through this plan amendment process:

1. Sagebrush Focal Area removal or adjustment.

---

[2] These comments are made in good faith with the aim to provide collaborative, thoughtful and substantive information to help inform decision-making on this important issue. This engagement does not waive any of the rights of NACO's nine member counties in the ongoing litigation *W. Expl., LLC v. United States DOI*, 250 F. Supp. 3d 718 (D. Nev. 2017).

[3] The Notice of Intent states that the Sagebrush Focal Areas (SFAs) are the only reason an SEIS was needed. However, the Court granted standing to Eureka County, determining that non-SFA mapping over the town of Eureka created a harm to the county. This means that all of the mapping is included in the Court Order, not just SFAs.

AMERICAN OVERSIGHT

2. Address Habitat Objectives to reflect reality and true ecological potential (based on Ecological Site Descriptions and associated State and Transition Models).
3. Eliminate the net conservation gain requirement because net conservation gain is premised on the previous administration's landscape-scale land use planning and mitigation policies, which the Trump administration has revoked, and implement site-specific mitigation requirements based on site-specific data on habitat conditions.
4. Address erroneous and inflexible use of landscape-scale mapping, require improved site-specific habitat mapping, and base management actions on field-verified habitat data. Consider eliminating the landscape-scale maps and instead require site-specific, field-verified habitat data for project level decision-making and any mitigation requirements.
5. Include an actual socioeconomic analysis of proposed restrictions and management actions to be adopted – which was missing from the last land use plan amendment EIS, despite the fact that NACO and its member counties provided extensive socioeconomic information during the NEPA process. The SEIS should include the socioeconomic information prepared for the proposed Sagebrush Focal Areas ("SFAs") mineral withdrawal.
6. Address the need for a consistent mitigation framework.
7. Develop clear adaptive management processes that work and provide flexibility for all land uses if they are creating the proper results on the ground (results based management).
8. Provide interim relief through policy guidance wherever appropriate.

It is essential that the SEIS evaluate the specific habitat and socioeconomic conditions in the Nevada/Northeastern California planning area, which differ from other planning areas and other states.

Examples of Impacts to Counties from the Current Land Use Plan

This section is meant to illustrate many of the harms counties in Nevada are experiencing as a result of the current land use plan to help frame the purpose and need. Nevada counties that contain greater sage-grouse habitat are directly impacted by the current sage-grouse plans. Counties on the periphery are impacted indirectly or could be subject to management actions in the future should conditions change.

Public lands are inextricably tied to the economy and culture in Nevada—and the National Forest Management Act and the National Environmental Policy Act both acknowledge this fact and require that the USFS work closely with state and local governments to ensure consistent planning and avoid wasteful governance. In interpreting these two key laws, the Ninth Circuit has held that a county has a proprietary interest in its ability to enforce land-use regulations, revenue collection and taxation, and in protecting natural resources from harm.[7] So too, did Secretarial Order 3353 recognize these important responsibilities. The Court in the Nevada sage-grouse litigation

Expl., LLC v. United States DOI*, 250 F. Supp. 3d 718, 732 (D. Nev. 2017).

AMERICAN OVERSIGHT

recognized the harm of the land use plan amendments to the counties' land use planning, road maintenance and environmental plan implementation.[8]

The current land use plans are not coordinated with adopted state and local government plans, policies, and efforts, and do not incorporate local stakeholder input. This concern was expressed unanimously by the State and local governments across Nevada [throughout and following the land use planning process]. NACO requests that the USFS strive for coordination and consistency with the plans adopted by Nevada's counties in the SEIS and plan amendment, as required under NFMA,[9] adequately explain inconsistencies among the plans as required under NEPA,[10] and explain the extent to which it will reconcile its proposed action with county plans.[11] The USFS failed to complete the analysis necessary to implement State and local plans, policies, and proposals for conservation of USFS in Nevada. The USFS analysis failed to determine that our State and local plans, policies, and proposals would not benefit and conserve GSG and habitat in Nevada. Consistency review and local stakeholder engagement is crucial if the USFS is to produce a final product that balances national and local needs and effectively protects sage grouse habitat.

Improper Mapping: Community Development and Land Tenure

Improper mapping and inflexibility has already caused undue interference with community development and removal of lands identified for disposal by designating towns, homes, roads, landfills, and structures as high value habitat.[12] The following examples of improper mapping were immediately apparent, even though they do not all apply to USFS land:

---

[8] *W. Expl., LLC v. United States DOI*, 250 F. Supp. 3d 718, 732 (D. Nev. 2017).

[9] 16 U.S.C.S. § 1604 requires the Secretary to develop a federal plan that is coordinated with the land and resource management planning processes of State and local governments..."

[10] NEPA regulations highlight in 40 CPR 1502.16 that the environmental consequences section of any EIS "shall include discussions of: (c) Possible conflicts between the proposed action and the objectives of Federal, regional, State, and local (and in the case of a reservation, Indian tribe) land use plans, policies and controls for the area concerned. (See §1506.2(d).)."

[11] 40 CPR 1506.2 states that "(c) Agencies shall cooperate with State and local agencies to the fullest extent possible to reduce duplication between NEPA and comparable State and local requirements, unless the agencies are specifically barred from doing so by some other law ...(d) To better integrate environmental impact statements into State or local planning processes, statements shall discuss any inconsistency of a proposed action with any approved State or local plan and laws (whether or not federally sanctioned). Where an inconsistency exists, the statement should describe the extent to which the agency would reconcile its proposed action with the plan or law."

[12] "...the Plan Amendments incorrectly designated the town of Eureka, US Highway 50, State Route 278, County landfill, power lines, multiple subdivisions of homes, farms with alfalfa field and irrigations systems, and hay barns, as PHMA. (*Id.*) Because there are explicit land use restrictions for PHMA, the effect of having a town and other landmarks designated as PHMA obviously will affect county land use and planning....The Court finds the evidence offered through Mr. Goicoechea's declarations sufficient to demonstrate that the Plan Amendments have injured the County's proprietary interests in maintaining its roads and utility programs, as well as protecting the local environment." *W. Expl., LLC v. United States DOI*, 250 F. Supp. 3d 718, 735 (D. Nev. 2017)

AMERICAN OVERSIGHT

- The Washoe County School District had evaluated eighty acres of public lands for a future middle school site adjacent to a large residential community. The final map classified this land as PHMA or sage-grouse habitat.
- Humboldt County's current landfill footprint will require expansion to meet growth predictions within the next 10-15 years. The landfill and county shooting gallery is entirely surrounded by federal lands, which have been marked as PHMA in the final habitat map.
- In White Pine County, a 30-by-100 foot site was needed by the Baker Water District to replace a leaking water tank which provides drinking water to its residents. The final map classified this land as PHMA or sage-grouse habitat.
- In Eureka County, the Town of Eureka was classified as PHMA habitat.
- Areas identified for disposal to implement Congressional Acts have been removed from Land Tenure Maps.
- Improper habitat delineations in the Plan Amendments have compromised county water plans that are in advanced stages for Diamond Valley, where two-thirds of the County's residents reside.

Many of these examples had simply been improperly mapped as habitat and could be easily corrected, especially if local land use planning and needs are taken into account. Most of these conflicts remain and there are many yet to surface, including those outlined by individual county scoping comments. Rather than adopting one erroneous landscape-scale map that requires an amendment to substantially modify, NACO requests that the USFS consider not adopting any such restrictive map or perhaps, if some map is deemed necessary, using habitat zones in a manner similar to that which it has done to protect other species – with absolute clarity that such maps shall be subject to ground truthing and site-specific data relative to decision-making. This alternative has allowed the USFS to utilize ground-truthing for increased mapping and zoning flexibility, rather than try to apply a one-size-fits-all mapping approach to a highly dynamic biological and physical system. The USFS should reconsider this approach – especially in light of the decision to repeal President Obama's November 3, 2015 Presidential Memorandum, "Mitigating Impacts on Natural Resources from Development and Encouraging Related Private Investment," including its landscape-scale land use planning policies. The requirement to use site-specific habitat data rather than the landscape scale maps in making land use decisions should be considered in both interim guidance and in the SEIS/plan amendment.

Even if these examples are within de-facto sage-grouse habitat, it is our position that the USFS should have the flexibility to make some tradeoffs—especially where critical county functions are involved. In a state like Nevada, where 85 percent of the lands are public, a "net gain" as applied to land disposals is unworkable.[13] Nevada's State and private lands are mostly small and dispersed—when more land is needed it is because there is nowhere else to grow.

[13] For example, the Court illustrates "Under the BLM Plan, a 3 percent human disturbance cap immediately applies to lands classified as PHMA. (NV 90678 — NV 90679.) Thus, the USFS Plan essentially requires Washoe to go through

AMERICAN OVERSIGHT

The land use plans also remove from tenure land identified as necessary to carry out established community growth plans and Congressional Land Acts. For example, the Bureau of Land Management's land tenure maps show as off limits those lands that were mutually identified over several years as the best lands available to carry out Land Acts like the Lincoln County (Lincoln County Conservation, Recreation and Development Act) and White Pine County Land Acts (White Pine County Conservation, Recreation, and Development Act). This creates internal confusion and undermines years of negotiation and relationship-building with the Forest Service and BLM.

Travel Restrictions

The Injuries to NACO's member counties and their residents as a result of the travel restrictions include: (1) ranches, hunters, recreationists, and exploration geologists will be prohibited from road-access to county lands and cross-country travel; (2) the seasonal and daily travel restrictions as well as proposed road closures may impede or even eliminate access to adjacent private land sections and deprive landowners of access to their private property; and (3) road closures interfere with the County's obligation to maintain their roads and provide for public safety.

Following the litigation, travel restrictions in the land use plan remain problematic because there are conflicts with existing county roads that do not have an underlying USFS authorization. The USFS must consider these issues and properly analyze proposed restrictions to avoid creating adverse impacts. Valid existing rights cannot be impacted under the express provisions of the ROD but questions arise around un-adjudicated ROWs (RS 2477).

Further, the inflexibility of timing restrictions on use of roads within a certain distance of leks or habitat creates unnecessary harms (especially combined with the erroneous mapping). There are not even options for net conservation gain/mitigation in the land use plan for timing restrictions. The inability to access materials needed for road repairs during this time will leave damage to washouts, drainage crossing, culverts and cattleguards, making the roads unsafe as the roads in the area are heavily traveled and the counties often need gravel material during the prohibited months. The travel restrictions also limit the counties' ability to access weed-infested roads in the springtime for their noxious and invasive weed treatment programs.

Wildfire

The three primary threats to the sage-grouse as identified in the Service's 2010 findings are "the widespread present and potential impacts of wildfire, the loss of native habitat to invasive species, and conifer encroachment." Yet the existing Plan's Habitat Objectives (Table 1. Seasonal

---

the additional burden of showing that the disposal of the lands that the County seeks would provide a net conservation gain to the sage-grouse or that disposal of the lands would not have any direct or indirect adverse impact on conservation of the sage-grouse. (*See* NV 90707.)." *W. Expl., LLC v. United States DOI*, 250 F. Supp. 3d 718, 737 (D. Nev. 2017)

AMERICAN OVERSIGHT

Habitat Desired Conditions for Greater Sage-grouse at the Landscape Scale) have created a perverse incentive that has increased, rather than reduced, the occurrence of wildfire and invasive species because it allows for fuel loading and continual spread of invasive species. The changes that reduced livestock grazing and other multiple uses on federally-managed public lands that have led to habitat decadence and overgrowth ultimately leading to catastrophic wildland fires that have destroyed millions of acres of wildlife and wildlife habitat including the greater sage-grouse and its habitat.

In 2017, 933,751 greater sage-grouse habitat acres were burned in Nevada. (See Sagebrush Ecosystem Council Meeting September 14, 2017; acreage as of September 8, 2017).[14] The concern that this would occur was expressed several times by counties and livestock operators but were ignored during the public comment period of both the USFS and BLM's 2015 sage-grouse plans. This was discussed in great detail during sage-grouse litigation hearings. Other tools that have proven useful for fire management have also been restricted, including prescribed fire and targeted grazing.[15]

The current land use plan fails to recognize that managed livestock grazing represents an important and cost-effective tool to achieve desired habitat conditions and to reduce wildfires. The livestock grazing restrictions in the land use plan have caused environmental harm in Nevada (and a nuisance and trespass) because they have increased the volume of highly flammable non-native invasive annual grasses and led to more wildfires. The increased fuels that result from the economically burdensome and technically ill-advised livestock grazing restrictions in the current land use plan place a burden upon county fire districts and result in destruction of critical GSG habitat.

Wild Horse and Burros

The one species on federal land that State and local governments do not manage is Wild Horses and Burros, or "Free-Roaming Equids" as discussed in the Fish and Wildlife Service's 2013 "Greater Sage-Grouse (*Centrocercus urophasianus*) Conservation Objectives Final Report" (COT Report).[16] The failure to adequately address free-roaming equids was identified by the FWS as a high threat to the sage-grouse across every population unit in the Great Basin Region in Nevada. According to the COT Report, this threat is more widespread than mining, energy, or urbanization.[17] The failure to address the overpopulation of wild horses and burros has caused irreparable damage to the range, sage-grouse habitat, and damage to counties' ability to protect natural resources from harm.

Grazing Restrictions

---

[14] 716,455 Bureau of Land Management acres; 22,990 Bureau of Indian Affairs acres; 3,831 Forest Service Acres; 190,157 Private Land acres; 319 Other Federal Land acres.

[15] USFS ROD GRSG-FM-ST-042 at 83.

[16] "Greater Sage-Grouse (*Centrocercus urophasianus*) Conservation Objectives Final Report," U.S. Fish and Wildlife Service (February 2013), (COT Report).

[17] COT Report at 16 (Table 2. Sage-grouse quasi-extinction risk (from Garton et al. 2011), and threats, by management zone and population.

AMERICAN OVERSIGHT

Under current sage-grouse plans, the USFS has moved forward with allotment reductions without first reducing horse and burro populations to AML and without working with livestock operators to use grazing as a tool to improve sage-grouse habitat and reduce wildfires. To move forward with allotment reductions without first assessing other key threats within the USFS's control constitutes a significant harm to counties' local economies and community culture.

Avian Predation

Likewise, NACO requests that the USFS adequately consider information it has submitted regarding nest and youngling greater sage-grouse predation as a significant cause to loss of populations in the west and the need for management practices to reduce predation. NACO's member counties have submitted substantial information and data to the USFS from researchers who consider predation to be the primary limiting factor for the GSG populations, with avian predators cited as the primary predators in Nevada.

New scientific information

New science and information has become available and new issues have been identified since the BLM and USFS RODs were signed in 2015, especially with respect to socioeconomic impacts, impacts to county infrastructure, planning and conservation efforts, mining impacts to greater sage-grouse habitat, grazing guidelines, wildfire management tools, sage-grouse life-cycle and habitat needs, wild horse and burro population impacts, and new developments in the State Plan, among others.

Mineral Potential Report and Mining Impacts

NACO's scoping comments for the Sagebrush Focal Area EIS discusses in detail the various reasons why the science does not support the SFA boundaries.

During the EIS process, USGS developed a significant new Mineral Potential Report that should be used in determining the extent of potential impacts to sage-grouse.[18] Significantly, the Report showed that in Nevada, the reasonably foreseeable mineral development amounts to only 3,326 acres of disturbance compared to the 2,766,939 acres of SFA boundaries in Nevada. These numbers reflected an even lesser impact to the sage-grouse than what the U.S. Fish and Wildlife anticipated when it stated in its October 2, 2015 decision, "Overall, the extent of [mining] projects directly affects less than 0.1 percent of the sage-grouse occupied range. Although direct and indirect effects may disturb local populations, ongoing mining operations do not affect the sage-grouse range wide."[19] Significantly, the Agency could not calculate the impact to the sage-grouse, and the Service's

[18] Day, W.C., Frost, T.P., Hammarstrom, J.M., and Zientek, M.L., eds., 2016, Mineral Resources of the Sagebrush Focal Areas of Idaho, Montana, Nevada, Oregon, Utah, and Wyoming: U.S. Geological Survey Scientific Investigations Report 2016–5089, http://dx.doi.org/10.3133/sir20165089.
[19] 80 Fed. Reg. 59858 (Oct. 2, 2015).

AMERICAN OVERSIGHT

threats analysis from its COT Report, reflected in Table 1-2 in the BLM ROD, shows that mining poses only localized threats in four of the six Population Units found in Nevada.

Socioeconomic Data

The USFS has yet to produce any quantitative analysis outside of the mineral withdrawal process. This means there is no current data that analyzes over 20.4 million acres worth of restrictions in Nevada. The socioeconomic devastation to local economies in the land use plan includes excessive regulation and restrictions including but not limited to; nesting and lek buffers as much as 11.2 miles, seasonal restrictions and land use withdrawals that will serve severe negative impacts to local and regional cultures and economies. These actions alone will restrict or terminate natural resource uses such as utility transportation, livestock operations, mineral extraction, wind energy, oil and gas development and solar energy additionally serving negative impacts to exploration and recreational uses. The USFS must fully consider the severe socioeconomic impact of the SFA, PHMA, and GHMA designations in the faulty landscape-scale habitat maps in the EIS and USFS ROD — information which has been provided to the USFS on numerous occasions[20] —rather than claim that the impact could not be quantified.

Significant new socioeconomic data was produced as a result of the SFA Withdrawal process. The SFA Withdrawal alone, which covers only a piece, 2,767,552 acres, of the sage-grouse restrictions from the 2015 land use plan amendments, would eliminate *at a minimum* 1,705 jobs and $694 million dollars of annual tax revenue in Nevada alone.[21] Over a period of 20 years, the total economic impact to the State of Nevada is $13.88 billion. Additionally, there would be $117 million lost in annual labor earnings in Nevada, or a $2.34 billion loss of labor earnings and the associated economic and tax benefits to the counties over a 20-year period.[22] This lack of information prevents the USFS from making a truly informed decision about the tradeoffs involved given alternative management actions and is certain to harm counties into the foreseeable future.

The numbers articulated above may still grossly under-represent the economic impacts to Nevada exclusive to mining, as they did not include projected employment, lithium, corporate headquarters located in Washoe County, or the "substantial amounts of tax revenue from sales, use, and property tax" to the counties and the State.[23] The DEIS also did not address the fact the demand for the withdrawn minerals or for Lithium is projected to increase.

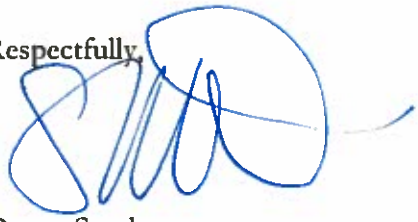
---

[20] For example, grazing restrictions will result in an annual loss to Elko County of $31 million of agricultural productivity and the wind energy restrictions will cost the county over $500 million. Livestock grazing restrictions will cost Eureka County $7 to $15 million annually.

[21] $845 million, 2,031 jobs under No Action Alternative less $151 million, 326 jobs under the Proposed Action. SFA DEIS at xi.

[22] SFA DEIS at xi, $141 million under the No Action Alternative less $24 million under the Proposed Action.

[23] SFA DEIS at 3-79, 4-43 "…does not capture 'forward linkages' that could result from the use of the commodities produced by those mines. In the case of the projected lithium mine in Humboldt County, the forward economic linkages in Nevada related to development of the projected mine could be substantial."



AMERICAN OVERSIGHT

NACO has requested and it is critically important that statewide socioeconomic data is collected and used for this plan amendment process.

Conclusion

Thank you for considering these important issues. If there is any additional information we can provide, or questions we can answer, please do not hesitate to contact myself, or Tori Sundheim, NACO's Public Lands and Natural Resources Coordinator, at Tsundheim@nvnaco.org.

Respectfully,

Dagny Stapleton
Executive Director

LAND WITHDRAWAL PROCESS AND LEGISLATIVE ENVIRONMENTAL IMPACT STATEMENT

Upcoming Public Hearings

A Draft Air Force Land Withdrawal Legislative Environmental Impact Statement (LEIS) has been prepared in accordance with the National Environmental Policy Act (NEPA) and its implementing regulations. The Draft LEIS analyzes the potential environmental consequences of the proposal to extend and potentially expand the existing military range withdrawal. Alternatives evaluated in the LEIS include proposed changes in jurisdiction and management of the NTTR and the potential expansion of withdrawn lands by up to 301,507 acres. The Draft LEIS is issued for a 90-day public and agency review and comment period. Comments on the Draft LEIS will be incorporated into the Final LEIS as required by the regulations implementing NEPA. These comments, in addition to the analysis and other factors, will be considered in the decision-making process regarding this project.

The Air Force will host a series of public hearings to allow members of the public to have an opportunity to provide formal comments on the Draft LEIS. The hearings also serve to provide the public and representatives of organizations that have a demonstrated interest in historic properties an opportunity to comment on the potential impacts of the proposed action as per the requirements of the National Historic Preservation Act. Each public hearing will have the following agenda:

5:30 PM to 6:15 PM	Open house and comment submission
6:15 PM to 7:00 PM	Air Force presentation
7:00 PM to 9:00 PM	Public hearing and oral comments

The hearings will be held at these dates and locations:

Wednesday, January 17, 2018
Caliente Elementary School
289 Lincoln Street
Caliente, Nevada 89008

Thursday, January 18, 2018
Pahranagat Valley High School
151 S. Main Street
Alamo, Nevada 89001

Tuesday, January 23, 2018
Aliante Hotel
7300 Aliante Parkway
North Las Vegas, Nevada 89084

Wednesday, January 24, 2018
Beatty Community Center
100 A Avenue South
Beatty, Nevada 89003

Thursday, January 25, 2018
Tonopah Convention Center
301 Brougher Ave

USDA Accepting Broadband Applications for Community Connect Grants in Unserved Rural Nevada; $30 Million Available Nationwide

CARSON CITY, Nev. – USDA Rural Development Nevada State Director Phil Cowee has announced that the agency is accepting applications for grants to fund broadband infrastructure projects in unserved rural communities with minimal service. An estimated $30 million is available nationwide.

"Broadband and internet access are essential to the economic prosperity of rural communities," Cowee said. "Investing in broadband can help a community address education and public safety issues while improving business enterprise and social services."

USDA is accepting applications through May 14 for the Community Connect program. An Application Guide is available online.

Grants from $100,000 to $3 million are available to eligible state and local governments, cooperatives, private corporation or limited liability company organized on a for-profit or not-for-profit basis, and Indian tribes as defined in 25 U.S.C. 450b. Applicants must be able to provide a 15 percent match on the desired grant amount.

Eligible areas are those with Minimum Broadband Service of less than 10 megabits downstream speed and less than 1 megabits upstream speed for both fixed and mobile broadband services. Awardees must use USDA funding to offer free broadband service to all critical community facilities in their proposed service areas for two years and provide a community center with free broadband service for two years.

The funds must be used to provide broadband service at a minimum rate-of-data transmission of 25 megabits downstream and 3 megabits upstream, which is the speed benchmark that the Federal Communications Commission has officially adopted for broadband connectivity.

In Nevada, the communities of Gabbs and Walker Lake, along with the Fallon Tribe and Washoe Tribe have benefitted from USDA's Community Connect funding. Each was without broadband and developed a community center with internet service; thereby benefiting education, emergency response and community services.

Paper applications can be mailed to:

Deputy Assistant Administrator, Office of Loan Origination and Approval

Rural Utilities Service Telecommunications Program

1400 Independence Ave SW Room 2844, Stop 1597

Washinton, DC 20250-1597

Electronic applications are made through: www.grants.gov.

AMERICAN OVERSIGHT

USDA will be hosting online webinars on the Community Connect grant April 5 and April 10. Please contactdeborah.anderson@wdc.usda.gov or gayle.buckner@wdc.usda.gov or call (202) 720-0800 with any questions about the webinars.

For more details on this grant opportunity, see page 11494 of the March 15 Federal Register (PDF, 247 KB).

USDA is an equal opportunity provider, employer and lender.

AMERICAN OVERSIGHT

NEVADA ASSOCIATION OF COUNTIES (NACO)
Board of Directors' Meeting
March 23rd, 2018, 9:30 a.m.

UNADOPTED MINUTES

ATTENDANCE: President Weekly, President Elect Waits, Vice President French, Washoe County Commissioner Lucey, Mineral County Commissioner Tipton, Carson City Mayor Crowell, Lincoln County Commissioner Higbee, Washoe County Commissioner Hartung, Lyon County Commissioner Hunewill, Pershing County Commissioner Shank, Elko County Commissioner Steninger, Esmeralda County Commissioner Bates, Storey County Commissioner McGuffey, Nye County Commissioner Wichman and NACO Staff (Dagny Stapleton, Vinson Guthreau, Amanda Evans and Tori Sundheim)

REMOTE ATTENDANCE: Churchill County Commissioner Olsen and White Pine County Commissioner Stork

OTHER ATTENDANCE: UNCE Director, Dr. Ivory Lyles; Molly Walt, Nevada Commission on Women and Nevada Department of Taxation Director, Bill Anderson

The meeting was called to order at 9:30 a.m.

1. **Public Comment**. None was given.

2. **Approval of Agenda**. The agenda was approved on a motion by Commissioner Tipton with second by Commissioner Lucey.

3. **NACO President's Report**. President Weekly informed the Board that he was proud of the Association's representation at the National Association of Counties (NACo) Legislative Conference and that he enjoyed getting to know some of the members more. He also noted that he would like to see more variety in the workshops at the NACo conferences. He noted that April's meeting would take place in Clark County and asked the Board to confirm attendance with staff for a potential dinner on Thursday evening hosted by Clark County. President Weekly acknowledged the birthdays of Commissioners Kirkpatrick and Olsen. He also informed the Board that Clark County will be having elementary school students acting as commissioners for a day in celebration of National County Government Month and that he is hosting an event called Serenity Saturday to provide resources and assistance to those suffering from addiction and domestic violence in his district.

4. **NACO Executive Director's Report**. Dagny echoed the President's comments regarding the success of the NACo Legislative Conference and informed the Board that there has been heightened engagement with the Nevada Congressional Delegation as a result of the meetings held in Washington. She announced that the final marijuana regulations had passed included language NACO advocated for that included a distribution of State marijuana revenues to counties. She announced that the distribution would occur in the near future and outlined the distribution formula of the taxes, including $1.5 million to all 17 counties regardless of allowance of marijuana facilitates. Dagny informed the Board that a socioeconomic baseline analysis for each county will be conducted by Cooperative Extension and The UNR College of Business and that Tom Harris and Buddy Borden will be reaching out each county individually to collect information for the project. Dagny referenced information included in the packet on the County Leadership Institute and noted that there are funds reserved in the budget to send one member of the Board. Commissioners Lucey and Hartung both indicated a desire to attend. She announced the publication of individual county health profiles by the State, which can be found on the NACO website. Dagny concluded her remarks by announcing that the Right to Counsel Commission had asked individual counties to come before them and provide presentations on their indigent defense programs.

5. **Approval of Minutes of the February 23, 2018 NACO Board of Directors Meeting**. The minutes were approved on a motion by Commissioner Tipton with second by Commissioner Hartung.

AMERICAN OVERSIGHT

6. **Approval of Additional 2018 NACO Associate Members**. USI Insurance Services National Inc. was approved for Associate Membership on a motion by Commissioner Hartung with second by Commissioner Tipton.

7. **Discussion and Approval of a Rural Appointee to Represent NACO on the Committee on Local Government Finance**. Dagny gave an overview of the Committee and NACO's current appointees: Jessica Colvin from Clark County and Christine Vuletich from Washoe County. With the retirement of Alan Kalt from Churchill County he is no longer able to serve on the Committee and therefore a rural representative needs to be appointed by the Board. Dagny referenced the two applicants whose information was included in the agenda packet, Gina Rackley from Humboldt County and Josh Foli from Lyon County. Commissioner Hartung moved to appoint Ms. Rackley. Commissioner Hunewill spoke in support of Mr. Foli and his experience. Commissioner Hartung informed the Board that he has interacted with Ms. Rackley and that he believes that she would be a good representative for the rural counties. Vice President French also spoke about Ms. Rackley's qualifications and background. The Board appointed Ms. Rackley to the Committee, on the motion by Commissioner Hartung with second by Vice President French.

8. **Introduction of the Recently Appointed Director of the Nevada Department of Taxation, Bill Anderson**. Mr. Anderson introduced the Department's Public Information Officer, Stephanie Klapstein. Mr. Anderson then outlined his experience and qualifications, including 20 years of service to the State, ten of those in the budget office and most recently as the State's Chief Economist for the Department of Employment, Training and Rehabilitation (DETR). He spoke about his desire to maintain a collaborative and successful relationship with NACO and committed to come before the Board as the need arises. Mr. Anderson spoke about the earlier discussion on the distribution of marijuana revenues and confirmed that the distribution would occur soon. President Elect Waits requested clarification on the dual distribution of funds and Mr. Anderson informed the Board that, because the Department had to wait for the final approval of the regulations in order to make the FY18 distribution, that that distribution was delayed and would be paid shortly, but that for FY19 and each year following that the disbursements will occur each November of that fiscal year.

9. **Presentation on the Nevada Commission for Women, Molly Walt**. Ms. Walt reminded the Board that she had spoken during public comment the previous month and had given them an overview of the Commission at that time. She gave an overview of the makeup of the Commission and the members of the Board. She introduced a survey on gender equality in the workforce that is currently being conducted and encouraged participation in the survey. She informed the Board that an annual report to the Legislature is required. She also informed the Board that there will be Town Hall meetings conducted throughout the State and encouraged participation by the Board as the Commission will be tasked with proposing legislation. Ms. Walt also spoke about the interim task force on financial security, why elderly women are not as financially secure as men and how to determine why women who are not participating in the workforce are not. She concluded her remarks by announcing an exhibit highlighting women's contributions to Nevada that will be displayed in July in the Grant Sawyer building in Clark County. Commissioner Wichman asked whether Ms. Walt was working with the Women in Mining organization and she confirmed the Commission is working with the group.

10. **Update on the University of Nevada Cooperative Extension (UNCE), UNCE, Director Ivory Lyles**. Dr. Lyles informed the Board that the first meeting of the re-launched UNCE Advisory Council had occurred in February and that he is proud of the diverse membership of the Council, including Commissioner Kirkpatrick and Director Stapleton. He is planning a second meeting in June to discuss the charter and operational structure of the Council. Dr. Lyles also announced the fall meeting, which will be held in Reno in late August, and he discussed his statewide travel and engagement with the Commissioners across the state. He asked for support for the socioeconomic baseline analysis project and for the budget enhancement request to the Board of Regents who are expected to act on the request soon. Dr. Lyles addressed vacancies in the Extension program and explained that they are working hard to fill those vacancies. He also welcomed Nye County back to the program. Vice President French inquired as to Dr. Lyles' sense of what the budget for the program will be for the next cycle and noted that, although the enhancement is not as much as he would like it is a start to making the program whole. Dagny informed the Board that Jake Tibbets from Eureka County is also a member of the Council, along with other rural and urban representatives and that counties are well represented. President Weekly suggested that the program work directly with the commissioners in

AMERICAN OVERSIGHT

the counties that have open positions and on how best to represent the unique needs of each community.

11. **Discussion and Possible Direction for NACO to Promote April 2018 as National County Government Month**. Vinson reminded the Board of previous discussion relating to an Op-Ed highlighting county services and requested review and approval to disseminate it to media outlets. Vinson also informed the Board that NACO will be highlighting county services through the Association's Twitter and encouraged each county to pass a proclamation recognizing National County Government Month. He asked that those counties who pass proclamations to please let NACO staff know. Commissioner Hartung requested that This is Reno be added to the distribution list for the document and staff requested any additional media outlets not on the current distribution list be forwarded. Dagny also requested that any events or social media posts be shared with staff so that the Association can also promote them. The Op-Ed was approved on a motion by Commissioner Tipton with second by Commissioner Lucey.

Note: The NACO Board of Directors May Interrupt the Open Meeting and Exclude the Public from the Meeting for the Limited Purpose of Receiving the Information and for Deliberation Relative to Agenda Item #12 (d) below:

12. **Update and Possible Action Regarding Public Lands and Natural Resources Issues Affecting Counties Including:**

    a. **NACO Public Lands and Natural Resources Committee Update.** Tori informed the Board that a revised version of the Committee's action plan will be presented to the Board in May and requested any priorities be submitted to her for inclusion in the plan. She informed the Board that comments on WOTUS are due on May 21st. She also went over the Omnibus provisions that are expected to be passed including a fix to wildfire borrowing, stopping the administration's request to eliminate SNPLMA, a ban on listing the Greater Sage Grouse, full funding for PILT & SRS and funding for Nellis Airforce Base.

    b. **Update on the Greater Sage Grouse Resource Management Plan Amendments.** Vice President French informed the Board about meetings that had been held during the week, including one with fellow cooperating agencies regarding the greater sage grouse. He informed the Board that the draft sage grouse plan is to be given to the Department of the Interior by April 21st and that the opportunity to comment on the draft will be on a tight timeline.

    c. **Approval of a Contract with Resource Concepts Inc., to Provide Technical Support to Counties on Issues Related to the Greater Sage Grouse Resource Management Plan Amendments.** Tori reminded the Board of previous discussion regarding the need to hire a consultant to address science based issues that the Association does not have the technical expertise to address. RCI and specifically Jeremy Drew were chosen due to qualifications, previous work and previous supplemental support. She referenced both Mr. Drew's resume and the contract included in the agenda packet. Dagny addressed the contract and noted that it is a cost not to exceed contract and if approved by the Board the Association will enter into the contract and collect each affected county's equal contribution. She explained that any contributions not paid to RCI would be returned to the counties. She confirmed that the counties interested in participating are: Washoe, Lincoln, Lander, Pershing, Elko, Eureka, Humboldt, White Pine, and Lyon. The contract was approved on a motion by Commissioner Tipton with second by Commissioner Higbee.

    d. **NACO as Defendant-Intervenor on behalf of the Service in Lawsuit against the U.S. Fish and Wildlife Service Seeking to Vacate their Decision not to List the Bi-State Sage Grouse as an Endangered Species.** Dagny informed the Board that Tori had drafted the reply brief on behalf of all the defendants and would be arguing before the Federal court in a hearing in San Francisco on April 6.

    e. **Approval of Compensation for Tori Sundheim for Representing NACO, as Legal Counsel, in Desert Survivors et al. v. Fish and Wildlife Service Case 3:16-cv-01165.** Dagny informed the Board that the Association's budget does allow for additional

AMERICAN OVERSIGHT

compensation on a case by case basis for legal representation. Additional compensation for Tori, in the amount of $3,000.00, was approved on a motion by Commissioner Wichman with second by Commissioner Bates.

13. **NACO Committee of the Emeritus Update**. Dagny announced that the next workshop to be held on April 6th and will be on the Nevada legislative process. Michael Stewart of the Legislative Counsel Bureau, Assemblywoman Teresa Benitez-Thompson, and lobbyist Lisa Foster will be participating. She also informed the Board that the Committee has begun work on the newly elected official training that will be conducted at the November conference.

14. **National Association of Counties and Western Interstate Region Board Member Updates**. Vice President French informed the Board that discussion during the meeting in Washington DC included efforts for reformulation of the Payment in Lieu of Taxes (PILT) formula to make it more equitable to rural counties and that a final proposal is expected to be presented in Idaho in May. He also discussed the Endangered Species Act (ESA) reform committee. Commissioner Tipton informed the Board that interim resolutions were brought forward and passed with little dissention among the NACo Board and that the NACo Board is requesting feedback on conferences. The next meeting of the NACo Board will occur in Nashville in July.

15. **NACO Board Member Updates**. Updates were given by members of the Board highlighting various activities within their counties.

16. **Public Comment**. Jeremy Drew of RCI thanked the Board for their faith and support of the approved contract.

The meeting was adjourned at 12:20 p.m.

DRAFT

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Nevada Association of Counties (NACO)

Strengthening our Communities ~ Serving our Shared Constituency

2018 INTERIM TALKING POINTS

How Do Counties Serve our Communities?

- Counties serve a shared constituency with our state partners, of nearly 3 million Nevada citizens.
- Counties deliver critical services as the provider of the social safety net - administering a variety programs that benefit the most vulnerable, including indigent health care and legal defense.
- Counties manage and maintain over 65% of our state's roads, along with other critical infrastructure such as water and wastewater systems
- Counties conduct and administer elections.
- Counties partner with the State to administer shared services (*see attached chart of shared state and local services*)

Challenges:

- County services are funded mainly through tax revenue. For all counties, the two largest revenue sources are property and sales taxes.
- Counties struggle to keep up with the pace of population growth and effectively provide mandated services.
- Nevada's current property tax structure, combined with other limitations on counties' ability to raise revenues, have over time had the effect of slowing growth in county revenues. (*include data on county revenue trends including compared to State)*
- Unfunded mandates for additional services and expenditures, without accompanying new revenue or avenues to raise revenue, impact the ability of counties to provide existing services.
- Counties value communication with the Legislature and State agencies on the cost and implementation of ongoing services that are shared with the State.

Solutions:

Counties will continue to work with our federal, State and local partners to find solutions and address important issues moving forward:

- The Opioid Crisis
- Mental and Behavioral Health Services
- Jails and Public Safety
- Economic Development
- Sustainable Communities
- Transportation & Infrastructure

Media

Meg conducted an interview with Channel 4 reporter Kristen Edwards regarding horse fencing on U.S. 50.

The Nevada Appeal innacurately printed that NDOT had an upcoming contract to fence a section of U.S. 50 in Dayton, as well as a section of U.S. 50 in Silver Springs. Meg contacted the reporter to have the article clarified to state that an upcoming contract will fence a section of U.S. 50 near Silver Springs, while NDOT and partners will evaluate potential enhancements in the Dayton area.
Meg and Jamie provided a tour of upcoming road projects to new Channel 2 traffic reporter Brian Hofmann.

Rudy and Meg provided a general statement to the Nevada Independent regarding the proposed federal infrastructure bill.

Tony spoke with *Las Vegas Review-Journal* transportation reporter Art Marroquin about arranging a photo shoot of ATM sign installation to accompany a forthcoming story.

Tony and Sholeh voiced and filmed video for a forthcoming segment of "NDOT News" about U.S. Highway 95 Phase 2B/5 in northwest Las Vegas.

Danny Cleous The city and county has believed developers for years now look at the north valleys so you can take in stride and believe what they say or fight for what most of us want for the north valleys. With all the building that is going on right now do you really think it's going to be better in 4 to 5 years when they start there building? I think not. Developers have engineers that work for them to make it seem good and it's going to be great for the community but ask yourself this are they going to be there when things go bad. There not here to fix Lemmon Valley and the mess they made. I have done the research and it just wasn't the weather. We had 2 inches less rain fall than previous years.

Valerie Whitt As for the freeway congestion they say:
“Under the agreement with the city, the developers won't begin building houses until construction begins on two projects designed to ease traffic flow on U.S. 395 from the state line to the Spaghetti Bowl. The developers won't be able to begin construction on the third phase of their project until the state is underway on its projects to add another lane to the freeway between Lemmon Drive and McCarran Boulevard and to widen the Spaghetti Bowl.”
Yea RIGHT!!! Money talks baby. If you think that they will not build until 395 is widen then you are stupid!!!

2

Debbie Compton I could not agree more. It’s all about the money. I understand things change. But why are the north valleys treated as so much garbage??? The city, county and state sure take my tax dollars!

Karin Smith So in other words Stonegate will never happen because none of the construction will happen, or at least not for many years. Yeah, I don't believe that for a minute.
Dennis Stubblefield In some states like Calif they require the developer to pay a percentage of the ramps and road widening to be compleated before they can build any houses ! But here it seams that the city and county could care less about the people who live here and they just want the tax money from the new houses ! Little do they take into consideration that in a few years it will cost 10 times as much to upgrade the roads !
2

Manage
Like Show more reactions
· Reply · 10h

Beck S Wares They are not legally allowed to make the developer pay for the freeway widening. Howeber, stonegate is widening white lake and putting in better onramp. They also hope to pave north Virginia.
Manage
Like Show more reactions
· Reply · 10h

Dennis Stubblefield I guess that they would rather have us as tax payers pay for ALL OF THE IMPROVEMENTS, instead of letting the developes pay a PERCENTAGE of it !

Danny Cleous By the time they get 395 done it will be out dated again. The city, county, and the state are so far behind they can never catch up to the fast pace of building. If people are so set to fix the housing shortage then they need to have better wages so people can afford houses. 13 dollars an hour isn't going to do it.

John Castro How about citing drivers for animal cruelty, reckless/careless driving for driving above posted speed limits, or overdriving their headlights. And attempted suicide if they suffer injuries. Attempted vehicular manslaughter if passengers are in car. Vehicular manslaughter if the passenger dies.

John Castro Well.... They're driving too fast. What's that tell you?

If you slow down in those areas, and look out for horses/cattle..... It's impossible to hit them. They're big, easy to see, there's no bushes or trees for them to hide, grass isn't tall enough, they arent camouflaged.....See More

Rancho Dr. at Sahara closed Febuary 17-19

Special to the Las Vegas Tribune

The Nevada Department of Transportation (NDOT) will close a 450-foot section of Rancho Drive in both directions, north of Sahara Avenue in downtown Las Vegas from midnight, February 17, until 6 a.m., February 19. The westbound Sahara Avenue right-lane at the Rancho Drive intersection will also be closed during the same time frame.

The closure is needed for lane restriping work as part of Project Neon — a nearly $1 billion 3.7-mile-long widening of Interstate 15 from the Spaghetti Bowl interchange to Sahara Avenue. Kiewit Infrastructure West Co. is the design-build general contractor, with Atkins North America as lead designer.

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. Check the Project Neon website (NDOTProjectNeon.com) or Facebook, LinkedIn, and Twitter pages (@NDOTProjectNeon) for up to date information. There is also a free smart phone app available, plus a hotline available in both English and Spanish at: 702-293-NEON (6366). NDOT works to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

Meg distributed the transportation board meeting agenda to state government reporters.

"Ask Joe" Hart of Channel 4 asked Meg for the specific criteria and noise readings that were used to evaluate construction of a sound wall on the south side of the southern end of the Carson City Freeway. The Environmental division and Meg provided the Federal Code of Regulations guiding noise mitigation, as well as information on sound readings conducted in 1986, 2001 and 2014 projecting outside residential sound to exceed the federal threshold for sound wall installation on the southern side of the freeway.

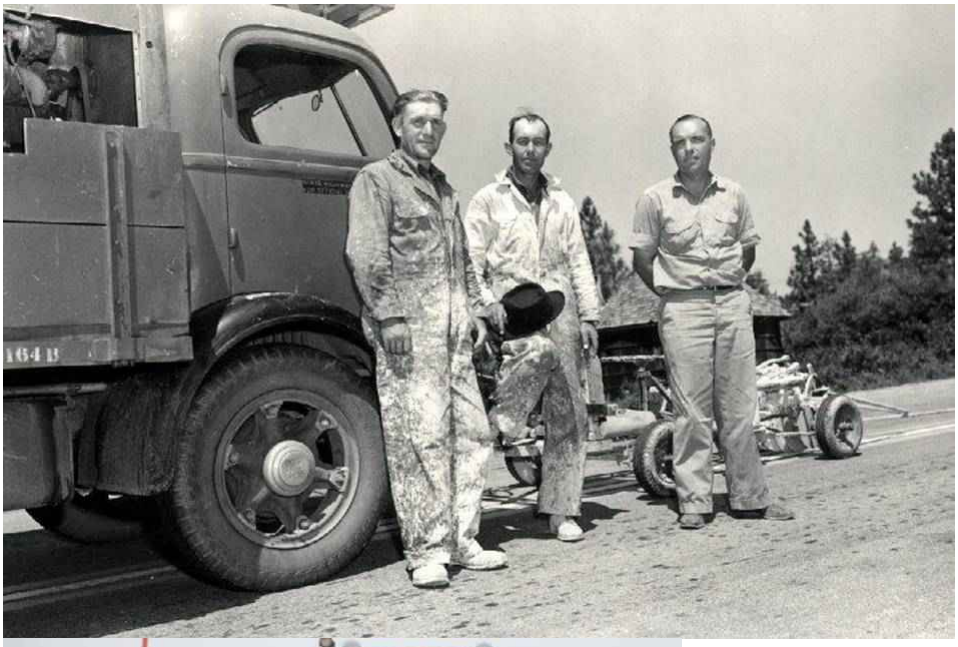
Tony did an on-air interview with KVVU Fox 5 News traffic anchor Ken Smith about a 30-day closure of the I-15 NB to EB Charleston Blvd offramp for Project Neon related construction improvements.

Tony spoke with *Las Vegas Review-Journal* transportation reporter Art Marroquin about a "Road Warrior" reader question concerning ramp access along U.S. Highway 95 in northwest Las Vegas.

Tony spoke with KSNV Channel 3 News traffic reporter Tom Hawley about the I-15 North widening between Craig Road and Speedway Boulevard in North Las Vegas.

Tony spoke with KVVU Fox 5 News traffic anchor Ken Smith about the I-15 Craig Road exit closure in North Las Vegas from February 9-12 for mill-and paving activities.

Tony spoke with *Las Vegas Review-Journal* business reporter Eli Segall about Project Neon construction employment.



Tony and Adrienne attend a public information meeting about planned pedestrian safety improvements along a 3-mile-stretch of Civic Center Drive / Eastern Avenue between U.S. Highway 95 and Cope Avenue in Las Vegas. The event was covered by KLAS Channel 8 News who interviewed Lori Campbell.

Media Release

FOR IMMEDIATE RELEASE
February 5, 2018

Tony Illia, NDOT Public Information Officer
Tel: (702) 385-6509 | E-mail: tillia@dot.nv.gov

PRESS RELEASE

Interstate 15 Craig Road Exit Closed February 9-12 in North Las Vegas

NORTH LAS VEGAS, NEV. – The Nevada Department of Transportation (NDOT) will close the southbound Interstate 15 exit to Craig Road from 7 p.m., February 9 until 5 a.m., February 12, in North Las Vegas.

The ramp closure is needed for milling and paving activities as part of a $33.8 million 4.8-mile-long widening of Interstate-15 between Craig Road and Speedway Boulevard. The project will expand the highway from four to six travel lanes, plus install new lighting, signage and landscaping. Other work calls for widening and seismic upgrades to four overpass structures at Range Road and the Union Pacific Railroad tracks. Las Vegas Paving is the general contractor. Construction is expected to finish this summer.

NDOT works to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

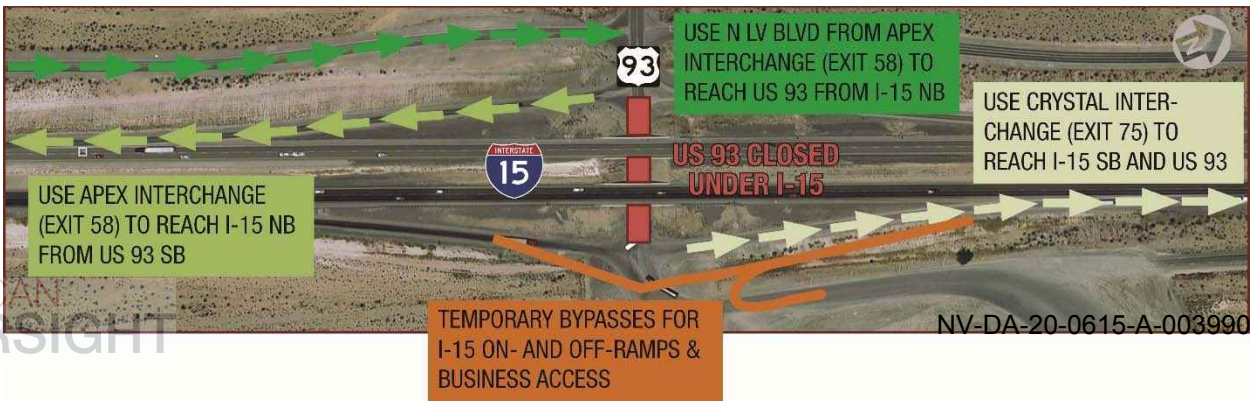
U.S. 93 to Close at I-15 for Bridge Prep Work

Restriction Scheduled from 10 a.m. June 10 to 8 a.m. June 11

LAS VEGAS, NV – U.S. Hwy. 93 will be closed at Interstate 15 between 10 a.m. June 10 and 8 a.m. June 11 as crews lower the highway to meet overhead clearance requirements and accommodate new bridge girders, according to the Nevada Department of Transportation (NDOT).



Please note that all I-15 ramps will remain open during this activity, with temporary bypasses for northbound on- and off-ramps.

The work is a component of the $58 million Garnet Interchange reconstruction project, which is scheduled to be completed by year's end.

NDOT embarked on improving the 55-year-old interchange in February. Plans include building a modified diverging diamond interchange at U.S. 93 and I-15; widening U.S. 93 to four lanes and extending the Garnet Interchange to just north of Apex Power Parkway.

Please see the below map for suggested detours. To navigate construction zones, NDOT also encourages motorists to use Waze, which receives regular updates on the department's restrictions and closures throughout the Las Vegas Valley. Drivers can also visit nvroads.com or dial 511 for traffic information.

Motorists should use caution while traveling through work zones and pay attention to construction signage. Please be reminded that work schedules can change due to weather or other unforeseen factors.

NDOT TO PAINT CATTLE GUARD ON U.S. 50 EAST OF DAYTON TO REDUCE HORSES ON ROADWAY

CARSON CITY, Nev. – Single lane closures will take place on U.S. 50 east of Dayton as the Nevada Department of Transportation paints a cattle guard across the highway to reduce feral horses entering the roadway.

U.S. 50 will be reduced to one lane in each direction near Chavez Road east of Dayton between 7 a.m.- 4 p.m. daily June 1 and 2 as a cattle guard is painted across the highway. Approximately 100 feet of fencing will also be installed connecting both sides of the cattle guard to existing livestock fencing along the roadside. Visually interpreted by horses and some other livestock as a dimensional barrier, the painted cattle guard will keep drivers and livestock safer by limiting horses entering the existing fenced section of highway. Travel speeds will be reduced to 55 mph through the work zone. The road work schedule is subject to change.

Approximately ten miles of livestock fencing is already in place in the Stagecoach and Silver Springs areas of U.S. 50. Additional sections of livestock fencing will be added to U.S. 50 between Stagecoach and the USA Parkway intersection in coming years as NDOT widens the road from a two-lane to a four-lane divided highway.

State transportation information is available at nevadadot.com or by calling (775) 888-7000.

NDOT ANNOUNCES OVERNIGHT SB U.S. 395 FREEWAY ON RAMP CLOSURES FOR INSTALLATION OF DRIVER INFORMATION SYSTEMS

CARSON CITY, Nev. – Select on ramps to southbound U.S. 395 in the North Valleys will temporarily close overnight May 31 and June 1 as the Nevada Department of Transportation installs enhanced driver information systems.

The southbound U.S. 395 on ramp from Lemmon Drive will close overnight between 9 p.m. May 31 and 5 a.m. June 1. Then, on ramps from Lemmon Drive and north McCarran and Oddie boulevards to southbound U.S. 395 will close overnight from 9 p.m. June 1 to 5 a.m. June 2.

The closures are for striping of roadway stop bars as part of new ramp meters being installed at the ramps. The ramps will be closed individually for brief periods of time, with detours provided and no two consecutive ramps closed at the same time.

The improvements are part of enhanced driver information systems being installed to help keep drivers safer and more informed of road conditions on U.S. 395 from the spaghetti bowl north to the Nevada-California state line:

Ramp Meters- Ramp meters will be installed on U.S. 395 ramps at Oddie Boulevard, North McCarran Boulevard, Clearacre Lane and Lemmon Drive. Ramp meters are traffic signals placed at the top of certain freeway on-ramps, to help reduce congestion and enhance safety by more evenly metering the flow of traffic merging onto freeways.

Wrong Way Driver Detection Systems – NDOT currently places "Wrong Way" signs on all freeway ramps to notify drivers errantly trying to enter the freeway in the wrong direction. Additional flashing warning signals and detection systems will be added to U.S. 395 on-ramps in the North Valleys as a highly-visible and additional indication to help stop drivers from entering the wrong way; ultimately enhancing freeway safety.

Travel Time Signs- Roadside travel time signs provide current travel times for drivers to reach key locations such as off-ramps. By knowing the travel time, drivers can make informed decisions, such as if they wish to take another route to most efficiently reach their destination.

Traffic Cameras- By providing nearly up-to-the-second views of travel conditions, traffic cameras help drivers to make travel decisions, such as which route they will take and what time they will leave, before departing for their destination. They also help drivers be prepared for any potential weather conditions prior to driving.

Additional electronic freeway signs and roadway weather reporting stations will be installed as well.

Periodic future lane, ramp and roadway shoulder closures will take place on U.S. 395 from the spaghetti bowl north to the Nevada-California state line through early 2018 as the improvements are made.

Further state transportation information is available at www.nevadadot.com or by dialing (775) 888-7000.

PRESS RELEASE

Charleston Blvd., Symphony Park Ave. Closed This Weekend in Las Vegas

LAS VEGAS, NEV. – The Nevada Department of Transportation (NDOT) will be closing Charleston Boulevard at Interstate 15 from 10 p.m., Friday, March 16 until 5 a.m., Monday, March 19, in downtown Las Vegas. Additionally, Symphony Park Avenue between Martin Luther King Boulevard and Grand Central Parkway will be closed from 10 p.m., Friday, March 16 until 5 a.m., Tuesday, March 20.

The temporary closures are required for demolition of the existing Interstate 15 southbound bridges over surface streets due to age and the need for increased capacity. The work is part of "The Main Event," the third and final phase of work for Project Neon's $1 billion 4-mile-long widening of Interstate 15 from the U.S. 95 interchange to Sahara Avenue that began in 2016. The debris rubble is being recycled and reused rather than placed in landfill. Demolished concrete will be screened, crushed and reused as fill material elsewhere on Project Neon. NDOT is committed to sustainability and improving the environment. The project is 60 percent complete and scheduled to finish by summer 2019. Kiewit Infrastructure West Co. is the design-build general contractor, with Atkins North America as lead designer.

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. Check the Project Neon website (NDOTProjectNeon.com) or Facebook, LinkedIn, and Twitter pages (@NDOTProjectNeon) for up to date information. There is also a free smart phone app available, plus a hotline available in both English and Spanish at: 702-293-NEON (6366). NDOT works with Waze to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

PRESS RELEASE

U.S. Highway 95 Southbound Lane Closure at the "Spaghetti Bowl" Starts Friday Night in Las Vegas

LAS VEGAS, NEV. – The Nevada Department of Transportation (NDOT) will close the right-hand travel lane of southbound U.S. Highway 95 at the "Spaghetti Bowl" interchange starting at 8 p.m., March 16. The temporary closure is needed for Interstate 15 bridge reconstruction, which is required due to age and the need for added capacity. The lane restriction is expected to last a few months, although the exact length of time will depend upon construction progress.

The work is part of "The Main Event," the third and final phase of work for Project Neon's $1 billion 4-mile-long widening of Interstate 15 from the U.S. 95 interchange to Sahara Avenue that began in 2016. The project is 60 percent complete and scheduled to finish by summer 2019. Kiewit Infrastructure West Co. is the design-build general contractor, with Atkins North America as lead designer.

PRESS RELEASE

Project Neon's "The Main Event" Takes Center Stage March 5 in Las Vegas

LAS VEGAS, NEV. – "The Main Event" takes center stage Monday in downtown Las Vegas. The Nevada Department of Transportation's (NDOT) third and final major phase of work for Project Neon – a nearly $1 billion 4-mile-long widening of Interstate 15 from the U.S. 95 interchange to Sahara Avenue – is nicknamed "The Main Event" since it's the last and most impactful portion of construction. Upcoming closures and openings include the following:

Monday, March 5

- Interstate 15 southbound off-ramp to Sahara Avenue and Highland Drive will be closed from 9 p.m., March 5 until 6 a.m., March 6.
- U.S. Highway 95 northbound to Interstate 15 southbound ramp will be closed from 9 p.m., March 5 until 5 a.m., March 6.
- Interstate 15 north and southbound will be reduced to one-lane in each direction between D Street and Sahara Avenue from 9 p.m. until 5 a.m. nightly, starting the evening of March 5 through the morning of March 9.

Tuesday, March 6

- Interstate 15 north and southbound will be reduced to three lanes in each direction between Sahara Avenue and Alta Drive, and northbound reduced to two lanes near the Spaghetti Bowl from 6 a.m., March 6, until 5 a.m., November 20.
- Interstate 15 northbound to the U.S. Highway 95 south and northbound ramps will be closed from 9 p.m., March 6 until 5 a.m., March 7.
- The Interstate 15 northbound off-ramp to D Street will be closed from 9 p.m., March 6 until 6 a.m., March 7.

Openings

  - The new Martin Luther King Boulevard / Pinto Lane on-ramp to Interstate 15 southbound will open at 6 a.m., March 6.
  - Interstate 15 southbound off-ramp to Charleston Boulevard will reopen at 6 a.m., March 6.
  - Interstate 15 northbound off-ramp to Charleston Boulevard eastbound will reopen at 6 a.m., March 6.

Wednesday, March 7

- U.S. Highway 95 northbound to Interstate 15 southbound ramp will be closed from 9 p.m., March 7 until 5 a.m., March 8.
- D Street on-ramp to Interstate 15 southbound will be closed from 9 p.m., March 7 until mid-July.

AMERICAN OVERSIGHT

Thursday, March 8

- Interstate 15 southbound will be reduced to two lanes between Alta Drive and D Street from 6 a.m., March 8, until November 20.

Friday, March 9

- Martin Luther King Boulevard on-ramp to U.S. Highway 95 southbound will be closed from 6 a.m., March 9 until early 2019.

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. Check the Project Neon website (NDOTProjectNeon.com) or Facebook, LinkedIn, and Twitter pages (@NDOTProjectNeon) for up to date information. There is also a free smart phone app available, plus a hotline available in both English and Spanish at: 702-293-NEON (6366). NDOT works to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

NEVADA FREIGHT PLAN NAMED ONE OF NATION'S BEST

State to Take Advantage of Federal Freight Improvement Funds

CARSON CITY, Nev. – Recently-released research by the American Transportation Research Institute (ATRI) has named Nevada's Freight Plan as one of the nation's top plans to be used as a model for freight planning across the nation.

ATRI's "Identifying State Freight Plan Best Practices" report compiles and ranks best state freight planning practices to heighten freight planning across the U.S. Nevada's freight plan was ranked as the nation's sixth best and highlighted specifically for including forward-looking transportation technologies such as automated truck platooning and Hyperloop high-speed transportation systems and prioritizing freight corridors and needs to guide future freight improvements.

In 2016, the Nevada Freight Plan was the first state freight plan to be published in the U.S. The plan includes strategies, projects, policies and programs, from development of future Interstate 11 and further integration of freight carried by trucks, trains, planes and pipelines to highway improvements and enhanced truck parking. The ultimate goal is to enhance the state's economic advantage with a safe and superior freight network offering greater access to the national and global freight network. Through the freight plan, up to $60 million in federal transportation funding has been appropriated for Nevada freight projects through 2020. NDOT has already put freight improvements in place, such as online truck parking maps and more. Other federally-funded improvements, such as additional truck parking on Interstate 80 between Fernley and the California state line and passing lanes on freight-heavy highway sections statewide, are prioritized to be constructed in coming years.

"Not only has the freight plan been recognized as one of the nation's best, it is also paving the way to use federal freight funding for targeted improvements to Nevada's freight network," NDOT Freight Project Manager Bill Thompson explained. "Ultimately, our transportation and freight systems are the lifeblood of our economy and how goods and services reach each of us in Nevada. Working collaboratively across the state, we're now poised to enhance freight, commerce and mobility, provide safety and support Nevada's economy and job growth."

Nevada freight plan information is available at nevadafreightplan.com or by calling (775) 888-7354.

Media

Sandy Spencer and Meg developed and distributed the attached press release regarding upcoming cleaning of the I-80 Carlin Tunnels.

Meg conducted an interview with Denise Wong of Channel 8 regarding pedestrian safety in coordination with a Carson City Sheriff Office pedestrian sting in front of NDOT headquarters.

Meg distributed the attached press release regarding upcoming bridge replacements on U.S. 395 and Muller Lane in the Carson Valley.

AMERICAN OVERSIGHT

Meg provided Carson Valley stakeholders and media an update that construction on the SR 88 and Centerville Lane roundabout is tentatively scheduled to begin in late April.

Tony spoke with *Las Vegas Review-Journal* transportation reporter Art Marroquin, KLAS Channel 8 News reporter Patrick Walker, and Nye County Commissioner Butch Borasky about campaign sign rules within state right-of-way.

Tony spoke with KVVU Fox 5 News traffic anchor Ken Smith about the planned completion of phase one of Interstate 11 in Boulder City. Tony informed him that phase one work is tentatively scheduled to finish in late April. (Low temperatures have prevented the final open grade paving).

Tony spoke with KVVU Fox 5 News about a traffic signal power outage along Las Vegas Boulevard at Flamingo Road. Tony directed them to FAST Director Brian Hoeft.

Tony spoke with Las Vegas Review-Journal investigative reporter Arthur Kane about tortoise fencing cost overruns for Contract #3577, which was a pavement resurfacing of U.S. Highway 95 between Indian Springs and Mercury that finished in October 2015. Las Vegas Paving was the general contractor. The project called for mill-and-asphalt overlay across a 17-mile-long stretch of median divided four-lane freeway that began in northwest Clark County and concluded in the southeast edge of Nye County. Construction entailed flattening out the roadside shoulders for safer turnout areas, plus making drainage improvements and installing 36 miles of protective tortoise fencing.

Tony spoke with *Pahrump Valley Times* Managing Editor David Jacobs about a new $705,000 traffic signal being activated at State Route 159 and Blue Diamond Road in Clark County. It was the last remaining portion of a $17.2 million, 5-mile widening of Blue Diamond Road in southwest Clark County that finished in May 2017.

Tony spoke with the Neon Museum Las Vegas Assistant Manager of Education and Engagement Derek Weis about upcoming Project Neon related traffic restrictions.

NDOT TO REPLACE U.S. 395 AND MULLER LANE BRIDGES IN CARSON VALLEY

CARSON CITY, Nev. – Lane and road closures will be in place through fall on U.S. 395 and Muller Lane in the Carson Valley as the Nevada Department of Transportation replaces two aging bridge and drainage structures.

During the week of March 26, drivers will see construction equipment and traffic cones being set up on the roadsides. Beginning the first week of April through fall, lane shifts and overnight single lane closures will take place on U.S. 395 directly north of Ironwood Drive as NDOT replaces the U.S. 395 culvert over Martin Slough. The existing double box culvert structure will be replaced by three 12-by-five-foot reinforced concrete box culverts.

Nearby, NDOT will replace the Muller Lane bridge over the west fork of the Carson River. Muller Lane will be closed to through traffic, with nearby detour available on Genoa Lane. Muller Lane residential traffic will be allowed to access the road to reach their residence. With no access allowed across the bridge during construction, residents will have to access Muller Lane via Foothill Road if their residence is located west of the bridge closure. Muller Lane is anticipated to be reopen to all traffic by early September.

The approximately $3.3 million project by contractor Q & D Construction will improve U.S. 395 and Muller Lane for the as many as 30,000 drivers traveling the roads daily. The bridge replacements are part of NDOT's program of renovating and replacing older bridges to help ensure the safety of the motoring public. NDOT's dedicated bridge inspection and rehabilitation program has helped Nevada bridges to be named the nation's best for five consecutive years.

State road updates are available at nevadadot.com or by calling (775) 888-7000.

Interstate 80 Lane Closures Scheduled for Cleaning of Carlin Tunnels

Elko, Nev. – Lanes on Interstate 80 in the Carlin area will be reduced Monday, April 16 through Thursday, April 19 for annual cleaning of the Carlin Tunnels, the Nevada Department of Transportation has announced.

Cleaning of the westbound tunnel is scheduled for Monday, April 16 and Tuesday, April 17 between 6 a.m. and 4:30 p.m. The westbound tunnel will be closed and westbound traffic detoured through Carlin Canyon. The eastbound tunnel will remain open but restricted to one lane. On Wednesday, April 18 and Thursday, April 19 from 6 a.m. to 4:30 p.m., cleaning of the eastbound tunnel will result in westbound traffic being detoured again through Carlin Canyon and eastbound traffic being routed to the westbound tunnel.

For traveler safety, flaggers, signs and barrier rail will help detour traffic around the work zone. Motorists are asked to obey traffic controls and drive at posted speed limits, or slower as necessary for conditions.

Nevada road construction information is available at nevadadot.com or by dialing (775) 888-7000.

SAFE WORK ZONE DRIVING TIPS

- Always buckle up.
- Watch for and follow all warning, closure and construction detour signs.
- Pay attention and minimize distractions.
- Always slow to posted work zone speed limits.
- Keep consistent with traffic flow.
- Keep a safe distance from cars ahead, traffic barriers, construction equipment and workers.
- Remain calm. *Remember that work zones are not there to inconvenience you- they are necessary to improve the roadway.*
- Plan ahead and give yourself time to reach your destination. *Simply dial '511' or log onto www.nevadadot.com before driving for a listing of Nevada highway construction.*

Media

Carson City based News photographer Cat Allison contacted Meg regarding locations for photographing the NV Energy utility work as part of the past weekend's I-580 closure.

News 2 reporter Brandon Fuhs contacted Meg for information on why the hours between 7am and 1pm were selected for the utility-related I-580 closure.

Meg distributed a media alert when I-580 reopened on Sunday, following early completion of NV Energy utility work, to thank the community for their understanding.

The Reno Gazette Journal contacted Meg to confirm that the NV Energy power line repairs were necessary due to being hit by Washoe County Sheriff's Raven helicopter.

Meg distributed the attached press release regarding new chain requirements for certain Tahoe-area highways.

Reno Gazette Journal editor Yvonne Beasley contacted Meg to confirm additional information about the change in chain requirements.
Meg distributed a reminder to the media regarding this weekend's I-580 utility repair-related closure.

Meg distributed the attached press release regarding upcoming overnight full road closures of SR 28 for shared use path bridge decks.
Meg conducted an interview with KOLO Channel 8 reporter Ed Pearce regarding this weekend's I-580 closure.

Nevada Appeal reporter Geoff Dornan contacted Meg for fatality numbers related to alcohol-impaired driving. Meg provided 2016 and 2017 numbers per the state's FARS report.

Meg provided Gardnerville Record-Courier editor Kurt Hildebrand with a preview of upcoming (after Thanksgiving) through-traffic closures on Centerville Lane as NDOT begins a project to widen the roadway and add sidewalks/bike lanes.

Tony wrote and distributed the attached press release about Nipton Road reopening Friday following flood damage repairs in Clark County.

Tony distributed the attached press release about Project Neon construction activity and related impacts for the week of November 16.

Tony spoke with *Las Vegas Review-Journal* reporter Mick Akers, KTNV Channel 13 reporter Nina Porciuncula and KLAS Channel 8 News assignment editor Jonathan Cisowksi about an overnight closure of U.S. Highway 95 southbound between Decatur Boulevard and Interstate 15 in Las Vegas for ramp restriping and overhead signage ahead of Wednesday morning's debut of the new U.S. Highway 95 southbound to Interstate 15 southbound ramp.

Tony spoke with *Las Vegas Review-Journal* reporter Rio Lacanlale about a semi-truck turnover slowing traffic along Interstate 15 northbound Friday morning near Mile Marker 111 outside of Glendale. The truck was carrying 14 pallets of expired dog food for a pig farm when a strap broke and the truck flipped, blocking two lanes of traffic. The incident was cleared around 1:15 p.m.

AMERICAN OVERSIGHT

Tony sent-out a notice that construction blasting along State Route 160 near Mountain Springs in Clark County is postponed through the Thanksgiving holiday. It will resume the following week of November 26-30, although an exact date won't be scheduled until the contractor has cleared away previous blast material.

Nevada Department of Transportation We like your point about reducing single use products, Carol. Reducing and recycling is important to us, too. In fact, we recycle large amounts of our roadway surfaces and reuse and recycle them into new road surfaces. Thanks for sharing this important reminder to reduce and reuse!

Power up!

I-580 between Carson City and Washoe Valley is now open.

The interstate was scheduled to be closed through 1 p.m., but NV Energy crews have completed work early to replace 120-kilovolt power lines which cross over the interstate and supply power to approximately 11,000 customers at Lake Tahoe.

That means that the interstate is now open, but please anticipate additional traffic and changed traffic patterns as fellow community members also access the interstate.

UPDATE: I-580 now open!
Traveling between Reno and Carson City today or tomorrow?
I-580/U.S. 395 will be closed between northern Carson City and Washoe Valley today and tomorrow between 7 a.m. and 1 p.m. daily for replacement of NV Energy power lines crossing the interstate.
Travel now – well before the closure start time.
No thru traffic will be allowed between Hobart Road and Alternate U.S. 395 in the Lakeview area. https://bit.ly/2PkI1GU

Here's one more reason to move over.
NV law requires that you slow down and move to the far lane when passing official emergency response vehicle(s) pulled over on the roadside with lights on.
And that includes NDOT staff working on the roadside.
It's National Traffic Incident Response Awareness Week. #MoveOver so #WeAllGoHome

SUN 10:09 AM

Please post the blasting schedule for the week of Nov 19 on highway 160 so we can plan!!

Nevada Department of Transportation

Thanks for the message! We'll be getting back to you shortly, but if you have an urgent road concern, dial 511 or log onto nvroads.com for road conditions (but not when you're driving, please!). Dial *NHP for roadside emergencies.
Good morning we will not be blasting next week. Please check nevadadot.com for the next planned blast. Safe travels.

Thank you very much!!

FRI 10:16 AM

hi, stuck in I15 traffic south of mesquite. any updates on when road reopened.?

Nevada Department of Transportation

Hi Brody. Traffic is being diverted to the shoulder and moving slowly. The cleanup from a major diesel spill is expected to take another 3 hours.

FRI 1:41 PM

Nevada Department of Transportation

Hi Brody. You've probably made it through by now but wanted to let you know I-15 is now open.
Sent by Adrienne Packer

Yes thank you very much

FRI 9:53 AM

AMERICAN OVERSIGHT

Do you know if traffic has started moving near bunkerville on north bound 1\I15?

Nevada Department of Transportation

Hi Kim. The travel lanes are closed due to a major diesel spill, however motorists are being diverted to the shoulder. You can get through but it's very very slow. We anticipate the interstate to be closed for another three hours.

Sent by Adrienne Packer

Thank you for getting back to me. I have an employee that is stuck in it trying to get to work to hurricane ut. She has been stuck since about 7:30 Nevada time

Nevada Department of Transportation

We are doing our best to get the interstate cleaned up quickly. We apologize for the inconvenience.

Sent by Adrienne Packer

Good luck with all and thank you for all that you do!

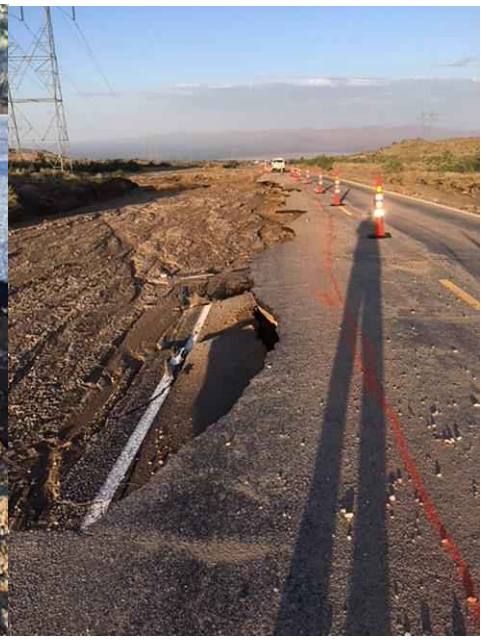
PRESS RELEASE



Nipton Road Flood Repairs Finish, Reopens Today in Clark County

CLARK COUNTY, NEV. – The Nevada Department of Transportation (NDOT) will reopen Nipton Road (State Route 164) to public traffic without restrictions today around 4 p.m., November 16, in southern Clark County. The department undertook a $3.45 million emergency repair to the storm damaged road, which closed on August 15 following flash flooding. A storm washed away portions of the east-west rural highway between Mile Markers 2 and 6.

The two-lane 18.6-mile-long roadway connects U.S. Highway 95 in southern Clark County, near Searchlight, to Nipton, California. The improvements, which began September 4, consisted of placing new roadbed, asphalt paving and installing new precast concrete box culvert for enhanced storm water drainage. Las Vegas Paving was the contractor. (Average traffic along the roadway is less than 1,000 vehicles a day).

For the latest state highway conditions, visit nvroads.com or call 511 before driving.

NDOT ANNOUNCES OVERNIGHT ROAD CLOSURES OF STATE ROUTE 28 FOR PATHWAY BRIDGE INSTALLATION

CARSON CITY, Nev. – The second in a series of overnight full road closures on State Route 28 south of Incline Village will take place Dec. 4 to Dec. 6 as the Nevada Department of Transportation installs bridges on the State Route 28 shared used path.

Both directions of SR 28 will be closed between Lakeshore Boulevard in southern Incline Village near Tunnel Creek Café and Sand Harbor State Park from 8 p.m. to 6:30 a.m. nightly Dec. 4 to Dec. 6. The road closures are scheduled for overnight hours to reduce impact on heavy daytime traffic. The closures are weather dependent and subject to change. One potential alternate route for north to south traffic is Mt. Rose Highway connecting Incline Village to southern Reno and taking Interstate 580 to U.S. 50 to Lake Tahoe.

The roadway closure will allow for installation of a bridge deck totaling nearly 250 feet in length, one of five pre-fabricated bridge decks being installed on the three-plus mile shared use path under construction between southern Incline Village and Sand Harbor State Park.

Construction-related daytime single lane closures will also periodically take place Monday, Dec. 3 through Friday, Dec. 7, weather permitting.

Additional lane and overnight road closures will occur in spring of 2019. The community will be advised beforehand as additional roadway closures are needed for installation of remaining bridge decks.

The pathway has been excavated and paved, bridge foundations constructed, and 2,800 linear feet of storm drain pipes, a pathway tunnel and 5,000 linear feet of reinforcing wall installed. The bridge deck installations are the final major element of construction. The path is anticipated to open next summer after final drainage, landscaping, paving and other finishing work is complete.

When complete, the new pathway by contractor Granite Construction will enhance safety and mobility for everyone on the roadway. More than 2.5 million vehicles a year travel on State Route 28, mixing with as many as 2,000 pedestrians and bicyclists who park and recreate near the roadside on peak days, creating safety and accessibility concerns on the mountain highway. Three new parking areas near the Ponderosa Ranch and Tunnel Creek Café will also provide safer parking options.

Project information is available at www.nevadadot.com/SR28 or by calling (775) 888-7000.

NDOT ENACTS TIRE/CHAIN REQUIREMENT CHANGE FOR ENHANCED SAFETY ON CERTAIN TAHOE STATE ROADS

CARSON CITY, Nev. – The Nevada Department of Transportation is enacting a change on certain Tahoe-area highways which will now require any vehicle traveling without tire chains during winter chain restrictions to be four-wheel or all-wheel drive with snow tires.

All vehicle types with chain or snow tires were previously allowed during chain requirements. Under the new requirement, only four-wheel or all-wheel vehicles with snow tires and all vehicles with approved tire chains will be allowed when chain requirements are in place on the following state roads:

State Route 431 (Mt. Rose Highway)
State Route 207 (Kingsbury Grade)
U.S. 50- *between Glenbrook and Carson City*

Tire and chain requirements will not change on other highway corridors.

The change is aimed at enhancing traffic mobility and safety on roughly 50 miles of mountainous state highway in the Tahoe area. The restrictions help ensure all vehicles on the road are equipped with enhanced traction support for certain elements of winter driving.

Twenty roadside chain restriction signs have been updated to reflect the new change. The revised chain requirements will also be reflected on the nvroads.com road conditions website.

In just three recent winters, more than 300 crashes have occurred on the mountain highways. Statewide, as many as 2,000 crashes occur every year due to unsafe driving in snow, ice and other wet conditions, such as driving too fast for conditions or following too closely.

Because no type of traction control or device can offer absolute traction and safety during winter driving, motorists are reminded to only travel when necessary in winter weather. If necessary to travel, drivers should reduce their speed for conditions and leave space between their vehicle and others. Wearing a seat belt and focusing on the road are other important driving tips for any type of weather.

Updated state road conditions, including winter road closures and incidents, are available by dialing “511” or logging on to nvroads.com before driving. Drivers can also view live traffic cameras and sign up for free traffic alerts for their state road commute.

WINTER DRIVING TIPS

- Only travel in winter weather when necessary, leave enough time to safely reach your destination and plan your route to help avoid snowy/icy areas and steep hills.
- Before driving, check weather and road conditions by dialing 511 within Nevada (or 1-877-NV-ROADS outside of Nevada) or logging on to www.nvroads.com.
- Buckle up.
- Turn off cruise control.
- Avoid quick starts, stops and fast turns. Accelerate, brake and steer smoothly and gradually.
- Reduce speed. Speed limits are based on normal road and weather conditions, not winter road conditions.
- Do not slam on brakes. Apply steady pressure on ABS-equipped vehicles and pump the brakes if necessary on non-ABS vehicles.
- Always comply with all posted chain requirements.
- If your vehicle has snow tires, install and use them between October 1 and April 30.
- Leave additional space between your vehicle and other vehicles. Do not pass without good sight distance/clearance.

STATE ROUTE 361 TO CLOSE BETWEEN GABBS AND LUNING FOR CULVERT REPLACEMENT

CARSON CITY, Nev. – State Route 361 will be closed near mile marker 14 at Petrified Wash between Gabbs and Luning beginning Nov. 12 as the Nevada Department of Transportation replaces an aging roadway culvert.

Beginning the morning of Monday, Nov. 12 through Nov. 28, a one-mile segment of SR 361 will be closed between Gabbs and Luning as NDOT replaces culverts at the Petrified Wash. Potential state highway detour routes include traveling Alternate U.S. 95 between U.S. 95 and U.S. 50. Gabbs will still be accessible from the north via U.S. 50 to SR 361.

By closing the road to through traffic, NDOT will be able to shorten major traffic impacts to approximately two weeks as opposed to more than two months of lane closures if the road was left open to traffic. The road closure also enhances safety for both drivers and workers by eliminating traffic through the narrow excavation site, and allows major construction to complete before potential heavy winter weather.

The existing aging culvert structures will be replaced by three 10-foot reinforced concrete box culverts. Roadside shoulders and barrier rail will also be enhanced for improved traffic safety.

The approximately $3 million project by contractor Road and Highway Builders is part of NDOT's program of renovating and replacing older culverts and bridges to help ensure the safety of the motoring public. NDOT's dedicated bridge inspection and rehabilitation program has helped Nevada bridges to be named the nation's best for five consecutive years.

State road updates are available at nevadadot.com or by calling (775) 888-7000.

Channel 8 content editor Samantha Tillbury contacted Meg with a question about why the traffic camera feeds don't allow the station to view them in full screen mode.

Tony wrote and distributed the attached press release about Kern River's permitted 10-day Lake Mead Boulevard onramp to I-15 closure in North Las Vegas beginning October 15.

Tony distributed the attached Project Neon construction activity update with related traffic impacts for the week of October 12 in Las Vegas.

Tony wrote and distributed the attached press release and info-map about Charleston Boulevard being closed at I-15 Thursday night for Project Neon related bridge construction in downtown Las Vegas.

Tony did an interview with KLAS Channel 8 News reporter Karen Castro about the I-15 southbound to Sahara Avenue exit closing for 10 days for ramp reconstruction as part of Project Neon's "The Main Event."

Tony spoke with KSNV Channel 3 News traffic reporter Tom Hawley about Project Neon construction progress, specifically the construction sequencing and anticipated completion of the U.S. Highway 95 to I-15 HOV flyover.

Tony did an interview with KSNV Channel 3 reporter Denise Rosch about Project Neon related road impacts, including an overnight closure of Martin Luther King Boulevard at U.S. Highway 95 for bridge construction. He also discussed the I-15 southbound to Sahara Avenue exit closing for 10 days for ramp reconstruction.

PRESS RELEASE

Lake Mead Blvd. I-15 On-Ramp Closure Starts October 15 in North Las Vegas

NORTH LAS VEGAS, NEV. – The Nevada Department of Transportation (NDOT) announces that Kinder Morgan will close the eastbound Lake Mead Boulevard on-ramp to Interstate 15 southbound in North Las Vegas for 10 days starting at noon, October 15. Additionally, there will be a 1600-foot-long (1/3 mile) outside lane restriction along Interstate 15 southbound at Lake Mead Boulevard during the aforementioned dates. The temporary closures are needed for pipeline maintenance.

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. NDOT works with Waze to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

PRESS RELEASE

Charleston Boulevard Closed at I-15 Thursday Night in Las Vegas

LAS VEGAS, NEV. – The Nevada Department of Transportation (NDOT) will close Charleston Boulevard at Interstate 15 from 7 p.m., October 18, until 6 a.m., October 19, in Las Vegas. The temporary closure is needed for bridge construction as part of "The Main Event," the third and final phase of work for Project Neon's nearly $1 billion 4-mile-long widening of Interstate 15 from the U.S. 95 interchange to Sahara Avenue. Kiewit Infrastructure West Co. is the design-build general contractor, with Atkins North America as lead designer. Project Neon is 85 percent finished and scheduled for substantial completion in the summer of 2019.

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. Check the Project Neon website (NDOTProjectNeon.com) or Facebook, LinkedIn, and Twitter pages (@NDOTProjectNeon) for up to date information. There is also a free smart phone app available, plus a hotline available in both English and Spanish at: 702-293-NEON (6366). NDOT works with Waze to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

PRESS RELEASE

I-15 Southbound Closed from Sahara Ave. to Spring Mountain Rd. Sept. 12-13 in Las Vegas

LAS VEGAS, NEV. – The Nevada Department of Transportation (NDOT) will close Interstate 15 southbound between Sahara Avenue and Spring Mountain Road from 11 p.m., September 12, until 5 a.m., September 13, in Las Vegas. Additionally, the Sahara Avenue onramp to Interstate 15 southbound will be closed from 9 p.m., September 12, until 6 a.m., September 13.

The temporary closures are needed to install overhead Active Traffic Management signs as part of "The Main Event," the third and final phase of work for Project Neon's nearly $1 billion 4-mile-long widening of Interstate 15 from the U.S. 95 interchange to Sahara Avenue. Kiewit Infrastructure West Co. is the design-build general contractor, with Atkins North America as lead designer. Project Neon is 81 percent finished and scheduled for substantial completion in the summer of 2019.

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. Channel 8 reporter Terri Russell contacted Meg to see what documentation NDOT had of wild/feral horse herd movements prior to constructing to underpasses on the USA Parkway. Meg referred the reporter to the Department of Ag, but did reference that the TRIC area of USA Parkway is the state's #1 "hot spot" for horse-vehicle crashes based on crash records and other factors. In developing the under-crossings on the USA Parkway extension, we utilized NDOT staff field observations, communications with experts and local knowledge to establish knowledge of horse and human movements across the area.

Next week is the FHWA's first annual National Roundabout Week, and the following week is rail safety week. Meg contacted local transportation reporters to pitch stories regarding the benefits of traffic roundabouts and rail crossing safety.

Heavy Freeway Traffic Expected During NASCAR Weekend Sept. 13-16 in Las Vegas

LAS VEGAS, NEV. – The Nevada Department of Transportation (NDOT) urges motorists to avoid Interstate 15 northbound at Exit 54 during the South Point 400 weekend, which takes place Thursday, September 13, through Sunday, September 16, in Las Vegas. An estimated 25,000 additional vehicles and 100,00...

Hattie Igartua Is Project Neon / Kiewit closing down for this weekend or are they working?

Manage

LikeShow more reactions

Nevada Department of Transportation Hi Hattie Igartua! Because of the aggressive Project Neon schedule, there will be no disruptions to the construction schedule this weekend. However, there are no major closures.

Tony spoke with *Las Vegas Review-Journal* reporter Henry Brean about suicide related fatalities and closures on the Hoover Dam Bridge. Tony also spoke with ADOT Assistant Communications Director Steve Elliott about the article and same topic, including possible engineering prevention measures safeguarding against suicide from the bridge.

AMERICAN OVERSIGHT

Tony spoke with KLAS Channel 8 reporter Christin Drummond about a new Allstate Insurance report ranking Las Vegas drivers. Tony directed her to the Department of Public Safety PIO Andrew Bennett.

Tony spoke with *Pahrump Valley Times* reporter Jeffrey Meehan about the construction schedule and details about a $58.6 million, 6-mile-long State Route 160 widening and upgrade in southwest Clark County. Project plans call for expanding the asphalt highway from two to four travel lanes between Mile Markers 16 and 22, while rebuilding and paving the eastbound lanes from the western edge of the Mountain Springs Community to just before the Nye County line, among other improvements.

Tony spoke with KVVU Fox 5 News traffic anchor Ken Smith about detour routes for a U.S. 95 Durango Drive exit in northwest Las Vegas being closed, starting Sunday for a month.

Tony wrote and distributed the attached press release about a U.S. Highway 6 chip seal project and related traffic impacts starting September 10 in Nye County.

Tony wrote and distributed the attached press release about the U.S. Highway 95 Durango offramp closing for 30 days starting September 9 in northwest Las Vegas. The closure is needed to for the placement of storm drainage channel under the ramp.

Tony wrote and distributed a social media traffic alert letting motorists along S.R. 160 (Blue Diamond Road), near Mountain Springs between Mileposts 17 and 22 in Clark County, know that they could expect pilot car related delays for one-night as crews place barrier rail for a $59 million widening project https://bit.ly/2wJTRza

PRESS RELEASE

U.S. Highway 95 Durango Offramp 30-Day Closure Begins Sept. 9 in NW Las Vegas

LAS VEGAS, NEV. – The Nevada Department of Transportation (NDOT) will close the southbound U.S. Highway 95 Durango Drive offramp from 9 p.m., September 9, until 9 p.m., October 9, in northwest Las Vegas. The temporary closure is needed for the installation of concrete box storm drainage under the ramp as part of a $78 million, 6-mile-long widening and upgrade to U.S. Highway 95 between Ann and Kyle Canyon roads that broke ground earlier this year. Las Vegas Paving is the general contractor.

The project calls for placing 11,200 feet of concrete box storm drainage and 400 feet of open channel between the Centennial Bowl and Grand Teton Drive for the Clark County Regional Flood Control District, among other improvements. Construction is halfway done, with anticipated completion in the spring of 2019.

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. NDOT works with Waze to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

September 5, 2018

Tony Illia, NDOT Public Information Officer
Tel: (702) 385-6509 | E-mail: tillia@dot.nv.gov

PRESS RELEASE

U.S. Highway 6 Road Restrictions, Upgrade Begins Sept. 10 in Nye County

NYE COUNTY, NEV. – The Nevada Department of Transportation (NDOT) will upgrade a 24-mile stretch of U.S. Highway 6 between Mileposts 2 and 26 in Nye County from September 10 through September 26. Chip seal pavement improvements will take place from 6 a.m. until 6 p.m. daily, Monday through Thursday. A pilot car will safely escort motorists through the work zone whose speed limit will be reduced to 35-m.p.h. Construction will be a moving operation. Motorists could experience travel delays.

“We are applying layers of fresh oil and gravel that will prevent further roadway cracking and deterioration for a smoother, safer driving experience,” said NDOT spokesman Tony Illia. “It’s a cost-effective maintenance solution that extends the highway’s lifecycle.”

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. NDOT works with Waze to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

AMERICAN OVERSIGHT

TRAFFIC ALERT

I-15 Northbound closure Sept. 5-6

Special to the Las Vegas Tribune

The Nevada Department of Transportation (NDOT) will close northbound Interstate 15 between Spring Mountain Road and Sahara Avenue from 11 p.m., September 5, until 5 a.m., September 6, in downtown Las Vegas. Additional ramp closures include the following:

—The west and eastbound Spring Mountain Road onramps to Interstate 15 northbound will be closed from 9 p.m., September 5, until 6 a.m., September 6.

—The Flamingo Road onramp to Interstate 15 northbound will also be closed from 9 p.m., September 5, until 6 a.m., September 6.

Motorists are strongly encouraged to use the Waze app and take alternate routes, including U.S. Highway 95 and the 215 Beltway. The temporary closures are needed to install overhead Active Traffic Management signs as part of "The Main Event," the third and final phase of work for Project Neon's nearly $1 billion 4-mile-long widening of Interstate 15 from the U.S. 95 interchange to Sahara Avenue. Kiewit Infrastructure West Co. is the design-build general contractor, with Atkins North America as lead designer. Project Neon is 81 percent finished and scheduled for substantial completion in the summer of 2019.

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. Check the Project Neon website (NDOTProjectNeon.com) or Facebook, LinkedIn, and Twitter pages (@NDOTProjectNeon) for up to date information. There is also a free smart phone app available, plus a hotline available in both English and Spanish at: 702-293-NEON (6366). NDOT works with Waze to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

Repair contract awarded for flood damaged Nipton Road

Special to the Las Vegas Tribune

The Nevada Department of Transportation (NDOT) awarded a $3.45 million emergency contract to Las Vegas Paving to repair storm damaged Nipton Road (State Route 164), which closed on August 15 following flash flooding. A storm washed away portions of the east-west rural highway between Mile Markers 2 and 6.

The two-lane 18.6-mile-long roadway connects U.S. Highway 95 in southern Clark County, near Searchlight, to Nipton, California. The planned improvements, starting September 4, call for placing new roadbed, asphalt paving and installing new precast concrete box culvert for enhanced storm water drainage

The road will remain closed to through traffic while construction work occurs. Nipton Road sees less than 1,000 vehicles a day. Repairs are expected to finish in early November. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

AMERICAN OVERSIGHT

NV-DA-20-0615-A-004073

TRAFFIC ALERT

U.S. Highway 95 Kyle Canyon Interchange hits project milestone

Special to the Las Vegas Tribune

The Nevada Department of Transportation (NDOT) recently hit a midpoint project milestone for a $78 million U.S. Highway 95 corridor upgrade that broke ground earlier this year in northwest Las Vegas. General contractor, Las Vegas Paving, completed a new southbound U.S. Highway 95 bridge at Kyle Canyon Road (State Route 157) in Clark County.

The concrete cast-in-place structure measures 184 feet long — the length of two basketball courts laid end-to-end — and carries three lanes of traffic. Both directions of traffic will travel over the new southbound structure while construction of the northbound bridge continues. Work will finish in the spring of 2019

"This project will relieve congestion, improve efficiency and enhance safety in fast growing northwest Las Vegas, while providing capacity for future growth and development," said NDOT Director Rudy Malfabon. "Currently, over 52,000 vehicles daily travel through this corridor; however, traffic is expected to more than double over the next two decades."

The six-mile-long project calls for expanding the highway from four to six lanes from Durango Drive to Kyle Canyon Road, constructing Elkhorn Road carpool access ramps and building a diverging diamond interchange at Kyle Canyon Road with wrong way driver alert signs. Wrong-way detection signs have been proven to reduce wrong-way events by 38 percent, according to the Texas Transportation Institute.

Additionally, the project will place 11,200 feet of concrete box storm drainage and 400 feet of open channel between the Centennial Bowl and Grand Teton Drive for the Clark County Regional Flood Control District. The improvements will require moving enough dirt to fill 304 Olympic-sized swimming pools, placing enough concrete to pave 2,000 driveways, and use enough steel to build 100 Sherman tanks.

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. NDOT works to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

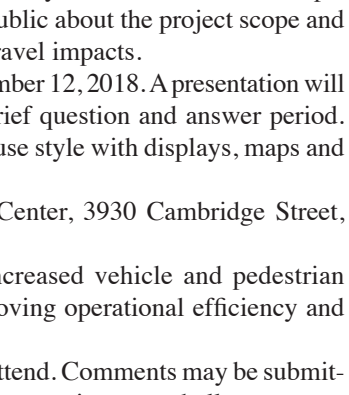
Tropicana Avenue Improvement Project Public Meeting Sept. 12

Special to the Las Vegas Tribune

The Nevada Department of Transportation (NDOT) is holding a public information meeting about planned East Tropicana Avenue (State Route 593) improvements between Las Vegas Boulevard and Boulder Highway, including an updated road surface, reconfigured median islands, enhanced lighting, and improved handicap accessibility with sidewalks and ramps. The meeting will inform the traveling public about the project scope and details as well as lane restrictions and travel impacts.

WHEN: 4-7 p.m., Wednesday, September 12, 2018. A presentation will be made at 5:30 p.m., followed by a brief question and answer period. The meeting will be conducted open house style with displays, maps and project staff



WHERE: Cambridge Community Center, 3930 Cambridge Street, Las Vegas, Nevada 89119.

WHY: This project will address increased vehicle and pedestrian travel in a mature urban corridor, improving operational efficiency and enhancing safety.

WHO: The public is encouraged to attend. Comments may be submitted for the public record in writing at the meeting or verbally to a court reporter who will be present at the meeting. (A Spanish translator will be available during the meeting). Written or emailed comments will be accepted through 5 p.m., Friday, September 28, 2018. Please direct comments to Devin Cartwright, P.E., Nevada Department of Transportation, 1263 S. Stewart St., Carson City, NV 89712; email: dcartwright@dot.nv.gov

SPECIAL ACCOMMODATION REQUESTS: Reasonable effort will be made to assist and accommodate physically handicapped person desiring to attend the meeting. Requests for auxiliary aids or services to assist individuals with disabilities or limited English proficiency should be made with as much advance notice as possible to: Julie Maxey, Public Hearings Officer, Nevada Department of Transportation, at (775) 888-7171 or jmaxey@dot.nv.gov

An outreach program to help the homeless to help themselves.

Meg distributed the attached press release regarding activation of USA Parkway/Electric Avenue signal.

Meg and NDOT maintenance supervisor Steve Cordle conducted an interview with 2 News regarding hiring for winter temporary maintenance workers.

Meg contacted 2 News to correct an inaccurate report about a wildland fire closing Pyramid Highway. The fire actually closed SR 447, potentially impacting any remaining traffic from last week's Burning Man event.

Meg distributed an update to 2 News traffic reporter Bryan Hofmann regarding a utility-related overnight ramp closure on Wells Avenue.

Meg contacted 2 News to correct an inaccurate report about a wildland fire closing Pyramid Highway. The fire actually closed SR 447, potentially impacting any remaining traffic from last week's Burning Man event.

Meg distributed an update to 2 News traffic reporter Bryan Hofmann regarding a utility-related overnight ramp closure on Wells Avenue.

Tony wrote and distributed the attached press release about an I-15 lane reduction and nightly closure of U.S. Highway 93 from September 10-12 in Clark County. The closure is needed for bridge construction of the new Garnet interchange, near Apex Industrial Park.

Tony wrote and distributed the attached press release and info-map about the I-15 northbound offramp to eastbound Charleston Blvd in Las Vegas closing for two months beginning Sunday. The closure is needed to reconstruct the Charleston Blvd exit, creating one seamless single ramp rather than the dual ramp configuration that currently exists. The work is part of "The Main Event," which is the third and most impactful phase of Project Neon.

Tony spoke with KVVU Fox 5 News anchor Cyndi Lundeberg about another fatality on the newly opened Interstate 11 being blamed on lighting. Tony explained that the new interstate meets all federal design standards, and scarce lighting is common for highways traveling through rural undeveloped areas.

Tony taped an episode of KNPR 88.9 FM's "State of Nevada" program in Las Vegas where he discussed Project Neon construction progress, toll roads, HOV lanes as well as Interstate 11's opening, fatalities, and future alignment. We additionally mentioned other projects underway, including U.S. Highway 95 Phase 2B/5, I-15 Starr interchange, and the I-15 Garnet interchange. They additionally discussed the forthcoming new Raiders Stadium and the future I-15 Tropicana Avenue interchange makeover.

Tony spoke with *Pahrump Valley Times* reporter Jeff Meehan about work starting on a $59 million widening and upgrade of State Route 160 between Mile Markers 16 and 22 in southern Clark County.

Tony spoke with KVVU Fox 5 News traffic anchor Ken Smith about a month-long closure of the southbound U.S. Highway 95 Durango Drive offramp starting Sunday in northwest Las Vegas. The closure is needed for placement storm channel underneath the ramp as part of the U.S. Highway 95 Phase 2B/5 project. Tony outlined the signed detour route.

PRESS RELEASE

I-15 Northbound Offramp to Charleston Blvd Eastbound Two-Month Closure Starts September 9 in Las Vegas

LAS VEGAS, NEV. – The Nevada Department of Transportation (NDOT) will close the northbound Interstate 15 offramp to eastbound Charleston Boulevard from 10 p.m., September 9, until mid-November in downtown Las Vegas. The closure is needed to reconstruct the Charleston Boulevard exit, creating a single seamless ramp instead of the current dual ramp configuration.

The work is part of "The Main Event," the third and final phase of work for Project Neon's nearly $1 billion 4-mile-long widening of Interstate 15 from the U.S. 95 interchange to Sahara Avenue. Kiewit Infrastructure West Co. is the design-build general contractor, with Atkins North America as lead designer. Project Neon is 81 percent finished and scheduled for substantial completion in the summer of 2019.

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. Check the Project Neon website (NDOTProjectNeon.com) or Facebook, LinkedIn, and Twitter pages (@NDOTProjectNeon) for up to date information. There is also a free smart phone app available, plus a hotline available in both English and Spanish at: 702-293-NEON (6366). NDOT works with Waze to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

PRESS RELEASE

I-15 Lane Reduction, U.S. 93 Nightly Closure Sept. 10-12 in Clark County

CLARK COUNTY, NEV. – The Nevada Department of Transportation (NDOT) will reduce Interstate 15 at U.S. Highway 93 to one lane in each direction from 7 p.m. until 7 a.m. nightly, starting the evening of September 10 and continuing through the morning of September 12, in Clark County. Additionally, U.S. Highway 93 will be closed under Interstate 15 during the same days and times; however, all Interstate 15 ramps will remain open.

The temporary closures are needed for bridge construction as part of the new $58 million Interstate 15 / U.S. Highway 93 Garnet Interchange project that broke ground earlier this year. Plans call for building a modified diverging diamond interchange, plus widening U.S. Highway 93 from a two-lane highway to a four-lane divided highway for five miles from the new Garnet Interchange to just north of Apex Power Parkway, among other improvements. Ames Construction is the design-build general contractor, with Horrocks Engineers as lead designer. The project should reach substantial completion by December.

Motorists should use caution while travelling through the work zone, heed construction signage, and take alternate detour routes, if possible. NDOT works with Waze to inform the public about planned highway restrictions, but unscheduled construction changes, closures and restrictions are possible due to weather or other factors. For the latest state highway conditions, visit nvroads.com or call 511 before driving.

NDOT TO ACTIVATE PERMANENT TRAFFIC SIGNAL AT USA PARKWAY AND ELECTRIC AVENUE

CARSON CITY, Nev. – Beginning this weekend, drivers will see a permanent traffic signal activated at USA Parkway and Electric Avenue as part of Nevada Department of Transportation improvements for smoother travel.

Beginning at 6 p.m. Friday, Sept. 7 through approximately 7 p.m. Saturday, Sept. 8, drivers will see intermittent single lane closures on USA Parkway at Electric Avenue as the traffic signal heads are installed and activated.

Drivers should be attentive and prepared to stop at the new signal. Motorists are advised to drive safely and attentively, yielding and following all traffic guidance from roadway signage and signals. Once activated, maintenance and operation of the signal will be under the purview of Storey County.

In addition to the new four-way signal, two left turn lanes have been installed from southbound USA Parkway to eastbound Electric Avenue. A dedicated merge lane has also been constructed allowing traffic to more safely merge from Electric Avenue onto northbound USA Parkway. The signal and turn lanes will allow for designated and safer turns for heavy commute traffic turning across USA Parkway to warehouse and manufacturing centers on Electric Avenue. Roadway lighting has also been improved.

In April, NDOT installed two temporary traffic signals at USA Parkway and Waltham Way, as well as the northbound USA Parkway intersection with the I-80 westbound off-ramp. Through the coming year, the temporary traffic signals will be removed and a permanent signal installed at the northbound USA Parkway intersection with the I-80 westbound off-ramp, providing designated turns for traffic turning from I-80 westbound to USA Parkway and reducing the potential of traffic back-ups on to the interstate.

State road project information is available at nevadadot.com or by dialing (775) 888-7000.

Andrew

How is this going with the Governor? I know you are engaged and I don't want to stick my nose into something you have under control but from the economic development perspective this could be bigger than Tesla and help to further diversity our economy in the long run. The O Zone is critical to this development. Lance and his gang will make no money off this designation as he has already sold off all of his land. Do you think it would help if I bring the Blockchain Inc. CEO, Jeff Berns, by to meet the Governor? He is willing to really engage and help the state in many ways but needs this designation.

Thanks

Mike

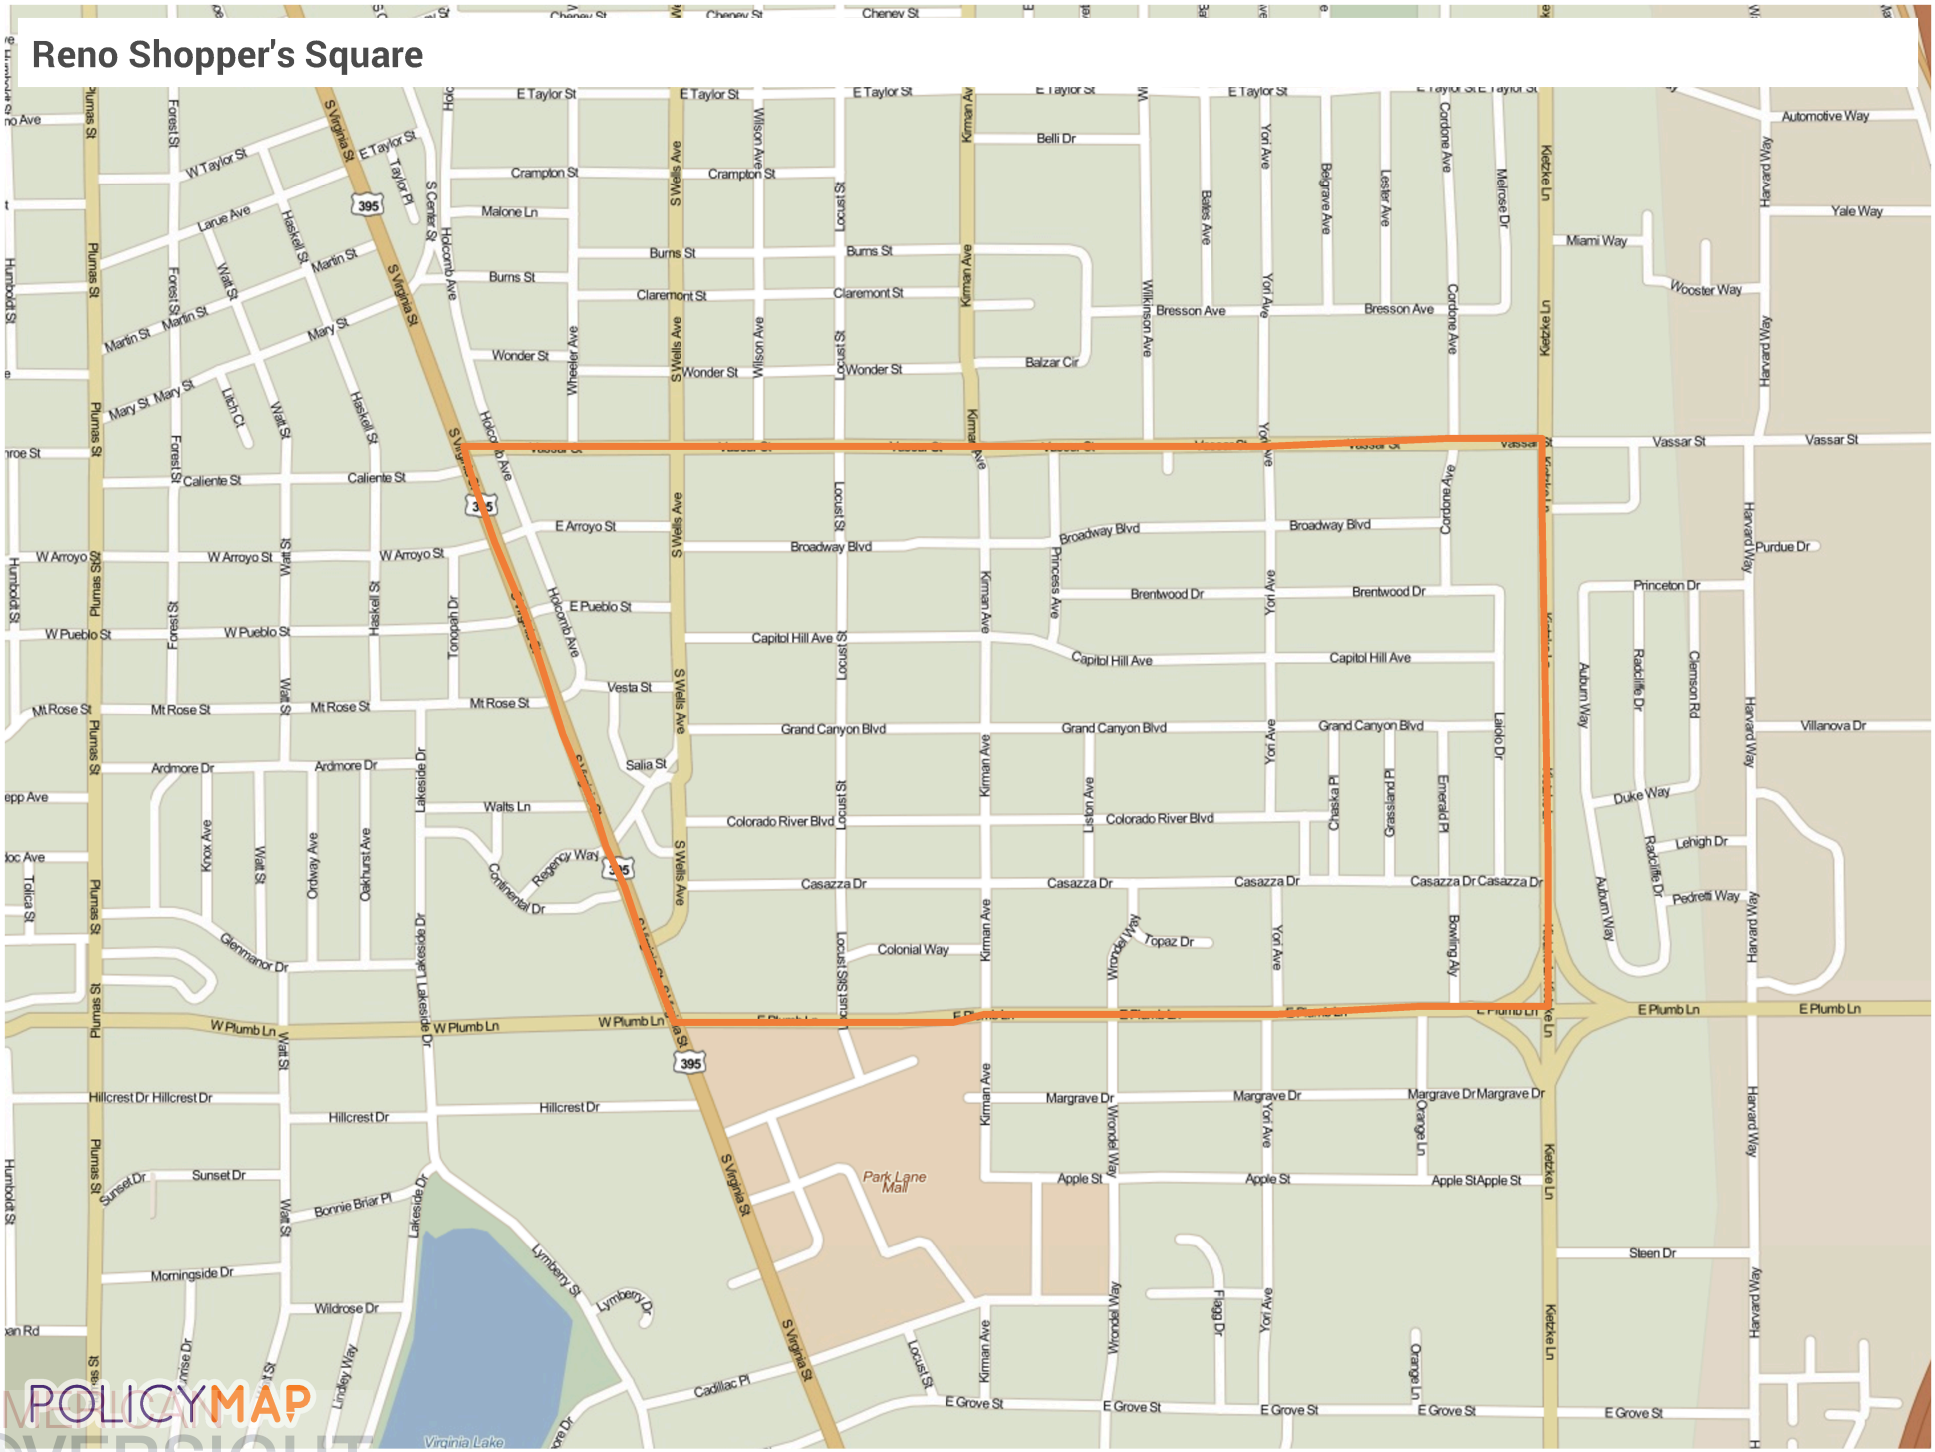
Gents,

This is a resend of our analysis from yesterday, so if you did not receive it originally read the thread below. Based on Jon Porter question regarding the Las Vegas World Trade Center, I just talked to Steve Hill and asked if the "South Convention Center" site could be a possible location for the trade center. Steve said there are no current plans for an actual building, but if a structure was planned, it might be part of the a planned replacement of the South Hall. So that may be why it was added.

AMERICAN OVERSIGHT

In any case, pushing back to GOED for a replacement of one of its two nominations may be the best choice. Otherwise the two NNDA-related site are attached as “Lyon Non-LIC (No Dayton Along US 50)” and “Ref 6 Reno Land & Crossroads Census Tract.”



The two Reno sites are also attached, but we largely left them out of our discussions.

Andrew

How is this going with the Governor? I know you are engaged and I don't want to stick my nose into something you have under control but from the economic development perspective this could be bigger than Tesla and help to further diversity our economy in the long run. The O Zone is critical to this development. Lance and his gang will make no money off this designation as he has already sold off all of his land. Do you think it would help if I bring the Blockchain Inc. CEO, Jeff Berns, by to meet the Governor? He is willing to really engage and help the state in many ways but needs this designation.

Thanks

Mike

Subject: FW: Nevada O-Zone Requested Nominations (Griffin Co - GSD Nevada)

Gents,

This is a resend of our analysis from yesterday, so if you did not receive it originally read the thread below. Based on Jon Porter question regarding the Las Vegas World Trade Center, I just talked to Steve Hill and asked if the "South Convention Center" site could be a possible location for the trade center. Steve said there are no current plans for an actual building, but if a structure was planned, it might be part of the a planned replacement of the South Hall. So that may be why it was added.

AMERICAN OVERSIGHT

In any case, pushing back to GOED for a replacement of one of its two nominations may be the best choice. Otherwise the two NNDA-related site are attached as “Lyon Non-LIC (No Dayton Along US 50)” and “Ref 6 Reno Land & Crossroads Census Tract.”

The two Reno sites are also attached, but we largely left them out of our discussions.

Signs of Strong Interest in 'Opportunity Zones,' as Investors Await Regulations

BILL LUCIA | "The number of dollars that are flooding to the space right now, far outpace the pace that we can actually deploy that capital responsibly," says an executive at one investment firm.

Investors and others interested in "Opportunity Zones" are eagerly awaiting federal regulations—expected out any day now—that are seen as a prerequisite for getting the nascent economic development program up to full speed. **Read full article »**

Bio

Kentaro Sonoura
Special Adviser to the Prime Minister Abe

A native of Takamatsu, Kagawa, and a graduate of the University of Tokyo, Kentaro Sonoura was elected to the House of Representatives for the first time in the 2005 general election. In 2007, he served as deputy director of Youth Division of LDP. After being elected for a second term in 2012, he became the director of number committees including Foreign Affairs and Security.

In 2013, he became chief secretary of Special Committee for Promotion of Women's Vitality of LDP. In 2014, he served as the parliamentary vice-minister for Foreign Affairs. In December, he was elected for a third term. In October 2015, Sonoura became the director of the Committee on Budget for the House of Representatives. In 2016, he served as the State Minister for Foreign Affairs. As of August 2017, he is the advisor to the prime minister for National Security. In October 2017, he was elected for a fourth term.

Great Eggspectations Networking Breakfast

Overview

In celebration of the diverse, internationally focused staff at governors' offices across the country, NGA Global will be hosting a breakfast for governors and their staff. Ambassadors from different countries will discuss how governors can better engage internationally. This will kick off the pre-conference day on international cooperation at the state level with delegations from all over the world.

Invitation was extended to Governors, Governors' staff and session participants.

Format

Informal buffet breakfast with networking.

Media

This session is open to press.

Rebuilding a Silk Road to Economic Development
Thursday, July 19
9:45 to 10:30 a.m.
La Fonda: Lumpkins Ballroom North

Rebuilding a Silk Road to Economic Development

Overview

Investors from China recognize the importance of subnational policy in their decisions. Governors, their economic development leaders and trade representatives across the country seek new and innovative ways to attract and retain Chinese investment. NGA hopes to bring these stakeholders together to discuss what policies can maintain and increase a sufficient level of Chinese investment.

In this panel, governors will pair with Chinese investors who have a presence in their state.

Format

- 9:45 a.m. Opening Remarks and Introductions
- 9:55 a.m. Panel
    - Ambassador Zhang, China Consul General
    - Governor TBD

Takeaway(s)

This session will provide governors the opportunity to hear from Chinese investors about the efforts they can directly take to increase investment in their states.

Media

This session is open to press.

AMERICAN OVERSIGHT

Thursday, July 19

9:45 – 10:30am

Rebuilding a Silk Road to Economic Development

This panel discussion will feature recent examples of U.S. – Chinese collaboration at the state level.

- Governor and State signed a number of state-provincial MOUs a few years ago. None have led to any concrete results.

- Challenge is the Chinese economy/government system almost requires that US states have a trade representative in-country, which is cost prohibitive.

AMERICAN OVERSIGHT

PANEL: U.S.-China Economic Ties, Growth, Strategies and Investment Opportunities
Thursday, July 19
10:45 to 11:45 a.m.
La Fonda: Lumpkins Ballroom North

PANEL: U.S.-China Economic Ties, Growth, Strategies and Investment Opportunities

Overview

Partnerships with China are increasingly important to the economies and citizens of many states. These partnerships benefit both the companies investing in the state and to the state's citizens. In addition, the partnerships contribute to the economic development of both countries at the national level.

Format

- 10:45 a.m. — Keynote Remarks
  - Chen Siqing, Chairman, Bank of China
- 11 a.m. — Panel Discussion
  - Governor Gary Herbert, Utah
  - Qi Bin, Executive Vice President, China Investment Cooperation
  - Raymond Qiao, EVP of Bank of China.

Media

This session is open to press.

Takeaway(s)

By committing to partnerships with Chinese actors, governors play a crucial role in the economic development in their own states, China and the nation as a whole. The goal of the session is to increase understanding of the importance of these U.S.-China partnerships in promoting and advancing economic development.

Presenter Bio

Chen Siqing

Chen Siqing is vice chairman of the Board of Directors of the Bank since April 2014 and president of the Bank since February 2014. Chen joined the Bank in 1990 and served as executive vice president of the Bank from June 2008 to February 2014. Chen held various positions in the Bank from June 2000 to May 2008, including assistant general manager, vice general manager of the Fujian Branch, general manager of the Risk Management Department of the Head Office and general manager of the Guangdong Branch. Chen previously worked in the Hunan Branch of the Bank before he was seconded to the Hong Kong Branch of China and South Sea Bank Ltd. as assistant general manager.

Since December 2011, Chen has been serving as a non-executive director of BOCHK (Holdings) and chairman of the board of directors of BOC Aviation. Currently, Chen also serves as chairman of the board of directors of China Culture Industrial Investment Fund Co., Ltd., vice chairman of China Chamber of International Commerce and director of Trade Finance Committee of China Banking Association. Chen graduated from Hubei Institute of Finance and Economics in 1982. He obtained an MBA from Murdoch University, Australia, in 1999. He is a certified public accountant.

Qi Bin

Qi Bin is the Executive Vice President, China Investment Cooperation. After graduating from Tsinghua University in 1991, Qi, 48, obtained a M.A. from the University of Rochester and a M.B.A. from the University of Chicago. After a stint at Goldman Sachs and other investment banks from 1996 to 2000, before returning to China to worked at the China Securities Regulatory Commission starting in 2000, as one of the first batch of overseas educated "returnees" to work at the agency. He pushed the launch of the Shanghai-Hong Kong Stock Connect program and is behind many other initiatives to simplify H-share regulatory approval and A-share's inclusion in the MSCI index.

Raymon Qiao, EVP of Bank of China

U.S. – China Economic Ties, Growth, Strategies and Investment Opportunities

High-level investors will discuss with governors, or their key staff, what is needed from the states to attract and retain Chinese investment during a panel discussion.

- Significant Chinese interest in investing in real estate in Nevada.

- Interests are expanding into established businesses, energy, consumer electronics, manufacturing.

- Significant Chinese presence at CES in Las Vegas each year. In 2017, Chinese companies made up 30% of over 4,000 exhibitors at CES in Las Vegas.

- Silver Springs water pipeline. Potential for foreign investment. Still in early stages. https://lyon-county.org/AgendaCenter/ViewFile/Agenda/_06082017-201

Around the World in 80 Plates
Thursday, July 19
Noon to 1:30 p.m.
La Fonda: Lumpkins Ballroom South
Invitation Extended to Governor and Governors' Staff

Around the World in 80 Plates

Overview

While the challenges of reaching agreements through engagements often occupy the international stage, food can serve as a tool to cross cultural differences. This soft power leads to a new sort of cultural diplomacy that promotes the sharing of values, traditions and worldviews.

NGA welcomes participants to come together for a lunch hosted by the Culinary Diplomacy Project. American chef Patrick Gharrity will create a meal that shares American culture and values with diplomats and governors from around the world.

Format

- Noon — Opening Remarks
  - Chef Patrick Gharrity
- 12:10 p.m. — Food Demo
- 12:25 p.m. — Lunch will be served

Takeaway(s)

Attendees will have the opportunity to enjoy the cross-cultural experience of sharing a meal together.

Media

This session is closed to press.

Joining with Japan: Strengthening Partnerships from an Ocean Away
Thursday, July 19
1:45 to 3:15 p.m.
La Fonda: Lumpkins Ballroom North

Joining with Japan: Strengthening Partnerships from an Ocean Away

Overview

Japanese investment serves as a driving force in many states' economies. Governors must seek new ways to adapt local economies to the changing conditions of the global economy. Among these solutions, building on the U.S.-Japanese partnership can create more economic opportunities for the citizens of both countries.

NGA will bring stakeholders together to discuss two major topics: How does workforce development policy help investment promotion and attraction; and what is the future of investment and affiliated challenges for Japanese companies looking to expand in the states? The Japan External Trade Organization (JETRO) will lead a discussion with senior executives representing Japanese manufacturing companies and U.S. governors, under the auspices of the Japanese government.

Format

- 1:45 p.m. — Welcome Remarks
  - Yasushi Akahoshi, President, Japan Trade External Organization (JETRO)
  - Kentaro Sonoura, Advisor to Prime Minister Abe
  - Shinsuke J. Sugiyama, Ambassador Extraordinary and Plenipotentiary of Japan to the United States of America
  - Shinji Hirai, Governor of Tottori
- 2 p.m. — Discussion
  - Ralph Inforzato, Chief Executive Director, Chicago Office, JETRO (moderator)
  - John Nunneley, Senior Vice President, Design Engineering; and General Manager, Farmington Hills Hitachi Automotive Systems
  - David B. Calabrese, Senior Vice President, Government Affairs; and Deputy General Manager, Washington, D.C. Office, Daikin U.S. Corporation
  - Governor Matt Bevin, Kentucky
  - Governor John Hickenlooper, Colorado (To Be Confirmed)

Takeaway(s)

Japanese leaders in trade and investment have important knowledge of the challenges and strategies of investment in the states. Governors will have the chance to discuss and learn best strategies for attracting new investment in their states.

Media

This session is closed to press.

Contact: Abigail Hunter, (202) 624-5301 or ahunter@nga.org

AMERICAN OVERSIGHT

Presenter Bios

Yasushi Akahoshi

Yasushi Akahoshi became president of JETRO on Oct. 1, 2015.

He most recently served as Minister of the Embassy of Japan in the United States of America for four years (2011-2015), where he oversaw diplomatic issues related to economy, trade, industry and energy.

Akahoshi began his government service at the Ministry of International Trade and Industry (MITI, later METI after 2001) in 1987. His career spans a wide range of public policy positions focused on international political-economy affairs, including those involving WTO and FTA issues, as well as several principal posts at the Agency for Natural Resources and Energy. He was also stationed at JETRO Singapore Centre as Regional Representative of METI for Asia (2004-2007).

Akahoshi is a graduate of The University of Tokyo where he received his LL.B. He also attended the International Career Associates Program at the School of International Relations and Pacific Studies (IR/PS) of the University of California, San Diego.

He is married and has two sons.

Kentaro Sonoura

A native of Takamatsu, Kagawa, and a graduate of the University of Tokyo, Kentaro Sonoura was elected to the House of Representatives for the first time in the 2005 general election. In 2007, he served as deputy director of Youth Division of LDP. After being elected for a second term in 2012, he became the director of number committees including Foreign Affairs and Security.

In 2013, he became chief secretary of Special Committee for Promotion of Women's Vitality of LDP. In 2014, he served as the parliamentary vice-minister for Foreign Affairs. In December, he was elected for a third term. In October 2015, Sonoura became the director of the Committee on Budget for the House of Representatives. In 2016, he served as the State Minister for Foreign Affairs. As of August 2017, he is the advisor to the prime minister for National Security. In October 2017, he was elected for a fourth term.

AMERICAN OVERSIGHT

Shinji Hirai

Governor Hirai was born in Kanda, Tokyo. He was first elected in 2007. He graduated from the University of Tokyo with the B.L. degree in 1984 and joined the Ministry of Home Affairs upon graduation.

There, he worked in prefectures including Hyogo, Fukui and Tottori.

As governor of the Tottori Prefecture, which has the lowest population in Japan, the governor's positive strategy is, "We can win even if we're small." The prefecture has a lot that could be promoted more worldwide for tourism, such as its beautiful nature, traditional Japanese culture and anime.

Daiki Nakajima

Daiki Nakajima is currently Project Manager for JETRO (Japan External Trade Organization) specializing in promoting bilateral investments between US and Japan. His role on the team requires following the market in various industries spanning from health care, energy, IT, agriculture and many more, both in the U.S. and Japan while assisting global expansion strategies for the target industry clients. Daiki also has roles at JETRO as the Japan Desk for the State of Massachusetts, based on the MOU between JETRO and the State, as well as bilateral government relations between US and Japan.

AMERICAN OVERSIGHT

Ralph A. Inforzato

In August 2017, Ralph Inforzato was appointed chief executive director of JETRO Chicago. In his position, he will oversee JETRO Chicago's activities designed to facilitate trade and investment between Japan and 12 Midwestern states served by JETRO Chicago.

Prior to his new position, Inforzato served as Executive Director, Business Development for JETRO Chicago. In this position he worked to implement JETRO's team-based projects to directly engage in assisting US business expansion to Japan. He initiated in-bound and out-bound technology collaboration for US & Japanese small and medium sized companies, which resulted in numerous business agreements. He also sustained the relationships that JETRO Chicago has with business, state government and university leaders.

For the last 33 years, Inforzato has been involved in significant JETRO related business development projects: Japan–U.S. Biotechnology Initiative (2002–2010), which has sent more than 500 representatives from North American life sciences companies, universities and research institutes to Japan, enabling them to initiate research collaboration and business development in the Japanese biotechnology and pharmaceutical communities. He is directly involved in the teams that implement JETRO's Japan service robotics business development projects and JETRO's Monozukuri program, a series of seminars focused on Japanese manufacturing philosophies for engineers in North American technology companies.

John Nunneley

John Nunneley is the general manager of Farmington Hills Office and senior vice president of Design Engineering for Hitachi Automotive Systems Americas, Inc. Nunneley has spent more than four years with Hitachi Automotive Systems in Japan and returned in 2016. While in Japan, Nunneley was deputy general manager of the Brake System Design Group and the Electronic Control Unit. Before going to Japan, he worked in the design engineering group for Hitachi Automotive Systems in Michigan from 1995 to 2011 on projects ranging from electronic throttle body to engine control units to HEV inverters.

David B. Calabrese

David B. Calabrese is the senior vice president for Government Affairs and deputy general manager of the Washington, D.C., office with Daikin U.S. Corporation. Daikin U.S. Corporation is a subsidiary of Daikin Industries, Ltd., the world's largest air conditioning equipment manufacturer. The Daikin Group in the United States also includes Daikin Applied Americas, Goodman Manufacturing Company, AAF-Flanders and Daikin America. In this role, Calabrese is responsible for the managing the organization's government affairs activities in North America with regard to federal regulatory, legislative and state activity in addition to standards.

Previously to his role at Daikin, Calabrese was the general counsel and senior vice president of Public Policy for the Air-Conditioning, Heating and Refrigeration Institute (AHRI). He also served as the Vice President of Government Relations for the Association of Home Appliance Manufacturers (AHAM) and was an attorney with the law firm Dewey Ballantine LLP practicing general corporate and international trade law. Calabrese earned his law degree from the George Washington University's School of Law and his master's degree in International Economics from the George Washington University's Elliott School of International Affairs.

AMERICAN OVERSIGHT

Thursday, July 19
1:45 – 3:15pm

Joining with Japan: Creating Partnerships from an Ocean Away

Japanese executives and governors will come together to discuss the future of workforce development and investment partnerships between our two countries

- GOED is working with JETRO (Japan External Trade Organization) to explore opportunities for trade. Will discuss and highlight Nevada Global.

- Governor Sandoval is planning to meet with the Japan National Governors Association at the end of August in Tokyo.

- This would be a great opportunity for Governor to highlight his efforts and successes around workforce development. (OWINN)

- The Office of Workforce Innovation helps drive a skilled, diverse, and aligned workforce in the state of Nevada by promoting cooperation and collaboration among all entities focused on workforce development.

- OWINN will partner with GOED's Nevada Global to assist international companies locating in Nevada with attaining and developing their required workforces.

AMERICAN OVERSIGHT

Building Bridges to the Future: State Leadership on Infrastructure Investment
Thursday, July 19
3:30 to 5 p.m.
La Fonda: La Terraza Room

Building Bridges to the Future: State Leadership on Infrastructure Investment

Overview

Infrastructure investment is critical to states' economies, environments and living standards. Governors play a vital role in shaping policy to strengthen states' infrastructure systems. NGA hopes to open a dialogue between international investors and governors on how to solve the U.S. infrastructure deficit. Private sector leaders will share best practices in transportation, energy and water infrastructures, as well as their possible financing models. Governors will present better avenues into the states.

****You are participating in the roundtable discussion.**

Format

- 3:30 p.m. Opening Remarks
  - Jon Phillips, Director, Corporate Affairs, Global Infrastructure Investors Association
- 3:45 p.m. Discussion
  - Mark Romoff, President and CEO, Canadian Council for PPPs
  - Fahad Al Hussain, CEO, TAQNIA International
  - James Wilmott, Morgan Stanley
  - Executive, PGGM (To Be Confirmed)
  - Executive, IFM (To Be Confirmed)
  - Andy Rose, CEO, Global Infrastructure Investors Association

Takeaway(s)

As the future of infrastructure buildout is increasingly falling to state actors, this session is designed to equip governors with creative alternatives to solve their states' infrastructure deficit.

Media

This session is closed to press.

Contact: Abigail Hunter, (202) 624-5301 or ahunter@nga.org

AMERICAN OVERSIGHT

Presenter Bios

Jon Phillips

Jon joined GIIA as the director of corporate affairs in September 2016 with a brief to develop and implement its communications strategy and to extend its membership base. Between 2005 and 2016, he was communications director for the Nuclear Decommissioning Authority, a UK government agency established to run the £3 billion a year nuclear clean-up program. Prior to that, Phillips spent 12 years at airport operator BAA Heathrow, which included leading on communications for the £4.2 billion T5 project during its planning and construction phases.

Mark Romoff

Mark Romoff is president and CEO of The Canadian Council for Public-Private Partnerships (CCPPP). Established in 1993, CCPPP's mission is to promote innovative approaches to infrastructure development and service delivery through public-private partnerships with all levels of government.

Previously, Romoff was founding president and CEO of the Ontario Centres of Excellence, Canada's leading innovation, technology commercialization and entrepreneurship development organization. Over his 25-year career with the government of Canada, Romoff served as executive director in the Department of Industry and as a senior diplomat in the Department of Foreign Affairs and International Trade, serving in Nigeria, Mexico, Malaysia, Japan and the United States.

He is a member of the board of directors of the Central Canadian Public Television Association (PBS-WNED), the Empire Club of Canada, the i-CANADA Governors Council; the World Economic Forum "Strategic Infrastructure Initiative" Advisory Committee and is vice chair of the United Nations Economic Commission for Europe Team of Specialists on Public-Private Partnerships Governing Council.

He earned a Bachelor of Science from McGill University, a master's in applied science from the University of Waterloo and is a graduate of the Harvard University Kennedy School of Government Senior Executives Program and the Directors Education Program of the Canadian Institute of Corporate Directors and holds the ICD.D (Certified Director) designation. Romoff is also a recipient of the 2012 Queen Elizabeth II Diamond Jubilee Medal.

AMERICAN OVERSIGHT

Fahad Al Hussain

Fahaad Alhussain is currently the CEO of TAQNIA International Company, a U.S.-based company with offices on both the east and west coasts. Before that, he was the CEO of TAQNIA Holding, the Saudi company for technological development and investment intended to be the arm of the Saudi government that will diversify the Saudi economy into knowledge-based industries. During his long career, he led the biggest merger in Saudi Arabia's internet service provider (ISP) industry: Alamialiah, Naseej and Alfasliah formed ISP AWALNET, which became the largest ISP in the Kingdom and eventually acquired by the largest telecomm provider in the region (STC).

He then went on to lead International System Engineering (ISE), an IT service company, and managed to turn it around in both revenue and size in less than two years to become a major IT service player for the government and defense sector.

Fahad is a well-known figure in the IT and telecommunication industry in Saudi Arabia and sits on the boards of several companies, including BADIR ICT. He is also chairman of Riyadh Chamber of Commerce ICT committee and serves as a consultant to many government and private organizations.

Andy Rose

Andy Rose is the inaugural chief executive of GIIA, having been appointed in April 2016. Prior to joining GIIA, he held several senior positions in both the public and private sectors in the UK. He previously ran the Homes & Communities Agency, the country's housing and regeneration agency, and has also been chief executive of Infrastructure UK in HM Treasury. Andy spent 17 years at Canadian Imperial Bank of Commerce, where he was managing director of investment banking with responsibility for the European infrastructure business. He was also a partner of AgFe, a leading debt advisory firm based in London.

James Wilmott

Jim Wilmott is a managing director and chairman of Europe for Morgan Stanley Infrastructure Partners ("MSIP"). A 29-year veteran of Morgan Stanley, Wilmott has been investing in principal transactions since 1996 across a range of asset classes and geographies. Since joining MSIP, he has taken significant roles in numerous transactions, including leading a Fund I consortium in acquiring Eversholt Rail Group. Wilmott also serves on the board of Chicago Parking Meters ("CPM") and served on the boards of Eversholt and Affinity prior to their sales.

Prior to joining MSIP, Wilmott was responsible for establishing Morgan Stanley's Principal Investing business in Europe, a special situations, on-balance sheet investment platform. Prior to this, he was Deputy Head of the Principal Investment Department that oversaw Princes Gate Investors, a series of global special situations equity funds that focused on growth and bridge equity, minority investments and structured equity investments. In this role, he spent over six years originating, structuring, managing and exiting investments across a wide variety of sectors and regions. Jim was also a founding member of the Morgan Stanley Bridge Fund, where he originated and managed high-yield bridge loans for four institutional investors, including Morgan Stanley.

AMERICAN OVERSIGHT

VIP Social Event
Thursday, July 19
5:00 – 6:00 p.m.
La Fonda: La Terraza
By Invitation Only

VIP Reception for Governors, Spouses, Foreign Delegations, Sponsors, NGA Partners and Special Guests

Overview

Governors, spouses, foreign delegations, NGA Partners, summer meeting sponsors and other invited guests are invited to join for a VIP cocktail reception to celebrate international cooperation.

Format

This reception will feature light hors d'oeuvres along with refreshments.

Media

This event is closed to press.

Contact: Bob Masciarelli, (202) 624-5355 or bmasciarelli@nga.org

AMERICAN OVERSIGHT

Social Event: A Celebration of Arts and Culture at Museum Hill
Thursday, July 19
6 to 8 p.m.
Museum Hill

A Celebration of Arts and Culture at Museum Hill

Overview

During this opening reception on the Museum Hill plaza, governors, their spouses, sponsors, partners, other meeting attendees and invited guests will experience a sampling of the prestigious Santa Fe Indian Market, the Spanish Market and the International Folk Art Market. In addition, two world-class museums, the Museum of International Folk Art and the Museum of Indian Arts and Culture, will be open to explore. This event will also showcase Native American and Southwestern cuisine and traditional dances from the Acoma, Jemez, Poaque and Zuni pueblos.

****You are giving opening remarks.**

Format

Note: There will be a private patio designated for governors, spouses and sponsors open throughout the event.

- Museums open to guests
    - Museum of Indian Arts and Culture, Museum of International Folk Art

- Art exhibits, demonstrations and sales
    - Southwestern Association for Indian Arts, International Folk Art Market, Museum of Spanish Colonial Arts
    - 10 artists representing each of the three different Santa Fe art markets
    - International artists: Africa (jeweler), Thailand (jeweler), Africa (indigo clothing), Ecuador (panama hats), Thailand (embellished clothing), India (scarves and clothing), Kyrgyzstan (felt and silk scarves), Swaziland (telephone wire baskets)

- Entertainment
    - Jemez Black Eagle and Dance Group (Buffalo and Deer Dances), Zuni Olla Maidens, Poaque Hoop Dancers, Acoma Rain Dancers

- Food and beverage
    - Food stations featuring Native American and New Mexican cuisine
    - Paleta wagon featuring fruit and cream paletas
    - Tasting booth featuring New Mexico Beekeepers Association products

Transportation

Governors may arrive by private vehicle; secured parking will be available. The venue address is 710-708 Camino Lejo, Santa Fe, N.M. All other attendees should utilize the shuttle service provided from all host hotels between the hours of 5:30 p.m. and 8:15 p.m.

Dress

Dress for this event is “Southwest casual.” Please note that this event will take place both indoors and outdoors. Closed-toe shoes and a light sweater or jacket are recommended.

Media

This event is closed to press.

Contact: Bob Masciarelli, (202) 624-5355 or bmasciarelli@nga.org

AMERICAN OVERSIGHT

Museum Hill

Thursday, July 19, 6-8 p.m.

Governor Sandoval

[OPEN WITH SANDOVAL]

WELCOME, EVERYONE, TO THE MISSION HILL MUSEUM. I HAD A GREAT FIRST DAY OF THE SUMMER MEETING AND I HOPE YOU ALL DID AS WELL.

AFTER A FULFILLING DAY, I'M GLAD WE HAVE THIS OPPORTUNITY TO RELAX AND ENJOY EACH OTHER'S COMPANY.

AS I LOOK AROUND THE MUSEUM, I REMEMBER THE SPIRIT OF THE WILD WEST. THE PIONEERS' FEARLESS ATTITUDE ABOUT ENTERING NEW FRONTIERS PROPELLED AMERICA INTO YEARS OF PROSPERITY.

AMERICAN OVERSIGHT

JUST LIKE OUR FOREBEARERS, WE ARE ENTERING A NEW FRONTIER, A FUTURE MARKED BOTH BY NEW INNOVATIONS AND NEW CHALLENGES.

AS GOVERNORS, OUR ROLE IS TO PREPARE OUR STATES FOR THE FUTURE, WHATEVER IT MIGHT HOLD.

I LOOK FORWARD TO SPEAKING WITH MANY OF YOU TONIGHT.

THANKS AGAIN AND ENJOY THE EVENING. I WOULD NOW LIKE TO INVITE GOVERNOR BULLOCK TO SAY A FEW WORDS.

AMERICAN OVERSIGHT

Friday Sessions

AMERICAN OVERSIGHT

NV-DA-20-0615-A-004143

Opening Plenary: Ahead of the Curve: Innovation Governors
Friday, July 20
8:50 to 10 a.m.
Convention Center: Sweeney Ballroom C-F

Opening Plenary: Ahead of the Curve: Innovation Governors

Overview

Governor Sandoval will formally open the Summer Meeting, welcome all participants to New Mexico and preside over the presentation of colors and the singing of our national anthem. Governor Susana Martinez of New Mexico will also offer opening remarks.

The session will then transition to an update for governors on the success of his initiative, *Ahead of the Curve: Innovation Governors.* Governor Sandoval will focus on his work in energy and transportation, as well as future technological trends of which governors should be aware.

Following Governor Sandoval's remarks on his initiative, he will invite John Krafcik, CEO of Waymo, Inc., a company under the Alphabet/Google umbrella focused on autonomous vehicles, for a fireside chat-style conversation, followed by an opportunity for governors to engage in the dialogue.

**** You are gaveling in the meeting, giving opening remarks, and moderating a discussion with the CEO of Waymo.**

Format

- 8:50 a.m. — Presentation of Colors and Singing of National Anthem
- 9 a.m. — Opening remarks
  - Governor Brian Sandoval, Nevada, Moderator
  - Governor Susana Martinez, New Mexico
- 9:15 a.m. — Discussion with John Krafcik, CEO, Waymo
- 10 a.m. — Adjourn

Takeaway(s)

This opening session will open the Summer Meeting. give attendees an update on the progress made on last year's initiative and look to the future of technology with autonomous vehicles.

Media

This session is open to press.

AMERICAN OVERSIGHT

Presenter Bio

John Krafcik

John Krafcik serves as CEO at Waymo. He served as self-driving car chief executive at Alphabet Inc. (alternate name Google Inc). since Sept. 30, 2015. Krafcik served as the president of TrueCar, Inc. from April 2014 to September 15, 2015 and served as its principal operating officer until Sept. 15, 2015. Krafcik served as the CEO and president of Hyundai Motor America, Inc. until Dec. 31, 2013.

Krafcik served as an acting CEO and acting president of Hyundai Motor America, Inc. starting in November 2008 and was responsible for implementation of strategic direction and management of operations. He served as vice president of Strategic Planning & Product Planning at Hyundai Motor America, Inc. from April 2004 to November 2008. He joined Hyundai from Ford Motor Company, where he worked for 14 years and held positions as chief engineer of Truck Chassis Engineering and chief engineer of Large and Premium Utility Vehicles. Before joining Ford Motor Company, Krafcik was the first American engineer hired by the GM and Toyota joint-venture partnership NUMMI and later became an industry expert on lean production while at MIT. He formed his own management consulting business and was a major contributor to The Machine That Changed the World. While at Ford, Krafcik held several key product development and planning positions on SUVs, trucks and commercial vehicles. From 1998 to 2002, he served as chief engineer for Large and Premium Vehicles, which included the Ford Expedition and Lincoln Navigator. He has experience in automobile manufacturing. He oversaw Ford's light truck chassis systems and helped launch the Ford F-150 pickup truck. He has been a director of TrueCar, Inc. since February 2014. Krafcik holds a Bachelor of Science degree in mechanical engineering from Stanford University and a Master of Science degree in management from the MIT Sloan School of Management.

AMERICAN OVERSIGHT

Opening Plenary

Friday, July 20, 9-10 a.m.

Governor Sandoval

[SANDOVAL OPENS]

GOOD MORNING GOVERNORS, DISTINGUISHED INTERNATIONAL VISITORS AND GUESTS FROM BUSINESS, INDUSTRY, ACADEMIA, THE FEDERAL GOVERNMENT, PHILANTHROPIES AND CIVIL SOCIETY.

WELCOME TO THE 2018 SUMMER MEETING OF THE NATION'S GOVERNORS IN BEAUTIFUL SANTA FE, NEW MEXICO!

[INSERT FOR PRESENTATION OF FLAG AND SINGING OF ANTHEM]

AMERICAN OVERSIGHT

I AM PLEASED TO ONCE AGAIN COME TOGETHER WITH MY COLLEAGUES TO LEARN ABOUT THE KEY ISSUES OF THE DAY, LIKE HOW TO PREPARE OUR WORKFORCE FOR INCREASING AUTOMATION, HOW TO CONTINUE TO GROW OUR ECONOMIES AND WHAT IT MEANS TO BE A GOVERNOR IN AN INCREASINGLY GLOBAL WORLD.

WE HAVE A SPECIAL SESSION ON WOMEN IN LEADERSHIP WHERE WE WILL HEAR FROM LEADING CEOS. WE WILL SHARE IDEAS ON HOW TO TACKLE TOUGH CHALLENGES SUCH AS THE PERSISTENT OPIOID CRISIS. AND WE WILL DISCUSS HOW, TOGETHER, WE CAN DEVELOP BI-PARTISAN APPROACHES TO IMPROVE THE LIVES OF ALL AMERICANS.

THANK YOU, GOVERNOR SUSANA MARTINEZ AND FIRST GENTLEMAN CHUCK FRANCO, FOR BEING WONDERFUL HOSTS AND SHOWING US A FANTASTIC TIME HERE IN THE LAND OF ENCHANTMENT.

AMERICAN OVERSIGHT

WE ARE LOOKING FORWARD TO SEVERAL EXCELLENT SOCIAL EVENTS TO COMPLEMENT OUR BUSINESS SESSIONS. GOVERNOR MARTINEZ, CAN YOU PLEASE SHARE WITH US YOUR WELCOMING REMARKS.

[TRANSITION TO SUSANA MARTINEZ]

[TRANSITION BACK TO SANDOVAL AND CHAIR'S INITIATIVE]

THANK YOU, GOVERNOR MARTINEZ, FOR YOUR HOSPITALITY AND ALL THE WORK YOU DO FOR THE PEOPLE OF NEW MEXICO.

I AM EXCITED TO KICK OFF OUR MEETING WITH A SESSION DEDICATED TO THE THEME OF MY CHAIR'S INITIATIVE: *AHEAD OF THE CURVE: INNOVATION GOVERNORS.*

I LOOK FORWARD TO ENGAGING ALL OF YOU IN A DISCUSSION OF HOW WE AS GOVERNORS CAN PREPARE OUR STATES FOR THE INCREDIBLE TECHNOLOGY THAT IS TRANSFORMING OUR TRANSPORTATION AND ENERGY SECTORS AND SO MANY OTHER ASPECTS OF OUR DAILY LIVES.

AMERICAN OVERSIGHT

IT HAS BEEN MY HONOR TO SERVE AS NGA CHAIR THIS PAST YEAR AND EXPLORE WITH YOU THE TOPIC OF TECHNOLOGY INNOVATION.

I STAND HERE TODAY CONFIDENT THAT THE FOURTH INDUSTRIAL REVOLUTION IS TRULY UPON US.

AND, THANKS TO YOUR ENGAGEMENT AND YOUR STAFF'S PARTICIPATION, WE ARE ALL MUCH BETTER PREPARED TO TACKLE THE MANY POLICY, WORKFORCE, COMMUNICATIONS, CYBER AND OTHER CHALLENGES THAT GO ALONG WITH OUR MOVE TO A MORE CONNECTED, DIGITAL WORLD.

AS I PROMISED AT THE NGA SUMMER MEETING IN PROVIDENCE LAST YEAR, WE ARE WELL ON OUR WAY TO BECOMING "INNOVATION GOVERNORS" AND STAYING AHEAD OF THE CURVE.

I'D LIKE TO SHARE WITH YOU A FEW HIGHLIGHTS OF THE PAST YEAR AND HOW NGA WILL CONTINUE TO ENGAGE STATES IN THE FUTURE.

AMERICAN OVERSIGHT

WE'VE CAPTURED A FEW SPECIAL SCENES IN THE PLACEMAT YOU SEE BEFORE YOU. YOU'LL SEE THERE, THE LIST OF SPONSORS THAT HAVE PROVIDED INVALUABLE SUPPORT TO BOLSTER OUR EFFORTS. [NGA WILL HAVE PLACEMATS IN FRONT OF EACH OF THE GOVERNORS WITH THE "ABOUT THE INITIATIVE" SIDE SHOWING.]

WE BEGAN THE INITIATIVE IN RENO, NEVADA, WHERE WE GATHERED TO MAP OUT THE INITIATIVE AND TOUR THE STATE-OF-THE-ART SWITCH DATA CENTER, JUST AROUND THE CORNER FROM THE TESLA GIGA-FACTORY, HOME TO THE WORLD'S LARGEST PRODUCER OF LITHIUM-ION BATTERIES.

WHO COULD FORGET WHEN WE LAUNCHED THE INITIATIVE LAST JULY WITH A THOUGHT-PROVOKING DISCUSSION WITH TESLA CEO ELON MUSK AND A DRONE-DELIVERED GAVEL?

AMERICAN OVERSIGHT

WE THEN DOUBLED DOWN ON EXPLORING ENERGY INNOVATION THROUGH AN ENERGY INNOVATION SUMMIT HOSTED BY GOVERNOR HICKENLOOPER IN DENVER, THAT EXAMINED HOW SMART GRID TECHNOLOGIES, DISTRIBUTED GENERATION, ENERGY STORAGE, SENSORS FOR COAL AND NATURAL GAS OPERATIONS AND OTHER TECHNOLOGIES ARE CREATING AN ELECTRICITY SYSTEM THAT IS SAFER, MORE EFFICIENT, CLEANER AND MORE RESILIENT.

WE SAW THE LATEST TECHNOLOGIES IN ACTION AT THE SOLAR DECATHLON – IN NET-ZERO-ENERGY-USE HOUSES, BUILT BY COLLEGE STUDENTS NO LESS.

WE GATHERED AGAIN IN LAS VEGAS, NEVADA, FOR A TRANSPORTATION INNOVATION SUMMIT, WHERE WE WERE HOSTED BY THE CONSUMER TECHNOLOGY ASSOCIATION AT CES, THE WORLD'S LARGEST TECHNOLOGY SHOWCASE AND HEARD FROM THOUGHT-LEADERS ABOUT THE INCREDIBLE ADVANCEMENTS IN AUTONOMOUS VEHICLES, ELECTRIC VEHICLES, RIDE SHARING AND DRONES.

AMERICAN OVERSIGHT

WE TOOK RIDES IN AN AUTONOMOUS SHUTTLE AND IT WAS MY PLEASURE TO BE JOINED AT CES BY GOVERNOR BULLOCK AND GOVERNOR SNYDER TO HIGHLIGHT HOW STATES ARE TRULY THE LABORATORIES OF INNOVATION.

AT OUR NGA 2018 WINTER MEETING, I WAS THRILLED TO HAVE IBM CEO GINNI ROMETTY JOIN ME TO DISCUSS INNOVATION IN COMPUTATION AND STRATEGIES TO PREPARE THE WORKFORCE AND TO GIVE US ALL THE "BLOCKCHAIN FOR DUMMIES" LESSON WE'VE BEEN TOO AFRAID TO REQUEST.

IN TOTAL, WE ENGAGED OVER 150 OFFICIALS FROM A TOTAL OF 39 STATES AND HELPED THEM DEVELOP IDEAS FOR KEY ACTIONS TO IMPLEMENT BACK HOME.

WE ALSO ENGAGED ADDITIONAL THOUGHT-LEADERS AS PART OF AN AHEAD-OF-THE-CURVE PODCAST. I HOPE YOU WILL ALL GIVE IT A LISTEN ON YOUR TRAVELS BACK HOME.

AMERICAN OVERSIGHT

LAST BUT NOT LEAST, WE HELD A SPECIAL ROUNDTABLE AT DELOITTE'S INNOVATION GREENHOUSE IN SAN JOSE, TO GATHER INPUT ON A GROUNDBREAKING SET OF STATE INNOVATION ROADMAPS THAT I AM PLEASED TO PRESENT TO YOU TODAY.

IF YOU FLIP YOUR PLACEMATS TO THE OTHER SIDE, [PAUSE TO FLIP PLACEMATS] YOU WILL SEE A SNAPSHOT OF THOSE ROADMAPS—ONE COVERS TRANSPORTATION INNOVATION AND ONE COVERS ENERGY INNOVATION.

WE HAVE PRINTED COPIES OF EACH FOR YOU AS WELL, AND WE HOPE YOU WILL FIND THEM USEFUL TOOLS THAT PROVIDE YOU WITH A MENU OF OPTIONS TO DEVELOP YOUR OWN INNOVATION STRATEGIES.

[SMARTER STATES LAUNCH]

AMERICAN OVERSIGHT

WHILE MY INITIATIVE IS FORMALLY COMING TO AN END, WE KNOW THAT STATES CONTINUE TO SEEK WAYS TO TAKE ADVANTAGE OF NEW TECHNOLOGIES.

I AM PLEASED TO ANNOUNCE THAT TODAY, AS A LEGACY TO AHEAD OF THE CURVE, THE NATIONAL GOVERNORS ASSOCIATION IS LAUNCHING A NEW *SMARTER STATES, SMARTER COMMUNITIES* INITIATIVE.

THIS MULTIYEAR EFFORT TO HELP STATES USE DATA ANALYTICS, ADVANCED COMMUNICATIONS NETWORKS AND CONNECTED TECHNOLOGIES TO IMPROVE SAFETY, MOBILITY, EFFICIENCY AND PRODUCTIVITY FOR THE CITIZENS OF THEIR STATES.

THE EFFORT WILL START WITH A NGA LEARNING LAB LATER THIS YEAR, WHERE GOV. RAUNER SET OUT TO MAKE ILLINOIS THE FIRST "SMART STATE" AND ASKED NGA TO HELP DEVELOP A COHORT OF SMARTER STATES SO THAT WE CAN LEARN FROM EACH OTHER.

AMERICAN OVERSIGHT

I'M PLEASED TO ANNOUNCE THAT NGA HAS SELECTED THE STATES OF XX, XX, XX AND XX, [WILL HAVE FINALIZED THESE BY JULY 13] TO BE PART OF THAT FIRST COHORT.

WE APPRECIATE THE SUPPORT OF CROWN CASTLE, SAS, SIEMENS, VERIZON AND THE DEPARTMENT OF ENERGY [ADD MORE NAMES AS SPONSORS ARE FINALIZED] IN HELPING CREATE SMARTER STATES, SMARTER COMMUNITIES.

I HOPE YOU ALL TAKE SOME TIME TO VISIT THE SMARTER STATES EXPO AT THIS MEETING, WHERE LEADING TECHNOLOGY INNOVATORS WILL BE DEMONSTRATING SMART TECHNOLOGIES IN ACTION.

[MARBLE ROBOT DEMONSTRATION]

AMERICAN OVERSIGHT

WHILE I COULD FILL THE REST OF THE HOUR DESCRIBING TO YOU THE CONVERSATIONS WE HAD AND EXCITING TECHNOLOGY WE EXPERIENCED, I WOULD RATHER BRING YOU A LITTLE INNOVATION IN ACTION.

I NOW WELCOME TO THE MEETING FOR THE FIRST TIME, A SIDEWALK ROBOT.

THIS ROBOT OFFERS A GLIMPSE INTO THE FUTURE WHEN MEDICINES, GROCERIES AND OTHER ITEMS OF DAILY NEED WILL COME TO US BY AUTONOMOUS ROBOTS SUCH AS THIS ONE DEVELOPED BY THE MARBLE COMPANY BASED IN SAN FRANCISCO, CALIFORNIA.

I'M PLEASED THAT MARBLE CEO MATT DELANEY COULD JOIN US HERE TODAY.

AMERICAN OVERSIGHT

AS WE PLAY A SHORT VIDEO THAT SHOWS THE CAPABILITIES OF THE ROBOT IN MORE DETAIL, IT WILL HELP ME DELIVER TO YOU A SPECIAL GIFT TO HELP YOU REMEMBER THE GREAT STATE OF NEVADA.

[MARBLE ROBOT WILL LEAVE THE ROOM]

[TRANSITION TO FIRESIDE CHAT]

NOW, I PROMISED YOU A GREAT DISCUSSION TODAY AND I KNOW I CAN DELIVER WITH OUR NEXT GUEST.

A KEY ISSUE OF THIS INITIATIVE HAS BEEN AUTONOMOUS VEHICLES AND THE IMPACTS THEY WILL HAVE ON OUR LIVES.

MY OWN CLAIM TO FAME IS THAT I WAS THE FIRST GOVERNOR TO RIDE IN AN AUTONOMOUS CAR, BACK IN 2011.

AMERICAN OVERSIGHT

IT WAS KNOWN THEN AS THE "GOOGLE CAR" AND THE COMPANY HAS SINCE SPUN OUT THIS SPECIAL PROJECT INTO THE COMPANY THAT IS WAYMO TODAY.

IF YOU ARE NOT FAMILIAR WITH WAYMO, WE HAVE A BRIEF VIDEO TO INTRODUCE YOU A LEADER IN SELF-DRIVING CAR TECHNOLOGY.

[VIDEO PLAYS FOR 90 SECONDS]

I AM VERY PLEASED TO HAVE THE CEO OF THIS INNOVATIVE COMPANY, JOHN KRAFCIK, JOINING US THIS MORNING.

I HAD THE GREAT PLEASURE OF MEETING JOHN DURING MY RECENT TRIP TO SAN JOSE AND WAS INSPIRED BY THE VISION HE HAS FOR A SAFER, AUTONOMOUS FUTURE.

PLEASE JOIN ME IN WELCOMING JOHN TO THE STAGE FOR A FIRESIDE CHAT THAT WE'LL FOLLOW UP WITH SOME Q&A WITH THE GOVERNORS.

AMERICAN OVERSIGHT

[KRAFCIK JOINS SANDOVAL ON STAGE]

THANK YOU FOR JOINING US JOHN. WE ARE VERY EXCITED TO HAVE YOU WITH US TODAY.

WAYMO IS ON THE LEADING EDGE OF DEVELOPING AUTONOMOUS VEHICLE TECHNOLOGY, BUT, I SUSPECT THAT SOME GOVERNORS MAY NOT REALIZE THAT WAYMO HAS BEEN LEADING IN THIS SPACE FOR NEARLY A DECADE.

[TRANSITION TO Q & A]

CAN YOU SHARE WITH US HOW WAYMO WAS FOUNDED, AND WHAT MAJOR PROJECT IS IN THE WORKS? AND BEFORE WE DO A DEEP DIVE ON HOW THIS REVOLUTIONARY TECHNOLOGY WILL IMPACT OUR LIVES, CAN YOU GIVE US A BRIEF PRIMER ON THE TECHNOLOGY BEHIND YOUR AUTONOMOUS VEHICLES?

AMERICAN OVERSIGHT

[JOHN KRAFCIK ANSWER]

THE VIDEO WE JUST SAW SHOWED THE WAYMO CARS ON THE ROAD IN A STATE RIGHT NEXT DOOR TO HERE, IF I AM NOT MISTAKEN? CAN YOU TALK ABOUT WHAT WAYMO HAS LEARNED FROM THE RIDERS, AND HOW THEY ARE REACTING TO TRAVELING IN AN AUTONOMOUS VEHICLE?

[JOHN KRAFCIK ANSWER]

THERE WAS A BELIEF THAT MANY IN THE TECHNOLOGY SECTOR WHO WERE PUSHING THIS ENVELOPE WOULD COME OUT WITH THEIR OWN VEHICLES AND COMPETE WITH THE LEGACY AUTO COMPANIES, BUT IT SEEMS LIKE THE OPPOSITE HAS OCCURRED. WAYMO AND OTHERS ARE ENTERING INTO AGREEMENTS TO PURCHASE VEHICLES FROM EXISTING COMPANIES AND USE THEIR SOFTWARE EXPERTISE TO MODIFY THEM TO BE AUTONOMOUS.

AMERICAN OVERSIGHT

CAN YOU TALK ABOUT THE RECENT ANNOUNCEMENTS FROM WAYMO ABOUT THE PURCHASE OF VEHICLES, AND WHY YOU HAVE TAKEN THIS PATH INSTEAD OF DEVELOPING YOUR OWN VEHICLES FROM SCRATCH?

[JOHN KRAFCIK ANSWER]

WITH SUCH A LARGE FLEET OF VEHICLES ON THE ROAD, HOW ARE YOU GOING TO MANAGE CLEANING AND MAINTAINING THE VEHICLES, AND WHERE WILL THEY BE STORED DURING SLOW PERIODS? RIGHT NOW, IT FALLS TO THE DRIVER TO CLEAN THEIR CAR AND BRING IT IN FOR TUNE-UPS AND OIL CHANGES, AND PARK IT IN A GARAGE, ON THE STREET, OR IN A DRIVEWAY.

WILL WAYMO ESTABLISH VEHICLE DEPOTS LIKE HOW TRANSIT DISTRICTS HAVE LARGE BUS DEPOTS OR RAIL YARDS?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

WHILE ON THE TOPIC OF THE VEHICLES, CAN WE TALK ABOUT THE PROPULSION? LAST SUMMER WE HAD ELON MUSK WITH US, AND HE TALKED ABOUT THE FUTURE BEING BOTH AUTONOMOUS AND ELECTRIC.

IN NEVADA, WE HAVE MADE A CONCERTED EFFORT TO PREPARE FOR THE INCREASE OF EVS BY BUILDING OUT AN ELECTRIC HIGHWAY SYSTEM TO ELIMINATE RANGE ANXIETY FOR DRIVERS. IS WAYMO PREPARING FOR A FLEET OF EVS?

[JOHN KRAFCIK ANSWER]

I IMAGINE THE ENGINES MAY BE EASIER TO MAINTAIN THAN A FLEET FOR TRADITIONAL VEHICLES IN USE ALL DAY LONG.

I THINK ALL OF US ARE INTRIGUED BY THE CONCEPT OF SELF-DRIVING VEHICLES, AND 36 STATES HAVE EITHER ENACTED LEGISLATION OR EXECUTIVE ORDERS TO ESTABLISH GUIDELINES FOR THEIR TESTING AND OPERATION, WITH NEVADA BEING THE FIRST OF COURSE, BACK IN 2011.

AMERICAN OVERSIGHT

ONE OF THE GREATEST POTENTIAL BENEFITS OF THIS TECHNOLOGY IS THE POTENTIAL TO SIGNIFICANTLY REDUCE THE TRAFFIC FATALITIES OUR NATION SEES EVERY YEAR, A STAGGERING 37,461 LIVES LOST IN 2016, OR ABOUT ONE DEATH EVERY MINUTE.

RECENTLY, THOUGH, WE HAVE ALL SEEN THE NEWS ABOUT ACCIDENTS OR INCIDENTS INVOLVING AUTONOMOUS VEHICLES WHICH HAS SPURRED DEBATE ABOUT THE SAFETY OF HAVING THESE VEHICLES ON THE ROADS TODAY.

HOW DO YOU RESPOND TO THESE CONCERNS? IS IT TIME TO SLOW DOWN AND DO MORE VIRTUAL TESTING, INSTEAD?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

THE ROADMAP ON TRANSPORTATION INNOVATION WE HAVE RELEASED TODAY GOES INTO GREAT DEPTHS ON THE POTENTIAL BENEFITS, CHALLENGES AND CONCERNS THAT STATES NEED TO GRAPPLE WITH AS AUTONOMOUS VEHICLES ENTER THE TRANSPORTATION SYSTEM.

THESE RANGE FROM IMPROVED SAFETY ON THE ROADS AND INCREASED PRODUCTIVITY FOR WORKERS, TO INCREASED VEHICLE MILES TRAVELED AND THE POTENTIAL LOSS OF JOBS DUE TO AUTOMATION.

CAN YOU TALK ABOUT SOME OF THE BENEFITS THIS TECHNOLOGY? DO YOU HAVE ANY CONCERNS ABOUT THE TECHNOLOGY? HOW CAN THOSE BE ADDRESSED THROUGH PREEMPTIVE POLICY CHANGES?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

HOW CAN WE IN THE GOVERNMENT, OR YOU IN THE PRIVATE SECTOR OR MAYBE BOTH OF US IN A PARTNERSHIP EDUCATE THE PUBLIC ABOUT THIS TECHNOLOGY, ITS BENEFITS AND THE FUTURE THAT IS ON THE HORIZON?

[JOHN KRAFCIK ANSWER]

THERE WAS A RECENT ANNOUNCEMENT THAT WAYMO HAS TEAMED UP WITH UBER, FORD AND OTHERS IN THIS SPACE TO LOOK AT THE IMPACTS OF AUTONOMOUS VEHICLES ON THE NATION'S WORKFORCE.

THE IMPACT OF THIS TECHNOLOGY ON JOBS IS SOMETHING WE HEAR FROM MANY GOVERNORS.

CAN YOU TALK BRIEFLY ABOUT THIS PARTNERSHIP AND HOW WE CAN PROACTIVELY ADDRESS THIS ISSUE?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

ONE THING I WANT TO GET YOUR THOUGHTS ON IS TIED TO THE TIMELINE OF THE TECHNOLOGY.

SELF-DRIVING CARS ARE CLEARLY GOING TO CHANGE TRAFFIC PATTERNS AND TRANSPORTATION CHOICES.

WE PROBABLY WON'T NEED AS MANY PARKING GARAGES, WE MIGHT NOT NEED HIGHWAY LANES TO BE AS WIDE AS THEY ARE, AND METERED PARKING SPOTS MAY BECOME EXTINCT.

HOWEVER, AS GOVERNORS WE ARE ROUTINELY FACED WITH MAKING DECISIONS ABOUT INFRASTRUCTURE INVESTMENTS THAT HAVE A LIFESPAN OF 30, 50 OR EVEN 75 YEARS.

ARE WE BUILDING THINGS TODAY WE WILL NOT NEED 20 YEARS FROM NOW, AND IF SO, HOW CAN WE MAKE SURE WE ARE NOT LEAVING OUR CHILDREN WITH STRANDED ASSETS THEY DO NOT NEED BUT MUST CONTINUE TO PAY FOR?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

ARE THERE THINGS WE SHOULD BE INVESTING IN TODAY THAT ARE NOT A PRIORITY FOR OUR STATE AND LOCAL GOVERNMENTS, OR ARE THERE CHANGES WE SHOULD MAKE TO THE INFRASTRUCTURE WE ARE BUILDING TODAY?

[JOHN KRAFCIK ANSWER]

GOVERNORS LIKE TO BE ACTIVE. WE TOOK THESE JOBS BECAUSE WE WANT TO GET THINGS DONE.

WE WANT TO MAKE LIFE BETTER FOR OUR CITIZENS, IMPROVE THE OPPORTUNITIES FOR OUR EMPLOYERS, ENHANCE THE SAFETY, RELIABILITY AND RESILIENCY OF OUR INFRASTRUCTURE AND, YES, LEAVE A BETTER WORLD FOR ALL OUR CHILDREN.

WHAT ADVICE WOULD YOU GIVE TO GOVERNORS FOR THE ACTIONS THEY CAN TAKE TO PROMOTE TRANSPORTATION INNOVATION WHILE PROTECTING THE PUBLIC?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

[BEGIN Q & A WITH GOVERNORS]

I WOULD LIKE TO INVITE OTHER GOVERNORS TO JOIN IN THE DISCUSSION AND SHARE THEIR QUESTIONS ABOUT INNOVATION WITH JOHN.

[SANDOVAL—CLOSING]

PLEASE JOIN ME IN THANKING JOHN FOR HELPING US LEARN MORE ABOUT WHAT WE AS GOVERNORS CAN DO TO STAY AHEAD OF THE CURVE AND PREPARE OUR STATES AND THE CITIZENS WE SERVE FOR THE FUTURE.

I HOPE EVERYONE ENJOYED THE CONVERSATION AND IS READY FOR MORE TO COME THROUGHOUT THE WEEKEND. STAY TUNED FOR OUR NEXT PLENARY HERE SHORTLY. THANK YOU.

AMERICAN OVERSIGHT

Plenary Session II: Racial Equity in the Workplace
Friday, July 20
10:10 to 10:50 a.m.
Convention Center: Sweeney Ballroom C-F

Plenary Session II: Racial Equity in the Workplace

Overview

This fireside chat, featuring W.K. Kellogg Foundation CEO La June Montgomery Tabron explores the significant economic and social gains to be made by closing the racial equity gap in the U.S.

Format

- 10:10 a.m. — Opening remarks and introductions
  - Governor Bullock
- 10:15 a.m. — Discussion with CEO La June Montgomery Tabron and Governor Bullock
- 10:50 a.m. — Adjourn

Takeaway(s)

This discussion is designed to focus on the issues of racial equity and equality in the workplace when it comes to ensuring Good Jobs for All Americans.

Media

This session is open to press.

Contact: Tiffany Shackelford, (202) 624-5346 or tschackelford@nga.org

AMERICAN OVERSIGHT

Presenter Bio

La June Montgomery Tabron

La June Montgomery Tabron is the president and CEO of the W.K. Kellogg Foundation (WKKF) in Battle Creek, Mich., one of the largest private foundations in the United States.

As a champion for vulnerable children and for creating the conditions necessary for them to thrive, Tabron leads the Kellogg Foundation and its work to support thriving children, working families and equitable communities. The Kellogg Foundation works to heal the profound racial inequities in communities, cultivate community leaders and foster community engagement on behalf of children.

Prior to becoming the first African-American president and CEO to lead the foundation in its history, she served in a variety of positions at the Kellogg Foundation after joining the organization as the controller in 1987. Most recently, she was the executive vice president of operations and treasurer, where she was pivotal in connecting and integrating WKKF's leadership committees: the Executive Council, Program Leadership Council, Talent Board and Organizational Advisory Team, ensuring unified execution of the organization's mission and strategic framework across all programmatic and priority place areas. She also provided leadership for WKKF's place-based grantmaking in Mississippi and New Orleans since 2011, launching a significant effort to help set young males of color on the path to success in 2013.

Other earlier positions at WKKF included: chief operating officer and treasurer; senior vice president/chief financial officer and treasurer; vice president – finance and treasurer; and assistant vice president for finance and assistant treasurer. Prior to joining WKKF, she was an auditor for Plante & Moran CPAs.

Throughout almost 30 years in philanthropy, Tabron has participated in numerous sector efforts to enhance philanthropy, including the policy and annual conference committees for the Council on Foundations and the board development and transparency committees for Independent Sector.

As a community and civic leader, Tabron serves on Detroit Workforce Development Board, the Alumni Association of the University of Michigan Board and is a member of the Kalamazoo Chapter of the Links, Incorporated. She also serves on the boards of Battle Creek Community Health Partners, Bronson Healthcare Group and the Kellogg Company. Tabron is also the chair of the W.K. Kellogg Foundation Trust.

Tabron holds a bachelor's degree in business administration from the University of Michigan – Ann Arbor and an MBA from the Kellogg Graduate School of Management at Northwestern University. She also received an honorary doctorate of humane letters from Marygrove College in Detroit and an honorary doctorate from Union Institute & University. She is a certified public accountant and certified management accountant licensed in Michigan. She is also a graduate of the inaugural class of the Council on Foundations' Career Pathways Program.

The W.K. Kellogg Foundation (WKKF), founded in 1930 as an independent, private foundation by breakfast cereal pioneer Will Keith Kellogg, is among the largest philanthropic foundations in the United States. Guided by the belief that all children should have an equal opportunity to thrive, WKKF works with communities to create conditions for vulnerable children so they can realize their full potential in school, work and life. The Kellogg Foundation is based in Battle Creek, Mich., and works throughout the United States and internationally, as well as with sovereign tribes. Special emphasis is paid to priority places where there are high concentrations of poverty and where children face significant barriers to

AMERICAN OVERSIGHT

success. WKKF priority places in the U.S. are in Michigan, Mississippi, New Mexico and New Orleans; and internationally, are in Mexico and Haiti. For more information, visit www.wkkf.org.
Plenary Session III: Women in Leadership: A View from the Top
Friday, July 20
11 to 11:40 a.m.
Convention Center: Sweeney Ballroom C-F

Plenary Session III: Women in Leadership: A View from the Top

Overview

During this panel, three accomplished CEOs will discuss leadership, innovation and the workforce in a changing economy. The panelists will discuss the challenges that women face in the workforce as well new and innovative ways for women to lead in both the public and private sectors.

Format

- 11 a.m. — Opening remarks and introductions
  - Governor Susana Martinez, New Mexico, Moderator
- 11:05 a.m. — Panel discussion
  - Gail Boudreaux, CEO, Anthem, Inc.
  - Barbara Humpton, CEO, Siemens USA
  - Pat Vincent-Collawn, CEO, PNM Resources
- 11:40 a.m. — Adjourn

Takeaway(s)

This session is designed to provide governors with a new understanding of leadership and a new appreciation for diversity in the workforce.

Media

This session is open to press.

Presenter Bios

Gail Boudreaux

Gail Koziara Boudreaux is the president and CEO of Anthem, Inc., a Fortune 50 company and leading health benefits provider with a focus on transforming health care to make it more accessible and affordable for all Americans. Anthem's 53,000 associates serve more than 40 million consumers—or one in eight Americans—through its affiliated health plans. In total, Anthem serves over 73 million individuals across 27 states through its broad portfolio of health insurance and services subsidiaries, including Anthem Blue Cross and Blue Shield health plans, Amerigroup, CareMore and Simply Healthcare.

Boudreaux is the former CEO of UnitedHealthcare, where she was responsible for the largest business division of UnitedHealth Group and the largest benefits provider in the nation, serving 45 million individuals with revenue of approximately $120 billion and a workforce of more than 60,000 employees. During Boudreaux's tenure, UnitedHealthcare was the fastest-growing health benefits company in the industry, growing organically by more than 8 million members in five years. Before joining UnitedHealthcare, Boudreaux served as executive vice president of External Operations for Health Care Service Corporation and 20 years at Aetna holding a number of regional and national leadership positions.

Boudreaux was honored from 2008 to 2014 as one of Fortune's 50 Most Powerful Women in American Business. Additionally, she was named to the Forbes 100 Most Powerful Women in The World list and was recognized by the Minneapolis/St. Paul Business Journal as one of the top 25 industry leaders and included on Today's Chicago Woman list of 100 Women of Influence. Boudreaux was also named by Modern Healthcare as one of the Most Powerful People in Healthcare.

Boudreaux serves on the Board of Trustees of the Field Museum of Chicago and is a member of the Chicago Network, an organization of Chicago's most influential women. She currently serves on the Board of Directors for Xcel Energy, Inc., Zimmer Biomet Holdings, Inc. and Novavax, Inc. She is the chair of the Excel Energy Operations, Nuclear and Environment and Safety Committee.

Boudreaux earned a B.A. with honors from Dartmouth College and an MBA with distinction in finance and health care administration from Columbia Business School.

Barbara Humpton

Barbara Humpton is CEO of Siemens USA, where she guides the company's strategy and engagement in serving the company's largest market in the world, with more than 50,000 employees and over $23 billion in revenues and $5 billion in annual exports.

Most recently, Humpton served as president and CEO of Siemens Government Technologies, Inc. (SGT), a leading integrator of Siemens' products and services for federal government agencies and departments. In this role, Humpton also served as an officer/director member of the board of directors of SGT.

AMERICAN OVERSIGHT

Prior to joining Siemens in 2011, Humpton served as a vice president at Booz Allen Hamilton where she was responsible for program performance and new business development for technology consulting in the Department of Justice and Department of Homeland Security. Earlier, Humpton was a vice president at Lockheed Martin Corporation with responsibility for Biometrics Programs, Border and Transportation Security and Critical Infrastructure Protection, including such critical programs as the FBI's Next Generation Identification and the TSA's Transportation Workers' Identification Credential.

Humpton is a graduate of Wake Forest University with a bachelor's degree in mathematics. She serves on the board of directors of MorganFranklin, the American Heart Association Greater Washington Region, the Center for Strategic and Budgetary Assessments (CSBA) and The George Washington University Law School Government Contracts Advisory Board. She resides in Washington, D.C., with her husband, David.

Pat Vincent-Collawn

Pat Vincent-Collawn joined PNM Resources in 2007 as utilities president, overseeing the daily operations for PNM and Texas New Mexico Power. She became the president and CEO of PNM Resources in March 2010 and chairman of the board in January 2011.

Vincent-Collawn's extensive utility experience has helped her guide PNM Resources through its transformation from a partially deregulated entity into a pure electric utility, with a clear focus on reliability, safety and sustainability. She also continues to lead the development of strategies to respond to growing requirements for renewable energy and to position the company to meet and exceed current and future environmental regulations.

Vincent-Collawn strongly believes that businesses must actively support education and economic development in the communities they serve. She is involved in several community, state and industry initiatives. She is also chair of the Kirtland Partnership Committee, a community board member of Wells Fargo of New Mexico and the Economic Forum of Albuquerque. She is past chair of both the Greater Albuquerque Chamber of Commerce and the United Way of Central New Mexico. Vincent-Collawn is a member of the executive committee and the board of directors for the Electric Power Research Institute and the Edison Electric Institute; she also serves on the board of CTS Corporation (NYSE: CTS). Vincent-Collawn has a bachelor's degree in journalism (magna cum laude) from Drake University and an MBA from Harvard University.

Plenary Session IV: Economic Opportunity in the Great Outdoors
Friday, July 20
11:50 a.m. to 12:50 p.m.
Convention Center: Sweeney Ballroom C-F

Plenary Session IV: Economic Opportunity in the Great Outdoors

Overview

Our nation's outdoors play a significant role in stimulating our economy, increasing public health, creating jobs and connecting our communities. Outdoor recreation activities alone contribute $887 billion annually to the economy, support 7.6 million American jobs and generate $80 billion in annual tax revenue at the federal, state and local level. Over the past several years, many states have fully recognized that the outdoor industry is an economic powerhouse, so governors are developing ways to harness the potential of the growing industry. By creating unique investment opportunities for the outdoor recreation industry, states are now bolstering or replacing declining businesses, promoting public health and developing long-term strategies that will continue to foster the sector.

This session will provide governors an opportunity to discuss how their states are integrating recreation and parks into their state-wide economic development strategies, including success stories from existing state Offices of Outdoor Recreation.

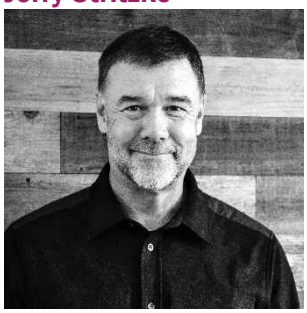
Format

- 11:50 a.m. — Opening Remarks
  - Colorado Governor John Hickenlooper
- Noon — Speaker Presentations
  - Jerry Stritzke, President and CEO, REI
  - Butch Whiting, CEO and Owner, Kryptek Outdoor Group
- 12:30 p.m. — Discussion
- 12:45 p.m. — Closing Remarks
  - Colorado Governor John Hickenlooper

Media

This session is open to press.

Takeaway(s)



This session will provide governors an opportunity to explore successful state policies that are supporting the growing outdoor industry and fostering economic growth.

Presenter Bios

Jerry Stritzke

Jerry Stritzke joined outdoor retailer REI in 2013 as president and CEO. Over the past five years, he has led the co-op to share record returns—more than 70 percent of profits—with members, employees and nonprofit partners. Committed to increasing access to the outdoors, Stritzke spearheaded the co-op's multiyear, multimillion-dollar partnership with the National Park Service, led the effort to close stores and #OptOutside on Black Friday in 2015, 2016 and 2017 and pledged to advance women's leadership in the outdoor industry with both an official CEO pledge and $1.5 million grant to Camber Outdoors (previously Outdoor Industries Women's Coalition) from the REI Foundation.

Stritzke previously served as president and COO at Coach, Inc. and held a nine-year career at Limited Brands, Inc., where he served as the COO of Victoria's Secret and the CEO of Mast Industries. Earlier in his career, Jerry was trained as an attorney and worked in private practice before transitioning to a consulting firm specializing in retail.

An outdoor enthusiast, he enjoys hiking, skiing, fly fishing and rafting and annually summits one of Colorado's 14,000-foot mountain peaks as well as a Washington peak with REI employees.

Butch Whiting

Butch Whiting is the co-founder and CEO of Kryptek Outdoor Group. Kryptek has an extensive focus on both U.S. and Foreign Military programs, as well as civilian adventure/outdoor gear and apparel. The Kryptek Slogan "Battlefield to Backcountry" is actually the soul of the Kryptek Brand.

Whiting graduated from Gonzaga University with a degree in mechanical engineering and was commissioned into the U.S. Army as an honor graduate in May of 1997. He served as an Army apache attack helicopter combat pilot in Iraq and Afghanistan. He departed from the military as a major with 11 years of distinguished service. During his military career Whiting developed a strong leadership and management pedigree and was responsible for equipment worth over $256 million while leading over 90 people through complex combat operations. He served in numerous leadership roles, including the Aide-De-Camp for the commanding general of the Army Aviation War Fighting Center. While there, he established solid working relationships with members of Congress and their staffs, local and civic community leaders, as well as various military staffs within Army departments. His last role in the U.S. Army was as the branch chief of special doctrine at the Combined Arms Doctrine Directorate.

Whiting's military leadership experience has translated well into the civilian business world. Following his service in 2008, Whiting was the president of the Alaska-based Bighorn Enterprises LLC, providing logistical support to numerous energy companies on the North Slope of Alaska. In 2010, Whiting was majority shareholder and president of the Idaho-based company Blaze Runners Inc. providing essential leadership, management and expertise for contract support for wildland fire-fighting to the federal government.

Whiting has been happily married to his wife, Nikki Whiting, for 23 years, and has two daughters, McKenna who is 17 years old, and Kylee who is 14. His hobbies and interests nest into his business and include competitive shooting, hunting, fishing and other outdoor recreation.

The discord on the national political scene is near deafening. The din in Washington, D.C., even reaches our offices here in Colorado and Washington State. If you only pay attention to the quarreling inside the Beltway, you'd think the country's progress was grinding to a halt.

We have at least one promising report from the states. As a governor and as a CEO of one of the largest outdoor retailers, we each care deeply about the health of this nation's economy and environment. What we find is Americans of all stripes love this country and adventuring out into its natural beauty. And across the partisan divide, state lawmakers are collaborating like never before to promote the benefits of spending time in nature, including the economic benefits.

2017 was one of the most politically chaotic years of our lifetimes. Most disappointing, the political elites in the nation's capital stoked a debate over the wisdom of protecting our public lands. We started 2017 hoping our national leaders would pick up the mantle of Teddy Roosevelt and put the long-term health of our public lands above exploitation. Not so.
But as that debate continued in D.C., 2017 also saw several states, with strong bipartisan support, create new "outdoor recreation sector leaders." Each state has designated a point-person to help grow the outdoor recreation industry and improve their citizens' access to outdoor experiences. Now a diverse array of eight states has these recreation-sector leaders – Colorado, Washington, Wyoming, Vermont, Utah, Oregon, North Carolina and Montana.

We believe access to the outdoors is an American right. And creating that access feeds a large, sustainable segment of the economy. So the time is

View Latest Opinions >>

ripe for other states to join this growing movement – to prioritize places where people love to recreate, to support the entrepreneurs and Main Street businesses that make up the recreation economy. It's beyond time to assure everyone in this country – Republican, Democrat, Independent -- has the chance to enjoy the benefits of time in nature.

The outdoor recreation sector is surprisingly large. Americans spend hundreds of billions per year on gear, apparel, boats, ATVs, trips, adventure travel and more. The sector supports millions of jobs. Importantly, recreation opportunities are often the economic lifeblood in rural America, attracting tourists, retirees and entrepreneurs. It's an inspiring industry, tied to the land, not exportable. It's a sector that thrives alongside our public lands and shared natural resources. It thrives hand in hand with clean water, clean air and a healthy climate.

Late last month in Denver, the eight rec-sector leaders met as a group for the first time. There's consensus that spending time outdoors feeds the soul, heals wounds and brings us together. At the mini-summit, there was no notion of a red, blue or purple state. The group had a barn-raising spirit – a sense that they were defining policy goals bigger than themselves and even their home states. They agreed to meet again this summer in North Carolina in order to continue the work. We expect other states will join.

When REI opened its Flagship store in D.C. just before the 2016 elections, it did so under the banner "Left Side, Right Side, United Outside." That ethos holds true in our hometowns and special places, and that gives us extraordinary hope.

John Hickenlooper Jr. is an American politician, businessman and the 42nd and current governor of Colorado, in office since 2011. Jerry Stritzke is president and CEO of Recreational Equipment, Inc., commonly known as REI, an American specialty outdoor retailer and the nation's largest cooperative.

WE KNOW OUTDOORS

The OREC Movement: What you need to know

KENJI HAROUTUNIAN · NOV 20, 2017

Official Outdoor Recreation Industry Offices are blooming across the U.S. How can you—and your state—become part of the movement?

I'm just gonna say it: I want my home state of California to be the next state to announce the establishment of an Outdoor Recreation (OREC) Industry Office.

As an industry, we've been on a roll. Since Utah started the movement in 2013 by appointing Brad Petersen as the first ever OREC Director in the country, five other states (Colorado, Montana, North Carolina, Oregon, and Washington) now have similar offices and three have official task forces (Maryland, Wyoming, and Vermont) that serve the same purpose.

When Petersen took office, the idea of having a high-level government official devoted to the health and growth of the outdoor industry was a novel idea. Petersen was a Utah-based mountain guide, business owner, and stalwart insider in the Utah/Rockies climbing scene. His entry into politics was sudden, and he quickly learned that a title without a budget to work with made for hard trail-breaking.

AMERICAN OVERSIGHT

> "Without a job description, business plan or strategy I quickly realized that my role as the first State Director was to sell everyone on the need for the Office; to be the head cheerleader; to be the face for the concept. Selling counties and communities on the benefits was easy, but figuring out how to help them was not. Without funding to help communities develop new recreational assets my ability to make Utah a better place to live was very limited. Four years later we have secured $4m+ in annual funding." —Brad Petersen, the first ever OREC Director in the U.S., served Utah from 2013 to 2016

We've learned a lot since then, and it's making a difference. Momentum is building. States all around the country are recognizing that the outdoor industry is an economic powerhouse.

And we're making progress in California, where outdoor recreation accounts for $92 billion in consumer spending. Back in January of 2017, several other members of the outdoor industry (including Matt Lyon from Hydrapak, Katie Hawkins from Marmot, Jeff Turner from Kokotat, Dave Polivy from Tahoe Mountain Sports, and John Mead from Adventure 16,) and I started meeting as an ad-hoc group, sharing discoveries and giving ourselves homework. Then we found a champion lawmaker in Assembly Member Eduardo Garcia, of the 56 District. Once Garcia came on board, things got real pretty quickly. Having a legislative champion is one of the key elements of launching a state initiative where you live (see Roadmap to Outdoor Rec, below).

In fact, as I write this, I am in route to Sacramento, where one California champion, assemblyman Eduardo Garcia, will be attending a reception near the state capitol tonite (Nov. 20) to celebrate the passage of CA SB5 (a substantial $4BB Park Funding bill for CA). Garcia has introduced a bill himself, AB-907, to the House of Representatives that would create an office of OREC here. The bill will go to vote in spring of 2018, and all of us involved are optimistic. We're so close we can almost taste it.

> If you're a California business and want to help, we need you! Reach out to me to learn more: kenji@kenjiconsults.com.

We need more OREC offices. Here's why they matter.

They bring benefits to communities. Encouraging adventure through wild places brings economic prosperity to gateway communities, has minimum impact on ecosystem health and provides regular, predictable and 'sticky' locally spent dollars. This is in contrast with the boom/bust cycle seen in the 'old west' extractive economies (coal, oil, gas, mining) that have left many rural towns in economic retreat. Outdoor retailers and outfitters prosper and thrive near well-managed recreation resources. This story is unfolding in Appalachia, as well as other supporting gateway communities from Joshua Tree to the Gunks.

They create an investment funnel to support recreation and conservation collaborations to bolster or replace shrinking businesses (like logging in the Pacific Northwest or mining in Utah). A state office can work to draw in businesses and establish jobs and investment in the state. Ogden, Utah, is the poster child of successful redevelopment. Through the work of Mayor Godfrey (2010 era) and other key politicians, they turned a mining ghost town into a modern outdoor mecca, with over a dozen outdoor brands now with significant business hubs there (the entire Amer Group, Scott USA, QBP, and Osprey Packs to name a few).

AMERICAN OVERSIGHT

They unify different geographic and activity sectors. A state OREC office can make sure that efforts happening around different corners of the state are aligned (Colorado and Utah OREC directors both travel extensively within their state, reinforcing relationships). Shared resources like GIS (Geographic Information System) mapping software, marketing platforms and talent, and trail building equipment and expertise save time and money, and create more durable solutions. Blending local input with broader ecosystem level resource management is manageable at the state level, and a central office can also interface with nearby state's OREC leaders for cross-pollenating ideas and solutions.

They measure and promote health effects of recreating outdoors. As the 'Nature Rx' message spreads, a central state office can power coordinated education and engagement campaigns in diverse communities. School districts, neighborhood associations and families can get support in adopting healthy outdoor lifestyles proven to reduce stress, combat disease and extend life.

They build up the outdoor recreation economy that provides sustainable jobs, a stewardship mindset, and predictable tax revenues. Brands, retailers and outfitters will benefit by taking advantage of programs and close-to-home access support for employees and those in close-by communities.

Roadmap to Outdoor Rec

Do you want your state to establish an OREC office? I spoke with the majority of the current OREC officials at the recent SH/FT conference in Jackson Hole, Wyoming, to pull together these four steps on how you can get the ball rolling.

Step 1: Investigate. Is there already a movement you can join up with? A coalition of outdoor recreation businesses or a conservation non-profit that has assembled leadership? Don't reinvent the wheel. Tap your network or reach out to your industry association (Outdoor Industry Association) to get nosy. If you're interested in taking this first step, OIA is a great resource. Contact Cailin O'Brien-Feeney, who has been helpful in the California initiative and most of the other state-level actions across the country.

Step 2: Launch an informal or ad-hoc group. Begin meetings and learn who the outdoor recreation advocates in the state legislature are. Visit them in their home districts or at the state capitol. Use the OIA and the upcoming BEA economic data, and any map data you can show (Outdoor Alliance has a growing body of excellent maps and economic research, as does the Access Fund).

Step 3: Propose a formal working group to your governor, Economic Development director or Parks and Recreation Director. As in Wyoming's budding program, Once your working group/task force is sufficiently deep and inclusive, put a request in to the Governor's office to establish a formal study of the OREC situation in your state, and come up with recommendations for a deliberate growth path forward. If the governor won't budge, go after a friendly senator or house member. Also, at this point you'll need a real organization name and real people signed on to your real mission.

Step 4: Get a legislative champion to put something on the ballot for voters to consider funding sustainably, like the Rescue Card in UT or the designated office in MT (only funded for 2 years in the current iteration). A legislative champion can navigate and translate the wave of proposals and bills moving through the state body politic and put forward a bill out for consideration. Experienced lobbyists or staffers familiar with the running of state politics is helpful too.

Ride the wave

AMERICAN OVERSIGHT

The waves of the OREC movement are building: The Bureau of Economic Analysis (BEA) research is due out sometime in 2018, expected to closely match the industry's own research on OREC financial impacts nationwide. State level data will not be part of this first push to match OREC to GDP, so for those of you so motivated, that will be another (federal funding) initiative to anticipate supporting in the near future.

As a surfer friend of mine can't stop saying, "Gotta surf when the waves are up, dude." It's time for us all to go surfing.

Analysis of outdoor recreation industry finds its contribution to GDP larger than that of oil, gas extraction

UPDATED: Fri., Feb. 23, 2018, 4:30 p.m.

AMERICAN OVERSIGHT

By Eli Francovich
elif@spokesman.com
(509) 459-5508

A federal government analysis of the outdoor recreation's economic impact reaffirms what many conservation groups have said for decades. Outdoor recreation is a big business.

For the first time ever the U.S. Department of Commerce looked specifically at the economic impact of outdoor recreation. The analysis was published last week.

The analysis found that outdoor recreation contributed $373.7 billion to the nation's Gross Domestic Product in 2016, comprising 2 percent of GDP. In fact, the outdoor recreation industry's contribution to GDP was larger than that of all mining, including the extraction of oil and gas.

And the industry is expanding. In 2016, it grew 3.8 percent, compared to the overall economy's growth of 2.8 percent.

The report was released by U.S. Department of Commerce's Bureau of Economic Analysis on Feb. 14.

"The public will no doubt be surprised at the economic importance of this industry as we release prototype statistics measuring the impact of activities like boating, fishing, RVing, hunting, camping, hiking, and more," said U.S. Commerce Secretary Wilbur Ross in a news release.

Unlike other reports analyzing the outdoor recreation industry's economic footprint, this is the first one not conducted by a private industry association such as the Outdoor Industry Association.

AMERICAN OVERSIGHT

According to the Department of Commerce report, motorized vehicles accounted for $59.4 billion of gross output. Of that, recreational vehicles accounted for $30 billion.

Boating and fishing activities were second at $38.2 billion followed by hunting, shooting and trapping at $15.4 billion. Of that, hunting accounted for 60 percent of the output, according to the analysis. The equestrian industry accounted for roughly $12 billion.

Finally, backpacking, climbing and other outdoor activities accounted for $10 billion.

While the BEA study is unique nationally, the Washington State Recreation and Conservation Office commissioned and published its own economic study in 2016.

That analysis found that outdoor recreation resulted in $21.6 billion dollars in annual expenditures in Washington and created roughly 200,000 jobs. The Washington study was the first of its kind in the state.

“Now we know it’s a huge driver to our economy as well,” said Kaleen Cottingham, the director of the Recreation and Conservation Office. “We have known that intuitively. But we didn’t have the data to back that up.”

That information can be useful when advocating for conservation or trying to change policy, Cottingham said.

Although the Department of Commerce analysis was more narrowly focused, Cottingham said the federal findings aligned with the state report.

The Recreation and Conservation Office is in charge of distributing and making grants. Having economic data “helps to justify our investments as part of the bigger economic engine,” Cottingham said.

AMERICAN OVERSIGHT

Similarly, Sam Mace, the Inland Northwest Director for Save Our Wild Salmon, said the potential economic benefit of conservation has long been a key plank in Save Our Wild Salmon's platform and something they've considered and highlighted on the Lower Snake River.

"Often that is the bottom line way you can protect these resources, by showing the economic driver that they are," she said.

The federal report will be a useful advocacy tool, said Katherine Hollis the conservation and advocacy director for the Mountaineers.

"It's definitely inline with how we approach conservation work," she said. "There is intrinsic value in these places. But also the outdoor recreation industry is growing. Period. Across the board."

The Mountaineers are based in Seattle and have 13,000 members, most of whom are in Washington. The yearly basic alpine course has a wait list of more than 200 people, she said.

"They put the recreation economy at 2 percent of the GDP," she said. "That's a lot. That says something about the importance of these landscapes and how we engage these landscapes."

The Idaho Department of Parks and Recreation found that Idaho's state parks contributed $184 million to the state's economy in 2016, according to a study published earlier this month.

The Department of Commerce study didn't look at outdoor recreation retail manufacturing revenue occurring outside of the U.S. Additionally, the BEA report didn't include money spent on recreation trips less than 50 miles from a person's home.

Editor's note: This story was updated on Friday, Feb. 23 to specify that a comparison made between the outdoor recreation industries and mining industries refers to their relative

AMERICAN OVERSIGHT

Outdoor Recreation Satellite Account

BEA has developed its first statistics showing how outdoor pursuits like snowboarding, biking and boating ripple through the U.S. economy.

These prototype statistics published Feb. 14, 2018, mark a milestone in BEA's work to measure the size and growth of the outdoor recreation economy. Feedback about these experimental data will help us finalize the definitions, data sources, methodology and presentation for the new Outdoor Recreation Satellite Account.

The resulting outdoor recreation report is planned for fall 2018.

Outdoor recreation and the economic activities that support it – for example, a factory making fishing lures, a family traveling to hike in a national park, or a ski instructor giving lessons – are already woven invisibly into BEA's broad national statistics, such as GDP. The new account pulls these threads of data together in one place, with expanded detail, creating a picture of the outdoor recreation economy that would otherwise remain hidden within BEA's existing statistics.

What's New...

Survey of Current Business: Introducing the Outdoor Recreation Satellite Account (/scb/2018/03-march/0318-protytype-statistics-for-the-outdoor-recreation-satellite-account.htm)

News Release: Outdoor Recreation Satellite Account: Prototype Statistics for 2012-2016 (/newsreleases/industry/orsa/orsanewsrelease.htm)

Blog: Prototype Statistics: Outdoor Recreation Accounted for 2 Percent of GDP in 2016 (//blog.bea.gov/2018/02/14/prototype-statistics-outdoor-recreation-accounted-for-2-percent-of-gdp-in-2016/)

What's Ahead

BEA requests feedback on prototype estimates by April 27, 2018.

Sign up for Email Notifications (/_subscribe/)

The new data will add to public understanding and inform decision-making by policymakers, businesspeople and the managers of public lands and waters.

The outdoor recreation account, established by a 2016 federal law, joins other supplemental statistics that spotlight arts and cultural production, travel and tourism, and health care.

Where We Are Now

For our prototype, BEA produced experimental statistics that allow you to view the outdoor recreation economy through two different lenses: first, a conventional definition of outdoor recreation including activities that typically require a degree of physical exertion and occur in a nature-based outdoor environment; and second, a broader definition including all recreational activities that occur in the outdoors.

These experimental statistics were published on Feb. 14. BEA seeks more feedback as we continue to refine our approach to measuring and presenting statistics on outdoor recreation, to be released this fall.

Timeline

Finalize methodology and statistics

Fall 2018: Release the first official Outdoor Recreation Satellite Account statistics

Feb-Apr 2018: Gather feedback on prototype statistics and finalize the definition, data sources and methodology to be used for the national-level statistics

Prepare prototype estimates

Feb 2018: Release prototype statistics

Dec 2017-Jan 2018: Prepare prototype statistics based on the potential definitions being evaluated

Aug-Nov 2017: Identify data sources and methodologies to estimate goods and services that are partially-in-scope of outdoor recreation

Define outdoor recreation

Apr-Jul 2017: Reconciliation of independent reviews, incorporation of public comments, and consolidation into two to three potential definitions

Jan-Mar 2017: Independent development of a range of definitions, and review of goods and services by experts in field of outdoor recreation

How outdoor recreation can bring an economic boom back to coal country

The good news for struggling communities across Appalachia is that there is already a road map to renewed economic prosperity. Old mining communities across the Southwest have successfully diversified their regional and local economies, centered around the outdoor recreation industry.

Healthy lands and waters are necessary to support a thriving outdoor recreation economy.

When we think of Moab, UT, gateway to Canyonlands and Arches National Park immediately come to mind. We also think of the world class mountain bike trails along Porcupine Rim and rafting sections of

AMERICAN OVERSIGHT

the mighty Colorado River. The area boasts epic 4-wheel driving across the most unique scenery in the American Southwest, too. It is no wonder people refer to Moab as the outdoor adventure capital of the U.S.

But it was not always this way. Moab came of age as a mining town when Vanadium was first discovered in 1912 and, by 1920, the area had produced $2.4 million in uranium. During the early years of the Cold War, demand for uranium skyrocketed and the Town of Moab enjoyed an economic boom until demand for uranium began to subside in the early 1960s. In 1964 the largest mine closed and the mill laid off hundreds of workers. For the next two decades mines continued to close and the unemployment rate hovered around 15 percent. During the same period, the population of Moab decreased by 23 percent. Decades of mining activities also left behind an environmental legacy of superfund sites and contaminated soils along the banks of the Colorado River.

Community leaders began viewing tourism as an economic safety net in the 1970s but it took another ten years before tourism was embraced as the future of Moab. Community development officials invested heavily to support a tourism-based economy and today mining and oil and gas account for three percent of the local labor force. Government agencies charged with land management and the service industry are the region's primary employers. The service industry supports more than 1 million visitors annually.

There are many parallels between Moab, UT, and communities across Appalachia coal country. For generations, coal mining and related industries employed and supported entire towns. But like all mining industries, there were boom and bust cycles, and today coal employs just 70,000 (compared with 260,000 in the solar industry). Communities are now grappling with high unemployment and shrinking populations. Fortunately, many of these communities are adjacent to public lands or abandoned mine sites with outdoor recreation potential. With a bold vision and proper investments, these communities can embrace conservation and outdoor recreation as a catalyst for economic development similar to Moab in the 1980s. Coal Township, Pennsylvania, has already embraced the outdoor recreation economy by supporting the remediation and conversion of a 6,500 acre mine site into hundreds of miles of trails for hiking, mountain biking,

AMERICAN OVERSIGHT

and all-terrain vehicles. The Anthracite Outdoor Adventure Area opened in 2013 and hosts 10,000 visitors annually.

Nationally, $1 out of every $20 in consumer spending goes towards outdoor recreation. A new report published by the Outdoor Industry Association (OIA) estimates the outdoor recreation economy generates $887 billion in consumer spending annually and employs 7.6 million Americans returning $59.2 billion to state and local coffers. The OIA report calculates $10 billion was returned to state and local coffers across Appalachia.

To take full advantage of the outdoor recreation economy, environmental restoration and remediation is an important first step for Appalachian communities. A healthy outdoor recreation industry is dependent on healthy lands and waters. Decades of mining activities across Appalachia left thousands of miles of streams filled in with mine waste, contaminated soil and water supplies with heavy metals, and reshaped the landscape through surface mining. Many communities that stand to benefit from investments in the outdoor recreation economy are also suffering from contaminated drinking water supplies. Environmental remediation will require major investment and can help support communities in the interim. Environmental remediation is a $15 billion industry employing 86,000 across the country. These are good-paying and long-term jobs. Superfund site remediation takes several years to decades to completely remove industrial and chemical contaminants from soils or groundwater. The Moab UMTRA Project began removing and disposing of contaminated soil along the banks of the Colorado River in 2009 and the project is expected to continue until 2032.

Investments in environmental cleanup projects bring multiple benefits including near and long-term economic opportunity, improved water quality and drinking water supplies, and healthy ecosystems to support a thriving outdoor recreation and tourism economy. Fortunately, Appalachia can look to communities in the Southwest for a road map to bring economic and environmental prosperity back to the region.

AMERICAN OVERSIGHT

Executive Committee and Center for Best Practices Board Meeting
Friday, July 20
12:50 to 1:50 p.m.
Convention Center: Tesuque (2nd Floor)
Invitation Extended to Executive Committee Plus One Staff Member

Executive Committee and Center for Best Practices Board Meeting

Overview

The National Governors Association Executive Committee will convene to discuss a wide range of matters related to the direction and administration of the association. NGA Chair Governor Brian Sandoval and NGA Executive Director and CEO Scott D. Pattison will lead the meeting of the nine-governor committee.

In addition, the NGA Center for Best Practices Board governors will jointly meet to discuss the NGA Center for Best Practices priorities and Activities.

**You are chairing the Executive Committee meeting and CEO review.

Format

The meeting agenda and supporting documents are forthcoming and will be sent directly to member governors.

Media

This session is closed to press.

Takeaway(s)

Member governors will have the opportunity to discuss the direction of the National Governors Association and NGA Center for Best Practices.

Contact: Steve Wood, (202) 624-7872 or swood@nga.org

NGA Executive Committee Meeting

DATE: July 20th, 2018
TIME: 12:50 p.m. – 1:50 p.m.
Location: Santa Fe Convention Center, Tesuque (2F)

Executive Committee Meeting

I. Call to Order
II. Approval of February 2018 Meeting Minutes
III. *Ahead of the Curve* Initiative Update
IV. Executive Director's Update
    a. Overall Update
    b. Financial Management
V. Summer Meeting Overview
VI. 2018 Seminar for New Governors
VII. Open Discussion on Direction of NGA
VIII. New Business
IX. Recess
X. Center for Best Practices Board
XI. Adjournment of Center for Best Practices Board
XII. Executive Session called to order
XIII. Executive Director Review (Executive Session)
XIV. Adjournment

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Public Project List: as of June 27, 2018						
#	Division	Project	End Date	Description	Funder	Grant Amount
1	Education	ECE Capacity Building	8/30/18	The Governors' Response Team will have at least 25 engagements with governors and their staff through site visits, conference calls, technical assistance memos, connections and referrals to partners and other assistance as needed. Support new governors and their staff (as well as existing Governors' Educaiton Policy Advisors) with an Education Division notebook, Policy Institute and mentoring program. In collaboration with the ASPEN Institute co-host a convening on Social and Emotional learning for state policymakers. Integrating and Advancing State Prenatal to Age Three Policies	Alliance for Early Success	$300,000
2	Education	Reinvestment with NGA	6/30/18	Bring together Governors' Education Policy Advisors (GEPAs) to deepen their understanding on the latest education topics and policies, to hear from national experts, to learn about best-practices from other states, and to network with other GEPA;s from around the country. Emphasize ongoing Every Student Succeeds Act (ESSA) implementation opportunities for governors and facilitate discussions on early childhood education, transitions from high school to post secondary and education human capital systems. Provide a framework for state level human capital policies development and implementation, as well as serve as a hub of human capital resources and tools for governors and their staff.	Bill & Melinda Gates Foundation	$300,000
3	Education	Building Early Learning Policy Capacity	8/31/20	Select up to six states and provide states with up to $25,000 and technical assistance on developing and strengthening a comprehensive Pre-kindergarten to 3rd grade system. Organize a learning lab for key stakeholders to build momentum for a comprehensive PreK-3 rd grade system. Host two cross state meetings on developing and implementing a plan for building a PreK to 3rd grade System. Host a summit that will bring together state policymakers who are interested in increasing and aligning investments in the prenatal to age three space. Bring together Governors' Education Policy Advisors (GEPAs) to deepen their understanding on the latest education topics and policies, to hear from national experts, to learn about best-practices from other states, and to network with other GEPA;s from around the country.	Bill & Melinda Gates Foundation	$750,000
4	Education	Early Care and Education Workforce Policies and Practices	5/1/19	Support additional state teams attending Cross-State Convening I and allow NGA staff to travel to Cross State Convening II, Conduct site visits to additional four states to refine state visions for the grant	Foundation for Child Development through Council of Chief State School Officers	$68,431
5	Education	Supporting Governors and States on Improving Early Care and Education Policies	8/31/19	By June 2018 the Governors' Response Team will nave at least 25 engagements with governors and their staff through site visits, conference calls, technical assistance memos, connections and referrals to partners and other assistance as needed. Strengthen the capacity of governors and their staff to lead on best practices in early care and educaton. Through a partnership with Economic Opportunity and Health division, host a one day expert roundtable on state policy strategies to support successful models of alignment and coordination in the prenatal to age three policy space. Host a two-day learning lab for state leaders to understand how they can convene key stakeholders to align and coordinate their prenatal to age three systems. Competitively select up to six states to participate in an eighteen month intensive technical assistance opportunity	Heising Simons Foundation	$250,000
6	Education	Birth to Age 8 Workforce Investment	5/1/19	Provide support to work wit four states to tralign, strengte, or transform early care and education workforce policies and practices in collaboration	Foundation for Child Development in collaboration with Council of Chief State School Officers	$68,431
7	Education	Prenatal to Age Three Project	5/30/20	This project will provide resources and technical assistance to educate governors and their senior staff on how to develop and strengten te continum of Prenatal to 3 programs and policies in teir states.	Pritzker Children's Initiative	$700,000
8	Education	Prenatal to Age Three Project	11/1/18	Serve as a core partner in bringing national attention to what babies and families ned to thrive	Zero to Three	$50,000
9	Education	Birth to Age 8 Workforce Investment (Workforce 2.0)	5/31/19	Provide technical assistance to help up to nine governors and states develop and implement a policy agenda that prepares, supports, and strengthens their early care and eduation workforce. Conduct site visits to each state and refine state visions for the grant. Convene all states in the project for a deeper dive into Early Care and Education Workforce policy issues wit national experts.	W.K. Kellogg Foundation	$500,000
10	Education	Every Student Succeeds Act (ESSA)	12/31/18	Host two cross state learning labs for governors education policy advisors. Provide technical assistance and site visits to provide strategic and planning support as well as meeting facilitation and other project management support and on-going assistance from NGA Center experts. Host webinars for Governors' Education Policy Advisors that elevate opportunities for governors to boost and strengthen school leadership	Wallace Foundation	$545,000
11	Education	Communications	6/30/19	Host two Governors' Education Policy Institutes with sessions on school leadership and state human capital systems. Host up to 4 podcast on state Case study and host a live broadcast with the Chief Council of State School Officers. Memos, Briefs and Case Study on School Leadership	Wallace Foundation	$400,000
12	Education	Tracking 2018 Gubernatorial Races	5/31/19	This grant is to track the 36 governor races in 2018, create profiles for each candidate, and provide policy support for new Governors and their staff in the transition	Chan Zuckerberg Initiative DAF	$200,000
13	EET	Water Learning Network	12/31/19	Help governors' advisors learn about latest technology and policy solutions on range of water issues.	American Water Foundation	$150,000
14	EET	Energy Analysis	5/1/18	Support for workshops and technical assistance for Energy Learning Network with focus on data and analysis.	Department of Energy / Energy and Policy Analysis	$121,350
15	EET	Energy Learning Network	9/30/18	Help governors' advisors learn about technology and policy issues for a range of energy efficiency and renewable energy issues.	Department of Energy / Energy Efficiency & Renewable Energy	$450,000
16	EET	Federal Facitilies Task Force (FFTF)	2/28/18	Technical and Policy Support for governor-appointed members of the NGA Federal Facitlities Task Force -- 13 states involved in nuclear weaons waste clean up.	Department of Energy / Environmental Management	$1,700,000

NV-DOA-20-0615-A-004193

AMERICAN OVERSIGHT

Public Project List: as of June 27, 2018						
17	EET	Nuclear Energy	9/30/18	Help governors' advisors learn about latest technology and policy solutions for existing and new nuclear energy issues.	Department of Energy / Nuclear Energy	$50,000
18	EET	Energy Learning Network	9/30/18	Help governors learn about technology and policy issues related to electricity grid.	Department of Energy / Office of Electricity	$1,085,000
19	EET	Energy Learning Network	3/31/18	Support for four states n Power Sector Modernization Policy Academy (KY, OR, RI, WA).	Energy Foundation	$115,000
20	EET	Chair's Initiative - AOTC	12/30/17	Support for summits, storymaps, podcasts, roadmaps and other activities under Ahead of the Curve: Innovation Governors.	Energy Foundation	$22,000
21	EET	Energy Learning Network	4/30/18	Support for four states in Power Sector Modernization Policy Academy (KY, OR, RI, WA).	Heising Simons Foundation	$250,000
22	EET	Chair's Initiative - AOTC	7/30/18	Support for summits, storymaps, podcasts, roadmaps and other activities under Ahead of the Curve: Innovation Governors.	Various Corp (also dollars in DOE and Energy Foundtaion)	$900,000
23	EET	Water Learning Network	4/30/20	Support for four states in Delaware River Basin (DE, NJ, NY, PA) on water policy development as part of Water Learning Network.	William Penn Foundation	$350,000
24	EO	Human Services Policy Advisors / General Human Services	12/31/18	Supports general technical assistance to governors and state human services system leaders.	Annie E Casey Foundation	$420,000
25	EO	Parents And Children Thriving Together: Two-Generation State Policy Network (PACTT Network) policy academy	8/31/17	Policy academy to help states develop and implement two-generation statewide strategies for systems change.	Annie E Casey Foundation	$1,248,870.00
26	EO	Three Branch Institute (policy academy) on Improving Child Safety and Preventing Child Fatalities	12/31/18	Developing a toolkit based on lessons learned from policy academy supporting states in developing a three branch approach to child safety including fatality and near fatality prevention.	Casey Family Programs	$350,000
27	EO	State Exchange on Employment and Disability	7/31/18	Learning lab to help states identify strategies to increase employment opportunities for people with disabilities.	Concepts Communications	$175,500
28	EO	Parents And Children Thriving Together: Two-Generation State Policy Network (PACTT Network) policy academy	12/31/18	Policy academy to help states develop and implement two-generation statewide strategies for systems change.	Doris Duke Charitable Foundation	$600,000.00
29	EO	European Apprenticeship Study Trip	6/30/18	Study trip to visit and learn about two leading apprenticeship models in Europe and identify lessons learned states can incorporate in their own jurisdictions.	JPMorgan Chase	$125,000
30	EO	Educational Initiatives on Entrepreneurship	7/2/18	This project provides support for educational initiatives to teach economic policy advisors about entrepreneurship and how to support it in their states.	Kauffman Foundation	$220,000
31	EO	Occupational Licensing	12/31/19	Policy academy to help states reduce barriers to entry into licensed occupations and increase portability and reciprocity of licenses.	National Conference of State Legislatures (funding is from U.S. Department of Labor, NCSL is primary and EO is a subcontractor along with CSG)	$1,771,304
32	EO	Engaging the Arts for Rural Economic Development	7/31/18	Partnership with NEA and the National Assembly of State Arts Agencies to highlight how the arts and creative industries can help address rural communities and economic development.	National Endowment for the Arts (NEA)	$194,444
33	EO	Reducing Child Hunger	4/30/18	Assist states to identify and implement strategies to reduce childhood, specifically focused on increasing participation in federal child nutrition programs.	Share Our Strength	$300,443
34	EO	Work-Based Learning (Phase Two)	6/30/19	Policy academy to help states expand work-based learning for young people ages 16-29. Second phase: Engagement with more states in three tiers of technical assistance.	Siemens Foundation	$2,453,216
35	EO	Apprenticeship	12/31/18	Expanding registered apprenticeship to new occupations and increasing diversity among apprentices. Technical assistance to 46 state and local recipients of US Dept of Labor grants.	Siemens Foundation	$675,000.00
36	EO	Workforce Development TA Program	6/30/18	Ongoing technical assistance program that supports state workforce system leaders.	State fee-for-service	$500,000
37	EO	Apprenticeship	9/30/18	Expanding registered apprenticeship to new occupations and increasing diversity among apprentices. Technical assistance to 46 state and local recipients of US Dept of Labor grants.	US Dept of Labor	$2,800,000.00
38	EO	Parents And Children Thriving Together: Two-Generation State Policy Network (PACTT Network) policy academy	12/31/18	Policy academy to help states develop and implement two-generation statewide strategies for systems change.	WK Kellogg Foundation	$1,248,870.00
39	EO / Education	Talent Pipeline Policy Academy	12/31/17	Assist states to align their education and workforce systems with the needs of state economies. Multi-state activities complete. Narrative grant report complete. Publication will be released spring 2018.	JPMorgan Chase	$250,000
40	EO / HSPS	Alternatives to Juvenile Incarceration	12/31/17	Help states identify and implement best practice alternatives to juvenile incarceration.	Annie E Casey Foundation	$90,000
41	Health	Addressing Public Health Crises: Strategies for States to Effectively Purchase and Safeguard Access to Evidence-Based Pharmaceutical Interventions	4/30/18	Assist state leaders in surfacing promising, state-focused solutions to balance providing access to pharmaceuticals used to address public health crises while maintain the fiscal integrity and sustainability in their programs. In addition, the project seeks to assist state leaders in data collection/analysis of cost trends in Medicaid and corrections related to pharmaceuticals used to address public health crises. The project will include roundtable convenings with payors and providers, pharmaceutical manufacturers, and states.	Arnold Foundation	$200,000
42	Health	Suicide Prevention in Belt States	6/30/18	Convene states in midwest region to address the high rates of suicide in their states. State teams will leave the convening with concrete action steps. NGA Center will support them in moving those action steps forward and share lessons learned with all states in a report and webinar.	Centers for Disease Control	$150,000
43	Health	State Strategies for Adressing Infectious Disease Related to Substance Abuse	10/30/18	Assist up to seven states focused on reducing the incidence of infectious diseases, such as Hepatitis C and HIV, as well as comorbidities like opioid addiction.	Centers for Disease Control	$250,000

NV-DA-20-0615-A-004194

AMERICAN OVERSIGHT

Public Project List: as of June 27, 2018						
44	Health	Governors' Bipartisan Health Reform Learning Network (Part 1)	12/30/17	Assist state leaders in understanding the potential impact of proposed changes to Medicaid and private health insurance at the federal level, identify state-based ideas and provide technical assistance to help states progress on reform efforts	Commonwealth Fund	$200,000
45	Health	Building Capacity to Improve Outcomes and Reduce Cost of Care for High Need, High Cost Populations with Behavioral Health and Social Support Needs: Behavioral Health Integration Learning Lab	1/31/19	Provide technical assistance to states interested in advancing policy, practice and payment strategies that improve outcomes for high need, high cost populations with mental illness and/or substance use disorders and social support needs.	Commonwealth Fund	$250,737
46	Health	Managing Change in Medicaid and Private Health Insurance: Technical Assistance for Governors' Leadership Teams	11/30/18	With Commonwealth's support for the Next Steps for Medicaid and Private Health Insurance: Technical Assistance Program for States, the NGA Center would expand upon previous and ongoing work by engaging states through intensive, in-state technical assistance, including in-state visits, making connections to national experts, and workplan development/strategic planning support. Through this work, the NGA Center will identify the steps needed for states to take in pursuing or refining their goals for their programs. Priority areas will be defined by the state but may include implementing policies to incentivize issuers to participate in the private health insurance market;developing a nuanced understanding of the interrelation between Medicaid and the private market with new FPL requirements and likely enrollment/cost impact; assisting states to define new opportunities for flexibility in Medicaid while building a strategy to improve outcomes and reduce costs; developing new waivers; and identifying strategies to improve evaluation of policy changes	Commonwealth Fund	$200,000
47	Health	Various Health Division Projects	6/30/18	Funds various health division projects	FY17 Grantmakers	$331,746
48	Health	Various Health Division Projects	6/30/18	Funds various health division projects	FY18 Grantmakers	$525,000
49	Health	Rural Health Learning Collaborative	3/31/18	Help states meet their state policy goals related to rural health. Focus areas include: access to behavioral health services and the use of telehealth models; the hub and spoke model to address opioid treatment; data driven policy development; and workforce maldistribution and shortages. Support BLN staffing.	HRSA	$640,000 (includes combination of carryover funds and year three funding for cooperative agreement)
50	Health	Improving Health in Rural America: Addressing the Leading Causes of Death	10/31/2018	Provide technical assistance to up to five states to address factors that contribute to the five leading causes of death in rural areas. NGA will assist states in developing strategic action plans to address one leading cause of death (chosen by the state). Techincal assitance includes connecting state teams with subject matter experts at the CDC.	HRSA	$300,000
51	Health	Maternal and Child Health Learning Collaborative/ MCH and Public Health Working Group - Year 3 Carryover	9/30/18	Assist states in improving quality and access to care in maternal and child health populations. Focus areas include: improving continuity of coverage and care for pregnant women and children; strengthening systems of care for children and youth with special health care needs; and implementing of Bright Futures guidelines for care for all children.	HRSA/MCHB (AIM Cooperative Agreement)	$353,909/year for 3 years
52	Health	Health Policy Advisors Institute 2018	6/30/18	The Health Divisions annual gathering of governor's Health Policy Advisors. The Institute consists of focused health care topics of interest to HPAs and highlights the Division's work.	Kaiser/ Merck	$350,000
53	Health	Governors' Bipartisan Health Reform Learning Network (Part 2)	6/30/18	Assist state leaders in understanding the potential impact of proposed changes to Medicaid and private health insurance at the federal level, identify state-based ideas and provide technical assistance to help states progress on reform efforts	Robert Wood Johnson Foundation	$600,000
54	Health	Building Capacity to Improve Outcomes and Reduce Cost of Care for High Need, High Cost Populations with Behavioral Health and Social Support Needs: Behavioral Health Integration Learning Lab	1/31/19	Provide technical assistance to states interested in advancing policy, practice and payment strategies that improve outcomes for high need, high cost populations with mental illness and/or substance use disorders and social support needs.	Robert Wood Johnson Foundation	$250,737
55	Health	General operations support for the Health Division	12/15/18	Funds various health division projects	Robert Wood Johnson Foundation	$500,000
56	Health	Harnessing the Power of Data to Achieve State Policy Goals	10/1/19	The Health Division will support 5-7 states through multi-state convenings, in-state visits and intensive technical assistance to develop strategies on how to improve cross-sector data sharing and analytic capabilities	Robert Wood Johnson Foundation	$700,000
57	Health	Addressing the Whole Child: Building Cross-Sector Collaborations to Support Child Health and Being	10/1/19	The Health Division will support 3-5 states through multi-state convenings, in-state visits and intensive technical assistance to coordinate policies for children through sustainable governing body	Robert Wood Johnson Foundation	$400,000
58	Health / HSPS	Prescription Opioid, Heroin and Fentanyl Addiction Learning Labs - Year 3 + Year 2 Carryover	6/30/19	Highlight effective strategies for states in addressing various aspects of the opioid epidemic, including: treatment for justice-involved populations; deaths related to heroin and illicit fentanyl; teleconsultation programs; and information sharing between public health and law enforcement.	CDC (OSTLTS Cooperative Agreement)	Estimated $500,000/year for 5 years
59	HSPS	Annie E. Casey National Partners Portfolio	12/31/18	This cross-divisional effort between EO and HSPS focuses on elevating juvenile justice issues with governor's offices, and highlighting strategies to increase alternatives to incarceration and ocmmunity-based alternatives at the state level.	Annie E Casey Foundation	$150,000

NV-DA-20-0615-A-004195

AMERICAN OVERSIGHT

Public Project List: as of June 27, 2018						
60	HSPS	National Criminal Justice Reform Project	2/28/18	In partnership with an outside organization, this intensive technical assistance project is the first national-level, executive branch;led effort to reform pretrial, reentry, prison and jail populations, substance abuse and mental health, and information sharing through the Governor's Criminal Justice Policy Advisor and State Administering Agency Director for Criminal Justice.	Arnold Foundation	$1,200,000,000
61	HSPS	State Strategies to Strengthen Traffic Safety and Reduce Fatalities	6/30/18	Led by a cross-divisional effort (between EET and HSPS), the Center has been charged with highlighting a significant increase in traffic fatalities at the state level, and to underscore strategies for governor's offices and related state agencies to consider in addressing traffic safety.	CDC	$825,000
62	HSPS	Public Health Preparedness	6/30/18	This project helps states break down silos between homeland security, public health and emergency management. This is the final year of the five year grant. To date, we have hosted in-state workshops for Maryland and Pennsylvania and produced an issue brief. Next year, we plan to develop a short guide to governors on executive authority related to public health emergencies.	CDC	$30,000
63	HSPS	Workshop for Gubernatorial and Legislative Leaders on Public Health Emergencies	9/30/18	NGA plans to host a workshop for up to seven states to identify administrative, legal, and regulatory barriers to public health emergency response. The state teams, selected through a competitive process, will develop plans to address these barriers and provide a report out on their efforts to the governor and CDC.	CDC	$200,000
64	HSPS	DHS Office of Emergency Communications	9/30/18	This project builds off of our Policy Academy on Enhancing Emergency Communications and will involve hosting four regional workshops, bringing together state teams to improve governance around the emergency communicatiosn ecosystem in preparation for the rapid technological advances in mobile and communications technology.	Department of Homeland Security	$511,000
65	HSPS	Countering Violent Extremism	7/31/19	The State Approaches to Countering Violent Extremism grant seeks to develop a roadmap for state officials to help prevent future violent extremist attacks. The project will not focus on any specific violent extremist ideology but instead include the full spectrum. NGA will select five states to participate in a policy academy and test the roadmap.	Department of Homeland Security	$500,000
66	HSPS	National Training and Technical Assistance Project for States	12/31/17	In partnership with an outside organization, NGA will engage governor's offices on criminal justice issues, highlight best practices, provide technical assistance, and host on-site and Institute engagements for senior state officials.	Department of Justice	$500,000
67	HSPS	Learning Collaborative on Paroling Practices	9/30/17	In partnership with an outside organization, HSPS has sought to engage governor's offices and, through the learning collaborative, facilitate partnerships wtih their respective parole and pardon boards and deliver a set of policy recommendations to their governors at the conclusion of the project.	Department of Justice	$0
68	HSPS	Governors Homeland Security Advisors Council	9/14/18	The Governors Homeland Securiy Advisors Council represents the collective interest of the nation's homeland security advisors. This project funds most of the Council's activities.	FEMA	$275,000
69	HSPS	Pew Charitable Trust National Partners	6/30/18	As part of their national partners portfolio, Pew has asked that NGA lead a new pilot project to engage governor's offices on crisis communications and criminal justice. Such work requires the production of an electronic toolkit and a series of on-site workshops, in partnership with both Pew and Kivvit, a public relations firm.	Pew Charitable Trusts	$236,000
70	HSPS	Long Term Recovery Experts Roundtable	5/1/19	Through this effort, NGA will host an experts roundtable on long-term recovery issues to examine ways for NGA to help governors think more strategically about long-term recovery planning in the wake of disasters.	State Farm	$25,000
71	HSPS	Opportunity for Statewide Training and Technical Assistance for Criminal Justice Strategic Planning		This opportunity is designed to help states meet the 2019 Byrne Justice Assistance Grant requirement of a comprehensive statewide strategic plan. The Justice for All Reauthorization Act, passed in December 2016, requires all applicants for FY 2019 Byrne JAG state formula grant awards to include a statewide strategic plan that addresses resource allocation, use of data, and implementation of evidence-based practices.	Bureau of Justice Assistance

Plenary Session V: An Evolving Crisis: Combatting the Next Wave of Addiction
Friday, July 20
2 to 3:30 p.m.
Convention Center: Sweeney Ballroom C-F

Plenary V: An Evolving Crisis: Combatting the Next Wave of Addiction

Overview

The National Governors Association Homeland Security and Public Safety Committee and Health and Human Services Committee will host this session focusing on the intersection between public safety and public health in addressing the opioid crisis.

The opioid crisis continues to evolve beyond prescription drugs – presenting new state challenges with the increase of overdoses from fentanyl mixed with illicit stimulants like cocaine and methamphetamine. This session will offer insights into how officials at all levels of governments can combat the flow of opioids and other illicit drugs into the country and ensure appropriate treatment and recovery services in a rapidly changing environment.

Format

- 2 p.m. — Opening Remarks
  - Governor Mark Dayton, Minnesota
  - Governor Kate Brown, Oregon
- 2:10 p.m. — Panel Discussion
  - Deputy Director James Carroll, Office of National Drug Control Policy
  - Deputy Postmaster General Ronald A. Stroman, United States Postal Service
  - Fire Chief Jan Rader, City of Huntington, West Virginia
- 3 p.m. — First Lady Kathryn Helgaas Burgum Remarks
- 3:10 p.m. — Q&A Session
- 3:30 p.m. — Adjourn

Media

This session is open to press.

Takeaway(s)

The forum will help governors discuss ways to improve state-federal coordination in both combatting the flow of opioids and synthetic drugs coming into the United States and in building sustainable treatment models to care for those suffering from addiction.

AMERICAN OVERSIGHT

Presenter Bios

James Carroll

Jim Carroll is the deputy director of National Drug Control Policy in the Executive Office of the President. On April 24, 2018, the president sent to the Senate the nomination of Deputy Director Carroll to be the director of National Drug Control Policy.

Prior to joining the Office of National Drug Control Policy, he served as assistant to the President and Deputy Chief of Staff at the White House. Previously in the Administration, Carroll served as general counsel of the Office of Management and Budget and as deputy assistant and senior counsel to the president. Before joining the Trump Administration, Carroll served as Washington Counsel at the Ford Motor Company and as General Counsel of the Ford Motor Company Fund, the company's philanthropic arm that supports non-profit organizations and initiatives. During the George W. Bush administration, Carroll held several positions, including special assistant and associate counsel to the president at the White House, deputy general counsel and acting general counsel at the U.S. Department of the Treasury and as an attorney at the U.S. Department of Justice. Carroll began his career as a state prosecutor in Virginia after earning his bachelor's degree from the University of Virginia and his J.D. from the George Mason University School of Law.

Ronald A. Stroman

Ronald A. Stroman was named the 20th deputy postmaster general (DPMG) in March 2011. As the second-highest ranking postal executive, he serves on the Postal Service Board of Governors and on Postmaster General Megan Brennan's Executive Leadership Team. Reporting to Stroman are the functions of government relations and public policy, international postal affairs, sustainability and the Judicial Officer Department.

Stroman facilitates relationships with the Congress, and with federal, state and local agencies as the Postal Service pursues its core business strategies. He also has the lead role in working with the Universal Postal Union and the Department of State on international postal policy.

Stroman has more than 30 years of professional experience in government, legislative affairs and leadership before becoming DPMG. From 1978 to 1984, he was an attorney with the Department of Housing and Urban Development. He then moved into a position as counsel on the Judiciary Committee of the U.S. House of Representatives. He also worked for the Committee on Government Operations and became a minority staff director and counsel for the House Committee on Oversight and Government Reform.

In 1997, Stroman took a director's position with the U.S. Department of Transportation. In 2001, he joined the General Accounting Office as managing director for the Office of Opportunity and Inclusiveness. He returned to the House in 2009, where he served as staff director, Committee on Oversight and Government Reform, before joining the Postal Service.

AMERICAN OVERSIGHT

Stroman earned his Juris Doctorate from Rutgers University Law Center.

Jan Rader

Jan Rader joined the Huntington Fire Department in August of 1994. Rader is the first woman to reach the rank of Chief for a career department in the State of West Virginia. She holds an associate's degree in Occupational Development from Marshall University and an Associate's Degree of Science in Nursing from Ohio University. Jan holds many fire service certifications and is also a Fire and EMS Instructor in the State of West Virginia. Since November of 2014 Chief Rader has been serving as a member of the Mayor's Office of Drug Control Policy. The purpose of this task force is to address drug addiction in Huntington and the surrounding communities and create a holistic approach involving prevention, treatment and law enforcement. Jan recently came to national prominence after the release of the short documentary "Heroin(e)" by Netflix in September of 2017. Then in April of 2018, she was chosen as one of Time Magazine's list of the 100 most influential people in the world.

Governors Only: Council of Governors and Opportunity Zones
Friday, July 20
3:45 to 5 p.m.
Eldorado: Grand Ballroom B
Invitation Extended to Governors Plus One Staff Member

Governors Only: Council of Governors and Opportunity Zones

Overview

The co-chairs of the Council of Governors will provide a read-out of discussion items from the Thursday's Council of Governors Plenary Session, which will focus on actions and recommendations agreed to/discussed as it relates to the Council's State-Federal Catastrophic Disaster Working Group.

Following the discussion, the remainder of the session will examine how governors can work in tandem with investors and fund managers, entrepreneurs and business owners, anchor institutions, property developers, philanthropies and community stakeholder to help a new Opportunity Zone investment ecosystem emerge.

The Tax Cuts and Jobs Act authorized a new program to provide incentives for investors to re-invest unrealized capital gains into Opportunity Funds for designated low-income communities. Earlier this year governors had the opportunity to designate which low-income communities will be qualified opportunity zones and the U.S. Department of Treasury finalized all the selected zones in June. Governors now have the unique ability to develop comprehensive strategies for nurturing a new market around a new asset class— their Opportunity Zones—to take shape.

****You are opening the discussion on opportunity zones.**

Format

- 3:45 p.m. — Opening Remarks and Introductions – Council of Governors
  - Governor Mary Fallin, Oklahoma
  - Governor Dannel Malloy, Connecticut
- 3:55 p.m. — Discussion – Council of Governors
- 4:15 p.m. — Opening Remarks – Opportunity Zones
  - Governor Brian Sandoval, Nevada
- 4:20 p.m. — Speaker Presentations – Opportunity Zones
  - Sarah Bianchi, Senior Advisor, The Governance Project
  - John Lettieri, President, The Economic Innovation Group
- 4:40 p.m. — Discussion – Opportunity Zones

Media

This session is closed to press.

Takeaway(s)

This session will provide governors a read out of the actions taken by the Council of Governors, as well as a platform to explore successful strategies for engaging the marketplace and recruiting investment into qualified Opportunity Zones.

AMERICAN OVERSIGHT

Presenter Bios

Sarah Bianchi

Sarah Bianchi began her career in the Clinton White House on the Domestic Policy Council and has served in a variety of White House and campaign policy roles, including deputy policy director for Vice President Gore and national policy director for the Kerry presidential campaign. During the Obama administration, she served as deputy assistant to the president for economic policy and director of policy for Vice President Biden.

Bianchi has also served in a number of private sector roles, including eight years on Wall Street where she was a managing director at BlackRock and an investment advisor at Eton Park Capital Management. She also served as global head of policy development at Airbnb, where she led a company-wide policy development process that implemented over 20 global policies around taxes, home-sharing regulations, trust and safety, data and transparency and Airbnb's 90-day racial discrimination task force.

Bianchi currently serves as a senior advisor at The Governance Project, focused on implementing the new Opportunity Zone law. Sarah is also serves as chair of the Policy Advisory Group at the Biden Institute. She graduated magna cum laude from Harvard University and is on the board at Harvard's Institute of Politics. She lives in Arlington, Va.

John Lettieri

John Lettieri is co-founder and president of the Economic Innovation Group (EIG). He leads EIG's policy development, economic research and legislative affairs efforts to study and address regional inequality and the decline of economic dynamism in the United States.

Lettieri's career in public policy has included time in both the public and private sectors working with a diverse set of policymakers, entrepreneurs, investors and global business leaders.

Prior to EIG, Lettieri was the vice president of Public Policy and Government Affairs for a leading business association, the Organization for International Investment (OFII), where he led the organization's state and federal policy work on such issues as tax reform, trade, investment promotion and manufacturing. Before joining OFII, Lettieri was director of Public and Government Affairs for a global aerospace manufacturer. He previously served as a foreign policy aide to former U.S. Senator Chuck Hagel, who was then a senior member of the United States Senate Foreign Relations Committee.

Lettieri is a graduate of Wake Forest University where he studied political science and global commerce. He serves on the Board of Regents at The Fund for American Studies, the Board of Directors for Lincoln Network and the Board of Directors for Friends of the National Zoo. He lives with his wife and children in Washington, D.C.

Governors Only—Opportunity Zones

Friday, July 20, 3:45-5 p.m.

Governor Sandoval

[SANDOVAL OPENS AND CALLS MEETING TO ORDER]

[COG READ OUT—TBD BY NGA]

FOR OUR NEXT ORDER OF BUSINESS, WE WILL TURN TO A DISCUSSION ON THE NEWLY ESTABLISHED OPPORTUNITY ZONES PROGRAM, WHICH CAME OUT OF THE TAX REFORM BILL LATE LAST YEAR.

OUR STATES HAVE ALL MADE SELECTIONS FOR WHICH AREAS WOULD BE BEST SERVED BY RECEIVING AN OPPORTUNITY ZONES DESIGNATION, AND NOW WE MUST TURN OUR ATTENTION TO HOW TO BEST LEVERAGE AVAILABLE POLICY TOOLS TO GUARANTEE ECONOMIC DEVELOPMENT AND JOB GROWTH IN THESE LESSER SERVED COMMUNITIES.

AMERICAN OVERSIGHT

JOINING US TODAY TO PROVIDE POLICY AND MESSAGING CONSIDERATIONS AS YOU DEVELOP YOUR STATE OPPORTUNITY ZONES' STRATEGIC PLAN ARE TWO EXPERTS IN THE ECONOMIC DEVELOPMENT FIELD.

FIRST, WE HAVE JOHN LETTIERI, THE PRESIDENT AND CO-FOUNDER OF THE ECONOMIC INNOVATION GROUP. AT EIG, JOHN LEADS THE ORGANIZATION'S POLICY DEVELOPMENT, ECONOMIC RESEARCH AND LEGISLATIVE AFFAIRS EFFORTS.

PRIOR TO CO-FOUNDING EIG, JOHN WAS THE VICE-PRESIDENT OF PUBLIC POLICY AT THE ORGANIZATION FOR INTERNATIONAL INVESTMENT AND SERVED AS A FOREIGN POLICY AIDE FOR FORMER U.S. SENATOR CHUCK HAGEL.

NEXT, WE HAVE SARAH BIANCHI, SENIOR ADVISOR AT THE GOVERNANCE PROJECT, WHERE SHE HAS BEEN FOCUSED ON THE IMPLEMENTATION OF THE OPPORTUNITY ZONES PROGRAM.

AMERICAN OVERSIGHT

PRIOR TO JOINING THE GOVERNANCE PROJECT, SARAH SERVED IN THE CLINTON WHITE HOUSE ON THE DOMESTIC POLICY COUNCIL AND IN THE OBAMA ADMINISTRATION AS THE DEPUTY ASSISTANT TO THE PRESIDENT FOR ECONOMIC POLICY AND THE DIRECTOR OF POLICY FOR VICE PRESIDENT BIDEN.

OUTSIDE OF HER PUBLIC SERVICE WORK, SARAH HAS WORKED AS A MANAGING DIRECTOR AT BLACKROCK, AN INVESTMENT ADVISOR AT ETON PARK CAPITAL AND MOST RECENTLY AS THE GLOBAL HEAD OF POLICY DEVELOPMENT AT AIRBNB.

I WILL NOW TURN IT OVER TO JOHN TO BEGIN FOR HIS OPENING REMARKS.

[TRANSITION TO JOHN LETTIERI FOR HIS REMARKS]

[TRANSITIONS BACK TO SANDOVAL]

AMERICAN OVERSIGHT

THANK YOU, JOHN. WE WILL NOW TURN TO SARAH FOR SOME INSIGHTS ABOUT WHAT SPECIFIC STRATEGIES AND POLICIES GOVERNORS CAN CONSIDER AS THEY DEVELOP THEIR OPPORTUNITY ZONES PLAN.

[TRANSITIONS TO SARAH BIANCHI FOR HER REMARKS]

[TRANSITIONS BACK TO SANDOVAL]

THANK YOU, SARAH. I WOULD NOW LIKE TO OPEN UP THE FLOOR TO ALL GOVERNORS FOR ANY QUESTIONS THAT YOU MIGHT HAVE FOR OUR PANELISTS, OR TO HEAR ABOUT ANY SPECIFIC STRATEGIES THAT YOUR STATE MIGHT ALREADY BE EMPLOYING.

[SANDOVAL CONCLUSION]

THANK YOU TO EVERYONE WHO PARTICIPATED IN TODAY'S CONVERSATIONS. I LOOK FORWARD TO SEEING YOU ALL AT THE SOCIAL EVENTS TONIGHT, AND FOR ANOTHER GREAT DAY OF DIALOGUE TOMORROW.

AMERICAN OVERSIGHT

Nevada Opportunity Zones Highlights

State highlights for designation process

- Created a website with an interactive map to solicit public comment on nominated tracts
- Worked with local governments to develop a priority list
- Worked with national partners, including The Economic Innovation Group, the Governance Project and the Urban Institute to come up with a model to rank census tracts with need and likelihood of investment scores.
- Held informational sessions and a town hall in low-income areas to promote awareness

How Nevada plans to shape policies and encourage investment in Opportunity Zones?

Be Strategic

Evaluating and align workforce programs, zoning and permitting and treat the designations as the first step in the process

Convene and collaborate

Successful Ozones will require long-term efforts that include participation between the public, private and philanthropic sectors

Assign a point person for Opportunity Zones and encourage working groups between the state and local governments. In Nevada, the Governor's Office of Economic Development is going to coordinate working groups to share best practices and promote new ideas.

Continue to work with national groups such as the Economic Innovation Group as the Opportunity Zone regulations are drafted and the program is implemented

Think broadly

Potential applications for investors is very broad with very few exceptions. From affordable housing to tech startups, if an investor can realize a gain, Ozones might be a possibility.

What is Nevada currently working on

- Forming working groups consisting of Economic Development, Business and Industry, Local Governments to develop best practices
- Developing an agenda to host an Opportunity Zone Conference similar to the conference Colorado hosted in June

On-going concerns regarding Opportunity Zones

- Still waiting on final guidance from the Treasury to provide guidance on many issues including:
    - Self-Certification requirements of Opportunity Funds

AMERICAN OVERSIGHT

    - Grace periods for Opportunity Fund and Opportunity Zone Business to make investments
    - Some definitions including meaning of “substantially all”, “substantial portion”, and “active”
- Displacement concerns in low-income neighborhoods. There is a fear that too much growth too fact will only act to displace low-income residents without creating opportunities for them.

AMERICAN OVERSIGHT

Helping Nevada get a Piece of a Trillion Dollar Pie through Housing Incentives.

On June 14th, sixty one of Nevada's low-income census tracts received official designation as Qualified Opportunity Zones (QOZ) by the U.S. Department of Treasury and the IRS; but what does this mean for the state? The Opportunity Zone (O-Zone) Program was created by the Tax Cuts and Jobs Act signed by the president at the end of 2017. This new incentive encourages long-term private investment of capital gains into projects, businesses, and property development in low-income areas that continue to be left behind even in our strong economy. While as a whole our state and country are experiencing one of the lowest unemployment rates of all time, nearly 35 million Americans live in distressed QOZ communities. According to the 2011-2015 American Community Survey, almost one third of the population in the O-Zone tracts live in poverty, plus these tracts have a unemployment rate of 1.6 times higher and have an average income of 37% lower than the typical U.S. census tract.

The goal of the O-Zone program is to change the course of these low-income tracts through new private investment. Currently it is estimated that over 3 trillion dollars of unrealized capital gains are pent up in investment in order to postpone tax burden. The O-Zone program allows significant tax incentives for capital gains that are quickly reinvested into these designated census tracts; tax incentive include:

> (1) The deferral of the payment of taxes on capital gains until the sooner of December 31, 2026 or the date the investment is removed from the O-Zone.
>
> (2) A reduction in the total taxes paid on the capital gains through an increase in basis of 10% for investments lasting 5 years, and 15% (an additional 5%) for investments of 7 years or longer.
>
> (3) The exclusion of capital gain tax on appreciation of the investment as long as it remains in the designated low-income zones for 10 years.

With all 50 states, the District of Columbia, and 5 territories having designated O-Zone tracts there are many zones for investors to choose from. The race is on across the country to draw millions, if not billions, of dollars of investment into local zones. States, municipalities, and local economic development organizations alike are striving to devise the most attractive complementary programs to couple with O-Zone investments and bring the funds to their states and cities. In addition, being a very new and quick to market program, these same organizations are tasked with getting the word out and appealing to investors.

With this in mind, the Nevada Housing Division may be among the first in the country to launch a new twist to their current low-income housing program to help attract O-Zone investment into the state. Specifically, the division administers the federal allocation of the Low Income Housing Tax Credit (LIHTC) Program for Nevada; LIHTC incentivizes development of affordable housing for low income individuals. In Nevada's distressed neighborhoods housing is possibly one of the most critical resources needed to turn these communities around. To address this head on, the housing division is launching an extra round of LIHTC allocation that encourages developers to utilize O-Zone Investment. In this additional round, launching in mid-July with applications due in early October, developers who propose housing projects that meet all traditionally required criteria and have secured O-Zone financing will be rated higher and are more likely to receive the LIHTC incentive. Over the past 6 months tax, legal and investment consultants alike have been touting that those who are nimble and quickly launch into O-

AMERICAN OVERSIGHT

Zone investments will be the biggest winners. The coupling of housing and O-zone incentives is a great first step for Nevada to lead the O-Zone race.

To find out more on these programs go to:

- Federal Opportunity Zone Resources https://www.cdfifund.gov/Pages/Opportunity-Zones.aspx
- State of Nevada Opportunity Zones http://www.diversifynevada.com/programs-resources/opportunity-zones
- State of Nevada Housing Division Low Income Housing, LIHTC: https://housing.nv.gov/programs/LIH/Qualified_Allocation_Plans/

Potential highlight: "The creation of Opportunity Zones is one of the most significant provisions of the Tax Cut and Jobs Act. Incentivizing private investment into these low-income communities can be transformational, stimulating economic growth and job creation across the country," said Secretary Steven T. Mnuchin. "This Administration will work diligently with states and the private sector to encourage investment and development in Opportunity Zones and other distressed communities so that they may enjoy the benefits of robust economic growth."

AMERICAN OVERSIGHT

Social Event: La Noche de Fuego (The Night of Fire)
Friday, July 20
6 to 9 p.m.
Fort Marcy Park

La Noche de Fuego (The Night of Fire)

Overview

La Noche de Fuego is a very special evening, celebrating a unique tradition that features the sights, sounds, flavors and culture of New Mexico.

****You are giving opening remarks.**

Format

- 6 p.m. — Balloons and Bubbles Reception
  - Paying homage to Albuquerque's designation as "Hot Air Balloon Capital of the World," local pilots will take the field during cocktail hour and share with guests the fascinating experience of watching these gentle giants of billowing nylon inflate.
- 7 p.m. — Dinner
  - Guests will be seated at "harvest tables" while they enjoy an array of New Mexican favorites.
- 8:15 p.m. — Show
  - The burning of the effigy of Tío Coco, aka Old Man Gloom: Since 1924, this unique cultural event, staged yearly on the Friday before Labor Day, has become a tradition for Santa Feans. Some deem the cathartic burn as the beginning of a new year, a brand-new start that is free from the concerns of the past year. As darkness falls, the music begins, and fire dancers taunt an enormous 50-foot-tall effigy until at last the flames catch and fireworks light up the sky, burning away your worries, hardships and disappointments.
  - All meeting participants will have the opportunity to write down their woes and deposit them into "Gloom Deposit Boxes" placed throughout the Convention Center. They will all be transported to the event and placed into Tío Coco before the spectacle begins.

Transportation

Governors may arrive by private vehicle; secured parking will be available. All other attendees should utilize the shuttle service provided from all host hotels between the hours of 5:45 and 9:15 p.m.

Dress

Dress for this event is "Southwest casual." Please note that this event will take place outdoors. Closed-toe shoes and a light sweater or jacket are recommended.

Media

This event is open to invited press.

Saturday Sessions

AMERICAN OVERSIGHT

NV-DA-20-0615-A-004213

Governors Only (Part 1): NGA's Cross Divisional Response on School Safety
Saturday, July 21
8:30 to 8:45 a.m. (at beginning of second governors-only session)
Eldorado: Grand Ballroom B
Invitation Extended to Governors Plus One Staff Member

Governors Only (Part 1): NGA's Cross Divisional Response on School Safety

Overview

In order to align efforts to support governors and their staff as they seek to tackle this difficult and contentious issue, the NGA Center has developed a cross-divisional project that pulls on the resources and expertise of the Education, Health and Homeland Security and Public Safety divisions.

The divisions are working together to support provide tailored technical assistance to governors' offices and state officials to identify and assess gaps and challenges and strengthen state partnerships, planning, policies and practices across agencies. Comprehensive partnership and policy frameworks begin with prevention-based activities that foster greater collaboration across sectors at the family-school-community level. Similarly, preparation requires cross-team incident management structures, implementation of school safety protocols and procedures and training. Finally, cross-sector coordination and collaboration is essential in responding to a crisis and in the aftermath.

The NGA Center's three-pronged partnership approach will also allow states to explore different school safety and prevention models and best practices and identify ways to leverage existing federal and state resources. This project will further allow states to develop working relationships and learn from each other's unique challenges and approaches to school safety and prevention. With the NGA Center's assistance, governors' offices, state education, health, public safety and homeland security departments and stakeholders will be better positioned to ensure that school environments are safe and secure.

Governors Only (Part 2): How the Supreme Court Term Will Impact the States: Wayfair, Murphy and Beyond
Saturday, July 21
8:45 to 10 a.m.
Eldorado: Grand Ballroom B
Invitation Extended to Governors Plus One Staff Member

Governors Only (Part 2): How the Supreme Court Term Will Impact the States: *Wayfair, Murphy* and Beyond

Overview

The Supreme Court just finished its term, issuing more decisions impacting states and federalism than in recent memory. This session will provide a forum for governors to discuss implications from the term generally, but with special focus on those major opinions that affect states such as *South Dakota* (remote sellers/sales tax), *Janus* (union dues), *Husted* (voting roles), *Gill* (gerrymandering) and *Murphy* (sports betting). Eric Citron will summarize the court's decisions, and will be joined by another participant, A.G. Burnett, who will speak about the opportunities and regulatory obligations for states going forward post-*Murphy*.

**You are giving welcoming remarks and introductions.

Format

- 8:45 a.m. — Opening remarks and introductions
  - Governor Brian Sandoval, Nevada, Moderator
- 8:55 a.m. — Presentations
  - Eric Citron, Partner, Goldstein & Russell
  - A.G. Burnett, Partner, McDonald Carano
- 9:15 a.m. — Open Discussion
- 9:55 a.m. — Adjourn

Media

This session is closed to press.

AMERICAN OVERSIGHT

Presenter Bios

Eric Citron

Eric Citron clerked on the Supreme Court of the United States for Associate Justices Sandra Day O'Connor and Elena Kagan. Before his time at the Supreme Court, Eric was a senior associate in the Litigation/Controversy Department and a member of the Appellate and Supreme Court Litigation and Government and Regulatory Litigation Practice Groups at WilmerHale. He has also served as counsel to the assistant attorney general in the Antitrust Division of the United States Department of Justice, where he drafted position papers, policy memoranda and speeches, and advised on issues related to policy, appeals, inter-agency coordination, international relations and litigation. Immediately following law school, Citron clerked for the Honorable James Robertson of the U.S. District Court for the District of Columbia, and the Honorable David S. Tatel of the U.S. Court of Appeals for the District of Columbia Circuit.

A.G. Burnett

A.G. Burnett is a partner at McDonald Carano. From 2012 to 2017, he was the chair of the Nevada Gaming Control Board (NGCB). The NGCB, along with the Nevada Gaming Commission, oversees all forms of gaming in the state. Prior to his appointment to the NGCB, Burnett served as senior deputy attorney general in the Gaming Division of the Nevada Attorney General's Office. In that post he represented the NGCB, the Nevada Gaming Commission and the Nevada Commission on Sports.

AMERICAN OVERSIGHT

Governors Only—NGA's Response to School Safety & SCOTUS: Implications for the States

Saturday, 8:30am – 10:00am

Governor Sandoval

[GOV SANDOVAL]

GOOD MORNING, GOVERNORS.

THANK YOU FOR JOINING US ON THIS EARLY MORNING. WE HAVE AN EXCITING DAY AHEAD.

BEFORE WE HAVE A CONVERSATION ABOUT THIS YEAR'S SUPREME COURT RULINGS AND HOW STATES CAN RESPOND, I WANT TO TURN IT OVER TO NGA'S CEO SCOTT PATTISON TO DISCUSS HOW NGA IS ADDRESSING THE SCHOOL VIOLENCE EPIDEMIC THROUGH BIPARTISAN ASSISTANCE TO STATES.

AMERICAN OVERSIGHT

THIS EFFORT INCLUDES THREE DIVISIONS FROM THE CENTER FOR BEST PRACTICES: HOMELAND SECURITY AND PUBLIC SAFETY, EDUCATION AND HEALTH.

SCOTT, WHAT CAN YOU TELL US ABOUT THIS ISSUE THAT WEIGHS ON THE MINDS OF EVERYONE IN THIS ROOM?

[SCOTT PATTISON REMARKS]

THANK YOU, SCOTT. SPEAKING ON BEHALF OF MY COLLEAGUES, WE APPRECIATE KNOWING THAT NGA CAN QUICKLY MOBILIZE ITS RESOURCES TO PROVIDE SUPPORT TO GOVERNORS WHEN FACED WITH AN UNANTICIPATED CHALLENGE.

I KNOW HOW MUCH WORK HAS BEEN PUT INTO THE SCHOOL SAFETY RESPONSE, AND I WANT TO THANK YOU FOR THESE EFFORTS.

AMERICAN OVERSIGHT

NOW, WE WILL TURN TO A DISCUSSION ABOUT THE SUPREME COURT TERM THAT JUST CONCLUDED AT THE END OF JUNE.

NO TERM IN RECENT MEMORY HAS RESULTED IN THIS MANY DECISIONS HAVING SUCH SIGNIFICANT IMPLICATIONS FOR GOVERNORS AND OUR STATES.

JOINING US TODAY TO SHARE THEIR INSIGHTS ARE TWO EXPERTS WHO ARE PREPARED TO DISCUSS WHAT GOVERNORS SHOULD BE THINKING ABOUT AS A STATE-SPECIFIC RESPONSE TO SEVERAL KEY DECISIONS OF THE COURT.

NOTE: GOVERNOR DAUGAARD MAY WANT TO INTRODUCE ERIC CITRON IN WHICH CASE, JUST RECOGNIZE GOVERNOR DAUGAARD AND THEN INTRODUCE A.G. BURNETT.

AMERICAN OVERSIGHT

FIRST, IT IS MY PLEASURE TO INTRODUCE ERIC CITRON. ERIC IS A PARTNER AT THE FIRM OF GOLDSTEIN & RUSSELL, IN THEIR SUPREME COURT PRACTICE.

PREVIOUSLY, ERIC CLERKED FOR TWO JUSTICES OF THE SUPREME COURT: SANDRA DAY O'CONNOR AND ELENA KAGEN, FOLLOWING EARLIER CLERKSHIPS IN THE FEDERAL DISTRICT AND APPEALS COURTS.

I THINK IT'S FAIR TO SAY THAT ERIC KNOWS HIS WAY AROUND A FEDERAL COURTROOM.

MOST RELEVANT TO OUR SESSION TODAY, ERIC WAS A COUNSEL FOR THE PETITIONER IN THE RECENTLY ANNOUNCED *SOUTH DAKOTA V. WAYFAIR* OVERTURNING *QUILL* AND *BELLA HESS,* WHICH NOW ALLOWS STATES TO COLLECT TAXES ON SALES FROM COMPANIES WITHOUT A PHYSICAL PRESENCE IN A STATE.

AMERICAN OVERSIGHT

NEXT, IT IS MY PLEASURE TO INTRODUCE MY FRIEND A.G. BURNETT.

A.G. IS A PARTNER AT THE FIRM OF MCDONALD CARANO, AND FROM 2012 UNTIL LAST DECEMBER, A.G. WAS CHAIR OF THE NEVADA GAMING CONTROL BOARD.

I INVITED HIM TO COME TODAY TO SHARE HIS PERSPECTIVES ON THE SUPREME COURT'S DECISION IN THE *MURPHY* DECISION, ALLOWING STATES TO DECIDE WHETHER TO ALLOW SPORTS GAMING.

I WILL NOW TURN IT OVER TO ERIC TO BEGIN FOR HIS OPENING REMARKS.

[ERIC CITRON REMARKS]

AMERICAN OVERSIGHT

[GOV SANDOVAL]

THANK YOU, ERIC.

NOW, I WILL TURN IT OVER TO A.G. FOR SOME INSIGHTS ABOUT WHAT SPECIFIC STRATEGIES AND POLICIES GOVERNORS CAN CONSIDER AS A RESPONSE TO THE *MURPHY* DECISION.

[A.G. BURNETT REMARKS]

THANK YOU, A.G.

I WOULD NOW LIKE TO OPEN UP THE FLOOR TO ALL GOVERNORS FOR QUESTIONS FROM OUR SPEAKERS, OR TO SHARE ANY SPECIFIC STRATEGIES THAT YOUR STATE HAS ALREADY EMPLOYED.

[OPEN DISCUSSION]

AMERICAN OVERSIGHT

[GOV SANDOVAL]

THANK YOU, EVERYONE, AND ESPECIALLY THANKS TO ERIC AND A.G.

WE GAINED MANY VALUABLE INSIGHTS INTO HOW TO RESPOND TO THE RECENT DECISIONS FROM THE SUPREME COURT.

WE ARE NOW ADJOURNED.

AMERICAN OVERSIGHT

Bloomberg BNA Daily Report for Executives™

Electronic Commerce

States Urged to Proceed With Caution After 'Wayfair'

By Brenna Goth

Snapshot

- Next year could be big for tax overhauls
- Consumers, retailers need clarity

A week after the U.S. Supreme Court lifted a major barrier to the collection of sales taxes from remote sellers, the question remains: How will states respond?

The majority opinion in *South Dakota v. Wayfair*, written by Justice Anthony Kennedy, raises legal and logistical questions. At its heart, the decision says a state can require a business to collect sales taxes even if it doesn't have a physical presence there.

That change could help make 2019 the biggest year for state tax overhauls in "many many years," said Max Behlke, director of budget and tax for the National Conference of State Legislatures. Behlke spoke June 28 at the organization's Task Force on State and Local Taxation meeting in Lake Tahoe, Nev., among the first gatherings of lawmakers on the decision.

Legislators and other panelists urged states to proceed with caution and to look carefully at their laws. The high court's opinion provides clues to how states can design their remote sales tax collection, but much is still unknown, they said.

The 5-4 majority in *Wayfair* suggested strongly that South Dakota's law would pass constitutional muster; the state's model imposes the tax collection threshold at 200 separate transactions or $100,000 in in-state sales. But the court stopped short of formally declaring that South Dakota's law, which dozens of states have mimicked already, was valid in the absence of *Quill Corp. v. North Dakota*. The court just made clear that *Quill* was no longer part of any commerce clause test for when states may impose taxes.

Accordingly, the South Dakota Supreme Court still has to bless the state's economic nexus model before it can become effective. Still, many project that states will flock to copy South Dakota's model.

Model After South Dakota

States have varying levels of preparedness to move on remote seller tax collection, Scott Drenkard, director of state projects at the Tax Foundation, said during a panel. He said state reactions have already ranged the spectrum.

Some lawmakers in Louisiana, for example, pushed for quick changes to help with revenue issues, while Arkansas is taking a more deliberative approach, Drenkard said. He cautioned against states rushing choices that could place an undue burden on businesses.

"If there was ever a state that was not prepared for the *Wayfair* decision to come down, Louisiana was certainly that state," Drenkard said.

Having sensible rules means more companies will follow them voluntarily, Drenkard said. It's in a state's best interest to follow the criteria Kennedy laid out in his opinion, he said.

Generally, states that model their remote seller statutes after South Dakota's should be in the clear, Brian Galle, a professor at Georgetown University Law Center, told attendees. That law includes a collection obligation only above a certain threshold, no retroactive liability, and compliance with the Streamlined Sales and Use Tax Agreement.

AMERICAN OVERSIGHT NV-DA-20-0615-A-004224

That doesn't mean South Dakota's model is the only option, Galle said. But the opinion only gives hints about what states can do.

Imposing retroactive taxes, for example, could raise issues unless the statute is very narrow, Galle said. Retroactive collection could result in double taxation, he said, because retailers don't know if customers have already reported use taxes to their states.

Steve Kranz, a partner at McDermott Will & Emery LLP in Washington, said states should consider protecting against retroactivity and should emphasize that the rules also apply to foreign sellers. He also recommended implementing voluntary agreements with businesses to start collecting taxes.

Implementation Takes Time

Even states prepared to collect taxes from remote sellers could face delays. In Wyoming, implementation "is not going to happen overnight," said Dan Noble, director of the Wyoming Department of Revenue. The state has two pending lawsuits regarding the legislation, including one with Wayfair.

"We've got to get past this issue of litigation first," Noble told Bloomberg Tax.

The main concern—physical presence—was decided by the Supreme Court. But the question is whether companies will raise the burden issue as a secondary claim, Noble said.

There are other logistical issues that take time. Current staffing would be overwhelmed with registrations from businesses, he said.

For now, the state will work with companies to voluntarily collect the taxes.

The Streamlined Sales Tax Governing Board Inc. is working with its 24 member states on messaging and implementation, Executive Director Craig Johnson said. The group is also reaching out to non-members to offer services.

Johnson said he expects a number of states to start down the path of joining by the end of the year. Specifics, though, depend on individual legislatures.

"It's going to take time for states to join," Johnson told Bloomberg Tax.

One highlight of the organization is a common application for sellers to register with states. That's the first thing businesses have to do, which means it's convenient to fill out one application for two dozen states, Johnson said.

'No One Will Understand'

States should try to provide clarity for both buyers and sellers, panelists said. Galle raised the issue of states that have minimum transaction thresholds to collect taxes.

That could be confusing in marketplaces with individual vendors. Customers may not understand if transactions are aggregated by platform or by seller to determine if they owe taxes.

"I suspect that no one will understand that," Galle said.

Galle also suggested that customers be alerted to the taxes owed while they're browsing and not just at checkout.

Retailers are also raising questions about implementation and compliance since the court decision, said Rachelle Bernstein, vice president and tax counsel at the National Retail Federation. Retailers are looking for centralized information on which states are starting to collect taxes and when, she said, as well as how to register.

Businesses are also are looking for simplicity in compliance, Bernstein said. They need to know when to collect taxes during sales to avoid paying later.

"It's coming out of your bottom line," she said.

Plenary VI (Part 1): Best Practices: Infrastructure Funding
Saturday, July 21
10:15 to 10:45 a.m.
Convention Center: Sweeney Ballroom C-F

Plenary VI (Part 1): Best Practices: Infrastructure Funding

Overview

When it comes to infrastructure investment, the relationship between governors and company executives and the roles that both actors play should not be ignored. In order to achieve their goals, governors constantly work with one another as well as leaders in the infrastructure industry, both in the U.S. and across the globe, to create the best plan for their citizens. Therefore, the infrastructure projects undertaken in individual states are interconnected with the situations both at home and abroad. Moreover, funding opportunities from international investors and state leadership for these projects benefit the entire nation.

NGA Global welcomes Shemara Wikramanayake, chair of Macquarie Foundation Group and head of Macquarie Asset Management, to speak about the interconnectedness of infrastructure projects regionally and internationally.

****You are moderating an armchair discussion. Remarks and scripts are forthcoming.**

Format

- 10:15 a.m. Armchair Discussion
  - Governor Brian Sandoval, Nevada
  - Shemara Wikramanayake, Chair, Macquarie Foundation Group; and Head, Macquarie Asset Management
- 10:30 a.m. Q&A Session

Takeaway(s)

This session will be a follow-up from the discussion on Thursday. International companies and other infrastructure stakeholders recognize governors as the leaders of our nation's future infrastructure buildout. This session aims to highlight opportunities for collaboration and creative approaches to infrastructure development at the state level.

Media

This session is open to the press.

Plenary VI (Part 2): Subnational Leaders Idea Exchange
Saturday, July 21
11 a.m. to 12:15 p.m.
Convention Center: Sweeney Ballroom C-F

Plenary VI (Part 2): Subnational Leaders Idea Exchange

Overview

NGA Global continues to stress the importance of the relationship between subnational governments to the federal government. In order to sustain economic growth, leaders must collaborate both domestically and internationally. By joining together, leaders can solve common issues through cross-border collaboration. Challenges, such as an aging population, rural connectivity and the future of work, are not unique to the United States. As we overcome these similar hurdles in different countries, collaboration becomes necessary.

General Secretary Annegret Kramp-Karrenbauer, will deliver the opening remarks in this session. As a former minister-president, a position which is equivalent to a governor, she will discuss the German-U.S. relationship. German ties to states such as California, Texas, Pennsylvania, Illinois and New York, have created approximately 228,000 jobs and helped foster innovation across the Atlantic. Building on the synergies created this past year in Providence, Rhode Island and Washington, D.C., at NGA's last subnational exchanges and the dialogue on North American relations, the panel following her remarks will feature subnational leaders from Japan, Canada, Mexico and Australia.

Format

- 11:15 a.m. — Introductory Remarks
  - Governor Brian Sandoval, Nevada
- 11:20 a.m. — Thank You from Kenyan Delegation
  - H.E. Josphat Nanok, Governor of Turkana and Chairman of Council of Governors in Kenya
- 11:30 a.m. — Keynote
  - Annegret Kramp-Karrenbauer, General Secretary, Christian Democratic Party, Germany
- 11:45 a.m. — Q&A Session with General Secretary Kramp-Karrenbauer

Presenter Bio

Annegret Kramp-Karrenbauer

Annegret Kramp-Karrenbauer serves as general secretary of the Christian Democratic Union (CDU). She was nominated by Angela Merkel and elected at the CDU party conference in February 2018, where she received 98.87 percent of the delegate votes.

General Secretary Kramp-Karrenbauer was the minister-president of Saarland from 2011 to 2018, making her the first woman to lead the government of Saarland and only the fourth woman to govern a German state.

On the national level, General Secretary Kramp-Karrenbauer also served as Commissioner of the Federal Republic of Germany for Cultural Affairs under the Treaty on Franco-German Cooperation between 2011 and 2014. She continues to be a member of the German-French Friendship Group set up by the German Bundesrat and the French Senate.

General Secretary Kramp-Karrenbauer was a CDU delegate to the Federal Convention for the purpose of electing the President of Germany in 2012 and 2017. Under her leadership, the CDU won 40.7 percent of the vote in the 2017 state elections, up from 35.2 percent in 2012.

General Secretary Kramp-Karrenbauer studied law and political science at the Universities of Trier and Saarbrücken from 1982 to 1990, and she earned a Master of Arts in Political Science and Public Law in 1990.

Governors and Chiefs of Staff Lunch and Business Session: Transition
Saturday, July 21
12:15 to 1:30 p.m.
Convention Center: Sweeney Ballroom B
Invitation Extended to Governors Plus One Senior Staff Member

Governors and Chiefs of Staff Lunch and Business Session

Overview

A special joint lunch for governors and chiefs of staff. The program will feature a moderated panel of former governors who will give remarks focused on governing during the final year in office and on life after being governor. There will be ample time for question and answer and open discussion.
Moderated by NGA CEO and Executive Director Scott D. Pattison. Panel to include former Governors George Allen (Va.), Jim Edgar (Ill.), John Engler (Mich.) and Jane Swift (Mass.).

**You are giving opening remarks.

Format

- 12:15 p.m. — Networking Lunch and Introductions
- 12:40 p.m. — Opening Remarks and Introductions
  - Governor Brian Sandoval, Nevada
  - Scott Pattison, CEO, NGA
- 12:50 p.m. — Moderator Questions/Panelist Answers/Discussion
  - Governor George Allen, Virginia
  - Governor Jim Edgar, Illinois
  - Governor John Engler, Michigan
  - Governor Jane Swift Massachusetts
- 1:15 p.m. — Audience Questions

Takeaway(s)

Governors and chiefs of staff will receive guidance on how to address the special challenges and opportunities during the final six months of an administration, as well as how to approach opportunities after leaving the office of governor.

Media

This session closed to the press.

AMERICAN OVERSIGHT

Presenter Bios

George Allen (Virginia, 1994-1998)

George Allen was born in Whittier, Calif. He attended the University of Virginia, where he graduated with distinction in 1974 with a bachelor's degree in history and earned his law degree in 1977. Allen later established his own law practice in Charlottesville. He was first elected to public office as a state representative in 1983 and held the seat in the Virginia House of Delegates for nine years. He was elected to the U.S. House of Representatives in a special election on Nov. 5, 1991, and elected governor two years later. Allen was elected to the U.S. Senate in 2000. Since leaving the U.S. Senate, Allen has continued to advocate for the issues and ideas he has always fought for. He launched the American Energy Freedom Center, whose mission is to advocate positive ideas for American jobs, economic prosperity and promote increased freedom, opportunity and competition in the development and use of our vast energy resources. Allen also serves as the Reagan Ranch Presidential Scholar for the Young America's Foundation.

Jim Edgar (Illinois, 1991-1999)

Jim Edgar was born in Vinita, Okla., and was raised in Charleston, Ill. He earned a bachelor's degree in history from Eastern Illinois University, where he served as student body president. Edgar was elected to the Illinois House of Representatives in 1976 and reelected in 1978. In 1981 he was appointed secretary of state. He was elected to that position in 1982 and was reelected in 1986 by the largest plurality of any candidate in the state's history. Edgar was elected governor in 1990 and was reelected in 1994, carrying 101 of the state's 102 counties, including Cook County. After retiring from elective office, Governor Edgar was a resident fellow at the John F. Kennedy School of Government at Harvard. He has continued his commitment to responsible and responsive government as a distinguished fellow at the University of Illinois' Institute of Government and Public Affairs. He spearheads the Edgar Fellow program, which brings together emerging leaders from all parts of Illinois to foster the statesmanship that will address major challenges across regional, partisan and ethnic lines. Governor Edgar also lectures to students at the U of I and in colleges and universities throughout the state and serves on several corporate and non-profit boards. He is president emeritus of the Abraham Lincoln Presidential Library Foundation.

John Engler (Michigan, 1991-2003)

John Engler became interim president of Michigan State University on Feb. 5, 2018, following his appointment by the MSU Board of Trustees. He was the 46th governor of the state of Michigan, serving three terms from 1991 to 2003. Before that Engler served 20 years in the Michigan Legislature, including seven years as state Senate majority leader. He was the youngest person ever elected to the Michigan House of Representatives.

Immediately prior to his MSU appointment, he led two of the most influential business associations in the country: the National Association of Manufacturers and Business Roundtable. Engler was president of Business Roundtable, an association of CEOs of the largest United States companies, from 2011 to 2017. From 2004 to 2010, Engler was president and CEO of the National Association of Manufacturers, the largest manufacturing association in the United States. Engler joined Electronic Data Systems Corporation as an executive immediately after leaving state government. He has served on the boards

AMERICAN OVERSIGHT

of several corporations and organizations, currently including Universal Forest Products Inc. and K12 Inc. He chaired the National Governors Association and the State Science & Technology Institute, and was named among *Governing* magazine's 2001 Public Officials of the Year. He is a graduate of MSU with a Bachelor of Science degree in agricultural economics and earned a law degree from the Thomas M. Cooley Law School. He and his wife, Michelle, are parents of triplet daughters Margaret, Hannah and Madeleine. He was born in Mt. Pleasant, Mich., in 1948.

Jane Swift (Massachusetts, 2001-2003)

Former Massachusetts Governor Jane Swift is an accomplished leader in both the public and private sectors and a recognized national voice on education policy and women's leadership. She was born in North Adams, Mass. Swift received a bachelor's degree in American studies from Trinity College in 1987 and holds several honorary degrees for her work. Her career as an elected official began in 1991 at age 25 when she was the youngest woman ever elected to the Massachusetts State Senate. She quickly became the youngest woman in Senate history to hold a leadership position, rising to assistant minority leader. Governor Paul Cellucci appointed Swift as director of the Office of Consumer Affairs and Business Regulation in 1997. Swift was elected lieutenant governor in 1998 and became governor on April 10, 2001, when Cellucci resigned to become the U.S. ambassador to Canada. After her public service career, Swift was a general partner at Arcadia Partners, the leading venture capital firm focused exclusively on the education industry, Swift provided expert advice and guidance to early stage education companies as the founder of WNP Consulting, LLC. From 2003-2006. She was CEO of Middlebury Interactive Languages from 2011 to 2017. Swift currently serves as the executive chair of the board of Ultimate Medical Academy, a nationally accredited nonprofit health care educational institution headquartered in Tampa, Fla. She is a member of the boards of Suburban Propane, a publicly traded propane marketing company, and API, a privately held international study abroad company. Additionally, she serves on the advisory board for the School of Leadership Afghanistan (SOLA), the first girls boarding school in Afghanistan, and is a member of Oxfam's Sisters on the Planet Ambassadors. Swift served for a decade as a distinguished visiting lecturer in leadership studies at Williams College. She continues to speak professionally on women's leadership, education improvement and work-family integration. She and her husband Chuck are the proud parents of three daughters, Elizabeth, Lauren and Sarah.

Plenary VII: The Intersection Between the Arts and Commerce in the States
Saturday, July 21
1:30 to 2:15 p.m.
Convention Center: Sweeney Ballroom C-F

Plenary VII: The Intersection Between the Arts and Commerce in the States

Overview

According to data released in March by the U.S. Bureau of Economic Analysis, the arts collectively contribute $763.6 billion to the U.S. economy and employ 4.9 million workers across the country. Meanwhile, recent research forecasting future employment and skills demands commissioned by Pearson found knowledge areas such as English language, history and philosophy; cognitive skills such as fluency of ideas, originality and oral expression; and creative, digital and design occupations are all expected to experience increased demand as technology continues to transform the global economy.

These recent findings underscore the importance of arts, history and music education not only as necessary elements to provide students a well-rounded and rewarding educational experience, but also to ensure states are well positioned to leverage the economic impact of the rise in creative professions, both now and in the future. Students educated as creative thinkers who can bring artistic perspectives to problem solving and connect in compelling ways to express ideas are becoming essential to state economies now and will be indispensable as agile and adaptable future members of the workforce as the global economy evolves in expected and unexpected ways.

Format

- 1:30 p.m. — Opening Remarks
  - Governor Jay Inslee, Washington, *Chair, Education and Workforce Committee*
  - Governor Dennis Daugaard, South Dakota, *Vice Chair, Education and Workforce Committee*
- 1:35 p.m. — The Impact of Arts on the Economy: New Mexico's Story
  - Governor Susana Martinez, New Mexico
- 1:40 p.m. — Speaker Presentations
  - Sarah Trahern, CEO, Country Music Association
  - Dr. Edward L. Ayers, Tucker-Boatwright Professor of the Humanities and President Emeritus, University of Richmond
- 1:50 p.m. — Governors' Roundtable Discussion
- 2:15 p.m. — Adjourn

Media

This session is open to press.

Takeaway(s)

In this session, governors will hear from prominent artists, historians and their own colleagues to explore the importance of arts and history education to developing vibrant creative economies in their states.

AMERICAN OVERSIGHT

Presenter Bios

Sarah Trahern

Trahern has more than 30 years of experience in the television business, including 21 years producing or overseeing Country Music programming. Today she is the CEO of the esteemed Country Music Association, which was formed in 1958 as the first trade group to promote a single genre of music. She has served in this position for 3 years.

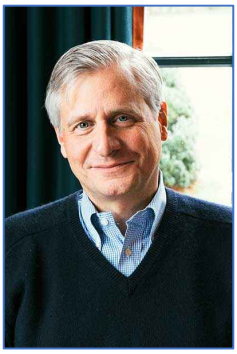
Her role at CMA is to collaborate with the CMA Board of Directors to expand the mission and strategic objectives of CMA while being mindful of the unique legacy and spirit of the music industry organization. Trahern also serves as President of the CMA Foundation Board, which supports music education programs for deserving children across the U.S.

She began her cable career at C-SPAN in Washington, D.C., covering politics and public affairs and producing the popular series "Booknotes." She moved to Nashville in 1995 to oversee specials and entertainment series for TNN. She joined Great American Country in 2005 with Scripps' ownership of the network. She was promoted to SVP of Programming and in 2010, general manager of the network, where her myriad duties included the strategic direction of the network and oversight of GAC's programming, marketing, creative and digital initiatives.

Trahern is an alum of both Leadership Music and Leadership Nashville.

She is also a graduate of Georgetown University and has an MBA from the Owen Graduate School of Management at Vanderbilt.

Edward L. Ayers



Edward Ayers is Tucker-Boatwright Professor of the Humanities and president emeritus at the University of Richmond. Dr. Ayers has been named National Professor of the Year, received the National Humanities Medal from President Obama at the White House, was a finalist for the National Book Award and the Pulitzer Prize, and won the Bancroft Prize for distinguished writing in American history.

Ayers is one of the cohosts for BackStory, a popular podcast about American history. His newest book, The Thin Light of Freedom: The Civil War and Emancipation in the Heart of America, has received the Lincoln Prize from the Gilder Lehrman Institute and Gettysburg College.

Jon Meacham

Meacham is the author of *New York Times* bestsellers, *Destiny and Power: The American Odyssey of George Herbert Walker Bush, American Lion: Andrew Jackson in the White House,* and *American Gospel: God, the Founding Fathers, and the Making of a Nation*

A member of the Council on Foreign Relations and of the Society of American Historians, Meacham is a distinguished visiting professor at Vanderbilt University. He is a contributing writer to *The New York Times* Book Review, a contributing editor of *Time*, and has written for *The New York Times* op-ed page, *The Washington Post*, *Vanity Fair*, and *Garden & Gun*. Meacham is also a regular guest on "Morning Joe" and other broadcasts.

Meacham's biography of President Bush was named one of the 10 best books of the year by *The Washington Post* and one of the best books of the year by *The New York Times Book Review, Time*, *National Public Radio* and the *St. Louis Post-Dispatch*. *Destiny and Power* was also honored for excellence in "Politics and Leadership" in 2015 by the Plutarch Committee of BIO, the Biographers International Organization.

Thomas Jefferson: The Art of Power received the 2013 Fraunces Tavern Museum Book Award from the Fraunces Tavern Museum and the Sons of the American Revolution in the State of New York, a prize that "recognizes books of exceptional merit written on the Revolutionary War era." Franklin and Winston was honored with the Colby Award of the William E. Colby Military Writers' Symposium at Norwich University. Meacham was also honored with the 2015 Nashville Public Library Literary Award; other winners include John Lewis, Robert K. Massie, Margaret Atwood, John McPhee, Billy Collins, Doris Kearns Goodwin, John Irving, Ann Patchett, John Updike, David McCullough and David Halberstam.

A former executive editor at Random House, he published the letters of Arthur Schlesinger Jr., and books by, among others, Al Gore, John Danforth, Clara Bingham, Mary Soames and Charles Peters. After serving as managing editor of *Newsweek* for eight years, Meacham was the editor of the magazine from 2006 to 2010. He is a former editor of *The Washington Monthly* and began his career *at The Chattanooga Times*.

Born in Chattanooga in 1969, Meacham was educated at St. Nicholas School, The McCallie School, and graduated from The University of the South in Sewanee, Tennessee, with a degree summa cum laude in English Literature; he was salutatorian and elected to Phi Beta Kappa.

A trustee of the Thomas Jefferson Foundation, the Smithsonian's National Museum of American History, The McCallie School and The Harpeth Hall School, Meacham chairs the National Advisory Council of the John C. Danforth Center on Religion and Politics at Washington University. He has served on the vestries of St. Thomas Church Fifth Avenue and of Trinity Church Wall Street as well as the Board of Regents of The University of the South. The Anti-Defamation League awarded Meacham its Hubert H. Humphrey First Amendment Prize. In 2013 the Historical Society of Pennsylvania presented him with its Founder's Award; in 2016 he was honored with the Sandra Day O'Connor Institute's Spirit of Democracy Award. Meacham also received an honorary Doctor of Humane Letters degree from the Berkeley Divinity School at Yale University in 2005 and holds honorary doctorates from Middlebury College, Wake Forest University, the University of Tennessee, Dickinson College, Sewanee and several other institutions.

AMERICAN OVERSIGHT

Plenary VIII: Robots, Education and Workforce: Transformers and Transformation
Saturday, July 21
2:25 to 2:55 p.m.
Convention Center: Sweeney Ballroom C-F

Plenary VIII: Robots, Education and Workforce: Transformers and Transformation

Overview

Innovations like automation and the rise of the gig economy have transformed both the workplace and the workforce in ways that were unprecedented even five to ten years ago. As the economy of the future continues to evolve, governors must anticipate changes and trends on a global, national, regional and local level to ensure their state's workforce and state economy are prepared to meet coming transitions. Navigating those transitions will require both transformation and coordination of state education and workforce development systems to ensure the success of workers and sustainable economic growth amid a background of constant change.

To assist governors in anticipating economic trends and exploring creative solutions to capitalize on them, economic development experts will join governors for a conversation on regional economic trends, future innovations to anticipate, and how state education and workforce systems can be retooled to align with the in-demand skills of the future.

Format

- 2:25 p.m. — Opening Remarks
  - Governor Jay Inslee, Washington, *Chair, Education and Workforce Committee*
  - Governor Dennis Daugaard, South Dakota, *Vice Chair, Education and Workforce Committee*
- 2:35 p.m. — Speaker Presentations
  - Rich Davey, Associate Director, Boston Consulting Group
  - Alan B. Krueger, Bendheim Professor of Economics and Public Affairs, Princeton University
- 2:45 p.m. — Governors' Roundtable Discussion
- 2:55 p.m. — Adjourn

Media

This session is open to press.

Takeaway(s)

This session will explore regional economic trends, innovations and how governors can equip state education and workforce systems to respond.

Presenter Bios

Alan B. Krueger

Alan Krueger has published widely on the economics of education, unemployment, labor demand, income distribution, social insurance, labor market regulation, terrorism, and environmental economics. Since 1987 he has held a joint appointment in the Economics Department and Woodrow Wilson School at Princeton University. He is the founding Director of the Princeton University Survey Research Center. He is the author of What Makes A Terrorist: Economics and the Roots of Terrorism and Education Matters: A Selection of Essays on Education, co-author of Myth and Measurement: The New Economics of the Minimum Wage, and co-author of Inequality in America: What Role for Human Capital Policies?

Professor Krueger served as chairman of President Barack Obama's Council of Economic Advisers and a member of the Cabinet from 2011 to 2013. He also served as assistant secretary for Economic Policy and chief economist of the U.S. Department of the Treasury in 2009 to 2010 and as chief economist at the U.S. Department of Labor in 1994 to 1995.

He was vice president of the American Economic Association in 2017, and has been a member of the Executive Committee of the American Economic Association (2005-2007) and International Economic Association. Since February 2017, he has been a member of the board of directors of BNP Paribas USA. He has been a member of the board of directors of the Russell Sage Foundation, MacArthur Foundation and the American Institutes for Research, as well as a member of the editorial board of Science (2001-2009), editor of the Journal of Economic Perspectives (1996-2002) and co-editor of the Journal of the European Economic Association (2003-2005).

He was named a Sloan Fellow in Economics in 1992 and an NBER Olin Fellow in 1989 to 1990. He was elected a Fellow of the Econometric Society in 1996, and a fellow of the Society of Labor Economists in 2005. He was awarded the Kershaw Prize by the Association for Public Policy and Management in 1997 (for distinguished contributions to public policy analysis by someone under the age of 40) and the Mahalanobis Memorial Medal by the Indian Econometric Society in 2001. In 2002, Professor Krueger was elected a Fellow of the American Academy of Arts & Sciences, and in 2003 he was elected a Fellow of the American Academy of Political and Social Science. He was awarded the IZA Prize in Labor Economics with David Card in 2006. He was awarded the Moynihan Prize by the American Academy of Political and Social Science in 2017.

From 2000 to 2009 he was a regular contributor to the "Economic Scene" column and Economix blog in the New York Times.

He received a B.S. degree (with honors) from Cornell University's School of Industrial & Labor Relations in 1983, an A.M. in economics from Harvard University in 1985 and a Ph.D. in economics from Harvard University in 1987.

AMERICAN OVERSIGHT

Richard Davey

Richard Davey joined The Boston Consulting Group's Washington, D.C., office in March 2017 working with the Public Sector and Industrial Goods practice areas. Prior to joining BCG, Davey had an over 15 years of C-suite transportation experience in high profile, publicly accountable organizations in state government and the private sector.

Davey served as the secretary and CEO of the Massachusetts Department of Transportation ("MassDOT") from 2011 until 2014. He had direct operational responsibility for and oversight of the state's highways, bridges and tunnels (including the "Big Dig"), the freight and passenger rail program, 15 regional transit agencies including the MBTA and the state's Registry of Motor Vehicles. During his tenure as secretary, Rich also served as chairman of the Massachusetts Port Authority ("Massport") Board of Directors, responsible for the Logan Airport and the Port of Boston, among other holdings.

Prior to serving as secretary, Davey served as the general manager of the Massachusetts Bay Transportation Authority ("MBTA") the fifth-largest public transit system in the United States. Davey was able to effectively manage the MBTA during time of fiscal challenges by achieving a balanced budget and the highest ridership since 1946.

Prior to serving in state government, Davey worked for seven years in various capacities at the Massachusetts Bay Commuter Railroad ("MBCR"), the private contractor that operated and maintained the MBTA's commuter rail system, ultimately served as MBCR's general manager and chief executive from 2008 until 2010.

Rich holds a JD, summa cum laude, from Gonzaga University School of Law and a B.A. in political science from the College of the Holy Cross.

PRESS RELEASE

FOR IMMEDIATE RELEASE

Wed., May 30, 2018 Contact: Laurie Mann, 702-563-7813

Lumina Foundation Designates Las Vegas as Talent Hub

Las Vegas granted $275,000 to support local efforts to increase education beyond high school

LAS VEGAS–Lumina Foundation, in partnership with the Kresge Foundation, has announced the designation of Las Vegas and six other communities across the country as Talent Hubs. These cities, along with 17 others selected in 2017, earned this designation by meeting rigorous standards for creating environments that attract, retain, and cultivate talent. Talent Hub cities are focused on raising the nation's overall post-high school attainment level to 60 percent of working-age adults by 2025 and committed to eliminating deep disparities in educational outcomes among African-Americans, Hispanics, and American Indians, who fare poorly in contrast with white and Asian students.

"Together, we have an opportunity to solve part of a very complex problem in our community - a skilled workforce needed to meet employer demands and help families move out of poverty into sustainability. With the Las Vegas area's demand for a properly educated and skilled workforce, which is among the highest in the nation, and the incredibly low supply available in our community to meet that need, it's critical that we work with our community partners to solve this complex issue," said Scott Emerson, United Way of Southern Nevada President and CEO. "Those in our neighborhoods deserve a fighting chance to make a better life. By combining our efforts, we will close the achievement gap among underrepresented student populations, collaborate to address the challenges of the workforce education needs of Nevada, and co-develop new and innovative solutions to the critical issues facing the Las Vegas area."

Nevada ranks third in the U.S. for job growth, while ranking 49th in educational attainment and last in college readiness. Focusing on the growing disparities in enrollment and completion rates, the Las Vegas area Talent Hub, comprised of partners College of Southern Nevada (CSN); Nevada System of Higher Education (NSHE), Workforce Development; Governor's Office of Workforce Innovation for a New Nevada (OWINN) and United Way of Southern Nevada, will collaborate to increase the credentials of African American, Hispanic and low income learners.

AMERICAN OVERSIGHT

“We are thrilled to have this new opportunity to increase college credential attainment in Nevada,” said College of Southern Nevada Acting President Margo Martin. “CSN’s faculty and staff look forward to partnering with the United Way of Southern Nevada, OWINN and the Nevada System of Higher Education’s leadership through the new Talent Hub designation. Together, we will use proven strategies to increase student success, helping even more students cross the graduation finish line and ultimately land jobs that support Nevada’s diversifying workforce.”

"Nevada’s economic success is dependent on increased participation in post-secondary education and closing the achievement gap among underserved populations. This grant will help CSN achieve its student success goals and increase Nevada’s highly-skilled workforce,” said Nevada System of Higher Education Chancellor Thom Reilly.

“We are proud to be engaged in this collaborative effort with committed partners to showcase and to keep building a dynamic workforce. This opportunity as a Talent Hub aligns with Governor Sandoval’s vision of a new Nevada in which all Nevadans are on a career pathway with the postsecondary credentials needed to engage and succeed in today’s thriving labor-market,” said Manny Lamarre, Executive Director, OWINN.

“We have added to the growing roster of top-flight cities committed to meeting the demands for an educated workforce,” said Jamie Merisotis, president and CEO of Lumina Foundation. “The Talent Hub designation serves both as an aspirational target for other cities and a foundation from which cities designated as Talent Hubs can build.”

Each community designated as a Talent Hub receives $275,000 in grant funding over 31 months. Grant funding will support local efforts to educate more people, allowing community and education leaders to better meet the specific needs of residents. Lumina will provide these funds in partnership with Kresge.

Integrating proven educational strategies of intensive student onboarding, academic maps, proactive academic and career advising, and instructional support and co-curricular activities, the partnership will also scale up practices of work-based learning, including the growing Registered Apprenticeship Program and industry/work-based credentials programs. Both strategies root success in intensive, proactive, and integrated student support/case management, which is particularly important for equity populations.

To date, Talent Hub investments by Lumina and Kresge total just over $10 million.

Kresge’s support of Talent Hubs comes from its national education program, which includes a focus on aligning and strengthening urban higher education ecosystems to help more low-income, underrepresented, and students of color gain access to—and succeed in—higher education.

AMERICAN OVERSIGHT

Talent Hubs are one outgrowth of Lumina's Community Partnerships for Attainment, which represented more than $10 million of grants to 75 cities across the country. This partnership, which began in 2013, continues to work directly with communities to expand educational opportunities beyond high school.

"With our partners at Kresge, Lumina's Talent Hubs designation aims to deepen the impact of cross-sector, place-based efforts to increase higher education attainment in communities and cities across the country," said Danette Howard, Lumina's senior vice president and chief strategy officer. "Talent Hubs work closely with Lumina and national thought leaders to develop a customized action plan tailored to the needs of their specific communities, with a focus on increasing the percentage of post-high school credentials residents have earned. This effort is directly connected to Lumina's mission of helping the nation ensure that 60 percent of working-age Americans have quality credentials by 2025."

The seven new communities designated as Talent Hubs are: Corpus Christi, Texas; Detroit; Elkhart County, Ind.; Las Vegas; Mobile, Ala.; Rio Grande Valley, Texas; and St. Louis.

They join 17 other Talent Hubs: Albuquerque, N.M.; Austin, Texas; Boston; Cincinnati; Columbus, Ind.; Dayton, Ohio; Denver; Fresno, Calif..; Los Angeles; Louisville, Ky.; Nashville, Tenn.; New York; Philadelphia; Racine, Wis.; Richmond, Va.; Shasta County, Calif.; and Tulsa, Okla.

About Lumina Foundation Lumina Foundation is an independent, private foundation in Indianapolis that is committed to making opportunities for learning beyond high school available to all. Lumina envisions a system that is easy to navigate, delivers fair results, and meets the nation's need for talent through a broad range of credentials. The Foundation's goal is to prepare people for informed citizenship and for success in a global economy.

The **Kresge Foundation** was founded in 1924 to promote human progress. Today, Kresge fulfills that mission by building and strengthening pathways to opportunity for low-income people in American cities, seeking to dismantle structural and systemic barriers to equality and justice. Using a full array of grant, loan, and other investment tools, Kresge invests more than $160 million annually to foster economic and social change. For more information visit Kresge.org.

About United Way of Southern Nevada
United Way of Southern Nevada unites our community to improve people's lives. We bring donors, volunteers, nonprofits, and businesses together to help children enter school ready to learn, help high school students reach graduation day, and support individuals working to earn a degree or certification, all while creating stability for their

AMERICAN OVERSIGHT

families. Together, we step into the ring and invite others to stand with us as a united front against social injustices and forces keeping our community's most vulnerable residents from a good life. We are bold and innovative to solve our toughest problems. Together, we fight for the future of our community – and we will win. Join us at uwsn.org.

About CSN
Founded in 1971, the College of Southern Nevada is the state's largest and most ethnically diverse higher education institution. CSN is accredited through the Northwest Commission on Colleges and Universities and specializes in two-year degrees and workforce development that lead directly to high-demand careers or transfer to a university. It also offers five bachelor's degrees in specialized fields and is the state's largest provider of adult basic education and literacy training. CSN is a Minority Serving Institution and Nevada's first Hispanic Serving Institution. CSN's students create flexible schedules with day, evening and weekend classes taught on three main campuses and multiple locations throughout Southern Nevada or online. CSN — your future starts here. CSN is an Equal Employment Opportunity/Affirmative Action institution. For more, visit www.csn.edu.

About Nevada System of Higher Education
The Nevada System of Higher Education, comprised of two doctoral-granting universities, a state college, four comprehensive community colleges and one environmental research institute, serves the educational and job training needs of Nevada. NSHE provides educational opportunities to more than 100,000 students and is governed by the Nevada Board of Regents.

About OWINN
The Governor's Office of Workforce Innovation (OWINN) helps drive a skilled, diverse, and aligned workforce in the state of Nevada by promoting collaboration and cooperation among key public and private entities focused on workforce development. OWINN works to address Nevada's workforce needs by leveraging labor-market data, scaling career pathways that leads to industry-recognized credentials, expanding apprenticeships and work-based learning, and designing responsive workforce policies.

As the news focuses on stalled trade negotiations in North America, Canada, Mexico and the United States have shocking skills gaps that are already hampering economic performance and competitiveness.

North America's labor markets face massive technological disruptions, which should point all three countries toward preparing the jobs that will serve the continent well in the future.

In the U.S., for example, up to 1.4 million workers may lose their jobs by 2026 because of new technologies. Sadly, none of the three economies are ready for the challenges of further automation.

Manpower's most recent skills survey found employers struggling to fill vacancies: 46 percent in the U.S., 40 percent in Mexico and 34 percent in Canada. Inadequate experience and lack of hard and soft skills are the most-cited reasons for not finding the right candidates.

Even low-skilled, entry-level positions are now requiring digital skills, and the United States is experiencing a severe worker shortage.

The three governments should create a trilateral task force on workforce development, with public-private, federal-sub-federal working groups, to develop proposals and strategies to meet emerging skills and jobs needs.

View Latest Opinions >>

Leaders recognize the need to invest better in training workers, but they are still searching for effective approaches.

In January, at the Davos World Economic Forum, President Trump signaled the need to invest when he said, "... to be successful, it is not enough to invest in our economy. We must invest in our people." In June 2017, he launched an initiative to support apprenticeships via public-private partnerships.

The Canadian government appropriated significant new funds in its 2018 budget for workforce development, prioritizing multi-stakeholder collaboration.

The government of Mexico is working with private companies to implement the Modelo Mexicano de Formación Dual (Mexican Dual System of Vocational Education), which combines academic training with work-based learning.

At the state, provincial and local levels, there are many successful, innovative workforce development initiatives in all three countries.

North America, however, lacks an overarching means to share best practices, to scale up programs that work, to adopt common definitions and to share data that can help businesses, workers, schools and students choose good paths to the future economy. A trilateral task force on workforce development would help fill that gap.

A new North America Workforce Agenda should focus on four clusters of issues:

1. Apprenticeships and other work-based learning. Many jobs do not require a four-year college degree. Work-based learning for those coming into the workforce and for workers adapting to new skill needs is vital, but much work remains to define and implement good models.

Shared agreement on what an apprenticeship program entails and on quality standards would be very useful. The working groups can suggest mechanisms to identify and promote best practices and public-private partnerships.

The groups can devise strategies to increase public awareness of the benefits of work-based learning, to eliminate stigmas of vocational education and to encourage more businesses, students and workers to participate.

2. Certifications. Professional credentials can reduce hiring costs and encourage higher wages. When employers do not recognize credentials, workers, job seekers and businesses suffer. The working groups can promote agreed criteria for recognizing credentials and for making them more portable to help alleviate skills shortages and facilitate worker placements.

They can promote common terminology about credentials and a shared understanding of competencies needed. They can develop guidelines to assess informal learning and professional experience in order to help job seekers and businesses.

3. Data collection and transparency. At all educational levels, students struggle to make career decisions and educators struggle to provide advice due to poor information on labor market trends. Businesses are looking for good data to better recruit.

Pavlich: The left's tiring hysteria on Kavanaugh

Never Trumpers don't represent the...

AMERICAN OVERSIGHT

Collecting the right data on skills and workforce trends and making it available in real time is vital. The working groups can promote norms for collection and sharing labor market data transparently.

They can support building platforms and data tools openly available to all, allowing space for public and private sector initiatives (such as LinkedIn is pursuing).

4. Best practices for "the Fourth Industrial Revolution." All three North American countries are rapidly incorporating technology into daily routines. The pace of transformation will only increase.

Public authorities, businesses and educators need to develop agile approaches that provide students, workers and managers with skills to use new technology effectively.

The North American working groups could propose ways to incentivize companies to invest in re-skilling and "up-skilling" workers, to provide mid-career learning and to develop short-term training programs.

They could recommend strategies to encourage collaboration between companies, educational institutions, unions and others to better align curricula with labor market needs and evolving technologies.

The pace and scope of change means that workforce development will require continued adaptation across North America. For success, this effort must bring together governments, educational institutions, the private sector, unions, NGOs, intermediaries and others.

North America's workers and businesses will benefit greatly if we can build a forward-looking workforce dialogue to promote the competitiveness of all three economies.

NEXT ECONOMY

The Parts of America Most Susceptible to Automation

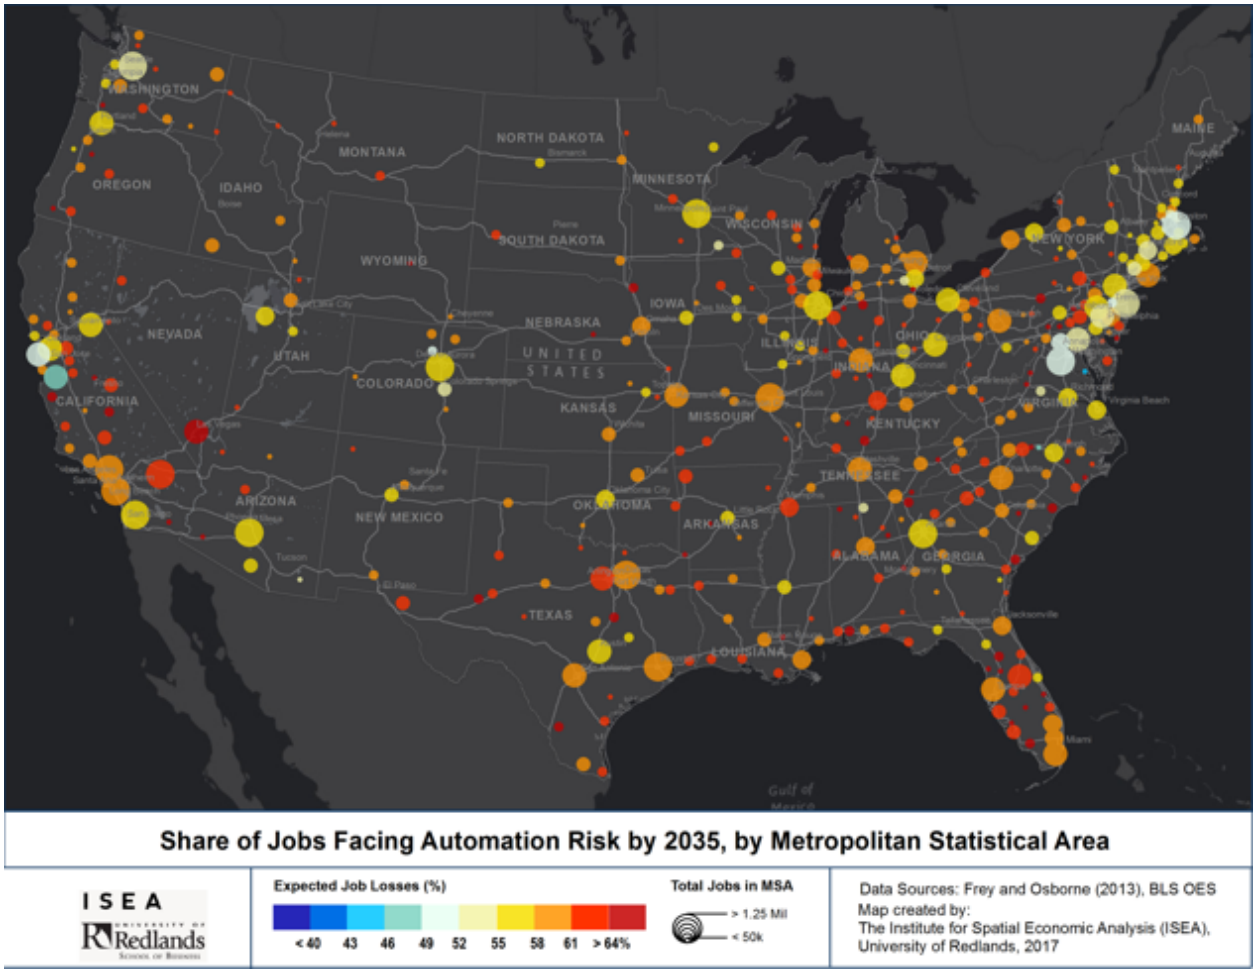
No, they're not in the Rust Belt.

ALANA SEMUELS MAY 3, 2017

ISAAC BREKKEN / AP

Economists expect that millions of American jobs are going to be replaced by automation in the coming decades. But where will those job losses take place? Which areas will be hardest hit?

Much of the focus regarding automation has been on the Rust Belt. There, many workers have been replaced by machines, and the number of factory jobs has slipped as more production is offshored. While a lot of the rhetoric about job loss in the Rust Belt has centered on such outsourcing, one study from Ball State University found that only 13 percent of manufacturing job losses are attributable to trade, and the rest to automation.



A new analysis suggests that the places that are going to be hardest-hit by automation in the coming decades are in fact outside of the Rust Belt. It predicts that areas with high concentrations of jobs in food preparation, office or

AMERICAN OVERSIGHT

administrative support, and/or sales will be most affected—places such as Las Vegas and the Riverside-San Bernardino area may be the most vulnerable to automation in upcoming years, with 65 percent of jobs in Las Vegas and 63 percent of jobs in Riverside predicted to be automatable by 2025. Other areas especially vulnerable to automation are El Paso, Orlando, and Louisville.

Still, the authors estimate that almost all large American metropolitan areas may lose more than 55 percent of their current jobs because of automation in the next two decades. "We felt it was really stunning, since we are underestimating the probability of automation," said Johannes Moenius, the director of the Institute for Spatial Economic Analysis at the University of Redlands, which prepared the report.

Which Regional Economies Are Most Susceptible to Automation?

AMERICAN OVERSIGHT

Moenius and colleagues used a widely cited 2013 study from Oxford University predicting which of roughly 700 common jobs are most susceptible to automation, and then mapped out which metropolitan areas have a high share of those jobs. That study, by the economists Carl Benedikt Frey and Michael A. Osborne, suggested that 47 percent of total U.S. employment is at risk of automation over the next decade or two; they found that telemarketers, insurance underwriters and appraisers, tax preparers, and cashiers were some of the most likely to see their jobs threatened by automation, while the livelihoods of mental-health and substance-abuse social workers, oral surgeons, choreographers, and physicians were more protected.

Frey and Osborne's estimates cover about 138 million Americans' jobs. Moenius and his colleagues found that Las Vegas, Riverside, and El Paso all had high numbers of office and administrative-support jobs, food-preparation and -serving jobs, and sales jobs, and thus had the most vulnerability to automation. Moenius estimates that 65.2 percent of jobs in Las Vegas, 63.9 percent in El Paso, and 62.6 percent of jobs in Riverside are susceptible to automation in the next two decades. The automation of transportation and material-moving jobs also contributed to the potential job loss in these places, as well as in Greensboro, North Carolina, where 62.5 percent of jobs are susceptible to automation.

The jobs that the Redlands analysis places new focus on are slightly different from the types of jobs academics once thought would be easily automatable. That's because before the Frey and Osborne study, scholars had predicted that routine jobs were the most likely to be automated, but Frey and Osborne suggested that advances in computerization have made it likely that non-routine jobs will be automated, too. The power of machine learning means that programmers with large data sets can use them to make machines smarter, allowing them to do non-routine tasks; for example, oncologists are using data from medical journals and patient records to automatically create treatment plans for cancer patients. "It is largely already technologically possible to automate almost any task, provided that sufficient amounts of data are gathered for pattern recognition," the authors write.

Of course, the Rust Belt will not be immune to automation in coming decades. Metropolitan areas like Detroit, Indianapolis, Cleveland, and Pittsburgh could still see more than half of their jobs computerized, the study suggests. But because so many manufacturing jobs centered in the Midwest have already been automated,

AMERICAN OVERSIGHT

those regions are not at the top of the list of the places that currently stand to lose the highest share of jobs. Instead, the brunt of the next automation wave will come in cities with a different type of low-skill job.

What's particularly striking about the new Redlands report is that the regions that are susceptible to automation are those that already have a high share of low-wage jobs. Previously, automation had hurt middle-class jobs such as those in manufacturing. Now, it's coming for the lower-income jobs. When those jobs disappear, an entire group of less-educated workers who already weren't making very much money will be out of work. Moenius worries about the possibility of entire regions in which low earners are competing for increasingly scarce jobs. "I wasn't in L.A. when the riots happened, but are we worried about this from a social perspective?" he said. "Not for tomorrow, but for 10 years from now? It's quite frankly frightening."

There were, however, a few regions of the country where jobs were not as likely to be automated. They included Silicon Valley, North Carolina's Research Triangle and the Boston area, where a high share of the jobs require more creative and social intelligence, and are thus more difficult to automate.

These areas are currently relatively prosperous, and the Redlands analysis also suggests that America's growing regional divergence will only continue to worsen. As the Berkeley economist Enrico Moretti wrote in his 2012 book *The New Geography of Jobs*, high-tech job centers like Silicon Valley are attracting more and more educated and talented people, and are pulling away from the rest of the country. This has implications not only for employment, he wrote, but also for socioeconomic outcomes such as health, family stability, and crime. He put it this way:

"A handful of cities with the 'right' industries and a solid base of human capital keep attracting good employers and offering high wages, while at the other extreme, cities with the 'wrong' industries and a limited human capital base, are stuck with dead-end jobs and average wages."

The work by Moenius and his colleagues suggests that this divergence will only continue. While a handful of cities with good jobs and highly educated workers will continue to thrive, other areas are going to see more and more jobs disappear as automated technologies become ever better. This may have much wider

AMERICAN OVERSIGHT

implications, politically and socially. People in America's struggling regions feel left behind economically, as the 2016 election indicated. But the anger that motivated many voters in November may pale in comparison to what comes next, if some regions see two-thirds of their jobs disappear while other areas continue to thrive.

MANAGEMENT

4 Tips to Prep Students for Careers That Won't Be Automated

To be future-ready, students will need the right certifications, soft skills and real-world work experiences.

by Meghan Bogardus Cortez

Meghan is an associate editor with *EdTech*. She enjoys coffee, cats and science fiction TV.

Today's educators can ensure that students will be ready for a tech-filled college experience and eventual career, but how do they **avoid preparing students for a job that will be taken over by a robot** in the future?

automated in the coming years. The research reveals that nearly half of U.S. jobs are at risk of automation, with low-income jobs like cashier, waiter and personal care aide at the highest risk.

As schools look to get students future-ready, here are four tips to help them **navigate increasingly automated career fields**.

1. Leverage Data to Prep Students for College Success

Bloomberg's research indicates that earning a college degree is a big step to securing a job less likely to be at risk for automation. To help students succeed on the way to college, K–12 schools are establishing a data infrastructure to predict risks and intervene before students fail.

After learning that its graduates were struggling to finish college, New York City public high schools began using data on past students to **identify and remediate the mismatch between their curriculum and college work**.

2. Consider Tech Credentialing Alternatives to College

However, a college degree can't always insulate workers from automation. In its analysis of the research, *Education Week* reports that accountants, auditors, loan officers and paralegals — all jobs that require a degree — are also at high-risk for automation.

Research has even found that the **payoff for a college graduate from a low-income background is less than a student from an upper-middle-class background**.

Some schools are working to give students alternatives to choosing a career path that requires a college degree and one that doesn't. Warren County High School in Tennessee introduced a technical education field called mechatronics, which combines electronics and engineering and is used in the automation of many manufacturing systems.

"With only a high school diploma and an entry-level mechatronics certification, teenagers can earn more than $45,000 a year here in rural Tennessee," reports *Education Week*.

Across the state, **school districts are revamping their technical education programs to reflect industry needs** and help students be

3 Ways To Achieve A Successful

AMERICAN OVERSIGHT

NV-DA-20-0615-A-004257

While technological experience is an important part of teaching students to be future-ready, tech industry employees indicate that certain "soft skills" are very important to career success.

"I think the one thing to keep in mind is that it's impossible to say what technical skills people are going to need in 10 or 20 years," says Twitter software engineer Ryan Greenberg in an EdSurge podcast. "I think that necessary job skills actually have to be a little bit higher level than specific technology."

Greenberg and other tech industry employees say that **clear written and spoken communication skills, as well as problem-solving abilities and critical thinking are integral to success**.

These kinds of skills are also less likely to be automated and mimicked by computers.

4. Foster Real-World Partnerships

Like the technical education programs in Tennessee, other schools have embraced the technology used by industries in their communities and created partnerships with local businesses and employers.

For example, a Detroit-area school has rolled out virtual reality tools so that students can study automotive prototypes and learn to engineer them.

In Massachusetts, Atlantis Charter School has forged a partnership with local businesses and the Massachusetts Institute of Technology to **introduce its students to the engineering design process they'll need in college and future career paths**.

"If we can produce kids that are going to great colleges to do great work and are prepared to enter high-tech jobs or the jobs of the future that are in this area, there's sort of this idea that we're contributing to a rising tide that lifts all boats," says Atlantis' executive director, Robert Beatty, in an *EdTech* article.

Story from Signatures & CTE EDUCATION FOR THE FUTURE

LEAP into Career Success

Washoe County School District Published 12:41 p.m. PT Oct. 23, 2017 | **Updated 4:58 p.m. PT Oct. 23, 2017**

(Photo: From WCSD)

For several years, there have been predictions that “thousands of jobs are coming to our region.” Today, those predictions seem to have come true as advertisements for hiring fairs and job openings for “qualified employees” appear on social media, billboards and local airwaves.

But for those who want to enter the job market of this New Nevada economy, what does “qualified” mean?

Nevada employers, like the rest of the nation, are looking for workers with more advanced skills. Graduating from high school often isn’t enough to be competitive in today’s job market. To maintain a competitive edge in the global economy, companies and businesses are looking for employees with “middle skills,” defined as more than a high school diploma and less than a university degree that includes technical knowledge and skill, as well as certification.

Some job seekers will find that even though they may possess the knowledge and skill necessary for today’s in-demand jobs, it’s difficult to prove to potential employers without having some sort of standardized credentials, two- or four-year degree.

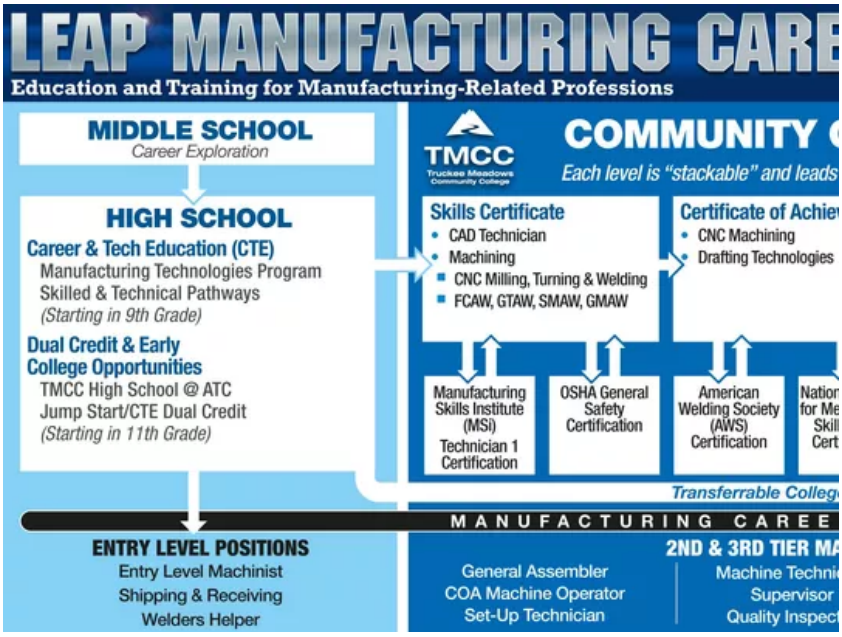

Photo from WCSD (Photo: From WCSD)

A LEAP Toward Becoming ‘Qualified’

LEAP, or Learn and Earn Advanced Career Pathway, is a framework that helps students and job seekers align education and training opportunities in high school, community college and universities with actual jobs available in our region and state.

“Career pathways provide young people and those re-training or re-entering the workforce with a vision of what is possible so that they can remain motivated in their day-to-day education and quest to improve their competitiveness,” says Manny Lamarre, Executive Director of the Governor’s Office of Workforce Innovation (OWINN).

“Robust career pathways will allow all Nevadans to excel in a diverse 21st Century economy.”

The LEAP framework, spearheaded by the Nevada Governor’s Office of Economic Development (GOED) in 2014, created roadmaps (known as career pathways). They consist of multiple, integrated and highly flexible pathways which allow a person to continue gaining additional skills, certifications and degrees as they progress through their career. Each educational component, from high school through university is built on a foundation that allows for

AMERICAN OVERSIGHT
NV-DA-20-0615-A-004259

hands-on learning of industry practices and prepares students for professional certifications and quality performance.

LEAP pathways are being developed for Nevada's in-demand industries such as healthcare, information technology/cybersecurity and education. Advanced Manufacturing, the first LEAP pathway completed in late 2015, is fully developed and has been launched in Washoe County School District, as well as Truckee Meadows Community College and UNR's College of Engineering.

Photo from WCSD (Photo: From WCSD)

Multiple On Ramps to a Successful Career

LEAP career pathways provide tangible milestones in an educational sequence that includes certification, training opportunities and degrees. This allows people to build their workplace value incrementally rather than only at the completion of a degree. It also allows employers to hire skilled workers earlier in the process.

LEAP is a win for everyone, says Ryan Costella, director of strategic initiatives at Click Bond, Inc., and chair of the Manufacturing Sector Council of the Governor's Workforce Development Board.

"Manufacturing across the United States is struggling with finding skilled workers. LEAP helps us all connect the dots."

LEAP pathways are designed to accommodate the flexibility between education and full-time employment. With LEAP, Northern Nevada industries can be confident they're hiring qualified workers and find these workers in less time. And students can start earning while they continue to build and adapt their skillsets.

Early career "on ramps" begin in high school. For example, in the LEAP Advanced Manufacturing pathway, students who are in an aligned high school Career & Technical Education (CTE) programs like Manufacturing Technology, Metalworking or Welding can receive industry-recognized certifications by the time they graduate. They can also earn an average of 14 college-level credits, an equivalent of one semester, giving them a head start on earning an Associate degree in Applied Science that leads into a Bachelor degree in Mechanical Engineering.

An additional benefit for students in all LEAP pathways is exposure to the myriad of opportunities available to them in Nevada's emerging new economy.

"Often students are only interested in what they are exposed to," Lamarre says. "We don't want our students to limit their future. When students have a robust knowledge of career path options they can take advantage of the many great possibilities."

For students, parents and job seekers, the LEAP framework provides a solid infrastructure that clearly outlines the education and valued certifications, skills and degrees needed by employers. For potential employees, the career pathways are roadmaps to successful employment, job retention and continuing wage gains.

Both Lamarre and Costella agree: Offering career pathways will help build the highly skilled, diverse workforce that Nevada needs.

ORDER REGARDING WORKFORCE DEVELOPMENT

WHEREAS, this administration has led a five-year effort to diversify Nevada's economy and c
new, high-quality jobs throughout the State;

WHEREAS, job creation in innovative sectors of the economy, together with an economic rec
he traditional industries of Nevada, is leading to the emergence of new economic and employ
ortunities in the Silver State;

WHEREAS, a highly-skilled, diverse workforce is critical to the success of new companies se
loyees in the technology, advanced manufacturing, education, and health care sectors;

WHEREAS, our continued success in growing and sustaining a more diversified economy de
nnovative workforce development programs that will support the labor market needs of Nevada;

WHEREAS, the component pieces of Nevada's workforce development system exist in
different departments and agencies of State government, which must in turn coordinate and assi
activities of many different local government entities and nonprofit organizations;

WHEREAS, there exists a need for enhanced cooperation and collaboration among all e
engaged in workforce development;

WHEREAS, I, as Governor of the State of Nevada, issued Executive Order 2015-08 on Jun
2015, revising the Governor's Workforce Development Board in accordance with the Workforce Inno
and Opportunity Act of 2014 (WIOA); and

WHEREAS, Article 5, Section 1 of the Nevada Constitution provides: "The supreme exe
power of this State, shall be vested in a Chief Magistrate who shall be Governor of the State of Neva

NOW, THEREFORE, by the authority vested in me as the Governor by the Constitution and
of the State of Nevada, it is hereby ordered as follows:

1. The Office of Workforce Innovation is hereby created within the Office of the Governor.
   a. The Office of Workforce Innovation shall:
      i. Provide support to the Governor's Workforce Development Board ('State Bo
      industry sector councils, and the Office of the Governor in developing a strate
      the cooperation and collaboration among all stakeholders focused on wor
      development;
      ii. Develop a career pathways strategy for Nevada in the fields of techno
      ing, education, and health care;
      iii. Recommend improvements to the allocation of federal and state
      incorporating evidence-based and outcome-based strategies to align wor
      training programs in Nevada with current and projected job opportunities and
      pathways, based on the Nevada's economic development plan and inform
      received from the industry sector councils;

VISION

A vibrant and sustainable economy

OWINN helps drive a skilled, diverse, and aligned workforce in the state of Nevada by promoting collaboration & cooperation among all entities focused on workforce development

AMERICAN OVERSIGHT

OWINN's Core Strategies

1. Assess workforce policies at the state level and provide strategic support and direction for the implementation of the federal Workforce Innovation and Opportunity Act (WIOA)
   - ❑ Provided technical and research support for SB66, SB19, SB516, SB69, & SB458
2. Design career pathways
   - ❑ Partnering with GOED to scale LEAP in southern NV and design technology career pathway
3. Scale registered apprenticeships in existing and emerging industries
   - ❑ Managing the State's Apprenticeship Council (SAC); OWINN serves as the State's Apprenticeship Agency (SAA)
4. Leverage labor-market and workforce data
   - ❑ Manage the statewide longitudinal data system to make informed policy decisions
5. Validate industry-recognized credentials
   - ❑ OWINN has identified entry-level certifications in the eight targeted industries for secondary students & the publicly funded workforce system

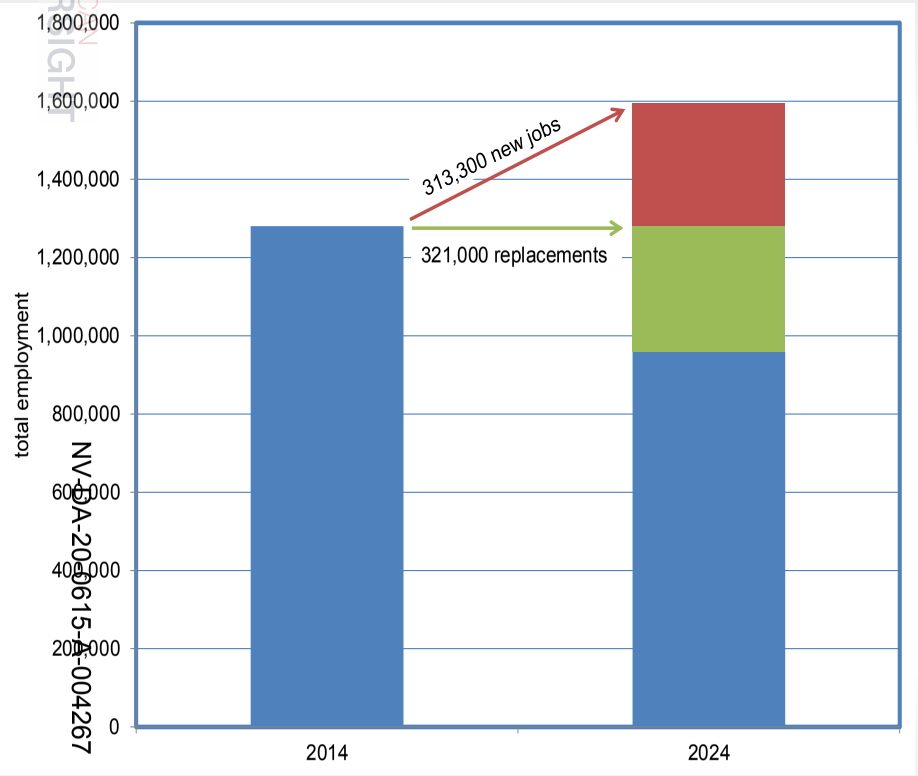
AMERICAN OVERSIGHT
NV-DA-20-06615-A-004264

OWINN's Priorities 2018-2019

- Aligning workforce training with labor market data through policies & practices
- Scaling work-based learning and Registered Apprenticeships
- Outreach and awareness – workforce opportunities & partnerships

AMERICAN OVERSIGHT

NV-DA-20-0615-A-004265



"THE BOTTOM LINE IS THAT AN UNPREPARED WORKFORCE INHIBITS OUR ECONOMIC GROWTH, AND PREVENTS TOO MANY OF OUR CITIZENS FROM OBTAINING THE JOBS THEY DESERVE… MY VISION FOR OUR STATE IS TO PUT ALL NEVADANS, REGARDLESS OF AGE OR CIRCUMSTANCE, ON A CAREER PATHWAY TOWARD SUCCESS."

Closing Plenary: Good Jobs for all Americans
Saturday, July 21
3 to 4 p.m.
Convention Center: Sweeney Ballroom C-F

Closing Plenary: Good Jobs for All Americans

Overview

In this session, Governor Bullock will formally unveil his NGA chair's initiative, *Good Jobs for All Americans*. Governor Sandoval will formally pass the gavel to Governor Bullock after the governors vote for the 2018-2019 NGA Chair. Governor Bullock's initiative will focus on preparing governors for new changes in the labor market resulting from technological advancement and demographic changes. After he unveils his initiative, he will sit down with Dr. Lawrence Katz to discuss the role of governors in providing good jobs to all Americans.

****You are giving opening remarks and passing the gavel.**

Format

- 3 p.m. — Call to Order and Opening Remarks
  - Governor Brian Sandoval, Nevada
- 3:05 p.m. — Nomination of NGA Chair and Vice Chair
  - Governor Kate Brown, Oregon
- 3:10 p.m. — Passing of the Gavel and New Chair's Initiative
  - Governor Brian Sandoval, Nevada
  - Governor Steve Bullock, Montana
- 3:15 p.m. — Fireside Chat
  - Governor Steve Bullock, Montana
  - Dr. Lawrence Katz, Elisabeth Allison Professor of Economics, Harvard University Faculty of Arts and Sciences
- 4 p.m. — Adjourn

Media

This session is open to press.

AMERICAN OVERSIGHT

Passing of the Gavel & Closing Plenary

Saturday, July 21, 3-4 p.m.

Governor Sandoval

[GOVERNOR SANDOVAL OPENS]

PLEASE TAKE YOUR SEATS SO WE CAN BEGIN.

WELCOME TO THE CLOSING SESSION OF THE 2018 NATIONAL GOVERNORS ASSOCIATION SUMMER MEETING.

[CLOSING CHAIRMANSHIP REMARKS]

IT'S BEEN SUCH AN HONOR TO LEAD THIS ORGANIZATION OVER THE LAST YEAR. WHEN I THINK BACK TO OUR LAST SUMMER MEETING IN RHODE ISLAND, I'M PROUD HOW FAR WE'VE COME AND ALL THAT WE HAVE ACCOMPLISHED TOGETHER.

AMERICAN OVERSIGHT

I DIDN'T LEAD THE NGA ALONE. THE ORGANIZATION'S ENTIRE STAFF WAS WITH ME EVERY STEP OF THE WAY.

THEIR BIPARTISAN COUNSEL WAS CRUCIAL NOT ONLY TO MY SUCCESS AS CHAIR, BUT ALSO TO OUR COLLECTIVE SUCCESS AS GOVERNORS.

I WOULD LIKE TO TAKE A MOMENT TO EXPRESS OUR GRATITUDE TO NGA CEO AND EXECUTIVE DIRECTOR SCOTT D. PATTISON AND THE ENTIRE STAFF FOR ALL THEIR ASSISTANCE OVER THE LAST YEAR.

[HOLD FOR APPLAUSE]

I WOULD ALSO LIKE TO THANK MY COLLEAGUES FOR SUPPORTING ME THROUGHOUT THIS JOURNEY.

WHEN WE LEFT PROVIDENCE LAST YEAR, I KNEW THAT WE HAD THE COLLECTIVE POTENTIAL TO POSITIVELY IMPACT THE LIVES OF AMERICANS IN EVERY CORNER OF THIS COUNTRY.

AMERICAN OVERSIGHT

I'M PROUD TO REPORT A YEAR LATER THAT WE DID JUST THAT AND I AM GRATEFUL TO EACH OF YOU FOR PLAYING A PART IN THAT EFFORT.

NGA BRINGS TOGETHER BOTH SIDES OF THE AISLE IN A TIME WHEN POLITICAL COOPERATION SEEMS TO BE INCREASINGLY RARE.

THE PAST FEW DAYS REAFFIRMED THAT GOVERNORS ARE PREPARED TO ROLL UP THEIR SLEEVES AND SHARE THE SOLUTIONS THAT HAVE WORKED IN THEIR STATES.

OVER THE PAST FEW DAYS WE'VE EATEN TOGETHER, LAUGHED TOGETHER, AND MOST IMPORTANTLY, WE LEARNED TOGETHER. NOW IS THE TIME TO PASS THE BATON.

I'M CONFIDENT THAT THE INCOMING CHAIR, GOVERNOR STEVE BULLOCK OF MONTANA, WILL CARRY ON THIS LEGACY OF BIPARTISAN POLICY EXCELLENCE.

AMERICAN OVERSIGHT

I AM GRATEFUL FOR THE SUPPORT HE OFFERED ME AS VICE CHAIR AND I AM EXCITED TO SEE ALL THE GREAT WORK THAT HE AND GOVERNOR HOGAN WILL DO FOR THE ORGANIZATION. I NOW RECOGNIZE GOVERNOR KATE BROWN FOR THE PURPOSE OF EXECUTIVE NOMINATIONS.

[TRANSITION TO OFFICIAL NOMINATIONS]

[GOVERNOR KATE BROWN WILL NOMINATE BULLOCK AND HOGAN]

[TRANSITION TO GOVERNOR SANDOVAL]

THANK YOU, GOVERNOR BROWN AND THE MEMBERS OF THIS YEAR'S NOMINATIONS COMMITTEE.

IS THERE A SECOND?

[NOTE: ANY OTHER GOVERNOR PRESENT MAY SECOND FROM THE FLOOR]

[GOVERNOR SANDOVAL]

IS THERE ANY DEBATE?

AMERICAN OVERSIGHT

[GOVERNOR SANDOVAL]

HEARING NONE, ALL GOVERNORS IN FAVOR OF ACCEPTING THE REPORT OF THE NOMINATIONS COMMITTEE PLEASE SAY AYE. ALL OPPOSED, NAY. THE AYES HAVE IT.

CONGRATULATIONS TO NGA'S NEW CHAIR, GOVERNOR STEVE BULLOCK, VICE CHAIR GOVERNOR LARRY HOGAN AND THE OTHER MEMBERS OF THE 2018-2019 NGA EXECUTIVE COMMITTEE.

[GAVEL PASSING (TBD)]

- **TBD**
- **IT IS NOW MY HONOR TO INTRODUCE MY COLLEAGUE, MY FRIEND AND THE NEW CHAIR OF NGA, GOVERNOR STEVE BULLOCK OF MONTANA.**

VIP Social Event
Saturday, July 21
5:30 to 6:30 p.m.
New Mexico Governor's Residence
By Invitation Only

VIP Reception for Governors, Spouses, Sponsors and Special Guests at the Governor's Residence

Overview

Governors, spouses, summer meeting sponsors and other invited guests are invited to join Governor Susana Martinez and First Gentleman Chuck Franco at the governor's residence for a VIP cocktail reception.

**You are giving opening remarks.

Format

This reception will feature light hors d'oeuvres along with New Mexican beers, wines and specialty drinks. In addition to welcoming remarks, there will be a brief tribute to all governors transitioning out of office.

Transportation

Governors may arrive by private vehicle; secured parking will be available. The address of the residence is 1 Mansion Drive, Santa Fe, N.M. All other attendees should utilize the shuttle service provided from all host hotels beginning at 5 p.m. Buses will depart the residence at 6:30 p.m. for the all-attendee event at Bonanza Creek.

Dress

Dress for this event is "Southwest casual" (western wear is welcomed). Please note that this event will take place both indoors and outdoors. A light sweater or jacket is recommended.

Media

This event is closed to press.

AMERICAN OVERSIGHT

VIP Reception—Governor's Residence

Saturday, July 21, 5:30-6:30 p.m.

Governor Sandoval

[SANDOVAL OPENS]

THANK YOU ALL FOR JOINING US FOR THE FINAL VIP RECEPTION OF THE 2018 NGA SUMMER MEETING.

I HOPE YOU ALL HAD A WONDERFUL TIME AND CONTINUE TO DO SO THIS EVENING. SPECIAL THANKS TO GOVERNOR MARTINEZ FOR HOSTING US THIS EVENING.

I KNOW WE ARE ALL LEAVING SANTA FE ARMED WITH NEW IDEAS AND STRATEGIES TO ADVANCE OUR STATES AND IMPROVE OUR CONSTITUENTS' LIVES.

AT OUR FIRST RECEPTION, I SPOKE ABOUT THE SPIRIT OF THE WILD WEST, GUIDING US FORWARD INTO AN UNKNOWN FUTURE.

AMERICAN OVERSIGHT

I LEAVE MORE CONFIDENT THAN EVER THAT WE ARE BETTER PREPARED FOR WHATEVER MIGHT COME OUR WAY AS GOVERNORS.

THANK YOU ALL FOR GIVING ME THE IMMENSE PRIVILEGE OF LEADING THE NGA. EVEN THOUGH MY TIME AS CHAIR HAS ENDED, I LEAVE MORE CONFIDENT THAN EVER IN THE FUTURE OF THE ORGANIZATION AND THE NATION.

WE HAVE TWO FEARLESS CHAMPIONS OF GOVERNORS LEADING US. HAILING FROM THE GREAT STATE OF MONTANA, PLEASE JOIN ME IN WELCOMING MY DEAR FRIEND AND THE NEW CHAIR OF THE NATIONAL GOVERNORS ASSOCIATION, STEVE BULLOCK.

[GOV BULLOCK REMARKS]

[GOV MARTINEZ REMARKS]

[PATTISON REMARKS]

Social Event: Showdown at Bonanza Creek Ranch
Saturday, July 21
6 to 9 p.m.
Bonanza Creek

Showdown at Bonanza Creek Ranch

Overview

All meeting attendees will be transported to the old west, courtesy of a working film set. As you mosey down Main Street you will be immersed 360° into a western town where modern civilization is nowhere to be seen. Explore the saloon, hotel, bank, jail and chapel on the hill, or revel in the wide-open vistas and dramatic skies that draw the movie industry to this unique location. The first movie to be shot at Bonanza Creek Ranch was *The Man from Laramie*, starring a young James Steward in 1955. Since then Bonanza Creek Ranch has boasted over 50 years of filmmaking movie and television credits which include *Cowboy*, *Butch Cassidy and the Sundance Kid*, *Easy Rider*, *Longmire*, *3:10 to Yuma*, *The Lonesome Dove*, *Walker, Texas Ranger*, *Gunsmoke*, *Wild Hogs* and *Cowboys & Aliens*.

**You are giving opening remarks.

Format

This closing event will feature an authentic old western experience including a "Chuckwagon" buffet, saloon entertainment, a stunt show (showdown on Main Street) and country western artists.

Transportation

Governors may arrive by private vehicle; secured parking will be available. The address of the venue is 15 Bonanza Creek Lane, Santa Fe, N.M. All other attendees should utilize the shuttle service provided from all host hotels beginning at 6 p.m. with the last shuttle returning at 9:15 p.m.

Dress

Dress for this event is "Southwest casual" and western wear is welcomed. Please note that this event will take place both indoors and outdoors. Closed-toe shoes and a light sweater or jacket are recommended.

Media

This event is closed to press.

Contact: Bob Masciarelli, (202) 624-5355 or bmasciarelli@nga.org

AMERICAN OVERSIGHT

Showdown at Bonanza Creek

Saturday, July 21, 6:30-9 p.m.

Governor Sandoval

[SANDOVAL OPENS]

WELCOME THE FINAL EVENT OF THE 2018 SUMMER MEETING. THE HARD WORK IS NOW COMPLETE, AND WE CAN REFLECT UPON OUR EXPERIENCE OVER THE PAST FEW DAYS.

SINCE THURSDAY, WE'VE HAD 14 CONFERENCE SESSIONS. WE'VE HEARD FROM ESTEEMED INTERNATIONAL DELEGATES AND INFLUENTIAL BUSINESS LEADERS.

WE PUT ASIDE PARTISANSHIP AND ATTEMPTED TO ANSWER ONE SIMPLE QUESTION: AS GOVERNORS, HOW CAN WE DO OUR JOBS BETTER?

AMERICAN OVERSIGHT

WHILE NONE OF US CAN BE PERFECT LEADERS, WE CAN ALL STRIVE TO IMPROVE. THE LAST FEW DAYS OFFERED US THE OPPORTUNITY TO GROW AS GOVERNORS TO BETTER SERVE OUR CONSTITUENTS BACK HOME.

WE DISCUSSED VEXING ISSUES SUCH AS ECONOMIC TRANSFORMATION AND THE OPIOID EPIDEMIC, WHICH CLAIMS THOUSANDS OF LIVES EVERY YEAR FROM ALL STATES.

IN ADDITION TO ADDRESSING THE ISSUES OF THE PRESENT, WE SECURED A BETTER GRASP ON WHAT THE FUTURE LOOKS LIKE.

WE ARE BETTER PREPARED TO MANAGE BOTH THE UPSIDES AND THE CHALLENGES OF ADVANCED TECHNOLOGY AND ALL OF US ARE BETTER PREPARED TO INNOVATE BACK IN OUR STATES.

AMERICAN OVERSIGHT

WE ALSO HAD SOME FUN ALONG THE WAY, SHARING LAUGHS AND FORGING RELATIONSHIPS THAT WILL PAY DIVIDENDS FOR YEARS TO COME. I SPEAK FOR ALL OF US WHEN I SAY OUR FEW DAYS IN SANTA FE WERE WELL SPENT.

IN ADDITION TO ACQUIRING NEW KNOWLEDGE, NGA ALSO GAINED A NEW CHAIR. GOVERNOR STEVE BULLOCK IS WELL-PREPARED TO LEAD THIS ORGANIZATION INTO THE FUTURE, AND I AM EXCITED ABOUT HIS NEW INITIATIVE FOCUSING ON CREATING GOOD JOBS FOR ALL AMERICANS.

I WOULD AGAIN LIKE TO THANK HIM FOR ALL HE DID AS NGA'S VICE CHAIR AND WISH HIM HIS FAMILY ALL THE BEST AS HE BEGINS HIS NEW ROLE.

ONE YEAR AGO, I STOOD BEFORE YOU AND VOWED TO RAISE AWARENESS ABOUT INNOVATIONS IN TECHNOLOGY, ENERGY AND TRANSPORTATION.

AMERICAN OVERSIGHT

THROUGHOUT THE LAST YEAR, I BELIEVE WE'VE MET OUR GOAL AND I LEAVE MY CHAIRMANSHIP MORE CONFIDENT IN THE FUTURE OF THE NGA THAN EVER BEFORE.

THANK YOU TO ALL THE GOVERNORS, GUESTS, INTERNATIONAL VISITORS AND PARTNERS ASSEMBLED HERE.

A HUGE THANK YOU TO THE NGA STAFF FOR ALL THE WORK THAT WENT INTO THIS MEETING AS WELL AS FOR ALL THE SUPPORT THEY'VE OFFERED TO US THROUGHOUT THE YEARS.

NGA BROUGHT TOGETHER DEMOCRATS AND REPUBLICANS TO DISCUSS POLICIES IMPROVING AMERICAN LIVES. WE CHECK THE POLITICS AT THE DOOR AND WORK TOGETHER TO SOLVE THE ISSUES PLAGUING OUR STATES.

THE BURDEN IS UPON US AS GOVERNORS, AS LEADERS AND AS AMERICANS, TO BRING THE GOODWILL AND COMRADERY EXPERIENCED HERE IN SANTA FE BACK TO OUR HOME STATES.

WE ALL FACE SERIOUS CHALLENGES WHILE GOVERNING.

AMERICAN OVERSIGHT

I HOPE THAT YOU WILL RETURN TO THOSE CHALLENGES WITH NEW IDEAS, NEW PERSPECTIVES AND NEW FRIENDS TO SUPPORT YOU AND THE PEOPLE YOU SERVE.

THANK YOU FOR THE OPPORTUNITY TO LEAD THE NGA. IT IS NOW MY HONOR TO INTRODUCE MY GOOD FRIEND AND THE NEWEST CHAIR OF THE NATIONAL GOVERNORS ASSOCIATION, STEVE BULLOCK.

Governor Bullock

[TRANSITION TO BULLOCK]

Bio

Kentaro Sonoura
Special Adviser to the Prime Minister Abe

A native of Takamatsu, Kagawa, and a graduate of the University of Tokyo, Kentaro Sonoura was elected to the House of Representatives for the first time in the 2005 general election. In 2007, he served as deputy director of Youth Division of LDP. After being elected for a second term in 2012, he became the director of number committees including Foreign Affairs and Security.

In 2013, he became chief secretary of Special Committee for Promotion of Women's Vitality of LDP. In 2014, he served as the parliamentary vice-minister for Foreign Affairs. In December, he was elected for a third term. In October 2015, Sonoura became the director of the Committee on Budget for the House of Representatives. In 2016, he served as the State Minister for Foreign Affairs. As of August 2017, he is the advisor to the prime minister for National Security. In October 2017, he was elected for a fourth term.

Great Eggspectations Networking Breakfast
Thursday, July 19
8:30 to 9:30 a.m.
La Fonda: Lumpkins Ballroom North

Great Eggspectations Networking Breakfast

Overview

In celebration of the diverse, internationally focused staff at governors' offices across the country, NGA Global will be hosting a breakfast for governors and their staff. Ambassadors from different countries will discuss how governors can better engage internationally. This will kick off the pre-conference day on international cooperation at the state level with delegations from all over the world.

Invitation was extended to Governors, Governors' staff and session participants.

Format

Informal buffet breakfast with networking.

Media

This session is open to press.

Rebuilding a Silk Road to Economic Development
Thursday, July 19
9:45 to 10:30 a.m.
La Fonda: Lumpkins Ballroom North

Rebuilding a Silk Road to Economic Development

Overview

Investors from China recognize the importance of subnational policy in their decisions. Governors, their economic development leaders and trade representatives across the country seek new and innovative ways to attract and retain Chinese investment. NGA hopes to bring these stakeholders together to discuss what policies can maintain and increase a sufficient level of Chinese investment.

In this panel, governors will pair with Chinese investors who have a presence in their state.

Format

- 9:45 a.m. Opening Remarks and Introductions
- 9:55 a.m. Panel
    - Ambassador Zhang, China Consul General
    - Governor TBD

Takeaway(s)

This session will provide governors the opportunity to hear from Chinese investors about the efforts they can directly take to increase investment in their states.

Media

This session is open to press.

AMERICAN OVERSIGHT

Thursday, July 19

9:45 – 10:30am

Rebuilding a Silk Road to Economic Development

This panel discussion will feature recent examples of U.S. – Chinese collaboration at the state level.

- Governor and State signed a number of state-provincial MOUs a few years ago. None have led to any concrete results.

- Challenge is the Chinese economy/government system almost requires that US states have a trade representative in-country, which is cost prohibitive.

AMERICAN OVERSIGHT

PANEL: U.S.-China Economic Ties, Growth, Strategies and Investment Opportunities
Thursday, July 19
10:45 to 11:45 a.m.
La Fonda: Lumpkins Ballroom North

PANEL: U.S.-China Economic Ties, Growth, Strategies and Investment Opportunities

Overview

Partnerships with China are increasingly important to the economies and citizens of many states. These partnerships benefit both the companies investing in the state and to the state's citizens. In addition, the partnerships contribute to the economic development of both countries at the national level.

Format

- 10:45 a.m. — Keynote Remarks
  - Chen Siqing, Chairman, Bank of China
- 11 a.m. — Panel Discussion
  - Governor Gary Herbert, Utah
  - Qi Bin, Executive Vice President, China Investment Cooperation
  - Raymond Qiao, EVP of Bank of China.

Media

This session is open to press.

Takeaway(s)

By committing to partnerships with Chinese actors, governors play a crucial role in the economic development in their own states, China and the nation as a whole. The goal of the session is to increase understanding of the importance of these U.S.-China partnerships in promoting and advancing economic development.

AMERICAN OVERSIGHT

Presenter Bio

Chen Siqing

Chen Siqing is vice chairman of the Board of Directors of the Bank since April 2014 and president of the Bank since February 2014. Chen joined the Bank in 1990 and served as executive vice president of the Bank from June 2008 to February 2014. Chen held various positions in the Bank from June 2000 to May 2008, including assistant general manager, vice general manager of the Fujian Branch, general manager of the Risk Management Department of the Head Office and general manager of the Guangdong Branch. Chen previously worked in the Hunan Branch of the Bank before he was seconded to the Hong Kong Branch of China and South Sea Bank Ltd. as assistant general manager.

Since December 2011, Chen has been serving as a non-executive director of BOCHK (Holdings) and chairman of the board of directors of BOC Aviation. Currently, Chen also serves as chairman of the board of directors of China Culture Industrial Investment Fund Co., Ltd., vice chairman of China Chamber of International Commerce and director of Trade Finance Committee of China Banking Association. Chen graduated from Hubei Institute of Finance and Economics in 1982. He obtained an MBA from Murdoch University, Australia, in 1999. He is a certified public accountant.

Qi Bin

Qi Bin is the Executive Vice President, China Investment Cooperation. After graduating from Tsinghua University in 1991, Qi, 48, obtained a M.A. from the University of Rochester and a M.B.A. from the University of Chicago. After a stint at Goldman Sachs and other investment banks from 1996 to 2000, before returning to China to worked at the China Securities Regulatory Commission starting in 2000, as one of the first batch of overseas educated "returnees" to work at the agency. He pushed the launch of the Shanghai-Hong Kong Stock Connect program and is behind many other initiatives to simplify H-share regulatory approval and A-share's inclusion in the MSCI index.

Raymon Qiao, EVP of Bank of China

U.S. – China Economic Ties, Growth, Strategies and Investment Opportunities

High-level investors will discuss with governors, or their key staff, what is needed from the states to attract and retain Chinese investment during a panel discussion.

- Significant Chinese interest in investing in real estate in Nevada.

- Interests are expanding into established businesses, energy, consumer electronics, manufacturing.

- Significant Chinese presence at CES in Las Vegas each year. In 2017, Chinese companies made up 30% of over 4,000 exhibitors at CES in Las Vegas.

- Silver Springs water pipeline. Potential for foreign investment. Still in early stages. https://lyon-county.org/AgendaCenter/ViewFile/Agenda/_06082017-201

AMERICAN OVERSIGHT

Around the World in 80 Plates
Thursday, July 19
Noon to 1:30 p.m.
La Fonda: Lumpkins Ballroom South
Invitation Extended to Governor and Governors' Staff

Around the World in 80 Plates

Overview

While the challenges of reaching agreements through engagements often occupy the international stage, food can serve as a tool to cross cultural differences. This soft power leads to a new sort of cultural diplomacy that promotes the sharing of values, traditions and worldviews.

NGA welcomes participants to come together for a lunch hosted by the Culinary Diplomacy Project. American chef Patrick Gharrity will create a meal that shares American culture and values with diplomats and governors from around the world.

Format

- Noon — Opening Remarks
  - Chef Patrick Gharrity
- 12:10 p.m. — Food Demo
- 12:25 p.m. — Lunch will be served

Takeaway(s)

Attendees will have the opportunity to enjoy the cross-cultural experience of sharing a meal together.

Media

This session is closed to press.

Joining with Japan: Strengthening Partnerships from an Ocean Away
Thursday, July 19
1:45 to 3:15 p.m.
La Fonda: Lumpkins Ballroom North

Joining with Japan: Strengthening Partnerships from an Ocean Away

Overview

Japanese investment serves as a driving force in many states' economies. Governors must seek new ways to adapt local economies to the changing conditions of the global economy. Among these solutions, building on the U.S.-Japanese partnership can create more economic opportunities for the citizens of both countries.

NGA will bring stakeholders together to discuss two major topics: How does workforce development policy help investment promotion and attraction; and what is the future of investment and affiliated challenges for Japanese companies looking to expand in the states? The Japan External Trade Organization (JETRO) will lead a discussion with senior executives representing Japanese manufacturing companies and U.S. governors, under the auspices of the Japanese government.

Format

- 1:45 p.m. — Welcome Remarks
  - Yasushi Akahoshi, President, Japan Trade External Organization (JETRO)
  - Kentaro Sonoura, Advisor to Prime Minister Abe
  - Shinsuke J. Sugiyama, Ambassador Extraordinary and Plenipotentiary of Japan to the United States of America
  - Shinji Hirai, Governor of Tottori
- 2 p.m. — Discussion
  - Ralph Inforzato, Chief Executive Director, Chicago Office, JETRO (moderator)
  - John Nunneley, Senior Vice President, Design Engineering; and General Manager, Farmington Hills Hitachi Automotive Systems
  - David B. Calabrese, Senior Vice President, Government Affairs; and Deputy General Manager, Washington, D.C. Office, Daikin U.S. Corporation
  - Governor Matt Bevin, Kentucky
  - Governor John Hickenlooper, Colorado (To Be Confirmed)

Takeaway(s)

Japanese leaders in trade and investment have important knowledge of the challenges and strategies of investment in the states. Governors will have the chance to discuss and learn best strategies for attracting new investment in their states.

Media

This session is closed to press.

Contact: Abigail Hunter, (202) 624-5301 or ahunter@nga.org

AMERICAN OVERSIGHT

Presenter Bios

Yasushi Akahoshi

Yasushi Akahoshi became president of JETRO on Oct. 1, 2015.

He most recently served as Minister of the Embassy of Japan in the United States of America for four years (2011-2015), where he oversaw diplomatic issues related to economy, trade, industry and energy.

Akahoshi began his government service at the Ministry of International Trade and Industry (MITI, later METI after 2001) in 1987. His career spans a wide range of public policy positions focused on international political-economy affairs, including those involving WTO and FTA issues, as well as several principal posts at the Agency for Natural Resources and Energy. He was also stationed at JETRO Singapore Centre as Regional Representative of METI for Asia (2004-2007).

Akahoshi is a graduate of The University of Tokyo where he received his LL.B. He also attended the International Career Associates Program at the School of International Relations and Pacific Studies (IR/PS) of the University of California, San Diego.

He is married and has two sons.

Kentaro Sonoura

A native of Takamatsu, Kagawa, and a graduate of the University of Tokyo, Kentaro Sonoura was elected to the House of Representatives for the first time in the 2005 general election. In 2007, he served as deputy director of Youth Division of LDP. After being elected for a second term in 2012, he became the director of number committees including Foreign Affairs and Security.

In 2013, he became chief secretary of Special Committee for Promotion of Women's Vitality of LDP. In 2014, he served as the parliamentary vice-minister for Foreign Affairs. In December, he was elected for a third term. In October 2015, Sonoura became the director of the Committee on Budget for the House of Representatives. In 2016, he served as the State Minister for Foreign Affairs. As of August 2017, he is the advisor to the prime minister for National Security. In October 2017, he was elected for a fourth term.

AMERICAN OVERSIGHT

Shinji Hirai

Governor Hirai was born in Kanda, Tokyo. He was first elected in 2007. He graduated from the University of Tokyo with the B.L. degree in 1984 and joined the Ministry of Home Affairs upon graduation.

There, he worked in prefectures including Hyogo, Fukui and Tottori.

As governor of the Tottori Prefecture, which has the lowest population in Japan, the governor's positive strategy is, "We can win even if we're small." The prefecture has a lot that could be promoted more worldwide for tourism, such as its beautiful nature, traditional Japanese culture and anime.

Daiki Nakajima

Daiki Nakajima is currently Project Manager for JETRO (Japan External Trade Organization) specializing in promoting bilateral investments between US and Japan. His role on the team requires following the market in various industries spanning from health care, energy, IT, agriculture and many more, both in the U.S. and Japan while assisting global expansion strategies for the target industry clients. Daiki also has roles at JETRO as the Japan Desk for the State of Massachusetts, based on the MOU between JETRO and the State, as well as bilateral government relations between US and Japan.

AMERICAN OVERSIGHT

Ralph A. Inforzato

In August 2017, Ralph Inforzato was appointed chief executive director of JETRO Chicago. In his position, he will oversee JETRO Chicago's activities designed to facilitate trade and investment between Japan and 12 Midwestern states served by JETRO Chicago.

Prior to his new position, Inforzato served as Executive Director, Business Development for JETRO Chicago. In this position he worked to implement JETRO's team-based projects to directly engage in assisting US business expansion to Japan. He initiated in-bound and out-bound technology collaboration for US & Japanese small and medium sized companies, which resulted in numerous business agreements. He also sustained the relationships that JETRO Chicago has with business, state government and university leaders.

For the last 33 years, Inforzato has been involved in significant JETRO related business development projects: Japan–U.S. Biotechnology Initiative (2002–2010), which has sent more than 500 representatives from North American life sciences companies, universities and research institutes to Japan, enabling them to initiate research collaboration and business development in the Japanese biotechnology and pharmaceutical communities. He is directly involved in the teams that implement JETRO's Japan service robotics business development projects and JETRO's Monozukuri program, a series of seminars focused on Japanese manufacturing philosophies for engineers in North American technology companies.

John Nunneley

John Nunneley is the general manager of Farmington Hills Office and senior vice president of Design Engineering for Hitachi Automotive Systems Americas, Inc. Nunneley has spent more than four years with Hitachi Automotive Systems in Japan and returned in 2016. While in Japan, Nunneley was deputy general manager of the Brake System Design Group and the Electronic Control Unit. Before going to Japan, he worked in the design engineering group for Hitachi Automotive Systems in Michigan from 1995 to 2011 on projects ranging from electronic throttle body to engine control units to HEV inverters.

David B. Calabrese

David B. Calabrese is the senior vice president for Government Affairs and deputy general manager of the Washington, D.C., office with Daikin U.S. Corporation. Daikin U.S. Corporation is a subsidiary of Daikin Industries, Ltd., the world's largest air conditioning equipment manufacturer. The Daikin Group in the United States also includes Daikin Applied Americas, Goodman Manufacturing Company, AAF-Flanders and Daikin America. In this role, Calabrese is responsible for the managing the organization's government affairs activities in North America with regard to federal regulatory, legislative and state activity in addition to standards.

Previously to his role at Daikin, Calabrese was the general counsel and senior vice president of Public Policy for the Air-Conditioning, Heating and Refrigeration Institute (AHRI). He also served as the Vice President of Government Relations for the Association of Home Appliance Manufacturers (AHAM) and was an attorney with the law firm Dewey Ballantine LLP practicing general corporate and international trade law. Calabrese earned his law degree from the George Washington University's School of Law and his master's degree in International Economics from the George Washington University's Elliott School of International Affairs.

AMERICAN OVERSIGHT

Thursday, July 19
1:45 – 3:15pm

Joining with Japan: Creating Partnerships from an Ocean Away

Japanese executives and governors will come together to discuss the future of workforce development and investment partnerships between our two countries

- GOED is working with JETRO (Japan External Trade Organization) to explore opportunities for trade. Will discuss and highlight Nevada Global.

- Governor Sandoval is planning to meet with the Japan National Governors Association at the end of August in Tokyo.

- This would be a great opportunity for Governor to highlight his efforts and successes around workforce development. (OWINN)

- The Office of Workforce Innovation helps drive a skilled, diverse, and aligned workforce in the state of Nevada by promoting cooperation and collaboration among all entities focused on workforce development.

- OWINN will partner with GOED's Nevada Global to assist international companies locating in Nevada with attaining and developing their required workforces.

AMERICAN OVERSIGHT

Building Bridges to the Future: State Leadership on Infrastructure Investment
Thursday, July 19
3:30 to 5 p.m.
La Fonda: La Terraza Room

Building Bridges to the Future: State Leadership on Infrastructure Investment

Overview

Infrastructure investment is critical to states' economies, environments and living standards. Governors play a vital role in shaping policy to strengthen states' infrastructure systems. NGA hopes to open a dialogue between international investors and governors on how to solve the U.S. infrastructure deficit. Private sector leaders will share best practices in transportation, energy and water infrastructures, as well as their possible financing models. Governors will present better avenues into the states.

****You are participating in the roundtable discussion.**

Format

- 3:30 p.m. — Opening Remarks
  - Jon Phillips, Director, Corporate Affairs, Global Infrastructure Investors Association
- 3:45 p.m. — Discussion
  - Mark Romoff, President and CEO, Canadian Council for PPPs
  - Fahad Al Hussain, CEO, TAQNIA International
  - James Wilmott, Morgan Stanley
  - Executive, PGGM (To Be Confirmed)
  - Executive, IFM (To Be Confirmed)
  - Andy Rose, CEO, Global Infrastructure Investors Association

Takeaway(s)

As the future of infrastructure buildout is increasingly falling to state actors, this session is designed to equip governors with creative alternatives to solve their states' infrastructure deficit.

Media

This session is closed to press.

Contact: Abigail Hunter, (202) 624-5301 or ahunter@nga.org

Presenter Bios

Jon Phillips

Jon joined GIIA as the director of corporate affairs in September 2016 with a brief to develop and implement its communications strategy and to extend its membership base. Between 2005 and 2016, he was communications director for the Nuclear Decommissioning Authority, a UK government agency established to run the £3 billion a year nuclear clean-up program. Prior to that, Phillips spent 12 years at airport operator BAA Heathrow, which included leading on communications for the £4.2 billion T5 project during its planning and construction phases.

Mark Romoff

Mark Romoff is president and CEO of The Canadian Council for Public-Private Partnerships (CCPPP). Established in 1993, CCPPP's mission is to promote innovative approaches to infrastructure development and service delivery through public-private partnerships with all levels of government.

Previously, Romoff was founding president and CEO of the Ontario Centres of Excellence, Canada's leading innovation, technology commercialization and entrepreneurship development organization. Over his 25-year career with the government of Canada, Romoff served as executive director in the Department of Industry and as a senior diplomat in the Department of Foreign Affairs and International Trade, serving in Nigeria, Mexico, Malaysia, Japan and the United States.

He is a member of the board of directors of the Central Canadian Public Television Association (PBS-WNED), the Empire Club of Canada, the i-CANADA Governors Council; the World Economic Forum "Strategic Infrastructure Initiative" Advisory Committee and is vice chair of the United Nations Economic Commission for Europe Team of Specialists on Public-Private Partnerships Governing Council.

He earned a Bachelor of Science from McGill University, a master's in applied science from the University of Waterloo and is a graduate of the Harvard University Kennedy School of Government Senior Executives Program and the Directors Education Program of the Canadian Institute of Corporate Directors and holds the ICD.D (Certified Director) designation. Romoff is also a recipient of the 2012 Queen Elizabeth II Diamond Jubilee Medal.

AMERICAN OVERSIGHT

Fahad Al Hussain

Fahaad Alhussain is currently the CEO of TAQNIA International Company, a U.S.-based company with offices on both the east and west coasts. Before that, he was the CEO of TAQNIA Holding, the Saudi company for technological development and investment intended to be the arm of the Saudi government that will diversify the Saudi economy into knowledge-based industries. During his long career, he led the biggest merger in Saudi Arabia's internet service provider (ISP) industry: Alamialiah, Naseej and Alfasliah formed ISP AWALNET, which became the largest ISP in the Kingdom and eventually acquired by the largest telecomm provider in the region (STC).

He then went on to lead International System Engineering (ISE), an IT service company, and managed to turn it around in both revenue and size in less than two years to become a major IT service player for the government and defense sector.

Fahad is a well-known figure in the IT and telecommunication industry in Saudi Arabia and sits on the boards of several companies, including BADIR ICT. He is also chairman of Riyadh Chamber of Commerce ICT committee and serves as a consultant to many government and private organizations.

Andy Rose

Andy Rose is the inaugural chief executive of GIIA, having been appointed in April 2016. Prior to joining GIIA, he held several senior positions in both the public and private sectors in the UK. He previously ran the Homes & Communities Agency, the country's housing and regeneration agency, and has also been chief executive of Infrastructure UK in HM Treasury. Andy spent 17 years at Canadian Imperial Bank of Commerce, where he was managing director of investment banking with responsibility for the European infrastructure business. He was also a partner of AgFe, a leading debt advisory firm based in London.

James Wilmott

Jim Wilmott is a managing director and chairman of Europe for Morgan Stanley Infrastructure Partners ("MSIP"). A 29-year veteran of Morgan Stanley, Wilmott has been investing in principal transactions since 1996 across a range of asset classes and geographies. Since joining MSIP, he has taken significant roles in numerous transactions, including leading a Fund I consortium in acquiring Eversholt Rail Group. Wilmott also serves on the board of Chicago Parking Meters ("CPM") and served on the boards of Eversholt and Affinity prior to their sales.

Prior to joining MSIP, Wilmott was responsible for establishing Morgan Stanley's Principal Investing business in Europe, a special situations, on-balance sheet investment platform. Prior to this, he was Deputy Head of the Principal Investment Department that oversaw Princes Gate Investors, a series of global special situations equity funds that focused on growth and bridge equity, minority investments and structured equity investments. In this role, he spent over six years originating, structuring, managing and exiting investments across a wide variety of sectors and regions. Jim was also a founding member of the Morgan Stanley Bridge Fund, where he originated and managed high-yield bridge loans for four institutional investors, including Morgan Stanley.

VIP Social Event
Thursday, July 19
5:00 – 6:00 p.m.
La Fonda: La Terraza
By Invitation Only

VIP Reception for Governors, Spouses, Foreign Delegations, Sponsors, NGA Partners and Special Guests

Overview

Governors, spouses, foreign delegations, NGA Partners, summer meeting sponsors and other invited guests are invited to join for a VIP cocktail reception to celebrate international cooperation.

Format

This reception will feature light hors d'oeuvres along with refreshments.

Media

This event is closed to press.

Contact: Bob Masciarelli, (202) 624-5355 or bmasciarelli@nga.org

AMERICAN OVERSIGHT

Social Event: A Celebration of Arts and Culture at Museum Hill
Thursday, July 19
6 to 8 p.m.
Museum Hill

A Celebration of Arts and Culture at Museum Hill

Overview

During this opening reception on the Museum Hill plaza, governors, their spouses, sponsors, partners, other meeting attendees and invited guests will experience a sampling of the prestigious Santa Fe Indian Market, the Spanish Market and the International Folk Art Market. In addition, two world-class museums, the Museum of International Folk Art and the Museum of Indian Arts and Culture, will be open to explore. This event will also showcase Native American and Southwestern cuisine and traditional dances from the Acoma, Jemez, Poaque and Zuni pueblos.

****You are giving opening remarks.**

Format

Note: There will be a private patio designated for governors, spouses and sponsors open throughout the event.

- Museums open to guests
    - Museum of Indian Arts and Culture, Museum of International Folk Art

- Art exhibits, demonstrations and sales
    - Southwestern Association for Indian Arts, International Folk Art Market, Museum of Spanish Colonial Arts
    - 10 artists representing each of the three different Santa Fe art markets
    - International artists: Africa (jeweler), Thailand (jeweler), Africa (indigo clothing), Ecuador (panama hats), Thailand (embellished clothing), India (scarves and clothing), Kyrgyzstan (felt and silk scarves), Swaziland (telephone wire baskets)

- Entertainment
    - Jemez Black Eagle and Dance Group (Buffalo and Deer Dances), Zuni Olla Maidens, Poaque Hoop Dancers, Acoma Rain Dancers

- Food and beverage
    - Food stations featuring Native American and New Mexican cuisine
    - Paleta wagon featuring fruit and cream paletas
    - Tasting booth featuring New Mexico Beekeepers Association products

Transportation

Governors may arrive by private vehicle; secured parking will be available. The venue address is 710-708 Camino Lejo, Santa Fe, N.M. All other attendees should utilize the shuttle service provided from all host hotels between the hours of 5:30 p.m. and 8:15 p.m.

Dress

Dress for this event is “Southwest casual.” Please note that this event will take place both indoors and outdoors. Closed-toe shoes and a light sweater or jacket are recommended.

Media

This event is closed to press.

Contact: Bob Masciarelli, (202) 624-5355 or bmasciarelli@nga.org

AMERICAN OVERSIGHT

Museum Hill

Thursday, July 19, 6-8 p.m.

Governor Sandoval

[OPEN WITH SANDOVAL]

WELCOME, EVERYONE, TO THE MISSION HILL MUSEUM. I HAD A GREAT FIRST DAY OF THE SUMMER MEETING AND I HOPE YOU ALL DID AS WELL.

AFTER A FULFILLING DAY, I'M GLAD WE HAVE THIS OPPORTUNITY TO RELAX AND ENJOY EACH OTHER'S COMPANY.

AS I LOOK AROUND THE MUSEUM, I REMEMBER THE SPIRIT OF THE WILD WEST. THE PIONEERS' FEARLESS ATTITUDE ABOUT ENTERING NEW FRONTIERS PROPELLED AMERICA INTO YEARS OF PROSPERITY.

AMERICAN OVERSIGHT

JUST LIKE OUR FOREBEARERS, WE ARE ENTERING A NEW FRONTIER, A FUTURE MARKED BOTH BY NEW INNOVATIONS AND NEW CHALLENGES.

AS GOVERNORS, OUR ROLE IS TO PREPARE OUR STATES FOR THE FUTURE, WHATEVER IT MIGHT HOLD.

I LOOK FORWARD TO SPEAKING WITH MANY OF YOU TONIGHT.

THANKS AGAIN AND ENJOY THE EVENING. I WOULD NOW LIKE TO INVITE GOVERNOR BULLOCK TO SAY A FEW WORDS.

AMERICAN OVERSIGHT

Friday Sessions

AMERICAN OVERSIGHT

NV-DA-20-0615-A-004328

Opening Plenary: Ahead of the Curve: Innovation Governors
Friday, July 20
8:50 to 10 a.m.
Convention Center: Sweeney Ballroom C-F

Opening Plenary: Ahead of the Curve: Innovation Governors

Overview

Governor Sandoval will formally open the Summer Meeting, welcome all participants to New Mexico and preside over the presentation of colors and the singing of our national anthem. Governor Susana Martinez of New Mexico will also offer opening remarks.

The session will then transition to an update for governors on the success of his initiative, *Ahead of the Curve: Innovation Governors.* Governor Sandoval will focus on his work in energy and transportation, as well as future technological trends of which governors should be aware.

Following Governor Sandoval's remarks on his initiative, he will invite John Krafcik, CEO of Waymo, Inc., a company under the Alphabet/Google umbrella focused on autonomous vehicles, for a fireside chat-style conversation, followed by an opportunity for governors to engage in the dialogue.

**** You are gaveling in the meeting, giving opening remarks, and moderating a discussion with the CEO of Waymo.**

Format

- 8:50 a.m. — Presentation of Colors and Singing of National Anthem
- 9 a.m. — Opening remarks
  - Governor Brian Sandoval, Nevada, Moderator
  - Governor Susana Martinez, New Mexico
- 9:15 a.m. — Discussion with John Krafcik, CEO, Waymo
- 10 a.m. — Adjourn

Takeaway(s)

This opening session will open the Summer Meeting. give attendees an update on the progress made on last year's initiative and look to the future of technology with autonomous vehicles.

Media

This session is open to press.

AMERICAN OVERSIGHT

Presenter Bio

John Krafcik

John Krafcik serves as CEO at Waymo. He served as self-driving car chief executive at Alphabet Inc. (alternate name Google Inc). since Sept. 30, 2015. Krafcik served as the president of TrueCar, Inc. from April 2014 to September 15, 2015 and served as its principal operating officer until Sept. 15, 2015. Krafcik served as the CEO and president of Hyundai Motor America, Inc. until Dec. 31, 2013.

Krafcik served as an acting CEO and acting president of Hyundai Motor America, Inc. starting in November 2008 and was responsible for implementation of strategic direction and management of operations. He served as vice president of Strategic Planning & Product Planning at Hyundai Motor America, Inc. from April 2004 to November 2008. He joined Hyundai from Ford Motor Company, where he worked for 14 years and held positions as chief engineer of Truck Chassis Engineering and chief engineer of Large and Premium Utility Vehicles. Before joining Ford Motor Company, Krafcik was the first American engineer hired by the GM and Toyota joint-venture partnership NUMMI and later became an industry expert on lean production while at MIT. He formed his own management consulting business and was a major contributor to The Machine That Changed the World. While at Ford, Krafcik held several key product development and planning positions on SUVs, trucks and commercial vehicles. From 1998 to 2002, he served as chief engineer for Large and Premium Vehicles, which included the Ford Expedition and Lincoln Navigator. He has experience in automobile manufacturing. He oversaw Ford's light truck chassis systems and helped launch the Ford F-150 pickup truck. He has been a director of TrueCar, Inc. since February 2014. Krafcik holds a Bachelor of Science degree in mechanical engineering from Stanford University and a Master of Science degree in management from the MIT Sloan School of Management.

AMERICAN OVERSIGHT

NV-DA-20-0615-A-004330

Opening Plenary

Friday, July 20, 9-10 a.m.

Governor Sandoval

[SANDOVAL OPENS]

GOOD MORNING GOVERNORS, DISTINGUISHED INTERNATIONAL VISITORS AND GUESTS FROM BUSINESS, INDUSTRY, ACADEMIA, THE FEDERAL GOVERNMENT, PHILANTHROPIES AND CIVIL SOCIETY.

WELCOME TO THE 2018 SUMMER MEETING OF THE NATION'S GOVERNORS IN BEAUTIFUL SANTA FE, NEW MEXICO!

[INSERT FOR PRESENTATION OF FLAG AND SINGING OF ANTHEM]

AMERICAN OVERSIGHT

I AM PLEASED TO ONCE AGAIN COME TOGETHER WITH MY COLLEAGUES TO LEARN ABOUT THE KEY ISSUES OF THE DAY, LIKE HOW TO PREPARE OUR WORKFORCE FOR INCREASING AUTOMATION, HOW TO CONTINUE TO GROW OUR ECONOMIES AND WHAT IT MEANS TO BE A GOVERNOR IN AN INCREASINGLY GLOBAL WORLD.

WE HAVE A SPECIAL SESSION ON WOMEN IN LEADERSHIP WHERE WE WILL HEAR FROM LEADING CEOS. WE WILL SHARE IDEAS ON HOW TO TACKLE TOUGH CHALLENGES SUCH AS THE PERSISTENT OPIOID CRISIS. AND WE WILL DISCUSS HOW, TOGETHER, WE CAN DEVELOP BI-PARTISAN APPROACHES TO IMPROVE THE LIVES OF ALL AMERICANS.

THANK YOU, GOVERNOR SUSANA MARTINEZ AND FIRST GENTLEMAN CHUCK FRANCO, FOR BEING WONDERFUL HOSTS AND SHOWING US A FANTASTIC TIME HERE IN THE LAND OF ENCHANTMENT.

AMERICAN OVERSIGHT

WE ARE LOOKING FORWARD TO SEVERAL EXCELLENT SOCIAL EVENTS TO COMPLEMENT OUR BUSINESS SESSIONS. GOVERNOR MARTINEZ, CAN YOU PLEASE SHARE WITH US YOUR WELCOMING REMARKS.

[TRANSITION TO SUSANA MARTINEZ]

[TRANSITION BACK TO SANDOVAL AND CHAIR'S INITIATIVE]

THANK YOU, GOVERNOR MARTINEZ, FOR YOUR HOSPITALITY AND ALL THE WORK YOU DO FOR THE PEOPLE OF NEW MEXICO.

I AM EXCITED TO KICK OFF OUR MEETING WITH A SESSION DEDICATED TO THE THEME OF MY CHAIR'S INITIATIVE: *AHEAD OF THE CURVE: INNOVATION GOVERNORS.*

I LOOK FORWARD TO ENGAGING ALL OF YOU IN A DISCUSSION OF HOW WE AS GOVERNORS CAN PREPARE OUR STATES FOR THE INCREDIBLE TECHNOLOGY THAT IS TRANSFORMING OUR TRANSPORTATION AND ENERGY SECTORS AND SO MANY OTHER ASPECTS OF OUR DAILY LIVES.

AMERICAN OVERSIGHT

IT HAS BEEN MY HONOR TO SERVE AS NGA CHAIR THIS PAST YEAR AND EXPLORE WITH YOU THE TOPIC OF TECHNOLOGY INNOVATION.

I STAND HERE TODAY CONFIDENT THAT THE FOURTH INDUSTRIAL REVOLUTION IS TRULY UPON US.

AND, THANKS TO YOUR ENGAGEMENT AND YOUR STAFF'S PARTICIPATION, WE ARE ALL MUCH BETTER PREPARED TO TACKLE THE MANY POLICY, WORKFORCE, COMMUNICATIONS, CYBER AND OTHER CHALLENGES THAT GO ALONG WITH OUR MOVE TO A MORE CONNECTED, DIGITAL WORLD.

AS I PROMISED AT THE NGA SUMMER MEETING IN PROVIDENCE LAST YEAR, WE ARE WELL ON OUR WAY TO BECOMING "INNOVATION GOVERNORS" AND STAYING AHEAD OF THE CURVE.

I'D LIKE TO SHARE WITH YOU A FEW HIGHLIGHTS OF THE PAST YEAR AND HOW NGA WILL CONTINUE TO ENGAGE STATES IN THE FUTURE.

AMERICAN OVERSIGHT

WE'VE CAPTURED A FEW SPECIAL SCENES IN THE PLACEMAT YOU SEE BEFORE YOU. YOU'LL SEE THERE, THE LIST OF SPONSORS THAT HAVE PROVIDED INVALUABLE SUPPORT TO BOLSTER OUR EFFORTS. [NGA WILL HAVE PLACEMATS IN FRONT OF EACH OF THE GOVERNORS WITH THE "ABOUT THE INITIATIVE" SIDE SHOWING.]

WE BEGAN THE INITIATIVE IN RENO, NEVADA, WHERE WE GATHERED TO MAP OUT THE INITIATIVE AND TOUR THE STATE-OF-THE-ART SWITCH DATA CENTER, JUST AROUND THE CORNER FROM THE TESLA GIGA-FACTORY, HOME TO THE WORLD'S LARGEST PRODUCER OF LITHIUM-ION BATTERIES.

WHO COULD FORGET WHEN WE LAUNCHED THE INITIATIVE LAST JULY WITH A THOUGHT-PROVOKING DISCUSSION WITH TESLA CEO ELON MUSK AND A DRONE-DELIVERED GAVEL?

AMERICAN OVERSIGHT

WE THEN DOUBLED DOWN ON EXPLORING ENERGY INNOVATION THROUGH AN ENERGY INNOVATION SUMMIT HOSTED BY GOVERNOR HICKENLOOPER IN DENVER, THAT EXAMINED HOW SMART GRID TECHNOLOGIES, DISTRIBUTED GENERATION, ENERGY STORAGE, SENSORS FOR COAL AND NATURAL GAS OPERATIONS AND OTHER TECHNOLOGIES ARE CREATING AN ELECTRICITY SYSTEM THAT IS SAFER, MORE EFFICIENT, CLEANER AND MORE RESILIENT.

WE SAW THE LATEST TECHNOLOGIES IN ACTION AT THE SOLAR DECATHLON – IN NET-ZERO-ENERGY-USE HOUSES, BUILT BY COLLEGE STUDENTS NO LESS.

WE GATHERED AGAIN IN LAS VEGAS, NEVADA, FOR A TRANSPORTATION INNOVATION SUMMIT, WHERE WE WERE HOSTED BY THE CONSUMER TECHNOLOGY ASSOCIATION AT CES, THE WORLD'S LARGEST TECHNOLOGY SHOWCASE AND HEARD FROM THOUGHT-LEADERS ABOUT THE INCREDIBLE ADVANCEMENTS IN AUTONOMOUS VEHICLES, ELECTRIC VEHICLES, RIDE SHARING AND DRONES.

AMERICAN OVERSIGHT

WE TOOK RIDES IN AN AUTONOMOUS SHUTTLE AND IT WAS MY PLEASURE TO BE JOINED AT CES BY GOVERNOR BULLOCK AND GOVERNOR SNYDER TO HIGHLIGHT HOW STATES ARE TRULY THE LABORATORIES OF INNOVATION.

AT OUR NGA 2018 WINTER MEETING, I WAS THRILLED TO HAVE IBM CEO GINNI ROMETTY JOIN ME TO DISCUSS INNOVATION IN COMPUTATION AND STRATEGIES TO PREPARE THE WORKFORCE AND TO GIVE US ALL THE "BLOCKCHAIN FOR DUMMIES" LESSON WE'VE BEEN TOO AFRAID TO REQUEST.

IN TOTAL, WE ENGAGED OVER 150 OFFICIALS FROM A TOTAL OF 39 STATES AND HELPED THEM DEVELOP IDEAS FOR KEY ACTIONS TO IMPLEMENT BACK HOME.

WE ALSO ENGAGED ADDITIONAL THOUGHT-LEADERS AS PART OF AN AHEAD-OF-THE-CURVE PODCAST. I HOPE YOU WILL ALL GIVE IT A LISTEN ON YOUR TRAVELS BACK HOME.

AMERICAN OVERSIGHT

LAST BUT NOT LEAST, WE HELD A SPECIAL ROUNDTABLE AT DELOITTE'S INNOVATION GREENHOUSE IN SAN JOSE, TO GATHER INPUT ON A GROUNDBREAKING SET OF STATE INNOVATION ROADMAPS THAT I AM PLEASED TO PRESENT TO YOU TODAY.

IF YOU FLIP YOUR PLACEMATS TO THE OTHER SIDE, [PAUSE TO FLIP PLACEMATS] YOU WILL SEE A SNAPSHOT OF THOSE ROADMAPS—ONE COVERS TRANSPORTATION INNOVATION AND ONE COVERS ENERGY INNOVATION.

WE HAVE PRINTED COPIES OF EACH FOR YOU AS WELL, AND WE HOPE YOU WILL FIND THEM USEFUL TOOLS THAT PROVIDE YOU WITH A MENU OF OPTIONS TO DEVELOP YOUR OWN INNOVATION STRATEGIES.

[SMARTER STATES LAUNCH]

AMERICAN OVERSIGHT

WHILE MY INITIATIVE IS FORMALLY COMING TO AN END, WE KNOW THAT STATES CONTINUE TO SEEK WAYS TO TAKE ADVANTAGE OF NEW TECHNOLOGIES.

I AM PLEASED TO ANNOUNCE THAT TODAY, AS A LEGACY TO AHEAD OF THE CURVE, THE NATIONAL GOVERNORS ASSOCIATION IS LAUNCHING A NEW *SMARTER STATES, SMARTER COMMUNITIES* INITIATIVE.

THIS MULTIYEAR EFFORT TO HELP STATES USE DATA ANALYTICS, ADVANCED COMMUNICATIONS NETWORKS AND CONNECTED TECHNOLOGIES TO IMPROVE SAFETY, MOBILITY, EFFICIENCY AND PRODUCTIVITY FOR THE CITIZENS OF THEIR STATES.

THE EFFORT WILL START WITH A NGA LEARNING LAB LATER THIS YEAR, WHERE GOV. RAUNER SET OUT TO MAKE ILLINOIS THE FIRST "SMART STATE" AND ASKED NGA TO HELP DEVELOP A COHORT OF SMARTER STATES SO THAT WE CAN LEARN FROM EACH OTHER.

AMERICAN OVERSIGHT

I'M PLEASED TO ANNOUNCE THAT NGA HAS SELECTED THE STATES OF XX, XX, XX AND XX, [WILL HAVE FINALIZED THESE BY JULY 13] TO BE PART OF THAT FIRST COHORT.

WE APPRECIATE THE SUPPORT OF CROWN CASTLE, SAS, SIEMENS, VERIZON AND THE DEPARTMENT OF ENERGY [ADD MORE NAMES AS SPONSORS ARE FINALIZED] IN HELPING CREATE SMARTER STATES, SMARTER COMMUNITIES.

I HOPE YOU ALL TAKE SOME TIME TO VISIT THE SMARTER STATES EXPO AT THIS MEETING, WHERE LEADING TECHNOLOGY INNOVATORS WILL BE DEMONSTRATING SMART TECHNOLOGIES IN ACTION.

[MARBLE ROBOT DEMONSTRATION]

AMERICAN OVERSIGHT

WHILE I COULD FILL THE REST OF THE HOUR DESCRIBING TO YOU THE CONVERSATIONS WE HAD AND EXCITING TECHNOLOGY WE EXPERIENCED, I WOULD RATHER BRING YOU A LITTLE INNOVATION IN ACTION.

I NOW WELCOME TO THE MEETING FOR THE FIRST TIME, A SIDEWALK ROBOT.

THIS ROBOT OFFERS A GLIMPSE INTO THE FUTURE WHEN MEDICINES, GROCERIES AND OTHER ITEMS OF DAILY NEED WILL COME TO US BY AUTONOMOUS ROBOTS SUCH AS THIS ONE DEVELOPED BY THE MARBLE COMPANY BASED IN SAN FRANCISCO, CALIFORNIA.

I'M PLEASED THAT MARBLE CEO MATT DELANEY COULD JOIN US HERE TODAY.

AMERICAN OVERSIGHT

AS WE PLAY A SHORT VIDEO THAT SHOWS THE CAPABILITIES OF THE ROBOT IN MORE DETAIL, IT WILL HELP ME DELIVER TO YOU A SPECIAL GIFT TO HELP YOU REMEMBER THE GREAT STATE OF NEVADA.

[MARBLE ROBOT WILL LEAVE THE ROOM]

[TRANSITION TO FIRESIDE CHAT]

NOW, I PROMISED YOU A GREAT DISCUSSION TODAY AND I KNOW I CAN DELIVER WITH OUR NEXT GUEST.

A KEY ISSUE OF THIS INITIATIVE HAS BEEN AUTONOMOUS VEHICLES AND THE IMPACTS THEY WILL HAVE ON OUR LIVES.

MY OWN CLAIM TO FAME IS THAT I WAS THE FIRST GOVERNOR TO RIDE IN AN AUTONOMOUS CAR, BACK IN 2011.

AMERICAN OVERSIGHT

IT WAS KNOWN THEN AS THE "GOOGLE CAR" AND THE COMPANY HAS SINCE SPUN OUT THIS SPECIAL PROJECT INTO THE COMPANY THAT IS WAYMO TODAY.

IF YOU ARE NOT FAMILIAR WITH WAYMO, WE HAVE A BRIEF VIDEO TO INTRODUCE YOU A LEADER IN SELF-DRIVING CAR TECHNOLOGY.

[VIDEO PLAYS FOR 90 SECONDS]

I AM VERY PLEASED TO HAVE THE CEO OF THIS INNOVATIVE COMPANY, JOHN KRAFCIK, JOINING US THIS MORNING.

I HAD THE GREAT PLEASURE OF MEETING JOHN DURING MY RECENT TRIP TO SAN JOSE AND WAS INSPIRED BY THE VISION HE HAS FOR A SAFER, AUTONOMOUS FUTURE.

PLEASE JOIN ME IN WELCOMING JOHN TO THE STAGE FOR A FIRESIDE CHAT THAT WE'LL FOLLOW UP WITH SOME Q&A WITH THE GOVERNORS.

AMERICAN OVERSIGHT

[KRAFCIK JOINS SANDOVAL ON STAGE]

THANK YOU FOR JOINING US JOHN. WE ARE VERY EXCITED TO HAVE YOU WITH US TODAY.

WAYMO IS ON THE LEADING EDGE OF DEVELOPING AUTONOMOUS VEHICLE TECHNOLOGY, BUT, I SUSPECT THAT SOME GOVERNORS MAY NOT REALIZE THAT WAYMO HAS BEEN LEADING IN THIS SPACE FOR NEARLY A DECADE.

[TRANSITION TO Q & A]

CAN YOU SHARE WITH US HOW WAYMO WAS FOUNDED, AND WHAT MAJOR PROJECT IS IN THE WORKS? AND BEFORE WE DO A DEEP DIVE ON HOW THIS REVOLUTIONARY TECHNOLOGY WILL IMPACT OUR LIVES, CAN YOU GIVE US A BRIEF PRIMER ON THE TECHNOLOGY BEHIND YOUR AUTONOMOUS VEHICLES?

AMERICAN OVERSIGHT

[JOHN KRAFCIK ANSWER]

THE VIDEO WE JUST SAW SHOWED THE WAYMO CARS ON THE ROAD IN A STATE RIGHT NEXT DOOR TO HERE, IF I AM NOT MISTAKEN? CAN YOU TALK ABOUT WHAT WAYMO HAS LEARNED FROM THE RIDERS, AND HOW THEY ARE REACTING TO TRAVELING IN AN AUTONOMOUS VEHICLE?

[JOHN KRAFCIK ANSWER]

THERE WAS A BELIEF THAT MANY IN THE TECHNOLOGY SECTOR WHO WERE PUSHING THIS ENVELOPE WOULD COME OUT WITH THEIR OWN VEHICLES AND COMPETE WITH THE LEGACY AUTO COMPANIES, BUT IT SEEMS LIKE THE OPPOSITE HAS OCCURRED. WAYMO AND OTHERS ARE ENTERING INTO AGREEMENTS TO PURCHASE VEHICLES FROM EXISTING COMPANIES AND USE THEIR SOFTWARE EXPERTISE TO MODIFY THEM TO BE AUTONOMOUS.

AMERICAN OVERSIGHT

CAN YOU TALK ABOUT THE RECENT ANNOUNCEMENTS FROM WAYMO ABOUT THE PURCHASE OF VEHICLES, AND WHY YOU HAVE TAKEN THIS PATH INSTEAD OF DEVELOPING YOUR OWN VEHICLES FROM SCRATCH?

[JOHN KRAFCIK ANSWER]

WITH SUCH A LARGE FLEET OF VEHICLES ON THE ROAD, HOW ARE YOU GOING TO MANAGE CLEANING AND MAINTAINING THE VEHICLES, AND WHERE WILL THEY BE STORED DURING SLOW PERIODS? RIGHT NOW, IT FALLS TO THE DRIVER TO CLEAN THEIR CAR AND BRING IT IN FOR TUNE-UPS AND OIL CHANGES, AND PARK IT IN A GARAGE, ON THE STREET, OR IN A DRIVEWAY.

WILL WAYMO ESTABLISH VEHICLE DEPOTS LIKE HOW TRANSIT DISTRICTS HAVE LARGE BUS DEPOTS OR RAIL YARDS?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

WHILE ON THE TOPIC OF THE VEHICLES, CAN WE TALK ABOUT THE PROPULSION? LAST SUMMER WE HAD ELON MUSK WITH US, AND HE TALKED ABOUT THE FUTURE BEING BOTH AUTONOMOUS AND ELECTRIC.

IN NEVADA, WE HAVE MADE A CONCERTED EFFORT TO PREPARE FOR THE INCREASE OF EVS BY BUILDING OUT AN ELECTRIC HIGHWAY SYSTEM TO ELIMINATE RANGE ANXIETY FOR DRIVERS. IS WAYMO PREPARING FOR A FLEET OF EVS?

[JOHN KRAFCIK ANSWER]

I IMAGINE THE ENGINES MAY BE EASIER TO MAINTAIN THAN A FLEET FOR TRADITIONAL VEHICLES IN USE ALL DAY LONG.

I THINK ALL OF US ARE INTRIGUED BY THE CONCEPT OF SELF-DRIVING VEHICLES, AND 36 STATES HAVE EITHER ENACTED LEGISLATION OR EXECUTIVE ORDERS TO ESTABLISH GUIDELINES FOR THEIR TESTING AND OPERATION, WITH NEVADA BEING THE FIRST OF COURSE, BACK IN 2011.

AMERICAN OVERSIGHT

ONE OF THE GREATEST POTENTIAL BENEFITS OF THIS TECHNOLOGY IS THE POTENTIAL TO SIGNIFICANTLY REDUCE THE TRAFFIC FATALITIES OUR NATION SEES EVERY YEAR, A STAGGERING 37,461 LIVES LOST IN 2016, OR ABOUT ONE DEATH EVERY MINUTE.

RECENTLY, THOUGH, WE HAVE ALL SEEN THE NEWS ABOUT ACCIDENTS OR INCIDENTS INVOLVING AUTONOMOUS VEHICLES WHICH HAS SPURRED DEBATE ABOUT THE SAFETY OF HAVING THESE VEHICLES ON THE ROADS TODAY.

HOW DO YOU RESPOND TO THESE CONCERNS? IS IT TIME TO SLOW DOWN AND DO MORE VIRTUAL TESTING, INSTEAD?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

THE ROADMAP ON TRANSPORTATION INNOVATION WE HAVE RELEASED TODAY GOES INTO GREAT DEPTHS ON THE POTENTIAL BENEFITS, CHALLENGES AND CONCERNS THAT STATES NEED TO GRAPPLE WITH AS AUTONOMOUS VEHICLES ENTER THE TRANSPORTATION SYSTEM.

THESE RANGE FROM IMPROVED SAFETY ON THE ROADS AND INCREASED PRODUCTIVITY FOR WORKERS, TO INCREASED VEHICLE MILES TRAVELED AND THE POTENTIAL LOSS OF JOBS DUE TO AUTOMATION.

CAN YOU TALK ABOUT SOME OF THE BENEFITS THIS TECHNOLOGY? DO YOU HAVE ANY CONCERNS ABOUT THE TECHNOLOGY? HOW CAN THOSE BE ADDRESSED THROUGH PREEMPTIVE POLICY CHANGES?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

HOW CAN WE IN THE GOVERNMENT, OR YOU IN THE PRIVATE SECTOR OR MAYBE BOTH OF US IN A PARTNERSHIP EDUCATE THE PUBLIC ABOUT THIS TECHNOLOGY, ITS BENEFITS AND THE FUTURE THAT IS ON THE HORIZON?

[JOHN KRAFCIK ANSWER]

THERE WAS A RECENT ANNOUNCEMENT THAT WAYMO HAS TEAMED UP WITH UBER, FORD AND OTHERS IN THIS SPACE TO LOOK AT THE IMPACTS OF AUTONOMOUS VEHICLES ON THE NATION'S WORKFORCE.

THE IMPACT OF THIS TECHNOLOGY ON JOBS IS SOMETHING WE HEAR FROM MANY GOVERNORS.

CAN YOU TALK BRIEFLY ABOUT THIS PARTNERSHIP AND HOW WE CAN PROACTIVELY ADDRESS THIS ISSUE?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

ONE THING I WANT TO GET YOUR THOUGHTS ON IS TIED TO THE TIMELINE OF THE TECHNOLOGY.

SELF-DRIVING CARS ARE CLEARLY GOING TO CHANGE TRAFFIC PATTERNS AND TRANSPORTATION CHOICES.

WE PROBABLY WON'T NEED AS MANY PARKING GARAGES, WE MIGHT NOT NEED HIGHWAY LANES TO BE AS WIDE AS THEY ARE, AND METERED PARKING SPOTS MAY BECOME EXTINCT.

HOWEVER, AS GOVERNORS WE ARE ROUTINELY FACED WITH MAKING DECISIONS ABOUT INFRASTRUCTURE INVESTMENTS THAT HAVE A LIFESPAN OF 30, 50 OR EVEN 75 YEARS.

ARE WE BUILDING THINGS TODAY WE WILL NOT NEED 20 YEARS FROM NOW, AND IF SO, HOW CAN WE MAKE SURE WE ARE NOT LEAVING OUR CHILDREN WITH STRANDED ASSETS THEY DO NOT NEED BUT MUST CONTINUE TO PAY FOR?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

ARE THERE THINGS WE SHOULD BE INVESTING IN TODAY THAT ARE NOT A PRIORITY FOR OUR STATE AND LOCAL GOVERNMENTS, OR ARE THERE CHANGES WE SHOULD MAKE TO THE INFRASTRUCTURE WE ARE BUILDING TODAY?

[JOHN KRAFCIK ANSWER]

GOVERNORS LIKE TO BE ACTIVE. WE TOOK THESE JOBS BECAUSE WE WANT TO GET THINGS DONE.

WE WANT TO MAKE LIFE BETTER FOR OUR CITIZENS, IMPROVE THE OPPORTUNITIES FOR OUR EMPLOYERS, ENHANCE THE SAFETY, RELIABILITY AND RESILIENCY OF OUR INFRASTRUCTURE AND, YES, LEAVE A BETTER WORLD FOR ALL OUR CHILDREN.

WHAT ADVICE WOULD YOU GIVE TO GOVERNORS FOR THE ACTIONS THEY CAN TAKE TO PROMOTE TRANSPORTATION INNOVATION WHILE PROTECTING THE PUBLIC?

[JOHN KRAFCIK ANSWER]

AMERICAN OVERSIGHT

[BEGIN Q & A WITH GOVERNORS]

I WOULD LIKE TO INVITE OTHER GOVERNORS TO JOIN IN THE DISCUSSION AND SHARE THEIR QUESTIONS ABOUT INNOVATION WITH JOHN.

[SANDOVAL—CLOSING]

PLEASE JOIN ME IN THANKING JOHN FOR HELPING US LEARN MORE ABOUT WHAT WE AS GOVERNORS CAN DO TO STAY AHEAD OF THE CURVE AND PREPARE OUR STATES AND THE CITIZENS WE SERVE FOR THE FUTURE.

I HOPE EVERYONE ENJOYED THE CONVERSATION AND IS READY FOR MORE TO COME THROUGHOUT THE WEEKEND. STAY TUNED FOR OUR NEXT PLENARY HERE SHORTLY. THANK YOU.

AMERICAN OVERSIGHT

Plenary Session II: Racial Equity in the Workplace
Friday, July 20
10:10 to 10:50 a.m.
Convention Center: Sweeney Ballroom C-F

Plenary Session II: Racial Equity in the Workplace

Overview

This fireside chat, featuring W.K. Kellogg Foundation CEO La June Montgomery Tabron explores the significant economic and social gains to be made by closing the racial equity gap in the U.S.

Format

- 10:10 a.m. — Opening remarks and introductions
  - Governor Bullock
- 10:15 a.m. — Discussion with CEO La June Montgomery Tabron and Governor Bullock
- 10:50 a.m. — Adjourn

Takeaway(s)

This discussion is designed to focus on the issues of racial equity and equality in the workplace when it comes to ensuring Good Jobs for All Americans.

Media

This session is open to press.

Contact: Tiffany Shackelford, (202) 624-5346 or tschackelford@nga.org

AMERICAN OVERSIGHT

Presenter Bio

La June Montgomery Tabron

La June Montgomery Tabron is the president and CEO of the W.K. Kellogg Foundation (WKKF) in Battle Creek, Mich., one of the largest private foundations in the United States.

As a champion for vulnerable children and for creating the conditions necessary for them to thrive, Tabron leads the Kellogg Foundation and its work to support thriving children, working families and equitable communities. The Kellogg Foundation works to heal the profound racial inequities in communities, cultivate community leaders and foster community engagement on behalf of children.

Prior to becoming the first African-American president and CEO to lead the foundation in its history, she served in a variety of positions at the Kellogg Foundation after joining the organization as the controller in 1987. Most recently, she was the executive vice president of operations and treasurer, where she was pivotal in connecting and integrating WKKF's leadership committees: the Executive Council, Program Leadership Council, Talent Board and Organizational Advisory Team, ensuring unified execution of the organization's mission and strategic framework across all programmatic and priority place areas. She also provided leadership for WKKF's place-based grantmaking in Mississippi and New Orleans since 2011, launching a significant effort to help set young males of color on the path to success in 2013.

Other earlier positions at WKKF included: chief operating officer and treasurer; senior vice president/chief financial officer and treasurer; vice president – finance and treasurer; and assistant vice president for finance and assistant treasurer. Prior to joining WKKF, she was an auditor for Plante & Moran CPAs.

Throughout almost 30 years in philanthropy, Tabron has participated in numerous sector efforts to enhance philanthropy, including the policy and annual conference committees for the Council on Foundations and the board development and transparency committees for Independent Sector.

As a community and civic leader, Tabron serves on Detroit Workforce Development Board, the Alumni Association of the University of Michigan Board and is a member of the Kalamazoo Chapter of the Links, Incorporated. She also serves on the boards of Battle Creek Community Health Partners, Bronson Healthcare Group and the Kellogg Company. Tabron is also the chair of the W.K. Kellogg Foundation Trust.

Tabron holds a bachelor's degree in business administration from the University of Michigan – Ann Arbor and an MBA from the Kellogg Graduate School of Management at Northwestern University. She also received an honorary doctorate of humane letters from Marygrove College in Detroit and an honorary doctorate from Union Institute & University. She is a certified public accountant and certified management accountant licensed in Michigan. She is also a graduate of the inaugural class of the Council on Foundations' Career Pathways Program.

The W.K. Kellogg Foundation (WKKF), founded in 1930 as an independent, private foundation by breakfast cereal pioneer Will Keith Kellogg, is among the largest philanthropic foundations in the United States. Guided by the belief that all children should have an equal opportunity to thrive, WKKF works with communities to create conditions for vulnerable children so they can realize their full potential in school, work and life. The Kellogg Foundation is based in Battle Creek, Mich., and works throughout the United States and internationally, as well as with sovereign tribes. Special emphasis is paid to priority places where there are high concentrations of poverty and where children face significant barriers to

AMERICAN OVERSIGHT

success. WKKF priority places in the U.S. are in Michigan, Mississippi, New Mexico and New Orleans; and internationally, are in Mexico and Haiti. For more information, visit www.wkkf.org.
Plenary Session III: Women in Leadership: A View from the Top
Friday, July 20
11 to 11:40 a.m.
Convention Center: Sweeney Ballroom C-F

Plenary Session III: Women in Leadership: A View from the Top

Overview

During this panel, three accomplished CEOs will discuss leadership, innovation and the workforce in a changing economy. The panelists will discuss the challenges that women face in the workforce as well new and innovative ways for women to lead in both the public and private sectors.

Format

- 11 a.m. — Opening remarks and introductions
  - Governor Susana Martinez, New Mexico, Moderator
- 11:05 a.m. — Panel discussion
  - Gail Boudreaux, CEO, Anthem, Inc.
  - Barbara Humpton, CEO, Siemens USA
  - Pat Vincent-Collawn, CEO, PNM Resources
- 11:40 a.m. — Adjourn

Takeaway(s)

This session is designed to provide governors with a new understanding of leadership and a new appreciation for diversity in the workforce.

Media

This session is open to press.

Gail Boudreaux

Gail Koziara Boudreaux is the president and CEO of Anthem, Inc., a Fortune 50 company and leading health benefits provider with a focus on transforming health care to make it more accessible and affordable for all Americans. Anthem's 53,000 associates serve more than 40 million consumers—or one in eight Americans—through its affiliated health plans. In total, Anthem serves over 73 million individuals across 27 states through its broad portfolio of health insurance and services subsidiaries, including Anthem Blue Cross and Blue Shield health plans, Amerigroup, CareMore and Simply Healthcare.

Boudreaux is the former CEO of UnitedHealthcare, where she was responsible for the largest business division of UnitedHealth Group and the largest benefits provider in the nation, serving 45 million individuals with revenue of approximately $120 billion and a workforce of more than 60,000 employees. During Boudreaux's tenure, UnitedHealthcare was the fastest-growing health benefits company in the industry, growing organically by more than 8 million members in five years. Before joining UnitedHealthcare, Boudreaux served as executive vice president of External Operations for Health Care Service Corporation and 20 years at Aetna holding a number of regional and national leadership positions.

Boudreaux was honored from 2008 to 2014 as one of Fortune's 50 Most Powerful Women in American Business. Additionally, she was named to the Forbes 100 Most Powerful Women in The World list and was recognized by the Minneapolis/St. Paul Business Journal as one of the top 25 industry leaders and included on Today's Chicago Woman list of 100 Women of Influence. Boudreaux was also named by Modern Healthcare as one of the Most Powerful People in Healthcare.

Boudreaux serves on the Board of Trustees of the Field Museum of Chicago and is a member of the Chicago Network, an organization of Chicago's most influential women. She currently serves on the Board of Directors for Xcel Energy, Inc., Zimmer Biomet Holdings, Inc. and Novavax, Inc. She is the chair of the Excel Energy Operations, Nuclear and Environment and Safety Committee.

Boudreaux earned a B.A. with honors from Dartmouth College and an MBA with distinction in finance and health care administration from Columbia Business School.

Barbara Humpton

Barbara Humpton is CEO of Siemens USA, where she guides the company's strategy and engagement in serving the company's largest market in the world, with more than 50,000 employees and over $23 billion in revenues and $5 billion in annual exports.

Most recently, Humpton served as president and CEO of Siemens Government Technologies, Inc. (SGT), a leading integrator of Siemens' products and services for federal government agencies and departments. In this role, Humpton also served as an officer/director member of the board of directors of SGT.

AMERICAN OVERSIGHT

Prior to joining Siemens in 2011, Humpton served as a vice president at Booz Allen Hamilton where she was responsible for program performance and new business development for technology consulting in the Department of Justice and Department of Homeland Security. Earlier, Humpton was a vice president at Lockheed Martin Corporation with responsibility for Biometrics Programs, Border and Transportation Security and Critical Infrastructure Protection, including such critical programs as the FBI's Next Generation Identification and the TSA's Transportation Workers' Identification Credential.

Humpton is a graduate of Wake Forest University with a bachelor's degree in mathematics. She serves on the board of directors of MorganFranklin, the American Heart Association Greater Washington Region, the Center for Strategic and Budgetary Assessments (CSBA) and The George Washington University Law School Government Contracts Advisory Board. She resides in Washington, D.C., with her husband, David.

Pat Vincent-Collawn

Pat Vincent-Collawn joined PNM Resources in 2007 as utilities president, overseeing the daily operations for PNM and Texas New Mexico Power. She became the president and CEO of PNM Resources in March 2010 and chairman of the board in January 2011.

Vincent-Collawn's extensive utility experience has helped her guide PNM Resources through its transformation from a partially deregulated entity into a pure electric utility, with a clear focus on reliability, safety and sustainability. She also continues to lead the development of strategies to respond to growing requirements for renewable energy and to position the company to meet and exceed current and future environmental regulations.

Vincent-Collawn strongly believes that businesses must actively support education and economic development in the communities they serve. She is involved in several community, state and industry initiatives. She is also chair of the Kirtland Partnership Committee, a community board member of Wells Fargo of New Mexico and the Economic Forum of Albuquerque. She is past chair of both the Greater Albuquerque Chamber of Commerce and the United Way of Central New Mexico. Vincent-Collawn is a member of the executive committee and the board of directors for the Electric Power Research Institute and the Edison Electric Institute; she also serves on the board of CTS Corporation (NYSE: CTS). Vincent-Collawn has a bachelor's degree in journalism (magna cum laude) from Drake University and an MBA from Harvard University.

Plenary Session IV: Economic Opportunity in the Great Outdoors
Friday, July 20
11:50 a.m. to 12:50 p.m.
Convention Center: Sweeney Ballroom C-F

Plenary Session IV: Economic Opportunity in the Great Outdoors

Overview

Our nation's outdoors play a significant role in stimulating our economy, increasing public health, creating jobs and connecting our communities. Outdoor recreation activities alone contribute $887 billion annually to the economy, support 7.6 million American jobs and generate $80 billion in annual tax revenue at the federal, state and local level. Over the past several years, many states have fully recognized that the outdoor industry is an economic powerhouse, so governors are developing ways to harness the potential of the growing industry. By creating unique investment opportunities for the outdoor recreation industry, states are now bolstering or replacing declining businesses, promoting public health and developing long-term strategies that will continue to foster the sector.

This session will provide governors an opportunity to discuss how their states are integrating recreation and parks into their state-wide economic development strategies, including success stories from existing state Offices of Outdoor Recreation.

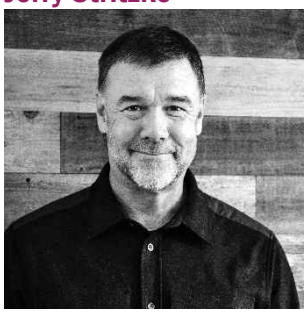
Format

- 11:50 a.m. — Opening Remarks
  - Colorado Governor John Hickenlooper
- Noon — Speaker Presentations
  - Jerry Stritzke, President and CEO, REI
  - Butch Whiting, CEO and Owner, Kryptek Outdoor Group
- 12:30 p.m. — Discussion
- 12:45 p.m. — Closing Remarks
  - Colorado Governor John Hickenlooper

Media

This session is open to press.

Takeaway(s)



This session will provide governors an opportunity to explore successful state policies that are supporting the growing outdoor industry and fostering economic growth.

Jerry Stritzke

Jerry Stritzke joined outdoor retailer REI in 2013 as president and CEO. Over the past five years, he has led the co-op to share record returns—more than 70 percent of profits—with members, employees and nonprofit partners. Committed to increasing access to the outdoors, Stritzke spearheaded the co-op's multiyear, multimillion-dollar partnership with the National Park Service, led the effort to close stores and #OptOutside on Black Friday in 2015, 2016 and 2017 and pledged to advance women's leadership in the outdoor industry with both an official CEO pledge and $1.5 million grant to Camber Outdoors (previously Outdoor Industries Women's Coalition) from the REI Foundation.

Stritzke previously served as president and COO at Coach, Inc. and held a nine-year career at Limited Brands, Inc., where he served as the COO of Victoria's Secret and the CEO of Mast Industries. Earlier in his career, Jerry was trained as an attorney and worked in private practice before transitioning to a consulting firm specializing in retail.

An outdoor enthusiast, he enjoys hiking, skiing, fly fishing and rafting and annually summits one of Colorado's 14,000-foot mountain peaks as well as a Washington peak with REI employees.

Butch Whiting

Butch Whiting is the co-founder and CEO of Kryptek Outdoor Group. Kryptek has an extensive focus on both U.S. and Foreign Military programs, as well as civilian adventure/outdoor gear and apparel. The Kryptek Slogan "Battlefield to Backcountry" is actually the soul of the Kryptek Brand.

Whiting graduated from Gonzaga University with a degree in mechanical engineering and was commissioned into the U.S. Army as an honor graduate in May of 1997. He served as an Army apache attack helicopter combat pilot in Iraq and Afghanistan. He departed from the military as a major with 11 years of distinguished service. During his military career Whiting developed a strong leadership and management pedigree and was responsible for equipment worth over $256 million while leading over 90 people through complex combat operations. He served in numerous leadership roles, including the Aide-De-Camp for the commanding general of the Army Aviation War Fighting Center. While there, he established solid working relationships with members of Congress and their staffs, local and civic community leaders, as well as various military staffs within Army departments. His last role in the U.S. Army was as the branch chief of special doctrine at the Combined Arms Doctrine Directorate.

Whiting's military leadership experience has translated well into the civilian business world. Following his service in 2008, Whiting was the president of the Alaska-based Bighorn Enterprises LLC, providing logistical support to numerous energy companies on the North Slope of Alaska. In 2010, Whiting was majority shareholder and president of the Idaho-based company Blaze Runners Inc. providing essential leadership, management and expertise for contract support for wildland fire-fighting to the federal government.

Whiting has been happily married to his wife, Nikki Whiting, for 23 years, and has two daughters, McKenna who is 17 years old, and Kylee who is 14. His hobbies and interests nest into his business and include competitive shooting, hunting, fishing and other outdoor recreation.

The discord on the national political scene is near deafening. The din in Washington, D.C., even reaches our offices here in Colorado and Washington State. If you only pay attention to the quarreling inside the Beltway, you'd think the country's progress was grinding to a halt.

We have at least one promising report from the states. As a governor and as a CEO of one of the largest outdoor retailers, we each care deeply about the health of this nation's economy and environment. What we find is Americans of all stripes love this country and adventuring out into its natural beauty. And across the partisan divide, state lawmakers are collaborating like never before to promote the benefits of spending time in nature, including the economic benefits.

2017 was one of the most politically chaotic years of our lifetimes. Most disappointing, the political elites in the nation's capital stoked a debate over the wisdom of protecting our public lands. We started 2017 hoping our national leaders would pick up the mantle of Teddy Roosevelt and put the long-term health of our public lands above exploitation. Not so.
But as that debate continued in D.C., 2017 also saw several states, with strong bipartisan support, create new "outdoor recreation sector leaders." Each state has designated a point-person to help grow the outdoor recreation industry and improve their citizens' access to outdoor experiences. Now a diverse array of eight states has these recreation-sector leaders – Colorado, Washington, Wyoming, Vermont, Utah, Oregon, North Carolina and Montana.

We believe access to the outdoors is an American right. And creating that access feeds a large, sustainable segment of the economy. So the time is

ripe for other states to join this growing movement – to prioritize places where people love to recreate, to support the entrepreneurs and Main Street businesses that make up the recreation economy. It's beyond time to assure everyone in this country – Republican, Democrat, Independent -- has the chance to enjoy the benefits of time in nature.

The outdoor recreation sector is surprisingly large. Americans spend hundreds of billions per year on gear, apparel, boats, ATVs, trips, adventure travel and more. The sector supports millions of jobs. Importantly, recreation opportunities are often the economic lifeblood in rural America, attracting tourists, retirees and entrepreneurs. It's an inspiring industry, tied to the land, not exportable. It's a sector that thrives alongside our public lands and shared natural resources. It thrives hand in hand with clean water, clean air and a healthy climate.

Late last month in Denver, the eight rec-sector leaders met as a group for the first time. There's consensus that spending time outdoors feeds the soul, heals wounds and brings us together. At the mini-summit, there was no notion of a red, blue or purple state. The group had a barn-raising spirit – a sense that they were defining policy goals bigger than themselves and even their home states. They agreed to meet again this summer in North Carolina in order to continue the work. We expect other states will join.

When REI opened its Flagship store in D.C. just before the 2016 elections, it did so under the banner "Left Side, Right Side, United Outside." That ethos holds true in our hometowns and special places, and that gives us extraordinary hope.

John Hickenlooper Jr. is an American politician, businessman and the 42nd and current governor of Colorado, in office since 2011. Jerry Stritzke is president and CEO of Recreational Equipment, Inc., commonly known as REI, an American specialty outdoor retailer and the nation's largest cooperative.

WE KNOW OUTDOORS

The OREC Movement: What you need to know

KENJI HAROUTUNIAN · NOV 20, 2017

Official Outdoor Recreation Industry Offices are blooming across the U.S. How can you—and your state—become part of the movement?

I'm just gonna say it: I want my home state of California to be the next state to announce the establishment of an Outdoor Recreation (OREC) Industry Office.

As an industry, we've been on a roll. Since Utah started the movement in 2013 by appointing Brad Petersen as the first ever OREC Director in the country, five other states (Colorado, Montana, North Carolina, Oregon, and Washington) now have similar offices and three have official task forces (Maryland, Wyoming, and Vermont) that serve the same purpose.

When Petersen took office, the idea of having a high-level government official devoted to the health and growth of the outdoor industry was a novel idea. Petersen was a Utah-based mountain guide, business owner, and stalwart insider in the Utah/Rockies climbing scene. His entry into politics was sudden, and he quickly learned that a title without a budget to work with made for hard trail-breaking.

AMERICAN OVERSIGHT

> "Without a job description, business plan or strategy I quickly realized that my role as the first State Director was to sell everyone on the need for the Office; to be the head cheerleader; to be the face for the concept. Selling counties and communities on the benefits was easy, but figuring out how to help them was not. Without funding to help communities develop new recreational assets my ability to make Utah a better place to live was very limited. Four years later we have secured $4m+ in annual funding." —Brad Petersen, the first ever OREC Director in the U.S., served Utah from 2013 to 2016

We've learned a lot since then, and it's making a difference. Momentum is building. States all around the country are recognizing that the outdoor industry is an economic powerhouse.

And we're making progress in California, where outdoor recreation accounts for $92 billion in consumer spending. Back in January of 2017, several other members of the outdoor industry (including Matt Lyon from Hydrapak, Katie Hawkins from Marmot, Jeff Turner from Kokotat, Dave Polivy from Tahoe Mountain Sports, and John Mead from Adventure 16,) and I started meeting as an ad-hoc group, sharing discoveries and giving ourselves homework. Then we found a champion lawmaker in Assembly Member Eduardo Garcia, of the 56 District. Once Garcia came on board, things got real pretty quickly. Having a legislative champion is one of the key elements of launching a state initiative where you live (see Roadmap to Outdoor Rec, below).

In fact, as I write this, I am in route to Sacramento, where one California champion, assemblyman Eduardo Garcia, will be attending a reception near the state capitol tonite (Nov. 20) to celebrate the passage of CA SB5 (a substantial $4BB Park Funding bill for CA). Garcia has introduced a bill himself, AB-907, to the House of Representatives that would create an office of OREC here. The bill will go to vote in spring of 2018, and all of us involved are optimistic. We're so close we can almost taste it.

> If you're a California business and want to help, we need you! Reach out to me to learn more: kenji@kenjiconsults.com.

We need more OREC offices. Here's why they matter.

They bring benefits to communities. Encouraging adventure through wild places brings economic prosperity to gateway communities, has minimum impact on ecosystem health and provides regular, predictable and 'sticky' locally spent dollars. This is in contrast with the boom/bust cycle seen in the 'old west' extractive economies (coal, oil, gas, mining) that have left many rural towns in economic retreat. Outdoor retailers and outfitters prosper and thrive near well-managed recreation resources. This story is unfolding in Appalachia, as well as other supporting gateway communities from Joshua Tree to the Gunks.

They create an investment funnel to support recreation and conservation collaborations to bolster or replace shrinking businesses (like logging in the Pacific Northwest or mining in Utah). A state office can work to draw in businesses and establish jobs and investment in the state. Ogden, Utah, is the poster child of successful redevelopment. Through the work of Mayor Godfrey (2010 era) and other key politicians, they turned a mining ghost town into a modern outdoor mecca, with over a dozen outdoor brands now with significant business hubs there (the entire Amer Group, Scott USA, QBP, and Osprey Packs to name a few).

AMERICAN OVERSIGHT

They unify different geographic and activity sectors. A state OREC office can make sure that efforts happening around different corners of the state are aligned (Colorado and Utah OREC directors both travel extensively within their state, reinforcing relationships). Shared resources like GIS (Geographic Information System) mapping software, marketing platforms and talent, and trail building equipment and expertise save time and money, and create more durable solutions. Blending local input with broader ecosystem level resource management is manageable at the state level, and a central office can also interface with nearby state's OREC leaders for cross-pollenating ideas and solutions.

They measure and promote health effects of recreating outdoors. As the 'Nature Rx' message spreads, a central state office can power coordinated education and engagement campaigns in diverse communities. School districts, neighborhood associations and families can get support in adopting healthy outdoor lifestyles proven to reduce stress, combat disease and extend life.

They build up the outdoor recreation economy that provides sustainable jobs, a stewardship mindset, and predictable tax revenues. Brands, retailers and outfitters will benefit by taking advantage of programs and close-to-home access support for employees and those in close-by communities.

Roadmap to Outdoor Rec

Do you want your state to establish an OREC office? I spoke with the majority of the current OREC officials at the recent SH/FT conference in Jackson Hole, Wyoming, to pull together these four steps on how you can get the ball rolling.

Step 1: Investigate. Is there already a movement you can join up with? A coalition of outdoor recreation businesses or a conservation non-profit that has assembled leadership? Don't reinvent the wheel. Tap your network or reach out to your industry association (Outdoor Industry Association) to get nosy. If you're interested in taking this first step, OIA is a great resource. Contact Cailin O'Brien-Feeney, who has been helpful in the California initiative and most of the other state-level actions across the country.

Step 2: Launch an informal or ad-hoc group. Begin meetings and learn who the outdoor recreation advocates in the state legislature are. Visit them in their home districts or at the state capitol. Use the OIA and the upcoming BEA economic data, and any map data you can show (Outdoor Alliance has a growing body of excellent maps and economic research, as does the Access Fund).

Step 3: Propose a formal working group to your governor, Economic Development director or Parks and Recreation Director. As in Wyoming's budding program, Once your working group/task force is sufficiently deep and inclusive, put a request in to the Governor's office to establish a formal study of the OREC situation in your state, and come up with recommendations for a deliberate growth path forward. If the governor won't budge, go after a friendly senator or house member. Also, at this point you'll need a real organization name and real people signed on to your real mission.

Step 4: Get a legislative champion to put something on the ballot for voters to consider funding sustainably, like the Rescue Card in UT or the designated office in MT (only funded for 2 years in the current iteration). A legislative champion can navigate and translate the wave of proposals and bills moving through the state body politic and put forward a bill out for consideration. Experienced lobbyists or staffers familiar with the running of state politics is helpful too.

Ride the wave

AMERICAN OVERSIGHT

The waves of the OREC movement are building: The Bureau of Economic Analysis (BEA) research is due out sometime in 2018, expected to closely match the industry's own research on OREC financial impacts nationwide. State level data will not be part of this first push to match OREC to GDP, so for those of you so motivated, that will be another (federal funding) initiative to anticipate supporting in the near future.

As a surfer friend of mine can't stop saying, "Gotta surf when the waves are up, dude." It's time for us all to go surfing.

Analysis of outdoor recreation industry finds its contribution to GDP larger than that of oil, gas extraction

UPDATED: Fri., Feb. 23, 2018, 4:30 p.m.

Backpacking anglers hike toward the high lakes of the Absaroka-Beartooth Wilderness plateau. (SR)

AMERICAN OVERSIGHT

By Eli Francovich
elif@spokesman.com
(509) 459-5508

A federal government analysis of the outdoor recreation's economic impact reaffirms what many conservation groups have said for decades. Outdoor recreation is a big business.

For the first time ever the U.S. Department of Commerce looked specifically at the economic impact of outdoor recreation. The analysis was published last week.

The analysis found that outdoor recreation contributed $373.7 billion to the nation's Gross Domestic Product in 2016, comprising 2 percent of GDP. In fact, the outdoor recreation industry's contribution to GDP was larger than that of all mining, including the extraction of oil and gas.

And the industry is expanding. In 2016, it grew 3.8 percent, compared to the overall economy's growth of 2.8 percent.

The report was released by U.S. Department of Commerce's Bureau of Economic Analysis on Feb. 14.
