I'll have someone look at it.

AHCA certified CLIA, so to the extent there are certification requirements, then we would need to be at least part of that process. Not sure if that warrants being part of the agreement though.

Subject: [External] FW: [EXTERNAL] FW: MOA for CST testing lab (UNCLASSIFIED)

Louise & Stefan,

Attached is the FLNG MOA for the testing machine between DOH and FLNG. Col. Bradford's team drafted it. Are these the right state parties to the MOA? The Colonel said the lab comes with some NG personnel, but they are not currently CLIA certified. Also, supplies and wrap-around services will need to be procured. Do you have any edits? If you have any questions, please let me know.

All,

Some logistics items to be addressed/questions to be answered about the lab, but don't necessarily need to be addressed in the MOA. These are logs/finc/management questions but worth noting and sharing internally.

1. Staffing the lab
 - a. How many lab techs are needed to operate the lab at full capacity.
 - b. The Colonel says the lab can test 500 samples per day, but is that in an 8, 12, or 24 hour period?
 - c. Currently the NG personnel are not CLIA certified; so lab techs will need to be procured – who pays for the lab techs (DOH, AHCA, DEM)
2. Testing materials
 - a. What materials are included with the lab (what not included)
 - b. What materials are needed to operate the lab at full capacity
 - c. Procuring those material that help the lab operate – who procures/pays for these material
3. Wrap-around services
 - a. What services are needed (ie, 24-hr security, food for staff, maintenance of lab, etc.)
 - b. Who pays for the wrap-around services (DOH, AHCA, DEM)?
4. Timing – It will take at least a week to get the lab.
5. Location – where to stage the lab – that's a logs/mgt decision
6. Other items??

Erik L. Saylor

Florida has a very broad public records law. Written communications to or from state officials regarding state business constitute public records. Public records are available to the public and media upon request, unless the information is subject to a specific statutory exemption. Therefore, any information that you send to this address, including your contact information, may be subject to public disclosure.

Erik

Attached is the draft MOA we discussed. Please let me know if you have any suggestions. I contacted LTC Eastman and asked what we would need and what we may receive to run this machine. The National Guard Bureau is still working those details as far as what PPE, pipets, kits, etc. may come with the machine. He will get back with me. NGB is sending 2 to NY, so we will have a good idea of what to expect based on what they receive. He did say this would not get to us for about a week even if we do get one.
