ABOUT THE BROADCAST RETIREMENT NETWORK

The Broadcast Retirement Network (BRN) is the first lifestyle media platform focused on helping Americans achieve financial independence and to make retirement and savings culturally relevant. The content is informative and engages the viewer. Most importantly - No agendas, no sales pitches, no product pushes.

Our morning show, BRN AM, provides an assessment of daily issues so that Americans can create a plan of action for themselves and their families. BRN AM focuses on delivering headline news via brief interviews with real Americans working toward their financial goals.

Unlike financial shows which prioritize institutional investment managers and public policy organizations, BRN AM is a lifestyle show that brings the stories and ideas of regular Americans to the forefront. We engage with a range of topics pertaining to retirement, focusing individual episodes on personal finance, healthcare, social security, home-ownership and so on to provide viewers with the full picture regarding the future of financial security in America.

ABOUT THE FOUNDER

Jeffrey H. Snyder currently serves as Founder for The Morning Pulse, Inc and lead anchor for the Broadcast Retirement Network Considered an "industry insider", thought-leader and an independent voice on retirement, personal finance and related issues, he has appeared in both television and print discussing the issues related to retirement and the capital markets.

ABOUT THE BROADCAST RETIREMENT NETWORK

The Broadcast Retirement Network (BRN) is the first lifestyle media platform focused on helping Americans achieve financial independence and to make retirement and savings culturally relevant. The content is informative and engages the viewer. Most importantly - No agendas, no sales pitches, no product pushes.

Our morning show, BRN AM, provides an assessment of daily issues so that Americans can create a plan of action for themselves and their families. BRN AM focuses on delivering headline news via brief interviews with real Americans working toward their financial goals.

Unlike financial shows which prioritize institutional investment managers and public policy organizations, BRN AM is a lifestyle show that brings the stories and ideas of regular Americans to the forefront. We engage with a range of topics pertaining to retirement, focusing individual episodes on personal finance, healthcare, social security, home-ownership and so on to provide viewers with the full picture regarding the future of financial security in America.

Jacksonville Team – You're on the list!

The Coronavirus Relief Fund is $150b of direct funding from Treasury (not borrowing) allocated among the states based on population.

THIS IS IMPORTANT

Eligible local governments have to submit information to Treasury by 11:59pm EDT on April 17th to be able to get direct allocations from Treasury!

Eligible local governments are those that have populations of at least 500,000. A list is provided by Treasury on their webpage linked below. I've also attached the list as a pdf.

Allocations to Eligible local governments will reduce the allocation to the state.

If an Eligible local government does not apply, its allocation will go to the state.

AMERICAN OVERSIGHT

General Update on Next Steps in Congress
Congressional leadership continues to negotiate an emergency supplemental package for the Small Business Administration's Paycheck Protection Program. While both sides generally agree on the need for additional supplemental assistance to prevent an interruption in the lending program, House leadership continue to push for other provisions, primarily additional funding for hospitals, states and local governments. NAST has endorsed additional less restrictive funding for states that could be used to compensate for the sharp and unexpected decline in revenue receipts for sales taxes, regularly levied fees, tolls and fares.

Congress will likely come to some agreement on a narrow emergency supplemental ("COVID 3.5") package as the PPP program nears exhaustion of its original funding. Passage of such a supplemental would likely delay the urgency for a fourth package later into May. The House of Representatives is scheduled to reconvene in Washington on May 4, but Congress will more likely return once there is a full fourth COVID-19 response package on which to vote.

NAST Considerations for Next COVID-19 Package
On Friday evening, NAST transmitted a letter outlining additional considerations for a provisional or fourth COVID-19 response package. NAST broadly categorized its recommendations into five areas of economic impact / need for states:

1. Decreased Revenues
2. Delayed Revenues
3. General and widespread market volatility and dislocation
4. Increased COVID-19-related expenditures
5. Need for general economic stimulus

Read the full letter here.

Federal Reserve Announces Municipal Liquidity Facility (MLF)
On Thursday, the Federal Reserve announced theMunicipal Liquidity Facility (MLF), which aims to help state and local governments better manage cash flow pressures in order to continue to serve households and businesses in their communities. The facility will purchase up to $500 billion of short term notes directly from U.S. states (including the District of Columbia), U.S. counties with a population of at least two million residents, and U.S. cities with a population of at least one million residents. Eligible state-level issuers may use the proceeds to support additional counties and cities. Term sheet available here.

What We Know

- The Federal Reserve continues to monitor the municipal markets to evaluate whether further actions are needed.
- States will be able to borrow up to 20 percent of their 2017 own source revenues, and could potentially borrow more if they are doing so to lend down to localities in their state.
- While smaller locals will not be able to borrow directly from the Federal Reserve under this facility, states can borrow from the Federal Reserve and then lend to smaller local governments. This would be optional and the state would essentially be the guarantor of any such loan.
- The facility will likely take a minimum of several weeks to become operational.**In the meantime, you can submit comments and clarification requests directly to the Federal Reserve here (which is how they asked for them to be submitted):** https://www.federalreserve.gov/apps/contactus/feedback.aspx?refurl=/muni/
- We would greatly appreciate it if you would share those comments with us as well.
- NAST continues to advocate for a secondary market purchasing facility as outlined in ourrecommendations on implementing Section 4003 of the CARES Act.

Please let us know if you have any questions.

JOHN, Change it back to where the 20 and the 25 are both subject to Mayor control. Jordan will have an amendment ready to go if it looks like council is not comfortable with that.

Regarding 106.304© it may be good to waive that limit as well in case the next round of stimulus gives more for the same purpose… although that is not a die-on-the-hill issue for me. **JORDAN, THOUGHTS?**

Joey—

Attached is latest draft of the legislation with updated exhibit references and all exhibits. We are still tweaking Section 5 regarding transfer authority, and note my prior email to you requesting you review 106.304(c) to determine if that subparagraph should be waived as well. Also, as drafted the 20mm bucket is not subject to mayor control pursuant to the transfer waiver as the 25mm is.

Note the attachments include the FIS agreement. I see Randall obtained an administrative award per emergency code authority, so we're belt and suspenders at this point because the legislation language authorizes it as well.

Please let me know if any questions or if you'd like to discuss.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002058

permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002059

certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

Section 5. Waiving Section 106.304(b) (Mayor's transfer power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) and (c) (Mayor's transfer power) that: (i) limits the Mayor's transfer authority to $500,000 during a fiscal year; and (ii) caps the Mayor's authority to increase the fund and/or sub-fund budget to recognize additional revenue at $100,000, respectively, are hereby waived through December 31, 2020 as to the $25,000,000 of Reimbursement Funds and the $20,000,000 of City Facility/Operations Reimbursement Funds, to authorize the Mayor without further Council action to transfer the Reimbursement Funds and City Facility/Operations Reimbursement Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with the authorized uses of such funds under the CARES Act grant received by the City. Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002084

permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002085

certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002086

waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 9. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). Joey—

Attached is latest draft of the legislation with updated exhibit references and all exhibits. We are still tweaking Section 5 regarding transfer authority, and note my prior email to you requesting you review 106.304(c) to determine if that subparagraph should be waived as well. Also, as drafted the 20mm bucket is not subject to mayor control pursuant to the transfer waiver as the 25mm is.

Note the attachments include the FIS agreement. I see Randall obtained an administrative award per emergency code authority, so we're belt and suspenders at this point because the legislation language authorizes it as well.

Please let me know if any questions or if you'd like to discuss.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002111

directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002112

in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002113

would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate,

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002114

shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 9. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). The provisions of Chapter 320 (General Provisions) within the Constructions Regulations and Building Codes, Part 4 (Permits), Section 320.402 (Application for Permit) and Section 320.409 (Schedule of permit fees), that would otherwise require the payment of permit fees, including the following: (1) New buildings, (2) Foundation only, (3) New construction other than buildings, (4) Alterations, (5) Window/door replacement, (6) Moving buildings, (7) Roofing, (8) Swimming pools, (9) Demolition of buildings, (10) Demolition of structures other than buildings, (11) Sign erections, (12) Site clearing with protected trees, (13) Site clearing without protected trees, (14) Removal or relocation of private protected trees, (15) Electrical permit, (16) Plumbing permit, (17) Mechanical permit, and, (18) Miscellaneous fees, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period"). Fees related to violations of the Florida Building Code and the renewal permits for off-site signs are specifically not waived or affected by this moratorium.

Section 10. 16.3. Assignment. Client shall not assign, subrogate or transfer any interest, obligation or right arising out of the Agreement without prior written consent from FIS, which shall not be unreasonably withheld. No course of dealing or failure to strictly enforce any provision of the Agreement shall be construed as a waiver of such provision for any party's rights. Waiver by a party of any default by the other party shall not be deemed a waiver of any other default.

16.8. Due to the likelihood of irreparable injury, each party shall be entitled to seek an injunction against the other for any breach of confidentiality, indemnification and intellectual property obligations.

16.9. If any provision(s) of this Agreement, including any Addenda, attachments and exhibits hereto, is determined to be invalid, illegal, void, or unenforceable by reason of any law, rule or regulation, administrative order, judicial decision, or public policy, such provision(s) shall not affect any other provision of the Agreement, and the Agreement shall be interpreted and construed as if the invalid, illegal, void, or unenforceable provision had not been included to the extent necessary to bring the Agreement within the requirements of such law, rule or regulation, administrative order, judicial decision, or public policy. In addition, in such event, the parties agree to negotiate in good faith to modify the Agreement to carry out the parties' original intent as closely as possible and to the extent lawful. This Agreement shall not be construed more strongly against either party, regardless of who is more responsible for its preparation. The headings that appear in these General Terms are inserted for convenience only and do not limit or extend its scope.

16.10. Force Majeure. Neither party shall be liable for any failure to perform its obligations under this Agreement due to acts of nature such as fires, floods, electrical storms and natural disasters; war, terrorism or civil disturbances such as strikes and riots; failure of any third party service provider to adequately provide services including without limitation ATM network, POS network, Issuing Bank, internet and telecommunication services; and acts of government, including without limitation the actions of regulatory agencies that inhibit or prohibit either party from performing their obligations hereunder.

16.11. Each party represents and warrants that it has full legal power and authority to enter into and perform its obligations without any additional consent or approval.

16.12. Maximum Indebtedness. The maximum indebtedness of Client for all fees, reimbursable items or other costs, services and for the Services sold by FIS pursuant to this Agreement shall not exceed the sum of TWENTY-ONE THOUSAND SIXTY-THREE AND NO/100 DOLLARS ($21,063.00).

Exhibit A

(a) *Six-Month Waiver Period*. The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

and businesses of the COVID-19 disease. [Joey, let's discuss parameters for mayor to spend the 25mm and 20mm with report to Council.]

Section 4. Carryover. The funds appropriated herein shall not lapse but shall carryover as appropriated from year to year until such funds are expended or lapse according to the terms of the Agreement and the Program. Funds appropriated in this Ordinance must be committed before November 1, 2020, failure to do so will cause funds to revert to accounts of origin.

Section 5. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002170

notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002171

complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 6, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 5. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

AMERICAN OVERSIGHT

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002195

Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002196

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 6, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). Good afternoon,

My name is Tim Villarosa and I am representing the Orange County, Office of Management and Budget in Orlando.

I hope my correspondence finds you well. I am contacting you in hopes to find out what, if any, information Duval County has in regards to the Coronavirus Aid, Relief, and Economic Security Act or CARES Act.

Orange County has submitted a request for funding; however, we still have a number of questions in determining the appropriate next steps in the process. We're hoping to glean some information from other impacted counties to get a sense of how these funds are being handled. Can you tell me:

- Will/has Duval County apply(ied) for CARE Act stimulus funding?
  - If so, have you received a response from the Department of Treasury?
- Do you have any additional information in regards to the specifics of eligible uses for funding?

I appreciate your time and attention on this matter and look forward to hearing from you.

Best regards,

Kevin and team Accounting,

Thank you for beginning your review. Your comments make sense. I have attached the ordinance and exhibits which includes the BT that was filed. Please suggest the necessary edits to the BT to be able to most accurately handle this Federal Grant Money as you have explained below and that will satisfy the auditor concerns.

The BT transfer form is on page 27 of 63 of the attached PDF.

Once you draft up the coding to be used, I'll include the new account strings in our response to the auditors. Assuming they're good with the new construct, we'll do up an amended BT Monday morning and the auditors will have a CM introduce the necessary amendment.

Terri,

Please see Brian Park's email below and Bella's email too.

I wanted to see if you had information to add on this. We need the final response to Joey by 2:00pm tomorrow (Sunday). I haven't seen the final BT, although it may be in one of the email strings. There were quite a few emails on the subject.

I discussed with Bella and most of the setup emails were from April Mitchell, Angela, and you. We had wanted to set up a grant/project in that module, but that module still sounds like the grant/project module may not be working, so April and Angela wanted to use different activities instead of a grant/project with several details. We stood firm on using a 331503 account (old subobject) so we could tell it was a Federal grant so we could pick it up. Angela had wanted to use a different account and wanted us to change the name of that account. You and I discussed that, but the account already had been used 26 times. I'm hoping that Angela used the 331503 account in her BT, but don't know for sure.

Bella said that this would still be in 1Cloud version of the all years 165 Emergency subfund (I can't remember what this is called in 1Cloud), although Brian's email says the General Fund was used. It shouldn't be in the General Fund, but should be in a Special Revenue Fund. Based on the discussions with Lucy this past week, if it's in an equivalent to the all years 165 Emergency subfund, we may be able to see an all years report in BCEA once the data warehouse has data loaded into it.

Thanks,

Kevin

Yes and first thought was to set up a grant with several details. However, it went through Budget and April Mitchell, and they suggested to set up as an activity.

I'm certain that this would be Single Audit reportable.

Patti, I was trying to return you call.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002236

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Reason For Request:

☐ Preservation of new jobs.

Total Number of Employees to be preserved.: _____

Time Frame:

See **Exhibit A** attached hereto for grant eligibility criteria. **Please note that in the event a certificate of occupancy or final inspection (as applicable) is not obtained prior to the deadlines set forth in Exhibit A (the "Deadlines"), the applicant is required to pay the entire outstanding balance of the mobility fee pursuant to the mobility fee calculation certificate issued by the City. In the event an applicant does not meet the Deadlines, no certificate of occupancy or final inspection shall be approved until payment in full of the outstanding balance.**

AMERICAN OVERSIGHT

Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Kevin and team Accounting,

Thank you for beginning your review. Your comments make sense. I have attached the ordinance and exhibits which includes the BT that was filed. Please suggest the necessary edits to the BT to be able to most accurately handle this Federal Grant Money as you have explained below and that will satisfy the auditor concerns.

The BT transfer form is on page 27 of 63 of the attached PDF.

Once you draft up the coding to be used, Angela should chime in indicating concurrence, and then I'll include the new account strings in our response to the auditors. Assuming they're good with the new construct, we'll do up an amended BT Monday morning and the auditors will have a CM introduce the necessary amendment.

Terri,

Please see Brian Park's email below and Bella's email too.

I wanted to see if you had information to add on this. We need the final response to Joey by 2:00pm tomorrow (Sunday). I haven't seen the final BT, although it may be in one of the email strings. There were quite a few emails on the subject.

I discussed with Bella and most of the setup emails were from April Mitchell, Angela, and you. We had wanted to set up a grant/project in that module, but that module still sounds like the grant/project module may not be working, so April and Angela wanted to use different activities instead of a grant/project with several details. We stood firm on using a 331503 account (old subobject) so we could tell it was a Federal grant so we could pick it up. Angela had wanted to use a different account and wanted us to change the name of that account. You and I discussed that, but the account already had been used 26 times. I'm hoping that Angela used the 331503 account in her BT, but don't know for sure.

Bella said that this would still be in 1Cloud version of the all years 165 Emergency subfund (I can't remember what this is called in 1Cloud), although Brian's email says the General Fund was used. It shouldn't be in the General Fund, but should be in a Special Revenue Fund. Based on the discussions with Lucy this past week, if it's in an equivalent to the all years 165 Emergency subfund, we may be able to see an all years report in BCEA once the data warehouse has data loaded into it.

Thanks,

Kevin

Yes and first thought was to set up a grant with several details. However, it went through Budget and April Mitchell, and they suggested to set up as an activity.

I'm certain that this would be Single Audit reportable.

Patti, I was trying to return you call.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002301

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Total Number of Employees to be preserved.: _____

Time Frame:

See **Exhibit A** attached hereto for grant eligibility criteria. **Please note that in the event a certificate of occupancy or final inspection (as applicable) is not obtained prior to the deadlines set forth in Exhibit A (the "Deadlines"), the applicant is required to pay the entire outstanding balance of the mobility fee pursuant to the mobility fee calculation certificate issued by the City. AMERICAN OVERSIGHT

Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

2.2. Term. The Agreement is effective on the Effective Date and shall continue for an initial term of sixty (60) months (the "Initial Term"). After the Initial Term, or the then current Renewal Term, the term of the Agreement may be renewed for one additional sixty (60) month term upon the mutual agreement of the parties (a "Renewal Term") unless terminated by Client or FIS in writing at least 180 days prior to the last day of the Initial Term.

3. **FIS Responsibilities**.

3.1. FIS Performance. FIS shall provide Client and, where applicable, Client's customers ("Customers") with access to and use of the Service in accordance with these Terms, and FIS' then current standard user operating instructions and requirements made available to Client from time to time ("Specifications"). FIS shall make available documents, reports, statements and other output of the Services, as may be more fully described in the Specifications (collectively, "Output"). "Service" means a service provided by FIS pursuant to this Agreement, to include any Program. FIS may withdraw a Service or terminate any function or Service (i) immediately upon any final regulatory, legislative, or judicial determination that providing such Service or function violates applicable law or regulation or the rights of any third party, or (ii) upon providing not less than three hundred sixty-five (365) days' prior written notice to Client so long as FIS is withdrawing or terminating the Service or function from its entire client base.

3.2. FIS will provide to Client one or more prepaid card programs (each a "Program") as described the applicable program terms (set forth herein) and as designated on an Order Form, whereby FIS will supply Client with one or more types of prepaid cards ("Cards") purchased by Client pursuant to an Order Form. Kevin and team Accounting,

Thank you for beginning your review. Your comments make sense. I have attached the ordinance and exhibits which includes the BT that was filed. Please suggest the necessary edits to the BT to be able to most accurately handle this Federal Grant Money as you have explained below and that will satisfy the auditor concerns.

The BT transfer form is on page 27 of 63 of the attached PDF.

Once you draft up the coding to be used, Angela should chime in indicating concurrence, and then I'll include the new account strings in our response to the auditors. Assuming they're good with the new construct, we'll do up an amended BT Monday morning and the auditors will have a CM introduce the necessary amendment.

Terri,

Please see Brian Park's email below and Bella's email too.

I wanted to see if you had information to add on this. We need the final response to Joey by 2:00pm tomorrow (Sunday). I haven't seen the final BT, although it may be in one of the email strings. There were quite a few emails on the subject.

I discussed with Bella and most of the setup emails were from April Mitchell, Angela, and you. We had wanted to set up a grant/project in that module, but that module still sounds like the grant/project module may not be working, so April and Angela wanted to use different activities instead of a grant/project with several details. We stood firm on using a 331503 account (old subobject) so we could tell it was a Federal grant so we could pick it up. Angela had wanted to use a different account and wanted us to change the name of that account. You and I discussed that, but the account already had been used 26 times. I'm hoping that Angela used the 331503 account in her BT, but don't know for sure.

Bella said that this would still be in 1Cloud version of the all years 165 Emergency subfund (I can't remember what this is called in 1Cloud), although Brian's email says the General Fund was used. It shouldn't be in the General Fund, but should be in a Special Revenue Fund. Based on the discussions with Lucy this past week, if it's in an equivalent to the all years 165 Emergency subfund, we may be able to see an all years report in BCEA once the data warehouse has data loaded into it.

Thanks,

Kevin

Yes and first thought was to set up a grant with several details. However, it went through Budget and April Mitchell, and they suggested to set up as an activity.

I'm certain that this would be Single Audit reportable.

Patti, I was trying to return you call.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002366

final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or

else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

See **Exhibit A** attached hereto for grant eligibility criteria. **Please note that in the event a certificate of occupancy or final inspection (as applicable) is not obtained prior to the deadlines set forth in Exhibit A (the "Deadlines"), the applicant is required to pay the entire outstanding balance of the mobility fee pursuant to the mobility fee calculation certificate issued by the City. Exhibit A

(a) *Six-Month Waiver Period.* The provisions of Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance _____[insert date here], or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may

AMERICAN OVERSIGHT

be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as

AMERICAN OVERSIGHT

applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

The Cards will be distributed by Client in connection with bona fide business programs the Client makes available to its employees, franchisees, dealers, distributors, clients or customers. "Affiliate" means, with respect to a party, any entity which directly or indirectly, through one or more intermediaries, is controlled by, or is under common control with such party.

1. THE CLIENT ACKNOWLEDGES AND UNDERSTANDS THAT FIS OR A THIRD PARTY PROVIDER TO FIS has an agreement to market and manage prepaid card programs with a nationally chartered financial institution ("Issuing Bank") which is the issuer of Cards, a member of Visa USA ("Visa") or MasterCard ("MasterCard") (Visa and MasterCard are referred to herein as the "Association(s)") and licensed through the Associations to provide card issuance services. As used in this agreement any reference to FIS shall also be a reference to its third-party service providers.

2. **Commencement. Term.**

The "Commencement Date" of a Program is the date on which Client first distributes a Card. FIS reserves the right to decline to commence a Program for Client in its sole discretion or discontinue the distribution of cards if determined in its or Issuing Bank's sole discretion to be inconsistent with safe and sound banking practices.

2.2. Term. The Agreement is effective on the Effective Date and shall continue for an initial term of sixty (60) months (the "Initial Term"). After the Initial Term, or the then current Renewal Term, the term of the Agreement may be renewed for one additional sixty (60) month term upon the mutual agreement of the parties (a "Renewal Term") unless terminated by Client or FIS in writing at least 180 days prior to the last day of the Initial Term.

3. **FIS Responsibilities**.

3.1. FIS Performance. FIS shall provide Client and, where applicable, Client's customers ("Customers") with access to and use of the Service in accordance with these Terms, and FIS' then current standard user operating instructions and requirements made available to Client from time to time ("Specifications"). FIS shall make available documents, reports, statements and other output of the Services, as may be more fully described in the Specifications (collectively, "Output"). "Service" means a service provided by FIS pursuant to this Agreement, to include any Program. FIS may withdraw a Service or terminate any function or Service (i) immediately upon any final regulatory, legislative, or judicial determination that providing such Service or function violates applicable law or regulation or the rights of any third party, or (ii) upon providing not less than three hundred sixty-five (365) days' prior written notice to Client so long as FIS is withdrawing or terminating the Service or function from its entire client base.

3.2. FIS will provide to Client one or more prepaid card programs (each a "Program") as described the applicable program terms (set forth herein) and as designated on an Order Form, whereby FIS will supply Client with one or more types of prepaid cards ("Cards") purchased by Client pursuant to an Order Form. The Cards will be distributed by Client in connection with bona fide business, economic incentive and COVID-19 related programs the Client makes available to its employees, franchisees, dealers, distributors, clients, customers, or residents of Duval County, as applicable. All Cards will be prepaid cards as further described in the Program Addendum.

Based on Client's instructions, FIS shall implement features and options (collectively, the "Parameters") for a Program that shall apply to Client. Client shall be responsible for determining that such selections are consistent with the Legal Requirements. Stephanie—

Ideally we'd include a notarization block so we can verify the identity of the person making the application but I understand the need for speed. After speaking with Joey, we just need to include a form W9 as part of the affidavit as well.

I'll circulate the title to the legislation shortly, still working on the body, will send the initial draft of the entire legislation over the weekend.

Hi John – here is what we have drafted up so far regarding the Mortgage, Rent and Utilities Relief Program. Would you please take a look at the certification (page 2 of the attached document) and let me know if you think there is anything else we need to add? We are trying to keep all of the barriers to a minimum for this program and keep it streamlined as much as possible.

If you'd like me to walk you through the process so far let me know. Let me know if you have any questions. Thank you!

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Accounting and Budget,

Please see the attached draft legislation (which is still a work in progress). By 12pm tomorrow I need account names and 1cloud account strings to populate the attached draft ordinance as well as an associated BT accepting the $167,000,000 and sending it to the accounts in the manner specified by the bill. I have re-attached the excel summary of funding actions as well as the write up about each program.

This bill will be filed as soon as we are issued the notice of award from the Feds. That is anticipated within days. Please call me with questions.

All—

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?)** **(This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts)** **(This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

AMERICAN OVERSIGHT

This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

None of those. It will be money directly from the United State Treasury to our checking account. The state doesn't have their hands on our piece as they are getting a separate transfer directly to them for their share.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

AMERICAN OVERSIGHT

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above)** **(This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.)** **(Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs)** **(We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

Is this really the oracle center title for JXSF011? If so it needs to be changed since all annual non departmental revenues post there and it has nothing to do with project / construction.

194002 is for the new items (FAMIS indexcodes JXMS011XXX-those with Finance/Admin oversight) not the revenue coming from the state (FAMIS indexcode JXSF011). I just need you to answer the question below.

- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

Pertaining to the Revenue Account …
Terri mentioned revenue account 331503 - Federal Emergency Management Agency (see below) .
Is this the correct Agency? If not, please advise the Federal Agency and we will provide a different account number.

Pertaining to the Center…
Angela - Will you be using Center 191041 or 194002 (presented in earlier emails). I need to know for the reverse crosswalk. I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud. That will have to be discussed at a later time.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan

AMERICAN OVERSIGHT

payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

Is this really the oracle center title for JXSF011? If so it needs to be changed since all annual non departmental revenues post there and it has nothing to do with project / construction.

All of the necessary pieces are available in the chart of accounts to construct the 1Cloud account string.

As I mention below, I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud.
That issue could be addressed at a later time if needed.

194002 is for the new items (FAMIS indexcodes JXMS011XXX-those with Finance/Admin oversight) not the revenue coming from the state (FAMIS indexcode JXSF011). I just need you to answer the question below.

- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

All—

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

AMERICAN OVERSIGHT

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

Is this really the oracle center title for JXSF011? If so it needs to be changed since all annual non departmental revenues post there and it has nothing to do with project / construction.

Terri mentioned revenue account 331503 - Federal Emergency Management Agency (see below) .
Is this the correct Agency? If not, please advise the Federal Agency and we will provide a different account number.

Pertaining to the Center…
Angela - Will you be using Center 191041 or 194002 (presented in earlier emails). I need to know for the reverse crosswalk. I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud. That will have to be discussed at a later time.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

Is this really the oracle center title for JXSF011? If so it needs to be changed since all annual non departmental revenues post there and it has nothing to do with project / construction.

All of the necessary pieces are available in the chart of accounts to construct the 1Cloud account string.

As I mention below, I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud.
That issue could be addressed at a later time if needed.

194002 is for the new items (FAMIS indexcodes JXMS011XXX-those with Finance/Admin oversight) not the revenue coming from the state (FAMIS indexcode JXSF011). I just need you to answer the question below.

- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

Terri mentioned revenue account 331503 - Federal Emergency Management Agency (see below) .
Is this the correct Agency? If not, please advise the Federal Agency and we will provide a different account number.

Pertaining to the Center…
Angela - Will you be using Center 191041 or 194002 (presented in earlier emails). I need to know for the reverse crosswalk. I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud. That will have to be discussed at a later time.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

By 12pm tomorrow I need account names and 1cloud account strings to populate the attached draft ordinance as well as an associated BT accepting the $167,000,000 and sending it to the accounts in the manner specified by the bill. Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 (Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This

AMERICAN OVERSIGHT

appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

Is this really the oracle center title for JXSF011? If so it needs to be changed since all annual non departmental revenues post there and it has nothing to do with project / construction.

None of those. It will be money directly from the United State Treasury to our checking account. The state doesn't have their hands on our piece as they are getting a separate transfer directly to them for their share.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

AMERICAN OVERSIGHT

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

AMERICAN OVERSIGHT

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?)** **(This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts)** **(This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above)** **(This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.)** **(Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay**

AMERICAN OVERSIGHT

the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

Thank you. Small edit in the last sentence.

In an effort to limit the severe economic impacts of the COVID-19 pandemic, this legislation accepts and allocates $167 million in funding provided by the CARES Act of 2020 from the U.S. Department of Treasury to the City of Jacksonville. As detailed in the legislation, the funding will provide rapid economic relief to both individuals and small businesses in Duval County through the provision of grant funds, and it will serve to promote and further the public and municipal purposes of the City through measures to protect its tax base and mitigate its costs and other financial impacts associated with the emergency pandemic.

194002 is for the new items (FAMIS indexcodes JXMS011XXX-those with Finance/Admin oversight) not the revenue coming from the state (FAMIS indexcode JXSF011). I just need you to answer the question below.

- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

Pertaining to the Revenue Account …
Terri mentioned revenue account 331503 - Federal Emergency Management Agency (see below) .
Is this the correct Agency? If not, please advise the Federal Agency and we will provide a different account number.

Pertaining to the Center…
Angela - Will you be using Center 191041 or 194002 (presented in earlier emails). I need to know for the reverse crosswalk. I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud. That will have to be discussed at a later time.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Please see the attached draft legislation (which is still a work in progress). By 12pm tomorrow I need account names and 1cloud account strings to populate the attached draft ordinance as well as an associated BT accepting the $167,000,000 and sending it to the accounts in the manner specified by the bill. I have re-attached the excel summary of funding actions as well as the write up about each program.

This bill will be filed as soon as we are issued the notice of award from the Feds. That is anticipated within days. Please call me with questions.

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 (Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This

AMERICAN OVERSIGHT

appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

Is this really the oracle center title for JXSF011? If so it needs to be changed since all annual non departmental revenues post there and it has nothing to do with project / construction.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

All of the necessary pieces are available in the chart of accounts to construct the 1Cloud account string.

As I mention below, I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud.
That issue could be addressed at a later time if needed.

194002 is for the new items (FAMIS indexcodes JXMS011XXX-those with Finance/Admin oversight) not the revenue coming from the state (FAMIS indexcode JXSF011). I just need you to answer the question below.

- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

Pertaining to the Revenue Account …
Terri mentioned revenue account 331503 - Federal Emergency Management Agency (see below) .
Is this the correct Agency? If not, please advise the Federal Agency and we will provide a different account number.

Pertaining to the Center…
Angela - Will you be using Center 191041 or 194002 (presented in earlier emails). I need to know for the reverse crosswalk. I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud. That will have to be discussed at a later time.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This

AMERICAN OVERSIGHT

appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

Is this really the oracle center title for JXSF011? If so it needs to be changed since all annual non departmental revenues post there and it has nothing to do with project / construction.

All of the necessary pieces are available in the chart of accounts to construct the 1Cloud account string.

As I mention below, I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud.
That issue could be addressed at a later time if needed.

194002 is for the new items (FAMIS indexcodes JXMS011XXX-those with Finance/Admin oversight) not the revenue coming from the state (FAMIS indexcode JXSF011). I just need you to answer the question below.

- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

Is this the correct Agency? If not, please advise the Federal Agency and we will provide a different account number.

Pertaining to the Center…
Angela - Will you be using Center 191041 or 194002 (presented in earlier emails). I need to know for the reverse crosswalk. I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud. That will have to be discussed at a later time.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

AMERICAN OVERSIGHT

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

AMERICAN OVERSIGHT

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. Thank you. Small edit in the last sentence.

In an effort to limit the severe economic impacts of the COVID-19 pandemic, this legislation accepts and allocates $167 million in funding provided by the CARES Act of 2020 from the U.S. Department of Treasury to the City of Jacksonville. As detailed in the legislation, the funding will provide rapid economic relief to both individuals and small businesses in Duval County through the provision of grant funds, and it will serve to promote and further the public and municipal purposes of the City through measures to protect its tax base and mitigate its costs and other financial impacts associated with the emergency pandemic.

All of the necessary pieces are available in the chart of accounts to construct the 1Cloud account string.

As I mention below, I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud.
That issue could be addressed at a later time if needed.

194002 is for the new items (FAMIS indexcodes JXMS011XXX-those with Finance/Admin oversight) not the revenue coming from the state (FAMIS indexcode JXSF011). I just need you to answer the question below.

- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

Pertaining to the Revenue Account …
Terri mentioned revenue account 331503 - Federal Emergency Management Agency (see below) .
Is this the correct Agency? If not, please advise the Federal Agency and we will provide a different account number.

Pertaining to the Center…
Angela - Will you be using Center 191041 or 194002 (presented in earlier emails). I need to know for the reverse crosswalk. I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud. That will have to be discussed at a later time.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Please see the attached draft legislation (which is still a work in progress). By 12pm tomorrow I need account names and 1cloud account strings to populate the attached draft ordinance as well as an associated BT accepting the $167,000,000 and sending it to the accounts in the manner specified by the bill. I have re-attached the excel summary of funding actions as well as the write up about each program.

This bill will be filed as soon as we are issued the notice of award from the Feds. That is anticipated within days. Please call me with questions.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 (Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This

AMERICAN OVERSIGHT

appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

All of the necessary pieces are available in the chart of accounts to construct the 1Cloud account string.

As I mention below, I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud.
That issue could be addressed at a later time if needed.

194002 is for the new items (FAMIS indexcodes JXMS011XXX-those with Finance/Admin oversight) not the revenue coming from the state (FAMIS indexcode JXSF011). I just need you to answer the question below.

- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

Pertaining to the Revenue Account …
Terri mentioned revenue account 331503 - Federal Emergency Management Agency (see below) .
Is this the correct Agency? If not, please advise the Federal Agency and we will provide a different account number.

Pertaining to the Center…
Angela - Will you be using Center 191041 or 194002 (presented in earlier emails). I need to know for the reverse crosswalk. I do not know the background pertaining to the decision of the hierarchy of FAMIS account JXSF011 in 1Cloud. That will have to be discussed at a later time.

Thanks,
Joel

provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

All—

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**

AMERICAN OVERSIGHT

This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

We have one PO to Telescope Health and the charge account is 10602-122001-534100-000000-00001621…I spoke with Chelsey and she can move everything that has not been receipted yet to the new code (if we establish this for Testing Sites).

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

194002 is for the new items (FAMIS indexcodes JXMS011XXX-those with Finance/Admin oversight) not the revenue coming from the state (FAMIS indexcode JXSF011). I just need you to answer the question below.

- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.

According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 **(Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)**
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

There are several things going on with this legislation. I am handling the BT and what I needed was part of a previous email. Joel has provided some of the information. The remaining outstanding items are below:

- What revenue account should be used for the CARE funding? This funding is from the Federal Government but I do not know if it will flow through the State or not. The agency that provides us the funding drives the revenue account so this may be a question for Joey.
- I also sent an email 4/20/20 12:52pm asking about the 1Cloud title for the non-departmental center that all the general fund non-departmental revenues post to. FAMIS indexcode JXSF011 has the title below which in no way describes what it is used for so the reference to capital projects and construction s/b removed. But if accounting will not make that change then I will use a different center (JXSF011AF) but we will lose all the historical from JXSF011. I just need to know one way or the other.

According to the document attached earlier by Joey, it appears there is one Cares Grant for $167M and we'll be splitting the program costs into the six different activities. Someone else can weigh in if this is not correct.

Yes, we can move the other PO to the new testing activity as well. I'm sorry I didn't include it below – I was specifically looking for the provider/supplier called Telescope.

There are already two COVID-19 activities set up : 1621 (the original one set up) and 1622 (Small Business Relief Program). I agree with Angela and Joel on setting up four more with one recommendation-I would change the title of "Testing Sites Post Event" to just "Testing Sites". The document states *ongoing* and *post* event support. We have one PO already for testing sites-see below.

The revenue account should be 331503.

- Need several new activities set up in 1Cloud center 194002 JXMS Citywide Miscellaneous Expenditures - Financial and Administration (to be used in subfund 00111) to facilitate what Joey discussed in his 4/17/20 5:51 pm email..titles below.

    - COVID_19 lost revenue and increased costs - City
    - COVID_19 Mortgage, rent and utility relief – Non City

Joey: COVID_19 testing sites. I need to know the 1Cloud account string where the telescope health is being paid.

Accounting and Budget,

Please see the attached draft legislation (which is still a work in progress). By 12pm tomorrow I need account names and 1cloud account strings to populate the attached draft ordinance as well as an associated BT accepting the $167,000,000 and sending it to the accounts in the manner specified by the bill. I have re-attached the excel summary of funding actions as well as the write up about each program.

This bill will be filed as soon as we are issued the notice of award from the Feds. That is anticipated within days. Please call me with questions.

All—

Attached please find a preliminary draft of the above legislation for review and comment. This is still a work in progress so please forgive if there are some obvious errors. As you will note, there are a few areas highlighted where I need some additional information.

Joey, I need your team to carefully vet the code waiver sections, as we've previously discussed the excel provided did not

reference code sections or use the same vocabulary, so I've tried to translate to code sections as best I could. I also tried to simplify the mobility fee waiver sections from what was previously done in 2013.

Please let me know if any questions or if you'd like to discuss.

Subject: CARES act grant acceptance and appropriation
Importance: High

John/Angela/Randall/Joel/Kevin,

We are anticipating $167 million of funding in the coming weeks under the CARES act. These funds are to be used for COVID-19 response and impact. John is working on the legislation which will address the waiver of rent, loans, leases, fees, and various grants and other uses of funds as detailed below. After the funds are accepted into the GF, here is some color on the uses we are appropriating for. I need y'all to help me establish the accounts necessary to effectuate the below and also put together the BT to allow for the appropriations. The target is to have a draft by Monday afternoon, including the BT. I need y'all to help me with this. Ask all the questions you need to get this right.

This is all in draft and still under Brian Hughes and Mayor Lenny Curry review. Let's keep it amongst ourselves until it is more baked and legislation filed since aspects may change.

FEMA reimbursement shortfall = $12,500,000 (Accounting needs to provide 1Cloud account string)(April Mitchell is now cc'd because she can provide the 1cloud string for the disaster account for COVID-19 where all expenses are currently being booked. This is the account to put the funds in…like we did with Irma and Matthew when we set aside the funds for our anticipated unrecoverable losses)
This amount is to be appropriated to the emergency account for COVID-19 and represents the City's potential shortfall in FEMA reimbursements on COVID-19 expenses up to $100 million. Of the $100 million, the City would be reimbursed $85 million from FEMA, $12.5 million from the state, and the remaining $12.5 million would be the responsibility of the City. This

AMERICAN OVERSIGHT

appropriation covers that $12.5 million.

VyStar/COJ Small business relief grant program = $26,000,000 **(Joey: does this add to the $9 million or does this give $ to vystar and reimburse use for the $9m fund balance approp?) (This is reimbursing the City for the full $26 million cost of the VyStar program. The legislation will appropriate the remaining $17 million that remains and then will reimburse the full $26 million to the GF out of the $167 million grant award.)**
This appropriation reimburses the City for the $26 million expense related to the VyStar/COJ grant program which was performed to assist small business through this difficult time.

Expenditures to COJ funded entities for closure lost revenues and increased expenses = $20,000,000 **(Joey: there is no way I can come up with the line item detail for this. If you want to set up a non departmental for rent forgiveness that I can do. Otherwise each department that has affected areas will have to provide the 1Cloud account strings and amounts) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**
This is an amount set aside to assist entities who derive a substantial portion of their budget from the City and whom operate City facilities or functions. Providers such as the Zoo, Times Union Center, Sports Facilities, Florida Theater, etc. are the intended target of this support given that many have been severely impacted by Federal, State, and local safer at home orders and event cancellations.

Expenditures to COJ General Fund and other internal funds = $25,000,000 **(same as item above) (This needs to be set up as a contingency then to be appropriated to specific items at a later date when we know who needs what within this category. This came up with Sawyer earlier as well and we decided that this would be the best way to handle these two "unknown set asides")**

This appropriation is for lost revenues and increased expenses related to tax decreases and waived rent/fees/loan payments/leases due to the City as a result to COVID-19 economic and financial harm.

Mortgage, Rent, Utility relief = $43,500,000 **(We have areas in social services that provide similar services…see screen shot below.) (Should we set up another line item in Social Services then for this program? We are likely going to pay $43.5 million to one entity that will then print 43,000 $1000 Pay cards that will then be handed out to approved applicants. The new line item would receive a $43.5 million appropriation from the GF and then pay the bill. Or should we cut out the GF transfer and just accept $43.5 million directly to this new line?)**
This element of the program is direct payments to citizens of duval county with household income less than $75,000 who have experienced income decreases of more than 25% due to COVID-19. Applicants will provide a certification along with minimal supporting documentation and upon approval will be given a $1000 pre-loaded card for use in making it through this challenging time.

COVID-19 Testing Sites = $40,000,000 **(My suggestion here is to have the health department handle. We have a line item that we could use where we give them funding for other programs) (We will likely run this through Telescope health which is our current provider. However the coding is being handled on that contract is how this one should be.)**
This appropriation will establish sites within the City to handle ongoing COVID-19 testing as well as antibody testing for a period of six months which is necessary to ensure continued public health and safety as the economy reopens and people begin to return to work.

One exhibit works fine, I've renumbered the exhibits in the attached, latest draft. Note I am still tweaking the language a bit in Section 5 regarding the Mayor's transfer authority in light of an auditor comment. Joey, please look at Section 106.304(c), does that paragraph (c) also need to be waived or is it fine as is given the intended uses of the 25mm? Is the 20mm contingency or is that unresolved at the moment?

Act grant funding received by the City from the Federal government pursuant to the CARES Act. The funds will be used to provide economic incentive grants to citizens residing in Duval County, and to reimburse the City for various waivers of certain City imposed fees, and to fully fund the COVID-19 Small Business Relief Program.

Section 3. Purpose. The purpose of the appropriation in Section 2 is to: (1) provide $1,000 COVID-19 Mortgage, Rent and Utility Relief Program grants ("MRU Grants") to eligible citizens of Duval County, in the maximum, cumulative amount of $40,025,000, including the costs of administering the program; (2) provide up to $35,525,942.50 to establish and operate COVID-19 test sites within the City; (3) reimburse the City $12,500,000 for anticipated costs not reimbursed by the Federal Emergency Management Agency and/or the State of Florida; (4) provide the remaining $17,000,000 to fully fund the COVID-19 Small Business Relief and Employee Retention Grant Program ("Small Business Grant Program") previously authorized by Ordinance 2020-201-E; (5) reimburse the City $9,000,000 for the costs of the Small Business Grant Program previously authorized by Ordinance 2020-201-E; (6) reimburse the City up to $25,000,000 ("Reimbursement Funds") for necessary governmental expenditures that may otherwise no longer be funded due to declines in previously anticipated revenues due to the economic impact of COVID-19 response measures, with $4,000,000 thereof to be applied to reimburse the City for the mobility fee moratorium authorized herein, and $5,000,000 thereof applied to reimburse the City for the application fee waivers authorized herein; and (7) providing up to an additional $20,000,000 to provide additional funding to entities that are managing or operating City-owned facilities or functions on behalf of the City. Such funding and uses is intended to partially combat the economic

impacts on individuals and businesses of the COVID-19 disease. [Joey, let's discuss parameters for mayor to spend the 25mm and 20mm with report to Council.]

Section 4. Carryover. The funds appropriated herein shall not lapse but shall carryover as appropriated from year to year until such funds are expended or lapse according to the terms of the Agreement and the Program. Funds appropriated in this Ordinance must be committed before November 1, 2020, failure to do so will cause funds to revert to accounts of origin.

Section 5. Waiving Section 106.304(b) (Mayor's transfer power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) (Mayor's transfer power) that limits the Mayor's transfer authority to $500,000 during a fiscal year is hereby waived through December 31, 2020 as to the $25,000,000 of Reimbursement Funds, to authorize the Mayor without further Council action to transfer the Reimbursement Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with the authorized uses of such funds under the CARES Act grant received by the City. Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002599

certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002600

mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002601

amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 9. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). These fees are referenced in Section 123.102, Ordinance Code, as the "Review Group" within the Planning Department category, and consist of the Site Development Review (10-set) Subdivision, and the Site Development Review (10 Set) Non-Subdivision" reviews. Hi Kim--- Here is what we have so far. This is a very preliminary draft so please feel free to offer suggestions on beefing up the section involving FIS.

April 24, 2020, Jacksonville, Fla. -- Mayor Curry announced Friday that his administration has filed legislation with the Jacksonville City Council to allocate nearly $160 million in Federal CARES Act funds to provide relief to citizens and support the ongoing response to COVID-19.

"My team and I are proud to work with City Council to provide needed assistance to the people of Jacksonville and support continued COVID-19 response and recover efforts throughout our community," Mayor Lenny Curry said. "These funds will go a long way toward helping citizens meet their needs, provide a needed boost to our economy, keep people working, and putting us on a path to recovery."

The Jacksonville COVID-19 Relief Program will include $40 million in direct stimulus for individuals to help with mortgage, rent and utility payments. This program will provide $1,000 in relief to 40,000 households that meet certain criteria. This includes:

- You must be a Duval County resident
- Make less than $75,000 per year
- Have lost at least 25% of your income because of the COVID-19 crisis.

In addition, $35 million will be allocated toward sustained COVID-19 testing, testing sites and other healthcare infrastructure needs. Testing will be offered throughout Jacksonville so that we can serve every neighborhood. $12.5 million will go to the City's COVID-19 emergency account for response expenditures not reimbursed by FEMA. Additional usage of the funds is explained in the legislation.

FIS, a Jacksonville based Fortune 500 company, will graciously assist with issuing the $1,000 preloaded pay cards to ensure that recipients get the money as quickly as possible, and without having to absorb added fees.

Mayor Curry said, "I want to thank FIS President and CEO, Gary Norcross, and his team for their tremendous level of dedication and support for our community. Their assistance with this program will help 40,000 households cover payments for essential needs like shelter, water and electricity."

Hi Randall and Team,
Per our conversation I have received the following information from our subcontractor in reference to the location of production:

- The location would be in either Missouri or Nevada. Since these facilities are under maximum capacity during this crisis we will place the order in the fastest on-demand facility.
  - The above information on location would mean the City would need to choose the bulk shipping method outlined in the Agreement to receive the shipment of cards.
- To set expectations on card receipt:
  - All the collateral (plastic, carrier, cardholder agreement & card usage tip buck slip) is being produced and positioned in the facility and should be in place by Friday, 4/24.
  - The earliest the order could be placed would be Monday, April 27 to ensure all the above collateral is in place.
  - Production times in this high demand environment is currently running 4 business days, we will try and get this accelerated if possible. We will keep the City in the loop during the process.
    - We understand the urgency of your request to have card packets in hand by next week but the following week is more realistic (mid-week May 5 or 6)
- While cards are being produced we would like to set up a training/intro to the platform next Tuesday with your Team who will be registering recipients.
  - Please let me know convenient times – this should be an approx 2 hour video meeting
- With the above timeframes I believe the executed agreement will be in place, but we would be open to move forward with placing the order Monday, April 27 if there are still legal items being discussed with a path to execution.

Please let me know if there are any other questions or concerns.

Thank you again for the opportunity to assist the City of Jacksonville.

Thanks, Jerry and team! We really appreciate FIS stepping up to work with us on this important project, and the citizens of Jacksonville (your hometown!) appreciate the generous consideration you have provided from a cost perspective. We have the documents to our legal team and will be in touch asap.

Quick question: I think I recall hearing that the proxy number for each card would be 13 digits, but didn't write that down. Can one of you please confirm the number of digits for the proxy number?

Thanks!

City of Jacksonville team, FIS is proud and we appreciate the opportunity to partner on this project.

Attached are the components that we discussed this morning:

- The FIS Business Suite Agreement Draft-We can review at your earliest convenience and we kept this as short as possible
  - This includes the Pricing for this Program
  - **Please note in recognition of our Partnership on this program, FIS is waiving all setup/implementation fees and paying for 80% of the Card and Program costs.**
- Card Image-Visa Blue
- Card Carrier
- Cardholder Terms and Conditions (T&C)
  - Please Note that we cannot accommodate any changes to the language on the Card Carrier, the back of the Card or the Cardholder Terms & Conditions given the timelines for this Program. Any changes to the language in these items would require legal review by FIS, the Issuing Bank and Visa which normally takes 3-4 weeks, plus printing.
- Program Buck Slip
  - To support the Cardholders and help them understand how to use the Card, we have created a Buck Slip flyer that is also attached the cardholder understand how to use their card. The benefit with this model is the Cards will be handed out activated and loaded, so Cardholder can start spending. This is what was used in Los Angeles and other cities.

We appreciate your partnership on this program and look forward to discussions tomorrow.

Subject: EXTERNAL: Fwd: Purchasing Carrier for City of LA

Hey guys,

See below what we will call teh standard COVID package and model moving forward. This is what we used for LA and what we are proposing for JAX. Note that they will not be able to change the language on this carrier, card and T&C and live with what is here if they want to make timelines. this language is specific to the commercial program specs and adjustments would open up program changes and deep Meta legal review.

To support the cardholders we have created a buck slip flyer that is also attached which as we described heelps the cardholder understand how to use their card. Good thing with this model is cards will be handed out activated and loaded so cardholder can start spending. To answer your other questions I have attached a model for this program from Dave as well as answers to your other questions below.

As a follow up:

- Can you please provide the model, - **attached**
- The cost to FIS – all in package-- for plastic, carrier, CHA, etc. - **In attached model**
- Overnight shipping costs to Jacksonville from Arroweye facility
  - City of Jacksonville 117 West Duval Street, Suite 300, Jacksonville, FL 32202
- Proxy number printed on the card? - **Not on card on carrier and it shows through the window envelope so JAX does not have to open package just read proxy off cards and assign a load. via proxy through our system.**
- Buck slip language example with CH usage tips used by LA- did you produce/print these for LA? I believe this doc is where we would "plug" FIS - **See 4 thigns to know buck slip sample and you guys can tell us what to add**

AMERICAN OVERSIGHT

    - FIS is a Jacksonville, FL based company and is proud to sponsor ……
- Carrier template example - **attached**
- CHA - **attached**
    - We will charge the CH for Live agent most likely, but will take a look at the model prior to making this decision- **this program is not setup to charge the cardholder for Live Agent and we think that is a big mistake. See model we have baked in CS expense into the expense side @ 10% calling in for 4 minutes like your other CA models. this equals $0.50**
- The probability for producing 10K card at a time versus all 43K- **this is possible but you would miss out on efficiency of 1 shipment versus 4 or 5. shipping will be expensive for 43K cards and I believe they said they would cover shipping**
    - Difference in costs- as we know if will be overnight = getting estimate 2 day = getting estimate ground = getting estimate
- Who will be training the City to register cards on the Biz Suite platform? **PT will**

Attributes discussed/agreed:

- No ATM or cash back access - **Correct**
- L/S costs will be a CH cost off the card balance - **$5 per T&C, + $15 if they want it overnighted versus US mail**
- Blue design with “Reward Card” removed - **See attached**
- Embossing
    - 3rd line: City of Jacksonville (20 char) - **See attached**
    - 4th line: One Thousand Dollars (20 char) - **See attached**

Hi Kim--- Here is what we have so far. This is a very preliminary draft so please feel free to offer suggestions on beefing up the section involving FIS.

April 24, 2020, Jacksonville, Fla. -- Mayor Curry announced Friday that his administration has filed legislation with the Jacksonville City Council to allocate nearly $160 million in Federal CARES Act funds to provide relief to citizens and support the ongoing response to COVID-19.

“My team and I are proud to work with City Council to provide needed assistance to the people of Jacksonville and support continued COVID-19 response and recover efforts throughout our community,” Mayor Lenny Curry said. “These funds will go a long way toward helping citizens meet their needs, provide a needed boost to our economy, keep people working, and putting us on a path to recovery.”

The Jacksonville COVID-19 Relief Program will include $40 million in direct stimulus for individuals to help with mortgage, rent and utility payments. This program will provide $1,000 in relief to 40,000 households that meet certain criteria. This includes:

- You must be a Duval County resident
- Make less than $75,000 per year
- Have lost at least 25% of your income because of the COVID-19 crisis.

In addition, $35 million will be allocated toward sustained COVID-19 testing, testing sites and other healthcare infrastructure needs. Testing will be offered throughout Jacksonville so that we can serve every neighborhood. $12.5 million will go to the City’s COVID-19 emergency account for response expenditures not reimbursed by FEMA. Additional usage of the funds is explained in the legislation.

FIS, a Jacksonville based Fortune 500 company, will graciously assist with issuing the $1,000 preloaded pay cards to ensure that recipients get the money as quickly as possible, and without having to absorb added fees.

Mayor Curry said, “I want to thank FIS President and CEO, Gary Norcross, and his team for their tremendous level of dedication and support for our community. Their assistance with this program will help 40,000 households cover payments for essential needs like shelter, water and electricity.”

Attached are the components that we discussed this morning:

- The FIS Business Suite Agreement Draft-We can review at your earliest convenience and we kept this as short as possible
  - This includes the Pricing for this Program
  - **Please note in recognition of our Partnership on this program, FIS is waiving all setup/implementation fees and paying for 80% of the Card and Program costs.**

Any changes to the language in these items would require legal review by FIS, the Issuing Bank and Visa which normally takes 3-4 weeks, plus printing.

Subject: EXTERNAL: Fwd: Purchasing Carrier for City of LA

Hey guys,

See below what we will call teh standard COVID package and model moving forward. This is what we used for LA and what we are proposing for JAX. Note that they will not be able to change the language on this carrier, card and T&C and live with what is here if they want to make timelines. this language is specific to the commercial program specs and adjustments wouild open up program changes and deep Meta legal review.

To support the cardholders we have created a buck slip flyer that is also attached which as we described heelps the cardholder understand how to use their card. Good thing with this model is cards will be handed out activated and loaded so cardholder can start spending. To answer your other questions I have attached a model for this program from Dave as well as answers to your other questions below.

As a follow up:

- Can you please provide the model, - **attached**
- The cost to FIS – all in package-- for plastic, carrier, CHA, etc. - **In attached model**
- Overnight shipping costs to Jacksonville from Arroweye facility
  - City of Jacksonville 117 West Duval Street, Suite 300, Jacksonville, FL 32202
- Proxy number printed on the card? - **Not on card on carrier and it shows through the window envelope so JAX does not have to open package just read proxy off cards and assign a load. via proxy through our system.**
- Buck slip language example with CH usage tips used by LA- did you produce/print these for LA? I believe this doc is where we would "plug" FIS - **See 4 thigns to know buck slip sample and you guys can tell us what to add**
  - FIS is a Jacksonville, FL based company and is proud to sponsor ……
- Carrier template example - **attached**
- CHA - **attached**
  - We will charge the CH for Live agent most likely, but will take a look at the model prior to making this decision- **this program is not setup to charge the cardholder for Live Agent and we think that is a big mistake. See model we have baked in CS expense into the expense side @ 10% calling in for 4 minutes like your other CA models. this equals $0.50**
- The probability for producing 10K card at a time versus all 43K- **this is possible but you would miss out on efficiency of 1 shipment versus 4 or 5. shipping will be expensive for 43K cards and I believe they said they would cover shipping**
  - Difference in costs- as we know if will be overnight = getting estimate 2 day = getting estimate ground = getting estimate
- Who will be training the City to register cards on the Biz Suite platform? **PT will**

Attributes discussed/agreed:

- No ATM or cash back access - **Correct**
- L/S costs will be a CH cost off the card balance - **$5 per T&C, + $15 if they want it overnighted versus US mail**

Hi Kim--- Here is what we have so far. This is a very preliminary draft so please feel free to offer suggestions on beefing up the section involving FIS.

April 24, 2020, Jacksonville, Fla. -- Mayor Curry announced Friday that his administration has filed legislation with the Jacksonville City Council to allocate nearly $160 million in Federal CARES Act funds to provide relief to citizens and support the ongoing response to COVID-19.

"My team and I are proud to work with City Council to provide needed assistance to the people of Jacksonville and support continued COVID-19 response and recover efforts throughout our community," Mayor Lenny Curry said. "These funds will go a long way toward helping citizens meet their needs, provide a needed boost to our economy, keep people working, and putting us on a path to recovery."

The Jacksonville COVID-19 Relief Program will include $40 million in direct stimulus for individuals to help with mortgage, rent and utility payments. This program will provide $1,000 in relief to 40,000 households that meet certain criteria. This includes:

- You must be a Duval County resident
- Make less than $75,000 per year
- Have lost at least 25% of your income because of the COVID-19 crisis.

In addition, $35 million will be allocated toward sustained COVID-19 testing, testing sites and other healthcare infrastructure needs. Testing will be offered throughout Jacksonville so that we can serve every neighborhood. $12.5 million will go to the City's COVID-19 emergency account for response expenditures not reimbursed by FEMA. Additional usage of the funds is explained in the legislation.

FIS, a Jacksonville based Fortune 500 company, will graciously assist with issuing the $1,000 preloaded pay cards to ensure that recipients get the money as quickly as possible, and without having to absorb added fees.

Mayor Curry said, "I want to thank FIS President and CEO, Gary Norcross, and his team for their tremendous level of dedication and support for our community. Their assistance with this program will help 40,000 households cover payments for essential needs like shelter, water and electricity."

Ginger/Kim and all,

As we prepare for the press release it would also be great to include a quote from Gary Norcross about this great public private partnership that has come together in short order to help the citizens of Jacksonville through this challenging time. Can you please offer that to him and shoot it to us? The Mayor will likely say something like that too, thanking Gary and the team for this huge effort.

The timing on the press release would likely be Friday morning, but as always, the sooner the better😊.

Hi Randall and Team,
Per our conversation I have received the following information from our subcontractor in reference to the location of production:

- The location would be in either Missouri or Nevada. Since these facilities are under maximum capacity during this crisis we will place the order in the fastest on-demand facility.
  - The above information on location would mean the City would need to choose the bulk shipping method outlined in the Agreement to receive the shipment of cards.
- To set expectations on card receipt:
  - All the collateral (plastic, carrier, cardholder agreement & card usage tip buck slip) is being produced and positioned in the facility and should be in place by Friday, 4/24.
  - The earliest the order could be placed would be Monday, April 27 to ensure all the above collateral is in place.
  - Production times in this high demand environment is currently running 4 business days, we will try and get this accelerated if possible. We will keep the City in the loop during the process.
    - We understand the urgency of your request to have card packets in hand by next week but the following week is more realistic (mid-week May 5 or 6)
- While cards are being produced we would like to set up a training/intro to the platform next Tuesday with your Team who will be registering recipients.
  - Please let me know convenient times – this should be an approx 2 hour video meeting
- With the above timeframes I believe the executed agreement will be in place, but we would be open to move forward with placing the order Monday, April 27 if there are still legal items being discussed with a path to execution.

Please let me know if there are any other questions or concerns.

Thank you again for the opportunity to assist the City of Jacksonville.

  - We will charge the CH for Live agent most likely, but will take a look at the model prior to making this decision - **this program is not setup to charge the cardholder for Live Agent and we think that is a big mistake. See model we have baked in CS expense into the expense side @ 10% calling in for 4 minutes like your other CA models. this equals $0.50**
- The probability for producing 10K card at a time versus all 43K - **this is possible but you would miss out on efficiency of 1 shipment versus 4 or 5. shipping will be expensive for 43K cards and I believe they said they would cover shipping**
  - Difference in costs- as we know if will be overnight = getting estimate 2 day = getting estimate ground = getting estimate
- Who will be training the City to register cards on the Biz Suite platform? **PT will**

- No ATM or cash back access - **Correct**
- L/S costs will be a CH cost off the card balance - **$5 per T&C, + $15 if they want it overnighted versus US mail**

Joey—

Attached please find a clean ("v8") and redline ("v8A") draft of the legislation. It includes your comments to the prior draft, with a few questions remaining highlighted in yellow, as well as the changes to numerous fee waivers. The fee waiver changes seem extensive, but in most instances we decided to break them out in more detail, so the various departments that impose the finds will have a better road map as to what is and is not being waived. There are a few sections we inserted that we felt made sense just so you can see them, such as the Section 744 waiver that applies to fees related to construction in a city right-of-way, as any larger development nearly always requires that type of work. We also included comprehensive plan amendments, which are fairly common when certain properties are reclassed to authorize certain developments. Obviously, anything you don't like we can easily remove. You may want to have Bill review as some of the added waivers reside in his shop.

The Fire and Rescue fees were voluminous, so for clarity sake I inserted an exhibit in the legislation (attached) from the website list that shows exactly what fees are being waived. We are still waiting for JFRD to confirm they are waivable.

Except for the areas highlighted in yellow and any technical revisions for consistency, at this point from the OGC side this is a much more final document, so you shouldn't expect to see me revising so heavily.

Please give me a call when you can regarding the highlighted areas, and happy to discuss any time.

to spend the 25mm and 20mm with report to Council.]

Section 4. Carryover. The funds appropriated herein shall not lapse but shall carryover as appropriated from year to year until such funds are expended or lapse according to the terms of the Agreement and the Program. Funds appropriated in this Ordinance must be committed before November 1, 2020, failure to do so will cause funds to revert to accounts of origin.

Section 5. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002647

Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002648

Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance~~; —~~ .

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance~~; or~~ .

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 6, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 7. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402~~(b)(3)~~ (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). The provisions of Chapter 320 (General

Provisions) within the Constructions Regulations and Building Codes, Part 4 (Permits), Section 320.402~~(b)(3)~~ (Application for Permit) and Section 320.409 (Schedule of permit fees), that ~~requires~~would otherwise require the payment of ~~application fees, building or~~ permit fees, including the following: (1) New buildings, (2) Foundation only, (3) New construction ~~fees, electrical permit fees, plumbing~~other than buildings, (4) Alterations, (5) Window/door replacement, (6) Moving buildings, (7) Roofing, (8) Swimming pools, (9) Demolition of buildings, (10) Demolition of structures other than buildings, (11) Sign erections, (12) Site clearing with protected trees, (13) Site clearing without protected trees, (14) Removal or relocation of private protected trees, (15) Electrical permit~~ fees, mechanical~~, (16) Plumbing permit~~ fees, miscellaneous~~, (17) Mechanical permit~~ fees~~, and ~~miscellaneous~~, (18) Miscellaneous fees, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period"). Fees related to violations of the Florida Building Code and the renewal permits for off-site signs are specifically not waived or affected by this moratorium.

Section 8. $167,000,000 of the funding above is the Federal Cares Act grant funding received by the City from the Federal government pursuant to the Cares Act. The funds will be used to provide economic incentive grants to citizens residing in Duval County, and to reimburse the City for various waivers of certain City imposed fees, and to fully fund the COVID-19 Small Business Relief Program.

Section 3. Purpose. The purpose of the appropriation in Section 2 is to: (1) provide $1,000 COVID-19 Mortgage, Rent and Utility Relief Program grants ("MRU Grants") to eligible citizens of Duval County, in the maximum, cumulative amount of $43,500,000, including the costs of administering the program; (2) provide up to $40,000,000 to establish and operate COVID-19 and COVID-19 antibody test sites within the City; (3) reimburse the City $12,500,000 for anticipated costs not reimbursed by the Federal Emergency

Management Agency; (4) provide the remaining $17,000,000 to fully fund the COVID-19 Small Business Relief and Employee Retention Grant Program ("Small Business Grant Program") previously authorized by Ordinance 2020-201-E; (5) reimburse the City $9,000,000 for the costs of the Small Business Grant Program previously authorized by Ordinance 2020-201-E; (6) reimburse the City up to $25,000,000 for necessary governmental expenditures that may otherwise no longer be funded due to declines in previously anticipated revenues due to the economic impact of COVID-19 response measures, with $4,000,000 thereof to be applied to reimburse the City for the mobility fee moratorium authorized herein, and $5,000,000 thereof applied to reimburse the City for the fee waivers authorized herein; and (7) providing up to an additional $20,000,000 to provide additional funding to entities that are managing or operating city-owned facilities or functions on behalf of the City. Such funding and uses is intended to partially combat the economic impacts on individuals and businesses of the COVID-19 disease. [Joey, let's discuss parameters for mayor to spend the 25mm and 20mm with report to Council.]

Section 4. Carryover. The funds appropriated herein shall not lapse but shall carryover as appropriated from year to year until such funds are expended or lapse according to the terms of the Agreement and the Program. Funds appropriated in this Ordinance must be committed before November 1, 2020, failure to do so will cause funds to revert to accounts of origin.

Section 5. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate,

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002671

application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50%

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002672

of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 6. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 5 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002673

even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 6, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 7. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). These fees are referenced in Section 123.102, Ordinance Code, as the "Review Group" within the Planning Department category, and consist of the Site Development Review (10-set) Subdivision, and the Site Development Review (10 Set) Non-Subdivision" reviews. We wanted to make sure everyone was on the same page as far as technical amendments to the legislation.

1. Revising the BT – this will amend all references to the BT and Exhibit 1 along with attaching the revised BT
2. Inserting “subject to future Council approval” at the end of Section 4 on pg. 11
3. Adding clarification on pg. 11, line 18 that the $5,000,000 is to fund the Building Inspection fee moratorium authorized herein. This was not previously discussed, but is reflective of the language on pg. 2, lines 4-7.

Audit team,

Please see responses to your questions below:

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."
    b. P. 3, starting on line 19 through p. 5, line 8 starts off with "…a six month moratorium on the following permit, inspection and application fees as to…" and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
    c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to? The $5 million reimburses the Building Inspection division for half of the $10 million estimated cost of providing waivers for 6 months (all fees in old fund 159 and the fire inspection fees).
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both? The $16 is what is left of the $25 million bucket after deducting for the $4 million mobility expense and the $5 million Building Inspection Division Fee expense for providing 6 month waivers.

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act? Yes. $9 million of it is being specifically appropriated in this bill ($5mm for BID fee waivers and $4mm for mobility fee waivers), with the other $16 million to be used for anything authorized by the CARES act that is in this category of economic impact to the City as shown on the BT. Rent, loan, lease payment, parking fee waivers will be within this bucket's uses.

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)? The waivers do not apply to haulers that currently have a contract rate with the City, but would apply, for example, to a City franchise hauler to the extent they are doing other commercial hauling for which they pay a tipping fee onsite. As to the beaches communities, Atlantic and Neptune beaches will see relief, as those entities currently pay their fees onsite. Jax Beach and Baldwin will not see relief as they currently do not pay any fees onsite.

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. Below are the items that we believe will need to be changed on the BT (Accounting and Budget are working on this. We will send a revised BT when ready. Most likely in the AM):
    - All of the $159 million should be put into a grant fund for tracking purposes
    - The previous BT on the small business loan program in 2020-201-E should in essence be reversed- (i.e. the transfer from fund balance should be deappropriated and the expense as well) and that deappropriation should be included on this BT
    - The $9 million that is in a cash carryover should be revised to Miscellaneous Grants and Aids within the Grants Fund
    - The $20 million should be placed in a contingency since this will require subsequent legislation, still within the Grants Fund as all the other funding
    - The contingency of $12.5 million should be placed in the same grant fund initially and then can later be transferred out/expensed to the Emergency Incidents Fund (Again this would be for tracking purposes. If you want, it could even be done as part of this bill)

5. General question, but somewhat tied in with the $20 million that will come back through as separate legislation- Given that the guidance indicates that government revenue shortfalls cannot be covered by this stimulus money, can you clarify whether

AMERICAN OVERSIGHT

these funds can be used to offset the City venues and also whether any bed tax revenue shortfall could be addressed. The City venues may be offset to the extent there is economic impact that was unforeseen, caused by COVID-19 and containment actions related thereto, and qualifies under the terms of the CARES grant. As uses are proposed in subsequent legislation, such may be reviewed as qualifying at that time. If not, how will those expenses be covered (e.g., the revenue shortfall on the "bed tax" used for the debt service on the stadium and scoreboards/daily's place)? As with any shortfall, the City and those who manage certain venues have various tools to manage shortfalls such as expense cuts and transfers from fund balance. The City will be closely watching revenues throughout the year, will be managing expenses accordingly, and in the event of declines in excess of budget flexibility has built reserves to strong levels to assist in handling such problems.

6. Have you been able to get something in writing about the separate FEMA funding in the future?
   Please see the below link to FEMA's declaration for Federal Disaster #4486 for the COVID-19 Pandemic for the State of Florida. Typically, not all counties are included within a state's declaration, but all Florida counties are included as eligible for FEMA Public Assistance. https://www.fema.gov/disaster/4486#

We also wanted to mention that we do have a Council Member that is willing to sponsor any technical amendments needed, such as a revised BT and any clarifying language that is deemed necessary on the $25 million. Thank you in advance for your help.

Responses to 2nd email:

1. Please provide a listing of the tenants and amounts that could be subject to Section 20 of the bill.I'll send you the list we've been working off of in the AM (can't access my network drives right now) for those with rent/loan/lease arrangements with the City's departments and DIA. While every effort was made to assess all potential lease/rent/loan arrangements to which the City is a party, there may be others, and such are not disqualified for consideration by virtue of not being on this list.
2. Please provide a listing of loans (with monthly or yearly amounts) that could be subject to Section 21 of the bill.This is on the list we'll send you as mentioned in #1 above.
3. To be clear as we understand the Mayor's transfer powers, excluding the waiver on the $25 million, for all of the other programs, it is our understanding that the Mayor would not have the authority to move funding between or among the different programs without coming back to Council, correct? Correct. The waiver of transfer authority limits applies to the $25mm bucket only. Moving across buckets would be subject to future council action.
4. Are you in opposition to an amendment to add clarifying language to the end of the sentence on page 11, line 30 that states "subject to future council appropriation"?
   No objection

Subject: Ordinance 2020-235 - CARES Act Grant Funds

Joey/John,

We have had a chance to look at the revised draft (i.e. the version as it now sits as filed) on the CARES act and have some follow up questions/comments. Note some of the items have been hit on via separate communication and are outstanding items, but we wanted to make sure we had everything in one place for easier tracking by everyone.

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."
    b.     c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to?
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both?

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act?

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)?

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. Below are the items that we believe will need to be changed on the BT:
    - All of the $159 million should be put into a grant fund for tracking purposes
    - The previous BT on the small business loan program in 2020-201-E should in essence be reversed- (i.e. the transfer from fund balance should be deappropriated and the expense as well) and that deappropriation should be included on this BT
    - The $9 million that is in a cash carryover should be revised to Miscellaneous Grants and Aids within the Grants Fund
    - The $20 million should be placed in a contingency since this will require subsequent legislation, still within the Grants Fund as all the other funding
    - The contingency of $12.5 million should be placed in the same grant fund initially and then can later be transferred out/expensed to the Emergency Incidents Fund (Again this would be for tracking purposes. If you want, it could even be done as part of this bill)

5. General question, but somewhat tied in with the $20 million that will come back through as separate legislation- Given that the guidance indicates that government revenue shortfalls cannot be covered by this stimulus money, can you clarify whether these funds can be used to offset the City venues and also whether any bed tax revenue shortfall could be addressed. If not, how will those expenses be covered (e.g., the revenue shortfall on the "bed tax" used for the debt service on the stadium and scoreboards/daily's place)?

6. Have you been able to get something in writing about the separate FEMA funding in the future?

We also wanted to mention that we do have a Council Member that is willing to sponsor any technical amendments needed, such as a revised BT and any clarifying language that is deemed necessary on the $25 million. Thank you in advance for your help.

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002713

thereof, a copy of written documentation of all transfers of funds made during the applicable fiscal year.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement,

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002714

certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

AMERICAN OVERSIGHT

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002716

inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Consistent with Section 14.03 of the City Charter, the remaining, applicable provisions of Section 106.304, *Ordinance Code*, authorizes the Mayor to transfer funds from any agency, non-departmental or departmental line item to any other agency, non-departmental or departmental line item, subject to the limitations and other requirements of Section 106.304 without prior notice to Council, and requires that the Mayor shall provide to the Council Auditor, within three working days after the effective date thereof, a copy of written documentation of all transfers of funds made during the applicable fiscal year. For the purposes of clarity, and subject to the remaining requirements of Section 106.304, *Ordinance Code*, and the CARES Act, the Mayor's transfer authority authorized in this Section may be used only to fund the costs of the fee moratoriums, rent forgiveness and loan forgiveness as authorized herein.

Section 76. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. Section 87. Section 655.503 (Mobility fee requirement,

AMERICAN OVERSIGHT

certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects

AMERICAN OVERSIGHT

whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 98. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value

AMERICAN OVERSIGHT

of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 109. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). We wanted to make sure everyone was on the same page as far as technical amendments to the legislation.

1. Revising the BT – this will amend all references to the BT and Exhibit 1 along with attaching the revised BT
2. Inserting "subject to future Council approval" at the end of Section 4 on pg. 11
3. Adding clarification on pg. 11, line 18 that the $5,000,000 is to fund the Building Inspection fee moratorium authorized herein. This was not previously discussed, but is reflective of the language on pg. 2, lines 4-7.

John, could you draft this amendment in preparation for the Council meeting if everyone is in agreement? You can contact me if you have any questions.

Subject: RE: Ordinance 2020-235 - CARES Act Grant Funds

Audit team,

Please see responses to your questions below:

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."
    b. P. 3, starting on line 19 through p. 5, line 8 starts off with "…a six month moratorium on the following permit, inspection and application fees as to…" and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
    c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to? The $5 million reimburses the Building Inspection division for half of the $10 million estimated cost of providing waivers for 6 months (all fees in old fund 159 and the fire inspection fees).
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both? The $16 is what is left of the $25 million bucket after deducting for the $4 million mobility expense and the $5 million Building Inspection Division Fee expense for providing 6 month waivers.

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act? Yes. $9 million of it is being specifically appropriated in this bill ($5mm for BID fee waivers and $4mm for mobility fee waivers), with the other $16 million to be used for anything authorized by the CARES act that is in this category of economic impact to the City as shown on the BT. Rent, loan, lease payment, parking fee waivers will be within this bucket's uses.

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)? The waivers do not apply to haulers that currently have a contract rate with the City, but would apply, for example, to a City franchise hauler to the extent they are doing other commercial hauling for which they pay a tipping fee onsite. As to the beaches communities, Atlantic and Neptune beaches will see relief, as those entities currently pay their fees onsite. Jax Beach and Baldwin will not see relief as they currently do not pay any fees onsite.

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. Below are the items that we believe will need to be changed on the BT (Accounting and Budget are working on this. We will send a revised BT when ready. Most likely in the AM):
    - All of the $159 million should be put into a grant fund for tracking purposes
    - The previous BT on the small business loan program in 2020-201-E should in essence be reversed- (i.e. the transfer from fund balance should be deappropriated and the expense as well) and that deappropriation should be included on this BT
    - The $9 million that is in a cash carryover should be revised to Miscellaneous Grants and Aids within the Grants

AMERICAN OVERSIGHT

Fund
- The $20 million should be placed in a contingency since this will require subsequent legislation, still within the Grants Fund as all the other funding
- The contingency of $12.5 million should be placed in the same grant fund initially and then can later be transferred out/expensed to the Emergency Incidents Fund (Again this would be for tracking purposes. If you want, it could even be done as part of this bill)

5. General question, but somewhat tied in with the $20 million that will come back through as separate legislation- Given that the guidance indicates that government revenue shortfalls cannot be covered by this stimulus money, can you clarify whether these funds can be used to offset the City venues and also whether any bed tax revenue shortfall could be addressed. The City venues may be offset to the extent there is economic impact that was unforeseen, caused by COVID-19 and containment actions related thereto, and qualifies under the terms of the CARES grant. As uses are proposed in subsequent legislation, such may be reviewed as qualifying at that time. If not, how will those expenses be covered (e.g., the revenue shortfall on the "bed tax" used for the debt service on the stadium and scoreboards/daily's place)? As with any shortfall, the City and those who manage certain venues have various tools to manage shortfalls such as expense cuts and transfers from fund balance. The City will be closely watching revenues throughout the year, will be managing expenses accordingly, and in the event of declines in excess of budget flexibility has built reserves to strong levels to assist in handling such problems.

6. Have you been able to get something in writing about the separate FEMA funding in the future?
   Please see the below link to FEMA's declaration for Federal Disaster #4486 for the COVID-19 Pandemic for the State of Florida. Typically, not all counties are included within a state's declaration, but all Florida counties are included as eligible for FEMA Public Assistance. https://www.fema.gov/disaster/4486#

We also wanted to mention that we do have a Council Member that is willing to sponsor any technical amendments needed, such as a revised BT and any clarifying language that is deemed necessary on the $25 million. Thank you in advance for your help.

Responses to 2nd email:

1. Please provide a listing of the tenants and amounts that could be subject to Section 20 of the bill.I'll send you the list we've been working off of in the AM (can't access my network drives right now) for those with rent/loan/lease arrangements with the City's departments and DIA. While every effort was made to assess all potential lease/rent/loan arrangements to which the City is a party, there may be others, and such are not disqualified for consideration by virtue of not being on this list.
2. Please provide a listing of loans (with monthly or yearly amounts) that could be subject to Section 21 of the bill.This is on the list we'll send you as mentioned in #1 above.
3. To be clear as we understand the Mayor's transfer powers, excluding the waiver on the $25 million, for all of the other programs, it is our understanding that the Mayor would not have the authority to move funding between or among the different programs without coming back to Council, correct? Correct. The waiver of transfer authority limits applies to the $25mm bucket only. Moving across buckets would be subject to future council action.
4. Are you in opposition to an amendment to add clarifying language to the end of the sentence on page 11, line 30 that states "subject to future council appropriation"?
   No objection

Subject: Ordinance 2020-235 - CARES Act Grant Funds

Joey/John,

We have had a chance to look at the revised draft (i.e. the version as it now sits as filed) on the CARES act and have some follow up questions/comments. Note some of the items have been hit on via separate communication and are outstanding items, but we wanted to make sure we had everything in one place for easier tracking by everyone.

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:

    c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002770

Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002771

only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002772

applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

John,
We found two things.

1. Pg. 10, lines 15, 19, and 21 should strike "Exhibit 1" and insert "Revised Exhibit 1"
2. Correct Section 5 heading to include waiver of Section 106.304(c) also – right now only (b) is listed

Can you send this to me in Floor Amendment form for our review?

Thanks
Phillip

We wanted to make sure everyone was on the same page as far as technical amendments to the legislation.

1. Revising the BT – this will amend all references to the BT and Exhibit 1 along with attaching the revised BT
2. Inserting "subject to future Council approval" at the end of Section 4 on pg. 11
3. Adding clarification on pg. 11, line 18 that the $5,000,000 is to fund the Building Inspection fee moratorium authorized herein. This was not previously discussed, but is reflective of the language on pg. 2, lines 4-7.

John, could you draft this amendment in preparation for the Council meeting if everyone is in agreement? You can contact me if you have any questions.

Subject: RE: Ordinance 2020-235 - CARES Act Grant Funds

Audit team,

Please see responses to your questions below:

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."
    b. P. 3, starting on line 19 through p. 5, line 8 starts off with "…a six month moratorium on the following permit, inspection and application fees as to…" and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
    c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to? The $5 million reimburses the Building Inspection division for half of the $10 million estimated cost of providing waivers for 6 months (all fees in old fund 159 and the fire inspection fees).
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both? The $16 is what is left of the $25 million bucket after deducting for the $4 million mobility expense and the $5 million Building Inspection Division Fee expense for providing 6 month waivers.

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language

AMERICAN OVERSIGHT

authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act? Yes. $9 million of it is being specifically appropriated in this bill ($5mm for BID fee waivers and $4mm for mobility fee waivers), with the other $16 million to be used for anything authorized by the CARES act that is in this category of economic impact to the City as shown on the BT. Rent, loan, lease payment, parking fee waivers will be within this bucket's uses.

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)? The waivers do not apply to haulers that currently have a contract rate with the City, but would apply, for example, to a City franchise hauler to the extent they are doing other commercial hauling for which they pay a tipping fee onsite. As to the beaches communities, Atlantic and Neptune beaches will see relief, as those entities currently pay their fees onsite. Jax Beach and Baldwin will not see relief as they currently do not pay any fees onsite.

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. Below are the items that we believe will need to be changed on the BT (Accounting and Budget are working on this. We will send a revised BT when ready. Most likely in the AM):
    - All of the $159 million should be put into a grant fund for tracking purposes
    - The previous BT on the small business loan program in 2020-201-E should in essence be reversed- (i.e. the transfer from fund balance should be deappropriated and the expense as well) and that deappropriation should be included on this BT
    - The $9 million that is in a cash carryover should be revised to Miscellaneous Grants and Aids within the Grants Fund
    - The $20 million should be placed in a contingency since this will require subsequent legislation, still within the Grants Fund as all the other funding
    - The contingency of $12.5 million should be placed in the same grant fund initially and then can later be transferred out/expensed to the Emergency Incidents Fund (Again this would be for tracking purposes. If you want, it could even be done as part of this bill)

5. General question, but somewhat tied in with the $20 million that will come back through as separate legislation- Given that the guidance indicates that government revenue shortfalls cannot be covered by this stimulus money, can you clarify whether these funds can be used to offset the City venues and also whether any bed tax revenue shortfall could be addressed. The City venues may be offset to the extent there is economic impact that was unforeseen, caused by COVID-19 and containment actions related thereto, and qualifies under the terms of the CARES grant. As uses are proposed in subsequent legislation, such may be reviewed as qualifying at that time. If not, how will those expenses be covered (e.g., the revenue shortfall on the "bed tax" used for the debt service on the stadium and scoreboards/daily's place)? As with any shortfall, the City and those who manage certain venues have various tools to manage shortfalls such as expense cuts and transfers from fund balance. The City will be closely watching revenues throughout the year, will be managing expenses accordingly, and in the event of declines in excess of budget flexibility has built reserves to strong levels to assist in handling such problems.

6. Have you been able to get something in writing about the separate FEMA funding in the future?
    Please see the below link to FEMA's declaration for Federal Disaster #4486 for the COVID-19 Pandemic for the State of Florida. Typically, not all counties are included within a state's declaration, but all Florida counties are included as eligible for FEMA Public Assistance. https://www.fema.gov/disaster/4486#

We also wanted to mention that we do have a Council Member that is willing to sponsor any technical amendments needed, such as a revised BT and any clarifying language that is deemed necessary on the $25 million. Thank you in advance for your help.

Responses to 2nd email:

1. Please provide a listing of the tenants and amounts that could be subject to Section 20 of the bill.I'll send you the list we've been working off of in the AM (can't access my network drives right now) for those with rent/loan/lease arrangements with the City's departments and DIA. While every effort was made to assess all potential lease/rent/loan arrangements to which the City is a party, there may be others, and such are not disqualified for consideration by virtue of not being on this list.
2. Please provide a listing of loans (with monthly or yearly amounts) that could be subject to Section 21 of the bill.This is on the list we'll send you as mentioned in #1 above.
3. To be clear as we understand the Mayor's transfer powers, excluding the waiver on the $25 million, for all of the other programs, it is our understanding that the Mayor would not have the authority to move funding between or among the different programs without coming back to Council, correct? Correct. The waiver of transfer authority limits applies to the $25mm bucket only. Moving across buckets would be subject to future council action.
4. Are you in opposition to an amendment to add clarifying language to the end of the sentence on page 11, line 30 that states "subject to future council appropriation"?
    No objection

Subject: Ordinance 2020-235 - CARES Act Grant Funds

Joey/John,

We have had a chance to look at the revised draft (i.e. the version as it now sits as filed) on the CARES act and have some follow up questions/comments. Note some of the items have been hit on via separate communication and are outstanding items, but we wanted to make sure we had everything in one place for easier tracking by everyone.

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."

    c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to?

Section 87. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee),

AMERICAN OVERSIGHT

Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the

AMERICAN OVERSIGHT

termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 98. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or

AMERICAN OVERSIGHT

engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). John,
I see the following need on the redline version:

Pg. 10, lines 24, 28, and 30 strike “Exhibit 1” and insert “Revised Exhibit 1”

And then additional technical correction noted in Joey’s 11:11 email.

John,
We found two things.

1. Pg. 10, lines 15, 19, and 21 should strike “Exhibit 1” and insert “Revised Exhibit 1”
2. Correct Section 5 heading to include waiver of Section 106.304(c) also – right now only (b) is listed

We wanted to make sure everyone was on the same page as far as technical amendments to the legislation.

1. Revising the BT – this will amend all references to the BT and Exhibit 1 along with attaching the revised BT
2. Inserting "subject to future Council approval" at the end of Section 4 on pg. 11
3. Adding clarification on pg. 11, line 18 that the $5,000,000 is to fund the Building Inspection fee moratorium authorized herein. This was not previously discussed, but is reflective of the language on pg. 2, lines 4-7.

John, could you draft this amendment in preparation for the Council meeting if everyone is in agreement? You can contact me if you have any questions.

Audit team,

Please see responses to your questions below:

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."
    b. P. 3, starting on line 19 through p. 5, line 8 starts off with "…a six month moratorium on the following permit, inspection and application fees as to…" and then lists out fees that would appear to fall within the Building Inspection Division subfund for the most part but does at least include the tipping fee
    c. p. 11, Section 3, lines 15-19 state: "(6) fund up to $25,000,000 of COVID-19 economic stimulus response measures due to the economic impact of COVID-19 emergency response measures, with $4,000,000 thereof to be applied to fund the mobility fee moratorium authorized herein, **and $5,000,000 to fund the application fee waivers authorized herein**;"

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to? The $5 million reimburses the Building Inspection division for half of the $10 million estimated cost of providing waivers for 6 months (all fees in old fund 159 and the fire inspection fees).
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both? The $16 is what is left of the $25 million bucket after deducting for the $4 million mobility expense and the $5 million Building Inspection Division Fee expense for providing 6 month waivers.

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act? Yes. $9 million of it is being specifically appropriated in this bill ($5mm for BID fee waivers and $4mm for mobility fee waivers), with the other $16 million to be used for anything authorized by the CARES act that is in this category of economic impact to the City as shown on the BT. Rent, loan, lease payment, parking fee waivers will be within this bucket's uses.

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)? The waivers do not apply to haulers that currently have a contract rate with the City, but would apply, for example, to a City franchise hauler to the extent they are doing other commercial hauling for which they pay a tipping fee onsite. As to the beaches communities, Atlantic and Neptune beaches will see relief, as those entities currently pay their fees onsite. Jax Beach and Baldwin will not see relief as they currently do not pay any fees onsite.

4. We believe that the BT will need to be amended to track the stimulus money all in one subfund (using old system language), much like we always have for grant funds received from the Federal government. I know we have a question out to the Accounting Division on this, but at this point I do not see how we can proceed without separating the funds out. Below are the items that we believe will need to be changed on the BT (Accounting and Budget are working on this. We will send a revised BT when ready. Most likely in the AM):
    - All of the $159 million should be put into a grant fund for tracking purposes
    - The previous BT on the small business loan program in 2020-201-E should in essence be reversed- (i.e. the transfer from fund balance should be deappropriated and the expense as well) and that deappropriation should be included on this BT
    - The $9 million that is in a cash carryover should be revised to Miscellaneous Grants and Aids within the Grants Fund
    - The $20 million should be placed in a contingency since this will require subsequent legislation, still within the Grants Fund as all the other funding
    - The contingency of $12.5 million should be placed in the same grant fund initially and then can later be transferred out/expensed to the Emergency Incidents Fund (Again this would be for tracking purposes. If you want, it could even be done as part of this bill)

5. General question, but somewhat tied in with the $20 million that will come back through as separate legislation- Given that the guidance indicates that government revenue shortfalls cannot be covered by this stimulus money, can you clarify whether these funds can be used to offset the City venues and also whether any bed tax revenue shortfall could be addressed. The City venues may be offset to the extent there is economic impact that was unforeseen, caused by COVID-19 and containment actions related thereto, and qualifies under the terms of the CARES grant. As uses are proposed in subsequent legislation, such may be reviewed as qualifying at that time. If not, how will those expenses be covered (e.g., the revenue shortfall on the

AMERICAN OVERSIGHT

"bed tax" used for the debt service on the stadium and scoreboards/daily's place)? As with any shortfall, the City and those who manage certain venues have various tools to manage shortfalls such as expense cuts and transfers from fund balance. The City will be closely watching revenues throughout the year, will be managing expenses accordingly, and in the event of declines in excess of budget flexibility has built reserves to strong levels to assist in handling such problems.

6. Have you been able to get something in writing about the separate FEMA funding in the future?
   Please see the below link to FEMA's declaration for Federal Disaster #4486 for the COVID-19 Pandemic for the State of Florida. Typically, not all counties are included within a state's declaration, but all Florida counties are included as eligible for FEMA Public Assistance. https://www.fema.gov/disaster/4486#

We also wanted to mention that we do have a Council Member that is willing to sponsor any technical amendments needed, such as a revised BT and any clarifying language that is deemed necessary on the $25 million. Thank you in advance for your help.

Responses to 2nd email:

1. Please provide a listing of the tenants and amounts that could be subject to Section 20 of the bill.I'll send you the list we've been working off of in the AM (can't access my network drives right now) for those with rent/loan/lease arrangements with the City's departments and DIA. While every effort was made to assess all potential lease/rent/loan arrangements to which the City is a party, there may be others, and such are not disqualified for consideration by virtue of not being on this list.
2. Please provide a listing of loans (with monthly or yearly amounts) that could be subject to Section 21 of the bill.This is on the list we'll send you as mentioned in #1 above.
3. To be clear as we understand the Mayor's transfer powers, excluding the waiver on the $25 million, for all of the other programs, it is our understanding that the Mayor would not have the authority to move funding between or among the different programs without coming back to Council, correct? Correct. The waiver of transfer authority limits applies to the $25mm bucket only. Moving across buckets would be subject to future council action.
4. Are you in opposition to an amendment to add clarifying language to the end of the sentence on page 11, line 30 that states "subject to future council appropriation"?
   No objection

Subject: Ordinance 2020-235 - CARES Act Grant Funds

Joey/John,

We have had a chance to look at the revised draft (i.e. the version as it now sits as filed) on the CARES act and have some follow up questions/comments. Note some of the items have been hit on via separate communication and are outstanding items, but we wanted to make sure we had everything in one place for easier tracking by everyone.

1. We think there may need to be some clarifying language added to the bill concerning the $25 million that we have laid out below. We understand that $4 million is for mobility fee moratorium. It is the rest that we are confused about based on the following portions of the bill:
    a. P. 2, lines 4-7 state: "… and $5,000,000 of which will be used to reimburse for the**cost of the building inspection fee moratorium authorized herein**."

   Bullet "a" language makes it seem like it is only Building Inspection Fees, bullet "b" language makes it seem like it applies only certain items but more than just Building Inspection Fees, and bullet "c" makes it seem like it applies to all of the fee waivers. In the end, we want to make sure we understand the intent and that it is clear in the bill. So, our questions are:
    - What does the $5 million apply to?
    - What does the $16 million apply to? Only fee waivers mentioned in the ordinance? Only things not mentioned in Ordinance that fit federal guidelines? Or both?

2. Under the waiver section on p, 12, this goes in line with the questions above on the $25 million. Does this waiver language authorize the Mayor to ultimately use these funds for anything that is authorized by the CARES Act?

3. Has OGC reached an opinion related to the Tipping Fees? We are trying to understand exactly when this would be triggered (i.e. whether it would ever apply to non-residential haulers based on the wording currently in the bill or beaches)?

Section 87. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent

AMERICAN OVERSIGHT

(50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 98. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

AMERICAN OVERSIGHT

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 109. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). The provisions of Chapter 320 (General Provisions) within the Constructions Regulations and Building Codes, Part 4 (Permits), Section 320.402 (Application for Permit) and Section 320.409 (Schedule of permit fees), that would otherwise require the payment of permit fees, including the following: (1) New buildings, (2) Foundation only, (3) New construction other than buildings, (4) Alterations, (5) Window/door replacement, (6) Moving buildings, (7) Roofing, (8) Swimming pools, (9) Demolition of buildings, (10) Demolition of structures other than buildings, (11) Sign erections,

These fees are referenced in Section 123.102, Ordinance Code, as the "Review Group" within the Planning Department category and consist of the Site Development Review (10-set) Subdivision, and the Site Development Review (10 Set) Non-Subdivision" reviews. Fees related to a violation of the Code of Subdivision Regulations are specifically not waived or affected by this moratorium.

Section 5. Waiving Section 106.304(b) (Mayor's transfer power), Subpart A. (General Provisions), Part 3 (Appropriations), Chapter 106 (Budget and Accounting Code), *Ordinance Code*. The provisions of Chapter 106 (Budget and Accounting Code), Part 3 (Appropriations), Subpart A (General Provisions), Section 106.304(b) (Mayor's transfer power) that limits the Mayor's transfer authority to $500,000 during a fiscal year is hereby waived through December 31, 2020 as to the $25,000,000 of Reimbursement Funds, to authorize the Mayor without further Council action to transfer the Reimbursement Funds otherwise consistent with the requirements of Section 106.304, *Ordinance Code*, and consistent with the authorized uses of such funds under the CARES Act grant received by the City.

The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020

AMERICAN OVERSIGHT

he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the CVOID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002859

construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in 76 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002860

mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family home projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 9. Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permits), each under Part 4 (Permits), Chapter 320 (General Provisions). Codes, Part 4 (Permits), Section 320.402 (Application for Permit) and Section 320.409 (Schedule of permit fees), that would otherwise require the payment of permit fees, including the following: (1) New buildings, (2) Foundation only, (3) New construction other than buildings, (4) Alterations, (5) Window/door replacement, (6) Moving buildings, (7) Roofing, (8) Swimming pools, (9) Demolition of buildings, (10) Demolition of structures other than buildings, (11) Sign erections, (12) Site clearing with protected trees, (13) Site clearing without protected trees, (14) Removal or relocation of private protected trees, (15) Electrical permit, (16) Plumbing permit, (17) Mechanical permit, and, (18) Miscellaneous fees, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Waiver Period"). Fees related to violations of the Florida Building Code and the renewal permits for off-site signs are specifically not waived or affected by this moratorium.

Section 10. Temporary Moratorium Imposed and Duration of Moratorium as to certain Application Fees imposed regarding the subdivision of land, the approval and filing of plats, and the approval of final engineering plans, as required by Section 654.108 (Approval of Preliminary Site Plan: Procedures for Approval of Preliminary and Final engineering plans for required improvements), and Section 654.138(a), (c) and (d) (Fees), each of Chapter 654 (Code of Subdivision Regulations). The provisions of Chapter 654 (Code of Subdivision Regulations), Section 654.108 (Approval of Preliminary Site Plan: Procedures for Approval of Preliminary and Final engineering plans for required improvements), and Section 654.138(a)(c) and (d) (Fees) that would otherwise require payment of application and recording fees for plat review and civil site plan review are hereby temporarily waived for the earlier of six

For item 1, the documents I have in my files are attached to the ordinances that went through council and may be accessed electronically at https://jaxcityc.legistar.com/Legislation.aspx. The requestor should type 2020-0201 and 2020-0235 in the search field. All documents are downloadable from there. Also in progress is CM LeAnna Cumber's bill and CM Garrett Dennis' bill, but I defer to Cheryl Brown on those ordinance numbers as such would have relevant documentation attached.

John Sawyer, can you please attach the FIS and VyStar agreements as those are also likely responsive?

For item 1, the documents I have in my files are attached to the ordinances that went through council and may be accessed electronically at https://jaxcityc.legistar.com/Legislation.aspx. The requestor should type 2020-0201 and 2020-0235 in the search field. All documents are downloadable from there. Also in progress is CM LeAnna Cumber's bill and CM Garrett Dennis' bill, but I defer to Cheryl Brown on those ordinance numbers as such would have relevant documentation attached.

John Sawyer, can you please attach the FIS and VyStar agreements as those are also likely responsive?

For item 1, the documents I have in my files are attached to the ordinances that went through council and may be accessed electronically at https://jaxcityc.legistar.com/Legislation.aspx. The requestor should type 2020-0201 and 2020-0235 in the search field. All documents are downloadable from there. Also in progress is CM LeAnna Cumber's bill and CM Garrett Dennis' bill, but I defer to Cheryl Brown on those ordinance numbers as such would have relevant documentation attached.

John Sawyer, can you please attach the FIS and VyStar agreements as those are also likely responsive?

FIS Prepaid Business Suite

The **City of Jacksonville** ("Client") has engaged **Fidelity Information Services, LLC** (together with its subsidiaries and Affiliates, "FIS") to provide Client with one or more prepaid card programs (each a "Program") as further defined below. The Cards will be distributed by Client in connection with bona fide business programs the Client makes available to its employees, franchisees, dealers, distributors, clients or customers. "Affiliate" means, with respect to a party, any entity which directly or indirectly, through one or more intermediaries, is controlled by, or is under common control with such party.

1. THE CLIENT ACKNOWLEDGES AND UNDERSTANDS THAT FIS OR A THIRD PARTY PROVIDER TO FIS has an agreement to market and manage prepaid card programs with a nationally chartered financial institution ("Issuing Bank") which is the issuer of Cards, a member of Visa USA ("Visa") or MasterCard ("MasterCard") (Visa and MasterCard are referred to herein as the "Association(s)") and licensed through the Associations to provide card issuance services. As used in this agreement any reference to FIS shall also be a reference to its third-party service providers.

2. **Commencement. Term.**

2.1. Each party shall make commercially reasonable efforts, including the assignment of adequate personnel, to commence the Service as soon as practicable following the Effective Date. The "Commencement Date" of a Program is the date on which Client first distributes a Card. FIS reserves the right to decline to commence a Program for Client in its sole discretion or discontinue the distribution of cards if determined in its or Issuing Bank's sole discretion to be inconsistent with safe and sound banking practices.

2.2. Term. The Agreement is effective on the Effective Date and shall continue for an initial term of sixty (60) months (the "Initial Term"). After the Initial Term, or the then current Renewal Term, the term of the Agreement may be renewed for one additional sixty (60) month term upon the mutual agreement of the parties (a "Renewal Term") unless terminated by Client or FIS in writing at least 180 days prior to the last day of the Initial Term.

3. **FIS Responsibilities**.

3.1. FIS Performance. FIS shall provide Client and, where applicable, Client's customers ("Customers") with access to and use of the Service in accordance with these Terms, and FIS' then current standard user operating instructions and requirements made available to Client from time to time ("Specifications"). FIS shall make available documents, reports, statements and other output of the Services, as may be more fully described in the Specifications (collectively, "Output"). "Service" means a service provided by FIS pursuant to this Agreement, to include any Program. FIS may withdraw a Service or terminate any function or Service (i) immediately upon any final regulatory, legislative, or judicial determination that providing such Service or function violates applicable law or regulation or the rights of any third party, or (ii) upon providing not less than three hundred sixty-five (365) days' prior written notice to Client so long as FIS is withdrawing or terminating the Service or function from its entire client base.

3.2. FIS will provide to Client one or more prepaid card programs (each a "Program") as described the applicable program terms (set forth herein) and as designated on an Order Form, whereby FIS will supply Client with one or more types of prepaid cards ("Cards") purchased by Client pursuant to an Order Form. The Cards will be distributed by Client in connection with bona fide business, economic incentive and COVID-19 related programs the Client makes available to its employees, franchisees, dealers, distributors, clients, customers, or residents of Duval County, as applicable. All Cards will be prepaid cards as further described in the Program Addendum.

3.3. FIS shall provide the Programs in compliance with all Laws applicable to FIS as provider of the Programs. "Law" means any law, rule, regulation, ordinance, code or order to which a party may be subject or under which a party may exercise rights.

3.4. FIS shall perform an on-going review of Laws applicable to the provision of the Programs. FIS shall maintain the features of the Programs in accordance with all Laws applicable to such features, including new or amended Laws (as applicable and necessary to support compliance obligations), in a non-custom environment.

4. **Client Responsibilities**.

4.1. Client shall: (i) timely deliver to FIS any information necessary for the provision of the Programs in a

form and format approved by FIS, including but not limited to the Client Due Diligence Form included with this Agreement; (ii) [intentionally omitted], (iii) be solely responsible for timely procuring any information or cooperation required from its employees other third parties in order to commence the Program; (iv) have sole responsibility for verifying the accuracy, completeness or authenticity of any Data furnished by Client or a third party; (v) be solely responsible for training its employees and representatives to comply with all Laws applicable to Client and the procedures set forth in any manual or other literature provided to Client by FIS; (vi) comply with all Laws applicable to Client's business and its use of the Programs, including but not limited to those Laws relating to usury, truth-in-lending, fair credit reporting, equal credit opportunity, automated clearing house transfers, networks associations, electronic funds transfer, privacy and direct marketing, regardless of whether Client uses any forms or other materials supplied by FIS.

4.2. Client shall be responsible for monitoring and interpreting (and for complying with, to the extent such compliance requires no action by FIS), the applicable Laws pertaining to Client's business ("Legal Requirements"). Based on Client's instructions, FIS shall implement features and options (collectively, the "Parameters") for a Program that shall apply to Client. Client shall be responsible for determining that such selections are consistent with the Legal Requirements. In making such determinations, FIS deliver the Programs in accordance with the Parameters.

5. **Data.**

5.1. Client shall be solely responsible for transmitting its Data (collectively, "Client Data") and verifying the accuracy, completeness or authenticity of Data furnished by Client or a third party. Client shall bear any risk of loss resulting from that transmission until receipt by FIS. FIS shall bear the risk of loss resulting from Data transmitted to Client until Client confirms receipt. If Client requests FIS to disclose Client Data to a third party, Client shall provide FIS with written authorization to do so and bear any risk of loss or liability associated with that disclosure. In addition, FIS shall be held harmless from any claim arising out of such disclosure or the third party's use or disclosure of that Client Data. If Client's requested disclosure includes FIS Confidential Information, FIS may remove FIS Confidential Information (or require such removal) prior to such disclosure and require the third party to enter into a written agreement with FIS governing use, disclosure and safekeeping of the FIS Confidential Information.

5.2. FIS shall not be responsible for the accuracy, completeness or authenticity of any Data furnished by Client or a third party, and shall have no obligation to audit, check or verify that Data. If any Data submitted by Client or a third party to FIS is incorrect, incomplete or not in the required format, FIS may require Client to resubmit the Data or FIS may correct the Data and bill Client its then current rates for performing those corrections. FIS shall attempt to notify Client prior to Client incurring such expense.

5.3. Client shall maintain a copy of all Data submitted to FIS (whether directly or through a third party) to permit reconstruction if ever required. Client assumes all risk and expense associated with Data reconstruction, except for those expenses incurred as a direct consequence of FIS' breach of the Agreement. If Data reconstruction is ever required, the parties shall mutually agree on a schedule for that reconstruction

6. **Reserved**.

7. **Use of Services.** Except as otherwise permitted in the Agreement or in writing by FIS, Client shall use each Service only for its own internal business purposes to service its Customers in accordance with the terms of the Agreement and the applicable Specifications. Client shall not (i) except as permitted in the Agreement and the applicable Specifications, sell, use or otherwise provide, directly or indirectly, any of the Service, or any portion thereof to or for the benefit of any third party, (ii) except as permitted by FIS in writing, copy any Service, or any part, feature, function or user interface thereof; (iii) adapt, modify, translate, reverse engineer, decompile, disassemble, or create derivative works based on any Service or any part thereof; (iv) attempt to gain unauthorized access to any Service or its related systems or networks; (v) access any Service for purposes of monitoring the performance or functionality for any benchmarking or competitive purposes; or (vi) perform any load or security testing unless FIS' prior written approval is obtained. For any amount not paid within thirty (30) days after its due date, Client shall pay a late fee equal to the lesser of one and one-half percent (1½%) per month of the unpaid amount or the maximum interest rate allowed by law.

8.3. Billing Errors. In the event of over-billing, FIS will correct the error by credit to Client. If Client was under-billed, FIS will add the under-billed amount to a future invoice. 16.9. If any provision(s) of this Agreement, including any Addenda, attachments and exhibits hereto, is determined to be invalid, illegal, void, or unenforceable by reason of any law, rule or regulation, administrative order, judicial decision, or public policy, such provision(s) shall not affect any other provision of the Agreement, and the Agreement shall be interpreted and construed as if the invalid, illegal, void, or unenforceable provision had not been included to the extent necessary to bring the Agreement within the requirements of such law, rule or regulation, administrative order, judicial decision, or public policy. In addition, in such event, the parties agree to negotiate in good faith to modify the Agreement to carry out the parties' original intent as closely as possible and to the extent lawful. COVID-19 SMALL BUSINESS RELIEF AND EMPLOYEE RETENTION GRANT PROGRAM MANAGEMENT AGREEMENT

This **COVID-19 SMALL BUSINESS RELIEF AND EMPLOYEE RETENTION GRANT PROGRAM MANAGEMENT AGREEMENT** (this "Agreement") is made this 8th day of April, 2020 (the "Effective Date"), between the **CITY OF JACKSONVILLE**, a municipal corporation and a political subdivision of the State of Florida (the "City") and **VYSTAR CREDIT UNION**, a Florida chartered credit union ("VyStar").

Article 1.
PRELIMINARY STATEMENTS

1.1 **Background.**

On March 9, 2020 the Governor of the State of Florida issued Executive Order 20-52 declaring a state of emergency in Florida related to the Novel Coronavirus Disease 2019 ("COVID-19"). Thereafter, on March 13, 2020, Mayor Curry of the City issued Emergency Executive Proclamation 2020-001, proclaiming and declaring a state of emergency associated with COVID-19 in the Consolidated City of Jacksonville. Also, on March 13, 2020 President Donald J. Trump declared a National Emergency concerning the COVID-19 outbreak. The citizens and businesses of Duval County are suffering severe economic impacts stemming in part from national, state and local measures closing certain businesses, public schools, public beaches, imposing emergency work-at-home requirements and limiting public gatherings (the "Emergency Measures") in an effort to slow the infection rate of COVID-19.

As a result of the foregoing, VyStar has developed its COVID19 Response Business Community Relief Loan program (the "VyStar Small Business Relief Loan Program") to provide low cost, fixed interest rate loans to eligible small businesses located within Duval County. The loans will have a fixed interest rate of 5.99%, with a maximum loan amount of $100,000, which will be interest only for the first loan year and thereafter converting to a five year term principal and interest traditional amortizing loan, for a cumulative loan term of six (6) years. The City's financial obligations hereunder are limited to a maximum, cumulative loan pool made available by VyStar pursuant to its loan program in the amount of $50,000,000.

Pursuant to this Agreement, the City is implementing its COVID-19 Small Business Relief and Employee Retention Grant Program (the "City Small Business Relief Program") also to provide financial assistance to eligible small businesses located in Duval County, in an effort to partially offset the economic and job losses suffered by such businesses as a result of COVID-19 and the Emergency Measures related thereto, and VyStar has agreed to serve as the City's grants administrator and underwriter with regard to the City Small Business Relief Grant Program in accordance with the terms of this Agreement.

For each loan VyStar makes pursuant to the VyStar Small Business Relief Loan Program, the City will provide its grants to each such approved borrower, provided such grant recipient executes at loan closing the Joinder and Consent document attached hereto as **Exhibit B** and incorporated herein by this reference.

1.2 **Authority.**

The City Council has authorized execution of this Agreement pursuant to City Ordinance 2020-201-E.

1.3 **Coordination by City.**

The City hereby designates the City's Director of Finance and Administration or his or her designee to be the Program Coordinator who will, on behalf of the City, coordinate with VyStar and administer this Agreement according to the terms and conditions contained herein and in the Exhibit(s) attached hereto and made a part hereof. It shall be the responsibility of VyStar to coordinate all project related activities and all matters under this Agreement with the designated Program Coordinator, unless otherwise stated herein.

1.4 **Maximum Indebtedness.**

The maximum indebtedness of the City for all fees, reimbursable items or other costs pursuant to this Agreement shall not exceed the sum of TWENTY-SIX MILLION AND NO/100 DOLLARS ($26,000,000.00), however, only NINE MILLION AND NO/100 ($9,000,000.00) will be encumbered at the time of execution of this Agreement by the City. Additional funds may be added to this Agreement by City Council through its annual budget ordinance or via stand-alone legislation appropriating additional funds to this Agreement.

1.5 **Availability of Funds.**

The City's obligations under this Agreement are contingent upon availability of lawfully appropriated funds for the City Small Business Relief Program and this Agreement.

Article 2.
TERM; RENEWAL; TERMINATION FOR CONVENIENCE

2.1 **Term.**

The initial term of this Agreement shall commence on the Effective Date hereof and shall continue in full force and effect for six (6) years and six (6) months, until OCT. 7, 2026, unless sooner terminated. The enrollment period for grant recipients shall extend from the Effective Date for an initial six (6) month term, until OCT. 7, 2020. The enrollment period may be extended for up to an additional six (6) months upon the mutual agreement of the parties, and if exercised the term of the Agreement shall also extend an additional six (6) months. To the extent the initial six (6) month enrollment period is extended, the City may terminate the second enrollment period for convenience by providing forty-five (45) days written notice thereof to VyStar at its address as set forth in Section 6.4 below.

2.2 **Approval of Agreement.**

By the execution hereof, the parties certify as follows:

(a) VyStar certifies that

AMERICAN OVERSIGHT

The parties shall work together to develop a quarterly/monthly ACH payment file that remits all duly authorized grant payments, with VyStar providing supporting documentation showing the composition of the total payment amount broken down by grantee.

Grant recipients are required to provide to the City documentation and information reasonably acceptable to the City of the number of full-time and part-time employees of the Grant Recipient as of February 29, 2020 within thirty days of execution of the Joinder and Consent. Failure by the grant recipient to timely provide such information and documentation to the City shall result in such grant recipient being ineligible to participate in the Program authorized hereby. Thereafter, on an annual basis by March 30 of each loan year during the term thereof, a grant recipient shall provide documentation and information in form and content reasonably acceptable to the City regarding employment and wages as of the immediately prior February 28 date. A sample of the general forms of such reports is attached hereto as **Exhibit C**, however, the City reserves the right to request specific data necessary to verify employment and wages that may vary from the form attached as **Exhibit C**. Failure to timely do so shall result in termination of the grant recipient's eligibility to participate in the Program. **Time is of the essence of each grant recipient's reporting obligations under this Section 4.1.**

VyStar's obligation to submit such reports shall continue until a grant recipient is no longer eligible for grant payments pursuant to this Agreement.

VyStar will notify the City via its email addresses in Section 6.4 below of defaulted borrowers such that the City may terminate grant payments to such grantee and/or VyStar that is in default of their

AMERICAN OVERSIGHT

VyStar loan documents. **A default in excess of sixty (60) days shall result in the termination of a grant recipient's participation in the program.**

Within thirty (30) days following the request of the City, VyStar shall provide the City with additional information reasonably requested by the City in order to calculate the grant payments.

Article 5.
DEFAULTS AND REMEDIES

5.1 **General.**

An "Event of Default" under this Agreement shall consist of the breach of any covenant, agreement, representation, provision, or warranty (that has not been cured prior to the expiration of any applicable grace period or notice and cure period contained in this Agreement or such other documents, as applicable) contained in this Agreement.

If any such Event of Default occurs under this Agreement, the non-breaching party may at any time or from time to time proceed to protect and enforce all rights available to the non-breaching party under this Agreement by suit in equity, action at law or by any other appropriate proceeding whether for specific performance of any covenant or agreement contained in this Agreement, or damages, or other relief, or proceed to take any action authorized or permitted under applicable laws or regulations.

5.2 **Breach by VyStar**

No occurrence shall constitute an Event of Default until the City has given VyStar written notice of the default and thirty (30) calendar days within which to cure the default. If any default cannot reasonably be cured within the initial thirty (30) calendar days, no Event of Default shall be deemed to occur so long as the defaulting party has commenced and is diligently implementing a cure within such thirty (30) day period and diligently pursues such cure to a conclusion. Notwithstanding the foregoing, VyStar shall immediately and automatically be in default with respect to this Agreement, and the City shall not be required to give VyStar any notice or opportunity to cure such default (and thus the City shall immediately be entitled to act upon such default), upon the occurrence of any of the following:

Should VyStar make any assignment for the benefit of creditors; or should a receiver, liquidator, or trustee of VyStar of any of VyStar's property be appointed; or should any petition for the adjudication of bankruptcy, reorganization, composition, arrangement or similar relief as to VyStar, pursuant to the Federal Bankruptcy Act or any other law relating to insolvency or relief for debtors, be filed by VyStar; or should VyStar be adjudicated as bankrupt or insolvent; or should VyStar be liquidated or dissolved; or should an involuntary petition seeking to adjudicate VyStar as a bankrupt or to reorganize VyStar be filed against VyStar and remain undismissed for a period of ninety (90) days after the filing date thereof.

5.3 **Breach by City.**

No occurrence shall constitute an Event of Default until VyStar has given the City written notice of the default and thirty (30) calendar days within which to cure the default. If any default cannot reasonably be cured within the initial thirty (30) calendar days, no Event of Default shall be deemed to occur so long as the defaulting party has commenced and is diligently implementing a cure within such

AMERICAN OVERSIGHT

thirty (30) day period and diligently pursues such cure to a conclusion. If the City commits an Event of Default under this Agreement, VyStar shall have, in addition to the remedies expressly provided herein, all remedies allowed by law or equity; provided, however, that in no event shall the City be liable to VyStar for any punitive, speculative, or consequential damages of any kind, and notwithstanding anything herein, in no event shall the City be liable for any costs or damages exceeding the maximum indebtedness amount described in Section 1.4 for any and all City obligations at issue.

Article 6.
GENERAL PROVISIONS

6.1 **Non-liability of City Officials.**

No member, official or employee of the City shall be personally liable to VyStar or to any Person with whom VyStar shall have entered into any contract, or to any other Person, in the event of any default or breach by the City, or for any amount which may become due to VyStar or any other Person under the terms of this Agreement.

6.2 **Force Majeure.**

No party to this Agreement shall be deemed in default hereunder where such a default is based on a delay in performance as a result of war, insurrection, strikes, lockouts, riots, floods, earthquakes, fires, casualty, acts of God, acts of public enemy, epidemic, quarantine restrictions, freight embargo, shortage of labor or materials, interruption of utilities service, lack of transportation, severe weather and other acts or failures beyond the control or without the control of any party; provided, however, that the extension of time granted for any delay caused by any of the foregoing shall not exceed the actual period of such delay, and in no event shall any of the foregoing excuse any financial liability of a party.

6.3 **Offset.**

City shall have the right to offset any amount owed by VyStar under or in connection with this Agreement against any payments owed by City under this Agreement. Such offsets shall be in addition to any other rights or remedies available under this Agreement and applicable law.

6.4 **Notices.**

All notices to be given hereunder shall be in writing and personally delivered or sent by registered or certified mail, return receipt requested, or delivered by an air courier service utilizing return receipts to the parties at the following addresses (or to such other or further addresses as the parties may designate by like notice similarly sent) and such notices shall be deemed given and received for all purposes under this Agreement three (3) business days after the date same are deposited in the United States mail if sent by registered or certified mail, or the date actually received if sent by personal delivery or air courier service, except that notice of a change in address shall be effective only upon receipt.

6.5 **Time.**

Time is of the essence in the performance by any party and all grant recipients of their obligations hereunder.

6.6 **Entire Agreement.**

This Agreement constitutes the entire understanding and agreement between the parties and supersedes all prior negotiations and agreements between them with respect to all or any of the matters contained herein.

6.7 **Amendment.**

This Agreement may be amended by the parties hereto only upon the execution of a written amendment or modification signed by the parties.

6.8 **Waivers.**

Except as otherwise provided herein, all waivers, amendments or modifications of this Agreement must be in writing and signed by all parties. Any failures or delays by any party in insisting upon strict performance of the provisions hereof or asserting any of its rights and remedies as to any default shall not constitute a waiver of any other default or of any such rights or remedies. Except with

AMERICAN OVERSIGHT

respect to rights and remedies expressly declared to be exclusive in this Agreement, the rights and remedies of the parties hereto are cumulative, and the exercise by any party of one or more of such rights or remedies shall not preclude the exercise by it, at the same or different times, of any other rights or remedies for the same default or any other default by any other party.

6.9 **Indemnification.**

VyStar shall indemnify, hold harmless and defend the City from and against, without limitation, any loss, claim, suit, action, damage, injury, liability, fine, penalty, cost, and expense of whatsoever kind or nature (including without limitation court, investigation and defense costs and reasonable expert and attorneys' fees and costs) related to any suits and actions of any kind brought against the City or other damages or losses incurred or sustained, or claimed to have been incurred or sustained, by any person or persons arising out of or in connection with any negligent act, error or omission, recklessness or intentionally wrongful conduct on the part of VyStar or those under its control that causes injury (whether mental or corporeal) to persons (including death) or damage to property, whether arising out of or incidental to VyStar's performance under this Agreement or relating to the Program, except to the extent cause by the sole negligence of the City. Nothing contained in this paragraph shall be construed as a waiver, expansion or alteration of the City's sovereign immunity beyond the limitations stated in Section 768.28, Florida Statutes.

This indemnification shall survive the expiration or termination (for any reason) of this Agreement and remain in full force and effect. The scope and terms of the indemnity obligations herein described are separate and apart from, and shall not be limited by any insurance provided pursuant to this Agreement or otherwise. The term "City" as used in this Section 6.9 shall include all City's members, officers, officials, employees and agents.

6.10 **Severability.**

The invalidity, illegality or unenforceability of any one or more of the provisions of this Agreement shall not affect any other provisions of this Agreement, but this Agreement will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

6.11 **Compliance with State and Other Laws.**

In the performance of this Agreement, VyStar must comply with any and all applicable federal, state and local laws, rules and regulations, as the same exist and may be amended from time to time. Such laws, rules and regulations include, but are not limited to, Chapter 119, Florida Statutes (the Public Records Act) and Section 286.011, Florida Statutes, (the Florida Sunshine Law). If any of the obligations of this Agreement are to be performed by a subcontractor, the provisions of this Section shall be incorporated into and become a part of the subcontract.

6.12 **Non-Discrimination Provisions.**

In conformity with the requirements of Section 126.404, *Ordinance Code*, VyStar represents that it has adopted and will maintain a policy of non-discrimination against employees or applicants for employment on account of race, religion, sex, color, national origin, age or handicap, in all areas of employment relations, throughout the term of this Agreement. VyStar agrees that, on written request, it

AMERICAN OVERSIGHT

will permit reasonable access to its records of employment, employment advertisement, application forms and other pertinent data and records, by the Executive Director of the Human Rights Commission, or successor agency or commission, for the purpose of investigation to ascertain compliance with the nondiscrimination provisions of this Chapter 126, Part 4 of the *Ordinance Code, provided however*, that VyStar shall not be required to produce for inspection records covering periods of time more than one (1) year prior to the day and year first above written. VyStar agrees that, if any of its obligations to be provided pursuant to this Agreement are to be performed by a subcontractor, the provisions of this Section 6.12 shall be incorporated into and become a part of the subcontract.

6.13 **Contingent Fees Prohibited.**

In conformity with Section 126.306, *Ordinance Code*, VyStar warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for VyStar, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for VyStar, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement. For the breach or violation of these provisions, the City shall have the right to terminate this Agreement without liability and, at its discretion, to deduct from the contract price, or otherwise recover, the full amount of such fee, commission, percentage, gift or consideration.

6.14 **Ethics.**

VyStar represents that it has reviewed the provisions of the Jacksonville Ethics Code, as codified in Chapter 602, *Ordinance Code*, and the provisions of the Jacksonville Purchasing Code, as codified in Chapter 126, *Ordinance Code*.

6.15 **Conflict of Interest.**

The parties will follow the provisions of Section 126.110, *Ordinance Code* with respect to required disclosures by public officials who have or acquire a financial interest in a bid or contract with the City, to the extent the parties are aware of the same.

6.16 **Public Entity Crimes Notice.**

In conformity with the requirements of Section 126.104, *Ordinance Code* and Section 287.133, Florida Statutes, the parties agree as follows:

The parties are aware and understand that a person or affiliate who has been placed on the State of Florida Convicted Vendor List, following a conviction for a public entity crime, may not submit a bid on a contract to provide any goods or services to a public entity; may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity, in excess of $35,000.00, for a period of thirty-six (36) months from the date of being placed on the Convicted Vendor List.

AMERICAN OVERSIGHT

6.17 **Survival.**

Any obligations and duties that by their nature extend beyond the expiration or termination of this Agreement shall survive the expiration or termination of this Agreement and remain in effect. Without limiting the foregoing, all obligations for the payment of fees or other sums accruing up to the expiration or termination of this Agreement and all provisions relating to the City's right to conduct an audit shall survive the expiration or termination of this Agreement.

6.18 **Incorporation by Reference.**

All exhibits and other attachments to this Agreement that are referenced in this Agreement are by this reference made a part hereof and are incorporated herein.

6.19 **Order of Precedence.**

In the event of any conflict between or among the provisions of this Agreement and those of any exhibit attached hereto or of any amendment, the priority, in decreasing order of precedence shall be: 1) any fully executed amendment; 2) provisions in this Agreement; and 3) exhibits to this Agreement.

6.20 **Counterparts.**

This Agreement may be executed in several counterparts, each of which shall be deemed an original, and all of such counterparts together shall constitute one and the same instrument. Execution by electronic means and delivery of a counterpart by electronic means shall be valid for all purposes.

6.21 **Independent Contractor.**

In the performance of this Agreement, VyStar will be acting in the capacity of an independent contractor and not as an agent, employee, partner, joint venturer or association of the City. VyStar and its employees or agents shall be solely responsible for the means, method, technique, sequences and procedures utilized by VyStar in the performance of this Agreement.

6.22 **Retention of Records/Audit**

VyStar agrees:

(a) To establish and maintain books, records and documents (including electronic storage media) sufficient to reflect all income and expenditures of funds provided by the City under this Agreement.

(b) To retain all client records, financial records, supporting documents, statistical records, and any other documents (including electronic storage media) pertinent to this Agreement for a period of six (6) years after completion of the date of final payment by the City under this Agreement. If an audit has been initiated and audit findings have not been resolved at the end of six (6) years, the records shall be retained until resolution of the audit findings or any litigation which may be based on the terms of this Agreement, at no additional cost to the City.

AMERICAN OVERSIGHT

(c) Upon demand, at no additional cost to the City, to facilitate the duplication and transfer of any records or documents during the required retention period.

(d) To assure that these records shall be subject at all reasonable times to inspection, review, copying, or audit by personnel duly authorized by the City, including but not limited to the City Council auditors.

(e) At all reasonable times for as long as records are maintained, upon at least thirty (30) days prior written notice to VyStar, to allow persons duly authorized by the City, including but not limited to the City Council auditors, full access to and the right to examine any of VyStar's contracts and related records and documents, regardless of the form in which kept.

(f) To ensure that all related party transactions are disclosed to the City.

(g) To include the aforementioned audit, inspections, investigations and record keeping requirements in all subcontracts and assignments of this Agreement.

(h) Upon at least thirty (30) days prior written notice to VyStar, to permit persons duly authorized by the City, including but not limited to the City Council auditors, to inspect and copy any records, papers, documents, facilities, goods and services of VyStar which are relevant to this Agreement, and to interview any employees and subcontractor employees of VyStar to assure the City of the satisfactory performance of the terms and conditions of this Agreement. Following such review, the City will deliver to VyStar a written report of its findings and request for development by VyStar of a corrective action plan where appropriate. VyStar hereby agrees to timely correct all deficiencies identified in the corrective action plan.

(i) Additional monies due as a result of any audit or annual reconciliation shall be paid within thirty (30) days of date of the City's invoice.

6.23 **Exemption of City.**

Neither this Agreement nor the obligations imposed upon the City hereunder shall be or constitute an indebtedness of the City within the meaning of any constitutional, statutory or charter provisions requiring the City to levy ad valorem taxes nor a lien upon any properties of the City. Payment or disbursement by the City of any loan or grant amount hereunder is subject to the availability of lawfully appropriated funds. If funds are not available pursuant to a lawful appropriation thereof by the City Council, this Agreement shall be void and the City shall have no further obligations hereunder.

6.24 **Parties to Agreement; Successors and Assigns.**

This is an agreement solely between the City and VyStar. The execution and delivery hereof shall not be deemed to confer any rights or privileges on any person not a party hereto. This Agreement shall be binding upon VyStar and VyStar's successors and assigns, and shall inure to the benefit of the City and its successors and assigns. However, VyStar shall not assign, transfer or encumber its rights or obligations hereunder or under any document executed in connection herewith, without the prior written

AMERICAN OVERSIGHT

consent of the City, which consent may be withheld in the sole discretion of the City for any reason or no reason.

6.25 **Venue; Applicable Law.**

The rights, obligations and remedies of the parties specified under this Agreement shall be interpreted and governed in all respects by the laws of the State of Florida. All legal actions arising out of or connected with this Agreement must be instituted in the Circuit Court of Duval County, Florida, or in the Federal District Court for the Middle District of Florida, Jacksonville Division. The laws of the State of Florida shall govern the interpretation and enforcement of this Agreement.

6.26 **Civil Rights.**

VyStar agrees to comply with all of the terms and requirements of the Civil Rights Act of 1964, as amended, and the Civil Rights Act of 1968, as amended, and the antidiscrimination provisions of Chapter 126, Part 4, of the City Ordinance Code, and further agrees that in its operation under this Agreement it will not discriminate against anyone on the basis of race, color, age, disability, sex or national origin.

6.27 **Further Assurances.**

VyStar will, on request of the City,

(a) promptly correct any defect, error or omission herein or in any document executed in connection herewith (collectively the "Program Documents");

(b) execute, acknowledge, deliver, procure, record or file such further instruments and do such further acts deemed necessary, desirable or proper by the City to carry out the purposes of the Program Documents and to identify and subject to the liens of the Program Documents any property intended to be covered thereby, including any renewals, additions, substitutions replacements, or appurtenances to the subject property;

(c) execute, acknowledge, deliver, procure, file or record any documents or instruments deemed necessary, desirable or proper by the City to protect the liens or the security interest under the Program Documents against the rights or interests of third persons; and

(d) provide such certificates, documents, reports, information, affidavits and other instruments and do such further acts deemed necessary, desirable or proper by the City to carry out the purposes of the Program Documents and this Agreement.

6.28 **Exhibits.**

In the event of a conflict between any provisions of this Agreement and any exhibit attached to or referenced in this Agreement, the provisions of this Agreement shall govern.

AMERICAN OVERSIGHT

6.29 **Construction.**

All parties acknowledge that they have had meaningful input into the terms and conditions contained in this Agreement. For item 1, the documents I have in my files are attached to the ordinances that went through council and may be accessed electronically at https://jaxcityc.legistar.com/Legislation.aspx. The requestor should type 2020-0201 and 2020-0235 in the search field. All documents are downloadable from there. Also in progress is CM LeAnna Cumber's bill and CM Garrett Dennis' bill, but I defer to Cheryl Brown on those ordinance numbers as such would have relevant documentation attached.

John Sawyer, can you please attach the FIS and VyStar agreements as those are also likely responsive?

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation

AMERICAN OVERSIGHT

certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002948

mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in ~~76~~Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family ~~home~~residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002949

amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period.* The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002973

certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002974

mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-002975

amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Temporary Moratorium Imposed and Duration of Moratorium as to certain Building Inspection Permit Fees imposed by Section 320.402 (Application for Permit) and Section 320.409 (Schedule of Permit Fees), each under Part 4 (Permits), Chapter 320 (General Provisions). sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement, certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. —The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. —The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. —Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the

AMERICAN OVERSIGHT

one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in ~~76~~Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. ~~—~~Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family ~~home~~residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period

AMERICAN OVERSIGHT

within which the final construction and/or engineering plans were approved. —In the event a certificate of occupancy or final inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

thereof, a copy of written documentation of all transfers of funds made during the applicable fiscal year.

Section 6. Mortgage, Rent and Utility Relief Program grants approved. By this Ordinance, the City is authorized and directed to issue to individual residents of Duval County the Mortgage, Rent and Utility Relief Program Grants (the "MRU Grants") to residents of Duval County in the amount of $1,000 to approved applicants in accordance with the criteria attached hereto as **Exhibit 2** and incorporated herein by reference. The criteria include the requirements that: (i) the applicant reside in Duval County; (ii) have an annual household income of $75,000 or lower at the time of application; (iii) must document employment and salary level as of February 29, 2020; (iv) applicant shall demonstrate that since February 29, 2020 he/she has experienced a reduction in work hours or pay of 25% or more as a direct result of the COVID-19 crisis; and (v) the applicant must sign an affidavit certifying the foregoing eligibility criteria.

Section 7. Section 655.503 (Mobility fee requirement, certificate, application process and calculation) Fees Temporarily Waived.

(a) *Six-Month Waiver Period*. The provisions of Chapter 655 (Concurrency and Mobility Management System), Part 5 (Mobility Fee), Section 655.503 (Mobility fee requirement, certificate, application process and calculation) which require the payment of the mobility fee prior to approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction, are hereby temporarily waived for the earlier of six (6) months from the effective date of this Ordinance, or such shorter time frame if sooner repealed by Council (the "Six-Month Waiver Period"). In all other respects, Section 655.503 (Mobility fee requirement,

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-003027

certificate, application process and calculation) shall remain in full force and effect. Application for mobility fee calculation certificate, and mobility fee calculation, are still required, and applicants must demonstrate the number of jobs created or retained in connection with the project. The application form for the waiver is attached hereto as **Exhibit 3** and incorporated herein by this reference. The temporary waiver will only be applicable to those mobility fees set forth in a mobility fee calculation certificate issued by the City within the Six-Month Waiver Period. Thus, during the Six Month Waiver Period, and notwithstanding anything to the contrary in Chapter 655, Ordinance Code, approval of final construction and/or engineering plans under Chapter 320, Ordinance Code, or building permits for single family residential construction may be obtained without the obligation to pay the mobility fee set forth in the mobility fee calculation certificate, and construction may thereafter commence.

(b) *Additional Three-Month Partial Waiver Period.*

An additional three months, providing a waiver of fifty percent (50%) of the calculated mobility fee, is hereby allowed for projects whose final construction and/or engineering plans under Chapter 320, or building permits for single family residential construction, are not ready for approval within the Six Month Waiver Period, but are eligible for approval within an additional three months after the termination of the Six Month Waiver Period (the "Additional Three Month Waiver Period"). Upon payment of 50% of the mobility fee set forth in a mobility fee calculation certificate, the project may be approved and thereafter construction may commence. Upon the termination of the Additional Three-Month Waiver Period, mobility fees shall be charged at the one hundred percent (100%) rate as currently expressed in Section 655.503, Ordinance Code.

Section 8. Requirement for Certificate of Occupancy by Time Certain. The waiver of the requirement for payment of a mobility fee for six months, or partial payment for an additional three months is intended to assist the development of projects that would have otherwise been initiated and constructed but for the COVID-19 emergency. Accordingly, the waivers authorized in Section 7 above are intended to be tied to the completion of the construction project and obtaining a Certificate of Occupancy (or Final Inspection, as applicable) for that project within a reasonable amount of time. Because of the difference in complexities of development of various types of projects, the following time frames are allowed within which a Certificate of Occupancy or Final Inspection must be obtained, or else the full amount of the mobility fee, as calculated in the mobility fee calculation certificate, shall become immediately due and payable.

(a) Single family residential homes and non-single family residential projects that have a value of less than $1,000,000.00 - no later than twenty-four (24) months from the effective date of this Ordinance.

(b) Non-single family residential projects that exceed a value of $1,000,000.00 - no later than thirty-six (36) months after the effective date of this Ordinance.

In determining the value, the project value may include all phases of development associated with the final construction and/or engineering plans or non-single family residential building permits even if not obtained within the same six month temporary partial waiver rate period or within the overall temporary partial waiver period. However, the mobility fee waiver rate percentage will be determined based upon the temporary/partial waiver rate period within which the final construction and/or engineering plans were approved. In the event a certificate of occupancy or final

AMERICAN OVERSIGHT

FL-DUVAL-20-0723-A-003029

inspection, as applicable, is not obtained within the time frames set forth in subsections (a) and (b) of this Section 8, the entire amount of the mobility fee (less any portion previously paid, if any), as calculated in the mobility fee calculation certificate, shall become immediately due and payable and no certificate of occupancy or final inspection shall be approved until such payment is made in full.

Unprecedented Policy Support + Progress on Pandemic Containment = Hopes for Recovery

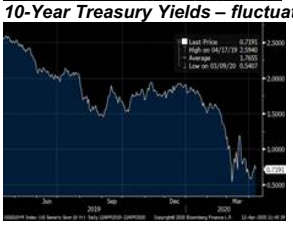
The thunderous fiscal and monetary firepower being deployed to get the US and global economy through the worst days of the pandemic is bolstering investor sentiment, alongside encouraging indications from the public health front, facilitating a meaningful rally in risk assets this past week – but the trajectory of the recovery remains highly uncertain.

MPP view: With the Fed going further than it has ever gone in the past to support not only financial markets but real economic activity, and Congress and the Trump administration already in negotiations over augmentations of CARES Act and its likely $1+ trillion sequel, plus some signs of improving infection and mortality rates in key Covid-19 hotspots, investors are now decisively shifting their focus onto the prospects for a recovery over the coming months.

Our base case continues to be a relatively longer "tail" of the pandemic (though we hope we are wrong), particularly as the US lacks the kind of robust symptom tracking and contact tracing capabilities used to good effect in other countries. A lengthier timeline for recovery, or worse a secondary infection spike and return to lockdown, would be disruptive for financial markets that are pricing in a swift rebound. As such, we continue to believe that government planning for medium to longer-term economic impairment is essential and should include plans and groundwork for a major federal infrastructure push if needed.

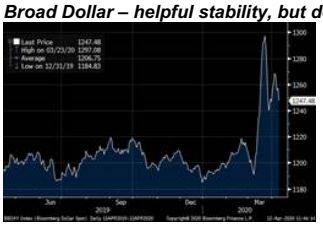
- On Thursday, the Fed rolled out its most expansive support programs yet. Chair Powell stated that the central bank is committed to using all its powers "forcefully, pro-

AMERICAN OVERSIGHT



actively, and aggressively until we are confident that we are solidly on the road to recovery."

- The new Fed programs will total up to $2.3 trillion and include liquidity support for the ongoing Payroll Protection Program (PPP), a new Municipal Liquidity Facility that will offer up to $500 billion in lending to states and municipalities, expand three existing credit facilities aimed at increasing credit to households and businesses and expand the type of collateral they will accept through the Term Asset-backed Loan Facility. Furthermore, the Secondary Market Corporate Credit Facility will lend, on a recourse basis, to a special purpose vehicle (SPV) that will purchase corporate debt issued by eligible issuers, including individual corporate bonds as well as High Yield ETFs.
- The Fed's Main Street loans will be a minimum of $1 mil and a maximum of either $25 million or an amount that "when added to the Eligible Borrower's existing outstanding and committed but undrawn debt, does not exceed four times the Eligible Borrower's 2019 earnings before interest, taxes, depreciation, and amortization," whichever is less. Rates will be equal to the Fed's Secure Overnight Financing Rate, currently 0.01%, plus 250-400 basis points with a four-year maturity. A special-purpose vehicle that Fed created jointly with the Treasury Department will purchase 95% of the loan while the financing institution would hold the other 5%. The Fed will purchase up to $600 billion in loans
- Fiscal policy support is also set to expand, albeit at a somewhat slower pace than the nimbler Fed The Treasury Department asked Congress last week to commit another $250 billion to replenish the PPP, not even a week into the program. However, Senate Minority Leader Schumer and House Speaker Pelosi are seeking inclusion of funds to provide additional relief to hospitals and state and local governments, stalling the expedited top-up of the program. Meanwhile, the CARES Act 2.0 is currently on the drawing board, with Speaker Pelosi telling members to expect the bill to come to the floor around mid-May. Partisan wrangling is clearly intensifying but over allocation not size of the bills.
- The economic damage from the pandemic appears to be even worse than expected, but investors are less concerned about the depth of the 2Q trough than about the prospects for a 3Q recovery. A grim tally of 6.6 million Americans filed for initial unemployment benefits in the week ended April 4th from the previous week's record high of 6.87 million, coming in well above expectations of 5.25 million. The latest increase brings the total reported in the last three weeks close to 17 million, as most states have shut down non-essential businesses. These last few weeks' number may even be understated as many states are struggling to process high volumes of claims. The $2.2 trillion CARES Act increased payments for the unemployed to $600 per week for up to four months.
- The primary risk is now centered around the potential for a longer "tail" of the pandemic even after infection rates peak Dispiritingly, Singapore ordered most business to shut and schools to shift online last week, reversing their reopening of the economy, as it faces a rise in coronavirus cases after it beat back the first wave of infections. Investors need to remain wary of this "long tail" risk, particularly if the US equity market continues to rip higher on the basis of recovery expectations that may ultimately prove to be misplaced. NY Governor Cuomo calls the peaking of cases the "end of the beginning" while the UK's NHS Medical Director sees containment efforts as a "marathon" not a sprint. Reopening the economy will be a (potentially long) process, not an event.



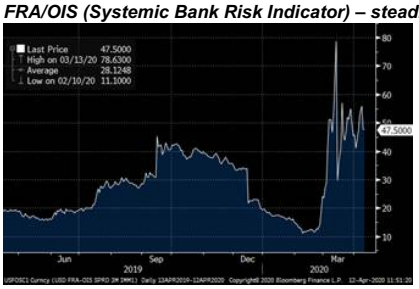
S&P 500 – retraced half of its decline, playing for recovery

10-Year Treasury Yields – fluctuating near record lows

Broad Dollar – helpful stability, but depreciation would help

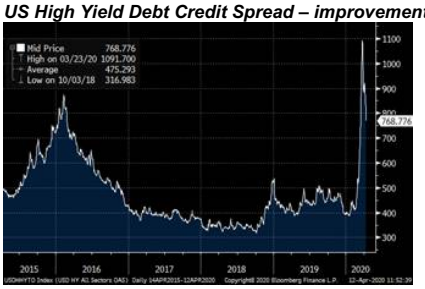
Copper/Gold Ratio – a proxy for real economic traction (copper up) versus easy money stimulus (gold up), with the historically low level indicating that reflationary dynamics are predominating over real activity

The Fed and Global Central Banks Tamp Down Liquidity Strains and Systemic Risks



Unprecedented monetary support appears to have achieved its immediate aims of settling down the most acute liquidity and systemic risks, though the slower-moving solvency crisis risks tipping financial markets back into systemic shock over the coming months.

MPP view: Our optimism over the past few weeks that the worst of the acute liquidity crisis phase was over has been borne out, leaving policymakers to face a slower-moving but equally severe solvency crisis, as they scramble to keep US companies and households on life support during the coming weeks and months.



AMERICAN OVERSIGHT

- The barrage of Fed support efforts, including unlimited purchases of Treasury securities and agency mortgage-backed securities, increasing purchases of agency commercial mortgage-backed securities, balance sheet relief for banks, and establishment of facilities to support credit to large employers, consumers, businesses, and municipalities, have been deployed to good effect.
- Both investment grade and speculative grade credit are behaving more normally, although both remain at stressed levels. Meanwhile, analysts continue to cite diminished evidence of strains in offshore dollar funding markets, while short-term funding (repo), interbank markets, municipal bonds, and commercial paper are also said to be functioning more smoothly.

FRA/OIS (Systemic Bank Risk Indicator) – steadier but still elevated, though well below GFC level

US High Yield Debt Credit Spread – improvement from mid-March wides continues with Fed help

Oil Prices Rebound as Price War Ends and Further Output Cuts Begin

Détente between Russia and Saudi and a renewed OPEC+ output cut agreement (assuming it is finalized today) are supportive for prices but no magic bullet, as they are unlikely to fully offset the massive pandemic-related demand collapse.

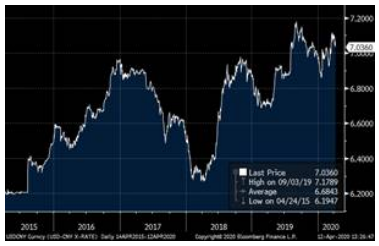
MPP view: This is constructive progress and we expect a deal to be finalized imminently. Even if oil prices don't shoot higher, the alternative would be disruptive downside into the teens of dollars per barrel.

- After revisiting nearly two-decade lows in late March, international benchmark Brent crude and US benchmark WTI prices have climbed $9 per barrel and $3 per barrel, respectively, to $31.48 and $22.76, in a choppy uptrend as traders have weighed production cuts versus crashing demand.
- After Thursday's virtual meeting, OPEC, Russia, and other major producers (collectively known as OPEC+) cut a deal to reduce supply by 10 million barrels per day over the next two months (Mexico has held out), with Russia and Saudi agreeing to match each other's reduced production levels.
- Saudi is also hosted a G-20 energy ministers' conference call on Friday, but it seems as though the commitment for 5 million barrels per day in output curbs that the Kingdom was seeking will not be agreed. Efforts are continuing to end Mexico's holdout, with the US stepping up its prospective cuts to compensate.
- Still, analysts question whether even these significant production cuts can balance the dramatically oversupplied oil market, which has seen demand collapse amid the coronavirus pandemic.

Notes on China

Last week, we noted that merging markets (EM) face a daunting set of challenges from the pandemic – one of the other problems for EM has been the tepid official economic support being deployed in China.

MPP view: China's fiscal and monetary stimulus efforts were a key pillar of support for the global economic rebounds that began in 2009 and 2016. This time, however, Beijing has been seemingly far less aggressive in boosting its economy, leading to speculation as to what might be different this time. We focus on the combination of bailout fatigue, already relatively high indebtedness/credit dependence, and the uncertain scope of the pandemic's economic impact as keeping Beijing's fiscal and monetary responses in check.



- This current episode may not be comparable to 2008/09, when China responded with a dramatic expansionary credit package, given the different political climate and leadership as well more volatile price action in Chinese assets at that time.
- In general, President Xi's regime has employed an incrementally lighter touch to its stimulus efforts over the past decade. Earlier in Xi's tenure, during the 2015/16 rupture of the Chinese speculative bubble, there was a relatively more robust countercyclical support from Beijing, which helped underwrite the global synchronized recovery in 2017.
- In comparison, the Chinese fiscal and monetary expansions in response to the Trump administration trade war hawkishness were relatively modest, which saw the renminbi stay in a weaker equilibrium and the Shanghai Composite persistently underperformed.
- Although Covid-19 has obviously impacted China's economy, the effects on Chinese asset prices have not been as severe as some of the recent episodes of stress, in part because they were already at relatively depressed levels (see charts below).
- The lack of stress in Chinese markets has probably helped allow Beijing to exercise restraint on stimulus measures, which may not do much good anyway with Covid-19 still impeding fully normalized economic activity. There has not been a recovery for equities as no more than 60% of production has resumed in mainland China and there is outstanding uncertainty on the supply chain effects on future Chinese orders. Even in China, which has imposed draconian controls, the outbreak has a "long tail."

Shanghai Composite – it hurts more to fall off the roof than the curb

Renminbi – already weak versus the dollar after the trade war left it battered

Mr.Grieve,

Brandi's Question #1: How much is the total that has been set aside (or planned to be spent in the future) for this loan program?

Grieve's Response: *$26 million*

Brandi's Question #1b: Can you help me understand and better the justification tying up such a large portion of small business relief funding for such a small number of businesses. A reason other than potential employee retention as no part of the loan mandates they businesses keep employees.

Brandi's Question #2: How much of that amount above is originally sourced from the $146,550,942.50M Cares Act Funding that Duval County received from the U.S. Dept. of Treasury?

Grieve's Response: *$26 million*

Brandi's Question #2b: Did the Treasury specify a timeline for which Duval County had to spend the relief funds? Could you tell me how the City is justifying the monies sitting in an account currently not being spent or being spent at such a slow rate potentially over the years?

Brandi's Question #3: There will be a lot of leftover money from businesses who never accrue interest or even apply for 10% principal forgiveness for that matter? What do you do with that money you were holding on to, to pay that business's loan interest?

Grieve's Response: If they never accrue interest, it means that they never took a draw on their approved loan amount. In that case, they simply received the $1,000 upfront grant, and they keep that.

Brandi's Question #3b: I think you misunderstood my question, Im not asking on behalf of the applicant I want to know what the city is doing with that money they intended on using to pay the interest? For example about 15 of my business owner friends and I applied for the loan with no intentions on needing it.

We only did to get the $1000 grant you get right when you apply. While its a nice psychological safety net, we will likely not use that advance. Does that mean you are holding what could be our potential interest in an account, and it won't be used?

Brandi's Question #3c Is the $26M physically in possession of the city? Or is it something the city has to first spend then apply for reimbursement from the feds? The reason I'm asking is the $26 M sitting in even the basic 1.5% interest account could accrue quite a bit of interest.

Is Brandi's Question #3d If this is real money sitting in city accounts, how is that interest categorized? Is it automatically fall into federal relief funds, or is it put in a general city account? I'm asking this because I'm genuinely trying to understand the city's perspective. Like are these funds generating so much long term interest, its long term contribution/ value will outweigh the hurt or loss of a few 1000s resilient business owners who will likely survive long term anyways?

INVOICE QUESTIONS:

What are the loan fees? I only see the $250 underwriting fees are there more?

RESPONSE: The $250 is the loan admin fee, and that is being covered by the City. Any other fee questions would have to be answered by VyStar as we would not be the authority on any ancillary banking fees that they may have, such as lost check fees, wire fees, overnight mail fees, and such.

AMERICAN OVERSIGHT

Brandi's Question #4a: The grants on the invoice are only the $1000 grants businesses are given upon receiving the loan, correct?

Grieve's Response: No. The interest payments are also considered grants, as are the principal pay downs at each anniversary should the business qualify.

Brandi's Question #4b: I think you misunderstood these two questions pertain to the invoice's line-item.See attached breakdown to further understand

Brandi's Question #5a: So based on these numbers, 970 businesses have received funding so far?

Grieve's Response: 1152 business has been approved for total approved loan amounts of $39 million, as reported to me by VyStar on Friday evening.

Brandi's Question #5b: The attached invoice was as of last Wednesday, so obviously, our numbers will not be the same. However, I am trying to calculate the invoice itself-—the numbers aren't making sense to the totals.

NEW QUESTION/ REQUEST: Of this $26M, the City has only spent $1.2M. This was this high because of "once-off" fees (bank fees, $1000 sign-on grants) which the city wont be paying in the coming months.

Only 1 % of Jacksonville's businesses got this loan and MAY or MAY NOT even use your grant.

This means millions of dollars are or could potentially sit there.

Is there a point and time when you can consolidate somehow? Or evaluate which of the businesses will even use the advance?

Maybe send the interest you were holding in their name over to make more cash grants for business owners?

Are there any options to get some of these funds out of the loan program and in the hands of small businesses?

THE WHITE HOUSE

Florida State and Local Partners,

Thank you for your continued efforts in the whole-of-America approach to respond to and mitigate the impact of COVID-19 (coronavirus) for the benefit of the people of Florida. As you know, our citizens are best served when response is locally executed, State managed and Federally supported. The Federal government scales best practices, coordinates key priorities, provides regulatory flexibilities, guidance, and key resources to supplement, but not replace, private sector, local, and State resources. On January 31, the Trump Administration **declared** the coronavirus a public health emergency. The declaration set in motion the Trump Administration's whole-of-government approach to protecting the health of Americans in response to the coronavirus. Working in partnership with State, Local, and Tribal leaders, the President and Administration have and continue to leverage all resources to respond to the coronavirus, bringing together government and private industry in a collaborative response.

Attached, please find a fact sheet (***The Trump Administration Is Supporting the People of Florida***) overviewing Federal coordination and assistance provided to the State of Florida and the people of Florida to combat the coronavirus. The attached information is bolstered by hundreds of additional actions by the Federal government to help the people of Florida in partnership with State and local leaders. The White House Office of Intergovernmental Affairs (WH IGA) will continue to share pertinent information as it becomes available. Please do not hesitate to reach out to our office if we can be of assistance. As a reminder, WH IGA is the primary liaison between the White House and the country's State and local elected officials and Tribal Governments.

Sincerely,

The White House Office of Intergovernmental Affairs

William F. Crozer

The Trump Administration Is Supporting the People of Florida

"We have the best doctors, the best military leaders, and the best logistics professionals anywhere in the world. And we're orchestrating a massive Federal response unlike anything our country has ever seen."
– President Donald J. Trump

Overview: Response and recovery efforts are locally executed, State managed, and Federally supported. Successful emergency management requires nationwide cooperation and unity of effort, combining the strength and ingenuity of our citizens and private sector with a sweeping, all-inclusive, and whole-of-government response. The below is a partial overview of Federal assistance provided to the State of Florida and the people of Florida to combat the Novel Coronavirus (COVID-19). The information is bolstered by hundreds of additional actions by the Federal government to help the people of Florida. Implementation of the CARES Act is ongoing and will also bring additional support to Florida. President Donald J. Trump and Vice President Mike Pence have appreciated the strong State-Federal partnership with Governor Ron DeSantis.

Supportive Actions by President Donald J. Trump:

- **President Trump Declares a National Emergency**: On March 13, President Trump **declared** a national emergency concerning COVID-19. The emergency declaration authorized direct Federal assistance, temporary facilities, commodities, equipment, and emergency operation costs for all States, including Florida, pursuant to section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act.

- **Florida's Major Disaster Declaration**: On March 23, Governor DeSantis submitted a major disaster declaration request to the Federal Emergency Management Agency (FEMA). On March 25, President Trump **approved** the request declaring a major disaster in the State of Florida and ordered Federal assistance to supplement State, local, and tribal recovery efforts in the areas affected by COVID-19. For the first time in our Nation's history, every State and territory has a presidential disaster declaration at the same time.

- **Historic Economic Relief**: On March 27, President Trump signed the *Coronavirus Aid, Relief, and Economic Security (CARES) Act* into law. All—

Let me begin with a disclaimer, in ordinary times I would not circulate a draft of legislation in this condition for review, but in the interests of time please find for review a partial draft of the above legislation. Please focus your attention on the title to the bill only (the all caps section at the beginning) to confirm it captures the appropriations, programs and waivers desired as those terms dictate as to the body of the legislation. You can review the body of the legislation as well obviously, but be advised that is a work in progress and there is still holdover language unrelated to this bill, and in many areas there are only placeholder section references. I will work on the body of the legislation this weekend and forward a draft of the entire bill for review before Monday.

Please do not hesitate to contact me with any comments or concerns regarding the title over the weekend.

expected to be particularly active during the second quarter of 2019 (beginning April 1, 2019) due to advertising, real estate, campaign and informative signs increasing with the advent of spring. If this legislation traveled through the normal process as filed, the moratorium would not be approved in time to apply during first month of the quarter. The timing of the moratorium will also affect the amount of data received and the enforcement during an extremely active period of time. Review of the data during the second quarter is the most beneficial in order to obtain a true measurement of sign activity in the right-of-way.

Section 17. Effective Date. This ordinance shall become effective upon signature by the Mayor or upon becoming effective without the Mayor's signature.
