CITY COUNCIL

POLICY AND PROCEDURES FOR CONDUCTING OPEN PUBLIC MEETINGS AND PUBLIC PARTICIPATION BY MEANS OF COMMUNICATIONS MEDIA TECHNOLOGY ("CMT")

The intent of this policy is to provide the public with openness and transparency in government decision-making but also to comport with the executive orders and other guidance provided by the federal, state and City government, as well as the CDC and other healthcare professionals, to reduce large-scale exposure which could result when high numbers of individuals are gathered in one open location for a public meeting.

In furtherance of this goal, the Council adopts the following Policy and Procedures regarding public attendance and participation in public "open meetings" during the COVID-19 state of emergency (herein referred to as the "Emergency"), or other emergencies that may require meeting by communications media technology (herein "CMT") allowed by law.

Notices for Public Meetings:

- For any public meeting, hearing or workshop that is conducted by means of CMT (which includes but is not limited to telephone, videoconferencing or other web-based or technology platform), or if attendance may be provided by such means, the notice shall so state.
- The notice for public meetings, hearings and workshops utilizing CMT shall include the date, time and general substance of such meeting, as well as the internet website address or link from which the meeting will be broadcast and directions about how to access such website. The City may choose to provide facilities from which the meetings can be observed online; however, it is not required to do so. *Please note at this time that City offices and buildings are closed pursuant to Executive Order by the Mayor and the Council intends to comply with all recommendations of the Mayor concerning public building operations.*

Attendance by CMT of Council and Public at Meetings

- If members of the Council are not physically gathered in one location, i.e., Council Chambers, and the meeting is conducted by CMT, then members of the public must be able to join in the electronic conferencing or telephone in order to listen to or observe the meeting.
- If members of the Council are physically gathered for a meeting but cannot allow all members of the public to be present due to emergency limitations (including state and local states of emergency or shelter in place limitations or health distance restrictions), then the Council must take steps to allow members of the public to listen to or observe the meeting by telephone, website, videoconferencing, television broadcast or similar method. *Please note at this time that City offices and buildings are closed pursuant to Executive Order by the Mayor and the Council intends to comply with all recommendations of the Mayor concerning public building operations.*
- There must be a method for distributing or publishing any agenda or other written materials that ordinarily could be picked up in person by members of the public attending the meeting. Any materials that are planned to be discussed at the meeting can be posted to the Council's webpage in advance of the meeting such as agendas, agenda packets or presentation materials. The

AMERICAN OVERSIGHT
FL-DUVAL-20-0723-A-000016

procedures for obtaining such materials should be referenced in the notice for the meeting or on the Council's webpage prior to the beginning of the meeting.

Procedures for Action at Public Meetings

- When the public is attending a public meeting by CMT, the Council, through the Council President and Floor Leader, must take steps to help the public understand the proceedings. For example, each speaker in the meeting should identify himself or herself by name before speaking so that remote listeners or observers know who is speaking. Likewise, the bill number and each motion on a particular bill (motion to amend, withdraw, etc.) should be clearly stated prior to each vote on a motion and the vote tally on the final vote announced after the vote. Any documents that are discussed during the meeting should also be identified for those listening or observing.
- Unanimous consent for amendments, *Roberts Rules of Order*. In cases where there appears no opposition to a matter, time can be saved by the procedure of "unanimous consent." Unanimous consent can be used to adopt a measure without a motion or second, but by consent, as long as there is no objection from a Council Member. If any Council Member objects, the traditional process of voting will occur. Any Council Member wanting to amend the amendment, or have further changes, can object. The Council Committees and Council Meetings will use this *Robert Rules* procedure during the Emergency for approving amendments and substitutes in order to avoid a roll call vote on each amendment or substitute. Should any Council Member object then the amendment will be voted upon by roll call vote, prior to proceeding to the bill as amended.

Public Hearings and Public Participation

- Public Hearings Continued; Public Hearing Procedures. All public hearings (both quasi-judicial and non quasi-judicial) scheduled through April 14, 2020 before the City Council or the Committees are continued until they are closed by the City Council or applicable Committee. During the term of the Emergency, the Council President or a Committee Chair may limit public hearings that are required to remain open for items that are being deferred to a later date, so long as the public hearing is held immediately prior to City Council or Committee final action. Evidence and testimony may be submitted any time through the public participation/public hearing email address provided for each Council cycle.
- Findings regarding Quasi-Judicial hearings. Applicants may request deferral of quasi-judicial matters until the conclusion of the Emergency. If an applicant chooses to proceed with a quasi-judicial matter using the emergency procedures provided herein, the applicant acknowledges that these procedures may be subject to legal challenge by an affected party. Such acknowledgment shall appear on the face of the Land Use and Zoning Committee Agenda throughout the term of the Emergency. Council Members may request deferrals of specific applications due to the emergency.
- Pursuant to Council Rule 2.201, Committee Chairs are authorized to schedule separate CMT meetings for any items on their agendas, as often as the Chair, at his or her discretion, desires. Notices for such special meetings shall comply with the language herein regarding notices.
- For matters which have state-mandated public hearings pursuant to Chapter 166, Florida Statutes, and the Jacksonville Ordinance Code, including quasi-judicial matters and those items which fall under the public participation requirements of Section 286.0114, Florida Statutes, the Council must allow for the public to provide their comments by participation in the CMT meeting or by electronic mail, written comment, or other stated method, as applicable. Instructions for the public as to the methods of communication should be provided in the notice. These communications from the

AMERICAN OVERSIGHT

public shall be read into the record (up to the 3 minute time limit) prior the Council taking action on the item provided that the public statement must be sent to a proscribed address within the time permitted (for instance, the first email address created for comments is ccmeeting04142020@coj.net and others email addresses will be created using future Council meeting dates). For statements sent for a regular noticed Council meeting scheduled for 5:00 p.m. or later, the statement must be received by 12:00 noon the day of the Council meeting. For special Council or Council committee meetings set for times prior to 5:00 p.m., the statement must be received by 2:00 p.m. the prior business day. So for example, if individuals want to submit comments to committee meetings, they would use the same email address for Council meetings and submit their comments for Monday committee meetings by 2:00 p.m. the Friday prior to committee meeting occurring on Monday or for Tuesday committee meetings, 2:00 p.m. the Monday prior to the Tuesday committee meetings.

- All evidence, testimony and argument presented to the Council shall be afforded equal consideration, regardless of the method of communication.
- Since other public comment is not statutorily required, the Council will provide a method for public comment during the COVID-19 state of emergency but it will not be live at the Council meeting. However, the ability for alternate means of the public to communicate with elected officials shall be provided.

General Provisions

- As always, pursuant to the American with Disabilities Act, persons with disabilities can receive reasonable accommodations by contacting the Disabled Services Division in advance of the meeting to seek assistance.
- There must be no cost for the public to access the meeting.
- The audio or video recording of the meeting shall be posted to the Council's webpage so that members of the pubic who could not participate at the time of the actual meeting can later review what occurred.
- Streaming of Council meetings is encouraged but not required.

HOW TO OBSERVE & PARTICIPATE IN CITY COUNCIL MEETINGS DURING THE COVID-19 STATE OF EMERGENCY

During the COVID-19 State of Emergency, the City of Jacksonville is taking steps to keep local government open and accessible to the public while also protecting the health, safety and welfare of the community. The Governor of Florida issued Executive Order 20-69 allowing local city governments to hold public meetings using telephones or computers. Until it is safe to gather at City Hall again, City Council meetings will be held virtually. Below you will find a step-by-step guide to observing and participating in this new meeting format.

Step 1: Find the Meeting Notice on the City's Homepage

City Council meeting notices can be found on the City's calendar (Click on "All Events") on the main homepage at www.coj.net. Meeting notices will include the topics to be covered, the date and time of meetings, instructions for accessing the virtual meeting room via the app and phone, and instructions for making public comment if applicable. Additionally, any meeting materials that would typically be distributed at the meeting will be posted on the City Council's website prior to the meeting.

Step 2: Familiarize Yourself with the Zoom Program

Zoom is available for free at https://zoom.us/. The program will allow you to observe City Council meetings as they happen. If you sign-in using your computer, you will see video of the City Council members from their offsite locations. You can also use your phone to call-in and listen to the audio as it happens. If you are using Zoom for the first time, please give yourself time before the meeting starts to download the app or create an account. If you miss the meeting, do not worry! Recordings of City Council meetings will be available on the City Council's website after the meetings occur.

Step 3: Provide Public Comment from Home

The meeting notice will provide information and instructions so that you can provide your comment on public issues. Please know that informational meetings may not include a public comment time but this will be clear in the meeting notice. If you do not find information regarding public comment in the meeting notice, you can reach out to the meeting contact whose information is found at the bottom of the notice. You can also call the City's helpline, 630-CITY. Comments there are shared with the proper officials and tracked along with all of the other calls on the same topic.

Please have patience. This is a time of learning for us all! We are also learning and expect there may be some mistakes as we move forward together in these challenging times. Please help us improve our process by submitting feedback and suggestions to ethics@coj.net.

CITY COUNCIL

POLICY AND PROCEDURES FOR CONDUCTING OPEN PUBLIC MEETINGS AND PUBLIC PARTICIPATION BY MEANS OF COMMUNICATIONS MEDIA TECHNOLOGY ("CMT")

The intent of this policy is to provide the public with openness and transparency in government decision-making but also to comport with the executive orders and other guidance provided by the federal, state and City government, as well as the CDC and other healthcare professionals, to reduce large-scale exposure which could result when high numbers of individuals are gathered in one open location for a public meeting.

In furtherance of this goal, the Council adopts the following Policy and Procedures regarding public attendance and participation in public "open meetings" during the COVID-19 state of emergency (herein referred to as the "Emergency"), or other emergencies that may require meeting by communications media technology (herein "CMT") allowed by law.

Notices for Public Meetings:

- For any public meeting, hearing or workshop that is conducted by means of CMT (which includes but is not limited to telephone, videoconferencing or other web-based or technology platform), or if attendance may be provided by such means, the notice shall so state.
- The notice for public meetings, hearings and workshops utilizing CMT shall include the date, time and general substance of such meeting, as well as the internet website address or link from which the meeting will be broadcast and directions about how to access such website. The City may choose to provide facilities from which the meetings can be observed online; however, it is not required to do so. *Please note at this time that City offices and buildings are closed pursuant to Executive Order by the Mayor and the Council intends to comply with all recommendations of the Mayor concerning public building operations.*

Attendance by CMT of Council and Public at Meetings

- If members of the Council are not physically gathered in one location, i.e., Council Chambers, and the meeting is conducted by CMT, then members of the public must be able to join in the electronic conferencing or telephone in order to listen to or observe the meeting.
- If members of the Council are physically gathered for a meeting but cannot allow all members of the public to be present due to emergency limitations (including state and local states of emergency or shelter in place limitations or health distance restrictions), then the Council must take steps to allow members of the public to listen to or observe the meeting by telephone, website, videoconferencing, television broadcast or similar method. *Please note at this time that City offices and buildings are closed pursuant to Executive Order by the Mayor and the Council intends to comply with all recommendations of the Mayor concerning public building operations.*
- There must be a method for distributing or publishing any agenda or other written materials that ordinarily could be picked up in person by members of the public attending the meeting. Any materials that are planned to be discussed at the meeting can be posted to the Council's webpage in advance of the meeting such as agendas, agenda packets or presentation materials. The

AMERICAN OVERSIGHT

procedures for obtaining such materials should be referenced in the notice for the meeting or on the Council's webpage prior to the beginning of the meeting.

Procedures for Action at Public Meetings

- When the public is attending a public meeting by CMT, the Council, through the Council President and Floor Leader, must take steps to help the public understand the proceedings. For example, each speaker in the meeting should identify himself or herself by name before speaking so that remote listeners or observers know who is speaking. Likewise, the bill number and each motion on a particular bill (motion to amend, withdraw, etc.) should be clearly stated prior to each vote on a motion and the vote tally on the final vote announced after the vote. Any documents that are discussed during the meeting should also be identified for those listening or observing.
- Unanimous consent for amendments, *Roberts Rules of Order*. In cases where there appears no opposition to a matter, time can be saved by the procedure of "unanimous consent." Unanimous consent can be used to adopt a measure without a motion or second, but by consent, as long as there is no objection from a Council Member. If any Council Member objects, the traditional process of voting will occur. Any Council Member wanting to amend the amendment, or have further changes, can object. The Council Committees and Council Meetings will use this *Robert Rules* procedure during the Emergency for approving amendments and substitutes in order to avoid a roll call vote on each amendment or substitute. Should any Council Member object then the amendment will be voted upon by roll call vote, prior to proceeding to the bill as amended.

Public Hearings and Public Participation

- Public Hearings Continued; Public Hearing Procedures. All public hearings (both quasi-judicial and non quasi-judicial) scheduled through April 14, 2020 before the City Council or the Committees are continued until they are closed by the City Council or applicable Committee. During the term of the Emergency, the Council President or a Committee Chair may limit public hearings that are required to remain open for items that are being deferred to a later date, so long as the public hearing is held immediately prior to City Council or Committee final action. Evidence and testimony may be submitted any time through the public participation/public hearing email address provided for each Council cycle.
- Findings regarding Quasi-Judicial hearings. Applicants may request deferral of quasi-judicial matters until the conclusion of the Emergency. If an applicant chooses to proceed with a quasi-judicial matter using the emergency procedures provided herein, the applicant acknowledges that these procedures may be subject to legal challenge by an affected party. Such acknowledgment shall appear on the face of the Land Use and Zoning Committee Agenda throughout the term of the Emergency. Council Members may request deferrals of specific applications due to the emergency.
- Pursuant to Council Rule 2.201, Committee Chairs are authorized to schedule separate CMT meetings for any items on their agendas, as often as the Chair, at his or her discretion, desires. Notices for such special meetings shall comply with the language herein regarding notices.
- For matters which have state-mandated public hearings pursuant to Chapter 166, Florida Statutes, and the Jacksonville Ordinance Code, including quasi-judicial matters and those items which fall under the public participation requirements of Section 286.0114, Florida Statutes, the Council must allow for the public to provide their comments by participation in the CMT meeting or by electronic mail, written comment, or other stated method, as applicable. Instructions for the public as to the methods of communication should be provided in the notice. These communications from the

AMERICAN OVERSIGHT

public shall be read into the record (up to the 3 minute time limit) prior the Council taking action on the item provided that the public statement must be sent to a proscribed address within the time permitted (for instance, the first email address created for comments is ccmeeting04142020@coj.net and others email addresses will be created using future Council meeting dates). For statements sent for a regular noticed Council meeting scheduled for 5:00 p.m. or later, the statement must be received by 12:00 noon the day of the Council meeting. For special Council or Council committee meetings set for times prior to 5:00 p.m., the statement must be received by 2:00 p.m. the prior business day. So for example, if individuals want to submit comments to committee meetings, they would use the same email address for Council meetings and submit their comments for Monday committee meetings by 2:00 p.m. the Friday prior to committee meeting occurring on Monday or for Tuesday committee meetings, 2:00 p.m. the Monday prior to the Tuesday committee meetings.

- All evidence, testimony and argument presented to the Council shall be afforded equal consideration, regardless of the method of communication.
- Since other public comment is not statutorily required, the Council will provide a method for public comment during the COVID-19 state of emergency but it will not be live at the Council meeting. However, the ability for alternate means of the public to communicate with elected officials shall be provided.

General Provisions

- As always, pursuant to the American with Disabilities Act, persons with disabilities can receive reasonable accommodations by contacting the Disabled Services Division in advance of the meeting to seek assistance.
- There must be no cost for the public to access the meeting.
- The audio or video recording of the meeting shall be posted to the Council's webpage so that members of the pubic who could not participate at the time of the actual meeting can later review what occurred.
- Streaming of Council meetings is encouraged but not required.

HOW TO OBSERVE & PARTICIPATE IN CITY COUNCIL MEETINGS DURING THE COVID-19 STATE OF EMERGENCY

During the COVID-19 State of Emergency, the City of Jacksonville is taking steps to keep local government open and accessible to the public while also protecting the health, safety and welfare of the community. The Governor of Florida issued Executive Order 20-69 allowing local city governments to hold public meetings using telephones or computers. Until it is safe to gather at City Hall again, City Council meetings will be held virtually. Below you will find a step-by-step guide to observing and participating in this new meeting format.

Step 1: Find the Meeting Notice on the City's Homepage

City Council meeting notices can be found on the City's calendar (Click on "All Events") on the main homepage at www.coj.net. Meeting notices will include the topics to be covered, the date and time of meetings, instructions for accessing the virtual meeting room via the app and phone, and instructions for making public comment if applicable. Additionally, any meeting materials that would typically be distributed at the meeting will be posted on the City Council's website prior to the meeting.

Step 2: Familiarize Yourself with the Zoom Program

Zoom is available for free at https://zoom.us/. The program will allow you to observe City Council meetings as they happen. If you sign-in using your computer, you will see video of the City Council members from their offsite locations. You can also use your phone to call-in and listen to the audio as it happens. If you are using Zoom for the first time, please give yourself time before the meeting starts to download the app or create an account. If you miss the meeting, do not worry! Recordings of City Council meetings will be available on the City Council's website after the meetings occur.

Step 3: Provide Public Comment from Home

The meeting notice will provide information and instructions so that you can provide your comment on public issues. Please know that informational meetings may not include a public comment time but this will be clear in the meeting notice. If you do not find information regarding public comment in the meeting notice, you can reach out to the meeting contact whose information is found at the bottom of the notice. You can also call the City's helpline, 630-CITY. Comments there are shared with the proper officials and tracked along with all of the other calls on the same topic.

Please have patience. This is a time of learning for us all! We are also learning and expect there may be some mistakes as we move forward together in these challenging times. Please help us improve our process by submitting feedback and suggestions to ethics@coj.net.

(Rules Amendment)

There was a lengthy discussion on this bill, which appropriates $5,000,000 of CARES Act funds previously appropriated in Ordinance 2020-235-E to reimburse the city for the cost of the Building Inspection Fee Moratorium. Instead those funds will be directed to help local residents impacted by COVID 19 economic effects.CM Dennis was in attendance as the bill's sponsor. CM Newby proposed an amendment to specify that the funds would go to the mortgage/rent relief program, which was approved by the committee. Several council members spoke of the urgent need for financial support amongst their constituencies. When asked about the amount of applicants on the waiting list, Joey Grieve, CFO, said he would report back. The funds to be provided by the CARES Act have not been received yet by the City.

Status update: Peggy Sidman, Office of General Counsel

Peggy Sidman, Office of General Counsel, provided a status update on the council rules which had been the focus of the Rules Committee this year. Topics included: voting procedures when absent from chambers, substitute motions, "friendly" amendments, adding names to bills as a co-sponsor, point of order, public speaker cards, widowed bills and withdrawal motions.

CM Newby and Ms. Sidman discussed the process for getting legislation added to the addendum of the agenda for council meetings. Essentially, if a bill is submitted after the deadline (Wednesday afternoon of committee week) then the council president may decide to put it on the addendum or wait for the next cycle.

Public comment

Two members of the public spoke in strong support of 2020-0244 and equal rights protections.
One member of the public questioned the wording of 2020-0244.

Hi Debbi
Well that's even more of a reason to get a meeting on the books with Cumber!
When is her availability next week?
Would she be willing to let me live feed our chat on my Jax Small Business Facebook page. We have about 1500 members who I know would want to tune in? They can send me in their questions to ask her.
Look forward to your reply,
Brandi Hill

Thank you for calling me last night.
When I spoke to Asbury about these sole proprietor $1000 gift cards early last week, he made no mention of United Way. We were also looking at 40,000 cards.
A lot has changed.
Below are the questions we will be asking at the meeting if you can clarify anything now, that would be great.
To: Council Members
From: Jacksonville's Small Businesses (sole-proprietors, self-employed, freelancers, contractors)
THIS DOES NOT HELP SMALL BUSINESSES IT HELPS COMMERCIAL LANDLORDS.
1. While we are thankful, $1000 is not much to a small business owner. For the 25% of us with storefronts, $1000 won't put a dent in even one month's rent.
2. If paying rent and utilities are the only uses for this $1000, you should rather call this the Commercial Landlord Stimulus Grant, no?
3. Please remove the "Brick & Mortar" and "rent" requirement. It only helps commercial landlords NOT 75% of America's businesses who do not have a storefront or commercial rent (Census, 2016).
4. 75,000 Jacksonville sole-proprietors haven't' made a dime in two months. We are tired of the games. Why are now our council members USING US to deliver $1000 to the city's commercial landlords then packaging it as "Helping small businesses?" Is there some unspoken connection or relationship between council members and the city's landlords? We are busy business owners. We are not in the business of delivering gifts.

AMERICAN OVERSIGHT

5. Commercial landlords impacted by COVID19 should visit SBA.gov or Vystarcu.org and apply for funding (just like their tenants did). The CARES Act guarantees landlord's mortgage deferral options- if they are not satisfied with that, they should contact their Senator.
6. The commercial mortgage industry should not be my local government's concern. They have highly paid lobbyists advocating on their behalf; their bailout is no doubt, in the pipeline, as it always is.

UNITED WAY

1. $9M / 75,000 Jacksonville Sole Proprietors = $120 Each? How exactly does United Way Fit into this? According to the 2016 Census, there are 75,000 sole -proprietors, self-employed, contractors, and freelancers in Jacksonville.
2. Why are we giving money intended for Jacksonville's Small Businesses to United Way?
3. What is the total amount of donations, State, and Federal funding the United Way has received as a result of COVID19?
4. Is United Way a "local" small business? Is United Way's AGI under $75,000? Is the United Way at-risk for closing? Does United Way specialize in helping small businesses?

LET US STIMULATE OUR ECONOMY:

1. This will be the first income most of Jacksonville's small businesses will have received in over two months HOW DARE the city council claim they are "granting us $1000" then mandate we fork our money over to landlords.
2. Remove "Rent" and "Utilities" from the title of this grant. We know how to spend our own. We pay those who we are most connected to FIRST, in many cases, this may be our landlords, or our contractors (who are also business owners), our service providers (also, business owners). This is how WE stimulate OUR economy.

DON'T JUST SAY "YOU LOVE SMALL BUSINESSES" SHOW US!

1. The worst time to say "you love small businesses" is while you are voting for a bill that does not help us
2. These funds are earmarked to help small businesses who fell through the cracks of Fl Unemployment, SBA loans, and the Vystar Loan. The "little guys." The little guys who do not donate to your campaign nor vote for you because they think you are corrupt and put your buddies before them. Please advocate for Jacksonville's 75,000 sole-proprietors at the same level of intensity as you do about the JEA scandle.

WE WANT WHITE GLOVE SERVICE TOO:

1. The application process to access these funds should be no different than the white-glove service those businesses lucky enough to access the Vystar funds are receiving. We should be processed on a first-come, first-serve basis through email.
2. Required Documents should be basic (just like the Vystar Program), State ID, last filed tax return (2018 or 2019) reflecting business or self-employment (K-1, 1099, or schedule C) and profit/AGI reflecting less than > $75,000 AGI. THIS IS ALL!
3. We should have the option of completing a direct deposit form.
4. We are capable of business owners. We can print, sign, email your certification forms along with any release of liability form consenting to the risk of sending our personal information over email.
5. If gift cards are your only option, why? Can the city assure car recipients, their personal data (demographic, spending history) will not be sold or shared with data-mining companies? Who is this card company that is facilitating the gift cards? How did the city select them? Can we opt for a physical check?

Hi Debbi
Well that's even more of a reason to get a meeting on the books with Cumber!
When is her availability next week?
Would she be willing to let me live feed our chat on my Jax Small Business Facebook page. We have about 1500 members who I know would want to tune in? They can send me in their questions to ask her.
Look forward to your reply,

Thank you for calling me last night.
When I spoke to Asbury about these sole proprietor $1000 gift cards early last week, he made no mention of United Way. We were also looking at 40,000 cards.
A lot has changed.
Below are the questions we will be asking at the meeting if you can clarify anything now, that would be great.

From: Jacksonville's Small Businesses (sole-proprietors, self-employed, freelancers, contractors)

THIS DOES NOT HELP SMALL BUSINESSES IT HELPS COMMERCIAL LANDLORDS.
While we are thankful, $1000 is not much to a small business owner. For the 25% of us with storefronts, $1000 won't put a dent in even one month's rent.

Subject: Public Comment Vote NO on 2020-244
Dear City Council,
I am writing for public comment at the May 12th council meeting asking you to vote NO on 2020-244 LGBT rights HRO law.
This is is fourth time in eight years this proposal has been considered by the city council. This council knows me and knows I have been one of the most adamant and vocal opponents of this law. I do not know of much more I could say to you in the short time I have a lotted to speak to you.
After years of pleading with you, sharing sound biblical and spiritual advice and the testimony of the thousands opposed to this, you passed the now court voided law February 14th 2017. After the vote that night I read to you the warnings of proverbs 1 to no avail.
In 2016 the council had the votes to pass the HRO, and only waited because of political plans and timing of the powers that be, however that year our city was hit with a hurricane. After passing the HRO in 2017, that year we were hit with another hurricane and our city suffered the worst flooding in our lifetimes. Violent crime and murder skyrocketed out of control. Wicked and deceitful leaders conspired to profit financially and politically from the sale of JEA, which has

AMERICAN OVERSIGHT

been exposed and turned into one of the biggest scandals in our cities history. There have been several sexual related crimes occur in restrooms in our area since HRO was passed. Last year we even saw the push for drag queen story hour at public libraries in Jacksonville.
Many warned of these consequences, but this council ignored them, and according to media quotes this bill's sponsors are ignoring these facts and dismissing those that warned of these things as false doomsday predictions. Yet here we are in the middle of one of the worst crisis in our lifetimes and in one weeks time of the court striking down this law our city council finds it the most urgent issue during this crisis to re-file such a bill. One of the most controversial bills the council has dealt with in our lifetime and this bills sponsors demand to pass this again, during the time of crisis when the general public is not even aware of what's going on and cannot even fully participate in the process to voice their opposition. It is sad to know that the current crisis has not awakened this council to biblical truths and the signs of time we are living in. I pray you will read the book of revelations in the King James bible and let it open your eyes to what's happening and that you will repent before it's to late.
In the Meantime, I will faithfully be educating the public on this matter.
Please Vote NO on 2020-244, and May God forgive us and have mercy on our city.

Subject: HRO 2020-0244
Dear member of city council,
I hope you are well during this very critical time for our city.
Let me get to the point...Jacksonville citizens have been battling Covid 19 quarantines, homeschooling, sick family members, economic hardships and coping with new "norms". They have also been watching the news of Mayor Curry and JEA being investigated with very serious charges...
And in all of this chaos our city council wants to shove the LGBTQ Human Rights Ordinance down the throats of the unassuming voters AGAIN??
Only NOW the council wants to pass it without citizens able to comment in person...??
Hmmmmm....I wonder why...
Come on!!!
HOW MANY TIMES DOES THIS TERRIBLE LEGISLATION HAVE TO BE DEFEATED??
HOW MUCH MORE TIME NEEDS TO BE WASTED ON THIS??
I challenge you, council member, to please think...IF YOU BELIEVE THIS IS A GREAT ORDINANCE FOR JACKSONVILLE...THEN...
PUT IT ON THE BALLOT!!
LET THE PEOPLE WHO PUT YOU IN OFFICE AND PAY YOU DECIDE!!
WE ARE STILL A DEMOCRATIC REPUBLIC, RIGHT???
DO WE STILL HAVE A BILL IF RIGHTS AND A CONSTITUTION??
THEN LET'S DO THIS!
LISTEN TO THE CITIZENS...
LET ALL OF US VOTE ON HRO 2020-0244!
I thank you for your service to our community and I am praying for you to do right by ALL the citizens of Jacksonville, in Jesus' name!

I am a registered Florida voter and have lived in the 32223 zip code for over 25 years. I oppose the LGBT bill, 2020-244 HRO. I do not agree for recognizing or granting SPECIAL protection for someone on the basis of their sexual preferences or identity that sets them outside of the rights of any other human being in the county. This is not common sense and it is not necessary.

To my Councilmen,
I am asking that you vote against the HRO due to the fact it will put men in women's bathrooms and dressing rooms if more than single use. It will still make it possible that boys can shower in a girls locker room in many places, and it will force Christian businesses that are larger than 15 employees have to go against their convictions/faith. Thank you for taking my views into consideration.

Subject: Public Comments Regarding Redrafted Human Rights Ordinance
Dear Councilmembers,
As a local Christian business owner whose family has done business in Jacksonville since 1975, it deeply concerns me that the Jacksonville City Council may potentially pass (once again) this very dangerous and (once again) poorly drafted ordinance.
Because the rhetoric has been historically toxic on both sides, I've tried to approach this issue from 3 sides, while attempting to leave my religious world view at the door.
Number one, although more descriptive than the 5 page last draft, this selective human rights ordinance is only 18 pages long and is essentially incomplete. It leaves out the definition of religious organizations that it claims to exempt. It doesn't define transgender, or deal with issues like those who are non-binary or gender fluid. It also leaves the city's general counsel as the only one to define these key issues and describe the punishments (codification) associated with failure to follow the rules, rules that have not been put in place yet. Everyone made fun of Nancy Pelosi for saying we needed to pass the Affordable Care Act to figure out what's in it. In this case it's been said let's pass this so that the general counsel can actually finish writing it. So primarily, I oppose it because it's poorly thought out, incomplete legislation that does not consider the unintended consequences.

AMERICAN OVERSIGHT

Secondarily, I oppose it because it removes protection for several groups while giving protection to another. This is not a human rights ordinance. This is a LGBTQ ordinance. It exchanges the freedoms of those operating their businesses by their sincerely held religious beliefs, and provides new freedoms to those who have publicly threatened to sue anyone not celebrating their lifestyle. If you doubt that, you need not look very far across the country for hundreds of examples. If our city is going to be an environment where business can thrive, it must be inclusive of those sincerely held beliefs; whether they be of any or no faith at all. The council's responsibility is to draft something that offers equal protection for everyone. Not one group at the expense of another. Liberty goes both ways.
Lastly, my opposition to it is due to the fact that I don't like additional unnecessary regulations. The equal employment opportunity commission and the fair housing act already protect from discrimination for groups in the case of gender identity. This piece of legislation would only restate what has already been put in place. Our city has added additional verbiage to employment documents rectifying areas where there were no protections for people of different views. There's no need for this human rights ordinance because of the protections already afforded. Yet it has continually been pushed forward as necessary.
I see this issue from a different world view than others, but I'm trying to look at it strictly on the merits of the bill. That's why I have opposed it in the past, and will continue to do so. As the owner of a small business in Jacksonville, I recognize the way it is currently written will reduce business growth and set up business people for potentially dangerous lawsuits.
On February 8, 2017, WJCT ran a live televised discussion on the issue with myself and 5 other individuals (3 for and 3 against). There was not a single ounce of evidence that our city needed this ordinance presented by those for it. However there was a mountain of evidence against it. If you haven't seen it, here is the link...
http://www.wjct.tv/video/2365952715/
I highly encourage you to watch it.
Please vote against this dangerously incomplete, unnecessary, and unbalanced ordinance. What you do now will be a reflection of your leadership (or lack thereof) and will be remembered by those who elected you. Please consider wisely your next steps.
Thank you for your consideration.
Very Sincerely,
Harry Lewis, Jr

Subject: Law 2020-244
Please delay the vote on this, all our best focus should be directed to overcoming the covid-19 setback at this critical time. And this topic requires more thought as to who is victimized.
This law as written can victimize people who see the application of sexual orientation or gender identity as a private matter and not an intrinsic characteristic to be protected under well thought out civil liberty laws.
All of us are subject to the right fit in an organization that employs. I myself have understood that employers are looking for right fit as I too as as a job seeker was always looking for right fit to the management style or personality of an organization. We do spend over 35% of our waking hours in the workplace so fit is important to the psychological bearings of all in a workplace.
This law can ham string an organization's ability to find the right candidate and to perpetuate an environment that generates safety for all, empowerment of potential, creativity of ideas, and trust. There are many jobs of many varieties and characteristics that can attract and be filled by those you are trying to protect. They like most of us, can seek employment elsewhere or compromise a bit to the benefit of everyone.
This injection of government into our lives can be a tyranny to conservatives and diminish our free speech, our freedom to associate, and our safety- I.e. genetic males in bathrooms sanctioned for females-who warrant protection. We are thankful for laws that protect our intrinsic rights but this law is introducing division; our rights need to be protected too.
I am in Duval County one day per week transacting and would be affected by this liberal legislation.
Thank you,

Subject: Civil and Criminal Liability in Gender Identity Law Proposal
Dear Sirs and Madams,
Currently, if a predatory male assaults a woman in a woman's restroom on private property the city government would not have any liability stemming from such an assault. If a woman is assaulted by the same male under the gender identity changes you are proposing then you are condoning and approving the presence of that male. You will not be able to police whether possible male perpetrators are in a woman's public restroom exercising "gender identity rights" or are in the restroom for nefarious reasons. If a woman in my family was assaulted in the public restroom of a private business by a man that was legally allowed to be there by the City of Jacksonville I would sue the city.
In order to solve the above stated problem businesses would need to build additional restrooms which would be an undue burden on businesses and, frankly, is an over reach of government.
NO OTHER protected class of citizens requires separate facilities to insure the safety of women and children.
Please vote NO to amend the equal protection law. Do NOT add gender identity.

AMERICAN OVERSIGHT

Thank you.
Respectfully,
Helen Schultz

Subject: I ardently OPPOSE the HRO law to be voted on today!
As a mother and grandmother I have strong objections to allowing opposite sex individuals into private places such as bathrooms, locker rooms. I have daughters and granddaughters, and I do not want some 30 year old man who prefers to be called a woman to infringe our our rights of privacy. In allowing this small segment of society to have free access just because of their propensity is against the majority in a civil society. It causes the majority's rights and protections to be eliminated. Just because one may PREFER and have a propensity to speed when driving, it does not give them the right to go 55 in a 25 mile per hour zone. Other people's safety and concern would be jeopardized. Even so, the LGBT sector should not demand the right to impose their preferences on the rest of society. It can bring harm to the emotional and possibly physical well being of children and adults.

Subject: Public Comment May 12
My name is Nathan DiPietro (address 7624 Hovering Mist Way in Duval County).
I want to address the recently refiled revisions to our city's Human Rights Ordinance (HRO). To begin, both supporters and opponents agree that this is a bill with massive implications for our city. In prior years, the people of Jacksonville have made clear that they want a voice on this important issue.
When similar bills were introduced in previous years, thousands upon thousands from across our city contacted their representatives to state their support or opposition for the legislation; most of the communications, by the way, opposed the law. The bills were almost certainly the most controversial bills ever introduced into this body. The people showed that they wanted a voice in our representative democracy.
Now, here we are; our nation is facing a global pandemic and this controversial bill is being put forward yet again. Families are focused on how their mortgage will be paid next month, where they will work in a week, and how they will feed their children tonight. Is it possible that this bill has been introduced at this unparalleled time in history because certain council members want to force it through without real input from their citizens? If they do care about input on this important bill, why would they not wait at least until city council meetings are held at City Hall? Why not wait until the citizens of Jacksonville can speak face-to-face with those they elected? Remember that the majority of the current council members were not in office when the city voiced its opinion in 2012, 2016, and 2017. If you care how the citizens view this law, put it to a referendum.... Or, at least wait until after this international virus crisis comes to an end. I am willing to discuss the merits and problems of this law, but right now IS NOT THE TIME FOR DEBATE NOR IS IT TIME FOR HASTY AND SECRETIVE ACTIONS. Remember JEA?
I am going on record tonight requesting a personal meeting with each of you to discuss the implications of this law. I hope you are willing and I look forward to speaking with you more.

Subject: PROPOSED ORDINANCE 2020-0244 (HRO) . . . IT IS PROPER TO BE DECIDED BY JACKSONVILLE VOTERS
The question of the HRO has been before Jacksonville for more than 8 years.
The impact of the HRO will have great consequence on the entirety of Jacksonville.
Each of you, as members of this City Council, have established a precedent that Jacksonville voters are the proper deciding body regarding questions of similar magnitude when Council established the Public Referendum for the now-failed attempt to sell JEA.
It is right and proper that the outcome of the HRO, having the same magnitude of impact on Jacksonville as the sale of JEA, be determined by the voters of Jacksonville.
I urge you to take the right and proper course of action . . . . let the voters decide.
Respectfully,

Subject: HRO 2020-0244
Dear City Council Members,
I am a resident of Jacksonville and have practiced law here for 35 years. In light of the 1st DCA opinion striking down the previously passed HRO bill I want to express my opposition to the new HRO 2020-0244 currently before the Council. It is clear that this ordinance is flawed especially in its application to “gender identity” to businesses in Jacksonville. I have spent my career representing injured persons who were the victims of negligence. Forcing businesses to allow men who “identify” as female to enter public restrooms and other places that should be regarded as private and safe is dangerous and just plain wrong. I would strongly urge you to vote no to this ordinance. It needs to be totally rewritten with public comments allowed. Passing the ordinance in this manner smacks of impropriety on the part of the council.

Subject: Bill 2020-244
We will not have anything such as this to rule over this territory. The “this” in question is the entire attempt to rule over the Northeast Florida Territory by the LGBT community with so-called Human Rights Ordinances. Perception is not necessarily reality or truth. I may “perceive” that I am a male. The reality is that I was born a female: That is my biological identity and will remain so until I die. Transgenderism, or “perceived sexual identity versus biological identity” is unprecedented in human history. Once again, hellish confusion takes the stage. You council members who endorse this bill: Welcome to the ship of fools.
And so, I urge the council members backing 2020-244 to continue on. Dig the hole deeper. Then, like Adolf Eichmann’s famous quote, “Leap into your graves,” with the knowledge that you are complicit in the destruction of over 500,00 children who disappear in the United States each year, into tunnels beneath cities, their terrorized, adrenalin-filled blood drunk by the puppet masters of pedophilia and human trafficking. Those of you on the council who endorse this bill: Keep pandering. Let the wicked grow more wicked and let the righteous grow more righteous.

Subject: New HRO
Hello,
All of you know me and my values. Please reconsider the new HRO ordinance. Why would you want to allow men to go into the same bathroom as a little girl? This is totally unbelievable. Why would you allow a Transgender male to go to a public library, dressed up as something unbelievable , and have a class about being gay to young children??
Why would you force a Christian or any business over 15 employees to do something against their Christian Faith. This so called political correct world is insane. And I thought at least Republicans were against these kinds of beliefs, but I guess I am wrong.
Please change the wording of the ordinance to not allow these things that I mentioned to happen, at the very least, ok.

Dear Jacksonville Council Member,
As adult citizens of this great city it is our duty to protect the most innocent and vulnerable among us. Which I believe are our children. Having the right to safety out in public is a part of that duty.
Pedophiles come in all shapes, sizes there isn’t a one size fits all for that small group of dangerous people.(Heterosexual, homosexual, and others) However, pedophiles will use this Bill that you are trying to pass as another way to inflict immense harm on children. For it will become an avenue they will exploit to use against OUR children! Public bathrooms are a necessity and we all use them.

AMERICAN OVERSIGHT

Allow us to state this again pedophiles look and act just like everyone else. They are not a part of any one group or gender. However, they are extremely aware of and take advantage of soft targets.
And as for the debate that some feel uncomfortable having to use a facility that does not match their desired gender that argument shouldn't be as important as the safety of a child. A visit to a public facility is only for a few minutes . However, the trauma of being exposed to harm or danger can last a life time. Adults are expected to do whatever is necessary for the protection and safety of children, even if it is uncomfortable for a brief time.
I want to believe that all those who want to see the restrooms used in an unrestricted manner would walk away from the emotion of the issue and ask themselves this: " if this is going to be something a child molester will use as an easy path to harm a child then I will not consent to this bill. As an adult I will forgo my comfort for the safety of one child in my city."
Please think about your own children, grandchildren before you vote. What is the safety of those you love worth?
Sincerely,
Mr.&Mrs. Russell Powers

I just wanted to add this, Please understand and believe that I have nothing against someone who is gay or lesbian. My wife's daughter is gay and we get along great. It is just some things in this ordinance are wrong in my opinion and need to be changed,

Subject: HRO BILL?
To council membership AAron Bowman, Matt Carlucci and Leanna Cumber. I am not totally opposed of the bill all it does is add other minority groups to an already existing bill that in the first place should not have to exist.
Such bills only are necessary because of poor cooperate citizens and the dividing narrative of the media. We have to respect each other ideally we should love each other but we must respect each other.
That does not mean we have to over compensate within governing policies that no doubt will have an adverse effect within communities and our society as we know it. I do not agree with the restroom policy allowing anyone to use a public restroom designated for a specific gender. I do not agree with employers such as day care facilities and other such educational institutions to have to hire instructors/role models that does not represent the overall standard of public opinion as it pertains to behavior.
This bill does not represent the overall opinion of the public and the above council members are not representing it's citizens. This bill is a prime example of special interest and lobbyist and paid to play public officials.

I wanted to voice my position regarding the recent introduction of 2020-244, the bill expanding the city's non-discrimination policies to include sexual orientation and gender identity. Currently,

AMERICAN OVERSIGHT

I do not feel it is appropriate for me to debate the bill at this time. Rather, I feel we must ask whether now should be the time to have this debate.

We are currently in the middle of a global health crisis, a pandemic not seen on this kind of scale in a long while. At this time, parents are juggling work responsibilities with homeschooling, single mothers are struggling to pay the bills, unemployed citizens are not sure when they will be able to find work again, and in extreme cases, many senior citizens are facing a life and death situation with leaving their homes, risking catching the virus. This is not the time for this controversial legislation.

Both supporters and opponents agree that this is a bill with significant implications for our city for years to come. When similar bills were introduced in 2012, 2016, and 2017, thousands upon thousands from across our city contacted through calls, emails, and in person, their representatives on the City Council, numbers absolutely unprecedented in recent Jacksonville history. This open dialogue cannot occur at this time, necessitating postponement.

The majority of the current council members were not in office when the city voiced its opinion in previous years; they deserve the opportunity to hear the debate and receive unhindered communications and input from the public; the current climate prohibits this. As a person who deeply appreciates and is concerned with promoting tolerance, diversity, and fighting wrongful discrimination, I can appreciate the sediments put forward here. But, these sediments must be promoted without sacrificing basic principles of our democracy. Again, this is something that can not be done in the COVID-19 era.

Foundational though, is a call to restore the public trust in our Jacksonville city government. Over the past two years or so, Jacksonville has been plagued with numerous controversies that have shaken us. From former council member indictments, to the JEA scandal, to the sales tax battle between the Council and School Board, many a citizen have been left with a bitter taste of our city government. I am in no way attacking the character of any of the current council members, considering them honorable citizens. I am referring to the reality of public perception of our government as a whole. When public trust in government is lost, we are no longer truly one Jacksonville. And taking hasty action on this severely divisive legislation at this time only serves to potentially fuel that negative perception. Let us show patience and self restraint in this by waiting to move forward, for the sake of our city and the reputation of this distinguished body.

I would ask the Council to postpone this legislation at least into the fall (potentially into early 2021) until after this international pandemic has greatly lessened. I believe this will prevent the accusations of this council exploiting this virus for political purposes, show our city's respect for the voice of the people without any roadblocks, will allow newer council members to hear the full debate themselves, lessen the political divisiveness amongst ourselves, and restore some measure of respect for and trust in the Jacksonville City Council at this critical hour of our city's life. Thank you.

I guess if this is passed the way it is written now, I will come up to city hall and wait until a woman goes into the woman bathroom, and since, who knows, I might feel like a woman that day, go in their with her. This is all hypothetical of course. but, do you get my point? Seber Newsome III

Subject: About ordinance number: (HRO) 2020-0244.

Dear Deacons of God:

It is my civil duty, as a Christian, husband, father, and business owner, to address this matter at hand. The LGTQ will not stop at demanding their religious practice to infringe against my free exercise of religion. We all should know that our liberty comes from God Almighty. It is so blatantly obvious, that it's even confirmed in our Florida Constitution's Preamble.

AMERICAN OVERSIGHT

Everything that is decided into law, ordinance, resolution, or stature must have a standard that's not only consistent but absolute. Our Preamble has it correct. So, it begins with God and His Natural Law (i.e. Declaration of Independence).
Please, let me explain to you, honorable council members, that to the Christian, our exercise of religion doesn't end at Sunday worship, but throughout the rest of the week, in our work, school, neighborhood, and anywhere we go. If a business owner of more than 15 employees chooses not to submit to this ordinance, because according to God, we have only two genders, male and female, and desires to remain consistent in his free exercise of religion at his workplace, then he should have that right to life, liberty and pursuit of happiness. This ordinance is by all means unconstitutional. This is why it keeps getting tossed back and forth. Your conscience bears witness to the truth of God's Holy created order.
X and Y chromosomes, as you know, has determined gender for centuries, as science confirms Scripture. How then should we go against God and His design for science, by submitting to a person's expression, according to sec. 402.107 (n)? So, if I'm sexually oriented to 7-year old little girls, do I get fair treatment? Where do we draw the line in sexual orientation? And who gets to declare that?
Section 402.210 contradicts this ordinance. "...a bona fide occupational qualification reasonably necessary to the normal operation of that particular business enterprise." This confirms the nature of male or female roles, to which it cannot be distinguishable. If you want to be consistent, than it's all or nothing. A man is a man according to Scripture, and a woman is a woman according to science also.
Sec. 408.105 (f) "...by a person's consistent and uniform assertion of a particular gender identity" how long should they be "consistent" to be justifiable? Two weeks? 1-year? Again you are setting a standard without foundation. Jesus is the standard.
Please, consider this to be null and void, not just according to the Constitution, which you promised to uphold, but also because Almighty God, Who gave us our liberty, commands you to.
Psalm 2:10-12
"...Be instructed, you judges of the earth. Serve the Lord with fear, And rejoice with trembling. Kiss the Son, lest He be angry, And you perish in the way, When His wrath is kindled but a little. Blessed are all those who put their trust in Him."

Dear Jacksonville City Council,
My name is Wade Mask and I live on Monroe Avenue in the Riverview area of Jacksonville. I have lived in Jacksonville since 1970 and at my current residence for more than 26 years.
I could cite dozens of reasons why I am opposed to bill 2020-244, but I will stick to just one reason since this is to be read for me.
. We have said all along that pedophiles and others would use it as an opportunity to gain access to commit these crimes. It is always taken to mean that we are saying that those that are in the homosexual community or gender confused would do so. That is not what we are saying. We believe that criminal of any persuasion would use it. Here are some examples of bathroom crimes that other police departments are having to deal with in other states:
· CBS Chicago: Man Tried To Film Girl In Target Dressing Room In Palatine (March 29, 2017)
· WBIR: Peeping Tom caught in the act at West Knoxville Target (March 28, 2017)

The Ross manager informed the woman that if she was bothered by this, she would need to wait until he was finished.

She reported that she immediately turned around and left the restroom, and felt unsafe about returning to that restroom again.

Dear Council member, I am a citizen of Jacksonville for 40 years. I have my three sons and grandaughter and grandson also. I am speaking up for them . I can't believe that once again I must speak. Do you remember when you were a kid and had to go in showers.Now imagine if a boy or girl was allowed in that shower. The lgbt could take private showers if they are uncomfortable. Once again this HRO allows the person to choose their identity not on biology but how they feel.The citizens deserve their city council protecting everyone rights. This will allow sexual predators a way to get to our children. This law was just struck down last week and already in the middle of a pandemic and behind the scenes when citizens cant be present you are considering on passing this new bill. This needs to wait until the whole of Jacksonville citizens get to have their say. Not people bused in from Chicago for an agenda. The people who live her get to have a say and they don"t even know what you are doing. This is not right and should wait until people can come and have their say at city hall. Many of your citizens who voted for you are out of work and hurting.Churches haven't even been able to meet on Easter. Do you think it is right that 1% of the population the lgbt get rights over all the other citizens. You should be focused on helping your citizens and dealing with all the issues of the pandemic and put this agenda on hold till you can let all of Jacksonville decide. Why is there such a rush??Please say no to this bill until all can discuss it. Don'. t put the city through another legal battle because of the city council not doing it the right way. Please if you agree tell your fellow council members

Greetings all:
I have strong concerns about a bill introduced to make sexual preferences or orientation as a “Protected Category.” It is difficult to define and based upon feelings/lifestyle that often change, and not based upon anatomy, which has been the natural determinant of physical sexuality.
Any disagreement is labeled as “hate,” which is just an irrational attempt to label others who are concerned for the safety of men, women and children who are not in a protected category. The law should be for the protection of everyone.
It is deceptive to attempt to pass an ordinance that the citizens of Jacksonville cannot vote for or have input into. Please be fair to all of Jacksonville’s citizens.

Subject: Public comment request please
Good Morning Council Member Wilson,
I would like to have the opportunity to make public comment at today's council meeting.
If you do not plan on opening up public comments, can you please verify the following on my behalf?
Point #1.
If I understand correctly the way this bill is written, it is, in fact, open to ALL businesses, even sole-proprietors, 1099contractors, and freelancers without Brick & Mortar storefronts. Is this true?
Point #2 (THE MOST IMPORTANT QUESTION!! SO MANY PEOPLE ARE ASKING ABOUT THIS)
Many 1099 contractors and self-employed individuals like hair-stylist, barbers, website designers, masseuse, spa workers, gym instructors, yoga instructors, artists, etc. often do not have formally named "businesses" they file taxes using their social security number. Can those

AMERICAN OVERSIGHT

individuals show a copy of their last filed taxes that proves a history of self-employment (Schedule-C, 1099s, etc.)
Point #3
Not sure if the title /reference or implying Rent/ JEA Relief is because there is only $9M (which doesn't go far)? But this title will discourage the majority from applying as most of Jacksonville's businesses do not have these expenses.
THINGS THAT ARE GREAT ABOUT CUMBER's BILL:
There is no "minimal" income requirement; this money is meant for ALL businesses. Everyone of all sizes should have equal access.
The funds are available for six months and will be open until they are depleted.
There is not a lot of paperwork to bring in.
The apt systems for the individual stimulus was very well organized, safe, and professional. Repeating that system should be sufficient as businesses who are in need will do what they need to do to get the relief.

Subject: Bill 2020-244 written statement that must be read with fidelity to my intentions. I have confirmed, via rehearsal, that this statement takes less than 3 minutes to read.
The question is: Why tie up the city with this defective bill?
The authors of this bill claim to represent the citizens of Duval County. If the council claims that the citizens desire to have to live under the confusion found in Bill 2020-244, why not put it on a ballot? The council members, knowing how badly the citizens need to be told how to act, should let us all vote and cheer its passage! You believe it is needed, so, prove its worth via a ballot test. I thought I heard a “BAWK-BAWK-BAWK.”
The real reason this has to be passed again is because the people that the bill’s proponents claim to be protecting actually want “Special Rights” that can only be given by using the confusing statements found in the bill.
Most of the citizen’s concerns are driven by the Bill’s confusing statements. I’m not going to define them for you now as I am certain that those words will cause another court failure for the bill, and I am not feeding you that ammo.
When endorsing the bill, its proponents were certain that the people they were “protecting” would do nothing bad or new to injure the community. I suppose that their clients did not mention how they could not wait to get to the city’s libraries so they could dress in drag and convince your children and grandchildren that perversion is SO IN STYLE.
So what does that really mean? It proves that some drag people cannot wait to get to the citizen’s children. If you want proof, just look up the documented cases of child trafficking in America. Florida, here we go: Request weblink via info@enoch.company
That brings up another question: When will Duval close down its child trafficking railroad? Did you hear that? I’m sure it was the sound of cash registers (this computer has great sound effects!). Maybe some of you elected RINOS sponsoring this bill could fix the real problems before the next set of subpoenas, sealed indictments, arrests, and convictions, come in (remember the two Brown council members? Where are they now?). Perhaps y’all are just trying to get a “charge” out of the JEA!
Remember when the last bill passed? That little crowd of cute youths sure painted a neat picture. Pay attention, Judgement Day is coming. Repent or burn, Mr. Epstein……
I’m just about convinced that Lonzy Barton was killed for his adrenaline……Read this until you learn about Adrenachrome: Request weblink via info@enoch.company
Protect the citizen’s right to be heard. President Trump is teaching them how to fire those who think they can skate away after acting like the boss of the St. Valentine’s Day Massacre. Remember Miami.

Thank you for calling me last night.
When I spoke to Asbury about these sole proprietor $1000 gift cards early last week, he made no mention of United Way. We were also looking at 40,000 cards.
A lot has changed.
Below are the questions we will be asking at the meeting if you can clarify anything now, that would be great.
To: Council Members
From: Jacksonville's Small Businesses (sole-proprietors, self-employed, freelancers, contractors)
THIS DOES NOT HELP SMALL BUSINESSES IT HELPS COMMERCIAL LANDLORDS.
1. While we are thankful, $1000 is not much to a small business owner. For the 25% of us with storefronts, $1000 won't put a dent in even one month's rent.
2. If paying rent and utilities are the only uses for this $1000, you should rather call this the Commercial Landlord Stimulus Grant, no?
3. Please remove the "Brick & Mortar" and "rent" requirement. It only helps commercial landlords NOT 75% of America's businesses who do not have a storefront or commercial rent (Census, 2016).
4. 75,000 Jacksonville sole-proprietors haven't' made a dime in two months. We are tired of the games. Why are now our council members USING US to deliver $1000 to the city's commercial landlords then packaging it as "Helping small businesses?" Is there some unspoken connection or relationship between council members and the city's landlords? We are busy business owners. We are not in the business of delivering gifts.

AMERICAN OVERSIGHT

5. Commercial landlords impacted by COVID19 should visit SBA.gov or Vystarcu.org and apply for funding (just like their tenants did). The CARES Act guarantees landlord's mortgage deferral options- if they are not satisfied with that, they should contact their Senator.

UNITED WAY

1. $9M / 75,000 Jacksonville Sole Proprietors = $120 Each? How exactly does United Way Fit into this? According to the 2016 Census, there are 75,000 sole -proprietors, self-employed, contractors, and freelancers in Jacksonville.

3. What is the total amount of donations, State, and Federal funding the United Way has received as a result of COVID19?
4. Is United Way a "local" small business? Is United Way's AGI under $75,000? Is the United Way at-risk for closing? Does United Way specialize in helping small businesses?

LET US STIMULATE OUR ECONOMY:

1. This will be the first income most of Jacksonville's small businesses will have received in over two months HOW DARE the city council claim they are "granting us $1000" then mandate we fork our money over to landlords.
2. Remove "Rent" and "Utilities" from the title of this grant. We know how to spend our own. We pay those who we are most connected to FIRST, in many cases, this may be our landlords, or our contractors (who are also business owners), our service providers (also, business owners). This is how WE stimulate OUR economy.

DON'T JUST SAY "YOU LOVE SMALL BUSINESSES" SHOW US!

1. The worst time to say "you love small businesses" is while you are voting for a bill that does not help us
2. These funds are earmarked to help small businesses who fell through the cracks of Fl Unemployment, SBA loans, and the Vystar Loan. The "little guys." The little guys who do not donate to your campaign nor vote for you because they think you are corrupt and put your buddies before them. Please advocate for Jacksonville's 75,000 sole-proprietors at the same level of intensity as you do about the JEA scandle.

WE WANT WHITE GLOVE SERVICE TOO:

1. The application process to access these funds should be no different than the white-glove service those businesses lucky enough to access the Vystar funds are receiving. We should be processed on a first-come, first-serve basis through email.
2. Required Documents should be basic (just like the Vystar Program), State ID, last filed tax return (2018 or 2019) reflecting business or self-employment (K-1, 1099, or schedule C) and profit/AGI reflecting less than > $75,000 AGI. THIS IS ALL!
3. We should have the option of completing a direct deposit form.
4. We are capable of business owners. We can print, sign, email your certification forms along with any release of liability form consenting to the risk of sending our personal information over email.
5. If gift cards are your only option, why? Can the city assure car recipients, their personal data (demographic, spending history) will not be sold or shared with data-mining companies? Who is this card company that is facilitating the gift cards? How did the city select them? Can we opt for a physical check?

Hi Debbi
Well that's even more of a reason to get a meeting on the books with Cumber!
When is her availability next week?
Would she be willing to let me live feed our chat on my Jax Small Business Facebook page. We have about 1500 members who I know would want to tune in? They can send me in their questions to ask her.
Look forward to your reply,
Brandi Hill

Thank you for calling me last night.
When I spoke to Asbury about these sole proprietor $1000 gift cards early last week, he made no mention of United Way. We were also looking at 40,000 cards.
A lot has changed.
Below are the questions we will be asking at the meeting if you can clarify anything now, that would be great.

To: Council Members
From: Jacksonville's Small Businesses (sole-proprietors, self-employed, freelancers, contractors)

THIS DOES NOT HELP SMALL BUSINESSES IT HELPS COMMERCIAL LANDLORDS.
While we are thankful, $1000 is not much to a small business owner. For the 25% of us with storefronts, $1000 won't put a dent in even one month's rent.

AMERICAN OVERSIGHT

If paying rent and utilities are the only uses for this $1000, you should rather call this the Commercial Landlord Stimulus Grant, no?
Please remove the "Brick & Mortar" and "rent" requirement. It only helps commercial landlords NOT 75% of America's businesses who do not have a storefront or commercial rent (Census, 2016).
75,000 Jacksonville sole-proprietors haven't' made a dime in two months. We are tired of the games. Why are now our council members USING US to deliver $1000 to the city's commercial landlords then packaging
it as "Helping small businesses?" Is there some unspoken connection or relationship between council members and the city's landlords? We are busy business owners. We are not in the business of delivering gifts.
Commercial landlords impacted by COVID19 should visit SBA.gov or Vystarcu.org and apply for funding (just like their tenants did). The CARES Act guarantees landlord's mortgage deferral options- if they are not satisfied with that, they should contact their Senator.

Subject: Public Comment Vote NO on 2020-244
Dear City Council,
I am writing for public comment at the May 12th council meeting asking you to vote NO on 2020-244 LGBT rights HRO law.
This is is fourth time in eight years this proposal has been considered by the city council. This council knows me and knows I have been one of the most adamant and vocal opponents of this law. I do not know of much more I could say to you in the short time I have a lotted to speak to you.
After years of pleading with you, sharing sound biblical and spiritual advice and the testimony of the thousands opposed to this, you passed the now court voided law February 14th 2017. After the vote that night I read to you the warnings of proverbs 1 to no avail.
In 2016 the council had the votes to pass the HRO, and only waited because of political plans and timing of the powers that be, however that year our city was hit with a hurricane. After passing the HRO in 2017, that year we were hit with another hurricane and our city suffered the worst flooding in our lifetimes. Violent crime and murder skyrocketed out of control. Wicked and deceitful leaders conspired to profit financially and politically from the sale of JEA, which has

AMERICAN OVERSIGHT

been exposed and turned into one of the biggest scandals in our cities history. There have been several sexual related crimes occur in restrooms in our area since HRO was passed. Last year we even saw the push for drag queen story hour at public libraries in Jacksonville.
Many warned of these consequences, but this council ignored them, and according to media quotes this bill's sponsors are ignoring these facts and dismissing those that warned of these things as false doomsday predictions. Yet here we are in the middle of one of the worst crisis in our lifetimes and in one weeks time of the court striking down this law our city council finds it the most urgent issue during this crisis to re-file such a bill. One of the most controversial bills the council has dealt with in our lifetime and this bills sponsors demand to pass this again, during the time of crisis when the general public is not even aware of what's going on and cannot even fully participate in the process to voice their opposition. It is sad to know that the current crisis has not awakened this council to biblical truths and the signs of time we are living in. I pray you will read the book of revelations in the King James bible and let it open your eyes to what's happening and that you will repent before it's to late.
In the Meantime, I will faithfully be educating the public on this matter.
Please Vote NO on 2020-244, and May God forgive us and have mercy on our city.

Subject: HRO 2020-0244
Dear member of city council,
I hope you are well during this very critical time for our city.
Let me get to the point...Jacksonville citizens have been battling Covid 19 quarantines, homeschooling, sick family members, economic hardships and coping with new "norms". They have also been watching the news of Mayor Curry and JEA being investigated with very serious charges...
And in all of this chaos our city council wants to shove the LGBTQ Human Rights Ordinance down the throats of the unassuming voters AGAIN??
Only NOW the council wants to pass it without citizens able to comment in person...??
Hmmmmm....I wonder why...
Come on!!!
HOW MANY TIMES DOES THIS TERRIBLE LEGISLATION HAVE TO BE DEFEATED??
HOW MUCH MORE TIME NEEDS TO BE WASTED ON THIS??
I challenge you, council member, to please think...IF YOU BELIEVE THIS IS A GREAT ORDINANCE FOR JACKSONVILLE...THEN...
PUT IT ON THE BALLOT!!
LET THE PEOPLE WHO PUT YOU IN OFFICE AND PAY YOU DECIDE!!
WE ARE STILL A DEMOCRATIC REPUBLIC, RIGHT???
DO WE STILL HAVE A BILL IF RIGHTS AND A CONSTITUTION??
THEN LET'S DO THIS!
LISTEN TO THE CITIZENS...
LET ALL OF US VOTE ON HRO 2020-0244!
I thank you for your service to our community and I am praying for you to do right by ALL the citizens of Jacksonville, in Jesus' name!

I am a registered Florida voter and have lived in the 32223 zip code for over 25 years. I oppose the LGBT bill, 2020-244 HRO. I do not agree for recognizing or granting SPECIAL protection for someone on the basis of their sexual preferences or identity that sets them outside of the rights of any other human being in the county. This is not common sense and it is not necessary.

To my Councilmen,
I am asking that you vote against the HRO due to the fact it will put men in women's bathrooms and dressing rooms if more than single use. It will still make it possible that boys can shower in a girls locker room in many places, and it will force Christian businesses that are larger than 15 employees have to go against their convictions/faith. Thank you for taking my views into consideration.

Subject: Public Comments Regarding Redrafted Human Rights Ordinance
Dear Councilmembers,
As a local Christian business owner whose family has done business in Jacksonville since 1975, it deeply concerns me that the Jacksonville City Council may potentially pass (once again) this very dangerous and (once again) poorly drafted ordinance.
Because the rhetoric has been historically toxic on both sides, I've tried to approach this issue from 3 sides, while attempting to leave my religious world view at the door.
Number one, although more descriptive than the 5 page last draft, this selective human rights ordinance is only 18 pages long and is essentially incomplete. It leaves out the definition of religious organizations that it claims to exempt. It doesn't define transgender, or deal with issues like those who are non-binary or gender fluid. It also leaves the city's general counsel as the only one to define these key issues and describe the punishments (codification) associated with failure to follow the rules, rules that have not been put in place yet. Everyone made fun of Nancy Pelosi for saying we needed to pass the Affordable Care Act to figure out what's in it. In this case it's been said let's pass this so that the general counsel can actually finish writing it. So primarily, I oppose it because it's poorly thought out, incomplete legislation that does not consider the unintended consequences.

AMERICAN OVERSIGHT

Secondarily, I oppose it because it removes protection for several groups while giving protection to another. This is not a human rights ordinance. This is a LGBTQ ordinance. It exchanges the freedoms of those operating their businesses by their sincerely held religious beliefs, and provides new freedoms to those who have publicly threatened to sue anyone not celebrating their lifestyle. If you doubt that, you need not look very far across the country for hundreds of examples. If our city is going to be an environment where business can thrive, it must be inclusive of those sincerely held beliefs; whether they be of any or no faith at all. The council's responsibility is to draft something that offers equal protection for everyone. Not one group at the expense of another. Liberty goes both ways.
Lastly, my opposition to it is due to the fact that I don't like additional unnecessary regulations. The equal employment opportunity commission and the fair housing act already protect from discrimination for groups in the case of gender identity. This piece of legislation would only restate what has already been put in place. Our city has added additional verbiage to employment documents rectifying areas where there were no protections for people of different views. There's no need for this human rights ordinance because of the protections already afforded. Yet it has continually been pushed forward as necessary.
I see this issue from a different world view than others, but I'm trying to look at it strictly on the merits of the bill. That's why I have opposed it in the past, and will continue to do so. As the owner of a small business in Jacksonville, I recognize the way it is currently written will reduce business growth and set up business people for potentially dangerous lawsuits.
On February 8, 2017, WJCT ran a live televised discussion on the issue with myself and 5 other individuals (3 for and 3 against). There was not a single ounce of evidence that our city needed this ordinance presented by those for it. However there was a mountain of evidence against it. If you haven't seen it, here is the link...
http://www.wjct.tv/video/2365952715/
I highly encourage you to watch it.
Please vote against this dangerously incomplete, unnecessary, and unbalanced ordinance. What you do now will be a reflection of your leadership (or lack thereof) and will be remembered by those who elected you. Please consider wisely your next steps.
Thank you for your consideration.
Very Sincerely,
Harry Lewis, Jr

Subject: Law 2020-244
Please delay the vote on this, all our best focus should be directed to overcoming the covid-19 setback at this critical time. And this topic requires more thought as to who is victimized.
This law as written can victimize people who see the application of sexual orientation or gender identity as a private matter and not an intrinsic characteristic to be protected under well thought out civil liberty laws.
All of us are subject to the right fit in an organization that employs. I myself have understood that employers are looking for right fit as I too as as a job seeker was always looking for right fit to the management style or personality of an organization. We do spend over 35% of our waking hours in the workplace so fit is important to the psychological bearings of all in a workplace.
This law can ham string an organization's ability to find the right candidate and to perpetuate an environment that generates safety for all, empowerment of potential, creativity of ideas, and trust. There are many jobs of many varieties and characteristics that can attract and be filled by those you are trying to protect. They like most of us, can seek employment elsewhere or compromise a bit to the benefit of everyone.
This injection of government into our lives can be a tyranny to conservatives and diminish our free speech, our freedom to associate, and our safety- I.e. genetic males in bathrooms sanctioned for females-who warrant protection. We are thankful for laws that protect our intrinsic rights but this law is introducing division; our rights need to be protected too.
I am in Duval County one day per week transacting and would be affected by this liberal legislation.
Thank you,

Subject: Civil and Criminal Liability in Gender Identity Law Proposal
Dear Sirs and Madams,
Currently, if a predatory male assaults a woman in a woman's restroom on private property the city government would not have any liability stemming from such an assault. If a woman is assaulted by the same male under the gender identity changes you are proposing then you are condoning and approving the presence of that male. You will not be able to police whether possible male perpetrators are in a woman's public restroom exercising "gender identity rights" or are in the restroom for nefarious reasons. If a woman in my family was assaulted in the public restroom of a private business by a man that was legally allowed to be there by the City of Jacksonville I would sue the city.
In order to solve the above stated problem businesses would need to build additional restrooms which would be an undue burden on businesses and, frankly, is an over reach of government.
NO OTHER protected class of citizens requires separate facilities to insure the safety of women and children.
Please vote NO to amend the equal protection law. Do NOT add gender identity.

AMERICAN OVERSIGHT

Thank you.

Helen Schultz

Subject: I ardently OPPOSE the HRO law to be voted on today!
As a mother and grandmother I have strong objections to allowing opposite sex individuals into private places such as bathrooms, locker rooms. I have daughters and granddaughters, and I do not want some 30 year old man who prefers to be called a woman to infringe our our rights of privacy. In allowing this small segment of society to have free access just because of their propensity is against the majority in a civil society. It causes the majority's rights and protections to be eliminated. Just because one may PREFER and have a propensity to speed when driving, it does not give them the right to go 55 in a 25 mile per hour zone. Other people's safety and concern would be jeopardized. Even so, the LGBT sector should not demand the right to impose their preferences on the rest of society. It can bring harm to the emotional and possibly physical well being of children and adults.

Subject: Public Comment May 12
My name is Nathan DiPietro (address 7624 Hovering Mist Way in Duval County).
I want to address the recently refiled revisions to our city's Human Rights Ordinance (HRO). To begin, both supporters and opponents agree that this is a bill with massive implications for our city. In prior years, the people of Jacksonville have made clear that they want a voice on this important issue.
When similar bills were introduced in previous years, thousands upon thousands from across our city contacted their representatives to state their support or opposition for the legislation; most of the communications, by the way, opposed the law. The bills were almost certainly the most controversial bills ever introduced into this body. The people showed that they wanted a voice in our representative democracy.
Now, here we are; our nation is facing a global pandemic and this controversial bill is being put forward yet again. Families are focused on how their mortgage will be paid next month, where they will work in a week, and how they will feed their children tonight. Is it possible that this bill has been introduced at this unparalleled time in history because certain council members want to force it through without real input from their citizens? If they do care about input on this important bill, why would they not wait at least until city council meetings are held at City Hall? Why not wait until the citizens of Jacksonville can speak face-to-face with those they elected? Remember that the majority of the current council members were not in office when the city voiced its opinion in 2012, 2016, and 2017. If you care how the citizens view this law, put it to a referendum.... Or, at least wait until after this international virus crisis comes to an end. I am willing to discuss the merits and problems of this law, but right now IS NOT THE TIME FOR DEBATE NOR IS IT TIME FOR HASTY AND SECRETIVE ACTIONS. Remember JEA?
I am going on record tonight requesting a personal meeting with each of you to discuss the implications of this law. I hope you are willing and I look forward to speaking with you more.

Subject: PROPOSED ORDINANCE 2020-0244 (HRO) . . . IT IS PROPER TO BE DECIDED BY JACKSONVILLE VOTERS
The question of the HRO has been before Jacksonville for more than 8 years.
The impact of the HRO will have great consequence on the entirety of Jacksonville.
Each of you, as members of this City Council, have established a precedent that Jacksonville voters are the proper deciding body regarding questions of similar magnitude when Council established the Public Referendum for the now-failed attempt to sell JEA.
It is right and proper that the outcome of the HRO, having the same magnitude of impact on Jacksonville as the sale of JEA, be determined by the voters of Jacksonville.
I urge you to take the right and proper course of action . . . . let the voters decide.

I am a resident of Jacksonville and have practiced law here for 35 years. In light of the 1st DCA opinion striking down the previously passed HRO bill I want to express my opposition to the new HRO 2020-0244 currently before the Council. It is clear that this ordinance is flawed especially in its application to “gender identity” to businesses in Jacksonville. I have spent my career representing injured persons who were the victims of negligence. Forcing businesses to allow men who “identify” as female to enter public restrooms and other places that should be regarded as private and safe is dangerous and just plain wrong. I would strongly urge you to vote no to this ordinance. It needs to be totally rewritten with public comments allowed. Passing the ordinance in this manner smacks of impropriety on the part of the council.

Subject: Bill 2020-244
We will not have anything such as this to rule over this territory. The “this” in question is the entire attempt to rule over the Northeast Florida Territory by the LGBT community with so-called Human Rights Ordinances. Perception is not necessarily reality or truth. I may “perceive” that I am a male. The reality is that I was born a female: That is my biological identity and will remain so until I die. Transgenderism, or “perceived sexual identity versus biological identity” is unprecedented in human history. Once again, hellish confusion takes the stage. You council members who endorse this bill: Welcome to the ship of fools.
And so, I urge the council members backing 2020-244 to continue on. Dig the hole deeper. Then, like Adolf Eichmann’s famous quote, “Leap into your graves,” with the knowledge that you are complicit in the destruction of over 500,00 children who disappear in the United States each year, into tunnels beneath cities, their terrorized, adrenalin-filled blood drunk by the puppet masters of pedophilia and human trafficking. Those of you on the council who endorse this bill: Keep pandering. Let the wicked grow more wicked and let the righteous grow more righteous.

Subject: New HRO
Hello,
All of you know me and my values. Please reconsider the new HRO ordinance. Why would you want to allow men to go into the same bathroom as a little girl? This is totally unbelievable. Why would you allow a Transgender male to go to a public library, dressed up as something unbelievable , and have a class about being gay to young children??
Why would you force a Christian or any business over 15 employees to do something against their Christian Faith. This so called political correct world is insane. And I thought at least Republicans were against these kinds of beliefs, but I guess I am wrong.
Please change the wording of the ordinance to not allow these things that I mentioned to happen, at the very least, ok.

Dear Jacksonville Council Member,
As adult citizens of this great city it is our duty to protect the most innocent and vulnerable among us. Which I believe are our children. Having the right to safety out in public is a part of that duty.
Pedophiles come in all shapes, sizes there isn’t a one size fits all for that small group of dangerous people.(Heterosexual, homosexual, and others) However, pedophiles will use this Bill that you are trying to pass as another way to inflict immense harm on children. For it will become an avenue they will exploit to use against OUR children! Public bathrooms are a necessity and we all use them.

AMERICAN OVERSIGHT

Allow us to state this again pedophiles look and act just like everyone else. They are not a part of any one group or gender. However, they are extremely aware of and take advantage of soft targets.

And as for the debate that some feel uncomfortable having to use a facility that does not match their desired gender that argument shouldn't be as important as the safety of a child. A visit to a public facility is only for a few minutes . However, the trauma of being exposed to harm or danger can last a life time. Adults are expected to do whatever is necessary for the protection and safety of children, even if it is uncomfortable for a brief time.

I want to believe that all those who want to see the restrooms used in an unrestricted manner would walk away from the emotion of the issue and ask themselves this: " if this is going to be something a child molester will use as an easy path to harm a child then I will not consent to this bill. As an adult I will forgo my comfort for the safety of one child in my city."

Please think about your own children, grandchildren before you vote. What is the safety of those you love worth?

Sincerely,

Mr.&Mrs. Russell Powers

Subject: HRO BILL?

To council membership AAron Bowman, Matt Carlucci and Leanna Cumber. I am not totally opposed of the bill all it does is add other minority groups to an already existing bill that in the first place should not have to exist.

Such bills only are necessary because of poor cooperate citizens and the dividing narrative of the media. We have to respect each other ideally we should love each other but we must respect each other.

That does not mean we have to over compensate within governing policies that no doubt will have an adverse effect within communities and our society as we know it. I do not agree with the restroom policy allowing anyone to use a public restroom designated for a specific gender. I do not agree with employers such as day care facilities and other such educational institutions to have to hire instructors/role models that does not represent the overall standard of public opinion as it pertains to behavior.

This bill does not represent the overall opinion of the public and the above council members are not representing it's citizens. This bill is a prime example of special interest and lobbyist and paid to play public officials.

I wanted to voice my position regarding the recent introduction of 2020-244, the bill expanding the city's non-discrimination policies to include sexual orientation and gender identity. Currently,

AMERICAN OVERSIGHT

I do not feel it is appropriate for me to debate the bill at this time. Rather, I feel we must ask whether now should be the time to have this debate.

We are currently in the middle of a global health crisis, a pandemic not seen on this kind of scale in a long while. At this time, parents are juggling work responsibilities with homeschooling, single mothers are struggling to pay the bills, unemployed citizens are not sure when they will be able to find work again, and in extreme cases, many senior citizens are facing a life and death situation with leaving their homes, risking catching the virus. This is not the time for this controversial legislation.

Both supporters and opponents agree that this is a bill with significant implications for our city for years to come. When similar bills were introduced in 2012, 2016, and 2017, thousands upon thousands from across our city contacted through calls, emails, and in person, their representatives on the City Council, numbers absolutely unprecedented in recent Jacksonville history. This open dialogue cannot occur at this time, necessitating postponement.

The majority of the current council members were not in office when the city voiced its opinion in previous years; they deserve the opportunity to hear the debate and receive unhindered communications and input from the public; the current climate prohibits this. As a person who deeply appreciates and is concerned with promoting tolerance, diversity, and fighting wrongful discrimination, I can appreciate the sediments put forward here. But, these sediments must be promoted without sacrificing basic principles of our democracy. Again, this is something that can not be done in the COVID-19 era.

Foundational though, is a call to restore the public trust in our Jacksonville city government. Over the past two years or so, Jacksonville has been plagued with numerous controversies that have shaken us. From former council member indictments, to the JEA scandal, to the sales tax battle between the Council and School Board, many a citizen have been left with a bitter taste of our city government. I am in no way attacking the character of any of the current council members, considering them honorable citizens. I am referring to the reality of public perception of our government as a whole. When public trust in government is lost, we are no longer truly one Jacksonville. And taking hasty action on this severely divisive legislation at this time only serves to potentially fuel that negative perception. Let us show patience and self restraint in this by waiting to move forward, for the sake of our city and the reputation of this distinguished body.

I would ask the Council to postpone this legislation at least into the fall (potentially into early 2021) until after this international pandemic has greatly lessened. I believe this will prevent the accusations of this council exploiting this virus for political purposes, show our city's respect for the voice of the people without any roadblocks, will allow newer council members to hear the full debate themselves, lessen the political divisiveness amongst ourselves, and restore some measure of respect for and trust in the Jacksonville City Council at this critical hour of our city's life. Thank you.

Subject: Fwd: HRO

I guess if this is passed the way it is written now, I will come up to city hall and wait until a woman goes into the woman bathroom, and since, who knows, I might feel like a woman that day, go in their with her. This is all hypothetical of course. but, do you get my point? Seber Newsome III

Subject: About ordinance number: (HRO) 2020-0244.

Dear Deacons of God:

It is my civil duty, as a Christian, husband, father, and business owner, to address this matter at hand. The LGTQ will not stop at demanding their religious practice to infringe against my free exercise of religion. We all should know that our liberty comes from God Almighty. It is so blatantly obvious, that it's even confirmed in our Florida Constitution's Preamble.

AMERICAN OVERSIGHT

Everything that is decided into law, ordinance, resolution, or stature must have a standard that's not only consistent but absolute. Our Preamble has it correct. So, it begins with God and His Natural Law (i.e. Declaration of Independence).
Please, let me explain to you, honorable council members, that to the Christian, our exercise of religion doesn't end at Sunday worship, but throughout the rest of the week, in our work, school, neighborhood, and anywhere we go. If a business owner of more than 15 employees chooses not to submit to this ordinance, because according to God, we have only two genders, male and female, and desires to remain consistent in his free exercise of religion at his workplace, then he should have that right to life, liberty and pursuit of happiness. This ordinance is by all means unconstitutional. This is why it keeps getting tossed back and forth. Your conscience bears witness to the truth of God's Holy created order.
X and Y chromosomes, as you know, has determined gender for centuries, as science confirms Scripture. How then should we go against God and His design for science, by submitting to a person's expression, according to sec. 402.107 (n)? So, if I'm sexually oriented to 7-year old little girls, do I get fair treatment? Where do we draw the line in sexual orientation? And who gets to declare that?
Section 402.210 contradicts this ordinance. "...a bona fide occupational qualification reasonably necessary to the normal operation of that particular business enterprise." This confirms the nature of male or female roles, to which it cannot be distinguishable. If you want to be consistent, than it's all or nothing. A man is a man according to Scripture, and a woman is a woman according to science also.
Sec. 408.105 (f) "...by a person's consistent and uniform assertion of a particular gender identity" how long should they be "consistent" to be justifiable? Two weeks? 1-year? Again you are setting a standard without foundation. Jesus is the standard.
Please, consider this to be null and void, not just according to the Constitution, which you promised to uphold, but also because Almighty God, Who gave us our liberty, commands you to.
Psalm 2:10-12
"...Be instructed, you judges of the earth. Serve the Lord with fear, And rejoice with trembling. Kiss the Son, lest He be angry, And you perish in the way, When His wrath is kindled but a little. Blessed are all those who put their trust in Him."

Subject: Bill 2020-244
Dear Jacksonville City Council,
My name is Wade Mask and I live on Monroe Avenue in the Riverview area of Jacksonville. I have lived in Jacksonville since 1970 and at my current residence for more than 26 years.
I could cite dozens of reasons why I am opposed to bill 2020-244, but I will stick to just one reason since this is to be read for me.
. We have said all along that pedophiles and others would use it as an opportunity to gain access to commit these crimes. It is always taken to mean that we are saying that those that are in the homosexual community or gender confused would do so. That is not what we are saying. We believe that criminal of any persuasion would use it. Here are some examples of bathroom crimes that other police departments are having to deal with in other states:
· CBS Chicago: Man Tried To Film Girl In Target Dressing Room In Palatine (March 29, 2017)
· WBIR: Peeping Tom caught in the act at West Knoxville Target (March 28, 2017)

· Lincoln, R.I. – A man was charged with video voyeurism after he placed a camera in a Target bathroom.

The Ross manager informed the woman that if she was bothered by this, she would need to wait until he was finished.

Dear Council member, I am a citizen of Jacksonville for 40 years. I have my three sons and grandaughter and grandson also. I am speaking up for them . I can't believe that once again I must speak. Do you remember when you were a kid and had to go in showers.Now imagine if a boy or girl was allowed in that shower. The lgbt could take private showers if they are uncomfortable. Once again this HRO allows the person to choose their identity not on biology but how they feel.The citizens deserve their city council protecting everyone rights. This will allow sexual predators a way to get to our children. This law was just struck down last week and already in the middle of a pandemic and behind the scenes when citizens cant be present you are considering on passing this new bill. This needs to wait until the whole of Jacksonville citizens get to have their say. Not people bused in from Chicago for an agenda. The people who live her get to have a say and they don"t even know what you are doing. This is not right and should wait until people can come and have their say at city hall. Many of your citizens who voted for you are out of work and hurting.Churches haven't even been able to meet on Easter. Do you think it is right that 1% of the population the lgbt get rights over all the other citizens. You should be focused on helping your citizens and dealing with all the issues of the pandemic and put this agenda on hold till you can let all of Jacksonville decide. Why is there such a rush??Please say no to this bill until all can discuss it. Don'. t put the city through another legal battle because of the city council not doing it the right way. Please if you agree tell your fellow council members

Greetings all:
I have strong concerns about a bill introduced to make sexual preferences or orientation as a “Protected Category.” It is difficult to define and based upon feelings/lifestyle that often change, and not based upon anatomy, which has been the natural determinant of physical sexuality.
Any disagreement is labeled as “hate,” which is just an irrational attempt to label others who are concerned for the safety of men, women and children who are not in a protected category. The law should be for the protection of everyone.
It is deceptive to attempt to pass an ordinance that the citizens of Jacksonville cannot vote for or have input into. Please be fair to all of Jacksonville’s citizens.

During this state of emergency we are receiving public comments by email. Our legislative staff creates an email address up specifically for this meeting. Those emails are filed as part of our official record.
All legislation considered by the city council has a public hearing. You can attend on Zoom and we will allow any member of the public to speak during the public hearing.

Subject: Public comment request please
Good Morning Council Member Wilson,
I would like to have the opportunity to make public comment at today's council meeting.
If you do not plan on opening up public comments, can you please verify the following on my behalf?
Point #1.
If I understand correctly the way this bill is written, it is, in fact, open to ALL businesses, even sole-proprietors, 1099contractors, and freelancers without Brick & Mortar storefronts. Is this true?
Point #2 (THE MOST IMPORTANT QUESTION!! SO MANY PEOPLE ARE ASKING ABOUT THIS)
Many 1099 contractors and self-employed individuals like hair-stylist, barbers, website designers, masseuse, spa workers, gym instructors, yoga instructors, artists, etc. often do not have formally named "businesses" they file taxes using their social security number. Can those

AMERICAN OVERSIGHT

individuals show a copy of their last filed taxes that proves a history of self-employment (Schedule-C, 1099s, etc.)
Point #3
Not sure if the title /reference or implying Rent/ JEA Relief is because there is only $9M (which doesn't go far)? But this title will discourage the majority from applying as most of Jacksonville's businesses do not have these expenses.
THINGS THAT ARE GREAT ABOUT CUMBER's BILL:
There is no "minimal" income requirement; this money is meant for ALL businesses. Everyone of all sizes should have equal access.
The funds are available for six months and will be open until they are depleted.
There is not a lot of paperwork to bring in.
The apt systems for the individual stimulus was very well organized, safe, and professional. Repeating that system should be sufficient as businesses who are in need will do what they need to do to get the relief.

Audit team,

Please see the attached draft documents we discussed which will be filed tomorrow. There are a couple of elements still under review and that may change such as the transfer powers and such that we spoke about earlier today. However given the tight timeline, we wanted to get this to you now for your concurrent review.

Thanks,

Section 5. Waiving Section 106.304(b) (Mayor's transfer power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) (Mayor's transfer power) that limits the Mayor's transfer authority to $500,000 during a fiscal year is hereby waived through December 31, 2020 as to the $25,000,000 of Reimbursement Funds, to authorize the Mayor without further Council action to transfer the Reimbursement Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with the authorized uses of such funds under the CARES Act grant received by the City. effective date thereof, a copy of written documentation of all transfers of funds made during the applicable fiscal year.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement,

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000123

certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

AMERICAN OVERSIGHT

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000125

inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 9. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). The provisions of Chapter 320 (General Provisions) within the Constructions Regulations and Building Codes, Part 4 (Permits), Section 320.402 (Application for Permit) and Section 320.409 (Schedule of permit fees), that would otherwise require the payment of permit fees, including the following: (1) New buildings, (2) Foundation only, (3) New construction other than buildings, (4) Alterations, (5) Window/door replacement, (6) Moving buildings, (7) Roofing, (8) Swimming pools, (9) Demolition of buildings, (10) Demolition of structures other than buildings, (11) Sign erections, (12) Site clearing with protected trees, (13) Site clearing without protected trees, (14) Removal or relocation of private protected trees, (15) Electrical permit, (16) Plumbing permit, (17) Mechanical permit, and, (18) Miscellaneous fees, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period"). Fees related to violations of the Florida Building Code and the renewal permits for off-site signs are specifically not waived or affected by this moratorium.

Section 10. Temporary Moratorium Imposed and Duration of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000126

Moratorium as to certain Application Fees imposed regarding the subdivision of land, the approval and filing of plats, and the approval of final engineering plans, as required by Section 654.108 (Approval of Preliminary Site Plan: Procedures for Approval of Preliminary and Final engineering plans for required improvements), and Section 654.138(a), (c) and (d) (Fees), each of Chapter 654 (Code of Subdivision Regulations). The provisions of Chapter 654 (Code of Subdivision Regulations), Section 654.108 (Approval of Preliminary Site Plan: Procedures for Approval of Preliminary and Final engineering plans for required improvements), and Section 654.138(a)(c) and (d) (Fees) that would otherwise require payment of application and recording fees for plat review and civil site plan review are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period"). These fees are referenced in Section 123.102, Ordinance Code, as the "Review Group" within the Planning Department category, and consist of the Site Development Review (10-set) Subdivision, and the Site Development Review (10 Set) Non-Subdivision" reviews. Fees related to a violation of the Code of Subdivision Regulations are specifically not waived or affected by this moratorium.

Section 11. Questions on Draft of Ordinance 2020-235

1. Overall
    a. Where are these funds currently deposited? Have they been deposited with Tax Collector?
    b. Do we have anything to confirm we will be separately reimbursed for OT and other similar costs that would make up the estimated $100,000,000 in costs that the $12.5 million is being set aside for to the meet the City's obligation? Just want to ensure that we would not create an $87.5 million hole by not funding it at this time.
    c. Have controls related to access and distribution of the payment cards been determined? If so, please provide some detail. If not, when will this be worked on?
    d. Why is the $146,550,942.50 being placed into the General Fund/GSD and not into the Emergency Incidents subfund? Shouldn't these items be isolated to assist tracking and ensure compliance with federal requirements?
    e. Is the portion of the $26 million in funds that are not expended until after 12/30/20 related to the COVID 19 Relief Program permissible based on the guidance from the US Department of the Treasury (see attachment and excerpt below)? Please explain.

> ***Costs incurred during the period that begins on March 1, 2020, and ends on December 30, 2020***
>
> A cost is "incurred" when the responsible unit of government has expended funds to cover the cost.

    f. Can the funds be utilized for lost revenue by the City based on the guidance from the US Department of the Treasury (see attachment and excerpt below)? Please explain.

> Funds may not be used to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify under the statute. Although a broad range of uses is allowed, revenue replacement is not a permissible use of Fund payments.

    g. If the funds cannot be used for City lost revenue, how does that impact the moratoriums proposed? Could it be used for those? Or is there a way to change how they work so that they could be used?
    h. If the funds cannot be used for City lost revenue, how will that impact the entities that manage city-owned venues or functions? Would the lost revenue exclusion apply as well? Please explain.
    i. What happens if there are not enough applications for all of the payment cards and there are left over funds? Will they be on the cards or not loaded yet? Does the November 1 deadline apply to these as well?
    j. Why is there not any reporting to Council built-in for the status of the use of these funds?
    k. Has the impact of all the moratoriums been estimated? The bill only mentions the mobility fee and building inspection fees.
        i. Could a schedule of fees collected for the past year (or most recent fiscal year) for each of the waived sections be provided to see the potential impact on each revenue type?

Coronavirus Relief Fund
Guidance for State, Territorial, Local, and Tribal Governments
April 22, 2020

The purpose of this document is to provide guidance to recipients of the funding available under section 601(a) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"). The CARES Act established the Coronavirus Relief Fund (the "Fund") and appropriated $150 billion to the Fund. Under the CARES Act, the Fund is to be used to make payments for specified uses to States and certain local governments; the District of Columbia and U.S. Territories (consisting of the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands); and Tribal governments.

The CARES Act provides that payments from the Fund may only be used to cover costs that—

1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID–19);
2. were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government; and
3. were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020.[1]

The guidance that follows sets forth the Department of the Treasury's interpretation of these limitations on the permissible use of Fund payments.

Necessary expenditures incurred due to the public health emergency

The requirement that expenditures be incurred "due to" the public health emergency means that expenditures must be used for actions taken to respond to the public health emergency. These may include expenditures incurred to allow the State, territorial, local, or Tribal government to respond directly to the emergency, such as by addressing medical or public health needs, as well as expenditures incurred to respond to second-order effects of the emergency, such as by providing economic support to those suffering from employment or business interruptions due to COVID-19-related business closures.

Funds may not be used to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify under the statute. Although a broad range of uses is allowed, revenue replacement is not a permissible use of Fund payments.

The statute also specifies that expenditures using Fund payments must be "necessary." The Department of the Treasury understands this term broadly to mean that the expenditure is reasonably necessary for its intended use in the reasonable judgment of the government officials responsible for spending Fund payments.

Costs not accounted for in the budget most recently approved as of March 27, 2020

The CARES Act also requires that payments be used only to cover costs that were not accounted for in the budget most recently approved as of March 27, 2020. A cost meets this requirement if either (a) the cost cannot lawfully be funded using a line item, allotment, or allocation within that budget *or* (b) the cost

[1] *See* Section 601(d) of the Social Security Act, as added by section 5001 of the CARES Act.

AMERICAN OVERSIGHT

is for a substantially different use from any expected use of funds in such a line item, allotment, or allocation.

The "most recently approved" budget refers to the enacted budget for the relevant fiscal period for the particular government, without taking into account subsequent supplemental appropriations enacted or other budgetary adjustments made by that government in response to the COVID-19 public health emergency. A cost is not considered to have been accounted for in a budget merely because it could be met using a budgetary stabilization fund, rainy day fund, or similar reserve account.

Costs incurred during the period that begins on March 1, 2020, and ends on December 30, 2020

A cost is "incurred" when the responsible unit of government has expended funds to cover the cost.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy the Fund's eligibility criteria.

Nonexclusive examples of ineligible expenditures[2]

The following is a list of examples of costs that would *not* be eligible expenditures of payments from the Fund.

1. Expenses for the State share of Medicaid.[3]
2. Damages covered by insurance.
3. Payroll or benefits expenses for employees whose work duties are not substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

[2] In addition, pursuant to section 5001(b) of the CARES Act, payments from the Fund may not be expended for an elective abortion or on research in which a human embryo is destroyed, discarded, or knowingly subjected to risk of injury or death. The prohibition on payment for abortions does not apply to an abortion if the pregnancy is the result of an act of rape or incest; or in the case where a woman suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the woman in danger of death unless an abortion is performed. Furthermore, no government which receives payments from the Fund may discriminate against a health care entity on the basis that the entity does not provide, pay for, provide coverage of, or refer for abortions.

Hi John – here is what we have drafted up so far regarding the Mortgage, Rent and Utilities Relief Program. Would you please take a look at the certification (page 2 of the attached document) and let me know if you think there is anything else we need to add? We are trying to keep all of the barriers to a minimum for this program and keep it streamlined as much as possible.

If you'd like me to walk you through the process so far let me know. Let me know if you have any questions. Thank you!

Joey—

Attached for review and comment is the latest clean and redline draft of the legislation.

The legislation has 9 Exhibits, as shown the attached Exhibit List. I have also attached Exhibits 1- 4 of the 9 that I intend to use as exhibits 1 through 4. The remaining 5 I do not have. 3 are parking exhibits and I've asked Lori to provide, numbers 5 and 6 are the rent forgiveness and loan forgiveness applications. Those may have been sent to me earlier, but I cannot locate in my inbox.

At this point I'm standing down pending any additional comments on the legislation or the FIS agreement.

Section 5. Waiving Section 106.304(b) (Mayor's transfer power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) (Mayor's transfer power) that limits the Mayor's transfer authority to $500,000 during a fiscal year is hereby waived through December 31, 2020 as to the $25,000,000 of Reimbursement Funds, to authorize the Mayor without further Council action to transfer the Reimbursement Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with the authorized uses of such funds under the CARES Act grant received by the City.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000358

include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000359

Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section ~~68~~68. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in ~~Section~~ ~~5~~76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000360

reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section ~~68~~, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the

mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Exhibit A

(a) *Six-Month Waiver Period*. The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____ [insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

All—

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

Application for mobility fee calculation certificate, and mobility fee calculation, are still required. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional

three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance;

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance; or

In determining the value, the project value may include all phases of development associated with the final construction and/or

AMERICAN OVERSIGHT

engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved.

Lori—

Attached is what I emphasize is an extremely preliminary draft of the above legislation that normally I would not circulate at this stage of preparation, but am doing so given time constraints.

Please review the language in Section 11, which houses the discounted parking program. That was essentially a stream of consciousness pass at putting in the basic parameters and obviously will need refinement. Please let me know if any questions or comments and feel free to mark-up freely if desired.

Joey, I don't believe you need to review this draft yet unless you just want to (I included a redline against the draft circulated late yesterday just in case), I will circulate a draft after making further revisions tomorrow, but please note I have highlighted a few questions for you in yellow, if you will please respond to those when you can.

Thanks,

mobility fee set forth in a mobility fee calculation certificate, and may thereafter commence construction. If a site clearing permit, for property that has received ten set approval per Chapter 654, Ordinance Code, is obtained after nine months after the effective date of this ordinance, any future building permit for single family construction on that property shall be required to pay 100% of the mobility fee set forth in a mobility fee calculation certificate, and may thereafter commence construction.

Section 6. Requirement for Certificate of Occupancy by Time Certain. Failure to obtain a Certificate of Occupancy for a single family residential building permit within 24 months from the effective date of this Ordinance shall require immediate payment of the remaining portion of the full amount of the mobility fee calculated pursuant to Section 655.503, Ordinance Code but waived during the temporary waiver period. Failure to complete construction pursuant to any such final construction and/or engineering plans under Chapter 320, Ordinance Code and obtain a Certificate of Occupancy for: (i) final construction and/or engineering plans or non-single family residential building permits that exceed a value of $1,000,000.00, no later than thirty-six (36) months after the effective date of this ordinance, or (ii) final construction and/or engineering plans or non-single family residential building permits that have a value of $1,000,000.00 or less, no later than 12 months after the approval of such final construction and/or engineering plans or non-single family building permits, shall require immediate payment of that portion of the full amount of the mobility fee calculated pursuant to Section 655.503, Ordinance Code but waived during the temporary partial waiver period. Section 7. Allocation of Mobility Fees Collected. Pursuant to Policy 1.4.10 of the Transportation Element of the 2030 Comprehensive Plan, a portion of the mobility fee, as calculated by the mobility fee calculation certificate, collected per development is to be allocated for projects identified on the bicycle and pedestrian prioritized transportation mode improvement list within the applicable mobility zone, as found within the Mobility Plan. April 24, 2020, Jacksonville, Fla. -- Mayor Curry announced Friday that his administration has filed legislation with the Jacksonville City Council to allocate nearly $160 million in Federal CARES Act funds to provide relief to citizens and support the ongoing response to COVID-19.

“My team and I are proud to work with City Council to provide needed assistance to the people of Jacksonville and support continued COVID-19 response and recover efforts throughout our community,” Mayor Lenny Curry said. “These funds will go a long way toward helping citizens meet their needs, provide a needed boost to our economy, keep people working, and putting us on a path to recovery.”

The Jacksonville COVID-19 Relief Program will include $40 million in direct stimulus for individuals to help with mortgage, rent and utility payments. This program will provide $1,000 in relief to 40,000 households that meet certain criteria. This includes:

- You must be a Duval County resident
- Make less than $75,000 per year
- Have lost at least 25% of your income because of the COVID-19 crisis.

In addition, $35 million will be allocated toward sustained COVID-19 testing, testing sites and other healthcare infrastructure needs. Testing will be offered throughout Jacksonville so that we can serve every neighborhood. $12.5 million will go to the City’s COVID-19 emergency account for response expenditures not reimbursed by FEMA. Additional usage of the funds is explained in the legislation.

FIS, a Jacksonville based Fortune 500 company, will graciously assist with issuing the $1,000 preloaded pay cards to ensure that recipients get the money as quickly as possible, and without having to absorb added fees.

Mayor Curry said, “I want to thank FIS President and CEO, Gary Norcross, and his team for their tremendous level of dedication and support for our community. Their assistance with pulling this program together quickly will help 40,000 households cover payments for essential needs like shelter, water and electricity during this difficult period.”

The **City of Jacksonville** ("Client") has engaged **Fidelity Information Services, LLC** (together with its subsidiaries and Affiliates, "FIS") to provide Client with one or more prepaid card programs (each a "Program") as further defined below. The Cards will be distributed by Client in connection with bona fide business programs the Client makes available to its employees, franchisees, dealers, distributors, clients or customers. "Affiliate" means, with respect to a party, any entity which directly or indirectly, through one or more intermediaries, is controlled by, or is under common control with such party.

1. THE CLIENT ACKNOWLEDGES AND UNDERSTANDS THAT FIS OR A THIRD PARTY PROVIDER TO FIS has an agreement to market and manage prepaid card programs with a nationally chartered financial institution ("Issuing Bank") which is the issuer of Cards, a member of Visa USA ("Visa") or MasterCard ("MasterCard") (Visa and MasterCard are referred to herein as the "Association(s)") and licensed through the Associations to provide card issuance services. As used in this agreement any reference to FIS shall also be a reference to its third-party service providers.

2. **Commencement. Term.**

2.1. Each party shall make commercially reasonable efforts, including the assignment of adequate personnel, to commence the Service as soon as practicable following the Effective Date. The "Commencement Date" of a Program is the date on which Client first distributes a Card. FIS reserves the right to decline to commence a Program for Client in its sole discretion or discontinue the distribution of cards if determined in its or Issuing Bank's sole discretion to be inconsistent with safe and sound banking practices.

2.2. Term. The Agreement is effective on the Effective Date and shall continue for an initial term of sixty (60) months (the "Initial Term"). After the Initial Term, or the then current Renewal Term, the term of the Agreement may be renewed for one additional sixty (60) month term upon the mutual agreement of the parties (a "Renewal Term") unless terminated by Client or FIS in writing at least 180 days prior to the last day of the Initial Term.

3. **FIS Responsibilities**.

3.1. FIS Performance. FIS shall provide Client and, where applicable, Client's customers ("Customers") with access to and use of the Service in accordance with these Terms, and FIS' then current standard user operating instructions and requirements made available to Client from time to time ("Specifications"). FIS shall make available documents, reports, statements and other output of the Services, as may be more fully described in the Specifications (collectively, "Output"). "Service" means a service provided by FIS pursuant to this Agreement, to include any Program. FIS may withdraw a Service or terminate any function or Service (i) immediately upon any final regulatory, legislative, or judicial determination that providing such Service or function violates applicable law or regulation or the rights of any third party, or (ii) upon providing not less than three hundred sixty-five (365) days' prior written notice to Client so long as FIS is withdrawing or terminating the Service or function from its entire client base.

3.2. FIS will provide to Client one or more prepaid card programs (each a "Program") as described the applicable program terms (set forth herein) and as designated on an Order Form, whereby FIS will supply Client with one or more types of prepaid cards ("Cards") purchased by Client pursuant to an Order Form. The Cards will be distributed by Client in connection with bona fide business, economic incentive and COVID-19 related programs the Client makes available to its employees, franchisees, dealers, distributors, clients, customers, or residents of Duval County, as applicable. All Cards will be prepaid cards as further described in the Program Addendum.

3.3. FIS shall provide the Programs in compliance with all Laws applicable to FIS as provider of the Programs. "Law" means any law, rule, regulation, ordinance, code or order to which a party may be subject or under which a party may exercise rights.

3.4. FIS shall perform an on-going review of Laws applicable to the provision of the Programs. FIS shall maintain the features of the Programs in accordance with all Laws applicable to such features, including new or amended Laws (as applicable and necessary to support compliance obligations), in a non-custom environment.

4. **Client Responsibilities**.

4.1. Client shall: (i) timely deliver to FIS any information necessary for the provision of the Programs in a

form and format approved by FIS, including but not limited to the Client Due Diligence Form included with this Agreement; (ii) [intentionally omitted], (iii) be solely responsible for timely procuring any information or cooperation required from its employees other third parties in order to commence the Program; (iv) have sole responsibility for verifying the accuracy, completeness or authenticity of any Data furnished by Client or a third party; (v) be solely responsible for training its employees and representatives to comply with all Laws applicable to Client and the procedures set forth in any manual or other literature provided to Client by FIS; (vi) comply with all Laws applicable to Client's business and its use of the Programs, including but not limited to those Laws relating to usury, truth-in-lending, fair credit reporting, equal credit opportunity, automated clearing house transfers, networks associations, electronic funds transfer, privacy and direct marketing, regardless of whether Client uses any forms or other materials supplied by FIS.

4.2. Based on Client's instructions, FIS shall implement features and options (collectively, the "Parameters") for a Program that shall apply to Client. Client shall be responsible for determining that such selections are consistent with the Legal Requirements. In making such determinations, FIS deliver the Programs in accordance with the Parameters.

5. **Data.**

5.1. Client shall be solely responsible for transmitting its Data (collectively, "Client Data") and verifying the accuracy, completeness or authenticity of Data furnished by Client or a third party. Client shall bear any risk of loss resulting from that transmission until receipt by FIS. FIS shall bear the risk of loss resulting from Data transmitted to Client until Client confirms receipt. If Client requests FIS to disclose Client Data to a third party, Client shall provide FIS with written authorization to do so and bear any risk of loss or liability associated with that disclosure. In addition, FIS shall be held harmless from any claim arising out of such disclosure or the third party's use or disclosure of that Client Data. If Client's requested disclosure includes FIS Confidential Information, FIS may remove FIS Confidential Information (or require such removal) prior to such disclosure and require the third party to enter into a written agreement with FIS governing use, disclosure and safekeeping of the FIS Confidential Information.

5.2. FIS shall not be responsible for the accuracy, completeness or authenticity of any Data furnished by Client or a third party, and shall have no obligation to audit, check or verify that Data. If any Data submitted by Client or a third party to FIS is incorrect, incomplete or not in the required format, FIS may require Client to resubmit the Data or FIS may correct the Data and bill Client its then current rates for performing those corrections. FIS shall attempt to notify Client prior to Client incurring such expense.

Client assumes all risk and expense associated with Data reconstruction, except for those expenses incurred as a direct consequence of FIS' breach of the Agreement. If Data reconstruction is ever required, the parties shall mutually agree on a schedule for that reconstruction

7. **Use of Services.** Except as otherwise permitted in the Agreement or in writing by FIS, Client shall use each Service only for its own internal business purposes to service its Customers in accordance with the terms of the Agreement and the applicable Specifications. Client shall not (i) except as permitted in the Agreement and the applicable Specifications, sell, use or otherwise provide, directly or indirectly, any of the Service, or any portion thereof to or for the benefit of any third party, (ii) except as permitted by FIS in writing, copy any Service, or any part, feature, function or user interface thereof; (iii) adapt, modify, translate, reverse engineer, decompile, disassemble, or create derivative works based on any Service or any part thereof; (iv) attempt to gain unauthorized access to any Service or its related systems or networks; (v) access any Service for purposes of monitoring the performance or functionality for any benchmarking or competitive purposes; or (vi) perform any load or security testing unless FIS' prior written approval is obtained. 8.3. Billing Errors. In the event of over-billing, FIS will correct the error by credit to Client. If Client was under-billed, FIS will add the under-billed amount to a future invoice. FIS shall pay and hold Client harmless for any taxes on FIS property, income or payroll. Client agrees to hold FIS harmless for any sales, use, excise, value added or other taxes assessed by a taxing authority on Client and arising out of the Agreement. In the event of any assessment by a taxing authority, both parties agree to cooperate with each other to resolve issues in order to minimize the assessment.

9. Intellectual Property.

9.1. Each party shall continue to own any Data that it provides, or that may be provided on its behalf, to the other party in connection with the use or provision of the Services. Exhibit A

(a) *Six-Month Waiver Period*. The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

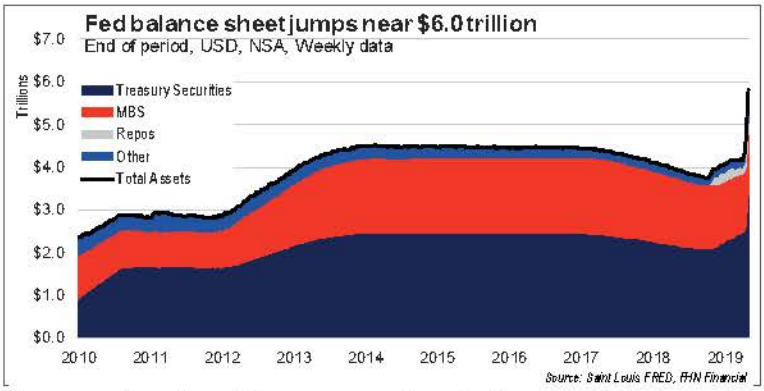
QUARTER IN REVIEW: Q1 2020

Q1 2020: Pandemic

January's ceremonial signing of the phase one trade deal appeared to offer hope of a truce in US-China trade relations. But behind the scenes, rumors swirled that a highly contagious pneumonia was spreading in Wuhan, China, causing thousands of deaths. China's first instinct was to warn doctors and local officials to avoid speaking publicly about the lethal new virus. By the time the threat was revealed, 5 million people had traveled from Wuhan carrying the disease through China and the world.

With China's factories idle for weeks, global manufacturers continued a quiet search outside China for new suppliers. The spread of the virus globally, coupled with what was misleading data on the disease's spread and mortality in China, prompted companies and governments to rethink globalization and dependency on China. It's an open question whether trade relations will return to normal after Covid-19.



Stocks set records in January and February, while 10-year Treasury yields fell to reflect Covid-19's economic threat. Equity investors caught on to the threat, and stocks fell over 20% in their worst quarter since the financial crisis.

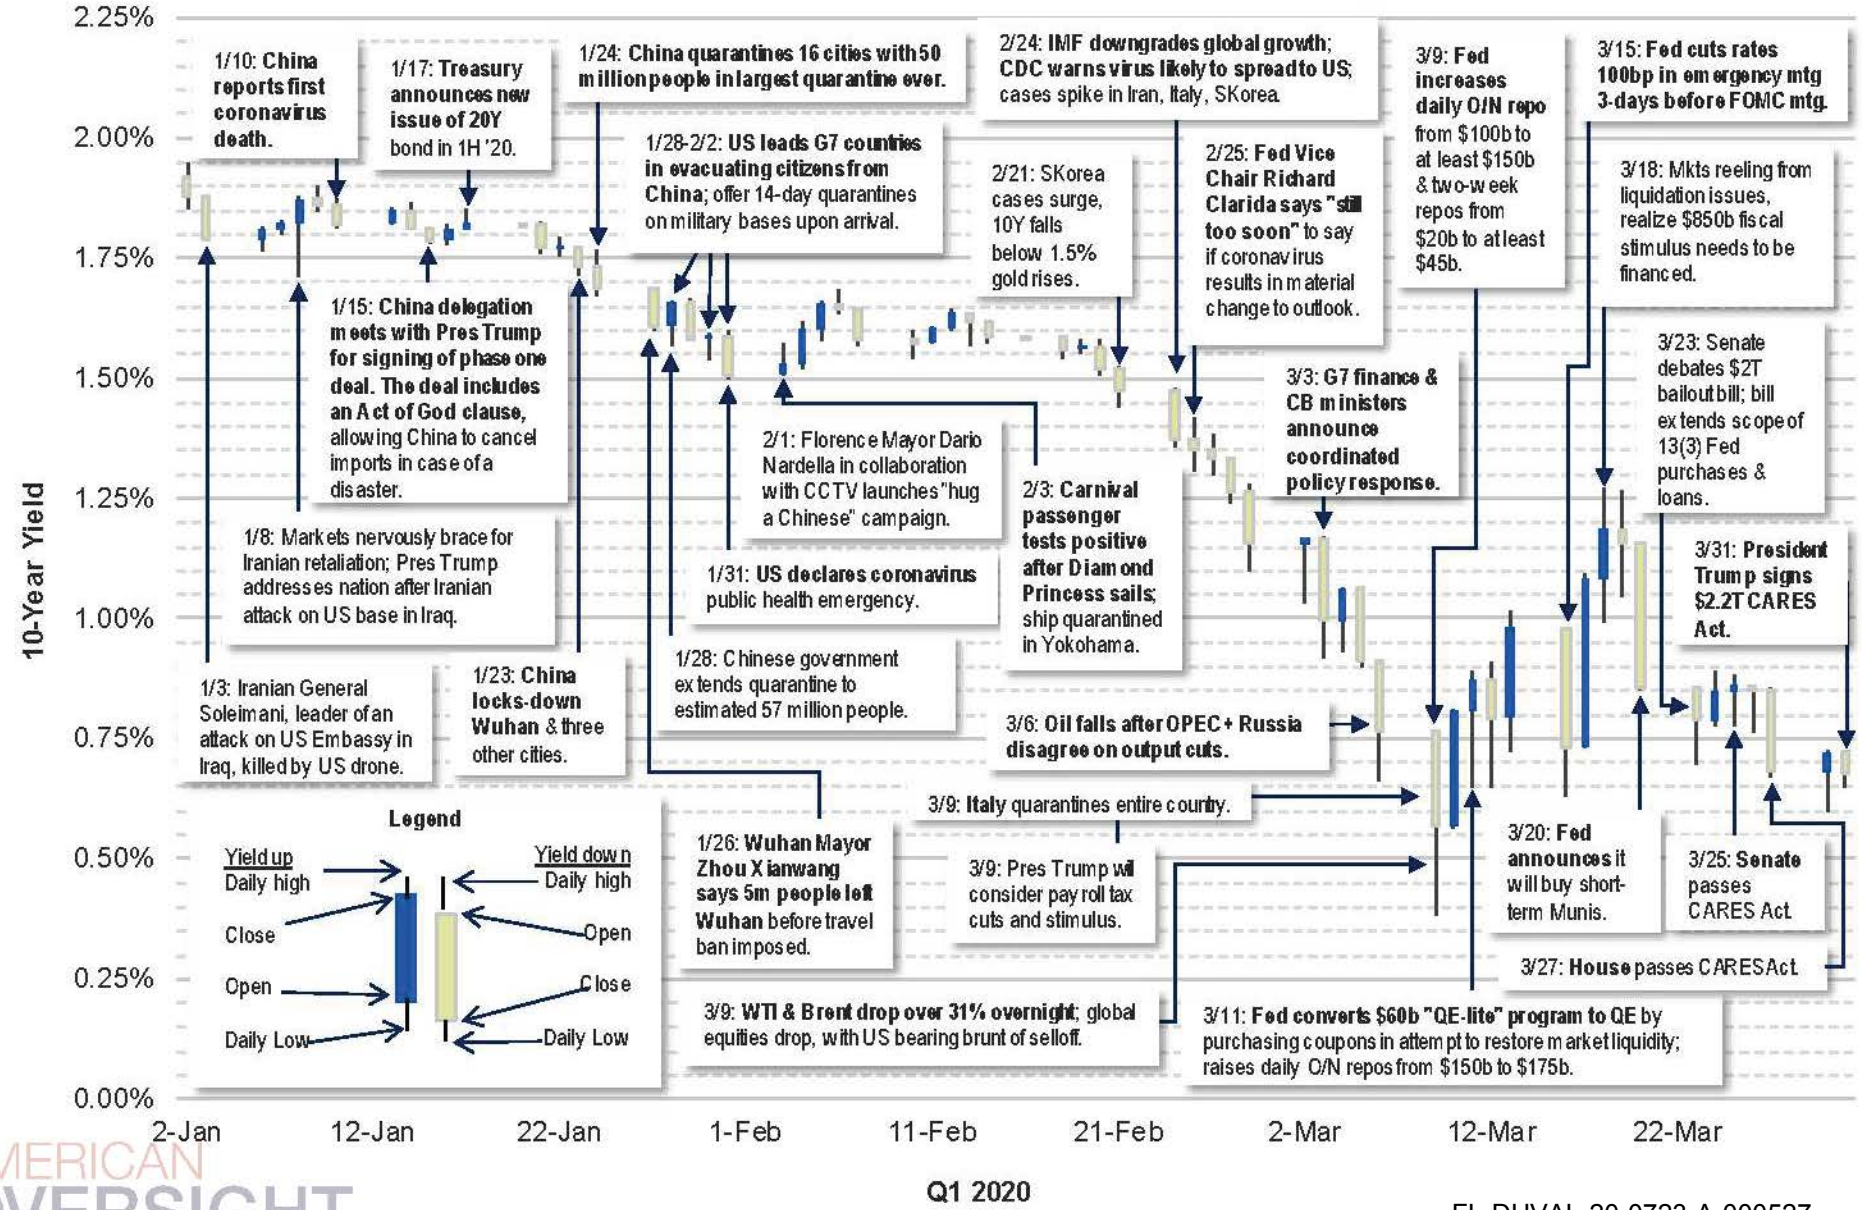
The coronavirus alone did not cause market volatility and liquidity issues, but it was the catalyst along with the oil price war. Repo issues from Q3 '19, never fully resolved, contributed to money market pressures, causing the Fed to relaunch QE and later put it into overdrive with unlimited purchases. The Fed's balance sheet rose to an all-time high, nearing $6 trillion at Q1's end.

China's reluctance to reveal the extent of Covid-19 and its economic impact forced market participants to use alternative measures to gauge the drop in China's production. Electricity usage, traffic congestion, and pollution levels pointed to a 40% - 80% yr/yr output drop. At Q1's end, US imports from China had plunged 60% over Q4 '19 and US exports fell 94%.

Global oil demand was already softening, but China's demand for crude plummeted, prompting OPEC to cut production at a March 5 emergency meeting. On March 6, Russia rejected production cuts, signaling the near end of OPEC+. Oil prices fell 10% overnight. Saudi Arabia in turn flooded European markets with cheap oil in an attempt to take market share from Russia, driving prices below US fracking breakeven levels.



After the Fed cut rates 100bp at its March 15 emergency meeting, the gap between 3-month T-Bills and 3-month LIBOR widened, indicating credit and liquidity risk. The Fed extended swap lines to 14 foreign central banks and established a commercial paper facility, but it will take time to get these up and running. For now, the 134bp gap signals an unwillingness to increase balance sheet commitments much longer than several weeks.

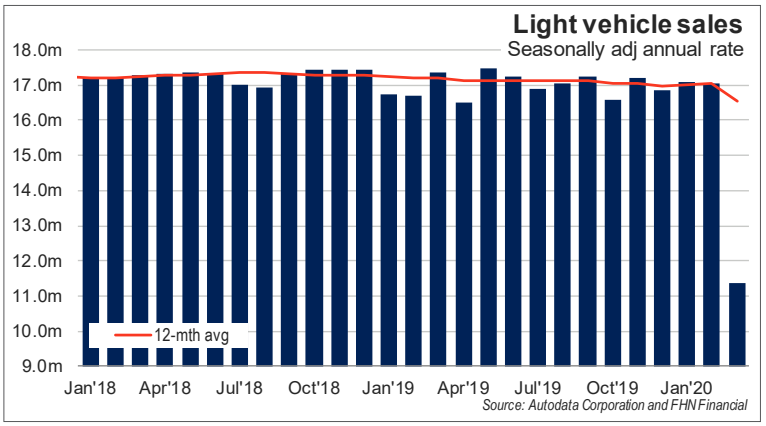
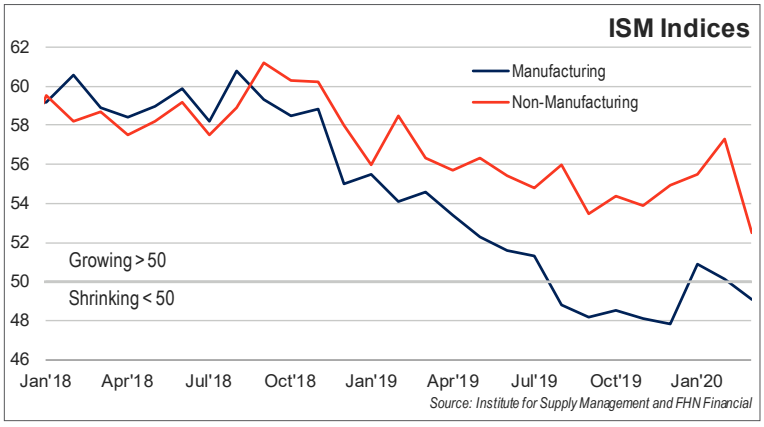
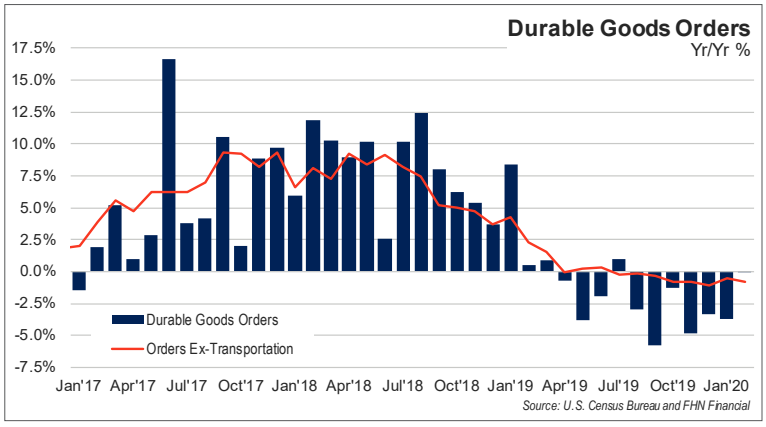
Data Watch: Key Economic Indicators



Nonfarm payrolls fell 701k in March, the fourth biggest drop ever, taking Q1's quarterly total to -212k compared to 417k in Q1 '19 and 703k in Q1 '18. The leisure and hospitality industry led the decline as the first wave of Covid-19 layoffs made way into the data. The drop in April will be in the millions.



Unemployment claims totaled 12.4m in Q1 with 10m from the last two weeks of March. These are the first rounds of layoffs, likely travel & hospitality related. Millions more have filed claims, which are backlogged and await processing by unemployment offices working at full capacity.



Consumer sentiment fell 11.9 pts to 89.1, posting its fourth sharpest decline in 50 years. Expectations and current conditions both fell sharply. Confidence fell 12.6 pts to 120.0 led by pessimism about the outlook. Consumers were optimistic about current conditions prior to the survey's March 19 cutoff date.

The March data gives this chart the appearance of being faulty, but truly, monthly sales fell from 17.04m SAAR in February to 11.35m in March. The 5.69m SAAR sales drop was the deepest since October 1982. On a quarterly basis, average sales were 15.15m in Q1 compared to 16.93m in Q1 2019. Consumer Reports published a guide to buying a car from home.

Manufacturing rebounded after five months of contraction to 50.9 in January and 49.1 at Q1's end. Slower deliveries drove strength in manufacturing and non-manufacturing. Normally, that indicates production at full capacity, but Covid quarantines broke supply chains, slowing orders.

February's durable goods orders surprised with a 1.2% m/m or $3.0b increase to $249.5b. Motor vehicles & parts along with defense capital goods rose, offsetting the drop in computers & electronics. Nonetheless, y/y growth has steadily weakened over the year and is likely to plunge in March and April.

> Dear NAST,
>
> We wanted to provide you with a few updates this evening.
>
> **Treasury Launches Web Portal for CARES Funding to Locals**
> Today, the U.S. Department of the Treasuryannounced the launched a web portal to allow eligible State, local, and tribal governments to receive payments from the $150 billion of COVID relief funding made available under the CARES Act to help offset the costs of their response to the coronavirus pandemic. Local governments must submit their certification by 11:59pm (EDT) on April 17, 2020. While additional guidance is still forthcoming, today's announcement provides additional pertinent information, explanation of methodology, and a list of eligible entities.
>
> **General Update on Next Steps in Congress**
> Congressional leadership continues to negotiate an emergency supplemental package for the Small Business Administration's Paycheck Protection Program. While both sides generally agree on the need for additional supplemental assistance to prevent an interruption in the lending program, House leadership continue to push for other provisions, primarily additional funding for hospitals, states and local governments. NAST has endorsed additional less restrictive funding for states that could be used to compensate for the sharp and unexpected decline in revenue receipts for sales taxes, regularly levied fees, tolls and fares.
>
> Congress will likely come to some agreement on a narrow emergency supplemental ("COVID 3.5") package as the PPP program nears exhaustion of its original funding. Passage of such a supplemental would likely delay the urgency for a fourth package later into May. The House of Representatives is scheduled to reconvene in Washington on May 4, but Congress will more likely return once there is a full fourth COVID-19 response package on which to vote.
>
> **NAST Considerations for Next COVID-19 Package**
> On Friday evening, NAST transmitted a letter outlining additional considerations for a provisional or fourth COVID-19 response package. NAST broadly categorized its recommendations into five areas of economic

impact / need for states:

1. Decreased Revenues
2. Delayed Revenues
3. General and widespread market volatility and dislocation
4. Increased COVID-19-related expenditures

Federal Reserve Announces Municipal Liquidity Facility (MLF)
On Thursday, the Federal Reserve announced theMunicipal Liquidity Facility (MLF), which aims to help state and local governments better manage cash flow pressures in order to continue to serve households and businesses in their communities. The facility will purchase up to $500 billion of short term notes directly from U.S. states (including the District of Columbia), U.S. counties with a population of at least two million residents, and U.S. cities with a population of at least one million residents. Eligible state-level issuers may use the proceeds to support additional counties and cities. Term sheet available here.

What We Know

- The Federal Reserve continues to monitor the municipal markets to evaluate whether further actions are needed.
- States will be able to borrow up to 20 percent of their 2017 own source revenues, and could potentially borrow more if they are doing so to lend down to localities in their state.
- While smaller locals will not be able to borrow directly from the Federal Reserve under this facility, states can borrow from the Federal Reserve and then lend to smaller local governments. This would be optional and the state would essentially be the guarantor of any such loan.
- The facility will likely take a minimum of several weeks to become operational.**In the meantime, you can submit comments and clarification requests directly to the Federal Reserve here (which is how they asked for them to be submitted):** https://www.federalreserve.gov/apps/contactus/feedback.aspx?refurl=/muni/
- We would greatly appreciate it if you would share those comments with us as well.
- NAST continues to advocate for a secondary market purchasing facility as outlined in ourrecommendations on implementing Section 4003 of the CARES Act.

Please let us know if you have any questions.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000550

directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000551

in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000552

would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate,

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000553

shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 9. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). These fees are referenced in Section 123.102, Ordinance Code, as the "Review Group" within the Planning Department category, and consist of the Site Development Review (10-set) Subdivision, and the Site Development Review (10 Set) Non-Subdivision" reviews. 16.3. Assignment. Client shall not assign, subrogate or transfer any interest, obligation or right arising out of the Agreement without prior written consent from FIS, which shall not be unreasonably withheld. No course of dealing or failure to strictly enforce any provision of the Agreement shall be construed as a waiver of such provision for any party's rights. 16.8. Due to the likelihood of irreparable injury, each party shall be entitled to seek an injunction against the other for any breach of confidentiality, indemnification and intellectual property obligations.

16.9. If any provision(s) of this Agreement, including any Addenda, attachments and exhibits hereto, is determined to be invalid, illegal, void, or unenforceable by reason of any law, rule or regulation, administrative order, judicial decision, or public policy, such provision(s) shall not affect any other provision of the Agreement, and the Agreement shall be interpreted and construed as if the invalid, illegal, void, or unenforceable provision had not been included to the extent necessary to bring the Agreement within the requirements of such law, rule or regulation, administrative order, judicial decision, or public policy. In addition, in such event, the parties agree to negotiate in good faith to modify the Agreement to carry out the parties' original intent as closely as possible and to the extent lawful. This Agreement shall not be construed more strongly against either party, regardless of who is more responsible for its preparation. The headings that appear in these General Terms are inserted for convenience only and do not limit or extend its scope.

16.10. Force Majeure. Neither party shall be liable for any failure to perform its obligations under this Agreement due to acts of nature such as fires, floods, electrical storms and natural disasters; war, terrorism or civil disturbances such as strikes and riots; failure of any third party service provider to adequately provide services including without limitation ATM network, POS network, Issuing Bank, internet and telecommunication services; and acts of government, including without limitation the actions of regulatory agencies that inhibit or prohibit either party from performing their obligations hereunder.

Exhibit A

(a) *Six-Month Waiver Period*. The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Joey,

Bella (primarily) , Cristina, and I worked on a new p. 2 Budget Transfer Line Item Detail for BT20-067 which is attached to reflect the entire amount going into the grant. We didn't do anything with page 1 as that is unchanged, so our spreadsheet is blank for that page.

As for the change in the Ordinance 2020-235, I only see where one change that would be needed:

Page 1, line10: Remove GENERAL FUND - GENERAL SERVICE DISTRICT and substitute SPECIAL REVENUE FUND - EMERGENCY INCIDENTS - EOC.

Thanks to Bella and Cristina for working on this today!

Kevin and team Accounting,

Thank you for beginning your review. Your comments make sense. I have attached the ordinance and exhibits which includes the BT that was filed. Please suggest the necessary edits to the BT to be able to most accurately handle this Federal Grant Money as you have explained below and that will satisfy the auditor concerns.

The BT transfer form is on page 27 of 63 of the attached PDF.

Once you draft up the coding to be used, I'll include the new account strings in our response to the auditors. Assuming they're good with the new construct, we'll do up an amended BT Monday morning and the auditors will have a CM introduce the necessary amendment.

Terri,

Please see Brian Park's email below and Bella's email too.

I wanted to see if you had information to add on this. We need the final response to Joey by 2:00pm tomorrow (Sunday). I haven't seen the final BT, although it may be in one of the email strings. There were quite a few emails on the subject.

I discussed with Bella and most of the setup emails were from April Mitchell, Angela, and you. We had wanted to set up a grant/project in that module, but that module still sounds like the grant/project module may not be working, so April and Angela wanted to use different activities instead of a grant/project with several details. We stood firm on using a 331503 account (old subobject) so we could tell it was a Federal grant so we could pick it up. Angela had wanted to use a different account and wanted us to change the name of that account. You and I discussed that, but the account already had been used 26 times. I'm hoping that Angela used the 331503 account in her BT, but don't know for sure.

Bella said that this would still be in 1Cloud version of the all years 165 Emergency subfund (I can't remember what this is called in 1Cloud), although Brian's email says the General Fund was used. It shouldn't be in the General Fund, but should be in a Special Revenue Fund. Based on the discussions with Lucy this past week, if it's in an equivalent to the all years 165 Emergency subfund, we may be able to see an all years report in BCEA once the data warehouse has data loaded into it.

Thanks,

Kevin

Yes and first thought was to set up a grant with several details. However, it went through Budget and April Mitchell, and they suggested to set up as an activity.

I'm certain that this would be Single Audit reportable.

Patti, I was trying to return you call.

Good Evening,

Will the $159 million that the City received be subject to the Single Audit?

- If so, why would we not be putting these into a project/grant? Also, wouldn't these funds need to be deposited somewhere besides the General Fund? Maybe a fund similar to what we did with the American Recovery and Reinvestment Act Funds?
- If these are not subject to the single audit, what are you seeing authoritative to suggest that?
- If we are not 100% positive how to act, don't we need to set silo these funds as much as possible just in case?

With all of that said, if these funds need moved in the BT, we would need the updated BT before the meeting on Monday.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii)

have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000623

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Time Frame:

See **Exhibit A** attached hereto for grant eligibility criteria. **Please note that in the event a certificate of occupancy or final inspection (as applicable) is not obtained prior to the deadlines set forth in Exhibit A (the "Deadlines"), the applicant is required to pay the entire outstanding balance of the mobility fee pursuant to the mobility fee calculation certificate issued by the City. In the event an applicant does not meet the Deadlines, no certificate of occupancy or final inspection shall be approved until payment in full of the outstanding balance.**

Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

The **City of Jacksonville** ("Client") has engaged **Fidelity Information Services, LLC** (together with its subsidiaries and Affiliates, "FIS") to provide Client with one or more prepaid card programs (each a "Program") as further defined below. The Cards will be distributed by Client in connection with bona fide business programs the Client makes available to its employees, franchisees, dealers, distributors, clients or customers. "Affiliate" means, with respect to a party, any entity which directly or indirectly, through one or more intermediaries, is controlled by, or is under common control with such party.

1. THE CLIENT ACKNOWLEDGES AND UNDERSTANDS THAT FIS OR A THIRD PARTY PROVIDER TO FIS has an agreement to market and manage prepaid card programs with a nationally chartered financial institution ("Issuing Bank") which is the issuer of Cards, a member of Visa USA ("Visa") or MasterCard ("MasterCard") (Visa and MasterCard are referred to herein as the "Association(s)") and licensed through the Associations to provide card issuance services. As used in this agreement any reference to FIS shall also be a reference to its third-party service providers.

2. **Commencement. Term.**

2.1. Each party shall make commercially reasonable efforts, including the assignment of adequate personnel, to commence the Service as soon as practicable following the Effective Date. The "Commencement Date" of a Program is the date on which Client first distributes a Card. FIS reserves the right to decline to commence a Program for Client in its sole discretion or discontinue the distribution of cards if determined in its or Issuing Bank's sole discretion to be inconsistent with safe and sound banking practices.

2.2. Term. The Agreement is effective on the Effective Date and shall continue for an initial term of sixty (60) months (the "Initial Term"). After the Initial Term, or the then current Renewal Term, the term of the Agreement may be renewed for one additional sixty (60) month term upon the mutual agreement of the parties (a "Renewal Term") unless terminated by Client or FIS in writing at least 180 days prior to the last day of the Initial Term.

3. **FIS Responsibilities**.

3.1. FIS Performance. FIS shall provide Client and, where applicable, Client's customers ("Customers") with access to and use of the Service in accordance with these Terms, and FIS' then current standard user operating instructions and requirements made available to Client from time to time ("Specifications"). FIS shall make available documents, reports, statements and other output of the Services, as may be more fully described in the Specifications (collectively, "Output"). "Service" means a service provided by FIS pursuant to this Agreement, to include any Program. FIS may withdraw a Service or terminate any function or Service (i) immediately upon any final regulatory, legislative, or judicial determination that providing such Service or function violates applicable law or regulation or the rights of any third party, or (ii) upon providing not less than three hundred sixty-five (365) days' prior written notice to Client so long as FIS is withdrawing or terminating the Service or function from its entire client base.

3.2. FIS will provide to Client one or more prepaid card programs (each a "Program") as described the applicable program terms (set forth herein) and as designated on an Order Form, whereby FIS will supply Client with one or more types of prepaid cards ("Cards") purchased by Client pursuant to an Order Form. The Cards will be distributed by Client in connection with bona fide business, economic incentive and COVID-19 related programs the Client makes available to its employees, franchisees, dealers, distributors, clients, customers, or residents of Duval County, as applicable. All Cards will be prepaid cards as further described in the Program Addendum.

3.3. FIS shall provide the Programs in compliance with all Laws applicable to FIS as provider of the Programs. "Law" means any law, rule, regulation, ordinance, code or order to which a party may be subject or under which a party may exercise rights.

3.4. FIS shall perform an on-going review of Laws applicable to the provision of the Programs. FIS shall maintain the features of the Programs in accordance with all Laws applicable to such features, including new or amended Laws (as applicable and necessary to support compliance obligations), in a non-custom environment.

4. **Client Responsibilities**.

4.1. Client shall: (i) timely deliver to FIS any information necessary for the provision of the Programs in a

form and format approved by FIS, including but not limited to the Client Due Diligence Form included with this Agreement; (ii) [intentionally omitted], (iii) be solely responsible for timely procuring any information or cooperation required from its employees other third parties in order to commence the Program; (iv) have sole responsibility for verifying the accuracy, completeness or authenticity of any Data furnished by Client or a third party; (v) be solely responsible for training its employees and representatives to comply with all Laws applicable to Client and the procedures set forth in any manual or other literature provided to Client by FIS; (vi) comply with all Laws applicable to Client's business and its use of the Programs, including but not limited to those Laws relating to usury, truth-in-lending, fair credit reporting, equal credit opportunity, automated clearing house transfers, networks associations, electronic funds transfer, privacy and direct marketing, regardless of whether Client uses any forms or other materials supplied by FIS.

4.2. Client shall be responsible for monitoring and interpreting (and for complying with, to the extent such compliance requires no action by FIS), the applicable Laws pertaining to Client's business ("Legal Requirements"). Based on Client's instructions, FIS shall implement features and options (collectively, the "Parameters") for a Program that shall apply to Client. Client shall be responsible for determining that such selections are consistent with the Legal Requirements. In making such determinations, FIS deliver the Programs in accordance with the Parameters.

5. Data.

5.1. Client shall be solely responsible for transmitting its Data (collectively, "Client Data") and verifying the accuracy, completeness or authenticity of Data furnished by Client or a third party. Client shall bear any risk of loss resulting from that transmission until receipt by FIS. FIS shall bear the risk of loss resulting from Data transmitted to Client until Client confirms receipt. If Client requests FIS to disclose Client Data to a third party, Client shall provide FIS with written authorization to do so and bear any risk of loss or liability associated with that disclosure. In addition, FIS shall be held harmless from any claim arising out of such disclosure or the third party's use or disclosure of that Client Data. If Client's requested disclosure includes FIS Confidential Information, FIS may remove FIS Confidential Information (or require such removal) prior to such disclosure and require the third party to enter into a written agreement with FIS governing use, disclosure and safekeeping of the FIS Confidential Information.

5.2. FIS shall not be responsible for the accuracy, completeness or authenticity of any Data furnished by Client or a third party, and shall have no obligation to audit, check or verify that Data. If any Data submitted by Client or a third party to FIS is incorrect, incomplete or not in the required format, FIS may require Client to resubmit the Data or FIS may correct the Data and bill Client its then current rates for performing those corrections. FIS shall attempt to notify Client prior to Client incurring such expense.

5.3. Client shall maintain a copy of all Data submitted to FIS (whether directly or through a third party) to permit reconstruction if ever required. Client assumes all risk and expense associated with Data reconstruction, except for those expenses incurred as a direct consequence of FIS' breach of the Agreement. If Data reconstruction is ever required, the parties shall mutually agree on a schedule for that reconstruction

6. **Reserved**.

7. **Use of Services.** Except as otherwise permitted in the Agreement or in writing by FIS, Client shall use each Service only for its own internal business purposes to service its Customers in accordance with the terms of the Agreement and the applicable Specifications. This legislation appropriates Federal funding received from the CARES Act to fund various programs in Duval County designed to lessen the economic impact stemming in part from national, state, and local measures closing certain businesses, public schools, public beaches, and imposing emergency work-at-home requirements in an effort to slow the infection rate of COVID-19. Kevin and team Accounting,

Thank you for beginning your review. Your comments make sense. I have attached the ordinance and exhibits which includes the BT that was filed. Please suggest the necessary edits to the BT to be able to most accurately handle this Federal Grant Money as you have explained below and that will satisfy the auditor concerns.

The BT transfer form is on page 27 of 63 of the attached PDF.

Once you draft up the coding to be used, I'll include the new account strings in our response to the auditors. Assuming they're good with the new construct, we'll do up an amended BT Monday morning and the auditors will have a CM introduce the necessary amendment.

Terri,

Please see Brian Park's email below and Bella's email too.

I wanted to see if you had information to add on this. We need the final response to Joey by 2:00pm tomorrow (Sunday). I haven't seen the final BT, although it may be in one of the email strings. There were quite a few emails on the subject.

I discussed with Bella and most of the setup emails were from April Mitchell, Angela, and you. We had wanted to set up a grant/project in that module, but that module still sounds like the grant/project module may not be working, so April and Angela wanted to use different activities instead of a grant/project with several details. We stood firm on using a 331503 account (old subobject) so we could tell it was a Federal grant so we could pick it up. Angela had wanted to use a different account and wanted us to change the name of that account. You and I discussed that, but the account already had been used 26 times. I'm hoping that Angela used the 331503 account in her BT, but don't know for sure.

AMERICAN OVERSIGHT

Bella said that this would still be in 1Cloud version of the all years 165 Emergency subfund (I can't remember what this is called in 1Cloud), although Brian's email says the General Fund was used. It shouldn't be in the General Fund, but should be in a Special Revenue Fund. Based on the discussions with Lucy this past week, if it's in an equivalent to the all years 165 Emergency subfund, we may be able to see an all years report in BCEA once the data warehouse has data loaded into it.

Thanks,

Kevin

Yes and first thought was to set up a grant with several details. However, it went through Budget and April Mitchell, and they suggested to set up as an activity.

I'm certain that this would be Single Audit reportable.

Patti, I was trying to return you call.

power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) and (c) (Mayor's transfer power) that: (i) limits the Mayor's transfer authority to $500,000 during a fiscal year; and (ii) caps the Mayor's authority to increase the fund and/or sub-fund budget to recognize additional revenue at $100,000, respectively, are hereby waived through December 31, 2020 as to the $25,000,000 of COVID-19 Response Funds, to authorize the Mayor without further Council action to transfer the COVID-19 Response Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with the authorized uses of such funds under the CARES Act grant received by the City. Consistent with Section 14.03 of the City Charter, the remaining, applicable provisions of Section 106.304, *Ordinance Code*, authorizes the Mayor to transfer funds from any agency, non-departmental or departmental line item to any other agency, non-departmental or departmental line item, subject to the limitations and other requirements of Section 106.304 without prior notice to Council, and requires that the Mayor shall provide to the Council Auditor, within three working days after the effective date thereof, a copy of written documentation of all transfers of funds made during the applicable fiscal year.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii)

have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000688

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Time Frame:

See **Exhibit A** attached hereto for grant eligibility criteria. **Please note that in the event a certificate of occupancy or final inspection (as applicable) is not obtained prior to the deadlines set forth in Exhibit A (the "Deadlines"), the applicant is required to pay the entire outstanding balance of the mobility fee pursuant to the mobility fee calculation certificate issued by the City. In the event an applicant does not meet the Deadlines, no certificate of occupancy or final inspection shall be approved until payment in full of the outstanding balance.**

Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Kevin and team Accounting,

Thank you for beginning your review. Your comments make sense. I have attached the ordinance and exhibits which includes the BT that was filed. Please suggest the necessary edits to the BT to be able to most accurately handle this Federal Grant Money as you have explained below and that will satisfy the auditor concerns.

The BT transfer form is on page 27 of 63 of the attached PDF.

Once you draft up the coding to be used, I'll include the new account strings in our response to the auditors. Assuming they're good with the new construct, we'll do up an amended BT Monday morning and the auditors will have a CM introduce the necessary amendment.

Terri,

Please see Brian Park's email below and Bella's email too.

I wanted to see if you had information to add on this. We need the final response to Joey by 2:00pm tomorrow (Sunday). I haven't seen the final BT, although it may be in one of the email strings. There were quite a few emails on the subject.

I discussed with Bella and most of the setup emails were from April Mitchell, Angela, and you. We had wanted to set up a grant/project in that module, but that module still sounds like the grant/project module may not be working, so April and Angela wanted to use different activities instead of a grant/project with several details. We stood firm on using a 331503 account (old subobject) so we could tell it was a Federal grant so we could pick it up. Angela had wanted to use a different account and wanted us to change the name of that account. You and I discussed that, but the account already had been used 26 times. I'm hoping that Angela used the 331503 account in her BT, but don't know for sure.

Bella said that this would still be in 1Cloud version of the all years 165 Emergency subfund (I can't remember what this is called in

AMERICAN OVERSIGHT

1Cloud), although Brian's email says the General Fund was used. It shouldn't be in the General Fund, but should be in a Special Revenue Fund. Based on the discussions with Lucy this past week, if it's in an equivalent to the all years 165 Emergency subfund, we may be able to see an all years report in BCEA once the data warehouse has data loaded into it.

Thanks,

Kevin

Yes and first thought was to set up a grant with several details. However, it went through Budget and April Mitchell, and they suggested to set up as an activity.

I'm certain that this would be Single Audit reportable.

Patti, I was trying to return you call.

FL-DUVAL-20-0723-A-000752

have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000753

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000754

else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Reason For Request:

Total Number of Employees to be preserved.: _____

Time Frame:

See **Exhibit A** attached hereto for grant eligibility criteria. **Please note that in the event a certificate of occupancy or final inspection (as applicable) is not obtained prior to the deadlines set forth in Exhibit A (the "Deadlines"), the applicant is required to pay the entire outstanding balance of the mobility fee pursuant to the mobility fee calculation certificate issued by the City. In the event an applicant does not meet the Deadlines, no certificate of occupancy or final inspection shall be approved until payment in full of the outstanding balance.**

Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Kevin and team Accounting,

Thank you for beginning your review. Your comments make sense. I have attached the ordinance and exhibits which includes the BT that was filed. Please suggest the necessary edits to the BT to be able to most accurately handle this Federal Grant Money as you have explained below and that will satisfy the auditor concerns.

The BT transfer form is on page 27 of 63 of the attached PDF.

Once you draft up the coding to be used, I'll include the new account strings in our response to the auditors. Assuming they're good with the new construct, we'll do up an amended BT Monday morning and the auditors will have a CM introduce the necessary amendment.

Terri,

Please see Brian Park's email below and Bella's email too.

I wanted to see if you had information to add on this. We need the final response to Joey by 2:00pm tomorrow (Sunday). I haven't seen the final BT, although it may be in one of the email strings. There were quite a few emails on the subject.

I discussed with Bella and most of the setup emails were from April Mitchell, Angela, and you. We had wanted to set up a grant/project in that module, but that module still sounds like the grant/project module may not be working, so April and Angela wanted to use different activities instead of a grant/project with several details. We stood firm on using a 331503 account (old subobject) so we could tell it was a Federal grant so we could pick it up. Angela had wanted to use a different account and wanted us to change the name of that account. You and I discussed that, but the account already had been used 26 times. I'm hoping that Angela used the 331503 account in her BT, but don't know for sure.

Bella said that this would still be in 1Cloud version of the all years 165 Emergency subfund (I can't remember what this is called in

AMERICAN OVERSIGHT

1Cloud), although Brian's email says the General Fund was used. It shouldn't be in the General Fund, but should be in a Special Revenue Fund. Based on the discussions with Lucy this past week, if it's in an equivalent to the all years 165 Emergency subfund, we may be able to see an all years report in BCEA once the data warehouse has data loaded into it.

Thanks,

Kevin

Yes and first thought was to set up a grant with several details. However, it went through Budget and April Mitchell, and they suggested to set up as an activity.

I'm certain that this would be Single Audit reportable.

Patti, I was trying to return you call.

have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000818

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Reason For Request:

☐ Preservation of new jobs.

Total Number of Employees to be preserved.: _____

Time Frame:

See **Exhibit A** attached hereto for grant eligibility criteria. **Please note that in the event a certificate of occupancy or final inspection (as applicable) is not obtained prior to the deadlines set forth in Exhibit A (the "Deadlines"), the applicant is required to pay the entire outstanding balance of the mobility fee pursuant to the mobility fee calculation certificate issued by the City. In the event an applicant does not meet the Deadlines, no certificate of occupancy or final inspection shall be approved until payment in full of the outstanding balance.**

AMERICAN OVERSIGHT

Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

The Cards will be distributed by Client in connection with bona fide business programs the Client makes available to its employees, franchisees, dealers, distributors, clients or customers. "Affiliate" means, with respect to a party, any entity which directly or indirectly, through one or more intermediaries, is controlled by, or is under common control with such party.

1. THE CLIENT ACKNOWLEDGES AND UNDERSTANDS THAT FIS OR A THIRD PARTY PROVIDER TO FIS has an agreement to market and manage prepaid card programs with a nationally chartered financial institution ("Issuing Bank") which is the issuer of Cards, a member of Visa USA ("Visa") or MasterCard ("MasterCard") (Visa and MasterCard are referred to herein as the "Association(s)") and licensed through the Associations to provide card issuance services. As used in this agreement any reference to FIS shall also be a reference to its third-party service providers.

2. **Commencement. Term.**

2.2. Term. The Agreement is effective on the Effective Date and shall continue for an initial term of sixty (60) months (the "Initial Term"). After the Initial Term, or the then current Renewal Term, the term of the Agreement may be renewed for one additional sixty (60) month term upon the mutual agreement of the parties (a "Renewal Term") unless terminated by Client or FIS in writing at least 180 days prior to the last day of the Initial Term.

3. **FIS Responsibilities**.

3.1. FIS Performance. FIS shall provide Client and, where applicable, Client's customers ("Customers") with access to and use of the Service in accordance with these Terms, and FIS' then current standard user operating instructions and requirements made available to Client from time to time ("Specifications"). FIS shall make available documents, reports, statements and other output of the Services, as may be more fully described in the Specifications (collectively, "Output"). "Service" means a service provided by FIS pursuant to this Agreement, to include any Program. FIS may withdraw a Service or terminate any function or Service (i) immediately upon any final regulatory, legislative, or judicial determination that providing such Service or function violates applicable law or regulation or the rights of any third party, or (ii) upon providing not less than three hundred sixty-five (365) days' prior written notice to Client so long as FIS is withdrawing or terminating the Service or function from its entire client base.

3.2. FIS will provide to Client one or more prepaid card programs (each a "Program") as described the applicable program terms (set forth herein) and as designated on an Order Form, whereby FIS will supply Client with one or more types of prepaid cards ("Cards") purchased by Client pursuant to an Order Form. The Cards will be distributed by Client in connection with bona fide business, economic incentive and COVID-19 related programs the Client makes available to its employees, franchisees, dealers, distributors, clients, customers, or residents of Duval County, as applicable. All Cards will be prepaid cards as further described in the Program Addendum.

Subject: COVID-19: Submit Two 213 Requests for Emtec
Importance: High

Elizabeth,

I just spoke with April Mitchell regarding Emtec's services provided since the emergency declaration was implemented March 14.

We need to submit two 213 requests for all of Emtec's hours / cost since March 14.

One would be for EOC Operations and the other for desktop support of the COVID-19 Mortgage, Rent, & Utilities Relief Program at the Ed Ball and JPL Main.

The EOC Operations cost should be estimated through June 30.

AMERICAN OVERSIGHT

Steph can assist with the start and end dates for the relief program to estimate the cost. You may need to add an extra two weeks to be safe.

Tracy, Sabrina, Alex, Tom,

All work performed by Emtec starting March 14 should not be billed to the current Emtec PO. Once Elizabeth receives approval, two POs will be created specific to this emergency to pay for their services.

Have any invoices been paid thus far for this period?

Thank you.

Ken – Understood.

Amy - Are you able to send me Emtec's actual hours for April within the next hour?

Stephanie – Can you please give me an idea of when Emtec resources began work on site preparation and who was engaged in that effort?

I need to compile the estimate as soon as possible this afternoon.

Subject: COVID-19: Submit Two 213 Requests for Emtec
Importance: High

Elizabeth,

I just spoke with April Mitchell regarding Emtec's services provided since the emergency declaration was implemented March 14.

We need to submit two 213 requests for all of Emtec's hours / cost since March 14.

One would be for EOC Operations and the other for desktop support of the COVID-19 Mortgage, Rent, & Utilities Relief Program at the Ed Ball and JPL Main.

AMERICAN OVERSIGHT

The EOC Operations cost should be estimated through June 30.

Steph can assist with the start and end dates for the relief program to estimate the cost. You may need to add an extra two weeks to be safe.

Tracy, Sabrina, Alex, Tom,

All work performed by Emtec starting March 14 should not be billed to the current Emtec PO. Once Elizabeth receives approval, two POs will be created specific to this emergency to pay for their services.

Have any invoices been paid thus far for this period?

Thank you.

Accounting and Budget,

Please see the attached draft legislation. By the end of the day today I need account names and 1cloud account strings to populate the attached draft ordinance as well as an associated BT accepting the $167,000,000 and sending it to the accounts in the manner specified by the bill. I have re-attached the excel summary of funding actions as well as the write up about each program.

All—

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

BE IT ORDAINED by the Council of the City of Jacksonville:

Section 1. Findings. It is hereby ascertained, determined, found and declared as follows:

(a) The recitals set forth herein are true and correct.

Section 5. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000894

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000895

three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance;

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance; or

In determining the value, the project value may include all phases of development associated with the final construction and/or

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000896

engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved.

Section 7. Temporary Moratorium Imposed as to certain Building Inspection Fees imposed by Section 320.402(b)(3) (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). The provisions of Chapter 320 (General Provisions) within the Constructions Regulations and Building Codes, Part 4 (Permits), Section 320.402(b)(3) (Application for Permit) and Section 320.409 (Schedule of permit fees), that requires the payment of application fees, building or construction fees, electrical permit fees, plumbing permit fees, mechanical permit fees, miscellaneous permit fees and miscellaneous fees are hereby temporarily waived for the earlier of 6 months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period").

The provisions of Chapter 654 (Code of Subdivision Regulations), Section 654.108(e) (Approval of Preliminary Site Plan: Procedures for Approval of Preliminary and Final engineering plans for required improvements), and Section 654.138(a)(c) and (d) (Fees) that require payment of application and recording fees are hereby

The waivers authorized by this Section shall apply solely as to tipping fees charged directly to customers at the Trail Ridge Landfill, and not those fees included in the Solid Waste User Fees.

Section 12. Temporary Moratorium Imposed on the Collection of Rent, Additional Rent, CAM Fees and other sums owed by eligible tenants or licensees under any lease or license agreement to which the City is a party as landlord or licensor. Joey, please see lori's comments below. We need to be careful on what loans we are forgiving, broad parameters may have unintended consequences. Are the Carling loans being forgiven?

A few thoughts/comments

1. In the purpose section about midway Section 4 says it is allocating "the remaining…" and then there are 5, 6, 7 etc. So are 5, 6 and 7 a portion of the $ in 4 or is 4 not the total remaining after 1-3?
2. On loan forgiveness, we need to be sure we are not forgiving any tranche of the MPS development Loan.
3. See comments on document to Section 11. You captured it pretty well for a first pass!

Lori—

Attached is what I emphasize is an extremely preliminary draft of the above legislation that normally I would not circulate at this stage of preparation, but am doing so given time constraints.

Please review the language in Section 11, which houses the discounted parking program. That was essentially a stream of consciousness pass at putting in the basic parameters and obviously will need refinement. Please let me know if any questions or comments and feel free to mark-up freely if desired.

Joey, I don't believe you need to review this draft yet unless you just want to (I included a redline against the draft circulated late yesterday just in case), I will circulate a draft after making further revisions tomorrow, but please note I have highlighted a few questions for you in yellow, if you will please respond to those when you can.

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

BE IT ORDAINED by the Council of the City of Jacksonville:

Section 1. Findings. It is hereby ascertained, determined, found and declared as follows:

(a) The recitals set forth herein are true and correct.

(b) By incentivizing the retention of employees and providing grant funds to small businesses within the City, the Program is designed to benefit both individuals and small businesses and will promote and further the public and municipal purposes of the City and serve to limit the severe economic impacts of COVID-19.

(c) The Program is designed to provide rapid economic relief to small businesses in order to maintain the viability of such businesses and the employment of individuals thereof, thus maintaining the City’s tax base and revenues.

(d) Enhancement of the City's tax base and revenues, are matters of State and City policy and State and City concern in order that the State and its counties and municipalities, including the City, shall not continue to be endangered by unemployment, underemployment, economic recession, poverty, crime and disease, and consume an excessive proportion of the State and City revenues because of the extra services required for police, fire, accident, health care, elderly care, charity care, hospitalization, public housing and housing assistance, and other forms of public protection, services and facilities.

Section 5. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000933

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000934

three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance;

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance; or

In determining the value, the project value may include all phases of development associated with the final construction and/or

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000935

engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved.

Section 7. Temporary Moratorium Imposed as to certain Building Inspection Fees imposed by Section 320.402(b)(3) (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). Section 12. Temporary Moratorium Imposed on the Collection of Rent, Additional Rent, CAM Fees and other sums owed by eligible tenants or licensees under any lease or license agreement to which the City is a party as landlord or licensor. FEMA reimbursement shortfall = $12.5 million
These funds are being set aside to handle the 12.5% of costs that would be the City's share of a potential $100 million COVID-19 loss event after the Federal and State shares of reimbursement are received. We similarly set funds aside like this for the prior two major hurricanes (Irma and Matthew)

VyStar/COJ Small biz program commitment = $26,000,000
This $26 million usage of federal grant funds will be to reimburse the city for the project costs incurred by the City related to the COVID-19 small business relief grant program we put in place in late March. The General Fund will accept all $26 million, $9 million of which is reimbursement for already appropriated funds, and then the bill will appropriate the remaining $17,000,000 for the purposes of fully funding the program.

Expenditures to COJ funded entities for closure lost revenues = $20,000,000
These funds will be set aside to assist entities which are funded in whole or in part by the government to manage a function or facility on behalf of the City. These funds will allow for expenses to be funded by such entities with these funds as many have experienced declines in revenue due to COVID-19 related reductions or cessations of business. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations. Specific usages of funds from this pool will be considered by the Mayor and a report made to City Council upon allocation.

Expenditures to COJ General Fund and other internal funds for lost revenues due to tax declines and waived rent/loans/fees/parking = $25,000,000
These funds will be set aside to reimburse the City's General Fund, enterprise funds, and other internal funds for losses incurred due to COVID-19 relief response actions as well as closure related revenue decreases for which expenses are still necessary to run government. Initial allocations will be $4 million reimbursement to mobility fee accounts to fund the six month waivers, and $5 million to the Building Inspection Division fund (159) to reimburse for similar six month waivers for all fees normally charged. Other specific usages of funds from this pool will be considered by the Mayor and a report made to City Council upon allocation.

Mortgage/Rent/Utility relief = $43,500,000
These funds will be appropriated to FIS to purchase a maximum of 43,500 pre-loaded cards with a $1000 balance each and will fund the administrative expenses related thereto. Citizens with incomes lower than $75k, who were employed on 2/29/20, and who attest to an impact of greater than 25% from COVID-19 shutdowns will qualify. We will be getting the quote from FIS today. They are Jacksonville based, can issue these cards quickly, and will likely be performing this service at cost. Stephanie is working on the administrative component and ITD is building the website tool to collect info to set the appointment. We will collect name, address, phone number, and SSNs for tax reporting purposes (possibly w-9s). Randall is working on that with outside tax counsel.

COVID-19 Testing Sites = $40,000,000
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.
