--- Please respond above this line ---

April 15, 2020

Mr. Austin Evers
American Oversight
foia@americanoversight.org
VIA E-MAIL ONLY

Re: Public Information Request No. R004012

Dear Mr. Evers:

This e-mail is in response to your public information request to the Office of the Attorney General ("OAG"), received by the OAG on April 1, 2020.

The OAG has reviewed its files and has located the attached documents that are responsive to your request. Although the Public Information Act allows a governmental body to charge for copying documents, the attached documents are being provided to you at no charge.

If you have any questions, please contact me at publicrecords@oag.texas.gov.

Sincerely,

Marisol Bernal-Leon
Public Information Coordinator's Office
Office of the Attorney General

To monitor the progress or update this request please log into the [Public Records Center](#)

Attorneys General –

On **Wednesday, March 18, at 4:30 PM ET**, please join U.S. Surgeon General Jerome Adams and Senior Administration Officials for a briefing call on COVID-19 (coronavirus). Registration instructions are below. Please note that this is a principal-level call. Appropriate staff are also welcome.

Briefing Call Registration

Date: Wednesday, March 18

Time: 4:30 PM ET (please note time zone)

Call-In Registration: [CLICK HERE](#)

Note: You must RSVP to join the call. Upon successful registration, you will receive dial-in details to the email address you use to register. Note that multiple people cannot dial-in using the same registration information.

Press: Please note that this call is off-the-record and not intended for press purposes.

Below, please find additional information. We do want to highlight the recently released [*The President's Guidelines for America: 15 Days to Slow the Spread*](#). Also note that the CDC's official coronavirus website – www.coronavirus.gov – is the best resource for up-to-date information and guidance. The White House Office of Intergovernmental Affairs (WH IGA) will continue to share pertinent information as it becomes available. Please do not hesitate to reach out to our office directly if we can be of assistance. As a reminder, WH IGA is the primary liaison between the White House and the country's State and local elected officials and Tribal Governments.

Sincerely,

The White House Office of Intergovernmental Affairs

William F. Crozer
Special Assistant to the President/Deputy Director
White House Office of Intergovernmental Affairs

COVID-19: Background & Additional Information

<image002.jpg>

Background

Under the leadership of President Trump and Vice President Pence, the full weight of the U.S. Government is working to protect the health and safety of the American people. Since the beginning of the outbreak, President Trump has taken unprecedented steps – including prudent travel restrictions and an early containment strategy – to protect the health of Americans in response to the coronavirus. In January, the President formed a Coronavirus Task Force, led by Vice President Mike Pence and comprised of subject-matter experts, to organize a whole-of-government response ([**President Donald J. Trump Has Taken Unprecedented Steps to Respond To the Coronavirus and Protect the Health and Safety of Americans**](#)). The Coronavirus Task Force and broader Administration have and will continue to work with State-Local-Tribal officials and private sector and non-profit partners in preparing for and responding to the Coronavirus. ***It is important to note that at this time, the risk to the average American remains low. All agencies are working aggressively to monitor this continuously evolving situation and to keep our partners and the public informed.***

Up-To-Date Information

Recent Announcements

President Donald J. Trump Announces New Guidelines to Address COVID-19 – The President’s Guidelines for America: 15 Days to Slow the Spread

Monday, March 16, President Donald J. Trump announced new guidelines to address COVID-19, stop the spread, and protect health. *The President’s Coronavirus Guidelines for America: 15 Days to Slow the Spread* can be found [here](#). “My administration is recommending that all Americans, including the young and healthy, work to engage in schooling from home when possible, avoid gathering in groups of more than 10 people, avoid discretionary travel and avoid eating and drinking in bars, restaurants, and public food courts,” President Trump stated. “With several weeks of focused action, we can turn the corner and

turn it quickly -- a lot of progress has been made."

Coronavirus (COVID-19) Update: FDA Provides More Regulatory Relief During Outbreak, Continues to Help Expedite Availability of Diagnostics

As part of our ongoing and aggressive commitment to address the coronavirus outbreak, the FDA [updated](#) a policy originally issued on Feb. 29 on diagnostic testing for coronavirus (COVID-19) in order to achieve more rapid testing capacity in the U.S. The guidance provides more specific details for the laboratory and commercial manufacturer communities, including:

- <!--[if !supportLists]-->• <!--[endif]-->First, FDA is putting in place a policy for states to take responsibility for tests developed and used by laboratories in their states, similar to the action the FDA granted to the New York State Department of Health last week. States can set up a system in which they take responsibility for authorizing such tests and the laboratories will not engage with the FDA.
- <!--[if !supportLists]-->• <!--[endif]-->Second, FDA is expanding who the policy outlined in the Feb. 29 guidance applies to. The policy was originally applicable only to laboratories that are certified to perform high-complexity testing consistent with requirements under the Clinical Laboratory Improvement Amendments. Under the update published today, the agency does not intend to object to commercial manufacturers distributing and labs using new commercially developed tests prior to the FDA granting an EUA, under certain circumstances.
- <!--[if !supportLists]-->• <!--[endif]-->Finally, FDA's updated policy provides recommendations for test developers who may wish to develop serological tests for use during this coronavirus outbreak. Serological tests measure the amount of antibodies or proteins present in the blood when the body is responding to a specific infection.

DHS Issues Notice of Arrival Restrictions on China, Iran and Certain Countries of Europe

In furtherance of Presidential Proclamations [9984](#), [9992](#), [9993](#), and 9994, which bans the entry of non-U.S. citizens who are from or recently been in China, Iran, or certain European countries, the [Department of Homeland Security issued a Notice of Arrival Restrictions](#) requiring American citizens, legal permanent residents, and their immediate families who are returning home to the U.S. to travel through one of 13 airports upon arrival to the U.S., submit to an enhanced entry screening and self-quarantine for 14 days once they reach their final destination. More [here](#).

President Donald J. Trump Directs FEMA Support Under Emergency Declaration for COVID-19

The federal government continues to take aggressive and proactive steps to address the COVID-19 threat as the health and safety of the American people remain a top priority ([President Donald J.](#)

[Trump Has Mobilized the Full Resources of the Federal Government to Respond to the Coronavirus](#)). On Friday, March 13, President Trump [declared](#) a nationwide emergency pursuant to Sec. 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act”) ([Letter from President Donald J. Trump on Emergency Determination Under the Stafford Act](#)). This increases federal support to the Department of Health and Human Services (HHS) in its role as the lead federal agency for the ongoing COVID-19 pandemic response. As a result of the President’s decisive, unprecedented action, FEMA is directed to assist state, local, tribal, territorial governments and other eligible entities with the health and safety actions they take on behalf of the American public. FEMA actions will be in support of HHS and in coordination with state, tribal and territorial governments. Eligible emergency protective measures taken at the direction or guidance of public health officials in response to this emergency, and not supported by the authorities of another federal agency, will be reimbursed strictly under the FEMA Public Assistance program. FEMA assistance will be provided at a 75 percent Federal cost share. Reimbursable activities typically include emergency protective measures such as the activation of State Emergency Operations Centers, National Guard costs, law enforcement and other measures necessary to protect public health and safety. To note, the declaration does not make direct financial assistance available to individuals.. ***Municipalities and counties are encouraged to work directly with their local emergency management offices and through the State Emergency Management Agency for all requests for assistance.*** You can read more about the disaster recovery process [here](#).

Presidential Proclamation To Protect the Homeland from Travel-Related Coronavirus Spread

On Thursday, March 12, President Donald J. Trump signed a [Presidential Proclamation](#), which suspends the entry of most foreign nationals who have been in certain European countries at any point during the 14 days prior to their scheduled arrival to the United States. These countries, known as the Schengen Area, include: Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, and Switzerland. *This does not apply to legal permanent residents, (generally) immediate family members of U.S. citizens, and other individuals who are identified in the proclamation.*

HUD Releases Quick Guide to CDBG Eligible Activities to Support Infectious Disease Response

CDBG grantees should coordinate with local health authorities before undertaking any activity to support state or local pandemic response. Grantees may use Community Development Block Grant (CDBG) funds for a range of eligible activities that prevent and respond to the spread of infectious diseases such as the coronavirus

disease 2019 (COVID-19). The guide can be found [here](#).

SBA To Provide Disaster Loans for Small Businesses Impacted by Coronavirus (COVID-19)

On Thursday, March 12, SBA Administrator Jovita Carranza issued the following statement: “The President took bold, decisive action to make our 30 million small businesses more resilient to Coronavirus-related economic disruptions. Small businesses are vital economic engines in every community and state, and they have helped make our economy the strongest in the world. Our Agency will work directly with state Governors to provide targeted, low-interest disaster recovery loans to small businesses that have been severely impacted by the situation. Additionally, the SBA continues to assist small businesses with counseling and navigating their own preparedness plans through our network of 68 District Offices and numerous Resource Partners located around the country. The SBA will continue to provide every small business with the most effective and customer-focused response possible during these times of uncertainty.” SBA’s Economic Injury Disaster Loans offer up to \$2 million in assistance for a small business. These loans can provide vital economic support to small businesses to help overcome the temporary loss of revenue they are experiencing. More information can be found [here](#).

CDC to Award Over \$560 Million to State & Local Jurisdictions in Support of COVID-19 Response

The Department of Health and Human Services (HHS) is announcing another upcoming action by the Centers for Disease Control and Prevention (CDC) to provide resources to state and local jurisdictions in support of our nation’s response to the coronavirus disease 2019 (COVID-19). The \$8.3 billion dollar Supplemental passed by Congress included [statutory language](#) which prescribed the exact formula for disbursing the money: states will receive 90% of their [2019 CDC PHEP grants](#). This marks the first tranche of funding to states from the \$8.3 billion supplemental. Your state health officers are receiving a letter today from CDC outlining what is needed to receive the funding, essentially they need to submit a spend plan and they will receive guidance on what that spend plan should contain. More [here](#).

CDC Releases Mitigation Framework for States, Localities, and Communities

Protect yourself and your community from getting and spreading respiratory illnesses like coronavirus disease 2019. Everyone has a role to play in getting ready and staying healthy. CDC is aggressively responding to the global outbreak of COVID-19 and community spread in the United States. CDC’s all of community approach is focused to slow the transmission of COVID-19, reduce illness and death, while minimizing social and economic impacts. Framework includes: (i) Local Factors to Consider for Determining Mitigation Strategies, (ii) Community mitigation strategies by setting and by level of community transmission or impact of COVID-19, and (iii) Potential mitigation strategies for public health

functions. More [here](#).

White House Coronavirus Task Force Announces Community Mitigation Strategies for Seattle-King, Pierce, and Snohomish C, WA Santa Clara, CA and New Rochelle, NY

The White House Coronavirus Task Force has recommended community mitigation strategies for Seattle, Washington and Santa Clara County, California due to widespread transmission of coronavirus disease 2019 (COVID-19). These mitigation activities are designed to address the effects of COVID-19 on areas that are experiencing community spread. You can find the guidance for Seattle, Washington and Santa Clara, California [here](#). The Task Force also announced community mitigation strategies for New Rochelle, New York, which can be viewed [here](#).

Centers for Medicare & Medicaid Services (CMS) Nursing Home Guidance

As you know, nursing homes and their residents are vulnerable populations for COVID-19. This week, CMS released updated guidance for infection control and prevention of COVID-19 in Nursing Homes which can be found [here](#) (3/9). The Press Release can be found [here](#) and all CMS guidance related to COVID-19 can be found [here](#).

Federal Agency Action Overview

U.S. Department of Health & Human Services (HHS)

<!--[if !supportLists]-->• <!--[endif]-->The Department of Health and Human Services is committed to providing as much information as possible to prepare communities for response to COVID-19. The Department, through the

Centers for Disease Control and Prevention, the Food and Drug Administration, and other agencies, continuously provide guidance to healthcare providers, laboratories, communities, and state and local officials for dealing with suspected or confirmed cases of COVID-19. The most up-to-date information can be found at www.coronavirus.gov.

• Wednesday, March 12, CDC **[announced](#)** the imminent release of almost \$600 million to support state and local authorities respond to the COVID-19 outbreak. Full funding amounts are [here](#).

• CDC released their “**[Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission](#)**.” This is a guide for communities describing possible coronavirus transmission. Community mitigation strategies are often the most available interventions to help slow the transmission of COVID-19 in communities.

• The CDC has been actively working to address the need for testing across the country. You can find more information about testing [here](#). We encourage review of the **[Updated Guidance on Evaluating and Testing Persons for Coronavirus Disease 2019](#)**, as well as the recently updated the **[FAQ website for laboratories](#)** to determine best practices for testing.

• The U.S. Public Health Service Commissioned Corps has deployed hundreds of officers to help with this response. As America’s Health Responders, the Commissioned Corps is currently very involved in assisting the CDC with airport screenings, deploying staff to support hospitals, among other important missions. Find out more about Commissioned Corps activities [here](#).

• Part of preparedness includes a robust blood supply. The current situation around COVID-19 heightens the need for a ready blood supply, please encourage your health community members to keep their appointments to donate blood.

• CDC released updated **[guidance](#)** on infection prevention and control recommendations for healthcare workers. Healthcare workers are fighting this outbreak on the front lines, and this guidance is intended to provide assistance to healthcare settings that are handling suspected or confirmed cases of COVID-19. This guidance is applicable to all U.S. healthcare settings.

• The President’s emergency declaration gives HHS important powers to enhance state and local communities’ ability to respond to the outbreak, including flexibility around Medicare and Medicaid rules.

• *Flexibility and*

Relief for State Medicaid Agencies: The national emergency declaration also enables CMS to grant state and territorial Medicaid agencies a wider range of flexibilities under section 1135 waivers. States and territories are now encouraged to assess their needs and request these available flexibilities, which are outlined in the Medicaid and CHIP Disaster Response Toolkit. Examples of flexibilities available to states under section 1135 waivers include the ability to permit out-of-state providers to render services, temporarily suspend certain provider enrollment and revalidation requirements to promote access to care, allow providers to provide care in alternative settings, waive prior authorization requirements, and temporarily suspend certain pre-admission and annual screenings for nursing home residents. For more information and to access the toolkit, visit [here](#).

<!--[if !supportLists]-->• <!--[endif]-->*Waivers and Flexibilities for Hospitals and other Healthcare Facilities:* CMS will temporarily waive or modify certain Medicare, Medicaid, and CHIP requirements. CMS will also issue several blanket waivers, listed on the website below, and the CMS Regional Offices will review other provider-specific requests. These waivers provide continued access to care for beneficiaries. For more information on the waivers CMS has granted, visit [here](#).

<!--[if !supportLists]-->• <!--[endif]-->*Centers for Medicare & Medicaid Services (CMS) Nursing Home Guidance:* As you know, nursing homes and their residents are vulnerable populations for COVID-19. This week, CMS released updated guidance for infection control and prevention of COVID-19 in Nursing Homes which can be found [here](#) (3/9). The Press Release can be found [here](#) and all CMS guidance related to COVID-19 can be found [here](#).

U.S. Small Business Administration (SBA)

<!--[if !supportLists]-->• <!--[endif]-->The Small Business Administration will work directly with state Governors to provide targeted, low-interest loans to small businesses and non-profits that have been severely impacted by the Coronavirus (COVID-19). The SBA's Economic Injury Disaster Loan program provides small businesses with working capital loans of up to \$2 million that can provide vital economic support to small businesses to help overcome the temporary loss of revenue they are experiencing.

<!--[if !supportLists]-->• <!--[endif]-->The Coronavirus Preparedness and Response Supplemental expanded the disaster definition for the Small Business Administration's

Economic Injury Disaster Loans (EIDL) to include COVID-19. Economic Injury Disaster Loans are SBA loans that are available to eligible Small Businesses, Small agricultural cooperatives, and most non-profits that have experienced substantial economic injury as a result of a disaster.

<!--[if !supportLists]-->• <!--[endif]-->EIDLs are available in areas that are declared a disaster area by the SBA.

<!--[if !supportLists]-->• <!--[endif]-->There has to be an SBA Disaster Declaration in an area for EIDL loans to be made available, which originates from a request made by the Governor.

<!--[if !supportLists]-->• <!--[endif]-->To assist in the efforts, the SBA engages with States' Emergency Response Teams to help them comply with the requirements before a request is made.

<!--[if !supportLists]-->• <!--[endif]-->EIDL Loan Details

<!--[if !supportLists]-->• <!--[endif]-->Entities that can apply for EIDL loans are eligible Small Businesses, Small agricultural cooperatives, and most private nonprofit organizations.

<!--[if !supportLists]-->• <!--[endif]-->EIDL Loans are up to \$2million and have terms as long as 30 years.

<!--[if !supportLists]-->• <!--[endif]-->State and local officials who have been contacted by Small Businesses that may have been affected should share that information with their Governor or the State's Emergency Response Officials. More information on SBA's disaster loans, including eligibility and how to apply for loans, can be found here:

www.SBA.gov/disaster

U.S. Department of Education (DoED)

<!--[if !supportLists]-->• <!--[endif]-->The Department of Education has established a dedicated Coronavirus [webpage](#), which includes resources for institutions of higher education and for K-12.

<!--[if !supportLists]-->• <!--[endif]-->The website includes [guidance](#) for students at institutions of higher education, and covers Coronavirus-related scenarios that could impact students who are enrolled in study abroad programs, students who meet full-time requirements but fall below 12 credit hours, students who are quarantined and miss class, campuses that have temporarily stopped offering ground-based classes to prevent the spread of Coronavirus, and foreign schools that serve Americans who receive Federal financial aid. Also see [a letter from the Office for Civil Rights](#) that addresses potential discrimination associated with coronavirus.

<!--[if !supportLists]-->• <!--[endif]-->The Department is working on additional information for families and communities including:

<!--[if !supportLists]-->• <!--[endif]-->Information regarding certain flexibilities under the Every Student Succeeds Act, or “ESSA;”
 <!--[if !supportLists]-->• <!--[endif]-->Information regarding services to children with disabilities;
 <!--[if !supportLists]-->• <!--[endif]-->A fact sheet from our Office for Civil Rights on the risk of Coronavirus in schools while protecting the civil rights of students; and
 <!--[if !supportLists]-->• <!--[endif]-->Information on the Family Education Records Privacy Act, or “FERPA,” as it pertains to K-12 and higher education students.
 <!--[if !supportLists]-->• <!--[endif]-->The Department will continue to update its website, ed.gov/coronavirus. Please direct education related questions to COVID-19@ed.gov.

U.S. Department of Transportation (DOT)

<!--[if !supportLists]-->• <!--[endif]-->The U.S. Department of Transportation, in its important supporting role, has and will continue to coordinate with transportation stakeholders, foreign counterparts and other federal agencies to manage the risk in the United States.
 <!--[if !supportLists]-->• <!--[endif]-->The U.S. government’s travel restrictions and advisories have been a remarkably effective ‘first layer’ of containment. These travel requirements delayed the arrival of the virus to the United States, giving the nation precious time to prepare further measures, and plan for mitigation. This achievement took the cooperation of nearly 200 commercial airlines, a like number of overseas airports, and the Civil Aviation Authority of China.
 <!--[if !supportLists]-->• <!--[endif]-->DOT continues to ensure: an active air bridge remains in place for the safe return of Americans from affected areas; airlines are funneling passenger flights to one of the eleven designated U.S. airports equipped to health-screen Americans returning from affected areas; continued air and sea cargo traffic between the US and China; health protocols are established to protect the crews of aircraft continuing to fly between the US and foreign locations; and, dissemination of health messages about the virus, for airlines to use to inform their passengers.
 <!--[if !supportLists]-->• <!--[endif]-->External Stakeholder outreach is being actively conducted throughout the modes of transportation in DOT. DOT has already hosted calls with stakeholders for the Federal Aviation Administration, Federal Transit Authority, Federal Motor Carrier Safety Administration, and others. Additional calls are scheduled for outreach to additional stakeholders in all surface transportation, maritime, and labor.
 <!--[if !supportLists]-->• <!--[endif]-->On March 13, USDOT

issued a national emergency declaration to provide hours-of-service regulatory relief to commercial vehicle drivers transporting emergency relief to the nationwide COVID-19 outbreak. The declaration does not cover routine commercial deliveries, or transportation of mixed loads of essential supplies and/or persons and goods or persons not related to emergency needs. Effective immediately, the declaration will remain in effect for the duration of the emergency or until 11:59 P.M. (ET), April 11, 2020, whichever occurs sooner. Learn more [here](#).

U.S. Department of Labor (DOL)

- The Occupational Safety and Health Administration (OSHA) developed COVID-19 [planning guidance](#) for employers to implement engineering, administrative, and work practice controls and personal protective equipment (PPE). The guidance is intended for planning purposes – employers and workers should use the planning guidance to help identify risk levels in workplace settings and to determine any appropriate control measures to implement.
- The U.S. Office of Personnel Management (OPM), an independent agency that serves as the chief human resources agency and personnel policy manager for the Federal Government, issued [guidance](#) for Federal Agencies regarding COVID-19 and human resources policies.
- DOL announced new guidance outlining flexibilities that States have in administering their unemployment (UI) programs to assist Americans affected by the COVID-19 outbreak. Under the guidance, federal law permits significant flexibility for states to amend their laws to provide UI benefits in multiple scenarios related to COVID-19. Learn more [here](#).
- On March 14, DOL issued new temporary enforcement [guidance](#) for respirator fit-testing in healthcare during the COVID-19 outbreak. The temporary guidance is aimed at ensuring healthcare workers have full access to needed N95 respiratory protection. OSHA recommends that employers supply healthcare personnel who provide direct care to patients with known or suspected coronavirus with other respirators that provide equal or higher protection, such as N99 or N100 filtering facepieces, reusable elastomeric respirators with appropriate filters or cartridges, or powered air purifying respirators. Learn more [here](#).

U.S. Department of Housing & Urban Development (HUD)

- The health and well-being of our country's most vulnerable citizens is Secretary Ben Carson's highest priority. At the direction of Secretary

Carson senior HUD, officials have developed an Infectious Disease Toolkit for Continuum of Care homeless shelters (CoC). This includes specific documents addressing preparedness in shelters and encampment settings. More [here](#).

- <!--[if !supportLists]-->• <!--[endif]-->HUD has sent communication to CoC and Housing Opportunities for Persons With AIDS (HOPWA) grantees, highlighting the importance of infectious disease preparedness and linking to CDC and Healthcare for the Homeless resources: [Infectious Disease Preparedness Among Homeless Assistance Providers](#).
- <!--[if !supportLists]-->• <!--[endif]-->HUD released a quick guide to CDBG eligible activities to support infectious disease response. Grantees should coordinate with local health authorities before undertaking any activity to support State or local pandemic response. The guide can be found [here](#).
- <!--[if !supportLists]-->• <!--[endif]-->HUD is coordinating with the CDC, Healthcare for the Homeless, United States Interagency Council on Homelessness (USICH) on messaging and cross-promoting resource materials. This will continue on an ongoing basis. Also, the Department is reaching out to Health Resources and Services Administration (HRSA) and Substance Abuse and Mental Health Services Administration (SAMHSA) for future coordination.
- <!--[if !supportLists]-->• <!--[endif]-->HUD has plenty of resources for your communities including:
 - <!--[if !supportLists]-->• <!--[endif]-->Communities can use their unspent Emergency Solutions Grants and Continuum of Care Program funds to help address needs related to coronavirus. Additionally, a portion of CDBG funds are also available for public services, including health care.
 - <!--[if !supportLists]-->• <!--[endif]-->Technical Assistance is available for ESG and CoC Program recipients if requested. Additionally, communities that want to amend their CDBG plans, can reach out to their CPD representative if they need assistance.

U.S. Department of Agriculture (USDA)

- <!--[if !supportLists]-->• <!--[endif]-->USDA Secretary Sonny Perdue [announced proactive flexibilities](#) to allow meal service during school closures to minimize potential exposure to the coronavirus. During an unexpected school closure, schools can leverage their participation in one of USDA's summer meal programs to provide meals at no cost to students. Under normal circumstances, those meals must be served in a group setting. However, in a public health emergency, the law allows USDA the authority to waive the group setting meal requirement, which is vital during a social distancing situation.

<!--[if !supportLists]-->• <!--[endif]-->USDA intends to use all available program flexibilities and contingencies to serve program participants across our 15 nutrition programs. USDA has already begun to issue waivers to ease program operations and protect the health of participants. USDA is receiving requests for waivers on an ongoing basis. As of today, USDA has been asked to waive congregate feeding requirements in Washington, California, Maryland, Alaska, Utah, Pennsylvania, Wyoming, Maine, Kansas, New Jersey, New York, South Carolina, South Dakota, and Virginia and USDA has granted those requests.

<!--[if !supportLists]-->• <!--[endif]-->For more information about the coronavirus response across USDA, please visit: www.usda.gov/coronavirus.

U.S. Department of Homeland Security (DHS)

<!--[if !supportLists]-->• <!--[endif]-->Actions by DHS and the administration are decreasing the strain on public health officials by screening incoming travelers, expediting the processing of U.S. citizens returning from China, and ensuring resources are focused on the health and safety of the American people. It is important to recognize, that while there is a significant focus on containing and mitigating the spread of COVID-19, all departments and agencies of DHS are continuing to perform their regular duties with no impact on their mission.

<!--[if !supportLists]-->• <!--[endif]-->DHS is working to recognize, detect, and assist individuals attempting to enter the U.S. through our, airports, land ports, or waterways who may be carrying the virus: Cruise Lines International Association, CDC, USCG, and CBP. DHS is working with the Department of State, HHS, and the senior public health leadership with the Government of Mexico to prepare for any COVID-19 cases identified along the South West Border. This effort includes coordination with state, and local Public Health Officials to develop reporting and response courses of action.

<!--[if !supportLists]-->• <!--[endif]-->In furtherance of Presidential Proclamations [9984](#), [9992](#), [9993](#), and 9994, which bans the entry of non-U.S. citizens who are from or recently been in China, Iran, or certain European countries, the [Department of Homeland Security issued a **Notice of Arrival Restrictions**](#) requiring American citizens, legal permanent residents, and their immediate families who are returning home to the U.S. to travel through one of 13 airports upon arrival to the U.S., submit to an enhanced entry screening and self-quarantine for 14 days once they reach their final destination. More [here](#).

<!--[if !supportLists]-->• <!--[endif]-->FEMA has rostered 56 four-person Incident Management Assistance Teams.

<!--[if !supportLists]-->• <!--[endif]-->The Countering Weapons of Mass Destruction Office, which contains the National

Biosurveillance Integration Center and the Chief Medical Officer, has maintained close coordination with our Components and U.S. Government partners regarding the status of the outbreak and associated U.S. Government response actions.

Local Preparedness Tips

- Response is locally executed, state managed, and federally supported.
- Ensuring clear, open lines of communication with the public and making information and guidance readily available.
- Proactively sharing and disseminating *verified and accurate* guidance and information such as HHS/CDC [guidance for families, businesses, and schools](#).
- Reviewing Federal guidance such as the HHS/CDC [Community Mitigation Framework](#).
- Coordinating with State and local health authorities.
- Reviewing local preparedness plans and strategies.

Thx – just want to make sure we are not leaving any stones left unturned.

As you can imagine, we are facing similar issues with communities across
the country.

So our people are apparently in Cusco and the two flights have been
out of Lima. Bill says they're hoping to find a solution for Cusco but
there's no info at this point. I guess all internal transport is shut down

so no way to get to Lima from Cusco. Anyway, we are staying on top of the embassy website for info. Really appreciate your checking in.

Thanks. Please make sure they stay in close contact with the embassy. And it sounds like they have been.

Thanks a lot for checking in. I just asked the General to find out his friends' status. Last we heard, they did not get on the flight yesterday, but Bill sent me the email that went out to people registered with STEP, and that email said that the embassy believes a separate LATAM flight with Americans departed today. I doubt they were on it or i think they would've told us, but I'm confirming. There is so much confusion and the uncertainty is (understandably!) causing anxiety and panic. Really appreciate your email. Will let you know what I hear.

Students in Peru

Thanks a lot,
William. Moving to
bcc. Bill, I read the
politico story a few
hours ago saying
that State is putting
charter flights
together to bring
Americans home
from Peru (and
Morocco). General
Paxton is in touch
with Texans down
there and hoping to

get more
information on the
State flights
mentioned in that
article. Anything
you might be able
to share would be
incredibly helpful
—and reassuring.
Thank you!
