(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects

AMERICAN OVERSIGHT

whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 98. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value

AMERICAN OVERSIGHT

of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 109. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). These fees are referenced in Section 123.102, Ordinance Code, as the "Review Group" within the Planning Department category and consist of the Site Development Review (10-set) Subdivision, and the Site Development Review (10 Set) Non-Subdivision" reviews. We wanted to make sure everyone was on the same page as far as technical amendments to the legislation.

1. Revising the BT – this will amend all references to the BT and Exhibit 1 along with attaching the revised BT
2. Inserting "subject to future Council approval" at the end of Section 4 on pg. 11
3. Adding clarification on pg. 11, line 18 that the $5,000,000 is to fund the Building Inspection fee moratorium authorized herein. This was not previously discussed, but is reflective of the language on pg. 2, lines 4-7.

John, could you draft this amendment in preparation for the Council meeting if everyone is in agreement? You can contact me if you have any questions.

Audit team,

Please see responses to your questions below:

AMERICAN OVERSIGHT

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."
    b. P. 3, starting on line 19 through p. 5, line 8 starts off with "…a six month moratorium on the following permit, inspection and application fees as to…" and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
    c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to? The $5 million reimburses the Building Inspection division for half of the $10 million estimated cost of providing waivers for 6 months (all fees in old fund 159 and the fire inspection fees).
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both? The $16 is what is left of the $25 million bucket after deducting for the $4 million mobility expense and the $5 million Building Inspection Division Fee expense for providing 6 month waivers.

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act? Yes. $9 million of it is being specifically appropriated in this bill ($5mm for BID fee waivers and $4mm for mobility fee waivers), with the other $16 million to be used for anything authorized by the CARES act that is in this category of economic impact to the City as shown on the BT. Rent, loan, lease payment, parking fee waivers will be within this bucket's uses.

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)? The waivers do not apply to haulers that currently have a contract rate with the City, but would apply, for example, to a City franchise hauler to the extent they are doing other commercial hauling for which they pay a tipping fee onsite. As to the beaches communities, Atlantic and Neptune beaches will see relief, as those entities currently pay their fees onsite. Jax Beach and Baldwin will not see relief as they currently do not pay any fees onsite.

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. Below are the items that we believe will need to be changed on the BT (Accounting and Budget are working on this. We will send a revised BT when ready. Most likely in the AM):
    - All of the $159 million should be put into a grant fund for tracking purposes
    - The previous BT on the small business loan program in 2020-201-E should in essence be reversed- (i.e. the transfer from fund balance should be deappropriated and the expense as well) and that deappropriation should be included on this BT
    - The $9 million that is in a cash carryover should be revised to Miscellaneous Grants and Aids within the Grants Fund
    - The $20 million should be placed in a contingency since this will require subsequent legislation, still within the Grants Fund as all the other funding
    - The contingency of $12.5 million should be placed in the same grant fund initially and then can later be transferred out/expensed to the Emergency Incidents Fund (Again this would be for tracking purposes. If you want, it could even be done as part of this bill)

5. General question, but somewhat tied in with the $20 million that will come back through as separate legislation- Given that the guidance indicates that government revenue shortfalls cannot be covered by this stimulus money, can you clarify whether these funds can be used to offset the City venues and also whether any bed tax revenue shortfall could be addressed. The City venues may be offset to the extent there is economic impact that was unforeseen, caused by COVID-19 and containment actions related thereto, and qualifies under the terms of the CARES grant. As uses are proposed in subsequent legislation, such may be reviewed as qualifying at that time. If not, how will those expenses be covered (e.g., the revenue shortfall on the "bed tax" used for the debt service on the stadium and scoreboards/daily's place)? As with any shortfall, the City and those who manage certain venues have various tools to manage shortfalls such as expense cuts and transfers from fund balance. The City will be closely watching revenues throughout the year, will be managing expenses accordingly, and in the event of declines in excess of budget flexibility has built reserves to strong levels to assist in handling such problems.

6. Have you been able to get something in writing about the separate FEMA funding in the future?
   Please see the below link to FEMA's declaration for Federal Disaster #4486 for the COVID-19 Pandemic for the State of Florida. Typically, not all counties are included within a state's declaration, but all Florida counties are included as eligible for FEMA Public Assistance. https://www.fema.gov/disaster/4486#

We also wanted to mention that we do have a Council Member that is willing to sponsor any technical amendments needed, such as a revised BT and any clarifying language that is deemed necessary on the $25 million. Thank you in advance for your help.

Responses to 2nd email:

1. Please provide a listing of the tenants and amounts that could be subject to Section 20 of the bill.I'll send you the list we've been working off of in the AM (can't access my network drives right now) for those with rent/loan/lease arrangements with the City's departments and DIA. While every effort was made to assess all potential lease/rent/loan arrangements to which the City is a party, there may be others, and such are not disqualified for consideration by virtue of not being on this list.
2. Please provide a listing of loans (with monthly or yearly amounts) that could be subject to Section 21 of the bill.This is on the list we'll send you as mentioned in #1 above.
3. To be clear as we understand the Mayor's transfer powers, excluding the waiver on the $25 million, for all of the other programs, it is our understanding that the Mayor would not have the authority to move funding between or among the different programs without coming back to Council, correct? Correct. The waiver of transfer authority limits applies to the $25mm bucket only. Moving across buckets would be subject to future council action.
4. Are you in opposition to an amendment to add clarifying language to the end of the sentence on page 11, line 30 that states "subject to future council appropriation"?
   No objection

Subject: Ordinance 2020-235 - CARES Act Grant Funds

Joey/John,

We have had a chance to look at the revised draft (i.e. the version as it now sits as filed) on the CARES act and have some follow up questions/comments. Note some of the items have been hit on via separate communication and are outstanding items, but we wanted to make sure we had everything in one place for easier tracking by everyone.

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
   a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection**

AMERICAN OVERSIGHT

fee moratorium authorized herein."

b. P. 3, starting on line 19 through p. 5, line 8 starts off with "…a six month moratorium on the following permit, inspection and application fees as to…" and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:

- What does the $5 million apply to?
- What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both?

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act?

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)?

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. Below are the items that we believe will need to be changed on the BT:
    - All of the $159 million should be put into a grant fund for tracking purposes

    - The contingency of $12.5 million should be placed in the same grant fund initially and then can later be transferred out/expensed to the Emergency Incidents Fund (Again this would be for tracking purposes. If you want, it could even be done as part of this bill)

funds to revert to accounts of origin subject to future Council approval.

Section 5. Waiving Section 106.304(b) (Mayor's transfer power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) and (c) (Mayor's transfer power) that: (i) limits the Mayor's transfer authority to $500,000 during a fiscal year; and (ii) caps the Mayor's authority to increase the fund and/or sub-fund budget to recognize additional revenue at $100,000, respectively, are hereby waived through December 31, 2020 as to the $25,000,000 of COVID-19 Response Funds, to authorize the Mayor without further Council action to transfer the COVID-19 Response Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with the authorized uses of such funds under the CARES Act grant received by the City. Consistent with Section 14.03 of the City Charter, the remaining, applicable provisions of Section 106.304, *Ordinance Code*, authorizes the Mayor to transfer funds from any agency, non-departmental or departmental line item to any other agency, non-departmental or departmental line item, subject to the limitations and other requirements of Section 106.304 without prior notice to Council, and requires that the Mayor shall provide to the Council Auditor, within three working days after the effective date thereof, a copy of written documentation of all transfers of funds made during the applicable fiscal year.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in

AMERICAN OVERSIGHT

accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000996

calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-000997

Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 9. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409

John,
We found two things.

1. Pg. 10, lines 15, 19, and 21 should strike “Exhibit 1” and insert “Revised Exhibit 1”
2. Correct Section 5 heading to include waiver of Section 106.304(c) also – right now only (b) is listed

Can you send this to me in Floor Amendment form for our review?

Thanks

We wanted to make sure everyone was on the same page as far as technical amendments to the legislation.

1. Revising the BT – this will amend all references to the BT and Exhibit 1 along with attaching the revised BT
2. Inserting "subject to future Council approval" at the end of Section 4 on pg. 11
3. Adding clarification on pg. 11, line 18 that the $5,000,000 is to fund the Building Inspection fee moratorium authorized herein. This was not previously discussed, but is reflective of the language on pg. 2, lines 4-7.

John, could you draft this amendment in preparation for the Council meeting if everyone is in agreement? You can contact me if you have any questions.

Subject: RE: Ordinance 2020-235 - CARES Act Grant Funds

Audit team,

Please see responses to your questions below:

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."
    b. P. 3, starting on line 19 through p. 5, line 8 starts off with "…a six month moratorium on the following permit, inspection and application fees as to…" and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
    c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to? The $5 million reimburses the Building Inspection division for half of the $10 million estimated cost of providing waivers for 6 months (all fees in old fund 159 and the fire inspection fees).
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both? The $16 is what is left of the $25 million bucket after deducting for the $4 million mobility expense and the $5 million Building Inspection Division Fee expense for providing 6 month waivers.

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act? Yes. $9 million of it is being specifically appropriated in this bill ($5mm for BID fee waivers and $4mm for mobility fee waivers), with the other $16 million to be used for anything authorized by the CARES act that is in this category of economic impact to the City as shown on the BT. Rent, loan, lease payment, parking fee waivers will be within this bucket's uses.

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)? The waivers do not apply to haulers that currently have a contract rate with the City, but would apply, for example, to a City franchise hauler to the extent they are doing other commercial hauling for which they pay a tipping fee onsite. As to the beaches communities, Atlantic and Neptune beaches will see relief, as those entities currently pay their fees onsite. Jax Beach and Baldwin will not see relief as they currently do not pay any fees onsite.

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. Below are the items that we believe will need to be changed on the BT (Accounting and Budget are working on this. We will send a revised BT when ready. Most likely in the AM):
    - All of the $159 million should be put into a grant fund for tracking purposes
    - The previous BT on the small business loan program in 2020-201-E should in essence be reversed- (i.e. the transfer from fund balance should be deappropriated and the expense as well) and that deappropriation should be included on this BT
    - The $9 million that is in a cash carryover should be revised to Miscellaneous Grants and Aids within the Grants

AMERICAN OVERSIGHT

Fund
- The $20 million should be placed in a contingency since this will require subsequent legislation, still within the Grants Fund as all the other funding
- The contingency of $12.5 million should be placed in the same grant fund initially and then can later be transferred out/expensed to the Emergency Incidents Fund (Again this would be for tracking purposes. If you want, it could even be done as part of this bill)

5. General question, but somewhat tied in with the $20 million that will come back through as separate legislation- Given that the guidance indicates that government revenue shortfalls cannot be covered by this stimulus money, can you clarify whether these funds can be used to offset the City venues and also whether any bed tax revenue shortfall could be addressed. The City venues may be offset to the extent there is economic impact that was unforeseen, caused by COVID-19 and containment actions related thereto, and qualifies under the terms of the CARES grant. As uses are proposed in subsequent legislation, such may be reviewed as qualifying at that time. If not, how will those expenses be covered (e.g., the revenue shortfall on the "bed tax" used for the debt service on the stadium and scoreboards/daily's place)? As with any shortfall, the City and those who manage certain venues have various tools to manage shortfalls such as expense cuts and transfers from fund balance. The City will be closely watching revenues throughout the year, will be managing expenses accordingly, and in the event of declines in excess of budget flexibility has built reserves to strong levels to assist in handling such problems.

6. Have you been able to get something in writing about the separate FEMA funding in the future?
   Please see the below link to FEMA's declaration for Federal Disaster #4486 for the COVID-19 Pandemic for the State of Florida. Typically, not all counties are included within a state's declaration, but all Florida counties are included as eligible for FEMA Public Assistance. https://www.fema.gov/disaster/4486#

We also wanted to mention that we do have a Council Member that is willing to sponsor any technical amendments needed, such as a revised BT and any clarifying language that is deemed necessary on the $25 million. Thank you in advance for your help.

Responses to 2nd email:

1. Please provide a listing of the tenants and amounts that could be subject to Section 20 of the bill.I'll send you the list we've been working off of in the AM (can't access my network drives right now) for those with rent/loan/lease arrangements with the City's departments and DIA. While every effort was made to assess all potential lease/rent/loan arrangements to which the City is a party, there may be others, and such are not disqualified for consideration by virtue of not being on this list.
2. Please provide a listing of loans (with monthly or yearly amounts) that could be subject to Section 21 of the bill.This is on the list we'll send you as mentioned in #1 above.
3. To be clear as we understand the Mayor's transfer powers, excluding the waiver on the $25 million, for all of the other programs, it is our understanding that the Mayor would not have the authority to move funding between or among the different programs without coming back to Council, correct? Correct. The waiver of transfer authority limits applies to the $25mm bucket only. Moving across buckets would be subject to future council action.
4. Are you in opposition to an amendment to add clarifying language to the end of the sentence on page 11, line 30 that states "subject to future council appropriation"?
   No objection

Joey/John,

We had a few more questions that came up since yesterday and wanted to check on the status of the questions we sent yesterday.

1. Please provide a listing of the tenants and amounts that could be subject to Section 20 of the bill.

Subject: Ordinance 2020-235 - CARES Act Grant Funds

Joey/John,

We have had a chance to look at the revised draft (i.e. the version as it now sits as filed) on the CARES act and have some follow up questions/comments. Note some of the items have been hit on via separate communication and are outstanding items, but we wanted to make sure we had everything in one place for easier tracking by everyone.

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."
    b. P. 3, starting on line 19 through p. 5, line 8 starts off with "…a six month moratorium on the following permit, inspection and application fees as to…" and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
    c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to?
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both?

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act?

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)?

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. Below are the items that we believe will need to be changed on the BT:
    - All of the $159 million should be put into a grant fund for tracking purposes
    - The previous BT on the small business loan program in 2020-201-E should in essence be reversed- (i.e. the transfer from fund balance should be deappropriated and the expense as well) and that deappropriation should be included on this BT
    - The $9 million that is in a cash carryover should be revised to Miscellaneous Grants and Aids within the Grants Fund

6. Have you been able to get something in writing about the separate FEMA funding in the future?

We also wanted to mention that we do have a Council Member that is willing to sponsor any technical amendments needed, such as a revised BT and any clarifying language that is deemed necessary on the $25 million. Thank you in advance for your help.

funds to revert to accounts of origin subject to future Council approval.

Section 5. Waiving Section 106.304(b) (Mayor's transfer power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) and (c) (Mayor's transfer power) that: (i) limits the Mayor's transfer authority to $500,000 during a fiscal year; and (ii) caps the Mayor's authority to increase the fund and/or sub-fund budget to recognize additional revenue at $100,000, respectively, are hereby waived through December 31, 2020 as to the $25,000,000 of COVID-19 Response Funds, to authorize the Mayor without further Council action to transfer the COVID-19 Response Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with the authorized uses of such funds under the CARES Act grant received by the City. Consistent with Section 14.03 of the City Charter, the remaining, applicable provisions of Section 106.304, *Ordinance Code*, authorizes the Mayor to transfer funds from any agency, non-departmental or departmental line item to any other agency, non-departmental or departmental line item, subject to the limitations and other requirements of Section 106.304 without prior notice to Council, and requires that the Mayor shall provide to the Council Auditor, within three working days after the effective date thereof, a copy of written documentation of all transfers of funds made during the applicable fiscal year.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in

accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001026

calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001027

Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

John,
We found two things.

1. Pg. 10, lines 15, 19, and 21 should strike "Exhibit 1" and insert "Revised Exhibit 1"
2. Correct Section 5 heading to include waiver of Section 106.304(c) also – right now only (b) is listed

Can you send this to me in Floor Amendment form for our review?

Thanks
Phillip

We wanted to make sure everyone was on the same page as far as technical amendments to the legislation.

1. Revising the BT – this will amend all references to the BT and Exhibit 1 along with attaching the revised BT
2. Inserting "subject to future Council approval" at the end of Section 4 on pg. 11
3. Adding clarification on pg. 11, line 18 that the $5,000,000 is to fund the Building Inspection fee moratorium authorized herein. This was not previously discussed, but is reflective of the language on pg. 2, lines 4-7.

John, could you draft this amendment in preparation for the Council meeting if everyone is in agreement? You can contact me if you have any questions.

Subject: RE: Ordinance 2020-235 - CARES Act Grant Funds

Audit team,

Please see responses to your questions below:

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
   a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."
   b. P. 3, starting on line 19 through p. 5, line 8 starts off with "…a six month moratorium on the following permit, inspection and application fees as to…" and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
   c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
   - What does the $5 million apply to? The $5 million reimburses the Building Inspection division for half of the $10 million estimated cost of providing waivers for 6 months (all fees in old fund 159 and the fire inspection fees).
   - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both? The $16 is what is left of the $25 million bucket after deducting for the $4 million mobility expense and the $5 million Building Inspection Division Fee expense for providing 6 month waivers.

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act? Yes. $9 million of it is being specifically appropriated in this bill ($5mm for BID fee waivers and $4mm for mobility fee waivers), with the other $16

AMERICAN OVERSIGHT

million to be used for anything authorized by the CARES act that is in this category of economic impact to the City as shown on the BT. Rent, loan, lease payment, parking fee waivers will be within this bucket's uses.

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)? The waivers do not apply to haulers that currently have a contract rate with the City, but would apply, for example, to a City franchise hauler to the extent they are doing other commercial hauling for which they pay a tipping fee onsite. As to the beaches communities, Atlantic and Neptune beaches will see relief, as those entities currently pay their fees onsite. Jax Beach and Baldwin will not see relief as they currently do not pay any fees onsite.

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. Below are the items that we believe will need to be changed on the BT (Accounting and Budget are working on this. We will send a revised BT when ready. Most likely in the AM):
    - All of the $159 million should be put into a grant fund for tracking purposes
    - The previous BT on the small business loan program in 2020-201-E should in essence be reversed- (i.e. the transfer from fund balance should be deappropriated and the expense as well) and that deappropriation should be included on this BT
    - The $9 million that is in a cash carryover should be revised to Miscellaneous Grants and Aids within the Grants Fund
    - The $20 million should be placed in a contingency since this will require subsequent legislation, still within the Grants Fund as all the other funding
    - The contingency of $12.5 million should be placed in the same grant fund initially and then can later be transferred out/expensed to the Emergency Incidents Fund (Again this would be for tracking purposes. If you want, it could even be done as part of this bill)

5. General question, but somewhat tied in with the $20 million that will come back through as separate legislation- Given that the guidance indicates that government revenue shortfalls cannot be covered by this stimulus money, can you clarify whether these funds can be used to offset the City venues and also whether any bed tax revenue shortfall could be addressed. The City venues may be offset to the extent there is economic impact that was unforeseen, caused by COVID-19 and containment actions related thereto, and qualifies under the terms of the CARES grant. As uses are proposed in subsequent legislation, such may be reviewed as qualifying at that time. If not, how will those expenses be covered (e.g., the revenue shortfall on the "bed tax" used for the debt service on the stadium and scoreboards/daily's place)? As with any shortfall, the City and those who manage certain venues have various tools to manage shortfalls such as expense cuts and transfers from fund balance. The City will be closely watching revenues throughout the year, will be managing expenses accordingly, and in the event of declines in excess of budget flexibility has built reserves to strong levels to assist in handling such problems.

6. Have you been able to get something in writing about the separate FEMA funding in the future?
   Please see the below link to FEMA's declaration for Federal Disaster #4486 for the COVID-19 Pandemic for the State of Florida. Typically, not all counties are included within a state's declaration, but all Florida counties are included as eligible for FEMA Public Assistance. https://www.fema.gov/disaster/4486#

We also wanted to mention that we do have a Council Member that is willing to sponsor any technical amendments needed, such as a revised BT and any clarifying language that is deemed necessary on the $25 million. Thank you in advance for your help.

Responses to 2nd email:

1. Please provide a listing of the tenants and amounts that could be subject to Section 20 of the bill.I'll send you the list we've been working off of in the AM (can't access my network drives right now) for those with rent/loan/lease arrangements with the City's departments and DIA. While every effort was made to assess all potential lease/rent/loan arrangements to which the City is a party, there may be others, and such are not disqualified for consideration by virtue of not being on this list.
2. Please provide a listing of loans (with monthly or yearly amounts) that could be subject to Section 21 of the bill.This is on the list we'll send you as mentioned in #1 above.
3. To be clear as we understand the Mayor's transfer powers, excluding the waiver on the $25 million, for all of the other programs, it is our understanding that the Mayor would not have the authority to move funding between or among the different programs without coming back to Council, correct? Correct. The waiver of transfer authority limits applies to the $25mm bucket only. Moving across buckets would be subject to future council action.
4. Are you in opposition to an amendment to add clarifying language to the end of the sentence on page 11, line 30 that states "subject to future council appropriation"?
   No objection

Subject: Ordinance 2020-235 - CARES Act Grant Funds

Joey/John,

We have had a chance to look at the revised draft (i.e. the version as it now sits as filed) on the CARES act and have some follow up questions/comments. Note some of the items have been hit on via separate communication and are outstanding items, but we wanted to make sure we had everything in one place for easier tracking by everyone.

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."
    b. P. 3, starting on line 19 through p. 5, line 8 starts off with "…a six month moratorium on the following permit, inspection and application fees as to…" and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
    c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to?
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both?

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act?

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)?

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. transfer from fund balance should be deappropriated and the expense as well) and that deappropriation should be included on this BT
- The $9 million that is in a cash carryover should be revised to Miscellaneous Grants and Aids within the Grants Fund

- The contingency of $12.5 million should be placed in the same grant fund initially and then can later be transferred out/expensed to the Emergency Incidents Fund (Again this would be for tracking purposes. If you want, it could even be done as part of this bill)

The funds appropriated herein shall not lapse but shall carryover as appropriated from year to year until such funds are expended or lapse according to the terms of the Agreement and the Program. Section 5. Repealing Sections 2, 3 and 4 of Ordinance 2020-201-E. Sections 2 (Appropriation), 3 (Purpose) and 4 (Carryover) of Ordinance 2020-201-E are hereby repealed to de-appropriate the $9,000,000 of City funds previously appropriated to the COVID-19 Small Business Relief and Employee Retention Grant Program, which funds will be replaced by CARES Act grant funding in the same amount as authorized herein.

The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) and (c) (Mayor's transfer power) that: (i) limits the Mayor's transfer authority to $500,000 during a fiscal year; and (ii) caps the Mayor's authority to increase the fund and/or sub-fund budget to recognize additional revenue at $100,000, respectively, are hereby waived through December 31, 2020 as to the $25,000,000 of COVID-19 Response Funds, to authorize the Mayor without further Council action to transfer the COVID-19 Response Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with

AMERICAN OVERSIGHT

the authorized uses of such funds under the CARES Act grant received by the City. Consistent with Section 14.03 of the City Charter, the remaining, applicable provisions of Section 106.304, *Ordinance Code*, authorizes the Mayor to transfer funds from any agency, non-departmental or departmental line item to any other agency, non-departmental or departmental line item, subject to the limitations and other requirements of Section 106.304 without prior notice to Council, and requires that the Mayor shall provide to the Council Auditor, within three working days after the effective date thereof, a copy of written documentation of all transfers of funds made during the applicable fiscal year.

Section 76. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 87. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee),

AMERICAN OVERSIGHT

Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the

AMERICAN OVERSIGHT

termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 98. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or

AMERICAN OVERSIGHT

engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 109. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). These fees are referenced in Section 123.102, Ordinance Code, as the "Review Group" within the Planning Department category and consist of the Site Development Review (10-set) Subdivision, and the Site Development Review (10 Set) Non-Subdivision" reviews. We wanted to make sure everyone was on the same page as far as technical amendments to the legislation.

1. Revising the BT – this will amend all references to the BT and Exhibit 1 along with attaching the revised BT
2. Inserting "subject to future Council approval" at the end of Section 4 on pg. 11
3. Adding clarification on pg. 11, line 18 that the $5,000,000 is to fund the Building Inspection fee moratorium authorized herein. This was not previously discussed, but is reflective of the language on pg. 2, lines 4-7.

John, could you draft this amendment in preparation for the Council meeting if everyone is in agreement? You can contact me if you have any questions.

Subject: RE: Ordinance 2020-235 - CARES Act Grant Funds

Audit team,

Please see responses to your questions below:

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."
    b. P. 3, starting on line 19 through p. 5, line 8 starts off with "…a six month moratorium on the following permit, inspection and application fees as to…" and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
    c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to? The $5 million reimburses the Building Inspection division for half of the $10 million estimated cost of providing waivers for 6 months (all fees in old fund 159 and the fire inspection fees).
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in

AMERICAN OVERSIGHT

Ordinance that fit federal guidelines? Or both? The $16 is what is left of the $25 million bucket after deducting for the $4 million mobility expense and the $5 million Building Inspection Division Fee expense for providing 6 month waivers.

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act? Yes. $9 million of it is being specifically appropriated in this bill ($5mm for BID fee waivers and $4mm for mobility fee waivers), with the other $16 million to be used for anything authorized by the CARES act that is in this category of economic impact to the City as shown on the BT. Rent, loan, lease payment, parking fee waivers will be within this bucket's uses.

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)? The waivers do not apply to haulers that currently have a contract rate with the City, but would apply, for example, to a City franchise hauler to the extent they are doing other commercial hauling for which they pay a tipping fee onsite. As to the beaches communities, Atlantic and Neptune beaches will see relief, as those entities currently pay their fees onsite. Jax Beach and Baldwin will not see relief as they currently do not pay any fees onsite.

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. Below are the items that we believe will need to be changed on the BT (Accounting and Budget are working on this. We will send a revised BT when ready. Most likely in the AM):
    - All of the $159 million should be put into a grant fund for tracking purposes
    - The previous BT on the small business loan program in 2020-201-E should in essence be reversed- (i.e. the transfer from fund balance should be deappropriated and the expense as well) and that deappropriation should be included on this BT
    - The $9 million that is in a cash carryover should be revised to Miscellaneous Grants and Aids within the Grants Fund
    - The $20 million should be placed in a contingency since this will require subsequent legislation, still within the Grants Fund as all the other funding
    - The contingency of $12.5 million should be placed in the same grant fund initially and then can later be transferred out/expensed to the Emergency Incidents Fund (Again this would be for tracking purposes. If you want, it could even be done as part of this bill)

5. General question, but somewhat tied in with the $20 million that will come back through as separate legislation- Given that the guidance indicates that government revenue shortfalls cannot be covered by this stimulus money, can you clarify whether these funds can be used to offset the City venues and also whether any bed tax revenue shortfall could be addressed. The City venues may be offset to the extent there is economic impact that was unforeseen, caused by COVID-19 and containment actions related thereto, and qualifies under the terms of the CARES grant. As uses are proposed in subsequent legislation, such may be reviewed as qualifying at that time. If not, how will those expenses be covered (e.g., the revenue shortfall on the "bed tax" used for the debt service on the stadium and scoreboards/daily's place)? As with any shortfall, the City and those who manage certain venues have various tools to manage shortfalls such as expense cuts and transfers from fund balance. The City will be closely watching revenues throughout the year, will be managing expenses accordingly, and in the event of declines in excess of budget flexibility has built reserves to strong levels to assist in handling such problems.

6. Have you been able to get something in writing about the separate FEMA funding in the future?
    Please see the below link to FEMA's declaration for Federal Disaster #4486 for the COVID-19 Pandemic for the State of Florida. Typically, not all counties are included within a state's declaration, but all Florida counties are included as eligible for FEMA Public Assistance. https://www.fema.gov/disaster/4486#

We also wanted to mention that we do have a Council Member that is willing to sponsor any technical amendments needed, such as a revised BT and any clarifying language that is deemed necessary on the $25 million. Thank you in advance for your help.

Responses to 2nd email:

1. Please provide a listing of the tenants and amounts that could be subject to Section 20 of the bill.I'll send you the list we've been working off of in the AM (can't access my network drives right now) for those with rent/loan/lease arrangements with the City's departments and DIA. While every effort was made to assess all potential lease/rent/loan arrangements to which the City is a party, there may be others, and such are not disqualified for consideration by virtue of not being on this list.
2. Please provide a listing of loans (with monthly or yearly amounts) that could be subject to Section 21 of the bill.This is on the list we'll send you as mentioned in #1 above.
3. To be clear as we understand the Mayor's transfer powers, excluding the waiver on the $25 million, for all of the other programs, it is our understanding that the Mayor would not have the authority to move funding between or among the different programs without coming back to Council, correct? Correct. The waiver of transfer authority limits applies to the $25mm bucket only. Moving across buckets would be subject to future council action.
4. Are you in opposition to an amendment to add clarifying language to the end of the sentence on page 11, line 30 that states "subject to future council appropriation"?
    No objection

Joey/John,

We had a few more questions that came up since yesterday and wanted to check on the status of the questions we sent yesterday.

1. Please provide a listing of the tenants and amounts that could be subject to Section 20 of the bill.

Subject: Ordinance 2020-235 - CARES Act Grant Funds

Joey/John,

We have had a chance to look at the revised draft (i.e. the version as it now sits as filed) on the CARES act and have some follow up questions/comments. Note some of the items have been hit on via separate communication and are outstanding items, but we wanted to make sure we had everything in one place for easier tracking by everyone.

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: “… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**.”
    b. P. 3, starting on line 19 through p. 5, line 8 starts off with “…a six month moratorium on the following permit, inspection and application fees as to…” and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
    c. p. 11, Section 3, lines 15-19 state: “(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;”

   Bullet “a” language makes it seem like it is only Building Inspection Fees, bullet “b” language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet “c” makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to?
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both?

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act?

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)?

funds to revert to accounts of origin subject to future Council approval.

Section 5. Waiving Section 106.304(b) (Mayor's transfer power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) and (c) (Mayor's transfer power) that: (i) limits the Mayor's transfer authority to $500,000 during a fiscal year; and (ii) caps the Mayor's authority to increase the fund and/or sub-fund budget to recognize additional revenue at $100,000, respectively, are hereby waived through December 31, 2020 as to the $25,000,000 of COVID-19 Response Funds, to authorize the Mayor without further Council action to transfer the COVID-19 Response Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with the authorized uses of such funds under the CARES Act grant received by the City. Consistent with Section 14.03 of the City Charter, the remaining, applicable provisions of Section 106.304, *Ordinance Code*, authorizes the Mayor to transfer funds from any agency, non-departmental or departmental line item to any other agency, non-departmental or departmental line item, subject to the limitations and other requirements of Section 106.304 without prior notice to Council, and requires that the Mayor shall provide to the Council Auditor, within three working days after the effective date thereof, a copy of written documentation of all transfers of funds made during the applicable fiscal year.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in

AMERICAN OVERSIGHT

accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001086

calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001087

Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii)

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001115

have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001116

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001117

else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 9. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). Fees related to violations of the Florida Building Code and the renewal permits for off-site signs are specifically not waived or affected by this moratorium.

Section 10. Temporary Moratorium Imposed and Duration of Moratorium as to certain Application Fees imposed regarding the subdivision of land, the approval and filing of plats, and the approval of final engineering plans, as required by Section 654.108 (Approval of Preliminary Site Plan: Procedures for Approval of Preliminary and Final engineering plans for required improvements), and Section 654.138(a), (c) and (d) (Fees), each of Chapter 654 (Code of Subdivision Regulations). The provisions of Chapter 654 (Code of Subdivision Regulations), Section 654.108 (Approval of Preliminary Site Plan: Procedures for Approval of Preliminary and Final engineering plans for required improvements), and Section 654.138(a)(c) and (d) (Fees) that would otherwise require payment of application and recording fees for plat review and civil site plan review are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001119

if sooner repealed by Council (the "Waiver Period"). These fees are referenced in Section 123.102, Ordinance Code, as the "Review Group" within the Planning Department category and consist of the Site Development Review (10-set) Subdivision, and the Site Development Review (10 Set) Non-Subdivision" reviews. Fees related to a violation of the Code of Subdivision Regulations are specifically not waived or affected by this moratorium.

Section 11. Temporary Moratorium Imposed and Duration of Moratorium as to certain Application Fees imposed by Section 744.110 (Street excavations; work in rights-of-way; permit; violations, civil penalties, enforcement and abatement), Chapter 744 (Street Construction Regulations). The provisions of Chapter 744 (Street Construction Regulations), Section 744.110 (Street excavations; work in rights-of-way; permit; violations, civil penalties, enforcement and abatement) that would otherwise require the payment of certain application fees for construction in the public right-of-way, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period"). Fees related to a violation of this Chapter 744 are specifically not waived or affected by this moratorium.

Section 12. Temporary Moratorium Imposed and Duration of Moratorium as to certain Application Fees imposed by Section 656.109 (Administration and enforcement; interpretation of Zoning Code; administrative deviations), Subpart B (Administration), Part 1 (General Provisions), Chapter 656 (Zoning Code). AMERICAN OVERSIGHT

Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

The **City of Jacksonville** ("Client") has engaged **Fidelity Information Services, LLC** (together with its subsidiaries and Affiliates, "FIS") to provide Client with one or more prepaid card programs (each a "Program") as further defined below. The Cards will be distributed by Client in connection with bona fide business programs the Client makes available to its employees, franchisees, dealers, distributors, clients or customers. "Affiliate" means, with respect to a party, any entity which directly or indirectly, through one or more intermediaries, is controlled by, or is under common control with such party.

1. THE CLIENT ACKNOWLEDGES AND UNDERSTANDS THAT FIS OR A THIRD PARTY PROVIDER TO FIS has an agreement to market and manage prepaid card programs with a nationally chartered financial institution ("Issuing Bank") which is the issuer of Cards, a member of Visa USA ("Visa") or MasterCard ("MasterCard") (Visa and MasterCard are referred to herein as the "Association(s)") and licensed through the Associations to provide card issuance services. As used in this agreement any reference to FIS shall also be a reference to its third-party service providers.

2. **Commencement. Term.**

2.1. Each party shall make commercially reasonable efforts, including the assignment of adequate personnel, to commence the Service as soon as practicable following the Effective Date. The "Commencement Date" of a Program is the date on which Client first distributes a Card. FIS reserves the right to decline to commence a Program for Client in its sole discretion or discontinue the distribution of cards if determined in its or Issuing Bank's sole discretion to be inconsistent with safe and sound banking practices.

2.2. Term. The Agreement is effective on the Effective Date and shall continue for an initial term of sixty (60) months (the "Initial Term"). After the Initial Term, or the then current Renewal Term, the term of the Agreement may be renewed for one additional sixty (60) month term upon the mutual agreement of the parties (a "Renewal Term") unless terminated by Client or FIS in writing at least 180 days prior to the last day of the Initial Term.

3. **FIS Responsibilities**.

3.1. FIS Performance. FIS shall provide Client and, where applicable, Client's customers ("Customers") with access to and use of the Service in accordance with these Terms, and FIS' then current standard user operating instructions and requirements made available to Client from time to time ("Specifications"). FIS shall make available documents, reports, statements and other output of the Services, as may be more fully described in the Specifications (collectively, "Output"). "Service" means a service provided by FIS pursuant to this Agreement, to include any Program. FIS may withdraw a Service or terminate any function or Service (i) immediately upon any final regulatory, legislative, or judicial determination that providing such Service or function violates applicable law or regulation or the rights of any third party, or (ii) upon providing not less than three hundred sixty-five (365) days' prior written notice to Client so long as FIS is withdrawing or terminating the Service or function from its entire client base.

3.2. FIS will provide to Client one or more prepaid card programs (each a "Program") as described the applicable program terms (set forth herein) and as designated on an Order Form, whereby FIS will supply Client with one or more types of prepaid cards ("Cards") purchased by Client pursuant to an Order Form. The Cards will be distributed by Client in connection with bona fide business, economic incentive and COVID-19 related programs the Client makes available to its employees, franchisees, dealers, distributors, clients, customers, or residents of Duval County, as applicable. All Cards will be prepaid cards as further described in the Program Addendum.

3.3. FIS shall provide the Programs in compliance with all Laws applicable to FIS as provider of the Programs. "Law" means any law, rule, regulation, ordinance, code or order to which a party may be subject or under which a party may exercise rights.

3.4. FIS shall perform an on-going review of Laws applicable to the provision of the Programs. FIS shall maintain the features of the Programs in accordance with all Laws applicable to such features, including new or amended Laws (as applicable and necessary to support compliance obligations), in a non-custom environment.

4. **Client Responsibilities**.

4.1. Client shall: (i) timely deliver to FIS any information necessary for the provision of the Programs in a

form and format approved by FIS, including but not limited to the Client Due Diligence Form included with this Agreement; (ii) [intentionally omitted], (iii) be solely responsible for timely procuring any information or cooperation required from its employees other third parties in order to commence the Program; (iv) have sole responsibility for verifying the accuracy, completeness or authenticity of any Data furnished by Client or a third party; (v) be solely responsible for training its employees and representatives to comply with all Laws applicable to Client and the procedures set forth in any manual or other literature provided to Client by FIS; (vi) comply with all Laws applicable to Client's business and its use of the Programs, including but not limited to those Laws relating to usury, truth-in-lending, fair credit reporting, equal credit opportunity, automated clearing house transfers, networks associations, electronic funds transfer, privacy and direct marketing, regardless of whether Client uses any forms or other materials supplied by FIS.

4.2. Client shall be responsible for monitoring and interpreting (and for complying with, to the extent such compliance requires no action by FIS), the applicable Laws pertaining to Client's business ("Legal Requirements"). Based on Client's instructions, FIS shall implement features and options (collectively, the "Parameters") for a Program that shall apply to Client. Client shall be responsible for determining that such selections are consistent with the Legal Requirements. In making such determinations, FIS deliver the Programs in accordance with the Parameters.

5. Data.

5.1. Client shall be solely responsible for transmitting its Data (collectively, "Client Data") and verifying the accuracy, completeness or authenticity of Data furnished by Client or a third party. Client shall bear any risk of loss resulting from that transmission until receipt by FIS. FIS shall bear the risk of loss resulting from Data transmitted to Client until Client confirms receipt. If Client requests FIS to disclose Client Data to a third party, Client shall provide FIS with written authorization to do so and bear any risk of loss or liability associated with that disclosure. In addition, FIS shall be held harmless from any claim arising out of such disclosure or the third party's use or disclosure of that Client Data. If Client's requested disclosure includes FIS Confidential Information, FIS may remove FIS Confidential Information (or require such removal) prior to such disclosure and require the third party to enter into a written agreement with FIS governing use, disclosure and safekeeping of the FIS Confidential Information.

5.2. FIS shall not be responsible for the accuracy, completeness or authenticity of any Data furnished by Client or a third party, and shall have no obligation to audit, check or verify that Data. If any Data submitted by Client or a third party to FIS is incorrect, incomplete or not in the required format, FIS may require Client to resubmit the Data or FIS may correct the Data and bill Client its then current rates for performing those corrections. FIS shall attempt to notify Client prior to Client incurring such expense.

5.3. Client shall maintain a copy of all Data submitted to FIS (whether directly or through a third party) to permit reconstruction if ever required. Client assumes all risk and expense associated with Data reconstruction, except for those expenses incurred as a direct consequence of FIS' breach of the Agreement. If Data reconstruction is ever required, the parties shall mutually agree on a schedule for that reconstruction

6. **Reserved**.

7. **Use of Services.** Except as otherwise permitted in the Agreement or in writing by FIS, Client shall use each Service only for its own internal business purposes to service its Customers in accordance with the terms of the Agreement and the applicable Specifications. Client shall not (i) except as permitted in the Agreement and the applicable Specifications, sell, use or otherwise provide, directly or indirectly, any of the Service, or any portion thereof to or for the benefit of any third party, (ii) except as permitted by FIS in writing, copy any Service, or any part, feature, function or user interface thereof; (iii) adapt, modify, translate, reverse engineer, decompile, disassemble, or create derivative works based on any Service or any part thereof; (iv) attempt to gain unauthorized access to any Service or its related systems or networks; (v) access any Service for purposes of monitoring the performance or functionality for any benchmarking or competitive purposes; or (vi) perform any load or security testing unless FIS' prior written approval is obtained. Client agrees that FIS may use all suggestions for improvement and comments regarding the Service that are furnished by Client to FIS in connection with the Agreement, without accounting or reservation. Except as otherwise may be set forth herein or in writing between the parties.

8. **Payment.**

8.1. Any upfront or onetime fees described in an Order Form or pricing attachment are due prior to Commencement Date. Any recurring fees shall be billed for each calendar month (or portion thereof) beginning on the Commencement Date and shall be paid within thirty (30) days of the invoice date.

Client shall provide FIS Payment Account information sufficient for FIS to initiate ACH transfer within thirty (30) days after execution of this Agreement and shall provide to FIS any change in FIS Payment Account information within three (3) business days of any change. In the event FIS does not collect amounts owed from the FIS Payment Account, Client must pay such amounts via electronic payment within thirty (30) days of the invoice date. For any amount not paid within thirty (30) days after its due date, Client shall pay a late fee equal to the lesser of one and one-half percent (1½%) per month of the unpaid amount or the maximum interest rate allowed by law.

8.3. Billing Errors. In the event of over-billing, FIS will correct the error by credit to Client. If Client was under-billed, FIS will add the under-billed amount to a future invoice. FIS may utilize any amounts owed to Client under the Agreement to pay or reimburse FIS for amounts owed by Client.

8.4. Taxes. All charges and fees to be paid by Client under the Agreement are exclusive of any applicable withholding, sales, use, excise, value added or other taxes. Any of these taxes for which FIS is legally or contractually responsible to collect from Client shall be billed by FIS and paid by Client. FIS shall pay and hold Client harmless for any taxes on FIS property, income or payroll. Client agrees to hold FIS harmless for any sales, use, excise, value added or other taxes assessed by a taxing authority on Client and arising out of the Agreement. In the event of any assessment by a taxing authority, both parties agree to cooperate with each other to resolve issues in order to minimize the assessment.

9. Intellectual Property.

9.1. Each party shall continue to own any Data that it provides, or that may be provided on its behalf, to the other party in connection with the use or provision of the Services. "Deliverable" means any technical, programming, consulting, implementation and other professional services performed by FIS, as described in an SOW or similar document signed by the parties.

9.2. Any intellectual property rights that existed prior to the Effective Date shall belong solely to the party owning them at that time. Neither party shall be entitled to any copyright, trademark, trade name, trade secret or patent of the other party.

Client shall notify FIS of any breach of FIS' Confidential Information as soon as possible following determination of such breach. power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. FL-DUVAL-20-0723-A-001179

have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001180

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001181

else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 9. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

The **City of Jacksonville** ("Client") has engaged **Fidelity Information Services, LLC** (together with its subsidiaries and Affiliates, "FIS") to provide Client with one or more prepaid card programs (each a "Program") as further defined below. The Cards will be distributed by Client in connection with bona fide business programs the Client makes available to its employees, franchisees, dealers, distributors, clients or customers. "Affiliate" means, with respect to a party, any entity which directly or indirectly, through one or more intermediaries, is controlled by, or is under common control with such party.

1. THE CLIENT ACKNOWLEDGES AND UNDERSTANDS THAT FIS OR A THIRD PARTY PROVIDER TO FIS has an agreement to market and manage prepaid card programs with a nationally chartered financial institution ("Issuing Bank") which is the issuer of Cards, a member of Visa USA ("Visa") or MasterCard ("MasterCard") (Visa and MasterCard are referred to herein as the "Association(s)") and licensed through the Associations to provide card issuance services. As used in this agreement any reference to FIS shall also be a reference to its third-party service providers.

2. **Commencement. Term.**

2.1. Each party shall make commercially reasonable efforts, including the assignment of adequate personnel, to commence the Service as soon as practicable following the Effective Date. The "Commencement Date" of a Program is the date on which Client first distributes a Card. FIS reserves the right to decline to commence a Program for Client in its sole discretion or discontinue the distribution of cards if determined in its or Issuing Bank's sole discretion to be inconsistent with safe and sound banking practices.

2.2. Term. The Agreement is effective on the Effective Date and shall continue for an initial term of sixty (60) months (the "Initial Term"). After the Initial Term, or the then current Renewal Term, the term of the Agreement may be renewed for one additional sixty (60) month term upon the mutual agreement of the parties (a "Renewal Term") unless terminated by Client or FIS in writing at least 180 days prior to the last day of the Initial Term.

3. **FIS Responsibilities**.

3.1. FIS Performance. FIS shall provide Client and, where applicable, Client's customers ("Customers") with access to and use of the Service in accordance with these Terms, and FIS' then current standard user operating instructions and requirements made available to Client from time to time ("Specifications"). FIS shall make available documents, reports, statements and other output of the Services, as may be more fully described in the Specifications (collectively, "Output"). "Service" means a service provided by FIS pursuant to this Agreement, to include any Program. FIS may withdraw a Service or terminate any function or Service (i) immediately upon any final regulatory, legislative, or judicial determination that providing such Service or function violates applicable law or regulation or the rights of any third party, or (ii) upon providing not less than three hundred sixty-five (365) days' prior written notice to Client so long as FIS is withdrawing or terminating the Service or function from its entire client base.

3.2. FIS will provide to Client one or more prepaid card programs (each a "Program") as described the applicable program terms (set forth herein) and as designated on an Order Form, whereby FIS will supply Client with one or more types of prepaid cards ("Cards") purchased by Client pursuant to an Order Form. The Cards will be distributed by Client in connection with bona fide business, economic incentive and COVID-19 related programs the Client makes available to its employees, franchisees, dealers, distributors, clients, customers, or residents of Duval County, as applicable. All Cards will be prepaid cards as further described in the Program Addendum.

3.3. FIS shall provide the Programs in compliance with all Laws applicable to FIS as provider of the Programs. "Law" means any law, rule, regulation, ordinance, code or order to which a party may be subject or under which a party may exercise rights.

3.4. FIS shall perform an on-going review of Laws applicable to the provision of the Programs. FIS shall maintain the features of the Programs in accordance with all Laws applicable to such features, including new or amended Laws (as applicable and necessary to support compliance obligations), in a non-custom environment.

4. **Client Responsibilities**.

4.1. Client shall: (i) timely deliver to FIS any information necessary for the provision of the Programs in a

form and format approved by FIS, including but not limited to the Client Due Diligence Form included with this Agreement; (ii) [intentionally omitted], (iii) be solely responsible for timely procuring any information or cooperation required from its employees other third parties in order to commence the Program; (iv) have sole responsibility for verifying the accuracy, completeness or authenticity of any Data furnished by Client or a third party; (v) be solely responsible for training its employees and representatives to comply with all Laws applicable to Client and the procedures set forth in any manual or other literature provided to Client by FIS; (vi) comply with all Laws applicable to Client's business and its use of the Programs, including but not limited to those Laws relating to usury, truth-in-lending, fair credit reporting, equal credit opportunity, automated clearing house transfers, networks associations, electronic funds transfer, privacy and direct marketing, regardless of whether Client uses any forms or other materials supplied by FIS.

4.2. Client shall be responsible for monitoring and interpreting (and for complying with, to the extent such compliance requires no action by FIS), the applicable Laws pertaining to Client's business ("Legal Requirements"). Based on Client's instructions, FIS shall implement features and options (collectively, the "Parameters") for a Program that shall apply to Client. Client shall be responsible for determining that such selections are consistent with the Legal Requirements. In making such determinations, FIS deliver the Programs in accordance with the Parameters.

5. Data.

5.1. Client shall be solely responsible for transmitting its Data (collectively, "Client Data") and verifying the accuracy, completeness or authenticity of Data furnished by Client or a third party. Client shall bear any risk of loss resulting from that transmission until receipt by FIS. FIS shall bear the risk of loss resulting from Data transmitted to Client until Client confirms receipt. If Client requests FIS to disclose Client Data to a third party, Client shall provide FIS with written authorization to do so and bear any risk of loss or liability associated with that disclosure. In addition, FIS shall be held harmless from any claim arising out of such disclosure or the third party's use or disclosure of that Client Data. If Client's requested disclosure includes FIS Confidential Information, FIS may remove FIS Confidential Information (or require such removal) prior to such disclosure and require the third party to enter into a written agreement with FIS governing use, disclosure and safekeeping of the FIS Confidential Information.

5.2. FIS shall not be responsible for the accuracy, completeness or authenticity of any Data furnished by Client or a third party, and shall have no obligation to audit, check or verify that Data. If any Data submitted by Client or a third party to FIS is incorrect, incomplete or not in the required format, FIS may require Client to resubmit the Data or FIS may correct the Data and bill Client its then current rates for performing those corrections. FIS shall attempt to notify Client prior to Client incurring such expense.

5.3. Client shall maintain a copy of all Data submitted to FIS (whether directly or through a third party) to permit reconstruction if ever required. Client assumes all risk and expense associated with Data reconstruction, except for those expenses incurred as a direct consequence of FIS' breach of the Agreement. If Data reconstruction is ever required, the parties shall mutually agree on a schedule for that reconstruction

6. **Reserved**.

7. **Use of Services.** Except as otherwise permitted in the Agreement or in writing by FIS, Client shall use each Service only for its own internal business purposes to service its Customers in accordance with the terms of the Agreement and the applicable Specifications. Client shall not (i) except as permitted in the Agreement and the applicable Specifications, sell, use or otherwise provide, directly or indirectly, any of the Service, or any portion thereof to or for the benefit of any third party, (ii) except as permitted by FIS in writing, copy any Service, or any part, feature, function or user interface thereof; (iii) adapt, modify, translate, reverse engineer, decompile, disassemble, or create derivative works based on any Service or any part thereof; (iv) attempt to gain unauthorized access to any Service or its related systems or networks; (v) access any Service for purposes of monitoring the performance or functionality for any benchmarking or competitive purposes; or (vi) perform any load or security testing unless FIS' prior written approval is obtained. Client agrees that FIS may use all suggestions for improvement and comments regarding the Service that are furnished by Client to FIS in connection with the Agreement, without accounting or reservation. Except as otherwise may be set forth herein or in writing between the parties.

8. **Payment.**

8.1. Any upfront or onetime fees described in an Order Form or pricing attachment are due prior to Commencement Date. Any recurring fees shall be billed for each calendar month (or portion thereof) beginning on the Commencement Date and shall be paid within thirty (30) days of the invoice date.

In the event FIS does not collect amounts owed from the FIS Payment Account, Client must pay such amounts via electronic payment within thirty (30) days of the invoice date. For any amount not paid within thirty (30) days after its due date, Client shall pay a late fee equal to the lesser of one and one-half percent (1½%) per month of the unpaid amount or the maximum interest rate allowed by law.

8.3. Billing Errors. In the event of over-billing, FIS will correct the error by credit to Client. If Client was under-billed, FIS will add the under-billed amount to a future invoice. FIS may utilize any amounts owed to Client under the Agreement to pay or reimburse FIS for amounts owed by Client.

8.4. Taxes. All charges and fees to be paid by Client under the Agreement are exclusive of any applicable withholding, sales, use, excise, value added or other taxes. Any of these taxes for which FIS is legally or contractually responsible to collect from Client shall be billed by FIS and paid by Client. FIS shall pay and hold Client harmless for any taxes on FIS property, income or payroll. Client agrees to hold FIS harmless for any sales, use, excise, value added or other taxes assessed by a taxing authority on Client and arising out of the Agreement. In the event of any assessment by a taxing authority, both parties agree to cooperate with each other to resolve issues in order to minimize the assessment.

and businesses of the COVID-19 disease. [Joey, let's discuss parameters for mayor to spend the 25mm and 20mm with report to Council.]

Section 4. Carryover. The funds appropriated herein shall not lapse but shall carryover as appropriated from year to year until such funds are expended or lapse according to the terms of the Agreement and the Program. Funds appropriated in this Ordinance must be committed before November 1, 2020, failure to do so will cause funds to revert to accounts of origin.

Section 5. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001246

notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001247

complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 6, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 5. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001270

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001271

Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001272

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 6, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 7. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). The provisions of Chapter 320 (General Provisions) within the Constructions Regulations and Building Codes, Part 4 (Permits), Section 320.402 (Application for Permit) and Section 320.409 (Schedule of permit fees), that would otherwise require the payment of permit fees, including the following: (1) New buildings, (2) Foundation only, (3) New construction other than buildings, (4) Alterations, (5) Window/door replacement, (6) Moving buildings, (7) Roofing, (8) Swimming pools, (9) Demolition of buildings, (10) Demolition of structures other than buildings, (11) Sign erections, (12) Site clearing with protected trees, (13) Site clearing without protected trees, (14) Removal or relocation of

and businesses of the COVID-19 disease. [Joey, let's discuss parameters for mayor to spend the 25mm and 20mm with report to Council.]

Section 4. Carryover. The funds appropriated herein shall not lapse but shall carryover as appropriated from year to year until such funds are expended or lapse according to the terms of the Agreement and the Program. Funds appropriated in this Ordinance must be committed before November 1, 2020, failure to do so will cause funds to revert to accounts of origin.

Section 5. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001299

notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001300

complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 6, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 5. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

AMERICAN OVERSIGHT

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001324

Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001325

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 6, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 7. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001357

Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section ~~68~~68. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in ~~Section~~ ~~5~~76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001358

reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section ~~68~~, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001383

construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001384

mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Exhibit A

(a) *Six-Month Waiver Period*. The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____ [insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 5. Waiving Section 106.304(b) (Mayor's transfer power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) (Mayor's transfer power) that limits the Mayor's transfer authority to $500,000 during a fiscal year is hereby waived through December 31, 2020 as to the $25,000,000 of Reimbursement Funds, to authorize the Mayor without further Council action to transfer the Reimbursement Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with the authorized uses of such funds under the CARES Act grant received by the City.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001429

include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001430

Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section ~~68~~68. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in ~~Section~~ ~~5~~76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001431

reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section ~~68~~, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential

AMERICAN OVERSIGHT

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the

AMERICAN OVERSIGHT

Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Kirk, here's the last draft of the ordinance. Still working on it but perhaps you can't give it a good auditor once over and also look at the fee waiver sections to make sure OGC captured it correctly and referenced the right sections of code.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential

construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance;

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance; or

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved.

Section 9. The waivers authorized by this Section shall apply solely as to tipping fees charged directly to customers at the Trail Ridge Landfill, and not those fees included in the Solid Waste User Fees.

Section 12. Temporary Moratorium Imposed on the Collection of Rent, Additional Rent, CAM Fees and other sums owed by eligible tenants or licensees under any lease or license agreement to which the City is a party as landlord or licensor. The Mayor, or his designee, on behalf of the City, for a period of up to 6 months from the effective date of this Ordinance, may forgive rental payments due from eligible tenants or licensees (individually, a "Tenant" and collectively, "Tenants") pursuant to duly executed lease or license agreement between the Tenant and the City that is in effect as of the effective date of this Ordinance. Section 14. Waiving Section 122.202 (Parking Rates at Municipal Parking Lots), Part 2 (Municipal Parking Lots), Chapter 122 (Public Property), *Ordinance Code*. The City hereby waives the provisions of Section 122.202 (Parking Rates at Municipal Parking Lots), Part 2 (Municipal Parking Lots), Chapter 122 (Public Property), *Ordinance Code*, in order to authorize the Chief Executive Officer ("CEO") of the Downtown Investment Authority ("DIA") to establish discounted parking rates for current business and individuals users of City-owned parking facilities for a period of not longer than six months of the effective date of this Ordinance or such time as repealed by Council, whichever shall occur first.

(a) Individual users of City-owned parking facilities may apply for a discounted parking rate on the form attached hereto as **Exhibit 4** and incorporated herein by this reference. An individual applicant must demonstrate a salary reduction of 25% or more as a result of the impacts of COVID-19, calculated against the applicant's standard salary as of February 29, 2020. Each approved applicant will receive a rate reduction in the amount of 50% of the parking rate applicable to the applicant as of February 29, 2020.

(b) Business users of City-owned parking facilities that are deemed essential and are operating at the time of application are eligible to apply for a discounted parking rate on the form attached hereto as **Exhibit 5** and incorporated herein by this reference. Such applicants must demonstrate financial harm it has suffered as a result of the impacts of COVID-19, and shall be eligible for up to a 50% parking rate reduction based on a ratio of the applicant's demonstrated revenue losses and the existing parking rate at the time of application.

Section 15. Waiver of Section 662.104(b) and (c) (Fees authorized in certain instances) Chapter 662 (Library System and Services); providing for twelve months retroactive applicability. The City hereby waives subparagraphs (b) and (c) of Section 662.104 (Fees authorized in certain instances) Chapter 662 (Library System and Services) in order to waive fees imposed on library patrons for the inconvenience and disruption of services caused by the late return of library books and materials, and to replace books and other library materials which have been taken by a patron and not returned within the time prescribed by the Board or upon demand of the Board or an authorized employee. This waiver shall apply retroactively for a period of 12 months from the effective date of this Ordinance. **[Joey, is this as contemplated, is there also a 6 month waiver going forward?]**

Commented [GP21]: As contemplated. I don't know that we want to set up an incentive to have delinquencies go up for the next six months…but would yield on this if Brian, Stephanie, and Jordan think otherwise. Waiving the last 12 months was calculated as $250,000 cost by the library rather than the $1 million we had estimated based upon older data.

Section 16. Approving and Authorizing a Grants Administration Agreement with Fidelity National Information Services, Inc. There is hereby approved, and the Mayor and Corporation Secretary are authorized to enter into an agreement ("Agreement") between the City and Fidelity National Information Services, Inc. ("FIS"), substantially in the form placed **On File** with the Legislative Services Division. Pursuant to the Agreement, FIS will provide pay cards in the amount of $1,000 each for the City to provide to grant recipients under the MRU Program.

Section 17. Invoking the exception to Section 126.107(g), *Ordinance Code*. The City is hereby authorized to enter into the Agreement with Fidelity National Information Services, Inc. for the

purposes described in Section 13. Pursuant to Section 126.107(g) (Exemptions), Part 1 (General Regulations), Chapter 126 (Procurement Code), *Ordinance Code*, such procurement is exempted from competitive solicitation because the supplies or services are to be provided by those specifically prescribed within authorizing legislation that appropriates the same. With the exception of the foregoing, all other provisions of Chapter 126, *Ordinance Code*, shall remain in full force and effect.

Section 18. Oversight Department. The Finance and Administration Department and Office of Economic Development shall provide oversight for the Program, and the Downtown Investment Authoirty shall provide oversight regarding Section 11 herein.

Section 19. Requesting Emergency Passage Upon Introduction pursuant to Council Rule 4.901. Emergency passage of this legislation is requested upon introduction. The nature of the emergency is that the negative health and economic impacts of COVID-19 are ongoing and immediate economic assistance will assist in maintaining the viability of businesses and financial needs of the citizens of Duval County impacted by COVID-19.

Kirk, here's the last draft of the ordinance. Still working on it but perhaps you can't give it a good auditor once over and also look at the fee waiver sections to make sure OGC captured it correctly and referenced the right sections of code.

(g) The authorizations provided by this Ordinance are for public uses and purposes for which the City may use its powers as a county, municipality and as a political subdivision of the State of Florida and may expend public funds, and the necessity in the public interest for the provisions herein enacted is hereby declared as a matter of legislative determination.

fully fund the COVID-19 Small Business Relief Program.

Section 3. Purpose. The purpose of the appropriation in Section 2 is to: (1) provide $1,000 COVID-19 Mortgage, Rent and Utility Relief Program grants ("MRU Grants") to eligible citizens of Duval County, in the maximum, cumulative amount of $43,500,000, including the costs of administering the program; (2) provide up to $40,000,000 to establish and operate COVID-19 and COVID-19 antibody test sites within the City; (3) reimburse the City $12,500,000 for anticipated costs not reimbursed by the Federal Emergency Management Agency; (4) provide the remaining $17,000,000 to fully fund the COVID-19 Small Business Relief and Employee Retention Grant Program ("Small Business Grant Program") previously authorized by Ordinance 2020-201-E; (5) reimburse the City $9,000,000 for the costs of the Small Business Grant Program previously authorized by Ordinance 2020-201-E; (6) reimburse the City up to $25,000,000 for necessary governmental expenditures that ~~would~~ may otherwise no longer be funded due to declines in previously anticipated revenues due to the economic impact of COVID-19 response measures; and (7) providing up to an additional $20,000,000 to provide additional funding to entities that are managing or operating city-owned facilities or functions on behalf of the City. Such funding and uses is intended to partially combat the economic impacts on individuals and businesses of the COVID-19 disease.

Section 4. Carryover. The funds appropriated herein shall not lapse but shall carryover as appropriated from year to year until such funds are expended or lapse according to the terms of the Agreement and the Program. (a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential

Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance;

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance; or

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved.

Section 7. Temporary Moratorium Imposed as to certain Building Inspection Fees imposed by Section 320.402(b)(3) (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). Section 12. The City hereby waives the provisions of Section 122.202 (Parking Rates at Municipal Parking Lots), Part 2 (Municipal Parking Lots), Chapter 122 (Public Property), *Ordinance Code*, in order to authorize the Chief Executive Officer ("CEO") of the Downtown Investment Authority ("DIA") to establish discounted parking rates for current business and individuals users of City-owned parking facilities for a period of not longer than six months of the effective date of this Ordinance or such time as repealed by Council, whichever shall occur first.

(a) Individual users of City-owned parking facilities may apply for a discounted parking rate on the form attached hereto as **Exhibit 4** and incorporated herein by this reference. An individual applicant must demonstrate a salary reduction of 25% or more as a result of the impacts of COVID-19, calculated against the applicant's standard salary as of February 29, 2020. Section 15. Waiver of Section 662.104(b) and (c) (Fees authorized in certain instances) Chapter 662 (Library System and Services); providing for twelve months retroactive applicability. The City hereby waives subparagraphs (b) and (c) of Section 662.104 (Fees authorized in certain instances) Chapter 662 (Library System and Services) in order to waive fees imposed on library patrons for the inconvenience and disruption of services caused by the late return of library books and materials, and to replace books and other library materials which have been taken by a patron and not returned within the time prescribed by the Board or upon demand of the Board or an authorized employee. This waiver shall apply retroactively for a period of 12 months from the effective date of this Ordinance. **[Joey, is this as contemplated, is there also a 6 month waiver going forward?]**

Commented [GP21]: As contemplated. I don't know that we want to set up an incentive to have delinquencies go up for the next six months…but would yield on this if Brian, Stephanie, and Jordan think otherwise. Waiving the last 12 months was calculated as $250,000 cost by the library rather than the $1 million we had estimated based upon older data.

Section 16. Approving and Authorizing a Grants Administration Agreement with Fidelity National Information Services, Inc. There is hereby approved, and the Mayor and Corporation Secretary are authorized to enter into an agreement ("Agreement") between the City and Fidelity National Information Services, Inc. purposes described in Section 13. Pursuant to Section 126.107(g) (Exemptions), Part 1 (General Regulations), Chapter 126 (Procurement Code), *Ordinance Code*, such procurement is exempted from competitive solicitation because the supplies or services are to be provided by those specifically prescribed within authorizing legislation that appropriates the same. With the exception of the foregoing, all other provisions of Chapter 126, *Ordinance Code*, shall remain in full force and effect.

Section 18. Oversight Department. The Finance and Administration Department and Office of Economic Development shall provide oversight for the Program, and the Downtown Investment Authoirty shall provide oversight regarding Section 11 herein.

Section 19. Requesting Emergency Passage Upon Introduction pursuant to Council Rule 4.901. Emergency passage of this legislation is requested upon introduction. April 24, 2020, Jacksonville, Fla. -- Mayor Lenny Curry along with City Council Vice President, Tommy Hazouri, announced Friday that his administration has filed legislation with the Jacksonville City Council to allocate nearly $160 million in Federal CARES Act funds to provide relief to citizens and support the ongoing response to COVID-19.

“My team and I are proud to work with the City Council to provide needed assistance to the people of Jacksonville and support continued COVID-19 response and recover efforts throughout our community,” Mayor Lenny Curry said.

Vice President Hazouri added, “These funds will go a long way toward helping citizens meet their obligations, provide a needed boost to our economy, keep people working, and putting us on a path to recovery.”

The Jacksonville City Council will vote on the proposed legislation Monday, April 27, 2020. Once approved, Duval County residents who meet criteria will be informed how to apply early next week.

The Jacksonville COVID-19 Relief Program will include $40 million in direct stimulus for individuals to help with mortgage, rent and utility payments. This program will provide $1,000 in relief to 40,000 households that meet certain criteria. This includes:

- You must be a Duval County resident
- Provide proof you were employed on February 29, 2020
- Make less than $75,000 per household on the date of application
- Have lost at least 25% of your income because of the COVID-19 crisis.

In addition, $35 million will be allocated toward sustained COVID-19 testing, testing sites and other healthcare infrastructure needs. Testing will be offered throughout Jacksonville so that we can serve every neighborhood. $12.5 million will go to the City’s COVID-19 emergency account for response expenditures not reimbursed by FEMA. Additional usage of the funds is explained in the legislation.

FIS, a Jacksonville based Fortune 500 company, will graciously assist with issuing the $1,000 preloaded pay cards to ensure that recipients get the money as quickly as possible, and without having to absorb added fees.

Mayor Curry said, “I want to thank FIS Chairman, President and CEO, Gary Norcross, and his team for their tremendous level of dedication and support for our community. Their assistance with pulling this program

AMERICAN OVERSIGHT

together quickly will help 40,000 households cover payments for essential needs like shelter, water and electricity during this difficult period.”

Important information regarding criteria and the application process will be releasedearly next week.

have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001545

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001546

else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

The **City of Jacksonville** ("Client") has engaged **Fidelity Information Services, LLC** (together with its subsidiaries and Affiliates, "FIS") to provide Client with one or more prepaid card programs (each a "Program") as further defined below. The Cards will be distributed by Client in connection with bona fide business programs the Client makes available to its employees, franchisees, dealers, distributors, clients or customers. "Affiliate" means, with respect to a party, any entity which directly or indirectly, through one or more intermediaries, is controlled by, or is under common control with such party.

1. THE CLIENT ACKNOWLEDGES AND UNDERSTANDS THAT FIS OR A THIRD PARTY PROVIDER TO FIS has an agreement to market and manage prepaid card programs with a nationally chartered financial institution ("Issuing Bank") which is the issuer of Cards, a member of Visa USA ("Visa") or MasterCard ("MasterCard") (Visa and MasterCard are referred to herein as the "Association(s)") and licensed through the Associations to provide card issuance services. As used in this agreement any reference to FIS shall also be a reference to its third-party service providers.

2. **Commencement. Term.**

2.1. Each party shall make commercially reasonable efforts, including the assignment of adequate personnel, to commence the Service as soon as practicable following the Effective Date. The "Commencement Date" of a Program is the date on which Client first distributes a Card. FIS reserves the right to decline to commence a Program for Client in its sole discretion or discontinue the distribution of cards if determined in its or Issuing Bank's sole discretion to be inconsistent with safe and sound banking practices.

2.2. Term. The Agreement is effective on the Effective Date and shall continue for an initial term of sixty (60) months (the "Initial Term"). After the Initial Term, or the then current Renewal Term, the term of the Agreement may be renewed for one additional sixty (60) month term upon the mutual agreement of the parties (a "Renewal Term") unless terminated by Client or FIS in writing at least 180 days prior to the last day of the Initial Term.

3. **FIS Responsibilities**.

3.1. FIS Performance. FIS shall provide Client and, where applicable, Client's customers ("Customers") with access to and use of the Service in accordance with these Terms, and FIS' then current standard user operating instructions and requirements made available to Client from time to time ("Specifications"). FIS shall make available documents, reports, statements and other output of the Services, as may be more fully described in the Specifications (collectively, "Output"). "Service" means a service provided by FIS pursuant to this Agreement, to include any Program. FIS may withdraw a Service or terminate any function or Service (i) immediately upon any final regulatory, legislative, or judicial determination that providing such Service or function violates applicable law or regulation or the rights of any third party, or (ii) upon providing not less than three hundred sixty-five (365) days' prior written notice to Client so long as FIS is withdrawing or terminating the Service or function from its entire client base.

3.2. FIS will provide to Client one or more prepaid card programs (each a "Program") as described the applicable program terms (set forth herein) and as designated on an Order Form, whereby FIS will supply Client with one or more types of prepaid cards ("Cards") purchased by Client pursuant to an Order Form. The Cards will be distributed by Client in connection with bona fide business, economic incentive and COVID-19 related programs the Client makes available to its employees, franchisees, dealers, distributors, clients, customers, or residents of Duval County, as applicable. All Cards will be prepaid cards as further described in the Program Addendum.

3.3. FIS shall provide the Programs in compliance with all Laws applicable to FIS as provider of the Programs. "Law" means any law, rule, regulation, ordinance, code or order to which a party may be subject or under which a party may exercise rights.

3.4. FIS shall perform an on-going review of Laws applicable to the provision of the Programs. FIS shall maintain the features of the Programs in accordance with all Laws applicable to such features, including new or amended Laws (as applicable and necessary to support compliance obligations), in a non-custom environment.

4. **Client Responsibilities**.

4.1. Client shall: (i) timely deliver to FIS any information necessary for the provision of the Programs in a

form and format approved by FIS, including but not limited to the Client Due Diligence Form included with this Agreement; (ii) [intentionally omitted], (iii) be solely responsible for timely procuring any information or cooperation required from its employees other third parties in order to commence the Program; (iv) have sole responsibility for verifying the accuracy, completeness or authenticity of any Data furnished by Client or a third party; (v) be solely responsible for training its employees and representatives to comply with all Laws applicable to Client and the procedures set forth in any manual or other literature provided to Client by FIS; (vi) comply with all Laws applicable to Client's business and its use of the Programs, including but not limited to those Laws relating to usury, truth-in-lending, fair credit reporting, equal credit opportunity, automated clearing house transfers, networks associations, electronic funds transfer, privacy and direct marketing, regardless of whether Client uses any forms or other materials supplied by FIS.

4.2. Client shall be responsible for monitoring and interpreting (and for complying with, to the extent such compliance requires no action by FIS), the applicable Laws pertaining to Client's business ("Legal Requirements"). Based on Client's instructions, FIS shall implement features and options (collectively, the "Parameters") for a Program that shall apply to Client. Client shall be responsible for determining that such selections are consistent with the Legal Requirements. In making such determinations, FIS deliver the Programs in accordance with the Parameters.

5. Data.

5.1. Client shall be solely responsible for transmitting its Data (collectively, "Client Data") and verifying the accuracy, completeness or authenticity of Data furnished by Client or a third party. Client shall bear any risk of loss resulting from that transmission until receipt by FIS. FIS shall bear the risk of loss resulting from Data transmitted to Client until Client confirms receipt. If Client requests FIS to disclose Client Data to a third party, Client shall provide FIS with written authorization to do so and bear any risk of loss or liability associated with that disclosure. In addition, FIS shall be held harmless from any claim arising out of such disclosure or the third party's use or disclosure of that Client Data. If Client's requested disclosure includes FIS Confidential Information, FIS may remove FIS Confidential Information (or require such removal) prior to such disclosure and require the third party to enter into a written agreement with FIS governing use, disclosure and safekeeping of the FIS Confidential Information.

5.2. FIS shall not be responsible for the accuracy, completeness or authenticity of any Data furnished by Client or a third party, and shall have no obligation to audit, check or verify that Data. If any Data submitted by Client or a third party to FIS is incorrect, incomplete or not in the required format, FIS may require Client to resubmit the Data or FIS may correct the Data and bill Client its then current rates for performing those corrections. FIS shall attempt to notify Client prior to Client incurring such expense.

5.3. Client shall maintain a copy of all Data submitted to FIS (whether directly or through a third party) to permit reconstruction if ever required. Client assumes all risk and expense associated with Data reconstruction, except for those expenses incurred as a direct consequence of FIS' breach of the Agreement. If Data reconstruction is ever required, the parties shall mutually agree on a schedule for that reconstruction

6. **Reserved**.

7. **Use of Services.** Except as otherwise permitted in the Agreement or in writing by FIS, Client shall use each Service only for its own internal business purposes to service its Customers in accordance with the terms of the Agreement and the applicable Specifications. Client shall not (i) except as permitted in the Agreement and the applicable Specifications, sell, use or otherwise provide, directly or indirectly, any of the Service, or any portion thereof to or for the benefit of any third party, (ii) except as permitted by FIS in writing, copy any Service, or any part, feature, function or user interface thereof; (iii) adapt, modify, translate, reverse engineer, decompile, disassemble, or create derivative works based on any Service or any part thereof; (iv) attempt to gain unauthorized access to any Service or its related systems or networks; (v) access any Service for purposes of monitoring the performance or functionality for any benchmarking or competitive purposes; or (vi) perform any load or security testing unless FIS' prior written approval is obtained. Client agrees that FIS may use all suggestions for improvement and comments regarding the Service that are furnished by Client to FIS in connection with the Agreement, without accounting or reservation. Except as otherwise may be set forth herein or in writing between the parties.

8. **Payment.**

8.1. Any upfront or onetime fees described in an Order Form or pricing attachment are due prior to Commencement Date. Any recurring fees shall be billed for each calendar month (or portion thereof) beginning on the Commencement Date and shall be paid within thirty (30) days of the invoice date.

Client shall provide FIS Payment Account information sufficient for FIS to initiate ACH transfer within thirty (30) days after execution of this Agreement and shall provide to FIS any change in FIS Payment Account information within three (3) business days of any change. In the event FIS does not collect amounts owed from the FIS Payment Account, Client must pay such amounts via electronic payment within thirty (30) days of the invoice date. For any amount not paid within thirty (30) days after its due date, Client shall pay a late fee equal to the lesser of one and one-half percent (1½%) per month of the unpaid amount or the maximum interest rate allowed by law.

8.3. Billing Errors. In the event of over-billing, FIS will correct the error by credit to Client. If Client was under-billed, FIS will add the under-billed amount to a future invoice. FIS may utilize any amounts owed to Client under the Agreement to pay or reimburse FIS for amounts owed by Client.

8.4. Taxes. All charges and fees to be paid by Client under the Agreement are exclusive of any applicable withholding, sales, use, excise, value added or other taxes. Any of these taxes for which FIS is legally or contractually responsible to collect from Client shall be billed by FIS and paid by Client. FIS shall pay and hold Client harmless for any taxes on FIS property, income or payroll. Client agrees to hold FIS harmless for any sales, use, excise, value added or other taxes assessed by a taxing authority on Client and arising out of the Agreement. In the event of any assessment by a taxing authority, both parties agree to cooperate with each other to resolve issues in order to minimize the assessment.

9. Intellectual Property.

9.1. Each party shall continue to own any Data that it provides, or that may be provided on its behalf, to the other party in connection with the use or provision of the Services. MAYOR CURRY PROPOSES LEGISLATION TO PROVIDE DIRECT STIMULUS TO 40,000 DUVAL COUNTY HOUSEHOLDS & FUND ADDITIONAL COVID-19 TESTING SITES

April 24, 2020, Jacksonville, Fla. -- Mayor Lenny Curry along with City Council Vice President, Tommy Hazouri, announced Friday that his administration has filed legislation with the Jacksonville City Council to allocate nearly $160 million in Federal CARES Act funds to provide relief to citizens and support the ongoing response to COVID-19.

“My team and I are proud to work with the City Council to provide needed assistance to the people of Jacksonville and support continued COVID-19 response and recover efforts throughout our community,” Mayor Lenny Curry said.

Vice President Hazouri added, “These funds will go a long way toward helping citizens meet their obligations, provide a needed boost to our economy, keep people working, and putting us on a path to recovery.”

The Jacksonville City Council will vote on the proposed legislation Monday, April 27, 2020. Once approved, Duval County residents who meet criteria will be informed how to apply early next week.

The Jacksonville COVID-19 Relief Program will include $40 million in direct stimulus for individuals to help with mortgage, rent and utility payments. This program will provide $1,000 in relief to 40,000 households that meet certain criteria. This includes:

Testing will be offered throughout Jacksonville so that we can serve every neighborhood. $12.5 million will go to the City’s COVID-19 emergency account for response expenditures not reimbursed by FEMA. Additional usage of the funds is explained in the legislation.

FIS, a Jacksonville based Fortune 500 company, will graciously assist with issuing the $1,000 preloaded pay cards to ensure that recipients get the money as quickly as possible, and without having to absorb added fees.

Mayor Curry said, “I want to thank FIS Chairman, President and CEO, Gary Norcross, and his team for their tremendous level of dedication and support for our community. Their assistance with pulling this program

power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. FL-DUVAL-20-0723-A-001613

have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001614

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001615

else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 9. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

The **City of Jacksonville** ("Client") has engaged **Fidelity Information Services, LLC** (together with its subsidiaries and Affiliates, "FIS") to provide Client with one or more prepaid card programs (each a "Program") as further defined below. The Cards will be distributed by Client in connection with bona fide business programs the Client makes available to its employees, franchisees, dealers, distributors, clients or customers. "Affiliate" means, with respect to a party, any entity which directly or indirectly, through one or more intermediaries, is controlled by, or is under common control with such party.

1. THE CLIENT ACKNOWLEDGES AND UNDERSTANDS THAT FIS OR A THIRD PARTY PROVIDER TO FIS has an agreement to market and manage prepaid card programs with a nationally chartered financial institution ("Issuing Bank") which is the issuer of Cards, a member of Visa USA ("Visa") or MasterCard ("MasterCard") (Visa and MasterCard are referred to herein as the "Association(s)") and licensed through the Associations to provide card issuance services. As used in this agreement any reference to FIS shall also be a reference to its third-party service providers.

2. **Commencement. Term.**

2.1. Each party shall make commercially reasonable efforts, including the assignment of adequate personnel, to commence the Service as soon as practicable following the Effective Date. The "Commencement Date" of a Program is the date on which Client first distributes a Card. FIS reserves the right to decline to commence a Program for Client in its sole discretion or discontinue the distribution of cards if determined in its or Issuing Bank's sole discretion to be inconsistent with safe and sound banking practices.

2.2. Term. The Agreement is effective on the Effective Date and shall continue for an initial term of sixty (60) months (the "Initial Term"). After the Initial Term, or the then current Renewal Term, the term of the Agreement may be renewed for one additional sixty (60) month term upon the mutual agreement of the parties (a "Renewal Term") unless terminated by Client or FIS in writing at least 180 days prior to the last day of the Initial Term.

3. **FIS Responsibilities**.

3.1. FIS Performance. FIS shall provide Client and, where applicable, Client's customers ("Customers") with access to and use of the Service in accordance with these Terms, and FIS' then current standard user operating instructions and requirements made available to Client from time to time ("Specifications"). FIS shall make available documents, reports, statements and other output of the Services, as may be more fully described in the Specifications (collectively, "Output"). "Service" means a service provided by FIS pursuant to this Agreement, to include any Program. FIS may withdraw a Service or terminate any function or Service (i) immediately upon any final regulatory, legislative, or judicial determination that providing such Service or function violates applicable law or regulation or the rights of any third party, or (ii) upon providing not less than three hundred sixty-five (365) days' prior written notice to Client so long as FIS is withdrawing or terminating the Service or function from its entire client base.

3.2. FIS will provide to Client one or more prepaid card programs (each a "Program") as described the applicable program terms (set forth herein) and as designated on an Order Form, whereby FIS will supply Client with one or more types of prepaid cards ("Cards") purchased by Client pursuant to an Order Form. The Cards will be distributed by Client in connection with bona fide business, economic incentive and COVID-19 related programs the Client makes available to its employees, franchisees, dealers, distributors, clients, customers, or residents of Duval County, as applicable. All Cards will be prepaid cards as further described in the Program Addendum.

3.3. FIS shall provide the Programs in compliance with all Laws applicable to FIS as provider of the Programs. "Law" means any law, rule, regulation, ordinance, code or order to which a party may be subject or under which a party may exercise rights.

3.4. FIS shall perform an on-going review of Laws applicable to the provision of the Programs. FIS shall maintain the features of the Programs in accordance with all Laws applicable to such features, including new or amended Laws (as applicable and necessary to support compliance obligations), in a non-custom environment.

4. **Client Responsibilities**.

4.1. Client shall: (i) timely deliver to FIS any information necessary for the provision of the Programs in a

form and format approved by FIS, including but not limited to the Client Due Diligence Form included with this Agreement; (ii) [intentionally omitted], (iii) be solely responsible for timely procuring any information or cooperation required from its employees other third parties in order to commence the Program; (iv) have sole responsibility for verifying the accuracy, completeness or authenticity of any Data furnished by Client or a third party; (v) be solely responsible for training its employees and representatives to comply with all Laws applicable to Client and the procedures set forth in any manual or other literature provided to Client by FIS; (vi) comply with all Laws applicable to Client's business and its use of the Programs, including but not limited to those Laws relating to usury, truth-in-lending, fair credit reporting, equal credit opportunity, automated clearing house transfers, networks associations, electronic funds transfer, privacy and direct marketing, regardless of whether Client uses any forms or other materials supplied by FIS.

4.2. Client shall be responsible for monitoring and interpreting (and for complying with, to the extent such compliance requires no action by FIS), the applicable Laws pertaining to Client's business ("Legal Requirements"). Based on Client's instructions, FIS shall implement features and options (collectively, the "Parameters") for a Program that shall apply to Client. Client shall be responsible for determining that such selections are consistent with the Legal Requirements. In making such determinations, FIS deliver the Programs in accordance with the Parameters.

5. Data.

5.1. Client shall be solely responsible for transmitting its Data (collectively, "Client Data") and verifying the accuracy, completeness or authenticity of Data furnished by Client or a third party. Client shall bear any risk of loss resulting from that transmission until receipt by FIS. FIS shall bear the risk of loss resulting from Data transmitted to Client until Client confirms receipt. If Client requests FIS to disclose Client Data to a third party, Client shall provide FIS with written authorization to do so and bear any risk of loss or liability associated with that disclosure. In addition, FIS shall be held harmless from any claim arising out of such disclosure or the third party's use or disclosure of that Client Data. If Client's requested disclosure includes FIS Confidential Information, FIS may remove FIS Confidential Information (or require such removal) prior to such disclosure and require the third party to enter into a written agreement with FIS governing use, disclosure and safekeeping of the FIS Confidential Information.

5.2. FIS shall not be responsible for the accuracy, completeness or authenticity of any Data furnished by Client or a third party, and shall have no obligation to audit, check or verify that Data. If any Data submitted by Client or a third party to FIS is incorrect, incomplete or not in the required format, FIS may require Client to resubmit the Data or FIS may correct the Data and bill Client its then current rates for performing those corrections. FIS shall attempt to notify Client prior to Client incurring such expense.

5.3. Client shall maintain a copy of all Data submitted to FIS (whether directly or through a third party) to permit reconstruction if ever required. Client assumes all risk and expense associated with Data reconstruction, except for those expenses incurred as a direct consequence of FIS' breach of the Agreement. If Data reconstruction is ever required, the parties shall mutually agree on a schedule for that reconstruction

6. **Reserved**.

7. **Use of Services.** Except as otherwise permitted in the Agreement or in writing by FIS, Client shall use each Service only for its own internal business purposes to service its Customers in accordance with the terms of the Agreement and the applicable Specifications. Client shall not (i) except as permitted in the Agreement and the applicable Specifications, sell, use or otherwise provide, directly or indirectly, any of the Service, or any portion thereof to or for the benefit of any third party, (ii) except as permitted by FIS in writing, copy any Service, or any part, feature, function or user interface thereof; (iii) adapt, modify, translate, reverse engineer, decompile, disassemble, or create derivative works based on any Service or any part thereof; (iv) attempt to gain unauthorized access to any Service or its related systems or networks; (v) access any Service for purposes of monitoring the performance or functionality for any benchmarking or competitive purposes; or (vi) perform any load or security testing unless FIS' prior written approval is obtained. Client agrees that FIS may use all suggestions for improvement and comments regarding the Service that are furnished by Client to FIS in connection with the Agreement, without accounting or reservation. Except as otherwise may be set forth herein or in writing between the parties.

8. **Payment.**

8.1. Any upfront or onetime fees described in an Order Form or pricing attachment are due prior to Commencement Date. Any recurring fees shall be billed for each calendar month (or portion thereof) beginning on the Commencement Date and shall be paid within thirty (30) days of the invoice date.

In the event FIS does not collect amounts owed from the FIS Payment Account, Client must pay such amounts via electronic payment within thirty (30) days of the invoice date. For any amount not paid within thirty (30) days after its due date, Client shall pay a late fee equal to the lesser of one and one-half percent (1½%) per month of the unpaid amount or the maximum interest rate allowed by law.

8.3. Billing Errors. In the event of over-billing, FIS will correct the error by credit to Client. If Client was under-billed, FIS will add the under-billed amount to a future invoice. FIS may utilize any amounts owed to Client under the Agreement to pay or reimburse FIS for amounts owed by Client.

8.4. Taxes. All charges and fees to be paid by Client under the Agreement are exclusive of any applicable withholding, sales, use, excise, value added or other taxes. Any of these taxes for which FIS is legally or contractually responsible to collect from Client shall be billed by FIS and paid by Client. FIS shall pay and hold Client harmless for any taxes on FIS property, income or payroll. Client agrees to hold FIS harmless for any sales, use, excise, value added or other taxes assessed by a taxing authority on Client and arising out of the Agreement. In the event of any assessment by a taxing authority, both parties agree to cooperate with each other to resolve issues in order to minimize the assessment.

notice to Council, and requires that the Mayor shall provide to the Council Auditor, within three working days after the effective date thereof, a copy of written documentation of all transfers of funds made during the applicable fiscal year.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.*— The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001679

sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. —The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. —The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. —Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the

AMERICAN OVERSIGHT

one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in ~~76~~Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. ~~—~~Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family ~~home~~residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001681

within which the final construction and/or engineering plans were approved. —In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

BE IT ORDAINED by the Council of the City of Jacksonville:

Section 1. Findings. It is hereby ascertained, determined, found and declared as follows:

(a) The recitals set forth herein are true and correct.

(b) By incentivizing the retention of employees and providing grant funds to small businesses within the City, the Program is designed to benefit both individuals and small businesses and will promote and further the public and municipal purposes of the City and serve to limit the severe economic impacts of COVID-19.

(c) The Program is designed to provide rapid economic relief to small businesses in order to maintain the viability of such businesses and the employment of individuals thereof, thus maintaining the City's tax base and revenues.

(d) Enhancement of the City's tax base and revenues, are matters of State and City policy and State and City concern in order that the State and its counties and municipalities, including the City, shall not continue to be endangered by unemployment, underemployment, economic recession, poverty, crime and disease, and consume an excessive proportion of the State and City revenues because of the extra services required for police, fire, accident, health care, elderly care, charity care, hospitalization, public housing and housing assistance, and other forms of public protection, services and facilities.

(e) The grants and programs authorized hereby will provide economic relief to businesses and individuals, thus encouraging ongoing compliance with the Emergency Measures and benefitting the health, safety and welfare of the citizens of Duval County.

(f) The provision of the City's assistance as set forth

AMERICAN OVERSIGHT

herein is necessary and appropriate, and the City's assistance is reasonable and not excessive, taking into account the extent of the public benefits expected to be derived from the grants and programs authorized hereby, and taking into account all other forms of assistance available.

(g) The authorizations provided by this Ordinance are for public uses and purposes for which the City may use its powers as a county, municipality and as a political subdivision of the State of Florida and may expend public funds, and the necessity in the public interest for the provisions herein enacted is hereby declared as a matter of legislative determination.

(h) This Ordinance is adopted pursuant to the provisions of Chapters 163, 166 and 125, Florida Statutes, as amended, the City's Charter, and other applicable provisions of law.

Section 2. Appropriation. For the 2019-2020 fiscal year, within the City's budget, there are hereby appropriated the indicated sum(s) from the account(s) listed in subsection (a) to the account(s) listed in subsection (b):

(a) Appropriated from:

See attached **Exhibit 1** $167,000,000

(b) Appropriated to:

See attached **Exhibit 1** $167,000,000

(c) **Explanation of Appropriation:**

$167,000,000 of the funding above is the Federal Cares Act grant funding received by the City from the Federal government pursuant to the Cares Act. The funds will be used to provide economic incentive grants to citizens residing in Duval County, and to reimburse the City for various waivers of certain City imposed fees, and to

AMERICAN OVERSIGHT

fully fund the COVID-19 Small Business Relief Program.

Section 3. Purpose. The purpose of the appropriation in Section 2 is to provide grants to eligible small businesses located in Duval County to partially combat the economic impacts of the COVID-19 virus and encourage approved businesses to retain their employees for the duration of the declared emergencies.

Section 4. Carryover. The funds appropriated herein shall not lapse but shall carryover as appropriated from year to year until such funds are expended or lapse according to the terms of the Agreement and the Program. Funds appropriated in this Ordinance must be committed before November 1, 2020, failure to do so will cause funds to revert to accounts of origin.

Section 5. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Partially Waived. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code or building permits for single family residential construction are hereby temporarily partially waived. In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. The temporary partial waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate. The temporary partial waiver on the assessment and collection of any mobility fee required shall remain in effect for a period of 6 months, beginning from the effective date of this ordinance, or until such time as repealed by the Council, whichever occurs first. During the temporary partial waiver period beginning after the effective date of this ordinance, and notwithstanding

anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction on existing lots obtained within nine months of the effective date of this ordinance shall be required to pay 25% of the mobility fee set forth in a mobility fee calculation certificate, and may thereafter commence construction. During the temporary partial waiver period beginning after the effective date of this ordinance, if a site clearing permit, for property that has received ten set approval per Chapter 654, Ordinance Code, is obtained within nine months of the effective date of this ordinance, any future building permit for single family construction on that property shall be required to pay 25% of the mobility fee set forth in a mobility fee calculation certificate, and may thereafter commence construction. Approval of final construction and/or engineering plans under Chapter 320, Ordinance Code or building permits for single family residential construction on existing lots obtained after nine months after the effective date of this ordinance, but before 15 months after the effective date of this ordinance, shall be required to pay 50% of the mobility fee set forth in a mobility fee calculation certificate, and may thereafter commence construction. If a site clearing permit, for property that has received ten set approval per Chapter 654, Ordinance Code, is obtained after nine months after the effective date of this ordinance, but before 15 months after the effective date of this ordinance, any future building permit for single family construction on that property shall be required to pay 50% of the mobility fee set forth in a mobility fee calculation certificate, and may thereafter commence construction. Approval of final construction and/or engineering plans under Chapter 320, Ordinance Code or building permits for single family residential

construction on existing lots obtained after 15 months after the effective date of this ordinance, but before 18 months after the effective date of this ordinance, shall be required to pay 75% of the mobility fee set forth in a mobility fee calculation certificate, and may thereafter commence construction. If a site clearing permit, for property that has received ten set approval per Chapter 654, Ordinance Code, is obtained after 15 months after the effective date of this ordinance, but before 18 months after the effective date of this ordinance, any future building permit for single family construction on that property shall be required to pay 75% of the mobility fee set forth in a mobility fee calculation certificate, and may thereafter commence construction

Section 6. Requirement for Certificate of Occupancy by Time Certain. Failure to obtain a Certificate of Occupancy for a single family residential building permit within 42 months after the overall temporary partial waiver period begins shall require immediate payment of that portion of the full amount of the mobility fee calculated pursuant to Section 655.503, Ordinance Code but waived during the temporary partial waiver period. Failure to complete construction pursuant to any such final construction and/or engineering plans under Chapter 320, Ordinance Code and obtain a Certificate of Occupancy for: (i) final construction and/or engineering plans or non-single family residential building permits that exceed a value of $1,000,000.00, no later than thirty-six (36) months after the effective date of this ordinance, or (ii) final construction and/or engineering plans or non-single family residential building permits that have a value of $1,000,000.00 or less, no later than 12 months after the approval of such final construction and/or engineering plans or non-single family building permits, shall require immediate payment of that portion of the full amount of the mobility fee calculated pursuant to Section

Commented [GP5]: Is this too generous? What about 24 months?

655.503, Ordinance Code but waived during the temporary partial waiver period. In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary partial waiver rate period within which the final construction and/or engineering plans or non-single family residential building permits are obtained.

Section 7. Allocation of Mobility Fees Collected. Pursuant to Policy 1.4.10 of the Transportation Element of the 2030 Comprehensive Plan, a portion of the mobility fee, as calculated by the mobility fee calculation certificate, collected per development is to be allocated for projects identified on the bicycle and pedestrian prioritized transportation mode improvement list within the applicable mobility zone, as found within the Mobility Plan. In order to maintain, the same level of funding for bicycle and pedestrian projects, while allowing for a partial waiver of mobility fees, the Planning and Development Department is directed to allocate, from each mobility fee collected during the temporary partial waiver period, the full amount that would have normally been allocated to the applicable bicycle and pedestrian projects in the absence of any partial waiver, and then allocate any remaining funds to the applicable transportation project in the applicable Mobility Zone.

Section 8. Temporary Moratorium Imposed as to certain Building Inspection Fees imposed by Section 320.409 (Schedule of Permits), Part 4 (Permits), Chapter 320 (General Provisions).

Section 9. Temporary Moratorium Imposed on the Collection

of Rent, Additional Rent, CAM Fees and other sums owed by eligible tenants or licensees under any lease or license agreement to which the City is a party as landlord or licensor.

Section 10. Temporary Moratorium Imposed on loan payments for eligible borrowers of the City pursuant to existing loan documents between the City and the borrower.

Section 11. Waiving Section 122.202 (Parking Rates at Municipal Parking Lots), Part 2 (Municipal Parking Lots), Chapter 122 (Public Property), *Ordinance Code*.

Section 12. Waiver of Outstanding Duval County Public Library Fines; providing for twelve months retroactive applicability.

Section 13. Approving and Authorizing a Grants Administration Agreement with Fidelity National Information Services, Inc. There is hereby approved, and the Mayor and Corporation Secretary are authorized to enter into an agreement ("Agreement") between the City and Fidelity National Information Services, Inc. ("FIS"), substantially in the form placed **On File** with the Legislative Services Division. Pursuant to the Agreement, FIS will debit cards in the amount of $1,000 each for the City to provide to grant recipients under the COVID-19 Mortgage, Rent and Utility Relief program.

Section 14. Invoking the exception to Section 126.107(g), *Ordinance Code*. The City is hereby authorized to enter into the Agreement with Fidelity National Information Services, Inc. for the purposes described in Section 5. Pursuant to Section 126.107(g) (Exemptions), Part 1 (General Regulations), Chapter 126 (Procurement Code), *Ordinance Code*, such procurement is exempted from competitive solicitation because the supplies or services are to be provided by those specifically prescribed within authorizing legislation that appropriates the same. With the exception of the

AMERICAN OVERSIGHT

foregoing, all other provisions of Chapter 126, *Ordinance Code*, shall remain in full force and effect.

Section 15. Oversight Department. The Finance and Administration Department and Office of Economic Development shall provide oversight for the Program.

Section 16. Requesting one cycle emergency passage pursuant to Council Rules 4.901 Emergency. One cycle emergency passage of this legislation is requested. The nature of the emergency is that sign activity in the public rights-of-way is expected to be particularly active during the second quarter of 2019 (beginning April 1, 2019) due to advertising, real estate, campaign and informative signs increasing with the advent of spring. If this legislation traveled through the normal process as filed, the moratorium would not be approved in time to apply during first month of the quarter. The timing of the moratorium will also affect the amount of data received and the enforcement during an extremely active period of time. Review of the data during the second quarter is the most beneficial in order to obtain a true measurement of sign activity in the right-of-way.

Section 17. Effective Date. This ordinance shall become effective upon signature by the Mayor or upon becoming effective without the Mayor's signature.

BE IT ORDAINED by the Council of the City of Jacksonville:

Section 1. Findings. It is hereby ascertained, determined, found and declared as follows:

(a) The recitals set forth herein are true and correct.

(b) By incentivizing the retention of employees and providing grant funds to small businesses within the City, the Program is designed to benefit both individuals and small businesses and will promote and further the public and municipal purposes of the City and serve to limit the severe economic impacts of COVID-19.

(c) The Program is designed to provide rapid economic relief to small businesses in order to maintain the viability of such businesses and the employment of individuals thereof, thus maintaining the City's tax base and revenues.

Commented [GP12]: John, This seems to be holdover from VyStar agmt. Let's update to include language about current plan.

(d) Enhancement of the City's tax base and revenues, are matters of State and City policy and State and City concern in order that the State and its counties and municipalities, including the City, shall not continue to be endangered by unemployment, underemployment, economic recession, poverty, crime and disease, and consume an excessive proportion of the State and City revenues because of the extra services required for police, fire, accident, health care, elderly care, charity care, hospitalization, public housing and housing assistance, and other forms of public protection, services and facilities.

(e) The grants and programs authorized hereby will provide economic relief to businesses and individuals, thus encouraging ongoing compliance with the Emergency Measures and benefitting the health, safety and welfare of the citizens of Duval County.

(f) The provision of the City's assistance as set forth

AMERICAN OVERSIGHT

herein is necessary and appropriate, and the City's assistance is reasonable and not excessive, taking into account the extent of the public benefits expected to be derived from the grants and programs authorized hereby, and taking into account all other forms of assistance available.

(g) The authorizations provided by this Ordinance are for public uses and purposes for which the City may use its powers as a county, municipality and as a political subdivision of the State of Florida and may expend public funds, and the necessity in the public interest for the provisions herein enacted is hereby declared as a matter of legislative determination.

(h) This Ordinance is adopted pursuant to the provisions of Chapters 163, 166 and 125, Florida Statutes, as amended, the City's Charter, and other applicable provisions of law.

Section 2. Appropriation. For the 2019-2020 fiscal year, within the City's budget, there are hereby appropriated the indicated sum(s) from the account(s) listed in subsection (a) to the account(s) listed in subsection (b):
(B.T. 20-___ attached hereto as **Exhibit 1** and incorporated herein by this reference)

(a) Appropriated from:

See attached **Exhibit 1** $167,000,000

(b) Appropriated to:

See attached **Exhibit 1** $167,000,000

fully fund the COVID-19 Small Business Relief Program.

Section 3. Purpose. The purpose of the appropriation in Section 2 is to: (1) provide $1,000 COVID-19 Mortgage, Rent and Utility Relief Program grants ("MRU Grants") to eligible citizens of Duval County, in the maximum, cumulative amount of $43,500,000, including the costs of administering the program; (2) provide up to $40,000,000 to establish and operate COVID-19 and COVID-19 antibody test sites within the City; (3) reimburse the City $12,500,000 for anticipated costs not reimbursed by the Federal Emergency Management Agency; (4) provide the remaining $17,000,000 to fully fund the COVID-19 Small Business Relief and Employee Retention Grant Program ("Small Business Grant Program") previously authorized by Ordinance 2020-201-E; (5) reimburse the City $9,000,000 for the costs of the Small Business Grant Program previously authorized by Ordinance 2020-201-E; (6) reimburse the City up to $25,000,000 for necessary governmental expenditures that ~~would~~ may otherwise no longer be funded due to declines in previously anticipated revenues due to the economic impact of COVID-19 response measures; and (7) providing up to an additional $20,000,000 to provide additional funding to entities that are managing or operating city-owned facilities or functions on behalf of the City. Such funding and uses is intended to partially combat the economic impacts on individuals and businesses of the COVID-19 disease.

Section 4. Carryover. The funds appropriated herein shall not lapse but shall carryover as appropriated from year to year until such funds are expended or lapse according to the terms of the Agreement and the Program. (a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential

construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance;

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance; or

Commented [GP16]: Brian…This next section was borrowed from the ordinance we did several years ago waiving these fees. This section serves as incentive to actually get the projects going instead of slamming a bunch of projects through the "holiday" period and sitting on them for years.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved.

Section 7. Temporary Moratorium Imposed as to certain Building Inspection Fees imposed by Section 320.402(b)(3) (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). The provisions of Chapter 320 (General Provisions) within the Constructions Regulations and Building Codes, Part 4 (Permits), Section 320.402(b)(3) (Application for Permit) and Section 320.409 (Schedule of permit fees), that requires the payment of application fees, building or construction fees, electrical permit fees, plumbing permit fees, mechanical permit fees, miscellaneous permit fees and miscellaneous fees are hereby temporarily waived for the earlier of 6 months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period").

Section 9. Temporary Moratorium Imposed as to certain Fees imposed by Section 656.147 (Schedule of Fees), Subpart D (Zoning exceptions, variances and waivers, amendments to final order, appeals of written interpretations of the director and appeals of final orders of the commission), and Sections 656.152(b) (Certificate of use application fee), Subpart E (Certificates of Use), each under Part 1 (General Provisions), Chapter 656 (Zoning Code). The provisions of Chapter 656 (Zoning Code), Part 1 (General Provisions), Subpart D (Zoning exceptions, variances and waivers, amendments to final order, appeals of written interpretations of the director and appeals of final orders of the commission), Section 656.147 (Schedule of Fees), and Subpart E (Certificates of Use), Section 656.152(b) (Certificate of use application fee) that require payment of certain zoning fees are hereby temporarily waived for the earlier of 6 months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period").

Section 11. Temporary Moratorium Imposed as to certain Fees imposed by Section 380.303 (Rates for Disposal), Part 3 (Garbage Disposal), (Chapter 380 (Solid Waste Management). The waivers authorized by this Section shall apply solely as to tipping fees charged directly to customers at the Trail Ridge Landfill, and not those fees included in the Solid Waste User Fees.

Section 12. Temporary Moratorium Imposed on the Collection of Rent, Additional Rent, CAM Fees and other sums owed by eligible tenants or licensees under any lease or license agreement to which the City is a party as landlord or licensor. The Mayor, or his designee, on behalf of the City, for a period of up to 6 months from the effective date of this Ordinance, may forgive rental payments due from eligible tenants or licensees (individually, a "Tenant" and collectively, "Tenants") pursuant to duly executed lease or license agreement between the Tenant and the City that is in effect as of the effective date of this Ordinance. The rent forgiveness authorized herein does not waive an eligible Tenant's obligation to make any common area maintenance or other maintenances or other fees, surcharges or payments that may be required to be made to the City pursuant to the terms of the particular lease or license agreement. Section 14. Waiving Section 122.202 (Parking Rates at Municipal Parking Lots), Part 2 (Municipal Parking Lots), Chapter 122 (Public Property), *Ordinance Code*. The City hereby waives the provisions of Section 122.202 (Parking Rates at Municipal Parking Lots), Part 2 (Municipal Parking Lots), Chapter 122 (Public Property), *Ordinance Code*, in order to authorize the Chief Executive Officer ("CEO") of the Downtown Investment Authority ("DIA") to establish discounted parking rates for current business and individuals users of City-owned parking facilities for a period of not longer than six months of the effective date of this Ordinance or such time as repealed by Council, whichever shall occur first.

(a) Individual users of City-owned parking facilities may apply for a discounted parking rate on the form attached hereto as **Exhibit 4** and incorporated herein by this reference. An individual applicant must demonstrate a salary reduction of 25% or more as a result of the impacts of COVID-19, calculated against the applicant's standard salary as of February 29, 2020. Each approved applicant will receive a rate reduction in the amount of 50% of the parking rate applicable to the applicant as of February 29, 2020.

(b) Business users of City-owned parking facilities that are deemed essential and are operating at the time of application are eligible to apply for a discounted parking rate on the form attached hereto as **Exhibit 5** and incorporated herein by this reference. Such applicants must demonstrate financial harm it has suffered as a result of the impacts of COVID-19, and shall be eligible for up to a 50% parking rate reduction based on a ratio of the applicant's demonstrated revenue losses and the existing parking rate at the time of application.

Section 15. Waiver of Section 662.104(b) and (c) (Fees authorized in certain instances) Chapter 662 (Library System and Services); providing for twelve months retroactive applicability. The City hereby waives subparagraphs (b) and (c) of Section 662.104 (Fees authorized in certain instances) Chapter 662 (Library System and Services) in order to waive fees imposed on library patrons for the inconvenience and disruption of services caused by the late return of library books and materials, and to replace books and other library materials which have been taken by a patron and not returned within the time prescribed by the Board or upon demand of the Board or an authorized employee. This waiver shall apply retroactively for a period of 12 months from the effective date of this Ordinance. **[Joey, is this as contemplated, is there also a 6 month waiver going forward?]**

Commented [GP21]: As contemplated. I don't know that we want to set up an incentive to have delinquencies go up for the next six months…but would yield on this if Brian, Stephanie, and Jordan think otherwise. Waiving the last 12 months was calculated as $250,000 cost by the library rather than the $1 million we had estimated based upon older data.

Section 16. Approving and Authorizing a Grants Administration Agreement with Fidelity National Information Services, Inc. There is hereby approved, and the Mayor and Corporation Secretary are authorized to enter into an agreement ("Agreement") between the City and Fidelity National Information Services, Inc. Brian and team,

Please see the attached draft version of the ordinance which includes my comments and suggestions.

I just hit send on this version to Sawyer to begin reviewing and incorporating. He is aware that you all will have comments, suggestions, and tweaks as well. OGC continues to work on this as we speak and is planning a new updated version late this evening or in the morning.

Accounting and Budget are working on setting up the necessary accounts and 1Cloud account strings to fill in the blanks and put together the BT. Treasury is working on the rent/loan/lease waiver application for my evening review and you'll recall that DIA already has a draft parking abatement application for individuals and businesses from last week when we discussed this.

Call my cell phone anytime to discuss.

BE IT ORDAINED by the Council of the City of Jacksonville:

Section 1. Findings. It is hereby ascertained, determined, found and declared as follows:

(a) The recitals set forth herein are true and correct.

(b) By incentivizing the retention of employees and providing grant funds to small businesses within the City, the Program is designed to benefit both individuals and small businesses and will promote and further the public and municipal purposes of the City and serve to limit the severe economic impacts of COVID-19.

(c) The Program is designed to provide rapid economic relief to small businesses in order to maintain the viability of such businesses and the employment of individuals thereof, thus maintaining the City's tax base and revenues.

Commented [GP12]: John, This seems to be holdover from VyStar agmt. Let's update to include language about current plan.

(d) Enhancement of the City's tax base and revenues, are matters of State and City policy and State and City concern in order that the State and its counties and municipalities, including the City, shall not continue to be endangered by unemployment, underemployment, economic recession, poverty, crime and disease, and consume an excessive proportion of the State and City revenues because of the extra services required for police, fire, accident, health care, elderly care, charity care, hospitalization, public housing and housing assistance, and other forms of public protection, services and facilities.

(e) The grants and programs authorized hereby will provide economic relief to businesses and individuals, thus encouraging ongoing compliance with the Emergency Measures and benefitting the health, safety and welfare of the citizens of Duval County.

(f) The provision of the City's assistance as set forth

AMERICAN OVERSIGHT

herein is necessary and appropriate, and the City's assistance is reasonable and not excessive, taking into account the extent of the public benefits expected to be derived from the grants and programs authorized hereby, and taking into account all other forms of assistance available.

(g) The authorizations provided by this Ordinance are for public uses and purposes for which the City may use its powers as a county, municipality and as a political subdivision of the State of Florida and may expend public funds, and the necessity in the public interest for the provisions herein enacted is hereby declared as a matter of legislative determination.

(h) This Ordinance is adopted pursuant to the provisions of Chapters 163, 166 and 125, Florida Statutes, as amended, the City's Charter, and other applicable provisions of law.

Section 2. Appropriation. For the 2019-2020 fiscal year, within the City's budget, there are hereby appropriated the indicated sum(s) from the account(s) listed in subsection (a) to the account(s) listed in subsection (b):
(B.T. 20-___ attached hereto as **Exhibit 1** and incorporated herein by this reference)

(a) Appropriated from:

See attached **Exhibit 1** $167,000,000

(b) Appropriated to:

See attached **Exhibit 1** $167,000,000

(c) **Explanation of Appropriation:**

AMERICAN OVERSIGHT

fully fund the COVID-19 Small Business Relief Program.

Section 3. Purpose. The purpose of the appropriation in Section 2 is to: (1) provide $1,000 COVID-19 Mortgage, Rent and Utility Relief Program grants ("MRU Grants") to eligible citizens of Duval County, in the maximum, cumulative amount of $43,500,000, including the costs of administering the program; (2) provide up to $40,000,000 to establish and operate COVID-19 and COVID-19 antibody test sites within the City; (3) reimburse the City $12,500,000 for anticipated costs not reimbursed by the Federal Emergency Management Agency; (4) provide the remaining $17,000,000 to fully fund the COVID-19 Small Business Relief and Employee Retention Grant Program ("Small Business Grant Program") previously authorized by Ordinance 2020-201-E; (5) reimburse the City $9,000,000 for the costs of the Small Business Grant Program previously authorized by Ordinance 2020-201-E; (6) reimburse the City up to $25,000,000 for necessary governmental expenditures that ~~would~~ may otherwise no longer be funded due to declines in previously anticipated revenues due to the economic impact of COVID-19 response measures; and (7) providing up to an additional $20,000,000 to provide additional funding to entities that are managing or operating city-owned facilities or functions on behalf of the City. Such funding and uses is intended to partially combat the economic impacts on individuals and businesses of the COVID-19 disease.

Section 4. Carryover. (a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential

construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance;

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance; or

Commented [GP16]: Brian…This next section was borrowed from the ordinance we did several years ago waiving these fees. This section serves as incentive to actually get the projects going instead of slamming a bunch of projects through the "holiday" period and sitting on them for years.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved.

Section 12. Temporary Moratorium Imposed on the Collection of Rent, Additional Rent, CAM Fees and other sums owed by eligible tenants or licensees under any lease or license agreement to which the City is a party as landlord or licensor. The Mayor, or his designee, on behalf of the City, for a period of up to 6 months from the effective date of this Ordinance, may forgive rental payments due from eligible tenants or licensees (individually, a "Tenant" and collectively, "Tenants") pursuant to duly executed lease or license agreement between the Tenant and the City that is in effect as of the effective date of this Ordinance. This waiver shall apply retroactively for a period of 12 months from the effective date of this Ordinance. **[Joey, is this as contemplated, is there also a 6 month waiver going forward?]**

Four Weeks in March

The last four weeks in March 2020 have been far and away the most eventful that the financial markets (generally) and the municipal market (specifically) have experienced in recent memory, and perhaps ever. As a result of a pandemic in the U.S., much of the country has taken massive steps to curb the spread of the virus. Many have shelter-in-place orders which have essentially shut down state, regional, and local economies. Recent steps have absolutely had an impact on investors, and the attached commentary discusses what we have seen in the municipal bond market over this time period.

U.S. Municipal Bond Market

Four Weeks in March

Tom Kozlik

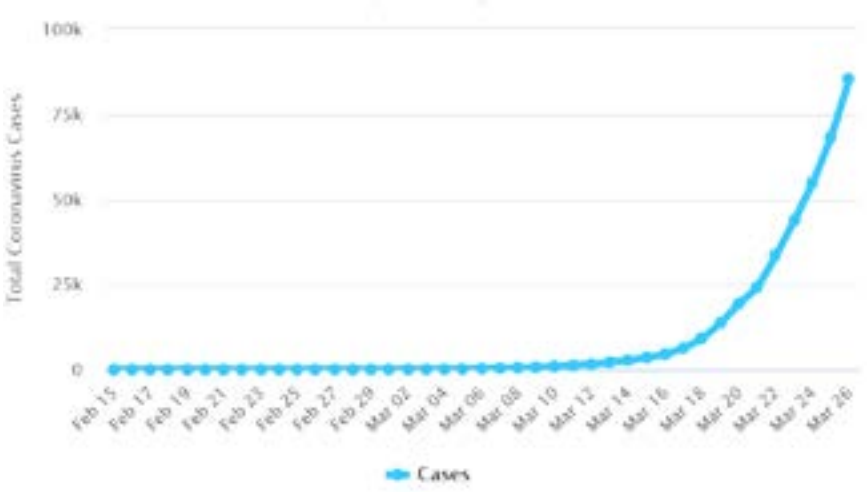
Summary, as of Friday, March 27



- There have been a total of 95,968 coronavirus cases reported in the U.S., 1,477 deaths, and 2,453 recoveries to date.[1] The number of U.S. cases surpassed China's 81k and Italy's 86k on Thursday;
- We reviewed the last four weeks of municipal bond market activity.

The Spread of COVID-19 in the US

This is a very emotional and uncertain time for the municipal bond market and for people. There are shelter-in-place orders throughout much of the U.S. in order to stop the spread of coronavirus (COVID-19). This is significantly curtailing economic activity. Most of what we are hearing on the health side has been bad news. COVID-19 continues to spread in the U.S. On Thursday, the number of cases has surpassed the number of cases in China. The number of deaths from COVID-19 is not expected to peak for another three weeks, according to an epidemiologist who is advising the U.S. Centers for Disease Control and Prevention (CDC).[2] He says only then could the most vulnerable be isolated and others potentially return to work. Then, theoretically the economy could begin its ramp back up. The number of COVID-19 cases in the U.S. has continued to rise exponentially, with a significant concentration in New York.

These Four Weeks in March Will Be Remembered

The spring and fall of 2008 will be remembered for the merger of Bear Stearns and J.P. Morgan, and then the Lehman Brothers bankruptcy. The summer of 2011 will for sure be remembered for the debt ceiling showdown and resulting downgrade of the U.S. And the summer of 2013 will for sure be considered in people's memories because of the impact the "Taper-tantrum" had as a result of former Fed Chief Ben Bernanke's answer, "If we see continued improvement and we have confidence that that's going to be sustained, then we could in the next few meetings…take a step down in our pace of purchases."

The last four weeks in March 2020 have been far and away the most eventful that the financial markets and the municipal market have experienced in recent memory, and perhaps ever.

Week of March 2

To begin the week of March 2, we should mention that interest, if not concern, was building about global economic growth and the potential spread of COVID-19. Rate cuts were expected from the U.S. Federal Reserve, but the emergency rate cuts the Fed delivered were not. The Fed made an unannounced target-rate cut of 50 basis points (bps) on Tuesday March 3.

The concept of social distancing began to be used more regularly, and social distancing measures began to emerge. The SXSW (South by Southwest) festival scheduled to occur in Austin, Texas March 13-22 was canceled on March 6.

This week, the municipal bond primary market calendar was scheduled to be $9 billion. This issuance was easily digested by the market even though Lipper reported that the record 60 straight weeks of investment flows into municipal mutual funds ended. On March 5, we saw $249 million pulled out of municipal funds. Municipal Market Data (MMD) yields fell this week by 16 bps in the two year part of the curve, the 10 year fell by seven bps, and the 30 year AAA MMD fell by six bps.

Week of March 9

To begin the week of March 2, we should mention that interest, if not concern, was building about global economic growth and the potential spread of COVID-19.

To begin the week, concern about the potential impact the spread of COVID-19 may have on economic activity in the U.S., and the uncertainty about oil prices in the wake of a potential price war between Russia and Middle Eastern oil providers soured investors again. Early Monday morning, U.S. Treasury yields, the price of crude oil, and the S&P 500 futures fell. The S&P 500 fell more than 7%, triggering circuit breakers along the way. At mid-week, the World Health Organization officially labeled COVID-19 a pandemic.

This week, calls for social distancing increased. Companies canceled travel, instituting work-from-home policies, and many business conferences were canceled or postponed. The National Basketball Association (NBA) suspended its season. The Ivy League, Big Ten, SEC, Big 12, and other conferences canceled their basketball tournaments. Washington Governor Jay Inslee banned gatherings of 250 or more in Seattle, Washington.

This week, the municipal bond primary market calendar was finally expected to be over $11 billion after weekly issuance numbers disappointed for about two months. As a reminder, taxable municipal issuance rose starting at the end of the summer of 2019 for refundings because the 2017 Tax Cuts and Jobs Act eliminated the ability for issuers to use tax-exempt bonds for advance refundings. This scheme carried overall 2019 issuance to $421 billion, and 2020 issuance forecasts, including ours, were generally $425 billion to $450 billion. Our forecast was $450 billion. Issuance to begin the month, and especially this week, seemed to be like the pace most were expecting for the year.

The market dislocation emerged and began to deepen as the week progressed. Early in the week, the Federal Reserve announced some limited quantitative easing measures. AAA MMD actually fell on Monday, March 9, but then rose substantially for the remainder of the trading periods. The total weekly move saw MMD rise 67 bps on the short end of the curve (2 year) and 30 year AAA MMD moved higher by 94 bps to end the week at a 2.32%. On Thursday, March 12, Lipper reported a second consecutive week of flows out of municipal funds, this time at a more substantial

level: $1.76 billion. Only about $5 billion of the $11 billion that was on the primary market calendar priced, so this is when the day-to-day calendar began to build. Pressure began to build in municipals, primary market activity was problematic, and secondary activity, while high, was at levels much wider compared to the previous week.

On Saturday, March 14, President Trump declared a national emergency in response to COVID-19. To end the week, the Federal Reserve, who was set to meet that Tuesday and Wednesday, announced another surprise rate cut. This time it was 100 bps, leaving the target at 0.00% to 0.25% on Sunday, March 15. The Fed also announced additional quantitative easing strategies it was planning to take. The scheduled Fed meeting was canceled. However, the Fed actions were shrugged off by the market in the following days.

Week of March 16

Global and U.S. markets were searching drastically for guidance as investors continued, and then increased, their indiscriminate selling behavior. The airline industry asked for a massive bailout and the Federal Reserve took the unprecedented steps to provide liquidity to the market in their newly announced Commercial Paper Funding Facility (CPFF), Primary Dealer Credit Facility (PDCF), and Money Market Mutual Fund Liquidity Facility (MMLF) programs.

Social distancing measures increased. Governors in New York, New Jersey, Connecticut, Maryland, Ohio, Illinois, and Washington, as well as mayors in Minneapolis, New York City, Chicago and San Francisco were among those who took steps to contain the spread of COVID-19 by shutting down schools, closing down bars, restaurants (takeout allowed in some places), and generally restricting public assembly. San Francisco announced shelter-in-place measures, and while New York City announced a similar order was imminent, New York Governor Andrew Cuomo swatted this sentiment down at the beginning of the week. Reports that road, transit, and airport use was down significantly was common, adding to credit concern surrounding these sectors. For example, New York Metropolitan Transportation Authority (MTA) asked for a $4 billion bailout as subway ridership fell 60% and commuter ridership fell 90%.

Investor liquidity was an issue this week as the pressure in municipals mounted. We would eventually find out (Thursday, March 19) that a record $12 billion flowed out of municipal funds. This selling pressure pushed Municipal/Treasury (M/T) Ratios higher as AAA MMD yields rose. MMD yields rose 130 bps on the short end, and the 30 year AAA MMD rose 105 bps for the week.

The municipal bond market lost a principal point of navigation because of the lack of primary market activity, and secondary trading, while substantial, was only occurring at wider and wider spreads.

The municipal bond market lost a principal point of navigation because of the lack of primary market activity, and secondary trading, while substantial, was only occurring at wider and wider spreads. We saw less than $1 billion of municipal issues were sold this week out of the $5 billion calendar. SIFMA reset at an astounding 5.20% on Wednesday, March 18, up 392 bps from the previous week's 1.28%, and a significant difference from the 1.15% mark at the end of February. The six-month high for SIFMA has been 1.61%, which it reached on Dec. 25, 2019. This leap and difference in trajectory and the magnitude of change, was a good indication that short-term municipals were getting hit with extraordinary activity and investor pressure. The short-term municipal variable rate demand obligation market (VRDOs) came under significant pressure. Our report A Focus on the Significant Pressure in the VRDO Market, March 18, 2020, outlines the dynamic.

Week of March 23

By this week, "shelter-in-place" had become the norm for much of the population of the United States. By Friday, only 10 states did not have any statewide or local "shelter-in-place" orders.[3] To combat the economic fallout of this strategy, massive amounts of fiscal and monetary stimulus was developed.

To combat the economic fallout of this strategy, massive amounts of fiscal and monetary stimulus was developed.

A high level of uncertainty remained in the market to begin the week of March 23. This was reflected in the small primary market calendar of $1.8 billion. At this point about $4 billion of issuance was considered day-to-day. However, good news was received via the Federal Reserve first thing Monday morning. They announced open-ended quantitative easing measures and expanded purchases to include agency commercial MBS. The Fed also noted two programs that would be expanding to support the municipal market.

1. The Fed announced they were expanding the Money Market Mutual Fund Liquidity Facility (MMLF) to include additional securities, including municipal VRDOs.
2. The Fed also expanded their CPFF to include "high-quality, tax-exempt commercial paper as eligible securities," expecting this could help short-term municipal flow.

Before this week, lawmakers tossed some relatively small amounts at the COVID-19 battle. They approved $8 billion in an initial phase and another $100 billion in a follow-up second phase of relief.

Initial Prevention and Research Efforts Cost $8.3 Billion, March 9

The first swing at stimulus saw the President sign into law an $8.3 billion package that was focused on prevention and research efforts to combat COVID-19. Most of the funds are likely to go to the U.S. Department of Health and Human Services.

$100 Billion for Testing and Paid Leave on Wednesday, March 18

In response to the unprecedented steps taken in response to COVID-19, President Trump signed a $100 billion stimulus bill to fund free COVID-19 testing and pay for expanded emergency paid leave and insurance.

$2 Trillion CARES ACT, the Third Phase of Fiscal Relief

In only a few days, the $2 trillion CARES Act took shape. The U.S. Senate approved it Wednesday night and the House passed it Friday morning.

This week, U.S. federal fiscal policymakers began to get serious. Over the weekend of March 21-22, a relief bill began to take shape. The Republican Senate offered up a version and then the House Democrats responded with theirs. In only a few days, a $2 trillion Coronavirus Aid, Relief, and Economic Security Act (CARES Act) took shape. The U.S. Senate approved it Wednesday night and the House passed it Friday morning. President Trump has said that he would sign it immediately.

Let's remember the House version of the American Recovery and Reinvestment Act of 2009 (Recovery Act) was introduced on January 26, 2009. The Recovery Act was not signed into law until Feb 17, 2009. It's also worth noting there was work being done on this topic prior to the bill's Jan. 26 introduction. The CARES Act came together in a very short period of time, relatively speaking.

So, what was in the CARES Act that is going to be most impactful for state and local governments? We list the key municipal elements of the CARES Act below:

- $454 billion for the Federal Reserve to purchase state and municipality securities;
- $150 billion to make payments to states, tribal government, and units of local government (pop. 500k+). $1.25 billion minimum per state, for COVID-19 specific activities;
- $130 billion in grants for healthcare providers;
- $30.9 billion for local school districts and higher education institutions;
- $25 billion for transit providers;
- $10 billion to maintain operations at airports that have faced a drop in passengers.

House Speaker Wants More for State and Local Government in Fourth Phase

U.S. Speaker of the House Nancy Pelosi noted in a press conference she would like to see more funds for state and local governments in the potential fourth round of coronavirus relief.

U.S. Speaker of the House Nancy Pelosi noted in a press conference she would like to see more funds for state and local governments in the potential fourth round of coronavirus relief.[4] She also mentioned pensions in the interview, but we believe she was referring to aid for private multiemployer pensions, not public pensions.

Market Activity for the Week of March 23

The tone of the market improved substantially as the week progressed. It was a strong bounce back compared to just a few days earlier. This change in mood continued despite the fourth week in a row that money flowed out of municipal mutual funds. This time, another record of $13.678 billion exited muni funds compared to last week's $12 billion; and also despite a staggering 3.2 million who filed for U.S. unemployment insurance last week. This number was almost 12x the number filing in the prior week and roughly 5x the previous high. Starting Tuesday, and continuing through the week, we saw that demand for municipals was outstripping supply. Bid-wanteds steadily declined, as have the substantial bid lists that hit the street the previous week.

Buyers could not get their hands on enough bonds. Much activity was in the investment grade area, with high yield being less active. We also saw the primary market loosen up this week. There was about $2 billion of total primary market issuance. Additionally, competitive issues gained more interest, and bid ranges returned to more realistic differences.

AAA MMD is Down for the Week Ending Thursday, March 26

This week's sharp lower move very much illustrates the snap back in demand we began to see materialize Tuesday and then strengthened in coming days.

The AAA MMD benchmark yields are down 140 to 145 bps for the week ending Thursday. This is a significant move back after MMD yields rose a total of about 200 bps during the previous weeks combined. This week's sharp lower move very much illustrates the snap back in demand we began to see materialize Tuesday and then strengthened in coming days. For Friday, MMD reported they were expecting to lower yields another 4 to 8 bps across the curve as of their 1 p.m. EDT scale read.

SIFMA Pricing

The SIFMA Municipal Swap Index (SIFMA) priced reset at 4.71% Wednesday afternoon, March 25. Yesterday's reset was down compared to last week's 5.20%.

VRDO Resets Settling Down

The municipal VRDO market had been under pressure since the beginning of last week. We went into more details about the VRDO products and the pressure in the market in March 18 Market Activity – A Focus on the Significant Pressure in the VRDO Market. At the beginning of this week, the Fed expanded some of their short-term liquidity programs to include municipals or tax-exempts, giving the market an indication they were devoted to freeing up liquidity. We finally began to see mid-week that the VRDO resets were beginning to normalize. The majority of resets from Thursday we saw on the MSRB EMMA website are close to or below 2.00%, as opposed to the 4-7% we were viewing.

Next Week: The Week of March 30

We will be beginning next week with much lower rates, close to those we saw in the middle of the week of March 9. We expect that if investor demand continues to be strong, we could see more primary market issuance.

We will be beginning next week with much lower rates, close to those we saw in the middle of the week of March 9. We expect that if investor demand continues to be strong, we could see more primary market issuance. However, we are not yet to the point where we would say liquidity is repaired and a stable market has reappeared. We are seeing a primary market calendar of about $1.9 billion and see about $9 billion of issuance on the calendar listed as day-to-day status.

AMERICAN OVERSIGHT

We have started to see over the last several days issuers releasing disclosure statements related to COVID-19 on EMMA, and we have seen some marketing documents add disclosure language. This process could slow issuance potentially.

Federal Reserve Staff Evolving

We have received many questions about the process the Federal Reserve will use in order to purchase debt directly from states and municipalities and how they will execute secondary market transactions. At this time we do not have details, but we did see that the Federal Reserve hired a long-time and knowledgeable leader who has a vast amount of experience in the municipal market and experience working in the federal government; Kent Hiteshew, who worked at JP Morgan, Bear Stearns, and the U.S. Treasury. We expect this hire could be directly related to the Fed's new programs.

1. **Claim your corner.** It is most important to physically claim a corner as your office. Especially for those that live in NYC where space may be scarce.
2. **Claim your time.** Because you are physically at home, people assume you are available and can interrupt you Set up parameters for interruption (e.g., fire in the house is acceptable; changing light bulb is not). For house chores run a list of things that need to get done during the week, today, vs the weekend.
3. **Claim your routine.** Make sure you get your routine down. Keep up with your routine. A routine. Any routine. Trust me on this one.
4. **You are IT baby.** Get your tech tools, and make sure it all works.You are the support for your machines, including the wife and kids. Be carefule if you are using a VPN to access work files, that is the most likely weakness where you will have to figure it out, as your wireless provider is useless. Dont be afraid to escalate to managers when on The phone with them. Good article for setting yourself up.
5. **Unchained** (HT B Friedmann): Dont be chained to your computer.Take a break and walk away. I use 39 min sessions, broken down by 17 min breaks.
6. **Remote working resources: from Product Hunt.** Another article here. My library is here (my library always grows daily so keep revising).

MAYOR CURRY PROPOSES LEGISLATION TO PROVIDE DIRECT STIMULUS TO 40,000 DUVAL COUNTY HOUSEHOLDS & FUND ADDITIONAL COVID-19 TESTING SITES

April 24, 2020, Jacksonville, Fla. -- Mayor Lenny Curry along with City Council Vice President, Tommy Hazouri, announced Friday that his administration has filed legislation with the Jacksonville City Council to allocate nearly $160 million in Federal CARES Act funds to provide relief to citizens and support the ongoing response to COVID-19.

“My team and I are proud to work with the City Council to provide needed assistance to the people of Jacksonville and support continued COVID-19 response and recover efforts throughout our community,” Mayor Lenny Curry said.

Vice President Hazouri added, “These funds will go a long way toward helping citizens meet their obligations, provide a needed boost to our economy, keep people working, and putting us on a path to recovery.”

The Jacksonville City Council will vote on the proposed legislation Monday, April 27, 2020. Once approved, Duval County residents who meet criteria will be informed how to apply early next week.

The Jacksonville COVID-19 Relief Program will include $40 million in direct stimulus for individuals to help with mortgage, rent and utility payments. This program will provide $1,000 in relief to 40,000 households that meet certain criteria. This includes:

- You must be a Duval County resident
- Provide proof you were employed on February 29, 2020
- Make less than $75,000 per household on the date of application
- Have lost at least 25% of your income because of the COVID-19 crisis.

In addition, $35 million will be allocated toward sustained COVID-19 testing, testing sites and other healthcare infrastructure needs. Testing will be offered throughout Jacksonville so that we can serve every neighborhood. $12.5 million will go to the City’s COVID-19 emergency account for response expenditures not reimbursed by FEMA. Additional usage of the funds is explained in the legislation.

FIS, a Jacksonville based Fortune 500 company, will graciously assist with issuing the $1,000 preloaded pay cards to ensure that recipients get the money as quickly as possible, and without having to absorb added fees.

Mayor Curry said, “I want to thank FIS Chairman, President and CEO, Gary Norcross, and his team for their tremendous level of dedication and support for our community. Their assistance with pulling this program together quickly will help 40,000 households cover payments for essential needs like shelter, water and electricity during this difficult period.”

April 24, 2020, Jacksonville, Fla. -- Mayor Lenny Curry along with City Council Vice President, Tommy Hazouri, announced Friday that his administration has filed legislation with the Jacksonville City Council to allocate nearly $160 million in Federal CARES Act funds to provide relief to citizens and support the ongoing response to COVID-19.

"My team and I are proud to work with the City Council to provide needed assistance to the people of Jacksonville and support continued COVID-19 response and recover efforts throughout our community," Mayor Lenny Curry said.

Vice President Hazouri added, "These funds will go a long way toward helping citizens meet their obligations, provide a needed boost to our economy, keep people working, and putting us on a path to recovery."

The Jacksonville City Council will vote on the proposed legislation Monday, April 27, 2020. Once approved, Duval County residents who meet criteria will be informed how to apply early next week.

The Jacksonville COVID-19 Relief Program will include $40 million in direct stimulus for individuals to help with mortgage, rent and utility payments. This program will provide $1,000 in relief to 40,000 households that meet certain criteria. This includes:

- Provide proof you were employed on February 29, 2020
- Make less than $75,000 per household on the date of application
- Have lost at least 25% of your income because of the COVID-19 crisis.

In addition, $35 million will be allocated toward sustained COVID-19 testing, testing sites and other healthcare infrastructure needs. Testing will be offered throughout Jacksonville so that we can serve every neighborhood. $12.5 million will go to the City's COVID-19 emergency account for response expenditures not reimbursed by FEMA. Additional usage of the funds is explained in the legislation.

The criteria include the requirements that: (i) the applicant reside in Duval County; (ii)

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001790

have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001791

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001792

else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 9. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). The provisions of Chapter 320 (General Provisions) within the Constructions Regulations and Building Codes,

Part 4 (Permits), Section 320.402 (Application for Permit) and Section 320.409 (Schedule of permit fees), that would otherwise require the payment of permit fees, including the following: (1) New buildings, (2) Foundation only, (3) New construction other than buildings, (4) Alterations, (5) Window/door replacement, (6) Moving buildings, (7) Roofing, (8) Swimming pools, (9) Demolition of buildings, (10) Demolition of structures other than buildings, (11) Sign erections, (12) Site clearing with protected trees, (13) Site clearing without protected trees, (14) Removal or relocation of private protected trees, (15) Electrical permit, (16) Plumbing permit, (17) Mechanical permit, and, (18) Miscellaneous fees, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period"). Fees related to violations of the Florida Building Code and the renewal permits for off-site signs are specifically not waived or affected by this moratorium.

Section 10. Temporary Moratorium Imposed and Duration of Moratorium as to certain Application Fees imposed regarding the subdivision of land, the approval and filing of plats, and the approval of final engineering plans, as required by Section 654.108 (Approval of Preliminary Site Plan: Procedures for Approval of Preliminary and Final engineering plans for required improvements), and Section 654.138(a), (c) and (d) (Fees), each of Chapter 654 (Code of Subdivision Regulations). The provisions of Chapter 654 (Code of Subdivision Regulations), Section 654.108 (Approval of Preliminary Site Plan: Procedures for Approval of Preliminary and Final engineering plans for required improvements), and Section 654.138(a)(c) and (d) (Fees) that would otherwise require payment of application and recording fees for plat review and civil site plan review are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame

AMERICAN OVERSIGHT

Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

The **City of Jacksonville** ("Client") has engaged **Fidelity Information Services, LLC** (together with its subsidiaries and Affiliates, "FIS") to provide Client with one or more prepaid card programs (each a "Program") as further defined below. The Cards will be distributed by Client in connection with bona fide business programs the Client makes available to its employees, franchisees, dealers, distributors, clients or customers. "Affiliate" means, with respect to a party, any entity which directly or indirectly, through one or more intermediaries, is controlled by, or is under common control with such party.

1. THE CLIENT ACKNOWLEDGES AND UNDERSTANDS THAT FIS OR A THIRD PARTY PROVIDER TO FIS has an agreement to market and manage prepaid card programs with a nationally chartered financial institution ("Issuing Bank") which is the issuer of Cards, a member of Visa USA ("Visa") or MasterCard ("MasterCard") (Visa and MasterCard are referred to herein as the "Association(s)") and licensed through the Associations to provide card issuance services. As used in this agreement any reference to FIS shall also be a reference to its third-party service providers.

2. **Commencement. Term.**

2.1. Each party shall make commercially reasonable efforts, including the assignment of adequate personnel, to commence the Service as soon as practicable following the Effective Date. The "Commencement Date" of a Program is the date on which Client first distributes a Card. FIS reserves the right to decline to commence a Program for Client in its sole discretion or discontinue the distribution of cards if determined in its or Issuing Bank's sole discretion to be inconsistent with safe and sound banking practices.

2.2. Term. The Agreement is effective on the Effective Date and shall continue for an initial term of sixty (60) months (the "Initial Term"). After the Initial Term, or the then current Renewal Term, the term of the Agreement may be renewed for one additional sixty (60) month term upon the mutual agreement of the parties (a "Renewal Term") unless terminated by Client or FIS in writing at least 180 days prior to the last day of the Initial Term.

3. **FIS Responsibilities**.

3.1. FIS Performance. FIS shall provide Client and, where applicable, Client's customers ("Customers") with access to and use of the Service in accordance with these Terms, and FIS' then current standard user operating instructions and requirements made available to Client from time to time ("Specifications"). FIS shall make available documents, reports, statements and other output of the Services, as may be more fully described in the Specifications (collectively, "Output"). "Service" means a service provided by FIS pursuant to this Agreement, to include any Program. FIS may withdraw a Service or terminate any function or Service (i) immediately upon any final regulatory, legislative, or judicial determination that providing such Service or function violates applicable law or regulation or the rights of any third party, or (ii) upon providing not less than three hundred sixty-five (365) days' prior written notice to Client so long as FIS is withdrawing or terminating the Service or function from its entire client base.

3.2. FIS will provide to Client one or more prepaid card programs (each a "Program") as described the applicable program terms (set forth herein) and as designated on an Order Form, whereby FIS will supply Client with one or more types of prepaid cards ("Cards") purchased by Client pursuant to an Order Form. The Cards will be distributed by Client in connection with bona fide business, economic incentive and COVID-19 related programs the Client makes available to its employees, franchisees, dealers, distributors, clients, customers, or residents of Duval County, as applicable. All Cards will be prepaid cards as further described in the Program Addendum.

3.3. FIS shall provide the Programs in compliance with all Laws applicable to FIS as provider of the Programs. "Law" means any law, rule, regulation, ordinance, code or order to which a party may be subject or under which a party may exercise rights.

3.4. FIS shall perform an on-going review of Laws applicable to the provision of the Programs. FIS shall maintain the features of the Programs in accordance with all Laws applicable to such features, including new or amended Laws (as applicable and necessary to support compliance obligations), in a non-custom environment.

4. **Client Responsibilities**.

4.1. Client shall: (i) timely deliver to FIS any information necessary for the provision of the Programs in a

form and format approved by FIS, including but not limited to the Client Due Diligence Form included with this Agreement; (ii) [intentionally omitted], (iii) be solely responsible for timely procuring any information or cooperation required from its employees other third parties in order to commence the Program; (iv) have sole responsibility for verifying the accuracy, completeness or authenticity of any Data furnished by Client or a third party; (v) be solely responsible for training its employees and representatives to comply with all Laws applicable to Client and the procedures set forth in any manual or other literature provided to Client by FIS; (vi) comply with all Laws applicable to Client's business and its use of the Programs, including but not limited to those Laws relating to usury, truth-in-lending, fair credit reporting, equal credit opportunity, automated clearing house transfers, networks associations, electronic funds transfer, privacy and direct marketing, regardless of whether Client uses any forms or other materials supplied by FIS.

4.2. Client shall be responsible for monitoring and interpreting (and for complying with, to the extent such compliance requires no action by FIS), the applicable Laws pertaining to Client's business ("Legal Requirements"). Based on Client's instructions, FIS shall implement features and options (collectively, the "Parameters") for a Program that shall apply to Client. Client shall be responsible for determining that such selections are consistent with the Legal Requirements. In making such determinations, FIS deliver the Programs in accordance with the Parameters.

5. Data.

5.1. Client shall be solely responsible for transmitting its Data (collectively, "Client Data") and verifying the accuracy, completeness or authenticity of Data furnished by Client or a third party. Client shall bear any risk of loss resulting from that transmission until receipt by FIS. FIS shall bear the risk of loss resulting from Data transmitted to Client until Client confirms receipt. If Client requests FIS to disclose Client Data to a third party, Client shall provide FIS with written authorization to do so and bear any risk of loss or liability associated with that disclosure. In addition, FIS shall be held harmless from any claim arising out of such disclosure or the third party's use or disclosure of that Client Data. If Client's requested disclosure includes FIS Confidential Information, FIS may remove FIS Confidential Information (or require such removal) prior to such disclosure and require the third party to enter into a written agreement with FIS governing use, disclosure and safekeeping of the FIS Confidential Information.

5.2. FIS shall not be responsible for the accuracy, completeness or authenticity of any Data furnished by Client or a third party, and shall have no obligation to audit, check or verify that Data. If any Data submitted by Client or a third party to FIS is incorrect, incomplete or not in the required format, FIS may require Client to resubmit the Data or FIS may correct the Data and bill Client its then current rates for performing those corrections. FIS shall attempt to notify Client prior to Client incurring such expense.

5.3. Client shall maintain a copy of all Data submitted to FIS (whether directly or through a third party) to permit reconstruction if ever required. Client assumes all risk and expense associated with Data reconstruction, except for those expenses incurred as a direct consequence of FIS' breach of the Agreement. If Data reconstruction is ever required, the parties shall mutually agree on a schedule for that reconstruction

6. **Reserved**.

7. **Use of Services.** Except as otherwise permitted in the Agreement or in writing by FIS, Client shall use each Service only for its own internal business purposes to service its Customers in accordance with the terms of the Agreement and the applicable Specifications. Client shall not (i) except as permitted in the Agreement and the applicable Specifications, sell, use or otherwise provide, directly or indirectly, any of the Service, or any portion thereof to or for the benefit of any third party, (ii) except as permitted by FIS in writing, copy any Service, or any part, feature, function or user interface thereof; (iii) adapt, modify, translate, reverse engineer, decompile, disassemble, or create derivative works based on any Service or any part thereof; (iv) attempt to gain unauthorized access to any Service or its related systems or networks; (v) access any Service for purposes of monitoring the performance or functionality for any benchmarking or competitive purposes; or (vi) perform any load or security testing unless FIS' prior written approval is obtained. Client agrees that FIS may use all suggestions for improvement and comments regarding the Service that are furnished by Client to FIS in connection with the Agreement, without accounting or reservation. Except as otherwise may be set forth herein or in writing between the parties.

8. **Payment.**

8.1. Any upfront or onetime fees described in an Order Form or pricing attachment are due prior to Commencement Date. Any recurring fees shall be billed for each calendar month (or portion thereof) beginning on the Commencement Date and shall be paid within thirty (30) days of the invoice date.

In the event FIS does not collect amounts owed from the FIS Payment Account, Client must pay such amounts via electronic payment within thirty (30) days of the invoice date. For any amount not paid within thirty (30) days after its due date, Client shall pay a late fee equal to the lesser of one and one-half percent (1½%) per month of the unpaid amount or the maximum interest rate allowed by law.

8.3. Billing Errors. In the event of over-billing, FIS will correct the error by credit to Client. If Client was under-billed, FIS will add the under-billed amount to a future invoice. FIS may utilize any amounts owed to Client under the Agreement to pay or reimburse FIS for amounts owed by Client.

8.4. Taxes. All charges and fees to be paid by Client under the Agreement are exclusive of any applicable withholding, sales, use, excise, value added or other taxes. Section 7. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19

crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 8. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate,

AMERICAN OVERSIGHT

and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 9. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-001864

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 5. Repealing Sections 2, 3 and 4 of Ordinance 2020-201-E. Section 6. Waiving Section 106.304(b) and (c) (Mayor's transfer power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) and (c) (Mayor's transfer power) that: (i) limits the Mayor's transfer authority to $500,000 during a fiscal year; and (ii) caps the Mayor's authority to increase the fund and/or sub-fund budget to recognize additional revenue at $100,000, respectively, are hereby waived through December 31, 2020 as to the $25,000,000 of COVID-19 Response Funds, to authorize the Mayor without further Council action to transfer the COVID-19 Response Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with the authorized uses of such funds under the CARES Act grant received by the City. AMERICAN OVERSIGHT
FL-DUVAL-20-0723-A-001899

a copy of written documentation of all transfers of funds made during the applicable fiscal year. For the purposes of clarity, and subject to the remaining requirements of Section 106.304, Ordinance Code, and the CARES Act, the Mayor's transfer authority authorized in this Section may be used only to fund the costs of the fee moratoriums, rent forgiveness and loan forgiveness as authorized herein.

Section 7. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 8. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for

AMERICAN OVERSIGHT

the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility

AMERICAN OVERSIGHT

fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 9. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within

AMERICAN OVERSIGHT

which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 10. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). The provisions of Chapter 320 (General Provisions) within the Constructions Regulations and Building Codes, Part 4 (Permits), Section 320.402 (Application for Permit) and Section 320.409 (Schedule of permit fees), that would otherwise require the payment of permit fees, including the following: (1) New buildings, (2) Foundation only, (3) New construction other than buildings, (4) Alterations, (5) Window/door replacement, (6) Moving buildings, (7) Roofing, (8) Swimming pools, (9) Demolition of buildings, (10) Demolition of structures other than buildings, (11) Sign erections, (12) Site clearing with protected trees, (13) Site clearing without protected trees, (14) Removal or relocation of private protected trees, (15) Electrical permit, (16) Plumbing permit, (17) Mechanical permit, and, (18) Miscellaneous fees, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period"). Fees related to violations of the Florida Building Code and the renewal permits for off-site signs are specifically not waived or affected by this moratorium.

Section 11. Temporary Moratorium Imposed and Duration of

AMERICAN OVERSIGHT

Moratorium as to certain Application Fees imposed regarding the subdivision of land, the approval and filing of plats, and the approval of final engineering plans, as required by Section 654.108 (Approval of Preliminary Site Plan: Procedures for Approval of Preliminary and Final engineering plans for required improvements), and Section 654.138(a), (c) and (d) (Fees), each of Chapter 654 (Code of Subdivision Regulations). The provisions of Chapter 654 (Code of Subdivision Regulations), Section 654.108 (Approval of Preliminary Site Plan: Procedures for Approval of Preliminary and Final engineering plans for required improvements), and Section 654.138(a)(c) and (d) (Fees) that would otherwise require payment of application and recording fees for plat review and civil site plan review are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period"). These fees are referenced in Section 123.102, Ordinance Code, as the "Review Group" within the Planning Department category and consist of the Site Development Review (10-set) Subdivision, and the Site Development Review (10 Set) Non-Subdivision" reviews. Fees related to a violation of the Code of Subdivision Regulations are specifically not waived or affected by this moratorium.

Section 12. Temporary Moratorium Imposed and Duration of Moratorium as to certain Application Fees imposed by Section 744.110 (Street excavations; work in rights-of-way; permit; violations, civil penalties, enforcement and abatement), Chapter 744 (Street Construction Regulations). The provisions of Chapter 744 (Street Construction Regulations), Section 744.110 (Street excavations; work in rights-of-way; permit; violations, civil penalties, enforcement and abatement) that would otherwise require the payment of certain application fees for construction in the public right-of-way, are hereby temporarily waived for the earlier of six (6) months from the

AMERICAN OVERSIGHT

effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period"). Fees related to a violation of this Chapter 744 are specifically not waived or affected by this moratorium.

Section 13. Temporary Moratorium Imposed and Duration of Moratorium as to certain Application Fees imposed by Section 656.109 (Administration and enforcement; interpretation of Zoning Code; administrative deviations), Subpart B (Administration), Part 1 (General Provisions), Chapter 656 (Zoning Code). AMERICAN OVERSIGHT

Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

All data as of 4/1/2020 unless otherwise noted

Municipal and US Treasury rate movement – volatile and disconnected

- Beginning the week of March 9th, Municipal and US Treasury rates experienced extreme volatility, as global equity and financial markets were impacted by concerns of global economic downturns due to the spread of COVID-19.
- As investors sought liquidity over all else, municipal and treasury rate movements became disconnected, leading US Treasury rates lower and municipal rates significantly higher.
  - AAA MMD yields saw a significant rally through the week of March 23rd, however, have experienced another sharp sell-off through the first half of the week of March 30th.

Short-term markets – selling pressures drive sharp movements in rates

- Significant redemptions in short-term money market funds have caused short-term municipal supply / demand imbalances, leading to severe challenges in remarketing municipal short-term debt and extreme increases to the SIFMA variable rate index.
- New facilities implemented by the Fed, which include highly-rated, short-term municipals as eligible collateral for lending activity, could provide benefit in the short-term market and bring rates to more stable levels.
  - Daily reset VRDOs have begun to shift to more normalized levels, which carried through to the April 1 SIFMA reset at 1.83%, down 337 basis points from the 5.20% reset on March 18th.

US Treasury and Municipal ratios – extreme dislocation

- The global rush for liquidity has led to a dislocation between the US Treasury and Municipal markets, driving ratios to levels that have not been seen since the start of the 2008 financial crisis.
- As the municipal market stabilizes and investors re-engage as buyers of municipal tax-exempt debt, these ratios should normalize, but it remains to be seen how quickly and uniform this normalization will occur.

Tax-exempt municipal credit spreads widen

- Municipal credit spreads have widened due to the extreme flight to safety and search for liquidity across global markets.
- As the market stabilizes, investors and rating agencies will evaluate credits inclusive of the actual and expected negative financial impacts of the COVID-19 global and domestic economic downturn which will also drive credit spreads.

Bank funding remains attractive, taxable and corporate markets experience stress as investors seek liquidity

- Bank funding costs, which are not tied to AAA MMD, have remained attractive relative to current capital markets options.
- COVID-19 related volatility has resulted in wider corporate bond spreads, as funds see mass redemptions and investors seek liquidity and safety.
  - The recent spike in corporate bond spreads was last seen during the 2008 financial crisis.

All data as of 4/8/2020 unless otherwise noted

Municipal and US Treasury rate movement – volatile and disconnected

- Beginning the week of March 9th, Municipal and US Treasury rates experienced extreme volatility, as global equity and financial markets were impacted by concerns of global economic downturns due to the spread of COVID-19.
- As investors sought liquidity over all else, municipal and treasury rate movements became disconnected, leading US Treasury rates lower and municipal rates significantly higher.
  - AAA MMD yields have rallied through the week of April 6th, however, remain significantly higher than corresponding US Treasury yields.

Short-term markets – selling pressures drive sharp movements in rates with a recent return to normalized levels

- Redemptions in short-term money market funds caused short-term municipal supply / demand imbalances, which resulted in severe challenges in remarketing municipal short-term debt and sharp increases to the SIFMA variable rate index.
- New facilities implemented by the Fed, including highly-rated, short-term municipals as eligible collateral, provided benefit to short-term municipal markets.
  - Daily and monthly reset VRDOs have seen more normalized levels, which carried through to the April 8 SIFMA reset at 0.74%, down 446 basis points from the 5.20% reset on March 18th.

US Treasury and Municipal ratios – extreme dislocation

- The global rush for liquidity has led to a dislocation between the US Treasury and Municipal markets, driving ratios to levels that have not been seen since the start of the 2008 financial crisis.
- As the municipal market stabilizes and investors re-emerge as buyers of municipal tax-exempt debt, these ratios should normalize, but it remains to be seen how quickly and uniform this normalization will occur.

Tax-exempt municipal credit spreads widen

- Municipal credit spreads have widened due to the extreme flight to safety and rush for liquidity across global markets.
- As the market stabilizes, investors and rating agencies will evaluate credits inclusive of the actual and expected negative financial impacts of the COVID-19 global and domestic economic downturn which will also drive credit spreads.

ABOUT THE FOUNDER

Jeffrey H. Snyder currently serves as Founder for The Morning Pulse, Inc and lead anchor for the Broadcast Retirement Network Considered an "industry insider", thought-leader and an independent voice on retirement, personal finance and related issues, he has appeared in both television and print discussing the issues related to retirement and the capital markets.

ABOUT THE BROADCAST RETIREMENT NETWORK

The Broadcast Retirement Network (BRN) is the first lifestyle media platform focused on helping Americans achieve financial independence and to make retirement and savings culturally relevant. The content is informative and engages the viewer. Most importantly - No agendas, no sales pitches, no product pushes.

Our morning show, BRN AM, provides an assessment of daily issues so that Americans can create a plan of action for themselves and their families. BRN AM focuses on delivering headline news via brief interviews with real Americans working toward their financial goals.

Unlike financial shows which prioritize institutional investment managers and public policy organizations, BRN AM is a lifestyle show that brings the stories and ideas of regular Americans to the forefront. We engage with a range of topics pertaining to retirement, focusing individual episodes on personal finance, healthcare, social security, home-ownership and so on to provide viewers with the full picture regarding the future of financial security in America.

ABOUT THE BROADCAST RETIREMENT NETWORK

The Broadcast Retirement Network (BRN) is the first lifestyle media platform focused on helping Americans achieve financial independence and to make retirement and savings culturally relevant. The content is informative and engages the viewer. Most importantly - No agendas, no sales pitches, no product pushes.

Our morning show, BRN AM, provides an assessment of daily issues so that Americans can create a plan of action for themselves and their families. BRN AM focuses on delivering headline news via brief interviews with real Americans working toward their financial goals.

Unlike financial shows which prioritize institutional investment managers and public policy organizations, BRN AM is a lifestyle show that brings the stories and ideas of regular Americans to the forefront. We engage with a range of topics pertaining to retirement, focusing individual episodes on personal finance, healthcare, social security, home-ownership and so on to provide viewers with the full picture regarding the future of financial security in America.

ABOUT THE FOUNDER

Jeffrey H. Snyder currently serves as Founder for The Morning Pulse, Inc and lead anchor for the Broadcast Retirement Network Considered an "industry insider", thought-leader and an independent voice on retirement, personal finance and related issues, he has appeared in both television and print discussing the issues related to retirement and the capital markets.

ABOUT THE BROADCAST RETIREMENT NETWORK

The Broadcast Retirement Network (BRN) is the first lifestyle media platform focused on helping Americans achieve financial independence and to make retirement and savings culturally relevant. The content is informative and engages the viewer. Most importantly - No agendas, no sales pitches, no product pushes.

Our morning show, BRN AM, provides an assessment of daily issues so that Americans can create a plan of action for themselves and their families. BRN AM focuses on delivering headline news via brief interviews with real Americans working toward their financial goals.

Unlike financial shows which prioritize institutional investment managers and public policy organizations, BRN AM is a lifestyle show that brings the stories and ideas of regular Americans to the forefront. We engage with a range of topics pertaining to retirement, focusing individual episodes on personal finance, healthcare, social security, home-ownership and so on to provide viewers with the full picture regarding the future of financial security in America.

ABOUT THE FOUNDER

Jeffrey H. Snyder currently serves as Founder for The Morning Pulse, Inc and lead anchor for the Broadcast Retirement Network Considered an "industry insider", thought-leader and an independent voice on retirement, personal finance and related issues, he has appeared in both television and print discussing the issues related to retirement and the capital markets.

ABOUT THE BROADCAST RETIREMENT NETWORK

The Broadcast Retirement Network (BRN) is the first lifestyle media platform focused on helping Americans achieve financial independence and to make retirement and savings culturally relevant. The content is informative and engages the viewer. Most importantly - No agendas, no sales pitches, no product pushes.

Our morning show, BRN AM, provides an assessment of daily issues so that Americans can create a plan of action for themselves and their families. BRN AM focuses on delivering headline news via brief interviews with real Americans working toward their financial goals.

Unlike financial shows which prioritize institutional investment managers and public policy organizations, BRN AM is a lifestyle show that brings the stories and ideas of regular Americans to the forefront. We engage with a range of topics pertaining to retirement, focusing individual episodes on personal finance, healthcare, social security, home-ownership and so on to provide viewers with the full picture regarding the future of financial security in America.

ABOUT THE BROADCAST RETIREMENT NETWORK

The Broadcast Retirement Network (BRN) is the first lifestyle media platform focused on helping Americans achieve financial independence and to make retirement and savings culturally relevant. The content is informative and engages the viewer. Most importantly - No agendas, no sales pitches, no product pushes.

Our morning show, BRN AM, provides an assessment of daily issues so that Americans can create a plan of action for themselves and their families. BRN AM focuses on delivering headline news via brief interviews with real Americans working toward their financial goals.

Unlike financial shows which prioritize institutional investment managers and public policy organizations, BRN AM is a lifestyle show that brings the stories and ideas of regular Americans to the forefront. We engage with a range of topics pertaining to retirement, focusing individual episodes on personal finance, healthcare, social security, home-ownership and so on to provide viewers with the full picture regarding the future of financial security in America.

ABOUT THE FOUNDER

Jeffrey H. Snyder currently serves as Founder for The Morning Pulse, Inc and lead anchor for the Broadcast Retirement Network Considered an "industry insider", thought-leader and an independent voice on retirement, personal finance and related issues, he has appeared in both television and print discussing the issues related to retirement and the capital markets.

ABOUT THE BROADCAST RETIREMENT NETWORK

The Broadcast Retirement Network (BRN) is the first lifestyle media platform focused on helping Americans achieve financial independence and to make retirement and savings culturally relevant. The content is informative and engages the viewer. Most importantly - No agendas, no sales pitches, no product pushes.

Our morning show, BRN AM, provides an assessment of daily issues so that Americans can create a plan of action for themselves and their families. BRN AM focuses on delivering headline news via brief interviews with real Americans working toward their financial goals.

Unlike financial shows which prioritize institutional investment managers and public policy organizations, BRN AM is a lifestyle show that brings the stories and ideas of regular Americans to the forefront. We engage with a range of topics pertaining to retirement, focusing individual episodes on personal finance, healthcare, social security, home-ownership and so on to provide viewers with the full picture regarding the future of financial security in America.
