
Because Oneida County has declared a state of emergency , it has the power to act under s. 323.14 (4) (a), Stats., which states that:

> "The emergency power of the governing body conferred under s. 323.11 includes the general authority to order, by ordinance or resolution, whatever is necessary and expedient for the health, safety, protection, and welfare of persons and property within the local unit of government in the emergency and includes the power to bar, restrict, or remove all unnecessary traffic, both vehicular and pedestrian, from the highways, notwithstanding any provision of chs. 341 to 349."

Pursuant to s. 323.14 (4) (b), Stats., if the governing body is unable to meet because of the emergency, the chief executive officer can also exercise the above power by proclamation.

I think that normally when a local government exercises the power to restrict highway traffic, it is in response to a flood or storm rather than for the purpose of public health, but the statute itself doesn't limit the authority to that purpose.

Note that the statute requires the local government to adopt an ordinance, resolution, or proclamation in order to exercise its power under a state of emergency. I cannot find anything online that shows that Oneida County has adopted an ordinance or resolution (or that the county executive has issued a proclamation) ordering that the county borders be closed. Without that kind of formal action, the county would not be able to order that its borders be closed.

Because the language of the statutes is so broad, the limits to a local government's authority to adopt such an ordinance, resolution, or proclamation would be based mostly on constitutional considerations such as due process. If there was a legal challenge, a court would look at whether the emergency is significant enough to warrant the restrictions imposed by the local government.

AMERICAN OVERSIGHT

We will also see what new restrictions are ordered by the governor later today.

Let me know if you have any other questions about this.

Subject: Marshfield Clinc 1135 request - Minocqua Hospital

Hello Sen. Tiffany and Rep. Felzkowski,

At Marshfield Clinic Health System we have submitted several 1135 waivers related to the current COVID pandemic. I know the state has been bombarded with these requests and Tony Langenohl will soon be submitting to JFC members a consolidated list of the submissions we have made to DHS and CMS so far. Most all of these relate to ensuring we can meet the potential capacity of hospital beds that will be needed when COVID becomes more prevalent in our area of the state.

One item that I wanted to particularly bring to your attention is our request relating to opening up our new hospital in Minocqua. We have been scheduled to open up on May 1st but believe we could open up in April if we get the proper state and federal regulatory sign offs. Given the concern about people heading to their cabins or second homes from other areas, it could potentially place more healthcare needs on a more rural area that doesn't have as many health care services. These extra beds could potentially be a big help at this time. Any help you are able to provide in getting this approved is much appreciated. I am happy to answer any questions you may have. I have attached our request that was submitted to the state.

Thank you for all the tireless work that you and other state employees have put in during this time. Please know that it is appreciated and we look forward to working with you.

Hey Bradford,

Not sure if this would technically be DATCP from the landlord perspective, but I thought I'd ask. I know evictions are on hold, but Governor Evers did say at his press conference about that that everyone is who is renting should still be making payments. Does that apply for those who literally can't access what they've rented? My guess is yes, but wanted to double check.

Thanks!

Subject: Mary, Question for you

Hi Mary,

Want to thank you for the updates. You send to Joe Cordova and he forwards to me. Very informative and well organized.

Question: A hairdresser renting a spot/chair in a beauty salon was locked out from her rented spot, as mandated, 10 days before the end of March. Rent is on a monthly basis, all verbal, no lease or contract. The landlord is asking each to again pay rent April 1st, while they are unable to use the location to work and generate income. Is a tenant required to continue to pay rent, with no opportunity to use the shop to generate income during this mandatory shutdown, or risk being terminated as current tenant? Are you able to shed some light on this for us?

Thanks again for all of your help.

Subject: Massive Medicaid flaw in FFCRA and CARES will cripple states and increase dependency

The COVID-19 pandemic should not be an excuse to grossly expand Medicaid. But that's exactly what's happening.

The Medicaid funding in the Families First Coronavirus Response Act (FFCRA) and the Coronavirus Aid, Relief, and Economic Security Act (CARES) has big strings attached for states. States will only be able to receive the new funding if they agree not to remove any enrollees, including **ineligible enrollees**. This means that many states will have to choose between drastically compromising the integrity of their Medicaid programs (and exploding their budget) or rejecting the new Medicaid funding.

This will have dire financial consequences for states whose budgets are already collapsing.

FGA's newest research isn't just timely—it's crucial. States need the flexibility to protect Medicaid for the most vulnerable Americans.

CARES only made the problem worse, expanding Medicaid even further by allowing individuals filing for unemployment to receive an additional $600 per week on top of their normal unemployment compensation. Typically, unemployment benefits are considered income for Medicaid eligibility purposes. **However**, CARES exempted this extra $600 per week from these rules. Now, many individuals qualify for Medicaid rather than exchange subsidies. This new Medicaid income exemption allows some able-bodied adults earning nearly **three times** the poverty limit to enroll, which means that millions more individuals could soon overrun state Medicaid programs.

And because of the language passed in FFCRA, states can't remove them, even

AMERICAN OVERSIGHT

when they go back to work and become ineligible for Medicaid.

This sneaky attempt to expand Medicaid and increase government dependency must be reversed. FGA's newest research explains how.

Congress has the opportunity to correct these policies and prevent them from hurting your state's fiscal health. Reach out to your congressional delegation and urge them to reverse this.

The Madison Club

From WisPolitics.com ...

-- With the spring election now before the U.S. Supreme Court, 11 Wisconsin mayors are pressing Gov. Tony Evers' administration to stop in-person voting

AMERICAN OVERSIGHT

after Republican lawmakers declined to take up his last-minute request for a mail-in election with new deadlines in May.

But a source close to the guv says Evers doesn't believe his administration has that power. And any attempt to move it without legislative approval would end up before the conservative-dominated state Supreme Court, which his administration believes would slap down the move.

The 11 mayors sent the letter to Health Services Secretary Andrea Palm, urging her to use her emergency powers to stop the state from "putting hundreds of thousands of citizens at risk by requiring them to vote at the polls while this ugly pandemic spreads."

The mayors -- including those of Milwaukee, Madison and Green Bay -- acknowledged Palm doesn't have the authority to approve the modifications that would be necessary to conclude the election if polls were closed. To address that, they called on the Legislature to meet in special session today. They argued the "most logical way" to conduct the election amid a stay-at-home order would be to mail every registered voter a ballot.

"The lives of our constituents depend on it," they wrote.

Read the letter:
https://www.wispolitics.com/wp-content/uploads/2020/04/200405Letter.pdf

-- Republicans have asked U.S. Supreme Court Justice Brett Kavanaugh to decide by today whether to put on hold a lower court ruling allowing absentee ballots to be counted so long as they are received by 4 p.m. April 13.

The Seventh Circuit Court of Appeals late Friday upheld a lower court ruling pushing back the deadline for absentee ballots to be returned, as well as adding an extra day to request one. Typically, absentee ballots have to be returned by 8 p.m. on Election Day.

In their response to Saturday's filing by Republicans, the state and national Dem parties, along with others, on Sunday warned a backlog on processing absentee ballot requests means thousands of Wisconsin voters won't even receive them until after Election Day. Without the order extending the deadline to April 13 to return the ballots, the brief argues, thousands of voters would be disenfranchised.

The brief notes the backlog of processing requests had reached 21,590 as of Thursday. Meanwhile, it's taking a full week or more to deliver mail in Wisconsin due to the COVID-19 pandemic.

It also warns a stay could exacerbate the growing pandemic in Wisconsin, because voters not confident their absentee ballots would be counted would show up at the polls tomorrow, increasing person-to-person contact. The brief argues U.S. Judge William

AMERICAN OVERSIGHT

Conley's ruling extending the deadline for absentee ballots to be received is intended to decrease that person-to-person contact in the middle of a pandemic.

"A stay would negate these reasonable remedies for the extreme, unprecedented circumstances that tens of thousands of Wisconsin voters are likely to face: either they venture out to vote in person and risk their health and the health of others, or they forfeit the right to vote through no fault of their own," Dems argue.

In a response filed late yesterday, Republicans countered while a limited number of voters -- "by no fault of their own" -- would miss the deadline if they had to have their ballots postmarked by Election Day, they could seek relief through the courts. But the district court's order "allows anyone to vote after election day, even those who have had their absentee ballots in hand for days or weeks."

-- The Elections Commission has notified clerks that every absentee ballot for the spring election must include a witness signature in order to be counted, even if it was mailed during the approximately 24 hours when a judge's ruling suspended that requirement.

In a communication to clerks yesterday, the commission addressed ballots that were mailed between Conley's order, issued Thursday afternoon, and a ruling from the 7th Circuit Court of Appeals Friday evening reversing that piece of his decision.

The commission told clerks to "make their best effort" in contacting those who failed to include a signature on their ballot of options to provide the missing information. That includes the voter appearing with the original witness in the clerk's office or polling place on Election Day to provide the signature.

Voters also have the option to correct the issue by mail by asking the clerk to send the unopened absentee ballot back to them along with a new envelope to return it. Voters would then have to open the original envelope, verify their ballot, seal it in the new envelope and obtain a witness signature.

Read the communication to clerks:

AMERICAN OVERSIGHT

-- Assembly Republicans are asking Gov. Tony Evers to ease his stay-at-home order to allow churches and temples to hold Easter or Passover services this week, even if it's outside.

"For many of us, being a part of these services will offer much-needed solace during these uncertain times," Republicans wrote.

Evers spokeswoman Melissa Baldauff said the state is heading into the worst of this public health crisis and instead called on GOP lawmakers to "do their part to ensure public health and safety."

"The governor understands that for many Wisconsinites their faith is a source of comfort, especially in these difficult times, but in order to protect the health and safety of all Wisconsinites he will not be rolling back the provisions of the Safer at Home order," Baldauff said.

-- The request was part of a letter Assembly Republicans sent Evers laying out their priorities for the state's share of the $2.2 billion headed to Wisconsin as part of a federal stimulus package.

They noted the $1.9 billion the state is slated to receive comes with no legislative oversight.

Those priorities include:

*the needs of hospitals and healthcare facilities. As part of that, Assembly Republicans renewed their objections to allowing abortion providers to continue operating and insisted "firmly" that no federal stimulus money go to abortion providers.

*safeguards for business owners and workers. The letter says Assembly Republicans support repealing the one-week waiting period before those laid off can begin collecting unemployment checks. They asked Evers to consider providing unemployment assistance for business owners, as well as helping them and farmers "stay afloat in these difficult times."

*assistance to local government, if allowed under the bill. That includes vouchers to help local governments find alternative housing for the homeless as well as supporting food pantries.

They also insisted in the letter that "tax increases or other economically detrimental policies cannot and should not be an option."

The letter was signed by every member of the Assembly GOP caucus except for Scott

AMERICAN OVERSIGHT

Allen, of Waukesha, and Loren Oldenburg, of Viroqua.

See the release and the letter:
https://www.wispolitics.com/2020/rep-vos-assembly-gop-send-governor-list-of-priorities-for-federal-stimulus-dollars/

-- Two Dem appointees to the Elections Commission called Republicans' failure to address voter safety during Saturday's special session "unconscionable" and an "abdication of your constitutional responsibilities as our leaders."

In a letter to Senate Majority Leader Scott Fitzgerald and Assembly Speaker Robin Vos yesterday, Ann Jacobs and Mark Thomsen wrote "we simply cannot guarantee" the safety of those who didn't request an absentee ballot and need to vote on Election Day or to register at the polls.

As of yesterday morning, Wisconsin voters had requested nearly 1.3 million absentee ballots, but only 703,048 had been returned.

The Dem commission members noted a lack of staffing that has resulted in 111 municipalities as of last week without sufficient workers to open a single polling site. They also pointed out Milwaukee plans just five polling sites rather than the usual 180, while Neenah is planning just one rather than six and Waukesha just one rather than 15.

On Saturday, Republicans quickly gaveled in the special sessions in nearly empty chambers and then recessed until today.

"In the face of a deepening and escalating COVID-19 crisis, forcing an in-person election on Tuesday not only threatens the voters, the clerks, and election staff, it threatens everyone those people subsequently come into contact with at home and elsewhere," they wrote. "A single asymptomatic virus-carrying poll worker could transmit the virus to hundreds of people on
election day, creating a disease vector that would devastate a community."

Read the letter:
https://www.wispolitics.com/wp-content/uploads/2020/04/200405Letter2.pdf

-- Meanwhile, Dean Knudson, a former GOP lawmaker and the current chair of the Elections Commission, insisted the election must go on as planned.

Knudson noted on Twitter that elections still went on after the British invaded Washington, D.C., in 1814, during the Civil War and amid the 1918 influenza pandemic.

He pointed out the number of absentee ballots already mailed, saying the election will

AMERICAN OVERSIGHT

be 80 percent mail-in compared to normally being 80 percent in-person, a switch that occurred in a matter of weeks. Knudson said that "demonstrates the flexible and adaptable nature of Wisconsin's voting laws."

"Everything is in place for our elections to go forward," Knudson wrote. "Don't let fear and panic derail our democracy. Instead let's pull together to help ensure we minimize health risks in polling places while protecting the integrity of our elections."

See the thread:
https://twitter.com/deanknudson/status/1246546123952709634

-- The Department of Administration says the Capitol will be open to the public starting at 9 a.m. today for the special session.

The building has been closed to the public since March 26, but was opened Saturday for the special session. It will close again one hour after the special session.

-- Gov. Tony Evers announced over the weekend the president has approved a major disaster declaration for the state as a result of the COVID-19 pandemic.

See the release:
https://www.wispolitics.com/2020/gov-evers-wisconsin-granted-federal-disaster-declaration-due-to-covid-19-pandemic/

-- Both Joe Biden and Bernie Sanders have now endorsed Dane County Judge Jill Karofsky in this spring's Supreme Court race.

Biden announced his endorsement Friday evening. Earlier in the day, President Trump suggested Gov. Tony Evers called for moving Wisconsin to a mail-in election with deadlines in May because of his endorsement of conservative Justice Daniel Kelly.

Trump had earlier praised Kelly at a Wisconsin rally with video of that playing prominently in the TV ad of one outside group. Around noon Friday, the president sent a tweet stating Kelly had his "complete endorsement." Hours later, Trump claimed his endorsement of Kelly via social media had sent the justice's poll numbers "through the roof."

Trump, who questioned why Evers didn't call for delaying the election two weeks ago, also expressed his opposition to allowing ballots to be mailed in, saying voters should have to cast ballots at the polls while presenting a voter ID.

See video of Trump's answer:
https://www.youtube.com/watch?v=IT_P4Hpw2c4&feature=youtu.be

AMERICAN OVERSIGHT

-- Assembly leaders split on the question of moving forward with Tuesday's election, with Majority Leader Jim Steineke saying this is no time to "upend" things, and Minority Leader Gordon Hintz warning of "catastrophic consequences" of going ahead with the vote during a pandemic.

Both lawmakers appeared Sunday on "UpFront," produced in partnership with WisPolitics.com.

Gov. Tony Evers on Friday called a special session, asking lawmakers to meet on Saturday to delay the election until May, and move it to all mail-in balloting. Republicans rejected his request, and the session was quickly gaveled in and out on Saturday.

"To come in at the last minute and try to upend things, and do an election in a completely different way that we just don't have the infrastructure for right now, or the security just to secure the votes, just doesn't make sense," said Steineke, R-Kaukauna.

Steineke knocked the governor for "feckless leadership" for waiting until roughly 100 hours before the election to call for delaying it.

"He's got to give some people some certainty. ... (Y)ou've got to take some strong positions and stick to them to give people some certainty on how things are going to go," Steineke said. "And that's one of the frustrations that we've had."

"UpFront" host Adrienne Pedersen about the wisdom of asking people to show up and vote during a deadly pandemic.

"This is a challenging time for all of us. When it comes to this election process, we looked at everything. There is no good answer," Steineke said.

-- In a separate interview, Hintz said there is still time for lawmakers to meet and move the election. He said asking people to go to the polls on Tuesday goes against everything that state officials are telling them with a stay-at-home order to slow the spread of COVID-19.

"This is increasingly looking like a terrible decision and certainly by Tuesday there will be significant risk of transmission, spreading of the virus, and obviously overwhelming our hospitals, which I think are already feeling the weight of how fast this is spreading," said Hintz, D-Oshkosh.

"We can still act, and we can prevent this from happening in a legally certain way," he said about the Legislature. "We have the ability to act."

Pedersen asked Hintz why other states had been able to postpone their elections, and

AMERICAN OVERSIGHT

not Wisconsin. Hintz said other states have different statutes and had a longer time frame in which to act. Wisconsin lacked a "clear path," he said.

"I think we'll really regret going through with this," Hintz said.

-- In another segment, two political strategists said the race for Wisconsin Supreme Court is a "coin flip" heading into Tuesday. Democrat Joe Zepecki and Republican Brian Reisinger discussed the effect of the outbreak on the election and the campaigns.

See more from the program:
http://www.wisn.com/upfront.

-- Lawmakers last week circulated one bill for co-sponsorship, with JFC Co-chair John Nygren pushing a bill that would require the executive branch to notify the Legislature and his committee when it takes action to deal with a public health emergency.

That notification would include the start and end dates of the plan, as well as procedures and actions taken.

See the Association of Wisconsin Lobbyist's summary of last week's bills circulated, including links to the co-sponsorship memos:

Citing Public Health Emergency, Evers Calls For Delay Of April Election
... after evaluating the growing "surge" of COVID-19 cases ... coupled with a dramatic decrease in polling places. [Milwaukee Election Commission on Friday announced poll worker shortage cut polling places from 180 to 5.] ... Evers announced Friday that he was calling a special session of the Legislature to extend the election, just three days before Wisconsin voters were scheduled to head to the polls. ... send absentee ballots to millions of registered voters who hadn't requested them already. Voters would then have until May 19 to return the ballots. ... "Yeah, it's late in the game, there's no question," Evers told reporters at a media briefing Friday [conceding he hadn't yet spoken to Speaker Vos, Leader Fitzgerald]. "I'm hopeful that common sense will prevail. ... "The virus sets the timetable, not me, not Robin Vos and not Scott Fitzgerald," Evers said. "So the time is now." Vos-Fitzgerald statement said too late, "Hundreds of thousands of workers are going to their jobs every day, serving in essential roles in our society. There's no question that an election is just as important as getting take-out food." Rehash Conley rulings, upheld in part [April 13 extension] by Seventh Circuit, struck down [witness-less ballots]. Vos and Fitzgerald said Friday night that they planned to appeal the April 13 extension to the U.S. Supreme Court. Asked if he could stop election unilaterally, Evers said, "If they take no action, we'll be looking at whatever

action we can take."
https://www.wpr.org/citing-public-health-emergency-evers-calls-delay-april-election

Evers denies Assembly GOP request to allow in-person Easter and Passover services
... "It is more important than ever that we allow Wisconsinites to observe their individual faiths," [Speaker Vos, GOP caucus] wrote in a Friday letter to Evers. "To that end, we ask that you work with Wisconsin churches and temples to allow them to hold Easter or Passover services, even if it's outside." Evers declined ... "As a state and as a nation, we are heading into the worst of this public health crisis," [Baldauff for Evers] said. "The governor understands that for many Wisconsinites their faith is a source of comfort, especially in these difficult times, but in order to protect the health and safety of all Wisconsinites he will not be rolling back the provisions of the Safer at Home order. ... We continue to call on Republicans in the legislature to do their part to ensure public health and safety."... "This disease does not have a religious exemption," [Mayor] Barrett said. "As much as I would love this disease to have a religious exemption, a family exemption, a voting exemption, it does not. And it's not just the people who would attend these services, but it would be the people that they would infect. ... It is disappointing that somehow we have so many people in state government right now who want to make believe that we're exempt from this thing. It's just ... it's mind-boggling." ... request came one day before Republicans ... stalled Evers' move to push back Tuesday's election ... On Saturday, they quickly adjourned a special legislative session about the matter. Surgeon General Adams urged staying home, "The next week is going to be our Pearl Harbor moment ... our 9/11 moment ... if we want to flatten that curve and get through to the other side ... you've got to be Rosie the Riveter, you've got to do your part."
https://www.jsonline.com/story/news/2020/04/05/2950830001/

Mayors across the state ask DHS Sec. Palm to stop in-person voting
... asking the Wisconsin Legislature to respect Governor Evers' request for a special session and create a solution that protects public health and the right to vote. ... "We believe the most logical way to accomplish an election that maintains the safer-at-home order is to mail every registered voter a ballot." ... [noted] Wisconsin is the only state that has not reached a solution for voting in an April election without endangering their citizens. Signed by Mayors Barrett, Genrich, Palmeri, Kabat, Antaramian, Mason, Hanna, Rhodes-Conway, Mischel and Ehley.

Vos, Fitzgerald Reject Election Postponement; Will Appeal Other Changes To US Supreme Court
... Evers, a Democrat, called a special session of the Legislature for 4 p.m. Saturday [to convert to mail-in election, extend date]. By 4:05 p.m., the session was adjourned until Monday, though legislators signaled they didn't plan any action then, either. Evers tweeted, "Republicans in the Legislature are playing politics with public safety and ignoring the urgency of this public health crisis. It's wrong. No one should have to

AMERICAN OVERSIGHT

choose between their health and their right to vote. ... It's time for every Republican legislator to do their jobs and take a vote on this commonsense proposal to extend the election date so everyone can vote safely from home. I urge every Wisconsinite to contact their legislators and demand a vote." Vos, Fitzgerald seek stricter absentee rules, "We accept that clerks need more time to count ballots. We still have grave concerns about election security by allowing votes to be postmarked or submitted after Election Day, and plan to appeal that issue to the United States Supreme Court." Milwaukee Elections Commissioner Albrecht fretted disenfranchisement, "I'm hopeful this state, as it should, can move forward with that April 13 deadline [Conley's date for returning absentee ballots]. Any type of a reversal on that extension ... would further compromise the integrity of this election." Poll worker shortage has led to fewer precincts, raising possibility of large crowds and unsafe conditions.

Biden: Democratic National Convention 'may be virtual'
... "Well, we're going to have to do a convention. We may have to do a virtual convention. I think we should be thinking about that right now. The idea of holding the convention is going to be necessary. We may not be able to put 10, 20, 30,000 people in one place and that's very possible. Again let's see where it is -- and what we do between now and then is going to dictate a lot of that as well. But my point is that I think you've just got to follow the science," Biden told ABC News' chief anchor George Stephanopoulos. ... "Look, I think it's important to follow the science, listen to the experts and do what they tell you," Biden said. DNCC CEO Solomonese email: "The convention planning team will remain in constant communication with the local, state, and federal officials responsible for protecting public health and security, and will continue to follow their guidance." 2020 DNC Host Committee declined comment, punted to DNCC. Mayor Barrett rep did not respond, rehash Thu.'s quote. MMAC chief Sheehy: "The result unfortunately is a fluid situation, without a permanent answer that August holds as the date for a physical convention, all we can do is prepare and hope."
https://www.bizjournals.com/milwaukee/news/2020/04/05/biden-democratic-national-convention-may-be.html

DNC chair Tom Perez remains '100% committed to Milwaukee' after delaying party convention [to week of August 17]
Democratic National Committee chair Tom Perez he remains "100% committed to Milwaukee" after organizers pushed back the party's convention to mid-August amid the coronavirus pandemic. ... "I continue to have optimism that we can make it work, especially with the delay," he said in an interview Friday, adding that postponing it "gives us greater options and a greater chance of being ably to carry off a successful convention." ... Even with the changes, Perez said he was "absolutely confident" the convention would still have a positive economic impact in Wisconsin, though he noted predicting the number of attendees at this point is hard. Attendance rates, he said, would "be a function of where things are come later in the spring." "The delay is going to maximize the likelihood of having more robust participation and more robust participation means more people in hotels, more people spending money in Wisconsin,"

he said.

State could miss out on federal stimulus Medicaid payments if Legislature doesn't act
... [US Rep.] Pocan said "one of the last changes to happen" to the [CARES Act] allows Wisconsin to receive the increased funding in the first quarter despite the state's changes to its Medicaid program [upping premium, adding copays]. ... "We were able to get the Wisconsin fix (in the bill), but it's for the first quarter," Pocan said. "The legislature will have to deal with (making additional changes)." ... [DHS Sec. Palm letter to JFC said] pandemic "is likely to significantly increase Medicaid expenditures for the remainder of the biennium." ... Medicaid enrollment will likely increase as people lose coverage from employers. ... working with legislators "to make temporary program changes to qualify" ... on federal waiver approval for more flexible requirements in responding to the pandemic. ... Expanding Medicaid in Wisconsin has long been opposed by Republican lawmakers, and was stripped from the budget by [JFC]. 776,581 Wisconsinites were enrolled in BadgerCare Plus in February. Vos did not respond.

'Nobody's got a map for this mess': WI counties brace for unknown hit to sales tax
... 5% sales tax generates roughly $5.4B/yr ... roughly a third of the state's revenues ... All but four counties -- Manitowoc, Racine, Waukesha and Winnebago -- collect an optional 0.5% sales tax that was expected to bring in about $462M. ... On average, local sales tax accounts for about 9% of total county revenues ... "It's going to have a devastating impact," said [JeffCo's] DeVries ... where sales taxes account for 21% of GPR. "There's no doubt about it." ... "It won't just be sales tax that takes a hit," said [WPF's] Stein ... "It's not as if the other parts of the state budget are sheltered." WCA's Knapp estimated short-, long-term scenarios would lose from $37-56B, "There's so much we don't know. ... Retail is hard. There's not a lot, but there's a lot more online (sales) going on ... The big boxes are still open. People are still going to Walmart." ... full impact of the lockdown won't be seen until the end of May. WPF's Hencken, DaneCo's Hicklin, IowaCo's Hamilton, JUneauCo's Chipman comment.
https://madison.com/wsj/4c28771e-f777-5272-8c76-5f014f435fd0.html

[Ex rep.] Michelle Vos, wife of Speaker, calls coronavirus measures an 'overreaction'
... [mid-March] on her personal Facebook page. "I want to go on record and say we could be unnecessarily destroying our economy," she wrote. "COVID IS NOT AIRBORNE (droplets yes, airborne no)," she wrote. "My GOD we're over reacting." ... In another post, Vos wrote, "Yes people will die of this. It just isn't worth shutting down our whole economy - except grocery stores. In my opinion." ... Vos declined to comment, saying she doesn't want people to misconstrue her opinions as being those of Assembly

AMERICAN OVERSIGHT

Speaker Robin Vos. Rehash Assembly GOP request, denied by EVers, to allow in-person religious services for Easter, Passover. Speaker Vos tweet accused Milwaukee Elections chief Albrecht of wanting "problems instead of actual solutions" for poll/poll workers shortages.

The Madison Club

From WisPolitics.com ...

-- With the spring election now before the U.S. Supreme Court, 11 Wisconsin mayors are pressing Gov. Tony Evers' administration to stop in-person voting

AMERICAN OVERSIGHT

after Republican lawmakers declined to take up his last-minute request for a mail-in election with new deadlines in May.

But a source close to the guv says Evers doesn't believe his administration has that power. And any attempt to move it without legislative approval would end up before the conservative-dominated state Supreme Court, which his administration believes would slap down the move.

The 11 mayors sent the letter to Health Services Secretary Andrea Palm, urging her to use her emergency powers to stop the state from "putting hundreds of thousands of citizens at risk by requiring them to vote at the polls while this ugly pandemic spreads."

The mayors -- including those of Milwaukee, Madison and Green Bay -- acknowledged Palm doesn't have the authority to approve the modifications that would be necessary to conclude the election if polls were closed. To address that, they called on the Legislature to meet in special session today. They argued the "most logical way" to conduct the election amid a stay-at-home order would be to mail every registered voter a ballot.

"The lives of our constituents depend on it," they wrote.

Read the letter:
https://www.wispolitics.com/wp-content/uploads/2020/04/200405Letter.pdf

-- Republicans have asked U.S. Supreme Court Justice Brett Kavanaugh to decide by today whether to put on hold a lower court ruling allowing absentee ballots to be counted so long as they are received by 4 p.m. April 13.

The Seventh Circuit Court of Appeals late Friday upheld a lower court ruling pushing back the deadline for absentee ballots to be returned, as well as adding an extra day to request one. Typically, absentee ballots have to be returned by 8 p.m. on Election Day.

In their response to Saturday's filing by Republicans, the state and national Dem parties, along with others, on Sunday warned a backlog on processing absentee ballot requests means thousands of Wisconsin voters won't even receive them until after Election Day. Without the order extending the deadline to April 13 to return the ballots, the brief argues, thousands of voters would be disenfranchised.

The brief notes the backlog of processing requests had reached 21,590 as of Thursday. Meanwhile, it's taking a full week or more to deliver mail in Wisconsin due to the COVID-19 pandemic.

It also warns a stay could exacerbate the growing pandemic in Wisconsin, because voters not confident their absentee ballots would be counted would show up at the polls tomorrow, increasing person-to-person contact. The brief argues U.S. Judge William

AMERICAN OVERSIGHT

Conley's ruling extending the deadline for absentee ballots to be received is intended to decrease that person-to-person contact in the middle of a pandemic.

"A stay would negate these reasonable remedies for the extreme, unprecedented circumstances that tens of thousands of Wisconsin voters are likely to face: either they venture out to vote in person and risk their health and the health of others, or they forfeit the right to vote through no fault of their own," Dems argue.

In a response filed late yesterday, Republicans countered while a limited number of voters -- "by no fault of their own" -- would miss the deadline if they had to have their ballots postmarked by Election Day, they could seek relief through the courts. But the district court's order "allows anyone to vote after election day, even those who have had their absentee ballots in hand for days or weeks."

https://www.wispolitics.com/wp-content/uploads/2020/04/200405Filing.pdf

See the GOP response:
https://www.wispolitics.com/wp-content/uploads/2020/04/200405GOPReply.pdf

See more on Saturday's filing:
https://www.wispolitics.com/2020/republicans-file-appeal-with-u-s-supreme-court-in-absentee-ballot-case/

-- The Elections Commission has notified clerks that every absentee ballot for the spring election must include a witness signature in order to be counted, even if it was mailed during the approximately 24 hours when a judge's ruling suspended that requirement.

In a communication to clerks yesterday, the commission addressed ballots that were mailed between Conley's order, issued Thursday afternoon, and a ruling from the 7th Circuit Court of Appeals Friday evening reversing that piece of his decision.

The commission told clerks to "make their best effort" in contacting those who failed to include a signature on their ballot of options to provide the missing information. That includes the voter appearing with the original witness in the clerk's office or polling place on Election Day to provide the signature.

Voters also have the option to correct the issue by mail by asking the clerk to send the unopened absentee ballot back to them along with a new envelope to return it. Voters would then have to open the original envelope, verify their ballot, seal it in the new envelope and obtain a witness signature.

Read the communication to clerks:
https://elections.wi.gov/node/6816

AMERICAN OVERSIGHT

-- Assembly Republicans are asking Gov. Tony Evers to ease his stay-at-home order to allow churches and temples to hold Easter or Passover services this week, even if it's outside.

"For many of us, being a part of these services will offer much-needed solace during these uncertain times," Republicans wrote.

Evers spokeswoman Melissa Baldauff said the state is heading into the worst of this public health crisis and instead called on GOP lawmakers to "do their part to ensure public health and safety."

"The governor understands that for many Wisconsinites their faith is a source of comfort, especially in these difficult times, but in order to protect the health and safety of all Wisconsinites he will not be rolling back the provisions of the Safer at Home order," Baldauff said.

-- The request was part of a letter Assembly Republicans sent Evers laying out their priorities for the state's share of the $2.2 billion headed to Wisconsin as part of a federal stimulus package.

They noted the $1.9 billion the state is slated to receive comes with no legislative oversight.

Those priorities include:

*the needs of hospitals and healthcare facilities. As part of that, Assembly Republicans renewed their objections to allowing abortion providers to continue operating and insisted "firmly" that no federal stimulus money go to abortion providers.

*safeguards for business owners and workers. The letter says Assembly Republicans support repealing the one-week waiting period before those laid off can begin collecting unemployment checks. They asked Evers to consider providing unemployment assistance for business owners, as well as helping them and farmers "stay afloat in these difficult times."

*assistance to local government, if allowed under the bill. That includes vouchers to help local governments find alternative housing for the homeless as well as supporting food pantries.

They also insisted in the letter that "tax increases or other economically detrimental policies cannot and should not be an option."

The letter was signed by every member of the Assembly GOP caucus except for Scott

AMERICAN OVERSIGHT

Allen, of Waukesha, and Loren Oldenburg, of Viroqua.

See the release and the letter:
https://www.wispolitics.com/2020/rep-vos-assembly-gop-send-governor-list-of-priorities-for-federal-stimulus-dollars/

-- Two Dem appointees to the Elections Commission called Republicans' failure to address voter safety during Saturday's special session "unconscionable" and an "abdication of your constitutional responsibilities as our leaders."

In a letter to Senate Majority Leader Scott Fitzgerald and Assembly Speaker Robin Vos yesterday, Ann Jacobs and Mark Thomsen wrote "we simply cannot guarantee" the safety of those who didn't request an absentee ballot and need to vote on Election Day or to register at the polls.

As of yesterday morning, Wisconsin voters had requested nearly 1.3 million absentee ballots, but only 703,048 had been returned.

The Dem commission members noted a lack of staffing that has resulted in 111 municipalities as of last week without sufficient workers to open a single polling site. They also pointed out Milwaukee plans just five polling sites rather than the usual 180, while Neenah is planning just one rather than six and Waukesha just one rather than 15.

On Saturday, Republicans quickly gaveled in the special sessions in nearly empty chambers and then recessed until today.

"In the face of a deepening and escalating COVID-19 crisis, forcing an in-person election on Tuesday not only threatens the voters, the clerks, and election staff, it threatens everyone those people subsequently come into contact with at home and elsewhere," they wrote. "A single asymptomatic virus-carrying poll worker could transmit the virus to hundreds of people on
election day, creating a disease vector that would devastate a community."

Read the letter:
https://www.wispolitics.com/wp-content/uploads/2020/04/200405Letter2.pdf

-- Meanwhile, Dean Knudson, a former GOP lawmaker and the current chair of the Elections Commission, insisted the election must go on as planned.

Knudson noted on Twitter that elections still went on after the British invaded Washington, D.C., in 1814, during the Civil War and amid the 1918 influenza pandemic.

He pointed out the number of absentee ballots already mailed, saying the election will

AMERICAN OVERSIGHT

be 80 percent mail-in compared to normally being 80 percent in-person, a switch that occurred in a matter of weeks. Knudson said that "demonstrates the flexible and adaptable nature of Wisconsin's voting laws."

"Everything is in place for our elections to go forward," Knudson wrote. "Don't let fear and panic derail our democracy. Instead let's pull together to help ensure we minimize health risks in polling places while protecting the integrity of our elections."

See the thread:
https://twitter.com/deanknudson/status/1246546123952709634

-- The Department of Administration says the Capitol will be open to the public starting at 9 a.m. today for the special session.

The building has been closed to the public since March 26, but was opened Saturday for the special session. It will close again one hour after the special session.

-- Gov. Tony Evers announced over the weekend the president has approved a major disaster declaration for the state as a result of the COVID-19 pandemic.

See the release:
https://www.wispolitics.com/2020/gov-evers-wisconsin-granted-federal-disaster-declaration-due-to-covid-19-pandemic/

-- Both Joe Biden and Bernie Sanders have now endorsed Dane County Judge Jill Karofsky in this spring's Supreme Court race.

Biden announced his endorsement Friday evening. Earlier in the day, President Trump suggested Gov. Tony Evers called for moving Wisconsin to a mail-in election with deadlines in May because of his endorsement of conservative Justice Daniel Kelly.

Trump had earlier praised Kelly at a Wisconsin rally with video of that playing prominently in the TV ad of one outside group. Around noon Friday, the president sent a tweet stating Kelly had his "complete endorsement." Hours later, Trump claimed his endorsement of Kelly via social media had sent the justice's poll numbers "through the roof."

Trump, who questioned why Evers didn't call for delaying the election two weeks ago, also expressed his opposition to allowing ballots to be mailed in, saying voters should have to cast ballots at the polls while presenting a voter ID.

See video of Trump's answer:
https://www.youtube.com/watch?v=IT_P4Hpw2c4&feature=youtu.be

AMERICAN OVERSIGHT

-- Assembly leaders split on the question of moving forward with Tuesday's election, with Majority Leader Jim Steineke saying this is no time to "upend" things, and Minority Leader Gordon Hintz warning of "catastrophic consequences" of going ahead with the vote during a pandemic.

Both lawmakers appeared Sunday on "UpFront," produced in partnership with WisPolitics.com.

Gov. Tony Evers on Friday called a special session, asking lawmakers to meet on Saturday to delay the election until May, and move it to all mail-in balloting. Republicans rejected his request, and the session was quickly gaveled in and out on Saturday.

"To come in at the last minute and try to upend things, and do an election in a completely different way that we just don't have the infrastructure for right now, or the security just to secure the votes, just doesn't make sense," said Steineke, R-Kaukauna.

Steineke knocked the governor for "feckless leadership" for waiting until roughly 100 hours before the election to call for delaying it.

"He's got to give some people some certainty. ... (Y)ou've got to take some strong positions and stick to them to give people some certainty on how things are going to go," Steineke said. "And that's one of the frustrations that we've had."

"UpFront" host Adrienne Pedersen about the wisdom of asking people to show up and vote during a deadly pandemic.

"This is a challenging time for all of us. When it comes to this election process, we looked at everything. There is no good answer," Steineke said.

-- In a separate interview, Hintz said there is still time for lawmakers to meet and move the election. He said asking people to go to the polls on Tuesday goes against everything that state officials are telling them with a stay-at-home order to slow the spread of COVID-19.

"This is increasingly looking like a terrible decision and certainly by Tuesday there will be significant risk of transmission, spreading of the virus, and obviously overwhelming our hospitals, which I think are already feeling the weight of how fast this is spreading," said Hintz, D-Oshkosh.

"We can still act, and we can prevent this from happening in a legally certain way," he said about the Legislature. "We have the ability to act."

Pedersen asked Hintz why other states had been able to postpone their elections, and

AMERICAN OVERSIGHT

not Wisconsin. Hintz said other states have different statutes and had a longer time frame in which to act. Wisconsin lacked a "clear path," he said.

"I think we'll really regret going through with this," Hintz said.

-- In another segment, two political strategists said the race for Wisconsin Supreme Court is a "coin flip" heading into Tuesday. Democrat Joe Zepecki and Republican Brian Reisinger discussed the effect of the outbreak on the election and the campaigns.

-- Lawmakers last week circulated one bill for co-sponsorship, with JFC Co-chair John Nygren pushing a bill that would require the executive branch to notify the Legislature and his committee when it takes action to deal with a public health emergency.

That notification would include the start and end dates of the plan, as well as procedures and actions taken.

See the Association of Wisconsin Lobbyist's summary of last week's bills circulated, including links to the co-sponsorship memos:

Citing Public Health Emergency, Evers Calls For Delay Of April Election
... after evaluating the growing "surge" of COVID-19 cases ... coupled with a dramatic decrease in polling places. [Milwaukee Election Commission on Friday announced poll worker shortage cut polling places from 180 to 5.] ... Evers announced Friday that he was calling a special session of the Legislature to extend the election, just three days before Wisconsin voters were scheduled to head to the polls. ... send absentee ballots to millions of registered voters who hadn't requested them already. Voters would then have until May 19 to return the ballots. ... "Yeah, it's late in the game, there's no question," Evers told reporters at a media briefing Friday [conceding he hadn't yet spoken to Speaker Vos, Leader Fitzgerald]. "I'm hopeful that common sense will prevail. ... "The virus sets the timetable, not me, not Robin Vos and not Scott Fitzgerald," Evers said. "So the time is now." Vos-Fitzgerald statement said too late, "Hundreds of thousands of workers are going to their jobs every day, serving in essential roles in our society. There's no question that an election is just as important as getting take-out food." Rehash Conley rulings, upheld in part [April 13 extension] by Seventh Circuit, struck down [witness-less ballots]. Vos and Fitzgerald said Friday night that they planned to appeal the April 13 extension to the U.S. Supreme Court. Asked if he could stop election unilaterally, Evers said, "If they take no action, we'll be looking at whatever

action we can take."
https://www.wpr.org/citing-public-health-emergency-evers-calls-delay-april-election

Evers denies Assembly GOP request to allow in-person Easter and Passover services
... "It is more important than ever that we allow Wisconsinites to observe their individual faiths," [Speaker Vos, GOP caucus] wrote in a Friday letter to Evers. "To that end, we ask that you work with Wisconsin churches and temples to allow them to hold Easter or Passover services, even if it's outside." Evers declined ... "As a state and as a nation, we are heading into the worst of this public health crisis," [Baldauff for Evers] said. "The governor understands that for many Wisconsinites their faith is a source of comfort, especially in these difficult times, but in order to protect the health and safety of all Wisconsinites he will not be rolling back the provisions of the Safer at Home order. ... We continue to call on Republicans in the legislature to do their part to ensure public health and safety."... "This disease does not have a religious exemption," [Mayor] Barrett said. "As much as I would love this disease to have a religious exemption, a family exemption, a voting exemption, it does not. And it's not just the people who would attend these services, but it would be the people that they would infect. ... It is disappointing that somehow we have so many people in state government right now who want to make believe that we're exempt from this thing. It's just ... it's mind-boggling." ... request came one day before Republicans ... stalled Evers' move to push back Tuesday's election ... On Saturday, they quickly adjourned a special legislative session about the matter. Surgeon General Adams urged staying home, "The next week is going to be our Pearl Harbor moment ... our 9/11 moment ... if we want to flatten that curve and get through to the other side ... you've got to be Rosie the Riveter, you've got to do your part."
https://www.jsonline.com/story/news/2020/04/05/2950830001/

Mayors across the state ask DHS Sec. Palm to stop in-person voting
... asking the Wisconsin Legislature to respect Governor Evers' request for a special session and create a solution that protects public health and the right to vote. ... "We believe the most logical way to accomplish an election that maintains the safer-at-home order is to mail every registered voter a ballot." ... Vos, Fitzgerald Reject Election Postponement; Will Appeal Other Changes To US Supreme Court
... Evers, a Democrat, called a special session of the Legislature for 4 p.m. Saturday [to convert to mail-in election, extend date]. By 4:05 p.m., the session was adjourned until Monday, though legislators signaled they didn't plan any action then, either. Evers tweeted, "Republicans in the Legislature are playing politics with public safety and ignoring the urgency of this public health crisis. It's wrong. No one should have to

AMERICAN OVERSIGHT

choose between their health and their right to vote. ... It's time for every Republican legislator to do their jobs and take a vote on this commonsense proposal to extend the election date so everyone can vote safely from home. I urge every Wisconsinite to contact their legislators and demand a vote." Vos, Fitzgerald seek stricter absentee rules, "We accept that clerks need more time to count ballots. We still have grave concerns about election security by allowing votes to be postmarked or submitted after Election Day, and plan to appeal that issue to the United States Supreme Court." Milwaukee Elections Commissioner Albrecht fretted disenfranchisement, "I'm hopeful this state, as it should, can move forward with that April 13 deadline [Conley's date for returning absentee ballots]. Any type of a reversal on that extension ... would further compromise the integrity of this election." Poll worker shortage has led to fewer precincts, raising possibility of large crowds and unsafe conditions.
https://www.wpr.org/wisconsin-gop-leaders-take-no-action-election-changes-seek-block-absentee-balloting-extension

Biden: Democratic National Convention 'may be virtual'
... "Well, we're going to have to do a convention. We may have to do a virtual convention. I think we should be thinking about that right now. The idea of holding the convention is going to be necessary. We may not be able to put 10, 20, 30,000 people in one place and that's very possible. Again let's see where it is -- and what we do between now and then is going to dictate a lot of that as well. But my point is that I think you've just got to follow the science," Biden told ABC News' chief anchor George Stephanopoulos. ... "Look, I think it's important to follow the science, listen to the experts and do what they tell you," Biden said. DNCC CEO Solomonese email: "The convention planning team will remain in constant communication with the local, state, and federal officials responsible for protecting public health and security, and will continue to follow their guidance." 2020 DNC Host Committee declined comment, punted to DNCC. MMAC chief Sheehy: "The result unfortunately is a fluid situation, without a permanent answer that August holds as the date for a physical convention, all we can do is prepare and hope."
https://www.bizjournals.com/milwaukee/news/2020/04/05/biden-democratic-national-convention-may-be.html

DNC chair Tom Perez remains '100% committed to Milwaukee' after delaying party convention [to week of August 17]
Democratic National Committee chair Tom Perez he remains "100% committed to Milwaukee" after organizers pushed back the party's convention to mid-August amid the coronavirus pandemic. ... "I continue to have optimism that we can make it work, especially with the delay," he said in an interview Friday, adding that postponing it "gives us greater options and a greater chance of being ably to carry off a successful convention." ... Even with the changes, Perez said he was "absolutely confident" the convention would still have a positive economic impact in Wisconsin, though he noted predicting the number of attendees at this point is hard. Attendance rates, he said, would "be a function of where things are come later in the spring." "The delay is going to maximize the likelihood of having more robust participation and more robust participation means more people in hotels, more people spending money in Wisconsin,"

he said.
https://madison.com/ct/news/local/govt-and-politics/dnc-chair-tom-perez-remains-100-committed-to-milwaukee-after-delaying-party-convention/article_37a6d633-6111-55bf-981d-db090cf0aae9.html

State could miss out on federal stimulus Medicaid payments if Legislature doesn't act
... [US Rep.] Pocan said "one of the last changes to happen" to the [CARES Act] allows Wisconsin to receive the increased funding in the first quarter despite the state's changes to its Medicaid program [upping premium, adding copays]. ... "We were able to get the Wisconsin fix (in the bill), but it's for the first quarter," Pocan said. "The legislature will have to deal with (making additional changes)." ... [DHS Sec. Palm letter to JFC said] pandemic "is likely to significantly increase Medicaid expenditures for the remainder of the biennium." ... Medicaid enrollment will likely increase as people lose coverage from employers. ... working with legislators "to make temporary program changes to qualify" ... on federal waiver approval for more flexible requirements in responding to the pandemic. ... Expanding Medicaid in Wisconsin has long been opposed by Republican lawmakers, and was stripped from the budget by [JFC]. 776,581 Wisconsinites were enrolled in BadgerCare Plus in February. Vos did not respond.

'Nobody's got a map for this mess': WI counties brace for unknown hit to sales tax
... 5% sales tax generates roughly $5.4B/yr ... roughly a third of the state's revenues ... All but four counties -- Manitowoc, Racine, Waukesha and Winnebago -- collect an optional 0.5% sales tax that was expected to bring in about $462M. ... On average, local sales tax accounts for about 9% of total county revenues ... "It's going to have a devastating impact," said [JeffCo's] DeVries ... where sales taxes account for 21% of GPR. "There's no doubt about it." ... "It won't just be sales tax that takes a hit," said [WPF's] Stein ... "It's not as if the other parts of the state budget are sheltered." WCA's Knapp estimated short-, long-term scenarios would lose from $37-56B, "There's so much we don't know. ... Retail is hard. There's not a lot, but there's a lot more online (sales) going on ... The big boxes are still open. People are still going to Walmart." ... full impact of the lockdown won't be seen until the end of May. WPF's Hencken, DaneCo's Hicklin, IowaCo's Hamilton, JUneauCo's Chipman comment.
https://madison.com/wsj/4c28771e-f777-5272-8c76-5f014f435fd0.html

[Ex rep.] Michelle Vos, wife of Speaker, calls coronavirus measures an 'overreaction'
... [mid-March] on her personal Facebook page. "I want to go on record and say we could be unnecessarily destroying our economy," she wrote. "COVID IS NOT AIRBORNE (droplets yes, airborne no)," she wrote. "My GOD we're over reacting." ... In another post, Vos wrote, "Yes people will die of this. It just isn't worth shutting down our whole economy - except grocery stores. In my opinion." ... Vos declined to comment, saying she doesn't want people to misconstrue her opinions as being those of Assembly

AMERICAN OVERSIGHT

Speaker Robin Vos. Rehash Assembly GOP request, denied by EVers, to allow in-person religious services for Easter, Passover. Speaker Vos tweet accused Milwaukee Elections chief Albrecht of wanting "problems instead of actual solutions" for poll/poll workers shortages.

Wisconsin Academy of Physician Assistants

From WisPolitics.com ...

-- The Wisconsin Elections Commission deadlocked during an emergency meeting on whether to investigate the Dane and Milwaukee County clerks over

their advice for those casting mail-in absentee ballots.

The clerks advised voters they could indicate they were indefinitely confined to avoid having to provide IDs to cast the ballots. That advice was prompted by concerns some who are in isolation or feared going to the polls due to the COVID-19 pandemic may not have the technology or know-how to provide a copy of their ID with the mail-in ballots.

Republican Commissioner Bob Spindell first proposed on Friday to start an investigation of Milwaukee County Clerk George Christenson and Dane County Clerk Scott McDonell, but that was shot down because it wasn't on the agenda.

The agenda for yesterday included a separate item for each clerk, calling for an investigation into whether each "has failed to comply with the law or abused the discretion vested in him or her by law or proposes to do so."

Commissioners also convened in closed session to discuss lawsuits surrounding the April 7 election.

Spindell walked back from his push for investigations during yesterday's meeting, putting forth motions that instead called for notifying the clerks their guidance was wrong.

"I do not believe that we need to have an investigation into this matter," Spindell said. "I think all we need to do is to deliver the message to the Milwaukee County clerk and the Dane County clerk that their advice regarding indefinite confinement was wrong."

Both were shot down with 3-3 votes, with all Republican members voting to proceed with notifying the clerks, and all Dems voting against doing so.

Commissioners also voted 3-3 on a motion to table the investigation into McDonell, with all Republican members voting against tabling it, and all Dems voting in favor of tabling. A similar vote was not taken for the investigation into Christenson.

A majority vote would have been required to proceed with any action.

Dem Commissioner Mark Thomsen criticized the commission for entertaining the idea of investigating clerks. He said they took action to alleviate a crisis in a "vacuum" left by the Legislature and governor. He said the commission should instead focus on making the election safe and getting enough poll workers.

"I'm certainly not going to vote for a motion that takes up public time to criticize two clerks that are trying to do their best so we can promote somebody's agenda in a lawsuit in the Supreme Court," he said. "I think that's beneath us as an institution."

See a report on Friday's commission meeting below.

AMERICAN OVERSIGHT

-- McDonell has until 1 p.m. today to respond to the state GOP's request for the Supreme Court to rule that he and other clerks don't have the authority to allow all voters to escape the voter ID requirements for absentee voting due to the COVID-19 pandemic.

The party filed the request late Friday, also seeking a declaration from the court to make clear the Gov. Tony Evers' stay-at-home order "does not and cannot affect the rules and procedures under" Wisconsin's election laws.

Following the filing, the court set today's deadline for McDonell to respond.

See the order:
https://www.wispolitics.com/wp-content/uploads/2020/03/200327Order1.pdf

See more on the filing:
https://www.wispolitics.com/2020/wisgop-urges-supreme-court-to-rule-voters-cant-get-around-voter-id-for-absentee-ballot-due-to-covid-19-pandemic/

-- Gov. Tony Evers tweeted the state had received about half of the personal protection equipment it has requested from the Strategic National Stockpile and has been working to begin distributing it to local communities.

Evers' announcement came after his office and GOP lawmakers tussled over the administration's efforts to get ventilators and masks amid the COVID-19 pandemic.

The guv tweeted his administration has requested:

*54,709 N95 respirators
*130,326 surgical masks
*24,816 face shields
*20,233 surgical gowns
*104 coveralls
*72,044 gloves

The dustup between Evers and Senate Majority Leader Scott Ftizgerald, R-Juneau, and Assembly Speaker Robin Vos, R-Rochester, came as the guv's office released the draft of a bill he's proposing that seeks more than $800 million to address the pandemic.

See Evers' Twitter thread:
https://twitter.com/GovEvers/status/1244350721828544517

See more on the guv's proposal to address COVID-19:
https://www.wispolitics.com/2020/evers-seeks-more-than-800-million-to-address-covid-19-pandemic/

AMERICAN OVERSIGHT

-- As of yesterday afternoon, the state was up to 13 deaths from COVID-19.

The Department of Health Services reported 1,112 positive tests for the virus, up from 842 on Friday. There also have been 16,550 negatives.

Click here for links to coronavirus information and resources:
https://www.wispolitics.com/2020/coronavirus-resources/

-- A judge has consolidated three of the remaining federal lawsuits seeking changes to the April 7 election.

Along with issuing that order late Saturday, U.S. Judge William Conley also denied a request from GOP lawmakers to intervene in the suit. But he allowed the state and national Republican parties to join the suit.

Meanwhile, Evers has appointed Dan Bach as special counsel for the state Elections Commission in the suit. The three assistant AGs who had been defending the agency withdrew.

See the order to consolidate the suits:
https://www.wispolitics.com/wp-content/uploads/2020/03/200329Order.pdf

See the order on the motion to intervene:
https://www.wispolitics.com/wp-content/uploads/2020/03/200329Intervene.pdf

-- Bernie Sanders announced this morning U.S. Rep. Mark Pocan will chair his state campaign in Wisconsin while rolling out the vice-chairs and a series of endorsements.

The seven vice-chairs include state Rep. David Bowen, who was the only Wisconsin superdelegate in 2016 to endorse Sanders.

See the release:
https://www.wispolitics.com/2020/sanders-campaign-welcomes-wisconsin-state-chairs-and-slate-of-endorsements/

-- State Rep. Sheila Stubbs says she won't run for the Senate seat being vacated by longtime lawmaker Fred Risser, D-Madison, saying now is not the right time for her or her family.

"I look forward to continuing my service in the Assembly representing a beautiful

AMERICAN OVERSIGHT

district," said Stubbs, who won her seat in 2018.

So far, four Dems have announced plans to run for the seat: William Henry Davis III, a write-in candidate for lt. guv in 2018; Nada Elmikashfi, whose website says she will graduate from UW-Madison in May and is a member of the Sustainable Madison Committee; Aisha Suraya Moe, who graduated from UW-Madison in December; and former state Rep. Kelda Roys, who ran for guv in 2018 and Congress in 2012.

Scot Ross, the former head of the liberal One Wisconsin Now, is also considering a run.

-- There are not enough supplies to follow through on Gov. Tony Evers' proposal to send every registered voter an absentee ballot, according to the state's top election official.

Evers on Friday released a video calling for lawmakers to change state statutes to conduct the upcoming April 7 election by mail-in ballot, a proposal Senate Majority Leader Scott Fitzgerald dismissed as a "complete fantasy" and "not logistically feasible."

At a Wisconsin Elections Commission teleconference hours after the video was released, Administrator Meagan Wolfe told commissioners clerks did not have enough ballots to follow through on the guv's proposal.

Wolfe said local clerks gauge the number of ballots they will need to print for each election based on "historical estimates." That could vary widely in municipalities that use direct-recording electronic voting machines. So-called DREs print a voter-verifiable paper audit trail as required under state law, but record votes into computer memory and do not use a paper ballot.

What's more, Wolfe said clerks wouldn't be able to order more ballots en masse, because elections vendors and printers who create the ballots are not considered essential personnel and are largely shut down. She added it would "not be advisable" to seek out a third party ballot manufacturer, noting the complexity of the ballots leave "a lot of opportunity for them not to be correct."

The commission during the meeting voted unanimously to approve: $200,000 in federally awarded grant funding for COVID-19 election supplies; an election day checklist and procedures for curbside voting, drive-through voting and outdoor polling places developed by the agency's staff; and updated guidance for hospitalized electors.

The commission also unanimously backed two of the three staff-authored updates to the guidance on indefinitely confined voters.

The first piece of guidance clarified the status was "for each individual voter to make based upon their current circumstance" and was appropriate based on age, physical illness, infirmity or being disabled for an indefinite period.

AMERICAN OVERSIGHT

The second piece affirmed the status should not be used solely to "avoid the photo ID requirement."

But after a lengthy debate, commissioners passed on taking up a third piece of guidance that advised a voter could claim indefinitely confined status if they have a valid ID but did "not have the technology to upload a copy or access to a printer or scanner to provide a copy of their ID."

Chair Dean Knudson argued that line would expand the definition of the status. But Dems Mark Thomsen and Ann Jacobs backed including the guidance after Wolfe said the commission had received a number of calls from elderly voters who felt healthy but were afraid to go out and don't know how to use the technology necessary to upload an ID.

After Knudson said the decision should be left up to the voter, Jacobs withdrew the guidance from consideration.

-- Tens of thousands of claims for unemployment benefits are being filed daily due to layoffs in the coronavirus shutdown, and the Department of Workforce Development has made adjustments to handle the increased volume, DWD Secretary Caleb Frostman said.

"We've been making some pretty serious improvements and innovations to make sure we are able to handle the call capacity," Frostman said in an interview aired Sunday on "UpFront," produced in partnership with WisPolitics.com.

Frostman said the call volume is "immense." He said 19,000 calls came in during a 15-minute period last Monday morning.

DWD is advising people to file initial claims online.

Frostman said 21,000 initial claims were filed last Monday, followed by an average of 19,000 claims daily on Tuesday, Wednesday and Thursday.

"Perhaps we've leveled off, but that sustained amount of new initial claims is still a serious amount of folks filing for unemployment," he said.

-- Also on the program, an economist said it's a "reasonable assessment" that the U.S. is already in a recession because of the pandemic.

Brian Jacobsen, chief portfolio strategist for Wells Fargo Funds Management, said available data and indexes indicate that "not just the U.S., but globally, we're in a recession."

AMERICAN OVERSIGHT

"Now what we're trying to figure out is what that recovery and rebound is going to look like," Jacobsen said.

"We believe that we are through most of the worst of it, but obviously, facts can change," he said.

-- In another segment, the creator of the popular "Wisconsin Foodie" television series said he fears the pandemic, and the economic shock it has caused, will wipe out a sizable number of Wisconsin restaurants.

Arthur Ircink said the Wisconsin Restaurant Association told him that in the first 22 days of the crisis, the industry lost $288 million in sales as restaurants were forced to close their doors or offer take-out service only. Ircink said the service industry has laid off 56,000 employees in Wisconsin.

"We're looking at about 13,000 drinking and eating establishments in Wisconsin, and I'd be shocked if 70 percent of those come back," Ircink said.

See more from the program:
http://www.wisn.com/upfront

-- Lawmakers last week circulated 19 bills for co-sponsorship, including a GOP proposal to create new legislative oversight when governors declare a state of emergency.

Many of the other bills introduced last week relate to the coronavirus pandemic, including proposals to change rules for absentee ballots during a state of emergency.

See the Association of Wisconsin Lobbyist's summary of last week's bills circulated, including links to the co-sponsorship memos:
https://www.wispolitics.com/wp-content/uploads/2020/03/200329AWL.pdf

Evers To Purchase Ventilators, Other PPE As Coronavirus Fight Escalates
... [Vos, Fitzgerald rejected Evers' $706M+] plan [that] would give [DHS "sum sufficient" power to spend whatever it deems necessary to address COVID-19. ... suspend ... voter ID requirement during a public health emergency, increase state payments to low-income residents and Evers ... to adjust the state's Medicaid rules to capture federal funding. ... approve a separate resolution that would extend his broad emergency powers to deal with COVID-19 "indefinitely." ... But [weekend] emails [show] Evers' plan is going nowhere ... in its current form. DOA Deputy Patton email to Vos, Fitzgerald said "any delay in action due to an inability to be nimble could have catastrophic consequences." Vos responded with LFB memo showing WI's $1.9B share of $2.2T federal stimulus, followed Sat. by letters from both leaders to Evers rejecting his "sum sufficient" request and noting he did not need Legislative approval to spend the $111.9B-Fed [which LFB's Lang verified], "While we wish circumstances were different so oversight was required, these new federal dollars do not appear to require any legislative oversight," and urged Evers to act "immediately and not delay." Gau for Evers emailed Vos and Fitzgerald Sat. night to "express my disappointment ...it seems you are more interested in having political squabbles [than in] saving lives and working to prevent the further spread of COVID-19," noted receiving "about 104,680 N95 respirators, 260,840 face/surgical masks, 48,168 face shields, 40,512 surgical gowns, 192 coveralls, and 70,375 pairs of gloves from the (Strategic National Stockpile)." Emails show Evers' staff had shared Evers' $796M plan with Vos, Fitzgerald on March 21. Evers now plans to buy up to 10K ventilators and 1M protective masks.

Evers Relaxes Rules To Boost Health Care Workforce During Pandemic
... [Evers, DHS Sec. Palm] order [broadens] PA's [and APRNs] ... "scope of practice" -- allowing them to practice in areas of medicine that match their experience and expertise, even if their supervising physician works in another field. Additionally, physicians may now supervise up to eight PAs, rather than four. [rule changes long sought by PA's/APRN's] ... simplifies license renewals [for] recent retirees with expired licenses to re-enter the practice. ... allows licensed out-of-state physicians to more easily practice in Wisconsin. ... adjusts clinical education requirements for nursing students who are close to graduation, allowing them to begin practicing sooner. Evers: "Our healthcare professionals are on the front lines of the COVID-19 crisis, and it is critical that we maximize the size of our work force and eliminate unnecessary barriers ... ensure that more Wisconsinites get the care they need, when they need it." Froedert/MCOW's Silkey: "This is extremely timely as we prepare for patient surges compounded with anticipated health care workforce illnesses and quarantines." WAPA's Doyle vowed "to work to remove unnecessary administrative burdens uniquely faced by PAs in this state."
https://www.wisconsinwatch.org/2020/03/evers-health-care-workforce-coronavirus/

DHS: 1,112 Confirmed COVID-19 Cases In Wisconsin

AMERICAN OVERSIGHT

... as well as 16,550 negative tests. ... 18 people in Wisconsin have died ... one death each in Dane, Fond du Lac, Iron, Sauk and Waupaca counties, three in Ozaukee County, and 10 in Milwaukee County [8 were African Americans living on northwest side.] ... Evers' ... "safer-at-home" order ... is in effect until April 24, or until another order is issued. ... Without further restrictions on movement, DHS officials [foresee 22K positives by April 8, and 440-1,500 deaths].
https://www.wpr.org/dhs-1-112-confirmed-covid-19-cases-wisconsin

COVID-19 Deaths Concentrated In Milwaukee's African American Community
... eight of [14 statewide] were African Americans living on the city's northwest side, and Milwaukee appears to be the only city in the country where this is happening. ... Evers called the deaths in Milwaukee "a crisis within a crisis." NW district Supv. Martin encouraged social distancing, "Is it a part of lack of communication ... our not touching all forms of media? Or are people not understanding how serious this virus is? And of course with our president saying it's not serious, it's a hoax, are people still holding onto that thought?" believes she has > 30 COVID-19 cases in her district.
https://www.wpr.org/covid-19-deaths-concentrated-milwaukees-african-american-community

With medical supplies dwindling in pandemic, WI businesses shift gears
... In a mobilization reminiscent of World War II, when factories worked around the clock to address military needs, Wisconsin businesses are responding to the COVID-19 pandemic by revving up production of medical supplies. Midwest Prototyping now making locally designed face shields, also being made by Ford Motor. Doundrins Distilling, Attwill Medical, Yahara Bay Distillers making hand sanitizer. UW's Zeeh Pharmaceutical Experiment Station making delivering bottles of "Badger-ell" hand sanitizer. GE Healthcare making ventilators, under emergency contract accord with Machinists Union. Placon and Plastic Ingenuity making components for the manufacturers, such as the clear plastic film. Monterey Mills, Eder Flag coordinating to make washable and reusable masks. Promega and Aldevron making ingredients for COVID test. UW Health's Scheuer said PPE could run out if supplies are backordered, "We're not out of anything, but I think that's because we're using careful conservation and intelligent use of what we have." Details, comment.
https://madison.com/wsj/faa84ab5-cc5b-56bc-a5ae-8a047dd64a20.html

WI workers, small businesses, eye COVID-19 stimulus to get through hard times
... One Barrel Brewing Co. owner Peter Gentry hopes the COVID-19 stimulus bill will help him pay the 15 employees he had to lay off because of the crisis. ... bartender [Moreland] has been laid off since bars and restaurants were ordered to close on St. Patrick's Day ... "I was definitely able to pay my rent this month," she said, "and I think I'll be able to pay my rent next month. I don't think I will be able to if it continues longer than that." ... one of an astonishing 177,000 state workers -- and 3.3 million nationwide -- who have filed jobless claims over the past two weeks, and there appears to be no signs of letting up. ... [CARES Act] will boost unemployment benefits across the board by $600 a week, bringing most workers up to pre-layoff wages. ... provide most adults with $1,200 checks, tax-free, and $500 for children under 16. ... also provide benefits to

AMERICAN OVERSIGHT

those not eligible for state benefits, like gig workers and the self-employed. Gentry, DWD's Tichenor, UW's Collins comment.
https://madison.com/ct/41ffc053-5ffc-5f85-b00e-865917fbcbee.html

Coronavirus has hit WI dairy farms especially hard -- some farmers may even have to dump milk
... "The coronavirus outbreak has caused milk prices to drop down to unprofitable levels this spring, right when we need money to buy supplies for the spring planting season," said [FarmFirst Dairy Coop's] Rettler ... [Feb.'s price] optimism has disappeared. Now, farmers are simply looking for ways to ensure their milk continues to get picked up in the coming weeks as the situation continues to play out." ... Foremost Farms ... recently asked its members to reduce the amount of milk they produce, citing "the extreme nature of the coronavirus situation and the impact on the economy." ... "I worry about additional heavy farm losses this year," said [UW's] Stephenson ... [$2T stimulus] ... "It is hard to have perspective when the rules of how things work are continuously shifting under your feet," said [UWP's] Bernhardt ... "I have heard some call the $9.5 billion a slush fund," because how it will be spent is unclear, said [Edge Coop's] Stauffacher ... "This is crushing refineries and ethanol producers," said Alex Breitinger, a commodities futures broker in Indiana. WFU's Von Ruden and Slattery, Pork Producers' Monroe, FarmFirst Dairy Coop's Scharfman comment.

Elections Agency Deadlocks On Plan To Chastise Clerks' Pandemic Guidance
... [Dane, Milwaukee] clerks have been advising voters confined during the virus' spread to indicate they are "indefinitely confined" on their mail-in ballot applications. ... bypass[ing] a requirement to include a copy of an ID valid for voting ... [RPW found advice overbroad] filed a lawsuit against the clerks on Friday. WEC in Sunday meeting was set to launch an investigation, but Commissioners Thomsen and SPindell backed away and a vote to reprimand the clerks tied on 3-3 party-line. Thomsen led Dems arguing clerks were "doing their best in the crisis."
https://www.wpr.org/elections-agency-deadlocks-plan-chastise-clerks-pandemic-guidance

Federal Judge Blocks Effort To Delay Wisconsin Election Over Coronavirus
... Judge William C. Griesbach dismissed [GB's] case on the grounds that ... "the City and its mayor are not the proper parties to bring such a claim in federal court." ... another federal case ... brought by a coalition of advocacy groups. ... may have the standing necessary ... Just hours before the federal ruling ... [RPW] lawsuit ... filed with the state Supreme Court on Friday evening [seeking original jurisdiction] ... argues Dane and Milwaukee County clerks have been providing illegal guidance to voters about circumventing the state's voter ID law amid the pandemic. RPW chair Hitt praised clerks who "have effectively managed the current crisis, other clerks are unilaterally rewriting our state's election laws and encouraging other clerks around the state to follow suit." Rehash WEC meeting over the advice. WEC dir. Wolfe memo denounced using the "indefinitely confined" option simply as a means of circumventing the voter ID law, "Designation of indefinitely confined status is for each individual voter to make

AMERICAN OVERSIGHT

based upon their current circumstance," which the Board adopted as policy. Wolfe memo also noted $138K-FED spent on election supplies, including additional absentee ballot envelopes and nearly 6,000 bottles of ethyl alcohol, sought approval to use up to another $200K-FED for things including 1.5M pens to avoid voters re-using pens, which the Board approved unanimously. Memo also outlined $248K PR campaign including social media outreach, listed advice to clerks for running election, including keeping doors open to avoid touching knobs, screening questions to ensure poll workers are symptom-free and signage asking voters not to enter if they have symptoms and keep social distance, empowered clerks to move voting outside or use drive-thru, noted said "curbside voting" cannot be offered to every voter, guided clerks on transporting ballots from quarantined voters and getting required witness signatures.

New Co. Exec will oversee response to the coronavirus that shut down campaigns
... Chris Larson vs. David Crowley ... as voters sit in judgment, they'll have to determine which candidate is up for the challenge. And they'll have to make their choice without having seen the usual array of debates and personal appearances since politicking has been shut down for weeks by the public health crisis. ... They may both be Democrats, but they aren't running in lockstep. "This difference is leadership, the difference is experience," Larson said. "I've served in office, I've learned along the way." "The senator has been there, and he's been fighting," Crowley said. "I've only been there for a short stint, and I've been doing. You need fighters in the Legislature, but you need a doer in the executive office." [career backgrounds in brief] ... Larson isn't just running against Crowley. He is also running against Abele's money. ... "What does he want?" Larson asked of Abele. "Why is he spending this much money? What does he expect? I don't know, and frankly, I don't think the public knows, but I know they are very skeptical." Larson, Crowley statements preview their first official actions if elected.

Subject: MON AM Update: Evers orders utility disconnections halted for all customers; Supreme Court postpones jury trials, in-person proceedings statewide

MON AM Update -- 23 March 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

Advertisement

The Madison Club

From WisPolitics.com ...

-- Gov. Tony Evers took action to stop utility disconnections for all customers due to nonpayment and block late fees.

AMERICAN OVERSIGHT

He's also directed DPI to suspend administrative rules relating to hours of instruction and student teacher assessments.

They're just the latest steps the state has taken in response to the coronavirus pandemic.

Evers' order on the Public Service Commission expands the ban on disconnection for nonpayment to all customers, including commercial, industrial and farm accounts. It previously applied to residential accounts only.

Other impacts include:

*ceasing the practice of requiring deposits for reconnecting services;
*allowing deferred payment agreements for those who request them;
*authorizing water utilities to provide budget billing arrangements to customers similar to what electrical and natural gas utilities are allowed to offer.

The DPI order allows the streamlining of the waiver process for instruction at public schools and student teachers in preparation programs to graduate on time this spring. It also gives the agency flexibility to address upcoming due dates.

Over the weekend, Corrections announced it would no longer accept transfers to the state prison system, and Revenue announced it was pushing back the deadline to file state taxes to July 15.

See the releases:
https://www.wispolitics.com/2020/gov-evers-suspends-utility-rules-and-allows-for-additional-consumer-protections/
https://www.wispolitics.com/2020/gov-evers-announces-new-order-relating-to-department-of-public-instruction/

-- The state Supreme Court has largely postponed jury trials and in-person proceedings statewide.

Jury trials scheduled to begin between now and May 22 will be rescheduled after that date. Meanwhile, judges, commissioners and clerks are required to use email, teleconferencing and video conferencing instead of in-person courtroom appearances through at least April 30.

See the release:
https://www.wispolitics.com/2020/wisconsin-supreme-court-puts-hold-on-jury-trials-halts-in-person-proceedings-statewide-in-favor-of-phone-and-video-appearances/

AMERICAN OVERSIGHT

-- As of Sunday afternoon, the state was at 381 confirmed cases of COVID-19 and four deaths.

Twenty-nine counties have confirmed cases.

See more:
https://www.dhs.wisconsin.gov/outbreaks/index.htm

-- The Elections Commission says it will need to test changes to its online voter registration system before the public can begin using it again.

Late Friday, a federal judge extended the deadline to March 30 to register electronically to vote in the spring election.

The cutoff had been March 18, but U.S. Judge William Conley delayed that due to the coronavirus pandemic. Without the order, those who weren't already registered would've had to go to a clerk's office to register in order to receive an absentee ballot or register at the polls on Election Day.

Elections Commission spokesman Reid Magney said restarting the system wasn't "as simple as reposting an online form." He said the public and local election officials will be updated as soon as MyVote Wisconsin is ready.

"With the election underway, we need to be very careful to test this change to ensure it does not adversely affect other functions, including absentee ballot requests," Magney said.

In his Friday order, Conley denied two other requests from state and national Dems as they sought to relax Wisconsin regulations on absentee ballots. But he reserved the option for Dems to again ask him to extend the deadline for counting absentee ballots if they can show there's a need to do so.

He also didn't extend the deadline to register by mail, as Dems had asked. Conley ruled doing so would've given some voters a "false sense of confidence" their mail-in registration would've been received in time to vote absentee in the April 7 election.

Read the ruling:
https://www.wispolitics.com/wp-content/uploads/2020/03/200320Ruling.pdf

-- Gov. Tony Evers continued over the weekend to encourage people to stay home while his administration took additional steps to combat the spread of the coronavirus.

On Saturday, he issued a statement urging people to take steps to help prevent

AMERICAN OVERSIGHT

exposure to the illness and posted a video on social media.

"Whatever we can do to stay at home will help those healthcare workers do the jobs that they need to do to help us get through this," Evers said.

-- The Legislature's top Republicans are signaling they don't believe additional restrictions are needed on Wisconsin businesses.

On Friday, Gov. Tony Evers updated his ban on mass gatherings and shut down personal care businesses such as hair salons, day spas, nail salons, barbershops, tattoo parlors, body art establishments and tanning facilities. But he told reporters he wasn't considering an order to shelter in place, but "will follow the science on that."

Senate Majority Leader Scott Fitzgerald and Senate President Roger Roth, along with Assembly Speaker Robin Vos and Assembly Majority Leader Jim Steineke said in Saturday's statement they backed the guv saying "that a further shutdown of businesses in Wisconsin is unnecessary."

The four said the impact on state residents and businesses has already been tremendous.

"As we move forward together in this fight to defeat the virus, we must keep in mind that the people we serve need the jobs they have today to help weather this storm," the four said. "Continued economic activity will not only help us in our fight against this virus today, it will also ensure that we don't have to fight to recover from economic collapse tomorrow."

They also thanked the Evers administration for their efforts to open lines of communication and those who are on the front lines of the pandemic.

See the release:

https://www.wispolitics.com/2020/reps-steineke-vos-sens-fitzgerald-roth-legislative-leaders-react-to-states-covid-19-response/

AMERICAN OVERSIGHT

-- Wisconsin Emergency Management is asking the feds for help in obtaining protective medical supplies for law enforcement officers and firefighters who are at risk of direct exposure to COVID-19.

The list includes: 50,000 non-surgical masks, 10,000 face shields, 11,000 coveralls, 3,000 N95 face masks, and 35,000 pairs of protective gloves.

See the release:
https://www.wispolitics.com/2020/gov-evers-wisconsin-requests-fema-assistance-in-obtaining-protective-medical-supplies/

-- The remaining four Wisconsin citizens who were aboard the Grand Princess cruise ship have arrived back in the state.

The Wisconsin National Guard helped transport them back home for self-quarantine after an outbreak of coronavirus on the ship.

See the release:
https://www.wispolitics.com/2020/gov-evers-announces-four-remaining-grand-princess-cruise-ship-passengers-return-to-wisconsin/

-- U.S. Sens. Tammy Baldwin, D-Madison, and Ron Johnson, R-Oshkosh, have asked Secretary of State Mike Pompeo for help to secure the return of Wisconsinites stranded abroad due to travel restrictions.

Both sent separate letters to Pompeo; Baldwin's also went to Defense Secretary Mark Esper.

Johnson's office said it's been helping travelers in more than a dozen countries.

"These Americans are scared, desperate and running out of hope," Johnson wrote. "I hope you will give your fullest and most immediate consideration to this request, and I appreciate your time and consideration to this urgent matter."

Read the Johnson letter:
https://www.ronjohnson.senate.gov/public/_cache/files/8f8772ad-98cd-45e4-b396-6b5fa59acab2/letter-to-pompeo.pdf

See Baldwin's tweet on her letter:
https://twitter.com/SenatorBaldwin/status/1241755736436281346

-- Johnson and Baldwin, split on a procedural vote on a $1.6 trillion emergency stimulus package as it failed to advance.

AMERICAN OVERSIGHT

Yesterday's motion failed 47-47; it needed 60 votes to advance.

Johnson, R-Oshkosh, supported the motion, while Baldwin, D-Madison, opposed it.

Baldwin tweeted yesterday there shouldn't be a "bailout or slush fund" for large corporations.

"Our economic stimulus response should be bipartisan and we must put workers first and provide our hospitals with the support they need. Instead, Mitch McConnell wants to provide a corporate bailout slush fund without accountability. Let's fix this, get it right and get it done," she wrote.

See the roll call:
https://www.senate.gov/legislative/LIS/roll_call_lists/roll_call_vote_cfm.cfm?congress=116&session=2&vote=00077

-- WISN-TV and Marquette University Law School have canceled debates in the Wisconsin Supreme Court race and Milwaukee mayor's contest, citing rapidly changing developments in the COVID-19 situation.

The decision was made based on the safety and health of the candidates, staffs and those involved in the production.

The cancelation means the forum at the Milwaukee Bar Association was the final forum featuring the two Supreme Court candidates side-by-side through the April 7 election. The debate Wisconsin Public TV had planned will instead be the airing Friday of back-to-back interviews with the candidates.

See the release:
https://www.wispolitics.com/2020/wisn-milwaukee-mayor-and-wisconsin-supreme-court-debates-cancelled/

-- Milwaukee Mayor Tom Barrett, in self-quarantine after a COVID-19 exposure, said his message to others is "stay at home."

"My strongest message to people is, please, you're safer at home. So please, stay home," the mayor said in a Skype interview from his home on "UpFront." The program is produced in partnership with WisPolitics.com.

"It's not just about you. It's about everybody else, because you may be a carrier," Barrett said.

Barrett went into self-quarantine after learning that a member of his staff tested positive

AMERICAN OVERSIGHT

for COVID-19. He said that person is doing well.

Barrett said he is running the city from home through technology and making phone calls to people.

"We're trying to do everything we can to make sure that these core city functions are still operating," he said.

"We've had meetings with our EOC, I've had other meetings, and they've all taken place either over Skype or Zoom or conference calls. So again, I haven't slowed down; it's just a different type of communication. I think around the nation this is what people who are working from home are experiencing right now," Barrett said.

-- Also on the program, two members of the Wisconsin Elections Commission discussed the April 7 election.

Commission Chairman Dean Knudson of Hudson, a Republican, said it is "vitally important" that the election go forward "because we need to have continuity in local government."

He said thousands of local government offices will be on the April 7 ballot, and the terms of those offices expire later in April.

"We can't have vacancies in mayor and city council spots during a time of crisis," he said.

But Commissioner Ann Jacobs of Milwaukee, a Democrat, said changes are needed so people can vote "without having to expose themselves to the coronavirus."

"We shouldn't be asking people to have to choose between the right to vote and the right to be safe," she said. "Those are things that can happen at the same time."

-- In another segment, a Wisconsin Hospital Association official said the greatest concern for hospitals right now is a "potential surge of large numbers of patients critically ill with COVID-19."

"We know there will be a wave of sick COVID-19 patients," said Dr. Mark Kaufman, chief medical officer for the Wisconsin Hospital Association. "But the question really is how quickly that's going to happen, and how serious that wave will be."

Wisconsin Academy of Physician Assistants

TOP HEADLINES

Local leaders warn Evers: Voters at risk from COVID-19
... Evers has insisted [April 7] election go on as scheduled, saying people should vote by absentee ballot rather than travel to the polls. ... [as] state's confirmed cases of COVID-19 jumped to 381 [Sunday, 61 in DaneCo], up from 281 [49] a day earlier. ... Almost 225 local leaders [mayors, admins, clerks, etc., statewide] signed the letter telling Evers that the state hasn't done enough to protect voters. [warning of health risks of large gatherings, suggests only] "more needs to be one and done quickly. ... the potential for disenfranchisement is actually higher if we proceed like we are. Many people will stay away from the polls for fear of contacting COVID-19, or spreading it, unless something changes." Baldauff for Evers cited Friday letter from legal counsel Nilsestuen to WEC's Wolfe noting DOA working to secure more envelopes for absentee ballots, to find hand sanitizer for poll workers, to help volunteer orgs recruit poll workers. Also Sunday, the Evers signed EO's allowing school districts to seek DPI waiver from school day req, banning utility cut-offs for non-payment, commercial and residential, banning late fees, mandating deferred payment plans on request. Also, WNG sent 6 medics to Grafton senior center where patient died, some residents, staff tested positive. Evers directed EmergMgt to seek more PPE from FEMA stockpile for first responders. So far, WI has received about 52K N95 masks, 130K surgical masks, 25K face shields, 20K surgical gowns, 100 coveralls and 36K pairs of gloves from the stockpile, for areas with community spread.

'That's totally way out': Ron Johnson comments on coronavirus draw fire from Fauci at White House briefing
... reporter asked President Donald Trump to respond to Johnson's widely publicized remarks that, "We don't shut down our economy because tens of thousands of people die on the highways" and that no more than 3.4% of those infected will die. ... Trump eventually asked Fauci to take the question. ... "First of all, I think that's a false equivalency to compare traffic accidents with (coronavirus) -- that's totally way out," said Fauci. "When you have something new and it's emerging ... I don't think with any moral conscience you can say, 'Why don't we just let it rip and happen and let 'x' percent of the people die.' I don't understand that reasoning at all." Rehash Johnson's quote.
https://www.jsonline.com/story/news/2020/03/20/2886017001/

State Supreme Court temporarily bars jury trials, other court proceedings statewide
... through May 22 to protect the participants and the public from COVID-19 ... [including] a three-week homicide case that was scheduled for April before Circuit Judge Jill Karofsky ... allows certain exceptions to permit in-person proceedings if remote technology is not available or is inadequate. ... Roggensack said in a statement. "Our circuit court judges have taken strategic, proactive steps to keep each of their courts operating as safely and smoothly as possible since the start of this public health emergency. These orders provide another tool to use in that effort." ... Supreme Court postponed oral arguments before the body that were scheduled for March 30 and April 1. ... On March 12, Dane County became the first in the state to limit court appearances and activity due to the new coronavirus. [including Gadson trial before Karofsky, who rebuffed DA Ozanne request to set alternate date.] ... On Friday, Dane County Clerk of Court Carlo Esqueda temporarily stopped counter service ... building itself remains open.

Stretched Thin Already, WI Nurses Prepare For Coronavirus 'Storm'
Pandemic Tests Health Systems Already Running Lean; Hospitals Short Beds, Protective Gear, Staff ... "Not staffed for regular patient levels let alone potential influx of patients," one SSM St. Mary's nurse wrote [among 14 responses] to a survey distributed by the Cap Times, WPR and Wisconsin Watch. "Unless they put patients in hallways or create temporary tent hospitals, I don't know where we would put them." ... also interviewed nurses in Milwaukee and Monroe and emergency physicians in Madison and Green Bay. ... [follow up to] investigation earlier in March examin[ing] tension within Madison hospitals amid a nationwide shift to "manufacturing models" of health care. ... [using] data-powered algorithms to slash labor costs by cutting "waste," such as nurses with downtime. ... "We're short on a good day," one St. Mary's nurse said. "I can't imagine what's going to happen if we have a bunch of our staff get sick and taken out of the picture." Birth nurse Aumanstal said they're looking for two extra nurses for her unit, "This is happening over and over, and it's not just because of coronavirus. ... gonna kind of bring everything to the surface and escalate the issues that we're already seeing." Harvard analysis found Madison must triple available beds, Milwaukee and GB double beds, to meet "moderate scenario." [CT-WPR-WW] asked hospitals, county and state health depts.. and advocacy organizations for number of available beds and ICU beds but none responded. DHS on Friday announced 2,500 total ICU beds, but not number available. SEIU's Tetrault: "We are asked to fight a war without protective equipment for ourselves and asked to return to our families." DHS on Thursday declined to reveal how many health care personnel have tested positive. St. Mary's did not respond on staffing and preparedness policies. St. Mary's nurses described a communication breakdown and poor organization inside the hospital, exposure to potential COVID patients before policy was developed. St. Mary's nurses are broadly told to stay at home if exposed to a confirmed COVID-19 patient without protection, without guidance on whether they will be paid and new short-term disability benefit, if approved, only partially pays wages. "I'm probably going to have to dip into savings," said a nurse who has been sick with a fever for more than a week but tested negative. SEIIU called for emergency paid sick leave to

AMERICAN OVERSIGHT

cover all wages. Milwaukee nurses also fear exposure due to limited PPE. Regional coordinator Behnke said bad flu season has made borrowing unfeasible, noted plans for 120% capacity, but "everyone is afraid of the unknown." UW Health Emergency doc Thompson cited reduced patient load as they reschedule elective procedures, but PPE still short, have to re-use, which DHA Dr. Westergard called "acceptable." While ventilators are in "fair supply," masks could run out in days and Aumanstal said masks are not properly fitted, exposed nurses being told to work until symptomatic. Dr. Teitge cited adequate ER PPE if re-used, but nurse Vowels said 30-day supply won't last long with 6-18 month outbreak. U-Mich. doc Chopra touts ways to prep gaining efficiencies. Teitge cited "huge amount of knowledge being shared right now" from epicenters like NYC, Seattle, China, Italy, "You can stop this by staying home, by following directions, by not going out when you're sick. When you need us, we're not going anywhere."
https://madison.com/ct/61985024-d039-516f-aacf-fb6981dcae9e.html

UW researchers study COVID-19 coronavirus to try to develop treatments, vaccines

... Talaat [whose vaccine is now in rat tests] is one of several scientists at the university studying the new coronavirus ... racing to come up with medical measures to stop it. ... Unlike the Seattle clinical trial's injection vaccine, Talaat's version would be a nasal spray ... "be easier to administer," said Talaat ... [WHO] said it will start a study in 10 countries of four drugs or drug combinations already licensed for other illnesses. ... [some] UW-Madison ... research has been halted or scaled back because the campus is nearly shut down ... But other studies continue, some involving a sample from the first person in Wisconsin to test positive, a Dane County resident who has recovered. ... [profs. O'Connor and Friedrich] are working with a [nat'l] coalition ... to study macaque monkeys [similar to 2016 Zika study] ... to assess how long infections last and which types of tissue most harbor the virus. ... also working to sequence viruses from infected people in Wisconsin to understand how the epidemic is developing here. ... [Prof.] Kawaoka is doing experiments with [DaneCo] sample and others [testing animal transmission, SARS and MERS also came from bats] ... at University Research Park in ... Biosafety Level 3 [labs] ... [prof.] Kirchdoerfer ... working with proteins ... to help identify treatments, but the immediate goal is to figure out how the virus infects cells. [but studies stopped Monday when non-essential workers were banned from campus] ... [Talaat's] studies of his human vaccine in mice had already started, so they can continue ... "Hopefully, we'll be able to get a good vaccine so we can help with this outbreak," he said.

Open Storefronts Struggle Amid New COVID-19 Restrictions

Limits On Gatherings Bring In Little Business During Coronavirus Pandemic ... "If you compare this Saturday to last Saturday, we're at one-seventh of what we normally take in," said Klarner [who runs Sweeden Sweets in SUperior]. "It's gone down sevenfold." [due to Evers' 10 or more ban] ... only about 40 people came by Saturday when the store is typically teeming ... looking at reducing hours beginning Monday and opening from 11:30 a.m. to 6:30 p.m. ... still have to make payroll and keep the lights on. ... Four of his 10-person staff have opted to stay home, one of whom has a family member

AMERICAN OVERSIGHT

considered vulnerable to the disease. ... Hankerson's Country Oven Bakery in West Bend usually has a staff of about 35 ... down to about a dozen ... only allowing five people in at a time. ... urging call-in orders ... worried about whether they'll be able to stay open. Sen. Taylor statement on Sat.: "As a state and city, we are seriously and financially impacting some businesses and activities, while others go uninterrupted. ... It's unfair." Baldauff for Evers did not respond. Evers on Friday announced SBA approved request for emergency loans up to $2M, has said he does not anticipate lockdowns like CA, IL. Klarner doubted borrowing for outbreak of unknown duration. Fitzgerald-Roth-Vos-Steineke statement on Sat. agreed Evers should not further restrict biz, "the people we serve need the jobs they have today to help weather this storm. Continued economic activity will not only help us in our fight against this virus today, it will also ensure that we don't have to fight to recover from economic collapse tomorrow."
https://www.wpr.org/open-storefronts-struggle-see-steady-business-amid-new-covid-19-restrictions

Last Call for Corner Bars? Some are doing carryouts. Many have shut down.
... Delivery, carryout and curbside pickup are still allowed, although that won't help corner bars like Anna's, which don't serve food. ... [city data shows] 917 businesses with active tavern licenses. Although many are restaurants that also serve alcohol or businesses that provide other services, a large number are corner bars that survive on thin margins like other small businesses. ... There could be some help on the way. On Wednesday, [WEDC] announced the creation of a $5 million program to provide grants of up to $20,000 for small businesses with no more than 20 employees. ... meant to help cover rent and payroll expenses, including paid leave, 3 bar owners comment.
https://urbanmilwaukee.com/2020/03/21/last-call-for-corner-bars/

DaneCo businesses, homeowners, renters safe from eviction for now amid pandemic
... Orders issued Tuesday and March 12 by Dane County presiding judge Valerie Bailey-Rihn suspended orders for eviction and effectively prevent pending or new eviction cases from being heard. Other county judges have done same. Supv. Wegleitner, a Legal Action atty., said orders don't stop "landlords in Dane County from starting the eviction process. ... At this point, absent some further extension or moratorium, I am expecting a very busy May to December in Dane County eviction court." Apartments' Eufinger said suspending evictions hurts new or small landlords struggling to pay mortgages, removes "the consequences of not paying rent," but noted landlords see need for compassion. Apartments' Mokler: "Despite what many people think, landlords are not wealthy." Madison CDA's Rakowski advised Section 8-ers to report income loss. County Housing's Dicke agreed. Trump administration on Wednesday ordered a 60-day moratorium on federal loan foreclosures and evictions.

'Boosting sales through the roof': In wake of the coronavirus pandemic, gun sales reach near Black Friday levels
Albright Gun Works LLC in Hartland sales have doubled since businesses began

AMERICAN OVERSIGHT

closing, "Ammo and gun sales are insane. It has not been like that since the last election," said Albright, cited spike in first-time owners of handguns, and more seasoned owners buying AR-15s. DOJ averaged about 380 background checks per day in 2019. Since Friday, they have averaged 1,452. 1,943 checks on Tuesday was just short of the 2,152 checks from Black Friday 2019. Ron's Gun's Lippold in Germantown said gun sales "went crazy" March 14 and 15. Fletcher Arms' Eaton in Waukesha dittoed, "Seven thousand percent. I don't think that it's measurable right now. ... People are worried and scared," as opposed to "excited" during concealed-carry boom. Alright said folks are worried about losing rights after reports that Champaign Mayor Feinen EO gave her right to temporarily ban guns, predicts boom will level off in June and pick up again before the November election. MGS Firearms' Grabowski still manufactures gun products, but stopped doing retail in January, "We could have been making a lot of money right now. My phone will not stop ringing. ... There is no ammunition available and no reasonable-priced hand guns," cited general distrust and lack of faith in the government to keep order. 71 y/o Vietnam vet Charette bought a $1,500 AR-15 rifle "for the apocalypse. I read this all on the internet, and that is my take on it."

Subject: MON AM Update: Evers orders utility disconnections halted for all customers; Supreme Court postpones jury trials, in-person proceedings statewide

MON AM Update -- 23 March 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

Advertisement

The Madison Club

From WisPolitics.com ...

-- Gov. Tony Evers took action to stop utility disconnections for all customers due to nonpayment and block late fees.

AMERICAN OVERSIGHT

He's also directed DPI to suspend administrative rules relating to hours of instruction and student teacher assessments.

They're just the latest steps the state has taken in response to the coronavirus pandemic.

Evers' order on the Public Service Commission expands the ban on disconnection for nonpayment to all customers, including commercial, industrial and farm accounts. It previously applied to residential accounts only.

Other impacts include:

*ceasing the practice of requiring deposits for reconnecting services;
*allowing deferred payment agreements for those who request them;
*authorizing water utilities to provide budget billing arrangements to customers similar to what electrical and natural gas utilities are allowed to offer.

The DPI order allows the streamlining of the waiver process for instruction at public schools and student teachers in preparation programs to graduate on time this spring. It also gives the agency flexibility to address upcoming due dates.

Over the weekend, Corrections announced it would no longer accept transfers to the state prison system, and Revenue announced it was pushing back the deadline to file state taxes to July 15.

See the releases:
https://www.wispolitics.com/2020/gov-evers-suspends-utility-rules-and-allows-for-additional-consumer-protections/
https://www.wispolitics.com/2020/gov-evers-announces-new-order-relating-to-department-of-public-instruction/

-- The state Supreme Court has largely postponed jury trials and in-person proceedings statewide.

Jury trials scheduled to begin between now and May 22 will be rescheduled after that date. Meanwhile, judges, commissioners and clerks are required to use email, teleconferencing and video conferencing instead of in-person courtroom appearances through at least April 30.

See the release:
https://www.wispolitics.com/2020/wisconsin-supreme-court-puts-hold-on-jury-trials-halts-in-person-proceedings-statewide-in-favor-of-phone-and-video-appearances/

AMERICAN OVERSIGHT

-- As of Sunday afternoon, the state was at 381 confirmed cases of COVID-19 and four deaths.

Twenty-nine counties have confirmed cases.

See more:
https://www.dhs.wisconsin.gov/outbreaks/index.htm

-- The Elections Commission says it will need to test changes to its online voter registration system before the public can begin using it again.

Late Friday, a federal judge extended the deadline to March 30 to register electronically to vote in the spring election.

The cutoff had been March 18, but U.S. Judge William Conley delayed that due to the coronavirus pandemic. Without the order, those who weren't already registered would've had to go to a clerk's office to register in order to receive an absentee ballot or register at the polls on Election Day.

Elections Commission spokesman Reid Magney said restarting the system wasn't "as simple as reposting an online form." He said the public and local election officials will be updated as soon as MyVote Wisconsin is ready.

"With the election underway, we need to be very careful to test this change to ensure it does not adversely affect other functions, including absentee ballot requests," Magney said.

In his Friday order, Conley denied two other requests from state and national Dems as they sought to relax Wisconsin regulations on absentee ballots. But he reserved the option for Dems to again ask him to extend the deadline for counting absentee ballots if they can show there's a need to do so.

He also didn't extend the deadline to register by mail, as Dems had asked. Conley ruled doing so would've given some voters a "false sense of confidence" their mail-in registration would've been received in time to vote absentee in the April 7 election.

-- Gov. Tony Evers continued over the weekend to encourage people to stay home while his administration took additional steps to combat the spread of the coronavirus.

On Saturday, he issued a statement urging people to take steps to help prevent

AMERICAN OVERSIGHT

exposure to the illness and posted a video on social media.

"Whatever we can do to stay at home will help those healthcare workers do the jobs that they need to do to help us get through this," Evers said.

-- The Legislature's top Republicans are signaling they don't believe additional restrictions are needed on Wisconsin businesses.

On Friday, Gov. Tony Evers updated his ban on mass gatherings and shut down personal care businesses such as hair salons, day spas, nail salons, barbershops, tattoo parlors, body art establishments and tanning facilities. But he told reporters he wasn't considering an order to shelter in place, but "will follow the science on that."

Senate Majority Leader Scott Fitzgerald and Senate President Roger Roth, along with Assembly Speaker Robin Vos and Assembly Majority Leader Jim Steineke said in Saturday's statement they backed the guv saying "that a further shutdown of businesses in Wisconsin is unnecessary."

The four said the impact on state residents and businesses has already been tremendous.

"As we move forward together in this fight to defeat the virus, we must keep in mind that the people we serve need the jobs they have today to help weather this storm," the four said. "Continued economic activity will not only help us in our fight against this virus today, it will also ensure that we don't have to fight to recover from economic collapse tomorrow."

They also thanked the Evers administration for their efforts to open lines of communication and those who are on the front lines of the pandemic.

AMERICAN OVERSIGHT

-- Wisconsin Emergency Management is asking the feds for help in obtaining protective medical supplies for law enforcement officers and firefighters who are at risk of direct exposure to COVID-19.

The list includes: 50,000 non-surgical masks, 10,000 face shields, 11,000 coveralls, 3,000 N95 face masks, and 35,000 pairs of protective gloves.

See the release:
https://www.wispolitics.com/2020/gov-evers-wisconsin-requests-fema-assistance-in-obtaining-protective-medical-supplies/

-- The remaining four Wisconsin citizens who were aboard the Grand Princess cruise ship have arrived back in the state.

The Wisconsin National Guard helped transport them back home for self-quarantine after an outbreak of coronavirus on the ship.

See the release:
https://www.wispolitics.com/2020/gov-evers-announces-four-remaining-grand-princess-cruise-ship-passengers-return-to-wisconsin/

-- U.S. Sens. Tammy Baldwin, D-Madison, and Ron Johnson, R-Oshkosh, have asked Secretary of State Mike Pompeo for help to secure the return of Wisconsinites stranded abroad due to travel restrictions.

Both sent separate letters to Pompeo; Baldwin's also went to Defense Secretary Mark Esper.

Johnson's office said it's been helping travelers in more than a dozen countries.

"These Americans are scared, desperate and running out of hope," Johnson wrote. "I hope you will give your fullest and most immediate consideration to this request, and I appreciate your time and consideration to this urgent matter."

Read the Johnson letter:
https://www.ronjohnson.senate.gov/public/_cache/files/8f8772ad-98cd-45e4-b396-6b5fa59acab2/letter-to-pompeo.pdf

See Baldwin's tweet on her letter:
https://twitter.com/SenatorBaldwin/status/1241755736436281346

-- Johnson and Baldwin, split on a procedural vote on a $1.6 trillion emergency stimulus package as it failed to advance.

AMERICAN OVERSIGHT

Yesterday's motion failed 47-47; it needed 60 votes to advance.

Johnson, R-Oshkosh, supported the motion, while Baldwin, D-Madison, opposed it.

Baldwin tweeted yesterday there shouldn't be a "bailout or slush fund" for large corporations.

"Our economic stimulus response should be bipartisan and we must put workers first and provide our hospitals with the support they need. Instead, Mitch McConnell wants to provide a corporate bailout slush fund without accountability. Let's fix this, get it right and get it done," she wrote.

See the roll call:
https://www.senate.gov/legislative/LIS/roll_call_lists/roll_call_vote_cfm.cfm?congress=116&session=2&vote=00077

-- WISN-TV and Marquette University Law School have canceled debates in the Wisconsin Supreme Court race and Milwaukee mayor's contest, citing rapidly changing developments in the COVID-19 situation.

The decision was made based on the safety and health of the candidates, staffs and those involved in the production.

The cancelation means the forum at the Milwaukee Bar Association was the final forum featuring the two Supreme Court candidates side-by-side through the April 7 election. The debate Wisconsin Public TV had planned will instead be the airing Friday of back-to-back interviews with the candidates.

See the release:
https://www.wispolitics.com/2020/wisn-milwaukee-mayor-and-wisconsin-supreme-court-debates-cancelled/

-- Milwaukee Mayor Tom Barrett, in self-quarantine after a COVID-19 exposure, said his message to others is "stay at home."

"My strongest message to people is, please, you're safer at home. So please, stay home," the mayor said in a Skype interview from his home on "UpFront." The program is produced in partnership with WisPolitics.com.

"It's not just about you. It's about everybody else, because you may be a carrier," Barrett said.

Barrett went into self-quarantine after learning that a member of his staff tested positive

AMERICAN OVERSIGHT

for COVID-19. He said that person is doing well.

Barrett said he is running the city from home through technology and making phone calls to people.

"We're trying to do everything we can to make sure that these core city functions are still operating," he said.

"We've had meetings with our EOC, I've had other meetings, and they've all taken place either over Skype or Zoom or conference calls. So again, I haven't slowed down; it's just a different type of communication. I think around the nation this is what people who are working from home are experiencing right now," Barrett said.

-- Also on the program, two members of the Wisconsin Elections Commission discussed the April 7 election.

Commission Chairman Dean Knudson of Hudson, a Republican, said it is "vitally important" that the election go forward "because we need to have continuity in local government."

He said thousands of local government offices will be on the April 7 ballot, and the terms of those offices expire later in April.

"We can't have vacancies in mayor and city council spots during a time of crisis," he said.

But Commissioner Ann Jacobs of Milwaukee, a Democrat, said changes are needed so people can vote "without having to expose themselves to the coronavirus."

"We shouldn't be asking people to have to choose between the right to vote and the right to be safe," she said. "Those are things that can happen at the same time."

-- In another segment, a Wisconsin Hospital Association official said the greatest concern for hospitals right now is a "potential surge of large numbers of patients critically ill with COVID-19."

"We know there will be a wave of sick COVID-19 patients," said Dr. Mark Kaufman, chief medical officer for the Wisconsin Hospital Association. "But the question really is how quickly that's going to happen, and how serious that wave will be."

TOP HEADLINES

Local leaders warn Evers: Voters at risk from COVID-19
... Evers has insisted [April 7] election go on as scheduled, saying people should vote by absentee ballot rather than travel to the polls. ... [as] state's confirmed cases of COVID-19 jumped to 381 [Sunday, 61 in DaneCo], up from 281 [49] a day earlier. ... Almost 225 local leaders [mayors, admins, clerks, etc., statewide] signed the letter telling Evers that the state hasn't done enough to protect voters. [warning of health risks of large gatherings, suggests only] "more needs to be one and done quickly. ... the potential for disenfranchisement is actually higher if we proceed like we are. Many people will stay away from the polls for fear of contacting COVID-19, or spreading it, unless something changes." Baldauff for Evers cited Friday letter from legal counsel Nilsestuen to WEC's Wolfe noting DOA working to secure more envelopes for absentee ballots, to find hand sanitizer for poll workers, to help volunteer orgs recruit poll workers. Also Sunday, the Evers signed EO's allowing school districts to seek DPI waiver from school day req, banning utility cut-offs for non-payment, commercial and residential, banning late fees, mandating deferred payment plans on request. Also, WNG sent 6 medics to Grafton senior center where patient died, some residents, staff tested positive. Evers directed EmergMgt to seek more PPE from FEMA stockpile for first responders. So far, WI has received about 52K N95 masks, 130K surgical masks, 25K face shields, 20K surgical gowns, 100 coveralls and 36K pairs of gloves from the stockpile, for areas with community spread.

... reporter asked President Donald Trump to respond to Johnson's widely publicized remarks that, "We don't shut down our economy because tens of thousands of people die on the highways" and that no more than 3.4% of those infected will die. ... Trump eventually asked Fauci to take the question. ... "First of all, I think that's a false equivalency to compare traffic accidents with (coronavirus) -- that's totally way out," said Fauci. "When you have something new and it's emerging ... I don't think with any moral conscience you can say, 'Why don't we just let it rip and happen and let 'x' percent of the people die.' I don't understand that reasoning at all." Rehash Johnson's quote.
https://www.jsonline.com/story/news/2020/03/20/2886017001/

State Supreme Court temporarily bars jury trials, other court proceedings statewide
... through May 22 to protect the participants and the public from COVID-19 ... [including] a three-week homicide case that was scheduled for April before Circuit Judge Jill Karofsky ... allows certain exceptions to permit in-person proceedings if remote technology is not available or is inadequate. ... Roggensack said in a statement. "Our circuit court judges have taken strategic, proactive steps to keep each of their courts operating as safely and smoothly as possible since the start of this public health emergency. These orders provide another tool to use in that effort." ... Supreme Court postponed oral arguments before the body that were scheduled for March 30 and April 1. ... On March 12, Dane County became the first in the state to limit court appearances and activity due to the new coronavirus. [including Gadson trial before Karofsky, who rebuffed DA Ozanne request to set alternate date.] ... On Friday, Dane County Clerk of Court Carlo Esqueda temporarily stopped counter service ... building itself remains open.

Stretched Thin Already, WI Nurses Prepare For Coronavirus 'Storm'
Pandemic Tests Health Systems Already Running Lean; Hospitals Short Beds, Protective Gear, Staff ... "Not staffed for regular patient levels let alone potential influx of patients," one SSM St. Mary's nurse wrote [among 14 responses] to a survey distributed by the Cap Times, WPR and Wisconsin Watch. "Unless they put patients in hallways or create temporary tent hospitals, I don't know where we would put them." ... also interviewed nurses in Milwaukee and Monroe and emergency physicians in Madison and Green Bay. ... [follow up to] investigation earlier in March examin[ing] tension within Madison hospitals amid a nationwide shift to "manufacturing models" of health care. ... [using] data-powered algorithms to slash labor costs by cutting "waste," such as nurses with downtime. ... "We're short on a good day," one St. Mary's nurse said. "I can't imagine what's going to happen if we have a bunch of our staff get sick and taken out of the picture." Birth nurse Aumanstal said they're looking for two extra nurses for her unit, "This is happening over and over, and it's not just because of coronavirus. ... gonna kind of bring everything to the surface and escalate the issues that we're already seeing." Harvard analysis found Madison must triple available beds, Milwaukee and GB double beds, to meet "moderate scenario." [CT-WPR-WW] asked hospitals, county and state health depts.. and advocacy organizations for number of available beds and ICU beds but none responded. DHS on Friday announced 2,500 total ICU beds, but not number available. SEIU's Tetrault: "We are asked to fight a war without protective equipment for ourselves and asked to return to our families." DHS on Thursday declined to reveal how many health care personnel have tested positive. St. Mary's did not respond on staffing and preparedness policies. St. Mary's nurses described a communication breakdown and poor organization inside the hospital, exposure to potential COVID patients before policy was developed. St. Mary's nurses are broadly told to stay at home if exposed to a confirmed COVID-19 patient without protection, without guidance on whether they will be paid and new short-term disability benefit, if approved, only partially pays wages. "I'm probably going to have to dip into savings," said a nurse who has been sick with a fever for more than a week but tested negative. SEIIU called for emergency paid sick leave to

AMERICAN OVERSIGHT

cover all wages. Milwaukee nurses also fear exposure due to limited PPE. Last Call for Corner Bars? Some are doing carryouts. Many have shut down.
... Delivery, carryout and curbside pickup are still allowed, although that won't help corner bars like Anna's, which don't serve food. ... [city data shows] 917 businesses with active tavern licenses. Although many are restaurants that also serve alcohol or businesses that provide other services, a large number are corner bars that survive on thin margins like other small businesses. ... There could be some help on the way. On Wednesday, [WEDC] announced the creation of a $5 million program to provide grants of up to $20,000 for small businesses with no more than 20 employees. ... meant to help cover rent and payroll expenses, including paid leave, 3 bar owners comment.
https://urbanmilwaukee.com/2020/03/21/last-call-for-corner-bars/

DaneCo businesses, homeowners, renters safe from eviction for now amid pandemic
... Orders issued Tuesday and March 12 by Dane County presiding judge Valerie Bailey-Rihn suspended orders for eviction and effectively prevent pending or new eviction cases from being heard. Other county judges have done same. Supv. Wegleitner, a Legal Action atty., said orders don't stop "landlords in Dane County from starting the eviction process. ... At this point, absent some further extension or moratorium, I am expecting a very busy May to December in Dane County eviction court." Apartments' Eufinger said suspending evictions hurts new or small landlords struggling to pay mortgages, removes "the consequences of not paying rent," but noted landlords see need for compassion. Apartments' Mokler: "Despite what many people think, landlords are not wealthy." Madison CDA's Rakowski advised Section 8-ers to report income loss. County Housing's Dicke agreed. Trump administration on Wednesday ordered a 60-day moratorium on federal loan foreclosures and evictions.

'Boosting sales through the roof': In wake of the coronavirus pandemic, gun sales reach near Black Friday levels
Albright Gun Works LLC in Hartland sales have doubled since businesses began

AMERICAN OVERSIGHT

closing, "Ammo and gun sales are insane. It has not been like that since the last election," said Albright, cited spike in first-time owners of handguns, and more seasoned owners buying AR-15s. DOJ averaged about 380 background checks per day in 2019. Since Friday, they have averaged 1,452. 1,943 checks on Tuesday was just short of the 2,152 checks from Black Friday 2019. Ron's Gun's Lippold in Germantown said gun sales "went crazy" March 14 and 15. Fletcher Arms' Eaton in Waukesha dittoed, "Seven thousand percent. I don't think that it's measurable right now. ... People are worried and scared," as opposed to "excited" during concealed-carry boom. Alright said folks are worried about losing rights after reports that Champaign Mayor Feinen EO gave her right to temporarily ban guns, predicts boom will level off in June and pick up again before the November election. MGS Firearms' Grabowski still manufactures gun products, but stopped doing retail in January, "We could have been making a lot of money right now. My phone will not stop ringing. ... There is no ammunition available and no reasonable-priced hand guns," cited general distrust and lack of faith in the government to keep order. 71 y/o Vietnam vet Charette bought a $1,500 AR-15 rifle "for the apocalypse. I read this all on the internet, and that is my take on it."

MON PM Update -- 6 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- The fate of Wisconsin's spring election hung in the balance late today as GOP lawmakers asked the conservative-dominated state Supreme Court to overturn Dem Gov. Tony Evers' order to push back in-person voting until June amid a national COVID-19 pandemic.

Republicans filed an emergency appeal with the court hours after the guv issued his order. Evers said he needed to protect the public and poll workers after Republican legislators rejected his last-minute request to push back the date

But Senate Majority Leader Scott Fitzgerald, R-Juneau, and Assembly Speaker Robin Vos, R-Rochester, rejected the order as an unconstitutional overreach and chided Evers for taking the step after until recently saying the election should proceed tomorrow as originally planned.

AMERICAN OVERSIGHT

Fitzgerald and Vos said local clerks should "stand ready" to proceed with the election.

"This is another last minute flip-flop from the governor on the April 7th election," the Republicans said. "The governor himself has repeatedly acknowledged he can't move the election. Just last week a federal judge said he did not have the power to cancel the election, and Governor Evers doesn't either. Governor Evers can't unilaterally run the state."

Their suit seeks an immediate stay of Evers' order, calling it an "invasion by the Executive into the Legislative arena: setting the time, place, and manner of elections, as well as the terms of local officials."

The filing also argues, unlike in other states, Wisconsin's emergency management statutes don't give the guv or any agency the power to suspend legislatively enacted statutes, including election laws.

The suit adds another layer of legal drama to a spring election that has already seen a federal judge push back to April 13 the deadline to return absentee ballots, an appeals court uphold most of that order and the possibility the U.S. Supreme Court could weigh in on whether it should stand. The justices had yet to release a decision on that request late this afternoon despite state and national Republicans asking them to rule by today on their appeal.

-- Evers told reporters today he took the unprecedented step of ordering the election delayed, because "somebody has got to stand up for those folks" who are afraid to go to the polls.

The order comes after Republicans again declined to take action legislatively as they gaveled out of the special session Saturday and today. Evers called the special session late last week to overhaul how the election will be operated.

Along with the presidential primary and hundreds of local offices, a seat on the state Supreme Court is up for grabs in the spring election. The last-minute wrangling over the election's procedures has sparked debate over whether it benefits conservative Justice Daniel Kelly or liberal challenger Jill Karofsky, a Dane County judge.

Evers said he's "a politician as much as anybody else," but his order was about public safety, not who's "getting the upper hand here."

"It's about the people of the state that are afraid of their future, afraid of their own personal safety and I believe that I have an obligation to stand up for them," Evers said.

His order sets June 9 as the date for in-person voting unless "the Legislature passes and the Governor approves a different date for in-person voting." In the interim, voters can continue asking for absentee ballots until 5 p.m. on the fifth day immediately

AMERICAN OVERSIGHT

preceding the new in-person election date.

The order also includes a call for a special session to begin at 2 p.m. tomorrow for the Legislature to take up legislation setting a new in-person voting date.

In the first weeks of the pandemic, Evers repeatedly said he wanted to move forward with the original date for the spring election because of the hundreds of local offices on the ballot. With the terms for many of those offices expiring in the weeks after the spring election, he raised concerns about possibly leaving them vacant during a public health crisis.

In today's order, Evers extends the terms for those currently in office until results of the spring election results are finalized. Those who win terms in the spring election would still see them expire as if there had been no delay in the election.

The GOP filing with the state Supreme Court argues Evers lacks the power to push back the election or to extend the terms of local officials.

The guv's office said ballots already cast will remain valid and be tallied in conjunction with the new in-person voting date.

-- While Evers and others have said in the past he didn't have the authority to move the date on his own, the guv's order cites the Wisconsin Constitution and state statute in making the move.

The statute cited gives the power during an emergency to "Issue such orders as he or she deems necessary for the security of persons and property."

Not long after the guv's order, Elections Commission Administrator Meagan Wolfe sent a message to local clerks that "we must continue" to make preparations to go through with tomorrow's vote, citing fast-moving legal action.

"If the election is moved to the 9th we will adjust accordingly, but all we can do today is prepare for tomorrow," Wolfe wrote.

The guv's filing in response to the GOP motion argues there is no statute "specifically addressing what should occur if a public health emergency renders the polling place a danger." But it argues the guv's emergency powers apply to the current circumstances.

"In these extraordinarily rare, narrow circumstances -- where the sanctity of the polling place has collided with the safety of the people, and time is of the essence -- the Governor had to act, and he did," the filing argues.

The filing comes weeks after the state Supreme Court ordered a suspension of all jury trials that had been scheduled through May 22 with plans to reschedule them at a later

AMERICAN OVERSIGHT

date. Justice Rebecca Bradley issued a stinging dissent to that order, arguing it violated the Sixth Amendment right to due process and opened the door to suspending other rights by judicial decree.

In recent weeks, Bradley has tweeted a series of quotes from historical and legal figures that have suggested to legal observers she's itching for a fight over the extent of executive powers in a public health emergency. That includes a 1934 quote from then-U.S. Chief Justice Charles Evans Hughes, "The Constitution was adopted in a period of grave emergency. Its grants of power to the federal government and its limitations of the power of the States were determined in the light of emergency, and they are not altered by emergency."

-- Just after Republicans filed their emergency appeal, conservative Justice Daniel Kelly urged clerks, poll workers and voters "to stand ready to conduct the election tomorrow" while the guv's order is challenged.

Kelly, who has recused himself from other cases before the court related to the spring election, isn't participating in the GOP appeal.

Via his Twitter account, Kelly wrote "all we have wanted is an election conducted according to the law."

"We can do two things at the same time: maintain the foundations of our democracy while taking reasonable precautions to keep people safe," Kelly wrote.

AMERICAN OVERSIGHT

-- Ahead of the order's release, Wolfe told reporters data on in-person Election Day turnout could be released ahead of the deadline to return absentee ballots.

A federal judge last week pushed back the deadline for absentee ballots to be received and counted until April 13. Judge William Conley's order bars jurisdictions from releasing results until 4 p.m. on that date.

But on a conference call with reporters this morning, Wolfe said data on the number of ballots returned and turnout at polling places numbers "could be provided." She said that data is included in inspector logs that clerks have to review as part of their publicly observable election night canvass process.

Still, Wolfe said there wasn't a centralized process for collecting and publishing turnout data and added she couldn't "foresee a situation where we're able to build something" ahead of the election to report that data.

"I think the local election officials are going to be the best source of that information," she said.

City of Madison Clerk Maribeth Witzel-Behl told WisPolitics.com to "stay tuned" for what election information the city will post.

"Everything is up in the air right now," Witzel-Behl said. "We strive to be transparent, so we will post whatever information we can in the coming days."

Witzel-Behl said the city would only have 66 polling stations open were spring election in-person voting to happen tomorrow.

Additionally, 58 different voting wards have relocated their station due to the shortage of poll workers. Witzel-Bell said the city typically has 92 stations available in an average election.

Milwaukee Election Commission Director Neil Albrecht previously said his city could have less than 5 percent of its polling stations open on Tuesday.
As of 4 p.m. today, the U.S. Supreme Court had not yet released a response to the GOP appeal to overturn the order pushing back the absentee ballot deadline to April 13.

See Madisons' ward map:
https://cityofmadison.maps.arcgis.com/apps/webappviewer/index.html?id=b8e42f700bd1419daaa06667ee421dbc

AMERICAN OVERSIGHT

-- Nearly 1.3 million absentee ballots have been requested by Wisconsin votes with 56.8 percent of them returned as of this morning's update from the state Elections Commission, a new state record.

That total eclipses the previous high-water mark of roughly 847,000 absentee requests set during the November 2016 election.

Here's a rundown of the number requested and the percentage returned for the state's 10 largest counties:

*Milwaukee 203,784 requested, 49.3 percent returned;
*Dane 178,565 requested, 57.7 percent returned;
*Waukesha 127,942 requested, 64.7 percent returned;
*Brown 52,411 requested, 44.3 percent returned;
*Racine 43,526 requested, 58.6 percent returned;
*Outagamie 40,490 requested, 47.7 percent returned;
*Winnebago 38,758 requested, 55.9 percent returned;
*Kenosha 30,045 requested, 54.1 percent returned;
*Rock 29,489 requested, 63 percent returned;
*Marathon 24,520 requested, 53.9 percent returned.

To date, each of the 10 counties have more absentee ballots requested than votes cast in the 2019 Supreme Court election.

Milwaukee has the biggest increase compared to a year ago, when 150,246 votes were cast in the Supreme Court race. That amounts to 35.6 percent more ballots requested this year than were cast a year ago. There is both a Milwaukee mayoral race and county executive campaign on the ballot this year.

Still, county voters cast 308,553 votes in the Dem and GOP presidential primaries four years ago.

Rock County has the smallest increase compared to a year ago with 4.3 percent more absentee ballots requested compared to those cast in the 2019 Supreme Court race.

See today's update on the number of absentee ballots requested and returned: https://elections.wi.gov/node/6817

-- Both Legislative chambers this morning adjourned Gov. Tony Evers' special session with no lawmakers present.

The Senate and Assembly chief clerks presided over the sessions, which each lasted less than a minute and now stand adjourned until Wednesday.

Evers last week ordered a Saturday special session for lawmakers to move tomorrow's

AMERICAN OVERSIGHT

spring election to entirely mail-in ballots over concerns with in-person voting safety and a collapse in the number of open polling places.

GOP leadership previously slammed the guv for caving "under political pressures from national liberal special interest groups." Senate Majority Leader Scott Fitzgerald, R-Juneau, and Assembly Speaker Robin Vos, R-Rochester, insisted the election should go on as planned.

See the order:
https://www.wispolitics.com/wp-content/uploads/2020/04/200406EVERSSESSION.pdf

-- A group of 40 GOP lawmakers is urging Gov. Tony Evers to reopen golf courses as outdoor recreation for people during the COVID-19 outbreak.

In a letter to Evers, the group said golf could be a popular activity for people's mental health during the pandemic, so long as courses use certain safety guidelines.

The letter's recommendations include: clubhouses and dining remains closed; a four-person limit per hole; a one person per golf cart limit; and standard social distancing.

Evers' "Safer at Home" order asks people to only leave the house for essentials like groceries and doctor's appointments, but it also suggests walking the dog, visiting state parks or exercise like running or biking are okay with social distancing practices.

A spokeswoman for the guv didn't respond to a request for comment.

See the letter:
https://www.wispolitics.com/wp-content/uploads/2020/04/200406GOLF.pdf

-- Leaders on both sides of the gun debate disagreed on what this year's 54 percent spike in handgun background checks could actually mean for the safety of Wisconsinites.

Wisconsin Firearm Owners President Rob Kovach told Wispolitics.com he saw the numbers as proof of the self-reliance of the American people and a way for them to feel safe at home and to hunt for food.

"It's not surprising," Kovach said. "Americans and especially people in Wisconsin have a desire to be self-reliant and protect themselves and they have the skills to do so."

Kovach said he personally hasn't purchased a gun this year, because he already has a collection "that doesn't make me think I need to go out and get more in a time of crisis."

An earlier WisPolitics.com story found a total of 60,581 were placed to the state's

AMERICAN OVERSIGHT

"Handgun Hotline" background check service this year as of March 31. Only 39,141 calls were placed over the same time period in 2019.

Meanwhile, End Domestic Abuse WI Homicide Prevention Program Director Sara Krall told WisPolitics.com the spike could come from a panic and "group think" reaction over COVID-19. She said the rise is a cause for concern for domestic homicide prevention in the state.

"Firearms remain the most common means of perpetrating domestic violence homicides," she said. "If you couple the increase in handgun sales with the rising number of people unemployed and stuck at home in unsafe situations, the potential for lethal domestic violence increases exponentially."

She said the presence of a gun at home in a domestic violence situation increases the risk of homicide by up to 500 percent. Her organization reported there were 408 domestic violence-related homicides in Wisconsin between 2010 and 2018.

MON PM Update -- 6 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- The fate of Wisconsin's spring election hung in the balance late today as GOP lawmakers asked the conservative-dominated state Supreme Court to overturn Dem Gov. Tony Evers' order to push back in-person voting until June amid a national COVID-19 pandemic.

Republicans filed an emergency appeal with the court hours after the guv issued his order. Evers said he needed to protect the public and poll workers after Republican legislators rejected his last-minute request to push back the date

But Senate Majority Leader Scott Fitzgerald, R-Juneau, and Assembly Speaker Robin Vos, R-Rochester, rejected the order as an unconstitutional overreach and chided Evers for taking the step after until recently saying the election should proceed tomorrow as originally planned.

AMERICAN OVERSIGHT

Fitzgerald and Vos said local clerks should "stand ready" to proceed with the election.

"This is another last minute flip-flop from the governor on the April 7th election," the Republicans said. "The governor himself has repeatedly acknowledged he can't move the election. Just last week a federal judge said he did not have the power to cancel the election, and Governor Evers doesn't either. Governor Evers can't unilaterally run the state."

Their suit seeks an immediate stay of Evers' order, calling it an "invasion by the Executive into the Legislative arena: setting the time, place, and manner of elections, as well as the terms of local officials."

The filing also argues, unlike in other states, Wisconsin's emergency management statutes don't give the guv or any agency the power to suspend legislatively enacted statutes, including election laws.

The suit adds another layer of legal drama to a spring election that has already seen a federal judge push back to April 13 the deadline to return absentee ballots, an appeals court uphold most of that order and the possibility the U.S. Supreme Court could weigh in on whether it should stand. The justices had yet to release a decision on that request late this afternoon despite state and national Republicans asking them to rule by today on their appeal.

-- Evers told reporters today he took the unprecedented step of ordering the election delayed, because "somebody has got to stand up for those folks" who are afraid to go to the polls.

The order comes after Republicans again declined to take action legislatively as they gaveled out of the special session Saturday and today. Evers called the special session late last week to overhaul how the election will be operated.

Along with the presidential primary and hundreds of local offices, a seat on the state Supreme Court is up for grabs in the spring election. The last-minute wrangling over the election's procedures has sparked debate over whether it benefits conservative Justice Daniel Kelly or liberal challenger Jill Karofsky, a Dane County judge.

Evers said he's "a politician as much as anybody else," but his order was about public safety, not who's "getting the upper hand here."

"It's about the people of the state that are afraid of their future, afraid of their own personal safety and I believe that I have an obligation to stand up for them," Evers said.

His order sets June 9 as the date for in-person voting unless "the Legislature passes and the Governor approves a different date for in-person voting." In the interim, voters can continue asking for absentee ballots until 5 p.m. on the fifth day immediately

AMERICAN OVERSIGHT

preceding the new in-person election date.

The order also includes a call for a special session to begin at 2 p.m. tomorrow for the Legislature to take up legislation setting a new in-person voting date.

In the first weeks of the pandemic, Evers repeatedly said he wanted to move forward with the original date for the spring election because of the hundreds of local offices on the ballot. With the terms for many of those offices expiring in the weeks after the spring election, he raised concerns about possibly leaving them vacant during a public health crisis.

In today's order, Evers extends the terms for those currently in office until results of the spring election results are finalized. Those who win terms in the spring election would still see them expire as if there had been no delay in the election.

The GOP filing with the state Supreme Court argues Evers lacks the power to push back the election or to extend the terms of local officials.

The guv's office said ballots already cast will remain valid and be tallied in conjunction with the new in-person voting date.

-- While Evers and others have said in the past he didn't have the authority to move the date on his own, the guv's order cites the Wisconsin Constitution and state statute in making the move.

The statute cited gives the power during an emergency to "Issue such orders as he or she deems necessary for the security of persons and property."

Not long after the guv's order, Elections Commission Administrator Meagan Wolfe sent a message to local clerks that "we must continue" to make preparations to go through with tomorrow's vote, citing fast-moving legal action.

"If the election is moved to the 9th we will adjust accordingly, but all we can do today is prepare for tomorrow," Wolfe wrote.

The guv's filing in response to the GOP motion argues there is no statute "specifically addressing what should occur if a public health emergency renders the polling place a danger." But it argues the guv's emergency powers apply to the current circumstances.

"In these extraordinarily rare, narrow circumstances -- where the sanctity of the polling place has collided with the safety of the people, and time is of the essence -- the Governor had to act, and he did," the filing argues.

The filing comes weeks after the state Supreme Court ordered a suspension of all jury trials that had been scheduled through May 22 with plans to reschedule them at a later

AMERICAN OVERSIGHT

date. Justice Rebecca Bradley issued a stinging dissent to that order, arguing it violated the Sixth Amendment right to due process and opened the door to suspending other rights by judicial decree.

In recent weeks, Bradley has tweeted a series of quotes from historical and legal figures that have suggested to legal observers she's itching for a fight over the extent of executive powers in a public health emergency. That includes a 1934 quote from then-U.S. Chief Justice Charles Evans Hughes, "The Constitution was adopted in a period of grave emergency. Its grants of power to the federal government and its limitations of the power of the States were determined in the light of emergency, and they are not altered by emergency."

-- Just after Republicans filed their emergency appeal, conservative Justice Daniel Kelly urged clerks, poll workers and voters "to stand ready to conduct the election tomorrow" while the guv's order is challenged.

Kelly, who has recused himself from other cases before the court related to the spring election, isn't participating in the GOP appeal.

Via his Twitter account, Kelly wrote "all we have wanted is an election conducted according to the law."

"We can do two things at the same time: maintain the foundations of our democracy while taking reasonable precautions to keep people safe," Kelly wrote.

AMERICAN OVERSIGHT

-- Ahead of the order's release, Wolfe told reporters data on in-person Election Day turnout could be released ahead of the deadline to return absentee ballots.

A federal judge last week pushed back the deadline for absentee ballots to be received and counted until April 13. Judge William Conley's order bars jurisdictions from releasing results until 4 p.m. on that date.

But on a conference call with reporters this morning, Wolfe said data on the number of ballots returned and turnout at polling places numbers "could be provided." She said that data is included in inspector logs that clerks have to review as part of their publicly observable election night canvass process.

Still, Wolfe said there wasn't a centralized process for collecting and publishing turnout data and added she couldn't "foresee a situation where we're able to build something" ahead of the election to report that data.

"I think the local election officials are going to be the best source of that information," she said.

City of Madison Clerk Maribeth Witzel-Behl told WisPolitics.com to "stay tuned" for what election information the city will post.

"Everything is up in the air right now," Witzel-Behl said. "We strive to be transparent, so we will post whatever information we can in the coming days."

Witzel-Behl said the city would only have 66 polling stations open were spring election in-person voting to happen tomorrow.

Additionally, 58 different voting wards have relocated their station due to the shortage of poll workers. Witzel-Bell said the city typically has 92 stations available in an average election.

Milwaukee Election Commission Director Neil Albrecht previously said his city could have less than 5 percent of its polling stations open on Tuesday.
As of 4 p.m. today, the U.S. Supreme Court had not yet released a response to the GOP appeal to overturn the order pushing back the absentee ballot deadline to April 13.

See Madisons' ward map:
https://cityofmadison.maps.arcgis.com/apps/webappviewer/index.html?id=b8e42f700bd1419daaa06667ee421dbc

AMERICAN OVERSIGHT

-- Nearly 1.3 million absentee ballots have been requested by Wisconsin votes with 56.8 percent of them returned as of this morning's update from the state Elections Commission, a new state record.

That total eclipses the previous high-water mark of roughly 847,000 absentee requests set during the November 2016 election.

Here's a rundown of the number requested and the percentage returned for the state's 10 largest counties:

*Milwaukee 203,784 requested, 49.3 percent returned;
*Dane 178,565 requested, 57.7 percent returned;
*Waukesha 127,942 requested, 64.7 percent returned;
*Brown 52,411 requested, 44.3 percent returned;
*Racine 43,526 requested, 58.6 percent returned;
*Outagamie 40,490 requested, 47.7 percent returned;
*Winnebago 38,758 requested, 55.9 percent returned;
*Kenosha 30,045 requested, 54.1 percent returned;
*Rock 29,489 requested, 63 percent returned;
*Marathon 24,520 requested, 53.9 percent returned.

To date, each of the 10 counties have more absentee ballots requested than votes cast in the 2019 Supreme Court election.

Milwaukee has the biggest increase compared to a year ago, when 150,246 votes were cast in the Supreme Court race. That amounts to 35.6 percent more ballots requested this year than were cast a year ago. There is both a Milwaukee mayoral race and county executive campaign on the ballot this year.

Still, county voters cast 308,553 votes in the Dem and GOP presidential primaries four years ago.

Rock County has the smallest increase compared to a year ago with 4.3 percent more absentee ballots requested compared to those cast in the 2019 Supreme Court race.

See today's update on the number of absentee ballots requested and returned: https://elections.wi.gov/node/6817

-- Both Legislative chambers this morning adjourned Gov. Tony Evers' special session with no lawmakers present.

The Senate and Assembly chief clerks presided over the sessions, which each lasted less than a minute and now stand adjourned until Wednesday.

Evers last week ordered a Saturday special session for lawmakers to move tomorrow's

AMERICAN OVERSIGHT

spring election to entirely mail-in ballots over concerns with in-person voting safety and a collapse in the number of open polling places.

GOP leadership previously slammed the guv for caving "under political pressures from national liberal special interest groups." Senate Majority Leader Scott Fitzgerald, R-Juneau, and Assembly Speaker Robin Vos, R-Rochester, insisted the election should go on as planned.

See the order:
https://www.wispolitics.com/wp-content/uploads/2020/04/200406EVERSSESSION.pdf

-- A group of 40 GOP lawmakers is urging Gov. Tony Evers to reopen golf courses as outdoor recreation for people during the COVID-19 outbreak.

In a letter to Evers, the group said golf could be a popular activity for people's mental health during the pandemic, so long as courses use certain safety guidelines.

The letter's recommendations include: clubhouses and dining remains closed; a four-person limit per hole; a one person per golf cart limit; and standard social distancing.

Evers' "Safer at Home" order asks people to only leave the house for essentials like groceries and doctor's appointments, but it also suggests walking the dog, visiting state parks or exercise like running or biking are okay with social distancing practices.

A spokeswoman for the guv didn't respond to a request for comment.

See the letter:
https://www.wispolitics.com/wp-content/uploads/2020/04/200406GOLF.pdf

-- Leaders on both sides of the gun debate disagreed on what this year's 54 percent spike in handgun background checks could actually mean for the safety of Wisconsinites.

Wisconsin Firearm Owners President Rob Kovach told Wispolitics.com he saw the numbers as proof of the self-reliance of the American people and a way for them to feel safe at home and to hunt for food.

"It's not surprising," Kovach said. "Americans and especially people in Wisconsin have a desire to be self-reliant and protect themselves and they have the skills to do so."

Kovach said he personally hasn't purchased a gun this year, because he already has a collection "that doesn't make me think I need to go out and get more in a time of crisis."

An earlier WisPolitics.com story found a total of 60,581 were placed to the state's

AMERICAN OVERSIGHT

"Handgun Hotline" background check service this year as of March 31. Only 39,141 calls were placed over the same time period in 2019.

Meanwhile, End Domestic Abuse WI Homicide Prevention Program Director Sara Krall told WisPolitics.com the spike could come from a panic and "group think" reaction over COVID-19. She said the rise is a cause for concern for domestic homicide prevention in the state.

"Firearms remain the most common means of perpetrating domestic violence homicides," she said. "If you couple the increase in handgun sales with the rising number of people unemployed and stuck at home in unsafe situations, the potential for lethal domestic violence increases exponentially."

She said the presence of a gun at home in a domestic violence situation increases the risk of homicide by up to 500 percent. Her organization reported there were 408 domestic violence-related homicides in Wisconsin between 2010 and 2018.

MON PM Update -- 30 March 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- Having already declared Gov. Tony Evers' first proposal too expensive, Majority Leader Scott Fitzgerald said today he hopes to have the Senate meet virtually "in the next couple of weeks" to take up legislation addressing COVID-19.

Meanwhile, Speaker Robin Vos, R-Rochester, said the Assembly was committed to meeting "soon."

But Evers today implored lawmakers to act sooner, saying waiting "weeks and weeks" doesn't help serve state residents in the "best way possible."

The statements from Fitzgerald and Vos came after the guv's office over the weekend released a draft of legislation to address the pandemic. In a memo, the Legislative

AMERICAN OVERSIGHT

Fiscal Bureau pegged that bill's price tag at $706.2 million, not counting a sum sufficient appropriation for the Department of Health Services to address a public health emergency. A WisPolitics.com tally of the proposals listed in a governor's administration document showed the provisions totaled over $800 million.

In a joint statement on Saturday, Fitzgerald and Vos said the state's general fund couldn't afford the proposal.

In today's statement, Fitzgerald said progress continues on drafting a bill and conversations continue with the guv's staff and others despite "the disagreement over the weekend."

"We're hopeful we can hit the floor with a bill that can address policy concerns in the next couple weeks through a virtual session of the Senate," Fitzgerald said.

On Friday, Vos laid out the priorities of his caucus for an expected $2.3 billion Wisconsin will receive from a federal stimulus package the president signed. It includes about $1.9 billion going directly to the state government, and Vos said Assembly Republicans want that money used for personal protection equipment, to help public health departments and health care providers, and to address the financial difficulties for those hit hardest.

"Our Democratic colleagues know that Assembly leaders have already committed to holding a floor session soon," Vos said. "We're currently exploring the possible ways to convene a session without adversely impacting the most at-risk populations within our membership and support staff."

-- Evers told reporters today he wants to work with stakeholders and lawmakers to "get things done as soon as possible," adding he hopes "we can get somebody to take the bait' and have a legislative session.

Evers continued to push for the elimination of a one-week waiting period between filing for unemployment and receiving the first check.

He also said beyond the federal dollars, the administration needs flexibility and more money at agencies such as Health Services and Workforce Development, which has been flooded with inquiries about unemployment benefits.

"We have been briefing legislative offices on those issues; hopefully we can get somebody to take the bait frankly and let's have a legislative session so we can talk about it," Evers said. "So far that hasn't happened, but we continue to work with the Legislature to make them understand the needs at the state level to make sure that we serve people in Wisconsin the best way possible."

Meanwhile, Dems on the Joint Finance Committee said they backed the guv's proposal.

AMERICAN OVERSIGHT

"I am glad to see Gov. Evers taking initiative to ensure that Wisconsinites are not prevented from receiving the treatment and support they need to weather this public health emergency," Sen. LaTonya Johnson, D-Milwaukee, said in an email. "Key to this is removing statutory barriers and legal red tape so our public health experts have the flexibility to act swiftly to keep our communities safe."

Sen. Jon Erpenbach said it was "high time that Republican leadership stop(s) playing games."

"Every aspect of our lives from democracy, to public safety, to economic prosperity depends on us coming together NOW and working for the greater good of Wisconsin," The West Point Dem wrote in an email to WisPolitics.com.

See the LFB memo on the Evers draft:
http://docs.legis.wisconsin.gov/misc/lfb/misc/109_summary_of_provisions_of_lrb_5904_1_and_lrb_5920_p2_3_24_20.pdf

See a background document from the governor's office:
https://www.wispolitics.com/wp-content/uploads/2020/03/200328Background.pdf

-- The past two weeks are expected to set back-to-back records for the highest number of unemployment insurance claims in state history, according to figures from the Department of Workforce Development.

In the first full week after Gov. Tony Evers issued the public health emergency related to the coronavirus outbreak, 51,023 claims were filed, according to updated figures from DWD.

Before that, the previous record week for UI claims was near the end of 2001, when 49,267 claims were filed. The number of weekly claims only exceeded 40,000 one other time since 1986 -- the earliest year DWD has numbers for -- near the end of 2002.

And according to preliminary figures the agency released, last week is likely to set a new record for UI claims, though finalized numbers aren't yet available. More than 115,000 unemployment insurance claims were made between March 22 and 28, DWD's website shows.

As with the prior week, that total could decrease once the official tally comes out. The preliminary count for that week's claims was around 70,000, and that was amended down to around 51,000. Still, with more than double the number of the previous record in the early count, the probability of last week setting another record is high.

DWD is urging people to file their claims online as its phone system is overloaded with calls. A release shows the agency's unemployment insurance division got more than 1.5

AMERICAN OVERSIGHT

million calls last week, over 6,000 percent more than the previous busiest week on record.

Workers in Wisconsin can receive up to $370 per week in state unemployment benefits, and the latest federal relief package provides an extra $600 per week for up to four months.

At certain times last week, the DWD UI phone lines were getting more than 160 calls per second. In response to the explosion in calls, the agency has improved its capacity from 450 to 690 simultaneous calls.

The agency's UI call center last week added 35 temporary staff members, and is currently training 40 more workers from other divisions to join the call center. DWD plans to hire another 80 employees to help field calls.

Track the latest unemployment insurance claims here:
https://dwd.wisconsin.gov/covid19/public/ui-stats.htm

-- Gov. Tony Evers today announced a public-private partnership with Wisconsin businesses to expand testing for COVID-19.

According to Evers, Exact Sciences, Marshfield Clinic Health System, Promega and UW Health will now pool resources with current labs to strengthen the state's testing capacity and keep up with demand as cases rise.

"Just like H1N1, we knew that testing for the virus would require assets beyond the state labs." said Department of Health Services Secretary Andrea Palm in a press call. "For this response, that has taken the form of a strong partnership between government and some of the best and brightest minds in business and technology."

In a statement, the guv commended the State Lab of Hygiene and the Milwaukee Public Health Lab for "the tremendous lift they have done over the past few weeks to rapidly bring these tests online.

"But even with these combined efforts, unfortunately, we know all too well that as this disease spreads there will be significant pressure on our labs to keep pace with testing," he said. "Wisconsin is extremely fortunate to have these industry leaders in our own backyard."

The labs themselves will not be testing sites, and Wisconsinites will still need a doctor's order to receive testing.

See the release:
https://www.wispolitics.com/2020/gov-evers-announces-new-public-private-partnership-to-increase-covid-19-laboratory-testing-capacity/

AMERICAN OVERSIGHT

-- The Department of Health Services has reported 14 deaths due to COVID-19 and 1,221 confirmed cases, but a WisPolitics.com-WisBusiness.com check of county websites shows the total number of deaths is at least 23.

The most recent death reported by DHS -- a male in his 40s -- was in Fond du Lac County, bringing the county total to two.

The state-reported totals, however, do not include recent deaths in Milwaukee, Ozaukee and Washington counties.

Milwaukee County on its website reports 10 deaths, while the combined Ozaukee/Washington health department reported six deaths in Ozaukee County and one in Washington. The state reported six deaths from other counties.

Forty-four counties have at least one confirmed case.

"It's safe to assume that all communities in Wisconsin, if they don't have community spread, are at high risk for community spread," said Dr. Ryan Westergaard, chief medical officer and state epidemiologist for communicable diseases, in a DHS press call.

According to data collected by DHS, 20 percent of COVID-19 case patients are between the ages of 60-69. Another 18 percent are in their 50s, 17 percent are in their 40s, and 15 percent are in their 30s.

Of those who've tested positive so far, 54 percent were women, while 46 percent were men.

According to DHS Secretary Andrea Palm, some 25 percent of people who have COVID-19 are hospitalized. Within the larger population, 1 percent to 2 percent of coronavirus patients die, according to Westergaard. But he said officials "don't have a great way to capture accurately" when someone is cleared from infection.

Click here for coronavirus resources and information:
https://www.wispolitics.com/2020/coronavirus-resources/

-- The Dane County clerk argues he's already following the guidance of state elections officials when telling voters who may be indefinitely confined that they don't have to provide a copy of their photo ID when voting absentee.

In a filing today, the county argued on Scott McDonell's behalf that the state GOP is trying to create a political issue by asking the Wisconsin Supreme Court to take original jurisdiction in its complaint. The party wants the court to rule clerks don't have the

AMERICAN OVERSIGHT

authority to allow all voters to escape the voter ID requirements for absentee voting due to the COVID-19 pandemic.

"The Petitioners disagree with the Clerk's guidance, because they are trying to win an election. This case is about politics and not the law," wrote David Gault, Dane County's assistant corporation counsel.

McDonell originally posted on social media Wednesday voters "may indicate as needed that they are indefinitely confined due to illness." Gault wrote there "may have been a better choice of words," but that McDonell's post wasn't in conflict with past guidance from the Elections Commission.

Gault also wrote McDonell on Friday posted new guidance from the Elections Commission after the board met to discuss the issue. That guidance includes that it's up to individual voters to decide if they're indefinitely confined, but they shouldn't use it solely to get around the voter ID requirement.

Read the filing:
https://www.wispolitics.com/wp-content/uploads/2020/03/200330Filing.pdf

-- Waukesha announced today it will only have one polling site open on Election Day due to a lack of available poll workers.

The city clerk's office said it normally has 15 polling sites open.

In today's announcement, the city encouraged people to request absentee ballots.

For those who show up at the polls, the city is encouraging them to bring their own black ballpoint pens, to wash their hands or use hand sanitizer upon entering and leaving, and maintaining social distancing while at the polling location.

See more:
https://waukesha-wi.gov/ArchiveCenter/ViewFile/Item/374

-- Over 880,000 Wisconsin voters have asked for an absentee ballot for the upcoming April 7 election, a total that surpasses the state record for absentee ballot requests set in 2016.

So far, 883,293 voters are seeking to vote absentee in next Tuesday's elections. Elections Commission officials expect that number to continue to grow ahead of the April 2 deadline for registered voters to request an absentee ballot.

The previous record of 847,252 absentee requests was set during the November 2016 election.

AMERICAN OVERSIGHT

https://elections.wi.gov/node/6765

-- WEDC has not granted essential business designation to any of the companies that have submitted inquiries to the agency, according to agency spokesman David Callender.

Gov. Tony Evers' stay-at-home order gives the Wisconsin Economic Development Corp. the ability to designate companies as essential outside of what's covered in the order. But WEDC hasn't exercised that power, and has only been providing guidance to companies "to help them navigate whether or not they fit into one of the other categories in the order."

The order notes that businesses not listed in the order will only be designated as essential for an "exceptional circumstance." WEDC chief Missy Hughes has said exemptions to the order will be rare.

As of 10 a.m. this morning, 3,538 businesses had made inquiries, and 2,280 of those had been answered.

See more details on essential businesses:
https://wedc.org/essentialbusiness/

-- GOP state Rep. John Nygren announced today he won't run for the state Senate this fall, saying he believes remaining as JFC co-chair is his best opportunity to be a difference-maker in dealing with the impacts of COVID-19.

Nygren, R-Marinette, had been courted to run for the seat being vacated by Sen. Dave Hansen, D-Green Bay. So far, Eric Wimberger, who lost to Hansen in 2016, is the only Republican to file for the race.

Nygren said he ultimately decided the timing wasn't right for a run and he will instead seek reelection to the Assembly, where he has served since 2007.

"As the state deals with the financial impacts of the COVID-19 pandemic, my role as Co-Chair of the powerful Joint Finance Committee is more important than ever," Nygren said in a release. "My best opportunity to make a difference is to remain in my role as Co-Chair."

AMERICAN OVERSIGHT

On the Dem side, Jonathon Hansen, a De Pere alderman and the senator's nephew, has filed to run.

See Nygren's release:
https://www.wispolitics.com/2020/nygren-campaign-senate-announcement/

-- Milwaukee Mayor Tom Barrett says he is "focusing on everything (he) can do" to help residents and city finances get through the COVID-19 pandemic.

But Sen. Lena Taylor, D-Milwaukee, during a forum hosted by the Wisconsin Policy Forum accused Barrett's administration of "corruption and cronyism," and suggested the city would need new leadership in order to work with state lawmakers.

Both Milwaukee mayoral candidates agreed their community faces unique economic, racial, housing-related and school-related issues now and in the future because of this pandemic.

While Barrett wants the upcoming April 7 elections to be changed to a mail-in ballot system to account for a shortage of poll workers, Taylor slammed his decision to close the Midtown Center, which she said had the largest turnout for early voting.

Taylor said she will be suing Barrett over the closure of the early voting locations under the Voting Rights Act, because "this kind of disenfranchisement is unacceptable."

Barrett said the polling places were closed due to a lack of workers, but noted the city has opened a drive-up site.

He called for the state or the federal court to make changes to the upcoming election to account for the pandemic and ensure the safety of poll workers and voters.

Taylor also slammed Barrett for visiting a polling site, a mistake Barrett has acknowledged. She said that if she had done the same, the police and Elections Commission would have responded.

"Neither have done that," Taylor said. "Both of those are under the mayor's administration and that tells you the corruption, the corruption and cronyism that this mayor has in his administration."

Taylor also slammed Barrett for not agreeing to a full debate with her before the election. The two appeared in separate segments during today's forum.

Barrett said Milwaukee is doing more to prevent the spread of COVID-19 than other larger cities like New York and New Orleans did before the number of confirmed cases rapidly increased like Milwaukee is starting to see.

AMERICAN OVERSIGHT

He touted a collaboration with other local leaders opening Claire Hall in St. Francis to give infected homeless people or people who are at risk of becoming homeless a place to isolate during the COVID-19 pandemic.

Taylor said St. Francis Mayor Ken Tutaj is "very upset" with Barrett over the announcement. Taylor said she doesn't think the hall will adequately address the needs people of color are facing during this pandemic within Milwaukee.

"He is always late to the party," Taylor said. "He never has a sense of urgency for the people."

Barrett said some of the reasons the Milwaukee African-American community faces more problems than other areas are the concentrated housing in the predominantly black north side, as well as some "underlying social determinants of health" like high blood pressure and diabetes.

"There has been issues with testing, and they've made it clear it's been inadequate with testing," Barrett said. "Sadly, it might be that more individuals on the north side have met symptomatic criteria for testing."

Taylor stressed the importance of K-12 schools in Milwaukee by pointing out that young parents who are looking for a community to live in are interested in communities with quality K-12 education systems. She said Barrett has failed Milwaukee education, because he has not been able to bring all of Milwaukee's resources together cohesively.

Meanwhile, Barrett talked specifically about the importance of early education and making sure preschool educators receive proper compensation. He said the city's biggest challenge to accomplish its goals will be to "reset our relationship" with the GOP-controlled state Legislature.

"It has taken a while and it has been frustrating, but I don't give up," Barrett said. "That to me is clearly one of the things we have to deal with."

But neither candidate weighed in on the Milwaukee Public Schools' referendum on the ballot calling for an additional $87 million annually, saying they would leave the decision to the voters.

Subject: MON PM Update: Fitzgerald, Vos say Legislature planning to meet to address COVID-19 pandemic

MON PM Update -- 30 March 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- Having already declared Gov. Tony Evers' first proposal too expensive, Majority Leader Scott Fitzgerald said today he hopes to have the Senate meet virtually "in the next couple of weeks" to take up legislation addressing COVID-19.

Meanwhile, Speaker Robin Vos, R-Rochester, said the Assembly was committed to meeting "soon."

But Evers today implored lawmakers to act sooner, saying waiting "weeks and weeks" doesn't help serve state residents in the "best way possible."

The statements from Fitzgerald and Vos came after the guv's office over the weekend released a draft of legislation to address the pandemic. In a memo, the Legislative

AMERICAN OVERSIGHT

Fiscal Bureau pegged that bill's price tag at $706.2 million, not counting a sum sufficient appropriation for the Department of Health Services to address a public health emergency. A WisPolitics.com tally of the proposals listed in a governor's administration document showed the provisions totaled over $800 million.

In a joint statement on Saturday, Fitzgerald and Vos said the state's general fund couldn't afford the proposal.

In today's statement, Fitzgerald said progress continues on drafting a bill and conversations continue with the guv's staff and others despite "the disagreement over the weekend."

"We're hopeful we can hit the floor with a bill that can address policy concerns in the next couple weeks through a virtual session of the Senate," Fitzgerald said.

On Friday, Vos laid out the priorities of his caucus for an expected $2.3 billion Wisconsin will receive from a federal stimulus package the president signed. It includes about $1.9 billion going directly to the state government, and Vos said Assembly Republicans want that money used for personal protection equipment, to help public health departments and health care providers, and to address the financial difficulties for those hit hardest.

"Our Democratic colleagues know that Assembly leaders have already committed to holding a floor session soon," Vos said. "We're currently exploring the possible ways to convene a session without adversely impacting the most at-risk populations within our membership and support staff."

-- Evers told reporters today he wants to work with stakeholders and lawmakers to "get things done as soon as possible," adding he hopes "we can get somebody to take the bait' and have a legislative session.

Evers continued to push for the elimination of a one-week waiting period between filing for unemployment and receiving the first check.

He also said beyond the federal dollars, the administration needs flexibility and more money at agencies such as Health Services and Workforce Development, which has been flooded with inquiries about unemployment benefits.

"We have been briefing legislative offices on those issues; hopefully we can get somebody to take the bait frankly and let's have a legislative session so we can talk about it," Evers said. "So far that hasn't happened, but we continue to work with the Legislature to make them understand the needs at the state level to make sure that we serve people in Wisconsin the best way possible."

Meanwhile, Dems on the Joint Finance Committee said they backed the guv's proposal.

AMERICAN OVERSIGHT

"I am glad to see Gov. Evers taking initiative to ensure that Wisconsinites are not prevented from receiving the treatment and support they need to weather this public health emergency," Sen. LaTonya Johnson, D-Milwaukee, said in an email. "Key to this is removing statutory barriers and legal red tape so our public health experts have the flexibility to act swiftly to keep our communities safe."

Sen. Jon Erpenbach said it was "high time that Republican leadership stop(s) playing games."

"Every aspect of our lives from democracy, to public safety, to economic prosperity depends on us coming together NOW and working for the greater good of Wisconsin," The West Point Dem wrote in an email to WisPolitics.com.

See the LFB memo on the Evers draft:
http://docs.legis.wisconsin.gov/misc/lfb/misc/109_summary_of_provisions_of_lrb_5904_1_and_lrb_5920_p2_3_24_20.pdf

See a background document from the governor's office:
https://www.wispolitics.com/wp-content/uploads/2020/03/200328Background.pdf

-- The past two weeks are expected to set back-to-back records for the highest number of unemployment insurance claims in state history, according to figures from the Department of Workforce Development.

In the first full week after Gov. Tony Evers issued the public health emergency related to the coronavirus outbreak, 51,023 claims were filed, according to updated figures from DWD.

Before that, the previous record week for UI claims was near the end of 2001, when 49,267 claims were filed. The number of weekly claims only exceeded 40,000 one other time since 1986 -- the earliest year DWD has numbers for -- near the end of 2002.

And according to preliminary figures the agency released, last week is likely to set a new record for UI claims, though finalized numbers aren't yet available. More than 115,000 unemployment insurance claims were made between March 22 and 28, DWD's website shows.

As with the prior week, that total could decrease once the official tally comes out. The preliminary count for that week's claims was around 70,000, and that was amended down to around 51,000. Still, with more than double the number of the previous record in the early count, the probability of last week setting another record is high.

DWD is urging people to file their claims online as its phone system is overloaded with calls. A release shows the agency's unemployment insurance division got more than 1.5

AMERICAN OVERSIGHT

million calls last week, over 6,000 percent more than the previous busiest week on record.

Workers in Wisconsin can receive up to $370 per week in state unemployment benefits, and the latest federal relief package provides an extra $600 per week for up to four months.

At certain times last week, the DWD UI phone lines were getting more than 160 calls per second. In response to the explosion in calls, the agency has improved its capacity from 450 to 690 simultaneous calls.

The agency's UI call center last week added 35 temporary staff members, and is currently training 40 more workers from other divisions to join the call center. DWD plans to hire another 80 employees to help field calls.

Track the latest unemployment insurance claims here:
https://dwd.wisconsin.gov/covid19/public/ui-stats.htm

-- Gov. Tony Evers today announced a public-private partnership with Wisconsin businesses to expand testing for COVID-19.

According to Evers, Exact Sciences, Marshfield Clinic Health System, Promega and UW Health will now pool resources with current labs to strengthen the state's testing capacity and keep up with demand as cases rise.

"Just like H1N1, we knew that testing for the virus would require assets beyond the state labs." said Department of Health Services Secretary Andrea Palm in a press call. "For this response, that has taken the form of a strong partnership between government and some of the best and brightest minds in business and technology."

In a statement, the guv commended the State Lab of Hygiene and the Milwaukee Public Health Lab for "the tremendous lift they have done over the past few weeks to rapidly bring these tests online.

"But even with these combined efforts, unfortunately, we know all too well that as this disease spreads there will be significant pressure on our labs to keep pace with testing," he said. "Wisconsin is extremely fortunate to have these industry leaders in our own backyard."

The labs themselves will not be testing sites, and Wisconsinites will still need a doctor's order to receive testing.

See the release:
https://www.wispolitics.com/2020/gov-evers-announces-new-public-private-partnership-to-increase-covid-19-laboratory-testing-capacity/

AMERICAN OVERSIGHT

-- The Department of Health Services has reported 14 deaths due to COVID-19 and 1,221 confirmed cases, but a WisPolitics.com-WisBusiness.com check of county websites shows the total number of deaths is at least 23.

The most recent death reported by DHS -- a male in his 40s -- was in Fond du Lac County, bringing the county total to two.

The state-reported totals, however, do not include recent deaths in Milwaukee, Ozaukee and Washington counties.

Milwaukee County on its website reports 10 deaths, while the combined Ozaukee/Washington health department reported six deaths in Ozaukee County and one in Washington. The state reported six deaths from other counties.

Forty-four counties have at least one confirmed case.

"It's safe to assume that all communities in Wisconsin, if they don't have community spread, are at high risk for community spread," said Dr. Ryan Westergaard, chief medical officer and state epidemiologist for communicable diseases, in a DHS press call.

According to data collected by DHS, 20 percent of COVID-19 case patients are between the ages of 60-69. Another 18 percent are in their 50s, 17 percent are in their 40s, and 15 percent are in their 30s.

Of those who've tested positive so far, 54 percent were women, while 46 percent were men.

According to DHS Secretary Andrea Palm, some 25 percent of people who have COVID-19 are hospitalized. Within the larger population, 1 percent to 2 percent of coronavirus patients die, according to Westergaard. But he said officials "don't have a great way to capture accurately" when someone is cleared from infection.

https://www.wispolitics.com/2020/coronavirus-resources/

-- The Dane County clerk argues he's already following the guidance of state elections officials when telling voters who may be indefinitely confined that they don't have to provide a copy of their photo ID when voting absentee.

In a filing today, the county argued on Scott McDonell's behalf that the state GOP is trying to create a political issue by asking the Wisconsin Supreme Court to take original jurisdiction in its complaint. The party wants the court to rule clerks don't have the

AMERICAN OVERSIGHT

authority to allow all voters to escape the voter ID requirements for absentee voting due to the COVID-19 pandemic.

"The Petitioners disagree with the Clerk's guidance, because they are trying to win an election. This case is about politics and not the law," wrote David Gault, Dane County's assistant corporation counsel.

McDonell originally posted on social media Wednesday voters "may indicate as needed that they are indefinitely confined due to illness." Gault wrote there "may have been a better choice of words," but that McDonell's post wasn't in conflict with past guidance from the Elections Commission.

Gault also wrote McDonell on Friday posted new guidance from the Elections Commission after the board met to discuss the issue. That guidance includes that it's up to individual voters to decide if they're indefinitely confined, but they shouldn't use it solely to get around the voter ID requirement.

Read the filing:
https://www.wispolitics.com/wp-content/uploads/2020/03/200330Filing.pdf

-- Waukesha announced today it will only have one polling site open on Election Day due to a lack of available poll workers.

The city clerk's office said it normally has 15 polling sites open.

In today's announcement, the city encouraged people to request absentee ballots.

For those who show up at the polls, the city is encouraging them to bring their own black ballpoint pens, to wash their hands or use hand sanitizer upon entering and leaving, and maintaining social distancing while at the polling location.

See more:
https://waukesha-wi.gov/ArchiveCenter/ViewFile/Item/374

-- Over 880,000 Wisconsin voters have asked for an absentee ballot for the upcoming April 7 election, a total that surpasses the state record for absentee ballot requests set in 2016.

So far, 883,293 voters are seeking to vote absentee in next Tuesday's elections. Elections Commission officials expect that number to continue to grow ahead of the April 2 deadline for registered voters to request an absentee ballot.

The previous record of 847,252 absentee requests was set during the November 2016 election.

AMERICAN OVERSIGHT

-- WEDC has not granted essential business designation to any of the companies that have submitted inquiries to the agency, according to agency spokesman David Callender.

Gov. Tony Evers' stay-at-home order gives the Wisconsin Economic Development Corp. the ability to designate companies as essential outside of what's covered in the order. But WEDC hasn't exercised that power, and has only been providing guidance to companies "to help them navigate whether or not they fit into one of the other categories in the order."

The order notes that businesses not listed in the order will only be designated as essential for an "exceptional circumstance." WEDC chief Missy Hughes has said exemptions to the order will be rare.

As of 10 a.m. this morning, 3,538 businesses had made inquiries, and 2,280 of those had been answered.

See more details on essential businesses:
https://wedc.org/essentialbusiness/

-- GOP state Rep. John Nygren announced today he won't run for the state Senate this fall, saying he believes remaining as JFC co-chair is his best opportunity to be a difference-maker in dealing with the impacts of COVID-19.

Nygren, R-Marinette, had been courted to run for the seat being vacated by Sen. Dave Hansen, D-Green Bay. So far, Eric Wimberger, who lost to Hansen in 2016, is the only Republican to file for the race.

Nygren said he ultimately decided the timing wasn't right for a run and he will instead seek reelection to the Assembly, where he has served since 2007.

"As the state deals with the financial impacts of the COVID-19 pandemic, my role as Co-Chair of the powerful Joint Finance Committee is more important than ever," Nygren said in a release. "My best opportunity to make a difference is to remain in my role as Co-Chair."

AMERICAN OVERSIGHT

On the Dem side, Jonathon Hansen, a De Pere alderman and the senator's nephew, has filed to run.

See Nygren's release:
https://www.wispolitics.com/2020/nygren-campaign-senate-announcement/

-- Milwaukee Mayor Tom Barrett says he is "focusing on everything (he) can do" to help residents and city finances get through the COVID-19 pandemic.

But Sen. Lena Taylor, D-Milwaukee, during a forum hosted by the Wisconsin Policy Forum accused Barrett's administration of "corruption and cronyism," and suggested the city would need new leadership in order to work with state lawmakers.

Both Milwaukee mayoral candidates agreed their community faces unique economic, racial, housing-related and school-related issues now and in the future because of this pandemic.

While Barrett wants the upcoming April 7 elections to be changed to a mail-in ballot system to account for a shortage of poll workers, Taylor slammed his decision to close the Midtown Center, which she said had the largest turnout for early voting.

Taylor said she will be suing Barrett over the closure of the early voting locations under the Voting Rights Act, because "this kind of disenfranchisement is unacceptable."

Barrett said the polling places were closed due to a lack of workers, but noted the city has opened a drive-up site.

He called for the state or the federal court to make changes to the upcoming election to account for the pandemic and ensure the safety of poll workers and voters.

Taylor also slammed Barrett for visiting a polling site, a mistake Barrett has acknowledged. She said that if she had done the same, the police and Elections Commission would have responded.

"Neither have done that," Taylor said. "Both of those are under the mayor's administration and that tells you the corruption, the corruption and cronyism that this mayor has in his administration."

Taylor also slammed Barrett for not agreeing to a full debate with her before the election. The two appeared in separate segments during today's forum.

Barrett said Milwaukee is doing more to prevent the spread of COVID-19 than other larger cities like New York and New Orleans did before the number of confirmed cases rapidly increased like Milwaukee is starting to see.

AMERICAN OVERSIGHT

He touted a collaboration with other local leaders opening Claire Hall in St. Francis to give infected homeless people or people who are at risk of becoming homeless a place to isolate during the COVID-19 pandemic.

Taylor said St. Francis Mayor Ken Tutaj is "very upset" with Barrett over the announcement. Taylor said she doesn't think the hall will adequately address the needs people of color are facing during this pandemic within Milwaukee.

"He is always late to the party," Taylor said. "He never has a sense of urgency for the people."

Barrett said some of the reasons the Milwaukee African-American community faces more problems than other areas are the concentrated housing in the predominantly black north side, as well as some "underlying social determinants of health" like high blood pressure and diabetes.

"There has been issues with testing, and they've made it clear it's been inadequate with testing," Barrett said. "Sadly, it might be that more individuals on the north side have met symptomatic criteria for testing."

Taylor stressed the importance of K-12 schools in Milwaukee by pointing out that young parents who are looking for a community to live in are interested in communities with quality K-12 education systems. She said Barrett has failed Milwaukee education, because he has not been able to bring all of Milwaukee's resources together cohesively.

Meanwhile, Barrett talked specifically about the importance of early education and making sure preschool educators receive proper compensation. He said the city's biggest challenge to accomplish its goals will be to "reset our relationship" with the GOP-controlled state Legislature.

"It has taken a while and it has been frustrating, but I don't give up," Barrett said. "That to me is clearly one of the things we have to deal with."

But neither candidate weighed in on the Milwaukee Public Schools' referendum on the ballot calling for an additional $87 million annually, saying they would leave the decision to the voters.

Subject: MON PM Update: GOP leaders say Evers' 'safer at home' rollout creating 'mass amounts of confusion'

MON PM Update -- 23 March 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- GOP legislative leaders today knocked Gov. Tony Evers for creating "mass amounts of confusion" as details of his "safer at home" order were held until tomorrow.

Evers told reporters on Friday he wasn't considering an order to shelter in place, but "will follow the science on that."

During a conference call today, Evers said he has been in constant contact with health experts and others about the quickly developing situation. He said that included business leaders who said it was "imperative" to order people to stay home to slow the disease's spread.

AMERICAN OVERSIGHT

He said the coming order, which will be released tomorrow, wasn't something that he wanted to do. But he believed it was a necessary step.

"Overwhelmingly, the response I heard is that we need an all-hands-on-deck approach to stop the spread of COVID-19 in Wisconsin," Evers said, later adding, "Folks, all hands on deck means you, too."

Senate Majority Leader Scott Fitzgerald, R-Juneau, and Assembly Speaker Robin Vos, R-Rochester, said the guv's shift from his earlier position came as a surprise and was creating anxiety. They said the guv took a "measured approach" in past days and reassured businesses a shelter-in-place order may not be necessary.

They argued he needs to do a better job of explaining his decision and detailing his definition of essential and non-essential businesses.

"The people of Wisconsin deserve clear communications during a public health emergency," they said.

The guv said he didn't personally speak with lawmakers before announcing he will issue the order. But his office said staff was in contact with legislative leaders and their offices prior to and after today's announcement. The office has also been providing a daily briefing to legislative leaders.

"COVID-19 is a rapidly evolving situation," said Evers spokeswoman Britt Cudaback. "Gov. Evers is relying on science and guidance from public health experts to respond to and manage the spread of COVID-19. The governor will continue to make the necessary, difficult decisions he has to in order to save lives in Wisconsin."

See the GOP statement:
https://www.wispolitics.com/2020/sen-fitzgerald-rep-vos-gov-evers-executive-order/

Click here for links to resources related to the coronavirus:
https://www.wispolitics.com/2020/coronavirus-resources/

-- Evers and his Chief Legal Counsel Ryan Nilsestuen several times today declined to provide specifics on what the coming order will look like other than saying it is expected to continue current policy allowing bars and restaurants to continue takeout and delivery.

Evers said there will be a "buffer" to give people time to comply with the order, and he noted the federal government has posted a list of essential businesses. Still, he added there will be a "Wisconsin vantage point" to the list he will release.

"There's going to be a large number of businesses that will remain open, just like we've seen in other states," Nilsestuen said on the call.

AMERICAN OVERSIGHT

Evers didn't specify during the call which federal list of essential businesses he was referencing.

But the Department of Homeland Security's Cyberspace and Infrastructure Security Agency on Thursday issued guidance on what qualifies as an essential service. The list includes sectors such as: health care, including the manufacture of personal protective equipment; those supporting groceries, pharmacies and other retail that sell food and beverages; and infrastructure employees supporting the electrical grid, petroleum industry and natural gas.

Other industries on the list include: automotive repair and maintenance; air transportation; plumbers, electricians and others who maintain the safety, sanitation and operation of residences; and a host of manufacturing associated with transportation, energy, communications, food and others.

See the guidance:
https://www.cisa.gov/publication/guidance-essential-critical-infrastructure-workforce

-- State Rep. David Bowen, D-Milwaukee, offered a warning today after announcing he has tested positive for COVID-19.

"Even if you are young and typically healthy, it's even more important that you heed the call to stay home, take care of your family, and not spread the virus to others who are vulnerable," Bowen said.

Bowen, currently in quarantine at home, is the first state lawmaker to publicly announce contracting the disease. Bowen said he was notified by the Shorewood Health Department he had come in contact with a local elected official who had tested positive and immediately went into quarantine. After showing symptoms, he was tested.

"Had I known of my status even earlier, I would have reduced my exposure to others who may potentially have gotten the virus from me," Bowen said.

See the release here.

-- The Wisconsin National Guard is instituting a buy-back program for personal protective equipment, calling on businesses to sell or donate these materials to the coronavirus response effort.

As the director of emergency management for the state, Major General Paul Knapp is coordinating more than 300 Wisconsin National Guard soldiers and air personnel to help the state.

AMERICAN OVERSIGHT

In a conference call today with Gov. Tony Evers and state health officials, Knapp said a website for the buy-back program has been created and will go live sometime in the next two days.

"Businesses that have closed as a result of the outbreak and no longer have use for the PPEs, we can buy it back or take those donations, reprioritize them and get them back out to the first responders and medical folks that need them the most," he said.

He said the National Guard will take any N95 particulate respirators, face masks or shields, gloves, isolation gowns, surgical gowns, medical coveralls and thermometers. Collected materials will be kept in a secure warehouse and distributed based on greatest need. Wisconsin has also requested additional protective equipment from FEMA.

Knapp says the website will have the capacity for other "critical needs" including formula and diapers for child care, as well as hand sanitizer.

"What we'll be able to do then is make informed decisions to best maximize known critical resources in the shortest amount of time," Knapp said.

-- The Wisconsin Elections Commission today warned local officials they can't shutter early voting locations ahead of the April 7 election.

The move comes after the City of Milwaukee announced it will no longer be operating its three in-person absentee voting locations, because it could "no longer maintain sufficient staffing levels to operate these sites in a manner that would ensure a safe or efficient public voting experience."

But citing a federal court decision that struck down restrictions on early voting passed during the 2018 lame-duck session, state Elections officials told county and municipal clerks they could not decline to accommodate in-person absentee voting.

"While the statutes do not mandate specific times or a minimum number of hours where in-person absentee voting must take place, the clear intent is that electors have reasonable opportunities to exercise those rights and that clerks must offer in-person absentee voting," the commission wrote in a memo.

The commission told local clerks municipalities can alter hours for in-person absentee voting and voter registration, move to an appointment-only process or offer curbside or drive-through in-person absentee voting.

Still, a spokesman told WisPolitics.com the commission was waiting for guidance from Gov. Tony Evers on how the "safer at home" order scheduled to go into effect tomorrow would apply to early voting.

AMERICAN OVERSIGHT

"In the past he's exempted elections from his orders, but it's unclear what the new orders cover," spokesman Reid Magney said.

The memo was released as the commission announced the number of absentee ballot requests for the April 7 election has nearly doubled from the previous high-water mark for a spring election.

As of today, 482,740 voters have requested to vote absentee, by far eclipsing the previous record set during the 2016 spring election of 249,503 absentee requests.

Registered voters have until April 2 to request an absentee ballot.

The deadline to use the state's MyVote website or mail to register to vote in the spring election passed last week, but a federal judge on Friday extended the deadline to register electronically to March 30.

The commission is still working on restoring that option to the MyVote website. Magney indicated WEC Administrator Meagan Wolfe was "concerned about capacity issues with the system that could be caused by adding the online registration service back into the mix."

https://city.milwaukee.gov/election#.Xni-V4hKiXI

-- A group of Milwaukee leaders today joined the list of officials and organizers calling for the postponement of spring elections in response to the COVID-19 pandemic.

The group, consisting of activists and healthcare workers in the Milwaukee metropolitan area, said Gov. Tony Evers' announcement today of a "safer at home" order only reinforces how any in-person voting on April 7 puts the public in danger to further community spread.

Sandy Pasch, a nurse and former Assembly Dem lawmaker, told reporters in a teleconference that postponement of the election and searching for alternative voting methods to prevent spread is the only ethical option.

"How can we expect the elderly, voters with children, to stand apart in lines snaking around our neighborhoods?" she asked. "How can we ethically justify the harm to poll

AMERICAN OVERSIGHT

workers, voters and their families?"

Pasch said every person infected with COVID-19 spreads the disease to at least two others. And with no cure or viral medication, she said, social distancing is the best option people have to keep themselves and their loved ones healthy.

Meanwhile, Souls to the Polls organizer Reverend Gregory Lewis said he has tested positive for coronavirus and is in self-quarantine. He said if he can't even go vote, he doesn't want to think about what challenges his neighbors have to reach the polls.

"Our community will be forced to decide between our right to vote and their own safety," Lewis said. "And once again, the right to vote will lose."

Evers has repeatedly said the April 7 election should move forward as scheduled and encouraged people to vote absentee. He did so again today, adding he and his wife requested absentee ballots over the weekend.

"The message still is and will be, 'Stay at home, vote by mail,'" Evers said.

Others from today's teleconference included: Milwaukee Area Technical College Professor Dr. Thomas Kalluvila; National Association for the Advancement of Colored People Milwaukee Branch Legal Redress Chair William Sulton; League of Women Voters of Wisconsin President Debra Cronmiller; and Voces de la Frontera Executive Director Christine Neumann-Ortiz.

At least 10 states and Puerto Rico have postponed their election dates in response to the virus.

-- OCI has directed Wisconsin insurers to help restaurants that have begun offering delivery service.

Evers previously ordered the closure of restaurants except for takeout or delivery.

The new order means insurers have to cover delivery services on personal auto insurance policies. They also must cover hired drivers and non-owned automobiles as a rider on a restaurant's general liability insurance if it is requested. Both must be offered at no extra cost to policyholders.

-- U.S. Sens. Tammy Baldwin and Ron Johnson again split on a procedural vote on the Senate's version of a coronavirus stimulus package.

AMERICAN OVERSIGHT

Dems charged the GOP bill was unacceptable, because it had a "slush fund" for corporations and didn't include adequate protections for taxpayers. Republicans accused their Dem counterparts of trying to load up the package with a liberal wish list.

Baldwin, D-Madison, and Johnson, R-Oshkosh, stuck with their parties in today's 49-46 vote. It needed 60 votes to proceed.

See the roll call:
https://www.senate.gov/legislative/LIS/roll_call_lists/roll_call_vote_cfm.cfm?congress=116&session=2&vote=00078

-- The Department of Corrections announced an employee at Columbia Correctional Institution has contracted COVID-19, the second case at a state prison.

The announcement comes after Corrections last week confirmed an employee at Waupun Correctional Institution tested positive for coronavirus. Both Columbia and Waupun are maximum-security facilities.

The agency said both employees were directed to self-quarantine while both facilities "suspended administrative rules to limit movement for the protection of our staff and the adults in our care."

No inmates have tested positive for the virus.

See the release:
https://www.wispolitics.com/wp-content/uploads/2020/03/COVID-19-Positive-Staff-Test-Press-Release-.pdf

-- The Department of Health Services today announced the state's fifth death from COVID-19.

According to the Milwaukee County Medical Examiner's office, the patient was a 54-year-old Milwaukee County man. It's the third death from coronavirus reported in the county.

As of 2 p.m. today, 416 people have tested positive for the virus, while 7,050 have tested negative.

-- UW-Madison announced today it will not hold in-person commencement ceremonies in May.

AMERICAN OVERSIGHT

Instead, it's planning a virtual ceremony with an in-person event at a later date.

See the video announcement:
https://www.youtube.com/watch?v=BRJq1se9pi8

-- Priorities USA today announced two new TV ads in Wisconsin, including one knocking President Trump's initial handling of the coronavirus pandemic.

The second ad praises Joe Biden, who has taken a commanding lead for the Dem nomination. The group was created to run ads ahead of the Dem national convention to provide a counter to Trump's campaign, and it's the first ad from the group to mention one of the Dem presidential contenders.

The initial buy on Wisconsin TV is $633,000. Cassidy Geoghegan, the group's Wisconsin outreach director, said the new buy will start in Green Bay and Milwaukee today. The second ad will also run in the Wausau and La Crosse markets.

The ad knocking Trump plays audio of his past comments about COVID-19 as a line travels across the screen showing the number of confirmed cases. The line stays largely flat as Trump says things such as, "We have it totally under control."

The ad then plays him saying, "We really think we've really done a great job in keeping it down to a minimum," as the line showing cases begins to spike. The line continues to rise as Trump says how much he likes "this stuff" and "people are surprised that I understand it."

It closes with Trump saying, "No, I don't take responsibility at all" because the ad says, "America needs a leader we can trust."

The second ad also features Trump saying he doesn't take responsibility before showing video of Biden saying, "I can promise you this. When I'm president, we'll be better prepared, respond better, we'll lead with science, and I'll always tell you the truth. Because in times of crisis, the American people always, always, stand as one if told the truth."

The group is also doing digital ads with similar themes.

See the ads:
https://bit.ly/2wxYort
https://bit.ly/39cSJo4

-- On the 10th anniversary of the Affordable Care Act being signed into law, health access advocates in Wisconsin are calling on the federal government to end a lawsuit against the ACA.

AMERICAN OVERSIGHT

During a conference call today organized by Priorities Wisconsin and the Committee to Protect Medicare, speakers emphasized the importance of health insurance coverage for individuals impacted by the coronavirus pandemic.

"As we are bracing for the impact on our scarce hospital and ICU beds and supplies, we know that keeping barriers to medical care in place means more sick people spreading the infection widely in our communities," said Dr. Laurel Mark, a retired physician based in Madison.

She and other speakers noted the Affordable Care Act led to millions of previously uninsured Americans gaining coverage over the past decade.

"If the lawsuit that the Trump administration champions causes the ACA to be made void, the opposite will happen," said Steve Ohly, a nurse practitioner with experience caring for uninsured individuals in Milwaukee. "Instead of making progress toward full coverage, we will regress as a society and the ranks of the uninsured will grow."

As many people are laid off due to impacts of the coronavirus, Mark notes a significant portion of them is expected to lose insurance. And if the lawsuit targeting the ACA is successful, the issue could be heavily compounded.

"What is going to happen April 1st when all of these people who don't have jobs anymore now don't have insurance?" she said. "There's going to be a huge number of people who will not be insured very shortly -- by next week, probably."

Another speaker on today's call, an Oconomowoc native named Jacque English, has polycystic kidney disease. Her pre-existing condition led to major hurdles in obtaining coverage before the ACA was created.

"Every month when I fill my prescriptions, the pharmacy reminds me the cost can change anytime," she said. "It's tough living with the uncertainty of not knowing how long I'll continue to be able to afford all my medications."

-- AG Josh Kaul called for dropping the ongoing lawsuit on the Affordable Care Act during a WisDems press call celebrating the ACA's 10th anniversary.

Kaul said that the coronavirus crisis shows how critical the protections of the ACA are to the American people.

"Americans have been asked to take extraordinary steps to help us fight the spread of coronavirus and we need our federal government to take extraordinary steps as well and one way that it can support the American people as we fight this virus is by standing up for health security and dropping the attacks on the Affordable Care Act," he said.

AMERICAN OVERSIGHT

Kaul noted that he was proud to drop Wisconsin from the lawsuit against the ACA last year.

The Trump administration has talked about reopening ACA enrollment so that people who have no coverage or have gotten a "junk plan" can re-enroll and get stronger coverage, according to Kaul.

"I certainly encourage the Trump administration to move forward with that effort at this time," he said. "This is a time Americans need greater security from our federal government."

During the call, Kaul also applauded the ACA for preventing women from being charged more than men for the same care, and working on providing preventative care such as vaccinations, cancer screenings and mammograms.

Subject: FW: Movie Theatre Owners Letter to Wisconsin Legislators
Attachments: NATO COVID Letter 04-08-2020.pdf

You have a lot of small mom and pop theatres in your district, so IDK if you want to bring this up as something to address. Definitely more of a rural issue where there aren't as many multi screen locations.

From: Forbes McIntosh <forbes@wis-gps.com>
Sent: Wednesday, April 8, 2020 5:11 PM
Subject: Movie Theatre Owners Letter to Wisconsin Legislators

Members of the Wisconsin Legislature:

Please find attached a letter from the President of the National Association of Theatre Owners (NATO) of Wisconsin and Upper Michigan.

The movie theatre industry is not complaining about the actions to closure due to the COVID-19 pandemic. However, it is clear that without recognition and action – theatres may fail in your local communities.

The requests provided are explained in the attached letter and focus on treating our licensed retail food concession the same as other licensed food retail that allows for take-out, drive-thru and curbside delivery. Further, two other requests ask state government to recognize that the theatre industry may not be able to hit the "re-start" on the economic engine until November – when the bulk of new movie releases are scheduled to occur and revenues can actually be generated... to pay bills and pay taxes.

- * **Request: Extend Timeline on Commercial Property, Rent Evictions and Foreclosures.** Amend Emergency Order #15 to provide an additional penalty-free 90-days of protection after theatres are allowed by state government to re-open to acknowledge the financial hardship that will occur for several weeks and possibly months afterwards.

AMERICAN OVERSIGHT

- * **Request: Allow theatres to delay all property tax and sales tax payments until December 31, 2020.** Movie production studios are in many cases are releasing new movies directly to online streaming services (bypassing theatres) or delaying release until Fall 2020 or sometime in 2021. Further, the next timeline for major movie productions releases in many instances does not occur until November. This means many your local theatres may not have the means to pay bills and taxes until that new movie content is released this fall to generate sufficient ticket and concession sales.

- * **Request: Allow theatre food concessions to participate like other food-retail entities with take-out, curbside pick-up and delivery.** We understand why the theatre-auditoriums and restaurant dining areas where assembly seating is provided must be closed during this COVID-19 public health emergency. However, unlike theatre concessions - restaurants and other food retailers (i.e. cheese shops, candy stores, cafés, bakeries, popcorn vendors, etc.) are able to remain open by limiting food and concession operations to take-out or delivery service only. Theatres are just asking that their food retail concession be treated the same.

Keep in mind that movie theatres have perishable and expiration date food and drink products sitting in our theatre concession areas – all of which will go to waste if we are not provided the same opportunity as other licensed food retailers. Theatres have been ordered to close – entirely – theatre auditoriums and concession areas. These businesses should be afforded the opportunity for community support to at least help pay the bills when no revenue stream is currently allowed to occur.

Please see the letter for background on each request.

Dear Mary,

My daughter is a bartender for a local bar/ supper club. She’s applied for unemployment but her employer told her he would deny it because she could come work & take orders for pick up & she could clean However this would be only 4 hours a day at $9. An hr. Hardly what she was making working.
Are employers being penalized during this virus .shut down by employees signing up for unemployment?

Thank You,

Tammy Stegall

Hello Representative Felzkowski,

The underlined statement is what Sue Kolve the Owner of the Salon Professional Academy in Onalaska experienced yesterday.
I too have made many calls and sent email with no response.
Shawn Raukman from PHD Academy in Eau Claire has only heard from the EAB which oversees Massage and they granted emergency online approval.
Can you help us with our Cosmetology, Esthiology and Nail Technology Programs?

I reached out to the DSPS yesterday and I was directed to Licensing and Credentials. I am trying to get Temporary Approval of Distance Education. This is the first step in this process. Once we complete this process with the State we are able to move forward with our Accreditors and the Department of Education.
I asked to speak directly to Secretary Crim, Deputy Secretary Trammell, or Assistant Deputy Secretary Hereth....I was told I could only be transferred to a department . I did leave a message have not heard from anyone. Sent email , no response called back and receptionist assured me that she would pass my

AMERICAN OVERSIGHT

contact information on to Sam...the Supervisor and he would get this in the hands of the right person. Still no word from anyone.
If you can help me in anyway.....the Governor has ordered all schools to close today at 5pm.With State Approval I am confident that we will be able to continue teaching our students. The theory portion of our curriculum and a little of the practical portion of our curriculum can be taught online. There are 2 textbook companies that provide online formats for the programs we offer. Pivot Point and Milady both offer Cosmetology and Esthetics online curriculum.
This link will take you to a spreadsheet that will show the progress each State has made . I would like to add our State Approval to this sheet!
https://docs.google.com/spreadsheets/d/1X5-iBQbCKmGupElPO4UtS4IckjZsZeZWSZB94ZXY8e8/edit#gid=0

I am available all day today please let me know if you think this is possible and also if there is any additional information that I can send you.

Subject: Open Records Request

Dear Representative Felzkowski,

Pursuant to Wisconsin's open records law, I request access to and a copy of all records that pertain to the Wisconsin Institute of Law & Liberty (WILL), including the following WILL employees:

- * Rick Esenberg
- * CJ Szafir
- * Luke Berg
- * Will Flanders
- * Anthony LoCoco
- * Don Daugherty
- * Brian McGrath
- * Mike Fischer

The scope of this request includes the Representative and his staff. The scope of this request should include but is not limited to emails, attachments, both sent and received, all draft records, briefing books, memos, notes, minutes, scheduling records, text messages, other correspondence (internal and external) and all other records.

The search for records may be limited to those sent and received between January 1, 2020 and the date of your final response.

Please note that this request includes all emails sent and received on official state email accounts, as well as any other private email accounts or applications, such as Dropbox, GoogleDocs, ALEC Connect, or the Briefing Room, that have been used for official business. This request also includes any and all records available through a web hyperlink. Note: once viewed online, downloaded, printed, or otherwise in your possession, these materials become a public document subject to state public records law.

I request that these records be provided in electronic form in their native format. The Center for

AMERICAN OVERSIGHT

Media & Democracy is a non-profit public-interest organization, and the disclosure of the materials requested here would be in the public interest, greatly benefiting public understanding of the workings of government. As such a waiver of any fees is requested. If the waiver is not granted, we agree to pay any reasonable copying and postage fees of not more than $20.

If the cost would be greater than this amount, please notify us. Please provide a receipt indicating the charges for each document.

If you choose to deny this request in whole or part, please provide a written explanation for the denial including a reference to the specific statutory exemption(s). As allowed by Wisconsin law, please provide all portions of releasable material, even if there is redacted material on the page or record.

Lastly, please acknowledge receipt of this message.

All the best,

Hey Doug,

I hope things are going well and you're staying safe. Rep. Felzkowski was wondering if you would be able to provide us with a list of gas stations or petroleum marketer members in our district? She is hoping to reach out and partner with them on a public information project.

Please let me know if you have this info.

Thanks!

Subject: Re: Please cancel the May 12th Special Election for the 7th Congressional District

As the Town Clerk for the Town of Lake I wholeheartedly agree with the sentiments written by Price County Clerk Jean Gottwald. The burden and danger placed on the clerks as well as the voters is appalling. The public is at increased risk with the contact and this must be considered and stopped.

AMERICAN OVERSIGHT

As is the case in most of the rural townships, the clerk position is a part-time position and a great many of us have our "regular" jobs. I happen to work as an EMT with the local hospital and ambulance service and am amazed that the state is willing to put so many in jeopardy by encouraging the elections. I am also grieved that the state is willing to put this additional burden on so many while we are trying to protect our resources.

Please, cancel the May 12 election! Please! For all of us! For the 7th CD constituents. Please help prevent the spread of this disease. Please keep us Safer At Home!

Judy Reas

> Please cancel the May 12th Special Election for the 7th Congressional District. There is still ample time to act.
>
> While the entire nation is in the midst of a public health emergency, the May 12th election does not need to be held. The 7th CD seat has been vacant for six months. That contest will be on the ballot AGAIN at the November 3rd General Election. Having that seat vacant for another six months does not seem to be worth putting the health and safety of the electors of northern Wisconsin in jeopardy again. Absentee voting results were outstanding for the April 7th election. But a lot of people still showed up at the polls to vote.
>
> Tracking of the COVID-19 pandemic in Wisconsin is very fluid and the latest reports I've seen are targeting April 26th as the peak. Let's all work together to flatten the curve – keep it flat – and not provide another opportunity for the curve to rise – by keeping electors away from the polls on May 12th.
>
> Someone needs to step up NOW and take the necessary measures to prevent opening the polls on May 12th. Governor? Legislators? DHS/Public Health? Stop playing politics with people's lives. Figure it out and do what is in the absolute best interest of the citizens of northern Wisconsin. Cancel the May 12th election.

AMERICAN OVERSIGHT

Keep Northern Wisconsin citizens – Safer at Home.

Subject: Protect Businesses from Frivolous COVID-19 Litigation

Good afternoon,

Please find attached a copy of a memo outlining common sense protections for businesses on the front lines of the COVID-19 pandemic. While most are coming together to work through these highly unusual times trial attorneys are looking to profit from this public health emergency. They have already sued soap manufacturers, makers of hand sanitizer and respirators, and insurance companies. They're also targeting grocery stores, pharmacies, and healthcare providers.

The Legislature should protect businesses from being preyed upon by the plaintiffs' bar when those businesses are doing the right thing by providing essential services, making medical and personal protective equipment, and treating or otherwise helping those with COVID-19.

WMC appreciates the intent behind the provisions currently in the omnibus COIVD-19 legislation. However the current provision protecting manufacturers of PPE is so narrow that is likely unworkable in practice and there are no protections for the broader business community like grocery stores that are essential to supplying America during this pandemic.

Thank you for your time and have a good weekend.

Respectfully,

Cory

Protectionist and Restrictive

Decisions from licensing boards are oftentimes arbitrary and unfair

By BETSY THATCHER | April 2, 2020

AMERICAN OVERSIGHT

A convoluted mathematical equation used by a Wisconsin state licensing board deprived a tribal dental clinic of a pediatric dentist for nearly a year.

The clinic, located on the Lac du Flambeau Band of Lake Superior Chippewa Indian reservation in the far northcentral part of the state, had been desperately looking for a pediatric dentist to treat its approximately 300 child-age patients.

For most of the year in 2018, only 30 of the 300 children had been able to travel to a referral clinic in Eau Claire — a fivehour round trip — to receive care, according to dental director and dentist Thomas Wheeler at the Peter Christensen Dental Campus, the tribal clinic.

It is difficult for rural and cold-climate clinics to attract dentists, so the clinic thought its prayers were answered when a nationally known pediatric dentist agreed to work there.

In November 2017, Lance Kisby, who has practiced dentistry for 36 years, interviewed for a position at the Lac du Flambeau clinic and filed an application with the Wisconsin Dentistry Examining Board for a license to practice in the state.

“Everybody (at the clinic) told me, ‘We’ve been without a pediatric dentist for years. When can you start?” Kisby recalls.
Little did Kisby know that it would take more than 13 months.

The North Woods clinic serves the 3,000-member tribe of Chippewa Native Americans. It is in a region that has been identified by the federal government as a “dental shortage area.”

AMERICAN OVERSIGHT

Wisconsin ranked dead last in the nation for providing oral health care to the more than 550,000 children who receive dental benefits through Medicaid, based on 2015 U.S. Department of Health and Human Services.

“We were without a dentist for the children for more than a year,” says Tribal Attorney Jodie Bednar-Clemens. “I’m very bitter about it.”

Bednar-Clemens, a former Oneida County assistant district attorney, worked on Kisby’s case after the Wisconsin Dentistry Examining Board refused to grant him a state license.

Kisby’s distinguished career has included several stints as chief of pediatric dentistry in large American hospitals. He regularly lectures to his peers in seminars around the country and is a noted author on pediatric dental topics.

But the dentistry board denied the license based on a head-scratching determination that Kisby had not “engaged in at least 750 hours of the practice of dentistry within the 12-month period preceding” his Dec. 6, 2017, application.

The board’s practice has been to have one of its members review applications and determine whether the dentist had indeed worked for at least the 750 hours required by the state administrative code.

The board member, a dentist, came up with her own formulation that, in short, eliminated from the equation a whole month of practice if the dentist had worked fewer than 60 hours in that month.

AMERICAN OVERSIGHT

The board denied Kisby's application on March 30, 2018, almost four months after he applied, simply on the results of this math.

Kisby decided to appeal the decision.

"I sent them proof that I worked all that time," Kisby says of 1,500 pages of time sheets and emails that showed he had worked at least 1,100 hours in the 12 months prior to his application. "I sent it overnight for $60 in a big box to the dental board. I didn't hear from them for two or three months."

And when he did, it was another denial. That's when Bednar-Clemens, the tribal attorney, stepped in, and the matter went before administrative law judge Jennifer E. Nashold at the end of July 2018. Kisby waited another 100 days for documents and responses to be filed by both sides and for the judge to review and make a ruling.

Nashold reversed the board's decision, writing that the board member's "division, multiplication, rounding up and rounding down exercise (led) to admittedly arithmetically inaccurate results." But it took almost a full year for the issue to grind through the bureaucratic process, and all the while the tribal clinic went without a pediatric dentist.

Tribal attorney Bednar-Clemens chastised the board for relying on a system of "made-up, arbitrary rules" that resulted in serious consequences for the clinic — and the children it serves.

AMERICAN OVERSIGHT

“I was unemployed for 13 months while my kid was in college,” Kisby says. “We went through 50 percent of our retirement just to pay my bills. It was a super financial hit.” He was finally able to start his job in January 2019.

Following the resolution of this case, references to the hours worked in the 12 months prior to a license application have been removed from the state administrative code. Phone messages to the Dental Examining Board executive director and the board chairman were not returned.

Unfortunately, cases like this are not uncommon for Wisconsinites who work in licensed professions. According to state statute, licensing boards are authorized to “review, investigate or handle” disciplinary matters for those who are licensed in their designated profession. Boards are also the supervisory authorities “regarding qualifications of applicants for credentials.”

While licensing boards in theory are established to promote public health and safety, they at times deny licenses or discipline practitioners for reasons unrelated to these criteria. As a result, applicants can be stymied in their pursuit of an occupation, and existing license holders can face fines or the loss of the very license that allows them to practice their profession.

Clerical mistakes turned costly

Another case involving professional licensing resulted in months of aggravation and cost for a southeastern Wisconsin chiropractor who had inadvertently allowed his license to lapse.

AMERICAN OVERSIGHT

The chiropractor had completed all of the continuing education and other necessary requirements, such as bringing his CPR certification up to date, to renew his license in December 2012, except for one thing. The renewal did not get filed with the state Department of Safety and Professional Services in time. He had delegated the task to an employee in his clinic who had renewed his license in a timely manner in the past.

It took a few weeks before the chiropractor learned his license had expired. The doctor alleged that the employee falsely told him that she had filed the renewal. When she attempted to play catch-up, she erroneously stated that her boss had not completed the CPR update.

Ten days later, when the chiropractor learned that his license remained expired, the employee was terminated from her position.

The chiropractor immediately contacted DSPS and provided all the necessary documentation to renew his license. He testified in the disciplinary case that a DSPS employee twice assured him that he had “a grace period” and that it was just a “clerical matter” that would be taken care of.

In a follow-up call to DSPS three days later, the doctor was told that he was compliant.

But when the chiropractor checked the state license website in early February, it still showed an expired license. Concerned, he contacted the state agency and was asked to provide evidence of his CPR certificate because the original copy sent to them had vanished. And, yet again, he was reassured by the state

AMERICAN OVERSIGHT

employee that it was just a clerical issue, and it would be resolved.

The chiropractor later learned that he faced disciplinary action that resulted in not only a formal reprimand but also an order to notify every patient he treated between Dec. 14, 2012, and Feb. 4, 2013, that he was not licensed and that he billed for services he was not legally authorized to perform during that time.

The matter escalated to a full investigation by the state, which led to the chiropractor hiring an attorney and spending hours providing information and testimony.

Even the administrative law judge who heard the case admitted she would have preferred to give the chiropractor only an administrative warning, given the snafus committed by the state agency, but she concluded that precedents established in similar cases required a formal reprimand.

The law judge did reduce the time period of unlawful practice to just the month's time between the license expiration and the chiropractor's own call to DSPS.

Any patient treated by the chiropractor during that period could have sought a refund, which could have added up to a substantial sum. The doctor also was ordered to pay 20% of the costs borne by the state to prosecute the case.

Neither the chiropractor nor his lawyer responded to phone messages and emails seeking comment on the case.

"Very persnickety"

AMERICAN OVERSIGHT

Arthur Thexton, who served as a prosecutor for DSPS for 24 years, and who is now in private practice handling cases for professionals on the other side of the table, called the Chiropractic Examining Board “very persnickety.”

“They are very hard on their disciplinary cases,” Thexton says.

But they’re not alone. In a case in 2017 involving the Dentistry Examining Board, a woman who wanted to practice in Wisconsin was denied because the foreign dentistry school from which she received her degree was not accredited by the American Dental Association Commission on Dental Accreditation.

“The case of Dr. (Bonolo) Odirile is extremely irritating to me,” says Thexton, who represented the dentist. Odirile had graduated with a bachelor’s degree in dental surgery from the University College Cork dental school, a university in Ireland that is ranked among the top colleges worldwide. Odirile had also obtained a post-graduate orthodontic certificate from the University of Pennsylvania School of Dental Medicine.

“There was no legitimate reason for believing this woman was not a completely well-qualified, welltrained, excellent dentist,” he says. “They decided to take a very conservative view of the rules that they had in place and apply them very strictly.”

Thexton calls the rules “protectionist in nature and usually restrictive.”

Odirile and her husband had hoped to settle their family in Wisconsin, Thexton says. Instead, Odirile’s family moved to Texas, where she is now working as a

AMERICAN OVERSIGHT

dentist.

The rules that guide the various professional and occupational licensing boards can often seem overreaching, Thexton says, “but on the other hand, you have to have some kind of standards, and once you establish them and put them in writing you have to stick to them or change them and try to be consistent.”

“The rules that they have don’t really deal well with the facts of the case,” he says, though. “That’s always going to be true. You can’t predict every possible case.”

In Odirile’s case, he says, “Wisconsin lost a very good dentist.”

Rules and punishment differ

In the case of the chiropractor who had inadvertently been practicing without a license, the consequences regarding his malpractice insurance had the potential to be serious, Thexton says.

“If you are not licensed, then it is very likely that your malpractice coverage will not be effective,” he says. “If you’re not covered, then your patients are at risk, because if they get hurt or something goes wrong, then they are without legal recourse to get the kind of care they might need to repair damage.”

Thexton, the former DSPS prosecutor, says it would be ideal to have across-the-board standards and operating methods among the various licensing bodies, but in practicality the differences in occupations and the levels of potential public harm have to be taken into account.

AMERICAN OVERSIGHT

“Each profession has its own individual rules, of course,” Thexton says. “It’s one thing if you have an affair with your pharmacist; it is quite another to have one with your psychologist.

“There could be some standardization and rules that could apply to everybody, but, on the other hand, you’re never going to achieve total standardization.”

Hi Mary,

I hope you are hanging in there with all that is going on. These are certainly interesting times!

We have become aware of a potential bill being sponsored by Rep. Schraa regarding BI claims and the introduction of retroactive payments on this line due to COVID-19. Can you shed some light on what you have heard, and is there anything that we can do to help defeat this before it get traction?

By the way, I'm excited for your upcoming Senate race, and look forward to supporting you through that process!

Thanks and stay well,

Mike

Hi Jon,

I hope you're doing well and staying safe. I know it's been a bit of a hectic time, but I wanted to check in and see if anyone at CSG was looking into this. I know on our phone call you had mentioned your colleague might have something on this?

Thank you,
Stamena

Subject: Research Question from Rep. Mary Felzkowski

Hi Jon,

I hope you're doing well! Rep. Felzkowski had a research question that she thinks will affect multiple states and was wondering if this is something CSG would be able to look into for us.
Last week, she met with a coalition of rural superintendents who shared that they were incredibly concerned about the Higher Learning Commission's ruling on increased training hours for teachers. Our state, like many others in the Midwest and around the country, is struggling with a lack of individuals entering into the teaching profession. This problem is dually exacerbated for rural school districts who have an even more difficult time recruiting new teachers. Representative Felzkowski's question is this: **How are other states reacting to the increased requirements and approaching what appears to be an undue burden on an already burdened profession?**

Below is a portion of an email from one of the superintendents which might help kick-start your research (the attachment is also from the superintendent's email). Please let me know if you think this is something CSG will be able to look into for us.

Thank you!

Stamena Ivanov
Office of Representative Mary Felzkowski
35th Assembly District
Assistant Majority Leader

---

1) HLC's rules are set, they are not wavering in this and there's nothing that will change their position. The following is a link to their website as to who the HLC is, etc.:

https://www.hlcommission.org/

AMERICAN OVERSIGHT

2) As the first attached document shows, the adverse implications of this matter are going to be catastrophic throughout Wisconsin and our collective efforts to curtail post-secondary debt, and time to work, contributing to the plight that is facing all public and private businesses and entities, and that's finding talent. I do not need to comment any further as to how this all ties together in the growth and progression of our state, you're well aware I know, as it's what you all strive to do in your work each day...to move our economy and society forward.

Coincidentally, this email just came from Midwestern Higher Education Compact
- https://www.mhec.org/

The matter at hand as you can see is well beyond the borders of only Wisconsin, and I'm proud to say that Wisconsin is already ahead in this work due to the efforts of NEWERA (Northeast Wisconsin Educational Resource Alliance) - https://www.neweraonline.org/

NEWERA has already put a database/locator together for interested teachers, yet even with this, there are challenges, ESPECIALLY in math. Math content courses are far and few, very high-level and with minimal availability. My math teacher has been tirelessly trying to pursue courses, yet those available in his schedule are found out of state, and defer to those interested, or they are offered during his workday. Additionally, and it is what it is, the courses are very rigorous...he began on this past year and dropped after a week as it was consuming any and all of his time he had outside of teaching and the other roles he serves to the school and school-community.

Yet, to also put into perspective, what we're up against, are the following numbers completed by a survey of NWTC of its certified high school instructors at this time in their technical college region here in Northeast Wisconsin - I can assume you'll see similar in any other region throughout the state:

RIGHT NOW THERE ARE = 154 General Studies Transcribed credit teachers in NWTC's entire region of service

ONLY 18 currently meet HLC (only 12% of the teachers currently offering dual credit)

14 are undecided if they are pursuing HLC credentials

50 **are not** pursuing HLC credentials (so 1/3 aren't even interested in pursuing, even with free tuition - most schools have moved away from models of compensation that offer greater compensation solely based on credit attainment, hence why we're proposing an incentive model as shared in my previous email today)

AMERICAN OVERSIGHT

32 will start pursuing HLC credentials

40 have not responded with their plan (I assume this means they're likely not interested in this matter, hence no reply)

So, based on the above, and making some fair assumptions, Northeast Wisconsin alone will likely lose more than **one-half** of it's currently accredited instructors that offer post-secondary coursework at the secondary level - CATASTROPHIC!!!

Hoping we can continue moving this conversation forward.

Best,

Ben

Subject: MHEC looking for institutional feedback re graduate coursework for concurrent enrollment teachers
To: concurrentenrollment@lists.mhec.org <concurrentenrollment@lists.mhec.org>

Dear Colleagues,

MHEC is working on creating a searchable database high school teachers can use to find the graduate courses they need to qualify under HLC guidelines to teach concurrent enrollment courses in high schools. We are seeking feedback from folks at institutions who run such graduate courses and programs and those who run concurrent enrollment programs. If you are such a person, or if you know such a person and can forward this request to that individual, please consider taking a look at the two documents linked below:

AMERICAN OVERSIGHT

Please use this link to access the document explaining the work: https://docs.google.com/document/d/17iu_opY2grlK49ScAvuMKF0nZTLriyQUdc7moKdpz0g/edit?usp=sharing.

Please use this link to access, try, edit, and offer comments on the spreadsheet: https://drive.google.com/file/d/1lP9I5-FrdZ5YjbNuP-yCsAABnub44sYP/view?usp=sharing.

We are asking for feedback on the spreadsheet which will help us create the right fields in a searchable database. We are eager to make this a user-friendly and not overwhelming product. Please let us know if there is something missing, mislabeled or misworded, and if there are superfluous fields by April 1, 2020.

Kind regards,

Jenny

Safer at Home and Spiritual Health Messaging Now Available

AMERICAN OVERSIGHT

This bulletin is being sent to local health officers, tribal health directors, public health nurses and staff, and key DPH staff.

Resources are available for health departments to adapt and use in your communities. Messaging stresses the importance of physical distancing and adhering to the Safer at Home Order while observing religious holidays and nurturing spiritual health. This includes:

- * Message map (SharePoint)
- * Template press release (SharePoint)
- * Social medial graphic (SharePoint)
- * "Did You Know" graphic (DHS COVID-19 website)

In addition to these resources, the Safer at Home Order has been translated to 7 languages, including Arabic, Burmese, Hmong, Malay, Spanish, and Swahili.

Several other graphics have also been added to this password-protected SharePoint site.

Please do not respond to this email. If you have questions, please email DHSLTHDResponse@wi.gov.

Dear Friend,

The Wisconsin Economic Development Corporation recently launched a business landing page on their website for businesses impacted by COVID-19. The landing page can be found here. This page is designed to provide the latest, best information on resources aimed at maintaining the vitality of the companies upon which our economy depends. As the volume of inquiries through WEDC phone lines and website prevents them from responding individually to people as they would like, they intend to regularly update this directory as new information and resources become available.

I especially want to draw your attention to this packet of information titled “Rising to Challenges: Navigating Through COVID-19 in Wisconsin."

Forward together,

Sara Meaney

Secretary-designee

Dear Felzkowski, Mary J,

You are receiving this email because you are listed as an official required to file a Statement of Economic Interests for 2020.

Filing requirements for 2020 depend on the officials' start dates and end dates:

1. 1. Officials who left on 12/31/2019 or before do not have to file a 2020 SEI. If you left state service before 1/1/2020, please let us know that date.
2. 2. Officials who are leaving state service, but serve **even one day** in January 2020, must file a 2020 SEI. The official's SEI will be due by 4/30/2020.
3. 3. Officials who are entering state service will have an SEI due 21 days after they are nominated or appointed. This includes officials beginning a new position, or elected officials sworn in to a new term of office.
4. 4. Officials who are continuing in state service will have an SEI due by 4/30/2020.

Please submit your SEI electronically, at the web site: https://sei.wi.gov. You will need the username included in this email. When you are logged in and reach the "Step 3: File SEI" screen, please click the green button that says **"Start SEI: 2020"**. The electronic form will be pre-filled with the information you provided last year, for your convenience. It is your responsibility to make sure that all information contained in your Statement is accurate.

You may also submit your SEI by mail, email, or fax if you choose. Please contact Ethics staff if you want a form emailed to you. If you choose to transmit your completed Statement to us via fax or email, please **do not** follow-up with the original--retain it for your own records. If you know you will be unable to complete the SEI on time because of health concerns, quarantine, or any other reason, please contact Ethics staff to let us know. While we aren't physically in the office, we are available by email or by telephone (contact information is at the bottom of this email).

Statements of Economic Interests are open for public inspection. Wisconsin law requires the Ethics Commission to notify you of the identity of each person who examines your Statement.

AMERICAN OVERSIGHT

YOUR LOGIN INFORMATION

Username: Rep.Felzkowski@legis.wisconsin.gov

LOGIN NOW

Follow these steps to file your SEI:

1. 1. Login to the site https://sei.wi.gov .
    - * If your password does not work or your account is locked, you can always click **FILE YOUR SEI** and then **Forgot/Reset your password**. A new link will emailed to you, and when you click on that link, you can log in by entering your email and a new password twice.
2. 2. You may be asked to reset your password. The new password must have one letter, one number, and one symbol, and be at least 6 characters long. Click **Reset.**
3. 3. From the Menu bar, click **FILE YOUR SEI**.
4. 4. Click your name in the **Active Officials** list.
5. 5. Verify that your contact and position information are correct.
6. 6. Click the **"STEP 3: FILE SEI"** Tab.
    - * Click "File SEI" to create a record for the current year, or if the current year is already listed, use the green button to "Edit SEI".
    - * At the bottom of each screen, there is a green button that saves and steps you forward. Please verify the information on each screen, and then hit the green button.
    - * In the final screen, you must check the "Certify" checkbox before you will see the **"Submit"** button.
7. 7. Once you have filed your SEI, you will receive an email confirmation. If you do not receive a confirmation, please contact our office to ensure the SEI has been filed.

We hope the new system for collecting SEIs is convenient and easy to use! If you had any difficulties, or would like to offer suggestions for improvement, please email us at ethics@wi.gov, and let us know how we can make things better!

For additional help, please read the full instruction manual or contact our office.

Subject: Support Common Sense COVID-19 Liability Protection Measures

Bipartisan Liability Protections for Businesses

Protecting Wisconsin employers from frivolous lawsuits related to COVID-19 will give businesses certainty and stability in these uncertain times, preventing more layoffs and helping businesses stay afloat during and after the crisis. Litigation can bankrupt companies small and large during even the best economic times, and any company who is following the law and public health advice shouldn't have to fear facing expensive, unnecessary lawsuits from plaintiff attorneys. Liability protections will also provide Wisconsin manufacturers incentive to step up and help the state in providing equipment to address the shortage due to COVID-19.

1. **Liability protections for employers' keeping their workers and workplaces safe.**

   Enact liability protections, including a temporary exception to the Wisconsin Fair Employment Act, that allow businesses to screen their employees and other visitors (e.g. temperature scan) for illness prior to entrance to the employer's facility. Further, provide liability protections for employers who require employees to engage in proper hygiene procedures.

2. **Liability limitations for manufacturers of PPE and COVID-19 treatment equipment.**

   Enact liability protection for manufacturers of all types of respirator masks certified by the National Institute for Occupational Safety and Welfare and any manufacturer who chooses to repurpose their facilities to manufacture personal protective equipment or equipment used to treat COVID-19. Bipartisan legislation was passed in Kentucky and signed into law that would protect manufacturers of personal protective equipment or personal hygiene supplies related to COVID-19 from ordinary negligent and product liability claims.[1]

[1] Kentucky SB 150 (page 9, lines 16-22).

AMERICAN OVERSIGHT

3. Liability limitations for health care providers.

Enact liability protection for healthcare providers to allow those treating COVID-19 patients to act quickly and effectively without fear of facing expensive lawsuits when they are acting in good faith. Liability protections will give providers flexibility to treat more patients and in innovative ways during this crisis. There are many avenues that the Legislature can take to protect healthcare providers and workers.

WMC supports the Wisconsin Hospital Association's efforts in this area as well as provisions enacted in New York, Kentucky, Michigan, Illinois, and New Jersey.[2]

Thank you for your consideration of these important public policy issues. If you have any questions, please do not hesitate to reach out to Cory Fish at cfish@wmc.org or (262) 758-9132.

Good morning,

I am writing to you in respect to the bill to address the lack of legislative recognition and guidance with respect to teledentistry. In this extraordinary time of social distancing, where most dental offices have been forced to close their doors to all but emergent cases and placing limits even on that, it is evident that the ability to provide patient evaluation, information, and arrange for appropriate therapy remotely would be extremely beneficial for business continuation, access to care and dental health. It would only be fitting that this be taken up as part of the COVID 19 response legislation now being considered. This would require little state funding and would only extend the already existing legislation that exists for the medical community. The software and hardware already exists and other states have already enacted legislation and are using this technology. I have attached the letter from Representative Loudenbeck and Senator Kooyenga from earlier this year that outlines the proposed legislation.
Thank you for your time and consideration in this matter.

Wishing you health and safety,

Subject: Telehealth Services for patients with WI State Medicaid

Hello Rep. Felzkowski,

I am a Registered Dietitian Nutritionist certified in the State of WI. I work for Marshfield Clinic in Merrill, WI. Our clinic will be open 2 days per week beginning next week due to the COVID-19 crisis. I may be providing telehealth services from my home. Per State of WI Medicaid, I use an onsite provider as a "billing override or incident to" when billing for services. Because I will be working from home, I wonder if I will be able to provide telehealth services to this population during the State of Emergency declared by Govenor Evers, given there will not be a provider onsite.

Can you tell me if this Medicaid rule(to bill incident to)is still in place, or if due to the State of Emergency it has been liberalized?

Thank you for your assistance. I hope you are well.

Why vote to put so many people at risk for their life? Why not postpone the election as many other states have? Why keep making it harder to vote rather than easier? I suppose if you still think this a hoax made up by scientists around the world and people really aren't becoming ill and dying while overloading our health care systems.

Hi Rep Felzkowski - I feel Gov Evers made the right decision to delay voting due to Covid-19. We are under stay at home orders right now. We have been advised not to even go to the grocery store or pharmacy. This is a scary thought that people will leave their home just to vote. I told my elderly mother not to go and she agreed. To bad the courts ruled against Gov Evers!

Hey Bradford,

I really don't know a lot of the eligibility criterion for SBA or what it can be used for, but we have this constituent who is reaching out, saying that she believes SBA is not an option for them. Do you have any thoughts? Let me know if I need to gather more information about who they are/contact info, etc.

Thank you for your help! I did see this document that you guys must have put together, which I have provided to the constituent already.

Thank you,

We are not selling to restaurants since the shut down. We would use the grant money to feed the animals, pay utilities, buy fuel for tractors and other equipment and just keep the enterprise going. Some of the money we make helps support us.

The SBA website says "Applicant is not an agricultural enterprise (e.g. farm) other than an aquaculture enterprise, agriculture cooperation or nursery." This is why we believe we are not eligible.

Thank you,

Diane

Diane,

According to Governor Evers' Stay-At-Home Order released today, the following enforcement measures are in effect starting tomorrow morning:

ENFORCEMENT
17. Enforcement. This Order is enforceable by any local law enforcement official, including county sheriffs. Violation or obstruction of this Order is punishable by up to 30 days imprisonment, or up to $250 fine, or both. Wis. Stat. § 252.25.
18. Severability. If any provision of this Order or its application to any person or circumstance is held to be invalid, then the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.

AMERICAN OVERSIGHT

19. Supremacy. This Order supersedes any local order that is in conflict
with this order.
20. Duration. This Order shall become effective at 8:00 a.m. on Wednesday,
March 25, 2020 and will remain in effect until 8:00 a.m. on Friday,
; April 24, 2020, or until a superseding order is issued.

Because his order prohibited non-essential travel, this section of his order would apply to you.

Please let me know if there is more information I can get for you,

Liz

Liz,

I have heard about more concerns than just the hours from this member and I have directed him to his Inclusa Team or the appropriate office to assist him. I do not feel comfortable discussing his

AMERICAN OVERSIGHT

list of past concerns due to the complexity of the situation. I insisted he self-advocate so that the communication is clear. I have advocated for him and feel that at this point he needs to have a conversation with his new team and discuss what his needs are going forward.

Respectfully,

Christy Daley,
Regional Ombudsman
State of Wisconsin Board on Aging and Long Term Care
North Central Counties : Ashland, Forest, Iron, Langlade,

Dan,

Christy has only heard from you on the hours. If you can send both of us a list of everything you are asking for, that would be really helpful in helping us understand what your needs are.

Thank you,

Liz

> In regards to the Supportive Home Care (SHC) needs; your appeal, to keep your hours from being reduce, through a State Fair Hearing was dismissed March 9, 2020 when you were unable to attend. The judge was not willing to postpone a 3rd time. Therefore, as I explained on 3/23 you need to specifically ask your new Inclusa Team for SHC through an agency as you are no longer eligible for the self-directed program for this service. I am not sure if this is the only request you have at this time but this is the one we emailed about over the past 2 weeks.

I am a TOTAL basket case..
I have had a couple of people SAY they are willing to help but I say something and they say they can't do all...
I ask to just pick one and they are never to be heard from..
Now I fell almost and knocked off container that had hearing aids on floor and can't find one..
So now I have hearing issue going on..
I am way to stressed
And I am not to be doing any of it...

Hey Dorothy,

So the wayside you are talking about was purchased by Lincoln County in 2014, so I reached out to the county to get more information. They indicated that the bathroom facilities have been closed because of the total disregard for the bathroom facilities. So much debris and garbage had been dumped into the toilets, that the county was unable to hire a septic pumper to pump facility. They smelt so bad that the county needed to close them. They also indicated that the maintenance cost increased dramatically.

I hope that helps!

Thanks,

Mary Felzkowski

Mary, I read in your email that rest areas are open and it made me think of something I would like to know but don't know who to contact. Hoping you can help me. I am wondering why the wayside at Hwy 8 and Cty A just north of Tomahawk has been closed for a few years? They put in the parking lot for trailer for ATV's and snowmobiles to unload and then closed the bathroom. This didn' make much sense to me. People are going to need a restroom after traveling her and also before loading up and heading home. Thank you for all the info you provide in your emails. Dorothy Jorgensen

Hey Rep. Felzkowski,

Total ownership and maintenance responsibility of this property was transferred to Lincoln County in 2014. WisDOT has had no involvement in this site since the transfer.

As you know, our state owned rest areas remain open.

Thanks,
Diana

Hey Judy,
I wanted to reach out to you with a concern I received from a constituent trying to get in touch with her clerk to help with the polls. I know the Elections Commission is running everything through the county clerks, so I wanted to see if you've been having the same issues getting ahold of the clerks in your county. I sent an email out yesterday encouraging people to be poll workers, and I plan to post it on Facebook today, so I want to make sure that if people are interested, they are actually able to touch base with the clerks they'd be working with. I'm sure the local clerks are swamped, so it's possible they are just bogged down in work.

Thank you for your thoughts!

Mary

Something I think you should be made aware of. It appears some of the small town clerks have went MIA. (overwhelmed?) I understand with this crisis we all need to do our part. Gov. Evers has stressed this spring election is going to happen. I personally gave our town clerk my information during the February primary to volunteer after one of the workers told me we were short handed for this season. (pre-Co19) Told she had one other name and would be in contact with us for the 2 hour training soon. Nothing. Now this could be a problem with the stay at home situation, totally understand. BUT, she is now totally MIA. Not returning phone messages as we attempted to get absentee ballots so I mailed the forms we received from a mass mailing with needed photo of ID's last week to

AMERICAN OVERSIGHT

her with no response. I bring this to your attention because after talking with voters in other small towns, this seems to not be an isolated situation. If widespread, this could have a huge impact on the outcome of some very important elections/issues, not to mention the legal can of worms this could open up.
Just thought you should know what's going on.
Praying for your safety and the well being of your loved ones,
Victoria Woyak

I hope that you can talk to Governor Evers and let him know that I and many neighbors don't like living in a communist nation. We don't approve of having everything shut down because some people might catch a cold and some people die. People die every year from the flu and we have never gone through this. I hope that things will get back to normal soon and businesses will be able to open again. The worst is that now we will have no Church because of Evers order. Unbelievable in a once free country.

THU AM Update -- 2 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

Advertisement

The Madison Club

From WisPolitics.com ...

-- On the heels of a federal judge ripping Capitol leaders for failing to delay Tuesday's election amid the COVID-19 pandemic, Gov. Tony Evers said he'd have made the move if he had the sole authority to do so.

AMERICAN OVERSIGHT

But Senate Majority Leader Scott Fitzgerald, R-Juneau, quickly fired back, saying Evers had "not once" mentioned moving the election before yesterday.

Evers said in a statement late yesterday that his priority is to make sure voters are safe and heard, and he asked the GOP-controlled Legislature to "do its part."

"We have three branches of government to ensure a system of checks and balances, and questions about our elections typically rely on all three playing a role," he said. "If I could have changed the election I would have but I can't without violating the law."

Three federal lawsuits seeking changes to the April 7 election, including pushing back the date, have combined into one action before U.S. Judge James Conley. During a teleconference yesterday, Conley lamented the increasing public health crisis that the Legislature and Evers have "refused to accept as sincere enough to stop" Tuesday's election. He also suggested it wasn't his place to push back the election, though he was open to changes that would ensure clerks can count the rash of absentee ballots that have been issued.

State law requires the spring election be held on the second Tuesday in April. Any changes would either need to be approved by the guv and the Legislature, or by a court order.

In the early stages of the outbreak, Evers repeatedly said he wanted to move ahead with the election, citing the number of local offices on the ballot. Many have terms that expire shortly after April 7, and he raised concerns of leaving vacancies at a time the state is dealing with a pandemic.

On Friday, he released a video calling on the Legislature to quickly convene and change state law to allow absentee ballots be mailed to all registered voters.

Fitzgerald last week knocked that suggestion as a "complete fantasy." Last night, he noted no Dem lawmakers have introduced bills that would move the election date.

"For Democrats to suggest now that their hands were somehow tied is pure cowardice," Fitzgerald said. "I continue to support holding the election on April 7th -- our Republic must continue to function."

See Evers' statement:
https://www.wispolitics.com/2020/gov-evers-statement-on-upcoming-april-7-election/

See Fitzgerald's statement:
https://www.wispolitics.com/2020/sen-fitzgerald-reacts-to-evers-statement-on-april-7th-election/

-- The latest Marquette University Law School Polls finds a plurality of Wisconsin

AMERICAN OVERSIGHT

voters believe the COVID-19 outbreak will be under control by the end of May.

While 44 percent said it would be under control by then, 27 percent picked the end of August and 11 percent said sometime next fall. Seven percent said it would be about a year, while 2 percent said it would take longer than that.

The poll also found about three-fourths of voters approve of the way Gov. Tony Evers has handled the response to the pandemic, while about half said the same of President Trump.

Other numbers from the poll:

*though the partisan makeup of the poll was balanced, 47 percent of respondents said they planned to vote in next week's Dem presidential primary, while 33 percent said the GOP contest.

*35 percent of voters had a favorable impression of U.S. Sen. Ron Johnson, R-Oshkosh, while 32 percent had an unfavorable one. For U.S. Sen. Tammy Baldwin, D-Madison, the split was 40-39.

*while he has jumped out to a big lead in the Dem primary, Joe Biden was upside down with poll respondents overall with 39 percent saying they had a favorable impression of him, while 50 percent had a negative one. For Donald Trump, it was 45-50.

See the full poll results:
https://law.marquette.edu/poll/

-- The group Protect Our Care has launched a new TV ad in Milwaukee that knocks President Trump for his handling of the COVID-19 pandemic.

The group said the ad, which is also running in Michigan and Pennsylvania, is on cable in the market and the buy for Milwaukee is in the "five-figure range."

The narrator in the spot says Trump's "failure to prepare America for the Coronavirus crisis has made Wisconsin less safe." It shows scenes of health care professionals in personal protection equipment, noting the shortages the state faces, before the narrator says "now more and more Wisconsinites are out of work."

"At a time of extreme crisis, Wisconsin families need a steady and trusted leader, but Donald Trump has failed that test," the narrator says.

See the ad:
https://www.youtube.com/watch?v=l5PisMxVj_w&feature=youtu.be

AMERICAN OVERSIGHT

-- The Alliance For Justice Action Campaign has launched what it says is a five-figure digital ad campaign in favor of Supreme Court candidate Judge Jill Karofsky.

The ad features West Wing Actor Bradley Whitford touting Karofsky's experience as a trial court judge and her "history of protecting families and upholding justice."

Watch the Ad:
https://www.facebook.com/AFJActionCampaign/videos/242802603770240/

-- Bernie Sanders today endorsed Karofsky, saying judges "should stand up for the needs of working people and civil rights, not huge corporate CEO donors."

Karofsky has regularly knocked conservative Justice Daniel Kelly in the race for the endorsement he received from President Trump.

See the release:
https://www.wispolitics.com/2020/sanders-campaign-endorses-judge-jill-karofsky-for-the-wisconsin-supreme-court/

-- The state Senate plans to do its second dry run of a virtual session today before meeting sometime in the next couple of weeks.

Gov. Tony Evers floated a revised coronavirus relief package yesterday while GOP legislative leaders said they would be doing their own.

See yesterday's PM Update for more.

-- Joe Biden now suggests the July Democratic National Convention could take place in Milwaukee a month later, but other rank-and-file party leaders have their doubts.

See more in headlines.

From WisBusiness.com ...

-- U.S. Rep. Bryan Steil says he's focused on "being prudent with taxpayer money" as federal lawmakers consider options for a fourth stimulus package.

In a webinar hosted by Wisconsin Manufacturers and Commerce yesterday, the Republican lawmaker from Janesville said the recently passed $2 trillion stimulus

AMERICAN OVERSIGHT

package was "by no means perfect," but noted swift action was needed amid the current crisis.

"Now there's lots of talk in Washington about what is going to be needed next," he said. "You've seen discussions of a $2 trillion infrastructure bill. There's going to be lots of ideas floating around in the coming days."

He's advocating for a "fact-driven" approach to the federal coronavirus response, to ensure support is going toward impacted workers as well as the U.S. health care system.

Steil called on business leaders in Wisconsin to make suggestions on what the next stimulus package looks like, so federal legislators can be "responsive but also not wasteful" during the pandemic.

"We're going to have to be thoughtful of our total debt load that we're taking on," he said. "We just spent $2 trillion; we came into the year with an estimated budget deficit of $1 trillion and that's likely to grow. And we're now talking about adding $2 trillion additional to this."

In the coming weeks, he said lawmakers will be trying to get a handle on the unemployment rate for states across the country. And he noted publicly traded companies will be posting their first-quarter financial results soon, providing more insight on the impacts of the coronavirus.

"What we need to do is keep this as tailored as we can so we're not being wasteful with taxpayer money," he said.

TOP HEADLINES

DHS: 1,550 Confirmed COVID-19 Cases In Wisconsin
29 People Have Died ... 18,819 negative tests. [199 more cases, 6 more deaths, 1,444 more negative tests since Tuesday]. 5 of new deaths were from Milwaukee County. Hospitalizations 398, or 26% of cases.
https://www.wpr.org/dhs-1-550-confirmed-covid-19-cases-wisconsin

Marquette Poll Finds Overwhelming Support For Closing Businesses, Schools To Fight COVID-19
... 86% [93% Dems, 83% GOP] said it was appropriate to close schools and businesses ... 76% [89 Dems, 63 GOP] supported Evers' response ... despite a record [UI] surge ... 61% said the state was "headed in the right direction," the highest number ever since Marquette's poll started in 2012. Evers approve-disapprove: 65-29. Trump approve: 51% on pandemic [88 GOP, 11 Dems], 48 overall. Dem prez primary: Biden 62, Sanders 34.
https://www.wpr.org/marquette-poll-finds-overwhelming-support-closing-businesses-schools-fight-covid-19

GOP leaders back eliminating UI week-wait as Evers calls for more action
... [Vos, Fitzgerald will axe the UI wait] via an emergency package of legislation addressing the COVID-19 coronavirus [may include letting DHS seek fed waiver] that they say they'll vote on soon. ... Vos and Fitzgerald were short on details in a Wednesday morning call with the media, but said they needed further [LFB] clarification ... as Gov. Tony Evers introduced his second major legislative package ... which would provide hundreds of millions of dollars more relief for health care providers, taxpayers, low-income families and small businesses, among others. ... Baldauff said it's possible much of [Evers'] two legislative packages ... could be paid for through the $2B in stimulus funding ... asking the Legislature to act now [because] It could be a month

AMERICAN OVERSIGHT

before the state receives the stimulus funds. ... [GOP] are skeptical of the cost, and are highly unlikely to pass the two packages in full. Earlier this week, they told Evers to [by PPE with federal money] on his own. Fitzgerald: "The Legislature plans to craft and negotiate a plan that doesn't spend outside our state's means." ... Baldauff didn't rule out the possibility of the governor using his emergency powers to act on his own. ... "The longer that these businesses are asked to operate in a very limited fashion, it's going to be difficult for some of them to come back," Fitzgerald said. "That's why the federal dollars, and what's coming out of D.C. right now, if it could be targeted correctly to small businesses, really could have an effect on the entire situation." More Evers II details.
https://madison.com/wsj/f4944429-2e44-51ca-8c21-2099a5140acc.html

Judge: Election Amid Pandemic 'On The Hands' of Legislature, Governor
... During Wednesday's arguments [in combined cases from DNC/DPW, LOWV, minority coalition], federal Judge William Conley indicated ... "You don't get to go to a federal judge and say (conditions are) impinging on voting rights so you get to stop a statewide election. I'm sorry that's what the situation is, but this is a public health crisis that the state Legislature and governor have refused to accept as severe enough to stop this statewide election." ... believes some people could contract COVID-19 and die after participating in the election. ... "that would be outside my jurisdiction, but it will be on the hands of the state Legislature and the governor." ... [Evers] brief filed with the court Tuesday ... [suggested] "a middle path that maintains the democratic process, while also implementing appropriate measures to save lives: [Extending deadline to request and receive absentee ballots, Lifting a witness signature req, Mandate municipal drop-boxes for absentee ballots, Allow clerks to count absentee ballots before 7 a.m. on Election Day at a single location with an extended deadline.] Conley: "There's got to be a way for these people to get a witness. ... If they have one friend, they can satisfy the witness requirement," also unwilling to lift the court-upheld voter ID req on absentee application, "COVID-19 has not substantially changed the burdens that people face" meeting the requirement," open to "extending the postmark date to April 7 and the receipt date to April 13 [which WEC found] doable within the confines of the goal of holding the election." ... said he will rule "as soon as possible." Clerks' ongoing challenges include a major poll workers shortage, inadequate time to count an unprecedented number of mail-in ballots on Election Day. In related case Tuesday, WI Supreme Court sided with RPW against Dane County Clerk over his guidance to absentee voters.
https://www.wpr.org/judge-election-amid-pandemic-hands-legislature-governor

WI sees largest single-day jump in cases as doubts grow for 2020 DNC
... [Dem frontrunner] Biden suggested the convention may have to be held at a later date or conducted in a different manner ... "It's hard to envision," Biden said ... because of the pandemic. ... "Again, we should listen to the scientists," Biden said ... "one of the reasons why the Democratic convention was going to be held early was the Olympics were coming after the Republican convention. There's more time now." Mayor Barrett dittoed, "I can't foresee us having exactly the type of convention that we had anticipated," focus should be on the health and safety of Americans, not convention

AMERICAN OVERSIGHT

planning. ... Convention organizers have said they are "exploring a range of contingency options." ... Sanders has called for Wisconsin to delay its election, now set for Tuesday, and extend early voting. "People should not be forced to put their lives on the line to vote, which is why 15 states are now following the advice of public health experts and delaying their elections," Sanders said. ... Evers has agreed to use Wisconsin Army National Guard members as poll workers to make up for a widespread shortage. Asst. AG Jurss in court brief said WNG won't make up shortfall, "The National Guard is currently determining how many personnel it can make available for each county." Presiding Judge Conley opposed April 7 election, "It's really a bad public policy idea and they should stop it for health reasons." Review MU Law poll, new state relief bill, court suspends civil trial deadlines.
https://www.jsonline.com/story/news/health/2020/04/01/coronavirus-wisconsin-cases-spike-2020-dnc-doubt/5107251002/

Judge Jill Karofsky Promotes Progressive Values In WI Supreme Court Run
While New To Campaigning, Democratic Politics Run Deep In Karofsky's Family ... her mother, Judy Karofsky, run successfully for Middleton mayor. ... went on to work for other Democratic campaigns and administrations. ... "She's always been aware of the political atmosphere," said Judy Karofsky in an interview. "But it was not part of her profession -- of her personal goal -- until she ran for the judgeship." ... [longtime family friend, ex-gov Doyle: "I watched her grow up. She was somebody you could tell from the earliest time on she was really going to do great things."] ... [career resume] ... said she'd stuck with her exercise routine during her campaign, running a 50-mile race in August. ... "I use this as an example because I have never been outworked or outhustled," Karofsky said. "And there is no way in this race I'm going to be outworked or outhustled by Dan Kelly." ... "I talk to my kids about the importance of women's rights, and worker's rights, and human rights, and civil rights," Karofsky said. "My kids are worried about gun safety in school. My kids are concerned about the climate crisis." On ACt 10 "fallout ... It was pretty clear that schools had to do much more with less." ON voter ID: "I think that what we ought to be doing in this state and in this country is making it easier for people to vote, not more difficult." Kelly sharply critical of her for saying recently that she would advocate for social justice issues on the court. Karofsky disagreed, "Look, if you have been in a criminal court for five minutes, you know the criminal justice system in Wisconsin needs to be reformed," Karofsky said. "It's incumbent upon me as someone who's on the front line to inform the Legislature, inform the policy makers about what I am seeing in the criminal justice system. And I have done that." Rehash Karofsky digs against the conservative Court. Doyle: "I think she's raised a really, really valid issue. And she's done it very effectively, apparently, because boy are they reacting to it." Mom Karoofsky: "Like every good athlete ... they're taught to watch the opponent, watch their moves, diagnose their strengths and weaknesses and put together a game plan." Unclear how COVID response will affect election, as traditional campaigning stopped. Reviews warchests, spending.
https://www.wpr.org/judge-jill-karofsky-promotes-progressive-values-wisconsin-supreme-court-run

Daniel Kelly Follows Conservative Path In Bid To Keep Supreme Court Seat

Incumbent Relies On Familiar Appeals To Conservative Base, Attacks On Opponent ... Not just any nerd, mind you. A law nerd. Someone who reads statutes for fun, who pauses to admire a framed copy of the U.S. Constitution, whose kids think that he's a "great judge" and an "amazing dad," but "not exactly exciting." ... downplays [GOP] ties ... "I think what [voters] should know is that I understand that they're the boss and I'm the servant." ... [rehash Kelly's appointment over 9 others, including Nowak, Hagedorn and GUndrum - without having judicial experience.] ... "He's incredibly smart, incredibly hard-working," said [Justice Bradley, a fellow Federalist Society member]. "Working on the court for him -- and this is the same for me -- it's kind of a dream job." ... [DOJ stint in brief, ex-asst AG Lazar: "I'm sort of like a law geek like Dan. I think Dan is one of the smartest people that I know." Christian education at Regent U, stint at Kern Family Foundation]. Kelly the Constitutional Originalist on Karofsky: ""She's very outcome-oriented with respect to the way she analyzes opinions. If they agree with her politics, they're good. If they disagree with her politics, they're corrupt. That's a fundamentally illegitimate way of looking at cases," on opposite side of gun issue, defends shooting range fundraiser, "it's not a political issue. It's a constitutional right issue," highlighting specific cases Karofsky has handled as a prosecutor or judge, showing her soft on crime, like Lieske case. Karofsky: "I will also say that I am the only person in this race who is on the front lines of the judicial system. I am the only person in this race who has ever sentenced anyone." Supreme Court elections are already low-turnout races and social distancing efforts could make turnout for this year's election even lower. Kelly said it's premature to discuss potential cases, but "If you have at all a curious mind, you start thinking about it right away."
https://www.wpr.org/justice-daniel-kelly-follows-conservative-path-bid-keep-wisconsin-supreme-court-seat

[WPF] Report Highlights Similarities, Differences Between Great Recession And COVID-19 Economy
WI Is In Better Position Today Than 2008, But Stark Challenges Remain ... "They certainly have a similar amount of severity," [WPF's Stein] said. "In the case of the Great Recession, there you had a financial crisis that was brought on by something really fundamentally wrong with the country. ... [WI in better fiscal shape now than 2008] "This is something that is going to wallop every state really hard," he said. "I don't want to leave ... the impression that there won't be a lot of pain and difficult choices because there will be." State income, sales, gas and corporate taxes will take a bigger hit than local property taxes, but $2.2B from federal stimulus will help, "it remains to be seen, whether it's enough."
https://www.wpr.org/new-report-highlights-similarities-differences-between-great-recession-and-covid-19-economy

Party leaders agree with Joe Biden - the Democratic National Convention cannot proceed as originally planned
Democratic Party leaders across the country are calling on party bosses to curtail, postpone or dramatically rethink the party's national convention scheduled for July in Milwaukee, concerned that holding a mass gathering just as levels of infection are expected to ebb could expose thousands to the coronavirus once again. Calls from the

AMERICAN OVERSIGHT

party faithful to rethink the Democratic National Convention come as the party's presumed presidential nominee, former Vice President Joe Biden, for the first time publicly expressed doubt that the gathering could proceed as it has in the past. "It's hard to envision that," Biden said in an MSNBC interview this week. "We ought to be able -- we were able to do it in the middle of the Civil War all the way through to World War II -- have Democratic and Republican conventions and primaries and elections and still have public safety. And we're able to do both. But the fact is it may have to be different." ... But party leaders are increasingly resigned to the need to make big changes. "It's more likely that it gets canceled than it happening. That's 100% true," said Alexis Wiley, a DNC superdelegate from Michigan. A traditional convention is "out of the question at this point," said Ian Murray, a superdelegate from Pennsylvania who's attended conventions since 1992. "I don't see where we're going to be able to all gather in a petri dish in Milwaukee with the coronavirus." Leah Daughtry, the former CEO of the 2008 and 2016 Democratic conventions, said if she were on the job again this year, "I'd be thinking about how to do a virtual convention, because you just have to -- you have to consider all the options at this moment." ... In response to Biden's comments, Joe Solmonese, CEO of the Milwaukee convention, said Wednesday that the challenges of the Coronavirus outbreak "require us to be deeply thoughtful about the important and unprecedented moment in which we're living." "As we continue to put plans in place for a successful Democratic National Convention this summer, we will balance protecting the health and well-being of convention attendees and our host city with our responsibility to deliver this historic and critical occasion," Solmonese added.
https://www.cbsnews.com/news/biden-democratic-national-convention-scheduled/

Tommy Thompson: Nation did not heed his pandemic warning from 2005
Former Wisconsin Gov. and Health and Human Services Secretary Tommy Thompson had a pandemic plan more than 15 years ago. On Wednesday, he told WISN 12 News that the nation failed to heed the warnings. "And I said, 'Some day, a virus is going to come, and it's going to paralyze America,'" Thompson said. "In 2005, you sounded the alarm and asked Congress for more money to plan for a pandemic. How did we do?" WISN 12 News reporter Terry Sater asked. "We did terrible," Thompson said. As secretary of Health and Human Services, it was Thompson's job to see pandemic warning signs and call for a national response from Congress. "More than likely we will have a pandemic in our lifetime. And what we need to do is get better prepared for it than we are right now," Thompson said in April 2005. "What should have taken place is they should have invested money. We needed to put ventilators and masks and hospital beds and more medicines in there and we failed to do that," Thompson said Wednesday. ... Thompson said he talked to President Donald Trump about it when he was president-elect. Generally, he gives federal and Wisconsin officials high marks given the lack of planning and investment, which he said would give them more tools to respond to the pandemic and save lives.

The Madison Club

From WisPolitics.com ...

-- On the heels of a federal judge ripping Capitol leaders for failing to delay Tuesday's election amid the COVID-19 pandemic, Gov. Tony Evers said he'd have made the move if he had the sole authority to do so.

AMERICAN OVERSIGHT

But Senate Majority Leader Scott Fitzgerald, R-Juneau, quickly fired back, saying Evers had "not once" mentioned moving the election before yesterday.

Evers said in a statement late yesterday that his priority is to make sure voters are safe and heard, and he asked the GOP-controlled Legislature to "do its part."

"We have three branches of government to ensure a system of checks and balances, and questions about our elections typically rely on all three playing a role," he said. "If I could have changed the election I would have but I can't without violating the law."

Three federal lawsuits seeking changes to the April 7 election, including pushing back the date, have combined into one action before U.S. Judge James Conley. During a teleconference yesterday, Conley lamented the increasing public health crisis that the Legislature and Evers have "refused to accept as sincere enough to stop" Tuesday's election. He also suggested it wasn't his place to push back the election, though he was open to changes that would ensure clerks can count the rash of absentee ballots that have been issued.

State law requires the spring election be held on the second Tuesday in April. Any changes would either need to be approved by the guv and the Legislature, or by a court order.

In the early stages of the outbreak, Evers repeatedly said he wanted to move ahead with the election, citing the number of local offices on the ballot. Many have terms that expire shortly after April 7, and he raised concerns of leaving vacancies at a time the state is dealing with a pandemic.

On Friday, he released a video calling on the Legislature to quickly convene and change state law to allow absentee ballots be mailed to all registered voters.

Fitzgerald last week knocked that suggestion as a "complete fantasy." Last night, he noted no Dem lawmakers have introduced bills that would move the election date.

"For Democrats to suggest now that their hands were somehow tied is pure cowardice," Fitzgerald said. "I continue to support holding the election on April 7th -- our Republic must continue to function."

See Evers' statement:
https://www.wispolitics.com/2020/gov-evers-statement-on-upcoming-april-7-election/

See Fitzgerald's statement:
https://www.wispolitics.com/2020/sen-fitzgerald-reacts-to-evers-statement-on-april-7th-election/

-- The latest Marquette University Law School Polls finds a plurality of Wisconsin

AMERICAN OVERSIGHT

voters believe the COVID-19 outbreak will be under control by the end of May.

While 44 percent said it would be under control by then, 27 percent picked the end of August and 11 percent said sometime next fall. Seven percent said it would be about a year, while 2 percent said it would take longer than that.

The poll also found about three-fourths of voters approve of the way Gov. Tony Evers has handled the response to the pandemic, while about half said the same of President Trump.

Other numbers from the poll:

*though the partisan makeup of the poll was balanced, 47 percent of respondents said they planned to vote in next week's Dem presidential primary, while 33 percent said the GOP contest.

*35 percent of voters had a favorable impression of U.S. Sen. Ron Johnson, R-Oshkosh, while 32 percent had an unfavorable one. For U.S. Sen. Tammy Baldwin, D-Madison, the split was 40-39.

*while he has jumped out to a big lead in the Dem primary, Joe Biden was upside down with poll respondents overall with 39 percent saying they had a favorable impression of him, while 50 percent had a negative one. For Donald Trump, it was 45-50.

See the full poll results:
https://law.marquette.edu/poll/

-- The group Protect Our Care has launched a new TV ad in Milwaukee that knocks President Trump for his handling of the COVID-19 pandemic.

The group said the ad, which is also running in Michigan and Pennsylvania, is on cable in the market and the buy for Milwaukee is in the "five-figure range."

The narrator in the spot says Trump's "failure to prepare America for the Coronavirus crisis has made Wisconsin less safe." It shows scenes of health care professionals in personal protection equipment, noting the shortages the state faces, before the narrator says "now more and more Wisconsinites are out of work."

"At a time of extreme crisis, Wisconsin families need a steady and trusted leader, but Donald Trump has failed that test," the narrator says.

See the ad:
https://www.youtube.com/watch?v=l5PisMxVj_w&feature=youtu.be

AMERICAN OVERSIGHT

-- The Alliance For Justice Action Campaign has launched what it says is a five-figure digital ad campaign in favor of Supreme Court candidate Judge Jill Karofsky.

The ad features West Wing Actor Bradley Whitford touting Karofsky's experience as a trial court judge and her "history of protecting families and upholding justice."

Watch the Ad:
https://www.facebook.com/AFJActionCampaign/videos/242802603770240/

-- Bernie Sanders today endorsed Karofsky, saying judges "should stand up for the needs of working people and civil rights, not huge corporate CEO donors."

Karofsky has regularly knocked conservative Justice Daniel Kelly in the race for the endorsement he received from President Trump.

https://www.wispolitics.com/2020/sanders-campaign-endorses-judge-jill-karofsky-for-the-wisconsin-supreme-court/

-- The state Senate plans to do its second dry run of a virtual session today before meeting sometime in the next couple of weeks.

Gov. Tony Evers floated a revised coronavirus relief package yesterday while GOP legislative leaders said they would be doing their own.

See yesterday's PM Update for more.

-- Joe Biden now suggests the July Democratic National Convention could take place in Milwaukee a month later, but other rank-and-file party leaders have their doubts.

See more in headlines.

From WisBusiness.com ...

-- U.S. Rep. Bryan Steil says he's focused on "being prudent with taxpayer money" as federal lawmakers consider options for a fourth stimulus package.

In a webinar hosted by Wisconsin Manufacturers and Commerce yesterday, the Republican lawmaker from Janesville said the recently passed $2 trillion stimulus

AMERICAN OVERSIGHT

package was "by no means perfect," but noted swift action was needed amid the current crisis.

"Now there's lots of talk in Washington about what is going to be needed next," he said. "You've seen discussions of a $2 trillion infrastructure bill. There's going to be lots of ideas floating around in the coming days."

He's advocating for a "fact-driven" approach to the federal coronavirus response, to ensure support is going toward impacted workers as well as the U.S. health care system.

Steil called on business leaders in Wisconsin to make suggestions on what the next stimulus package looks like, so federal legislators can be "responsive but also not wasteful" during the pandemic.

"We're going to have to be thoughtful of our total debt load that we're taking on," he said. "We just spent $2 trillion; we came into the year with an estimated budget deficit of $1 trillion and that's likely to grow. And we're now talking about adding $2 trillion additional to this."

In the coming weeks, he said lawmakers will be trying to get a handle on the unemployment rate for states across the country. And he noted publicly traded companies will be posting their first-quarter financial results soon, providing more insight on the impacts of the coronavirus.

"What we need to do is keep this as tailored as we can so we're not being wasteful with taxpayer money," he said.

DHS: 1,550 Confirmed COVID-19 Cases In Wisconsin
29 People Have Died ... 18,819 negative tests. [199 more cases, 6 more deaths, 1,444 more negative tests since Tuesday]. 5 of new deaths were from Milwaukee County. Hospitalizations 398, or 26% of cases.
https://www.wpr.org/dhs-1-550-confirmed-covid-19-cases-wisconsin

Marquette Poll Finds Overwhelming Support For Closing Businesses, Schools To Fight COVID-19
... 86% [93% Dems, 83% GOP] said it was appropriate to close schools and businesses ... 76% [89 Dems, 63 GOP] supported Evers' response ... despite a record [UI] surge ... 61% said the state was "headed in the right direction," the highest number ever since Marquette's poll started in 2012. Evers approve-disapprove: 65-29. Trump approve: 51% on pandemic [88 GOP, 11 Dems], 48 overall. Dem prez primary: Biden 62, Sanders 34.
https://www.wpr.org/marquette-poll-finds-overwhelming-support-closing-businesses-schools-fight-covid-19

GOP leaders back eliminating UI week-wait as Evers calls for more action
... [Vos, Fitzgerald will axe the UI wait] via an emergency package of legislation addressing the COVID-19 coronavirus [may include letting DHS seek fed waiver] that they say they'll vote on soon. ... Vos and Fitzgerald were short on details in a Wednesday morning call with the media, but said they needed further [LFB] clarification ... as Gov. Tony Evers introduced his second major legislative package ... which would provide hundreds of millions of dollars more relief for health care providers, taxpayers, low-income families and small businesses, among others. ... Baldauff said it's possible much of [Evers'] two legislative packages ... could be paid for through the $2B in stimulus funding ... asking the Legislature to act now [because] It could be a month

AMERICAN OVERSIGHT

before the state receives the stimulus funds. ... [GOP] are skeptical of the cost, and are highly unlikely to pass the two packages in full. Earlier this week, they told Evers to [by PPE with federal money] on his own. Fitzgerald: "The Legislature plans to craft and negotiate a plan that doesn't spend outside our state's means." ... Baldauff didn't rule out the possibility of the governor using his emergency powers to act on his own. ... "The longer that these businesses are asked to operate in a very limited fashion, it's going to be difficult for some of them to come back," Fitzgerald said. "That's why the federal dollars, and what's coming out of D.C. right now, if it could be targeted correctly to small businesses, really could have an effect on the entire situation." More Evers II details.
https://madison.com/wsj/f4944429-2e44-51ca-8c21-2099a5140acc.html

Judge: Election Amid Pandemic 'On The Hands' of Legislature, Governor
... During Wednesday's arguments [in combined cases from DNC/DPW, LOWV, minority coalition], federal Judge William Conley indicated ... "You don't get to go to a federal judge and say (conditions are) impinging on voting rights so you get to stop a statewide election. I'm sorry that's what the situation is, but this is a public health crisis that the state Legislature and governor have refused to accept as severe enough to stop this statewide election." ... believes some people could contract COVID-19 and die after participating in the election. ... "that would be outside my jurisdiction, but it will be on the hands of the state Legislature and the governor." ... [Evers] brief filed with the court Tuesday ... [suggested] "a middle path that maintains the democratic process, while also implementing appropriate measures to save lives: [Extending deadline to request and receive absentee ballots, Lifting a witness signature req, Mandate municipal drop-boxes for absentee ballots, Allow clerks to count absentee ballots before 7 a.m. on Election Day at a single location with an extended deadline.] Conley: "There's got to be a way for these people to get a witness. ... If they have one friend, they can satisfy the witness requirement," also unwilling to lift the court-upheld voter ID req on absentee application, "COVID-19 has not substantially changed the burdens that people face" meeting the requirement," open to "extending the postmark date to April 7 and the receipt date to April 13 [which WEC found] doable within the confines of the goal of holding the election." ... said he will rule "as soon as possible." Clerks' ongoing challenges include a major poll workers shortage, inadequate time to count an unprecedented number of mail-in ballots on Election Day. https://www.wpr.org/judge-election-amid-pandemic-hands-legislature-governor

WI sees largest single-day jump in cases as doubts grow for 2020 DNC
... [Dem frontrunner] Biden suggested the convention may have to be held at a later date or conducted in a different manner ... "It's hard to envision," Biden said ... because of the pandemic. ... "Again, we should listen to the scientists," Biden said ... "one of the reasons why the Democratic convention was going to be held early was the Olympics were coming after the Republican convention. There's more time now." Mayor Barrett dittoed, "I can't foresee us having exactly the type of convention that we had anticipated," focus should be on the health and safety of Americans, not convention

AMERICAN OVERSIGHT

planning. ... Convention organizers have said they are "exploring a range of contingency options." ... Sanders has called for Wisconsin to delay its election, now set for Tuesday, and extend early voting. "People should not be forced to put their lives on the line to vote, which is why 15 states are now following the advice of public health experts and delaying their elections," Sanders said. ... Evers has agreed to use Wisconsin Army National Guard members as poll workers to make up for a widespread shortage. Asst. AG Jurss in court brief said WNG won't make up shortfall, "The National Guard is currently determining how many personnel it can make available for each county." Presiding Judge Conley opposed April 7 election, "It's really a bad public policy idea and they should stop it for health reasons." Review MU Law poll, new state relief bill, court suspends civil trial deadlines.

Judge Jill Karofsky Promotes Progressive Values In WI Supreme Court Run
While New To Campaigning, Democratic Politics Run Deep In Karofsky's Family ... her mother, Judy Karofsky, run successfully for Middleton mayor. ... went on to work for other Democratic campaigns and administrations. ... "She's always been aware of the political atmosphere," said Judy Karofsky in an interview. "But it was not part of her profession -- of her personal goal -- until she ran for the judgeship." ... [longtime family friend, ex-gov Doyle: "I watched her grow up. She was somebody you could tell from the earliest time on she was really going to do great things."] ... [career resume] ... said she'd stuck with her exercise routine during her campaign, running a 50-mile race in August. ... "I use this as an example because I have never been outworked or outhustled," Karofsky said. "And there is no way in this race I'm going to be outworked or outhustled by Dan Kelly." ... "I talk to my kids about the importance of women's rights, and worker's rights, and human rights, and civil rights," Karofsky said. "My kids are worried about gun safety in school. My kids are concerned about the climate crisis." On ACt 10 "fallout ... It was pretty clear that schools had to do much more with less." ON voter ID: "I think that what we ought to be doing in this state and in this country is making it easier for people to vote, not more difficult." Kelly sharply critical of her for saying recently that she would advocate for social justice issues on the court. Karofsky disagreed, "Look, if you have been in a criminal court for five minutes, you know the criminal justice system in Wisconsin needs to be reformed," Karofsky said. "It's incumbent upon me as someone who's on the front line to inform the Legislature, inform the policy makers about what I am seeing in the criminal justice system. And I have done that." Rehash Karofsky digs against the conservative Court. Doyle: "I think she's raised a really, really valid issue. And she's done it very effectively, apparently, because boy are they reacting to it." Mom Karoofsky: "Like every good athlete ... they're taught to watch the opponent, watch their moves, diagnose their strengths and weaknesses and put together a game plan." Unclear how COVID response will affect election, as traditional campaigning stopped. Reviews warchests, spending.

Daniel Kelly Follows Conservative Path In Bid To Keep Supreme Court Seat

Incumbent Relies On Familiar Appeals To Conservative Base, Attacks On Opponent ... Not just any nerd, mind you. A law nerd. Someone who reads statutes for fun, who pauses to admire a framed copy of the U.S. Constitution, whose kids think that he's a "great judge" and an "amazing dad," but "not exactly exciting." ... downplays [GOP] ties ... "I think what [voters] should know is that I understand that they're the boss and I'm the servant." ... [rehash Kelly's appointment over 9 others, including Nowak, Hagedorn and GUndrum - without having judicial experience.] ... "He's incredibly smart, incredibly hard-working," said [Justice Bradley, a fellow Federalist Society member]. "Working on the court for him -- and this is the same for me -- it's kind of a dream job." ... [DOJ stint in brief, ex-asst AG Lazar: "I'm sort of like a law geek like Dan. I think Dan is one of the smartest people that I know." Christian education at Regent U, stint at Kern Family Foundation]. Kelly the Constitutional Originalist on Karofsky: ""She's very outcome-oriented with respect to the way she analyzes opinions. If they agree with her politics, they're good. If they disagree with her politics, they're corrupt. That's a fundamentally illegitimate way of looking at cases," on opposite side of gun issue, defends shooting range fundraiser, "it's not a political issue. It's a constitutional right issue," highlighting specific cases Karofsky has handled as a prosecutor or judge, showing her soft on crime, like Lieske case. Karofsky: "I will also say that I am the only person in this race who is on the front lines of the judicial system. I am the only person in this race who has ever sentenced anyone." Supreme Court elections are already low-turnout races and social distancing efforts could make turnout for this year's election even lower. Kelly said it's premature to discuss potential cases, but "If you have at all a curious mind, you start thinking about it right away."
https://www.wpr.org/justice-daniel-kelly-follows-conservative-path-bid-keep-wisconsin-supreme-court-seat

[WPF] Report Highlights Similarities, Differences Between Great Recession And COVID-19 Economy
WI Is In Better Position Today Than 2008, But Stark Challenges Remain ... "They certainly have a similar amount of severity," [WPF's Stein] said. "In the case of the Great Recession, there you had a financial crisis that was brought on by something really fundamentally wrong with the country. ... [WI in better fiscal shape now than 2008] "This is something that is going to wallop every state really hard," he said. "I don't want to leave ... the impression that there won't be a lot of pain and difficult choices because there will be." State income, sales, gas and corporate taxes will take a bigger hit than local property taxes, but $2.2B from federal stimulus will help, "it remains to be seen, whether it's enough."
https://www.wpr.org/new-report-highlights-similarities-differences-between-great-recession-and-covid-19-economy

Party leaders agree with Joe Biden - the Democratic National Convention cannot proceed as originally planned
Democratic Party leaders across the country are calling on party bosses to curtail, postpone or dramatically rethink the party's national convention scheduled for July in Milwaukee, concerned that holding a mass gathering just as levels of infection are expected to ebb could expose thousands to the coronavirus once again. Calls from the

AMERICAN OVERSIGHT

party faithful to rethink the Democratic National Convention come as the party's presumed presidential nominee, former Vice President Joe Biden, for the first time publicly expressed doubt that the gathering could proceed as it has in the past. "It's hard to envision that," Biden said in an MSNBC interview this week. "We ought to be able -- we were able to do it in the middle of the Civil War all the way through to World War II -- have Democratic and Republican conventions and primaries and elections and still have public safety. And we're able to do both. But the fact is it may have to be different." ... But party leaders are increasingly resigned to the need to make big changes. "It's more likely that it gets canceled than it happening. That's 100% true," said Alexis Wiley, a DNC superdelegate from Michigan. A traditional convention is "out of the question at this point," said Ian Murray, a superdelegate from Pennsylvania who's attended conventions since 1992. "I don't see where we're going to be able to all gather in a petri dish in Milwaukee with the coronavirus." Leah Daughtry, the former CEO of the 2008 and 2016 Democratic conventions, said if she were on the job again this year, "I'd be thinking about how to do a virtual convention, because you just have to -- you have to consider all the options at this moment." ... In response to Biden's comments, Joe Solmonese, CEO of the Milwaukee convention, said Wednesday that the challenges of the Coronavirus outbreak "require us to be deeply thoughtful about the important and unprecedented moment in which we're living." "As we continue to put plans in place for a successful Democratic National Convention this summer, we will balance protecting the health and well-being of convention attendees and our host city with our responsibility to deliver this historic and critical occasion," Solmonese added.
https://www.cbsnews.com/news/biden-democratic-national-convention-scheduled/

Tommy Thompson: Nation did not heed his pandemic warning from 2005
Former Wisconsin Gov. and Health and Human Services Secretary Tommy Thompson had a pandemic plan more than 15 years ago. On Wednesday, he told WISN 12 News that the nation failed to heed the warnings. "And I said, 'Some day, a virus is going to come, and it's going to paralyze America,'" Thompson said. "In 2005, you sounded the alarm and asked Congress for more money to plan for a pandemic. How did we do?" WISN 12 News reporter Terry Sater asked. "We did terrible," Thompson said. As secretary of Health and Human Services, it was Thompson's job to see pandemic warning signs and call for a national response from Congress. "More than likely we will have a pandemic in our lifetime. And what we need to do is get better prepared for it than we are right now," Thompson said in April 2005. "What should have taken place is they should have invested money. We needed to put ventilators and masks and hospital beds and more medicines in there and we failed to do that," Thompson said Wednesday. ... Thompson said he talked to President Donald Trump about it when he was president-elect. Generally, he gives federal and Wisconsin officials high marks given the lack of planning and investment, which he said would give them more tools to respond to the pandemic and save lives.

Wisconsin Academy of Physician Assistants

From WisPolitics.com ...

-- The U.S. Senate unanimously backed a sweeping $2 trillion package designed to stimulate the economy and direct financial support to Americans hit hardest by

AMERICAN OVERSIGHT

the fallout from the COVID-19 pandemic.

Wisconsin's two senators, often at philosophical odds, joined the rare consensus.

U.S. Sen. Tammy Baldwin praised the package as "another strong step forward by Congress responding to the challenges we face in Wisconsin."

"We need to continue working together across party lines to take additional steps to get through this public health crisis, stabilize our economy, and help it move forward," the Madison Dem said in a statement.

U.S. Sen Ron Johnson said the package was "far from perfect" but added he backed the measure because it was "essential that Congress provide this support."

Still, the Oshkosh Republican said the price tag was "pretty hard to swallow" and predicted the speed at which lawmakers moved to approve the package amid limited information available on coronavirus meant there would likely be "negative unintended consequences."

"In this case, 'not letting a crisis go to waste' dramatically drove up the cost of the bill and provided funding for purposes not essential to address the current crisis," he said.

The measure is the largest in U.S. history, carrying a price tag that more than doubles the 2008 bank bailout as well as the subsequent 2009 economic stimulus.

The package includes: $150 billion to bolster state and local governments; $100 billion in funding for hospitals; $350 billion in loans for small businesses to cover wages; and a $500 billion loan program for large businesses. It also boosts funding for unemployment insurance, provides tax incentives for businesses to keep redundant workers on payroll and expands food assistance by $25 billion, among a host of other measures.

The package now heads to the House.

Majority Leader Steny Hoyer, D-Md., indicated the body will vote on the measure on Friday. President Trump said he will sign it "immediately."

AMERICAN OVERSIGHT

-- The Dane County clerk is urging all voters who request an absentee ballot and have trouble presenting a voter ID to indicate they are indefinitely confined, which negates the requirement.

Clerk Scott McDonell said his directive isn't a blanket exemption for the voter ID requirements for those voting absentee, but a recognition of the difficulties faced by elderly voters, in particular, as they try to navigate the COVID-19 pandemic.

But the state GOP chair warned the party will "aggressively pursue any legal remedy available to put a stop to clerks unilaterally and illegally rigging an election in their favor."

McDonell sent an email to county clerks yesterday afternoon noting when voters request an absentee ballot they can check a box that certifies they are "indefinitely confined due to age illness, infirmity or disability and request ballots be sent to me for every election until I am no longer confined or fail to return a ballot."

Those voters are then allowed to skip uploading an ID before receiving a ballot for the April 7 election.

McDonell said in an interview that clerks are getting calls daily from elderly voters who are having trouble providing copies of the IDs as they try to vote absentee.

"This is not any attempt to circumvent the law," McDonell said.

State GOP Chair Andrew Hitt said clerks "willfully ignoring state statutes is an outrageous assault on our democratic process and Wisconsin's election laws."

-- The state Supreme Court canceled its in-person bar admission ceremonies for more than 300 attorney applicants due to the pandemic.

Applicants would traditionally take the Attorney's Oath before a sitting judge or justice. But the state's highest court in an order yesterday said ceremonies scheduled for the coming months have been indefinitely postponed.

In a statement, the court said the procedure has been modified because "the delay in bar admissions may have significant professional consequences for some people."

Qualified applicants can instead submit their materials to the Board of Bar Examiners and the Supreme Court Clerk for admission. They must also still meet all requirements for the State Bar of Wisconsin and enroll within 30 days of admission.

See the order:
https://wicourts.gov/news/docs/baradmissions.pdf

AMERICAN OVERSIGHT

-- DOA says today's closure of the state Capitol to the public is only the second time that's happened, according to its records.

The order kicks in at 8 a.m. today and lasts until further notice.

The agency said the only other time records show the Capitol was closed to the public was July 19, when it was shut down due to the electrical outage that impacted much of downtown Madison.

-- A Corrections employee in the agency's probation, parole and extended supervision branch has tested positive for COVID-19, the third case within the state prison system.

DOC said an employee in the Milwaukee County-based Division of Community Corrections Region 3 office on Tuesday tested positive.

The previous two cases of coronavirus confirmed by DOC came at maximum-security facilities. WisPolitics.com on March 19 reported the first case was located at Waupun Correctional Institution and DOC on Monday confirmed a second case at Columbia Correctional Institution.

Both previous cases were also employees and a DOC spokeswoman said there were no positive cases among adult inmates.

Still, WisPolitics.com reported Tuesday DOC would only suspend its administrative rules to limit inmate movement, interaction or services at an institution after a positive coronavirus case at that institution.

See the release and information about DOC's response to COVID-19:
https://bit.ly/2UQF3dx

-- The latest DC Wrap features U.S. Rep. Mike Gallagher expressing optimism that proposals from the cyberspace commission he co-chaired will pass this year.

As State Responds To COVID-19, GOP Leaders Say Debate Over Evers' Emergency Powers Can Wait
... during a conference call with reporters Wednesday, [Vos, Fitzgerald] repeatedly stopped short of saying the governor had gone too far. "This is a different reality than any of us have ever been in before," Vos told reporters. "I think we're going to look back and have questions about how all this went, but this is not the appropriate time to question it." [feared longer stay-at-home order would to force businesses to close.] But neither he nor Fitzgerald criticized the substance of the order or suggested it should be shorter. "It is what it is at this point," Fitzgerald said. "It wasn't the smoothest thing that has happened so far, but I understand we're in a difficult period of time here and things like that are going to happen." Some rank-and-file Republican lawmakers feel differently. Sen. LeMahieu said Evers "used a sledgehammer rather than a scalpel." Sen. Craig sent memo to all lawmakers, sought cosponsors for a bill giving Legislature more checks over the governor's emergency powers, "To impair fundamental rights -- as gathering bans, etc. do -- the government must have a compelling state interest to do so AND must do so in a narrowly tailored and least restrictive means possible under the constitution. Without additional clarity by the executive branch, it is clear that this authority has been exceeded." Moments after Fitzgerald and Vos spoke, Justice Bradley tweeted a quote from Samuel Adams, "The liberties of our country are worth

AMERICAN OVERSIGHT

defending at all hazards." Fitzgerald and Vos declined considering a resolution to revoke Evers' emergency powers. "I'm not prepared to say that that would be something that we would even consider," said Fitzgerald. "It's not something I've considered." Vos said Evers March 12 emergency lasts only 60 days, "Once we get past that 60 days, we have to see a very clear-cut reason if there is any to extend beyond those 60 days. ... We're going to be able to look back in hindsight and perhaps say we made a lot of mistakes. But I don't know how else we can get this virus under control."
https://www.wpr.org/state-responds-covid-19-gop-leaders-say-debate-over-evers-emergency-powers-can-wait

Cities, Legislatures Learn to Govern by Conference Call
... Even before the coronavirus crisis, Oregon and Wisconsin had rules in place allowing their legislatures to vote remotely in emergency situations, making them outliers. Both legislatures are troubleshooting their systems ... "We've got the concept, we've tested the concept and had a walk-through a couple days ago, and it's looking good," said [Senate Pres.] Roth, a Republican. "It's not perfect, the video won't be perfect, but it will absolutely convey to the public everything that's happening." ... Virtual sessions are to be broadcast on WisconsinEye ... Wisconsin legislature delayed the end of its session as the pandemic spread across the country, and the Senate still needs to act on more than 100 bills passed by the Assembly, Roth said. ... Roth said the virtual-vote plan has been mostly accepted, but it's not been without opposition. "I don't want to be calling in on a teleconference trying to take care of important business," state Sen. Tim Carpenter, a Democrat, told the Wisconsin State Journal. ... urged the legislature to meet in person as soon as possible, did not respond to a request for comment.

DaneCo Voters may cast absentee ballot as indefinitely confined to avoid voter ID req
... to avoid having to upload their voter ID when requesting an absentee ballot ... It's not clear whether [Clerk] McDonell's recommendation is actually legal, however. Wisconsin law says people [already registered to vote] can certify they are indefinitely confined due to "age, illness, infirmity or disability." ... [WEC] does not condone abuse of the option, but said "voters of a certain age or in at-risk populations may meet that standard of indefinitely confined until the crisis abates." ... In an email to clerks, McDonell said voters are confined due to the pandemic, and when Gov. Tony Evers' stay-at-home order is lifted, the voter can change their designation back. ... "This feature in our law is here to help preserve everyone's right to vote." ... [WILL's Esenberg] said McDonell is "trying to create an exception in the law that doesn't exist. ... Ironically, the clerk may be disenfranchising these people. ... if somebody challenges that ballot down the line, they're probably going to win." ... McDonell later clarified that voters who do not need to be indefinitely confined shouldn't use the indefinitely confined option. Rehash voter ID and registration, absentee ballots, crisis of poll workers over 60, GB suit to extend deadlines and permit vote by mail.

Milwaukee is supposed to host the DNC in July, but COVID has changed everything
... Democratic Party doesn't directly address this contingency in its own rules, said political scientist Josh Putnam ... "This is such uncharted territory. It's not something we've seen in modern times," he said. ... [WiCtrDist. chief] Brooks added: "We're going to need hotels, restaurants, the convention center, Fiserv Forum, all of these entities are going to need enough time to re-engage the staff that has been furloughed so that they can support the event." ... "Nothing is normal," said [GA DNC-er] Davis. "It is very smart for the leadership of the convention team to be exploring every alternative that's available to us." ... [TX Dem chair Hinojosa] would not be surprised if the Milwaukee convention did not come to pass as planned "unless this massive effort at social isolation works between now and then." ... Asked on CNN if Democrats should call off the in-person Democratic convention, Democratic front-runner Joe Biden said, "No, I don't think so. I think we ought to be able to conduct our democratic processes as well as deal with this issue, but look, that decision will be made (based on) the state of the nation at that moment." Swarmm Events' Sampson, Service and Hospitality Workers' Rickman, others comment.

Who's responsible for coronavirus misinformation and mishaps? Here are our

AMERICAN OVERSIGHT

picks.
... [radio host Belling] last week. ... posted that ... Evers was just hours from locking down the state and virtually shuttering "all Wisconsin businesses. The Wisconsin National Guard has been deployed and is basing at State Fair Park to enforce the order," Belling wrote. He called it an "unprecedented assault on personal freedom." ... "It was corrected on air within five minutes and was taken down," Belling said this week. ... was also up long enough to earn a smackdown from state Rep. Dan Knodl. "Ramping up the fear factor and creating hysteria is hardly what's needed at this time," the Germantown Republican wrote. ... "Some ppl are getting sick with the Corona Virus while young ppl flex good health on the gram," [33 y/o Rep.] Bowen posted on Instagram with a photo of Bowen flexing his good health along with shrugging shoulders and smiley emojis. [before he came down with it] ... "That was a bad joke," the veteran lawmaker said of his Instagram post. "I definitely contributed to it not being taken seriously." The post has been removed. ... [MI AG] Nessel last week accused ... Menards of price gouging, sending the retailer a cease-and-desist letter ... "We are disappointed and are taking this very seriously," a company spokesman said. ... [DATCP] on Wednesday accused yet another 16 companies of [price gouging] ... Then the New York Times took aim at Uline ... company pushed back ... doing all it could to provide supplies to hospitals and health care providers. ... all nonessential employees were working from home. But this week two Uline staffers contacted the Journal Sentinel to say ... Lots ... nonessential positions are being forced to go to work ... [WEDC] website soon crashed "due to the volume of inquiries." [from businesses about whether they were essential] ... Several conservatives appear to be offering disingenuous interpretations of Evers' orders. [CFG's O'Keefe, Sen. Stroebel, Rep. Jarchow remarks on family separation] ... [NRA] praised the governor for including "firearm and ammunition suppliers and retailers for purposes of safety and security" in his list of essential businesses. ... Evers posted a 30-second video on Twitter last week in which he and Lt. Gov. Mandela Barnes thanked health care providers working to keep people safe during the pandemic. ... but ... sat no more than inches from each other. ... Rep. Ron Tusler ... went to Facebook to recruit volunteers to get absentee ballots to "at-risk" folks ... posted a picture of him standing perhaps 2 feet from one of his constituents. "Old picture," Tusler explained. "But I agree that is too close for today's crisis." ... post has been removed.
https://www.jsonline.com/story/news/2020/03/26/5077868002/

Amid run on TP, extra cleaning, sewer district reports equipment clogged with wipes
... Even wipes marketed as flushable aren't because they're made of fibrous, stringy materials [that won't biodegrade in the system] ... On Saturday, the materials caused a pump at one of the district's pump stations near the Dane County Regional Airport to fail ... [Madison Sewers' Wegner] cautioned that "these things can get backed up in people's homes" as well. ... [plumber] has seen a mild increase in the number of calls about home systems clogged with wipes over the last couple of weeks. ... newer low-flow toilets aren't always as able to push the heavier materials through a home's pipes ... only gets worse if fats, oils and grease ... get put down the drain ... caus[ing] 'fatbergs.'"

Wisconsin Academy of Physician Assistants

From WisPolitics.com ...

-- More than 80 percent of the absentee ballots local clerks mailed to vote have now been returned, according to the latest update from the Elections Commission.

AMERICAN OVERSIGHT

That's an additional 39,268 ballots logged by local clerks compared to yesterday's update.

The latest numbers show the state nearing the return rate for mailed absentee ballots from the spring 2016 election, though still well behind the fall 2016 race.

In spring 2016, which included contested presidential primaries for both parties, 95,850 absentee ballots were mailed to voters. Of those, 15,364 weren't returned, couldn't be delivered or were received after the deadline. That's a return rate of 83.7 percent.

In fall 2016, 172,828 absentee ballots were mailed to state voters. Of those, 14,921 weren't returned, were undeliverable or were sent back late. That was a return rate of 91.4 percent.

The daily updates from the Elections Commission don't differentiate between absentee ballots that were requested in person vs. those that were mailed. Comparisons to past elections are also difficult because it is expected the vast majority of absentee ballots cast this spring will have been mailed to voters.

In the 2016 fall election, mailed absentee ballots amounted to 5.8 percent of all votes cast in the election.

Absentee ballots that were postmarked by Tuesday can still be counted so long as they're received by Monday.

-- DMV Customer Service Centers are now closed to most in-person transactions until further notice to mitigate the spread of COVID-19.

DOT said DMV would keep online services open, as well as certain in-person transactions by appointment. They include: commercial driver licenses; voters using the identification card petition process; and new state residents in need of a driver's license or ID for voting purposes.

Appointments can be made by calling the DMV call center.

DMV has already extended driver license renewals by 60 days and deferred emissions testing requirements until further notice due to the coronavirus.

DHS: 2,756 Confirmed COVID-19 Cases In Wisconsin
101 People Have Died ... 30,115 people have tested negative [178 more cases, 9 more deaths, 1,603 more negative tests since Tuesday] ... 790 people have been hospitalized. [29% of cases, unchanged] ... cities are seeing the highest number of positive cases ... confirmed cases in 60 of 72 counties [unchanged], except Burnett, Forest, Green Lake, Langlade, Lincoln, Pepin, Polk, Price, Sawyer, Taylor, Vernon and Washburn.
https://www.wpr.org/dhs-2-756-confirmed-covid-19-cases-wisconsin

Baldwin and others call on CDC to release demographic information on coronavirus
... [Baldwin + 16 Congressional Dems] requested demographic data broken down by gender, race, ethnicity, whether a patient is a health care provider and any other available information. ... "It is important to document if particular groups in the United States are at greater risk for the virus and why." ... Milwaukee is one of the few places that is making racial and other demographic data available to the public. ... Of the 56 [Milwaukee County COVID-19 deaths] as of Monday morning, at least 39 have been African American. ... while making up about 27% of the county's population. ... and local officials and public health experts say that is not surprising given existing racial

inequalities. ... virus particularly dangerous for African Americans as a population, who have higher rates of chronic illness ... are more likely to have diabetes and high blood pressure, for example -- and tend to develop those illnesses earlier in life. ... Rep. David Bowen ... who has recovered from the coronavirus... [blamed] Misinformation, economic factors and limited access to health care ... "Because of the misinformation, people didn't take the proper precautions to slow the spread, to distance themselves, to stop having large gatherings or going out," Bowen said. "You also had the dynamic of people working in jobs where they can't work from home."

More Than 1M In Wisconsin Vote By Mail, But Full Election Turnout Still Unclear
... [WEC found] 1,287,827 people requested absentee mail-in ballots. ... 1,003,422 had been returned to clerks as of 7:30 a.m. Wednesday ... also shows a gap of 12,710 ballots between what was requested by voters and what clerks mailed out. WEC's Wolfe said gap could differ if clerks have yet to enter data. 2016 prez primary drew 2.1M voters, about 47%. So, about 1M needed to vote in person Tuesday to match that turnout. Wolfe said statewide turnout won't be available until Monday, deadline for receiving absentees and result-release date. Madison's unofficial 50% turnout is a marked decline from 2016's 66%. Milwaukee saw about 19K in-person votes, but hundreds remained in line as polls closed and all are entitled to vote. EC Co. saw 34% turnout, less absentees in transit. Superior Clerk Kalan saw > 2,100 in-person votes plus about 3,600 of 4,300 absentee ballots have been returned - suggesting 46-52% turnout, "This year will be 30 years that I've been here, and this was the worst election I've ever been through." Sheboygan saw about 9K in-person votes, down from 2016. Kenosha 50% overall turnout, mostly by mail. Green Lake had about 45% turnout, also on mostly mail-ins. Rehash Evers' effort to postpone, court rulings, ballot decisions.
https://www.wpr.org/more-1m-wisconsin-vote-mail-full-election-turnout-still-unclear

Returned to sender: Postal officials probe WI absentee ballots never delivered
... [USPS] investigating the failure to deliver at least 175 -- and possibly hundreds -- of absentee ballots requested by voters in the village of Fox Point and other communities in Milwaukee County ... USPS repeatedly returned unsent ballots without explanation. "The ballots are not stamped 'undeliverable' or anything. They just never got mailed," [FP village mgr.] Botcher told PBS Wisconsin ... [cited] at least seven trips to the local post office to re-mail mysteriously returned ballots. ... [mostly] meant for Fox Point voters, but [some for Glendale, Whitefish Bay. Unsure of total re-sent, never explained by USPS] some were returned to the sender ... more than once ... But on Election Day -- the deadline for voters to postmark their ballots -- he received a white plastic bin filled with 175 ballots that local voters never received. "I don't think it's anything nefarious on the part of the Postal Service, but something just wasn't working right," he said. WOLfe] heard from several clerks that absentee ballots they had mailed out were "bounced back." ... in contact with [USPS] to determine the scope ... "I don't know that we have a good handle on that yet." Sen. Feyen tweeted upon hearing "3 large tubs of absentee ballots from Oshkosh and Appleton were just located. ... working hard to remedy the situation." ... [Minority Leader

AMERICAN OVERSIGHT

Hintz] urged [WEC, DOJ] to investigate the waylaid ballots ... found in a mail processing facility in Milwaukee. ... called on the Legislature to implement mail-only balloting for upcoming elections if the pandemic continues. ... [Milwaukee Elections chief Albrecht denounced] "unlevel playing field" ... because of worker shortages, postal officials told him it could take seven to 10 days to deliver a ballot. ... documenting the problem and plans to report it to the postal service. USPS' Sheehan knew nothing on Fox Point mystery, "People are investigating it. ... We've heard scattered reports of people not getting their ballots. There were just things that I heard on the news. Nobody contacted the Postal Service directly." Some would-be absentee voters comment.
https://www.wisconsinwatch.org/2020/04/returned-to-sender-postal-officials-investigating-wisconsin-absentee-ballots-that-were-never-delivered/

Plenty of blame to go around after chaotic spring election amid COVID-19 pandemic
... In 47 of the state's 72 counties, there were at least as many polling places as last year, and in another 12 only one less site. Even in Madison, which managed to keep open 66 of its normal 92 polling sites, there were few lines and smooth operations. ... biggest problems occurred in the handful of counties that reduced polling locations because [pandemic] fears ... caused a shortage of poll workers. ... biggest reductions came in Milwaukee, Waukesha and Brown counties ... forced many voters to choose between giving up their constitutional right to vote or risking their health. [UW Med prof. Malecki: "The fact that politics interfered with sound judgment and jeopardized public safety is something that should not be ignored."] ... [Vos] drew criticism after images emerged of him working at a poll in a mask, gloves and protective gown while proclaiming that it was safe for people to vote. ... On Wednesday Vos took to twitter to blame Gov. Tony Evers for causing confusion [by waiting until Friday to propose postponement]. Bryant for Sen. Taylor saw "complete mismanagement." Milwaukee Election chief Albrecht said election should never have been held, called for USPS to probe undelivered absentees, blamed his meager 5 sites on late count on WNG help, rejected comparisons to Madison, whose deputy clerk Verbick agreed earlier notice would have been helpful. For Evers, WNG was last resort and limited to Guardsmen who lived in the counties they would help, balanced by what other missions they may be called to support.
https://madison.com/wsj/35c422af-8672-50ca-a246-c7990fbd510f.html

... explained in a Facebook post Wednesday, "I've had some friends ask so I wanted to explain yesterday. The City of Burlington did an amazing job at the polling place. A requirement for working at the polls (which I did from 6:15 a.m. to 1:30 p.m.) was to wear protective gear to protect the public and the workers. Every single person working at the polling place wore the same gear. I know the media and especially Democrats wanted to make it look like I took more precautions than others, but that was not the case." Vos continued. "I appreciate the calls, texts, and messages of support. For those who wondered and asked, I thought it was easier to just explain here with the request that you share or tell the truth if someone brings it up on Facebook or in person. Thanks!" ... Vos' wife, Michelle Litjens Vos, worked at the Rochester polling location ...

AMERICAN OVERSIGHT

wore gloves, but not a mask or protective eye gear. Many poll workers in other areas were also not wearing masks, although most of them sat behind protective plexiglass barriers. ... State Sen. Vos said it was disappointing to see long lines in Milwaukee because they chose to only open a few polling places. "It wouldn't surprise me if people in Milwaukee are frustrated because of the decisions the City of Milwaukee made," Vos said. ... said Tuesday it made no sense to cancel the election ... "It is no guarantee in May or June that it is going to be better," Vos said ... would rather have an election with a lower turnout than go into the fall election having never done this before.
https://journaltimes.com/75ae7dac-07c8-5ba8-b32f-7023d5d357ae.html

In-person voting was likely a 'disaster' for WI's efforts to flatten coronavirus curve, nat'l experts say
... "I don't get it; I honestly do not get it," [U-Wa.] researcher Ali Mokdad said from his home in Seattle ... [DHS Sec.] Palm said in-person voting would "without question" increase case totals, "and an increase in the number of cases in Wisconsin would result in more deaths." ... "What a disaster," said [COVID Act Now's] Kreiss-Tomkins ... Wisconsin's election day came just as some states were seeing a glimmer of hope. ... Washington may have already seen its peak. ... [VOs touted Burlington's protective measures, but] Mokdad suggested Vos was ill-informed. He noted even doctors and nurses with special training are getting infected across the country. ... [virus spread modeler] Pei said. "Here, you're gathering people from different locations and they can bring back the virus to their own location. That is like the spark in the process." Mokdad said November election could repeat unnecessary exposure, "I have voted in every election and I feel that it's my civic duty. If I were a citizen of Wisconsin, I would not go out and vote."
https://www.jsonline.com/story/news/2020/04/08/2961718001/

GOP propose [JFC] power to cut school aid, slash spending as part of relief bill
... Evers said that idea, which is one of dozens of potential provisions state lawmakers are negotiating for legislation to respond to the coronavirus outbreak, would likely push him to veto the bill altogether. "'Seriously consider it' would probably be putting it mildly," Evers said Wednesday ... "We can't have that as part of it. That's too much authority in the hands of a couple people. ... The good news is, I'm glad we have a response from the Republican side -- it's good to see that effort, putting pen to paper." ... "For almost a month we have been at work on a bill that includes essential provisions dealing with everything from Medicaid to the first week of unemployment," [Leader Fitzgerald] said in a statement. "... Suggesting he'll veto the full bill publicly, while privately we're still negotiating, is irresponsible. We'll keep working with the minority party to put together a bill that can hopefully pass soon with bipartisan support," he said. ... GOP did not collaborate with Senate Democrats on the proposals released Wednesday, [Constalie for Leader Shilling said. Minority Leader Hintz] said his office "kept in regular communication with Republican leadership to share ideas on a bipartisan package we could all support. ... Democrats have made clear that any proposal ... maintain the role of the Governor and his ability to sign off." Leader Steineke, Sen. Erpenbach comment.

Foxconn Officials Say They Have Met Job Goals For 2019
... "Foxconn directly employed 600 individuals, with more than 550 meeting the criterial for qualifications as full-time employees," [FTG vice-chair Lee in letter to WEDC CEO Hughes]. "Alongside our local partners, we have built a strong foundation for the Wisconsin project, and set the stage for Wisconn Valley to be the center of a high-technology hub for North America." ... [Foxconn needed to create 520 jobs to be eligible in 2019, but] In November 2019, a series of letters between [DOA], WEDC and Foxconn showed the group at odds over what qualified for tax incentives. Original project specifies Gen. 10.5 plant, but Foxconn's plans have substantially changed and it created another entity, Foxconn International Internet (Fii) that is not mentioned in the contract. DOA Sec. Brennan on 11/12/19 wrote, "Foxconn was opaque about its project plans throughout 2018 and did not commit to any specific type of project different than the Gen 10.5 facility defined in the contract." State officials said late last year tax credits would not be awarded until the contract is amended, which has not happened.

Wisconsin Academy of Physician Assistants

From WisPolitics.com ...

-- More than 80 percent of the absentee ballots local clerks mailed to vote have now been returned, according to the latest update from the Elections Commission.

AMERICAN OVERSIGHT

That's an additional 39,268 ballots logged by local clerks compared to yesterday's update.

The latest numbers show the state nearing the return rate for mailed absentee ballots from the spring 2016 election, though still well behind the fall 2016 race.

In spring 2016, which included contested presidential primaries for both parties, 95,850 absentee ballots were mailed to voters. Of those, 15,364 weren't returned, couldn't be delivered or were received after the deadline. That's a return rate of 83.7 percent.

In fall 2016, 172,828 absentee ballots were mailed to state voters. Of those, 14,921 weren't returned, were undeliverable or were sent back late. That was a return rate of 91.4 percent.

The daily updates from the Elections Commission don't differentiate between absentee ballots that were requested in person vs. those that were mailed. Comparisons to past elections are also difficult because it is expected the vast majority of absentee ballots cast this spring will have been mailed to voters.

In the 2016 fall election, mailed absentee ballots amounted to 5.8 percent of all votes cast in the election.

Absentee ballots that were postmarked by Tuesday can still be counted so long as they're received by Monday.

-- DMV Customer Service Centers are now closed to most in-person transactions until further notice to mitigate the spread of COVID-19.

DOT said DMV would keep online services open, as well as certain in-person transactions by appointment. They include: commercial driver licenses; voters using the identification card petition process; and new state residents in need of a driver's license or ID for voting purposes.

Appointments can be made by calling the DMV call center.

DMV has already extended driver license renewals by 60 days and deferred emissions testing requirements until further notice due to the coronavirus.

AMERICAN OVERSIGHT

-- Gov. Tony Evers attends a virtual town hall today with the state's veteran community.

Evers will be joined by Veterans Affairs Secretary Mary Kolar, and the two will discuss current events on the COVID-19 pandemic and WDVA benefits and services.

The virtual event begins at 4 p.m.

DHS: 2,756 Confirmed COVID-19 Cases In Wisconsin
101 People Have Died ... 30,115 people have tested negative [178 more cases, 9 more deaths, 1,603 more negative tests since Tuesday] ... 790 people have been hospitalized. [29% of cases, unchanged] ... cities are seeing the highest number of positive cases ... confirmed cases in 60 of 72 counties [unchanged], except Burnett, Forest, Green Lake, Langlade, Lincoln, Pepin, Polk, Price, Sawyer, Taylor, Vernon and Washburn.
https://www.wpr.org/dhs-2-756-confirmed-covid-19-cases-wisconsin

Baldwin and others call on CDC to release demographic information on coronavirus
... [Baldwin + 16 Congressional Dems] requested demographic data broken down by gender, race, ethnicity, whether a patient is a health care provider and any other available information. ... "It is important to document if particular groups in the United States are at greater risk for the virus and why." ... Milwaukee is one of the few places that is making racial and other demographic data available to the public. ... Of the 56 [Milwaukee County COVID-19 deaths] as of Monday morning, at least 39 have been African American. ... while making up about 27% of the county's population. ... and local officials and public health experts say that is not surprising given existing racial

inequalities. ... virus particularly dangerous for African Americans as a population, who have higher rates of chronic illness ... are more likely to have diabetes and high blood pressure, for example -- and tend to develop those illnesses earlier in life. ... Rep. David Bowen ... who has recovered from the coronavirus... [blamed] Misinformation, economic factors and limited access to health care ... "Because of the misinformation, people didn't take the proper precautions to slow the spread, to distance themselves, to stop having large gatherings or going out," Bowen said. "You also had the dynamic of people working in jobs where they can't work from home."

More Than 1M In Wisconsin Vote By Mail, But Full Election Turnout Still Unclear
... [WEC found] 1,287,827 people requested absentee mail-in ballots. ... 1,003,422 had been returned to clerks as of 7:30 a.m. Wednesday ... also shows a gap of 12,710 ballots between what was requested by voters and what clerks mailed out. WEC's Wolfe said gap could differ if clerks have yet to enter data. 2016 prez primary drew 2.1M voters, about 47%. So, about 1M needed to vote in person Tuesday to match that turnout. Wolfe said statewide turnout won't be available until Monday, deadline for receiving absentees and result-release date. Madison's unofficial 50% turnout is a marked decline from 2016's 66%. Milwaukee saw about 19K in-person votes, but hundreds remained in line as polls closed and all are entitled to vote. EC Co. saw 34% turnout, less absentees in transit. Superior Clerk Kalan saw > 2,100 in-person votes plus about 3,600 of 4,300 absentee ballots have been returned - suggesting 46-52% turnout, "This year will be 30 years that I've been here, and this was the worst election I've ever been through." Sheboygan saw about 9K in-person votes, down from 2016. Kenosha 50% overall turnout, mostly by mail. Green Lake had about 45% turnout, also on mostly mail-ins. Rehash Evers' effort to postpone, court rulings, ballot decisions.
https://www.wpr.org/more-1m-wisconsin-vote-mail-full-election-turnout-still-unclear

Returned to sender: Postal officials probe WI absentee ballots never delivered
... [USPS] investigating the failure to deliver at least 175 -- and possibly hundreds -- of absentee ballots requested by voters in the village of Fox Point and other communities in Milwaukee County ... USPS repeatedly returned unsent ballots without explanation. "The ballots are not stamped 'undeliverable' or anything. They just never got mailed," [FP village mgr.] Botcher told PBS Wisconsin ... [cited] at least seven trips to the local post office to re-mail mysteriously returned ballots. ... [mostly] meant for Fox Point voters, but [some for Glendale, Whitefish Bay. Unsure of total re-sent, never explained by USPS] some were returned to the sender ... more than once ... But on Election Day -- the deadline for voters to postmark their ballots -- he received a white plastic bin filled with 175 ballots that local voters never received. "I don't think it's anything nefarious on the part of the Postal Service, but something just wasn't working right," he said. [ACLU-W's COLlins] heard from "tons of voters in many parts of the state" who did not receive absentee ballots they had requested. ... [WEC Admin. WOLfe] heard from several clerks that absentee ballots they had mailed out were "bounced back." ... in contact with [USPS] to determine the scope ... "I don't know that we have a good handle on that yet." Sen. Feyen tweeted upon hearing "3 large tubs of absentee ballots from Oshkosh and Appleton were just located. ... working hard to remedy the situation." ... [Minority Leader

AMERICAN OVERSIGHT

Hintz] urged [WEC, DOJ] to investigate the waylaid ballots ... found in a mail processing facility in Milwaukee. ... called on the Legislature to implement mail-only balloting for upcoming elections if the pandemic continues. ... Nobody contacted the Postal Service directly." Some would-be absentee voters comment.
https://www.wisconsinwatch.org/2020/04/returned-to-sender-postal-officials-investigating-wisconsin-absentee-ballots-that-were-never-delivered/

Plenty of blame to go around after chaotic spring election amid COVID-19 pandemic
... In 47 of the state's 72 counties, there were at least as many polling places as last year, and in another 12 only one less site. Even in Madison, which managed to keep open 66 of its normal 92 polling sites, there were few lines and smooth operations. ... biggest problems occurred in the handful of counties that reduced polling locations because [pandemic] fears ... caused a shortage of poll workers. ... biggest reductions came in Milwaukee, Waukesha and Brown counties ... forced many voters to choose between giving up their constitutional right to vote or risking their health. [UW Med prof. Malecki: "The fact that politics interfered with sound judgment and jeopardized public safety is something that should not be ignored."] ... [Vos] drew criticism after images emerged of him working at a poll in a mask, gloves and protective gown while proclaiming that it was safe for people to vote. ... On Wednesday Vos took to twitter to blame Gov. Tony Evers for causing confusion [by waiting until Friday to propose postponement]. Bryant for Sen. Taylor saw "complete mismanagement." Milwaukee Election chief Albrecht said election should never have been held, called for USPS to probe undelivered absentees, blamed his meager 5 sites on late count on WNG help, rejected comparisons to Madison, whose deputy clerk Verbick agreed earlier notice would have been helpful. For Evers, WNG was last resort and limited to Guardsmen who lived in the counties they would help, balanced by what other missions they may be called to support.
https://madison.com/wsj/35c422af-8672-50ca-a246-c7990fbd510f.html

Vos explains wearing full PPE at polls, Tuesday video received national attention
... explained in a Facebook post Wednesday, "I've had some friends ask so I wanted to explain yesterday. The City of Burlington did an amazing job at the polling place. A requirement for working at the polls (which I did from 6:15 a.m. to 1:30 p.m.) was to wear protective gear to protect the public and the workers. Every single person working at the polling place wore the same gear. I know the media and especially Democrats wanted to make it look like I took more precautions than others, but that was not the case." Vos continued. "I appreciate the calls, texts, and messages of support. For those who wondered and asked, I thought it was easier to just explain here with the request that you share or tell the truth if someone brings it up on Facebook or in person. Thanks!" ... Vos' wife, Michelle Litjens Vos, worked at the Rochester polling location ...

AMERICAN OVERSIGHT

wore gloves, but not a mask or protective eye gear. Many poll workers in other areas were also not wearing masks, although most of them sat behind protective plexiglass barriers. ... State Sen. Tim Carpenter, D-Milwaukee, has called for Vos to be removed from his role as [NCSL] president [Vos, NCSL did not respond.] ... Vos said it was disappointing to see long lines in Milwaukee because they chose to only open a few polling places. "It wouldn't surprise me if people in Milwaukee are frustrated because of the decisions the City of Milwaukee made," Vos said. ... said Tuesday it made no sense to cancel the election ... "It is no guarantee in May or June that it is going to be better," Vos said ... would rather have an election with a lower turnout than go into the fall election having never done this before.
https://journaltimes.com/75ae7dac-07c8-5ba8-b32f-7023d5d357ae.html

In-person voting was likely a 'disaster' for WI's efforts to flatten coronavirus curve, nat'l experts say
... "I don't get it; I honestly do not get it," [U-Wa.] researcher Ali Mokdad said from his home in Seattle ... [DHS Sec.] Palm said in-person voting would "without question" increase case totals, "and an increase in the number of cases in Wisconsin would result in more deaths." ... "What a disaster," said [COVID Act Now's] Kreiss-Tomkins ... Wisconsin's election day came just as some states were seeing a glimmer of hope. ... Washington may have already seen its peak. ... [VOs touted Burlington's protective measures, but] Mokdad suggested Vos was ill-informed. He noted even doctors and nurses with special training are getting infected across the country. ... [virus spread modeler] Pei said. "Here, you're gathering people from different locations and they can bring back the virus to their own location. That is like the spark in the process." Mokdad said November election could repeat unnecessary exposure, "I have voted in every election and I feel that it's my civic duty. If I were a citizen of Wisconsin, I would not go out and vote."
https://www.jsonline.com/story/news/2020/04/08/2961718001/

GOP propose [JFC] power to cut school aid, slash spending as part of relief bill
... Evers said that idea, which is one of dozens of potential provisions state lawmakers are negotiating for legislation to respond to the coronavirus outbreak, would likely push him to veto the bill altogether. "'Seriously consider it' would probably be putting it mildly," Evers said Wednesday ... "We can't have that as part of it. That's too much authority in the hands of a couple people. ... The good news is, I'm glad we have a response from the Republican side -- it's good to see that effort, putting pen to paper." ... "For almost a month we have been at work on a bill that includes essential provisions dealing with everything from Medicaid to the first week of unemployment," [Leader Fitzgerald] said in a statement. "... Suggesting he'll veto the full bill publicly, while privately we're still negotiating, is irresponsible. We'll keep working with the minority party to put together a bill that can hopefully pass soon with bipartisan support," he said. ... GOP did not collaborate with Senate Democrats on the proposals released Wednesday, [Constalie for Leader Shilling said. Minority Leader Hintz] said his office "kept in regular communication with Republican leadership to share ideas on a bipartisan package we could all support. ... Democrats have made clear that any proposal ... maintain the role of the Governor and his ability to sign off." Leader Steineke, Sen. Erpenbach comment.

Foxconn Officials Say They Have Met Job Goals For 2019
... "Foxconn directly employed 600 individuals, with more than 550 meeting the criterial for qualifications as full-time employees," [FTG vice-chair Lee in letter to WEDC CEO Hughes]. "Alongside our local partners, we have built a strong foundation for the Wisconsin project, and set the stage for Wisconn Valley to be the center of a high-technology hub for North America." ... [Foxconn needed to create 520 jobs to be eligible in 2019, but] In November 2019, a series of letters between [DOA], WEDC and Foxconn showed the group at odds over what qualified for tax incentives. Original project specifies Gen. 10.5 plant, but Foxconn's plans have substantially changed and it created another entity, Foxconn International Internet (Fii) that is not mentioned in the contract. DOA Sec. Brennan on 11/12/19 wrote, "Foxconn was opaque about its project plans throughout 2018 and did not commit to any specific type of project different than the Gen 10.5 facility defined in the contract." State officials said late last year tax credits would not be awarded until the contract is amended, which has not happened.

Subject: THU PM Update: Spring election results may not be known until mid-April after federal judge extends absentee ballot deadline

THU PM Update -- 2 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- Wisconsin may not know until mid-April who won the presidential primary or a seat on the state Supreme Court after a federal judge pushed back until April 13 the deadline for absentee ballots to be received and counted in the spring election.

Citing the COVID-19 pandemic -- and again bemoaning the failure of the Gov. Tony Evers and Legislature to delay the election as other states have -- U.S. Judge William Conley relaxed requirements for absentee ballots as Wisconsin voters have requested them in record numbers.

Conley refused to push back the election in today's ruling, finding it wouldn't be appropriate for a federal judge despite the failure of Capitol leaders to act in light of the

AMERICAN OVERSIGHT

health risks to both voters and poll workers.

Instead, he:

*extended until 4 p.m. April 13 the deadline for absentee ballots to be received so they can be counted for the election. State law normally requires those ballots to be returned by 8 p.m. on Election Day.

*pushed back to 5 p.m. tomorrow the deadline to request an absentee ballot. That deadline had been today.

*enjoined the state from requiring those voting absentee to have a witness sign the envelope in which they return the ballot if they are unable to do so safely. Those who don't include a witness signature on their ballot envelopes must include an affirmation or other statement why they weren't able to safely meet the requirement. It will be left to local clerks whether to accept the voter's reasons for not completing the witness certification requirement.

Conley also didn't add a new requirement for when ballots must be postmarked. That means ballots mailed after Tuesday's election will still count so long as local clerks receive them by the new April 13 deadline.

April 13 is also the deadline for municipal boards of canvas to certify their election results to the county. Conley noted in his ruling the Wisconsin Elections Commission indicated locals would still be able to meet that deadline if he pushed back the cut off for receiving absentee ballots to 4 p.m. that day.

State Dem Chair Ben Wikler praised the ruling as a "victory for voters, for public health, and for democracy itself." The state and national parties were among those who filed suit seeking changes to the election in light of the outbreak. Conley combined three lawsuits into one with today's ruling covering all of their requests.

Conley refused several requests, including one to suspend enforcement of voter ID.

The state and national Republican parties, which intervened in the suit, had asked him to stay any ruling so it could be appealed. But Conley declined, writing "the relief being granted is not of the sweeping nature sought by plaintiffs" and the most significant orders he issued don't kick in until Election Day.

The state GOP was still reviewing the ruling this afternoon, a spokeswoman said.

During a Wednesday hearing, Conley was harshly critical of Evers and the Legislature for not delaying the election as another dozen states have.

In today's ruling, he praised the "truly heroic efforts" of the Wisconsin Elections Commission, its staff and local clerks. He said those officials have been "improvising in

AMERICAN OVERSIGHT

real time" in the face of a burgeoning health crisis, the loss of poll workers, fear of sickness and inadequate resources.

He wrote the guv and Legislature appeared to be hoping those election officials and voters willing to ignore the health risks to themselves "will thread the needle to produce a reasonable voter turnout and no increase in the dissemination of COVID-19."

Conley suggested that outcome was unlikely.

"As much as the court would prefer that the Wisconsin Legislature and Governor consider the public health ahead of any political considerations, that does not appear in the cards," Conley wrote in explaining his decision not to delay the election. "Nor is it appropriate for a federal district court to act as the state's chief health official by taking that step for them."

Read the ruling:
https://www.wispolitics.com/wp-content/uploads/2020/04/200402Order-1.pdf

-- Mayor Tom Barrett called it "extremely good news" that organizers of the Democratic National Convention chose to delay the gathering in Milwaukee until the week of August 17 due to the COVID-19 pandemic.

"I think we all recognize that increasingly it looked more and more difficult for us to host this convention during the week of July 13 through the 16th," Barrett said.

He said as excited as the city was about having the convention in July, its resources have been committed to addressing COVID-19 pandemic and the convention "immediately got moved to the back burner."

"By having this additional month of breathing room, we are hoping that this will allow us then to pivot once we are moving out of these turbulent waters and use this as a very, very important shot in the arm, as I said, to moving the community forward," Barrett said.

U.S. Rep. Mark Pocan also told reporters he backs the move.

"If they think that's the best guidance to put a convention on at this point, I think that's a good decision," the Town of Vermont Dem said on a conference call.

In a release explaining the move this morning, Democratic National Convention Committee CEO Joe Solmonese said organizers believe "the smartest approach is to take additional time to monitor how this situation unfolds."

AMERICAN OVERSIGHT

announces-date-change-in-response-to-unprecedented-coronavirus-outbreak/

-- Senate Minority Leader Jennifer Shilling is the fourth Senate Dem to announce they won't seek reelection this fall.

The La Crosse Dem, whose seat is targeted this fall by Republicans, said in her announcement it was time to put her family first after two decades in the Legislature.

Shilling said her two children are now in high school and middle school and "time with our boys at home is fading."

"I do not leave with regrets, I leave with wonder - wonder about the future, about what will be," Shilling said. "Wonder about what lies ahead, and a wonder of new ways that I will continue to be able to serve my community, and others."

Shilling, 50, beat then-GOP Sen. Dan Kapanke, of La Crosse, in a 2011 recall election to claim the Senate seat after 11 years in the Assembly. Her fellow Dem senators then elected her minority leader starting with the 2015 session as she navigated the caucus through the final term of GOP Gov. Scott Walker and the first two years of Dem Gov. Tony Evers.

Shilling beat Kapanke four years ago by 61 votes in a race that went to recount. Kapanke, who owns a collegiate summer baseball team in La Crosse, has already announced plans to again run for the seat, which he held from 2005 through his 2011 loss.

Kapanke sent his "heartfelt congratulations and respect" to Shilling, saying she "leaves a legacy of a distinguished career representing the hardworking people of Western Wisconsin."

Shilling joins Fred Risser, of Madison; Mark Miller, of Monona; and Dave Hansen, of Green Bay. Also, GOP Sen. Luther Olsen, of Ripon, has announced he won't run this fall.

Meanwhile, nine members of the Assembly have announced they won't be back after this year, either due to retirement or seeking another office.

In addition, four Milwaukee lawmakers are seeking local offices in Tuesday's election.

Two years ago, 20 lawmakers didn't run for reelection in fall 2018 to the seats they held in January 2017.

Read the release:
https://www.wispolitics.com/wp-content/uploads/2020/04/200402Shilling.pdf

AMERICAN OVERSIGHT

-- Speculation on who will run in Shilling's place immediately turned to Brad Pfaff, who lost his post as DATCP secretary last fall after the GOP Senate rejected his nomination by Gov. Tony Evers.

Pfaff ran for the then-open Senate seat in 2004, losing to Kapanke by 5 percentage points.

Pfaff later worked as the U.S. Department of Agriculture's Wisconsin Farm Service Agency executive director during the Obama administration. Before that, he worked as an aide to U.S. Rep. Ron Kind, D-La Crosse, and returned to the congressman's staff after leaving the Obama administration, serving as his deputy chief of staff.

He was raised on a dairy farm in northern La Crosse County and has a home in Onalaska.

-- Dem lawmakers today sent a letter to GOP leadership urging them to call the Legislature into session immediately to address the COVID-19 pandemic.

The letter thanked Assembly Speaker Robin Vos, R-Rochester, and Senate Minority Leader Scott Fitzgerald, R-Juneau, for their ongoing communication with Dem leadership and Gov. Tony Evers' administration during the crisis. It also said Dems recognize "now is not the time for partisan politics" and asked for cooperation in finding solutions.

It includes a list of proposals "that should have broad, bipartisan consensus," including:

*Expanded funding and staff for the Department of Health Services.

*Maximising federal resources by expanding Medicaid programs.

*Suspending the one-week waiting period for Unemployment Insurance and expanding the program to cover paid leave.

*Eviction protection for citizens and businesses.

*Deferral of sales tax payments for small businesses.

The letter included the names of 35 Assembly and 13 Senate Dems.

See the letter:

AMERICAN OVERSIGHT

-- The UW System Board of Regents today appointed Michael Alexander as the new UW-Green Bay chancellor.

The board unanimously approved Alexander today in its first entirely online regent meeting. Regent President Andrew Petersen in a statement called Alexander's efforts as UWGB provost "impressive and impactful."

"UWGB will be fortunate to have Michael's steady leadership, charisma, and intellect on campus as he moves into the chancellor role," Petersen said.

Alexander previously has served as provost and vice chancellor for academic affairs at UWGB since July 2019, and will assume his new position on May 1.

He replaces former Chancellor Gary Miller, who resigned from the position in September of last year to take a job as president of the University of Akron, Ohio. Alexander will earn a $250,000 salary in his new job.

See more:
https://www.wisconsin.edu/news/archive/michael-alexander-named-new-chancellor-of-uw-green-bay/

-- Congressional Dems want the November election to be conducted with mail-in ballots nationwide, according to U.S. Rep. Mark Pocan.

Speaking with reporters on a media call today, the Town of Vermont Dem said federal lawmakers from his party were pushing the option as a contingency for the presidential election in case the COVID-19 pandemic has not been contained by fall.

"We don't want to have any potential to screw that one up," he said.

Pocan said Dems tried to include the proposal in the third coronavirus relief package signed into law by President Trump last week. While it was ultimately not included, Pocan indicated he would "try to move that forward as an issue."

-- The 2nd District congressman conceded Joe Biden appeared to be the favorite based on national polling.

The most recent Marquette University Law School poll found 62 percent of voters back Biden while 34 percent support Bernie Sanders.

But Pocan, who has endorsed Sanders and chairs his Wisconsin campaign, urged voters to turn out in support of Vermont Independent. He said backing Sanders would

AMERICAN OVERSIGHT

ensure key issues -- including the Green New Deal and a $15 minimum wage -- remain at the forefront "whoever the inevitable nominee is."

He added he couldn't "think of anything that's highlighted the need for some sort of a Medicare-for-all healthcare system" than coronavirus pandemic.

"I think the best way to signal that support (for a Medicare-for-all system) is by voting for Bernie Sanders," he said.

None of the delegation's other three Dems has endorsed a presidential candidate.

-- The Wisconsin National Guard dispelled rumors that it's enforcing a COVID-19 quarantine and military shut-downs of health care facilities across the state.

In a statement last night, the Guard confirmed it has only mobilized 350 troops to state active duty in March to "support the state in a timely and efficient manner with anything it might request." This includes medical assistance and logistical help in the transportation and care of personal protective equipment.

Capt. Joe Trovato told WisPolitics.com coronavirus misinformation has popped up nationwide and that it could even be part of a foreign power's campaign "to sow fear in the American people."

"This is not a problem that's unique to Wisconsin by any means," Trovato said. "It's hard to say how prevalent it is in the community. We certainly get a lot of questions on social media channels."

Trovato said the guard will also help carry out Tuesday's spring election, per Gov. Tony Evers' order, by working the polls and delivering hand sanitizer, wipes and other protective materials.

Maj. Gen. Paul Knapp, the state's adjutant general, said last month in a video address that the Guard "is here to support you, the people of Wisconsin," and repeated people can trust it has Wisconsinites best interests at heart.

"We're always in a support role," Trovato said. "One of our core missions in the National Guard is to support civil authorities in times of emergency."

Trovato said 90 percent of Guard members aren't full-time soldiers, with troops living and working in communities across all 72 counties.

Subject: THU PM Update: Spring election results may not be known until mid-April after federal judge extends absentee ballot deadline

THU PM Update -- 2 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- Wisconsin may not know until mid-April who won the presidential primary or a seat on the state Supreme Court after a federal judge pushed back until April 13 the deadline for absentee ballots to be received and counted in the spring election.

Citing the COVID-19 pandemic -- and again bemoaning the failure of the Gov. Tony Evers and Legislature to delay the election as other states have -- U.S. Judge William Conley relaxed requirements for absentee ballots as Wisconsin voters have requested them in record numbers.

Conley refused to push back the election in today's ruling, finding it wouldn't be appropriate for a federal judge despite the failure of Capitol leaders to act in light of the

AMERICAN OVERSIGHT

health risks to both voters and poll workers.

Instead, he:

*extended until 4 p.m. April 13 the deadline for absentee ballots to be received so they can be counted for the election. State law normally requires those ballots to be returned by 8 p.m. on Election Day.

*pushed back to 5 p.m. tomorrow the deadline to request an absentee ballot. That deadline had been today.

*enjoined the state from requiring those voting absentee to have a witness sign the envelope in which they return the ballot if they are unable to do so safely. Those who don't include a witness signature on their ballot envelopes must include an affirmation or other statement why they weren't able to safely meet the requirement. It will be left to local clerks whether to accept the voter's reasons for not completing the witness certification requirement.

Conley also didn't add a new requirement for when ballots must be postmarked. That means ballots mailed after Tuesday's election will still count so long as local clerks receive them by the new April 13 deadline.

April 13 is also the deadline for municipal boards of canvas to certify their election results to the county. Conley noted in his ruling the Wisconsin Elections Commission indicated locals would still be able to meet that deadline if he pushed back the cut off for receiving absentee ballots to 4 p.m. that day.

State Dem Chair Ben Wikler praised the ruling as a "victory for voters, for public health, and for democracy itself." The state and national parties were among those who filed suit seeking changes to the election in light of the outbreak. Conley combined three lawsuits into one with today's ruling covering all of their requests.

Conley refused several requests, including one to suspend enforcement of voter ID.

The state and national Republican parties, which intervened in the suit, had asked him to stay any ruling so it could be appealed. But Conley declined, writing "the relief being granted is not of the sweeping nature sought by plaintiffs" and the most significant orders he issued don't kick in until Election Day.

The state GOP was still reviewing the ruling this afternoon, a spokeswoman said.

During a Wednesday hearing, Conley was harshly critical of Evers and the Legislature for not delaying the election as another dozen states have.

In today's ruling, he praised the "truly heroic efforts" of the Wisconsin Elections Commission, its staff and local clerks. He said those officials have been "improvising in

AMERICAN OVERSIGHT

real time" in the face of a burgeoning health crisis, the loss of poll workers, fear of sickness and inadequate resources.

He wrote the guv and Legislature appeared to be hoping those election officials and voters willing to ignore the health risks to themselves "will thread the needle to produce a reasonable voter turnout and no increase in the dissemination of COVID-19."

Conley suggested that outcome was unlikely.

"As much as the court would prefer that the Wisconsin Legislature and Governor consider the public health ahead of any political considerations, that does not appear in the cards," Conley wrote in explaining his decision not to delay the election. "Nor is it appropriate for a federal district court to act as the state's chief health official by taking that step for them."

https://www.wispolitics.com/wp-content/uploads/2020/04/200402Order-1.pdf

-- Mayor Tom Barrett called it "extremely good news" that organizers of the Democratic National Convention chose to delay the gathering in Milwaukee until the week of August 17 due to the COVID-19 pandemic.

"I think we all recognize that increasingly it looked more and more difficult for us to host this convention during the week of July 13 through the 16th," Barrett said.

He said as excited as the city was about having the convention in July, its resources have been committed to addressing COVID-19 pandemic and the convention "immediately got moved to the back burner."

"By having this additional month of breathing room, we are hoping that this will allow us then to pivot once we are moving out of these turbulent waters and use this as a very, very important shot in the arm, as I said, to moving the community forward," Barrett said.

U.S. Rep. Mark Pocan also told reporters he backs the move.

"If they think that's the best guidance to put a convention on at this point, I think that's a good decision," the Town of Vermont Dem said on a conference call.

In a release explaining the move this morning, Democratic National Convention Committee CEO Joe Solmonese said organizers believe "the smartest approach is to take additional time to monitor how this situation unfolds."

AMERICAN OVERSIGHT

announces-date-change-in-response-to-unprecedented-coronavirus-outbreak/

-- Senate Minority Leader Jennifer Shilling is the fourth Senate Dem to announce they won't seek reelection this fall.

The La Crosse Dem, whose seat is targeted this fall by Republicans, said in her announcement it was time to put her family first after two decades in the Legislature.

Shilling said her two children are now in high school and middle school and "time with our boys at home is fading."

"I do not leave with regrets, I leave with wonder - wonder about the future, about what will be," Shilling said. "Wonder about what lies ahead, and a wonder of new ways that I will continue to be able to serve my community, and others."

Shilling, 50, beat then-GOP Sen. Dan Kapanke, of La Crosse, in a 2011 recall election to claim the Senate seat after 11 years in the Assembly. Her fellow Dem senators then elected her minority leader starting with the 2015 session as she navigated the caucus through the final term of GOP Gov. Scott Walker and the first two years of Dem Gov. Tony Evers.

Shilling beat Kapanke four years ago by 61 votes in a race that went to recount. Kapanke, who owns a collegiate summer baseball team in La Crosse, has already announced plans to again run for the seat, which he held from 2005 through his 2011 loss.

Kapanke sent his "heartfelt congratulations and respect" to Shilling, saying she "leaves a legacy of a distinguished career representing the hardworking people of Western Wisconsin."

Shilling joins Fred Risser, of Madison; Mark Miller, of Monona; and Dave Hansen, of Green Bay. Also, GOP Sen. Luther Olsen, of Ripon, has announced he won't run this fall.

Meanwhile, nine members of the Assembly have announced they won't be back after this year, either due to retirement or seeking another office.

In addition, four Milwaukee lawmakers are seeking local offices in Tuesday's election.

Two years ago, 20 lawmakers didn't run for reelection in fall 2018 to the seats they held in January 2017.

Read the release:
https://www.wispolitics.com/wp-content/uploads/2020/04/200402Shilling.pdf

AMERICAN OVERSIGHT

-- Speculation on who will run in Shilling's place immediately turned to Brad Pfaff, who lost his post as DATCP secretary last fall after the GOP Senate rejected his nomination by Gov. Tony Evers.

Pfaff ran for the then-open Senate seat in 2004, losing to Kapanke by 5 percentage points.

Pfaff later worked as the U.S. Department of Agriculture's Wisconsin Farm Service Agency executive director during the Obama administration. Before that, he worked as an aide to U.S. Rep. Ron Kind, D-La Crosse, and returned to the congressman's staff after leaving the Obama administration, serving as his deputy chief of staff.

He was raised on a dairy farm in northern La Crosse County and has a home in Onalaska.

-- Dem lawmakers today sent a letter to GOP leadership urging them to call the Legislature into session immediately to address the COVID-19 pandemic.

The letter thanked Assembly Speaker Robin Vos, R-Rochester, and Senate Minority Leader Scott Fitzgerald, R-Juneau, for their ongoing communication with Dem leadership and Gov. Tony Evers' administration during the crisis. It also said Dems recognize "now is not the time for partisan politics" and asked for cooperation in finding solutions.

It includes a list of proposals "that should have broad, bipartisan consensus," including:

*Expanded funding and staff for the Department of Health Services.

*Maximising federal resources by expanding Medicaid programs.

*Suspending the one-week waiting period for Unemployment Insurance and expanding the program to cover paid leave.

*Eviction protection for citizens and businesses.

*Deferral of sales tax payments for small businesses.

The letter included the names of 35 Assembly and 13 Senate Dems.

See the letter:
https://www.wispolitics.com/wp-content/uploads/2020/04/200402-Dems.pdf

See coronavirus information and resources:
https://www.wispolitics.com/wisconsin-coronavirus-resources/

AMERICAN OVERSIGHT

-- The UW System Board of Regents today appointed Michael Alexander as the new UW-Green Bay chancellor.

The board unanimously approved Alexander today in its first entirely online regent meeting. Regent President Andrew Petersen in a statement called Alexander's efforts as UWGB provost "impressive and impactful."

"UWGB will be fortunate to have Michael's steady leadership, charisma, and intellect on campus as he moves into the chancellor role," Petersen said.

Alexander previously has served as provost and vice chancellor for academic affairs at UWGB since July 2019, and will assume his new position on May 1.

He replaces former Chancellor Gary Miller, who resigned from the position in September of last year to take a job as president of the University of Akron, Ohio. Alexander will earn a $250,000 salary in his new job.

See more:
https://www.wisconsin.edu/news/archive/michael-alexander-named-new-chancellor-of-uw-green-bay/

-- Congressional Dems want the November election to be conducted with mail-in ballots nationwide, according to U.S. Rep. Mark Pocan.

Speaking with reporters on a media call today, the Town of Vermont Dem said federal lawmakers from his party were pushing the option as a contingency for the presidential election in case the COVID-19 pandemic has not been contained by fall.

"We don't want to have any potential to screw that one up," he said.

Pocan said Dems tried to include the proposal in the third coronavirus relief package signed into law by President Trump last week. While it was ultimately not included, Pocan indicated he would "try to move that forward as an issue."

-- The 2nd District congressman conceded Joe Biden appeared to be the favorite based on national polling.

The most recent Marquette University Law School poll found 62 percent of voters back Biden while 34 percent support Bernie Sanders.

But Pocan, who has endorsed Sanders and chairs his Wisconsin campaign, urged voters to turn out in support of Vermont Independent. He said backing Sanders would

AMERICAN OVERSIGHT

ensure key issues -- including the Green New Deal and a $15 minimum wage -- remain at the forefront "whoever the inevitable nominee is."

He added he couldn't "think of anything that's highlighted the need for some sort of a Medicare-for-all healthcare system" than coronavirus pandemic.

"I think the best way to signal that support (for a Medicare-for-all system) is by voting for Bernie Sanders," he said.

None of the delegation's other three Dems has endorsed a presidential candidate.

-- The Wisconsin National Guard dispelled rumors that it's enforcing a COVID-19 quarantine and military shut-downs of health care facilities across the state.

In a statement last night, the Guard confirmed it has only mobilized 350 troops to state active duty in March to "support the state in a timely and efficient manner with anything it might request." This includes medical assistance and logistical help in the transportation and care of personal protective equipment.

Capt. Joe Trovato told WisPolitics.com coronavirus misinformation has popped up nationwide and that it could even be part of a foreign power's campaign "to sow fear in the American people."

"This is not a problem that's unique to Wisconsin by any means," Trovato said. "It's hard to say how prevalent it is in the community. We certainly get a lot of questions on social media channels."

Trovato said the guard will also help carry out Tuesday's spring election, per Gov. Tony Evers' order, by working the polls and delivering hand sanitizer, wipes and other protective materials.

Maj. Gen. Paul Knapp, the state's adjutant general, said last month in a video address that the Guard "is here to support you, the people of Wisconsin," and repeated people can trust it has Wisconsinites best interests at heart.

"We're always in a support role," Trovato said. "One of our core missions in the National Guard is to support civil authorities in times of emergency."

Trovato said 90 percent of Guard members aren't full-time soldiers, with troops living and working in communities across all 72 counties.

Subject: THU PM Update: Supreme Court race spending likely to top $9M once final figures reported

THU PM Update -- 9 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- The candidates and outside groups have already combined to spend nearly $8 million on this spring's state Supreme Court race, according to a WisPolitics.com review.

And that total is likely to zoom past $9 million if Dane County Judge Jill Karofsky and Supreme Court Justice Daniel Kelly spent all of the cash they'd banked at the end of the last reporting period along with the donations that kept rolling in over the final days of the race. The review also found when all is said and done, total spending by and on behalf of the candidates will be about equal.

That $9 million figure would top last year's race, which saw $8 million in spending between what candidate Brian Hagedorn and Lisa Neubauer reported to the state and the $4.3 million the Wisconsin Democracy Campaign tallied from outside groups.

AMERICAN OVERSIGHT

The WisPolitics.com review has tracked just over $5 million in outside spending on TV, digital ads, mailers, GOTV and other efforts to back Karfofsky and Kelly between Jan. 1 and Tuesday's election.

The WisPolitics.com review found Kaorfsky and her allies had combined to spend nearly $4.2 million, according to a check of her campaign finance reports and independent expenditure reports filed with the state Ethics Commission.

Karofsky finished the pre-election reporting period with $643,806 in the bank, and she reported $193,750 in contributions of $1,000 or more after the final reporting period. That gives here at least an additional $837,556 she could've spent over the final two weeks of the campaign.

That could push the total effort on her behalf past $5 million.

Meanwhile, Kelly and his allies had spent a combined $2.6 million between what he reported in his finance reports and what groups submitted to the Ethics Commission.

He also had $396,310 cash on hand to end the reporting period and raised another $273,228 in large donations reported to the Ethics Commission. That's another $669,538 to spend.

Those engaged in issue advocacy don't have to report their spending to the state, but a source provided TV buy information to WisPolitics.com showing the WMC Issues Mobilization Council putting about $1.2 million behind its ads on broadcast and cable TV knocking Karofsky.

That raises the pro-Kelly effort to about $3.8 million. Add in what Kelly had left to spend, and the overall effort on his behalf would hit just under $4.5 million.

What's more, the Wisconsin Alliance for Reform ran issues ads on digital platforms in the race knocking Karofsky. That likely helped even out the overall spending.

-- The more than $1.7 million Karofsky had spent on the race through late March was eclipsed by what A Better Wisconsin Together Political Fund reported on independent expenditures.

The new group's filings with the Ethics Commission totaled nearly $1.9 million between Jan. 1 and the general election.

The next biggest spender on Karofsky's behalf was the combined effort of the SEIU WI State Council and Service Employees International Union Committee on Political Education. The two groups dropped $406,505.

AMERICAN OVERSIGHT

Meanwhile, the $1.2 million WMC ad buy was the largest expenditure helping Kelly, who also spent nearly $1.2 million through the last reporting period. The next largest was the $897,488 that the Republican State Leadership Committee spent through its Judicial Fairness Initiative.

-- The Evers administration clarified today that churches and religious entities may still conduct services under his stay-at-home order, though those conducted inside must be limited to 10 people at a time.

Amid demands to make sure churches and synagogues can host services this week, the administration also said services can, for example, be offered in parking lots with congregants staying in their vehicles to avoid person-to-person contact.

The guv's statement also came after complaints that local law enforcement was trying to discourage services.

"To be clear, we are not asking law enforcement to supervise or take enforcement steps against religious gatherings," Evers wrote on Twitter. "Rather, law enforcement has been working hard to help congregations understand the order and take precautions to keep themselves and their members safe."

This week, Leg Council produced a memo in response to state Sen. Dave Craig, R-Big Bend, stating religious gatherings held in unconfined outdoor spaces will not be limited in the number of people allowed under the guv's order.

The memo says that the limit of 10 people or fewer applies only to gatherings held in a room or confined space, even if it's outside. As long as the outdoor space is not confined or considered a room, the limit doesn't apply.

Still, religious service attendees are being encouraged to follow standard social distancing guidelines as much as possible.

According to the memo, these rules apply for drive-up church services.

"The people of WI have no clear guidance from day-to-day on how to live their lives, run their biz, or worship God," Craig tweeted today. "We can't sit & refresh our Twitter feeds waiting for the latest vague edict from @GovEvers telling us how to live our lives. The Legislature must stop this madness!"

Before Evers' statement, the conservative Wisconsin Institute for Law and Liberty called on him to "clarify, correct and restrain" local government officials who have reportedly banned such services planned for this weekend. In response to the guv confirming churches can hold outdoor and open gatherings, WILL President and General Counsel Rick Esenberg said he hopes local officials take notice and "immediately cease" attempts to prohibit these services.

AMERICAN OVERSIGHT

WILL argues these local bans conflict with the order and with religious protections provided by the state constitution.

See the memo:
https://bit.ly/2y7akkk

-- Gov. Tony Evers will close a total of 40 state parks, forests and recreation areas to prevent damage and ensure social distancing, but one GOP lawmaker protested.

Evers cited unprecedented crowds, litter, vandalism and an abundance of caution as reasons for the closures, which start tomorrow and will remain in place until further notice.

Some of the closing locations include: Devil's Lake State Park; Big Foot Beach State Park; Kettle Moraine State Forest Lapham Peak; Blue Mound State Park; Mirror Lake State Park; Dells of the Wisconsin River State Natural Area; Richard Bong State Recreational Area; and Aztalan State Park.

"I wanted to keep state parks open for the public to enjoy during this challenging time which is why outdoor activity is listed as an essential activity under the Safer at Home order," Evers said in a statement. "Unfortunately, growing difficulty with ensuring social distancing compliance, dwindling cleaning supplies and mounting trash are some of the challenges faced by our state parks staff. We have to address the growing public health and safety concern and protect Wisconsinites."

The guv warned more parks could close if the large crowds and vandalism continue.

DNR Spokeswoman Sarah Hoye told WisPolitics.com multiple state parks have seen record-breaking attendance since the pandemic, all while still in the off-season.

Parks have reported tens of thousands of visitors on April 4-5 weekend alone. Harrington Beach State Park took in at least 5,600 visitors so far in April, while it on average receives only 9,695 for the whole month.

"Some of these areas there's trails that are narrow and people are not necessarily six feet apart and sometimes even shoulder-to-shoulder," Hoye said. "We just can't have that. We have to protect public health and safety."

DNR Secretary Preston Cole called Evers' park closures "a necessary step."

"We know the benefits to getting outdoors, but not doing this would put people's lives at risk," he said in a statement. "With the weather warming, we are seeing increases in visitors and a myriad of challenges surrounding social distancing."

AMERICAN OVERSIGHT

Hoye said the parks have seen vandalism and littering "all over the place." She said there have been reports of people stealing hand sanitizer canisters from bathroom walls, as well as graffiti on walls and signs in multiple parks.

All fees are waived for the state parks still open, plus all offices, visitor centers and non-essential buildings remain closed.

DNR urged people to "do their part" in the still-open parks by taking garbage and recyclables with them when they leave. Most parks and day-use areas don't have garbage or recycling bins, according to DNR.

Hoye said wardens will continue to patrol the parks to protect the wildlife and enforce the closures.

-- Rep. Scott Allen, R-Waukesha, said Evers had "gone too far" with today's announcement. He said Evers should have anticipated the increased popularity of the parks, because "what else is there for people to do?"

He recommended in a statement DNR reallocate its resources to accommodate the visitors instead of closing the parks.

Allen later told WisPolitics.com Wisconsinites have been "doing a really good job" with social distancing recommendations, and that they should be allowed some respite from staying at home now that "the evidence is clear" the infection curve is lowering in some areas.

"We're getting to the point where we need to start easing restrictions, not adding more," he said. "Give us a break. We don't need patronizing government afraid we'll get too close. This is the wrong time to punish us."

Meanwhile, the organization Hunter Nation quickly demanded Evers immediately reopen state public land, calling the move a violation of constitutional hunting rights just before the start of the spring turkey season.

"This is purely a political decision that is being made in a vacuum inside the walls of bureaucracy in Madison to pander to the fear mongers and elitists who don't support our outdoor lifestyle anyway," CEO Luke Hilgemann said. "Rather than rushing to close the parks due to increased activity, Governor Evers should work with local groups including hunt clubs, conservation groups and others who I'm sure would be willing and able to help maintain these vital public resources during this time."

Hoye said there are still areas in the state open for hiking, and turkey season is continuing "as planned." But she reiterated the guv's list is not "definitive" and things could change as DNR monitors the situation.

AMERICAN OVERSIGHT

"People have got to be smart about this, regardless of the complaints," she said. "Public health and safety is not a joke. COVID-19 is real. And we found, to stop it from spreading, you have to social distance."

-- In a separate order, Evers eased Department of Safety and Professional Services regulations on a wide range of industries and service groups, including construction, fire departments and certified public accountants, among others

The guv also announced the Army Corps of Engineers is working with his administration to develop an alternative care facility at State Fair Park. So-called ACFs are designed to support existing medical facilities.

The corps has been partnering with states around the country to build the facilities in response to the spread of COVID-19.

The corps signed a contract with Milwaukee's Gilbane and other local companies to construct the facility.

-- The state's district attorneys are asking the state Elections Commission to consider possible alternatives to requiring candidates to circulate nomination papers.

In a letter to the commission this week, the Wisconsin District Attorneys Association

AMERICAN OVERSIGHT

noted the process of circulating nomination papers, which begins Wednesday, "is contrary to the health emergency orders and science of how the virus spreads." The letter notes there are no options to circulate and certify the papers electronically and circulators currently are required to witness each signature in person.

WDAA President Louis Molepske, the Portage County DA and a former Dem lawmaker, told WisPolitics.com there are also questions for prosecutors on whether circulating papers are considered an essential function under the guv's stay-at-home order, not to mention the health risks to circulators and signers of being in close proximity during the process.

"It's basically a process that is a petri dish of problems," Molepske said.

Dean Knudson, Elections Commission chair and a former GOP lawmaker, said the agency plans to discuss the issue at tomorrow's meeting. Still, he said the commission lacks the power to issue emergency rules to make accommodations for candidates faced with circulating nomination papers amid the pandemic. He noted candidates still have the option to mail nomination papers to supporters, who could fill them out at home and mail them back.

Knudson said he wondered if lawmakers, who also must collect signatures, will be "highly motivated" to address the requirement in an upcoming legislative package to deal with the virus.

Still, Knudson also said he believes circulating nomination papers can't be hindered by the guv's order.

"That's a very different question than whether it's a smart thing to do right now. I'm not sure too many people want to do business as usual," Knudson said.

Current law requires signatures to be turned into the Elections Commission by June 1. Assembly candidates need a minimum of 200 valid signatures to qualify for the ballot, while those seeking a seat in the Senate need at least 400.

The WDAA request comes as lawmakers elsewhere are also grappling with the issue. A bipartisan group of candidates in Massachusetts asked the state's highest court to grant them relief from requirements they gather signatures during the pandemic to get on the fall ballot.

Read the WDAA letter:
https://www.wispolitics.com/2020/wdaa-letter/

-- A new update from the state Elections Commission shows an uptick in absentee ballot requests for the spring election, even though the deadline to seek them passed nearly a week ago.

AMERICAN OVERSIGHT

Still, the agency said that is because local clerks are still catching up on data entry.

That's also the reason the agency cited for the update showing about 70 municipalities that haven't reported sending or receiving any absentee ballots.

Today's notice says clerks in many smaller communities don't have direct access to the system to enter updates on absentee ballots, meaning they are relying on county clerks to do it for them.

"At this point, no one should assume that the clerks have not fulfilled requests based on the data (or lack of data) in the spreadsheet," the commission said.

Statewide, just over 99 percent of absentee ballots requested were mailed, according to the update. That left 12,064 ballots that hadn't been logged as mailed.

Florence County, in northern Wisconsin, reported 82.6 percent of the ballots requested had been mailed. Two communities were listed as not mailing any ballots even though a combined 33 had been requested from their residents.

See more:
https://elections.wi.gov/node/6839

-- The three remaining elections scheduled this year would be conducted almost entirely by mail-in ballot, under a proposal released today by Assembly Dems.

The proposal backed by the chamber's top Dems seeks to send every registered voter in the state an absentee ballot and remove the requirement for a witness signature. Polling locations would be closed to all except the disabled and those who struggle to read, write or understand English.

It would also suspend voter ID requirements for voting in 2020 elections and move the voter registration deadline back to five days before an election, matching the deadline in current law for registered voters to request an absentee ballot.

Calling the April 7 election "an avoidable tragedy" that forced voters "to make the impossible choice between risking their health and exercising their right to vote," Assembly Minority Leader Gordon Hintz said the move was urgently needed to "maximize voter accessibility."

"Moving to a Vote by Mail system will protect our democracy and keep Wisconsinites safe," the Oshkosh Dem said.

Republican legislative leaders were not immediately available to comment, but were opposed to implementing a wide-scale mail-in election in the days ahead of the April 7

AMERICAN OVERSIGHT

election.

Three elections are still scheduled for the remainder of the year, including: a May 12 special election for the 7th CD between Sen. Tom Tiffany, R-Minocqua, and Wausau school board member Tricia Zunker; a partisan primary on August 11; and the general election on Nov. 3.

The Dem legislation would provide a sum sufficient to cover additional postage and printing costs, $1 million to update the voter registration system to account for the extended deadline and $3 million in the next fiscal year for a public information campaign to promote the mail-in voting system this year.

See the release:
https://www.wispolitics.com/2020/rep-hintz-vote-by-mail-legislation-introduced/

See the bill:
https://www.wispolitics.com/wp-content/uploads/2020/04/200409VoteByMailBill.pdf

-- Marquette University will furlough approximately 250 employees to make up for a $15 million budget shortfall caused by the COVID-19 pandemic.

In a memo yesterday to staff, the Catholic private university in Milwaukee said an increase in costs due to COVID-19 and the refund of half a semester's worth of housing fees caused "financial strain" and forced its hand on the matter.

"Our future financial health depends on the demand for online Summer Studies, our ability to virtually recruit next year's incoming class, and how Marquette and other private universities will benefit from a government stimulus package," the memo read. "Sadly, the entire world is suffering from the devastating human and economic effects of the COVID-19 pandemic -- Marquette is not immune to these challenges."

Additionally, Marquette said it has suspended all university travel, reduced discretionary spending and suspended all nonessential hiring and merit increases.

The furlough begins after April 17, according to the memo. While those furloughed won't receive pay, they will retain benefits like medical, dental and vision insurance, as well as tuition remissions. Marquette said it would pay both employer and employee portions of insurance premiums throughout the pandemic.

Marquette said there may be "other significant decisions" down the road to mitigate the financial strain, if the virus' onslaught continues.

University spokeswoman Lynn Griffith told WisPolitics.com the memo would "serve as our statement on the matter."

AMERICAN OVERSIGHT

Read the memo:
https://www.marquette.edu/email/today/coronavirus-staff-4-08-20.php

-- One of U.S. Rep. Ron Kind's 3rd CD challengers is "stranded overseas" during the coronavirus pandemic.

Eau Claire businessman John Garske said his wife, Galina, had been teaching U.S. service members in Vilseck, Germany, and that a U.S. Department of Defense stop order blocked her and their son from returning to Wisconsin. So, he said he flew out to them instead.

"After communicating our specific situation, (DoD) are now telling me that I and my family are exempt from the stop movement order and we are scheduled to return to Wisconsin by the end of April, but this is a unique time," he said in a statement. "Even with the necessary cancelling of two fundraisers, our campaign continues to connect with residents in Western Wisconsin and that shows in our positive fundraising numbers this year."

He said his campaign, Garske for Congress, raised over $120,000 in contributions in the first quarter of 2020.

Garske is one of five Republicans who have launched a bid to challenge the longstanding western Wisconsin congressman.

Others include: Derrick Van Orden, a former Navy SEAL who grew up in southeastern Wisconsin and then moved back to the state after his military career; Brandon Cook, who wrote on his Facebook page he's running as a "common sense Conservative Republican;" Jessi Ebben, a public relations professional in Eau Claire; and Kevin Ruscher, who bills himself on his Facebook page as "an anti-Trump Republican" who has "never liked the guy."

See more:
https://www.wispolitics.com/wp-content/uploads/2020/04/200408GARSKE.pdf

-- Jeff Weber, president of the Wisconsin Federation of Nurses and Health Professionals, says Tuesday's in-person voting will "undoubtedly" lead to a spike in the COVID-19 infection rate.

"We have nurses and other health care workers who will die because of the work they do," Weber said during a webinar hosted by U.S. Rep. Gwen Moore, D-Milwaukee. "Everyday, we are on the front lines, and this pandemic is about to get far, far worse because of what we witnessed Tuesday."

Moore said holding in-person voting during the viral outbreak was "absolutely

AMERICAN OVERSIGHT

unnecessary," ripping the move as "one of the most cruel tricks pulled out of the Republican playbook in their very full quiver of tricks to suppress the vote."

She also thanked front-line health care workers for putting themselves in harm's way to keep people safe.

"The damage this will cause, we are not ready for it," Weber said. "We have barebones staffing, insufficient infrastructure and equipment, and a lack of care for the health care workers themselves."

Moore also touched on some of the factors leading to African-Americans in Wisconsin and elsewhere dying from the virus at higher rates than other groups.

"If you live in the inner city, you have housing conditions that don't necessarily allow you to social distance as well as other places," she said. "When you consider the dearth of health care, the lack of health insurance, the underlying health problems -- asthma, diabetes."

Despite these challenges, Moore sees an opportunity for positive change amid the current uncertainty. As more information is gathered about the disproportionate impacts of the virus, she said "it opens the door to a larger discussion about really addressing health care disparities."

She also bashed the Trump administration's handling of the pandemic, noting the federal government sent a large amount of personal protective equipment and ventilators to China early on in the outbreak.

"That was a very humanitarian thing, but it left us bereft of equipment while we were in denial," she said.

-- Wisconsin hospitals are currently treating 446 patients for COVID-19 with less than half of those in ICU, according to a new update from the Wisconsin Hospital Association.

The update includes stats such as the number of intensive care beds available -- about one-third of the 1,311 the state has -- and other information that Republican lawmakers have been clamoring for amid the pandemic.

For example, state hospitals also have 1,233 general use bedside ventilators with 330 ventilated patients.

A WHA spokesman said the summary is a collaboration with the state Department of Health Services to make the information more widely available.

See the update:

AMERICAN OVERSIGHT

https://www.wha.org/COVID19Update

-- Foxconn is reporting to the state that it employed enough workers last year to qualify for state tax credits under the agreement established under then-Gov. Scott Walker.

A letter sent from Foxconn to WEDC chief Missy Hughes says the company directly employed more than 550 full-time employees at the end of the 2019 reporting year. Plus the letter points to the company's economic impact on southeast Wisconsin, adding more than 100 different companies are involved with developing the Wisconn Valley Science and Technology Park.

The contract with the state shows Foxconn had to have a minimum of 520 full-time jobs in the state by the end of 2019 to qualify for job creation tax credits.WEDC expects to have an auditor's report on Foxconn's latest annual project summary in mid-May.

But the Evers administration has raised concerns about whether the project meets the terms of the contract. Since many details of the project have changed, the Evers administration has questioned if Foxconn can still earn tax credits under the agreement, regardless of how many jobs are created.

"Our conversations with Foxconn about aligning the contract with the project continue," Hughes said in a statement. "It is WEDC's objective to do so in order to support the project."

Once the independent audit is completed, WEDC will review that report along with the company's latest project overview. The process is expected to take several months.

See Foxconn's letter to Hughes: http://www.wisbusiness.com/wp-content/uploads/2020/04/Foxconn-letter-to-WEDC.pdf

THU PM Update -- 9 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- The candidates and outside groups have already combined to spend nearly $8 million on this spring's state Supreme Court race, according to a WisPolitics.com review.

And that total is likely to zoom past $9 million if Dane County Judge Jill Karofsky and Supreme Court Justice Daniel Kelly spent all of the cash they'd banked at the end of the last reporting period along with the donations that kept rolling in over the final days of the race. The review also found when all is said and done, total spending by and on behalf of the candidates will be about equal.

That $9 million figure would top last year's race, which saw $8 million in spending between what candidate Brian Hagedorn and Lisa Neubauer reported to the state and the $4.3 million the Wisconsin Democracy Campaign tallied from outside groups.

AMERICAN OVERSIGHT

The WisPolitics.com review has tracked just over $5 million in outside spending on TV, digital ads, mailers, GOTV and other efforts to back Karfofsky and Kelly between Jan. 1 and Tuesday's election.

The WisPolitics.com review found Kaorfsky and her allies had combined to spend nearly $4.2 million, according to a check of her campaign finance reports and independent expenditure reports filed with the state Ethics Commission.

Karofsky finished the pre-election reporting period with $643,806 in the bank, and she reported $193,750 in contributions of $1,000 or more after the final reporting period. That gives here at least an additional $837,556 she could've spent over the final two weeks of the campaign.

That could push the total effort on her behalf past $5 million.

Meanwhile, Kelly and his allies had spent a combined $2.6 million between what he reported in his finance reports and what groups submitted to the Ethics Commission.

He also had $396,310 cash on hand to end the reporting period and raised another $273,228 in large donations reported to the Ethics Commission. That's another $669,538 to spend.

Those engaged in issue advocacy don't have to report their spending to the state, but a source provided TV buy information to WisPolitics.com showing the WMC Issues Mobilization Council putting about $1.2 million behind its ads on broadcast and cable TV knocking Karofsky.

That raises the pro-Kelly effort to about $3.8 million. Add in what Kelly had left to spend, and the overall effort on his behalf would hit just under $4.5 million.

What's more, the Wisconsin Alliance for Reform ran issues ads on digital platforms in the race knocking Karofsky. That likely helped even out the overall spending.

-- The more than $1.7 million Karofsky had spent on the race through late March was eclipsed by what A Better Wisconsin Together Political Fund reported on independent expenditures.

The new group's filings with the Ethics Commission totaled nearly $1.9 million between Jan. 1 and the general election.

The next biggest spender on Karofsky's behalf was the combined effort of the SEIU WI State Council and Service Employees International Union Committee on Political Education. The two groups dropped $406,505.

AMERICAN OVERSIGHT

Meanwhile, the $1.2 million WMC ad buy was the largest expenditure helping Kelly, who also spent nearly $1.2 million through the last reporting period. The next largest was the $897,488 that the Republican State Leadership Committee spent through its Judicial Fairness Initiative.

-- The Evers administration clarified today that churches and religious entities may still conduct services under his stay-at-home order, though those conducted inside must be limited to 10 people at a time.

Amid demands to make sure churches and synagogues can host services this week, the administration also said services can, for example, be offered in parking lots with congregants staying in their vehicles to avoid person-to-person contact.

The guv's statement also came after complaints that local law enforcement was trying to discourage services.

"To be clear, we are not asking law enforcement to supervise or take enforcement steps against religious gatherings," Evers wrote on Twitter. "Rather, law enforcement has been working hard to help congregations understand the order and take precautions to keep themselves and their members safe."

This week, Leg Council produced a memo in response to state Sen. Dave Craig, R-Big Bend, stating religious gatherings held in unconfined outdoor spaces will not be limited in the number of people allowed under the guv's order.

The memo says that the limit of 10 people or fewer applies only to gatherings held in a room or confined space, even if it's outside. As long as the outdoor space is not confined or considered a room, the limit doesn't apply.

Still, religious service attendees are being encouraged to follow standard social distancing guidelines as much as possible.

According to the memo, these rules apply for drive-up church services.

"The people of WI have no clear guidance from day-to-day on how to live their lives, run their biz, or worship God," Craig tweeted today. "We can't sit & refresh our Twitter feeds waiting for the latest vague edict from @GovEvers telling us how to live our lives. The Legislature must stop this madness!"

Before Evers' statement, the conservative Wisconsin Institute for Law and Liberty called on him to "clarify, correct and restrain" local government officials who have reportedly banned such services planned for this weekend. In response to the guv confirming churches can hold outdoor and open gatherings, WILL President and General Counsel Rick Esenberg said he hopes local officials take notice and "immediately cease" attempts to prohibit these services.

AMERICAN OVERSIGHT

WILL argues these local bans conflict with the order and with religious protections provided by the state constitution.

See the memo:
https://bit.ly/2y7akkk

-- Gov. Tony Evers will close a total of 40 state parks, forests and recreation areas to prevent damage and ensure social distancing, but one GOP lawmaker protested.

Evers cited unprecedented crowds, litter, vandalism and an abundance of caution as reasons for the closures, which start tomorrow and will remain in place until further notice.

Some of the closing locations include: Devil's Lake State Park; Big Foot Beach State Park; Kettle Moraine State Forest Lapham Peak; Blue Mound State Park; Mirror Lake State Park; Dells of the Wisconsin River State Natural Area; Richard Bong State Recreational Area; and Aztalan State Park.

"I wanted to keep state parks open for the public to enjoy during this challenging time which is why outdoor activity is listed as an essential activity under the Safer at Home order," Evers said in a statement. "Unfortunately, growing difficulty with ensuring social distancing compliance, dwindling cleaning supplies and mounting trash are some of the challenges faced by our state parks staff. We have to address the growing public health and safety concern and protect Wisconsinites."

The guv warned more parks could close if the large crowds and vandalism continue.

DNR Spokeswoman Sarah Hoye told WisPolitics.com multiple state parks have seen record-breaking attendance since the pandemic, all while still in the off-season.

Parks have reported tens of thousands of visitors on April 4-5 weekend alone. Harrington Beach State Park took in at least 5,600 visitors so far in April, while it on average receives only 9,695 for the whole month.

"Some of these areas there's trails that are narrow and people are not necessarily six feet apart and sometimes even shoulder-to-shoulder," Hoye said. "We just can't have that. We have to protect public health and safety."

DNR Secretary Preston Cole called Evers' park closures "a necessary step."

"We know the benefits to getting outdoors, but not doing this would put people's lives at risk," he said in a statement. "With the weather warming, we are seeing increases in visitors and a myriad of challenges surrounding social distancing."

AMERICAN OVERSIGHT

Hoye said the parks have seen vandalism and littering "all over the place." She said there have been reports of people stealing hand sanitizer canisters from bathroom walls, as well as graffiti on walls and signs in multiple parks.

All fees are waived for the state parks still open, plus all offices, visitor centers and non-essential buildings remain closed.

DNR urged people to "do their part" in the still-open parks by taking garbage and recyclables with them when they leave. Most parks and day-use areas don't have garbage or recycling bins, according to DNR.

Hoye said wardens will continue to patrol the parks to protect the wildlife and enforce the closures.

-- Rep. Scott Allen, R-Waukesha, said Evers had "gone too far" with today's announcement. He said Evers should have anticipated the increased popularity of the parks, because "what else is there for people to do?"

He recommended in a statement DNR reallocate its resources to accommodate the visitors instead of closing the parks.

Allen later told WisPolitics.com Wisconsinites have been "doing a really good job" with social distancing recommendations, and that they should be allowed some respite from staying at home now that "the evidence is clear" the infection curve is lowering in some areas.

"We're getting to the point where we need to start easing restrictions, not adding more," he said. "Give us a break. We don't need patronizing government afraid we'll get too close. This is the wrong time to punish us."

Meanwhile, the organization Hunter Nation quickly demanded Evers immediately reopen state public land, calling the move a violation of constitutional hunting rights just before the start of the spring turkey season.

"This is purely a political decision that is being made in a vacuum inside the walls of bureaucracy in Madison to pander to the fear mongers and elitists who don't support our outdoor lifestyle anyway," CEO Luke Hilgemann said. "Rather than rushing to close the parks due to increased activity, Governor Evers should work with local groups including hunt clubs, conservation groups and others who I'm sure would be willing and able to help maintain these vital public resources during this time."

Hoye said there are still areas in the state open for hiking, and turkey season is continuing "as planned." But she reiterated the guv's list is not "definitive" and things could change as DNR monitors the situation.

AMERICAN OVERSIGHT

"People have got to be smart about this, regardless of the complaints," she said. "Public health and safety is not a joke. COVID-19 is real. And we found, to stop it from spreading, you have to social distance."

-- In a separate order, Evers eased Department of Safety and Professional Services regulations on a wide range of industries and service groups, including construction, fire departments and certified public accountants, among others

The guv also announced the Army Corps of Engineers is working with his administration to develop an alternative care facility at State Fair Park. So-called ACFs are designed to support existing medical facilities.

The corps has been partnering with states around the country to build the facilities in response to the spread of COVID-19.

The corps signed a contract with Milwaukee's Gilbane and other local companies to construct the facility.

-- The state's district attorneys are asking the state Elections Commission to consider possible alternatives to requiring candidates to circulate nomination papers.

In a letter to the commission this week, the Wisconsin District Attorneys Association

AMERICAN OVERSIGHT

noted the process of circulating nomination papers, which begins Wednesday, "is contrary to the health emergency orders and science of how the virus spreads." The letter notes there are no options to circulate and certify the papers electronically and circulators currently are required to witness each signature in person.

WDAA President Louis Molepske, the Portage County DA and a former Dem lawmaker, told WisPolitics.com there are also questions for prosecutors on whether circulating papers are considered an essential function under the guv's stay-at-home order, not to mention the health risks to circulators and signers of being in close proximity during the process.

"It's basically a process that is a petri dish of problems," Molepske said.

Dean Knudson, Elections Commission chair and a former GOP lawmaker, said the agency plans to discuss the issue at tomorrow's meeting. Still, he said the commission lacks the power to issue emergency rules to make accommodations for candidates faced with circulating nomination papers amid the pandemic. He noted candidates still have the option to mail nomination papers to supporters, who could fill them out at home and mail them back.

Knudson said he wondered if lawmakers, who also must collect signatures, will be "highly motivated" to address the requirement in an upcoming legislative package to deal with the virus.

Still, Knudson also said he believes circulating nomination papers can't be hindered by the guv's order.

"That's a very different question than whether it's a smart thing to do right now. I'm not sure too many people want to do business as usual," Knudson said.

Current law requires signatures to be turned into the Elections Commission by June 1. Assembly candidates need a minimum of 200 valid signatures to qualify for the ballot, while those seeking a seat in the Senate need at least 400.

The WDAA request comes as lawmakers elsewhere are also grappling with the issue. A bipartisan group of candidates in Massachusetts asked the state's highest court to grant them relief from requirements they gather signatures during the pandemic to get on the fall ballot.

Read the WDAA letter:
https://www.wispolitics.com/2020/wdaa-letter/

-- A new update from the state Elections Commission shows an uptick in absentee ballot requests for the spring election, even though the deadline to seek them passed nearly a week ago.

AMERICAN OVERSIGHT

Still, the agency said that is because local clerks are still catching up on data entry.

That's also the reason the agency cited for the update showing about 70 municipalities that haven't reported sending or receiving any absentee ballots.

Today's notice says clerks in many smaller communities don't have direct access to the system to enter updates on absentee ballots, meaning they are relying on county clerks to do it for them.

"At this point, no one should assume that the clerks have not fulfilled requests based on the data (or lack of data) in the spreadsheet," the commission said.

Statewide, just over 99 percent of absentee ballots requested were mailed, according to the update. That left 12,064 ballots that hadn't been logged as mailed.

Florence County, in northern Wisconsin, reported 82.6 percent of the ballots requested had been mailed. Two communities were listed as not mailing any ballots even though a combined 33 had been requested from their residents.

See more:
https://elections.wi.gov/node/6839

-- The three remaining elections scheduled this year would be conducted almost entirely by mail-in ballot, under a proposal released today by Assembly Dems.

The proposal backed by the chamber's top Dems seeks to send every registered voter in the state an absentee ballot and remove the requirement for a witness signature. Polling locations would be closed to all except the disabled and those who struggle to read, write or understand English.

It would also suspend voter ID requirements for voting in 2020 elections and move the voter registration deadline back to five days before an election, matching the deadline in current law for registered voters to request an absentee ballot.

Calling the April 7 election "an avoidable tragedy" that forced voters "to make the impossible choice between risking their health and exercising their right to vote," Assembly Minority Leader Gordon Hintz said the move was urgently needed to "maximize voter accessibility."

"Moving to a Vote by Mail system will protect our democracy and keep Wisconsinites safe," the Oshkosh Dem said.

Republican legislative leaders were not immediately available to comment, but were opposed to implementing a wide-scale mail-in election in the days ahead of the April 7

AMERICAN OVERSIGHT

election.

Three elections are still scheduled for the remainder of the year, including: a May 12 special election for the 7th CD between Sen. Tom Tiffany, R-Minocqua, and Wausau school board member Tricia Zunker; a partisan primary on August 11; and the general election on Nov. 3.

The Dem legislation would provide a sum sufficient to cover additional postage and printing costs, $1 million to update the voter registration system to account for the extended deadline and $3 million in the next fiscal year for a public information campaign to promote the mail-in voting system this year.

See the release:
https://www.wispolitics.com/2020/rep-hintz-vote-by-mail-legislation-introduced/

https://www.wispolitics.com/wp-content/uploads/2020/04/200409VoteByMailBill.pdf

-- Marquette University will furlough approximately 250 employees to make up for a $15 million budget shortfall caused by the COVID-19 pandemic.

In a memo yesterday to staff, the Catholic private university in Milwaukee said an increase in costs due to COVID-19 and the refund of half a semester's worth of housing fees caused "financial strain" and forced its hand on the matter.

"Our future financial health depends on the demand for online Summer Studies, our ability to virtually recruit next year's incoming class, and how Marquette and other private universities will benefit from a government stimulus package," the memo read. "Sadly, the entire world is suffering from the devastating human and economic effects of the COVID-19 pandemic -- Marquette is not immune to these challenges."

Additionally, Marquette said it has suspended all university travel, reduced discretionary spending and suspended all nonessential hiring and merit increases.

The furlough begins after April 17, according to the memo. While those furloughed won't receive pay, they will retain benefits like medical, dental and vision insurance, as well as tuition remissions. Marquette said it would pay both employer and employee portions of insurance premiums throughout the pandemic.

Marquette said there may be "other significant decisions" down the road to mitigate the financial strain, if the virus' onslaught continues.

University spokeswoman Lynn Griffith told WisPolitics.com the memo would "serve as our statement on the matter."

AMERICAN OVERSIGHT

Read the memo:
https://www.marquette.edu/email/today/coronavirus-staff-4-08-20.php

-- One of U.S. Rep. Ron Kind's 3rd CD challengers is "stranded overseas" during the coronavirus pandemic.

Eau Claire businessman John Garske said his wife, Galina, had been teaching U.S. service members in Vilseck, Germany, and that a U.S. Department of Defense stop order blocked her and their son from returning to Wisconsin. So, he said he flew out to them instead.

"After communicating our specific situation, (DoD) are now telling me that I and my family are exempt from the stop movement order and we are scheduled to return to Wisconsin by the end of April, but this is a unique time," he said in a statement. "Even with the necessary cancelling of two fundraisers, our campaign continues to connect with residents in Western Wisconsin and that shows in our positive fundraising numbers this year."

He said his campaign, Garske for Congress, raised over $120,000 in contributions in the first quarter of 2020.

Garske is one of five Republicans who have launched a bid to challenge the longstanding western Wisconsin congressman.

Others include: Derrick Van Orden, a former Navy SEAL who grew up in southeastern Wisconsin and then moved back to the state after his military career; Brandon Cook, who wrote on his Facebook page he's running as a "common sense Conservative Republican;" Jessi Ebben, a public relations professional in Eau Claire; and Kevin Ruscher, who bills himself on his Facebook page as "an anti-Trump Republican" who has "never liked the guy."

See more:
https://www.wispolitics.com/wp-content/uploads/2020/04/200408GARSKE.pdf

-- Jeff Weber, president of the Wisconsin Federation of Nurses and Health Professionals, says Tuesday's in-person voting will "undoubtedly" lead to a spike in the COVID-19 infection rate.

"We have nurses and other health care workers who will die because of the work they do," Weber said during a webinar hosted by U.S. Rep. Gwen Moore, D-Milwaukee. "Everyday, we are on the front lines, and this pandemic is about to get far, far worse because of what we witnessed Tuesday."

Moore said holding in-person voting during the viral outbreak was "absolutely

AMERICAN OVERSIGHT

unnecessary," ripping the move as "one of the most cruel tricks pulled out of the Republican playbook in their very full quiver of tricks to suppress the vote."

She also thanked front-line health care workers for putting themselves in harm's way to keep people safe.

"The damage this will cause, we are not ready for it," Weber said. "We have barebones staffing, insufficient infrastructure and equipment, and a lack of care for the health care workers themselves."

Moore also touched on some of the factors leading to African-Americans in Wisconsin and elsewhere dying from the virus at higher rates than other groups.

"If you live in the inner city, you have housing conditions that don't necessarily allow you to social distance as well as other places," she said. "When you consider the dearth of health care, the lack of health insurance, the underlying health problems -- asthma, diabetes."

Despite these challenges, Moore sees an opportunity for positive change amid the current uncertainty. As more information is gathered about the disproportionate impacts of the virus, she said "it opens the door to a larger discussion about really addressing health care disparities."

She also bashed the Trump administration's handling of the pandemic, noting the federal government sent a large amount of personal protective equipment and ventilators to China early on in the outbreak.

"That was a very humanitarian thing, but it left us bereft of equipment while we were in denial," she said.

-- Wisconsin hospitals are currently treating 446 patients for COVID-19 with less than half of those in ICU, according to a new update from the Wisconsin Hospital Association.

The update includes stats such as the number of intensive care beds available -- about one-third of the 1,311 the state has -- and other information that Republican lawmakers have been clamoring for amid the pandemic.

For example, state hospitals also have 1,233 general use bedside ventilators with 330 ventilated patients.

A WHA spokesman said the summary is a collaboration with the state Department of Health Services to make the information more widely available.

See the update:

AMERICAN OVERSIGHT

https://www.wha.org/COVID19Update

-- Foxconn is reporting to the state that it employed enough workers last year to qualify for state tax credits under the agreement established under then-Gov. Scott Walker.

A letter sent from Foxconn to WEDC chief Missy Hughes says the company directly employed more than 550 full-time employees at the end of the 2019 reporting year. Plus the letter points to the company's economic impact on southeast Wisconsin, adding more than 100 different companies are involved with developing the Wisconn Valley Science and Technology Park.

The contract with the state shows Foxconn had to have a minimum of 520 full-time jobs in the state by the end of 2019 to qualify for job creation tax credits.WEDC expects to have an auditor's report on Foxconn's latest annual project summary in mid-May.

But the Evers administration has raised concerns about whether the project meets the terms of the contract. Since many details of the project have changed, the Evers administration has questioned if Foxconn can still earn tax credits under the agreement, regardless of how many jobs are created.

"Our conversations with Foxconn about aligning the contract with the project continue," Hughes said in a statement. "It is WEDC's objective to do so in order to support the project."

Once the independent audit is completed, WEDC will review that report along with the company's latest project overview. The process is expected to take several months.

See Foxconn's letter to Hughes: http://www.wisbusiness.com/wp-content/uploads/2020/04/Foxconn-letter-to-WEDC.pdf

AMERICAN OVERSIGHT

April 8, 2020

Dear Governor Evers:

In the last month you have had to make very difficult decisions to keep us all safe from the coronavirus pandemic. Your Safer at Home Order issued on March 24th has helped to keep us safe and flatten the curve. Taverns and restaurants have been effectively shut down since the March 17th Executive Order. While we understand the need for the Executive Orders they have caused severe economic hardship to the hospitality industry. Supper clubs, taverns and restaurants will have been closed to regular business for 38 days when the Safer at Home Order expires on April 24th.

No businesses have suffered during the pandemic more than the hospitality industry. Since March 1, the restaurant and tavern industry in the U.S. has lost more than three million jobs and $25 billion in sales. Despite the aid offered by the CARE Act, Laurent Grandet, an analyst at investment banker Guggenheim, estimates that 20% of bars and restaurants won't reopen. Overall, Moody has revised its 2020 forecast for industry sales from a 2% to 4% growth to a 10% decline. Estimates that once fully calculated, the unemployment rate within the hospitality industry will exceed the rate during the Great Depression of 24.9%.

The impact is even greater in Wisconsin given the number of licensed premises. On premise retailers provide over 120,000 jobs and contribute over $5 billion to the state's economy generating millions in tax revenue and license fees at the federal, state and local level.

The safety of our customers, employees, family and friends is of our utmost concern as we prepare to welcome them back to our supper clubs, restaurants and taverns on April 24th. Today, thousands of businesses are currently operating safely under the Safer at Home Order. It is critical the thousands of businesses in the hospitality industry and our employees get safely back to work.

We want to coordinate our efforts with you and Secretary Palm to ensure we have a statewide uniform standard in place to continue to practice social distancing to protect our employees and customers. This process is already working well at the thousands of businesses that remain open in Wisconsin during the Safer at Home Order. Wisconsin's hospitality industry is ready to safely welcome back our customers.

AMERICAN OVERSIGHT

Our Members understand the role they were called on to help defeat this virus. However, there is no sugar coating the fact the tremendous economic toll it has taken on the industry and its employees, many are at the end of their economic rope.

The hospitality industry needs a financial bridge to survive. Wisconsin received $1.9 billion under the CARE Act to help repair our state's economy. The hospitality industry did its part to help keep people safe during this health emergency and now the state must step up and do its part to help small business survive this economic calamity.

We need your help. Using a small portion of the CARE Act revenue, we urge you to establish a tax free $25,000 Hospitality Bridge Grant for Wisconsin's supper club, tavern and restaurant owners. The $25,000 grant represents an average of lost revenue for 38 days under the Executive Orders. The Hospitality Bridge Grant will allow supper clubs, taverns and restaurants to pay their bills and stay in business while continuing to provide jobs and contribute to the local state and federal tax base.

We are thankful for the thousands of health care workers on the front lines fighting this pandemic. The importance of their work and the steps you have taken have helped to effectively fight this deadly virus in Wisconsin. With the April 24th expiration of the Safer at Home Order two weeks away the employers and employees of the hospitality industry are ready to get back to work. With the financial help of federal and state government the hospitality industry can continue to be a strong component of Wisconsin's economy.

Sincerely,

Chris Marsicano, President

The Madison Club

From WisPolitics.com ...

-- Challenger Jill Karofsky outraised Justice Daniel Kelly more than 3-to-1 over the past six weeks, fueled in part by nearly $1.3 million in donations from the state Democratic Party, according to a WisPolitics.com check of their campaign finance reports.

AMERICAN OVERSIGHT

Karofsky, a Dane County judge, reported raising nearly $2 million between Feb. 4 and March 23. She spent more than $1.4 million and had $643,806 in the bank.

Over the past dozen years, the previous best haul had been $866,030 in a pre-election period for a state Supreme Court race.

Kelly, meanwhile, raised $591,790, spent $658,344 and had $396,310 cash on hand to close the reporting period.

Kelly reported $65,380 in donations from the state GOP.

Meanwhile, the Dem contributions to Karofsky included $314,969 in in-kind donations covering consulting fees, IT costs, online ads and polling. The rest of the party's backing came through transfers totaling $973,000 for the period.

The donations mark a significant change from past Supreme Court races, when the state GOP has been a more active participant in direct giving to a candidate. In the 2018 race, for example, the Republican Party of Wisconsin was the biggest donor to Michael Screnock's campaign, giving him $412,905 in a losing cause. In that race, the Dem Party made about $10,000 in in-kind donations to Rebecca Dallet as she won an open seat.

Karofsky also has knocked Kelly in this year's race, because he headquartered his campaign out of the state GOP headquarters. The incumbent's report shows Kelly paid the state GOP for office rent, staff wages and mailing service.

See Karofsky's cover sheet:

-- The state Dem Party raised $3.4 million during the six-week pre-election period, more than 10 times what its GOP counterpart pulled in.

The state GOP reported raising $312,643 during the period, spending $267,098 and finishing with $700,230 in the bank.

The Dem Party, meanwhile, spent $1.2 million and finished with nearly $4 million in the bank.

The state GOP's biggest donation was $100,000 from Beloit billionaire Diane Hendricks.

AMERICAN OVERSIGHT

Meanwhile, the Dem Party reported eight donations of at least $100,000 with the largest contribution of $900,000 from Karla Jurvetson, a California doctor.

Other notable donations included $490,000 from Dem megadonor George Soros and $250,000 from LinkedIn founder Reid Hoffman. Elise Lawson, a Madison surgeon, and Sage Weil, who lives in Madison and has founded tech companies, each gave $240,000.

TOP HEADLINES

DHS: 1,221 Confirmed COVID-19 Cases In Wisconsin
19 People Have Died: 109 more cases, 1 more death since Sunday. DHS Sec. Palm at presser announced 15,856 negative tests - 694 fewer than DHS announced over the weekend, now excludes non-residents and duplicated results. Rehash Evers' Safer-at-home" order. Evers and Palm at presser urged continued home staying. Evers: "Stay the course, Wisconsin. The more we all stay safer at home, the sooner we can get

through the worst of this. ... "I'm sure many of us would like to wake up from this nightmare tomorrow morning and say it never happened, but the responsible thing is to plan for the worse and hope for the best." Evers' office also announced a new public-private partnership -- with Exact Sciences, Marshfield Clinic Health System, Promega and UW Health -- to double COVID-19 testing capacity to 3-4K/day. https://www.wpr.org/dhs-1-221-confirmed-covid-19-cases-wisconsin

State Works To Gather Needed Medical Supplies As Coronavirus 'Peak' Looms
... state submitted a request two weeks ago to get Wisconsin's share of these supplies from the Strategic National Stockpile, which includes ... 54,709 N95 respirators, 130,326 surgical masks, 24,816 face shields, 20,223 surgical gowns, 104 coveralls, 72,044 gloves ... working at the state and regional level to purchase supplies and equipment needed, such as ventilators ... "We're headed into the worst of this, folks, and the need is only going to get greater," Evers said Monday during a live video press conference. U-Wash. Analysis found WI adequate n total hospital beds but short about 400 ICU beds, short 45 ventilators when cases peak about April 26. DHS Dr. Westergard said analysis tells worst-best case scenarios. State analysis predicted 22K positives, 440-1,500 deaths, found 2,500 ICU beds, 1,215 ventilators [as GE Healthcare ramps up production.] Rehash Evers' increasingly restrictive responses since March 12. https://www.wpr.org/state-works-gather-needed-medical-supplies-coronavirus-peak-looms

Evers calls for agreement on emergency legislation amid skyrocketing UI claims
... as the fallout from the COVID-19 pandemic prompted more than 1.5 million calls last week ... as workers filed > 115K initial UI claims last week and as Evers and Republicans have so far been unsuccessful in coming to an agreement on emergency legislation ... hopes Republican leaders will come into session "as soon as possible." ... seeking ... to waive Wisconsin's one-week waiting period [as Sen. Jacque has proposed] ... already using his authority to try to purchase 10,000 ventilators and 1 million protective face masks. Last week Evers proposed a $700 million legislative package [rejected by Vos, Fitzgerald] ... An Evers spokeswoman said the governor would soon introduce a second bill dealing with more issues the state will need to sort out in light of COVID-19. ... "Despite the disagreement over the weekend, we're continuing to make progress on a bill," Fitzgerald said. ... In a statement ... expects the Senate will vote in virtual session on emergency legislation "in the next couple weeks." ... [Vos] said legislative action will need to be taken, including a request for an [CMS] emergency waiver ... for flexibilities ... [DWD] working to accommodate the explosion in calls, which are averaging 160 per second. ... state is also working with the U.S. Army Corps of Engineers to establish voluntary isolation centers and field hospitals ... [more on expanded testing partnership] ... [DHS Dr. Westergaard said stayhome order is working] "We're seeing a slower curve." ... As of Monday, local election officials have received 883,293 absentee ballot requests ... federal judge could rule later this week on three lawsuits ... [Madison brief asked] court to delay the election for at least three weeks and provide that all office holders remain in their posts until their successors are elected ... [WI Supreme Court also weighing primary jurisdiction in case against Madison, Milwaukee clerks.]

WI preps for possible next stage of coronavirus spread with more testing, scouting locations for response
... Evers announced Monday that the state is launching a public-private partnership with Exact Sciences, Marshfield Clinic Health System, Promega and UW Health. ...to bring additional testing capacity. ... To prepare for a large-scale response to the COVID-19 outbreak, the Army Corps of Engineers on Monday toured several locations throughout Milwaukee, including the Wisconsin Center. ... "These visits are part of the planning process; they're not an indication we'll be using any location," said Wisconsin Emergency Management spokesman Andrew Beckett. ... Ald. Khalif Rainey on Monday called on the city's health commissioner to order that water and power be shut off to nonessential businesses that violate emergency orders requiring that they close due to the coronavirus pandemic. ... Police in nearby West Allis cracked down on Hobby Lobby for being a nonessential business that remained open in violation of Evers' order. ... [DOC] on Monday updated its total count of infected workers to eight ... no inmates have tested positive at any prison or detention facility it oversees. Two Dane County sheriff's deputies working in the jail in Madison have also tested positive ... staff member at a nursing home in Wausau tested positive ... [Marathon Co. gets 2nd case, FdL Co. has second death] ... Hunger Task Force announced Monday that it is no longer accepting food donations from the public and has canceled all volunteer shifts. ... Community Advocates has created a special help line and email address to assist people who cannot pay rent or are encountering other housing problems.
https://www.jsonline.com/story/news/2020/03/30/5089808002/

UW-Madison will be a clinical trial site for a coronavirus treatment that uses plasma from recovered patients
... UW-Madison this weekend joined the National COVID-19 Convalescent Plasma Project ... more than 100 researchers and 40 large hospitals in 20 states are involved ... "We brought in the United Kingdom over the weekend. Ireland, too," said [Johns Hopkins'] Casadevall, one of the project's organizers... [Mayo's] Joyner stressed that researchers will see some preliminary results on the effectiveness of plasma well before clinical trials actually begin, possibly within 36 to 48 hours. ... [UW Health prof. Hartman] said at least five other UW doctors will be involved, covering infectious disease, transfusion medicine, critical care medicine and internal medicine. ... expressed faith in the use of plasma, saying, "I think we can be very hopeful in that it has exhibited success with previous coronaviruses including SARS (Severe Acute Respiratory Syndrome)." ... Federal Express will be working with the blood banks including The New York Blood Center. Amazon Web Services and Michigan State University Information Technology developed the project's website. ... Joyner praised the doctors, nurses and respiratory therapists who have ... "become sort of like the Packers offensive line."
https://www.jsonline.com/story/news/2020/03/30/5087276002/

2 Dane County deputies become infected with COVID-19 coronavirus
... ages 35 and 24 ... both recently worked in the county jail ... first deputy ... had worked directly with the two inmates who tested positive ... are self-isolating at their homes.

AMERICAN OVERSIGHT

Other deputies who may have had contact with those who have tested positive for COVID-19 are being monitored for symptoms ... Jail staff are continuing to practice "preventive measures" ... [Sheriff] Mahoney said. "What is different during this pandemic, is that the danger is oftentimes taken home to their families and loved ones. That is exactly what makes these men and women heroes."

Wisconsin Colleges To Refund Tens Of Millions Of Dollars To Students Due To COVID-19
UW Systems VP Cramer estimated their 13 universities and branch campuses will refund around $78M, "That's about half of the revenue for residents halls and food service for spring semester." Outreach to all 4-yr campuses found UWGB refunding least at $2.1M, UWL refunding $5.2M, UWSP $3.8M, UWM $7.5M. UWL's Hetzel said revenue will be recouped by delaying some renovations. UWSP's Thompson said refunds will eat into the campus' auxiliary reserves, complicating future mechanical issues, not holding his breath on federal stimulus, "If we get it, that would be great. But I'm planning like there's no money coming our way." American Council on Education Pres. Mitchel: "the assistance included in the measure for students and institutions is far below what is required to respond to the financial disaster confronting them." Viterbo's Temple discusses "substantial" refunds for over 500 students. LU's Anselment said trimesters permit them to exclude charges for the upcoming term rather than refunding, "it's a substantial financial hit. ... But our endowment started in a pretty strong position and it gives us some flexibility in these challenging times."

Exact Sciences rescinds job offers from 14 Urban League training grads amid pandemic
... were set to start work in April ... spokesman Scott Larrivee said the company is "unable to move ahead" ... all departments are being asked to adjust hiring plans going forward. ... will keep in touch with the individuals as hiring needs evolve. ... "These graduates have skills that are highly in demand, and the Urban League is working to quickly connect them with opportunities at local health care employers. ... We are disappointed," [League CEO] Anthony said.
https://madison.com/wsj/8eeceb2f-7027-54fe-b48d-fa9f768fa387.html

Advocates seek new ways to promote census amid pandemic
... Library officials plan "to hit the ground running" by offering similar services, Zook said, as soon as they get the all-clear to reopen from Gov. Tony Evers, who last week imposed a Safer at Home order that requires Wisconsin residents to stay at home until April 24 unless they are conducting essential activities. ... Though coronavirus-related restrictions have put a damper on efforts to promote census participation, Chippewa Valley residents nonetheless are off to a strong start. ... As of Sunday, the national self-response rate was 34.7%, while Wisconsin led the nation at 42.7% and several area counties exceeded the state rate. Eau Claire County was tied with Outagamie County at 49.8% for the fourth-highest rate among the state's 72 counties behind Ozaukee,

AMERICAN OVERSIGHT

Calumet and Waukesha. Chippewa County had a self-response rate of 44.6%, and Dunn County was at 43.6%, according to a Census Bureau response tracking tool.

Wisconsin Academy of Physician Assistants

From WisPolitics.com ...

-- The Wisconsin Technology Council is asking Gov. Tony Evers to take a "broad view" of essential business in the state for his stay home order to mitigate the

AMERICAN OVERSIGHT

spread of coronavirus.

WTC President Tom Still in a statement suggested the guv account for all companies "whose contributions can bolster the COVID-19 fight," including healthcare suppliers and tech startups.

Evers yesterday tweeted that he would today issue a "safer at home" order banning work travel for all "non-essential" businesses. He said more details on the measure would come out today, but that travel for businesses such as grocery stores or many in the healthcare industry could continue.

GOP legislative leaders have knocked the guv for creating "mass amounts of confusion" on the rollout's details.

See Evers' tweets:
https://twitter.com/GovEvers/status/1242097501575901187

See the release:
https://www.wispolitics.com/wp-content/uploads/2020/03/200323WTC.pdf

-- Ahead of Evers' announcement, GOP state Sen. Dave Craig is calling for new legislative oversight if future orders are issued telling Wisconsinites to stay home.

Along with requiring legislative approval of a shelter-in-place order, the Big Bend Republican is calling for legislative passive review of any emergency declaration after 30 days and an affirmative vote for one lasting longer than 60 days.

He also wants new steps before banning some gatherings and an immediate report to the Legislature on arrests for mass gathering violations.

"The constitution was not designed to be disregarded in a time of crisis, in fact, it was specifically designed to be most valuable and applicable during times of crisis when liberties are most at risk," Craig said.

TOP HEADLINES

Governor To Issue 'Stay-At-Home' Order For Wisconsin
... Evers announced Monday he would issue a "stay-at-home" order Tuesday in an effort to slow the spread of the new coronavirus. ... Among Wisconsin's neighboring states, Illinois issued a stay-at-home order last week and Michigan Gov. Gretchen Whitmer issued a stay-at-home order Monday. Minnesota and Iowa have yet to do so. ... "I know this has been difficult and has disrupted the lives of people across our state," Evers said. "That's why issuing a #SaferAtHome order isn't something I thought we'd have to do, and it's not something I take lightly. But here's the bottom line: folks need to start taking this seriously. ... People across our state are still out and about unnecessarily that are putting our friends, our neighbors, and our communities at risk," Evers tweeted. "Please #StayHome and help us save lives. ... "We also need folks to limit their interactions to the same people, not different small groups. Shrinking your circle of interactions will help prevent the spread of COVID-19. Unfortunately, that means no sleepovers, no play dates, and no dinner parties with friends and neighbors." ... Mayor Tom Barrett said his city would issue its own stay-at-home order ... effect[ive] at 12:01 a.m. Wednesday. "Even though they may feel invincible, this is a community-wide problem," Barrett said. ... "We're never going to have enough police officers," Barrett said. "We got reports over the weekend of people congregating around bars, around liquor stores and restaurants. That's exactly what we don't want to see happen. Our first goal is to have people comply without law enforcement being involved."

Report: Wisconsin Is In Better Position To Face Economic Turmoil Than In 2007

AMERICAN OVERSIGHT

... [WPF sees] fiscal hardships ... for an unknown length of time ... [but] systems in place that weren't there 12 years ago, including a relatively strong [UI] fund and [rainy day] fund ... essential since the economic slowdown will both diminish state tax collections and increase spending on jobless benefits, social services and emergency needs, the report found. WPF's Stein said rainy day fund in 2007 could cover 5 days at $48M/day, but current balance could cover 5 weeks. $2B now in UI fund, compared to $783.9M in 2007, but USDOL ranks WI 30th for recession-readiness. Sten: "No state can make it through without the assistance of the federal government. We don't know the extent of the problem, we don't know the duration of the problem, but we know it's severe and we know it's substantial." 70K UI claims last week compared to 5,200 same week of 2019, "The rapidity and the scale of the unemployment claims we are seeing is very concerning."

State order designed to help restaurants deliver during crisis
... [OCI Commissioner] Afable's order says that insurers must cover delivery services for restaurants on drivers' personal auto insurance policies and must offer coverage for hired drivers and non-owned automobiles as a rider on a restaurant's general liability insurance if requested. ... at no extra cost to the policyholders. ... only applies to drivers and businesses doing delivery that don't currently have delivery coverage in their policies. ... Drivers don't need to request this coverage. ... [Indie Coffee owner Kilmer] calls the measure "a step in the right direction." doesn't want to rely on delivery services, which take a big chunk out of every sale. ... really would like to see ... property tax and licensing-fee relief. ... [EatStreet's Howard] "fans of anything that can be done to alleviate the financial challenges our restaurant partners currently face." ... I suspect the order will definitely eliminate some barriers to offering delivery," [Great Dane's] Butler said, "especially in Wisconsin cities that don't have adequate third-party services." Other biz owners comment.

Madison sees multi-million dollar financial hit due to COVID-19 pandemic
... running programs at their current levels amid a steep decline in revenue is expected to drain about $16 million from the city's [$52M] "rainy day fund," a 30% reduction, by the end of the year ... even before the new coronavirus struck, the city was anticipating a shortfall to continue services and satisfy labor agreements in 2021. "It's very serious," [budget dir.] Schmiedicke said ... looking at letting residents delay payment of property tax installments and water bills, which both require state action, and exploring options to delay other fees or modify contracts. Schmiedicke details other assets, liabilities.
https://madison.com/wsj/b4cb5531-e20b-5b46-a84c-774d492bf134.html

Rep. David Bowen tests positive for coronavirus
... has been isolating himself for about a week after the Shorewood Health Department notified him he may have been exposed. ... recovering at home and in good spirits. ... Bowen urged Wisconsin residents to comply with Gov. Tony Evers' order to stay at home ... "As of today, I am one of 182 confirmed cases of COVID-19 in Milwaukee, and that number will only increase by the day," he said. "I am grateful to God I serve that I

AMERICAN OVERSIGHT

will be a part of the vast majority of cases where people who contract the virus will survive without it exacerbating other pre-existing conditions. May we all get the blessings, the lessons, and divine clarity destined to be gained during this trying time."
https://www.jsonline.com/story/news/2020/03/23/2901805001/

The majority of Milwaukee coronavirus cases are middle-aged African American men who may have thought they weren't at risk, officials say
... Health Commissioner Jeanette Kowalik ... did not offer a specific number or percentage but said the majority of the city's [158] confirmed cases ... are middle-aged African American men. ... first three Milwaukee [coronavirus deaths] were all African American men in their 50s or 60s. [with] underlying health conditions, such as diabetes or heart trouble. ... Mayor Tom Barrett said a lot of the people who have tested positive in Milwaukee, particularly on the city's north side, had not traveled abroad. ... Kowalik said ... initial focus on coronavirus cases in other countries and its connection to overseas travel gave many people the perception that coronavirus wouldn't affect them. ... planning [PSA's] focusing on the African American community ... also be focusing on the Latinx community, where health officials are seeing an uptick in cases. Kowalik said social distancing is difficult where folks can't work from home, can't afford to be off work or live in crowded homes.
https://www.jsonline.com/story/news/2020/03/24/2904634001/

DNC 2020 leaders exploring 'a range of contingency options' for coronavirus
... [DNCC's Peters statement] said the team putting together the convention "remains focused on planning a successful convention, where we will nominate the next president and vice president of the United States, lift up their vision ... launch them to victory ... exploring a range of contingency options to ensure we can deliver a successful convention without unnecessary risk to public health. ... very fluid situation -- and the convention is still up to three months away. ... committed to sharing updates with the public in the coming weeks and months as our plans continue to take shape."
https://www.jsonline.com/story/news/2020/03/23/2900338001/

Summerfest in Milwaukee postponed until September due to coronavirus pandemic
... Thursdays, Fridays and Saturdays across ... Sept. 3 to 5, Sept. 10 to 12 and Sept. 17 to 19. ... split up across nine shows at the American Family Insurance Amphitheater and seven shows at the BMO Harris Pavilion. CEO Smiley touted "best possible option ... We know there will be many questions and we look forward to sharing details with you in the future." ... first time in Summerfest's 52-year history that the festival has been postponed. ... Live Nation and AEG [also] took the unprecedented step of halting all tours starting March 12. ... Pabst Theater Group alone canceled or postponed 128 shows through May 15 at its four Milwaukee venues. ... While most big tours are being rescheduled, it's a more complicated process for festival organizers, given the large number of artists involved and schedules to coordinate for each event. ... few annual events that carry as much [city, state] civic pride ... than Summerfest. ... 2013 study [found] Summerfest's annual economic impact was $187 million ... To date none of those amphitheater shows outside of Summerfest have been postponed.

Subject: TUE PM Update: Elections Commission rejects guidance for federal judge on the April 7 election

TUE PM Update -- 31 March 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- Despite warnings that 60 percent of Wisconsin municipalities are short of necessary poll workers for April 7, the Elections Commission today couldn't agree on possible guidance for a federal judge on whether the election should be delayed.

Ahead of today's meeting, staff noted the shortage of poll workers is so severe in 111 communities that they can't even staff one polling site. Another 126 are unable to open all of the polling locations they'd like.

Against that backdrop have emerged a series of calls and a consolidated federal lawsuit seeking to delay the April 7 election. On the ballot are presidential primaries, a race for the state Supreme Court and dozens of local offices and referendums.

AMERICAN OVERSIGHT

But the commission rejected on a 4-2 vote a Dem motion to recommend federal Judge William Conley delay the April 7 election roughly a month to coincide with the May 12 7th Congressional District special election.

The commission then split along party lines on a GOP motion to advise Conley not to move the date of the election.

Dem Ann Jacobs slammed that motion, noting the commission had just heard from staff about poll worker shortages.

"My concern is we are pretending with our fingers crossed and a unicorn wish that we're going to be able to cobble together a way to administer this election," she said. "We're going to have to answer to voters in these communities when the clerk goes with their key at 6:30 in the morning to open up the polling site and there are no poll workers."

GOP Commissioner Bob Spindell pointed to state statutes allowing for the two major political parties to provide nominees to serve as supplemental poll workers. He said he had already provided the list of critical shortages to the Republican Party of Wisconsin.

RPW spokeswoman Alesha Guenther confirmed Spindell had been in touch and told WisPolitics.com the party is "trying to be as helpful as possible by doing everything we can to encourage our supporters to volunteer if they are able."

Spokeswoman Courtney Beyer said the state Dem Party was not currently working with the commission to recruit poll workers and was not aware if any of the panel's Dems had reached out.

Spindell also suggested the commission launch a public relations campaign urging voters to return their absentee ballots.

But Dem Mark Thomsen slammed Spindell's suggestion, saying it did nothing to address the outstanding issue that coronavirus-related delays in sending and receiving absentee ballots could lead to some votes not being counted because they were received after the Election Day deadline.

"To do that without modifying the schedule to count them is intentionally disenfranchising people," he said. "If we advertise sending us absentee ballots and then we don't count them, that's what you call rigging an election."

The commission also rejected a motion that would have asked Conley to move back the deadline for mail-in ballots from being received on Election Day to being postmarked on Election Day. Chair Dean Knudson joined all three Dems in opposition.

Dems opposed a piece of the motion affirming the election should be held on April 7, while Knudson highlighted "ripple effects" that could interfere with the local and state canvass process.

AMERICAN OVERSIGHT

-- Municipal and county clerks say the COVID-19 pandemic has led to a shortage of nearly 7,000 poll workers.

In a survey conducted by Elections Commission officials, 237 jurisdictions indicated that as of 6:30 p.m. last night, they would be unable to man some or all polling places because they were short over 3,380 poll workers.

An additional 542 jurisdictions said they had a total of 3,469 "fewer staff than needed for efficient operations" while 541 jursidictions said they were sufficiently staffed and only missing a total of 86 workers.

Jurisdictions facing "serious" or "critical" shortages were spread across nearly every county in the state with no geographic trends.

Of the 1,850 jurisdictions in the state, 530 did not respond to the survey.

Still, Administrator Meagan Wolfe said at this morning's meeting the survey was conducted ahead of a number of municipalities consolidating polling places into a central location.

See the WEC survey:
https://elections.wi.gov/sites/elections.wi.gov/files/2020-03/Complete%20Packet%203_31.pdf

-- Under 5 percent of the city of Milwaukee's in-person polling sites could be open on April 7 due to a shortage of workers.

Milwaukee Election Commission Executive Director Neil Albrecht said today in a teleconference that he expects "10 to 12 or possibly fewer" open sites out of the normal 180.

"We're down to 400 staff from the typical 1,400 that we would use," he said. "180 voting sites in the city will not be possible, and the city needs to be prepared for that possibility."

Albrecht said the city will most likely have to consolidate its polls into voting centers instead of the more local, walkable stations residents are used to. He said the city will also not be able to provide transportation services for residents and that he's "hopeful" community organizations would take up that responsibility.

He highlighted time remains for residents to submit absentee ballots, either by mail or via five drive-up locations throughout the city. But he cautioned each station could see at least a 45-minute wait time.

AMERICAN OVERSIGHT

"We just don't have the staffing or capacity to expand," Albrecht said. "Workers are truly the unsung heroes right now, putting themselves at some level of risk every time they interact with the public."

-- Dane County Clerk Scott McDonell says it was his "good faith belief" the advice he issued on indefinitely confined status, which allows voters to avoid providing a copy of their photo ID when voting absentee, was consistent with that of the state Elections Commission.

This comes after the state Supreme Court this afternoon barred McDonell from advising all voters they could use that status because of Gov. Tony Evers' stay-at-home order. The conservative-dominated court ordered him to refrain from issuing guidance on indefinitely confined status outside the measures approved by the Elections Commission.

Under that guidance, voters can claim the status based on age, physical illness, infirmity or being disabled for an indefinite period and cannot use it "simply as a means to avoid the photo ID requirement."

McDonell told WisPolitics.com he has "no problem" complying with that order.

"For me this makes complying with the Supreme Court order easy," he said in an email. "My intent at all times was to protect the safety of seniors afraid to leave their homes due to this pandemic."

McDonell had argued that he updated his original advice in a March 25 social media post with a stance in line with the advice approved by the Elections Commission. The court noted that didn't prevent McDonell from offering erroneous advice in the future.

The order did not indicate any dissent.

Senate Majority Leader Scott Fitzgerald, R-Juneau, praised the ruling.

"Today, a unanimous Wisconsin Supreme Court decision soundly rejected the far-left politics of clerks in our state who were trying to undermine an election," he said.

Conservative Justice Daniel Kelly, who is on the ballot next week, didn't participate in the case. He previously recused himself from another election-related case, saying he didn't want to sit on a suit that could impact his election.

Read the order:
https://www.wispolitics.com/wp-content/uploads/2020/03/200331Order.pdf

AMERICAN OVERSIGHT

-- Gov. Tony Evers continued to announce steps to deal with the pandemic while asking the president to issue a major disaster declaration for the entire state.

The requested declaration, which would cover all 72 counties and the state's federally recognized tribes, would allow the state to access programs both to deal with the pandemic and the recovery, Evers said.

In the letter, the administration wrote resources "of local governments and supporting private entities are strained, and financial resources that were reasonably expected to be at the State's
disposal to respond are being affected by the impact to the economy of the State. Business
revenue and tax receipts are suffering and without supplemental federal assistance, the State's ability to sufficiently respond to and recover from this event will be severely impacted."

See the release:
https://www.wispolitics.com/2020/gov-evers-requests-presidential-disaster-declaration-in-response-to-covid-19-pandemic/

See coronavirus information and resources:
https://www.wispolitics.com/wisconsin-coronavirus-resources/

-- Meanwhile, the guv announced the opening of two state-run voluntary isolation facilities in Madison and Milwaukee.

The sites, which will open tomorrow at Lowell Center in Madison and a Super 8 hotel in Milwaukee, will be for those who have symptoms of COVID-19 or are a confirmed case. Individuals won't be able to register at the facility unless they have been referred by a medical provider or public health official.

The voluntary stays will be about 14 days, or 72 hours after symptoms ease, and the individual or the facility may end someone's presence at the site.

Evers said the centers will "leave valuable hospital space available for others who need it" while providing a "safe place for people to stay so they don't spread COVID-19 to others."

See the release:
https://www.wispolitics.com/2020/gov-evers-announces-state-operated-voluntary-isolation-facilities-and-guidance-to-aid-local-communities-in-opening-their-own/

-- DHS Secretary Andrea Palm today warned the GOP co-chairs of the budget committee the COVID-19 pandemic is expected to significantly increase Medicaid

AMERICAN OVERSIGHT

expenditures through the rest of the biennium.

"We are in an extraordinary moment in the history of Wisconsin and the nation, as we wage an all-out battle against the COVID-19 pandemic," Palm wrote to Sen. Alberta Darling, R-River Hills, and Rep. John Nygren, R-Marinette.

The agency provides a quarterly update to Joint Finance Committee leaders on the Medicaid fund. In her last update three months ago, Palm notified them the Medicaid budget was on track to spend $39.8 million more in general purpose revenue over the biennium than originally expected.

She wrote trends in January and February were consistent with that previous outlook. But the pandemic has now rendered that projection "obsolete."

Palm didn't offer a revised projection for the program, which was budgeted to spend $6.7 billion in general purpose revenue and $21.9 billion overall. Still, she noted Medicaid expenditures tend to rise as unemployment goes up. Meanwhile, hospitals, nursing homes and other health care providers will be "stretched to the limit" as they deal with the pandemic.

The administration is working with lawmakers to make temporary changes to the program -- including on eligibility and premiums -- in order to qualify for enhanced federal funding due to the outbreak. The state could save $150 million in GPR per quarter if it qualifies.

Read the letter:
https://www.wispolitics.com/wp-content/uploads/2020/03/200331Medicaid.pdf

-- A coalition of attorneys general that includes Wisconsin's Josh Kaul has filed a motion for partial summary judgment in a lawsuit challenging the diversion of federal money to pay for construction of a wall along the border with Mexico.

The motion, filed by California's AG, seeks an immediate injunction protecting money originally slated for the National Guard from being used for wall construction costs.

Read the brief:

TUE PM Update -- 24 March 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- Gov. Tony Evers today announced a sweeping stay-at-home order that limits personal contact between Wisconsinites but allows essential businesses to remain open over the next month.

Evers' order, which begins at 8 a.m. tomorrow, lists a host of businesses -- from grocery stores and pharmacies to hardware stores and banks -- that will be allowed to remain open. Still, many services -- such as legal and accounting -- are being directed to avoid person-to-person conduct as much as possible and work from home where possible.

And the order bans nonessential travel for state residents while still allowing them to go to the doctor, the grocery store and the pharmacy.

A Milwaukee business group pressed Evers over the weekend for such a move. Meanwhile, various GOP lawmakers questioned the need to issue such a far-reaching

AMERICAN OVERSIGHT

order and asked what changed from when the guv suggested on Friday that he wasn't considering such a measure.

Sen. Devin LeMahieu, R-Oostburg, raised concerns about the length of Evers' order, which runs through April 24, and how citizens will comply, charging he was "using a sledgehammer rather than a scalpel to address this crisis."

Evers banned public and private gatherings of any number of people unless they are part of a "single household or living unit," with limited exceptions. At the same time, those whose homes are unsafe or become so, such as domestic violence victims, "are permitted and urged to leave."

While the order still allows outdoor activity such as hiking and visiting public and state parks (which are waiving fees), it requires social distancing requirements to be followed. It also bans contact sports such as basketball, ultimate frisbee, soccer or football because participants can't meet social distancing requirements.

The guv also ordered playgrounds closed.

Evers said on a conference call this afternoon the "vast majority" of Wisconsin employers will remain open under his order. But he acknowledged the impact on small businesses, saying his administration was exploring ways to help them.

"It calls for sacrifice, no question about that," Evers said.

Senate Majority Leader Scott Fitzgerald, R-Juneau, and Assembly Speaker Robin Vos, R-Rochester, didn't immediately respond to requests for comment on the move. Yesterday, they criticized Evers for announcing plans to issue the order with releasing details, saying it led to confusion.

-- Evers' order includes a lengthy list of essential businesses that will be allowed to continue operations, though they were directed to limit person-to-person contact and meet social distancing requirements.

Door-to-door solicitation was also banned, regardless of its purpose.

Those companies that will be allowed to remain open include manufacturers, distributors and supply chain companies producing products and services for industries that range from healthcare to national defense.

The list of essential businesses include:

*Stores selling groceries and medicine, including bakeries and farm and produce stands;
*Restaurants, though they are limited to take out and delivery; bars, including brewpubs,

AMERICAN OVERSIGHT

wineries and distilleries, will only be allowed carryout sales if permitted by state law and municipal ordinance. Wineries may also utilize shippers' permits;
*Child care centers, though they must prioritize the children of those working in health care;
*Wedding, funerals and religious entities, though they are restricted to gatherings of 10 or fewer people while adhering to social distancing;
*Gas stations and companies that provide supply, repair and sales for automobiles, motorcycles, boats and bicycles.
*Critical trades ranging from plumbers and electricians to exterminators and arborists who "provide services that are necessary to maintaining the safety, sanitation, and essential operation of residence."
*Organized labor functions such as "the administration of health and welfare funds and personnel checking on the well-being and safety of members providing services" in essential businesses -- provided the checks are done by phone or remotely;
*Hotels and motels, though they must stop guests from gathering in crowds and must shut down pools, hot tubs and exercise centers.

Businesses unsure if they meet the standard to remain open can inquire with the Wisconsin Economic Development Corp. See more in the next item.

The order is enforceable by local law enforcement, including sheriffs, and violations carry a penalty of up to 30 days in jail, a fine of up to $250 or both. The state order also supersedes local ones that conflict with it.

Evers Chief Legal Counsel Ryan Nilsestuen said police won't be pulling people over and asking for proof their travel is essential. The state is hoping for voluntary compliance.

-- MMAC President Tim Sheehy said his organization urged Gov. Tony Evers in a Sunday night call to issue a stay-at-home order after a briefing members received from medical professionals that morning.

He said the experience of MMAC members in overseas markets also played a role in the group's pivot to believing such a step was necessary.

Evers on Friday said he didn't expect to issue a stay-at-home order, though he'd follow

AMERICAN OVERSIGHT

the science on that. But he switched course Monday, saying he made the decision after discussions with medical professionals and business leaders, among others.

Sheehy said on Friday 40 Metropolitan Milwaukee Association of Commerce were prepared to sign a letter outlining the steps they'd been taking to address COVID-19 and why they wanted to keep their businesses open.

But that changed over the weekend as members got more information.

Sheehy said while the group supported the move, members would've appreciated more details on Monday as the guv announced plans to take the step because "anything that knocks us off the center point of certainty causes confusion."

He also said MMAC would've preferred a shorter order than one that runs through April 24 with adjustments made as needed.

"Businesses want more than anything certainty and clarity," Sheehy said. "How long is this tunnel? I can do this for two or three weeks and get through it OK. The longer this tunnel is, the worse the economic damage is going to be."

-- A WEDC webpage with information on essential businesses crashed this morning due to a high number of inquiries after the "safer at home" order was issued, but it's now back online.

Agency spokesman David Callender said the site received 30 requests for information in about an hour before going down. Several hours later, the agency tweeted that the site was back up.

See the page:
https://wedc.org/essentialbusiness/

-- President Trump and others have been pushing for a quick resumption of economic activity with some arguing the cure can't be worse than the cause.

But Gov. Tony Evers argued that his cure values human life and the economy.

"Obviously, we want a strong economy. Who the hell doesn't?" the guv said. "But the fact of the matter is we have to value a human life at some point at a higher level. I think we have to do both, and that's what this order is all about."

Evers also faced criticism yesterday for not releasing details of his order as he announced plans to issue it. He said on today's call those final details had to be worked through before they could be released.

AMERICAN OVERSIGHT

He pointed to farmers as an example, calling them the "lynchpin" on a chain that includes people who both get their goods to market and make products that keep them working.

"It took a long time to work through each of those. If we would've had that information yesterday, you would've gotten it," Evers said.

Evers also said his administration was still working on a legislative package with leadership and didn't have a price tag for the proposals.

-- State health officials say the coming weeks will tell if new containment measures for the coronavirus outbreak are having a big impact.

Still, they expect the outbreak to get worse before it gets better.

The number of positive cases in Wisconsin increased to 457 from yesterday's 416 as of 2 p.m. today, according to the state Department of Health Services. Dr. Ryan Westergaard, chief medical officer for DHS, says that number could double in the next week "even if we do everything right."

DHS Secretary Andrea Palm said in today's briefing that without Gov. Tony Evers' "safer at home" order, "we would likely have 22,000 positive cases by April 8 and an estimated 440 to 1,500 deaths."

Westergaard said the state's current infection count is limited by test availability and regulations for getting tested, noting "it's almost certainly quite a bit larger" than the official tally.

"I think we'd expect under any circumstances for the numbers to continue to increase over the next coming weeks," he said. "But after that point, if we don't see growth of the epidemic -- if we see a leveling or tailing off -- that will be a sign that the things we're doing are successful."

Westergaard also said state health officials are continually learning new things about the virus, including that a "very high proportion" of people who contract the virus only present mild symptoms. That means the vast majority of infected people won't require medical care. But for every patient coming into the hospital, 10 more could be out spreading the disease, he said.

He said that risk justifies the escalating response by state officials aimed at slowing the spread of the virus. Palm said the state's current top priority is keeping the health care system from being overwhelmed.

Listen to the call:
https://wiseye.org/2020/03/24/wisconsin-dhs-media-briefing-on-covid-19-for-march-24/

AMERICAN OVERSIGHT

-- Officials in three of the state's five largest counties tell WisPolitics.com they are responsible for housing at least 61 adult inmates after Gov. Tony Evers suspended admissions to state prisons.

The largest group is in Milwaukee County, where 35 inmates were awaiting transfer to DOC custody ahead of Evers' March 20 order aimed at preventing a COVID-19 outbreak at a state prison. So far DOC has reported two employees who tested positive -- one at Waupun and one at Columbia.

A Milwaukee County spokeswoman told WisPolitics.com 18 of the inmates awaiting transfer to DOC institutions were being held at the county's House of Correction facility while the remaining 17 were in county jail.

Meanwhile, Brown County is housing 19 inmates that were set to be transferred to the state while Waukesha County has seven.

All three counties expressed those figures were likely to grow.

A spokeswoman for the Racine County Sheriff's Department declined to comment, while Dane County Chief Deputy Sheriff Jeff Hook said the county is working with DOC to transfer inmates in the county's custody back to DOC but declined to provide adult figures.

Dane County Juvenile Court Administrator John Bauman told WisPolitics.com the county has five youths "who would likely be corrections bound if it weren't for court delays and DOC's moratorium."

Bauman said the county did not yet know where funding to house those juvenile offenders would come from.

DOC spokeswoman Anna Neal said in an email the suspension of admissions at the state's two intake facilities -- Dodge and Taycheedah Correctional Institutions -- will continue for an "undetermined amount of time."

Neal also indicated the agency would only suspend its administrative rules to limit inmate movement, interaction or services at an institution after a positive coronavirus case at that institution.

-- Milwaukee Mayor Tom Barrett is urging Gov. Tony Evers and GOP legislative leaders to conduct the upcoming spring election through mail ballots, raising concerns in-person voting -- either absentee or on Election Day -- is not "feasible or safe for our workers or residents."

AMERICAN OVERSIGHT

Barrett acknowledged that running the election via mail presents its own challenges and couldn't realistically be completed by April 7. Barrett is running for reelection against state Sen. Lena Taylor, D-Milwaukee.

Still, he wrote the city Elections Commission could no longer maintain sufficient staffing levels at three in-person absentee voting sites, and dozens of Election Day volunteers are begging off their usual assignments.

"In good conscience I would not ask one of my loved ones to sit in a room for hours greeting
dozens of people during this pandemic. I can't expect citizens of my city to do that either," Barrett wrote.

He also asked for other changes, noting state law doesn't allow absentee ballots to be counted before Election Day, but the city could see as many as 130,000 cast. By comparison, there were 62,000 in the November 2016 presidential election.

Pressed repeatedly to push back the election, Evers has instead encouraged people to vote by absentee ballot.

The stay-at-home order he issued today doesn't exempt polling sites. During a conference call, Evers said he was in communication with local leaders.

"We all have one thing in common," Evers said. "We want to make sure that we have a good vote and that we have safety as a top priority during that good vote."

Read Barrett's letter:
https://www.wispolitics.com/wp-content/uploads/2020/03/200324Letter.pdf

-- Postponing jury trials through mid-May violates defendants' rights to a speedy trial and opens the door to the rights of free speech, press and others being suspended by judicial decree, Justice Rebecca Bradley argues.

In her dissent to the order issued over the weekend, Bradley wrote nothing in the U.S. Constitution permits the judiciary to suspend Sixth Amendment rights. She added the only remedy for violating Sixth Amendment rights is the dismissal of charges.

"The liberty for which so many have laid down their lives should not be cast aside even in 'troublous times,'" Bradley wrote, quoting a document from 1866. "If the government will not protect constitutional rights designed to preserve our freedom, it is up to the people to reclaim them."

Bradley was joined in her dissent by fellow conservative Daniel Kelly, running in the April 7 election.

AMERICAN OVERSIGHT

In the order, the court ticked off a series of pandemic-related issues that made proceeding with jury trials problematic. The order impacts any jury trial scheduled to begin through May 22. In the order, the court wrote, "the ends of justice served by temporarily suspending jury trials in the courts of this state outweigh the interest of the public and the defendant in a speedy trial" under state law.

In a separate order, the court also suspended all in-person proceedings in the appellate and circuit courts through April 30. The courts were ordered to utilize technologies such as email and videoconferencing in lieu of in-person appearances. There was no dissent to that order.

Read the order and Bradley's dissent:
https://wicourts.gov/news/docs/jurytrials.pdf

-- The conservative Americans for Prosperity has sent several mailers praising Justice Daniel Kelly ahead of the April 7 election, saying he supports a fair, impartial and independent court.

"Justice Daniel Kelly will put the rule of law first," two of the mailers declare.

One encourages recipients to "learn how to skip the lines" by voting early.

See the mailers:
https://www.wispolitics.com/wp-content/uploads/2020/03/200324AFP1.pdf
https://www.wispolitics.com/wp-content/uploads/2020/03/200324AFP2.pdf
https://www.wispolitics.com/wp-content/uploads/2020/03/200324AFP3.pdf

-- The Department of Natural Resources has waived all fees for state parks remaining open during the coronavirus outbreak.

In a statement, DNR said people should be "staying home as much as possible" to slow the spread of the virus. But it also said CDC guidelines suggest people go outdoors from time to time for the physical and mental benefits.

According to the release, campsites and park offices will be closed, but bathrooms and boat launches remain open. Staff will also continue to provide routine sweeps and general park maintenance. Wisconsin waters also are open to fishing.

DNR recommended people continue to practice social distancing while at the parks and do not congregate in close spaces.

See the release:

AMERICAN OVERSIGHT

-- State Sen. Chris Larson today unveiled seven bills that he said would strengthen voter protections and election integrity during the COVID-19 pandemic.

The Milwaukee Dem said the bills are necessary to protect democracy from current and future public health emergencies. Larson is running for Milwaukee County executive.

The bills would allow clerks and the Wisconsin Elections Commission to automatically mail absentee ballots to all registered voters in their jurisdictions and extend the timeline for when ballots can be accepted by election officials. The bills would also remove the ID requirement when voting.

Larson said the bills would only go into effect when a governor declares a state of emergency "to ease the burden on the public as well as maintain electoral integrity and access to the ballot."

"As legislators, we must do all we can to protect democracy and ensure every Wisconsinite that wants to be heard will be heard," he said.

See the release:
https://www.wispolitics.com/wp-content/uploads/2020/03/200324LARSON.pdf

-- Wisconsin Policy Forum President Rob Henken told WisPolitics.com local governments could be shielded some from a quick recession due to their heavy reliance on property taxes, a levy he said tends to weather economic volatility.

But he also warned other revenue like sales and room taxes will "diminish sharply" and municipalities and counties with more services will be much harder hit.

"The city of Milwaukee and Milwaukee County are perhaps most vulnerable to severe fiscal pain as a result of what is happening here because they administer their own pension systems and because of the carnage in stock market value of pension investments has dropped precipitously," Henken said. "Every other municipality is part of the state pension system, which is going to take a hit but is in a better position."

Departing Milwaukee County Executive Chris Abele in a teleconference today said he is "eagerly awaiting to see what the federal government is doing" for local governments with a stimulus package. He suggested reporters ask members of Congress what they are going to do to support local budgets.

"We're going to see in the short term, or short-to-mid-term anyway, we're going to see job losses," Abele said. "It's going to have a real impact. So much of our revenue to fund everything depends on economic activity."

AMERICAN OVERSIGHT

He added the county's pension challenges will be "waiting for us on the other side" and that, right now, his team is focused on saving lives.

Madison estimates the hit from the coronavirus outbreak could drain about $16 million from the city's rainy day fund by the end of year, according to a Wisconsin State Journal report. The fund stands at about $52 million currently.

Henken said for a lot of local governments property taxes can soften the blow.

"While certainly there will be a sharp increase in delinquent property taxes, they tend to be a more stable source of taxation that tends to not drop as sharply from a recession," Henken said. "But when it does drop, it often takes longer to rebound."

He said his organization is "beginning to crunch a bunch of numbers" on the issue for a piece he hopes to publish sometime next week and that any federal stimulus package will be "a huge wildcard" in local government finances.

Dane County Juvenile Court Administrator John Bauman told WisPolitics.com the county has five youths "who would likely be corrections bound if it weren't for court delays and DOC's moratorium."

Bauman said the county did not yet know where funding to house those juvenile offenders would come from.

DOC spokeswoman Anna Neal said in an email the suspension of admissions at the state's two intake facilities -- Dodge and Taycheedah Correctional Institutions -- will continue for an "undetermined amount of time."

Neal also indicated the agency would only suspend its administrative rules to limit inmate movement, interaction or services at an institution after a positive coronavirus case at that institution.

-- Milwaukee Mayor Tom Barrett is urging Gov. Tony Evers and GOP legislative leaders to conduct the upcoming spring election through mail ballots, raising concerns in-person voting -- either absentee or on Election Day -- is not "feasible or safe for our workers or residents."

AMERICAN OVERSIGHT

Barrett acknowledged that running the election via mail presents its own challenges and couldn't realistically be completed by April 7. Barrett is running for reelection against state Sen. Lena Taylor, D-Milwaukee.

Still, he wrote the city Elections Commission could no longer maintain sufficient staffing levels at three in-person absentee voting sites, and dozens of Election Day volunteers are begging off their usual assignments.

"In good conscience I would not ask one of my loved ones to sit in a room for hours greeting
dozens of people during this pandemic. I can't expect citizens of my city to do that either," Barrett wrote.

He also asked for other changes, noting state law doesn't allow absentee ballots to be counted before Election Day, but the city could see as many as 130,000 cast. By comparison, there were 62,000 in the November 2016 presidential election.

Pressed repeatedly to push back the election, Evers has instead encouraged people to vote by absentee ballot.

The stay-at-home order he issued today doesn't exempt polling sites. During a conference call, Evers said he was in communication with local leaders.

"We all have one thing in common," Evers said. "We want to make sure that we have a good vote and that we have safety as a top priority during that good vote."

Read Barrett's letter:
https://www.wispolitics.com/wp-content/uploads/2020/03/200324Letter.pdf

-- Postponing jury trials through mid-May violates defendants' rights to a speedy trial and opens the door to the rights of free speech, press and others being suspended by judicial decree, Justice Rebecca Bradley argues.

In her dissent to the order issued over the weekend, Bradley wrote nothing in the U.S. Constitution permits the judiciary to suspend Sixth Amendment rights. She added the only remedy for violating Sixth Amendment rights is the dismissal of charges.

"The liberty for which so many have laid down their lives should not be cast aside even in 'troublous times,'" Bradley wrote, quoting a document from 1866. "If the government will not protect constitutional rights designed to preserve our freedom, it is up to the people to reclaim them."

Bradley was joined in her dissent by fellow conservative Daniel Kelly, running in the April 7 election.

AMERICAN OVERSIGHT

In the order, the court ticked off a series of pandemic-related issues that made proceeding with jury trials problematic. The order impacts any jury trial scheduled to begin through May 22. In the order, the court wrote, "the ends of justice served by temporarily suspending jury trials in the courts of this state outweigh the interest of the public and the defendant in a speedy trial" under state law.

In a separate order, the court also suspended all in-person proceedings in the appellate and circuit courts through April 30. The courts were ordered to utilize technologies such as email and videoconferencing in lieu of in-person appearances. There was no dissent to that order.

Read the order and Bradley's dissent:
https://wicourts.gov/news/docs/jurytrials.pdf

-- The conservative Americans for Prosperity has sent several mailers praising Justice Daniel Kelly ahead of the April 7 election, saying he supports a fair, impartial and independent court.

"Justice Daniel Kelly will put the rule of law first," two of the mailers declare.

One encourages recipients to "learn how to skip the lines" by voting early.

See the mailers:
https://www.wispolitics.com/wp-content/uploads/2020/03/200324AFP1.pdf
https://www.wispolitics.com/wp-content/uploads/2020/03/200324AFP2.pdf
https://www.wispolitics.com/wp-content/uploads/2020/03/200324AFP3.pdf

-- The Department of Natural Resources has waived all fees for state parks remaining open during the coronavirus outbreak.

In a statement, DNR said people should be "staying home as much as possible" to slow the spread of the virus. But it also said CDC guidelines suggest people go outdoors from time to time for the physical and mental benefits.

According to the release, campsites and park offices will be closed, but bathrooms and boat launches remain open. Staff will also continue to provide routine sweeps and general park maintenance. Wisconsin waters also are open to fishing.

DNR recommended people continue to practice social distancing while at the parks and do not congregate in close spaces.

https://dnr.wi.gov/news/releases/article/?id=5069

AMERICAN OVERSIGHT

-- State Sen. Chris Larson today unveiled seven bills that he said would strengthen voter protections and election integrity during the COVID-19 pandemic.

The Milwaukee Dem said the bills are necessary to protect democracy from current and future public health emergencies. Larson is running for Milwaukee County executive.

The bills would allow clerks and the Wisconsin Elections Commission to automatically mail absentee ballots to all registered voters in their jurisdictions and extend the timeline for when ballots can be accepted by election officials. The bills would also remove the ID requirement when voting.

Larson said the bills would only go into effect when a governor declares a state of emergency "to ease the burden on the public as well as maintain electoral integrity and access to the ballot."

"As legislators, we must do all we can to protect democracy and ensure every Wisconsinite that wants to be heard will be heard," he said.

See the release:
https://www.wispolitics.com/wp-content/uploads/2020/03/200324LARSON.pdf

-- Wisconsin Policy Forum President Rob Henken told WisPolitics.com local governments could be shielded some from a quick recession due to their heavy reliance on property taxes, a levy he said tends to weather economic volatility.

But he also warned other revenue like sales and room taxes will "diminish sharply" and municipalities and counties with more services will be much harder hit.

"The city of Milwaukee and Milwaukee County are perhaps most vulnerable to severe fiscal pain as a result of what is happening here because they administer their own pension systems and because of the carnage in stock market value of pension investments has dropped precipitously," Henken said. "Every other municipality is part of the state pension system, which is going to take a hit but is in a better position."

Departing Milwaukee County Executive Chris Abele in a teleconference today said he is "eagerly awaiting to see what the federal government is doing" for local governments with a stimulus package. He suggested reporters ask members of Congress what they are going to do to support local budgets.

"We're going to see in the short term, or short-to-mid-term anyway, we're going to see job losses," Abele said. "It's going to have a real impact. So much of our revenue to fund everything depends on economic activity."

AMERICAN OVERSIGHT

He added the county's pension challenges will be "waiting for us on the other side" and that, right now, his team is focused on saving lives.

Madison estimates the hit from the coronavirus outbreak could drain about $16 million from the city's rainy day fund by the end of year, according to a Wisconsin State Journal report. The fund stands at about $52 million currently.

Henken said for a lot of local governments property taxes can soften the blow.

"While certainly there will be a sharp increase in delinquent property taxes, they tend to be a more stable source of taxation that tends to not drop as sharply from a recession," Henken said. "But when it does drop, it often takes longer to rebound."

He said his organization is "beginning to crunch a bunch of numbers" on the issue for a piece he hopes to publish sometime next week and that any federal stimulus package will be "a huge wildcard" in local government finances.

TUE PM Update -- 7 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- Voters at the polls in Milwaukee and Madison expressed frustration and trepidation about voting in person today amid the coronavirus pandemic, but largely appeared to be taking it in stride.

Several voters interviewed by WisPolitics.com had requested absentee ballots but hadn't received them in time, while some who received absentee ballots were skeptical about them being delivered in time to be counted. The latest update from the state Elections Commission this morning showed more than 9,000 absentee ballots had yet to be mailed.

Tammie Henderson, who voted at Washington High School in Milwaukee, said she was

AMERICAN OVERSIGHT

voting in person because her absentee ballot never arrived. She said she normally votes right near her house, but because the city consolidated polling places, she had to travel.

"I don't like it," she said. "It should have been postponed."

Voters head to the polls today following a flurry of legal action the day before. Gov. Tony Evers sought to delay the election until June only to have the conservative-leaning state Supreme Court overturn that order. Meanwhile, the U.S. Supreme Court ruled absentee ballots had to be postmarked or hand-delivered by today in order to court after a federal judge had earlier ruled voters could turn them in as late as April 13.

Absentee ballots postmarked by today will still be counted so long as they're received by April 13. But the results of Tuesday's election won't be known until then due to a federal ruling barring clerks from releasing the results until after the deadline for ballots to be received.

-- The latest update from the Elections Commission showed 9,388 absentee ballots that had been requested by Wisconsin voters had yet to be mailed, though there's often a lag in reporting to the agency. Overall, 864,750 -- more than two-thirds of the nearly 1.3 million absentee ballots -- had been returned.

As of 4 p.m., Madison is the only major metropolitan area that has released voter turnout data.

The Madison city clerk's office said in a tweet late this afternoon that turnout as of 4 p.m. was 24.7 percent. That was down from 43.3 percent as of the same time in the April 2016 election, which also included a presidential primary.

City of Milwaukee Election Commission Executive Director Neil Albrecht said at an 11 a.m. briefing that turnout was "robust" but he didn't have figures available yet.

Milwaukee, which has a mayoral race and county exec contest on today's ballot, had a record 203,898 absentee ballots requested for the spring election, though just 124,960 had been returned by this morning's tally. By comparison, Milwaukee County voters cast 150,246 votes in last year's spring election.

Albrecht said each polling location had roughly 30 members of the Wisconsin National Guard serving in various capacities, a total he said would have been sufficient to open more polling sites around the city.

But he said he was only made aware of the number of Guard members who would be able to reinforce his Election Day staff late yesterday afternoon. At that point, Albrecht said, the city had already announced its polling locations.

AMERICAN OVERSIGHT

"Had we had that information sooner, I absolutely think it could have influenced the number of voting centers in the city of Milwaukee," he told reporters this afternoon.

State GOP Chair Andrew Hitt pinned the blame on local officials for long lines to vote in places such as Milwaukee and Green Bay considering the number of volunteers and National Guard members made available to communities around the state.

"Local elected officials and election planners need to answer to their constituents as to why they've chosen not to use resources at their disposal when the vast majority of polling locations across the state are running smoothly," Hitt said.

The Wisconsin Elections Commission reported Milwaukee, Dane and Brown Counties received the highest number of National Guard poll workers, with 264, 249 and 132 respectively.

Despite the record requests for absentee ballots, some Milwaukee voting locations experienced long lines as the city consolidated 180 polling places into just five, a decision Albrecht said was made as the pool of poll workers was "decimated" by concerns over COVID-19.

Read more and see a slideshow of scenes from today's vote in the Election Blog: https://www.wispolitics.com/2020/voters-in-madison-milwaukee-face-lines-fears-about-coronavirus/

-- Former Obama-era U.S. Attorney General Eric Holder, who heads the National Democratic Redistricting Committee, called the images coming out of Wisconsin "troubling" and called for changes to ensure safe voting in the November general election.

"In spite of the fact that public health experts have told everyone to practice social distancing to help fight the spread of COVID-19, the Wisconsin Legislature, the Wisconsin Supreme Court, and the U.S. Supreme Court are forcing too many people to wait in lines to vote today," he said. "The pictures coming out of Wisconsin are troubling. This is unnecessary and harmful."

See the statement: https://www.wispolitics.com/2020/national-democratic-redistricting-committee-eric-holder-statement-on-voting-in-wisconsin/

-- The Wisconsin Elections Commission has informed clerks that state law allows an extension for counting ballots if poll workers are unable to finish their work.

But a commission spokesman told WisPolitics.com Judge William Conley's order pushing back the deadline for clerks to receive and count absentee ballots could mean

AMERICAN OVERSIGHT

jurisdictions may not need to use the extension.

Conley's order bars clerks from tallying or releasing results before 4 p.m. on April 13, but the state's top election official told reporters yesterday there was a distinction to be drawn between tallying and processing.

"In some jurisdictions, depending on the type of voting equipment they're using, they'd be able to do things like put the ballots into the tabulator, to start processing them without running any sort of tally," Administrator Meagan Wolfe said.

Wolfe said jurisdictions with large numbers of absentee ballots could canvass each day up until April 13, leaving only tallying to be done after the deadline to receive ballots.

She said that process wouldn't be an option for smaller jurisdictions that don't have advanced voting equipment. Those would be required to wait until April 13 to begin processing absentee ballots by hand.

But WEC spokesman Reid Magney told WisPolitics.com today such jurisdictions are small enough to be able to hand count their absentee ballots and produce results on April 13.

Still, Magney said the guidance allowing an extension still stood. Under that guidance, ballot count would take place at the same polling location and clerks would be responsible for posting "such plans to reconvene promptly and as widely as possible so that residents are aware of the plan."

See the guidance on election night counting extensions on page 3:
https://elections.wi.gov/sites/elections.wi.gov/files/2020-03/Complete%20Packet%203_31.pdf

-- The DNC has reserved $22 million in ads on YouTube across 14 states, including Wisconsin, to support GOTV for the eventual nominee and other party candidates running in November.

In most states, the ads will start running Oct. 1. But Wisconsin is one of four, along with Florida, Michigan and Pennsylvania, where the spots will begin Sept. 1.

A DNC spokeswoman declined to say how much of the $22 million was reserved in Wisconsin.

See the release:
https://www.wispolitics.com/2020/dnc-announces-22-million-general-election-youtube-reservation/

AMERICAN OVERSIGHT

-- While the full economic impact of the COVID-19 pandemic will not be known for some time, Wisconsin's county and municipal governments "clearly will not be spared from the fiscal havoc," a new Wisconsin Policy Forum report says.

Almost all communities, but especially state-designated premier resort areas like Rhinelander, Eagle River, Bayfield and the Wisconsin Dells, "are nearly certain to see a sharp decline" in sales tax and hotel room tax revenues, according to the report.

WPF indicated Wisconsin's communities might be more resilient than those in other states, thanks to an "unusual" 65 percent dependence on state aid, which is cemented in the 2019-21 biennial budget, and property taxes, which the report said tend to weather recessions better than other revenues.

But the report warned some communities allow residents to pay property taxes in installments over the first few months of the year and could now have difficulty collecting the remaining unpaid taxes.

"These communities also stand to suffer significant losses in private-sector jobs and employment," the report read.

A previous WisPolitics.com story found finance experts believed the state is currently in a much better financial space than at the beginning of the 2008 Great Recession, but the rainy day fund and recent federal aid still won't be enough to cushion municipalities and the state in a prolonged downturn.

See WisPolitics.com's earlier story:
https://www.wispolitics.com/2020/fri-pm-update-fitzgerald-calls-evers-plan-for-april-7-election-a-complete-fantasy/

See more:
https://wispolicyforum.org/research/the-covid-19-fiscal-fall-out-for-cities-and-villages/
https://wispolicyforum.org/wp-content/uploads/2020/04/Taxpayer_20_05_Release.pdf

-- The state would lose $128.5 million in income and franchise tax revenue in the current budget if lawmakers match state law to various provisions in the federal coronavirus bills.

Even if the state declines to match the federal provisions, it's still in line to see tax collections drop $76.5 million through mid-2021, according to the Legislative Fiscal Bureau.

Still, those changes also would produce a boost of about $19 million in 2021-23 compared to what would be expected otherwise.

The LFB memo notes that generally, it requires action by the Legislature for changes to

AMERICAN OVERSIGHT

federal law to take effect for state tax purposes. But several provisions in the federal bills will affect Wisconsin collections regardless of state action.

For example, federal law requires those in a qualified retirement trust to begin taking distributions generally as of April 1 in the calendar year after participants reach age 72, or 70.5 for those who hit that age prior to Jan. 1, 2020. The federal coronavirus bills specify those minimum distribution requirements don't apply for calendar year 2020.

That will reduce individual income tax collections by $34 million in 2019-20 and $41 million in 2020-21. LFB said that move will result in higher distributions in future years, resulting in a boost of $6 million in tax collections for 2021-22 and 2022-23.

Other federal moves that will impact state coffers include the decision by the IRS to push back until July 15 the deadline to file taxes. Those making estimated tax payments over the course of the year owe interest of 12 percent on any underpayments. But that interest doesn't apply if the taxpayer qualifies for a federal extension of the time to file due to a presidentially declared disaster. That's a hit of up to $28 million for state income and franchise tax collections in 2019-20.

Meanwhile, there are other provisions that would require legislative action to match state statutes to the new federal law.

For example, federal law treats loans from a qualified employer retirement plan as gross income with an exemption for the first $50,000. The new federal law upped the exemption limit to $100,000 and delayed by one year the repayment of such loans.

Matching state law to that provision would reduce state tax revenue by $12.5 million through mid-2021.

Read the memo:

Still, Magney said the guidance allowing an extension still stood. Under that guidance, ballot count would take place at the same polling location and clerks would be responsible for posting "such plans to reconvene promptly and as widely as possible so that residents are aware of the plan."

See the guidance on election night counting extensions on page 3:
https://elections.wi.gov/sites/elections.wi.gov/files/2020-03/Complete%20Packet%203_31.pdf

-- The DNC has reserved $22 million in ads on YouTube across 14 states, including Wisconsin, to support GOTV for the eventual nominee and other party candidates running in November.

In most states, the ads will start running Oct. 1. But Wisconsin is one of four, along with Florida, Michigan and Pennsylvania, where the spots will begin Sept. 1.

A DNC spokeswoman declined to say how much of the $22 million was reserved in Wisconsin.

See the release:

AMERICAN OVERSIGHT

-- While the full economic impact of the COVID-19 pandemic will not be known for some time, Wisconsin's county and municipal governments "clearly will not be spared from the fiscal havoc," a new Wisconsin Policy Forum report says.

Almost all communities, but especially state-designated premier resort areas like Rhinelander, Eagle River, Bayfield and the Wisconsin Dells, "are nearly certain to see a sharp decline" in sales tax and hotel room tax revenues, according to the report.

WPF indicated Wisconsin's communities might be more resilient than those in other states, thanks to an "unusual" 65 percent dependence on state aid, which is cemented in the 2019-21 biennial budget, and property taxes, which the report said tend to weather recessions better than other revenues.

But the report warned some communities allow residents to pay property taxes in installments over the first few months of the year and could now have difficulty collecting the remaining unpaid taxes.

"These communities also stand to suffer significant losses in private-sector jobs and employment," the report read.

A previous WisPolitics.com story found finance experts believed the state is currently in a much better financial space than at the beginning of the 2008 Great Recession, but the rainy day fund and recent federal aid still won't be enough to cushion municipalities and the state in a prolonged downturn.

See WisPolitics.com's earlier story:
https://www.wispolitics.com/2020/fri-pm-update-fitzgerald-calls-evers-plan-for-april-7-election-a-complete-fantasy/

See more:

-- The state would lose $128.5 million in income and franchise tax revenue in the current budget if lawmakers match state law to various provisions in the federal coronavirus bills.

Even if the state declines to match the federal provisions, it's still in line to see tax collections drop $76.5 million through mid-2021, according to the Legislative Fiscal Bureau.

Still, those changes also would produce a boost of about $19 million in 2021-23 compared to what would be expected otherwise.

The LFB memo notes that generally, it requires action by the Legislature for changes to

AMERICAN OVERSIGHT

federal law to take effect for state tax purposes. But several provisions in the federal bills will affect Wisconsin collections regardless of state action.

For example, federal law requires those in a qualified retirement trust to begin taking distributions generally as of April 1 in the calendar year after participants reach age 72, or 70.5 for those who hit that age prior to Jan. 1, 2020. The federal coronavirus bills specify those minimum distribution requirements don't apply for calendar year 2020.

That will reduce individual income tax collections by $34 million in 2019-20 and $41 million in 2020-21. LFB said that move will result in higher distributions in future years, resulting in a boost of $6 million in tax collections for 2021-22 and 2022-23.

Other federal moves that will impact state coffers include the decision by the IRS to push back until July 15 the deadline to file taxes. Those making estimated tax payments over the course of the year owe interest of 12 percent on any underpayments. But that interest doesn't apply if the taxpayer qualifies for a federal extension of the time to file due to a presidentially declared disaster. That's a hit of up to $28 million for state income and franchise tax collections in 2019-20.

Meanwhile, there are other provisions that would require legislative action to match state statutes to the new federal law.

For example, federal law treats loans from a qualified employer retirement plan as gross income with an exemption for the first $50,000. The new federal law upped the exemption limit to $100,000 and delayed by one year the repayment of such loans.

Matching state law to that provision would reduce state tax revenue by $12.5 million through mid-2021.

Subject: FW: Unemployment Help - Richard Olson

Hey John,

Sorry to bother you with this! This guy just needs access to his password (he applied for unemployment back in 2008). He's tried to do it online, but 2008 was so long ago that his information is outdated. He's been calling the number in the screenshot below for 3 days with no success. Is there any way to get him in touch with someone so he can do the rest online?

Thank you!

Liz

collin@will-law.org | 414-607-2558

WISCONSIN INSTITUTE FOR LAW & LIBERTY

Governor Evers Confirms Drive-Up Religious Services Are Legal

Prompt response to WILL's letter seeking clarity

The News: Following **a letter** from the Wisconsin Institute for Law & Liberty (WILL) and attorney Michael Dean, Governor Tony Evers **clarified today** that drive-up religious services are, in fact, permitted under the "Safer at Home" order. WILL and Michael Dean issued the letter Thursday after numerous Wisconsin churches reported that local government officials were using the "Safer at Home" order to prohibit drive-up services.

Governor Evers' Response: Governor Evers promptly issued a **press release** making it clear that churches and religious entities are "essential" and that services may be held whether they are small gatherings of fewer than 10

AMERICAN OVERSIGHT

people, or larger gatherings such as drive-up services “with congregants staying in cars, avoiding person-to-person contact.”

The Quote: WILL President and General Counsel Rick Esenberg said, “We are grateful that Governor Evers issued a prompt statement to help clarify the ‘Safer at Home’ order does not prohibit drive-up religious services. We hope that local officials take notice of this and immediately cease all attempts to prohibit such services. Any local government that does not comply should know that WILL attorneys are ready, willing and able to take all actions necessary to defend the rights of Wisconsinites.”

Background: Numerous churches around Wisconsin have planned drive-up religious services this weekend to be conducted in accordance with social distancing guidelines. But religious leaders have reported that some local government officials have interpreted Governor Evers’ “Safer at Home” order to prohibit this type of religious gathering. This interpretation conflicts with both Governor Evers’ order and the Wisconsin Constitution’s protection of religion under Article I, § 18. Seeking clarity, WILL and attorney Michael Dean wrote a joint letter to Governor Evers earlier today.

Going Forward: Churches throughout Wisconsin are able to host drive-up services for Easter Sunday and beyond. Any church engaged in such a service who is cited or otherwise has a government entity interfere with their worship should contact WILL attorneys immediately (info@will-law.org).

PLEASE do what it takes to temporarily change the laws to allow therapists to hold counseling sessions over the phone and for them to be billed to insurance.

Mental health crises are already at an all time high - people need to be to able to continue their services to avoid relapses in substance abuse, worsening depression, suicidal thoughts - I urge you for the safety of our therapists and their families to allow counselors to hold sessions over the phone or via Skype. Other medical professionals have masks and gowns that they can wear - therapists do not have that and are in a closed room with individuals who may be sick and yet still need mental health care.

Please be proactive and do whatever is necessary for people to continue to get the help they desperately need. Our legislators and insurance companies need to make this happen - it is not only everyone's physical health that is at stake, but also their mental health.

Thank you for your time,

AMERICAN OVERSIGHT

Subject: Urgent Request from City of Park Falls, Wisconsin

Dear Rep. Felzkowski,

I am writing to you to draw your attention to a lingering economic problem and opportunity in Northern Wisconsin, and also to immediately aid in the national wide pandemic of COVID-19. I know you are aware of the long saga regarding the paper mill in Park Falls. Currently, the mill (Park Falls Development, LLC) is sitting idle (but being maintained and heated) and up to this week, *was* planning on restarting operations in mid-April 2020. The products they were going to make have had their contracts rescinded due to grave economic fears. However, the nation currently needs certain paper products more than ever: paper/fiber for masks, personal protection equipment, single-use toweling, etc. The paper mill is sitting here now, capable of making all the paper grades needed at this time of national crisis. The paper industry is always near full capacity as the paper machines must be running continuously to be viable. I can't imagine a better mill to immediately bring back online in the time required (immediate), with a relatively small investment. Its **design and nimble** abilities make it ideal to serve at this time for the *variety* of products needed.

Due to the cancellation of orders, their projected cash flow is gone. In the upcoming talks about stimulus to the economy, **I urge you to consider advocating for loan guarantees, 0% financing,grants, etc., in order to get this mill back online to serve the nation.** Up to a $10 million loan guarantee/grants/0% financing (or combination) would be enough to immediately bring the mill back up, and allow expedited startup of pulp production on the paper machines. The owners have worked tirelessly to come up with a plan to restart this facility, and like so many businesses, the rug has been pulled out from underneath them. Also, this facility would supply critical support to the local job market, while other employers are shutting down (including the broader supply chain). The physical nature of the mill also ensures a safe working environment relative to the orders surrounding the pandemic (spacing, atmospheric conditions, air flow, etc.).

AMERICAN OVERSIGHT

The principal in charge of operations is Mr. Nick Gehre. His phone number is 906-282-1281 or ngehre@parkfallsindmgt.com . He has worked tirelessly to get this mill restarted and is ready to work for a new purpose for the mill. If you have any questions, feel free to contact me.

Re: Urgent Support for Wisconsin's Hospitality Industry

Date: March 31, 2020

In addition to my role as President of the Tavern League of Wisconsin, my brother David and I own and operate The Village Supper Club in

AMERICAN OVERSIGHT

Delavan, WI. We took over the family business from our parents who founded The Village Supper Club in 1966. Wisconsin is proudly home to thousands of family businesses like mine.

For over 50 years my family has served our community. Now my future as well as the future of thousands of other small businesses is in jeopardy. We understand the need to close our businesses to fight this virus. Sadly, that doesn't pay our bills.

Taverns and restaurants in Wisconsin will have been closed to regular business for 38 days after the current Executive Order expires. Without the additional help of state government the hospitality industry will suffer significant permanent loss.

The federal stimulus bill is a start but more is needed on the state and local level to enable our Members to survive. We need action. We need help. We are doing our part, we need state government to do its part.

- Prohibit any foreclosures or evictions of any licensee until 60 days after the Executive Order expires.
- Prohibit any insurance cancellations of any licensee until 60 days after the Executive Order expires.
- Waive 2020 liquor/beer municipal license fee and all other municipal and state fees for all alcohol/food license holders.
- Initiate a sales tax holiday for all sales at licensed establishments effective March 17th through July 30th.
- Repeal the 15 day beer credit law and 30 day alcohol credit day law. Licensee holders who are unable to make a payment during the shutdown cannot receive future shipments of product.
- Permit delivery of alcohol through age verified sales via phone/online transactions for Class B license holders during the Executive Order. Many of our members do not have a restaurant license and alcohol sales are their only cash flow. In addition it will help licensees reduce their inventory. Other states have made this change to assist licensees to deliver alcohol.

AMERICAN OVERSIGHT

- Repeal the consignment law for alcohol. This law has presented a problem for our members in returning product after the Executive Order was issued.
- Delay July 2019 local property tax payment for all license holders.
- Provide a state credit for 2020 property taxes for license holders.
- Prohibit cable/satellite providers from canceling service of a Class B licensee until 60 days after the Executive Order expires.
- Prohibit municipalities from engaging in alcohol sales for the remainder of 2020 and instead require them to contract with existing licensees for any event where alcohol sales occur.
- Allow golf courses to open to golfers only.

My Members need urgent legislative action. We look forward to working with you to ease the financial burden crippling the family businesses of thousands of taverns and restaurants in Wisconsin.

Sincerely,

Chris Marsicano, TLW President

Sent from Mail for Windows 10
To whom it may concern,
I am writing to you, an elected representative of the people, to ask how under the corona virus situation that the election to be held on April 7th is not being postponed to a later date. I live in Grafton, WI. My village hall is not allowing citizens inside for early voting. I know Milwaukee and Madison have up to 6 weeks to vote early, and have been for a while now. I have sent away for absentee ballots almost two weeks ago and have not gotten them. Here in lies the problem. If this pandemic continues, and we are on lock down like Illinois, New York, California, etc., how are average citizens who don't have the ability to vote early, by absentee, or at a polling place because it is closed supposed to vote? Most people are not going to feel safe going to the poles on April 7th if we are quarantined for two weeks. There are plenty of voters, young and especially older, who wont go, or don't have the ability, to go through the hoops to get an absentee ballot. This is voter suppression, making the results illegitimate. I need to know why this isn't being moved to a later date? The April 15th tax deadline has been moved to July 15th. This election could easily be moved to May, or even June. I need to know why, we the people, are not getting an equal voice here? Please explain this to me. Thank you in advance.

Sincerely,
Jeremy J. Cassel

Wisconsin Academy of Physician Assistants

From WisPolitics.com ...

-- Gov. Tony Evers is recommending a federal judge order Wisconsin to conduct the April 7 ballot largely by mail while moving back deadlines for voters to request absentee ballots, as well as for clerks to receive and process them.

AMERICAN OVERSIGHT

The state DOJ, representing Evers, offered the proposal as a "middle ground" in several federal suits seeking changes to next week's spring election. Assistant Attorney General Hannah Jurss argued the recommendations were meant to "save lives" amid the COVID-19 pandemic.

Jurss wrote in an amicus brief late yesterday Evers isn't siding with either party in the combined suits. But instead, he's offering suggestions "were this Court to order short-term changes to the election process under these extraordinary circumstances."

The brief comes after Evers last week called on lawmakers to change state statutes to allow for every registered voter to be mailed an absentee ballot in the wake of the COVID-19 pandemic. Republican legislative leaders rejected that proposal, which Senate Majority Leader Scott Fitzgerald knocked as "complete fantasy" and "logistically impossible."

The state's top election official later said local clerks would not be able to get the materials necessary to follow through on the guv's proposal.

The Elections Commission also said yesterday nearly 60 percent of Wisconsin municipalities are short poll workers. And 111 jurisdictions say they don't have enough staff for even one polling place.

In the brief, Jurss urged easing restrictions on returning absentee ballots and taking steps to make it easier to count the anticipated influx of ballots by mail. As of yesterday morning, local clerks had already received 972,232 requests for absentee ballots, according to the Elections Commission. That exceeds the 819,316 absentee ballots that were cast in the November 2016 presidential election.

The brief asks U.S. Judge Willam Conley to consider:

*Extending the April 2 deadline for registered voters to request an absentee ballot. A new deadline wasn't offered in the brief.

*Issuing an order that would "relax" enforcement of the requirement for a witness signature on absentee ballots to make it easier to return them quickly and without person-to-person contact. State law requires another adult U.S. citizen to sign a mail-in absentee ballot attesting they witnessed the voter sign the ballot. But with state and federal guidelines calling for social distancing practices, Jurss argued it would be "problematic" to force voters into in-person interactions.

*A "short" extension to the deadline of 8 p.m. on Election Day for clerks to receive absentee ballots. The brief uses a one-week delay as an example to help facilitate an election primarily conducted via mail.

Members of the Wisconsin Elections Commission Elections yesterday rejected by a 4-2 margin a motion that would have asked Conley for a similar extension despite a majority

AMERICAN OVERSIGHT

of the panel backing the idea. The commission's three Dems opposed a piece of the motion affirming the election should be held on April 7, while GOP Chair Knudson highlighted "ripple effects" that could interfere with the local and state canvass process.

*Ordering municipalities to set up "return drop boxes" to help avoid in-person contact, recommending the use of book return slots at local libraries, which are currently closed due to the pandemic. In a memo to clerks yesterday, the Elections Commission recommended such a move.

*Allowing clerks to open absentee ballots before 7 a.m. on Election Day and push back the deadline to count ballots to account for a potential extension for clerks to receive ballots by mail.

The brief urges in-person voting should still be allowed Tuesday -- "or as soon as possible thereafter if the Court deems April 7 to be impossible" -- for the few who were unable to vote absentee. That group of voters would include, for example, those who require assistive technology or are unable to read and write in English without help.

See the brief:
https://www.wispolitics.com/wp-content/uploads/2020/03/Evers-amicus-brief.pdf

-- The Elections Commission met last night in a closed session to discuss pending litigation.

The commission took no action after noticing the hearing two hours before meeting at 9:45 p.m.

There is a hearing scheduled this afternoon in the three federal suits filed related to Tuesday's election. Conley combined them into one case.

-- The conservative MacIver institute doesn't have a right under the First Amendment to be on Dem Gov. Tony Evers' media list or have access to his press conferences, a federal judge ruled.

U.S. Judge James Peterson ruled yesterday the guv's press conferences amount to a "nonpublic forum" that allows him to "restrict access using reasonable, viewpoint-neutral criteria."

He also found reasonable the criteria Evers' office established in June to determine how and when media are allowed access to his exclusive or limited access events. They include whether applicants were a "bona fide correspondent of repute in their profession." Another asked if applicants or their employing organizations "engaged in any lobbying, paid advocacy, advertising, publicity or promotion work for any individual, political party, corporation or organization?"

AMERICAN OVERSIGHT

Peterson noted MacIver "brands itself as a think tank committed to ideological principles." That includes advocating for various policies.

"Evers has reasonably concluded that MacIver is not a bona fide news organization," Peterson wrote.

MacIver sued after its reporters were denied entry to a background briefing the guv's office provided a select group of reporters in February ahead of Evers releasing his budget. It also complained it wasn't added to the guv's media list, raising First and Fourteenth amendment claims.

MacIver President Brett Healy said the group was reviewing the decision and discussion options to appeal.

"Plain and simple, Judge Peterson just missed this," Healy said. "Now, more than ever, it is vital that the governor stop blocking MacIver and that all news sources have fair and equal access to information and briefings"

The guv's office said the ruling speaks for itself.

Read the decision:
https://www.wispolitics.com/wp-content/uploads/2020/03/200331Ruling.pdf

-- Supreme Court candidate Jill Karofsky has filed a complaint against WMC and the Republican State Leadership Committee, accusing them of falsely suggesting she "went easy on predators" in a case where she wasn't the assistant DA who reached the plea deal.

Karofsky asked the Elections Commission to fine the groups and take other actions, citing a state law prohibiting anyone from making "a false representation pertaining to a candidate or referendum which is intended or tends to affect voting at an election."

Both groups have been running ads citing the case of Donald Worley in their claims. Court records show Worley reached a plea deal in March 2000. While Karofsky is listed in online court records as the ADA on the case, she made one appearance in July 2001, after Worley's sentence was handed down.

Karofsky's campaign has sent cease-and-desist letters to both groups and has asked TV stations to pull the ads.

WMC spokesman Nick Novak said the complaint has no merit and the group stood by the ad, because it was based on information gathered from official government records. Novak said the spot is no longer running, and WMC is up with a new ad "with even more unsettling facts about her poor judgment."

AMERICAN OVERSIGHT

He didn't immediately release a copy of the new ad.

The RLSC didn't immediately respond to an email seeking comment.

Read the complaint:
https://www.wispolitics.com/wp-content/uploads/2020/03/200331Complaint.pdf

-- Gov. Tony Evers announced Wisconsin has received a second shipment of personal protection equipment from the Strategic National Stockpile.

The shipment is being distributed to health care workers, medical facilities and clinics.

It includes approximately: 51,880 N95 respirators, 130,840 face/surgical masks, 23,400 face shields, 20,226 surgical gowns, 96 coveralls, and 79,000 pairs of gloves. The shipment essentially doubles what the state has received from the SNS for all of those supplies.

Evers has also asked FEMA for supplies as well as pursuing them by other means.

4 more area Hobby Lobby's were shut down Tuesday as a nonessential business
... [5 of 6 closed] Wauwatosa location remains open for now, as do some other large chain craft stores. ... "We made contact with the business around 11 a.m. and found that it was open," West Allis [PD Deputy] Botsch said. "We took this as an opportunity to educate the business on the specifics of the governor's order. The business was cooperative and closed without incident." ... Signs outside the Brookfield and Waukesha

AMERICAN OVERSIGHT

Hobby Lobby stores early Tuesday indicated they were "operating as an essential business" by "offering PPE mask supplies, educational supplies, office supplies and various components for home small businesses." Wauwatosa punted to DHS on Hobby Lobby's essential status. WEDC reportedly ruled them non-essential but did not return call. 4 four suburban Michaels stores were open Tuesday. JOANN Fabrics and Crafts had 2 of 4 locations open. Other police officials comment.
https://www.jsonline.com/story/communities/2020/03/31/5096641002/

Until further notice: Madison businesses struggle to deal with the coronavirus fallout
... Restaurants are among the businesses most visibly affected ... but the entire hospitality industry is suffering. Destination Madison president and CEO Deb Archer said hotels are likely "the first ones that were hit really badly ... the invisible industry," Archer added, because "people don't recognize the behemoth of an engine that is. ... [air travel] spigot just got turned off really, really dramatically," she said. "And then the other industries sort of cascaded." Fair Oaks Diner owner Austin details decision to shutter. Food Fight's Garcia Hall: "I think the restaurants that are staying open now are not staying open to make money. It's far more about their family of staff." Tri-Culver's owner Bulgrin seen 50% loss in business since inside dining ban, "will continue to try and provide" community donations. WEDC surveyed businesses mid-March, compiled economic disaster injury worksheets, showed more than half had cut employees, likely more layoffs have followed as the pandemic has continued. Some survey details. WEDC's Callender working "to develop a complete picture of the economic impact COVID-19 has had on businesses, especially small businesses." Retailer Schroeder discusses potential of going online until re-opening. GMCoC's Brandon said biz problem-solvers are reaching "a point where it's starting to stabilize. We can transition from fire-fighting ... and we can start to be more proactive ... how we relay that to the government. ... Madison and this region will be one of the bright spots coming out of this recovery. "
https://madison.com/ct/9e6c5f62-cfba-554c-bd01-c56422c0d992.html

Judge rules against conservative think tank in Evers lawsuit
... Judge James Peterson on Tuesday rejected their arguments, saying MacIver can still report on what Evers does without being invited to his press briefings or being on his email distribution list. ... said Evers can restrict access using a "reasonable, viewpoint-neutral criteria. ... Ordering Evers to grant access to MacIver journalists would establish an untenable precedent," Peterson wrote. "Any citizen journalist could make the same case MacIver has made ... Evers has reasonably concluded that MacIver is not a bona fide news organization." ... Plain and simple, Judge Peterson just missed this," [MacIver 's] Healy said. "Now, more than ever, it is vital that the governor stop blocking MacIver and that all news sources have fair and equal access to information and briefings." Baldauff for Evers declined comment, ruling speaks for itself.

UW-Madison braces for estimated $100M loss because of pandemic
... if life largely returns to normal by June, a timeline that is up in the air ... depending on

AMERICAN OVERSIGHT

the public's compliance with social distancing. "This is a big hit," [Chancellor Blank] told the University Committee during a Monday meeting held via videoconference. ... about 3.2% of UW-Madison's $3.1 billion budget. ... equivalent of a 22% cut in state money for a single year. Refunds include dorm, dining, parking fees, not tuition and fees, which Blank said System guidance suggested not refunding since the semester will be completed. UW's Pitsch had no estimate for total loss for its 26 campuses, some of which had pre-epidemic deficits. Blank also noted several staff and students tested positive, but had no exact count. Analysis shows UW-Madison could receive $19M of $2.2T stimulus, which Blank called "helpful, but it won't make a difference in a large sense." Grad students seek waiver of student fees. Grad student Flynn, UW's Lucas, UNC-W prof. McCLure comment.
https://madison.com/wsj/fc8f7e42-cbb3-5d2d-ad16-6e1e5aab8e3a.html

Madison City Council takes stand against F-35 fighter jets
... During its first-ever virtual meeting -- that stretched from Tuesday at 6:30 p.m. to Wednesday at 2:50 a.m. -- the council [13-5] adopted an advisory resolution that opposes the fighter jets and calls on the secretary of the Air Force to station them elsewhere. ... Zoom video conference went relatively smoothly, with only a few awkward pauses and miscues. ... Nearly 90 members of the public wanted to testify on the new F-35 resolution during the meeting but were unable to because of the late hour. More than 400 people registered for or against the resolution, but did not wish to speak. Some in support of F-35s were not from the Madison area -- one was even from Texas. ... Henak's motion to delay [due to late hour] failed on a 4-15 vote. ... [GMCoC's] Brandon in a statement called the council's decision "tone deaf." Council also 13-6 approved more emergency powers for Mayor Rhodes-Conway, who was unsure she'd need them, but "the worst is definitely yet to come." Council also reaffirmed its plan to loan 100 police officers for DNC convention.

Wisconsin Academy of Physician Assistants

From WisPolitics.com ...

-- Gov. Tony Evers is recommending a federal judge order Wisconsin to conduct the April 7 ballot largely by mail while moving back deadlines for voters to request absentee ballots, as well as for clerks to receive and process them.

AMERICAN OVERSIGHT

The state DOJ, representing Evers, offered the proposal as a "middle ground" in several federal suits seeking changes to next week's spring election. Assistant Attorney General Hannah Jurss argued the recommendations were meant to "save lives" amid the COVID-19 pandemic.

Jurss wrote in an amicus brief late yesterday Evers isn't siding with either party in the combined suits. But instead, he's offering suggestions "were this Court to order short-term changes to the election process under these extraordinary circumstances."

The brief comes after Evers last week called on lawmakers to change state statutes to allow for every registered voter to be mailed an absentee ballot in the wake of the COVID-19 pandemic. Republican legislative leaders rejected that proposal, which Senate Majority Leader Scott Fitzgerald knocked as "complete fantasy" and "logistically impossible."

The state's top election official later said local clerks would not be able to get the materials necessary to follow through on the guv's proposal.

The Elections Commission also said yesterday nearly 60 percent of Wisconsin municipalities are short poll workers. And 111 jurisdictions say they don't have enough staff for even one polling place.

In the brief, Jurss urged easing restrictions on returning absentee ballots and taking steps to make it easier to count the anticipated influx of ballots by mail. As of yesterday morning, local clerks had already received 972,232 requests for absentee ballots, according to the Elections Commission. That exceeds the 819,316 absentee ballots that were cast in the November 2016 presidential election.

The brief asks U.S. Judge Willam Conley to consider:

*Extending the April 2 deadline for registered voters to request an absentee ballot. A new deadline wasn't offered in the brief.

*Issuing an order that would "relax" enforcement of the requirement for a witness signature on absentee ballots to make it easier to return them quickly and without person-to-person contact. State law requires another adult U.S. citizen to sign a mail-in absentee ballot attesting they witnessed the voter sign the ballot. But with state and federal guidelines calling for social distancing practices, Jurss argued it would be "problematic" to force voters into in-person interactions.

*A "short" extension to the deadline of 8 p.m. on Election Day for clerks to receive absentee ballots. The brief uses a one-week delay as an example to help facilitate an election primarily conducted via mail.

Members of the Wisconsin Elections Commission Elections yesterday rejected by a 4-2 margin a motion that would have asked Conley for a similar extension despite a majority

AMERICAN OVERSIGHT

of the panel backing the idea. The commission's three Dems opposed a piece of the motion affirming the election should be held on April 7, while GOP Chair Knudson highlighted "ripple effects" that could interfere with the local and state canvass process.

*Ordering municipalities to set up "return drop boxes" to help avoid in-person contact, recommending the use of book return slots at local libraries, which are currently closed due to the pandemic. In a memo to clerks yesterday, the Elections Commission recommended such a move.

*Allowing clerks to open absentee ballots before 7 a.m. on Election Day and push back the deadline to count ballots to account for a potential extension for clerks to receive ballots by mail.

The brief urges in-person voting should still be allowed Tuesday -- "or as soon as possible thereafter if the Court deems April 7 to be impossible" -- for the few who were unable to vote absentee. That group of voters would include, for example, those who require assistive technology or are unable to read and write in English without help.

See the brief:

-- The Elections Commission met last night in a closed session to discuss pending litigation.

The commission took no action after noticing the hearing two hours before meeting at 9:45 p.m.

There is a hearing scheduled this afternoon in the three federal suits filed related to Tuesday's election. Conley combined them into one case.

-- The conservative MacIver institute doesn't have a right under the First Amendment to be on Dem Gov. Tony Evers' media list or have access to his press conferences, a federal judge ruled.

U.S. Judge James Peterson ruled yesterday the guv's press conferences amount to a "nonpublic forum" that allows him to "restrict access using reasonable, viewpoint-neutral criteria."

He also found reasonable the criteria Evers' office established in June to determine how and when media are allowed access to his exclusive or limited access events. They include whether applicants were a "bona fide correspondent of repute in their profession." Another asked if applicants or their employing organizations "engaged in any lobbying, paid advocacy, advertising, publicity or promotion work for any individual, political party, corporation or organization?"

AMERICAN OVERSIGHT

Peterson noted MacIver "brands itself as a think tank committed to ideological principles." That includes advocating for various policies.

"Evers has reasonably concluded that MacIver is not a bona fide news organization," Peterson wrote.

MacIver sued after its reporters were denied entry to a background briefing the guv's office provided a select group of reporters in February ahead of Evers releasing his budget. It also complained it wasn't added to the guv's media list, raising First and Fourteenth amendment claims.

MacIver President Brett Healy said the group was reviewing the decision and discussion options to appeal.

"Plain and simple, Judge Peterson just missed this," Healy said. "Now, more than ever, it is vital that the governor stop blocking MacIver and that all news sources have fair and equal access to information and briefings"

The guv's office said the ruling speaks for itself.

Read the decision:
https://www.wispolitics.com/wp-content/uploads/2020/03/200331Ruling.pdf

-- Supreme Court candidate Jill Karofsky has filed a complaint against WMC and the Republican State Leadership Committee, accusing them of falsely suggesting she "went easy on predators" in a case where she wasn't the assistant DA who reached the plea deal.

Karofsky asked the Elections Commission to fine the groups and take other actions, citing a state law prohibiting anyone from making "a false representation pertaining to a candidate or referendum which is intended or tends to affect voting at an election."

Both groups have been running ads citing the case of Donald Worley in their claims. Court records show Worley reached a plea deal in March 2000. While Karofsky is listed in online court records as the ADA on the case, she made one appearance in July 2001, after Worley's sentence was handed down.

Karofsky's campaign has sent cease-and-desist letters to both groups and has asked TV stations to pull the ads.

WMC spokesman Nick Novak said the complaint has no merit and the group stood by the ad, because it was based on information gathered from official government records. Novak said the spot is no longer running, and WMC is up with a new ad "with even more unsettling facts about her poor judgment."

AMERICAN OVERSIGHT

He didn't immediately release a copy of the new ad.

The RLSC didn't immediately respond to an email seeking comment.

Read the complaint:
https://www.wispolitics.com/wp-content/uploads/2020/03/200331Complaint.pdf

-- Gov. Tony Evers announced Wisconsin has received a second shipment of personal protection equipment from the Strategic National Stockpile.

The shipment is being distributed to health care workers, medical facilities and clinics.

It includes approximately: 51,880 N95 respirators, 130,840 face/surgical masks, 23,400 face shields, 20,226 surgical gowns, 96 coveralls, and 79,000 pairs of gloves. The shipment essentially doubles what the state has received from the SNS for all of those supplies.

Evers has also asked FEMA for supplies as well as pursuing them by other means.

The Madison Club

From WisPolitics.com ...

-- Green Bay has filed a federal lawsuit seeking to force the state to cancel in-person voting for the April 7 election and instead allow clerks to mail ballots to all registered voters, as a way to fight coronavirus.

AMERICAN OVERSIGHT

The city is also asking a federal judge to give local clerks until June 2 to count all returned ballots.

Local officials and others have repeatedly called for the state to delay the April 7 election or provide other means for voters to cast ballots in light of the COVID-19 pandemic. But Gov. Tony Evers has countered voters should request absentee ballots to avoid going to the polls.

The suit charges the refusal of Evers and the Wisconsin Elections Commission to change the date of the election or the method of voting "endangers not only the public health, but also the legitimacy of that same election process."

Keeping the current process in place exposes municipal employees to members of the public for in-person registration and absentee voting "despite mandates from state officials and health care practitioners to socially distance and to prevent contact with others as much as possible," the suit says.

Along with canceling in-person voting April 7 and allowing ballots be mailed, the suit seeks to:

*extend the deadline to register to vote electronically or by mail to May 1. A federal judge in a separate suit filed by state and national Dems has already pushed back the deadline to register electronically to March 30 after it had previously been March 18.

*cancel in-person registration and absentee voting.

Currently, absentee ballots must be received by 8 p.m. on Election Day to be counted. The state and national Dem parties have already asked in their suit to extend the deadline to count absentee ballots. The judge denied the request, but indicated Dems could raise the issue again if they had evidence the step was needed.

As of yesterday morning, local clerks had received 554,116 absentee applications. That's more than double the 249,503 requested for the spring 2016 election, which also included a presidential primary.

According to the suit, Green Bay was already dealing with a backlog of more than 4,000 absentee ballots as of Friday.

Meanwhile, only 54 of the city's 278 poll workers have agreed to work April 7. Of those, only 11 are chief inspectors, who must be present at each polling location.

The suit notes there is a global message to employ social distancing to stop the spread of COVID-19, but that conflicts with the message of proceeding with the election under current methods.

AMERICAN OVERSIGHT

"The only reasonable message from the State of Wisconsin should also be to socially distance," the suit argues. "Not to socially distance unless you want to vote. Not to socially distance unless you are young. Not to socially distance unless you care about democracy. It needs to be to socially distance. Full stop."

Read the motion:
https://www.wispolitics.com/wp-content/uploads/2020/03/200325Suit.pdf

-- Gov. Tony Evers' stay-at-home order closing all non-essential travel in the state goes into effect this morning and could last a month.

The order also bans public and private gatherings outside of a "single household or living unit" under most circumstances.

Along with certain businesses, essential governmental functions will remain open. But according to the order, all state, local and tribal governments have some discretion to determine their own essential functions that will remain operational to "provide and support the health, safety, and welfare of the public."

See the order:
https://www.wispolitics.com/wp-content/uploads/2020/03/200324Order.pdf

Click here for links to coronavirus resources:
https://www.wispolitics.com/2020/coronavirus-resources/

-- The Department of Workforce Development today closed state job centers to comply with the order.

DWD Secretary Caleb Frostman said the organization will still provide unemployment and job search services remotely to the public during the outbreak.

"Our dedicated job center staff have been putting themselves and their families at risk each day while working directly with the public providing assistance at the job centers statewide," Frostman said.

More than 30,000 unemployment insurance claims were made in the state between Sunday and Monday. That's compared to under 2,500 claims for the same two days of 2019.

Evers Administration Issues 'Stay-At-Home' Order For Wisconsin
... [DHS order at Evers direction] will go into effect at 8 a.m. [today] and remain in effect until April 24, unless [superceded] ... Under the order, people don't need permission to leave their homes, but are only allowed to do so for specific things, like going to the grocery store or ... doctor. People will be allowed to exercise outside, but are required to keep six feet between themselves and others, unless they live with the person. Group sports, like basketball, soccer and ultimate frisbee, are banned. Playgrounds are also

closed. Essential businesses and operations, like hospitals, grocery stores, hardware stores and pharmacies, are allowed to continue operations and don't need any special certification to do so. Evers in call with reporters: "At the end of the days, folks, we are all in this together, and during the most difficult times we are called upon to remember our Wisconsin values of kindness, compassion, empathy, and respect. I'm going to continue to ask for your help, not only to remember these values but to do your part to keep our friends and our family and, frankly, most importantly our health care workers in communities, safe. Unfortunately, that means no potlucks, no play dates and no dinner parties." Details on permitted activities, essential businesses. Penalties for non-compliance: $250 fine or up to 30 days in jail. DHS Sec. Palm suggest being in contact with no more than 5 people during the stayhome. RPW chair Hitt blamed Evers for "mass confusion for people and businesses across Wisconsin. Yesterday, he chose to announce his forthcoming shelter in place order on Twitter, sat silent for nearly 24 hours, and then released a 16-page order that exposes violators to up to 30 days of imprisonment."
https://www.wpr.org/evers-administration-issues-stay-home-order-wisconsin

Without strict action, WI could see 22K COVID-19 cases by April 8, officials say
... "Thousands of Wisconsinites would need hospitalization, and we would exceed our current hospital-bed capacity," [DHS Sec.-designate] Palm said. ... should try to limit their day-to-day contact to no more than five people. ... UW Health, SSM Health and UnityPoint Health-Meriter are each treating COVID-19 patients, the hospitals said Tuesday. As recently as Friday, only Meriter said it had treated a hospitalized COVID-19 patient and that person had been discharged. Dr. Westergaard said cases will continue rising for weeks before leveling off, "If we do them well, they're going to seem like tremendous overreactions because that's going to mean that the virus, the epidemic, did not get too far out of control. ... It could potentially be thousands (of cases) right now" due to untested people with symptoms. 457 cases, > 8,200 negative tests, 5 deaths in FdL, Ozaukee and Milwaukee counties.

Local elections officials scramble as they hemorrhage Election Day workers
Madison Clerk Witzel-Behl had 525 cancellations, roughly half her clerkforce, Middleton Clerk Burns had 25 of 72 cancels. Fitchburg has about 124 poll workers, many of them in their 60s and 70s, called for govt workers, teachers, others seeking temporary gigs. Witzel-Behl said moving and consolidating polling places is likely, especially with more cancellations, working to find new sites to replace at least 21 polling sites. Pollworker Hanson-Schlachter quitting to protect 65 y/o mother, joined growing group -- including Burns, LOWV -- who support postponing or moving to mail-in election. Evers on Tuesday renewed urging absentee voting, "What we do know is the simplest way to vote is either as an absentee vote or early voting. We're working hard to understand the issues of what's happening on April 7, but what we do know for sure is that what's easiest to do is just go online." Reviews surge in absentee. Madison has curbside voting. WEC asked Evers/DHS to find hand sanitizer for workers, directed local clerks to accommodate in-person absentee voting and registration. State Emergency Operations Center helping clerks find absentee envelopes, sanitizer.

Govt Order Causes More WI Businesses To Shut Their Doors
ACE Hardware owner Lochner exempt, but employs many older, part-timers, "We've been spending a great deal of time trying to adjust and protect our staff and still be open to the public. It's very hard to decipher what's right and what's wrong. Information overload is an issue. But we're trying," signage asks customers to keep their distance from others, call-in orders, minimize browsing. Clothier Schwarzbach closed last week, supports "long overdue" stay home order, "It's a very hard decision to tell your employees you're not sure you can pay them but also to have stopped before business slowed down. I know some businesses stayed open because they were still seeing traffic, and we chose to walk away from that." WMC's Bauer: "A lot of businesses face uncertainty and hardship. Many will not be able to reopen when the shelter in place order is lifted, and their employees will need to find new jobs. But, I am confident that private sector businesses will lead the recovery when the crisis passes."
https://www.wpr.org/government-coronavirus-order-causes-more-wisconsin-businesses-shut-their-doors

Businesses close, unemployment rises as Evers' order comes with a dire warning
More than 20,000 people could contract coronavirus and 1,000 could die within two weeks if Wisconsin residents don't comply with Gov. Tony Evers' order to stay home, state health officials said Tuesday. ... "Each and every one of us has to do our part to help slow the spread of COVID-19 so we can flatten the curve to ensure our doctors, nurses and health care workers have the opportunity to do their important work," Evers said in a statement. ... "Obviously, we want a strong economy, who the hell doesn't?" Evers said. "But we have to value a human life at a higher level. I think we can do both, and that's what this order is all about." ... struck a more sober tone than President Donald Trump, who said ... "We're going to be opening relatively soon," Trump said during a Fox News town hall Tuesday. "I'd love to have it open by Easter. ... It's such an important day for other reasons, but I'll make an important date for this, too. I would love to have the country opened up and just raring to go by Easter." ... All public Holy Week and Easter Masses in the Archdiocese of Milwaukee will be canceled ... Archbishop Jerome Listecki announced ... Tuesday in a letter to pastors and parish directors ... "What most concerns me right now would be if we as a country and as a state and as individuals and as communities don't take social distancing seriously," [Hospitals' CMO] Kaufman ... A vaccine likely will not be available for about a year, according to health experts. ... Among other efforts to encourage social distancing, Barrett has asked state leaders to conduct the April 7 election via mail ballots instead of holding it in person. ... Conversations about whether to hold the Democratic National Convention as scheduled in Milwaukee in July are ongoing as well. ... Biden told CNN's Jake Tapper on Tuesday he didn't think the convention should be called off. WI Humane Society announced large dog adoption.

Green Bay sues state to delay spring election and move it to mail
... lawsuit filed Tuesday in federal court asks a judge to order the state [Evers, Palm, WEC] to cancel the April 7 election and mail ballots to all registered voters, a decision that would impact all Wisconsin communities beyond Green Bay. The city also wants the state to extend the deadline for voter registration to May 1 and give municipal clerks a June 2 deadline for counting mailed ballots. ... "We don't believe we should be forcing that choice on the citizens of Green Bay or the citizens of Wisconsin," said Mayor Eric Genrich, who previously served as a Democrat in the state Assembly.

The Madison Club

From WisPolitics.com ...

-- Green Bay has filed a federal lawsuit seeking to force the state to cancel in-person voting for the April 7 election and instead allow clerks to mail ballots to all registered voters, as a way to fight coronavirus.

AMERICAN OVERSIGHT

The city is also asking a federal judge to give local clerks until June 2 to count all returned ballots.

Local officials and others have repeatedly called for the state to delay the April 7 election or provide other means for voters to cast ballots in light of the COVID-19 pandemic. But Gov. Tony Evers has countered voters should request absentee ballots to avoid going to the polls.

The suit charges the refusal of Evers and the Wisconsin Elections Commission to change the date of the election or the method of voting "endangers not only the public health, but also the legitimacy of that same election process."

Keeping the current process in place exposes municipal employees to members of the public for in-person registration and absentee voting "despite mandates from state officials and health care practitioners to socially distance and to prevent contact with others as much as possible," the suit says.

Along with canceling in-person voting April 7 and allowing ballots be mailed, the suit seeks to:

*extend the deadline to register to vote electronically or by mail to May 1. A federal judge in a separate suit filed by state and national Dems has already pushed back the deadline to register electronically to March 30 after it had previously been March 18.

*cancel in-person registration and absentee voting.

Currently, absentee ballots must be received by 8 p.m. on Election Day to be counted. The state and national Dem parties have already asked in their suit to extend the deadline to count absentee ballots. The judge denied the request, but indicated Dems could raise the issue again if they had evidence the step was needed.

As of yesterday morning, local clerks had received 554,116 absentee applications. That's more than double the 249,503 requested for the spring 2016 election, which also included a presidential primary.

According to the suit, Green Bay was already dealing with a backlog of more than 4,000 absentee ballots as of Friday.

Meanwhile, only 54 of the city's 278 poll workers have agreed to work April 7. Of those, only 11 are chief inspectors, who must be present at each polling location.

The suit notes there is a global message to employ social distancing to stop the spread of COVID-19, but that conflicts with the message of proceeding with the election under current methods.

AMERICAN OVERSIGHT

"The only reasonable message from the State of Wisconsin should also be to socially distance," the suit argues. "Not to socially distance unless you want to vote. Not to socially distance unless you are young. Not to socially distance unless you care about democracy. It needs to be to socially distance. Full stop."

Read the motion:
https://www.wispolitics.com/wp-content/uploads/2020/03/200325Suit.pdf

-- Gov. Tony Evers' stay-at-home order closing all non-essential travel in the state goes into effect this morning and could last a month.

The order also bans public and private gatherings outside of a "single household or living unit" under most circumstances.

Along with certain businesses, essential governmental functions will remain open. But according to the order, all state, local and tribal governments have some discretion to determine their own essential functions that will remain operational to "provide and support the health, safety, and welfare of the public."

See the order:
https://www.wispolitics.com/wp-content/uploads/2020/03/200324Order.pdf

-- The Department of Workforce Development today closed state job centers to comply with the order.

DWD Secretary Caleb Frostman said the organization will still provide unemployment and job search services remotely to the public during the outbreak.

"Our dedicated job center staff have been putting themselves and their families at risk each day while working directly with the public providing assistance at the job centers statewide," Frostman said.

More than 30,000 unemployment insurance claims were made in the state between Sunday and Monday. That's compared to under 2,500 claims for the same two days of 2019.

Evers Administration Issues 'Stay-At-Home' Order For Wisconsin
... [DHS order at Evers direction] will go into effect at 8 a.m. [today] and remain in effect until April 24, unless [superceded] ... Under the order, people don't need permission to leave their homes, but are only allowed to do so for specific things, like going to the grocery store or ... doctor. People will be allowed to exercise outside, but are required to keep six feet between themselves and others, unless they live with the person. Group sports, like basketball, soccer and ultimate frisbee, are banned. Playgrounds are also

closed. Essential businesses and operations, like hospitals, grocery stores, hardware stores and pharmacies, are allowed to continue operations and don't need any special certification to do so. Evers in call with reporters: "At the end of the days, folks, we are all in this together, and during the most difficult times we are called upon to remember our Wisconsin values of kindness, compassion, empathy, and respect. I'm going to continue to ask for your help, not only to remember these values but to do your part to keep our friends and our family and, frankly, most importantly our health care workers in communities, safe. Unfortunately, that means no potlucks, no play dates and no dinner parties." Details on permitted activities, essential businesses. Penalties for non-compliance: $250 fine or up to 30 days in jail. DHS Sec. Palm suggest being in contact with no more than 5 people during the stayhome. RPW chair Hitt blamed Evers for "mass confusion for people and businesses across Wisconsin. Yesterday, he chose to announce his forthcoming shelter in place order on Twitter, sat silent for nearly 24 hours, and then released a 16-page order that exposes violators to up to 30 days of imprisonment."
https://www.wpr.org/evers-administration-issues-stay-home-order-wisconsin

Without strict action, WI could see 22K COVID-19 cases by April 8, officials say
... "Thousands of Wisconsinites would need hospitalization, and we would exceed our current hospital-bed capacity," [DHS Sec.-designate] Palm said. ... should try to limit their day-to-day contact to no more than five people. ... UW Health, SSM Health and UnityPoint Health-Meriter are each treating COVID-19 patients, the hospitals said Tuesday. As recently as Friday, only Meriter said it had treated a hospitalized COVID-19 patient and that person had been discharged. Dr. Westergaard said cases will continue rising for weeks before leveling off, "If we do them well, they're going to seem like tremendous overreactions because that's going to mean that the virus, the epidemic, did not get too far out of control. ... It could potentially be thousands (of cases) right now" due to untested people with symptoms. 457 cases, > 8,200 negative tests, 5 deaths in FdL, Ozaukee and Milwaukee counties.

Local elections officials scramble as they hemorrhage Election Day workers
Madison Clerk Witzel-Behl had 525 cancellations, roughly half her clerkforce, Middleton Clerk Burns had 25 of 72 cancels. Fitchburg has about 124 poll workers, many of them in their 60s and 70s, called for govt workers, teachers, others seeking temporary gigs. Witzel-Behl said moving and consolidating polling places is likely, especially with more cancellations, working to find new sites to replace at least 21 polling sites. Pollworker Hanson-Schlachter quitting to protect 65 y/o mother, joined growing group -- including Burns, LOWV -- who support postponing or moving to mail-in election. Evers on Tuesday renewed urging absentee voting, "What we do know is the simplest way to vote is either as an absentee vote or early voting. We're working hard to understand the issues of what's happening on April 7, but what we do know for sure is that what's easiest to do is just go online." Reviews surge in absentee. Madison has curbside voting. WEC asked Evers/DHS to find hand sanitizer for workers, directed local clerks to accommodate in-person absentee voting and registration. State Emergency Operations Center helping clerks find absentee envelopes, sanitizer.

Govt Order Causes More WI Businesses To Shut Their Doors
ACE Hardware owner Lochner exempt, but employs many older, part-timers, "We've been spending a great deal of time trying to adjust and protect our staff and still be open to the public. It's very hard to decipher what's right and what's wrong. Information overload is an issue. But we're trying," signage asks customers to keep their distance from others, call-in orders, minimize browsing. Clothier Schwarzbach closed last week, supports "long overdue" stay home order, "It's a very hard decision to tell your employees you're not sure you can pay them but also to have stopped before business slowed down. I know some businesses stayed open because they were still seeing traffic, and we chose to walk away from that." WMC's Bauer: "A lot of businesses face uncertainty and hardship. Many will not be able to reopen when the shelter in place order is lifted, and their employees will need to find new jobs. But, I am confident that private sector businesses will lead the recovery when the crisis passes."
https://www.wpr.org/government-coronavirus-order-causes-more-wisconsin-businesses-shut-their-doors

Businesses close, unemployment rises as Evers' order comes with a dire warning
More than 20,000 people could contract coronavirus and 1,000 could die within two weeks if Wisconsin residents don't comply with Gov. Tony Evers' order to stay home, state health officials said Tuesday. ... "Each and every one of us has to do our part to help slow the spread of COVID-19 so we can flatten the curve to ensure our doctors, nurses and health care workers have the opportunity to do their important work," Evers said in a statement. ... "Obviously, we want a strong economy, who the hell doesn't?" Evers said. "But we have to value a human life at a higher level. I think we can do both, and that's what this order is all about." ... struck a more sober tone than President Donald Trump, who said ... "We're going to be opening relatively soon," Trump said during a Fox News town hall Tuesday. "I'd love to have it open by Easter. ... It's such an important day for other reasons, but I'll make an important date for this, too. I would love to have the country opened up and just raring to go by Easter." ... All public Holy Week and Easter Masses in the Archdiocese of Milwaukee will be canceled ... Archbishop Jerome Listecki announced ... Tuesday in a letter to pastors and parish directors ... "What most concerns me right now would be if we as a country and as a state and as individuals and as communities don't take social distancing seriously," [Hospitals' CMO] Kaufman ... A vaccine likely will not be available for about a year, according to health experts. ... Among other efforts to encourage social distancing, Barrett has asked state leaders to conduct the April 7 election via mail ballots instead of holding it in person. ... Conversations about whether to hold the Democratic National Convention as scheduled in Milwaukee in July are ongoing as well. ... Biden told CNN's Jake Tapper on Tuesday he didn't think the convention should be called off. WI Humane Society announced large dog adoption.

WED PM Update -- 1 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- Gov. Tony Evers is seeking at least $388 million in state funds to address the COVID-19 pandemic by increasing money for health care providers, creating a reinsurance program to cut premiums, and providing grants for food assistance and meal delivery programs.

Evers' latest proposal would also grant unlimited spending authority to the Department of Workforce Development to boost unemployment insurance.

The package would provide sum sufficient state dollars to: reimburse unemployment insurance claims relating to the COVID-19 pandemic; provide back payment for any lost benefits as a result of the delay in suspending the one-week waiting period to claim UI; allow employers to continue to pay laid-off employees without affecting UI eligibility; and

AMERICAN OVERSIGHT

waive a number of Work-Share program requirements.

The package would also seek $100 million in general fund-supported borrowing to cover increased capital costs if the state has to suspend construction projects.

Today's move comes after Republicans over the weekend rebuffed his first legislative proposal, because the "current general fund balance can't support" a proposal the Legislative Fiscal Bureau pegged at about $700 million; a WisPolitics.com tally of governor's administration documents showed more than $800 million in spending.

In a letter to legislative leaders included with the proposals, Evers praised the federal government's response as "welcome and necessary" but said there were a number of areas where state funding would be necessary to "fill gaps in."

But a spokeswoman for Speaker Robin Vos, R-Rochester, said while the Assembly Republican caucus will review the package, "the state does not have the money to spend."

"The governor can use federal stimulus dollars," spokeswoman Kit Beyer said.

Meanwhile, Senate Majority Leader Scott Fitzgerald said in an email "many of these items have already been discussed" while "some appear to be redundant or previously discarded."

"The Legislature plans to craft and negotiate a plan that doesn't spend outside our state's means," the Juneau Republican said.

The biggest pieces of the package include: $150 million in GPR to support small businesses; $94 million in GPR to boost funding for Medicaid providers through supplemental payments and rate increases; and $30 million in GPR to reduce costs of health insurance for consumers.

Other provision would:

*Use $9.7 million in GPR to boost the Earned Income Tax Credit.

*Prohibit utility cooperatives and propane suppliers from cutting off service during the public health emergency. A separate measure seeks to prevent any utility from disconnecting service at a rental unit at the direction of a landlord.

*Provide $25 million in GPR to support child care providers who were forced to close.

*Allow municipalities to implement multiple installments of three or more payments for 2020 property taxes and waive interest and penalties on delinquent property taxes included in the 2019 payable 2020 tax roll.

AMERICAN OVERSIGHT

*Create an $8 million GPR-supported fund to prevent single-family foreclosures and allow borrowers refinancing opportunities.

See the letter and package:
https://content.govdelivery.com/attachments/WIGOV/2020/04/01/file_attachments/1416796/Evers_COVID19%20Bill%202%20Summary_4.1.20v2.pdf

-- Senate Majority Leader Scott Fitzgerald and Assembly Speaker Robin Vos said today they plan to introduce a single piece of legislation that would provide a state response to the COVID-19 pandemic.

The GOP leaders said on a conference call they hope to produce a bill with broad, bipartisan agreement. Still, it is too early to say when they will meet.

"We want to get this done as quickly as we are able to do it. But we also want to be smart," said Vos, R-Rochester.

Over the weekend, the two GOP leaders said the initial bill Evers released just days ago was too expensive considering the state's finances. They didn't commit to a price tag for the bill they will produce, saying they wanted to have a better idea of what the $2.3 billion in federal money coming to Wisconsin -- including $1.9 billion to state government -- will mean.

Today, they said a broad consensus exists in their caucuses to approve suspension of the one-week delay before someone who's laid off can begin collecting unemployment checks. The guv earlier had called on lawmakers to convene immediately to repeal the provision.

They also indicated they believed the change would be retroactive, though they weren't clear whether it would go back to when Evers first issued the stay-at-home order last week or when the federal relief bill was signed into law on Friday.

Read the LFB memo on the federal stimulus bill:
https://bit.ly/2w6N71l

-- Evers today urged lawmakers to "to convene without any further delay."

In a Twitter thread, the guv said the two bills he's introduced would "provide much needed support and relief for our healthcare providers, essential workers, small businesses, and families across our state."

Evers added, "Addressing this public health emergency is going to take aggressive action not only from the federal government, but from the state. What's happened on the national level is a great first step, but it doesn't go far enough for Wisconsin workers,

AMERICAN OVERSIGHT

families, and businesses."

See the Twitter thread:
https://twitter.com/GovEvers/status/1245447089053552640

-- Over 1 million voters have requested an absentee ballot ahead of the upcoming April 7 election, according to the Wisconsin Election Commission.

But Administrator Meagan Wolfe said during yesterday's commission meeting the daily tally was "not a perfect number," because it only reflected ballot requests and returns that clerks have been able to enter into the system.

"There are jurisdictions that are behind in the data entry," she said, adding that didn't mean requested ballots hadn't been sent to voters in those jurisdictions.

Wolfe said there were "likely many more" ballot requests and return ballots than the commission data indicated.

But so far, the commission is reporting fewer than 390,000 voters have returned their ballots, a rate that raised concern among both commissioners and Gov. Tony Evers.

The number of absentee ballots requested is already approaching the total votes cast in the 2019 spring election. Then, there were 1.2 million votes in the state Supreme Court race with 170,121 absentee ballots cast.

In 2016, when there were 2.1 million votes cast with presidential primaries for both parties on the ballot, there were 249,503 absentee ballots.

See absentee ballot data:
https://elections.wi.gov/node/6765

See the brief:
https://www.wispolitics.com/wp-content/uploads/2020/03/Evers-amicus-brief.pdf

-- A federal judge today lamented an increasing public health crisis that the Legislature and Gov. Tony Evers have "refused to accept as sincere enough to stop" Tuesday's election.

Still, U.S. Judge James Conley said he can't act as a "super department of health for the state of Wisconsin" and stop the election. The remedy for that, he told parties in federal suits seeking changes to Tuesday's election, lies with state government.

Conley said it may be a bad public policy decision to move ahead with the election amid the growing pandemic. But he expressed reluctance to push back the date.

AMERICAN OVERSIGHT

"Is it my place as a federal judge to say, nope, Wisconsin doesn't get to have an election at all?" Conley pressed an attorney for one of the parties seeking a delay.

Conley said during today's teleconference he was open to changes that would ensure clerks can count the rash of absentee ballots that have been issued for Tuesday's election. But he also indicated he'd like more information on how the process of receiving and returning ballots is going before issuing a ruling.

"As much as I would like our Legislature and governor to stop the public health risk, I'm not sure that the voting right is being sufficiently impinged because voters do have a fairly robust absentee ballot option, which has now been taken advantage of," he said.

Conley posed Wolfe the questions during a hearing on three federal lawsuits seeking changes to the April 7 election that have been combined into one case. The suits as for various remedies, including moving the election day to reworking how absentee ballots will be treated.

Earlier in today's hearing, Conley posed a series of questions to Elections Commission Administrator Megan Wolfe, including the impact of moving the April 7 election to May 12, when voters in the 7th CD will head to the polls in a special election to fill that House seat.

Wolfe noted ballots are already out for the 7th CD, meaning it couldn't be added to a ballot with the April races. There also would be challenges for local clerks in the 7th needing two separate poll books, one for the congressional race and one for the other contests.

Conley said Wolfe's answer suggested to him moving next week's election to May 12 would "probably create more problems than you can solve."

Wolfe answered that the entire year was challenging with the May special election, an August statewide primary and the November general election. She said that means there are very few days left in the year when there wouldn't be overlapping deadlines

"No matter what day you chose, there's going to be a different set of issues for us to consider," she said.

As part of his questioning, Conley also ran Wolfe through a host of scenarios if he were to alter the deadlines for absentee ballots to be received and counted.

Currently, they must be received by 8 p.m. on Election Day to be counted.

-- Assembly Speaker Robin Vos said today he would be comfortable if a federal judge orders a longer-than-normal window to count absentee ballots as requests

AMERICAN OVERSIGHT

have now topped 1 million.

Still, Vos said he wants to maintain a cut off for when absentee ballots must be mailed. He said that would give voters who mail their absentee ballots Monday or Tuesday confidence that their votes will be counted. But it would avoid a scenario in which those who haven't sent in their absentee ballots see the initial results in Tuesday's races and then decide to request one.

Vos and Senate Majority Leader Scott Fitzgerald also told reporters on a conference call today they continue to be confident it will be safe to vote at the polls in person on Tuesday.

Vos said he's volunteering at a polling site next week, while his wife -- former GOP state Rep. Michelle Litjens -- is going to work at a different location. He also called on those who are bored of "watching Netflix" at home to volunteer and said he supports the guv's idea of using members of the Wisconsin National Guard to staff some sites.

"We need people to step up. The election is going to happen. There is no doubt in my mind it is going to happen on April 7," he said.

Fitzgerald said clerks and local officials have been creative in finding solutions to safely conducting in-person voting. He also noted that even though some municipalities have announced plans to reduce the number of polling places, absentee ballots are up dramatically. He said that should help avoid crowds at polling sites.

"The word is definitely getting out there. If you want to vote in this election, you've had ample opportunity to do that," Fitzgerald said, though he noted later in the call there are likely to be lawsuits after the election.

Today's Marquette University Law School Poll found 51 percent of registered voters favored delaying the election, while 44 percent said it should go on as scheduled.

-- Bernie Sanders today called for Wisconsin's April 7 election to be delayed.

He also wants the state to conduct the vote entirely by mail and extend early voting. In the meantime, he urged his supporters to vote by mail.

"People should not be forced to put their lives on the line to vote, which is why 15 states are now following the advice of public health experts and delaying their elections," Sanders said. "We urge Wisconsin to join them."

-- Wisconsin voters overwhelmingly approve of the way Gov. Tony Evers has handled the COVID-19 pandemic, helping fuel higher overall job approval numbers, according to the latest Marquette University Law School Poll.

AMERICAN OVERSIGHT

Meanwhile, a narrow majority of voters approve of how President Trump has addressed the outbreak. But that hasn't had a significant impact on either Trump's overall job approval rating in Wisconsin or on the numbers in the horse race for president.

Today's release included a focus on the coronavirus pandemic, finding 76 percent of voters approve of how Evers has handled the situation, while just 17 percent disapproved.

That helped fuel a surge in Evers' overall job approval numbers. Sixty-five percent of voters approve of the Dem guv's performance, while 29 percent disapprove. That's up from a 51-38 split in February.

Evers issued a series of orders on social distancing before issuing a stay-at-home directive last week just before the poll went into the field. The survey found 86 percent support government action to close schools and businesses, along with restricting public gatherings. Ten percent said such moves were an overreaction.

Polling nationally has found governors generally getting better marks on their handling of the pandemic than the president, and that was true in the Marquette poll as well.

Fifty-one percent of voters approve of Trump's handling of the outbreak, while 46 percent disapprove.

Overall, 48 percent approve of his job performance, while 49 percent disapprove, compared to a 48-48 split in February.

The survey also found 61 percent say the state is headed in the right direction, while 30 percent said it was on the wrong track. That's up from 52-39 last month, and could be a reflection of the positive reaction to the measures taken to confront COVID-19, according to the poll release.

-- The poll continued to find a tight presidential race.

Forty-eight percent backed Joe Biden, who has surged to a lead in the Dem nomination contest since the previous Marquette poll in February. Meanwhile, 45 percent support Trump.

Forty-seven percent favored the president when paired with Bernie Sanders, who was at 45 percent.

Those numbers are unchanged from February, when Biden and Trump were tied at 46.

-- In the Dem primary, 62 percent back Biden, while 34 percent support Sanders.

AMERICAN OVERSIGHT

Among those who indicated they are absolutely certain to vote or have already voted, it was Biden 65, Sanders 32.

The poll warned with the spike in absentee ballots and an unknown Election Day turnout, the findings "should be viewed with more than the usual caution."

The February poll was conducted before the Dem primary field began to winnow.

The survey had Sanders leading the bigger field at 29 percent, while Biden was at 15 percent.

The poll of 813 registered Wisconsin voters was conducted using live interviewers over landlines and cellphones March 24-29. The margin of error for the overall sample was plus or minus 4.2 percentage points.

In the Dem primary, the overall question was asked of 394 voters and had a margin of error of plus or minus 5.9 percentage points. Of those, 315 indicated they absolutely would vote or already had, resulting in a margin of error of plus or minus 6.6 percentage points.

With leaners included, the partisan makeup of the poll was 46 percent Republican, 46 percent Dem and 7 percent independent. The long-term trend is 45-45-9.

-- The 158 bills awaiting action by the state Senate after being passed by the Assembly are dead after the Legislature adjourned following the last general floor period of the biennial session last week.

But the Wisconsin Legislative Council says lawmakers can revive those proposals by extending a floor period or authorizing an extraordinary session.

In a memo prepared for Senate President Roger Roth, Council Director Anne Sappenfield said the extension option is limited to adding days to previously scheduled floor periods. The last general business floor period on the calendar for this biennium ran from March 24-26.

Sappenfield told WisPolitics.com Senate rules do not provide a cap on how long the session can be extended.

Lawmakers can also take up the outstanding bills by authorizing an extraordinary session. Sappenfield said that can be done through three processes: at the direction of a majority of Org Committee members in each house; through the adoption and

AMERICAN OVERSIGHT

concurrence of a joint resolution in each house; or by a joint petition signed by a majority of members in each house.

Still, Senate Rule 93 (1) specifies only legislation that "accomplishes the business specified in the action authorizing the extraordinary session" can be considered. Under the rule, a regular session proposal can be revived and is considered to be at the same stage of proceedings as it was at the end of the session.

Sappenfield also noted under Senate Rule 93 (1p), for a Senate proposal to be taken up under a Senate extraordinary session, it must be recommended by the Senate Organization Committee, Senate Finance Committee, Joint Finance Committee, Joint Committee on Legislative Organization, or Joint Committee on Employment Relations.

-- The Democratic National Convention Committee said Joe Biden's full remarks on possibly delaying the July convention in Milwaukee are "in line" with the committee's contingency planning efforts.

Biden told MSNBC's Brian Williams last night that it would be "hard to envision" the DNC going forward as planned, with Dems from all 50 states converging on the city during a pandemic.

But the DNCC highlighted other comments Biden made on the importance of listening to scientists' recommendations and prioritizing public safety.

"As we continue to put plans in place for a successful Democratic National Convention this summer, we will balance protecting the health and well-being of convention attendees and our host city with our responsibility to deliver this historic and critical occasion," DNCC CEO Joe Solmonese said in a statement. "Providing an opportunity for our candidate to reaffirm our democratic values, unify the party and share his vision for a safer and stronger future for our country has never before felt more important."

DNCC Communications Director Katie Peters last week said the committee is determined to host a successful convention and is exploring "a range of contingency options" to prevent unnecessary public health risks.

AMERICAN OVERSIGHT

Today's Marquette University Law School poll found 62 percent of Wisconsinites believe the convention shouldn't be held in-person, with 22 percent saying it shouldn't change.

Milwaukee Mayor Tom Barrett in a teleconference today said he thinks the convention will most likely not happen exactly as planned.

"I think the world has changed as a result of COVID-19 and I think America has changed as a result of COVID-19," Barrett said. "Hopefully we'll be at the point when this is distant history."

WISPOLITICS.COM
Wisconsin's Premier Political News Service

WED PM Update -- 1 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- Gov. Tony Evers is seeking at least $388 million in state funds to address the COVID-19 pandemic by increasing money for health care providers, creating a reinsurance program to cut premiums, and providing grants for food assistance and meal delivery programs.

Evers' latest proposal would also grant unlimited spending authority to the Department of Workforce Development to boost unemployment insurance.

The package would provide sum sufficient state dollars to: reimburse unemployment insurance claims relating to the COVID-19 pandemic; provide back payment for any lost benefits as a result of the delay in suspending the one-week waiting period to claim UI; allow employers to continue to pay laid-off employees without affecting UI eligibility; and

AMERICAN OVERSIGHT

waive a number of Work-Share program requirements.

The package would also seek $100 million in general fund-supported borrowing to cover increased capital costs if the state has to suspend construction projects.

Today's move comes after Republicans over the weekend rebuffed his first legislative proposal, because the "current general fund balance can't support" a proposal the Legislative Fiscal Bureau pegged at about $700 million; a WisPolitics.com tally of governor's administration documents showed more than $800 million in spending.

In a letter to legislative leaders included with the proposals, Evers praised the federal government's response as "welcome and necessary" but said there were a number of areas where state funding would be necessary to "fill gaps in."

But a spokeswoman for Speaker Robin Vos, R-Rochester, said while the Assembly Republican caucus will review the package, "the state does not have the money to spend."

"The governor can use federal stimulus dollars," spokeswoman Kit Beyer said.

Meanwhile, Senate Majority Leader Scott Fitzgerald said in an email "many of these items have already been discussed" while "some appear to be redundant or previously discarded."

"The Legislature plans to craft and negotiate a plan that doesn't spend outside our state's means," the Juneau Republican said.

The biggest pieces of the package include: $150 million in GPR to support small businesses; $94 million in GPR to boost funding for Medicaid providers through supplemental payments and rate increases; and $30 million in GPR to reduce costs of health insurance for consumers.

Other provision would:

*Use $9.7 million in GPR to boost the Earned Income Tax Credit.

*Prohibit utility cooperatives and propane suppliers from cutting off service during the public health emergency. A separate measure seeks to prevent any utility from disconnecting service at a rental unit at the direction of a landlord.

*Provide $25 million in GPR to support child care providers who were forced to close.

*Allow municipalities to implement multiple installments of three or more payments for 2020 property taxes and waive interest and penalties on delinquent property taxes included in the 2019 payable 2020 tax roll.

AMERICAN OVERSIGHT

*Create an $8 million GPR-supported fund to prevent single-family foreclosures and allow borrowers refinancing opportunities.

See the letter and package:
https://content.govdelivery.com/attachments/WIGOV/2020/04/01/file_attachments/1416796/Evers_COVID19%20Bill%202%20Summary_4.1.20v2.pdf

-- Senate Majority Leader Scott Fitzgerald and Assembly Speaker Robin Vos said today they plan to introduce a single piece of legislation that would provide a state response to the COVID-19 pandemic.

The GOP leaders said on a conference call they hope to produce a bill with broad, bipartisan agreement. Still, it is too early to say when they will meet.

"We want to get this done as quickly as we are able to do it. But we also want to be smart," said Vos, R-Rochester.

Over the weekend, the two GOP leaders said the initial bill Evers released just days ago was too expensive considering the state's finances. They didn't commit to a price tag for the bill they will produce, saying they wanted to have a better idea of what the $2.3 billion in federal money coming to Wisconsin -- including $1.9 billion to state government -- will mean.

Today, they said a broad consensus exists in their caucuses to approve suspension of the one-week delay before someone who's laid off can begin collecting unemployment checks. The guv earlier had called on lawmakers to convene immediately to repeal the provision.

They also indicated they believed the change would be retroactive, though they weren't clear whether it would go back to when Evers first issued the stay-at-home order last week or when the federal relief bill was signed into law on Friday.

Read the LFB memo on the federal stimulus bill:
https://bit.ly/2w6N71l

-- Evers today urged lawmakers to "to convene without any further delay."

In a Twitter thread, the guv said the two bills he's introduced would "provide much needed support and relief for our healthcare providers, essential workers, small businesses, and families across our state."

Evers added, "Addressing this public health emergency is going to take aggressive action not only from the federal government, but from the state. What's happened on the national level is a great first step, but it doesn't go far enough for Wisconsin workers,

AMERICAN OVERSIGHT

families, and businesses."

See the Twitter thread:
https://twitter.com/GovEvers/status/1245447089053552640

-- Over 1 million voters have requested an absentee ballot ahead of the upcoming April 7 election, according to the Wisconsin Election Commission.

But Administrator Meagan Wolfe said during yesterday's commission meeting the daily tally was "not a perfect number," because it only reflected ballot requests and returns that clerks have been able to enter into the system.

"There are jurisdictions that are behind in the data entry," she said, adding that didn't mean requested ballots hadn't been sent to voters in those jurisdictions.

Wolfe said there were "likely many more" ballot requests and return ballots than the commission data indicated.

But so far, the commission is reporting fewer than 390,000 voters have returned their ballots, a rate that raised concern among both commissioners and Gov. Tony Evers.

The number of absentee ballots requested is already approaching the total votes cast in the 2019 spring election. Then, there were 1.2 million votes in the state Supreme Court race with 170,121 absentee ballots cast.

In 2016, when there were 2.1 million votes cast with presidential primaries for both parties on the ballot, there were 249,503 absentee ballots.

See absentee ballot data:
https://elections.wi.gov/node/6765

See the brief:
https://www.wispolitics.com/wp-content/uploads/2020/03/Evers-amicus-brief.pdf

-- A federal judge today lamented an increasing public health crisis that the Legislature and Gov. Tony Evers have "refused to accept as sincere enough to stop" Tuesday's election.

Still, U.S. Judge James Conley said he can't act as a "super department of health for the state of Wisconsin" and stop the election. The remedy for that, he told parties in federal suits seeking changes to Tuesday's election, lies with state government.

Conley said it may be a bad public policy decision to move ahead with the election amid the growing pandemic. But he expressed reluctance to push back the date.

AMERICAN OVERSIGHT

"Is it my place as a federal judge to say, nope, Wisconsin doesn't get to have an election at all?" Conley pressed an attorney for one of the parties seeking a delay.

Conley said during today's teleconference he was open to changes that would ensure clerks can count the rash of absentee ballots that have been issued for Tuesday's election. But he also indicated he'd like more information on how the process of receiving and returning ballots is going before issuing a ruling.

"As much as I would like our Legislature and governor to stop the public health risk, I'm not sure that the voting right is being sufficiently impinged because voters do have a fairly robust absentee ballot option, which has now been taken advantage of," he said.

Conley posed Wolfe the questions during a hearing on three federal lawsuits seeking changes to the April 7 election that have been combined into one case. The suits as for various remedies, including moving the election day to reworking how absentee ballots will be treated.

Earlier in today's hearing, Conley posed a series of questions to Elections Commission Administrator Megan Wolfe, including the impact of moving the April 7 election to May 12, when voters in the 7th CD will head to the polls in a special election to fill that House seat.

Wolfe noted ballots are already out for the 7th CD, meaning it couldn't be added to a ballot with the April races. There also would be challenges for local clerks in the 7th needing two separate poll books, one for the congressional race and one for the other contests.

Conley said Wolfe's answer suggested to him moving next week's election to May 12 would "probably create more problems than you can solve."

Wolfe answered that the entire year was challenging with the May special election, an August statewide primary and the November general election. She said that means there are very few days left in the year when there wouldn't be overlapping deadlines

"No matter what day you chose, there's going to be a different set of issues for us to consider," she said.

As part of his questioning, Conley also ran Wolfe through a host of scenarios if he were to alter the deadlines for absentee ballots to be received and counted.

Currently, they must be received by 8 p.m. on Election Day to be counted.

-- Assembly Speaker Robin Vos said today he would be comfortable if a federal judge orders a longer-than-normal window to count absentee ballots as requests

AMERICAN OVERSIGHT

have now topped 1 million.

Still, Vos said he wants to maintain a cut off for when absentee ballots must be mailed. Today's Marquette University Law School poll found 62 percent of Wisconsinites believe the convention shouldn't be held in-person, with 22 percent saying it shouldn't change.

Milwaukee Mayor Tom Barrett in a teleconference today said he thinks the convention will most likely not happen exactly as planned.

"I think the world has changed as a result of COVID-19 and I think America has changed as a result of COVID-19," Barrett said. "Hopefully we'll be at the point when this is distant history."

WED PM Update -- 8 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- GOP lawmakers want to give the Legislature's budget committee sweeping powers to cut state spending and nix planned pay raíses for state employees as part of their counteroffer to Gov. Tony Evers in dealing with the COVID-19 pandemic.

While Evers has advanced two bills that would spend some $1.1 billion in general purpose revenue combined, an overview of the Republican bill includes no new GPR.

It also doesn't include a provision Evers sought in his legislation to indefinitely extend the public health emergency until revoked by executive order or a joint resolution of the Legislature.

AMERICAN OVERSIGHT

Evers called on GOP lawmakers "to take politics out of this proposal so we can move forward on addressing the needs of our state."

Meanwhile, Senate Majority Leader Scott Fitzgerald, R-Juneau, fired back Evers was suggesting publicly that he would veto the bill while privately still negotiating on the legislation, calling that "irresponsible."

The Joint Finance Committee provisions would allow the GOP-controlled body to reduce GPR appropriations, suspend law changes that decrease state tax revenues and rescind pay increases if the Legislative Fiscal Bureau projects a deficit for the 2020-21 fiscal year. That provision calls for LFB to prepare a revised general fund condition statement no later than June 15 to the committee, which would then convene no later than June 24 if there were a projected deficit.

The committee's cuts wouldn't be subject to the guv's approval, unlike current law.

JFC also would be allowed to transfer up to $25 million from sum sufficient appropriations during a state of emergency and for up to 90 days after it ends. The transferred money could be used to cover costs related to the state of emergency.

"We have work to do folks--we don't have time to play politics, and this provision won't do anything to help our state respond to COVID-19 or to help our families who are struggling during this crisis," Evers said. "It's time to get serious."

The bill also would address a series of issues that Evers has raised in recent weeks, including new flexibilities for the Department of Health Services to qualify for additional federal funding the state would otherwise not receive due to current eligibility standards.

An overview of the GOP bill also includes a provision that would suspend a one-week waiting period for those who lose their jobs before they can begin to collect unemployment. Evers has called for an outright repeal of the provision Republicans approved in 2011. Instead, the suspension would cover a period going from March 12, when the public health emergency was declared, through Jan. 2, 2021. The provision would also require the Department of Workforce Development to seek the maximum reimbursement from the federal government for benefits payable during the first week as a result of the provision.

Fitzgerald said Republicans for a month have been working on legislation addressing "essential provisions" on "everything from Medicaid to the first week of unemployment."

"Millions of relief dollars are at stake for Wisconsin. Suggesting he'll veto the full bill publicly, while privately we're still negotiating, is irresponsible," Fitzgerald said, adding Republicans will keep working with Dems to work out a bill with bipartisan support.

Other provisions of the GOP bill would:

AMERICAN OVERSIGHT

*reduce to 75 from 120 the required hours of instructional programming for certified nursing assistants. Evers this session vetoed a bill seeking to make that change.
*prohibit retail establishments from accepting the return of fresh or packaged food, cleaning supplies, personal care products or paper products purchased during a declared public health emergency or within 30 days after it ends. There would be an exception for products that were contaminated due to improper production or packaging.
*exempt manufacturers, distributors and retailers of PPE from civil liability for death or injury caused by their donations of personal protection equipment during the current health emergency.
*exempt those elected to state or local office who are candidates for national, state or local office from the ban on using public funds to pay for 50 or more pieces of substantially identical material during campaign season if the communications are related to the current public health emergency.

The bill also would require hospitals and other facilities treating COVID-19 patients to provide daily and weekly updates on the number of patients, beds and ventilators. Various GOP lawmakers have expressed frustration that information hasn't been readily available, and the bill would allow DHS to withhold federal funding from those that don't comply.

-- More than 1 million absentee ballots have now been returned, with some counties reporting higher vote numbers than last year's state Supreme Court race.

And it is likely the return rate -- now 78.7 percent statewide of those mailed -- will grow between before ballots are due Monday and the lag in reporting by local clerks. Clerks have been dealing with a deluge of absentee requests and additional work to run polling sites amid a pandemic.

The latest update from the state Elections Commission also shows 12,710 absentee ballots were requested but not logged as mailed.

AMERICAN OVERSIGHT

Meanwhile, the absentee ballots returned in some counties have now exceeded the number of votes cast in last year's state Supreme Court race.

For example, the latest update shows 151,781 absentee ballots returned in Milwaukee County out of the 203,288 that had been mailed, a return rate of 74.7 percent. Last year, county voters cast 150,246 ballots, but had a Milwaukee mayor and county exec race on the ballot this year. The numbers don't include yesterday's in-person voting from the various communities in Milwaukee County.

Dane County has now counted 142,265 absentee ballots returned out of 178,498 mailed, a return rate of 79.7 percent. And Waukesha County had 109,411 absentee ballots returned out of 127,686 mailed, a return rate of 85.7 percent.

The statewide mark for returned absentee ballots is behind the pace for the 2016 spring and fall general elections, though direct comparisons are difficult. In the 2016 fall election, for example, mailed absentee ballots amounted to 5.8 percent of all votes cast in the election.

It is expected by the final tally that mailed absentee ballots will make up the bulk of those cast this spring. What's more, the daily updates from the Elections Commission don't break out mailed absentee ballots vs. those that had been requested in person.

Still, in the spring 2016 election, which included contested presidential primaries for both parties, 95,850 absentee ballots were mailed to voters. Of those, 15,364 weren't returned, couldn't be delivered or were received after the deadline. That's a return rate of 83.7 percent.

In the fall 2016 election, 172,828 absentee ballots were mailed to state voters. Of those, 14,921 weren't returned, were undeliverable or were sent back late. That was a return rate of 91.4 percent.

See the latest Elections Commission update:
https://elections.wi.gov/node/6833

-- Local election officials are barred from releasing election results until Monday. But at least one county has posted a picture of turnout in the spring election.

Brown County today posted to its website numbers showing it has so far scanned 45,820 ballots and still had 21,484 absentee ballots outstanding.

That puts in-person turnout at 14,384 yesterday.

In the 2019 Supreme Court race, the county saw 51,092 cast.

The results come after municipal clerks in Madison and Milwaukee released turnout

AMERICAN OVERSIGHT

figures last night.

See the post:
https://www.browncountywi.gov/i/f/files/County-Clerk/Elections/Election%20Results/2020/April/PROV%20AND%20ABS%200407%20upd.pdf

-- In the wake of reports that absentee ballots requested well ahead of the April 3 deadline did not make it to voters in time for yesterday's election, Milwaukee's top elections official is calling for an investigation of the U.S. Postal Service.

And a Republican state senator from Fond du Lac reported three "large tubs of absentee ballots from Oshkosh and Appleton, were just located" by the postal service.

City of Milwaukee Elections Commission Executive Director Neil Albrecht told reporters today he wants the investigation to focus on ballots requested on March 22 or 23rd, adding there was "a pattern in the contacts" from voters who asked for a ballot during that period but didn't receive it.

But the state's top election official doesn't believe any exceptions can be made to allow voters who were mailed an absentee ballot but did not receive it before Election Day to cast that ballot.

Elections Commission Administrator Meagan Wolfe's comment came ahead of Albrecht's briefing but after Sen. Dan Feyen also highlighted problems with the delivery of absentee ballots on Twitter.

The postal service flagged the Appleton and Oshkosh ballots to the commission, but Wolfe said the commission had not yet been informed if the ballots were being returned by voters or on their way to voters from local clerks.

The process for requesting, sending and receiving absentee ballots is largely out of the commission's hands, though.

"We at the state don't issue ballots," Wolfe said. "We also don't track or record ballots, that is each of your city, town or village clerks around the state that is doing that sending and receiving."

Those figures are then reported back to the state, but statewide reports are "completely reliant" upon data entry done by local clerks.

Still, Feyen said he was working with the commission to develop guidance for those voters and "to try to remedy the situation."

But Wolfe said she didn't know if that would be possible after the U.S. Supreme Court

AMERICAN OVERSIGHT

ruled in an appeal brought by the state and national Republican parties that absentee ballots must be postmarked by yesterday to be counted.

"My current understanding is that there aren't any exceptions for the deadlines that were either set in statute or that were set in the court order," she said in a call with reporters this afternoon.

Wolfe added she was not sure "as far as feasibility" of a legal challenge to allow those ballots to be counted, noting it would be up to commissioners to take that up. She said the panel will likely meet this week to discuss outstanding issues from the election.

See the Feyen tweet:
https://twitter.com/SenDanFeyen/status/1247943644327206913

-- The Department of Justice says its request to add eight positions to handle concealed carry permits and background checks came well ahead of a surge in background checks for handgun sales in the wake of the COVID-19 pandemic.

A WisPolitics.com review of calls placed to the state's "Handgun Hotline" background check service found background checks picked up the most steam starting March 13, when President Trump declared the outbreak a national emergency.

That day, background checks climbed to 1,193 and rose to a high of 2,731 on March 20, before ebbing to an average of 725 per day starting March 25, when Gov. Tony Evers' stay-at-home order took effect.

Prior to that period, the highest number of calls this year was 1,003 on Feb. 29, the day officials announced the first U.S. death from COVID-19. By comparison, a total of 60,581 background check calls were submitted in the first three months of 2020, compared to 39,141 for the same period in 2019.

But a DOJ spokeswoman said the agency submitted its request to bolster its staff to the Department of Administration on Jan. 24. DOA approved the request and submitted it to the Joint Finance Committee on March 17.

JFC's passive review deadline to object was April 3, and on Monday the panel sent a letter to DOA approving the request.

See the letter:
https://www.wispolitics.com/wp-content/uploads/2020/04/200406Letter.pdf

See a previous story on background check:

AMERICAN OVERSIGHT

-- The Democratic Party of Wisconsin has moved all congressional district and county caucuses from in-person to online events as a COVID-19 public health precaution.

In a statement today, WisDems announced they will conduct votes by virtual ballot instead of paper ballot, and the registration deadline for delegates, candidates and observers is April 17.

County caucuses will be spread out between April 26, May 3 and May 10. CD caucuses will keep their original date of May 17.

WisDems said its Administrative Committee approved the switch on March 18, and the Democratic National Committee signed off soon after.

The Republican Party of Wisconsin has yet to announce any changes for county or CD caucuses. A WisGOP spokeswoman didn't immediately respond to a request for comment.

See the release:
https://www.wispolitics.com/2020/wisdems-announce-changes-to-national-delegate-selection-plan-2/

See the delegate selection plan:
https://www.wispolitics.com/wp-content/uploads/2020/04/200408DEMS.pdf

-- U.S. Sen. Rick Scott says Homeland Security Committee Chair Ron Johnson has agreed to start an investigation of the World Health Organization over its handling of COVID-19 and "work for Communist China."

In an appearance on Fox News shortly after President Trump announced, then reversed, plans to put a hold on U.S. funding for the WHO, the Florida Republican accused the agency of working for China.

Scott, who sits on the Homeland Security Committee, said Johnson agreed to launch an investigation into the agency's handling of the pandemic.

"We are going to investigate why did they do what they did, what was their purpose and then why are we as American taxpayers giving them some of our dollars," Scott said.

A spokesman for the Oshkosh Republican said nothing has been formalized at this time.

From WisBusiness.com ...

AMERICAN OVERSIGHT

-- DHS is waiting to see if the election created a "bump" in COVID-19 infections before recommending an extension of Gov. Tony Evers' stay-at-home order.

COVID-19 needs about two weeks to infect a person and leave their system. According to Health Services Secretary Andrea Palm, a one-month order is recommended because it allows two of those infection cycles to "break the chain of transmission."

But she fears yesterday's election may have jeopardized that.

"Factors that we don't know yet is what the impact of yesterday's apparition -- with 'safer at home' -- what sort of impact that might have on transmission, and whether folks going to the polls and standing in line will create a bump in our infection rates," Palm said in a Wisconsin Manufacturers & Commerce webinar.

While it's too early to tell what DHS will recommend, she said the election data could influence DHS's decision on the need to extend "Safer at Home."

"It is absolutely our goal to return to as normal a business life as possible, as quickly as possible and move into a place where we are being surgical in the way we are responding to this," said Palm. "We can't live like this until there is a vaccine, that's just not tenable, we just can't. But how we phase and put our foot on and take our foot off the gas as it relates to social distancing and physical separation needs to be informed by the state of the outbreak here in Wisconsin."

WED PM Update -- 8 April 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- GOP lawmakers want to give the Legislature's budget committee sweeping powers to cut state spending and nix planned pay raíses for state employees as part of their counteroffer to Gov. Tony Evers in dealing with the COVID-19 pandemic.

While Evers has advanced two bills that would spend some $1.1 billion in general purpose revenue combined, an overview of the Republican bill includes no new GPR.

It also doesn't include a provision Evers sought in his legislation to indefinitely extend the public health emergency until revoked by executive order or a joint resolution of the Legislature.

AMERICAN OVERSIGHT

Evers called on GOP lawmakers "to take politics out of this proposal so we can move forward on addressing the needs of our state."

Meanwhile, Senate Majority Leader Scott Fitzgerald, R-Juneau, fired back Evers was suggesting publicly that he would veto the bill while privately still negotiating on the legislation, calling that "irresponsible."

The Joint Finance Committee provisions would allow the GOP-controlled body to reduce GPR appropriations, suspend law changes that decrease state tax revenues and rescind pay increases if the Legislative Fiscal Bureau projects a deficit for the 2020-21 fiscal year. That provision calls for LFB to prepare a revised general fund condition statement no later than June 15 to the committee, which would then convene no later than June 24 if there were a projected deficit.

The committee's cuts wouldn't be subject to the guv's approval, unlike current law.

JFC also would be allowed to transfer up to $25 million from sum sufficient appropriations during a state of emergency and for up to 90 days after it ends. The transferred money could be used to cover costs related to the state of emergency.

"We have work to do folks--we don't have time to play politics, and this provision won't do anything to help our state respond to COVID-19 or to help our families who are struggling during this crisis," Evers said. "It's time to get serious."

The bill also would address a series of issues that Evers has raised in recent weeks, including new flexibilities for the Department of Health Services to qualify for additional federal funding the state would otherwise not receive due to current eligibility standards.

An overview of the GOP bill also includes a provision that would suspend a one-week waiting period for those who lose their jobs before they can begin to collect unemployment. Evers has called for an outright repeal of the provision Republicans approved in 2011. Instead, the suspension would cover a period going from March 12, when the public health emergency was declared, through Jan. 2, 2021. The provision would also require the Department of Workforce Development to seek the maximum reimbursement from the federal government for benefits payable during the first week as a result of the provision.

Fitzgerald said Republicans for a month have been working on legislation addressing "essential provisions" on "everything from Medicaid to the first week of unemployment."

"Millions of relief dollars are at stake for Wisconsin. Suggesting he'll veto the full bill publicly, while privately we're still negotiating, is irresponsible," Fitzgerald said, adding Republicans will keep working with Dems to work out a bill with bipartisan support.

Other provisions of the GOP bill would:

AMERICAN OVERSIGHT

*reduce to 75 from 120 the required hours of instructional programming for certified nursing assistants. Evers this session vetoed a bill seeking to make that change.
*prohibit retail establishments from accepting the return of fresh or packaged food, cleaning supplies, personal care products or paper products purchased during a declared public health emergency or within 30 days after it ends. There would be an exception for products that were contaminated due to improper production or packaging.
*exempt manufacturers, distributors and retailers of PPE from civil liability for death or injury caused by their donations of personal protection equipment during the current health emergency.
*exempt those elected to state or local office who are candidates for national, state or local office from the ban on using public funds to pay for 50 or more pieces of substantially identical material during campaign season if the communications are related to the current public health emergency.

The bill also would require hospitals and other facilities treating COVID-19 patients to provide daily and weekly updates on the number of patients, beds and ventilators. Various GOP lawmakers have expressed frustration that information hasn't been readily available, and the bill would allow DHS to withhold federal funding from those that don't comply.

-- More than 1 million absentee ballots have now been returned, with some counties reporting higher vote numbers than last year's state Supreme Court race.

And it is likely the return rate -- now 78.7 percent statewide of those mailed -- will grow between before ballots are due Monday and the lag in reporting by local clerks. Clerks have been dealing with a deluge of absentee requests and additional work to run polling sites amid a pandemic.

The latest update from the state Elections Commission also shows 12,710 absentee ballots were requested but not logged as mailed.

AMERICAN OVERSIGHT

Meanwhile, the absentee ballots returned in some counties have now exceeded the number of votes cast in last year's state Supreme Court race.

For example, the latest update shows 151,781 absentee ballots returned in Milwaukee County out of the 203,288 that had been mailed, a return rate of 74.7 percent. Last year, county voters cast 150,246 ballots, but had a Milwaukee mayor and county exec race on the ballot this year. The numbers don't include yesterday's in-person voting from the various communities in Milwaukee County.

Dane County has now counted 142,265 absentee ballots returned out of 178,498 mailed, a return rate of 79.7 percent. And Waukesha County had 109,411 absentee ballots returned out of 127,686 mailed, a return rate of 85.7 percent.

The statewide mark for returned absentee ballots is behind the pace for the 2016 spring and fall general elections, though direct comparisons are difficult. In the 2016 fall election, for example, mailed absentee ballots amounted to 5.8 percent of all votes cast in the election.

It is expected by the final tally that mailed absentee ballots will make up the bulk of those cast this spring. What's more, the daily updates from the Elections Commission don't break out mailed absentee ballots vs. those that had been requested in person.

Still, in the spring 2016 election, which included contested presidential primaries for both parties, 95,850 absentee ballots were mailed to voters. Of those, 15,364 weren't returned, couldn't be delivered or were received after the deadline. That's a return rate of 83.7 percent.

In the fall 2016 election, 172,828 absentee ballots were mailed to state voters. Of those, 14,921 weren't returned, were undeliverable or were sent back late. That was a return rate of 91.4 percent.

See the latest Elections Commission update:
https://elections.wi.gov/node/6833

-- Local election officials are barred from releasing election results until Monday. But at least one county has posted a picture of turnout in the spring election.

Brown County today posted to its website numbers showing it has so far scanned 45,820 ballots and still had 21,484 absentee ballots outstanding.

That puts in-person turnout at 14,384 yesterday.

In the 2019 Supreme Court race, the county saw 51,092 cast.

The results come after municipal clerks in Madison and Milwaukee released turnout

AMERICAN OVERSIGHT

figures last night.

See the post:
https://www.browncountywi.gov/i/f/files/County-Clerk/Elections/Election%20Results/2020/April/PROV%20AND%20ABS%200407%20upd.pdf

-- In the wake of reports that absentee ballots requested well ahead of the April 3 deadline did not make it to voters in time for yesterday's election, Milwaukee's top elections official is calling for an investigation of the U.S. Postal Service.

And a Republican state senator from Fond du Lac reported three "large tubs of absentee ballots from Oshkosh and Appleton, were just located" by the postal service.

City of Milwaukee Elections Commission Executive Director Neil Albrecht told reporters today he wants the investigation to focus on ballots requested on March 22 or 23rd, adding there was "a pattern in the contacts" from voters who asked for a ballot during that period but didn't receive it.

But the state's top election official doesn't believe any exceptions can be made to allow voters who were mailed an absentee ballot but did not receive it before Election Day to cast that ballot.

Elections Commission Administrator Meagan Wolfe's comment came ahead of Albrecht's briefing but after Sen. Dan Feyen also highlighted problems with the delivery of absentee ballots on Twitter.

The postal service flagged the Appleton and Oshkosh ballots to the commission, but Wolfe said the commission had not yet been informed if the ballots were being returned by voters or on their way to voters from local clerks.

The process for requesting, sending and receiving absentee ballots is largely out of the commission's hands, though.

"We at the state don't issue ballots," Wolfe said. "We also don't track or record ballots, that is each of your city, town or village clerks around the state that is doing that sending and receiving."

Those figures are then reported back to the state, but statewide reports are "completely reliant" upon data entry done by local clerks.

Still, Feyen said he was working with the commission to develop guidance for those voters and "to try to remedy the situation."

But Wolfe said she didn't know if that would be possible after the U.S. Supreme Court

AMERICAN OVERSIGHT

ruled in an appeal brought by the state and national Republican parties that absentee ballots must be postmarked by yesterday to be counted.

"My current understanding is that there aren't any exceptions for the deadlines that were either set in statute or that were set in the court order," she said in a call with reporters this afternoon.

Wolfe added she was not sure "as far as feasibility" of a legal challenge to allow those ballots to be counted, noting it would be up to commissioners to take that up. She said the panel will likely meet this week to discuss outstanding issues from the election.

See the Feyen tweet:

-- The Department of Justice says its request to add eight positions to handle concealed carry permits and background checks came well ahead of a surge in background checks for handgun sales in the wake of the COVID-19 pandemic.

A WisPolitics.com review of calls placed to the state's "Handgun Hotline" background check service found background checks picked up the most steam starting March 13, when President Trump declared the outbreak a national emergency.

That day, background checks climbed to 1,193 and rose to a high of 2,731 on March 20, before ebbing to an average of 725 per day starting March 25, when Gov. Tony Evers' stay-at-home order took effect.

Prior to that period, the highest number of calls this year was 1,003 on Feb. 29, the day officials announced the first U.S. death from COVID-19. By comparison, a total of 60,581 background check calls were submitted in the first three months of 2020, compared to 39,141 for the same period in 2019.

But a DOJ spokeswoman said the agency submitted its request to bolster its staff to the Department of Administration on Jan. 24. DOA approved the request and submitted it to the Joint Finance Committee on March 17.

JFC's passive review deadline to object was April 3, and on Monday the panel sent a letter to DOA approving the request.

-- The Democratic Party of Wisconsin has moved all congressional district and county caucuses from in-person to online events as a COVID-19 public health precaution.

In a statement today, WisDems announced they will conduct votes by virtual ballot instead of paper ballot, and the registration deadline for delegates, candidates and observers is April 17.

County caucuses will be spread out between April 26, May 3 and May 10. CD caucuses will keep their original date of May 17.

WisDems said its Administrative Committee approved the switch on March 18, and the Democratic National Committee signed off soon after.

The Republican Party of Wisconsin has yet to announce any changes for county or CD caucuses. A WisGOP spokeswoman didn't immediately respond to a request for comment.

See the release:

-- U.S. Sen. Rick Scott says Homeland Security Committee Chair Ron Johnson has agreed to start an investigation of the World Health Organization over its handling of COVID-19 and "work for Communist China."

In an appearance on Fox News shortly after President Trump announced, then reversed, plans to put a hold on U.S. funding for the WHO, the Florida Republican accused the agency of working for China.

Scott, who sits on the Homeland Security Committee, said Johnson agreed to launch an investigation into the agency's handling of the pandemic.

"We are going to investigate why did they do what they did, what was their purpose and then why are we as American taxpayers giving them some of our dollars," Scott said.

A spokesman for the Oshkosh Republican said nothing has been formalized at this time.

AMERICAN OVERSIGHT

-- DHS is waiting to see if the election created a "bump" in COVID-19 infections before recommending an extension of Gov. Tony Evers' stay-at-home order.

COVID-19 needs about two weeks to infect a person and leave their system. According to Health Services Secretary Andrea Palm, a one-month order is recommended because it allows two of those infection cycles to "break the chain of transmission."

But she fears yesterday's election may have jeopardized that.

"Factors that we don't know yet is what the impact of yesterday's apparition -- with 'safer at home' -- what sort of impact that might have on transmission, and whether folks going to the polls and standing in line will create a bump in our infection rates," Palm said in a Wisconsin Manufacturers & Commerce webinar.

While it's too early to tell what DHS will recommend, she said the election data could influence DHS's decision on the need to extend "Safer at Home."

"It is absolutely our goal to return to as normal a business life as possible, as quickly as possible and move into a place where we are being surgical in the way we are responding to this," said Palm. "We can't live like this until there is a vaccine, that's just not tenable, we just can't. But how we phase and put our foot on and take our foot off the gas as it relates to social distancing and physical separation needs to be informed by the state of the outbreak here in Wisconsin."

WED PM Update -- 25 March 2020

Exclusively for WisPolitics Subscribers - DO NOT FORWARD

From WisPolitics.com ...

-- The state Capitol will close to the public starting at 8 a.m. tomorrow as part of the Evers administration's response to the COVID-19 pandemic.

The Department of Administration said the building will reopen to the public if the Legislature or Wisconsin Supreme Court convenes.

The state Senate canceled a floor period that had been planned for Tuesday, while the Supreme Court canceled oral arguments that had been planned for this month.

The announcement follows Gov. Tony Evers' stay-at-home order banning non-essential travel and closing some businesses.

"Although the decision to close the building was difficult, the health of our communities and loved ones is the priority we must all be focused on," DOA Secretary Joel Brennan

AMERICAN OVERSIGHT

said in a release.

See the release:
https://www.wispolitics.com/2020/dept-of-administration-wisconsin-state-capitol-building-closing-to-the-public/

-- As the U.S. Senate prepares to pass a $2 trillion coronavirus relief package, U.S. Rep. Mike Gallagher told WisPolitics.com the deal could face delays in the House.

Speaker Nancy Pelosi, D-Calif., and Minority Leader Kevin McCarthy, R-Calif., today expressed support for both the deal and speedy passage to President Trump's desk.

Pelosi has indicated she will bring the bill up in a way that would not force lawmakers to travel back to Washington from their districts and risk exposure to COVID-19 while traveling.

But a single member of Congress can block the "unanimous consent" procedure and Gallagher said he thinks "there'll be a lot of objection" to passing a package of this scale using a maneuver generally employed on noncontroversial proposals.

"I suspect there'd be a lot of members, myself included, that would be concerned about passing a $2 trillion bill through unanimous consent," the Green Bay Republican said, adding such a move would be unprecedented.

He specifically highlighted U.S. Rep. Justin Amash, a conservative Independent from Michigan, who took to Twitter to call the package "a raw deal for the people."

Still, Gallagher said the concerns he and others raised have to be balanced against "the very real health concern of congregating." He said he understood the concerns of older lawmakers about returning to the Capitol, which he called "a unique petri dish for coronavirus spread."

-- Gallagher also said he backed many of the actions Gov. Tony Evers has taken to combat the coronavirus outbreak.

"I do think the governor and his team understand the gravity of the situation; they are taking it seriously and I know they're working hard," he said.

But the Green Bay Republican added Evers' rollout of the "Safer at Home" order was "suboptimal" and "caught a lot of people by surprise."

"I think it's also fair to say that the governor's team is discovering how difficult it is to draw a clear line between essential and nonessential businesses," Gallagher said.

AMERICAN OVERSIGHT

See a story below on the hundreds of inquiries into WEDC on that issue.

-- Gallagher's comments largely matched those of the Legislature's top two Republicans, who today declined to second guess Evers' stay-at-home order other than criticizing the way he rolled it out.

Senate Majority Leader Scott Fitzgerald and Assembly Speaker Robin Vos said the governor's initial announcement left their constituents in a panic and seeking answers that weren't immediately available.

Some of their GOP colleagues have knocked the order, which bans all non-essential travel and closed a number of businesses.

Vos, R-Rochester, said while he has serious doubts about the way the order was put in place, it wouldn't be "all that helpful" to now criticize decisions already made.

Fitzgerald, R-Juneau, added on a call the two held with reporters that the administration would be wise to better communicate with lawmakers. The senator called lawmakers most effective when it comes to communicating directory to their constituents.

Still, he noted the challenging environment the guv and his staff are facing.

"This is a tough decision," Fitzgerald said. "I'm not trying to say that each and every decision that's been made coming out of the East Wing is something that we should pick apart."

Today's call was the first time the pair have spoken with the media since Evers rolled out the order yesterday. They criticized him Monday for not including more details in his initial announcement the order was coming.

--The two top legislative Republicans sided with Evers in resisting calls to delay the April 7 election while expressing opposition to moving to an election conducted just by mail.

Fitzgerald noted more than 100,000 absentee ballots have already been returned, arguing it is too late to change the rules of the election now.

Green Bay has filed a federal suit seeking to cancel in-person voting and registration ahead of the April 7 election, instead allowing clerks to mail ballots to registered voters. Meanwhile, some local officials and groups have called for changes, arguing in-person voting threatens the health of poll workers and voters.

Fitzgerald said there is a "certain group of citizens" who have regularly voted at the polls on Election Day, saying they wouldn't go online to request a ballot. If the election were going to be conducted by mail, the process to reach those voters would've had to begin

AMERICAN OVERSIGHT

months ago.

"I think we are way too far in with early voting on March 12 to suddenly make the proclamation that that's the only way you're going to vote," Fitzgerald said.

Vos said local clerks have been resourceful in how they're approaching the challenge of conducting an election while keeping workers and voters safe. He noted those working in health care and in grocery stores are still doing their job, which is essential to the public.

He said the election needs to move forward to ensure local offices are filled on time.

"While those two things are paramount in this crisis, I also know that we live in a republic and we live in one that has to have elections," he said.

-- Vos said the additional $818.2 million in revenue over the next two years that had been projected in January is "gone" and the state will have to be judicious in its spending because it must maintain a balanced budget, unlike the federal government.

Vos said the Evers administration has begun sharing some proposals from state agencies. But he said it was way too early to say if there were concrete ideas that lawmakers could support.

The two leaders said the Legislative Fiscal Bureau will prepare an analysis on the federal package once it's done. They'll also be looking to the LFB for overviews of the state's unemployment insurance fund and state revenues as they consider actions.

Evers earlier this month called for GOP lawmakers to immediately repeal a one-week delay between filing for unemployment and those losing their jobs collecting a check. Vos said on the call Republicans were discussing a "small, short-term suspension."

Fitzgerald, meanwhile, said while he hasn't spoken with any members of the Evers cabinet, he has been in regular contact with Evers Chief of Staff Maggie Gau, as well as the guv.

He noted the communication between legislative leaders and the guv has improved significantly compared to the first 14 months Evers has been in office.

"Some of the exchanges are good," Fitzgerald said, adding he hopes the calls continue. "I've picked up a few things here or there that they've brought to my attention that I otherwise wouldn't have known about."

-- The Senate is preparing to meet virtually with Fitzgerald saying some "bugs"

AMERICAN OVERSIGHT

needed to be worked out.

A dry run of a virtual Senate meeting took place yesterday.

Meanwhile, Vos said while the Assembly could meet remotely, he would prefer to allow for a full debate in the chamber.

Neither indicated when they thought the Legislature might meet.

-- The Legislature has the power to overturn a guv's state of emergency declaration.

But the DHS secretary has independent authority to order restrictions on businesses and public gatherings that would require a change in law to nix, according to the head of the Legislative Reference Bureau.

Director Rick Champagne said the authority for the orders that Gov. Tony Evers and DHS Secretary Andrea Palm have issued is laid out in different statutes.

The one governing Evers' authority gives him the ability to issue an emergency order lasting up to 60 days. The guv can cut that short by rescinding the order. The Legislature also has the power to overturn it through a joint resolution. Lawmakers also can extend the order by a joint resolution.

The Legislature has no similar oversight of the orders Palm has issued.

"Her power is independent of the governor's," he said.

Champagne noted Palm's orders have referenced the emergency order that Evers issued. Even if that order were overturned, he said, at most she would have to re-issue her previous orders such as those closing schools and the stay-at-home directive banning non-essential travel and services.

Likewise, local governments have their own power to issue emergency declarations that would require a change in state law to overturn, he said.

During today's conference call, Fitzgerald and Vos said they're not considering a joint resolution to cut short the guv's 60-day order. They are, though, open to looking at legislation to give lawmakers more oversight if there are future calls.

-- AG Josh Kaul alongside 15 attorneys general is urging President Trump to order the manufacture of masks, respirators and healthcare supplies under the Defense Production Act.

AMERICAN OVERSIGHT

The AGs' letter highlights that states "are on the brink of catastrophic consequences" related to the COVID-19 pandemic if the current supply shortage continues.

"Medical professionals and first responders need resources now," Kaul said yesterday. "The president must act without further delay and use his broad power to address the ongoing shortages in critical supplies."

The Defense Production Act is a federal law that, among other things, gives the president wartime mobilization power requiring private industry to manufacture products needed for national security.

See the letter:
https://www.wispolitics.com/wp-content/uploads/2020/03/200324KAUL.pdf

-- State Rep. David Bowen today joined the growing list of organizers and elected officials calling on Gov. Tony Evers and lawmakers to postpone in-person voting for the spring election.

Bowen in a teleconference warned that the number of confirmed cases in Milwaukee County has nearly reached 300 and that voting in-person would be difficult and dangerous for citizens currently infected or showing symptoms of COVID-19.

"I want to highlight my presence on this call to join forces with the message to delay the election at this point," Bowen said. "We've seen other states delay, because there is no safe way to be able to have this election fully."

Bowen revealed on Monday he has tested positive for COVID-19 and is in quarantine. He said through first-hand experience he knows the virus is "no joke" and "very hard on the body."

Bowen's support comes after the city of Green Bay filed a federal lawsuit against the state hoping to cancel in-person voting and allow clerks to issue mail-in ballots to registered voters instead.

Wisconsin's presidential primary and spring general election is April 7. State law dictates the election must be held on the second Tuesday in April.

-- WEDC chief Missy Hughes says agency staff are "working through the process" of determining which businesses are essential after a spike in related web traffic contributed to the agency's site crashing.

"This is a hard conversation," she said today during a webinar hosted by the Wisconsin Technology Council. "Everybody wants to be essential, and everybody is essential."

AMERICAN OVERSIGHT

After the order was announced yesterday, the Wisconsin Economic Development Corp. website received an "extraordinary spike" in traffic and crashed for several hours. WEDC spokesman David Callender said nearly 2,000 information requests about essential business status have been received by the site, and noted agency staff are "swamped" by the workload.

"I'm going to say honestly that the turnaround time right now is rough, because we have gotten a number of inquiries," Hughes said.

On a typical day, Callender said the WEDC site logs around 1,000 sessions, each of which can include multiple page views and interactions. Callender said yesterday's session number "may have cleared 100,000 by the end of the day." The agency is asking businesses that find they are essential not to reach out for confirmation.

Gov. Tony Evers' "safer at home" order includes a long list detailing which businesses qualify as essential and which must close down until April 24, when the order expires.

In today's call, Hughes acknowledged the order "came fast and furious yesterday." She said the agency based the list of essential businesses on a model developed in Ohio, focusing on critical companies that "need to stay standing" for the economy to keep working.

She encouraged any businesses to "take the time to read the order" if their status is uncertain.

"It is a rare instance where someone who can't find themselves in that list of businesses in the order is going to be deemed as essential," she said.

Amid the onslaught of inquiries, Hughes said the agency is trying to group similar requests together and respond to them in batches. She said many requests are from supply chain companies that aren't sure if they qualify as essential.

"If you're supplying goods to a hardware story, to a healthcare facility, you're in that supply chain," she said. "Thinking about it that way and trying to understand where you flow into the system I think will be helpful for a lot of those questions coming in."

-- The Wisconsin Elections Commission today reported the number of absentee ballot requests for the April 7 election has surpassed the total from the 2018 general election.

In November 2018, 565,591 voters weighed in by absentee ballot on the races for governor, U.S. Sen. Tammy Baldwin reelection bid, Congress and a host of state and local contests.

The commission reported as of today, 626,837 voters have requested an absentee

AMERICAN OVERSIGHT

ballot for the upcoming spring election.

That total now narrowly trails the number of absentee ballots cast in the 2008 and 2012 November general elections and falls roughly 200,000 ballots short of the record set during the November 2016 general election.

The deadline for registered voters to request an absentee ballot is April 2.

See data on absentee ballot requests:
https://elections.wi.gov/publications/statistics/absentee

See more information signing up for an absentee ballot:

-- WisPolitics.com has updated its coronavirus resource page with a timeline of events during the outbreak and response.

Check it out:
https://www.wispolitics.com/2020/coronavirus-resources/

-- In a new TV ad, actor Kelsey Grammer urges Wisconsin voters to support a proposed amendment that would add more crime victims rights to the state Constitution.

Marsy's Law lobbied for the amendment and is now putting on an ad campaign ahead of the April 7 election, which includes the referendum on the amendment.

The group said the ad will run on broadcast, cable and a variety of digital platforms. The group didn't say how much it was spending on the buy, which includes the Milwaukee, Madison, Green Bay, Wausau and La Crosse/Eau Claire media markets.

In the ad, Grammer says his father was murdered at the age of 38 and his sister was raped and murdered six years later. He found out through the National Enquirer that his father's killer was released, which he said "seemed like a cruel joke." He had a voice in parole hearings for his sister's killers, "but that's not always true in Wisconsin."

"Marsy's Law ensures equal rights to victims and their families to be informed and heard," Grammer says, urging viewers to support the amendment.

Subject: WHA Creates New COVID-19 Dashboard

Good afternoon,

Please see the message below from WHA President/CEO Eric Borgerding regarding the creation of a new WHA COVID-19 dashboard.

Thanks,
Kyle

Good afternoon lawmakers,

Earlier today, the Wisconsin Hospital Association Information Center (WHAIC) released a new dashboard illustrating statewide and regional data related to daily COVID-19 hospitalizations and equipment capacity. As mentioned in WHA's April 7 memo, March 31 memo and an interview this week in Wisconsin Health News, WHA has consistently supported expanding the collection and reporting of COVID-19 data. This includes daily updated information related to COVID-19 positive patients in hospitals and other important, daily update information.

Since this is state, not WHAIC, collected data, WHAIC has been working collaboratively with DHS for the past several days to stand up and offer this daily and relevant COVID-19 data. COVID-19 hospitalization and capacity information continue to be funneled through existing reporting structures at DHS but is now being made available to the WHAIC for publication. This would not be possible without

AMERICAN OVERSIGHT

commitment from Wisconsin hospitals to provide and learn from information and the support of and collaboration with DHS.

The WHAIC has served as a public source for health care data for 16 years, receiving commendations for its performance from DHS leadership during both Democratic and Republican Administrations. Its work was furthered by the Legislature in 2016, when WHA worked closely with a bipartisan group of lawmakers (Senator Howard Marklein, then-Representative Dale Kooyenga, Representative Joe Sanfelippo and Representative Daniel Riemer) to enact significant improvements to the hospital discharge data program operated by WHAIC. The legislation was signed into law during WHA's Advocacy Day in 2016, in front of 1,100 of Wisconsin's hospital advocates, many of who are now on the front lines of the COVID-19 pandemic.

Collecting and disseminating health care data and public information transparency is WHAIC's role. WHA and WHAIC have created and operated the PricePoint and Checkpoint web sites, which have provided cost and quality data directly to health care consumers since 2004 and 2005, respectively. These groundbreaking transparency efforts have been frequently cited and lauded by WI lawmakers, and WHAIC's PricePoint website is so well regarded that 10 other states use it to provide price transparency information for their own citizens. Through partnership and collaboration, Wisconsin remains a national leader in hospital and health care transparency, of which today's information is another example.

Again, we encourage you to visit the new dashboard to see this information for yourself. If you have questions about this dashboard or how the state collects COVID-19 related data and the process that has been used to report COVID-19 data, please let us know.

Sincerely,

Eric Borgerding

President/CEO

Wisconsin Hospital Association

Good afternoon,

Please see the message below from WHA President/CEO Eric Borgerding.

Thanks,
Kyle

AMERICAN OVERSIGHT

Dear Wisconsin Lawmaker,

As I wrote to you yesterday, WHA has been focused on gathering and sharing data to inform decisions responding to the global COVID 19 outbreak in Wisconsin. Yesterday, we shared this infographic, describing actions hospitals are taking to assure citizens are cared for during this time. ***Your hospitals are taking all necessary steps to be there for your constituents and their families.***

Many have been calling for more complete information about COVID-19 in Wisconsin, and so has WHA. In addition to the information we've been providing, we are pleased to see the state today begin posting information related to hospitalizations for COVID 19 positive patients. WHA has been encouraging the State Emergency Operations Command (SEOC) to collect and disseminate this information, today is a positive step. The data and analytics need to expand and improve, and we expect to happen very soon. We all need more relevant, daily updated information, the sooner the better.

As I noted yesterday, statewide and regional data is critical to gauge the spread of COVID-19 infection, its impacts and efficacy of mitigation strategies. The more we can do to collect and disseminate daily updated information on infection rate and growth, impact on the health care system, PPE supply and other key indicators of preparedness and impact, the better positioned Wisconsin hospitals, caregivers and policymakers will be to make prudent decisions and choices going forward.

Many of you have taken the time to reach out to us directly and ask good questions. We are grateful for the Q & A, dialogue, and the expressions of support for our state's hospitals and the women and men serving on their front lines – its greatly appreciated!

Sincerely,

Eric Borgerding

President/CEO

Wisconsin Hospital Association

REGULAR SESSION ENDS

The regular session of the Legislature ends today, and all legislation which did not pass both houses fails pursuant to SJR-1. According to the Joint Rules, the limited floor session scheduled for April 21-22 is limited to:

- * Revisor's correction or revisor's revision bills.
- * Reconciliation bills introduced by the committee on organization of either house that resolve conflicts between mutually inconsistent acts of the biennial session and proposals recalled for further legislative action under Joint Rules 60.
- * Bills introduced by the Joint Committee on employment relations for the ratification of state employee collective bargaining contracts.
- * Matters the purposes of which are allowed under Joint Rule 7 (Citations by the Legislature).

Under Senate Rule 22, appointments may be taken up as well. Any bills not passed through both houses today would have to be revived in an extraordinary session of the Legislature to be acted upon.

AMERICAN OVERSIGHT

RISSER TO RETIRE AFTER 64 YEARS; REP. TAYLOR LEAVING THE LEGISLATURE

Sen. Fred Risser announced he will retire after this legislative session. Risser is the longest service state or national legislator in the nation's history. First elected to the Wisconsin Assembly in 1956, he was elected to the Senate in 1962 and served there since.

Rep. Chris Taylor announced today, "she will not seek re-election to the state Assembly or election to any other legislative seat in 2020."

DOA CLOSES CAPITOL

The Department of Administration announced the State Capitol is closed to the public. The release says, "If the Legislature or Supreme Court convenes, the Capitol will reopen to public." In a follow up email to The Wheeler Report, DOA said they encourage staff on site to be aware all exterior entrances are now locked. DOA says for security purposes the doors need to remain closed and locked so they are asking that staff not prop the doors open. Staff that work in the building that have electronic access rights to enter the Capitol with their ID will be allowed in the building. *Essential meetings* that need to be held in the Capitol need to make an appointment with the Capitol tenant they are meeting.

FEDERAL STIMULUS PACKAGE

The National Conference of State Legislatures has released a summary of the federal COVID-19 Stimulus package and what it means to states. The website highlights these points:

- * Creates a $150 billion Coronavirus Relief Fund for state, local and tribal governments. See estimated state allocations courtesy of Federal Funds Information for States.
- * Provides $30 billion for an Education Stabilization Fund for states, school districts and institutions of higher education for costs related to the coronavirus.
- * Provides $45 billion for the Disaster Relief Fund for the immediate needs of state, local, tribal and territorial governments to protect citizens and help them respond and recover from the overwhelming effects of COVID-19.
- * Provides $1.4 billion for deployments of the National Guard. This level of funding will sustain up to 20,000 members of the National Guard, under the direction of the governors of each state, for the next six months in order to support state and local response efforts.
- * Provides an additional $4.3 billion, thorough the Centers for Disease Control and Prevention, to support federal, state and local public health agencies to prevent, prepare for, and respond to the coronavirus.
- * Extends the Oct. 1, 2020, Real ID implementation deadline to Sept. 30, 2021.

AMERICAN OVERSIGHT

- * Provides $25 billion for transit systems. These funds would be distributed through existing formulas including the Urbanized Area Formula Grants and Formula Grants for Rural Areas using fiscal year 2020 apportionment formulas.
- * Provides $400 million in election security grants to prevent, prepare for, and respond to coronavirus in the 2020 federal election cycle. States must provide an accounting to the Election Assistance Commission of how the funds were spent within 20 days of any 2020 election.
- * Expands unemployment insurance from three to four months, and provides temporary unemployment compensation of $600 per week, which is in addition to and the same time as regular state and federal UI benefits.
- * Establishes a $500 billion lending fund for businesses, cities and states.
- * Provides a $1,200 direct payment to many Americans and $500 for each dependent child.

The summary then explains provisions impacting states.

The Wheeler Report
Covering the Wisconsin Legislature since 1972

Monday, March 30, 2020 – PM

ND PAPER MAKING PPE DONATION TO WISCONSIN FOR COVID-19 CRISIS

ND Papers, a paper company with a production center in Biron, Wisconsin will be donating 1,500 Tyvek suits and 20,000 masks to the State of Wisconsin through the state donation center for PPE donations.

PAPER INDUSTRY ALREADY PROVIDING MEDICAL PRODUCTS

In a conference call with media today, Governor Evers was asked about the possibility of Wisconsin paper companies converting facilities to help create PPE for Wisconsin health care professionals. They already do. Wisconsin paper mills and converting processors already provide an extensive list of medical supplies including:

- * Medical Personal Protective Equipment – including the base papers and support materials to produce face masks and gowns
- * Patient gowns, lab coats, scrubs, O.R. caps and EMT items
- * Disposable bags, sterilizer bags, SWABS and infection control products
- * Disposable cleaning wipes and antibacterial wet wipes used for hand and surface cleansing
- * Packaging for medication and medical instruments

AMERICAN OVERSIGHT

- * Liners used in medical applications
- * Medical tapes used to keep IVs in place
- * Carryout bags used in fast food facilities
- * Food packaging products
- * Sterile packaging solutions and packaging fill
- * Saturating papers used for residential and commercial building
- * Tissue papers, toilet papers, napkins, adult briefs

Additionally, container board, which is used in making boxes, helps to provide boxes and packaging for places like Amazon and other companies providing delivery services to people staying at home.

According to Scott Suder, President of the Wisconsin Paper Council, Wisconsin paper companies are working at capacity to produce all the things Wisconsin needs in the fight against COVID-19. However, Suder was insistent that the first priority for the industry was to be deemed an essential business so they could continue production. Then they implemented COVID-19 standards and safety protocol to ensure their workers would be protected and the people receiving the products would be safe.

DAILY UPDATE FROM DHS

The Governor, DHS Secretary-designee Palm and DHS Chief Medical Officer Dr. Westergaard held their daily media conference call to update the public and take question pertaining to COVID-19 this afternoon. Wisconsin now has 15,856 negative tests, 1,221 are positive and 14 people have died due to the virus. While Wisconsin has increased its daily testing numbers, testing is still limited to high priority cases, health care professionals, and long-term care professionals. Testing capacity will increase again with the announcement of the public-private partnership (see below), however experts expect the test will still be limited by the supply chain and will continue to be in consultation with your personal physician.

Wisconsin has not been collecting specific hospital data in real time, so they are unable to give specifics on how many beds are available, how many ICU beds are available, or how many ventilators are available, but Sec. Palm and Dr. Westergaard said they are working with hospitals to increase their real time data tracking with the intentions of making that information available in the future. Dr. Westergaard said approximately 20-25% of those who have tested positive are currently in the hospital, which means approximately 250 individuals are currently hospitalized with COVID-19.

AMERICAN OVERSIGHT

Governor Evers said he has continued to update the legislative leadership on the situation and hopes they will eventually work with him on producing a legislative package that addresses the needs not currently met by the passage of the federal legislation. In giving examples, Evers said DWD has been inundated with new calls to the unemployment help lines and they need staff to take calls and process requests. Evers said DWD needs at least 80 more staff and that needs to be approved by the Legislature. Evers explained that DHS needs additional flexibility to apply for waivers and maneuver through the federal system and needs legislative approval to do so. Evers said he has asked all the state agencies to forward their needs to him so he can put forth a complete list of needs to the Legislature.

However, in October the Joint Finance Committee co-chairs Sen. Darling and Rep. Nygren sent a letter to agencies after they requested additional position authority saying the legislature would not grant any new position authority to agencies until they identify positions that will be eliminated. The letter, sent to DOA Secretary Brennan stated, "As of September 26, 209 there were more than 4,000 state vacancies excluding the University of Wisconsin System and the State of Wisconsin Investment Board. Of this total, more than 600 had been vacant for over a year. This letter is to inform you that going forward position requests from agencies that are recommended for approval and forwarded to the Committee should identify equivalent vacancies as an offset to the newly requested positions…Given the large number of vacancies across state government and the broad authority state law gives state agencies to recommend abolishing positions, we plan to work with you to limit the need to create new position authority." According to an LFB memo attached to the letter to DOA, DHS has 855.76 total FTEs by vacancy, and DWD has 214. Any positions created with federal dollars do not require legislative approval.

Numerous questions were asked pertaining to when Wisconsin can expect a peak, and while the modeling shows that Wisconsin should expect a peak in the next 2-4 weeks, Dr. Westergaard was perfectly clear that the numbers can change based on how well the Safer-At-Home is being implemented by the public.

GOVERNOR ANNOUNCES LAB CAPACITY AGREEMENT

Governor Evers announced the public-private partnership with Exact Sciences, Marshfield Clinic Health System, Promega, and UW Health to expand testing for COVID-19. Prior to today's announcement, the Wisconsin State of Lab of Hygiene and the Milwaukee Public Health Lab were leading the Wisconsin Clinical Lab Network. The Wisconsin Clinical Lab Network was averaging 1,500-200 COVID-19 test per day. Today's partnership announcement expects to double that capacity initially and continue to expand beyond that as more labs and more supplies become available. It should be stressed that residents seeking a COVID-19 test are required to receive an order from a doctor, and these new lab systems are not testing sites.

AMERICAN OVERSIGHT

UNEMPLOYMENT CLAIMS CONTINUE TO RISE

Unemployment claims in Wisconsin were up for two weeks in a row. Week 12, which started on March 15, saw 67,843 unemployment claims, while Week 13 say 115,679 claims. Meaning claims over the two weeks are over 183,000.

The Wheeler Report
Covering the Wisconsin Legislature since 1972

Thursday, April 2, 2020 – PM

CMS WAIVERS AVAILABLE

When the President announces a national emergency, like he has for COVID-19, section 1135 of the Social Securities Act authorized the Secretary of the U.S. Dept. of Health and Human Services to temporarily modify or waive certain Medicare, Medicaid, Children's Health Insurance Program (CHIP), and Health Insurance Portability and Accountability Act (HIPPA) requirements. Under Section 1135 the Centers for Medicare & Medicaid Services (CMS) can issue blanket waivers, which means providers don't have to apply for an individual waiver. If there is not a blanket waiver, providers or states can ask for an individual Section 1135 waiver through CMS.

During the Extraordinary session held in late 2018, the Legislature included the following language into state law: "The department (DHS) may not submit a request to a federal agency for a waiver or a renewal, modification, withdrawal, suspension, or termination of a waiver of federal law or rules of for authorization to implement a pilot program or demonstration project unless legislation has been enacted specifically directing the submission of the request for a waiver, renewal, modification, withdrawal, suspension, termination, or authorization."

On March 24, DHS Medicaid Director Jim Jones sent a letter to Jackie Glaze, CMS Acting Director, saying Wisconsin is implanting all of the blanket waivers issued by CMS on March 13,

AMERICAN OVERSIGHT

but asked for additional waivers under Section 1135 for CMS approval. It is assumed that the waiver, if approved, could not be implemented until the Legislature passed a bill providing the authority to do so. On the same date, Palm sent a letter to JFC co-chairs asked for approval to request 1135 waivers.

A second letter to the JFC co-chairs highlighting that the Families First Coronavirus Relief (FFCRA) provides for a 6.2% increase in Federal Medical Assistance Percentage (FMAP) for states during the calendar year in which the public health emergency declared remains in place. LFB estimates that the 6.2% increase to the FMAP would result in GPR savings of approximately $150 million per quarter. However, states are required to meet certain standards to receive the funds. The Extraordinary Session bill, Act 370, DHS implemented a monthly premium for BadgerCare Plus childless adults with income greater than 50% of the federal poverty level on February 1, 2020. That action could make Wisconsin ineligible for the federal match. DHS proposed, in the letter, to immediately suspend implementation of BadgerCare Plus childless adult premiums and proposes to suspend implementation of all Medicaid & CHIP terminations for any reason other than voluntary withdrawal from the program and the individual leaving the state. The co-chairs replied to Palm that JFC did not have the authority to approve the requests.

According to a letter from Disability Rights Wisconsin to the Governor and legislative leadership, "As of today's date, 41 states have already presented their Waiver plan requests to CMS and had them approved, Wisconsin is not one of them. Wisconsin has yet to submit a request that will allow CMS to grant both flexibility and extra funds that are so crucial to people with disabilities to help them remain safe and healthy during this crisis. We have been assured by the Department of Health Services that these plans stand ready for submission, awaiting only the appropriate action from the Legislature pursuant the provisions of Act 370." Disability Rights Wisconsin specifically highlighted waivers needed to support Wisconsin's Medicaid and Children's Health Insurance Program (CHIP).

A letter from the Survival Coalition to the Governor and legislative leadership says they recommend using the Appendix K to address the following Family Care, IRIS, and CLTS concerns:

- * Modify provider qualifications and location (temporarily expand settings) to allow providers of group day services and community engagement services to provide services to individuals living in group homes in group home settings.
- * Consider a rate adjustment for group home providers who may be required to pay significant overtime in order to provide staff support should their workforce experience illness and Other workers must remain on the job to meet needs. • Temporarily include retainer payments to retain providers who may otherwise go out of business (residential, employment, day, transportation service providers).

AMERICAN OVERSIGHT

- * In the event that someone is quarantined in the community, allow flexibility to authorize family members to be paid as providers without needing to demonstrate that no other provider is available and without needing to identify a back-up plan. Develop a seamless and expedited process to approve alternative care providers.
- * Increase payment rates to account for the significant health risk to providers (hazard pay), overtime pay, and to solicit a larger pool of providers.
- * Allow reimbursement for alternative services (Ex. Adult Day Care/Services closed let staff provide services in home setting), allowing for phone visits/screening in place of in-person assessment.
- * Expand telehealth options as an alternate to face-to-face requirements – ADRCs, MCOs, ICA/FEA, home health/personal care intake assessment, mental health counseling, nurse review and case management etc.
- * Temporarily modify the timeline for Long Term Functional Screen re-evaluations.
- * Temporarily expand the window (currently 15 days) for staff retention payments (similar to bedhold in institutions) for services for the purpose of guaranteeing waiver participants still have help at home after returning from an acute care hospital or short-term institutional stay.
- * Maximize use of Telehealth for long term care populations.
- * Ensure billing is allowable for remote service delivery options, where appropriate, and communication between providers and employers of people with disabilities to ensure they can maintain their employment during or develop opportunities for after the crisis.

The Coalition said specifically Wisconsin should submit an 1135 waiver request to do the following:

- * streamline provider enrollment processes,
- * create the opportunity for providers of affected services, such as employment and day services to provide alternate services,
- * waive prior authorization requirements to remove barriers to needed services,
- * provide care in alternative settings as needed,
- * provide the flexibility needed to expand the home- and community-based service provider network,
- * relax requirements that physicians and other health care professionals be licensed in the State in which they are providing services, so long as they have equivalent licensing in another State,
- * extend deadlines for appeals and state fair hearing requests, and
- * waive specific eligibility and enrollment requirements to expand access to services (work requirements, premiums, income).

The Coalition sent an additional letter to Governor Evers and DHS Secretary-elect Palm asking for specific action outside the waiver process. That includes:

AMERICAN OVERSIGHT

- * Caregiver workforce
  - * We recommend DHS issue guidance on any special precautions caregiver workers should be taking to further minimize risk to themselves and others.
  - * We recommend DHS issue guidance to provider agencies regarding the flexibility they have to reassign staff, enable staff to perform additional care services, and broaden criteria to recruit the greatest number of workers possible to ensure the daily care needs of participants continue to be met.
  - * We recommend DHS develop a messaging strategy for long term care waiver participants to understand what process they should follow to ask for help should they find themselves in a situation where their daily care needs are not being met.
- * Family Caregivers
  - * Waive restrictions on certain family members providing paid direct care, including family members between 16-18 years of age.
  - * Temporarily waive certain background check requirements so relative workers can be approved to provide paid care quickly.
  - * Expedite or temporarily amend training requirements for family members to be paid to provide care.
  - * Extend existing prior authorizations and waive prior authorization requirements for new service needs.
  - * Temporarily waive individual budget amendment requirements to ensure care can be provided in the least restrictive community-based setting.
  - * Ensure short-term respite options are available to family caregivers, particularly older adult caregivers.
  - * Create a process of telehealth check-in with families in self-isolation or quarantine, particularly elderly caregivers, to ensure caregivers have proper support and rest.
- * Residential, Employment, Transportation, Day Services
  - * Streamline service authorization to allow changes/increase in hours or change in services through a presumptive approval process and require MCOs to follow DHS directives.
  - * Temporary eliminate face-to-face meeting or interaction requirements for service delivery wherever possible based upon the service type.
  - * Extend service plans by 3 months, when needed. There will be situations where a planning meeting cannot take place and services need to continue.
  - * Expedite approval attendants/employees in the event that a person's primary attendant is ill and a new attendant is quickly needed.
  - * Ensure people with disabilities and older adults have access to a 90-day medication and medical supply fills.
  - * Allow use of mail order pharmacies, remove limits on refills authorized via telehealth visits, and remove restrictions on mail order pharmacies across state lines.
  - * Remove short fill terms, such as those imposed under the Controlled Substance Act prohibitions, strict prior authorization requirements, and other bureaucratic barriers.
  - * Expand access to medically necessary equipment.

AMERICAN OVERSIGHT

    - * Facilitate and lead a process to identify individuals who are at greatest risk of harm or other vulnerabilities, particularly people who do not have natural supports or other support systems available.
    - * Allow use of regular program funds to pay staff who are teleworking or put on mandatory leave during the COVID-19 response time, and that it is an allowable expense to pay staff placed on mandatory leave.
    - * Provide guidance around who may be considered as essential workers, or who is eligible for hazard pay.
    - * If workers use unemployment benefits, waive re-employment service sessions and reimburse the employer agency for its increase in unemployment costs.
- * Institutional Settings
    - * Strictly follow all CDC and CMS guidance relating to infection control-both for residents and care staff
    - * Encourage facilities to make it possible to use electronic communication between residents and their families and friends
    - * Permit in-person contact in end of life situations and other situations where in person contact is critical to the maintenance of the resident's mental health
    - * When in-person contact happens, encourage facilities to designate a separate meeting area that is as distant as possible from the main part of the facility
    - * When moving a resident to the separate visit area is not possible because of the health of the resident, ensure that visitors strictly comply with all infection control policies.
- * Additional Recommendations:
    - * Immediately approve all Medicaid applications delayed more than 45 days for Temporary Medical Coverage.
    - * Immediately suspend all Medicaid terminations to keep recipients in continuous coverage and seek federal waiver to suspend redeterminations.
    - * Approve Medicaid applications, or extend Temporary Coverage, for people with disabilities and older adults in an expedited manner as fast as possible within 48-72 hours

LEGISLATURE DRAFT PROPOSAL

According to a list of negotiating points, the Extraordinary Session legislative proposal could include items on:

DOA

- * Employee Transfer Authority
- * Limited-Term Employee Hours
- * Use of Annual Leave
- * State Employment Filings and In-Person Meetings.

DATCP

AMERICAN OVERSIGHT

- * Prohibition on Returns During Public Health Emergency

Board of Commissioners of Public Lands

- * Authorize Trust Fund Loans to Municipal Utilities

Budget Management and Compensation Reserves

- * JFC Authority to Reduce Appropriations.
- * Transfer from Sum Sufficient Appropriations.

Building Commission

- * General Obligation Bonding Refunding Authority.

Employee Trust Funds

- * Rehired Annuitants in Critical Positions.
- * Leaves of Absence and Health Insurance

General Provisions

- * Governmental Deadlines and Training Requirements During a Public Health Emergency
- * In-Person Appearance Waiver
- * Exemption from Civil Liability for Manufacture of Medical Supplies and Equipment During Public Health Emergency
- * Exemption to 50 Piece Rule for COVID-19 Emergency

Health Services

- * Temporary Suspension of Medical Assistance Provisions to Meet Conditions for Enhanced Federal Matching Percentage.
- * Legislative Oversight of Federal Waiver Requests Related to the COVID-19 Public Health Emergency
- * Grants for Reimbursement COVID-19 Costs.
- * Hours of Instructional Programming for Nurse Aides.
- * Hospital and DHS Reporting Requirements
- * Medical Assistance Incentive Payments to Encourage Participation in Health Information Exchange
- * SeniorCare Coverage of Vaccinations.

Office of the Commissioner of Insurance

- * No Cost Sharing for COVID-19 Testing During 2020

The Wheeler Report

Covering the Wisconsin Legislature since 1972

Wednesday, April 8, 2020

EXTRAORDINARY SESSION UPDATED

While an Extraordinary Session has yet to be called, it now seems unlikely the session will occur this week, more likely it will occur next week.

APRIL SPECIAL SESSIONS ADJOURNED

Both April Special Sessions Governor Evers called pertaining to the April 7 Spring Election have been adjourned pursuant to SJR-1. The January Special Session is still open.

ELECTIONS COMMISSION MEDIA BRIEFING

The Wisconsin Elections Commission held a media briefing to discuss the April 7, 2020 spring election. According to Meagan Wolfe, Wisconsin Elections Commission Administrator, several incidents pertaining to US Postal Service processing of absentee ballots have been brought to the

AMERICAN OVERSIGHT

WEC's attention and they are working with USPS to understand what happened. A story by the Milwaukee Journal Sentinel highlights issues at Fox Point, while a press release from Sen. Feyen discusses issues pertaining to Oshkosh and Appleton.

Wolfe was asked repeatedly by media about in-person ballot numbers and Wolfe explained that all statistics are collected by the local election officials, not by the state. The local election officials are not able to start entering information pertaining to yesterday's election until 4 pm on Tuesday, April 13, at which point they will enter the information and forward it to their county election officials for tallying. While some local entities have been able to give information on their websites for their local polls, statewide information will not be available until 4 pm on Monday, April 13.

While many expect that at 4 pm, Monday, April 13 the numbers should be instantly available, Wolfe explained to reporters that the officials cannot start entering information into the system until 4 pm, so it will be like a "regular" election day where the numbers are entered and forwarded to the counties for tabulation, meaning results will not be instantaneous at 4 pm, but will be after that when the counties begin reporting results.

APRIL 7 SPRING ELECTION – BY THE NUMBERS - SO FAR

The April 7 Spring Election included:

- * The Presidential Primary.
- * One Wisconsin Supreme Court seat.
- * Three Court of Appeals seats.
- * 34 Circuit Court seats.
- * 128 local referendum (57 School Referendum).
- * One Constitutional Amendment proposal.

The Spring Election absentee voting included (as of April 8):

Please note that Absentee Ballots POSTMARKED by April 7 will continue to be accepted through 4 pm, April 13, 2020.

- * 3,387,130 Active Registered Voters (as of April 1, 2020).
- * 1,282,762 Requested Absentee Ballots.
- * 1,275,117 Sent Absentee Ballots
- * 1,003,422 Returned Absentee Ballots

AMERICAN OVERSIGHT

- * 38% of Registered Voters Requested an Absentee Ballot
- * 78% of Absentee Ballots Requester were Returned

Comparing the available April 7 data with previous elections:

Spring Election	Absentee Issued Total	Total Ballots Cast	Turnout	Percent Absentee	Number of School Referendum
2016 ***(Presidential)***	249,503	2,113,544	47.4%	11.8%	71
2017	103,533	708,711	15.9%	14.6%	65
2018	130,041	997,485	22.3%	13.0%	66
2019	170,121	1,224,303	27.2%	13.9%	59
2020-To Date ***(Presidential)***	1,287,827	TBD	TBD	TBD	57

A deeper look at the registered voters and absentee ballots (according to statistics available from the WI Elections Commission):

County Name	Registered Voters	Absentee Application Count	Absentee Ballots Sent Count	Absentee Ballots Returned Count	Percentage of Registered Voters Who Requested Absentee Ballots	Percentage of Absentee Requested which were Returned as of April 8

U.S. Department of the Interior

THE WHITE HOUSE

State and Local Elected Officials –

On **Wednesday, April 1, at 1:30 PM ET**, please join Dr. Anthony Fauci (Director, National Institute of Allergy and Infectious Diseases), Larry Kudlow (Assistant to the President for Economic Policy), and Senior Administration Officials for a briefing call on COVID-19 (coronavirus). Please note that Administration call participants are subject to change. The purpose of this call is to provide State and local elected officials with up-to-date information on COVID-19 and pertinent Administration and Task Force actions.

Registration instructions are below – please read the RSVP instructions in their entirety before registering. We encourage you to share this invitation with your county and/or municipal colleagues as well as public health officials. If you have a particular question you would like addressed during the call, please flag those for our team by contacting William Crozer at William.F.Crozer@who.eop.gov**.**

Briefing Call Registration
Date: Wednesday, April 1
Time: 1:30 PM ET (please note time zone)
Call-In Registration: CLICK HERE

AMERICAN OVERSIGHT

Note: Call-in lines are limited. Please register only if you are able to join the call. State and local leaders (especially staff) working in the same office are encouraged to register once as a group and use one call-in line (where appropriate and with proper social distancing) to maximize the number of people who can join. Upon successful registration, you will receive dial-in details to the email address you use to register. Note that multiple people cannot dial-in using the same registration information.

Hi Darlene,

Thank you for joining us for gener8tor's Emergency Response Program! We hope this program will help you navigate this time of uncertainty and help you make some of the incredibly difficult decisions small business owners are being asked to make right now. The program will consist of daily webinars designed to help you secure resources to withstand the current crisis. Additionally, gener8tor will hold office hours

AMERICAN OVERSIGHT

for you to virtually meet with the gener8tor team for 1:1 coaching. Our goal with office hours is to help you identify, understand and engage with the resources available.

Here is some introductory information, please feel free to let us know if you have any questions!

1. Here is the schedule for the Emergency Response Program. It is also laid out at the bottom of this email.
2. **Each participant is invited to a daily webinar 12:00pm - 1:00pm CT from Monday March 30 through Friday April 3** (links below and in the schedule)**.** Topics covered include:
    a. Step-by-step Process To Apply for SBA Programs
    b. Navigating the New Employment Laws
    c. Human Resource Management
    d. Civic, Philanthropic and State Emergency Relief Resources
    e. Mental Health for Small Business Owners

THE PASSWORD FOR ALL WEBINARS IS gener8tor

1. **We have office hours available every day starting Monday, March 30.** Please use the link below to sign up to meet with us 1:1. Due to the extremely high demand for this program, please only sign up for one office hour slot. If you need additional help or coaching after your 1:1 meeting, we will do our best to schedule additional time.

Office Hours Sign Up

4. **Here is a link to additional resources that we will reference as part of our program:**

Additional resources

5. You will receive calendar invites for each event.

Don't hesitate to reach out to us with any questions. We are truly honored to have this opportunity to support you and the small business community at large.

Sincerely,

Lauren/Charmyse/Joe

Wisconsin COVID-19 Emergency Response Program
Schedule

Please remember to sign up for only one office hour slot during the course of the program so that every business has the opportunity to meet with us. If you need additional coaching after your session, we will do our best to schedule additional time.

RE: **Wisconsin Hospital Association Reaction to the Governor's COVID 19 Proposals**

AMERICAN OVERSIGHT

When lawmakers talk about needing to support those on the front lines, they must mean our state's hospitals, physicians, nurses, support staff and other health care providers. In any legislation taken up by the Assembly and the Senate in response to the COVID 19 pandemic, ensuring Wisconsin hospitals have the resources to continue operation should be the state's top priority. As WHA has reviewed legislation proposed by Governor Evers, we wanted to communicate our support of several provisions and offer modifications to others.

Resources for Personal Protective Equipment, Testing Supplies & Other Hospital Related Costs: As hospitals are experiencing significant shortages in Personal Protective Equipment (PPE) and testing supplies, $100 million in GPR funding included in Governor Evers' proposal will directly help hospitals acquire needed resources to test and treat patients with COVID 19. Wisconsin hospitals are not only experiencing shortages in supplies, they are also experiencing increased prices on those same materials that are in demand.

In addition, hospitals are now being put in the difficult position of identifying staffing needs necessary to respond to the coming emergency while also ensuring that financial resources exist to meet payroll into the future. This funding pool can be used to stabilize current staffing, support staff overtime costs and, when possible, hire additional staff, helping to alleviate this burden.

In addition, it is important for policymakers to realize that the biggest financial stress on hospitals right now are lost revenues from following US Surgeon General and CMS directives to halt elective and certain other scheduled procedures. WHA requests that lawmakers ensure that provisions providing financial support for hospitals allow the use of state funding to make-up for revenue losses.

It is important to note that even after halting certain scheduled and elective procedures, hospitals still do not have enough PPE to meet current demand. Shortages of PPE will directly impact when hospitals can restart elective and scheduled procedures and begin to recover on their own from the staggering financial losses now mounting every day.

Hospital Funding and Stability: Hospitals large and small are facing significant cash flow problems as a result of cancelling elective procedures under government directives to protect the public health, with estimated hospital revenue losses of $170 million per week in Wisconsin. When adding health system physician and clinic services, the weekly revenue losses grow to $266 million. Cash flow problems for hospitals result in reductions in health care workforce and reductions in access to care, two consequences Wisconsin cannot afford right now.

We know that support from the federal government will not be enough to ensure our state's hospitals are protected from this crisis. As the Legislative Fiscal Bureau writes in their April 1 memo, "*it is unknown how much funding, if any, Wisconsin healthcare providers will receive"* from the federal CARES Act. From estimates based on AHA recommendations, it appears the proportion attributable to Wisconsin hospitals could be only $275 million – possibly less. At the hospital rate, estimated hospital funding from the CARES Act would cover only 11 days' worth of revenue losses during the public health emergency - which we are now already passed.

AMERICAN OVERSIGHT

We are glad to see that the Governor has already recognized this need and has prioritized hospital funding in his COVID Response package, including another $75 million in supplemental payments to hospitals. Any and all financial resources the legislature can provide to hospitals are needed.

Our neighboring state legislatures and Governors have allocated hundreds of millions of dollars to support their hospitals and health care providers. We ask the legislature to do the same in Wisconsin and prioritize hospitals, the providers on the front lines of defense, during this crisis.

Hospital/Healthcare Data: WHA has consistently supported expanding the collection and reporting of COVID-19 data. This includes aggregated statewide and regional information related to COVID-19 positive patients in hospitals and should include other health care facilities with capacity used to treat COVID-19 patients. The WHA Information Center, operating as the entity under ch. 153 and charged with collecting and reporting hospital and ambulatory surgery center data, could synthesize and facilitate the dissemination of important information to assist with public and private emergency planning efforts. For 16 years, WHAIC has produced accurate and timely hospital datasets, analyses, and reports. Relying on WHAIC's expertise, the legislature could create a new report in ch. 153, that would require WHAIC to produce and publish daily updated public health emergency dashboards based on healthcare emergency preparedness program information the state collects from hospitals.

Safe Harbor Protections for Health Care Providers Throughout a Public Health Emergency: WHA, alongside several physician groups, support the extension of certain liability protections to health care providers during a public health emergency, which many states across the country already have done. Without action to address our liability standards during a public health crisis, physicians and hospital administrators are concerned that some providers will be hesitant to provide care during a very difficult time.

Healthcare Workforce Licensing: We request you incorporate the changes made in LRB 5957 (Sen. Kooyenga/Rep. Kurtz/Rep. Sanfelippo) as an amendment to LRB 5920/P2, which would create a more streamlined recognition of out-of-state licenses for those in good-standing and ensure that health care providers can practice to the top of their education, training and experience as delegated by a physician or established in a health care facility protocol.

The legislation does the latter by clarifying that no credentialing board can sanction a professional as long as the bill's criteria for physician delegation/licensed health care facility protocol are met. *In a time of crisis, providers should not have to fear credentialing sanction for something they are trained and capable of doing under a delegated act or in a licensed health care facility.*

Telehealth Parity - LRB 5920/P2, Section 65: This provision appears intended to require parity for telehealth services, which WHA fully supports especially during a time when the public is practicing social distancing and staying home. We are concerned that the language in the bill may not allow *all* providers within the insurer's network to provide and be paid for telehealth services. That is, if a patient's usual in-network provider is available and able provide the service via telehealth, that physician should be allowed to do so, and the patient shouldn't have to be required to use a more limited telehealth network. Therefore, we recommend the language in Section 65 be modified. One suggestion for doing so is:

AMERICAN OVERSIGHT

No disability insurance policy or self-insured health plan may deny coverage and payment for any covered health care treatment or service rendered via telehealth by an in-network provider to a patient if the same treatment or service is covered if rendered face-to-face by the in-network provider.

Worker's Compensation Coverage for COVID 19 Exposure: It is the opinion of some, including the state Department of Workforce Development, that health care workers exposed to COVID 19 are not eligible for worker's compensation claims unless they test positive for COVID 19 and can prove the disease was acquired at work. The details on this are important, since the limited amount of testing capacity in our state means some health care workers may not be able to receive a test. Therefore, health care workers *exposed to* COVID 19 and in isolation/quarantine as a result of that exposure should be eligible for worker's compensation benefits.

Although we have not reviewed the recommended statutory language included in the Governor's second proposal, we believe it will create a presumption standard that is appropriate. The legislation can go further by covering employer-required isolation and quarantine as a worker's compensation benefit during the public health emergency.

Out-of-Network (Surprise) Billing – LRB 5920/P2, Section 57: In the context of this emergency, we recognize that there may be unavoidable reasons why patients will be seeking out of network care. For ease of administration and for the time and purposes of this emergency only, we will not oppose the benchmark rate if it remains at 250% of Medicare or higher. However, we remain opposed to a benchmark rate as a long term solution to the issue of surprise billing.

With respect to the specific language in Section 57 of LRB-5920/P2: There seems to be a contradiction between 609.205 (1) (a) and 609.205 (2) (a) and (b). The bill would require that cost sharing be no greater than the enrollee would be pay if in-network; however the latter paragraph requires the health care facility to accept the insurer payment as payment in full, and not charge the enrollee an amount that exceeds the insurer payment.

We recommend that section 609.25 (a) and (b) be modified to allow the provider to collect cost sharing so long as that cost sharing does not exceed the amount the enrollee would pay in-network.

Insurer Payment of Premium - LRB 5920/P2, Section 75 (3): According to this provision, for the duration of the public health emergency, no insurer may cancel any policy of insurance for nonpayment of premiums until at least 90 days after the unpaid premium was due. We recommend clarifying that the policy may not be canceled retroactively, and that the insurer is responsible for payment of all claims for services provided during the 90-day "grace period".

Please contact Eric Borgerding at eborgerding@wha.org or Kyle O'Brien at kobrien@wha.org with any questions or comments.

Subject: Wisconsin State Parks & Trails Remain Open

The Department of Natural Resources has issued a press release announcing that Wisconsin State Parks and Trails will remain open.

https://dnr.wi.gov/news/releases/article/?id=5067

While these properties are open to the public, property buildings (with the exception of restroom facilities) will be closed. Admission fees will be voluntary at self-registration stations or electronic kiosks. All DNR campsites will be closed through April 30th.

AMERICAN OVERSIGHT

State Park and Trail visitors are reminded to practice proper personal hygiene and limit group sizes to under 10 people to prevent the spread of COVID-19.

For updates on event cancellations and building closures at DNR properties, visit the DNR website or follow @WIDNR on Facebook, @wi_dnr on Instagram, or @WDNR on Twitter.

Please contact me with any questions.

Thanks!
Erin

We are committed to service excellence.

Subject: WMC & Business Coalition Requests Evers Ensures Uniform Enforcement of Stay at Home Order

Good morning,

Yesterday WMC and a business coalition of 19 business trade associations and 39 local chambers of commerce requested that Governor Evers take steps to ensure that local governments apply his "Stay at Home" order uniformly. While many local governments are following the order, some jurisdictions have acted far outside the law attempting to shut down businesses that have been deemed essential, restrict travel of individuals going to work, and banning other lawful activities like outdoor church services.

This time of crisis is hard enough on Wisconsin businesses and families, uneven and overly broad enforcement of the law makes it unnecessarily harder. WMC respectfully requests that the Legislature continues to educate local governments on the scope of their lawful authority.

Sincerely,

Cory

WMC will be hosting a webinar featuring Senator Ron Johnson on Friday, March 20 at 10:00AM CST. Click the link below to register:

* WMC COVID-19 Update: Senator Ron Johnson<http://r20.rs6.net/tn.jsp?f=001RyoPCdomv86WNFufRrb1JKHFghmrR500erEN_hakjyKCi7fAi-ZDSHW9DTGLIjtl3tYqkJoiC1Z3NWRMiPHHxrWY3YqrV1d1gCIhjEv5yhwxEvFYU1dah9plUbQv3NOfDV0kugRsigQmb2FvvcCuR378gVRJ4BdkXprT6EjVuE4S2VqBzPc5G-Q7_TbYS4fr32ywTTWPKjs=&c=wA4qmVNlQ-7lhLWi3v09VTfwwQ2W_ki3-HVC8zriYKdTHseSmE0cww==&ch=9Owe97NIfRZ2k8cRqxPEu5DhCpPYZ0VlbavDo0tr6ZSUdysGXdQOGA==>

WMC continues to work with federal and state governments, national partners and others to ensure you have the most up to date and accurate information.

* Gov. Tony Evers today submitted a request to the U.S. Small Business Administration (SBA) for Economic Injury Disaster Loan assistance for small Wisconsin businesses and private, non-profit organizations to help alleviate the economic impacts of the COVID-19 outbreak. Gov. Evers request to SBA can be found here<http://r20.rs6.net/tn.jsp?f=001RyoPCdomv86WNFufRrb1JKHFghmrR500erEN_hakjyKCi7fAi-ZDSHW9DTGLIjtlUiYWMGY4xGLe4RSU9qfdWc30klMi1OkWsbJZQayGEfmD1f2NsOyOp3j9lktF98cOM-9QvG63QRdStDlyMj38zmizDruJ1ISoiiP-qm5sWveF2ZsWPAUHr7khyyeKlh6ifogQz6Eqm8xLz6LsvzBWD4KgDYLrhZ_FTqxHLMgPGYG-JMN8lqEfdLzPsNc94oMTL1VOVfnJHtYjxJsvodZYxx1KCjKE8AZH&c=wA4qmVNlQ-7lhLWi3v09VTfwwQ2W_ki3-HVC8zriYKdTHseSmE0cww==&ch=9Owe97NIfRZ2k8cRqxPEu5DhCpPYZ0VlbavDo0tr6ZSUdysGXdQOGA==>.

* The Trump administration on Tuesday called on U.S. construction companies to donate their respirator masks to hospitals and other health care providers combating the coronavirus outbreak amid a nationwide shortage. The administration recently allowed healthcare workers to use so-called N95 face masks not specifically approved for medical use to treat patients amid the outbreak.

* WMC has partnered with the Federal Reserve Bank of Minneapolis to survey businesses to gauge the economic effects on businesses across the Ninth District, a region that includes Minnesota, the Dakotas, Montana, parts of Wisconsin, and Michigan's Upper Peninsula. They are partnering with state Chambers of Commerce and other business groups to collect your feedback. Please provide feedback and take this short survey by clicking here.<http://r20.rs6.net/tn.jsp?f=001RyoPCdomv86WNFufRrb1JKHFghmrR500erEN_hakjyKCi7fAi-ZDSHW9DTGLIjtlAwrS4jVpZZk41jf2Ud2-zXqXA03hOczz_s3bkUiuqZrIvsm_FVMWvTFpahw--_pRp4ziO7OaH-_4Om0P-ZMiKxF4pmeEGF1DfL3qFn4fHSnerg0xpJz-BCHryuOswuyt&c=wA4qmVNlQ-7lhLWi3v09VTfwwQ2W_ki3-HVC8zriYKdTHseSmE0cww==&ch=9Owe97NIfRZ2k8cRqxPEu5DhCpPYZ0VlbavDo0tr6ZSUdysGXdQOGA==>

AMERICAN OVERSIGHT

As the April 7th Spring Election approaches, we urge voters to plan ahead. State officials are recommending voters avoid unnecessary social interaction including gatherings of ten people or more. You can still vote in Wisconsin without having to go to your local polling place.

Included below are some important deadlines and instructions to help you plan ahead and cast your vote while continuing to be safe and responsible.

March 18, 2020 – Deadline to Register by Mail<http://r20.rs6.net/tn.jsp?f=001olbHqHGnraZs4QD6K4xOcwWI62Ex0WCzVvv592Gx83GYLYHRMbom1dWwgzJrxO3bhF4FGvqICT7NXjQw7BE3rSAMt2iHIBwpOQoDMijmopK73vHLi1_n5j37DC2TiJwZMeL16QVCwfI1-6lbQaCak7AOvmfti0VeInb_xGNPeNE=&c=KieEvHTWlKRrCMYUavNjvzk1MG_L82xEbb9hui5VTgMGY6KC1tuI4Q==&ch=UKcYGqy3hC17ortOVy4q8kMRUGQOu0HRYcospPstc3b8Wo4NG-wXhw==> and to Register to Vote Online<http://r20.rs6.net/tn.jsp?f=001olbHqHGnraZs4QD6K4xOcwWI62Ex0WCzVvv592Gx83GYLYHRMbom1dWwgzJrxO3bhF4FGvqICT7NXjQw7BE3rSAMt2iHIBwpOQoDMijmopK73vHLi1_n5j37DC2TiJwZMeL16QVCwfI1-6lbQaCak7AOvmfti0VeInb_xGNPeNE=&c=KieEvHTWlKRrCMYUavNjvzk1MG_L82xEbb9hui5VTgMGY6KC1tuI4Q==&ch=UKcYGqy3hC17ortOVy4q8kMRUGQOu0HRYcospPstc3b8Wo4NG-wXhw==>

* Your Voter Registration form, along with proof of residence<http://r20.rs6.net/tn.jsp?f=001olbHqHGnraZs4QD6K4xOcwWI62Ex0WCzVvv592Gx83GYLYHRMbom1dWwgzJrxO3b_m5_6O85RyY8KOEZJKOws6ndEq_vfId8JEV-hn2WlikTwhD-3_ohItDek7T0RgugNd0TuoHtpf2ht_vlgvTWT1UC8WNT_2tVZgRdxpuB8hI=&c=KieEvHTWlKRrCMYUavNjvzk1MG_L82xEbb9hui5VTgMGY6KC1tuI4Q==&ch=UKcYGqy3hC17ortOVy4q8kMRUGQOu0HRYcospPstc3b8Wo4NG-wXhw==> must be postmarked to your municipal clerk<http://r20.rs6.net/tn.jsp?f=001olbHqHGnraZs4QD6K4xOcwWI62Ex0WCzVvv592Gx83GYLYHRMbom1dWwgzJrxO3bZSvMkIxsvAKxlr7KaeL_zeS9H9krhcXRPpDw1iOOeBs0rCGzlla1BU9wi1Sq7WBjyfZo9JI9gzgOqaSjMn42-4Dza88zgoPOMHi2qtZL5kE=&c=KieEvHTWlKRrCMYUavNjvzk1MG_L82xEbb9hui5VTgMGY6KC1tuI4Q==&ch=UKcYGqy3hC17ortOVy4q8kMRUGQOu0HRYcospPstc3b8Wo4NG-wXhw==> no later than March 18, 2020.
* Voters who are able to match their name, date of birth, Wisconsin Drivers License or State ID number, and address with the Wisconsin DMV can register to vote online through March 18, 2020.
* Voters who miss the deadline to register by mail or online can still register in-person at a municipal clerk's office<http://r20.rs6.net/tn.jsp?f=001olbHqHGnraZs4QD6K4xOcwWI62Ex0WCzVvv592Gx83GYLYHRMbom1dWwgzJrxO3bZSvMkIxsvAKxlr7KaeL_zeS9H9krhcXRPpDw1iOOeBs0rCGzlla1BU9wi1Sq7WBjyfZo9JI9gzgOqaSjMn42-4Dza88zgoPOMHi2qtZL5kE=&c=KieEvHTWlKRrCMYUavNjvzk1MG_L82xEbb9hui5VTgMGY6KC1tuI4Q==&ch=UKcYGqy3hC17ortOVy4q8kMRUGQOu0HRYcospPstc3b8Wo4NG-wXhw==> until April 3, or at the polls on Election Day.

All Wisconsin voters can request an absentee ballot be mailed to them for any reason. In order to request an absentee ballot, voters must be registered.

April 3, 2020 – Deadline to Request an Absentee Ballot<http://r20.rs6.net/tn.jsp?f=001olbHqHGnraZs4QD6K4xOcwWI62Ex0WCzVvv592Gx83GYLYHRMbom1dWwgzJrxO3bnRu3iNJn3EQlvOvG3ls8o9jeMqqcpz6KJr-bgWDCODH9Yn59o2UaCjHrAMG5WsHJH2Cw-pohdABRcMQO8w4YDKAVaDtos4jH8OpR_n89wuk=&c=KieEvHTWlKRrCMYUavNjvzk1MG_L82xEbb9hui5VTgMGY6KC1tuI4Q==&ch=UKcYGqy3hC17ortOVy4q8kMRUGQOu0HRYcospPstc3b8Wo4NG-wXhw==>

* You must provide a photo ID with your absentee ballot request. More information on acceptable IDs here.<http://r20.rs6.net/tn.jsp?f=001olbHqHGnraZs4QD6K4xOcwWI62Ex0WCzVvv592Gx83GYLYHRMbom1dWwgzJrxO3bYneLN6XjB_cBJgJ0Ao-pUAigz2M9HFn7TyPRNCg0Gf48_n2BwKpAiKalqPl26l_waB01zqXFXhTPzyZPK-0EM7i8Hb2xc2_i2DG1-AUPLLc=&c=KieEvHTWlKRrCMYUavNjvzk1MG_L82xEbb9hui5VTgMGY6KC1tuI4Q==&ch=UKcYGqy3hC17ortOVy4q8kMRUGQOu0HRYcospPstc3b8Wo4NG-wXhw==>

For more information on important deadlines and instructions for voting in the 2020 Spring Election visit, https://myvote.wi.gov/en-us/VoterDeadlines<http://r20.rs6.net/tn.jsp?f=001olbHqHGnraZs4QD6K4xOcwWI62Ex0WCzVvv592Gx83GYLYHRMbom1dWwgzJrxO3bMlWnBpgis37MgyvCekvNmwSWDBakhhLaoB_oBU1L4RK_wEZB7UXwqQ-39l4ZYzVDJyDSYz_tUU9fm64xNnpoo86CX0WOr8r1cEBAOL22kd4=&c=KieEvHTWlKRrCMYUavNjvzk1MG_L82xEbb9hui5VTgMGY6KC1tuI4Q==&ch=UKcYGqy3hC17ortOVy4q8kMRUGQOu0HRYcospPstc3b8Wo4NG-wXhw==>.

Please do not hesitate to reach out if you have any questions. As a reminder, please practice proper social distancing as recommended by DHS and the CDC. Also, continue to wash your hands regularly with soap and water, avoid touching your face and please stay home if you feel ill.

Subject: WRA COVID-19 Relief requests

TO: Members of the Wisconsin Legislature

FR: Susan Quam, Executive Vice President

RE: COVID-19 Relief Requests

On behalf of the entire restaurant industry, including our 7,000 member locations, we want to thank the many members of the Legislature that have promoted and supported the restaurants in their districts, as well as shared the Wisconsin Restaurant Association's web list of restaurants open for takeout and delivery. Your help is much appreciated as our industry tries to hang on during these unprecedented times.

It is heartbreaking to report that close to 10 percent of restaurants stated that if they were shut down through April, that even with government assistance, they would most likely close permanently. That number will go higher if the shutdown lasts longer and the promised federal help does not materialize. The Federal CARES Act loan programs are not providing the financial assistance that was promised, as details of the Paycheck Protection Program were released late last week. Many restaurants will see little or no loan forgiveness with the way the program was developed. With a Federal COVID 4 bill weeks, possibly months away, our industry needs help now at the state level.

Over the past few weeks WRA has asked for various relief requests in partnership with other food, hospitality and tourism coalitions. Those requests are attached. While you have had a chance to see what these requests are, we wanted to reach out one more time to ask for your assistance on implementing the following state actions to meet us part way in enabling our industry to recover:

1. **Waive the one-week waiting period for Unemployment Compensation** to help our valued employees to survive. We suggest that this waiver would end when the pandemic recedes.

AMERICAN OVERSIGHT

2. **Waive the current minimum of 20 employees for a business to be eligible for the Work-Share program**. Small businesses with less than 20 employees face the same, if not worse, hardships during this crisis, and this eligibility would help.
3. Provide **additional new WEDC interest-free loans** to businesses needing help to bridge the time until revenue can once again allow them to meet payroll and pay bills.
4. Provide a **90-day extension for ALL state tax payments along with local property tax payments**, and **provide for installment payment schedules** so that businesses eventually beginning to regain income can meet deadlines for tax payments.
5. Ensure that **reimbursements owed by the state for overpayments of estimated taxes are issued immediately**.
6. **Impose a freeze on Unemployment Rates**, so that businesses hardest hit with lay-offs do not face insurmountable rate increases for a crisis beyond their control.
7. **Allow packaged alcohol to be delivered when food is delivered**. The sale of alcohol is a profit center for hospitality, whereas food sales have much narrower margins. In addition to helping all hospitality businesses with alcohol licenses to survive, this would also meet consumer demand and encourage consumers to stay home. To ensure legal compliance, face-to-face ID checking would be required upon delivery and drivers would need to be at least 21 years old.
8. **Allow mixed drinks to be packaged and sealed on site and included in takeout food orders.** The same rules that apply to filling a growler with beer, would apply to the carryout of a mixed drink. Current law allows for a sealed growler of beer to be taken off premise. Allowing mixed drinks to be packaged the same way would allow licensees to add higher margin revenue

WRA also supports the Governor's proposals to:

1. Create and fund a Regional Tourism Destination Marketing Organization Grant Program.
2. Create and fund Tourism Co-Op Marketing Program Grants.

We ask for your help to preserve Wisconsin's great restaurant culture. Restaurants are the cornerstones of their communities. If they do not recover, not only does their communities will not only suffer economically, but culturally as well.

Please contact me with questions.

Subject: Your invited to join a small business call Wednesday

Having trouble viewing this email? View it as a Web page.

Good evening,

If you represent a small business struggling during these difficult times, please join this important conference call tomorrow with Governor Tony Evers hosted by WEDC Secretary Hughes. The call will also include State Treasurer Sarah Godlewski and Small Business Administration District Director Eric Ness. The presenters will give updates on COVID19, the recent safer at home order, and resources available to small businesses. After they speak, there will be time for questions with WEDC Secretary Hughes, WEDC Deputy Secretary Rikkers, and SBA District Director Nass as they want to hear directly from you during these times.

What: Presentation with Governor Evers, WEDC Secretary Hughes, Treasurer Godlewski, and SBA District Director Ness

Date: Wednesday, March 25

Time: 9:00am – 10:30am

Access link: Please click the link here to join our Teams live event.

- * Please note, Attendees ***must*** join through the URL above. There is no phone number for attendees to dial into for this event. They will need to join the event from a browser. Here is a Microsoft Document to help with joining the event.

AMERICAN OVERSIGHT

- * Attendees simply click the URL to join the meeting in any supported browser.
- * Attendees have the option of either joining anonymously or signing in with a Microsoft Teams account
  - * Anonymously will be the best option for anyone that does not have a Microsoft Teams account as this will just let attendees join without authentication
- * Attendees can access the meeting on their phone through the Microsoft Teams App and do not need to register for an account

If you need assistance, please visit Microsoft's support website here.

I hope you are able to participate tomorrow, Wednesday, March 25 at 9:00am.

Forward together,

Sara Meaney

Secretary-designee

Good Evening,

Attached is the letter discussed on our caucus conference call today. I think this letter clearly states our position on protecting life, and feel that multiple letters would not be productive.

Our deadline is noon tomorrow. Unless you specifically state otherwise, we will assume that all 63 members will be signing on. Please have your staff send us your electronic signature.

Also let us know if you have comments on the letter.

Thank you,
Jenny

Subject: For your review, both Stamena and I have looked this over. Let's talk about it over the phone

Thank you for reaching out to me on the April 7th election. I wanted to provide more information to explain why I did not support Governor Evers' last minute ask to move the election date.

First and foremost, I do want to say that I absolutely understand where you are coming from and the concerns raised by people that do not think an April 7th election can be done safely. I think that an election like the ones we have seen in the past would be a cause for concern with packed polling places. Thankfully, the state of Wisconsin gives its voters options, and for the last three weeks, we have been encouraging everyone to request their absentee ballot.

Over 1.3 million people have requested their absentee ballot, which is a record-breaking amount of people, especially for a spring election. This means that over 1.3 million people will have already voted and will be staying home, which is great news for our polling places. For reference, just over 1.2 million people total voted in the 2019 spring election. We quite possibly might see more people voting absentee in this election than the total number of voters in the last spring election! So when it comes to in-person voting on Election Day, we are going to see far fewer people going to the polls. I know my polling place and many others are doing drive thru voting, so you don't even have to go into the polling place to vote in person. Many other polling locations have put in place a number of social distancing safeguards, and I truly believe that the image of 'crowds' at the polls is not one that will take place. Our local clerks have been preparing with the Elections Commission to hold this election in a manner tailored to the current public health emergency. Our clerks are doing everything they can to limit person-to-person contact.

Now back to moving the election date. Tomorrow, thousands of local government positions like County Executive, Mayor, City Council, Town Board, and judgeships will be on the ballot. During a global pandemic, it would be extremely dangerous for all of these positions to become vacant with no one in place to make decisions or to allocate funds, especially for such a long, unspecified and unknown period of time. I have heard a lot of people, including Governor Evers, suggest that we could just allow the people currently serving to continue in their positions until the election is rescheduled. **There is no mechanism for the Legislature, the Governor, or local governments to allow for this by tomorrow**. It would require a change to our state's constitution, which would require the legislature to pass a resolution in two consecutive sessions, and then a majority vote in favor by the people on the ballot

AMERICAN OVERSIGHT

through referendum. The legislature simply cannot do it, and certainly couldn't do it three days before an election. Even if the legislature were to vote to do this, and the governor were to sign it, it would not be upheld in court. So moving the election date means that our local governments will be immobilized for months.

Governor Evers knows this. He knows that the legislature cannot do what he is asking us to do, and has been saying so publicly for over two weeks. He has been telling legislative leaders and the public for weeks that we cannot and will not move the election for the very reason I just described. And yet, on Friday, three days before the election, he changed his mind. To me, that is not a sign of leadership, but of a last minute effort on his part to shift the blame. Regardless of why, the fact is that we did not come into session on Saturday because there is nothing under the law that would allow for us to do we he asked us to do.

Almost immediately after Governor Evers announced his plan on Friday, several of the local clerks in my district reached out to me asking me not to approve of his plan. They also cannot do what Governor Evers is suggesting they do. A mail-in balloting system cannot be done in Wisconsin on this kind of timeline, something the Elections Commission has expressed to the Legislature and to Governor Evers.

Please know that I agree with you that this is a serious situation, and we need to take precautions. We haven't seen positive cases in Lincoln or Langlade County yet, and I absolutely want to keep it that way. The fact remains that when I took the oath of office, I swore as your legislator to uphold the law and the constitution. I cannot do what Governor Evers asked me to do, but I can continue to do what I have been doing for the last two weeks, which is everything I can to make sure our poll workers have what they need to run this election smoothly. I have been encouraging people who are at risk or don't feel comfortable to stay home and vote absentee. I am so grateful that our state gives voters options when it comes to voting because it is exactly what will allow for this election to continue safely. I am also grateful for the 2,434 National Guard men and women who are being deployed to support polling places today and tomorrow.

If we continue to work together, we will make it through to the other side. If you want to talk further about this, please let me know and I can give you a call.

Thank you for your time,

Mary

Subject: Governor Evers' Order
Attachments: EMO12-SaferAtHome.pdf

Hey Jeff,

Here is the order. It is 16 pages long. Please go through it carefully, and see if any of what is included as exempt or essential applies to you. If you think it does, nothing more needs to be done. If you don't think it does, then we will need to contact WEDC to see what they say. If they say you are non-essential, then we can make a request from our office to classify your business as essential. There is no guarantee that the request will be granted, but we'll cross that bridge when we get to it.

Thank you!

Hi Scott,

I hope you and the entire Paper Council team are doing well and staying safe! I'm reaching out because in his press conference earlier today, Governor Evers mentioned he is working through you to arrange something with WI paper mills to supply personal protection equipment. If there is any way Mary can assist with these efforts, or if there is anything our office can do to support the Northwoods paper industry during this time, we are always here.

Thanks,

Subject: Governor Evers' Stay At Home Order
Attachments: EMO12-SaferAtHome.pdf

Good morning,

As promised, I am reaching out with more information regarding Governor Evers' new "stay at home" order. I have attached the order for you, but it is very long. The section that will cover you is the following found on page 12:

h. Weddings, funerals, and religious entities. Religious facilities, entities, groups, and gatherings, and weddings and funerals, except that any gathering shall include fewer than 10 people in a room or confined space at a time and individuals shall adhere to Social Distancing Requirements as much as possible.

From what you told me on the phone, this should allow for you to offer virtual services, but again I think the recommendation would be for you to have your staff work remotely if they have the ability to do so.

I hope this is helpful to you! Please let me know if you have any additional questions,

Mary Felzkowski

AMERICAN OVERSIGHT

WCCE
WISCONSIN CHAMBER OF COMMERCE EXECUTIVES

April 8, 2020

Governor Evers,

During this difficult time, we the undersigned chambers of commerce believe that Wisconsin businesses and employees need clear and consistent enforcement of social distancing requirements. Inconsistent or unlawful enforcement by local governments leads to confusion, and creates fairness and equity concerns for businesses and workers alike. We therefore ask for your help to bring fairness and consistency in the enforcement of social distancing requirements among local governments.

In Emergency Order #12 ("Safer at Home") issued March 24, 2020, your administration banned all non-essential business operations and non-essential travel, with the exception of minimum basic operations. The order also listed a variety of essential businesses and operations that must be able to continue in order to provide vital goods and services to our state. A "Frequently Asked Questions" document accompanying your order stated explicitly that individuals and businesses do not need special permission or documentation to travel or to continue operating:

> *Individuals do not need special permission to leave their homes, but they must comply with this order as to when it is permissible to leave home. Similarly, if a business is an essential business or operation as outlined in this order, it does not need documentation or certification to continue work that is done in compliance with this order.*

Unfortunately, it has come to our attention that a number of local jurisdictions in Wisconsin are going far beyond the requirements of your order. Some businesses that have continued their operations have reported receiving cease and desist letters from local governments. This includes businesses on the Cybersecurity and Infrastructure Agency (CISA) list of essential industries, and businesses otherwise exempted by Emergency Order #12. Similarly, we have seen reports of local law enforcement in some areas stopping citizens for no reason other than to ask where they are going.

We believe that this level of enforcement is unacceptable, unwarranted, and outside the scope of your order's original intent. Accordingly, we respectfully request that you direct local governments to follow the text of Emergency Order #12 and any other state policies regarding the COVID-19 public health emergency, and to remind them that your administration's order supersedes any local health orders that might conflict with it. If a business is in an exempted industry, it must be allowed to continue operating. We are also asking your administration to establish a process to report and correct overzealous enforcement by local authorities.

Our respective members represent thousands of businesses in all industries across our state that provide family-supporting jobs for countless Wisconsinites. Our members are doing all that they can to comply with the law while continuing to provide important goods and services for our economy. At this confusing and disruptive moment, no business or individual following the letter and spirit of the Safer at Home order should have to face a cease and desist letter or be stopped and questioned about their activities. Thus, we hope that you will order local governments to stop any enforcement activities that go beyond the requirements of Emergency Order #12.

Thank you for considering our request.

Respectfully,

Wisconsin Chamber of Commerce Executives

---

Department of Agriculture, Trade and Consumer Protection

Division of Food and Recreational Safety

Dear valued campground operator,

The Wisconsin Department of Agriculture, Trade and Consumer Protection (DATCP) wants to provide additional information related to Gov. Tony Evers' emergency order issued on March 17.

While the directive does not specifically address campgrounds, please follow these recommendations if your facility is currently in operation:

- * Maintain social distancing of 6 feet at all times.
- * Prohibit the use of buildings or public spaces that would encourage social gatherings of 10 or more people. Examples would be arcades, game rooms and pavilions.
- * Limit all campsites to fewer than 10 people.
- * Increase the cleaning frequency of shared toilet facilities, laundry facilities and shower buildings.

This order remains in effect for the duration of the public health emergency declared in Order No. 72, or until a superseding order is issued.

Helpful resources on COVID-19

The State of Wisconsin created a webpage that offers resources from various agencies and answers to critical questions. Here are a few other resources from the

AMERICAN OVERSIGHT

Wisconsin Department of Health Services (DHS) that might be helpful during this challenging time:

- * COVID-19 Information
- * COVID-19 Facts: Why Social Distancing
- * COVID-19 Facts: Protect Your Family

Thank you for your role in keeping Wisconsinites safe and healthy by reducing the spread of COVID-19. If you have any questions, please send them to datcpdfrsrec@wisconsin.gov.

Sincerely,

The Division of Food and Recreational Safety

AMERICAN OVERSIGHT

To: Wisconsin Legislative Leaders

From: America's Health Insurance Plans (AHIP)
Alliance of Health Insurers (AHI)
Wisconsin Association of Health Plans (WAHP)

Date: April 10, 2020

Re: COVID-19 Legislation: Balance Billing/Ability to Rate Groups

---

Recently, WisPolitics distributed summaries of the Republican Legislature's draft legislation relating to the COVID-19 public health emergency. Actual bill language has not yet been released.

First, AHIP, AHI, and WAHP support much of what was described in these summaries. We support the temporary suspension of Medical Assistance provisions to meet federal conditions for the enhanced federal matching percentage, which will help Wisconsin address the COVID-19 public health emergency. We also support allowing the Department of Health Services to seek flexibility for provider payments while maintaining the requirement to pay actuarially sound Medicaid Managed Care rates.

Second, AHIP, AHI, and WAHP were pleased to see many unneeded mandates – such as COVID-19 treatments and telehealth coverage parity – were not included. Health plans have been proactive and are *already* providing such coverage without cost-sharing, obviating the need for new state mandates.

Two provisions, outlined below, are highly problematic.

Prohibit Coverage Discrimination Based on COVID-19

State and federal law currently provide consumers with strong non-discrimination protections for the issuance, maintenance, and rating of health insurance coverage. Consumers must be treated equally regardless of their health status and health history, including any possible COVID-19 diagnosis.

These existing protections ensure individuals diagnosed with COVID-19 will not be covered any differently than individuals with any other health condition. Non-discrimination provisions are duplicative of current law and therefore unnecessary. We oppose their inclusion in COVID-19 legislation.

In particular, the plain-language summary of the GOP proposal appears that it could prohibit the ability of a plan to rate on the risk of a *group*. Plans use historical diagnoses to determine future risk. Plans do *not* seek to discriminate against an individual based on a COVID-19 diagnosis, but plans *do* want to accurately rate on the risk of a group. The coronavirus is new and novel. The future risk of individuals who have had COVID-19 is unknown. Further, the scope of the plain language summary does not appear to exempt products that are classified as excepted benefits under state and federal law.

We respectfully request that you modify the language to ensure *individuals* within a group could not be discriminated against for a COVID-19 diagnosis, while preserving the ability of plans to appropriately rate *groups*.

AMERICAN OVERSIGHT

Out-of-Network Charges and Payments During a Public Health Emergency

Health insurance providers are strongly committed to maintaining sufficient provider networks so patients who need care have the peace of mind they can be properly treated by in-network providers. Gov. Evers proposed out-of-networks be reimbursed at 250 percent of the Medicare rate. The Republican proposal pegs this reimbursement at 225 percent of the Medicare rate.

225 percent of the Medicare rate is simply too high and overpays out-of-network providers. Such a rate would force plans to pay many out-of-network providers *more* than in-network providers. Moreover, the Republican language relating to seeing an out-of-network provider is vague and should be limited to when no in-network provider is available due to the public health emergency.

Because costs in Wisconsin vary by geographic region and types of providers, health insurance providers ask that the Legislature use a benchmark that is multi-faceted and consists of: the lower of the plan's median in-network rate in the same geographic area or 200% of the rate the federal Medicare program reimburses the provider for the same or a similar service, treatment, or supply in the same geographic area. The payment benchmark should be tied to an explicit requirement the rate be accepted as payment in full by the provider with no balance bills sent to the patient.

AMERICAN OVERSIGHT

MEMORANDUM

TO: Members of the Wisconsin Legislature

FROM: Wisconsin Grocers Association & Wisconsin Restaurant Association

DATE: April 3, 2020

RE: Allow Alcohol Delivery during COVID-19

On behalf of Wisconsin Grocers Association and the Wisconsin Restaurant Association, representing a majority of Class A and Class B alcohol license holders in Wisconsin, we would like to respectfully request the Legislature allow retailers to deliver alcohol during the COVID-19 Emergency.

Our members have all given their livelihood to the COVID-19 emergency to ensure Wisconsinites have access to food—whether at the community grocery store or their favorite restaurant. All retailers in Wisconsin have needed to adjust to the Governors orders—some have modified or enhanced their business, while others have been forced to close their doors. Allowing alcohol retailers to deliver alcohol will not only benefit these businesses, but will allow everyone in Wisconsin to abide by the "Safer-at-Home" order.

In the past few years, grocery and restaurant delivery and pick-up have grown very popular with an estimated 60% of restaurant orders representing take-out and delivery and 13% of households using grocery delivery. The COVID-19 Emergency has increased online groceries 145% with an estimated 31% of households now using online or pick-up.

Many states have responded to this trend and modified their laws to allow retailers to deliver alcohol. In addition, during the COVID-19 Emergency, several more states that did not previously allow alcohol delivery, are allowing it through the emergency.

Our organizations worked with Rep. Tauchen and Senator Craig this session to craft legislation that ensures a secure, face-to-face remote transaction that mimics the transaction that would take place in the restaurant or grocery store. The bill specified the following:

- Allows retailer to deliver alcohol directly or through a third party when order is placed online or via phone.
- Deliveries can be made during the same hours as on-premise sales.

AMERICAN OVERSIGHT

- Payment must be received on the licensed premises at the time of order. This can be in person, online or via credit card over the phone. Payment cannot be accepted at delivery.
- The person receiving the order must be 21 years old and provide proof of identity and age.
- It is the licensee's responsibility to ensure the customer making the order is 21 or older at the time of sale and the delivery person's responsibility for doing the same at time of delivery via electronic scan.
- The delivery personnel must be 21 years of age, must ensure the recipient is not intoxicated and must complete "TIPS" training or equivalent.
- If order is not completed, alcohol can be returned to the store.
- The following information must be kept for 1 year after delivery: Signature of recipient; Quantity delivered, Recipient's name, Recipient's address.

State and Medical experts are encouraging citizens to use delivery services during the COVID-19 Pandemic, and we believe it's important for the Legislature to remove this impediment. Further, with additional hospitality associations that were previously opposed now asking for alcohol delivery, we hope there is no longer a barrier to moving forward.

We urge the Legislature to consider making this change to help ensure the viability of alcohol retailers in Wisconsin during the COVID-19 emergency.

AMERICAN OVERSIGHT

AMERICAN OVERSIGHT

Dear Friend:

I wanted to reach out to provide important information on the ever-changing public health emergency surrounding the COVID-19 virus.

As your state representative, one of the things I can do to serve you is to help you sort through the clutter of information so that you can make the best decisions for your family.

In this letter, I wish to share with you some of the essential and reliable resources to which you can turn for updates as well as some key places you can contact for help.

If Your Job Has Been Impacted

- **Official information from the state of Wisconsin** – Visit https://evers.wi.gov/Pages/Home.aspx. This is the site where official notices and orders are posted.

- **Unemployment benefits --** To begin the process of filing for unemployment, start at https://dwd.wisconsin.gov/uiben/ and then click on "Apply for Benefits Online". You will also see an option called "Handbook for Claimants". This handbook will answer almost any question you may have.

- **For those seeking new or temporary work** – You can view what work is available in various occupations right from your home. Go to http://wisconsinjobcenter.org/lookforjobs/in-demand.htm to begin.

- **Local Resources --** [Note to members: For a 4th item in this section, you may wish to include a local resource in your area. For example, where people can go locally or at the county to find assistance.]

If Your Business Has Been Impacted

- **Small Business 20/20 –** Businesses with 20 or fewer employees may be eligible for up to $2,000 over two months to cover costs such as rent, payroll, and utility bills to provide relief for fixed monthly expenses. Small businesses must apply for the grant through a local Community Development Financial Institution.

- **SBA Economic Injury Disaster Loan Program –** Businesses with 500 or fewer employees may qualify for up to a $2 million loan with interest rates of 3.75% for for-profit and 2.75% for nonprofits and payments for up to 30 years. As of today, businesses may also defer payments on these loans for 12 months.
    - Loans can be used for working capital to keep business open and cover fixed costs and bills.
    - When filing out an application, SBA staff recommend saving your information, as the website has kicked individuals off while completing the application.
- Find more loan and grant information at https://wedc.org/programs-and-resources/covid-19-response/.

- If possible, nonessential businesses are encouraged to have employees work from home and maintain minimal basic operations such as payroll and security for your business.

Many questions have been raised about what businesses qualify as essential. The DHS Emergency Order #12 Safer At Home outlines essential businesses as well as provisions for "manufacture, distribution, and supply chain for critical products and industries." This information can be found on page 14 section v. of the order. If you are unsure if your business is essential, WEDC recommends reviewing this provision before contacting them. You can read the order at https://evers.wi.gov/Documents/COVID19/EMO12-SaferAtHome.pdf.

AMERICAN OVERSIGHT

If You Are at Higher Risk for Severe Illness

Based on current and quickly developing information, the Centers for Disease Control and Prevention (CDC) believes certain people may be at a higher risk for severe illness developed from COVID-19. To ensure you and your loved ones have the information you need to stay safe and healthy during this time, I want you to be aware of the following:

- **The CDC believes those at higher risk for severe illness from COVID-19 include:**
    - People aged 65 years and older
    - People who live in a nursing home or long-term care facility
    - People with underlying medical conditions, which could include the following:
        - People with chronic lung disease or moderate to severe asthma
        - People who have serious heart conditions
        - People who are immunocompromised including cancer treatment
        - People of any age with severe obesity or certain underlying medical conditions, particularly if not well controlled, such as those with diabetes, renal failure, or liver disease might also be at risk
    - It's recommend that people who are pregnant be monitored

The amount of information available can be overwhelming. I want to provide you three trusted websites to receive accurate and up-to-date information.

- The Center for Disease Control https://www.cdc.gov/coronavirus/2019-nCoV/index.html
- The Department of Health Services https://www.dhs.wisconsin.gov/covid-19/index.htm
- Whitehouse and Federal Agencies Clearinghouse https://www.coronavirus.gov

My office is continuing to work to answer any questions that you may have. Please do not hesitate to contact me by phone at (608) 266-3387 or by e-mail at Rep.Vos@legis.wisconsin.gov.

AMERICAN OVERSIGHT

Dear Friend:

I wanted to reach out to provide important information on the ever-changing public health emergency surrounding the COVID-19 virus.

As your state representative, one of the things I can do to serve you is to help you sort through the clutter of information so that you can make the best decisions for your family.

In this letter, I wish to share with you some of the essential and reliable resources to which you can turn for updates as well as some key places you can contact for help.

If Your Job Has Been Impacted

- **Official information from the state of Wisconsin** – Visit https://evers.wi.gov/Pages/Home.aspx. This is the site where official notices and orders are posted.

- **Unemployment benefits --** To begin the process of filing for unemployment, start at https://dwd.wisconsin.gov/uiben/ and then click on "Apply for Benefits Online". You will also see an option called "Handbook for Claimants". This handbook will answer almost any question you may have.

- **For those seeking new or temporary work** – You can view what work is available in various occupations right from your home. Go to http://wisconsinjobcenter.org/lookforjobs/in-demand.htm to begin.

- **Local Resources --** [Note to members: For a 4th item in this section, you may wish to include a local resource in your area. For example, where people can go locally or at the county to find assistance.]

If Your Business Has Been Impacted

AMERICAN OVERSIGHT

April 8, 2020

The Honorable Dr. Tony Evers
Governor, State of Wisconsin
115 East, State Capitol
Madison, WI 53708

DELIVERED VIA ELECTRONIC MAIL

Governor Evers,

During this difficult time, we the undersigned business trade associations believe that Wisconsin businesses and employees need clear and consistent enforcement of social distancing requirements. Inconsistent or unlawful enforcement by local governments leads to confusion, and creates fairness and equity concerns for businesses and workers alike. We therefore ask for your help to bring fairness and consistency in the enforcement of social distancing requirements among local governments.

In Emergency Order #12 ("Safer at Home") issued March 24, 2020, your administration banned all non-essential business operations and non-essential travel, with the exception of minimum basic operations. The order also listed a variety of essential businesses and operations that must be able to continue in order to provide vital goods and services to our state. A "Frequently Asked Questions" document accompanying your order stated explicitly that individuals and businesses do not need special permission or documentation to travel or to continue operating:

> *Individuals do not need special permission to leave their homes, but they must comply with this order as to when it is permissible to leave home. Similarly, if a business is an essential business or operation as outlined in this order, it does not need documentation or certification to continue work that is done in compliance with this order.*

Unfortunately, it has come to our attention that a number of local jurisdictions in Wisconsin are going far beyond the requirements of your order. Some businesses that have continued their operations have reported receiving cease and desist letters from local governments. This includes businesses on the Cybersecurity and Infrastructure Agency (CISA) list of essential industries, and businesses otherwise exempted by Emergency Order #12. Similarly, we have seen reports of local law enforcement in some areas stopping citizens for no reason other than to ask where they are going.

We believe that this level of enforcement is unacceptable, unwarranted, and outside the scope of your order's original intent. Accordingly, we respectfully request that you direct local governments to follow the text of Emergency Order #12 and any other state policies regarding the COVID-19 public health emergency, and to remind them that your administration's order supersedes any local health orders that might conflict with it. If a business is in an exempted industry, it must be allowed to continue operating. We are also asking your administration to establish a process to report and correct overzealous enforcement by local authorities.

Our respective members represent thousands of businesses in all industries across our state that provide family-supporting jobs for countless Wisconsinites. Our members are doing all that they can to

AMERICAN OVERSIGHT

comply with the law while continuing to provide important goods and services for our economy. At this confusing and disruptive moment, no business or individual following the letter and spirit of the Safer at Home order should have to face a cease and desist letter or be stopped and questioned about their activities. Thus, we hope that you will order local governments to stop any enforcement activities that go beyond the requirements of Emergency Order #12.

Thank you for considering our request.

Respectfully,

AMERICAN OVERSIGHT

Dear Governor Evers,

The CARES Act is a one-time federal windfall that must be spent wisely to help Wisconsin deal with the human and economic catastrophes caused by the coronavirus outbreak. As we learned late last week, Wisconsin will be awarded $2.2 billion, with $1.9 billion of that headed directly to the state.

Because of the seriousness of this pandemic, we believe in the importance of setting aside partisan differences and working together. We hope you believe the same.

Over the past two weeks, we have spoken to thousands of Wisconsinites. We have reached out to our local health care providers, business owners, farmers, and local governments to understand their most pressing concerns during this very trying time. As you know, you and your administration have the sole ability to allocate the federal stimulus money, so we would like to outline what we believe are the main priorities of Wisconsinites statewide.

When it comes to healthcare, you have likely heard as we have, that nursing homes are struggling terribly to pay for the necessary personal protection equipment (PPE) that is needed to follow CDC guidelines. Our nursing homes workers are on the frontlines of this pandemic. If they are not able to adequately keep residents safe, it will directly impact our hospitals. In addition, PPE is still a need for healthcare and other essential workers across the state. Additionally, the state needs more readily available and rapid testing supplies. We hope you will **prioritize hospitals and healthcare facilities and their needs** as you spend these federal resources. We also ask that you continue to derive the most accurate data possible as it relates to hospital usage, patient outcomes, and test results so that our healthcare workers can provide the very best care possible.

While we believe our priorities align on these issues related to healthcare, we know they diverge when it comes to protecting unborn life. We must voice our strong opposition to classifying abortion providers, like Planned Parenthood, as an essential service. Considering the federal government has provided guidance shutting down all elective procedures in our hospitals to conserve precious resources and PPE, it is unconscionable that you would allow these facilities to continue to operate. The PPE should be conserved for those frontline healthcare workers battling COVID 19, many of whom are asked to reuse the same mask for days. While we have little hope that you will change your mind on this, we must firmly insist that no federal stimulus money go directly or indirectly to abortion providers.

Our economy is going to suffer greatly because of this shut down. The Federal Reserve is predicting the crisis could drive the national unemployment rate to 32% and the GDP could suffer a 20% decline. In Wisconsin, economists project 15% of our state workforce could be unemployed as soon as this summer. **Please consider safeguards for our business owners and workers.** We have said publicly we are in favor of repealing the one-week waiting period for unemployment, and will look to take it up as soon as the Legislature convenes. We would like you to consider building in unemployment assistance for business owners and any other resources available to help business owners and farmers stay afloat in this very difficult time.

AMERICAN OVERSIGHT

Also our local governments will no doubt be stretched thin due to the extra costs related to PPE procurement, increased use of fire, police and EMS services, and increased costs for absentee ballot mailings. We would ask that **the state provide assistance to our local governments**, if allowed under the purview of the federal stimulus dollars. In addition, our homeless population will continue to struggle. Providing vouchers so that local government can find alternate housing for those who lack shelter, as well as finding ways to support our food pantries would also be worthwhile endeavors.

We know that this pandemic is going to bring with it a high price tag. These stimulus dollars will help stem the tide that we know is going to affect our state finances. Very soon, you will instruct state agencies to craft their state budget requests. These economic uncertainties are going to make that a difficult task, as we have no idea how far our revenues will fall. Please use every tool at your disposal, including the state Office of Inspector General, to be as mindful as possible in your spending decisions. In the upcoming fiscal year and the next budget, we will have to be more careful than ever. Considerations like **tax increases or other economically detrimental policies cannot and should not be an option.**

Finally, during this crisis, it is more important than ever that we allow Wisconsinites to observe their individual faiths. To that end, we ask that you work with Wisconsin churches and temples to allow them to hold Easter or Passover services, even if it's outside. For many of us, being a part of these services will offer much-needed solace during these very uncertain times.

Sincerely.

AMERICAN OVERSIGHT

WH&LA
Wisconsin Hotel & Lodging Association

Serving the
hotel & lodging industry
for more than 100 years

April 9, 2020

TO: Wisconsin State Legislators

FROM: Trisha A. Pugal, CAE
Interim CEO

RE: **Liability Protection for Essential Businesses During COVID-19 Pandemic**

The Wisconsin Hotel & Lodging Association requests your support in including critical Liability Protection for Essential Businesses during the pandemic crisis in the legislature's Relief Plan to help ensure that unjustified lawsuits are not widely prevalent immediately following the decline in the pandemic, as businesses will already be struggling just to stay in business.

With the basic methodology of the virus, individuals that test positive for the virus could have caught the virus from any one of multiple sources at any time without knowledge. However, our concern is that unjustified claims may be made against the businesses that are deemed Essential Businesses, including lodging properties, which would be costly to defend, even with no remote possibility of proof. For example, a person needing a place to stay when accompanying a relative just hospitalized checks into a hotel and later tests positive for the virus. While they may have had interactions with potential carriers anywhere to and from this stay, they decide to sue the hotel for damages claiming they must have caught it there.

Essential Businesses are required by the Governor's Order to follow basic rules on social distancing and more in order to operate safely during this crisis. Liability protection against baseless and costly litigation, with the fair inclusion of language barring any gross negligence on behalf of the business, will help to prevent an exponential quantity of lawsuits against Essential Businesses when the pandemic subsides.

Please support inclusion of language providing liability protection for Essential Businesses who are complying with the Order and providing needed lodging during the crisis.

DATE: March 19, 2020

The Democratic National Committee and the Democratic Party of Wisconsin have sued the Wisconsin Elections Commissioners in Civil Action No. 3:20-cv-249, alleging that certain elections statutes are unconstitutional and seeking to enjoin the enforcement of certain election statutes in light of the current coronavirus outbreak. The Legislature was not named in the lawsuit.

A mail ballot to allow the Joint Committee on Legislative Organization, pursuant to s. 13.365 (3), Stats., to intervene in cases challenging the constitutionality or enforcement of Wisconsin elections statutes, including the above case, filed prior to December 31, 2020, and retain legal counsel other than the Department of Justice to represent the Legislature in these actions is attached for your consideration.

Please return your ballot by **11:15 a.m., on Thursday, March 19, 2020** to:

State of Wisconsin
Department of Health Services
Tony Evers, Governor
Andrea Palm, Secretary

EMERGENCY ORDER #5
PROHIBITING MASS GATHERINGS OF 10 PEOPLE OR MORE

1. Under the authority of Wis. Stat. § 252.02(3) and at the direction of Governor Tony Evers, I, Andrea Palm, Secretary-designee of the Wisconsin Department of Health Services, order a statewide moratorium on mass gatherings of 10 people or more to mitigate the spread of COVID-19. This order supersedes any previous Emergency Order that conflicts with this order.

2. Effective at 5:00 p.m. on Tuesday, March 17, 2020, all public and private mass gatherings are prohibited in the State of Wisconsin.

   "Mass gathering" is any planned or spontaneous, public or private event or convening that will bring together or is likely to bring together 10 or more people in a single room or single confined or enclosed space at the same time.

   All gatherings that bring together or are likely to bring together less than 10 people in a single room or confined or enclosed space at the same time must:

   a. Preserve social distancing of 6 feet between people, and
   b. Follow all other public health recommendations issued by the Wisconsin Department of Health Services and Centers for Disease Control.

   Voluntary cancelation, closure, or limitations on size of gathering beyond the requirements of this order are permitted.

3. Effective at 5:00 p.m. on Tuesday, March 17, 2020, all bars and restaurants shall close in the State of Wisconsin, except as provided below for restaurants.

4. Effective at 5:00 p.m. on Wednesday, March 18, 2020, all public and private schools in the State of Wisconsin shall close for instructional and extracurricular activities at 5:00 p.m. Such institutions shall remain closed for the duration of the public health emergency or until a subsequent order lifts this specific restriction.

AMERICAN OVERSIGHT
WI-RER-20-0887-A-001643

This order may include, but is not limited to mass gatherings at: public or private schools, auditoriums, theaters, movie theaters, museums, stadiums, arenas, conference rooms, meeting halls, exhibition centers, taverns, health and fitness centers, recreation centers, licensed pools, and places of worship and religious gatherings.

This order exempts the following:

1. TRANSPORTATION:
    a. Airports as long as restaurants comply with the restrictions in Section 11 below.
    b. Mass transportation.
2. EDUCATIONAL INSTITUTIONS
    a. Public, private, and charter schools only for noninstructional purposes, such as medication pickup, childcare services, providing meals, and when operating as polling places.
3. CHILDCARE
    a. Childcare locations (including those that operate within a facility that is otherwise prohibited), residential care centers, and group homes.
4. HOTELS AND MOTELS
    a. Hotels and motels as long as restaurants comply with the restrictions in Section 11 below.
5. GOVERNMENT
    a. Military and National Guard facilities.
    b. Law enforcement, jails, secure treatment centers, and correctional facilities, including any facility operated by the Department of Corrections, and any facility used to respond to natural disasters or public health emergencies.
    c. State and local government facilities, including government service centers, unless prohibited elsewhere in this order or another order.
    d. Facilities operated by the Wisconsin Legislature or Wisconsin Court System.
6. RELIEF FACILITIES
    a. Food pantries and shelter facilities, including day centers, for individuals and families.
7. RESIDENTIAL BUILDINGS
    a. All residential buildings.
8. RETAIL
    a. Retail establishments, including gas stations and auto-repair facilities, where large numbers of people are present but are generally not within arm's length of one another for more than 10 minutes. Indoor shopping malls shall close.

AMERICAN OVERSIGHT

9. HEALTHCARE
    a. All health care facilities, including hospitals, medical facilities, home health agencies, personal care agencies, hospices, adult family homes, and pharmacies;
    b. Long-term care and assisted living facilities, as long the facility follows all current Department of Health Services' Recommendations for Prevention of COVID-19 in Long-Term Care Facilities and Assisted Living Facilities and all Centers for Disease Control recommendations.
    c. Alcohol and drug treatment centers or similar facilities.
10. FACILITIES FOR VOTING
    a. Libraries when operating as polling places.
11. FOOD ESTABLISHMENTS
    a. Restaurants may remain open for take-out or delivery service only. No seating may be provided, and food may not be consumed at the restaurant. Restaurants shall preserve social distancing of six feet between customers during pick up.
    b. Retail food establishments (grocery stores, convenience stores, farmer's markets) as long as the requirements listed below are followed:
        i. Close all seating intended for consuming food;
        ii. Cease self-service operations of salad bars, beverage stations, and buffets; and
        iii. Prohibit customers from self-dispensing all unpackaged food.
12. COMMERCIAL AND NON-PROFIT ENTITIES
    a. Office spaces. Such facilities shall implement social distancing, including teleworking, as much as practicable.
    b. Manufacturing, processing, distribution, and production facilities.
    c. Utility facilities.
    d. Job centers.

This order will remain in effect for the duration of the public health emergency declared in Governor Evers' Executive Order #72, or until a superseding order is issued.

Violation or obstruction of this order is punishable by imprisonment, fines, or both. Wis. Stat. § 252.25.

Message Map for Nurturing Spiritual Health while Safer at Home

Key Message/Question	Supporting Information and Messaging
Are religious services and places of worship considered to be essential services or count towards essential travel?	Businesses defined in the Governor's Order as essential businesses and operations do not include faith-based organizations or places of worship. The intent of the order is to limit gatherings of people and person-to-person contact in an effort to protect the health and safety of all Wisconsinites by slowing the spread of COVID-19. It is not a statement against the essential nature of faith and fellowship. Taking time at home to be mindful, meditate, and pray are great ways to practice spiritual beliefs individually or as a family. You can also safely view or listen to almost any form of religious services through television, radio, online video recordings, live streams, or podcasts. Speak to your religious or spiritual leaders to learn about other ways you can practice from your home.
Why isn't Wisconsin allowing religious services and why are they not saying they count as "essential services" when other states are? Florida has a Stay at Home Order, but it specifically calls out religious services in a church, synagogue, etc. as essential.	Outbreaks in communities across the country have been linked to congregating for gatherings such as church services, choir rehearsals, funerals, and weddings. This has resulted in serious illness and deaths of multiple members of families and communities. The goal of Wisconsin's Safer at Home order is to save lives. COVID-19 is an infectious disease that knows no boundaries or borders. The more infected people there are, the more strain will be placed on our health care system, leading to devastating results. Wisconsin is doing everything possible to ensure the safety of its residents. While we do not have control over what other states allow, we do have the ability to work together within our state to increase the chances that our friends, family members, neighbors, and greater community stay safe, healthy, and alive. Wisconsin's Safer at Home Order protects our communities by making sure no gatherings of 10 or more people take place, and that physical distancing is practiced during all gatherings of less than 10 people. This includes religious gatherings, weddings, and funerals.
My community doesn't have a confirmed case (or) My community only has a few confirmed cases. Why do I have to stay at home?	While there may not yet be a confirmed case in every county in Wisconsin, many new cases are confirmed every day in our state. Community spread is now documented across Wisconsin and we continually identify cases in previously unaffected areas. Because of this, it matters less if we have cases in a defined geographic area, because we are all part of a social network that has connections across the state and country to places where people have tested positive for COVID-19.

AMERICAN OVERSIGHT

	We also know that the virus can spread before people show any symptoms, which means many people do not even know that they are spreading the virus when doing so. This makes it even more likely that the virus is present undetected throughout our state, making it all the more important to stay home, no matter how many cases are known to be present in your community. This means that even in an area where there are no or few confirmed cases, everyone can still play an important role in slowing the spread.
If our religious service is less than 10 people, is it exempt from Safer at Home?	There are limited exceptions to the essential travel and services restrictions described in Safer at Home. This includes essential gatherings of fewer than 10 individuals. It is strongly discouraged for groups of individuals to congregate no matter the circumstances or location. If a group of more than 10 individuals does congregate in a confined space (indoors or outdoors), they must practice physical distancing at all times. It is also important to limit gatherings only to people living within the same household to avoid transmitting the virus through social networks. Sick individuals should not leave their home unless obtaining necessary medical care.
Can our congregation gather in the church's parking lot if we stay in our cars?	Wisconsin's Safer at Home order does not allow for gatherings of more than 10 people in a confined space at a time, which includes areas such as parking lots and festival grounds. While an individual is safe in their car with the windows rolled up, it is extremely difficult to manage these types of gatherings. Areas such as parking lots also have limited access to restrooms, and participants may be tempted to get out of their cars to stretch and enjoy the weather, creating potential for the virus to spread through interaction.
How long are we going to have to do this?	The Safer at Home Order is currently in effect until 8 a.m. on Friday, April 24th, or until a superseding order is issued. We do not make the timeline, the virus makes the timeline. The Department of Health Services uses data to help us understand how the disease is spreading and what changes we can make to the recommendations. While we still do not know precisely how many cases we will have by April 24th, all models predict that there will be a strain on our health care systems sometime in April. The best thing we can do is plan for the worst and hope for the best, so that is what we are doing. When we all take Safer at Home seriously, we help to reduce the strain on our health care system and prevent increased infections and deaths. For now, we should not assume that we have done enough to flatten the curve, but rather that the virus is still prevalent in our state and likely increasing in spread. Our ability to continue to work together to stay Safer at Home will influence the timeline of the virus. The longer we wait

AMERICAN OVERSIGHT

	to all do our best to follow the Safer at Home guidelines by challenging the order and making personal exceptions, the longer we will need to practice physical distancing.
Talking points that appeal to head	We do not currently have a vaccine that can protect us from COVID-19. COVID-19 can spread in a population rapidly. There is already documented community spread in Wisconsin, so following the Safer at Home order together is the best way we can protect ourselves and our community. The one thing that is proven to work is physical distancing, and we are seeing it work in Wisconsin. While the number of cases is increasing, it is doing so in a linear fashion (meaning it's a slow increase versus an exponential increase—doubling or tripling the number of cases each day). An exponential increase in cases is what we would have expected to see without any protective measures, such as Safer at Home. This is encouraging and shows that we are starting to flatten the curve. We are not out of the woods yet, but this past week (week of April 1) has shown us how effective it is when we all stay at home, limit trips out of home to essential needs one or two times a week, stay 6 feet apart from others when outside of the home, do not have gatherings with people outside of our homes, wash our hands often for at least 20 seconds, and cover coughs and sneezes with a tissue or elbow. Abandoning or easing up on social distancing measures at the first sign of success will only lead to a further increase in cases and deaths, and prolong the need to minimize our interactions. Data and modeling have also been critical tools to stop the spread and have informed policy decisions like Safer at Home. The Department of Health Services has made this information available to the public information to help illustrate how these difficult decisions are made and why guidance like physical distancing is important to protect the health and safety of Wisconsinites. When we all take Safer at Home seriously, we save lives and protect Wisconsin's most vulnerable community members and our essential workforce.
Talking points that appeal to the heart	We are asking everyone to stay at home because we know that it is the one thing we can all do together to keep our loved ones safe. People across the state are making the incredible sacrifice to stay at home when it is often very difficult to do so. We know this isn't easy, and we appreciate everyone's sacrifice today to save lives tomorrow. Feelings of loneliness, worry, and hopelessness are a reality for many during this time. Physical distancing should not mean social isolation or a

AMERICAN OVERSIGHT

	lack of contact with loved ones. We are fortunate to live in a time where picking up the phone to talk, text, or video chat is easier than ever. When you are feeling down, call up a friend you haven't talked to in a while and see how they are doing. The Resilient Wisconsin Initiative offers tools to encourage self-care, maintain social connections, and reduce stress during this difficult time. Specific tools, resources, and trauma-informed practices are available for first responders and medical professionals on the frontlines, parents and caregivers, people living with mental and behavioral health concerns, and mental and behavioral health providers.
Talking points that appeal to the soul	This is a trying time for our head, heart, and soul. Spiritual practices provide hope and a source of strength and social connectedness. Many faiths are rooted in caring for others. Staying home during the Safer at Home order is one way to practice your faith during this challenging time. Faith-based organizations play a critical role in slowing the spread of COVID-19, especially among high-risk populations. These organizations often nobly serve those who are most vulnerable, such as older people and those with serious underlying health conditions like heart disease, asthma and COPD breathing difficulties, and diabetes. Community members with underlying conditions are at higher risk of developing severe COVID-19 illness and death. Religious leaders should continue to stay up-to-date on information related to this pandemic and actively disseminate accurate and timely information. We look forward to the day when we can again allow in-person worship and gatherings to take place. In the meantime, please stay connected with one another through phone calls, video chats, text messages, and other ways.

AMERICAN OVERSIGHT

Message Map for Nurturing Spiritual Health while Safer at Home

Key Message/Question	Supporting Information and Messaging
Are religious services and places of worship considered to be essential services or count towards essential travel?	Businesses defined in the Governor's Order as essential businesses and operations do not include faith-based organizations or places of worship. This means that even in an area where there are no or few confirmed cases, everyone can still play an important role in slowing the spread.
If our religious service is less than 10 people, is it exempt from Safer at Home?	There are limited exceptions to the essential travel and services restrictions described in Safer at Home. This includes essential gatherings of fewer than 10 individuals. It is strongly discouraged for groups of individuals to congregate no matter the circumstances or location. If a group of more than 10 individuals does congregate in a confined space (indoors or outdoors), they must practice physical distancing at all times. It is also important to limit gatherings only to people living within the same household to avoid transmitting the virus through social networks. Sick individuals should not leave their home unless obtaining necessary medical care.
Can our congregation gather in the church's parking lot if we stay in our cars?	Wisconsin's Safer at Home order does not allow for gatherings of more than 10 people in a confined space at a time, which includes areas such as parking lots and festival grounds. While an individual is safe in their car with the windows rolled up, it is extremely difficult to manage these types of gatherings. Areas such as parking lots also have limited access to restrooms, and participants may be tempted to get out of their cars to stretch and enjoy the weather, creating potential for the virus to spread through interaction.
How long are we going to have to do this?	The Safer at Home Order is currently in effect until 8 a.m. on Friday, April 24th, or until a superseding order is issued. We do not make the timeline, the virus makes the timeline. The Department of Health Services uses data to help us understand how the disease is spreading and what changes we can make to the recommendations. While we still do not know precisely how many cases we will have by April 24th, all models predict that there will be a strain on our health care systems sometime in April. The best thing we can do is plan for the worst and hope for the best, so that is what we are doing. When we all take Safer at Home seriously, we help to reduce the strain on our health care system and prevent increased infections and deaths. For now, we should not assume that we have done enough to flatten the curve, but rather that the virus is still prevalent in our state and likely increasing in spread. Our ability to continue to work together to stay Safer at Home will influence the timeline of the virus. The longer we wait

AMERICAN OVERSIGHT

	to all do our best to follow the Safer at Home guidelines by challenging the order and making personal exceptions, the longer we will need to practice physical distancing.
Talking points that appeal to head	We do not currently have a vaccine that can protect us from COVID-19. COVID-19 can spread in a population rapidly. There is already documented community spread in Wisconsin, so following the Safer at Home order together is the best way we can protect ourselves and our community. The one thing that is proven to work is physical distancing, and we are seeing it work in Wisconsin. While the number of cases is increasing, it is doing so in a linear fashion (meaning it's a slow increase versus an exponential increase—doubling or tripling the number of cases each day). An exponential increase in cases is what we would have expected to see without any protective measures, such as Safer at Home. This is encouraging and shows that we are starting to flatten the curve. We are not out of the woods yet, but this past week (week of April 1) has shown us how effective it is when we all stay at home, limit trips out of home to essential needs one or two times a week, stay 6 feet apart from others when outside of the home, do not have gatherings with people outside of our homes, wash our hands often for at least 20 seconds, and cover coughs and sneezes with a tissue or elbow. Abandoning or easing up on social distancing measures at the first sign of success will only lead to a further increase in cases and deaths, and prolong the need to minimize our interactions. Data and modeling have also been critical tools to stop the spread and have informed policy decisions like Safer at Home. The Department of Health Services has made this information available to the public information to help illustrate how these difficult decisions are made and why guidance like physical distancing is important to protect the health and safety of Wisconsinites. When we all take Safer at Home seriously, we save lives and protect Wisconsin's most vulnerable community members and our essential workforce.
Talking points that appeal to the heart	We are asking everyone to stay at home because we know that it is the one thing we can all do together to keep our loved ones safe. People across the state are making the incredible sacrifice to stay at home when it is often very difficult to do so. We know this isn't easy, and we appreciate everyone's sacrifice today to save lives tomorrow. Feelings of loneliness, worry, and hopelessness are a reality for many during this time. Physical distancing should not mean social isolation or a

AMERICAN OVERSIGHT

	lack of contact with loved ones. We are fortunate to live in a time where picking up the phone to talk, text, or video chat is easier than ever. When you are feeling down, call up a friend you haven't talked to in a while and see how they are doing. The Resilient Wisconsin Initiative offers tools to encourage self-care, maintain social connections, and reduce stress during this difficult time. Specific tools, resources, and trauma-informed practices are available for first responders and medical professionals on the frontlines, parents and caregivers, people living with mental and behavioral health concerns, and mental and behavioral health providers.
Talking points that appeal to the soul	This is a trying time for our head, heart, and soul. Spiritual practices provide hope and a source of strength and social connectedness. Many faiths are rooted in caring for others. Staying home during the Safer at Home order is one way to practice your faith during this challenging time. Faith-based organizations play a critical role in slowing the spread of COVID-19, especially among high-risk populations. These organizations often nobly serve those who are most vulnerable, such as older people and those with serious underlying health conditions like heart disease, asthma and COPD breathing difficulties, and diabetes. Community members with underlying conditions are at higher risk of developing severe COVID-19 illness and death. Religious leaders should continue to stay up-to-date on information related to this pandemic and actively disseminate accurate and timely information. We look forward to the day when we can again allow in-person worship and gatherings to take place. In the meantime, please stay connected with one another through phone calls, video chats, text messages, and other ways.

Members of the State Assembly

Members of the State Senate

Dear Leaders and Members of the Wisconsin State Legislature,

On behalf of Wisconsin's local movie theatres - we need your urgent assistance. The future of the entire theatre and exhibition industry depends on decisive action by our state government officials.

I am George Rouman, President of the National Association of Theatre Owners (NATO) of Wisconsin and Upper Michigan, and owner of Rouman Cinema located in Rhinelander, Wisconsin.

As an industry we understand the need to limit large assemblies in the effort to limit the spread of COVID-19 while we as a society attempt to "flatten the curve."

However, local theatres need our state government officials to understand that even when the "safer-at-home" order is relaxed or suspended – while no revenue is coming into movie theatres now, that situation may continue for several weeks and possibly months due to a lack of new movie content to show – as the film production studios are releasing new movies directly online (skipping theatres) or delaying many new releases to theatres until the Fall of 2020 or sometime in 2021.

You may not realize this, but the majority of the movie theatres are family-owned, small and moderate sized business owners, i.e. the "mom and pops," who own and operate the movie screens in the state.

N64 W24801 Main Street – Suite 104
Sussex, WI 53089
262.532.0017 (office) • 262.532.0021 (fax) • nato@natoofwiup.org

AMERICAN OVERSIGHT

You may also not realize that your average local movie theatre does not make much of its income from ticket sales – most of the ticket sales revenue goes back to the movie studios. Much of a movie theatre's income is generated from food and drink concessions. It is the theatre food and drink concessions that pay the mortgage, rent, electricity, HVAC, employee \ operator wages and…. taxes.

The theatre industry is not complaining about the necessary actions and closures due to the COVID-19 pandemic. However, it is clear that without recognition and action – the industry as a whole may fail in your local communities.

Our requests focus on treating our licensed retail food concession the same as other licensed food retail that allows for take-out, drive-thru and curbside delivery. Further, we need state government to recognize that the theatre industry may not be able to hit the "re-start" on our economic engine until November – when the bulk of new movie releases are scheduled to occur and enough revenue can actually be generated… to pay the bills and pay taxes.

Sincerely,

George Rouman, President
NATO of Wisconsin & Upper Michigan
Rouman Cinema
1205 Lincoln Street
Rhinelander, WI 54501
(715) 360-3685 (cell)

Request: Extend Timeline on Commercial Property, Rent Evictions and Foreclosures

Amend Emergency Order #15 to provide an additional penalty-free 90-days of protection after theatres are allowed by state government to re-open to acknowledge the financial hardship that will occur for several weeks and possibly months afterwards.

We want to extend our appreciation for Emergency Order #15, providing a temporary ban on evictions and foreclosures. This order helped to provide immediate assistance for individual and commercial tenants, including small businesses.

However, the local movie theatre industry is a sector that will be severely distressed by the COVID-19 public health crisis for months after the official public health orders prohibiting public gatherings and business closures are suspended.

Movie production studios are in many cases either releasing new movies directly to online streaming services (bypassing theatres) or delaying release until Fall 2020 or sometime in 2021. Further, the next timeline for major movie productions releases in many instances does not occur until November.

This means when the COVID-19 public health emergency and the related orders are relaxed and\or suspended in the coming weeks, the movie theatre industry will continue to suffer financially for several weeks and possibly months afterwards until the theatres have new movie release content to provide – which, again much of that is not likely to occur until the fall.

AMERICAN OVERSIGHT

NATO of Wisconsin & Upper Michigan is asking state government to acknowledge that the emergency order to close all theatres and their food and drink concession takes away the ability of theatres to generate any revenue to pay bills and taxes. We are asking there be provided a reasonable extended timeline of Emergency Order 15 provisions based on the reality of how the theatre industry functions.

Request: Allow theatres to delay all property tax and sales tax payments until December 31, 2020.

As stated previously, the local movie theatre industry is a sector that will be severely distressed by the COVID-19 public health crisis for months after the official public health orders prohibiting public gatherings and business closures are suspended.

Movie production studios are in many cases releasing new movies directly to online streaming services (bypassing theatres) or delaying release until Fall 2020 or sometime in 2021. Further, the next timeline for major movie productions releases in many instances does not occur until November.

This means many of your local theatres will not have the means to pay bills and taxes until that new movie content is released this fall to generate sufficient ticket and concession sales.

Request: Allow theatre food concession to participate like other food-retail entities with take-out, curbside pick-up and delivery.

Amend Emergency Order 12 relating to "Safer-at-Home" to extend restaurant and other food retail take-out and delivery services to theatre concessions.

NATO of Wisconsin & Upper Michigan understands why the theatre-auditoriums and restaurant dining areas where assembly seating is provided must be closed or restricted during this COVID-19 public health emergency.

However, unlike theatre concessions - restaurants and other food retailers (i.e. cheese shops, candy stores, cafés, bakeries, popcorn vendors, etc.) are able to remain open by limiting food and concession operations to take-out or delivery service only.

NATO of Wisconsin & Upper Michigan members are not asking that theatre-auditoriums be allowed to open – like the dining areas of restaurants they should remain closed during the public health crisis. However we are asking that like other food retailers and restaurants -movie theatre concessions be treated the same - be allowed to provide pick-up and delivery services.

Keep in mind that right now all movie theatres have perishable and expiration date food and drink products sitting in our theatre concession areas – all of which will go to waste if we are not provided the same opportunity as other licensed food retailers.

Theatres have been ordered to close – entirely – theatre auditoriums and concession areas. These businesses should be afforded the opportunity for community support to at least help pay the bills when no revenue stream is currently allowed to occur.

AMERICAN OVERSIGHT

Again, we understand why restaurant dining areas, retail food\drink seating and theatre auditoriums that create assembly must be closed or restricted to the public – but please don't treat food retail \ concession differently just because it's attached to a closed and separately shuttered theatre auditorium.

Attachments: EMO12-SaferAtHome.pdf

Good morning,

As promised, I am reaching out with more information regarding Governor Evers' new "stay at home" order. I have attached the order for you, but it is very long. The section that will cover you is the following found on page 12:

h. Weddings, funerals, and religious entities. Religious facilities, entities, groups, and gatherings, and weddings and funerals, except that any gathering shall include fewer than 10 people in a room or confined space at a time and individuals shall adhere to Social Distancing Requirements as much as possible.

From what you told me on the phone, this should allow for you to offer virtual services, as well as holy communion services with fewer than 10 people at a time.

I hope this is helpful to you! Please let me know if you have any additional questions,

AMERICAN OVERSIGHT

March 27, 2020

Governor Tony Evers,

You have recently advocated for citizens to get outdoors during the Safer At Home order, while still practicing standard social distancing, for both the physical and mental health benefits. However, while many outdoor activities remain open for the public to enjoy, including State Parks, the Evers Administration has ordered the closure of all golf courses in the State of Wisconsin.

Golf is a popular outside sport and can be good exercise for those who play. If golf courses agree to practice under specific safety guidelines and standard social distancing, they would be an asset to the public as many try to enjoy the outdoors during this Safer At Home order.

Therefore, we request that golf courses be allowed to remain open in the State of Wisconsin under the following guidelines:

- Clubhouses and dining remain closed in their entirety
- Only two golfers per hole
- Only one golfer per golf cart
- Standard social distancing is practiced

Sincerely,

State Representative Rob Hutton

The election must be postponed. the northern 1/2 of the state has a lot of elderly and people who do not have access to the internet to do the bullsh? for an absentee ballot. sounds like something the liberals want to get a liberal judge on the supreme count. This is about as crooked and partisan as it gets.
Thanks, Dave

Rep. Felzkowski,

AMERICAN OVERSIGHT

Thank you for the information regarding Governor Ever's safe at home directive.

I have a deep concern regarding the April 7 election. I don't understand why the governor refuses to postpone the election. Many other states have postponed elections until a later date in spring. If Wisconsin is in such dire straits that businesses must close, why continue with the election at this time? In my opinion, it reeks of political subterfuge.

I don't favor only voting absentee and I don't favor eliminating a photo ID.

Is there anything I can do to make sure Wisconsin has a fair election in April?

Yes, I have requested and received my absentee ballot and mailed it today.

Sincerely,
Patrice Flock

I am more than happy to follow Gov Evers orders to stay at home but totally oppose continuing to hold the election on April 7. That is absolutely ridiculous to put everyone that votes at high risk of contracting the virus. I am an election worker and will not work that day and will not vote.

False

Dear Representative,

The business shutdown order tramples our right as citizens. I have an association a small legal office that prepared a safe plan whereby only one of the staff members is manning the office and keeping the servers going while everyone else is set up with home computers. This is order is nuts.

What about our logging operations where the operators and drivers never get within 20' of anyone else.

This order is imperiling all of the employees but endangering the survival of many small businesses. The Governor apparently has not a clue how businesses survive on the thinnest of margins.

AMERICAN OVERSIGHT

I'm disgusted. These actions will create problems far more serious than the virus itself.

This is the first time I've been so motivated to write you,

Regards,
Don Schoonenberg
Summit Lake, Wisconsin

Good afternoon,

As a resident of central Wisconsin, specifically the Village of Birnamwood, I am concerned about the use of cabins by southerners and also very concerned about the return of the snow birds to Wisconsin.

I have a number of friends "down south" who plan on driving home soon.

These people are not mentioned in anything I have read or when the Governor specks. We can not take it for granted that any of these people will automatically self quarantine. Also we can not assume the people from southern Wisconsin or northern Illinois will stay home and not come up here to their cabins.

We need to get the word out how detrimental this could be to the central and northern part of our state.

I spoke with someone yesterday, who lives in Pewaukee, and is now working from home so he decided to pack up himself and the kids and go up to his folks house in Antigo for the week. He will be returning to his home with the kids this week. This is a prime example of the lack of common sense that not only he and his wife lack but I am sure many, many others lack the same common sense.

Please address this somehow, so that people understand "stay home" means your primary residence. Also "stay home" is not visiting grammas and grandpas.

Thank you,
Jody Dombrowski
jedombrowski@yahoo.com

Who does the governor think he is??? God? So its necessary to shut down thousands more businesses and destroy peoples lives economically over a virus thats killed 4 people in the state? And then he has the gall to announce that he will "allow" us to still go outside to walk a dog? How gracious! Lord Evers says I can walk Fido. We're saved.

Use whatever power you have to tell Evers to go pound sand. We can fight this virus without forcing people to commit financial suicide. And the idea that government will save small business is horseshit. There is never any money for us. The big corps will get bailed out, and the best any small business can hope for is a loan they can't afford to pay back.

AMERICAN OVERSIGHT

End this shit.

Chad Waterhouse

Enough of the stupid virus-adults should be able to make their own decisions-a clear example of the ' 1 size fits all ' failure.
how is this going to this going to end? By adding more time, extending weeks beyond, or is this the new normal and we should just expect this every 6-8 years? Won't there be more damage from bankruptcies, suicides, and Government created poverty, (where none existed) than deaths from Covid-19?? And don't insult my intelligence by saying Gov. will make payments or loans---we know where the money comes from in the first place...

My oldest daughter just had her last rotation cancelled-she is besides herself since she does not know how this could affect her May graduation from Pharmacy school....still waiting to hear if Graduation will be canceled-A true lifetime milemarker...

I'd rather you work on getting lazy town clerks opening for early voting, like, say, here in Nokomis!!! Why can lefties in Madison and Milwaukee have weeks of voting, while we are only offered absentee or election day!! That's what I prefer you contact me and work on-it's a fundamental disadvantage to rural living!!

Dr. Snadra and Kevin South
Nokomis

AMERICAN OVERSIGHT

If Your Job Has Been Impacted

- **Official information from the state of Wisconsin** – Visit https://evers.wi.gov/Pages/Home.aspx. This is the site where official notices and orders are posted.
- **Unemployment Benefits** -- To begin the process of filing for unemployment, start at https://dwd.wisconsin.gov/uiben/ and then click on "Apply for Benefits Online". You will also see an option called "Handbook for Claimants". This handbook will answer almost any question you may have.
- **For those seeking new or temporary work** – You can view what work is available in various occupations right from your home. Go to http://wisconsinjobcenter.org/lookforjobs/in-demand.htm to begin.
- **Local Resources** – You can call the North Central Wisconsin Job Center Help Desk at 888-258-9966.

If You Are at Higher Risk for Severe Illness

Based on quickly developing information, the Centers for Disease Control and Prevention (CDC) believes certain people may be at a higher risk for severe illness developed from COVID-19.

- **The CDC believes those at higher risk for severe illness from COVID-19 include:**
  - People aged 65 years and older
  - People who live in a nursing home or long-term care facility
  - People with underlying medical conditions, which could include the following:
    - People with chronic lung disease or moderate to severe asthma
    - People who have serious heart conditions
    - People who are immunocompromised including cancer treatment
    - People of any age with severe obesity or certain underlying medical conditions, such as those with diabetes or liver disease might be at risk
  - It's recommend that people who are pregnant be monitored

The amount of information available can be overwhelming. I want to provide you three trusted websites to receive accurate and up-to-date information.

- The Center for Disease Control https://www.cdc.gov/coronavirus/2019-nCoV/index.html
- The Department of Health Services https://www.dhs.wisconsin.gov/covid-19/index.htm
- Federal Agencies Clearinghouse https://www.coronavirus.gov

AMERICAN OVERSIGHT

If Your Business Has Been Impacted

- **Small Business 20/20** – Businesses with 20 or fewer employees may be eligible for up to $2,000 over two months to cover costs such as rent, payroll, and utility bills to provide relief for fixed monthly expenses. Small businesses must apply for the grant through a local Community Development Financial Institution.

- **SBA Economic Injury Disaster Loan Program** – Businesses with 500 or fewer employees may qualify for up to a $2 million loan with interest rates of 3.75% for for-profit and 2.75% for nonprofits and payments for up to 30 years.
    - Loans can be used for working capital to keep business open and cover fixed costs and bills.
    - When filing out an application, SBA staff recommend saving your information, as the website has kicked individuals off while completing the application.

- Find more loan and grant information at https://wedc.org/programs-and-resources/covid-19-response/.

- If possible, nonessential businesses are encouraged to have employees work from home and maintain minimal basic operations such as payroll and security for your business.

Many questions have been raised about what businesses qualify as essential. DHS Emergency Order #12 outlines essential businesses as well as provisions for "manufacture, distribution, and supply chain for critical products and industries." If you are unsure if your business is essential, WEDC recommends reviewing this provision before contacting them. Read the order at https://evers.wi.gov/Documents/COVID19/EMO12-SaferAtHome.pdf.

If You're Wondering How You Can Help

- **Donate Blood**–Right now, Red Cross inventory is at critical levels. Their sites are taking extra precautions to make sure giving blood is safe. If healthy, please consider giving blood by calling 1-800-RedCross or going to redcrossblood.org to find a blood donation location in your zip code.

- **Help Local Businesses**- My office has compiled a list of all the restaurants in our district that are currently offering delivery, carry out, or both. Please help our local small businesses weather the storm by buying a meal out when you can. Head to my website for the list.

- **Take Care Of Your Neighbors**- Offer to pick up groceries or prescriptions for elderly neighbors who should be staying home.

Subject: Petroleum Marketers in 35th AD

Hey Doug,

I hope things are going well and you're staying safe. Rep. Felzkowski was wondering if you would be able to provide us with a list of gas stations or petroleum marketer members in our district? She is hoping to reach out and partner with them on a public information project.

Please let me know if you have this info.

Thanks!

Subject: poll workers

With the April 7th election only days away, our amazing local clerks are working around the clock to send out requested absentee ballots and do everything possible to make sure the day runs smoothly and safely.

I would like to encourage anyone who is healthy and low-risk and feels comfortable to please consider volunteering to be a poll worker on Election Day. As most of you know, our elections days run like a well-oiled machine because we have so many dedicated volunteers. Many of our regular volunteers are those who are currently high-risk for the virus and need to stay home.

Volunteering to work at the polls is not as hard as you may think! There are a few different positions, some that require training, some that don't, and some that require residency and others that don't. Please look at the following document that goes through what each of these positions does.

Additionally, if you are interested in learning more, the Elections Commission recently provided local governments with a COVID-19 webinar that will help local clerks and poll workers ensure our polling places are safe. That webinar can be found here.

Stay Safe by Practicing Religion and Spirituality from Home

[City, state] – On March 24, 2020, Governor Evers issued a Safer at Home order, directing Wisconsinites to stay at home in order to slow the spread of COVID-19. This order is in effect until Friday, April 24, 2020, or until a superseding order is issued.

Safer at Home allows individuals to leave their homes for limited essential activities, including shopping for groceries, obtaining medicine, and caring for a family member in another household. Essential businesses and operations are also allowable, though physical distancing and other safety measures are required to keep employees and customers safe.

The order does not allow for gatherings of more than 10 people in a room or confined space at a time. A confined space is not only limited to indoor gatherings, but also includes any defined space, including parking lots and festival grounds. This includes religious gatherings, drive-in services, weddings, and funerals. Any gathering with fewer than 10 people must still adhere to physical distancing requirements by staying at least six feet from others and staying home if you are sick. It is also important to limit gatherings only to people living within the same household to avoid transmitting the virus through social networks.

Physical distancing is our only defense against this virus. Community, faith- and spiritual-based organizations have an important role in slowing the spread of COVID-19, especially among high-risk populations. These organizations often nobly serve those who are most vulnerable, including people with heart disease, lung disease, and diabetes. These community members are at higher risk of developing severe COVID-19 illness.

“This is a challenging time for all and we have to make big sacrifices for a little while to protect the health of our community,” said insert health officer/director/spokesperson name, title, health department name. “For many in our communities, coming together to practice our religious and spiritual beliefs provides hope, strength and social connectedness. We look forward to the day we can again allow in-person gatherings to take place. In the meantime, we ask that you stay connected with one another through phone calls, video chats, text messages, and other ways.”

Religious and spiritual leaders should continue to stay up-to-date on information related to the pandemic and actively disseminate accurate and timely information. This includes developing information-sharing systems with partners, including local health officials, and communicating this information to regular attendees, people being served by the organization, and the broader community.

AMERICAN OVERSIGHT

Thankfully, with modern technology there are many creative options available for staying connected and nurturing spiritual health during this challenging time. Many churches, synagogues, mosques, temples, and other places of worship are offering services through television, radio, podcasts, and livestreams on the Internet. “Individually, and as families, taking time to be mindful, meditate, and pray is important for spiritual health while we all do our part to keep our community safe while staying safer at home,” says insert health officer/director/spokesperson name, title (if not used above).

We sympathize with congregants of faith- and spiritual-based organizations that miss the services and fellowship, but the goal is to keep everyone safe and healthy by following the practices put in place by the Safer At Home order.

If you have questions or immediate needs related to COVID-19, call 2-1-1 or text COVID-19 to 211-211. For up-to-date information, please frequently monitor the local health department social media or website, the DHS website for updates, and follow @DHSWI on Facebook and Twitter, or dhs.wi on Instagram. Additional information can be found on the CDC website.

AMERICAN OVERSIGHT

WMC
WISCONSIN MANUFACTURERS & COMMERCE

To: Wisconsin State Legislature

From: Corydon Fish

Date: April 10, 2020

Re: Released COVID-19 liability protection measures are inadequate.

Recently, WisPolitics distributed summaries of draft legislation relating to the COVID-19 public health emergency being considered by the Legislature's Republican majorities. Actual bill language has not yet been released.

The Republican majorities appear to be working on necessary, fair liability protections for healthcare providers and their employees who are putting their personal health at potential risk as they work to treat patients and fight this novel coronavirus. **Thank you for including these protections for healthcare providers and their employees**.

Other measures recommended by WMC are either apparently *not* being considered or the language being considered is inadequate.

Enact civil liability limitations for manufacturers of PPE and COVID-19 treatment equipment.

The plain-language summary released by WisPolitics contains problematic provisions related to exemptions from liability for manufacturers producing critical products to address the public health emergency, highlighted below.

From the summary released by WisPolitics:

> **EXEMPTION FROM CIVIL LIABILITY FOR MANUFACTURE OF MEDICAL SUPPLIES AND EQUIPMENT DURING PUBLIC HEALTH EMERGENCY**
>
> Exempt manufacturers, distributors, and sellers of emergency medical supplies and equipment that donate or sell their products in response to the public health emergency declared under Executive Order 72 (including any extension granted by legislative resolution) from civil liability associated with injury or death caused by those products. The manufacturer, distributor, or seller would be exempt from civil liability only if the product were sold or donated to a nonprofit organization or unit of government at a price that does not exceed the cost of production, defined to include only the cost of inputs, wages, operating the manufacturing facility, and transporting the product. Define emergency medical

AMERICAN OVERSIGHT

> supplies and equipment as any medical equipment or supplies necessary to limit the spread of, or provide treatment for, a disease associated with a public health emergency, including life support devices, personal protective equipment, cleaning supplies, and any other item determined to be necessary by the Secretary of the Department of Health Services. Specify that the exemption would not apply if the death or injury were caused by a willful act or omission.
>
> [Draft legislative proposal summary p. 7, emphasis added.]

WMC strongly supports exemptions for civil liability for manufacturers of medical equipment associated with COVID-19, but the following two provisions make this particular proposal unworkable:

- **Limiting the civil liability exemption to manufacturers only selling the products at cost provides *no* protection for those businesses who are *already* manufacturing such equipment as part of their regular business model.** Furthermore, this language would provide no financial incentive for manufacturers to repurpose their facilities to make medical equipment. It is not practical to require businesses who in good faith want to help the state by manufacturing critical supplies to choose between 1) selling the products at cost and potentially losing substantial profits in order to receive the liability exemption or 2) selling the products at a standard price point and risking losing millions to frivolous lawsuits filed by aggressive plaintiff attorneys. Private businesses should not be expected forgo their entire business model in order to receive civil liability exemptions that are fair, as the state expects businesses to step up and produce vital equipment. If these provisions are enacted, few if any additional businesses may begin manufacturing equipment associated with COVID-19.

- **The Legislature should not limit the civil liability exemption for manufacturing of critical supplies to only the public health emergency created under Executive Order #72 and any legislative extension.** Even after the current wave of COVID-19 ends, the state may want to begin stockpiling necessary equipment to treat any remaining cases and prepare for a future outbreak. The Legislature should extend the liability exemption for any manufacturer willing to make these critical products, whether in response to or in preparation for any public health emergency.

Bipartisan legislatures and governors across the country have already enacted appropriate liability exemption provisions for manufacturers without these arbitrary limitations. The Wisconsin Legislature and Gov. Evers should do the same.

WMC encourages the legislature to adopt civil liability exemptions for manufacturers of medical equipment used to address COVID-19. But the provisions outlined in the draft summary are

AMERICAN OVERSIGHT

unworkable and would not provide a meaningful, effective incentive for manufacturers to take on the risk of making these critical products.

We respectfully encourage you to enact liability protection for manufacturers of all types of respirator masks certified by the National Institute for Occupational Safety and Welfare and any manufacturer who chooses to repurpose their facilities to manufacture personal protective equipment or equipment in response to the COVID-19 public health emergency.

In addition, two other needed protections do not appear to be under consideration by the Legislature.

Enact civil liability protections for employers keeping their workers and workplaces safe.

Enact liability protections, including an exception to the Wisconsin Fair Employment Act for measures to mitigate the COVID-19 outbreak, to allow businesses to screen employees and visitors (e.g., by taking a temperature scan) for signs of illness prior to entering a business or employer facility. Further, provide liability protections for employers who require employees to engage in proper hygiene procedures. **The summary released by WisPolitics gives no indication this necessary liability protection for the broader business community is being considered.**

Enact civil liability protections of persons rendering aid.

Create a civil liability exemption for any person providing aid or support to assist those suffering from the communicable disease or engaged in efforts to combat the spread of the communicable disease identified in an emergency public health order. **The summary released by WisPolitics gives no indication this necessary liability protection for the persons rending aid is being considered.**

Thank you for your consideration of these important public policy proposals. Please feel free to contact Corydon Fish at cfish@wmc.org or (262) 758-9132 if you have any questions.

Hey Justin,

Thank you for taking the time to speak with me on the phone. Attached and below is the information, text, and MP3 of the PSA we discussed.

As I mentioned, the language was written in conjunction with the Elections Commission and this is a non-partisan, non-political reminder of how people can vote during this unprecedented situation.

The recording is a sample made by a radio station and you are more than welcome to make your own. The only ask by the Commission is you stick to the same language and information shared.

Some stations have begun running this Public Service Announcement where they have recent openings in their rotation.

Additionally, like we talked about, our office will be making the ask that healthy individuals, who are able and comfortable, to sign up to be poll workers on election day. Our office would appreciate if you can join us in spreading the message so our local clerks have the manpower and assistance they need on election day.

Thank you again for your time, Justin, and please let me know if this is something your station will be able to do and if you have any questions.

Hope you're staying safe!

Subject: RE:

Steve and Margie,

The biggest hurdle with moving this election, apart from timing, is that over 3500 local positions across Wisconsin would sit vacant if the election were postponed, and for almost two months if June 9th would have been the date. There is no mechanism for the legislature or the Governor to all for the people in their positions to continue serving. Even if we were to pass a bill, state law cannot supersede the Wisconsin Constitution, so it would be challenged as unconstitutional. So then you have local officials who are in a position where they possibly cannot make decisions in their local governments, all during a global pandemic. This is an extremely dangerous scenario that we were not willing to just roll the dice on. I'm talking mayors, school boards, judges, town, municipal, and county boards. All the states you mentioned, I have no idea what their constitution says around this, but I do know what Wisconsin's says. What would you suggest be done in this situation?

Thank you,

Mary

Subject: Re:

We appreciate your response, but we do not appreciate your telling us that it was not possible to make adjustments for this election. That excuse is unacceptable. Any person with a fair amount of intelligence would be insulted with your excuse.

Alaska, Connecticut, Delaware, Georgia, Hawaii, Indiana, Kentucky, Louisiana, Maryland, New York, Ohio, Pennsylvania, Rhode Island, West Virginia, Wyoming, and Puerto Rico were able to place the health and safety of their citizens as a priority at this time.

Your answer truly proves that you have failed at your job. There is no reason for you to offer the excuse that adjustments were ?simply not possible? when the actions of other states prove that adjustments WERE possible.

We were not ?venting? and do not appreciate our concerns being considered as such. We were stating facts.

We had completed absentee ballots several weeks ago because we suspected that the majority of Wisconsin legislators would not be able to act prudently in making a decision regarding this issue.
Your decision did not affect us, but, unlike you, we are concerned about ALL citizens of our state. That was the reason we expressed our thoughts.

AMERICAN OVERSIGHT

Thank you for your update regarding today?s election.

The Republican party has completely failed to conduct this this election in a manner that supports the democratic process.

You have failed the citizens of Wisconsin, and you have failed democracy in action.

Your role as a legislator is to make the voting process as open to the electors as possible ? not to place stumbling blocks in their path to the polls. You are listed as being a member of the Committee on Health, yet you have completely disregarded the health of Wisconsin citizens. You have chosen to stand by party lines rather than place the health and safety of our citizens as a top priority. You have placed all of Wisconsin in jeopardy.

It is time to return the job you were elected to do. NOW. It is your job to support the election process, not hinder it. It is your job to place the safety of Wisconsin?s citizens as a top priority, not to dismiss the health risks you are fully aware of that exist at this time.

The time is NOW.

Dear Representative Felzkowski,

I've never voted by absentee ballot before...always at the polls. This year I ordered a ballot by mail since my health condition is high risk and others in my family are high risk. Now, there are sources saying mail services can be slowed in areas due to staffing reductions. I mailed my ballot yesterday, but our community now sends mail to another city for processing and I almost forgot due too all the other things going on right now. Hoping it gets there in time to be counted!

Voting absentee is a new experience for many, and necessary for many. I urge an extended deadline for absentee ballots to allow all voters a voice.

Good evening everyone,

I know there has been a lot of confusion today so I wanted to provide all of you with information so you are prepared for tomorrow.

The April 7th Spring Election will be happening tomorrow and polling places will be open.
If you need information about where your polling place is located, please go to the following site, or let me know and I can send you the address. https://myvote.wi.gov/en-US/FindMyPollingPlace.

Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive thru voting, which will allow for you to stay in your car and avoid person-to-person contact. If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can all do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

Mary Felzkowski

Subject:

Good evening everyone,

I know there has been a lot of confusion today so I wanted to provide all of you with information so you are prepared for tomorrow.

The April 7th Spring Election will be happening tomorrow and polling places will be open.
If you need information about where your polling place is located, please go to the following site, or let me know and I can send you the address. https://myvote.wi.gov/en-US/FindMyPollingPlace.

Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive thru voting, which will allow for you to stay in your car and avoid person-to-person contact. If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

As of right now, for those that voted absentee, your absentee ballot needs to reach your local clerk by Monday, April 13th, which is a week from today. I would encourage all those able to make sure their ballot is postmarked by tomorrow.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can all do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

Mary Felzkowski

Subject: RE:

I really want thank you to each one of you for the feedback. I understand everyone has concerns surrounding COVID-19, and I'm hoping I can help explain why people are hesitant to move the election.

- Moving the date in the middle of voting and especially so close to the election date creates unmanageable chaos.
- Over 1 million absentee ballots have already been sent out, and the deadline to request one is not until tomorrow, so I am sure we will see that number grow even more. The question becomes, what do we do with all of the absentee ballots that have already been sent and already turned in?
- Here are just some of the other questions that come up when discussing moving the election:
    - How long do we extend the election? Some people have mentioned the May 12th special election date and I totally understand wanting to use that date. What if we are still under social distancing, and have to consider moving the date again?
    - What if something happens between now and then and voters demand they be given the chance to change or re-cast their vote?
    - What do we do for the local government positions that are going to be vacant while we wait for the new election date? What if local governments can't respond to this or another crisis because decision makers aren't in place to make those decisions?

Voting in elections is a fundamental right for all our citizens. I totally understand everyone's frustrations that our elections have been impacted by this crisis. Our reality is this**: Governor Evers has said the date is not going to move and the legislature cannot move it without him.** The Elections Commission has said the date is not going to move, and now the court is signaling today that they are not going to order the date to move.

Knowing this information, my number one goal and my job right now is to help our amazing clerks run their polling places safely and efficiently, so that everyone can get in to vote, and get out quickly.

We have been encouraging anyone and everyone who does not feel safe going out to vote absentee and thankfully so many people are choosing to do that. This means that all of those people are going to stay home on Election Day, making it so much easier to social distance and avoid the spread.

The National Guard will be helping man the polls that day, and the Elections Commission is providing extra supplies to clerks, as well as extra COVID specific training. There is also funding included in the federal stimulus package to help with the increase costs of administering the election. If we all continue to work together, we can make sure that voting on April 7th is done safely.

If you have questions about anything in particular, please continue to reach out. I really appreciate the continued feedback.

Martin,

Thank you for your email concerning unemployment. I totally understand where you are coming from and wanted to let you know it's something that's being discussed for potential legislation from the legislature soon. The delay has occurred because we in Wisconsin needed to wait until the federal legislation was passed and signed. The Legislative Fiscal Bureau is currently working on a memo that goes into the federal stimulus in detail, and will tell us exactly where we need to amend state law to be able to adopt what the federal government has passed. Once we know, we can fold some or all of those suggestions into legislation that we will pass on the state level.

I hope this is helpful information. Have a good night,

Mary Felzkowski

Doug,

Thank you for the response. What I am hearing about the polls is the same as your experience, which is what we expected with how high the absentee ballot count was. I do agree with you that there are areas around the state that have had different experiences. I think it's really important to point out that each municipality chooses how many polls to have open. In the case of the City of Milwaukee, they chose, I think quite recklessly, to only have five polling places open. Yes, some poll workers across the state decided to stay home today, which they have every right to do and I encouraged for anyone feeling uncomfortable. However, over 2400 National Guardsmen and women were deployed yesterday and today to make sure polling places were adequately staffed. Milwaukee had the means to keep more places open, and they made the decision not to do that, making social distancing a lot harder.

None of this situation was ideal, but I really have to disagree with you that this was a no brainer. Moving an election so close to the actual date is extremely complicated, and creates 1000 new problems, while not necessarily solving the old ones. I agree that some around the US are puzzled, and I can't help that now. We did the best we could with the information we had at the time, with the resources we knew we had to make it happen.

Thank you again for your email. I really appreciate when people who are frustrated can still have a meaningful dialogue about something without that getting in the way.

Dear Rep. Felzkowski,

Thank you for your response. I realize there are many justifications given for moving forward with in-person elections rather than postponing them. There are legal/judicial and constitutional reasons. We Americans like to persevere despite all obstacles. And there aren't that many cases in WI yet, etc…

All true! Which I agree can serve to make this question appear to be "gray," and not black-and-white.

Except: "Public Safety." FWIW, our own polling location today was **well-operated** and **not over-populated** thank goodness. However*, that obviously hasn't been the case everywhere*. Particularly in urban areas. As such, where public safety is concerned there should have been an easy and bi-partisan path to postpone all this for a couple of months -- w/o making it a constitutional or judicial issue. I do not know how one can deny even to oneself that there are also strong political factors at work. Otherwise why would efforts and opinions on this fall so neatly along party lines? Even if I otherwise

AMERICAN OVERSIGHT

philosophically agree with those motivating factors – I believe Wisconsin can and should do better for ALL its citizens **during a health crisis**.

This should have been a no-brainer. Most of the rest of the country is amazed. I hope we can all learn from this experience – as unfortunately there will probably be a "next time."

Again, I appreciate your response Rep. Felzkowski.

Thank You,
Doug VanOrnum

Subject: A deeply disappointed Republican

Dear Rep. Felzkowski,

This WI Republican is, frankly, in utter disbelief that our WI legislature are forcing my family members to show up *in pers*on at the pols today. Some, like many, did not receive their ballots in the mail (though requested several weeks ago). We have young children. And, we have family members that work in health care. Rep. Felzkowski, believe me -- *none are in a good place right now*!

For you and our legislature to make this decision simply to gain a political advantage is…beyond our comprehension. Regardless of how severe you personally think this virus is, or will be, the fact remains that people ARE getting sick. People ARE dying from it. It is spread through proximity and contact -- and these actions and political gamesmanship forces people to congregate.

You did not actively oppose having elections today, correct? I did not find anything saying otherwise. By definition this means you must be okay knowing your actions (and inactions) WILL directly result in more sickness -- and deaths! -- in Wisconsin? Really? How can you (or anyone) be okay with that? My question

AMERICAN OVERSIGHT

is, How many lives do you think its “okay” to further disrupt, and even destroy, to meet a political objective? Is there a fixed number that is acceptable? What IS that number, exactly?

Don’t tell us it’s the Governor’s fault, that he could have asked sooner etc, etc. BS. If he had the result would have been the same. At any time our legislature could have made a different choice all by itself.

I am Republican. I have worked many campaigns over the decades and have been privileged to meet and shake President Reagan’s hand. I am NOT okay with this action yesterday. With YOUR decision. This is not simply yet another national embarrassment for Wisconsin -- you and the WI Republican Party are literally electing to *put the public safety in peril.* For what? Remember, if you or one of your family members does get sick, one of our family members might be providing their care. Meanwhile -- please be aware that you, and the Wisconsin Republican Party, are risking the permanent loss of our faith, and support, due to these *monumentally ignorant actions*.

While it’s too late now to change this decision – it’s not too late to recover our collective dignity and make a public national statement communicating that compelling public elections today was, in hindsight, a mistake. At least others can potentially learn from our foolishness.

Sincerely,
Doug & Melissa VanOrnum

Subject: Re: Absentee Ballots

Unbelievable! It is suppose to be the worst week of the pandemic, and you are going ahead with the election. Totally irresponsible and it will KILL Wisconsinites!

Many polling places will be closed which will lead to more social contact rather than more social distancIng. I'm very hesitant to go to the store and pharmacy now because of the recent spread in Wisconsin and your decision will only make it worse.

You indicated that mailing ballots to all registered voters could lead to 200,000 ballots to incorrect addresses which may lead to voter fraud. However, you are not concerned that closed polling places will lead to many voters not voting at all (likely low income voters). And much WORSE, this will unnecessarily spread the virus faster in Wisconsin which will KILL more people. Yes, it will kill voters and even worse, those that made the right choice to stay away from the polling places.

If I was unable to obtain an absentee ballot, I would not be voting. Just by chance I saw an article in my local paper in time that gave instructions on how to request one. No, most people have had others things to worry about during this pandemic than to think about requesting an absentee ballot in time and requiring a photo ID makes it more cumbersome.

Oh yes, and then your argument that it would be unconstitutional to delay the election. Hmm, your won't even mail Absentee Ballots let along postpone the election like other States with April elections have done. A one time, temporary fix during this unprecedented, horrendous safety concern. But you are ok with a permanent civil rights violation of illegal search to get on an airplane. More people will be harmed by going forward with open polling places.

I just can't believe you are that cold, uncaring and selfish!

Hello Liz
Thank you for the follow up

AMERICAN OVERSIGHT

Generally speaking we were advised: “DHS facilities must do their purchasing through approved suppliers and also have contracts in place at the state level. Grainger was mentioned as one of the primary ones. I was told they only source from other suppliers if their approved one can’t provide what is needed. At that point they need to collect a minimum of 3 quotes and are required to go with the lowest cost supplier.”

Pre-Covid this may have been a prudent approach – in today’s environment it may make good sense to relax these rules to better serve our health care professionals and citizens.

Thank you for your attention and consideration.

I would just say that you totally understand how frustrating it is that planned parenthood can be open. I think this physical therapist hasn't been shut down, he or she is likely just trying to manage their own workload and exposure by limiting appointments to urgent needs only until the peak of exposure passes. I would encourage them to have a conversation with their doctor to talk about how they will get through the next month without his appointments, and get suggestions from PT on that so he's not just floating out there with no information. He could also see if there is another physical therapist that does have more availability right now that he could see in the mean time.

I support Gov Ever's proposal to not open the polls on Tuesday 4/7/2020 and mail ballots to all registered voters who have not already voted early either in person or by absentee. Another option would be to open the polls as usual, but extend the time for people to request an absentee ballot out a week or two after 4/7/2020. I am disappointed that it appears by their statement, Voss and Fitzgerald are not willing to help Wisconsin citizens with this and protect them from possible exposure to COVID 19.

Subject: 35th AD restaurant list

Representative Felzkowski,

Many of our offices over the past week have worked to compile lists of local restaurants that are providing delivery or take-out services to customers. To the best of our ability, we have reached out to these local, small businesses to ensure that the list we share with our constituents is accurate and up-to-date.

Recently, we received a list of restaurant and food service license holders from DATCP. A list of such establishments in your district is attached to this message.

Now knowing that delivery and take-out is not effected by Gov. Evers' "Safer at Home" order, this contact information can be helpful as you work to keep your office's listings current.

You may wish to contact the restaurants on the attached list to be sure their availability and offerings during this time, before adding them to your posted list. There is a primary address and phone number listed for each business and many also include secondary contact information for the individual restaurant license holder.

If you have questions, please feel to reach out to my office.

Subject: RE: 2020 Car License Plate Renewal Increase as a result of buying a hybrid

---

Mike,

Thank you for response. Yes, there is a fee on electric vehicles. It's actually larger, again because of how much they contribute to pay for the transportation system. They pay $100, rather than $75 for hybrids, because no fuel tax is collected for them at all (as you suspected should be the case).

I understand where you are coming from and think this conversation will continue as more companies are going toward all electric cars. When you talk about fuel economy, who pays more (hybrid, electric, of total fuel) is really dependent on how much a person is driving that particular vehicle. Because you are using your hybrid for long commutes, you are likely not paying as much into the transportation system between your hybrid fee and the gas tax that you do pay as a regular fuel SUV or car that drives the same mileage. I think this is why there have been a lot of different conversations about models Wisconsin could adopt to be the most fair to each driver. There have been discussions about tolling, or about a mileage based system that would actually charge you per mile driven (which would seem to get at the fairness issue you are talking about). However, mileage based, while more fair, would apply only to registered drivers in Wisconsin, not really capturing all the truck and travel traffic from out of state that also impact our road integrity. Tolling would only be allowed on newly constructed bridges and roadways, or we would need a waiver from the Federal government (not likely). It's really a complicated issue, and one that's hard to navigate perfectly, especially when talking about raising fees or taxes on people.

I appreciate your feedback. I know this will come up again, likely next session, so it's something I'll bring me with me when discussing it with other legislators. I also wish your family well, we are all surviving and doing our best to stay healthy.

Subject: Re: 2020 Car License Plate Renewal Increase as a result of buying a hybrid

Dear Rep Felzkowski:

Thank-you for the very prompt response!

I appreciate the answer but I have to say with that kind of thought process to charge people more for their license plate that get higher gas mileage, than you would think there would be higher license fees for smaller cars and more fuel efficient cars. You would also think that the license plate renewal for a completely electric car should be more than for a hybrid.

AMERICAN OVERSIGHT

I'm curious, do you know what the extra license plate surcharge is for an all electric car that uses no gasoline at all and thus, pays no fuel taxes?

I would also be remiss in not wishing you and your family well during this very strange time of our country.

Take care,

Mike Flock

I can understand your frustration, but at least wanted to provide you with an explanation for why this was included in the biennial budget. Right now, the vast majority of Wisconsin's funding for road repair and maintenance comes from the gas tax and registration fees. A non-hybrid vehicle currently pays for the usage of that driver on the road through the gas tax. However, a hybrid does not pay as much tax because it does not use as much gas. Therefore, the driver of a hybrid is not paying the same for use of the same roads as a the driver of a vehicle that uses fuel. To help increase that equality, Wisconsin now has a hybrid fee so that all drivers on the road are paying for the system they drive on, through either the gas tax or the registration fees. I have heard this characterized as penalizing those who are more fuel conscious, and it really has absolutely nothing to do with penalizing at all. It's about creating fairness among all drivers.
>
> I hope that makes sense. Over time, with more fuel efficient vehicles, especially with how many companies are now making fully electric vehicles, the gas tax will continue to become less and less effective at providing all of the funds needed for road repair and maintenance. We will need to continue to have these conversations because our transportation and roads will still need funding, regardless of fuel efficiency. I know I have heard from people in the district that support some kind of tolling, which is a mileage based system, but we would need to seek a federal exemption for that. Please let me now if you'd like to discuss this further.

Subject: 2020 Car License Plate Renewal Increase as a result of buying a hybrid

Dear Rep. Felzkowski:

I recently received my Wisconsin 2020 license plate renewal for my 2018 Toyota Highlander Hybrid and had a somewhat unpleasant surprise. That is, the State of Wisconsin has now decided to charge an additional $75 per year per Wisconsin statute 341.25(1)(L) for hybrid owners. I've attached a copy of my license plate renewal which indicates this.

Can you please tell me what the rational was for our State Government to pass this tax?

I'm now very disappointed and disillusioned that I bought a hybrid vehicle. I can very clearly recall at the time of this purchase the car sales person telling me that for the additional $1,200 I was paying for the privilege of owning a hybrid that it might not pay off in my case. Why? Because he said hybrids are better suited for if you do a lot of city driving vs. highway driving.

Well, as you already know, living in the northwoods is primarily about highway driving.

None the less, at the time I thought I don't mind paying a little bit more if I can help our environment out, reduce our country's dependence on fossil fuels, etc.

Now I feel like a complete idiot for having those thoughts!

Again, I would appreciate your feedback on the rational for charging an additional amount for the license plate renewal when any hybrid owner has already paid an additional amount for the privilege of owning a hybrid.

Thanks Mike. Then the question becomes, what do we do when everything is more fuel efficient and the gas tax doesn't collect nearly enough to cover road maintenance? I get a lot of feedback on both sides of the gas tax, but objectively, the benefits to the tax would be that it's based on usage, and captures people from out of state. However, every year, it becomes more and more inefficient as the main source of state funding. I also get a lot of feedback on both sides about transportation funding in general, from people who don't want to see any added funding, to those that email me about particular roadways that have needed attention for a long time. It's just a really complicated issue, and hard to really make everyone "happy" here. Needs are also so different across the state that it's hard to have an apples to apples conversation.

Thanks again for your time.

Mary:

If you want my opinion it would be to raise the gas tax especially while our gas has been relatively inexpensive and I mean before COVID-19. Obviously it is a lot lower now.

Why increase the gas tax? Because smaller more fuel efficient cars are easier on roads while larger heavier less fuel efficient cars/trucks are harder on roads.

I realize someone will raise the issue of a hybrid SUV like we own being heaver and thus "not paying their fair share" but how many hybrid SUV's are there in the State of Wisconsin? While at the same time, you are penalizing those smaller hybrid cars which have less wear and tear on our roadways.

Just my two cents worth.

Doug and Melissa,

Thank you for your email. I know you are angry, and I can understand your perspective. I know it's easy to look at this as a political move. It just wasn't. I'm happy to have that conversation with you if you want. If you were just contacting me to vent, that's okay too.

Subject: A deeply disappointed Republican

Dear Rep. Felzkowski,

This WI Republican is, frankly, in utter disbelief that our WI legislature are forcing my family members to show up *in pers*on at the pols today. Some, like many, did not receive their ballots in the mail (though requested several weeks ago). We have young children. And, we have family members that work in health care. Rep. Felzkowski, believe me -- *none are in a good place right now*!

For you and our legislature to make this decision simply to gain a political advantage is…beyond our comprehension. Regardless of how severe you personally think this virus is, or will be, the fact remains that people ARE getting sick. People ARE dying from it. It is spread through proximity and contact -- and these actions and political gamesmanship forces people to congregate.

You did not actively oppose having elections today, correct? I did not find anything saying otherwise. By definition this means you must be okay knowing your actions (and inactions) WILL directly result in more sickness -- and deaths! -- in Wisconsin? Really? How can you (or anyone) be okay with that? My question is, How many lives do you think its "okay" to further disrupt, and even destroy, to meet a political objective? Is there a fixed number that is acceptable? What IS that number, exactly?

Don't tell us it's the Governor's fault, that he could have asked sooner etc, etc. BS. If he had the result would have been the same. At any time our legislature could have made a different choice all by itself.

I am Republican. I have worked many campaigns over the decades and have been privileged to meet and shake President Reagan's hand. I am NOT okay with this action yesterday. With YOUR decision. This is not simply yet another national embarrassment for Wisconsin -- you and the WI Republican Party are literally electing to *put the public safety in peril.* For what? Remember, if you or one of your family members does get sick, one of our family members might be providing their care. Meanwhile -- please be aware that you, and the Wisconsin Republican Party, are risking the permanent loss of our faith, and support, due to these *monumentally ignorant actions*.

AMERICAN OVERSIGHT

While it's too late now to change this decision – it's not too late to recover our collective dignity and make a public national statement communicating that compelling public elections today was, in hindsight, a mistake. At least others can potentially learn from our foolishness.

Sincerely,
Doug & Melissa VanOrnum

Hey Patricia,

I was able to speak to the author's office and wanted to clarify some points on the bill. First, in the situations the bill allows for, the bank teller wouldn't be making this decision, but the bank teller's manager. Age 60 was used because it is the standard age for the elderly, and used across many different platforms. It's meant to be a stop gap for those who need it. I totally understand what you are saying about you being completely capable. I would feel the same way as I am staring at age 60 in just a few years. Having said that, there are those that are vulnerable that do not have the capability. I wanted to ask if you have other thoughts about how to protect this population.

I also wanted to mention that the 10 day amendment was pulled and not adopted on the bill.

Thank you for your additional thoughts, I really appreciate it!

Subject: AB 481 and 482 Allowing banks and financial advisors to ignore advance directives of anyone over age 60

Dear Rep. Felzkowski;

I am an attorney who has had a general practice in Wisconsin for 38 years including estate planning and advance directives. Although I am aware of the problem of elder financial abuse, the proposed legislation AB 481 and 482 go too far in giving financial institutions and advisors carte blanche to ignore clients' advance directives and delay their transactions simply because the individual is over age 60 and the bank teller or stock broker believes they are "vulnerable." The bills need to be amended to eliminate the presumption that anyone over age 60 is "vulnerable." I am 65 years old, still practicing law full time, and argued a case before the Wisconsin Supreme Court last year so I don't believe I should be presumed incapable of handling my own financial affairs. A full 20% of Wisconsin residents are now over age 60.

Worse, the financial institutions and actors who are allowed to ignore people's advance directives and delay their financial transactions for 10 (this was expanded by amendment; none of the amendments has any positive impact except the DOJ training to recognize signs of impairment) are completely insulated from the potentially very costly consequences of their "belief" that someone is vulnerable.

Just because AARP (of which I am not, and never will be a member due to their actions regarding prescription drug sourcing and cost controls that continue to cost seniors millions) thinks this bill is good does not mean it is good for Wisconsin. The Elder Law section of the Wisconsin state bar, including most of the lawyers who deal with Wisconsin elder law issues, has gone on record against it. I am not sure the supporters, or even the sponsors of this ill conceived bill understand its implications.

I recommend you read Attorney Carol Wessels' analysis of the bill; https://nebula.wsimg.com/a5fd5be4e95091e941f7a1bf83e74884?AccessKeyId=3D3D135547ED636376DD&disposition=0&alloworigin=1 and propose to amend it accordingly, or vote against it in its current form. It is ageist, and does more harm than good.

I called your office twice prior to sending this email. The first time an "intern" answered and took down my number. No one returned the call, so I called a second time. That person didn't seem to understand what I was saying about the bill and I think they suggested I send an email. Which I did, when I had time (after work).

I subsequently discussed this with an ADRC caseworker at a dinner and she said they supported it. However in discussing it with her, it did not appear that she had read it. She had an opinion about what it did that was the polar opposite of what it said.

Lots of bad or inadequate information out there.

Subject: RE: Absentee Ballots

Joanne,

It was not me, but the Elections Commission, the non-partisan organization who helps run the elections for the state and maintain our voter registration and registered voters lists, that believes 200,000 people on the list of moved. I don't think we have data on how many of those addresses have a forwarding address in place. The law requires voters to inform the Elections Commission of a move within 30 days after moving, or the Commission is required by law to remove those voters from the registered list. It's the law.

We absolutely are encouraging everyone to register online and vote absentee. Ultimately, this has nothing to do with political partisanship, but protecting the integrity of the entire election for both sides. If you don't feel safe voting at the polls, then vote absentee.

Mary

Ok
But you could waive the photo ID requirement Encourage people to register online And What proof do you have that 200,000 voters moved. For the most part, people give the Post Office a forwarding address, just have those ballots returned.

OR delay the election. The local positions could be maintained with individuals currently hold those positions.

You are just putting politics above people's lives!

Subject: RE: Absentee Ballots

Hey Joanne,

Thank you for your question and allowing me to explain why a total mail-in ballot election at this point is not a feasible option.

1. There is no way to secure the vote. Mail in ballots would require eliminating voter ID.

2. It would eliminate same day registration as only registered voters as of the time the ballots went out would be allowed to vote.

3. The current registered voter list includes 200,000 voters who the Elections Commission suspects have moved. If those ballots are sent, anyone at those addresses could fill them out and return them. You mentioned that the risk of voter fraud is low, but in this scenario, it absolutely would not be.

4. The Elections Commission themselves say they don't have the infrastructure necessary to conduct an election this way.

5. Washington state, who does handle elections this way, has warned against trying to move to this system in haste.

6. I have already heard from several clerks just in my district who have said they simply do not have the time or resources before April 7th to mail ballots to all registered voters. Most of them are already spending their nights and weekends as it is trying to send out ballots to those that have already requested them.

I wish the Governor had consulted with the Elections Commission before asking the legislature to move in this direction. They could have provided him with valuable information on why this isn't feasible right now, with the election less than a week and a half away. I totally understand where you are coming from and also want to make sure that our election is as safe as possible for everyone involved. We need to do everything we can to protect voters and also protect the integrity of the election itself. Joy,

I want to sincerely apologize for how long it has taken me to get back to you. We had a huge influx of calls and emails come in on Monday and Tuesday, and I was unable to reach others. I wanted to check in with you and let you know that I got a lot of really encouraging feedback yesterday about the polling places in our area. Thanks to people who decided to vote absentee (currently over 1 million people!), a majority of polling places had a manageable amount of people come through during the day with no lines, certainly not the crowds we normally see on Election Day. I heard from others that their polling place was clean, run well, and had the necessary social distancing in place. I am really sorry to hear you did not receive your ballot. When you reached out to your clerk, what did they say concerning the issue? The Elections Commission is currently investigating the amount of undelivered ballots in Milwaukee. There are clerks who have said they did mail them, so that leaves the Post Office. If you're willing, please let me know how your experience was at the polls.

Thank you for your time,

Mary

Subject: Absentee ballots health concern

My name is Joy Fischer,

I am writing because I requested my absentee ballot before Friday April 3rd and have not received it?
If I don’t receive my absentee ballot tomorrow, I will have NO CHOICE but to leave my house and go to in-person voting! I will ensure that my family holds ALL the election board, WI State & Sheboygan County responsible for my death and/or hospitalization, if I contract COVID-19 due to a lack of timeliness in distributing absentee ballots!

I refuse to have my right to vote taken from me! My family will be advised to seek legal representation to ensure the election board, WI state & Sheboygan County is held liable for my hospitalization and/or death!

I will not forfeit my right to vote! If I do not receive my absentee ballot by tomorrow I will go out and vote in-person to keep my right! I am extreme angry that my life is going to be put in jeopardy in order to keep my right to vote!

I will be seeking legal representation for this going forward! Being forced to vote in-person tomorrow will void these last 2 weeks stay at home order! The stay at home order already created hardships for WI citizens & now we are being asked to GO OUT ANYWAY?

AMERICAN OVERSIGHT

Why even keep the stay at home order in effect, at this point, since WI citizens lives are not valued by our governing organizations?

Sincerely,
A very angry & voter rights violated Wisconsin CITIZEN! Pray to God I don't die exercising my right to vote tomorrow! I am also immune compromised so let that weigh on your conscience!!

Joy Fischer

Subject: Absentee Tracking

Hi Meagan

We are behind in tracking absentee ballots for both April and May in WisVote. I have our county board organizational meeting and orientation for new members looming.

My office cannot sustain its current load. It is me and my deputy. I also have my own election and campaign to run as well. I would take a beating, from some, if I cut off our muni clerks as our WisVote reliers. The absentee tracking is way too cumbersome.

I understand that this is in statute. Us clerks, and I think I can speak for a high percentage of us (cty and muni), have absolutely had it with this. It has spoiled our election experiences.

I am willing to sit on any committees designed to reconfigure our state voting. I am not suggesting a complete revamp, but maybe that is what will come of it.

AMERICAN OVERSIGHT

I know you are busy and I do not need a reply. I just want you to know how many of us are feeling. I do not like to complain without a solution. We have town halls and town clerks that do not have internet or cell service. I can count probably 5 municipal clerks that will hang up a ton of experience if I cut them off. I have two really good newer clerks, that have large municipalities and are reliers, that have had it with our process.

If we are to remain status quo, I believe counties should be subsidized to hire county staff and municipalities to pay their clerks more. They have been consumed by this through an already very stressful time. When our legislators agreed on this they did not account for the work it would create.

One last thing, I found it ridiculous that anyone can claim that by having the election, we were putting our electors at risk. You had to be living under a rock or coming out of a coma to not have heard about absentee and early voting? Our society cannot keep catering to the "underprivileged/under informed", whom choose to be and stay there! Maybe we could put them to work tracking these abs ballots? It is ironic that some people don't have enough work, and some have too much:)

Thanks for all you do Meagan - I know you are in a tough spot!

Subject: Absentee Voting Information

Dear Member:

Please use social media and your e-updates to share this information with your constituents.

2 graphics are attached you can use

Absentee voting is easy, fast, and you can do it from home!

- The easiest way to get an absentee ballot is to go online to request one at www.myvote.wi.gov and click on "Vote Absentee". Voters will need to upload their photo ID if they have not voted absentee before.
- Voters can also use the US mail to request an absentee ballot. Go to https://elections.wi.gov/forms/el-121-english and print off the absentee ballot request form, fill It out, and mail it in. Voters will need to attach a copy of their photo ID and know their local clerk contact information to use this method.
- Finally, voters can email (or fax) their local clerk and request a ballot.

AMERICAN OVERSIGHT

Voters can use this form to find their local clerk's contact information.

All absentee ballot requests must be made by **Thursday, April 2nd at 5:00PM** for the April 7th election.

Please note that in order to request an absentee ballot, voters must already be registered. As a reminder, the deadline for online registration has been extended by a federal court to March 30th. For more information about registration, please go to www.myvote.wi.gov.

Note to members: It is 100% appropriate to use your office and your official platforms to share information about how to absentee vote. Obviously, you should not advocate for or against any candidate or referendum. To be cautious, you may wish to refrain from using phrases such as "be sure to vote" – Your focus should be on sharing with them information on how to request an absentee ballot so they can vote.

Subject: RE: Absentee Voting

Karen,

I want to sincerely apologize for how long it has taken me to get back to you. We had a huge influx of calls and emails come in on Monday and Tuesday, and I was unable to reach others. I wanted to check in with you and let you know that I got a lot of really encouraging feedback yesterday about the polling places in our area. Thanks to people like you who decided to vote absentee (currently over 1 million people!), a majority of polling places had a manageable amount of people come through during the day with no lines, certainly not the crowds we normally see on Election Day. I heard from others that their polling place was clean, run well, and had the necessary social distancing in place.

Thank you for your time,

Mary

Steve,

Thank you for your email. Unfortunately, my office has been overwhelmed with calls and emails since Monday, so I haven't been able to reach others. I totally agree with your sentiment in this email and am happy we were able to prevail in the Supreme Court to keep the election in place on April 7th. There were not easy decisions here, but ultimately moving the election just was not possible. From what I have heard from in my district and around the state, polling places were well staffed and well run, with safety a huge priority for all involved. Given the circumstances, I don't know that we could have asked for a better situation, at least in the North. I can't say the same for Green Bay and Milwaukee. It's unfortunate that local officials in those areas did not keep more of their polling places open. With the help of new poll workers and the National Guard, that should have been possible, especially when hearing that Madison was able to keep 75% of their polling places open.

Thank you for your thoughts and taking the time to email! It's important.

Mary

Subject: Action needed NOW

I have been watching in deep distress what has been going on in the last few weeks concerning the upcoming election next Tuesday. I am 66 years of age. Thanks to my father, I have been watching politics from a very young age. I am absolutely appalled by what has been happening to this country in less than two months of time. It now seems that if the government pays us with enough blackmail money, we will look the other way and not be concerned about how our constitutional rights are being violated.

AMERICAN OVERSIGHT

As I am writing this letter on Friday evening, April 3, not only are the Democrats frightened about the upcoming election, but they are in full panic mode. As we are only a few short days away from Tuesday's election, these left-wing liberals are absolutely "freaking out". They are willing to do anything they can, whether legal or not, to stop next Tuesday's election. I was reading an article this evening from the Milwaukee Journal Sentinel, in which the reporter stated that what now prompted Governor Ever's to change his mind about having the election next Tuesday and to ask lawmakers to push the date of the election to May 19, was a tweet from president Donald Trump announcing his support for Dan Kelly to the Wisconsin Supreme Court race. In addition, in that same article, it was reported that State Sen. Lena Taylor, community activist Tory Lowe and others are suing Milwaukee and state election officials in federal court to try to postpone the in-person election until **September 8**. ARE YOU KIDDING ME????

Sadly, it appears to me that the evidence is starting to add up that what they are trying to do for the upcoming Tuesday election is based more on politics then the safety of the people regarding the coronavirus health problem. All one has to do is to look back a few short days ago when the United States Senate was trying to get the bill passed regarding the coronavirus outbreak. President Trump and the Republicans were trying to get this ironed out with the Democrats in very short order. But who steps into the fray to stop all of the momentum, none other than Sen. Schumer and Representative Pelosi. They held the bill up for 3 days in order to get hundreds of millions of dollars for their pet projects, which had absolutely nothing to do with coronavirus. Like I said before, the Democrats could give a

AMERICAN OVERSIGHT

damn less about the people or the country. Quite a few years ago, Rahm Emanuel made his famous statement, “You never want a serious crisis to go to waste. And what I mean by that is it's an opportunity to do things that you think you could not before.” He repeated that same statement just a few days ago. And the governor of California in the last few days has also made that same statement. And I think that Governor Ever’s holds to that same opinion. If the Democrats had really cared about what was happening to the people and businesses of this country, both physically and economically, they wouldn’t have held this bill up for an additional three days to get money for their pet projects.

This brings us back to Governor Ever’s and what he is trying to do in Wisconsin. He is so desperate to try to do whatever it takes to assure the outcome in Tuesday’s election. I believe that he is stressed out about not getting enough votes for his fellow Democrats in the upcoming election from his liberal base in the cities of Madison and Milwaukee. As a matter of fact, in my opinion, Governor Ever’s thinks that the entire state of Wisconsin consists **only** of the cities of Madison and Milwaukee. He doesn’t really care about the hardships that he puts on the citizens of the rest of the state, as long as he placates his liberal base in these two extremely liberal cities.

As you well know, there have been numerous lawsuits filed to either stop or postpone the election. Now, U.S. District Judge William Conley is getting involved. An extreme left-wing liberal, who in my opinion, has no morals or ethics when it comes to legislating from the bench. I thought that we had laws that specified how our elections are to be held and the

AMERICAN OVERSIGHT

procedures involved. He apparently wants to rewrite the law, using the coronavirus as an excuse, taking away the citizens right to go to their specified polling places to cast their vote. Not only is he in favor of the entire electorate of this state voting by absentee ballot, now he wants to have everyone vote by a mail-in ballot. He also ordered that clerks will not be allowed to count those votes until April 13. I thought that state law required that the vote totals be made available to the public immediately after the election. Who is going to have control of those ballots in the meantime? If that happens, I wouldn't be surprised to see that some ballots from conservative districts would mysteriously disappear and others from liberal districts would suddenly be found hiding in some obscure place. I don't put anything past what these liberals might stoop to to win an election.

I thought there were requirements that state that every ballot must be signed by a witness or two? And what about the photo ID law? How can there be verification if this person is who they say they are, a legal U.S. citizen, and a permanent resident of their voting district? How can one man unilaterally change our election laws? I thought that duties of the judge were only to interpret the law, not to rewrite it to fit their political ideology. I don't care if he is a U.S. District Judge or not, I don't believe he has that power. Where is that spelled out that a federal judge has the right to change our constitutional laws? Like I said earlier, I believe the Democrats and this liberal judge are setting up a foundation to permanently change how we vote in this state. If that were to happen, I'm sure that the liberals will come back at a later date and say, " See how well it worked by having mail-in ballots. Let's make this a permanent fixture in our future elections". And if you legislators object to that notion, they will

AMERICAN OVERSIGHT

appeal it to some liberal judge who will readily agree with them. I can see the writing on the wall.

I firmly believe that between tonight and next Tuesday's election, either Governor Ever's or this liberal U.S. District Judge will take steps to stop the election, or perhaps stop me from voting at my local polling place and force me to vote by mail. Our constitutional rights as citizens of Wisconsin and the United States of America have been trashed and abused in so many different ways in the last month, that at this point, I wonder if we will ever return to how it was just a few short months ago.

I want you as an elected representative of the people of the state of Wisconsin to take whatever steps are necessary, either legislatively or judicially, to stop this abuse of power, both from the Governor and from this or any other liberal judge. Keep April 7 as election day.

Sincerely,

Steve Schlund

Subject: All Mail Voting for the Upcoming Election

Good morning Representative Felzkowski,

I am reaching out to you today to express my extreme disgust and disappointment in the legislature's decision to not even consider all-mail voting during this worldwide pandemic. In this unprecedented time, I understand that decisions can be tough. However, even though decisions are tough, it's not an excuse to make foolish ones.

Coronavirus has had an unexpected and rapid effect on everyones' lives. Personally, my once and a lifetime study abroad experience has been stripped away from me, so I know firsthand.

I highly urge you to speak with Robin Vos and Scott Fitzgerald regarding this issue. As a mostly neutral political science student that has studied both American and European politics, I can tell you that this move of blocking all-mail voting will not fare well for your party. The risks involved are just simply and obviously too high for normal in-person voting. In the northwoods, this may be overlooked, but as you know, there are still confirmed cases here as well. I also speak for many of my fellow northwoods constituents who have all expressed extreme disappointment and we currently find ourselves as a whole shaking our heads.

Ever since the the time of Governor Evers' election, I have observed the Republican party attempt and succeed at several power grabbing, partisan, and unconstitutional moves and measures. It has been very disappointing to watch. Please put a stop to it. Doing what you can to support all-mail voting (for this election or however long this pandemic lasts) would be a positive change and a change in the right direction.

Putting politics aside, I believe you are a good person, so please do the right thing. If all-mail voting is not allowed, coronavirus cases will rapidly increase, voter turnout will be an all time low, or both of these will happen together (which is almost certainly likely). If these things are

AMERICAN OVERSIGHT

allowed to happen, you will hear from many more constituents and I promise they will not be as nice or civil as I have been.

Please think on this and make the right decision.

Thank you and have a good day,
Parker

Thank you for your email! I have not yet had a chance to review your Lincoln Hills idea, but just wanted to let you know I did receive your email, and also had written down the concerns on the white lines. I will review this over the next couple of days once I can get through my (very long) call list.

Thank you so much again for your ideas. That's where it all starts! Have a good evening,

Mary

Subject: RE: All mail-in Election

Hi Mary:

I was glad to have the opportunity to speak with you today, even though I was on a busy street and it was not the easiest to hear. As a reminder, I brought up also the issue of road lines that are difficult to see as they wear off and never seem to be repainted unless they are repaired or reconstructed in some way. I think it should be a fluorescent color that simply can't be missed. How cool would our roads look!

The other issue I wish I would have remembered at the time is the future of the Lincoln Hills facility. I know the plan was to transform it into a medium security prison , but have not heard anything lately. I have a very bold and resourceful idea for the facility. As an instructor for NTC in the Lincoln County and Marathon County Jails, I have met and worked with many inmates, incarcerated for many reasons. A large number of them are addicted to drugs or alcohol. They are begging for rehab programs, but only a very small fraction are ever accepted into such programs. I would propose turning Lincoln Hills into an Adult Rehab facility. I can't imagine it would cost any more to make this decision as opposed to a prison, maybe even less. Your staff would be different, however. Drug counselors, AA leaders, GED/HSED instructors, technical skills educators so that each person will be released alcohol/drug free, with a high school credential and solid work skills to get a job. This could be a collaboration between the DOC and the Wisconsin Technical School System. The goal would be to build up self-esteem and set inmates up to be work ready, with a process that matches them with jobs in their home area.

I think this would be a big step in the direction of rehabilitation rather than strictly punishment. Again, I am not sure where in the planning process the state is regarding this facility, but I would urge you to share this suggestion with your colleagues and give it serious consideration. I would also suggest creating a task force along with technical school leaders to investigate how you could partner together, as they do with the other prisons and county jails. There are many qualified technical school leaders who could share their knowledge and expertise with the state DOC. Specifically, I have worked with Amber Stancher, Dean of Basic Education & Learning Resources at Mid=State Technical College, who has

AMERICAN OVERSIGHT

extensive experience working with the WTCS, Wisconsin DPI, and DOC. She could be a valuable asset to the team.

Once again, thank you for listening to me today and reading my suggestion regarding the Lincoln Hills facility. I am very excited about the possibilities for our incarcerated population.

Rick,

I agree with you that it is really concerning. It is the job of local clerks to make sure these ballots go out. If they are sending them, I also find it astounding that they aren't being delivered. The Elections Commission announced yesterday that they are doing an investigation into the missing ballots and why so many of them were not delivered. I will be very interested to see what they find.

Thanks for your email. Lots of frustrating situations to work through right now,

Mary

Subject: AMAZING

ONCE AGAIN I STARTED MY DAY READING THE GREENBAY PAPER. AN ARTICLE IN THE PAPER REFLECTED ON SENATOR FEYEN BEING TOLD ABOUT ABSENTEE BALLOTS EITHER BEING NOT SENT OUT TO VOTERS OR NOT SENT TO THE TOWN CLERKS. IT IS AMAZING THAT THE TWO COUNTIES LISTED WERE WINNEBAGO AND OUTAGAMIE. SO YOU HAVE BINNS OF BALLOTS AND THEY THE BALLOTS JUST SIT IN A CORNER OR SOME PLACE ELSE? NO ONE EVEN NOTICED. COME ON LOOK I KNOW THEY HAVE MAIL SORTERS AND IF THOSE FOLKS ARE DOING THEIR JOBS HOW IN THE WORLD DOES THIS HAPPEN? OH YOU MEAN THEY JUST SAT THERE AND WHERE DID THEY JUST SIT THERE? WELL THEY SAT THERE IN THE POST OFFICE IN MILW. SOUNDS KIND OF STRANGE TO ME, SEEING THAT THESE BALLOTS ARE VERY EASY TO SPOT DO TO THERE BEING LARGE IN SIZE. SO WE GET A RESPONSE FROM THE POST OFFICE BOSS MEAGEN WOLFE AND SHE SAYS WE DON'T KNOW IF THEY WERE FILLED OUT OR ON THERE WAY TO CLERKS. WAIT A MINUTE IT DOESN'T MATTER. THEY WERE NOT WHERE THEY WERE SUPPOSED TO BE. THEY WERE NOT SUPPOSED TO BE SITTING IN BINNS AT THE POST OFFICE. LOOK AT WORK PEOPLE HAVE POSITIONS OF RESPONSIBILLTY AND WHO OR WHOM DID NOT DO THEIR JOB? THIS WHOLE MATTER JUST REEKS OF SOMETHING MORE THAN JUST A MISTAKE. SOMEONE DID THIS AS A WAY OF DOING THEIR SHARE TO NOT ALLOW THE FOLKS FROM THOSE AREAS HAVE THEIR VOTES COUNTED, AND WE KNOW WHY. THE WHY IS THAT THESE FOLKS VOTE ON THE CONSERVATIVE SIDE. IN MY MIND THIS WAS DONE ON PURPOSE. MS. WOLFE HAS SOME ANSWERING TO DO AND SO DOES THE SUPERVISOR FROM THAT SECTION. THE ELECTION COMMISSON HAS SOME WORK TO DO LET'S HOPE THIS DOES NOT JUST GET A BRUSHOFF. TO ME THIS IS A FEDERAL CRIME OR AT THE LEAST A STATE CRIME AND THE ATTN GENERAL SHOULD SEND AGENTS TO THE POST OFFICE AND CONDUCT A CRIMINAL INVESTIGATION. I AM SURE HE WILL NOT DO THAT AND OF COURSE WE KNOW WHY. SO NOW WHAT DO THE BALLOTS GET COUNTED THAT WERE FILLED OUT OR DO THE VOTERS WHO NEVER GOT THEIR BALLOTS GET A CHANCE TO VOTE? WHAT A MESS. WONDER IF TONY THINKS THIS IS A BIG DEAL AND WONDER IF HE WILL SAY SOMETHING ABOUT IT OR JUST KEEP HIS HEAD IN THE CLOUDS. TAKE CARE HOPE MY NOTE WAS NOT JUST VENTING BUT THIS DEAL SHUOLD NOT BE BRUSHED OFF. RICK

Hi Liz,
Don't worry—it's what we're here for essentially, getting people connected to these programs and services. We're not far behind at this point. Though some times they're not available when our UI staff call them. But we're within a day's worth of messages at this point.
We also continue to change the website to allow people to do more themselves, such as change names, update passwords, etc.
I'll have someone reach out.

Representative Fetzkowski

I wanted to let you know that my wife and I support the decision not to cave into Governor Evers theatrics, asking at the 11th hour to change the election. I understand there will be some risks, but we are still committed to being election officials for the town of Summit in Langlade County. We have made special provisions, and we believe we can hold a safe election.
Governor Evers should have called a session a few weeks ago if he really wanted to reach a compromise, but instead he wanted to set the stage to try to discredit the Republicans. He has decided to use the same tactics the Democrats have chosen to use at both the State and Federal levels, and I am sick of it. Thank you for approaching this issue with common sense.

Thayer and Judie,

I am sorry I haven't been able to get back to you from your first email. I have you on my call list from Tuesday and will be working my way through that so we can talk through it. I agree with you that 5 polling places in Milwaukee is unacceptable. This was a decision made by the Mayor of Milwaukee. Yes, there were poll workers all over the state that decided to stay home (as I recommended to anyone who felt uncomfortable going), but there was an influx of new people wanting to volunteer, in addition to over 2400 National Guardsmen and women that were deployed to help run the polling places on Monday and Tuesday. The City of Milwaukee chose to close all but 2% of their polling places, even though there would have been help there for them if they had wanted to keep more of them open. Even 10 would have been better than 5. The same situation occurred in Green Bay. The Mayor declined helped from the National Guard, and only kept two polling stations open. Meanwhile, Madison was able to keep 75% of their polling places open, and did not experience the lines or the wait times in the two other locations. I totally understand the frustration here, but these were entirely local decisions.

Thank you,

Mary

Mary,
So many of us are still in disbelief that you and your Republican colleagues allowed the election to go forward and put so many people and there families in harms way. This was so wrong on so many different levels, from the absentee ballot requests that couldn’t be filled to the lack of adequate polls in Milwaukee and Green Bay. 5 poles out of 180 that were open in Milwaukee is unacceptable!! Talk about a disenfranchised election, you got it....
along with a lot of national attention.

Good Morning Mary Felzkowski,

I have been hoping that members of the Wisconsin Assembly would use good sense and compassion in regards to requiring WI residents to vote in person on April 7…and to either postpone the primary election, or at least allow for an extension on mail-in balloting.

Unfortunately…and for what reason I do not understand ma'am…you and your fellow members continue to forge ahead thus endangering the health and lives of your constituents!?!

Where is the common sense and concern for WI citizens by you and your fellow legislators in pushing ahead for in-person voting on April 7, and for not adjusting the deadline for mail-in ballots!

Why would you so callously/carelessly put WI senior citizens and all others' health in jeopardy by not
allowing postponement of the mail-in ballot deadline?! Why are you requiring citizens to go to the
polls during this time when the virus cases and deaths are on the upswing??!!

I have been a lifelong Republican…but not anymore!! I am appalled by you and your colleagues'

AMERICAN OVERSIGHT

disregard for the safety of the constituents you are supposed to be looking out for and representing!

And...since a lack of sufficient poll-workers has closed so many polling stations…how can the in-person voting that does take place truly represent the will of the people in WI? I don't see how it can! And…at the same time…it will jeopardize further the life and health of the people of Wisconsin!!

You ma'am…and your fellow legislators have lost my respect, confidence, and vote--by not working
for the best good of your constituents…shame on you all!!

Most regrettably and disgustedly,

Steve Brown
Wisconsin resident and active voter since 1988

Subject: April 7th Election concerns

Good Morning Shawano County Legislators

I received an email from Jamie Kuhn, Director of Outreach for Governor Evers, on Friday afternoon. I am very concerned with the Governor's request to Legislature to make changes to elections laws this close to an election. I hope that I can convey my thoughts in a way that impresses upon you the need to stop moving forward with trying to send absentee ballots to every voter in Wisconsin. Mr. Kuhn stated in his email that the Governor has asked the Legislature to pass legislation for three items.

1. Allow absentee ballots postmarked the day of the election to be counted. I have no major issues with this, however, I think the legislation should state they would still need to arrive by the Friday after the election. It was done this way in the past and is doable.

2. Extend the time period to give clerks extra time to count the influx of absentee ballots. I have no major concerns with this one either as long as the extended timeline doesn't interfere with the County's ability to complete the Board of Canvass on time.

3. Allow voters the opportunity to vote from home by sending an absentee ballot to every registered voter. This raises a number of large concerns for my office and a number of the municipal clerks in the county that I have heard from. In Shawano County we have approximately 23,000 registered voters. We do not have ballots available for every voter. We

AMERICAN OVERSIGHT

do not have envelopes available to mail a ballot to every voter. We do not have the time it would take or the staff that it would take to mail a ballot to every voter.

I don't envy the Governor the position that he finds himself in right now with COVID-19 or with this election. I think that you would find that Clerks feel very strongly about making sure that every voter has the opportunity to vote, however, sending ballots to every voter is not the way to do it with just over a week before the election. In Shawano County we have 38 municipalities and only 7 of those are staffed by full-time clerks. The other 31 of those are part-time clerks, many of whom have other jobs. They are already overwhelmed, overworked and overbudget due to the high volume of absentee requests. To expect them to somehow miraculously get ballots out to every elector is shortsighted, it cannot happen.

I listened to an interview with the Governor this afternoon and a reporter asked him how Clerks were going to accomplish getting a ballot to every elector when there aren't supplies available to do that. The response from the Governor was that it wouldn't be easy. That is a very flippant response for such a large task that may be asked of our clerks. The interview then went to Ryan from the SEOC and Ryan said that the WEC and SEOC has procured over 600,000 ballots for clerks across the state. That isn't accurate. They ordered and supplied over 600,000 **absentee envelopes** to clerks and that was amazing (Shawano County received 1,000), however, that isn't even a fraction of what will be needed if we have to mail a ballot to every elector. Shawano County would has close to 23,000 registered voters. In order to mail a ballot to an elector, it costs $1.00 per voter for just the postage to send and receive the ballot. That's $23,000 that our municipalities will have to come up with to send the absentee ballots.

I strongly urge our Legislators to rethink making any law changes that would require an absentee ballot be sent to every voter.

Thank you for your consideration.

Pamela Schmidt
Shawano County Clerk

The interview then went to Ryan from the SEOC and Ryan said that the WEC and SEOC has procured over 600,000 ballots for clerks across the state. That isn't accurate. They ordered and supplied over 600,000 **absentee envelopes** to clerks and that was amazing (Shawano County received 1,000), however, that isn't even a fraction of what will be needed if we have to mail a ballot to every elector. Shawano County would has close to 23,000 registered voters. In order to mail a ballot to an elector, it costs $1.00 per voter for just the postage to send and receive the ballot. That's $23,000 that our municipalities will have to come up with to send the absentee ballots.

I strongly urge our Legislators to rethink making any law changes that would require an absentee ballot be sent to every voter.

Thank you for your consideration.

Pamela Schmidt
Shawano County Clerk

As a citizen of your district, I have no other words than to say SHAME ON YOU.

I cannot go to work, I cannot go to the doctor, I cannot take my sick animal to the vet.
(The list could go on, but I don't really think you care.)

Because of your actions, citizens of your district HAVE NO OTHER OPTION than to go and vote in person tomorrow. They have to choose between voting–their right– and potentially exposing themselves to a pandemic.

Shame on you.

I sincerely hope you and your staff are taking the place of all the poll workers who are ALSO TERRIFIED of becoming sick and spreading the illness, since it doesn't seem that you are taking the pandemic seriously.

You have lost the public's confidence. You certainly are working for your own interests.

You do not represent me, my friends, or my neighbors.

WEEKLY E-UPDATE

Tuesday, April 7th Spring Election

Good evening everyone,

I know there has been a lot of confusion today so I wanted to provide all of you with information so you are prepared for tomorrow.

The April 7th Spring Election will be happening tomorrow and polling places will be open.

AMERICAN OVERSIGHT

If you need information about where your polling place is located, please go to the following site, or let me know what your address is and I can send you the location. https://myvote.wi.gov/en-US/FindMyPollingPlace

Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive-thru voting, which will allow for voters to stay in your car and avoid person-to-person contact. If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

Mary Felzkowski

I requested to vote absentee as I hope many other people did as well. I believe in the right to vote and how important it is, but to put the lives of poll workers and officials at risk during what we are told is going to be one of the worst weeks for this country, to ask people to violate the stay at home order for something that could have had other options is horrible. There were ways to allow people to vote without holding this election tomorrow. I hope people remember this when it is time to re-elect some of the people responsible for this decision. This is not the national headline that Wisconsin needs to make. Terrible decision and I hope your email gets flooded with opinions from voters the way that Facebook and other media are getting flooded from people on both sides of the aisle that agree this was a terrible decision.

Subject: RE: April 7th Spring Election Update

Pat,
Thank you for your email. You are right that we were not in session as a full body on Saturday, and I will tell you why. Over the last three weeks, Governor Evers had said publicly over and over that he would not move the election, and legislative leaders tried to work with him and support his decision, as our leader. Fast forward to last Friday, the governor does a complete 180, and asks the Legislature to come into special session, with no notice, and with no time or ability to draft anything, agree to anything, or work anything through the legislative process. The Senate and the Assembly have never had to come into session virtually before, so both houses are frantically working to figure out how to do so safely, efficiently, and so that every member can be present or virtually present, to represent their constituents. That infrastructure was not in place for Saturday, which means we would have been calling everyone back to the Capitol, creating more chaos and risk. In addition to that, Governor Evers called for the special session on Friday, and then we didn't even receive a copy of what legislation he wanted us to pass until 2pm on Saturday, on the very day we were supposed to be passing it. I understand what it looks like, but it was just not possible on the timeline the Governor was asking for.

As to why I opposed his order on Monday, the answer is that, regardless of whether or not the election should be moved, and I totally understand why people were hoping for that, the Governor circumvented state law and the constitution with his order. I do not believe that any elected leader should be able to break the law, regardless of the circumstances. I don't believe that there is any good reason for one person to have the power to temporarily suspend our rights. The constitution is what our society is built on, even more important during a global pandemic, not less. Elections are our constitutionally protected way of holding our governments accountable. Allowing for those in that government to mess with that, even in a time of crisis, is so dangerous. I can understand if you disagree, but it's how I feel, and it wouldn't change based on who is serving in an given position.

I can tell you that when we do convene, which will be in the next few days, if we are allowed to be in Madison, that's where I'll be. I also reached out to my polling place to see if my husband and I could volunteer. Unfortunately, they and several other locations said they did not need the help. I am grateful for all the positive stories I've heard today about the polls in our area. People have told me that they were clean, professionally run, social distancing was in place, and they felt safe.

Thank you,

Mary

I see that none of you showed up. I assume it was to stay safe. Yet your Party pursued two types of legal actions to make sure that poll workers and voters are putting their health at risk. You and your Republican counter parts never tell the public what you are up too. I noticed your weekly update doesn't include an explanation of why you opposed the Governors actions to protect the Voters and Poll workers. While you all didn't convene for your own safety.
Again Party and money over the Health and welfare of the public. The Deaths of the citizens of Wisconsin is on your Hands. Be sure and Wash them!!!

AMERICAN OVERSIGHT

Hi Representative Felzkowski, I just heard on the news the first case of covid19, has now occurred in Langlade county, and that person voted!!!! I am so upset that the election was held during this time, I didn't get to vote due to trying to stay home like we were supposed to. I thought surely there would be enough common sense and concern for the citizens of Wisconsin that the primary date would be changed like other states, but No such reasoning took place to protect us! We made national news showing the ignorance, and that Vos in his isolation gear, that no one else was able to wear , really was impressive (NOT). It made him look totally stupid. I pray for Governor Evers, he tried, to no avail, to protect us!! When is the stupid going to end? Can't you try to get the Republicans to work with the democrats and get some decency back in force. Why has this president had such an impact making all the republicans agree with his uneducated, irrational, unsafe behaviors!! That primary on Tuesday was totally unfair and unsafe!! Please help Wisconsin citizens!! Thank you . Sincerely, Carol Woody

Subject: RE: April 7th Spring Election Update

Melinda,

I sincerely apologize that I have not been able to get back to you until now. As you can imagine, I am hearing from lots of people in the district and all the calls and emails made it difficult to get back to others in a timely fashion. I wanted to reach out and see how Tuesday went for you. I know you mentioned that you would likely be working the polls? How did that go for you? I so appreciate your willingness to help make the election run smoothly.

I am sick of all of this too. COVID has created a lot of really impossible situations. I can tell you that not moving the election was not an easy choice, and there were no good options. I am really grateful for all of the positive stories I heard yesterday about the polls in our area being clean, not crowded, run professionally, and with social distancing in place. I agree that 5 polling places in Milwaukee is unacceptable. This was a decision made by the Mayor of Milwaukee. Yes, there were poll workers all over the state that decided to stay home (as I recommended to anyone who felt uncomfortable going), but there was an influx of new people wanting to volunteer, in addition to over 2400 National Guardsmen and women that were deployed to help run the polling places on Monday and Tuesday. The City of Milwaukee chose to close all but 2% of their polling places, even though there would have been help there for them if they had wanted to keep more of them open. Even 10 would have been better than 5. The same situation occurred in Green Bay. The Mayor declined helped from the National Guard, and only kept two polling stations open. Meanwhile, Madison was able to keep 75% of their polling places open, and did not experience the lines or the wait times in the two other locations. The unfortunate reality is that there were some bad local decisions made that don't really make a lot of sense.

Thank you again for everything you are doing. I know these are tough times, but in the end everyone working together will help us make it through to the other side.

Mary

Subject: Re: April 7th Spring Election Update

Thank you for your note and I appreciate you clarifying the information on absentees since I have beens seeing alot of questions about that on social media. I am very concerned about the health and well being of our citizens of Wisconsin. I called my clerk today to find out when out ballots needed be in and found out she is a high risk individual who was planning to serve as a judge tmrw. Before I knew what I was doing I offered to take her place. This is not what I want to be doing tmrw when I'm in the midst of working on my PPP application for the nonprofit I work for and homeschooling my 2 kids. My husband has been suffering terrible anxiety since this all started and is terrified that I will be at the polls tomorrow. Also found out the judges in

AMERICAN OVERSIGHT

my district work from 6:30am- 9:00pm that only magnifies the exposure. Our clerk told me today that 4 out of our 5 judges are high risk. I offered to take the place of one. Still leaves three. Why should any of us have to be deciding who is more or less likely to be sick and whose lives are more important than others. All of this is in our own back yard meanwhile I read Milwaukee will have 5 polls open when they usually have over 100. How is this safe for the voters of Wis. I'm just sick about all of this. Why is this happening. Why can't our state be unified for the good of its citizens.
Thank you for hearing me out.

WEEKLY E-UPDATE

Tuesday, April 7th Spring Election

Good evening everyone,

I know there has been a lot of confusion today so I wanted to provide all of you with information so you are prepared for tomorrow.

The April 7th Spring Election will be happening tomorrow and polling places will be open.

If you need information about where your polling place is located, please go to the following site, or let me know what your address is and I can send you the location. https://myvote.wi.gov/en-US/FindMyPollingPlace Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive-thru voting, which will allow for voters to stay in your car and avoid person-to-person contact. If you feel

AMERICAN OVERSIGHT

most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

Mary Felzkowski

Jean,

I appreciate your response, and your willingness to continue to speak with me on this. I understand where you are coming from, but I disagree with the premise of your statement completely. We will just have to agree to disagree on the motives you laid out.

On the extension of absentee ballot return, it was and is still extended. Under current law, absentee ballots need to be received and counted by the local clerk by the end of Election night. Under the current situation, people were able to have their ballot counted as long as it was postmarked on election day. This extends when you can turn your ballot in by several days because, under normal circumstances, most people have to mail their ballots in the week before to make sure they arrive by election day. In addition to that, clerks have until April 13th to receive and count absentee ballots. The reason that a lot of people are concerned about ballots being turned in after what is laid out here is that it becomes an election integrity issue, which impacts both sides, not just Republicans. If election results begin to leak out before the final tally is announced, the election can be skewed by subsequent ballots tallied. Again, this impacts both sides.

Thank you,

Mary

Mary,

I appreciate you taking the time to personally respond to my concerns about voter suppression. I have no doubt that you did everything you claim to make sure voters got absentee ballots and that polling places
followed all the health recommendations for prevention of the spread of the virus.

My concern is that you belong to a party that is committed to suppressing the vote in Wisconsin and
around the country. There is no denying that over the past 10 years your party has added obstacles that
make voting more difficult in Wisconsin. That is a travesty and this most recent primary election is a further example
of those efforts. There is no denying that extending the date for a return of absentee ballots would have been the
safe choice for prevention of further spread of the virus. Instead, your party fought to stop that. There is no

AMERICAN OVERSIGHT

explanation other than desperation to keep the vote totals down.
I do not doubt your sincere interest in serving the public, but I wonder why you're a member of a party that
works to undermine voter participation.

Jean

With the multiple election changes on Monday, our office was understandably flooded with calls and emails, and I'm just now able to make it to others. I totally understand where you are coming from, and why you are angry. However, I totally disagree with you that any of this was about suppressing the vote. You are certainly entitled to your opinion, but making assumptions about the motives of others will only further the divide in our country, especially when you are wrong. I have spent the last three weeks doing everything I can to help all voters, regardless of politics, get the information they need to vote, whether it be in person yesterday or via absentee ballot. Thankfully, we now know that there was a record out turnout from absentee ballots and I am happy to see that all of the encouraging the Legislature and the Governor did over the last few weeks made such a huge impact. I also heard from a lot of different people yesterday that chose to vote in-person who commented that their polling places were clean, had substantial social distancing mechanisms in place, and were well run and staffed overall. Because of the amount of people who voted absentee, there were far fewer people at the polls, making it a lot easier for everyone to vote safely.

Bob,

Thank you for your email. Poll watchers are generally used to oversee the counting to ensure proper counting and that the law is being followed. I hadn't seen that on the news, but with absentee ballots, as you know because you filled it out, you have to sign the back and have a witness sign. Each clerk as a voting book. When a ballot is sent out, a note is made in the voting book that that person was sent a ballot. Then, when the ballot is returned, a note is made that that voter successfully voted absentee. This is what prevents people from being able to vote in person and via absentee ballot. If one person received two ballots, a clerk would see that in their voting book and on their ballot envelope, and only one would be counted.

I hope that helps! Thank you,

Mary

Hi Mary,

I did vote by absentee ballot and mailed it over a week ago. I am wondering what guarantee (100%) that absentee ballots all get counted accurately? News included yesterday that someone did receive two absentee ballots to use.

I feel it is time to design a new voting system with voter ID and electronic computation that is as reliable as financial systems. Voting without trustworthy Voter ID must never be allowed.

Please work to improve and solve issues with the voting system. Same old issues return at every election.

Thanks,

Subject: RE: April 7th Spring Election Update

Tom,

Thank you for your response. I've heard that question a lot, "why did you challenge the order?" The answer is that, regardless of whether or not the election should be moved, and I totally understand why people were hoping for that, the Governor circumvented state law and the constitution with his order. I do not believe that any elected leader should be able to break the law, regardless of the circumstances. What if he passed an unconstitutional order to temporarily confiscate guns, in the name of public safety during the crisis? What if, in the name of stemming the amount of misinformation during the crisis, he passed in an unconstitutional order stating that no one could post anything on their facebooks? I don't believe that there is any good reason for one person to have the power to temporarily suspend our rights. The constitution is what our society is built on, even more important during a global pandemic, not less. Elections are our constitutionally protected way of holding our governments accountable. Allowing for people in that government to mess with that, even in a time of crisis, is so dangerous. I can understand if you disagree, but it's how I feel, and it wouldn't change based on who is serving in an given position.

This is a really really difficult time. There are no easy answers. Not moving the election was not an easy choice to make. I am grateful that our state allows for absentee balloting, seemingly for situations just like these. I am grateful that so many people decided to vote from their homes, so that polling places yesterday were able to run smoothly, with nothing like the crowds we normally see on election days. I heard from many that their polling place was clean, run professionally, and that social distancing was in place. And I'm grateful that we had so many people helping to make that happen.

Thank you again for continuing to speak with me, I really appreciate your time.

Mary

Subject: RE: April 7th Spring Election Update

Dear Representative Felzkowski,

Thank you for your prompt response, frankly I have never had any State Representative and /or Congressional Representative, or Senator respond so quickly and with a thought out and reasonable response. Normally if they even bother to respond (Senator Johnson has never responded) it is some "canned" talking points. I also can appreciate your argument.

I will say a couple more things.

AMERICAN OVERSIGHT

I certainly understand that the Governor's order was unconstitutional, however it didn't need to be challenged. I know, I know it's a slippery slope once we allow that to happen. But I think we can agree that these are unprecedented times and maybe they call for unprecedented thinking, and unprecedented cooperation. Rhetorically speaking, what would have happened if the Governor had waited till this morning to move the election?

I also understand your point regarding the Saturday session and the clerks concerns. As to the "risk", what's more risky having a legislative session that could be done very quickly or exposing the entire State's voting population, and by extension their families, to the Covid-19 virus.

I will end with one final thought. This seems an opportunity for the legislature to make a bold move and as soon as you can be back in session a Bill could be introduced to allow the Governor, under dire circumstances only, **to move an election date**.

No one is hurt by this. I know that there are thousands of County and Municipal races on the April 7th ballot, and terms won in those elections need to start, but write the law such that in this extreme emergency the incumbent continues to perform the duties of the office until the election can be held. In this way there is no loss of services to the people of Wisconsin.

Again I thank you for your quick response and appreciate your willingness to listen to me rant. I'm hopeful that positive change can come from this dangerous time.

Subject: RE: April 7th Spring Election Update

Tom,

Thank you for your email. Today has been a really rough day. I've talked to people all over my district, some mad at the Supreme Court ruled Governor Evers' order unconstitutional, some mad at Governor Evers for putting the order in place in the first place, some just scared, or confused, or looking for reassurance. I think a commonality between everyone is fear. I think most people have never seen anything like COVID-19 in their lifetime and they are really terrified of the unknown. I can totally understand that. Some are afraid of losing their rights, losing their way of life, losing their freedoms. I

AMERICAN OVERSIGHT

can also totally understand that. Some just want to go back to life four weeks ago, and I am right there with them.

The truth is that there were no easy decisions here. We, both the Legislature and the Governor, have been operating with ever-changing information from all over the place. I've seen a lot of people say that we should have known weeks ago that this was necessary. I looked back to the data we had three weeks ago, and there were 32 positive cases at the time statewide. We didn't yet know what we were dealing with, and I know I was receiving a lot of negative feedback from my area on how things were being restricted unnecessarily and how the government and the universities were overreacting. And yet, at the same time, the Legislature and the Governor were somehow supposed to come together and move an election date, something I think many would see as a total nuclear option. Over the last three weeks, Governor Evers has said publicly over and over that he would not move the election, and legislative leaders tried to work with him and support his decision, as our leader. Fast forward to last Friday, the governor does a complete 180, and asks the Legislature to come into session, with no notice, and with no time or ability to draft anything, agree to anything, or work anything through the legislative process. The Senate and the Assembly have never had to come into session virtually before, so both houses are frantically working to figure out how to do so safely, efficiently, and so that every member can be present or virtually present, to represent their constituents. That infrastructure was not in place for Saturday, which means we would have been calling everyone back to the Capitol, creating more chaos and risk. I had clerks reach out to me immediately asking me not to support Governor Evers' plan because it was simply not possible.

I don't disagree with you that the information we have right now, today, supports moving the Election date. It has not been along the way, and I don't believe the medical advice has been consistent over the last several weeks. The CDC has changed their rulings on whether COVID lives on surfaces, changed what the symptoms are, changed whether or not people should be wearing masks. As the CDC learns more about the virus, so do we as people. It certainly makes moving forward easier, but it definitely doesn't give us the ability to go back and change decisions already made. None of these situations or decisions are or have been easy, and I have to say that the suggestion I don't care about my own family or my constituents' health and well-being is just wrong. At the end of the day, the Governor changed his mind and asked for something when it was too late to the Legislature give it. Regardless of whether or not someone believes the election should be moved (and I totally understand why people are hoping for that outcome), what Governor Evers issued today was unconstitutional. Republicans did not decide that, the Constitution and the Supreme Court did.

This situation has been scary for all involved, and we do the best we can with what we have and know at the time. I hope you can understand that, but if not, then I'm happy to talk to you about it further.

Thank you, have a good night.

Mary

The April 7th Spring Election will be happening tomorrow and polling places will be open.

If you need information about where your polling place is located, please go to the following site, or let me know what your address is and I can send you the location. https://myvote.wi.gov/en-US/FindMyPollingPlace Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive-thru voting, which will allow for voters to stay in your car and avoid person-to-person contact. If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

Mary Felzkowski

Subject: RE: April 7th Spring Election Update

Hey Julie,

This is currently a provision that Republican leaders included in their legislative package that they presented to Governor Evers today. From what I know, there is broad support for this and I would expect it to be in the final version of the legislation that should be voted on over the next couple days. Part of the issue is that experts needed to comb through the federal legislation passed so we would know what on the state level needs to be changed in state law to be able to access that funding.

I'm really sorry to hear about your son's father in law. I feel for him and send my prayers to your family. Please let me know if there is anything I can do,

Stay safe,

Mary

Jean,

I want to apologize greatly that I was not able to get back to your mail-in ballot email from a few days ago. With the multiple election changes on Monday, our office was understandably flooded with calls and emails, and I'm just now able to make it to others. I totally understand where you are coming from, and why you are angry. However, I totally disagree with you that any of this was about suppressing the vote. You are certainly entitled to your opinion, but making assumptions about the motives of others will only further the divide in our country, especially when you are wrong. I have spent the last three weeks doing everything I can to help all voters, regardless of politics, get the information they need to vote, whether it be in person yesterday or via absentee ballot. Thankfully, we now know that there was a record out turnout from absentee ballots and I am happy to see that all of the encouraging the Legislature and the Governor did over the last few weeks made such a huge impact. I also heard from a lot of different people yesterday that chose to vote in-person who commented that their polling places were clean, had substantial social distancing mechanisms in place, and were well run and staffed overall. Because of the amount of people who voted absentee, there were far fewer people at the polls, making it a lot easier for everyone to vote safely.

I will continue to do everything I can to make sure my constituents have the information and the help they need to make it through to the other side of this pandemic. I'm sure you will do the same for everyone in your circle.

I wish you the best,

Mary

Kris,

Robin was provided the equipment by his polling place, and it is my understanding that PPE was provided by polling places to most, if not all, poll workers yesterday. I imagine that the answer is yes, they were asked to reuse their equipment throughout the day. I had not seen anywhere that Robin opposed to using the National Guard, so I googled it and saw that he said he was not opposed. I know I certainly wasn't opposed and really appreciate all who worked at the polls yesterday.

Thank you again for your email. I do also sincerely hope that you and yours stay safe. Thank you,

Mary

Subject: RE: April 7th Spring Election Update

Mary,
Something we can agree upon. Although it is probably likely someone manning the polls would be more likely to contract the virus, this too applies to the people who were waiting in line. Many of the photos I saw had shown voters not wearing masks. While voters are standing outside for hours does not equate to safety in a pandemic situation. Since there are not enough test kits to test everyone, we have no idea who is a carrier and who is not. Robin was not exactly in the front line of the polls. He was just orchestrating movement of vehicles. I did not see any of the other volunteers wearing full body PPE? How was it that Robin had access to the PPE and the other people did not? Hardly a case that he would contract the virus. Given that PPE is in such high demand, how did Robin have access to this equipment when our front line responders do not? Or they are asked to reuse their PPE because of all the shortages? Perhaps the polls should have been open longer. Why was this not discussed with the election board as an option?

Milwaukee has the highest percentage of covid19 positive cases. I can see why the senior population who volunteers their time to assist with the election, chose not to volunteer for fear of contracting this virus and the decrease in polling stations. If I recall, Robin and company objected to the National Guard actually helping with the polling process. My understanding was the National guards role was for crowd control. The elderly population is at greater risk health wise if they were to contract this disease.

AMERICAN OVERSIGHT

It's sad that our state representatives do not put the lives of their constituents first. The Wisconsin Supreme court met virtually due to the coronavirus. Yet they felt it was safe to subject voters to unnecessary exposure. It just wrong and sad.

I wish you a Happy Easter, and sincerely hope you or any member of your family does not contract this virus.

Subject: RE: April 7th Spring Election Update

Kris,

Everyone at that polling place yesterday was required to wear that attire, Speaker Vos had no choice. If he had refused, he would not have been able to work at the polls. From the pictures I have seen and the stories I have heard, poll workers around the state were asked to wear PPE yesterday. Objectively, it is more likely that someone working at the polling for 15 hours will contract COVID than someone who is voting at the polls for a few minutes. I agree that the lines for voting were regrettable. Larger cities like Green Bay and Milwaukee should have kept more polling places open. Madison, for example, was able to keep 75% of their polling places open, so it doesn't really make sense that a large population hub like the City of Milwaukee, was only able to keep 2% of their polling places open, especially with over 2400 National Guardsmen and women deployed to help.

Mary,
You area correct, I am an expert. I work in healthcare and recognize the severity of this virus. Unfortunately, you and your fellow Republicans believe people's lives are expendable. Having Robin Vos parade around in full body PPE does not justify the premise that it is safe to vote. It only displays his level of ignorance about the virus. It was safe for him, but not the thousands of people standing in line to vote. Your party has failed to put safety first. Shame on you for supporting such tactics.

Subject: RE: April 7th Spring Election Update

Kris,

Here are some more facts for you. I can't tell you how many times I've been asked to work with Governor Evers. When he came out over and over and said, hey, I'm not moving the election, legislative leadership supported him publicly, and then continued to work with the Elections Commission and their local clerks to do everything possible to make this election safe and efficient. I'm going to include for you what Governor Evers was saying literally the day before he asked the Legislature to come into session:

Thursday, April 2, 2020

AMERICAN OVERSIGHT

"Our democracy is essential, it must go on. Keeping people safe is the governor's top priority but we want people to participate in this election. We want as many people as possible to vote from home," Evers spokeswoman Melissa Baldauff told POLITICO.

She dismissed the possibility of the governor attempting to halt the election like DeWine did. "It's not going to happen," Baldauff said. "He doesn't want to do it and he also doesn't have the authority to do it."

https://www.politico.com/news/2020/04/02/tony-evers-wisconsin-democrats-primary-election-161423

He gave legislative leaders no notice, no time. We had no options. One of the many unprecedented issues that have occurred during this pandemic is that the Senate and the Assembly have never had to come in virtually to vote, there has never been a need. Staff and legislators have been frantically working to put together that technological framework. It requires mailing technology to members so they can be virtually present at vote, it means putting in a lot of new administrative directives so people can still socially distance. I can tell you that I will be present in Madison that day, as will many of my colleagues. Without knowing he was going to change his mind, there was no way for the legislature to come in as a full body on Saturday. When he made his announcement on Friday, he did not even have legislation drafted for legislators to look at. We did not even see what he wanted us to pass until close to 2pm on Saturday, the very day we were supposed to have passed it.

In addition to that, the Wisconsin Elections Commission was told repeatedly by states that had done all mail-in-ballots, that we as a state should not try to do in 2 weeks what it has taken them years to setup in other states. I know it is easy to say that we were obstructionists, we didn't try to work with him, we sat on our hands. It's just not the case. We simply did not have the time or the ability to do what Governor Evers was asking. There were no easy decisions or good options here, but changing the election, and doing so in that manner, would have created 1000 new problems, without solving all of the old ones. You don't have to agree with that, you are absolutely entitled to your opinion, but I at least wanted you to have more information about what actually happened here.

If you entrenched on your own side, and prefer to continue blaming Republicans, that is your right.

Have a good day,

Mary

Subject: RE: April 7th Spring Election Update

Mary,

You can rationalize your decision however you want, however here are the facts:
The governor wanted to reschedule the elections to a later date, however you and your fellow partners did not show up to the special session to discuss postponement of the elections for a

later date that would be safer for everyone given the spread of this virus. Your disregard for the gravity of this virus is appalling.
Fact: The governor wanted mail in voting, your group objected
Fact: An appeals court judge allowed an extension to mailing of absentee voting, your group filed a challenge which ended with the decision to make sure all absentee votes had to be post marked by today.,

In essence the GOP wanted less of a voter turn out to ensure your group would maintain control in the courts. We all know the politics behind all of your legal challenges. You wanted to prevent Wisconsinites from voting any way you could. You should have done what was right for the safety of Wisconsinites. This is where you failed. You have shown the people of Wiscosin that their lives are of no consequence to you. If they die because of the virus, you do not care because they had to make a choice between voting and their health safety. Shame on you and all the GOP. Voter fraud is virtually nonexistent. And when it does occur it's a Republican engaging in such behavior.

Like a mentioned the onus is on you and all the GOP for the intentional spread of the coronavirus, and any deaths.

Bruce,

I appreciate your tone and your willingness to respond. Thank you for hearing me out. I don't disagree with some of what you said, and everyone has bias, that's for sure. I think what I've heard most often is that Republicans don't care if people die, and Republicans are evil, and Republicans are doing everything they can to suppress the vote, and Republicans are petty, political assholes. Because I know that none of these things are true, at least in reference to myself and the Republicans I know and work with, it becomes really draining to try to talk to people. I think your thoughts that there is blame on both sides when it comes to the distrust and nature of communication in general between both sides are much closer to the truth. It's hard for people who are experiencing fear and anger to see the whole picture, and I can understand why. I will continue to be available for anyone that wants to talk through it all, though. It's my job and I take that very seriously.

Thank you again,

Mary

From: Bruce English <benglish1754@charter.net>

Subject: Re: April 7th Spring Election Update

Mary,
Thank you very much for your timely response. Even though we disagree on some things I do appreciate your service.
I also appreciate your effort in explaining your perspective, and I don't automatically assume you are lying or are indifferent. However, I do believe there is a degree of bias. I say that fueled by recent history of bias beginning when Gov. Evers was elected. There is no way the Republican Party would have taken the powers away from former Gov. Walker had he won, that they took away from Evers. However, this is probably a discussion for another day.
Regarding Evers executive order, this virus situation is so fluid that things virtually change daily as more data and info is introduced. I agree with you that Evers shares some of the blame. He should have made the decision to postpone the election much earlier. However, regardless of who is to blame or how the decision was made, the right decision was to postpone the election. And I truly believe that deep down you and some of your colleagues do as well. It is just so frustrating to watch members of our two political parties who are constantly in "lock step " with their leaders even when deep down they know it is wrong.
I hope and pray that the virus isn't spread and someone dies because they exercised their constitutional right to vote. A high price to pay especially when it could have been avoided.
Again, thank you for reading and responding. Be safe.
Respectfully,
Bruce

If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

AMERICAN OVERSIGHT

Bruce,

I appreciate your tone and your willingness to respond. Thank you for hearing me out. I don't disagree with some of what you said, and everyone has bias, that's for sure. I think what I've heard most often is that Republicans don't care if people die, and Republicans are evil, and Republicans are doing everything they can to suppress the vote, and Republicans are petty, political assholes. Because I know that none of these things are true, at least in reference to myself and the Republicans I know and work with, it becomes really draining to try to talk to people. I think your thoughts that there is blame on both sides when it comes to the distrust and nature of communication in general between both sides are much closer to the truth. It's hard for people who are experiencing fear and anger to see the whole picture, and I can understand why. I will continue to be available for anyone that wants to talk through it all, though. It's my job and I take that very seriously.

Thank you again,

Mary

Mary,
Thank you very much for your timely response. Even though we disagree on some things I do appreciate your service.
I also appreciate your effort in explaining your perspective, and I don't automatically assume you are lying or are indifferent. However, I do believe there is a degree of bias. I say that fueled by recent history of bias beginning when Gov. Evers was elected. There is no way the Republican Party would have taken the powers away from former Gov. Walker had he won, that they took away from Evers. However, this is probably a discussion for another day.
Regarding Evers executive order, this virus situation is so fluid that things virtually change daily as more data and info is introduced. I agree with you that Evers shares some of the blame. He should have made the decision to postpone the election much earlier. However, regardless of who is to blame or how the decision was made, the right decision was to postpone the election. And I truly believe that deep down you and some of your colleagues do as well. It is just so frustrating to watch members of our two political parties who are constantly in "lock step " with their leaders even when deep down they know it is wrong.
I hope and pray that the virus isn't spread and someone dies because they exercised their constitutional right to vote. A high price to pay especially when it could have been avoided.
Again, thank you for reading and responding. Be safe.
Respectfully,
Bruce

Bruce,

First, thank you for taking the time to email and sharing your thoughts, openly and honestly. I totally understand where you are coming and why you feel way you do. I don't agree with you about what went down yesterday, at least not that it was partisan. I know you're going to read that and probably scoff at me, and that's fine. You're not the first one. You won't be the last today, or tomorrow. Or the next day. I'm going to try to explain my perspective, and I hope that you can suspend the temptation to automatically assume I'm lying, or that I'm indifferent, or that I'm hopelesslyy biased. I can tell you that this situation was been, without a doubt, one of the most impossible situations I've gone through as a legislator, and a lot of that is just due to the completely unprecedented time we are in.

First, regarding the election, and the GOP fighting against Evers' Executive Order. I can see how it's easy to believe leadership is being petty and just doing what they can to foil his plans. That's an easy narrative for a lot of people to believe. Unfortunately, it's just not the truth. I can't tell you how many times I've been asked to work with Governor Evers. When he came out over and over and said, hey, I'm not moving the election, legislative leadership supported him publicly, and then continued to work with the Elections Commission and their local clerks to do everything possible to make this election safe and efficient. I'm going to include for you what Governor Evers was saying literally the day before he asked the Legislature to come into session:

Thursday, April 2, 2020
"Our democracy is essential, it must go on. Keeping people safe is the governor's top priority but we want people to participate in this election. We want as many people as possible to vote from home," Evers spokeswoman Melissa Baldauff told POLITICO.

She dismissed the possibility of the governor attempting to halt the election like DeWine did. "It's not going to happen," Baldauff said. "He doesn't want to do it and he also doesn't have the authority to do it."

https://www.politico.com/news/2020/04/02/tony-evers-wisconsin-democrats-primary-election-161423

He gave legislative leaders no notice, no time. We had no options. One of the many unprecedented issues that have occurred during this pandemic is that the Senate and the Assembly have never had to come in virtually to vote, there has never been a need. Staff and legislators have been frantically working to put together that technological framework. It requires mailing technology to members so they can be virtually present at vote, it means putting in a lot of new administrative directives so people can still

AMERICAN OVERSIGHT

socially distance. I can tell you that I will be present in Madison that day, as will many of my colleagues. Without knowing he was going to change his mind, there was no way for the legislature to come in as a full body on Saturday. When he made his announcement on Friday, he did not have legislation drafted for legislators to look at. We did not even see what he wanted us to pass until close to 2pm on Saturday, the very day we were supposed to have passed it.

In addition to that, the Wisconsin Elections Commission was told repeatedly by states that had done all mail-in-ballots, that we as a state should not try to do in 2 weeks what it has taken them years to setup in other states. I know it is easy to say that we were obstructionists, we didn't try to work with him, we sat on our hands. It's just not the case. We simply did not have the time or the ability to do what Governor Evers was asking. There were no easy decisions or good options here, but changing the election, and doing so in that manner, would have created 1000 new problems, without solving all of the old ones. You don't have to agree with that, you are absolutely entitled to your opinion, but I at least wanted you to have more information about what actually happened here.

If you would like to talk about this more, please let me know.

Mary

Rep. Felzkowski,
The fact that we are even having this election today makes me ill. It is clear that the Republican Party in Wisconsin has become so partisan that they are willing to put Wisconsin citizens health at risk just to ensure that one of their own has a better chance of getting elected.
I could go on and on with how disappointed I am right now with the politics in Wisconsin, in particular the Republican Party. Is there no one in your party that has the courage to stand up for what is right?

Weekly E-Update

Tuesday, April 7th Spring Election

Good evening everyone,

I know there has been a lot of confusion today so I wanted to provide all of you with information so you are prepared for tomorrow.

The April 7th Spring Election will be happening tomorrow and polling places will be open.

If you need information about where your polling place is located, please go to the following site, or let me know what your address is and I can send you the location. https://myvote.wi.gov/en-US/FindMyPollingPlace Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive-thru voting, which will allow for voters to stay in your car and avoid person-to-person contact. If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. Kris,

Everyone at that polling place yesterday was required to wear that attire, Speaker Vos had no choice. If he had refused, he would not have been able to work at the polls. From the pictures I have seen and the stories I have heard, poll workers around the state were asked to wear PPE yesterday. Objectively, it is more likely that someone working at the polling for 15 hours will contract COVID than someone who is voting at the polls for a few minutes. I agree that the lines for voting were regrettable. Larger cities like Green Bay and Milwaukee should have kept more polling places open. Madison, for example, was able to keep 75% of their polling places open, so it doesn't really make sense that a large population hub like the City of Milwaukee, was only able to keep 2% of their polling places open, especially with over 2400 National Guardsmen and women deployed to help.

Mary,
You area correct, I am an expert. I work in healthcare and recognize the severity of this virus. Unfortunately, you and your fellow Republicans believe people's lives are expendable. Having Robin Vos parade around in full body PPE does not justify the premise that it is safe to vote. It only displays his level of ignorance about the virus. It was safe for him, but not the thousands of people standing in line to vote. Your party has failed to put safety first. Shame on you for supporting such tactics.

Mary,

You can rationalize your decision however you want, however here are the facts:
The governor wanted to reschedule the elections to a later date, however you and your fellow partners did not show up to the special session to discuss postponement of the elections for a later date that would be safer for everyone given the spread of this virus. Your disregard for the gravity of this virus is appalling.
Fact: The governor wanted mail in voting, your group objected
Fact: An appeals court judge allowed an extension to mailing of absentee voting, your group filed a challenge which ended with the decision to make sure all absentee votes had to be post marked by today.,

In essence the GOP wanted less of a voter turn out to ensure your group would maintain control in the courts. We all know the politics behind all of your legal challenges. You wanted to prevent Wisconsinites from voting any way you could. You should have done what was right for the safety of Wisconsinites. This is where you failed. You have shown the people of Wiscosin that their lives are of no consequence to you. If they die because of the virus, you do not care because they had to make a choice between voting and their health safety. Shame on you and

AMERICAN OVERSIGHT

all the GOP. Voter fraud is virtually nonexistent. And when it does occur it's a Republican engaging in such behavior.

Like a mentioned the onus is on you and all the GOP for the intentional spread of the coronavirus, and any deaths.

Henry,

Thank you for your email. I understand the frustration, and the fear, and the anger. I honestly do not have words to respond to you and to what your email contains. I truly saddens me that people honestly believe what you wrote, and I don't doubt that they do. I am sure that there is not one thing I could say or do that would convince you, or the people you have spoken to otherwise. All I can say is that your thoughts about my motives as a person, and as a Republican legislator are 1000% not true, and frankly it's absolutely appalling. I agree with you that people not receiving their ballots is very concerning. The legislature has absolutely nothing to do with that. I have no idea why so many people in the Milwaukee area have not received their ballots that they requested. It is up to the local clerks to provide those ballots. Again, the legislature has no impact on whether local clerks provide absentee ballots. For the past three weeks, my office and I have spent countless hours communicating with constituents with the sole goal of making sure that every eligible voter who wants to vote can do so, either via absentee, or in-person. There are no more words.

Mary

Subject: RE: April 7th Spring Election Update

Dear Rep. Felzkowski,
I have spent the past 3 days calling our voters in the city of Milwaukee asking if they received their mail-in ballot and if not, what would be the best plan to make sure they can vote. Within this time I spoke with a significant number of people who simply are not healthy enough to vote in-person. Contrary to Mr. Vos's non-medical opinion that we are all safe to vote the evidence conflicts with the reality when you look at the death rate among our black community in Milwaukee. You know how they say that perception is 90% of the truth in one's view. Every black person I spoke to said the same thing, this was a ploy to steal the election and that this is the republican strategy for November. One 77 year old woman told me "my race and even some of your people have paid with their blood to give us black folk the right to be represented." Here again, white people want to make sure we don't count. I cannot disagree with her. She asked me, "do you feel that oppression?" "That is what it feels like every time we try to lift our heads and do the right thing." Dear Representative the whole world cares less about your conservative court members that use technicalities and political spin to justify injustice. It is a blatant injustice to not allow over 9100 people their constitutional right to vote. Worse, it is a human injustice if it results in deaths. That is what our rallying call will be in November. These are real people with souls just like the people you represent in your district. We need real compromise and that could have started with the party in power. As a Christian and as a person who lives my faith I cannot see any justification in your parties actions.

The April 7th Spring Election will be happening tomorrow and polling places will be open.

If you need information about where your polling place is located, please go to the following site, or let me know what your address is and I can send you the location. https://myvote.wi.gov/en-US/FindMyPollingPlace Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive-thru voting, which will allow for voters to stay in your car and avoid person-to-person contact. If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

AMERICAN OVERSIGHT

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

Mary Felzkowski

Rep. Felzkowski, I have a grandson who was chosen to represent the State of Wisconsin in a High School band made up of High School Students from our state. The trip has been canceled because of the COVID-19 outbreak, which is bad enough, but when they wanted to get there down payment back each student was charged $1900.00. I think this is outrageous. There are students that had to raise the money themselves and now they want to keep $1900.00 from each of them. Please advise.

Thank you, Walt. I appreciate your opinion. The one thing I do want to say is that the City of Milwaukee chose on its own, as did all municipalities, how many polling places to have open. There were over 2400 national guardsmen deployed yesterday and today to help local clerks run the elections, so closing all but five was an unnecessary, and frankly reckless decision. I know that there were some poll workers staying home, and they have every right to do that, but Milwaukee would have had the help they needed if they had chosen to keep more locations open.

Thank you again for your email yesterday and your call today. My staff, Liz, did tell me about the call and let me know how you feel. I hope your daughter's day with successful.

Have a great evening,

Mary

I talked to the young lady in your office at length this morning, I am not good at names but thought it was Liz? She was very professional and you are lucky to have her. After our conversation, I know you are busy and we do not need to talk. That said I still hold you and your republican colleagues responsible for this fiasco you call an election. Five voting places in Milwaukee give me a break please, and people will get sick and some may die, their blood will be on your hands. This did not have to happen and you will not win in the world of public opinion. I do hope you, your family and your staff are spared what you may have unleashed on others.

Regards,
Walt

Subject: RE: April 7th Spring Election Update

Kris,

Here are some more facts for you. I can't tell you how many times I've been asked to work with Governor Evers. When he came out over and over and said, hey, I'm not moving the election, legislative leadership supported him publicly, and then continued to work with the Elections Commission and their local clerks to do everything possible to make this election safe and efficient. I'm going to include for you what Governor Evers was saying literally the day before he asked the Legislature to come into session:

Thursday, April 2, 2020

AMERICAN OVERSIGHT

"Our democracy is essential, it must go on. Keeping people safe is the governor's top priority but we want people to participate in this election. We want as many people as possible to vote from home," Evers spokeswoman Melissa Baldauff told POLITICO.

She dismissed the possibility of the governor attempting to halt the election like DeWine did. "It's not going to happen," Baldauff said. "He doesn't want to do it and he also doesn't have the authority to do it."

https://www.politico.com/news/2020/04/02/tony-evers-wisconsin-democrats-primary-election-161423

He gave legislative leaders no notice, no time. We had no options. One of the many unprecedented issues that have occurred during this pandemic is that the Senate and the Assembly have never had to come in virtually to vote, there has never been a need. Staff and legislators have been frantically working to put together that technological framework. It requires mailing technology to members so they can be virtually present at vote, it means putting in a lot of new administrative directives so people can still socially distance. I can tell you that I will be present in Madison that day, as will many of my colleagues. Without knowing he was going to change his mind, there was no way for the legislature to come in as a full body on Saturday. When he made his announcement on Friday, he did not even have legislation drafted for legislators to look at. We did not even see what he wanted us to pass until close to 2pm on Saturday, the very day we were supposed to have passed it.

In addition to that, the Wisconsin Elections Commission was told repeatedly by states that had done all mail-in-ballots, that we as a state should not try to do in 2 weeks what it has taken them years to setup in other states. I know it is easy to say that we were obstructionists, we didn't try to work with him, we sat on our hands. It's just not the case. We simply did not have the time or the ability to do what Governor Evers was asking. There were no easy decisions or good options here, but changing the election, and doing so in that manner, would have created 1000 new problems, without solving all of the old ones. You don't have to agree with that, you are absolutely entitled to your opinion, but I at least wanted you to have more information about what actually happened here.

If you entrenched on your own side, and prefer to continue blaming Republicans, that is your right.

Have a good day,

Mary

Subject: RE: April 7th Spring Election Update

Mary,

You can rationalize your decision however you want, however here are the facts:
The governor wanted to reschedule the elections to a later date, however you and your fellow partners did not show up to the special session to discuss postponement of the elections for a

later date that would be safer for everyone given the spread of this virus. Your disregard for the gravity of this virus is appalling.
Fact: The governor wanted mail in voting, your group objected
Fact: An appeals court judge allowed an extension to mailing of absentee voting, your group filed a challenge which ended with the decision to make sure all absentee votes had to be post marked by today.,

In essence the GOP wanted less of a voter turn out to ensure your group would maintain control in the courts. We all know the politics behind all of your legal challenges. You wanted to prevent Wisconsinites from voting any way you could. You should have done what was right for the safety of Wisconsinites. This is where you failed. You have shown the people of Wiscosin that their lives are of no consequence to you. If they die because of the virus, you do not care because they had to make a choice between voting and their health safety. Shame on you and all the GOP. Voter fraud is virtually nonexistent. And when it does occur it's a Republican engaging in such behavior.

Like a mentioned the onus is on you and all the GOP for the intentional spread of the coronavirus, and any deaths.

Bruce,

First, thank you for taking the time to email and sharing your thoughts, openly and honestly. I totally understand where you are coming and why you feel way you do. I don't agree with you about what went down yesterday, at least not that it was partisan. I know you're going to read that and probably scoff at me, and that's fine. You're not the first one. You won't be the last today, or tomorrow. Or the next day. I'm going to try to explain my perspective, and I hope that you can suspend the temptation to automatically assume I'm lying, or that I'm indifferent, or that I'm hopelesslyy biased. I can tell you that this situation was been, without a doubt, one of the most impossible situations I've gone through as a legislator, and a lot of that is just due to the completely unprecedented time we are in.

First, regarding the election, and the GOP fighting against Evers' Executive Order. I can see how it's easy to believe leadership is being petty and just doing what they can to foil his plans. That's an easy narrative for a lot of people to believe. Unfortunately, it's just not the truth. I can't tell you how many times I've been asked to work with Governor Evers. When he came out over and over and said, hey, I'm not moving the election, legislative leadership supported him publicly, and then continued to work with the Elections Commission and their local clerks to do everything possible to make this election safe and efficient. Rep. Felzkowski,
The fact that we are even having this election today makes me ill. It is clear that the Republican Party in Wisconsin has become so partisan that they are willing to put Wisconsin citizens health at risk just to ensure that one of their own has a better chance of getting elected.
I could go on and on with how disappointed I am right now with the politics in Wisconsin, in particular the Republican Party. Is there no one in your party that has the courage to stand up for what is right?

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

Mary Felzkowski

Subject: RE: April 7th Spring Election Update

Bruce,

First, thank you for taking the time to email and sharing your thoughts, openly and honestly. I totally understand where you are coming and why you feel way you do. I don't agree with you about what went down yesterday, at least not that it was partisan. I know you're going to read that and probably scoff at me, and that's fine. You're not the first one. You won't be the last today, or tomorrow. Or the next day. I'm going to try to explain my perspective, and I hope that you can suspend the temptation to automatically assume I'm lying, or that I'm indifferent, or that I'm hopelesslyy biased. I can tell you that this situation was been, without a doubt, one of the most impossible situations I've gone through as a legislator, and a lot of that is just due to the completely unprecedented time we are in.

First, regarding the election, and the GOP fighting against Evers' Executive Order. I can see how it's easy to believe leadership is being petty and just doing what they can to foil his plans. That's an easy narrative for a lot of people to believe. Unfortunately, it's just not the truth. I can't tell you how many times I've been asked to work with Governor Evers. When he came out over and over and said, hey, I'm not moving the election, legislative leadership supported him publicly, and then continued to work with the Elections Commission and their local clerks to do everything possible to make this election safe and efficient. I'm going to include for you what Governor Evers was saying literally the day before he asked the Legislature to come into session:

Thursday, April 2, 2020
"Our democracy is essential, it must go on. Keeping people safe is the governor's top priority but we want people to participate in this election. We want as many people as possible to vote from home," Evers spokeswoman Melissa Baldauff told POLITICO.

She dismissed the possibility of the governor attempting to halt the election like DeWine did. "It's not going to happen," Baldauff said. "He doesn't want to do it and he also doesn't have the authority to do it."

https://www.politico.com/news/2020/04/02/tony-evers-wisconsin-democrats-primary-election-161423

He gave legislative leaders no notice, no time. We had no options. One of the many unprecedented issues that have occurred during this pandemic is that the Senate and the Assembly have never had to come in virtually to vote, there has never been a need. Staff and legislators have been frantically working to put together that technological framework. It requires mailing technology to members so they can be virtually present at vote, it means putting in a lot of new administrative directives so people can still socially distance. I can tell you that I will be present in Madison that day, as will many of my colleagues. Without knowing he was going to change his mind, there was no way for the legislature to come in as a full body on Saturday. When he made his announcement on Friday, he did not have legislation drafted for legislators to look at. We did not even see what he wanted us to pass until close to 2pm on Saturday, the very day we were supposed to have passed it.

AMERICAN OVERSIGHT

In addition to that, the Wisconsin Elections Commission was told repeatedly by states that had done all mail-in-ballots, that we as a state should not try to do in 2 weeks what it has taken them years to setup in other states. I know it is easy to say that we were obstructionists, we didn't try to work with him, we sat on our hands. It's just not the case. We simply did not have the time or the ability to do what Governor Evers was asking. There were no easy decisions or good options here, but changing the election, and doing so in that manner, would have created 1000 new problems, without solving all of the old ones. You don't have to agree with that, you are absolutely entitled to your opinion, but I at least wanted you to have more information about what actually happened here.

If you would like to talk about this more, please let me know.

Mary

Rep. Felzkowski,
The fact that we are even having this election today makes me ill. It is clear that the Republican Party in Wisconsin has become so partisan that they are willing to put Wisconsin citizens health at risk just to ensure that one of their own has a better chance of getting elected.
I could go on and on with how disappointed I am right now with the politics in Wisconsin, in particular the Republican Party. Is there no one in your party that has the courage to stand up for what is right?

Mary,

You can rationalize your decision however you want, however here are the facts:
The governor wanted to reschedule the elections to a later date, however you and your fellow partners did not show up to the special session to discuss postponement of the elections for a later date that would be safer for everyone given the spread of this virus. Your disregard for the gravity of this virus is appalling.
Fact: The governor wanted mail in voting, your group objected
Fact: An appeals court judge allowed an extension to mailing of absentee voting, your group filed a challenge which ended with the decision to make sure all absentee votes had to be post marked by today.,

In essence the GOP wanted less of a voter turn out to ensure your group would maintain control in the courts. We all know the politics behind all of your legal challenges. You wanted to prevent Wisconsinites from voting any way you could. You should have done what was right for the safety of Wisconsinites. This is where you failed. You have shown the people of Wiscosin that their lives are of no consequence to you. If they die because of the virus, you do not care because they had to make a choice between voting and their health safety. Shame on you and all the GOP. Voter fraud is virtually nonexistent. And when it does occur it's a Republican engaging in such behavior.

Like a mentioned the onus is on you and all the GOP for the intentional spread of the coronavirus, and any deaths.

Hey John,

Thank you for the follow up. I decided against driving to locations and instead called to see if help was needed. Seemed to make more sense.

Regarding the election, and the GOP fighting against Evers' Executive Order. I can see how it's easy to believe leadership is being petty and just doing what they can to foil his plans. That's an easy narrative for a lot of people to believe. Unfortunately, it's just not the truth. I can't tell you how many times I've been asked to work with Governor Evers. When he came out over and over and said, hey, I'm not moving the election, legislative leadership supported him publicly, and then continued to work with the Elections Commission and their local clerks to do everything possible to make this election safe and efficient. I'm going to include for you what Governor Evers was saying literally the day before he asked the Legislature to come into session:

Thursday, April 2, 2020
"Our democracy is essential, it must go on. Keeping people safe is the governor's top priority but we want people to participate in this election. We want as many people as possible to vote from home," Evers spokeswoman Melissa Baldauff told POLITICO.

She dismissed the possibility of the governor attempting to halt the election like DeWine did. "It's not going to happen," Baldauff said. "He doesn't want to do it and he also doesn't have the authority to do it."

https://www.politico.com/news/2020/04/02/tony-evers-wisconsin-democrats-primary-election-161423

He gave legislative leaders no notice, no time. We had no options. One of the many unprecedented issues that have occurred during this pandemic is that the Senate and the Assembly have never had to come in virtually to vote, there has never been a need. Staff and legislators have been frantically working to put together that technological framework. It requires mailing technology to members so they can be virtually present at vote, it means putting in a lot of new administrative directives so people can still socially distance. I can tell you that I will be present in Madison that day, as will many of my colleagues. Without knowing he was going to change his mind, there was no way for the legislature to come in as a full body on Saturday. When he made his announcement on Friday, he did not have legislation drafted for legislators to look at. We did not even see what he wanted us to pass until close to 2pm on Saturday, the very day we were supposed to have passed it.

In addition to that, the Wisconsin Elections Commission was told repeatedly by states that had done all mail-in-ballots, that we as a state should not try to do in 2 weeks what it has taken them years to setup in other states. I know it is easy to say that we were obstructionists, we didn't try to work with him, we sat on our hands. It's just not the case. We simply did not have the time or the ability to do what Governor Evers was asking. There were no easy decisions or good options here, but changing the election, and doing so in that manner, would have created 1000 new problems, without solving all of the

AMERICAN OVERSIGHT

old ones. You don't have to agree with that, you are absolutely entitled to your opinion, but I at least wanted you to have more information about what actually happened here.

Regarding a long-running GOP plan, I honestly and truly have no idea what you are talking about. As to how I live with myself… I'm going to ignore the inflection meant by your question and answer honestly. I try to do the best I can with the information I have at the time, which is what I believe the huge majority of us are doing. Since the beginning of COVID, my number 1 goal has been to help my constituents navigate this and their government if they need help, connect people with the right places, and help everyone get to the other side. You can believe these are talking points if you want. I know that what I've responded to you is from the heart.

Stay safe,

Mary

Hi Mary,

Thanks for the offer to go over talking points but your time will be better spent trying to avoid getting sick yourself if you're actually out cruising around on forced voting day.

Though there are complications towards trying to push our state (underfunded and under-prepared) and our nation (the same only on a grander scale), there is no valid reason to have people violating the "shelter-in-place" during our unfolding pandemic crisis. Do you and your conservative folk get together in-person to vote on these measures? We know that you didn't - you met remotely which is ironically hypocritical as you kick thousands and thousands of vulnerable people out of their (relatively) safe homes to try to find one of the few remaining polling places that may actually be open today.

At the very least, to have been sensible and push the primary back a few months as other smart and compassionate state legislatures have done, would have given us all a chance to figure out at least some of the answers to the challenges that are surely facing the systems and processes to change the traditional method of voting. But it's far more important for the Republicans (as a whole) to get cases in front of the poisoned Supreme Court(s) so there can be precedent set for a far-wider continued suppression of valid voting all across the country as we move to perhaps the most important Presidential election in our lives.

This latest assault on valid voters rights fits perfectly in the long-running GOP plan to make sure anyone that longs for a change from the corruption and corporate-loving Republican way of life has a far tougher time exercising their voting right. This is just part of the big plan, Mary. You know it. I know it. Let's not play games, ok? If the "poors" and "others" get to vote easily it could spell the end for the GOP - "They had things — levels of voting that, if you ever agreed to it,

AMERICAN OVERSIGHT

you'd never have a Republican elected in this country again."- Trump (them's the words of your Supreme Leader, as you know, referring directly to the idea of vote-by-mail across the states)

Imagine if we'd have clear, solid, selfless leadership from the top down since the beginning of the year instead of Trump and the entire Republican party (at all levels) gaslighting the country and downplaying not only the massive risks to our citizens' health but clearly hobbling any sort of focused and effective push towards getting things in place to help the entire country navigate a sane and reasonable path through all of this madness - including how to provide for safe and free elections as promised in that most holy of documents that all GOPers love to wrap themselves in to justify their nonsense, the Constitution.

Instead, it's crap like this that makes me hang my head to live in the once-progressive Wisconsin. Congratulations could perhaps be in order as you and our conservative faction of legislators have used your various means to extract a favorable result for this step of a woefully zero-sum war against the democracy that you all pretend to love and embrace.

The problem with any congrats on a day like today though is that it literally will come of the back of deaths to at least some of our - my, yours - fellow Wisconsinites. Right now, as they are forced out of their homes to travel to who-knows-where to do the civic duty that they are entitled to, someone could be infecting someone. Democrat, Republican, grandma, son, husband, wife, young, old - someone is going to end up dying because of today's shenanigans. Seriously think about that today as you go glad-handing around - the policies and specific efforts that you and your fellow GOPers have forced on voters (and all the people required to staff the few open voting locations!) are literally killing people.

You're probably not a bad person - I've spoken with people that know you - but how you can live with yourself with the weight of actions like this on your record speaks to some disconnect between the type of person you could be versus the type of person you actually are. If there is a god you pray to (and I'm sure it's the white sky daddy that so many "conservatives" espouse belief in), may he/she have mercy on your craven actions in a time of such calamity and misery for us all.

Stay safe out there, Mary - heaven forfend that you would pick up the bug and infect someone!

Maybe - just maybe - then, Republicans shouldn't be fighting in Supreme Court to prevent every voter from being able to vote by mail - *especially* in a time like this pandemic, it's beyond the smart thing to do. It's the *right* thing to do. So, why isn't happening? Continued voter suppression and further disenfranchised segments of the population that likely would vote for real substantial compassionate government which, as we are well aware, doesn't exactly jibe with the all-powerful GOP vision of an all-white, all-elite super-society.

Too bad people will end up dying because of yet another sick ploy by so-called Christian "leaders" in our governments.

Ug.

35th Assembly District

WEEKLY E-UPDATE

Tuesday, April 7th Spring Election

Good evening everyone,

I know there has been a lot of confusion today so I wanted to provide all of you with information so you are prepared for tomorrow.

The April 7th Spring Election will be happening tomorrow and polling places will be open.

If you need information about where your polling place is located, please go to the following site, or let me know what your address is and I can send you the location. https://myvote.wi.gov/en-US/FindMyPollingPlace

Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive-thru voting, which will allow for voters to stay in your car and avoid person-to-person contact. If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

AMERICAN OVERSIGHT

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

Mary Felzkowski

Subject: RE: April 7th Spring Election Update

Hey John,

Thank you for the follow up. I decided against driving to locations and instead called to see if help was needed. Seemed to make more sense.

Regarding the election, and the GOP fighting against Evers' Executive Order. I can see how it's easy to believe leadership is being petty and just doing what they can to foil his plans. That's an easy narrative for a lot of people to believe. Unfortunately, it's just not the truth. I can't tell you how many times I've been asked to work with Governor Evers. When he came out over and over and said, hey, I'm not moving the election, legislative leadership supported him publicly, and then continued to work with the Elections Commission and their local clerks to do everything possible to make this election safe and efficient. I'm going to include for you what Governor Evers was saying literally the day before he asked the Legislature to come into session:

Thursday, April 2, 2020
"Our democracy is essential, it must go on. Keeping people safe is the governor's top priority but we want people to participate in this election. We want as many people as possible to vote from home," Evers spokeswoman Melissa Baldauff told POLITICO.

She dismissed the possibility of the governor attempting to halt the election like DeWine did. "It's not going to happen," Baldauff said. "He doesn't want to do it and he also doesn't have the authority to do it."

https://www.politico.com/news/2020/04/02/tony-evers-wisconsin-democrats-primary-election-161423

He gave legislative leaders no notice, no time. We had no options. One of the many unprecedented issues that have occurred during this pandemic is that the Senate and the Assembly have never had to come in virtually to vote, there has never been a need. Staff and legislators have been frantically working to put together that technological framework. It requires mailing technology to members so they can be virtually present at vote, it means putting in a lot of new administrative directives so people can still socially distance. I can tell you that I will be present in Madison that day, as will many of my colleagues. Without knowing he was going to change his mind, there was no way for the legislature to come in as a full body on Saturday. When he made his announcement on Friday, he did not have legislation drafted for legislators to look at. We did not even see what he wanted us to pass until close to 2pm on Saturday, the very day we were supposed to have passed it.

In addition to that, the Wisconsin Elections Commission was told repeatedly by states that had done all mail-in-ballots, that we as a state should not try to do in 2 weeks what it has taken them years to setup in other states. I know it is easy to say that we were obstructionists, we didn't try to work with him, we sat on our hands. It's just not the case. We simply did not have the time or the ability to do what Governor Evers was asking. There were no easy decisions or good options here, but changing the election, and doing so in that manner, would have created 1000 new problems, without solving all of the

AMERICAN OVERSIGHT

old ones. You don't have to agree with that, you are absolutely entitled to your opinion, but I at least wanted you to have more information about what actually happened here.

Regarding a long-running GOP plan, I honestly and truly have no idea what you are talking about. As to how I live with myself… I'm going to ignore the inflection meant by your question and answer honestly. I try to do the best I can with the information I have at the time, which is what I believe the huge majority of us are doing. Since the beginning of COVID, my number 1 goal has been to help my constituents navigate this and their government if they need help, connect people with the right places, and help everyone get to the other side. You can believe these are talking points if you want. I know that what I've responded to you is from the heart.

Stay safe,

Mary

Rep. Felzkowski, I have a grandson who was chosen to represent the State of Wisconsin in a High School band made up of High School Students from our state. The trip has been canceled because of the COVID-19 outbreak, which is bad enough, but when they wanted to get there down payment back each student was charged $1900.00. I think this is outrageous. There are students that had to raise the money themselves and now they want to keep $1900.00 from each of them. Please advise.

Thank You

Jaron,

I totally understand where you are coming from, and I hope you can believe me when I say that I feel the same frustration. There should be more cohesion, especially during a difficult time like this. This election is not ideal. Nothing with COVID has been. I would like to explain why the election was not moved, but it's hard to give you that feedback without just looking like I'm defending myself and others. If you are interested, I can talk you through it. I'm not interested in a blame game here, but I'll just say this. We have continued to try to work with Governor Evers. I know what the media says, and what the story looks like. I'm fully aware of all that. At the end of the day, it's been really hard to get straight answers and to get information before things happen so that we can prepare and work together. But we are where we are now, and my goal is to do everything I can to protect my constituents within the power I have as just me.

Thanks for letting me reach out. I really appreciate your time,

Mary

Mary,
I appreciate your response. It's nice to hear that your staffer thought I was kind. I try to be. She was understanding, patient, and sincere. The tone of the email that I fired off this morning was less kind than I would have liked. Forgive me, I was full of anger. It's just so disheartening to see all levels of government unable to cooperate during an emergency of this magnitude. This is likely the price for decades of political polarization and unending campaigns. I don't need to discuss anything on the phone. I just needed to let those with the power to act know how frustrated I am.
Thanks for your time,
Jaron

Greetings Rep. Felzkowski,

My wife is working the polls today in the rain in the Town of King so that the 70 year old clerk with lung disease won't be exposed to covid-19.

The State of Wisconsin has failed to protect the health and safety of it's citizens. I can't imagine what was more important than that, but I'm sure you'll all find someone other than yourselves to blame for this breathtaking inability to lead.

Sheltering-in-place in King (until our possible infected wife/mother returns),

Jaron Childs

The April 7th Spring Election will be happening tomorrow and polling places will be open.

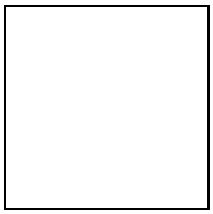
If you need information about where your polling place is located, please go to the following site, or let me know what your address is and I can send you the location. https://myvote.wi.gov/en-US/FindMyPollingPlace Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive-thru voting, which will allow for voters to stay in your car and avoid person-to-person contact. If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,



Mary Felzkowski

Hey Kris,

I can understand your anger. Please let me know if you want to talk about it today. There's a lot more going on than what it seems. At this point, what we have is not ideal, as nothing during COVID has been. My goal is to help my constituents with everything they need to make it through this.

Thanks for emailing,

Mary

Please unsubscribe me from your distribution list. Rather than use the unsubscribe link, I wanted to write to you and explain my rationale.

Today's vote represents an epic failure for the Republican party in Wisconsin. The decision to hold this election at this time now solely rests with the Republican legislature. Making matters worse is the absence of any reasonable rationale.

I have never in my life considered voting Democratic but the reckless disregard for public safety makes me reconsider.

Saddened and disenfranchised,

Stephen W Balow

Greetings Rep. Felzkowski,

My wife is working the polls today in the rain in the Town of King so that the 70 year old clerk with lung disease won't be exposed to covid-19.
The State of Wisconsin has failed to protect the health and safety of it's citizens. I can't imagine what was more important than that, but I'm sure you'll all find someone other than yourselves to blame for this breathtaking inability to lead.

Sheltering-in-place in King (until our possible infected wife/mother returns),
Jaron Childs

AMERICAN OVERSIGHT

Sent: Tuesday, April 7, 2020, 9:21 AM
To: 'Bob Mott' <bobmott329@hotmail.com>
Subject: RE: April 7th Spring Election Update

Bob,

Thank you for your reply. I can understand your line of thinking, but I can tell you with 100% certainty that Governor Evers' order was challenged because what he did was unconstitutional. I know in the face of potential exposure to a disease, that seems that it doesn't matter, but our rights, as protected by state law, and by the constitution, are always important, if not moreso during a pandemic like this. I don't like the political nature of everything that happens as much as everyone else, and I think it's easy to look at this and look for ill intent, but at the end of the day, one person should not, and actually does not, have the ability to override the law. Whether I think the election should move is irrelevant in the face of that fact. Allowing the order to stand knowing it was 100% illegal is so dangerous when looking at the precedence it sets. It's neither callous nor uncaring to want to protect Wisconsin residents by upholding the law. When I was elected, I swore to uphold the law and the constitution, and that's what this is.

I appreciate you reading through my emails and being kind. We can all get through this together if we can be kind to one another. If you want to discuss this further, please let me know.

Mary

To: Rep.Felzkowski <Rep.Felzkowski@legis.wisconsin.gov>
Subject: Re: April 7th Spring Election Update

Mary,
Thank you for your detailed reply.
When I look at decisions made at any level of government, I ask what's the reason behind the decision. Sometimes it's follow the money. Sometimes it's philosophical such as personal property rights or no new taxes. Sometimes there is no discernible reason.
It seems to me that the decision by the Republican Party to challenge in court the Governor's decision to delay the election must have been because the party perceived a political advantage. The Republican Party must feel that by having the election today that their chances of advancing their candidate improves.
It may well be that the Democrats push to move the election was perceived by that party as an advantage to the Democrats.
Lost in all of this is what is best for the people.
I'm not a doctor or scientist but the CDC, Dr. Fucci, and Doctor Birx are saying don't go out this week. Don't go to the grocery store; don't go to the gas station; stay home since this is the apex; this is Pearl Harbor week. So what does Wisconsin do- challenge that belief by telling people that it is OK to go to the polls. For what reason - political.

AMERICAN OVERSIGHT

We know that many poll workers are older. We know that older people are more susceptible to the virus. We know that virus is spread person to person. We know the virus remains active on surfaces like tables, door knobs, even cardboard for hours or days. We know that some people die of the virus. Yet politics trumps all.
By keeping the polls open, you are telling voters of Wisconsin that it is safe. People who believe and trust in you as a leader are putting themselves at risk needlessly.
People who volunteer as poll workers are putting themselves at risk needlessly.
I read an article the other day asking Where Is the President's Soul?
Sadly, I ask where is the soul of those who are putting people at risk today needlessly.
Again, I pray that no one dies because they were exposed on this election day when it could have been avoided.
Be careful as you go place to place today as you could carry it; you could pick up and transmit the virus. I hope that you have considered the risk versus the reward and that you have considered if you're going from place to place as part of your campaign for the Senate. That would definitely be needless= one day's campaigning.
Be safe.
Bob

Subject: RE: April 7th Spring Election Update

Bob,

Thank you for your email. Today has been a really rough day. I've talked to people all over my district, some mad that the Supreme Court ruled Governor Evers' order unconstitutional, some mad that Governor Evers put the order in place in the first place, some just scared, or confused, or looking for reassurance. I think a commonality between everyone is fear. I think most people have never seen anything like COVID-19 in their lifetime and they are really terrified of the unknown. I can totally understand that. Some are afraid of losing their rights, losing their way of life, losing their freedoms. I can also totally understand that. Some just want to go back to life four weeks ago, and I am right there with them.

The truth is that there were no easy decisions here. We, both the Legislature and the Governor, have been operating with ever-changing information from all over the place. I've seen a lot of people say that we should have known weeks ago that this was necessary. I looked back to the data we had three weeks ago, and there were 32 positive cases at the time statewide. We didn't yet know what we were dealing with, and I know I was receiving a lot of negative feedback from my area on how things were being restricted unnecessarily and how the government and the universities were overreacting. And yet, at the same time, the Legislature and the Governor were somehow supposed to come together and move an election date, something I think many would see as a total nuclear option. Over the last three weeks,

AMERICAN OVERSIGHT

Governor Evers has said publicly over and over that he would not move the election, and legislative leaders tried to work with him and support his decision, as our leader. Fast forward to last Friday, the governor does a complete 180, and asks the Legislature to come into session, with no notice, and with no time or ability to draft anything, agree to anything, or work anything through the legislative process. The Senate and the Assembly have never had to come into session virtually before, so both houses are frantically working to figure out how to do so safely, efficiently, and so that every member can be present or virtually present, to represent their constituents. That infrastructure was not in place for Saturday, which means we would have been calling everyone back to the Capitol, creating more chaos and risk. I had clerks reach out to me immediately asking me not to support Governor Evers' plan because it was simply not possible.

I don't disagree with you that the information we have right now, today, supports moving the Election date. It has not been along the way, and I don't believe the medical advice has been consistent over the last several weeks. The CDC has changed their rulings on whether COVID lives on surfaces, changed what the symptoms are, changed whether or not people should be wearing masks. As the CDC learns more about the virus, so do we as people. It certainly makes moving forward easier, but it definitely doesn't give us the ability to go back and change decisions already made. None of these situations or decisions are or have been easy, and I have to say that the suggestion I don't care about my own family or my constituents' health and well-being is just wrong. At the end of the day, the Governor changed his mind and asked for something when it was too late for the Legislature give it. Regardless of whether or not someone believes the election should be moved (and I totally understand why people are hoping for that outcome), what Governor Evers issued today was unconstitutional, meaning that his emergency powers do not give him the power to supersede state law completely on his own. He also does not have the ability to extend terms for those currently on the ballot. Republicans did not decide these things, the Constitution and the Supreme Court did.

Regarding your question about April 13th, that was something the US Supreme Court ruled on today. So yes, ballots will have to be postmarked by the 7th, but clerks can receive them and count them by the 13th, making it a lot easier for them to handle the increased workload properly.

This situation has been scary for all involved, and we do the best we can with what we have and know at the time. I hope you can understand that, but if not, then I'm happy to talk to you about it further.

Thank you, have a good night.

Mary

Mary,
I wouldn't want it on my conscience if 1 poll worker or one voter died because of this in person election.
I believe both parties could have seen that in person voting in the midst of a stay at home order is irresponsible.

AMERICAN OVERSIGHT

What is the justification for going ahead during what has been described by the federal doctors as the worst week and the week for everyone to shelter in place? I just don't get it.
I think the other part is what is the problem with absentee ballots being allowed through the 13th in this extraordinary time?
Thank you for going to the polling places but do so carefully.

Subject: RE: April 7th Spring Election Update

Scott,

I'm sorry that you feel that way. You are right that Republicans control the legislature. At the end of the day, the legislature cannot pass legislation without the governor signing it, and he was giving every indication for weeks that he would not move the election. He said this on multiple occasions publicly. I think it's easy to say now that we should have done one thing or another, but hindsight is always 20/20. I disagree that people have only been given one option here. Everyone eligible has had the option to vote absentee for weeks now. If what you say is true, and the legislature should have seen the writing on the wall, I have a hard time understanding why the voters shouldn't also have seen it too and requested their ballot ahead of time. We've been asking everyone to vote absentee for at least two weeks now. If a person is scared for their health, that was the option available to them. They have not been asked to choose between their vote and their health in any way.

Thank you,

Mary

AMERICAN OVERSIGHT

Thank you for your email and taking the time to email me twice today. I hadn't had a chance yet to respond to your first email, and I'm sorry for that. I was hoping you could tell me a little bit about why you believe this is self serving. I've seen that a lot today, and I honestly have no idea what that could possibly mean. The truth is that there were no easy decisions here. We, both the Legislature and the Governor, have been operating with ever-changing information from all over the place. I've seen a lot of people say that we should have known weeks ago that this was necessary. I looked back to the data we had three weeks ago, and there were 32 positive cases at the time statewide. We didn't yet know what we were dealing with, and I know I was receiving a lot of negative feedback from my area on how things were being restricted unnecessarily and how the government and the universities were overreacting. And yet, at the same time, the Legislature and the Governor were somehow supposed to come together and move an election date, something I think many would see as a total nuclear option. Over the last three weeks, Governor Evers has said publicly over and over that he would not move the election, and legislative leaders tried to work with him and support his decision, as our leader. Fast forward to last Friday, the governor does a complete 180, and asks the Legislature to come into session, with no notice, and with no time or ability to draft anything, agree to anything, or work anything through the legislative process. The Senate and the Assembly have never had to come into session virtually before, so both houses are frantically working to figure out how to do so safely, efficiently, and so that every member can be present or virtually present, to represent their constituents. That infrastructure was not in place for Saturday, which means we would have been calling everyone back to the Capitol, creating more chaos and risk. I had clerks reach out to me immediately asking me not to support Governor Evers' plan because it was simply not possible.

I don't disagree with you that the information we have right now, today, supports moving the Election date. It has not been along the way, and I don't believe the medical advice has been consistent over the last several weeks. The CDC has changed their rulings on whether COVID lives on surfaces, changed what the symptoms are, changed whether or not people should be wearing masks. As the CDC learns more about the virus, so do we as people. It certainly makes moving forward easier, but it definitely doesn't give us the ability to go back and change decisions already made. None of these situations or decisions are or have been easy, and I have to say that the suggestion I don't care about my own family or my constituents' health and well-being is just wrong. At the end of the day, the Governor changed his mind and asked for something when it was too late to the Legislature give it. Regardless of whether or not someone believes the election should be moved (and I totally understand why people are hoping for that outcome), what Governor Evers issued today was unconstitutional. Republicans did not decide that, the Constitution and the Supreme Court did.

Indifference is one emotion I definitely haven't experienced over the entirety of this pandemic, and I don't expect to. It's scary for all involved, and we do the best we can with what we have and know at the time. I hope you can understand that, but if not, then I'm happy to talk to you about it further.

Thank you, have a good night.

35th Assembly District

WEEKLY E-UPDATE

Tuesday, April 7th Spring Election

Good evening everyone,

AMERICAN OVERSIGHT

I know there has been a lot of confusion today so I wanted to provide all of you with information so you are prepared for tomorrow.

The April 7th Spring Election will be happening tomorrow and polling places will be open.

If you need information about where your polling place is located, please go to the following site, or let me know what your address is and I can send you the location. https://myvote.wi.gov/en-US/FindMyPollingPlace Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive-thru voting, which will allow for voters to stay in your car and avoid person-to-person contact. If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

Mary Felzkowski

Shannon,

I'm really sorry to hear this. Hopefully you will receive them in the nick of time tomorrow and can get them to the post office. I would recommend bringing them directly to a post office box before the pick up time to make sure they are postmarked properly.

Hang in there,

Mary

Thank you for the response. My mom actually called the clerk Friday and was assured that the ballots were in the mail. I'm afraid they are far from the only ones to be affected like this.

Thank you for your update. I am so sorry that your party has been so repugnant in dealing with the issue in REALITY. Why can't you work with the governor? it is sad. WORK TOGETHER!!! Your party leaders do everything possible to work against. WAKE UP. So the governor is a different party. WORK TOGETHER. Why is that so difficult? You lost the election. It is time that if you care about the people in your district and the state that you tell your party leaders to respect EVERYONE in the state. They only ADHERE to those that fill their money boxes. So sorry. What a loss in our state that once worked for everyone.

Maybe - just maybe - then, Republicans shouldn't be fighting in Supreme Court to prevent every voter from being able to vote by mail - *especially* in a time like this pandemic, it's beyond the smart thing to do. It's the *right* thing to do. So, why isn't happening? Continued voter suppression and further disenfranchised segments of the population that likely would vote for real substantial compassionate government which, as we are well aware, doesn't exactly jibe with the all-powerful GOP vision of an all-white, all-elite super-society.

Too bad people will end up dying because of yet another sick ploy by so-called Christian "leaders" in our governments.

Ug.

To: 'Bob Mott' <bobmott329@hotmail.com>
Subject: RE: April 7th Spring Election Update

Bob,

Thank you for your email. Today has been a really rough day. I've talked to people all over my district, some mad that the Supreme Court ruled Governor Evers' order unconstitutional, some mad that Governor Evers put the order in place in the first place, some just scared, or confused, or looking for reassurance. I think a commonality between everyone is fear. I think most people have never seen anything like COVID-19 in their lifetime and they are really terrified of the unknown. I can totally understand that. Some are afraid of losing their rights, losing their way of life, losing their freedoms. I can also totally understand that. Some just want to go back to life four weeks ago, and I am right there with them.

The truth is that there were no easy decisions here. We, both the Legislature and the Governor, have been operating with ever-changing information from all over the place. I've seen a lot of people say that we should have known weeks ago that this was necessary. I looked back to the data we had three weeks ago, and there were 32 positive cases at the time statewide. We didn't yet know what we were dealing with, and I know I was receiving a lot of negative feedback from my area on how things were being restricted unnecessarily and how the government and the universities were overreacting. And yet, at the same time, the Legislature and the Governor were somehow supposed to come together and move an election date, something I think many would see as a total nuclear option. Over the last three weeks, Governor Evers has said publicly over and over that he would not move the election, and legislative leaders tried to work with him and support his decision, as our leader. Fast forward to last Friday, the governor does a complete 180, and asks the Legislature to come into session, with no notice, and with no time or ability to draft anything, agree to anything, or work anything through the legislative process. The Senate and the Assembly have never had to come into session virtually before, so both houses are frantically working to figure out how to do so safely, efficiently, and so that every member can be present or virtually present, to represent their constituents. None of these situations or decisions are or have been easy, and I have to say that the suggestion I don't care about my own family or my constituents' health and well-being is just wrong. At the end of the day, the Governor changed his mind and asked for something when it was too late for the Legislature give it. Regardless of whether or not someone believes the election should be moved (and I totally understand why people are hoping for that outcome), what Governor Evers issued today was unconstitutional, meaning that his emergency powers do not give him the power to supersede state law completely on his own. He also does not have

AMERICAN OVERSIGHT

the ability to extend terms for those currently on the ballot. Republicans did not decide these things, the Constitution and the Supreme Court did.

Regarding your question about April 13th, that was something the US Supreme Court ruled on today. So yes, ballots will have to be postmarked by the 7th, but clerks can receive them and count them by the 13th, making it a lot easier for them to handle the increased workload properly.

This situation has been scary for all involved, and we do the best we can with what we have and know at the time. I hope you can understand that, but if not, then I'm happy to talk to you about it further.

Thank you, have a good night.

Mary

Mary,
I wouldn't want it on my conscience if 1 poll worker or one voter died because of this in person election.
I believe both parties could have seen that in person voting in the midst of a stay at home order is irresponsible.
What is the justification for going ahead during what has been described by the federal doctors as the worst week and the week for everyone to shelter in place? I just don't get it.
I think the other part is what is the problem with absentee ballots being allowed through the 13th in this extraordinary time?
Thank you for going to the polling places but do so carefully.

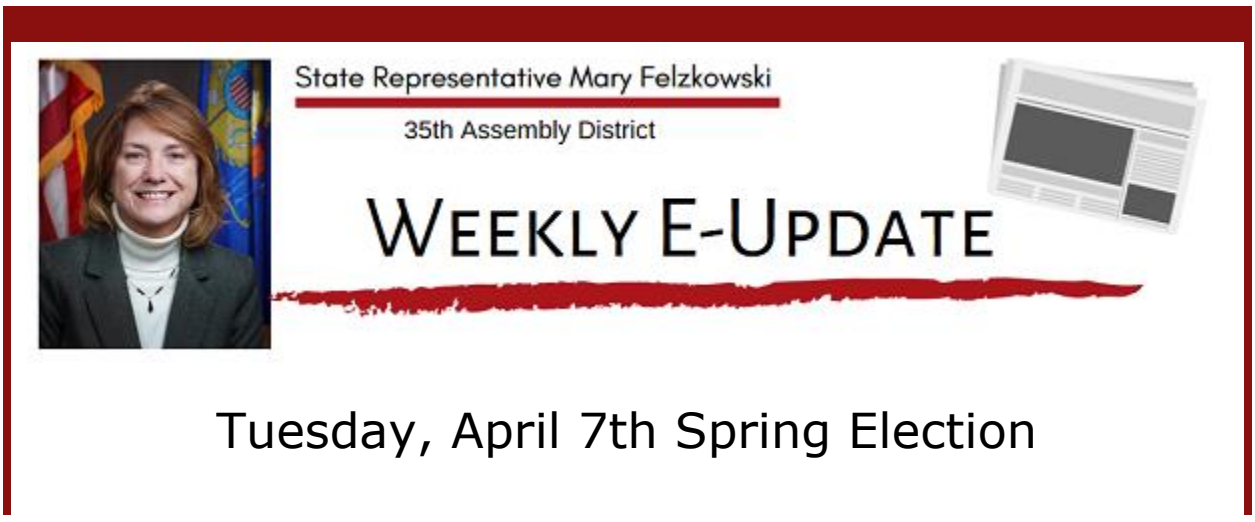
Lester,

Thank you for reaching out on this. Can you give me more information about who the high school students were going through specifically? Once I know more I can look into it for you. I agree with you that this is not right.

Thank you for bringing this to my attention,



Mary

Subject: Re: April 7th Spring Election Update

Rep. Felzkowski, I have a grandson who was chosen to represent the State of Wisconsin in a High School band made up of High School Students from our state. The trip has been canceled because of the COVID-19 outbreak, which is bad enough, but when they wanted to get there down payment back each student was charged $1900.00. I think this is outrageous. There are students that had to raise the money themselves and now they want to keep $1900.00 from each of them. Please advise.

Thank You
Lester Resch

Good evening everyone,

I know there has been a lot of confusion today so I wanted to provide all of you with information so you are prepared for tomorrow.

The April 7th Spring Election will be happening tomorrow and polling places will be open.

If you need information about where your polling place is located, please go to the following site, or let me know what your address is and I can send you the location. https://myvote.wi.gov/en-US/FindMyPollingPlace Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive-thru voting, which will allow for voters to stay in your car and avoid person-to-person contact. If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

Mary Felzkowski

Subject: RE: April 7th Spring Election Update

Tom,

Thank you for your email. Today has been a really rough day. I've talked to people all over my district, some mad at the Supreme Court ruled Governor Evers' order unconstitutional, some mad at Governor Evers for putting the order in place in the first place, some just scared, or confused, or looking for reassurance. I think a commonality between everyone is fear. I think most people have never seen anything like COVID-19 in their lifetime and they are really terrified of the unknown. I can totally understand that. Some are afraid of losing their rights, losing their way of life, losing their freedoms. I can also totally understand that. Some just want to go back to life four weeks ago, and I am right there with them.

The truth is that there were no easy decisions here. We, both the Legislature and the Governor, have been operating with ever-changing information from all over the place. I've seen a lot of people say that we should have known weeks ago that this was necessary. I looked back to the data we had three weeks ago, and there were 32 positive cases at the time statewide. We didn't yet know what we were dealing with, and I know I was receiving a lot of negative feedback from my area on how things were being restricted unnecessarily and how the government and the universities were overreacting. And yet, at the same time, the Legislature and the Governor were somehow supposed to come together and move an election date, something I think many would see as a total nuclear option. Over the last three weeks, Governor Evers has said publicly over and over that he would not move the election, and legislative leaders tried to work with him and support his decision, as our leader. Fast forward to last Friday, the governor does a complete 180, and asks the Legislature to come into session, with no notice, and with no time or ability to draft anything, agree to anything, or work anything through the legislative process. The Senate and the Assembly have never had to come into session virtually before, so both houses are frantically working to figure out how to do so safely, efficiently, and so that every member can be present or virtually present, to represent their constituents. That infrastructure was not in place for Saturday, which means we would have been calling everyone back to the Capitol, creating more chaos and risk. I had clerks reach out to me immediately asking me not to support Governor Evers' plan because it was simply not possible.

I don't disagree with you that the information we have right now, today, supports moving the Election date. It has not been along the way, and I don't believe the medical advice has been consistent over the last several weeks. The CDC has changed their rulings on whether COVID lives on surfaces, changed what the symptoms are, changed whether or not people should be wearing masks. As the CDC learns more about the virus, so do we as people. It certainly makes moving forward easier, but it definitely doesn't give us the ability to go back and change decisions already made. None of these situations or decisions are or have been easy, and I have to say that the suggestion I don't care about my own family or my constituents' health and well-being is just wrong. At the end of the day, the Governor changed his mind and asked for something when it was too late to the Legislature give it. Regardless of whether or not someone believes the election should be moved (and I totally understand why people are hoping for that outcome), what Governor Evers issued today was unconstitutional. Republicans did not decide that, the Constitution and the Supreme Court did.

AMERICAN OVERSIGHT

This situation has been scary for all involved, and we do the best we can with what we have and know at the time. I hope you can understand that, but if not, then I'm happy to talk to you about it further.

Thank you, have a good night.

Mary

Dear Representative Fezkowski,

I have been a Wisconsin resident my whole life. This is the most despicable thing I have ever seen.
Wisconsin Republicans will have the blood of anyone infected with Covid-19 on their hands.

I worked for Republican Governors during my career in State service, none of them would ever have thought this abortion the current republican legislative leaders have done to voting rights acceptable.

Dennis,

That is a great question. Thank you for reaching out to me on this. Theoretically, mail picked up at your mailbox should be postmarked the same day. However, if the post mark is critical, the advice is to do what you are saying which is to bring it to the post office and drop it in their box before the daily pick up time. You also have the option to interact with the teller at the front desk of the post office, and receive a receipt, but if you would rather not interact with people, the box at the post office is the best bet. You also have the option to drop your ballot off at your polling place in person.

Thank you!

Mary

Mary,

I just got my absentee ballot in the mail right now. Does that mean I have to go to the post office tomorrow, to make sure is is dated on the 7th.

Dennis

AMERICAN OVERSIGHT

Tuesday, April 7th Spring Election

Good evening everyone,

I know there has been a lot of confusion today so I wanted to provide all of you with information so you are prepared for tomorrow.

The April 7th Spring Election will be happening tomorrow and polling places will be open.

If you need information about where your polling place is located, please go to the following site, or let me know what your address is and I can send you the location. https://myvote.wi.gov/en-US/FindMyPollingPlace Municipal and county clerks have been working around the clock to make sure each polling place is safe and adheres to social distancing. I know a lot of polling places are doing drive-thru voting, which will allow for voters to stay in your car and avoid person-to-person contact. If you feel most comfortable wearing Personal Protective Equipment, like gloves, or a mask, or a scarf, I encourage everyone to do that.

For those of you that received an absentee ballot but have not yet returned them to your clerk, your absentee ballot needs to be postmarked by tomorrow, April 7th.

COVID-19 has been a really trying time for everyone, and I think we can all agree that this is not an optimal situation. Although frustrating, we can do this. I will be driving around polling places tomorrow in my area just to see if there is any help I can give. If you have thoughts or concerns, I am available tonight, tomorrow, or at any time. Please reach out to me.

Thank you and have a good night,

Mary Felzkowski

Subject: Re: April 7th Spring Election Update

I am appalled that the safety of the citizens of this state is being compromised by the absolute disregard for Stay at Home. That includes the safety of voters as well as poll workers. It forces citizens to choose between making a best decision for not just personal safety but also OTHER safety and their responsibility to vote. Wisconsin has been doing its best to quell and keep the virus curve from growing and spiking these past weeks, at great personal expense. This decision to NOT postpone voting as put out by our Governor today is unconscionable. The collateral damage that will occur with this election being held in the midst of a pandemic is irresponsible, reckless and rests solidly on the decision today to reverse Governor Ever's attempt TO keep this state and its citizens safe. And to NOT compromise the momentum and work of the people who have been following the Safe at Home guidelines and procedures. I hold you responsible, and even more damaging: you WILL be responsible for this decision, and will regret it no doubt always. After the fact. It will undo the hard work and commitment of all who have been in significant compliance with S@H. It will impact the voting numbers/results. Which btw should absolutely NOT be the priority right now. Surviving this outbreak should be our every focus and priority. Keeping COVID from spreading should be our absolute focus. This will compromise that for innumerable citizens in this state as a result of the choice to proceed with the election. That's on you.

Tom,
I just heard on the news that no action was taken today on securing the safety of WI residents by changing the voting date to a later date. When you meet on Monday, I hope you will vote to change the date to protect all WI citizens from potentially getting Covid-19.

I am very disappointed with the WI legislators letting their representation of their parties getting in the way of doing what is best for all the citizens of the state.

Not voting on all the appointees of Governor Tony Earl is simply showing how state Republicans both in the State senate and Assembly are throwing their weight around because you lost the governor election.

Please do what is best for the citizens of this state:
-vote for changing the date that the primary elections votes are due and that it all voting should be done by absentee voting.
-and all the Republicans in both houses need to swallow their pride and work with our Governor.

Peg

Subject: RE: April 7th voting

Peg,

Thank you for your response. I have been encouraging anyone and everyone to vote absentee for weeks now, and thankfully, so many people in Wisconsin have decided to do that. I know this situation is not ideal, nothing having to do with COVID has been. The good news is that 1.3 million absentee ballots were mailed out to voters, so that is over a million people who will be voting at home, rather than going to the polls. For reference, 1.2 million people voted total in the last election, including absentee and in person voting. To see that our current absentee ballots have surpassed that is a really good sign that the polls will not be packed today and people will be able to social distance properly. I have been hearing from a lot of people who did go to the polls who said their polling place was empty except for poll workers when they went in.

Regarding the stretch of Hwy 51 you mentioned, the contract for that construction project was actually awarded less than two weeks ago. WisDOT expects the project to start in late Spring, but it's hard to know if COVID will affect that timeline or not. So far, construction has continued, so we will see.

I understand your anger, and I respect your decision to not want to talk to me about it. I hope you are staying safe,

Mary

Rep Felzkowski,
No I don’t want to talk on the phone and please do not add me to any of your e-mail promotions.

Since you decided to not keep your citizens protected from Covid-19, maybe you could give some consideration or better action on improving Hwy 51 between the Marathon County line and Hwy 8. We go out of way and use Hwy 8 and Cty A whenever we return home from Rhinelander or Minocqua. 51 between Hwy 8 County A is like a washboard. Peg

Subject: Call

Mary,
Just wanted to thank you for the call. That tells me you care about your constituents and that means a lot to me. I gave some thought to your question about specific examples and thought this reply is closer to my concerns. I believe that the WI and National Republican party leadership has moved too far to the right over time. My impression is that strict dogma has become more influential and important than cooperation and compromise. The same is increasingly true for the Democrats moving farther and farther left. I also believe that the citizenry has split likewise. Not sure which came first ... the parties or the public. To me, the result is that the winner of the battle has become more important than the purpose ... the needs of the majority. Who would have guessed that the moderates would be the vanishing minority. Enough said.

Thank you for the call. May the good of the whole be your be your compass.
No need for a reply,
Dan Nordall ... an old school Republican fading into the fog.

Subject: Can you read this?

Carol,

Thank you for reaching out to me. I totally understand where you are coming from, especially because in our area, there is a much larger elderly population, and our polling places already have fewer people to run the polls. You are right that Governor Evers refuses to move that date, has said so repeatedly, and has encouraged everyone to vote absentee when at all possible, and there's really nothing I can do to force his hand. The fact of the matter is that the law/his emergency powers do not actually allow for him to change or postpone that date on his own. This, at least, does give me some comfort, because it means that one politician cannot take away our constitutional rights to vote just on a whim. These are certainly extraordinary circumstances, for sure. One big concern with moving this election so close to the date is that there are already 100,000 absentee ballots out there that have been returned to the clerks to be counted. On those ballots are votes for local positions all over the state. If Governor Evers were to move the election date, many, many local positions would remain vacant during that time, sometimes crippling a local government's ability to make moves to respond to the public health emergency we are currently in. It's also difficult to say when that date should be postponed to because we do not yet know how long the public health emergency will be in place.

The federal government is close to passing a federal stimulus package that will have some funds available to aid local governments. This will allow more flexibility for clerks to be able to do what they need to to make sure this election is as safe as possible for all, including for poll workers. It is the Election Commission's job to work with all municipal clerks to ensure that this happens, and that all clerks have the resources they need to make that possible. In reference to the change you suggested, I have heard that some locations are looking at purchasing pens so that every voter can use their own pen to sign the book and vote with it, and then take it with them. Your suggestion is interesting, and would be something I'd bring up with your municipal clerk to see if they've talked to the elections commission about flexibility there. It may be that state law prohibits anyone but the voter from signing.

Coronavirus and the fall out has created some really impossible situations, and this is one of them. If you are uncomfortable going to the polls to work or to vote, I think you have every right to stay home, and to vote absentee. I know some clerks (and the elections commission) are working on recruiting college students and non-essential employees out of work to work the polls in place of those who don't feel

AMERICAN OVERSIGHT

comfortable. If you're wanting to avoid getting sick, I'd talk to your municipal clerk about it and see what parameters they are putting into place to make the day as safe as possible.

Subject: Can you read this?

Thank you for reaching out to me on the April 7th election. I wanted to provide more information to explain why I did not support Governor Evers' last minute ask to move the election date.

First and foremost, I do want to say that I absolutely understand where you are coming from and the concerns raised by people that do not think an April 7th election can be done safely. I think that an election like the ones we have seen in the past would be a cause for concern with packed polling places. Thankfully, the state of Wisconsin gives its voters options, and for the last three weeks, we have been encouraging everyone to request their absentee ballot.

Over 1.3 million people have requested their absentee ballot, which is a record-breaking amount of people, especially for a spring election. This means that over 1.3 million people will have already voted and will be staying home, which is great news for our polling places. For reference, just over 1.2 million people total voted in the 2019 spring election. We quite possibly might see more people voting absentee in this election than the total number of voters in the last spring election! So when it comes to in-person voting on Election Day, we are going to see far fewer people going to the polls. I know my polling place and many others are doing drive thru voting, so you don't even have to go into the polling place to vote in person. Many other polling locations have put in place a number of social distancing safeguards, and I truly believe that the image of 'crowds' at the polls is not one that will take place. Our local clerks have been preparing with the Elections Commission to hold this election in a manner tailored to the current public health emergency. Our clerks are doing everything they can to limit person-to-person contact.

Now back to moving the election date. Tomorrow, thousands of local government positions like County Executive, Mayor, City Council, Town Board, and judgeships will be on the ballot. During a global pandemic, it would be extremely dangerous for all of these positions to become vacant with no one in place to make decisions or to allocate funds, especially for such a long, unspecified and unknown period of time. I have heard a lot of people, including Governor Evers, suggest that we could just allow the people currently serving to continue in their positions until the election is rescheduled. **There is no mechanism for the Legislature, the Governor, or local governments to allow for this by tomorrow**. It would require a change to our state's constitution, which would require the legislature to pass a resolution in two consecutive sessions, and then a majority vote in favor by the people on the ballot through referendum. The legislature simply cannot do it, and certainly couldn't do it three days before an election. Even if the legislature were to vote to do this, and the governor were to sign it, it would not

AMERICAN OVERSIGHT

be upheld in court. So moving the election date means that our local governments will be immobilized for months.

Governor Evers knows this. He knows that the legislature cannot do what he is asking us to do, and has been saying so publicly for over two weeks. He has been telling legislative leaders and the public for weeks that we cannot and will not move the election for the very reason I just described. And yet, on Friday, three days before the election, he changed his mind. To me, that is not a sign of leadership, but of a last minute effort on his part to shift the blame. Regardless of why, the fact is that we did not come into session on Saturday because there is nothing under the law that would allow for us to do we he asked us to do.

Almost immediately after Governor Evers announced his plan on Friday, several of the local clerks in my district reached out to me asking me not to approve of his plan. They also cannot do what Governor Evers is suggesting they do. A mail-in balloting system cannot be done in Wisconsin on this kind of timeline, something the Elections Commission has expressed to the Legislature and to Governor Evers.

Please know that I agree with you that this is a serious situation, and we need to take precautions. We haven't seen positive cases in Lincoln or Langlade County yet, and I absolutely want to keep it that way. The fact remains that when I took the oath of office, I swore as your legislator to uphold the law and the constitution. I cannot do what Governor Evers asked me to do, but I can continue to do what I have been doing for the last two weeks, which is everything I can to make sure our poll workers have what they need to run this election smoothly. I have been encouraging people who are at risk or don't feel comfortable to stay home and vote absentee. I am so grateful that our state gives voters options when it comes to voting because it is exactly what will allow for this election to continue safely. I am also grateful for the 2,434 National Guard men and women who are being deployed to support polling places today and tomorrow.

If we continue to work together, we will make it through to the other side. If you want to talk further about this, please let me know and I can give you a call.

Thank you for your time,

Mary

Hello –

Last night, I sent out a caucus letter to members at their firstname.lastname account. The deadline was today at noon, and we said we would assume if we didn't hear from anyone by noon, they were agreeing to sign on. I have heard from one member who won't sign on. But from everyone else, I'm just looking for e-signatures. If you have not sent me your bosses e-signature, would you please do that.

Thanks,
Jenny

Subject: Caucus push for absentee voting: PSA radio ad

Dear Members and Staff:

Last Friday afternoon, on the member conference call our office was asked to coordinate a caucus effort to ask our local radio stations to run public service announcements (PSAs) promoting absentee voting.

We worked with the Elections Commission on the content and one of our local radio stations did a sample recording.

We were able to get SEVEN stations in our listening area to run these PSAs for FREE. They were all really nice about it, and since they have lost some local advertising they have the room in their rotations. We simply explained that it was a PSA to encourage absentee voting, and does not endorse any candidate or party.

If your office is willing to make a few phone calls and ask your radio stations to run it, all we ask is that you tell us who you are asking so we can make a list of stations already being contacted so we don't duplicate efforts. Also, the station is welcome to do a new recording but they should stick to the informational/instructional part of the script! The approved script and a recording are attached to this email.

We asked the broadcasters association for a list but they wouldn't share, so we are kind of on our own. I know a lot of us have good relationships with our local stations, so hopefully you know a few people you can call.

Stations already playing the PSA include WLKG, WSLD, WCLO, WJVL, WWHG, WBEL, and WGEZ.

AMERICAN OVERSIGHT

Feel free to try your local cable too – we already asked Spectrum!

Thanks everyone! We only have until April 2nd so time is of the essence!

Will you work on this with our radio stations today? If you talk to them on the phone, you can also let them know we are pushing healthy, low risk individuals to become poll workers, and will be putting that into an e-update and on our facebook. Mary thought it would be great if the radios would mention it periodically so people I know poll workers are needed.

Senator Tiffany and Rep Felzkowsi,
Attached is a letter I am attempting to send to Governor Evers' office. I know we are in trying times, the switchboard has not emptied any voicemails throughout the day, as with everything else this is important and should be addressed. Trucking and trucking education is more critical than ever in this current crisis. If you would please take a look at what we are asking for CDL schools and the DMV, and feel free to contact me at ANY time regarding this.

Thank you for your time!

Respectfully,

Tim Kordula

Thanks, for reaching out Stamena. I'm glad the fee has disappeared. I've reached out again today to ask when he will see a refund.

Hey Adam,

Hope you had a great weekend. To give you an update, we got this email from our constituent over the weekend:

"I received our February 7 bill from Charter today. The Franchise Fee has been removed. However, no refund or credit for the six months of Franchise Fees I paid was included. When you speak with their Legislative Liaison, would you please ask how and when this will be done? I would have thought everything would be included on one bill.

Could you find out if they have corrected accounts for all towns with the Rhinelander 54501 mailing address?

Thank you again for all your help!!!!"

Thanks,
Stamena

Subject: RE: checking in

Hey Angie,

I got an answer for you on this. https://dwd.wisconsin.gov/covid19/public/er.htm This is a site for FAQs DWD is getting. Here is the question that seems to pertain to yours:

Can I stay home if I'm not sick but want to avoid getting sick by not being around others?

- * Check with your employer about its policies in this respect. There is no requirement that an employer allow healthy employees to stay home from work, and generally an employee who stays home when not sick has no protection from any adverse employer action taken because that employee stayed home. However, an employer could choose to allow such absences or authorize the use of paid time off for this purpose. Similarly, an employer may allow you to work from home. Check with your employer about work at home options.
- * If the employee does not have either a serious health condition, or a family member with a serious health condition whom the employee is caring for, then this type of absence is not protected by state or federal FMLA.

Please let me know if you have any additional questions!

Mary

Another question came up regarding unemployment; Do you have clarification on unemployment eligibility after April 2nd? Example; if a company is considered an essential

AMERICAN OVERSIGHT

company and stays open but an employee chooses not to come to work due to the COVID-19 executive order and they feel that the company is not an essential company, would they be eligible for unemployment under the bill that was passed?

Thank you Mary

Good evening Ben,

I just wanted to email you to let you know I did not forget about your questions from this morning. Unfortunately, Governor Evers has chosen not to provide any information to Legislators as we try to navigate this mess. What I do know is that he plans to sign the order tomorrow. We have asked repeatedly for the essential vs. non-essential list, which he will not give, and I honestly believe he hasn't finished yet. I will update you once I know more, and hopefully that will be midday tomorrow.

Thanks again for reaching out to us,

Subject: Re: Child care in crisis

Just another thought this morning on this, and I think it would be worth the "look and see" to justify support for rural providers.

It's my understanding/recollection that no childcare provider can have more than 50 kids, correct? Else, I'll stand corrected.

So, in our urban/suburban, where some may have had well in excess of 50, they had to cut back, but as unfortunately some of those families with kids attending pulled their kids due to layoff, concerns, etc., I'd like to assume that the forced reduction helped to backfill among all providers so they are able to sustain.

Just a thought - again, know you are being overwhelmed with more requests for support and assistance, but trying to look at this through a justified lens and give some ideas for justification for your consideration.

Thanks,

Ben

On Sun, Mar 29, 2020 at 12:39 PM Ben Niehaus <niehausb@myflorence.org> wrote:

> I would surely reiterate what Emily is expressing. I know there are so very many businesses hurting right now, yet childcare providers are paramount, especially in our rural areas, for so very many reasons. Emily is our only childcare provider in the entire county, and as you all know from our recent conversations around the employment challenges, childcare has a lot regulation and requirements, both for the business and individuals, yet the compensation for providers is minimal relative to the credential requirement (hence high turnover in employees/providers), so unfortunately what is before us will certainly compound this challenge, or indirectly provide an opportunity for employees/providers who must layoff to find work in areas of essential function during these times, and then do they stay there after this passes?
>
> I wonder if this is a matter that can at least be addressed for the very small, rural childcare providers. As example, is this the same challenge in suburban/urban area due to demographics and many more in those areas serving in essential functions, therefore still needing the daycare,

AMERICAN OVERSIGHT

where maybe as a percentage, more of our families are employed in non-essential occupations as a percentage. Trying to figure an angle based upon data of what is that could justify how you and any of your colleagues in the legislature could look at this.

I can understand and appreciate these are VERY complicated times for you as legislators, with more of these types of emails and outreach as I can imagine, yet, does this one warrant a view through a different lense due to the rural dynamic?

I would be more than willing to contribute in any conversation towards a solution in this matter...I will do some further thinking as to how we could find a solution.

Emily, I have looped both Representative Felzkowski and Representative Nygren's offices in this as it very well may be a matter before providers in their respective areas of representation.

Best,

Ben

Hi,
Jen Esser forwarded Ben's email to govenor's office and DCF. Jen - can you loop Mary's office in when you hear back on this too? Ben sent them a separate email from the rest of us and Stamena reached out to see if we had done anything on this yet.

Thanks,
Cory

Hi Zach, Nadya, and Jenifer,

We have the only child care provider in Florence County writing in to see if there's any assistance available for her. Wanted to check in with you all first as we sort through federal dollars and other things.

Many thanks for all you're doing.

Jen

Subject: Child care in crisis

Morning!
I am writing this email as a plea for support to child care centers across the state who are continuing to provide care for children and families during the COVID-19 pandemic.

AMERICAN OVERSIGHT

While many facilities have seen a drop in their numbers of attendance most of them have continued to pay their staff either through their continued work at the center or sick/personal leave. Currently, I have two very small child care centers in northern Wisconsin and I fear that if we are forced to shut down or our attendance continues to drop, we will have many people unemployed and the fear of never regaining the enrollment we had and/or getting those staff to return.

We are on the front lines providing care to children of essential employees without any type of PPE or guidance about how we should navigate our situation.

We are operating on extremely thin margins already and then to continue to pay staff without the attendance of many children will drive us straight into bankruptcy.

My request is for you to please look at some way to provide child care centers with direct financial support to ensure we can continue to provide care as well as maintain our payroll and ensure our staff can get hazard pay and continued paychecks.

If you have, or need, any information please feel free to call me at 906.221.3191 or contact me via email.

AMERICAN OVERSIGHT

We are going to be in a clerk crisis next. The absentee tracking has completely bogged my office down. County Clerk offices are too lean to absorb this. County Administrations do not support our office enough. I may have to pull the plug on providing WisVote.

Our muni clerks have had it. My best ones are probably in their last term if they will even finish. My new ones are like, "what did I sign up for?"

My office should be subsidized by the state if I am to continue WisVote.

Allison relayed to one of my muni's that they are required by statute to put return postage on return envelopes. I cannot find this in statute. Our Governor appears absolutely clueless on the election process at this time.

Something needs to change. The WisVote program is great but the amount of work it has created has exceeded the clerks wage and manning.

Thank you!

Subject: CLP Waivers

Hello Representative Felzkowski,
I hope this finds you safe and healthy!
I did send this to Senator Tiffany as well as Governor Evers,

Yesterday the FMCSA announced a waiver that would allow State third party CDL examiners to administer the Commercial Drivers Learners permits. As you may know, the Statewide Department of Motor vehicles are now on an appointment only and we are having issues getting our current trainees their CLP's. Wisconsin has not come on board with this waiver yet and I don't know that they will unfortunately. With the current situation, we very well could have a driver shortage when this is all over. Some of our drivers are already contemplating leaving the industry and that is just here. We need to keep the new drivers coming in and trained properly, but without a CLP that is impossible.
We will be asking the FMCSA to expand on this to also allow schools to administer this test on a permanent basis. The skills testing is already done solely by third parties in Wisconsin.
Who better to administer a knowledge test than those who actually teach the knowledge.
Right now though, we need the State to be onboard and allow Wisconsin's third party examiners to administer these tests.
With the Pandemic, keeping drivers and giving them the training they need is definitely a challenge. We have thought outside the box on social distancing and

AMERICAN OVERSIGHT

have installed "sneeze" guards in our training trucks and purchased all we need to be compliant. We need our drivers on the road.
I have attached the waiver, and I appreciate all you have always done for us in the past and in the future.
Take care, be safe and have a wonderful Easter!

Tim

Mx, Felzkowski,

Please have regard for the safety and health of the Wisconsin citizens. Most everyone is working extremely hard to prevent the spread of the corona virus--it is killing Wisconsin residents and doing harm to our economy.

It is incomprehensible that people would be encouraged to cluster at polling centers during a pandemic in order to have their vote counted. This is not what America or Wisconsin is about--looking out for the welfare of the people should be the priority. Would you personally be willing to work at a polling center and possibly be exposed to the deadly virus? I would not and I can't imagine anyone would wish to be exposed. There is no reason why adaptions can't be made in order for everyone's voices to be heard safely. I am begging you to show concern for the health of Wisconsinites. This is what we deserve from our leaders.

Thank you,
Elizabeth Waldmann

Subject: Constituent Call for you

Steve Roades - Merrill, WI

Dairy Farmer, township of Pine River

7154093485-cell

- He has been battling stray voltage for 40 years
- The last battle started in 2010 - boiled down to electricity issues. Had the farm center out there in 2012. Hasn't had a complete herd of cows since 2010 because the stray voltage has killed off his herd. Has 22 cows in the barn. Is in major debt, but still running.
- Dave Hansen in Public Service Commissioner's office has been on his farm.
- He thinks he can finally milk cows again, after replacing power lines, and the harassment from the PSC employees over the last 8 years.
- Says he was investigated by Lincoln County Sheriff's department for animal abuse because of all of this
- He is turning 65, and his wife is turning 63, and both were going to retire soon, but coronavirus has led to them not being able to do that. They need his wife's income to keep the farm going. He blames the PSC because their inadequate testing led to 8 years of lost profit for his farm
- Wanted to talk to you directly.

AMERICAN OVERSIGHT

The company was purchased in October 2013, and his mom owns it. He had a five year contract, which ended in December 2018. He said that under the new contract, his rate was cut by 40%. He said this is because he is now being lumped in with other types of renewable energy. He says that the lower rate has made his business more difficult to run and he has had to fire people. He does not understand why this rate cut happened while others were given a 13% increase.

I'm working from home today, but can be reached via email or on my cell phone: (920) 471-8150. Otherwise I will be in the office next week!

Have a great weekend,

Subject: RE: Coronavirus Questions

I think this page went up on either Thursday or Friday but it should answer a lot of the questions below including the ones on surfaces, clothes, and groceries. Obviously the mask guidance is changing so CDC would be the go-to for that.

Subject: FW: Coronavirus Questions

Hey Andrew!

There is so much information out there right now that I may have missed something you guys have sent out, but this constituent has a lot of specific questions about sanitizing and staying safe. Is there a particular DHS resource or a place you could send me to try to answer some of these questions? I know the CDC was silent on some of these, so I figured I'd ask you first.

Thank you for your help! Sorry to put more on your plate.

Louise Doescher

March 31, 2020

Mary, I watch news and listen to the TV news for hours daily. I have become more and more confused in the protocol to use in staying safe with this virus pandemic.

One thing we certainly do not need is confusion at this dire time. I compiled a few of my own questions here. It sure would be nice if the government local or state or federal would come out with some clear guidelines to help the people.

I am on my 20th day of self-isolation.

I HAVE SOME QUESTIONS ABOUT SANITIZING AND HOW LONG THE VIRUS CAN LIVE ON DIFFERENT SURFACES.....AND AND AND...

MAIL: How should we be handling mail?

AMERICAN OVERSIGHT

If we leave it sit in our garage or even in our house for how long, before the virus dies?

DOES the virus die after being on surfaces? I heard a health care worker say that on a surface (forgot which one) it can live up to 7 days. Is this true? Exactly what surfaces should we be the most cautious about?

What might be a way to sanitize mail? Mail carriers do not wear gloves, or might. Mine has done it both ways as I watched. The mail could be contaminated from outside or the contents could be.

GLOVES: Wouldn't it be safer to wear gloves if we go out to stores? Of course if we go from store to store, shouldn't we sanitize the gloves before and after each store? Wouldn't the gloves be safer than our more porous skin with fingernails etc?

What about our clothing and shoes? Do we strip down after every trip out? Take off our shoes and dip them in disinfectant before going into our homes? Italian survivor says shoes carry viruses. Have we thought about that?

MASKS: To wear or not to wear the mask in this pandemic is the question. I believe that I know that wearing masks was downplayed to preserve the public from buying and or hoarding masks that the Health Care workers so desperately need.

Something is better than nothing, right? We can sew masks. If we sew them and wash in between uses. But we have been told that masks do not help.

Common sense tells us that any mask might help stop the spread. We would have to decontaminate the mask every time we use it on going out, and we could not count on it 100% but

even if it stopped one person from receiving or giving one another he virus, wouldn't it be worth using?

Mixed messages prevail.

And perhaps in another email, I will ask questions about the money that is to come from the government. There is mass confusion also about how this will be distributed as well.

It would be of great service to have answers to my questions. Thanks for doing a great job. Louise

AMERICAN OVERSIGHT

To: Louise Doescher
Subject: Urgent: We need poll workers! - Coronavirus Update

State Representative Mary Felzkowski

35th Assembly District

WEEKLY E-UPDATE

CORONAVIRUS UPDATE

POLL WORKERS NEEDED!

With the April 7th election only days away, our amazing local clerks are working around the clock to send out requested absentee ballots and do everything possible to make sure the day runs smoothly and safely.
The Elections Commission recently provided local governments with a COVID-19 specific webinar that will help local clerks and poll workers ensure our polling places are safe. That webinar can be found here.
I am encouraging anyone who is low-risk and healthy to consider volunteering to be a poll worker on Election Day if you feel comfortable. As most of us know, our elections are able to run smoothly each year because we have so many dedicated volunteers. Many of our regular volunteers are those who are currently high-risk for the virus and need to stay home.

Volunteering to work at the polls is not as hard as you may think! There are a few different positions, some that require training/some that do not, and some that require residency/some that do not. Please look at the following document that goes through what each of these positions does. If you are interested in volunteering, let me know and I'll get you in touch with your local clerk OR you can search for them on your own by clicking here.

AMERICAN OVERSIGHT

Election Worker and Volunteer Information

Looking to help out at the polls for the April 7, 2020 election? If so, there are several different ways you can assist your community in running the election.

There are several jobs on election day to choose from and they each have their own residency and training requirements. Some jobs, like the Chief Election Inspector, require residency in the Town, Village or City where you serve and several hours' worth of training while other roles can be filled by volunteers with no residency or training requirements.

Here are the different jobs you can do on election day:

- ✓ **Polling Place Helper:** You can volunteer to help out at a polling place by making sure voters are in the correct lines, assist with enforcing social distancing and making sure the polling place is properly cleaned throughout the day. Citizens who just want to help with these tasks on election day do not need to meet any training or residency requirements.

- ✓ **Election Inspector:** You can work as an election inspector at any polling place in your county helping voters get checked in, issuing ballots and helping voters register. All you need to do is receive some training which you can take online and be a resident of the county where you would like to work.

- ✓ **Chief Election Inspector:** The Chief Election Inspector serves as the lead election official at a polling place. In order to become a Chief Election Inspector, you would have to take required online or in-person baseline training which lasts roughly 2 hours. Chief Election Inspectors must be residents of the town, village or city where you live (in a pinch a Chief Inspector can be from the county).

- ✓ **Greeters or Election Registration Officials:** Each polling place can have one person appointed as an official Greeter who must be a resident of the county where they wish to serve. Greeters can also help at a polling place by making sure voters are in the correct line and assist with sanitization efforts. Election Registration Officials, or EROs, must be residents of the county in which they serve and help voters with registering to vote on election day. Both greeters and EROs must take some training about the job they will be doing before election day.

If you are interested in working at the polls on April 7, 2020, find your clerk by searching using your address here: https://myvote.wi.gov/en-us/MyMunicipalClerk. Just click on their email address to send them a message with "Poll Worker Applicant" in the subject line with a few words about your interest and your contact information!

Job	Training	Training Location	Residency
Helper	None Required	N/A	None Required
Election Inspector	Some	Online or In-person	County
Chief Election Inspector	Baseline Training (@2 hrs)	Online or In-person	Town/Village/City
Greeter	Some	Online or In-person	County
ERO	Voter Registration	Online or In-person	County

Federal Stimulus Package

We are currently waiting for the non-partisan Legislative Fiscal Bureau to put together their analysis of what the Federal Stimulus Package includes and what Wisconsinites can expect. Once we have that document, I will send another update to all of you. In the meantime, if you have a specific question about the stimulus, please reach out and we will do what we can to get you an answer.

AMERICAN OVERSIGHT

For now, the National Conference of State Legislatures (NCSL) has put together a summary document that you can see here.

You can still request your absentee ballot, last day for online registration!

Absentee voting is still a great option for those that would like to vote but also want to stay home. Please use this as a great way to slow the spread and keep ourselves and poll workers safe.

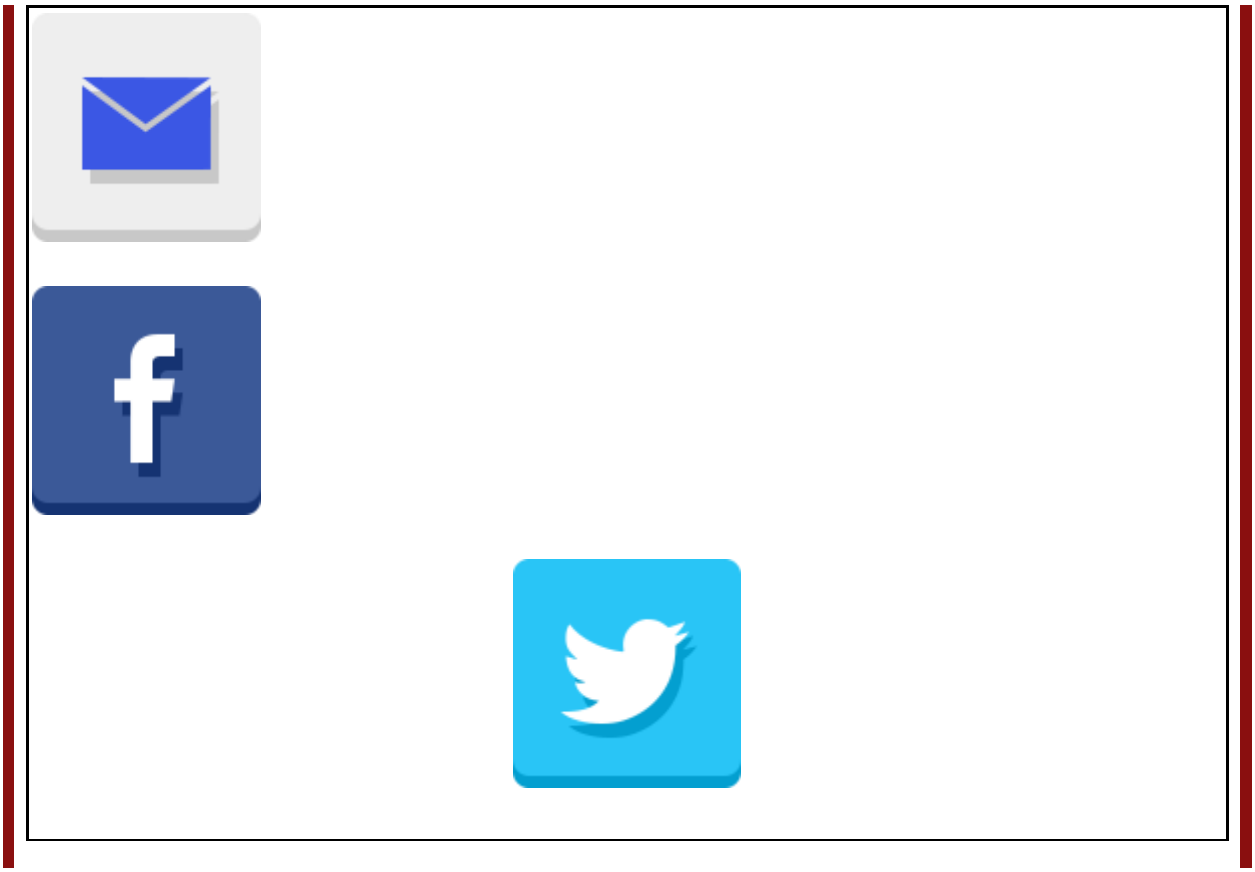
For those of you that have not have voted absentee before, **absentee voting is easy and you can do it without leaving their home.** There are 3 ways voters can request an absentee ballot. You can:

1. Go online to request an absentee ballot at myvote.wi.gov. This is the easiest method. Attached is a graphic you are welcome to use that outlines the step-by-step process for requesting an absentee ballot online – all you need is a photo of your ID to complete the request.

2. Use the US mail to request an absentee ballot. Go to https://elections.wi.gov/forms/el-121-english and print off the absentee ballot request form, fill it out, and mail it in. Voters will need to know their local clerk contact information as well as enclose a copy of their photo ID with the mail in request.

3. Request an absentee ballot by emailing or faxing their local clerk.

For mail, email, and fax requests (options 2 and 3 above), voters will need to find their municipal clerk contact information. A directory of municipal clerks can be found here. All absentee ballot requests must be made by **Thursday, April 2nd** at 5:00PM for the April 7th election.



Please note that, TODAY is the last day for online voter registration. You can also register by contacting your local municipal clerk. They can use this form to find their local clerk's contact information.

All you need to do is receive some training which you can take online and be a resident of the county where you would like to work.

- ✓ **Chief Election Inspector:** The Chief Election Inspector serves as the lead election official at a polling place. In order to become a Chief Election Inspector, you would have to take required online or in-person baseline training which lasts roughly 2 hours. Chief Election Inspectors must be residents of the town, village or city where you live (in a pinch a Chief Inspector can be from the county).

- ✓ **Greeters or Election Registration Officials:** Each polling place can have one person appointed as an official Greeter who must be a resident of the county where they wish to serve. Greeters can also help at a polling place by making sure voters are in the correct line and assist with sanitization efforts. Election Registration Officials, or EROs, must be residents of the county in which they serve and help voters with registering to vote on election day. Both greeters and EROs must take some training about the job they will be doing before election day.

If you are interested in working at the polls on April 7, 2020, find your clerk by searching using your address here: https://myvote.wi.gov/en-us/MyMunicipalClerk. Just click on their email address to send them a message with "Poll Worker Applicant" in the subject line with a few words about your interest and your contact information!

Job	Training	Training Location	Residency
Helper	None Required	N/A	None Required
Election Inspector	Some	Online or In-person	County
Chief Election Inspector	Baseline Training (@2 hrs)	Online or In-person	Town/Village/City
Greeter	Some	Online or In-person	County
ERO	Voter Registration	Online or In-person	County

Federal Stimulus Package

We are currently waiting for the non-partisan Legislative Fiscal Bureau to put together their analysis of what the Federal Stimulus Package includes and what Wisconsinites can expect. Once we have that document, I will send another update to all of you. In the meantime, if you have a specific question about the stimulus, please reach out and we will do what we can to get you an answer.

AMERICAN OVERSIGHT

For now, the National Conference of State Legislatures (NCSL) has put together a summary document that you can see here.

You can still request your absentee ballot, last day for online registration!

Absentee voting is still a great option for those that would like to vote but also want to stay home. Please use this as a great way to slow the spread and keep ourselves and poll workers safe.

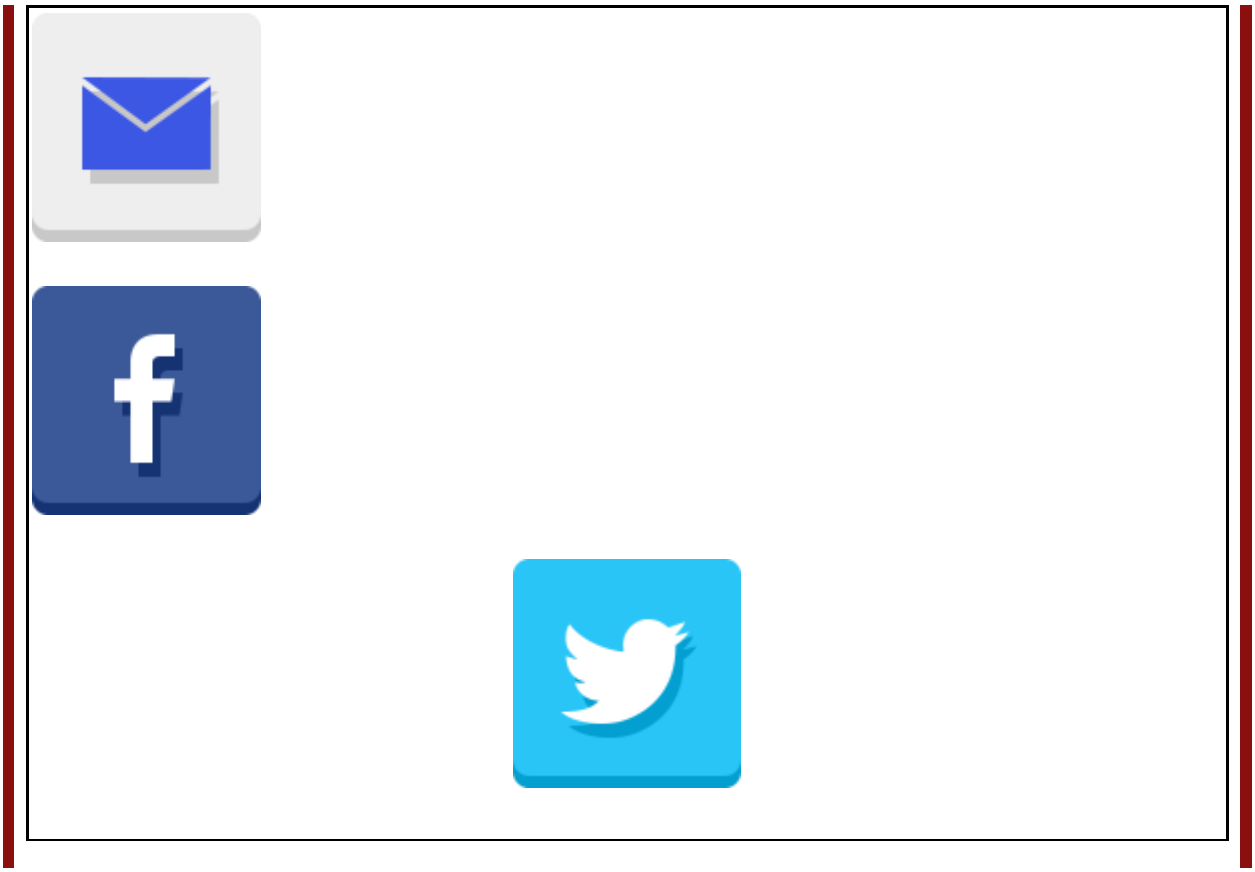
For those of you that have not have voted absentee before, **absentee voting is easy and you can do it without leaving their home.** There are 3 ways voters can request an absentee ballot. You can:

1. Go online to request an absentee ballot at myvote.wi.gov. This is the easiest method. Attached is a graphic you are welcome to use that outlines the step-by-step process for requesting an absentee ballot online – all you need is a photo of your ID to complete the request.

2. Use the US mail to request an absentee ballot. Go to https://elections.wi.gov/forms/el-121-english and print off the absentee ballot request form, fill it out, and mail it in. Voters will need to know their local clerk contact information as well as enclose a copy of their photo ID with the mail in request.

3. Request an absentee ballot by emailing or faxing their local clerk.

For mail, email, and fax requests (options 2 and 3 above), voters will need to find their municipal clerk contact information. A directory of municipal clerks can be found here. All absentee ballot requests must be made by **Thursday, April 2nd** at 5:00PM for the April 7th election.



Please note that, TODAY is the last day for online voter registration. You can also register by contacting your local municipal clerk. They can use this form to find their local clerk's contact information.

Hey Louise,

Just wanted to get back to you that Wisconsin Rest Areas are open and have not closed. They will be putting out a statement about that later today so truckers know, but WisDOT thinks this became a rumor because Pennsylvania closed their rest areas.

Thank you again for reaching out!

Mary Felzkowski

I found this on the internet..... on facebook and I am concerned about the truckers. I have been hearing things from a trucker I know.

Here is the post. Please do what you can to help truckers. Without them goods will not come in and there will be panic in our land.

*** Written by Sean, a local trucker ***

In all this craziness I want you take a minute and think about the American truck driver and pray for them as well in all this chaos! Hours of service rules have been lifted to let truck drivers run longer if hauling supplies directly impacted by covid-19. Yet the government is shutting down rest areas, truck stops are closing there bathrooms and showers. These truckers have no where to pull off to get rest, use a bathroom, or shower. Yet they are expected to do their best to deliver these products on time to make sure we have what we need and have our supplies for our bathrooms,

showers, refrigerators etc. A truck drivers life on the road has always been hard, but now it is extremely harder! But as long as they're allowed, you can bet that they will still get the job done and keep America running! Please pray! Better yet call your representatives and demand some help for our truckers. CALL YOUR REPRESENTATIVES..... regarding the truckers. Help them.(I added this last line) Louise

State Representative Mary Felzkowski

35th Assembly District

WEEKLY E-UPDATE

CORONAVIRUS UPDATE

As you no doubt have experienced, COVID-19 details and circumstances have continued to change pretty rapidly in Wisconsin and across the United States.

Please know that you are always welcome to reach out to me and my staff at any time if you have any questions and we will do our very best to get you the information you need.

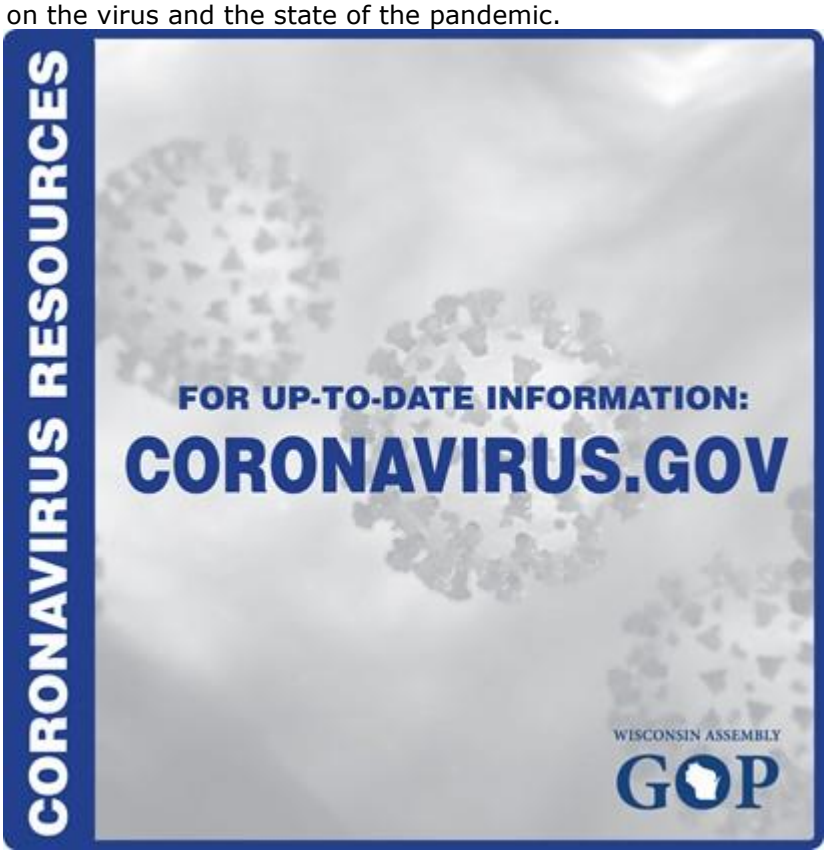
Some recent changes since my last e-update:

- * Governor Evers has banned gatherings larger than **50 people**. This does NOT apply to places like grocery stores, pharmacies, and child care centers.
- * While these gatherings are banned, K-12 schools across Wisconsin still have until EOB on Wednesday to close. Some schools have chosen to close earlier than Wednesday.

AMERICAN OVERSIGHT

- * I know many may have questions about how coronavirus will affect **unemployment insurance**. The Department of Workforce Development will keep up-to-date information here: https://dwd.wisconsin.gov/covid19/.
- * This site is a one-stop shop for the latest state news for from **all of the state departments**, including Health Services and the Department of Public Instruction. https://govstatus.egov.com/wi-covid-19.

If you need help navigating any of these sites or have follow up questions, please ask! That's what we are here for.



As details change, it is important to continue taking precautions to prevent the spread of the virus in our state.

The CDC states that the best way to prevent illness due to exposure to the virus is to limit person-to-person contact as much as possible.

Here are a couple tips to follow:

- * Wash your hands often, for at least 20 seconds
- * Stay home if you are sick
- * Cover coughs and sneezes

Please make sure to go to trusted news sources (like the ones included in this email) for information on the virus and the state of the pandemic.

Hey Jim,

Thank you for your email and the update on how things are going in Antigo. I totally understand where you are coming from. I think a major concern for yesterday was St. Patty's Day. With such a large outpouring of people into the bars to celebrate, I think there was a heightened concern about keeping people home. This is definitely less of an issue in Northern Wisconsin, so I know it can be frustrating that the whole state is being treated the same.

I totally understand where you are coming from and why you are concerned. Thank you for your email and please feel free to continue emailing your thoughts,

Subject: Re: Coronavirus Update

I ate lunch at El Tequilla restaurant in Antigo yesterday about 12:45 pm. Out of 14 tables in the north side of the dining area, only 4 tables were occupied. Normally this restaurant is nearly 100% capacity at lunch. It is evident that people who are concerned were already avoiding public places without the restaurant needing to restrict access to '10'. With no covid 19 case within 100 miles, this looks far more like a deep state socialist exercise to ban constitutional rights to free enterprise and right to peaceably assemblies.

Subject: RE: Coronavirus Update

Jim,

Thank you for your follow up. Of the cases that are positive in Wisconsin, there are now several that have contracted COVID-19 through community spread, so these are people who have no known connection to someone with COVID or anyone who has travelled. Because of that, they absolutely could have contracted it from a bar, or a dental office, or a restaurant. There is no way of knowing exactly where they contracted it. You are right that none of the cases are yet in Northern Wisconsin and I am grateful for that.

Although I do agree that we need to respond accordingly to make sure this virus does not continue to spread, I am just as concerned as you are that our response is overblown, and that the negative impact to our economy will outweigh the positives. Please know that Republicans are pushing the Governor for answers and questioning absolutely every decision he makes. At the end of the day, he has statutory authority to make every single one of the decisions he has been making.

I'm sorry, I know this is not what you want to hear. We will do everything within our power to protect Wisconsinites, both from COVID and from the economic downturn it has caused.

Mary

Jerry,
I totally understand your concern, but each of the people you mention had the option to vote at home, and were encouraged to vote from home for weeks. Everyone I talked to was encouraged to vote absentee. At risk poll workers were encouraged to stay home if they felt uncomfortable going. Absolutely no one needed to choose between voting and their health on Tuesday. I absolutely agree with you that these are trying times for every single person on this planet. Everything I heard from the polls in our area was that they were clean, run professionally, and that social distancing parameters were in place and easily followed.

Thank you.

Subject: Cosmetology online instruction

Good afternoon,

Due to the disruptions to higher education caused by the COVID-19 (Coronavirus) the Wisconsin Distance Learning Authorization Board (DLAB) is honoring the U.S. Department of Education's guidance stating that it is "providing broad approval to institutions to use online technologies to accommodate students on a temporary basis." Please see the Department's guidance in its entirety for more information.
https://ifap.ed.gov/electronic-announcements/030520Guidance4interruptionsrelated2CoronavirusCOVID19

Therefore, institutions not approved for participation in the State Authorization Reciprocity Agreement will have the ability to accommodate students using online technologies on a temporary basis with no repercussions from the DLAB. This special accommodation will remain in place until May 31, 2020 and will be reconsidered at that time to determine if an extension to that timeframe is necessary.

Additional information will be posted on the Department website later today regarding this issue.

Thank you.

Mike

Subject: Council meeting agenda

Hi Glenn,

Hope you are staying safe and getting use to our new lifestyle.
FYI, I know you received at least 3 write in votes for County Supervisor.

I have a couple concerns with some agenda items for tonight's meeting.

The concept of having a COW meeting immediately followed by a Council meeting is not really very transparent.
What's the rush?

COW agenda items 7 and 8 are a concern.
7 makes it even more difficult for taxpayers to be notified of meetings.
8 allows a non elected person, or their delegate to make decisions on who gets a license to basically be a pharmacist. It also takes it out of the hands of elected officials.

AMERICAN OVERSIGHT

Neither of these items are mentioned in the ADJ story of April 7th. The public is not informed of this.

Neither of these issues needs to be addressed during a time that taxpayers will not be allowed to attend the meeting, neither appeared on the agenda of committees in the past couple months, and neither identifies where these ideas were initiated.

I think they should both be tabled, referred to committee, and then die due to lack of taxpayer support.

On the Council agenda,

Public hearing, how is this possible when the public will not be allowed in the meeting?

explain 29-20, intent to exercise police powers?

If this meeting is really needed, how about a larger venue like the Volm Theatre so the public can attend and have social distancing?

Your thoughts?

Thanks

Terry Brand

Hi Rebekah,

That's great news! Let's make it at 'Café on Main' at 125 W. Wisconsin Ave. She'll see you there at 9:00am. If you can't find each other for some reason, her cell phone is: 715-966-3366.
We haven't received the stewardship requests from the department, but we'll let you know when we do.

Thank you and have a great weekend,

Stamena

Hey Rebekah,

Thank you for reaching out and sharing your support with our office. We are waiting for the introduction of the requests so we can review the details. I appreciate the information you attached.

AMERICAN OVERSIGHT

We'll be happy to arrange a call for you and the Representative after we have a chance to look over the valuations and speak with our JFC partners.

Additionally, we are very eager to set up a coffee meeting for you and Mary. Would Friday, March 27th at 9:00am in Tomahawk work for you? She could also meet in Rhinelander if you prefer.

Please let us know,

Subject: County Forest Knowles-Nelson Stewardship Applications - Florence County & Langlade County

Dear Representative Felzkowski,
Please see attached a letter of support for two County Forest Knowles-Nelson Stewardship applications headed to the Joint Finance Committee soon. The Wisconsin County Forests Association feels both acquisitions are worthy and essential to continuing, and ensuring, high quality forest management in Wisconsin. We are respectfully asking the Joint Finance Committee for their support as well, and wanted to dutifully give you a heads-up of these projects as well.

I would appreciate any time you may have to chat about either project. Also, please feel free to reach out to Erik Rantala of Langlade County (715-627-6300 or erantala@co.langlade.wi.us) or Patrick Smith of Florence County (715-528-3207 x1701 or psmith@co.florence.wi.us) to discuss their respective projects. In addition, attached are the maps showing the acquisitions for your information.

Thank you in advance for considering supporting these proposals. If you have any questions, please let me know.

I'd also like to see what your schedule is like in March or April to get together and have a cup of coffee. What would be the best way to get something scheduled with you?

Kind regards,
Rebekah Luedtke

Subject: RE: COVID 3.31.20 thread
Attachments: DWD Update on Unemployment Insurance Developments.eml

Crazy unemployment insurance numbers from DWD:

Initial Claims
As you are well aware, Wisconsin has experienced unprecedented numbers of UI claims filed in recent weeks. From Sunday, March 15, when we began to see the effects of Governor Evers' declared public health emergency, to yesterday, March 30, 222,271 initial claims for benefits were filed. During the same period last year, we had 12,982. For context, the 115,679 new applications filed last week was more than twice the amount than any week during the Great Recession.

Call Volume
Last week, the UI Division received more than 1.5 million calls, an increase of 6,208% over last year's *busiest* weekly call volume. Last Thursday alone, UI received 400,000 calls between 6 and 10 a.m., at times receiving 160 calls per *second*. The unprecedented number of calls overloaded the system, as it was not built to handle this type of call volume. We have since increased their phone capacity to allow 690 simultaneous calls.

AMERICAN OVERSIGHT

From Department of Ed:

TESTING WAIVERS AND STUDENT LOAN RELIEF

Today, in his daily press conference with members of the Coronavirus Task Force, President Trump announced that Secretary DeVos was taking some additional actions to support students, educators, and schools impacted by COVID-19.

First, the Secretary announced that students impacted by school closures due to the pandemic can bypass standardized testing for the 2019-20 school year. Upon a proper request, the Department will grant a waiver to any state that is unable to assess its students because of the ongoing national emergency, providing relief from federally mandated testing requirements for this school year. Many states have closed some or all schools. Therefore, any state unable to assess its students may seek a waiver from federal testing requirements by completing a form. At the Secretary's direction, the Department has dramatically streamlined the application process to make it as simple as possible for state leaders who are grappling with many complex issues.

Since student performance, as measured by assessments, is required to be used in statewide accountability systems, any state that receives a one-year waiver may also receive a waiver from the requirement that testing data be used in the statewide accountability system because of the ongoing national emergency.

Second, the Secretary announced that Federal Student Aid (FSA) is executing on the President's promise to provide student loan relief to tens of millions of borrowers during the national emergency. All borrowers with federally held student loans will automatically have their interest rates set to 0% for a period of at least 60 days. In addition, each of these borrowers will have the option to suspend their payments for at least two months to allow them greater flexibility during the national emergency. This will allow borrowers to temporarily stop their payments without worrying about accruing interest.

The Secretary has also directed all federal student loan servicers to grant an administrative forbearance to any borrower with a federally held loan who requests one. The forbearance will be in effect for a period of at least 60 days, beginning on March 13, 2020. To request this forbearance, borrowers should contact their loan servicer online or by phone.

And, the Secretary has authorized an automatic suspension of payments for any borrower more than 31 days delinquent as of March 13, 2020, or who becomes more than 31 days delinquent, essentially giving borrowers a safety net during the national emergency.

Some borrowers may want to continue making payments, like those seeking Public Service Loan Forgiveness (PSLF) or those enrolled in a repayment plan with a manageable monthly payment. For borrowers continuing to make payments, the full amount of their payment will be applied to the principal amount of their loan once all interest accrued prior to March 13, 2020, is paid. The Department is working closely with Congress to ensure all student borrowers, including those in income-driven repayment plans, receive needed support at this time.

A borrower who has experienced a change in income can always contact their loan servicer to discuss lowering their monthly payment.

This is something I got from DWD in response to an issue I had – probably worth sharing widely. It's about fields that are looking for emergency employees (long-term care in our case, with kitchens, laundry, maintenance, etc. being critically understaffed). Meant to be a resource for people in immediate need of temporary work.

AMERICAN OVERSIGHT

Good morning. Just to give you a heads up. We are putting up a new banner on the Job Center of WI website which will highlight this issue, that is, the in-demand employers/industries needing those who are being laid off from other industries. When job seekers click on it, it will take them directly to those jobs available. We will be putting out a press release and sharing widely through social media, the chambers, etc., But when you see that, please send that out far and wide.
Thanks.
John

Subject: COVID-19 - Safer in Place

Good morning,

I wanted to make sure everyone saw the Governor's announcement about his plan to issue a "Safer at Home" order tomorrow: https://twitter.com/GovEvers/status/1242097501575901187

The Governor will be issuing the order tomorrow, including details of implementation and effective date as we work with our public health experts, businesses large and small, and local communities to protect as many people as we can. Today's announcement is intended to give people the opportunity to plan and prepare while reminding people that everyone is safer at home.

I would encourage everyone to tune into the 1:30pm DHS press briefing, where the Governor will be speaking to this as well. Here are the details so you can tune in:

- * Video: https://youtu.be/XmXeGrPuyu0
- * Audio: https://wiseye.org/

As we have been, when this order is issued I will be sending it to the legislature and our office will continue to provide additional information and FAQs.

Thanks,
ZM

Subject: RE: COVID-19 Emergency Orders

Good morning,

AMERICAN OVERSIGHT

Attached is Emergency Order #12. This is the "Safer at Home" order the Governor announced yesterday. These are important steps to ensure we are working to slow the spread of COVID-19, and we all need to do our part and work together to protect each other. The Governor did not take this decision lightly, but it is a necessary step in our response to COVID-19.

Individuals do not need special permission to leave their homes, but they must comply with this Order as to when it is permissible to leave home. Similarly, if a business is an Essential Business or Operation as defined in this order, it does not need documentation or certification to continue its work that is done in compliance with this Order.

It is important for legislative offices and businesses to read the order before asking questions. The order contains detailed information regarding the exemptions that will be helpful for answering questions. After reviewing the order if a business still has a question or is not exempted but believes their business is doing essential work, WEDC will be reviewing those cases. Folks can visit https://wedc.org/essentialbusiness for more information.

As always, if you need additional information or have questions please feel free to call or email me.

Thanks,
ZM

Attached is emergency order 10 regarding to the suspension of rules relating to DPI and emergency order 11 regarding the suspension of rules relating to PSC.

Emergency order 10

- * Ensures the DPI will be able to streamline the waiver process for hours of instruction for public schools;
- * Suspends the PI 34 requirements to allow students in teacher preparation programs to graduate on time this spring;
- * Provide the DPI with flexibility in light of upcoming due dates.

Emergency order 11

- * Stops utility disconnection for nonpayment for all customers, including commercial, industrial, and farm accounts. Previously this applied to residential accounts only;
- * Ceases the assessing of late fees to customer accounts;
- * Halts the practice of requiring deposits from customers for reconnection of service;
- * Allows deferred payment agreements for all customers who request them;
- * Removes any administrative barriers for customers establishing or reestablishing utility service; and
- * Authorizes water utilities to provide budget billing arrangements to customers. Electric and natural gas utilities are allowed to do this under current rules.

Subject: RE: COVID-19 Emergency Orders

Good afternoon,

Attached is emergency order #8, this updated order maintains the ban on gatherings of 10 or more people and indefinite school closures, but includes some important changes and clarifications:

- * Treats bars and restaurants are the same. Bars will be able to have carryout sales of alcohol and food, if allowed by local ordinances and state law. This will help ensure thousands of establishments can stay in business during this unprecedented health emergency.
- * Media and news organizations can remain open to provide the public with vital information.
- * Laundromats may remain open.
- * Banks, credit unions, and other financial institutions may remain open if they practice social distancing.
- * All parts of the food delivery system – from farms to stores – may remain open.

AMERICAN OVERSIGHT

- * Clarifies that cafeterias in healthcare facilities may remain open to serve our healthcare workers.
- * Allied health professions, such as acupuncturists, are unaffected by the mass gathering ban.
- * All parts of our transportation system can continue to serve our economy.
- * Any facility used for in-person absentee voting or as a polling location may remain open for voting, except for sites at long-term care and assisted care facilities.
- * Hair salons, day spas, nail salons, barber shops, tattoo parlors, body art establishments, and tanning facilities must close effective 5 pm on Fri., March 20, 2020.

All gatherings that bring together or are likely to bring together 10 or less people in a single room or confined space, whether inside or outside, at the same time must preserve social distancing and follow all other public health recommendations issued by DHS or the Centers for Disease Control and Prevention (CDC). Voluntary cancellation, closure, or limitations on the size of gatherings beyond the requirements of this order are permitted and encouraged.
