Dear Mr. Evers:

This letter is regarding to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of April 9, 2020, assigned #20-01214-FOIA.

We located 1538 pages of responsive records (178 pages released in full or part; 1360 pages withheld in full). The CDC Responsive Records can be retrieved from the following link: https://centersfordiseasecontrol.sharefile.com/d-s14dc6ada73824426b841c24dd4d93a98
Further, after a careful review of these pages some information was withheld from release pursuant to 5 U.S.C. §552 Exemption 5 and 6.

Exemption 5 protects inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency. Exemption 5 therefore incorporates the privileges that protect materials from discovery in litigation, including the deliberative process, attorney work-product, and attorney-client privileges. Information withheld under this exemption was protected under the deliberative process and attorney-client privileges. The deliberative process privilege protects the decision-making process of government agencies. The deliberative process privilege protects materials that are both predecisional and deliberative. The materials that have been withheld under the deliberative process privilege of Exemption 5 are both predecisional and deliberative, and do not contain or represent formal or informal agency policies or decisions. Examples of information withheld include drafts, quarantine and isolation legal communications. The attorney-client privilege protects “confidential communications between an attorney and his client relating to a legal matter for which the client has sought professional advice” and is not limited to the context of litigation. The information that has been withheld under the attorney-client privilege of Exemption 5 constitutes confidential communications between agency attorneys and agency clients.

Exemption 6 protects information in personnel and medical files and similar files when disclosure would constitute a clearly unwarranted invasion of personal privacy. The information that has been withheld under Exemption 6 consists of personal information, such as phone numbers, email and physical addresses. We have determined that the individuals to whom this information pertains has a substantial privacy interest in withholding it.
